A. The Department of Planning and Budget shall be responsible for continued development and coordination of an integrated, systematic policy analysis, planning, budgeting, performance measurement and evaluation process within state government. The department shall collaborate with the Governor's Secretaries and all other agencies of state government and other entities as necessary to ensure that information generated from these processes is useful for managing and improving the efficiency and effectiveness of state government operations.

B. The Department of Planning and Budget shall be responsible for the continued development and coordination of a review process for strategic plans and performance measures of the state agencies. The review process shall assess on a periodic basis the structure and content of the plans and performance measures, the processes used to develop and implement the plans and measures, the degree to which agencies achieve intended goals and results, and the relation between intended and actual results and budget requirements.

C.1. Notwithstanding § 2.2-1508, Code of Virginia, or any other provisions of law, on or before December 20, the Department of Planning and Budget shall deliver to the presiding officer of each house of the General Assembly a copy of the budget document containing the explanation of the Governor's budget recommendations. This copy may be in electronic format.

2. The Department of Planning and Budget shall include in the budget document the amount of projected spending and projected net tax-supported state debt for each year of the biennium on a per capita basis. For this purpose, "spending" is defined as total appropriations from all funds for the cited fiscal years as shown in the Budget Bill. The most current population estimates from the Weldon Cooper Center for Public Services shall be used to make the calculations.

D.1. Out of this appropriation, \$200,000 the first year and \$200,000 the second year from the general fund is provided to support the continuation of the school efficiency reviews program. Any school division undergoing an efficiency review shall provide a report to the Department of Planning and Budget indicating what action has been taken on each recommendation identified in the efficiency review along with any budget savings realized for each recommendation. The report shall also include a schedule for implementation of the remaining recommendations not implemented to date. The Department of Planning and Budget shall forward copies of the reports to the Chairmen of the House Appropriations, House Finance, and Senate Finance Committees within 30 days of receiving such reports. The first report shall be made within six months following the receipt of the final efficiency review, and subsequent follow-up reports shall be submitted annually by June 30 until 100 percent of the recommendations have been implemented or rationale reported that explain and address the division's lack of such implementation. The Department of Planning and Budget shall provide the format for such report that shall include budget savings realized for each recommendation implemented.

2.a. Notwithstanding any contrary provision of law, each participating school division shall pay a local share of the cost incurred by the state for that school division's efficiency review to be conducted. The local share of cost for the review shall be computed using the composite index of local ability-to-pay for each participating school division, however, such share shall not be less than 50 percent of the total cost. However, consistent with language and intent contained in Item 131, any school division that elects to participate in a school efficiency review as a component unit of a division level academic review shall be exempt from the local share of the costs of the review but will not be exempt from paying a recovery cost of 25 percent if the school division does not initiate at least 50 percent of the review's recommendations within 24 months of receiving their final school efficiency review report.

b. Effective for all reviews after July 1, 2013, the local share payment shall be made prior to the initiation of the review and shall be based upon the contracted price for the review. All subsequent payments to recover the local share of the balance of the cost of the review shall be made in the fiscal year immediately following the completion of the final school efficiency review report. The cost shall include the direct cost incurred by the state for that fiscal year to coordinate the school efficiency review and 100 percent of the costs awarded to the contractor(s) to conduct that school division's review.

3. Additionally, commencing in FY 2007, a recovery of a separate and additional 25 percent payment not to exceed 100 percent of the cost of individual reviews shall be made in the fiscal year beginning not less than 12 months and not more than 24 months following the release of a final efficiency review report for an individual school division. Such recovery shall occur if the affected school division superintendent or superintendent's designee has not certified that at least half the recommendations have been initiated or at least half of the equivalent savings of such efficiency review have been realized. Lacking such certification the school division shall reimburse the state for an additional 25 percent of the cost, not to exceed 100 percent of the cost, of the school efficiency review. Such reimbursement shall be paid into the general fund of the state treasury. The Department of Planning and Budget shall provide the format for such certification.

Notwithstanding any contrary provision of law, commencing in FY 2014, any school division may also request the Department of Planning and Budget to coordinate a school efficiency review for the division, including but not limited to the selection of the contractor to conduct that school division's review, by entering into an agreement with the Department of Planning and Budget to participate in a locally-funded school efficiency review. Each participating school division shall pay 100 percent of the cost of the review. Any division that elects to participate in a locally-funded school efficiency review shall not be subject to the availability of state general fund appropriation provided in paragraph D.1 above; however, the number of divisions that could make use of this provision is limited to the amount of nongeneral fund appropriation provided for this purpose in this paragraph. A nongeneral fund appropriation of \$300,000 the first year and \$300,000 the second year is provided for use by the Department of Planning and Budget to facilitate the collection of payments from school divisions for the purposes of this item.

b. Payment shall be made in full from the participating school division to the Department of Planning and Budget following successful award of the contract to conduct the review. Under no circumstances shall state general fund appropriation be used to pay the costs of contracts awarded for a locally-funded school efficiency review under the provisions of paragraph D.4.a above.

6. Notwithstanding § 32.1-331.12 et seq., Code of Virginia, to implement these changes, the Department of Medical Assistance Services shall promulgate emergency regulations to become effective within 280 days or less from the enactment of this act. With respect to such state plan amendments and regulations, the provisions of § 32.1-331.12 et seq., Code of Virginia, shall not apply. In addition, the department shall work with the Department of Behavioral Health and Development Services to consider utilizing a Preferred Drug List program for its non-Medicaid clients.

For individuals 18 years of age and younger who are prescribed three or more behavioral health drugs, the department may implement clinical edits that target inefficient, ineffective, or potentially harmful prescribing patterns in accordance with FDA-approved indications and dosage levels.

8. The Department of Medical Assistance Services shall ensure that in the process of developing the Preferred Drug List, the Pharmacy and Therapeutics Committee considers the value of including those prescription medications which improve drug regimen compliance, reduce medication errors, or decrease medication abuse through the use of medication delivery systems that include, but are not limited to, transdermal and injectable delivery systems.

S.1. The Department of Medical Assistance Services may amend the State Plan for Medical Assistance Services to modify the delivery system of pharmaceutical products to include a specialty drug program. 2. The Department of Medical Assistance Services shall retain five percent of the Federal Financial Participation for reimbursement to school divisions for medical and transportation services.				
U. In the event that the Department of Medical Assistance Services decides to contract for pharmaceutical benefit management services to administer, develop, manage, or implement Medicaid pharmacy benefits, the department shall establish the fee paid to any such contractor based on the reasonable cost of services provided. The department may not offer or pay directly or indirectly any material inducement, bonus, or other financial incentive to a program contractor based on the denial or administrative delay of medically appropriate prescription drug therapy, or on the decreased use of a particular drug or class of drugs, or a reduction in the proportion of beneficiaries who receive prescription drug therapy under the Medicaid program. Bonuses cannot be based on the percentage of cost savings generated under the benefit management of services.				
V. The Department of Medical Assistance Services, in cooperation with the Department of Social Services' Division of Child Support Enforcement (DSCE), shall identify and report third party coverage where a medical support order has required a custodial or noncustodial parent to enroll a child in a health insurance plan. The department shall have authority to promulgate regulations to implement this change within 280 days or less from the enactment of this act.

JJJ. The Department of Medical Assistance Services shall amend the State Plan for Medical Assistance to allow for delivery of notices of program reimbursement or other items referred to in the regulations related to provider appeals by electronic means consistent with the Uniform Electronic Transactions Act. The new price-based payment methodology shall be implemented in a budget neutral manner.

1. The department shall calculate prospective operating rates for direct and indirect costs in the following manner:

a. The department shall calculate the cost per day in the base year for direct and indirect operating costs for each nursing facility. The department shall use existing definitions of direct and indirect costs.

ITEM 301.	Item Details(\$)		Appropriations(\$)	
	First Year FY2015	Second Year FY2016	First Year FY2015	Second Year FY2016
b.	The initial base year for calculating the cost per day is cost reports ending in calendar year 2011. The department shall rebase prices in fiscal year 2018 and every three years thereafter using the most recent reliable calendar year cost-settled cost reports for freestanding nursing facilities that have been completed as of September 1.			
c.	Each nursing facility's direct cost per day shall be neutralized by dividing the direct cost per day by the raw Medicaid facility case-mix that corresponds to the base year by facility.			
d.	Costs per day shall be inflated to the midpoint of the fiscal year rate period using the moving average Virginia Nursing Home inflation index for the 4th quarter of each year (the midpoint of the fiscal year). Costs in the 2011 base year shall be inflated from the midpoint of the cost report year to the midpoint of fiscal year 2012 by pro-rating fiscal year 2012 inflation and annual inflation after that. Annual inflation adjustments shall be based on the last available report prior to the beginning of the fiscal year and corrected for any revisions to prior year inflation.			
e.	Prices will be established for the following peer groups using a combination of Medicare wage regions and Medicaid rural and bed size modifications based on similar costs.			
	1) Direct Peer groups			
	- Northern Virginia MSA			
	- Other MSAs			
	- Northern Rural			
	- Southern Rural			
	2) Indirect Peer Groups			
	- Northern Virginia MSA			
	- Rest of State - Greater than 60 Beds			
	- Other MSAs			
	- Northern Rural			
	- Southern Rural			
	- Rest of State - 60 Beds or Less			
f.	The price for each peer group shall be based on the following adjustment factors:			
	1) Direct - 105 percent of the peer group day-weighted median neutralized and inflated cost per day for freestanding nursing facilities.			
	2) Indirect - 100.7 percent of the peer group day-weighted median inflated cost per day for freestanding nursing facilities.			
g.	Facilities with costs projected to the rate year below 95 percent of the price shall have an adjusted price equal to the price minus the difference between their cost and 95 percent of the unadjusted price. Adjusted prices will be established at each rebasing. New facilities after the base year shall not have an adjusted price until the next rebasing. The "spending floor" limits the potential gain of low cost facilities, thereby making it possible to implement higher adjustment factors for other facilities at less cost.			
h.	Individual claim payment for direct costs shall be based on each resident's Resource Utilization Group (RUG) during the service period times the facility direct price (similar to Medicare).			

ITEM 301.	Item Details(\$)		Appropriations(\$)	
	First Year FY2015	Second Year FY2016	First Year FY2015	Second Year FY2016

i. Resource Utilization Group (RUG) is a resident classification system that groups nursing facility residents according to resource utilization and assigns weights related to the resource utilization for each classification. The department shall use RUGS to determine facility case mix for cost neutralization in determining the direct costs used in setting the price and for adjusting the claim payments for residents. The department may elect to transition from the RUG-III 34 Medicaid grouper to the RUG-IV 48 grouper in the following manner.

1) The department shall neutralize direct costs per day in the base year using the most current RUG grouper applicable to the base year.

2) The department shall utilize RUG-III 34 groups and weights in fiscal year 2015 for claim payments.

3) Beginning in fiscal year 2016, the department may elect to implement RUG-IV 48 Medicaid groups and weights for claim payments.

4) RUG-IV 48 weights used for claim payments will be normalized to RUG-III 34 weights as long as base year costs are neutralized by the RUG-III 34 group. In that the weights are not the same under RUG IV as under RUG III, normalization will insure that total payments in direct using the RUGs IV 48 weights will be the same as total payments in direct using the RUGs-III 34 grouper.

j. The department shall transition to the price-based methodology over a period of four years, blending the price-based rate described here with the cost-based rate based on current law with the following adjustments. The facility cost-based operating rates shall be the direct and indirect rates for fiscal year 2015 based on facility case-mix neutral rates modeled after the law that would have been in effect in fiscal year 2015 absent this amendment and using base year data from calendar year 2011 inflated to the rate year. Based on a four-year transition, the rate will be based on the following blend:

1) Fiscal year 2015 - 25 percent of the price-based rate and 75 percent of the cost-based rate.

2) Fiscal year 2016 - 50 percent of the price-based rate and 50 percent of the cost-based rate.

3) Fiscal year 2017 - 75 percent of the price-based rate and 25 percent of the cost-based rate.

4) Fiscal year 2018 - 100 percent of the price-based (fully implemented).

During the first transition year for the period July 1, 2014 through October 31, 2014, DMAS shall case-mix adjust each direct cost component of the rates using the average facility case-mix from the two most recent finalized quarters (September and December 2013) instead of adjusting this component claim by claim.

Cost-based rates to be used in the transition for facilities without cost data in the base year but placed in service prior to July 1, 2013 shall be determined based on the most recently settled cost data. If there is no settled cost report at the beginning of a fiscal year, then 100 percent of the price-based rate shall be used for that fiscal year. Facilities placed in service after June 30, 2013 shall be paid 100 percent of the price-based rate.

2. Prospective capital rates shall be calculated in the following manner.

a. To ensure, to the extent feasible, a smooth transition from public coverage, DMAS shall endeavor to phase out such coverage for existing enrollees once subsidized private insurance is available through a Health Benefits Exchange in Virginia. The department shall implement any necessary changes upon federal approval and prior to the completion of any regulatory process undertaken in order to effect such change.

In addition, the report shall include documentation of the past year's audits, a summary of the number of audits to which retractions were assessed and the total amount, the number of appeals received and the results of appeals. The report shall be provided to the Chairmen of the House Appropriations and Senate Finance Committees by December 1 of each year.

QQQ. The Department of Medical Assistance Services shall amend the State Plan for Medical Assistance to calculate an indirect medical education (IME) factor for Virginia freestanding children's hospitals with greater than 50 percent Medicaid utilization in 2009. Total payments for IME in combination with other payments for freestanding children's hospitals with greater than 50 percent Medicaid utilization in 2009 may not exceed the federal uncompensated care cost limit that disproportionate share hospital payments are subject to. The department shall have the authority to implement these reimbursement changes effective July 1, 2013, and prior to completion of any regulatory process undertaken in order to effect such change.

RRR. The Department of Medical Assistance Services shall realign the billable activities paid for individual supported employment provided under the Medicaid home- and community-based waivers to be consistent with job development and job placement services provided through employment services organizations that are reimbursed by the Department for Aging and Rehabilitative Services. The department shall have the authority to implement this reimbursement change effective July 1, 2013, and prior to the completion of any regulatory process undertaken in order to effect such change.

SSS. Effective July 1, 2013, the Department of Medical Assistance Services shall take the steps necessary to amend the Intellectual Disability Waiver and the Individual and Family Developmental Disabilities Support Waiver to change the unit of service for skilled and private duty nursing from the current one hour to one-quarter of an hour. The department shall implement this change using a methodology that is budget neutral.

TTT.1. The Department of Medical Assistance Services shall seek federal authority through any necessary waiver(s) and/or State Plan authorization under Titles XIX and XXI of the Social Security Act to implement a comprehensive value-driven, market-based reform of the Virginia Medicaid/FAMIS programs. 3. In the second phase of reform, the Department of Medical Assistance Services shall implement value-based purchasing reforms for all recipients subject to a Modified Adjusted Gross Income (MAGI) methodology for program eligibility and any other recipient categories not excluded from the Medallion II managed care program. Such reforms shall, at a minimum, include the following: (i) the services and benefits provided are the types of services and benefits provided by commercial insurers and may include appropriate and reasonable limits on services such as occupational, physical, and speech therapy, and home care with the exception of non-traditional behavioral health and substance use disorder services; (ii) reasonable limitations on non-essential benefits such as non-emergency transportation are implemented; and (iii) patient responsibility is required including reasonable cost-sharing and active patient participation in health and wellness activities to improve health and control costs.

To administer this reformed delivery model, the department is authorized to contract with qualified health plans to offer recipients a Medicaid benefit package adhering to these principles. Any coordination of non-traditional behavioral health services covered under contract with qualified health plans or through other means shall adhere to the principles outlined in paragraph OO. c. This reformed service delivery model shall be mandatory, to the extent allowed under the relevant authority granted by the federal government and shall, at a minimum, include (i) limited high-performing provider networks and medical/health homes; (ii) financial incentives for high quality outcomes and alternative payment methods; (iii) improvements to encounter data submission, reporting, and oversight; (iv) standardization of administrative and other processes for providers; and (v) support of the health information exchange.

The second phase of reform shall also include administrative simplification of the Medicaid program through any necessary waiver(s) and/or State Plan authorization under Titles XIX and XXI of the Social Security Act and outline agreed upon parameters and metrics to provide maximum flexibility and expedited ability to develop and implement pilot programs to test innovative models that (i) leverage innovations and variations in regional delivery systems; (ii) link payment and reimbursement to quality and cost containment outcomes; or (iii) encourage innovations that improve service quality and yield cost savings to the Commonwealth. Upon federal approval, the department shall have authority to implement such pilot programs prior to the completion of the regulatory process.

4. In the third phase of reform, the Department of Medical Assistance Services shall seek reforms to include all remaining Medicaid populations and services, including long-term care and home- and community-based waiver services into cost-effective, managed and coordinated delivery systems. The department shall begin designing the process and obtaining federal authority to transition all remaining Medicaid beneficiaries into a coordinated delivery system.

5. The Department of Medical Assistance Services shall provide a report to the Medicaid Innovation and Reform Commission on the specific waiver and/or State Plan changes that have been approved and status of implementing such changes, and associated cost savings or cost avoidance to Medicaid/FAMIS expenditures.

**I VETO THIS ITEM WHICH IS UNCONSTITUTIONAL. /s/ Terence R. McAuliffe (6/21/14) (Vetoed item is enclosed in brackets.)**

6.a. The Department shall seek the approval of the Medicaid Innovation and Reform Commission to amend the State Plan for Medicaid Assistance under Title XIX of the Social Security Act, and any waivers thereof, to implement coverage for newly eligible individuals pursuant to 42 U.S.C. § 1396d(y)(1)[2010] of the Patient Protection and Affordable Care Act. If the Medicaid Innovation and Reform Commission determines that the conditions in paragraphs 2, 3, 4, and 5 have been met, then the Commission shall approve implementation of coverage for newly eligible individuals pursuant to 42 U.S.C. § 1396d(y)(1)[2010] of the Patient Protection and Affordable Care Act.

b. Upon approval by the Medicaid Innovation and Reform Commission, the department shall implement the provisions in paragraph 6.a. of this item by July 1, 2014, or as soon as feasible thereafter.

7.a. Contingent upon the expansion of eligibility in paragraph 6.a., there is hereby created in the state treasury a special nonreverting fund to be known as the Virginia Health Reform and Innovation Fund, hereafter referred to as the "Fund." The Fund shall be established on the books of the Comptroller and any moneys remaining in the Fund at the end of each fiscal year

shall not revert to the general fund but shall remain in the Fund. For purposes of the Comptroller's preliminary and final annual reports required by § 2.2-813, however, all deposits to and disbursements from the Fund shall be accounted for as part of the general fund of the state treasury.

b. The Director of the Department of Medical Assistance Services, in consultation with the Director of the Department of Planning and Budget, shall annually identify projected general fund savings attributable to enrollment of newly eligible individuals included in 42 U.S.C. § 1396d(y)(1)[2010] of the PPACA, including behavioral health services, inmate health care, and indigent care. Beginning with development of the fiscal year 2015 budget, these projected savings shall be reflected in reduced appropriations to the affected agencies and the amounts deposited into the Fund net of any appropriation increases necessary to meet resulting programmatic requirements of the Department of Medical Assistance Services. Beginning in fiscal year 2015, funding to support health innovations described in Paragraph 3 shall be appropriated from the Fund not to exceed \$3.5 million annually. Funding shall be distributed through health innovation grants to private and public entities in order to reduce the annual rate of growth in health care spending or improve the delivery of health care in the Commonwealth. When the department, in consultation with the Department of Planning and Budget, determines that the general fund expenses incurred from coverage of newly eligible individuals included in 42 U.S.C. § 1396d(y)(1)[2010] of the PPACA exceed any associated savings, a percentage of the principle of the Fund as determined necessary by the department and the Department of Planning and Budget to cover the cost of the newly eligible population shall be reallocated to the general fund and appropriated to the department to offset the cost of this population. Principle shall be allocated on an annual basis for as long as funding is available.

8. In the event that the increased federal medical assistance percentages for newly eligible individuals included in 42 U.S.C. § 1396d(y)(1)[2010] of the PPACA is modified through federal law or regulation from the methodology in effect on January 1, 2014, resulting in a reduction in federal medical assistance as determined by the department in consultation with the Department of Planning and Budget, the Department of Medical Assistance Services shall disenroll and eliminate coverage for individuals who obtained coverage through 42 U.S.C. § 1396d(y)(1) [2010] of the PPACA. The disenrollment process shall include written notification to affected Medicaid beneficiaries, Medicaid managed care plans, and other providers that coverage will cease as soon as allowable under federal law from the date the department is notified of a reduction in Federal Medical Assistance Percentage.

9. That notwithstanding any other provision of this act, or any other law, no general or nongeneral funds shall be appropriated or expended for such costs as may be incurred to implement coverage for newly eligible individuals pursuant to 42 U.S.C. § 1396d(y)(1)[2010] of the Patient Protection and Affordable Care Act, unless included in an appropriation bill adopted by the General Assembly on or after July 1, 2014.

UUU.1. The Director of the Department of Medical Assistance Services shall continue to make improvements in the provision of health and long-term care services under Medicaid/FAMIS that are consistent with evidence-based practices and delivered in a cost effective manner to eligible individuals.

2. In order to effect such improvements and ensure that reform efforts are cost effective relative to current forecasted Medicaid/FAMIS expenditure levels, the Department of Medical Assistance Services shall (i) develop a five-year consensus forecast of expenditures and savings associated with the Virginia Medicaid/FAMIS reform efforts by November 15 of each year in conjunction with the Department of Planning and Budget, and with input from the House Appropriations and Senate Finance Committees, and (ii) engage stakeholder involvement in meeting annual targets for quality and cost-effectiveness.

VVV. Effective July 1, 2014, the Department of Medical Assistance Services shall replace the AP-DRG grouper with the APR-DRG grouper for hospital inpatient reimbursement. The department shall develop budget neutral case rates and Virginia-specific weights for the APR-DRG grouper based on the FY 2011 base year. The department shall phase in the APR-DRG weights by blending in 50 percent of the full APR-DRG weights with 50 percent of FY 2014 AP-DRG weights in the first year and 75 percent of the full APR-DRG weights with 25 percent of the FY 2014 AP-DRG weights in the second year for each APR-DRG group and severity. FY 2014 AP-DRG weights shall be calculated as a weighted average FY 2014 AP-DRG weight for all claims in the base year that group to each APR-DRG group and

severity. Full APR-DRG weights shall be used in the third year and succeeding years for each APR-DRG group and severity. The department shall have the authority to implement these reimbursement changes effective July 1, 2014, and prior to completion of any regulatory process in order to effect such changes.

WWW.1. Effective July 1, 2014, the Department of Medical Assistance Services shall replace the current Disproportionate Share Hospital (DSH) methodology with the following methodology:

a) DSH eligible hospitals must have a total Medicaid Inpatient Utilization Rate equal to 14 percent or higher in the base year using Medicaid days eligible for Medicare DSH or a Low Income Utilization Rate in excess of 25 percent and meet other federal requirements. Eligibility for out of state cost reporting hospitals shall be based on total Medicaid utilization or on total Medicaid NICU utilization equal to 14 percent or higher.

b) Each hospital's DSH payment shall be equal to the DSH per diem multiplied by each hospital's eligible DSH days in a base year. Days reported in provider fiscal years in state FY 2011 will be the base year for FY 2015 prospective DSH payments. DSH will be recalculated annually with an updated base year. DSH payments are subject to applicable federal limits.

c) Eligible DSH days are the sum of all Medicaid inpatient acute, psychiatric and rehabilitation days above 14 percent for each DSH hospital subject to special rules for out of state cost reporting hospitals. Eligible DSH days for out of state cost reporting hospitals shall be the higher of the number of eligible days based on the calculation in the first sentence times Virginia Medicaid utilization (Virginia Medicaid days as a percent of total Medicaid days) or the Medicaid NICU days above 14 percent times Virginia NICU Medicaid utilization (Virginia NICU Medicaid days as a percent of total NICU Medicaid days). Eligible DSH days for out of state cost reporting hospitals who qualify for DSH but who have less than 12 percent Virginia Medicaid utilization shall be 50 percent of the days that would have otherwise been eligible DSH days.

d) Additional eligible DSH days are days that exceed 28 percent Medicaid utilization for Virginia Type Two hospitals (excluding Children's Hospital of the Kings Daughters).

e) The DSH per diem shall be calculated in the following manner:

a. The DSH per diem for Type Two hospitals is calculated by dividing the total Type Two DSH allocation by the sum of eligible DSH days for all Type Two DSH hospitals. For purposes of DSH, Type Two hospitals do not include Children's Hospital of the Kings Daughters (CHKD) or any hospital whose reimbursement exceeds its federal uncompensated care cost limit. The Type Two Hospital DSH allocation shall equal the amount of DSH paid to Type Two hospitals in state FY 2014 increased annually by the percent change in the federal allotment, including any reductions as a result of the Affordable Care Act, adjusted for the state fiscal year.

b. The DSH per diem for State Inpatient Psychiatric Hospitals is calculated by dividing the total State Inpatient Psychiatric Hospital DSH allocation by the sum of eligible DSH days. The State Inpatient Psychiatric Hospital DSH allocation shall equal the amount of DSH paid in state FY 2013 increased annually by the percent change in the federal allotment, including any reductions as a result of the Affordable Care Act, adjusted for the state fiscal year.

c. The DSH per diem for CHKD shall be three times the DSH per diem for Type Two hospitals.

d. The DSH per diem for Type One hospitals shall be 17 times the DSH per diem for Type Two hospitals.

2. Each year, the department shall determine how much Type Two DSH has been reduced as a result of the Affordable Care Act and adjust the percent of cost reimbursed for outpatient hospital reimbursement.

3. The department shall convene the Hospital Payment Policy Advisory Council at least once a year to consider additional changes to the DSH methodology.

There is hereby appropriated sum-sufficient nongeneral funds for the Department of Medical Assistance Services (DMAS) to pay the state share of supplemental payments for qualifying private hospital partners of Type One hospitals (consisting of state-owned teaching hospitals) as provided in the State Plan for Medical Assistance Services. The supplemental payments shall be based upon the reimbursement methodology established for such payments in Attachments 4.19-A and 4.19-B of the State Plan for Medical Assistance Services. DMAS shall enter into a transfer agreement with any Type One hospital whose private hospital partner qualifies for such supplemental payments, under which the Type One hospital shall provide the state share in order to match federal Medicaid funds for the

There is hereby appropriated sum-sufficient funds for DMAS to pay the state share of the supplemental Medicaid payment hereunder. However, DMAS shall not submit such State Plan amendment to CMS until it has entered into an intergovernmental agreement with eligible local government-owned nursing homes or the local government itself which requires them to transfer funds to DMAS for use as the state share for the supplemental Medicaid payment each nursing home is entitled to and to represent that each has the authority to transfer funds to DMAS and that the funds used will comply with federal law for use as the state share for the supplemental Medicaid payment. If a local government-owned nursing home or the local government itself is unable to comply with the intergovernmental agreement, DMAS shall have the authority to modify the State Plan. A. The Department of Social Services shall require localities to report all expenditures on designated social services, regardless of reimbursement from state and federal sources. The Department of Social Services is authorized to include eligible costs in its claim for Temporary Assistance for Needy Families Maintenance of Effort requirements.

B. It is the intent of the General Assembly that the Commissioner, Department of Social Services shall work with localities that seek to voluntarily merge and consolidate their respective local departments of social services. No funds appropriated under this act shall be used to require a locality to merge or consolidate local departments of social services.

C. The Commissioner, Department of Social Services, in consultation with relevant state and local agencies, shall develop proposed criteria for assessing funding requests for addressing space needs among local departments of social services, as well as proposed consolidated human services buildings. The criteria shall include but not be limited to compliance with the Americans with Disabilities Act, access to public transportation, life safety issues, condition of current space and related major building systems, impact on service delivery, and other factors as may be appropriate. The department shall use the criteria to prioritize local requests for increased state reimbursement for renovating existing space, relocating or constructing new space. For those jurisdictions that, when applying such criteria, achieve high priority ranking for increased state reimbursement, yet initiate local funding actions to address critical space needs or to consolidate human services, they shall nevertheless retain their ranking on the prioritized list of projects for increased state reimbursement for renovating existing space,

relocating or constructing new space. The department shall forward a prioritized list of projects to the Secretary of Health and Human Resources and the Department of Planning and Budget by November 1 of each year for consideration by the Governor in the development of the budget. The department shall also submit a copy of the list of prioritized projects by November 1 of each year, to the Chairmen of the House Appropriations and Senate Finance Committees.

D.1. Out of this appropriation, \$473,844 the first year and \$473,844 the second year from the general fund and \$781,791 the first year and \$781,791 the second year from nongeneral funds shall be provided to support the statewide 2-1-1 Information and Referral System which provides resource and referral information on many of the specialized health and human resource services available in the Commonwealth, including child day care availability and providers in localities throughout the state, and publish consumer-oriented materials for those interested in learning the location of child day care providers.

2. The Department of Social Services shall request that all state and local child-serving agencies within the Commonwealth be included in the Virginia Statewide Information and Referral System as well as any agency or entity that receives state general fund dollars and provides services to families and youth. The Secretary of Health and Human Resources, the Secretary of Education and Workforce, and the Secretary of Public Safety shall assist in this effort by requesting all affected agencies within their secretariats to submit information to the statewide Information and Referral System and ensure that such information is accurate and updated annually. Agencies shall also notify the Virginia Information and Referral System of any changes in services that may occur throughout the year.

3. The Department of Social Services shall communicate with child-serving agencies within the Commonwealth about the availability of the statewide Information and Referral System. This information shall also be communicated via the Department of Social Services' broadcast system on their agency-wide Intranet so that all local and regional offices can be better informed about the Statewide Information and Referral System. Information on the Statewide Information and Referral System shall also be included within the department's electronic mailings to all local and regional offices at least biannually.

E.1. Out of this appropriation, \$4,100,000 the first year and \$1,900,000 the second year from the general fund and \$14,200,000 the first year and \$5,901,837 the second year from nongeneral funds shall be provided to complete the base contract to modernize the eligibility determination systems in the Department of Social Services. If any additional funding is needed, the department shall complete modernization efforts within existing resources.

2. Within 30 days of awarding a contract related to the eligibility project, the Department of Social Services shall provide the Chairmen of House Appropriations and Senate Finance Committees, and Director, Department of Planning and Budget with a copy of the contract including costs.

3. Beginning July 1, 2012, the Department of Social Services shall also provide semi-annual progress reports that must include a current project summary, implementation status, accounting of project expenditures and future milestones. All reports shall be submitted to the Chairmen of House Appropriations and Senate Finance Committees, and Director, Department of Planning and Budget.

F. Out of this appropriation, \$522,286 the first year and \$522,286 the second year from the general fund and \$1,924,019 the first year and \$1,924,019 the second year from nongeneral funds shall be provided to supplement management and programmatic support of the agency's eligibility systems modernization effort. In addition, eight positions are added in FY 2013. These resources shall be dedicated to the modernization project until its completion or the end of FY 2017, whichever comes first.

344. A. In the operation of any program of public assistance, including benefit and service programs in any locality, for which program appropriations are made to the Department of Social Services, it is provided that if a payment or overpayment is made to an individual who is ineligible therefor under federal and/or state statutes and regulations, the amount of such payment or overpayment shall be returned to the Department of Social Services by the locality.

B. However, no such repayments may be required of the locality if the department determines that such overpayment or payments to ineligible resulted from the promulgation of vague or conflicting regulations by the department or from the failure of the department to make timely distribution to the localities of the statutes, rules, regulations, and policy decisions, causing the overpayment or payment to ineligible(s) to be made by the locality or from situations where a locality exercised due diligence, yet received incomplete or incorrect information from the client which caused the overpayment or payment to ineligible. If a locality fails to effect the return, the Department of Social Services shall withhold an equal amount from the next disbursement made by the department to the locality for the same program.

C. The Department of Social Services shall implement the guidance issued by the U.S. Department of Health and Human Services concerning the obligation of recipients of federal financial assistance to comply with Title VI of the Civil Rights Act of 1964 by ensuring that meaningful access to federally-funded programs, activities and services administered by the department is provided to limited English proficient (LEP) persons, 63 Fed. Reg. 47,311-47,323 (August 8, 2003). At a minimum, the department shall (i) identify the need for language assistance by analyzing the following factors: (1) the number or proportion of LEP persons in the eligible service population, (2) the frequency of contact with such persons, (3) the nature and importance of the program, activity or service, and (4) the costs of providing language assistance and resources available; (ii) translate vital documents into the language of each frequently encountered LEP group eligible to be served; (iii) provide accurate and timely oral interpreter services; and (iv) develop an effective implementation plan to address the identified needs of the LEP populations served.

345. A. The amount for the Supplemental Nutrition Assistance Program (SNAP) shall be expended under regulations of the Board of Social Services to reimburse county and city welfare/social services boards pursuant to § 63.2-401, Code of Virginia, and subject to the same percentage limitations for other administrative services performed by county and city public welfare/social services boards and superintendents of public welfare/social services pursuant to other provisions of the Code of Virginia, as amended.

B. Pursuant to the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, Public Law 104-193, the Department of Social Services shall, in cooperation with local departments of social services, maintain a waiver of the work requirement for Supplemental Nutrition Assistance Program (SNAP) recipients residing in areas that do not have a sufficient number of jobs to provide employment for such individuals, including those areas designated as labor surplus areas by the U.S. Department of Labor.

C. To the extent permitted by federal law, Supplemental Nutrition Assistance Program (SNAP) recipients subject to a work requirement pursuant to § 824 of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, Public Law 104-193, as amended, shall be permitted to satisfy such work requirement by providing volunteer services to a public or private, nonprofit agency for the number of hours per month determined by dividing the household's monthly SNAP allotment by the federal minimum wage.

D. The Department of Social Services shall, to the extent permitted by federal law, disregard the value of at least one motor vehicle per household in determining eligibility for the Supplemental Nutrition Assistance Program (SNAP).

E. The Department of Social Services shall develop a multi-lingual outreach campaign to inform qualified aliens and their children, who are United States citizens, of their eligibility for the federal Supplemental Nutrition Assistance Program (SNAP) and ensure that they have access to benefits under SNAP. To the extent permitted by federal law, the department shall administer SNAP in a way that minimizes the procedural burden on qualified aliens and addresses concerns about the impact of SNAP receipt on their immigration sponsors and status.

A. From July 1, 2014 to June 30, 2016, the Board of Juvenile Justice shall not approve or commit additional funds for the state share of the cost of construction, enlargement or renovation of local or regional detention centers, group homes or related facilities. The board may grant exceptions only to address emergency maintenance projects needed to resolve immediate life safety issues. For such emergency projects, approval by both the Board of Juvenile Justice and the Secretary of Public Safety is required. Any emergency projects must also comply with Board of Juvenile Justice standards.

B. Each emergency resolution adopted by the Board of Juvenile Justice approving reimbursement of the state share of the cost of construction, maintenance, or operation of local or regional detention centers, group homes, or related facilities or programs shall include a statement noting that such approval is subject to the availability of funds and approval by the General Assembly at its next regular session.

C. The Department of Juvenile Justice shall reimburse localities, pursuant to § 66-15, Code of Virginia, at the rate of \$50 per day for housing juveniles who have been committed to the department, for each day after the department has received a valid commitment order and other pertinent information as required by § 16.1-287, Code of Virginia.

D. Notwithstanding the provisions of §16.1-322.1 of the Code of Virginia, the department shall apportion to localities the amounts appropriated in this Item.

E.1. The appropriation for Financial Assistance for Community Based Alternative Treatment Services includes \$10,379,926 the first year and \$10,379,926 the second year from the general fund for the implementation of the financial assistance provisions of the Juvenile Community Crime Control Act (VJCCCA), §§ 16.1-309.2 through 16.1-309.10, Code of Virginia. Notwithstanding § 16.1-309.6, Code of Virginia, localities participating in this program and contributing through their local match an amount of local funds which is greater than they receive from the Commonwealth under this program are authorized, but not required, to provide a contribution greater than the state general fund contribution. In no case shall their local match be less than their state share.

2. Notwithstanding the provisions of §§ 16.1-309.2 through 16.1-309.10, Code of Virginia, the Board of Juvenile Justice shall establish guidelines for use in determining the types of programs for which VJCCCA funding may be expended. The department shall establish a format to receive biennial or annual requests for funding from localities, based on these guidelines. For each program requested, the plan shall document the need for the program, goals, and measurable objectives, and a budget for the proposed expenditure of these funds and any other resources to be committed by localities.

3.a. Notwithstanding the provisions of § 16.1-309.7 B, Code of Virginia, unobligated VJCCCA funds must be returned to the department by each grantee locality no later than October 1 of the fiscal year following the fiscal year in which they were received, or a similar amount may be withheld from the current fiscal year's periodic payments designated by the department for that locality. The Director, Department of Planning and Budget, may increase the general fund appropriation for this Item up to the amount of unobligated VJCCCA funds returned to the Department of Juvenile Justice.

b. All such unobligated and reappropriated balances shall be used by the department for the purpose of awarding short-term supplementary grants to localities, for programs and services which have been demonstrated to improve outcomes, including reduced recidivism, of juvenile offenders. Such programs and services must augment and support current VJCCCA-funded programs within each affected locality. The grantee locality shall submit an outcomes report to the department, in accord with a written memorandum of agreement which shall accompany the supplementary grant award. This provision shall apply to funds obligated to and in the possession of the department and its grant recipients. The entity which returns unobligated funds under this provision shall not have a presumptive entitlement to a supplementary grant.

c. The Department of Juvenile Justice, with the assistance of the Department of Corrections, the Virginia Council on Juvenile Detention, juvenile court service unit directors, juvenile and domestic relations district court judges, and juvenile justice advocacy groups, shall provide a

report on the types of programs supported by the Juvenile Community Crime Control Act and whether the youth participating in such programs are statistically less likely to be arrested, adjudicated or convicted, or incarcerated for either misdemeanors or crimes that would otherwise be considered felonies if committed by an adult.

F. The department shall consolidate the annual reporting requirements in §§ 2.2-222 and 66-13 and in Chapters 755 and 914 of the 1996 Acts of the General Assembly concerning juvenile offender demographics. The consolidated annual report shall address the progress of Virginia Juvenile Community Crime Control Act programs including the requirements in Article 12.1 of Chapter 11 of Title 16.1 (§ 16.1-309.2 et seq.) relating to the number of juveniles served, the average cost for residential and nonresidential services, the number of employees, and descriptions of the contracts entered into by localities. Notwithstanding any other provisions of the Code of Virginia, the consolidated report shall be submitted to the Governor, the General Assembly, the Chairmen of the House Appropriations and Senate Finance Committees, the Secretary of Public Safety, and the Department of Planning and Budget by the first day of the regular General Assembly session.

<b>Virginia Department of Transportation (501) - CSC System 2.0</b> Project Approach: The approach for the CSC System 2.0 project is comprised of five key activities that include Project Initiation and Planning, Requirements Gathering, System Procurement, System Design and Implementation (Phase 3), and Project Closeout. Project Initiation and Planning comprises a key set of project activities designed to ensure that the project team is fully aligned with the client's project objectives and to establish the project management structures that will assist in achieving client business objectives for the project. To that end, a key task of Project Initiation and Planning is working with the VDOT's Project Sponsor and Project Manager to define and finalize the project scope, approach, and timeline and is reflected in this document. Project Schedule Development and Maintenance Project schedules are critical tools used to keep projects under control. We will use Microsoft (MS) Project 2002 as the project scheduling software and will provide initial and all subsequent versions of the project schedule in this format. It is our belief that the most detailed level of work defined in a project schedule should have clearly recognizable end point, where all can agree that the activity planned has, in fact, been successfully completed. Normally, this is done by assigning either well-defined milestones or well-defined deliverables to each activity. The CSC System 2.0 project team will work with VDOT's Project Manager(s) at project kickoff to develop a schedule for meeting the project objectives in accordance with VDOT's needs. The initial version of the project schedule has estimated start and end dates, which in turn will define the expected duration of the activity. Where dependencies and/or linkages between tasks exist, these will be specifically identified. It will be possible to identify the critical path within the project for those tasks that have been entered into Project Server and also view and manage multiple critical paths for each series of tasks. Specifically, the anticipated benefits of the CSC System 2.0 project include but are not limited to: 1) Provide better access to all VDOT information, 2) Provide better and more efficient service to internal and external customers with technology enabled systems that are integrated with appropriate VDOT systems, 3) Enable self-service and better customer follow-up, 4) Offer additional automated communications channels to customers, 5) Provide ability to track customer interactions, 6) Provide ability to close the loop with customers on their requests, and 7) Provide management reporting to enable better decision making. In addition to supporting an inquiry death service on the ESB, a publish and subscribe model will be developed so the registry can actively publish new death notices as they occur. This will allow subscribers to trigger appropriate processing based on the notification.

<p><b>Department of Social Services (765) - EDSP - Eligibility Modernization - Program Migration Project</b></p> <p>The modernization and migration consists of MAPPER UNISYS system replacement for the ADAPT application and the Energy Assistance Program application. ADAPT is the current eligibility determination and case management system for SNAP, TANF, Employment Service. The Eligibility Modernization Program Migration Project will convert the cases that contain the programs in ADAPT and the Energy system into VaCMS along with accepting new applications for these programs via online (Customer Portal) and paper (manual data entry) processes. This project also involves the external rules engine (iLOG). All program rules will be incorporated into iLOG with the outcome of eligibility determination, authorization, and case management within this single case management solution. The EDSP Eligibility Modernization Program Migration Project anticipates minor changes to Customer Portal to accommodate VaCMS changes. All interfaces currently being performed by the legacy systems are included and must be performed by the single case management system. Work efforts will be performed to sunset the ADAPT and Energy legacy systems as all programs are converted to VaCMS. Leveraging the current web-based technology provided in the VaCMS solution and/or the technology in the Customer Portal will allow VDSS to work towards each state and local DSS employee having a single sign-on to access other VDSS systems. VDSS anticipates using a single authentication tool to allow users to sign into the VDSS "system" one time. VDSS has also researched other vendor solutions to resolve the challenge of having many different "terminal emulation" based legacy type applications. <p><b>Department of Health (601) — Electronic Death Registration (EDR)</b></p> <p>Project Approach: The Office of Information Management (OIM) has performed a feasibility analysis and considered options such as the availability of a Customer Off The Shelf (COTS) system or some form of "canned" software. After much research, it became readily apparent, that no related, customizable application exists or has been developed that DVR could use to perform their tasks regarding death registration. Several States such as Indiana and Nebraska have developed and deployed electronic death registration systems, but those systems are neither web-based nor available online. They remain client-server applications until now. Other States such as California, have developed a web-based electronic death registration system, but have significantly different requirements and lack the total automation that DVR desires. Additionally, some of the technologies used would not be compatible with other OIM systems which would make integration difficult and expensive. Furthermore, while standardization of death certificates throughout the United States is an objective, it might only be possible to a certain extent. The stakeholders of the applications for different States have different requirements. In order to best serve the requirements of the stakeholders (DVR, Funeral Directors, OCMs, Physicians), the Office of Information Management along with the users of the Division of Vital Records, propose to develop an in-house, customized, web-based Electronic Death Registration system that will meet the needs of the Business Users and can be seamlessly integrated, with only nominal costs, into the current Virginia Vital Events and Screening Tracking System (VVESTS) which was also developed and created in-house by OIM. Therefore, OIM is proposing to add the (EDR) system as a new subsystem to VVESTS. Reducing many disparate systems into a single, central database will lower maintenance cost and as VVESTS has proven, will provide additional benefits of improved analysis capacity across programs, thus, permitting OIM to also utilize the existing infrastructure, advanced security features and existing Oracle software license. OIM will continue the same technology deployed with VVEST namely Oracle Web Technology, upgrading the current database to Oracle 11G, for the front end we will utilize Oracle Designer 2000 and web-toolkit and the web servers will utilize the Oracle Application Server powered by Apache v. 1.2 Furthermore, OIM is proposing to use some of the same IT team that so successfully developed the VVESTS application. This approach is also consistent with the strategic goal of OIM to develop enterprise architecture, rather than separate isolated systems. To reiterate, this new system shall be web-based, allowing all participating users to perform their duties and fulfill their responsibilities online, thereby, reducing and eventually eliminating any of the paperwork that is currently required.</p>	Mar 22, 2011	Dec 30, 2014	\$3,003,500

<p>This project involves the purchase of a comprehensive clinical information system for behavioral healthcare that manages the care data of thousands of patients in the facilities. In order to properly manage the care provided, clinical data in the form of thousands of transactions per facility per day needs to be collected, stored and analyzed using an electronic medical record. The system would be implemented at all sixteen facilities and Central Office and would help to eliminate the manual data processes still used in many clinical areas. An electronic medical record, supported by a suite of clinical applications will greatly reduce risk while greatly increasing operational efficiencies, cost savings and most important of all, patient satisfaction.</p>

Sunsetting of these systems in an organized fashion will create greatly reduced operational expenses from VITA. The FMS Data Marts will retain critical data from the FMSI and FMSII Financial Systems and create a Financial Data Store for reporting purposes. The objective of this project is to have the data store information available to VDOT internal systems to merge with Cardinal financial data for business intelligence reporting.

<b>Virginia Department of Transportation (501) - HR ECM and Workflow Optimization</b>	Mar 29, 2012	Mar 7, 2014	\$1,521,102

The project will: 1. Develop a secure repository containing electronic personnel file information for current VDOT employees; 2. Develop standard business process and electronic content management for HR's three highest priority workflows: (a) Pay Action, (b) Annual Performance Management, and (c) Critical Hire; 3. Develop a solution that leverages the agency's SharePoint Server 2010 to meet VDOT HR's workflow improvement and electronic content management needs. The benefits of this project will increase the efficiency and effectiveness of Human Resources by converting three manual paper-based workflows into an electronic content management system with automated workflows. It will improve HR's overall productivity, service levels, and data accuracy while maintaining cost effectiveness and compliance with HR, IT, and records management's regulations, policies, and standards. Secure access to electronic personnel files regardless of time and location will enable a culture of collaboration across the enterprise. There is a huge opportunity for other organizations and agencies outside of VDOT to learn from this initiative. Other organizations who are interested in optimizing their HR processes have already expressed interest in learning about the benefits and results of this project effort. Identification of those agencies with potential interest (such as VITA and VCCS), and making recommendations and sharing project deliverables with those organizations will be made at the conclusion of this project or as requested.

<b>Virginia Employment Commission (182) — Unemployment Insurance Modernization</b>	Sep 17, 2009	Feb 28, 2015	\$58,540,154
The modernization of the Unemployment Insurance System is a major initiative for the VEC in the Agency Strategic Plan. This client/server system will replace the VEC's decades-old IBM-mainframe Benefits, Tax, and Wage systems. Agency stakeholders will have direct leadership and governance responsibilities for the Investment. Customer stakeholders include employers of the Commonwealth as well as individual citizens who require support from the Unemployment Insurance program. Approach: Prior to selecting a solution the VEC reviewed the similar efforts in other states and conducted interviews with states engaged in UI Modernization. VEC documented lessons learned and developed decision tools to be used in the procurement process. VEC also went through a Business Process Reengineering effort and developed process flows for key business processes. The solution consists of replacing the Unemployment Insurance Benefits, Tax, and Wage systems with a modern, integrated system based on client/server and web-based technologies. The solution enhances and expands self-service, document management, workflow, and on-line processing with applications that are easy to use and minimize manual intervention. Phase 1 of the solution was an RFP and selection and IT vendor partner. Phase 2 was to develop a comprehensive Project Plan, for the IAOC, and procure an IV&V vendor who will review project progress at key milestones. Phase 3 was to define and document the Architectural designs and Technology Architecture requirements. Phase 4 is system construction based on the above architectural designs followed by testing, training, rollout, and project closing.

<p><b>Department of Health (601) — Women, Infants, Children (WIC) Electronic Benefits Transfer (EBT) Project</b></p> <p>This project will develop and implement the business processes and associated technology to provide e-WIC issuance, redemption, payment, and reconciliation services to distribute food benefits in the Virginia and West Virginia WIC Programs, the states of the e-WIC Consortium. Virginia will act as the lead state and will perform Consortium level project management and administration activities. The project will require procurement of a number of services including support for the development of an Implementation Advanced Planning Document (IAPD), as required by the United States Department of Agriculture Food and Nutrition Service, Quality Assurance and Monitoring, and Design, Development, and Implementation of the selected e-WIC solution. During preliminary planning of the e-WIC project, the Virginia Division of WIC and Community Nutrition Services completed a baseline analysis of the current system and conducted a feasibility study and cost-benefit analysis to evaluate three e-WIC alternatives. The WIC EBT Feasibility Study and Cost Benefit Analysis found that the online, outsourced EBT technology received the highest ranking with respect to the evaluation criteria selected by the state. Online EBT requires a real-time connection to the host for transaction authorization, as the term off-line indicates, transactions at the point of sale (POS) do not require a real-time connection to the host for authorization, instead transactions are validated directly against data stored on a Smart card. Among other criteria, each alternative was evaluated with respect to its proven record of implementation, operation, and integration; its ability to increase accuracy and accountability; and its ability to minimize ongoing operations costs. Given the context of the Virginia WIC Program, including current IT development projects and in-house technology development support, the online, outsourced solution provides the greatest opportunity to meet project goals including, accomplishment of the proposed development schedule and implementation of proven technology.</p>	Jan 8, 2009	Oct 13, 2014	\$6,619,018

In an effort to follow the consortium model in achieving economies of scale and at the request of USDA FNS, the Virginia WIC Program will jointly and concurrently conduct e-WIC planning activities with West Virginia. As members of the Crossroads Consortium to develop a new WIC management information system (MIS), Virginia and West Virginia have the opportunity to leverage shared knowledge and similar development environments while furthering the adoption of e-WIC. In order to expedite e-WIC project initiation and planning in West Virginia, the Virginia WIC Program modified the RFP for planning services, issued on February 23, 2009, to include West Virginia. Virginia, having completed pre-planning for e-WIC and as the RFP initiator for planning, will take the lead state role in project management and administration. Virginia will be responsible for project procurements and funding administration. In addition to IAPD development, the modified RFP requests a baseline analysis, feasibility study and cost benefit analysis for West Virginia. Once these preliminary items are completed, Virginia and West Virginia will proceed with the planning activities associated with the RFP. The states will combine their efforts to develop a joint IAPD including functional requirements based on the Crossroads SAM system. The states will also work together to define system telecommunication and architecture requirements, retailer implementation requirements, and procurement specifications. At the completion of planning, both states will be prepared to develop an e-WIC solution that will interface with the Crossroads MIS.

During project planning the e-WIC Consortium, with support from a qualified planning services vendor contracted through the planning RFP, will develop an IAPD as required by the USDA Food and Nutrition Service. This document will include a joint functional requirements study, a general system design, a capacity plan, a project management plan, a statement of resource requirements, a schedule of milestones and activities with deliverables, a proposed budget, a retailer management plan, a retailer implementation plan, a security plan, and a training plan. The feasibility study and cost benefit analysis completed for each state will be finalized and will also become a part of the completed IAPD. The e-WIC Consortium will also prepare procurement requests for Quality Assurance (QA) and Design, Development, and Implementation (DD&I) services. Quality Assurance services will provide a formal methodology to evaluate, assess, recommend, and track the progress of e-WIC project variables (including cost, schedule, scope, quality, accuracy, completeness, timeliness, and consistency of deliverables) throughout the project life cycle. The QA service provider will develop plans for Issues Management, Change Management, and Risk Management and maintain corresponding logs to track project developments. The QA project plans will be incorporated into the formal project plan including the activities of both the Consortium project team and the DD&I contractor.

**Department of Taxation (161) - Collection and Audit Case Management Mobile System**  
 Mobile Collection and Case Management system will allow TAX field staff (auditors/collectors) to use tablets. The tablets would have an audit application that would encompass audit case management and audit workbench. Auditors could connect where ever a cell signal was available. The application would have the ability to work disconnected in the event there is no cell signal available. The system will have the ability to accept a credit/debit card or electronic check, and the ability to exchange encrypted electronic documents with taxpayers. The system will integrate directly with AR so audit returns could be loaded automatically w/the appropriate compliance code and no additional involvement by other staff. As technology moves to more mobile platforms, TAX needs to enable systems to interface with them. It also makes sense for TAX staff, especially those in the field to have the same tools as our customers. This solution will allow TAX staff the use of a tablet and/or smart phone in the field to assist taxpayers with filing returns and paying their taxes. The field rep would pull out his smart device and file the returns electronically, with the use of a Square which is an electronic device that is attached to a tablet or Smartphone that can process credit card payments. The rep will be able to take the payment electronically and have the confirmation of the filing and the payment emailed to the taxpayer. This presents an opportunity for educating the taxpayer and achieving the Commonwealth/TAX goals for electronic filing and payment. This would decrease paperwork for the agent and save TAX time and money because funds will be processed to the bank more efficiently, no delays or costs for mailing and there is no paper return or check process.

PPACA mandates Medicaid expansion in 2014, which is predicted to increase Virginia’s Medicaid membership by 35-45%. Leveraging the Federal funding opportunities to offset the impact of expansion is an important investment in Virginia’s future. The Federal funding available under ARRA and PPACA provide opportunities to achieve the following outcomes for Virginia: Build on current health reform efforts; Modernize information technology infrastructure as an enabler for future business transformation; Provide a technical environment where standards-based interoperability is possible between new and legacy systems; Provide web based self-directed service options for human services; *Reduce the need for large administrative and operational staff for Federal and State programs; Reduce overall long-term technology costs for Federal and State programs; and Provide an enterprise technology environment that is accessible on a pay-for-use basis by Federal, State, and local governments as well as non-government organizations, community based-services, and commercial interests as allowed by policy.</p>	Nov 14, 2011	Apr 29, 2014	\$7,453,994

Today TAX maintains multiple systems with multiple Login entry points. Taxpayers have long complained about not being able to go to one place on our website to access our online systems. The My Virginia TAX concept would include an improved version of the functionality we provide today, as well as provide new functionality that is not there today. Taxpayers would be able to electronically file and pay any tax. <b>Department of Human Resource Management (129) - PMIS Migration from UNISYS</b> This project involves moving all DHRM applications off of the Unisys mainframe and into a server / web / relational database environment. This migration must be accomplished by June 30, 2016 in order for the Commonwealth to avoid approximately \$15 million in annual charges related to DHRM's use of the mainframe. NOTE: DHRM has submitted a budget request / decision package to DPB for \$5.5M for this project. The additional \$1.5M (that bring total project costs to \$7M) represent the monies that DHRM would already have in its base budget for existing personnel, office space, existing servers, etc. and would expend for the project over the FY15-16 biennium. At this stage of the cost estimation process DHRM anticipates that half of the \$5.5M requested in its decision package to DPB will be needed in FY15 and half in FY16. However, DHRM needs for any unused monies in FY15 to carryover and be available for project use in FY16.	Jul 1, 2014	Jun 30, 2016	\$7,000,000

Authority: Title 2.2, Chapter 2, Article 10, § 2.2-201, and Titles 33, 46, and 58, Code of Virginia.

A. The transportation policy goals enumerated in this act shall be implemented by the Secretary of Transportation, including the Secretary acting as Chairman of the Commonwealth Transportation Board.

1. The maintenance of existing transportation assets to ensure the safety of the public shall be the first priority in budgeting, allocation, and spending. The highway share of the Transportation Trust Fund shall be used for highway maintenance and operation purposes prior to its availability for new development, acquisition, and construction.

2. The efficient and cost-effective movement of people and goods will consider the needs in, and connectivity of, all modes of transportation, including bicycling, walking, public transportation, highways, freight and passenger rail, ports, and airports. The planning, development, construction, and operations of Virginia’s transportation facilities will reflect this goal.

3. To the greatest extent possible, the appropriation of transportation revenues shall reflect planned spending of such revenues by agency and by program. The maximization of all federal transportation funds available to the Commonwealth shall be paramount in the budgetary, spending, and allocation processes. Notwithstanding any provision of law to the contrary, the secretary and all agencies within the transportation secretariat are hereby authorized to take all actions necessary to ensure that federal transportation funds are allocated and utilized for the maximum benefit of the Commonwealth, whether such actions or funds or both are authorized under P.L. 112-141 of the 112th Congress, or any successor or related federal transportation legislation, or regulation, rule, or guidance issued by the U.S. Department of Transportation or any federal agency.

B.1. The secretary shall ensure that the allocation of transportation funds apportioned and for which obligation authority is expected to be available under federal law shall be in accordance with such laws and in support of the transportation policy goals enumerated in this act. Furthermore, the secretary is authorized to take all actions necessary to allocate the required match for federal highway funds to ensure their appropriate and timely obligation and expenditure within the fiscal constraints of state transportation revenues. By June 1 of each year, the secretary, as Chairman of the Board, shall report to the Governor and General Assembly on the allocation of such federal transportation funds and the actions taken to provide the required match.

2. The board shall only make allocations providing the required match for federal Regional Surface Transportation Program funds to those Metropolitan Planning Organizations in urbanized areas greater than 200,000 that, in consultation with the Office of Intermodal Planning and Investment, have developed regional transportation and land use performance measures pursuant to Chapters 670 and 690 of the 2009 Acts of Assembly and have been approved by the board.

3. Projects funded, in whole or part, from federal funds referred to as congestion mitigation and air quality improvement, shall be selected as directed by the board. Such funds shall be federally obligated within 12 months of their allocation by the board and expended within 36 months of such obligation. If the requirements included in this paragraph are not met by such agency or recipient, then the board shall use such federal funds for any other project eligible under 23 USC 149.

The Commonwealth Transportation Board, in consultation with the appropriate local and regional entities, may allocate to local and regional public transit operators, for operating and/or capital purposes, state revenues designated by formula for primary, urban, and secondary highways.</p>				
b.				
<p>Federal funds used to fund bridge projects and the required state matching funds shall be allocated and obligated as required by federal law to eligible projects across the Commonwealth. c.				
<p>Funds apportioned under federal law to the National Highway Performance Program and Surface Transportation Program may be allocated by the Commonwealth Transportation Board as permitted by federal law for interstate construction projects. Such designated funds shall be treated, for state formulae matching purposes, as interstate funds pursuant to §33.1-23.1, Code of Virginia.</p>

<p>The Commonwealth Transportation Board is hereby authorized to apply for, execute, and/or endorse applications submitted by private entities to obtain federal credit assistance for one or more qualifying transportation infrastructure projects or facilities to be developed pursuant to the Public-Private Transportation Act of 1995, as amended. Any such application, agreement and/or endorsement shall not financially obligate the Commonwealth or be construed to implicate the credit of the Commonwealth as security for any such federal credit assistance.</p>				
2.				
<p>The Commonwealth Transportation Board is hereby authorized to pursue or otherwise apply for, and execute, an agreement to obtain financing using a federal credit instrument for project financings otherwise authorized by this Act or other Acts of Assembly.</p>

<p>Revenues generated pursuant to the provisions of § 58.1-3221.3, Code of Virginia, shall only be used to supplement, not supplant, any local funds provided for transportation programs within the localities authorized to impose the fees under the provisions of § 58.1-3221.3, Code of Virginia.</p>

2. Rates paid to the VRS on behalf of employees of participating (i) counties, (ii) cities, (iii) towns, (iv) local public school divisions (only to the extent that the employer contribution rate is not otherwise specified in this act), and (v) other political subdivisions may, at each participating employers option, be based on the employer contribution rates certified by the Virginia Retirement System Board of Trustees pursuant to § 51.1-145(I), Code of Virginia.

3. Every participating employer must certify to the board of the Virginia Retirement System by resolution adopted by its local governing body that it: has reviewed and understands the information provided by the Virginia Retirement System outlining the potential future fiscal implications of electing or not electing to utilize the employer contribution rates certified by the Virginia Retirement System Board of Trustees, as provided for in paragraph I.2.

4. Such concurrence must be documented by a resolution of the governing body.

5. The board of the Virginia Retirement System shall provide all employers participating in the Virginia Retirement System with a summary of the implications inherent in the use of the employer contribution rates certified by the Virginia Retirement System (VRS) Board of Trustees set out in paragraph K.2, and the alternate employer contribution rates set out in paragraph I.1

J.1. The Virginia Retirement System Board of Trustees shall account for the employer retirement contribution payments deferred for the 2010-2012 biennium based on limiting employer retirement contributions to the Virginia Retirement System to the actuarial normal cost. In setting the employer retirement contribution rates for subsequent biennia, the board shall calculate a separate, supplemental employer contribution rate that will amortize such deferred payments over a period of ten years using the board's assumed long-term rate of return. The Governor shall include funds to support payment of such board-approved, supplemental employer contribution rates in the budget submitted to the General Assembly.

2. For purposes of setting rates for the 2014-16 biennium, and future biennia, the board shall treat any lump-sum deposits into the retirement system as an expedited repayment of the 2010-2012 deferred contributions for the appropriate system. Should these deposits exceed the remaining amounts owed for the deferred contributions, the balance shall remain in these specific systems to address the overall unfunded liability.

K.1. Under these conditions, the entire cost of such benefits for involuntarily separated employees shall be factored into the employer contribution rates paid to the Virginia Retirement System.				
M. The purpose of this paragraph is to provide a transitional severance benefit, under the conditions specified, to eligible city, county, school division or other political subdivision employees who are involuntarily separated from employment with their employer.				
1.a. "Involuntary separation" includes, but is not limited to, terminations and layoffs from employment with the employer, or being placed on leave without pay-layoff or equivalent status, due to budget reductions, employer reorganizations, workforce downsizings, or other causes not related to the job performance or misconduct of the employee, but shall not include voluntary resignations. As used in this paragraph, a "terminated employee" shall mean an employee who is involuntarily separated from employment with his employer.

The date of involuntary separation shall mean the date an employee was terminated from employment or placed on leave without pay-layoff or equivalent status.

b. Eligibility shall commence on the date of involuntary separation.

Any offset to a terminated employee's transitional severance benefit due to reductions for unemployment compensation shall be paid in one lump sum at the time the last transitional severance benefit payment is made.

d. For twelve months after the employee's date of involuntary separation, the employee shall continue to be covered under the (i) health insurance plan administered by the employer for its employees, if he participated in such plan prior to his date of involuntary separation, and (ii) group life insurance plan administered by the Virginia Retirement System pursuant to Chapter 5 (§ 51.1-500 et seq.) of Title 51.1, or such other group life insurance plan as may be administered by the employer. The cost of each year of age or creditable service purchased by the employer shall be equal to fifteen percent of the employee's present annual compensation. The number of years of age or creditable service to be purchased by the employer shall be equal to the quotient obtained by dividing (i) the cash value of the benefits to which the employee would be entitled under subparagraphs 3.a. and 3.d. of this paragraph

## PART 2: CAPITAL PROJECT EXPENSES

### § 2-0. GENERAL CONDITIONS

A.1. The General Assembly hereby authorizes the capital projects listed in this act. The amounts hereinafter set forth are appropriated to the state agencies named for the indicated capital projects. Amounts so appropriated and amounts reappropriated pursuant to paragraph G of this section shall be available for expenditure during the current biennium, subject to the conditions controlling the expenditures of capital project funds as provided by law. Reappropriated amounts, unless otherwise stated, are limited to the unexpended appropriation balances at the close of the previous biennium, as shown by the records of the Department of Accounts.

2. The Director, Department of Planning and Budget, may transfer appropriations listed in Part 2 of this act from the second year to the first year in accordance with § 4-1.03 a 5 of this act.

B. The five-digit number following the title of a project is the code identification number assigned for the life of the project.

C. Except as herein otherwise expressly provided, appropriations or reappropriations for structures may be used for the purchase of equipment to be used in the structures for which the funds are provided, subject to guidelines prescribed by the Governor.

D. Notwithstanding any other provisions of law, appropriations for capital projects shall be subject to the following:

1. Appropriations or reappropriations of funds made pursuant to this act for planning of capital projects shall not constitute implied approval of construction funds in a future biennium. Funds, other than the reappropriations referred to above, for the preparation of capital project proposals must come from the affected agency's existing resources.

2. No capital project for which appropriations for planning are contained in this act, nor any project for which appropriations for planning have been previously approved, shall be considered for construction funds until preliminary plans and cost estimates are reviewed by the Department of General Services. The purpose of this review is to avoid unnecessary expenditures for each project, in the interest of assuring the overall cost of the project is reasonable in relation to the purpose intended, regardless of discrete design choices.

E.1. Expenditures from Items in this act identified as "Maintenance Reserve" are to be made only for the maintenance of property, plant, and equipment as defined in §4-4.01c of this act to the extent that funds included in the appropriation to the agency for this purpose in Part 1 of this act are insufficient.

2. Agencies and institutions of higher education can expend up to \$1,000,000 for a single repair or project through the maintenance reserve appropriation without a separate appropriation. Such expenditures shall be subject to rules and regulations prescribed by the Governor. To the extent an agency or institution of higher education has identified a potential project that exceeds this threshold or state agency has identified a potential project that exceeds the threshold prescribed in the rules or regulations, the Director, Department of Planning and Budget, can provide exemptions to the threshold as long as the project still meets the definition of a maintenance reserve project as defined by the Department of Planning and Budget.

3. Only facilities supported wholly or in part by the general fund shall utilize general fund maintenance reserve appropriations. Facilities supported entirely by nongeneral funds shall accomplish maintenance through the use of nongeneral funds.

F. Conditions Applicable to Bond Projects

1. The capital projects listed in §§ 2-23 and 2-24 for the indicated agencies and institutions of higher education are hereby authorized and sums from the sources and in the amount indicated are hereby appropriated and reappropriated. The issuance of bonds in a principal amount plus amounts needed to fund issuance costs, reserve funds, and other financing expenses, including capitalized interest for any project listed in §§ 2-23 and 2-24 is hereby authorized.

Item Details(\$)		Appropriations(\$)

2. The issuance of bonds for any project listed in § 2-23 is to be separately authorized pursuant to Article X, Section 9 (c), Constitution of Virginia.

3. The issuance of bonds for any project listed in §§ 2-23 or 2-24 shall be authorized pursuant to § 23-19, Code of Virginia.

4. In the event that the cost of any capital project listed in §§ 2-23 and 2-24 shall exceed the amount appropriated therefore, the Director, Department of Planning and Budget, is hereby authorized, upon request of the affected institution, to approve an increase in appropriation authority of not more than ten percent of the amount designated in §§ 2-23 and 2-24 for such project, from any available nongeneral fund revenues, provided that such increase shall not constitute an increase in debt issuance authorization for such capital project. Furthermore, the Director, Department of Planning and Budget, is hereby authorized to approve the expenditure of all interest earnings derived from the investment of bond proceeds in addition to the amount designated in §§ 2-23 and 2-24 for such capital project.

5. The interest on bonds to be issued for these projects may be subject to inclusion in gross income for federal income tax purposes.

6. Inclusion of a project in this act does not imply a commitment of state funds for temporary construction financing. In the absence of such commitment, the institution may be responsible for securing short-term financing and covering the costs from other sources of funds.

7. In the event that the Treasury Board determines not to finance all or any portion of any project listed in § 2-23 of this act with the issuance of bonds pursuant to Article X, Section 9 (c), Constitution of Virginia, and notwithstanding any provision of law to the contrary, this act shall constitute the approval of the General Assembly to finance all or such portion of such project under the authorization of § 2-24 of this act.

8. The General Assembly further declares and directs that, notwithstanding any other provision of law to the contrary, 50 percent of the proceeds from the sale of surplus real property pursuant to § 2.2-1147 et seq., Code of Virginia, which pertain to the general fund, and which were under the control of an institution of higher education prior to the sale, shall be deposited in a special fund set up on the books of the State Comptroller, which shall be known as the Higher Education Capital Projects Fund. Such sums shall be held in reserve, and may be used, upon appropriation, to pay debt service on bonds for the 21st Century College Program as authorized in Item C-7.10 of Chapter 924 of the Acts of Assembly of 1997.

G. Upon certification by the Director, Department of Planning and Budget, there is hereby reappropriated the appropriations unexpended at the close of the previous biennium for all authorized capital projects which meet any of the following conditions:

1. Construction is in progress.
2. Equipment purchases have been authorized by the Governor but not received.
3. Plans and specifications have been authorized by the Governor but not completed.
4. Obligations were outstanding at the end of the previous biennium.

H. The Department of Planning and Budget is hereby authorized to administratively appropriate any nongeneral fund component of any capital project authorized in Chapters 859/827 (2002), Chapters 884/854 (2002), or Chapters 887/855 (2002).

§ 3-6.05 DEPOSIT OF FINES AND FEES

A. The Auditor of Public Accounts shall annually calculate the amount of total fines and fees collected by the District Courts. The Auditor of Public Accounts will determine those localities in which total local fines and fee collections exceed 50 percent of the total collections. Using the Auditor of Public Accounts' calculation for fiscal year 2011, the State Comptroller shall deduct half of the amount in excess of 50 percent from any current payment of local fines and fees before remitting to the localities their remaining collections. When the State Comptroller has recovered in total, the half of the amount exceeding 50 percent, he shall pay all local collections monthly directly to the locality's treasury. The State Comptroller shall promptly and without delay transmit any and all non-withheld local fees and fines to the locality's treasury not later than sixty (60) days after these fines and fees were deposited and recorded in the state treasury by the District Courts. Furthermore, the State Comptroller and the Executive Secretary of the Supreme Court shall work with the District Courts and the localities to develop a process to provide the localities a complete accounting of when these fees were collected. The State Comptroller shall deposit the withheld funds in the Literary Fund, as they become available.

B. The Auditor of Public Accounts shall provide the State Comptroller the annual calculation by May 1 of each year for future withholdings. The State Comptroller will act as a fiscal agent, holding the amounts of local fine and fee collections in an agency fund.

**PART 4: GENERAL PROVISIONS****§ 4-0.00 OPERATING POLICIES****§ 4-0.01 OPERATING POLICIES**

- a. Each appropriating act of the General Assembly shall be subject to the following provisions and conditions, unless specifically exempt elsewhere in this act.
- b. All appropriations contained in this act, or in any other appropriating act of the General Assembly, are declared to be maximum appropriations and conditional on receipt of revenue.
- c. The Governor, as chief budget officer of the state, shall ensure that the provisions and conditions as set forth in this section are strictly observed.
- d. Public higher education institutions are not subject to the provisions of § 2.2-4800, Code of Virginia, or the provisions of the Department of Accounts' Commonwealth Accounting Policies and Procedures manual (CAPP) topic 20505 with regard to students who are veterans of the United States armed services and National Guard and are in receipt of federal educational benefits under the G.I. Bill. Public higher education shall establish internal procedures for the continued enrollment of such students to include resolution of outstanding accounts receivable.

**§ 4-1.00 APPROPRIATIONS****§ 4-1.01 PREREQUISITES FOR PAYMENT**

- a. The State Comptroller shall not pay any money out of the state treasury except pursuant to appropriations in this act or in any other act of the General Assembly making an appropriation during the current biennium.
- b. Moneys shall be spent solely for the purposes for which they were appropriated by the General Assembly, except as specifically provided otherwise by § 4-1.03 Appropriation Transfers, § 4-4.01 Capital Projects, or § 4-5.01 a. Settlement of Claims with Individuals. Should the Governor find that moneys are not being spent in accordance with provisions of the act appropriating them, he shall restrain the State Comptroller from making further disbursements, in whole or in part, from said appropriations. Further, should the Auditor of Public Accounts determine that a state or other agency is not spending moneys in accordance with provisions of the act appropriating them, he shall so advise the Governor or other governing authority, the State Comptroller, the Chairman of the Joint Legislative Audit and Review Commission, and Chairmen of the Senate Finance and House Appropriations Committees.
- c. Exclusive of revenues paid into the general fund of the state treasury, all revenues earned or collected by an agency, and contained in an appropriation item to the agency shall be expended first during the fiscal year, prior to the expenditure of any general fund appropriation within that appropriation item, unless prohibited by statute or by the terms and conditions of any gift, grant or donation.

**§ 4-1.02 WITHHOLDING OF SPENDING AUTHORITY**

- a. For purposes of this subsection, withholding of spending authority is defined as any action pursuant to a budget reduction plan approved by the Governor to address a declared shortfall in budgeted revenue that impedes or limits the ability to spend appropriated moneys, regardless of the mechanism used to effect such withholding.
  - b.1. Changed Expenditure Factors: The Governor is authorized to reduce spending authority, by withholding allotments of appropriations, when expenditure factors, such as enrollments or population in institutions, are smaller than the estimates upon which the appropriation was based. Moneys generated from the withholding action shall not be reallocated for any other purpose, provided the withholding of allotments of appropriations under this provision shall not occur until at least 15 days after the Governor has transmitted a statement of changed factors and intent to withhold moneys to the Chairmen of the House Appropriations and Senate Finance Committees.
  2. Moneys shall not be withheld on the basis of reorganization plans or program evaluations until such plans or evaluations have been specifically presented in writing to the General Assembly at its next regularly scheduled session.
- c. Increased Nongeneral Fund Revenue:
  1. General fund appropriations to any state agency for operating expenses are supplemental to nongeneral fund revenues collected by the agency. To the extent that nongeneral fund revenues collected in a fiscal year exceed the estimate on which the operating budget was based, the Governor is authorized to withhold general fund spending authority, by withholding allotments of appropriations, in an equivalent amount. However, this limitation shall not apply to (a) restricted excess tuition and fees for educational and general programs in the institutions of higher education, as defined in § 4-2.01 c of this act; (b) appropriations to institutions of higher education designated for fellowships, scholarships and loans; (c) gifts or grants which are made to any state agency for the direct costs of a stipulated project; (d) appropriations to institutions for the mentally ill or

intellectually disabled payable from the Behavioral Health and Developmental Services Revenue Fund; and (e) general fund appropriations for highway construction and mass transit. Moneys unallotted under this provision shall not be reallocated for any other purpose.

2. To the degree that new or additional grant funds become available to supplement general fund appropriations for a program, following enactment of an appropriation act, the Governor is authorized to withhold general fund spending authority, by withholding allotments of appropriations, in an amount equivalent to that provided from grant funds, unless such action is prohibited by the original provider of the grant funds. The withholding action shall not include general fund appropriations, which are required to match grant funds. Moneys unallotted under this provision shall not be reallocated for any other purpose.

d. Reduced General Fund Resources:

1. The term "general fund resources" as applied in this subsection includes revenues collected and paid into the general fund of the state treasury during the current biennium, transfers to the general fund of the state treasury during the current biennium, and all unexpended balances brought forward from the previous biennium.

2. In the event that general fund resources are estimated by the Governor to be insufficient to pay in full all general fund appropriations authorized by the General Assembly, the Governor shall, subject to the qualifications herein contained, withhold general fund spending authority, by withholding allotments of appropriations, to prevent any expenditure in excess of the estimated general fund resources available.

3. In making this determination, the Governor shall take into account actual general fund revenue collections for the current fiscal year and the results of a formal written re-estimate of general fund revenues for the current and next biennium, prepared within the previous 90 days, in accordance with the process specified in § 2.2-1503, Code of Virginia. Said re-estimate of general fund revenues shall be communicated to the Chairmen of the Senate Finance, House Appropriations and House Finance Committees, prior to taking action to reduce general fund allotments of appropriations on account of reduced resources.

4.a) In addition to monthly reports on the status of revenue collections relative to the current fiscal year's estimate, the Governor shall provide a written quarterly assessment of the current economic outlook for the remainder of the fiscal year to the Chairmen of the House Appropriations, House Finance, and Senate Finance Committees.

b) Within five business days after the preliminary close of the state accounts at the end of the fiscal year, the State Comptroller shall provide the Governor with the actual total of (1) individual income taxes, (2) corporate income taxes, and (3) sales taxes for the just-completed fiscal year, with a comparison of such actual totals with the total of such taxes in the official budget estimate for that fiscal year. If that comparison indicates that the total of (1) individual income taxes, (2) corporate income taxes, and (3) sales taxes, as shown on the preliminary close, was one percent or more below the amount of such taxes in the official budget estimate for the just-completed fiscal year, the Governor shall prepare a written re-estimate of general fund revenues for the current biennium and the next biennium in accordance with § 2.2-1503, Code of Virginia, to be reported to the Chairmen of the Senate Finance, House Finance and House Appropriations Committees, not later than September 1 following the close of the fiscal year.

5.a) The Governor shall take no action to withhold allotments until a written plan detailing specific reduction actions approved by the Governor, identified by program and appropriation item, has been presented to the Chairmen of the House Appropriations and Senate Finance Committees. Subsequent modifications to the approved reduction plan also must be submitted to the Chairmen of the House Appropriations and Senate Finance Committees, prior to withholding allotments of appropriations.

b) In addition to the budget reduction plan approved by the Governor, all budget reduction proposals submitted by state agencies to the Governor or the Governor's staff, including but not limited to the Department of Planning and Budget, the Governor's Cabinet secretaries, or the Chief of Staff, whether submitted electronically or otherwise, shall be made available via electronic means to the Chairmen of the House Appropriations and Senate Finance Committees concurrently with that budget reduction plan.

6. In effecting the reduction of expenditures, the Governor shall not withhold allotments of appropriations for:

a) More than 15 percent cumulatively of the annual general fund appropriation contained in this act for operating expenses of any one state or nonstate agency or institution designated in this act by title, and the exact amount withheld, by state or nonstate agency or institution, shall be reported within five calendar days to the Chairmen of the Senate Finance and House Appropriations Committees. State agencies providing funds directly to grantees named in this act shall not apportion a larger cut to the grantee than the proportional cut apportioned to the agency. Without regard to § 4-5.05 b.4. of this act, the remaining appropriation to the grantee which is not subject to the cut, equal to at least 85 percent of the annual appropriation, shall be made by July 31, or in two equal installments, one payable by July 31 and the other payable by December 31, if the remaining appropriation is less than or equal to \$500,000, except in cases where the normal conditions of the grant dictate a different payment schedule.

b) The payment of principal and interest on the bonded debt or other bonded obligations of the Commonwealth, its agencies and its authorities, or for payment of a legally authorized deficit.

c) The payments for care of graves of Confederate dead.

d) The employer contributions, and employer-paid member contributions, to the Social Security System, Virginia Retirement System, Judicial Retirement System, State Police Officers Retirement System, Virginia Law Officers Retirement System, Optional Retirement Plan for College and University Faculty, Optional Retirement Plan for Political Appointees, Optional Retirement Plan for Superintendents, the Volunteer Service Award Program, the Virginia Retirement System's group life insurance, sickness and disability, and retiree health care credit programs for state employees, state-supported local employees and teachers. If the Virginia Retirement System Board of Trustees approves a contribution rate for a fiscal year that is lower than the rate on which the appropriation was based, or if the United States government approves a Social Security rate that is lower than that in effect for the current budget, the Governor may withhold excess contributions. However, employer and employee paid rates or contributions for health insurance and matching deferred compensation for state employees, state-supported local employees and teachers may not be increased or decreased beyond the amounts approved by the General Assembly. Payments for the employee benefit programs listed in this paragraph may not be delayed beyond the customary billing cycles that have been established by law or policy by the governing board.

e) The payments in fulfillment of any contract awarded for the design, construction and furnishing of any state building.

f) The salary of any state officer for whom the Constitution of Virginia prohibits a change in salary.

g) The salary of any officer or employee in the Executive Department by more than two percent (irrespective of the fund source for payment of salaries and wages); however, the percentage of reduction shall be uniformly applied to all employees within the Executive Department.

h) The appropriation supported by the State Bar Fund, as authorized by § 54.1-3913, Code of Virginia, unless the supporting revenues for such appropriation are estimated to be insufficient to pay the appropriation.

7. The Governor is authorized to withhold specific allotments of appropriations by a uniform percentage, a graduated reduction or on an individual basis, or apply a combination of these actions, in effecting the authorized reduction of expenditures, up to the maximum of 15 percent, as prescribed in subdivision 6a of this subsection.

8. Each nongeneral fund appropriation shall be payable in full only to the extent the nongeneral fund revenues from which the appropriation is payable are estimated to be sufficient. The Governor is authorized to reduce allotments of nongeneral fund appropriations by the amount necessary to ensure that expenditures do not exceed the supporting revenues for such appropriations; however, the Governor shall take no action to reduce allotments of appropriations for major nongeneral fund sources on account of reduced revenues until such time as a formal written re-estimate of revenues for the current and next biennium, prepared in accordance with the process specified in § 2.2-1503, Code of Virginia, has been reported to the Chairmen of the Senate Finance, House Finance, and House Appropriations Committees. For purposes of this subsection, major nongeneral fund sources are defined as Highway Maintenance and Operating Fund and Transportation Trust Fund.

9. Notwithstanding any contrary provisions of law, the Governor is authorized to transfer to the general fund on June 30 of each year of the biennium, or within 20 days from that date, any available unexpended balances in other funds in the state treasury, subject to the following:

a) The Governor shall declare in writing to the Chairmen of the Senate Finance and House Appropriations Committees that a fiscal emergency exists which warrants the transfer of nongeneral funds to the general fund and reports the exact amount of such transfer within five calendar days of the transfer;

b) No such transfer may be made from retirement or other trust accounts, the State Bar Fund as authorized by § 54.1-3913, Code of Virginia, debt service funds, or federal funds; and

c) The Governor shall include for informative purposes, in the first biennial budget he submits subsequent to the transfer, the amount transferred from each account or fund and recommendations for restoring such amounts.

10. The Director, Department of Planning and Budget, shall make available via electronic means a report of spending authority withheld under the provisions of this subsection to the Chairmen of the Senate Finance and House Appropriations Committees within five calendar days of the action to withhold. Said report shall include the amount withheld by agency and appropriation item.

11. If action to withhold allotments of appropriation under this provision is inadequate to eliminate the imbalance between projected general fund resources and appropriations, the Speaker of the House of Delegates and the President pro tempore of the Senate shall be advised in writing by the Governor, so that they may consider requesting a special session of the General Assembly.

However, appropriation authority for local aid programs and aid to individuals, with the exception of student financial aid, shall not be transferred elsewhere without advance notice to the Chairmen of the House Appropriations and Senate Finance Committees. Further, any transfers between capital projects shall be made only to realize efficiencies or provide for cost overruns unrelated to changes in size or scope.

c.1. 5. The Director, Department of Planning and Budget, may transfer appropriations from the second year to the first year, with said transfer to be reported in writing to the Chairmen of the Senate Finance and House Appropriations Committees within five calendar days of the transfer, when the expenditure of such funds is required to:

- b) provide for unbudgeted cost increases for statutorily required services or federally mandated services, in order to continue those services at the present level, or

- e) continue a program at the present level of service or at an increased level of service when required to address unanticipated increases in workload such as enrollment, caseload or like factors, or unanticipated costs, or
- f) to address unanticipated business or industrial development opportunities which will benefit the state's economy, provided that any such appropriations be used in a manner consistent with the purposes of the program as originally appropriated.

6. An appropriation transfer shall not occur except through properly executed appropriation transfer documents designed specifically for that purpose, and all transactions effecting appropriation transfers shall be entered in the state's computerized budgeting and accounting systems.

7. The Director, Department of Planning and Budget, may transfer from any other agency, appropriations to supplement any project of the Virginia Public Building Authority authorized by the General Assembly and approved by the Governor. Such capital project shall be transferred to the state agency designated as the managing agency for the Virginia Public Building Authority.

8. In the event of the transition of a city to town status pursuant to the provisions of Chapter 41 of Title 15.2 of the Code of Virginia (§ 15.2-4100 et seq.) or the consolidation of a city and a county into a single city pursuant to the provisions of Chapter 35 of Title 15.2, Code of Virginia (§ 15.2-3500 et seq.) subsequent to July 1, 1999, the provisions of § 15.2-1302 shall govern distributions from state agencies to the county in which the town is situated or to the consolidated city, and the Director, Department of Planning and Budget, is authorized to transfer appropriations or portions thereof within a state agency, or from one such agency to another, if necessary to fulfill the requirements of § 15.2-1302.

#### § 4-1.04 APPROPRIATION INCREASES

##### a. UNAPPROPRIATED NONGENERAL FUNDS:

##### 1. Sale of Surplus Materials:

The Director, Department of Planning and Budget, is hereby authorized to increase the appropriations to any state agency by the amount of credit resulting from the sale of surplus materials under the provisions of § 2.2-1125, Code of Virginia.

##### 2. Insurance Recovery:

The Director, Department of Planning and Budget, shall increase the appropriation authority for any state agency by the amount of the proceeds of an insurance policy or from the State Insurance Reserve Trust Fund, for expenditures as far as may be necessary, to pay for the repair or replacement of lost, damaged or destroyed property, plant or equipment.

##### 3. Gifts, Grants and Other Nongeneral Funds:

a) Subject to § 4-1.02 c, Increased Nongeneral Fund Revenue, and the conditions stated in this section, the Director, Department of Planning and Budget, is hereby authorized to increase the appropriations to any state agency by the amount of the proceeds of donations, gifts, grants or other nongeneral funds paid into the state treasury in excess of such appropriations during a fiscal year. Such appropriations shall be increased only when the expenditure of moneys is authorized elsewhere in this act or is required to:

1) address a threat to life, safety, health or property or

2) provide for unbudgeted increases in costs for services required by statute or services mandated by the federal government, in order to continue those services at the present level or implement compensation adjustments approved by the General Assembly, or

3) provide for payment of overtime salaries and wages, when the obligations for payment of such overtime were incurred during a situation deemed threatening to life, safety, health, or property, or

4) continue a program at the present level of service or at an increased level of service when required to address unanticipated increases in noncredit instruction at institutions of higher education or business and industrial development opportunities which will benefit the state's economy, or

5) participate in a federal or sponsored program provided that the provisions of §4-5.03 shall also apply to increases in appropriations for additional gifts, grants, and other nongeneral fund revenue which require a general fund match as a condition of their acceptance; or

6) realize cost savings in excess of the additional funds provided, or

7) permit a state agency or institution to use a donation, gift or grant for the purpose intended by the donor, or

8) provide for cost overruns on capital projects and for capital projects authorized under § 4-4.01 m of this act, or

9) address caseload or workload changes in programs approved by the General Assembly.

b) The above conditions shall not apply to donations and gifts to the endowment funds of institutions of higher education.

c) Each state agency and institution shall ensure that its budget estimates include a reasonable estimate of receipts from donations, gifts or other nongeneral fund revenue. The Department of Planning and Budget shall review such estimates and verify their accuracy, as part of the budget planning and review process.

d) No obligation or expenditure shall be made from such funds until a revised operating budget request is approved by the Director, Department of Planning and Budget. Expenditures from any gift, grant or donation shall be in accordance with the purpose for which it was made; however, expenditures for property, plant or equipment, irrespective of fund source, are subject to the provisions of §§ 4-2.03 Indirect Costs, 4-4.01 Capital Projects General, and 4-5.03 b Services and Clients-New Services, of this act.

e) Nothing in this section shall exempt agencies from complying with § 4-2.01 a Solicitation and Acceptance of Donations, Gifts, Grants, and Contracts of this act.

4. Any nongeneral fund cash balance recorded on the books of the Department of Accounts as unexpended on the last day of the fiscal year may be appropriated for use in the succeeding fiscal year with the prior written approval of the Director, Department of Planning and Budget, unless the General Assembly shall have specifically provided otherwise. Revenues deposited to the Virginia Health Care Fund shall be used only as the state share of Medicaid, unless the General Assembly specifically authorizes an alternate use. With regard to the appropriation of other nongeneral fund cash balances, the Director shall make a listing of such transactions available to the public via electronic means no less than ten business days following the approval of the appropriation of any such balance.

5. Reporting:

The Director, Department of Planning and Budget, shall make available via electronic means a report on increases in unappropriated nongeneral funds in accordance with § 4-8.00, Reporting Requirements, or as modified by specific provisions in this subsection.

b. AGRIBUSINESS EQUIPMENT FOR THE DEPARTMENT OF CORRECTIONS

The Director of the Department of Planning and Budget may increase the Department of Corrections appropriation for the purchase of agribusiness equipment or the repair or construction of agribusiness facilities by an amount equal to fifty percent of any annual amounts in excess of fiscal year 1992 deposits to the general fund from agribusiness operations. It is the intent of the General Assembly that appropriation increases for the purposes specified shall not be used to reduce the general fund appropriations for the Department of Corrections.

§ 4-1.05 REVERSION OF APPROPRIATIONS AND REAPPROPRIATIONS

a. GENERAL FUND OPERATING EXPENSE:

1.a) General fund appropriations which remain unexpended on (i) the last day of the previous biennium or (ii) the last day of the first year of the current biennium, shall be reappropriated and allotted for expenditure where required by the Code of Virginia, where necessary for the payment of preexisting obligations for the purchase of goods or services, or where desirable, in the determination of the Governor, to address any of the six conditions listed in § 4-1.03 c.5 of this act or to provide financial incentives to reduce spending to effect current or future cost savings. With the exception of the unexpended general fund appropriations of agencies in the Legislative Department, the Judicial Department, the Independent Agencies, or institutions of higher education, all other such unexpended general fund appropriations unexpended on the last day of the previous biennium or the last day of the first year of the current biennium shall revert to the general fund.

General fund appropriations for agencies in the Legislative Department, the Judicial Department, and the Independent Agencies shall be reappropriated, except as may be specifically provided otherwise by the General Assembly. General fund appropriations shall also be reappropriated for institutions of higher education, subject to § 2.2-5005, Code of Virginia.

2. a. The Governor shall report within five calendar days after completing the reappropriation process to the Chairmen of the Senate Finance and House Appropriations Committees on the reappropriated amounts for each state agency in the Executive Department. He shall provide a preliminary report of reappropriation actions on or before November 1 and a final report on or before December 20 to the Chairmen of the House Appropriations and Senate Finance Committees.

b. The Director, Department of Planning and Budget, may transfer reappropriated amounts within an agency to cover nonrecurring costs.

3. Pursuant to subsection E of § 2.2-1125, Code of Virginia, the determination of compliance by an agency or institution with management standards prescribed by the Governor shall be made by the Secretary of Finance and the Secretary having jurisdiction over the agency or institution, acting jointly.

4. The general fund resources available for appropriation in the first enactment of this act include the reversion of certain unexpended balances in operating appropriations as of June 30 of the prior fiscal year, which were otherwise required to be reappropriated by language in the Appropriation Act.

5. Upon request, the Director, Department of Planning and Budget, shall provide a report to the Chairmen of the House Appropriations and Senate Finance Committees showing the amount reverted for each agency and the total amount of such reversions.

b. NONGENERAL FUND OPERATING EXPENSE:

Based on analysis by the State Comptroller, when any nongeneral fund has had no increases or decreases in fund balances for a period of 24 months, the State Comptroller shall promptly transfer and pay the balance into the fund balance of the general fund. If it is subsequently determined that an appropriate need warrants repayment of all or a portion of the amount transferred, the Director, Department of Planning and Budget shall include repayment in the next budget bill submitted to the General Assembly. This provision does not apply to funds held in trust by the Commonwealth.

c. CAPITAL PROJECTS:

1. Upon certification by the Director, Department of Planning and Budget, the State Comptroller is hereby authorized to revert to the fund balance of the general fund any portion of the unexpended general fund cash balance and corresponding appropriation or reappropriation for a capital project when the Director determines that such portion is not needed for completion of the project. The State Comptroller may similarly return to the appropriate fund source any part of the unexpended nongeneral fund cash balance and reduce any appropriation or reappropriation which the Director determines is not needed to complete the project.

2. The unexpended general fund cash balance and corresponding appropriation or reappropriation for capital projects shall revert to and become part of the fund balance of the general fund during the current biennium as of the date the Director, Department of Planning and Budget, certifies to the State Comptroller that the project has been completed in accordance with the intent of the appropriation or reappropriation and there are no known unpaid obligations related to the project. The State Comptroller shall return the unexpended nongeneral fund cash balance, if there be any, for such completed project to the source from which said nongeneral funds were obtained. Likewise, he shall revert an equivalent portion of the appropriation or reappropriation of said nongeneral funds.

3. The Director, Department of Planning and Budget, may direct the restoration of any portion of the reverted amount if he shall subsequently verify an unpaid obligation or requirement for completion of the project. In the case of a capital project for which an unexpended cash balance was returned and appropriation or reappropriation was reverted in the prior biennium, he may likewise restore any portion of such amount under the same conditions.

§ 4-1.06 LIMITED ADJUSTMENTS OF APPROPRIATIONS

a. LIMITED CONTINUATION OF APPROPRIATIONS.

Notwithstanding any contrary provision of law, any unexpended balances on the books of the State Comptroller as of the last day of the previous biennium shall be continued in force for such period, not exceeding 10 days from such date, as may be necessary in order to permit payment of any claims, demands or liabilities incurred prior to such date and unpaid at the close of business on such date, and shown by audit in the Department of Accounts to be a just and legal charge, for values received as of the last day of the previous biennium, against such unexpended balances.

b. LIMITATIONS ON CASH DISBURSEMENTS.

Notwithstanding any contrary provision of law, the State Comptroller may begin preparing the accounts of the Commonwealth for each subsequent fiscal year on or about 10 days before the start of such fiscal year. The books will be open only to enter budgetary transactions and transactions that will not require the receipt or disbursement of funds until after June 30. Should an emergency arise, or in years in which July 1 falls on a weekend requiring the processing of transactions on or before June 30, the State Comptroller may, with notification to the Auditor of Public Accounts, authorize the disbursement of funds drawn against appropriations of the subsequent fiscal year, not to exceed the sum of three million dollars (\$3,000,000) from the general fund. This provision does not apply to debt service payments on bonds of the Commonwealth which shall be made in accordance with bond documents, trust indentures, and/or escrow agreements.

§ 4-1.07 ALLOTMENTS

Except when otherwise directed by the Governor within the limits prescribed in §§ 4-1.02 Withholding of Spending Authority, 4-1.03 Appropriation Transfers, and 4-1.04 Appropriation Increases of this act, the Director, Department of Planning and Budget, shall prepare and act upon the allotment of appropriations required by this act, and by § 2.2-1819, Code of Virginia, and the authorizations for rates of pay required by this act. Such allotments and authorizations shall have the same effect as if the personal signature of the Governor were subscribed thereto. This section shall not be construed to prohibit an appeal by the head of any state agency to the Governor for reconsideration of any action taken by the Director, Department of Planning and Budget, under this section.

§ 4-2.00 REVENUES

§ 4-2.01 NONGENERAL FUND REVENUES

a. SOLICITATION AND ACCEPTANCE OF DONATIONS, GIFTS, GRANTS, AND CONTRACTS:

1. No state agency shall solicit or accept any donation, gift, grant, or contract without the written approval of the Governor except under written guidelines issued by the Governor which provide for the solicitation and acceptance of nongeneral funds, except that donations or gifts to the Virginia War Memorial Foundation that are small in size and number and valued at less than \$5,000, such as library items or small display items, may be approved by the Executive Director of the Virginia War

Memorial in consultation with the Secretary of Veterans Affairs and Homeland Security. All other gifts and donations to the Virginia War Memorial Foundation must receive written approval from the Secretary of Veterans Affairs and Homeland Security.

2. The Governor may issue policies in writing for procedures which allow state agencies to solicit and accept nonmonetary donations, gifts, grants, or contracts except that donations, gifts and grants of real property shall be subject to § 4-4.00 of this act and § 2.2-1149, Code of Virginia. This provision shall apply to donations, gifts and grants of real property to endowment funds of institutions of higher education, when such endowment funds are held by the institution in its own name and not by a separately incorporated foundation or corporation.

3. The preceding subdivisions shall not apply to property and equipment acquired and used by a state agency or institution through a lease purchase agreement and subsequently donated to the state agency or institution during or at the expiration of the lease purchase agreement, provided that the lessor is the Virginia College Building Authority.

4. The use of endowment funds for property, plant or equipment for state-owned facilities is subject to §§ 4-2.03 Indirect Costs, 4-4.01 Capital Projects-General and 4-5.03 Services and Clients of this act.

#### b. HIGHER EDUCATION TUITION AND FEES

1. Except as provided in Chapters 933 and 943 of the 2006 Acts of Assembly, Chapters 594 and 616 of the 2008 Acts of Assembly, and Chapters 675 and 685 of the 2009 Acts of Assembly, all nongeneral fund collections by public institutions of higher education, including collections from the sale of dairy and farm products, shall be deposited in the state treasury in accordance with § 2.2-1802, Code of Virginia, and expended by the institutions of higher education in accordance with the appropriations and provisions of this act, provided, however, that this requirement shall not apply to private gifts, endowment funds, or income derived from endowments and gifts.

2. a) The Boards of Visitors or other governing bodies of institutions of higher education may set tuition and fee charges at levels they deem to be appropriate for all resident student groups based on, but not limited to, competitive market rates, provided that the total revenue generated by the collection of tuition and fees from all students is within the nongeneral fund appropriation for educational and general programs provided in this act.

b) The Boards of Visitors or other governing bodies of institutions of higher education may set tuition and fee charges at levels they deem to be appropriate for all nonresident student groups based on, but not limited to, competitive market rates, provided that: i) the tuition and mandatory educational and general fee rates for nonresident undergraduate and graduate students cover at least 100 percent of the average cost of their education, as calculated through base adequacy guidelines adopted, and periodically amended, by the Joint Subcommittee Studying Higher Education Funding Policies, and ii) the total revenue generated by the collection of tuition and fees from all students is within the nongeneral fund appropriation for educational and general programs provided in this act.

c) For institutions charging nonresident students less than 100 percent of the cost of education, the State Council of Higher Education for Virginia may authorize a phased approach to meeting this requirement, when in its judgment, it would result in annual tuition and fee increases for nonresident students that would discourage their enrollment.

d) The Boards of Visitors or other governing bodies of institutions of higher education shall not increase the current proportion of nonresident undergraduate students if the institution's nonresident undergraduate enrollment exceeds 25 percent. Norfolk State University, Virginia Military Institute, Virginia State University, and two-year public institutions are exempt from this restriction.

3. a) In setting the nongeneral fund appropriation for educational and general programs at the institutions of higher education, the General Assembly shall take into consideration the appropriate student share of costs associated with providing full funding of the base adequacy guidelines referenced in subparagraph 2. b), raising average salaries for teaching and research faculty to the 60th percentile of peer institutions, and other priorities set forth in this act.

b) In determining the appropriate state share of educational costs for resident students, the General Assembly shall seek to cover at least 67 percent of educational costs associated with providing full funding of the base adequacy guidelines referenced in subparagraph 2. b), raising average salaries for teaching and research faculty to the 60th percentile of peer institutions, and other priorities set forth in this act.

4. a) Each institution and the State Council of Higher Education for Virginia shall monitor tuition, fees, and other charges, as well as the mix of resident and nonresident students, to ensure that the primary mission of providing educational opportunities to citizens of Virginia is served, while recognizing the material contributions provided by the presence of nonresident students. The State Council of Higher Education for Virginia shall also develop and enforce uniform guidelines for reporting student enrollments and the domiciliary status of students.

b) The State Council of Higher Education for Virginia shall report to the Governor and the Chairmen of the House Appropriations and Senate Finance Committees no later than August 1 of each year the annual change in total charges for tuition and all required fees approved and allotted by the Board of Visitors. As it deems appropriate, the State Council of Higher Education for Virginia shall provide comparative national, peer, and market data with respect to charges assessed students for tuition and required fees at institutions outside of the Commonwealth.

c) Institutions of higher education are hereby authorized to make the technology service fee authorized in Chapter 1042, 2003 Acts of Assembly, part of ongoing tuition revenue. Such revenues shall continue to be used to supplement technology resources at the institutions of higher education.

d) Except as provided in Chapters 933 and 943 of the 2006 Acts of Assembly, Chapters 594 and 616 of the 2008 Acts of Assembly, and Chapters 675 and 685 of the 2009 Acts of Assembly, each institution shall work with the State Council of Higher Education for Virginia and the Virginia College Savings Plan to determine appropriate tuition and fee estimates for tuition savings plans.

5. It is the intent of the General Assembly that each institution's combined general and nongeneral fund appropriation within its educational and general program closely approximate the anticipated annual budget each fiscal year.

6. Nonresident graduate students employed by an institution as teaching assistants, research assistants, or graduate assistants and paid at an annual contract rate of \$4,000 or more may be considered resident students for the purposes of charging tuition and fees.

7. The fund source "Higher Education Operating" within educational and general programs for institutions of higher education includes tuition and fee revenues from nonresident students to pay their proportionate share of the amortized cost of the construction of buildings approved by the Commonwealth of Virginia Educational Institutions Bond Act of 1992 and the Commonwealth of Virginia Educational Facilities Bond Act of 2002.

8. a) Except as provided in Chapters 933 and 943 of the 2006 Acts of Assembly, Chapters 594 and 616 of the 2008 Acts of Assembly, and Chapters 675 and 685 of the 2009 Acts of Assembly, mandatory fees for purposes other than educational and general programs shall not be increased for Virginia undergraduates beyond five percent annually, excluding requirements for wage, salary, and fringe benefit increases, authorized by the General Assembly. Fee increases required to carry out actions that respond to mandates of federal agencies are also exempt from this provision, provided that a report on the purposes of the amount of the fee increase is submitted to the Chairmen of the House Appropriations and Senate Finance Committees by the institution of higher education at least 30 days prior to the effective date of the fee increase.

b) This restriction shall not apply in the following instances: fee increases directly related to capital projects authorized by the General Assembly; fee increases to support student health services; and other fee increases specifically authorized by the General Assembly.

c) Due to the small mandatory non-educational and general program fees currently assessed students in the Virginia Community College System, increases in any one year of no more than \$15 shall be allowed on a cost-justified case-by-case basis, subject to approval by the State Board for Community Colleges.

9. Any institution of higher education granting new tuition waivers to resident or nonresident students not authorized by the Code of Virginia must absorb the cost of any discretionary waivers.

10. Tuition and fee revenues from nonresident students taking courses through Virginia institutions from the Southern Regional Education Board's Southern Regional Electronic Campus must exceed all direct and indirect costs of providing instruction to those students. Tuition and fee rates to meet this requirement shall be established by the Board of Visitors of the institution.

#### c. HIGHER EDUCATION PLANNED EXCESS REVENUES:

An institution of higher education, except for those public institutions governed by Chapters 933 and 943 of the 2006 Acts of Assembly, Chapters 594 and 616 of the 2008 Acts of Assembly, and Chapters 675 and 685 of the 2009 Acts of Assembly, may generate and retain tuition and fee revenues in excess of those provided in § 4-2.01 b Higher Education Tuition and Fees, subject to the following:

1. Such revenues are identified by language in the appropriations in this act to any such institution.

2. The use of such moneys is fully documented by the institution to the Governor prior to each fiscal year and prior to allotment.

3. The moneys are supplemental to, and not a part of, ongoing expenditure levels for educational and general programs used as the basis for funding in subsequent biennia.

4. The receipt and expenditure of these moneys shall be recorded as restricted funds on the books of the Department of Accounts and shall not revert to the surplus of the general fund at the end of the biennium.

5. Tuition and fee revenues generated by the institution other than as provided herein shall be subject to the provisions of § 4-1.04 a.3 Gifts, Grants, and Other Nongeneral Funds of this act.

d. SETTLEMENTS NEGOTIATED BY THE OFFICE OF THE ATTORNEY GENERAL:

1. There is hereby created the Disbursement Review Committee (the "Committee"), the members of which are the Attorney General, who shall serve as chairman; the Chairman of the House Committee on Appropriations and one Delegate appointed by him, or their designees; the Chairman of the Senate Committee on Finance and one Senator appointed by him, or their designees; and two individuals appointed by the Governor. Whenever the Attorney General reasonably expects that there will be money or any real, tangible, or intangible property ("money or property"), or both, other than criminal fines (which would go to the Literary Fund) or attorney's fees (i) due or available to the Commonwealth as a result of any civil or criminal dispute or (ii) available to the Commonwealth or to any state or local governmental entity in the Commonwealth from any federal entity pursuant to an asset forfeiture equitable sharing agreement or other legal action, including a compromise, settlement, or agreement in a multistate action in which the Attorney General has participated on behalf of the Commonwealth or an agency of the Commonwealth, he shall forthwith notify all members of the Committee of the pertinent facts, and may convene a meeting of the Committee, but shall convene a meeting of the Committee at the request of any member.

2. For a compromise, settlement, or agreement under subdivision 1(i) above, the Attorney General shall prepare and recommend to the Committee a proposed Distribution Plan (the "Plan") regarding the distribution and use of money or property, or both, to be received by the Commonwealth as a result of any such compromise, settlement, or agreement. The Committee may propose the same or a modified Plan to the General Assembly for the distribution or use, or both, of such money or property, or both.

3. For a compromise, settlement, or agreement under subdivision 1(ii) above, if the distribution or use, or both, of any money or property, or both, to be received by the Commonwealth is determined by a court order, federal law, or by a federal entity pursuant to federal law (such as a federal asset forfeiture sharing agreement), the Attorney General shall prepare and provide to the Committee a proposed Plan for the distribution and use of any such money or property, or both, that is consistent with such court order, federal law, or regulations or policies of such federal agency. If the permissible purpose(s) for the distribution or use, or both, of such money or property, or both, is described in general terms (for example, it must be used for "law enforcement purposes" or for "consumer education"), the Committee may propose a modified Plan with a more particular distribution or use, or both, that falls within such general permissible purpose(s). If a federal entity must approve the final Plan for such distribution or use, or both, and does not approve the Plan submitted to it by the Attorney General, he shall so inform the Committee, and the Plan may be revised if deemed appropriate and resubmitted to the federal entity for approval. If the federal entity approves the original Plan or a revised Plan, the Attorney General shall so inform the Committee, and the Committee shall recommend to the General Assembly distribution or use, or both, of such money or property, or both, that is consistent with the Plan approved by the federal entity.

4. The Attorney General shall not enter into any compromise, settlement, or agreement for the distribution of money or property, or both, to be received by the Commonwealth under subdivision 1(i) or 1(ii) unless the compromise, settlement, or agreement provides that such money or property, or both, is to be deposited into the state treasury. No such distribution shall occur without a specific appropriation by the General Assembly that is consistent with the permissible purpose(s) set forth in the court order or federal law or by the federal entity. If a federal entity must approve the final Plan for such distribution or use, or both, and the General Assembly's appropriation in an appropriation act differs from the Plan approved by the federal entity, the appropriation shall be submitted to the federal entity for approval. The distribution of any money or property, or both, shall be done in a manner as prescribed by the State Comptroller in order to ensure proper accounting on the books of the Commonwealth.

## ITEM VETO CONTINUED FROM PAGE 818. /s/ Terence R. McAuliffe (6/21/14) (Vetoed item is enclosed in brackets.)

5. The provisions of subdivisions 1) through 4) shall not apply to any negotiation, compromise, settlement, or agreement involving money or property, or both (a) where the distribution and use of such money or property, or both, is governed specifically by this act or by the constitution or other law of the Commonwealth, (b) in which the total value of such moneys or property does not exceed \$250,000, or (c) in which the entire amount of the settlement is for services provided, or for property sold or provided, under a contract with a governmental entity. "Governmental entity" shall include, without limitation, public institutions of higher education. The General Assembly hereby appropriates a sum sufficient amount for any settlement or agreement authorized solely by virtue of this subdivision 5. The following conditions shall apply to indirect cost recoveries received by all agencies other than institutions of higher education:

1. The Governor shall include in the recommended nongeneral fund appropriation for each agency in this act the amount which the agency includes in its revenue estimate as an indirect cost recovery. The recommended nongeneral fund appropriations shall reflect the indirect costs in the program incurring the costs.

2. If actual agency indirect cost recoveries exceed the nongeneral fund amount appropriated in this act, the Director, Department of Planning and Budget, is authorized to increase the nongeneral fund appropriation to the agency by the amount of such excess indirect cost recovery. Such increase shall be made in the program incurring the costs.

3. Statewide indirect cost recoveries shall be paid into the general fund of the state treasury, unless the agency is specifically exempted from this requirement by language in this act. Any statewide indirect cost recoveries received by the agency in excess of the exempted sum shall be deposited to the general fund of the state treasury.

## c. INSTITUTIONS OF HIGHER EDUCATION:

The following conditions shall apply to indirect cost recoveries received by institutions of higher education:

2. Thirty percent of the indirect cost recoveries for the level of sponsored programs authorized in the appropriations in Part 1 of Chapter 1042 of the Acts of Assembly of 2003, shall be included in the educational and general revenues of the institution to meet administrative costs.

3. Institutions of higher education may retain 100 percent of the indirect cost recoveries related to research grant and contract levels in excess of the levels authorized in Chapter 1042 of the Acts of Assembly of 2003. This provision is included as an additional incentive for increasing externally funded research activities.

The Director, Department of Planning and Budget, shall make available via electronic means a report to the Chairmen of the Senate Finance and House Appropriations Committees and the public no later than September 1 of each year on the indirect cost recovery moneys administratively appropriated.

2. The Governor is authorized to approve deficit funding for a state agency under the following conditions:

a) an unanticipated federal or judicial mandate has been imposed,

b) insufficient moneys are available in the first year of the biennium for start-up of General Assembly-approved action, or

c) delay pending action by the General Assembly at its next legislative session will result in the curtailment of services required by statute or those required by federal mandate or will produce a threat to life, safety, health or property.

d) Such approval by the Governor shall be in writing under the conditions described in § 4-3.02 a Authorized Deficit Loans of this act and shall be promptly communicated to the Chairmen of the House Appropriations and Senate Finance Committees within five calendar days of deficit approval.

3. Deficits shall not be authorized for capital projects.

4. The Department of Transportation may obligate funds in excess of the current biennium appropriation for projects of a capital nature not covered by § 4-4.00 Capital Projects, of this act provided such projects a) are delineated in the Virginia Transportation Six-Year Improvement Program, as approved by the Commonwealth Transportation Board; and b) have sufficient cash allocated to each such project to cover projected costs in each year of the Program; and provided that c) sufficient revenues are projected to meet all cash obligations for such projects as well as all other commitments and appropriations approved by the General Assembly in the biennial budget.

b. UNAUTHORIZED DEFICITS: If any agency contravenes any of the prohibitions stated above, thereby incurring an unauthorized deficit, the Governor is hereby directed to withhold approval of such excess obligation or expenditure. Further, there shall be no reimbursement of said excess, nor shall there be any liability or obligation upon the state to make any appropriation hereafter to meet such unauthorized deficit. Further, those members of the governing board of any such agency who shall have voted therefor, or its head if there be no governing board, making any such excess obligation or expenditure shall be personally liable for the full amount of such unauthorized deficit and, at the discretion of the Governor, shall be deemed guilty of neglect of official duty and be subject to removal therefor. Further, the State Comptroller is hereby directed to make public any such unauthorized deficit, and the Director, Department of Planning and Budget, is hereby directed to set out such unauthorized deficits in the next biennium budget. In addition, the Governor is directed to bring this provision of this act to the attention of the members of the governing board of each state agency, or its head if there be no governing board, within two weeks of the date that this act becomes effective. The governing board or the agency head shall execute and return to the Governor a signed acknowledgment of such notification.

c. TOTAL AUTHORIZED DEFICITS: The amount which the Governor may authorize, under the provisions of this section during the current biennium, to be expended from loans repayable out of the general fund of the state treasury, for all state agencies, or other agencies combined, in excess of general fund appropriations for the current biennium, shall not exceed one and one-half percent (1 1/2%) of the revenues collected and paid into the general fund of the state treasury as defined in § 4-2.02 b. of this act during the last year of the previous biennium and the first year of the current biennium.

d. The Governor shall report any such authorized and unauthorized deficits to the Chairmen of the House Appropriations and Senate Finance Committees within five calendar days of deficit approval. By August 15 of each year, the Governor shall provide a comprehensive report to the Chairmen of the House Appropriations and Senate Finance Committees detailing all such deficits.

At the close of business on the last day of the current biennium, any unexpended balance of such loan shall be applied toward repayment of the loan, unless such action is contrary to the conditions of the loan approval. The Director, Department of Planning and Budget, shall set forth in the next biennial budget all such loans which require an appropriation for repayment. Prior to consideration by the Treasury Board, the Departments of Accounts, General Services, and Planning and Budget shall notify the Treasury Board upon their approval of any transaction which qualifies as a capital lease under the terms of this section. The State Treasurer shall notify the Chairmen of the House Appropriations and Senate Finance Committees of the action of the Treasury Board as it regards this subdivision within five calendar days of its action.

c. REPORTS: Not later than December 20 of each year, the Secretary of Finance and the Secretary of Administration shall jointly be responsible for providing the Chairmen of the House Appropriations and Senate Finance Committees with recommendations involving proposed capital lease agreements.

d. This section shall not apply to capital leases that are funded entirely with nongeneral fund revenues and are entered into by public institutions of higher education governed by Chapters 933 and 943 of the 2006 Acts of Assembly. Furthermore, the Department of General Services is authorized to enter into capital leases for executive branch agencies provided that the resulting capital lease is funded entirely with nongeneral funds, is approved based on the requirements of § 4-3.03 b.1 and 2 above, and would not be considered tax supported debt of the Commonwealth.

#### § 4-4.00 CAPITAL PROJECTS

#### § 4-4.01 GENERAL

##### a. Definition:

1. Unless defined otherwise, when used in this section, "capital project" or "project" means acquisition of property and new construction and improvements related to state-owned property, plant or equipment (including plans therefor), as the terms "acquisition", "new construction", and "improvements" are defined in the instructions for the preparation of the Executive Budget. "Capital project" or "project" shall also mean any improvements to property leased for use by a state agency, and not owned by the state, when such improvements are financed by public funds, except as hereinafter provided in subdivisions 3 and 4 of this subsection.

2. The provisions of this section are applicable equally to acquisition of property and plant by purchase, gift, or any other means, including the acquisition of property through a lease/purchase contract, regardless of the method of financing or the source of funds. Acquisition of property by lease shall be subject to § 4-3.03 of this act.

3. The provisions of this section shall not apply to property or equipment acquired by lease or improvements to leased property and equipment when the improvements are provided by the lessor pursuant to the terms of the lease and upon expiration of the lease remain the property of the lessor.

4. The provisions of this section shall not apply to property leased by state agencies for the purposes described in §§ 2.2-1151 C and 33.1-93, Code of Virginia.

b. Notwithstanding any other provisions of law, requests for appropriations for capital projects shall be subject to the following:

1. The agency shall submit a capital project proposal for all requested capital projects. Such proposals shall be submitted to the Director, Department of Planning and Budget, for review and approval in accordance with guidelines prescribed by the director. Projects shall be developed to meet agency functional and space requirements within a cost range comparable to similar public and private sector projects.

2. Except for institutions of higher education governed by Chapters 933 and 943 of the 2006 Acts of Assembly, Chapters 594 and 616 of the 2008 Acts of Assembly and Chapters 675 and 685 of the 2009 Acts of Assembly, financings for capital projects shall comply, where applicable, with the Treasury Board Guidelines issued pursuant to § 2.2-2416, Code of Virginia, and any subsequent amendments thereto.

3. As part of any request for appropriations for an armory, the Department of Military Affairs shall obtain a written commitment from the host locality to share in the operating expense of the armory.

c. Each agency head shall provide annually to the Director, Department of Planning and Budget, a report on the use of the maintenance reserve appropriation of the agency in Part 2 of this act. In the use of its maintenance reserve appropriation, an agency shall give first priority to the repair or replacement of roof on buildings under control of the agency. The agency head shall certify in the agency's annual maintenance reserve report that to the best of his or her knowledge, all necessary roof repairs have been accomplished or are in the process of being accomplished. Such roof repairs and replacements shall be in accord with the technical requirements of the Commonwealth's Construction and Professional Services Manual.

d. The Department of Planning and Budget shall review its approach to capital outlay planning and budgeting from time to time and make available via electronic means a report of any proposed change to the Chairmen of the House Appropriations and Senate Finance Committees and the public prior to its implementation. Such report shall include an analysis of the impact of the suggested change on affected agencies and institutions.

e. Nothing in §§ 2-0 and 4-4.00 of this act shall be deemed to override the provisions of §§ 2.2-1132 and 62.1-132.6, Code of Virginia, amended by Chapter 488, 1997 Acts of Assembly, relating to Virginia Port Authority capital projects and procurement activities.

f. It is the intent of the General Assembly that the Department of Conservation and Recreation shall be authorized to initiate and accept by gift or purchase with nongeneral fund dollars any lands for State Park or Natural Area purposes which may become available, and that are not specifically appropriated by the General Assembly, when such acquisitions are made in accordance with the provisions of this section and other applicable provisions of state law including approval by the Governor.

g. Legislative Approval: It is the intent of the General Assembly that, with the exceptions noted in this paragraph and paragraph m, all capital projects to be undertaken by agencies of the Commonwealth, including institutions of higher education, shall be pursuant to approvals by the General Assembly as provided in the Six-Year Capital Outlay Plan established pursuant to § 2.2-1515, et seq., Code of Virginia. Otherwise, the consideration of capital projects shall be limited to:

1. Supplementing projects which have been bid and determined to have insufficient funding to be placed under contract, and
2. Projects declared by the Governor or the General Assembly to be of an emergency nature, which may avoid an increase in cost or otherwise result in a measurable benefit to the state, and/or which are required for the continued use of existing facilities.
3. This paragraph does not prohibit the initiation of projects authorized by § 4-4.01 m hereof, or projects included under the central appropriations for capital project expenses in this act.

h. Preliminary Requirements: In regard to each capital project for which appropriation or reappropriation is made pursuant to this act, or which is hereafter considered by the Governor for inclusion in the Executive Budget, or which is offered as a gift or is considered for purchase, the Governor is hereby required: (1) to determine the urgency of its need, as compared with the need for other capital projects as herein authorized, or hereafter considered; (2) to determine whether the proposed plans and specifications for each capital project are suitable and adequate, and whether they involve expenditures which are excessive for the purposes intended; (3) to determine whether labor, materials, and other requirements, if any, needed for the acquisition or construction of such project can and will be obtained at reasonable cost; and (4) to determine whether or not the project conforms to a site or master plan approved by the agency head or board of visitors of an institution of higher education for a program approved by the General Assembly.

i. Initiation Generally:

1. No architectural or engineering planning for, or construction of, or purchase of any capital project shall be commenced or revised without the prior written approval of the Governor or his designee.
2. The requirements of § 10.1-1190, Code of Virginia, shall be met prior to the release of funds for a major state project, provided, however, that the Governor or his designee is authorized to release from any appropriation for a major state project made pursuant to this act such sum or sums as may be necessary to pay for the preparation of the environmental impact report required by § 10.1-1188, Code of Virginia.

3. The Governor, at his discretion, or his designee may release from any capital project appropriation or reappropriation made pursuant to this act such sum (or sums) as may be necessary to pay for the preparation of plans and specifications by architects and engineers, provided that the estimated cost of the construction covered by such drawings and specifications does not exceed the appropriation therefor; provided, further, however, that the architectural and engineering fees paid on completion of the preliminary design for any such project may be based on such estimated costs as may be approved by the Governor in writing, where it is shown to the satisfaction of the Governor that higher costs of labor or material, or both, or other unforeseen conditions, have made the appropriation inadequate for the completion of the project for which the appropriation was made, and where in the judgment of the Governor such changed conditions justify the payment of architectural or engineering fees based on costs exceeding the appropriation.

4. Architectural or engineering contracts shall not be awarded in perpetuity for capital projects at any state institution, agency or activity.

j. Capital Projects Financed with Bonds: Capital projects proposed to be financed with (i) 9 (c) general obligation bonds or (ii) 9(d) obligations where debt service is expected to be paid from project revenues or revenues of the agency or institution, shall be reviewed as follows:

1. By August 15 of each year, requests for inclusion in the Executive Budget of capital projects to be financed with 9(c) general obligation bonds shall be submitted to the State Treasurer for evaluation of financial feasibility. Submission shall be in accordance with the instructions prescribed by the State Treasurer. The State Treasurer shall distribute copies of financial feasibility studies to the Director, Department of Planning and Budget, the Secretary for the submitting agency or institution, the Chairmen of the House Appropriations and Senate Finance Committees, and the Director, State Council of Higher Education for Virginia, if the project is requested by an institution of higher education.

2. By August 15 of each year, institutions shall also prepare and submit copies of financial feasibility studies to the State Council of Higher Education for Virginia for 9(d) obligations where debt service is expected to be paid from project revenues or revenues of the institution. The State Council of Higher Education for Virginia shall identify the impact of all projects requested by the institutions of higher education, and as described in § 4-4.01 j.1. of this act, on the current and projected cost to students in institutions of higher education and the impact of the project on the institution's need for student financial assistance. The State Council of Higher Education for Virginia shall report such information to the Secretary of Finance and the Chairmen of the House Appropriations and Senate Finance Committees no later than October 1 of each year.

3. Prior to the issuance of debt for 9(c) general obligation projects, when more than one year has elapsed since the review of financial feasibility specified in § 4-4.01 j 1 above, an updated feasibility study shall be prepared by the agency and reviewed by the State Treasurer prior to requesting the Governor's Opinion of Financial Feasibility required under Article X, Section 9 (c), of the Constitution of Virginia.

k. Transfers to supplement capital projects from nongeneral funds may be made under the conditions set forth in §§ 4-1.03 a, 4-1.04 a.3, and 4-4.01 m of this act.

1.1. Change in Size and Scope: Unless otherwise provided by law, the scope, which is the function or intended use, of any capital project may not be substantively changed, nor its size increased or decreased by more than five percent in size beyond the plans and justification which were the basis for the appropriation or reappropriation in this act or for the Governor's authorization pursuant to § 4-4.01 m of this act. However, this prohibition is not applicable to changes in size and scope required because of circumstances determined by the Governor to be an emergency, or requirements imposed by the federal government when such capital project is for armories or other defense-related installations and is funded in whole or in part by federal funds. Furthermore, this prohibition shall not apply to minor increases, beyond five percent, in square footage determined by the Director, Department of General Services, to be reasonable and appropriate based on a written justification submitted by the agency stating the reason for the increase, with the provision that such increase will not increase the cost of the project beyond the amount appropriated; nor to decreases in size beyond five percent to offset unbudgeted costs when such costs are determined by the Director, Department of Planning and Budget, to be reasonable based on a written justification submitted by the agency specifying the amount and nature of the unbudgeted costs and the types of actions that will be taken to decrease the size of the project. The written justification shall also include a certification, signed by the agency head, that the resulting project will be consistent with the original programmatic intent of the appropriations.

2. If space planning, energy conservation, and environmental standards guides for any type of construction have been approved by the Governor or the General Assembly, the Governor shall require capital projects to conform to such planning guides.

m. Projects Not Included In This Act:

1. Authorization by Governor:

a) The Governor may authorize initiation of, planning for, construction of or acquisition of a nongeneral fund capital project not specifically included in this act or provided for a program approved by the General Assembly through appropriations, under one or more of the following conditions:

1) The project is required to meet an emergency situation.

- 2) The project is to be operated as an auxiliary enterprise or sponsored program in an institution of higher education and will be fully funded by revenues of auxiliary enterprises or sponsored programs.
  - 3) The project is to be operated as an educational and general program in an institution of higher education and will be fully funded by nongeneral fund revenues of educational and general programs or from private gifts and indirect cost recoveries.
  - 4) The project consists of plant or property which has become available or has been received as a gift.
  - 5) The project has been recommended for funding by the Tobacco Indemnification and Community Revitalization Commission or the Virginia Tobacco Settlement Foundation.
- b) The foregoing conditions are subject to the following criteria:
- 1) Funds are available within the appropriations made by this act (including those subject to §§ 4-1.03 a, 4-1.04 a.3, and 4-2.03) without adverse effect on other projects or programs, or from unappropriated nongeneral fund revenues or balances.
  - 2) In the Governor's opinion such action may avoid an increase in cost or otherwise result in a measurable benefit to the state.
  - 3) The authorization includes a detailed description of the project, the project need, the total project cost, the estimated operating costs, and the fund sources for the project and its operating costs.
  - 4) The Chairmen of the House Appropriations and Senate Finance Committees shall be notified by the Governor prior to the authorization of any capital project under the provisions of this subsection.
  - 5) Permanent funding for any project initiated under this section shall only be from nongeneral fund sources.
2. Authorization by Director, Department of Planning and Budget:
- a) The Director, Department of Planning and Budget, may authorize initiation of a capital project not included in this act, if the General Assembly has enacted legislation to fund the project from bonds of the Virginia Public Building Authority, Virginia College Building Authority, or from reserves created by refunding of bonds issued by those Authorities.
3. Delegated authorization by Boards of Visitors, Public Institutions of Higher Education:
- a) In accordance with § 4-5.06 of this act, the board of visitors of any public institution of higher education that: i) has met the eligibility criteria set forth in Chapters 933 and 945 of the 2005 Acts of Assembly for additional operational and administrative autonomy, including having entered into a memorandum of understanding with the Secretary of Administration for delegated authority of nongeneral fund capital outlay projects, and ii) has received a sum sufficient nongeneral fund appropriation for emergency projects as set out in Part 2: Capital Project Expenses of this act, may authorize the initiation of any capital project that is not specifically set forth in this act provided that the project meets at least one of the conditions and criteria identified in § 4-4.01 m 1 of this act.
  - b) At least 30 days prior to the initiation of a project under this provision, the board of visitors must notify the Governor and Chairmen of the House Appropriations and Senate Finance Committees and must provide a life-cycle budget analysis of the project. Such analysis shall be in a form to be prescribed by the Auditor of Public Accounts.
  - c) The Commonwealth of Virginia shall have no general fund obligation for the construction, operation, insurance, routine maintenance, or long-term maintenance of any project authorized by the board of visitors of a public institution of higher education in accordance with this provision.
- n. Acquisition, maintenance, and operation of buildings and nonbuilding facilities in colleges and universities shall be subject to the following policies:
1. The anticipated program use of the building or nonbuilding facility should determine the funding source for expenditures for acquisition, construction, maintenance, operation, and repairs.
  2. Expenditures for land acquisition, site preparation beyond five feet from a building, and the construction of additional outdoor lighting, sidewalks, outdoor athletic and recreational facilities, and parking lots in the Virginia Community College System shall be made only from appropriated federal funds, Trust and Agency funds, including local government allocations or appropriations, or the proceeds of indebtedness authorized by the General Assembly.
  3. The general policy of the Commonwealth shall be that parking services are to be operated as an auxiliary enterprise by all colleges and universities. Institutions should develop sufficient reserves for ongoing maintenance and replacement of parking facilities.
  4. Except as provided in paragraph 2 above, expenditures for maintenance, replacement, and repair of outdoor lighting, sidewalks, and other infrastructure facilities may be made from any appropriated funds.

5. Expenditures for operations, maintenance, and repair of athletic, recreational, and public service facilities, both indoor and outdoor, should be from nongeneral funds. However, this condition shall not apply to any indoor recreational facility existing on a community college campus as of July 1, 1988.

6.a.1. At institutions of higher education that have met the eligibility criteria for additional operational and administrative authority as set forth in Chapters 933 and 945 of the 2005 Acts of Assembly or Chapters 824 and 829 of the 2008 Acts of Assembly, any repair, renovation, or new construction project costing up to \$2,000,000 shall be exempt from the capital outlay review and approval process. For purposes of this paragraph, projects shall not include any subset of a series of projects, which in combination would exceed the \$2,000,000 maximum.

2. All institutions of higher education shall be exempt from the capital review and approval process for repair, renovation, or new construction projects costing up to \$2,000,000.

b. Blanket authorizations funded entirely by nongeneral funds may be used for 1) renovation and infrastructure projects costing up to \$2,000,000 and 2) the planning of nongeneral fund new construction and renovation projects through bidding, with bid award made after receipt of a construction authorization. The Director, Department of Planning and Budget, may provide exemptions to the threshold.

7. It is the policy of the Commonwealth that the institutions of higher education shall treat the maintenance of their facilities as a priority for the allocation of resources. No appropriations shall be transferred from the "Operation and Maintenance of Plant" subprogram except for closely and definitely related purposes, as approved by the Director, Department of Planning and Budget, or his designee. A report providing the rationale for each approved transfer shall be made to the Chairmen of the House Appropriations and Senate Finance Committees.

o. Legislative Intent and Reporting: Appropriations for capital projects shall be deemed to have been made for purposes which require their expenditure, or being placed under contract for expenditure, during the current biennium. Agencies to which such appropriations are made in this act or any other act are required to report progress as specified by the Governor. If, in the opinion of the Governor, these reports do not indicate satisfactory progress, he is authorized to take such actions as in his judgment may be necessary to meet legislative intent as herein defined. Reporting on the progress of capital projects shall be in accordance with § 4-8.00, Reporting Requirements.

p. No expenditure from a general fund appropriation in this act shall be made to expand or enhance a capital outlay project beyond that anticipated when the project was initially approved by the General Assembly except to comply with requirements imposed by the federal government when such capital project is for armories or other defense-related installations and is funded in whole or in part by federal funds. General fund appropriations in excess of those necessary to complete the project shall not be reallocated to expand or enhance the project, or be reallocated to a different project. The prohibitions in this subsection shall not apply to transfers from projects for which reappropriations have been authorized.

q. Local or private funds to be used for the acquisition, construction or improvement of capital projects for state agency use as owner or lessee shall be deposited into the state treasury for appropriation prior to their expenditure for such projects.

r. State-owned Registered Historic Landmarks: To guarantee that the historical and/or architectural integrity of any state-owned properties listed on the Virginia Landmarks Register and the knowledge to be gained from archaeological sites will not be adversely affected because of inappropriate changes, the heads of those agencies in charge of such properties are directed to submit all plans for significant alterations, remodeling, redecoration, restoration or repairs that may basically alter the appearance of the structure, landscaping, or demolition to the Department of Historic Resources. Such plans shall be reviewed within thirty days and the comments of that department shall be submitted to the Governor through the Department of General Services for use in making a final determination.

s.1. The Governor may authorize the conveyance of any interest in property or improvements thereon held by the Commonwealth to the educational or real estate foundation of any institution of higher education where he finds that such property was acquired with local or private funds or by gift or grant to or for the use of the institution, and not with funds appropriated to the institution by the General Assembly. Any approved conveyance shall be exempt from § 2.2-1156, Code of Virginia, and any other statute concerning conveyance, transfer or sale of state property. If the foundation conveys any interest in the property or any improvements thereon, such conveyance shall likewise be exempt from compliance with any statute concerning disposition of state property. Any income or proceeds from the conveyance of any interest in the property shall be deemed to be local or private funds and may be used by the foundation for any foundation purpose.

2. This section shall not apply to public institutions of higher education governed by Chapters 933 and 943 of the 2006 Acts of Assembly, Chapters 594 and 616 of the 2008 Acts of Assembly, Chapters 824 and 829 of the 2008 Acts of Assembly, and Chapters 675 and 685 of the 2009 Acts of Assembly.

t.1. Facility Lease Agreements Involving Institutions of Higher Education: In the case of any lease agreement involving state-owned property controlled by an institution of higher education, where the lease has been entered into consistent with the provisions of § 2.2-1155, Code of Virginia, the Governor may amend, adjust or waive any project review and reporting procedures of Executive agencies as may reasonably be required to promote the property improvement goals for which the lease agreement was developed.

2. This section shall not apply to public institutions of higher education governed by Chapters 933 and 943 of the 2006 Acts of Assembly, Chapters 594 and 616 of the 2008 Acts of Assembly, Chapters 824 and 829 of the 2008 Acts of Assembly, and Chapters 675 and 685 of the 2009 Acts of Assembly.

u. Energy-efficiency Projects: Improvements to state-owned properties for the purpose of energy-efficiency shall be treated as follows:

1. Such improvements shall be considered an operating expense, provided that:

a) the scope of the project meets or exceeds the applicable energy-efficiency standards set forth in the American Society of Heating, Refrigerating, and Air Conditioning Engineers (ASHRAE), the Illuminating Engineering Society (IES) standard 90.1-1989 and is limited to measures listed in guidelines issued by the Department of General Services;

b) the project is financed consistent with the provisions of § 2.2-2417, Code of Virginia, which requires Treasury Board approval and is executed through a nonprofessional services contract with a vendor approved by the Department of General Services;

c) the scope of work has been reviewed and recommended by the Department of Mines, Minerals and Energy;

d) the total cost does not exceed \$3,000,000; and

e) if the total cost exceeds \$3,000,000, but does not exceed \$7,000,000, the energy savings from the project offset the total cost of the project, including debt service and interest payments.

2. If (a) the total cost of the improvement exceeds \$7,000,000 or (b) the total cost exceeds \$3,000,000, but does not exceed \$7,000,000, and the energy savings from the project do not fully offset the total cost of the project, including debt services and interest payments, the improvement shall be considered a capital expense regardless of the type of improvement and the following conditions must be met:

a) the scope of the project meets or exceeds the applicable energy-efficiency standards set forth in the American Society of Heating, Refrigerating, and Air Conditioning Engineers (ASHRAE), the Illuminating Engineering Society (IES) standard 90.1-1989 and is limited to measures listed in guidelines issued by the Department of General Services;

b) the project is financed consistent with the provisions of § 2.2-2417, Code of Virginia, which requires Treasury Board approval and is executed through a nonprofessional services contract with a vendor approved by the Department of General Services;

c) the scope of work has been reviewed and recommended by the Department of Mines, Minerals and Energy;

d) the project has been reviewed by the Department of Planning and Budget; and

e) the project has been approved by the Governor.

3. If the total project exceeds \$250,000, the agency director will submit written notification to the Director, Department of Planning and Budget, verifying that the project meets all of the conditions in subparagraph 1 above.

The provisions of §§ 2.0 and 4-4.01 of this act and the provisions of §2.2-1132, Code of Virginia, shall not apply to energy conservation projects that qualify as capital expenses.

4. As used in this paragraph, "improvement" does not include (a) constructing, enlarging, altering, repairing or demolishing a building or structure, (b) changing the use of a building either within the same use group or to a different use group when the new use requires greater degrees of structural strength, fire protection, exit facilities or sanitary provisions, or (c) removing or disturbing any asbestos-containing materials during demolition, alteration, renovation of or additions to building or structures. If the projected scope of an energy-efficiency project includes any of these elements, it shall be subject to the capital outlay process as set out in this section.

5. The Director, Department of Planning and Budget, shall notify the Chairmen of the House Appropriations and Senate Finance Committees upon the initiation of any energy-efficiency projects under the provisions of this paragraph.

v. No expenditures shall be authorized for the purchase of fee simple title to any real property to be used for a correctional facility or for the actual construction of a correctional facility provided for in this act, or by reference hereto, that involves acquisition or new construction of youth or adult correctional facilities on real property which was not owned by the Commonwealth on January 1, 1995, until the governing body of the county, city or town wherein the project is to be located has adopted a resolution supporting the location of such project within the boundaries of the affected jurisdiction. The foregoing does not prohibit expenditures for site studies, real estate options, correctional facility design and related expenditures.

w. Except for institutions of higher education governed by Chapters 933 and 943 of the 2006 Acts of Assembly, Chapters 594 and 616 of the 2008 Acts of Assembly, and Chapters 675 and 685 of the 2009 Acts of Assembly, any alternative financing agreement entered into between a state agency or institution of higher education and a private entity or affiliated foundation must be reviewed and approved by the Treasury Board.

x. Prior to requesting authorization for new dormitory capital projects, institutions of higher education shall conduct a cost study to determine whether an alternative financing arrangement or public-private transaction would provide a more effective option for the construction of the proposed facility. This study shall be submitted to the Department of Planning and Budget as part of the budget development process and shall be evaluated by the Governor prior to submitting his proposed budget.

y. Any new construction project developed by or for the Chippokes Plantation Farm Foundation, with an estimated cost of \$750,000 or less, shall be exempt from the capital outlay review and approval process.

z. Construction or improvement projects of the Department of Military Affairs are not exempt from the capital outlay review process when the state procurement process is utilized, except for those projects with both an estimated cost of \$3,000,000 or less and are 100 percent federally reimbursed. The Department of Military Affairs shall submit by July 30 of each year to the Department of Planning and Budget a list of such projects that were funded pursuant to this exemption in the previous fiscal year and any projects that would be eligible for such funding in future fiscal years.

aa. Any bridge structure constructed and operated in accordance with the provisions of Chapter 581, 2009 Acts of Assembly, shall not be deemed to be within any locality to which it is attached pursuant to § 15.2-3105, Code of Virginia. This is declarative of existing law.

#### § 4-4.02 PLANNING AND BUDGETING

a. It shall be the intent of the General Assembly to make biennial appropriations for a capital improvements program sufficient to address the program needs of the Commonwealth. The capital improvements program shall include maintenance and deferred maintenance of the Commonwealth's existing facilities, and of the facility requirements necessary to deliver the programs of state agencies and institutions.

b. In effecting these policies, the Governor shall establish a capital budget plan to address the renewal and replacement of the Commonwealth's physical plant, using such guidelines as recommended by industry or government to maintain the Commonwealth's investment in its property and plant.

### § 4-5.00 SPECIAL CONDITIONS AND RESTRICTIONS ON EXPENDITURES

#### § 4-5.01 TRANSACTIONS WITH INDIVIDUALS

a. SETTLEMENT OF CLAIMS: Whenever a dispute, claim or controversy involving the interest of the Commonwealth is settled pursuant to § 2.2-514, Code of Virginia, payment may be made out of any appropriations, designated by the Governor, to the state agency(ies) which is (are) party to the settlement.

#### b. STUDENT FINANCIAL ASSISTANCE FOR HIGHER EDUCATION:

##### 1. General:

a) The appropriations made in this act to state institutions of higher education within the Items for student financial assistance may be expended for any one, all, or any combination of the following purposes: grants to undergraduate students enrolled at least one-half time in a degree, certificate or diploma program; grants to full-time graduate students; graduate assistantships; grants to students enrolled full-time in a dual or concurrent undergraduate and graduate program. The institutions may also use these appropriations for the purpose of supporting work study programs. The institution is required to transfer to educational and general appropriations all funds used for work study or to pay graduate assistantships. Institutions may also contribute to federal or private student grant aid programs requiring matching funds by the institution, except for programs requiring work. The State Council of Higher Education for Virginia shall annually review each institution's plan for the expenditures of its general fund appropriation for undergraduate student financial assistance prior to the start of the fall term to determine program compliance. The institution's plan shall include the institution's assumptions and calculations for determining the cost of attendance, student financial need, and student remaining need as well as an award schedule or description of how funds are awarded. For the purposes of the proposed plan, each community college shall be considered independently. No limitations shall be placed on the awarding of nongeneral fund appropriations made in this act to state institutions of higher education within the Items for student financial assistance other than those found previously in this paragraph and as follows: (i) funds derived from in-state student tuition will not subsidize out-of-state students, (ii) students receiving these funds must be making satisfactory academic progress, (iii) awards made to students should be based primarily on financial need, and (iv) institutions should make larger grant and scholarship awards to students taking the number of credit hours necessary to complete a degree in a timely manner.

b) All awards made to undergraduate students from such Items shall be for Virginia students only and such awards shall offset all, or portions of, the costs of tuition and required fees, and, in the case of students qualifying under subdivision b 2 c)1) hereof, the cost of books. All undergraduate financial aid award amounts funded by this appropriation shall be proportionate to the remaining need of individual students, with students with higher levels of remaining need receiving grants before other

students. No criteria other than the need of the student shall be used to determine the award amount. Because of the low cost of attendance and recognizing that federal grants provide a much higher portion of cost than at other institutions, a modified approach and minimum award amount for the neediest VGAP student should be implemented for community college and Richard Bland College students based on remaining need and the combination of federal and grant state aid. Student financial need shall be determined by a need-analysis system approved by the Council.

c)1) All need-based awards made to graduate students shall be determined by the use of a need-analysis system approved by the Council.

2) As part of the six-year financial plans required in the provisions of Chapters 933 and 945 of the 2005 Acts of Assembly, each institution of higher education shall report the extent to which tuition and fee revenues are used to support graduate student aid and graduate compensation and how the use of these funds impacts planned increases in student tuition and fees.

d) A student who receives a grant under such Items and who, during a semester, withdraws from the institution which made the award must surrender the unearned portion. The institution shall calculate the unearned portion of the award based on the percentage used for federal Return to Title IV program purposes.

e) An award made under such Items to assist a student in attending an institution's summer session shall be prorated according to the size of comparable awards made in that institution's regular session.

f) The provisions of this act under the heading "Student Financial Assistance for Higher Education" shall not apply to the soil scientist scholarships authorized under § 23-38.3, Code of Virginia.

g) Unless noted elsewhere in this act, general fund awards shall be named "Commonwealth" grants.

h) Unless otherwise provided by statute, undergraduate awards shall not be made to students seeking a second or additional baccalaureate degree until the financial aid needs of first-degree seeking students are fully met.

#### 2. Grants To Undergraduate Students:

a) Each institution which makes undergraduate grants paid from its appropriation for student financial assistance shall expend such sums as approved for that purpose by the Council.

b) A student receiving an award must be duly admitted and enrolled in a degree, certificate or diploma program at the institution making the award, and shall be making satisfactory academic progress as defined by the institution for the purposes of eligibility under Title IV of the federal Higher Education Act, as amended.

In each instance, VGAP eligible students shall receive awards greater than other students with equivalent remaining need.

2) The amount of each VGAP grant shall vary according to each student's remaining need and the total of tuition, all required fees and the cost of books at the institution the student will attend upon acceptance for admission. The actual amount of the VGAP award will be determined by the proportionate award schedule adopted by each institution; however, those students with the greatest financial need shall be guaranteed an award at least equal to tuition.

3) It is the intent of the General Assembly that the Virginia Guaranteed Assistance Program serve as an incentive to financially needy students now attending elementary and secondary school in Virginia to raise their expectations and their academic performance and to consider higher education an achievable objective in their futures.

4) Students may not receive a VGAP and a Commonwealth grant in the same semester.

#### 3. Grants To Graduate Students:

5. Discontinued Loan Program:

a) If any federal student loan program for which the institutional contribution was appropriated by the General Assembly is discontinued, the institutional share of the discontinued loan program shall be repaid to the fund from which the institutional share was derived unless other arrangements for the use of the funds are recommended by the Council and approved by the Department of Planning and Budget. Should the institution be permitted to retain the federal contributions to the program, the funds shall be used according to arrangements authorized by the Council and approved by the Department of Planning and Budget.

b)1) An institution of higher education may discontinue its student loan fund established pursuant to Title 23, Chapter 4.01, Code of Virginia. The full amount of cash in such discontinued loan fund shall be paid into the state treasury into a nonrevertible nongeneral fund account. 3. Notwithstanding any provision of the Code of Virginia or this act to the contrary, the Department of Taxation shall be exempt from participating in the debt collection process of the Office of the Attorney General.

2. Pursuant to the policies and procedures of the State Council of Higher Education regarding approval of academic programs and the concomitant enrollment, no state institution of higher education shall operate any academic program with funds in this act unless approved by the Council and included in the Executive Budget, or approved by the General Assembly. This information may be presented in any and all media, such as newspapers, magazines, television or radio where the information may be in the form of news, public service announcements or advertisements. Other forms of acceptable presentation would include brochures, pamphlets, posters, notices, bulletins, official catalogs, flyers available at public places and formal or informal meetings with prospective students.

2. **Excessive Promotion Prohibited:** Each public institution of higher education is prohibited from using public funds under the control of the institution's Board of Visitors for the development, preparation, dissemination or presentation of any material intended or designed to induce students to attend by exaggerating or extolling the institution's virtues, faculty, students, facilities or programs through the use of hyperbole. Artwork and photographs which exaggerate or extol rather than supplement or complement permissible information are prohibited. Mass mailings are generally prohibited; however, either mass mailings or newspaper inserts, but not both, may be used if other methods of distributing permissible information are not economically feasible in the institution's local service area.

3. **Remedial Education:** Senior institutions of higher education shall make arrangements with community colleges for the remediation of students accepted for admission by the senior institutions.

4. **Compliance:** The president or chancellor of each institution of higher education is responsible for the institution's compliance with this subsection.

#### b. INFORMATION TECHNOLOGY FACILITIES AND SERVICES:

1.a) The Virginia Information Technologies Agency shall procure information technology and telecommunications goods and services of every description for its own benefit or on behalf of other state agencies and institutions, or authorize other state agencies or institutions to undertake such procurements on their own.

b) Except for research projects, research initiatives, or instructional programs at public institutions of higher education, or any non-major information technology project request from the Virginia Community College System, Longwood University, or from an institution of higher education which is a member of the Virginia Association of State Colleges and University Purchasing Professionals (VASCUPP) as of July 1, 2003, or any procurement of information technology and telecommunications goods and services by public institutions of higher education governed by some combination of Chapters 933 and 945 of the 2005 Acts of Assembly, Chapters 933 and 943 of the 2006 Acts of Assembly, Chapters 594 and 616 of the 2008 Acts of Assembly, Chapters 824 and 829 of the 2008 Acts of Assembly, and Chapters 675 and 685 of the 2009 Acts of Assembly, requests for authorization from state agencies and institutions to procure information technology and telecommunications goods and services on their own behalf shall be made in writing to the Chief Information Officer or his designee. d) Any procurement authorized by the Chief Information Officer or his designee for information technology and telecommunications goods and services, including geographic information systems, shall be issued by the requesting state agency or institution in accordance with the regulations, policies, procedures, standards, and guidelines of the Virginia Information Technologies Agency.

e) Nothing in this subsection shall prevent public institutions of higher education or the Virginia Community College System from using the services of Network Virginia.

f) To ensure that the Commonwealth's research universities maintain a competitive position with access to the national optical research network infrastructure including the National LambdaRail and Internet2, the Network Virginia Contract Administrator is hereby authorized to renegotiate the term of the existing contracts. Additionally, the contract administrator is authorized to competitively negotiate additional agreements in accordance with the Code of Virginia and all applicable regulations, as required, to establish and maintain research network infrastructure.

2. If the billing rates and associated systems for computer, telecommunications and systems development services to state agencies are altered, the Director, Department of Planning and Budget, may transfer appropriations from the general fund between programs affected. These transfers are limited to actions needed to adjust for overfunding or underfunding the program appropriations affected by the altered billing systems.

3. The provisions of this subsection shall not in any way affect the duties and responsibilities of the State Comptroller under the provisions of § 2.2-803, Code of Virginia.

4. It is the intent of the General Assembly that information technology (IT) systems, products, data, and service costs, including geographic information systems (GIS), be contained through the shared use of existing or planned equipment, data, or services which may be available or soon made available for use by state agencies, institutions, authorities, and other public bodies. State agencies, institutions, and authorities shall cooperate with the Virginia Information Technologies Agency in identifying the development and operational requirements for proposed IT and GIS systems, products, data, and services, including the proposed use, functionality, capacity and the total cost of acquisition, operation and maintenance.

5. This section shall not apply to public institutions of higher education governed by some combination of Chapters 933 and 945 of the 2005 Acts of Assembly, Chapters 933 and 943 of the 2006 Acts of Assembly or Chapters 594 and 616 of the 2008 Acts of Assembly, Chapters 824 and 829 of the 2008 Acts of Assembly and Chapters 675 and 685 of the 2009 Acts of Assembly.

6. Notwithstanding any other provision of law, state agencies that do not receive computer services from the Virginia Information Technologies Agency may develop their own policies and procedures governing the sale of surplus computers and laptops to their employees or officials. Any proceeds from the sale of surplus computers or laptops shall be deposited into the appropriate fund or funds used to purchase the equipment.

c. MOTOR VEHICLES AND AIRCRAFT:

1. No motor vehicles shall be purchased or leased with public funds by the state or any officer or employee on behalf of the state without the prior written approval of the Director, Department of General Services.

2. The institutions of higher education shall be exempt from this provision but shall be required to report their entire inventory of purchased and leased vehicles including the cost of such to the Director of the Department of General Services by June 30 of each year. The Director of the Department of General Services shall compare the cost of vehicles acquired by institutions of higher education to like vehicles under the state contract. If the comparison demonstrates for a given institution that the cost to the Commonwealth is greater for like vehicles than would be the case based on a contract of statewide applicability, the Governor or his designee may suspend the exemption granted to the institution pursuant to this subparagraph c.

3. The Director, Department of General Services, is hereby authorized to transfer surplus motor vehicles among the state agencies, and determine the value of such surplus equipment for the purpose of maintaining the financial accounts of the state agencies affected by such transfers.

d. **MOTION PICTURE, TELEVISION AND RADIO SERVICES PRODUCTION:** Except for public institutions of higher education governed by Chapters 933 and 943 of the 2006 Acts of Assembly, no state Executive Department agency or the State Lottery Department shall expend any public funds for the production of motion picture films or of programs for television transmission, or for the operation of television or radio transmission facilities, without the prior written approval of the Governor or as otherwise provided in this act, except for educational television programs produced for elementary-secondary education by authority of the Virginia Information Technologies Agency. The Joint Subcommittee on Rules is authorized to provide the approval of such expenditures for legislative agencies. For judicial agencies and independent agencies, other than the State Lottery Department, prior approval action rests with the supervisory bodies of these entities. With respect to television programs which are so approved and other programs which are otherwise authorized or are not produced for television transmission, state agencies may enter into contracts without competitive sealed bidding, or competitive negotiation, for program production and transmission services which are performed by public telecommunications entities, as defined in § 2.2-2427, Code of Virginia.

e. **TRAVEL:** Reimbursement for the cost of travel on official business of the state government is authorized to be paid pursuant to law and regulations issued by the State Comptroller to implement such law. Notwithstanding any contrary provisions of law:

1. For the use of personal automobiles in the discharge of official duties outside the continental limits of the United States, the State Comptroller may authorize an allowance not exceeding the actual cost of operation of such automobiles;

2. The first 15,000 miles of use during each fiscal year of personal automobiles in the discharge of official duties within the continental limits of the United States shall be reimbursed at an amount equal to the most recent business standard mileage rate as established by the Internal Revenue Service for employees or self-employed individuals to use in computing their income tax deductible costs for operating passenger vehicles owned or leased by them for business purposes, or in the instance of a state employee, at the lesser of (a) the IRS rate or (b) the lowest combined capital and operational trip pool rate charged by the Department of General Services, Office of Fleet Management Services (OFMS), posted on the OFMS website at time of travel, for the use of a compact state-owned vehicle. If the head of the state agency concerned certifies that a state-owned vehicle was not available, or if, according to regulations issued by the State Comptroller, the use of a personal automobile in lieu of a state-owned automobile is considered to be an advantage to the state, the reimbursement shall be at the rate of the IRS rate. For such use in excess of 15,000 miles in each fiscal year, the reimbursement shall be at a rate of 13.0 cents per mile, unless a state-owned vehicle is not available; then the rate shall be the IRS rate;

3. The State Comptroller may authorize exemptions to restrictions upon use of common carrier accommodations;

4. The State Comptroller may authorize reimbursement by per diem in lieu of actual costs of meals and any other expense category deemed necessary for the efficient and effective operation of state government;

5. State employees traveling on official business of state government shall be reimbursed for their travel costs using the same bank account authorized by the employee in which their net pay is direct deposited; and

6. This section shall not apply to members and employees of public school boards.

f. **SMALL PURCHASE CHARGE CARD, ELECTRONIC DATA INTERCHANGE, DIRECT DEPOSIT, AND PAYLINE OPT OUT:** The State Comptroller is hereby authorized to charge state agencies a fee of \$5 per check or earnings notice when, in his judgment, agencies have failed to comply with the Commonwealth's electronic commerce initiatives to reduce unnecessary administrative costs for the printing and mailing of state checks and earning notices. The fee shall be collected by the Department of Accounts through accounting entries.

g. **PURCHASES OF APPLIANCES AND EQUIPMENT:** State agencies and institutions shall purchase Energy Star rated appliances and equipment in all cases where such appliances and equipment are available.

h. **ELECTRONIC PAYMENTS:** Any recipient of payments from the State Treasury who receives six or more payments per year issued by the State Treasurer shall receive such payments electronically. The State Treasurer shall decide the appropriate method of electronic payment and, through his warrant issuance authority, the State Comptroller shall enforce the provisions of this section. The State Comptroller is authorized to grant administrative relief to this requirement when circumstances justify non-electronic payment.

i. **LOCAL AND NON-STATE SAVINGS AND EFFICIENCIES:** It is the intent of the General Assembly that State agencies shall encourage and assist local governments, school divisions, and other non-state governmental entities in their efforts to achieve cost savings and efficiencies in the provision of mandated functions and services including but not limited to finance, procurement, social services programs, and facilities management.

j. **MEDICAL SERVICES:** No expenditures from general or nongeneral fund sources may be made out of any appropriation by the General Assembly for providing abortion services, except as otherwise required by federal law or state statute.

## k. TELECOMMUNICATION SERVICES AND DEVICES:

1. The Chief Information Officer and the State Comptroller shall develop statewide requirements for the use of cellular telephones and other telecommunication devices by in-scope Executive Department agencies, addressing the assignment, evaluation of need, safeguarding, monitoring, and usage of these telecommunication devices. The requirements shall include an acceptable use agreement template clearly defining an employee's responsibility when they receive and use a telecommunication device. Statewide requirements shall require some form of identification on a device in case it is lost or stolen and procedures to wipe the device clean of all sensitive information when it is no longer in use.

2. In-scope Executive Department agencies providing employees with telecommunication devices shall develop agency-specific policies, incorporating the guidance provided in § 4-5.04 k. 1. of this act and shall maintain a cost justification for the assignment or a public health, welfare and safety need.

3. The Chief Information Officer shall determine the optimal number of telecommunication vendors and plans necessary to meet the needs of in-scope Executive Department agency personnel. The Chief Information Officer shall regularly procure these services and provide statewide contracts for use by all such agencies. These contracts shall require the vendors to provide detailed usage information in a useable electronic format to enable the in-scope agencies to properly monitor usage to make informed purchasing decisions and minimize costs.

4. The Chief Information Officer shall examine the feasibility of providing tools for in-scope Executive Department agencies to analyze usage and cost data to assist in determining the most cost effective plan combinations for the entity as a whole and individual users.

1. ALTERNATIVE PROCUREMENT: If any payment is declared unconstitutional for any reason or if the Attorney General finds in a formal, written, legal opinion that a payment is unconstitutional, in circumstances where a good or service can constitutionally be the subject of a purchase, the administering agency of such payment is authorized to use the affected appropriation to procure, by means of the Commonwealth's Procurement Act, goods and services, which are similar to those sought by such payment in order to accomplish the original legislative intent.

## § 4-5.05 NONSTATE AGENCIES, INTERSTATE COMPACTS AND ORGANIZATIONAL MEMBERSHIPS

a. No allotment of appropriations shall be made to a nonstate agency until such agency has certified to the Secretary of Finance that cash or in-kind contributions are on hand and available to match equally all or any part of an appropriation which may be provided by the General Assembly, unless the organization is specifically exempted from this requirement by language in this act. Such matching funds shall not have been previously used to meet the match requirement in any prior appropriation act.

4. Operating appropriations for nonstate agencies equal to or in excess of \$150,000 shall be disbursed to nonstate agencies in twelve or fewer equal monthly installments depending on when the first payment is made within the fiscal year. Operating appropriations for nonstate agencies of less than \$150,000 shall be disbursed in one payment once the nonstate agency has successfully met applicable match and application requirements.

5. The provisions of § 2.2-4343 A 14, Code of Virginia shall apply to any expenditure of state appropriations by a nonstate agency.

c.1. Each interstate compact commission and each organization in which the Commonwealth of Virginia or a state agency thereof holds membership, and the dues for which are provided in this act or any other appropriating act, shall submit its biennial budget request to the state agency under which such commission or organization is listed in this act. The state agency shall include the request of such commission or organization within its own request, but identified separately. Requests by the commission or organization for disbursements from appropriations shall be submitted to the designated state agency.

2. Each state agency shall submit by November 1 each year, a report to the Director, Department of Planning and Budget, listing the name and purpose for organizational memberships held by that agency with annual dues of \$5,000 or more. The institutions of higher education shall be exempt from this reporting requirement.

The Cabinet Secretary shall report to the Governor and Chairmen of the Senate Finance and House Appropriations Committees by December 1 of each year all institutions that have applied for inclusion in a decentralization program and whether the institutions have been granted authority to participate in the decentralization program.
- d. The provisions identified in § 4-5.08 f and § 4-5.08 h of Chapter 1042 of the Acts of Assembly of 2003 pertaining to pilot programs for selected capital outlay projects and memoranda of understanding in institutions of higher education are hereby continued. Notwithstanding these provisions, those projects shall be insured through the state's risk management liability program.
- e. - f. Institutions that have executed memoranda of understanding with the Secretary of Administration for nongeneral fund capital outlay decentralization programs are hereby granted a waiver from the provisions of § 2.2-4301, Competitive Negotiation, subdivision 3a, Code of Virginia, regarding the not to exceed amount of \$100,000 for a single project, the not to exceed sum of \$500,000 for all projects performed, and the option to renew for two additional one-year terms.
- g. Notwithstanding any contrary provision of law or this act, delegations of authority in this act to the Governor shall apply only to agencies and personnel within the Executive Department, unless specifically stated otherwise.
- h. This section shall not apply to public institutions of higher education governed by Chapters 933 and 943 of the 2006 Acts of Assembly.

If at any time the Secretary of Administration shall certify that such change in the salary band assignment for a job role is of an emergency nature and the Secretary of Finance shall certify that funds are available to cover the cost of the increase for the remainder of the biennium within the agency's appropriation, such change in compensation may be effective on a date agreed upon by these two Secretaries. The Secretary of Administration shall provide a monthly report of all such emergency changes in accordance with § 4-8.00, Reporting Requirements.

2. The department shall accept the lowest rates offered by the hospital from among the rates charged by the hospital to (1) its largest purchaser of care, (2) any state or federal public program, or (3) any special rate developed by the hospital for the state employee health benefits program which is lower than either of the rates above. If the department and the hospital cannot come to an agreement, the department shall reimburse the hospital at the rates contained in its final offer to

the hospital until the dispute is resolved. Any dispute shall be resolved through arbitration or through the procedures established by the Administrative Process Act, as the hospital may decide, without impairment of any residual right to judicial review.

e. Any classified employee of the Commonwealth and any person similarly employed in the legislative, judicial and independent agencies who (i) is compensated on a salaried basis and (ii) works at least twenty hours per week shall be considered a full-time employee for the purposes of participation in the Virginia Retirement System's group life insurance and retirement programs. The provisions of this paragraph are effective on July 1, 2002, and shall not apply to the Chief of the Capitol Police.

h. Full-time employees appointed by the Governor who, except for meeting the minimum service requirements, would be eligible for the provisions of § 51.1-155.1, Code of Virginia, may, upon termination of service, use any severance allowance payment to purchase service to meet, but not exceed, the minimum service requirements of § 51.1-155.1, Code of Virginia. Such service purchase shall be at the rate of 15 percent of the employee's final creditable compensation or average final compensation, whichever is greater, and shall be completed within 90 days of separation of service.

i. When calculating the retirement benefits payable under the Virginia Retirement System (VRS), the State Police Officers' Retirement System (SPORS), the Virginia Law-enforcement Officers' Retirement System (VaLORS), or the Judicial Retirement System (JRS) to any employee of the Commonwealth or its political subdivisions who is called to active duty with the armed forces of the United States, including the United States Coast Guard, the Virginia Retirement System shall:

2) include those months after September 1, 2001 during which the employee was serving on active duty with the armed forces of the United States in the calculation of creditable service.

j. The provisions in § 51.1-144, Code of Virginia, that require a member to contribute five percent of his creditable compensation for each pay period for which he receives compensation on a salary reduction basis, shall not apply to any (i) "state employee," as defined in § 51.1-124.3, Code of Virginia, who is an elected official, or (ii) member of the Judicial Retirement System under Chapter 3 of Title 51.1 (§ 51.1-300 et seq.), who is not a "person who becomes a member on or after July 1, 2010," as defined in § 51.1-124.3, Code of Virginia.

k. Such application shall be received by the Virginia Retirement System no later than October 1, 2014. This provision shall not be construed to grant relief in any case for which a court of competent jurisdiction has already rendered a decision, as contemplated by Article II, Section 14 of the Constitution of Virginia.

l. Notwithstanding the provisions of subsection B of § 51.1-155, any person who (i) has attained age 62, (ii) is receiving a service retirement allowance under Chapter 1 of Title 51.1, and (iii) was employed in an otherwise covered position as interim president and chief executive officer of an institution of higher education, who were appointed prior to January 1, 2014, for a period necessary to rectify significant management deficiencies, may elect to continue to receive the retirement allowance during such employment. If the person elects to continue to receive the retirement allowance, then his service performed and compensation received during the period of time he receives the retirement allowance will not increase, decrease, or affect in any way his retirement benefits before, during, or after such employment.

a. **FOOD SERVICES:** Except as exempted by the prior written approval of the Director, Department of Human Resource Management, and the provisions of § 2.2-3605, Code of Virginia, state employees shall be charged for meals served in state facilities. Charges for meals will be determined by the agency. Such charges shall be not less than the value of raw food and the cost of direct labor and utilities incidental to preparation and service. Each agency shall maintain records as to the calculation of meal charges and revenues collected. Except where appropriations for operation of the food service are from nongeneral funds, all revenues received from such charges shall be paid directly and promptly into the general fund. Each agency head is responsible for establishing a fee for state-owned or leased housing and for documenting in writing why the rate established was selected. In exceptional circumstances, which shall be documented as being in the best interest of the Commonwealth by the agency requesting an exception, the Director, Department of General Services may waive the requirement for collection of fees.

2. All revenues received from housing fees shall be promptly deposited in the state treasury. For housing for which operating expenses or rent are financed by general fund appropriations, such revenues shall be deposited to the credit of the general fund. For housing for which operating expenses or rent are financed by nongeneral fund appropriations, such revenues shall be deposited to the credit of the nongeneral fund. Agencies which provide housing for which operating expenses or rent are financed from both general fund and nongeneral fund appropriations shall allocate such revenues, when deposited in the state treasury, to the appropriate fund sources in the same proportion as the appropriations. However, without exception, any portion of a housing fee attributable to depreciation for housing which was constructed with general fund appropriations shall be paid into the general fund.

c. **PARKING SERVICES:**

1. **State-owned parking facilities**

Agencies with parking space for employees in state-owned facilities shall, when required by the Director, Department of General Services, charge employees for such space on a basis approved by the Governor. Interest shall be added to the fund as earned. –

2. **Leased parking facilities in metropolitan Richmond area**

Agencies occupying private sector leased or rental space in the metropolitan Richmond area, not including institutions of higher education, shall be required to charge a fee to employees for vehicle parking spaces that are assigned to them or are otherwise available either incidental to the lease or rental agreement or pursuant to a separate lease agreement for private parking space. In such cases, the individual employee parking fee shall not be less than that paid by employees parking in Department of General Services parking facilities at the Seat of Government. The Director, Department of General Services may amend or waive the fee requirement for good cause. Revenues derived from employees paying for parking spaces in leased facilities will be retained by the leasing agency to be used to offset the cost of the lease to which it pertains. Any lease for private parking space must be approved by the Director, Department of General Services.

Any such position level increases pursuant to this provision may not be approved for more than one year.

b. The Position Levels stipulated for the individual agencies within the Department of Behavioral Health and Developmental Services and the Department of Corrections are for reference only and are subject to changes by the applicable Department, provided that such changes do not result in exceeding the Position Level for that department.

c.1. The Governor shall implement such policies and procedures as are necessary to ensure that the number of employees in the Executive Department, excluding institutions of higher education and the State Council of Higher Education, may be further restricted to the number required for efficient operation of those programs approved by the General Assembly. Such policies and procedures shall include periodic review and analysis of the staffing requirements of all Executive Department agencies by the Department of Planning and Budget with the object of eliminating through attrition positions not necessary for the efficient operation of programs.

2. The institutions of higher education and the State Council of Higher Education are hereby authorized to fill all positions authorized in this act. This provision shall be waived only upon the Governor's official declaration that a fiscal emergency exists requiring a change in the official estimate of general fund revenues available for appropriation.

e. Prior to implementing any Executive Department hiring freeze, the Governor shall consider the needs of the Commonwealth in regards to the safe and efficient operation of state facilities and performance of essential services to include the exemption of certain positions assigned to agencies and institutions that provide services pertaining to public safety and public health from such hiring freezes.

f.1. Full-time, part-time, wage or contractual state employees assigned to the Governor's Cabinet Secretaries from agencies and institutions under their control for the purpose of carrying out temporary assignments or projects may not be so assigned for a period exceeding 180 days in any calendar year. The permanent transfer of positions from an agency or institution to the Offices of the Secretaries, or the temporary assignment of agency or institutional employees to the Offices of the Secretaries for periods exceeding 180 days in any calendar year regardless of the separate or discrete nature of the projects, is prohibited without the prior approval of the General Assembly.

All state agencies/employers in all branches of government shall provide information requested by DHRM concerning hours worked by employees as needed to comply with the Affordable Care Act (the "Act") and this provision. State agencies/employers are accountable for compliance with this provision, and are responsible for any costs associated with maintaining compliance with it and for any costs or penalties associated with any violations of the Act or regulations thereunder and any such costs shall be borne by the agency from existing appropriations. The provisions of this paragraph shall not apply to employees of state teaching hospitals that have their own health insurance plan; however, the state teaching hospitals are accountable for compliance with, and are responsible for any costs associated with maintaining compliance with the Act and for any costs or penalties associated with any violations of the Act or regulations thereunder and any such costs shall be borne by the agency from existing appropriations. **§ 4-9.00 HIGHER EDUCATION RESTRUCTURING****§ 4-9.01 ASSESSMENT OF INSTITUTIONAL PERFORMANCE**

Consistent with § 23-9.6:1.01, Code of Virginia, the following education-related and financial and administrative management measures shall be the basis on which the State Council of Higher Education shall annually assess and certify institutional performance. Such certification shall be completed and forwarded in writing to the Governor and the General Assembly no later than October 1 of each even-numbered year. Institutional performance on measures set forth in paragraph D of this section shall be evaluated year-to-date by the Secretaries of Finance, Administration, and Technology as appropriate, and communicated to the State Council of Higher Education before October 1 of each even-numbered year. Financial benefits provided to each institution in accordance with § 2.2-5005 will be evaluated in light of that institution's performance.

In general, institutions are expected to achieve all performance measures in order to be certified by SCHEV, but it is understood that there can be circumstances beyond an institution's control that may prevent achieving one or more performance measures. The Council shall consider, in consultation with each institution, such factors in its review: (1) institutions meeting all performance measures will be certified by the Council and recommended to receive the financial benefits, (2) institutions that do not meet all performance measures will be evaluated by the Council and the Council may take one or more of the following actions: (a) request the institution provide a remediation plan and recommend that the Governor withhold release of financial benefits until Council review of the remediation plan or (b) recommend that the Governor withhold all or part of financial benefits.

Further, the State Council shall have broad authority to certify institutions as having met the standards on education-related measures. The State Council shall likewise have the authority to exempt institutions from certification on education-related measures that the State Council deems unrelated to an institution's mission or unnecessary given the institution's level of performance.

The State Council may develop, adopt, and publish standards for granting exemptions and ongoing modifications to the certification process.

All information provided to the Superintendent or his designee for this purpose shall be used solely for the purpose of evaluating the Standards of Learning and shall not be redisclosed, except as provided under federal law. <p>B. JLARC, upon request of the Department of Planning and Budget and approval of the Chairman, shall review and provide comments to the department on its use of performance measures in the state budget process. JLARC staff shall review the methodology and proposed uses of such performance measures and provide periodic status reports to the Commission.</p>				
<p>C. Expenses associated with the oversight responsibility of the Virginia Retirement System by JLARC and the House Appropriations and Senate Finance Committees shall be reimbursed by the Virginia Retirement System upon documentation by the Director, JLARC of the expenses incurred.</p>				
<p>D. Out of this appropriation, funds are provided to continue the technical support staff of JLARC, in order to assist with legislative fiscal impact analysis when an impact statement is referred from the Chairman of a standing committee of the House or Senate, and to conduct oversight of the expenditure forecasting process. Pursuant to existing statutory authority, all agencies of the Commonwealth shall provide access to information necessary to accomplish these duties.</p>				
<p>E.1. The General Assembly hereby designates the Joint Legislative Audit and Review Commission (JLARC) to review and evaluate the Virginia Information Technologies Agency (VITA) on a continuing basis and to make such special studies and reports as may be requested by the General Assembly, the House Appropriations Committee, or the Senate Finance Committee.</p>				
<p>2. The areas of review and evaluation to be conducted by the Commission shall include, but are not limited to, the following: (i) VITA's infrastructure outsourcing contracts and any amendments thereto; (ii) adequacy of VITA's planning and oversight responsibilities, including VITA's oversight of information technology projects and the security of governmental information; (iii) cost-effectiveness and adequacy of VITA's procurement services and its oversight of the procurement activities of State agencies.</p>				
<p>3. For the purpose of carrying out its duties and notwithstanding any contrary provision of law, JLARC shall have the legal authority to access the information, records, facilities, and employees of VITA.</p>				
<p>4. Records provided to VITA by a private entity pertaining to VITA's comprehensive infrastructure agreement or any successor contract, or any contractual amendments thereto for the operation of the Commonwealth's information technology infrastructure shall be exempt from the Virginia Freedom of Information Act (§ 2.2-3700 et seq.), to the extent that such records contain (i) trade secrets of the private entity as defined in the Uniform Trade Secrets Act (§ 59.1-336 et seq.) or (ii) financial records of the private entity, including balance sheets and financial statements, that are not generally available to the public through regulatory disclosure or otherwise. In order for the records specified in clauses (i) and (ii) to be excluded from the Virginia Freedom of Information Act, the private entity shall make a written request to VITA:</p>				
<p>a. Invoking such exclusion upon submission of the data or other materials for which protection from disclosure is sought;</p>				
<p>b. Identifying with specificity the data or other materials for which protection is sought; and</p>				
<p>c. Stating the reasons why protection is necessary.</p>				
<p>VITA shall determine whether the requested exclusion from disclosure is necessary to protect the trade secrets or financial records of the private entity. VITA shall make a written determination of the nature and scope of the protection to be afforded by it under this subdivision. Once a written determination is made by VITA, the records afforded protection under this subdivision shall continue to be protected from disclosure when in the possession of VITA or JLARC.</p>				
<p>Except as specifically provided in this item, nothing in this item shall be construed to authorize the withholding of (a) procurement records as required by § 56-575.17; (b) information concerning the terms and conditions of any interim or comprehensive agreement, service contract, lease, partnership, or any agreement of any kind entered into by VITA and the private entity; (c) information concerning the terms and conditions of any financing arrangement that</p>

<p>5. The Chairman of JLARC may appoint a permanent subcommittee to provide guidance and direction for VITA review and evaluation activities, subject to the full Commission's supervision and such guidelines as the Commission itself may provide.</p>				
<p>6. All agencies of the Commonwealth shall cooperate as requested by JLARC in the performance of its duties under this authority.</p>				
<p>F. 1. JLARC is hereby directed to study options for the restructuring of lowest performing schools or districts. The study shall consider (i) options used in other states and cities and the outcomes of efforts such as mergers, takeovers, charter schools, and other turnaround efforts, including an assessment of Virginia's efforts to date; (ii) other current successful approaches for high poverty urban schools within Virginia and whether they could be replicated in other areas; (iii) an estimate of the resources and expertise that would be required at the state level to effectively implement and oversee any such models; (iv) appropriate criteria for intervention decisions; and (v) analysis of the primary reasons for low school or district performance.</p>

<p>G. 1. As a component of the review for efficiency and effectiveness of public education spending in Virginia, pursuant to Senate Joint Resolution 328 from the 2013 Session of the General Assembly, JLARC shall examine and include virtual instruction. The review of virtual instruction and spending may include, but not be limited to, (i) virtual options used in Virginia and other states and the rate of growth of the virtual school populations; (ii) the cost of virtual K-12 schooling for part-time and full-time enrollments, particularly in relation to the cost of conventional 'brick-and-mortar' education; and, (iii) the effectiveness of virtual schooling in terms of student academic achievement outcomes on assessment tests and course completion or graduation rates.</p>				
<p>2. The Department of Education and local school divisions shall cooperate as requested by JLARC. All agencies of the Commonwealth shall provide assistance for this study, upon request.</p>				
<p>H. 1. As part of its review of the Commonwealth's implementation of the Workforce Investment Act mandated by House Joint Resolution 688, 2013 Session of the General Assembly, JLARC is hereby directed to evaluate the success of the workforce training and education systems in ensuring that Virginians possess the necessary skills and credentials to meet the workforce needs of Virginia's employers. The study shall consider what steps could be taken to produce a more coordinated and effective workforce development system. As part of this effort, JLARC shall review the funding streams, priorities and allocations of these funds and whether the existing governance and accountability structures facilitate such a system.</p>				
<p>2. JLARC shall complete its study and submit a final report by December 15, 2014.</p>				
<p>3. All agencies of the Commonwealth shall provide assistance for this study upon request.</p>				
<p>I. To assist JLARC in conducting its study of the Line of Duty Act pursuant to House Joint Resolution 103 of the 2014 General Assembly, the Virginia State Police and local law enforcement agencies shall, upon request, provide JLARC with any information they possess as a result of carrying out the provisions of the Line of Duty Act (§ 9.1-400 et seq.), including any evidence and documents obtained or reports of investigation or other documents prepared.</p>

Personnel expenditures for operation of such equipment incidental to the duties of courtroom and courthouse security deputies may be authorized, provided that no additional expenditures for personnel shall be approved for the principal purpose of operating these devices.

C. Notwithstanding the provisions of § 53.1-120, or any other section of the Code of Virginia, unless a judge provides the sheriff with a written order stating that a substantial security risk exists in a particular case, no courtroom security deputies may be ordered for civil cases, not more than one deputy may be ordered for criminal cases in a district court, and not more than two deputies may be ordered for criminal cases in a circuit court. In complying with such orders for additional security, the sheriff may consider other deputies present in the courtroom as part of his security force.

D. Should the scheduled opening date of any facility be delayed for which funds are available in this Item, the Director, Department of Planning and Budget, may allot such funds as the Compensation Board may request to allow the employment of staff for training purposes not more than 45 days prior to the rescheduled opening date for the facility.

E. Consistent with the provisions of paragraph B of Item 73, the board shall allocate the additional jail deputies provided in this appropriation using a ratio of one jail deputy for every 3.0 beds of operational capacity. Operational capacity shall be determined by the Department of Corrections. No additional deputy sheriffs shall be provided from this appropriation to a local jail in which the present staffing exceeds this ratio unless the jail is overcrowded. exceeds the operational capacity. In those jails experiencing overcrowding, the board may allocate one additional jail deputy for every five average annual daily prisoners above operational capacity. Should overcrowding be reduced or eliminated in any jail, the Compensation Board shall reallocate positions previously assigned due to overcrowding to other jails in the Commonwealth that are experiencing overcrowding.

F. Two-thirds of the salaries set by the Compensation Board of medical, treatment, and inmate classification positions approved by the Compensation Board for local correctional facilities shall be paid out of this appropriation.

G.1. Subject to appropriations by the General Assembly for this purpose, the Compensation Board shall provide for a master deputy pay grade to those sheriffs' offices which had certified, on or before January 1, 1997, having a career development plan for deputy sheriffs that meet the minimum criteria set forth by the Compensation Board for such plans. The Compensation Board shall allow for additional grade 9 positions, at a level not to exceed one grade 9 master deputy per every five Compensation Board grade 7 and 8 deputy positions in each sheriff's office.

2. Each sheriff who desires to participate in the Master Deputy Program who had not certified a career development plan on or before January 1, 1997, may elect to participate by certifying to the Compensation Board that the career development plan in effect in his office meets the minimum criteria for such plans as set by the Compensation Board. Such election shall be made by July 1 for an effective date of participation the following July 1.

3. Subject to appropriations by the General Assembly for this purpose, funding shall be provided by the Compensation Board for participation in the Master Deputy Program to sheriffs' offices electing participation after January 1, 1997, according to the date of receipt by the Compensation Board of the election by the sheriff.

H. The Compensation Board shall estimate biannually the number of additional law enforcement deputies which will be needed in accordance with § 15.2-1609.1, Code of Virginia. Such estimate of the number of positions and related costs shall be included in the board's biennial budget request submission to the Governor and General Assembly. The allocation of such positions, established by the Governor and General Assembly in Item 73 of this act, shall be determined by the Compensation Board on an annual basis. The annual allocation of these positions to local sheriffs' offices shall be based upon the most recent final population estimate for the locality that is available to the Compensation Board at the time when the agency's annual budget request is completed. The source of such population estimates shall be the Weldon Cooper Center for Public Service of the University of Virginia or the United States Bureau of the Census. For the first year of the biennium, the Compensation Board shall allocate positions based upon the most recent provisional population estimates available at the time the agency's annual budget is completed.

I. a. 9.3 percent increase for all sheriffs who certify their compliance with the established minimum criteria for the Sheriffs' Career Development Program where such criteria includes that a sheriff has achieved certification by the Weldon Cooper Center for Public Service of the University of Virginia, or, where such criteria include that a sheriff's office seeking

2. For state responsible inmates—\$12 per inmate day.

F. For the payment specified in paragraph E 1 of this Item for prisoners in alternative punishment or alternative to incarceration programs:

1. Such payment is intended to be made for prisoners that would otherwise be housed in a local correctional facility. It is not intended for prisoners that would otherwise be sentenced to community service or placed on probation.

2. No such payment shall be made unless the program has been approved by the Department of Corrections or the Department of Criminal Justice Services. Alternative punishment or alternative to incarceration programs, however, may include supervised work experience, treatment, and electronic monitoring programs.

G.1. Except as provided for in paragraph G 2, and notwithstanding any other provisions of this Item, the Compensation Board shall provide payment to any locality with an average daily jail population of under ten in FY 1995 an inmate per diem rate of \$22 per day for local responsible inmates and \$28 per day for state responsible inmates held in these jails in lieu of personal service costs for corrections' officers.

2. Any locality covered by the provisions of this paragraph shall be exempt from the provisions thereof provided that the locally elected sheriff, with the assistance of the Compensation Board, enters into good faith negotiations to house his prisoners in an existing local or regional jail. In establishing the per diem rate and capital contribution, if any, to be charged to such locality by a local or regional jail, the Compensation Board and the local sheriff or regional jail authority

shall consider the operating support and capital contribution made by the Commonwealth, as required by §§ 15.2-1613, 15.2-1615.1, 53.1-80, and 53.1-81, Code of Virginia. The Compensation Board shall report periodically to the Chairmen of the House Appropriations and Senate Finance Committees on the progress of these negotiations and may withhold the exemption granted by this paragraph if, in the board's opinion, the local sheriff fails to negotiate in good faith.

H.1. The Compensation Board shall recover the state-funded costs associated with housing federal inmates, District of Columbia inmates or contract inmates from other states. The Compensation Board shall determine, by individual jail, the amount to be recovered by the Commonwealth by multiplying the jail's current inmate days for this population by the proportion of the jail's per inmate day salary funds provided by the Commonwealth, as identified in the most recent Jail Cost Report prepared by the Compensation Board. Beginning July 1, 2009, the Compensation Board shall determine, by individual jail, the amount to be recovered by the Commonwealth by multiplying the jail's current inmate days for this population by the proportion of the jail's per inmate day operating costs provided by the Commonwealth, excluding payments otherwise provided for in this Item, as identified in the most recent Jail Cost Report prepared by the Compensation Board. If a jail is not included in the most recent Jail Cost Report, the Compensation Board shall use the statewide average of per inmate day salary funds provided by the Commonwealth.

2. The Compensation Board shall deduct the amount to be recovered by the Commonwealth from the facility's next quarterly per diem payment for state-responsible and local-responsible inmates. Should the next quarterly per diem payment owed the locality not be sufficient against which to net the total quarterly recovery amount, the locality shall remit the remaining amount not recovered to the Compensation Board.

3. Any local or regional jail which receives funding from the Compensation Board shall give priority to the housing of local-responsible, state-responsible, and state contract inmates, in that order, as provided in paragraph H 1.

4. The Compensation Board shall not provide any inmate per diem payments to any local or regional jail which holds federal inmates in excess of the number of beds contracted for with the Department of Corrections, unless the Director, Department of Corrections, certifies to the Chairman of the Compensation Board that a) such contract beds are not required; b) the facility has operational capacity built under contract with the federal government; c) the facility has received a grant from the federal government for a portion of the capital costs; or d) the facility has applied to the Department of Corrections for participation in the contract bed program with a sufficient number of beds to meet the Department of Corrections' need or ability to fund contract beds at that facility in any given fiscal year.

5. The Compensation Board shall apply the cost recovery methodology set out in paragraph H 1 of this Item to any jail which holds inmates from another state on a contractual basis. However, recovery in such circumstances shall not be made for inmates held pending extradition to other states or pending transfer to the Virginia Department of Corrections.

6. The provisions of this paragraph shall not apply to any local or regional jail where the cumulative federal share of capital costs exceeds the Commonwealth's cumulative capital contribution.

7. For a local or regional jail which operates bed space specifically built utilizing federal capital or grant funds for the housing of federal inmates and for which Compensation Board funding has never been authorized for staff for such bed space, the Compensation Board shall allow an exemption from the recovery provided in paragraph H.1. for a defined number of federal prisoners upon certification by the sheriff or superintendent that the federal government has paid for the construction of bed space in the facility or provided a grant for a portion of the capital cost. Such certification shall include specific funding amounts paid by the federal government, localities, and/or regional jail authorities, and the Commonwealth for the construction of bed space specifically built for the housing of federal inmates and for the construction of the jail facility in its entirety. The defined number of federal prisoners to be exempted from the recovery provided in paragraph H.1. shall be based upon the proportion of funding paid by the federal government and localities and/or regional jail authorities for the construction of bed space to house federal prisoners to the total funding paid by all sources, including the Commonwealth, for all construction costs for the jail facility in its entirety.

8. Beginning March 1, 2013, federal inmates placed in the custody of a regional jail pursuant to a work release program operated by the federal Bureau of Prisons shall be exempt from the recovery of costs associated with housing federal inmates pursuant to paragraph H.1. of this item if such federal inmates have been assigned by the federal Bureau of Prisons to a home electronic monitoring program in place for such inmates by agreement with the jail on or before January 1, 2012 and are not housed in the jail facility. However, no such exemption shall apply to any federal inmate while they are housed in the regional jail facility.

I. Any amounts in the program Financial Assistance for Confinement of Inmates in Local and Regional Facilities, may be transferred between Items 66 and 67, as needed, to cover any deficits incurred in the programs Financial Assistance for Sheriffs' Offices and Regional Jails and Financial Assistance for Confinement of Inmates in Local and Regional Facilities.

J. Projected growth in per diem payments for the support of prisoners in local and regional jails shall be based on actual inmate population counts up through the first quarter of the affected fiscal year.

K. The Compensation Board shall provide an annual report on the number and diagnoses of inmates with mental illnesses in local and regional jails, the treatment services provided, and expenditures on jail mental health programs. The report shall be prepared in cooperation with the Virginia Sheriffs Association, the Virginia Association of Regional Jails, the Virginia Association of Community Services Boards, and the Department of Behavioral Health and Developmental Services, and shall be coordinated with the data submissions required for the annual jail cost report. Copies of this report shall be provided by November 1 of each year to the Governor, Director, Department of Planning and Budget, and the Chairmen of the Senate Finance and House Appropriations Committees.

#### A. Definitions

1. "March 31 Average Daily Membership," or "March 31 ADM" - The responsible school division's average daily membership for grades K-12 including (1) handicapped students ages 5-21 and (2) students for whom English is a second language who entered school for the first time after reaching their twelfth birthday, and who have not reached twenty-two years of age on or before August 1 of the school year, for the first seven (7) months (or equivalent period) of the school year through March 31 in which state funds are distributed from this appropriation. Preschool and postgraduate students shall not be included in March 31 ADM.

a. School divisions shall take a count of September 30 fall membership and report this information to the Department of Education no later than October 15 of each year.

b. Except as otherwise provided herein, by statute, or by precedent, all appropriations to the Department of Education shall be calculated using March 31 ADM unadjusted for half-day kindergarten programs, estimated at 1,238,270.7 the first year and 1,246,428.4 the second year. March 31 ADM for half-day kindergarten shall be adjusted at 85 percent.

c. Students who are either (i) enrolled in a nonpublic school or (ii) receiving home instruction pursuant to § 22.1-254.1 and who are enrolled in a public school on less than a full-time basis in any mathematics, science, English, history, social science, vocational education, health education or physical education, fine arts or foreign language course, or receiving special education services required by a student's individualized education plan, shall be counted in the funded fall membership and March 31 ADM of the responsible school division. Each course shall be counted as 0.25, up to a cap of 0.5 of a student.

d. Students enrolled in an Individualized Student Alternative Education Program (ISAEP) pursuant to § 22.1-254 D shall be counted in the March 31 Average Daily Membership of the responsible school division. School divisions shall report these students separately in their March 31 reports of Average Daily Membership.

2. "Standards of Quality" - Operations standards for grades kindergarten through 12 as prescribed by the Board of Education subject to revision by the General Assembly.

3.a. "Basic Operation Cost" - The cost per pupil, including provision for the number of instructional personnel required by the Standards of Quality for each school division with a minimum ratio of 51 professional personnel for each 1,000 pupils or proportionate number thereof, in March 31 ADM for the same fiscal year for which the costs are computed, and including provision for driver, gifted, occupational-vocational, and special education, library

materials and other teaching materials, teacher sick leave, general administration, division superintendents' salaries, free textbooks (including those for free and reduced price lunch pupils), school nurses, operation and maintenance of school plant, transportation of pupils, instructional television, professional and staff improvement, remedial work, fixed charges and other costs in programs not funded by other state and/or federal aid.

b. The state and local shares of funding resulting from the support cost calculation for school nurses shall be specifically identified as such and reported to school divisions annually. School divisions may spend these funds for licensed school nurse positions employed by the school division or for licensed nurses contracted by the local school division to provide school health services.

4.a. "Composite Index of Local Ability-to-Pay" - An index figure computed for each locality. The composite index is the sum of 2/3 of the index of wealth per pupil in unadjusted March 31 ADM reported for the first seven (7) months of the 2011-2012 school year and 1/3 of the index of wealth per capita (population estimates for 2011 as determined by the Weldon Cooper Center for Public Service of the University of Virginia) multiplied by the local nominal share of the costs of the Standards of Quality of 0.45 in each year. The indices of wealth are determined by combining the following constituent index elements with the indicated weighting: (1) true values of real estate and public service corporations as reported by the State Department of Taxation for the calendar year 2011 - 50 percent; (2) adjusted gross income for the calendar year 2011 as reported by the State Department of Taxation - 40 percent; (3) the sales for the calendar year 2011 which are subject to the state general sales and use tax, as reported by the State Department of Taxation - 10 percent. Each constituent index element for a locality is its sum per March 31 ADM, or per capita, expressed as a percentage of the state average per March 31 ADM, or per capita, for the same element. A locality whose composite index exceeds 0.8000 shall be considered as having an index of 0.8000 for purposes of distributing all payments based on the composite index of local ability-to-pay. Each constituent index element for a locality used to determine the composite index of local ability-to-pay for the current biennium shall be the latest available data for the specified official base year provided to the Department of Education by the responsible source agencies no later than November 15, 2013.

b. For any locality whose total calendar year 2011 Virginia Adjusted Gross Income is comprised of at least 3 percent or more by nonresidents of Virginia, such nonresident income shall be excluded in computing the composite index of ability-to-pay. The Department of Education shall compute the composite index for such localities by using adjusted gross income data which exclude nonresident income, but shall not adjust the composite index of any other localities. The Department of Taxation shall furnish to the Department of Education such data as are necessary to implement this provision.

c.1) In the event that two or more school divisions become one school division, whether by consolidation of only the school divisions or by consolidation of the local governments, which shall include the transition of a city to town status, all state payments from this item adjusted by the composite index of local ability to pay to such resulting division or interest rates on approved Literary Fund loans shall be made on the basis of a composite index established by the Board of Education, which shall equal the composite index no lower than the lowest nor higher than the highest composite index of any of the individual school divisions involved in such consolidation. In addition, the local share of state payments adjusted by the composite index shall also be based on the same composite index of any of the individual school divisions involved in such consolidation. This index shall remain in effect for a period of no less than five nor more than fifteen years, unless a lower composite index is calculated for the combined division through the process for computing an index figure as set forth above. The Governor shall approve the composite index determined by the Board of Education prior to disbursement of funds under such index. The department shall report to the Chairmen of the House Appropriations and Senate Finance Committees the composite indices approved by the Governor and the board in the event this provision is implemented.

2) In the case of the consolidation of Clifton Forge and Alleghany County school divisions, the fifteen year period for the application of a new composite index shall apply beginning with the fiscal year that starts on July 1, 2004. Notwithstanding the provisions of paragraph c.1) the composite index established by the Board of Education shall equal the lowest composite index

that was in effect prior to July 1, 2004, of any individual localities involved in such consolidation, and this index shall remain in effect for a period of fifteen years, unless a lower composite index is calculated for the combined division through the process for computing an index as set forth above.

3) Pursuant to paragraph c.1) above, if the composite index of a consolidated school division is reduced during the course of the fifteen year period to a level that would entitle the school division to a lower interest rate for a Literary Fund loan than it received when the loan was originally released, the Board of Education shall reduce the interest rate of such loan for the remainder of the period of the loan. Such reduction shall be based on the interest rate that would apply at the time of such adjustment. This rate shall remain in effect for the duration of the loan and shall apply only to those years remaining to be paid.

4) In the case of the consolidation of Bedford County and Bedford City school divisions, the fifteen year period for the application of a new composite shall apply beginning with the fiscal year that starts on July 1, 2013. Notwithstanding the provisions of paragraph c.1) the composite index established by the Board of Education shall equal the lowest composite index that was in effect prior to July 1, 2013, of any individual localities involved in such consolidation, and this index shall remain in effect for a period of fifteen years, unless a lower composite index is calculated for the combined division through the process for computing an index as set forth above.

5) JLARC is hereby directed, with assistance from the Commission on Local Government, to analyze and make recommendations going forward regarding the most effective balance between the costs of incentives for government and school consolidations with the expected resulting savings and operational benefits, and how best to structure such state incentives to achieve both clarity for localities as well as justification that incentives are adequate, but not more than necessary. JLARC shall complete its study and submit a final report no later than October 1, 2014.

d. When it is determined that a substantial error exists in a constituent index element, the Department of Education will make adjustments in funding for the current school year only in the division where the error occurred. The composite index of any other locality shall not be changed as a result of the adjustment. No adjustment during the biennium will be made as a result of updating of data used in a constituent index element.

e. In the event that any school division consolidates two or more small schools, the division shall continue to receive Standards of Quality funding and provide for the required local expenditure for a period of five years as if the schools had not been consolidated. Small schools are defined as any elementary, middle, or high school with enrollment below 200, 300 and 400 students, respectively.

5. "Required Local Expenditure for the Standards of Quality" - The locality's share based on the composite index of local ability-to-pay of the cost required by all the Standards of Quality minus its estimated revenues from the state sales and use tax dedicated to public education and those sales tax revenues transferred to the general fund from the Public Education Standards of Quality/Local Real Estate Property Tax Relief Fund and appropriated in this Item, both of which are returned on the basis of the latest yearly estimate of school age population provided by the Weldon Cooper Center for Public Service, as specified in this Item, collected by the Department of Education and distributed to school divisions in the fiscal year in which the school year begins.

6. "Required Local Match" - The locality's required share of program cost based on the composite index of local ability-to-pay for all Lottery and Incentive programs, where required, in which the school division has elected to participate in a fiscal year.

7. "Planning District Eight" - The nine localities which comprise Planning District Eight are Arlington County, Fairfax County, Loudoun County, Prince William County, Alexandria City, Fairfax City, Falls Church City, Manassas City, and Manassas Park City.

	First Year FY2015	Second Year FY2016	First Year FY2015	Second Year FY2016
8. "State Share of the Standards of Quality" - The state share of the Standards of Quality (SOQ) shall be equal to the total funded SOQ cost for a school division less the school division's estimated revenues from the state sales and use tax dedicated to public education based on the latest yearly estimate of school age population provided by the Weldon Cooper Center for Public Service, adjusted for the state's share of the composite index of local ability to pay.				
9. In the event that the general fund appropriations in this item are not sufficient to meet the entitlements payable to school divisions pursuant to the provisions of this Item, the Department of Education is authorized to transfer any available general fund funds between these Items to address such insufficiencies. If the total general fund appropriations after such transfers remain insufficient to meet the entitlements of any program funded with general fund dollars, the Department of Education is authorized to prorate such shortfall proportionately across all of the school divisions participating in any program where such shortfall occurred. In addition, the Department of Education is authorized each year to temporarily suspend textbook payments made to school divisions from Lottery funds to ensure that any shortfall in Lottery revenue can be accounted for in the remaining textbook payments to be made for the year.				
10. The Department of Education is directed to apply a cap on inflation rates in the same manner prescribed in § 51.1-166.B, Code of Virginia, when updating funding to school divisions during the biennial rebenchmarking process.				
11. Notwithstanding any other provision in statute or in this Item, the Department of Education is directed to combine the end-of-year Average Daily Membership (ADM) for those school divisions who have partnered together as a fiscal agent division and a contractual division for the purposes of calculating prevailing costs included in the Standards of Quality (SOQ).				
12. Notwithstanding any other provision in statute or in this Item, the Department of Education is directed to include zeroes in the linear weighted average calculation of support non-personal costs for the purpose of calculating prevailing costs included in the Standards of Quality (SOQ).				
13. Notwithstanding any other provision in statute or in this Item, the Department of Education is directed to eliminate the corresponding and appropriate object code(s) related to reported travel expenditures included the linear weighted average non-personal cost calculations for the purpose of calculating prevailing costs included in the Standards of Quality (SOQ).				
14. Notwithstanding any other provision in statute or in this Item, the Department of Education is directed to eliminate the corresponding and appropriate object code(s) related to reported leases and rental and facility expenditures included the linear weighted average non-personal cost calculations for the purpose of calculating prevailing costs included in the Standards of Quality (SOQ).				
15. Notwithstanding any other provision in statute or in this Item, the Department of Education is directed to fund transportation costs using a 15 year replacement schedule, which is the national standard guideline, for school bus replacement schedule for the purpose of calculating funded transportation costs included in the Standards of Quality (SOQ).				
16. To provide temporary flexibility, notwithstanding any other provision in statute or in this Item, school divisions may elect to increase the teacher to pupil staffing ratios in kindergarten through grade 7 and English classes for grades 6 through twelve by one additional student; the teacher to pupil staffing ratio requirements for Elementary Resource teachers, Prevention, Intervention and Remediation, English as a Second Language, Gifted and Talented, Career and Technical funded programs (other than on Career and Technical courses where school divisions will have to maintain a maximum class size based on federal Occupational Safety & Health Administration safety requirements) are waived; and the instructional and support technology positions, librarians and guidance counselors staffing ratios for new hires are waived.				
17. To provide additional flexibility, notwithstanding the provisions of § 22.1-79.1 of the Code of Virginia, any school division that was granted a waiver regarding the opening date of the school year for the 2011-12 school year under the good cause requirements shall continue to be granted a waiver for the 2014-15 school year and the 2015-2016 school year.

**I VETO THIS ITEM. /s/ Terence R. McAuliffe (6/21/14) (Vetoed item is enclosed in brackets.)**

19. Out of this appropriation, up to \$600,000 the second year from the general fund may be used to support transitional incentive costs of a mutually beneficial School Services Agreement and Tuition Contract between Petersburg and Chesterfield. Upon signed agreement by the relevant local governments and school divisions, the parties may jointly submit application to the State Superintendent of Public Instruction for transitional incentive costs which may be based on part of the difference in per pupil spending between the two school divisions.

**B. General Conditions**

1. The Standards of Quality cost in this Item related to fringe benefits shall be limited for instructional staff members to the employer's cost for a number not exceeding the number of instructional positions required by the Standards of Quality for each school division and for their salaries at the statewide prevailing salary levels as printed below.

<b>Instructional Position</b>	<b>First Year Salary</b>	<b>Second Year Salary</b>
Elementary Teachers	\$45,822	\$45,822

Secondary Principals	\$87,954	\$87,954
Instructional Aides	\$16,613	\$16,613

a.1) Payment by the state to a local school division shall be based on the state share of fringe benefit costs of 55 percent of the employer's cost distributed on the basis of the composite index.

2) A locality whose composite index exceeds 0.8000 shall be considered as having an index of 0.8000 for purposes of distributing fringe benefit funds under this provision.

3) The state payment to each school division for retirement, social security, and group life insurance costs for non-instructional personnel is included in and distributed through Basic Aid.

b. Payments to school divisions from this Item shall be calculated using March 31 Average Daily Membership adjusted for half-day kindergarten programs.

c. Payments for health insurance fringe benefits are included in and distributed through Basic Aid.

2. Each locality shall offer a school program for all its eligible pupils which is acceptable to the Department of Education as conforming to the Standards of Quality program requirements.

3. In the event the statewide number of pupils in March 31 ADM results in a state share of cost exceeding the general fund appropriation in this Item, the locality's state share of Basic Aid shall be reduced proportionately so that this general fund appropriation will not be exceeded. In addition, the required local share of Basic Aid shall also be reduced proportionately to the reduction in the state's share.

4. The Department of Education shall make equitable adjustments in the computation of indices of wealth and in other state-funded accounts for localities affected by annexation, unless a court of competent jurisdiction makes such adjustments. However, only the indices of wealth and other state-funded accounts of localities party to the annexation will be adjusted.

5. In the event that the actual revenues from the state sales and use tax dedicated to public education and those sales tax revenues transferred to the general fund from the Public Education Standards of Quality/Local Real Estate Property Tax Relief Fund and appropriated in this Item (both of which are returned on the basis of the latest yearly estimate of school age population provided by the Weldon Cooper Center for Public Service) for sales in the fiscal year in which the school year begins are different from the number estimated as the basis for this appropriation, the estimated state sales and use tax revenues shall not be adjusted.

This Item includes a minimum of 51 professional instructional positions and aide positions (C 2); Education of the Gifted, 1.0 professional instructional position (C 3); Occupational-Vocational Education Payments and Special Education Payments; a minimum of 6.0 professional instructional positions and aide positions (C 4 and C 5) for each 1,000 pupils in March 31 ADM each year in support of the current Standards of Quality. Funding in support of one hour of additional instruction per day based on the percent of students eligible for the federal free lunch program with a pupil-teacher ratio range of 18:1 to 10:1, depending upon a school division's combined failure rate on the English and Math Standards of Learning, is included in Remedial Education Payments (C 8).

b. No actions provided in this section signify any intent of the General Assembly to mandate an increase in the number of instructional personnel per 1,000 students above the numbers explicitly stated in the preceding paragraph.

c. Appropriations in this Item include programs supported in part by transfers to the general fund from the Public Education Standards of Quality/Local Real Estate Property Tax Relief Fund pursuant to Part 3 of this Act. These transfers combined together with other appropriations from the general fund in this Item funds the state's share of the following revisions to the Standards of Quality pursuant to Chapters 939 & 955 of the Acts of Assembly of 2004: five elementary resource teachers per 1,000 students; one support technology position per 1,000 students; one instructional technology position per 1,000 students; and a full daily planning period for teachers at the middle and high school levels in order to relieve the financial pressure these education programs place on local real estate taxes.

d. To provide flexibility, school divisions may use the state and local funds for instructional technology resource teachers required by the Standards of Quality to employ a data coordinator position, an instructional technology resource teacher position, or a data coordinator/instructional resource teacher blended position. The data coordinator position is intended to serve as a resource to principals and classroom teachers in the area of data analysis and interpretation for instructional and school improvement purposes, as well as for overall data management and administration of state assessments. School divisions using these SOQ funds in this manner shall only employ instructional personnel licensed by the Board of Education.

e. To provide flexibility in the provision of reading intervention services, school divisions may use the state Early Reading Intervention initiative funding provided from the Lottery Proceeds Fund and the required local matching funds to employ reading specialists to provide the required reading intervention services. School divisions using the Early Reading Intervention Initiative funds in this manner shall only employ instructional personnel licensed by the Board of Education.

f. To provide flexibility in the provision of mathematics intervention services, school divisions may use the state Standards of Learning Algebra Readiness initiative funding provided from the Lottery Proceeds Fund and the required local matching funds to employ mathematics teacher specialists to provide the required mathematics intervention services. School divisions using the Standards of Learning Algebra Readiness initiative funding in this manner shall only employ instructional personnel licensed by the Board of Education.

8.a.1) Pursuant to § 22.1-97, Code of Virginia, the Department of Education is required to make calculations at the start of the school year to ensure that school divisions have appropriated adequate funds to support their estimated required local expenditure for the corresponding state fiscal year. In an effort to reduce the administrative burden on school divisions resulting from state data collections, such as the one needed to make the aforementioned calculations, the requirements of § 22.1-97, Code of Virginia, pertaining to the adequacy of estimated required local expenditures, shall be satisfied by signed certification by each division superintendent at the beginning of each school year that sufficient local funds have been budgeted to meet all state required local effort and required local match amounts. This provision shall only apply to calculations required of the Department of Education related to estimated required local expenditures and shall not pertain to the calculations associated with actual required local expenditures after the close of the school year.

2) The Department of Education shall also make calculations after the close of the school year to verify that the required local effort level, based on actual March 31 Average Daily Membership, was met. Pursuant to § 22.1-97, Code of Virginia, the Department of Education shall report annually, no later than the first day of the General Assembly session, to the House Committees on Education and Appropriations and the Senate Committees on Finance and Education and Health, the results of such calculations made after the close of the school year and the degree to which each school division has met, failed to meet, or surpassed its required local expenditure. This calculation may include but is not limited to the following calculations:				
b. The total expenditures for operation, defined as total expenditures less all capital outlays, expenditures for debt service, facilities, non-regular day school programs (such as adult education, preschool, and non-local education programs), and any transfers to regional programs will be calculated.				
c. The following state funds will be deducted from the amount calculated in paragraph a. above: revenues from the state sales and use tax (returned on the basis of the latest yearly estimate of school age population provided by the Weldon Cooper Center for Public Service, as specified in this Item) for sales in the fiscal year in which the school year begins; total receipts from state funds (except state funds for non-regular day school programs and state funds used for capital or debt service purposes); and the state share of any balances carried forward from the previous fiscal year. Any qualifying state funds that remain unspent at the end of the fiscal year will be added to the amount calculated in paragraph a. above.				
d. Federal funds, and any federal funds carried forward from the previous fiscal year, will also be deducted from the amount calculated in paragraph a. above. Any federal funds that remain unspent at the end of the fiscal year and any capital expenditures paid from federal funds will be added to the amount calculated in paragraph a. above.				
e. Tuition receipts, receipts from payments from other cities or counties, and fund transfers will also be deducted from the amount calculated in paragraph a, then				
f. The final amount calculated as described above must be equal to or greater than the required local expenditure defined in paragraph A. 5.				
g. The Department of Education shall collect the data necessary to perform the calculations of required local expenditure as required by this section.				
h. A locality whose expenditure in fact exceeds the required amount from local funds may not reduce its expenditures unless it first complies with all of the Standards of Quality.				
9.a. Any required local matching funds which a locality, as of the end of a school year, has not expended, pursuant to this Item, for the Standards of Quality shall be paid by the locality into the general fund of the state treasury. Such payments shall be made not later than the end of the school year following that in which the under expenditure occurs.				
b. Whenever the Department of Education has recovered funds as defined in the preceding paragraph a, the Secretary of Education is authorized to repay to the locality affected by that action, seventy-five percent (75%) of those funds upon his determination that:				
1) The local school board agrees to include the funds in its June 30 ending balance for the year following that in which the under expenditure occurs;				
2) The local governing body agrees to reappropriate the funds as a supplemental appropriation to the approved budget for the second year following that in which the under expenditure occurs, in an appropriate category as requested by the local school board, for the direct benefit of the students;				
3) The local school board agrees to expend these funds, over and above the funds required to meet the required local expenditure for the second year following that in which the under expenditure occurs, for a special project, the details of which must be furnished to the Department of Education for review and approval;

4) The local school board agrees to submit quarterly reports to the Department of Education on the use of funds provided through this project award; and

5) The local governing body and the local school board agree that the project award will be cancelled and the funds withdrawn if the above conditions have not been met as of June 30 of the second year following that in which the under expenditure occurs.

c. There is hereby appropriated, for the purposes of the foregoing repayment, a sum sufficient, not to exceed 75 percent of the funds deposited in the general fund pursuant to the preceding paragraph a.

10. The Department of Education shall specify the manner for collecting the required information and the method for determining if a school division has expended the local funds required to support the actual local match based on all Lottery and Incentive programs in which the school division has elected to participate. Unless specifically stated otherwise in this Item, school divisions electing to participate in any Lottery or Incentive program that requires a local funding match in order to receive state funding, shall certify to the Department of Education its intent to participate in each program by July 1 each fiscal year in a manner prescribed by the Department of Education. As part of this certification process, each division superintendent must also certify that adequate local funds have been appropriated, above the required local effort for the Standards of Quality, to support the projected required local match based on the Lottery and Incentive programs in which the school division has elected to participate. State funding for such program(s) shall not be made until such time that the school division can certify that sufficient local funding has been appropriated to meet required local match. The Department of Education shall make calculations after the close of the fiscal year to verify that the required local match was met based on the state funds that were received.

11. Any sum of local matching funds for Lottery and Incentive program which a locality has not expended as of the end of a fiscal year in support of the required local match pursuant to this Item shall be paid by the locality into the general fund of the state treasury unless the carryover of those unspent funds is specifically permitted by other provisions of this act. Such payments shall be made no later than the end of the school year following that in which the under expenditure occurred.

The Superintendent of Public Instruction shall provide a report annually, no later than the first day of the General Assembly session, on the status of teacher salaries, by local school division, to the Governor and the Chairmen of the Senate Finance and House Appropriations Committees. In addition to information on average salaries by school division and statewide comparisons with other states, the report shall also include information on starting salaries by school division and average teacher salaries by school.

13. All state and local matching funds required by the programs in this Item shall be appropriated to the budget of the local school board.

14. By November 15 of each year, the Department of Planning and Budget, in cooperation with the Department of Education, shall prepare and submit a preliminary forecast of Standards of Quality expenditures, based upon the most current data available, to the Chairmen of the House Appropriations and Senate Finance Committees. In odd-numbered years, the forecast for the current and subsequent two fiscal years shall be provided. In even-numbered years, the forecast for the current and subsequent fiscal year shall be provided. The forecast shall detail the projected March 31 Average Daily Membership and the resulting impact on the education budget.

15. School divisions may choose to use state payments provided for Standards of Quality Prevention, Intervention, and Remediation in both years as a block grant for remediation purposes, without restrictions or reporting requirements, other than reporting necessary as a basis for determining funding for the program.

16. Except as otherwise provided in this act, the Superintendent of Public Instruction shall provide guidelines for the distribution and expenditure of general fund appropriations and such additional federal, private and other funds as may be made available to aid in the establishment and maintenance of the public schools.

The payment shall be calculated based on one hour of additional instruction per day for identified students, using the three year average percent of students eligible for the federal Free Lunch program as a proxy for students needing such services. Fall membership shall be multiplied by the three year average division-level Free Lunch eligibility percentage to determine the estimated number of students eligible for services. Pupil-teacher ratios shall be applied to the estimated number of eligible students to determine the number of instructional positions needed for each school division. The pupil-teacher ratio applied for each school division shall range from 10:1 for those divisions with the most severe combined three year average failure rates for English and math Standards of Learning test scores to 18:1 for those divisions with the lowest combined three year average failure rates for English and math Standards of Learning test scores.</p>

	<p>2) An addition to the add-on, based on the concentration of children qualifying for the federal Free Lunch Program. Based on its percentage of Free Lunch participants, each school division will receive between 1 and 12 percent in additional basic aid per Free Lunch participant. These funds shall be matched by the local government, based on the composite index of local ability-to-pay.</p>			
	<p>3a) Local school divisions are required to spend the established at-risk payment (state and local share) on approved programs for students who are educationally at risk.</p>

The data coordinator position is intended to provide schools with needed support in the area of data analysis and interpretation for instructional purposes, as well as overall data management and the administration of state assessments. The position would primarily focus on data related to instruction and school improvement, including: student assessment, student attendance, student/teacher engagement, behavior referrals, suspensions, retention, and graduation rates.

f. Regional Alternative Education Programs

1) An additional state payment of \$8,085,825 the first year and \$8,086,130 the second year from the Lottery Proceeds Fund shall be disbursed for Regional Alternative Education programs. Such programs shall be for the purpose of educating certain expelled students and, as appropriate, students who have received suspensions from public schools and students returned to the community from the Department of Juvenile Justice.

2) Each regional program shall have a small student/staff ratio. Such staff shall include, but not be limited to education, mental health, health, and law enforcement professionals, who will collaborate to provide for the academic, psychological, and social needs of the students. Each program shall be designed to ensure that students make the transition back into the "mainstream" within their local school division.

3) a) Regional alternative education programs are funded through this Item based on the state's share of the incremental per pupil cost for providing such programs. This incremental per pupil payment shall be adjusted for the composite index of local ability-to-pay of the school division that counts such students attending such program in its March 31 Average Daily Membership. It is the intent of the General Assembly that this incremental per pupil amount be in addition to the basic aid per pupil funding provided to the affected school division for such students. Therefore, local school divisions are encouraged to provide the appropriate portion of the basic aid per pupil funding to the regional programs for students attending these programs, adjusted for costs incurred by the school division for transportation, administration, and any portion of the school day or school year that the student does not attend such program.

b) In the event a school division does not use all of the student slots it is allocated under this program, the unused slots may be reallocated or transferred to another school division.

1. A school division must request from the Department of Education the availability and possible use of any unused student slots. If any unused slots are available and if the requesting school division chooses to utilize any of the unused slots, the requesting school division shall only receive the state's share of tuition for the unused slot that was allocated in this Item for the originally designated school division.

2. However, no requesting school division shall receive more tuition funding from the state for any requested unused slot than what would have been the calculated amount for the requesting school division had the unused slot been allocated to the requesting school division in the original budget. Furthermore, the requesting school division shall pay for any remaining tuition payment necessary for using a previously unused slot.

3. The Department of Education shall provide assistance for the state share of the incremental cost of Regional Alternative Education program operations based on the composite index of local ability-to-pay.

1) This appropriation includes \$25,110,358 the first year and \$26,576,054 the second year from the general fund for the state's share of Remedial Summer School Programs. These funds are available to school divisions for the operation of programs designed to remediate students who are required to attend such programs during a summer school session or during an intersession in the case of year-round schools. These funds may be used in conjunction with other sources of state funding for remediation or intervention. School divisions shall have maximum flexibility with respect to the use of these funds and the types of remediation programs offered; however, in exercising this flexibility, students attending these programs shall not be charged tuition and no high school credit may be awarded to students who participate in this program.

2) For school divisions charging students tuition for summer high school credit courses, consideration shall be given to students from households with extenuating financial circumstances who are repeating a class in order to graduate.

10. K-3 Primary Class Size Reduction Payments

a. An additional payment estimated at \$118,119,161 the first year and \$118,288,804 the second year from the Lottery Proceeds Fund shall be disbursed by the Department of Education as an incentive for reducing class sizes in the primary grades.

b. The Department of Education shall calculate the payment based on the incremental cost of providing the lower class sizes based on the lower of the division average per pupil cost of all divisions or the actual division per pupil cost.

c. Localities are required to provide a match for these funds based on the composite index of local ability-to-pay.

d. By October 15 of each year school divisions must provide data to the Department of Education that each participating school has a September 30 pupil/teacher ratio in grades K through 3 that meet the following criteria:

**Qualifying School Percentage of Students Approved**

<b>Eligible for Free Lunch, Three-Year Average</b>	<b>Grades K-3 School Ratio</b>	<b>Maximum Individual K-3 Class Size</b>
30% but less than 45%	19 to 1	24
45% but less than 55%	18 to 1	23
55% but less than 65%	17 to 1	22
65% but less than 70%	16 to 1	21
70% but less than 75%	15 to 1	20
75% or more	14 to 1	19

e. School divisions may elect to have eligible schools participate at a higher ratio, or only in a portion of grades kindergarten through three, with a commensurate reduction of state and required local funds, if local conditions do not permit participation at the established ratio and/or maximum individual class size. In the event that a school division requires additional actions to ensure participation at the established ratio and/or maximum individual class size, such actions must be completed by December 1 of the impacted school year. Special education teachers and instructional aides shall not be counted towards meeting these required pupil/teacher ratios in grades kindergarten through three.

f. The Superintendent of Public Instruction may grant waivers to school divisions for the class size requirement in eligible schools that have only one class in an affected grade level in the school.

11. Literary Fund Subsidy Program Payments

a. The Department of Education and the Virginia Public School Authority (VPSA) shall provide a program of funding for school construction and renovation through the Literary Fund and through VPSA bond sales. The program shall be used to provide funds, through Literary Fund loans and subsidies, and through VPSA bond sales, to fund a portion of the projects on the First or Second Literary Fund Waiting List, or other critical projects which may receive priority placement on the First or Second Literary Fund Waiting List by the Department of Education. Interest rate subsidies will provide school divisions with the present value

difference in debt service between a Literary Fund loan and a borrowing through the VPSA. To qualify for an interest rate subsidy, the school division's project must be eligible for a Literary Fund loan and shall be subject to the same restrictions. The VPSA shall work with the Department of Education in selecting those projects to be funded through the interest rate subsidy/bond financing program, so as to ensure the maximum leverage of Literary Fund moneys and a minimum impact on the VPSA Bond Pool.

b. The Department of Education may offer Literary Fund loans from the uncommitted balances of the Literary Fund after meeting the obligations of the interest rate subsidy sales and the amounts set aside from the Literary Fund for Debt Service Payments for Education Technology in this Item.

c. 1) In the event that on any scheduled payment date of bonds of the Virginia Public School Authority (VPSA) authorized under the provisions of a bond resolution adopted subsequent to June 30, 1997, issued subsequent to June 30, 1997, and not benefiting from the provisions of either § 22.1-168 (iii), (iv), and (v), Code of Virginia, or § 22.1-168.1, Code of Virginia, the sum of (i) the payments on general obligation school bonds of cities, counties, and towns (localities) paid to the VPSA and (ii) the proceeds derived from the application of the provisions of § 15.2-2659, Code of Virginia, to such bonds of localities, is less than the debt service due on such bonds of the VPSA on such date, there is hereby appropriated to the VPSA, first, from available moneys of the Literary Fund and, second, from the general fund a sum equal to such deficiency.

2) The Commonwealth shall be subrogated to the VPSA to the extent of any such appropriation paid to the VPSA and shall be entitled to enforce the VPSA's remedies with respect to the defaulting locality and to full recovery of the amount of such deficiency, together with interest at the rate of the defaulting locality's bonds.

d. The chairman of the Board of Commissioners of the VPSA shall, on or before November 1 of each year, make and deliver to the Governor and the Secretary of Finance a certificate setting forth his estimate of total debt service during each fiscal year of the biennium on bonds of the VPSA issued and projected to be issued during such biennium pursuant to the bond resolution referred to in paragraph a above. The Governor's budget submission each year shall include provisions for the payment of debt service pursuant to paragraph 1) above.

#### 12. Educational Technology Payments

a. Any unobligated amounts transferred to the educational technology fund shall be disbursed on a pro rata basis to localities. The additional funds shall be used for technology needs identified in the division's technology plan approved by the Department of Education.

b. The Department of Education shall authorize amounts estimated at \$11,912,250 the first year from the Literary Fund to provide debt service payments for the education technology grant program conducted through the Virginia Public School Authority in 2010.

c. The Department of Education shall authorize amounts estimated at \$11,670,000 the first year and \$11,670,750 the second year from the Literary Fund to provide debt service payments for the education technology grant program conducted through the Virginia Public School Authority in 2011.

2) It is the intent of the General Assembly to authorize sufficient appropriate Literary Fund revenues to pay debt service on the Virginia Public School Authority bonds or notes authorized for this program. In developing the proposed 2016-18 biennial budget for public education, the Department of Education shall include a recommendation to the Governor to authorize sufficient Literary Fund revenues to make debt service payments for this program in FY 2016.

Proceeds of the notes will be used to establish a computer-based instructional and testing system for the Standards of Learning (SOL) and to develop the capability for high speed Internet connectivity at high schools followed by middle schools followed by elementary schools. School divisions shall use these funds first to develop and maintain the capability to support the administration of online SOL testing for all students with the exception of students with a documented need for a paper SOL test.				
2) The Department of Education shall authorize amounts estimated at \$13,538,408 the second year from the Literary Fund to provide debt service payments for the education technology grant program conducted through the Virginia Public School Authority in FY 2015.				
3) It is the intent of the General Assembly to authorize sufficient Literary Fund revenues to pay debt service on the Virginia Public School Authority bonds or notes authorized for education technology grant programs in FY 2015 and in FY 2016. For purposes of this grant program, eligible schools shall include schools that are subject to state accreditation and reporting membership in grades K through 12 as of September 30, 2014, for the FY 2015 issuance, and September 30, 2015, for the FY 2016 issuance, as well as regional vocational centers, special education centers, alternative education centers, regular school year Governor's Schools, and the School for the Deaf and the Blind. Schools that serve only pre-kindergarten students shall not be eligible for this grant.				
5) Supplemental grants shall be allocated to eligible divisions to support schools that are not fully accredited in accordance with this paragraph. Schools that administer SOL tests in Spring 2014 and that are not fully accredited for the second consecutive year, based on school accreditation ratings in effect for FY 2014 and FY 2015, or that have 15 percent of students in the English as a Second Language count and also have having free lunch eligibility for the school of over one-third of the students, will qualify to participate in the Virginia e-Learning Backpack Initiative in FY 2015 and receive: (1) a supplemental grant of \$400 per student reported in ninth grade fall membership in a qualifying school for the purchase of a tablet computer device for that student and (2) a supplemental grant of \$2,400 per qualifying school to purchase two content creation packages for teachers. Schools eligible to receive this

supplemental grant in FY 2015 shall continue to receive the grant for the number of subsequent years equaling the number of grades 9 through 12 in the qualifying school up to a maximum of four years. Schools that administer SOL tests in Spring 2015 and that are not fully accredited for the second consecutive year based on school accreditation ratings in effect for FY 2015 and FY 2016 will qualify to participate in the initiative in FY 2016. Schools eligible for the supplemental grants in previous fiscal years shall continue to be eligible for the remaining years of their grant award. Schools eligible to receive this supplemental grant in FY 2016 shall continue to receive the grant for the number of subsequent years equaling the number of grades 9 through 12 in the qualifying school up to a maximum of four years. Grants awarded to qualifying schools that do not have grades 10, 11, or 12 may transition with the students to the primary receiving school for all years subsequent to grade 9. Schools are eligible to receive these grants for a period of up to four years beginning in FY 2014 shall not be eligible to receive a separate award in the future once the original award period has concluded. Schools that are fully accredited or that are new schools with conditional accreditation in their first year shall not be eligible to receive this supplemental grant.

6) Required local match:

a) Localities are required to provide a match for these funds equal to 20 percent of the grant amount, including the supplemental grants provided pursuant to paragraph g. 5). At least 25 percent of the local match shall be used for teacher training in the use of instructional technology. The Superintendent of Public Instruction is authorized to reduce the required local match for school divisions with a composite index of local ability-to-pay below 0.2000. The Virginia School for the Deaf and the Blind is exempt from the match requirement.

b) School divisions that administer 100 percent of SOL tests online in all elementary, middle, and high schools may use up to 75 percent of their required local match to purchase targeted technology-based interventions. Such interventions may include the necessary technology and software to support online learning, technology-based content systems, content management systems, technology equipment systems, information and data management systems, and other appropriate technologies that support the individual needs of learners. School divisions that receive supplemental grants in the second year pursuant to paragraph g.5) above shall use the funds in qualifying schools to purchase tablet computer devices for ninth grade students reported in fall membership and content creation packages for teachers.

7) The goal of the education technology grant program is to improve the instructional, remedial, and testing capabilities of the Standards of Learning for local school divisions and to increase the number of schools achieving full accreditation.

8) Funds shall be used in the following manner:

a) Each division shall use funds to reach a goal, in each high school, of: (1) a 5-to-1 student to computer ratio; (2) an Internet-ready local area network (LAN) capability; and (3) high speed access to the Internet. School connectivity (computers, LANs and network access) shall include sufficient download/upload capability to ensure that each student will have adequate access to Internet-based instructional, remedial and assessment programs.

b) When each high school in a division meets the goals established in paragraph a) above, the remaining funds shall be used to develop similar capability in first the middle schools and then the elementary schools.

c) For purposes of establishing or enhancing a computer-based instructional program supporting the Standards of Learning pursuant to paragraph g. 1) above, these grant funds may be used to purchase handheld multifunctional computing devices that support a broad range of applications and that are controlled by operating systems providing full multimedia support and mobile Internet connectivity. School divisions that elect to use these grant funds to purchase such qualifying handheld devices must continue to meet the on-line testing requirements stated in paragraph g. 1) above.

d) School divisions shall be eligible to receive supplemental grants in the second year pursuant to paragraph g.5) above. These supplemental grants shall be used in qualifying schools for the purchase of tablet computer devices for ninth grade students reported in fall membership and content creation packages for teachers. Participating school divisions will be required to select a

core set of electronic textbooks, applications and online services for productivity, learning management, collaboration, practice, and assessment to be included on all devices. In addition, participating school divisions will assume recurring costs for electronic textbook purchases and maintenance.

e) Pursuant to § 15.2-1302, Code of Virginia, and in the event that two or more school divisions became one school division, whether by consolidation of only the school divisions or by consolidation of the local governments, such resulting division shall be provided funding through this program on the basis of having the same number of school divisions as existed prior to September 30, 2000.

9) Local school divisions shall maximize the use of available federal funds, including E-Rate Funds, and to the extent possible, use such funds to supplement the program and meet the goals of this program.

h. The Department of Education shall maintain criteria to determine if high schools, middle schools, or elementary schools have the capacity to meet the goals of this initiative. The Department of Education shall be responsible for the project management of this program.

i.1) In the event that, on any scheduled payment date of bonds or notes of the Virginia Public School Authority (VPSA) issued for the purpose described in § 22.1-166.2, Code of Virginia, and not benefiting from the provisions of either § 22.1-168 (iii), (iv) and (v), Code of Virginia, or § 22.1-168.1, Code of Virginia, the available moneys in the Literary Fund are less than the amounts authorized for debt service due on such bonds or notes of the VPSA on such date, there is hereby appropriated to the VPSA from the general fund a sum equal to such deficiency.

2) The Chairman of the Board of Commissioners of the VPSA shall, on or before November 1 of each year, make and deliver to the Governor and the Secretary of Finance a certificate setting forth his estimate of total debt service during each fiscal year of the biennium on bonds and notes of the VPSA issued and projected to be issued during such biennium pursuant to the resolution referred to in paragraph 1) above. The Governor's budget submission each year shall include provisions for the payment of debt service pursuant to paragraph 1) above.

j. Unobligated proceeds of the notes, including investment income derived from the proceeds of the notes may be used to pay interest on, or to decrease principal of the notes or to fund a portion of such other educational technology grants as authorized by the General Assembly.

k.1) For the purposes of § 56-232, Code of Virginia, "Contracts of Telephone Companies with State Government" and for the purposes of § 56-234 "Contracts for Service Rendered by a Telephone Company for the State Government" shall be deemed to include communications lines into public schools which are used for educational technology. The rate structure for such lines shall be negotiated by the Superintendent of Public Instruction and the Chief Information Officer of the Virginia Information Technologies Agency. Further, the Superintendent and Director are authorized to encourage the development of "by-pass" infrastructure in localities where it fails to obtain competitive prices or prices consistent with the best rates obtained in other parts of the state.

2) The State Corporation Commission, in its consideration of the discount for services provided to elementary schools, secondary schools, and libraries and the universal service funding mechanisms as provided under § 254 of the Telecommunications Act of 1996, is hereby encouraged to make the discounts for intrastate services provided to elementary schools, secondary schools, and libraries for educational purposes as large as is prudently possible and to fund such discounts through the universal fund as provided in § 254 of the Telecommunications Act of 1996. The commission shall proceed as expeditiously as possible in implementing these discounts and the funding mechanism for intrastate services, consistent with the rules of the Federal Communications Commission aimed at the preservation and advancement of universal service.

### 13. Security Equipment Payments

1) A security equipment grant program shall be conducted through the Virginia Public School Authority, through the issuance of equipment notes in an amount estimated at up to \$6,000,000 in fiscal year 2015 and \$6,000,000 in fiscal year 2016 in conjunction with the Virginia Public

School Authority technology notes program authorized in C.12. of this item. Proceeds of the notes will be used to help offset the related costs associated with the purchase of appropriate security equipment that will improve and help ensure the safety of students attending public schools in Virginia.

2) The Department of Education shall authorize amounts estimated at \$2,503,750 the first year and \$3,804,250 the second year from the Literary Fund to provide debt service payments for the security equipment grant programs conducted through the Virginia Public School Authority in fiscal years 2013, 2014, and 2015.

3) It is the intent of the General Assembly to authorize sufficient Literary Fund revenues to pay debt service on the Virginia Public School Authority bonds or notes authorized for this program. In developing the proposed 2016-18, 2018-2020, and 2020-2022 biennial budgets for public education, the Department of Education shall include a recommendation to the Governor to authorize sufficient Literary Fund revenues to make debt service payments for these programs in fiscal years 2017, 2018, 2019, 2020, and 2021.

4) In the event that, on any scheduled payment date of bonds or notes of the Virginia Public School Authority issued for the purpose described in § 22.1-166.2, Code of Virginia, and not benefiting from the provisions of either § 22.1-168 (iii), (iv) and (v), Code of Virginia, or § 22.1-168.1, Code of Virginia, the available moneys in the Literary Fund are less than the amounts authorized for debt service due on such bonds or notes on such date, there is hereby appropriated to the Virginia Public School Authority from the general fund a sum equal to such deficiency.

5) The Chairman of the Board of Commissioners of the Virginia Public School Authority shall, on or before November 1 of each year, deliver to the Governor and the Secretary of Finance a certificate setting forth his estimate of total debt service during each fiscal year of the biennium on bonds and notes issued and projected to be issued during such biennium. The Governor's budget submission each year shall include provisions for the payment of debt service pursuant to paragraph 1) above.

6) Grant award funds from the issuance of up to \$6,000,000 in fiscal year 2015 and \$6,000,000 in fiscal year 2016 in equipment notes shall be distributed to eligible school divisions. The grant awards will be based on a competitive grant basis of up to \$100,000 per school division. School divisions will be permitted to apply annually for grant funding. For purposes of this program, eligible schools shall include schools that are subject to state accreditation and reporting membership in grades K through 12 as of September 30, 2014, for the fiscal year 2015 issuance, and September 30, 2015, for the fiscal year 2016 issuance, as well as regional vocational centers, special education centers, alternative education centers, regular school year Governor's Schools, and the Virginia School for the Deaf and the Blind.

7) School divisions would submit their application to Department of Education by August 1 of each year based on the criteria developed by the Department of Education in collaboration with the Department of Criminal Justice Services who will provide requested technical support. Furthermore, the Department of Education will have the authority to make such grant awards to such school divisions.

8) It is also the intent of the General Assembly that the total amount of the grant awards shall not exceed \$30,000,000 over any ongoing revolving five year period.

9) Required local match:

a) Localities are required to provide a match for these funds equal to 25 percent of the grant amount. The Superintendent of Public Instruction is authorized to reduce the required local match for school divisions with a composite index of local ability-to-pay below 0.2000. The Virginia School for the Deaf and the Blind is exempt from the match requirement.

b) Pursuant to § 15.2-1302, Code of Virginia, and in the event that two or more school divisions became one school division, whether by consolidation of only the school divisions or by consolidation of the local governments, such resulting division shall be provided funding through this program on the basis of having the same number of school divisions as existed prior to September 30, 2000.

c) Local school divisions shall maximize the use of available federal funds, including E-Rate Funds, and to the extent possible, use such funds to supplement the program and meet the goals of this program.

14. Virginia Preschool Initiative Payments

a.1) It is the intent of the General Assembly that a payment estimated at \$71,976,297 the first year and \$74,922,998 the second year from the Lottery Proceeds Fund shall be disbursed by the Department of Education to schools and community-based organizations to provide quality preschool programs for at-risk four-year-olds unserved by Head Start program funding. In no event shall distributions from the Lottery Proceeds Fund be made directly to community-based or private providers.

2) These state funds and required local matching funds shall be used to provide programs for at-risk four-year-old children, which include quality preschool education, health services, social services, parental involvement and transportation. It shall be the policy of the Commonwealth that state funds and required local matching funds for the Virginia Preschool Initiative not be used for capital outlay. Programs must provide full-day or half-day and, at least, school-year services.

3) The Department of Education, in cooperation with the Council on Child Day Care and Early Childhood Programs, shall establish academic standards that are in accordance with appropriate preparation for students to be ready to successfully enter kindergarten. These standards shall be established in such a manner as to be measurable for student achievement and success. Students shall be required to be evaluated in the fall and in the spring by each participating school division and the school divisions must certify that the Virginia Preschool Initiative program follows the established standards in order to receive the funding for quality preschool education and criteria for the service components. Such guidelines shall be consistent with the findings of the November 1993 study by the Board of Education, the Department of Education, and the Council on Child Day Care and Early Childhood Programs.

4) a) Grants shall be distributed based on an allocation formula providing the state share of a \$6,000 grant for 100 percent of the unserved at-risk four-year-olds in each locality for a full-day program. The number of unserved at-risk four-year-olds in each locality shall be based on the projected number of kindergarten students, updated once each biennium for the Governor's introduced biennial budget. In the first year only, the Department shall adjust the additional slots calculated to fund such school divisions at the same number of slots actually used in FY 2014 on a prorated basis up to \$1,000,000. For the second year only, in no case shall a school division be eligible for fewer slots than they actually used for this program in FY 2014 on a prorated basis up to \$3,631,581. Programs operating half-day shall receive state funds based on a fractional basis determined by the pro-rata portion of a full-day, school year program provided. Half-day programs shall operate for a minimum of three hours of classroom instructional time per day, excluding breaks for lunch or recess, and grants to half-day programs shall be funded based on the state share of \$3,000 per unserved at-risk four-year-old in each locality. Full-day programs shall operate for a minimum of five and one-half instructional hours, excluding breaks for meals and recess. No additional state funding is provided for programs operating greater than three hours per day but less than five and one-half hours per day. In determining the state and local shares of funding, the composite index of local ability-to-pay is capped at 0.5000.

b) For new programs in the first year of implementation only, programs operating less than a full school year shall receive state funds on a fractional basis determined by the pro-rata portion of a school year program provided. In determining the prorated state funds to be received, a school year shall be 180 days.

b.1) Any locality which desires to participate in this grant program must submit a proposal through its chief administrator (county administrator or city manager) by June 15 of each year. The chief administrator, in conjunction with the school superintendent, shall identify a lead agency for this program within the locality. The lead agency shall be responsible for developing a local plan for the delivery of quality preschool services to at-risk children which demonstrates the coordination of resources and the combination of funding streams in an effort to serve the greatest number of at-risk four-year-old children.

2) The proposal must demonstrate coordination with all parties necessary for the successful delivery of comprehensive services, including the schools, child care providers, local social services agency, Head Start, local health department, and other groups identified by the lead agency.

3) A local match, based on the composite index of local ability-to-pay, shall be required. For purposes of meeting the local match, localities may use local expenditures for existing qualifying programs, however, at least seventy-five percent of the local match will be cash and no more than twenty-five percent will be in-kind. In-kind contributions are defined as cash outlays that are made by the locality that benefit the program but are not directly charged to the program. The value of fixed assets cannot be considered as an in-kind contribution. Localities shall also continue to pursue and coordinate other funding sources, including child care subsidies. Funds received through this program must be used to supplement, not supplant, any funds currently provided for programs within the locality. However, in the event a locality is prohibited from continuing the previous level of support to programs for at-risk four-year-olds from Title I of the federal Elementary and Secondary Education Act (ESEA), the state and local funds provided in this grants program may be used to continue services to these Title I students. Such prohibition may occur due to amendments to the allocation formula in the reauthorization of ESEA as the No Child Left Behind Act of 2001 or due to a percentage reduction in a locality's Title I allocation in 2014-2015 or 2015-2016. Any locality so affected shall provide written evidence to the Superintendent of Public Instruction and request his approval to continue the services to Title I students.

c. Local plans must provide clear methods of service coordination for the purpose of reducing the per child cost for the service, increasing the number of at-risk children served and/or extending services for the entire year. Examples of these include:

- 1) "Wraparound Services" — methods for combining funds such as child care subsidy dollars administered by local social service agencies with dollars for quality preschool education programs.
- 2) "Wrap-out Services" - methods for using grant funds to purchase quality preschool services to at-risk four-year-old children through an existing child care setting by purchasing comprehensive services within a setting which currently provides quality preschool education.
- 3) "Expansion of Service" - methods for using grant funds to purchase slots within existing programs, such as Head Start, which provide comprehensive services to at-risk four-year-old children.

Local plans must indicate the number of at-risk four-year-old children to be served, and the criteria by which they will be determined to be at risk.

d.1) The Department of Education and the Council on Child Day Care and Early Childhood Programs shall provide technical assistance for the administration of this grant program to provide assistance to localities in developing a comprehensive, coordinated, quality preschool program for serving at-risk four-year-old children.

2) A pre-application session shall be provided by the Department and the Council on Child Day Care and Early Childhood Programs prior to the proposal deadline. The Department shall provide interested localities with information on models for service delivery, methods of coordinating funding streams, such as funds to match federal IV-A child care dollars, to maximize funding without supplanting existing sources of funding for the provision of services to at-risk four-year-old children. A priority for technical assistance in the design of programs shall be given to localities where the majority of the at-risk four-year-old population is currently unserved.

e. The Department of Education is authorized to expend unobligated balances in this program's adopted budget allocations for grants to qualifying school divisions for one-time expenses, other than capital, related to start-up or expansion of programs.

15. Early Reading Intervention Payments

<b>ITEM 136.</b>	<b>Item Details(\$)</b>		<b>Appropriations(\$)</b>	
	<b>First Year</b>	<b>Second Year</b>	<b>First Year</b>	<b>Second Year</b>
	<b>FY2015</b>	<b>FY2016</b>	<b>FY2015</b>	<b>FY2016</b>

a. An additional payment of \$17,886,428 the first year and \$17,948,114 the second year from the Lottery Proceeds Fund shall be disbursed by the Department of Education to local school divisions for the purposes of providing early reading intervention services to students in grades kindergarten through 3 who demonstrate deficiencies based on their individual performance on diagnostic tests which have been approved by the Department of Education. The Department of Education shall review the tests of any local school board which requests authority to use a test other than the state-provided test to ensure that such local test uses criteria for the early diagnosis of reading deficiencies which are similar to those criteria used in the state-provided test. The Department of Education shall make the state-provided diagnostic test used in this program available to local school divisions. School divisions shall report the results of the diagnostic tests to the Department of Education on an annual basis at a time to be determined by the Superintendent of Public Instruction.

b. These payments shall be based on the state's share of the cost of providing two and one-half hours of additional instruction each week for an estimated number of students in each school division at a student to teacher ratio of five to one. The estimated number of students in each school division in each year shall be determined by multiplying the projected number of students reported in each school division's fall membership in grades kindergarten, 1, 2, and 3 by the percent of students who are determined to need services based on diagnostic tests administered in the previous year in that school division and adjusted in the following manner:

	<b>Year 1</b>	<b>Year 2</b>
Kindergarten	100%	100%
Grade 1	100%	100%
Grade 2	100%	100%
Grade 3	100%	100%

c. These payments are available to any school division that certifies to the Department of Education that an intervention program will be offered to such students and that each student who receives an intervention will be assessed again at the end of that school year. At the beginning of the school year, local school divisions shall partner with the parents of those third grade students in the division who demonstrate reading deficiencies, discussing with them a developed plan for remediation and retesting. Such intervention programs, at the discretion of the local school division, may include, but not be limited to, the use of: special reading teachers; trained aides; volunteer tutors under the supervision of a certified teacher; computer-based reading tutorial programs; aides to instruct in-class groups while the teacher provides direct instruction to the students who need extra assistance; or extended instructional time in the school day or year for these students. Localities receiving these payments are required to match these funds based on the composite index of local ability-to-pay.

d. In the event that a school division does not use the diagnostic test provided by the Department of Education in the year that serves as the basis for updating the funding formula for this program but has used it in past years, the Department of Education shall use the most recent data available for the division for the state-provided diagnostic test.

e. The results of all reading diagnostic tests and reading remediation shall be discussed with the student and the student's parent prior to the student being promoted to grade four.

f. Funds appropriated for Standards of Quality Prevention, Intervention, and Remediation, Remedial Summer School, or At-Risk Add-On may also be used to meet the requirements of this program.

**16. Standards of Learning Algebra Readiness Payments**

a. An additional payment of \$12,256,970 the first year and \$12,265,706 the second year from the Lottery Proceeds Fund shall be disbursed by the Department of Education to local school divisions for the purposes of providing math intervention services to students in grades 6, 7, 8 and 9 who are at-risk of failing the Algebra I end-of-course test, as demonstrated by their individual performance on diagnostic tests which have been approved by the Department of Education. The Department of Education shall review the tests to ensure that such local test uses state-provided criteria for diagnosis of math deficiencies which are similar to those criteria

used in the state-provided test. The Department of Education shall make the state-provided diagnostic test used in this program available to local school divisions. School divisions shall report the results of the diagnostic tests to the Department of Education on an annual basis at a time to be determined by the Superintendent of Public Instruction.

b. These payments shall be based on the state’s share of the cost of providing two and one-half hours of additional instruction each week for an estimated number of students in each school division at a student to teacher ratio of ten to one. The estimate number of students in each school division shall be determined by multiplying the projected number of students reported in each school division’s fall membership by the percent of students that qualify for the federal Free Lunch Program.

c. These payments are available to any school division that certifies to the Department of Education that an intervention program will be offered to such students and that each student who receives an intervention will be assessed again at the end of that school year. Localities receiving these payments are required to match these funds based on the composite index of local ability-to-pay.

17. School Construction Grants Program Escrow

Notwithstanding the requirements of Section 22.1-175.5 of the Code of Virginia, school divisions are permitted to withdraw funds from local escrow accounts established pursuant to Section 22.1-175.5 to pay for recurring operational expenses incurred by the school division. Notwithstanding any contrary provision of law, the state's share of the tuition rates shall be based on the composite index of local ability-to-pay.

c. Out of the amounts for Financial Assistance for Categorical Programs, \$33,811,054 the first year and \$34,155,627 the second year from the general fund is appropriated to permit the Department of Education to enter into agreements with selected local school boards for the provision of educational services to children residing in certain hospitals, clinics, and detention homes by employees of the local school boards. The portion of these funds provided for educational services to children residing in local or regional detention homes shall only be determined on the basis of children detained in such facilities through a court order issued by a court of the Commonwealth. The selection and employment of instructional and administrative personnel under such agreements will be the responsibility of the local school board in accordance with procedures as prescribed by the local school board. State payments for the first year to the local school boards operating these programs will be based on certified expenditures from the fourth quarter of FY 2014 and the first three quarters of FY 2015. State payments for the second year to the local school boards operating these programs will be based on certified expenditures from the fourth quarter of FY 2015 and the first three quarters of FY 2016.

The Department shall also submit the report to the Chairmen of the Senate Finance and House Appropriations Committees by October 31, 2014.

A base allocation of \$2,000 each year shall be available for all divisions, with the remainder of the funding distributed on the basis of student enrollment in secondary vocational-technical courses. Local school divisions are not required to provide a local match in order to receive these state funds.

#### 28. Governor's School Payments

a. Out of the amounts for Governor's School Payments, the Department of Education shall provide assistance for the state share of the incremental cost of regular school year Governor's Schools based on each participating locality's composite index of local ability-to-pay. Participating school divisions must certify that no tuition is assessed to students for participation in this program.

b. 	First Year	Second Year	First Year	Second Year
	FY2015	FY2016	FY2015	FY2016

e. The Board of Education shall not take any action that would increase the state's share of costs associated with the Governor's Schools as set forth in this Item. This provision shall not prohibit the Department of Education from submitting requests for the increased costs of existing programs resulting from updates to student enrollment for school divisions currently participating in existing programs or for school divisions that begin participation in existing programs.

f.1) Regular school year Governor's Schools are funded through this Item based on the state's share of the incremental per pupil cost for providing such programs for each student attending a Governor's School up to a cap of 1,725 students per Governor's School in the first year and a cap of 1,725 students per Governor's School in the second year. This incremental per pupil payment shall be adjusted for the composite index of the school division that counts such students attending an academic year Governor's School in their March 31 Average Daily Membership. It is the intent of the General Assembly that this incremental per pupil amount be in addition to the basic aid per pupil funding provided to the affected school division for such students. Therefore, local school divisions are encouraged to provide the appropriate portion of the basic aid per pupil funding to the Governor's Schools for students attending these programs, adjusted for costs incurred by the school division for transportation, administration, and any portion of the day that the student does not attend a Governor's School.

2) Students attending a revolving Academic Year Governor's School program for only one semester shall be counted as 0.50 of a full-time equivalent student and will be funded for only fifty percent of the full-year funded per pupil amount. Funding for students attending a revolving Academic Year program will be adjusted based upon actual September 30th and January 30th enrollment each fiscal year. For purposes of this Item, revolving programs shall mean Academic Year Governor's School programs that admit students on a semester basis.

3) Students attending a continuous, non-revolving Academic Year Governor's School program shall be counted as a full-time equivalent student and will be funded for the full-year funded per pupil amount. Funding for students attending a continuous, non-revolving Academic Year Governor's School program will be adjusted based upon actual September 30th student enrollment each fiscal year. For purposes of this Item, continuous, non-revolving programs shall mean Academic Year Governor's School programs that only admit students at the beginning of the school year. Fairfax County Public Schools shall not reduce local per pupil funding for the Thomas Jefferson Governor's School below the amounts appropriated for the 2003-2004 school year.

g. All regional Governor's Schools are encouraged to provide full-day grades 9 through 12 programs. Out of the amounts in this item, \$100,000 the second year from the general fund is provided for existing Governor's Schools, as distributed by the Superintendent of Public Instruction, to plan for or study the feasibility of expanding, including via a merger with another Governor's School.

h. Out of this appropriation, \$100,000 the first year from the general fund is available for the Department of Education to develop a model proposal that establishes a Governor's School that focuses on Career and Technical Education.

29. School Nutrition Payments

These funds are available to any school division as a reimbursement for breakfast meals served that are in excess of the baseline established by the Department of

ITEM 136.	Item Details(\$)		Appropriations(\$)	
	First Year FY2015	Second Year FY2016	First Year FY2015	Second Year FY2016

Education. The per meal reimbursement shall be \$0.22; however, the department is authorized, but not required to reduce this amount proportionately in the event that the actual number of meals to be reimbursed exceeds the number on which this appropriation is based so that this appropriation is not exceeded.

b. In order to receive these funds, school divisions must certify that these funds will be used to supplement existing funds provided by the local governing body and that local funds derived from sources that are not generated by the school nutrition programs have not been reduced or eliminated. The funds shall be used to improve student participation in the school breakfast program. These efforts may include, but are not limited to, reducing the per meal price paid by students, reducing competitive food sales in order to improve the quality of nutritional offerings in schools, increasing access to the school breakfast program, or providing programs to increase parent and student knowledge of good nutritional practices. In no event shall these funds be used to reduce local tax revenues below the level appropriated to school nutrition programs in the prior year. Further, these funds must be provided to the school nutrition programs and may not be used for any other school purpose.

31. Clinical Faculty and Mentor Teacher Program Payments

This appropriation includes \$1,000,000 the first year and \$1,000,000 the second year from the Lottery Proceeds Fund to be paid to local school divisions for statewide Mentor Teacher Programs to assist pre-service teachers and beginning teachers to make a successful transition into full-time teaching. This appropriation also includes \$318,750 the first year and \$318,750 the second year from the general fund for Clinical Faculty programs to assist pre-service teachers and beginning teachers to make a successful transition into full-time teaching. Such programs shall include elements which are consistent with the following:

- b. For Clinical Faculty programs only, provisions for a local funding or institutional commitment of 50 percent, to match state grants of 50 percent;
- c. Program plans which include a description of the criteria for selection of clinical faculty and mentor teachers, training, support, and compensation for clinical faculty and mentor teachers, collaboration between the school division and institutions of higher education, the clinical faculty and mentor teacher assignment process, and a process for evaluation of the programs;
- d. The Department of Education shall allow flexibility to local school divisions and higher education institutions regarding compensation for clinical faculty and mentor teachers consistent with these elements of the programs; and
- e. It is the intent of the General Assembly that no preference between pre-service or beginning teacher programs be construed by the language in this Item. School divisions operating beginning teacher mentor programs shall receive equal consideration for funding.

32. Career Switcher/Alternative Licensure Payments

Appropriations in this Item include \$279,983 the first year and \$279,983 the second year from the general fund to provide grants to school divisions that employ mentor teachers for new teachers entering the profession through the alternative route to licensure as prescribed by the Board of Education.

33. Virginia Workplace Readiness Skills Assessment

Appropriations in this Item include \$308,655 the first year and \$308,655 the second year from the general fund to provide support grants to school divisions for standard diploma graduates. To provide flexibility, school divisions may use the state grants for the actual assessment or for other industry certification preparation and testing.

	First Year	Second Year	First Year	Second Year
	FY2015	FY2016	FY2015	FY2016

a. An additional payment of \$1,476,790 the first year and \$1,476,790 the second year from the general fund shall be disbursed by the Department of Education to qualifying local school divisions for the purpose of providing a reading specialist for any school with a third grade that has a school-wide pass rate of less than 75 percent on the reading Standards of Learning (SOL) assessments.

b. These payments shall be based on the state's share of the cost of providing one reading specialist per qualifying school. School divisions with schools participating in this program in fiscal year 2014 shall be eligible to receive funding at 100 percent of the state share the first year and 50 percent of the state share the second year for the same schools and such schools are granted a one-year extension of the two-year waiver referenced in subsection c. for a third year in fiscal year 2016. The Department of Education is authorized to disburse additional payments to divisions from any remaining funds each year to support additional qualifying schools and shall give priority to such schools with the lowest SOL pass rates for reading or the greatest number of years accredited with warning in English. Payments to school divisions in support of such additional qualifying schools each year shall be based on 100 percent of the state share of cost.

c. These payments are available to any school division with a qualifying school that (1) certifies to the Department of Education that the division has hired a reading specialist to provide direct services to children reading below grade level in the school to improve reading achievement and (2) applies and receives a waiver for up to two years from the Board of Education for the administration of third grade SOL assessments in science or history and social science or both for the purpose of creating additional instructional time for reading specialists to work with students reading below grade level to improve reading achievement.

d. School divisions receiving these payments are required to match these funds based on the composite index of local ability-to-pay.

35. Math/Reading Instructional Specialist Initiative

a. Included in this appropriation is \$1,834,538 the first year and \$1,834,538 the second year from the general fund in additional payments for reading or math instructional specialists at underperforming schools. From this amount, the state share of one reading or math specialist shall be provided to local school divisions with schools which have been denied accreditation or were accredited with warning for the third consecutive year based on school accreditation ratings for the 2013-2014 school year. Such schools shall be eligible to receive the state share of funding for both years of the biennium. In addition, following the academic review required by §22.1-253.13:3, Code of Virginia, the Department of Education shall identify up to 20 additional schools to also receive the state share of a reading or math instructional specialist. The schools eligible for such personnel are those which were accredited with warning for the second consecutive year based on school accreditation ratings for the 2012-2013 and 2013-2014 school years and that have shown no or limited improvement in student achievement in the past year. Such schools shall also be eligible to receive the state share of funding for both years of the biennium. If, following certification from a school division that it will not participate in the program, the Department is authorized to identify additional eligible schools.

b. These payments are available to any school division with a qualifying school that certifies to the Department of Education that the division has hired a math or reading instructional specialist. Localities receiving these payments are required to match these funds based on the composite index of local ability-to-pay.
