B. If the circuit court decides to deal with the juvenile in the same manner as a case in the juvenile court and places the juvenile on probation, the juvenile may be supervised by a juvenile probation officer.

C. When a juvenile and domestic relations district court or circuit court has adjudicated any case involving a child subject to the jurisdiction of the court hereunder, except for a traffic violation, a violation of the game and fish law, or a violation of any city ordinance regulating surfing or establishing curfew violations, the court before final disposition thereof may require an investigation, which (i) shall include a drug screening and (ii) may, and for the purposes of ~~§ 16.1-278.7~~ *subdivision A 14 or A 17 of § 16.1-278.8* shall, include a *social history* of the physical, mental, and social conditions, including an assessment of any affiliation with a criminal street gang as defined in § 18.2-46.1, and personality of the child and the facts and circumstances surrounding the violation of law. If the drug screening indicates that the juvenile has a substance abuse or dependence problem, an assessment shall be completed by a certified substance abuse counselor as defined in § 54.1-3500 employed by the Department of Juvenile Justice or by a locally operated court services unit or by an individual employed by or currently under contract to such agencies and who is specifically trained to conduct such assessments under the supervision of such counselor.

B. § 16.1-278.8. Delinquent juveniles.

A. If a juvenile is found to be delinquent, except where such finding involves a refusal to take a blood or breath test in violation of § 18.2-268.2 or a similar ordinance, the juvenile court or the circuit court may make any of the following orders of disposition for his supervision, care and rehabilitation:

4a. Defer disposition and place the juvenile in the temporary custody of the Department to attend a boot camp established pursuant to § 66-13 provided bed space is available for confinement and the juvenile (i) has been found delinquent for an offense that would be a Class 1 misdemeanor or felony if committed by an adult, (ii) has not previously been and is not currently being adjudicated delinquent or found guilty of a violent juvenile felony, (iii) has not previously attended a boot camp, (iv) has not previously been committed to and received by the Department, and (v) has had an assessment completed by the Department or its contractor concerning the appropriateness of the candidate for a boot camp. Upon the juvenile's withdrawal, removal or refusal to comply with the terms and conditions of participation in the program, he shall be brought before the court for a hearing at which the court may impose any other disposition as authorized by this section which could have been imposed at the time the juvenile was placed in the custody of the Department;

Upon the juvenile's withdrawal, removal, or refusal to comply with the conditions of participation in the program, he shall be brought before the court for a hearing at which the court may impose any other disposition authorized by this section. The court shall review such placements at 30-day intervals;

8. Impose a fine not to exceed \$500 upon such juvenile;

9. Suspend the motor vehicle and driver's license of such juvenile or impose a curfew on the juvenile as to the hours during which he may operate a motor vehicle. The court, in its discretion and upon a demonstration of hardship, may authorize the use of a restricted permit to operate a motor vehicle by any juvenile who enters such program for any of the purposes set forth in subsection E of § 18.2-271.1 or for travel to and from school. The restricted permit shall be issued in accordance with the provisions of such subsection. However, only an abstract of the court order that identifies the juvenile and the conditions under which the restricted license is to be issued shall be sent to the Department of Motor Vehicles.

If a curfew is imposed, the juvenile shall surrender his driver's license, which shall be held in the physical custody of the court during any period of curfew restriction. The court shall send an abstract of any order issued under the provisions of this section to the Department of Motor Vehicles, which shall preserve a record thereof. Notwithstanding the provisions of Article 12 (§ 16.1-299 et seq.) of this chapter or the provisions of Title 46.2, this record shall be available only to all law-enforcement officers, attorneys for the Commonwealth and courts. A copy of the court order, upon which shall be noted all curfew restrictions, shall be provided to the juvenile and shall contain such information regarding the juvenile as is reasonably necessary to identify him. The juvenile may operate a motor vehicle under the court order in accordance with its terms.

Any juvenile who operates a motor vehicle in violation of any restrictions imposed pursuant to this section shall be guilty of a violation of § 46.2-301.

The Department of Motor Vehicles shall refuse to issue a driver's license to any juvenile denied a driver's license until such time as is stipulated in the court order or until notification by the court of withdrawal of the order imposing the curfew;

The board shall accept the juvenile for care and custody, provided that it has been given reasonable notice of the pendency of the case and an opportunity to be heard. However, in an emergency in the county or city in which the court has jurisdiction, such local board may be required to temporarily accept a juvenile for a period not to exceed 14 days without prior notice or an opportunity to be heard if the judge entering the placement order describes the emergency and the need for such temporary placement in the order. Nothing in this subdivision shall prohibit the commitment of a juvenile to any local board of social services in the Commonwealth when such local board consents to the commitment. The board to which the juvenile is committed shall have the final authority to determine the appropriate placement for the juvenile. Any order authorizing removal from the home and transferring legal custody of a juvenile to a local board of social services as provided in this subdivision shall be entered only upon a finding by the court that reasonable efforts have been made to prevent removal and that continued placement in the home would be contrary to the welfare of the juvenile, and the order shall so state;

A. No person shall engage in the activities of a dealer as defined in § 54.1-4100 without first obtaining a permit from the chief law-enforcement officer of each county, city, or town in which he proposes to engage in business.

B. To obtain a permit, the dealer shall file with the proper chief law-enforcement officer an application form which includes the dealer's full name, any aliases, address, age, date of birth, sex, and fingerprints; the name, address, and telephone number of the applicant's employer, if any; and the location of the dealer's place of business. Upon filing this application and the payment of a \$200 application fee, the dealer shall be issued a permit by the chief law-enforcement officer or his designee, provided that the applicant has not been convicted of a felony or crime of moral turpitude within seven years prior to the date of application. The permit shall be denied if the applicant has been denied a permit or has had a permit revoked under any ordinance similar in substance to the provisions of this chapter.

C. Before a permit may be issued, the dealer must have all weighing devices used in his business inspected and approved by local or state weights and measures officials and present written evidence of such approval to the proper chief law-enforcement officer.

D. This permit shall be valid for one year from the date issued and may be renewed in the same manner as such permit was initially obtained with an annual permit fee of \$200. No permit shall be transferable.

E. If the business of the dealer is not operated without interruption, with Saturdays, Sundays, and recognized holidays excepted, the dealer shall notify the proper chief law-enforcement officer of all closings and reopenings of such business. The business of a dealer shall be conducted only from the fixed and permanent location specified in his application for a permit.

F. The chief law-enforcement officer may waive the permit fee for retail merchants that are not required to be licensed as pawnbrokers under Chapter 40 (§ 54.1-4000 et seq.), provided the retail merchant has a permanent place of business and purchases of precious metals and gems do not exceed five percent of the retail merchant's annual business.

CHAPTER 27

An Act to amend and reenact § 58.1-3703.1 of the Code of Virginia, relating to appealing the local license tax classification or subclassification of a business.

[H 497]

Approved February 27, 2014

Be it enacted by the General Assembly of Virginia:

1. That § 58.1-3703.1 of the Code of Virginia is amended and reenacted as follows:

§ 58.1-3703.1. Uniform ordinance provisions.

A. Every ordinance levying a license tax pursuant to this chapter shall include provisions substantially similar to this subsection. As they apply to license taxes, the provisions required by this section shall override any limitations or requirements in Chapter 39 (§ 58.1-3900 et seq.) of this title to the extent that they are in conflict.

1. License requirement. Every person shall apply for a license for each business or profession when engaging in a business in this jurisdiction if (i) the person has a definite place of business in this jurisdiction; (ii) there is no definite place of business anywhere and the person resides in this jurisdiction; or (iii) there is no definite place of business in this jurisdiction but the person operates amusement machines or is classified as an itinerant merchant, peddler, carnival, circus, contractor subject to § 58.1-3715, or public service corporation. A separate license shall be required for each definite place of business and for each business. A person engaged in two or more businesses or professions carried on at the same place of business may elect to obtain one license for all such businesses and professions if all of the following criteria are satisfied: (a) each business or profession is subject to licensure at the location and has satisfied any requirements imposed by state law or other provisions of the ordinances of this jurisdiction; (b) all of the businesses or professions are subject to the same tax rate, or, if subject to different tax rates, the licensee agrees to be taxed on all businesses and professions at the highest rate; and (c) the taxpayer agrees to supply such information as the assessor may require concerning the nature of the several businesses and their gross receipts.

Notwithstanding the foregoing, the governing body of any county, city or town with a population greater than 50,000 may waive the license requirements provided herein for businesses with gross receipts of less than \$100,000.

2. Due dates and penalties.

a. Each person subject to a license tax shall apply for a license prior to beginning business if he was not subject to licensure in this jurisdiction on or before January 1 of the license year, or no later than March 1 of the license year if he had been issued a license for the preceding year. Any locality is authorized to adopt a later application date that is on or before May 1 of the license year. The application shall be on forms prescribed by the assessing official.

b. The tax shall be paid with the application in the case of any license not based on gross receipts. If the tax is measured by the gross receipts of the business, the tax shall be paid on or before the locality's fixed due date for filing license applications or a later date, including installment payment dates, or 30 or more days after beginning business, at the locality's option.

c. The assessing official may grant an extension of time in which to file an application for a license, for reasonable cause. The extension may be conditioned upon the timely payment of a reasonable estimate of the appropriate tax; the tax is then subject to adjustment to the correct tax at the end of the extension, together with interest from the due date until the date paid and, if the estimate submitted with the extension is found to be unreasonable under the circumstances, with a penalty of 10 percent of the portion paid after the due date.

d. A penalty of 10 percent of the tax may be imposed upon the failure to file an application or the failure to pay the tax by the appropriate due date. Only the late filing penalty shall be imposed by the assessing official if both the application and payment are late; however, both penalties may be assessed if the assessing official determines that the taxpayer has a history of noncompliance. In the case of an assessment of additional tax made by the assessing official, if the application and, if applicable, the return were made in good faith and the understatement of the tax was not due to any fraud, reckless or intentional disregard of the law by the taxpayer, there shall be no late payment penalty assessed with the additional tax. If any assessment of tax by the assessing official is not paid within 30 days, the treasurer or other collecting official may impose a 10 percent late payment penalty. If the failure to file or pay was not the fault of the taxpayer, the penalties shall not be imposed, or if imposed, shall be abated by the official who assessed them. In order to demonstrate lack of fault, the taxpayer must show that he acted responsibly and that the failure was due to events beyond his control.

"Acted responsibly" means that: (i) the taxpayer exercised the level of reasonable care that a prudent person would exercise under the circumstances in determining the filing obligations for the business and (ii) the taxpayer undertook significant steps to avoid or mitigate the failure, such as requesting appropriate extensions (where applicable), attempting to prevent a foreseeable impediment, acting to remove an impediment once it occurred, and promptly rectifying a failure once the impediment was removed or the failure discovered.

"Events beyond the taxpayer's control" include, but are not limited to, the unavailability of records due to fire or other casualty; the unavoidable absence (e.g., due to death or serious illness) of the person with the sole responsibility for tax compliance; or the taxpayer's reasonable reliance in good faith upon erroneous written information from the assessing official who was aware of the relevant facts relating to the taxpayer's business when he provided the erroneous information.

e. Interest shall be charged on the late payment of the tax from the due date until the date paid without regard to fault or other reason for the late payment. Whenever an assessment of additional or omitted tax by the assessing official is found to be erroneous, all interest and any penalties charged and collected on the amount of the assessment found to be erroneous shall be refunded together with interest on the refund from the date of payment or the due date, whichever is later. Interest shall be paid on the refund of any BPOL tax from the date of payment or due date, whichever is later, whether attributable to an amended return or other reason. Interest on any refund shall be paid at the same rate charged under § 58.1-3916.

No interest shall accrue on an adjustment of estimated tax liability to actual liability at the conclusion of a base year. No interest shall be paid on a refund or charged on a late payment, provided the refund or the late payment is made not more than 30 days from the date of the payment that created the refund or the due date of the tax, whichever is later.

3. Situs of gross receipts.

a. General rule. Whenever the tax imposed by this ordinance is measured by gross receipts, the gross receipts included in the taxable measure shall be only those gross receipts attributed to the exercise of a privilege subject to licensure at a definite place of business within this jurisdiction. In the case of activities conducted outside of a definite place of business, such as during a visit to a customer location, the gross receipts shall be attributed to the definite place of business from which such activities are initiated, directed, or controlled. The situs of gross receipts for different classifications of business shall be attributed to one or more definite places of business or offices as follows:

(1) The gross receipts of a contractor shall be attributed to the definite place of business at which his services are performed, or if his services are not performed at any definite place of business, then the definite place of business from which his services are directed or controlled, unless the contractor is subject to the provisions of § 58.1-3715;

(2) The gross receipts of a retailer or wholesaler shall be attributed to the definite place of business at which sales solicitation activities occur, or if sales solicitation activities do not occur at any definite place of business, then the definite place of business from which sales solicitation activities are directed or controlled; however, a wholesaler or distribution house subject to a license tax measured by purchases shall determine the situs of its purchases by the definite place of business at which or from which deliveries of the purchased goods, wares and merchandise are made to customers. Any wholesaler who is subject to license tax in two or more localities and who is subject to multiple taxation because the localities use different measures, may apply to the Department of Taxation for a determination as to the proper measure of purchases and gross receipts subject to license tax in each locality;

(3) The gross receipts of a business renting tangible personal property shall be attributed to the definite place of business from which the tangible personal property is rented or, if the property is not rented from any definite place of business, then to the definite place of business at which the rental of such property is managed; and

(4) The gross receipts from the performance of services shall be attributed to the definite place of business at which the services are performed or, if not performed at any definite place of business, then to the definite place of business from which the services are directed or controlled.

b. Apportionment. If the licensee has more than one definite place of business and it is impractical or impossible to determine to which definite place of business gross receipts should be attributed under the general rule, the gross receipts of the business shall be apportioned between the definite places of businesses on the basis of payroll. Gross receipts shall not be apportioned to a definite place of business unless some activities under the applicable general rule occurred at, or were controlled from, such definite place of business. Gross receipts attributable to a definite place of business in another jurisdiction shall not be attributed to this jurisdiction solely because the other jurisdiction does not impose a tax on the gross receipts attributable to the definite place of business in such other jurisdiction.

c. Agreements. The assessor may enter into agreements with any other political subdivision of Virginia concerning the manner in which gross receipts shall be apportioned among definite places of business. However, the sum of the gross

receipts apportioned by the agreement shall not exceed the total gross receipts attributable to all of the definite places of business affected by the agreement. Upon being notified by a taxpayer that its method of attributing gross receipts is fundamentally inconsistent with the method of one or more political subdivisions in which the taxpayer is licensed to engage in business and that the difference has, or is likely to, result in taxes on more than 100 percent of its gross receipts from all locations in the affected jurisdictions, the assessor shall make a good faith effort to reach an apportionment agreement with the other political subdivisions involved. If an agreement cannot be reached, either the assessor or taxpayer may seek an advisory opinion from the Department of Taxation pursuant to § 58.1-3701; notice of the request shall be given to the other party. Notwithstanding the provisions of § 58.1-3993, when a taxpayer has demonstrated to a court that two or more political subdivisions of Virginia have assessed taxes on gross receipts that may create a double assessment within the meaning of § 58.1-3986, the court shall enter such orders pending resolution of the litigation as may be necessary to ensure that the taxpayer is not required to pay multiple assessments even though it is not then known which assessment is correct and which is erroneous.

4. Limitations and extensions.

a. Where, before the expiration of the time prescribed for the assessment of any license tax imposed pursuant to this ordinance, both the assessing official and the taxpayer have consented in writing to its assessment after such time, the tax may be assessed at any time prior to the expiration of the period agreed upon. The period so agreed upon may be extended by subsequent agreements in writing made before the expiration of the period previously agreed upon.

b. Notwithstanding § 58.1-3903, the assessing official shall assess the local license tax omitted because of fraud or failure to apply for a license for the current license year and the six preceding license years.

c. The period for collecting any local license tax shall not expire prior to the period specified in § 58.1-3940, two years after the date of assessment if the period for assessment has been extended pursuant to this subdivision of the ordinance, two years after the final determination of an appeal for which collection has been stayed pursuant to subdivision 5 b or 5 d of this ordinance, or two years after the final decision in a court application pursuant to § 58.1-3984 or a similar law for which collection has been stayed, whichever is later.

5. Administrative appeals to commissioner of the revenue or other assessing official.

a. Definitions. For purposes of this section:

"Amount in dispute," when used with respect to taxes due or assessed, means the amount specifically identified in the administrative appeal or application for judicial review as disputed by the party filing such appeal or application.

"Appealable event" means an increase in the assessment of a local license tax payable by a taxpayer, the denial of a refund, or the assessment of a local license tax where none previously was assessed, arising out of the local assessing official's (i) examination of records, financial statements, books of account, or other information for the purpose of determining the correctness of an assessment; (ii) determination regarding the rate or classification applicable to the licensable business; (iii) assessment of a local license tax when no return has been filed by the taxpayer; or (iv) denial of an application for correction of erroneous assessment attendant to the filing of an amended application for license.

An appealable event shall include a taxpayer's appeal of the classification applicable to a business, including whether the business properly falls within a business license subclassification established by the locality, regardless of whether the taxpayer's appeal is in conjunction with an assessment, examination, audit, or any other action taken by the locality.

"Frivolous" means a finding, based on specific facts, that the party asserting the appeal is unlikely to prevail upon the merits because the appeal is (i) not well grounded in fact; (ii) not warranted by existing law or a good faith argument for the extension, modification, or reversal of existing law; (iii) interposed for an improper purpose, such as to harass, to cause unnecessary delay in the payment of tax or a refund, or to create needless cost from the litigation; or (iv) otherwise frivolous.

"Jeopardized by delay" means a finding, based upon specific facts, that a taxpayer designs to (i) depart quickly from the locality; (ii) remove his property therefrom; (iii) conceal himself or his property therein; or (iv) do any other act tending to prejudice, or to render wholly or partially ineffectual, proceedings to collect the tax for the period in question.

b. Filing and contents of administrative appeal. Any person assessed with a local license tax as a result of an appealable event as defined in this section may file an administrative appeal of the assessment within one year from the last day of the tax year for which such assessment is made, or within one year from the date of the appealable event, whichever is later, with the commissioner of the revenue or other local assessing official. The appeal must be filed in good faith and sufficiently identify the taxpayer, the tax periods covered by the challenged assessments, the amount in dispute, the remedy sought, each alleged error in the assessment, the grounds upon which the taxpayer relies, and any other facts relevant to the taxpayer's contention. The assessor may hold a conference with the taxpayer if requested by the taxpayer, or require submission of additional information and documents, an audit or further audit, or other evidence deemed necessary for a proper and equitable determination of the appeal. The assessment placed at issue in the appeal shall be deemed prima facie correct. The assessor shall undertake a full review of the taxpayer's claims and issue a written determination to the taxpayer setting forth the facts and arguments in support of his decision.

The taxpayer may at any time also file an administrative appeal of the classification applicable to the taxpayer's business, including whether the business properly falls within a business license subclassification established by the locality. However, the appeal of the classification of the business shall not apply to any license year for which the Tax Commissioner has previously issued a final determination relating to any license fee or license tax imposed upon the

taxpayer's business for the year. In addition, any appeal of the classification of a business shall in no way affect or change any limitations period prescribed by law for appealing an assessment.

c. Notice of right of appeal and procedures. Every assessment made by a commissioner of the revenue or other assessing official pursuant to an appealable event shall include or be accompanied by a written explanation of the taxpayer's right to file an administrative appeal and the specific procedures to be followed in the jurisdiction, the name and address to which the appeal should be directed, an explanation of the required content of the appeal, and the deadline for filing the appeal.

For purposes of facilitating an administrative appeal of the classification applicable to a taxpayer's business, each locality imposing a tax or fee under this chapter shall maintain on its website the specific procedures to be followed in the jurisdiction with regard to such appeal and the name and address to which the appeal should be directed.

d. Suspension of collection activity during appeal. Provided a timely and complete administrative appeal is filed, collection activity with respect to the amount in dispute *relating to any assessment by the commissioner of the revenue or other assessing official* shall be suspended until a final determination is issued by the commissioner of the revenue or other assessing official, unless the treasurer or other official responsible for the collection of such tax (i) determines that collection would be jeopardized by delay as defined in this section; (ii) is advised by the commissioner of the revenue or other assessing official that the taxpayer has not responded to a request for relevant information after a reasonable time; or (iii) is advised by the commissioner of the revenue or other assessing official that the appeal is frivolous as defined in this section. Interest shall accrue in accordance with the provisions of subdivision 2 e of this subsection, but no further penalty shall be imposed while collection action is suspended.

e. Procedure in event of nondecision. Any taxpayer whose administrative appeal to the commissioner of the revenue or other assessing official pursuant to the provisions of subdivision 5 of this subsection has been pending for more than one year without the issuance of a final determination may, upon not less than 30 days' written notice to the commissioner of the revenue or other assessing official, elect to treat the appeal as denied and appeal the assessment *or classification of the taxpayer's business* to the Tax Commissioner in accordance with the provisions of subdivision 6 of this subsection. The Tax Commissioner shall not consider an appeal filed pursuant to the provisions of this subsection if he finds that the absence of a final determination on the part of the commissioner of the revenue or other assessing official was caused by the willful failure or refusal of the taxpayer to provide information requested and reasonably needed by the commissioner or other assessing official to make his determination.

6. Administrative appeal to the Tax Commissioner.

a. Any person assessed with a local license tax as a result of a determination *or that has received a determination with regard to the person's appeal of the license classification or subclassification applicable to the person's business*, upon an administrative appeal to the commissioner of the revenue or other assessing official pursuant to subdivision 5 of this subsection, that is adverse to the position asserted by the taxpayer in such appeal may appeal such assessment *or determination* to the Tax Commissioner within 90 days of the date of the determination by the commissioner of the revenue or other assessing official. The appeal shall be in such form as the Tax Commissioner may prescribe and the taxpayer shall serve a copy of the appeal upon the commissioner of the revenue or other assessing official. The Tax Commissioner shall permit the commissioner of the revenue or other assessing official to participate in the proceedings, and shall issue a determination to the taxpayer within 90 days of receipt of the taxpayer's application, unless the taxpayer and the assessing official are notified that a longer period will be required. The appeal shall proceed in the same manner as an application pursuant to § 58.1-1821, and the Tax Commissioner *pursuant to § 58.1-1822* may issue an order correcting such assessment ~~pursuant to § 58.1-1822~~ *or correcting the license classification or subclassification of the business and the related license tax or fee liability.*

b. Suspension of collection activity during appeal. On receipt of a notice of intent to file an appeal to the Tax Commissioner under subdivision 6 a of this subsection, collection activity with respect to the amount in dispute *relating to any assessment by the commissioner of the revenue or other assessing official* shall be suspended until a final determination is issued by the Tax Commissioner, unless the treasurer or other official responsible for the collection of such tax (i) determines that collection would be jeopardized by delay as defined in this section; (ii) is advised by the commissioner of the revenue or other assessing official, or the Tax Commissioner, that the taxpayer has not responded to a request for relevant information after a reasonable time; or (iii) is advised by the commissioner of the revenue or other assessing official that the appeal is frivolous as defined in this section. Interest shall accrue in accordance with the provisions of subdivision 2 e of this subsection, but no further penalty shall be imposed while collection action is suspended. The requirement that collection activity be suspended shall cease unless an appeal pursuant to subdivision 6 a of this subsection is filed and served on the necessary parties within 30 days of the service of notice of intent to file such appeal.

c. Implementation of determination of Tax Commissioner. Promptly upon receipt of the final determination of the Tax Commissioner with respect to an appeal pursuant to subdivision 6 a of this subsection, the commissioner of the revenue or other assessing official shall take those steps necessary to calculate the amount of tax owed by or refund due to the taxpayer consistent with the Tax Commissioner's determination and shall provide that information to the taxpayer and to the treasurer or other official responsible for collection in accordance with the provisions of this subdivision.

(1) If the determination of the Tax Commissioner sets forth a specific amount of tax due, the commissioner of the revenue or other assessing official shall certify the amount to the treasurer or other official responsible for collection, and the treasurer or other official responsible for collection shall issue a bill to the taxpayer for such amount due, together with

interest accrued and penalty, if any is authorized by this section, within 30 days of the date of the determination of the Tax Commissioner.

(2) If the determination of the Tax Commissioner sets forth a specific amount of refund due, the commissioner of the revenue or other assessing official shall certify the amount to the treasurer or other official responsible for collection, and the treasurer or other official responsible for collection shall issue a payment to the taxpayer for such amount due, together with interest accrued pursuant to this section, within 30 days of the date of the determination of the Tax Commissioner.

(3) If the determination of the Tax Commissioner does not set forth a specific amount of tax due, or otherwise requires the commissioner of the revenue or other assessing official to undertake a new or revised assessment that will result in an obligation to pay a tax that has not previously been paid in full, the commissioner of the revenue or other assessing official shall promptly commence the steps necessary to undertake such new or revised assessment, and provide the same to the taxpayer within 60 days of the date of the determination of the Tax Commissioner, or within 60 days after receipt from the taxpayer of any additional information requested or reasonably required under the determination of the Tax Commissioner, whichever is later. The commissioner of the revenue or other assessing official shall certify the new assessment to the treasurer or other official responsible for collection, and the treasurer or other official responsible for collection shall issue a bill to the taxpayer for the amount due, together with interest accrued and penalty, if any is authorized by this section, within 30 days of the date of the new assessment.

(4) If the determination of the Tax Commissioner does not set forth a specific amount of refund due, or otherwise requires the commissioner of the revenue or other assessing official to undertake a new or revised assessment that will result in an obligation on the part of the locality to make a refund of taxes previously paid, the commissioner of the revenue or other assessing official shall promptly commence the steps necessary to undertake such new or revised assessment *or to determine the amount of refund due in the case of a correction to the license classification or subclassification of the business*, and provide the same to the taxpayer within 60 days of the date of the determination of the Tax Commissioner, or within 60 days after receipt from the taxpayer of any additional information requested or reasonably required under the determination of the Tax Commissioner, whichever is later. The commissioner of the revenue or other assessing official shall certify the new assessment *or refund amount* to the treasurer or other official responsible for collection, and the treasurer or other official responsible for collection shall issue a refund to the taxpayer for the amount of tax due, together with interest accrued, within 30 days of the date of the new assessment *or determination of the amount of the refund*.

7. Judicial review of determination of Tax Commissioner.

a. Judicial review. Following the issuance of a final determination of the Tax Commissioner pursuant to subdivision 6 a of this subsection, the taxpayer or commissioner of the revenue or other assessing official may apply to the appropriate circuit court for judicial review of the determination, or any part thereof, pursuant to § 58.1-3984. In any such proceeding for judicial review of a determination of the Tax Commissioner, the burden shall be on the party challenging the determination of the Tax Commissioner, or any part thereof, to show that the ruling of the Tax Commissioner is erroneous with respect to the part challenged. Neither the Tax Commissioner nor the Department of Taxation shall be made a party to an application to correct an assessment merely because the Tax Commissioner has ruled on it.

b. Suspension of payment of disputed amount of tax due upon taxpayer's notice of intent to initiate judicial review.

(1) On receipt of a notice of intent to file an application for judicial review, pursuant to § 58.1-3984, of a determination of the Tax Commissioner pursuant to subdivision 6 a of this subsection, and upon payment of the amount of the tax *relating to any assessment by the commissioner of the revenue or other assessing official* that is not in dispute together with any penalty and interest then due with respect to such undisputed portion of the tax, the treasurer or other collection official shall further suspend collection activity while the court retains jurisdiction unless the court, upon appropriate motion after notice and an opportunity to be heard, determines that (i) the taxpayer's application for judicial review is frivolous, as defined in this section; (ii) collection would be jeopardized by delay, as defined in this section; or (iii) suspension of collection would cause substantial economic hardship to the locality. For purposes of determining whether substantial economic hardship to the locality would arise from a suspension of collection activity, the court shall consider the cumulative effect of then-pending appeals filed within the locality by different taxpayers that allege common claims or theories of relief.

(2) Upon a determination that the appeal is frivolous, that collection may be jeopardized by delay, or that suspension of collection would result in substantial economic hardship to the locality, the court may require the taxpayer to pay the amount in dispute or a portion thereof, or to provide surety for payment of the amount in dispute in a form acceptable to the court.

(3) No suspension of collection activity shall be required if the application for judicial review fails to identify with particularity the amount in dispute *or the application does not relate to any assessment by the commissioner of the revenue or other assessing official*.

(4) The requirement that collection activity be suspended shall cease unless an application for judicial review pursuant to § 58.1-3984 is filed and served on the necessary parties within 30 days of the service of the notice of intent to file such application.

(5) The suspension of collection activity authorized by this subdivision shall not be applicable to any appeal of a local license tax that is initiated by the direct filing of an action pursuant to § 58.1-3984 without prior exhaustion of the appeals provided by subdivisions 5 and 6 of this subsection.

c. Suspension of payment of disputed amount of refund due upon locality's notice of intent to initiate judicial review.

(1) Payment of any refund determined to be due pursuant to the determination of the Tax Commissioner of an appeal pursuant to subdivision 6 a of this subsection shall be suspended if the locality assessing the tax serves upon the taxpayer, within 60 days of the date of the determination of the Tax Commissioner, a notice of intent to file an application for judicial review of the Tax Commissioner's determination pursuant to § 58.1-3984 and pays the amount of the refund not in dispute, including tax and accrued interest. Payment of such refund shall remain suspended while the court retains jurisdiction unless the court, upon appropriate motion after notice and an opportunity to be heard, determines that the locality's application for judicial review is frivolous, as defined in this section.

(2) No suspension of refund activity shall be permitted if the locality's application for judicial review fails to identify with particularity the amount in dispute.

(3) The suspension of the obligation to make a refund shall cease unless an application for judicial review pursuant to § 58.1-3984 is filed and served on the necessary parties within 30 days of the service of the notice of intent to file such application.

d. Accrual of interest on unpaid amount of tax. Interest shall accrue in accordance with the provisions of subdivision 2 e of this subsection, but no further penalty shall be imposed while collection action is suspended.

8. Rulings.

Any taxpayer or authorized representative of a taxpayer may request a written ruling regarding the application of a local license tax to a specific situation from the commissioner of the revenue or other assessing official. Any person requesting such a ruling must provide all facts relevant to the situation placed at issue and may present a rationale for the basis of an interpretation of the law most favorable to the taxpayer. *In addition, the taxpayer or authorized representative may request a written ruling with regard to the classification applicable to the taxpayer's business, including whether the business properly falls within a business license subclassification established by the locality.*

Any misrepresentation or change in the applicable law or the factual situation as presented in the ruling request shall invalidate any such ruling issued. A written ruling may be revoked or amended prospectively if (i) there is a change in the law, a court decision, or the guidelines issued by the Department of Taxation upon which the ruling was based or (ii) the assessor notifies the taxpayer of a change in the policy or interpretation upon which the ruling was based. However, any person who acts on a written ruling which later becomes invalid shall be deemed to have acted in good faith during the period in which such ruling was in effect.

9. Record-keeping and audits. Every person who is assessable with a local license tax shall keep sufficient records to enable the assessor to verify the correctness of the tax paid for the license years assessable and to enable the assessor to ascertain what is the correct amount of tax that was assessable for each of those years. All such records, books of accounts and other information shall be open to inspection and examination by the assessor in order to allow the assessor to establish whether a particular receipt is directly attributable to the taxable privilege exercised within this jurisdiction. The assessor shall provide the taxpayer with the option to conduct the audit in the taxpayer's local business office, if the records are maintained there. In the event the records are maintained outside this jurisdiction, copies of the appropriate books and records shall be sent to the assessor's office upon demand.

B. Transitional provisions.

1. A locality which changes its license year from a fiscal year to a calendar year and adopts a due date for license applications between March 1 and May 1, inclusive, shall not be required to prorate any license tax to reflect a license year of less than 12 months, whether the tax is a flat amount or measured by gross receipts, provided that no change is made in the taxable year for measuring gross receipts.

2. The provisions of this section relating to penalties, interest, and administrative and judicial review of an assessment shall be applicable to assessments made on and after January 1, 1997, even if for an earlier license year. The provisions relating to agreements extending the period for assessing tax shall be effective for agreements entered into on and after July 1, 1996. The provisions permitting an assessment of a license tax for up to six preceding years in certain circumstances shall not be construed to permit the assessment of tax for a license year beginning before January 1, 1997.

3. Every locality shall adopt a fixed due date for license applications between March 1 and May 1, inclusive, no later than the 2007 license year.

CHAPTER 28

An Act to amend and reenact § 58.1-3975 of the Code of Virginia, relating to real property tax; nonjudicial sale of certain delinquent properties.

[H 499]

Approved February 27, 2014

Be it enacted by the General Assembly of Virginia:

1. That § 58.1-3975 of the Code of Virginia is amended and reenacted as follows:

§ 58.1-3975. Nonjudicial sale of tax delinquent real properties of minimal size and value.

Notwithstanding any other provision of this title, the treasurer or other officer responsible for collecting taxes may sell, at public auction, any unimproved parcel of real property that is assessed at less than \$10,000, provided that the taxes on such parcel are delinquent on December 31 following the ~~four~~ *third* anniversary of the date on which such taxes have

become due, and either such parcel (i) measures less than 4,000 square feet (.0918 acres), or (ii) is determined to be unsuitable for building due to the size, shape, zoning or soils of the parcel by the locality's zoning administrator. For purposes of determining the area of any parcel, the area or acreage found in the locality's land book shall be determinative.

Prior to conducting such sale the treasurer or other officer responsible for collecting taxes shall send notice by certified or registered mail to the record owner or owners of such property and anyone appearing to have an interest in the property at their last known address as contained in the records of the treasurer or other officer responsible for collecting taxes and shall post notice of such sale at the property location, if such property has frontage on any public or private street, and at the circuit courthouse of the locality at least 30 days prior to such sale. The treasurer or other officer responsible for collecting taxes shall also cause a notice of sale to be published in the legal classified section of a newspaper of general circulation at least seven days but no more than 21 days prior to the sale. The pro rata costs of publication and mailing shall become a part of the tax and shall be collected if payment is made by the owner in redemption of such real property. The treasurer or other officer responsible for collecting taxes may advertise and sell multiple parcels at the same time and place pursuant to one notice of sale. The treasurer or other officer responsible for collecting taxes may enter into an agreement with the owner of such parcel for payment over time, not to exceed 12 months. The owner of any property listed may redeem it at any time prior to the date of the sale by paying all accumulated taxes, penalties, interest and costs thereon, including the pro rata costs of publication and mailing. Partial payment of delinquent taxes, penalties, interest or costs shall be insufficient to redeem the property, and shall not operate to suspend, invalidate or nullify any sale brought pursuant to this section.

At the time of sale, the treasurer or other officer responsible for collecting taxes shall sell to the highest bidder at public auction each parcel that has not been redeemed by the owner. Such sale shall be free and clear of the tax lien, but shall not affect easements recorded prior to the date of sale. The treasurer or other officer responsible for collecting taxes shall tender a treasurer's deed to effectuate the conveyance of the parcel to the highest bidder. If the sale proceeds are insufficient to pay the taxes in full, the remaining delinquent tax amount shall remain the personal liability of the former owner. The sale proceeds shall be applied first to the costs of sale, then to the taxes, penalty, and interest due on the parcel, and thereafter to any other taxes or other charges owed by the former owner to the jurisdiction. Any excess proceeds shall remain the property of the former owner and shall be kept by the treasurer in an interest-bearing escrow account. If no claim for payment of excess proceeds is made by the former owner within two years after the date of sale, the treasurer shall deposit the excess proceeds in the jurisdiction's general fund. If the sale does not produce a successful bidder, the treasurer shall add the costs of sale incurred by the jurisdiction to the delinquent real estate account.

CHAPTER 29

An Act to create a special school tax district in King William County and to govern allocation of tax revenue for schools in King William County and the Town of West Point.

[H 534]

Approved February 27, 2014

Be it enacted by the General Assembly of Virginia:

1. § 1. *There is hereby established a special tax district to pay all or any portion of the County of King William (the County) expenditures for operating the County school division beginning July 1, 2014. The boundary of the tax district shall be the same as the geographical area of the county school division and shall exclude the area of the Town of West Point (the Town). The appropriation of funds for the County's share of expenditures for the County school division shall be governed by this act, and the provisions of §§ 22.1-113 and 22.1-114 of the Code of Virginia shall not be applicable. The special tax district shall remain in effect unless the Town shall cease to operate a separate school division.*

§ 2. *The King William Board of Supervisors (the Board) may levy and collect taxes upon any taxable property in such special tax district, including, but not limited to, real estate, mineral lands, tangible personal property, merchants' capital, and machinery and tools, and may appropriate to the County school division such property taxes, including any penalties and interest thereon and any fund balance from the preceding fiscal year consisting of such taxes, penalties, and interest. The Town shall pay for its share of expenditures to operate the Town school division from Town property taxes and other local, state, and federal revenues received by the Town. All taxes levied and collected by the County, other than those levied and collected for the support of the County school division in the special tax district, shall be uniform in all districts in the County, except as otherwise provided for by law.*

§ 3. *The Board may also appropriate to the County school division all or any portion of the revenue derived from (i) those local or state taxes that are collected in part within the Town but are allocated between the County and the Town by state law or (ii) those nonproperty taxes that the County collects exclusively from sources outside the Town.*

Such taxes include, but shall not be limited to, (i) the local sales and use tax authorized by §§ 58.1-605 and 58.1-606 of the Code of Virginia, (ii) the motor vehicle license tax authorized by § 46.2-752 of the Code of Virginia, (iii) wine taxes authorized by § 4.1-235 of the Code of Virginia, (iv) the net profits from the Alcoholic Beverage Control system authorized by § 4.1-117 of the Code of Virginia, (v) communication services sales taxes authorized by § 58.1-648 of the Code of Virginia, (vi) manufactured home titling taxes authorized by § 58.1-2402 of the Code of Virginia, (vii) automobile rental taxes authorized by § 58.1-2402 of the Code of Virginia, (viii) rolling stock taxes authorized by § 58.1-2652 of the Code of Virginia, (ix) bank net capital taxes authorized by § 58.1-1210 of the Code of Virginia, (x) business license taxes authorized

by § 58.1-3703 of the Code of Virginia, (xi) food and beverage taxes authorized by § 58.1-3833 of the Code of Virginia, and (xii) interest or other investment earnings derived from the revenues specified in § 2 and this section, which investment earnings shall be separately accounted for by the County.

§ 4. The Board may also appropriate to the County school division all or any portion of the state or local recordation taxes received by the County, as authorized by §§ 58.1-801 and 58.1-3800 of the Code of Virginia, provided that the County pays to the Town a pro rata share of such recordation taxes derived from real estate transactions that occur within the Town.

The pro rata share shall be determined by multiplying the recordation taxes collected within the Town by a fraction that equals the total recordation taxes appropriated to the County school division divided by the total recordation taxes derived by the County from real estate transactions that occur outside the Town. The Clerk of the Circuit Court for the County shall compile and furnish the necessary information to the governing body of the County to enable it to comply with this provision, and the County shall promptly provide a copy to the Town. The Board shall pay such sum to the Town no later than 45 days after receipt of such taxes by the County Treasurer from the clerk of the circuit court.

§ 5. The Board may also appropriate to the County school division all or any portion of the state payments to reimburse the County for personal property taxes pursuant to the Personal Property Tax Relief Act (§ 58.1-3523 et seq. of the Code of Virginia) if the County pays to the Town a pro rata share of these state payments received by the County that are attributable to qualifying vehicles assessed for taxation within the Town. The pro rata share shall be determined by multiplying the state reimbursement payments received by the County based on qualifying vehicles within the Town by a fraction that equals the total state reimbursement payments appropriated to the County school division divided by the total state reimbursement payments received by the County from qualifying vehicles assessed for taxation outside the Town. The Board shall pay such sum to the Town Treasurer no later than 45 days after receipt of such payments by the County Treasurer from the Commonwealth. If the Town issues tangible personal property tax bills for qualifying vehicles within the Town, in addition to any tangible personal property tax bills issued by the County for such vehicles, the amounts to be paid to the Town Treasurer shall be shown as a deduction on the face of the Town's tangible personal property tax bills for qualifying vehicles in the Town, which amounts are to be paid by the Commonwealth in accordance with state law. Nothing in this section shall be construed to alter the method or amount of the Commonwealth's obligations to King William County or the Town of West Point pursuant to the Personal Property Tax Relief Act.

§ 6. If the Board appropriates to the County school division any other taxes, fees, or other sources of revenues that are collected within both the County and the Town or are attributable to persons, property, transactions, or activities within both the County and the Town, the County shall pay to the Town a sum calculated as follows: the total amount of such other revenues appropriated to the County school division shall be multiplied by a fraction equal to the total taxable property assessments in the Town divided by the total taxable property assessments in the County as a whole, including the Town. The revenues subject to this requirement would include, for example, a tax or fee collected by the County in both the County and the Town, but would exclude, for example, a gift to the County or a state grant for school construction distributed to the County on the basis of school-age population in the County excluding the Town. The Board shall pay such sum to the Town no later than 45 days after such revenues have been transferred to the County school division.

§ 7. In the event of a dispute regarding the interpretation or application of this act, the County and the Town shall attempt to amicably resolve the dispute. The County and the Town may jointly submit to voluntary mediation. If the dispute is not resolved by agreement or mediation, the County and the Town shall submit to binding arbitration conducted in accordance with state law. The arbitration panel shall consist of three members; the Board and the Council shall each, within five business days, select an arbiter, who shall not be a member of the Board or the Council, but who shall be knowledgeable in local government matters and qualified or trained as an arbiter in accordance with state law and commonly accepted ethical standards for arbiters. The two arbiters so selected shall jointly select a third arbiter within five business days of being selected; if they are unable to agree on a third arbiter, one shall be appointed by the King William Circuit Court. The County and the Town shall share equally in the costs of any mediation or arbitration. Each party shall be responsible for its own legal fees. The decision of a majority of the arbitration panel shall be binding on the County and the Town.

Legal action may be initiated by either party only to enforce a decision of the arbiters or to challenge a decision of the arbiters as unlawful or contrary to the law and plainly wrong. The timelines for action stated in this section may be extended by agreement of the Board and the Council.

2. That an emergency exists and this act is in force from its passage.

Be it enacted by the General Assembly of Virginia:

1. That § 58.1-3969 of the Code of Virginia is amended and reenacted as follows:

§ 58.1-3969. Order of reference; appointment of special commissioner to make sale; costs; attorney fees.

The court shall have the option, for good cause shown after proper objection made by any party respondent, to refer the case to a commissioner in chancery for hearing and report, in which case, the order of reference shall be to a commissioner in chancery or special master other than the attorney (or any attorney practicing in the same firm as the attorney) employed to subject the real estate to the lien of any taxes. Upon (i) receipt of proper service of process on all parties defendant, a written real estate title certificate and the written report of a licensed real estate appraiser where there is no dispute as to title or value, (ii) the receipt of the report of the commissioner in chancery, or (iii) where the assessor for the locality files an affidavit with the court of value and the value is averred to not exceed \$100,000, the court may appoint a special commissioner to sell the properties and execute the necessary deeds when a sale is found necessary or advisable. The court may designate the attorney employed by the governing body of the locality to bring the suit. ~~However, if the property is deemed abandoned in accordance with § 58.1-3965, the court shall not be required to refer the case to the commissioner in chancery.~~

The sale price achieved at a public auction shall be prima facie, but rebuttable, evidence of the value of the property for purposes of the approval of the sale. If the attorney employed by the governing body of the locality be appointed a special commissioner to sell the land and execute the deed and he has already given the bond hereinabove mentioned, no additional bond shall be required of him as special commissioner unless the court regards the bond already given as insufficient in amount. No fee or commission shall be allowed or paid to any attorney for acting under the order of reference or as special commissioner, except as hereinafter provided, and the compensation contracted to be paid any such attorney by the governing body, whether the employment was on a salary, commission or other basis, shall be in full for all services rendered by him. The court shall allow as part of the costs, to be paid into the treasury of the locality, a reasonable sum to defray the cost of its attorneys and the expenses of publication and appraisal necessary for the purpose of instituting such suit and such fees and commissions, including fees for preparing and executing deeds, as would be allowed if the suit were an ordinary lien creditor's suit. When the special commissioner is other than the attorney employed by the locality the court may allow him reasonable fees for selling the land and executing the deed, payable out of the proceeds of sale.

In any case in which the attorney representing the locality and the governing body thereof have failed to reach an agreement as to a salary or commission or other basis as compensation for the services of such attorney, the court in which any proceedings are brought under this article may allow from the proceeds of the sale of any such real estate such fee as the court shall deem reasonable and proper to the attorney representing any such locality in such proceeding.

A. Information technology and telecommunications goods and services of every description shall be procured by (i) VITA for its own benefit or on behalf of other state agencies and institutions or (ii) such other agencies or institutions to the extent authorized by VITA. Such procurements shall be made in accordance with the Virginia Public Procurement Act (§ 2.2-4300 et seq.), regulations that implement the electronic and information technology accessibility standards of the Rehabilitation Act of 1973 (29 U.S.C. § 794d), as amended, and any regulations as may be prescribed by VITA. If VITA, or any agency or institution authorized by VITA, elects to procure personal computers and related peripheral equipment pursuant to any type of blanket purchasing arrangement under which public bodies, as defined in § 2.2-4301, may purchase such goods from any vendor following competitive procurement but without the conduct of an individual procurement by or for the using agency or institution, it shall establish performance-based specifications for the selection of equipment. Establishment of such contracts shall emphasize performance criteria including price, quality, and

delivery without regard to "brand name." All vendors meeting the Commonwealth's performance requirements shall be afforded the opportunity to compete for such contracts.

1. A statement of whether membership or participation in the program is voluntary or mandatory;
2. The name and address of the exchange company together with the names of its top three officers and directors;

2. Information on the actual expenditures, if available, made on all repairs, maintenance, operation, or upkeep of the building or buildings within the last three years. This information shall be set forth in a tabular manner within the proposed budget of the project. If such building or buildings have not been occupied for a period of three years then the information shall be set forth for the period during which such building or buildings were occupied;
3. A description of any provisions made in the budget for reserves for capital expenditures and an explanation of the basis for such reserves occasioned by the fact that the project is a conversion time-share project, or, if no provision is made for such reserves, a statement to that effect; and

A statement of the present condition of all structural components and major utility installations in the building, which statement shall include the approximate dates of construction, installations, and major repairs as well as the expected useful life of each such item, together with the estimated cost, in current dollars, of replacing each such component.

D. In the case of a conversion project, the developer shall give at least 90 days' notice to each of the tenants of the building or buildings which the developer intends to submit to the provisions of this chapter. During the first 60 days of such 90-day period, each of these tenants shall have the exclusive right to contract for the purchase of a time-share from the unit he occupies, but only if such unit is to be retained in the conversion project without substantial alteration in its physical layout. Such notice shall be hand delivered or sent by first-class mail, return receipt requested, and shall inform the tenants of the developer's intent to create a conversion project. Such notice may also constitute the notice to terminate the tenancy as provided for in § 55-222, except that, despite the provisions of § 55-222, a tenancy from month to month may only be terminated upon 120 days' notice as set forth herein when such termination is in regard to the creation of a conversion project. If, however, a tenant so notified remains in possession of the unit he occupies after the expiration of the 120-day period with the permission of the developer, in order to then terminate the tenancy, such developer shall give the tenant a further notice as provided in § 55-222.

The developer of a conversion project, shall, in addition to the requirements of § 55-391.1, include with the application for registration a copy of the notice required by this subsection and a certified statement that such notice which fully complies with the provisions of this subsection shall be, at the time of the registration of the conversion project, mailed or delivered to each of the tenants in the building or buildings for which registration is sought.

E. The developer shall amend the public offering statement to reflect any material change in the time-share program or time-share project. If the developer has reserved in the time-share instrument the right to add to or delete incidental benefits or alternative purchases, the addition or deletion thereof shall not constitute a material change. Prior to distribution, the developer shall file with the Board the public offering statement amended to reflect any material change.

F. The Board may at any time require a developer to alter or supplement the form or substance of the public offering statement to assure full and fair disclosure to prospective purchasers. A developer may, in its discretion, prepare and distribute a public offering statement for each product offered or one public offering statement for all products offered.

G. In the case of a time-share project located outside the Commonwealth, (i) *the developer may amend the public offering statement to reflect any additions or deletions of a time-share project to the existing time-share program registered in the Commonwealth, and (ii) similar disclosure statements required by other situs laws governing time-sharing may be acceptable alternative disclosure statements.*

H. The developer shall prepare and distribute to each prospective purchaser prior to the execution of a purchase contract for a registered alternative purchase, a copy of the public offering statement about which such alternative purchase relates. The public offering statement shall fully and accurately disclose the material characteristics of such alternative purchase. The public offering statement for an alternative purchase shall be filed with the Board and shall be in a form prescribed by its regulations, if any.

The public offering statement for an alternative purchase need not contain any information about the time-share project, time-share program or the time-shares offered by the developer which was initially offered to such purchaser by the developer. If the developer so elects, the public offering statement for an alternative purchase is not required to have any exhibits.

I. The public offering statement may be in any format, including a compact disc, provided the prospective buyer has available for review, along with ample time for any questions and answers, a copy of the public offering statement prior to his execution of a contract.

B. Grants paid to the qualified manufacturer pursuant to this section are intended to be used for workforce development, instructional, or training purposes so as to enhance the skill sets of qualified employees.

C. Any qualified manufacturer that is eligible to receive a special training grant shall (i) report to the Secretary quarterly the number of new qualified employees hired and trained who have been employed for at least 90 days and for whom a special training grant has not been previously paid pursuant to this section, and (ii) provide evidence of the hiring and training of the new qualified employees described in clause (i). Payment of such grant shall be made by check issued by the Treasurer of Virginia on warrant of the Comptroller.

The special training grants under this section (1) shall be paid, subject to appropriation by the General Assembly, from a fund entitled the Aerospace Engine Manufacturer Workforce Training Grant Fund, which Fund is hereby established on the books of the Comptroller, (2) shall not exceed \$5,778,000 in the aggregate, and (3) shall be paid to or for the benefit of the qualified manufacturer on a quarterly basis.

D. A supplemental training grant shall be paid to any qualified manufacturer that has made an aggregate capital investment of at least \$153.9 million in the eligible county and has hired at least 176 new qualified employees, excluding any qualified employee who has been rehired by the qualified manufacturer or an affiliate thereof or who is employed in a different position with the qualified manufacturer or an affiliate thereof. On or before June 30, 2010, and on or before each June 30 thereafter until the supplemental training grant has been paid, the qualified manufacturer shall provide written notification to the Secretary whether it has met or expects to meet the aggregate capital investment and employee requirements by the end of the current calendar year. E. If grants to be paid to qualified manufacturers under this section in a fiscal year exceed the aggregate amount available in the Aerospace Engine Manufacturer Workforce Training Grant Fund for that year, each qualified manufacturer's grants for the year shall equal the amount of grants to which the qualified manufacturer would otherwise be eligible multiplied by a fraction. The numerator of the fraction shall equal the aggregate amount available for payment from the Aerospace Engine Manufacturer Workforce Training Grant Fund for that fiscal year, and the denominator shall equal the aggregate dollar amount of grants to which all qualified manufacturers otherwise would be eligible for such fiscal year.

F. Notwithstanding any other provision of this section, in lieu of payment of special training grants by check to qualified manufacturers, the Secretary may determine that such special training grants shall be administered in a manner similar to existing training grant programs such as those permitted by § ~~2.2-1605~~ 2.2-2240.3.

G. A. There is hereby levied a tax at a rate equivalent to that levied on gasoline and gasohol on all other alternative fuel used to operate a highway vehicle. The Commissioner shall determine the equivalent rate applicable to such other alternative fuels.

B. (Contingent expiration date) In addition to any tax imposed by this article, there is hereby levied an annual license tax of \$64 per vehicle on each highway vehicle registered in Virginia that is an electric motor vehicle, ~~a hybrid electric motor vehicle~~, or an alternative fuel vehicle. However, no license tax shall be levied on any vehicle that (i) is subject to the tax on fuels levied pursuant to subsection A, (ii) is subject to the federal excise tax levied under § 4041 of the Internal Revenue Code, (iii) is a moped as defined in § 46.2-100, or (iv) is registered under the International Registration Plan. CHAPTER 44

An Act to amend and reenact § 58.1-3713 of the Code of Virginia, relating to gas severance tax.

[H 1028]

Approved February 27, 2014

Be it enacted by the General Assembly of Virginia:

1. That § 58.1-3713 of the Code of Virginia is amended and reenacted as follows:

§ 58.1-3713. (Expires December 31, 2014) Local gas road improvement and Virginia Coalfield Economic Development Authority tax.

A. In addition to the taxes authorized under § 58.1-3712, any county or city may adopt a license tax on every person engaging in the business of severing gases from the earth. The rate of such tax shall not exceed one percent. The provisions of § 58.1-3712 as they relate to measurement of gross receipts, filing of reports and record keeping shall be applicable to the tax imposed under this section.

The moneys collected for each county or city from the taxes imposed under authority of this section and subsection B of § 58.1-3741 shall be paid into a special fund of such county or city to be called the Gas Road Improvement Fund of such county or city, and shall be spent for such improvements to public roads as the coal and gas road improvement advisory committee and the governing body of such county or city may determine as provided in subsection B of this section. The county may also, in its discretion, elect to improve city or town roads with its funds if consent of the city or town council is obtained. Such funds shall be in addition to those allocated to such counties from state highway funds which allocations shall not be reduced as a result of any revenues received from the tax imposed hereunder. In those localities that comprise the Virginia Coalfield Economic Development Authority, the tax imposed under this section or subsection B of § 58.1-3741 shall be paid as follows: (i) three-fourths of the revenue shall be paid to the Gas Road Improvement Fund and used for the purposes set forth herein; however, one-fourth of such revenue may be used to fund the construction of new water or sewer systems and lines in areas with natural water supplies that are insufficient from the standpoint of quality or quantity, or the construction of natural gas service lines as authorized by § 15.2-2109.3, and (ii) one-fourth of the revenue shall be paid to the Virginia Coalfield Economic Development Fund. Furthermore, with regard to the portion paid to the Gas Road Improvement Fund, a county or city may provide for an additional one-fourth allocation for the construction of new systems or lines for water, sewer, or natural gas as authorized by § 15.2-2109.3, or the repair or enhancement of existing water, sewer, or natural gas systems or lines in areas with natural water supplies or existing natural gas services that are insufficient from the standpoint of quality or quantity; however, if this option is initiated by a county or city, it must satisfy the requirements set forth in § 58.1-3713.01. Notwithstanding the foregoing limitations regarding revenues used for water systems, sewer systems, or natural gas systems, such revenues designated for water and water systems, sewer systems, or natural gas systems shall be distributed directly to the local public service authority for such purposes instead of the local governing body. Funds in the Gas Road Improvement Fund used to construct, repair, or enhance natural gas service lines or systems shall not exceed one-fourth of the revenue paid to the Gas Road Improvement Fund collected from the severance tax imposed upon the severance of natural gas pursuant to this section and may be so used only upon passage of a local ordinance or resolution of the governing body of the applicable county or city providing for the same.

B. Any county or city imposing the tax authorized in this section or in subsection B of § 58.1-3741 shall establish a Gas Road Improvement Advisory Committee, to be composed of four members: (i) a member of the governing body of such county or city, appointed by the governing body, (ii) a representative of the Department of Transportation, and (iii) two citizens of such county or city connected with the coal and gas industry, appointed for a term of four years, initially commencing July 1, 1989, by the chief judge of the circuit court.

Such committee shall develop on or before July 1 of each year a plan for improvement of roads during the following fiscal year. Such plan shall have the approval of three members of the committee and shall be submitted to the governing body of the county or city for approval. The governing body may approve or disapprove such plan, but may make no changes without the approval of three members of the committee.

C. The provisions of this section shall expire on December 31, ~~2014~~ 2015.

CHAPTER 45

A second violation of this section or a conviction under this section subsequent to any conviction under any substantially similar ordinance of any county, city, or town shall be punishable as a Class 6 felony, and a third or subsequent such violation shall be punishable as a Class 5 felony. For the purpose of this section, a weapon shall be deemed to be hidden from common observation when it is observable but is of such deceptive appearance as to disguise the weapon's true nature. It shall be an affirmative defense to a violation of clause (i) regarding a handgun, that a person had been issued, at the time of the offense, a valid concealed handgun permit.

B. This section shall not apply to any person while in his own place of abode or the curtilage thereof.

C. Except as provided in subsection A of § 18.2-308.012, this section shall not apply to:

1. Any person while in his own place of business;

6. Any person actually engaged in lawful hunting, as authorized by the Board of Game and Inland Fisheries, under inclement weather conditions necessitating temporary protection of his firearm from those conditions, provided that possession of a handgun while engaged in lawful hunting shall not be construed as hunting with a handgun if the person hunting is carrying a valid concealed handgun permit;
7. Any State Police officer retired from the Department of State Police, any officer retired from the Division of Capitol Police, any local law-enforcement officer, auxiliary police officer or animal control officer retired from a police department or sheriff's office within the Commonwealth, any special agent retired from the State Corporation Commission or the Alcoholic Beverage Control Board, any conservation police officer retired from the Department of Game and Inland Fisheries, any Virginia Marine Police officer retired from the Law Enforcement Division of the Virginia Marine Resources Commission, any campus police officer appointed under Chapter 17 (§ 23-232 et seq.) of Title 23 retired from a campus police department, *any retired member of the enforcement division of the Department of Motor Vehicles appointed pursuant to § 46.2-217*, and any retired investigator of the security division of the State Lottery Department, other than an officer or agent terminated for cause, (i) with a service-related disability; (ii) following at least 15 years of service with any such law-enforcement agency, board or any combination thereof; (iii) who has reached 55 years of age; or (iv) who is on long-term leave from such law-enforcement agency or board due to a service-related injury, provided such officer carries with him written proof of consultation with and favorable review of the need to carry a concealed handgun issued by the chief law-enforcement officer of the last such agency from which the officer retired or the agency that employs the officer

or, in the case of special agents, issued by the State Corporation Commission or the Alcoholic Beverage Control Board. A copy of the proof of consultation and favorable review shall be forwarded by the chief or the Board to the Department of State Police for entry into the Virginia Criminal Information Network. Notice of the surrender shall be forwarded to the Department of State Police for entry into the Virginia Criminal Information Network. However, if such officer retires on disability because of the service-related injury, and would be eligible under clause (i) for written proof of consultation to carry a concealed handgun, he may retain the previously issued written proof of consultation. A retired law-enforcement officer who receives proof of consultation and favorable review pursuant to this subdivision is authorized to carry a concealed handgun in the same manner as a law-enforcement officer authorized to carry a concealed handgun pursuant to subdivision 2-;

If such retired or resigned law-enforcement officer meets the training and qualification standards, the chief law-enforcement officer shall issue the retired or resigned officer certification, valid one year from the date of issuance, indicating that the retired or resigned officer has met the standards of the agency to carry a firearm;

8. Any State Police officer who is a member of the organized reserve forces of any of the armed services of the United States, national guard, or naval militia, while such officer is called to active military duty, provided such officer carries with him written proof of consultation with and favorable review of the need to carry a concealed handgun issued by the Superintendent of State Police. The proof of consultation and favorable review shall be valid as long as the officer is on active military duty and shall expire when the officer returns to active law-enforcement duty. The issuance of the proof of consultation and favorable review shall be entered into the Virginia Criminal Information Network. The Superintendent of State Police shall not without cause withhold such written proof if the officer is in good standing and is qualified to carry a weapon while on active law-enforcement duty.

For purposes of applying the reciprocity provisions of § 18.2-308.014, any person granted the privilege to carry a concealed handgun pursuant to this subdivision, while carrying the proof of consultation and favorable review required, shall be deemed to have been issued a concealed handgun permit;

[H 1171]

Approved February 27, 2014

Be it enacted by the General Assembly of Virginia:

1. That § 10.1-2211 of the Code of Virginia is amended and reenacted as follows:

§ 10.1-2211. Disbursement of funds appropriated for caring for Confederate cemeteries and graves.

A. At the direction of the Director, the Comptroller of the Commonwealth is instructed and empowered to draw annual warrants upon the State Treasurer from any sums that may be provided in the general appropriation act, in favor of the treasurers of the Confederate memorial associations and chapters of the United Daughters of the Confederacy set forth in subsection B of this section. Such sums shall be expended by the associations and organizations for the routine maintenance of their respective Confederate cemeteries and graves and for the graves of Confederate soldiers and sailors not otherwise cared for in other cemeteries, and in erecting and caring for markers, memorials, and monuments to the memory of such soldiers and sailors. All such associations and organizations, through their proper officers, are required after July 1 of each year to submit to the Director a certified statement that the funds appropriated to the association or organization in the preceding fiscal year were or will be expended for the routine maintenance of cemeteries specified in this section and the graves of Confederate soldiers and sailors and in erecting and caring for markers, memorials and monuments to the memory of such soldiers and sailors. An association or organization failing to comply with any of the requirements of this section shall be prohibited from receiving moneys allocated under this section for all subsequent fiscal years until the association or organization fully complies with the requirements.

B. Allocation of appropriations made pursuant to this section shall be based on the number of graves, monuments and markers as set forth opposite the association's or organization's name, or as documented by each association or organization multiplied by the rate of \$5 or the average actual cost of routine maintenance, whichever is greater, for each grave, monument or marker in the care of a Confederate memorial association or chapter of the United Daughters of the Confederacy. For the purposes of this section the "average actual cost of care" shall be determined by the Department in a biennial survey of at least four properly maintained cemeteries, each located in a different geographical region of the Commonwealth.

CHAPTER 47

An Act to amend and reenact § 58.1-439.20 of the Code of Virginia, relating to proposals for tax credits under the Neighborhood Assistance Act Tax Credit program.

[H 1179]

Approved February 27, 2014

Be it enacted by the General Assembly of Virginia:

1. That § 58.1-439.20 of the Code of Virginia is amended and reenacted as follows:

§ 58.1-439.20. Proposals; regulations; tax credits authorized; amount for programs.

A. Any neighborhood organization may submit a proposal, other than education proposals, to the Commissioner of the State Department of Social Services requesting an allocation of tax credits for use by business firms making donations to the neighborhood organization. Neighborhood organizations may submit education proposals to the Superintendent of Public Instruction requesting an allocation of tax credits for use by business firms making donations to the neighborhood organization.

The proposal shall set forth the program to be conducted by the neighborhood organization, the low-income persons or eligible students with disabilities to be assisted, the estimated amount to be donated to the program, and the plans for implementing the program.

B. The State Board of Social Services and the Department of Education are hereby authorized to adopt regulations (or, alternatively, guidelines in the case of the Department of Education) for the approval or disapproval of such proposals by neighborhood organizations and for determining the value of the donations. Such regulations or guidelines shall contain a requirement that a neighborhood organization shall have been in existence for at least one year. Also, such regulations or guidelines shall contain a requirement that as a prerequisite for approval, neighborhood organizations with total revenues (including the value of all donations) (i) in excess of \$100,000 for the organization's most recent year ended provide to the State Board of Social Services or the Department of Education, as applicable, an audit or review for such year performed by an independent certified public accountant or (ii) of \$100,000 or less for the organization's most recent year ended, provide to the State Board of Social Services or the Department of Education, as applicable, a compilation for such year performed by an independent certified public accountant. *No proposal for an allocation of tax credits shall be untimely filed solely*

because such audit, review, or compilation was not submitted by the neighborhood organization by the proposal filing deadline, provided that the audit, review, or compilation is submitted to the State Board of Social Services or the Department of Education, as applicable, within the 30-day period immediately following such deadline.

Such regulations or guidelines by the Department of Education shall provide that at least 50 percent of the persons served by the neighborhood organization are low-income persons or eligible students with disabilities, and that at least 50 percent of the neighborhood organization's revenues are used to provide services to low-income persons or to eligible students with disabilities. Such regulations by the State Board of Social Services shall provide that at least 40 percent of the persons served by the neighborhood organization are low-income persons as defined in § 58.1-439.18. In order for a proposal to be approved, the applicant neighborhood organization and any of its affiliates shall meet the requirements of the application regulations or guidelines. Such regulations or guidelines shall provide for the equitable allocation of the available amount of tax credits among the approved proposals submitted by neighborhood organizations. The regulations or guidelines shall also provide that at least 10 percent of the available amount of tax credits each year shall be allocated to qualified programs proposed by neighborhood organizations not receiving allocations in the preceding year; however, if the amount of tax credits for qualified programs requested by such neighborhood organizations is less than 10 percent of the available amount of tax credits, the unallocated portion of such 10 percent of the available amount of tax credits shall be allocated to qualified programs proposed by other neighborhood organizations.

C. If the Commissioner of the State Department of Social Services or the Superintendent of Public Instruction approves a proposal submitted by a neighborhood organization, the organization shall make the allocated tax credit amounts available to business firms making donations to the approved program. A neighborhood organization shall not assign or transfer an allocation of tax credits to another neighborhood organization without the approval of the Commissioner of the State Department of Social Services or the Superintendent of Public Instruction, as applicable.

Notwithstanding any other provision of law, (i) no more than an aggregate of \$0.825 million in tax credits shall be approved in a fiscal year to a neighborhood organization or to a grouping of neighborhood organization affiliates for all education proposals, and (ii) no more than an aggregate of \$0.5 million in tax credits shall be approved in a fiscal year to a neighborhood organization or to a grouping of neighborhood organization affiliates for all other proposals combined. However, if the State Department of Social Services or the Department of Education after the initial allocation of tax credits to approved proposals has a balance of tax credits remaining for the fiscal year that can be used or allocated by a neighborhood organization for a proposal that had been approved for tax credits during the initial allocation by the State Department of Social Services or the Department of Education, then (a) the Commissioner of the State Department of Social Services or the Superintendent of Public Instruction, as applicable, shall reallocate the remaining balance of tax credits to such previously approved proposals to the extent that a neighborhood organization can use or allocate additional tax credits for the previously approved proposal and (b) the \$0.825 and \$0.5 million annual limitations for tax credits approved to a grouping of neighborhood organization affiliates shall be inapplicable to the extent of any balance of tax credits reallocated under clause (a). The balance of tax credits remaining for reallocation shall include the amount of any tax credits that have been granted for a proposal approved during the initial allocation but for which the Commissioner of the State Department of Social Services or the Superintendent of Public Instruction has been provided notice by the neighborhood organization that it will not be able to use or allocate such amount for the approved proposal.

D. The total amount of tax credits granted for programs approved under this article for each fiscal year shall not exceed \$15 million allocated as follows: \$8 million for education proposals for approval by the Superintendent of Public Instruction and \$7 million for all other proposals for approval by the Commissioner of the State Department of Social Services.

The Superintendent and the Commissioner of the State Department of Social Services shall work cooperatively for purposes of ensuring that neighborhood organization proposals are submitted to the proper state agency. The Superintendent and the Commissioner of the State Department of Social Services may request the assistance of the Department of Taxation for purposes of determining whether or not anticipated donations for which tax credits are requested by a neighborhood organization likely qualify as a charitable donation under federal tax laws and regulations.

E. Actions of (i) the State Department of Social Services, or the Commissioner of the same, or (ii) the Superintendent or the Department of Education relating to the review of neighborhood organization proposals and the allocation of tax credits to proposals shall be exempt from the provisions of the Administrative Process Act (§ 2.2-4000 et seq.). Decisions of (a) the State Department of Social Services, or the Commissioner of the same, or (b) the Superintendent or the Department of Education shall be final and not subject to review or appeal.

F. Notwithstanding the provisions of § 30-19.1:11, the issuance of tax credits under this article shall expire on July 1, 2028.

2. That an emergency exists and this act is in force from its passage.

CHAPTER 48

An Act to amend and reenact §§ 58.1-3286 and 58.1-3712 of the Code of Virginia, relating to local property and license taxes on mineral lands.

[H 1202]

Approved February 27, 2014

Be it enacted by the General Assembly of Virginia:

1. That §§ 58.1-3286 and 58.1-3712 of the Code of Virginia are amended and reenacted as follows:

§ 58.1-3286. Mineral lands to be specially and separately assessed; severance tax.

The several commissioners of the revenue shall, as soon as practicable after January 1 of each year, specially and separately assess at the fair market value all mineral lands and the improvements thereon and shall enter the same on the land books of their respective counties separately from other lands charged thereon.

The commissioner, in assessing mineral lands, shall set forth upon the land book:

1. The area and the fair market value of such portion of each tract as is improved and under development;
2. The fair market value of the improvements upon each tract; and
3. The area and fair market value of such portion of each tract not under development.

Notwithstanding any other provision of law and subject to the approval of the Board of Supervisors of Buchanan County, the commissioner of the revenue of the county may reassess gas wells and related improvements on an annual basis, provided that such gas wells and related improvements shall be reassessed in the general reassessment for the locality, as required by § 58.1-3287, and provided further a settlement agreement between the County and a taxpayer may provide a methodology for determining fair market value.

In the alternative to the procedure outlined in subdivision 1 above, any county or city may impose by ordinance a severance tax on all coal and gases extracted from the land lying within its jurisdiction. The rate of such tax shall not exceed one percent of the gross receipts from such coal or gases. Any such county or city may further require any producer of such coal or gases and any common carrier to maintain records showing the quantities of coal and gases which they have produced or transported, respectively.

If the surface of the land is held by one person, and the coal, iron and other minerals, mineral waters, gas or oil under the surface are held by another person, the estate therein of each and the relative fair market value of their respective interests shall be ascertained by the commissioner. If the surface of the land and the coal, iron and other minerals, mineral waters, gas or oil under the surface are owned by the same person, the commissioner shall ascertain the fair market value of the land, exclusive of the coal, iron, other minerals, mineral waters, gas or oils. He shall also ascertain the fair market value of the coal, iron, other minerals, mineral waters, gas, and oils and shall assess each at such ascertained values, stating separately in every case the value of the surface of the land and the value of the coal, iron, other minerals, mineral waters, gas and oils under the surface.

The commissioner of the revenue of any county or city is authorized to enter into agreements with taxpayers pertaining to the fair market value of the property taxed under this section. All such agreements entered into on or after January 1, 2013, but prior to July 1, 2014, between the commissioner of the revenue of any county or city and any taxpayer are deemed to be bona fide and are valid and enforceable.

§ 58.1-3712. Counties and cities authorized to levy severance tax on gases.

A. The governing body of any county or city may levy a license tax on every person engaging in the business of severing gases from the earth. Such tax shall be at a rate not to exceed one percent of the gross receipts from the sale of gases severed within such county. Such gross receipts shall be the fair market value measured at the time such gases are utilized or sold for utilization in such county or city or at the time they are placed in transit for shipment therefrom, provided that if the tax provided herein is levied, such county or city cannot enact the provisions of § 58.1-3286 relating to a tax on gross receipts. In calculating the fair market value, no person engaging in the production and operation of severing gases from the earth in connection with coal mining shall be allowed to take deductions, including but not limited to, depreciation, compression, marketing fees, overhead, maintenance, transportation fees, and personal property taxes.

B. Notwithstanding any other provision of this section or law, for purposes of calculating the fair market value of gases severed in Buchanan County, except as otherwise provided in a settlement agreement regarding the calculation of fair market value, including deductions for transportation and compression costs, between the County and the taxpayer, no person engaging in the production and operation of severing gases from the earth in connection with coal mining shall be allowed to take deductions, including but not limited to, depreciation, compression, marketing fees, overhead, maintenance, transportation fees, and personal property taxes.

C. Any county or city enacting a license tax under this section may require producers of gas and common carriers to maintain records and file reports showing the quantities of and receipts from gases which they have produced or transported.

D. The commissioner of the revenue of any county or city is authorized to enter into agreements with any taxpayer pertaining to the calculation of the fair market value of gases under this section. All such agreements entered into on or after January 1 2013, but prior to July 1, 2014, between the commissioner of the revenue of any county or city and any taxpayer are deemed bona fide and are valid and enforceable.

2. That the provisions of this act are declaratory of existing law.

CHAPTER 49

[H 9]

Be it enacted by the General Assembly of Virginia:

1. That § 46.2-1222.1 of the Code of Virginia is amended and reenacted as follows:

§ 46.2-1222.1. Regulation or prohibition of parking of certain vehicles in certain counties and towns.

A. The Counties of Arlington, Fairfax, Hanover, Stafford, and Prince William and the Towns of *Blackstone*, Clifton, Herndon, and Vienna may by ordinance regulate or prohibit the parking on any public highway in such county or town of any or all of the following: (i) watercraft; (ii) boat trailers; (iii) motor homes, as defined in § 46.2-100; and (iv) camping trailers, as defined in § 46.2-100.

3. Thirty cents per 100 pounds or major fraction thereof for a private motor vehicle other than a motorcycle with a normal seating capacity of more than 10 adults, including the driver, if the private motor vehicle is not used for the transportation of passengers for compensation and is not kept or used for rent or for hire or is not operated under a lease without a chauffeur. In no case shall the fee be less than \$23 if the vehicle weighs 4,000 pounds or less or \$28 if the vehicle weighs more than 4,000 pounds.

Such total mileage in each instance is the estimated total mileage to be traveled by such vehicles during the license year for which such fees are paid, subject to the adjustment in accordance with an audit to be made by representatives of the Commissioner at the end of such license year, the expense of such audit to be borne by the carrier being audited. Each vehicle passing into or through Virginia shall be registered and licensed in Virginia and the annual registration fee to be paid for each such vehicle shall not be less than \$33. In any case in which the local governing body grants the funds to a regional emergency medical services council to be distributed to the licensed, nonprofit emergency medical and rescue services, the local governing body shall remain responsible for the proper use of the funds. If, at the end of any fiscal year, a report on the use of the funds returned to the locality pursuant to this section for that year has not been received from a local governing body, any funds due to that local governing body for the next fiscal year shall be retained until such time as the report has been submitted to the Board.

B. All motor vehicles, trailers, and semitrailers registered as provided in subsection B of § 46.2-646 shall pay a registration fee equal to one-twelfth of all fees required by subsection A of this section or § 46.2-697 for such motor vehicle, trailer, or semitrailer, computed to the nearest cent, multiplied by the number of months in the registration period for such motor vehicles, trailers, and semitrailers.

C. The manufacturer's shipping weight or scale weight shall be used for computing all fees required by this section to be based upon the weight of the vehicle.

D. The applicant for registration bears the burden of proof that the vehicle for which registration is sought is entitled by weight, design, and use to be registered at the fee tendered by the applicant to the Commissioner or to his authorized agent.

Nothing in clause (ix) shall be construed to create an independent cause of action on the part of any beneficiary against the insurer or to require an insurer to provide information relating to such policy to any person other than the policyholder without the written consent of the policyholder. The parties to any petition where a child whose custody, visitation, or support is contested shall show proof that they have attended within the 12 months prior to their court appearance or that they shall attend within 45 days thereafter an educational seminar or other like program conducted by a qualified person or organization approved by the court except that the court may require the parties to attend such seminar or program in uncontested cases only if the court finds good cause. The order may provide for an extension of time beyond the 15 days, to become effective automatically. The person served may at any time file a written motion in the clerk's office requesting a hearing to dissolve or modify the order. Nothing in this section shall be construed to prohibit the court from extending an order entered under this subsection for such longer period of time as is deemed appropriate, after a hearing on notice to the parties. If the party subject to the order fails to appear at this hearing, the court may extend the order for a period not to exceed six months.

C. In cases other than those for divorce in which a custody or visitation arrangement for a minor child is sought, the court may enter an order providing for custody, visitation or maintenance pending the suit as provided in subsection A. CHAPTER 73

An Act to amend and reenact § 54.1-2972 of the Code of Virginia, relating to determination of death.

[H 541]

Approved March 3, 2014

Be it enacted by the General Assembly of Virginia:

1. That § 54.1-2972 of the Code of Virginia is amended and reenacted as follows:

§ 54.1-2972. When person deemed medically and legally dead; determination of death; nurses' or physician assistants' authority to pronounce death under certain circumstances.

A. A person shall be medically and legally dead if:

1. In the opinion of a physician duly authorized to practice medicine in this Commonwealth, based on the ordinary standards of medical practice, there is the absence of spontaneous respiratory and spontaneous cardiac functions and, because of the disease or condition which directly or indirectly caused these functions to cease, or because of the passage of time since these functions ceased, attempts at resuscitation would not, in the opinion of such physician, be successful in restoring spontaneous life-sustaining functions, and, in such event, death shall be deemed to have occurred at the time these functions ceased; or

2. In the opinion of a physician, who shall be duly licensed and a specialist in the field of neurology, neurosurgery, electroencephalography, or critical care medicine, when based on the ordinary standards of medical practice, there is the

absence of brain stem reflexes, spontaneous brain functions and spontaneous respiratory functions and, in the opinion of another physician and such specialist, based on the ordinary standards of medical practice and considering the absence of brain stem reflexes, spontaneous brain functions and spontaneous respiratory functions and the patient's medical record, further attempts at resuscitation or continued supportive maintenance would not be successful in restoring such reflexes or spontaneous functions, and, in such event, death shall be deemed to have occurred at the time when these conditions first coincide.

B. A registered nurse or a physician assistant who practices under the supervision of a physician may pronounce death if the following criteria are satisfied: (i) the nurse is employed by or the physician assistant works at (a) a home health organization as defined in § 32.1-162.7, (b) a hospice as defined in § 32.1-162.1, (c) a hospital or nursing home as defined in § 32.1-123, including state-operated hospitals for the purposes of this section, (d) the Department of Corrections, or (e) a continuing care retirement community registered with the State Corporation Commission pursuant to Chapter 49 (§ 38.2-4900 et seq.) of Title 38.2; (ii) the nurse or physician assistant is directly involved in the care of the patient; (iii) the patient's death has occurred; (iv) the patient is under the care of a physician when his death occurs; (v) the patient's death has been anticipated; (vi) the physician is unable to be present within a reasonable period of time to determine death; and (vii) there is a valid Do Not Resuscitate Order pursuant to § 54.1-2987.1 for the patient who has died. The nurse or physician assistant shall inform the patient's attending and consulting physicians of his death as soon as practicable.

The nurse or physician assistant shall have the authority to pronounce death in accordance with such procedural regulations, if any, as may be promulgated by the Board of Medicine; however, if the circumstances of the death are not anticipated or the death requires an investigation by a medical examiner, the nurse or physician assistant shall notify the chief medical examiner of the death and the body shall not be released to the funeral director.

This subsection shall not authorize a nurse or physician assistant to determine the cause of death. Determination of cause of death shall continue to be the responsibility of the attending physician, except as provided in § 32.1-263. Further, this subsection shall not be construed to impose any obligation to carry out the functions of this subsection.

This subsection shall not relieve any registered nurse or physician assistant from any civil or criminal liability that might otherwise be incurred for failure to follow statutes or Board of Nursing or Board of Medicine regulations.

C. Death, as defined in subdivision A 2, shall be determined by ~~one of the two physicians~~ *a specialist in the field of neurology, neurosurgery, electroencephalography, or critical care medicine* and recorded in the patient's medical record ~~and attested by the other physician. One of the two physicians determining or attesting to brain death may be the attending physician regardless of his specialty so long as at least one of the physicians is a specialist, as set out in subdivision A 2.~~

D. The alternative definitions of death provided in subdivisions A 1 and A 2 may be utilized for all purposes in the Commonwealth, including the trial of civil and criminal cases.

2. Persons of school age who are residents of the Commonwealth but who do not reside within the school division, except as provided in this section.
3. Persons of school age who are attending school in the school division pursuant to a foreign student exchange program approved by the school board.

5. Persons of school age who reside on a military or naval reservation located wholly or partly within the geographical boundaries of the school division and who are not domiciled residents of the Commonwealth of Virginia; however, no person of school age residing on a military or naval reservation located wholly or partly within the geographical boundaries of the school division may be charged tuition if federal funds provided under P.L. 874 of 1950, commonly known as Impact Aid, shall fund such students at not less than 50 percent of the total per capita cost of education, exclusive of capital outlay and debt service, for elementary or secondary pupils, as the case may be, of such school division. Notwithstanding any other provision of law to the contrary, such persons of school age who reside on a military or naval reservation with military-owned housing located wholly or partly within the geographical boundaries of multiple school divisions shall be deemed eligible for interscholastic programs immediately upon enrollment in a public elementary or secondary school in any of the aforementioned school divisions, provided that such persons (i) satisfy all other requirements for eligibility and (ii) are dependents of a military service member required by the military to live on the military installation as evidenced by a statement on command letterhead signed by, or by direction of, the service member's commanding officer.
6. Persons of school age who, as domiciled residents of the Commonwealth who were enrolled in a public school within the school division, are required as a result of military or federal orders issued to their parents to relocate and reside

For the purposes of determining the residency of persons described in subdivisions 1 and 2, local school boards shall adopt regulations consistent with the residency requirements regarding persons residing in housing or temporary shelter, or on property located in multiple jurisdictions, as articulated in § 22.1-3.

B. Persons of school age who are not residents of the Commonwealth but are living temporarily with persons residing within a school division may, in the discretion of the school board and pursuant to regulations adopted by it, be admitted to the public schools of the school division. Tuition shall be charged such persons.

C. No tuition charge authorized or required in this section shall exceed the total per capita cost of education, exclusive of capital outlay and debt service, for elementary or secondary pupils, as the case may be, of such school division and the actual, additional costs of any special education or gifted and talented program provided the pupil, except that if the tuition charge is payable by the school board of the school division of the pupil's residence pursuant to a contract entered into between the two school boards, the tuition charge shall be that fixed by such contract.

D. School boards may accept and provide programs for students for whom English is a second language who entered school in Virginia for the first time after reaching their twelfth birthday, and who have not reached 22 years of age on or before August 1 of the school year. § 22.1-224. Duties of State Board.

The Board of Education shall:

1. Require the development of adult education programs in every school division;
2. Encourage coordination in the development and provision of adult education programs between school boards and other state, federal, and local public and private agencies;

A. Local school boards shall provide adult education programs, in compliance with subdivision D 8 of § 22.1-253.13:1, for residents of the school division and, in their discretion, may charge appropriate fees to persons admitted to such programs.

B. With such funds as may be appropriated for the purposes of this article, school boards shall seek to ensure that every adult participating in such program has an opportunity to earn a ~~general educational development (GED) certificate~~ or a high school diploma *or pass a high school equivalency examination approved by the Board of Education.*

§ 22.1-253.13:3. Standard 3. Accreditation, other standards, assessments, and releases from state regulations.

A. The Board of Education shall promulgate regulations establishing standards for accreditation pursuant to the Administrative Process Act (§ 2.2-4000 et seq.), which shall include, but not be limited to, student outcome measures, requirements and guidelines for instructional programs and for the integration of educational technology into such instructional programs, administrative and instructional staffing levels and positions, including staff positions for supporting educational technology, student services, auxiliary education programs such as library and media services, course and credit requirements for graduation from high school, community relations, and the philosophy, goals, and objectives of public education in Virginia.

The Board of Education shall promulgate regulations establishing standards for accreditation of public virtual schools under the authority of the local school board that enroll students full time.

The Board shall review annually the accreditation status of all schools in the Commonwealth.

Each local school board shall maintain schools that are fully accredited pursuant to the standards for accreditation as prescribed by the Board of Education. Each local school board shall review the accreditation status of all schools in the local school division annually in public session. Within the time specified by the Board of Education, each school board shall submit corrective action plans for any schools within its school division that have been designated as not meeting the standards as approved by the Board.

When the Board of Education has obtained evidence through the school academic review process that the failure of schools within a division to achieve full accreditation status is related to division level failure to implement the Standards of Quality, the Board may require a division level academic review. After the conduct of such review and within the time specified by the Board of Education, each school board shall submit for approval by the Board a corrective action plan, consistent with criteria established by the Board and setting forth specific actions and a schedule designed to ensure that schools within its school division achieve full accreditation status. Such corrective action plans shall be part of the relevant school division's comprehensive plan pursuant to § 22.1-253.13:6.

With such funds as are appropriated or otherwise received for this purpose, the Board shall adopt and implement an academic review process, to be conducted by the Department of Education, to assist schools that are accredited with warning. The Department shall forward a report of each academic review to the relevant local school board, and such school board shall report the results of such academic review and the required annual progress reports in public session. The local school board shall implement any actions identified through the academic review and utilize them for improvement planning.

B. The Superintendent of Public Instruction shall develop and the Board of Education shall approve criteria for determining and recognizing educational performance in the Commonwealth's public school divisions and schools. Such criteria, when approved, shall become an integral part of the accreditation process and shall include student outcome measurements. The Superintendent of Public Instruction shall annually identify to the Board those school divisions and schools that exceed or do not meet the approved criteria. Such identification shall include an analysis of the strengths and weaknesses of public education programs in the various school divisions in Virginia and recommendations to the General Assembly for further enhancing student learning uniformly across the Commonwealth. In recognizing educational performance in the school divisions, the Board shall include consideration of special school division accomplishments, such as numbers of dual enrollments and students in Advanced Placement and International Baccalaureate courses, and participation in academic year Governor's Schools.

The Superintendent of Public Instruction shall assist local school boards in the implementation of action plans for increasing educational performance in those school divisions and schools that are identified as not meeting the approved criteria. The Superintendent of Public Instruction shall monitor the implementation of and report to the Board of Education on the effectiveness of the corrective actions taken to improve the educational performance in such school divisions and schools.

C. With such funds as are available for this purpose, the Board of Education shall prescribe assessment methods to determine the level of achievement of the Standards of Learning objectives by all students. Such assessments shall evaluate knowledge, application of knowledge, critical thinking, and skills related to the Standards of Learning being assessed. The Board shall (i) in consultation with the chairpersons of the eight regional superintendents' study groups, establish a timetable for administering the Standards of Learning assessments to ensure genuine end-of-course and end-of-grade testing and (ii) with the assistance of independent testing experts, conduct a regular analysis and validation process for these assessments.

In prescribing such Standards of Learning assessments, the Board shall provide local school boards the option of administering tests for United States History to 1877, United States History: 1877 to the Present, and Civics and Economics. The last administration of the cumulative grade eight history test will be during the 2007-2008 academic school year. Beginning with the 2008-2009 academic year, all school divisions shall administer the United States History to 1877, United States History: 1877 to the Present, and Civics and Economics tests. The Board shall also provide the option of industry certification and state licensure examinations as a student-selected verified credit.

The Board of Education shall make publicly available such assessments in a timely manner and as soon as practicable following the administration of such tests, so long as the release of such assessments does not compromise test security or deplete the bank of assessment questions necessary to construct subsequent tests, or limit the ability to test students on demand and provide immediate results in the web-based assessment system.

The Board shall include in the student outcome measures that are required by the Standards for Accreditation end-of-course or end-of-grade tests for various grade levels and classes, as determined by the Board, in accordance with the Standards of Learning. These Standards of Learning assessments shall include, but need not be limited to, end-of-course or end-of-grade tests for English, mathematics, science, and history and social science. Local school divisions shall provide targeted mathematics remediation and intervention to students in grades six through eight who show computational deficiencies as demonstrated by their individual performance on any diagnostic test or grade-level Standards of Learning mathematics test that measures non-calculator computational skills.

In addition, to assess the educational progress of students, the Board of Education shall (a) develop appropriate assessments, which may include criterion-referenced tests and alternative assessment instruments that may be used by classroom teachers; (b) select appropriate industry certification and state licensure examinations; and (c) prescribe and provide measures, which may include nationally normed tests to be used to identify students who score in the bottom quartile at selected grade levels. An annual justification that includes evidence that the student meets the participation criteria defined by the Virginia Department of Education shall be provided for each student considered for the Virginia Grade Level Alternative. Each Individual Education Program team shall review such justification and make the final determination as to whether or not the Virginia Grade Level Alternative is appropriate for the student. The superintendent and the school board chairman shall certify to the Board of Education, as a part of certifying compliance with the Standards of Quality, that there is a justification in the Individual Education Program for every student who takes the Virginia Grade Level Alternative. Compliance with this requirement shall be monitored as a part of the special education monitoring process conducted by the Department of Education. The Board shall report to the Governor and General Assembly in its annual reports pursuant to § 22.1-18 any school division that is not in compliance with this requirement.

The Standards of Learning requirements, including all related assessments, shall be waived for any student awarded a scholarship under the Brown v. Board of Education Scholarship Program, pursuant to § 30-231.2, who is enrolled in a preparation program for ~~the General Education Development (GED) certificate~~ *a high school equivalency examination approved by the Board of Education* or in an adult basic education program *or an adult secondary education program* to obtain the high school diploma *or a high school equivalency certificate*.

The Board of Education may adopt special provisions related to the administration and use of any Standards of Learning test or tests in a content area as applied to accreditation ratings for any period during which the Standards of Learning content or assessments in that area are being revised and phased in. Prior to statewide administration of such tests, the Board of Education shall provide notice to local school boards regarding such special provisions.

D. The Board of Education may pursue all available civil remedies pursuant to § 22.1-19.1 or administrative action pursuant to § 22.1-292.1 for breaches in test security and unauthorized alteration of test materials or test results.

The Board may initiate or cause to be initiated a review or investigation of any alleged breach in security, unauthorized alteration, or improper administration of tests, including the exclusion of students from testing who are required to be assessed, by local school board employees responsible for the distribution or administration of the tests.

Records and other information furnished to or prepared by the Board during the conduct of a review or investigation may be withheld pursuant to subdivision 11 of § 2.2-3705.3. However, this section shall not prohibit the disclosure of records to (i) a local school board or division superintendent for the purpose of permitting such board or superintendent to consider or to take personnel action with regard to an employee or (ii) any requester, after the conclusion of a review or investigation, in a form that (a) does not reveal the identity of any person making a complaint or supplying information to the Board on a confidential basis and (b) does not compromise the security of any test mandated by the Board. Any local school board or division superintendent receiving such records or other information shall, upon taking personnel action against a relevant employee, place copies of such records or information relating to the specific employee in such person's personnel file.

Notwithstanding any other provision of state law, no test or examination authorized by this section, including the Standards of Learning assessments, shall be released or required to be released as minimum competency tests, if, in the judgment of the Board, such release would breach the security of such test or examination or deplete the bank of questions necessary to construct future secure tests.

E. With such funds as may be appropriated, the Board of Education may provide, through an agreement with vendors having the technical capacity and expertise to provide computerized tests and assessments, and test construction, analysis, and security, for (i) web-based computerized tests and assessments for the evaluation of student progress during and after remediation and (ii) the development of a remediation item bank directly related to the Standards of Learning.

F. To assess the educational progress of students as individuals and as groups, each local school board shall require the use of Standards of Learning assessments and other relevant data, such as industry certification and state licensure examinations, to evaluate student progress and to determine educational performance. Each local school shall require the administration of appropriate assessments to all students for grade levels and courses identified by the Board of Education, which may include criterion-referenced tests, teacher-made tests and alternative assessment instruments and shall include the Standards of Learning Assessments and the National Assessment of Educational Progress state-by-state assessment.

Each school board shall analyze and report annually, in compliance with any criteria that may be established by the Board of Education, the results from the Stanford Achievement Test Series, Ninth Edition (Stanford Nine) assessment, if administered, industry certification examinations, and the Standards of Learning Assessments to the public.

The Board of Education shall not require administration of the Stanford Achievement Test Series, Ninth Edition (Stanford Nine) assessment, except as may be selected to facilitate compliance with the requirements for home instruction pursuant to § 22.1-254.1.

The Board shall include requirements for the reporting of the Standards of Learning assessment scores and averages for each year as part of the Board's requirements relating to the School Performance Report Card. Such scores shall be disaggregated for each school by student subgroups on the Virginia assessment program as appropriate and shall be reported to the public within three months of their receipt. These reports (i) shall be posted on the portion of the Department of Education's website relating to the School Performance Report Card, in a format and in a manner that allows year-to-year comparisons, and (ii) may include the National Assessment of Educational Progress state-by-state assessment.

G. Each local school division superintendent shall regularly review the division's submission of data and reports required by state and federal law and regulations to ensure that all information is accurate and submitted in a timely fashion. The Superintendent of Public Instruction shall provide a list of the required reports and data to division superintendents annually. The status of compliance with this requirement shall be included in the Board of Education's annual report to the Governor and the General Assembly as required by § 22.1-18.

H. Any school board may request the Board of Education for release from state regulations or, on behalf of one or more of its schools, for approval of an Individual School Accreditation Plan for the evaluation of the performance of one or more of its schools as authorized for certain other schools by the Standards of Accreditation pursuant to 8 VAC 20-131-280 C of the Virginia Administrative Code. Waivers of regulatory requirements may be granted by the Board of Education based on submission of a request from the division superintendent and chairman of the local school board. The Board of Education may grant, for a period up to five years, a waiver of regulatory requirements that are not (i) mandated by state or federal law or (ii) designed to promote health or safety. The school board shall provide in its waiver request a description of how the releases from state regulations are designed to increase the quality of instruction and improve the achievement of students in the affected school or schools. The Department of Education shall provide (a) guidance to any local school division that requests releases from state regulations and (b) information about opportunities to form partnerships with other agencies or entities to any local school division in which the school or schools granted releases from state regulations have demonstrated improvement in the quality of instruction and the achievement of students.

The Board of Education may also grant local school boards waivers of specific requirements in § 22.1-253.13:2, based on submission of a request from the division superintendent and chairman of the local school board, permitting the local school board to assign instructional personnel to the schools with the greatest needs, so long as the school division employs a sufficient number of personnel divisionwide to meet the total number required by § 22.1-253.13:2 and all pupil/teacher ratios and class size maximums set forth in subsection C of § 22.1-253.13:2 are met. The school board shall provide in its request a description of how the waivers from specific Standards of Quality staffing standards are designed to increase the quality of instruction and improve the achievement of students in the affected school or schools. The waivers may be renewed in up to five-year increments, or revoked, based on student achievement results in the affected school or schools.

§ 22.1-253.13:4. Standard 4. Student achievement and graduation requirements.

A. Each local school board shall award diplomas to all secondary school students, including students who transfer from nonpublic schools or from home instruction, who earn the units of credit prescribed by the Board of Education, pass the prescribed tests, and meet such other requirements as may be prescribed by the local school board and approved by the Board of Education. Provisions shall be made to facilitate the transfer and appropriate grade placement of students from other public secondary schools, from nonpublic schools, or from home instruction as outlined in the standards for accreditation. Course credits earned for online courses taken in the Department of Education's Virtual Virginia program shall transfer to Virginia public schools in accordance with provisions of the standards for accreditation. Further, reasonable accommodation to meet the requirements for diplomas shall be provided for otherwise qualified students with disabilities as needed.

In addition, each local school board may devise, vis-a-vis the award of diplomas to secondary school students, a mechanism for calculating class rankings that takes into consideration whether the student has taken a required class more than one time and has had any prior earned grade for such required class expunged.

Each local school board shall notify the parents of rising eleventh and twelfth grade students of (i) the number and subject area requirements of standard and verified units of credit required for graduation pursuant to the standards for accreditation and (ii) the remaining number and subject area requirements of such units of credit the individual student requires for graduation.

B. Students identified as disabled who complete the requirements of their individualized education programs shall be awarded special diplomas by local school boards.

Each local school board shall notify the parent of such students with disabilities who have an individualized education program and who fail to meet the requirements for a standard or advanced studies diploma of the student's right to a free and appropriate education to age 21, inclusive, pursuant to Article 2 (§ 22.1-213 et seq.) of Chapter 13.

C. Students who have completed a prescribed course of study as defined by the local school board shall be awarded certificates of program completion by local school boards if they are not eligible to receive a Board of Education-approved diploma.

Each local school board shall provide notification of the right to a free public education for students who have not reached 20 years of age on or before August 1 of the school year, pursuant to Chapter 1 (§ 22.1-1 et seq.), to the parent of students who fail to graduate or who have failed to achieve the number of verified units of credit required for graduation as provided in the standards for accreditation. If such student who does not graduate or achieve such verified units of credit is a student for whom English is a second language, the local school board shall notify the parent of the student's opportunity for a free public education in accordance with § 22.1-5.

D. In establishing course and credit requirements for a high school diploma, the Board shall:

1. Provide for the selection of integrated learning courses meeting the Standards of Learning and approved by the Board to satisfy graduation credit requirements, which shall include Standards of Learning testing, as necessary.

2. Establish the requirements for a standard and an advanced studies high school diploma, which shall each include at least one credit in fine or performing arts or career and technical education and one credit in United States and Virginia history. The requirements for a standard high school diploma shall, however, include at least two sequential electives chosen from a concentration of courses selected from a variety of options that may be planned to ensure the completion of a focused sequence of elective courses. Such focused sequence of elective courses shall provide a foundation for further education or training or preparation for employment. The advanced studies diploma shall be the recommended diploma for students pursuing baccalaureate study. Both the standard and the advanced studies diploma shall prepare students for post-secondary education and the career readiness required by the Commonwealth's economy.

Beginning with first-time ninth grade students in the 2013-2014 school year, requirements for the standard diploma shall include a requirement to earn a career and technical education credential that has been approved by the Board, that could include, but not be limited to, the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, or the Virginia workplace readiness skills assessment.

Beginning with first-time ninth grade students in the 2016-2017 school year, requirements for the standard and advanced diplomas shall include a requirement to be trained in emergency first aid, cardiopulmonary resuscitation, and the use of automated external defibrillators, including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation.

The Board shall make provision in its regulations for students with disabilities to earn a standard diploma.

3. Provide, in the requirements to earn a standard or advanced studies diploma, the successful completion of one virtual course. The virtual course may be a noncredit-bearing course.

4. Provide, in the requirements for the verified units of credit stipulated for obtaining the standard or advanced studies diploma, that students completing elective classes into which the Standards of Learning for any required course have been integrated may take the relevant Standards of Learning test for the relevant required course and receive, upon achieving a satisfactory score on the specific Standards of Learning assessment, a verified unit of credit for such elective class that shall be deemed to satisfy the Board's requirement for verified credit for the required course.

5. Establish a procedure to facilitate the acceleration of students that allows qualified students, with the recommendation of the division superintendent, without completing the 140-hour class, to obtain credit for such class upon demonstration of mastery of the course content and objectives. Having received credit for the course, the student shall be permitted to sit for the relevant Standards of Learning assessment and, upon receiving a passing score, shall earn a verified credit. Nothing in this section shall preclude relevant school division personnel from enforcing compulsory attendance in public schools.

6. Provide for the award of verified units of credit for passing scores on industry certifications, state licensure examinations, and national occupational competency assessments approved by the Board of Education.

School boards shall report annually to the Board of Education the number of Board-approved industry certifications obtained, state licensure examinations passed, national occupational competency assessments passed, Virginia workplace readiness skills assessments passed, and the number of career and technical education completers who graduated. These numbers shall be reported as separate categories on the School Performance Report Card.

For the purposes of this subdivision, "career and technical education completer" means a student who has met the requirements for a career and technical concentration or specialization and all requirements for high school graduation or an approved alternative education program.

In addition, the Board may:

a. For the purpose of awarding verified units of credit, approve the use of additional or substitute tests for the correlated Standards of Learning assessment, such as academic achievement tests, industry certifications or state licensure examinations; and

b. Permit students completing career and technical education programs designed to enable such students to pass such industry certification examinations or state licensure examinations to be awarded, upon obtaining satisfactory scores on such industry certification or licensure examinations, the appropriate verified units of credit for one or more career and technical education classes into which relevant Standards of Learning for various classes taught at the same level have been integrated. Such industry certification and state licensure examinations may cover relevant Standards of Learning for

various required classes and may, at the discretion of the Board, address some Standards of Learning for several required classes.

7. Provide for the waiver of certain graduation requirements (i) upon the Board's initiative or (ii) at the request of a local school board. Such waivers shall be granted only for good cause and shall be considered on a case-by-case basis.

E. In the exercise of its authority to recognize exemplary academic performance by providing for diploma seals, the Board of Education shall develop criteria for recognizing exemplary performance in career and technical education programs by students who have completed the requirements for a Board of Education-approved diploma and shall award seals on the diplomas of students meeting such criteria.

In addition, the Board shall establish criteria for awarding a diploma seal for advanced mathematics and technology for the Board of Education-approved diplomas. The Board shall consider including criteria for (i) technology courses; (ii) technical writing, reading, and oral communication skills; (iii) technology-related training; and (iv) industry, professional, and trade association national certifications.

The Board shall also establish criteria for awarding a diploma seal for excellence in civics education and understanding of our state and federal constitutions and the democratic model of government for the Board of Education-approved diplomas. The Board shall consider including criteria for (i) successful completion of history, government, and civics courses, including courses that incorporate character education; (ii) voluntary participation in community service or extracurricular activities that includes the types of activities that shall qualify as community service and the number of hours required; and (iii) related requirements as it deems appropriate.

F. The Board shall establish, by regulation, requirements for the award of a general achievement adult high school diploma for those persons who are not subject to the compulsory school attendance requirements of § 22.1-254 and have (i) achieved a passing score on ~~the GED examination~~ *a high school equivalency examination approved by the Board of Education*; (ii) successfully completed an education and training program designated by the Board of Education; (iii) earned a Board of Education-approved career and technical education credential such as the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, or the Virginia workplace readiness skills assessment; and (iv) satisfied other requirements as may be established by the Board for the award of such diploma.

G. To ensure the uniform assessment of high school graduation rates, the Board shall collect, analyze, and report high school graduation and dropout data using a formula prescribed by the Board.

The Board may promulgate such regulations as may be necessary and appropriate for the collection, analysis, and reporting of such data.

§ 22.1-254. Compulsory attendance required; excuses and waivers; alternative education program attendance; exemptions from article.

A. Except as otherwise provided in this article, every parent, guardian, or other person in the Commonwealth having control or charge of any child who will have reached the fifth birthday on or before September 30 of any school year and who has not passed the eighteenth birthday shall, during the period of each year the public schools are in session and for the same number of days and hours per day as the public schools, send such child to a public school or to a private, denominational, or parochial school or have such child taught by a tutor or teacher of qualifications prescribed by the Board of Education and approved by the division superintendent, or provide for home instruction of such child as described in § 22.1-254.1.

As prescribed in the regulations of the Board of Education, the requirements of this section may also be satisfied by sending a child to an alternative program of study or work/study offered by a public, private, denominational, or parochial school or by a public or private degree-granting institution of higher education. Further, in the case of any five-year-old child who is subject to the provisions of this subsection, the requirements of this section may be alternatively satisfied by sending the child to any public educational pre-kindergarten program, including a Head Start program, or in a private, denominational, or parochial educational pre-kindergarten program.

Instruction in the home of a child or children by the parent, guardian, or other person having control or charge of such child or children shall not be classified or defined as a private, denominational or parochial school.

The requirements of this section shall apply to (i) any child in the custody of the Department of Juvenile Justice or the Department of Corrections who has not passed his eighteenth birthday and (ii) any child whom the division superintendent has required to take a special program of prevention, intervention, or remediation as provided in subsection C of § 22.1-253.13:1 and in § 22.1-254.01. The requirements of this section shall not apply to (a) any person 16 through 18 years of age who is housed in an adult correctional facility when such person is actively pursuing ~~a general educational development (GED) certificate~~ *the achievement of a passing score on a high school equivalency examination approved by the Board of Education* but is not enrolled in an individual student alternative education plan pursuant to subsection E, and (b) any child who has obtained a high school diploma or its equivalent, a certificate of completion, or ~~a GED certificate~~ *has achieved a passing score on a high school equivalency examination approved by the Board of Education*, or who has otherwise complied with compulsory school attendance requirements as set forth in this article.

B. A school board shall excuse from attendance at school:

1. Any pupil who, together with his parents, by reason of bona fide religious training or belief is conscientiously opposed to attendance at school. For purposes of this subdivision, "bona fide religious training or belief" does not include essentially political, sociological or philosophical views or a merely personal moral code; and

2. On the recommendation of the juvenile and domestic relations district court of the county or city in which the pupil resides and for such period of time as the court deems appropriate, any pupil who, together with his parents, is opposed to attendance at a school by reason of concern for such pupil's health, as verified by competent medical evidence, or by reason of such pupil's reasonable apprehension for personal safety when such concern or apprehension in that pupil's specific case is determined by the court, upon consideration of the recommendation of the principal and division superintendent, to be justified.

C. Each local school board shall develop policies for excusing students who are absent by reason of observance of a religious holiday. Such policies shall ensure that a student shall not be deprived of any award or of eligibility or opportunity to compete for any award, or of the right to take an alternate test or examination, for any which he missed by reason of such absence, if the absence is verified in a manner acceptable to the school board.

D. A school board may excuse from attendance at school:

1. On recommendation of the principal and the division superintendent and with the written consent of the parent or guardian, any pupil who the school board determines, in accordance with regulations of the Board of Education, cannot benefit from education at such school; or

2. On recommendation of the juvenile and domestic relations district court of the county or city in which the pupil resides, any pupil who, in the judgment of such court, cannot benefit from education at such school.

E. Local school boards may allow the requirements of subsection A to be met under the following conditions:

The Department shall endeavor to develop placements for VIEW participants that will enable participants to develop job skills that are likely to result in independent employment and that take into consideration the proficiency, experience, skills and prior training of a participant.

VIEW shall recognize clearly defined responsibilities and obligations on the part of public assistance recipients and shall include a written agreement of personal responsibility requiring parents to participate in work activities while receiving TANF, earned-income disregards to reduce disincentives to work, and a limit on TANF financial assistance.

VIEW shall require all able-bodied recipients of TANF who do not meet an exemption to participate in a work activity. VIEW shall require eligible TANF recipients to participate in unsubsidized, partially subsidized or fully subsidized employment or other allowable TANF work activity as defined by federal law and enter into an agreement of personal responsibility.

B. To the maximum extent permitted by federal law, and notwithstanding other provisions of Virginia law, the Department and local departments may, through applicable procurement laws and regulations, engage the services of public and private organizations to operate VIEW and to provide services incident to such operation.

C. All VIEW participants shall be under the direction and supervision of a case manager.

D. The Department shall ensure that participants are assigned to one of the following work activities within 90 days after the approval of TANF assistance:

1. Unsubsidized private-sector employment;
2. Subsidized employment, as follows:

a. The Department shall conduct a program in accordance with this section that shall be known as the Full Employment Program (FEP). FEP replaces TANF with subsidized employment. Persons not able to find unsubsidized employment who are otherwise eligible for TANF may participate in FEP unless exempted by this chapter. FEP shall assign participants to subsidized wage-paying private-sector jobs designed to increase the participants' self-sufficiency and improve their competitive position in the workforce.

b. Participants in FEP shall be placed in full-time employment when appropriate and shall be paid by the employer at an hourly rate not less than the federal or state minimum wage, whichever is higher. At no point shall a participant's spendable income received from wages and tax credits be less than the value of TANF received prior to the work placement.

c. Every employer subject to the Virginia unemployment insurance tax shall be eligible for assignment of FEP participants, but no employer shall be required to utilize such participants. Employers shall ensure that jobs made available to FEP participants are in conformity with § 3304(a)(5) of the Federal Unemployment Tax Act. FEP participants cannot be used to displace regular workers.

d. FEP employers shall:

(i) Endeavor to make FEP placements positive learning and training experiences;

(ii) Provide on-the-job training to the degree necessary for the participants to perform their duties;

(iii) Pay wages to participants at the same rate that they are paid to other employees performing the same type of work and having similar experience and employment tenure;

(iv) Provide sick leave, holiday and vacation benefits to participants to the same extent and on the same basis that they are provided to other employees performing the same type of work and having similar employment experience and tenure;

(v) Maintain health, safety and working conditions at or above levels generally acceptable in the industry and no less than those in which other employees perform the same type of work;

(vi) Provide workers' compensation coverage for participants;

(vii) Encourage volunteer mentors from among their other employees to assist participants in becoming oriented to work and the workplace; and

(viii) Sign an agreement with the local department outlining the employer requirements to participate in FEP. All agreements shall include notice of the employer's obligation to repay FEP reimbursements in the event the employer violates FEP rules.

e. As a condition of FEP participation, employers shall be prohibited from discriminating against any person, including program participants, on the basis of race, color, sex, national origin, religion, age, or disability;

3. Part-time or temporary employment;

4. Community work experience, as follows:

a. The Department and local departments shall work with other state, regional and local agencies and governments in developing job placements that serve a useful public purpose as provided in § 482(f) of the Social Security Act, as amended. Placements shall be selected to provide skills and serve a public function. VIEW participants shall not displace regular workers.

b. The number of hours per week for participants shall be determined by combining the total dollar amount of TANF and food stamps and dividing by the minimum wage with a maximum of a work week of 32 hours, of which up to 12 hours of employment-related education and training may substitute for work experience employment; or

5. Any other allowable TANF work activity as defined by federal law.

E. Notwithstanding the provisions of subsections A and D, if a local department determines that a VIEW participant is in need of job skills and would benefit from immediate job skills training, it may place the participant in a ~~general educational development (GED)~~ program *preparing individuals for a high school equivalency examination approved by the Board of Education* or a career and technical education program targeted at skills required for particular employment opportunities. Eligible participants include those with problems related to obtaining and retaining employment, such as participants (i) with less than a high school education, (ii) whose reading or math skills are at or below the eighth grade level, (iii) who have not retained a job for a period of at least six months during the prior two years, or (iv) who are in a treatment program for a substance abuse problem or are receiving services through a family violence treatment program. The VIEW participant may continue in a ~~GED~~ *high school equivalency examination preparation* program or career and technical education program for as long as the local department determines he is progressing satisfactorily and to the extent permitted by the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (P.L. 104-193), as amended.

F. Participants may be reevaluated after a period determined by the local department and reassigned to another work component. In addition, the number of hours worked may be reduced by the local department so that a participant may complete additional training or education to further his employability.

G. Local departments shall be authorized to sanction parents up to the full amount of the TANF grant for noncompliance, unless good cause exists.

H. VIEW participants shall not be assigned to projects that require that they travel unreasonable distances from their homes or remain away from their homes overnight without their consent.

Any injury to a VIEW participant arising out of and in the course of community work experience shall be covered by the participant's existing Medicaid coverage. If a community work experience participant is unable to work due to such an accident, his status shall be reviewed to determine whether he is eligible for an exemption from the limitation on TANF financial assistance.

A community work experience participant who becomes incapacitated for 30 days or more shall be eligible for TANF financial assistance for the duration of the incapacity, if otherwise eligible.

The Board shall adopt regulations providing for the accrual of paid sick leave or other equivalent mechanism for community work experience participants.

§ 66-3. Powers of the Director.

A. The Director of the Department shall have the following general powers:

1. To employ such personnel as may be required to carry out the purposes of this title.
 2.  7. To designate employees of the Department with internal investigations authority to have the same power as a sheriff or a law-enforcement officer in the investigation of allegations of criminal behavior affecting the operations of the Department. Such employees shall be subject to any minimum training standards established by the Department of Criminal Justice Services under § 9.1-102 for law-enforcement officers prior to exercising any law-enforcement power granted under this subdivision. CHAPTER 85

An Act to amend and reenact § 16.1-88.2 of the Code of Virginia, relating to medical reports as evidence; general district court.

[H 1037]

Approved March 3, 2014

Be it enacted by the General Assembly of Virginia:**1. That § 16.1-88.2 of the Code of Virginia is amended and reenacted as follows:****§ 16.1-88.2. Evidence of medical reports or records; testimony of health care provider or custodian of records.**

In a civil suit tried in a general district court or appealed to the circuit court to recover damages for personal injuries or to resolve any dispute with an insurance company or health care provider, either party may present evidence as to the extent, nature, and treatment of the injury, the examination of the person so injured, and the costs of such treatment and examination by the following:

1. A report from the treating or examining health care provider as defined in § 8.01-581.1. Such medical report shall be admitted if the party intending to present evidence by the use of a report gives the opposing party or parties a copy of the report and written notice of such intention 10 days in advance of trial and if attached to such report is a sworn statement of ~~(i) the treating or examining health care provider that~~ ~~(i)~~ *(a) the person named therein was treated or examined by such health care provider;* ~~(ii)~~ *(b) the information contained in the report is true and accurate and fully descriptive as to the nature and extent of the injury;* and ~~(iii)~~ *(c) any statement of costs contained in the report is true and accurate or (ii) the custodian of such report that the same is a true and accurate copy of the report;* or
2. The records or bills of a hospital or similar medical facility at which the treatment or examination was performed. Such hospital or other medical facility records or bills shall be admitted if (i) the party intending to present evidence by the use of records or bills gives the opposing party or parties a copy of the records or bills and written notice of such intention

10 days in advance of trial and (ii) attached to the records or bills is a sworn statement of the custodian thereof that the same is a true and accurate copy of the records or bills of such hospital or other medical facility.

If, thereafter, the plaintiff or defendant summons the health care provider or custodian making such statement to testify in proper person or by deposition, the court shall determine which party shall pay the fee and costs for such appearance or depositions, or may apportion the same among the parties in such proportions as the ends of justice may require. If such health care provider or custodian is not subject to subpoena for cross-examination in court or by a deposition, then the court shall allow a reasonable opportunity for the party seeking the subpoena for such health care provider or custodian to obtain his testimony as the ends of justice may require. The plaintiff may only present evidence pursuant to this section in circuit court if he has not requested an amount in excess of the ad damnum in the motion for judgment filed in the general district court.

CHAPTER 86

An Act to amend and reenact § 8.01-380 of the Code of Virginia, relating to nonsuits; tolling.

[H 1041]

Approved March 3, 2014

Be it enacted by the General Assembly of Virginia:

1. That § 8.01-380 of the Code of Virginia is amended and reenacted as follows:

§ 8.01-380. Dismissal of action by nonsuit; fees and costs.

A. A party shall not be allowed to suffer a nonsuit as to any cause of action or claim, or any other party to the proceeding, unless he does so before a motion to strike the evidence has been sustained or before the jury retires from the bar or before the action has been submitted to the court for decision. After a nonsuit no new proceeding on the same cause of action or against the same party shall be had in any court other than that in which the nonsuit was taken, unless that court is without jurisdiction, or not a proper venue, or other good cause is shown for proceeding in another court, or when such new proceeding is instituted in a federal court. If after a nonsuit an improper venue is chosen, the court shall not dismiss the matter but shall transfer it to the proper venue upon motion of any party.

B. Only one nonsuit may be taken to a cause of action or against the same party to the proceeding, as a matter of right, although the court may allow additional nonsuits upon reasonable notice to counsel of record for all defendants and upon a reasonable attempt to notify any party not represented by counsel, or counsel may stipulate to additional nonsuits. The court, in the event additional nonsuits are allowed, may assess costs and reasonable attorney fees against the nonsuiting party. When suffering a nonsuit, a party shall inform the court if the cause of action has been previously nonsuited. Any order effecting a subsequent nonsuit shall reflect all prior nonsuits and shall include language that reflects the date of any previous nonsuit together with the court in which any previous nonsuit was taken.

C. If notice to take a nonsuit of right is given to the opposing party within seven days of trial or during trial, the court in its discretion may assess against the nonsuiting party reasonable witness fees and travel costs of expert witnesses scheduled to appear at trial, which are actually incurred by the opposing party, solely by reason of the failure to give notice at least seven days prior to trial. The court shall have the authority to determine the reasonableness of expert witness fees and travel costs. Invoices, receipts, or confirmation of payment shall be admissible to prove reasonableness without the need to offer testimony to support the authenticity or reasonableness of such documents, and may, in the court's discretion, satisfy the reasonableness requirement under this subsection. Nothing herein shall preclude any party from offering additional evidence or testimony to support or rebut the reasonableness requirement.

D. A party shall not be allowed to nonsuit a cause of action, without the consent of the adverse party who has filed a counterclaim, cross claim or third-party claim which arises out of the same transaction or occurrence as the claim of the party desiring to nonsuit unless the counterclaim, cross claim or third-party claim can remain pending for independent adjudication by the court.

E. *A voluntary nonsuit taken pursuant to this section is subject to the tolling provisions of subdivision E 3 of § 8.01-229.*

CHAPTER 87

1. That § 33.1-23.1 of the Code of Virginia is amended and reenacted as follows:

§ 33.1-23.1. Allocation of funds among highway systems.

A. The Commonwealth Transportation Board shall allocate each year from all funds made available for highway purposes such amount as it deems reasonable and necessary for the maintenance of roads within the interstate system of highways, the primary system of state highways, the secondary system of state highways and for city and town street

maintenance payments made pursuant to § 33.1-41.1 and payments made to counties which have withdrawn or elect to withdraw from the secondary system of state highways pursuant to § 33.1-23.5:1.

B. After funds are set aside for administrative and general expenses and pursuant to other provisions in this title that provide for the disposition of funds prior to allocation for highway purposes, and after allocation is made pursuant to subsection A, the Commonwealth Transportation Board shall allocate an amount determined by the Board, not to exceed \$500 million in any given year, as follows: 25 percent to bridge reconstruction and rehabilitation; 25 percent to advancing high priority projects statewide; 25 percent to reconstructing deteriorated interstate ~~and~~ primary system, *and municipality maintained primary extension* pavements determined to have a Combined Condition Index of less than 60; 15 percent to projects undertaken pursuant to the Public-Private Transportation Act of 1995 (§ 56-556 et seq.); five percent to paving unpaved roads carrying more than ~~200~~ 50 vehicles per day; and five percent to smart roadway technology, provided that, at the discretion of the Commonwealth Transportation Board, such percentages of funds may be adjusted in any given year to meet project cash flow needs or when funds cannot be expended due to legal, environmental, or other project management considerations and provided that such allocations shall cease beginning July 1, 2020. After such allocations are made, the Board may allocate each year up to 10 percent of the funds remaining for highway purposes for the undertaking and financing of rail projects that, in the Board's determination, will result in mitigation of highway congestion. After the foregoing allocations have been made, the Board shall allocate the remaining funds available for highway purposes, exclusive of federal funds for the interstate system, among the several highway systems for construction first pursuant to §§ 33.1-23.1:1 and 33.1-23.1:2 and then as follows:

1. Forty percent of the remaining funds exclusive of federal-aid matching funds for the interstate system shall be allocated to the primary system of state highways, including the arterial network, and in addition, an amount shall be allocated to the primary system as interstate matching funds as provided in subsection B of § 33.1-23.2.

2. Thirty percent of the remaining funds exclusive of federal-aid matching funds for the interstate system shall be allocated to urban highways for state aid pursuant to § 33.1-44.

3. Thirty percent of the remaining funds exclusive of federal-aid matching funds for the interstate system shall be allocated to the secondary system of state highways.

C. In addition, the Commonwealth Transportation Board, from funds appropriated for such purpose in the general appropriation act, shall allocate additional funds to the Cities of Newport News, Norfolk, and Portsmouth and the County of Warren in such manner and apportion such funds among such localities as the Board may determine, unless otherwise provided in the general appropriation act. The localities shall use such funds to address highway maintenance and repair needs created by or associated with port operations in those localities.

D. Notwithstanding the foregoing provisions of this section, the General Assembly may, through the general appropriations act, permit the Governor to increase the amounts to be allocated to highway maintenance, highway construction, either or both.

E. As used in this section:

"Bridge reconstruction and rehabilitation" means reconstruction and rehabilitation of those bridges identified by the Department of Transportation as being functionally obsolete or structurally deficient.

"High priority projects" means those projects of regional or statewide significance identified by the Board that reduce congestion, increase safety, create jobs, or increase economic development.

"Smart roadway technology" means those projects or programs identified by the Board that reduce congestion, improve mobility, improve safety, provide up-to-date travel data, or improve emergency response.

This section shall not interfere with any prescriber issuing prescriptions in compliance with his authority and scope of practice and the provisions of this section to a Board agent for use pursuant to subsection G of § 18.2-258.1. Such prescriptions issued by such prescriber shall be deemed to be valid prescriptions.

S. C. In addition to funds that may be provided pursuant to subsection B, any of the Confederate memorial associations and chapters of the United Daughters of the Confederacy set forth in subsection B may apply to the Director for grants to perform extraordinary maintenance, renovation, repair or reconstruction of any of their respective Confederate cemeteries and graves and for the graves of Confederate soldiers and sailors. These grants shall be made from any appropriation made available by the General Assembly for such purpose. In making such grants, the Director shall give full consideration to the assistance available from the United States Department of Veterans Affairs, or other agencies, except in those instances where such assistance is deemed by the Director to be detrimental to the historical, artistic or architectural significance of the site.

D. Local matching funds shall not be required for grants made pursuant to this section.

CHAPTER 111

An Act to amend and reenact §§ 45.1-241, 45.1-270.3, and 45.1-270.4 of the Code of Virginia, relating to the Virginia Coal Surface Mining Control and Reclamation Act of 1979.

[S 560]

Approved March 3, 2014

Be it enacted by the General Assembly of Virginia:

1. That §§ 45.1-241, 45.1-270.3, and 45.1-270.4 of the Code of Virginia are amended and reenacted as follows:

§ 45.1-241. Performance bonds.

A. After a coal surface mining permit application has been approved, but before such permit is issued, the applicant shall file with the Director on a form prescribed and furnished by the Director, a bond for performance payable to the Commonwealth and conditioned upon faithful performance of all the requirements of this chapter and the permit. The bond shall cover that area of land within the permit area upon which the operator will initiate and conduct surface coal mining and reclamation operations within the initial term of the permit. As succeeding increments of coal surface mining and reclamation operations are initiated and conducted within the permit area, the permittee shall file with the Director an additional bond or bonds to cover such increments in accordance with this section. The amount of the bond required for each bonded area shall depend upon the reclamation requirements of the approved permit, shall reflect the probable difficulty of reclamation giving consideration to such factors as topography, geology of the site, hydrology, and revegetation potential, and shall be determined by the Director. The amount of the bond shall be sufficient to assure the completion of the reclamation plan if the work has to be performed by the Director in the event of forfeiture, but in no case shall the bond for the entire area under one permit be less than \$10,000.

B. Liability under the bond shall be for the duration of the coal surface mining and reclamation operation and for a period coincident with the operator's responsibility for revegetation as required under regulations promulgated pursuant to § 45.1-242. The bond shall be executed by the operator and a corporate surety licensed to do business in the Commonwealth, except that the operator may elect to deposit cash, negotiable bonds of the United States Government or of the Commonwealth, or negotiable certificates of deposit of any bank organized for transacting business in the United States. The cash deposit or market value of such securities shall be equal to or greater than the amount of the bond required for the bonded area.

C. ~~The Director may accept the bond of the applicant itself without separate surety when the applicant demonstrates to the satisfaction of the Director, pursuant to regulations, the existence of a suitable agent to receive service of process and a history of financial solvency and continuous operation sufficient for authorization to self-insure or bond such amount.~~ The Director may also accept a letter of credit on certain designated funds issued by a financial institution authorized to do business in the United States. The letters of credit shall be irrevocable, unconditional, shall be payable to the Department upon demand, and shall afford to the Department protection equivalent to a corporate surety's bond. The issuer of the letter of credit shall give prompt notice to the permittee and the Department of any notice received or action filed alleging the insolvency or bankruptcy of the issuer, or alleging any violations of regulatory requirements which could result in suspension or revocation of the issuer's charter or license to do business. In the event the issuer becomes unable to fulfill its obligations under the letter of credit for any reason, the issuer shall immediately notify the permittee and the Department. Upon the incapacity of an issuer by a reason of bankruptcy, insolvency or suspension or revocation of its charter or license, the permittee shall be deemed to be without proper performance bond coverage and shall promptly notify the Department, and the Department shall then issue a notice to the permittee specifying a reasonable period, which shall not exceed ninety days, to replace bond coverage. If an adequate bond is not posted by the end of the period allowed, the permittee shall cease coal extraction and coal processing operations and shall immediately begin to conduct reclamation operations in accordance with the reclamation plan. Coal extraction and coal processing operations shall not resume until the Department has determined that an acceptable bond has been posted. If an acceptable bond has not been posted by the end of the period allowed, the Department may suspend the permit until acceptable bond is posted. The letter of credit shall be provided on the form and format established by the Director. Nothing herein shall relieve the permittee of responsibility under the permit or the issuer of liability on the letter of credit. The Director is further authorized to develop and promulgate an alternative system that will achieve the objectives and purposes of the bonding program established under this section.

D. Cash or securities so deposited shall be deposited upon the same terms as the terms upon which surety bonds may be deposited. Such securities shall be security for the repayment of such negotiable certificate of deposit.

E. The amount of the bond or deposit required and the terms of each acceptance of the applicant's bond shall be adjusted by the Director from time to time as affected land acreages are increased or decreased or where the cost of future reclamation changes.

§ 45.1-270.3. Initial payments into Fund; renewal payments; bonds.

A. Operators filing permit applications for coal surface mining operations participating in the pool fund shall be required to pay into the Fund, as an entrance fee, a sum equal to \$1,000 for each applicable permit application. An entrance fee of \$5,000 shall be required of all operators who elect to participate in the Fund when the Director has determined the total balance of the Fund is less than \$1,750,000 ~~pursuant to subsection B of § 45.1-270.4.~~ The entrance fee shall be reduced to \$1,000 when the total Fund balance is greater than ~~\$2,000,000 \$2 million pursuant to subsection C of § 45.1-270.4.~~ A renewal fee of \$1,000 shall be required of all permittees in the Fund at permit renewal.

1. *For the purposes of this section, all planned expenditures shall be deducted from the balance of the Fund during each calendar quarter, including forfeitures on which engineering cost estimates have been prepared, but no money has actually been expended from the Fund.*

2. *Should the actual expenditures from the Fund be less than the engineering cost estimate, then the difference shall be credited to the balance of the Fund during the calendar quarter in which the final expenditure is made from the Fund to accomplish the reclamation.*

B. In addition to the initial payments into the Fund described in subsection A of this section, all operators that participate in the Fund shall furnish to the Fund a bond which meets the criteria of § 45.1-241 and regulations issued pursuant thereto as follows:

1. For those underground mining operations participating in the Fund prior to July 1, 1991, the amount of \$1,000 per acre covered by each permit. In no event shall such total bond be less than \$40,000, except that on permits which have completed all mining and for which completion reports have been approved prior to July 1, 1991, the total bond shall not be less than \$10,000.

2. For underground mining operations entering the Fund on or after July 1, 1991, and for additional acreage bonded on or after July 1, 1991, the amount of \$3,000 per acre. In no event shall the total bond for such underground operations entering the Fund on or after July 1, 1991, be less than \$40,000.

3. For other coal mining operations participating in the Fund prior to July 1, 1991, the amount of \$1,500 per acre covered by each permit. In no event shall such total bond be less than \$100,000, except that on permits which have completed all mining and for which completion reports have been approved prior to July 1, 1991, the total bond shall not be less than \$25,000.

4. For other coal mining operations entering the Fund on or after July 1, 1991, and for additional acreage bonded on or after July 1, 1991, the amount of \$3,000 per acre. In no event shall the total bond for such operations entering the Fund on or after July 1, 1991, be less than \$100,000.

~~C. 1. Notwithstanding the above, the Director may accept the bond of an operator of an underground mining operation without separate surety as provided in subsection C of § 45.1-241 and in any case upon a showing by such operator of a net worth, total assets minus total liabilities, certified by an independent certified public accountant equivalent to \$1,000,000. Such net worth figure shall thereafter during the existence of the permit be certified annually on the anniversary date of such permit by an independent certified public accountant.~~

~~2. The Director may accept the bond of an operator of a surface mining operation or associated facility without separate surety as provided in subsection C of § 45.1-241 upon a showing by the operator of a suitable agent for service of process, satisfactory continuous operation, financial solvency, and submission of information and an indemnity agreement in accordance with regulations implementing this section and the applicable federal regulations.~~

~~D.~~ All fees and payments provided in this article shall be in addition to initial permit application and anniversary payments provided pursuant to § 45.1-235 or any other payments required in compliance with this chapter.

~~E.~~ D. Fund participants shall be allowed to post incremental bonds as set forth in § 45.1-241. Such bonds will be posted in annual increments according to a schedule contained in the permit application and approved annually by the Director on the anniversary date.

~~F.~~ E. Any mining operation participating in the Fund that has been in temporary cessation for more than six months as of July 1, 1991, shall within ~~ninety~~ 90 days of that date post bond equal to the total estimated cost of reclamation for all portions of the permitted site which are in temporary cessation. Any mining operation participating in the Fund that has been in temporary cessation six months or less as of July 1, 1991, shall within ~~ninety~~ 90 days after the date on which the operation has been in temporary cessation for more than six months post bond equal to the total estimated cost of reclamation for all portions of the permitted site which are in temporary cessation. Any mining operation participating in the Fund that enters temporary cessation on or after July 1, 1991, shall, prior to the date on which the operation has been in temporary cessation for more than six months, post bond equal to the total estimated cost of reclamation for all portions of the permitted site which are in temporary cessation. Such bond shall remain in effect throughout the remainder of the period during which the site is in temporary cessation. At such time as the site returns to active status, the bond posted under this subsection may be released, provided the permittee has posted bond pursuant to subsection B of this section.

§ 45.1-270.4. Assessment of reclamation tax revenues for Fund.

A. There is hereby levied a reclamation tax upon the production of coal by operators participating in the Fund under permits issued under this chapter as set forth herein.

B. Thirty days after the end of ~~any~~ each calendar quarter during which the total balance of the Fund, including interest thereon, ~~shall be~~ is less than \$~~1,750,000~~ \$20 million, all operators shall pay into the Fund an amount equal to:

1. Four cents per clean ton of coal produced by a surface mining operation permitted under this chapter.

2. Three cents per clean ton of coal produced by a deep mining operation permitted under this chapter.

3. One and one-half cents per clean ton of coal processed or loaded by preparation or loading facilities permitted under this chapter.

C. At the end of ~~any~~ each calendar quarter during which the total balance in the Fund, including interest thereon, ~~shall exceed two million dollars~~ exceeds \$20 million, payments under this section shall cease until again required pursuant to subsection B of this section.

~~1. For the purposes of subsection B of this section, all potential obligations shall be deducted from the balance of the Fund during each calendar quarter, including forfeitures on which engineering cost estimates have been prepared, but no money has actually been expended from the Fund.~~

~~2. Should the actual expenditures from the Fund be less than the engineering cost estimate, then the difference shall be credited to the balance of the Fund during the calendar quarter in which the final expenditure is made from the Fund to accomplish the reclamation.~~

~~D. Upon the issuance of a permit for which bond is provided pursuant to this article, each operator shall pay a reclamation tax into the Fund pursuant to the schedule set forth in subsection B of this section on coal mined and removed under authority of that permit during the one-year period commencing with and running from the date of the commencement of coal production, processing or loading from those operations covered under that permit.~~

~~E. D.~~ In no event shall any operator pay reclamation tax under this section on total coal production in excess of five million tons per calendar year, regardless of the number of permits held by that operator, ~~except as set forth in subsection D hereof.~~ In no event shall any operator holding more than one type of permit pay tax at a rate in excess of five and one-half cents per ton on coal originally surface mined by that operator or in excess of four and one-half cents per ton on coal originally deep mined by that operator. Any operator holding one permit upon which coal is mined and processed or loaded shall pay only the tax applicable under this section to the surface mining operation or deep mining operation.

2. That the provisions of this act amending and reenacting § 45.1-270.4 shall expire on July 1, 2017.

The guidance shall:

1. Communicate to stakeholders and regulatory authorities that it is the policy of the Commonwealth to support living shorelines as the preferred alternative for stabilizing tidal shorelines;
2. Identify preferred shoreline management approaches for the shoreline types found in the Commonwealth;
3. Explain the risks and benefits of protection provided by various shoreline system elements associated with each management option; and
4. Recommend procedures to achieve efficiency and effectiveness by the various regulatory entities exercising authority over a shoreline management project.

Upon a showing of good cause, the Commissioner shall disclose the identifying information. If the Commissioner fails to designate a person or agency to attempt to locate the birth family within thirty days of receipt of the application, or if the Commissioner denies disclosure of the identifying information after receiving the designated person's or agency's report, the adopted person may apply to the circuit court for an order to disclose such information. Such order shall be entered only upon good cause shown after notice to and opportunity for hearing by the applicant for such order and the person or agency that made the investigation. An eligible adoptee who is a resident of Virginia may apply for the court order provided for herein to (i) the circuit court of the county or city where the adoptee resides or (ii) the circuit court of the county or city where the central office of the Department is located. An eligible adoptee who is not a resident of Virginia shall apply for such a court order to the circuit court of the county or city where the central office of the Department is located.

In determining good cause for the disclosure of such information, the circuit court shall consider the relative effects of such action upon the adopted person, the adoptive parents and the birth parents. The adopted person and the birth family may submit to the circuit court, and the circuit court shall consider, written comments stating the anticipated effect that the disclosure of identifying information may have upon any party.

When consent of the birth parents is not obtainable, due to the death of the birth parents or mental incapacity of the birth parents, *the Commissioner shall, upon application of the adult adopted person and a showing of good cause, disclose the identifying information to the adult adopted person. If the Commissioner denies disclosure of the identifying information, the adult adopted person may apply to the circuit court for an order to disclose such information and the circuit court may release identifying information to the adult adopted person.* In making this decision, the circuit court shall consider the needs and concerns of the adopted person and the birth family if such information is available, the actions the agency took to locate the birth family, the information in the agency's report and the recommendation of the agency.

The Commissioner, person or agency may charge a reasonable fee to cover the costs of processing requests for nonidentifying information.

Upon entry of a final order of adoption or other final disposition of a matter involving the placement of a child by a licensed child-placing agency or a local board or an investigation by the local director of a placement for adoption of a child, the agency or local board shall transmit to the Commissioner all reports and collateral information in connection with the case, which shall be preserved by the Commissioner in accordance with this section.

CHAPTER 131

An Act to amend and reenact § 28.2-1308 of the Code of Virginia, relating to wetlands losses; in-lieu fees.

[H 572]

Approved March 5, 2014

Be it enacted by the General Assembly of Virginia:

1. That § 28.2-1308 of the Code of Virginia is amended and reenacted as follows:

§ 28.2-1308. Standards for use and development of wetlands; utilization of guidelines.

A. The following standards shall apply to the use and development of wetlands and shall be considered in the determination of whether any permit required by this chapter should be granted or denied:

1. Wetlands of primary ecological significance shall not be altered so that the ecological systems in the wetlands are unreasonably disturbed; and

2. Development in Tidewater Virginia, to the maximum extent practical, shall be concentrated in wetlands of lesser ecological significance, in vegetated wetlands which have been irreversibly disturbed before July 1, 1972, in nonvegetated wetlands which have been irreversibly disturbed prior to January 1, 1983, and in areas of Tidewater Virginia outside of wetlands.

B. The provisions of guidelines promulgated by the Commission pursuant to § 28.2-1301 shall be considered in applying the standards listed in subsection A of this section.

C. When any activity authorized by a permit issued pursuant to this chapter is conditioned upon compensatory mitigation for adverse impacts to wetlands, the applicant may be permitted to satisfy all or part of such mitigation requirements by the purchase or use of credits from any wetlands mitigation bank, including any banks owned by the permit applicant, that has been approved and is operating in accordance with applicable federal and state guidance, laws, or regulations for the establishment, use and operation of mitigation banks as long as (1) the bank is in the same fourth order subbasin, as defined by the hydrologic unit boundaries of the National Watershed Boundary Dataset, as the impacted site, or in an adjacent subbasin within the same river watershed, as the impacted site, or it meets all the conditions found in clauses (i) through (iv) and either clause (v) or (vi) of this subsection; (2) the bank is ecologically preferable to practicable on-site and off-site individual mitigation options, as defined by federal wetland regulations; and (3) the banking instrument, if approved after July 1, 1996, has been approved by a process that included public review and comment. When the bank is not located in the same subbasin or adjacent subbasin within the same river watershed as the impacted site, the purchase or use of credits shall not be allowed unless the applicant demonstrates to the satisfaction of the Commission that (i) the impacts will occur as a result of a Virginia Department of Transportation linear project or as the result of a locality project for a locality whose jurisdiction encompasses multiple river watersheds; (ii) there is no practical same river watershed mitigation alternative; (iii) the impacts are less than one acre in a single and complete project within a subbasin; (iv) there is no significant harm to water quality or fish and wildlife resources within the river watershed of the impacted site; and either (v) impacts within the Chesapeake Bay watershed are mitigated within the Chesapeake Bay watershed as close as possible to the impacted site or (vi) impacts within subbasins 02080108, 02080208, and 03010205, as defined by the National Watershed Boundary Dataset, are mitigated in-kind within those subbasins as close as possible to the impacted site. After July 1, 2002, the provisions of clause (vi) shall apply only to impacts within subdivisions of the listed subbasins where overlapping watersheds exist, as determined by the Department of Environmental Quality, provided the Department has made such a determination by that date.

D. *Where an agreed-upon permit condition requires the contribution of in-lieu fees to offset permitted wetland losses, the wetlands board shall credit the applicant for any in-lieu fee payments made to the Virginia Aquatic Resources Trust Fund or another dedicated wetlands restoration fund with reference to the same activity.*

For the purposes of this section, "river watershed" means the Potomac River Basin, Shenandoah River Basin, James River Basin, Rappahannock River Basin, Roanoke and Yadkin Rivers Basin, Chowan River Basin (including the Dismal Swamp and Albemarle Sound), Tennessee River Basin, Big Sandy River Basin, Chesapeake Bay and its Small Coastal Basins, Atlantic Ocean, York River Basin, and the New River Basin.

Any seller of oysters or oyster shells who fails to furnish at the point of landing a full measure as defined in this section, or a buyer of any seed oysters or oyster shells who accepts less than a full measure as defined in this section, is guilty of a Class 1 misdemeanor.

B. Oysters may be sold in containers of a size greater than 18 1/2 inches across the top, 17 inches across the bottom, and 21 1/2 inches diagonally from the inside chine to the top if such container has been approved by the Commissioner and its use to measure oysters has been approved by both the buyer and seller.

C. On the eastern or ocean side of the Eastern Shore, oysters may be sold without being measured if both the buyer and the seller agree to the number of bushels of oysters in the transaction.

D. Cultured oysters in the shell may be sold in any measure or container agreeable to the buyer and seller.

Any person who was committed or entrusted to a local board or licensed child-placing agency may choose to discontinue receiving independent living services any time before his twenty-first birthday in accordance with regulations adopted by the Board. The local board or licensed child-placing agency shall restore independent living services at the request of that person provided that (i) the person has not yet reached 21 years of age and (ii) the person has entered into a written agreement, less than 60 days after independent living services have been discontinued, with the local board or licensed child-placing agency regarding the terms and conditions of his receipt of independent living services.

Local departments and licensed child-placing agencies ~~may~~ shall provide independent living services to any person between 18 and 21 years of age who (a) was in the custody of the local department of social services immediately prior to his commitment to the Department of Juvenile Justice, (b) is in the process of transitioning from a commitment to the Department of Juvenile Justice to self-sufficiency, and (c) provides written notice of his intent to receive independent living services and enters into a written agreement for the provision of independent living services, which sets forth the terms and

CHAPTER 135

An Act to amend and reenact §§ 45.1-241, 45.1-270.3, and 45.1-270.4 of the Code of Virginia, relating to the Virginia Coal Surface Mining Control and Reclamation Act of 1979.

[H 710]

Approved March 5, 2014

Be it enacted by the General Assembly of Virginia:

1. That §§ 45.1-241, 45.1-270.3, and 45.1-270.4 of the Code of Virginia are amended and reenacted as follows:

§ 45.1-241. Performance bonds.

A. After a coal surface mining permit application has been approved, but before such permit is issued, the applicant shall file with the Director on a form prescribed and furnished by the Director, a bond for performance payable to the Commonwealth and conditioned upon faithful performance of all the requirements of this chapter and the permit. The bond shall cover that area of land within the permit area upon which the operator will initiate and conduct surface coal mining and reclamation operations within the initial term of the permit. As succeeding increments of coal surface mining and reclamation operations are initiated and conducted within the permit area, the permittee shall file with the Director an additional bond or bonds to cover such increments in accordance with this section. The amount of the bond required for each bonded area shall depend upon the reclamation requirements of the approved permit, shall reflect the probable difficulty of reclamation giving consideration to such factors as topography, geology of the site, hydrology, and revegetation potential, and shall be determined by the Director. The amount of the bond shall be sufficient to assure the completion of the reclamation plan if the work has to be performed by the Director in the event of forfeiture, but in no case shall the bond for the entire area under one permit be less than \$10,000.

B. Liability under the bond shall be for the duration of the coal surface mining and reclamation operation and for a period coincident with the operator's responsibility for revegetation as required under regulations promulgated pursuant to § 45.1-242. The bond shall be executed by the operator and a corporate surety licensed to do business in the Commonwealth, except that the operator may elect to deposit cash, negotiable bonds of the United States Government or of the Commonwealth, or negotiable certificates of deposit of any bank organized for transacting business in the United States. The cash deposit or market value of such securities shall be equal to or greater than the amount of the bond required for the bonded area.

C. ~~The Director may accept the bond of the applicant itself without separate surety when the applicant demonstrates to the satisfaction of the Director, pursuant to regulations, the existence of a suitable agent to receive service of process and a history of financial solvency and continuous operation sufficient for authorization to self-insure or bond such amount.~~ The Director may also accept a letter of credit on certain designated funds issued by a financial institution authorized to do business in the United States. The letters of credit shall be irrevocable, unconditional, shall be payable to the Department upon demand, and shall afford to the Department protection equivalent to a corporate surety's bond. The issuer of the letter of credit shall give prompt notice to the permittee and the Department of any notice received or action filed alleging the insolvency or bankruptcy of the issuer, or alleging any violations of regulatory requirements which could result in suspension or revocation of the issuer's charter or license to do business. In the event the issuer becomes unable to fulfill its obligations under the letter of credit for any reason, the issuer shall immediately notify the permittee and the Department. Upon the incapacity of an issuer by a reason of bankruptcy, insolvency or suspension or revocation of its charter or license, the permittee shall be deemed to be without proper performance bond coverage and shall promptly notify the Department, and the Department shall then issue a notice to the permittee specifying a reasonable period, which shall not exceed ninety days, to replace bond coverage. If an adequate bond is not posted by the end of the period allowed, the permittee shall cease coal extraction and coal processing operations and shall immediately begin to conduct reclamation operations in accordance with the reclamation plan. Coal extraction and coal processing operations shall not resume until the Department has determined that an acceptable bond has been posted. If an acceptable bond has not been posted by the end of the period allowed, the Department may suspend the permit until acceptable bond is posted. The letter of credit shall be provided on the form and format established by the Director. Nothing herein shall relieve the permittee of responsibility under the permit or the issuer of liability on the letter of credit. The Director is further authorized to develop and promulgate an alternative system that will achieve the objectives and purposes of the bonding program established under this section.

D. Cash or securities so deposited shall be deposited upon the same terms as the terms upon which surety bonds may be deposited. Such securities shall be security for the repayment of such negotiable certificate of deposit.

E. The amount of the bond or deposit required and the terms of each acceptance of the applicant's bond shall be adjusted by the Director from time to time as affected land acreages are increased or decreased or where the cost of future reclamation changes.

§ 45.1-270.3. Initial payments into Fund; renewal payments; bonds.

A. Operators filing permit applications for coal surface mining operations participating in the pool fund shall be required to pay into the Fund, as an entrance fee, a sum equal to \$1,000 for each applicable permit application. An entrance fee of \$5,000 shall be required of all operators who elect to participate in the Fund when the Director has determined the total balance of the Fund is less than \$1,750,000 pursuant to subsection B of § 45.1-270.4. The entrance fee shall be reduced to \$1,000 when the total Fund balance is greater than \$2,000,000 \$2 million pursuant to subsection C of § 45.1-270.4. A renewal fee of \$1,000 shall be required of all permittees in the Fund at permit renewal.

1. *For the purposes of this section, all planned expenditures shall be deducted from the balance of the Fund during each calendar quarter, including forfeitures on which engineering cost estimates have been prepared, but no money has actually been expended from the Fund.*

2. *Should the actual expenditures from the Fund be less than the engineering cost estimate, then the difference shall be credited to the balance of the Fund during the calendar quarter in which the final expenditure is made from the Fund to accomplish the reclamation.*

B. In addition to the initial payments into the Fund described in subsection A of this section, all operators that participate in the Fund shall furnish to the Fund a bond which meets the criteria of § 45.1-241 and regulations issued pursuant thereto as follows:

1. For those underground mining operations participating in the Fund prior to July 1, 1991, the amount of \$1,000 per acre covered by each permit. In no event shall such total bond be less than \$40,000, except that on permits which have completed all mining and for which completion reports have been approved prior to July 1, 1991, the total bond shall not be less than \$10,000.

2. For underground mining operations entering the Fund on or after July 1, 1991, and for additional acreage bonded on or after July 1, 1991, the amount of \$3,000 per acre. In no event shall the total bond for such underground operations entering the Fund on or after July 1, 1991, be less than \$40,000.

3. For other coal mining operations participating in the Fund prior to July 1, 1991, the amount of \$1,500 per acre covered by each permit. In no event shall such total bond be less than \$100,000, except that on permits which have completed all mining and for which completion reports have been approved prior to July 1, 1991, the total bond shall not be less than \$25,000.

4. For other coal mining operations entering the Fund on or after July 1, 1991, and for additional acreage bonded on or after July 1, 1991, the amount of \$3,000 per acre. In no event shall the total bond for such operations entering the Fund on or after July 1, 1991, be less than \$100,000.

~~C. 1. Notwithstanding the above, the Director may accept the bond of an operator of an underground mining operation without separate surety as provided in subsection C of § 45.1-241 and in any case upon a showing by such operator of a net worth, total assets minus total liabilities, certified by an independent certified public accountant equivalent to \$1,000,000. Such net worth figure shall thereafter during the existence of the permit be certified annually on the anniversary date of such permit by an independent certified public accountant.~~

~~2. The Director may accept the bond of an operator of a surface mining operation or associated facility without separate surety as provided in subsection C of § 45.1-241 upon a showing by the operator of a suitable agent for service of process, satisfactory continuous operation, financial solvency, and submission of information and an indemnity agreement in accordance with regulations implementing this section and the applicable federal regulations.~~

~~D.~~ All fees and payments provided in this article shall be in addition to initial permit application and anniversary payments provided pursuant to § 45.1-235 or any other payments required in compliance with this chapter.

~~E.~~ D. Fund participants shall be allowed to post incremental bonds as set forth in § 45.1-241. Such bonds will be posted in annual increments according to a schedule contained in the permit application and approved annually by the Director on the anniversary date.

~~F.~~ E. Any mining operation participating in the Fund that has been in temporary cessation for more than six months as of July 1, 1991, shall within ninety days of that date post bond equal to the total estimated cost of reclamation for all portions of the permitted site which are in temporary cessation. Any mining operation participating in the Fund that has been in temporary cessation six months or less as of July 1, 1991, shall within ninety days after the date on which the operation has been in temporary cessation for more than six months post bond equal to the total estimated cost of reclamation for all portions of the permitted site which are in temporary cessation. Any mining operation participating in the Fund that enters temporary cessation on or after July 1, 1991, shall, prior to the date on which the operation has been in temporary cessation for more than six months, post bond equal to the total estimated cost of reclamation for all portions of the permitted site which are in temporary cessation. Such bond shall remain in effect throughout the remainder of the period during which the site is in temporary cessation. At such time as the site returns to active status, the bond posted under this subsection may be released, provided the permittee has posted bond pursuant to subsection B of this section.

§ 45.1-270.4. Assessment of reclamation tax revenues for Fund.

A. There is hereby levied a reclamation tax upon the production of coal by operators participating in the Fund under permits issued under this chapter as set forth herein.

B. Thirty days after the end of ~~any~~ *each* calendar quarter during which the total balance of the Fund, including interest thereon, ~~shall be~~ *is* less than ~~\$1,750,000~~ *\$20 million*, all operators shall pay into the Fund an amount equal to:

1. Four cents per clean ton of coal produced by a surface mining operation permitted under this chapter.
2. Three cents per clean ton of coal produced by a deep mining operation permitted under this chapter.
3. One and one-half cents per clean ton of coal processed or loaded by preparation or loading facilities permitted under this chapter.

C. At the end of ~~any~~ *each* calendar quarter during which the total balance in the Fund, including interest thereon, ~~shall exceed two million dollars~~ *exceeds \$20 million*, payments under this section shall cease until again required pursuant to subsection B ~~of this section~~.

~~1. For the purposes of subsection B of this section, all potential obligations shall be deducted from the balance of the Fund during each calendar quarter, including forfeitures on which engineering costs estimates have been prepared, but no money has actually been expended from the Fund.~~

~~2. Should the actual expenditures from the Fund be less than the engineering cost estimate, then the difference shall be credited to the balance of the Fund during the calendar quarter in which the final expenditure is made from the Fund to accomplish the reclamation.~~

~~D. Upon the issuance of a permit for which bond is provided pursuant to this article, each operator shall pay a reclamation tax into the Fund pursuant to the schedule set forth in subsection B of this section on coal mined and removed under authority of that permit during the one-year period commencing with and running from the date of the commencement of coal production, processing or loading from those operations covered under that permit.~~

~~E. D. In no event shall any operator pay reclamation tax under this section on total coal production in excess of five million tons per calendar year, regardless of the number of permits held by that operator; except as set forth in subsection D hereof. In no event shall any operator holding more than one type of permit pay tax at a rate in excess of five and one-half cents per ton on coal originally surface mined by that operator or in excess of four and one-half cents per ton on coal originally deep mined by that operator. Any operator holding one permit upon which coal is mined and processed or loaded shall pay only the tax applicable under this section to the surface mining operation or deep mining operation.~~

2. That the provisions of this act amending and reenacting § 45.1-270.4 shall expire on July 1, 2017.

An Act to amend and reenact § 3.2-6552 of the Code of Virginia, relating to the killing of a dog chasing or injuring livestock or poultry.

[H 740]

Approved March 5, 2014

Be it enacted by the General Assembly of Virginia:

1. That § 3.2-6552 of the Code of Virginia is amended and reenacted as follows:

§ 3.2-6552. Dogs killing, injuring or chasing livestock or poultry.

It shall be the duty of any animal control officer or other officer who may find a dog in the act of killing or injuring livestock or poultry to *seize or* kill such dog forthwith whether such dog bears a tag or not. Any person finding a dog committing any of the depredations mentioned in this section shall have the right to kill such dog on sight as shall any owner of livestock or his agent finding a dog chasing livestock on land utilized by the livestock when the circumstances show that such chasing is harmful to the livestock. Any court shall have the power to order the animal control officer or other officer to kill any dog known to be a confirmed livestock or poultry killer, and any dog killing poultry for the third time shall be considered a confirmed poultry killer. The court, through its contempt powers, may compel the owner, custodian, or harbinger of the dog to produce the dog.

Any animal control officer who has reason to believe that any dog is killing livestock or poultry shall be empowered to seize such dog solely for the purpose of examining such dog in order to determine whether it committed any of the depredations mentioned herein. § 6. Not later than sixty days after receipt of a complete application, the wetlands board shall hold a public hearing on the application. The applicant, local governing body, Commissioner, owner of record of any land adjacent to the coastal primary sand dunes in question, the Virginia Institute of Marine Science, the Department of Game and Inland Fisheries, the State Water Control Board, the Department of Transportation, and any governmental agency expressing an interest in the application shall be notified of the hearing. The board shall mail these notices not less than twenty days prior to the date set for the hearing. The wetlands board shall also cause notice of the hearing to be published at least once a week for two weeks prior to such hearing in a newspaper of general circulation in this (county, city or town). The costs of publication shall be paid by the applicant.

§ 7. A. Approval of a permit application shall require the affirmative vote of three members of a five-member board or four members of a seven-member board.

B. The chairman of the board, or in his absence the acting chairman, may administer oaths and compel the attendance of witnesses. Any person may appear and be heard at the public hearing. Each witness at the hearing may submit a concise written statement of his testimony. The board shall make a record of the proceeding, which shall include the application, any written statements of witnesses, a summary of statements of all witnesses, the findings and decision of the board, and the rationale for the decision.

C. The board shall make its determination within thirty days of the hearing. If the board fails to act within that time, the application shall be deemed approved. Within forty-eight hours of its determination, the board shall notify the applicant and the Commissioner of its determination. If the board fails to make a determination within the thirty-day period, it shall promptly notify the applicant and the Commission that the application is deemed approved.

D. If the board's decision is reviewed or appealed, the board shall transmit the record of its hearing to the Commissioner. Upon a final determination by the Commission, the record shall be returned to the board. The record shall be open for public inspection at the office of the recording officer of this (county, city or town).

§ 8. The board may require a reasonable bond or letter of credit in an amount and with surety and conditions satisfactory to it, securing to the Commonwealth compliance with the conditions and limitations set forth in the permit. The board may, after a hearing held pursuant to this ordinance, suspend or revoke a permit if the applicant has failed to comply with any of the conditions or limitations set forth in the permit or has exceeded the scope of the work described in the application. The board may, after a hearing, suspend a permit if the applicant fails to comply with the terms and conditions set forth in the application.

§ 9. In fulfilling its responsibilities under this ordinance, the board shall preserve and protect coastal primary sand dunes and beaches and prevent their despoliation and destruction. However, whenever practical, the board shall accommodate necessary economic development in a manner consistent with the protection of these features.

§ 10. A. In deciding whether to grant, grant in modified form, or deny a permit, the board shall consider the following:

1. The testimony of any person in support of or in opposition to the permit application;
2. The impact of the proposed development on the public health, safety, and welfare; and
3. The proposed development's conformance with standards prescribed in § 28.2-1408 of the Code of Virginia and guidelines promulgated pursuant to § 28.2-1401 of the Code of Virginia.

B. The board shall grant the permit if all of the following criteria are met:

1. The anticipated public and private benefit of the proposed activity exceeds its anticipated public and private detriment.
2. The proposed development conforms with the standards prescribed in § 28.2-1408 of the Code of Virginia and guidelines promulgated pursuant to § 28.2-1401 of the Code of Virginia.
3. The proposed activity does not violate the purposes and intent of this ordinance or Chapter 14 (§ 28.2-1400 et seq.) of Title 28.2 of the Code of Virginia.

C. If the board finds that any of the criteria listed in subsection B of this section are not met, the board shall deny the permit application but allow the applicant to resubmit the application in modified form.

§ 11. The permit shall be in writing, signed by the chairman of the board, and notarized. A copy of the permit shall be transmitted to the Commissioner.

§ 12. No permit shall be granted without an expiration date established by the board. Upon proper application, the board may extend the permit expiration date.

§ 13. No permit granted by a wetlands board shall in any way affect the right of any person to seek compensation for any injury in fact incurred by him because of the permitted activity.

CHAPTER 147

An Act to amend and reenact §§ 54.1-3301 and 54.1-3410.2 of the Code of Virginia, relating to veterinarians; dispensing compounded drug products.

[H 1035]

Approved March 5, 2014

Be it enacted by the General Assembly of Virginia:

1. That §§ 54.1-3301 and 54.1-3410.2 of the Code of Virginia are amended and reenacted as follows:

§ 54.1-3301. Exceptions.

This chapter shall not be construed to:

1. Interfere with any legally qualified practitioner of dentistry, or veterinary medicine or any physician acting on behalf of the Virginia Department of Health or local health departments, in the compounding of his prescriptions or the purchase and possession of drugs as he may require;

2. Prevent any legally qualified practitioner of dentistry, or veterinary medicine or any prescriber, as defined in § 54.1-3401, acting on behalf of the Virginia Department of Health or local health departments, from administering or supplying to his patients the medicines that he deems proper under the conditions of § 54.1-3303 or from causing drugs to be administered or dispensed pursuant to §§ 32.1-42.1 and 54.1-3408, *except that a veterinarian shall only be authorized to dispense a compounded drug, distributed from a pharmacy, when (i) the animal is his own patient, (ii) the animal is a companion animal as defined in regulations promulgated by the Board of Veterinary Medicine, (iii) the quantity dispensed is no more than a 72-hour supply, (iv) the compounded drug is for the treatment of an emergency condition, and (v) timely access to a compounding pharmacy is not available, as determined by the prescribing veterinarian;*

3. Prohibit the sale by merchants and retail dealers of proprietary medicines as defined in Chapter 34 (§ 54.1-3400 et seq.) of this title;

4. Prevent the operation of automated drug dispensing systems in hospitals pursuant to Chapter 34 (§ 54.1-3400 et seq.) of this title;

5. Prohibit the employment of ancillary personnel to assist a pharmacist as provided in the regulations of the Board;

6. Interfere with any legally qualified practitioner of medicine, osteopathy, or podiatry from purchasing, possessing or administering controlled substances to his own patients or providing controlled substances to his own patients in a bona fide medical emergency or providing manufacturers' professional samples to his own patients;

7. Interfere with any legally qualified practitioner of optometry, certified or licensed to use diagnostic pharmaceutical agents, from purchasing, possessing or administering those controlled substances as specified in § 54.1-3221 or interfere with any legally qualified practitioner of optometry certified to prescribe therapeutic pharmaceutical agents from purchasing, possessing, or administering to his own patients those controlled substances as specified in § 54.1-3222 and the TPA formulary, providing manufacturers' samples of these drugs to his own patients, or dispensing, administering, or selling ophthalmic devices as authorized in § 54.1-3204;

8. Interfere with any physician assistant with prescriptive authority receiving and dispensing to his own patients manufacturers' professional samples of controlled substances and devices that he is authorized, in compliance with the provisions of § 54.1-2952.1, to prescribe according to his practice setting and a written agreement with a physician or podiatrist;

9. Interfere with any licensed nurse practitioner with prescriptive authority receiving and dispensing to his own patients manufacturers' professional samples of controlled substances and devices that he is authorized, in compliance with the provisions of § 54.1-2957.01, to prescribe according to his practice setting and a written or electronic agreement with a physician;

10. Interfere with any legally qualified practitioner of medicine or osteopathy participating in an indigent patient program offered by a pharmaceutical manufacturer in which the practitioner sends a prescription for one of his own patients to the manufacturer, and the manufacturer donates a stock bottle of the prescription drug ordered at no cost to the practitioner or patient. The practitioner may dispense such medication at no cost to the patient without holding a license to dispense from the Board of Pharmacy. However, the container in which the drug is dispensed shall be labeled in accordance with the requirements of § 54.1-3410, and, unless directed otherwise by the practitioner or the patient, shall meet standards for special packaging as set forth in § 54.1-3426 and Board of Pharmacy regulations. In lieu of dispensing directly to the patient, a practitioner may transfer the donated drug with a valid prescription to a pharmacy for dispensing to the patient. The practitioner or pharmacy participating in the program shall not use the donated drug for any purpose other than dispensing to the patient for whom it was originally donated, except as authorized by the donating manufacturer for another patient meeting that manufacturer's requirements for the indigent patient program. Neither the practitioner nor the pharmacy shall charge the patient for any medication provided through a manufacturer's indigent patient program pursuant to this subdivision. A participating pharmacy, including a pharmacy participating in bulk donation programs, may charge a reasonable dispensing or administrative fee to offset the cost of dispensing, not to exceed the actual costs of such dispensing. However, if the patient is unable to pay such fee, the dispensing or administrative fee shall be waived;

11. Interfere with any legally qualified practitioner of medicine or osteopathy from providing controlled substances to his own patients in a free clinic without charge when such controlled substances are donated by an entity other than a pharmaceutical manufacturer as authorized by subdivision 10. The practitioner shall first obtain a controlled substances registration from the Board and shall comply with the labeling and packaging requirements of this chapter and the Board's regulations; or

12. Prevent any pharmacist from providing free health care to an underserved population in Virginia who (i) does not regularly practice pharmacy in Virginia, (ii) holds a current valid license or certificate to practice pharmacy in another state, territory, district or possession of the United States, (iii) volunteers to provide free health care to an underserved area of this Commonwealth under the auspices of a publicly supported all volunteer, nonprofit organization that sponsors the provision of health care to populations of underserved people, (iv) files a copy of the license or certificate issued in such other jurisdiction with the Board, (v) notifies the Board at least five business days prior to the voluntary provision of services of

the dates and location of such service, and (vi) acknowledges, in writing, that such licensure exemption shall only be valid, in compliance with the Board's regulations, during the limited period that such free health care is made available through the volunteer, nonprofit organization on the dates and at the location filed with the Board. The Board may deny the right to practice in Virginia to any pharmacist whose license has been previously suspended or revoked, who has been convicted of a felony or who is otherwise found to be in violation of applicable laws or regulations. However, the Board shall allow a pharmacist who meets the above criteria to provide volunteer services without prior notice for a period of up to three days, provided the nonprofit organization verifies that the practitioner has a valid, unrestricted license in another state.

This section shall not be construed as exempting any person from the licensure, registration, permitting and record keeping requirements of this chapter or Chapter 34 of this title.

§ 54.1-3410.2. Compounding; pharmacists' authority to compound under certain conditions; labeling and record maintenance requirements.

A. A pharmacist may engage in compounding of drug products when the dispensing of such compounded products is (i) pursuant to valid prescriptions for specific patients and (ii) consistent with the provisions of § 54.1-3303 relating to the issuance of prescriptions and the dispensing of drugs.

Pharmacists shall label all compounded drug products that are dispensed pursuant to a prescription in accordance with this chapter and the Board's regulations, and shall include on the labeling an appropriate beyond-use date as determined by the pharmacist in compliance with USP-NF standards for pharmacy compounding.

B. A pharmacist may also engage in compounding of drug products in anticipation of receipt of prescriptions based on a routine, regularly observed prescribing pattern.

Pharmacists shall label all products compounded prior to dispensing with (i) the name and strength of the compounded medication or a list of the active ingredients and strengths; (ii) the pharmacy's assigned control number that corresponds with the compounding record; (iii) an appropriate beyond-use date as determined by the pharmacist in compliance with USP-NF standards for pharmacy compounding; and (iv) the quantity.

C. In accordance with the conditions set forth in subsections A and B, pharmacists shall not distribute compounded drug products for subsequent distribution or sale to other persons or to commercial entities, including distribution to pharmacies or other entities under common ownership or control with the facility in which such compounding takes place; *however, a pharmacist may distribute to a veterinarian in accordance with federal law.*

Compounded products for companion animals, as defined in regulations promulgated by the Board of Veterinary Medicine, and distributed by a pharmacy to a veterinarian for further distribution or sale to his own patients shall be limited to drugs necessary to treat an emergent condition when timely access to a compounding pharmacy is not available as determined by the prescribing veterinarian.

A pharmacist may, however, deliver compounded products dispensed pursuant to valid prescriptions to alternate delivery locations pursuant to § 54.1-3420.2.

A pharmacist may also provide compounded products to practitioners of medicine, osteopathy, podiatry, dentistry, or veterinary medicine to administer to their patients in the course of their professional practice, either personally or under their direct and immediate supervision.

Pharmacists shall label all compounded products distributed to practitioners *other than veterinarians* for administration to their patients with (i) the statement "For Administering in Prescriber Practice Location Only"; (ii) the name and strength of the compounded medication or list of the active ingredients and strengths; (iii) the facility's control number; (iv) an appropriate beyond-use date as determined by the pharmacist in compliance with USP-NF standards for pharmacy compounding; ~~and~~ (v) *the name and address of the pharmacy;* and (vi) *the quantity.*

Pharmacists shall label all compounded products for companion animals, as defined in regulations promulgated by the Board of Veterinary Medicine, and distributed to a veterinarian for either further distribution or sale to his own patient or administration to his own patient with (a) the name and strength of the compounded medication or list of the active ingredients and strengths; (b) the facility's control number; (c) an appropriate beyond-use date as determined by the pharmacist in compliance with USP-NF standards for pharmacy compounding; (d) the name and address of the pharmacy; and (e) the quantity.

D. Pharmacists shall personally perform or personally supervise the compounding process, which shall include a final check for accuracy and conformity to the formula of the product being prepared, correct ingredients and calculations, accurate and precise measurements, appropriate conditions and procedures, and appearance of the final product.

E. Pharmacists shall ensure compliance with USP-NF standards for both sterile and non-sterile compounding.

F. Pharmacists may use bulk drug substances in compounding when such bulk drug substances:

1. Comply with the standards of an applicable United States Pharmacopoeia or National Formulary monograph, if such monograph exists, and the United States Pharmacopoeia chapter on pharmacy compounding; or are drug substances that are components of drugs approved by the FDA for use in the United States; or are otherwise approved by the FDA;

2. Are manufactured by an establishment that is registered by the FDA; or

3. Are distributed by a licensed wholesale distributor or registered nonresident wholesale distributor, or are distributed by a supplier otherwise approved by the FDA to distribute bulk drug substances if the pharmacist can establish purity and safety by reasonable means, such as lot analysis, manufacturer reputation, or reliability of the source.

G. Pharmacists may compound using ingredients that are not considered drug products in accordance with the USP-NF standards and guidance on pharmacy compounding.

H. Pharmacists shall not engage in the following:

1. The compounding for human use of a drug product that has been withdrawn or removed from the market by the FDA because such drug product or a component of such drug product has been found to be unsafe. However, this prohibition shall be limited to the scope of the FDA withdrawal;

2. The regular compounding or the compounding of inordinate amounts of any drug products that are essentially copies of commercially available drug products. However, this prohibition shall not include (i) the compounding of any commercially available product when there is a change in the product ordered by the prescriber for an individual patient, (ii) the compounding of a commercially manufactured drug only during times when the product is not available from the manufacturer or supplier, (iii) the compounding of a commercially manufactured drug whose manufacturer has notified the FDA that the drug is unavailable due to a current drug shortage, (iv) the compounding of a commercially manufactured drug when the prescriber has indicated in the oral or written prescription for an individual patient that there is an emergent need for a drug that is not readily available within the time medically necessary, or (v) the mixing of two or more commercially available products regardless of whether the end product is a commercially available product; or

3. The compounding of inordinate amounts of any preparation in cases in which there is no observed historical pattern of prescriptions and dispensing to support an expectation of receiving a valid prescription for the preparation. The compounding of an inordinate amount of a preparation in such cases shall constitute manufacturing of drugs.

I. Pharmacists shall maintain records of all compounded drug products as part of the prescription, formula record, formula book, or other log or record. Records may be maintained electronically, manually, in a combination of both, or by any other readily retrievable method.

1. In addition to other requirements for prescription records, records for products compounded pursuant to a prescription order for a single patient where only manufacturers' finished products are used as components shall include the name and quantity of all components, the date of compounding and dispensing, the prescription number or other identifier of the prescription order, the total quantity of finished product, the signature or initials of the pharmacist or pharmacy technician performing the compounding, and the signature or initials of the pharmacist responsible for supervising the pharmacy technician and verifying the accuracy and integrity of compounded products.

2. In addition to the requirements of subdivision I 1, records for products compounded in bulk or batch in advance of dispensing or when bulk drug substances are used shall include: the generic name and the name of the manufacturer of each component or the brand name of each component; the manufacturer's lot number and expiration date for each component or when the original manufacturer's lot number and expiration date are unknown, the source of acquisition of the component; the assigned lot number if subdivided, the unit or package size and the number of units or packages prepared; and the beyond-use date. The criteria for establishing the beyond-use date shall be available for inspection by the Board.

3. A complete compounding formula listing all procedures, necessary equipment, necessary environmental considerations, and other factors in detail shall be maintained where such instructions are necessary to replicate a compounded product or where the compounding is difficult or complex and must be done by a certain process in order to ensure the integrity of the finished product.

4. A formal written quality assurance plan shall be maintained that describes specific monitoring and evaluation of compounding activities in accordance with USP-NF standards. Records shall be maintained showing compliance with monitoring and evaluation requirements of the plan to include training and initial and periodic competence assessment of personnel involved in compounding, monitoring of environmental controls and equipment calibration, and any end-product testing, if applicable.

J. Practitioners who may lawfully compound drugs for administering or dispensing to their own patients pursuant to §§ 54.1-3301, 54.1-3304, and 54.1-3304.1 shall comply with all provisions of this section and the relevant Board regulations.

K. Every pharmacist-in-charge or owner of a permitted pharmacy or a registered nonresident pharmacy engaging in sterile compounding shall notify the Board of its intention to dispense or otherwise deliver a sterile compounded drug product into the Commonwealth. Upon renewal of its permit or registration, a pharmacy or nonresident pharmacy shall notify the Board of its intention to continue dispensing or otherwise delivering sterile compounded drug products into the Commonwealth. Failure to provide notification to the Board shall constitute a violation of Chapter 33 (§ 54.1-3300 et seq.) or Chapter 34 (§ 54.1-3400 et seq.). The Board shall maintain this information in a manner that will allow the production of a list identifying all such sterile compounding pharmacies.

2. That the Board of Pharmacy shall convene a workgroup to include representatives of the Board of Veterinary Medicine, the Board of Medicine, and stakeholders to include the Virginia Pharmacists Association, Virginia Society of Health-System Pharmacists, Virginia Veterinary Medicine Association, and the Virginia Society of Eye Physicians and Surgeons. The workgroup shall explore and clarify issues related to the compounding of drugs for human and animal use. The work group shall provide a report to the Chairmen of the House of Delegates' Committee on Health, Welfare and Institutions and the Senate Committee on Education and Health by November 1, 2014.

[H 1067]

Approved March 5, 2014

Be it enacted by the General Assembly of Virginia:

1. That §§ 3.2-6500, 3.2-6502, 3.2-6503, 3.2-6504, 3.2-6510, 3.2-6522, 3.2-6523, 3.2-6534, 3.2-6535, 3.2-6545, 3.2-6546, 3.2-6548, 3.2-6549, 3.2-6550, 3.2-6551, 3.2-6557, 18.2-144.2, 54.1-3423, and 54.1-3801 of the Code of Virginia are amended and reenacted as follows:

§ 3.2-6500. Definitions.

As used in this chapter unless the context requires a different meaning:

"Abandon" means to desert, forsake, or absolutely give up an animal without having secured another owner or custodian for the animal or by failing to provide the elements of basic care as set forth in § 3.2-6503 for a period of five consecutive days.

"Adequate care" or "care" means the responsible practice of good animal husbandry, handling, production, management, confinement, feeding, watering, protection, shelter, transportation, treatment, and, when necessary, euthanasia, appropriate for the age, species, condition, size and type of the animal and the provision of veterinary care when needed to prevent suffering or impairment of health.

"Adequate exercise" or "exercise" means the opportunity for the animal to move sufficiently to maintain normal muscle tone and mass for the age, species, size, and condition of the animal.

"Adequate feed" means access to and the provision of food that is of sufficient quantity and nutritive value to maintain each animal in good health; is accessible to each animal; is prepared so as to permit ease of consumption for the age, species, condition, size and type of each animal; is provided in a clean and sanitary manner; is placed so as to minimize contamination by excrement and pests; and is provided at suitable intervals for the species, age, and condition of the animal, but at least once daily, except as prescribed by a veterinarian or as dictated by naturally occurring states of hibernation or fasting normal for the species.

"Adequate shelter" means provision of and access to shelter that is suitable for the species, age, condition, size, and type of each animal; provides adequate space for each animal; is safe and protects each animal from injury, rain, sleet, snow, hail, direct sunlight, the adverse effects of heat or cold, physical suffering, and impairment of health; is properly lighted; is properly cleaned; enables each animal to be clean and dry, except when detrimental to the species; and, for dogs and cats, provides a solid surface, resting platform, pad, floor mat, or similar device that is large enough for the animal to lie on in a normal manner and can be maintained in a sanitary manner. Under this chapter, shelters whose wire, grid, or slat floors: (i) permit the animals' feet to pass through the openings; (ii) sag under the animals' weight; or (iii) otherwise do not protect the animals' feet or toes from injury are not adequate shelter.

"Adequate space" means sufficient space to allow each animal to: (i) easily stand, sit, lie, turn about, and make all other normal body movements in a comfortable, normal position for the animal; and (ii) interact safely with other animals in the enclosure. When an animal is tethered, "adequate space" means a tether that permits the above actions and is appropriate to the age and size of the animal; is attached to the animal by a properly applied collar, halter, or harness configured so as to protect the animal from injury and prevent the animal or tether from becoming entangled with other objects or animals, or from extending over an object or edge that could result in the strangulation or injury of the animal; and is at least three times the length of the animal, as measured from the tip of its nose to the base of its tail, except when the animal is being walked on a leash or is attached by a tether to a lead line. Be it enacted by the General Assembly of Virginia:

1. That § 29.1-521 of the Code of Virginia is amended and reenacted as follows:

§ 29.1-521. Unlawful to hunt, trap, possess, sell or transport wild birds and wild animals except as permitted; exception; penalty.

A. The following shall be unlawful:

1. To hunt or kill any wild bird or wild animal, including any nuisance species, with a gun, firearm, or other weapon, ~~or to hunt or kill any deer or bear with a gun, firearm, or other weapon with the aid or assistance of dogs, on Sunday, which is hereby declared a rest day for all species of wild bird and wild animal life, except.~~ *The provision of this subdivision that prohibits the hunting or killing of any wild bird or wild animal, including nuisance species, on Sunday shall not apply to (i) raccoons, which may be hunted until 2:00 a.m. on Sunday mornings; (ii) any person who hunts or kills waterfowl, subject to geographical limitations established by the Director and except within 200 yards of a place of worship or any accessory structure thereof; or (iii) any landowner or member of his family or any person with written permission from the landowner who hunts or kills any wild bird or wild animal, including any nuisance species, on the landowner's property, except within 200 yards of a place of worship or any accessory structure thereof.* However, a person lawfully carrying a gun, firearm or other weapon on Sunday in an area that could be used for hunting shall not be presumed to be hunting on Sunday, absent evidence to the contrary.

2. To destroy or molest the nest, eggs, dens or young of any wild bird or wild animal, except nuisance species, at any time without a permit as required by law.

3. To hunt or attempt to kill or trap any species of wild bird or wild animal after having obtained the daily bag or season limit during such day or season. However, any properly licensed person, or a person exempt from having to obtain a license, who has obtained such daily bag or season limit while hunting may assist others who are hunting game by calling game, retrieving game, handling dogs, or conducting drives if the weapon in his possession is an unloaded firearm, a bow without a nocked arrow or an unloaded crossbow. Any properly licensed person, or person exempt from having to obtain a license, who has obtained such season limit prior to commencement of the hunt may assist others who are hunting game by calling game, retrieving game, handling dogs, or conducting drives, provided he does not have a firearm, bow or crossbow in his possession.

4. To knowingly occupy any baited blind or other baited place for the purpose of taking or attempting to take any wild bird or wild animal or to put out bait or salt for any wild bird or wild animal for the purpose of taking or killing them. There shall be a rebuttable presumption that a person charged with violating this subdivision knows that he is occupying a baited blind or other baited place for the purpose of taking or attempting to take any wild bird or wild animal. However, this shall not apply to baiting nuisance species of animals and birds, or to baiting traps for the purpose of taking fur-bearing animals that may be lawfully trapped.

8. To set a trap where it would be likely to injure persons, dogs, stock or fowl.
9. To fail to visit all traps once each day and remove all animals caught, and immediately report to the landowner as to stock, dogs or fowl that are caught and the date. However, the Director or his designee may authorize employees of federal, state, and local government agencies, and persons holding a valid Commercial Nuisance Animal Permit issued by the Department, to visit conibear-style body-gripping traps that are completely submerged at least once every 72 hours and the Board may adopt regulations permitting trappers to visit traps less frequently under specified conditions.
10. To hunt, trap, take, capture, kill, attempt to take, capture or kill, possess, deliver for transportation, transport, cause to be transported, by any means whatever, receive for transportation or export, or import, at any time or in any manner, any wild bird or wild animal or the carcass or any part thereof, except as specifically permitted by law and only by the manner or means and within the numbers stated. However, the provisions of this section shall not be construed to prohibit the (i) use or transportation of legally taken turkey carcasses, or portions thereof, for the purposes of making or selling turkey callers, (ii) the manufacture or sale of implements, including, but not limited to, tools or utensils, made from legally harvested deer skeletal parts, including antlers, or (iii) the possession of shed antlers.

[S 51]

Approved March 5, 2014

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding a section numbered 15.2-2288.6 as follows:

§ 15.2-2288.6. Agricultural operations; local regulation of certain activities.

A. No locality shall regulate the carrying out of any of the following activities at an agricultural operation, as defined in § 3.2-300, unless there is a substantial impact on the health, safety, or general welfare of the public:

- 1. Agritourism activities as defined in § 3.2-6400;*
- 2. The sale of agricultural or silvicultural products, or the sale of agricultural-related or silvicultural-related items incidental to the agricultural operation;*
- 3. The preparation, processing, or sale of food products in compliance with subdivisions A 3, 4, and 5 of § 3.2-5130 or related state laws and regulations; or*
- 4. Other activities or events that are usual and customary at Virginia agricultural operations.*

Any local restriction placed on an activity listed in this subsection shall be reasonable and shall take into account the economic impact of the restriction on the agricultural operation and the agricultural nature of the activity.

B. No locality shall require a special exception, administrative permit not required by state law, or special use permit for any activity listed in subsection A on property that is zoned as an agricultural district or classification unless there is a substantial impact on the health, safety, or general welfare of the public.

C. Except regarding the sound generated by outdoor amplified music, no local ordinance regulating the sound generated by any activity listed in subsection A shall be more restrictive than the general noise ordinance of the locality. In permitting outdoor amplified music at an agricultural operation, the locality shall consider the effect on adjoining property owners and nearby residents.

D. The provisions of this section shall not affect any entity licensed in accordance with Chapter 2 (§ 4.1-200 et seq.) of Title 4.1. Nothing in this section shall be construed to affect the provisions of Chapter 3 (§ 3.2-300 et seq.) of Title 3.2, to alter the provisions of § 15.2-2288.3, or to restrict the authority of any locality under Title 58.1.

2. That the Virginia Department of Agriculture and Consumer Services shall continue the On-Farm Activities Working Group.

CHAPTER 154

An Act to amend and reenact §§ 38.2-1611.1 and 38.2-1705 of the Code of Virginia, relating to insurance guaranty associations; refunds of surplus funds with respect to insolvency.

[S 70]

Approved March 5, 2014

Be it enacted by the General Assembly of Virginia:

1. That §§ 38.2-1611.1 and 38.2-1705 of the Code of Virginia are amended and reenacted as follows:

§ 38.2-1611.1. Tax write-offs of certificates of contribution.

A. A member insurer shall have at its option the right to show a certificate of contribution as an asset in the form approved by the Commission pursuant to subdivision 3a of subsection A of § 38.2-1606 at the original face amount for the calendar year of issuance. Such amount may be amortized as follows:

1. Certificates of contribution issued prior to January 1, 1998, shall be amortized in each succeeding calendar year through December 31, 1997, at an amount not to exceed 0.05 of one percent of the member's direct gross premium income for the classes of insurance in the account for which the member insurer is assessed. As used herein, the definition of direct gross premium income shall be the same as that specified in § 58.1-2500. If the amount of the certificate has not been fully amortized by the contributing insurer by December 31, 1997, the unamortized balance of the certificate amount shall be amortized, at the option of the contributing insurer, either (i) in the same manner as the certificate was amortized prior to January 1, 1998; however, if not amortized in full prior to calendar year 2010, the unamortized balance of the certificate shall be amortized in full during calendar year 2010, or (ii) over the 10 successive calendar years commencing January 1, 1998, in amounts each equal to 10 percent of such unamortized balance. A contributing insurer whose certificate has not been fully amortized by December 31, 1997, shall notify the Commission in writing of the amortization schedule option it has selected on or before March 1, 1998; however, if a contributing insurer fails to notify the Commission by such date, the insurer shall be deemed to have selected the option described in clause (i) of the preceding sentence.

2. Certificates of contribution issued on or after January 1, 1998, shall be amortized over the 10 calendar years following the year the contribution was paid in amounts each equal to 10 percent of the amount of the contribution.

B. The insurer may offset the amount of the certificate amortized in a calendar year as provided in subsection A. This amount shall be deducted from the premium tax liability incurred on business transacted in this Commonwealth for that year. However, the Association shall diligently pursue all rights available to it to recover its expenditures made in the fulfillment of its responsibilities under this chapter. In the event the Commission determines after a hearing that the Association is not diligently pursuing available measures of recovery, the Commission shall notify the Department of Taxation and participating insurers will not be able to offset amounts amortized during the period that the Commission determines that the Association has not been diligently pursuing available measures of recovery.

C. Any sums that have been (i) amortized by contributing insurers and offset against premium taxes as provided in subsection B and (ii) subsequently refunded pursuant to subdivision A 3 of § 38.2-1606 or subdivision B 6 of § 38.2-1606 shall be paid to the Department of Taxation and deposited with the State Treasurer for credit to the general fund of this Commonwealth.

D. The amount of any credit against premium taxes provided for in this section for an insurer shall be reduced by the amount of reduction in federal income taxes for any deduction claimed by the insurer for an assessment paid pursuant to this chapter.

§ 38.2-1705. Assessments.

A. For the purpose of providing the funds necessary to carry out the powers and duties of the Association, the board of directors shall assess the member insurers, separately for each account, at such time and for any amounts as the board finds necessary. Assessments shall be due not less than 30 days after prior written notice has been given to the member insurers. Late payments shall accrue interest from the due date compounded quarterly, based upon the average 90 day treasury bill rate for the most recently completed calendar quarter as published in the Federal Reserve Bulletin and shall be subject to a minimum charge of \$50.

B. There shall be two classes of assessments, as follows:

1. Class A assessments shall be authorized and called for the purpose of meeting administrative and legal costs and other expenses. Class A assessments may be authorized and called whether or not related to a particular impaired or insolvent insurer.

2. Class B assessments shall be authorized and called to the extent necessary to carry out the powers and duties of the Association under § 38.2-1704 with regard to an impaired or an insolvent insurer.

C. 1. The amount of any Class A assessment shall be determined by the board and may be authorized and called for current member insurers on a pro-rata or nonpro-rata basis. If pro rata, the board may provide that it be credited against future Class B assessments. The total of all nonpro-rata assessments shall not exceed \$500 per member insurer in any one calendar year. The amount of a Class B assessment shall be allocated for assessment purposes among the accounts pursuant to an allocation formula which may be based on the premiums or reserves of the impaired or insolvent insurer or any other standard deemed by the board in its sole discretion as being fair and reasonable under the circumstances.

2. Class B assessments against member insurers for each account and subaccount shall be in the proportion that the premiums received on business in this Commonwealth by each assessed member insurer on policies or contracts covered by each account and subaccount for the three most recent calendar years for which information is available preceding the year in which the insurer became insolvent or, in the case of an assessment with respect to an impaired insurer, the three most recent calendar years for which information is available preceding the year in which the insurer became impaired, bear to such premiums received on business in this Commonwealth for those calendar years by all assessed member insurers.

3. Assessments for funds to meet the requirements of the Association with respect to an impaired or insolvent insurer shall not be authorized or called until necessary to implement the purposes of this chapter. Classification of assessments under subsection B and computation of assessments under this subsection shall be made with a reasonable degree of accuracy, recognizing that exact determinations may not always be possible. The Association shall notify each member insurer of its anticipated pro-rata share of an authorized assessment not yet called within 180 days after the assessment is authorized.

D. The Association may abate or defer, in whole or in part, the assessment of a member insurer if, in the opinion of the board, payment of the assessment would endanger the ability of the member insurer to fulfill its contractual obligations. In the event an assessment against a member insurer is abated or deferred in whole or in part, the amount by which the assessment is abated or deferred may be assessed against the other member insurers in a manner consistent with the basis for assessments set forth in this section. Once the conditions that caused a deferral have been removed or rectified, the member insurer shall pay all assessments that were deferred pursuant to a repayment plan approved by the Association.

E. 1. a. Subject to the provisions of subdivision E 1 b, the total of all assessments authorized by the Association with respect to a member insurer for each subaccount of the life insurance and annuity account and for the accident and sickness insurance account shall not in any one calendar year exceed two percent of that member insurer's average annual premiums received in the Commonwealth on the policies and contracts covered by the subaccount or account during the three calendar years preceding the year in which the insurer became an impaired or insolvent insurer.

b. If two or more assessments are authorized in one calendar year with respect to insurers that become impaired or insolvent in different calendar years, the average annual premiums for purposes of the aggregate assessment percentage limitation referenced in subdivision E 1 a shall be equal and limited to the higher of the three-year average annual premiums for the applicable subaccount or account as calculated pursuant to this section.

c. If the maximum assessment, together with the other assets of the Association in an account, does not provide in one year in that account an amount sufficient to carry out the responsibilities of the Association, the necessary additional funds shall be assessed as soon thereafter as permitted by this chapter.

2. The board may provide in the plan of operation a method of allocating funds among claims, whether relating to one or more impaired or insolvent insurers, when the maximum assessment will be insufficient to cover anticipated claims.

3. If the maximum assessment for a subaccount of the life and annuity account in one year does not provide an amount sufficient to carry out the responsibilities of the Association, then pursuant to subdivision C 2, the board shall access the other subaccounts of the life and annuity account for the necessary additional amount, subject to the maximum stated in subdivision E 1.

F. If the Board of Directors of the Association determines that it has surplus funds on hand with respect to an insolvency, the Association shall, in accordance with the process set forth in the certificate of contribution for adjusting or cancelling the unamortized portion of the member insurer's certificate of contribution in the event of a reimbursement of assessment payments, use such surplus funds to reimburse member insurers for assessment costs not otherwise amortized and offset pursuant to § 38.2-1709 and pay the remaining surplus to the ~~Commission~~ *Department of Taxation*, for deposit with the State Treasurer for credit to the general fund of the Commonwealth. Within 90 days of making payment of surplus funds to the ~~Commission~~ *Department of Taxation* for deposit with the State Treasurer, the Association shall notify its member insurers of such payment. If any member insurer contends that it is entitled to any portion of the surplus refunded to the Commonwealth in order to recover assessment costs not otherwise amortized and offset pursuant to § 38.2-1709, then the member insurer may present evidence of such entitlement to the ~~Commission~~ *Department of Taxation*. If the ~~Commission~~ *Department of Taxation* determines that the member insurer is entitled to a portion of the surplus funds in order to recover assessment costs not otherwise amortized and offset pursuant to § 38.2-1709, then the State Treasurer shall pay to the member insurer the sum that the ~~Commission~~ *Department of Taxation* determines that the member insurer is entitled to receive. A reasonable amount may be retained in any account to provide funds for the continuing expenses of the

Association and for future losses and claims. For purposes of this subsection, "surplus funds" includes funds that the Association obtains by way of distributions or recoveries from receivers and third parties as reimbursement for its costs in connection with insolvencies and impairments in excess of reasonable amounts retained in an account to provide funds for the continuing expenses of the Association and for future losses and claims.

G. It shall be proper for any member insurer, in determining its premium rates and policy owner dividends as to any kind of insurance within the scope of this chapter, to consider the amount reasonably necessary to meet its assessment obligations under this chapter.

H. The Association shall issue to each insurer paying an assessment under this chapter, other than a Class A assessment, a certificate of contribution, in a form prescribed by the Commission, for the amount of the assessment so paid excluding interest penalties. All outstanding certificates shall be of equal dignity and priority without reference to amounts or dates of issue. A certificate of contribution may be shown by the insurer in its financial statement as an asset in such form and for such amount, if any, and period of time as the Commission may approve.

I. 1. A member insurer that wishes to protest all or part of an assessment shall pay when due the full amount of the assessment as set forth in the notice provided by the Association. The payment shall be available to meet Association obligations during the pendency of the protest or any subsequent appeal. Payment shall be accompanied by a statement in writing that the payment is made under protest and setting forth a brief statement of the grounds for the protest.

2. Within 60 days following the payment of an assessment under protest by a member insurer, the Association shall notify the member insurer in writing of its determination with respect to the protest unless the Association notifies the member insurer that additional time is required to resolve the issues raised by the protest.

3. Within 30 days after a final decision has been made, the Association shall notify the protesting member insurer in writing of that final decision. Within 60 days of receipt of notice of the final decision, the protesting member insurer may appeal that final action to the Commission.

4. In the alternative to rendering a final decision with respect to a protest based on a question regarding the assessment base, the Association may refer the protest to the Commission for a final decision, with or without a recommendation from the Association.

5. If the protest or appeal on the assessment is upheld, the amount paid in error or excess shall be returned to the member company. Interest on a refund due a protesting member shall be paid at the rate actually earned by the Association.

J. The Association may request information of member insurers in order to aid in the exercise of its power under this section and member insurers shall promptly comply with a request.

B. If no action is brought, interest upon the principal sum paid to the beneficiary or policyowner shall be computed daily at an annual rate of ~~2 1/2~~ *two and one-half* percent or at the annual rate currently paid by the insurer on proceeds left under the interest settlement option, whichever is greater, commencing (i) from the date of death on a life insurance policy or annuity contract claim ~~and~~; (ii) *from the date of receipt of a completed claim form on a variable annuity contract claim;* or (iii) from the date of maturity of an endowment contract to the date of payment. The interest shall be added to and become a part of the total sum payable.

C. No insurer shall be required to pay interest computed under this section if the total interest is less than five dollars.

D. This section shall not apply to (i) credit life insurance for which the premium is paid wholly from funds of the creditor with no specific identifiable charge being made to insureds for the insurance and upon which post-death interest on the indebtedness is waived by the creditor in an amount at least equal to the amount of interest that would otherwise be payable under this section; (ii) credit life insurance payable in whole or in part to a creditor that is an affiliate, as defined in § 13.1-725, of the insurer and that does not charge interest on the indebtedness from the date of death of the insured; or (iii) policies or contracts issued prior to July 1, 1977, but shall apply to any renewals or reissues of group life insurance policies or contracts occurring after that date.

B. An in-network provider that provides health care services to a covered patient shall submit its claim to the health insurer for the health care services in accordance with the terms of the applicable provider agreement, provided that the covered patient provides the in-network provider with information required by the terms of the covered patient's health care policy's plan documents, including the information that is required to verify the individual's coverage under the health care policy, within not fewer than 21 business days before the deadline for the in-network provider to submit its claim to the health insurer as required by the terms of the provider agreement. If the in-network provider submits its claim to the health insurer in accordance with the requirements of this subsection, the covered patient or the health insurer shall be obligated to pay for the health care services in accordance with the terms of the provider agreement or health care policy's plan documents. To the extent that self-insured or self-funded plans governed by ERISA provide otherwise, health care providers shall be permitted to submit claims and coordinate benefits as provided for in the provider agreements or plan documents.

1. All reasonable and necessary expenses for medical, chiropractic, hospital, dental, surgical, ambulance, prosthetic and rehabilitation services, and funeral expenses, resulting from the accident and incurred within three years after the date of the accident, up to \$2,000 per person; however, if the insured does not elect to purchase such limit the insurer and insured may agree to any other limit;

2. If the person is usually engaged in a remunerative occupation, an amount equal to the loss of income incurred after the date of the accident resulting from injuries received in the accident up to \$100 per week during the period from the first workday lost as a result of the accident up to the date the person is able to return to his usual occupation. However, the period shall not extend beyond one year from the date of the accident; and

3. An expense described in subdivision 1 shall be deemed to have been incurred:

a. If the insured is directly responsible for payment of the expense;

b. If the expense is paid by (i) a health care insurer pursuant to a negotiated contract with the health care provider or (ii) Medicaid or Medicare, where the actual payment with reference to the medical bill rendered by the provider is less than or equal to the provider's usual and customary fee, in the amount of the actual payment as evidenced by an explanation of benefits, remittance advice, or similar documentation from the health care provider; however, if the insured is required to make a payment in addition to the actual payment by the health care insurer or Medicaid or Medicare, the amount shall be increased by the payment made by the insured; or

Either or both of the coverages, as well as any other medical expense or loss of income coverage under any policy of automobile liability insurance, shall be payable to the covered injured person or pursuant to an assignment of benefits in accordance with subsection D, notwithstanding the failure or refusal of the named insured or other person entitled to the coverage to give notice to the insurer of an accident as soon as practicable under the terms of the policy, except where the failure or refusal prejudices the insurer in establishing the validity of the claim.

C. In any policy of personal automobile insurance in which the insured has purchased coverage under subsection A, every insurer providing such coverage arising from the ownership, maintenance or use of no more than four motor vehicles shall be liable to pay up to the maximum policy limit available on every motor vehicle insured under that coverage if the health care or disability expenses and costs mentioned in subsection A exceed the limits of coverage for any one motor vehicle so insured.

D. Any attempt to assign medical expense benefits shall be subject to the following:

1. An assignment of medical expense benefits shall be valid only if:

e. If the AOB form does not include a notice that complies with the provisions of subdivision g, (i) the assignor is given a separate document, in any printed or electronic format, that is delivered to the assignor at the same time as the AOB form and that contains a notice that complies with the provisions of subdivision g; (ii) the AOB form includes a conspicuous statement that a notice regarding the assignment of medical expense benefits is provided in a separate document; and (iii) the AOB form is signed, initialed, or otherwise marked by the assignor at or near the statement described in clause (ii) to acknowledge that the assignor has read, or had the opportunity to read, the separate document containing the notice;

f. The statements required by subdivision D 1 to be included in the AOB form or a separate document, including the notice prescribed by subdivision g, are in not less than eight-point type; and

g. The assignor is provided, either in the AOB form or in a separate document, a notice that summarizes the effect of the assignment of medical expense benefits, which notice states the following:

"Notice: automobile accident patients

If you have been in an automobile accident, you may be entitled to payment from your automobile insurance if you have medical expense benefits coverage. By signing this assignment of benefits form you are giving to your health care provider the right to receive some or all of that payment directly from your automobile insurance company.

If you have health insurance and your healthcare provider is in-network: as long as you provide information necessary to verify your health insurance coverage the healthcare provider may only bill the amount you owe for any copayment, coinsurance, or deductibles to your automobile insurance and you may be entitled to any remainder of your automobile insurance benefit.

If you do not provide information necessary to verify your health insurance coverage, do not have health insurance, or your healthcare provider is not in your health insurer's provider network: your health care provider may bill their full charges to your automobile insurance.

You may want to consult your insurance agent or attorney before signing or initialing this form. You are not required to sign/initial this form to receive care.";

2. Upon receipt of a copy of an AOB form that satisfies the requirements of subdivision D 1 and (i) an explanation of benefits or remittance advice or (ii) a bill, claim form, or documentation from the assignee advising that it has been represented to the assignee that the covered injured person does not have health insurance or is covered by a self-insured or self-funded employee welfare benefit plan subject to the Employee Retirement Income Security Act of 1974 which requires medical expense coverage to be primary, a motor vehicle insurer shall pay directly to the health care provider, from any medical expense benefits available to such person under a motor vehicle insurance policy:

a. If the covered injured person is covered under a health care policy, the health care provider is an in-network provider, and the health care provider has submitted its claim to the health insurer for the health care services, the amount of any copayments, coinsurance, or deductibles owed by the injured covered person to the health care provider, as evidenced by an explanation of benefits, remittance advice, or similar documentation provided to the motor vehicle insurer; or

b. If (i) the covered injured person is not covered under a health care policy, (ii) the covered injured person is covered by a self-insured or self-funded employee welfare benefit plan subject to the Employee Retirement Income Security Act of 1974 which requires medical expense coverage to be primary, or (iii) the health care provider is not an in-network provider, amounts to cover the cost of the health care services provided, in the amount of the usual and customary fee charged in that community for the health care services rendered;

3. A motor vehicle insurer shall in all respects be held harmless for making payments pursuant to subdivision D 2 to a health care provider in accordance with an assignment of benefits that satisfies the requirements of subdivision D 1;

4. A covered injured person shall not be required to assign to any person any medical expense benefits he may have under this section, including any assignment of the proceeds of such coverages;

5. An assignment of medical expense benefits shall be void and unenforceable as against public policy if the assignment does not comply with the requirements of subdivision D 1;

6. Medical expense benefits may not be reduced because of any benefits paid, payable, or provided by any insurance contract providing hospital, medical, surgical, and similar or related benefits, or any subscription contract or health services plan delivered or issued for delivery or providing for the payment of benefits to or on behalf of persons residing in or employed in the Commonwealth, except as authorized by this section; and

7. Nothing in this section shall prohibit the payment of medical expense benefits due to the covered injured person directly to any state or federal assistance program that has provided medical benefits to such injured person when the injury arose out of the ownership, maintenance, or use of any motor vehicle.

Without limiting the foregoing, the benefits offered or arranged by a carrier's indemnity group accident and sickness policy under Chapter 34 (§ 38.2-3400 et seq.) of this title, health services plan under Chapter 42 (§ 38.2-4200 et seq.) of this title or preferred provider organization plan under Chapter 34 (§ 38.2-3400 et seq.) or 42 (§ 38.2-4200 et seq.) of this title which permit an enrollee (and eligible dependents) to receive the full range of covered items and services outside of a provider panel, including optometrists and clinical psychologists, and which are otherwise in compliance with applicable law and this section shall constitute a point-of-service benefit.

"Preferred provider organization plan" means a health benefit program offered pursuant to a preferred provider policy or contract under § 38.2-3407 or covered services offered under a preferred provider subscription contract under § 38.2-4209.

"Provider panel" means the participating providers or referral providers who have a contract, agreement or arrangement with a health maintenance organization or other carrier, either directly or through an intermediary, and who have agreed to provide items or services to enrollees of the health maintenance organization or other carrier.

B. To the maximum extent permitted by applicable law, every health care plan offered or proposed to be offered in this Commonwealth by a health maintenance organization licensed under this title to a group contract holder shall provide or include, or the health maintenance organization shall arrange for or contract with another carrier to provide or include, a point-of-service benefit to be provided or offered in conjunction with the health maintenance organization's health care plan as an additional benefit for the enrollee, at the enrollee's option, individually to accept or reject. In connection with its group enrollment application, every health maintenance organization shall, at no additional cost to the group contract holder, make available or arrange with a carrier to make available to the prospective group contract holder and to all prospective enrollees, in advance of initial enrollment and in advance of each reenrollment, a notice in form and substance acceptable to the Commission which accurately and completely explains to the group contract holder and prospective enrollee the point-of-service benefit and permits each enrollee to make his or her election. The form of notice provided in connection with any reenrollment may be the same as the approved form of notice used in connection with initial enrollment and may be made available to the group contract holder and prospective enrollee by the carrier in any reasonable manner.

C. To the extent permitted under applicable law, a health maintenance organization providing or arranging, or contracting with another carrier to provide, the point-of-service benefit under this section and a carrier providing the point-of-service benefit required under this section under arrangement or contract with a health maintenance organization:

1. May not impose, or permit to be imposed, a minimum enrollee participation level on the point-of-service benefit alone;

2. May not refuse to reimburse a provider of the type listed or referred to in § 38.2-3408 or 38.2-4221 for items or services provided under the point-of-service benefit required under this section solely on the basis of the license or certification of the provider to provide such items or services if the carrier otherwise covers the items or services provided and the provision of the items or services is within the provider's lawful scope of practice or authority; and

3. Shall rate and underwrite all prospective enrollees of the group contract holder as a single group prior to any enrollee electing to accept or reject the point-of-service benefit.

D. The premium imposed by a carrier with respect to enrollees who select the point-of-service benefit may be different from that imposed by the health maintenance organization with respect to enrollees who do not select the point-of-service

benefit. Unless a group contract holder determines otherwise, any enrollee who accepts the point-of-service benefit shall be responsible for the payment of any premium over the amount of the premium applicable to an enrollee who selects the coverage offered by the health maintenance organization without the point-of-service benefit and for any identifiable group specific administrative cost incurred directly by the carrier or any administrative cost incurred by the group contract holder in offering the point-of-service benefit to the enrollee. If a carrier offers the point-of-service benefit to a group contract holder where no enrollees of the group contract holder elect to accept the point-of-service benefit and incurs an identifiable group specific administrative cost directly as a consequence of the offering to that group contract holder, the carrier may reflect that group specific administrative cost in the premium charged to other enrollees selecting the point-of-service benefit under this section. Unless the group contract holder otherwise directs or authorizes the carrier in writing, the carrier shall make reasonable efforts to ensure that no portion of the cost of offering or arranging the point-of-service benefit shall be reflected in the premium charged by the carrier to the group contract holder for a group health benefit plan without the point-of-service benefit. Any premium differential and any group specific administrative cost imposed by a carrier relating to the cost of offering or arranging the point-of-service benefit must be actuarially sound and supported by a sworn certification of an officer of each carrier offering or arranging the point-of-service benefit filed with the Commission certifying that the premiums are based on sound actuarial principles and otherwise comply with this section. The certifications shall be in a form, and shall be accompanied by such supporting information in a form acceptable to the Commission.

E. Any carrier may impose different co-insurance, co-payments, deductibles and other cost-sharing arrangements for the point-of-service benefit required under this section based on whether or not the item or service is provided through the provider panel of the health maintenance organization; provided that, except to the extent otherwise prohibited by applicable law, any such cost-sharing arrangement:

1. Shall not impose on the enrollee (or his or her eligible dependents, as appropriate) any co-insurance percentage obligation which is payable by the enrollee which exceeds the greater of: (i) thirty percent of the carrier's allowable charge for the items or services provided by the provider under the point-of-service benefit or (ii) the co-insurance amount which would have been required had the covered items or services been received through the provider panel;

2. Shall not impose on an enrollee (or his or her eligible dependents, as appropriate) a co-payment or deductible which exceeds the greatest co-payment or deductible, respectively, imposed by the carrier or its affiliate under one or more other group health benefit plans providing a point-of-service benefit which are currently offered and actively marketed by the carrier or its affiliate in the Commonwealth and are subject to regulation under this title; and

3. Shall not result in annual aggregate cost-sharing payments to the enrollee (or his or her eligible dependents, as appropriate) which exceed the greatest annual aggregate cost-sharing payments which would apply had the covered items or services been received under another group health benefit plan providing a point-of-service benefit which is currently offered and actively marketed by the carrier or its affiliate in the Commonwealth and which is subject to regulation under this title.

F. Except to the extent otherwise required under applicable law, any carrier providing the point-of-service benefit required under this section may not utilize an allowable charge or basis for determining the amount to be reimbursed or paid to any provider from which covered items or services are received under the point-of-service benefit which is not at least as favorable to the provider as that used:

1. By the carrier or its affiliate in calculating the reimbursement or payment to be made to similarly situated providers under another group health benefit plan providing a point-of-service benefit which is subject to regulation under this title and which is currently offered or arranged by the carrier or its affiliate and actively marketed in the Commonwealth, if the carrier or its affiliate offers or arranges another such group health benefit plan providing a point-of-service benefit in the Commonwealth; or

2. By the health maintenance organization in calculating the reimbursement or payment to be made to similarly situated providers on its provider panel.

G. Except as expressly permitted in this section or required under applicable law, no carrier shall impose on any person receiving or providing health care items or services under the point-of-service benefit any condition or penalty designed to discourage the enrollee's selection or use of the point-of-service benefit, which is not otherwise similarly imposed either: (i) on enrollees in another group health benefit plan, if any, currently offered or arranged and actively marketed by the carrier or its affiliate in the Commonwealth or (ii) on enrollees who receive the covered items or services from the health maintenance organization's provider panel. Nothing in this section shall preclude a carrier offering or arranging a point-of-service benefit from imposing on enrollees selecting the point-of-service benefit reasonable utilization review, preadmission certification or precertification requirements or other utilization or cost control measures which are similarly imposed on enrollees participating in one or more other group health benefit plans which are subject to regulation under this title and are currently offered and actively marketed by the carrier or its affiliates in the Commonwealth or which are otherwise required under applicable law.

H. Except as expressly otherwise permitted in this section or as otherwise required under applicable law, the scope of the health care items and services which are covered under the point-of-service benefit required under this section shall at least include the same health care items and services which would be covered if provided under the health maintenance organization's health care plan, including without limitation any items or services covered under a rider or endorsement to the applicable health care plan. Carriers shall be required to disclose prominently in all group health benefit plans and in all

marketing materials utilized with respect to such group health benefit plans that the scope of the benefits provided under the point-of-service option are at least as great as those provided through the HMO's health care plan for that group. Filings of point-of-service benefits submitted to the Commission shall be accompanied by a certification signed by an officer of the filing carrier certifying that the scope of the point-of-service benefits includes at a minimum the same health care items and services as are provided under the HMO's group health care plan for that group.

I. Nothing in this section shall prohibit a health maintenance organization from offering or arranging the point-of-service benefit (i) as a separate group health benefit plan or under a different name than the health maintenance organization's group health benefit plan which does not contain the point-of-service benefit or (ii) from managing a group health benefit plan under which the point-of-service benefit is offered in a manner which separates or otherwise differentiates it from the group health benefit plan which does not contain the point-of-service benefit.

J. Notwithstanding anything in this section to the contrary, to the extent permitted under applicable law, no health maintenance organization shall be required to offer or arrange a point-of-service benefit under this section with respect to any group health benefit plan offered to a group contract holder if the health maintenance organization determines in good faith that the group contract holder will be concurrently offering another group health benefit plan or a self-insured or self-funded health benefit plan which allows the enrollees to access care from their provider of choice whether or not the provider is a member of the health maintenance organization's panel.

K. This section shall apply only to group health benefit plans issued in the Commonwealth in the commercial group market by carriers regulated by this title and shall not apply to (i) health care plans, contracts or policies issued in the individual market; (ii) coverages issued pursuant to Title XVIII of the Social Security Act, 42 U.S.C. § 1395 et seq. (Medicare), Title XIX of the Social Security Act, 42 U.S.C. § 1396 et seq. (*Medicaid*) or Title ~~XX~~ XXI of the Social Security Act, 42 U.S.C. § ~~1397~~ 1397aa et seq. (*Medicaid*) (*CHIP*), 5 U.S.C. § 8901 et seq. (federal employees), 10 U.S.C. § 1071 et seq. (~~CHAMPUS~~) (*TRICARE*) or Chapter 28 (§ 2.2-2800 et seq.) of Title 2.2 (state employees); (iii) accident only, credit or disability insurance, or long-term care insurance, plans providing only limited health care services under § 38.2-4300 (unless offered by endorsement or rider to a group health benefit plan), ~~CHAMPUS~~ *TRICARE* supplement, Medicare supplement, or workers' compensation coverages; or (iv) an employee welfare benefit plan (as defined in section 3 (1) of the Employee Retirement Income Security Act of 1974, 29 U.S.C. § 1002 (1)), which is self-insured or self-funded.

L. This section shall apply to group health benefit plans issued or renewed by carriers in this Commonwealth on or after July 1, 1998.

M. Nothing in this section shall operate to limit any rights or obligations arising under § 38.2-3407, 38.2-3407.7, 38.2-3407.10, 38.2-3407.11, 38.2-4209, 38.2-4209.1, 38.2-4312, or 38.2-4312.1.

N. If any provision of this section or its application to any person or circumstance is held invalid for any reason in a court of competent jurisdiction, the invalidity shall not affect the other provisions or any other application of this section which shall be given effect without the invalid provision or application, and for this purpose the provisions of this section are declared severable.

Health plan does not mean (i) coverages issued pursuant to Title XVIII of the Social Security Act, 42 U.S.C. § 1395 et seq. (Medicare), Title XIX of the Social Security Act, 42 U.S.C. § 1396 et seq. "Provider contract" means any contract between a provider and a carrier (or a carrier's network, provider panel, intermediary or representative) relating to the provision of health care services.

"Retroactive denial of a previously paid claim" or "retroactive denial of payment" means any attempt by a carrier retroactively to collect payments already made to a provider with respect to a claim by reducing other payments currently owed to the provider, by withholding or setting off against future payments, or in any other manner reducing or affecting the future claim payments to the provider.

B. Subject to subsection H, every provider contract entered into by a carrier shall contain specific provisions which shall require the carrier to adhere to and comply with the following minimum fair business standards in the processing and payment of claims for health care services:

1. A carrier shall pay any claim within 40 days of receipt of the claim except where the obligation of the carrier to pay a claim is not reasonably clear due to the existence of a reasonable basis supported by specific information available for review by the person submitting the claim that:

a. The claim is determined by the carrier not to be a clean claim due to a good faith determination or dispute regarding (i) the manner in which the claim form was completed or submitted, (ii) the eligibility of a person for coverage, (iii) the responsibility of another carrier for all or part of the claim, (iv) the amount of the claim or the amount currently due under the claim, (v) the benefits covered, or (vi) the manner in which services were accessed or provided; or

b. The claim was submitted fraudulently.

Each carrier shall maintain a written or electronic record of the date of receipt of a claim. The person submitting the claim shall be entitled to inspect such record on request and to rely on that record or on any other admissible evidence as proof of the fact of receipt of the claim, including without limitation electronic or facsimile confirmation of receipt of a claim.

2. A carrier shall, within 30 days after receipt of a claim, request electronically or in writing from the person submitting the claim the information and documentation that the carrier reasonably believes will be required to process and pay the claim or to determine if the claim is a clean claim. Upon receipt of the additional information requested under this subsection necessary to make the original claim a clean claim, a carrier shall make the payment of the claim in compliance with this section. No carrier may refuse to pay a claim for health care services rendered pursuant to a provider contract which are covered benefits if the carrier fails timely to notify or attempt to notify the person submitting the claim of the matters identified above unless such failure was caused in material part by the person submitting the claims; however, nothing herein shall preclude such a carrier from imposing a retroactive denial of payment of such a claim if permitted by the provider contract unless such retroactive denial of payment of the claim would violate subdivision 6 of this subsection. Nothing in this subsection shall require a carrier to pay a claim which is not a clean claim.

3. Any interest owing or accruing on a claim under § 38.2-3407.1 or 38.2-4306.1 of this title, under any provider contract or under any other applicable law, shall, if not sooner paid or required to be paid, be paid, without necessity of demand, at the time the claim is paid or within 60 days thereafter.

4. a. Every carrier shall establish and implement reasonable policies to permit any provider with which there is a provider contract (i) to confirm in advance during normal business hours by free telephone or electronic means if available whether the health care services to be provided are medically necessary and a covered benefit and (ii) to determine the carrier's requirements applicable to the provider (or to the type of health care services which the provider has contracted to deliver under the provider contract) for (a) pre-certification or authorization of coverage decisions, (b) retroactive reconsideration of a certification or authorization of coverage decision or retroactive denial of a previously paid claim, (c) provider-specific payment and reimbursement methodology, coding levels and methodology, downcoding, and bundling of claims, and (d) other provider-specific, applicable claims processing and payment matters necessary to meet the terms and conditions of the provider contract, including determining whether a claim is a clean claim. If a carrier routinely, as a matter of policy, bundles or downcodes claims submitted by a provider, the carrier shall clearly disclose that practice in each provider contract. Further, such carrier shall either (i) disclose in its provider contracts or on its website the specific bundling and downcoding policies that the carrier reasonably expects to be applied to the provider or provider's services on a routine basis as a matter of policy or (ii) disclose in each provider contract a telephone or facsimile number or e-mail address that a provider can use to request the specific bundling and downcoding policies that the carrier reasonably expects to be applied to that provider or provider's services on a routine basis as a matter of policy. If such request is made by or on behalf of a provider, a carrier shall provide the requesting provider with such policies within 10 business days following the date the request is received.

b. Every carrier shall make available to such providers within 10 business days of receipt of a request, copies of or reasonable electronic access to all such policies which are applicable to the particular provider or to particular health care services identified by the provider. In the event the provision of the entire policy would violate any applicable copyright law, the carrier may instead comply with this subsection by timely delivering to the provider a clear explanation of the policy as it applies to the provider and to any health care services identified by the provider.

5. Every carrier shall pay a claim if the carrier has previously authorized the health care service or has advised the provider or enrollee in advance of the provision of health care services that the health care services are medically necessary and a covered benefit, unless:

a. The documentation for the claim provided by the person submitting the claim clearly fails to support the claim as originally authorized; or

b. The carrier's refusal is because (i) another payor is responsible for the payment, (ii) the provider has already been paid for the health care services identified on the claim, (iii) the claim was submitted fraudulently or the authorization was based in whole or material part on erroneous information provided to the carrier by the provider, enrollee, or other person not related to the carrier, or (iv) the person receiving the health care services was not eligible to receive them on the date of service and the carrier did not know, and with the exercise of reasonable care could not have known, of the person's eligibility status.

6. No carrier may impose any retroactive denial of a previously paid claim unless the carrier has provided the reason for the retroactive denial and (i) the original claim was submitted fraudulently, (ii) the original claim payment was incorrect because the provider was already paid for the health care services identified on the claim or the health care services identified on the claim were not delivered by the provider, or (iii) the time which has elapsed since the date of the payment of the original challenged claim does not exceed the lesser of (a) 12 months or (b) the number of days within which the carrier requires under its provider contract that a claim be submitted by the provider following the date on which a health care service is provided. Effective July 1, 2000, a carrier shall notify a provider at least 30 days in advance of any retroactive denial of a claim.

7. Notwithstanding subdivision 6 of this subsection, with respect to provider contracts entered into, amended, extended, or renewed on or after July 1, 2004, no carrier shall impose any retroactive denial of payment or in any other way seek recovery or refund of a previously paid claim unless the carrier specifies in writing the specific claim or claims for which the retroactive denial is to be imposed or the recovery or refund is sought. The written communication shall also contain an explanation of why the claim is being retroactively adjusted.

8. No provider contract may fail to include or attach at the time it is presented to the provider for execution (i) the fee schedule, reimbursement policy or statement as to the manner in which claims will be calculated and paid which is applicable to the provider or to the range of health care services reasonably expected to be delivered by that type of provider on a routine basis and (ii) all material addenda, schedules and exhibits thereto and any policies (including those referred to in subdivision 4 of this subsection) applicable to the provider or to the range of health care services reasonably expected to be delivered by that type of provider under the provider contract.

9. No amendment to any provider contract or to any addenda, schedule, exhibit or policy thereto (or new addenda, schedule, exhibit, or policy) applicable to the provider (or to the range of health care services reasonably expected to be delivered by that type of provider) shall be effective as to the provider, unless the provider has been provided with the applicable portion of the proposed amendment (or of the proposed new addenda, schedule, exhibit, or policy) at least 60 calendar days before the effective date and the provider has failed to notify the carrier within 30 calendar days of receipt of the documentation of the provider's intention to terminate the provider contract at the earliest date thereafter permitted under the provider contract.

10. In the event that the carrier's provision of a policy required to be provided under subdivision 8 or 9 of this subsection would violate any applicable copyright law, the carrier may instead comply with this section by providing a clear, written explanation of the policy as it applies to the provider.

11. All carriers shall establish, in writing, their claims payment dispute mechanism and shall make this information available to providers.

C. Without limiting the foregoing, in the processing of any payment of claims for health care services rendered by providers under provider contracts and in performing under its provider contracts, every carrier subject to regulation by this title shall adhere to and comply with the minimum fair business standards required under subsection B, and the Commission shall have the jurisdiction to determine if a carrier has violated the standards set forth in subsection B by failing to include the requisite provisions in its provider contracts and shall have jurisdiction to determine if the carrier has failed to implement the minimum fair business standards set out in subdivisions B 1 and B 2 in the performance of its provider contracts.

D. No carrier shall be in violation of this section if its failure to comply with this section is caused in material part by the person submitting the claim or if the carrier's compliance is rendered impossible due to matters beyond the carrier's reasonable control (such as an act of God, insurrection, strike, fire, or power outages) which are not caused in material part by the carrier.

E. Any provider who suffers loss as the result of a carrier's violation of this section or a carrier's breach of any provider contract provision required by this section shall be entitled to initiate an action to recover actual damages. If the trier of fact finds that the violation or breach resulted from a carrier's gross negligence and willful conduct, it may increase damages to an amount not exceeding three times the actual damages sustained. Notwithstanding any other provision of law to the contrary, in addition to any damages awarded, such provider also may be awarded reasonable attorney's fees and court costs. Each claim for payment which is paid or processed in violation of this section or with respect to which a violation of this section exists shall constitute a separate violation. The Commission shall not be deemed to be a "trier of fact" for purposes of this subsection.

F. No carrier (or its network, provider panel or intermediary) shall terminate or fail to renew the employment or other contractual relationship with a provider, or any provider contract, or otherwise penalize any provider, for invoking any of the provider's rights under this section or under the provider contract.

G. This section shall apply only to carriers subject to regulation under this title.

H. This section shall apply with respect to provider contracts entered into, amended, extended or renewed on or after July 1, 1999.

I. Pursuant to the authority granted by § 38.2-223, the Commission may promulgate such rules and regulations as it may deem necessary to implement this section.

J. If any provision of this section, or the application thereof to any person or circumstance, is held invalid or unenforceable, such determination shall not affect the provisions or applications of this section which can be given effect without the invalid or unenforceable provision or application, and to that end the provisions of this section are severable.

K. The Commission shall have no jurisdiction to adjudicate individual controversies arising out of this section.

Such items shall include those incidents reported to school authorities pursuant to § 22.1-279.3:1 and shall include a school inspection walk-through using a standardized checklist provided by the Virginia Center for School *and Campus* Safety, which shall incorporate crime prevention through environmental design principles.

The Virginia Center for School *and Campus* Safety shall prescribe a standardized report format for school safety audits, additional reporting criteria, and procedures for report submission, which may include instructions for electronic submission.

Each local school board shall require all schools under its supervisory control to annually conduct school safety audits as defined in this section and consistent with such list.

The results of such school safety audits shall be made public within 90 days of completion. The local school board shall retain authority to withhold or limit the release of any security plans, walk-through checklists, and specific vulnerability assessment components as provided in subdivision 7 of § 2.2-3705.2. The school safety audit committee shall review the completed school safety audits and submit any plans, as needed, for improving school safety to the division superintendent for submission to the local school board.

D. Each school board shall ensure that every school that it supervises shall develop a written school crisis, emergency management, and medical emergency response plan, consistent with the definition provided in this section, and shall provide copies of such plans to the chief law-enforcement officer, the fire chief, the chief emergency medical services official, and the emergency management official of the locality. Each school division shall designate an emergency manager. The Department of Education and the Virginia Center for School *and Campus* Safety shall provide technical assistance to the school divisions of the Commonwealth in the development of the school crisis, emergency management, and medical emergency response plans that describe the components of a medical emergency response plan developed in coordination with local emergency medical services providers, the training of school personnel and students to respond to a life-threatening emergency, and the equipment required for this emergency response. The local school board shall annually review the written school crisis, emergency management, and medical emergency response plans. The local school board shall have the authority to withhold or limit the review of any security plans and specific vulnerability assessment components as provided in subdivision 7 of § 2.2-3705.2. The local school division superintendent shall certify this review in writing to the Virginia Center ~~on~~ for School *and Campus* Safety no later than August 31 of each year.

Upon consultation with local school boards, division superintendents, the Virginia Center for School *and Campus* Safety, and the Coordinator of Emergency Management, the Board of Education shall develop, and may revise as it deems necessary, a model school crisis, emergency management, and medical emergency response plan for the purpose of assisting the public schools in Virginia in developing viable, effective crisis, emergency management, and medical emergency response plans. Such model shall set forth recommended effective procedures and means by which parents can contact the relevant school or school division regarding the location and safety of their school children and by which school officials may contact parents, with parental approval, during a critical event or emergency.

CHAPTER 163

An Act to amend and reenact § 15.2-968.1 of the Code of Virginia, relating to use of photo-monitoring systems to enforce traffic light signals.

[H 255]

Approved March 5, 2014

Be it enacted by the General Assembly of Virginia:

1. That § 15.2-968.1 of the Code of Virginia is amended and reenacted as follows:

§ 15.2-968.1. Use of photo-monitoring systems to enforce traffic light signals.

A. The governing body of any county, city, or town may provide by ordinance for the establishment of a traffic signal enforcement program imposing monetary liability on the operator of a motor vehicle for failure to comply with traffic light signals in such locality in accordance with the provisions of this section. Each such locality may install and operate traffic light signal photo-monitoring systems at no more than one intersection for every 10,000 residents within each county, city, or town at any one time, provided, however, that within planning District 8, each such locality may install and operate traffic light signal photo-monitoring systems at no more than 10 intersections, or at no more than one intersection for every 10,000 residents within each county, city, or town, whichever is greater, at any one time.

B. The operator of a vehicle shall be liable for a monetary penalty imposed pursuant to this section if such vehicle is found, as evidenced by information obtained from a traffic light signal violation monitoring system, to have failed to comply with a traffic light signal within such locality.

C. Proof of a violation of this section shall be evidenced by information obtained from a traffic light signal violation monitoring system authorized pursuant to this section. A certificate, sworn to or affirmed by a law-enforcement officer employed by a locality authorized to impose penalties pursuant to this section, or a facsimile thereof, based upon inspection of photographs, microphotographs, videotape, or other recorded images produced by a traffic light signal violation monitoring system, shall be prima facie evidence of the facts contained therein. Any photographs, microphotographs, videotape, or other recorded images evidencing such a violation shall be available for inspection in any proceeding to adjudicate the liability for such violation pursuant to an ordinance adopted pursuant to this section.

D. In the prosecution for a violation of any local ordinance adopted as provided in this section, prima facie evidence that the vehicle described in the summons issued pursuant to this section was operated in violation of such ordinance, together with proof that the defendant was at the time of such violation the owner, lessee, or renter of the vehicle, shall constitute in evidence a rebuttable presumption that such owner, lessee, or renter of the vehicle was the person who committed the violation. Such presumption shall be rebutted if the owner, lessee, or renter of the vehicle (i) files an affidavit by regular mail with the clerk of the general district court that he was not the operator of the vehicle at the time of the alleged violation or (ii) testifies in open court under oath that he was not the operator of the vehicle at the time of the alleged violation. Such presumption shall also be rebutted if a certified copy of a police report, showing that the vehicle had been reported to the police as stolen prior to the time of the alleged violation of this section, is presented, prior to the return date established on the summons issued pursuant to this section, to the court adjudicating the alleged violation.

E. For purposes of this section, "owner" means the registered owner of such vehicle on record with the Department of Motor Vehicles. For purposes of this section, "traffic light signal violation monitoring system" means a vehicle sensor installed to work in conjunction with a traffic light that automatically produces two or more photographs, two or more microphotographs, video, or other recorded images of each vehicle at the time it is used or operated in violation of § 46.2-833, 46.2-835, or 46.2-836. For each such vehicle, at least one recorded image shall be of the vehicle before it has illegally entered the intersection, and at least one recorded image shall be of the same vehicle after it has illegally entered that intersection.

F. Imposition of a penalty pursuant to this section shall not be deemed a conviction as an operator and shall not be made part of the operating record of the person upon whom such liability is imposed, nor shall it be used for insurance purposes in the provision of motor vehicle insurance coverage. No monetary penalty imposed under this section shall exceed \$50, nor shall it include court costs.

G. A summons for a violation of this section may be executed pursuant to § 19.2-76.2. Notwithstanding the provisions of § 19.2-76, a summons for a violation of this section may be executed by mailing by first class mail a copy thereof to the owner, lessee, or renter of the vehicle. In the case of a vehicle owner, the copy shall be mailed to the address contained in the records of the Department of Motor Vehicles; in the case of a vehicle lessee or renter, the copy shall be mailed to the address contained in the records of the lessor or renter. Every such mailing shall include, in addition to the summons, a notice of (i) the summoned person's ability to rebut the presumption that he was the operator of the vehicle at the time of the alleged violation through the filing of an affidavit as provided in subsection D and (ii) instructions for filing such affidavit, including the address to which the affidavit is to be sent. If the summoned person fails to appear on the date of return set out in the summons mailed pursuant to this section, the summons shall be executed in the manner set out in § 19.2-76.3. No proceedings for contempt or arrest of a person summoned by mailing shall be instituted for failure to appear on the return date of the summons. Any summons executed for a violation of this section shall provide to the person summoned at least 30 business days from the mailing of the summons to inspect information collected by a traffic light signal violation monitoring system in connection with the violation.

H. Information collected by a traffic light signal violation monitoring system installed and operated pursuant to subsection A shall be limited exclusively to that information that is necessary for the enforcement of traffic light violations. On behalf of a locality, a private entity that operates a traffic light signal violation monitoring system may enter into an agreement with the Department of Motor Vehicles, in accordance with the provisions of subdivision B 21 of § 46.2-208, to obtain vehicle owner information regarding the registered owners of vehicles that fail to comply with a traffic light signal. Information provided to the operator of a traffic light signal violation monitoring system shall be protected in a database with security comparable to that of the Department of Motor Vehicles' system, and used only for enforcement against individuals who violate the provisions of this section. Notwithstanding any other provision of law, all photographs, microphotographs, electronic images, or other personal information collected by a traffic light signal violation monitoring system shall be used exclusively for enforcing traffic light violations and shall not (i) be open to the public; (ii) be sold or used for sales, solicitation, or marketing purposes; (iii) be disclosed to any other entity except as may be necessary for the enforcement of a traffic light violation or to a vehicle owner or operator as part of a challenge to the violation; or (iv) be used in a court in a pending action or proceeding unless the action or proceeding relates to a violation of § 46.2-833, 46.2-835, or 46.2-836 or requested upon order from a court of competent jurisdiction. Information collected under this section pertaining to a specific violation shall be purged and not retained later than 60 days after the collection of any civil penalties. If a locality does not execute a summons for a violation of this section within 10 business days, all information collected pertaining to that suspected violation shall be purged within two business days. Any locality operating a traffic

light signal violation monitoring system shall annually certify compliance with this section and make all records pertaining to such system available for inspection and audit by the Commissioner of Highways or the Commissioner of the Department of Motor Vehicles or his designee. Any person who discloses personal information in violation of the provisions of this subsection shall be subject to a civil penalty of \$1,000 per disclosure. Any unauthorized use or disclosure of such personal information shall be grounds for termination of the agreement between the Department of Motor Vehicles and the private entity.

I. A private entity may enter into an agreement with a locality to be compensated for providing the traffic light signal violation monitoring system or equipment, and all related support services, to include consulting, operations and administration. However, only a law-enforcement officer employed by a locality may swear to or affirm the certificate required by subsection C. No locality shall enter into an agreement for compensation based on the number of violations or monetary penalties imposed.

J. When selecting potential intersections for a traffic light signal violation monitoring system, a locality shall consider factors such as (i) the accident rate for the intersection, (ii) the rate of red light violations occurring at the intersection (number of violations per number of vehicles), (iii) the difficulty experienced by law-enforcement officers in patrol cars or on foot in apprehending violators, and (iv) the ability of law-enforcement officers to apprehend violators safely within a reasonable distance from the violation. Localities may consider the risk to pedestrians as a factor, if applicable.

K. Before the implementation of a traffic light signal violation monitoring system at an intersection, the locality shall complete an engineering safety analysis that addresses signal timing and other location-specific safety features. The length of the yellow phase shall be established based on the recommended methodology of the Institute of Transportation Engineers. *No traffic light signal violation monitoring system shall be implemented or utilized for a traffic signal having a yellow signal phase length of less than three seconds.* All traffic light signal violation monitoring systems shall provide a minimum 0.5-second grace period between the time the signal turns red and the time the first violation is recorded. If recommended by the engineering safety analysis, the locality shall make reasonable location-specific safety improvements, including signs and pavement markings.

L. Any locality that uses a traffic light signal violation monitoring system shall evaluate the system on a monthly basis to ensure all cameras and traffic signals are functioning properly. Evaluation results shall be made available to the public.

M. Any locality that uses a traffic light signal violation monitoring system to enforce traffic light signals shall place conspicuous signs within 500 feet of the intersection approach at which a traffic light signal violation monitoring system is used. There shall be a rebuttable presumption that such signs were in place at the time of the commission of the traffic light signal violation.

N. Prior to or coincident with the implementation or expansion of a traffic light signal violation monitoring system, a locality shall conduct a public awareness program, advising the public that the locality is implementing or expanding a traffic light signal violation monitoring system.

O. Notwithstanding any other provision of this section, if a vehicle depicted in images recorded by a traffic light signal photo-monitoring system is owned, leased, or rented by a county, city, or town, then the county, city, or town may access and use the recorded images and associated information for employee disciplinary purposes.

In a felony case, arraignment is not necessary when waived by the accused. [S 338]

Approved March 5, 2014

§ 58.1-3286. Mineral lands to be specially and separately assessed; severance tax.

The several commissioners of the revenue shall, as soon as practicable after January 1 of each year, specially and separately assess at the fair market value all mineral lands and the improvements thereon and shall enter the same on the land books of their respective counties separately from other lands charged thereon.

The commissioner, in assessing mineral lands, shall set forth upon the land book:

1. The area and the fair market value of such portion of each tract as is improved and under development;
2. The fair market value of the improvements upon each tract; and
3. The area and fair market value of such portion of each tract not under development.

Notwithstanding any other provision of law and subject to the approval of the Board of Supervisors of Buchanan County, the commissioner of the revenue of the county may reassess gas wells and related improvements on an annual basis, provided that such gas wells and related improvements shall be reassessed in the general reassessment for the locality, as required by § 58.1-3287, and provided further a settlement agreement between the County and a taxpayer may provide a methodology for determining fair market value.

In the alternative to the procedure outlined in subdivision 1 above, any county or city may impose by ordinance a severance tax on all coal and gases extracted from the land lying within its jurisdiction. The rate of such tax shall not exceed one percent of the gross receipts from such coal or gases. Any such county or city may further require any producer of such coal or gases and any common carrier to maintain records showing the quantities of coal and gases which they have produced or transported, respectively.

If the surface of the land is held by one person, and the coal, iron and other minerals, mineral waters, gas or oil under the surface are held by another person, the estate therein of each and the relative fair market value of their respective interests shall be ascertained by the commissioner. If the surface of the land and the coal, iron and other minerals, mineral waters, gas or oil under the surface are owned by the same person, the commissioner shall ascertain the fair market value of the land, exclusive of the coal, iron, other minerals, mineral waters, gas or oils. He shall also ascertain the fair market value of the coal, iron, other minerals, mineral waters, gas, and oils and shall assess each at such ascertained values, stating separately in every case the value of the surface of the land and the value of the coal, iron, other minerals, mineral waters, gas and oils under the surface.

The commissioner of the revenue of any county or city is authorized to enter into agreements with taxpayers pertaining to the fair market value of the property taxed under this section. All such agreements entered into on or after January 1, 2013, but prior to July 1, 2014, between the commissioner of the revenue of any county or city and any taxpayer are deemed to be bona fide and are valid and enforceable.

§ 58.1-3712. Counties and cities authorized to levy severance tax on gases.

A. The governing body of any county or city may levy a license tax on every person engaging in the business of severing gases from the earth. Such tax shall be at a rate not to exceed one percent of the gross receipts from the sale of gases severed within such county. Such gross receipts shall be the fair market value measured at the time such gases are utilized or sold for utilization in such county or city or at the time they are placed in transit for shipment therefrom, provided that if the tax provided herein is levied, such county or city cannot enact the provisions of § 58.1-3286 relating to a tax on gross receipts. In calculating the fair market value, no person engaging in the production and operation of severing gases from the earth in connection with coal mining shall be allowed to take deductions, including but not limited to, depreciation, compression, marketing fees, overhead, maintenance, transportation fees, and personal property taxes.

B. Notwithstanding any other provision of this section or law, for purposes of calculating the fair market value of gases severed in Buchanan County, except as otherwise provided in a settlement agreement regarding the calculation of fair market value, including deductions for transportation and compression costs, between the County and the taxpayer, no person engaging in the production and operation of severing gases from the earth in connection with coal mining shall be allowed to take deductions, including but not limited to, depreciation, compression, marketing fees, overhead, maintenance, transportation fees, and personal property taxes.

C. Any county or city enacting a license tax under this section may require producers of gas and common carriers to maintain records and file reports showing the quantities of and receipts from gases which they have produced or transported.

D. The commissioner of the revenue of any county or city is authorized to enter into agreements with any taxpayer pertaining to the calculation of the fair market value of gases under this section. All such agreements entered into on or after January 1, 2013, but prior to July 1, 2014, between the commissioner of the revenue of any county or city and any taxpayer are deemed bona fide and are valid and enforceable.

2. That the provisions of this act are declaratory of existing law.

If VITA, or any agency or institution authorized by VITA, elects to procure personal computers and related peripheral equipment pursuant to any type of blanket purchasing arrangement under which public bodies, as defined in § 2.2-4301, may purchase such goods from any vendor following competitive procurement but without the conduct of an individual procurement by or for the using agency or institution, it shall establish performance-based specifications for the selection of equipment. Establishment of such contracts shall emphasize performance criteria including price, quality, and delivery without regard to "brand name." All vendors meeting the Commonwealth's performance requirements shall be afforded the opportunity to compete for such contracts.

E. *VITA shall allow private institutions of higher education chartered in Virginia and granted tax-exempt status under § 501(c)(3) of the Internal Revenue Code to purchase directly from contracts established for state agencies and public bodies by VITA.*

[S 552]

Approved March 5, 2014

Be it enacted by the General Assembly of Virginia:

1. That § 58.1-3713 of the Code of Virginia is amended and reenacted as follows:

§ 58.1-3713. (Expires December 31, 2014) Local gas road improvement and Virginia Coalfield Economic Development Authority tax.

A. In addition to the taxes authorized under § 58.1-3712, any county or city may adopt a license tax on every person engaging in the business of severing gases from the earth. The rate of such tax shall not exceed one percent. The provisions of § 58.1-3712 as they relate to measurement of gross receipts, filing of reports and record keeping shall be applicable to the tax imposed under this section.

The moneys collected for each county or city from the taxes imposed under authority of this section and subsection B of § 58.1-3741 shall be paid into a special fund of such county or city to be called the Gas Road Improvement Fund of such county or city, and shall be spent for such improvements to public roads as the coal and gas road improvement advisory committee and the governing body of such county or city may determine as provided in subsection B of this section. The county may also, in its discretion, elect to improve city or town roads with its funds if consent of the city or town council is obtained. Such funds shall be in addition to those allocated to such counties from state highway funds which allocations shall not be reduced as a result of any revenues received from the tax imposed hereunder. In those localities that comprise the Virginia Coalfield Economic Development Authority, the tax imposed under this section or subsection B of § 58.1-3741 shall be paid as follows: (i) three-fourths of the revenue shall be paid to the Gas Road Improvement Fund and used for the purposes set forth herein; however, one-fourth of such revenue may be used to fund the construction of new water or sewer systems and lines in areas with natural water supplies that are insufficient from the standpoint of quality or quantity, or the construction of natural gas service lines as authorized by § 15.2-2109.3, and (ii) one-fourth of the revenue shall be paid to the Virginia Coalfield Economic Development Fund. Furthermore, with regard to the portion paid to the Gas Road Improvement Fund, a county or city may provide for an additional one-fourth allocation for the construction of new systems or lines for water, sewer, or natural gas as authorized by § 15.2-2109.3, or the repair or enhancement of existing water, sewer, or natural gas systems or lines in areas with natural water supplies or existing natural gas services that are insufficient from the standpoint of quality or quantity; however, if this option is initiated by a county or city, it must satisfy the requirements set forth in § 58.1-3713.01. Notwithstanding the foregoing limitations regarding revenues used for water systems, sewer systems, or natural gas systems, such revenues designated for water and water systems, sewer systems, or natural gas systems shall be distributed directly to the local public service authority for such purposes instead of the local governing body. Funds in the Gas Road Improvement Fund used to construct, repair, or enhance natural gas service lines or systems shall not exceed one-fourth of the revenue paid to the Gas Road Improvement Fund collected from the severance

tax imposed upon the severance of natural gas pursuant to this section and may be so used only upon passage of a local ordinance or resolution of the governing body of the applicable county or city providing for the same.

B. Any county or city imposing the tax authorized in this section or in subsection B of § 58.1-3741 shall establish a Gas Road Improvement Advisory Committee, to be composed of four members: (i) a member of the governing body of such county or city, appointed by the governing body, (ii) a representative of the Department of Transportation, and (iii) two citizens of such county or city connected with the coal and gas industry, appointed for a term of four years, initially commencing July 1, 1989, by the chief judge of the circuit court.

Such committee shall develop on or before July 1 of each year a plan for improvement of roads during the following fiscal year. Such plan shall have the approval of three members of the committee and shall be submitted to the governing body of the county or city for approval. The governing body may approve or disapprove such plan, but may make no changes without the approval of three members of the committee.

C. The provisions of this section shall expire on December 31, ~~2014~~ 2015.

Such regulations or guidelines shall contain a requirement that a neighborhood organization shall have been in existence for at least one year. Also, such regulations or guidelines shall contain a requirement that as a prerequisite for approval, neighborhood organizations with total revenues (including the value of all donations) (i) in excess of \$100,000 for the organization's most recent year ended provide to the State Board of Social Services or the Department of Education, as applicable, an audit or review for such year performed by an independent certified public accountant or (ii) of \$100,000 or less for the organization's most recent year ended, provide to the State Board of Social Services or the Department of Education, as applicable, a compilation for such year performed by an independent certified public accountant. *No proposal for an allocation of tax credits shall be untimely filed solely because such audit, review, or compilation was not submitted by the neighborhood organization by the proposal filing deadline, provided that the audit, review, or compilation is submitted to the State Board of Social Services or the Department of Education, as applicable, within the 30-day period immediately following such deadline.*

Such regulations or guidelines by the Department of Education shall provide that at least 50 percent of the persons served by the neighborhood organization are low-income persons or eligible students with disabilities, and that at least 50 percent of the neighborhood organization's revenues are used to provide services to low-income persons or to eligible students with disabilities. under clause (a). The balance of tax credits remaining for reallocation shall include the amount of any tax credits that have been granted for a proposal approved during the initial allocation but for which the Commissioner of the State Department of Social Services or the Superintendent of Public Instruction has been provided notice by the neighborhood organization that it will not be able to use or allocate such amount for the approved proposal.

Be it enacted by the General Assembly of Virginia:**1. That § 32.1-325 of the Code of Virginia is amended and reenacted as follows:****§ 32.1-325. Board to submit plan for medical assistance services to U.S. Secretary of Health and Human Services pursuant to federal law; administration of plan; contracts with health care providers.**

A. The Board, subject to the approval of the Governor, is authorized to prepare, amend from time to time, and submit to the U.S. Secretary of Health and Human Services a state plan for medical assistance services pursuant to Title XIX of the United States Social Security Act and any amendments thereto. The Board shall include in such plan:

1. A provision for payment of medical assistance on behalf of individuals, up to the age of 21, placed in foster homes or private institutions by private, nonprofit agencies licensed as child-placing agencies by the Department of Social Services or placed through state and local subsidized adoptions to the extent permitted under federal statute;

2. A provision for determining eligibility for benefits for medically needy individuals which disregards from countable resources an amount not in excess of \$3,500 for the individual and an amount not in excess of \$3,500 for his spouse when such resources have been set aside to meet the burial expenses of the individual or his spouse. The amount disregarded shall be reduced by (i) the face value of life insurance on the life of an individual owned by the individual or his spouse if the cash surrender value of such policies has been excluded from countable resources and (ii) the amount of any other revocable or irrevocable trust, contract, or other arrangement specifically designated for the purpose of meeting the individual's or his spouse's burial expenses;

3. A requirement that, in determining eligibility, a home shall be disregarded. For those medically needy persons whose eligibility for medical assistance is required by federal law to be dependent on the budget methodology for Aid to Families with Dependent Children, a home means the house and lot used as the principal residence and all contiguous property. For all other persons, a home shall mean the house and lot used as the principal residence, as well as all contiguous property, as long as the value of the land, exclusive of the lot occupied by the house, does not exceed \$5,000. In any case in which the definition of home as provided here is more restrictive than that provided in the state plan for medical assistance services in Virginia as it was in effect on January 1, 1972, then a home means the house and lot used as the principal residence and all contiguous property essential to the operation of the home regardless of value;

4. A provision for payment of medical assistance on behalf of individuals up to the age of 21, who are Medicaid eligible, for medically necessary stays in acute care facilities in excess of 21 days per admission;

5. A provision for deducting from an institutionalized recipient's income an amount for the maintenance of the individual's spouse at home;

6. A provision for payment of medical assistance on behalf of pregnant women which provides for payment for inpatient postpartum treatment in accordance with the medical criteria outlined in the most current version of or an official update to the "Guidelines for Perinatal Care" prepared by the American Academy of Pediatrics and the American College of Obstetricians and Gynecologists or the "Standards for Obstetric-Gynecologic Services" prepared by the American College of Obstetricians and Gynecologists. Payment shall be made for any postpartum home visit or visits for the mothers and the children which are within the time periods recommended by the attending physicians in accordance with and as indicated by such Guidelines or Standards. For the purposes of this subdivision, such Guidelines or Standards shall include any changes thereto within six months of the publication of such Guidelines or Standards or any official amendment thereto;

7. A provision for the payment for family planning services on behalf of women who were Medicaid-eligible for prenatal care and delivery as provided in this section at the time of delivery. Such family planning services shall begin with delivery and continue for a period of 24 months, if the woman continues to meet the financial eligibility requirements for a pregnant woman under Medicaid. Appeals of these cases shall be handled in accordance with the Department's expedited appeals process;

9. A provision identifying entities approved by the Board to receive applications and to determine eligibility for medical assistance, which shall include a requirement that such entities obtain accurate contact information, including the best available address and telephone number, from each applicant for medical assistance, to the extent required by federal law and regulations;

Nothing in this subdivision shall be construed as requiring the provision of inpatient coverage where the attending physician in consultation with the patient determines that a shorter period of hospital stay is appropriate;
14. A requirement that certificates of medical necessity for durable medical equipment and any supporting verifiable documentation shall be signed, dated, and returned by the physician, physician assistant, or nurse practitioner and in the durable medical equipment provider's possession within 60 days from the time the ordered durable medical equipment and supplies are first furnished by the durable medical equipment provider;
15. A provision for payment of medical assistance to (i) persons age 50 and over and (ii) persons age 40 and over who are at high risk for prostate cancer, according to the most recent published guidelines of the American Cancer Society, for one PSA test in a 12-month period and digital rectal examinations, all in accordance with American Cancer Society guidelines. 19. A provision for payment of medical assistance for colorectal cancer screening, specifically screening with an annual fecal occult blood test, flexible sigmoidoscopy or colonoscopy, or in appropriate circumstances radiologic imaging, in accordance with the most recently published recommendations established by the American College of Gastroenterology, in consultation with the American Cancer Society, for the ages, family histories, and frequencies referenced in such recommendations;

The purpose of the program shall be to reduce Medicaid costs for long-term care by delaying or eliminating dependence on Medicaid for such services through encouraging the purchase of private long-term care insurance policies that have been designated as qualified state long-term care insurance partnerships and may be used as the first source of benefits for the participant's long-term care. Components of the program, including the treatment of assets for Medicaid eligibility and estate recovery, shall be structured in accordance with federal law and applicable federal guidelines; and

25. A provision for the payment of medical assistance for otherwise eligible pregnant women during the first five years of lawful residence in the United States, pursuant to § 214 of the Children's Health Insurance Program Reauthorization Act of 2009 (P.L. 111-3).

B. In preparing the plan, the Board shall:

1. Work cooperatively with the State Board of Health to ensure that quality patient care is provided and that the health, safety, security, rights and welfare of patients are ensured.

2. Initiate such cost containment or other measures as are set forth in the appropriation act.

3. Make, adopt, promulgate and enforce such regulations as may be necessary to carry out the provisions of this chapter.

4. Examine, before acting on a regulation to be published in the Virginia Register of Regulations pursuant to § 2.2-4007.05, the potential fiscal impact of such regulation on local boards of social services. For regulations with potential fiscal impact, the Board shall share copies of the fiscal impact analysis with local boards of social services prior to submission to the Registrar. The fiscal impact analysis shall include the projected costs/savings to the local boards of social services to implement or comply with such regulation and, where applicable, sources of potential funds to implement or comply with such regulation.

5. Incorporate sanctions and remedies for certified nursing facilities established by state law, in accordance with 42 C.F.R. § 488.400 et seq. "Enforcement of Compliance for Long-Term Care Facilities With Deficiencies."

On and after July 1, 2002, require that a prescription benefit card, health insurance benefit card, or other technology that complies with the requirements set forth in § 38.2-3407.4:2 be issued to each recipient of medical assistance services, and shall upon any changes in the required data elements set forth in subsection A of § 38.2-3407.4:2, either reissue the card or provide recipients such corrective information as may be required to electronically process a prescription claim.

C. In order to enable the Commonwealth to continue to receive federal grants or reimbursement for medical assistance or related services, the Board, subject to the approval of the Governor, may adopt, regardless of any other provision of this chapter, such amendments to the state plan for medical assistance services as may be necessary to conform such plan with amendments to the United States Social Security Act or other relevant federal law and their implementing regulations or constructions of these laws and regulations by courts of competent jurisdiction or the United States Secretary of Health and Human Services.

In the event conforming amendments to the state plan for medical assistance services are adopted, the Board shall not be required to comply with the requirements of Article 2 (§ 2.2-4006 et seq.) of Chapter 40 of Title 2.2. However, the Board shall, pursuant to the requirements of § 2.2-4002, (i) notify the Registrar of Regulations that such amendment is necessary to meet the requirements of federal law or regulations or because of the order of any state or federal court, or (ii) certify to the Governor that the regulations are necessitated by an emergency situation. Any such amendments that are in conflict with the Code of Virginia shall only remain in effect until July 1 following adjournment of the next regular session of the General Assembly unless enacted into law.

D. The Director of Medical Assistance Services is authorized to:

1. Administer such state plan and receive and expend federal funds therefor in accordance with applicable federal and state laws and regulations; and enter into all contracts necessary or incidental to the performance of the Department's duties and the execution of its powers as provided by law.

2. Enter into agreements and contracts with medical care facilities, physicians, dentists and other health care providers where necessary to carry out the provisions of such state plan. Any such agreement or contract shall terminate upon conviction of the provider of a felony. In the event such conviction is reversed upon appeal, the provider may apply to the Director of Medical Assistance Services for a new agreement or contract. Such provider may also apply to the Director for reconsideration of the agreement or contract termination if the conviction is not appealed, or if it is not reversed upon appeal.

3. Refuse to enter into or renew an agreement or contract, or elect to terminate an existing agreement or contract, with any provider who has been convicted of or otherwise pled guilty to a felony, or pursuant to Subparts A, B, and C of 42 C.F.R. Part 1002, and upon notice of such action to the provider as required by 42 C.F.R. § 1002.212.

4. Refuse to enter into or renew an agreement or contract, or elect to terminate an existing agreement or contract, with a provider who is or has been a principal in a professional or other corporation when such corporation has been convicted of or otherwise pled guilty to any violation of § 32.1-314, 32.1-315, 32.1-316, or 32.1-317, or any other felony or has been excluded from participation in any federal program pursuant to 42 C.F.R. Notwithstanding the provisions of § 51.1-600, an "employee" for purposes of Chapter 6 (§ 51.1-600 et seq.) of Title 51.1 shall include an independent contractor as described in this subdivision.*

For the purposes of this subsection, "provider" may refer to an individual or an entity.

E. In any case in which a Medicaid agreement or contract is terminated or denied to a provider pursuant to subsection D, the provider shall be entitled to appeal the decision pursuant to 42 C.F.R. § 1002.213 and to a post-determination or post-denial hearing in accordance with the Administrative Process Act (§ 2.2-4000 et seq.). All such requests shall be in writing and be received within 15 days of the date of receipt of the notice.

The Director may consider aggravating and mitigating factors including the nature and extent of any adverse impact the agreement or contract denial or termination may have on the medical care provided to Virginia Medicaid recipients. In cases in which an agreement or contract is terminated pursuant to subsection D, the Director may determine the period of exclusion and may consider aggravating and mitigating factors to lengthen or shorten the period of exclusion, and may reinstate the provider pursuant to 42 C.F.R. § 1002.215.

F. When the services provided for by such plan are services which a marriage and family therapist, clinical psychologist, clinical social worker, professional counselor, or clinical nurse specialist is licensed to render in Virginia, the Director shall contract with any duly licensed marriage and family therapist, duly licensed clinical psychologist, licensed clinical social worker, licensed professional counselor or licensed clinical nurse specialist who makes application to be a provider of such services, and thereafter shall pay for covered services as provided in the state plan. The Board shall promulgate regulations which reimburse licensed marriage and family therapists, licensed clinical psychologists, licensed clinical social workers, licensed professional counselors and licensed clinical nurse specialists at rates based upon reasonable criteria, including the professional credentials required for licensure.

G. The Board shall prepare and submit to the Secretary of the United States Department of Health and Human Services such amendments to the state plan for medical assistance services as may be permitted by federal law to establish a program of family assistance whereby children over the age of 18 years shall make reasonable contributions, as determined by regulations of the Board, toward the cost of providing medical assistance under the plan to their parents.

H. The Department of Medical Assistance Services shall:

1. Include in its provider networks and all of its health maintenance organization contracts a provision for the payment of medical assistance on behalf of individuals up to the age of 21 who have special needs and who are Medicaid eligible, including individuals who have been victims of child abuse and neglect, for medically necessary assessment and treatment services, when such services are delivered by a provider which specializes solely in the diagnosis and treatment of child abuse and neglect, or a provider with comparable expertise, as determined by the Director.

2. Amend the Medallion II waiver and its implementing regulations to develop and implement an exception, with procedural requirements, to mandatory enrollment for certain children between birth and age three certified by the Department of Behavioral Health and Developmental Services as eligible for services pursuant to Part C of the Individuals with Disabilities Education Act (20 U.S.C. § 1471 et seq.).

3. Utilize, to the extent practicable, electronic funds transfer technology for reimbursement to contractors and enrolled providers for the provision of health care services under Medicaid and the Family Access to Medical Insurance Security Plan established under § 32.1-351.

I. The Director is authorized to negotiate and enter into agreements for services rendered to eligible recipients with special needs. The Board shall promulgate regulations regarding these special needs patients, to include persons with AIDS, ventilator-dependent patients, and other recipients with special needs as defined by the Board.

[H 389]

Approved March 7, 2014

Be it enacted by the General Assembly of Virginia:**1. That § 60.2-618, as it is currently effective and as it may become effective, of the Code of Virginia is amended and reenacted as follows:****§ 60.2-618. (Contingent expiration date) Disqualification for benefits.**

An individual shall be disqualified for benefits upon separation from the last employing unit for whom he has worked 30 days or 240 hours or from any subsequent employing unit:

1. For any week benefits are claimed until he has performed services for an employer (i) during 30 days, whether or not such days are consecutive, or (ii) for 240 hours, and subsequently becomes totally or partially separated from such employment, if the Commission finds such individual is unemployed because he left work voluntarily without good cause.

If (a) at the time of commencing employment with such employing unit an individual is enrolled in an accredited academic program of study provided by an institution of higher education for students that have been awarded a baccalaureate degree, which academic program culminates in the awarding of a master's, doctoral, or professional degree; (b) the individual's employment with such employing unit commenced and ended during the period between spring and fall semesters of the academic program in which the individual is enrolled; and (c) the individual returned to such academic program following his separation from such employing unit, there shall be a rebuttable presumption that the individual left work voluntarily.

As used in this chapter, "good cause" shall not include ~~(i)~~ (1) voluntarily leaving work with an employer to become self-employed or ~~(ii)~~ (2) voluntarily leaving work with an employer to accompany or to join his or her spouse in a new locality. An individual shall not be deemed to have voluntarily left work solely because the separation was in accordance with a seniority-based policy.

2. a. For any week benefits are claimed until he has performed services for an employer (i) during 30 days, whether or not such days are consecutive, or (ii) for 240 hours, and subsequently becomes totally or partially separated from such employment, if the Commission finds such individual is unemployed because he has been discharged for misconduct connected with his work.

b. For the purpose of this subdivision, "misconduct" includes, but shall not be limited to:

(1) An employee's confirmed positive test for a nonprescribed controlled substance, identified as such in Chapter 34 (§ 54.1-3400 et seq.) of Title 54.1, where such test was conducted at the direction of his employer in conjunction with the employer's administration and enforcement of a known workplace drug policy. Such test shall have been performed, and a sample collected, in accordance with scientifically recognized standards by a laboratory accredited by the United States Department of Health and Human Services, or the College of American Pathology, or the American Association for Clinical Chemistry, or the equivalent, or shall have been a United States Department of Transportation-qualified drug screen conducted in accordance with the employer's bona fide drug policy. The Commission may consider evidence of mitigating circumstances in determining whether misconduct occurred.

(2) An employee's intentionally false or misleading statement of a material nature concerning past criminal convictions made in a written job application furnished to the employer, where such statement was a basis for the termination and the employer terminated the employee promptly upon the discovery thereof. The Commission may consider evidence of mitigating circumstances in determining whether misconduct occurred.

(3) A willful and deliberate violation of a standard or regulation of the Commonwealth, by an employee of an employer licensed or certified by the Commonwealth, which violation would cause the employer to be sanctioned or have its license or certification suspended by the Commonwealth. The Commission may consider evidence of mitigating circumstances in determining whether misconduct occurred.

(4) Chronic absenteeism or tardiness in deliberate violation of a known policy of the employer or one or more unapproved absences following a written reprimand or warning relating to more than one unapproved absence. The Commission may consider evidence of mitigating circumstances in determining whether misconduct occurred.

(5) An employee's loss of or failure to renew a license or certification that is a requisite of the position held by the employee, provided the employer is not at fault for the employee's loss of or failure to renew the license or certification. The Commission may consider evidence of mitigating circumstances in determining whether misconduct occurred.

3. a. If it is determined by the Commission that such individual has failed, without good cause, either to apply for available, suitable work when so directed by the employment office or the Commission or to accept suitable work when offered him. The disqualification shall commence with the week in which such failure occurred, and shall continue for the period of unemployment next ensuing until he has performed services for an employer (i) during 30 days, whether or not such days are consecutive, or (ii) for 240 hours, and subsequently becomes totally or partially separated from such employment.

b. In determining whether or not any work is suitable for an individual, the Commission shall consider the degree of risk involved to his health, safety and morals, his physical fitness and prior training, his experience, his length of unemployment and the accessibility of the available work from his residence.

c. No work shall be deemed suitable and benefits shall not be denied under this title to any otherwise eligible individual for refusing to accept new work under any of the following conditions:

(1) If the position offered is vacant due directly to a strike, lockout, or other labor dispute;

(2) If the wages, hours, or other conditions of the work offered are substantially less favorable to the individual than those prevailing for similar work in the locality; or

(3) If as a condition of being employed the individual would be required to join a company union or to resign from or refrain from joining any bona fide labor organization.

d. No individual shall be qualified for benefits during any week that such individual, in connection with an offer of suitable work, has a confirmed positive test for a nonprescribed controlled substance, identified as such in Chapter 34 (§ 54.1-3400 et seq.) of Title 54.1, if the test is required as a condition of employment and (i) performed, and a sample is collected, in accordance with scientifically recognized standards by a laboratory accredited by the United States Department of Health and Human Services, or the College of American Pathology, or the American Association for Clinical Chemistry, or the equivalent, or (ii) a United States Department of Transportation-qualified drug screen conducted in accordance with the employer's bona fide drug policy. The disqualification shall commence with the week in which such a test was conducted, and shall continue for the period of unemployment next ensuing until he has performed services for an employer (i) during 30 days, whether or not such days are consecutive, or (ii) for 240 hours, and subsequently becomes totally or partially separated from such employment.

4. For 52 weeks, beginning with the date of the determination or decision, if the Commission finds that such individual, within 36 calendar months immediately preceding such determination or decision, has made a false statement or representation knowing it to be false, or has knowingly failed to disclose a material fact, to obtain or increase any benefit or payment under this title, the unemployment compensation of any other state, or any other program of the federal government which is administered in any way under this title, either for himself or any other person. Overpayments that have been fraudulently obtained and any penalty assessed against the individual pursuant to § 60.2-636 shall be recoverable as provided in § 60.2-633.

5. If such separation arose as a result of an unlawful act which resulted in a conviction and after his release from prison or jail until he has performed services for an employer for (i) 30 days, whether or not such days are consecutive, or (ii) 240 hours, and subsequently becomes totally or partially separated from such employment.

6. If such separation arose as a condition of the individual's parole or release from a custodial or penal institution and such individual was participating in the Diversion Center Incarceration Program pursuant to § 19.2-316.3.

§ 60.2-618. (Contingent effective date) Disqualification for benefits.

An individual shall be disqualified for benefits upon separation from the last employing unit for whom he has worked 30 days or 240 hours or from any subsequent employing unit:

1. For any week benefits are claimed until he has performed services for an employer (i) during 30 days, whether or not such days are consecutive, or (ii) for 240 hours, and subsequently becomes totally or partially separated from such employment, if the Commission finds such individual is unemployed because he left work voluntarily without good cause.

If (a) at the time of commencing employment with such employing unit an individual is enrolled in an accredited academic program of study provided by an institution of higher education for students that have been awarded a baccalaureate degree, which academic program culminates in the awarding of a master's, doctoral, or professional degree;

(b) the individual's employment with such employing unit commenced and ended during the period between spring and fall semesters of the academic program in which the individual is enrolled; and (c) the individual returns to such academic program following his separation from such employing unit, there shall be a rebuttable presumption that the individual left work voluntarily.

As used in this chapter, "good cause" shall not include ~~(a)~~ (1) voluntarily leaving work with an employer to become self-employed or ~~(b)~~ (2) voluntarily leaving work with an employer to accompany or to join his or her spouse in a new locality, except where an individual leaves employment to accompany his or her spouse to the location of the spouse's new duty assignment if ~~(1)~~ (A) the spouse is on active duty in the military or naval services of the United States; ~~(2)~~ (B) the spouse's relocation to a new military-related assignment is pursuant to a permanent change of station order; ~~(3)~~ (C) the location of the spouse's new duty assignment is not readily accessible from the individual's place of employment; and ~~(4)~~ (D) except for members of the Virginia National Guard relocating to a new assignment within the Commonwealth, the spouse's new duty assignment is located in a state that, pursuant to statute, does not deem a person accompanying a military spouse as a person leaving work voluntarily without good cause. An individual shall not be deemed to have voluntarily left work solely because the separation was in accordance with a seniority-based policy.

2. a. For any week benefits are claimed until he has performed services for an employer (i) during 30 days, whether or not such days are consecutive, or (ii) for 240 hours, and subsequently becomes totally or partially separated from such employment, if the Commission finds such individual is unemployed because he has been discharged for misconduct connected with his work.

b. For the purpose of this subdivision, "misconduct" includes, but shall not be limited to:

(1) An employee's confirmed positive test for a nonprescribed controlled substance, identified as such in Chapter 34 (§ 54.1-3400 et seq.) of Title 54.1, where such test was conducted at the direction of his employer in conjunction with the employer's administration and enforcement of a known workplace drug policy. Such test shall have been performed, and a sample collected, in accordance with scientifically recognized standards by a laboratory accredited by the United States Department of Health and Human Services, or the College of American Pathology, or the American Association for Clinical Chemistry, or the equivalent, or shall have been a United States Department of Transportation-qualified drug screen conducted in accordance with the employer's bona fide drug policy. The Commission may consider evidence of mitigating circumstances in determining whether misconduct occurred.

(2) An employee's intentionally false or misleading statement of a material nature concerning past criminal convictions made in a written job application furnished to the employer, where such statement was a basis for the termination and the employer terminated the employee promptly upon the discovery thereof. The Commission may consider evidence of mitigating circumstances in determining whether misconduct occurred.

(3) A willful and deliberate violation of a standard or regulation of the Commonwealth, by an employee of an employer licensed or certified by the Commonwealth, which violation would cause the employer to be sanctioned or have its license or certification suspended by the Commonwealth. The Commission may consider evidence of mitigating circumstances in determining whether misconduct occurred.

[H 630]

Approved March 7, 2014

§ 65.2-101. Definitions.

As used in this title:

"Average weekly wage" means:

1. a. The earnings of the injured employee in the employment in which he was working at the time of the injury during the period of 52 weeks immediately preceding the date of the injury, divided by 52; but if the injured employee lost more than seven consecutive calendar days during such period, although not in the same week, then the earnings for the remainder of the 52 weeks shall be divided by the number of weeks remaining after the time so lost has been deducted. When the employment prior to the injury extended over a period of less than 52 weeks, the method of dividing the earnings during that period by the number of weeks and parts thereof during which the employee earned wages shall be followed, provided that results fair and just to both parties will be thereby obtained. When, by reason of a shortness of time during which the employee has been in the employment of his employer or the casual nature or terms of his employment, it is impractical to compute the average weekly wages as above defined, regard shall be had to the average weekly amount which during the 52 weeks previous to the injury was being earned by a person of the same grade and character employed in the same class of employment in the same locality or community.

b. When for exceptional reasons the foregoing would be unfair either to the employer or employee, such other method of computing average weekly wages may be resorted to as will most nearly approximate the amount which the injured employee would be earning were it not for the injury.

2. Whenever allowances of any character made to an employee in lieu of wages are a specified part of the wage contract, they shall be deemed a part of his earnings. For the purpose of this title, the average weekly wage of the members of the Virginia National Guard, the Virginia Naval Militia and the Virginia Defense Force, registered members on duty or in training of the United States Civil Defense Corps of this Commonwealth, volunteer firefighters engaged in firefighting activities under the supervision and control of the Department of Forestry, and forest wardens shall be deemed to be such amount as will entitle them to the maximum compensation payable under this title; however, any award entered under the provisions of this title on behalf of members of the National Guard, the Virginia Naval Militia or their dependents, or registered members on duty or in training of the United States Civil Defense Corps of this Commonwealth or their dependents, shall be subject to credit for benefits paid them under existing or future federal law on account of injury or occupational disease covered by the provisions of this title.

3. Whenever volunteer firefighters, volunteer lifesaving or volunteer rescue squad members, volunteer law-enforcement chaplains, auxiliary or reserve police, auxiliary or reserve deputy sheriffs, volunteer emergency medical technicians, members of volunteer search and rescue organizations, volunteer members of community emergency response teams, and volunteer members of medical reserve corps are deemed employees under this title, their average weekly wage shall be deemed sufficient to produce the minimum compensation provided by this title for injured workers or their dependents. For the purposes of workers' compensation insurance premium calculations, the monthly payroll for each volunteer firefighter or volunteer lifesaving or volunteer rescue squad member shall be deemed to be \$300.

4. The average weekly wage of persons, other than those covered in subdivision 3 of this definition, who respond to a hazardous materials incident at the request of the Department of Emergency Management shall be based upon the earnings of such persons from their primary employers.

If they are neither employed nor self-employed, those benefits shall terminate when they are able to return to their military duties. If a member of the National Guard or Naval Militia who is fit to return to his customary civilian employment or self-employment remains unable to perform his military duties and thereby suffers loss of military pay which he would otherwise have earned, he shall be entitled to one day of income benefits for each unit training assembly or day of paid training which he is unable to attend.

All regulations established by the Board shall satisfy any minimum criteria that are necessary in order that the federal financial institution's regulatory agencies recognize and accept licenses for licensed residential real estate appraisers, certified residential real estate appraisers, ~~and~~ certified general real estate appraisers, *and appraisal management companies* issued by the Board.

§ 54.1-2021.1. (Effective July 1, 2014) Appraisal management companies; license required; posting of bond or letter of credit.

A. No person shall engage in business as an appraisal management company without a license issued by the Board.

~~Beginning July 1, 2014, the~~ *B. The Board may issue a license to do business as an appraisal management company in the Commonwealth to any applicant who has submitted a complete application and provides satisfactory evidence that he has successfully:*

1. Completed all requirements established by the Board that are consistent with this chapter and are reasonably necessary to implement, administer, and enforce the provisions of this chapter; and

2. Certified to the Board the following information, and such other information as may be reasonably required by the Board, regarding the person or entity seeking licensure:

a. The name of the person or entity;

b. The business address of the person or entity;

c. Phone contact information for the person or entity, and email address;

d. If the entity is not an entity domiciled in the Commonwealth, the name and contact information for the entity's agent for service of process in the Commonwealth;

e. If the entity is not an entity domiciled in the Commonwealth, proof that the entity is properly and currently registered with the Virginia State Corporation Commission;

f. The name, address, and contact information for any person or any entity that owns 10 percent or more of the appraisal management company;

g. The name, address, and contact information for a responsible person for the appraisal management company located in the Commonwealth, who shall be a person or entity licensed under Chapter 20.1 (§ 54.1-2009 et seq.);

h. That any person or entity that owns 10 percent or more of the appraisal management company has never had a license to act as an appraiser refused, denied, canceled, or revoked by the Commonwealth or any other state;

i. That the entity has a system in place to review the work of all appraisers that may perform appraisal services for the appraisal management company on a periodic basis to ensure that the appraisal services are being conducted in accordance with the Uniform Standards of Professional Appraisal Practice;

j. That the entity maintains a detailed record of the following: (i) each request for an appraisal service that the appraisal management company receives; (ii) the name of each independent appraiser that performs the appraisal; (iii) the physical address or legal identification of the subject property; (iv) the name of the appraisal management company's client for the appraisal; (v) the amount paid to the appraiser; and (vi) the amount paid to the appraisal management company; and

k. That the entity has a system in place to ensure compliance with § 129E of the Truth in Lending Act (15 U.S.C. § 1601 et seq.).

~~B- C.~~ *C. Any person that owns 10 percent or more of an appraisal management company and any controlling person of an appraisal management company seeking to be licensed pursuant to this chapter shall be of good moral character, as determined by the Board, and shall submit to a background investigation, as determined by the Board.*

~~C- D.~~ *D. In addition to the filing fee, each applicant for licensure shall post either a bond or a letter of credit as follows:*

1. If a bond is posted, the bond shall (i) be in the amount of ~~\$25,000~~ *\$100,000* or any other amount as set by regulation of the Board, (ii) be in a form prescribed by regulation of the Board, and (iii) accrue to the Commonwealth for the benefit of (a) a claimant against the licensee to secure the faithful performance of the licensee's obligations under this chapter or (b) an appraiser who has performed an appraisal for the licensee for which the appraiser has not been paid. The aggregate liability of the surety shall not exceed the principal sum of the bond. A party having a claim against the licensee may bring suit directly on the surety bond. When a claimant or an appraiser is awarded a final judgment in a court of competent jurisdiction against a licensee of this section for the licensee's failure to faithfully perform its obligations under this chapter or failure to pay an appraiser who performed an appraisal, the claimant or the appraiser may file a claim with the Board for a directive ordering payment from the bond issuer of the amount of the judgment, court costs and reasonable attorney fees as awarded by the court. Such claim shall be filed with the Board no later than 12 months after the judgment becomes final. Upon receipt of the claim against the licensee, the Board may cause its own investigation to be conducted. The amount of the bond

shall be restored by the licensee to the full amount required within 15 days after the payment of any claim on the bond. If the licensee fails to restore the full amount of the bond, the Board shall immediately revoke the license of the licensee whose conduct resulted in payment from the bond.

2. If a letter of credit is posted, the letter of credit shall (i) be in the amount of ~~\$25,000~~ \$100,000 or any other amount as set by regulation of the Board, (ii) be irrevocable and in a form approved by the Board, payable to the Department of Professional Occupational Regulation, and (iii) be for the use and the benefit of (a) a claimant against the licensee to secure the faithful performance of the licensee's obligations under this chapter or (b) an appraiser who has performed an appraisal for the licensee for which the appraiser has not been paid. The aggregate liability on the letter of credit shall not exceed the principal sum of the letter of credit. When a claimant or an appraiser is awarded a final judgment in a court of competent jurisdiction against a licensee of this section for the licensee's failure to faithfully perform its obligations under this chapter or failure to pay an appraiser who performed an appraisal, the claimant or the appraiser may file a claim with the Board for a directive ordering payment from the issuer of the letter of credit of the amount of the judgment, court costs and reasonable attorney fees as awarded by the court. Such claim shall be filed with the Board no later than 12 months after the judgment becomes final. Upon receipt of the claim against the licensee, the Board may cause its own investigation to be conducted. Upon a draw against a letter of credit, the licensee shall provide a new letter of credit in the amount required by this subdivision within 15 days after payment of any claim on the letter of credit. If the licensee fails to restore the full amount of the letter of credit, the Board shall immediately revoke the license of the licensee whose conduct resulted in payment from the bond.

CHAPTER 212

An Act to amend and reenact §§ 56-576 and 56-585.1 of the Code of Virginia, relating to electric utility regulation; recovery of costs of undergrounding distribution facilities.

[H 848]

Approved March 7, 2014

Be it enacted by the General Assembly of Virginia:

1. That §§ 56-576 and 56-585.1 of the Code of Virginia are amended and reenacted as follows:

§ 56-576. Definitions.

As used in this chapter:

"Affiliate" means any person that controls, is controlled by, or is under common control with an electric utility.

"Aggregator" means a person that, as an agent or intermediary, (i) offers to purchase, or purchases, electric energy or (ii) offers to arrange for, or arranges for, the purchase of electric energy, for sale to, or on behalf of, two or more retail customers not controlled by or under common control with such person. The following activities shall not, in and of themselves, make a person an aggregator under this chapter: (i) furnishing legal services to two or more retail customers, suppliers or aggregators; (ii) furnishing educational, informational, or analytical services to two or more retail customers,

unless direct or indirect compensation for such services is paid by an aggregator or supplier of electric energy; (iii) furnishing educational, informational, or analytical services to two or more suppliers or aggregators; (iv) providing default service under § 56-585; (v) engaging in activities of a retail electric energy supplier, licensed pursuant to § 56-587, which are authorized by such supplier's license; and (vi) engaging in actions of a retail customer, in common with one or more other such retail customers, to issue a request for proposal or to negotiate a purchase of electric energy for consumption by such retail customers.

"Combined heat and power" means a method of using waste heat from electrical generation to offset traditional processes, space heating, air conditioning, or refrigeration.

"Commission" means the State Corporation Commission.

"Cooperative" means a utility formed under or subject to Chapter 9.1 (§ 56-231.15 et seq.).

"Covered entity" means a provider in the Commonwealth of an electric service not subject to competition but shall not include default service providers.

"Covered transaction" means an acquisition, merger, or consolidation of, or other transaction involving stock, securities, voting interests or assets by which one or more persons obtains control of a covered entity.

"Curtailment" means inducing retail customers to reduce load during times of peak demand so as to ease the burden on the electrical grid.

"Customer choice" means the opportunity for a retail customer in the Commonwealth to purchase electric energy from any supplier licensed and seeking to sell electric energy to that customer.

"Demand response" means measures aimed at shifting time of use of electricity from peak-use periods to times of lower demand by inducing retail customers to curtail electricity usage during periods of congestion and higher prices in the electrical grid.

"Distribute," "distributing," or "distribution of" electric energy means the transfer of electric energy through a retail distribution system to a retail customer.

"Distributor" means a person owning, controlling, or operating a retail distribution system to provide electric energy directly to retail customers.

"Electric utility" means any person that generates, transmits, or distributes electric energy for use by retail customers in the Commonwealth, including any investor-owned electric utility, cooperative electric utility, or electric utility owned or operated by a municipality.

"Energy efficiency program" means a program that reduces the total amount of electricity that is required for the same process or activity implemented after the expiration of capped rates. Energy efficiency programs include equipment, physical, or program change designed to produce measured and verified reductions in the amount of electricity required to perform the same function and produce the same or a similar outcome. Energy efficiency programs may include, but are not limited to, (i) programs that result in improvements in lighting design, heating, ventilation, and air conditioning systems, appliances, building envelopes, and industrial and commercial processes; (ii) measures, such as but not limited to the installation of advanced meters, implemented or installed by utilities, that reduce fuel use or losses of electricity and otherwise improve internal operating efficiency in generation, transmission, and distribution systems; and (iii) customer engagement programs that result in measurable and verifiable energy savings that lead to efficient use patterns and practices. Energy efficiency programs include demand response, combined heat and power and waste heat recovery, curtailment, or other programs that are designed to reduce electricity consumption so long as they reduce the total amount of electricity that is required for the same process or activity. Utilities shall be authorized to install and operate such advanced metering technology and equipment on a customer's premises; however, nothing in this chapter establishes a requirement that an energy efficiency program be implemented on a customer's premises and be connected to a customer's wiring on the customer's side of the inter-connection without the customer's expressed consent.

"Generate," "generating," or "generation of" electric energy means the production of electric energy.

"Generator" means a person owning, controlling, or operating a facility that produces electric energy for sale.

"Incumbent electric utility" means each electric utility in the Commonwealth that, prior to July 1, 1999, supplied electric energy to retail customers located in an exclusive service territory established by the Commission.

"Independent system operator" means a person that may receive or has received, by transfer pursuant to this chapter, any ownership or control of, or any responsibility to operate, all or part of the transmission systems in the Commonwealth.

"In the public interest," for purposes of assessing energy efficiency programs, describes an energy efficiency program if, among other factors, the net present value of the benefits exceeds the net present value of the costs as determined by the Commission upon consideration of the following four tests: (i) the Total Resource Cost Test; (ii) the Utility Cost Test (also referred to as the Program Administrator Test); (iii) the Participant Test; and (iv) the Ratepayer Impact Measure Test. Such determination shall include an analysis of all four tests, and a program or portfolio of programs shall not be rejected based solely on the results of a single test. In addition, an energy efficiency program may be deemed to be "in the public interest" if the program provides measurable and verifiable energy savings to low-income customers or elderly customers.

"Measured and verified" means a process determined pursuant to methods accepted for use by utilities and industries to measure, verify, and validate energy savings and peak demand savings. This may include the protocol established by the United States Department of Energy, Office of Federal Energy Management Programs, Measurement and Verification Guidance for Federal Energy Projects, measurement and verification standards developed by the American Society of

Heating, Refrigeration and Air Conditioning Engineers (ASHRAE), or engineering-based estimates of energy and demand savings associated with specific energy efficiency measures, as determined by the Commission.

"Municipality" means a city, county, town, authority, or other political subdivision of the Commonwealth.

"New underground facilities" means facilities to provide underground distribution service. "New underground facilities" includes underground cables with voltages of 69 kilovolts or less, pad-mounted devices, connections at customer meters, and transition terminations from existing overhead distribution sources.

"Peak-shaving" means measures aimed solely at shifting time of use of electricity from peak-use periods to times of lower demand by inducing retail customers to curtail electricity usage during periods of congestion and higher prices in the electrical grid.

"Person" means any individual, corporation, partnership, association, company, business, trust, joint venture, or other private legal entity, and the Commonwealth or any municipality.

"Renewable energy" means energy derived from sunlight, wind, falling water, biomass, sustainable or otherwise, (the definitions of which shall be liberally construed), energy from waste, landfill gas, municipal solid waste, wave motion, tides, and geothermal power, and does not include energy derived from coal, oil, natural gas, or nuclear power. Renewable energy shall also include the proportion of the thermal or electric energy from a facility that results from the co-firing of biomass.

"Renewable thermal energy" means the thermal energy output from (i) a renewable-fueled combined heat and power generation facility that is (a) constructed, or renovated and improved, after January 1, 2012, (b) located in the Commonwealth, and (c) utilized in industrial processes other than the combined heat and power generation facility or (ii) a solar energy system, certified to the OG-100 standard of the Solar Ratings and Certification Corporation or an equivalent certification body, that (a) is constructed, or renovated and improved, after January 1, 2013, (b) is located in the Commonwealth, and (c) heats water or air for residential, commercial, institutional, or industrial purposes.

"Renewable thermal energy equivalent" means the electrical equivalent in megawatt hours of renewable thermal energy calculated by dividing (i) the heat content, measured in British thermal units (BTUs), of the renewable thermal energy at the point of transfer to a residential, commercial, institutional, or industrial process by (ii) the standard conversion factor of 3.413 million BTUs per megawatt hour.

"Renovated and improved facility" means a facility the components of which have been upgraded to enhance its operating efficiency.

"Retail customer" means any person that purchases retail electric energy for its own consumption at one or more metering points or nonmetered points of delivery located in the Commonwealth.

"Retail electric energy" means electric energy sold for ultimate consumption to a retail customer.

"Revenue reductions related to energy efficiency programs" means reductions in the collection of total non-fuel revenues, previously authorized by the Commission to be recovered from customers by a utility, that occur due to measured and verified decreased consumption of electricity caused by energy efficiency programs approved by the Commission and implemented by the utility, less the amount by which such non-fuel reductions in total revenues have been mitigated through other program-related factors, including reductions in variable operating expenses.

"Solar energy system" means a system of components that produces heat or electricity, or both, from sunlight.

"Supplier" means any generator, distributor, aggregator, broker, marketer, or other person who offers to sell or sells electric energy to retail customers and is licensed by the Commission to do so, but it does not mean a generator that produces electric energy exclusively for its own consumption or the consumption of an affiliate.

"Supply" or "supplying" electric energy means the sale of or the offer to sell electric energy to a retail customer.

"Transmission of," "transmit," or "transmitting" electric energy means the transfer of electric energy through the Commonwealth's interconnected transmission grid from a generator to either a distributor or a retail customer.

"Transmission system" means those facilities and equipment that are required to provide for the transmission of electric energy.

§ 56-585.1. Generation, distribution, and transmission rates after capped rates terminate or expire.

A. During the first six months of 2009, the Commission shall, after notice and opportunity for hearing, initiate proceedings to review the rates, terms and conditions for the provision of generation, distribution and transmission services of each investor-owned incumbent electric utility. Such proceedings shall be governed by the provisions of Chapter 10 (§ 56-232 et seq.), except as modified herein. In such proceedings the Commission shall determine fair rates of return on common equity applicable to the generation and distribution services of the utility. In so doing, the Commission may use any methodology to determine such return it finds consistent with the public interest, but such return shall not be set lower than the average of the returns on common equity reported to the Securities and Exchange Commission for the three most recent annual periods for which such data are available by not less than a majority, selected by the Commission as specified in subdivision 2 b, of other investor-owned electric utilities in the peer group of the utility, nor shall the Commission set such return more than 300 basis points higher than such average. The peer group of the utility shall be determined in the manner prescribed in subdivision 2 b. The Commission may increase or decrease such combined rate of return by up to 100 basis points based on the generating plant performance, customer service, and operating efficiency of a utility, as compared to nationally recognized standards determined by the Commission to be appropriate for such purposes. In such a proceeding, the Commission shall determine the rates that the utility may charge until such rates are adjusted. If the Commission finds that the utility's combined rate of return on common equity is more than 50 basis points below the

combined rate of return as so determined, it shall be authorized to order increases to the utility's rates necessary to provide the opportunity to fully recover the costs of providing the utility's services and to earn not less than such combined rate of return. If the Commission finds that the utility's combined rate of return on common equity is more than 50 basis points above the combined rate of return as so determined, it shall be authorized either (i) to order reductions to the utility's rates it finds appropriate, provided that the Commission may not order such rate reduction unless it finds that the resulting rates will provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than the fair rates of return on common equity applicable to the generation and distribution services; or (ii) to direct that 60 percent of the amount of the utility's earnings that were more than 50 basis points above the fair combined rate of return for calendar year 2008 be credited to customers' bills, in which event such credits shall be amortized over a period of six to 12 months, as determined at the discretion of the Commission, following the effective date of the Commission's order and be allocated among customer classes such that the relationship between the specific customer class rates of return to the overall target rate of return will have the same relationship as the last approved allocation of revenues used to design base rates. Commencing in 2011, the Commission, after notice and opportunity for hearing, shall conduct biennial reviews of the rates, terms and conditions for the provision of generation, distribution and transmission services by each investor-owned incumbent electric utility, subject to the following provisions:

1. Rates, terms and conditions for each service shall be reviewed separately on an unbundled basis, and such reviews shall be conducted in a single, combined proceeding. The first such review shall utilize the two successive 12-month test periods ending December 31, 2010. However, the Commission may, in its discretion, elect to stagger its biennial reviews of utilities by utilizing the two successive 12-month test periods ending December 31, 2010, for a Phase I Utility, and utilizing the two successive 12-month test periods ending December 31, 2011, for a Phase II Utility, with subsequent proceedings utilizing the two successive 12-month test periods ending December 31 immediately preceding the year in which such proceeding is conducted. For purposes of this section, a Phase I Utility is an investor-owned incumbent electric utility that was, as of July 1, 1999, not bound by a rate case settlement adopted by the Commission that extended in its application beyond January 1, 2002, and a Phase II Utility is an investor-owned incumbent electric utility that was bound by such a settlement.

2. Subject to the provisions of subdivision 6, fair rates of return on common equity applicable separately to the generation and distribution services of such utility, and for the two such services combined, shall be determined by the Commission during each such biennial review, as follows:

a. The Commission may use any methodology to determine such return it finds consistent with the public interest, but such return shall not be set lower than the average of the returns on common equity reported to the Securities and Exchange Commission for the three most recent annual periods for which such data are available by not less than a majority, selected by the Commission as specified in subdivision 2 b, of other investor-owned electric utilities in the peer group of the utility subject to such biennial review, nor shall the Commission set such return more than 300 basis points higher than such average.

b. In selecting such majority of peer group investor-owned electric utilities, the Commission shall first remove from such group the two utilities within such group that have the lowest reported returns of the group, as well as the two utilities within such group that have the highest reported returns of the group, and the Commission shall then select a majority of the utilities remaining in such peer group. In its final order regarding such biennial review, the Commission shall identify the utilities in such peer group it selected for the calculation of such limitation. For purposes of this subdivision, an investor-owned electric utility shall be deemed part of such peer group if (i) its principal operations are conducted in the southeastern United States east of the Mississippi River in either the states of West Virginia or Kentucky or in those states south of Virginia, excluding the state of Tennessee, (ii) it is a vertically-integrated electric utility providing generation, transmission and distribution services whose facilities and operations are subject to state public utility regulation in the state where its principal operations are conducted, (iii) it had a long-term bond rating assigned by Moody's Investors Service of at least Baa at the end of the most recent test period subject to such biennial review, and (iv) it is not an affiliate of the utility subject to such biennial review.

c. The Commission may, consistent with its precedent for incumbent electric utilities prior to the enactment of Chapters 888 and 933 of the Acts of Assembly of 2007, increase or decrease the utility's combined rate of return based on the Commission's consideration of the utility's performance.

d. In any Current Proceeding, the Commission shall determine whether the Current Return has increased, on a percentage basis, above the Initial Return by more than the increase, expressed as a percentage, in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, since the date on which the Commission determined the Initial Return. If so, the Commission may conduct an additional analysis of whether it is in the public interest to utilize such Current Return for the Current Proceeding then pending. A finding of whether the Current Return justifies such additional analysis shall be made without regard to any enhanced rate of return on common equity awarded pursuant to the provisions of subdivision 6. Such additional analysis shall include, but not be limited to, a consideration of overall economic conditions, the level of interest rates and cost of capital with respect to business and industry, in general, as well as electric utilities, the current level of inflation and the utility's cost of goods and services, the effect on the utility's ability to provide adequate service and to attract capital if less than the Current Return were utilized for the Current Proceeding then pending, and such other factors as the Commission may deem relevant. If, as a result of such analysis, the Commission finds that use of the Current Return

for the Current Proceeding then pending would not be in the public interest, then the lower limit imposed by subdivision 2 a on the return to be determined by the Commission for such utility shall be calculated, for that Current Proceeding only, by increasing the Initial Return by a percentage at least equal to the increase, expressed as a percentage, in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, since the date on which the Commission determined the Initial Return. For purposes of this subdivision:

"Current Proceeding" means any proceeding conducted under any provisions of this subsection that require or authorize the Commission to determine a fair combined rate of return on common equity for a utility and that will be concluded after the date on which the Commission determined the Initial Return for such utility.

"Current Return" means the minimum fair combined rate of return on common equity required for any Current Proceeding by the limitation regarding a utility's peer group specified in subdivision 2 a.

"Initial Return" means the fair combined rate of return on common equity determined for such utility by the Commission on the first occasion after July 1, 2009, under any provision of this subsection pursuant to the provisions of subdivision 2 a.

e. In addition to other considerations, in setting the return on equity within the range allowed by this section, the Commission shall strive to maintain costs of retail electric energy that are cost competitive with costs of retail electric energy provided by the other peer group investor-owned electric utilities.

f. The determination of such returns shall be made by the Commission on a stand-alone basis, and specifically without regard to any return on common equity or other matters determined with regard to facilities described in subdivision 6.

g. If the combined rate of return on common equity earned by the generation and distribution services is no more than 50 basis points above or below the return as so determined or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, such return is no more than 70 basis points above or below the return as so determined, such combined return shall not be considered either excessive or insufficient, respectively. However, for any test period commencing after December 31, 2012, for a Phase II Utility, and after December 31, 2013, for a Phase I Utility, if the utility has, during the test period or periods under review, earned below the return as so determined, whether or not such combined return is within 70 basis points of the return as so determined, the utility may petition the Commission for approval of an increase in rates in accordance with the provisions of clause (i) of subdivision ~~A~~ 8 as if it had earned more than 70 basis points below a fair combined rate of return, and such proceeding shall otherwise be conducted in accordance with the provisions of this section.

h. Any amount of a utility's earnings directed by the Commission to be credited to customers' bills pursuant to this section shall not be considered for the purpose of determining the utility's earnings in any subsequent biennial review.

3. Each such utility shall make a biennial filing by March 31 of every other year, beginning in 2011, consisting of the schedules contained in the Commission's rules governing utility rate increase applications; however, if the Commission elects to stagger the dates of the biennial reviews of utilities as provided in subdivision 1, then Phase I utilities shall commence biennial filings in 2011 and Phase II utilities shall commence biennial filings in 2012. Such filing shall encompass the two successive 12-month test periods ending December 31 immediately preceding the year in which such proceeding is conducted, and in every such case the filing for each year shall be identified separately and shall be segregated from any other year encompassed by the filing. If the Commission determines that rates should be revised or credits be applied to customers' bills pursuant to subdivision 8 or 9, any rate adjustment clauses previously implemented pursuant to subdivision 5 or those related to facilities utilizing simple-cycle combustion turbines described in subdivision 6, shall be combined with the utility's costs, revenues and investments until the amounts that are the subject of such rate adjustment clauses are fully recovered. The Commission shall combine such clauses with the utility's costs, revenues and investments only after it makes its initial determination with regard to necessary rate revisions or credits to customers' bills, and the amounts thereof, but after such clauses are combined as herein specified, they shall thereafter be considered part of the utility's costs, revenues, and investments for the purposes of future biennial review proceedings. A Phase I utility shall delay for one year the filing of its biennial review from March 31, 2013, to March 31, 2014, and shall not defer on its books for future recovery any costs incurred during calendar year 2011, other than as provided in subdivision A 7 of this section or § 56-249.6, and its subsequent biennial filing shall be made by March 31, 2016, and every two years thereafter.

4. The following costs incurred by the utility shall be deemed reasonable and prudent: (i) costs for transmission services provided to the utility by the regional transmission entity of which the utility is a member, as determined under applicable rates, terms and conditions approved by the Federal Energy Regulatory Commission, and (ii) costs charged to the utility that are associated with demand response programs approved by the Federal Energy Regulatory Commission and administered by the regional transmission entity of which the utility is a member. Upon petition of a utility at any time after the expiration or termination of capped rates, but not more than once in any 12-month period, the Commission shall approve a rate adjustment clause under which such costs, including, without limitation, costs for transmission service, charges for new and existing transmission facilities, administrative charges, and ancillary service charges designed to recover transmission costs, shall be recovered on a timely and current basis from customers. Retail rates to recover these costs shall be designed using the appropriate billing determinants in the retail rate schedules.

5. A utility may at any time, after the expiration or termination of capped rates, but not more than once in any 12-month period, petition the Commission for approval of one or more rate adjustment clauses for the timely and current recovery from customers of the following costs:

a. Incremental costs described in clause (vi) of subsection B of § 56-582 incurred between July 1, 2004, and the expiration or termination of capped rates, if such utility is, as of July 1, 2007, deferring such costs consistent with an order of the Commission entered under clause (vi) of subsection B of § 56-582. The Commission shall approve such a petition allowing the recovery of such costs that comply with the requirements of clause (vi) of subsection B of § 56-582;

b. Projected and actual costs for the utility to design and operate fair and effective peak-shaving programs. The Commission shall approve such a petition if it finds that the program is in the public interest; provided that the Commission shall allow the recovery of such costs as it finds are reasonable;

c. Projected and actual costs for the utility to design, implement, and operate energy efficiency programs, including a margin to be recovered on operating expenses, which margin for the purposes of this section shall be equal to the general rate of return on common equity determined as described in subdivision ~~A 2 of this section~~. The Commission shall only approve such a petition if it finds that the program is in the public interest. As part of such cost recovery, the Commission, if requested by the utility, shall allow for the recovery of revenue reductions related to energy efficiency programs. The Commission shall only allow such recovery to the extent that the Commission determines such revenue has not been recovered through margins from incremental off-system sales as defined in § 56-249.6 that are directly attributable to energy efficiency programs.

None of the costs of new energy efficiency programs of an electric utility, including recovery of revenue reductions, shall be assigned to any customer that has a verifiable history of having used more than 10 megawatts of demand from a single meter of delivery. Nor shall any of the costs of new energy efficiency programs of an electric utility, including recovery of revenue reductions, be incurred by any large general service customer as defined herein that has notified the utility of non-participation in such energy efficiency program or programs. A large general service customer is a customer that has a verifiable history of having used more than 500 kilowatts of demand from a single meter of delivery. Non-participation in energy efficiency programs shall be allowed by the Commission if the large general service customer has, at the customer's own expense, implemented energy efficiency programs that have produced or will produce measured and verified results consistent with industry standards and other regulatory criteria stated in this section. The Commission shall, no later than November 15, 2009, promulgate rules and regulations to accommodate the process under which such large general service customers shall file notice for such an exemption and (i) establish the administrative procedures by which eligible customers will notify the utility and (ii) define the standard criteria that must be satisfied by an applicant in order to notify the utility. In promulgating such rules and regulations, the Commission may also specify the timing as to when a utility shall accept and act on such notice, taking into consideration the utility's integrated resource planning process as well as its administration of energy efficiency programs that are approved for cost recovery by the Commission. The notice of non-participation by a large general service customer, to be given by March 1 of a given year, shall be for the duration of the service life of the customer's energy efficiency program. The Commission on its own motion may initiate steps necessary to verify such non-participants' achievement of energy efficiency if the Commission has a body of evidence that the non-participant has knowingly misrepresented its energy efficiency achievement. A utility shall not charge such large general service customer, as defined by the Commission, for the costs of installing energy efficiency equipment beyond what is required to provide electric service and meter such service on the customer's premises if the customer provides, at the customer's expense, equivalent energy efficiency equipment. In all relevant proceedings pursuant to this section, the Commission shall take into consideration the goals of economic development, energy efficiency and environmental protection in the Commonwealth;

d. Projected and actual costs of participation in a renewable energy portfolio standard program pursuant to § 56-585.2 that are not recoverable under subdivision 6. The Commission shall approve such a petition allowing the recovery of such costs as are provided for in a program approved pursuant to § 56-585.2; and

e. Projected and actual costs of projects that the Commission finds to be necessary to comply with state or federal environmental laws or regulations applicable to generation facilities used to serve the utility's native load obligations. The Commission shall approve such a petition if it finds that such costs are necessary to comply with such environmental laws or regulations.

The Commission shall have the authority to determine the duration or amortization period for any adjustment clause approved under this subdivision.

6. To ensure the *generation and delivery* of a reliable and adequate supply of electricity, to meet the utility's projected native load obligations and to promote economic development, a utility may at any time, after the expiration or termination of capped rates, petition the Commission for approval of a rate adjustment clause for recovery on a timely and current basis from customers of the costs of (i) a coal-fueled generation facility that utilizes Virginia coal and is located in the coalfield region of the Commonwealth, as described in § 15.2-6002, regardless of whether such facility is located within or without the utility's service territory, (ii) one or more other generation facilities, ~~or~~ (iii) one or more major unit modifications of generation facilities; ~~however, such~~, or (iv) *one or more new underground facilities to replace one or more existing overhead distribution facilities of 69 kilovolts or less located within the Commonwealth; however, subject to the provisions of the following sentence, the utility shall not file a petition under clause (iv) more often than annually and, in such petition, shall not seek any annual incremental increase in the level of investments associated with such a petition that exceeds five percent of such utility's distribution rate base, as such rate base was determined for the most recently ended 12-month test period in the utility's latest biennial review proceeding conducted pursuant to subdivision 3 and concluded by final order of the Commission prior to the date of filing of such petition under clause (iv). In all proceedings regarding petitions filed*

under clause (iv), the level of investments approved for recovery in such proceedings shall be in addition to, and not in lieu of, levels of investments previously approved for recovery in prior proceedings under clause (iv). Such a petition concerning facilities described in clause (ii) that utilize nuclear power, facilities described in clause (ii) that are coal-fueled and will be built by a Phase I utility, or facilities described in clause (i) may also be filed before the expiration or termination of capped rates. A utility that constructs any such facility shall have the right to recover the costs of the facility, as accrued against income, through its rates, including projected construction work in progress, and any associated allowance for funds used during construction, planning, development and construction costs, life-cycle costs, costs related to assessing the feasibility of potential sites for new underground facilities, and costs of infrastructure associated therewith, plus, as an incentive to undertake such projects, an enhanced rate of return on common equity calculated as specified below; however, in determining the amounts recoverable under a rate adjustment clause for new underground facilities, the Commission shall not consider, or increase or reduce such amounts recoverable because of, (a) the operation and maintenance costs attributable to either the overhead distribution facilities being replaced or the new underground facilities or (b) any other costs attributable to the overhead distribution facilities being replaced. Notwithstanding the preceding sentence, the costs described in clauses (a) and (b) thereof shall remain eligible for recovery from customers through the utility's base rates for distribution service. A utility seeking approval to construct a generating facility shall demonstrate that it has considered and weighed alternative options, including third-party market alternatives, in its selection process. The costs of the facility, other than return on projected construction work in progress and allowance for funds used during construction, shall not be recovered prior to the date ~~the~~ a facility described in clause (i), (ii), or (iii) begins commercial operation or new underground facilities are classified by the utility as plant in service. Such enhanced rate of return on common equity shall be applied to allowance for funds used during construction and to construction work in progress during the construction phase of the facility and shall thereafter be applied to the entire facility during the first portion of the service life of the facility. The first portion of the service life shall be as specified in the table below; however, the Commission shall determine the duration of the first portion of the service life of any facility, within the range specified in the table below, which determination shall be consistent with the public interest and shall reflect the Commission's determinations regarding how critical the facility may be in meeting the energy needs of the citizens of the Commonwealth and the risks involved in the development of the facility. After the first portion of the service life of the facility is concluded, the utility's general rate of return shall be applied to such facility for the remainder of its service life. As used herein, the service life of the facility shall be deemed to begin on the date ~~the~~ a facility described in clause (i), (ii), or (iii) begins commercial operation or new underground facilities are classified by the utility as plant in service, and such service life shall be deemed equal in years to the life of that facility as used to calculate the utility's depreciation expense. Such enhanced rate of return on common equity shall be calculated by adding the basis points specified in the table below to the utility's general rate of return, and such enhanced rate of return shall apply only to the facility that is the subject of such rate adjustment clause. Allowance for funds used during construction shall be calculated for any such facility utilizing the utility's actual capital structure and overall cost of capital, including an enhanced rate of return on common equity as determined pursuant to this subdivision, until such construction work in progress is included in rates. The construction of any facility described in clause (i) is in the public interest, and in determining whether to approve such facility, the Commission shall liberally construe the provisions of this title. In determining whether to approve petitions for rate adjustment clauses for new underground facilities, and in determining the level of costs to be recovered thereunder, the Commission shall liberally construe the provisions of this title and shall give due consideration to the public policy goals of increased electric service reliability and reduced outage times associated with the replacement of existing overhead distribution facilities with new underground facilities. The basis points to be added to the utility's general rate of return to calculate the enhanced rate of return on common equity, and the first portion of that facility's service life to which such enhanced rate of return shall be applied, shall vary by type of facility, as specified in the following table:

Type of Generation Facility	Basis Points	First Portion of Service Life
Nuclear-powered	200	Between 12 and 25 years
Carbon capture compatible, clean-coal powered	200	Between 10 and 20 years
Renewable powered, other than landfill gas powered	200	Between 5 and 15 years
Coalbed methane gas powered	150	Between 5 and 15 years
Landfill gas powered	200	Between 5 and 15 years
Conventional coal or combined-cycle combustion turbine	100	Between 10 and 20 years

For generating facilities other than those utilizing nuclear power or those utilizing energy derived from offshore wind, as of July 1, 2013, only those facilities as to which a rate adjustment clause under this subdivision has been previously approved by the Commission, or as to which a petition for approval of such rate adjustment clause was filed with the Commission, on or before January 1, 2013, shall be entitled to the enhanced rate of return on common equity as specified in the above table during the construction phase of the facility and the approved first portion of its service life.

For generating facilities within the Commonwealth utilizing nuclear power or those utilizing energy derived from offshore wind projects located in waters off the Commonwealth's Atlantic shoreline, such facilities shall continue to be

eligible for an enhanced rate of return on common equity during the construction phase of the facility and the approved first portion of its service life of between 12 and 25 years in the case of a facility utilizing nuclear power and for a service life of between 5 and 15 years in the case of a facility utilizing energy derived from offshore wind, provided, however, that, as of July 1, 2013, the enhanced return for such facilities shall be 100 basis points, which shall be added to the utility's general rate of return as determined under subdivision 2.

~~Generation~~ *Neither generation facilities described in clause (ii) that utilize simple-cycle combustion turbines nor new underground facilities shall not receive an enhanced rate of return on common equity as described herein, but instead shall receive the utility's general rate of return during the construction phase of the facility and, thereafter, for the entire service life of the facility. No rate adjustment clause for new underground facilities shall allocate costs to, or provide for the recovery of costs from, customers that are served within the large power service rate class for a Phase I utility and the large general service rate classes for a Phase II utility. New underground facilities are hereby declared to be ordinary extensions or improvements in the usual course of business under the provisions of § 56-265.2.*

As used in this subdivision, a generation facility is ~~(a)~~ (1) "coalbed methane gas powered" if the facility is fired at least 50 percent by coalbed methane gas, as such term is defined in § 45.1-361.1, produced from wells located in the Commonwealth, and ~~(b)~~ (2) "landfill gas powered" if the facility is fired by methane or other combustible gas produced by the anaerobic digestion or decomposition of biodegradable materials in a solid waste management facility licensed by the Waste Management Board. A landfill gas powered facility includes, in addition to the generation facility itself, the equipment used in collecting, drying, treating, and compressing the landfill gas and in transmitting the landfill gas from the solid waste management facility where it is collected to the generation facility where it is combusted.

For purposes of this subdivision, "general rate of return" means the fair combined rate of return on common equity as it is determined by the Commission from time to time for such utility pursuant to subdivision 2. In any proceeding under this subdivision conducted prior to the conclusion of the first biennial review for such utility, the Commission shall determine a general rate of return for such utility in the same manner as it would in a biennial review proceeding.

Notwithstanding any other provision of this subdivision, if the Commission finds during the biennial review conducted for a Phase II utility in 2018 that such utility has not filed applications for all necessary federal and state regulatory approvals to construct one or more nuclear-powered or coal-fueled generation facilities that would add a total capacity of at least 1500 megawatts to the amount of the utility's generating resources as such resources existed on July 1, 2007, or that, if all such approvals have been received, that the utility has not made reasonable and good faith efforts to construct one or more such facilities that will provide such additional total capacity within a reasonable time after obtaining such approvals, then the Commission, if it finds it in the public interest, may reduce on a prospective basis any enhanced rate of return on common equity previously applied to any such facility to no less than the general rate of return for such utility and may apply no less than the utility's general rate of return to any such facility for which the utility seeks approval in the future under this subdivision.

7. Any petition filed pursuant to subdivision 4, 5, or 6 shall be considered by the Commission on a stand-alone basis without regard to the other costs, revenues, investments, or earnings of the utility. Any costs incurred by a utility prior to the filing of such petition, or during the consideration thereof by the Commission, that are proposed for recovery in such petition and that are related to ~~clause (a) of subdivision 5 a,~~ or that are related to facilities and projects described in clause (i) of subdivision 6, ~~or that are related to new underground facilities described in clause (iv) of subdivision 6,~~ shall be deferred on the books and records of the utility until the Commission's final order in the matter, or until the implementation of any applicable approved rate adjustment clauses, whichever is later. Any costs prudently incurred on or after July 1, 2007, by a utility prior to the filing of such petition, or during the consideration thereof by the Commission, that are proposed for recovery in such petition and that are related to facilities and projects described in clause (ii) of subdivision 6 that utilize nuclear power, or coal-fueled facilities and projects described in clause (ii) of subdivision 6 if such coal-fueled facilities will be built by a Phase I Utility, shall be deferred on the books and records of the utility until the Commission's final order in the matter, or until the implementation of any applicable approved rate adjustment clauses, whichever is later. Any costs prudently incurred after the expiration or termination of capped rates related to other matters described in ~~subdivisions~~ subdivision 4, 5, or 6 shall be deferred beginning only upon the expiration or termination of capped rates, provided, however, that no provision of this act shall affect the rights of any parties with respect to the rulings of the Federal Energy Regulatory Commission in PJM Interconnection LLC and Virginia Electric and Power Company, 109 F.E.R.C. P 61,012 (2004). The Commission's final order regarding any petition filed pursuant to subdivision 4, 5, or 6 shall be entered not more than three months, eight months, and nine months, respectively, after the date of filing of such petition. If such petition is approved, the order shall direct that the applicable rate adjustment clause be applied to customers' bills not more than 60 days after the date of the order, or upon the expiration or termination of capped rates, whichever is later.

8. In any biennial review proceeding, the following utility generation and distribution costs not proposed for recovery under any other subdivision of this subsection, as recorded per books by the utility for financial reporting purposes and accrued against income, shall be attributed to the test periods under review: costs associated with asset impairments related to early retirement determinations made by the utility prior to December 31, 2012, for utility generation plant; costs associated with severe weather events; and costs associated with natural disasters. Such costs shall be deemed to have been recovered from customers through rates for generation and distribution services in effect during the test periods under review unless such costs, individually or in the aggregate, together with the utility's other costs, revenues, and investments to be recovered through rates for generation and distribution services, result in the utility's earned return on its generation

and distribution services for the combined test periods under review to fall more than 50 basis points below the fair combined rate of return authorized under subdivision 2 for such periods or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, to fall more than 70 basis points below the fair combined rate of return authorized under subdivision 2 for such periods. In such cases, the Commission shall, in such biennial review proceeding, authorize deferred recovery of such costs and allow the utility to amortize and recover such deferred costs over future periods as determined by the Commission. The aggregate amount of such deferred costs shall not exceed an amount that would, together with the utility's other costs, revenues, and investments to be recovered through rates for generation and distribution services, cause the utility's earned return on its generation and distribution services to exceed the fair rate of return authorized under subdivision 2, less 50 basis points, for the combined test periods under review or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, to exceed the fair rate of return authorized under subdivision 2 less 70 basis points. Nothing in this section shall limit the Commission's authority, pursuant to the provisions of Chapter 10 (§ 56-232 et seq.), including specifically § 56-235.2, following the review of combined test period earnings of the utility in a biennial review, for normalization of nonrecurring test period costs and annualized adjustments for future costs, in determining any appropriate increase or decrease in the utility's rates for generation and distribution services pursuant to ~~clause (i)~~ ~~subdivision 8 a~~ or ~~(iii)~~ 8 c.

If the Commission determines as a result of such biennial review that:

~~(i)~~ a. The utility has, during the test period or periods under review, considered as a whole, earned more than 50 basis points below a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points below a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, the Commission shall order increases to the utility's rates necessary to provide the opportunity to fully recover the costs of providing the utility's services and to earn not less than such fair combined rate of return, using the most recently ended 12-month test period as the basis for determining the amount of the rate increase necessary. However, the Commission may not order such rate increase unless it finds that the resulting rates are necessary to provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than a fair combined rate of return on both its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, using the most recently ended 12-month test period as the basis for determining the permissibility of any rate increase under the standards of this sentence, and the amount thereof;

~~(ii)~~ b. The utility has, during the test period or test periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, the Commission shall, subject to the provisions of subdivision 9, direct that 60 percent of the amount of such earnings that were more than 50 basis points, or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, that 70 percent of the amount of such earnings that were more than 70 basis points, above such fair combined rate of return for the test period or periods under review, considered as a whole, shall be credited to customers' bills. Any such credits shall be amortized over a period of six to 12 months, as determined at the discretion of the Commission, following the effective date of the Commission's order, and shall be allocated among customer classes such that the relationship between the specific customer class rates of return to the overall target rate of return will have the same relationship as the last approved allocation of revenues used to design base rates; or

~~(iii)~~ c. Such biennial review is the second consecutive biennial review in which the utility has, during the test period or test periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matter determined with respect to facilities described in subdivision 6, the Commission shall, subject to the provisions of subdivision 9 and in addition to the actions authorized in ~~clause (ii) of this subdivision b~~, also order reductions to the utility's rates it finds appropriate. However, the Commission may not order such rate reduction unless it finds that the resulting rates will provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, using the most recently ended 12-month test period as the basis for determining the permissibility of any rate reduction under the standards of this sentence, and the amount thereof.

The Commission's final order regarding such biennial review shall be entered not more than eight months after the date of filing, and any revisions in rates or credits so ordered shall take effect not more than 60 days after the date of the order. The fair combined rate of return on common equity determined pursuant to subdivision 2 in such biennial review shall apply, for purposes of reviewing the utility's earnings on its rates for generation and distribution services, to the entire two

successive 12-month test periods ending December 31 immediately preceding the year of the utility's subsequent biennial review filing under subdivision 3.

9. If, as a result of a biennial review required under this subsection and conducted with respect to any test period or periods under review ending later than December 31, 2010 (or, if the Commission has elected to stagger its biennial reviews of utilities as provided in subdivision 1, under review ending later than December 31, 2010, for a Phase I Utility, or December 31, 2011, for a Phase II Utility), the Commission finds, with respect to such test period or periods considered as a whole, that (i) any utility has, during the test period or periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, and (ii) the total aggregate regulated rates of such utility at the end of the most recently-ended 12-month test period exceeded the annual increases in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, compounded annually, when compared to the total aggregate regulated rates of such utility as determined pursuant to the biennial review conducted for the base period, the Commission shall, unless it finds that such action is not in the public interest or that the provisions of ~~clauses (ii) and (iii) of subdivision~~ *subdivisions 8 b and c* are more consistent with the public interest, direct that any or all earnings for such test period or periods under review, considered as a whole that were more than 50 basis points, or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points, above such fair combined rate of return shall be credited to customers' bills, in lieu of the provisions of ~~clauses (ii) and (iii) of subdivision~~ *subdivisions 8 b and c*. Any such credits shall be amortized and allocated among customer classes in the manner provided by ~~clause (ii) of~~ *subdivision 8 b*. For purposes of this subdivision:

"Base period" means (i) the test period ending December 31, 2010 (or, if the Commission has elected to stagger its biennial reviews of utilities as provided in subdivision 1, the test period ending December 31, 2010, for a Phase I Utility, or December 31, 2011, for a Phase II Utility), or (ii) the most recent test period with respect to which credits have been applied to customers' bills under the provisions of this subdivision, whichever is later.

"Total aggregate regulated rates" shall include: (i) fuel tariffs approved pursuant to § 56-249.6, except for any increases in fuel tariffs deferred by the Commission for recovery in periods after December 31, 2010, pursuant to the provisions of clause (ii) of subsection C of § 56-249.6; (ii) rate adjustment clauses implemented pursuant to subdivision 4 or 5; (iii) revisions to the utility's rates pursuant to ~~clause (i) of~~ *subdivision 8 a*; (iv) revisions to the utility's rates pursuant to the Commission's rules governing utility rate increase applications, as permitted by subsection B, occurring after July 1, 2009; and (v) base rates in effect as of July 1, 2009.

10. For purposes of this section, the Commission shall regulate the rates, terms and conditions of any utility subject to this section on a stand-alone basis utilizing the actual end-of-test period capital structure and cost of capital of such utility, unless the Commission finds that the debt to equity ratio of such capital structure is unreasonable for such utility, in which case the Commission may utilize a debt to equity ratio that it finds to be reasonable for such utility in determining any rate adjustment pursuant to ~~clauses (i) and (iii) of subdivision~~ *subdivisions 8 a and c*, and without regard to the cost of capital, capital structure, revenues, expenses or investments of any other entity with which such utility may be affiliated. In particular, and without limitation, the Commission shall determine the federal and state income tax costs for any such utility that is part of a publicly traded, consolidated group as follows: (i) such utility's apportioned state income tax costs shall be calculated according to the applicable statutory rate, as if the utility had not filed a consolidated return with its affiliates, and (ii) such utility's federal income tax costs shall be calculated according to the applicable federal income tax rate and shall exclude any consolidated tax liability or benefit adjustments originating from any taxable income or loss of its affiliates.

B. Nothing in this section shall preclude an investor-owned incumbent electric utility from applying for an increase in rates pursuant to § 56-245 or the Commission's rules governing utility rate increase applications; however, in any such filing, a fair rate of return on common equity shall be determined pursuant to subdivision A 2. Nothing in this section shall preclude such utility's recovery of fuel and purchased power costs as provided in § 56-249.6.

C. Except as otherwise provided in this section, the Commission shall exercise authority over the rates, terms and conditions of investor-owned incumbent electric utilities for the provision of generation, transmission and distribution services to retail customers in the Commonwealth pursuant to the provisions of Chapter 10 (§ 56-232 et seq.), including specifically § 56-235.2.

D. Nothing in this section shall preclude the Commission from determining, during any proceeding authorized or required by this section, the reasonableness or prudence of any cost incurred or projected to be incurred, by a utility in connection with the subject of the proceeding. A determination of the Commission regarding the reasonableness or prudence of any such cost shall be consistent with the Commission's authority to determine the reasonableness or prudence of costs in proceedings pursuant to the provisions of Chapter 10 (§ 56-232 et seq.). In determining the reasonableness or prudence of a utility providing energy and capacity to its customers from renewable energy resources, the Commission shall consider the extent to which such renewable energy resources, whether utility-owned or by contract, further the objectives of the Commonwealth Energy Policy set forth in §§ 67-101 and 67-102, and shall also consider whether the costs of such resources is likely to result in unreasonable increases in rates paid by consumers.

E. The Commission shall promulgate such rules and regulations as may be necessary to implement the provisions of this section.

CHAPTER 213

An Act to authorize the Treasury Board to issue bonds pursuant to Article X, Section 9 (c) of the Constitution of Virginia in an amount up to \$245,020,705 plus financing costs, to finance revenue-producing capital projects at institutions of higher learning of the Commonwealth.

[H 869]

Approved March 7, 2014

Whereas, Article X, Section 9 (c) of the Constitution of Virginia provides that the General Assembly may authorize the creation of debt secured by a pledge of net revenues derived from rates, fees, or other charges and the full faith and credit of the Commonwealth of Virginia, provided that such debt is created for specific revenue-producing capital projects, including their enlargement or improvement, at, among others, institutions of higher learning of the Commonwealth; and

Whereas, in accordance with Article X, Section 9 (c) of the Constitution of Virginia, the Governor has certified in writing, filed with the Auditor of Public Accounts, his opinion that the anticipated net revenues of each of the capital projects identified below to be pledged to the payment of the principal of and the interest on that portion of such debt issued for each such project will be sufficient to meet such payments as the same become due and to provide such reserves as may be required by law and that each of the capital projects complies with the requirements of Article X, Section 9 (c) of the Constitution of Virginia; now, therefore,

Be it enacted by the General Assembly of Virginia:

1. § 1. Title.

This act shall be known and may be cited as the "Commonwealth of Virginia Higher Educational Institutions Bond Act of 2014."

§ 2. Authorization of bonds and BANs.

The Treasury Board is hereby authorized, by and with the consent of the Governor, to sell and issue, pursuant to Article X, Section 9 (c) of the Constitution of Virginia, at one time or from time to time, bonds of the Commonwealth, to be designated "Commonwealth of Virginia Higher Educational Institutions Bonds, Series" in an aggregate principal amount not exceeding \$245,020,705, plus amounts needed to fund issuance costs, reserve funds, construction period interest, and other financing expenses. The Treasury Board is further hereby authorized, by and with the consent of the Governor, to borrow money in anticipation of the issuance of bonds by the issuance of bond anticipation notes (BANs), including BANs issued as commercial paper. The proceeds of such bonds and BANs, excluding amounts needed to fund issuance costs, reserve funds, and other financing expenses, shall be used exclusively for the purpose of providing funds, with any other available funds, for paying all or a portion of the costs of acquiring, constructing, renovating, enlarging, improving, and equipping revenue-producing capital projects at institutions of higher learning of the Commonwealth as follows:

<i>Institution</i>	<i>Project Title</i>	<i>Amount</i>
<i>Christopher Newport University</i>	<i>Improvements-Residence Halls</i>	<i>\$5,000,000</i>
<i>Christopher Newport University</i>	<i>Construct Residential Housing</i>	<i>\$42,020,000</i>
<i>Christopher Newport University</i>	<i>Expand Dining Hall</i>	<i>\$9,500,000</i>
<i>James Madison University</i>	<i>Construct Dining Hall</i>	<i>\$80,736,705</i>
<i>Old Dominion University</i>	<i>Construct New Residence Halls, Phase I</i>	<i>\$76,464,000</i>
<i>The College of William and Mary in Virginia</i>	<i>Renovate Dormitories</i>	<i>\$16,000,000</i>
<i>Virginia Commonwealth University</i>	<i>Expand Ackell Residence Center</i>	<i>\$15,300,000</i>
<i>Total</i>		<i>\$245,020,705</i>

§ 3. Application of proceeds.

The proceeds, including any premium, of bonds and BANs (except the proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds, and (iii) refunding BANs) shall be deposited in a special capital outlay fund in the state treasury and, together with the investment income thereon, shall be disbursed by the State Treasurer for paying costs of the acquisition, construction, renovation, enlargement, improvement, and equipping of the authorized capital projects, including financing costs. The proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds, and (iii) refunding BANs shall be used to pay such BANs, refunded bonds, and refunded BANs.

§ 4. Details, sale of bonds and BANs.

Bonds and BANs shall be dated, and may be made redeemable before their maturity or maturities at such price or prices or within such price parameters, all as may be determined by the Treasury Board, by and with the consent of the Governor. Bonds and BANs shall be in such form, shall bear interest at such rate or rates, either at fixed rates or at rates established by formula or other method, and may contain such other provisions, all as determined by the Treasury Board or, when authorized by the Treasury Board, the State Treasurer. The principal of and premium, if any, and the interest on bonds and BANs shall be payable in lawful money of the United States of America. Bonds and BANs may be certificated or uncertificated as determined by the Treasury Board. The Treasury Board may contract for services of such registrars, transfer agents, or other authenticating agents as it deems appropriate to maintain a record of the persons entitled to the bonds and BANs. Bonds and BANs issued in certificated form may be issued under a system of book entry for recording the ownership and transfer of ownership of rights to receive payments on the bonds and BANs. The Treasury Board shall fix the authorized denomination or denominations of the bonds and the place or places of payment of certificated bonds and BANs, which may be at the Office of the State Treasurer or at any bank or trust company within or without the Commonwealth. Bonds shall mature at such time or times not exceeding thirty years from their date or dates, and BANs shall mature at such time or times not exceeding five years from their date or dates.

The Treasury Board may sell bonds and BANs in such manner, by competitive bidding, negotiated sale, or private placement and for such price or within such price parameters as it may determine, by and with the consent of the Governor, to be in the best interest of the Commonwealth.

In the discretion of the Treasury Board, bonds and BANs may be issued at one time or from time to time, and may be sold and issued at the same time with other general obligation bonds and BANs, respectively, of the Commonwealth authorized pursuant to Article X, Section 9 (a) (3), (b), and (c) of the Constitution of Virginia, as separate issues or as a combined issue, designated "Commonwealth of Virginia General Obligation Bonds Bond Anticipation Notes, Series".

§ 5. Execution of bonds and BANs.

Certificated bonds and BANs shall be signed on behalf of the Commonwealth by the Governor and by the State Treasurer, or shall bear their facsimile signatures, and shall bear the lesser seal of the Commonwealth or a facsimile thereof. If the bonds or BANs bear the facsimile signature of the State Treasurer, they shall be signed by such administrative assistant as the State Treasurer shall determine or by such registrar or paying agent as may be designated to sign them by the Treasury Board. If any officer whose signature or facsimile signature appears on any bonds or BANs ceases to be such officer before delivery, such signature or facsimile signature shall nevertheless be valid and sufficient for all purposes the same as if such officer had remained in office until such delivery, and any bond or BAN may bear the facsimile signature of, or may be signed by, such persons as at the actual time of execution are the proper officers to sign such bond or BAN although, at the date of such bond or BAN, such persons may not have been such officers.

§ 6. Sources for payment of expenses.

All expenses incurred under this act shall be paid from the proceeds of bonds or BANs, from payments made by the institutions for which the capital projects were authorized in § 2 hereof or from any other available funds as the Treasury Board shall determine.

§ 7. Revenues.

The institution of higher learning named above is hereby authorized (i) to fix, revise, charge, and collect rates, fees, and charges for or in connection with the use, occupancy, and services of each capital project mentioned above or the system of which such capital project is a part and (ii) to pledge to the portion of the bonds or BANs issued for such capital project the net revenues resulting from such rates, fees, and charges and remaining after payment of the expenses of operating the project or system, as the case may be. The institution is further authorized to create debt service and sinking funds for the payments of the principal of, premium, if any, and interest on the bonds and other reserves required by any agency of the United States of America purchasing the bonds or any portion thereof.

§ 8. Investments and contracts.

A. Pending the application of the proceeds of the bonds or BANs (including refunding bonds and BANs) to the purpose for which they have been authorized and the application of funds set aside for the purpose to the payment of bonds or BANs, they may be invested by the State Treasurer in securities that are legal investments under the laws of the Commonwealth for public funds and sinking funds, as the case may be. Whenever the State Treasurer receives interest from the investment of the proceeds of bonds or any BANs, such interest shall become a part of the principal of the bonds or any BANs and shall be used in the same manner as required for principal of the bonds or BANs.

B. The Commonwealth may enter into any contract or other arrangement that is determined to be necessary or appropriate to place the obligation or investment of the Commonwealth, as represented by bonds, BANs, or investments, in whole or in part, on the interest rate, cash flow, or other basis desired by the Commonwealth. Such contract or other arrangement may include, without limitation, contracts commonly known as interest rate swap agreements, and futures or contracts providing for payments based on levels of, or changes in, interest rates. These contracts or arrangements may be entered into by the Commonwealth in connection with, or incidental to, entering into, or maintaining any (i) agreement which secures bonds or BANs or (ii) investment, or contract providing for investment, otherwise authorized by law. These contracts and arrangements may contain such payment, security, default, remedy, and other terms and conditions as determined by the Commonwealth, after giving due consideration to the creditworthiness of the counterparty or other obligated party, including any rating by any nationally recognized rating agency, and any other criteria as may be

appropriate. The determinations referred to in this paragraph may be made by the Treasury Board or any public funds manager with professional investment capabilities duly authorized by the Treasury Board to make such determinations.

C. Any money set aside and pledged to secure payments of bonds, BANs, or any of the contracts entered into pursuant to this section may be invested in accordance with paragraph A of this section and may be pledged to and used to service any of the contracts or other arrangements entered into pursuant to paragraph B of this section.

§ 9. Security for bonds and BANs.

The net revenues of the capital projects set forth above and the full faith and credit of the Commonwealth are hereby irrevocably pledged for the payment of the principal of and the interest on bonds and BANs (unless the Treasury Board, by and with the consent of the Governor, shall provide otherwise) issued under this act. The proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds, and (iii) refunding BANs are hereby irrevocably pledged for the payment of principal of and interest and any premium on the BANs or bonds to be paid or redeemed thereby. In the event the net revenues pledged to the payment of the bonds or BANs are insufficient in any fiscal year for the timely payment of the principal of, premium, if any, and interest on the bonds or BANs, where the full faith and credit of the Commonwealth have been pledged, the General Assembly shall appropriate a sum sufficient therefor or the Governor shall direct payment therefor from the general fund revenues of the Commonwealth.

§ 10. Exemption of interest from tax.

The bonds and BANs issued under the provisions of this act, their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any county, city, or town or other political subdivision thereof. The Treasury Board is authorized to take or refrain from taking any and all actions and to covenant to such effect, and to require the participating institutions to do and to covenant likewise, to the extent that, in the judgment of the Treasury Board, it is appropriate in order that interest on the bonds and BANs may be exempt from federal income tax. Alternatively, interest on bonds and BANs may be made subject to inclusion in gross income of the holders thereof for federal income tax purposes.

§ 11. Refunding bonds and BANs.

The Treasury Board is authorized, by and with the consent of the Governor, to sell and issue, at one time or from time to time, refunding bonds and BANs of the Commonwealth, to refund any or all of the bonds and BANs, respectively, issued under this act or otherwise authorized pursuant to Article X, Section 9 (c) of the Constitution of Virginia. Refunding bonds and BANs may be issued in a principal amount up to the amount necessary to pay at maturity or redeem the bonds and BANs to be refunded and pay all issuance costs and other financing expenses of the refunding. Such refunding bonds and BANs may be issued whether or not the obligations to be refunded are then subject to redemption.

§ 12. Defeasance.

Any bond or BAN for which cash or direct obligations of the United States of America shall have been set aside in escrow with the State Treasurer or a bank or trust company, within or without the Commonwealth, shall be deemed no longer outstanding under the applicable authorizing instrument, this act and Article X, Section 9 (b) or (c), as the case may be, of the Constitution of Virginia.

§ 13. Severability.

The provisions of this act or the application thereof to any person or circumstance which are held invalid shall not affect the validity of other provisions or applications of this act which can be given effect without the invalid provisions or applications.

2. That an emergency exists and this act is in force from its passage.

4. At the option of the seller or his authorized agent, an additional hard copy of the resale certificate, a fee not to exceed \$25 per hard copy;
5. At the option of the seller or his authorized agent, a fee not to exceed an amount equal to the actual cost paid to a third-party commercial delivery service for hand delivery or overnight delivery of the resale certificate; and
6. A post-closing fee to the purchaser of the unit, collected at settlement, for the purpose of establishing the purchaser as the owner of the unit in the records of the unit owners' association, a fee not to exceed \$50.

Neither the unit owners' association nor its common interest community manager shall require cash, check, certified funds, or credit card payments at the time the request for the resale certificate is made. The resale certificate shall state that all fees and costs for the resale certificate shall be the personal obligation of the unit owner and shall be an assessment against the unit and collectible as any other assessment in accordance with the provisions of the condominium instruments and § 55-79.83, if not paid at settlement or within 45 days of the delivery of the resale certificate, whichever occurs first.

For purposes of this section, an expedite fee shall only be charged if the inspection and preparation of delivery of the resale certificate are completed within five business days of the request for a resale certificate.

C. No fees other than those specified in this section, and as limited by this section, shall be charged by the unit owners' association or its common interest community manager for compliance with the duties and responsibilities of the unit owners' association under this section. *No additional fee shall be charged for access to the unit owners' association's or common interest community manager's website.* The unit owners' association or its common interest community manager shall publish and make available in paper or electronic format, or both, a schedule of the applicable fees so that the seller or his authorized agent will know such fees at the time of requesting the resale certificate.

D. Any fees charged pursuant to this section shall be collected at the time settlement occurs on the sale of the unit and shall be due and payable out of the settlement proceeds in accordance with this section. The seller shall be responsible for all costs associated with the preparation and delivery of the resale certificate, except for the costs of any resale certificate update or financial update, which costs shall be the responsibility of the requestor, payable at settlement. Neither the unit

owners' association nor its common interest community manager shall require cash, check, certified funds, or credit card payments at the time the request is made for the resale certificate.

E. If settlement does not occur within 45 days of the delivery of the resale certificate, or funds are not collected at settlement and disbursed to the unit owners' association or the common interest community manager, all fees, including those costs that would have otherwise been the responsibility of the purchaser or settlement agent, shall be (i) assessed within one year after delivery of the resale certificate against the unit owner, (ii) the personal obligation of the unit owner, and (iii) an assessment against the unit and collectible as any other assessment in accordance with the provisions of the condominium instruments and § 55-79.83. The seller may pay the unit owners' association by cash, check, certified funds, or credit card, if credit card payment is an option offered by the unit owners' association. The unit owners' association shall pay the common interest community manager the amount due from the unit owner within 30 days after invoice.

F. The maximum allowable fees charged in accordance with this section shall adjust every five years, as of January 1 of that year, in an amount equal to the annual increases for that five-year period in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the U.S. Department of Labor.

G. If a resale certificate has been issued within the preceding 12-month period, a person specified in the written instructions of the seller or his authorized agent, including the seller or his authorized agent or the purchaser or his authorized agent, may request a resale certificate update. The requestor shall specify whether the resale certificate update shall be delivered electronically or in hard copy and shall specify the complete contact information of the parties to whom the update shall be delivered. The resale certificate update shall be delivered within 10 days of the written request.

H. The settlement agent may request a financial update. The requestor shall specify whether the financial update shall be delivered electronically or in hard copy and shall specify the complete contact information of the parties to whom the update shall be delivered. The financial update shall be delivered within three business days of the written request.

I. A reasonable fee for the resale certificate update or financial update may be charged by the preparer, not to exceed \$50. At the option of the purchaser or his authorized agent, the requestor may request that the unit owners' association or the common interest community manager perform an additional inspection of the unit, as authorized in the declaration, for a fee not to exceed \$100. Any fees charged for the specified update shall be collected at the time settlement occurs on the sale of the property. Neither the unit owners' association nor its common interest community manager, if any, shall require cash, check, certified funds, or credit card payments at the time the request is made for the resale certificate update. The requestor may request that the specified update be provided in hard copy or in electronic form.

J. No unit owners' association or common interest community manager may require the requestor to request the specified update electronically. The seller or his authorized agent shall continue to have the right to request a hard copy of the specified update in person at the principal place of business of the unit owners' association. If the requestor asks that the specified update be provided in electronic format, neither the unit owners' association nor its common interest community manager may require the requestor to pay any fees to use the provider's electronic network or system. A copy of the specified update shall be provided to the seller or his authorized agent.

K. When a resale certificate has been delivered as required by § 55-79.97, the unit owners' association shall, as to the purchaser, be bound by the statements set forth therein as to the status of the assessment account and the status of the unit with respect to any violation of the condominium instruments as of the date of the statement unless the purchaser had actual knowledge that the contents of the resale certificate were in error.

L. If the unit owners' association or its common interest community manager has been requested in writing to furnish the resale certificate required by § 55-79.97, failure to provide the resale certificate substantially in the form provided in this section shall be deemed a waiver of any claim for delinquent assessments or of any violation of the declaration, bylaws, rules and regulations, or architectural guidelines existing as of the date of the request with respect to the subject unit. The preparer of the resale certificate shall be liable to the seller in an amount equal to the actual damages sustained by the seller in an amount not to exceed \$1,000. The purchaser shall nevertheless be obligated to abide by the condominium instruments, rules and regulations, and architectural guidelines of the unit owners' association as to all matters arising after the date of the settlement of the sale.

§ 55-509.3. Association charges.

Except as expressly authorized in this chapter, in the declaration, or otherwise provided by law, no association may (i) make an assessment or impose a charge against a lot or a lot owner unless the charge is a fee for services provided or related to use of the common area or (ii) charge a fee related to the provisions set out in § 55-509.6 or 55-509.7 that is not expressly authorized in those sections. *Nothing in this chapter shall be construed to authorize an association or common interest community manager to charge an inspection fee for an unimproved or improved lot except as provided in § 55-509.6 or 55-509.7.*

§ 55-509.4. Contract disclosure statement; right of cancellation.

A. Subject to the provisions of subsection A of § 55-509.10, a person selling a lot shall disclose in the contract that (i) the lot is located within a development that is subject to the Virginia Property Owners' Association Act (§ 55-508 et seq.); (ii) the Act requires the seller to obtain from the property owners' association an association disclosure packet and provide it to the purchaser; (iii) the purchaser may cancel the contract within three days after receiving the association disclosure packet or being notified that the association disclosure packet will not be available; (iv) if the purchaser has received the association disclosure packet, the purchaser has a right to request an update of such disclosure packet in

accordance with subsection H of § 55-509.6 or subsection C of § 55-509.7, as appropriate; and (v) the right to receive the association disclosure packet and the right to cancel the contract are waived conclusively if not exercised before settlement.

For purposes of clause (iii), the association disclosure packet shall be deemed not to be available if (a) a current annual report has not been filed by the association with either the State Corporation Commission pursuant to § 13.1-936 or with the Common Interest Community Board pursuant to § 55-516.1, (b) the seller has made a written request to the association that the packet be provided and no such packet has been received within 14 days in accordance with subsection A of § 55-509.5, or (c) written notice has been provided by the association that a packet is not available.

B. If the contract does not contain the disclosure required by subsection A, the purchaser's sole remedy is to cancel the contract prior to settlement.

C. The information contained in the association disclosure packet shall be current as of a date specified on the association disclosure packet prepared in accordance with this section; however, a disclosure packet update or financial update may be requested in accordance with subsection H of § 55-509.6 or subsection C of § 55-509.7, as appropriate. The purchaser may cancel the contract: (i) within three days after the date of the contract, if on or before the date that the purchaser signs the contract, the purchaser receives the association disclosure packet or is notified that the association disclosure packet will not be available; (ii) within three days after receiving the association disclosure packet if the association disclosure packet or notice that the association disclosure packet will not be available is hand delivered ~~or~~ delivered by electronic means, *or delivered by a commercial overnight delivery service or the United Parcel Service*, and a receipt obtained; or (iii) within six days after the postmark date if the association disclosure packet or notice that the association disclosure packet will not be available is sent to the purchaser by United States mail. The purchaser may also cancel the contract at any time prior to settlement if the purchaser has not been notified that the association disclosure packet will not be available and the association disclosure packet is not delivered to the purchaser. Notice of cancellation shall be provided to the lot owner or his agent by one of the following methods:

1. Hand delivery;
2. United States mail, postage prepaid, provided the sender retains sufficient proof of mailing, which may be either a United States postal certificate of mailing or a certificate of service prepared by the sender confirming such mailing;
3. Electronic means provided the sender retains sufficient proof of the electronic delivery, which may be an electronic receipt of delivery, a confirmation that the notice was sent by facsimile, or a certificate of service prepared by the sender confirming the electronic delivery; or
4. Overnight delivery using a commercial service or the United States Postal Service.

In the event of a dispute, the sender shall have the burden to demonstrate delivery of the notice of cancellation. Such cancellation shall be without penalty, and the seller shall cause any deposit to be returned promptly to the purchaser.

D. Whenever any contract is canceled based on a failure to comply with subsection A or C or pursuant to subsection B, any deposit or escrowed funds shall be returned within 30 days of the cancellation, unless the parties to the contract specify in writing a shorter period.

E. Any rights of the purchaser to cancel the contract provided by this chapter are waived conclusively if not exercised prior to settlement.

F. Except as expressly provided in this chapter, the provisions of this section and § 55-509.5 may not be varied by agreement, and the rights conferred by this section and § 55-509.5 may not be waived.

§ 55-509.6. Fees for disclosure packet; professionally managed associations.

A. A professionally managed association or its common interest community manager may charge certain fees as authorized by this section for the inspection of the property, the preparation and issuance of the disclosure packet required by § 55-509.5, and for such other services as set out in this section. The seller or his authorized agent shall specify *in writing* whether the disclosure packet shall be delivered electronically or in hard copy, *at the option of the seller or his authorized agent*, and shall specify the complete contact information for the parties to whom the disclosure packet shall be delivered. If the seller or his authorized agent specifies that delivery shall be made to the purchaser or his authorized agent or settlement agent, the preparer shall provide the disclosure packet directly to the designated persons, at the same time it is delivered to the seller or his authorized agent.

B. A reasonable fee may be charged by the preparer as follows for:

1. The inspection of the exterior of the dwelling unit and the lot, as authorized in the declaration and as required to prepare the association disclosure packet, a fee not to exceed \$100;
2. The preparation and delivery of the disclosure packet in (i) paper format, a fee not to exceed \$150 for no more than two hard copies or (ii) electronic format, a fee not to exceed *a total of \$125 for no more than two an electronic copies copy to each of the following named in the request: the seller, the seller's authorized agent, the purchaser, the purchaser's authorized agent, and not more than one other person designated by the requestor*. Only one fee shall be charged for the preparation and delivery of the disclosure packet;
3. At the option of the seller or his authorized agent, with the consent of the association or the common interest community manager, expediting the inspection, preparation and delivery of the disclosure packet, an additional expedite fee not to exceed \$50;
4. At the option of the seller or his authorized agent, an additional hard copy of the disclosure packet, a fee not to exceed \$25 per hard copy;

5. At the option of the seller or his authorized agent, a fee not to exceed an amount equal to the actual cost paid to a third-party commercial delivery service for hand delivery or overnight delivery of the association disclosure packet; and

6. A post-closing fee to the purchaser of the property, collected at settlement, for the purpose of establishing the purchaser as the owner of the property in the records of the association, a fee not to exceed \$50.

Except as otherwise provided in subsection E, neither the association nor its common interest community manager shall require cash, check, certified funds or credit card payments at the time the request for the disclosure packet is made. The disclosure packet shall state that all fees and costs for the disclosure packet shall be the personal obligation of the lot owner and shall be an assessment against the lot and collectible as any other assessment in accordance with the provisions of the declaration and § 55-516, if not paid at settlement or within 45 days of the delivery of the disclosure packet, whichever occurs first.

For purposes of this section, an expedite fee shall only be charged if the inspection and preparation of delivery of the disclosure packet are completed within five business days of the request for a disclosure packet.

C. No fees other than those specified in this section, and as limited by this section, shall be charged by the association or its common interest community manager for compliance with the duties and responsibilities of the association under this chapter. *No additional fee shall be charged for access to the association's or common interest community manager's website.* The association or its common interest community manager shall publish and make available in paper or electronic format, or both, a schedule of the applicable fees so the seller or his authorized agent will know such fees at the time of requesting the packet.

D. Any fees charged pursuant to this section shall be collected at the time of settlement on the sale of the lot and shall be due and payable out of the settlement proceeds in accordance with this section. The seller shall be responsible for all costs associated with the preparation and delivery of the association disclosure packet, except for the costs of any disclosure packet update or financial update, which costs shall be the responsibility of the requestor, payable at settlement. Neither the association nor its common interest community manager shall require cash, check, certified funds, or credit card payments at the time of the request is made for the association disclosure packet.

E. If settlement does not occur within 45 days of the delivery of the disclosure packet, or funds are not collected at settlement and disbursed to the association or the common interest community manager, all fees, including those costs that would have otherwise been the responsibility of the purchaser or settlement agent, shall be (i) assessed within one year after delivery of the disclosure packet against the lot owner, (ii) the personal obligation of the lot owner, and (iii) an assessment against the lot and collectible as any other assessment in accordance with the provisions of the declaration and § 55-516. The seller may pay the association by cash, check, certified funds, or credit card, if credit card payment is an option offered by the association. The association shall pay the common interest community manager the amount due from the lot owner within 30 days after invoice.

F. The maximum allowable fees charged in accordance with this section shall adjust every five years, as of January 1 of that year, in an amount equal to the annual increases for that five-year period in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the U.S. Department of Labor.

G. If an association disclosure packet has been issued for a lot within the preceding 12-month period, a person specified in the written instructions of the seller or his authorized agent, including the seller or his authorized agent, or the purchaser or his authorized agent may request a disclosure packet update. The requestor shall specify whether the disclosure packet update shall be delivered electronically or in hard copy, and shall specify the complete contact information of the parties to whom the update shall be delivered. The disclosure packet update shall be delivered within 10 days of the written request.

H. The settlement agent may request a financial update. The requestor shall specify whether the financial update shall be delivered electronically or in hard copy, and shall specify the complete contact information of the parties to whom the update shall be delivered. The financial update shall be delivered within three business days of the written request.

I. A reasonable fee for the disclosure packet update or financial update may be charged by the preparer not to exceed \$50. At the option of the purchaser or his authorized agent, the requestor may request that the association or the common interest community manager perform an additional inspection of the exterior of the dwelling unit and the lot, as authorized in the declaration, for a fee not to exceed \$100. Any fees charged for the specified update shall be collected at the time settlement occurs on the sale of the property. Neither the association nor its common interest community manager, if any, shall require cash, check, certified funds, or credit card payments at the time the request is made for the disclosure packet update. The requestor may request that the specified update be provided in hard copy or in electronic form.

J. No association or common interest community manager may require the requestor to request the specified update electronically. The seller or his authorized agent shall continue to have the right to request a hard copy of the specified update in person at the principal place of business of the association. If the requestor asks that the specified update be provided in electronic format, neither the association nor its common interest community manager may require the requestor to pay any fees to use the provider's electronic network or system. A copy of the specified update shall be provided to the seller or his authorized agent.

K. When an association disclosure packet has been delivered as required by § 55-509.5, the association shall, as to the purchaser, be bound by the statements set forth therein as to the status of the assessment account and the status of the lot with respect to any violation of the declaration, bylaws, rules and regulations, architectural guidelines and articles of

incorporation, if any, of the association as of the date of the statement unless the purchaser had actual knowledge that the contents of the disclosure packet were in error.

L. If the association or its common interest community manager has been requested in writing to furnish the association disclosure packet required by § 55-509.5, failure to provide the association disclosure packet substantially in the form provided in this section shall be deemed a waiver of any claim for delinquent assessments or of any violation of the declaration, bylaws, rules and regulations, or architectural guidelines existing as of the date of the request with respect to the subject lot. The preparer of the association disclosure packet shall be liable to the seller in an amount equal to the actual damages sustained by the seller in an amount not to exceed \$1,000. The purchaser shall nevertheless be obligated to abide by the declaration, bylaws, rules and regulations, and architectural guidelines of the association as to all matters arising after the date of the settlement of the sale.

CHAPTER 217

An Act to amend and reenact § 2.2-4302.2, as it shall become effective, of the Code of Virginia, relating to the Virginia Public Procurement Act; competitive negotiation; limitation of certain term contracts; exception.

[H 948]

Approved March 7, 2014

Be it enacted by the General Assembly of Virginia:

1. That § 2.2-4302.2, as it shall become effective, of the Code of Virginia is amended and reenacted as follows:

§ 2.2-4302.2. (Effective July 1, 2014) Process for competitive negotiation.

A. The process for competitive negotiation shall include the following:

1. Issuance of a written Request for Proposal indicating in general terms that which is sought to be procured, specifying the factors that will be used in evaluating the proposal and containing or incorporating by reference the other applicable contractual terms and conditions, including any unique capabilities, specifications or qualifications that will be required;

2. Public notice of the Request for Proposal at least 10 days prior to the date set for receipt of proposals by posting on the Department of General Services' central electronic procurement website or other appropriate websites. Additionally, public bodies shall publish in a newspaper of general circulation in the area in which the contract is to be performed so as to provide reasonable notice to the maximum number of offerors that can be reasonably anticipated to submit proposals in response to the particular request. Posting on the Department of General Services' central electronic procurement website shall be required of any state public body. Local public bodies are encouraged to utilize the Department of General Services' central electronic procurement website to provide the public with centralized visibility and access to the Commonwealth's procurement opportunities. In addition, proposals may be solicited directly from potential contractors. Any additional solicitations shall include certified businesses selected from a list made available by the Department of Small Business and Supplier Diversity; and

3. For goods, nonprofessional services, and insurance, selection shall be made of two or more offerors deemed to be fully qualified and best suited among those submitting proposals, on the basis of the factors involved in the Request for Proposal, including price if so stated in the Request for Proposal. Negotiations shall then be conducted with each of the offerors so selected. Price shall be considered, but need not be the sole or primary determining factor. After negotiations have been conducted with each offeror so selected, the public body shall select the offeror which, in its opinion, has made the best proposal and provides the best value, and shall award the contract to that offeror. When the terms and conditions of multiple awards are so provided in the Request for Proposal, awards may be made to more than one offeror. Should the public body determine in writing and in its sole discretion that only one offeror is fully qualified, or that one offeror is clearly more highly qualified than the others under consideration, a contract may be negotiated and awarded to that offeror; or

4. For professional services, the public body shall engage in individual discussions with two or more offerors deemed fully qualified, responsible and suitable on the basis of initial responses and with emphasis on professional competence, to provide the required services. Repetitive informal interviews shall be permissible. The offerors shall be encouraged to elaborate on their qualifications and performance data or staff expertise pertinent to the proposed project, as well as alternative concepts. In addition, offerors shall be informed of any ranking criteria that will be used by the public body in addition to the review of the professional competence of the offeror. The Request for Proposal shall not, however, request that offerors furnish estimates of man-hours or cost for services. At the discussion stage, the public body may discuss nonbinding estimates of total project costs, including, but not limited to, life-cycle costing, and where appropriate, nonbinding estimates of price for services. In accordance with § 2.2-4342, proprietary information from competing offerors shall not be disclosed to the public or to competitors. At the conclusion of discussion, outlined in this subdivision, on the basis of evaluation factors published in the Request for Proposal and all information developed in the selection process to this point, the public body shall select in the order of preference two or more offerors whose professional qualifications and proposed services are deemed most meritorious.

Negotiations shall then be conducted, beginning with the offeror ranked first. If a contract satisfactory and advantageous to the public body can be negotiated at a price considered fair and reasonable, the award shall be made to that offeror. Otherwise, negotiations with the offeror ranked first shall be formally terminated and negotiations conducted with the offeror ranked second, and so on until such a contract can be negotiated at a fair and reasonable price.

Notwithstanding the foregoing, if the terms and conditions for multiple awards are included in the Request for Proposal, a public body may award contracts to more than one offeror.

Should the public body determine in writing and in its sole discretion that only one offeror is fully qualified or that one offeror is clearly more highly qualified and suitable than the others under consideration, a contract may be negotiated and awarded to that offeror.

B. For multiple projects, a contract for architectural or professional engineering services relating to construction projects, or a contract for job order contracting, may be negotiated by a public body, provided (i) the projects require similar experience and expertise, (ii) the nature of the projects is clearly identified in the Request for Proposal, and (iii) the contract is limited to a one-year term or when the cumulative total project fees reach the maximum cost authorized in this subsection, whichever occurs first.

Such contracts may be renewable for four additional one-year terms at the option of the public body. The fair and reasonable prices as negotiated shall be used in determining the cost of each project performed and the sum of all projects performed in a one-year contract term shall not exceed \$500,000, except that for:

1. A state agency, as defined in § 2.2-4347, the sum of all projects performed in a one-year contract term shall not exceed \$1 million as may be determined by the Director of the Department of General Services;

2. Any locality or any authority, sanitation district, metropolitan planning organization or planning district commission with a population in excess of 80,000, or any city within Planning District 8, the sum of all projects performed in a one-year contract term shall not exceed \$5 million and those awarded for any airport as defined in § 5.1-1 and aviation transportation projects, the sum of all such projects shall not exceed \$1.5 million;

3. Architectural and engineering services for rail and public transportation projects by the Director of the Department of Rail and Public Transportation, the sum of all projects in a one-year contract term shall not exceed \$2 million. Such contract may be renewable for two additional one-year terms at the option of the Director;

4. Environmental, location, design, and inspection work regarding highways and bridges by the Commissioner of Highways, the initial contract term shall be limited to two years or when the cumulative total project fees reach \$5 million, whichever occurs first. Such contract may be renewable for two additional one-year terms at the option of the Commissioner, and the sum of all projects in each one-year contract term shall not exceed \$5 million; and

5. Job order contracting, the sum of all projects performed in a one-year contract term shall not exceed \$2 million.

Competitive negotiations for such contracts may result in awards to more than one offeror provided (i) the Request for Proposal so states and (ii) the public body has established procedures for distributing multiple projects among the selected contractors during the contract term.

C. For any single project, for (i) architectural or professional engineering services relating to construction projects, or (ii) job order contracting, the project fee shall not exceed \$100,000, or for architectural or engineering services for airports as defined in § 5.1-1 and aviation transportation projects, the project fee of any single project shall not exceed \$500,000, except that for:

1. A state agency as defined in § 2.2-4347, the project fee shall not exceed \$200,000, as may be determined by the Director of the Department of General Services;

2. Any locality or any authority or sanitation district with a population in excess of 80,000, or any city within Planning District 8, the project fee shall not exceed \$2 million; and

3. Job order contracting, the project fee shall not exceed \$400,000.

The limitations imposed upon single project fees pursuant to this subsection shall not apply to environmental, location, design, and inspection work regarding highways and bridges by the Commissioner of Highways or architectural and engineering services for rail and public transportation projects by the Director of the Department of Rail and Public Transportation.

D. For the purposes of subsections B and C, any unused amounts from the first contract term shall not be carried forward to the additional term.

E. Multiphase professional services contracts satisfactory and advantageous to the completion of large, phased, or long term projects may be negotiated and awarded based on a fair and reasonable price for the first phase only, where the completion of the earlier phases is necessary to provide information critical to the negotiation of a fair and reasonable price for succeeding phases. Prior to the entering into any such contract, the public body shall (i) state the anticipated intended total scope of the project and (ii) determine in writing that the nature of the work is such that the best interests of the public body require awarding the contract.

CHAPTER 218

An Act to amend and reenact §§ 25.1-401, 25.1-409, and 25.1-410 of the Code of Virginia, relating to Relocation Assistance and Real Property Acquisition Policies; replacement housing for homeowners and tenants.

[H 990]

Approved March 7, 2014

Be it enacted by the General Assembly of Virginia:

1. That §§ 25.1-401, 25.1-409, and 25.1-410 of the Code of Virginia are amended and reenacted as follows:

§ 25.1-401. Scope of chapter.

A. The provisions of this chapter shall be applicable to the acquisition of real property by any locality defined as a state agency for purposes of this chapter, notwithstanding the provisions of the locality's charter.

B. ~~Unless~~ *Subject to the provisions of subsection C, unless* compliance with the provisions of this chapter is a prerequisite to the receipt and expenditure of federal funds on the projects for which property is acquired, this chapter shall not apply to acquisitions by a state agency (i) that are voluntarily initiated or negotiated by the seller under no threat of condemnation, (ii) where property is dedicated pursuant to the provisions of Chapter 22 (§ 15.2-2200 et seq.) of Title 15.2, or (iii) where property is voluntarily dedicated or donated for no consideration.

C. In the case of transportation projects funded in whole or in part with state or federal funds, unless compliance with the provisions of this chapter would jeopardize the receipt and expenditure of all or a portion of federal funds that would otherwise be available for transportation projects for which property is acquired or for reimbursement of the benefits provided for in this chapter, this chapter shall apply to acquisitions for such transportation projects by the Department of Transportation and any other state agency that are voluntarily initiated or negotiated by the seller under no threat of condemnation.

§ 25.1-409. Replacement housing for homeowners.

A. In addition to payments otherwise authorized by this chapter, the state agency shall make an additional payment not to exceed ~~\$22,500~~ \$31,000 to any displaced person who is displaced from a dwelling actually owned and occupied by such displaced person for not less than ~~180~~ 90 days ~~prior to~~ before the initiation of negotiations for the acquisition of the property. Such additional payment shall include the following elements:

1. The amount, if any, that when added to the acquisition cost of the dwelling acquired by the state agency, equals the reasonable cost of a comparable replacement dwelling;

2. The amount, if any, that will compensate the displaced person for any increased interest costs and other debt service costs that such person is required to pay for financing the acquisition of any comparable replacement dwelling. The amount for any increased interest or debt service costs shall be (i) determined in accordance with the criteria established by the state agency and (ii) paid only if the dwelling acquired by the state agency was encumbered by a bona fide mortgage that was a valid lien on such dwelling for not less than 180 days immediately prior to the initiation of negotiations for the acquisition of such dwelling; and

3. Reasonable expenses incurred by such displaced person for evidence of title, recording fees, and other closing costs incident to the purchase of the comparable replacement dwelling, but not including prepaid expenses.

B. The additional payment authorized by this section shall be made only to such a displaced person who purchases and occupies a decent, safe, and sanitary replacement dwelling not later than the end of the one-year period beginning on the later of (i) the date on which he receives final payment of all costs for the acquired dwelling or (ii) the date on which the state agency obligation under § 25.1-414 is met. However, the state agency may extend such period for good cause. If such period is extended, the payment under this section shall be based on the cost of relocating the person to a comparable replacement dwelling within one year of such date.

§ 25.1-410. Replacement housing for tenants.

A. In addition to amounts otherwise authorized by this article, a state agency shall make a payment to or for any displaced person displaced from any dwelling not eligible to receive a payment under § 25.1-409 which dwelling was actually and lawfully occupied by such displaced person for not less than 90 days immediately prior to (i) the initiation of negotiations for acquisition of the dwelling or (ii) if the displacement is not a direct result of acquisition, such other event as the state agency shall prescribe. Such payment shall consist of the amount necessary to enable such displaced person to lease or rent, for a period not to exceed 42 months, a comparable replacement dwelling, but not to exceed ~~\$5,250~~ \$7,200. At the discretion of the state agency, a payment under this subsection may be made in periodic installments. Computation of a payment under this subsection to a low-income displaced person for a comparable replacement dwelling shall take into account such person's income.

B. Any person eligible for a payment under subsection A may elect to apply such payment to a down payment on, and other incidental expenses pursuant to, the purchase of a decent, safe, and sanitary replacement dwelling. CHAPTER 222

An Act to amend and reenact § 59.1-21.9 of the Code of Virginia and to amend the Code of Virginia by adding a section numbered 59.1-21.15:2, relating to the Virginia Petroleum Products Franchise Act; right of first refusal on leased marketing premises.

[H 1065]

Approved March 7, 2014

Be it enacted by the General Assembly of Virginia:

1. That § 59.1-21.9 of the Code of Virginia is amended and reenacted and that the Code of Virginia is amended by adding a section numbered 59.1-21.15:2 as follows:

§ 59.1-21.9. Findings of General Assembly.

The General Assembly finds and declares that since the distribution and sales through franchise arrangements of petroleum products in the Commonwealth of Virginia vitally affect the economy of the Commonwealth, the public interest, welfare, and transportation, and since the preservation of the rights, responsibilities, and independence of the small businesses in the Commonwealth is essential to economic vitality, it is necessary to define the relationships and responsibilities of the parties to certain agreements pertaining thereto. *Consistent with these findings and declarations, the provisions of § 59.1-21.15:2, which do not relate to the termination or nonrenewal of petroleum franchises governed by federal law, advance the interests of the Commonwealth, and its citizens, by facilitating the purchase of retail service stations by their occupying lessee-franchisees, thereby insuring the motoring public greater access to service stations and petroleum products and furthering a more dynamic and full-service-oriented retail marketplace, while also considering the interests of the franchisor and, if applicable, the property owner, with regard to such service station premises.*

§ 59.1-21.15:2. Franchisor's obligation to offer leased marketing premises to occupying dealer.

A. As used in this section, unless the context requires otherwise:

"Bona fide offer" means an offer by the franchisor to the dealer that approximates the fair market value of the leased marketing premises under an objectively reasonable analysis, and:

1. In the case of the franchisor offering to the dealer a right of first refusal regarding an offer to purchase the marketing premises that has been made to the franchisor by a third party regarding the leased marketing premises, the offer made by such third party shall be a bona fide offer acceptable to the franchisor, and may not be an offer that has been unfairly or improperly established by either the franchisor or the third party offer; or

2. In the case of service station premises that the franchisor leases from a third party, and providing the lease allows the assignment of such lease by the franchisor, the franchisor's lease rights in the station premises shall be transferred or assigned to the dealer, with the franchisor making a bona fide offer with regard to the sale of structures located on the station's premises, including all pumps, dispensers, storage tanks, piping, and all other equipment located upon the premises necessary for the continued operation of a service station.

If the leased marketing premises occupied by a dealer are to be part of a sale of multiple properties owned or controlled by the franchisor, a bona fide offer shall reasonably allocate a portion of the total price for the multiple properties intended to be sold to the leased marketing premises occupied by the dealer in order to allow the dealer to exercise the dealer's right of first refusal regarding the leased marketing premises occupied by the dealer. In making such allocation, the purpose shall be to determine the fair market value of the leased marketing premises under an objectively reasonable analysis.

A bona fide offer shall (i) include the sale of all structures located on the leased marketing premises, including all pumps, dispensers, storage tanks, piping, and all other equipment located upon the premises necessary for the continued operation of a service station if the dealer exercises the dealer's right to buy; (ii) not include a requirement that the dealer enter into a supply agreement with the selling franchisor or with any other party and, to the extent that a bona fide offer acceptable to the franchisor from a third party contains such a supply agreement, it shall not be applicable to the dealer; and (iii) not, unless freely negotiated by the dealer, release the continuing obligations of the franchisor with regard to any environmental obligations regarding the service station premises nor require the dealer to assume such obligations of the franchisor with regard to the dealer's purchase of the premises or acquisition of the franchisor's rights in the premises. In conjunction with the dealer's acquisition of the rights of the franchisor in the leased marketing premises, such environmental tests, surveys, and other due diligence investigations shall be conducted as are customary in such transactions.

"Leased marketing premises" means marketing premises owned, leased, or controlled by a franchisor and that the dealer is authorized or permitted, under the petroleum franchise, to employ, to occupy, or both in connection with the sale, consignment, or distribution of petroleum products.

"Supply agreement" means an agreement, oral or written, under which a party is to supply, and a dealer is required to buy, petroleum products.

B. In the case of leased marketing premises owned by a franchisor, or in which a franchisor owns a leasehold interest, which premises are occupied by a dealer, the franchisor shall not sell, transfer, or assign to another person the franchisor's interest in the premises unless the franchisor has first either made a bona fide offer to sell, transfer, or assign to the dealer the franchisor's interest in the premises, other than signs displaying the refiner's insignia and any other trademarked, service marked, copyrighted, or patented items of the franchisor, or, if applicable, offered to the dealer a right of first refusal of any bona fide offer acceptable to the franchisor made by another person to acquire the franchisor's interest in the premises.

C. Nothing in this section shall be deemed to require a franchisor to continue an existing franchise relationship, or to renew a franchise relationship, if not otherwise required by federal law.

D. Nothing in this section shall be deemed to require a franchisor to continue to supply petroleum products to a dealer if the dealer exercises its right to acquire the interests of the franchisor in the premises.

E. The bona fide offer required to be made to the dealer by the franchisor shall:

1. *Be in writing;*
 2. *Set forth fully and completely all terms and conditions of the offer being made by the franchisor;*
 3. *In the case of a bona fide offer being made by a third party to acquire the interests of the franchisor in the property, which offer is acceptable to the franchisor, also contain a full copy of the proposal of the third party, or the contract or its equivalent between the franchisor and the third party if such a contract exists, to include all schedules, attachments, addenda, or their equivalent; and*
 4. *In the case of leased marketing premises that the franchisor leases from a third party or parties, also contain a full copy of the underlying lease, including all schedules, attachments, addenda, or their equivalent.*
- F. After receipt of the bona fide offer from the franchisor, the dealer shall have a period of not less than 60 days within which to exercise the dealer's rights as established under this section, which exercise shall be effective upon delivering written notice of such exercise to the franchisor. After exercise of the dealer's rights, the closing on, and transfer of, the leased marketing premises shall occur (i) within 60 days after the dealer's exercise of such rights or (ii) on or before the closing date established within the bona fide offer regarding which the dealer has exercised the dealer's right of first refusal under this section, whichever date occurs later.*
- G. The provisions of this section shall apply only to the sale, assignment, or transfer of a franchisor's interest in or to any leased marketing premises located only in Planning District 8, and shall not apply to leased marketing premises owned or controlled by a jobber/distributor.*

Both the grievant and the respondent may call upon witnesses and be represented by legal counsel or other representatives before the court or the commissioner in chancery. Such representatives may examine, cross-examine, question and present evidence on behalf of the grievant or respondent before the court or commissioner in chancery without being in violation of the provisions of § 54.1-3904.

C. A termination shall be upheld unless shown to have been unwarranted by the facts or contrary to law or policy.
