SENATE JOINT RESOLUTION NO. 276

Requesting the Commonwealth Transportation Board to study the portion of the Interstate 95 corridor between Exit 118 and the Springfield Interchange and financing options for improvements to the corridor. Report.

Agreed to by the Senate, February 5, 2019

Agreed to by the House of Delegates, February 20, 2019

WHEREAS, an adequate, efficient, and safe Interstate 95 corridor is important to the economic well-being of the communities located along the corridor; and

WHEREAS, a 2017 nationwide study conducted by INRIX Research ranked the nation's worst single traffic hotspot as Interstate 95 southbound at Exit 133A in Fredericksburg, with 1,394 traffic jams over the two-month study period, with an average duration of 33 minutes. This hotspot is projected to cost drivers \$2.3 billion from 2017 through 2026 in time lost, fuel wasted, and carbon emitted; and

WHEREAS, the portion of Interstate 95 northbound between Massaponax and State Route 610 in North Stafford was ranked as the seventh worst traffic hotspot in the nation, with 936 traffic jams over the two-month study period, with an average duration of 33 minutes. This hotspot is projected to cost drivers \$1.1 billion from 2017 through 2026 in time lost, fuel wasted, and carbon emitted; and

WHEREAS, the existing transportation infrastructure in this corridor is inadequate and must be updated to meet the needs of the growing population along this corridor; and

WHEREAS, the Metropolitan Washington Council of Governments reported that the Interstate 95 corridor in Fairfax and Prince William Counties contained 566,000 residents and 187,000 jobs in 2010 and forecasts that 126,000 residents and 85,000 jobs will be added by 2030; and

WHEREAS, continued congestion in this corridor threatens the prosperity and economic development of the entire region and creates economic hardship for the residents; now, therefore, be it

RESOLVED by the Senate, the House of Delegates concurring, That the Commonwealth Transportation Board be requested to study the portion of the Interstate 95 corridor between Exit 118 and the Springfield Interchange and financing options for improvements to the corridor.

In conducting its study, the Commonwealth Transportation Board (the Board) shall develop and adopt an Interstate 95 Corridor Improvement Plan (Plan). The Plan shall include the examination of potential improvements to the portion of Interstate 95 between Exit 118 and the Springfield Interchange and the methods of financing such improvements.

At a minimum, in the development of the Plan, the Board shall:

1. Designate specific segments of the Interstate 95 corridor between Exit 118 and the Springfield Interchange for improvement;

2. Identify a targeted set of improvements for each segment that may be financed or funded in such segment and evaluated using the statewide prioritization process pursuant to § 33.2-214.1 of the Code of Virginia;

3. Ensure that, in the overall plan of expenditure and distribution of any toll revenues or other evaluated financing means, each segment's total long-term benefit shall be approximately equal to the proportion of the toll revenues attributable to and other funds allocated to such segment divided by the total toll revenues and other revenues allocated to the Plan;

4. Study truck travel patterns along the Interstate 95 corridor and analyze policies that minimize the impact of the Plan on local truck traffic;

5. Identify incident management strategies corridor-wide;

6. Ensure that any revenues collected on the Interstate 95 corridor be used only for the benefit of that corridor; and

7. Determine potential solutions to address region-specific needs along this Interstate 95 corridor.

Technical assistance shall be provided to the Board by the Department of Transportation, the Department of Motor Vehicles, and the Department of State Police. All agencies of the Commonwealth shall provide assistance to the Board for this study, upon request.

The Board shall complete its meetings by November 30, 2019, and shall submit to the Governor and the General Assembly an executive summary and a report of its findings and recommendations for publication as a House or Senate document. The executive summary and report shall be submitted as provided in the procedures of the Division of Legislative Automated Systems for the processing of legislative documents and reports no later than the first day of the 2020 Regular Session of the General Assembly and shall be posted on the General Assembly's website.

SENATE JOINT RESOLUTION NO. 281

Commending the Society of NeuroInterventional Surgery.

Agreed to by the Senate, January 17, 2019

Agreed to by the House of Delegates, February 21, 2019

WHEREAS, based in Fairfax, the Society of NeuroInterventional Surgery is a scientific and educational organization that strives to enhance the quality of patient care nationwide in neurological fields, particularly relating to stroke prevention and stroke systems of care; and

WHEREAS, strokes are a leading cause of death and long-term disability in the United States, taking the life of someone every four minutes and claiming more than 130,000 lives per year; and

WHEREAS, a stroke can affect anyone at any age and at any time and can have devastating, long-term effects if the victim is not treated immediately; and

WHEREAS, a stroke occurs when blood flow to the brain is blocked by a clot or aneurysm, but certain specialized care has been shown to provide stroke patients with an excellent chance of survival and even full recovery, depending on how quickly blood flow resumes to the brain; and

WHEREAS, advances in medical research and technology have led to the development of significantly improved treatments such as neuroendovascular surgery, in which highly trained stroke specialists treat patients suffering from a severe form of ischemic stroke by removing or dissolving the blood clot, increasing the patient's chances of survival while greatly reducing long-term disabilities; and

WHEREAS, all local emergency service providers, health care providers, stroke specialists, government agencies, and other stakeholders involved in stroke care, education, and treatment play a critical role in patients' wellness and recovery; and

WHEREAS, patients treated by emergency service providers and other first responders who are properly trained to assess stroke severity and transport stroke patients to neuroendovascular-ready stroke centers, when appropriate, can live up to five years longer than patients who do not receive this specialized treatment; and

WHEREAS, only a small percentage of stroke victims who would benefit from neuroendovascular treatment are currently receiving such lifesaving treatment, but by offering nonstop services, stroke treatment centers can ensure that patients receive appropriate treatment in a timely manner to improve health outcomes; and

WHEREAS, organizations should consider more instruction and education to establish or update stroke systems of care to align with the latest best practices, such as ensuring that members of the stroke response and treatment communities are properly trained to triage stroke patients using a stroke scale or other technology, creating plans to provide patients with emergent large vessel occlusion, and recognizing hospitals based on the level of stroke care they provide; and

WHEREAS, there is an emerging consensus based on quality research that the outcomes of severe strokes can be considerably improved when emergency service providers transport stroke patients to the most appropriate facility based on the severity of the stroke, rather than to the nearest hospital, which may not be equipped to effectively treat certain stroke patients; now, therefore, be it

RESOLVED by the Senate, the House of Delegates concurring, That the General Assembly hereby commend the Society of NeuroInterventional Surgery for its work to promote high-quality patient care through education about innovative techniques; and, be it

RESOLVED FURTHER, That the Clerk of the Senate prepare a copy of this resolution for presentation to the Society of NeuroInterventional Surgery as an expression of the General Assembly's admiration for its successful efforts to educate the residents of the Commonwealth about stroke prevention and work to improve stroke systems of care.

WHEREAS, for more than a century, the Benedictine Sisters have provided much-needed educational, social, and spiritual services to the citizens of the Commonwealth; now, therefore, be it

RESOLVED by the Senate, the House of Delegates concurring, That the General Assembly hereby commend the Benedictine Sisters of Virginia for their 150 years of selfless and invaluable service to the citizens of Virginia; and, be it

SENATE JOINT RESOLUTION NO. 289

Designating February 20, in 2019 and in each succeeding year, as Cardiopulmonary Resuscitation Awareness Day in Virginia.

Agreed to by the Senate, February 5, 2019

Agreed to by the House of Delegates, February 20, 2019

WHEREAS, each year, more than 600,000 people, including men, women, and children of all races and backgrounds, suffer from a sudden cardiac arrest; and

WHEREAS, in most adults, sudden cardiac arrest results from an electrical malfunction in the heart that causes an abnormal heart rhythm, which can disrupt blood flow to the brain, lungs, and other organs; while the terms are often used interchangeably, sudden cardiac arrest is medically distinct from a heart attack; and

WHEREAS, more than 395,000 out-of-hospital sudden cardiac arrests occur in the United States each year, and approximately 90 percent of sudden cardiac arrest victims die before arriving at a hospital; and

WHEREAS, when sudden cardiac arrest occurs outside of a hospital, a friend, family member, or bystander may be required to perform cardiopulmonary resuscitation (CPR) on the victim; 70 percent of Americans say they would not know how to act in a cardiac arrest emergency or do not feel comfortable performing CPR because their training has lapsed; and

WHEREAS, effective treatment demands an immediate response from a bystander to call 911, begin CPR, and locate an automated external defibrillator, with the victim's likelihood of survival decreasing by 10 percent every minute after sudden cardiac arrest; and

WHEREAS, CPR with only chest compressions has been found to be as effective as CPR with breaths in treating victims of sudden cardiac arrest, and the American Heart Association has recommended Hands-Only CPR for adults since 2008; a person performing CPR should push on the chest at a rate of 100 to 120 compressions per minute, a perfect match to the beat of the song "Stayin' Alive"; and

WHEREAS, prompt delivery of CPR more than doubles the chance of survival from sudden cardiac arrest by helping to maintain vital blood flow to the heart and brain, increasing the length of time after the onset of sudden cardiac arrest in which an electric shock from a defibrillator can be effective; and

WHEREAS, an automated external defibrillator, even when used by a bystander, is safe, easy to operate, and highly effective in restoring a normal heart rhythm, significantly increasing the chance of survival for many victims if used promptly after the onset of sudden cardiac arrest; and

WHEREAS, death or severe brain injury is likely to occur unless resuscitation measures are started no later than 10 minutes after the onset of sudden cardiac arrest; and

WHEREAS, the interval between a 911 call and the arrival of emergency medical personnel is typically longer than five minutes, making it vital for members of the public to seek training in cardiopulmonary resuscitation and automated external defibrillator use; and

WHEREAS, on February 20, 2017, 12-year-old John Michael Brereton was finishing baseball practice when he suffered sudden cardiac arrest; his coach, Jacob Alexander Hummer, performed CPR until emergency services arrived, saving the boy's life with his quick thinking and training; now, therefore, be it

RESOLVED by the Senate, the House of Delegates concurring, That the General Assembly designate February 20, in 2019 and in each succeeding year, as Cardiopulmonary Resuscitation Awareness Day in Virginia; and, be it

RESOLVED FURTHER, That the Clerk of the Senate transmit a copy of this resolution to American Heart Association so that members of the organization may be apprised of the sense of the General Assembly of Virginia in this matter; and, be it

RESOLVED FINALLY, That the Clerk of the Senate post the designation of this day on the General Assembly's website.

WHEREAS, Josiah Rowe and his late wife, Anne Wilson Rowe, were generous philanthropists and contributed to institutions that reflected their interest in higher education, history, faith, and community; genealogy was of great interest to Josiah Rowe, who traced his family's origins to Stafford County's first peoples, leading him to join the Patowomeck Indian Tribe; and

WHEREAS, predeceased by his wife, Anne, Josiah Rowe will be fondly remembered and greatly missed by his children, Jeanette, Florence, Sallie, and Josiah, and their families; and numerous other family members and friends; now, therefore, be it

SENATE JOINT RESOLUTION NO. 297

Acknowledging with profound regret the existence and acceptance of lynching within the Commonwealth.

Agreed to by the Senate, February 5, 2019

Agreed to by the House of Delegates, February 20, 2019

WHEREAS, the year 2019 marks the 400th anniversary of the arrival to the Jamestown settlement of the first Africans in what would become the United States, where they were enslaved, marking the beginning of nearly 250 years of slavery in the British colonies and in the new nation; and

WHEREAS, throughout America's history of slavery, segregation, and inequality, thousands of African Americans were lynched across America, particularly throughout the southern United States, to perpetuate racial inequality and white supremacy and to terrorize African American communities; and

WHEREAS, during Reconstruction, the Thirteenth, Fourteenth, and Fifteenth Amendments to the United States Constitution were ratified, abolishing slavery, granting citizenship to any person born or naturalized in the United States, and guaranteeing the rights to due process of law and equal protection under the law and the right to vote for African American men; and

WHEREAS, in outright defiance of the Reconstruction Amendments, people across the nation acted outside of the law, deliberately, violently, and brutally, against African American citizens in retribution for alleged or invented crimes and faced few or no consequences; and

WHEREAS, the Equal Justice Initiative has documented more than 4,000 lynchings that took place throughout the South between 1877 and 1950, over 80 of which took place in Virginia; other scholarship documents more than 100 lynchings in Virginia; and

WHEREAS, African American men, women, and children lived in fear that their lives and the lives of loved ones could end violently at any time and in any place; and

WHEREAS, lynchings were often widely known and publicly attended; some were witnessed by crowds that numbered in the thousands, reflecting community acceptance, and many leaders and authorities and much of society denied and enabled the illegal and horrific nature of the acts; and

WHEREAS, *Richmond Planet* editor John Mitchell, Jr., exposed lynchings in Virginia as they occurred and led the state's antilynching campaign; however, despite his efforts and other accounts, historians believe still more lynchings remain undocumented; and

WHEREAS, at the urging of *Norfolk Virginia-Pilot* editor Louis Isaac Jaffe and other antilynching activists, and to curtail mob violence in Virginia, the General Assembly passed an antilynching measure that was signed into law on March 14, 1928, declaring lynching a state crime; and

WHEREAS, the extreme racial animus, violence, and terror embodied in the act of lynching did not die with the criminalization of the act, and few, if any, prosecutions occurred under the measure; and

WHEREAS, the legacy of racism that outlived slavery, enabled the rise and acceptance of lynching, facilitated segregation and disenfranchisement, and denied education and civil rights to African Americans has yet to be uprooted in Virginia, the South, and the nation, and this dark and shameful chapter of American history must be understood, acknowledged, and fully documented and the seemingly irreparable breach mended; and

WHEREAS, the most abject apology for past wrongs cannot right them; yet the spirit of true repentance on behalf of a government and, through it, a people can promote reconciliation and healing and avert the repetition of past wrongs and the disregard of manifested injustices; and

WHEREAS, in 2010, the Equal Justice Initiative began investigating thousands of racial terror lynchings in the American South in an effort to understand the terror and trauma this sanctioned violence against the African American community created, resulting in the report *Lynching in America: Confronting the Legacy of Racial Terror* in 2015 and the opening of the Memorial for Peace and Justice on April 26, 2018, as the nation's first memorial dedicated to the legacy of enslaved black people, people terrorized by lynching, African Americans humiliated by racial segregation and Jim Crow, and people of color burdened with contemporary presumptions of guilt and police violence; and

WHEREAS, the Equal Justice Initiative created the Community Remembrance Project to create greater awareness and understanding about racial terror lynchings and to begin a necessary conversation that advances truth and reconciliation by working with communities to commemorate and recognize the traumatic era of lynching by collecting soil from lynching sites across the country and erecting historical markers and monuments in these spaces; and

WHEREAS, the General Assembly established the Virginia Dr. Martin Luther King, Jr. Memorial Commission in 1992 to continue the work of Dr. King, himself a victim of violence, as he sought to realize his dream of a "Beloved Community" in which love, peace, and justice prevail over hatred and fear; now, therefore, be it

RESOLVED by the Senate, the House of Delegates concurring, That the General Assembly hereby acknowledge with profound regret the existence and acceptance of lynching within the Commonwealth and call for reconciliation among all Virginians; and, be it

RESOLVED FURTHER, That the Virginia Dr. Martin Luther King, Jr. Memorial Commission make as complete a record as possible of each documented lynching that occurred in the Commonwealth of Virginia, including the names of the victims and the locations and circumstances of each occurrence, to be preserved on the Commission's website, and develop programming to bring awareness and recognition of this history to communities across the state, that such awareness might contribute to the process of healing and reconciliation in Virginia's still-wounded communities and for families and descendants affected by lynchings; and, be it

RESOLVED FURTHER, That the Virginia Dr. Martin Luther King, Jr. Memorial Commission coordinate with the Department of Historic Resources to identify sites for historic markers to recognize documented lynchings and assist the Equal Justice Initiative in its Community Remembrance Project in the Commonwealth; and, be it

RESOLVED FINALLY, That the Clerk of the Senate transmit a copy of this resolution to the Virginia Dr. Martin Luther King, Jr. Memorial Commission, requesting that it further disseminate copies of this resolution to its constituents so that they may be apprised of the sense of the General Assembly of Virginia in this matter.

WHEREAS, research shows that breastfeeding and human milk provide advantages to general health, growth, and development while significantly decreasing the risk of infant mortality and a large number of acute and chronic diseases, including, among others, sudden infant death syndrome, asthma, allergies, diabetes, viral and bacterial infections, childhood obesity, childhood leukemia, and necrotizing enterocolitis; and

WHEREAS, the nutrients exclusive to human milk are vital to the growth, development, and maintenance of the human brain and cannot be manufactured; and

WHEREAS, breastfeeding has positive economic impacts on families by decreasing the need to pay for medical care for a sick infant and by eliminating the need to purchase infant formula; and
