PART 2: CAPITAL PROJECT EXPENSES

§ 2-0. GENERAL CONDITIONS

A.1. The General Assembly hereby authorizes the capital projects listed in this act. The amounts hereinafter set forth are appropriated to the state agencies named for the indicated capital projects. Amounts so appropriated and amounts reappropriated pursuant to paragraph G of this section shall be available for expenditure during the current biennium, subject to the conditions controlling the expenditures of capital project funds as provided by law. Reappropriated amounts, unless otherwise stated, are limited to the unexpended appropriation balances at the close of the previous biennium, as shown by the records of the Department of Accounts.

2. The Director, Department of Planning and Budget, may transfer appropriations listed in Part 2 of this act from the second year to the first year in accordance with § 4-1.03 a 5 of this act.

B. The five-digit number following the title of a project is the code identification number assigned for the life of the project.

C. Except as herein otherwise expressly provided, appropriations or reappropriations for structures may be used for the purchase of equipment to be used in the structures for which the funds are provided, subject to guidelines prescribed by the Governor.

D. Notwithstanding any other provisions of law, appropriations for capital projects shall be subject to the following:

1. Appropriations or reappropriations of funds made pursuant to this act for planning of capital projects shall not constitute implied approval of construction funds in a future biennium. Funds, other than the reappropriations referred to above, for the preparation of capital project proposals must come from the affected agency's existing resources.

2. No capital project for which appropriations for planning are contained in this act, nor any project for which appropriations for planning have been previously approved, shall be considered for construction funds until preliminary plans and cost estimates are reviewed by the Department of General Services. The purpose of this review is to avoid unnecessary expenditures for each project, in the interest of assuring the overall cost of the project is reasonable in relation to the purpose intended, regardless of discrete design choices.

E.1. Expenditures from Items in this act identified as "Maintenance Reserve" are to be made only for the maintenance of property, plant, and equipment as defined in § 4-4.01c of this act to the extent that funds included in the appropriation to the agency for this purpose in Part 1 of this act are insufficient.

2. Agencies and institutions of higher education can expend up to \$2,000,000 for a single repair or project, and up to \$4,000,000 for a roof replacement project, through the maintenance reserve appropriation. Such expenditures shall be subject to rules and regulations prescribed by the Governor. To the extent an agency or institution of higher education has identified a potential project that exceeds this threshold, the Director, Department of Planning and Budget, can provide exemptions to the threshold as long as the project still meets the definition of a maintenance reserve project as defined by the Department of Planning and Budget.

3. Only facilities supported wholly or in part by the general fund shall utilize general fund maintenance reserve appropriations. Facilities supported entirely by nongeneral funds shall accomplish maintenance through the use of nongeneral funds.

F. Conditions Applicable to Bond Projects

1. The capital projects listed in §§ 2-52 and 2-53 for the indicated agencies and institutions of higher education are hereby authorized and sums from the sources and in the amount indicated are hereby appropriated and reappropriated. The issuance of bonds in a principal amount plus amounts needed to fund issuance costs, reserve funds, and other financing expenses, including capitalized interest for any project listed in §§ ~~2-53~~ 2-52 and ~~2-54~~ 2-53 is hereby authorized.

2. The issuance of bonds for any project listed in § 2-52 is to be separately authorized pursuant to Article X, Section 9 (c), Constitution of Virginia.

3. The issuance of bonds for any project listed in §§ 2-52 or 2-53 shall be authorized pursuant to § 23.1-1106, Code of Virginia.

4. In the event that the cost of any capital project listed in §§ 2-52 and 2-53 shall exceed the amount appropriated therefore, the Director, Department of Planning and Budget, is hereby authorized, upon request of the affected institution, to approve an increase in appropriation authority of not more than ten percent of the amount designated in §§ 2-52 and 2-53 for such project, from any available nongeneral fund revenues, provided that such increase shall not constitute an increase in debt issuance authorization for such capital project. Furthermore, the Director, Department of Planning and Budget, is hereby authorized to approve the expenditure of all interest earnings derived from the investment of bond proceeds in addition to the amount designated in §§ 2-52 and 2-53 for such capital project.

5. The interest on bonds to be issued for these projects may be subject to inclusion in gross income for federal income tax purposes.

6. Inclusion of a project in this act does not imply a commitment of state funds for temporary construction financing. In the absence of such commitment, the institution may be responsible for securing short-term financing and covering the costs from other sources of funds.

7. In the event that the Treasury Board determines not to finance all or any portion of any project listed in § 2-52 of this act with the issuance of bonds pursuant to Article X, Section 9 (c), Constitution of Virginia, and notwithstanding any provision of law to the contrary, this act shall constitute the approval of the General Assembly to finance all or such portion of such project under the authorization of § 2-53 of this act.

8. The General Assembly further declares and directs that, notwithstanding any other provision of law to the contrary, 50 percent of the proceeds from the sale of surplus real property pursuant to § 2.2-1147 et seq., Code of Virginia, which pertain to the general fund, and which were under the control of an institution of higher education prior to the sale, shall be deposited in a special fund set up on the books of the State Comptroller, which shall be known as the Higher Education Capital Projects Fund. Such sums shall be held in reserve, and may be used, upon appropriation, to pay debt service on bonds for the 21st Century College Program as authorized in Item C-7.10 of Chapter 924 of the Acts of Assembly of 1997.

G. Upon certification by the Director, Department of Planning and Budget, there is hereby reappropriated the appropriations unexpended at the close of the previous biennium for all authorized capital projects which meet any of the following conditions:

1. Construction is in progress.
2. Equipment purchases have been authorized by the Governor but not received.
3. Plans and specifications have been authorized by the Governor but not completed.
4. Obligations were outstanding at the end of the previous biennium.

As such, and pursuant to the responsibilities of the Department of General Services (DGS) (§ 2.2-1129) and the Division of Capitol Police (DCP) (§ 30-34.2:1), Bank Street from 9th to 12th Street in the City of Richmond shall be controlled by the DGS and the DCP year-round while General Assembly operations are located, and conducted, in the Pocahontas Building. For the purposes of this coverage assessment, the definition of private acute care hospitals shall exclude public hospitals; freestanding psychiatric and rehabilitation hospitals; children's hospitals; long stay hospitals; long-term acute care hospitals and critical access hospitals.~~

~~B.1. The coverage assessment shall be used only to cover the non-federal share of the full cost for expanded Medicaid coverage for newly eligible individuals pursuant to 42 U.S.C. § 1396d(y)(1)[2010] of the Patient Protection and Affordable Care Act, including the administrative costs of collecting the coverage assessment; and implementing and operating the coverage for newly eligible adults.~~

2: The Department of Medical Assistance Services (DMAS) shall calculate each hospital's "coverage assessment" annually by multiplying the "coverage assessment percentage" times "net patient service revenue" as defined below:

3: The "coverage assessment percentage" shall be calculated as (i) 1.08 times the non-federal share of the "full cost of expanded Medicaid coverage" for newly eligible individuals under the Patient Protection and Affordable Care Act (42 U.S.C. § 1396d(y)(1)[2010]) divided by (ii) the total "net patient service revenue" for hospitals subject to the assessment. 5: Each hospital's "net patient service revenue" equals the amount reported in the most recent Virginia Health Information (VHI) "Hospital Detail Report" as of December 15 of each year. In the first year, net patient service revenue shall be prorated by the portion of the year subject to the tax:

6: Any estimated excess or shortfall of revenue from the previous year shall be deducted from or added to the "full cost of expanded Medicaid coverage" for the next year prior to the calculation of the "coverage assessment percentage."

7: DMAS shall be responsible for collecting the coverage assessment. Hospitals subject to the coverage assessment shall make quarterly payments to the department equal to 25 percent of the annual "coverage assessment" amount. In the first year, quarterly amounts for the remainder of the state fiscal year shall equal one-third of the coverage assessment. The payments are due not later than the first day of each quarter. In the first year, the first coverage assessment payment shall be due on or after October 1, 2018. Any unpaid coverage assessment or penalty will be considered a debt to the Commonwealth and DMAS is authorized to recover it as such:

8: DMAS shall submit a report due September 1 of each year to the Director, Department of Planning and Budget and Chairmen of the House Appropriations and Senate Finance Committees. The report shall include, for the most recently completed fiscal year, the revenue collected from the coverage assessment; expenditures for purposes authorized by this Item; and the year-end coverage assessment balance in the Health Care Coverage Assessment Fund:

9: All revenue from the coverage assessment including penalties shall be deposited into the Health Care Coverage Assessment Fund. Proceeds from the coverage assessment, including penalties, shall not be used for any other purpose than to cover the non-federal share of the full cost of enhanced Medicaid coverage for newly eligible individuals, pursuant to 42 U.S.C. § 1396d(y)(1)[2010] of the Patient Protection and Affordable Care Act, including the administrative costs of collecting the assessment, and implementing and operating the coverage for newly eligible adults:

10: Any provision of this Item is contingent upon approval by the Centers for Medicare and Medicaid Services if necessary:

A. The Department of Medical Assistance Services (DMAS) is authorized to levy an assessment upon private acute care hospitals operating in Virginia in accordance with this Item. Private acute care hospitals operating in Virginia shall pay a coverage assessment beginning on or after October 1, 2018. For the purposes of this coverage assessment, the definition of private acute care hospitals shall exclude public hospitals, freestanding psychiatric and rehabilitation hospitals, children's hospitals, long stay hospitals, long-term acute care hospitals and critical access hospitals.

B.1. The coverage assessment shall be used only to cover the non-federal share of the "full cost of expanded Medicaid coverage" for newly eligible individuals pursuant to 42 U.S.C. § 1396d(y)(1)[2010] of the Patient Protection and Affordable Care Act, including the administrative costs of collecting the coverage assessment and implementing and operating the coverage for newly eligible adults which includes the costs of administering the provisions of the Section 1115 waiver.

b. The "full cost of expanded Medicaid coverage" shall be updated: 1) on November 1 of each year based on the official Medicaid forecast and latest administrative cost estimates developed by DMAS; 2) no more than 30 days after the enactment of this Act to reflect policy changes adopted by the latest session of the General Assembly; and 3) on March 1 of any year in which DMAS estimates that the most recent non-federal share of the "full cost of expanded Medicaid coverage" times 1.08 will be insufficient to pay all expenses in 2.a. for that year.

c. This Act estimates the non-federal share of the cost of Medicaid expansion to be \$86,103,345 the first year and \$293,192,716 the second year. However, these amounts shall not be construed as a limitation on collections or override the provisions of this item that allow for periodic updates of the full cost of coverage.

C. 1. The Department of Medical Assistance Services (DMAS) shall calculate each hospital's "coverage assessment amount" by multiplying the "coverage assessment percentage" times "net patient service revenue" as defined below.

2. The "coverage assessment percentage" shall be calculated as (i) 1.08 times the non-federal share of the "full cost of expanded Medicaid coverage" divided by (ii) the total "net patient service revenue" for hospitals subject to the assessment.

3. Each hospital's "net patient service revenue" equals the amount reported in the most recent Virginia Health Information (VHI) "Hospital Detail Report." In FY 2019, net patient service revenue shall be prorated by the portion of the year subject to the tax. Hospitals shall certify that the net patient service revenue is hospital revenue and this amount shall be the assessment basis for the following fiscal year.

D.1. DMAS shall, at a minimum, update the "coverage assessment amount" to be effective on January 1, of each year. Hospitals shall be given no less than 30 days' notice prior to a change in its coverage assessment amount and be provided with associated calculations. Prior to any change to the coverage assessment amount, DMAS shall perform and incorporate a reconciliation of the Health Care Coverage Assessment Fund. Any estimated excess or shortfall of revenue since the previous reconciliation shall be deducted from or added to the "full cost of expanded Medicaid coverage" for the updated coverage assessment amount.

2. DMAS shall be responsible for collecting the coverage assessment amount. Hospitals subject to the coverage assessment shall make quarterly payments due no later than July 1, October 1, January 1 and April 1 of each state fiscal year. In FY 2019, quarterly amounts for the remainder of the state fiscal year shall equal one-third of the coverage assessment. In the first year, the first coverage assessment payment shall be due on or after October 1, 2018.

3. Hospitals that fail to make the coverage assessment payments within 30 days of the due date shall incur a five percent penalty that shall be deposited in the Virginia Health Care Fund. Any unpaid coverage assessment or penalty will be considered a debt to the Commonwealth and DMAS is authorized to recover it as such.

E. DMAS shall submit a report due September 1 of each year to the Director, Department of Planning and Budget and Chairmen of the House Appropriations and Senate Finance Committees, and the Virginia Hospital and Healthcare Association. The report shall include, for the most recently completed fiscal year, the revenue collected from the coverage assessment, expenditures for purposes authorized by this Item, and the year-end coverage assessment balance in the Health Care Coverage Assessment Fund. The Council shall recommend a format and associated level of detail, to be included in the report to the Joint Subcommittee for Health and Human Resources Oversight. The Joint Subcommittee shall approve the final format and associated level of detail of the report to be submitted by the Department of Medical Assistance Services.

§ 3-5.16 PROVIDER PAYMENT RATE ASSESSMENT

A. The Department of Medical Assistance Services (DMAS) is hereby authorized to levy a payment rate assessment upon private acute care hospitals operating in Virginia in accordance with this item: Private acute care hospitals operating in Virginia shall pay a payment rate assessment beginning on or after October 1, 2018 when all necessary state plan amendments are approved by the Centers for Medicare and Medicaid Services (CMS). For purposes of this assessment, the definition of private acute care hospitals shall exclude public hospitals; freestanding psychiatric and rehabilitation hospitals; children's hospitals; long stay hospitals; long-term acute care hospitals and critical access hospitals.

B.1. Proceeds from the payment rate assessment shall be disbursed to fund an increase in inpatient and outpatient payment rates paid to private acute care hospitals operating in Virginia up to the "upper payment limit" and to fill the "managed care organization hospital payment gap" for care provided to recipients of medical assistance services.

2. DMAS shall calculate each hospital's payment rate assessment annually by multiplying the "payment rate assessment percentage" times "net patient service revenue". Each hospital's "net patient service revenue" equals the amount reported in the most recent Virginia Health Information (VHI) "Hospital Detail Report" as of December 15 of each year. The "payment rate assessment percentage" for hospitals shall be calculated as (i) 1.00 times the non-federal share of funding the "upper payment

limit gap" and the "managed care organization hospital payment gap" divided by (ii) the total "net patient service revenue" for hospitals subject to the assessment. Prior to calculating the payment rate assessment percentage, DMAS shall estimate the cost of the upper payment limit gap and the managed care organization hospital payment gap. Any estimated excess or shortfall of revenue from the previous year shall be deducted from or added to the calculation of the provider rate costs. By 14 days after the Appropriation Act for the upcoming fiscal year is signed, DMAS shall report the estimated payment rate assessment by hospital and all assessment percentage calculations for the upcoming fiscal year to the Director, Department of Planning and Budget, and Chairmen of the House Appropriations and Senate Finance Committees:

3: The "upper payment limit" means the limit on payment for inpatient services for recipients of medical assistance established in accordance with 42 C.F.R. § 447.272 and outpatient services for recipients of medical assistance pursuant to 42 C.F.R. § 447.321 for private hospitals. DMAS shall complete a calculation of the "upper payment limit" for each state fiscal year with a detailed analysis of how it was determined. The "upper payment limit payment gap" means the difference between the amount of the private hospital upper payment limit and the amount otherwise paid pursuant to the state plan for inpatient and outpatient services. The "managed care organization hospital payment gap" means the difference between the amount included in the capitation rates for inpatient and outpatient services based on historical paid claims and the amount that would be included when the projected hospital services furnished by private acute care hospitals operating in Virginia are priced according to the existing State Plan methodology but using 100% for the adjustment factors (including the capital reimbursement percentage) and full inflation subject to CMS approval under 42 C.F.R. section 438.6(c). As part of the development of the managed care capitation rates, the Department shall calculate a "Medicaid managed care organization (MCO) supplemental hospital capitation payment adjustment". This is a distinct additional amount added to Medicaid MCO capitation rates to fund supplemental payments under this section to private acute care hospitals operating in Virginia for services to Medicaid recipients:

4: DMAS shall contractually direct Medicaid MCOs to disburse supplemental hospital capitation payment funds consistent with this section and 42 C.F.R. § 438.6(c), that ensure that all such funds are disbursed to private acute care hospitals operating in Virginia. In addition, DMAS shall contractually prohibit MCOs from making reductions to or supplanting hospital payments otherwise paid by MCOs:

5: DMAS shall make available monthly a report of the additional capitation payments that are made to each MCO pursuant to this subsection. Further, DMAS shall consider recommendations of the Medicaid Hospital Payment Policy and Advisory Council in designing and implementing the specific elements of the payment rate assessment and private acute care hospital supplemental payment program authorized by this item:

C: DMAS shall be responsible for collecting the payment rate assessment. Hospitals subject to the assessment shall make quarterly payments to the department equal to 25 percent of the annual "assessment" amount. In the first year, quarterly amounts for the remainder of the state fiscal year shall equal the hospital's total payment rate assessment for the fiscal year divided by the number of quarters in the remainder of the fiscal year after the effective date of the payment rates. The assessment are due not later than the first day of each quarter. In the first year, the first assessment payment shall be due on or after October 1, 2018. Hospitals that fail to make the assessment payments within 30 days of the due date shall incur a five percent penalty. Any unpaid assessment or penalty will be considered a debt to the Commonwealth and DMAS is authorized to recover it as such:

D: DMAS shall submit a report due September 1 of each year to the Director, Department of Planning and Budget and Chairmen of the House Appropriations and Senate Finance Committees. The report shall include, for the most recently completed fiscal year, the revenue collected from the payment rate assessment, expenditures for purposes authorized by this item, and the year-end assessment balance in the Health Care Provider Payment Rate Assessment Fund:

E: All revenue from the payment rate assessment shall be deposited into the Health Care Provider Payment Rate Assessment Fund; a special non-reverting fund in the state treasury. Proceeds from the payment rate assessment, including penalties, shall not be used for any other purpose than to fund (i) an increase in inpatient and outpatient payment rates paid to private acute care hospitals operating in Virginia up to the private hospital "upper payment limit" and "managed care organization hospital payment gap" for care provided to recipients of medical assistance services; and (ii) the administrative costs of collecting the assessment and of implementing and operating the associated payment rate actions:

F: Any provision of this Section is contingent upon approval by the Centers for Medicare and Medicaid Services if necessary:

A. The Department of Medical Assistance Services (DMAS) is hereby authorized to levy a payment rate assessment upon private acute care hospitals operating in Virginia in accordance with this item. Private acute care hospitals operating in Virginia shall pay a payment rate assessment beginning on or after October 1, 2018 when all necessary state plan amendments are approved by the Centers for Medicare and Medicaid Services (CMS). For purposes of this assessment, the definition of private acute care hospitals shall exclude public hospitals, freestanding psychiatric and rehabilitation hospitals, children's hospitals, long stay hospitals, long-term acute care hospitals and critical access hospitals.

B. Proceeds from the payment rate assessment shall be used to i) fund an increase in inpatient and outpatient payment rates paid to private acute care hospitals operating in Virginia up to the "upper payment limit gap" and ii) fill the "managed care organization hospital payment gap" for care provided to recipients of medical assistance services. Payments made under the provisions of this item shall be referred to as "private acute care hospital enhanced payments".

C.1. The Department of Medical Assistance Services (DMAS) shall calculate each hospital's "payment rate assessment amount" by multiplying the "payment rate assessment percentage" times "net patient service revenue" as defined below.

2. The "payment rate assessment percentage" for hospitals shall be calculated as (i) 1.08 times the non-federal share of funding the "private acute care hospitals enhanced payments" divided by (ii) the total "net patient service revenue" for hospital subject to the assessment.

3. Each hospital's "net patient service revenue" equals the amount reported in the most recent Virginia Health Information (VHI) "Hospital Detail Report." In FY 2019, net patient service revenue shall be prorated by the portion of the year subject to the tax. Hospitals shall certify that the net patient service revenue is hospital revenue and this amount shall be the assessment basis for the following fiscal year.

D. DMAS is authorized to update the payment rate assessment amount on a quarterly basis to ensure amounts are sufficient to cover the full cost of the private acute care hospital enhanced payments based on the latest estimate. Hospitals shall be given no less than 30 days prior notice of the new assessment amount and be provided with calculations. Prior to any change to the payment rate assessment amount, DMAS shall perform and incorporate a reconciliation of the Health Care Provider Payment Rate Assessment Fund. Any estimated excess or shortfall of revenue since the previous reconciliation shall be deducted from or added to the calculation of the private acute care hospital enhanced payments.

E.1. The "upper payment limit" means the limit on payment for inpatient services for recipients of medical assistance established in accordance with 42 C.F.R. § 447.272 and outpatient services for recipients of medical assistance pursuant to 42 C.F.R. § 447.321 for private hospitals. DMAS shall complete a calculation of the "upper payment limit" for each state fiscal year with a detailed analysis of how it was determined. The "upper payment limit payment gap" means the difference between the amount of the private hospital upper payment limit and the amount otherwise paid pursuant to the state plan for inpatient and outpatient services. The "managed care organization hospital payment gap" means the difference between the amount included in the capitation rates for inpatient and outpatient services based on historical paid claims and the amount that would be included when the projected hospital services furnished by private acute care hospitals operating in Virginia are priced according to the existing State Plan methodology but using 100% for the adjustment factors (including the capital reimbursement percentage) and full inflation subject to CMS approval under 42 C.F.R. section 438.6(c). As part of the development of the managed care capitation rates, the DMAS shall calculate a "Medicaid managed care organization (MCO) supplemental hospital capitation payment adjustment". This is a distinct additional amount shall be added to Medicaid MCO capitation rates to fund supplemental payments under this section to private acute care hospitals operating in Virginia for services to Medicaid recipients.

2. DMAS shall contractually direct Medicaid MCOs to disburse supplemental hospital capitation payment funds consistent with this section and 42 C.F.R. § 438.6(c), to ensure that all such funds are disbursed to private acute care hospitals operating in Virginia. In addition, DMAS shall contractually prohibit MCOs from making reductions to or supplanting hospital payments otherwise paid by MCOs.

3. DMAS shall make available quarterly a report of the additional capitation payments that are made to each MCO pursuant to this item. Further, DMAS shall consider recommendations of the Medicaid Hospital Payment Policy and Advisory Council in designing and implementing the specific elements of the payment rate assessment and private acute care hospital supplemental payment program authorized by this item.

F.1. DMAS shall be responsible for collecting the payment rate assessment amount. Hospitals subject to the payment rate assessment shall make quarterly payments due no later than July 1, October 1, January 1 and April 1 of each state fiscal year. In FY 2019, the first payment rate assessment payment shall be due on or after October 1, 2018.

2. Hospitals that fail to make the payment rate assessment payments within 30 days of the due date shall incur a five percent penalty that shall be deposited in the Virginia Health Care Fund. Any unpaid payment assessment or penalty will be considered a debt to the Commonwealth and DMAS is authorized to recover it as such.

G. DMAS shall submit a report due September 1 of each year to the Director, Department of Planning and Budget and Chairmen of the House Appropriations and Senate Finance Committees. The report shall include, for the most recently completed fiscal year, the revenue collected from the payment rate assessment, expenditures for purposes authorized by this item, and the year-end assessment balance in the Health Care Provider Payment Rate Assessment Fund.

H. All revenue from the payment rate assessment shall be deposited into the Health Care Provider Payment Rate Assessment Fund, a special non-reverting fund in the state treasury. Proceeds from the payment rate assessment, excluding penalties, shall not be used for any other purpose than to fund (i) an increase in inpatient and outpatient payment rates paid to private acute care hospitals operating in Virginia up to the private hospital "upper payment limit" and "managed care organization hospital payment gap" for care provided to recipients of medical assistance services, and (ii) the administrative costs of collecting the assessment and of implementing and operating the associated payment rate actions.

Moneys generated from the withholding action shall not be reallocated for any other purpose, provided the withholding of allotments of appropriations under this provision shall not occur until at least 15 days after the Governor has transmitted a statement of changed factors and intent to withhold moneys to the Chairmen of the House Appropriations and Senate Finance Committees.

2. Moneys shall not be withheld on the basis of reorganization plans or program evaluations until such plans or evaluations have been specifically presented in writing to the General Assembly at its next regularly scheduled session.

c. Increased Nongeneral Fund Revenue:

1. General fund appropriations to any state agency for operating expenses are supplemental to nongeneral fund revenues collected by the agency. To the extent that nongeneral fund revenues collected in a fiscal year exceed the estimate on which the operating budget was based, the Governor is authorized to withhold general fund spending authority, by withholding allotments of appropriations, in an equivalent amount. However, this limitation shall not apply to (a) restricted excess tuition and fees for educational and general programs in the institutions of higher education, as defined in § 4-2.01 c of this act; (b) appropriations to institutions of higher education designated for fellowships, scholarships and loans; (c) gifts or grants which are made to any state agency for the direct costs of a stipulated project; (d) appropriations to institutions for the mentally ill or intellectually disabled payable from the Behavioral Health and Developmental Services Revenue Fund; and (e) general fund appropriations for highway construction and mass transit. Moneys unallotted under this provision shall not be reallocated for any other purpose.

2. To the degree that new or additional grant funds become available to supplement general fund appropriations for a program, following enactment of an appropriation act, the Governor is authorized to withhold general fund spending authority, by withholding allotments of appropriations, in an amount equivalent to that provided from grant funds, unless such action is prohibited by the original provider of the grant funds. The withholding action shall not include general fund appropriations, which are required to match grant funds. Moneys unallotted under this provision shall not be reallocated for any other purpose.

d. Reduced General Fund Resources:

1. The term "general fund resources" as applied in this subsection includes revenues collected and paid into the general fund of the state treasury during the current biennium, transfers to the general fund of the state treasury during the current biennium, and all unexpended balances brought forward from the previous biennium.

2. In the event that general fund resources are estimated by the Governor to be insufficient to pay in full all general fund appropriations authorized by the General Assembly, the Governor shall, subject to the qualifications herein contained, withhold general fund spending authority, by withholding allotments of appropriations, to prevent any expenditure in excess of the estimated general fund resources available.

3. In making this determination, the Governor shall take into account actual general fund revenue collections for the current fiscal year and the results of a formal written re-estimate of general fund revenues for the current and next biennium, prepared within the previous 90 days, in accordance with the process specified in § 2.2-1503, Code of Virginia. Said re-estimate of general fund revenues shall be communicated to the Chairmen of the Senate Finance, House Appropriations and House Finance Committees, prior to taking action to reduce general fund allotments of appropriations on account of reduced resources.

4.a) In addition to monthly reports on the status of revenue collections relative to the current fiscal year's estimate, the Governor shall provide a written quarterly assessment of the current economic outlook for the remainder of the fiscal year to the Chairmen of the House Appropriations, House Finance, and Senate Finance Committees.

b) Within five business days after the preliminary close of the state accounts at the end of the fiscal year, the State Comptroller shall provide the Governor with the actual total of (1) individual income taxes, (2) corporate income taxes, and (3) sales taxes for the just-completed fiscal year, with a comparison of such actual totals with the total of such taxes in the official budget estimate for that fiscal year. If that comparison indicates that the total of (1) individual income taxes, (2) corporate income taxes, and (3) sales taxes, as shown on the preliminary close, was one percent or more below the amount of such taxes in the official budget estimate for the just-completed fiscal year, the Governor shall prepare a written re-estimate of general fund revenues for the current biennium and the next biennium in accordance with § 2.2-1503, Code of Virginia, to be reported to the Chairmen of the Senate Finance, House Finance and House Appropriations Committees, not later than September 1 following the close of the fiscal year.

5.a) The Governor shall take no action to withhold allotments until a written plan detailing specific reduction actions approved by the Governor, identified by program and appropriation item, has been presented to the Chairmen of the House Appropriations and Senate Finance Committees. Subsequent modifications to the approved reduction plan also must be submitted to the Chairmen of the House Appropriations and Senate Finance Committees, prior to withholding allotments of appropriations.

b) In addition to the budget reduction plan approved by the Governor, all budget reduction proposals submitted by state

agencies to the Governor or the Governor's staff, including but not limited to the Department of Planning and Budget, the Governor's Cabinet secretaries, or the Chief of Staff, whether submitted electronically or otherwise, shall be made available via electronic means to the Chairmen of the House Appropriations and Senate Finance Committees concurrently with that budget reduction plan.

6. In effecting the reduction of expenditures, the Governor shall not withhold allotments of appropriations for:

a) More than 15 percent cumulatively of the annual general fund appropriation contained in this act for operating expenses of any one state or nonstate agency or institution designated in this act by title, and the exact amount withheld, by state or nonstate agency or institution, shall be reported within five calendar days to the Chairmen of the Senate Finance and House Appropriations Committees. State agencies providing funds directly to grantees named in this act shall not apportion a larger cut to the grantee than the proportional cut apportioned to the agency. Without regard to § 4-5.05 b.4. of this act, the remaining appropriation to the grantee which is not subject to the cut, equal to at least 85 percent of the annual appropriation, shall be made by July 31, or in two equal installments, one payable by July 31 and the other payable by December 31, if the remaining appropriation is less than or equal to \$500,000, except in cases where the normal conditions of the grant dictate a different payment schedule.

b) The payment of principal and interest on the bonded debt or other bonded obligations of the Commonwealth, its agencies and its authorities, or for payment of a legally authorized deficit.

c) The payments for care of graves of Confederate and historical African American dead.

d) The employer contributions, and employer-paid member contributions, to the Social Security System, Virginia Retirement System, Judicial Retirement System, State Police Officers Retirement System, Virginia Law Officers Retirement System, Optional Retirement Plan for College and University Faculty, Optional Retirement Plan for Political Appointees, Optional Retirement Plan for Superintendents, the Volunteer Service Award Program, the Virginia Retirement System's group life insurance, sickness and disability, and retiree health care credit programs for state employees, state-supported local employees and teachers. If the Virginia Retirement System Board of Trustees approves a contribution rate for a fiscal year that is lower than the rate on which the appropriation was based, or if the United States government approves a Social Security rate that is lower than that in effect for the current budget, the Governor may withhold excess contributions. However, employer and employee paid rates or contributions for health insurance and matching deferred compensation for state employees, state-supported local employees and teachers may not be increased or decreased beyond the amounts approved by the General Assembly. Payments for the employee benefit programs listed in this paragraph may not be delayed beyond the customary billing cycles that have been established by law or policy by the governing board.

e) The payments in fulfillment of any contract awarded for the design, construction and furnishing of any state building.

f) The salary of any state officer for whom the Constitution of Virginia prohibits a change in salary.

g) The salary of any officer or employee in the Executive Department by more than two percent (irrespective of the fund source for payment of salaries and wages); however, the percentage of reduction shall be uniformly applied to all employees within the Executive Department.

h) The appropriation supported by the State Bar Fund, as authorized by § 54.1-3913, Code of Virginia, unless the supporting revenues for such appropriation are estimated to be insufficient to pay the appropriation.

7. The Governor is authorized to withhold specific allotments of appropriations by a uniform percentage, a graduated reduction or on an individual basis, or apply a combination of these actions, in effecting the authorized reduction of expenditures, up to the maximum of 15 percent, as prescribed in subdivision 6a of this subsection.

8. Each nongeneral fund appropriation shall be payable in full only to the extent the nongeneral fund revenues from which the appropriation is payable are estimated to be sufficient. The Governor is authorized to reduce allotments of nongeneral fund appropriations by the amount necessary to ensure that expenditures do not exceed the supporting revenues for such appropriations; however, the Governor shall take no action to reduce allotments of appropriations for major nongeneral fund sources on account of reduced revenues until such time as a formal written re-estimate of revenues for the current and next biennium, prepared in accordance with the process specified in § 2.2-1503, Code of Virginia, has been reported to the Chairmen of the Senate Finance, House Finance, and House Appropriations Committees. For purposes of this subsection, major nongeneral fund sources are defined as Highway Maintenance and Operating Fund and Transportation Trust Fund.

9. Notwithstanding any contrary provisions of law, the Governor is authorized to transfer to the general fund on June 30 of each year of the biennium, or within 20 days from that date, any available unexpended balances in other funds in the state treasury, subject to the following:

a) The Governor shall declare in writing to the Chairmen of the Senate Finance and House Appropriations Committees that a fiscal emergency exists which warrants the transfer of nongeneral funds to the general fund and reports the exact amount of such transfer within five calendar days of the transfer;

b) No such transfer may be made from retirement or other trust accounts, the State Bar Fund as authorized by § 54.1-3913, Code of Virginia, debt service funds, or federal funds; and

c) The Governor shall include for informative purposes, in the first biennial budget he submits subsequent to the transfer, the amount transferred from each account or fund and recommendations for restoring such amounts.

10. The Director, Department of Planning and Budget, shall make available via electronic means a report of spending authority withheld under the provisions of this subsection to the Chairmen of the Senate Finance and House Appropriations Committees within five calendar days of the action to withhold. Said report shall include the amount withheld by agency and appropriation item.

11. If action to withhold allotments of appropriation under this provision is inadequate to eliminate the imbalance between projected general fund resources and appropriations, the Speaker of the House of Delegates and the President pro tempore of the Senate shall be advised in writing by the Governor, so that they may consider requesting a special session of the General Assembly.

§ 4-1.03 APPROPRIATION TRANSFERS

GENERAL

a. During any fiscal year, the Director, Department of Planning and Budget, may transfer appropriation authority from one state or other agency to another, to effect the following:

- 1) distribution of amounts budgeted in the central appropriation to agencies, or withdrawal of budgeted amounts from agencies in accordance with specific language in the central appropriation establishing reversion clearing accounts;
- 2) distribution of pass-through grants or other funds held by an agency as fiscal agent;
- 3) correction of errors within this act, where such errors have been identified in writing by the Chairmen of the House Appropriations and Senate Finance Committees;
- 4) proper accounting between fund sources 0100 and 0300 in higher education institutions;
- 5) transfers specifically authorized elsewhere in this act or as specified in the Code of Virginia;
- 6) to supplement capital projects in order to realize efficiencies or provide for cost overruns unrelated to changes in size or scope; or
- 7) to administer a program for another agency or to effect budgeted program purposes approved by the General Assembly, pursuant to a signed agreement between the respective agencies.

b. During any fiscal year, the Director, Department of Planning and Budget, may transfer appropriation authority within an agency to effect proper accounting between fund sources and to effect program purposes approved by the General Assembly, unless specifically provided otherwise in this act or as specified in the Code of Virginia. However, appropriation authority for local aid programs and aid to individuals, with the exception of student financial aid, shall not be transferred elsewhere without advance notice to the Chairmen of the House Appropriations and Senate Finance Committees. Further, any transfers between capital projects shall be made only to realize efficiencies or provide for cost overruns unrelated to changes in size or scope.

c.1. In addition to authority granted elsewhere in this act, the Director, Department of Planning and Budget, may transfer operating appropriations authority among sub-agencies within the Judicial System, the Department of Corrections, and the Department of Behavioral Health and Developmental Services to effect changes in operating expense requirements which may occur during the biennium.

2. The Director, Department of Planning and Budget, may transfer appropriations from the Department of Behavioral Health and Developmental Services to the Department of Medical Assistance Services, consisting of the general fund amounts required to match federal funds for reimbursement of services provided by its institutions and Community Services Boards.

3. The Director, Department of Planning and Budget, may transfer appropriations from the Office of Comprehensive Services to the Department of Medical Assistance Services, consisting of the general fund amounts required to match federal funds for reimbursement of services provided to eligible children.

4. The Director, Department of Planning and Budget, may transfer an appropriation or portion thereof within a state or other agency, or from one such agency to another, to support changes in agency organization, program or responsibility enacted by the General Assembly to be effective during the current biennium.

5. The Director, Department of Planning and Budget, may transfer appropriations from the second year to the first year, with said transfer to be reported in writing to the Chairmen of the Senate Finance and House Appropriations Committees within five calendar days of the transfer, when the expenditure of such funds is required to:

- a) address a threat to life, safety, health or property, or

b) provide for unbudgeted cost increases for statutorily required services or federally mandated services, in order to continue those services at the present level, or

c) provide for payment of overtime salaries and wages, when the obligations for payment of such overtime were incurred during a situation deemed threatening to life, safety, health, or property, or

d) provide for payments to the beneficiaries of certain public safety officers killed in the line of duty, as authorized in Title 2.2, Chapter 4, Code of Virginia and for payments to the beneficiaries of certain members of the National Guard and United States military reserves killed in action in any armed conflict on or after October 7, 2001, as authorized in § 44-93.1 B., Code of Virginia, or

e) continue a program at the present level of service or at an increased level of service when required to address unanticipated increases in workload such as enrollment, caseload or like factors, or unanticipated costs, or

f) to address unanticipated business or industrial development opportunities which will benefit the state's economy, provided that any such appropriations be used in a manner consistent with the purposes of the program as originally appropriated.

6. An appropriation transfer shall not occur except through properly executed appropriation transfer documents designed specifically for that purpose, and all transactions effecting appropriation transfers shall be entered in the state's computerized budgeting and accounting systems.

7. The Director, Department of Planning and Budget, may transfer from any other agency, appropriations to supplement any project of the Virginia Public Building Authority authorized by the General Assembly and approved by the Governor. Such capital project shall be transferred to the state agency designated as the managing agency for the Virginia Public Building Authority.

8. In the event of the transition of a city to town status pursuant to the provisions of Chapter 41 of Title 15.2 of the Code of Virginia (§ 15.2-4100 et seq.) or the consolidation of a city and a county into a single city pursuant to the provisions of Chapter 35 of Title 15.2, Code of Virginia (§ 15.2-3500 et seq.) subsequent to July 1, 1999, the provisions of § 15.2-1302 shall govern distributions from state agencies to the county in which the town is situated or to the consolidated city, and the Director, Department of Planning and Budget, is authorized to transfer appropriations or portions thereof within a state agency, or from one such agency to another, if necessary to fulfill the requirements of § 15.2-1302.

§ 4-1.04 APPROPRIATION INCREASES

a. UNAPPROPRIATED NONGENERAL FUNDS:

1. Sale of Surplus Materials:

The Director, Department of Planning and Budget, is hereby authorized to increase the appropriations to any state agency by the amount of credit resulting from the sale of surplus materials under the provisions of § 2.2-1125, Code of Virginia.

2. Insurance Recovery:

The Director, Department of Planning and Budget, shall increase the appropriation authority for any state agency by the amount of the proceeds of an insurance policy or from the State Insurance Reserve Trust Fund, for expenditures as far as may be necessary, to pay for the repair or replacement of lost, damaged or destroyed property, plant or equipment.

3. Gifts, Grants and Other Nongeneral Funds:

a) Subject to § 4-1.02 c, Increased Nongeneral Fund Revenue, and the conditions stated in this section, the Director, Department of Planning and Budget, is hereby authorized to increase the appropriations to any state agency by the amount of the proceeds of donations, gifts, grants or other nongeneral funds paid into the state treasury in excess of such appropriations during a fiscal year. Such appropriations shall be increased only when the expenditure of moneys is authorized elsewhere in this act or is required to:

1) address a threat to life, safety, health or property or

2) provide for unbudgeted increases in costs for services required by statute or services mandated by the federal government, in order to continue those services at the present level or implement compensation adjustments approved by the General Assembly, or

3) provide for payment of overtime salaries and wages, when the obligations for payment of such overtime were incurred during a situation deemed threatening to life, safety, health, or property, or

4) continue a program at the present level of service or at an increased level of service when required to address unanticipated increases in noncredit instruction at institutions of higher education or business and industrial development opportunities which will benefit the state's economy, or

5) participate in a federal or sponsored program provided that the provisions of § 4-5.03 shall also apply to increases in appropriations for additional gifts, grants, and other nongeneral fund revenue which require a general fund match as a condition of

their acceptance; or

6) realize cost savings in excess of the additional funds provided, or

7) permit a state agency or institution to use a donation, gift or grant for the purpose intended by the donor, or

8) provide for cost overruns on capital projects and for capital projects authorized under § 4-4.01 m of this act, or

9) address caseload or workload changes in programs approved by the General Assembly.

b) The above conditions shall not apply to donations and gifts to the endowment funds of institutions of higher education.

c) Each state agency and institution shall ensure that its budget estimates include a reasonable estimate of receipts from donations, gifts or other nongeneral fund revenue. The Department of Planning and Budget shall review such estimates and verify their accuracy, as part of the budget planning and review process.

d) No obligation or expenditure shall be made from such funds until a revised operating budget request is approved by the Director, Department of Planning and Budget. Expenditures from any gift, grant or donation shall be in accordance with the purpose for which it was made; however, expenditures for property, plant or equipment, irrespective of fund source, are subject to the provisions of §§ 4-2.03 Indirect Costs, 4-4.01 Capital Projects General, and 4-5.03 b Services and Clients-New Services, of this act.

e) Nothing in this section shall exempt agencies from complying with § 4-2.01 a Solicitation and Acceptance of Donations, Gifts, Grants, and Contracts of this act.

4. Any nongeneral fund cash balance recorded on the books of the Department of Accounts as unexpended on the last day of the fiscal year may be appropriated for use in the succeeding fiscal year with the prior written approval of the Director, Department of Planning and Budget, unless the General Assembly shall have specifically provided otherwise. Revenues deposited to the Virginia Health Care Fund shall be used only as the state share of Medicaid, unless the General Assembly specifically authorizes an alternate use. With regard to the appropriation of other nongeneral fund cash balances, the Director shall make a listing of such transactions available to the public via electronic means no less than ten business days following the approval of the appropriation of any such balance.

5. Reporting:

The Director, Department of Planning and Budget, shall make available via electronic means a report on increases in unappropriated nongeneral funds in accordance with § 4-8.00, Reporting Requirements, or as modified by specific provisions in this subsection.

b. AGRIBUSINESS EQUIPMENT FOR THE DEPARTMENT OF CORRECTIONS

The Director of the Department of Planning and Budget may increase the Department of Corrections appropriation for the purchase of agribusiness equipment or the repair or construction of agribusiness facilities by an amount equal to fifty percent of any annual amounts in excess of fiscal year 1992 deposits to the general fund from agribusiness operations. It is the intent of the General Assembly that appropriation increases for the purposes specified shall not be used to reduce the general fund appropriations for the Department of Corrections.

§ 4-1.05 REVERSION OF APPROPRIATIONS AND REAPPROPRIATIONS

a. GENERAL FUND OPERATING EXPENSE:

1.a) General fund appropriations which remain unexpended on (i) the last day of the previous biennium or (ii) the last day of the first year of the current biennium, shall be reappropriated and allotted for expenditure where required by the Code of Virginia, where necessary for the payment of preexisting obligations for the purchase of goods or services, or where desirable, in the determination of the Governor, to address any of the six conditions listed in § 4-1.03 c.5 of this act or to provide financial incentives to reduce spending to effect current or future cost savings. With the exception of the unexpended general fund appropriations of agencies in the Legislative Department, the Judicial Department, the Independent Agencies, or institutions of higher education, all other such unexpended general fund appropriations unexpended on the last day of the previous biennium or the last day of the first year of the current biennium shall revert to the general fund.

b) General fund appropriations for agencies in the Legislative Department, the Judicial Department, and the Independent Agencies shall be reappropriated, except as may be specifically provided otherwise by the General Assembly. General fund appropriations shall also be reappropriated for institutions of higher education, subject to § 23.1-1002, Code of Virginia.

c) To improve the stability in institutional planning and predictability for students and families to prepare for the cost of higher education, public higher education institutions are encouraged to employ the financial management strategy of establishing an institutional reserve fund supported by any unexpended education and general appropriations of the institution at the end of the fiscal year. The establishment of such a fund is designed to foster more long-term planning, promote efficient resource

utilization and reduce the need for substantial year-to-year increases in tuition, thereby increasing affordability for Virginians. Independent of the provisions of § 23.1-1001, institutions are authorized to carry over education and general unexpended balances to establish and maintain a reserve fund in an amount not to exceed three percent of their general fund appropriation for educational and general programs in the most recently-completed fiscal year. Any use of the reserve fund shall be approved by the Board of Visitors of the affected institution, and the institution shall immediately report the details of the approved plan for use of the reserve fund to the Governor, the Secretary of Education, the Secretary of Finance and the Chairmen of the House Appropriations and Senate Finance Committees. Any reserve fund shall be subject to the provisions of § 23.1-1303.B.11.

2. a. The Governor shall report within five calendar days after completing the reappropriation process to the Chairmen of the Senate Finance and House Appropriations Committees on the reappropriated amounts for each state agency in the Executive Department. He shall provide a preliminary report of reappropriation actions on or before November 1 and a final report on or before December 20 to the Chairmen of the House Appropriations and Senate Finance Committees.

b. The Director, Department of Planning and Budget, may transfer reappropriated amounts within an agency to cover nonrecurring costs.

3. Pursuant to subsection E of § 2.2-1125, Code of Virginia, the determination of compliance by an agency or institution with management standards prescribed by the Governor shall be made by the Secretary of Finance and the Secretary having jurisdiction over the agency or institution, acting jointly.

4. The general fund resources available for appropriation in the first enactment of this act include the reversion of certain unexpended balances in operating appropriations as of June 30 of the prior fiscal year, which were otherwise required to be reappropriated by language in the Appropriation Act.

5. Upon request, the Director, Department of Planning and Budget, shall provide a report to the Chairmen of the House Appropriations and Senate Finance Committees showing the amount reverted for each agency and the total amount of such reversions.

b. NONGENERAL FUND OPERATING EXPENSE:

Based on analysis by the State Comptroller, when any nongeneral fund has had no increases or decreases in fund balances for a period of 24 months, the State Comptroller shall promptly transfer and pay the balance into the fund balance of the general fund. If it is subsequently determined that an appropriate need warrants repayment of all or a portion of the amount transferred, the Director, Department of Planning and Budget shall include repayment in the next budget bill submitted to the General Assembly. This provision does not apply to funds held in trust by the Commonwealth.

c. CAPITAL PROJECTS:

1. Upon certification by the Director, Department of Planning and Budget, the State Comptroller is hereby authorized to revert to the fund balance of the general fund any portion of the unexpended general fund cash balance and corresponding appropriation or reappropriation for a capital project when the Director determines that such portion is not needed for completion of the project. The State Comptroller may similarly return to the appropriate fund source any part of the unexpended nongeneral fund cash balance and reduce any appropriation or reappropriation which the Director determines is not needed to complete the project.

2. The unexpended general fund cash balance and corresponding appropriation or reappropriation for capital projects shall revert to and become part of the fund balance of the general fund during the current biennium as of the date the Director, Department of Planning and Budget, certifies to the State Comptroller that the project has been completed in accordance with the intent of the appropriation or reappropriation and there are no known unpaid obligations related to the project. The State Comptroller shall return the unexpended nongeneral fund cash balance, if there be any, for such completed project to the source from which said nongeneral funds were obtained. Likewise, he shall revert an equivalent portion of the appropriation or reappropriation of said nongeneral funds.

3. The Director, Department of Planning and Budget, may direct the restoration of any portion of the reverted amount if he shall subsequently verify an unpaid obligation or requirement for completion of the project. In the case of a capital project for which an unexpended cash balance was returned and appropriation or reappropriation was reverted in the prior biennium, he may likewise restore any portion of such amount under the same conditions.

§ 4-1.06 LIMITED ADJUSTMENTS OF APPROPRIATIONS

a. LIMITED CONTINUATION OF APPROPRIATIONS.

Notwithstanding any contrary provision of law, any unexpended balances on the books of the State Comptroller as of the last day of the previous biennium shall be continued in force for such period, not exceeding 10 days from such date, as may be necessary in order to permit payment of any claims, demands or liabilities incurred prior to such date and unpaid at the close of business on such date, and shown by audit in the Department of Accounts to be a just and legal charge, for values received as of the last day of the previous biennium, against such unexpended balances.

b. LIMITATIONS ON CASH DISBURSEMENTS.

Notwithstanding any contrary provision of law, the State Comptroller may begin preparing the accounts of the Commonwealth for each subsequent fiscal year on or about 10 days before the start of such fiscal year. The books will be open only to enter budgetary transactions and transactions that will not require the receipt or disbursement of funds until after June 30. Should an emergency arise, or in years in which July 1 falls on a weekend requiring the processing of transactions on or before June 30, the State Comptroller may, with notification to the Auditor of Public Accounts, authorize the disbursement of funds drawn against appropriations of the subsequent fiscal year, not to exceed the sum of three million dollars (\$3,000,000) from the general fund. This provision does not apply to debt service payments on bonds of the Commonwealth which shall be made in accordance with bond documents, trust indentures, and/or escrow agreements.

§ 4-1.07 ALLOTMENTS

Except when otherwise directed by the Governor within the limits prescribed in §§ 4-1.02 Withholding of Spending Authority, 4-1.03 Appropriation Transfers, and 4-1.04 Appropriation Increases of this act, the Director, Department of Planning and Budget, shall prepare and act upon the allotment of appropriations required by this act, and by § 2.2-1819, Code of Virginia, and the authorizations for rates of pay required by this act. Such allotments and authorizations shall have the same effect as if the personal signature of the Governor were subscribed thereto. This section shall not be construed to prohibit an appeal by the head of any state agency to the Governor for reconsideration of any action taken by the Director, Department of Planning and Budget, under this section.

§ 4-2.00 REVENUES

§ 4-2.01 NONGENERAL FUND REVENUES

a. SOLICITATION AND ACCEPTANCE OF DONATIONS, GIFTS, GRANTS, AND CONTRACTS:

1. No state agency shall solicit or accept any donation, gift, grant, or contract without the written approval of the Governor except under written guidelines issued by the Governor which provide for the solicitation and acceptance of nongeneral funds, except that donations or gifts to the Virginia War Memorial Foundation that are small in size and number and valued at less than \$5,000, such as library items or small display items, may be approved by the Executive Director of the Virginia War Memorial in consultation with the Secretary of Veterans Affairs and Homeland Security. All other gifts and donations to the Virginia War Memorial Foundation must receive written approval from the Secretary of Veterans Affairs and Homeland Security.

2. The Governor may issue policies in writing for procedures which allow state agencies to solicit and accept nonmonetary donations, gifts, grants, or contracts except that donations, gifts and grants of real property shall be subject to § 4-4.00 of this act and § 2.2-1149, Code of Virginia. This provision shall apply to donations, gifts and grants of real property to endowment funds of institutions of higher education, when such endowment funds are held by the institution in its own name and not by a separately incorporated foundation or corporation.

3. The preceding subdivisions shall not apply to property and equipment acquired and used by a state agency or institution through a lease purchase agreement and subsequently donated to the state agency or institution during or at the expiration of the lease purchase agreement, provided that the lessor is the Virginia College Building Authority.

4. The use of endowment funds for property, plant or equipment for state-owned facilities is subject to §§ 4-2.03 Indirect Costs, 4-4.01 Capital Projects-General and 4-5.03 Services and Clients of this act.

b. HIGHER EDUCATION TUITION AND FEES

1. Except as provided in Chapters 933 and 943 of the 2006 Acts of Assembly, Chapters 594 and 616 of the 2008 Acts of Assembly, and Chapters 675 and 685 of the 2009 Acts of Assembly, all nongeneral fund collections by public institutions of higher education, including collections from the sale of dairy and farm products, shall be deposited in the state treasury in accordance with § 2.2-1802, Code of Virginia, and expended by the institutions of higher education in accordance with the appropriations and provisions of this act, provided, however, that this requirement shall not apply to private gifts, endowment funds, or income derived from endowments and gifts.

2. a) The Boards of Visitors or other governing bodies of institutions of higher education may set tuition and fee charges at levels they deem to be appropriate for all resident student groups based on, but not limited to, competitive market rates, provided that the total revenue generated by the collection of tuition and fees from all students is within the nongeneral fund appropriation for educational and general programs provided in this act.

b) The Boards of Visitors or other governing bodies of institutions of higher education may set tuition and fee charges at levels they deem to be appropriate for all nonresident student groups based on, but not limited to, competitive market rates, provided that: i) the tuition and mandatory educational and general fee rates for nonresident undergraduate and graduate students cover at least 100 percent of the average cost of their education, as calculated through base adequacy guidelines adopted, and periodically amended, by the Joint Subcommittee Studying Higher Education Funding Policies, and ii) the total revenue generated by the collection of tuition and fees from all students is within the nongeneral fund appropriation for educational and general programs provided in this act.

c) For institutions charging nonresident students less than 100 percent of the cost of education, the State Council of Higher Education for Virginia may authorize a phased approach to meeting this requirement, when in its judgment, it would result in annual tuition and fee increases for nonresident students that would discourage their enrollment.

d) The Boards of Visitors or other governing bodies of institutions of higher education shall not increase the current proportion of nonresident undergraduate students if the institution's nonresident undergraduate enrollment exceeds 25 percent. Norfolk State University, Virginia Military Institute, Virginia State University, and two-year public institutions are exempt from this restriction.

3. a) In setting the nongeneral fund appropriation for educational and general programs at the institutions of higher education, the General Assembly shall take into consideration the appropriate student share of costs associated with providing full funding of the base adequacy guidelines referenced in subparagraph 2. b), raising average salaries for teaching and research faculty to the 60th percentile of peer institutions, and other priorities set forth in this act.

b) In determining the appropriate state share of educational costs for resident students, the General Assembly shall seek to cover at least 67 percent of educational costs associated with providing full funding of the base adequacy guidelines referenced in subparagraph 2. b), raising average salaries for teaching and research faculty to the 60th percentile of peer institutions, and other priorities set forth in this act.

4. a) Each institution and the State Council of Higher Education for Virginia shall monitor tuition, fees, and other charges, as well as the mix of resident and nonresident students, to ensure that the primary mission of providing educational opportunities to citizens of Virginia is served, while recognizing the material contributions provided by the presence of nonresident students. The State Council of Higher Education for Virginia shall also develop and enforce uniform guidelines for reporting student enrollments and the domiciliary status of students.

b) The State Council of Higher Education for Virginia shall report to the Governor and the Chairmen of the House Appropriations and Senate Finance Committees no later than August 1 of each year the annual change in total charges for tuition and all required fees approved and allotted by the Board of Visitors. As it deems appropriate, the State Council of Higher Education for Virginia shall provide comparative national, peer, and market data with respect to charges assessed students for tuition and required fees at institutions outside of the Commonwealth.

c) Institutions of higher education are hereby authorized to make the technology service fee authorized in Chapter 1042, 2003 Acts of Assembly, part of ongoing tuition revenue. Such revenues shall continue to be used to supplement technology resources at the institutions of higher education.

d) Except as provided in Chapters 933 and 943 of the 2006 Acts of Assembly, Chapters 594 and 616 of the 2008 Acts of Assembly, and Chapters 675 and 685 of the 2009 Acts of Assembly, each institution shall work with the State Council of Higher Education for Virginia and the Virginia College Savings Plan to determine appropriate tuition and fee estimates for tuition savings plans.

5. It is the intent of the General Assembly that each institution's combined general and nongeneral fund appropriation within its educational and general program closely approximate the anticipated annual budget each fiscal year.

6. Nonresident graduate students employed by an institution as teaching assistants, research assistants, or graduate assistants and paid at an annual contract rate of \$4,000 or more may be considered resident students for the purposes of charging tuition and fees.

7. The fund source "Higher Education Operating" within educational and general programs for institutions of higher education includes tuition and fee revenues from nonresident students to pay their proportionate share of the amortized cost of the construction of buildings approved by the Commonwealth of Virginia Educational Institutions Bond Act of 1992 and the Commonwealth of Virginia Educational Facilities Bond Act of 2002.

8. a) 1) Except as provided in Chapters 933 and 943 of the 2006 Acts of Assembly, Chapters 594 and 616 of the 2008 Acts of Assembly, and Chapters 675 and 685 of the 2009 Acts of Assembly, mandatory fees for purposes other than educational and general programs shall not be increased for Virginia undergraduates beyond three percent annually, excluding requirements for wage, salary, and fringe benefit increases, authorized by the General Assembly. Fee increases required to carry out actions that respond to mandates of federal agencies are also exempt from this provision, provided that a report on the purposes of the amount of the fee increase is submitted to the Chairmen of the House Appropriations and Senate Finance Committees by the institution of higher education at least 30 days prior to the effective date of the fee increase.

2) *The University of Mary Washington is hereby authorized to undertake a review of its tuition and fee structure for the purpose of more closely aligning auxiliary fees, including room, board, and the comprehensive fee, with auxiliary expenditure budgets. Adjustments to mandatory fees in auxiliary programs may exceed three percent subject to annual approval by the University's Board of Visitors to the extent required to effect budgetary alignment of revenues and expenditures. This exemption will be limited to the period beginning in fiscal year 2019-20 and extending through the end of fiscal year 2023-24.*

b) This restriction shall not apply in the following instances: fee increases directly related to capital projects authorized by the General Assembly; fee increases to support student health services; and other fee increases specifically authorized by the General Assembly.

c) Due to the small mandatory non-educational and general program fees currently assessed students in the Virginia Community College System, increases in any one year of no more than \$15 shall be allowed on a cost-justified case-by-case basis, subject to approval by the State Board for Community Colleges.

9. Any institution of higher education granting new tuition waivers to resident or nonresident students not authorized by the Code of Virginia must absorb the cost of any discretionary waivers.

10. Tuition and fee revenues from nonresident students taking courses through Virginia institutions from the Southern Regional Education Board's Southern Regional Electronic Campus must exceed all direct and indirect costs of providing instruction to those students. Tuition and fee rates to meet this requirement shall be established by the Board of Visitors of the institution.

c. HIGHER EDUCATION PLANNED EXCESS REVENUES:

2. The Governor is authorized to approve deficit funding for a state agency under the following conditions:

a) an unanticipated federal or judicial mandate has been imposed,

b) insufficient moneys are available in the first year of the biennium for start-up of General Assembly-approved action, or

c) delay pending action by the General Assembly at its next legislative session will result in the curtailment of services required by statute or those required by federal mandate or will produce a threat to life, safety, health or property.

d) Such approval by the Governor shall be in writing under the conditions described in § 4-3.02 a Authorized Deficit Loans of this act and shall be promptly communicated to the Chairmen of the House Appropriations and Senate Finance Committees within five calendar days of deficit approval.

Further, those members of the governing board of any such agency who shall have voted therefor, or its head if there be no governing board, making any such excess obligation or expenditure shall be personally liable for the full amount of such unauthorized deficit and, at the discretion of the Governor, shall be deemed guilty of neglect of official duty and be subject to removal therefor. Further, the State Comptroller is hereby directed to make public any such unauthorized deficit, and the Director, Department of Planning and Budget, is hereby directed to set out such unauthorized deficits in the next biennium budget. In addition, the Governor is directed to bring this provision of this act to the attention of the members of the governing board of each state agency, or its head if there be no governing board, within two weeks of the date that this act becomes effective. The governing board or the agency head shall execute and return to the Governor a signed acknowledgment of such notification.

At the close of business on the last day of the current biennium, any unexpended balance of such loan shall be applied toward repayment of the loan, unless such action is contrary to the conditions of the loan approval. 3. This paragraph does not prohibit the initiation of projects authorized by § 4-4.01 m hereof, or projects included under the central appropriations for capital project expenses in this act.

g. Preliminary Requirements: In regard to each capital project for which appropriation or reappropriation is made pursuant to this act, or which is hereafter considered by the Governor for inclusion in the Executive Budget, or which is offered as a gift or is considered for purchase, the Governor is hereby required: (1) to determine the urgency of its need, as compared with the need for other capital projects as herein authorized, or hereafter considered; (2) to determine whether the proposed plans and specifications for each capital project are suitable and adequate, and whether they involve expenditures which are excessive for the purposes intended; (3) to determine whether labor, materials, and other requirements, if any, needed for the acquisition or construction of such project can and will be obtained at reasonable cost; and (4) to determine whether or not the project conforms to a site or master plan approved by the agency head or board of visitors of an institution of higher education for a program approved by the General Assembly.

h. Initiation Generally:

1. No architectural or engineering planning for, or construction of, or purchase of any capital project shall be commenced or revised without the prior written approval of the Governor or his designee.

2. The requirements of § 10.1-1190, Code of Virginia, shall be met prior to the release of funds for a major state project, provided, however, that the Governor or his designee is authorized to release from any appropriation for a major state project made pursuant to this act such sum or sums as may be necessary to pay for the preparation of the environmental impact report required by § 10.1-1188, Code of Virginia.

3. The Governor, at his discretion, or his designee may release from any capital project appropriation or reappropriation made pursuant to this act such sum (or sums) as may be necessary to pay for the preparation of plans and specifications by architects and engineers, provided that the estimated cost of the construction covered by such drawings and specifications does not exceed the appropriation therefor; provided, further, however, that the architectural and engineering fees paid on completion of the preliminary design for any such project may be based on such estimated costs as may be approved by the Governor in writing, where it is shown to the satisfaction of the Governor that higher costs of labor or material, or both, or other unforeseen conditions, have made the appropriation inadequate for the completion of the project for which the appropriation was made, and where in the judgment of the Governor such changed conditions justify the payment of architectural or engineering fees based on costs exceeding the appropriation.

4. Architectural or engineering contracts shall not be awarded in perpetuity for capital projects at any state institution, agency or activity.

i. Capital Projects Financed with Bonds: Capital projects proposed to be financed with (i) 9 (c) general obligation bonds or (ii) 9(d) obligations where debt service is expected to be paid from project revenues or revenues of the agency or institution, shall be reviewed as follows:

1. By August 15 of each year, requests for inclusion in the Executive Budget of capital projects to be financed with 9(c) general obligation bonds shall be submitted to the State Treasurer for evaluation of financial feasibility. Submission shall be in accordance with the instructions prescribed by the State Treasurer. The State Treasurer shall distribute copies of financial feasibility studies to the Director, Department of Planning and Budget, the Secretary for the submitting agency or institution, the Chairmen of the House Appropriations and Senate Finance Committees, and the Director, State Council of Higher Education for Virginia, if the project is requested by an institution of higher education.

2. By August 15 of each year, institutions shall also prepare and submit copies of financial feasibility studies to the State Council of Higher Education for Virginia for 9(d) obligations where debt service is expected to be paid from project revenues or revenues of the institution. The State Council of Higher Education for Virginia shall identify the impact of all projects requested by the institutions of higher education, and as described in § 4-4.01 j.1. of this act, on the current and projected cost to students in institutions of higher education and the impact of the project on the institution's need for student financial assistance. The State Council of Higher Education for Virginia shall report such information to the Secretary of Finance and the Chairmen of the House Appropriations and Senate Finance Committees no later than October 1 of each year.

3. Prior to the issuance of debt for 9(c) general obligation projects, when more than one year has elapsed since the review of financial feasibility specified in § 4-4.01 j 1 above, an updated feasibility study shall be prepared by the agency and reviewed by the State Treasurer prior to requesting the Governor's Opinion of Financial Feasibility required under Article X, Section 9 (c), of the Constitution of Virginia.

j. Transfers to supplement capital projects from nongeneral funds may be made under the conditions set forth in §§ 4-1.03 a, 4-1.04 a.3, and 4-4.01 m of this act.

k.1. Change in Size and Scope: Unless otherwise provided by law, the scope, which is the function or intended use, of any capital project may not be substantively changed, nor its size increased or decreased by more than five percent in size beyond the plans and justification which were the basis for the appropriation or reappropriation in this act or for the Governor's authorization pursuant to § 4-4.01 m of this act. However, this prohibition is not applicable to changes in size and scope required because of circumstances determined by the Governor to be an emergency, or requirements imposed by the federal government when such capital project is for armories or other defense-related installations and is funded in whole or in part by federal funds. Furthermore, this prohibition shall not apply to minor increases, beyond five percent, in square footage determined by the Director, Department of General Services, to be reasonable and appropriate based on a written justification submitted by the agency stating the reason for the increase, with the provision that such increase will not increase the cost of the project beyond the amount appropriated; nor to decreases in size beyond five percent to offset unbudgeted costs when such costs are determined by the Director, Department of Planning and Budget, to be reasonable based on a written justification submitted by the agency specifying the amount and nature of the unbudgeted costs and the types of actions that will be taken to decrease the size of the project. The written justification shall also include a certification, signed by the agency head, that the resulting project will be consistent with the original programmatic intent of the appropriations.

2. If space planning, energy conservation, and environmental standards guides for any type of construction have been approved by the Governor or the General Assembly, the Governor shall require capital projects to conform to such planning guides.

l. Projects Not Included In This Act:

1. Authorization by Governor:

a) The Governor may authorize initiation of, planning for, construction of or acquisition of a nongeneral fund capital project not specifically included in this act or provided for a program approved by the General Assembly through appropriations, under one or more of the following conditions:

- 1) The project is required to meet an emergency situation.
- 2) The project is to be operated as an auxiliary enterprise or sponsored program in an institution of higher education and will be fully funded by revenues of auxiliary enterprises or sponsored programs.
- 3) The project is to be operated as an educational and general program in an institution of higher education and will be fully funded by nongeneral fund revenues of educational and general programs or from private gifts and indirect cost recoveries.
- 4) The project consists of plant or property which has become available or has been received as a gift.
- 5) The project has been recommended for funding by the Tobacco Indemnification and Community Revitalization Commission or the Virginia Tobacco Settlement Foundation.

b) The foregoing conditions are subject to the following criteria:

- 1) Funds are available within the appropriations made by this act (including those subject to §§ 4-1.03 a, 4-1.04 a.3, and 4-2.03) without adverse effect on other projects or programs, or from unappropriated nongeneral fund revenues or balances.
- 2) In the Governor's opinion such action may avoid an increase in cost or otherwise result in a measurable benefit to the state.
- 3) The authorization includes a detailed description of the project, the project need, the total project cost, the estimated operating costs, and the fund sources for the project and its operating costs.
- 4) The Chairmen of the House Appropriations and Senate Finance Committees shall be notified by the Governor prior to the authorization of any capital project under the provisions of this subsection.
- 5) Permanent funding for any project initiated under this section shall only be from nongeneral fund sources.

2. Authorization by Director, Department of Planning and Budget:

a) The Director, Department of Planning and Budget, may authorize initiation of a capital project not included in this act, if the General Assembly has enacted legislation to fund the project from bonds of the Virginia Public Building Authority, Virginia College Building Authority, or from reserves created by refunding of bonds issued by those Authorities.

3. Delegated authorization by Boards of Visitors, Public Institutions of Higher Education:

a) In accordance with § 4-5.06 of this act, the board of visitors of any public institution of higher education that: i) has met the eligibility criteria set forth in Chapters 933 and 945 of the 2005 Acts of Assembly for additional operational and administrative autonomy, including having entered into a memorandum of understanding with the Secretary of Administration for delegated authority of nongeneral fund capital outlay projects, and ii) has received a sum sufficient nongeneral fund appropriation for emergency projects as set out in Part 2: Capital Project Expenses of this act, may authorize the initiation of any capital project that is not specifically set forth in this act provided that the project meets at least one of the conditions and criteria identified in § 4-4.01 m 1 of this act.

b) At least 30 days prior to the initiation of a project under this provision, the board of visitors must notify the Governor and Chairmen of the House Appropriations and Senate Finance Committees and must provide a life-cycle budget analysis of the project. Such analysis shall be in a form to be prescribed by the Auditor of Public Accounts.

c) The Commonwealth of Virginia shall have no general fund obligation for the construction, operation, insurance, routine maintenance, or long-term maintenance of any project authorized by the board of visitors of a public institution of higher education in accordance with this provision.

m. Acquisition, maintenance, and operation of buildings and nonbuilding facilities in colleges and universities shall be subject to the following policies:

1. The anticipated program use of the building or nonbuilding facility should determine the funding source for expenditures for acquisition, construction, maintenance, operation, and repairs.
2. Expenditures for land acquisition, site preparation beyond five feet from a building, and the construction of additional outdoor lighting, sidewalks, outdoor athletic and recreational facilities, and parking lots in the Virginia Community College System shall be made only from appropriated federal funds, Trust and Agency funds, including local government allocations or appropriations, or the proceeds of indebtedness authorized by the General Assembly.
3. The general policy of the Commonwealth shall be that parking services are to be operated as an auxiliary enterprise by all colleges and universities. Institutions should develop sufficient reserves for ongoing maintenance and replacement of parking facilities.
4. Except as provided in paragraph 2 above, expenditures for maintenance, replacement, and repair of outdoor lighting, sidewalks, and other infrastructure facilities may be made from any appropriated funds.

5. Expenditures for operations, maintenance, and repair of athletic, recreational, and public service facilities, both indoor and outdoor, should be from nongeneral funds. However, this condition shall not apply to any indoor recreational facility existing on a community college campus as of July 1, 1988.

6.a.1. At institutions of higher education that have met the eligibility criteria for additional operational and administrative authority as set forth in Chapters 933 and 945 of the 2005 Acts of Assembly or Chapters 824 and 829 of the 2008 Acts of Assembly, any repair, renovation, or new construction project costing up to \$3,000,000 shall be exempt from the capital outlay review and approval process. For purposes of this paragraph, projects shall not include any subset of a series of projects, which in combination would exceed the \$3,000,000 maximum.

2. All state agencies and institutions of higher education shall be exempt from the capital review and approval process for repair, renovation, or new construction projects costing up to \$3,000,000.

b. Blanket authorizations funded entirely by nongeneral funds may be used for 1) renovation and infrastructure projects costing up to \$3,000,000 and 2) the planning of nongeneral fund new construction and renovation projects through bidding, with bid award made after receipt of a construction authorization. The Director, Department of Planning and Budget, may provide exemptions to the threshold.

7. It is the policy of the Commonwealth that the institutions of higher education shall treat the maintenance of their facilities as a priority for the allocation of resources. No appropriations shall be transferred from the "Operation and Maintenance of Plant" subprogram except for closely and definitely related purposes, as approved by the Director, Department of Planning and Budget, or his designee. A report providing the rationale for each approved transfer shall be made to the Chairmen of the House Appropriations and Senate Finance Committees.

n. Legislative Intent and Reporting: Appropriations for capital projects shall be deemed to have been made for purposes which require their expenditure, or being placed under contract for expenditure, during the current biennium. Agencies to which such appropriations are made in this act or any other act are required to report progress as specified by the Governor. If, in the opinion of the Governor, these reports do not indicate satisfactory progress, he is authorized to take such actions as in his judgment may be necessary to meet legislative intent as herein defined. Reporting on the progress of capital projects shall be in accordance with § 4-8.00, Reporting Requirements.

o. No expenditure from a general fund appropriation in this act shall be made to expand or enhance a capital outlay project beyond that anticipated when the project was initially approved by the General Assembly except to comply with requirements imposed by the federal government when such capital project is for armories or other defense-related installations and is funded in whole or in part by federal funds. General fund appropriations in excess of those necessary to complete the project shall not be reallocated to expand or enhance the project, or be reallocated to a different project. The prohibitions in this subsection shall not apply to transfers from projects for which reappropriations have been authorized.

p. Local or private funds to be used for the acquisition, construction or improvement of capital projects for state agency use as owner or lessee shall be deposited into the state treasury for appropriation prior to their expenditure for such projects.

q. State-owned Registered Historic Landmarks: To guarantee that the historical and/or architectural integrity of any state-owned properties listed on the Virginia Landmarks Register and the knowledge to be gained from archaeological sites will not be adversely affected because of inappropriate changes, the heads of those agencies in charge of such properties are directed to submit all plans for significant alterations, remodeling, redecoration, restoration or repairs that may basically alter the appearance of the structure, landscaping, or demolition to the Department of Historic Resources. Such plans shall be reviewed within thirty days and the comments of that department shall be submitted to the Governor through the Department of General Services for use in making a final determination.

r.1. The Governor may authorize the conveyance of any interest in property or improvements thereon held by the Commonwealth to the educational or real estate foundation of any institution of higher education where he finds that such property was acquired with local or private funds or by gift or grant to or for the use of the institution, and not with funds appropriated to the institution by the General Assembly. Any approved conveyance shall be exempt from § 2.2-1156, Code of Virginia, and any other statute concerning conveyance, transfer or sale of state property. If the foundation conveys any interest in the property or any improvements thereon, such conveyance shall likewise be exempt from compliance with any statute concerning disposition of state property. Any income or proceeds from the conveyance of any interest in the property shall be deemed to be local or private funds and may be used by the foundation for any foundation purpose.

2. This section shall not apply to public institutions of higher education governed by Chapters 933 and 943 of the 2006 Acts of Assembly, Chapters 594 and 616 of the 2008 Acts of Assembly, Chapters 824 and 829 of the 2008 Acts of Assembly, and Chapters 675 and 685 of the 2009 Acts of Assembly.

s.1. Facility Lease Agreements Involving Institutions of Higher Education: In the case of any lease agreement involving state-owned property controlled by an institution of higher education, where the lease has been entered into consistent with the provisions of § 2.2-1155, Code of Virginia, the Governor may amend, adjust or waive any project review and reporting procedures of Executive agencies as may reasonably be required to promote the property improvement goals for which the lease agreement was developed.

2. This section shall not apply to public institutions of higher education governed by Chapters 933 and 943 of the 2006 Acts of Assembly, Chapters 594 and 616 of the 2008 Acts of Assembly, Chapters 824 and 829 of the 2008 Acts of Assembly, and Chapters 675 and 685 of the 2009 Acts of Assembly.

t. Energy-efficiency Projects: Improvements to state-owned properties for the purpose of energy-efficiency shall be treated as follows:

1. Such improvements shall be considered an operating expense, provided that:

a) the scope of the project meets or exceeds the applicable energy-efficiency standards set forth in the American Society of Heating, Refrigerating, and Air Conditioning Engineers (ASHRAE), the Illuminating Engineering Society (IES) standard 90.1-1989 and is limited to measures listed in guidelines issued by the Department of General Services;

b) the project is financed consistent with the provisions of § 2.2-2417, Code of Virginia, which requires Treasury Board approval and is executed through a nonprofessional services contract with a vendor approved by the Department of General Services;

c) the scope of work has been reviewed and recommended by the Department of Mines, Minerals and Energy;

d) the total cost does not exceed \$3,000,000; and

e) if the total cost exceeds \$3,000,000, but does not exceed \$7,000,000, the energy savings from the project offset the total cost of the project, including debt service and interest payments.

2. If (a) the total cost of the improvement exceeds \$7,000,000 or (b) the total cost exceeds \$3,000,000, but does not exceed \$7,000,000, and the energy savings from the project do not fully offset the total cost of the project, including debt services and interest payments, the improvement shall be considered a capital expense regardless of the type of improvement and the following conditions must be met:

a) the scope of the project meets or exceeds the applicable energy-efficiency standards set forth in the American Society of Heating, Refrigerating, and Air Conditioning Engineers (ASHRAE), the Illuminating Engineering Society (IES) standard 90.1-1989 and is limited to measures listed in guidelines issued by the Department of General Services;

b) the project is financed consistent with the provisions of § 2.2-2417, Code of Virginia, which requires Treasury Board approval and is executed through a nonprofessional services contract with a vendor approved by the Department of General Services;

c) the scope of work has been reviewed and recommended by the Department of Mines, Minerals and Energy;

d) the project has been reviewed by the Department of Planning and Budget; and

e) the project has been approved by the Governor.

3. If the total project exceeds \$250,000, the agency director will submit written notification to the Director, Department of Planning and Budget, verifying that the project meets all of the conditions in subparagraph 1 above.

The provisions of §§ 2.0 and 4-4.01 of this act and the provisions of § 2.2-1132, Code of Virginia, shall not apply to energy conservation projects that qualify as capital expenses.

4. As used in this paragraph, "improvement" does not include (a) constructing, enlarging, altering, repairing or demolishing a building or structure, (b) changing the use of a building either within the same use group or to a different use group when the new use requires greater degrees of structural strength, fire protection, exit facilities or sanitary provisions, or (c) removing or disturbing any asbestos-containing materials during demolition, alteration, renovation of or additions to building or structures. If the projected scope of an energy-efficiency project includes any of these elements, it shall be subject to the capital outlay process as set out in this section.

5. The Director, Department of Planning and Budget, shall notify the Chairmen of the House Appropriations and Senate Finance Committees upon the initiation of any energy-efficiency projects under the provisions of this paragraph.

u. No expenditures shall be authorized for the purchase of fee simple title to any real property to be used for a correctional facility or for the actual construction of a correctional facility provided for in this act, or by reference hereto, that involves acquisition or new construction of youth or adult correctional facilities on real property which was not owned by the Commonwealth on January 1, 1995, until the governing body of the county, city or town wherein the project is to be located has adopted a resolution supporting the location of such project within the boundaries of the affected jurisdiction. The foregoing does not prohibit expenditures for site studies, real estate options, correctional facility design and related expenditures.

v. Except for institutions of higher education governed by Chapters 933 and 943 of the 2006 Acts of Assembly, Chapters 594

and 616 of the 2008 Acts of Assembly, and Chapters 675 and 685 of the 2009 Acts of Assembly, any alternative financing agreement entered into between a state agency or institution of higher education and a private entity or affiliated foundation must be reviewed and approved by the Treasury Board.

w. Prior to requesting authorization for new dormitory capital projects, institutions of higher education shall conduct a cost study to determine whether an alternative financing arrangement or public-private transaction would provide a more effective option for the construction of the proposed facility. This study shall be submitted to the Department of Planning and Budget as part of the budget development process and shall be evaluated by the Governor prior to submitting his proposed budget.

x. Construction or improvement projects of the Department of Military Affairs are not exempt from the capital outlay review process when the state procurement process is utilized, except for those projects with both an estimated cost of \$3,000,000 or less and are 100 percent federally reimbursed. The Department of Military Affairs shall submit by July 30 of each year to the Department of Planning and Budget a list of such projects that were funded pursuant to this exemption in the previous fiscal year and any projects that would be eligible for such funding in future fiscal years.

§ 4-4.02 PLANNING AND BUDGETING

a. It shall be the intent of the General Assembly to make biennial appropriations for a capital improvements program sufficient to address the program needs of the Commonwealth. The capital improvements program shall include maintenance and deferred maintenance of the Commonwealth's existing facilities, and of the facility requirements necessary to deliver the programs of state agencies and institutions.

b. In effecting these policies, the Governor shall establish a capital budget plan to address the renewal and replacement of the Commonwealth's physical plant, using such guidelines as recommended by industry or government to maintain the Commonwealth's investment in its property and plant.

§ 4-5.00 SPECIAL CONDITIONS AND RESTRICTIONS ON EXPENDITURES

§ 4-5.01 TRANSACTIONS WITH INDIVIDUALS

a. **SETTLEMENT OF CLAIMS:** Whenever a dispute, claim or controversy involving the interest of the Commonwealth is settled pursuant to § 2.2-514, Code of Virginia, payment may be made out of any appropriations, designated by the Governor, to the state agency(ies) which is (are) party to the settlement.

b. **STUDENT FINANCIAL ASSISTANCE FOR HIGHER EDUCATION:**

1. General:

a) The appropriations made in this act to state institutions of higher education within the Items for student financial assistance may be expended for any one, all, or any combination of the following purposes: grants to undergraduate students enrolled at least one-half time in a degree, certificate, industry-based certification and related programs that do not qualify for other sources of student financial assistance or diploma program; grants to full-time graduate students; graduate assistantships; grants to students enrolled full-time in a dual or concurrent undergraduate and graduate program. The institutions may also use these appropriations for the purpose of supporting work study programs. The institution is required to transfer to educational and general appropriations all funds used for work study or to pay graduate assistantships. Institutions may also contribute to federal or private student grant aid programs requiring matching funds by the institution, except for programs requiring work. The State Council of Higher Education for Virginia shall annually review each institution's plan for the expenditures of its general fund appropriation for undergraduate student financial assistance prior to the start of the fall term to determine program compliance. The institution's plan shall include the institution's assumptions and calculations for determining the cost of attendance, student financial need, and student remaining need as well as an award schedule or description of how funds are awarded. For the purposes of the proposed plan, each community college shall be considered independently. No limitations shall be placed on the awarding of nongeneral fund appropriations made in this act to state institutions of higher education within the Items for student financial assistance other than those found previously in this paragraph and as follows: (i) funds derived from in-state student tuition will not subsidize out-of-state students, (ii) students receiving these funds must be making satisfactory academic progress, (iii) awards made to students should be based primarily on financial need, and (iv) institutions should make larger grant and scholarship awards to students taking the number of credit hours necessary to complete a degree in a timely manner.

b) All awards made to undergraduate students from such Items shall be for Virginia students only and such awards shall offset all, or portions of, the costs of tuition and required fees, and, in the case of students qualifying under subdivision b 2 c)1) hereof, the cost of books. All undergraduate financial aid award amounts funded by this appropriation shall be proportionate to the remaining need of individual students, with students with higher levels of remaining need receiving grants before other students. No criteria other than the need of the student shall be used to determine the award amount. Because of the low cost of attendance and recognizing that federal grants provide a much higher portion of cost than at other institutions, a modified approach and minimum award amount for the neediest VGAP student should be implemented for community college and Richard Bland College students based on remaining need and the combination of federal and grant state aid. Student financial need shall be determined by a need-analysis system approved by the Council.

c)1) All need-based awards made to graduate students shall be determined by the use of a need-analysis system approved by the Council.

2) As part of the six-year financial plans required in the provisions of Chapters 933 and 945 of the 2005 Acts of Assembly, each institution of higher education shall report the extent to which tuition and fee revenues are used to support graduate student aid and graduate compensation and how the use of these funds impacts planned increases in student tuition and fees.

d) A student who receives a grant under such Items and who, during a semester, withdraws from the institution which made the award must surrender the unearned portion. The institution shall calculate the unearned portion of the award based on the percentage used for federal Return to Title IV program purposes.

e) An award made under such Items to assist a student in attending an institution's summer session shall be prorated according to the size of comparable awards made in that institution's regular session.

f) The provisions of this act under the heading "Student Financial Assistance for Higher Education" shall not apply to (1) the soil scientist scholarships authorized under § 23.1-615, Code of Virginia and (2) need-based financial aid programs for industry-based certification and related programs that do not qualify for other sources of student financial assistance, which will be subject to guidelines developed by the State Council of Higher Education for Virginia.

g) Unless noted elsewhere in this act, general fund awards shall be named "Commonwealth" grants.

h) Unless otherwise provided by statute, undergraduate awards shall not be made to students seeking a second or additional baccalaureate degree until the financial aid needs of first-degree seeking students are fully met.

2. Grants To Undergraduate Students:

a) Each institution which makes undergraduate grants paid from its appropriation for student financial assistance shall expend such sums as approved for that purpose by the Council.

b) A student receiving an award must be duly admitted and enrolled in a degree, certificate or diploma program at the institution making the award, and shall be making satisfactory academic progress as defined by the institution for the purposes of eligibility under Title IV of the federal Higher Education Act, as amended.

c)1) It is the intent of the General Assembly that students eligible under the Virginia Guaranteed Assistance Program (VGAP) authorized in Title 23.1, Chapter 4.4:2, Code of Virginia, shall receive grants before all other students at the same institution with equivalent remaining need from the appropriations for undergraduate student financial assistance found in Part 1 of this act (service area 1081000 - Scholarships). In each instance, VGAP eligible students shall receive awards greater than other students with equivalent remaining need.

2) The amount of each VGAP grant shall vary according to each student's remaining need and the total of tuition, all required fees and the cost of books at the institution the student will attend upon acceptance for admission. The actual amount of the VGAP award will be determined by the proportionate award schedule adopted by each institution; however, those students with the greatest financial need shall be guaranteed an award at least equal to tuition.

3) It is the intent of the General Assembly that the Virginia Guaranteed Assistance Program serve as an incentive to financially needy students now attending elementary and secondary school in Virginia to raise their expectations and their academic performance and to consider higher education an achievable objective in their futures.

4) Students may not receive a VGAP and a Commonwealth grant in the same semester.

3. Grants To Graduate Students:

a) An individual award may be based on financial need but may, in addition to or instead of, be based on other criteria determined by the institution making the award. The amount of an award shall be determined by the institution making the award; however, the Council shall annually be notified as to the maximum size of a graduate award that is paid from funds in the appropriation.

b) A student receiving a graduate award paid from the appropriation must be duly admitted into a graduate degree program at the institution making the award.

c) Not more than 50 percent of the funds designated by an institution as graduate grants from the appropriation, and approved as such by the Council, shall be awarded to persons not eligible to be classified as Virginia domiciliary resident students except in cases where the persons meet the criteria outlined in § 4-2.01b.6.

4. Matching Funds: Any institution of higher education may, with the approval of the Council, use funds from its appropriation for fellowships and scholarships to provide the institutional contribution to any student financial aid program established by the federal government or private sources which requires the matching of the contribution by institutional funds, except for programs requiring work.

5. Discontinued Loan Program:

a) If any federal student loan program for which the institutional contribution was appropriated by the General Assembly is discontinued, the institutional share of the discontinued loan program shall be repaid to the fund from which the institutional share was derived unless other arrangements for the use of the funds are recommended by the Council and approved by the Department of Planning and Budget. Should the institution be permitted to retain the federal contributions to the program, the funds shall be used according to arrangements authorized by the Council and approved by the Department of Planning and Budget.

b)1) An institution of higher education may discontinue its student loan fund established pursuant to Title 23.1, Chapter 4.01, Code of Virginia. The full amount of cash in such discontinued loan fund shall be paid into the state treasury into a nonrevertible nongeneral fund account. Prior to such payment, the State Comptroller shall verify its accuracy, including the fact that the cash held by the institution in the loan fund will be fully depleted by such payment. The loan fund shall not be reestablished thereafter for that institution.

2) The cash so paid into the state treasury shall be used only for grants to undergraduate and graduate students in the Higher Education Student Financial Assistance program according to arrangements authorized by the Council and approved by the Department of Planning and Budget.

3) Payments on principal and interest of any promissory notes held by the discontinued loan fund shall continue to be received by the institution, which shall deposit such payments in the state treasury to the nonrevertible nongeneral fund account specified in subdivision (1) preceding, to be used for grants as specified in subdivision (2) preceding.

6. Reporting: The Council shall collect student-specific information for undergraduate students as is necessary for the operation of the Student Financial Assistance Program. The Council shall maintain regulations governing the operation of the Student Financial Assistance Program based on the provisions outlined in this section, the Code of Virginia, and State Council policy.

C. PAYMENTS TO CITIZEN MEMBERS OF NONLEGISLATIVE BODIES:

Notwithstanding any other provision of law, executive branch agencies shall not pay compensation to citizen members of boards, commissions, authorities, councils, or other bodies from any fund for the performance of such members' duties in the work of the board, commission, authority, council, or other body.

d. VIRGINIA BIRTH-RELATED NEUROLOGICAL INJURY COMPENSATION PROGRAM

1. Notwithstanding any other provision of law, the Virginia Birth-Related Neurological Injury Compensation Program is authorized to require each admitted claimant's parent or legal guardian to purchase private health insurance (the "primary payer") to provide coverage for the actual medically necessary and reasonable expenses as described in Virginia Code § 38.2-5009(A)(1) that were, or are, incurred as a result of the admitted claimant's birth-related neurological injury and for the admitted claimant's benefit. Provided, however, that the Program shall reimburse, upon receipt of proof of payment, solely the portion of the premiums that is attributable to the admitted claimant's post-admission coverage from the effective date of this provision forward and paid for by the admitted claimant's parent or legal guardian.

2. The State Corporation Commission shall develop a report containing options and recommendations for improving the actuarial soundness of financing for the Virginia Birth-Related Neurological Injury Compensation Program. The report shall be presented to the Governor and Chairmen of the House Appropriations and Senate Finance Committees no later than November 1, 2017.

§ 4-5.02 THIRD PARTY TRANSACTIONS

a. EMPLOYMENT OF ATTORNEYS:

1.a) All attorneys authorized by this act to be employed by any state agency and all attorneys compensated out of any moneys appropriated in this session of the General Assembly shall be appointed by the Attorney General and be in all respects subject to the provisions of Title 2.2, Chapter 5, Code of Virginia, to the extent not to conflict with Title 12.1, Chapter 4, Code of Virginia; provided, however, that if the Governor certifies the need for independent legal counsel for any Executive Department agency, such agency shall be free to act independently of the Office of the Attorney General in regard to selection, and provided, further, that compensation of such independent legal counsel shall be paid from the moneys appropriated to such Executive Department agency or from the moneys appropriated to the Office of the Attorney General.

b) For purposes of this act, "attorney" shall be defined as an employee or contractor who represents an agency before a court, board or agency of the Commonwealth of Virginia or political subdivision thereof. 4. State agencies that operate internal service funds may not change a billable overhead surcharge rate to another state agency unless the resulting change is provided in the final General Assembly enacted budget.

5. State agencies that operate more than one internal service fund shall comply with the review and approval requirements detailed in this Item for each internal service fund.

6. As determined by the Director, Department of Planning and Budget, state agencies that operate select programs where an

agency provides a service to and bills other agencies shall be subject to the annual review of the agency's internal service funds consistent with the provisions of this Item, unless such payment for services is pursuant to a memorandum of understanding authorized by § 4-1.03 a. 7 of this act.

7. The Governor is authorized to change internal service fund overhead surcharge rates, including the creation of new rates, beyond the rates enacted in the budget in the event of an emergency or to implement actions approved by the General Assembly, upon prior notice to the Chairmen of the House Appropriations and Senate Finance Committees. b. NEW SERVICES:

1. No state agency shall begin any new service that will call for future additional property, plant or equipment or that will require an increase in subsequent general or nongeneral fund operating expenses without first obtaining the authorization of the General Assembly.

2. Pursuant to the policies and procedures of the State Council of Higher Education regarding approval of academic programs and the concomitant enrollment, no state institution of higher education shall operate any academic program with funds in this act unless approved by the Council and included in the Executive Budget, or approved by the General Assembly. The Council may grant exemptions to this policy in exceptional circumstances.

A public college or university seeking to create, establish, or operate an off-campus instructional site, funded directly or indirectly from the general fund or with revenue from tuition and mandatory educational and general fees generated from credit course offerings, shall first refer the matter to the State Council of Higher Education for Virginia for its consideration and approval. The State Council of Higher Education for Virginia may provide institutions with conditional approval to operate the site for up to one year, after which time the college or university must receive approval from the Governor and General Assembly, through legislation or appropriation, to continue operating the site.

2. For the colleges of the Virginia Community College System, the State Board for Community Colleges shall be responsible for approving off-campus locations. Sites governed by this requirement are those at any locations not contiguous to the main campus of the institution, including locations outside Virginia.

b) Offerings at previously approved off-campus locations shall also not be subject to these provisions.

c) Further, the provisions herein do not govern the establishment and operations of campus sites with a primary function of carrying out grant and contract research where direct and indirect costs from such research are covered through external funding sources.

Such locations may offer limited graduate education as appropriate to support the research mission of the site.

d) Nothing herein shall prohibit an institution from offering non-credit continuing education programs at sites away from the main campus of a college or university.

4. The State Council of Higher Education shall establish guidelines to implement this provision.

1. In accordance with § 2.2-1501, Code of Virginia, the Department of Planning and Budget shall develop a programmatic budget and accounting structure for all new programs and activities to ensure that it provides the appropriate financial and performance measures to determine if programs achieve desired results and outcomes. Artwork and photographs which exaggerate or extol rather than supplement or complement permissible information are prohibited. Mass mailings are generally prohibited; however, either mass mailings or newspaper inserts, but not both, may be used if other methods of distributing permissible information are not economically feasible in the institution's local service area.

3. **Remedial Education:** Senior institutions of higher education shall make arrangements with community colleges for the remediation of students accepted for admission by the senior institutions.

These transfers are limited to actions needed to adjust for overfunding or underfunding the program appropriations affected by the altered billing systems.

3. The provisions of this subsection shall not in any way affect the duties and responsibilities of the State Comptroller under the provisions of § 2.2-803, Code of Virginia.

4. It is the intent of the General Assembly that information technology (IT) systems, products, data, and service costs, including geographic information systems (GIS), be contained through the shared use of existing or planned equipment, data, or services which may be available or soon made available for use by state agencies, institutions, authorities, and other public bodies. State agencies, institutions, and authorities shall cooperate with the Virginia Information Technologies Agency in identifying the development and operational requirements for proposed IT and GIS systems, products, data, and services, including the proposed use, functionality, capacity and the total cost of acquisition, operation and maintenance.

5. This section shall not apply to public institutions of higher education governed by some combination of Chapters 933 and 945 of the 2005 Acts of Assembly, Chapters 933 and 943 of the 2006 Acts of Assembly or Chapters 594 and 616 of the 2008 Acts of Assembly, Chapters 824 and 829 of the 2008 Acts of Assembly and Chapters 675 and 685 of the 2009 Acts of Assembly, or to the Virginia Alcoholic Beverage Control Authority.

The Director of the Department of General Services shall compare the cost of vehicles acquired by institutions of higher education and the Authority to like vehicles under the state contract. If the comparison demonstrates for a given institution or the Authority that the cost to the Commonwealth is greater for like vehicles than would be the case based on a contract of statewide applicability, the Governor or his designee may suspend the exemption granted to the institution or the Authority pursuant to this subparagraph c.

3. The Director, Department of General Services, is hereby authorized to transfer surplus motor vehicles among the state agencies, and determine the value of such surplus equipment for the purpose of maintaining the financial accounts of the state agencies affected by such transfers.

The Joint Subcommittee on Rules is authorized to provide the approval of such expenditures for legislative agencies. For judicial agencies and independent agencies, other than the Virginia Lottery Department, prior approval action rests with the supervisory bodies of these entities. With respect to television programs which are so approved and other programs which are otherwise authorized or are not produced for television transmission, state agencies may enter into contracts without competitive sealed bidding, or competitive negotiation, for program production and transmission services which are performed by public telecommunications entities, as defined in § 2.2-2006, Code of Virginia.

2. The first 15,000 miles of use during each fiscal year of personal automobiles in the discharge of official duties within the continental limits of the United States shall be reimbursed at an amount equal to the most recent business standard mileage rate as established by the Internal Revenue Service for employees or self-employed individuals to use in computing their income tax deductible costs for operating passenger vehicles owned or leased by them for business purposes, or in the instance of a state employee, at the lesser of (a) the IRS rate or (b) the lowest combined capital and operational trip pool rate charged by the Department of General Services, Office of Fleet Management Services (OFMS), posted on the OFMS website at time of travel, for the use of a compact state-owned vehicle. If the head of the state agency concerned certifies that a state-owned vehicle was not available, or if, according to regulations issued by the State Comptroller, the use of a personal automobile in lieu of a state-owned automobile is considered to be an advantage to the state, the reimbursement shall be at the rate of the IRS rate. For such use in excess of 15,000 miles in each fiscal year, the reimbursement shall be at a rate of 13.0 cents per mile, unless a state-owned vehicle is not available; then the rate shall be the IRS rate;

6. This section shall not apply to members and employees of public school boards.

f. SMALL PURCHASE CHARGE CARD, ELECTRONIC DATA INTERCHANGE, DIRECT DEPOSIT, AND PAYLINE OPT OUT: The State Comptroller is hereby authorized to charge state agencies a fee of \$5 per check or earnings notice when, in his judgment, agencies have failed to comply with the Commonwealth's electronic commerce initiatives to reduce unnecessary administrative costs for the printing and mailing of state checks and earning notices. The fee shall be collected by the Department of Accounts through accounting entries.

g. PURCHASES OF APPLIANCES AND EQUIPMENT: State agencies and institutions shall purchase Energy Star rated appliances and equipment in all cases where such appliances and equipment are available.

h. ELECTRONIC PAYMENTS: Any recipient of payments from the State Treasury who receives six or more payments per year issued by the State Treasurer shall receive such payments electronically. 1. The Chief Information Officer and the State Comptroller shall develop statewide requirements for the use of cellular telephones and other telecommunication devices by in-scope Executive Department agencies, addressing the assignment, evaluation of need, safeguarding, monitoring, and usage of these telecommunication devices. The requirements shall include an acceptable use agreement template clearly defining an employee's responsibility when they receive and use a telecommunication device. Statewide requirements shall require some form of identification on a device in case it is lost or

stolen and procedures to wipe the device clean of all sensitive information when it is no longer in use.

2. In-scope Executive Department agencies providing employees with telecommunication devices shall develop agency-specific policies, incorporating the guidance provided in § 4-5.04 k. 1. of this act and shall maintain a cost justification for the assignment or a public health, welfare and safety need.

3. The Chief Information Officer shall determine the optimal number of telecommunication vendors and plans necessary to meet the needs of in-scope Executive Department agency personnel. The Chief Information Officer shall regularly procure these services and provide statewide contracts for use by all such agencies. These contracts shall require the vendors to provide detailed usage information in a useable electronic format to enable the in-scope agencies to properly monitor usage to make informed purchasing decisions and minimize costs.

4. The Chief Information Officer shall examine the feasibility of providing tools for in-scope Executive Department agencies to analyze usage and cost data to assist in determining the most cost effective plan combinations for the entity as a whole and individual users.

k. **ALTERNATIVE PROCUREMENT:** If any payment is declared unconstitutional for any reason or if the Attorney General finds in a formal, written, legal opinion that a payment is unconstitutional, in circumstances where a good or service can constitutionally be the subject of a purchase, the administering agency of such payment is authorized to use the affected appropriation to procure, by means of the Commonwealth's Procurement Act, goods and services, which are similar to those sought by such payment in order to accomplish the original legislative intent.

l. **MEDICAL SERVICES:** No expenditures from general or nongeneral fund sources may be made out of any appropriation by the General Assembly for providing abortion services, except otherwise as required by federal law ~~or state statute~~.

m. **BODY-WORN CAMERAS:** *No expenditures from general or nongeneral fund sources may be made by any state agency or authority for the purchase or implementation of body-worn cameras or body-worn camera systems.*

3. No allotment of appropriations shall be made to a nonstate agency until such agency has certified to the Secretary of Finance that cash or in-kind contributions are on hand and available to match equally all or any part of an appropriation which may be provided by the General Assembly, unless the organization is specifically exempted from this requirement by language in this act. Such matching funds shall not have been previously used to meet the match requirement in any prior appropriation act.

4. Operating appropriations for nonstate agencies equal to or in excess of \$150,000 shall be disbursed to nonstate agencies in twelve or fewer equal monthly installments depending on when the first payment is made within the fiscal year. Operating appropriations for nonstate agencies of less than \$150,000 shall be disbursed in one payment once the nonstate agency has successfully met applicable match and application requirements.

Each interstate compact commission and each organization in which the Commonwealth of Virginia or a state agency thereof holds membership, and the dues for which are provided in this act or any other appropriating act, shall submit its biennial budget request to the state agency under which such commission or organization is listed in this act. The state agency shall include the request of such commission or organization within its own request, but identified separately. Requests by the commission or organization for disbursements from appropriations shall be submitted to the designated state agency.

2. Each state agency shall submit by November 1 each year, a report to the Director, Department of Planning and Budget, listing the name and purpose for organizational memberships held by that agency with annual dues of \$5,000 or more. The institutions of higher education shall be exempt from this reporting requirement.

c. Institutions wishing to participate in a nongeneral fund capital outlay decentralization program for the first time shall submit a letter of interest to the appropriate Cabinet Secretary. Within 90 calendar days of the receipt of the institution's request to participate, the responsible Cabinet Secretary shall determine whether the institution meets the eligibility criteria and, if appropriate, establish a decentralization program at the institution. The Cabinet Secretary shall report to the Governor and Chairmen of the Senate Finance and House Appropriations Committees by December 1 of each year all institutions that have applied for inclusion in a decentralization program and whether the institutions have been granted authority to participate in the decentralization program.

e. 1. Salaries for newly employed or promoted employees shall be established consistent with the compensation and classification plans established by the Governor.

2. The State Comptroller is hereby authorized to require payment of wages or salaries to state employees by direct deposit or by credit to a prepaid debit card or card account from which the employee is able to withdraw or transfer funds.

f. The provisions of this section, requiring prior written approval of the Governor relative to compensation, shall apply also to any system of incentive award payments which may be adopted and implemented by the Governor. The cost of implementing any such system shall be paid from any funds appropriated to the affected agencies.

g. No lump sum appropriation for personal service shall be regarded as advisory or suggestive of individual salary rates or of salary schedules to be fixed under law by the Governor payable from the lump sum appropriation.

h. Subject to approval by the Governor of a plan for a statewide employee meritorious service awards program, as provided for in § 2.2-1201, Code of Virginia, the costs for such awards shall be paid from any operating funds appropriated to the affected agencies.

i. The General Assembly hereby affirms and ratifies the Governor's existing authority and the established practice of this body to provide for pay differentials or to supplement base rates of pay for employees in specific job classifications in particular geographic and/or functional areas where, in the Governor's discretion, they are needed for the purpose of maintaining salaries which enable the Commonwealth to maintain a competitive position in the relevant labor market.

j.1. If at any time the Administrator of the Commonwealth's Attorneys' Services Council serves on the faculty of a state-supported institution of higher education, the faculty appointment must be approved by the Council. Such institution shall pay one-half of the salary listed in § 4-6.01 c 6 of this act. Further, such institution may provide compensation in addition to that listed in § 4-6.01 c 6; provided, however, that such additional compensation must be approved by the Council.

2. If the Administrator ceases to be a member of the faculty of a state-supported institution of higher education, the total salary listed in § 4-6.01 c 6 shall be paid from the Council's appropriation.

k.1.a. Except as otherwise provided for in this subdivision, any increases in the salary band assignment of any job role contained in the compensation and classification plans approved by the Governor shall be effective beginning with the first pay period, defined as the pay period from June 25 through July 9, of the fiscal year if: (1) the agency certifies to the Secretary of Finance that funds are available within the agency's appropriation to cover the cost of the increase for the remainder of the current biennium and presents a plan for covering the costs next biennium and the Secretary concurs, or (2) such funds are appropriated by the General Assembly. If at any time the Secretary of Administration shall certify that such change in the salary band assignment for a job role is of an emergency nature and the Secretary of Finance shall certify that funds are available to cover the cost of the increase for the remainder of the biennium within the agency's appropriation, such change in compensation may be effective on a date agreed upon by these two Secretaries. The Secretary of Administration shall provide a monthly report of all such emergency changes in accordance with § 4-8.00, Reporting Requirements.

b. Notwithstanding any other provision of law, state employees will be paid on the first workday of July for the work period June 10 to June 24 in any calendar year in which July 1 falls on a weekend.

2. Salary adjustments for any employee through a promotion, role change, exceptional recruitment and retention incentive options, or in-range adjustment shall occur only if: a) the agency has sufficient funds within its appropriation to cover the cost of the salary adjustment for the remainder of the current biennium or b) such funds are appropriated by the General Assembly.

3. No changes in salary band assignments affecting classified employees of more than one agency shall become effective unless the Secretary of Finance certifies that sufficient funds are available to provide such increase or plan to all affected employees supported from the general fund.

1. Full-time employees of the Commonwealth, including faculty members of state institutions of higher education, who are appointed to a state-level board, council, commission or similar collegial body shall not receive any such compensation for their services as members or chairmen except for reimbursement of reasonable and necessary expenses. The foregoing provision shall likewise apply to the Compensation Board, pursuant to § 15.2-1636.5, Code of Virginia.

m.1. Notwithstanding any other provision of law, the board of visitors or other governing body of any public institution of higher education is authorized to establish age and service eligibility criteria for faculty participating in voluntary early retirement incentive plans for their respective institutions pursuant to § 23.1-1302 B and the cash payment offered under such compensation plans pursuant to § 23.1-1302 D, Code of Virginia. Notwithstanding the limitations in § 23.1-1302 D, the total cost in any fiscal year for any such compensation plan, shall be set forth by the governing body in the compensation plan for approval by the Governor and review for legal sufficiency by the Office of the Attorney General.

2. Notwithstanding any other provision of law, employees holding full-time, academic-year classified positions at public institutions of higher education shall be considered "state employees" as defined in § 51.1-124.3, Code of Virginia, and shall be considered for medical/hospitalization, retirement service credit, and other benefits on the same basis as those individuals appointed to full-time, 12-month classified positions.

n. Notwithstanding the Department of Human Resource Management Policies and Procedures, payment to employees with five or

more years of continuous service who either terminate or retire from service shall be paid in one sum for twenty-five percent of their sick leave balance, provided, however, that the total amount paid for sick leave shall not exceed \$5,000 and the remaining seventy-five percent of their sick leave shall lapse. This provision shall not apply to employees who are covered by the Virginia Sickness and Disability Program as defined in § 51.1-1100, Code of Virginia. Such employees shall not be paid for their sick leave balances. However, they will be paid, if eligible as described above, for any disability leave credits they have at separation or retirement or may convert disability credits to service credit under the Virginia Retirement System pursuant to § 51.1-1103 (F), Code of Virginia.

o. It is the intent of the General Assembly that calculation of the faculty salary benchmark goal for the Virginia Community College System shall be done in a manner consistent with that used for four-year institutions, taking into consideration the number of faculty at each of the community colleges. In addition, calculation of the salary target shall reflect an eight percent salary differential in a manner consistent with other public four-year institutions and for faculty at Northern Virginia Community College.

p. Any public institution of higher education that has met the eligibility criteria set out in Chapters 933 and 945 of the 2005 Acts of Assembly may supplement annual salaries for classified employees from private gifts, endowment funds, or income from endowments and gifts, subject to policies approved by the board of visitors. The Commonwealth shall have no general fund obligations for the continuation of such salary supplements.

q. The Governor, or any other appropriate Board or Public Body, is authorized to adjust the salaries of employees specified in this item, and other items in the Act, to reflect the compensation adjustments authorized in this Act.

r. Any public institution of higher education shall not provide general fund monies above \$100,000 for any individual athletic coaching salaries after July 1, 2013. Athletic coaching salaries with general fund monies above this amount shall be phased-down over a five-year period at 20 percent per year until reaching the cap of \$100,000.

§ 4-6.02 EMPLOYEE TRAINING AND STUDY

Subject to uniform rules and regulations established by the Governor, the head of any state agency may authorize, from any funds appropriated to such department, institution or other agency in this act or subsequently made available for the purpose, compensation or expenses or both compensation and expenses for employees pursuing approved training courses or academic studies for the purpose of becoming better equipped for their employment in the state service. The rules and regulations shall include reasonable provision for the return of any employee receiving such benefits for a reasonable period of duty, or for reimbursement to the state for expenditures incurred on behalf of the employee should he not return to state service.

§ 4-6.03 EMPLOYEE BENEFITS

a. Any medical/hospitalization benefit program provided for state employees shall include the following provision: any state employee, as defined in § 2.2-2818, Code of Virginia, shall have the option to accept or reject coverage.

b. Except as provided for sworn personnel of the Department of State Police, no payment of, or reimbursement for, the employer paid contribution to the State Police Officers' Retirement System, or any system offering like benefits, shall be made by the Compensation Board of the Commonwealth at a rate greater than the employer rate established for the general classified workforce of the Commonwealth covered under the Virginia Retirement System. Any cost for benefits exceeding such general rate shall be borne by the employee or, in the case of a political subdivision, by the employer.

c. Each agency may, within the funds appropriated by this act, implement a transit and ridesharing incentive program for its employees. With such programs, agencies may reimburse employees for all or a portion of the costs incurred from using public transit, car pools, or van pools. The Secretary of Transportation shall develop guidelines for the implementation of such programs and any agency program must be developed in accordance with such guidelines. The guidelines shall be in accordance with the federal National Energy Policy Act of 1992 (P.L. 102-486), and no program shall provide an incentive that exceeds the actual costs incurred by the employee.

d. Any hospital that serves as the primary medical facility for state employees may be allowed to participate in the State Employee Health Insurance Program pursuant to § 2.2-2818, Code of Virginia, provided that (1) such hospital is not a participating provider in the network, contracted by the Department of Human Resource Management, that serves state employees and (2) such hospital enters into a written agreement with the Department of Human Resource Management as to the rates of reimbursement. The department shall accept the lowest rates offered by the hospital from among the rates charged by the hospital to (1) its largest purchaser of care, (2) any state or federal public program, or (3) any special rate developed by the hospital for the state employee health benefits program which is lower than either of the rates above. If the department and the hospital cannot come to an agreement, the department shall reimburse the hospital at the rates contained in its final offer to the hospital until the dispute is resolved. Any dispute shall be resolved through arbitration or through the procedures established by the Administrative Process Act, as the hospital may decide, without impairment of any residual right to judicial review.

e. Any classified employee of the Commonwealth and any person similarly employed in the legislative, judicial and independent agencies who (i) is compensated on a salaried basis and (ii) works at least twenty hours per week shall be

considered a full-time employee for the purposes of participation in the Virginia Retirement System's group life insurance and retirement programs. Any part-time magistrate hired prior to July 1, 1999, shall have the option of participating in the programs under this provision.

f.1. Any member of the Virginia Retirement System who is retired under the provisions of § 51.1-155.1, Code of Virginia who: 1) returns to work in a position that is covered by the provisions of § 51.1-155.1, Code of Virginia after a break of not less than four years, 2) receives no other compensation for service to a public employer than that provided for the position covered by § 51.1-155.1, Code of Virginia during such period of reemployment, 3) retires within one year of commencing such period of reemployment, and 4) retires directly from service at the end of such period of reemployment may either:

a) Revert to the previous retirement benefit received under the provisions of § 51.1-155.1, Code of Virginia, including any annual cost of living adjustments granted thereon. This benefit may be adjusted upward to reflect the effect of such additional months of service and compensation received during the period of reemployment, or

b) Retire under the provisions of Title 51.1 in effect at the termination of his or her period of reemployment, including any purchase of service that may be eligible for purchase under the provisions of § 51.1-142.2, Code of Virginia.

2. The Virginia Retirement System shall establish procedures for verification by the employer of eligibility for the benefits provided for in this paragraph.

g. Notwithstanding any other provision of law, no agency head compensated by funds appropriated in this act may be a member of the Virginia Law Officers' Retirement System created under Title 51.1, Chapter 2.1, Code of Virginia. The provisions of this paragraph are effective on July 1, 2002, and shall not apply to the Chief of the Capitol Police.

h. Full-time employees appointed by the Governor who, except for meeting the minimum service requirements, would be eligible for the provisions of § 51.1-155.1, Code of Virginia, may, upon termination of service, use any severance allowance payment to purchase service to meet, but not exceed, the minimum service requirements of § 51.1-155.1, Code of Virginia. Such service purchase shall be at the rate of 15 percent of the employee's final creditable compensation or average final compensation, whichever is greater, and shall be completed within 90 days of separation of service.

i. When calculating the retirement benefits payable under the Virginia Retirement System (VRS), the State Police Officers' Retirement System (SPORS), the Virginia Law-enforcement Officers' Retirement System (VaLORS), or the Judicial Retirement System (JRS) to any employee of the Commonwealth or its political subdivisions who is called to active duty with the armed forces of the United States, including the United States Coast Guard, the Virginia Retirement System shall:

1) utilize the pre-deployment salary, or the actual salary paid by the Commonwealth or the political subdivision, whichever is higher, when calculating average compensation, and

2) include those months after September 1, 2001 during which the employee was serving on active duty with the armed forces of the United States in the calculation of creditable service.

j. The provisions in § 51.1-144, Code of Virginia, that require a member to contribute five percent of his creditable compensation for each pay period for which he receives compensation on a salary reduction basis, shall not apply to any (i) "state employee," as defined in § 51.1-124.3, Code of Virginia, who is an elected official, or (ii) member of the Judicial Retirement System under Chapter 3 of Title 51.1 (§ 51.1-300 et seq.), who is not a "person who becomes a member on or after July 1, 2010," as defined in § 51.1-124.3, Code of Virginia.

k. Notwithstanding the provisions of subsection G of § 51.1-156, any employee of a school division who completed a period of 24 months of leave of absence without pay during October 2013 and who had previously submitted an application for disability retirement to VRS in 2011 may submit an application for disability retirement under the provisions of § 51.1-156. Such application shall be received by the Virginia Retirement System no later than October 1, 2014. This provision shall not be construed to grant relief in any case for which a court of competent jurisdiction has already rendered a decision, as contemplated by Article II, Section 14 of the Constitution of Virginia.

§ 4-6.04 CHARGES

a. **FOOD SERVICES:** Except as exempted by the prior written approval of the Director, Department of Human Resource Management, and the provisions of § 2.2-3605, Code of Virginia, state employees shall be charged for meals served in state facilities. Charges for meals will be determined by the agency. Such charges shall be not less than the value of raw food and the cost of direct labor and utilities incidental to preparation and service. Each agency shall maintain records as to the calculation of meal charges and revenues collected. Except where appropriations for operation of the food service are from nongeneral funds, all revenues received from such charges shall be paid directly and promptly into the general fund. The provisions of this paragraph shall not apply to on-duty employees assigned to correctional facilities operated by the Departments of Corrections and Juvenile Justice.

b. **HOUSING SERVICES:**

1. Each agency will collect a fee from state employees who occupy state-owned or leased housing, subject to guidelines provided by

the Director, Department of General Services. Each agency head is responsible for establishing a fee for state-owned or leased housing and for documenting in writing why the rate established was selected. In exceptional circumstances, which shall be documented as being in the best interest of the Commonwealth by the agency requesting an exception, the Director, Department of General Services may waive the requirement for collection of fees.

2. All revenues received from housing fees shall be promptly deposited in the state treasury. For housing for which operating expenses or rent are financed by general fund appropriations, such revenues shall be deposited to the credit of the general fund. For housing for which operating expenses or rent are financed by nongeneral fund appropriations, such revenues shall be deposited to the credit of the nongeneral fund. Agencies which provide housing for which operating expenses or rent are financed from both general fund and nongeneral fund appropriations shall allocate such revenues, when deposited in the state treasury, to the appropriate fund sources in the same proportion as the appropriations. However, without exception, any portion of a housing fee attributable to depreciation for housing which was constructed with general fund appropriations shall be paid into the general fund.

c. PARKING SERVICES:

1. State-owned parking facilities

Agencies with parking space for employees in state-owned facilities shall, when required by the Director, Department of General Services, charge employees for such space on a basis approved by the Governor. All revenues received from such charges shall be paid directly and promptly into a special fund in the state treasury to be used, as determined by the Governor, for payment of costs for the provision of vehicle parking spaces. Interest shall be added to the fund as earned. -

2. Leased parking facilities in metropolitan Richmond area

Agencies occupying private sector leased or rental space in the metropolitan Richmond area, not including institutions of higher education, shall be required to charge a fee to employees for vehicle parking spaces that are assigned to them or are otherwise available either incidental to the lease or rental agreement or pursuant to a separate lease agreement for private parking space. In such cases, the individual employee parking fee shall not be less than that paid by employees parking in Department of General Services parking facilities at the Seat of Government. The Director, Department of General Services may amend or waive the fee requirement for good cause. Revenues derived from employees paying for parking spaces in leased facilities will be retained by the leasing agency to be used to offset the cost of the lease to which it pertains. Any lease for private parking space must be approved by the Director, Department of General Services.

3. The assignment of Lot P1A of the Department of General Services, Capitol Area Site Plan, to include parking spaces 1 through 37, but excluding spaces 34 and 36, which shall be reserved for the Department of General Services, and the surrounding surfaces around those spaces shall be under the control of the Committee on Joint Rules and administered by the Clerk of the House and the Clerk of the Senate. Any employee permanently assigned to any of these spaces shall be subject to the provisions of paragraph 1 of this item.

4. The assignment of 300 parking spaces in the Department of General Services parking facility to be built at the corner of 9th and Broad Streets in the City of Richmond, shall be under the control of the Committee on Joint Rules and administered by the Clerk of the House and the Clerk of the Senate. Such parking spaces shall be subject to the provisions of paragraph 1 of this item.

§ 4-6.05 SELECTION OF APPLICANTS FOR CLASSIFIED POSITIONS

It is the responsibility of state agency heads to ensure that all provisions outlined in Title 2.2, Chapter 29, Code of Virginia (the Virginia Personnel Act), and executive orders that govern the practice of selecting applicants for classified positions are strictly observed. The Governor's Secretaries shall ensure this provision is faithfully enforced.

§ 4-6.06 POSITIONS GOVERNED BY CHAPTERS 933 AND 943 OF THE 2006 ACTS OF ASSEMBLY

§ 4-7.00 STATEWIDE PLANS

a.1. The term Position Level is defined as the number of full-time equivalent (FTE) salaried employees assigned to an agency in this act. Except as provided in § 4-7.01 b, the Position Level number stipulated in an agency's appropriation is the upper limit for agency employment which cannot be exceeded during the fiscal year without approval from the Director, Department of Planning and Budget for Executive Department agencies, approval from the Joint Committee on Rules for Legislative

Department agencies or approval from the appropriate governing authority for the independent agencies.

2. Any approval granted under this subsection shall be reported in writing to the Chairmen of the House Appropriations Committee and the Senate Finance Committee, the Governor and the Directors of the Department of Planning and Budget and Department of Human Resource Management within ten days of such approval. Approvals for executive department agencies shall be based on threats to life, safety, health, or property, or compliance with judicial orders or federal mandates, to support federal grants or private donations, to administer a program for another agency or to address an immediate increase in workload or responsibility or when to delay approval of increased positions would result in a curtailment of services prior to the next legislative session. Any such position level increases pursuant to this provision may not be approved for more than one year.

b. The Position Levels stipulated for the individual agencies within the Department of Behavioral Health and Developmental Services and the Department of Corrections are for reference only and are subject to changes by the applicable Department, provided that such changes do not result in exceeding the Position Level for that department.

c.1. The Governor shall implement such policies and procedures as are necessary to ensure that the number of employees in the Executive Department, excluding institutions of higher education and the State Council of Higher Education, may be further restricted to the number required for efficient operation of those programs approved by the General Assembly. Such policies and procedures shall include periodic review and analysis of the staffing requirements of all Executive Department agencies by the Department of Planning and Budget with the object of eliminating through attrition positions not necessary for the efficient operation of programs.

2. The institutions of higher education and the State Council of Higher Education are hereby authorized to fill all positions authorized in this act. This provision shall be waived only upon the Governor's official declaration that a fiscal emergency exists requiring a change in the official estimate of general fund revenues available for appropriation.

d.1. Position Levels are for reference only and are not binding on agencies in the legislative department, independent agencies, the Executive Offices other than the offices of the Governor's Secretaries, and the judicial department.

2. Positions assigned to programs supported by internal service funds are for reference only and may fluctuate depending upon workload and funding availability.

3. Positions assigned to sponsored programs, auxiliary enterprises, continuing education, and teaching hospitals in the institutions of higher education are for reference only and may fluctuate depending upon workload and funding availability. Positions assigned to Item Detail 43012, State Health Services Technical Support and Administration, at Virginia Commonwealth University are for reference only and may fluctuate depending upon workload and funding availability.

4. Positions assigned to educational and general programs in the institutions of higher education are for reference only and may fluctuate depending upon workload and funding availability. However, total general fund positions filled by an institution of higher education may not exceed 105 percent of the general fund positions appropriated without prior approval from the Director, Department of Planning and Budget.

5. Positions assigned to Item Details 47001, Job Placement Services; 47002, Unemployment Insurance Services; 47003, Workforce Development Services; and 53402, Economic Information Services, at the Virginia Employment Commission are for reference only and may fluctuate depending upon workload and funding availability. Unless otherwise required by the funding source, after enactment of this act, any new positions hired using this provision shall not be subject to transitional severance benefit provisions of the Workforce Transition Act of 1995, Title 2.2, Chapter 32, Code of Virginia.

e. Prior to implementing any Executive Department hiring freeze, the Governor shall consider the needs of the Commonwealth in regards to the safe and efficient operation of state facilities and performance of essential services to include the exemption of certain positions assigned to agencies and institutions that provide services pertaining to public safety and public health from such hiring freezes.

f.1. Full-time, part-time, wage or contractual state employees assigned to the Governor's Cabinet Secretaries from agencies and institutions under their control for the purpose of carrying out temporary assignments or projects may not be so assigned for a period exceeding 180 days in any calendar year. The permanent transfer of positions from an agency or institution to the Offices of the Secretaries, or the temporary assignment of agency or institutional employees to the Offices of the Secretaries for periods exceeding 180 days in any calendar year regardless of the separate or discrete nature of the projects, is prohibited without the prior approval of the General Assembly.

2. Not more than three positions in total, as described in subsection 1 hereof, may be assigned at any time to the Office of any Cabinet Secretary, unless specifically approved in writing by the Governor. The Governor shall notify the Chairmen of the House Appropriations and Senate Finance Committees in the case of any such approvals.

g. All state employees, including those in the legislative, judicial, and executive branches and the independent agencies of the Commonwealth, who are not eligible for benefits under a health care plan established and administered by the Department of Human Resource Management (DHRM) pursuant to Va. Code § 2.2-2818, or by an agency administering its own health care plan, may not work more than 29 hours per week on average over a twelve month period. Adjunct faculty at institutions of higher education may

not work more than 29 hours per week on average over a twelve month period, including classroom or other instructional time plus additional hours determined by the institution as necessary to perform the adjunct faculty's duties. DHRM shall provide relevant program requirements to agencies and employees, including, but not limited to, information on wage, variable and seasonal employees. All state agencies/employers in all branches of government shall provide information requested by DHRM concerning hours worked by employees as needed to comply with the Affordable Care Act (the "Act") and this provision. State agencies/employers are accountable for compliance with this provision, and are responsible for any costs associated with maintaining compliance with it and for any costs or penalties associated with any violations of the Act or regulations thereunder and any such costs shall be borne by the agency from existing appropriations. The provisions of this paragraph shall not apply to employees of state teaching hospitals that have their own health insurance plan; however, the state teaching hospitals are accountable for compliance with, and are responsible for any costs associated with maintaining compliance with the Act and for any costs or penalties associated with any violations of the Act or regulations thereunder and any such costs shall be borne by the agency from existing appropriations. Subject to approval of the Governor, DHRM shall modify this provision consistent with any updates or changes to federal law and regulations.

§ 4-8.03 LOCAL GOVERNMENTS

a.1. The Auditor of Public Accounts shall establish a workgroup to develop criteria for a preliminary determination that a local government may be in fiscal distress. Such criteria shall be based upon information regularly collected by the Commonwealth or otherwise regularly made public by the local government. This information includes expenditure reports submitted to the Auditor, budget information posted on local government websites, and reports prepared by the Commission on Local Government on revenue fiscal stress. Information provided by the Virginia Retirement System, the Virginia Resources Authority, the Virginia Public Building Authority, and other state and regional authorities concerning late or missed debt service payments shall be shared with the Auditor. Fiscal distress as used in this context shall mean a situation whereby the provision and sustainability of public services is threatened by various administrative and financial shortcomings including but

not limited to cash flow issues; inability to pay expenses; revenue shortfalls; deficit spending; structurally imbalanced budgets; billing and revenue collection inadequacies and discrepancies; debt overload; failure to meet obligations to authorities, school divisions, or political subdivisions of the Commonwealth; and/or lack of trained and qualified staff to process administrative and financial transactions. Fiscal distress may be caused by factors internal to the unit of government or external to the unit of government and in various degrees such conditions may or may not be controllable by management, or the local governing body, or its constitutional officers.

2. Based upon the criteria established by the workgroup and using information identified above, the Auditor of Public Accounts shall establish a prioritized early warning system. Under the prioritized early warning system, the Auditor of Public Accounts shall establish a regular process whereby it reviews data on at least an annual basis to make a preliminary determination that a local government is in fiscal distress.

3. For local governments where the Auditor of Public Accounts has made a preliminary determination of fiscal distress based upon the early warning system criteria, the Auditor of Public Accounts shall notify the local governing body of its preliminary determination that it may meet the criteria for fiscal distress. Based upon the request of the local governing body or chief executive officer, the Auditor of Public Accounts may conduct a review and request documents and data from the local government. Such review shall consider factors including, but not limited to, budget processes, debt, borrowing, expenses and payables, revenues and receivables, and other areas including staffing, and the identification of external variables contributing to a locality's financial position, and if so, the scope of the issues involved. Any local governing body that receives requests for information from the Auditor of Public Accounts pursuant to such preliminary determination based on the above described threshold levels shall acknowledge receipt of such a request and shall ensure that a response is provided within the time frames specified by the Auditor of Public Accounts. After such review, if the Auditor of Public Accounts is of the opinion that state assistance, oversight, or targeted intervention is needed, either to further assess, help stabilize, or remediate the situation, the Auditor shall notify the Governor and the Chairmen of the House Appropriations and Senate Finance Committees, and the governing body of the local government in writing outlining specific issues or actions that need to be addressed by state intervention.

4. The notification issued by the Auditor of Public Accounts pursuant to paragraph 3 above shall satisfy the notification requirement necessary to effectuate the provisions of this act in paragraph b.3 below.

b.1. The Director of the Department of Planning and Budget shall identify any amounts remaining unexpended from general fund appropriations in this Act as of June 30 of each year, which constitute state aid to local governments. The Director shall provide a listing of such amounts designated by item number and by program on or before August 15 of each year, to the Governor and the Chairmen of the House Appropriations Committee and the Senate Finance Committee.

2. From such unexpended balances identified by the Director of the Department of Planning and Budget, the Governor may reappropriate up to \$750,000 from amounts which would otherwise revert to the balance of the general fund and transfer such amounts as necessary to establish a component of fund balance which may be used for the purpose of providing technical assistance and intervention actions for local governments deemed to be fiscally distressed and in need of intervention to address such distress. Any such reappropriation approved by the Governor, shall be separately identified in the commitments specified on the balance sheet and financial statements of the State Comptroller for the close of each fiscal year, to the extent that such reserve is not used or added to by future appropriation actions.

3. Prior to any expenditure of the reappropriated reserve, the Governor and the Chairmen of the House Appropriations Committee and the Senate Finance Committee must receive a notification from the Auditor of Public Accounts that a specific locality is in need of intervention because of a worsening financial situation. The Auditor of Public Accounts may issue such a notification upon receipt of audited financial statement or other information that indicates the existence of fiscal distress. But, no such notification shall be made until appropriate follow up and correspondence ascertains that, in the opinion of the Auditor of Public Accounts, such fiscal distress indeed exists. Such notification may also be issued by the Auditor of Public Accounts if written concerns raised about fiscal distress are not adequately addressed by the locality in question.

4. Once the Governor has received a notification from the Auditor of Public Accounts indicating fiscal distress in a specific local government, the Governor shall consult with the Chairmen of the House Appropriations Committee and the Senate Finance Committee about a plan for state intervention prior to any expenditure of funds from the cash reserve. Any plan approved by the Governor for intervention should, at a minimum, specify the purpose of such intervention, the estimated duration of the intervention, and the anticipated resources (dollars and personnel) directed toward such effort. The staffing necessary to carry out the intervention plan may be assembled from either public agencies or private entities or both and, notwithstanding any other provisions of law, the Governor may use an expedited method of procurement to secure such staffing when, in his judgment, the need for intervention is of an emergency nature such that action must be taken in a timely manner to avoid or address unacceptable financial risks to the Commonwealth.

5. The governing body and the elected constitutional officers of a locality subject to an intervention plan approved by the Governor shall assist all state appointed staff conducting the intervention regardless of whether such staff are from public agencies or private entities. Intervention staff shall provide periodic reports in writing to the Governor and the Chairmen of the House Appropriations Committee and the Senate Finance Committee outlining the scope of issues discovered and any recommendations made to remediate such issues, and the progress that is made on such recommendations or other remediation efforts. These periodic reports shall

specifically address the degree of cooperation the intervention team is receiving from locally elected officials, including constitutional officers, city, county, or town managers and other local personnel in regards to their intervention work.

6. The Department of General Services is hereby encouraged to develop a master contract of qualified private sector turnaround specialists with expertise in local government intervention that the Governor can use to procure intervention services in an expeditious manner when he determines that state intervention is warranted in situations of local fiscal distress.

§ 4-9.00 HIGHER EDUCATION RESTRUCTURING

§ 4-9.01 ASSESSMENT OF INSTITUTIONAL PERFORMANCE

Consistent with § 23.1-206, Code of Virginia, the following education-related and financial and administrative management measures shall be the basis on which the State Council of Higher Education shall annually assess and certify institutional performance. Such certification shall be completed and forwarded in writing to the Governor and the General Assembly no later than October 1 of each even-numbered year. Institutional performance on measures set forth in paragraph D of this section shall be evaluated year-to-date by the Secretaries of Finance, Administration, and Technology as appropriate, and communicated to the State Council of Higher Education before October 1 of each even-numbered year. Financial benefits provided to each institution in accordance with § 23.1-1002 will be evaluated in light of that institution's performance.

In general, institutions are expected to achieve all performance measures in order to be certified by SCHEV, but it is understood that there can be circumstances beyond an institution's control that may prevent achieving one or more performance measures. The Council shall consider, in consultation with each institution, such factors in its review: (1) institutions meeting all performance measures will be certified by the Council and recommended to receive the financial benefits, (2) institutions that do not meet all performance measures will be evaluated by the Council and the Council may take one or more of the following actions: (a) request the institution provide a remediation plan and recommend that the Governor withhold release of financial benefits until Council review of the remediation plan or (b) recommend that the Governor withhold all or part of financial benefits.

Further, the State Council shall have broad authority to certify institutions as having met the standards on education-related measures. The State Council shall likewise have the authority to exempt institutions from certification on education-related measures that the State Council deems unrelated to an institution's mission or unnecessary given the institution's level of performance.

The State Council may develop, adopt, and publish standards for granting exemptions and ongoing modifications to the certification process.

However, such study shall be conducted in such a manner as to not permit the personal identification of students by persons other than representatives of the Department of Education or the State Council for Higher Education for Virginia, and such shared information shall be destroyed when no longer needed for purposes of the study.

b) Notwithstanding § 2.2-3800 of the Code of Virginia, the Virginia Department of Education, State Council of Higher Education for Virginia, Virginia Community College System, and the Virginia Employment Commission may collect, use, share, and maintain de-identified student data to improve student and program performance including those for career readiness.

4. Procurement

- a) The institution will substantially comply with its annual approved Small, Women and Minority (SWAM) procurement plan as submitted to the Department of Small Business and Supplier Diversity; however, a variance of 15 percent from its SWAM purchase goal, as stated in the plan, will be acceptable; and
- b) The institution will make no less than 80 percent of purchase transactions through the Commonwealth's enterprise-wide internet procurement system (eVA) with no less than 75 percent of dollars to vendor locations in eVA.

5. Capital Outlay

If the institution exceeds the budget for any such project, the Secretaries of Administration and Finance shall review the circumstances causing the cost overrun and the manner in which the institution responded and determine whether the institution shall be considered in compliance with the measure despite the cost overrun;
- b) The institution shall complete capital projects with the dollar amount of owner requested change orders not more than 2 percent of the guaranteed maximum price (GMP) or construction price; and

If the institution exceeds the budget and/or time schedule for any such project, the Secretary of Technology shall review the circumstances causing the cost overrun and/or delay and the manner in which the institution responded and determine whether the institution appropriately adhered to Project Management Institute's best management practices and, therefore, shall be considered in compliance with the measure despite the cost overrun and/or

delay; and

b) The institution will maintain compliance with institutional security standards as evaluated in internal and external audits. The institution will have no significant audit deficiencies unresolved beyond one year.

g. EXEMPTION

The requirements of this section shall not be in effect if they conflict with § 23.1-206.D. of Chapters 828 and 869 of the Acts of Assembly of 2011.

§ 4-9.02 LEVEL II AUTHORITY

a. Notwithstanding the provisions of § 5 of Chapter 824 and 829 of the 2008 Acts of Assembly, institutions of higher education that have met the eligibility criteria for additional operational and administrative authority set forth in Chapters 824 and 829 of the 2008 Acts of Assembly shall be allowed to enter into separate negotiations for additional operational authority for a third and separate functional area listed in Chapter 824 and 829 of the 2008 Acts of Assembly, provided they have:

1. successfully completed at least three years of effectiveness and efficiencies operating under such additional authority granted by an original memorandum of understanding;
2. successfully renewed an additional memoranda of understanding for a five year term for each of the original two areas.

The institutions shall meet all criteria and follow policies for negotiating and establishing a memorandum of understanding with the Commonwealth of Virginia as provided in § 2.0 (Information Technology), § 3.0 (Procurement), and § 4.0 (Capital Outlay) of Chapter 824 and 829 of the 2008 Acts of Assembly.

b. As part of the memorandum of understanding, each institution shall be required to adopt at least one new education-related measure for the new area of operational authority. Each education-related measure and its respective target shall be developed in consultation with the Secretary of Finance, Secretary of Education, the appropriate Cabinet Secretary, and the State Council of Higher Education for Virginia. Each education-related measure and its respective target must be approved by the State Council of Higher Education for Virginia.

c. 1. As part of a five-year pilot program, George Mason University and James Madison University are authorized, for a period of five years, to exercise additional financial and administrative authority as set out in each of the three functional areas of information technology, procurement and capital projects as set forth and subject to all the conditions in §§ 2.0, 3.0 and 4.0 of the second enactment of Chapter 824 and 829 of the Acts of Assembly of 2008 except that (i) any effective dates contained in Chapter 824 and 829 of the Acts of Assembly of 2008 are superseded by the provisions of this item, and (ii) the institution is not required to have a signed memorandum of understanding with the Secretary of Administration regarding participation in the nongeneral fund decentralization program as provided in subsection C of § 2.2-1132 in order to be eligible for the additional capital project authority.

2. In addition, each institution shall exercise additional financial and administrative authority over financial operations as follows:

a). BOARD OF VISITORS ACCOUNTABILITY AND DELEGATION OF AUTHORITY.

The Board of Visitors of the University shall at all times be fully and ultimately accountable for the proper fulfillment of the duties and responsibilities set forth in, and for the appropriate implementation of, this Policy. Consistent with this full and ultimate accountability, however, the Board may, pursuant to its legally permissible procedures, specifically delegate either herein or by separate Board resolution the duties and responsibilities set forth in this Policy to a person or persons within the University, who, while continuing to be fully accountable for such duties and responsibilities, may further delegate the implementation of those duties and responsibilities pursuant to the University's usual delegation policies and procedures.

b) FINANCIAL MANAGEMENT AND REPORTING SYSTEM.

The President, acting through the Executive Vice President, Chief Operating Officer, or Chief Financial Officer, shall continue to be authorized by the Board to maintain existing and implement new policies governing the management of University financial resources. These policies shall continue to (i) ensure compliance with Generally Accepted Accounting Principles, (ii) ensure consistency with the current accounting principles employed by the Commonwealth, including the use of fund accounting principles, with regard to the establishment of the underlying accounting records of the University and the allocation and utilization of resources within the accounting system, including the relevant guidance provided by the State Council of Higher Education for Virginia chart of accounts with regard to the allocation and proper use of funds from specific types of fund sources, (iii) provide adequate risk management and internal controls to protect and safeguard all financial resources, including moneys transferred to the University pursuant to a general fund appropriation, and ensure compliance with the requirements of the Appropriation Act.

The financial management system shall continue to include a financial reporting system to satisfy both the requirements for inclusion into the Commonwealth's Comprehensive Annual Financial Report, as specified in the related State Comptroller's Directives, and the University's separately audited financial statements. To ensure observance of limitations and restrictions placed on the use of the resources available to the University, the accounting and bookkeeping system of the University shall continue to be maintained in accordance with the principles prescribed for governmental organizations by the Governmental Accounting Standards Board.

In addition, the financial management system shall continue to provide financial reporting for the President, acting through the Executive Vice President, Chief Operating Officer, or Chief Financial Officer, and the Board of Visitors to enable them to provide adequate oversight of the financial operations of the University.

c) FINANCIAL MANAGEMENT POLICIES.

The President, acting through the Executive Vice President, Chief Operating Officer, or Chief Financial Officer, shall create and implement any and all financial management policies necessary to establish a financial management system with adequate risk management and internal control processes and procedures for the effective protection and management of all University financial resources. Such policies will not address the underlying accounting principles and policies employed by the Commonwealth and the University, but rather will focus on the internal operations of the University's financial management. These policies shall include, but need not be limited to, the development of a tailored set of finance and accounting practices that seek to support the University's specific business and administrative operating environment in order to improve the efficiency and effectiveness of its business and administrative functions. In general, the system of independent financial management policies shall be guided by the general principles contained in the Commonwealth's Accounting Policies and Procedures such as establishing strong risk management and internal accounting controls to ensure University financial resources are properly safeguarded and that appropriate stewardship of public funds is obtained through management's oversight of the effective and efficient use of such funds in the performance of University programs.

The University shall continue to follow the Commonwealth's accounting policies until such time as specific alternate policies can be developed, approved and implemented. Such alternate policies shall include applicable accountability measures and shall be submitted to the State Comptroller for review and comment before they are implemented by the University.

d) FINANCIAL RESOURCE RETENTION AND MANAGEMENT.

The Board of Visitors shall retain the authority to establish tuition, fee, room, board, and other charges, with appropriate commitment provided to need-based grant aid for middle- and lower-income undergraduate Virginians. Except as provided otherwise in the Appropriation Act, it is the intent of the Commonwealth and the University that the University shall be exempt from the revenue restrictions in the general provisions of the Appropriation Act related to non-general funds. In addition, unless prohibited by the Appropriation Act, it is the intent of the Commonwealth and the University that the University shall be entitled to retain non-general fund savings generated from changes in Commonwealth rates and charges, including but not limited to health, life, and disability insurance rates, retirement contribution rates, telecommunications charges, and utility rates, rather than reverting such savings back to the Commonwealth. This financial resource policy assists the University by providing the framework for retaining and managing non-general funds, for the receipt of general funds, and for the use and stewardship of all these funds.

The President, acting through the Executive Vice President, Chief Operating Officer, or Chief Financial Officer, shall continue to provide oversight of the University's cash management system which is the framework for the retention of non-general funds. The Internal Audit Department of the University shall periodically audit the University's cash management system in accordance with appropriate risk assessment models and make reports to the Audit and Compliance Committee of the Board of Visitors. Additional oversight shall continue to be provided through the annual audit and assessment of internal controls performed by the Auditor of Public Accounts. For the receipt of general and non-general funds, the University shall conform to the Security for Public Deposits Act, Chapter 44 (§ 2.2-4400 et seq.) of Title 2.2 of the Code of Virginia as it currently exists and from time to time may be amended.

e) ACCOUNTS RECEIVABLE MANAGEMENT AND COLLECTION.

The President, through the Executive Vice President, Chief Operating Officer, or Chief Financial Officer, shall continue to be authorized to create and implement any and all Accounts Receivable Management and Collection policies as part of a system for the management of University financial resources. The policies shall be guided by the requirements of the Virginia Debt Collection Act, Chapter 48 (§ 2.2-4800 et seq.) of the Code of Virginia, such that the University shall take all appropriate and cost effective actions to aggressively collect accounts receivable in a timely manner.

These shall include, but not be limited to, establishing the criteria for granting credit to University customers; establishing the nature and timing of collection procedures within the above general principles; and the independent authority to select and contract with collection agencies and, after consultation with the Office of the Attorney General, private attorneys as needed to perform any and all collection activities for all University accounts receivable such as reporting delinquent accounts to credit bureaus, obtaining judgments, garnishments, and liens against such debtors, and other actions. In accordance with sound

collection activities, the University shall continue to utilize the Commonwealth's Debt Set-Off Collection Programs, shall develop procedures acceptable to the Tax Commissioner and the State Comptroller to implement such Programs, and shall provide a quarterly summary report of receivables to the Department of Accounts in accordance with the reporting procedures established pursuant to the Virginia Debt Collection Act.

f) DISBURSEMENT MANAGEMENT.

The President, acting through the Executive Vice President, Chief Operating Officer, or Chief Financial Officer, shall continue to be authorized to create and implement any and all disbursement policies as part of a system for the management of University financial resources. The disbursement management policies shall continue to define the appropriate and reasonable uses of all funds, from whatever source derived, in the execution of the University's operations. These policies also shall continue to address the timing of appropriate and reasonable disbursements consistent with the Prompt Payment Act, and the appropriateness of certain goods or services relative to the University's mission, including travel-related disbursements. Further, the University's disbursement policy shall continue to provide for the mechanisms by which payments are made including the use of charge cards, warrants, and electronic payments.

These disbursement policies shall authorize the President, acting through the Executive Vice President, Chief Operating Officer, or Chief Financial Officer, to independently select, engage, and contract for such consultants, accountants, and financial experts, and other such providers of expert advice and consultation, and, after consultation with the Office of the Attorney General, private attorneys, as may be necessary or desirable in his or her discretion. The policies also shall continue to include the ability to locally manage and administer the Commonwealth's credit card and cost recovery programs related to disbursements, subject to any restrictions contained in the Commonwealth's contracts governing those programs, provided that the University shall submit the credit card and cost recovery aspects of its financial and operations policies to the State Comptroller for review and comment prior to implementing those aspects of those policies. The disbursement policies shall ensure that adequate risk management and internal control procedures shall be maintained over previously decentralized processes for public records, payroll, and non-payroll disbursements. The University shall continue to provide summary quarterly prompt payment reports to the Department of Accounts in accordance with the reporting procedures established pursuant to the Prompt Payment Act.

The University's disbursement policies shall be guided by the principles of the Commonwealth's policies as included in the Commonwealth's Accounting Policy and Procedures Manual. The University shall continue to follow the Commonwealth's disbursement policies until such time as specific alternative policies can be developed, approved and implemented. Such alternate policies shall be submitted to the State Comptroller for review and comment prior to their implementation by the University.

3. The Auditor of Public Accounts or his legally authorized representatives shall audit annually the accounts of each institution and shall distribute copies of each annual audit to the Governor and to the Chairmen of the House Committee on Appropriations and the Senate Committee on Finance. Pursuant to § 30-133, the Auditor of Public Accounts and his legally authorized representatives shall examine annually the accounts and books of each such institution, but the institution shall not be deemed to be a state or governmental agency, advisory agency, public body, or agency or instrumentality for purposes of Chapter 14 (§ 30-130 et seq.) of Title 30 except for those provisions in such chapter that relate to requirements for financial recordkeeping and bookkeeping. Each such institution shall be subject to periodic external review by the Joint Legislative and Audit Review Commission and such other reviews and audits as shall be required by law.

d. Subject to review of its Shared Services Center by the Department of General Services, and approval to proceed with decentralized procurement of authority by the Department of General Services, the Virginia Community College System (VCCS) is authorized, for a period of five years, to exercise additional financial and administrative authority as set out in each of the three functional areas of information technology, procurement and capital projects as set forth and subject to all the conditions in §§ 2.0, 3.0 and 4.0 of the second enactment of Chapter 824 and 829 of the Acts of Assembly of 2008 except that (i) any effective dates contained in Chapter 824 and 829 of the Acts of Assembly of 2008 are superseded by the provisions of this item. The State Board for Community Colleges may request any subsequent delegation of procurement authority after consultation with and positive recommendation by the Department of General Services.

e. Notwithstanding the small purchase thresholds set forth in the Rules Governing Procurement for institutions of higher education that have operational authority in the area of procurement, the small purchases thresholds shall be the same thresholds set forth in the Virginia Public Procurement Act (§ 2.2- 4300 et seq). Where small purchase thresholds in the Rules Governing Procurement for such institutions exceed those in 2.2-4300 et seq, the Rules Governing Procurement shall be the authorized procurement threshold.

§ 4-9.03 LEVEL III AUTHORITY

a. The Management Agreements negotiated by the institutions contained in Chapters 675 and 685 of the 2009 Acts of Assembly shall continue in effect unless the Governor, the General Assembly, or the institutions determine that the Management Agreements need to be renegotiated or revised.

b. Pursuant to § 23.1-1005, Code of Virginia, the Governor recommends approval for James Madison University to operate as a Level III institution under the management agreement as approved by its board of visitors on November 9, 2018.

c. Notwithstanding the small purchase thresholds set forth in the Rules Governing Procurement the small purchases thresholds for

Level III institutions shall be the small purchase thresholds set forth in the Virginia Public Procurement Act (§ 2.2-4300 et seq.). Where small purchase thresholds under Rules Governing Procurement for Level III institutions exceed those in 2.2-4300 et seq., the Rules Governing Procurement shall be the authorized procurement threshold.

§ 4-9.04 IMPLEMENT JLARC RECOMMENDATIONS

a. The Boards of Visitors at each Virginia public four-year higher education institution, to the extent practicable, shall:

1. require their institutions to clearly list the amount of the athletic fee on their website's tuition and fees information page. The page should include a link to the State Council of Higher Education for Virginia's tuition and fee information. The boards should consider requiring institutions to list the major components of all mandatory fees, including the portion attributable to athletics, on a separate page attached to student invoices;
2. assess the feasibility and impact of raising additional revenue through campus recreation and fitness enterprises to reduce reliance on mandatory student fees. The assessments should address the feasibility and impact of raising additional revenue through charging for specialized programs and services, expanding membership, and/or charging all users of recreation facilities;
3. direct staff to perform a comprehensive review of the institution's organizational structure, including an analysis of spans of control and a review of staff activities and workload, and identify opportunities to streamline the organizational structure. Boards should further direct staff to implement the recommendations of the review to streamline their organizational structures where possible;
4. require periodic reports on average and median spans of control and the number of supervisors with six or fewer direct reports;
5. direct staff to revise human resource policies to eliminate unnecessary supervisory positions by developing standards that establish and promote broader spans of control. The new policies and standards should (i) set an overall target span of control for the institution, (ii) set a minimum number of direct reports per supervisor, with guidelines for exceptions, (iii) define the circumstances that necessitate the use of a supervisory position, (iv) prohibit the establishment of supervisory positions for the purpose of recruiting or retaining employees, and (v) establish a periodic review of departments where spans of control are unusually narrow; and,
6. direct institution staff to set and enforce policies to maximize standardization of purchases of commonly procured goods, including use of institution-wide contracts;
7. consider directing institution staff to provide an annual report on all institutional purchases, including small purchases, that are exceptions to the institutional policies for standardizing purchases;
8. participate in national faculty teaching load assessments by discipline and faculty type.

b. The State Council on Higher Education for Virginia, to the extent practicable, shall:

1. convene a working group of institution financial officers, with input from the Department of Accounts, the Department of Planning and Budget, and the Auditor of Public Accounts, to create a standard way of calculating and publishing mandatory non-E&G fees, including for intercollegiate athletics;
2. update the state's Chart of Accounts for higher education in order to improve comparability and transparency of mandatory non-E&G fees, with input from the Department of Accounts, the Department of Planning and Budget, the Auditor of Public Accounts, and institutional staff. This process should be coordinated with the standardization of tuition and fee reporting;
3. convene a working group of institutional staff to develop instructional and research space guidelines that adequately measure current use of space and plans for future use of space at Virginia's public higher education institutions;
4. coordinate a committee of institutional representatives, such as the previously authorized Learning Technology Advisory Committee. In addition to the objectives set out in the Appropriation Act for the Learning Technology Advisory Committee, the committee should identify instructional technology initiatives and best practices for directly or indirectly lowering institutions' instructional expenditures per student while maintaining or enhancing student learning;
5. include factors such as discipline, faculty rank, cost of living, and regional comparisons in developing faculty salary goals;
6. identify instructional technology best practices that directly or indirectly lower student cost while maintaining or enhancing learning.

c. Notwithstanding the provisions of § 23.1-1304, the State Council of Higher Education for Virginia shall annually train boards of visitors members on the types of information members should request from institutions to inform decision making, such as performance measures, benchmarking data, the impact of financial decisions on student costs, and past and projected cost trends. Boards of Visitors members serving on finance and facilities subcommittees should, at a minimum, participate in

the training within their first year of membership on the subcommittee. SCHEV should obtain assistance in developing or delivering the training from relevant agencies such as the Department of General Services and past or present finance officers at Virginia's public four-year institutions, as appropriate.

d. The Department of Planning and Budget shall revise the formula used to make allocation recommendations for the state's maintenance reserve funding to account for higher maintenance needs resulting from poor facility condition, aging of facilities, and differences in facility use. Beginning with fiscal year 2016, the Department of Planning and Budget shall submit these recommendations to the Governor and General Assembly no later than November 1 of each year.

e. The Six-Year Capital Outlay Plan Advisory Committee, the Department of Planning and Budget, and others as appropriate shall use the results of the prioritization process established by the State Council of Higher Education for Virginia in determining which capital projects should receive funding.

f. Beginning with fiscal year 2016, the Auditor of Public Accounts shall include in its audit plan for each public institution of higher education a review of progress in implementing the JLARC recommendations contained in paragraph § 4-9.04 a.

§ 4-11.00 STATEMENT OF FINANCIAL CONDITION

Each agency head handling any state funds shall, at least once each year, upon request of the Auditor of Public Accounts, make a detailed statement, under oath, of the financial condition of his office as of the date of such call, to the Auditor of Public Accounts, and upon such forms as shall be prescribed by the Auditor of Public Accounts.

§ 4-12.00 SEVERABILITY

If any part, section, subsection, paragraph, sentence, clause, phrase, or item of this act or the application thereof to any person or circumstance is for any reason declared unconstitutional, such decisions shall not affect the validity of the remaining portions of this act which shall remain in force as if such act had been passed with the unconstitutional part, section, subsection, paragraph, sentence, clause, phrase, item or such application thereof eliminated; and the General Assembly hereby declares that it would have passed this act if such unconstitutional part, section, subsection, paragraph, sentence, clause, phrase, or item had not been included herein, or if such application had not been made.

§ 4-13.00 CONFLICT WITH OTHER LAWS

Notwithstanding any other provision of law, and until June 30, 2020, the provisions of this act shall prevail over any conflicting provision of any other law, without regard to whether such other law is enacted before or after this act; however, a conflicting provision of another law enacted after this act shall prevail over a conflicting provision of this act if the General Assembly has clearly evidenced its intent that the conflicting provision of such other law shall prevail, which intent shall be evident only if such other law (i) identifies the specific provision(s) of this act over which the conflicting provision of such other law is intended to prevail and (ii) specifically states that the terms of this section are not applicable with respect to the conflict between the provision(s) of this act and the provision of such other law.

§ 4-14.00 EFFECTIVE DATE

This act is effective ~~on July 1, 2018~~ *on its passage as provided in § 1-214, Code of Virginia.*

Each such appointee shall serve at the pleasure of the appointing body; however, no appointee to a commission with powers as set forth in subsection B of § 33.2-1915 may continue to serve when he is no longer a member of the appointing body. In appointing Virginia members of the board of directors of the Washington Metropolitan Area Transit Authority (WMATA), the Northern Virginia Transportation Commission shall include the Secretary or his designee as a principal member on the board of directors of WMATA. Any designee serving as the principal member must reside in a locality served by WMATA.

The initial appointments to a four-year term will be as follows: the Secretary, or his designee, for a term of four years; the second principal

member for a term of three years; one alternate for a term of two years; and the remaining alternate for a term of one year. Thereafter, board members shall be appointed for terms of four years. C. When the Northern Virginia Transportation Commission and the Potomac and Rappahannock Transportation Commission enter into an agreement to operate a commuter railway, the agreement governing the creation of the railway shall provide that the Chairman of the Commonwealth Transportation Board or his designee shall have one vote on the oversight board for the railway. For each year in which the state contribution to the railway is greater than or equal to the highest contribution from an individual locality, the total annual subsidy as provided by the member localities used to determine vote weights shall be recalculated to include the Commonwealth contributing an amount equal to the highest contributing locality. The vote weights shall be recalculated to provide the Chairman of the Commonwealth Transportation Board or his designee the same weight as the highest contributing locality. Such tax shall be based on such proportion of the cost price or current market value as the duration of time of use within this Commonwealth bears to the total useful life of such property (but it shall be presumed in all cases that such property will remain within this Commonwealth for the remainder of its useful life unless convincing evidence is provided to the contrary).

§ 58.1-605. (Contingent expiration date) To what extent and under what conditions cities and counties may levy local sales taxes; collection thereof by Commonwealth and return of revenue to each city or county entitled thereto.

A. No county, city or town shall impose any local general sales or use tax or any local general retail sales or use tax except as authorized by this section.

B. The council of any city and the governing body of any county may levy a general retail sales tax at the rate of one percent to provide revenue for the general fund of such city or county. Such tax shall be added to the rate of the state sales tax imposed by §§ 58.1-603 and 58.1-604 and shall be subject to all the provisions of this chapter and the rules and regulations published with respect thereto. No discount under § 58.1-622 shall be allowed on a local sales tax.

C. 1. The council of any city and the governing body of any county desiring to impose a local sales tax under this section may do so by the adoption of an ordinance stating its purpose and referring to this section, and providing that such ordinance shall be effective on the first day of a month at least 60 days after its adoption. A certified copy of such ordinance shall be forwarded to the Tax Commissioner so that it will be received within five days after its adoption.

2. *Prior to any change in the rate of any local sales and use tax, the Tax Commissioner shall provide remote sellers with at least 30 days' notice. Any change in the rate of any local sales and use tax shall only become effective on the first day of a calendar quarter. Failure to provide notice pursuant to this section shall require the Commonwealth and the locality to apply the preceding effective rate until 30 days after notification is provided.*

D. Any local sales tax levied under this section shall be administered and collected by the Tax Commissioner in the same manner and subject to the same penalties as provided for the state sales tax.

E. All local sales tax moneys collected by the Tax Commissioner under this section shall be paid into the state treasury to the credit of a special fund which is hereby created on the Comptroller's books under the name "Collections of Local Sales Taxes." Such local sales tax moneys shall be credited to the account of each particular city or county levying a local sales tax under this section. The basis of such credit shall be the city or county in which the sales were made as shown by the records of the Department and certified by it monthly to the Comptroller, namely, the city or county of location of each place of business of every dealer paying the tax to the Commonwealth without regard to the city or county of possible use by the purchasers. If a dealer has any place of business located in more than one political subdivision by reason of the boundary line or lines passing through such place of business, the amount of sales tax paid by such a dealer with respect to such place of business shall be treated for the purposes of this section as follows: one-half shall be assignable to each political subdivision where two are involved, one-third where three are involved, and one-fourth where four are involved.

F. As soon as practicable after the local sales tax moneys have been paid into the state treasury in any month for the preceding month, the Comptroller shall draw his warrant on the Treasurer of Virginia in the proper amount in favor of each city or county entitled to the monthly return of its local sales tax moneys, and such payments shall be charged to the account of each such city or county under the special fund created by this section. If errors are made in any such payment, or adjustments are otherwise necessary, whether attributable to refunds to taxpayers, or to some other fact, the errors shall be corrected and adjustments made in the payments for the next two months as follows: one-half of the total adjustment shall be included in the payments for the next two months. In addition, the payment shall include a refund of amounts erroneously not paid to the city or county and not previously refunded during the three years preceding the discovery of the error. A correction and adjustment in payments described in this subsection due to the misallocation of funds by the dealer shall be made within three years of the date of the payment error.

G. Such payments to counties are subject to the qualification that in any county wherein is situated any incorporated town constituting a special school district and operated as a separate school district under a town school board of three members appointed by the town council, the county treasurer shall pay into the town treasury for general governmental purposes the proper proportionate amount received by him in the ratio that the school age population of such town bears to the school age population of the entire county. If the school age population of any town constituting a separate school district is increased by the annexation of territory since the last estimate of school age population provided by the Weldon Cooper Center for Public Service, such increase shall, for the purposes of this section, be added to the school age population of such town as shown by the last such estimate and a proper reduction made in the school age population of the county or counties from which the annexed territory was acquired.

H. One-half of such payments to counties are subject to the further qualification, other than as set out in subsection G ~~above~~, that in any county wherein is situated any incorporated town not constituting a separate special school district which has complied with its charter provisions providing for the election of its council and mayor for a period of at least four years immediately prior to the adoption of the sales tax ordinance, the county treasurer shall pay into the town treasury of each such town for general governmental purposes the proper proportionate amount received by him in the ratio that the school age population of each such town bears to the school age population of the entire county, based on the latest estimate provided by the Weldon Cooper Center for Public Service. The preceding requirement pertaining to the time interval between compliance with election provisions and adoption of the sales tax ordinance shall not apply to a tier-city. If the school age population of any such town not constituting a separate special school district is increased by the annexation of territory or otherwise since the last estimate of school age population provided by the Weldon Cooper Center for Public Service, such increase shall, for the purposes of this section, be added to the school age population of such town as shown by the last such estimate and a proper reduction made in the school age population of the county or counties from which the annexed territory was acquired.

I. Notwithstanding the provisions of subsection H, the board of supervisors of a county may, in its discretion, appropriate funds to any incorporated town not constituting a separate school district within such county which has not complied with the provisions of its charter relating to the elections of its council and mayor, an amount not to exceed the amount it would have received from the tax imposed by this chapter if such election had been held.

J. It is further provided that if any incorporated town which would otherwise be eligible to receive funds from the county treasurer under subsection G or H of this section be located in a county which does not levy a general retail sales tax under the provisions of this law, such town may levy a general retail sales tax at the rate of one percent to provide revenue for the general fund of the town, subject to all the provisions of this section generally applicable to cities and counties. Any tax levied under the authority of this subsection shall in no case continue to be levied on or after the effective date of a county ordinance imposing a general retail sales tax in the county within which such town is located.

§ 58.1-612.1. Tax collectible from marketplace facilitators; "marketplace facilitator" defined.

A. As used in this chapter:

"Marketplace facilitator" means a person that contracts with a marketplace seller to facilitate, for consideration and regardless of whether such consideration is deducted as fees from transactions, the sale of such marketplace seller's products through a physical or electronic marketplace operated by such person. "Marketplace facilitator" does not include a payment processor business appointed by a merchant to handle payment transactions from various channels, such as credit cards and debit cards, and whose sole activity with respect to marketplace sales is to handle transactions between two parties. "Marketplace facilitator" does not include a platform or forum that exclusively provides internet advertising services, including any advertisements that may list products for sale, so long as such platform or forum does not also engage directly or indirectly through one or more commonly controlled persons, as defined in subsection D of § 58.1-612, in the activities described in subsection C.

"Marketplace seller" means a person that is not a commonly controlled person, as defined in subsection D of § 58.1-612, to a marketplace facilitator and that makes sales through any physical or electronic marketplace operated by such marketplace facilitator, even if such seller would not have been required to collect and remit sales and use tax had the sale not been made through such marketplace.

B. The tax levied under this chapter shall be collectible from all persons that are marketplace facilitators that have sufficient contact with Virginia to require registration under subsection C.

C. A marketplace facilitator shall be deemed to have sufficient activity within the Commonwealth to require registration under § 58.1-613 if it meets at least one requirement in each of subdivisions 1, 2, and 3:

1. It engages, either directly or indirectly, through a commonly controlled person as defined in subsection D of § 58.1-612 in any of the following activities:

- a. Transmitting or communicating an offer or acceptance between a purchaser and a marketplace seller;
- b. Owning or operating the infrastructure, whether electronic or physical, or technology that brings purchasers and marketplace

sellers together; or

c. Providing a virtual currency that purchasers are allowed or required to use to purchase products from the marketplace seller;

2. It engages in any of the following activities with respect to a marketplace seller's products:

a. Payment processing;

b. Fulfillment or storage;

c. Listing products for sale;

d. Setting prices;

e. Branding sales as those of the marketplace facilitator; or

f. Providing customer service or accepting or assisting with returns or exchanges; and

3. It establishes economic nexus through either of the following activities:

a. Facilitating sales in Virginia that, in the aggregate, generate more than \$100,000 in gross revenue, or other minimum amount as may be required by federal law, for such marketplace facilitator. A marketplace facilitator may exceed this threshold based on sales for either the previous or current calendar year. In determining the amount of a marketplace facilitator's gross revenues, the sales made by all commonly controlled persons, as defined in subsection D of § 58.1-612, shall be aggregated; or

b. Facilitating 200 or more separate retail sale transactions, or other minimum amount as may be required by federal law, in the Commonwealth in the previous or current calendar year. In determining the total number of retail sales transactions attributable to a marketplace facilitator, the sales made by all commonly controlled persons, as defined in subsection D of § 58.1-612, shall be aggregated.

D. 1. A marketplace facilitator shall be considered a dealer for purposes of this chapter and shall collect the tax imposed by this chapter on all transactions that it facilitates through its marketplace.

2. No marketplace seller shall collect sales and use tax on a transaction made through a marketplace facilitator's marketplace.

3. Notwithstanding the provisions of subdivisions 1 and 2, the Department shall allow for a waiver from the requirements of subdivisions 1 and 2 if a marketplace facilitator demonstrates, to the satisfaction of the Commissioner, that either (i) all of its marketplace sellers already are registered dealers under § 58.1-613 or (ii) the marketplace seller has sufficient nexus to require registration under § 58.1-613 and that collection of the tax by the marketplace facilitator for such marketplace seller would create an undue burden or hardship for either party. If such waiver is granted, the tax levied under this chapter shall be collectible from the marketplace seller. The Department shall develop guidelines that establish (a) the criteria for obtaining a waiver pursuant to this section, (b) the process and procedure for a marketplace facilitator to apply for a waiver, and (c) the process for providing notice to an affected marketplace facilitator and marketplace seller of a waiver obtained pursuant to this subdivision.

E. A market place facilitator shall be relieved from liability, including penalties and interest, for the incorrect collection or remittance of sales and use tax on transactions it facilitates or for which it is the seller if the error is due to reasonable reliance on (i) an invalid exemption certificate provided by the marketplace seller or the purchaser; (ii) incorrect or insufficient information provided by the Commonwealth; or (iii) incorrect or insufficient information provided by the marketplace seller or purchaser regarding the tax classification or proper sourcing of an item or transaction, provided that the marketplace facilitator can demonstrate it made a reasonable effort to obtain accurate information from the marketplace seller or purchaser. The relief from liability afforded to the marketplace facilitator pursuant to this subsection shall not exceed the total amount of tax due from the marketplace facilitator on the incorrect transaction independent of any penalties or interest that would have otherwise applied. Any deficiency resulting from incorrect information provided by the marketplace seller or as the result of an audit shall be the liability of the marketplace seller.

F. A marketplace facilitator is the sole entity subject to audit by the Department for sales and use tax collection for all transactions facilitated by the marketplace facilitator unless (i) the marketplace facilitator can demonstrate that its failure to collect the proper tax was due to incorrect information provided by the marketplace seller or (ii) the marketplace seller is subject to a waiver granted pursuant to subdivision D 3.

G. If a marketplace facilitator lacks physical presence in the Commonwealth and has both facilitated and made direct sales into the Commonwealth, both types of sales shall be considered in determining whether it has established economic nexus.

H. When a marketplace seller that is not otherwise required to register for the collection of the tax under any of the provisions contained in subdivisions C 1 through 9 of § 58.1-612 makes both direct sales and sales on a marketplace facilitator's marketplace, only the marketplace seller's direct sales shall be considered in determining whether the marketplace seller is required to register for the collection of the tax under subdivision C 10 or 11 of § 58.1-612.

I. No class action shall be brought against a marketplace facilitator in any court of the Commonwealth on behalf of customers arising from or in any way related to an overpayment of sales and use tax collected on sales facilitated by the marketplace facilitator, regardless of whether such claim is characterized as a tax refund claim. Nothing in this subsection shall affect a customer's right to seek a refund on an individual basis.

§ 58.1-615. (Contingent expiration date) Returns by dealers.

A. Every dealer required to collect or pay the sales or use tax shall, on or before the twentieth day of the month following the month in which the tax shall become effective, transmit to the Tax Commissioner a return showing the gross sales, gross proceeds, or cost price, as the case may be, arising from all transactions taxable under this chapter during the preceding calendar month, and thereafter a like return shall be prepared and transmitted to the Tax Commissioner by every dealer on or before the twentieth day of each month, for the preceding calendar month. In the case of dealers regularly keeping books and accounts on the basis of an annual period which varies 52 to 53 weeks, the Tax Commissioner may make rules and regulations for reporting consistent with such accounting period.

Notwithstanding any other provision of this chapter, a dealer may be required by the Tax Commissioner to file sales or use tax returns on an accounting period less frequent than monthly when, in the opinion of the Tax Commissioner, the administration of the taxes imposed by this chapter would be enhanced. If a dealer is required to file other than monthly, each such return shall be due on or before the twentieth day of the month following the close of the period. Each such return shall contain all information required for monthly returns.

A sales or use tax return shall be filed by each registered dealer even though the dealer is not liable to remit to the Tax Commissioner any tax for the period covered by the return.

The Tax Commissioner shall not require that more than one sales and use tax return per month be filed with the Department by any remote seller or any software provider on behalf of such remote seller.

B. [Expired.]

C. Any return required to be filed with the Tax Commissioner under this section shall be deemed to have been filed with the Tax Commissioner on the date that such return is delivered by the dealer to the commissioner of the revenue or the treasurer for the locality in which the dealer is located and receipt is acknowledged by the commissioner of the revenue or treasurer. The commissioner of the revenue or the treasurer shall stamp such date on the return, and shall mail the return to the Tax Commissioner no later than the following business day. The commissioner of the revenue or the treasurer may collect from the dealer the cost of postage for such mailing.

D. Every dealer ~~who that~~ elects to file a consolidated sales tax return for any taxable period and ~~who that~~ is required to remit payment by electronic funds transfer pursuant to subsection B of § 58.1-202.1 beginning on and after July 1, 2010, shall file ~~his~~ *its* monthly return using an electronic medium prescribed by the Tax Commissioner. A waiver of this requirement may be granted if the Tax Commissioner determines that it creates an unreasonable burden on the dealer.

§ 58.1-625. (Effective until July 1, 2022) Collection of tax.

A. The tax levied by this chapter shall be paid by the dealer, but the dealer shall separately state the amount of the tax and add such tax to the sales price or charge. Thereafter, such tax shall be a debt from the purchaser, consumer, or lessee to the dealer until paid and shall be recoverable at law in the same manner as other debts. No action at law or suit in equity under this chapter may be maintained in this Commonwealth by any dealer ~~who that~~ is not registered under § 58.1-613 or is delinquent in the payment of the taxes imposed under this chapter.

B. Notwithstanding any exemption from taxes which any dealer now or hereafter may enjoy under the Constitution or laws of this or any other state, or of the United States, such dealer shall collect such tax from the purchaser, consumer, or lessee and shall pay the same over to the Tax Commissioner as herein provided.

C. Any dealer collecting the sales or use tax on transactions exempt or not taxable under this chapter shall transmit to the Tax Commissioner such erroneously or illegally collected tax unless or until ~~he~~ *it* can affirmatively show that the tax has since been refunded to the purchaser or credited to ~~his~~ *its* account.

D. 1. Any dealer ~~who that~~ neglects, fails, or refuses to collect such tax upon every taxable sale, distribution, lease, or storage of tangible personal property made by ~~him~~ *it*, ~~his~~ *its* agents, or employees shall be liable for and pay the tax ~~himself~~ *itself*, and such dealer shall not thereafter be entitled to sue for or recover in this Commonwealth any part of the purchase price or rental from the purchaser until such tax is paid. Moreover, any dealer ~~who that~~ neglects, fails, or refuses to pay or collect the tax herein provided, either by ~~himself~~ *itself* or through ~~his~~ *its* agents or employees, ~~shall be~~ *is* guilty of a Class 1 misdemeanor.

2. *Notwithstanding subdivision 1, any remote seller or marketplace facilitator that has collected an incorrect amount of sales and use tax shall be relieved from liability for such amount, including any penalty or interest, if the error is a result of the remote seller's or marketplace facilitator's reasonable reliance on information provided by the Commonwealth.*

E. (Contingent effective date) ~~Notwithstanding subsection D, any remote seller, single provider, or consolidated provider who has~~

collected an incorrect amount of sales or use tax shall be relieved from liability for such additional amount, including any penalty or interest, if collection of the improper amount is a result of the remote seller, single provider, or consolidated provider's reasonable reliance upon information provided by the Commonwealth, including, but not limited to, any information obtained from software provided by the Department of Taxation pursuant to subsection B of § 58.1-601.

F: All sums collected by a dealer as required by this chapter shall be deemed to be held in trust for the Commonwealth.

F. Notwithstanding the foregoing provisions of this section, any dealer is authorized during the period of time set forth in §§ 58.1-611.2 and 58.1-611.3 or subdivision 18 of § 58.1-609.1 not to collect the tax levied by this chapter or levied under the authority granted in §§ 58.1-605 and 58.1-606 from the purchaser, and to absorb such tax ~~himself itself~~. A dealer electing to absorb such taxes shall be liable for payment of such taxes to the Tax Commissioner in the same manner as ~~he it~~ is for tax collected from a purchaser pursuant to this section.

§58.1-625. (Effective July 1, 2022) Collection of tax.

A. The tax levied by this chapter shall be paid by the dealer, but the dealer shall separately state the amount of the tax and add such tax to the sales price or charge. Thereafter, such tax shall be a debt from the purchaser, consumer, or lessee to the dealer until paid and shall be recoverable at law in the same manner as other debts. No action at law or suit in equity under this chapter may be maintained in this Commonwealth by any dealer ~~who that~~ is not registered under § 58.1-613 or is delinquent in the payment of the taxes imposed under this chapter.

B. Notwithstanding any exemption from taxes which any dealer now or hereafter may enjoy under the Constitution or laws of this or any other state, or of the United States, such dealer shall collect such tax from the purchaser, consumer, or lessee and shall pay the same over to the Tax Commissioner as herein provided.

C. Any dealer collecting the sales or use tax on transactions exempt or not taxable under this chapter shall transmit to the Tax Commissioner such erroneously or illegally collected tax unless or until ~~he it~~ can affirmatively show that the tax has since been refunded to the purchaser or credited to ~~his its~~ account.

D. 1. Any dealer ~~who that~~ neglects, fails, or refuses to collect such tax upon every taxable sale, distribution, lease, or storage of tangible personal property made by ~~him it, his its~~ agents, or employees shall be liable for and pay the tax ~~himself itself~~, and such dealer shall not thereafter be entitled to sue for or recover in this Commonwealth any part of the purchase price or rental from the purchaser until such tax is paid. Moreover, any dealer ~~who that~~ neglects, fails, or refuses to pay or collect the tax herein provided, either by ~~himself itself~~ or through ~~his its~~ agents or employees, ~~shall be~~ is guilty of a Class 1 misdemeanor.

2. Notwithstanding subdivision 1, any remote seller or marketplace facilitator that has collected an incorrect amount of sales and use tax shall be relieved from liability for such amount, including any penalty or interest, if the error is a result of the remote seller's or marketplace facilitator's reasonable reliance on information provided by the Commonwealth.

E. (Contingent effective date -- see Editor's note) Notwithstanding subsection D, any remote seller, single provider, or consolidated provider who has collected an incorrect amount of sales or use tax shall be relieved from liability for such additional amount, including any penalty or interest, if collection of the improper amount is a result of the remote seller, single provider, or consolidated provider's reasonable reliance upon information provided by the Commonwealth, including, but not limited to, any information obtained from software provided by the Department of Taxation pursuant to subsection B of § 58.1-601.

F: All sums collected by a dealer as required by this chapter shall be deemed to be held in trust for the Commonwealth.

F. Notwithstanding the foregoing provisions of this section, any dealer is authorized during the period of time set forth in § 58.1-611.2 not to collect the tax levied by this chapter or levied under the authority granted in §§ 58.1-605 and 58.1-606 from the purchaser, and to absorb such tax ~~himself itself~~. A dealer electing to absorb such taxes shall be liable for payment of such taxes to the Tax Commissioner in the same manner as ~~he it~~ is for tax collected from a purchaser pursuant to this section.

§ 58.1-635. (Contingent expiration date) Failure to file return; fraudulent return; civil penalties.

A. When any dealer fails to make any return and pay the full amount of the tax required by this chapter, there shall be imposed, in addition to other penalties provided herein, a specific penalty to be added to the tax in the amount of six percent if the failure is for not more than one month, with an additional six percent for each additional month, or fraction thereof, during which the failure continues, not to exceed ~~thirty~~ 30 percent in the aggregate. In no case, however, shall the penalty be less than ~~ten dollars~~ \$10 and such minimum penalty shall apply whether or not any tax is due for the period for which such return was required. If such failure is due to providential or other good cause shown to the satisfaction of the Tax Commissioner, such return with or without remittance may be accepted exclusive of penalties. In the case of a false or fraudulent return where willful intent exists to defraud the Commonwealth of any tax due under this chapter, or in the case of a willful failure to file a return with the intent to defraud the Commonwealth of any such tax, a specific penalty of ~~fifty~~ 50 percent of the amount of the proper tax shall be assessed. All penalties and interest imposed by this chapter shall be payable by the dealer and collectible by the Tax Commissioner in the same manner as if they were a part of the tax imposed.

B. It shall be prima facie evidence of intent to defraud the Commonwealth of any tax due under this chapter when any dealer

reports ~~his~~ its gross sales, gross proceeds or cost price, as the case may be, at ~~five~~ 50 percent or less of the actual amount.

C. Interest at a rate determined in accordance with § 58.1-15, shall accrue on the tax until the same is paid, or until an assessment is made, pursuant to § 58.1-15, after which interest shall accrue as provided therein.

D. Notwithstanding any other provision of this section, any remote seller or marketplace facilitator that has collected an incorrect amount of sales and use tax shall be relieved from liability for such amount, including any penalty or interest, if the error is a result of the remote seller's or marketplace facilitator's reasonable reliance on information provided by the Commonwealth.

8. That the provisions of Chapter 766 of the Acts of Assembly of 2013 amending §§ 58.1-601, 58.1-602, 58.1-605, 58.1-606, 58.1-612, 58.1-615, and 58.1-635, as they may become effective, of the Code of Virginia are repealed.

9. That the fourth enactment of Chapter 766 of the Acts of Assembly of 2013 is amended and reenacted as follows:

4. That Article 22 (§§ 58.1-540 through 58.1-549) of Chapter 3 of Title 58.1 of the Code of Virginia, §§ ~~58.1-609.13~~, 58.1-2289, as it may become effective, 58.1-2290, and 58.1-2701, as it may become effective, of the Code of Virginia and the second enactment of Chapter 822 of the Acts of Assembly of 2009, as amended by Chapter 535 of the Acts of Assembly of 2012, are repealed.

10. That the seventh and fifteenth enactments of Chapter 766 of the Acts of Assembly of 2013 and the twelfth enactment of Chapter 684 of the Acts of Assembly of 2015, as amended by Chapters 854 and 856 of the Acts of Assembly of 2018, are repealed.

11. That nothing in this act shall be construed to appropriate or transfer any transportation revenues for nontransportation purposes pursuant to the twenty-second enactment of Chapter 896 of the Acts of Assembly of 2007 or the fourteenth enactment of Chapter 766 of the Acts of Assembly of 2013.

12. That the provisions of this act requiring remote sales and use tax collection by remote sellers and marketplace facilitators shall not apply to any retail sales transactions occurring before July 1, 2019; however, transactions occurring before July 1, 2019, may be included in the calculation of gross revenue or retail transactions pursuant to the provisions of subdivisions C 10 and 11 of § 58.1-612 of the Code of Virginia, as amended by this act. Notwithstanding the sixth enactment clause of House Bill 1722, 2019 Acts of Assembly, and the sixth enactment clause of Senate Bill 1083, 2019 Acts of Assembly, the Department of Taxation is not permitted to temporarily suspend or delay the collection or reporting requirements, or both, of a marketplace facilitator.

13. That the Department of Taxation shall develop guidelines implementing the provisions of the seventh and twelfth enactment clauses of this act, including guidelines implementing the provisions of subsection D of § 58.1-612.1 of the Code of Virginia, as created by this act, creating a waiver. Such guidelines shall be exempt from the provisions of the Administrative Process Act (§ 2.2-4000 et seq. of the Code of Virginia).

14. That should any portion of this act be held unconstitutional by a court of competent jurisdiction, the remaining portions of this act shall remain in effect.

15. That the provisions of the seventh enactment of this Act shall apply beginning July 1, 2019.

16. That § 58.1-638.2 of the Code of Virginia is repealed.

17. That the provisions of the first, second and ~~fourth~~ fifth enactments of this act shall expire at midnight on June 30, 2020. **RESOLUTIONS OF THE GENERAL ASSEMBLY
2019 REGULAR SESSION**

HOUSE JOINT RESOLUTION NO. 581

Requesting the Commonwealth Transportation Board to study the portion of the Interstate 95 corridor between Exit 118 and the Springfield Interchange and financing options for improvements to the corridor. Report.

Agreed to by the House of Delegates, February 21, 2019

Agreed to by the Senate, February 21, 2019

WHEREAS, an adequate, efficient, and safe Interstate 95 corridor is important to the economic well-being of the communities located along the corridor; and

WHEREAS, a 2017 nationwide study conducted by INRIX Research ranked the nation's worst single traffic hotspot as Interstate 95 southbound at Exit 133A in Fredericksburg, with 1,394 traffic jams over the two-month study period, with an average duration of 33 minutes. This hotspot is projected to cost drivers \$2.3 billion from 2017 through 2026 in time lost, fuel wasted, and carbon emitted; and

WHEREAS, the portion of Interstate 95 northbound between Massaponax and State Route 610 in North Stafford was ranked as the seventh worst traffic hotspot in the nation, with 936 traffic jams over the two-month study period, with an average duration of 33 minutes. This hotspot is projected to cost drivers \$1.1 billion from 2017 through 2026 in time lost, fuel wasted, and carbon emitted; and

WHEREAS, the existing transportation infrastructure in this corridor is inadequate and must be updated to meet the needs of the growing population along this corridor; and

WHEREAS, the Metropolitan Washington Council of Governments reported that the Interstate 95 corridor in Fairfax and Prince William Counties contained 566,000 residents and 187,000 jobs in 2010 and forecasts that 126,000 residents and 85,000 jobs will be added by 2030; and

WHEREAS, continued congestion in this corridor threatens the prosperity and economic development of the entire region and creates economic hardship for the residents; now, therefore, be it

RESOLVED by the House of Delegates, the Senate concurring, That the Commonwealth Transportation Board be requested to study the portion of the Interstate 95 corridor between Exit 118 and the Springfield Interchange and financing options for improvements to the corridor.

In conducting its study, the Commonwealth Transportation Board (the Board) shall develop and adopt an Interstate 95 Corridor Improvement Plan (Plan). The Plan shall include the examination of potential improvements to the portion of Interstate 95 between Exit 118 and the Springfield Interchange and the methods of financing such improvements.

At a minimum, in the development of the Plan, the Board shall:

1. Designate specific segments of the Interstate 95 corridor between Exit 118 and the Springfield Interchange for improvement;
2. Identify a targeted set of improvements for each segment that may be financed or funded in such segment and evaluated using the statewide prioritization process pursuant to § 33.2-214.1 of the Code of Virginia;
3. Ensure that, in the overall plan of expenditure and distribution of any toll revenues or other evaluated financing means, each segment's total long-term benefit shall be approximately equal to the proportion of the toll revenues attributable to and other funds allocated to such segment divided by the total toll revenues and other revenues allocated to the Plan;
4. Study truck travel patterns along the Interstate 95 corridor and analyze policies that minimize the impact of the Plan on local truck traffic;
5. Identify incident management strategies corridor-wide;
6. Ensure that any revenues collected on the Interstate 95 corridor be used only for the benefit of that corridor;
7. Determine potential solutions to address region-specific needs along this Interstate 95 corridor; and
8. Also consider the effect of improvements to the Virginia Railway Express Service, the implementation of High Speed Rail service, and the effect that enhanced transit service could mitigate congestion along the I-95 Corridor.

WHEREAS, according to the Centers for Disease Control and Prevention (CDC), approximately 98 percent of adults in the United States are at risk for developing shingles, and nearly one in three people in the United States will develop shingles in their lifetime, with shingles affecting more than one million Americans each year; and

WHEREAS, a person's risk of developing shingles increases with age; nearly half of individuals who develop shingles are over 60 years of age and approximately half of people who reach 85 years of age will develop shingles in their lifetime; and

WHEREAS, vaccines have reduced the burden of widespread and often fatal diseases, enabling individuals to lead longer and healthier lives while reducing health care costs; and

WHEREAS, although much attention has been paid to the importance of childhood vaccinations, there is a general lack of awareness of adult-recommended vaccines and a misperception that immunizations are unnecessary for healthy adults; and

WHEREAS, the CDC and the Advisory Committee on Immunization Practices (ACIP) recommend that healthy adults 50 years of age and older be vaccinated against shingles to prevent shingles and shingles-related complications; and

HOUSE JOINT RESOLUTION NO. 655

Acknowledging with profound regret the existence and acceptance of lynching within the Commonwealth.

Agreed to by the House of Delegates, February 21, 2019

Agreed to by the Senate, February 20, 2019

WHEREAS, the year 2019 marks the 400th anniversary of the arrival to the Jamestown settlement of the first Africans in what would become the United States, where they were enslaved, marking the beginning of nearly 250 years of slavery in the British colonies and in the new nation; and

WHEREAS, throughout America's history of slavery, segregation, and inequality, thousands of African Americans were lynched across America, particularly throughout the southern United States, to perpetuate racial inequality and white supremacy and to terrorize African American communities; and

WHEREAS, during Reconstruction, the Thirteenth, Fourteenth, and Fifteenth Amendments to the United States Constitution were ratified, abolishing slavery, granting citizenship to any person born or naturalized in the United States, and guaranteeing the rights to due process of law and equal protection under the law and the right to vote for African American men; and

WHEREAS, in outright defiance of the Reconstruction Amendments, people across the nation acted outside of the law, deliberately, violently, and brutally, against African American citizens in retribution for alleged or invented crimes and faced few or no consequences; and

WHEREAS, the Equal Justice Initiative has documented more than 4,000 lynchings that took place throughout the South between 1877 and 1950, over 80 of which took place in Virginia; other scholarship documents more than 100 lynchings in Virginia; and

WHEREAS, African American men, women, and children lived in fear that their lives and the lives of loved ones could end violently at any time and in any place; and

WHEREAS, lynchings were often widely known and publicly attended; some were witnessed by crowds that numbered in the thousands, reflecting community acceptance, and many leaders and authorities and much of society denied and enabled the illegal and horrific nature of the acts; and

WHEREAS, *Richmond Planet* editor John Mitchell, Jr., exposed lynchings in Virginia as they occurred and led the state's anti-lynching campaign; however, despite his efforts and other accounts, historians believe still more lynchings remain undocumented; and

WHEREAS, at the urging of *Norfolk Virginia-Pilot* editor Louis Isaac Jaffe and other anti-lynching activists, and to curtail mob violence in Virginia, the General Assembly passed an anti-lynching measure that was signed into law on March 14, 1928, declaring lynching a state crime; and

WHEREAS, the extreme racial animus, violence, and terror embodied in the act of lynching did not die with the criminalization of the act, and few, if any, prosecutions occurred under the measure; and

WHEREAS, the legacy of racism that outlived slavery, enabled the rise and acceptance of lynching, facilitated segregation and disenfranchisement, and denied education and civil rights to African Americans has yet to be uprooted in Virginia, the South, and the nation, and this dark and shameful chapter of American history must be understood, acknowledged, and fully documented and the seemingly irreparable breach mended; and

WHEREAS, the most abject apology for past wrongs cannot right them; yet the spirit of true repentance on behalf of a government and, through it, a people can promote reconciliation and healing and avert the repetition of past wrongs and the disregard of manifested injustices; and

WHEREAS, in 2010, the Equal Justice Initiative began investigating thousands of racial terror lynchings in the American South in an effort to understand the terror and trauma this sanctioned violence against the African American community created, resulting in the report *Lynching in America: Confronting the Legacy of Racial Terror* in 2015 and the opening of the Memorial for Peace and Justice on April 26, 2018, as the nation's first memorial dedicated to the legacy of enslaved black people, people terrorized by lynching, African Americans humiliated by racial segregation and Jim Crow, and people of color burdened with contemporary presumptions of guilt and police violence; and

WHEREAS, the Equal Justice Initiative created the Community Remembrance Project to create greater awareness and understanding about racial terror lynchings and to begin a necessary conversation that advances truth and reconciliation by working with communities to commemorate and recognize the traumatic era of lynching by collecting soil from lynching sites across the country and erecting historical markers and monuments in these spaces; and

WHEREAS, the General Assembly established the Virginia Dr. Martin Luther King, Jr. Memorial Commission in 1992 to continue the work of Dr. King, himself a victim of violence, as he sought to realize his dream of a "Beloved Community" in which love, peace, and justice prevail over hatred and fear; now, therefore, be it

RESOLVED by the House of Delegates, the Senate concurring, That the General Assembly hereby acknowledge with profound regret the existence and acceptance of lynching within the Commonwealth and call for reconciliation among all Virginians; and, be it

RESOLVED FURTHER, That the Virginia Dr. Martin Luther King, Jr. Memorial Commission make as complete a record as possible of each documented lynching that occurred in the Commonwealth of Virginia, including the names of the victims and the locations and circumstances of each occurrence, to be preserved on the Commission's website, and develop programming to bring awareness and recognition of this history to communities across the state, that such awareness might contribute to the process of healing and reconciliation in Virginia's still-wounded communities and for families and descendants affected by lynchings; and, be it

RESOLVED FURTHER, That the Virginia Dr. Martin Luther King, Jr. Memorial Commission coordinate with the Department of Historic Resources to identify sites for historic markers to recognize documented lynchings and assist the Equal Justice Initiative in its Community Remembrance Project in the Commonwealth; and, be it

RESOLVED FINALLY, That the Clerk of the House of Delegates transmit a copy of this resolution to the Virginia Dr. Martin Luther King, Jr. Memorial Commission, requesting that it further disseminate copies of this resolution to its constituents so that they may be apprised of the sense of the General Assembly of Virginia in this matter.

The Agencies shall complete their meetings by November 30, 2019, and shall submit to the Governor and the General Assembly an executive summary and a report of their findings and recommendations for publication as a House or Senate document. HOUSE RESOLUTION NO. 211

Commemorating the life and legacy of Aleksandr Isayevich Solzhenitsyn.

Agreed to by the House of Delegates, January 14, 2019

WHEREAS, it was in the same year and within the span of a few weeks a century ago that the Great War ended, Russia descended into revolution, and Aleksandr Isayevich Solzhenitsyn, destined to become one of the world's greatest writers, was born on December 11, 1918; and

WHEREAS, having before he was born lost his father to a hunting accident—hence his early baptism into the experience of violence—Aleksandr Solzhenitsyn was raised by his mother and aunt and witnessed the transformation of his family's farming estate into a communistic collective of the Union of Soviet Socialist Republics (USSR) in 1930; and

WHEREAS, his academic studies interrupted by the cataclysm of the Second World War, Aleksandr Solzhenitsyn served as captain of an artillery sound-testing and targeting battery in East Prussia, and there witnessed—and on at least one occasion participated in—the atrocities against civilians that became a ghastly characteristic of the conflict everywhere in the world; and

WHEREAS, despite having been decorated for heroism in combat, Aleksandr Solzhenitsyn was convicted of crimes against the state for expressing—in private correspondence—views mildly critical of Soviet leader Josef Stalin and was

confined to Lubyanka Prison, wherein, in mid-1945, he could hear crowds outside celebrating the end of the war in Europe; and

WHEREAS, Aleksandr Solzhenitsyn would serve eight years in a labor camp—a Gulag—with millions of other Soviet citizens and a further two years of internal exile; and

WHEREAS, restored to his family, and employed as a teacher, Aleksandr Solzhenitsyn, as a consequence of his years of reflection, of punishment, and of exile, abandoned the Marxist ideology of the Soviet state and devoted himself to exploring the historical and spiritual origins and meaning of the calamities that had befallen not only himself and his family but his entire country, indeed, the entire world; and

WHEREAS, in one of those paradoxes that suggest that the miraculous remains possible within the most unjust of circumstances, Aleksandr Solzhenitsyn experienced an intellectual (and spiritual) conversion in a harsh confinement that Soviet authorities intended to demoralize him, later writing, "Bless you prison, bless you for being in my life. For there, lying upon the rotting prison straw, I came to realize that the object of life is not prosperity as we are made to believe, but the maturity of the human soul"; and

WHEREAS, freed from exile and exonerated in 1956, three years after the death of Josef Stalin, Solzhenitsyn resumed—and vastly expanded upon—the writing he had secretly begun in the Gulag; and

WHEREAS, in 1962, with the permission of Soviet authorities, Aleksandr Solzhenitsyn's first published work, *One Day in the Life of Ivan Denisovich*, a short novel depicting, openly for the first time in Soviet history, something of the horrific story of the regime's vast network of penal camps appeared in the journal *Novy Mir*; and

WHEREAS, the modest light Aleksandr Solzhenitsyn had cast upon the Soviet system of terror was soon extinguished, and the succeeding years saw him subjected to harassment by the secret police, his papers seized, and his access to a public readership in his homeland closed; and

WHEREAS, despite Soviet threats, Aleksandr Solzhenitsyn continued, secretly, to write, including what would become his three-volume masterwork, *The Gulag Archipelago*, with some of his friends hiding his manuscripts from spies and others smuggling manuscripts to the West, where his next major novels were published; and

WHEREAS, despite having been denied a readership of his works, including *Cancer Ward* and *The First Circle*, in his homeland, Aleksandr Solzhenitsyn was in 1970 awarded the Nobel Prize in Literature; and

WHEREAS, in 1971, owing solely to his renown, Aleksandr Solzhenitsyn was nearly assassinated through poisoning by the Soviet secret police; and

WHEREAS, in 1974, Aleksandr Solzhenitsyn was expelled from the Soviet Union, accepted asylum in the United States, and settled at last at a remote chalet in rural Vermont; and

WHEREAS, in 1978, Aleksandr Solzhenitsyn delivered a momentous address for Harvard University, challenging the institution's graduating seniors to confront what he deemed the evidence of "decline" in Western Civilization from a former "triumphal march to its present debility"; and

WHEREAS, a kernel of the legacy of Aleksandr Solzhenitsyn is to be found in his observation that "the line separating good and evil passes not through states, nor between classes, nor between political parties either—but right through every human heart—and through all human hearts"; and

WHEREAS, Aleksandr Solzhenitsyn was able to return to his homeland in 1994, three years after the collapse of the Soviet Union, whose prison system he survived and in his literary works disclosed to the entire world, and he died in his beloved Russia in 2008; and

WHEREAS, Aleksandr Solzhenitsyn, out of the depths of his suffering and the luminosity of his penetration into the stark realities of Soviet communism, deployed what an important scholar has described as "the creative power" of his mind, heart, and spirit "to the task of re-establishing objective truth in a country whose government had devoted so much murderous energy to proving that there can be no such thing"; and

WHEREAS, Lee Congdon, Professor Emeritus of History at James Madison University, is the author of a major new scholarly work entitled *Aleksandr Solzhenitsyn: The Historical-Spiritual Destinies of Russia and the West*; and

WHEREAS, Professor Lee Congdon will be principal speaker at an upcoming forum on Aleksandr Solzhenitsyn's life and works, which will be held in Richmond; now, therefore, be it

RESOLVED by the House of Delegates, That the life and legacy of Aleksandr Isayevich Solzhenitsyn hereby be commemorated on the occasion of the 100th anniversary of his birth; and, be it
