Seasonal or temporary positions, or a job created when a job function is shifted from an existing location in the Commonwealth to the international trade facility, and positions in building and grounds maintenance, security, and other such positions that are ancillary to the principal activities performed by the employees at the international trade facility shall not qualify as new, permanent full-time positions.

The amount of the credit earned pursuant to this section shall be equal to either (i) \$3,500 per qualified full-time employee that results from increased qualified trade activities by the taxpayer or (ii) an amount equal to two percent of the capital investment made by the taxpayer to facilitate the increased qualified trade activities. The election of which tax credit amount to claim shall be the responsibility of the taxpayer. Both tax credits shall not be claimed for the same activities that occur in a calendar year. The portion of the \$3,500 credit earned with respect to any qualified full-time employee who works in the Commonwealth for less than 12 full months during the credit year shall be determined by multiplying the credit amount by a fraction, the numerator of which is the number of full months such employee worked for the international trade facility in the Commonwealth during the credit year and the denominator of which is 12.

C. The Tax Commissioner shall issue tax credits under this section, and in no case shall the Tax Commissioner issue more than ~~\$250,000~~ \$1,250,000 in tax credits pursuant to this section in any fiscal year of the Commonwealth. The Department shall determine the credit amount allowable for the taxable year and shall provide a written certification to the taxpayer, which certification shall report the amount of the tax credit approved by the Department. The taxpayer shall attach the certification to the applicable income tax return.

D. The amount of the credit allowed pursuant to this section shall not exceed 50 percent of the tax imposed for the taxable year. Any remaining credit amount may be carried forward for the next 10 taxable years. In the event a taxpayer who is subject to the limitation imposed pursuant to this subsection is allowed a different tax credit pursuant to another section of the Code, or has a credit carry forward from a preceding taxable year, such taxpayer shall be considered to have first utilized any credit that does not have a carry forward provision, and then any credit carried forward from a preceding taxable year, before using any of the credit allowed pursuant to this section.

E. No credit shall be earned for any employee (i) for whom a credit under this section was previously earned by a related party as defined in § 267(b) of the Internal Revenue Code, as amended, or a trade or business under common control as defined in § 52(b) of the Internal Revenue Code, as amended; (ii) who was previously employed in the same job function in Virginia by a related party as defined in § 267(b) of the Internal Revenue Code, as amended, or a trade or business under common control as defined in § 52(b) of the Internal Revenue Code, as amended; (iii) whose job function was previously performed at a different location in Virginia by an employee of the taxpayer, by a related party as defined in § 267(b) of the Internal Revenue Code, as amended, or by a trade or business under common control as defined in § 52(b) of the Internal Revenue Code, as amended; or (iv) whose job function previously qualified for a credit under this section at a different major business facility, as defined in subsection C of § 58.1-439, on behalf of the taxpayer, by a related party as defined in § 267(b) of the Internal Revenue Code, as amended, or a trade or business under common control as defined in § 52(b) of the Internal Revenue Code, as amended.

F. For purposes of this section, the amount of any credit attributable to a partnership, electing small business corporation (S corporation), or limited liability company shall be allocated to the individual partners, shareholders, or members, respectively, in proportion to their ownership or interest in such business entities.

G. For purposes of this section, two or more affiliated companies may elect to aggregate the number of jobs created for qualified full-time employees or the amounts of capital investments as the result of the establishment or expansion by the individual companies in order to qualify for the credit allowed herein.

H. Recapture of the credit amount, under the following circumstances, shall be accomplished by increasing the tax in any of the five years succeeding the taxable year in which a credit has been earned pursuant to this section if the number of qualified full-time employees falls below the average number of qualified full-time employees during the taxable year. The

tax increase amount shall be determined by (i) recalculating the credit that would have been earned for the original taxable year using the decreased number of qualified full-time employees and (ii) subtracting the recalculated credit amount from the amount previously earned. In the event that the average number of qualified full-time employees employed at an international trade facility falls below the number employed by the taxpayer prior to claiming any credits pursuant to this section in any of the five taxable years succeeding the year in which the credits were earned, all credits earned with respect to the international trade facility shall be recaptured. No credit amount shall be recaptured more than once pursuant to this subsection. Any recapture pursuant to this subsection shall reduce credits earned but not yet allowed, and credits allowed but carried forward, before the taxpayer's tax liability is increased.

For a taxpayer that does not ship that amount in the year ending December 31, 2010, or December 31, 2012, as applicable, including a taxpayer who locates in Virginia after such periods, its base cargo volume will be measured by the initial January 1 through December 31 calendar year in which it meets the requirements of 75 net tons of noncontainerized cargo ~~or~~ 10 loaded TEUs, or 10 *units of roll-on/roll-off cargo*. Base year port cargo volume must be recalculated each calendar year after the initial base year.

B. 1. For taxable years beginning on and after January 1, 2011, but before January 1, 2017, a taxpayer that is an agricultural entity, manufacturing-related entity, or mineral and gas entity that uses port facilities in the Commonwealth and increases its port cargo volume at these facilities by a minimum of five percent in a single calendar year over its base year port cargo volume is eligible to claim a credit against the tax levied pursuant to §§ 58.1-320 and 58.1-400 in an amount determined by the Virginia Port Authority. The Virginia Port Authority may waive the requirement that port cargo volume be increased by a minimum of five percent over base year port cargo volume for any taxpayer that qualifies as a major facility.

2. Qualifying taxpayers that increase their port cargo volume by a minimum of five percent in a qualifying calendar year shall receive a \$50 credit against the tax levied pursuant to §§ 58.1-320 and 58.1-400 for each TEU, *unit of roll-on/roll-off cargo*, or 16 net tons of noncontainerized cargo, as applicable, above the base year port cargo volume. A qualifying taxpayer may not receive more than \$250,000 for each calendar year except as provided for in subdivision C 2. The maximum amount of credits allowed for all qualifying taxpayers pursuant to this section shall not exceed \$3.2 million for each calendar year. The Virginia Port Authority shall allocate the credits pursuant to the provisions in subdivisions C 1 and C 2.

3. If the credit exceeds the taxpayer's tax liability for the taxable year, the excess amount may be carried forward and claimed against income taxes in the next five succeeding taxable years.

4. The credit may be claimed by the taxpayer as provided in subdivision 1 only if the taxpayer owns the cargo at the time the port facilities are used.

C. 1. For every year in which a taxpayer claims the credit, the taxpayer shall submit an application to the Virginia Port Authority by March 1 of the calendar year after the calendar year in which the increase in port cargo volume occurs. The taxpayer shall attach a schedule to the taxpayer's application to the Virginia Port Authority with the following information and any other information requested by the Virginia Port Authority or the Department:

a. A description of how the base year port cargo volume and the increase in port cargo volume were determined;

b. The amount of the base year port cargo volume;

c. The amount of the increase in port cargo volume for the taxable year stated both as a percentage increase and as a total increase in net tons of noncontainerized cargo ~~and~~ TEUs of cargo, and *units of roll-on/roll-off cargo*, as applicable, including information that demonstrates an increase in port cargo volume in excess of the minimum amount required to claim the tax credits pursuant to this section;

d. Any tax credit utilized by the taxpayer in prior years; and

e. The amount of tax credit carried over from prior years.

2. If on March 15 of each year the \$3.2 million amount of credit is not fully allocated among qualifying taxpayers, then those taxpayers who have been allocated a credit for the prior year shall be allowed a pro rata share of the remaining

allocated credit up to \$3.2 million. If on March 15 of each year, the cumulative amount of tax credits requested by qualifying taxpayers for the prior year exceeds \$3.2 million, then the \$3.2 million in credits shall be prorated among the qualifying taxpayers who requested the credit.

3. The taxpayer shall claim the credit on its income tax return in a manner prescribed by the Department. The Department may require a copy of the certification form issued by the Virginia Port Authority be attached to the return or otherwise provided. *Qualifying taxpayers may also claim the credit pursuant to § 58.1-439.12:09 for the same containers, noncontainerized cargo, or roll-on/roll-off units of cargo for which a credit is claimed under this section provided such taxpayer meets the applicable criteria set forth therein.*

D. Credits granted to a partnership, limited liability company, or electing small business corporation (S corporation) shall be allocated to the individual partners, members, or shareholders, respectively, in proportion to their ownership interests in such business entities.

2. That the provisions of this act shall be applicable to taxable years beginning on or after January 1, 2014, to the Commonwealth's 2014-2015 fiscal year, and to all fiscal years thereafter.

Each health regulatory board shall appoint one such designee.
9. To take appropriate disciplinary action for violations of applicable law and regulations, and to accept, in their discretion, the surrender of a license, certificate, registration or multistate licensure privilege in lieu of disciplinary action.
10. The special conference committee may (i) exonerate the practitioner; (ii) reinstate the practitioner; (iii) place the practitioner or permit holder on probation with such terms as it may deem appropriate; (iv) reprimand the practitioner; (v) modify a previous order; and (vi) impose a monetary penalty pursuant to § 54.1-2401, (vii) deny or grant an application for licensure, certification, registration, permit, or multistate licensure privilege; and (viii) issue a restricted license, certification, registration, permit or multistate licensure privilege subject to terms and conditions. is received within such time. If service of the decision to a party is accomplished by mail, three days shall be added to the 30-day period. Upon receiving a timely written request for a hearing, the board or a panel of the board shall then proceed with a hearing as provided in § 2.2-4020, and the action of the committee shall be vacated. This subdivision shall not be construed to limit the authority of a board to delegate to an appropriately qualified agency subordinate, as defined in § 2.2-4001, the authority to conduct informal fact-finding proceedings in accordance with § 2.2-4019, upon receipt of information that a practitioner may be subject to a disciplinary action. The recommendation of such subordinate may be considered by a panel consisting of at least five board members, or, if a quorum of the board is less than five members, consisting of a quorum of the members, convened for the purpose of issuing a case decision. Criteria for the appointment of an agency subordinate shall be set forth in regulations adopted by the board.

11. Any decision rendered by majority vote of such panel shall have the same effect as if made by the full board and shall be subject to court review in accordance with the Administrative Process Act. No member who participates in an informal proceeding conducted in accordance with § 2.2-4019 shall serve on a panel conducting formal proceedings pursuant to § 2.2-4020 to consider the same matter.

12. To issue inactive licenses or certificates and promulgate regulations to carry out such purpose. Such regulations shall include, but not be limited to, the qualifications, renewal fees, and conditions for reactivation of licenses or certificates.

14. To request and accept from a certified, registered or licensed practitioner or person holding a multistate licensure privilege to practice nursing, in lieu of disciplinary action, a confidential consent agreement. A confidential consent agreement shall be subject to the confidentiality provisions of § 54.1-2400.2 and shall not be disclosed by a practitioner. A confidential consent agreement shall include findings of fact and may include an admission or a finding of a violation. A confidential consent agreement shall not be considered either a notice or order of any health regulatory board, but it may be considered by a board in future disciplinary proceedings. A confidential consent agreement shall be entered into only in cases involving minor misconduct where there is little or no injury to a patient or the public and little likelihood of repetition by the practitioner. A board shall not enter into a confidential consent agreement if there is probable cause to believe the practitioner has (i) demonstrated gross negligence or intentional misconduct in the care of patients or (ii) conducted his practice in such a manner as to be a danger to the health and welfare of his patients or the public. A certified, registered or licensed practitioner who has entered into two confidential consent agreements involving a standard of care violation, within the 10-year period immediately preceding a board's receipt of the most recent report or complaint being considered, shall receive public discipline for any subsequent violation within the 10-year period unless the board finds there are sufficient facts and circumstances to rebut the presumption that the disciplinary action be made public.

15. When a board has probable cause to believe a practitioner is unable to practice with reasonable skill and safety to patients because of excessive use of alcohol or drugs or physical or mental illness, the board, after preliminary investigation by an informal fact-finding proceeding, may direct that the practitioner submit to a mental or physical examination. Failure to submit to the examination shall constitute grounds for disciplinary action. Any practitioner affected by this subsection shall be afforded reasonable opportunity to demonstrate that he is competent to practice with reasonable skill and safety to patients. For the purposes of this subdivision, "practitioner" shall include any person holding a multistate licensure privilege to practice nursing.

The agency shall accept the address designated by the Office of the Attorney General as a program participant's address, unless the agency has received a written exemption from the Office of the Attorney General demonstrating to the satisfaction of the Attorney General that:

1. The agency has a bona fide statutory basis for requiring the program participant to disclose to it the actual location of the program participant; *and*

2. The disclosed confidential address of the program participant will be used only for that statutory purpose and will not be disclosed or made available in any way to any other person or agency; ~~and~~.

~~3.~~ A state agency may request an exemption by providing in writing to the Office of the Attorney General identification of the statute or administrative rule that demonstrates the agency's bona fide requirement and authority for the use of the actual address of an individual. A request for a waiver from an agency may be for an individual program participant, a class of program participants, or all program participants. The denial of an agency's exemption request shall be in writing and include a statement of the specific reasons for the denial. Acceptance or denial of an agency's exemption request shall constitute final agency action.

Any state or local agency that discloses the program participant's confidential address provided by the Office of the Attorney General shall be immune from civil liability unless the agency acted with gross negligence or willful misconduct.

A program participant's actual address shall be disclosed pursuant to a court order.

G. Records submitted to or provided by the Office of the Attorney General in accordance with this section shall be exempt from disclosure under the Virginia Freedom of Information Act (§ 2.2-3700 et seq.) to the extent such records contain information identifying a past or current program participant, including such person's name, actual and designated address, telephone number, and any email address. However, access shall not be denied to the person who is the subject thereof, or the parent or legal guardian of a program participant in cases where the program participant is a minor child or an incapacitated person, except when the parent or legal guardian is named as the program participant's assailant.

H. Neither the Office of the Attorney General, its officers or employees, or others who have a responsibility to a program participant under this section shall have any liability nor shall any cause of action arise against them in their official or personal capacity from the failure of a program participant to receive any first class mail forwarded to him by the Office of the Attorney General pursuant to this section. Nor shall any such liability or cause of action arise from the failure of a program participant to timely receive any first class mail forwarded by the Office of the Attorney General pursuant to this section.

1. **That § 46.2-116 of the Code of Virginia is amended and reenacted as follows:**

§ 46.2-116. Registration with Department of Criminal Justice Services required for tow truck drivers; penalty.

A. As used in this section and §§ 46.2-117, 46.2-118, and 46.2-119:

"Consumer" means a person who (i) has vested ownership, dominion, or title to the vehicle; (ii) is the authorized agent of the owner as defined in clause (i); or (iii) is an employee, agent, or representative of an insurance company representing any party involved in a collision that resulted in a police-requested tow who represents in writing that the insurance company had obtained the oral or written consent of the title owner or his agent or the lessee of the vehicle to obtain possession of the vehicle.

"Department" means the Department of Criminal Justice Services.

"Tow truck driver" means an individual who drives a tow truck as defined in § 46.2-100.

"Towing and recovery operator" means any person engaging in the business of providing or offering to provide services involving the use of a tow truck and services incidental to use of a tow truck. B. On and after January 1, 2013, no tow truck driver shall drive any tow truck without being registered with the Department, except that this requirement shall not apply to any holder of a tow truck driver authorization document issued pursuant to former § 46.2-2814 until the expiration date of such document. Every applicant for an initial registration or renewal of registration pursuant to this section shall submit his registration application, fingerprints, and personal descriptive information to the Department and a nonrefundable application fee of \$100. The Department shall forward the personal descriptive information along with the applicant's fingerprints through the Central Criminal Records Exchange to the Federal Bureau of Investigation for the purpose of obtaining a national criminal history record check regarding such applicant. The cost of the fingerprinting and criminal history record check shall be paid by the applicant.

The Central Criminal Records Exchange, upon receipt of an applicant's record or notification that no record exists, shall make a report to the Department. If an applicant is denied registration as a tow truck driver because of the information appearing in his criminal history record, the Department shall notify the applicant that information obtained from the Central Criminal Records Exchange contributed to such denial. The information shall not be disseminated except as provided in this section.

C. No registration shall be issued to any person who (i) is required to register as a sex offender as provided in § 9.1-901 or in a substantially similar law of any other state, the United States, or any foreign jurisdiction; (ii) has been convicted of a violent crime as defined in subsection C of § 17.1-805 *unless such person held a valid tow truck driver authorization document on January 1, 2013, issued by the Board of Towing and Recovery Operators pursuant to former Chapter 28 (§ 46.2-2800 et seq.), and has not been convicted of a violent crime as defined in subsection C of § 17.1-805 subsequent to the abolition of the Board;* or (iii) has been convicted of any crime involving the driving of a tow truck, including drug or alcohol offenses, but not traffic infraction convictions. Any person registered pursuant to this section shall report to the Department within 10 days of conviction any convictions for felonies or misdemeanors that occur while he is registered with the Department.

D. Any tow truck driver failing to register with the Department as required by this section is guilty of a Class 3 misdemeanor. A tow truck driver registered with the Department shall have such registration in his possession whenever driving a tow truck on the highways.

E. Registrations issued by the Department pursuant to this section shall be valid for a period not to exceed 24 months, unless revoked or suspended by the Department in accordance with § 46.2-117.

2. That an emergency exists and this act is in force from its passage.

CHAPTER 442

An Act to amend and reenact §§ 60.2-528 and 60.2-618 of the Code of Virginia and to repeal Chapter 878 of the Acts of Assembly of 2009, relating to unemployment compensation; voluntarily leaving employment to accompany military spouse.

[S 18]

Approved March 31, 2014

Be it enacted by the General Assembly of Virginia:

1. That §§ 60.2-528 and 60.2-618 of the Code of Virginia are amended and reenacted as follows:

§ 60.2-528. Individual benefit charges.

A. An individual's "benefit charges" shall be computed in the following manner:

1. For each week benefits are received, a claimant's "benefit charges" shall be equal to his benefits received for such week.

2. For each week extended benefits are received, pursuant to § 60.2-610 or 60.2-611, a claimant's "benefit charges" shall be equal to one-half his benefits received for such week. However, a claimant's "benefit charges" for extended benefits attributable to service in the employ of a governmental entity referred to in subdivisions 1 through 3 of subsection A of § 60.2-213 shall be equal to the full amount of such extended benefit.

3. For each week partial benefits are received, the claimant's "benefit charges" shall be computed (i) in the case of regular benefits as in subdivision 1 of this subsection, or (ii) in the case of extended benefits as in subdivision 2 of this subsection.

B. 1. The employing unit from whom such individual was separated, resulting in the current period of unemployment, shall be the most recent employing unit for whom such individual has performed services for remuneration (i) during 30 days, whether or not such days are consecutive, or (ii) during 240 hours. If such individual's unemployment is caused by separation from an employer, such individual's "benefit charges" for such period of unemployment shall be deemed the responsibility of the last employer for (i) 30 days or (ii) 240 hours prior to such period of unemployment.

2. Any employer charged with benefits paid shall be notified of the charges quarterly by the Commission. The amount specified shall be conclusive on the employer unless, not later than 30 days after the notice of benefit charges was mailed to its last known address or otherwise delivered to it, the employer files an appeal with the Commission, setting forth the grounds for such an appeal. Proceedings on appeal to the Commission regarding the amount of benefit charges under this subsection or a redetermination of such amount shall be in accordance with the provisions of § 60.2-500. The decision of the Commission shall be subject to the provisions of § 60.2-500. Any appeal perfected pursuant to the provisions of this section shall not address any issue involving the merits or conditions of a claimant's separation from employment.

C. No "benefit charges" shall be deemed the responsibility of an employer of:

1. An individual whose separation from the work of such employer arose as a result of a violation of the law by such individual, which violation led to confinement in any jail or prison;

2. An individual who voluntarily left employment in order to accept other employment, genuinely believing such employment to be permanent;

3. An individual with respect to any weeks in which benefits are claimed and received after such date as that individual refused to accept an offer of rehire by the employer because such individual was in training with approval of the Commission pursuant to § 60.2-613;

4. An individual who voluntarily left employment to enter training approved under § 236 of the Trade Act of 1974 (19 U.S.C. § 2296 et seq.);

5. An individual hired to replace a member of the Reserve of the United States Armed Forces or the National Guard called into active duty in connection with an international conflict and whose employment is terminated concurrent with and because of that member's return from active duty;

6. An individual who left employment voluntarily with good cause due to a personal bona fide medical reason caused by a non-job-related injury or medical condition;

7. An individual participating as an inmate in (i) state or local work release programs pursuant to § 53.1-60 or 53.1-131; (ii) community residential programs pursuant to §§ 53.1-177, 53.1-178, and 53.1-179; or (iii) any similar work release program, whose separation from work arose from conditions of release or parole from such program; ~~or~~

8. An individual who was unable to work at his regular employment due to a disaster for which the Governor, by executive order, has declared a state of emergency, if such disaster forced the closure of the employer's business. In no case shall more than four weeks of benefit charges be waived; *or*

9. *An individual who leaves employment to accompany his spouse to the location of the spouse's new duty assignment if (i) the spouse is on active duty in the military or naval services of the United States; (ii) the spouse's relocation to a new military-related assignment is pursuant to a permanent change of station order; (iii) the location of the spouse's new duty*

assignment is not readily accessible from the individual's place of employment; and (iv) the spouse's new duty assignment is located in a state that, pursuant to statute, does not deem a person accompanying a military spouse as a person leaving work voluntarily without good cause.

§ 60.2-618. Disqualification for benefits.

An individual shall be disqualified for benefits upon separation from the last employing unit for whom he has worked 30 days or 240 hours or from any subsequent employing unit:

1. For any week benefits are claimed until he has performed services for an employer (i) during 30 days, whether or not such days are consecutive, or (ii) for 240 hours, and subsequently becomes totally or partially separated from such employment, if the Commission finds such individual is unemployed because he left work voluntarily without good cause. As used in this chapter, "good cause" shall not include (i) voluntarily leaving work with an employer to become self-employed or (ii) voluntarily leaving work with an employer to accompany or to join his or her spouse in a new locality, *except where an individual leaves employment to accompany a spouse to the location of the spouse's new duty assignment if (1) the spouse is on active duty in the military or naval services of the United States; (2) the spouse's relocation to a new military-related assignment is pursuant to a permanent change of station order; (3) the location of the spouse's new duty assignment is not readily accessible from the individual's place of employment; and (4) except for members of the Virginia National Guard relocating to a new assignment within the Commonwealth, the spouse's new duty assignment is located in a state that, pursuant to statute, does not deem a person accompanying a military spouse as a person leaving work voluntarily without good cause.* An individual shall not be deemed to have voluntarily left work solely because the separation was in accordance with a seniority-based policy.

2. a. For any week benefits are claimed until he has performed services for an employer (i) during 30 days, whether or not such days are consecutive, or (ii) for 240 hours, and subsequently becomes totally or partially separated from such employment, if the Commission finds such individual is unemployed because he has been discharged for misconduct connected with his work.

b. For the purpose of this subdivision, "misconduct" includes, but shall not be limited to:

(1) An employee's confirmed positive test for a nonprescribed controlled substance, identified as such in Chapter 34 (§ 54.1-3400 et seq.) of Title 54.1, where such test was conducted at the direction of his employer in conjunction with the employer's administration and enforcement of a known workplace drug policy. Such test shall have been performed, and a sample collected, in accordance with scientifically recognized standards by a laboratory accredited by the United States Department of Health and Human Services, or the College of American Pathology, or the American Association for Clinical Chemistry, or the equivalent, or shall have been a United States Department of Transportation-qualified drug screen conducted in accordance with the employer's bona fide drug policy. The Commission may consider evidence of mitigating circumstances in determining whether misconduct occurred.

(2) An employee's intentionally false or misleading statement of a material nature concerning past criminal convictions made in a written job application furnished to the employer, where such statement was a basis for the termination and the employer terminated the employee promptly upon the discovery thereof. The Commission may consider evidence of mitigating circumstances in determining whether misconduct occurred.

(3) A willful and deliberate violation of a standard or regulation of the Commonwealth, by an employee of an employer licensed or certified by the Commonwealth, which violation would cause the employer to be sanctioned or have its license or certification suspended by the Commonwealth. The Commission may consider evidence of mitigating circumstances in determining whether misconduct occurred.

(4) Chronic absenteeism or tardiness in deliberate violation of a known policy of the employer or one or more unapproved absences following a written reprimand or warning relating to more than one unapproved absence. The Commission may consider evidence of mitigating circumstances in determining whether misconduct occurred.

(5) An employee's loss of or failure to renew a license or certification that is a requisite of the position held by the employee, provided the employer is not at fault for the employee's loss of or failure to renew the license or certification. The Commission may consider evidence of mitigating circumstances in determining whether misconduct occurred.

3. a. If it is determined by the Commission that such individual has failed, without good cause, either to apply for available, suitable work when so directed by the employment office or the Commission or to accept suitable work when offered him. The disqualification shall commence with the week in which such failure occurred, and shall continue for the period of unemployment next ensuing until he has performed services for an employer (i) during 30 days, whether or not such days are consecutive, or (ii) for 240 hours, and subsequently becomes totally or partially separated from such employment.

b. In determining whether or not any work is suitable for an individual, the Commission shall consider the degree of risk involved to his health, safety and morals, his physical fitness and prior training, his experience, his length of unemployment and the accessibility of the available work from his residence.

c. No work shall be deemed suitable and benefits shall not be denied under this title to any otherwise eligible individual for refusing to accept new work under any of the following conditions:

(1) If the position offered is vacant due directly to a strike, lockout, or other labor dispute;

(2) If the wages, hours, or other conditions of the work offered are substantially less favorable to the individual than those prevailing for similar work in the locality; or

(3) If as a condition of being employed the individual would be required to join a company union or to resign from or refrain from joining any bona fide labor organization.

d. No individual shall be qualified for benefits during any week that such individual, in connection with an offer of suitable work, has a confirmed positive test for a nonprescribed controlled substance, identified as such in Chapter 34 (§ 54.1-3400 et seq.) of Title 54.1, if the test is required as a condition of employment and (i) performed, and a sample is collected, in accordance with scientifically recognized standards by a laboratory accredited by the United States Department of Health and Human Services, or the College of American Pathology, or the American Association for Clinical Chemistry, or the equivalent, or (ii) a United States Department of Transportation-qualified drug screen conducted in accordance with the employer's bona fide drug policy. The disqualification shall commence with the week in which such a test was conducted, and shall continue for the period of unemployment next ensuing until he has performed services for an employer (i) during 30 days, whether or not such days are consecutive, or (ii) for 240 hours, and subsequently becomes totally or partially separated from such employment.

4. For 52 weeks, beginning with the date of the determination or decision, if the Commission finds that such individual, within 36 calendar months immediately preceding such determination or decision, has made a false statement or representation knowing it to be false, or has knowingly failed to disclose a material fact, to obtain or increase any benefit or payment under this title, the unemployment compensation of any other state, or any other program of the federal government which is administered in any way under this title, either for himself or any other person. Overpayments that have been fraudulently obtained and any penalty assessed against the individual pursuant to § 60.2-636 shall be recoverable as provided in § 60.2-633.

5. If such separation arose as a result of an unlawful act which resulted in a conviction and after his release from prison or jail until he has performed services for an employer for (i) 30 days, whether or not such days are consecutive, or (ii) 240 hours, and subsequently becomes totally or partially separated from such employment.

6. If such separation arose as a condition of the individual's parole or release from a custodial or penal institution and such individual was participating in the Diversion Center Incarceration Program pursuant to § 19.2-316.3.

2. That Chapter 878 of the Acts of Assembly of 2009 is repealed.

3. That the provisions of this act enhance the benefits payable to an individual pursuant to Title 60.2 of the Code of Virginia. Pursuant to § 30-19.03:1.2 of the Code of Virginia, the Virginia Employment Commission, in consultation with the Department of Planning and Budget, estimates that over the ensuing eight years (i) the provisions of this act are projected to reduce the solvency level of the Unemployment Trust Fund by an average of 0 percent in each of the eight years and (ii) the projected average annual increase in state unemployment tax liability of employers on a per-employee basis that would result from the provisions of this act is \$0.40.

4. That the provisions of the first enactment of this act shall expire on December 31, 2020.

5. That the Virginia Employment Commission shall provide in its reports to the Commission on Unemployment Compensation information detailing (i) the number of claims that are paid as a result of the first enactment of this act, (ii) the effect of the payment of such claims on the solvency level and balance of the Unemployment Trust Fund, and (iii) the effect of such claims on pool taxes paid by employers in the Commonwealth.

CHAPTER 443

An Act to amend and reenact § 15.2-2223 of the Code of Virginia, relating to comprehensive plans; alignment of transportation services with accessible housing and other community services.

[S 58]

Approved March 31, 2014

Be it enacted by the General Assembly of Virginia:

1. That § 15.2-2223 of the Code of Virginia is amended and reenacted as follows:

§ 15.2-2223. Comprehensive plan to be prepared and adopted; scope and purpose.

A. The local planning commission shall prepare and recommend a comprehensive plan for the physical development of the territory within its jurisdiction and every governing body shall adopt a comprehensive plan for the territory under its jurisdiction.

In the preparation of a comprehensive plan, the commission shall make careful and comprehensive surveys and studies of the existing conditions and trends of growth, and of the probable future requirements of its territory and inhabitants. The comprehensive plan shall be made with the purpose of guiding and accomplishing a coordinated, adjusted and harmonious development of the territory which will, in accordance with present and probable future needs and resources, best promote the health, safety, morals, order, convenience, prosperity and general welfare of the inhabitants, including the elderly and persons with disabilities.

The comprehensive plan shall be general in nature, in that it shall designate the general or approximate location, character, and extent of each feature, including any road improvement and any transportation improvement, shown on the plan and shall indicate where existing lands or facilities are proposed to be extended, widened, removed, relocated, vacated, narrowed, abandoned, or changed in use as the case may be.

B. 1. As part of the comprehensive plan, each locality shall develop a transportation plan that designates a system of transportation infrastructure needs and recommendations that include the designation of new and expanded transportation facilities and that support the planned development of the territory covered by the plan and shall include, as appropriate, but not be limited to, roadways, bicycle accommodations, pedestrian accommodations, railways, bridges, waterways, airports, ports, and public transportation facilities. The plan shall recognize and differentiate among a hierarchy of roads such as expressways, arterials, and collectors. *In developing the plan, the locality shall take into consideration how to align transportation infrastructure and facilities with affordable, accessible housing and community services that are located within the territory in order to facilitate community integration of the elderly and persons with disabilities.* The Virginia Department of Transportation shall, upon request, provide localities with technical assistance in preparing such transportation plan.

2. The transportation plan shall include a map that shall show road and transportation improvements, including the cost estimates of such road and transportation improvements from the Virginia Department of Transportation, taking into account the current and future needs of residents in the locality while considering the current and future needs of the planning district within which the locality is situated.

3. The transportation plan, and any amendment thereto pursuant to § 15.2-2229, shall be consistent with the Commonwealth Transportation Board's Statewide Transportation Plan developed pursuant to § 33.1-23.03, the Six-Year Improvement Program adopted pursuant to subdivision (7)(b) of § 33.1-12, and the location of routes to be followed by roads comprising systems of state highways pursuant to subdivision (1) of § 33.1-12. The locality shall consult with the Virginia Department of Transportation to assure such consistency is achieved. The transportation plan need reflect only those changes in the annual update of the Six-Year Improvement Program that are deemed to be significant new, expanded, or relocated roadways.

4. Prior to the adoption of the transportation plan or any amendment to the transportation plan, the locality shall submit such plan or amendment to the Department for review and comment. The Department shall conduct its review and provide written comments to the locality on the consistency of the transportation plan or any amendment to the provisions of subdivision 1. The Department shall provide such written comments to the locality within 90 days of receipt of the plan or amendment, or such other shorter period of time as may be otherwise agreed upon by the Department and the locality.

5. The locality shall submit a copy of the adopted transportation plan or any amendment to the transportation plan to the Department for informational purposes. If the Department determines that the transportation plan or amendment is not consistent with the provisions of subdivision 1, the Department shall notify the Commonwealth Transportation Board so that the Board may take appropriate action in accordance with subdivision (7)(e) of § 33.1-12.

6. Each locality's amendments or updates to its transportation plan as required by subdivisions 2 through 5 shall be made on or before its ongoing scheduled date for updating its transportation plan.

C. The comprehensive plan, with the accompanying maps, plats, charts, and descriptive matter, shall show the locality's long-range recommendations for the general development of the territory covered by the plan. It may include, but need not be limited to:

1. The designation of areas for various types of public and private development and use, such as different kinds of residential, including age-restricted, housing; business; industrial; agricultural; mineral resources; conservation; active and passive recreation; public service; flood plain and drainage; and other areas;

2. The designation of a system of community service facilities such as parks, sports playing fields, forests, schools, playgrounds, public buildings and institutions, hospitals, nursing homes, assisted living facilities, community centers, waterworks, sewage disposal or waste disposal areas, and the like;

3. The designation of historical areas and areas for urban renewal or other treatment;

4. The designation of areas for the implementation of reasonable ground water protection measures;

5. A capital improvements program, a subdivision ordinance, a zoning ordinance and zoning district maps, mineral resource district maps and agricultural and forestal district maps, where applicable;

6. The location of existing or proposed recycling centers;

7. The location of military bases, military installations, and military airports and their adjacent safety areas; and

8. The designation of corridors or routes for electric transmission lines of 150 kilovolts or more.

D. The comprehensive plan shall include the designation of areas and implementation of measures for the construction, rehabilitation and maintenance of affordable housing, which is sufficient to meet the current and future needs of residents of all levels of income in the locality while considering the current and future needs of the planning district within which the locality is situated.

CHAPTER 444

An Act to amend and reenact § 18.2-56.1 of the Code of Virginia, relating to reckless handling of firearms; penalty.

[S 65]

Approved March 31, 2014

Be it enacted by the General Assembly of Virginia:

1. That § 18.2-56.1 of the Code of Virginia is amended and reenacted as follows:

§ 18.2-56.1. Reckless handling of firearms; reckless handling while hunting.

A. It shall be unlawful for any person to handle recklessly any firearm so as to endanger the life, limb or property of any person. Any person violating this section shall be guilty of a Class 1 misdemeanor.

A1. Any person who handles any firearm in a manner so gross, wanton, and culpable as to show a reckless disregard for human life and causes the serious bodily injury of another person resulting in permanent and significant physical impairment is guilty of a Class 6 felony.

B. If this section is violated while the person is engaged in hunting, trapping or pursuing game, the trial judge may, in addition to the penalty imposed by the jury or the court trying the case without a jury, revoke such person's hunting or trapping license and privileges to hunt or trap while possessing a firearm for a period of one to five years.

C. Upon a revocation pursuant to subsection B hereof, the clerk of the court in which the case is tried pursuant to this section shall forthwith send to the Department of Game and Inland Fisheries (i) such person's revoked hunting or trapping license or notice that such person's privilege to hunt or trap while in possession of a firearm has been revoked and (ii) a notice of the length of revocation imposed. The Department shall keep a list which shall be furnished upon request to any law-enforcement officer, the attorney for the Commonwealth or court in this Commonwealth, and such list shall contain the names and addresses of all persons whose license or privilege to hunt or trap while in possession of a firearm has been revoked and the court which took such action.

D. If any person whose license to hunt and trap, or whose privilege to hunt and trap while in possession of a firearm, has been revoked pursuant to this section, thereafter hunts or traps while in possession of a firearm, he shall be guilty of a Class 1 misdemeanor, and, in addition to any penalty imposed by the jury or the court trying the case without a jury, the trial judge may revoke such person's hunting or trapping license and privileges to hunt or trap while in possession of a firearm for a period of one year to life. The clerk of the court shall notify the Department of Game and Inland Fisheries as is provided in subsection C herein.

2. That the provisions of this act may result in a net increase in periods of imprisonment or commitment. Pursuant to § 30-19.1:4, the estimated amount of the necessary appropriation cannot be determined for periods of imprisonment in state adult correctional facilities; therefore, Chapter 806 of the Acts of Assembly of 2013 requires the Virginia Criminal Sentencing Commission to assign a minimum fiscal impact of \$50,000. Pursuant to § 30-19.1:4, the estimated amount of the necessary appropriation cannot be determined for periods of commitment to the custody of the Department of Juvenile Justice.

1. A report from the treating or examining health care provider as defined in § 8.01-581.1 *or a health care provider licensed outside of the Commonwealth for his treatment of the plaintiff outside of the Commonwealth*. Such medical report shall be admitted if the party intending to present evidence by the use of a report gives the opposing party or parties a copy of the report and written notice of such intention 10 days in advance of trial and if attached to such report is a sworn statement of the treating or examining health care provider that (i) the person named therein was treated or examined by such health care provider; (ii) the information contained in the report is true and accurate and fully descriptive as to the nature and extent of the injury; and (iii) any statement of costs contained in the report is true and accurate; or

2. The records or bills of a hospital or similar medical facility at which the treatment or examination was performed. Such hospital or other medical facility records or bills shall be admitted if (i) the party intending to present evidence by the use of records or bills gives the opposing party or parties a copy of the records or bills and written notice of such intention 10 days in advance of trial and (ii) attached to the records or bills is a sworn statement of the custodian thereof that the same is a true and accurate copy of the records or bills of such hospital or other medical facility.

If, thereafter, the plaintiff or defendant summons the health care provider or custodian making such statement to testify in proper person or by deposition, the court shall determine which party shall pay the fee and costs for such appearance or depositions, or may apportion the same among the parties in such proportions as the ends of justice may require. If such health care provider or custodian is not subject to subpoena for cross-examination in court or by a deposition, then the court shall allow a reasonable opportunity for the party seeking the subpoena for such health care provider or custodian to obtain his testimony as the ends of justice may require. The plaintiff may only present evidence pursuant to this section in circuit court if he has not requested an amount in excess of the ad damnum in the motion for judgment filed in the general district court.

CHAPTER 447

An Act to amend the Code of Virginia by adding in Article 15 of Chapter 1 of Title 33.1 a section numbered 33.1-223.2:30, relating to fare enforcement inspectors.

[S 264]

Approved March 31, 2014

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding in Article 15 of Chapter 1 of Title 33.1 a section numbered 33.1-223.2:30 as follows:

§ 33.1-223.2:30. Fare enforcement inspectors; failure to produce proof of payment of fare; penalty.

A. For the purposes of this section, "eligible entity" means any transit operation in Planning District 8 that is owned or operated directly or indirectly by a political subdivision of the Commonwealth or any governmental entity established by an interstate compact of which Virginia is a signatory.

B. Any eligible entity that either directly or by contract operates any form of mass transit may appoint fare enforcement inspectors and establish the qualifications required for their appointment. Fare enforcement inspectors shall have the power to (i) request patrons at transit boarding locations or on transit vehicles to show proof of payment of the applicable fare; (ii) inspect the proof of payment for validity; (iii) issue a civil summons for violations authorized by this section; (iv) assist with crowd control while on a transit vehicle or at a transit boarding location; and (v) perform such other customer service and safety duties as may be assigned by the eligible entity. The powers of fare enforcement inspectors are limited to those powers enumerated in this section, and fare enforcement inspectors are not required to be law-enforcement

officers. The powers of fare enforcement inspectors appointed pursuant to this section shall be exercisable anywhere in the Commonwealth where the appointing eligible entity operates transit service. Fare enforcement inspectors shall report to the department or agency designated by the appointing eligible entity.

C. It shall be unlawful for any person to board or ride a transit operation operated by an eligible entity when he fails or refuses to pay the applicable fare or refuses to produce valid proof of payment of the fare upon request of a fare enforcement inspector. Any person who violates this section shall be liable for a civil penalty of not more than \$100. Any person summoned for a violation may make an appearance in person or in writing by mail to the department of finance or the treasurer of the locality, or the designee of the department of finance or the treasurer, where the violation occurred as specified on the summons prior to the date fixed for trial in court. Any person so appearing may enter a waiver of trial, admit liability, and pay the civil penalty established for the violation charged. Such persons shall be informed of their right to stand trial and that a signature to an admission of liability will have the same force and effect as a judgment of court. If a person charged with a violation does not elect to enter a waiver of trial and admit liability, the violation shall be brought by the eligible entity or the locality in which the violation occurred and tried as a civil case in the general district court in the same manner and with the same right of appeal as provided for by law. In any trial for a violation authorized by this section, it shall be the burden of the eligible entity or locality in which the violation occurred to show the liability of the violator by a preponderance of the evidence. The penalty for failure to pay the established fare on transit properties covered by another provision of law shall be governed by that provision and not by this section.

D. The governing bodies of counties, cities, and towns may adopt ordinances not in conflict with the provisions of this section to appoint fare enforcement inspectors and prescribe their duties in such counties, cities, and towns.

E. The penalty imposed by this section shall not apply to a law-enforcement officer while he is engaged in the performance of his official duties.

In order to operate and maintain the system, the Board shall:

1. Maintain a complete, separate, and accurate record of all registered voters in the Commonwealth.
2. Require the general registrars to enter the names of all registered voters into the system and to change or correct registration records as necessary.
3. (Effective until July 1, 2014) Provide to each general registrar, voter registration cards for newly registered voters and for notice to registered voters on the system of changes and corrections in their registration records and polling places.
3. (Effective July 1, 2014) Provide to each general registrar, voter registration cards for newly registered voters and for notice to registered voters on the system of changes and corrections in their registration records and polling places and voter registration cards containing the voter's photograph and signature for free for those voters who do not have one of the forms of identification specified in subsection B of § 24.2-643. The Board shall provide each general registrar with the equipment necessary to obtain a voter's signature and photograph and no general registrar shall be required to purchase such equipment at his own expense. Photographs and signatures obtained by a general registrar shall be submitted to the Board. The Board may contract with an outside vendor for the production and distribution of voter registration cards containing the voter's photograph and signature.
4. The State Board shall determine whether regional or statewide data is provided. Neither the pollbook nor the regional or statewide list of registered voters shall include the day and month of birth of the voter, but shall include the voter's year of birth.

Reprint and impose a reasonable charge for the sale of any part of Title 24.2, lists of precincts and polling places, statements of election results by precinct, and any other items required of the State Board by law. Receipts from such sales shall be credited to the Board for reimbursement of printing expenses.

B. The State Board shall be authorized to provide for the production, distribution, and receipt of information and lists through the Virginia Voter Registration System by any appropriate means including, but not limited to, paper and electronic means.

C. The State Board shall institute procedures to ensure that each requirement of this section is fulfilled. As part of its procedures, the State Board shall provide that the general registrar shall mail notice of any cancellation pursuant to clause (v) of subdivision A 4 to the person whose registration is cancelled.

D. The State Board shall promulgate rules and regulations to ensure the uniform application of the law for determining a person's residence.

An applicant who makes his application to vote in person at a time when the printed ballots for the election are available shall follow the same procedure set forth above except that he may complete the procedure in person in the office of the general registrar or secretary of the electoral board, or at another location or locations in the county or city approved by the electoral board, before a registrar or a member of the electoral board, or, if a ballot is cast at that time, before the officers of election appointed by the electoral board. Any such location shall be in a public building owned or leased by the city, the county, or a town within the county, with adequate facilities for the protection of all records concerning the absentee voters, the absentee ballots, both voted and unvoted, and any voting equipment in use at the location. Such location may be in a facility owned or leased by the Commonwealth and used as a location for Department of Motor Vehicles facilities and for an office of the general registrar. Such location shall be deemed the equivalent of the office of the general registrar or secretary of the electoral board for the purpose of completing the application for an absentee ballot in person pursuant to §§ 24.2-701 and 24.2-706. On the request of the applicant, made no later than 5:00 p.m. on the seventh day prior to the election in which the applicant offers to vote, the general registrar or the secretary may send the items set forth in subdivisions 1 through 4 of § 24.2-706 to the applicant by mail, obtaining a certificate of mailing.

Failure to follow the procedures set forth above shall render the applicant's ballot void.

The electoral board of any county or city using a central absentee voting precinct may provide for the casting of absentee ballots on voting equipment prior to election day by applicants who are voting in person. The State Board shall prescribe procedures for the use of voting equipment. The procedures shall provide for the casting of absentee ballots prior to election day by in-person applicants on voting equipment which has been certified, and is currently approved, by the State Board. The procedures shall be applicable and uniformly applied by the State Board to all jurisdictions using comparable voting equipment. At least two officers of election, one representing each political party, shall be present during all hours that absentee voting is available at any location at which absentee ballots are cast prior to election day.

The requirement that officers of election shall be present if ballots are cast on voting equipment prior to election day shall not be applicable when the voting equipment is located in the office of the general registrar or secretary of the electoral board and the general registrar, an assistant registrar, or the secretary of the electoral board is present.

§ 24.2-711. Duties of officers of election.

Before the polls open, the officers of election at each precinct shall mark, for each person on the absentee voter applicant list, the letters "AB" (meaning absentee ballot) in the voting record column on the pollbook. The pollbook may be so marked prior to election day by the general registrar, the secretary of the electoral board, or staff under the direction of the general registrar or the secretary, or when the pollbook is produced by the State Board pursuant to § 24.2-404. If the pollbook has been marked prior to election day, before the polls open the officers of election at each precinct shall check the marks for accuracy and make any additions or corrections required.

The chief officer of election shall keep the copy of the absentee voter applicant list in the polling place as a public record open for inspection upon request at all times while the polls are open.

If a voter, whose name appears on the absentee voter applicant list, has not returned an unused ballot and offers to vote in his precinct, the officers of election in the precinct shall determine the matter pursuant to §§ 24.2-653.1 and 24.2-708.

Immediately after the close of the polls, the container of absentee ballots shall be opened by the officers of election. As each ballot envelope is removed from the container, the name of the voter shall be called and checked as if the voter were voting in person. If the voter is found entitled to vote, an officer shall mark the voter's name on the pollbook with the first or next consecutive number from the voter count form, or shall enter that the voter has voted if the pollbook is in electronic form. The ballot envelope shall then be opened, and the ballot deposited in the ballot container without being unfolded or examined. If the voter is found not entitled to vote, the unopened envelope shall be rejected. *An unopened envelope shall not be rejected on the sole basis of a voter's failure to provide in the statement on the back of the unopened envelope his full middle name or his middle initial, unless the voter also failed to provide his full first and last name.* A majority of the officers shall write and sign a statement of the cause for rejection on the envelope or on an attachment to the envelope.

When all ballots have been accounted for and either voted or rejected, the officers shall place the empty ballot envelopes, the return envelopes, and any rejected ballot envelopes, in one envelope provided for the purpose and seal and deliver it with the ballots cast at the election as provided in this title.

If the credit balance information is incorporated into statements of account furnished consumers by suppliers within such 60-day period, no separate or additional notice is required;

2. Provide comparable alternate facilities with another health *spa club* that agreed in writing to honor all provisions of the health *spa club* contracts or at another facility operated by the originally contracting health *spa club*.

F. No health *spa club* that has failed to provide the Commissioner the appropriate surety pursuant to § 59.1-306 shall sell a health *spa club* contract unless that contract contains a statement that reads as follows: "This *spa club* is not permitted, pursuant to the Virginia Health *Spa Club* Act, to accept any initiation fee in excess of \$125 or any payment for more than the prorated monthly fee for the month when the contract is initially executed plus one full month in advance."

Such disclosure shall be printed in 10-point bold-faced type or larger on the face of each contract.

Whenever a refund is due a buyer, any initiation fee charged by a health *spa club* shall be prorated over the life of the contract or ~~twelve~~ 12 months, whichever is greater.

§ 59.1-297. Right of cancellation.

A. Every health *spa club* contract for the sale of health *spa club* services may be cancelled under the following circumstances:

1. A buyer may cancel the contract without penalty within three business days of its making and, upon notice to the health *spa club* of the buyer's intent to cancel, shall be entitled to receive a refund of all moneys paid under the contract.

2. A buyer may cancel the contract if the facility relocates or goes out of business and the health ~~spa~~ club fails to provide comparable alternate facilities within five driving miles of the location designated in the health ~~spa~~ club contract. Upon receipt of notice of the buyer's intent to cancel, the health ~~spa~~ club shall refund to the buyer funds paid or accepted in payment of the contract in an amount computed as prescribed in § 59.1-297.1.

3. The contract may be cancelled if the buyer dies or becomes physically unable to use a substantial portion of the services for 30 or more consecutive days. If the buyer becomes physically unable to use a substantial portion of the services for 30 or more consecutive days and wishes to cancel his contract, he must provide the health ~~spa~~ club with a signed statement from his doctor, physician assistant, or nurse practitioner verifying that he is physically unable to use a substantial portion of the health ~~spa~~ club services for 30 or more consecutive days. Upon receipt of notice of the buyer's intent to cancel, the health ~~spa~~ club shall refund to the buyer funds paid or accepted in payment of the contract in an amount computed as prescribed in § 59.1-297.1. In the case of disability, the health ~~spa~~ club may require the buyer to submit to a physical examination by a doctor, physician assistant, or nurse practitioner agreeable to the buyer and the health ~~spa~~ club within 30 days of receipt of notice of the buyer's intent to cancel. The cost of the examination shall be borne by the health ~~spa~~ club.

B. The buyer shall notify the health ~~spa~~ club of cancellation in writing, by certified mail, return receipt requested, or personal delivery, to the address of the health ~~spa~~ club as specified in the health ~~spa~~ club contract.

C. If the customer has executed any credit or lien agreement with the health ~~spa~~ club or its representatives or agents to pay for all or part of health ~~spa~~ club services, any such negotiable instrument executed by the buyer shall be returned to the buyer within 30 days after such cancellation.

D. If the ~~spa~~ club agrees to allow a consumer to cancel for any other reason not outlined in this section, upon receipt of notice of cancellation by the buyer, the health ~~spa~~ club shall refund to the buyer funds paid or accepted in payment of the contract in an amount computed as prescribed in § 59.1-297.1.

§ 59.1-297.1. Payment and calculation of refunds.

A. All refunds for cancellation of membership shall be paid within 30 days of the health ~~spa~~'s club's receipt of written notice of cancellation by the buyer and calculated by:

1. Dividing the contract price by the term of the contract in days;
2. Multiplying the number obtained in subdivision 1 by the number of days between the effective date of the contract and the date of cancellation; and
3. Subtracting the number obtained in subdivision 2 from the total price paid on the health ~~spa~~ club contract.

B. In the event of the health ~~spa~~ club going out of business, the date of cancellation shall be the date the health ~~spa~~ club ceased providing health ~~spa~~ club services at the facility.

C. A health ~~spa~~ club issuing a refund to a buyer under this chapter shall do so within 30 days of the health ~~spa~~ club receiving a notice of cancellation pursuant to § 59.1-297, or within 30 days of the permanent closing of the facility designated in the buyer's contract.

§ 59.1-297.2. Automatic termination of a health club contract.

A health ~~spa~~ club contract shall be considered terminated automatically if the designated facility closes permanently and the health ~~spa~~ club does not provide a comparable alternate facility. A facility closes temporarily if it closes for a reasonable period of time (i) for renovations to all or a portion of the facility, (ii) because the lease for the facility has been canceled, or (iii) because of a fire, or a flood or other act of God, or other cause not within the reasonable control of the health ~~spa~~ club. If a facility closes temporarily, it shall within 14 days from the time of the temporary closing provide notice of the date it expects to reopen, which date shall be within a reasonable period of time from the time the facility temporarily closes, to the Commissioner and shall conspicuously post such notice both within and outside each entrance to the facility.

§ 59.1-298. Notice to buyer.

A copy of the executed health ~~spa~~ club contract shall be delivered to the buyer at the time the contract is executed. All health ~~spa~~ club contracts shall (i) be in writing, (ii) *state the name and physical address of the health club*, (iii) be signed by the buyer, ~~(iii)~~ (iv) designate the date on which the buyer actually signed the contract, ~~(iv)~~ (v) state the starting and expiration dates of the initial membership period, ~~(v)~~ (vi) separately identify any initiation fee, ~~(vi)~~ (vii) either in the contract itself or in a separate notice provided to the buyer at the time the contract is executed, notify each buyer that the buyer should attempt to resolve with the health ~~spa~~ club any complaint the buyer has with the health ~~spa~~ club, and that the Virginia Department of Agriculture and Consumer Services regulates health ~~spa~~ clubs in the Commonwealth pursuant to the provisions of the Virginia Health ~~Spa~~ Club Act, and ~~(vii)~~ (viii) contain the provisions set forth in § 59.1-297 under a conspicuous caption: "BUYER'S RIGHT TO CANCEL" that shall read substantially as follows:

If you wish to cancel this contract, you may cancel by making or delivering written notice to this health ~~spa~~ club. The notice must say that you do not wish to be bound by the contract and must be delivered or mailed before midnight of the third business day after you sign this contract. The notice must be delivered or mailed to

(Health ~~spa~~ club shall insert its name and mailing address.)

If canceled within three business days, you will be entitled to a refund of all moneys paid. You may also cancel this contract if this ~~spa~~ club goes out of business or relocates and fails to provide comparable alternate facilities within five driving miles of the facility designated in this contract. You may also cancel if you become physically unable to use a substantial portion of the health ~~spa~~ club services for 30 or more consecutive days, and your estate may cancel in the event of your death. You must prove you are unable to use a substantial portion of the health ~~spa~~ club services by a doctor's,

physician assistant's, or nurse practitioner's certificate, and the health *spa club* may also require that you submit to a physical examination, within 30 days of the notice of cancellation, by a doctor, physician assistant, or nurse practitioner agreeable to you and the health *spa club*. If you cancel after the three business days, the health *spa club* may retain or collect a portion of the contract price equal to the proportionate value of the services or use of facilities you have already received. Any refund due to you shall be paid within 30 days of the effective date of cancellation.

§ 59.1-299. Duration of contract.

No health *spa club* contract shall have a duration for a period longer than thirty-six months, including any renewal period; however, a health *spa club* contract may exceed ~~thirty-six~~ 36 months provided that:

1. Any initiation fee does not exceed ~~ten~~ 10 times the initial monthly fee;
2. All payments for health *spa club* services, other than the initiation fee, are collected as monthly fees on a monthly basis;
3. After an initial term of not more than ~~twelve~~ 12 months, either party may cancel the health *spa club* contract upon not more than ~~thirty~~ 30 days' notice; and
4. The monthly fee is never reduced below ~~eighty~~ 80 percent of the monthly fee at the time the contract is initially executed.

§ 59.1-301. Noncomplying contract voidable.

Any health *spa club* contract ~~which~~ that does not comply with the applicable provisions of this chapter shall be voidable at the option of the buyer.

§ 59.1-302. Fraud rendering contract void.

Any health *spa club* contract entered into by the buyer upon any false or misleading information, representation, notice, or advertisement of the health *spa club* or the health *spa's club's* agents shall be void and unenforceable.

§ 59.1-304. Notice of preservation of buyers' rights.

All health *spa club* contracts and any promissory note executed by the buyer in connection therewith shall contain the following provision on the face thereof in at least ~~ten~~ 10-point, boldface type: NOTICE

ANY HOLDER OF THIS CONTRACT OR NOTE IS SUBJECT TO ALL CLAIMS AND DEFENSES WHICH THE DEBTOR COULD ASSERT AGAINST THE SELLER OF GOODS OR SERVICES OBTAINED WITH THE PROCEEDS HEREOF. RECOVERY HEREUNDER BY THE DEBTOR SHALL NOT EXCEED AMOUNTS PAID BY THE DEBTOR HEREUNDER.

§ 59.1-305. Prohibition against assignment of health club contract cutting off buyer's right of action or defense against seller; conditions.

Whether or not the health *spa club* has complied with the notice requirements of § 59.1-304, any right of action or defense arising out of a health *spa club* contract which the buyer has against the health *spa club*, and which would be cut off by assignment, shall not be cut off by assignment of the contract to any third party holder, whether or not the holder acquires the contract in good faith and for value.

§ 59.1-306. Bond or letter of credit required; exception.

A. Every health *spa club*, before it enters into a health *spa club* contract and accepts any moneys in excess of the prorated monthly fee for the month when the contract is initially executed plus one month's fees or accepts any initiation fee in excess of \$125, shall file and maintain with the Commissioner, in form and substance satisfactory to him, a bond with corporate surety, from a company authorized to transact business in the Commonwealth or a letter of credit from a bank insured by the Federal Deposit Insurance Corporation in the amounts indicated below:

Number of applicable contracts	Amount of bond or letter of credit
0 to 250	\$10,000
251 to 500	\$20,000
501 to 750	\$30,000
751 to 1000	\$40,000
1001 to 1250	\$50,000
1251 to 1500	\$60,000
1501 to 1750	\$70,000
1751 to 2000	\$80,000
2001 or more	\$100,000

For purposes of calculating the number of applicable unexpired health *spa club* contracts when determining the required amount of bond or letter of credit, health *spa club* contracts entered into on or after January 1, 2005, with a term that exceeds 13 months shall be counted as multiple health *spa club* contracts, such that the number of applicable contracts counted with respect thereto shall equal the total of the number of full years and any partial year in its term. However, this paragraph shall not apply (i) to health *spa club* contracts that are payable only on a monthly basis and for which the initiation fee is no more than \$250; or (ii) if the number of the health *spa's club's* contracts in effect with a term that exceeds 13 months is less than 10 percent of the total of its health *spa club* contracts.

The number of applicable unexpired contracts shall be separately calculated for each facility.

A health *spa club* shall file a separate bond or letter of credit with respect to each separate facility, even though the separate facilities are owned or operated by the same health *spa club*.

However, no health *spa club* shall be required to file with the Commissioner bonds or letters of credit in excess of \$300,000. If the \$300,000 limit is applicable, then the bonds or letters of credit filed by the health *spa club* shall apply to all facilities owned or operated by the same health *spa club*.

B. A health *spa club* may sell health *spa club* contracts of up to 36 months' duration for a facility for which a health *spa club* has not filed a bond or letter of credit so long as the amount of payment actually charged, due or received under the health *spa club* contracts each month by the health *spa club* or any holder thereunder does not exceed the monthly fee calculated pursuant to the definition thereof in § 59.1-296, with the exception that the payment actually charged may include a maximum initiation fee of \$125 for health *spa club* contracts of 13 months or more in duration.

§ 59.1-307. Bond or letter of credit; persons protected.

A. The bond or letter of credit required by § 59.1-306 shall be in favor of the Commonwealth for the benefit of (i) any buyer injured by having paid money for health *spa club* services in a facility which fails to open by the date provided by the contract, which date shall not be in excess of ~~twelve~~ 12 months from the signing of the contract; (ii) any buyer injured by having paid money for health *spa club* services in a facility which goes out of business prior to the expiration of the buyer's health *spa club* contract; or (iii) any buyer injured as a result of a violation of this chapter.

B. The aggregate liability of the bond or letter of credit to all persons for all breaches of the conditions of the bond or letter of credit shall in no event exceed the amount of the bond or letter of credit. The bond or letter of credit shall not be cancelled or terminated except with the consent of the Commissioner.

§ 59.1-308. Change in ownership of health club.

For purposes of this chapter, a health *spa club* shall be considered a new health *spa club* and subject to the requirements of a bond or letter of credit at the time the health *spa club* changes ownership. Any health *spa club* which has more than ~~forty~~ 50 percent ownership by the same ~~stockholder(s) and/or partner(s) person or persons~~ shall be considered as owned by the same owner. A change in ownership shall not release, cancel, or terminate liability under any bond or letter of credit previously filed unless the Commissioner agrees in writing to such release, cancellation, or termination because the new owner has filed a new bond or letter of credit for the benefit of the previous owner's members or because the former owner has refunded all unearned payments to its members. Every change in ownership shall be reported in writing to the Commissioner at least ~~ten~~ 10 days prior to the effective date of the change in ownership.

§ 59.1-308.1. Production of records.

Every health *spa club*, upon the written request of the Commissioner, shall make available to the Commissioner its prepayment bank account records and all membership contracts for inspection and copying, to enable the Commissioner reasonably to determine compliance with this chapter. Every health *spa club* shall maintain a true copy of each health *spa club* contract executed between the health *spa club* and a buyer. Each contract shall be maintained for its term, including any renewal. Every health *spa club* shall maintain the executed health *spa club* contracts at a designated location where the contracts may be inspected by the Commissioner. If the location designated by the health *spa club* is outside Virginia, the health *spa club* shall pay the reasonable travel costs of an inspection by the Commissioner.

§ 59.1-310. Applicability.

Sections 59.1-297, 59.1-298, 59.1-299, 59.1-304, and 59.1-305 shall not apply to health *spa club* contracts entered into before the effective date of this chapter September 15, 2004.

CHAPTER 460

An Act to amend and reenact §§ 17.1-124, 17.1-225, 17.1-242, 17.1-243, 17.1-258.3, 17.1-279, and 17.1-293 of the Code of Virginia, relating to order books; automated systems; remote access to court records; electronic filing; information technology fees; posting of certain information on the Internet.

[S 435]

Approved March 31, 2014

Be it enacted by the General Assembly of Virginia:

1. That §§ 17.1-124, 17.1-225, 17.1-242, 17.1-243, 17.1-258.3, 17.1-279, and 17.1-293 of the Code of Virginia are amended and reenacted as follows:

§ 17.1-124. Order books; automated systems.

Except as otherwise provided herein, each circuit court clerk shall keep order books *or, in lieu thereof, an automated system* recording all proceedings, orders and judgments of the court in all matters, all decrees, and decretal orders of such court and all matters pertaining to trusts, the appointment and qualification of trustees, committees, administrators, executors, conservators and guardians shall be recorded, except when the same are appointed by the clerk of court, in which event the order appointing such administrators or executors, shall be made and entered in the clerk's order book. In any circuit court, the clerk may, with the approval of the chief judge of the court, by order entered of record, divide the order book into two sections, to be known as the civil order book and the criminal order book. All proceedings, orders and judgments of the court in all matters at civil law shall be recorded in the civil order book, and all proceedings, orders and judgments of the court in all matters at criminal law shall be recorded in the criminal order book. In any proceeding brought

for the condemnation of property, all proceedings, orders, judgments and decrees of the court shall be recorded in the civil order book of the court. The recordation prior to January 1, 1974, of all proceedings, orders, judgments and decrees in such cases, whether entered in the common-law order book or the chancery order book of any court, is hereby declared a valid and proper recordation of the same. Orders in cases appealed from the juvenile and domestic relations district courts shall be maintained as provided in this section and, to the extent inconsistent with this section, § 16.1-302.

The clerk shall ensure that these order books have been microfilmed or converted to or created in an electronic format. Such microfilm and microphotographic processes and equipment shall meet state microfilm standards, and such electronic format shall follow state electronic records guidelines, pursuant to § 42.1-82. The clerk shall further provide the master reel of any such microfilm for storage in the Library of Virginia and shall provide for the secured, off-site back up of any electronic copies of such records.

§ 17.1-225. Remote access to nonconfidential court records.

The clerk of the circuit court of any county or city may provide remote access, including Internet access, to all nonconfidential court records *on an automated case management or other system* maintained by his office and described in § 17.1-242. The clerk shall be responsible for insuring that proper security measures are implemented and maintained to prevent remote access users from obtaining any data that are confidential under this Code and to prevent the modification or destruction of any records by remote access users. For purposes of this section, remote access users are those individuals who are not employees of the clerk's office. Secure remote access to land records shall be governed by § 17.1-294.

§ 17.1-242. Custody of books, records, etc.

The circuit court clerks shall have custody of and shall keep all *court records, including books, evidence, records, maps, and papers, deposited in their offices or at such location otherwise designated by the clerk*, as well as records stored in electronic format whether the storage media for such electronic records are on premises or elsewhere.

§ 17.1-243. Clerks to have land books bound.

~~The circuit courts~~ *Except those clerks using an automated system, clerks* shall bind, in volumes of convenient size, all books in their respective clerks' offices not currently bound showing the assessments of lands since the year 1850, and shall bind in like volumes such books hereafter filed in their clerks' offices at intervals of not more than five years.

§ 17.1-258.3. Electronic filing in civil or criminal proceedings.

Any clerk of circuit court may establish and operate a system for electronic filing in civil or criminal proceedings that shall be governed by the Rules of the Supreme Court of Virginia. The circuit court clerk may require each person whom the clerk authorizes to file documents electronically to provide proof of identity to the clerk and to enter into an agreement specifying the electronic filing procedures to be followed, including, but not limited to, security procedures, as defined in the Uniform Electronic Transactions Act (§ 59.1-479 et seq.), for transmitting signed or notarized documents. The clerk may charge copy fees per page, as provided in subdivision A 8 of § 17.1-275, and obtain reimbursement for fees paid by subscribers to its designated application service providers for the technology systems used to operate electronic filing in civil and criminal cases in the clerk's office. The fees and reimbursements collected shall be deposited by the clerk into the clerk's nonreverting local fund to be used to cover operational expenses as defined in § 17.1-295. Nothing herein shall be construed to prevent the clerk from entering into agreements with designated application service providers to provide all or part of the network or system for electronic filing of civil or criminal records as provided herein. Further, nothing herein shall be construed to require the electronic filing of any civil or criminal record, and such records may continue to be filed in paper form.

Any clerk of circuit court with an electronic filing system established in accordance with the Rules of the Supreme Court of Virginia may charge an additional \$2 fee for every civil case initially filed by paper, except that a person who is determined to be indigent pursuant to § 19.2-159 shall be exempt from the payment of such fee. The fee shall be paid to the clerk's office and deposited by the clerk into the clerk's nonreverting local fund to be exclusively used to cover the operational expenses ~~of the electronic filing system~~ *as defined in § 17.1-295.*

§ 17.1-279. Additional fee to be assessed by circuit court clerks for information technology.

A. In addition to the fees otherwise authorized by this chapter, the clerk of each circuit court shall assess a \$5 fee, known as the "Technology Trust Fund Fee," in each civil action, upon each instrument to be recorded in the deed books, and upon each judgment to be docketed in the judgment lien docket book. Such fee shall be deposited by the State Treasurer into a trust fund. The State Treasurer shall maintain a record of such deposits.

B. Four dollars of every \$5 fee shall be allocated by the Compensation Board from the trust fund for the purposes of: (i) developing and updating individual land records automation plans for individual circuit court clerks' offices; (ii) implementing automation plans to modernize land records in individual circuit court clerks' offices and provide secure remote access to land records throughout the Commonwealth pursuant to § 17.1-294; (iii) obtaining and updating office automation and information technology equipment including software and conversion services; (iv) preserving, maintaining and enhancing court records, including, but not limited to, the costs of repairs, maintenance, land records, consulting services, service contracts, redaction of social security numbers from land records, and system replacements or upgrades; and (v) improving public access to court records. The Compensation Board in consultation with circuit court clerks and other users of court records shall develop and update policies governing the allocation of funds for these purposes. However, such funds shall not be used for personnel costs within the circuit court clerks' offices. The Compensation Board policies governing the allocation of funds shall require that a clerk submit to the Compensation Board a written certification

that the clerk's proposed technology improvements of his land records will provide secure remote access to those land records on or before July 1, 2008.

The annual budget submitted by each circuit court clerk pursuant to § 15.2-1636.7 may include a request for technology improvements in the upcoming fiscal year to be allocated by the Compensation Board from the trust fund. Such request shall not exceed the deposits into the trust fund credited to that locality. The Compensation Board shall allocate the funds requested by the clerks in an amount not to exceed the deposits into the trust fund credited to their respective localities.

C. The remaining \$1 of each such fee may be allocated by the Compensation Board from the trust fund (i) for the purposes of funding studies to develop and update individual land-records automation plans for individual circuit court clerks' offices, at the request of and in consultation with the individual circuit court clerk's offices, and (ii) for the purposes enumerated in subsection B to implement the plan to modernize land records in individual circuit court clerks' offices and provide secure remote access to land records throughout the Commonwealth. The allocations pursuant to this subsection may give priority to those individual clerks' offices whose deposits into the trust fund would not be sufficient to implement its modernization plan. The Compensation Board policies governing the allocation of funds shall require that a clerk submit to the Compensation Board a written certification that the clerk's proposed technology improvements of his land records will provide secure remote access to those land records on or before July 1, 2008.

D. 1. Secure remote access to land records shall be by paid subscription service through individual circuit court clerk's offices pursuant to § 17.1-276, or through designated application service providers. The clerk may require any entity that is a nonresident of the Commonwealth, prior to becoming a subscriber, to demonstrate that such entity is authorized to do business in Virginia and is in good standing with the State Corporation Commission or other applicable state or federal regulatory agency and that such entity will comply with the secure remote access standards developed by the Virginia Information Technologies Agency pursuant to § 17.1-294. In the case of an individual, the clerk may require a person who is a nonresident of the Commonwealth to demonstrate that such person has a legal presence in Virginia and will comply with the secure remote access standards developed by the Virginia Information Technologies Agency pursuant to § 17.1-294. Compliance with secure remote access standards developed by the Virginia Information Technologies Agency pursuant to § 17.1-294 shall be certified by the individual circuit court clerks' offices to the Compensation Board. The individual circuit court clerk's office or its designated application service provider shall certify compliance with such secure remote access standards. *Nothing in this section shall prohibit the clerk from entering into a subscriber agreement with an agency of the Commonwealth and delegating the responsibility for compliance with such secure remote access standards to such agency.* Nothing in this section shall prohibit the Compensation Board from allocating trust fund money to individual circuit court clerks' offices for the purpose of complying with such secure remote access standards or redaction of social security numbers from land records.

2. Every circuit court clerk shall provide secure remote access to land records pursuant to § 17.1-294 on or before July 1, 2008.

E. Such fee shall not be assessed to any instrument to be recorded in the deed books nor any judgment to be docketed in the judgment lien docket books tendered by any federal, state or local government.

F. If such an application includes automation or technology improvements that would require an interface with the case management system or the financial management system operated and maintained by the Executive Secretary of the Supreme Court for the purpose of providing electronic information to state agencies in accordance with § 17.1-502, the circuit court clerk, or the court's designated application service provider, shall certify to the Compensation Board that such automation or technology improvements will comply with the security and data standards of the systems operated and maintained by the Executive Secretary of the Supreme Court.

G. Information regarding the technology programs adopted by the circuit court clerks shall be shared with the Virginia Information Technologies Agency, The Library of Virginia, and the Office of the Executive Secretary of the Supreme Court.

H. Nothing in this section shall be construed to diminish the duty of local governing bodies to furnish supplies and equipment to the clerks of the circuit courts pursuant to § 15.2-1656. Revenue raised as a result of this section shall in no way supplant current funding to circuit court clerks' offices by local governing bodies.

I. Effective July 1, 2006, except for transfers pursuant to this section, there shall be no transfers out of the Technology Trust Fund, including transfers to the general fund.

§ 17.1-293. Posting and availability of certain information on the Internet; prohibitions.

A. Notwithstanding Chapter 37 (§ 2.2-3700 et seq.) of Title 2.2 or subsection B, it shall be unlawful for any court clerk to disclose the social security number or other identification numbers appearing on driver's licenses or information on credit cards, debit cards, bank accounts, or other electronic billing and payment systems that was supplied to a court clerk for the purpose of paying fees, fines, taxes, or other charges collected by such court clerk. The prohibition shall not apply where disclosure of such information is required (i) to conduct or complete the transaction for which such information was submitted or (ii) by other law or court order.

B. Beginning January 1, 2004, no court clerk shall post on the Internet any document that contains the following information: (i) an actual signature, (ii) a social security number, (iii) a date of birth identified with a particular person, (iv) the maiden name of a person's parent so as to be identified with a particular person, (v) any financial account number or numbers, or (vi) the name and age of any minor child.

C. Each such clerk shall post notice that includes a list of the documents routinely posted on its website. However, the clerk shall not post information on his website that includes private activity for private financial gain.

D. Nothing in this section shall be construed to prohibit access to any original document as provided by law.

E. This section shall not apply to the following:

1. Providing access to any document among the land records via secure remote access pursuant to § 17.1-294;
2. Postings related to legitimate law-enforcement purposes;
3. Postings of historical, genealogical, interpretive, or educational documents and information about historic persons and events;
4. Postings of instruments and records filed or recorded ~~prior to 1907~~ *that are more than 100 years old*;
5. Providing secure remote access to any person, his counsel, or staff which counsel directly supervises to documents filed in matters to which such person is a party;
6. Providing official certificates and certified records in digital form of any document maintained by the clerk pursuant to § 17.1-258.3:2; and
7. Providing secure remote access to nonconfidential court records, subject to any fees charged by the clerk, to members in good standing with the Virginia State Bar and their authorized agents, pro hac vice attorneys authorized by the court for purposes of the practice of law, and such governmental agencies as authorized by the clerk.

F. Nothing in this section shall prohibit the Supreme Court or any other court clerk from providing online access to a case management system that may include abstracts of case filings and proceedings in the courts of the Commonwealth.

G. The court clerk shall be immune from suit arising from any acts or omissions relating to providing remote access on the Internet pursuant to this section unless the clerk was grossly negligent or engaged in willful misconduct.

This subsection shall not be construed to limit, withdraw, or overturn any defense or immunity already existing in statutory or common law, or to affect any cause of action accruing prior to July 1, 2005.

H. Nothing in this section shall be construed to permit any data accessed by secure remote access to be sold or posted on any other website or in any way redistributed to any third party, and the clerk, in his discretion, may deny secure remote access to ensure compliance with these provisions. However, the data accessed by secure remote access may be included in products or services provided to a third party of the subscriber provided that (i) such data is not made available to the general public and (ii) the subscriber maintains administrative, technical, and security safeguards to protect the confidentiality, integrity, and limited availability of the data.

An Act to amend and reenact §§ 3.2-6581 and 3.2-6582 of the Code of Virginia, relating to hybrid canines.

[S 444]

Approved March 31, 2014

Be it enacted by the General Assembly of Virginia:

1. That §§ 3.2-6581 and 3.2-6582 of the Code of Virginia are amended and reenacted as follows:

§ 3.2-6581. Definitions.

As used in this article:

[S 473]

Approved March 31, 2014

Be it enacted by the General Assembly of Virginia:

1. That § 8.01-465.23 of the Code of Virginia is amended and reenacted and that the Code of Virginia is amended by adding in Chapter 17.2 of Title 8.01 sections numbered 8.01-465.13:1 through 8.01-465.13:11 as follows:

CHAPTER 17.2.

UNIFORM FOREIGN-COUNTRY MONEY JUDGMENTS FOREIGN-COUNTRY MONEY JUDGMENTS RECOGNITION ACT.

§ 8.01-465.13:1. Definitions.

As used in this chapter:

"Foreign country" means a government other than any of the following: the United States; a state, district, commonwealth, territory, or insular possession of the United States; or a government with regard to which the decision in the Commonwealth as to whether to recognize a judgment of that government's courts is initially subject to determination under the Full Faith and Credit Clause of the United States Constitution.

"Foreign-country judgment" means a judgment of a court of a foreign country.

§ 8.01-465.13:2. Applicability.

A. Except as otherwise provided in subsection B, this chapter applies to a foreign-country judgment to the extent that the judgment:

1. Grants or denies recovery of a sum of money; and
2. Under the law of the foreign country where rendered, is final, conclusive, and enforceable.

B. This chapter does not apply to a foreign-country judgment, even if the judgment grants or denies recovery of a sum of money, to the extent that the judgment is:

1. A judgment for taxes;
2. A fine or other penalty; or
3. A judgment for divorce, support, or maintenance, or other judgment rendered in connection with domestic relations.

C. A party seeking recognition of a foreign-country judgment has the burden of establishing that this chapter applies to the foreign-country judgment.

§ 8.01-465.13:3. Standards for recognition of foreign-country judgment.

A. Except as otherwise provided in subsections B and C, a court of the Commonwealth shall recognize a foreign-country judgment to which this chapter applies.

B. A court of the Commonwealth shall not recognize a foreign-country judgment if:

1. The judgment was rendered under a judicial system that does not provide impartial tribunals or procedures compatible with the requirements of due process of law;

2. The foreign court did not have personal jurisdiction over the defendant; or

3. The foreign court did not have jurisdiction over the subject matter.

C. A court of the Commonwealth need not recognize a foreign-country judgment if:

1. The defendant in the proceeding in the foreign court did not receive notice of the proceeding in sufficient time to enable the defendant to defend;

2. The judgment was obtained by fraud that deprived the losing party of an adequate opportunity to present its case;

3. The judgment or the cause of action on which the judgment is based is repugnant to the public policy of the Commonwealth or of the United States;

4. The judgment conflicts with another final and conclusive judgment;

5. The proceeding in the foreign court was contrary to an agreement between the parties under which the dispute in question was to be determined otherwise than by proceedings in that foreign court;

6. In the case of jurisdiction based only on personal service, the foreign court was a seriously inconvenient forum for the trial of the action;

7. The judgment was rendered in circumstances that raise substantial doubt about the integrity of the rendering court with respect to the judgment; or

8. The specific proceeding in the foreign court leading to the judgment was not compatible with the requirements of due process of law.

D. A party resisting recognition of a foreign-country judgment has the burden of establishing that a ground for nonrecognition stated in subsection B or C exists.

§ 8.01-465.13:4. Personal jurisdiction.

A. A foreign-country judgment may not be refused recognition for lack of personal jurisdiction if:

1. The defendant was served with process personally in the foreign country;

2. The defendant voluntarily appeared in the proceeding, other than for the purpose of protecting property seized or threatened with seizure in the proceeding or of contesting the jurisdiction of the court over the defendant;

3. The defendant, before the commencement of the proceeding, had agreed to submit to the jurisdiction of the foreign court with respect to the subject matter involved;

4. The defendant was domiciled in the foreign country when the proceeding was instituted or was a corporation or other form of business organization that had its principal place of business in, or was organized under the laws of, the foreign country;

5. The defendant had a business office in the foreign country and the proceeding in the foreign court involved a cause of action arising out of business done by the defendant through that office in the foreign country; or

6. The defendant operated a motor vehicle or airplane in the foreign country and the proceeding involved a cause of action arising out of that operation.

B. The list of bases for personal jurisdiction in subsection A is not exclusive. The courts of the Commonwealth may recognize bases of personal jurisdiction other than those listed in subsection A as sufficient to support a foreign-country judgment.

§ 8.01-465.13:5. Procedure for recognition of foreign-country judgment.

A. If recognition of a foreign-country judgment is sought as an original matter, the issue of recognition shall be raised by filing an action seeking recognition of the foreign-country judgment.

B. If recognition of a foreign-country judgment is sought in a pending action, the issue of recognition may be raised by counterclaim, cross-claim, or affirmative defense.

§ 8.01-465.13:6. Effect of recognition of foreign-country judgment.

If the court in a proceeding under § 8.01-465.13:5 finds that the foreign-country judgment is entitled to recognition under this chapter then, to the extent that the foreign-country judgment grants or denies recovery of a sum of money, the foreign-country judgment is:

1. Conclusive between the parties to the same extent as the judgment of a sister state entitled to full faith and credit in the Commonwealth would be conclusive; and

2. Enforceable in the same manner and to the same extent as a judgment rendered in the Commonwealth.

§ 8.01-465.13:7. Stay of proceedings pending appeal of foreign-country judgment.

If a party establishes that an appeal from a foreign-country judgment is pending or will be taken, the court may stay any proceedings with regard to the foreign-country judgment until the appeal is concluded, the time for appeal expires, or the appellant has had sufficient time to prosecute the appeal and has failed to do so.

§ 8.01-465.13:8. Statute of limitations.

An action to recognize a foreign-country judgment must be commenced within the earlier of the time during which the foreign-country judgment is effective in the foreign country or 15 years from the date that the foreign-country judgment became effective in the foreign country.

§ 8.01-465.13:9. Uniformity of interpretation.

In applying and construing this uniform act, consideration must be given to the need to promote uniformity of the law with respect to its subject matter among states that enact it.

§ 8.01-465.13:10. Saving clause.

This chapter does not prevent the recognition under principles of comity or otherwise of a foreign-country judgment not within the scope of this chapter.

§ 8.01-465.13:11. Effective date.

This chapter applies to all actions commenced on or after July 1, 2014, in which the issue of recognition of a foreign-country judgment is raised.

§ 8.01-465.23. Enforcement of foreign judgments.

If an action is brought to enforce a judgment of another jurisdiction expressed in a foreign money and the judgment is enforceable in the Commonwealth, the enforcing judgment must be entered as provided in § 8.01-465.20, whether or not the foreign judgment confers an option to pay in an equivalent amount of United States dollars.

A foreign judgment may be filed in accordance with Chapter 17.1 (§ 8.01-465.1 et seq.) ~~and~~ or Chapter 17.2 (§ ~~8.01-465.6~~ 8.01-465.13:1 et seq.) ~~of this title.~~

A satisfaction or partial payment made upon the foreign judgment, on proof thereof, must be credited against the amount of foreign money specified in the judgment, notwithstanding the entry of judgment in the Commonwealth.

A judgment entered on a foreign-money claim only in United States dollars in another state shall be enforced in United States dollars only.

2. That §§ 8.01-465.6 through 8.01-465.13 of the Code of Virginia are repealed.

B. Grants paid to the qualified manufacturer pursuant to this section are intended to be used for workforce development, instructional, or training purposes so as to enhance the skill sets of qualified employees.

C. Any qualified manufacturer that is eligible to receive a special training grant shall (i) report to the Secretary quarterly the number of new qualified employees hired and trained who have been employed for at least 90 days and for whom a special training grant has not been previously paid pursuant to this section, and (ii) provide evidence of the hiring and training of the new qualified employees described in clause (i). The application and evidence shall be filed with the Secretary in person or by mail. For filings by mail, the postmark cancellation shall govern the date of the filing determination. Within 30 days after such evidence has been provided by the qualified manufacturer, the Secretary shall certify to (a) the Comptroller and (b) each qualified manufacturer the amount of the special training grant to which such

qualified manufacturer is entitled under this section for payment within 60 days after such certification. Payment of such grant shall be made by check issued by the Treasurer of Virginia on warrant of the Comptroller.

The special training grants under this section (1) shall be paid, subject to appropriation by the General Assembly, from a fund entitled the Aerospace Engine Manufacturer Workforce Training Grant Fund, which Fund is hereby established on the books of the Comptroller, (2) shall not exceed \$5,778,000 in the aggregate, and (3) shall be paid to or for the benefit of the qualified manufacturer on a quarterly basis.

The numerator of the fraction shall equal the aggregate amount available for payment from the Aerospace Engine Manufacturer Workforce Training Grant Fund for that fiscal year, and the denominator shall equal the aggregate dollar amount of grants to which all qualified manufacturers otherwise would be eligible for such fiscal year.

F. Notwithstanding any other provision of this section, in lieu of payment of special training grants by check to qualified manufacturers, the Secretary may determine that such special training grants shall be administered in a manner similar to existing training grant programs such as those permitted by § ~~2.2-1605~~ 2.2-2240.3.

G. As a condition of receipt of a grant, a qualified manufacturer shall make available to the Secretary or his designee for inspection upon his request all relevant and applicable documents to determine the aggregate number of new qualified employees hired and the aggregate amount of capital investment. The Comptroller shall not draw any warrants to issue checks for a special training grant or a supplemental training grant under this section without a specific appropriation for the same. CHAPTER 465

An Act to amend and reenact § 56-585.2 of the Code of Virginia, relating to the regulation of electric utilities; renewable energy portfolio standard program.

[S 498]

Approved March 31, 2014

Be it enacted by the General Assembly of Virginia:

1. That § 56-585.2 of the Code of Virginia is amended and reenacted as follows:

§ 56-585.2. Sale of electricity from renewable sources through a renewable energy portfolio standard program.

A. As used in this section:

"Qualified investment" means an expense incurred in the Commonwealth by a participating utility in conducting, either by itself or in partnership with institutions of higher education in the Commonwealth or with industrial or commercial customers that have established renewable energy research and development programs in the Commonwealth, research and development activities related to renewable or alternative energy sources, which expense (i) is designed to enhance the participating utility's understanding of emerging energy technologies and their potential impact on and value to the utility's system and customers within the Commonwealth; (ii) promotes economic development within the Commonwealth; (iii) supplements customer-driven alternative energy or energy efficiency initiatives; (iv) supplements alternative energy and energy efficiency initiatives at state or local governmental facilities in the Commonwealth; or (v) is designed to mitigate the environmental impacts of renewable energy projects.

"Renewable energy" shall have the same meaning ascribed to it in § 56-576, provided such renewable energy is (i) generated in the Commonwealth or in the interconnection region of the regional transmission entity of which the participating utility is a member, as it may change from time to time, and purchased by a participating utility under a power purchase agreement; provided, however, that if such agreement was executed on or after July 1, 2013, the agreement shall expressly transfer ownership of renewable attributes, in addition to ownership of the energy, to the participating utility; (ii) generated by a public utility providing electric service in the Commonwealth from a facility in which the public utility owns at least a 49 percent interest and that is located in the Commonwealth, in the interconnection region of the regional transmission entity of which the participating utility is a member, or in a control area adjacent to such interconnection region; or (iii) represented by renewable energy certificates. "Renewable energy" shall not include electricity generated from pumped storage, but shall include run-of-river generation from a combined pumped-storage and run-of-river facility.

"Renewable energy certificate" means either (i) a certificate issued by an affiliate of the regional transmission entity of which the participating utility is a member, as it may change from time to time, or any successor to such affiliate, and held or acquired by such utility, that validates the generation of renewable energy by eligible sources in the interconnection region of the regional transmission entity or (ii) a certificate issued by the Commission pursuant to subsection J and held or acquired by a participating utility, that validates a qualified investment made by the participating utility.

"Total electric energy sold in the base year" means total electric energy sold to Virginia jurisdictional retail customers by a participating utility in calendar year 2007, excluding an amount equivalent to the average of the annual percentages of the electric energy that was supplied to such customers from nuclear generating plants for the calendar years 2004 through 2006.

B. Any investor-owned incumbent electric utility may apply to the Commission for approval to participate in a renewable energy portfolio standard program, as defined in this section. The Commission shall approve such application if the applicant demonstrates that it has a reasonable expectation of achieving 12 percent of its base year electric energy sales from renewable energy sources during calendar year 2022, and 15 percent of its base year electric energy sales from renewable energy sources during calendar year 2025, as provided in subsection D.

C. It is in the public interest for utilities that seek to have a renewable energy portfolio standard program to achieve the goals set forth in subsection D, such goals being referred to herein as "RPS Goals." A utility shall receive double credit toward meeting the renewable energy portfolio standard for energy derived from sunlight, from onshore wind, or from facilities in the Commonwealth fueled primarily by animal waste, and triple credit toward meeting the renewable energy portfolio standard for energy derived from offshore wind.

D. Regarding any renewable energy portfolio standard program, the total electric energy sold by a utility to meet the RPS Goals shall be composed of the following amounts of electric energy or renewable thermal energy equivalent from renewable energy sources, as adjusted for any sales volumes lost through operation of the customer choice provisions of subdivision A 3 or A 4 of § 56-577:

RPS Goal I: In calendar year 2010, 4 percent of total electric energy sold in the base year.

RPS Goal II: For calendar years 2011 through 2015, inclusive, an average of 4 percent of total electric energy sold in the base year, and in calendar year 2016, 7 percent of total electric energy sold in the base year.

RPS Goal III: For calendar years 2017 through 2021, inclusive, an average of 7 percent of total electric energy sold in the base year, and in calendar year 2022, 12 percent of total electric energy sold in the base year.

RPS Goal IV: For calendar years 2023 and 2024, inclusive, an average of 12 percent of total electric energy sold in the base year, and in calendar year 2025, 15 percent of total electric energy sold in the base year.

A utility may not apply renewable energy certificates issued pursuant to subsection J to meet more than 20 percent of the sales requirement for the RPS Goal in any year.

A utility may apply renewable energy sales achieved or renewable energy certificates acquired during the periods covered by any such RPS Goal that are in excess of the sales requirement for that RPS Goal to the sales requirements for any future RPS Goal ~~Goals~~ *Goals in the five calendar years after the renewable energy was generated or the renewable energy certificates were created, except that a utility shall be able to apply renewable energy certificates acquired by the utility prior to January 1, 2014.*

E. A utility participating in such program shall have the right to recover all incremental costs incurred for the purpose of such participation in such program, as accrued against income, through rate adjustment clauses as provided in subdivisions A 5 and A 6 of § 56-585.1, including, but not limited to, administrative costs, ancillary costs, capacity costs, costs of energy represented by certificates described in subsection A, and, in the case of construction of renewable energy

generation facilities, allowance for funds used during construction until such time as an enhanced rate of return, as determined pursuant to subdivision A 6 of § 56-585.1, on construction work in progress is included in rates, projected construction work in progress, planning, development and construction costs, life-cycle costs, and costs of infrastructure associated therewith, plus an enhanced rate of return, as determined pursuant to subdivision A 6 of § 56-585.1. This subsection shall not apply to qualified investments as provided in subsection K. All incremental costs of the RPS program shall be allocated to and recovered from the utility's customer classes based on the demand created by the class and within the class based on energy used by the individual customer in the class, except that the incremental costs of the RPS program shall not be allocated to or recovered from customers that are served within the large industrial rate classes of the participating utilities and that are served at primary or transmission voltage.

F. A utility participating in such program shall apply towards meeting its RPS Goals any renewable energy from existing renewable energy sources owned by the participating utility or purchased as allowed by contract at no additional cost to customers to the extent feasible. A utility participating in such program shall not apply towards meeting its RPS Goals renewable energy certificates attributable to any renewable energy generated at a renewable energy generation source in operation as of July 1, 2007, that is operated by a person that is served within a utility's large industrial rate class and that is served at primary or transmission voltage, except for those persons providing renewable thermal energy equivalents to the utility. A participating utility shall be required to fulfill any remaining deficit needed to fulfill its RPS Goals from new renewable energy supplies at reasonable cost and in a prudent manner to be determined by the Commission at the time of approval of any application made pursuant to subsection B. A participating utility may sell renewable energy certificates produced at its own generation facilities located in the Commonwealth or, if located outside the Commonwealth, owned by such utility and in operation as of January 1, 2010, or renewable energy certificates acquired as part of a purchase power agreement, to another entity and purchase lower cost renewable energy certificates and the net difference in price between the renewable energy certificates shall be credited to customers. Utilities participating in such program shall collectively, either through the installation of new generating facilities, through retrofit of existing facilities or through purchases of electricity from new facilities located in Virginia, use or cause to be used no more than a total of 1.5 million tons per year of green wood chips, bark, sawdust, a tree or any portion of a tree which is used or can be used for lumber and pulp manufacturing by facilities located in Virginia, towards meeting RPS goals, excluding such fuel used at electric generating facilities using wood as fuel prior to January 1, 2007. A utility with an approved application shall be allocated a portion of the 1.5 million tons per year in proportion to its share of the total electric energy sold in the base year, as defined in subsection A, for all utilities participating in the RPS program. A utility may use in meeting RPS goals, without limitation, the following sustainable biomass and biomass based waste to energy resources: mill residue, except wood chips, sawdust and bark; pre-commercial soft wood thinning; slash; logging and construction debris; brush; yard waste; shipping crates; dunnage; non-merchantable waste paper; landscape or right-of-way tree trimmings; agricultural and vineyard materials; grain; legumes; sugar; and gas produced from the anaerobic decomposition of animal waste.

G. The Commission shall promulgate such rules and regulations as may be necessary to implement the provisions of this section including a requirement that participants verify whether the RPS goals are met in accordance with this section.

H. Each investor-owned incumbent electric utility shall report to the Commission annually by November 1 identifying:

1. The utility's efforts, if any, to meet the RPS Goals, specifically identifying:

a. A list of all states where the purchased or owned renewable energy was generated, specifying the number of megawatt hours or renewable energy certificates originating from each state;

b. A list of the decades in which the purchased or owned renewable energy generating units were placed in service, specifying the number of megawatt hours or renewable energy certificates originating from those units; and

c. A list of fuel types used to generate the purchased or owned renewable energy, specifying the number of megawatt hours or renewable energy certificates originating from each fuel type;

2. The utility's overall generation of renewable energy; and

3. Advances in renewable generation technology that affect activities described in subdivisions 1 and 2.

I. The Commission shall post on its website the reports submitted by each investor-owned incumbent electric utility pursuant to subsection H.

J. The Commission shall issue to a participating utility a number of renewable energy certificates for qualified investments, upon request by a participating utility, if it finds that an expense satisfies the conditions set forth in this section for a qualified investment, as follows:

1. By March 31 of each year, the participating utility shall provide an analysis, as reasonably determined by a qualified independent broker, of the average for the preceding year of the publicly available prices for Tier 1 renewable energy certificates and Tier 2 renewable energy certificates, validating the generation of renewable energy by eligible sources, that were issued in the interconnection region of the regional transmission entity of which the participating utility is a member;

2. In the same annual analysis provided to the Commission, the participating utility shall divide the amount of the participating utility's qualified investments in the applicable period by the average price determined pursuant to subdivision 1;

3. The number of renewable energy certificates to be issued to the participating utility shall equal the product obtained pursuant to subdivision 2; and

4. The Commission shall review and validate the analysis provided by the participating utility within 90 days of submittal of its analysis to the Commission. If no corrections are made by the Commission, then the analysis shall be deemed correct and the renewable energy certificates shall be deemed issued to the participating utility.

Each renewable energy certificate issued to a participating utility pursuant to this subsection shall represent the equivalent of one megawatt hour of renewable energy sales achieved when applied to an RPS Goal.

K. Qualified investments shall constitute reasonable and prudent operating expenses of a participating utility. Notwithstanding subsection E, a participating utility shall not be authorized to recover the costs associated with qualified investments through rate adjustment clauses as provided in subdivisions A 5 and A 6 of § 56-585.1. In any proceeding conducted pursuant to § 56-585.1 or other provision of this title in which a participating utility seeks recovery of its qualified investments as an operating expense, the participating utility shall not be authorized to earn a return on its qualified investments.

L. A participating utility shall not be eligible for a research and development tax credit pursuant to § 58.1-439.12:08 with regard to any expense incurred or investment made by the participating utility that constitutes a qualified investment pursuant to this section.

CHAPTER 466

An Act to amend and reenact § 19.2-123 of the Code of Virginia, relating to release of accused on bond; conditions of release.

[S 501]

Approved March 31, 2014

Be it enacted by the General Assembly of Virginia:

1. That § 19.2-123 of the Code of Virginia is amended and reenacted as follows:

§ 19.2-123. Release of accused on secured or unsecured bond or promise to appear; conditions of release.

A. Any person arrested for a felony who has previously been convicted of a felony, or who is presently on bond for an unrelated arrest in any jurisdiction, or who is on probation or parole, may be released only upon a secure bond. This provision may be waived with the approval of the judicial officer and with the concurrence of the attorney for the Commonwealth or the attorney for the county, city or town. Subject to the foregoing, when a person is arrested for either a felony or a misdemeanor, any judicial officer may impose any one or any combination of the following conditions of release:

1. Place the person in the custody and supervision of a designated person, organization or pretrial services agency which, for the purposes of this section, shall not include a court services unit established pursuant to § 16.1-233;

2. Place restrictions on the travel, association or place of abode of the person during the period of release and restrict contacts with household members for a *specified period not to exceed 72 hours of time*;

2a. Require the execution of an unsecured bond;

3. Require the execution of a secure bond which at the option of the accused shall be satisfied with sufficient solvent sureties, or the deposit of cash in lieu thereof. Only the actual value of any interest in real estate or personal property owned by the proposed surety shall be considered in determining solvency and solvency shall be found if the value of the proposed surety's equity in the real estate or personal property equals or exceeds the amount of the bond;

3a. Require that the person do any or all of the following: (i) maintain employment or, if unemployed, actively seek employment; (ii) maintain or commence an educational program; (iii) avoid all contact with an alleged victim of the crime and with any potential witness who may testify concerning the offense; (iv) comply with a specified curfew; (v) refrain from possessing a firearm, destructive device, or other dangerous weapon; (vi) refrain from excessive use of alcohol, or use of any illegal drug or any controlled substance not prescribed by a health care provider; and (vii) submit to testing for drugs and alcohol until the final disposition of his case;

3b. Place a prohibition on a person who holds an elected constitutional office and who is accused of a felony arising from the performance of his duties from physically returning to his constitutional office;

3c. Require the accused to accompany the arresting officer to the jurisdiction's fingerprinting facility and submit to having his photograph and fingerprints taken prior to release; or

4. Impose any other condition deemed reasonably necessary to assure appearance as required, and to assure his good behavior pending trial, including a condition requiring that the person return to custody after specified hours or be placed on home electronic incarceration pursuant to § 53.1-131.2 or, when the person is required to execute a secured bond, be subject to monitoring by a GPS (Global Positioning System) tracking device, or other similar device. The defendant may be ordered by the court to pay the cost of the device.

Upon satisfaction of the terms of recognizance, the accused shall be released forthwith.

In addition, where the accused is an individual receiving services in a state training center for individuals with intellectual disability, the judicial officer may place the individual in the custody of the director of the training center, if the director agrees to accept custody. The director is hereby authorized to take custody of the individual and to maintain him at the training center prior to a trial or hearing under such circumstances as will reasonably assure the appearance of the accused for the trial or hearing.

B. In any jurisdiction served by a pretrial services agency which offers a drug or alcohol screening or testing program approved for the purposes of this subsection by the chief general district court judge, any such person charged with a crime may be requested by such agency to give voluntarily a urine sample, submit to a drug or alcohol screening, or take a breath

test for presence of alcohol. A sample may be analyzed for the presence of phencyclidine (PCP), barbiturates, cocaine, opiates or such other drugs as the agency may deem appropriate prior to any hearing to establish bail. The judicial officer and agency shall inform the accused or juvenile being screened or tested that test results shall be used by a judicial officer only at a bail hearing and only to determine appropriate conditions of release or to reconsider the conditions of bail at a subsequent hearing. All screening or test results, and any pretrial investigation report containing the screening or test results, shall be confidential with access thereto limited to judicial officers, the attorney for the Commonwealth, defense counsel, other pretrial service agencies, any criminal justice agency as defined in § 9.1-101 and, in cases where a juvenile is screened or tested, the parents or legal guardian or custodian of such juvenile. However, in no event shall the judicial officer have access to any screening or test result prior to making a bail release determination or to determining the amount of bond, if any. Following this determination, the judicial officer shall consider the screening or test results and the screening or testing agency's report and accompanying recommendations, if any, in setting appropriate conditions of release. In no event shall a decision regarding a release determination be subject to reversal on the sole basis of such screening or test results. Any accused or juvenile whose urine sample has tested positive for such drugs and who is admitted to bail may, as a condition of release, be ordered to refrain from use of alcohol or illegal drugs and may be required to be tested on a periodic basis until final disposition of his case to ensure his compliance with the order. Sanctions for a violation of any condition of release, which violations shall include subsequent positive drug or alcohol test results or failure to report as ordered for testing, may be imposed in the discretion of the judicial officer and may include imposition of more stringent conditions of release, contempt of court proceedings or revocation of release. Any test given under the provisions of this subsection which yields a positive drug or alcohol test result shall be reconfirmed by a second test if the person tested denies or contests the initial drug or alcohol test positive result. The results of any drug or alcohol test conducted pursuant to this subsection shall not be admissible in any judicial proceeding other than for the imposition of sanctions for a violation of a condition of release.

C. [Repealed.]

D. Nothing in this section shall be construed to prevent an officer taking a juvenile into custody from releasing that juvenile pursuant to § 16.1-247. If any condition of release imposed under the provisions of this section is violated, a judicial officer may issue a *habeas corpus* or order to show cause why the recognizance should not be revoked.

E. Nothing in this section shall be construed to prevent a court from imposing a recognizance or bond designed to secure a spousal or child support obligation pursuant to § 16.1-278.16, Chapter 5 (§ 20-61 et seq.) of Title 20, or § 20-114 in addition to any recognizance or bond imposed pursuant to this chapter.

CHAPTER 467

An Act to amend and reenact §§ 56-235.9, 56-265.2:1, and 56-265.4 of the Code of Virginia and to amend the Code of Virginia by adding in Chapter 27 of Title 56 a section numbered 56-609, relating to natural gas utility regulation; upstream supply infrastructure projects.

[S 519]

Approved March 31, 2014

Be it enacted by the General Assembly of Virginia:

1. That §§ 56-235.9, 56-265.2:1, and 56-265.4 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding in Chapter 27 of Title 56 a section numbered 56-609 as follows:

§ 56-235.9. Recovery of funds used for capital projects prior to a rate case for strategic natural gas facilities.

A. As used in this section:

"Capitalized carrying cost" includes the return on the investment, depreciation, and tax.

"Natural gas transmission company" means any investor-owned public service company engaged in the business of transporting natural gas to more than one electric utility, natural gas utility, or non-jurisdictional customer.

"Natural gas utility" means any investor-owned public service company engaged in the business of furnishing natural gas service to the public.

"Strategic natural gas facility" includes, without limitation, a natural gas distribution or transmission pipeline, storage facility, compressor station, liquefied natural gas facility, peaking facility or other appurtenant facility, used to furnish natural gas service in the Commonwealth that, for a natural gas utility with fewer than 150,000 customers, adds stand-alone design day deliverability or designed send-out of at least 10,000 dekaTherms per day or two or more such facilities, regardless of size, that add design day deliverability or designed send out of at least 75,000 dekaTherms per day in the aggregate, and for a natural gas utility with 150,000 or more customers, adds stand-alone design day deliverability or designed send out of at least 20,000 dekaTherms per day or two or more such facilities, regardless of size, that add design day deliverability or designed send out of at least 100,000 dekaTherms per day in the aggregate, and for a natural gas transmission company, adds design day deliverability or designed send out of at least 100,000 dekaTherms per day in the aggregate.

B. Any natural gas utility that places a strategic natural gas facility into service on or after July 1, 2008, or natural gas transmission company that places a strategic natural gas facility into service on or after July 1, 2014, to serve its customers shall have the right to recover through its rates charged to those customers the entire prudently incurred costs of the facility including: planning, development and construction costs; costs of infrastructure associated therewith; an allowance for

funds used during construction; and the capitalized carrying cost from the time construction is completed and the asset is placed into service until the time that the Commission establishes new rates that include recovery of all costs as defined herein. Such recovery shall be permitted by allowing such costs to be recorded in the utility's plant accounts and included in rate base for purposes of cost recovery (i) in new rate schedules for service not offered under existing rate schedules or new rate schedules for expansion of existing services as permitted by § 56-235.4, (ii) in a rate case using the cost of service methodology set forth in § 56-235.2, or (iii) in a performance-based regulation plan authorized by § 56-235.6, subject to Commission determination that such costs were prudently incurred. The allowance for funds used during construction and the return on investment shall be calculated utilizing the weighted average cost of capital, including the cost of debt and cost of equity used in determining the natural gas utility's base rates in effect during the construction period of the strategic natural gas facility.

C. Nothing in this section shall be construed to prohibit the Commission from granting similar treatment to other natural gas facilities when the Commission deems such treatment to be in the public interest.

§ 56-265.2:1. Approval by Commission required for construction of certain gas pipelines and related facilities; notice and hearing.

A. Whenever a certificate is required pursuant to § 56-265.2 for the construction of a pipeline for the transmission or distribution of manufactured or natural gas, the Commission shall consider the effect of the pipeline on the environment, public safety, and economic development in the Commonwealth, and may establish such reasonably practical conditions as may be necessary to minimize any adverse environmental or public safety impact. In such proceedings, the Commission shall receive and consider all reports by state agencies concerned with environmental protection; and, if requested by any county or municipality in which the pipeline is proposed to be constructed, local comprehensive plans that have been adopted pursuant to Article 3 (§ 15.2-2223 et seq.) of Chapter 22 of Title 15.2.

B. The Commission shall not approve construction of any such pipeline unless the public utility has provided ~~thirty~~ 30 days' advance public notice of the proposed pipeline by (i) publishing a notice in a newspaper or newspapers of general circulation in each of the counties and municipalities through which the pipeline is proposed to be constructed, (ii) providing written notice to the governing body of each such county and municipality, (iii) causing to be sent a copy of the notice by first class mail to all owners of property within the route of the proposed pipeline, as indicated on the map or sketch of the route filed with the Commission, which requirement shall be satisfied by mailing the notice to such persons at such addresses as are indicated in the land books maintained by the commissioner of revenue, director of finance or treasurer of the county or municipality, and (iv) filing a copy of any plans, specifications, or maps of the proposed pipeline with the Commission, which plans, specifications, or maps shall be made available for public inspection at the Commission's business office, during normal business hours. Any notice required by this subsection shall include a written description of the proposed route the line is to follow, a map or sketch of the route, and information regarding the time period during which persons may request a public hearing under subsection C of this section.

C. If, within ~~forty five~~ 45 days after publication and mailing of the notices required in subsection B of this section, any interested party requests a public hearing, the Commission shall, as soon as reasonably practicable after such request, hold such hearing or hearings at such place as may be designated by the Commission. If written requests therefor are received from ~~twenty~~ 20 or more interested parties, the Commission shall hold at least one hearing in the area that would be affected by construction of the pipeline, for the purpose of receiving public comment on the proposal. If any hearing is to be held in the area affected, the Commission shall direct that a copy of the transcripts of any previous hearings held in the case be made available for public inspection at a convenient location in the area for a reasonable time before such local hearing.

D. For the purposes of this section, "interested parties" means the governing bodies of any counties or municipalities through which the pipeline is to be constructed, and persons residing or owning property within one-half mile of such pipeline. For the purposes of this section, "environment" or "environmental" shall be deemed to include in meaning "historic."

E. If a significantly different route is determined more desirable after the giving of the notice required in subsection B of this section, the Commission shall cause notice of the new route or routes to be published and mailed in accordance with subsection B of this section. The Commission shall thereafter comply with the provisions of this section to the full extent necessary to give interested parties in the newly affected areas the same protection afforded interested parties affected by the route described in the original notice.

F. Approval of a pipeline pursuant to this section shall be deemed to satisfy and supersede the requirements of § 15.2-2232 and local zoning ordinances with respect to such pipeline and related facilities; however, the Commission shall not approve the construction of a natural gas compressor station in an area zoned *exclusively* for residential use unless the public utility provides certification from the local governing body that the natural gas compressor station is consistent with the zoning ordinance. The certification required by this subsection shall be deemed to have been waived unless the local governing body informs the Commission and the public utility of the natural gas compressor station's compliance or noncompliance within ~~forty five~~ 45 days of the public utility's written request.

§ 56-265.4. Certificate to operate in territory of another certificate holder.

Except as provided in § 56-265.4:4, no certificate shall be granted to an applicant proposing to operate in the territory of any holder of a certificate unless and until it shall be proved to the satisfaction of the Commission that the service rendered by such certificate holder in such territory is inadequate to the requirements of the public necessity and convenience; and if the Commission shall be of opinion that the service rendered by such certificate holder in such territory

is in any respect inadequate to the requirements of the public necessity and convenience, such certificate holder shall be given reasonable time and opportunity to remedy such inadequacy before any certificate shall be granted to an applicant proposing to operate in such territory. *For the purposes of this section, the transportation of natural gas by pipeline, without providing service to end users within the territory, shall not be considered operating in the territory of another certificate holder.*

§ 56-609. Upstream natural gas supply infrastructure projects.

A. As used in this section, unless the context requires a different meaning:

"Eligible natural gas supply infrastructure costs" includes the investment in eligible natural gas supply infrastructure projects and the following:

1. Return on the investment. In calculating the return on investment, the Commission shall use the natural gas utility's then in effect weighted average cost of capital, including the cost of debt and equity, based on its regulatory capital structure used in determining the natural gas utility's base rates. The investment will be multiplied by the weighted average cost of capital to determine the return on investment;

2. A revenue conversion factor. Such factor, including income taxes, shall be applied to the required operating income resulting from the eligible natural gas supply infrastructure costs;

3. Operating and maintenance expense, which includes the amount of operating and maintenance expense utilized in production wells, processing the gas produced, and gathering, transmission, and distribution lines delivering the gas to a pipeline or distribution system;

4. Depreciation. In calculating depreciation, the Commission shall use the natural gas utility's current depreciation rates for investments in distribution infrastructure, as set out by appropriate asset class. The utility shall propose a basis for recovering for the depreciation or depletion of investments in other asset classes in the natural gas supply investment plan, including investments in natural gas reserves that will deplete based on their useful life or of associated facilities that may be retired upon depletion of natural gas reserves;

5. Property tax, severance tax, and any other taxes or government fees associated with production and transmission of natural gas; and

6. Carrying costs on the over-recovery or under-recovery of the eligible natural gas supply infrastructure costs. In calculating the carrying costs, the Commission shall use the natural gas utility's regulatory capital structure as determined in subdivision 1 of this definition.

"Eligible natural gas supply infrastructure projects" means capital investments in natural gas reserves and upstream pipelines and facilities that, alone or in combination with other projects or strategies, offer reasonably anticipated benefits to customers and markets, which benefits mean (i) savings in the delivered cost of gas versus long-term forward market projections available to the natural gas utility at the time of the capital investment or other alternatives, (ii) a reduction in the utility's overall portfolio price volatility, (iii) reduction in the utility's overall supply risk, or (iv) any combination of the savings or reductions described in clauses (i), (ii), and (iii). Any such customer benefit benchmarks shall be outlined in the natural gas utility's filings with the Commission pursuant to this section.

"Investment" means actual costs incurred on eligible natural gas supply infrastructure projects, including planning, development, and construction costs; actual costs of infrastructure associated therewith; and an allowance for funds used during construction. In calculating the allowance for funds used during construction, the Commission shall use the natural gas utility's actual regulatory capital structure as determined in subdivision 1 of the definition of eligible natural gas supply infrastructure costs.

"Natural gas reserves and upstream pipelines and facilities" means investments in natural gas reserves, production facilities (including equipment required to prepare the natural gas for use), gathering, transmission, and, within the natural gas utility's certificated service territory, any distribution pipelines necessary to deliver the reserves, and above-ground and below-ground storage used in the delivery of gas to existing natural gas transmission pipelines or distribution systems.

"Natural gas supply investment plan" means a plan filed by a natural gas utility that identifies proposed eligible natural gas supply infrastructure projects and its development of those projects with or without a third party.

B. A natural gas utility shall have the right to recover eligible natural gas supply infrastructure costs on an ongoing basis through the gas cost component of the utility's rate structure or other recovery mechanism approved by the Commission, provided that any such mechanism shall properly allocate costs. Natural gas utilities using the cost of service methodology set forth in § 56-235.2 or a performance-based regulation plan authorized by § 56-235.6 shall be eligible to file a plan. The plan shall include a timeline for the investment and completion of the proposed eligible natural gas supply infrastructure projects; provide for an estimated schedule for recovery of the related eligible natural gas supply infrastructure costs through the gas cost component of the utility's rate structure or other mechanism, including proposed depreciation rates for investments in non-distribution asset classes and how any revenue gains from the use of the pipelines by third parties will be used to offset eligible natural gas supply infrastructure costs; and demonstrate that the plan is in the public interest with due consideration to providing a portion of the utility's delivered supply at prices at or below the long-term projections as available and defined in the natural gas utility's filing, or reduction in the utility's overall supply risk, or reduction in the utility's overall portfolio price volatility, or a combination thereof. No project may provide an annual volume of natural gas that exceeds 12.5 percent of the natural gas utility's annual firm sales demand, and no combination of projects may provide an annual volume of natural gas that exceeds 25 percent of the natural gas utility's annual firm sales demand. The natural gas utility's weather-normalized firm sales demand for the calendar year preceding

the application shall be deemed to establish the annual firm sales demand for the purposes of calculating the volume and volumetric limits of projects. In no case shall any investment in reserves exceed 20 years. The Commission shall approve such a plan upon a finding that it is in the public interest after notice and an opportunity for hearing in accordance with the provisions of this chapter.

C. In addition to the items included in the plan as specified in subsection B, the plan may provide the utility with an option to receive the gas or sell the gas at market prices. A utility proposing this option as part of its plan shall propose how any revenue gains from the sale of the gas will be used to reduce the cost of gas to its customers. The Commission shall approve or deny, within 180 days, a natural gas utility's initial application for a natural gas supply infrastructure plan. A plan filed pursuant to this section shall not require the filing of rate case schedules. The Commission shall approve or deny, within 120 days, a natural gas utility's application to amend a previously approved plan. If the Commission denies such a plan or amendment, it shall set forth with specificity the reasons for such denial, and the utility shall have the right to refile, without prejudice, an amended plan or amendment within 60 days, and the Commission shall thereafter have 60 days to approve or deny the amended plan or amendment. If the plan is filed as part of a general rate case using the cost of service methodology set forth in § 56-235.2 or a performance-based regulation plan authorized by § 56-235.6, then the Commission shall approve or deny the plan concurrent with or as part of the general rate case decision.

D. No other revenue requirement or ratemaking issues shall be examined in consideration of the initial plan filed pursuant to the provisions of this section.

E. A gas utility with an approved natural gas supply infrastructure plan shall annually file a report of the eligible natural gas supply infrastructure investment made, the eligible natural gas supply infrastructure costs incurred and the amount of such costs recovered, the volume of gas delivered to customers or sold to third parties during the 12-month reporting period, and an analysis of the price of gas delivered to the natural gas utility customers and the market cost of gas during the 12-month period. However, such analysis shall not affect a gas utility's right to recover all eligible natural gas supply infrastructure costs as set forth in subsection B. The report shall also identify the balance of over-recovery or under-recovery of the eligible natural gas supply infrastructure costs at the end of the reporting period and the projected investment to be made, the projected infrastructure costs to be incurred, and the projected costs to be recovered during the next 12-month reporting period.

F. Costs recovered pursuant to this section shall be in addition to all other costs that the natural gas utility is permitted to recover and shall not be considered an offset to other Commission-approved costs of service or revenue requirements.

§ 33.1-287. Cessation of tolls.

When the particular revenue bonds issued for any project or projects and the interest thereon have been paid, or a sufficient amount has been provided for their payment and continues to be held for that purpose, the Board shall cease to charge tolls for the use of such project or projects and thereafter such project or projects shall be free; however, the Board may thereafter charge tolls for the use of any such project when tolls are required for maintaining, repairing, operating, improving, and reconstructing such project, when such tolls have been or are pledged by the Board to the payment of revenue bonds issued under the provisions of the article for another project or projects on approval of the General Assembly or when such tolls are designated by the Board to be deposited into the Transportation Trust Fund. But any such pledge of tolls of a project to the payment of bonds issued for another project shall not be effectual until the principal and interest of the bonds issued for the first mentioned project shall have been paid or provision made for their payment.

§ 33.1-288. Use of certain funds by Board.

The Board may, in its discretion, use any part of funds available for the construction of state highways, in any construction district in which any project authorized for toll revenue bond financing by the Commonwealth Transportation Board as described in § 33.1-268 or by the Richmond Metropolitan *Transportation* Authority as described by Chapter 70 (§ 15.2-7000 et seq.) of Title 15.2 is wholly or partly located, to aid in the payment of the cost of such projects and for the payment, purchase or redemption of revenue bonds issued in connection with any such project, or in connection with any such project and any one or more other projects. The Board may also, in its discretion, use any part of funds available for the maintenance of state highways, in any construction district in which any such project is wholly or partly located, to provide for the operation, maintenance and repair of any such project and for the payment of interest on revenue bonds issued in connection with any such project, or in connection with any such project and any one or more other projects; provided further, the Commonwealth Transportation Board may, in its discretion, use funds under the terms of this section for the emergency operation, maintenance and repair of the project of the Chesapeake Bay Bridge and Tunnel Commission as described by § 33.1-253 in the event of damage to the bridge under a repayment agreement approved by the bond trustee, and may also pay to the Chesapeake Bay Bridge and Tunnel Commission, for aid in the maintenance of the project, the same amounts authorized by § 33.1-41.1 for payments for maintenance to certain incorporated towns and cities.

Provided, however, that in the event the Board uses any part of the fund available to itself for the construction of roads in the State Highway System without reference to construction districts, commonly called the "gap fund," for any purpose permitted by this section, it shall not expend in excess of three eighths of the amount of such fund, including other amounts of such fund that may be expended in the three districts in which such projects are located; and provided, further, that in no case shall any of the funds of any construction district other than those in which the projects are located be used for the purposes of this article.

The region for which such Authority shall exist shall be coterminous with the boundaries of the participating political subdivisions. The Authority shall be charged with the following duties:

1. Identify land, either owned by the Commonwealth or private holdings, that can be secured for use by the general public as a public access site;

5. Develop appropriate acquisition and site management plans for public access usage;

6. Determine which holdings should be sold to advance the mission of the Authority;

7. Receive and expend public funds and private donations in order to restore or create tidal wetlands within the region for which the Authority exists, provided that any tidal mitigation credits resulting from such restoration or creation projects shall be held by the Authority for the benefit and use of participating political subdivisions and shall not be sold or conveyed to any private party by the Authority or any participating political subdivision;

8. Receive and expend public funds and private donations and apply for permits in order to perform dredging projects on waterways and construct facilities and infrastructure within the region for which the Authority exists, provided that such projects enhance recreational and commercial public access; and

9. Perform other duties required to fulfill the mission of the Authority.

In any suit, action, or proceeding involving the validity or enforcement of or relating to any contract of the Authority, the Authority shall be deemed to have been created as a body corporate and to have been established and authorized to transact business and exercise its powers hereunder upon proof of the adoption of a resolution as aforesaid by the participating political subdivisions declaring that there is a need for such Authority. A copy of such resolution duly certified by the clerks of the counties by which it is adopted shall be admissible as evidence in any suit, action, or proceeding. Any political subdivision of the Commonwealth is authorized to join such Authority pursuant to the terms and conditions of this act.

The ownership and operation by the Authority of any public access sites and related facilities and the exercise of powers conferred by this act are proper and essential governmental functions and public purposes and matters of public necessity for which public moneys may be spent and private property acquired. The Authority is a regional entity of government by or on behalf of which debt may be contracted by or on behalf of any county pursuant to Article VII, Section 10 (a) of the Constitution of Virginia.

The Authority shall have the power to adopt, amend, and repeal rules, regulations, and minimum standards for the use, maintenance, and operation of its facilities and governing the conduct of persons and organizations using its facilities.

Unless the Authority shall by unanimous vote of the board of directors determine that an emergency exists, the Authority shall, prior to the adoption of any rule or regulation or alteration, amendment, or modification thereof:

1. Make such rule, regulation, alteration, amendment, or modification in convenient form available for public inspection in the office of the Authority for at least 10 days; and

2. Post in a public place a notice declaring the board of directors' intention to consider adopting such rule, regulation, alteration, amendment, or modification and informing the public that the Authority will at a public meeting consider the adoption of such rule or regulation or such alteration, amendment, or modification, on a day and at a time to be specified in the notice, after the expiration of at least 10 days from the first day of the posting of the notice thereof. However, with respect to motor vehicle traffic rules and regulations, the Authority shall obtain the approval of the appropriate official of the political subdivision in which such rules or regulations are to be enforced. The violation of any rule or regulation of the Authority relating to motor vehicle traffic shall be tried and punished in the same manner as if it had been committed on the public roads of the participating political subdivision in which such violation occurred. All other violations of the rules and regulations having the force of law shall be punishable as misdemeanors.

§ 15.2-7409. Reports.

The Authority shall keep minutes of its proceedings, which minutes shall be open to public inspection during normal business hours. It shall keep suitable records of all its financial transactions and shall arrange to have the same audited annually by an independent certified public accountant. Copies of each such audit shall be furnished to each participating political subdivision and shall be open to public inspection.

§ 15.2-7410. Procurement.

All contracts that the Authority may let for professional services, nonprofessional services, or materials shall be subject to the Virginia Public Procurement Act (§ 2.2-4300 et seq.).

§ 15.2-7411. Deposit and investment of funds.

Except as provided by contract with a participating political subdivision, all moneys received pursuant to the authority of this act, whether as proceeds from the sale of bonds or as revenues or otherwise, shall be deemed to be trust funds to be held and applied solely as provided in this act. All moneys of the Authority shall be deposited as soon as practicable in a separate account or accounts in one or more banks or trust companies organized under the laws of the Commonwealth or national banking associations having their principal offices in the Commonwealth. Such deposits shall be continuously secured in accordance with the Virginia Security for Public Deposits Act (§ 2.2-4400 et seq.).

Funds of the Authority not needed for immediate use or disbursement may, subject to the provisions of any contract between the Authority and the holders of its bonds, be invested in securities that are considered lawful investments for fiduciaries.

§ 15.2-7412. Authority to issue bonds.

The Authority shall have the power to issue bonds from time to time in its discretion, for any of its purposes, including the payment of all or any part of the cost of Authority facilities and including the payment or retirement of bonds previously issued by it. The Authority may issue such types of bonds as it may determine, including (without limiting the generality of the foregoing) bonds payable, both as to principal and interest, (i) from its revenues and receipts generally and (ii) exclusively from the revenues and receipts of certain designated facilities or loans whether or not they are financed in whole or in part from the proceeds of such bonds. Any such bonds may be additionally secured by a pledge of any grant or contribution from a participating political subdivision; the Commonwealth or any political subdivision, agency, or instrumentality thereof; any federal agency; or any unit, private corporation, co-partnership, association, or individual, as such participating political subdivision, or other entities, may be authorized to make under general law or by pledge of any income or revenues of the Authority or by mortgage or encumbrance of any property or facilities of the Authority. Unless otherwise provided in the proceeding authorizing the issuance of the bonds, or in the trust indenture securing the same, all bonds shall be payable solely and exclusively from the revenues and receipts of a particular facility or loan. Bonds may be executed and delivered by the Authority at any time and from time to time may be in such form and denominations and of such terms and maturities, may be in registered or bearer form either as to principal or interest or both, may be payable in such installments and at such time or times not exceeding 40 years from the date thereof, may be payable at such place or places whether within or without the Commonwealth, may bear interest at such rate or rates, may be payable at such time or times and at such places, may be evidenced in such manner, and may contain such provisions not inconsistent herewith, all as shall be provided and specified by the board of directors in authorizing each particular bond issue.

If deemed advisable by the board of directors, there may be retained in the proceedings under which any bonds of the Authority are authorized to be issued an option to redeem all or any part thereof as may be specified in such proceedings, at such price or prices and after such notice or notices and on such terms and conditions as may be set forth in such proceedings and as may be briefly recited on the face of the bonds, but nothing herein contained shall be construed to confer on the Authority any right or option to redeem any bonds except as may be provided in the proceedings under which they shall be issued. Any bonds of the Authority may be sold at public or private sale in such manner and from time to time as may be determined by the board of directors of the Authority to be most advantageous, and the Authority may pay all costs, premiums, and commissions that its board of directors may deem necessary or advantageous in connection with the issuance thereof. Issuance by the Authority of one or more series of bonds for one or more purposes shall not preclude it from issuing other bonds in connection with the same facility or any other facility, but the proceedings whereunder any subsequent bonds may be issued shall recognize and protect any prior pledge or mortgage made for any prior issue of bonds. Any bonds of the Authority at any time outstanding may from time to time be refunded by the Authority by the issuance of its refunding bonds in such amount as the board of directors may deem necessary, but not exceeding an amount sufficient to refund the principal of the bonds so to be refunded, together with any unpaid interest thereon and any costs, premiums, or commissions necessary to be paid in connection therewith. Any such refunding may be effected whether the bonds to be refunded shall have then matured or shall thereafter mature, either by sale of the refunding bonds and the application of the proceeds thereof to the payment of the bonds to be refunded thereby, or by the exchange of the refunding bonds for the bonds to be refunded thereby, with the consent of the holders of the bonds so to be refunded, and regardless of whether or not the bonds to be refunded were issued in connection with the same facilities or separate facilities, and regardless of whether or not the bonds proposed to be refunded shall be payable on the same date or on different dates or shall be due serially or otherwise.

All bonds shall be signed by the chairman or vice-chairman of the Authority or shall bear his facsimile signature, and the corporate seal of the Authority or a facsimile thereof shall be impressed or imprinted thereon and attested by the signature of the secretary (or the secretary-treasurer) or the assistant secretary (or assistant secretary-treasurer) of the Authority or shall bear his facsimile signature, and any coupons attached thereto shall bear the facsimile signature of said chairman. In case any officer whose signature or a facsimile of whose signature shall appear on any bonds or coupons shall cease to be an officer before delivery of such bonds, such signature, or such facsimile, shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. When the signatures of both the chairman or the vice-chairman and the secretary (or the secretary-treasurer) or the assistant secretary (or the assistant secretary-treasurer) are facsimiles, the bonds must be authenticated by a corporate trustee or other authenticating agent approved by the Authority.

If the proceeds derived from a particular bond issue, due to error of estimates or otherwise, shall be less than the cost of the Authority facilities for which such bonds were issued, additional bonds may in like manner be issued to provide the amount of such deficit, and, unless otherwise provided in the proceedings authorizing the issuance of the bonds of such issue or in the trust indenture securing the same, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the bonds of the first issue. If the proceeds of the bonds of any issue shall exceed such cost, the surplus may be deposited to the credit of the sinking fund for such bonds or may be applied to the payment of the cost of any additions, improvements, or enlargements of the Authority facilities for which such bonds shall have been issued.

Prior to the preparation of definitive bonds, the Authority may, under like restrictions, issue interim receipts or temporary bonds with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. The Authority may also provide for the replacement of any bonds that become mutilated or are destroyed or lost. Bonds may be issued under the provisions of this act without obtaining the consent of any department, division, commission, board, bureau, or agency of the Commonwealth, and without any other proceedings or the happening of any other conditions or things other than those proceedings, conditions, or things that are specifically required by this act, provided, however, that nothing contained in this act shall be construed as affecting the powers and duties now conferred by law upon the State Corporation Commission.

All bonds issued under the provisions of this act shall have and are hereby declared to have all the qualities and incidents of and shall be and are hereby made negotiable instruments under the Uniform Commercial Code of Virginia (§ 8.1A-101 et seq.), subject only to provisions respecting registration of the bonds.

In addition to all other powers granted to the Authority by this act, the Authority is authorized to provide for the issuance from time to time of notes or other obligations of the Authority for any of its authorized purposes. All of the provisions of this act that relate to bonds or revenue bonds shall apply to such notes or other obligations insofar as such provisions may be appropriate.

§ 15.2-7413. Fees, rents, and charges.

The Authority is hereby authorized to and shall fix, revise, charge, and collect fees, rents, and other charges for the use and services of any facilities or access site. Such fees, rents, and other charges shall be so fixed and adjusted as to provide a fund sufficient with other revenues to pay the cost of maintaining, repairing, and operating the facilities and the principal and any interest on its bonds as the same shall become due and payable, including reserves therefor. Such fees, rents, and charges shall not be subject to supervision or regulation by any commission, board, bureau, or agency of the Commonwealth or any participating political subdivision. The fees, rents, and other charges received by the Authority, except such part thereof as may be necessary to pay the cost of maintenance, repair, and operation and to provide such reserves therefor as may be provided for in any resolution authorizing the issuance of such bonds or in any trust indenture or agreement securing the same, shall to the extent necessary be set aside at such regular intervals as may be provided in any such resolution or trust indenture or agreement in a sinking fund or sinking funds pledged to, and charged with, the payment and the interest on such bonds as the same shall become due, and the redemption price or the purchase price of such bonds retired by call or purchase as therein provided. Such pledge shall be valid and binding from the time when the pledge is made. So long as any of its bonds are outstanding, the fees, rents, and charges so pledged and thereafter received by the Authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract, or otherwise against the Authority irrespective of whether such parties have notice thereof. Neither the resolution nor any trust indenture by which a pledge is created need be filed or recorded except in the records of the Authority. The use and disposition of moneys to the credit of any such sinking fund shall be subject to the provisions of the resolution authorizing the issuance of such bonds or of such trust indenture or agreement.

§ 15.2-7414. Credit of Commonwealth and political subdivisions not pledged.

Bonds issued pursuant to the provisions of this act shall not be deemed to constitute a debt of the Commonwealth, or any political subdivision thereof other than the Authority, but such bonds shall be payable solely from the funds provided therefor as herein authorized. All such bonds shall contain on the face thereof a statement to the effect that neither the Commonwealth, nor any political subdivision thereof, nor the Authority, shall be obligated to pay the same or the interest thereon or other costs incident thereto except from the revenues and money pledged therefor and that neither the faith and credit nor the taxing power of the Commonwealth, or any political subdivision thereof, is pledged to the payment of the principal of such bonds or the interest thereon or other costs incident thereto.

All expenses incurred in carrying out the provisions of this act shall be payable solely from the funds of the Authority and no liability or obligation shall be incurred by the Authority hereunder beyond the extent to which moneys shall be available to the Authority.

Bonds issued pursuant to the provisions of this act shall not constitute an indebtedness within the meaning of any debt limitation or restriction.

§ 15.2-7415. Directors and persons executing bonds not liable thereon.

Neither the board of directors nor any person executing the bonds shall be liable personally for the Authority's bonds by reasons of the issuance thereof.

§ 15.2-7416. Security for payment of bonds; default.

The principal of and interest on any bonds issued by the Authority shall be secured by a pledge of the revenues and receipts out of which the same shall be made payable, and may be secured by a trust indenture covering all or any part of the Authority facilities from which revenues or receipts so pledged may be derived, including any enlargements of any additions to any such projects thereafter made. The resolution under which the bonds are authorized to be issued and any such trust indenture may contain any agreements and provisions respecting the maintenance of the projects covered thereby, the fixing and collection of rents for any portions thereof leased by the Authority to others, the creation and maintenance of special funds from such revenues and the rights and remedies available in the event of default, all as the board of directors shall deem advisable not in conflict with the provisions hereof. Each pledge, agreement, and trust indenture made for the benefit or security of any of the bonds of the Authority shall continue effective until the principal of and interest on the

bonds for the benefit of which the same were made shall have been fully paid. In the event of default in such payment or in any agreements of the Authority made as a part of the contract under which the bonds were issued, whether contained in the proceedings authorizing the bonds or in any trust indenture executed as security therefor, said pledge or agreement may be enforced by mandamus, suit, action, or proceeding at law or in equity to compel the Authority and the directors, officers, agents, or employees thereof to perform each and every term, provision, and covenant contained in any trust indenture of the Authority, the appointment of a receiver in equity, or by foreclosure of any such trust indenture, or any one or more of said remedies.

§ 15.2-7417. Taxation.

The exercise of the powers granted by this act shall in all respects be presumed to be for the benefit of the inhabitants of the Commonwealth, for the increase of their commerce, and for the promotion of their health, safety, welfare, convenience, and prosperity, and as the operation and maintenance of any project that the Authority is authorized to undertake will constitute the performance of an essential governmental function, the Authority shall not be required to pay any taxes or assessments upon any facilities acquired and constructed by it under the provisions of this act, and the bonds issued under the provisions of this act, their transfer, and the income therefrom, including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any political subdivision thereof. Persons, firms, partnerships, associations, corporations, and organizations leasing property of the Authority or doing business on property of the Authority shall be subject to and liable for payment of all applicable taxes of the political subdivision in which such leased property lies or in which business is conducted, including, but not limited to, any leasehold tax on real property and taxes on hotel and motel rooms, taxes on the sale of tobacco products, taxes on the sale of meals and beverages, privilege taxes and local general retail sales and use taxes, taxes to be paid on licenses in respect to any business, profession, vocation, or calling, and taxes upon consumers of gas, electricity, telephone, and other public utility services.

§ 15.2-7418. Bonds as legal investments.

Bonds issued by the Authority under the provisions of this act are hereby made securities in which all public officers and public bodies of the Commonwealth and its political subdivisions and all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees, and other fiduciaries may properly and legally invest funds, including capital, in their control or belonging to them. Such bonds are hereby made securities that may properly and legally be deposited with and received by any state or municipal officer or any agency or political subdivision of the Commonwealth for any purpose for which the deposit of bonds or obligations is now or may hereafter be authorized by law.

§ 15.2-7419. Appropriation by political subdivision.

Any participating political subdivision, or other political subdivision of the Commonwealth, is authorized to provide services, to donate real or personal property, and to make appropriations to the Authority for the acquisition, construction, maintenance, and operation of the Authority's facilities. Any such political subdivision is hereby authorized to issue its bonds, including general obligation bonds, in the manner provided in the Public Finance Act (§ 15.2-2600 et seq.) or in any applicable municipal charter for the purpose of providing funds to be appropriated to the Authority, and such political subdivisions may enter into contracts obligating such bond proceeds to the Authority.

The Authority may agree to assume or reimburse a participating political subdivision for any indebtedness incurred by such participating political subdivision with respect to facilities conveyed by it to the Authority.

§ 15.2-7420. Contracts with political subdivisions.

The Authority is authorized to enter into contracts with any one or more political subdivisions.

§ 15.2-7421. Agreement with Commonwealth and participating political subdivisions.

The Commonwealth and, by participating in the Authority, each participating political subdivision pledge to and agree with the holders of any bonds issued by the Authority that neither the Commonwealth nor any participating political subdivision will limit or alter the rights hereunder vested in the Authority to fulfill the terms of any agreements made with said holders or in any way impair the rights and remedies of said holders until such bonds are fully met and discharged. The Authority is authorized to include this pledge and agreement in any contract with the holders of the Authority's bonds.

§ 15.2-7422. Liberal construction.

Neither this act nor anything contained herein is or shall be construed as a restriction or limitation upon any powers that the Authority might otherwise have under any laws of the Commonwealth, and this act is cumulative to any such powers. This act does and shall be construed to provide a complete, additional, and alternative method for the doing of the things authorized hereby and shall be regarded as supplemental and additional to powers conferred by other laws. The provisions of this act are severable, and if any of its provisions shall be held unconstitutional by any court of competent jurisdiction, the decision of such court shall not affect or impair any of the other provisions of this act.

§ 15.2-7423. Application of local ordinances, service charges, and taxes upon leaseholds.

Nothing herein contained shall be construed to exempt the Authority's property from any applicable zoning, subdivision, erosion and sediment control, and fire prevention codes or from building regulations of a political subdivision in which such property is located. Nor shall anything herein contained exempt the property of the Authority from any service charge authorized by the General Assembly pursuant to Article X, Section 6 (g) of the Constitution of Virginia or exempt any lessee of any of the Authority's property from any tax imposed upon his leasehold interest in such property or upon the receipts derived therefrom.

§ 15.2-7424. Existing contracts, leases, franchises, etc., not impaired.

No provision of this act shall relieve, impair, or affect any right, duty, liability, or obligation arising out of any contract, concession, lease, or franchise now in existence except to the extent that such contract, concession, lease, or franchise may permit. Notwithstanding the foregoing provisions of this section, the Authority may renegotiate, renew, extend the term of, or otherwise modify at any time any contract, concession, lease, or franchise now in existence in such manner and on such terms and conditions as it may deem appropriate, provided that the operator of or under any said contract, concession, lease, or franchise consents to said renegotiation, renewal, extension, or modification.

§ 15.2-7425. Withdrawal of membership.

Any member jurisdiction may withdraw from membership in the Authority by resolution or ordinance of its governing body. However, no member jurisdiction shall be permitted to withdraw from the Authority after any obligation has been incurred except by unanimous vote of all member jurisdictions.

CHAPTER 472

An Act to amend and reenact §§ 22.1-253.13:1 and 23-9.2:3.04 of the Code of Virginia and to amend the Code of Virginia by adding a section numbered 23-2.4, relating to State Council of Higher Education; postsecondary education and employment data.

[H 886]

Approved April 1, 2014

Be it enacted by the General Assembly of Virginia:

1. That §§ 22.1-253.13:1 and 23-9.2:3.04 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding a section numbered 23-2.4 as follows:

§ 22.1-253.13:1. Standard 1. Instructional programs supporting the Standards of Learning and other educational objectives.

A. The General Assembly and the Board of Education believe that the fundamental goal of the public schools of the Commonwealth must be to enable each student to develop the skills that are necessary for success in school, preparation for life, and reaching their full potential. The General Assembly and the Board of Education find that the quality of education is dependent upon the provision of (i) the appropriate working environment, benefits, and salaries necessary to ensure the availability of high-quality instructional personnel; (ii) the appropriate learning environment designed to promote student achievement; (iii) quality instruction that enables each student to become a productive and educated citizen of Virginia and the United States of America; and (iv) the adequate commitment of other resources. In keeping with this goal, the General Assembly shall provide for the support of public education as set forth in Article VIII, Section 1 of the Constitution of Virginia.

B. The Board of Education shall establish educational objectives known as the Standards of Learning, which shall form the core of Virginia's educational program, and other educational objectives, which together are designed to ensure the development of the skills that are necessary for success in school and for preparation for life in the years beyond. At a minimum, the Board shall establish Standards of Learning for English, mathematics, science, and history and social science. The Standards of Learning shall not be construed to be regulations as defined in § 2.2-4001.

The Board shall seek to ensure that the Standards of Learning are consistent with a high-quality foundation educational program. The Standards of Learning shall include, but not be limited to, the basic skills of communication (listening, speaking, reading, and writing); computation and critical reasoning, including problem solving and decision making; proficiency in the use of computers and related technology; and the skills to manage personal finances and to make sound financial decisions.

The English Standards of Learning for reading in kindergarten through grade three shall be based on components of effective reading instruction, to include, at a minimum, phonemic awareness, phonics, fluency, vocabulary development, and text comprehension.

The Standards of Learning in all subject areas shall be subject to regular review and revision to maintain rigor and to reflect a balance between content knowledge and the application of knowledge in preparation for eventual employment and lifelong learning. The Board of Education shall establish a regular schedule, in a manner it deems appropriate, for the review, and revision as may be necessary, of the Standards of Learning in all subject areas. Such review of each subject area shall occur at least once every seven years. Nothing in this section shall be construed to prohibit the Board from conducting such review and revision on a more frequent basis.

To provide appropriate opportunity for input from the general public, teachers, and local school boards, the Board of Education shall conduct public hearings prior to establishing revised Standards of Learning. Thirty days prior to conducting such hearings, the Board shall give notice of the date, time, and place of the hearings to all local school boards and any other persons requesting to be notified of the hearings and publish notice of its intention to revise the Standards of Learning in the Virginia Register of Regulations. Interested parties shall be given reasonable opportunity to be heard and present information prior to final adoption of any revisions of the Standards of Learning.

In addition, the Department of Education shall make available and maintain a website, either separately or through an existing website utilized by the Department of Education, enabling public elementary, middle, and high school educators to

submit recommendations for improvements relating to the Standards of Learning, when under review by the Board according to its established schedule, and related assessments required by the Standards of Quality pursuant to this chapter. Such website shall facilitate the submission of recommendations by educators.

School boards shall implement the Standards of Learning or objectives specifically designed for their school divisions that are equivalent to or exceed the Board's requirements. Students shall be expected to achieve the educational objectives established by the school division at appropriate age or grade levels. The curriculum adopted by the local school division shall be aligned to the Standards of Learning.

The Board of Education shall include in the Standards of Learning for history and social science the study of contributions to society of diverse people. For the purposes of this subsection, "diverse" includes consideration of disability, ethnicity, race, and gender.

The Board of Education shall include in the Standards of Learning for health instruction in emergency first aid, cardiopulmonary resuscitation, and the use of an automated external defibrillator, including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation. Such instruction shall be based on the current national evidence-based emergency cardiovascular care guidelines for cardiopulmonary resuscitation and the use of an automated external defibrillator, such as a program developed by the American Heart Association or the American Red Cross. No teacher who is in compliance with subdivision D 4 of § 22.1-298.1 shall be required to be certified as a trainer of cardiopulmonary resuscitation to provide instruction for non-certification.

With such funds as are made available for this purpose, the Board shall regularly review and revise the competencies for career and technical education programs to require the full integration of English, mathematics, science, and history and social science Standards of Learning. Career and technical education programs shall be aligned with industry and professional standard certifications, where they exist.

C. Local school boards shall develop and implement a program of instruction for grades K through 12 that is aligned to the Standards of Learning and meets or exceeds the requirements of the Board of Education. The program of instruction shall emphasize reading, writing, speaking, mathematical concepts and computations, proficiency in the use of computers and related technology, and scientific concepts and processes; essential skills and concepts of citizenship, including knowledge of Virginia history and world and United States history, economics, government, foreign languages, international cultures, health and physical education, environmental issues, and geography necessary for responsible participation in American society and in the international community; fine arts, which may include, but need not be limited to, music and art, and practical arts; knowledge and skills needed to qualify for further education, gainful employment, or training in a career or technical field; and development of the ability to apply such skills and knowledge in preparation for eventual employment and lifelong learning and to achieve economic self-sufficiency.

Local school boards shall also develop and implement programs of prevention, intervention, or remediation for students who are educationally at risk including, but not limited to, those who fail to achieve a passing score on any Standards of Learning assessment in grades three through eight or who fail an end-of-course test required for the award of a verified unit of credit. Such programs shall include components that are research-based.

Any student who achieves a passing score on one or more, but not all, of the Standards of Learning assessments for the relevant grade level in grades three through eight may be required to attend a remediation program.

Any student who fails to achieve a passing score on all of the Standards of Learning assessments for the relevant grade level in grades three through eight or who fails an end-of-course test required for the award of a verified unit of credit shall be required to attend a remediation program or to participate in another form of remediation. Division superintendents shall require such students to take special programs of prevention, intervention, or remediation, which may include attendance in public summer school programs, in accordance with clause (ii) of subsection A of § 22.1-254 and § 22.1-254.01.

Remediation programs shall include, when applicable, a procedure for early identification of students who are at risk of failing the Standards of Learning assessments in grades three through eight or who fail an end-of-course test required for the award of a verified unit of credit. Such programs may also include summer school for all elementary and middle school grades and for all high school academic courses, as defined by regulations promulgated by the Board of Education, or other forms of remediation. Summer school remediation programs or other forms of remediation shall be chosen by the division superintendent to be appropriate to the academic needs of the student. Students who are required to attend such summer school programs or to participate in another form of remediation shall not be charged tuition by the school division.

The requirement for remediation may, however, be satisfied by the student's attendance in a program of prevention, intervention or remediation that has been selected by his parent, in consultation with the division superintendent or his designee, and is either (i) conducted by an accredited private school or (ii) a special program that has been determined to be comparable to the required public school remediation program by the division superintendent. The costs of such private school remediation program or other special remediation program shall be borne by the student's parent.

The Board of Education shall establish standards for full funding of summer remedial programs that shall include, but not be limited to, the minimum number of instructional hours or the equivalent thereof required for full funding and an assessment system designed to evaluate program effectiveness. Based on the number of students attending and the Commonwealth's share of the per pupil instructional costs, state funds shall be provided for the full cost of summer and other remediation programs as set forth in the appropriation act, provided such programs comply with such standards as shall be established by the Board, pursuant to § 22.1-199.2.

D. Local school boards shall also implement the following:

1. Programs in grades K through three that emphasize developmentally appropriate learning to enhance success.
 2. Programs based on prevention, intervention, or remediation designed to increase the number of students who earn a high school diploma and to prevent students from dropping out of school. Such programs shall include components that are research-based.

3. Career and technical education programs incorporated into the K through 12 curricula that include:
 a. Knowledge of careers and all types of employment opportunities, including, but not limited to, apprenticeships, entrepreneurship and small business ownership, the military, and the teaching profession, and emphasize the advantages of completing school with marketable skills;

b. Career exploration opportunities in the middle school grades; ~~and~~
 c. Competency-based career and technical education programs that integrate academic outcomes, career guidance, and job-seeking skills for all secondary students. Programs shall be based upon labor market needs and student interest. Career guidance shall include counseling about available employment opportunities and placement services for students exiting school. Each school board shall develop and implement a plan to ensure compliance with the provisions of this subdivision. Such plan shall be developed with the input of area business and industry representatives and local community colleges and shall be submitted to the Superintendent of Public Instruction in accordance with the timelines established by federal law; *and*

6. Early identification of gifted students and enrollment of such students in appropriately differentiated instructional programs.

7. Educational alternatives for students whose needs are not met in programs prescribed elsewhere in these standards. Such students shall be counted in average daily membership (ADM) in accordance with the regulations of the Board of Education.

8. Adult education programs for individuals functioning below the high school completion level. Such programs may be conducted by the school board as the primary agency or through a collaborative arrangement between the school board and other agencies.

9. A plan to make achievements for students who are educationally at risk a divisionwide priority that shall include procedures for measuring the progress of such students.

10. An agreement for postsecondary degree attainment with a community college in the Commonwealth specifying the options for students to complete an associate's degree or a one-year Uniform Certificate of General Studies from a community college concurrent with a high school diploma. Such agreement shall specify the credit available for dual enrollment courses and Advanced Placement courses with qualifying exam scores of three or higher.

11. A plan to notify students and their parents of the availability of dual enrollment and advanced placement classes, the International Baccalaureate Program, and Academic Year Governor's School Programs, the qualifications for enrolling in such classes and programs, and the availability of financial assistance to low-income and needy students to take the advanced placement and International Baccalaureate examinations. This plan shall include notification to students and parents of the agreement with a community college in the Commonwealth to enable students to complete an associate's degree or a one-year Uniform Certificate of General Studies concurrent with a high school diploma.

12. Identification of students with limited English proficiency and enrollment of such students in appropriate instructional programs.

13. Early identification, diagnosis, and assistance for students with reading and mathematics problems and provision of instructional strategies and reading and mathematics practices that benefit the development of reading and mathematics skills for all students.

Local school divisions shall provide reading intervention services to students in kindergarten through grade three who demonstrate deficiencies based on their individual performance on the Standards of Learning reading test or any reading diagnostic test that meets criteria established by the Department of Education. Local school divisions shall report the results of the diagnostic tests to the Department of Education on an annual basis, at a time to be determined by the Superintendent of Public Instruction. Each student who receives early intervention reading services will be assessed again at the end of that school year. The local school division, in its discretion, shall provide such reading intervention services prior to promoting a student from grade three to grade four. Reading intervention services may include the use of: special reading teachers; trained aides; volunteer tutors under the supervision of a certified teacher; computer-based reading tutorial programs; aides to instruct in-class groups while the teacher provides direct instruction to the students who need extra assistance; and extended instructional time in the school day or school year for these students. Funds appropriated for prevention, intervention, and remediation; summer school remediation; at-risk; or early intervention reading may be used to meet the requirements of this subdivision.

Local school divisions shall provide algebra readiness intervention services to students in grades six through nine who are at risk of failing the Algebra I end-of-course test, as demonstrated by their individual performance on any diagnostic test

that has been approved by the Department of Education. Local school divisions shall report the results of the diagnostic tests to the Department of Education on an annual basis, at a time to be determined by the Superintendent of Public Instruction. Each student who receives algebra readiness intervention services will be assessed again at the end of that school year. Such unit may also provide resources supporting professional development for administrators and teachers. In providing such information, resources, and other services to school divisions, the unit shall give priority to those divisions demonstrating a less than 70 percent passing rate on the Standards of Learning assessments.

Approved April 1, 2014

Be it enacted by the General Assembly of Virginia:

1. That §§ 56-560 and 56-570 of the Code of Virginia are amended and reenacted as follows:

§ 56-560. Approval by the responsible public entity.

A. The private entity may request approval by the responsible public entity. Any such request shall be accompanied by the following material and information unless waived by the responsible public entity in its guidelines or other instructions

given, in writing, to the private entity with respect to the transportation facility or facilities that the private entity proposes to develop and/or operate as a qualifying transportation facility:

1. A topographic map (1:2,000 or other appropriate scale) indicating the location of the transportation facility or facilities;
2. A description of the transportation facility or facilities, including the conceptual design of such facility or facilities and all proposed interconnections with other transportation facilities;
3. The proposed date for development and/or operation of the transportation facility or facilities along with an estimate of the life-cycle cost of the transportation facility as proposed;
4. A statement setting forth the method by which the private entity proposes to secure any property interests required for the transportation facility or facilities;
5. Information relating to the current transportation plans, if any, of each affected jurisdiction;
6. A list of all permits and approvals required for developing and/or operating improvements to the transportation facility or facilities from local, state, or federal agencies and a projected schedule for obtaining such permits and approvals;
7. A list of public ~~utility~~ *utility's, locality's, or political subdivision's* facilities, if any, that will be crossed by the transportation facility or facilities and a statement of the plans of the private entity to accommodate such crossings;
8. A statement setting forth the private entity's general plans for developing and/or operating the transportation facility or facilities, including identification of any revenue, public or private, or proposed debt or equity investment or concession proposed by the private entity;
9. The names and addresses of the persons who may be contacted for further information concerning the request;
10. Information on how the private entity's proposal will address the needs identified in the appropriate state, regional, or local transportation plan by improving safety, reducing congestion, increasing capacity, and/or enhancing economic efficiency; and
11. Such additional material and information as the responsible public entity may reasonably request pursuant to its guidelines or other written instructions.

B. The responsible public entity may request proposals from private entities for the development and/or operation of transportation facilities. The responsible public entity shall not charge a fee to cover the costs of processing, reviewing, and evaluating proposals received in response to such requests.

C. The responsible public entity may grant approval of the development and/or operation of the transportation facility or facilities as a qualifying transportation facility if the responsible public entity determines that it serves the public purpose of this chapter. The responsible public entity may determine that the development and/or operation of the transportation facility or facilities as a qualifying transportation facility serves such public purpose if:

1. There is a public need for the transportation facility or facilities the private entity proposes to develop and/or operate as a qualifying transportation facility;
2. The transportation facility or facilities and the proposed interconnections with existing transportation facilities, and the private entity's plans for development and/or operation of the qualifying transportation facility or facilities, are, in the opinion of the responsible public entity, reasonable and will address the needs identified in the appropriate state, regional, or local transportation plan by improving safety, reducing congestion, increasing capacity, and/or enhancing economic efficiency;
3. The estimated cost of developing and/or operating the transportation facility or facilities is reasonable in relation to similar facilities; and
4. The private entity's plans will result in the timely development and/or operation of the transportation facility or facilities or their more efficient operation.

In evaluating any request, the responsible public entity may rely upon internal staff reports prepared by personnel familiar with the operation of similar facilities or the advice of outside advisors or consultants having relevant experience.

D. The responsible public entity may charge a reasonable fee to cover the costs of processing, reviewing, and evaluating the request submitted by a private entity pursuant to subsection A, including without limitation, reasonable attorney's fees and fees for financial and other necessary advisors or consultants. The responsible public entity shall also develop guidelines that establish the process for the acceptance and review of a proposal from a private entity pursuant to subsections A and B. Such guidelines shall establish a specific schedule for review of the proposal by the responsible public entity, a process for alteration of that schedule by the responsible public entity if it deems that changes are necessary because of the scope or complexity of proposals it receives, the process for receipt and review of competing proposals, and the type and amount of information that is necessary for adequate review of proposals in each stage of review. For qualifying transportation facilities that have approved or pending state and federal environmental clearances, secured significant right of way, have previously allocated significant state or federal funding, or exhibit other circumstances that could reasonably reduce the amount of time to develop and/or operate the qualifying transportation facility in accordance with the purpose of this chapter, the guidelines shall provide for a prioritized documentation, review, and selection process.

E. The approval of the responsible public entity shall be subject to the private entity's entering into an interim agreement or a comprehensive agreement with the responsible public entity. For any project with an estimated construction cost of over \$50 million, the responsible public entity also shall require the private entity to pay the costs for an independent audit of any and all traffic and cost estimates associated with the private entity's proposal, as well as a review of all public costs and potential liabilities to which taxpayers could be exposed (including improvements to other transportation facilities

that may be needed as a result of the proposal, failure by the private entity to reimburse the responsible public entity for services provided, and potential risk and liability in the event the private entity defaults on the comprehensive agreement or on bonds issued for the project). This independent audit shall be conducted by an independent consultant selected by the responsible public entity, and all such information from such review shall be fully disclosed.

F. In connection with its approval of the development and/or operation of the transportation facility or facilities as a qualifying transportation facility, the responsible public entity shall establish a date for the acquisition of or the beginning of construction of or improvements to the qualifying transportation facility. The responsible public entity may extend such date from time to time.

G. The responsible public entity shall take appropriate action, as more specifically set forth in its guidelines, to protect confidential and proprietary information provided by the private entity pursuant to an agreement under subdivision 11 of § 2.2-3705.6.

H. The responsible public entity may also apply for, execute, and/or endorse applications submitted by private entities to obtain federal credit assistance for qualifying projects developed and/or operated pursuant to this chapter.

§ 56-570. Utility crossings.

A. The private entity and each public service company, public utility, railroad, ~~and~~ cable television provider, *locality*, or *political subdivision* whose facilities are to be crossed or affected shall cooperate fully with the other in planning and arranging the manner of the crossing or relocation of the facilities. Any such entity possessing the power of condemnation is hereby expressly granted such powers in connection with the moving or relocation of facilities to be crossed by the qualifying transportation facility or that must be relocated to the extent that such moving or relocation is made necessary or desirable by construction of or improvements to the qualifying transportation facility, which shall be construed to include construction of or improvements to temporary facilities for the purpose of providing service during the period of construction or improvement.

B. Should the private entity and any such public service company, public utility, railroad, and cable television provider not be able to agree upon a plan for the crossing or relocation, the Commission may determine the manner in which the crossing or relocation is to be accomplished and any damages due arising out of the crossing or relocation. The Commission may employ expert engineers who shall examine the location and plans for such crossing or relocation, hear any objections and consider modifications, and make a recommendation to the Commission. In such a case, the cost of the experts is to be borne by the private entity. Any amount to be paid for such crossing, construction, moving or relocating of facilities shall be paid for by the private entity or any other person contractually responsible therefor under the interim or comprehensive agreement or under any other contract, license or permit. The Commission shall make a determination within 90 days of notification by the private entity that the qualifying transportation facility will cross utilities subject to the Commission's jurisdiction.

C. *Should the private entity and any locality or political subdivision not be able to agree upon a plan for the crossing or relocation of facilities owned or operated by the locality or political subdivision, then the private entity may request in writing to the Commonwealth Transportation Board (Board), with a copy to the chief executive or chief administrative officer of the locality or political subdivision, that the Board consider the matter pursuant to its authority in § 33.1-56, which shall apply mutatis mutandis to any project pursuant to this chapter, regardless of the highway system or location of the project, if the Board decides to exercise such authority, except, however, that the private entity, and not the Board, shall be responsible for the costs of such crossing, construction, moving, or relocation of such facilities. In the event the Board decides to exercise its authority hereunder, the Board shall issue an order within 90 days of receipt of the request from the private entity.*

D. *For the purposes of this chapter, "facilities owned or operated by the local government or political subdivision" means any pipes, mains, storm sewers, water lines, sanitary sewers, natural gas facilities, or other structures, equipment, and appliances owned or operated by a locality or political subdivision for the purpose of transmitting or distributing communications, power, electricity, light, heat, gas, oil, crude products, water, steam, sewage or waste, storm water not connected with highway drainage, or any other similar commodity or substance, which facilities directly or indirectly serve the public.*

CHAPTER 475

An Act directing the Department of Conservation and Recreation to utilize a storm-based approach in updating the Probable Maximum Precipitation (PMP) for locations within or affecting the Commonwealth.

[H 1006]

Approved April 1, 2014

Be it enacted by the General Assembly of Virginia:

1. § 1. *That the Department of Conservation and Recreation, on behalf of the Virginia Soil and Water Conservation Board, shall utilize a storm-based approach in order to derive the Probable Maximum Precipitation (PMP) for locations within or affecting the Commonwealth. The PMP revisions shall be based on accepted storm evaluation techniques and take into account such factors as basin characteristics that affect the occurrence and location of storms and precipitation, regional and basin terrain influences, available atmospheric moisture, and seasonality of storm types. The results shall be*

considered by the Virginia Soil and Water Conservation Board in its decision to authorize the use of the updated PMP values in Probable Maximum Flood calculations, thus replacing the current PMP values. Such PMP revisions shall be adopted by the Board if it finds that the analysis is valid and reliable and will result in cost savings to owners for impounding structure spillway construction or rehabilitation efforts.

§ 2. The development of the methodology shall be completed by December 1, 2015.

§ 3. Owners of impounding structures with spillway design inadequacies who maintain coverage under a Conditional Operation and Maintenance Certificate in accordance with the Board's Impounding Structure Regulations (4VAC50-20) shall not be required to rehabilitate the spillway of their impounding structure until the analysis required under § 1 has been completed and reviewed by the Virginia Soil and Water Conservation Board. Such owners shall remain subject to all other requirements of the Dam Safety Act (§ 10.1-604 et seq.) and regulations.

2. That in addition to other sums made available, the Department of Conservation and Recreation is authorized to utilize up to \$500,000 in unobligated balances in the Dam Safety, Flood Prevention and Protection Assistance Fund established pursuant to § 10.1-603.17 of the Code of Virginia or the Dam Safety Administrative Fund established pursuant to § 10.1-613.5 of the Code of Virginia to contract out for the analysis required under § 1.

3. That an emergency exists and this act is in force from its passage.

B. The Board may adopt regulations that:

1. A. The following shall be unlawful:

1. To hunt or kill any wild bird or wild animal, including any nuisance species, with a gun, firearm, or other weapon, *or to hunt or kill any deer or bear with a gun, firearm, or other weapon with the aid or assistance of dogs, on Sunday, which is hereby declared a rest day for all species of wild bird and wild animal life, except.* *The provision of this subdivision that prohibits the hunting or killing of any wild bird or wild animal, including nuisance species, on Sunday shall not apply to (i) raccoons, which may be hunted until 2:00 a.m. on Sunday mornings; (ii) any person who hunts or kills waterfowl, subject to geographical limitations established by the Director and except within 200 yards of a place of worship or any accessory structure thereof; or (iii) any landowner or member of his family or any person with written permission from the landowner who hunts or kills any wild bird or wild animal, including any nuisance species, on the landowner's property, except within 200 yards of a place of worship or any accessory structure thereof.* However, a person lawfully carrying a gun, firearm or other weapon on Sunday in an area that could be used for hunting shall not be presumed to be hunting on Sunday, absent evidence to the contrary.

However, any properly licensed person, or a person exempt from having to obtain a license, who has obtained such daily bag or season limit while hunting may assist others who are hunting game by calling game, retrieving game, handling dogs, or conducting drives if the weapon in his possession is an unloaded firearm, a bow without a nocked arrow or an unloaded crossbow. Any properly licensed person, or person exempt from having to obtain a license, who has obtained such season limit prior to commencement of the hunt may assist others who are hunting game by calling game, retrieving game, handling dogs, or conducting drives, provided he does not have a firearm, bow or crossbow in his possession.

4. To knowingly occupy any baited blind or other baited place for the purpose of taking or attempting to take any wild bird or wild animal or to put out bait or salt for any wild bird or wild animal for the purpose of taking or killing them. There shall be a rebuttable presumption that a person charged with violating this subdivision knows that he is occupying a baited blind or other baited place for the purpose of taking or attempting to take any wild bird or wild animal. However, this shall not apply to baiting nuisance species of animals and birds, or to baiting traps for the purpose of taking fur-bearing animals that may be lawfully trapped.

9. To fail to visit all traps once each day and remove all animals caught, and immediately report to the landowner as to stock, dogs or fowl that are caught and the date. However, the Director or his designee may authorize employees of federal, state, and local government agencies, and persons holding a valid Commercial Nuisance Animal Permit issued by the Department, to visit conibear-style body-gripping traps that are completely submerged at least once every 72 hours and the Board may adopt regulations permitting trappers to visit traps less frequently under specified conditions.

10. To hunt, trap, take, capture, kill, attempt to take, capture or kill, possess, deliver for transportation, transport, cause to be transported, by any means whatever, receive for transportation or export, or import, at any time or in any manner, any wild bird or wild animal or the carcass or any part thereof, except as specifically permitted by law and only by the manner or means and within the numbers stated. However, the provisions of this section shall not be construed to prohibit the (i) use or transportation of legally taken turkey carcasses, or portions thereof, for the purposes of making or selling turkey callers, (ii) the manufacture or sale of implements, including, but not limited to, tools or utensils, made from legally harvested deer skeletal parts, including antlers, or (iii) the possession of shed antlers.

11. To offer for sale, sell, offer to purchase, or purchase, at any time or in any manner, any wild bird or wild animal or the carcass or any part thereof, except as specifically permitted by law, including, but not limited to, subsection D of § 29.1-553. However, any nonprofit organization exempt from taxation under § 501(c) (3) of the Internal Revenue Code, which is (i) organized to provide wild game as food to the hungry and (ii) authorized by the Department to possess, transport

and distribute donated or unclaimed meat to the hungry, may pay a processing fee in order to obtain such meat. Such fees shall not exceed the actual cost for processing the meat. In addition, any nonprofit organization exempt from taxation under § 501(c) (3) of the Internal Revenue Code, that is (a) organized to support wildlife habitat conservation and (b) approved by the Department, shall be allowed to offer wildlife mounts that have undergone the taxidermy process for sale in conjunction with fundraising activities. A violation of this subdivision shall be punishable as provided in § 29.1-553.

B. Notwithstanding any other provision of this article, any American Indian, who produces verification that he is an enrolled member of a tribe recognized by the Commonwealth, another state or the U.S. government, may possess, offer for sale or sell to another American Indian, or offer to purchase or purchase from another American Indian, parts of legally obtained fur-bearing animals, nonmigratory game birds, and game animals, except bear. Such legally obtained parts shall include antlers, hooves, feathers, claws and bones.

"Verification" as used in this section shall include, but is not limited to, (i) showing a valid tribal identification card, (ii) confirmation through a central tribal registry, (iii) a letter from a tribal chief or council, or (iv) certification from a tribal office that the person is an enrolled member of the tribe.

C. A violation of subdivisions A 1 through 10 of subsection A of this section shall be punishable as a Class 3 misdemeanor.

CHAPTER 486

An Act to amend and reenact §§ 24.2-653 and 24.2-671 of the Code of Virginia, relating to provisional ballots and meetings of electoral board following elections.

[S 361]

Approved April 1, 2014

Be it enacted by the General Assembly of Virginia:**1. That §§ 24.2-653 and 24.2-671 of the Code of Virginia are amended and reenacted as follows:****§ 24.2-653. Voter whose name does not appear on pollbook or who is marked as having voted; handling of provisional ballots; ballots cast after normal close of polls due to court order extending polling hours.**

A. When a person offers to vote pursuant to § 24.2-652 and the general registrar is not available or cannot state that the person is registered to vote, then such person shall be allowed to vote by paper ballot in the manner provided in this section. This procedure shall also apply when required by § 24.2-643 or 24.2-651.1.

Such person shall be given a paper ballot and provide, subject to the penalties for making false statements pursuant to § 24.2-1016, on a green envelope supplied by the State Board, the identifying information required on the envelope, including his social security number, if any, full name including the maiden or any other prior legal name, date of birth, complete address, and signature. Such person shall be asked to present one of the forms of identification specified in subsection B of § 24.2-643. The officers of election shall note on the green envelope whether or not the voter has presented one of the specified forms of identification. The officers of election shall enter the appropriate information for the person in the precinct provisional ballots log in accordance with the instructions of the State Board but shall not enter a consecutive number for the voter on the pollbook nor otherwise mark his name as having voted. The officers of election shall provide an application for registration to the person offering to vote in the manner provided in this section.

The voter shall then, in the presence of an officer of election, but in a secret manner, mark the ballot as provided in § 24.2-644 and seal it in the green envelope. The envelope containing the ballot shall then promptly be placed in the ballot container by an officer of election.

An officer of election, by a written notice given to the voter, shall (i) inform him that a determination of his right to vote shall be made by the electoral board, (ii) advise the voter of the beginning time and place for the board's meeting and of the voter's right to be present at that meeting, and (iii) inform a voter voting provisionally when required by § 24.2-643 that he may submit a copy of one of the forms of identification specified in subsection B of § 24.2-643 to the electoral board by facsimile, electronic mail, in-person submission, or timely United States Postal Service or commercial mail delivery, to be received by the electoral board no later than noon on the third day after the election. At the meeting, the voter may request an extension of the determination of the provisional vote to the following day in order to provide information to prove that the voter is entitled to vote in the precinct pursuant to § 24.2-401. The electoral board shall have the authority to grant such extensions which it deems reasonable to determine the status of a provisional vote.

B. The provisional votes submitted pursuant to subsection A, in their unopened envelopes, shall be sealed in a special envelope marked "Provisional Votes," inscribed with the number of envelopes contained therein, and signed by the officers of election who counted them. All provisional votes envelopes shall be delivered either (i) to the clerk of the circuit court who shall deliver all such envelopes to the secretary of the electoral board or (ii) to the general registrar in localities in which the electoral board has directed delivery of election materials to the general registrar pursuant to § 24.2-668.

The electoral board shall meet on the day following the election and determine whether each person having submitted such a provisional vote was entitled to do so as a qualified voter in the precinct in which he offered the provisional vote. If the board is unable to determine the validity of all the provisional ballots offered in the election, or has granted any voter who has offered a provisional ballot an extension to the following day as provided in subsection A, the meeting shall stand adjourned from day to day, not to exceed seven calendar days from the date of the election, until the board has determined the validity of all provisional ballots offered in the election.

One authorized representative of each political party or independent candidate in a general or special election or one authorized representative of each candidate in a primary election shall be permitted to remain in the room in which the determination is being made as an observer so long as he does not participate in the proceedings and does not impede the orderly conduct of the determination. Each authorized representative shall be a qualified voter of any jurisdiction of the Commonwealth. Each representative, who is not himself a candidate or party chairman, shall present to the electoral board a written statement designating him to be a representative of the party or candidate and signed by the county or city chairman of his political party, the independent candidate, or the primary candidate, as appropriate. Such statement, bearing the chairman's or candidate's original signature, may be photocopied and such photocopy shall be as valid as if the copy had been signed.

Notwithstanding the provisions of the Virginia Freedom of Information Act (§ 2.2-3700 et seq.), attendance at meetings of the electoral board to determine the validity of provisional ballots shall be permitted only for the authorized representatives provided for in this subsection, for the persons whose provisional votes are being considered and their representative or legal counsel, and for appropriate staff and legal counsel for the electoral board.

If the electoral board determines that such person was not entitled to vote as a qualified voter in the precinct in which he offered the provisional vote, is unable to determine his right to vote, or has not been provided one of the forms of

identification specified in subsection B of § 24.2-643, the envelope containing his ballot shall not be opened and his vote shall not be counted. The provisional vote shall be counted if (a) such person is entitled to vote in the precinct pursuant to § 24.2-401 or (b) the State Board or the voter presents proof that indicates the voter submitted an application for registration to the Department of Motor Vehicles or other state-designated voter registration agency prior to the close of registration pursuant to § 24.2-416 and the registrar determines that the person was qualified for registration based upon the application for registration submitted by the person pursuant to subsection A. The general registrar shall notify in writing pursuant to § 24.2-114 those persons found not properly registered or whose provisional vote was not counted.

If the electoral board determines that such person was entitled to vote, the name of the voter shall be entered in a provisional votes pollbook and marked as having voted, the envelope shall be opened, and the ballot placed in a ballot container without any inspection further than that provided for in § 24.2-646.

On completion of its determination, the electoral board shall proceed to count such ballots and certify the results of its count. Its certified results shall be added to those found pursuant to § 24.2-671. No adjustment shall be made to the statement of results for the precinct in which the person offered to vote.

The certification of the results of the count together with all ballots and envelopes, whether open or unopened, and other related material shall be delivered by the electoral board to the clerk of the circuit court and retained by him as provided for in §§ 24.2-668 and 24.2-669.

C. Whenever the polling hours are extended by an order of a court of competent jurisdiction, any ballots marked after the normal polling hours by persons who were not already in line at the time the polls would have closed, notwithstanding the court order, shall be treated as provisional ballots under this section. The officers of election shall mark the green envelope for each such provisional ballot to indicate that it was cast after normal polling hours due to the court order, and when preparing the materials to deliver to the registrar or electoral board, shall separate these provisional ballots from any provisional ballots used for any other reason. The electoral board shall treat these provisional ballots as provided in subsection B; however, the counted and uncounted provisional ballots marked after the normal polling hours shall be kept separate from all other ballots and recorded in a separate provisional ballots pollbook. The State Board of Elections shall provide instructions to the electoral boards for the handling and counting of such provisional ballots pursuant to this section.

§ 24.2-671. Electoral board to meet and ascertain results; conclusiveness of results.

Each electoral board shall meet at the clerk's or general registrar's office of the county or city for which they are appointed at or before 5:00 p.m. on the day after any election. The board may adjourn to another room of sufficient size in a public building to ascertain the results, and may adjourn ~~from day to day~~ as needed, not to exceed seven calendar days from the date of the election. Written directions to the location of any room other than the clerk's or general registrar's office where the board will meet shall be posted at the doors of the clerk's and general registrar's offices prior to the beginning of the meeting.

The board shall open the returns delivered by the officers.

If the electoral board has exercised the option provided by § 24.2-668 for delivery of the election materials to the office of the general registrar on the night of the election, the electoral board shall meet at the office of the general registrar at or before 5:00 p.m. on the day after any election.

The board shall ascertain from the returns the total votes in the county or city, or town in a town election, for each candidate and for and against each question and complete the abstract of votes cast at such election, as provided for in § 24.2-675. For any office in which no person was elected by write-in votes, and for which the total number of write-in votes for that office is less than (i) five percent of the total number of votes cast for that office and (ii) the total number of votes cast for the candidate receiving the most votes, the electoral board shall ascertain the total votes for each write-in candidate for the office within one week following the election. For offices for which the electoral board issues the certificate of election, the result so ascertained, signed and attested, shall be conclusive and shall not thereafter be subject to challenge except as specifically provided in Chapter 8 (§ 24.2-800 et seq.) of this title.

Once the result is so ascertained, the secretary of the electoral board shall deliver one copy of each statement of results to the general registrar to be available for inspection when his office is open for business. The secretary shall then return all pollbooks, any printed inspection and return sheets, and one copy of each statement of results to the clerk.

Beginning with the general election in November 2007, a report of any changes made by the local electoral board to the unofficial results ascertained by the officers of election or any subsequent change to the official abstract of votes made by the local electoral board shall be forwarded to the State Board of Elections and the explanation of such change shall be posted on the State Board website.

Each political party and each independent candidate on the ballot, or each primary candidate, shall be entitled to have representatives present when the local electoral board meets to ascertain the results of the election. Each such party and candidate shall be entitled to have at least as many representatives present as there are teams of officials working to ascertain the results, and the room in which the local electoral board meets shall be of sufficient size and configuration to allow the representatives reasonable access and proximity to view the ballots as the teams of officials work to ascertain the results. The representatives and observers lawfully present shall be prohibited from interfering with the officials in any way.

§ 4. Details, sale of bonds and BANs.

Bonds and BANs shall be dated, and may be made redeemable before their maturity or maturities at such price or prices or within such price parameters, all as may be determined by the Treasury Board, by and with the consent of the

Governor. Bonds and BANs shall be in such form, shall bear interest at such rate or rates, either at fixed rates or at rates established by formula or other method, and may contain such other provisions, all as determined by the Treasury Board or, when authorized by the Treasury Board, the State Treasurer. The principal of and premium, if any, and the interest on bonds and BANs shall be payable in lawful money of the United States of America. Bonds and BANs may be certificated or uncertificated as determined by the Treasury Board. The Treasury Board may contract for services of such registrars, transfer agents, or other authenticating agents as it deems appropriate to maintain a record of the persons entitled to the bonds and BANs. Bonds and BANs issued in certificated form may be issued under a system of book entry for recording the ownership and transfer of ownership of rights to receive payments on the bonds and BANs. The Treasury Board shall fix the authorized denomination or denominations of the bonds and the place or places of payment of certificated bonds and BANs, which may be at the Office of the State Treasurer or at any bank or trust company within or without the Commonwealth. Bonds shall mature at such time or times not exceeding 30 years from their date or dates, and BANs shall mature at such time or times not exceeding five years from their date or dates.

The Treasury Board may sell bonds and BANs in such manner, by competitive bidding, negotiated sale, or private placement and for such price or within such price parameters as it may determine, by and with the consent of the Governor, to be in the best interest of the Commonwealth.

In the discretion of the Treasury Board, bonds and BANs may be issued at one time or from time to time, and may be sold and issued at the same time with other general obligation bonds and BANs, respectively, of the Commonwealth authorized pursuant to Article X, Section 9 (a) (3), (b), and (c) of the Constitution of Virginia, as separate issues or as a combined issue, designated "Commonwealth of Virginia General Obligation Bonds Bond Anticipation Notes, Series".

§ 5. Execution of bonds and BANs.

Certificated bonds and BANs shall be signed on behalf of the Commonwealth by the Governor and by the State Treasurer, or shall bear their facsimile signatures, and shall bear the lesser seal of the Commonwealth or a facsimile thereof. If the bonds or BANs bear the facsimile signature of the State Treasurer, they shall be signed by such administrative assistant as the State Treasurer shall determine or by such registrar or paying agent as may be designated to sign them by the Treasury Board. If any officer whose signature or facsimile signature appears on any bonds or BANs ceases to be such officer before delivery, such signature or facsimile signature shall nevertheless be valid and sufficient for all purposes the same as if such officer had remained in office until such delivery, and any bond or BAN may bear the facsimile signature of, or may be signed by, such persons as at the actual time of execution are the proper officers to sign such bond or BAN although, at the date of such bond or BAN, such persons may not have been such officers.

§ 6. Sources for payment of expenses.

All expenses incurred under this act shall be paid from the proceeds of bonds or BANs, from payments made by the institutions for which the capital projects were authorized in § 2 hereof or from any other available funds as the Treasury Board shall determine.

§ 7. Revenues.

The institution of higher learning named above is hereby authorized (i) to fix, revise, charge, and collect rates, fees, and charges for or in connection with the use, occupancy, and services of each capital project mentioned above or the system of which such capital project is a part and (ii) to pledge to the portion of the bonds or BANs issued for such capital project the net revenues resulting from such rates, fees, and charges and remaining after payment of the expenses of operating the project or system, as the case may be. The institution is further authorized to create debt service and sinking funds for the payments of the principal of, premium, if any, and interest on the bonds and other reserves required by any agency of the United States of America purchasing the bonds or any portion thereof.

§ 8. Investments and contracts.

A. Pending the application of the proceeds of the bonds or BANs (including refunding bonds and BANs) to the purpose for which they have been authorized and the application of funds set aside for the purpose to the payment of bonds or BANs, they may be invested by the State Treasurer in securities that are legal investments under the laws of the Commonwealth for public funds and sinking funds, as the case may be. Whenever the State Treasurer receives interest from the investment of the proceeds of bonds or any BANs, such interest shall become a part of the principal of the bonds or any BANs and shall be used in the same manner as required for principal of the bonds or BANs.

B. The Commonwealth may enter into any contract or other arrangement that is determined to be necessary or appropriate to place the obligation or investment of the Commonwealth, as represented by bonds, BANs, or investments, in whole or in part, on the interest rate, cash flow, or other basis desired by the Commonwealth. Such contract or other arrangement may include, without limitation, contracts commonly known as interest rate swap agreements, and futures or contracts providing for payments based on levels of, or changes in, interest rates. These contracts or arrangements may be entered into by the Commonwealth in connection with, or incidental to, entering into, or maintaining any (i) agreement which secures bonds or BANs or (ii) investment, or contract providing for investment, otherwise authorized by law. These contracts and arrangements may contain such payment, security, default, remedy, and other terms and conditions as determined by the Commonwealth, after giving due consideration to the creditworthiness of the counterparty or other obligated party, including any rating by any nationally recognized rating agency, and any other criteria as may be appropriate. The determinations referred to in this paragraph may be made by the Treasury Board or any public funds manager with professional investment capabilities duly authorized by the Treasury Board to make such determinations.

C. Any money set aside and pledged to secure payments of bonds, BANs, or any of the contracts entered into pursuant to this section may be invested in accordance with paragraph A of this section and may be pledged to and used to service any of the contracts or other arrangements entered into pursuant to paragraph B of this section.

§ 9. Security for bonds and BANs.

The net revenues of the capital projects set forth above and the full faith and credit of the Commonwealth are hereby irrevocably pledged for the payment of the principal of and the interest on bonds and BANs (unless the Treasury Board, by and with the consent of the Governor, shall provide otherwise) issued under this act. The proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds, and (iii) refunding BANs are hereby irrevocably pledged for the payment of principal of and interest and any premium on the BANs or bonds to be paid or redeemed thereby. In the event the net revenues pledged to the payment of the bonds or BANs are insufficient in any fiscal year for the timely payment of the principal of, premium, if any, and interest on the bonds or BANs, where the full faith and credit of the Commonwealth have been pledged, the General Assembly shall appropriate a sum sufficient therefor or the Governor shall direct payment therefor from the general fund revenues of the Commonwealth.

§ 10. Exemption of interest from tax.

The bonds and BANs issued under the provisions of this act, their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any county, city, or town or other political subdivision thereof. The Treasury Board is authorized to take or refrain from taking any and all actions and to covenant to such effect, and to require the participating institutions to do and to covenant likewise, to the extent that, in the judgment of the Treasury Board, it is appropriate in order that interest on the bonds and BANs may be exempt from federal income tax. Alternatively, interest on bonds and BANs may be made subject to inclusion in gross income of the holders thereof for federal income tax purposes.

§ 11. Refunding bonds and BANs.

The Treasury Board is authorized, by and with the consent of the Governor, to sell and issue, at one time or from time to time, refunding bonds and BANs of the Commonwealth, to refund any or all of the bonds and BANs, respectively, issued under this act or otherwise authorized pursuant to Article X, Section 9 (c) of the Constitution of Virginia. Refunding bonds and BANs may be issued in a principal amount up to the amount necessary to pay at maturity or redeem the bonds and BANs to be refunded and pay all issuance costs and other financing expenses of the refunding. Such refunding bonds and BANs may be issued whether or not the obligations to be refunded are then subject to redemption.

§ 12. Defeasance.

Any bond or BAN for which cash or direct obligations of the United States of America shall have been set aside in escrow with the State Treasurer or a bank or trust company, within or without the Commonwealth, shall be deemed no longer outstanding under the applicable authorizing instrument, this act and Article X, Section 9 (b) or (c), as the case may be, of the Constitution of Virginia.

§ 13. Severability.

The provisions of this act or the application thereof to any person or circumstance which are held invalid shall not affect the validity of other provisions or applications of this act which can be given effect without the invalid provisions or applications.

2. That an emergency exists and this act is in force from its passage.

§ 2.2-222.1. Secretary to oversee and monitor the development, maintenance, and implementation of a comprehensive and measureable homeland security strategy for the Commonwealth.

A. The Secretary shall ensure that, consistent with the National Incident Management System (NIMS), the Commonwealth implements a continuous cycle of planning, organizing, training, equipping, exercising, evaluating, and taking corrective action pursuant to securing the Commonwealth at both the state and local level against man-made and

natural disasters. To that end, the Secretary shall take action to assign responsibility among agencies, jurisdictions, and subdivisions of the Commonwealth to effect the highest state of readiness posed by both man-made and natural disasters. In doing so, the Secretary shall ensure that preparedness initiatives will be effectively and efficiently coordinated, implemented, and monitored.

B. The Secretary shall also oversee and monitor the development, maintenance, and implementation of a comprehensive and measurable homeland security strategy for the Commonwealth. To ensure a comprehensive strategy, the Secretary shall coordinate the homeland security strategy with all state and local, public, and private, councils that have a homeland security focus within the Commonwealth. The strategy shall ensure that the Commonwealth's homeland security programs are resourced, executed, and assessed according to well-defined and relevant Commonwealth homeland security requirements. In support of the strategy, the Secretary shall provide oversight of the designated State Administrative Agency (SAA) for homeland security to ensure that applications for grant funds by state agencies or local governments describe well-defined requirements for planning, organizing, training, equipping, exercising, evaluating, and taking corrective action measures essential to Commonwealth security.

C. The Secretary shall ensure that the homeland security strategy is fully incorporated into the Secure Commonwealth Plan. In the development of the Secure Commonwealth Plan, the Secretary shall (i) designate a state proponent for each goal in the Secure Commonwealth Plan required within the Commonwealth homeland security strategy; (ii) identify which state agencies shall have responsibility for prevention, protection, mitigation, response, and recovery requirements associated with each goal in the Secure Commonwealth Plan; (iii) prescribe metrics to those state agencies to quantify readiness for man-made and natural disasters; (iv) ensure that state agencies follow rigorous planning practices; and (v) conduct annual reviews and updates to ensure planning, organizing, training, equipping, exercising, evaluating, and taking corrective action is fully implemented at state and local levels of government.

The C-THIRA Report shall (i) identify a list of the threats and hazards of primary concern to the Commonwealth; (ii) describe the threats and hazards of concern, showing how they may affect the Commonwealth; (iii) assess each threat and hazard in context to develop a specific capability target for each core capability consistent with federal National Preparedness Goals; and (iv) estimate the resources required to achieve the capability targets through the use of community assets and mutual aid, while also considering preparedness activities, including mitigation opportunities. Additionally, the C-THIRA Report shall assess the Commonwealth's state of planning, organizing, training, equipping, exercising, evaluating, and ability to take corrective action as well as any shortfalls in these areas. The C-THIRA Report shall also serve as the Commonwealth's strategic approach to improving future preparedness and shall be delivered to the Chairmen of the Senate Committees on Finance and for Courts of Justice and the Chairmen of the House Committees on Appropriations and Militia, Police and Public Safety no later than November 1 of each year.

E. The Secretary shall ensure that state agencies develop and maintain rigorously developed response plans in support of the Commonwealth of Virginia Emergency Operations Plan (COVEOP). The Secretary shall designate the Virginia Department of Emergency Management (VDEM) as the primary agent to ensure that state agencies are compliant with the COVEOP. The Secretary shall further require that VDEM ensure the development of state agency and local disaster response plans and procedures, and monitor the status and quality of those plans on a cyclical basis to establish that they are feasible and suitable and can be implemented with available resources.

F. The Secretary shall be responsible for the coordination and development of state and local shelter, evacuation, traffic, and refuge of last resort planning. The Secretary shall ensure that jurisdictions and subdivisions of the Commonwealth have adequate shelter, evacuation, traffic, and refuge of last resort plans to support emergency evacuation in the event of a man-made or natural disaster. To that end, the Secretary shall direct VDEM to monitor, review, and evaluate on a cyclical basis all shelter, evacuation, traffic, and refuge of last resort plans to ensure they are feasible and suitable and can be implemented with available resources.

G. The Secretary shall also ensure that plans for protecting public critical infrastructure are both developed and fully implemented by those state agencies, jurisdictions, and subdivisions of the Commonwealth with responsibility for critical infrastructure protection. The Secretary shall report deficiencies in securing critical infrastructure annually as part of the Commonwealth's C-THIRA Report.

H. The Secretary is authorized, consistent with federal and state law and procurement regulations thereof, to contract for private and public sector services in homeland security and emergency management to enable, enhance, augment, or supplement state and local planning, organizing, training, equipping, exercising, evaluating, and corrective action capability as he deems necessary to meet Commonwealth security goals with such funds as may be made available to the Secretary or the Department of Emergency Management annually for such services.

§ 2.2-222.2. Additional duties related to review of statewide interoperability strategic plan; state and local compliance.

The Secretary through the Commonwealth Interoperability Coordinator shall ensure that the annual review and update of the statewide interoperability strategic plan is accomplished and implemented to achieve effective and efficient communication between state, local, and federal communications systems.

A new license may then be granted after proper inspection has been made and all provisions of this article and applicable regulations made thereunder have been complied with and recommendations to that effect have been made to the Commissioner upon the basis of an inspection by any authorized inspector or agent of the Department.

D. Suspension of a license shall in all cases be for an indefinite time and the suspension may be lifted and rights under the license fully or partially restored at such time as the Commissioner determines, based on an inspection, that the rights of the licensee appear to so require and the interests of the public will not be jeopardized by resumption of operation.

E. Pursuant to the procedures set forth in subsection F and in addition to the authority provided in subsections A through D, the Commissioner may issue a summary order of suspension of the license of a group home or residential facility for children, in conjunction with any proceeding for revocation, denial, or other action, when conditions or practices exist in the home or facility that pose an immediate and substantial threat to the health, safety, and welfare of the children who are residents and the Commissioner believes the operation should be suspended during the pendency of such proceeding.

F. The summary order of suspension shall take effect upon its issuance and shall be served on the licensee or its designee as soon as practicable thereafter by personal service and certified mail, return receipt requested, to the address of record of the licensee. The order shall state the time, date, and location of a hearing to determine whether the suspension is appropriate. Such hearing shall be held no later than three business days after the issuance of the summary order of suspension and shall be convened by the Commissioner or his designee.

After such hearing, the Commissioner may issue a final order of summary suspension or may find that such summary suspension is not warranted by the facts and circumstances presented. A final order of summary suspension shall include notice that the licensee may appeal the Commissioner's decision to the appropriate circuit court no later than 10 days following issuance of the order. The sole issue before the court shall be whether the Commissioner had reasonable grounds to require the licensee to cease operations during the pendency of the concurrent revocation, denial, or other proceeding. The concurrent revocation, denial, or other proceeding shall not be affected by the outcome of any hearing on the appropriateness of the summary suspension.

The willful and material failure to comply with the summary order of suspension or final order of summary suspension shall be punishable as a Class 2 misdemeanor. The Commissioner may require the cooperation of any other agency or subdivision of the Commonwealth in the relocation of children who are residents of a home or facility whose license has been summarily suspended pursuant to this section and in any other actions necessary to reduce the risk of further harm to children.

G. The Commissioner shall inform other public agencies that provide funds to a provider, including the Departments of Social Services and Medical Assistance Services, when a provider's license is suspended, revoked, or denied in accordance with this section.

§ 37.2-419. Human rights and licensing enforcement and sanctions; notice.

A. As used in this section, "special order" means an administrative order issued to any party licensed or funded by the Department that has a stated duration of not more than 12 months and that may include a civil penalty that shall not exceed \$500 per violation per day, prohibition of new admissions, or reduction of licensed capacity for violations of § 37.2-400, the licensing or human rights regulations, or this article.

B. Notwithstanding any other provision of law, following a proceeding as provided in § 2.2-4019, the Commissioner may issue a special order for a violation of any of the provisions of § 37.2-400 or any regulation adopted under any provision of § 37.2-400 or of this article that adversely affects the human rights of individuals receiving services or poses an imminent and substantial threat to the health, safety, or welfare of individuals receiving services. The issuance of a special order shall be considered a case decision as defined in § 2.2-4001. The Commissioner shall not delegate his authority to impose civil penalties in conjunction with the issuance of special orders. The Commissioner may take the following actions to sanction public and private providers licensed or funded by the Department for noncompliance with § 37.2-400, the human rights regulations, or this article *that are the subject of a special order*:

1. Place any service of any such provider on probation upon finding that it is substantially out of compliance with the licensing or human rights regulations and that the health or safety of individuals receiving services is at risk.

2. Reduce licensed capacity or prohibit new admissions when he concludes that the provider cannot or will not make necessary corrections to achieve compliance with licensing or human rights regulations except by a temporary restriction of its scope of service.

3. Require that probationary status announcements, ~~provisional licenses,~~ and denial or revocation notices be of sufficient size and distinction and be posted in a prominent place at each public entrance of the affected service.

4. Mandate training for the provider's employees, with any costs to be borne by the provider, when he concludes that the lack of training has led directly to violations of licensing or human rights regulations.

5. Assess civil penalties of not more than \$500 per violation per day upon finding that the licensed or funded provider is substantially out of compliance with the licensing or human rights regulations and that the health or safety of individuals receiving services is at risk.

6. Withhold funds from ~~licensees or programs~~ *licensed or funded providers* receiving public funds that are in violation of the licensing or human rights regulations *upon finding that the licensed or funded provider is substantially out of compliance and that the health or safety of individuals receiving services is at risk.*

C. The Commissioner shall inform other public agencies that provide funds to ~~the licensee or the program~~ *a provider,* including the Departments of Social Services and Medical Assistance Services, ~~of any licensee or program that is in violation of the licensing or human rights regulations~~ *that a special order has been issued in accordance with this section.*

D. The Board shall adopt regulations to implement the provisions of this section.

[H 574]

Approved April 3, 2014

Be it enacted by the General Assembly of Virginia:

1. That §§ 19.2-169.6, 19.2-182.9, 37.2-809, 37.2-814, and 37.2-817 of the Code of Virginia are amended and reenacted as follows:

§ 19.2-169.6. Inpatient psychiatric hospital admission from local correctional facility.

A. Any inmate of a local correctional facility who is not subject to the provisions of § 19.2-169.2 may be hospitalized for psychiatric treatment at a hospital designated by the Commissioner of Behavioral Health and Developmental Services as appropriate for treatment of persons under criminal charge if:

1. The court with jurisdiction over the inmate's case, if it is still pending, on the petition of the person having custody over an inmate or on its own motion, holds a hearing at which the inmate is represented by counsel and finds by clear and convincing evidence that (i) the inmate has a mental illness; (ii) there exists a substantial likelihood that, as a result of a mental illness, the inmate will, in the near future, cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if any; and (iii) the inmate requires treatment in a hospital rather than the local correctional facility. Prior to making this determination, the court shall consider the examination conducted in accordance with § 37.2-815 and the preadmission screening report prepared in accordance with § 37.2-816 and conducted in-person or by means of a two-way electronic video and audio communication system as authorized in § 37.2-804.1 by an employee or designee of the local community services board or behavioral health authority who is skilled in the assessment and treatment of mental illness, who is not providing treatment to the inmate, and who has completed a certification program approved by the Department of Behavioral Health and Developmental Services as provided in § 37.2-809. The examiner appointed pursuant to § 37.2-815, if not physically present at the hearing, shall be available whenever possible for questioning during the hearing through a two-way electronic video and audio or telephonic communication system as authorized in § 37.2-804.1. Any employee or designee of the local community services board or behavioral health authority, as defined in § 37.2-809, representing the board or authority that prepared the preadmission screening report shall attend the hearing in person or, if physical attendance is not practicable, shall participate in the hearing through a two-way electronic video and audio communication system as authorized in § 37.2-804.1. When the hearing is held outside the service area of the community services board or behavioral health authority that prepared the preadmission screening report, and it is not practicable for a representative of the board or authority to attend or participate in the hearing, arrangements shall be made by the board or authority for an employee or designee of the board or authority serving the area in which the hearing is held to attend or participate on behalf of the board or authority that prepared the preadmission screening report; or

2. Upon petition by the person having custody over an inmate, a magistrate finds probable cause to believe that (i) the inmate has a mental illness; (ii) there exists a substantial likelihood that, as a result of a mental illness, the inmate will, in the near future, cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if any; and (iii) the inmate requires treatment in a hospital rather than a local correctional facility, and the magistrate issues a temporary detention order for the inmate. Prior to the filing of the petition, the person having custody shall arrange for an evaluation of the inmate conducted in-person or by means of a two-way electronic video and audio communication system as authorized in § 37.2-804.1 by an employee or designee of the local community services board or behavioral health authority who is skilled in the assessment and treatment of mental illness and who has completed a certification program approved by the Department as provided in § 37.2-809. After considering the evaluation of the employee or designee of the local community services board or behavioral health authority, and any other information presented, and finding that probable cause exists to meet the criteria, the magistrate may issue a temporary detention order in accordance with the applicable procedures specified in §§ 37.2-809 through 37.2-813. The person having custody over the inmate shall notify the court having jurisdiction over the inmate's case, if it is

still pending, and the inmate's attorney prior to the detention pursuant to a temporary detention order or as soon thereafter as is reasonable.

Upon detention pursuant to this subdivision, a hearing shall be held either (a) before the court having jurisdiction over the inmate's case or (b) before a district court judge or a special justice, as defined in § 37.2-100, in accordance with the provisions of §§ 37.2-815 through 37.2-821, in which case the inmate shall be represented by counsel as specified in § 37.2-814. The hearing shall be held within ~~48~~ 72 hours of execution of the temporary detention order issued pursuant to this subdivision. If the ~~48-hour~~ 72-hour period terminates on a Saturday, Sunday, legal holiday, or day on which the court is lawfully closed, the inmate may be detained until the close of business on the next day that is not a Saturday, Sunday, legal holiday, or day on which the court is lawfully closed. Any employee or designee of the local community services board or behavioral health authority, as defined in § 37.2-809, representing the board or authority that prepared the preadmission screening report shall attend the hearing in person or, if physical attendance is not practicable, shall participate in the hearing through a two-way electronic video and audio communication system as authorized in § 37.2-804.1. When the hearing is held outside the service area of the community services board or behavioral health authority that prepared the preadmission screening report, and it is not practicable for a representative of the board or authority to attend or participate in the hearing, arrangements shall be made by the board or authority for an employee or designee of the board or authority serving the area in which the hearing is held to attend or participate on behalf of the board or authority that prepared the preadmission screening report. The judge or special justice conducting the hearing may order the inmate hospitalized if, after considering the examination conducted in accordance with § 37.2-815, the preadmission screening report prepared in accordance with § 37.2-816, and any other available information as specified in subsection C of § 37.2-817, he finds by clear and convincing evidence that (1) the inmate has a mental illness; (2) there exists a substantial likelihood that, as a result of a mental illness, the inmate will, in the near future, cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if any; and (3) the inmate requires treatment in a hospital rather than a local correctional facility. The examiner appointed pursuant to § 37.2-815, if not physically present at the hearing, shall be available whenever possible for questioning during the hearing through a two-way electronic video and audio or telephonic communication system as authorized in § 37.2-804.1. The examination and the preadmission screening report shall be admitted into evidence at the hearing.

B. In no event shall an inmate have the right to make application for voluntary admission as may be otherwise provided in § 37.2-805 or 37.2-814 or be subject to an order for mandatory outpatient treatment as provided in § 37.2-817.

C. If an inmate is hospitalized pursuant to this section and his criminal case is still pending, the court having jurisdiction over the inmate's case may order that the admitting hospital evaluate the inmate's competency to stand trial and his mental state at the time of the offense pursuant to §§ 19.2-169.1 and 19.2-169.5.

D. An inmate may not be hospitalized longer than 30 days under subsection A unless the court which has criminal jurisdiction over him or a district court judge or a special justice, as defined in § 37.2-100, holds a hearing and orders the inmate's continued hospitalization in accordance with the provisions of subdivision A 2. If the inmate's hospitalization is continued under this subsection by a court other than the court which has jurisdiction over his criminal case, the facility at which the inmate is hospitalized shall notify the court with jurisdiction over his criminal case and the inmate's attorney in the criminal case, if the case is still pending.

E. Hospitalization may be extended in accordance with subsection D for periods of 60 days for inmates awaiting trial, but in no event may such hospitalization be continued beyond trial, nor shall such hospitalization act to delay trial, as long as the inmate remains competent to stand trial. Hospitalization may be extended in accordance with subsection D for periods of 180 days for an inmate who has been convicted and not yet sentenced, or for an inmate who has been convicted of a crime and is in the custody of a local correctional facility after sentencing, but in no event may such hospitalization be continued beyond the date upon which his sentence would have expired had he received the maximum sentence for the crime charged. Any inmate who has not completed service of his sentence upon discharge from the hospital shall serve the remainder of his sentence.

F. For any inmate who has been convicted and not yet sentenced, or who has been convicted of a crime and is in the custody of a local correctional facility after sentencing, the time the inmate is confined in a hospital for psychiatric treatment shall be deducted from any term for which he may be sentenced to any penal institution, reformatory or elsewhere.

G. Any health care provider, as defined in § 32.1-127.1:03, or other provider rendering services to an inmate who is the subject of a proceeding under this section, upon request, shall disclose to a magistrate, the court, the inmate's attorney, the inmate's guardian ad litem, the examiner appointed pursuant to § 37.2-815, the community service board or behavioral health authority preparing the preadmission screening pursuant to § 37.2-816, or the sheriff or administrator of the local correctional facility any and all information that is necessary and appropriate to enable each of them to perform his duties under this section. These health care providers and other service providers shall disclose to one another health records and information where necessary to provide care and treatment to the inmate and to monitor that care and treatment. Health records disclosed to a sheriff or administrator of the local correctional facility shall be limited to information necessary to protect the sheriff or administrator of the local correctional facility and his employees, the inmate, or the public from physical injury or to address the health care needs of the inmate. Information disclosed to a law-enforcement officer shall not be used for any other purpose, disclosed to others, or retained.

Any health care provider disclosing records pursuant to this section shall be immune from civil liability for any harm resulting from the disclosure, including any liability under the federal Health Insurance Portability and Accountability Act (42 U.S.C. § 1320d et seq.), as amended, unless the person or provider disclosing such records intended the harm or acted in bad faith.

H. Any order entered where an inmate is the subject of proceedings under this section shall provide for the disclosure of medical records pursuant to subsection G. This subsection shall not preclude any other disclosures as required or permitted by law.

§ 19.2-182.9. Emergency custody of conditionally released acquittee.

When exigent circumstances do not permit compliance with revocation procedures set forth in § 19.2-182.8, any district court judge or a special justice, as defined in § 37.2-100, or a magistrate may issue an emergency custody order, upon the sworn petition of any responsible person or upon his own motion based upon probable cause to believe that an acquittee on conditional release (i) has violated the conditions of his release or is no longer a proper subject for conditional release and (ii) requires inpatient hospitalization. The emergency custody order shall require the acquittee within his judicial district to be taken into custody and transported to a convenient location where a person designated by the community services board or behavioral health authority who is skilled in the diagnosis and treatment of mental illness shall evaluate such acquittee and assess his need for inpatient hospitalization. A law-enforcement officer who, based on his observation or the reliable reports of others, has probable cause to believe that any acquittee on conditional release has violated the conditions of his release and is no longer a proper subject for conditional release and requires emergency evaluation to assess the need for inpatient hospitalization, may take the acquittee into custody and transport him to an appropriate location to assess the need for hospitalization without prior judicial authorization. The evaluation shall be conducted immediately. The acquittee shall remain in custody until a temporary detention order is issued or until he is released, but in no event shall the period of custody exceed four hours. However, upon a finding by a district court judge, special justice as defined in § 37.2-100, or magistrate that good cause exists to grant an extension, the district court judge, special justice, or magistrate shall extend the emergency custody order, or shall issue an order extending the period of emergency custody, one time for an additional period not to exceed two hours. Good cause for an extension includes the need for additional time to allow (a) the community services board to identify a suitable facility in which the person can be temporarily detained pursuant to this section or (b) a medical evaluation of the person to be completed if necessary. If it appears from all evidence readily available (i) that the acquittee has violated the conditions of his release or is no longer a proper subject for conditional release and (ii) that he requires emergency evaluation to assess the need for inpatient hospitalization, the district court judge or a special justice, as defined in § 37.2-100, or magistrate, upon the advice of such person skilled in the diagnosis and treatment of mental illness, may issue a temporary detention order authorizing the executing officer to place the acquittee in an appropriate institution for a period not to exceed ~~48~~ 72 hours prior to a hearing. If the ~~48-hour~~ 72-hour period terminates on a Saturday, Sunday, legal holiday, or day on which the court is lawfully closed, the acquittee may be detained until the next day which is not a Saturday, Sunday, legal holiday, or day on which the court is lawfully closed.

The committing court or any district court judge or a special justice, as defined in § 37.2-100, shall have jurisdiction to hear the matter. Prior to the hearing, the acquittee shall be examined by a psychiatrist or licensed clinical psychologist, provided the psychiatrist or clinical psychologist is skilled in the diagnosis of mental illness, who shall certify whether the person is in need of hospitalization. At the hearing the acquittee shall be provided with adequate notice of the hearing, of the right to be present at the hearing, the right to the assistance of counsel in preparation for and during the hearing, and the right to introduce evidence and cross-examine witnesses at the hearing. Following the hearing, if the court determines, based on a preponderance of the evidence presented at the hearing, that the acquittee (i) has violated the conditions of his release or is no longer a proper subject for conditional release and (ii) has mental illness or intellectual disability and is in need of inpatient hospitalization, the court shall revoke the acquittee's conditional release and place him in the custody of the Commissioner.

When an acquittee on conditional release pursuant to this chapter is taken into emergency custody, detained, or hospitalized, such action shall be considered to have been taken pursuant to this section, notwithstanding the fact that his status as an insanity acquittee was not known at the time of custody, detention, or hospitalization. Detention or hospitalization of an acquittee pursuant to provisions of law other than those applicable to insanity acquittees pursuant to this chapter shall not render the detention or hospitalization invalid. If a person's status as an insanity acquittee on conditional release is not recognized at the time of emergency custody or detention, at the time his status as such is verified, the provisions applicable to such persons shall be applied and the court hearing the matter shall notify the committing court of the proceedings.

§ 37.2-809. Involuntary temporary detention; issuance and execution of order.

A. For the purposes of this section:

"Designee of the local community services board" means an examiner designated by the local community services board who (i) is skilled in the assessment and treatment of mental illness, (ii) has completed a certification program approved by the Department, (iii) is able to provide an independent examination of the person, (iv) is not related by blood or marriage to the person being evaluated, (v) has no financial interest in the admission or treatment of the person being evaluated, (vi) has no investment interest in the facility detaining or admitting the person under this article, and (vii) except for employees of state hospitals and of the U.S. Department of Veterans Affairs, is not employed by the facility.

"Employee" means an employee of the local community services board who is skilled in the assessment and treatment of mental illness and has completed a certification program approved by the Department.

"Investment interest" means the ownership or holding of an equity or debt security, including shares of stock in a corporation, interests or units of a partnership, bonds, debentures, notes, or other equity or debt instruments.

B. A magistrate shall issue, upon the sworn petition of any responsible person, treating physician, or upon his own motion and only after an evaluation conducted in-person or by means of a two-way electronic video and audio communication system as authorized in § 37.2-804.1 by an employee or a designee of the local community services board to determine whether the person meets the criteria for temporary detention, a temporary detention order if it appears from all evidence readily available, including any recommendation from a physician or clinical psychologist treating the person, that the person (i) has a mental illness and that there exists a substantial likelihood that, as a result of mental illness, the person will, in the near future, (a) cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if any, or (b) suffer serious harm due to his lack of capacity to protect himself from harm or to provide for his basic human needs, (ii) is in need of hospitalization or treatment, and (iii) is unwilling to volunteer or incapable of volunteering for hospitalization or treatment. The magistrate shall also consider the recommendations of any treating or examining physician licensed in Virginia if available either verbally or in writing prior to rendering a decision. Any temporary detention order entered pursuant to this section shall provide for the disclosure of medical records pursuant to § 37.2-804.2. This subsection shall not preclude any other disclosures as required or permitted by law.

C. When considering whether there is probable cause to issue a temporary detention order, the magistrate may, in addition to the petition, consider (i) the recommendations of any treating or examining physician or psychologist licensed in Virginia, if available, (ii) any past actions of the person, (iii) any past mental health treatment of the person, (iv) any relevant hearsay evidence, (v) any medical records available, (vi) any affidavits submitted, if the witness is unavailable and it so states in the affidavit, and (vii) any other information available that the magistrate considers relevant to the determination of whether probable cause exists to issue a temporary detention order.

D. A magistrate may issue a temporary detention order without an emergency custody order proceeding. A magistrate may issue a temporary detention order without a prior evaluation pursuant to subsection B if (i) the person has been personally examined within the previous 72 hours by an employee or a designee of the local community services board or (ii) there is a significant physical, psychological, or medical risk to the person or to others associated with conducting such evaluation.

E. An employee or a designee of the local community services board shall determine the facility of temporary detention for all individuals detained pursuant to this section. The facility of temporary detention shall be one that has been approved pursuant to regulations of the Board. The facility shall be identified on the preadmission screening report and indicated on the temporary detention order. Except as provided in § 37.2-811 for inmates requiring hospitalization in accordance with subdivision A 2 of § 19.2-169.6, the person shall not be detained in a jail or other place of confinement for persons charged with criminal offenses and shall remain in the custody of law enforcement until the person is either detained within a secure facility or custody has been accepted by the appropriate personnel designated by the facility identified in the temporary detention order.

F. Any facility caring for a person placed with it pursuant to a temporary detention order is authorized to provide emergency medical and psychiatric services within its capabilities when the facility determines that the services are in the best interests of the person within its care. The costs incurred as a result of the hearings and by the facility in providing services during the period of temporary detention shall be paid and recovered pursuant to § 37.2-804. The maximum costs reimbursable by the Commonwealth pursuant to this section shall be established by the State Board of Medical Assistance Services based on reasonable criteria. The State Board of Medical Assistance Services shall, by regulation, establish a reasonable rate per day of inpatient care for temporary detention.

G. The employee or the designee of the local community services board who is conducting the evaluation pursuant to this section shall determine, prior to the issuance of the temporary detention order, the insurance status of the person. Where coverage by a third party payor exists, the facility seeking reimbursement under this section shall first seek reimbursement from the third party payor. The Commonwealth shall reimburse the facility only for the balance of costs remaining after the allowances covered by the third party payor have been received.

H. The duration of temporary detention shall be sufficient to allow for completion of the examination required by § 37.2-815, preparation of the preadmission screening report required by § 37.2-816, and initiation of mental health treatment to stabilize the person's psychiatric condition to avoid involuntary commitment where possible, but shall not exceed ~~48~~ 72 hours prior to a hearing. If the ~~48-hour~~ 72-hour period herein specified terminates on a Saturday, Sunday, ~~or~~ legal holiday, *or day on which the court is lawfully closed*, the person may be detained, as herein provided, until the close of business on the next day that is not a Saturday, Sunday, ~~or~~ legal holiday, *or day on which the court is lawfully closed*. The person may be released, pursuant to § 37.2-813, before the ~~48-hour~~ 72-hour period herein specified has run.

I. If a temporary detention order is not executed within 24 hours of its issuance, or within a shorter period as is specified in the order, the order shall be void and shall be returned unexecuted to the office of the clerk of the issuing court or, if the office is not open, to any magistrate serving the jurisdiction of the issuing court. Subsequent orders may be issued upon the original petition within 96 hours after the petition is filed. However, a magistrate must again obtain the advice of an employee or a designee of the local community services board prior to issuing a subsequent order upon the original

petition. Any petition for which no temporary detention order or other process in connection therewith is served on the subject of the petition within 96 hours after the petition is filed shall be void and shall be returned to the office of the clerk of the issuing court.

J. The Executive Secretary of the Supreme Court of Virginia shall establish and require that a magistrate, as provided by this section, be available seven days a week, 24 hours a day, for the purpose of performing the duties established by this section. Each community services board shall provide to each general district court and magistrate's office within its service area a list of its employees and designees who are available to perform the evaluations required herein.

K. For purposes of this section, a health care provider or designee of a local community services board or behavioral health authority shall not be required to encrypt any email containing information or medical records provided to a magistrate unless there is reason to believe that a third party will attempt to intercept the email.

L. The employee or designee of the community services board who is conducting the evaluation pursuant to this section shall, if he recommends that the person should not be subject to a temporary detention order, inform the petitioner and an onsite treating physician of his recommendation.

§ 37.2-814. Commitment hearing for involuntary admission; written explanation; right to counsel; rights of petitioner.

A. The commitment hearing for involuntary admission shall be held after a sufficient period of time has passed to allow for completion of the examination required by § 37.2-815, preparation of the preadmission screening report required by § 37.2-816, and initiation of mental health treatment to stabilize the person's psychiatric condition to avoid involuntary commitment where possible, but shall be held within ~~48~~ 72 hours of the execution of the temporary detention order as provided for in § 37.2-809; however, if the ~~48-hour~~ 72-hour period herein specified terminates on a Saturday, Sunday, legal holiday, or day on which the court is lawfully closed, the person may be detained, as herein provided, until the close of business on the next day that is not a Saturday, Sunday, legal holiday, or day on which the court is lawfully closed.

B. At the commencement of the commitment hearing, the district court judge or special justice shall inform the person whose involuntary admission is being sought of his right to apply for voluntary admission for inpatient treatment as provided for in § 37.2-805 and shall afford the person an opportunity for voluntary admission. The district court judge or special justice shall advise the person whose involuntary admission is being sought that if the person chooses to be voluntarily admitted pursuant to § 37.2-805, such person will be prohibited from possessing ~~or~~ purchasing, *or transporting* a firearm pursuant to § 18.2-308.1:3. The judge or special justice shall ascertain if the person is then willing and capable of seeking voluntary admission for inpatient treatment. In determining whether a person is capable of consenting to voluntary admission, the judge or special justice may consider evidence regarding the person's past compliance or noncompliance with treatment. If the judge or special justice finds that the person is capable and willingly accepts voluntary admission for inpatient treatment, the judge or special justice shall require him to accept voluntary admission for a minimum period of treatment not to exceed 72 hours. After such minimum period of treatment, the person shall give the facility 48 hours' notice prior to leaving the facility. During this notice period, the person shall not be discharged except as provided in § 37.2-837, 37.2-838, or 37.2-840. The person shall be subject to the transportation provisions as provided in § 37.2-829 and the requirement for preadmission screening by a community services board as provided in § 37.2-805.

C. If a person is incapable of accepting or unwilling to accept voluntary admission and treatment, the judge or special justice shall inform the person of his right to a commitment hearing and right to counsel. The judge or special justice shall ascertain if the person whose admission is sought is represented by counsel, and, if he is not represented by counsel, the judge or special justice shall appoint an attorney to represent him. However, if the person requests an opportunity to employ counsel, the judge or special justice shall give him a reasonable opportunity to employ counsel at his own expense.

D. A written explanation of the involuntary admission process and the statutory protections associated with the process shall be given to the person, and its contents shall be explained by an attorney prior to the commitment hearing. The written explanation shall describe, at a minimum, the person's rights to (i) retain private counsel or be represented by a court-appointed attorney, (ii) present any defenses including independent evaluation and expert testimony or the testimony of other witnesses, (iii) be present during the hearing and testify, (iv) appeal any order for involuntary admission to the circuit court, and (v) have a jury trial on appeal. The judge or special justice shall ascertain whether the person whose involuntary admission is sought has been given the written explanation required herein.

E. To the extent possible, during or before the commitment hearing, the attorney for the person whose involuntary admission is sought shall interview his client, the petitioner, the examiner described in § 37.2-815, the community services board staff, and any other material witnesses. He also shall examine all relevant diagnostic and other reports, present evidence and witnesses, if any, on his client's behalf, and otherwise actively represent his client in the proceedings. A health care provider shall disclose or make available all such reports, treatment information, and records concerning his client to the attorney, upon request. The role of the attorney shall be to represent the wishes of his client, to the extent possible.

F. The petitioner shall be given adequate notice of the place, date, and time of the commitment hearing. The petitioner shall be entitled to retain counsel at his own expense, to be present during the hearing, and to testify and present evidence. The petitioner shall be encouraged but shall not be required to testify at the hearing, and the person whose involuntary admission is sought shall not be released solely on the basis of the petitioner's failure to attend or testify during the hearing.

§ 37.2-817. Involuntary admission and mandatory outpatient treatment orders.

A. The district court judge or special justice shall render a decision on the petition for involuntary admission after the appointed examiner has presented the report required by § 37.2-815, and after the community services board that serves the

county or city where the person resides or, if impractical, where the person is located has presented a preadmission screening report with recommendations for that person's placement, care, and treatment pursuant to § 37.2-816. These reports, if not contested, may constitute sufficient evidence upon which the district court judge or special justice may base his decision. The examiner, if not physically present at the hearing, and the treating physician at the facility of temporary detention shall be available whenever possible for questioning during the hearing through a two-way electronic video and audio or telephonic communication system as authorized in § 37.2-804.1.

B. Any employee or designee of the local community services board, as defined in § 37.2-809, representing the community services board that prepared the preadmission screening report shall attend the hearing in person or, if physical attendance is not practicable, shall participate in the hearing through a two-way electronic video and audio or telephonic communication system as authorized in § 37.2-804.1. Where a hearing is held outside of the service area of the community services board that prepared the preadmission screening report, and it is not practicable for a representative of the board to attend or participate in the hearing, arrangements shall be made by the board for an employee or designee of the board serving the area in which the hearing is held to attend or participate on behalf of the board that prepared the preadmission screening report. The employee or designee of the local community services board, as defined in § 37.2-809, representing the community services board that prepared the preadmission screening report or attending or participating on behalf of the board that prepared the preadmission screening report shall not be excluded from the hearing pursuant to an order of sequestration of witnesses. The community services board that prepared the preadmission screening report shall remain responsible for the person subject to the hearing and, prior to the hearing, shall send the preadmission screening report through certified mail, personal delivery, facsimile with return receipt acknowledged, or other electronic means to the community services board attending the hearing. Where a community services board attends the hearing on behalf of the community services board that prepared the preadmission screening report, the attending community services board shall inform the community services board that prepared the preadmission screening report of the disposition of the matter upon the conclusion of the hearing. In addition, the attending community services board shall transmit the disposition through certified mail, personal delivery, facsimile with return receipt acknowledged, or other electronic means.

At least 12 hours prior to the hearing, the court shall provide to the community services board that prepared the preadmission screening report the time and location of the hearing. If the representative of the community services board will be present by telephonic means, the court shall provide the telephone number to the board.

C. After observing the person and considering (i) the recommendations of any treating or examining physician or psychologist licensed in Virginia, if available, (ii) any past actions of the person, (iii) any past mental health treatment of the person, (iv) any examiner's certification, (v) any health records available, (vi) the preadmission screening report, and (vii) any other relevant evidence that may have been admitted, including whether the person recently has been found unrestorably incompetent to stand trial after a hearing held pursuant to subsection E of § 19.2-169.1, if the judge or special justice finds by clear and convincing evidence that (a) the person has a mental illness and there is a substantial likelihood that, as a result of mental illness, the person will, in the near future, (1) cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if any, or (2) suffer serious harm due to his lack of capacity to protect himself from harm or to provide for his basic human needs, and (b) all available less restrictive treatment alternatives to involuntary inpatient treatment, pursuant to subsection D, that would offer an opportunity for the improvement of the person's condition have been investigated and determined to be inappropriate, the judge or special justice shall by written order and specific findings so certify and order that the person be admitted involuntarily to a facility for a period of treatment not to exceed 30 days from the date of the court order. Such involuntary admission shall be to a facility designated by the community services board that serves the county or city in which the person was examined as provided in § 37.2-816. If the community services board does not designate a facility at the commitment hearing, the person shall be involuntarily admitted to a facility designated by the Commissioner. Upon the expiration of an order for involuntary admission, the person shall be released unless he is involuntarily admitted by further petition and order of a court, which shall be for a period not to exceed 180 days from the date of the subsequent court order, or such person makes application for treatment on a voluntary basis as provided for in § 37.2-805 or is ordered to mandatory outpatient treatment pursuant to subsection D. Upon motion of the treating physician, a family member or personal representative of the person, or the community services board serving the county or city where the facility is located, the county or city where the person resides, or the county or city where the person receives treatment, a hearing shall be held prior to the release date of any involuntarily admitted person to determine whether such person should be ordered to mandatory outpatient treatment pursuant to subsection D upon his release if such person, on at least two previous occasions within 36 months preceding the date of the hearing, has been (A) involuntarily admitted pursuant to this section or (B) the subject of a temporary detention order and voluntarily admitted himself in accordance with subsection B of § 37.2-814. A district court judge or special justice shall hold the hearing within 72 hours after receiving the motion for a mandatory outpatient treatment order; however, if the 72-hour period expires on a Saturday, Sunday, or legal holiday, the hearing shall be held by the close of business on the next day that is not a Saturday, Sunday, or legal holiday.

C1. In the order for involuntary admission, the judge or special justice may authorize the treating physician to discharge the person to mandatory outpatient treatment under a discharge plan developed pursuant to subsection C2, if the judge or special justice further finds by clear and convincing evidence that (i) the person has a history of lack of compliance with treatment for mental illness that at least twice within the past 36 months has resulted in the person being subject to an order for involuntary admission pursuant to subsection C; (ii) in view of the person's treatment history and current behavior,

the person is in need of mandatory outpatient treatment following inpatient treatment in order to prevent a relapse or deterioration that would be likely to result in the person meeting the criteria for involuntary inpatient treatment; (iii) as a result of mental illness, the person is unlikely to voluntarily participate in outpatient treatment unless the court enters an order authorizing discharge to mandatory outpatient treatment following inpatient treatment; and (iv) the person is likely to benefit from mandatory outpatient treatment. The duration of mandatory outpatient treatment shall be determined by the court based on recommendations of the community services board, but shall not exceed 90 days. Upon expiration of the order for mandatory outpatient treatment, the person shall be released unless the order is continued in accordance with § 37.2-817.4.

C2. Prior to discharging the person to mandatory outpatient treatment under a discharge plan as authorized pursuant to subsection C1, the treating physician shall determine, based upon his professional judgment, that (i) the person (a) in view of the person's treatment history and current behavior, no longer needs inpatient hospitalization, (b) requires mandatory outpatient treatment at the time of discharge to prevent relapse or deterioration of his condition that would likely result in his meeting the criteria for involuntary inpatient treatment, and (c) has agreed to abide by his discharge plan and has the ability to do so; and (ii) the ordered treatment will be delivered on an outpatient basis by the community services board or designated provider to the person. In no event shall the treating physician discharge a person to mandatory outpatient treatment under a discharge plan as authorized pursuant to subsection C1 if the person meets the criteria for involuntary commitment set forth in subsection C. The discharge plan developed by the treating physician and facility staff in conjunction with the community services board and the person shall serve as and shall contain all the components of the comprehensive mandatory outpatient treatment plan set forth in subsection G, and no initial mandatory outpatient treatment plan set forth in subsection F shall be required. The discharge plan shall be submitted to the court for approval and, upon approval by the court, shall be filed and incorporated into the order entered pursuant to subsection C1. The discharge plan shall be provided to the person by the community services board at the time of the person's discharge from the inpatient facility. The community services board where the person resides upon discharge shall monitor the person's compliance with the discharge plan and report any material noncompliance to the court in accordance with § 37.2-817.1.

D. After observing the person and considering (i) the recommendations of any treating or examining physician or psychologist licensed in Virginia, if available, (ii) any past actions of the person, (iii) any past mental health treatment of the person, (iv) any examiner's certification, (v) any health records available, (vi) the preadmission screening report, and (vii) any other relevant evidence that may have been admitted, if the judge or special justice finds by clear and convincing evidence that (a) the person has a mental illness and that there exists a substantial likelihood that, as a result of mental illness, the person will, in the near future, (1) cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if any, or (2) suffer serious harm due to his lack of capacity to protect himself from harm or to provide for his basic human needs; (b) less restrictive alternatives to involuntary inpatient treatment that would offer an opportunity for improvement of his condition have been investigated and are determined to be appropriate; (c) the person has agreed to abide by his treatment plan and has the ability to do so; and (d) the ordered treatment will be delivered on an outpatient basis by the community services board or designated provider to the person, the judge or special justice shall by written order and specific findings so certify and order that the person be admitted involuntarily to mandatory outpatient treatment. Less restrictive alternatives shall not be determined to be appropriate unless the services are actually available in the community.

E. Mandatory outpatient treatment may include day treatment in a hospital, night treatment in a hospital, outpatient involuntary treatment with anti-psychotic medication pursuant to Chapter 11 (§ 37.2-1100 et seq.), or other appropriate course of treatment as may be necessary to meet the needs of the person. Mandatory outpatient treatment shall not include the use of restraints or physical force of any kind in the provision of the medication. The community services board that serves the county or city in which the person resides shall recommend a specific course of treatment and programs for the provision of mandatory outpatient treatment. The duration of mandatory outpatient treatment shall be determined by the court based on recommendations of the community services board, but shall not exceed 90 days. Upon expiration of an order for mandatory outpatient treatment, the person shall be released from the requirements of the order unless the order is continued in accordance with § 37.2-817.4.

F. Any order for mandatory outpatient treatment entered pursuant to subsection D shall include an initial mandatory outpatient treatment plan developed by the community services board that completed the preadmission screening report. The plan shall, at a minimum, (i) identify the specific services to be provided, (ii) identify the provider who has agreed to provide each service, (iii) describe the arrangements made for the initial in-person appointment or contact with each service provider, and (iv) include any other relevant information that may be available regarding the mandatory outpatient treatment ordered. The order shall require the community services board to monitor the implementation of the mandatory outpatient treatment plan and report any material noncompliance to the court.

G. No later than five days, excluding Saturdays, Sundays, or legal holidays, after an order for mandatory outpatient treatment has been entered pursuant to subsection D, the community services board where the person resides that is responsible for monitoring compliance with the order shall file a comprehensive mandatory outpatient treatment plan. The comprehensive mandatory outpatient treatment plan shall (i) identify the specific type, amount, duration, and frequency of each service to be provided to the person, (ii) identify the provider that has agreed to provide each service included in the plan, (iii) certify that the services are the most appropriate and least restrictive treatment available for the person, (iv) certify that each provider has complied and continues to comply with applicable provisions of the Department's licensing

regulations, (v) be developed with the fullest possible involvement and participation of the person and his family, with the person's consent, and reflect his preferences to the greatest extent possible to support his recovery and self-determination, (vi) specify the particular conditions with which the person shall be required to comply, and (vii) describe how the community services board shall monitor the person's compliance with the plan and report any material noncompliance with the plan. The community services board shall submit the comprehensive mandatory outpatient treatment plan to the court for approval. Upon approval by the court, the comprehensive mandatory outpatient treatment plan shall be filed with the court and incorporated into the order of mandatory outpatient treatment. Any subsequent substantive modifications to the plan shall be filed with the court for review and attached to any order for mandatory outpatient treatment.

H. If the community services board responsible for developing the comprehensive mandatory outpatient treatment plan determines that the services necessary for the treatment of the person's mental illness are not available or cannot be provided to the person in accordance with the order for mandatory outpatient treatment, it shall notify the court within five business days of the entry of the order for mandatory outpatient treatment. Within two business days of receiving such notice, the judge or special justice, after notice to the person, the person's attorney, and the community services board responsible for developing the comprehensive mandatory outpatient treatment plan shall hold a hearing pursuant to § 37.2-817.2.

I. Upon entry of any order for mandatory outpatient treatment entered pursuant to subsection D, the clerk of the court shall provide a copy of the order to the person who is the subject of the order, to his attorney, and to the community services board required to monitor compliance with the plan. The community services board shall acknowledge receipt of the order to the clerk of the court on a form established by the Office of the Executive Secretary of the Supreme Court and provided by the court for this purpose *within five business days*.

J. The court may transfer jurisdiction of the case to the district court where the person resides at any time after the entry of the mandatory outpatient treatment order. The community services board responsible for monitoring compliance with the mandatory outpatient treatment plan or discharge plan shall remain responsible for monitoring the person's compliance with the plan until the community services board serving the locality to which jurisdiction of the case has been transferred acknowledges the transfer and receipt of the order to the clerk of the court on a form established by the Office of the Executive Secretary of the Supreme Court and provided by the court for this purpose. *The community services board serving the locality to which jurisdiction of the case has been transferred shall acknowledge the transfer and receipt of the order within five business days.*

K. Any order entered pursuant to this section shall provide for the disclosure of medical records pursuant to § 37.2-804.2. This subsection shall not preclude any other disclosures as required or permitted by law.

1. That the Code of Virginia is amended by adding a section numbered 54.1-2312.01 as follows:

§ 54.1-2312.01. Special interments; definitions; regulations by Board.

A. A cemetery company may have a section in the cemetery devoted to the interment of human remains and the pets of such deceased humans, provided:

1. The section of the cemetery property dedicated for this purpose is segregated entirely from the remainder of the cemetery devoted to the interment of human remains;

2. No pet is interred in the same grave, crypt, or niche as the remains of a human; and

3. The section of the cemetery is clearly marked and advertised as such by the cemetery company.

B. A cemetery company may have a section in the cemetery devoted to the interment of pets, provided:

1. The section of the cemetery property dedicated for this purpose is segregated entirely from the remainder of the cemetery devoted to the interment of human remains; and

2. The section of the cemetery is clearly marked and advertised as such by the cemetery company.

C. As used in the section, "pet" means the same as that term is defined in § 57-39.20.

D. The Board shall adopt such regulations as the Board deems appropriate and necessary to implement the provisions of this section. Regulations of the Board shall be in accordance with the Administrative Process Act (§ 2.2-4000 et seq.).

CHAPTER 501

An Act to amend and reenact § 55-226.2 of the Code of Virginia, relating to the landlord and tenant law; energy submetering, etc.; local government fees.

[H 614]

Approved April 3, 2014

Be it enacted by the General Assembly of Virginia:

1. That § 55-226.2 of the Code of Virginia is amended and reenacted as follows:

§ 55-226.2. Energy submetering, energy allocation equipment, sewer and water submetering equipment, ratio utility billings systems; local government fees.

A. Energy submetering equipment, energy allocation equipment, water and sewer submetering equipment, or a ratio utility billing system may be used in a commercial or residential building or campground if clearly stated in the rental agreement or lease for the leased premises or dwelling unit. All energy submetering equipment and energy allocation equipment shall meet the requirements and standards established and enforced by the State Corporation Commission pursuant to § 56-245.3.

B. If energy submetering equipment, water and sewer submetering equipment, or energy allocation equipment is used in any building or campground, the owner, manager, or operator of the building or campground shall bill the tenant for electricity, natural gas or water and sewer for the same billing period as the utility serving the building or campground, unless the rental agreement or lease expressly provides otherwise. The owner, manager, or operator of the building or campground may charge and collect from the tenant additional service charges, including, but not limited to, monthly billing fees, account set-up fees or account move-out fees, to cover the actual costs of administrative expenses and billing charged to the building or campground owner, manager, or operator by a third-party provider of such services, provided that such charges are agreed to by the building or campground owner and the tenant in the rental agreement or lease. The building or campground owner may require the tenant to pay a late charge of up to \$5 if the tenant fails to make payment when due, which shall not be less than 15 days following the date of mailing or delivery of the bill sent pursuant to this section.

C. If a ratio utility billing system is used in any building or campground, in lieu of increasing the rent, the owner, manager, or operator of the building or campground may employ such a program that utilizes a mathematical formula for allocating, among the tenants in a building or campground, the actual or anticipated water, sewer, electrical, or natural gas billings billed to the building or campground owner from a third-party provider of the utility service. The owner, manager, or operator of the building or campground may charge and collect from the tenant additional service charges, including but not limited to monthly billing fees, account set-up fees, or account move-out fees, to cover the actual costs of administrative expenses and billings charged to the building or campground owner, manager, or operator by a third-party provider of such services, provided that such charges are agreed to by the building or campground owner and the tenant in the rental agreement or lease. The building or campground owner may require the tenant to pay a late charge of up to \$5 if the tenant fails to make payment when due, which shall not be less than 15 days following the date of mailing or delivery of the bill sent pursuant to this section. The late charge shall be deemed rent as defined in § 55-248.4 if a ratio utility billing system is used in a residential multifamily dwelling unit subject to the Virginia Residential Landlord and Tenant Act (§ 55-248.2 et seq.).

D. Energy allocation equipment shall be tested periodically by the owner, operator or manager of the building or campground. Upon the request by a tenant, the owner shall test the energy allocation equipment without charge. The test conducted without charge to the tenant shall not be conducted more frequently than once in a 24-month period for the same tenant. The tenant or his designated representative may be present during the testing of the energy allocation equipment. A written report of the results of the test shall be made to the tenant within 10 working days after the completion of the test.

E. The owner of any building or campground shall maintain adequate records regarding energy submetering equipment, water and sewer submetering equipment, energy allocation equipment, or a ratio utility billing system. A tenant may inspect and copy the records for the leased premises during reasonable business hours at a convenient location within the building or campground. The owner of the building or campground may impose and collect a reasonable charge for copying documents, reflecting the actual costs of materials and labor for copying, prior to providing copies of the records to the tenant.

F. Notwithstanding any enforcement action undertaken by the State Corporation Commission pursuant to its authority under § 56-245.3, tenants and owners shall retain any private right of action resulting from any breach of the rental agreement or lease terms required by this section or § 56-245.3, if applicable, to the same extent as such actions may be maintained for breach of other terms of the rental agreement or lease under Chapter 13 (§ 55-217 et seq.) or Chapter 13.2 (§ 55-248.2 et seq.) of this title, if applicable. The use of energy submetering equipment, water and sewer submetering equipment, energy allocation equipment, or a ratio utility billing system is not within the jurisdiction of the Department of Agriculture and Consumer Services under Chapter 56 (§ 3.2-5600 et seq.) of Title 3.2.

G. *In lieu of increasing the rent, the owner, manager, or operator of a commercial or residential building or campground may employ a program that utilizes a mathematical formula for allocating the actual or anticipated local government fees billed to the building or campground owner among the tenants in such building or campground if clearly stated in the rental agreement or lease for the leased premises or dwelling unit. Permitted allocation methods may include formulas based upon square footage, occupancy, number of bedrooms, or some other specific method agreed to by the building or campground owner and the tenant in the rental agreement or lease. Such owner, manager, or operator of a commercial or residential building or campground may also charge and collect from each tenant additional service charges, including monthly billing fees, account set-up fees, or account move-out fees, to cover the actual costs of administrative expenses for administration of such a program. If the building is residential and is subject to the Virginia*

Residential Landlord and Tenant Act (§ 55-248.2 et seq.), such local government fees and administrative expenses shall be deemed to be rent as defined in § 55-248.4.

"Water and sewer submetering equipment" means equipment used to measure actual water or sewer usage in any dwelling unit or nonresidential rental unit, as defined in subsection A of § 56-245.2 or campsite, when such equipment is not owned or controlled by the utility or other provider of water or sewer service that provides service to the building in which the dwelling unit or nonresidential rental unit is located or campground where the campsite is located.

1. That § 15.2-3107 of the Code of Virginia is amended and reenacted as follows:

§ 15.2-3107. Publication of agreed boundary line.

The summary shall describe the new boundary, but need not include a metes and bounds description. The publication shall include a statement that a copy of the agreement is on file in the office of the clerk of the governing body which is considering the proposed agreement. A joint publication of the proposed agreement by the localities which otherwise meets the requirements of this section shall satisfy this requirement. If joint publication is used, the publication costs shall be apportioned between the participating localities in the manner agreed upon by them. After providing the notice required by this section, each locality shall hold at least one public hearing on the agreement prior to its adoption.

B. Notice of any agreement as provided in subsection A hereof shall be served upon the affected property owners, if any, of the area affected by the agreement, and if the owners of at least one third of the affected parcels object to the change, they shall be permitted to intervene in the proceedings as prescribed in § 15.2-3108 and show cause why the boundary line should not be changed. Nothing in this subsection shall be construed as to invalidate any subsequently adopted boundary line agreement because of the inadvertent failure by the representatives of the local governments to give written notice to the owner, owners, or their agent of any parcel involved.

§ 63.2-1505. Investigations by local departments.

A. An investigation requires the collection of information necessary to determine:

1. The immediate safety needs of the child;
 2. The protective and rehabilitative services needs of the child and family that will deter abuse or neglect;
 3. Risk of future harm to the child;
 4. Alternative plans for the child's safety if protective and rehabilitative services are indicated and the family is unable or unwilling to participate in services;
 5. Whether abuse or neglect has occurred;
 6. If abuse or neglect has occurred, who abused or neglected the child; and
 7. A finding of either founded or unfounded based on the facts collected during the investigation.
- B. If the local department responds to the report or complaint by conducting an investigation, the local department shall:
1. Make immediate investigation and, if the report or complaint was based upon one of the factors specified in subsection B of § 63.2-1509, the local department may file a petition pursuant to § 16.1-241.3;
 2. Complete a report and transmit it forthwith to the Department, except that no such report shall be transmitted in cases in which the cause to suspect abuse or neglect is one of the factors specified in subsection B of § 63.2-1509 and the mother sought substance abuse counseling or treatment prior to the child's birth;
 3. Consult with the family to arrange for necessary protective and rehabilitative services to be provided to the child and his family;
 4. Petition the court for services deemed necessary including, but not limited to, removal of the child or his siblings from their home;
 5. Determine within 45 days if a report of abuse or neglect is founded or unfounded and transmit a report to such effect to the Department and to the person who is the subject of the investigation. However, upon written justification by the local department, *the time for such determination may be extended; not to exceed a total of 60 days or, in the event that the investigation is being conducted in cooperation with a law-enforcement agency and both parties agree that circumstances so warrant, as stated in the written justification, the time for such determination may be extended not to exceed 90 days.* If through the exercise of reasonable diligence the local department is unable to find the child who is the subject of the report, the time the child cannot be found shall not be computed as part of the ~~45-day or 60-day period~~ *total time period allowed for the investigation and determination* and documentation of such reasonable diligence shall be placed in the record. In cases involving the death of a child or alleged sexual abuse of a child who is the subject of the report, the time during which records necessary for the investigation of the complaint but not created by the local department, including autopsy or medical or forensic records or reports, are not available to the local department due to circumstances beyond the local department's control shall not be computed as part of the ~~45-day or 60-day period~~ *total time period allowed for the investigation and determination*, and documentation of the circumstances that resulted in the delay shall be placed in the record;
 6. If a report of abuse or neglect is unfounded, transmit a report to such effect to the complainant and parent or guardian and the person responsible for the care of the child in those cases where such person was suspected of abuse or neglect; and
 7. If a report of child abuse and neglect is founded, and the subject of the report is a full-time, part-time, permanent, or temporary employee of a school division located within the Commonwealth, notify the relevant school board of the founded complaint. Any information exchanged for the purposes of this subsection shall not be considered a violation of § 63.2-102, 63.2-104, or 63.2-105.

C. Each local board may obtain and consider, in accordance with regulations adopted by the Board, statewide criminal history record information from the Central Criminal Records Exchange and results of a search of the child abuse and neglect central registry of any individual who is the subject of a child abuse or neglect investigation conducted under this section when there is evidence of child abuse or neglect and the local board is evaluating the safety of the home and whether removal will protect a child from harm. The local board also may obtain such a criminal records or registry search on all adult household members residing in the home where the individual who is the subject of the investigation resides and the child resides or visits. If a child abuse or neglect petition is filed in connection with such removal, a court may admit such information as evidence. Where the individual who is the subject of such information contests its accuracy through testimony under oath in hearing before the court, no court shall receive or consider the contested criminal history record information without certified copies of conviction. Further dissemination of the information provided to the local board is prohibited, except as authorized by law.

CHAPTER 505

An Act to amend and reenact § 46.2-1220 of the Code of Virginia and to repeal §§ 46.2-1306 and 46.2-1306.1 of the Code of Virginia, relating to local ordinances on parking.

[H 733]

Approved April 3, 2014

Be it enacted by the General Assembly of Virginia:

1. That § 46.2-1220 of the Code of Virginia is amended and reenacted as follows:

§ 46.2-1220. Parking, stopping, and standing regulations in counties, cities, or towns; parking meters; presumption as to violation of ordinances; penalty.

The governing body of any county, city, or town may by ordinance provide for the regulation of parking, stopping, and standing of vehicles within its limits, including, *but not limited to, the regulation of any vehicle blocking access to and preventing use of curb ramps, fire hydrants, and mailboxes on public or private property.* Such ordinances may also include the installation and maintenance of parking meters. The ordinance may require the deposit of a coin of a prescribed denomination, determine the length of time a vehicle may be parked, and designate a department, official, or employee of the local government to administer the provisions of the ordinance. The ordinance may delegate to that department, official, or employee the authority to make and enforce any additional regulations concerning parking that may be required, including, but not limited to, penalties for violations, deadlines for the payment of fines, and late payment penalties for fines not paid when due. In a city having a population of at least 100,000, the ordinance may also provide that a summons or parking ticket for the violation of the ordinance or regulations may be issued by law-enforcement officers, other uniformed city employees, or by uniformed personnel serving under contract with the city. Notwithstanding the foregoing provisions of this section, the governing bodies of Augusta, Bath, and Rockingham Counties may by ordinance provide for the regulation of parking, stopping, and standing of vehicles within their limits, but no such ordinance shall authorize or provide for the installation and maintenance of parking meters.

No ordinance adopted under the provisions of this section shall prohibit the parking of two motorcycles in single parking spaces designated, marked, and sized for four-wheel vehicles. The governing body of any county, city, or town may, by ordinance, permit the parking of three or more motorcycles in single parking spaces designated, marked, and sized for four-wheel vehicles.

If any ordinance regulates parking on an interstate highway or any arterial highway or any extension of an arterial highway, it shall be subject to the approval of the Commissioner of Highways.

In any prosecution charging a violation of the ordinance or regulation, proof that the vehicle described in the complaint, summons, parking ticket citation, or warrant was parked in violation of the ordinance or regulation, together with proof that the defendant was at the time the registered owner of the vehicle, as required by Chapter 6 (§ 46.2-600 et seq.) of this title, shall constitute in evidence a prima facie presumption that the registered owner of the vehicle was the person who committed the violation. Violators of local ordinances adopted by Chesterfield County or James City County pursuant to this section shall be subject to a civil penalty not to exceed \$75, the proceeds from which shall be paid into the locality's general fund.

2. That §§ 46.2-1306 and 46.2-1306.1 of the Code of Virginia are repealed.

CHAPTER 506

An Act to amend and reenact § 24.2-706 of the Code of Virginia, relating to absentee voting and procedures; secure return of voted military-overseas ballots.

[H 759]

Approved April 3, 2014

Be it enacted by the General Assembly of Virginia:

1. That § 24.2-706 of the Code of Virginia is amended and reenacted as follows:

§ 24.2-706. Duty of general registrar and electoral board on receipt of application; statement of voter.

On receipt of an application for an absentee ballot, the general registrar shall enroll the name and address of each registered applicant on an absentee voter applicant list that shall be maintained in the office of the general registrar with a file of the applications of the listed applicants. The list shall be available for inspection and copying and the applications shall be available for inspection only by any registered voter during regular office hours. Upon request and for a reasonable fee, the State Board of Elections shall provide an electronic copy of the absentee voter applicant list to any political party or candidate. Such list shall be used only for campaign and political purposes. Any list made available for inspection and copying under this section shall contain the post office box address in lieu of the residence street address for any individual who has furnished at the time of registration or subsequently, in addition to his street address, a post office box address pursuant to subsection B of § 24.2-418.

No list or application containing an individual's social security number, or any part thereof, or the individual's day and month of birth, shall be made available for inspection or copying by anyone. The State Board of Elections shall prescribe procedures for local electoral boards and general registrars to make the information in the lists and applications available in a manner that does not reveal social security numbers or parts thereof, or an individual's day and month of birth.

The completion and timely delivery of an application for an absentee ballot shall be construed to be an offer by the applicant to vote in the election.

The general registrar shall note on each application received whether the applicant is or is not a registered voter and notify the secretary of the electoral board. In reviewing the application for an absentee ballot, the general registrar and electoral board shall not reject the application of any individual because of an error or omission on any record or paper relating to the application, if such error or omission is not material in determining whether such individual is qualified to vote absentee.

If the application has been properly completed and signed and the applicant is a registered voter of the precinct in which he offers to vote, the electoral board shall, at the time when the printed ballots for the election are available, send by the deadline set out in § 24.2-612, obtaining a certificate of either first-class or expedited mailing or delivery from the United States Postal Service or other commercial delivery provider, or deliver to him in person in the office of the secretary or registrar, the following items and nothing else:

1. An envelope containing the folded ballot, sealed and marked "Ballot within. Do not open except in presence of a witness."

2. An envelope, with printing only on the flap side, for resealing the marked ballot, on which envelope is printed the following:

"Statement of Voter."

"I do hereby state, subject to felony penalties for making false statements pursuant to § 24.2-1016, that my FULL NAME is _____ (last, first, middle); that I am now or have been at some time since last November's general election a legal resident of _____ (STATE YOUR LEGAL RESIDENCE IN VIRGINIA including the house number, street name or rural route address, city, zip code); that I received the enclosed ballot(s) upon application to the registrar of such county or city; that I opened the envelope marked 'ballot within' and marked the ballot(s) in the presence of the witness, without assistance or knowledge on the part of anyone as to the manner in which I marked it (or I am returning the form required to report how I was assisted); that I then sealed the ballot(s) in this envelope; and that I have not voted and will not vote in this election at any other time or place.

Signature of Voter

Date

Signature of witness"

For elections held after January 1, 2004, instead of the envelope containing the above oath, an envelope containing the standard oath prescribed by the presidential designee under § 101(b)(7) of the Uniformed and Overseas Citizens Absentee Voting Act (42 U.S.C. § 1973ff et seq.) shall be sent to voters who are qualified to vote absentee under that Act.

3. A properly addressed envelope for the return of the ballot to the electoral board by mail or by the applicant in person.

4. Printed instructions for completing the ballot and statement on the envelope and returning the ballot.

For federal elections held after January 1, 2004, for any voter who is required by subparagraph (b) of 42 U.S.C. § 15483 of the Help America Vote Act of 2002 to show identification the first time the voter votes in a federal election in the state, the printed instructions shall direct the voter to submit with his ballot (i) a copy of a current and valid photo identification or (ii) a copy of a current utility bill, bank statement, government check, paycheck or other government document that shows the name and address of the voter. Such individual who desires to vote by mail but who does not submit one of the forms of identification specified in this paragraph may cast such ballot by mail and the ballot shall be counted as a provisional ballot under the provisions of § 24.2-653. The State Board of Elections shall provide instructions to the electoral boards for the handling and counting of such provisional ballots pursuant to subsection B of § 24.2-653 and this section.

5. For any voter entitled to vote absentee under the Uniformed and Overseas Citizens Absentee Voting Act (42 U.S.C. § 1973ff et seq.), information provided by the State Board specific to the voting rights and responsibilities for such citizens, or information provided by the registrar specific to the status of the voter registration and absentee ballot application of such voter, may be included.

The envelopes and instructions shall be in the form prescribed by the State Board.

If the applicant makes his application to vote in person under § 24.2-701 at a time when the printed ballots for the election are available, the general registrar or the secretary of the electoral board, on the determination of the qualifications of the applicant to vote, shall provide to the applicant the items set forth in subdivisions 1 through 4, and no item shall be removed by the applicant from the office of the general registrar or the secretary of the electoral board. On the request of the applicant, made no later than 5:00 p.m. on the seventh day prior to the election in which the applicant offers to vote, the general registrar or the secretary may send the items set forth in subdivisions 1 through 4 to the applicant by mail, obtaining a certificate of mailing.

If the applicant states as the reason for his absence on election day any of the reasons set forth in subdivision 2 of § 24.2-700, the electoral board, at the time when the printed ballots for the election are available, shall mail by the deadline set forth in § 24.2-612 or deliver in person to the applicant in the office of the secretary or general registrar the items as set forth in subdivisions 1 through 4 and, if necessary, an application for registration. A certificate of mailing shall not be required. The electoral board, at the time when the printed ballots for the election are available, shall send by the deadline set forth in § 24.2-612 the blank ballot, the form for the envelope for returning the marked ballot, and instructions to the voter by electronic transmission if the voter so requests. The voted ballot shall be returned to the electoral board as otherwise required by this chapter.

For purposes of this paragraph, a "uniformed-service voter" means an individual who is qualified to vote and is a member of the active or reserve components of the United States Army, Navy, Air Force, Marine Corps, or Coast Guard who is on active duty, or a member of the Virginia National Guard on activated status. The State Board shall provide instructions, procedures, services, a security assessment, and security measures for the secure return of voted absentee military-overseas ballots by electronic means from uniformed-service voters outside of the United States. The instructions for electronic transmission and submission shall be in the form prescribed by the State Board. The State Board may modify

the Statement of Voter provided in subdivision 2 to make it compatible with electronic submission. The State Board shall, in consultation with local boards of election and general registrars, develop and update annually a security assessment and security measures to ensure the accuracy and integrity of absentee voting by electronic means under this section. Such security measures shall (i) reasonably secure the transmission, processing, and storage of voter data from interception and unauthorized access in accordance with security policies and procedures of the Commonwealth and (ii) develop a procedure for security review after each election based on evaluation of the number of or any discrepancy in the votes received electronically.

When the statement prescribed in subdivision 2 has been properly completed and signed by the registered voter and witnessed, his ballot shall not be subject to challenge pursuant to § 24.2-651.

The circuit courts shall have jurisdiction to issue an injunction to enforce the provisions of this section upon the application of (⊕) (a) any aggrieved voter, (⊕) (b) any candidate in an election district in whole or in part in the court's jurisdiction where a violation of this section has occurred, or is likely to occur, or (⊕) (c) the campaign committee or the appropriate district political party chairman of such candidate. Any person who fails to discharge his duty as provided in this section through willful neglect of duty and with malicious intent shall be guilty of a Class 1 misdemeanor as provided in subsection A of § 24.2-1001.

2. That the State Board of Elections shall work with federal, state, local, and other appropriate entities to establish best practices for uniformed-service voter authentication and identification and for the secure return of voted absentee military-overseas ballots by electronic means pursuant to the provisions of this act.

3. That the State Board of Elections shall convene a working group to assist with the development of the initial instructions, procedures, services, security assessment, and security measures required by this act for the secure return of voted absentee military-overseas ballots by electronic means. Such working group shall include the Chief Information Officer of the Commonwealth, the Chief Information Security Officer of the Commonwealth, representation of local boards of elections and general registrars, and others designated by the State Board of Elections. The working group shall submit an annual report to the Governor and General Assembly on the feasibility and cost of implementing the secure return of voted absentee military-overseas ballots from uniformed-service voters outside of the United States beginning January 1, 2016.

4. That the provisions of this act amending § 24.2-706 shall not become effective unless reenacted by the 2016 Session of the General Assembly.

CHAPTER 507

An Act to amend and reenact §§ 56-235.9, 56-265.2:1, and 56-265.4 of the Code of Virginia and to amend the Code of Virginia by adding in Chapter 27 of Title 56 a section numbered 56-609, relating to natural gas utility regulation; upstream supply infrastructure projects.

[H 949]

Approved April 3, 2014

Be it enacted by the General Assembly of Virginia:

1. That §§ 56-235.9, 56-265.2:1, and 56-265.4 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding in Chapter 27 of Title 56 a section numbered 56-609 as follows:

§ 56-235.9. Recovery of funds used for capital projects prior to a rate case for strategic natural gas facilities.

A. As used in this section:

"Capitalized carrying cost" includes the return on the investment, depreciation, and tax.

"Natural gas transmission company" means any investor-owned public service company engaged in the business of transporting natural gas to more than one electric utility, natural gas utility, or non-jurisdictional customer.

"Natural gas utility" means any investor-owned public service company engaged in the business of furnishing natural gas service to the public.

"Strategic natural gas facility" includes, without limitation, a natural gas distribution or transmission pipeline, storage facility, compressor station, liquefied natural gas facility, peaking facility or other appurtenant facility, used to furnish natural gas service in the Commonwealth that, for a natural gas utility with fewer than 150,000 customers, adds stand-alone design day deliverability or designed send-out of at least 10,000 dekaTherms per day or two or more such facilities, regardless of size, that add design day deliverability or designed send out of at least 75,000 dekaTherms per day in the aggregate, and for a natural gas utility with 150,000 or more customers, adds stand-alone design day deliverability or designed send out of at least 20,000 dekaTherms per day or two or more such facilities, regardless of size, that add design day deliverability or designed send out of at least 100,000 dekaTherms per day in the aggregate, and for a natural gas transmission company, adds design day deliverability or designed send out of at least 100,000 dekaTherms per day in the aggregate.

B. Any natural gas utility that places a strategic natural gas facility into service on or after July 1, 2008, or natural gas transmission company that places a strategic natural gas facility into service on or after July 1, 2014, to serve its customers shall have the right to recover through its rates charged to those customers the entire prudently incurred costs of the facility including: planning, development and construction costs; costs of infrastructure associated therewith; an allowance for

funds used during construction; and the capitalized carrying cost from the time construction is completed and the asset is placed into service until the time that the Commission establishes new rates that include recovery of all costs as defined herein. Such recovery shall be permitted by allowing such costs to be recorded in the utility's plant accounts and included in rate base for purposes of cost recovery (i) in new rate schedules for service not offered under existing rate schedules or new rate schedules for expansion of existing services as permitted by § 56-235.4, (ii) in a rate case using the cost of service methodology set forth in § 56-235.2, or (iii) in a performance-based regulation plan authorized by § 56-235.6, subject to Commission determination that such costs were prudently incurred. The allowance for funds used during construction and the return on investment shall be calculated utilizing the weighted average cost of capital, including the cost of debt and cost of equity used in determining the natural gas utility's base rates in effect during the construction period of the strategic natural gas facility.

C. Nothing in this section shall be construed to prohibit the Commission from granting similar treatment to other natural gas facilities when the Commission deems such treatment to be in the public interest.

§ 56-265.2:1. Approval by Commission required for construction of certain gas pipelines and related facilities; notice and hearing.

A. Whenever a certificate is required pursuant to § 56-265.2 for the construction of a pipeline for the transmission or distribution of manufactured or natural gas, the Commission shall consider the effect of the pipeline on the environment, public safety, and economic development in the Commonwealth, and may establish such reasonably practical conditions as may be necessary to minimize any adverse environmental or public safety impact. In such proceedings, the Commission shall receive and consider all reports by state agencies concerned with environmental protection; and, if requested by any county or municipality in which the pipeline is proposed to be constructed, local comprehensive plans that have been adopted pursuant to Article 3 (§ 15.2-2223 et seq.) of Chapter 22 of Title 15.2.

B. The Commission shall not approve construction of any such pipeline unless the public utility has provided ~~thirty~~ **30** days' advance public notice of the proposed pipeline by (i) publishing a notice in a newspaper or newspapers of general circulation in each of the counties and municipalities through which the pipeline is proposed to be constructed, (ii) providing written notice to the governing body of each such county and municipality, (iii) causing to be sent a copy of the notice by first class mail to all owners of property within the route of the proposed pipeline, as indicated on the map or sketch of the route filed with the Commission, which requirement shall be satisfied by mailing the notice to such persons at such addresses as are indicated in the land books maintained by the commissioner of revenue, director of finance or treasurer of the county or municipality, and (iv) filing a copy of any plans, specifications, or maps of the proposed pipeline with the Commission, which plans, specifications, or maps shall be made available for public inspection at the Commission's business office, during normal business hours. Any notice required by this subsection shall include a written description of the proposed route the line is to follow, a map or sketch of the route, and information regarding the time period during which persons may request a public hearing under subsection C of this section.

C. If, within ~~forty five~~ **45** days after publication and mailing of the notices required in subsection B of this section, any interested party requests a public hearing, the Commission shall, as soon as reasonably practicable after such request, hold such hearing or hearings at such place as may be designated by the Commission. If written requests therefor are received from twenty or more interested parties, the Commission shall hold at least one hearing in the area that would be affected by construction of the pipeline, for the purpose of receiving public comment on the proposal. If any hearing is to be held in the area affected, the Commission shall direct that a copy of the transcripts of any previous hearings held in the case be made available for public inspection at a convenient location in the area for a reasonable time before such local hearing.

D. For the purposes of this section, "interested parties" means the governing bodies of any counties or municipalities through which the pipeline is to be constructed, and persons residing or owning property within one-half mile of such pipeline. For the purposes of this section, "environment" or "environmental" shall be deemed to include in meaning "historic."

E. If a significantly different route is determined more desirable after the giving of the notice required in subsection B of this section, the Commission shall cause notice of the new route or routes to be published and mailed in accordance with subsection B of this section. The Commission shall thereafter comply with the provisions of this section to the full extent necessary to give interested parties in the newly affected areas the same protection afforded interested parties affected by the route described in the original notice.

F. Approval of a pipeline pursuant to this section shall be deemed to satisfy and supersede the requirements of § 15.2-2232 and local zoning ordinances with respect to such pipeline and related facilities; however, the Commission shall not approve the construction of a natural gas compressor station in an area zoned *exclusively* for residential use unless the public utility provides certification from the local governing body that the natural gas compressor station is consistent with the zoning ordinance. The certification required by this subsection shall be deemed to have been waived unless the local governing body informs the Commission and the public utility of the natural gas compressor station's compliance or noncompliance within ~~forty five~~ **45** days of the public utility's written request.

§ 56-265.4. Certificate to operate in territory of another certificate holder.

Except as provided in § 56-265.4:4, no certificate shall be granted to an applicant proposing to operate in the territory of any holder of a certificate unless and until it shall be proved to the satisfaction of the Commission that the service rendered by such certificate holder in such territory is inadequate to the requirements of the public necessity and convenience; and if the Commission shall be of opinion that the service rendered by such certificate holder in such territory

is in any respect inadequate to the requirements of the public necessity and convenience, such certificate holder shall be given reasonable time and opportunity to remedy such inadequacy before any certificate shall be granted to an applicant proposing to operate in such territory. *For the purposes of this section, the transportation of natural gas by pipeline, without providing service to end users within the territory, shall not be considered operating in the territory of another certificate holder.*

§ 56-609. Upstream natural gas supply infrastructure projects.

A. As used in this section, unless the context requires a different meaning:

"Eligible natural gas supply infrastructure costs" includes the investment in eligible natural gas supply infrastructure projects and the following:

1. Return on the investment. In calculating the return on investment, the Commission shall use the natural gas utility's then in effect weighted average cost of capital, including the cost of debt and equity, based on its regulatory capital structure used in determining the natural gas utility's base rates. The investment will be multiplied by the weighted average cost of capital to determine the return on investment;

2. A revenue conversion factor. Such factor, including income taxes, shall be applied to the required operating income resulting from the eligible natural gas supply infrastructure costs;

3. Operating and maintenance expense, which includes the amount of operating and maintenance expense utilized in production wells, processing the gas produced, and gathering, transmission, and distribution lines delivering the gas to a pipeline or distribution system;

4. Depreciation. In calculating depreciation, the Commission shall use the natural gas utility's current depreciation rates for investments in distribution infrastructure, as set out by appropriate asset class. The utility shall propose a basis for recovering for the depreciation or depletion of investments in other asset classes in the natural gas supply investment plan, including investments in natural gas reserves that will deplete based on their useful life or of associated facilities that may be retired upon depletion of natural gas reserves;

5. Property tax, severance tax, and any other taxes or government fees associated with production and transmission of natural gas; and

6. Carrying costs on the over-recovery or under-recovery of the eligible natural gas supply infrastructure costs. In calculating the carrying costs, the Commission shall use the natural gas utility's regulatory capital structure as determined in subdivision 1 of this definition.

"Eligible natural gas supply infrastructure projects" means capital investments in natural gas reserves and upstream pipelines and facilities that, alone or in combination with other projects or strategies, offer reasonably anticipated benefits to customers and markets, which benefits mean (i) savings in the delivered cost of gas versus long-term forward market projections available to the natural gas utility at the time of the capital investment or other alternatives, (ii) a reduction in the utility's overall portfolio price volatility, (iii) reduction in the utility's overall supply risk, or (iv) any combination of the savings or reductions described in clauses (i), (ii), and (iii). Any such customer benefit benchmarks shall be outlined in the natural gas utility's filings with the Commission pursuant to this section.

"Investment" means actual costs incurred on eligible natural gas supply infrastructure projects, including planning, development, and construction costs; actual costs of infrastructure associated therewith; and an allowance for funds used during construction. In calculating the allowance for funds used during construction, the Commission shall use the natural gas utility's actual regulatory capital structure as determined in subdivision 1 of the definition of eligible natural gas supply infrastructure costs.

"Natural gas reserves and upstream pipelines and facilities" means investments in natural gas reserves, production facilities (including equipment required to prepare the natural gas for use), gathering, transmission, and, within the natural gas utility's certificated service territory, any distribution pipelines necessary to deliver the reserves, and above-ground and below-ground storage used in the delivery of gas to existing natural gas transmission pipelines or distribution systems.

"Natural gas supply investment plan" means a plan filed by a natural gas utility that identifies proposed eligible natural gas supply infrastructure projects and its development of those projects with or without a third party.

B. A natural gas utility shall have the right to recover eligible natural gas supply infrastructure costs on an ongoing basis through the gas cost component of the utility's rate structure or other recovery mechanism approved by the Commission, provided that any such mechanism shall properly allocate costs. Natural gas utilities using the cost of service methodology set forth in § 56-235.2 or a performance-based regulation plan authorized by § 56-235.6 shall be eligible to file a plan. The plan shall include a timeline for the investment and completion of the proposed eligible natural gas supply infrastructure projects; provide for an estimated schedule for recovery of the related eligible natural gas supply infrastructure costs through the gas cost component of the utility's rate structure or other mechanism, including proposed depreciation rates for investments in non-distribution asset classes and how any revenue gains from the use of the pipelines by third parties will be used to offset eligible natural gas supply infrastructure costs; and demonstrate that the plan is in the public interest with due consideration to providing a portion of the utility's delivered supply at prices at or below the long-term projections as available and defined in the natural gas utility's filing, or reduction in the utility's overall supply risk, or reduction in the utility's overall portfolio price volatility, or a combination thereof. No project may provide an annual volume of natural gas that exceeds 12.5 percent of the natural gas utility's annual firm sales demand, and no combination of projects may provide an annual volume of natural gas that exceeds 25 percent of the natural gas utility's annual firm sales demand. The natural gas utility's weather-normalized firm sales demand for the calendar year preceding

the application shall be deemed to establish the annual firm sales demand for the purposes of calculating the volume and volumetric limits of projects. In no case shall any investment in reserves exceed 20 years. The Commission shall approve such a plan upon a finding that it is in the public interest after notice and an opportunity for hearing in accordance with the provisions of this chapter.

C. In addition to the items included in the plan as specified in subsection B, the plan may provide the utility with an option to receive the gas or sell the gas at market prices. A utility proposing this option as part of its plan shall propose how any revenue gains from the sale of the gas will be used to reduce the cost of gas to its customers. The Commission shall approve or deny, within 180 days, a natural gas utility's initial application for a natural gas supply infrastructure plan. A plan filed pursuant to this section shall not require the filing of rate case schedules. The Commission shall approve or deny, within 120 days, a natural gas utility's application to amend a previously approved plan. If the Commission denies such a plan or amendment, it shall set forth with specificity the reasons for such denial, and the utility shall have the right to refile, without prejudice, an amended plan or amendment within 60 days, and the Commission shall thereafter have 60 days to approve or deny the amended plan or amendment. If the plan is filed as part of a general rate case using the cost of service methodology set forth in § 56-235.2 or a performance-based regulation plan authorized by § 56-235.6, then the Commission shall approve or deny the plan concurrent with or as part of the general rate case decision.

D. No other revenue requirement or ratemaking issues shall be examined in consideration of the initial plan filed pursuant to the provisions of this section.

E. [S 31]

Approved April 3, 2014

Be it enacted by the General Assembly of Virginia:

1. That §§ 18.2-248 and 32.1-11.7 of the Code of Virginia are amended and reenacted as follows:

§ 18.2-248. Manufacturing, selling, giving, distributing, or possessing with intent to manufacture, sell, give, or distribute a controlled substance or an imitation controlled substance prohibited; penalties.

A. Except as authorized in the Drug Control Act (§ 54.1-3400 et seq.), it shall be unlawful for any person to manufacture, sell, give, distribute, or possess with intent to manufacture, sell, give or distribute a controlled substance or an imitation controlled substance.

B. In determining whether any person intends to manufacture, sell, give or distribute an imitation controlled substance, the court may consider, in addition to all other relevant evidence, whether any distribution or attempted distribution of such pill, capsule, tablet or substance in any other form whatsoever included an exchange of or a demand for money or other property as consideration, and, if so, whether the amount of such consideration was substantially greater than the reasonable value of such pill, capsule, tablet or substance in any other form whatsoever, considering the actual chemical composition of such pill, capsule, tablet or substance in any other form whatsoever and, where applicable, the price at which over-the-counter substances of like chemical composition sell.

C. Except as provided in subsection C1, any person who violates this section with respect to a controlled substance classified in Schedule I or II shall upon conviction be imprisoned for not less than five nor more than 40 years and fined not more than \$500,000. Upon a second conviction of such a violation, and it is alleged in the warrant, indictment, or information that the person has been before convicted of such an offense or of a substantially similar offense in any other jurisdiction, which offense would be a felony if committed in the Commonwealth, and such prior conviction occurred before the date of the offense alleged in the warrant, indictment, or information, any such person may, in the discretion of

the court or jury imposing the sentence, be sentenced to imprisonment for life or for any period not less than five years, three years of which shall be a mandatory minimum term of imprisonment to be served consecutively with any other sentence, and he shall be fined not more than \$500,000.

When a person is convicted of a third or subsequent offense under this subsection and it is alleged in the warrant, indictment or information that he has been before convicted of two or more such offenses or of substantially similar offenses in any other jurisdiction which offenses would be felonies if committed in the Commonwealth and such prior convictions occurred before the date of the offense alleged in the warrant, indictment, or information, he shall be sentenced to imprisonment for life or for a period of not less than 10 years, 10 years of which shall be a mandatory minimum term of imprisonment to be served consecutively with any other sentence, and he shall be fined not more than \$500,000.

Any person who manufactures, sells, gives, distributes or possesses with the intent to manufacture, sell, give, or distribute the following is guilty of a felony punishable by a fine of not more than \$1 million and imprisonment for five years to life, five years of which shall be a mandatory minimum term of imprisonment to be served consecutively with any other sentence:

1. 100 grams or more of a mixture or substance containing a detectable amount of heroin;

- a. The person does not have a prior conviction for an offense listed in subsection C of § 17.1-805;
- b. The person did not use violence or credible threats of violence or possess a firearm or other dangerous weapon in connection with the offense or induce another participant in the offense to do so;
- c. The offense did not result in death or serious bodily injury to any person;
- d. The person was not an organizer, leader, manager, or supervisor of others in the offense, and was not engaged in a continuing criminal enterprise as defined in subsection I; and
- e. Not later than the time of the sentencing hearing, the person has truthfully provided to the Commonwealth all information and evidence the person has concerning the offense or offenses that were part of the same course of conduct or of a common scheme or plan, but the fact that the person has no relevant or useful other information to provide or that the Commonwealth already is aware of the information shall not preclude a determination by the court that the defendant has complied with this requirement.

C1. Any person who violates this section with respect to the manufacturing of methamphetamine, its salts, isomers, or salts of its isomers or less than 200 grams of a mixture or substance containing a detectable amount of methamphetamine, its salts, isomers, or salts of its isomers shall, upon conviction, be imprisoned for not less than 10 nor more than 40 years and fined not more than \$500,000. Upon a second conviction of such a violation, any such person may, in the discretion of the court or jury imposing the sentence, be sentenced to imprisonment for life or for any period not less than 10 years, and be fined not more than \$500,000. When a person is convicted of a third or subsequent offense under this subsection and it is alleged in the warrant, indictment, or information that he has been previously convicted of two or more such offenses or of substantially similar offenses in any other jurisdiction, which offenses would be felonies if committed in the Commonwealth and such prior convictions occurred before the date of the offense alleged in the warrant, indictment, or information, he shall be sentenced to imprisonment for life or for a period not less than 10 years, three years of which shall be a mandatory minimum term of imprisonment to be served consecutively with any other sentence and he shall be fined not more than \$500,000.

Upon conviction, in addition to any other punishment, a person found guilty of this offense shall be ordered by the court to make restitution, as the court deems appropriate, to any innocent property owner whose property is damaged, destroyed, or otherwise rendered unusable as a result of such methamphetamine production. This restitution shall include the person's or his estate's estimated or actual expenses associated with cleanup, removal, or repair of the affected property. If the property that is damaged, destroyed, or otherwise rendered unusable as a result of such methamphetamine production is property owned in whole or in part by the person convicted, the court shall order the person to pay to the Methamphetamine Cleanup Fund authorized in § 18.2-248.04 the reasonable estimated or actual expenses associated with cleanup, removal, or repair of the affected property or, if actual or estimated expenses cannot be determined, the sum of \$10,000. *The convicted person shall also pay the cost of certifying that any building that is cleaned up or repaired pursuant to this section is safe for human occupancy according to the guidelines established pursuant to § 32.1-11.7.*

D. If such person proves that he gave, distributed or possessed with intent to give or distribute a controlled substance classified in Schedule I or II only as an accommodation to another individual who is not an inmate in a community

correctional facility, local correctional facility or state correctional facility as defined in § 53.1-1 or in the custody of an employee thereof, and not with intent to profit thereby from any consideration received or expected nor to induce the recipient or intended recipient of the controlled substance to use or become addicted to or dependent upon such controlled substance, he shall be guilty of a Class 5 felony.

E. If the violation of the provisions of this article consists of the filling by a pharmacist of the prescription of a person authorized under this article to issue the same, which prescription has not been received in writing by the pharmacist prior to the filling thereof, and such written prescription is in fact received by the pharmacist within one week of the time of filling the same, or if such violation consists of a request by such authorized person for the filling by a pharmacist of a prescription which has not been received in writing by the pharmacist and such prescription is, in fact, written at the time of such request and delivered to the pharmacist within one week thereof, either such offense shall constitute a Class 4 misdemeanor.

E3. Any person who proves that he gave, distributed or possessed with the intent to give or distribute a controlled substance classified in Schedule III or IV, except for an anabolic steroid classified in Schedule III, constituting a violation of § 18.2-248.5, only as an accommodation to another individual who is not an inmate in a community correctional facility, local correctional facility or state correctional facility as defined in § 53.1-1 or in the custody of an employee thereof, and not with the intent to profit thereby from any consideration received or expected nor to induce the recipient or intended recipient of the controlled substance to use or become addicted to or dependent upon such controlled substance, is guilty of a Class 1 misdemeanor.

G. Any person who violates this section with respect to an imitation controlled substance which imitates a controlled substance classified in Schedule I, II, III, or IV shall be guilty of a Class 6 felony. In any prosecution brought under this subsection, it is not a defense to a violation of this subsection that the defendant believed the imitation controlled substance to actually be a controlled substance.

H. Any person who manufactures, sells, gives, distributes or possesses with the intent to manufacture, sell, give or distribute the following:

1. 1.0 kilograms or more of a mixture or substance containing a detectable amount of heroin;

H1. Any person who was the principal or one of several principal administrators, organizers or leaders of a continuing criminal enterprise shall be guilty of a felony if (i) the enterprise received at least \$100,000 but less than \$250,000 in gross receipts during any 12-month period of its existence from the manufacture, importation, or distribution of heroin or cocaine or ecgonine or methamphetamine or the derivatives, salts, isomers, or salts of isomers thereof or marijuana or (ii) the person engaged in the enterprise to manufacture, sell, give, distribute or possess with the intent to manufacture, sell, give or distribute the following during any 12-month period of its existence:

CHAPTER 523

An Act to amend the Code of Virginia by adding a section numbered 55-109.2, relating to correcting errors in deeds, deeds of trust, and mortgages; affidavit.

[S 116]

Approved April 3, 2014

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding a section numbered 55-109.2 as follows:

§ 55-109.2. Correcting errors in deeds, deeds of trust, and mortgages; affidavit.

A. As used in this section, unless the context requires a different meaning:

"Attorney" means any person licensed as an attorney in Virginia by the Virginia State Bar.

"Corrective affidavit" means an affidavit of an attorney correcting an obvious description error.

"Obvious description error" means an error in a real property parcel description contained in a recorded deed, deed of trust, or mortgage where (i) such parcel is identified and shown as a separate parcel on a recorded subdivision plat; (ii) such error is apparent by reference to other information on the face of such deed, deed of trust, or mortgage or on an attachment to such deed, deed of trust, or mortgage or by reference to other instruments in the chain of title for the property conveyed thereby; and (iii) such deed, deed of trust, or mortgage recites elsewhere the parcel's correct address or tax map identification number. An "obvious description error" includes (a) an error transcribing courses and distances, including the omission of one or more lines of courses and distances or the omission of angles and compass directions; (b) an error incorporating an incorrect recorded plat or a deed reference; (c) an error in a lot number or designation; or (d) an omitted exhibit supplying the legal description of the real property thereby conveyed. An "obvious description error" does not include (1) missing or improper signatures or acknowledgments or (2) any designation of the type of tenancy by which the property is owned or whether or not a right of survivorship exists.

"Recorded subdivision plat" means a plat that has been prepared by a land surveyor licensed pursuant to Article 1 (§ 54.1-400 et seq.) of Chapter 4 of Title 54.1 and recorded in the clerk's office of the circuit court for the jurisdiction where the property is located.

"Title insurance company" has the same meaning as set forth in § 38.2-4601, provided that the title insurance company issued a policy of title insurance for the transaction in which the deed, deed of trust, or mortgage needing correction was recorded.

B. Obvious description errors in a recorded deed, deed of trust, or mortgage purporting to convey or transfer an interest in real property may be corrected by recording an affidavit in the land records of the circuit court for the jurisdiction where the property is located or where the deed, deed of trust, or mortgage needing correction was recorded. No correction of an obvious description error shall be inconsistent with the description of the property in any recorded subdivision plat.

C. Prior to recording a corrective affidavit, the attorney seeking to record the affidavit shall deliver a copy of the affidavit to all parties to the deed, deed of trust, or mortgage, including the current owner of the property; to the attorney who prepared the deed, deed of trust, or mortgage, if known and if possible; and to the title insurance company, if known, and give notice of the intent to record the affidavit and of each party's right to object to the affidavit. For an affidavit to correct an obvious description error in a deed as described in clause (a) of subsection A, notice and a copy of the affidavit shall also be provided to any owner of property adjoining a line to be corrected. The notice and a copy of the affidavit shall be delivered by personal service or sent by certified mail, return receipt requested, to the last known address of each party to the deed, deed of trust, or mortgage to be corrected that (i) is contained in the land book maintained pursuant to § 58.1-3301 by the jurisdiction where the property is located and where the deed, deed of trust, or mortgage needing correction was recorded, (ii) is contained in the deed, deed of trust, or mortgage needing correction, (iii) has been provided to the attorney as a forwarding address, or (iv) has been established with reasonable certainty by other means, and to all other persons and entities to whom notice is required to be given. The notice and a copy of the affidavit shall be sent to the property address for the real property conveyed by the deed, deed of trust, or mortgage needing correction. If a locality is a party to the deed, deed of trust, or mortgage, the notice and a copy of the affidavit required by this subsection shall be sent to the county, city, or town attorney for the locality, if any, and if there is no such attorney, then to the chief executive for the locality. For the purposes of this section, the term "party" shall also include any locality that is a signatory. If the Commonwealth is a party to the deed, deed of trust, or mortgage, the notice and a copy of the affidavit required by this subsection shall be sent to the Attorney General and to the director, chief executive officer, or head of the state agency or chairman of the board of the state entity in possession or that had possession of the property.

D. If, within 30 days after personal service or receiving confirmation of delivery of the notice and a copy of the affidavit to all parties to the deed, deed of trust, or mortgage, including the current owner of the property; to the attorney who prepared the deed, deed of trust, or mortgage, if known and if possible; to the title insurance company, if known; and to the adjoining property owners, if necessary, pursuant to subsection C, no written objection is received from any party disputing the facts recited in the affidavit or objecting to its recordation, the corrective affidavit may be recorded by the attorney, and all parties to the deed, deed of trust, or mortgage shall be bound by the terms of the affidavit. The corrective affidavit shall contain (i) a statement that no objection was received from any party within the period and (ii) a copy of the notice sent to the parties. The notice shall contain the attorney's Virginia State Bar number. The corrective affidavit shall be notarized.

E. A corrective affidavit that is recorded pursuant to this section operates as a correction of the deed, deed of trust, or mortgage and relates back to the date of the original recordation of the deed, deed of trust, or mortgage as if the deed, deed of trust, or mortgage was correct when first recorded. A title insurance company, upon request, shall issue an endorsement to reflect the corrections made by the corrective affidavit and shall deliver a copy of the endorsement to all parties to the policy who can be found.

F. The clerk shall record the corrective affidavit in the deed book and, notwithstanding their designation in the deed, deed of trust, or mortgage needing correction, index the affidavit in the names of the parties to the deed, deed of trust, or mortgage as grantors and grantees as set forth in the affidavit. The costs associated with the recording of a corrective

affidavit pursuant to this section shall be paid by the party that records the corrective affidavit. An affidavit recorded in compliance with this section shall be prima facie evidence of the facts stated therein. Any person who wrongfully or erroneously records a corrective affidavit is liable for actual damages sustained by any party due to such recordation, including reasonable attorney fees and costs.

G. The remedies under this section are not exclusive and do not abrogate any right or remedy under the laws of the Commonwealth other than this section.

H. An affidavit under this section may be made in the following form, or to the same effect:

The justice or judge may take such action thereon as he considers appropriate under the circumstances of the case.

When a judge of the Court of Appeals has initially acted upon a petition for review of an order of a circuit court respecting an injunction, a party aggrieved by such action of the judge of the Court of Appeals may, within ~~fifteen~~ 15 days of the order of the judge of the Court of Appeals, present a petition for review of such order to a justice of the Supreme Court if the case would otherwise be appealable to the Supreme Court in accordance with § 17.1-410. *The aggrieved party shall serve a copy of the petition for review on the counsel for the opposing party, which may file a response within seven days from the date of service unless the court determines a shorter time frame.* The petition for review shall be accompanied

by a copy of the proceedings before the circuit court, including the original papers and the circuit court's order respecting the injunction, and a copy of the order of the judge of the Court of Appeals from which review is sought. CHAPTER 527

An Act to amend and reenact § 15.2-2316.2 of the Code of Virginia, relating to transfer of development rights.

[S 241]

Approved April 3, 2014

Be it enacted by the General Assembly of Virginia:

1. That § 15.2-2316.2 of the Code of Virginia is amended and reenacted as follows:

§ 15.2-2316.2. Localities may provide for transfer of development rights.

A. Pursuant to the provisions of this article, the governing body of any locality by ordinance may, in order to conserve and promote the public health, safety, and general welfare, establish procedures, methods, and standards for the transfer of development rights within its jurisdiction. Any locality adopting or amending any such transfer of development rights ordinance shall give notice and hold a public hearing in accordance with § 15.2-2204 prior to approval by the governing body.

B. In order to implement the provisions of this act, a locality shall adopt an ordinance that shall provide for:

1. The issuance and recordation of the instruments necessary to sever development rights from the sending property, to convey development rights to one or more parties, or to affix development rights to one or more receiving properties. These instruments shall be executed by the property owners of the development rights being transferred, and any lien holders of such property owners. The instruments shall identify the development rights being severed, and the sending properties or the receiving properties, as applicable;

2. Assurance that the prohibitions against the use and development of the sending property shall bind the landowner and every successor in interest to the landowner;

3. The severance of transferable development rights from the sending property;

4. The purchase, sale, exchange, or other conveyance of transferable development rights, after severance, and prior to the rights being affixed to a receiving property;

5. A system for monitoring the severance, ownership, assignment, and transfer of transferable development rights;

6. A map or other description of areas designated as sending and receiving areas for the transfer of development rights between properties;

7. The identification of parcels, if any, within a receiving area that are inappropriate as receiving properties;

8. The permitted uses and the maximum increases in density in the receiving area;

9. The minimum acreage of a sending property and the minimum reduction in density of the sending property that may be conveyed in severance or transfer of development rights;

10. The development rights permitted to be attached in the receiving areas shall be equal to or greater than the development rights permitted to be severed from the sending areas;

11. An assessment of the infrastructure in the receiving area that identifies the ability of the area to accept increases in density and its plans to provide necessary utility services within any designated receiving area; and

12. The application to be deemed approved upon the determination of compliance with the ordinance by the agent of the planning commission, or other agent designated by the locality.

C. In order to implement the provisions of this act, a locality may provide in its ordinance for:

1. The purchase of all or part of such development rights, which shall retire the development rights so purchased;

2. The severance of development rights from existing zoned or subdivided properties as otherwise provided in subsection E;

3. The owner of such development rights to make application to the locality for a real estate tax abatement for a period up to 25 years, to compensate the owner of such development rights for the fair market value of all or part of the development rights, which shall retire the number of development rights equal to the amount of the tax abatement, and such abatement is transferable with the property;

4. The owner of a property to request designation by the locality of the owner's property as a "sending property" or a "receiving property";

5. The allowance for residential density to be converted to bonus density on the receiving property by (i) an increase in the residential density on the receiving property or (ii) an increase in the square feet of commercial, industrial, or other uses on the receiving property, which upon conversion shall retire the development rights so converted;

6. The receiving areas to include such urban development areas in the locality established pursuant to § 15.2-2223.1;

7. The sending properties, subsequent to severance of development rights, to generate one or more forms of renewable energy, as defined in § 56-576, subject to the provisions of the local zoning ordinance;

8. The sending properties, subsequent to severance of development rights, to produce agricultural products or forestal products, as defined in § 15.2-4302, and to include parks, campgrounds and related camping facilities; however, for

purposes of this subdivision, "campgrounds" does not include use by travel trailers, motor homes, and similar vehicular type structures;

9. The review of an application by the planning commission to determine whether the application complies with the provisions of the ordinance;

10. Such other provisions as the locality deems necessary to aid in the implementation of the provisions of this act; ~~and~~

11. Approval of an application upon the determination of compliance with the ordinance by the agent of the planning commission; *and*

12. A requirement that development comply with any locality-adopted neighborhood design standards identified in the comprehensive plan for the receiving area in which the development shall occur, provided such design standard was adopted in the comprehensive plan and applied to the receiving area prior to the transfer of the development right.

D. The locality may, by ordinance, designate receiving areas or receiving properties, or add to, supplement, or amend its designations of receiving areas or receiving properties, so long as the development rights permitted to be attached in the receiving areas are equal to or greater than the development rights permitted to be severed in the sending areas.

E. Any proposed severance or transfer of development rights shall only be initiated upon application by the property owners of the sending properties, development rights, or receiving properties as otherwise provided herein.

F. A locality may not require property owners to sever or transfer development rights as a condition of the development of any property.

G. The owner of a property may sever development rights from the sending property, pursuant to the provisions of this act. An application to transfer development rights to one or more receiving properties, for the purpose of affixing such rights thereto, shall only be initiated upon application by the owner of such development rights and the owners of the receiving properties.

H. Development rights severed pursuant to this article shall be interests in real property and shall be considered as such for purposes of conveyance and taxation. Once a deed for transferable development rights, created pursuant to this act, has been recorded in the land records of the office of the circuit court clerk for the locality to reflect the transferable development rights sold, conveyed, or otherwise transferred by the owner of the sending property, the development rights shall vest in the grantee and may be transferred by such grantee to a successor in interest. Nothing herein shall be construed to prevent the owner of the sending property from recording a deed covenant against the sending property severing the development rights on said property, with the owner of the sending property retaining ownership of the severed development rights. Any transfer of the development rights to a property in a receiving area shall be in accordance with the provisions of the ordinance adopted pursuant to this article.

I. For the purposes of ad valorem real property taxation, the value of a transferable development right shall be deemed appurtenant to the sending property until the transferable development right is severed from and recorded as a distinct interest in real property, or the transferable development right is used at a receiving property and becomes appurtenant thereto. Once a transferable development right is severed from the sending property, the assessment of the fee interest in the sending property shall reflect any change in the fair market value that results from the inability of the owner of the fee interest to use such property for such uses terminated by the severance of the transferable development right. Upon severance from the sending property and recordation as a distinct interest in real property, the transferable development right shall be assessed at its fair market value on a separate real estate tax bill sent to the owner of said development right as taxable real estate in accordance with Article 1 (§ 58.1-3200 et seq.) of Chapter 32 of Title 58.1. The development right shall be taxed as taxable real estate by the local jurisdiction where the sending property is located, until such time as the development right becomes attached to a receiving property, at which time it shall be taxed as taxable real estate by the local jurisdiction where the receiving property is located.

J. The owner of a sending property from which development rights are severed shall provide a copy of the instrument, showing the deed book and page number, or instrument or GPIN, to the real estate tax assessor for the locality.

K. Localities, from time to time as the locality designates sending and receiving areas, shall incorporate the map identified in subdivision B 6 into the comprehensive plan.

L. No amendment to the zoning map, nor any amendments to the text of the zoning ordinance with respect to the zoning district applicable thereto initiated by the governing body, which eliminate, or materially restrict, reduce, or downzone the uses, or the density of uses permitted in the zoning district applicable to any property to which development rights have been transferred, shall be effective with respect to such property unless there has been mistake, fraud, or a material change in circumstances substantially affecting the public health, safety, or welfare.

M. A county adopting an ordinance pursuant to this article may designate eligible receiving areas in any incorporated town within such county, if the governing body of the town has also amended its zoning ordinance to designate the same areas as eligible to receive density being transferred from sending areas in the county. The development right shall be taxed as taxable real estate by the local jurisdiction where the sending property is located, until such time as the development right becomes attached to a receiving property, at which time it shall be taxed as taxable real estate by the local jurisdiction where the receiving property is located.

N. Any county and an adjacent city may enter voluntarily into an agreement to permit the county to designate eligible receiving areas in the city if the governing body of the city has also amended its zoning ordinance to designate the same areas as eligible to receive density being transferred from sending areas in the county. The city council shall designate areas it deems suitable as receiving areas and shall designate the maximum increases in density in each such receiving area.

However, if any such agreement contains any provision addressing any issue provided for in Chapter 32 (§ 15.2-3200 et seq.), 33 (§ 15.2-3300 et seq.), 36 (§ 15.2-3600 et seq.), 38 (§ 15.2-3800 et seq.), 39 (§ 15.2-3900 et seq.), or 41 (§ 15.2-4100 et seq.), the agreement shall be subject to the review and implementation process established by Chapter 34 (§ 15.2-3400 et seq.). The development right shall be taxed as taxable real estate by the local jurisdiction where the sending property is located, until such time as the development right becomes attached to a receiving property, at which time it shall be taxed as taxable real estate by the local jurisdiction where the receiving property is located.

1. The terms and conditions of the density transfer agreement as provided in this subsection shall be determined by the affected localities and shall be approved by the governing body of each locality participating in the agreement, provided the governing body of each such locality first holds a public hearing, which shall be advertised once a week for two successive weeks in a newspaper of general circulation in the locality.

2. The governing bodies shall petition a circuit court having jurisdiction in one or more of the localities for an order affirming the proposed agreement. The circuit court shall be limited in its decision to either affirming or denying the agreement and shall have no authority, without the express approval of each local governing body, to amend or change the terms or conditions of the agreement, but shall have the authority to validate the agreement and give it full force and effect. The circuit court shall affirm the agreement unless the court finds either that the agreement is contrary to the best interests of the Commonwealth or that it is not in the best interests of each of the parties thereto.

3. The agreement shall not become binding on the localities until affirmed by the court under this subsection. Once approved by the circuit court, the agreement shall also bind future local governing bodies of the localities.

§ 64.2-305. Augmented estate; exclusions; valuation.

A. The augmented estate means the decedent's entire estate passing by will or intestate succession, real and personal, after payment of allowances and exemptions under Article 2 (§ 64.2-309 et seq.) of this chapter, funeral expenses, charges of administration that shall not include federal or state transfer taxes, and debts, and to which is added the following amounts:

1. The value of property, other than tangible personal property received by gift and the proceeds thereof, owned or acquired by the surviving spouse at the decedent's death, to the extent the property is derived from the decedent by any means other than by will or intestate succession without full consideration in money or money's worth;

2. The value of property, other than tangible personal property received by gift and the proceeds thereof, derived by the surviving spouse from the decedent without full consideration in money or money's worth by any means other than by will or intestate succession, and transferred by the surviving spouse at any time during the marriage to a person other than the decedent, which would have been includable in the surviving spouse's augmented estate if the surviving spouse had predeceased the decedent; and

3. The value of property transferred to anyone other than a bona fide purchaser by the decedent at any time during the marriage to the surviving spouse, to or for the benefit of any person other than the surviving spouse, to the extent that the decedent did not receive full consideration in money or money's worth for the transfer, if the transfer was any of the following types:

a. Any transfer under which the decedent retained for his life, for any period not ascertainable without reference to his death, or for any period which does not in fact end before his death, the possession or enjoyment of, or the right to income from, the property;

b. Any transfer to the extent that the decedent retained for his life, for any period not ascertainable without reference to his death, or for any period which does not in fact end before his death, the power, either alone or in conjunction with any other person, to revoke or to consume, invade, or dispose of the principal for his own benefit;

c. Any transfer whereby property is held at the time of the decedent's death by the decedent and another with right of survivorship; or

d. Any transfer made to or for the benefit of a donee within the calendar year of the decedent's death or any of the five preceding calendar years to the extent that the aggregate value of the transfers to the donee exceeds \$10,000 ~~in the amount~~ *specified in § 2503(b) of the Internal Revenue Code of 1986, as amended, for that calendar year, without regard to whether the federal gift tax exclusion applies to the transfer.*

B. Notwithstanding the provisions of this section, the augmented estate shall not include (i) the value of any property transferred by the decedent during marriage with the written consent or joinder of the surviving spouse; (ii) the value of any property, its income, or proceeds received by the decedent, before or during the marriage to the surviving spouse, by gift, will, intestate succession, or any other method or form of transfer to the extent it was (a) received without full consideration in money or money's worth from a person other than the surviving spouse, and (b) maintained by the decedent as separate property; (iii) any transfer made to anyone other than the surviving spouse prior to January 1, 1991, to the extent that such transfer was irrevocable on that date; or (iv) the value of any property excluded from the augmented estate pursuant to § 64.2-317.

C. Property is valued as of the decedent's death, except that property irrevocably transferred during the lifetime of the decedent is valued as of the date the transferee came into possession or enjoyment of the property if such date precedes the date of the decedent's death.

1. Life estates and remainder interests are valued in the manner prescribed in Article 2 (§ 55-269.1 et seq.) of Chapter 15 of Title 55, and deferred payments and estates for years are discounted to present value using the interest rate specified in § 55-269.1.

2. The value of an insurance policy that is irrevocably transferred during the lifetime of a decedent is the cost of a comparable policy on the date of the transfer or, if such a policy is not readily available, the policy's interpolated terminal reserve. The value of any premiums paid on an insurance policy owned by another person is only the amount of the premiums paid and not the insurance purchased or maintained with such premiums.

3. An initial interest in property owned as a joint tenant with survivorship is valued at the time the interest is acquired, and a further interest received upon the death of a cotenant is valued at the time of the cotenant's death. Property owned jointly by persons married to each other is rebuttably presumed to have been acquired with contributions of equal value by each tenant. The mere creation of an indebtedness secured by jointly owned property is not a contribution to its acquisition, but any satisfaction of such an indebtedness is a contribution. An interest in a tenancy by the entireties is valued as if it were an interest in a joint tenancy with survivorship. Joint accounts in financial institutions are valued in accordance with the provisions of Article 2 (§ 6.2-604 et seq.) of Chapter 6 of Title 6.2.

§ 64.2-309. Family allowance.

A. In addition to any other right or allowance under this article, upon the death of a decedent who was domiciled in the Commonwealth, the surviving spouse and minor children whom the decedent was obligated to support are entitled to a

reasonable allowance in money out of the estate for their maintenance during the period of administration, which allowance shall not continue for longer than one year if the estate is inadequate to discharge all allowed claims. The family allowance may be paid as a lump sum not to exceed ~~\$18,000~~ \$24,000, or in periodic installments not to exceed ~~\$1,500~~ \$2,000 per month for one year. It is payable to the surviving spouse for the use of the surviving spouse and minor children or, if there is no surviving spouse, to the person having the care and custody of the minor children. If any minor child is not living with the surviving spouse, the family allowance may be made partially to the spouse and partially to the person having the care and custody of the child, as their needs may appear. If there are no minor children, the allowance is payable to the surviving spouse.

B. The family allowance has priority over all claims against the estate.

C. The family allowance is in addition to any benefit or share passing to the surviving spouse or minor children by the will of the decedent, by intestate succession, or by way of elective share.

D. The death of any person entitled to a family allowance terminates the person's right to any allowance not yet paid.

§ 64.2-310. Exempt property.

A. In addition to any other right or allowance under this article, the surviving spouse of a decedent who was domiciled in the Commonwealth is entitled from the estate to value not exceeding ~~\$15,000~~ \$20,000 in excess of any security interests therein in household furniture, automobiles, furnishings, appliances, and personal effects. If there is no surviving spouse, the minor children of the decedent are entitled in equal shares to such property of the same value. If the value of the exempt property selected in excess of any security interests therein is less than ~~\$15,000~~ \$20,000, or if there is not ~~\$15,000~~ \$20,000 worth of exempt property in the estate, the spouse or minor children are entitled to other assets of the estate, if any, to the extent necessary to make up the ~~\$15,000~~ \$20,000 value.

B. The right to exempt property and other assets of the estate needed to make up a deficiency of exempt property has priority over all claims against the estate, except the family allowance.

C. The right to exempt property is in addition to any benefit or share passing to the surviving spouse or minor children by the will of the decedent, by intestate succession, or by way of elective share.

§ 64.2-311. Homestead allowance.

A. In addition to any other right or allowance under this article, a surviving spouse of a decedent who was domiciled in the Commonwealth is entitled to a homestead allowance of ~~\$15,000~~ \$20,000. If there is no surviving spouse, each minor child of the decedent is entitled to a homestead allowance amounting to ~~\$15,000~~ \$20,000, divided by the number of minor children.

B. The homestead allowance has priority over all claims against the estate, except the family allowance and the right to exempt property.

C. The homestead allowance is in lieu of any share passing to the surviving spouse or minor children by the decedent's will or by intestate succession; provided, however, if the amount passing to the surviving spouse and minor children by the decedent's will or by intestate succession is less than ~~\$15,000~~ \$20,000, then the surviving spouse or minor children are entitled to a homestead allowance in an amount that when added to the property passing to the surviving spouse and minor children by the decedent's will or by intestate succession, equals the sum of ~~\$15,000~~ \$20,000.

D. If the surviving spouse claims and receives an elective share of the decedent's estate under §§ 64.2-302 through 64.2-307, the surviving spouse shall not have the benefit of any homestead allowance.

§ 64.2-416. Devises and bequests that fail; how to pass.

A. Unless a contrary intention appears in the will, and except as provided in § 64.2-418:

1. If a devise or bequest other than a residuary devise or bequest fails for any reason, it shall become a part of the residue; and

2. If the residue is devised or bequeathed to two or more persons and the share of one fails for any reason, such share shall pass to the other residuary devisees or legatees in proportion to their interests in the residue.

B. Notwithstanding the provisions of §§ 64.2-2604 and 64.2-2605 and unless a contrary intention appears in the will, if a testator makes a bequest, not exceeding the value of ~~\$25~~ \$100, to a legatee and such legatee refuses to take possession of such bequest, then the bequest shall fail and becomes a part of the residue of the testator's estate.

§ 64.2-424. When direction to purchase annuity binding on legatee.

If a testator directs in his will that an annuity sufficient to provide income of at least ~~\$10~~ \$100 per month be purchased for a legatee, the legatee who is to receive the income from the annuity shall not have the right to instead take the sum directed to be used to purchase such annuity, except to the extent that the will expressly provides for such right or that an assignable annuity be purchased.

§ 64.2-528. Order in which debts and demands of decedents to be paid.

When the assets of the decedent in his personal representative's possession are not sufficient to satisfy all debts and demands against him, they shall be applied to the payment of such debts and demands in the following order:

1. Costs and expenses of administration;
2. The allowances provided in Article 2 (§ 64.2-309 et seq.) of Chapter 3;
3. Funeral expenses not to exceed ~~\$3,500~~ \$4,000;
4. Debts and taxes with preference under federal law;
5. Medical and hospital expenses of the last illness of the decedent, including compensation of persons attending him not to exceed ~~\$400~~ \$2,150 for each hospital and nursing home and ~~\$150~~ \$425 for each person furnishing services or goods;

6. Debts and taxes due the Commonwealth;

7. When the value of such stocks, bonds, securities, money, debts, tangible personal property, and choses in action is ~~\$15,000~~ \$25,000 or more, the holder may pay or deliver such assets to an executor, administrator, or other personal representative, qualified in accordance with the law of the decedent's domicile, 30 days after the holder gives public notice of his intention to make such a transfer by publication thereof once a week for four successive weeks in a newspaper of general circulation in the city, town, or county wherein the holder resides or has his principal place of business, provided that at the time of such payment or delivery, the holder has no actual notice of the appointment of a personal representative for such decedent in the Commonwealth and has received no legal notice of any lien or encumbrance upon such assets.

If the value of the property or the debt exceeds ~~\$10,000~~ \$25,000, the transfer is not effective unless authorized by the court.

B. With court approval, any person, including a conservator, guardian, or other fiduciary who holds property of or owes a debt to an incapacitated individual, may make a transfer to any person as a custodial trustee for the use and benefit of the incapacitated individual. The court, in the exercise of its discretion, may require the custodial trustee to furnish a bond with surety for the faithful performance of his fiduciary duties.

C. A written acknowledgment of delivery, signed by a custodial trustee, is a sufficient receipt and discharge for property transferred to the custodial trustee pursuant to this section.

§ 64.2-1302. Waiver of inventory and settlement for certain estates.

When a decedent's personal estate passing by testate or intestate succession does not exceed ~~\$15,000~~ \$25,000 in value and an heir, beneficiary, or creditor whose claim exceeds the value of the estate seeks qualification, the clerk of the circuit court shall waive the inventory under § 64.2-1300 and the settlement under § 64.2-1206. This section shall not apply if the decedent died owning any real estate over which the person seeking qualification would have the power of sale.

A. Vouchers for disbursements and a statement of cash on hand or in a bank and all investments held at the terminal date of the account shall also be exhibited with each account. A voucher shall not be required when a disbursement, not exceeding the value of ~~\$25~~ \$50, is made to a legatee under the authority of a will and such legatee refuses to take the

possession or fails to present the disbursement check to a bank for payment. In such case the fiduciary shall file an affidavit stating that he has made a good faith effort to comply with the terms of the will and the provisions of this section.

B. A fiduciary may make payment to a beneficiary by transfer to the beneficiary's bank account with the fiduciary or by payment to an account with another bank through an automated clearinghouse, wire transfer, or similar mechanism, if the beneficiary has consented in writing to such method of payment. In either case, a record or statement of the bank making such payment shall be a sufficient voucher for the purpose of subsection A.

If the principal sum held by any fiduciary mentioned in § 64.2-1206 does not exceed ~~\$15,000~~ \$25,000, the fiduciary shall exhibit his accounts before the commissioner of accounts within the appropriate time period provided in §§ 64.2-1305, 64.2-1306, and 64.2-1307. Thereafter, the commissioner of accounts may permit the fiduciary to exhibit his accounts every three years, which permission may be revoked by the commissioner of accounts on his own motion or upon request of any interested person. The provisions of this section shall apply to any case in which the corpus of the estate in the hands of the fiduciary has been reduced to ~~\$15,000~~ \$25,000 or less although it formerly exceeded that amount. Any fiduciary exhibiting his accounts in accordance with the provisions of this section shall be entitled to compensation for his services.

§ 64.2-1411. When fiduciary may qualify without security.

Any circuit court or circuit court clerk, having jurisdiction to appoint personal representatives, guardians, conservators, and committees, may, in his discretion, when the amount coming into the possession of the personal representative, guardian of a minor, conservator, or committee does not exceed ~~\$15,000~~ \$25,000, allow the personal representative, guardian, conservator, or committee to qualify by giving bond without surety. Any personal representative or trustee serving jointly with a bank or trust company that is exempted from giving surety on its bond under § 6.2-1003 shall, unless the court directs otherwise, also be exempt from giving surety.

§ 64.2-1802. Parental duty of support; limited authority of commissioner of accounts.

A commissioner of accounts for the jurisdiction where a guardian qualifies may authorize the same distributions under the same circumstances as the circuit court may authorize under subsection A of § 64.2-1801, except that (i) the total distributions authorized in any one year shall not exceed ~~\$3,000~~ \$5,000 and (ii) the commissioner of accounts shall, in his report to the court on the guardian's next accounting, explain the necessity for the distributions so authorized. The provisions of subsection B of § 64.2-1801 shall not apply to proceedings under this section, but the commissioner shall give five days' written notice of the scheduled hearing date to any minor who is 14 years of age or older. The commissioner of accounts shall not charge a fee in excess of \$100 for such hearing.

§ 64.2-1905. Other transfer by fiduciary.

A. Subject to subsection C, a personal representative or trustee may make an irrevocable transfer to an adult or trust company as custodian for the benefit of a minor pursuant to § 64.2-1908 in the absence of a will or under a will or trust that does not contain an authorization to do so.

B. Subject to subsection C, a conservator may make an irrevocable transfer to an adult or trust company as custodian for the benefit of the minor pursuant to § 64.2-1908.

C. A transfer under either subsection A or B may be made only if (i) the personal representative, trustee, or conservator considers the transfer to be in the best interest of the minor, (ii) the transfer is not prohibited by or inconsistent with provisions of the applicable will, trust agreement, or other governing instrument, and (iii) the transfer is authorized by the court if it exceeds ~~\$10,000~~ \$25,000 in value or is made by a conservator.

§ 64.2-1906. Transfer by obligor.

A. Subject to subsections B and C, a person not subject to § 64.2-1904 or who holds property of or owes a liquidated debt to a minor not having a conservator may make an irrevocable transfer to a custodian for the benefit of the minor pursuant to § 64.2-1908.

B. If a person having the right to do so under § 64.2-1902 has nominated a custodian under that section to receive the custodial property, the transfer shall be made to that person.

C. If no custodian has been nominated under § 64.2-1902, or all persons so nominated as custodian die before the transfer or are unable, decline, or are ineligible to serve, a transfer under this section may be made to an adult member of the

minor's family or to a trust company unless the property exceeds ~~\$10,000~~ \$25,000 in value, in which event the transfer may be made if authorized by the court.

§ 64.2-2017. Payments from U.S. Department of Veterans Affairs.

Monthly payments of pension, compensation, insurance, or other benefits from the U.S. Department of Veterans Affairs made to a trustee or other fiduciary shall be considered as income and not principal, but the accumulation of such monthly payments received by a trustee or other fiduciary and in his possession at the end of the accounting year may be carried over as principal and converted into the corpus of the estate when the accumulation amounts to ~~\$200~~ \$2,000 or more.

§ 64.2-2023. Estate planning.

A. In the order appointing a conservator entered pursuant to § 64.2-2009 or in a separate proceeding brought on petition, the court may for good cause shown authorize a conservator to (i) make gifts from income and principal of the incapacitated person's estate not necessary for the incapacitated person's maintenance to those persons to whom the incapacitated person would, in the judgment of the court, have made gifts if he had been of sound mind, (ii) disclaim property as provided in Chapter 26 (§ 64.2-2600 et seq.), or (iii) create a revocable or irrevocable trust on behalf of an incapacitated person with terms approved by the court or transfer assets of an incapacitated person or an incapacitated person's estate to a trust.

B. In a proceeding under this section, a guardian ad litem shall be appointed to represent the interest of the incapacitated person. Notice of a proceeding under this section shall be given pursuant to Chapter 8 (§ 8.01-285 et seq.) of Title 8.01 and the Rules of Supreme Court of Virginia to: (i) the incapacitated person and the incapacitated person's spouse and children, (ii) all beneficiaries named in any known will of the incapacitated person, (iii) the incapacitated person's intestate heirs determined as if the incapacitated person had died intestate on the date of the filing of the petition, and (iv) all other interested persons. The court may authorize the hearing to proceed without notice to any person who would not be substantially affected by the proceedings. For the purposes of this section, the beneficiaries and intestate heirs shall be deemed possessed of inchoate property rights. Unless otherwise represented, a minor, incapacitated, or unborn individual, or a person whose identity or location is unknown and not reasonably ascertainable, may with the approval of the court be represented and bound by another having a substantially identical interest with respect to the will proceeding under this section, but only to the extent that there is no conflict of interest between the representative and the person represented.

C. The court shall determine the amounts, recipients, and proportions of any gifts of the estate, the advisability of any disclaimer, whether good cause exists to create a trust or transfer assets, and whether to approve the trust terms after considering (i) the size and composition of the estate; (ii) the nature and probable duration of the incapacity; (iii) the effect of the gifts, disclaimers, trusts, or transfers on the estate's financial ability to meet the incapacitated person's foreseeable health, medical care, and maintenance needs; (iv) the incapacitated person's estate plan and the effect of the gifts, disclaimers, trusts, or transfers on the estate plan; (v) prior patterns of assistance or gifts to the proposed donees; (vi) the tax effect of the proposed gifts, disclaimers, trusts, or transfers; (vii) the effect of any transfer of assets or disclaimer on the establishment or retention of eligibility for medical assistance services; (viii) whether to require, during the lifetime of the incapacitated person, that the trustee of any trust created or funded pursuant to this section post bond, with or without surety, or provide an accounting as set forth in § 64.2-1305; and (ix) other factors that the court may deem relevant.

D. *A commissioner of accounts for the jurisdiction where a conservator qualifies may authorize the same gifts under the same circumstances as the circuit court may authorize under subsection C, except that (i) the total gifts authorized in a calendar year shall not exceed \$25,000 and (ii) the commissioner shall report to the court his determination based upon consideration of clauses (i) through (ix) set forth in subsection C. The provisions of subsection B shall not apply to proceedings before the commissioner, but the commissioner shall give reasonable written notice of the scheduled hearing date to any person who would be substantially affected by the proceedings. The commissioner may provide notice to a minor by mail to the duly qualified guardian of the minor or, if none exists, a custodial parent of the minor who is also not the conservator.*

E. If the gifts by the conservator under clause (i) of subsection A do not exceed ~~\$100~~ \$150 to each donee in a calendar year and do not exceed a total of ~~\$500~~ \$750 in a calendar year, the conservator may make such gifts without a hearing under this section, the appointment of a guardian ad litem, or giving notice to any person. Prior to the making of such a gift, the conservator shall consider clauses (i) through (ix) set forth in subsection C and shall also find that the incapacitated person has shown a history of giving the same or a similar gift to a specific donee for the previous three years prior to the appointment of the conservator.

~~E. F.~~ F. The conservator may transfer assets of an incapacitated person or an incapacitated person's estate into an irrevocable trust where the transfer has been designated solely for burial of the incapacitated person or spouse of the incapacitated person in accordance with conditions set forth in subdivision A 2 of § 32.1-325. The conservator also may contractually bind an incapacitated person or an incapacitated person's estate by executing a preneed funeral contract, described in Chapter 28 (§ 54.1-2800 et seq.) of Title 54.1, for the benefit of the incapacitated person.

~~E. G.~~ G. A conservator may exercise the incapacitated person's power to revoke or amend a trust or to withdraw or demand distribution of trust assets only with the approval of the court for good cause shown, unless the trust instrument expressly provides otherwise.

§ 64.2-2026. Surrender of incapacitated person's estate.

A. If the incapacitated person is restored to capacity, the fiduciary shall surrender the incapacitated person's estate or that portion for which he is accountable to the incapacitated person.

B. If the incapacitated person dies prior to being restored to capacity, the fiduciary shall surrender the real estate to the incapacitated person's heirs or devisees and the personal estate to his executors or administrators. If, at the time of the death of the incapacitated person, (i) the value of the personal estate in the custody of the fiduciary is ~~\$15,000~~ \$25,000 or less, (ii) a personal representative has not qualified within 60 days of the incapacitated person's death, and (iii) the fiduciary does not anticipate that anyone will qualify, the fiduciary may pay the balance of the incapacitated person's estate to the incapacitated person's surviving spouse or, if there is no surviving spouse, to the distributees of the incapacitated person or other persons entitled thereto, including any person or entity entitled to payment for funeral or burial services provided. The distribution shall be noted in the fiduciary's final accounting submitted to the commissioner of accounts.

§ 19.2-169.6. Inpatient psychiatric hospital admission from local correctional facility.

A. Any inmate of a local correctional facility who is not subject to the provisions of § 19.2-169.2 may be hospitalized for psychiatric treatment at a hospital designated by the Commissioner of Behavioral Health and Developmental Services as appropriate for treatment of persons under criminal charge if:

1. The court with jurisdiction over the inmate's case, if it is still pending, on the petition of the person having custody over an inmate or on its own motion, holds a hearing at which the inmate is represented by counsel and finds by clear and

convincing evidence that (i) the inmate has a mental illness; (ii) there exists a substantial likelihood that, as a result of a mental illness, the inmate will, in the near future, cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if any; and (iii) the inmate requires treatment in a hospital rather than the local correctional facility. Prior to making this determination, the court shall consider the examination conducted in accordance with § 37.2-815 and the preadmission screening report prepared in accordance with § 37.2-816 and conducted in-person or by means of a two-way electronic video and audio communication system as authorized in § 37.2-804.1 by an employee or designee of the local community services board or behavioral health authority who is skilled in the assessment and treatment of mental illness, who is not providing treatment to the inmate, and who has completed a certification program approved by the Department of Behavioral Health and Developmental Services as provided in § 37.2-809. The examiner appointed pursuant to § 37.2-815, if not physically present at the hearing, shall be available whenever possible for questioning during the hearing through a two-way electronic video and audio or telephonic communication system as authorized in § 37.2-804.1. Any employee or designee of the local community services board or behavioral health authority, as defined in § 37.2-809, representing the board or authority that prepared the preadmission screening report shall attend the hearing in person or, if physical attendance is not practicable, shall participate in the hearing through a two-way electronic video and audio communication system as authorized in § 37.2-804.1. When the hearing is held outside the service area of the community services board or behavioral health authority that prepared the preadmission screening report, and it is not practicable for a representative of the board or authority to attend or participate in the hearing, arrangements shall be made by the board or authority for an employee or designee of the board or authority serving the area in which the hearing is held to attend or participate on behalf of the board or authority that prepared the preadmission screening report; or

2. Upon petition by the person having custody over an inmate, a magistrate finds probable cause to believe that (i) the inmate has a mental illness; (ii) there exists a substantial likelihood that, as a result of a mental illness, the inmate will, in the near future, cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if any; and (iii) the inmate requires treatment in a hospital rather than a local correctional facility, and the magistrate issues a temporary detention order for the inmate. Prior to the filing of the petition, the person having custody shall arrange for an evaluation of the inmate conducted in-person or by means of a two-way electronic video and audio communication system as authorized in § 37.2-804.1 by an employee or designee of the local community services board or behavioral health authority who is skilled in the assessment and treatment of mental illness and who has completed a certification program approved by the Department as provided in § 37.2-809. After considering the evaluation of the employee or designee of the local community services board or behavioral health authority, and any other information presented, and finding that probable cause exists to meet the criteria, the magistrate may issue a temporary detention order in accordance with the applicable procedures specified in §§ 37.2-809 through 37.2-813. The person having custody over the inmate shall notify the court having jurisdiction over the inmate's case, if it is still pending, and the inmate's attorney prior to the detention pursuant to a temporary detention order or as soon thereafter as is reasonable.

Upon detention pursuant to this subdivision, a hearing shall be held either (a) before the court having jurisdiction over the inmate's case or (b) before a district court judge or a special justice, as defined in § 37.2-100, in accordance with the provisions of §§ 37.2-815 through 37.2-821, in which case the inmate shall be represented by counsel as specified in § 37.2-814. The hearing shall be held within ~~48~~ 72 hours of execution of the temporary detention order issued pursuant to this subdivision. If the ~~48-hour~~ 72-hour period terminates on a Saturday, Sunday, legal holiday, or day on which the court is lawfully closed, the inmate may be detained until the close of business on the next day that is not a Saturday, Sunday, legal holiday, or day on which the court is lawfully closed. Any employee or designee of the local community services board or behavioral health authority, as defined in § 37.2-809, representing the board or authority that prepared the preadmission screening report shall attend the hearing in person or, if physical attendance is not practicable, shall participate in the hearing through a two-way electronic video and audio communication system as authorized in § 37.2-804.1. When the hearing is held outside the service area of the community services board or behavioral health authority that prepared the preadmission screening report, and it is not practicable for a representative of the board or authority to attend or participate in the hearing, arrangements shall be made by the board or authority for an employee or designee of the board or authority serving the area in which the hearing is held to attend or participate on behalf of the board or authority that prepared the preadmission screening report. The judge or special justice conducting the hearing may order the inmate hospitalized if, after considering the examination conducted in accordance with § 37.2-815, the preadmission screening report prepared in accordance with § 37.2-816, and any other available information as specified in subsection C of § 37.2-817, he finds by clear and convincing evidence that (1) the inmate has a mental illness; (2) there exists a substantial likelihood that, as a result of a mental illness, the inmate will, in the near future, cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if any; and (3) the inmate requires treatment in a hospital rather than a local correctional facility. The examiner appointed pursuant to § 37.2-815, if not physically present at the hearing, shall be available whenever possible for questioning during the hearing through a two-way electronic video and audio or telephonic communication system as authorized in § 37.2-804.1. The examination and the preadmission screening report shall be admitted into evidence at the hearing.

B. In no event shall an inmate have the right to make application for voluntary admission as may be otherwise provided in § 37.2-805 or 37.2-814 or be subject to an order for mandatory outpatient treatment as provided in § 37.2-817.

C. If an inmate is hospitalized pursuant to this section and his criminal case is still pending, the court having jurisdiction over the inmate's case may order that the admitting hospital evaluate the inmate's competency to stand trial and his mental state at the time of the offense pursuant to §§ 19.2-169.1 and 19.2-169.5.

D. An inmate may not be hospitalized longer than 30 days under subsection A unless the court which has criminal jurisdiction over him or a district court judge or a special justice, as defined in § 37.2-100, holds a hearing and orders the inmate's continued hospitalization in accordance with the provisions of subdivision A 2. If the inmate's hospitalization is continued under this subsection by a court other than the court which has jurisdiction over his criminal case, the facility at which the inmate is hospitalized shall notify the court with jurisdiction over his criminal case and the inmate's attorney in the criminal case, if the case is still pending.

E. Hospitalization may be extended in accordance with subsection D for periods of 60 days for inmates awaiting trial, but in no event may such hospitalization be continued beyond trial, nor shall such hospitalization act to delay trial, as long as the inmate remains competent to stand trial. Hospitalization may be extended in accordance with subsection D for periods of 180 days for an inmate who has been convicted and not yet sentenced, or for an inmate who has been convicted of a crime and is in the custody of a local correctional facility after sentencing, but in no event may such hospitalization be continued beyond the date upon which his sentence would have expired had he received the maximum sentence for the crime charged. Any inmate who has not completed service of his sentence upon discharge from the hospital shall serve the remainder of his sentence.

F. For any inmate who has been convicted and not yet sentenced, or who has been convicted of a crime and is in the custody of a local correctional facility after sentencing, the time the inmate is confined in a hospital for psychiatric treatment shall be deducted from any term for which he may be sentenced to any penal institution, reformatory or elsewhere.

G. Any health care provider, as defined in § 32.1-127.1:03, or other provider rendering services to an inmate who is the subject of a proceeding under this section, upon request, shall disclose to a magistrate, the court, the inmate's attorney, the inmate's guardian ad litem, the examiner appointed pursuant to § 37.2-815, the community service board or behavioral health authority preparing the preadmission screening pursuant to § 37.2-816, or the sheriff or administrator of the local correctional facility any and all information that is necessary and appropriate to enable each of them to perform his duties under this section. These health care providers and other service providers shall disclose to one another health records and information where necessary to provide care and treatment to the inmate and to monitor that care and treatment. Health records disclosed to a sheriff or administrator of the local correctional facility shall be limited to information necessary to protect the sheriff or administrator of the local correctional facility and his employees, the inmate, or the public from physical injury or to address the health care needs of the inmate. Information disclosed to a law-enforcement officer shall not be used for any other purpose, disclosed to others, or retained.

Any health care provider disclosing records pursuant to this section shall be immune from civil liability for any harm resulting from the disclosure, including any liability under the federal Health Insurance Portability and Accountability Act (42 U.S.C. § 1320d et seq.), as amended, unless the person or provider disclosing such records intended the harm or acted in bad faith.

H. Any order entered where an inmate is the subject of proceedings under this section shall provide for the disclosure of medical records pursuant to subsection G. This subsection shall not preclude any other disclosures as required or permitted by law.

§ 19.2-182.9. Emergency custody of conditionally released acquittee.

When exigent circumstances do not permit compliance with revocation procedures set forth in § 19.2-182.8, any district court judge or a special justice, as defined in § 37.2-100, or a magistrate may issue an emergency custody order, upon the sworn petition of any responsible person or upon his own motion based upon probable cause to believe that an acquittee on conditional release (i) has violated the conditions of his release or is no longer a proper subject for conditional release and (ii) requires inpatient hospitalization. The emergency custody order shall require the acquittee within his judicial district to be taken into custody and transported to a convenient location where a person designated by the community services board or behavioral health authority who is skilled in the diagnosis and treatment of mental illness shall evaluate such acquittee and assess his need for inpatient hospitalization. A law-enforcement officer who, based on his observation or the reliable reports of others, has probable cause to believe that any acquittee on conditional release has violated the conditions of his release and is no longer a proper subject for conditional release and requires emergency evaluation to assess the need for inpatient hospitalization, may take the acquittee into custody and transport him to an appropriate location to assess the need for hospitalization without prior judicial authorization. The evaluation shall be conducted immediately. The acquittee shall remain in custody until a temporary detention order is issued or until he is released, but in no event shall the period of custody exceed four hours. However, upon a finding by a district court judge, special justice as defined in § 37.2-100, or magistrate that good cause exists to grant an extension, the district court judge, special justice, or magistrate shall extend the emergency custody order, or shall issue an order extending the period of emergency custody, one time for an additional period not to exceed two hours. Good cause for an extension includes the need for additional time to allow (a) the community services board to identify a suitable facility in which the person can be temporarily detained pursuant to this section or (b) a medical evaluation of the person to be completed if necessary. If it appears from all evidence readily available ~~(i)~~ (1) that the acquittee has violated the conditions of his release or is no longer a proper subject for conditional release and ~~(ii)~~ (2) that he requires emergency evaluation to assess the need for inpatient hospitalization, the district court

judge or a special justice, as defined in § 37.2-100, or magistrate, upon the advice of such person skilled in the diagnosis and treatment of mental illness, may issue a temporary detention order authorizing the executing officer to place the acquittee in an appropriate institution for a period not to exceed ~~48~~ 72 hours prior to a hearing. If the ~~48-hour~~ 72-hour period terminates on a Saturday, Sunday, legal holiday, or day on which the court is lawfully closed, the acquittee may be detained until the next day which is not a Saturday, Sunday, legal holiday, or day on which the court is lawfully closed.

The committing court or any district court judge or a special justice, as defined in § 37.2-100, shall have jurisdiction to hear the matter. Prior to the hearing, the acquittee shall be examined by a psychiatrist or licensed clinical psychologist, provided the psychiatrist or clinical psychologist is skilled in the diagnosis of mental illness, who shall certify whether the person is in need of hospitalization. At the hearing the acquittee shall be provided with adequate notice of the hearing, of the right to be present at the hearing, the right to the assistance of counsel in preparation for and during the hearing, and the right to introduce evidence and cross-examine witnesses at the hearing. Following the hearing, if the court determines, based on a preponderance of the evidence presented at the hearing, that the acquittee ~~(i)~~ (A) has violated the conditions of his release or is no longer a proper subject for conditional release and ~~(ii)~~ (B) has mental illness or intellectual disability and is in need of inpatient hospitalization, the court shall revoke the acquittee's conditional release and place him in the custody of the Commissioner.

When an acquittee on conditional release pursuant to this chapter is taken into emergency custody, detained, or hospitalized, such action shall be considered to have been taken pursuant to this section, notwithstanding the fact that his status as an insanity acquittee was not known at the time of custody, detention, or hospitalization. Detention or hospitalization of an acquittee pursuant to provisions of law other than those applicable to insanity acquittees pursuant to this chapter shall not render the detention or hospitalization invalid. If a person's status as an insanity acquittee on conditional release is not recognized at the time of emergency custody or detention, at the time his status as such is verified, the provisions applicable to such persons shall be applied and the court hearing the matter shall notify the committing court of the proceedings.

§ 37.2-809. Involuntary temporary detention; issuance and execution of order.

A. For the purposes of this section:

"Designee of the local community services board" means an examiner designated by the local community services board who (i) is skilled in the assessment and treatment of mental illness, (ii) has completed a certification program approved by the Department, (iii) is able to provide an independent examination of the person, (iv) is not related by blood or marriage to the person being evaluated, (v) has no financial interest in the admission or treatment of the person being evaluated, (vi) has no investment interest in the facility detaining or admitting the person under this article, and (vii) except for employees of state hospitals and of the U.S. Department of Veterans Affairs, is not employed by the facility.

"Employee" means an employee of the local community services board who is skilled in the assessment and treatment of mental illness and has completed a certification program approved by the Department.

"Investment interest" means the ownership or holding of an equity or debt security, including shares of stock in a corporation, interests or units of a partnership, bonds, debentures, notes, or other equity or debt instruments.

B. A magistrate shall issue, upon the sworn petition of any responsible person, treating physician, or upon his own motion and only after an evaluation conducted in-person or by means of a two-way electronic video and audio communication system as authorized in § 37.2-804.1 by an employee or a designee of the local community services board to determine whether the person meets the criteria for temporary detention, a temporary detention order if it appears from all evidence readily available, including any recommendation from a physician or clinical psychologist treating the person, that the person (i) has a mental illness and that there exists a substantial likelihood that, as a result of mental illness, the person will, in the near future, (a) cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if any, or (b) suffer serious harm due to his lack of capacity to protect himself from harm or to provide for his basic human needs, (ii) is in need of hospitalization or treatment, and (iii) is unwilling to volunteer or incapable of volunteering for hospitalization or treatment. The magistrate shall also consider the recommendations of any treating or examining physician licensed in Virginia if available either verbally or in writing prior to rendering a decision. Any temporary detention order entered pursuant to this section shall provide for the disclosure of medical records pursuant to § 37.2-804.2. This subsection shall not preclude any other disclosures as required or permitted by law.

C. When considering whether there is probable cause to issue a temporary detention order, the magistrate may, in addition to the petition, consider (i) the recommendations of any treating or examining physician or psychologist licensed in Virginia, if available, (ii) any past actions of the person, (iii) any past mental health treatment of the person, (iv) any relevant hearsay evidence, (v) any medical records available, (vi) any affidavits submitted, if the witness is unavailable and it so states in the affidavit, and (vii) any other information available that the magistrate considers relevant to the determination of whether probable cause exists to issue a temporary detention order.

D. A magistrate may issue a temporary detention order without an emergency custody order proceeding. A magistrate may issue a temporary detention order without a prior evaluation pursuant to subsection B if (i) the person has been personally examined within the previous 72 hours by an employee or a designee of the local community services board or (ii) there is a significant physical, psychological, or medical risk to the person or to others associated with conducting such evaluation.

E. An employee or a designee of the local community services board shall determine the facility of temporary detention for all individuals detained pursuant to this section. The facility of temporary detention shall be one that has been

approved pursuant to regulations of the Board. The facility shall be identified on the preadmission screening report and indicated on the temporary detention order. Except as provided in § 37.2-811 for inmates requiring hospitalization in accordance with subdivision A 2 of § 19.2-169.6, the person shall not be detained in a jail or other place of confinement for persons charged with criminal offenses and shall remain in the custody of law enforcement until the person is either detained within a secure facility or custody has been accepted by the appropriate personnel designated by the facility identified in the temporary detention order.

F. Any facility caring for a person placed with it pursuant to a temporary detention order is authorized to provide emergency medical and psychiatric services within its capabilities when the facility determines that the services are in the best interests of the person within its care. The costs incurred as a result of the hearings and by the facility in providing services during the period of temporary detention shall be paid and recovered pursuant to § 37.2-804. The maximum costs reimbursable by the Commonwealth pursuant to this section shall be established by the State Board of Medical Assistance Services based on reasonable criteria. The State Board of Medical Assistance Services shall, by regulation, establish a reasonable rate per day of inpatient care for temporary detention.

G. The employee or the designee of the local community services board who is conducting the evaluation pursuant to this section shall determine, prior to the issuance of the temporary detention order, the insurance status of the person. Where coverage by a third party payor exists, the facility seeking reimbursement under this section shall first seek reimbursement from the third party payor. The Commonwealth shall reimburse the facility only for the balance of costs remaining after the allowances covered by the third party payor have been received.

H. The duration of temporary detention shall be sufficient to allow for completion of the examination required by § 37.2-815, preparation of the preadmission screening report required by § 37.2-816, and initiation of mental health treatment to stabilize the person's psychiatric condition to avoid involuntary commitment where possible, but shall not exceed ~~48~~ 72 hours prior to a hearing. If the ~~48-hour~~ 72-hour period herein specified terminates on a Saturday, Sunday, ~~or~~ legal holiday, *or day on which the court is lawfully closed*, the person may be detained, as herein provided, until the close of business on the next day that is not a Saturday, Sunday, ~~or~~ legal holiday, *or day on which the court is lawfully closed*. The person may be released, pursuant to § 37.2-813, before the ~~48-hour~~ 72-hour period herein specified has run.

I. If a temporary detention order is not executed within 24 hours of its issuance, or within a shorter period as is specified in the order, the order shall be void and shall be returned unexecuted to the office of the clerk of the issuing court or, if the office is not open, to any magistrate serving the jurisdiction of the issuing court. Subsequent orders may be issued upon the original petition within 96 hours after the petition is filed. However, a magistrate must again obtain the advice of an employee or a designee of the local community services board prior to issuing a subsequent order upon the original petition. Any petition for which no temporary detention order or other process in connection therewith is served on the subject of the petition within 96 hours after the petition is filed shall be void and shall be returned to the office of the clerk of the issuing court.

J. The Executive Secretary of the Supreme Court of Virginia shall establish and require that a magistrate, as provided by this section, be available seven days a week, 24 hours a day, for the purpose of performing the duties established by this section. Each community services board shall provide to each general district court and magistrate's office within its service area a list of its employees and designees who are available to perform the evaluations required herein.

K. For purposes of this section, a health care provider or designee of a local community services board or behavioral health authority shall not be required to encrypt any email containing information or medical records provided to a magistrate unless there is reason to believe that a third party will attempt to intercept the email.

L. The employee or designee of the community services board who is conducting the evaluation pursuant to this section shall, if he recommends that the person should not be subject to a temporary detention order, inform the petitioner and an onsite treating physician of his recommendation.

§ 37.2-814. Commitment hearing for involuntary admission; written explanation; right to counsel; rights of petitioner.

A. The commitment hearing for involuntary admission shall be held after a sufficient period of time has passed to allow for completion of the examination required by § 37.2-815, preparation of the preadmission screening report required by § 37.2-816, and initiation of mental health treatment to stabilize the person's psychiatric condition to avoid involuntary commitment where possible, but shall be held within ~~48~~ 72 hours of the execution of the temporary detention order as provided for in § 37.2-809; however, if the ~~48-hour~~ 72-hour period herein specified terminates on a Saturday, Sunday, legal holiday, or day on which the court is lawfully closed, the person may be detained, as herein provided, until the close of business on the next day that is not a Saturday, Sunday, legal holiday, or day on which the court is lawfully closed.

B. At the commencement of the commitment hearing, the district court judge or special justice shall inform the person whose involuntary admission is being sought of his right to apply for voluntary admission for inpatient treatment as provided for in § 37.2-805 and shall afford the person an opportunity for voluntary admission. The district court judge or special justice shall advise the person whose involuntary admission is being sought that if the person chooses to be voluntarily admitted pursuant to § 37.2-805, such person will be prohibited from possessing ~~or~~ purchasing, *or transporting* a firearm pursuant to § 18.2-308.1:3. The judge or special justice shall ascertain if the person is then willing and capable of seeking voluntary admission for inpatient treatment. In determining whether a person is capable of consenting to voluntary admission, the judge or special justice may consider evidence regarding the person's past compliance or noncompliance with treatment. If the judge or special justice finds that the person is capable and willingly accepts voluntary admission for

inpatient treatment, the judge or special justice shall require him to accept voluntary admission for a minimum period of treatment not to exceed 72 hours. After such minimum period of treatment, the person shall give the facility 48 hours' notice prior to leaving the facility. During this notice period, the person shall not be discharged except as provided in § 37.2-837, 37.2-838, or 37.2-840. The person shall be subject to the transportation provisions as provided in § 37.2-829 and the requirement for preadmission screening by a community services board as provided in § 37.2-805.

C. If a person is incapable of accepting or unwilling to accept voluntary admission and treatment, the judge or special justice shall inform the person of his right to a commitment hearing and right to counsel. The judge or special justice shall ascertain if the person whose admission is sought is represented by counsel, and, if he is not represented by counsel, the judge or special justice shall appoint an attorney to represent him. However, if the person requests an opportunity to employ counsel, the judge or special justice shall give him a reasonable opportunity to employ counsel at his own expense.

D. A written explanation of the involuntary admission process and the statutory protections associated with the process shall be given to the person, and its contents shall be explained by an attorney prior to the commitment hearing. The written explanation shall describe, at a minimum, the person's rights to (i) retain private counsel or be represented by a court-appointed attorney, (ii) present any defenses including independent evaluation and expert testimony or the testimony of other witnesses, (iii) be present during the hearing and testify, (iv) appeal any order for involuntary admission to the circuit court, and (v) have a jury trial on appeal. The judge or special justice shall ascertain whether the person whose involuntary admission is sought has been given the written explanation required herein.

E. To the extent possible, during or before the commitment hearing, the attorney for the person whose involuntary admission is sought shall interview his client, the petitioner, the examiner described in § 37.2-815, the community services board staff, and any other material witnesses. He also shall examine all relevant diagnostic and other reports, present evidence and witnesses, if any, on his client's behalf, and otherwise actively represent his client in the proceedings. A health care provider shall disclose or make available all such reports, treatment information, and records concerning his client to the attorney, upon request. The role of the attorney shall be to represent the wishes of his client, to the extent possible.

F. The petitioner shall be given adequate notice of the place, date, and time of the commitment hearing. The petitioner shall be entitled to retain counsel at his own expense, to be present during the hearing, and to testify and present evidence. The petitioner shall be encouraged but shall not be required to testify at the hearing, and the person whose involuntary admission is sought shall not be released solely on the basis of the petitioner's failure to attend or testify during the hearing.

§ 37.2-817. Involuntary admission and mandatory outpatient treatment orders.

A. The district court judge or special justice shall render a decision on the petition for involuntary admission after the appointed examiner has presented the report required by § 37.2-815, and after the community services board that serves the county or city where the person resides or, if impractical, where the person is located has presented a preadmission screening report with recommendations for that person's placement, care, and treatment pursuant to § 37.2-816. These reports, if not contested, may constitute sufficient evidence upon which the district court judge or special justice may base his decision. The examiner, if not physically present at the hearing, and the treating physician at the facility of temporary detention shall be available whenever possible for questioning during the hearing through a two-way electronic video and audio or telephonic communication system as authorized in § 37.2-804.1.

B. Any employee or designee of the local community services board, as defined in § 37.2-809, representing the community services board that prepared the preadmission screening report shall attend the hearing in person or, if physical attendance is not practicable, shall participate in the hearing through a two-way electronic video and audio or telephonic communication system as authorized in § 37.2-804.1. Where a hearing is held outside of the service area of the community services board that prepared the preadmission screening report, and it is not practicable for a representative of the board to attend or participate in the hearing, arrangements shall be made by the board for an employee or designee of the board serving the area in which the hearing is held to attend or participate on behalf of the board that prepared the preadmission screening report. The employee or designee of the local community services board, as defined in § 37.2-809, representing the community services board that prepared the preadmission screening report or attending or participating on behalf of the board that prepared the preadmission screening report shall not be excluded from the hearing pursuant to an order of sequestration of witnesses. The community services board that prepared the preadmission screening report shall remain responsible for the person subject to the hearing and, prior to the hearing, shall send the preadmission screening report through certified mail, personal delivery, facsimile with return receipt acknowledged, or other electronic means to the community services board attending the hearing. Where a community services board attends the hearing on behalf of the community services board that prepared the preadmission screening report, the attending community services board shall inform the community services board that prepared the preadmission screening report of the disposition of the matter upon the conclusion of the hearing. In addition, the attending community services board shall transmit the disposition through certified mail, personal delivery, facsimile with return receipt acknowledged, or other electronic means.

At least 12 hours prior to the hearing, the court shall provide to the community services board that prepared the preadmission screening report the time and location of the hearing. If the representative of the community services board will be present by telephonic means, the court shall provide the telephone number to the board.

C. After observing the person and considering (i) the recommendations of any treating or examining physician or psychologist licensed in Virginia, if available, (ii) any past actions of the person, (iii) any past mental health treatment of the person, (iv) any examiner's certification, (v) any health records available, (vi) the preadmission screening report, and (vii) any other relevant evidence that may have been admitted, including whether the person recently has been found

unrestorably incompetent to stand trial after a hearing held pursuant to subsection E of § 19.2-169.1, if the judge or special justice finds by clear and convincing evidence that (a) the person has a mental illness and there is a substantial likelihood that, as a result of mental illness, the person will, in the near future, (1) cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if any, or (2) suffer serious harm due to his lack of capacity to protect himself from harm or to provide for his basic human needs, and (b) all available less restrictive treatment alternatives to involuntary inpatient treatment, pursuant to subsection D, that would offer an opportunity for the improvement of the person's condition have been investigated and determined to be inappropriate, the judge or special justice shall by written order and specific findings so certify and order that the person be admitted involuntarily to a facility for a period of treatment not to exceed 30 days from the date of the court order. Such involuntary admission shall be to a facility designated by the community services board that serves the county or city in which the person was examined as provided in § 37.2-816. If the community services board does not designate a facility at the commitment hearing, the person shall be involuntarily admitted to a facility designated by the Commissioner. Upon the expiration of an order for involuntary admission, the person shall be released unless he is involuntarily admitted by further petition and order of a court, which shall be for a period not to exceed 180 days from the date of the subsequent court order, or such person makes application for treatment on a voluntary basis as provided for in § 37.2-805 or is ordered to mandatory outpatient treatment pursuant to subsection D. Upon motion of the treating physician, a family member or personal representative of the person, or the community services board serving the county or city where the facility is located, the county or city where the person resides, or the county or city where the person receives treatment, a hearing shall be held prior to the release date of any involuntarily admitted person to determine whether such person should be ordered to mandatory outpatient treatment pursuant to subsection D upon his release if such person, on at least two previous occasions within 36 months preceding the date of the hearing, has been (A) involuntarily admitted pursuant to this section or (B) the subject of a temporary detention order and voluntarily admitted himself in accordance with subsection B of § 37.2-814. A district court judge or special justice shall hold the hearing within 72 hours after receiving the motion for a mandatory outpatient treatment order; however, if the 72-hour period expires on a Saturday, Sunday, or legal holiday, the hearing shall be held by the close of business on the next day that is not a Saturday, Sunday, or legal holiday.

C1. In the order for involuntary admission, the judge or special justice may authorize the treating physician to discharge the person to mandatory outpatient treatment under a discharge plan developed pursuant to subsection C2, if the judge or special justice further finds by clear and convincing evidence that (i) the person has a history of lack of compliance with treatment for mental illness that at least twice within the past 36 months has resulted in the person being subject to an order for involuntary admission pursuant to subsection C; (ii) in view of the person's treatment history and current behavior, the person is in need of mandatory outpatient treatment following inpatient treatment in order to prevent a relapse or deterioration that would be likely to result in the person meeting the criteria for involuntary inpatient treatment; (iii) as a result of mental illness, the person is unlikely to voluntarily participate in outpatient treatment unless the court enters an order authorizing discharge to mandatory outpatient treatment following inpatient treatment; and (iv) the person is likely to benefit from mandatory outpatient treatment. The duration of mandatory outpatient treatment shall be determined by the court based on recommendations of the community services board, but shall not exceed 90 days. Upon expiration of the order for mandatory outpatient treatment, the person shall be released unless the order is continued in accordance with § 37.2-817.4.

C2. Prior to discharging the person to mandatory outpatient treatment under a discharge plan as authorized pursuant to subsection C1, the treating physician shall determine, based upon his professional judgment, that (i) the person (a) in view of the person's treatment history and current behavior, no longer needs inpatient hospitalization, (b) requires mandatory outpatient treatment at the time of discharge to prevent relapse or deterioration of his condition that would likely result in his meeting the criteria for involuntary inpatient treatment, and (c) has agreed to abide by his discharge plan and has the ability to do so; and (ii) the ordered treatment will be delivered on an outpatient basis by the community services board or designated provider to the person. In no event shall the treating physician discharge a person to mandatory outpatient treatment under a discharge plan as authorized pursuant to subsection C1 if the person meets the criteria for involuntary commitment set forth in subsection C. The discharge plan developed by the treating physician and facility staff in conjunction with the community services board and the person shall serve as and shall contain all the components of the comprehensive mandatory outpatient treatment plan set forth in subsection G, and no initial mandatory outpatient treatment plan set forth in subsection F shall be required. The discharge plan shall be submitted to the court for approval and, upon approval by the court, shall be filed and incorporated into the order entered pursuant to subsection C1. The discharge plan shall be provided to the person by the community services board at the time of the person's discharge from the inpatient facility. The community services board where the person resides upon discharge shall monitor the person's compliance with the discharge plan and report any material noncompliance to the court in accordance with § 37.2-817.1.

D. After observing the person and considering (i) the recommendations of any treating or examining physician or psychologist licensed in Virginia, if available, (ii) any past actions of the person, (iii) any past mental health treatment of the person, (iv) any examiner's certification, (v) any health records available, (vi) the preadmission screening report, and (vii) any other relevant evidence that may have been admitted, if the judge or special justice finds by clear and convincing evidence that (a) the person has a mental illness and that there exists a substantial likelihood that, as a result of mental illness, the person will, in the near future, (1) cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if any, or (2) suffer serious harm due to

his lack of capacity to protect himself from harm or to provide for his basic human needs; (b) less restrictive alternatives to involuntary inpatient treatment that would offer an opportunity for improvement of his condition have been investigated and are determined to be appropriate; (c) the person has agreed to abide by his treatment plan and has the ability to do so; and (d) the ordered treatment will be delivered on an outpatient basis by the community services board or designated provider to the person, the judge or special justice shall by written order and specific findings so certify and order that the person be admitted involuntarily to mandatory outpatient treatment. Less restrictive alternatives shall not be determined to be appropriate unless the services are actually available in the community.

E. Mandatory outpatient treatment may include day treatment in a hospital, night treatment in a hospital, outpatient involuntary treatment with anti-psychotic medication pursuant to Chapter 11 (§ 37.2-1100 et seq.), or other appropriate course of treatment as may be necessary to meet the needs of the person. Mandatory outpatient treatment shall not include the use of restraints or physical force of any kind in the provision of the medication. The community services board that serves the county or city in which the person resides shall recommend a specific course of treatment and programs for the provision of mandatory outpatient treatment. The duration of mandatory outpatient treatment shall be determined by the court based on recommendations of the community services board, but shall not exceed 90 days. Upon expiration of an order for mandatory outpatient treatment, the person shall be released from the requirements of the order unless the order is continued in accordance with § 37.2-817.4.

F. Any order for mandatory outpatient treatment entered pursuant to subsection D shall include an initial mandatory outpatient treatment plan developed by the community services board that completed the preadmission screening report. The plan shall, at a minimum, (i) identify the specific services to be provided, (ii) identify the provider who has agreed to provide each service, (iii) describe the arrangements made for the initial in-person appointment or contact with each service provider, and (iv) include any other relevant information that may be available regarding the mandatory outpatient treatment ordered. The order shall require the community services board to monitor the implementation of the mandatory outpatient treatment plan and report any material noncompliance to the court.

G. No later than five days, excluding Saturdays, Sundays, or legal holidays, after an order for mandatory outpatient treatment has been entered pursuant to subsection D, the community services board where the person resides that is responsible for monitoring compliance with the order shall file a comprehensive mandatory outpatient treatment plan. The comprehensive mandatory outpatient treatment plan shall (i) identify the specific type, amount, duration, and frequency of each service to be provided to the person, (ii) identify the provider that has agreed to provide each service included in the plan, (iii) certify that the services are the most appropriate and least restrictive treatment available for the person, (iv) certify that each provider has complied and continues to comply with applicable provisions of the Department's licensing regulations, (v) be developed with the fullest possible involvement and participation of the person and his family, with the person's consent, and reflect his preferences to the greatest extent possible to support his recovery and self-determination, (vi) specify the particular conditions with which the person shall be required to comply, and (vii) describe how the community services board shall monitor the person's compliance with the plan and report any material noncompliance with the plan. The community services board shall submit the comprehensive mandatory outpatient treatment plan to the court for approval. Upon approval by the court, the comprehensive mandatory outpatient treatment plan shall be filed with the court and incorporated into the order of mandatory outpatient treatment. Any subsequent substantive modifications to the plan shall be filed with the court for review and attached to any order for mandatory outpatient treatment.

H. If the community services board responsible for developing the comprehensive mandatory outpatient treatment plan determines that the services necessary for the treatment of the person's mental illness are not available or cannot be provided to the person in accordance with the order for mandatory outpatient treatment, it shall notify the court within five business days of the entry of the order for mandatory outpatient treatment. Within two business days of receiving such notice, the judge or special justice, after notice to the person, the person's attorney, and the community services board responsible for developing the comprehensive mandatory outpatient treatment plan shall hold a hearing pursuant to § 37.2-817.2.

I. Upon entry of any order for mandatory outpatient treatment entered pursuant to subsection D, the clerk of the court shall provide a copy of the order to the person who is the subject of the order, to his attorney, and to the community services board required to monitor compliance with the plan. The community services board shall acknowledge receipt of the order to the clerk of the court on a form established by the Office of the Executive Secretary of the Supreme Court and provided by the court for this purpose *within five business days*.

J. The court may transfer jurisdiction of the case to the district court where the person resides at any time after the entry of the mandatory outpatient treatment order. The community services board responsible for monitoring compliance with the mandatory outpatient treatment plan or discharge plan shall remain responsible for monitoring the person's compliance with the plan until the community services board serving the locality to which jurisdiction of the case has been transferred acknowledges the transfer and receipt of the order to the clerk of the court on a form established by the Office of the Executive Secretary of the Supreme Court and provided by the court for this purpose. *The community services board serving the locality to which jurisdiction of the case has been transferred shall acknowledge the transfer and receipt of the order within five business days.*

K. Any order entered pursuant to this section shall provide for the disclosure of medical records pursuant to § 37.2-804.2. This subsection shall not preclude any other disclosures as required or permitted by law.

In the event of a state of emergency declared by the Governor pursuant to Chapter 3.2 (§ 44-146.13 et seq.) of Title 44 or declared by the President of the United States or the governor of another state pursuant to law and confirmed by the Governor by an executive order, the Governor may postpone an election by executive order in areas affected by the emergency to a date, notwithstanding the provisions of § 24.2-682, not to exceed 14 days from the original date of the election.

If a local governing body determines that a longer postponement is required, it may petition a three-judge panel of the Virginia Supreme Court, to include the Chief Justice as the presiding Justice, for an extension. The Chief Justice shall choose the other two Justices by lot. The Court may postpone the election to a date it deems appropriate, notwithstanding the provisions of § 24.2-682, not to exceed 30 days from the original date of the election.

Only those persons duly registered to vote as of the original date of the election shall be entitled to vote in the rescheduled election.

If, as a direct result of the emergency, any ballots already cast at the polling places or equipment on which ballots have been cast, or any voted absentee ballots already received by the appropriate election officials or any equipment on which absentee ballots have already been cast have been destroyed or otherwise damaged so that such ballots cannot be counted ~~by the counting device or counted~~ manually *or by a voting system*, the Governor (i) shall specify that such ballots or votes previously cast by machinery or paper need to be recast on or by the rescheduled election date so that they may be counted and (ii) shall direct the appropriate election officials to immediately send replacement absentee ballots to all absentee voters whose voted ballots are known to have been so destroyed or damaged. Such instructions may be issued by executive order separately from the executive order postponing the election. Any absentee ballots duly cast and received by the rescheduled election date and able to be counted shall be valid and counted when determining the results of the rescheduled election; however, if more than one absentee ballot is received from any voter, only the first absentee ballot received and able to be counted shall be counted. Any person who was duly registered to vote as of the original date of the election, and who has not voted, or who is permitted to recast their ballot due to the emergency, may vote by absentee ballot in accordance with the provisions of Chapter 7 (§ 24.2-700 et seq.) ~~of this title~~ in the rescheduled election. Official ballots shall not be invalidated on the basis that they contain the original election date.

If the postponement of the election is ordered after voting at the polls on the original election date has already commenced, all qualified voters in a precinct in which any voted ballots, voting equipment containing voted ballots or pollbooks recording who has already voted in that precinct have been destroyed or damaged as a direct result of the emergency, so that the votes cannot be counted or it cannot be determined who has already voted, shall be allowed to vote in the rescheduled election, and no votes cast at the polls on the original election date shall be counted. If the postponement of the election is ordered after voting at the polls on the original election date has already commenced and no ballots cast at the polls, voting equipment containing voted ballots, or pollbooks recording who has already voted in that election in that precinct have been destroyed or damaged as a direct result of the emergency, only qualified voters who had not yet voted shall be eligible to vote on the rescheduled election day and all votes cast on the original and postponed election dates shall be counted at the close of the polls on the rescheduled election day.

The provisions of § 24.2-663 requiring the voiding of all ballots received from any voter who votes more than once in the same election shall not apply to ballots otherwise lawfully cast or recast pursuant to this section; however, no more than one ballot may be counted from any voter in the same election. If one ballot has already been counted, any additional ballots from the same voter shall be void and shall not be counted. The provisions of § 24.2-1004 or any other law prohibiting any voter from voting more than once in the same election, or any oath attesting to the same, shall not apply to ballots otherwise lawfully cast or recast pursuant to this section.

No results shall be tallied or votes counted in any postponed election before the closing of the polls on the rescheduled election date. Officers of election in unaffected areas shall count and report the results for the postponed election after the close of the polls on the rescheduled election date. The counting may take place at the precinct or another location determined by the local electoral board.

The State Board shall prescribe appropriate procedures to implement this section.

§ 24.2-609. Voting booths.

Each electoral board shall provide at each polling place in its county or city one or more voting booths. At least one booth shall be an enclosure which permits the voter to vote by ~~paper printed~~ ballot in secret and is equipped with a writing surface ~~and~~, operative writing implements, and ~~adequately adequate~~ *adequate* ~~lighted~~ *lighting*. Enclosures for voting equipment shall provide for voting in secret and be adequately lighted. "Voting booth" includes enclosures for voting ~~paper printed~~ ballots and for voting equipment.

§ 24.2-612. List of offices and candidates filed with State Board and checked for accuracy; when ballots printed; number required.

Immediately after the expiration of the time provided by law for a candidate for any office to qualify to have his name printed on the official ballot and prior to printing the ballots for an election, each electoral board shall forward to the State Board a list of the county, city, or town offices to be filled at the election and the names of all candidates who have filed for each office. In addition, each electoral board shall forward the name of any candidate who failed to qualify with the reason for his disqualification. On that same day, the electoral board shall also provide a copy of the notice to each disqualified candidate. The notice shall be sent by email or regular mail to the address on the candidate's certificate of candidate qualification, and such notice shall be deemed sufficient. The State Board shall promptly advise the electoral board of the accuracy of the list. The failure of any electoral board to send the list to the State Board for verification shall not invalidate any election.

Each electoral board shall have printed the number of ballots it determines will be sufficient to conduct the election.

Notwithstanding any other provisions of this title, the State Board may print or otherwise provide (i) one statewide paper ballot style for each paper ballot style in use for presidential and vice-presidential electors for use only by persons eligible to vote for those offices only under § 24.2-402 or clause (iii) or (v) of subsection B of § 24.2-416.1 or (ii) one statewide paper ballot style for each paper ballot style in use for Governor, Lieutenant Governor or Attorney General only for use as the early absentee ballot specified in § 24.2-702. The State Board may apportion or authorize the printer or vendor to apportion the costs for these ballots among the localities based on the number of ballots ordered. Any printer employed by the State Board shall execute the statement required by § 24.2-616. The State Board shall designate a representative to be present at the printing of such ballots and deliver them to the appropriate electoral boards pursuant to § 24.2-617. Upon receipt of such paper ballots, the electoral board shall affix its seal. Thereafter, such ballots shall be handled and accounted for, and the votes counted as the State Board shall specifically direct.

The electoral board shall make printed ballots available for absentee voting not later than 45 days prior to any election or within three business days of the receipt of a properly completed absentee ballot application, whichever is later. In the case of a special election, excluding for federal offices, if time is insufficient to meet the applicable deadline established herein, then the electoral board shall make printed ballots available as soon after the deadline as possible. For the purposes of this chapter, making printed ballots available includes mailing of such ballots or electronic transmission of such ballots pursuant to § 24.2-706 to a qualified absentee voter who is eligible for an absentee ballot under subdivision 2 of § 24.2-700. Not later than five days after absentee ballots are made available, each electoral board shall report to the State Board, in writing on a form approved by the State Board, whether it has complied with the applicable deadline.

Only the names of candidates for offices to be voted on in a particular election district shall be printed on the ballots for that election district.

The electoral boards shall send to the State Board a statement of the number of ~~paper~~ ballots ordered to be printed, proofs of each ~~paper and voting equipment~~ *printed* ballot for verification, and copies of each final ballot. If the State Board finds that, in its opinion, the number of ballots ordered to be printed by any local electoral board is not sufficient, it may direct the local board to order the printing of a reasonable number of additional ballots.

§ 24.2-613. Form of ballot.

The ballots shall comply with the requirements of this title and the standards prescribed by the State Board.

For elections for federal, statewide, and General Assembly offices only, each candidate who has been nominated by a political party or in a primary election shall be identified by the name of his political party. Independent candidates shall be identified by the term "Independent." For the purpose of this section, any Independent candidate may, by producing sufficient and appropriate evidence of nomination by a "recognized political party" to the State Board, have the term "Independent" on the ballot converted to that of a "recognized political party" on the ballot and be treated on the ballot in a manner consistent with the candidates nominated by political parties. For the purpose of this section, a "recognized political party" is defined as an organization that, for at least six months preceding the filing of its nominee for the office, has had in continual existence a state central committee composed of registered voters residing in each congressional district of the Commonwealth, a party plan and bylaws, and a duly elected state chairman and secretary. A letter from the state chairman of a recognized political party certifying that a candidate is the nominee of that party and also signed by such candidate accepting that nomination shall constitute sufficient and appropriate evidence of nomination by a recognized political party. The name of the political party, the name of the "recognized political party," or term "Independent" may be shown by an initial or abbreviation to meet ballot requirements.

Except as provided for primary elections, the State Board shall determine by lot the order of the political parties, and the names of all candidates for a particular office shall appear together in the order determined for their parties. In an election district in which more than one person is nominated by one political party for the same office, the candidates' names shall appear alphabetically in their party groups under the name of the office, with sufficient space between party groups to indicate them as such. For the purpose of this section ~~and § 24.2-640~~, except as provided for presidential elections in § 24.2-614, "recognized political parties" shall be treated as a class; the order of the recognized political parties within the class shall be determined by lot by the State Board; and the class shall follow the political parties as defined by § 24.2-101 and precede the independent class. Independent candidates shall be treated as a class under "Independent"; their names shall be placed on the ballot after the political parties and recognized political parties; and where there is more than one independent candidate for an office, their names shall appear alphabetically.

No individual's name shall appear on the ballot more than once for the same office.

In preparing the *printed* ballots for general, special, and primary elections, the State Board and electoral boards shall cause to be printed in not less than 10-point type, immediately below the title of any office, a statement of the number of candidates ~~who for whom votes may be voted for~~ cast for that office. The following language shall be used: "Vote for not more than":

~~At any precinct at which mark sense ballots are used, the mark sense ballot may be used in lieu of the official paper ballot with the approval of the State Board.~~

Any locality ~~which that~~ uses ~~mark sense machine-readable~~ ballots at one or more precincts, including any central absentee precinct, may, with the approval of the State Board, use ~~the mark sense ballot or a printed reproductions~~ reproduction of the ~~mark sense machine-readable~~ ballot in lieu of the official ~~paper machine-readable~~ ballot. Such reproductions shall be printed and otherwise handled in accordance with all laws and procedures that apply to official paper ballots.

In every county and city using voting systems requiring printed ballots, the electoral board shall furnish a sufficient number of ballots printed on plain white paper, of such form and size as will fit in the ballot frames.

§ 24.2-623. Ballot containers to be supplied by governing bodies; construction and custody.

The governing body of each county and city shall provide a ballot container for each precinct ~~and each part of a split precinct~~. The container shall have a lock and key and an opening of sufficient size to admit a single folded or unfolded ballot and no more. The containers shall be kept by the electoral boards for use in the precincts.

§ 24.2-625. Application of Title 24.2 and general law.

All of the provisions of this title and general law not inconsistent with the provisions of this article shall apply to elections in counties, cities, and towns adopting and using ~~mechanical or~~ electronic voting or counting ~~systems machines~~.

§ 24.2-626. Governing bodies shall acquire electronic voting and counting machines.

The governing body of each county and city shall provide for the use of electronic voting or counting ~~systems machines~~, of a kind approved by the State Board, at every precinct and for all elections held in the county, the city, or any part of the county or city.

Each county and city governing body shall purchase, lease, lease purchase, or otherwise acquire such ~~systems machines~~ and may provide for the payment therefor in the manner it deems proper. Systems of different kinds may be adopted for use and be used in different precincts of the same county or city, or within a precinct or precincts in a county or city, subject to the approval of the State Board.

On and after July 1, 2007, no county or city shall acquire any direct recording electronic machine (DRE) for use in elections in the county or city except as provided herein:

1. DREs acquired prior to July 1, 2007, may be used in elections in the county or city for the remainder of their useful life.
2. Any locality that acquired DREs prior to July 1, 2007, may acquire DREs on a temporary basis to conduct an election when the existing DRE inventory is insufficient to conduct the election because all or part of its inventory is under lock or seal as required by § 24.2-659.
3. Any locality may acquire DREs from another locality within the Commonwealth, from among their existing inventories, for the expressed purpose of providing accessible voting equipment as required by § 24.2-626.1. The local electoral board shall notify the State Board when acquiring any DRE under this provision and shall certify to the State Board that the DRE acquired under this provision is necessary to meet accessible voting requirements.
4. Any locality may modify its existing DREs to comply with federal or state law requirements to provide accessible voting equipment. Any modifications made to existing DREs must be authorized by the State Board of Elections prior to modification.

§ 24.2-627. Electronic voting or counting machines; number required.

A. The governing body of any county or city ~~which that~~ adopts for use at elections ~~mechanical or~~ direct recording electronic ~~voting systems machines~~ shall provide for each precinct at least the following number of voting ~~devices machines~~:

- In each precinct having not more than 750 registered voters, 1;
- In each precinct having more than 750 but not more than 1,500 registered voters, 2;
- In each precinct having more than 1,500 but not more than 2,250 registered voters, 3;
- In each precinct having more than 2,250 but not more than 3,000 registered voters, 4;
- In each precinct having more than 3,000 but not more than 3,750 registered voters, 5;
- In each precinct having more than 3,750 but not more than 4,500 registered voters, 6;
- In each precinct having more than 4,500 but not more than 5,000 registered voters, 7.

B. The governing body of any county or city, ~~which that~~ adopts for use at elections ~~any electronic system which requires the voter to vote a ballot which is inserted in an electronic counter, ballot scanner machines~~ shall provide for each precinct at least one voting booth with a marking device for each 425 registered voters or portion thereof and shall provide for each precinct at least one ~~counting device scanner~~.

C. The local electoral board of any county or city shall be authorized to conduct any May general election, primary election, or special election held on a date other than a November general election with the number of voting or ~~marking devices counting machines~~ it determines is appropriate for each precinct, notwithstanding the provisions of subsections A and B ~~of this section~~.

D. For purposes of applying this section, an electoral board may exclude persons voting absentee in its calculations, and if it does so, the electoral board shall send to the State Board a statement of the number of voting systems to be used in each precinct. If the State Board finds that the number of voting systems is not sufficient, it may direct the local board to use more voting systems.

§ 24.2-629. State Board approval process of electronic voting systems.

A. Any person, firm, or corporation ~~hereinafter~~ referred to in *this article* as the "vendor," manufacturing, owning, or offering for sale any electronic voting or counting ~~system~~ *machine* and ballots designed to be used with such equipment may apply to the State Board, in the manner prescribed by the Board, to have examined a production model of such equipment and the ballots used with it. The Board may require the vendor to pay a reasonable application fee when he files his request for testing or certification of new or upgraded voting equipment. Receipts from such fees shall be credited to the Board for reimbursement of testing and certification expenses. In addition to any other materials that may be required, a current statement of the financial status of the vendor, including any assets and liabilities, shall be filed with the Board; if the vendor is not the manufacturer of the equipment for which application is made, such a statement shall also be filed for the manufacturer. These statements shall be exempt from the provisions of the Virginia Freedom of Information Act (§ 2.2-3700 et seq.). The Board shall require, at a site of its choosing, a demonstration of such ~~system~~ *equipment* and ballots and may require that a production model of the ~~system~~ *equipment* and a supply of ballots be provided to the Board for testing purposes. The Board shall also require the vendor to provide documentation of the practices recommended by the vendor to ensure the optimum security and functionality of the system.

B. ~~The provisions of this title pertaining to mechanical voting devices and ballots shall be deemed applicable to such equipment and ballots provided that (i) the counting equipment used with punched or mark sense ballots shall not be required to prevent a voter from voting for a greater number of candidates than he is lawfully entitled to; (ii) the provisions of this title pertaining to ballot squares shall not be applicable to punched or mark sense ballots; and (iii) any system approved pursuant to this title shall segregate ballots containing write-in votes from all others. Every electronic voting system shall ensure voting in absolute secrecy, and systems requiring the voter to vote a ballot that is inserted in an electronic counting device shall provide for secrecy of the ballot and a method to conceal the voted ballot. Systems requiring the voter to vote a ballot that is inserted in an electronic counting device shall report, if possible, the number of ballots on which a voter voted for a lesser number of candidates for an office than the number he was lawfully entitled to vote and the number of ballots on which a voter voted for a greater number of candidates than the number he was lawfully entitled to vote. Electronic voting devices shall be programmable, if possible, to allow such undervoted and overvoted ballots to be separated when necessary.~~

~~B1. The system shall provide the voter with an opportunity to correct any error before a permanent record is preserved. The Board may approve any kind of electronic voting system that meets the following requirements:~~

- ~~1. It shall provide clear instructions for voters on how to mark or select their choice and cast that vote.~~
- ~~2. It shall provide facilities for voting for all offices at any election and on as many questions as may be submitted at any election.~~
- ~~3. It shall be capable of processing ballots for all parties holding a primary election on the same day, but programmable in such a way that an individual ballot cast by a voter is limited to the party primary election in which the voter chooses to participate.~~
- ~~4. It shall require votes for presidential and vice presidential electors to be cast for the presidential and vice presidential electors of one party by one operation. The ballot shall contain the words "Electors for" preceded by the name of the party or other authorized designation and followed by the names of the candidates for the offices of President and Vice President.~~
- ~~5. It shall enable the voter to cast votes for as many persons for an office as lawfully permitted, but no more. It shall prevent the voter from casting a vote for the same person more than once for the same office. However, ballot scanner machines shall not be required to prevent a voter from voting for a greater number of candidates than he is lawfully entitled to.~~
- ~~6. It shall enable the voter to cast a vote on any question on which he is lawfully permitted to vote, but no other.~~
- ~~7. It shall provide the voter with an opportunity to correct any error before a ballot is cast.~~
- ~~8. It shall correctly register or record and accurately count all votes cast for candidates and on questions.~~
- ~~9. It shall be provided with a "protective counter," whereby any operation of the machine before or after the election will be detected.~~
- ~~10. It shall be provided with a counter that at all times during an election shall show how many persons have voted.~~
- ~~11. It shall ensure voting in absolute secrecy. Ballot scanner machines shall provide for the secrecy of the ballot and a method to conceal the voted ballot.~~
- ~~12. It shall be programmable to allow ballots to be separated when necessary.~~
- ~~13. Ballot scanner machines shall report, if possible, the number of ballots on which a voter undervoted or overvoted.~~

C. After its examination of the equipment, ballots, and other materials submitted by the vendors, the Board shall prepare and file in its office a report of its finding as to (i) the apparent capability of such equipment to accurately count, register, and report votes; (ii) whether the system can be conveniently used without undue confusion to the voter; (iii) its accessibility to voters with disabilities; (iv) whether the system can be safely used without undue potential for fraud; (v) the ease of its operation and transportation by voting equipment custodians and officers of election; (vi) the financial stability of the vendor and manufacturer; (vii) whether the system meets the requirements of this title; (viii) whether the system meets

federal requirements; (ix) whether issues of reliability and security identified with the system by other state governments have been adequately addressed by the vendor; and (x) whether, in the opinion of the Board, the potential for approval of such system is such as to justify further examination and testing.

D. If the Board determines that there is such potential and prior to its final determination as to approval or disapproval of such system, the Board shall obtain a report by an independent electronics or engineering consultant as to (i) whether the system accurately counts, registers, and reports votes; (ii) whether it is capable of storing and retaining existing votes in a permanent memory in the event of power failure during and after the election; (iii) the number of separate memory capabilities for the storage of recorded votes; (iv) its mechanical and electronic perfections and imperfections; (v) the audit trail provided by the system; (vi) the anticipated frequency of repair; (vii) the ease of repair; (viii) the anticipated life of the equipment; (ix) its potential for fraudulent use; (x) its accessibility to voters with disabilities; (xi) the ease of its programming, transportation, and operation by voting equipment custodians and officers of election; and (xii) any other matters deemed necessary by the Board. Failure by an applicant to cooperate with the consultant by furnishing information and production equipment and ballots requested shall be deemed a withdrawal of the application, but nothing in this section shall require the disclosure of trade secrets by the applicant. If such trade secrets are essential to the proper analysis of the system and are provided for that reason, the consultant shall subscribe to an oath subject to the penalty for perjury that he will neither disclose nor make use of such information except as necessary for the system analysis. The report of the consultant shall be filed in the office of the Board.

~~D~~. E. In preparing the reports cited in subsections C and D, the Board shall require, as a condition of certification, that the system is comprehensively examined by individuals including at least one expert in election management and one in computer system security. The Board shall develop, in conjunction with the above listed individuals, a specific set of items to be examined and tested as part of the certification process to further elaborate on the requirements identified in this section.

~~E~~. F. If the Board determines that there is potential for approval of the system and prior to its final determination, the Board shall also require that the system be tested in an actual election in one or more counties or cities. Its use at such election shall be as valid for all purposes as if it had been legally approved by the Board and adopted by the counties or cities.

~~F~~. G. If, following testing, the Board approves any ~~electronic~~ voting system and its ballots for use, the Board shall so notify the electoral boards of each county and city. Systems so approved may be adopted for use at elections as herein provided. No form of ~~electronic~~ voting system and ballots not so approved shall be adopted by any county or city. Any ~~electronic~~ voting system and ballots approved for use by the Board shall be deemed to meet the requirements of this title and any applicable federal laws, and their use in any election shall be valid.

~~G~~. H. A vendor whose ~~electronic~~ voting system is approved for use shall provide ~~annual~~ updates to the State Board concerning its recommended practices for optimum security and functionality of the system, *as may be requested by the Board*. Any product for which ~~annual~~ requested updates are not provided shall be deemed non-compliant and may be decertified at the discretion of the Board.

~~H~~. I. The Board shall have the authority to investigate, at its discretion, any voting system certified in Virginia to ensure that it continues to meet the standards outlined in subsections C and D. The Board may, at its discretion, decertify any voting system based on significant problems detected with the voting system in Virginia or on reports provided by federal authorities or other state election officials.

§ 24.2-633. Notice of final testing of voting system; sealing equipment.

Before the final testing of voting or counting ~~equipment~~ machines for any election, the electoral board shall mail written notice (i) to the chairman of the local committee of each political party, or; (ii) in a primary election, to the chairman of the local committee of the political party holding the primary, or (iii) in a city or town council election in which no candidate is a party nominee and which is held when no other election having party nominees is being conducted, to the candidates.

The notice shall state the time and place where the ~~equipment~~ machine will be tested and state that the political party or candidate receiving the notice may have one representative present while the equipment is tested.

At the time stated in the notice, the representatives, if present, shall be afforded an opportunity to see that the equipment is in proper condition for use at the election. When a ~~device~~ machine has been so examined by the representatives, it shall be sealed with a numbered seal in their presence, or; if the ~~device~~ machine cannot be sealed with a numbered seal, it shall be locked with a key. The representatives shall certify ~~as to the numbers of the devices; if mechanical voting devices are used, that all counters are set at zero (000); for each machine~~ the number registered on the protective counter; and the number on the seal. When no party or candidate representative is present, the custodian shall seal the ~~device~~ machine as prescribed in this section in the presence of a member of the electoral board or its representative.

§ 24.2-634. Locking and securing after preparation.

When voting ~~or counting~~ equipment has been properly prepared for an election, it shall be locked against voting and sealed, or; if the ~~device~~ a voting or counting machine cannot be sealed with a numbered seal, it shall be locked with a key. The equipment keys and any electronic activation devices shall be retained in the custody of the electoral board and delivered to the officers of election as provided in § 24.2-639. After the voting equipment has been delivered to the polling places, the electoral board shall provide ample protection against tampering with or damage to the equipment.

§ 24.2-638. Voting equipment to be in plain view; officers and others not permitted to see actual voting; unlocking counter compartment of equipment, etc.

During the election, the exterior of the voting and counting equipment and every part of the polling place shall be in plain view of the officers of election.

No voting or counting ~~equipment~~ *machines* shall be removed from the plain view of the officers of election or from the polling place at any time during the election and through the determination of the vote as provided in § 24.2-657. However, an electronic voting ~~device~~ *machine* that is so constructed as to be easily portable may be taken outside the polling place pursuant to subsection A of § 24.2-649 and to assist a voter age 65 or older or physically disabled so long as: (i) the voting ~~device~~ *machine* remains in the plain view of two officers of election representing two political parties or, in a primary election, two officers of election representing the party conducting the primary, provided that if the use of two officers for this purpose would result in too few officers remaining in the polling place to meet legal requirements, the ~~equipment~~ *machine* shall remain in plain view of one officer who shall be either the chief officer or the assistant chief officer; (ii) the voter casts his ballot in a secret manner unless the voter requests assistance pursuant to § 24.2-649; and (iii) there remain sufficient officers of election in the polling place to meet legal requirements. After the voter has completed voting his ballot, the officer or officers shall immediately return the voting ~~device~~ *machine* to its assigned location inside the polling place. The machine number, the time that the machine was removed and the time that it was returned, the number on the machine's public counter before the machine was removed and the number on the same counter when it was returned, the names of the voters who used the machine while it was removed provided that secrecy of the ballot is maintained in accordance with guidance from the State Board, and the name or names of the officer or officers who accompanied the machine shall be recorded on the statement of results. If a polling place fails to record the information required in the previous sentence, or it is later proven that the information recorded was intentionally falsified, the local electoral board shall dismiss at a minimum the chief officer or the assistant chief officer, or both, as appropriate; and shall dismiss any other officer of election who is shown to have caused the failure to record the required information intentionally or by gross negligence or to have intentionally falsified the information. The dismissed officers shall not be allowed thereafter to serve as an officer or other election official anywhere in the Commonwealth. In the case of an emergency that makes a polling place unusable or inaccessible, voting or counting ~~equipment~~ *machine* may be removed to an alternative polling place pursuant to the provisions of subsection D of § 24.2-310.

The equipment shall be placed at least four feet from any table where an officer of election is working or seated. The officers of election shall not themselves be, or permit any other person to be, in any position or near any position that will permit them to observe how a voter votes or has voted.

One of the officers shall inspect the face of the voting ~~device~~ *machine* after each voter has cast his vote and verify that the ballots on the face of the ~~device~~ *machine* are in their proper places and that the ~~device~~ *machine* has not been damaged. During an election, the door or other covering of the counter compartment of the voting or counting ~~device~~ *machine* shall not be unlocked or open or the counters exposed except for good and sufficient reasons, a statement of which shall be made and signed by the officers of election and attached to the statement of results. No person shall be permitted in or about the polling place except the voting equipment custodian, vendor, or contractor technicians; and other persons authorized by this title.

§ 24.2-639. Duties of officers of election.

The officers of election of each precinct at which voting or counting ~~equipment~~ *machines* ~~is are~~ used shall meet at the polling place by 5:15 a.m. on the day of the election and arrange the equipment, furniture, and other materials for the conduct of the election. The officers of election shall verify that all required equipment, ballots, and other materials have been delivered to them for the election. The officers shall post at least two instruction cards for ~~mechanical or direct recording electronic voting devices~~ *machines* conspicuously within the polling place.

The keys to the equipment and any electronic activation devices that are required for the operation of electronic voting equipment shall be delivered, prior to the opening of the polls, to the officer of election designated by the electoral board in a sealed envelope on which has been written or printed the name of the precinct for which it is intended. The envelope containing the keys and any electronic activation devices shall not be opened until all of the officers of election for the precinct are present at the polling place and have examined the envelope to see that it has not been opened. The equipment shall remain locked against voting until the polls are formally opened and shall not be operated except by voters in voting.

Before opening the polls, each officer shall examine the equipment and see that no vote has been cast and that the counters register zero. The officers shall conduct their examination in the presence of the following party and candidate representatives: one authorized representative of each political party or independent candidate in a general or special election, or one authorized representative of each candidate in a primary election, if such representatives are available. Each authorized representative shall be a qualified voter of any jurisdiction of the Commonwealth. Each representative, who is not himself a candidate or party chairman, shall present to the officers of election a written statement designating him to be a representative of the party or candidate and signed by the county or city chairman of his political party, the independent candidate, or the primary candidate, as appropriate. Such statement, bearing the chairman's or candidate's original signature, may be photocopied and such photocopy shall be as valid as if the copy had been signed.

~~If any counter, other than a protective or private counter, on mechanical voting equipment is found not to register zero, the officers shall make a written statement identifying the counter, together with the number registered on it, and shall sign and post the statement on the wall of the polling room, where it shall remain during the day of election. The officers shall~~

enter a similar statement on the statement of results. In determining the results, they shall subtract such number from the final total registered on that counter. If any counter, other than a protective or private counter, on a ~~mark sense ballot scanner~~ or direct recording electronic ~~voting device machine~~ is found not to register zero, the officers of election shall immediately notify the electoral board which shall, if possible, substitute a ~~device machine~~ in good working order, that has been prepared and tested pursuant to § 24.2-634. No ~~mark sense ballot scanner~~ or direct recording electronic ~~device machine~~ shall be used if any counter, other than a protective or private counter, is found not to register zero.

§ 24.2-641. Sample ballot.

The electoral board shall provide for each precinct in which ~~mechanical voting machines or direct electronic any voting devices or counting machines~~ are used, two sample ballots, which shall be arranged as a diagram of the front of the voting ~~or counting device machine~~ as it will appear with the official ballot for voting on election day. Such sample ballots shall be posted for public inspection at each polling place during the day of election.

§ 24.2-642. Inoperative equipment.

A. When any voting or counting ~~device machine~~ becomes inoperative in whole or in part while the polls are open, the officers of election shall immediately notify the electoral board. If possible, the electoral board shall dispatch a qualified technician to the polling place to repair the inoperative ~~device machine~~. All repairs shall be made in the presence of two officers of election representing the two political parties or, in the case of a primary election for only one party, two officers representing that party. If the ~~device machine~~ cannot be repaired on site, the electoral board shall, if possible, substitute a ~~device machine~~ in good order for the inoperative ~~device, machine~~ and at the close of the polls the record of both ~~devices machines~~ shall be taken, and the votes shown on their counters shall be added together in ascertaining the results of the election.

No voting or counting ~~equipment machines~~, including inoperative ~~equipment machines~~, shall be removed from the plain view of the officers of election or from the polling place at any time during the election and through the determination of the vote as provided in § 24.2-657 except as explicitly provided pursuant to the provisions of this title.

No voting or counting ~~device machine~~ that has become inoperative and contains votes may be removed from the polling place while the polls are open and votes are being ascertained. If the officers of election are unable to ascertain the results from the inoperative ~~device machine~~ after the polls close in order to add its results to the results from the other ~~devices machines~~ in that precinct, the officers of election shall lock and seal the ~~device machine~~ without removing the memory card, cartridge, or data storage medium and deliver the ~~device machine~~ to either the clerk of court or registrar's office as provided for in § 24.2-659. On the day following the election, the electoral board shall meet and ascertain the results from the inoperative ~~device machine~~ in accordance with the procedures prescribed by the ~~device's machine's~~ manufacturer and add the results to the results for the precinct to which the ~~device machine~~ was assigned.

Nothing in this subsection shall prohibit the removal of an inoperative ~~device machine~~ from a precinct prior to the opening of the polls or ~~votes the first vote~~ being cast on that ~~device machine~~. Any ~~device machine~~ so removed shall be placed in the custody of an authorized custodian, technician, or electoral board representative. If the inoperative ~~device machine~~ can be repaired, it shall be retested and resealed pursuant to § 24.2-634 and may be returned to the precinct by an authorized custodian, technician, or electoral board representative. The officers of election shall then open the ~~device machine~~ pursuant to § 24.2-639.

B. In any precinct that uses a ballot that can be ~~marked read~~ without the use of the ~~counting device ballot scanner machine~~, if the ~~counting device ballot scanner machine~~ becomes inoperative and there is no other available ~~counting device scanner~~, the uncounted ballots shall be placed in a ballot container or compartment that is used exclusively for uncounted ballots. If an operative ~~counting device scanner~~ is available in the polling place after the polls have closed, such uncounted ballots shall be removed from the container and fed into the ~~counting device scanner~~, one at a time, by an officer of election in the presence of all persons who may be lawfully present at that time but before the votes are determined pursuant to § 24.2-657. If such ~~device a scanner~~ is not available, the ballots may be counted manually or as directed by the electoral board.

C. ~~¶ An officer of election may have copies of the official paper ballot reprinted or reproduced by photographic, electronic, or mechanical processes for use at the election if~~ (i) the inoperative ~~device machine~~ cannot be repaired in time to continue using it at the election, (ii) a substitute ~~device machine~~ is needed to conduct the election but is not available for use, (iii) the supply of official ~~paper ballots, or other official printed~~ ballots that can be cast without use of the inoperative ~~device, machine~~ is not adequate, and (iv) the local electoral board approves; ~~an officer of election may have copies the reprinting or reproducing of the official paper ballot reprinted or reproduced by photographic, electronic, or mechanical processes for use at the election.~~ The voted ballot copies may be received by the officers of election and placed in the ballot container and counted with the votes registered on the voting or counting ~~devices; machines~~, and the result shall be declared the same as though no ~~device machine~~ has been inoperative. The voted ballot copies shall be deemed official ballots for the purpose of § 24.2-665 and preserved and returned with the statement of results and with a certificate setting forth how and why the same were voted. The officer of election who had the ballot copies made shall provide a written statement of the number of copies made, signed by him and subject to felony penalties for making false statements pursuant to § 24.2-1016, to be preserved with the unused ballot copies.

§ 24.2-645. Defaced printed ballots.

If any ~~paper~~ *printed* ballot is unintentionally or accidentally defaced and rendered unfit for voting, the voter may deliver the defaced ballot to the officer of election and receive another. The returned ballot shall be marked spoiled by the officer of election and placed in the spoiled ballot envelope.

§ 24.2-646. Voter folds paper ballot and hands same to officer who deposits it unopened in ballot container.

The qualified voter shall fold each *paper* ballot with the names of the candidates and questions on the inside and hand the folded ballot to the appropriate officer of election. The officer shall place the ballot in the ballot container without any inspection except to assure himself that only a single ballot has been tendered and that the ballot is a genuine ballot. Without looking at the printed inside of the ballot, the officer may inspect the official seal on the back of the ballot to determine if it is genuine.

§ 24.2-647. Voting systems; demonstration on election day.

The electoral board shall provide at each polling place on election day, for the voting ~~device~~ *system* in use, a model of, or materials displaying, a portion of its ballot face. The model or materials shall be located on the table of one of the officers or in some other place accessible to the voters. An officer of election shall instruct any voter, who requests instruction before voting, on the proper manner of voting. The officer may direct the voter's attention to sample ballots so that the voter may become familiar with the location of questions and names of offices and candidates.

For ~~equipment using ballots inserted in electronic counting devices~~ *ballot scanner machines*, an officer of election, using a demonstration ballot and ~~equipment~~ *machine*, shall show each voter who requests, immediately on entry to the polling place, the manner in which the ballot is to be voted.

If any voter, after entering the voting booth, asks for further instructions concerning the manner of voting, two of the officers, from different political parties shall give such instructions to him, but no officer shall in any manner request, or seek to persuade or induce any such voter to vote for or against any particular ticket, candidate, or question. After giving such instructions and before the voter votes, the officers shall leave the voting booth, and the voter shall cast his ballot in secret.

§ 24.2-648. Write-in votes on voting equipment.

Write-in votes may be cast on voting equipment for any person whose name does not appear on the ballot as a candidate for the office being voted, subject to this section and the provisions of § 24.2-644 not in conflict with this section.

Each write-in vote shall be entered in the receptacle or area designated on the ~~device~~ *machine* for the office being elected. A write-in vote shall be cast in its appropriate place, in accordance with the instructions for that equipment, or it shall be void and not counted.

Except on ~~devices which~~ *machines that* provide a means to enter a name electronically, each write-in vote shall be entered by the voter in his own handwriting or hand printing.

§ 24.2-649. Assistance for certain voters; penalties.

A. Any voter age 65 or older or physically disabled may request and then shall be handed a ~~paper ballot or a mark sense~~ *printed* ballot by an officer of election outside the polling place but within 150 feet of the entrance to the polling place. The voter shall mark the ~~paper~~ *printed* ballot in the officer's presence but in a secret manner and ~~fold and, obscuring his vote,~~ return the ballot to the officer. The officer shall immediately return to the polling place and ~~shall deposit the a paper~~ ballot in the ballot container in accordance with § 24.2-646. ~~The voter shall mark the mark sense ballot in the officer's presence but in a secret manner and cover and return the ballot to the officer who shall immediately return to the polling place and deposit the ballot in the ballot counter or a machine-readable ballot in the ballot scanner machine~~ in accordance with the instructions of the State Board.

Any county or city that has acquired an electronic voting ~~device~~ *machine* that is so constructed as to be easily portable may use the voting ~~device~~ *machine* in lieu of a ~~paper or mark sense~~ *printed* ballot for the voter requiring assistance pursuant to this subsection. However, the electronic voting ~~device~~ *machine* may be used in lieu of a ~~paper~~ *printed* ballot only so long as: (i) the voting ~~device~~ *machine* remains in the plain view of two officers of election representing two political parties, or, in a primary election, two officers of election representing the party conducting the primary, provided that if the use of two officers for this purpose would result in too few officers remaining in the polling place to meet legal requirements, the ~~equipment~~ *voting machine* shall remain in plain view of one officer who shall be either the chief officer or the assistant chief officer; and (ii) the voter casts his ballot in a secret manner unless the voter requests assistance pursuant to this section. After the voter has completed voting his ballot, the officer or officers shall immediately return the voting ~~device~~ *machine* to its assigned location inside the polling place. The machine number, the time that the machine was removed and the time that it was returned, the number on the machine's public counter before the machine was removed and the number on the same counter when it was returned, and the name or names of the officer or officers who accompanied the machine shall be recorded on the statement of results.

B. Any qualified voter, who requires assistance to vote by reason of physical disability or inability to read or write, may, if he so requests, be assisted in voting. If he is blind, he may designate an officer of election or any other person to assist him. If he is unable to read and write or disabled for any cause other than blindness, he may designate an officer of election or some other person to assist him other than the voter's employer or agent of that employer, or officer or agent of the voter's union.

The officer of election or other person so designated shall not enter the booth with the voter unless (i) the voter signs a request stating that he requires assistance by reason of physical disability or inability to read or write and (ii) the officer of election or other person signs a statement that he is not the voter's employer or an agent of that employer, or an officer or

agent of the voter's union, and that he will act in accordance with the requirements of this section. The request and statement shall be on a single form furnished by the State Board. If the voter is unable to sign the request, his own mark acknowledged by him before an officer of election shall be sufficient signature, provided no mark shall be required of a voter who is blind. An officer of election shall advise the voter and person assisting the voter of the requirements of this section and record the name of the voter and the name and address of the person assisting him.

The officer of election or other person so designated shall assist the qualified voter in the preparation of his ballot in accordance with his instructions and without soliciting his vote or in any manner attempting to influence his vote and shall not in any manner divulge or indicate, by signs or otherwise, how the voter voted on any office or question. If a ~~paper ballot or a mark sense~~ *printed* ballot is used, the officer or other person so designated shall deposit the ballot in the ballot container in accordance with § 24.2-646 *or in the ballot scanner machine in accordance with the instructions of the State Board.*

C. If the voter requires assistance in a language other than English and has not designated a person to assist him, an officer of election, before he assists as interpreter, shall inquire of the representatives authorized to be present pursuant to § 24.2-604 whether they have a volunteer available who can interpret for the voter. One representative interpreter for each party or candidate, insofar as available, shall be permitted to observe the officer of election communicate with the voter. The voter may designate one of the volunteer party or candidate interpreters to provide assistance. A person so designated by the voter shall meet all the requirements of this section for a person providing assistance.

D. A person who willfully violates subsection B or C ~~shall be~~ *is* guilty of a Class 1 misdemeanor. In addition, the provisions of § 24.2-1016 and its felony penalties for false statements shall be applicable to any request or statement signed pursuant to this section, and the provisions of §§ 24.2-704 and 24.2-1012 and the felony penalties for violations of the law related to providing assistance to absentee voters shall be applicable in such cases.

E. In any precinct in which an electronic voting ~~device~~ *machine* is available that provides an audio ballot, the officers of election shall notify a voter requiring assistance pursuant to this ~~subsection~~ *section* that such ~~equipment~~ *machine* is available for him to use to vote in privacy without assistance and the officers of election shall instruct the voter on the use of the voting ~~equipment~~ *machine*. Nothing in this ~~subsection~~ *section* shall be construed to require a voter to use the ~~equipment~~ *machine* unassisted.

§ 24.2-653. Voter whose name does not appear on pollbook or who is marked as having voted; handling of provisional ballots; ballots cast after normal close of polls due to court order extending polling hours.

A. When a person offers to vote pursuant to § 24.2-652 and the general registrar is not available or cannot state that the person is registered to vote, then such person shall be allowed to vote by ~~paper~~ *printed* ballot in the manner provided in this section. This procedure shall also apply when required by § 24.2-643 or 24.2-651.1.

Such person shall be given a ~~paper~~ *printed* ballot and provide, subject to the penalties for making false statements pursuant to § 24.2-1016, on a green envelope supplied by the State Board, the identifying information required on the envelope, including *the last four digits* of his social security number, if any, full name including the maiden or any other prior legal name, date of birth, complete address, and signature. Such person shall be asked to present one of the forms of identification specified in subsection B of § 24.2-643. The officers of election shall note on the green envelope whether or not the voter has presented one of the specified forms of identification. The officers of election shall enter the appropriate information for the person in the precinct provisional ballots log in accordance with the instructions of the State Board but shall not enter a consecutive number for the voter on the pollbook nor otherwise mark his name as having voted. The officers of election shall provide an application for registration to the person offering to vote in the manner provided in this section.

The voter shall then, in the presence of an officer of election, but in a secret manner, mark the *printed* ballot as provided in § 24.2-644 and seal it in the green envelope. The envelope containing the ballot shall then promptly be placed in the ballot container by an officer of election.

An officer of election, by a written notice given to the voter, shall (i) inform him that a determination of his right to vote shall be made by the electoral board, (ii) advise the voter of the beginning time and place for the board's meeting and of the voter's right to be present at that meeting, and (iii) inform a voter voting provisionally when required by § 24.2-643 that he may submit a copy of one of the forms of identification specified in subsection B of § 24.2-643 to the electoral board by facsimile, electronic mail, in-person submission, or timely United States Postal Service or commercial mail delivery, to be received by the electoral board no later than noon on the third day after the election. At the meeting, the voter may request an extension of the determination of the provisional vote to the following day in order to provide information to prove that the voter is entitled to vote in the precinct pursuant to § 24.2-401. The electoral board shall have the authority to grant such extensions which it deems reasonable to determine the status of a provisional vote.

B. The provisional votes submitted pursuant to subsection A, in their unopened envelopes, shall be sealed in a special envelope marked "Provisional Votes," inscribed with the number of envelopes contained therein, and signed by the officers of election who counted them. All provisional votes envelopes shall be delivered either (i) to the clerk of the circuit court who shall deliver all such envelopes to the secretary of the electoral board or (ii) to the general registrar in localities in which the electoral board has directed delivery of election materials to the general registrar pursuant to § 24.2-668.

The electoral board shall meet on the day following the election and determine whether each person having submitted such a provisional vote was entitled to do so as a qualified voter in the precinct in which he offered the provisional vote. If the board is unable to determine the validity of all the provisional ballots offered in the election, or has granted any voter who has offered a provisional ballot an extension to the following day as provided in subsection A, the meeting shall stand

adjourned from day to day, not to exceed seven calendar days from the date of the election, until the board has determined the validity of all provisional ballots offered in the election.

One authorized representative of each political party or independent candidate in a general or special election or one authorized representative of each candidate in a primary election shall be permitted to remain in the room in which the determination is being made as an observer so long as he does not participate in the proceedings and does not impede the orderly conduct of the determination. Each authorized representative shall be a qualified voter of any jurisdiction of the Commonwealth. Each representative, who is not himself a candidate or party chairman, shall present to the electoral board a written statement designating him to be a representative of the party or candidate and signed by the county or city chairman of his political party, the independent candidate, or the primary candidate, as appropriate. Such statement, bearing the chairman's or candidate's original signature, may be photocopied and such photocopy shall be as valid as if the copy had been signed.

Notwithstanding the provisions of the Virginia Freedom of Information Act (§ 2.2-3700 et seq.), attendance at meetings of the electoral board to determine the validity of provisional ballots shall be permitted only for the authorized representatives provided for in this subsection, for the persons whose provisional votes are being considered and their representative or legal counsel, and for appropriate staff and legal counsel for the electoral board.

If the electoral board determines that such person was not entitled to vote as a qualified voter in the precinct in which he offered the provisional vote, is unable to determine his right to vote, or has not been provided one of the forms of identification specified in subsection B of § 24.2-643, the envelope containing his ballot shall not be opened and his vote shall not be counted. The provisional vote shall be counted if (a) such person is entitled to vote in the precinct pursuant to § 24.2-401 or (b) the State Board or the voter presents proof that indicates the voter submitted an application for registration to the Department of Motor Vehicles or other state-designated voter registration agency prior to the close of registration pursuant to § 24.2-416 and the registrar determines that the person was qualified for registration based upon the application for registration submitted by the person pursuant to subsection A. The general registrar shall notify in writing pursuant to § 24.2-114 those persons found not properly registered or whose provisional vote was not counted.

If the electoral board determines that such person was entitled to vote, the name of the voter shall be entered in a provisional votes pollbook and marked as having voted, the envelope shall be opened, and the ballot placed in a ballot container without any inspection further than that provided for in § 24.2-646.

On completion of its determination, the electoral board shall proceed to count such ballots and certify the results of its count. Its certified results shall be added to those found pursuant to § 24.2-671. No adjustment shall be made to the statement of results for the precinct in which the person offered to vote.

The certification of the results of the count together with all ballots and envelopes, whether open or unopened, and other related material shall be delivered by the electoral board to the clerk of the circuit court and retained by him as provided for in §§ 24.2-668 and 24.2-669.

C. Whenever the polling hours are extended by an order of a court of competent jurisdiction, any ballots marked after the normal polling hours by persons who were not already in line at the time the polls would have closed, notwithstanding the court order, shall be treated as provisional ballots under this section. The officers of election shall mark the green envelope for each such provisional ballot to indicate that it was cast after normal polling hours due to the court order, and when preparing the materials to deliver to the registrar or electoral board, shall separate these provisional ballots from any provisional ballots used for any other reason. The electoral board shall treat these provisional ballots as provided in subsection B; however, the counted and uncounted provisional ballots marked after the normal polling hours shall be kept separate from all other ballots and recorded in a separate provisional ballots pollbook. The State Board of Elections shall provide instructions to the electoral boards for the handling and counting of such provisional ballots pursuant to this section.

§ 24.2-653.1. Voters who did not receive absentee ballots; provisional ballots.

A. The provisions of this section shall apply when (i) a person offers to vote pursuant to § 24.2-643 at his proper polling place or at a central absentee voter precinct established by the governing body of the county or city where he is registered to vote, (ii) his name is shown on the pollbook as having applied for an absentee ballot, and (iii) for any reason he did not receive or has lost the absentee ballot. In such case, he shall be entitled to cast a provisional ballot after presenting to the officer of election a statement signed by him that he did not receive the ballot or has lost the ballot, subject to felony penalties for making false statements as pursuant to § 24.2-1016.

B. Such person shall be given a ~~paper~~ printed ballot and be permitted to vote the provisional ballot in accordance with the provisions of § 24.2-653 and the instructions of the State Board. The electoral board shall process the ballot in accordance with the provisions of § 24.2-653 and the instructions of the State Board.

§ 24.2-654. Officers to lock and seal voting equipment and ascertain vote after polls closed; statement of results.

As soon as the polls are closed, the officers of election shall lock each voting and counting ~~device~~ machine against further voting. They shall then proceed to ascertain the vote given at the election and continue without adjournment until they declare the results of the election. They shall seal the ~~devices~~ machines.

In ascertaining the vote, the officers of election shall complete a statement of results in duplicate on the form and in the manner prescribed by the State Board.

§ 24.2-657. Determination of vote on voting systems.

In the presence of all persons who may be present lawfully at the time, giving full view of the voting ~~equipment and counters~~ systems or printed return sheets, the officers of election shall determine and announce the results as shown by the

counters or printed return sheets, including the votes recorded for each office on the write-in ballots, and shall also announce the vote on every question. The vote as registered shall be entered on the statement of results. When completed, the statement shall be compared with the number on the counters on the equipment or on the printed return sheets. If, on ~~all mechanical or direct recording~~ electronic ~~voting devices machines~~, the number of persons voting in the election, or the number of votes cast for any office or on any question, totals more than the number of names on the pollbooks of persons voting on the ~~devices machines~~, then the figures recorded by the ~~devices machines~~ shall be accepted as correct. A statement to that effect shall be entered by the officers of election in the space provided on the statement of results.

§ 24.2-658. Machines with printed return sheets; disposition of sheets.

If ~~devices machines~~ that print returns are used, the printed inspection sheet and two copies of the printed return sheet containing the results of the election for each ~~device machine~~ shall be inserted in the envelope containing the ~~pollbooks statement of results~~ by the officers of election and sealed and returned as required by § 24.2-668.

The printed inspection sheets and one copy of the printed return sheets shall be kept with the ~~pollbooks statement of results~~ and preserved as provided in § 24.2-669.

One copy of the printed return sheets shall be made available by the clerk of the circuit court on the day following the election and for ~~sixty 60~~ additional days for inspection and transcribing information therefrom by the public.

§ 24.2-659. Locking voting and counting machines after election and delivering keys to clerk; printed returns as evidence.

A. If the voting or counting ~~device machine~~ is secured by the use of equipment keys, after the officers of election lock and seal each ~~voting and counting device machine~~, the equipment keys shall be enclosed in an envelope ~~which that~~ shall be sealed and have endorsed thereon a certificate of an officer of election stating the election precinct, the number of each ~~device machine~~, the number on the seal, and the number of the protective counter, if one, on the ~~device machine~~. The sealed envelope shall be delivered by one of the officers of the election to the clerk of the circuit court where the election was held. The custodians of the voting equipment shall enclose and seal in an envelope, properly endorsed, all other keys to all voting equipment in their jurisdictions and deliver the envelope to the clerk of the circuit court by noon on the day following the election. If the voting or counting ~~devices machines~~ are secured by the use of equipment keys or electronic activation devices that are not specific to a particular ~~device machine~~, after the officers of election lock and seal each ~~voting and counting device machine~~, the equipment keys and electronic activation devices shall be enclosed in an envelope that shall be sealed and have endorsed thereon a certificate of an officer of election stating the election precinct. The sealed envelope shall be delivered by one of the officers of election to the clerk of the circuit court where the election was held.

If the voting or counting ~~device machine~~ is secured by removal of the ~~memory card, cartridge, or other data storage medium device~~ used in that election, the officers shall remove the ~~memory card, cartridge, or other data storage medium device~~ and proceed to lock and seal each ~~voting and counting device machine~~. The ~~memory card, cartridge, or other data storage medium device~~ shall be enclosed in an envelope that shall be sealed and have endorsed thereon a certificate of an officer of election stating the election precinct, the number of each ~~device machine~~, the number on the seal, and the number of the protective counter, if one, on the ~~device machine~~. The sealed envelope shall be delivered by one of the officers of election to the clerk of the circuit court where the election was held. The equipment keys used at the polls shall be sealed in a different envelope and delivered to the clerk who shall release them to the electoral board upon request or at the expiration of the time specified by this section.

If the voting or counting ~~device machine~~ provides for the creation of a separate master electronic back-up on a ~~memory card, cartridge, or other data storage medium device~~ that combines the data for all of the voting ~~devices or counting machines~~ in a given precinct, that data storage ~~medium device~~ shall be enclosed in an envelope that shall be sealed and have endorsed thereon a certificate of an officer of election stating the name of the precinct. The sealed envelope shall be delivered by one of the officers of election to the clerk of the circuit court where the election was held. The ~~memory cards or data storage medium device~~ for the individual ~~devices machines~~ may remain sealed in its individual ~~device machine~~ until the expiration of the time specified by this section. The equipment keys and the electronic activation devices used at the polls shall be sealed together in a separate envelope and delivered to the clerk who shall release them to the electoral board upon request or at the expiration of the time specified by this section.

The voting and counting ~~devices machines~~ shall remain locked and sealed until the deadline to request a recount under Chapter 8 (§ 24.2-800 et seq.) has passed and, if any contest or recount is pending thereafter, until it has been concluded. The ~~devices machines~~ shall be opened and all data examined only (i) on the order of a court of competent jurisdiction or (ii) on the request of an authorized representative of the State Board or the electoral board at the direction of the State Board in order to ensure the accuracy of the returns. In the event that ~~devices machines~~ are examined under clause (ii) of this paragraph, each political party and each independent candidate on the ballot, or each primary candidate, shall be entitled to have a representative present during such examination. The representatives and observers lawfully present shall be prohibited from interfering with the officers of election in any way. The State Board or local electoral board shall provide such parties and candidates reasonable advance notice of the examination.

When recounts occur in precincts using ~~mechanical or direct recording~~ electronic ~~voting devices machines~~ with printed return sheets, the printed return sheets delivered to the clerk may be used as the official evidence of the results.

When the required time has expired, the clerk of the circuit court shall return all voting equipment keys to the electoral board.

B. The local electoral board may direct that the officers of election and custodians, in lieu of conveying the sealed equipment keys to the clerk of the circuit court as provided in subsection A of this section, shall convey them to the principal office of the general registrar on the night of the election. The general registrar shall secure and retain the sealed equipment keys and any other electronic locking or activation devices in his office and shall convey them to the clerk of the court by noon of the day following the ascertainment of the results of the election by the electoral board.

§ 24.2-663. When ballot void.

If a ~~paper printed ballot or a ballot that is inserted into an electronic counting device~~ is found to have been voted for a greater number of names for any one office than the number of persons required to fill the office, or if the title of the office is erased, the ballot shall be considered void as to all the names designated to fill such office, but no further, and the ballot shall be counted for the other offices on the ballot. In the case of ~~an electronic counting device~~ a *ballot scanner machine*, an election official is authorized to cause the ~~counting device~~ *ballot scanner* to receive the ballot and count it in accordance with this section. No ballot shall be void for having been voted for fewer names than authorized.

If any person votes, either in person or absentee, more than one time in an election, all ballots received from such person shall be void and, if possible, not counted. If one such ballot has already been cast, any additional ballots received from such person shall be void and not counted.

§ 24.2-671.1. Audits of ballot scanner machines.

A. The State Board shall be authorized to ~~provide for pilot programs~~ *conduct a post-election audit of one or more ballot scanner machines in one or more precincts* in one or more localities with respect to an election in which the margin between the top two candidates for each office on the ballot exceeds 10 percent, with the consent of the electoral board of the locality; ~~to conduct a post-election audit of one or more optical scan tabulators in one or more precincts, notwithstanding any other provision of law to the contrary. The purposes of the pilot programs audits shall be to study the accuracy of optical scan tabulators; to evaluate the time, cost, and accuracy of audits; and to determine proper procedures for conducting audits. A pilot program may audit any combination of randomly selected or specific tabulators~~ *ballot scanner machines*.

B. No audit ~~conducted as part of a pilot program~~ shall commence until after the election has been certified and the period to initiate a recount has expired without the initiation of a recount, *unless such audit is being conducted as part of a voting system certification*. An audit ~~conducted as part of a pilot program~~ shall have no effect on the election results.

C. All audits shall be performed in accordance with the procedures prescribed by the State Board under the supervision of the local electoral board. The procedures established by the State Board shall include its procedures for conducting hand counts of ballots. Candidates and political parties may have representatives observe the audits.

D. At the conclusion of each audit, the local electoral board shall announce publicly the results of the audit of the machines in its jurisdiction. The announcement shall include a comparison of the audited election results and the initial tally for each machine audited, and an analysis of any detected discrepancies.

§ 24.2-712. Central absentee voter precincts; counting ballots.

A. Notwithstanding any other provision of law, the governing body of each county or city may establish one or more central absentee voter precincts in the courthouse or other public buildings for the purpose of receiving, counting, and recording absentee ballots cast in the county or city. The decision to establish any absentee voter precinct shall be made by the governing body by ordinance; the ordinance shall state for which elections the precinct shall be used. The decision to abolish any absentee voter precinct shall be made by the governing body by ordinance. Immediate notification of either decision shall be sent to the State Board and the electoral board.

B. Each central absentee voter precinct shall have at least three officers of election as provided for other precincts. The number of officers shall be determined by the electoral board.

C. If any voter brings an unmarked ballot to the central absentee voter precinct on the day of the election, he shall be allowed to vote it. If any voter brings an unmarked ballot to the electoral board on or before the day of the election, he shall be allowed to vote it, and his ballot shall be delivered to the absentee voter precinct pursuant to § 24.2-710.

The officers at the absentee voter precinct shall determine any appeal by any other voter whose name appears on the absentee voter applicant list and who offers to vote in person. If the officers at the absentee voter precinct produce records showing the receipt of his application and the certificate of mailing for the ballot, they shall deny his appeal. If the officers cannot produce such records, the voter shall be allowed to vote in person at the absentee voter precinct and have his vote counted with other absentee votes. If the voter's appeal is denied, the provisions of § 24.2-708 shall be applicable, and the officers shall advise the voter that he may vote on presentation of a statement signed by him that he has not received an absentee ballot and subject to felony penalties for making false statements pursuant to § 24.2-1016.

D. Absentee ballots may be processed as required by § 24.2-711 by the officers of election at the central absentee voter precinct prior to the closing of the polls but the ballot container shall not be opened and the counting of ballots shall not begin prior to that time. In the case of ~~punch card or mark sense machine-readable ballots to be inserted in electronic counting equipment~~, the ballot container may be opened and the absentee ballots may be inserted in the counting ~~equipment~~ *machines* prior to the closing of the polls in accordance with procedures prescribed by the State Board, including procedures to preserve ballot secrecy, but no ballot count totals shall be initiated prior to that time.

As soon as the polls are closed in the county or city the officers of election at the central absentee voter precinct shall proceed promptly to ascertain and record the vote given by absentee ballot and report the results in the manner provided for counting and reporting ballots generally in Article 4 (§ 24.2-643 et seq.) of Chapter 6.

E. The electoral board may provide that the officers of election for a central absentee voter precinct may be assigned to work all or a portion of the time that the precinct is open on election day subject to the following conditions:

1. The chief officer and the assistant chief officer, appointed pursuant to § 24.2-115 to represent the two political parties, are on duty at all times; and

2. No officer, political party representative, or other candidate representative shall leave the precinct after any ballots have been counted until the polls are closed and the count for the precinct is completed and reported.

F. The electoral board, with the written agreement of the general registrar, may provide that the central absentee voter precinct will open after 6:00 a.m. and at any time before noon on the day of the election provided that the office of the general registrar will be open for the receipt of absentee ballots until the central absentee voter precinct is open and that the officers of election for the central absentee voter precinct obtain the absentee ballots returned to the general registrar's office for the purpose of counting the absentee ballots at the central absentee voter precinct and provided further that the central absentee voter precinct is the same location as the office of the general registrar.

§ 24.2-801. Petition for recount; recount court.

The petition for a recount of an election, other than an election for presidential electors, shall be filed within 10 days from the day the State Board or the electoral board certifies the result of the election under § 24.2-679 or § 24.2-671, but not thereafter. The petition shall be filed in the Circuit Court of the City of Richmond in the case of any statewide office and in the circuit court of the county or city in which the candidate being challenged resides in the case of any other office. The petition shall be filed in the Circuit Court of the City of Richmond in the case of any statewide referendum and in the circuit court of any county or city comprising a part of the election district in the case of any other referendum.

The petition shall set forth the results certified by the Board or electoral board and shall request the court to have the ballots in the election recounted or, in the case of ~~mechanical or direct recording~~ electronic ~~voting devices~~ *machines*, the vote redetermined.

In an election for office, a copy of the petition shall be served on the candidate apparently nominated or elected as provided under § 8.01-296 and within 10 days after the Board or electoral board has certified the results of such election. In a referendum, a copy of the petition shall be so served on the governing body or chief executive officer of the jurisdiction in which the election was held.

The chief judge of the circuit court in which a petition is filed shall promptly notify the Chief Justice of the Supreme Court of Virginia, who shall designate two other judges to sit with the chief judge, and the court shall be constituted and sit in all respects as a court appointed and sitting under §§ 24.2-805 and 24.2-806.

§ 24.2-801.1. Petition for recount of election for presidential electors; recount court.

The petition for a recount of an election for presidential electors shall be filed no later than 5:00 p.m. on the second calendar day after the day the State Board certifies the result of the election under § 24.2-679, but not thereafter. Presidential candidates who anticipate the possibility of asking for a recount are encouraged to so notify the State Board by letter as soon as possible after election day. The petition shall be filed in the Circuit Court of the City of Richmond. If any presidential candidate is eligible to seek a recount of the results of the election for presidential electors under § 24.2-800 the State Board shall, within 24 hours of the certification of the results, notify the Circuit Court of the City of Richmond and the Supreme Court of Virginia (i) that a recount is possible, (ii) which presidential candidate is eligible to seek a recount, and (iii) of the date the results were certified. The Circuit Court of the City of Richmond shall make arrangements to receive any such filing if the office would normally be closed the entire day, or prior to 5:00 p.m., on the second calendar day after the day the State Board certified the result of the election.

The petition shall set forth the results certified by the Board and shall request the court to have the ballots in the election recounted or, in the case of ~~mechanical or direct recording~~ electronic ~~voting devices~~ *machines*, the vote redetermined.

A copy of the petition shall be served on the presidential candidate whose electors were apparently elected as provided under § 8.01-296 and within five calendar days after the Board has certified the results of such election.

As soon as a petition is filed, the chief judge of the Circuit Court shall promptly notify the Chief Justice of the Supreme Court of Virginia, who shall designate two other judges to sit with the chief judge, and the court shall be constituted and sit in all respects as a court appointed and sitting under § 24.2-805.

Any recount of an election for presidential electors shall be held promptly and completed, in accordance with the provisions of 3 U.S.C. § 5, at least six days before the time fixed for the meeting of the electors.

§ 24.2-802. Procedure for recount.

A. The State Board of Elections shall promulgate standards for (i) the proper handling and security of voting and counting ~~devices~~ *machines*, ballots, and other materials required for a recount, (ii) accurate determination of votes based upon objective evidence and taking into account the counting ~~device~~ *machine* and form of ballots approved for use in the Commonwealth, and (iii) any other matters that will promote a timely and accurate resolution of the recount. The chief judge of the circuit court or the full recount court may, consistent with State Board of Elections standards, resolve disputes over the application of the standards and direct all other appropriate measures to ensure the proper conduct of the recount.

The recount procedures to be followed throughout the election district shall be as uniform as practicable, taking into account the types of ballots and voting ~~devices~~ *and counting machines* in use in the election district.

In preparation for the recount, the clerks of the circuit courts shall (a) secure all ~~paper printed~~ ballots and other election materials in sealed boxes; (b) place all of the sealed boxes in a vault or room not open to the public or to anyone other than

the clerk and his staff; (c) cause such vault or room to be securely locked except when access is necessary for the clerk and his staff; and (d) certify that these security measures have been taken in whatever form is deemed appropriate by the chief judge.

B. Within seven calendar days of the filing of the petition for a recount of any election other than an election for presidential electors, or within five calendar days of the filing of a petition for a recount of an election for presidential electors, the chief judge of the circuit court shall call a preliminary hearing at which (i) motions may be disposed of and (ii) the rules of procedure may be fixed, both subject to review by the full court. As part of the preliminary hearing, the chief judge may permit the petitioner and his counsel, together with each other party and his counsel and at least two members of the electoral board and the custodians, to examine any direct *recording* electronic ~~voting device~~ *machine* of the type that prints returns when the print-out sheets are not clearly legible. The petitioner and his counsel and each other party and their counsel under supervision of the electoral board and its agents shall also have access to pollbooks and other materials used in the election for examination purposes, provided that individual ballots cast in the election shall not be examined at the preliminary hearing. The chief judge during the preliminary hearing shall review all security measures taken for all ballots and voting ~~devices and counting machines~~ and direct, as he deems necessary, all appropriate measures to ensure proper security to conduct the recount.

The chief judge, subject to review by the full court, may set the place or places for the recount and may order the delivery of election materials to a central location and the transportation of voting ~~devices and counting machines~~ to a central location in each county or city under appropriate safeguards.

After the full court is appointed under § 24.2-801 or 24.2-801.1, it shall call a hearing at which all motions shall be disposed of and the rules of procedure shall be fixed finally. The court shall call for the advice and cooperation of the State Board or any local electoral board, as appropriate, and such boards shall have the duty and authority to assist the court. The court shall fix procedures that shall provide for the accurate determination of votes in the election.

The determination of the votes in a recount shall be based on votes cast in the election and shall not take into account (a) any absentee ballots or provisional ballots sought to be cast but ruled invalid and not cast in the election, (b) ballots cast only for administrative or test purposes and voided by the officers of election, or (c) ballots spoiled by a voter and replaced with a new ballot.

The eligibility of any voter to have voted shall not be an issue in a recount. Commencing upon the filing of the recount, nothing shall prevent the discovery or disclosure of any evidence that could be used pursuant to § 24.2-803 in contesting the results of an election.

C. The court shall permit each candidate, or petitioner and governing body or chief executive officer, to select an equal number of the officers of election to be recount officials and to count *printed* ballots, or in the case of direct *recording* electronic ~~voting devices~~ *machines*, to redetermine the vote. The number shall be fixed by the court and be sufficient to conduct the recount within a reasonable period. The court may permit each party to the recount to submit a list of alternate officials in the number the court directs. There shall be at least one team of recount officials to recount ~~paper printed~~ ballots and to redetermine the vote cast on direct *recording* electronic ~~devices~~ *machines* of the type that prints returns for the election district at large in which the recount is being held. There shall be at least one team from each locality using ~~electronic counting devices~~ *ballot scanner machines* to insert the ballots into one or more ~~counting devices~~ *scanners*. The ~~counting devices~~ *ballot scanner machines* shall be programmed to count only votes cast for parties to the recount or for or against the question in a referendum recount. Each team shall be composed of one representative of each party.

The court may provide that if, at the time of the recount, any recount official fails to appear, the remaining recount officials present shall appoint substitute recount officials who shall possess the same qualifications as the recount officials for whom they substitute. The court may select pairs of recount coordinators to serve for each county or city in the election district who shall be members of the county or city electoral board and represent different political parties. The court shall have authority to summon such officials and coordinators. On the request of any party to the recount, the court shall allow that party to appoint one representative observer for each team of recount officials. The representative observers shall have an unobstructed view of the work of the recount officials. The expenses of its representatives shall be borne by each party.

D. The court (i) shall supervise the recount and (ii) may require delivery of any or all pollbooks used and any or all ballots cast at the election, or may assume supervision thereof through the recount coordinators and officials.

The redetermination of the vote in a recount shall be conducted as follows:

1. For paper ballots, the recount officials shall hand count the *paper* ballots using the standards promulgated by the State Board pursuant to subsection A.

2. For direct recording electronic machines (DREs), the recount officials shall open the envelopes with the printouts and read the results from the printouts. If the printout is not clear, or on the request of the court, the recount officials shall rerun the printout from the machine or examine the counters as appropriate.

3. For ~~optical scan tabulators~~ *ballot scanner machines*, the recount officials shall rerun all the *machine-readable* ballots through a ~~tabulator scanner~~ programmed to count only the votes for the office or issue in question in the recount and to set aside all ballots containing write-in votes, overvotes, and undervotes. The ballots that are set aside, any ballots not accepted by the ~~tabulator scanner~~, and any ballots for which a ~~tabulator scanner~~ could not be programmed to meet the programming requirements of this subdivision, shall be hand counted using the standards promulgated by the State Board pursuant to subsection A. If the total number of ~~paper machine-readable~~ ballots reported as counted by the ~~tabulator scanner~~ plus the total number of ballots set aside by the ~~tabulator scanner~~ do not equal the total number of ballots rerun through the ~~tabulator~~

scanner, then all ballots cast on ~~optical scan equipment~~ *ballot scanner machines* for that precinct shall be set aside to be counted by hand using the standards promulgated by the State Board pursuant to subsection A. Prior to running the *machine-readable* ballots through the ~~tabulator~~ *ballot scanner machine*, the recount officials shall ensure that logic and accuracy tests have been successfully performed on each ~~tabulator~~ *scanner* after the ~~tabulator~~ *scanner* has been programmed. The result calculated for ballots accepted by the ~~tabulator~~ *ballot scanner machine* during the recount shall be considered the correct determination for those *machine-readable* ballots unless the court finds sufficient cause to rule otherwise.

There shall be only one redetermination of the vote in each precinct.

At the conclusion of the recount of each precinct, the recount officials shall write down the number of valid ballots cast, this number being obtained from the ballots cast in the precinct, or from the ballots cast as shown on the statement of results if the ballots cannot be found, for each of the two candidates or for and against the question. They shall submit the ballots or the statement of results used, as to the validity of which questions exist, to the court. The written statement of any one recount official challenging a ballot shall be sufficient to require its submission to the court. If, on all direct *recording electronic voting devices machines*, the number of persons voting in the election, or the number of votes cast for the office or on the question, totals more than the number of names on the pollbooks of persons voting on the ~~devices~~ *voting machines*, the figures recorded by the ~~devices~~ *machines* shall be accepted as correct.

At the conclusion of the recount of all precincts, after allowing the parties to inspect the questioned ballots, and after hearing arguments, the court shall rule on the validity of all questioned ballots and votes. After determining all matters pertaining to the recount and redetermination of the vote as raised by the parties, the court shall certify to the State Board and the electoral board or boards (a) the vote for each party to the recount and declare the person who received the higher number of votes to be nominated or elected, as appropriate, or (b) the votes for and against the question and declare the outcome of the referendum. The State Board shall post on the Internet any and all changes made during the recount to the results as previously certified by it pursuant to § 24.2-679.

E. Costs of the recount shall be assessed against the counties and cities comprising the election district when (i) the candidate petitioning for the recount is declared the winner; (ii) the petitioners in a recount of a referendum win the recount; or (iii) there was between the candidate apparently nominated or elected and the candidate petitioning for the recount a difference of not more than one-half of one percent of the total vote cast for the two such candidates as determined by the State Board or electoral board prior to the recount. Otherwise the costs of the recount shall be assessed against the candidate petitioning for the recount or the petitioners in a recount of a referendum. If more than one candidate petitions for a recount, the court may assess costs in an equitable manner between the counties and cities and any such candidate if both are liable for costs under this subsection. Costs incurred to date shall be assessed against any candidate or petitioner who defaults or withdraws his petition.

F. The court shall determine the costs of the recount subject to the following limitations: (i) no per diem payment shall be assessed for salaried election officials; (ii) no per diem payment to officers of election serving as recount officials shall exceed two-thirds of the per diem paid such officers by the county or city for service on election day; and (iii) per diem payments to alternates shall be allowed only if they serve.

G. Any petitioner who may be assessed with costs under subsection E shall post a bond with surety with the court in the amount of \$10 per precinct in the area subject to recount. If the petitioner wins the recount, the bond shall not be forfeit. If the petitioner loses the recount, the bond shall be forfeit only to the extent of the assessed costs. If the assessed costs exceed the bond, he shall be liable for such excess.

H. The recount proceeding shall be final and not subject to appeal.

I. For the purposes of this section:

"Overvote" means a ballot on which a voter casts a vote for a greater number of candidates or positions than the number for which he was lawfully entitled to vote and no vote shall be counted with respect to that office or issue.

"Undervote" means a ballot on which a voter casts a vote for a lesser number of candidates or positions than the number for which he was lawfully entitled to vote.

2. That §§ 24.2-628 and 24.2-640 of the Code of Virginia are repealed.

3. That an emergency exists and this act is in force from its passage.

CHAPTER 541

An Act to amend and reenact § 56-585.1 of the Code of Virginia, relating to electric utility regulation; recovery of nuclear costs.

[S 459]

Approved April 3, 2014

Be it enacted by the General Assembly of Virginia:

1. That § 56-585.1 of the Code of Virginia is amended and reenacted as follows:

§ 56-585.1. Generation, distribution, and transmission rates after capped rates terminate or expire.

A. During the first six months of 2009, the Commission shall, after notice and opportunity for hearing, initiate proceedings to review the rates, terms and conditions for the provision of generation, distribution and transmission services

of each investor-owned incumbent electric utility. Such proceedings shall be governed by the provisions of Chapter 10 (§ 56-232 et seq.), except as modified herein. In such proceedings the Commission shall determine fair rates of return on common equity applicable to the generation and distribution services of the utility. In so doing, the Commission may use any methodology to determine such return it finds consistent with the public interest, but such return shall not be set lower than the average of the returns on common equity reported to the Securities and Exchange Commission for the three most recent annual periods for which such data are available by not less than a majority, selected by the Commission as specified in subdivision 2 b, of other investor-owned electric utilities in the peer group of the utility, nor shall the Commission set such return more than 300 basis points higher than such average. The peer group of the utility shall be determined in the manner prescribed in subdivision 2 b. The Commission may increase or decrease such combined rate of return by up to 100 basis points based on the generating plant performance, customer service, and operating efficiency of a utility, as compared to nationally recognized standards determined by the Commission to be appropriate for such purposes. In such a proceeding, the Commission shall determine the rates that the utility may charge until such rates are adjusted. If the Commission finds that the utility's combined rate of return on common equity is more than 50 basis points below the combined rate of return as so determined, it shall be authorized to order increases to the utility's rates necessary to provide the opportunity to fully recover the costs of providing the utility's services and to earn not less than such combined rate of return. If the Commission finds that the utility's combined rate of return on common equity is more than 50 basis points above the combined rate of return as so determined, it shall be authorized either (i) to order reductions to the utility's rates it finds appropriate, provided that the Commission may not order such rate reduction unless it finds that the resulting rates will provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than the fair rates of return on common equity applicable to the generation and distribution services; or (ii) to direct that 60 percent of the amount of the utility's earnings that were more than 50 basis points above the fair combined rate of return for calendar year 2008 be credited to customers' bills, in which event such credits shall be amortized over a period of six to 12 months, as determined at the discretion of the Commission, following the effective date of the Commission's order and be allocated among customer classes such that the relationship between the specific customer class rates of return to the overall target rate of return will have the same relationship as the last approved allocation of revenues used to design base rates. Commencing in 2011, the Commission, after notice and opportunity for hearing, shall conduct biennial reviews of the rates, terms and conditions for the provision of generation, distribution and transmission services by each investor-owned incumbent electric utility, subject to the following provisions:

1. Rates, terms and conditions for each service shall be reviewed separately on an unbundled basis, and such reviews shall be conducted in a single, combined proceeding. The first such review shall utilize the two successive 12-month test periods ending December 31, 2010. However, the Commission may, in its discretion, elect to stagger its biennial reviews of utilities by utilizing the two successive 12-month test periods ending December 31, 2010, for a Phase I Utility, and utilizing the two successive 12-month test periods ending December 31, 2011, for a Phase II Utility, with subsequent proceedings utilizing the two successive 12-month test periods ending December 31 immediately preceding the year in which such proceeding is conducted. For purposes of this section, a Phase I Utility is an investor-owned incumbent electric utility that was, as of July 1, 1999, not bound by a rate case settlement adopted by the Commission that extended in its application beyond January 1, 2002, and a Phase II Utility is an investor-owned incumbent electric utility that was bound by such a settlement.

2. Subject to the provisions of subdivision 6, fair rates of return on common equity applicable separately to the generation and distribution services of such utility, and for the two such services combined, shall be determined by the Commission during each such biennial review, as follows:

a. The Commission may use any methodology to determine such return it finds consistent with the public interest, but such return shall not be set lower than the average of the returns on common equity reported to the Securities and Exchange Commission for the three most recent annual periods for which such data are available by not less than a majority, selected by the Commission as specified in subdivision 2 b, of other investor-owned electric utilities in the peer group of the utility subject to such biennial review, nor shall the Commission set such return more than 300 basis points higher than such average.

b. In selecting such majority of peer group investor-owned electric utilities, the Commission shall first remove from such group the two utilities within such group that have the lowest reported returns of the group, as well as the two utilities within such group that have the highest reported returns of the group, and the Commission shall then select a majority of the utilities remaining in such peer group. In its final order regarding such biennial review, the Commission shall identify the utilities in such peer group it selected for the calculation of such limitation. For purposes of this subdivision, an investor-owned electric utility shall be deemed part of such peer group if (i) its principal operations are conducted in the southeastern United States east of the Mississippi River in either the states of West Virginia or Kentucky or in those states south of Virginia, excluding the state of Tennessee, (ii) it is a vertically-integrated electric utility providing generation, transmission and distribution services whose facilities and operations are subject to state public utility regulation in the state where its principal operations are conducted, (iii) it had a long-term bond rating assigned by Moody's Investors Service of at least Baa at the end of the most recent test period subject to such biennial review, and (iv) it is not an affiliate of the utility subject to such biennial review.

c. The Commission may, consistent with its precedent for incumbent electric utilities prior to the enactment of Chapters 888 and 933 of the Acts of Assembly of 2007, increase or decrease the utility's combined rate of return based on the Commission's consideration of the utility's performance.

d. In any Current Proceeding, the Commission shall determine whether the Current Return has increased, on a percentage basis, above the Initial Return by more than the increase, expressed as a percentage, in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, since the date on which the Commission determined the Initial Return. If so, the Commission may conduct an additional analysis of whether it is in the public interest to utilize such Current Return for the Current Proceeding then pending. A finding of whether the Current Return justifies such additional analysis shall be made without regard to any enhanced rate of return on common equity awarded pursuant to the provisions of subdivision 6. Such additional analysis shall include, but not be limited to, a consideration of overall economic conditions, the level of interest rates and cost of capital with respect to business and industry, in general, as well as electric utilities, the current level of inflation and the utility's cost of goods and services, the effect on the utility's ability to provide adequate service and to attract capital if less than the Current Return were utilized for the Current Proceeding then pending, and such other factors as the Commission may deem relevant. If, as a result of such analysis, the Commission finds that use of the Current Return for the Current Proceeding then pending would not be in the public interest, then the lower limit imposed by subdivision 2 a on the return to be determined by the Commission for such utility shall be calculated, for that Current Proceeding only, by increasing the Initial Return by a percentage at least equal to the increase, expressed as a percentage, in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, since the date on which the Commission determined the Initial Return. For purposes of this subdivision:

"Current Proceeding" means any proceeding conducted under any provisions of this subsection that require or authorize the Commission to determine a fair combined rate of return on common equity for a utility and that will be concluded after the date on which the Commission determined the Initial Return for such utility.

"Current Return" means the minimum fair combined rate of return on common equity required for any Current Proceeding by the limitation regarding a utility's peer group specified in subdivision 2 a.

"Initial Return" means the fair combined rate of return on common equity determined for such utility by the Commission on the first occasion after July 1, 2009, under any provision of this subsection pursuant to the provisions of subdivision 2 a.

e. In addition to other considerations, in setting the return on equity within the range allowed by this section, the Commission shall strive to maintain costs of retail electric energy that are cost competitive with costs of retail electric energy provided by the other peer group investor-owned electric utilities.

f. The determination of such returns shall be made by the Commission on a stand-alone basis, and specifically without regard to any return on common equity or other matters determined with regard to facilities described in subdivision 6.

g. If the combined rate of return on common equity earned by the generation and distribution services is no more than 50 basis points above or below the return as so determined or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, such return is no more than 70 basis points above or below the return as so determined, such combined return shall not be considered either excessive or insufficient, respectively. However, for any test period commencing after December 31, 2012, for a Phase II Utility, and after December 31, 2013, for a Phase I Utility, if the utility has, during the test period or periods under review, earned below the return as so determined, whether or not such combined return is within 70 basis points of the return as so determined, the utility may petition the Commission for approval of an increase in rates in accordance with the provisions of ~~clause (4) of subdivision A 8 a~~ as if it had earned more than 70 basis points below a fair combined rate of return, and such proceeding shall otherwise be conducted in accordance with the provisions of this section.

h. Any amount of a utility's earnings directed by the Commission to be credited to customers' bills pursuant to this section shall not be considered for the purpose of determining the utility's earnings in any subsequent biennial review.

3. Each such utility shall make a biennial filing by March 31 of every other year, beginning in 2011, consisting of the schedules contained in the Commission's rules governing utility rate increase applications; however, if the Commission elects to stagger the dates of the biennial reviews of utilities as provided in subdivision 1, then Phase I utilities shall commence biennial filings in 2011 and Phase II utilities shall commence biennial filings in 2012. Such filing shall encompass the two successive 12-month test periods ending December 31 immediately preceding the year in which such proceeding is conducted, and in every such case the filing for each year shall be identified separately and shall be segregated from any other year encompassed by the filing. If the Commission determines that rates should be revised or credits be applied to customers' bills pursuant to subdivision 8 or 9, any rate adjustment clauses previously implemented pursuant to subdivision 5 or those related to facilities utilizing simple-cycle combustion turbines described in subdivision 6, shall be combined with the utility's costs, revenues and investments until the amounts that are the subject of such rate adjustment clauses are fully recovered. The Commission shall combine such clauses with the utility's costs, revenues and investments only after it makes its initial determination with regard to necessary rate revisions or credits to customers' bills, and the amounts thereof, but after such clauses are combined as herein specified, they shall thereafter be considered part of the utility's costs, revenues, and investments for the purposes of future biennial review proceedings. A Phase I utility shall delay for one year the filing of its biennial review from March 31, 2013, to March 31, 2014, and shall not defer on its books for

future recovery any costs incurred during calendar year 2011, other than as provided in subdivision ~~A 7 of this section~~ or § 56-249.6, and its subsequent biennial filing shall be made by March 31, 2016, and every two years thereafter.

4. The following costs incurred by the utility shall be deemed reasonable and prudent: (i) costs for transmission services provided to the utility by the regional transmission entity of which the utility is a member, as determined under applicable rates, terms and conditions approved by the Federal Energy Regulatory Commission, and (ii) costs charged to the utility that are associated with demand response programs approved by the Federal Energy Regulatory Commission and administered by the regional transmission entity of which the utility is a member. Upon petition of a utility at any time after the expiration or termination of capped rates, but not more than once in any 12-month period, the Commission shall approve a rate adjustment clause under which such costs, including, without limitation, costs for transmission service, charges for new and existing transmission facilities, administrative charges, and ancillary service charges designed to recover transmission costs, shall be recovered on a timely and current basis from customers. Retail rates to recover these costs shall be designed using the appropriate billing determinants in the retail rate schedules.

5. A utility may at any time, after the expiration or termination of capped rates, but not more than once in any 12-month period, petition the Commission for approval of one or more rate adjustment clauses for the timely and current recovery from customers of the following costs:

a. Incremental costs described in clause (vi) of subsection B of § 56-582 incurred between July 1, 2004, and the expiration or termination of capped rates, if such utility is, as of July 1, 2007, deferring such costs consistent with an order of the Commission entered under clause (vi) of subsection B of § 56-582. The Commission shall approve such a petition allowing the recovery of such costs that comply with the requirements of clause (vi) of subsection B of § 56-582;

b. Projected and actual costs for the utility to design and operate fair and effective peak-shaving programs. The Commission shall approve such a petition if it finds that the program is in the public interest; provided that the Commission shall allow the recovery of such costs as it finds are reasonable;

c. Projected and actual costs for the utility to design, implement, and operate energy efficiency programs, including a margin to be recovered on operating expenses, which margin for the purposes of this section shall be equal to the general rate of return on common equity determined as described in subdivision ~~A 2 of this section~~. The Commission shall only approve such a petition if it finds that the program is in the public interest. As part of such cost recovery, the Commission, if requested by the utility, shall allow for the recovery of revenue reductions related to energy efficiency programs. The Commission shall only allow such recovery to the extent that the Commission determines such revenue has not been recovered through margins from incremental off-system sales as defined in § 56-249.6 that are directly attributable to energy efficiency programs.

None of the costs of new energy efficiency programs of an electric utility, including recovery of revenue reductions, shall be assigned to any customer that has a verifiable history of having used more than 10 megawatts of demand from a single meter of delivery. Nor shall any of the costs of new energy efficiency programs of an electric utility, including recovery of revenue reductions, be incurred by any large general service customer as defined herein that has notified the utility of non-participation in such energy efficiency program or programs. A large general service customer is a customer that has a verifiable history of having used more than 500 kilowatts of demand from a single meter of delivery. Non-participation in energy efficiency programs shall be allowed by the Commission if the large general service customer has, at the customer's own expense, implemented energy efficiency programs that have produced or will produce measured and verified results consistent with industry standards and other regulatory criteria stated in this section. The Commission shall, no later than November 15, 2009, promulgate rules and regulations to accommodate the process under which such large general service customers shall file notice for such an exemption and (i) establish the administrative procedures by which eligible customers will notify the utility and (ii) define the standard criteria that must be satisfied by an applicant in order to notify the utility. In promulgating such rules and regulations, the Commission may also specify the timing as to when a utility shall accept and act on such notice, taking into consideration the utility's integrated resource planning process as well as its administration of energy efficiency programs that are approved for cost recovery by the Commission. The notice of non-participation by a large general service customer, to be given by March 1 of a given year, shall be for the duration of the service life of the customer's energy efficiency program. The Commission on its own motion may initiate steps necessary to verify such non-participants' achievement of energy efficiency if the Commission has a body of evidence that the non-participant has knowingly misrepresented its energy efficiency achievement. A utility shall not charge such large general service customer, as defined by the Commission, for the costs of installing energy efficiency equipment beyond what is required to provide electric service and meter such service on the customer's premises if the customer provides, at the customer's expense, equivalent energy efficiency equipment. In all relevant proceedings pursuant to this section, the Commission shall take into consideration the goals of economic development, energy efficiency and environmental protection in the Commonwealth;

d. Projected and actual costs of participation in a renewable energy portfolio standard program pursuant to § 56-585.2 that are not recoverable under subdivision 6. The Commission shall approve such a petition allowing the recovery of such costs as are provided for in a program approved pursuant to § 56-585.2; and

e. Projected and actual costs of projects that the Commission finds to be necessary to comply with state or federal environmental laws or regulations applicable to generation facilities used to serve the utility's native load obligations. The Commission shall approve such a petition if it finds that such costs are necessary to comply with such environmental laws or regulations.

The Commission shall have the authority to determine the duration or amortization period for any adjustment clause approved under this subdivision.

6. To ensure a reliable and adequate supply of electricity, to meet the utility's projected native load obligations and to promote economic development, a utility may at any time, after the expiration or termination of capped rates, petition the Commission for approval of a rate adjustment clause for recovery on a timely and current basis from customers of the costs of (i) a coal-fueled generation facility that utilizes Virginia coal and is located in the coalfield region of the Commonwealth, as described in § 15.2-6002, regardless of whether such facility is located within or without the utility's service territory, (ii) one or more other generation facilities, or (iii) one or more major unit modifications of generation facilities; however, such a petition concerning facilities described in clause (ii) that utilize nuclear power, facilities described in clause (ii) that are coal-fueled and will be built by a Phase I utility, or facilities described in clause (i) may also be filed before the expiration or termination of capped rates. A utility that constructs any such facility shall have the right to recover the costs of the facility, as accrued against income, through its rates, including projected construction work in progress, and any associated allowance for funds used during construction, planning, development and construction costs, life-cycle costs, and costs of infrastructure associated therewith, plus, as an incentive to undertake such projects, an enhanced rate of return on common equity calculated as specified below. A utility seeking approval to construct a generating facility shall demonstrate that it has considered and weighed alternative options, including third-party market alternatives, in its selection process. The costs of the facility, other than return on projected construction work in progress and allowance for funds used during construction, shall not be recovered prior to the date the facility begins commercial operation. Such enhanced rate of return on common equity shall be applied to allowance for funds used during construction and to construction work in progress during the construction phase of the facility and shall thereafter be applied to the entire facility during the first portion of the service life of the facility. The first portion of the service life shall be as specified in the table below; however, the Commission shall determine the duration of the first portion of the service life of any facility, within the range specified in the table below, which determination shall be consistent with the public interest and shall reflect the Commission's determinations regarding how critical the facility may be in meeting the energy needs of the citizens of the Commonwealth and the risks involved in the development of the facility. After the first portion of the service life of the facility is concluded, the utility's general rate of return shall be applied to such facility for the remainder of its service life. As used herein, the service life of the facility shall be deemed to begin on the date the facility begins commercial operation, and such service life shall be deemed equal in years to the life of that facility as used to calculate the utility's depreciation expense. Such enhanced rate of return on common equity shall be calculated by adding the basis points specified in the table below to the utility's general rate of return, and such enhanced rate of return shall apply only to the facility that is the subject of such rate adjustment clause. Allowance for funds used during construction shall be calculated for any such facility utilizing the utility's actual capital structure and overall cost of capital, including an enhanced rate of return on common equity as determined pursuant to this subdivision, until such construction work in progress is included in rates. The construction of any facility described in clause (i) is in the public interest, and in determining whether to approve such facility, the Commission shall liberally construe the provisions of this title. The basis points to be added to the utility's general rate of return to calculate the enhanced rate of return on common equity, and the first portion of that facility's service life to which such enhanced rate of return shall be applied, shall vary by type of facility, as specified in the following table:

Type of Generation Facility	Basis Points	First Portion of Service Life
Nuclear-powered	200	Between 12 and 25 years
Carbon capture compatible, clean-coal powered	200	Between 10 and 20 years
Renewable powered, other than landfill gas powered	200	Between 5 and 15 years
Coalbed methane gas powered	150	Between 5 and 15 years
Landfill gas powered	200	Between 5 and 15 years
Conventional coal or combined-cycle combustion turbine	100	Between 10 and 20 years

For generating facilities other than those utilizing nuclear power or those utilizing energy derived from offshore wind, as of July 1, 2013, only those facilities as to which a rate adjustment clause under this subdivision has been previously approved by the Commission, or as to which a petition for approval of such rate adjustment clause was filed with the Commission, on or before January 1, 2013, shall be entitled to the enhanced rate of return on common equity as specified in the above table during the construction phase of the facility and the approved first portion of its service life.

For generating facilities within the Commonwealth utilizing nuclear power or those utilizing energy derived from offshore wind projects located in waters off the Commonwealth's Atlantic shoreline, such facilities shall continue to be eligible for an enhanced rate of return on common equity during the construction phase of the facility and the approved first portion of its service life of between 12 and 25 years in the case of a facility utilizing nuclear power and for a service life of between 5 and 15 years in the case of a facility utilizing energy derived from offshore wind, provided, however, that, as of July 1, 2013, the enhanced return for such facilities shall be 100 basis points, which shall be added to the utility's general rate of return as determined under subdivision 2. *Thirty percent of all costs of such a facility utilizing nuclear power that the utility incurred between July 1, 2007, and December 31, 2013, and all of such costs incurred after December 31, 2013, may*

be deferred by the utility and recovered through a rate adjustment clause under this subdivision at such time as the Commission provides in an order approving such a rate adjustment clause. The remaining 70 percent of all costs of such a facility that the utility incurred between July 1, 2007, and December 31, 2013, shall not be deferred for recovery through a rate adjustment clause under this subdivision; however, such remaining 70 percent of all costs shall be recovered ratably through existing base rates as determined by the Commission in the test periods under review in the utility's next biennial review filed after July 1, 2014.

In connection with planning to meet forecasted demand for electric generation supply and assure the adequate and sufficient reliability of service, consistent with § 56-598, planning and development activities for a new nuclear generation facility or facilities are in the public interest.

Generation facilities described in clause (ii) that utilize simple-cycle combustion turbines shall not receive an enhanced rate of return on common equity as described herein, but instead shall receive the utility's general rate of return during the construction phase of the facility and, thereafter, for the entire service life of the facility.

As used in this subdivision, a generation facility is (a) "coalbed methane gas powered" if the facility is fired at least 50 percent by coalbed methane gas, as such term is defined in § 45.1-361.1, produced from wells located in the Commonwealth, and (b) "landfill gas powered" if the facility is fired by methane or other combustible gas produced by the anaerobic digestion or decomposition of biodegradable materials in a solid waste management facility licensed by the Waste Management Board. A landfill gas powered facility includes, in addition to the generation facility itself, the equipment used in collecting, drying, treating, and compressing the landfill gas and in transmitting the landfill gas from the solid waste management facility where it is collected to the generation facility where it is combusted.

For purposes of this subdivision, "general rate of return" means the fair combined rate of return on common equity as it is determined by the Commission from time to time for such utility pursuant to subdivision 2. In any proceeding under this subdivision conducted prior to the conclusion of the first biennial review for such utility, the Commission shall determine a general rate of return for such utility in the same manner as it would in a biennial review proceeding.

Notwithstanding any other provision of this subdivision, if the Commission finds during the biennial review conducted for a Phase II utility in 2018 that such utility has not filed applications for all necessary federal and state regulatory approvals to construct one or more nuclear-powered or coal-fueled generation facilities that would add a total capacity of at least 1500 megawatts to the amount of the utility's generating resources as such resources existed on July 1, 2007, or that, if all such approvals have been received, that the utility has not made reasonable and good faith efforts to construct one or more such facilities that will provide such additional total capacity within a reasonable time after obtaining such approvals, then the Commission, if it finds it in the public interest, may reduce on a prospective basis any enhanced rate of return on common equity previously applied to any such facility to no less than the general rate of return for such utility and may apply no less than the utility's general rate of return to any such facility for which the utility seeks approval in the future under this subdivision.

7. Any petition filed pursuant to subdivision 4, 5, or 6 shall be considered by the Commission on a stand-alone basis without regard to the other costs, revenues, investments, or earnings of the utility. Any costs incurred by a utility prior to the filing of such petition, or during the consideration thereof by the Commission, that are proposed for recovery in such petition and that are related to ~~clause (a) of subdivision 5 a~~, or that are related to facilities and projects described in clause (i) of subdivision 6, shall be deferred on the books and records of the utility until the Commission's final order in the matter, or until the implementation of any applicable approved rate adjustment clauses, whichever is later. ~~Any~~ *Except as provided in subdivision 6, any* costs prudently incurred on or after July 1, 2007, by a utility prior to the filing of such petition, or during the consideration thereof by the Commission, that are proposed for recovery in such petition and that are related to facilities and projects described in clause (ii) of subdivision 6 that utilize nuclear power, or coal-fueled facilities and projects described in clause (ii) of subdivision 6 if such coal-fueled facilities will be built by a Phase I Utility, shall be deferred on the books and records of the utility until the Commission's final order in the matter, or until the implementation of any applicable approved rate adjustment clauses, whichever is later. Any costs prudently incurred after the expiration or termination of capped rates related to other matters described in ~~subdivisions~~ *subdivision 4, 5, or 6* shall be deferred beginning only upon the expiration or termination of capped rates, provided, however, that no provision of this act shall affect the rights of any parties with respect to the rulings of the Federal Energy Regulatory Commission in PJM Interconnection LLC and Virginia Electric and Power Company, 109 F.E.R.C. P 61,012 (2004). *A utility shall establish a regulatory asset for regulatory accounting and ratemaking purposes under which it shall defer its operation and maintenance costs incurred in connection with (i) the refueling of any nuclear-powered generating plant and (ii) other work at such plant normally performed during a refueling outage. The utility shall amortize such deferred costs over the refueling cycle, but in no case more than 18 months, beginning with the month in which such plant resumes operation after such refueling. The refueling cycle shall be the applicable period of time between planned refueling outages for such plant. As of January 1, 2014, such amortized costs are a component of base rates, recoverable in base rates only ratably over the refueling cycle rather than when such outages occur, and are the only nuclear refueling costs recoverable in base rates. This provision shall apply to any nuclear-powered generating plant refueling outage commencing after December 31, 2013, and the Commission shall treat the deferred and amortized costs of such regulatory asset as part of the utility's costs for the purpose of proceedings conducted (a) with respect to biennial filings under subdivision 3 made on and after July 1, 2014, and (b) pursuant to § 56-245 or the Commission's rules governing utility rate increase applications as provided in subsection B. This provision shall not be deemed to change or reset base rates.*

The Commission's final order regarding any petition filed pursuant to subdivision 4, 5, or 6 shall be entered not more than three months, eight months, and nine months, respectively, after the date of filing of such petition. If such petition is approved, the order shall direct that the applicable rate adjustment clause be applied to customers' bills not more than 60 days after the date of the order, or upon the expiration or termination of capped rates, whichever is later.

8. In any biennial review proceeding, the following utility generation and distribution costs not proposed for recovery under any other subdivision of this subsection, as recorded per books by the utility for financial reporting purposes and accrued against income, shall be attributed to the test periods under review: costs associated with asset impairments related to early retirement determinations made by the utility prior to December 31, 2012, for utility generation plant; costs associated with severe weather events; and costs associated with natural disasters. Such costs shall be deemed to have been recovered from customers through rates for generation and distribution services in effect during the test periods under review unless such costs, individually or in the aggregate, together with the utility's other costs, revenues, and investments to be recovered through rates for generation and distribution services, result in the utility's earned return on its generation and distribution services for the combined test periods under review to fall more than 50 basis points below the fair combined rate of return authorized under subdivision 2 for such periods or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, to fall more than 70 basis points below the fair combined rate of return authorized under subdivision 2 for such periods. In such cases, the Commission shall, in such biennial review proceeding, authorize deferred recovery of such costs and allow the utility to amortize and recover such deferred costs over future periods as determined by the Commission. The aggregate amount of such deferred costs shall not exceed an amount that would, together with the utility's other costs, revenues, and investments to be recovered through rates for generation and distribution services, cause the utility's earned return on its generation and distribution services to exceed the fair rate of return authorized under subdivision 2, less 50 basis points, for the combined test periods under review or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, to exceed the fair rate of return authorized under subdivision 2 less 70 basis points. Nothing in this section shall limit the Commission's authority, pursuant to the provisions of Chapter 10 (§ 56-232 et seq.), including specifically § 56-235.2, following the review of combined test period earnings of the utility in a biennial review, for normalization of nonrecurring test period costs and annualized adjustments for future costs, in determining any appropriate increase or decrease in the utility's rates for generation and distribution services pursuant to ~~clause (i)~~ ~~subdivision 8 a~~ or ~~(iii) c~~.

If the Commission determines as a result of such biennial review that:

~~(i)~~ a. The utility has, during the test period or periods under review, considered as a whole, earned more than 50 basis points below a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points below a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, the Commission shall order increases to the utility's rates necessary to provide the opportunity to fully recover the costs of providing the utility's services and to earn not less than such fair combined rate of return, using the most recently ended 12-month test period as the basis for determining the amount of the rate increase necessary. However, the Commission may not order such rate increase unless it finds that the resulting rates are necessary to provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than a fair combined rate of return on both its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, using the most recently ended 12-month test period as the basis for determining the permissibility of any rate increase under the standards of this sentence, and the amount thereof;

~~(ii)~~ b. The utility has, during the test period or test periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, the Commission shall, subject to the provisions of subdivision 9, direct that 60 percent of the amount of such earnings that were more than 50 basis points, or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, that 70 percent of the amount of such earnings that were more than 70 basis points, above such fair combined rate of return for the test period or periods under review, considered as a whole, shall be credited to customers' bills. Any such credits shall be amortized over a period of six to 12 months, as determined at the discretion of the Commission, following the effective date of the Commission's order, and shall be allocated among customer classes such that the relationship between the specific customer class rates of return to the overall target rate of return will have the same relationship as the last approved allocation of revenues used to design base rates; or

~~(iii)~~ c. Such biennial review is the second consecutive biennial review in which the utility has, during the test period or test periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other

matter determined with respect to facilities described in subdivision 6, the Commission shall, subject to the provisions of subdivision 9 and in addition to the actions authorized in ~~clause (ii) of this subdivision b~~, also order reductions to the utility's rates it finds appropriate. However, the Commission may not order such rate reduction unless it finds that the resulting rates will provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, using the most recently ended 12-month test period as the basis for determining the permissibility of any rate reduction under the standards of this sentence, and the amount thereof.

The Commission's final order regarding such biennial review shall be entered not more than eight months after the date of filing, and any revisions in rates or credits so ordered shall take effect not more than 60 days after the date of the order. The fair combined rate of return on common equity determined pursuant to subdivision 2 in such biennial review shall apply, for purposes of reviewing the utility's earnings on its rates for generation and distribution services, to the entire two successive 12-month test periods ending December 31 immediately preceding the year of the utility's subsequent biennial review filing under subdivision 3.

9. If, as a result of a biennial review required under this subsection and conducted with respect to any test period or periods under review ending later than December 31, 2010 (or, if the Commission has elected to stagger its biennial reviews of utilities as provided in subdivision 1, under review ending later than December 31, 2010, for a Phase I Utility, or December 31, 2011, for a Phase II Utility), the Commission finds, with respect to such test period or periods considered as a whole, that (i) any utility has, during the test period or periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, and (ii) the total aggregate regulated rates of such utility at the end of the most recently-ended 12-month test period exceeded the annual increases in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, compounded annually, when compared to the total aggregate regulated rates of such utility as determined pursuant to the biennial review conducted for the base period, the Commission shall, unless it finds that such action is not in the public interest or that the provisions of ~~clauses (ii) and (iii) of subdivision subdivisions 8 b and c~~ are more consistent with the public interest, direct that any or all earnings for such test period or periods under review, considered as a whole that were more than 50 basis points, or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points, above such fair combined rate of return shall be credited to customers' bills, in lieu of the provisions of ~~clauses (ii) and (iii) of subdivision subdivisions 8 b and c~~. Any such credits shall be amortized and allocated among customer classes in the manner provided by ~~clause (ii) of subdivision 8 b~~. For purposes of this subdivision:

"Base period" means (i) the test period ending December 31, 2010 (or, if the Commission has elected to stagger its biennial reviews of utilities as provided in subdivision 1, the test period ending December 31, 2010, for a Phase I Utility, or December 31, 2011, for a Phase II Utility), or (ii) the most recent test period with respect to which credits have been applied to customers' bills under the provisions of this subdivision, whichever is later.

"Total aggregate regulated rates" shall include: (i) fuel tariffs approved pursuant to § 56-249.6, except for any increases in fuel tariffs deferred by the Commission for recovery in periods after December 31, 2010, pursuant to the provisions of clause (ii) of subsection C of § 56-249.6; (ii) rate adjustment clauses implemented pursuant to subdivision 4 or 5; (iii) revisions to the utility's rates pursuant to ~~clause (i) of subdivision 8 a~~; (iv) revisions to the utility's rates pursuant to the Commission's rules governing utility rate increase applications, as permitted by subsection B, occurring after July 1, 2009; and (v) base rates in effect as of July 1, 2009.

10. For purposes of this section, the Commission shall regulate the rates, terms and conditions of any utility subject to this section on a stand-alone basis utilizing the actual end-of-test period capital structure and cost of capital of such utility, unless the Commission finds that the debt to equity ratio of such capital structure is unreasonable for such utility, in which case the Commission may utilize a debt to equity ratio that it finds to be reasonable for such utility in determining any rate adjustment pursuant to ~~clauses (i) and (iii) of subdivision subdivisions 8 a and c~~, and without regard to the cost of capital, capital structure, revenues, expenses or investments of any other entity with which such utility may be affiliated. In particular, and without limitation, the Commission shall determine the federal and state income tax costs for any such utility that is part of a publicly traded, consolidated group as follows: (i) such utility's apportioned state income tax costs shall be calculated according to the applicable statutory rate, as if the utility had not filed a consolidated return with its affiliates, and (ii) such utility's federal income tax costs shall be calculated according to the applicable federal income tax rate and shall exclude any consolidated tax liability or benefit adjustments originating from any taxable income or loss of its affiliates.

B. Nothing in this section shall preclude an investor-owned incumbent electric utility from applying for an increase in rates pursuant to § 56-245 or the Commission's rules governing utility rate increase applications; however, in any such filing, a fair rate of return on common equity shall be determined pursuant to subdivision A 2. Nothing in this section shall preclude such utility's recovery of fuel and purchased power costs as provided in § 56-249.6.

C. Except as otherwise provided in this section, the Commission shall exercise authority over the rates, terms and conditions of investor-owned incumbent electric utilities for the provision of generation, transmission and distribution services to retail customers in the Commonwealth pursuant to the provisions of Chapter 10 (§ 56-232 et seq.), including specifically § 56-235.2.

D. Nothing in this section shall preclude the Commission from determining, during any proceeding authorized or required by this section, the reasonableness or prudence of any cost incurred or projected to be incurred, by a utility in connection with the subject of the proceeding. A determination of the Commission regarding the reasonableness or prudence of any such cost shall be consistent with the Commission's authority to determine the reasonableness or prudence of costs in proceedings pursuant to the provisions of Chapter 10 (§ 56-232 et seq.). In determining the reasonableness or prudence of a utility providing energy and capacity to its customers from renewable energy resources, the Commission shall consider the extent to which such renewable energy resources, whether utility-owned or by contract, further the objectives of the Commonwealth Energy Policy set forth in §§ 67-101 and 67-102, and shall also consider whether the costs of such resources is likely to result in unreasonable increases in rates paid by consumers.

E. The Commission shall promulgate such rules and regulations as may be necessary to implement the provisions of this section.

C. For the purposes of this section, parent includes step-parent, grandparent includes step-grandparent, child includes a step-child, and grandchild includes a step-grandchild.

2. That the provisions of this act may result in a net increase in periods of imprisonment or commitment. Pursuant to § 30-19.1:4, the estimated amount of the necessary appropriation cannot be determined for periods of imprisonment in state adult correctional facilities; therefore, Chapter 806 of the Acts of Assembly of 2013 requires the Virginia Criminal Sentencing Commission to assign a minimum fiscal impact of \$50,000. Pursuant to § 30-19.1:4, the estimated amount of the necessary appropriation cannot be determined for periods of commitment to the custody of the Department of Juvenile Justice.

Nothing in this section shall deprive any town now imposing these licenses and taxes from increasing them or deprive any town not now imposing them from hereafter doing so, but subject to the limitations provided in subsection D. The governing body of any county and the governing body of any town in that county wherein each imposes the license tax herein provided may provide mutual agreements so that not more than one license plate or decal in addition to the state plate shall be required.

F. Notwithstanding the provisions of subsection E, in a consolidated county wherein a tier-city exists, the tier-city may, in accordance with the provisions of the agreement or plan of consolidation, impose license fees and taxes under this section in addition to those fees and taxes imposed by the county, provided that the combined county and tier-city rates do not exceed the maximum provided in subsection A. No credit shall be allowed on the fees or taxes imposed by the county for fees or taxes paid to the tier-city, except as may be provided by the consolidation agreement or plan. Any such ordinance may also provide that a violation of the ordinance by the registered owner of the vehicle may not be discharged by payment of a fine except upon presentation of satisfactory evidence that the required license has been obtained. Nothing in this section shall be construed to require a county, city, or town to issue a decal or any other tangible evidence of a local license to be displayed on the licensed vehicle if the county's, city's, or town's ordinance does not require display of a decal or other evidence of payment. No ordinance adopted pursuant to this section shall require the display of any local license, decal, or sticker on any vehicle owned by a public service company, as defined in § 56-76, having a fleet of at least 2,500 vehicles garaged in the Commonwealth.

Before being issued any vehicle registration or renewal of such license or registration by the Commissioner, the applicant shall first satisfy all such local vehicle license fees and delinquent taxes or parking citations and present evidence satisfactory to the Commissioner that all such local vehicle license fees and delinquent taxes or parking citations have been paid in full. The Commissioner shall charge a reasonable fee to cover the costs of such enforcement action, and the treasurer or director of finance may add the cost of this fee to the delinquent tax bill or the amount of the parking citation. The treasurer or director of finance of any county, city, or town seeking to collect delinquent taxes or parking citations through the withholding of registration or renewal thereof by the Commissioner as provided for in this subsection shall notify the Commissioner in the

manner provided for in his agreement with the Commissioner and supply to the Commissioner information necessary to identify the debtor whose registration or renewal is to be denied. Any agreement entered into pursuant to the provisions of this subsection shall provide the debtor notice of the intent to deny renewal of registration at least 30 days prior to the expiration date of a current vehicle registration. For the purposes of this subsection, notice by first-class mail to the registrant's address as maintained in the records of the Department of Motor Vehicles shall be deemed sufficient. In the case of parking violations, the Commissioner shall only refuse to issue or renew the vehicle registration of any applicant therefor pursuant to this subsection for the vehicle that incurred the parking violations. The provisions of this subsection shall not apply to vehicles owned by firms or companies in the business of renting motor vehicles.

K. The governing bodies of any two or more counties, cities, or towns may enter into compacts for the regional enforcement of local motor vehicle license requirements. The governing body of each participating jurisdiction may by ordinance require the owner or operator of any motor vehicle, trailer, or semitrailer to display on his vehicle a valid local license issued by another county, city, or town that is a party to the regional compact, provided that the owner or operator is required by the jurisdiction of situs, as provided in § 58.1-3511, to obtain and display such license. The ordinance may also provide that no motor vehicle, trailer, or semitrailer shall be locally licensed until the applicant has produced satisfactory evidence that (i) all personal property taxes on the motor vehicle, trailer, or semitrailer to be licensed have been paid to all participating jurisdictions and (ii) any delinquent motor vehicle, trailer, or semitrailer personal property taxes that have been properly assessed or are assessable by any participating jurisdiction against the applicant have been paid. Any city and any county having the urban county executive form of government, the counties adjacent to such county and towns within them may require that no motor vehicle, trailer, or semitrailer shall be licensed by that jurisdiction or any other jurisdiction in the compact unless all fines owed to any participating jurisdiction by the owner of the vehicle for violation of any participating jurisdiction's ordinances governing parking of vehicles have been paid. The ordinance may further provide that a violation shall constitute a misdemeanor the penalty for which shall not exceed that of a Class 4 misdemeanor. Any such ordinance may also provide that a violation of the ordinance by the owner of the vehicle may not be discharged by payment of a fine and applicable court costs except upon presentation of satisfactory evidence that the required license has been obtained. The provisions of this subsection shall not apply to vehicles owned by firms or companies in the business of renting motor vehicles.

The Commission shall elect a chairman and vice-chairman from among its voting membership.

The Auditor of Public Accounts, or his legally authorized representatives, shall annually audit the financial accounts of the Commission, and the cost of such audit shall be borne by the Commission.

§ 33.1-468. Staff.

The Commission may employ a chief executive officer and such staff as it shall determine to be necessary to carry out its duties and responsibilities under this chapter. No such person shall contemporaneously serve as a member of the Commission. The Department of Transportation and the Department of Rail and Public Transportation shall make their employees available to assist the Commission, upon request.

§ 33.1-469. Decisions of Commission.

A majority of the Commission, which majority shall include at least a majority of the chief elected officers of the counties and cities embraced by the Commission, shall constitute a quorum. Decisions of the Commission shall require a quorum and shall be in accordance with voting procedures established by the Commission. In all cases, decisions of the Commission shall require the affirmative vote of two-thirds of the members of the Commission present and voting, and two-thirds of the chief elected officers of the counties and cities embraced by Planning District 23 who are present and voting and whose counties and cities include at least two-thirds of the population embraced by the Commission; however, no motion to fund a specific facility or service shall fail because of this population criterion if such facility or service is not located or to be located or provided or to be provided within the county or city whose chief elected officer's sole negative vote caused the facility or service to fail to meet the population criterion. The population of counties and cities embraced by the Commission shall be the population as determined by the most recently preceding decennial census, except that on July 1 of the fifth year following such census, the population of each county and city shall be adjusted, based on population projections made by the Weldon Cooper Center for Public Service of the University of Virginia.

§ 33.1-470. Annual budget and allocation of expenses.

A. The Commission shall adopt an annual budget and develop a funding plan and shall provide for such adoption in its bylaws. The funding plan shall provide for the expenditure of funds over a four- to six-year period and shall align with the Statewide Transportation Plan established pursuant to § 33.1-23.03 as much as possible. The Commission shall solicit public comment on its budget and funding plan by posting a summary of such budget and funding plan on its website and holding a public hearing. Such public hearing shall be advertised on the Commission's website and in a newspaper of general circulation in Planning District 23.

B. The administrative expenses of the Commission, as provided in an annual budget adopted by the Commission, to the extent funds for such expenses are not provided from other sources, shall be allocated among the component counties and cities on the basis of the relative population, as determined pursuant to § 33.1-469. Such budget shall be limited solely to the administrative expenses of the Commission and shall not include any funds for construction or acquisition of transportation facilities or the performance of any transportation service.

C. Members may be reimbursed for all reasonable and necessary expenses provided in §§ 2.2-2813 and 2.2-2825, if approved by the Commission. Funding for the costs of compensation and expenses of the members shall be provided by the Commission.

§ 33.1-471. Authority to issue bonds.

The Commission may issue bonds and other evidences of debt as may be authorized by this section or other law. The provisions of Article 5 (§ 15.2-4519 et seq.) of Chapter 45 of Title 15.2 shall apply, mutatis mutandis, to the issuance of such bonds or other debt. The Commission may issue bonds or other debt in such amounts as it deems appropriate. The bonds may be supported by any funds available, except that funds from tolls collected pursuant to § 33.1-472 shall be used only as provided in that section.

§ 33.1-472. Powers of the Commission.

Notwithstanding any contrary provision of this title and in accordance with all applicable federal statutes and requirements, the Commission shall control and operate and may impose and collect tolls in amounts established by the Commission for the use of any new or improved highway, bridge, or tunnel, to increase capacity on such facility or to address congestion within Planning District 23, constructed by the Commission (i) with federal, state, or local funds, (ii) solely with revenues of the Commission, or (iii) with revenues under the control of the Commission. The amount of any such toll may be varied from facility to facility, by lane, by congestion levels, by day of the week, by time of day, by type or size of vehicle, by number of axles, or by any similar combination thereof or any other factor the Commission may deem proper, and a reduced rate may be established for commuters as defined by the Commission. All such tolls shall be used for programs and projects that are reasonably related to or benefit the users of the new or improved highway, bridge, or tunnel, including, but not limited to, for the debt service and other costs of bonds whose proceeds are used for construction or improvement of such highway, bridge, or tunnel.

Any tolls imposed by the Commission shall be collected by an electronic toll system that, to the extent possible, shall not impede the traffic flow of the facility or prohibit a toll facility from retaining means of nonautomated toll collection in some lanes of the facility. For all facilities tolled by the Commission, there shall be signs erected prior to the point of toll collection that clearly state how the majority of the toll revenue is being spent by the Commission to benefit the users of the facility.

§ 33.1-473. Additional powers of the Commission.

A. The Commission shall have the following powers together with all powers incidental thereto or necessary for the performance of those hereinafter stated:

1. To sue and be sued and to prosecute and defend, at law or in equity, in any court having jurisdiction of the subject matter and of the parties;
2. To adopt and use a corporate seal and to alter the same at its pleasure;
3. To procure insurance, participate in insurance plans, and provide self-insurance; however, the purchase of insurance, participation in an insurance plan, or the creation of a self-insurance plan by the Commission shall not be deemed a waiver or relinquishment of any sovereign immunity to which the Commission or its officers, directors, employees, or agents are otherwise entitled;
4. To establish bylaws and make all rules and regulations, not inconsistent with the provisions of this chapter, deemed expedient for the management of the Commission's affairs;

8. In consultation with the Commonwealth Transportation Board and with each city or county in which the facility or any part thereof is or is to be located, to repair, expand, enlarge, construct, reconstruct, or renovate any or all highways, bridges, and tunnels within Planning District 23 and to acquire any real or personal property needed for any such purpose;
9. To enter into agreements or leases with public or private entities for the operation and maintenance of bridges, tunnels, transit and rail facilities, and highways;
10. To make and execute contracts, deeds, mortgages, leases, and all other instruments and agreements necessary or convenient for the performance of its duties and the exercise of its powers and functions under this chapter;
11. To the extent funds are made or become available to the Commission to do so, to employ employees, agents, advisors, and consultants, including without limitation attorneys, financial advisers, engineers, and other technical advisers and, the provisions of any other law to the contrary notwithstanding, to determine their duties and compensation; and
12. To the extent not inconsistent with the other provisions of this chapter, and without limiting or restricting the powers otherwise given the Commission, to exercise all of the powers given to transportation district commissions by § 15.2-4518.

B. The Commission shall comply with the provisions governing localities contained in § 15.2-2108.23.

§ 33.1-474. Commission a responsible public entity under Public-Private Transportation Act of 1995.

§ 33.1-475. Continuing responsibilities of the Commonwealth Transportation Board and the Department of Transportation.

Except as otherwise explicitly provided in this chapter, until such time as the Commission and the Department of Transportation, or the Commission and the Commonwealth Transportation Board, agree otherwise in writing, the Commonwealth Transportation Board shall allocate funding to and the Department of Transportation shall perform or cause to be performed all maintenance and operation of the bridges, tunnels, and roadways and shall perform such other required services and activities with respect to such bridges, tunnels, and roadways as were being performed on July 1, 2014.

§ 33.1-476. Use of revenues by the Commission.

Notwithstanding any other provision of this chapter, all moneys received by the Commission shall be used by the Commission solely for the benefit of those counties and cities that are embraced by the Commission, and such moneys shall be used by the Commission in a manner that is consistent with the purposes stated in this chapter.

2. That the staff of the Hampton Roads Transportation Planning Organization and the Department of Transportation shall work cooperatively to assist the proper formation and effective organization of the Hampton Roads Transportation Accountability Commission. Until such time as the Commission is fully established and functioning, the staff of the Hampton Roads Transportation Planning Organization shall serve as its staff, and the Hampton Roads Transportation Planning Organization shall provide the Commission with office space and

administrative support. The Commission shall reimburse the Hampton Roads Transportation Planning Organization for the cost of such staff, office space, and administrative support as appropriate.

CHAPTER 548

An Act to amend and reenact §§ 56-576 and 56-585.1 of the Code of Virginia, relating to electric utility regulation; recovery of costs of undergrounding distribution facilities.

[S 585]

Approved April 3, 2014

Be it enacted by the General Assembly of Virginia:

1. That §§ 56-576 and 56-585.1 of the Code of Virginia are amended and reenacted as follows:

§ 56-576. Definitions.

As used in this chapter:

"Affiliate" means any person that controls, is controlled by, or is under common control with an electric utility.

"Aggregator" means a person that, as an agent or intermediary, (i) offers to purchase, or purchases, electric energy or (ii) offers to arrange for, or arranges for, the purchase of electric energy, for sale to, or on behalf of, two or more retail customers not controlled by or under common control with such person. The following activities shall not, in and of themselves, make a person an aggregator under this chapter: (i) furnishing legal services to two or more retail customers, suppliers or aggregators; (ii) furnishing educational, informational, or analytical services to two or more retail customers, unless direct or indirect compensation for such services is paid by an aggregator or supplier of electric energy; (iii) furnishing educational, informational, or analytical services to two or more suppliers or aggregators; (iv) providing default service under § 56-585; (v) engaging in activities of a retail electric energy supplier, licensed pursuant to § 56-587, which are authorized by such supplier's license; and (vi) engaging in actions of a retail customer, in common with one or more other such retail customers, to issue a request for proposal or to negotiate a purchase of electric energy for consumption by such retail customers.

"Combined heat and power" means a method of using waste heat from electrical generation to offset traditional processes, space heating, air conditioning, or refrigeration.

"Commission" means the State Corporation Commission.

"Cooperative" means a utility formed under or subject to Chapter 9.1 (§ 56-231.15 et seq.).

"Covered entity" means a provider in the Commonwealth of an electric service not subject to competition but shall not include default service providers.

"Covered transaction" means an acquisition, merger, or consolidation of, or other transaction involving stock, securities, voting interests or assets by which one or more persons obtains control of a covered entity.

"Curtailment" means inducing retail customers to reduce load during times of peak demand so as to ease the burden on the electrical grid.

"Customer choice" means the opportunity for a retail customer in the Commonwealth to purchase electric energy from any supplier licensed and seeking to sell electric energy to that customer.

"Demand response" means measures aimed at shifting time of use of electricity from peak-use periods to times of lower demand by inducing retail customers to curtail electricity usage during periods of congestion and higher prices in the electrical grid.

"Distribute," "distributing," or "distribution of" electric energy means the transfer of electric energy through a retail distribution system to a retail customer.

"Distributor" means a person owning, controlling, or operating a retail distribution system to provide electric energy directly to retail customers.

"Electric utility" means any person that generates, transmits, or distributes electric energy for use by retail customers in the Commonwealth, including any investor-owned electric utility, cooperative electric utility, or electric utility owned or operated by a municipality.

"Energy efficiency program" means a program that reduces the total amount of electricity that is required for the same process or activity implemented after the expiration of capped rates. Energy efficiency programs include equipment, physical, or program change designed to produce measured and verified reductions in the amount of electricity required to perform the same function and produce the same or a similar outcome. Energy efficiency programs may include, but are not limited to, (i) programs that result in improvements in lighting design, heating, ventilation, and air conditioning systems, appliances, building envelopes, and industrial and commercial processes; (ii) measures, such as but not limited to the installation of advanced meters, implemented or installed by utilities, that reduce fuel use or losses of electricity and otherwise improve internal operating efficiency in generation, transmission, and distribution systems; and (iii) customer engagement programs that result in measurable and verifiable energy savings that lead to efficient use patterns and practices. Energy efficiency programs include demand response, combined heat and power and waste heat recovery, curtailment, or other programs that are designed to reduce electricity consumption so long as they reduce the total amount of electricity that is required for the same process or activity. Utilities shall be authorized to install and operate such advanced metering technology and equipment on a customer's premises; however, nothing in this chapter establishes a requirement that an energy efficiency program be implemented on a customer's premises and be connected to a customer's wiring on the customer's side of the inter-connection without the customer's expressed consent.

"Generate," "generating," or "generation of" electric energy means the production of electric energy.

"Generator" means a person owning, controlling, or operating a facility that produces electric energy for sale.

"Incumbent electric utility" means each electric utility in the Commonwealth that, prior to July 1, 1999, supplied electric energy to retail customers located in an exclusive service territory established by the Commission.

"Independent system operator" means a person that may receive or has received, by transfer pursuant to this chapter, any ownership or control of, or any responsibility to operate, all or part of the transmission systems in the Commonwealth.

"In the public interest," for purposes of assessing energy efficiency programs, describes an energy efficiency program if, among other factors, the net present value of the benefits exceeds the net present value of the costs as determined by the

Commission upon consideration of the following four tests: (i) the Total Resource Cost Test; (ii) the Utility Cost Test (also referred to as the Program Administrator Test); (iii) the Participant Test; and (iv) the Ratepayer Impact Measure Test. Such determination shall include an analysis of all four tests, and a program or portfolio of programs shall not be rejected based solely on the results of a single test. In addition, an energy efficiency program may be deemed to be "in the public interest" if the program provides measurable and verifiable energy savings to low-income customers or elderly customers.

"Measured and verified" means a process determined pursuant to methods accepted for use by utilities and industries to measure, verify, and validate energy savings and peak demand savings. This may include the protocol established by the United States Department of Energy, Office of Federal Energy Management Programs, Measurement and Verification Guidance for Federal Energy Projects, measurement and verification standards developed by the American Society of Heating, Refrigeration and Air Conditioning Engineers (ASHRAE), or engineering-based estimates of energy and demand savings associated with specific energy efficiency measures, as determined by the Commission.

"Municipality" means a city, county, town, authority, or other political subdivision of the Commonwealth.

"New underground facilities" means facilities to provide underground distribution service. "New underground facilities" includes underground cables with voltages of 69 kilovolts or less, pad-mounted devices, connections at customer meters, and transition terminations from existing overhead distribution sources.

"Peak-shaving" means measures aimed solely at shifting time of use of electricity from peak-use periods to times of lower demand by inducing retail customers to curtail electricity usage during periods of congestion and higher prices in the electrical grid.

"Person" means any individual, corporation, partnership, association, company, business, trust, joint venture, or other private legal entity, and the Commonwealth or any municipality.

"Renewable energy" means energy derived from sunlight, wind, falling water, biomass, sustainable or otherwise, (the definitions of which shall be liberally construed), energy from waste, landfill gas, municipal solid waste, wave motion, tides, and geothermal power, and does not include energy derived from coal, oil, natural gas, or nuclear power. Renewable energy shall also include the proportion of the thermal or electric energy from a facility that results from the co-firing of biomass.

"Renewable thermal energy" means the thermal energy output from (i) a renewable-fueled combined heat and power generation facility that is (a) constructed, or renovated and improved, after January 1, 2012, (b) located in the Commonwealth, and (c) utilized in industrial processes other than the combined heat and power generation facility or (ii) a solar energy system, certified to the OG-100 standard of the Solar Ratings and Certification Corporation or an equivalent certification body, that (a) is constructed, or renovated and improved, after January 1, 2013, (b) is located in the Commonwealth, and (c) heats water or air for residential, commercial, institutional, or industrial purposes.

"Renewable thermal energy equivalent" means the electrical equivalent in megawatt hours of renewable thermal energy calculated by dividing (i) the heat content, measured in British thermal units (BTUs), of the renewable thermal energy at the point of transfer to a residential, commercial, institutional, or industrial process by (ii) the standard conversion factor of 3.413 million BTUs per megawatt hour.

"Renovated and improved facility" means a facility the components of which have been upgraded to enhance its operating efficiency.

"Retail customer" means any person that purchases retail electric energy for its own consumption at one or more metering points or nonmetered points of delivery located in the Commonwealth.

"Retail electric energy" means electric energy sold for ultimate consumption to a retail customer.

"Revenue reductions related to energy efficiency programs" means reductions in the collection of total non-fuel revenues, previously authorized by the Commission to be recovered from customers by a utility, that occur due to measured and verified decreased consumption of electricity caused by energy efficiency programs approved by the Commission and implemented by the utility, less the amount by which such non-fuel reductions in total revenues have been mitigated through other program-related factors, including reductions in variable operating expenses.

"Solar energy system" means a system of components that produces heat or electricity, or both, from sunlight.

"Supplier" means any generator, distributor, aggregator, broker, marketer, or other person who offers to sell or sells electric energy to retail customers and is licensed by the Commission to do so, but it does not mean a generator that produces electric energy exclusively for its own consumption or the consumption of an affiliate.

"Supply" or "supplying" electric energy means the sale of or the offer to sell electric energy to a retail customer.

"Transmission of," "transmit," or "transmitting" electric energy means the transfer of electric energy through the Commonwealth's interconnected transmission grid from a generator to either a distributor or a retail customer.

"Transmission system" means those facilities and equipment that are required to provide for the transmission of electric energy.

§ 56-585.1. Generation, distribution, and transmission rates after capped rates terminate or expire.

A. During the first six months of 2009, the Commission shall, after notice and opportunity for hearing, initiate proceedings to review the rates, terms and conditions for the provision of generation, distribution and transmission services of each investor-owned incumbent electric utility. Such proceedings shall be governed by the provisions of Chapter 10 (§ 56-232 et seq.), except as modified herein. In such proceedings the Commission shall determine fair rates of return on common equity applicable to the generation and distribution services of the utility. In so doing, the Commission may use any methodology to determine such return it finds consistent with the public interest, but such return shall not be set lower

than the average of the returns on common equity reported to the Securities and Exchange Commission for the three most recent annual periods for which such data are available by not less than a majority, selected by the Commission as specified in subdivision 2 b, of other investor-owned electric utilities in the peer group of the utility, nor shall the Commission set such return more than 300 basis points higher than such average. The peer group of the utility shall be determined in the manner prescribed in subdivision 2 b. The Commission may increase or decrease such combined rate of return by up to 100 basis points based on the generating plant performance, customer service, and operating efficiency of a utility, as compared to nationally recognized standards determined by the Commission to be appropriate for such purposes. In such a proceeding, the Commission shall determine the rates that the utility may charge until such rates are adjusted. If the Commission finds that the utility's combined rate of return on common equity is more than 50 basis points below the combined rate of return as so determined, it shall be authorized to order increases to the utility's rates necessary to provide the opportunity to fully recover the costs of providing the utility's services and to earn not less than such combined rate of return. If the Commission finds that the utility's combined rate of return on common equity is more than 50 basis points above the combined rate of return as so determined, it shall be authorized either (i) to order reductions to the utility's rates it finds appropriate, provided that the Commission may not order such rate reduction unless it finds that the resulting rates will provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than the fair rates of return on common equity applicable to the generation and distribution services; or (ii) to direct that 60 percent of the amount of the utility's earnings that were more than 50 basis points above the fair combined rate of return for calendar year 2008 be credited to customers' bills, in which event such credits shall be amortized over a period of six to 12 months, as determined at the discretion of the Commission, following the effective date of the Commission's order and be allocated among customer classes such that the relationship between the specific customer class rates of return to the overall target rate of return will have the same relationship as the last approved allocation of revenues used to design base rates. Commencing in 2011, the Commission, after notice and opportunity for hearing, shall conduct biennial reviews of the rates, terms and conditions for the provision of generation, distribution and transmission services by each investor-owned incumbent electric utility, subject to the following provisions:

1. Rates, terms and conditions for each service shall be reviewed separately on an unbundled basis, and such reviews shall be conducted in a single, combined proceeding. The first such review shall utilize the two successive 12-month test periods ending December 31, 2010. However, the Commission may, in its discretion, elect to stagger its biennial reviews of utilities by utilizing the two successive 12-month test periods ending December 31, 2010, for a Phase I Utility, and utilizing the two successive 12-month test periods ending December 31, 2011, for a Phase II Utility, with subsequent proceedings utilizing the two successive 12-month test periods ending December 31 immediately preceding the year in which such proceeding is conducted. For purposes of this section, a Phase I Utility is an investor-owned incumbent electric utility that was, as of July 1, 1999, not bound by a rate case settlement adopted by the Commission that extended in its application beyond January 1, 2002, and a Phase II Utility is an investor-owned incumbent electric utility that was bound by such a settlement.

2. Subject to the provisions of subdivision 6, fair rates of return on common equity applicable separately to the generation and distribution services of such utility, and for the two such services combined, shall be determined by the Commission during each such biennial review, as follows:

a. The Commission may use any methodology to determine such return it finds consistent with the public interest, but such return shall not be set lower than the average of the returns on common equity reported to the Securities and Exchange Commission for the three most recent annual periods for which such data are available by not less than a majority, selected by the Commission as specified in subdivision 2 b, of other investor-owned electric utilities in the peer group of the utility subject to such biennial review, nor shall the Commission set such return more than 300 basis points higher than such average.

b. In selecting such majority of peer group investor-owned electric utilities, the Commission shall first remove from such group the two utilities within such group that have the lowest reported returns of the group, as well as the two utilities within such group that have the highest reported returns of the group, and the Commission shall then select a majority of the utilities remaining in such peer group. In its final order regarding such biennial review, the Commission shall identify the utilities in such peer group it selected for the calculation of such limitation. For purposes of this subdivision, an investor-owned electric utility shall be deemed part of such peer group if (i) its principal operations are conducted in the southeastern United States east of the Mississippi River in either the states of West Virginia or Kentucky or in those states south of Virginia, excluding the state of Tennessee, (ii) it is a vertically-integrated electric utility providing generation, transmission and distribution services whose facilities and operations are subject to state public utility regulation in the state where its principal operations are conducted, (iii) it had a long-term bond rating assigned by Moody's Investors Service of at least Baa at the end of the most recent test period subject to such biennial review, and (iv) it is not an affiliate of the utility subject to such biennial review.

c. The Commission may, consistent with its precedent for incumbent electric utilities prior to the enactment of Chapters 888 and 933 of the Acts of Assembly of 2007, increase or decrease the utility's combined rate of return based on the Commission's consideration of the utility's performance.

d. In any Current Proceeding, the Commission shall determine whether the Current Return has increased, on a percentage basis, above the Initial Return by more than the increase, expressed as a percentage, in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the

United States Department of Labor, since the date on which the Commission determined the Initial Return. If so, the Commission may conduct an additional analysis of whether it is in the public interest to utilize such Current Return for the Current Proceeding then pending. A finding of whether the Current Return justifies such additional analysis shall be made without regard to any enhanced rate of return on common equity awarded pursuant to the provisions of subdivision 6. Such additional analysis shall include, but not be limited to, a consideration of overall economic conditions, the level of interest rates and cost of capital with respect to business and industry, in general, as well as electric utilities, the current level of inflation and the utility's cost of goods and services, the effect on the utility's ability to provide adequate service and to attract capital if less than the Current Return were utilized for the Current Proceeding then pending, and such other factors as the Commission may deem relevant. If, as a result of such analysis, the Commission finds that use of the Current Return for the Current Proceeding then pending would not be in the public interest, then the lower limit imposed by subdivision 2 a on the return to be determined by the Commission for such utility shall be calculated, for that Current Proceeding only, by increasing the Initial Return by a percentage at least equal to the increase, expressed as a percentage, in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, since the date on which the Commission determined the Initial Return. For purposes of this subdivision:

"Current Proceeding" means any proceeding conducted under any provisions of this subsection that require or authorize the Commission to determine a fair combined rate of return on common equity for a utility and that will be concluded after the date on which the Commission determined the Initial Return for such utility.

"Current Return" means the minimum fair combined rate of return on common equity required for any Current Proceeding by the limitation regarding a utility's peer group specified in subdivision 2 a.

"Initial Return" means the fair combined rate of return on common equity determined for such utility by the Commission on the first occasion after July 1, 2009, under any provision of this subsection pursuant to the provisions of subdivision 2 a.

e. In addition to other considerations, in setting the return on equity within the range allowed by this section, the Commission shall strive to maintain costs of retail electric energy that are cost competitive with costs of retail electric energy provided by the other peer group investor-owned electric utilities.

f. The determination of such returns shall be made by the Commission on a stand-alone basis, and specifically without regard to any return on common equity or other matters determined with regard to facilities described in subdivision 6.

g. If the combined rate of return on common equity earned by the generation and distribution services is no more than 50 basis points above or below the return as so determined or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, such return is no more than 70 basis points above or below the return as so determined, such combined return shall not be considered either excessive or insufficient, respectively. However, for any test period commencing after December 31, 2012, for a Phase II Utility, and after December 31, 2013, for a Phase I Utility, if the utility has, during the test period or periods under review, earned below the return as so determined, whether or not such combined return is within 70 basis points of the return as so determined, the utility may petition the Commission for approval of an increase in rates in accordance with the provisions of clause (i) of subdivision A 8 as if it had earned more than 70 basis points below a fair combined rate of return, and such proceeding shall otherwise be conducted in accordance with the provisions of this section.

h. Any amount of a utility's earnings directed by the Commission to be credited to customers' bills pursuant to this section shall not be considered for the purpose of determining the utility's earnings in any subsequent biennial review.

3. Each such utility shall make a biennial filing by March 31 of every other year, beginning in 2011, consisting of the schedules contained in the Commission's rules governing utility rate increase applications; however, if the Commission elects to stagger the dates of the biennial reviews of utilities as provided in subdivision 1, then Phase I utilities shall commence biennial filings in 2011 and Phase II utilities shall commence biennial filings in 2012. Such filing shall encompass the two successive 12-month test periods ending December 31 immediately preceding the year in which such proceeding is conducted, and in every such case the filing for each year shall be identified separately and shall be segregated from any other year encompassed by the filing. If the Commission determines that rates should be revised or credits be applied to customers' bills pursuant to subdivision 8 or 9, any rate adjustment clauses previously implemented pursuant to subdivision 5 or those related to facilities utilizing simple-cycle combustion turbines described in subdivision 6, shall be combined with the utility's costs, revenues and investments until the amounts that are the subject of such rate adjustment clauses are fully recovered. The Commission shall combine such clauses with the utility's costs, revenues and investments only after it makes its initial determination with regard to necessary rate revisions or credits to customers' bills, and the amounts thereof, but after such clauses are combined as herein specified, they shall thereafter be considered part of the utility's costs, revenues, and investments for the purposes of future biennial review proceedings. A Phase I utility shall delay for one year the filing of its biennial review from March 31, 2013, to March 31, 2014, and shall not defer on its books for future recovery any costs incurred during calendar year 2011, other than as provided in subdivision A 7 of this section or § 56-249.6, and its subsequent biennial filing shall be made by March 31, 2016, and every two years thereafter.

4. The following costs incurred by the utility shall be deemed reasonable and prudent: (i) costs for transmission services provided to the utility by the regional transmission entity of which the utility is a member, as determined under applicable rates, terms and conditions approved by the Federal Energy Regulatory Commission, and (ii) costs charged to the utility that are associated with demand response programs approved by the Federal Energy Regulatory Commission and

administered by the regional transmission entity of which the utility is a member. Upon petition of a utility at any time after the expiration or termination of capped rates, but not more than once in any 12-month period, the Commission shall approve a rate adjustment clause under which such costs, including, without limitation, costs for transmission service, charges for new and existing transmission facilities, administrative charges, and ancillary service charges designed to recover transmission costs, shall be recovered on a timely and current basis from customers. Retail rates to recover these costs shall be designed using the appropriate billing determinants in the retail rate schedules.

5. A utility may at any time, after the expiration or termination of capped rates, but not more than once in any 12-month period, petition the Commission for approval of one or more rate adjustment clauses for the timely and current recovery from customers of the following costs:

a. Incremental costs described in clause (vi) of subsection B of § 56-582 incurred between July 1, 2004, and the expiration or termination of capped rates, if such utility is, as of July 1, 2007, deferring such costs consistent with an order of the Commission entered under clause (vi) of subsection B of § 56-582. The Commission shall approve such a petition allowing the recovery of such costs that comply with the requirements of clause (vi) of subsection B of § 56-582;

b. Projected and actual costs for the utility to design and operate fair and effective peak-shaving programs. The Commission shall approve such a petition if it finds that the program is in the public interest; provided that the Commission shall allow the recovery of such costs as it finds are reasonable;

c. Projected and actual costs for the utility to design, implement, and operate energy efficiency programs, including a margin to be recovered on operating expenses, which margin for the purposes of this section shall be equal to the general rate of return on common equity determined as described in subdivision A 2 of this section. The Commission shall only approve such a petition if it finds that the program is in the public interest. As part of such cost recovery, the Commission, if requested by the utility, shall allow for the recovery of revenue reductions related to energy efficiency programs. The Commission shall only allow such recovery to the extent that the Commission determines such revenue has not been recovered through margins from incremental off-system sales as defined in § 56-249.6 that are directly attributable to energy efficiency programs.

None of the costs of new energy efficiency programs of an electric utility, including recovery of revenue reductions, shall be assigned to any customer that has a verifiable history of having used more than 10 megawatts of demand from a single meter of delivery. Nor shall any of the costs of new energy efficiency programs of an electric utility, including recovery of revenue reductions, be incurred by any large general service customer as defined herein that has notified the utility of non-participation in such energy efficiency program or programs. A large general service customer is a customer that has a verifiable history of having used more than 500 kilowatts of demand from a single meter of delivery. Non-participation in energy efficiency programs shall be allowed by the Commission if the large general service customer has, at the customer's own expense, implemented energy efficiency programs that have produced or will produce measured and verified results consistent with industry standards and other regulatory criteria stated in this section. The Commission shall, no later than November 15, 2009, promulgate rules and regulations to accommodate the process under which such large general service customers shall file notice for such an exemption and (i) establish the administrative procedures by which eligible customers will notify the utility and (ii) define the standard criteria that must be satisfied by an applicant in order to notify the utility. In promulgating such rules and regulations, the Commission may also specify the timing as to when a utility shall accept and act on such notice, taking into consideration the utility's integrated resource planning process as well as its administration of energy efficiency programs that are approved for cost recovery by the Commission. The notice of non-participation by a large general service customer, to be given by March 1 of a given year, shall be for the duration of the service life of the customer's energy efficiency program. The Commission on its own motion may initiate steps necessary to verify such non-participants' achievement of energy efficiency if the Commission has a body of evidence that the non-participant has knowingly misrepresented its energy efficiency achievement. A utility shall not charge such large general service customer, as defined by the Commission, for the costs of installing energy efficiency equipment beyond what is required to provide electric service and meter such service on the customer's premises if the customer provides, at the customer's expense, equivalent energy efficiency equipment. In all relevant proceedings pursuant to this section, the Commission shall take into consideration the goals of economic development, energy efficiency and environmental protection in the Commonwealth;

d. Projected and actual costs of participation in a renewable energy portfolio standard program pursuant to § 56-585.2 that are not recoverable under subdivision 6. The Commission shall approve such a petition allowing the recovery of such costs as are provided for in a program approved pursuant to § 56-585.2; and

e. Projected and actual costs of projects that the Commission finds to be necessary to comply with state or federal environmental laws or regulations applicable to generation facilities used to serve the utility's native load obligations. The Commission shall approve such a petition if it finds that such costs are necessary to comply with such environmental laws or regulations.

The Commission shall have the authority to determine the duration or amortization period for any adjustment clause approved under this subdivision.

6. To ensure *the generation and delivery* of a reliable and adequate supply of electricity, to meet the utility's projected native load obligations and to promote economic development, a utility may at any time, after the expiration or termination of capped rates, petition the Commission for approval of a rate adjustment clause for recovery on a timely and current basis from customers of the costs of (i) a coal-fueled generation facility that utilizes Virginia coal and is located in the coalfield

region of the Commonwealth, as described in § 15.2-6002, regardless of whether such facility is located within or without the utility's service territory, (ii) one or more other generation facilities, ~~or~~ (iii) one or more major unit modifications of generation facilities; ~~however, such~~, or (iv) one or more new underground facilities to replace one or more existing overhead distribution facilities of 69 kilovolts or less located within the Commonwealth; however, subject to the provisions of the following sentence, the utility shall not file a petition under clause (iv) more often than annually and, in such petition, shall not seek any annual incremental increase in the level of investments associated with such a petition that exceeds five percent of such utility's distribution rate base, as such rate base was determined for the most recently ended 12-month test period in the utility's latest biennial review proceeding conducted pursuant to subdivision 3 and concluded by final order of the Commission prior to the date of filing of such petition under clause (iv). In all proceedings regarding petitions filed under clause (iv), the level of investments approved for recovery in such proceedings shall be in addition to, and not in lieu of, levels of investments previously approved for recovery in prior proceedings under clause (iv). Such a petition concerning facilities described in clause (ii) that utilize nuclear power, facilities described in clause (ii) that are coal-fueled and will be built by a Phase I utility, or facilities described in clause (i) may also be filed before the expiration or termination of capped rates. A utility that constructs any such facility shall have the right to recover the costs of the facility, as accrued against income, through its rates, including projected construction work in progress, and any associated allowance for funds used during construction, planning, development and construction costs, life-cycle costs, costs related to assessing the feasibility of potential sites for new underground facilities, and costs of infrastructure associated therewith, plus, as an incentive to undertake such projects, an enhanced rate of return on common equity calculated as specified below; however, in determining the amounts recoverable under a rate adjustment clause for new underground facilities, the Commission shall not consider, or increase or reduce such amounts recoverable because of (a) the operation and maintenance costs attributable to either the overhead distribution facilities being replaced or the new underground facilities or (b) any other costs attributable to the overhead distribution facilities being replaced. Notwithstanding the preceding sentence, the costs described in clauses (a) and (b) thereof shall remain eligible for recovery from customers through the utility's base rates for distribution service. A utility seeking approval to construct a generating facility shall demonstrate that it has considered and weighed alternative options, including third-party market alternatives, in its selection process. The costs of the facility, other than return on projected construction work in progress and allowance for funds used during construction, shall not be recovered prior to the date ~~the~~ a facility described in clause (i), (ii), or (iii) begins commercial operation or new underground facilities are classified by the utility as plant in service. Such enhanced rate of return on common equity shall be applied to allowance for funds used during construction and to construction work in progress during the construction phase of the facility and shall thereafter be applied to the entire facility during the first portion of the service life of the facility. The first portion of the service life shall be as specified in the table below; however, the Commission shall determine the duration of the first portion of the service life of any facility, within the range specified in the table below, which determination shall be consistent with the public interest and shall reflect the Commission's determinations regarding how critical the facility may be in meeting the energy needs of the citizens of the Commonwealth and the risks involved in the development of the facility. After the first portion of the service life of the facility is concluded, the utility's general rate of return shall be applied to such facility for the remainder of its service life. As used herein, the service life of the facility shall be deemed to begin on the date ~~the~~ a facility described in clause (i), (ii), or (iii) begins commercial operation or new underground facilities are classified by the utility as plant in service, and such service life shall be deemed equal in years to the life of that facility as used to calculate the utility's depreciation expense. Such enhanced rate of return on common equity shall be calculated by adding the basis points specified in the table below to the utility's general rate of return, and such enhanced rate of return shall apply only to the facility that is the subject of such rate adjustment clause. Allowance for funds used during construction shall be calculated for any such facility utilizing the utility's actual capital structure and overall cost of capital, including an enhanced rate of return on common equity as determined pursuant to this subdivision, until such construction work in progress is included in rates. The construction of any facility described in clause (i) is in the public interest, and in determining whether to approve such facility, the Commission shall liberally construe the provisions of this title. In determining whether to approve petitions for rate adjustment clauses for new underground facilities, and in determining the level of costs to be recovered thereunder, the Commission shall liberally construe the provisions of this title and shall give due consideration to the public policy goals of increased electric service reliability and reduced outage times associated with the replacement of existing overhead distribution facilities with new underground facilities. The basis points to be added to the utility's general rate of return to calculate the enhanced rate of return on common equity, and the first portion of that facility's service life to which such enhanced rate of return shall be applied, shall vary by type of facility, as specified in the following table:

Type of Generation Facility	Basis Points	First Portion of Service Life
Nuclear-powered	200	Between 12 and 25 years
Carbon capture compatible, clean-coal powered	200	Between 10 and 20 years
Renewable powered, other than landfill gas powered	200	Between 5 and 15 years
Coalbed methane gas powered	150	Between 5 and 15 years
Landfill gas powered	200	Between 5 and 15 years
Conventional coal or	100	Between 10 and 20 years

combined-cycle combustion
turbine

For generating facilities other than those utilizing nuclear power or those utilizing energy derived from offshore wind, as of July 1, 2013, only those facilities as to which a rate adjustment clause under this subdivision has been previously approved by the Commission, or as to which a petition for approval of such rate adjustment clause was filed with the Commission, on or before January 1, 2013, shall be entitled to the enhanced rate of return on common equity as specified in the above table during the construction phase of the facility and the approved first portion of its service life.

For generating facilities within the Commonwealth utilizing nuclear power or those utilizing energy derived from offshore wind projects located in waters off the Commonwealth's Atlantic shoreline, such facilities shall continue to be eligible for an enhanced rate of return on common equity during the construction phase of the facility and the approved first portion of its service life of between 12 and 25 years in the case of a facility utilizing nuclear power and for a service life of between 5 and 15 years in the case of a facility utilizing energy derived from offshore wind, provided, however, that, as of July 1, 2013, the enhanced return for such facilities shall be 100 basis points, which shall be added to the utility's general rate of return as determined under subdivision 2.

~~Generation~~ *Neither generation facilities described in clause (ii) that utilize simple-cycle combustion turbines nor new underground facilities shall not receive an enhanced rate of return on common equity as described herein, but instead shall receive the utility's general rate of return during the construction phase of the facility and, thereafter, for the entire service life of the facility. No rate adjustment clause for new underground facilities shall allocate costs to, or provide for the recovery of costs from, customers that are served within the large power service rate class for a Phase I utility and the large general service rate classes for a Phase II utility. New underground facilities are hereby declared to be ordinary extensions or improvements in the usual course of business under the provisions of § 56-265.2.*

As used in this subdivision, a generation facility is ~~(a)~~ (1) "coalbed methane gas powered" if the facility is fired at least 50 percent by coalbed methane gas, as such term is defined in § 45.1-361.1, produced from wells located in the Commonwealth, and ~~(b)~~ (2) "landfill gas powered" if the facility is fired by methane or other combustible gas produced by the anaerobic digestion or decomposition of biodegradable materials in a solid waste management facility licensed by the Waste Management Board. A landfill gas powered facility includes, in addition to the generation facility itself, the equipment used in collecting, drying, treating, and compressing the landfill gas and in transmitting the landfill gas from the solid waste management facility where it is collected to the generation facility where it is combusted.

For purposes of this subdivision, "general rate of return" means the fair combined rate of return on common equity as it is determined by the Commission from time to time for such utility pursuant to subdivision 2. In any proceeding under this subdivision conducted prior to the conclusion of the first biennial review for such utility, the Commission shall determine a general rate of return for such utility in the same manner as it would in a biennial review proceeding.

Notwithstanding any other provision of this subdivision, if the Commission finds during the biennial review conducted for a Phase II utility in 2018 that such utility has not filed applications for all necessary federal and state regulatory approvals to construct one or more nuclear-powered or coal-fueled generation facilities that would add a total capacity of at least 1500 megawatts to the amount of the utility's generating resources as such resources existed on July 1, 2007, or that, if all such approvals have been received, that the utility has not made reasonable and good faith efforts to construct one or more such facilities that will provide such additional total capacity within a reasonable time after obtaining such approvals, then the Commission, if it finds it in the public interest, may reduce on a prospective basis any enhanced rate of return on common equity previously applied to any such facility to no less than the general rate of return for such utility and may apply no less than the utility's general rate of return to any such facility for which the utility seeks approval in the future under this subdivision.

7. Any petition filed pursuant to subdivision 4, 5, or 6 shall be considered by the Commission on a stand-alone basis without regard to the other costs, revenues, investments, or earnings of the utility. Any costs incurred by a utility prior to the filing of such petition, or during the consideration thereof by the Commission, that are proposed for recovery in such petition and that are related to ~~clause (a) of~~ subdivision 5 a, or that are related to facilities and projects described in clause (i) of subdivision 6, *or that are related to new underground facilities described in clause (iv) of subdivision 6*, shall be deferred on the books and records of the utility until the Commission's final order in the matter, or until the implementation of any applicable approved rate adjustment clauses, whichever is later. Any costs prudently incurred on or after July 1, 2007, by a utility prior to the filing of such petition, or during the consideration thereof by the Commission, that are proposed for recovery in such petition and that are related to facilities and projects described in clause (ii) of subdivision 6 that utilize nuclear power, or coal-fueled facilities and projects described in clause (ii) of subdivision 6 if such coal-fueled facilities will be built by a Phase I Utility, shall be deferred on the books and records of the utility until the Commission's final order in the matter, or until the implementation of any applicable approved rate adjustment clauses, whichever is later. Any costs prudently incurred after the expiration or termination of capped rates related to other matters described in ~~subdivisions~~ *subdivision 4, 5, or 6 shall be deferred beginning only upon the expiration or termination of capped rates, provided, however, that no provision of this act shall affect the rights of any parties with respect to the rulings of the Federal Energy Regulatory Commission in PJM Interconnection LLC and Virginia Electric and Power Company, 109 F.E.R.C. P 61,012 (2004).*

The Commission's final order regarding any petition filed pursuant to subdivision 4, 5, or 6 shall be entered not more than three months, eight months, and nine months, respectively, after the date of filing of such petition. If such petition is

approved, the order shall direct that the applicable rate adjustment clause be applied to customers' bills not more than 60 days after the date of the order, or upon the expiration or termination of capped rates, whichever is later.

8. In any biennial review proceeding, the following utility generation and distribution costs not proposed for recovery under any other subdivision of this subsection, as recorded per books by the utility for financial reporting purposes and accrued against income, shall be attributed to the test periods under review: costs associated with asset impairments related to early retirement determinations made by the utility prior to December 31, 2012, for utility generation plant; costs associated with severe weather events; and costs associated with natural disasters. Such costs shall be deemed to have been recovered from customers through rates for generation and distribution services in effect during the test periods under review unless such costs, individually or in the aggregate, together with the utility's other costs, revenues, and investments to be recovered through rates for generation and distribution services, result in the utility's earned return on its generation and distribution services for the combined test periods under review to fall more than 50 basis points below the fair combined rate of return authorized under subdivision 2 for such periods or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, to fall more than 70 basis points below the fair combined rate of return authorized under subdivision 2 for such periods. In such cases, the Commission shall, in such biennial review proceeding, authorize deferred recovery of such costs and allow the utility to amortize and recover such deferred costs over future periods as determined by the Commission. The aggregate amount of such deferred costs shall not exceed an amount that would, together with the utility's other costs, revenues, and investments to be recovered through rates for generation and distribution services, cause the utility's earned return on its generation and distribution services to exceed the fair rate of return authorized under subdivision 2, less 50 basis points, for the combined test periods under review or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, to exceed the fair rate of return authorized under subdivision 2 less 70 basis points. Nothing in this section shall limit the Commission's authority, pursuant to the provisions of Chapter 10 (§ 56-232 et seq.), including specifically § 56-235.2, following the review of combined test period earnings of the utility in a biennial review, for normalization of nonrecurring test period costs and annualized adjustments for future costs, in determining any appropriate increase or decrease in the utility's rates for generation and distribution services pursuant to ~~clause (i) subdivision 8 a or (iii) 8 c.~~

If the Commission determines as a result of such biennial review that:

~~(i)~~ a. The utility has, during the test period or periods under review, considered as a whole, earned more than 50 basis points below a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points below a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, the Commission shall order increases to the utility's rates necessary to provide the opportunity to fully recover the costs of providing the utility's services and to earn not less than such fair combined rate of return, using the most recently ended 12-month test period as the basis for determining the amount of the rate increase necessary. However, the Commission may not order such rate increase unless it finds that the resulting rates are necessary to provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than a fair combined rate of return on both its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, using the most recently ended 12-month test period as the basis for determining the permissibility of any rate increase under the standards of this sentence, and the amount thereof;

~~(ii)~~ b. The utility has, during the test period or test periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, the Commission shall, subject to the provisions of subdivision 9, direct that 60 percent of the amount of such earnings that were more than 50 basis points, or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, that 70 percent of the amount of such earnings that were more than 70 basis points, above such fair combined rate of return for the test period or periods under review, considered as a whole, shall be credited to customers' bills. Any such credits shall be amortized over a period of six to 12 months, as determined at the discretion of the Commission, following the effective date of the Commission's order, and shall be allocated among customer classes such that the relationship between the specific customer class rates of return to the overall target rate of return will have the same relationship as the last approved allocation of revenues used to design base rates; or

~~(iii)~~ c. Such biennial review is the second consecutive biennial review in which the utility has, during the test period or test periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matter determined with respect to facilities described in subdivision 6, the Commission shall, subject to the provisions of subdivision 9 and in addition to the actions authorized in ~~clause (ii) of this subdivision b,~~ also order reductions to the utility's

rates it finds appropriate. However, the Commission may not order such rate reduction unless it finds that the resulting rates will provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, using the most recently ended 12-month test period as the basis for determining the permissibility of any rate reduction under the standards of this sentence, and the amount thereof.

The Commission's final order regarding such biennial review shall be entered not more than eight months after the date of filing, and any revisions in rates or credits so ordered shall take effect not more than 60 days after the date of the order. The fair combined rate of return on common equity determined pursuant to subdivision 2 in such biennial review shall apply, for purposes of reviewing the utility's earnings on its rates for generation and distribution services, to the entire two successive 12-month test periods ending December 31 immediately preceding the year of the utility's subsequent biennial review filing under subdivision 3.

9. If, as a result of a biennial review required under this subsection and conducted with respect to any test period or periods under review ending later than December 31, 2010 (or, if the Commission has elected to stagger its biennial reviews of utilities as provided in subdivision 1, under review ending later than December 31, 2010, for a Phase I Utility, or December 31, 2011, for a Phase II Utility), the Commission finds, with respect to such test period or periods considered as a whole, that (i) any utility has, during the test period or periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, and (ii) the total aggregate regulated rates of such utility at the end of the most recently-ended 12-month test period exceeded the annual increases in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, compounded annually, when compared to the total aggregate regulated rates of such utility as determined pursuant to the biennial review conducted for the base period, the Commission shall, unless it finds that such action is not in the public interest or that the provisions of ~~clauses (ii) and (iii) of subdivision subdivisions 8 b and c~~ are more consistent with the public interest, direct that any or all earnings for such test period or periods under review, considered as a whole that were more than 50 basis points, or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points, above such fair combined rate of return shall be credited to customers' bills, in lieu of the provisions of ~~clauses (ii) and (iii) of subdivision subdivisions 8 b and c~~. Any such credits shall be amortized and allocated among customer classes in the manner provided by ~~clause (ii) of subdivision 8 b~~. For purposes of this subdivision:

"Base period" means (i) the test period ending December 31, 2010 (or, if the Commission has elected to stagger its biennial reviews of utilities as provided in subdivision 1, the test period ending December 31, 2010, for a Phase I Utility, or December 31, 2011, for a Phase II Utility), or (ii) the most recent test period with respect to which credits have been applied to customers' bills under the provisions of this subdivision, whichever is later.

"Total aggregate regulated rates" shall include: (i) fuel tariffs approved pursuant to § 56-249.6, except for any increases in fuel tariffs deferred by the Commission for recovery in periods after December 31, 2010, pursuant to the provisions of clause (ii) of subsection C of § 56-249.6; (ii) rate adjustment clauses implemented pursuant to subdivision 4 or 5; (iii) revisions to the utility's rates pursuant to ~~clause (i) of subdivision 8 a~~; (iv) revisions to the utility's rates pursuant to the Commission's rules governing utility rate increase applications, as permitted by subsection B, occurring after July 1, 2009; and (v) base rates in effect as of July 1, 2009.

10. For purposes of this section, the Commission shall regulate the rates, terms and conditions of any utility subject to this section on a stand-alone basis utilizing the actual end-of-test period capital structure and cost of capital of such utility, unless the Commission finds that the debt to equity ratio of such capital structure is unreasonable for such utility, in which case the Commission may utilize a debt to equity ratio that it finds to be reasonable for such utility in determining any rate adjustment pursuant to ~~clauses (i) and (iii) of subdivision subdivisions 8 a and c~~, and without regard to the cost of capital, capital structure, revenues, expenses or investments of any other entity with which such utility may be affiliated. In particular, and without limitation, the Commission shall determine the federal and state income tax costs for any such utility that is part of a publicly traded, consolidated group as follows: (i) such utility's apportioned state income tax costs shall be calculated according to the applicable statutory rate, as if the utility had not filed a consolidated return with its affiliates, and (ii) such utility's federal income tax costs shall be calculated according to the applicable federal income tax rate and shall exclude any consolidated tax liability or benefit adjustments originating from any taxable income or loss of its affiliates.

B. Nothing in this section shall preclude an investor-owned incumbent electric utility from applying for an increase in rates pursuant to § 56-245 or the Commission's rules governing utility rate increase applications; however, in any such filing, a fair rate of return on common equity shall be determined pursuant to subdivision A 2. Nothing in this section shall preclude such utility's recovery of fuel and purchased power costs as provided in § 56-249.6.

C. Except as otherwise provided in this section, the Commission shall exercise authority over the rates, terms and conditions of investor-owned incumbent electric utilities for the provision of generation, transmission and distribution

services to retail customers in the Commonwealth pursuant to the provisions of Chapter 10 (§ 56-232 et seq.), including specifically § 56-235.2.

D. ~~Nothing in this section shall preclude the~~ *The Commission from determining may determine*, during any proceeding authorized or required by this section, the reasonableness or prudence of any cost incurred or projected to be incurred, by a utility in connection with the subject of the proceeding. A determination of the Commission regarding the reasonableness or prudence of any such cost shall be consistent with the Commission's authority to determine the reasonableness or prudence of costs in proceedings pursuant to the provisions of Chapter 10 (§ 56-232 et seq.). In determining the reasonableness or prudence of a utility providing energy and capacity to its customers from renewable energy resources, the Commission shall consider the extent to which such renewable energy resources, whether utility-owned or by contract, further the objectives of the Commonwealth Energy Policy set forth in §§ 67-101 and 67-102, and shall also consider whether the costs of such resources is likely to result in unreasonable increases in rates paid by consumers.

E. The Commission shall promulgate such rules and regulations as may be necessary to implement the provisions of this section.

CHAPTER 549

An Act to amend and reenact §§ 18.2-308.02 and 18.2-308.011 of the Code of Virginia, relating to concealed handgun permits; records.

[S 600]

Approved April 3, 2014

Be it enacted by the General Assembly of Virginia:

1. That §§ 18.2-308.02 and 18.2-308.011 of the Code of Virginia are amended and reenacted as follows:

§ 18.2-308.02. Application for a concealed handgun permit; Virginia resident or domiciliary.

A. Any person 21 years of age or older may apply in writing to the clerk of the circuit court of the county or city in which he resides, or if he is a member of the United States armed forces, the county or city in which he is domiciled, for a five-year permit to carry a concealed handgun. There shall be no requirement regarding the length of time an applicant has been a resident or domiciliary of the county or city. The application shall be made under oath before a notary or other person qualified to take oaths and shall be made only on a form prescribed by the Department of State Police, in consultation with the Supreme Court, requiring only that information necessary to determine eligibility for the permit. No information or documentation other than that which is allowed on the application in accordance with this section may be requested or required by the clerk or the court.

B. The court shall require proof that the applicant has demonstrated competence with a handgun and the applicant may demonstrate such competence by one of the following, but no applicant shall be required to submit to any additional demonstration of competence, nor shall any proof of demonstrated competence expire:

1. Completing any hunter education or hunter safety course approved by the Department of Game and Inland Fisheries or a similar agency of another state;
2. Completing any National Rifle Association firearms safety or training course;
3. Completing any firearms safety or training course or class available to the general public offered by a law-enforcement agency, junior college, college, or private or public institution or organization or firearms training school utilizing instructors certified by the National Rifle Association or the Department of Criminal Justice Services;
4. Completing any law-enforcement firearms safety or training course or class offered for security guards, investigators, special deputies, or any division or subdivision of law enforcement or security enforcement;
5. Presenting evidence of equivalent experience with a firearm through participation in organized shooting competition or current military service or proof of an honorable discharge from any branch of the armed services;
6. Obtaining or previously having held a license to carry a firearm in the Commonwealth or a locality thereof, unless such license has been revoked for cause;
7. Completing any firearms training or safety course or class, including an electronic, video, or online course, conducted by a state-certified or National Rifle Association-certified firearms instructor;
8. Completing any governmental police agency firearms training course and qualifying to carry a firearm in the course of normal police duties; or
9. Completing any other firearms training which the court deems adequate.

A photocopy of a certificate of completion of any of the courses or classes; an affidavit from the instructor, school, club, organization, or group that conducted or taught such course or class attesting to the completion of the course or class by the applicant; or a copy of any document that shows completion of the course or class or evidences participation in firearms competition shall constitute evidence of qualification under this subsection.

C. The making of a materially false statement in an application under this article shall constitute perjury, punishable as provided in § 18.2-434.

D. The clerk of court shall withhold from public disclosure the applicant's name and any other information contained in a permit application or any order issuing a concealed handgun permit, except that such information shall not be withheld from any law-enforcement officer acting in the performance of his official duties. *The prohibition on public disclosure of*

information under this subsection shall not apply to any reference to the issuance of a concealed handgun permit in any order book before July 1, 2008; however, any other concealed handgun records maintained by the clerk shall be withheld from public disclosure.

E. An application is deemed complete when all information required to be furnished by the applicant, including the fee for a concealed handgun permit as set forth in § 18.2-308.03, is delivered to and received by the clerk of court before or concomitant with the conduct of a state or national criminal history records check.

§ 18.2-308.011. Replacement permits.

A. The clerk of a circuit court that issued a valid concealed handgun permit shall, upon presentation of the valid permit and proof of a new address of residence by the permit holder, issue a replacement permit specifying the permit holder's new address. The clerk of court shall forward the permit holder's new address of residence to the State Police. The State Police may charge a fee not to exceed \$5, and the clerk of court issuing the replacement permit may charge a fee not to exceed \$5. The total amount assessed for processing a replacement permit pursuant to this subsection shall not exceed \$10, with such fees to be paid in one sum to the person who receives the information for the replacement permit.

B. The clerk of a circuit court that issued a valid concealed handgun permit shall, upon submission of a notarized statement by the permit holder that the permit was lost or destroyed *or that the permit holder has undergone a legal name change*, issue a replacement permit. The replacement permit shall have the same expiration date as the permit that was lost ~~or~~ destroyed, *or issued to the permit holder under a previous name*. The clerk shall issue the replacement permit within 10 business days of receiving the notarized statement; and may charge a fee not to exceed \$5.

CHAPTER 550

An Act to amend and reenact § 56-585.1 of the Code of Virginia, relating to electric utility regulation; recovery of costs of offshore wind facilities.

[S 643]

Approved April 3, 2014

Be it enacted by the General Assembly of Virginia:

1. That § 56-585.1 of the Code of Virginia is amended and reenacted as follows:

§ 56-585.1. Generation, distribution, and transmission rates after capped rates terminate or expire.

A. During the first six months of 2009, the Commission shall, after notice and opportunity for hearing, initiate proceedings to review the rates, terms and conditions for the provision of generation, distribution and transmission services of each investor-owned incumbent electric utility. Such proceedings shall be governed by the provisions of Chapter 10 (§ 56-232 et seq.), except as modified herein. In such proceedings the Commission shall determine fair rates of return on common equity applicable to the generation and distribution services of the utility. In so doing, the Commission may use any methodology to determine such return it finds consistent with the public interest, but such return shall not be set lower than the average of the returns on common equity reported to the Securities and Exchange Commission for the three most recent annual periods for which such data are available by not less than a majority, selected by the Commission as specified in subdivision 2 b, of other investor-owned electric utilities in the peer group of the utility, nor shall the Commission set such return more than 300 basis points higher than such average. The peer group of the utility shall be determined in the manner prescribed in subdivision 2 b. The Commission may increase or decrease such combined rate of return by up to 100 basis points based on the generating plant performance, customer service, and operating efficiency of a utility, as compared to nationally recognized standards determined by the Commission to be appropriate for such purposes. In such a proceeding, the Commission shall determine the rates that the utility may charge until such rates are adjusted. If the Commission finds that the utility's combined rate of return on common equity is more than 50 basis points below the combined rate of return as so determined, it shall be authorized to order increases to the utility's rates necessary to provide the opportunity to fully recover the costs of providing the utility's services and to earn not less than such combined rate of return. If the Commission finds that the utility's combined rate of return on common equity is more than 50 basis points above the combined rate of return as so determined, it shall be authorized either (i) to order reductions to the utility's rates it finds appropriate, provided that the Commission may not order such rate reduction unless it finds that the resulting rates will provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than the fair rates of return on common equity applicable to the generation and distribution services; or (ii) to direct that 60 percent of the amount of the utility's earnings that were more than 50 basis points above the fair combined rate of return for calendar year 2008 be credited to customers' bills, in which event such credits shall be amortized over a period of six to 12 months, as determined at the discretion of the Commission, following the effective date of the Commission's order and be allocated among customer classes such that the relationship between the specific customer class rates of return to the overall target rate of return will have the same relationship as the last approved allocation of revenues used to design base rates. Commencing in 2011, the Commission, after notice and opportunity for hearing, shall conduct biennial reviews of the rates, terms and conditions for the provision of generation, distribution and transmission services by each investor-owned incumbent electric utility, subject to the following provisions:

1. Rates, terms and conditions for each service shall be reviewed separately on an unbundled basis, and such reviews shall be conducted in a single, combined proceeding. The first such review shall utilize the two successive 12-month test

periods ending December 31, 2010. However, the Commission may, in its discretion, elect to stagger its biennial reviews of utilities by utilizing the two successive 12-month test periods ending December 31, 2010, for a Phase I Utility, and utilizing the two successive 12-month test periods ending December 31, 2011, for a Phase II Utility, with subsequent proceedings utilizing the two successive 12-month test periods ending December 31 immediately preceding the year in which such proceeding is conducted. For purposes of this section, a Phase I Utility is an investor-owned incumbent electric utility that was, as of July 1, 1999, not bound by a rate case settlement adopted by the Commission that extended in its application beyond January 1, 2002, and a Phase II Utility is an investor-owned incumbent electric utility that was bound by such a settlement.

2. Subject to the provisions of subdivision 6, fair rates of return on common equity applicable separately to the generation and distribution services of such utility, and for the two such services combined, shall be determined by the Commission during each such biennial review, as follows:

a. The Commission may use any methodology to determine such return it finds consistent with the public interest, but such return shall not be set lower than the average of the returns on common equity reported to the Securities and Exchange Commission for the three most recent annual periods for which such data are available by not less than a majority, selected by the Commission as specified in subdivision 2 b, of other investor-owned electric utilities in the peer group of the utility subject to such biennial review, nor shall the Commission set such return more than 300 basis points higher than such average.

b. In selecting such majority of peer group investor-owned electric utilities, the Commission shall first remove from such group the two utilities within such group that have the lowest reported returns of the group, as well as the two utilities within such group that have the highest reported returns of the group, and the Commission shall then select a majority of the utilities remaining in such peer group. In its final order regarding such biennial review, the Commission shall identify the utilities in such peer group it selected for the calculation of such limitation. For purposes of this subdivision, an investor-owned electric utility shall be deemed part of such peer group if (i) its principal operations are conducted in the southeastern United States east of the Mississippi River in either the states of West Virginia or Kentucky or in those states south of Virginia, excluding the state of Tennessee, (ii) it is a vertically-integrated electric utility providing generation, transmission and distribution services whose facilities and operations are subject to state public utility regulation in the state where its principal operations are conducted, (iii) it had a long-term bond rating assigned by Moody's Investors Service of at least Baa at the end of the most recent test period subject to such biennial review, and (iv) it is not an affiliate of the utility subject to such biennial review.

c. The Commission may, consistent with its precedent for incumbent electric utilities prior to the enactment of Chapters 888 and 933 of the Acts of Assembly of 2007, increase or decrease the utility's combined rate of return based on the Commission's consideration of the utility's performance.

d. In any Current Proceeding, the Commission shall determine whether the Current Return has increased, on a percentage basis, above the Initial Return by more than the increase, expressed as a percentage, in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, since the date on which the Commission determined the Initial Return. If so, the Commission may conduct an additional analysis of whether it is in the public interest to utilize such Current Return for the Current Proceeding then pending. A finding of whether the Current Return justifies such additional analysis shall be made without regard to any enhanced rate of return on common equity awarded pursuant to the provisions of subdivision 6. Such additional analysis shall include, but not be limited to, a consideration of overall economic conditions, the level of interest rates and cost of capital with respect to business and industry, in general, as well as electric utilities, the current level of inflation and the utility's cost of goods and services, the effect on the utility's ability to provide adequate service and to attract capital if less than the Current Return were utilized for the Current Proceeding then pending, and such other factors as the Commission may deem relevant. If, as a result of such analysis, the Commission finds that use of the Current Return for the Current Proceeding then pending would not be in the public interest, then the lower limit imposed by subdivision 2 a on the return to be determined by the Commission for such utility shall be calculated, for that Current Proceeding only, by increasing the Initial Return by a percentage at least equal to the increase, expressed as a percentage, in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, since the date on which the Commission determined the Initial Return. For purposes of this subdivision:

"Current Proceeding" means any proceeding conducted under any provisions of this subsection that require or authorize the Commission to determine a fair combined rate of return on common equity for a utility and that will be concluded after the date on which the Commission determined the Initial Return for such utility.

"Current Return" means the minimum fair combined rate of return on common equity required for any Current Proceeding by the limitation regarding a utility's peer group specified in subdivision 2 a.

"Initial Return" means the fair combined rate of return on common equity determined for such utility by the Commission on the first occasion after July 1, 2009, under any provision of this subsection pursuant to the provisions of subdivision 2 a.

e. In addition to other considerations, in setting the return on equity within the range allowed by this section, the Commission shall strive to maintain costs of retail electric energy that are cost competitive with costs of retail electric energy provided by the other peer group investor-owned electric utilities.

f. The determination of such returns shall be made by the Commission on a stand-alone basis, and specifically without regard to any return on common equity or other matters determined with regard to facilities described in subdivision 6.

g. If the combined rate of return on common equity earned by the generation and distribution services is no more than 50 basis points above or below the return as so determined or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, such return is no more than 70 basis points above or below the return as so determined, such combined return shall not be considered either excessive or insufficient, respectively. However, for any test period commencing after December 31, 2012, for a Phase II Utility, and after December 31, 2013, for a Phase I Utility, if the utility has, during the test period or periods under review, earned below the return as so determined, whether or not such combined return is within 70 basis points of the return as so determined, the utility may petition the Commission for approval of an increase in rates in accordance with the provisions of clause (i) of subdivision A 8 as if it had earned more than 70 basis points below a fair combined rate of return, and such proceeding shall otherwise be conducted in accordance with the provisions of this section.

h. Any amount of a utility's earnings directed by the Commission to be credited to customers' bills pursuant to this section shall not be considered for the purpose of determining the utility's earnings in any subsequent biennial review.

3. Each such utility shall make a biennial filing by March 31 of every other year, beginning in 2011, consisting of the schedules contained in the Commission's rules governing utility rate increase applications; however, if the Commission elects to stagger the dates of the biennial reviews of utilities as provided in subdivision 1, then Phase I utilities shall commence biennial filings in 2011 and Phase II utilities shall commence biennial filings in 2012. Such filing shall encompass the two successive 12-month test periods ending December 31 immediately preceding the year in which such proceeding is conducted, and in every such case the filing for each year shall be identified separately and shall be segregated from any other year encompassed by the filing. If the Commission determines that rates should be revised or credits be applied to customers' bills pursuant to subdivision 8 or 9, any rate adjustment clauses previously implemented pursuant to subdivision 5 or those related to facilities utilizing simple-cycle combustion turbines described in subdivision 6, shall be combined with the utility's costs, revenues and investments until the amounts that are the subject of such rate adjustment clauses are fully recovered. The Commission shall combine such clauses with the utility's costs, revenues and investments only after it makes its initial determination with regard to necessary rate revisions or credits to customers' bills, and the amounts thereof, but after such clauses are combined as herein specified, they shall thereafter be considered part of the utility's costs, revenues, and investments for the purposes of future biennial review proceedings. A Phase I utility shall delay for one year the filing of its biennial review from March 31, 2013, to March 31, 2014, and shall not defer on its books for future recovery any costs incurred during calendar year 2011, other than as provided in subdivision A 7 of this section or § 56-249.6, and its subsequent biennial filing shall be made by March 31, 2016, and every two years thereafter.

4. The following costs incurred by the utility shall be deemed reasonable and prudent: (i) costs for transmission services provided to the utility by the regional transmission entity of which the utility is a member, as determined under applicable rates, terms and conditions approved by the Federal Energy Regulatory Commission, and (ii) costs charged to the utility that are associated with demand response programs approved by the Federal Energy Regulatory Commission and administered by the regional transmission entity of which the utility is a member. Upon petition of a utility at any time after the expiration or termination of capped rates, but not more than once in any 12-month period, the Commission shall approve a rate adjustment clause under which such costs, including, without limitation, costs for transmission service, charges for new and existing transmission facilities, administrative charges, and ancillary service charges designed to recover transmission costs, shall be recovered on a timely and current basis from customers. Retail rates to recover these costs shall be designed using the appropriate billing determinants in the retail rate schedules.

5. A utility may at any time, after the expiration or termination of capped rates, but not more than once in any 12-month period, petition the Commission for approval of one or more rate adjustment clauses for the timely and current recovery from customers of the following costs:

a. Incremental costs described in clause (vi) of subsection B of § 56-582 incurred between July 1, 2004, and the expiration or termination of capped rates, if such utility is, as of July 1, 2007, deferring such costs consistent with an order of the Commission entered under clause (vi) of subsection B of § 56-582. The Commission shall approve such a petition allowing the recovery of such costs that comply with the requirements of clause (vi) of subsection B of § 56-582;

b. Projected and actual costs for the utility to design and operate fair and effective peak-shaving programs. The Commission shall approve such a petition if it finds that the program is in the public interest; provided that the Commission shall allow the recovery of such costs as it finds are reasonable;

c. Projected and actual costs for the utility to design, implement, and operate energy efficiency programs, including a margin to be recovered on operating expenses, which margin for the purposes of this section shall be equal to the general rate of return on common equity determined as described in subdivision A 2 of this section. The Commission shall only approve such a petition if it finds that the program is in the public interest. As part of such cost recovery, the Commission, if requested by the utility, shall allow for the recovery of revenue reductions related to energy efficiency programs. The Commission shall only allow such recovery to the extent that the Commission determines such revenue has not been recovered through margins from incremental off-system sales as defined in § 56-249.6 that are directly attributable to energy efficiency programs.

None of the costs of new energy efficiency programs of an electric utility, including recovery of revenue reductions, shall be assigned to any customer that has a verifiable history of having used more than 10 megawatts of demand from a

single meter of delivery. Nor shall any of the costs of new energy efficiency programs of an electric utility, including recovery of revenue reductions, be incurred by any large general service customer as defined herein that has notified the utility of non-participation in such energy efficiency program or programs. A large general service customer is a customer that has a verifiable history of having used more than 500 kilowatts of demand from a single meter of delivery. Non-participation in energy efficiency programs shall be allowed by the Commission if the large general service customer has, at the customer's own expense, implemented energy efficiency programs that have produced or will produce measured and verified results consistent with industry standards and other regulatory criteria stated in this section. The Commission shall, no later than November 15, 2009, promulgate rules and regulations to accommodate the process under which such large general service customers shall file notice for such an exemption and (i) establish the administrative procedures by which eligible customers will notify the utility and (ii) define the standard criteria that must be satisfied by an applicant in order to notify the utility. In promulgating such rules and regulations, the Commission may also specify the timing as to when a utility shall accept and act on such notice, taking into consideration the utility's integrated resource planning process as well as its administration of energy efficiency programs that are approved for cost recovery by the Commission. The notice of non-participation by a large general service customer, to be given by March 1 of a given year, shall be for the duration of the service life of the customer's energy efficiency program. The Commission on its own motion may initiate steps necessary to verify such non-participants' achievement of energy efficiency if the Commission has a body of evidence that the non-participant has knowingly misrepresented its energy efficiency achievement. A utility shall not charge such large general service customer, as defined by the Commission, for the costs of installing energy efficiency equipment beyond what is required to provide electric service and meter such service on the customer's premises if the customer provides, at the customer's expense, equivalent energy efficiency equipment. In all relevant proceedings pursuant to this section, the Commission shall take into consideration the goals of economic development, energy efficiency and environmental protection in the Commonwealth;

d. Projected and actual costs of participation in a renewable energy portfolio standard program pursuant to § 56-585.2 that are not recoverable under subdivision 6. The Commission shall approve such a petition allowing the recovery of such costs as are provided for in a program approved pursuant to § 56-585.2; and

e. Projected and actual costs of projects that the Commission finds to be necessary to comply with state or federal environmental laws or regulations applicable to generation facilities used to serve the utility's native load obligations. The Commission shall approve such a petition if it finds that such costs are necessary to comply with such environmental laws or regulations.

The Commission shall have the authority to determine the duration or amortization period for any adjustment clause approved under this subdivision.

6. To ensure a reliable and adequate supply of electricity, to meet the utility's projected native load obligations and to promote economic development, a utility may at any time, after the expiration or termination of capped rates, petition the Commission for approval of a rate adjustment clause for recovery on a timely and current basis from customers of the costs of (i) a coal-fueled generation facility that utilizes Virginia coal and is located in the coalfield region of the Commonwealth, as described in § 15.2-6002, regardless of whether such facility is located within or without the utility's service territory, (ii) one or more other generation facilities, or (iii) one or more major unit modifications of generation facilities; however, such a petition concerning facilities described in clause (ii) that utilize nuclear power, facilities described in clause (ii) that are coal-fueled and will be built by a Phase I utility, or facilities described in clause (i) may also be filed before the expiration or termination of capped rates. A utility that constructs any such facility shall have the right to recover the costs of the facility, as accrued against income, through its rates, including projected construction work in progress, and any associated allowance for funds used during construction, planning, development and construction costs, life-cycle costs, and costs of infrastructure associated therewith, plus, as an incentive to undertake such projects, an enhanced rate of return on common equity calculated as specified below. A utility seeking approval to construct a generating facility shall demonstrate that it has considered and weighed alternative options, including third-party market alternatives, in its selection process. The costs of the facility, other than return on projected construction work in progress and allowance for funds used during construction, shall not be recovered prior to the date the facility begins commercial operation. Such enhanced rate of return on common equity shall be applied to allowance for funds used during construction and to construction work in progress during the construction phase of the facility and shall thereafter be applied to the entire facility during the first portion of the service life of the facility. The first portion of the service life shall be as specified in the table below; however, the Commission shall determine the duration of the first portion of the service life of any facility, within the range specified in the table below, which determination shall be consistent with the public interest and shall reflect the Commission's determinations regarding how critical the facility may be in meeting the energy needs of the citizens of the Commonwealth and the risks involved in the development of the facility. After the first portion of the service life of the facility is concluded, the utility's general rate of return shall be applied to such facility for the remainder of its service life. As used herein, the service life of the facility shall be deemed to begin on the date the facility begins commercial operation, and such service life shall be deemed equal in years to the life of that facility as used to calculate the utility's depreciation expense. Such enhanced rate of return on common equity shall be calculated by adding the basis points specified in the table below to the utility's general rate of return, and such enhanced rate of return shall apply only to the facility that is the subject of such rate adjustment clause. Allowance for funds used during construction shall be calculated for any such facility utilizing the utility's actual capital structure and overall cost of capital, including an enhanced rate of return on common equity as

determined pursuant to this subdivision, until such construction work in progress is included in rates. The construction of any facility described in clause (i) is in the public interest, and in determining whether to approve such facility, the Commission shall liberally construe the provisions of this title. The basis points to be added to the utility's general rate of return to calculate the enhanced rate of return on common equity, and the first portion of that facility's service life to which such enhanced rate of return shall be applied, shall vary by type of facility, as specified in the following table:

Type of Generation Facility	Basis Points	First Portion of Service Life
Nuclear-powered	200	Between 12 and 25 years
Carbon capture compatible, clean-coal powered	200	Between 10 and 20 years
Renewable powered, other than landfill gas powered	200	Between 5 and 15 years
Coalbed methane gas powered	150	Between 5 and 15 years
Landfill gas powered	200	Between 5 and 15 years
Conventional coal or combined-cycle combustion turbine	100	Between 10 and 20 years

For generating facilities other than those utilizing nuclear power or those utilizing energy derived from offshore wind, as of July 1, 2013, only those facilities as to which a rate adjustment clause under this subdivision has been previously approved by the Commission, or as to which a petition for approval of such rate adjustment clause was filed with the Commission, on or before January 1, 2013, shall be entitled to the enhanced rate of return on common equity as specified in the above table during the construction phase of the facility and the approved first portion of its service life.

For generating facilities within the Commonwealth utilizing nuclear power or those utilizing energy derived from offshore wind projects located in waters off the Commonwealth's Atlantic shoreline, such facilities shall continue to be eligible for an enhanced rate of return on common equity during the construction phase of the facility and the approved first portion of its service life of between 12 and 25 years in the case of a facility utilizing nuclear power and for a service life of between 5 and 15 years in the case of a facility utilizing energy derived from offshore wind, provided, however, that, as of July 1, 2013, the enhanced return for such facilities shall be 100 basis points, which shall be added to the utility's general rate of return as determined under subdivision 2. *Thirty percent of all costs of such a facility utilizing energy derived from offshore wind that the utility incurred between July 1, 2007, and December 31, 2013, and all of such costs incurred after December 31, 2013, may be deferred by the utility and recovered through a rate adjustment clause under this subdivision at such time as the Commission provides in an order approving such a rate adjustment clause. The remaining 70 percent of all costs of such a facility that the utility incurred between July 1, 2007, and December 31, 2013, shall not be deferred for recovery through a rate adjustment clause under this subdivision; however, such remaining 70 percent of all costs shall be recovered ratably through existing base rates as determined by the Commission in the test periods under review in the utility's next biennial review filed after July 1, 2014.*

In connection with planning to meet forecasted demand for electric generation supply and assure the adequate and sufficient reliability of service, consistent with § 56-598, planning and development activities for a new generating facility or facilities utilizing energy derived from offshore wind are in the public interest.

Generation facilities described in clause (ii) that utilize simple-cycle combustion turbines shall not receive an enhanced rate of return on common equity as described herein, but instead shall receive the utility's general rate of return during the construction phase of the facility and, thereafter, for the entire service life of the facility.

As used in this subdivision, a generation facility is (a) "coalbed methane gas powered" if the facility is fired at least 50 percent by coalbed methane gas, as such term is defined in § 45.1-361.1, produced from wells located in the Commonwealth, and (b) "landfill gas powered" if the facility is fired by methane or other combustible gas produced by the anaerobic digestion or decomposition of biodegradable materials in a solid waste management facility licensed by the Waste Management Board. A landfill gas powered facility includes, in addition to the generation facility itself, the equipment used in collecting, drying, treating, and compressing the landfill gas and in transmitting the landfill gas from the solid waste management facility where it is collected to the generation facility where it is combusted.

For purposes of this subdivision, "general rate of return" means the fair combined rate of return on common equity as it is determined by the Commission from time to time for such utility pursuant to subdivision 2. In any proceeding under this subdivision conducted prior to the conclusion of the first biennial review for such utility, the Commission shall determine a general rate of return for such utility in the same manner as it would in a biennial review proceeding.

Notwithstanding any other provision of this subdivision, if the Commission finds during the biennial review conducted for a Phase II utility in 2018 that such utility has not filed applications for all necessary federal and state regulatory approvals to construct one or more nuclear-powered or coal-fueled generation facilities that would add a total capacity of at least 1500 megawatts to the amount of the utility's generating resources as such resources existed on July 1, 2007, or that, if all such approvals have been received, that the utility has not made reasonable and good faith efforts to construct one or more such facilities that will provide such additional total capacity within a reasonable time after obtaining such approvals, then the Commission, if it finds it in the public interest, may reduce on a prospective basis any enhanced rate of return on common equity previously applied to any such facility to no less than the general rate of return for such utility and may

apply no less than the utility's general rate of return to any such facility for which the utility seeks approval in the future under this subdivision.

7. Any petition filed pursuant to subdivision 4, 5, or 6 shall be considered by the Commission on a stand-alone basis without regard to the other costs, revenues, investments, or earnings of the utility. Any costs incurred by a utility prior to the filing of such petition, or during the consideration thereof by the Commission, that are proposed for recovery in such petition and that are related to clause (a) of subdivision 5, or that are related to facilities and projects described in clause (i) of subdivision 6, shall be deferred on the books and records of the utility until the Commission's final order in the matter, or until the implementation of any applicable approved rate adjustment clauses, whichever is later. ~~Any~~ *Except as otherwise provided in subdivision 6, any* costs prudently incurred on or after July 1, 2007, by a utility prior to the filing of such petition, or during the consideration thereof by the Commission, that are proposed for recovery in such petition and that are related to facilities and projects described in clause (ii) of subdivision 6 that utilize nuclear power, or coal-fueled facilities and projects described in clause (ii) of subdivision 6 if such coal-fueled facilities will be built by a Phase I Utility, shall be deferred on the books and records of the utility until the Commission's final order in the matter, or until the implementation of any applicable approved rate adjustment clauses, whichever is later. Any costs prudently incurred after the expiration or termination of capped rates related to other matters described in subdivisions 4, 5, or 6 shall be deferred beginning only upon the expiration or termination of capped rates, provided, however, that no provision of this act shall affect the rights of any parties with respect to the rulings of the Federal Energy Regulatory Commission in PJM Interconnection LLC and Virginia Electric and Power Company, 109 F.E.R.C. P 61,012 (2004). The Commission's final order regarding any petition filed pursuant to subdivision 4, 5, or 6 shall be entered not more than three months, eight months, and nine months, respectively, after the date of filing of such petition. If such petition is approved, the order shall direct that the applicable rate adjustment clause be applied to customers' bills not more than 60 days after the date of the order, or upon the expiration or termination of capped rates, whichever is later.

8. In any biennial review proceeding, the following utility generation and distribution costs not proposed for recovery under any other subdivision of this subsection, as recorded per books by the utility for financial reporting purposes and accrued against income, shall be attributed to the test periods under review: costs associated with asset impairments related to early retirement determinations made by the utility prior to December 31, 2012, for utility generation plant; costs associated with severe weather events; and costs associated with natural disasters. Such costs shall be deemed to have been recovered from customers through rates for generation and distribution services in effect during the test periods under review unless such costs, individually or in the aggregate, together with the utility's other costs, revenues, and investments to be recovered through rates for generation and distribution services, result in the utility's earned return on its generation and distribution services for the combined test periods under review to fall more than 50 basis points below the fair combined rate of return authorized under subdivision 2 for such periods or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, to fall more than 70 basis points below the fair combined rate of return authorized under subdivision 2 for such periods. In such cases, the Commission shall, in such biennial review proceeding, authorize deferred recovery of such costs and allow the utility to amortize and recover such deferred costs over future periods as determined by the Commission. The aggregate amount of such deferred costs shall not exceed an amount that would, together with the utility's other costs, revenues, and investments to be recovered through rates for generation and distribution services, cause the utility's earned return on its generation and distribution services to exceed the fair rate of return authorized under subdivision 2, less 50 basis points, for the combined test periods under review or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, to exceed the fair rate of return authorized under subdivision 2 less 70 basis points. Nothing in this section shall limit the Commission's authority, pursuant to the provisions of Chapter 10 (§ 56-232 et seq.), including specifically § 56-235.2, following the review of combined test period earnings of the utility in a biennial review, for normalization of nonrecurring test period costs and annualized adjustments for future costs, in determining any appropriate increase or decrease in the utility's rates for generation and distribution services pursuant to clause (i) or (iii).

If the Commission determines as a result of such biennial review that:

(i) The utility has, during the test period or periods under review, considered as a whole, earned more than 50 basis points below a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points below a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, the Commission shall order increases to the utility's rates necessary to provide the opportunity to fully recover the costs of providing the utility's services and to earn not less than such fair combined rate of return, using the most recently ended 12-month test period as the basis for determining the amount of the rate increase necessary. However, the Commission may not order such rate increase unless it finds that the resulting rates are necessary to provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than a fair combined rate of return on both its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, using the most recently ended 12-month test period as the basis for determining the permissibility of any rate increase under the standards of this sentence, and the amount thereof;

(ii) The utility has, during the test period or test periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing

after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, the Commission shall, subject to the provisions of subdivision 9, direct that 60 percent of the amount of such earnings that were more than 50 basis points, or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, that 70 percent of the amount of such earnings that were more than 70 basis points, above such fair combined rate of return for the test period or periods under review, considered as a whole, shall be credited to customers' bills. Any such credits shall be amortized over a period of six to 12 months, as determined at the discretion of the Commission, following the effective date of the Commission's order, and shall be allocated among customer classes such that the relationship between the specific customer class rates of return to the overall target rate of return will have the same relationship as the last approved allocation of revenues used to design base rates; or

(iii) Such biennial review is the second consecutive biennial review in which the utility has, during the test period or test periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matter determined with respect to facilities described in subdivision 6, the Commission shall, subject to the provisions of subdivision 9 and in addition to the actions authorized in clause (ii) of this subdivision, also order reductions to the utility's rates it finds appropriate. However, the Commission may not order such rate reduction unless it finds that the resulting rates will provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, using the most recently ended 12-month test period as the basis for determining the permissibility of any rate reduction under the standards of this sentence, and the amount thereof.

The Commission's final order regarding such biennial review shall be entered not more than eight months after the date of filing, and any revisions in rates or credits so ordered shall take effect not more than 60 days after the date of the order. The fair combined rate of return on common equity determined pursuant to subdivision 2 in such biennial review shall apply, for purposes of reviewing the utility's earnings on its rates for generation and distribution services, to the entire two successive 12-month test periods ending December 31 immediately preceding the year of the utility's subsequent biennial review filing under subdivision 3.

9. If, as a result of a biennial review required under this subsection and conducted with respect to any test period or periods under review ending later than December 31, 2010 (or, if the Commission has elected to stagger its biennial reviews of utilities as provided in subdivision 1, under review ending later than December 31, 2010, for a Phase I Utility, or December 31, 2011, for a Phase II Utility), the Commission finds, with respect to such test period or periods considered as a whole, that (i) any utility has, during the test period or periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, and (ii) the total aggregate regulated rates of such utility at the end of the most recently-ended 12-month test period exceeded the annual increases in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, compounded annually, when compared to the total aggregate regulated rates of such utility as determined pursuant to the biennial review conducted for the base period, the Commission shall, unless it finds that such action is not in the public interest or that the provisions of clauses (ii) and (iii) of subdivision 8 are more consistent with the public interest, direct that any or all earnings for such test period or periods under review, considered as a whole that were more than 50 basis points, or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points, above such fair combined rate of return shall be credited to customers' bills, in lieu of the provisions of clauses (ii) and (iii) of subdivision 8. Any such credits shall be amortized and allocated among customer classes in the manner provided by clause (ii) of subdivision 8. For purposes of this subdivision:

"Base period" means (i) the test period ending December 31, 2010 (or, if the Commission has elected to stagger its biennial reviews of utilities as provided in subdivision 1, the test period ending December 31, 2010, for a Phase I Utility, or December 31, 2011, for a Phase II Utility), or (ii) the most recent test period with respect to which credits have been applied to customers' bills under the provisions of this subdivision, whichever is later.

"Total aggregate regulated rates" shall include: (i) fuel tariffs approved pursuant to § 56-249.6, except for any increases in fuel tariffs deferred by the Commission for recovery in periods after December 31, 2010, pursuant to the provisions of clause (ii) of subsection C of § 56-249.6; (ii) rate adjustment clauses implemented pursuant to subdivision 4 or 5; (iii) revisions to the utility's rates pursuant to clause (i) of subdivision 8; (iv) revisions to the utility's rates pursuant to the Commission's rules governing utility rate increase applications, as permitted by subsection B, occurring after July 1, 2009; and (v) base rates in effect as of July 1, 2009.

10. For purposes of this section, the Commission shall regulate the rates, terms and conditions of any utility subject to this section on a stand-alone basis utilizing the actual end-of-test period capital structure and cost of capital of such utility, unless the Commission finds that the debt to equity ratio of such capital structure is unreasonable for such utility, in which case the Commission may utilize a debt to equity ratio that it finds to be reasonable for such utility in determining any rate adjustment pursuant to clauses (i) and (iii) of subdivision 8, and without regard to the cost of capital, capital structure, revenues, expenses or investments of any other entity with which such utility may be affiliated. In particular, and without limitation, the Commission shall determine the federal and state income tax costs for any such utility that is part of a publicly traded, consolidated group as follows: (i) such utility's apportioned state income tax costs shall be calculated according to the applicable statutory rate, as if the utility had not filed a consolidated return with its affiliates, and (ii) such utility's federal income tax costs shall be calculated according to the applicable federal income tax rate and shall exclude any consolidated tax liability or benefit adjustments originating from any taxable income or loss of its affiliates.

B. Nothing in this section shall preclude an investor-owned incumbent electric utility from applying for an increase in rates pursuant to § 56-245 or the Commission's rules governing utility rate increase applications; however, in any such filing, a fair rate of return on common equity shall be determined pursuant to subdivision A 2. Nothing in this section shall preclude such utility's recovery of fuel and purchased power costs as provided in § 56-249.6.

C. Except as otherwise provided in this section, the Commission shall exercise authority over the rates, terms and conditions of investor-owned incumbent electric utilities for the provision of generation, transmission and distribution services to retail customers in the Commonwealth pursuant to the provisions of Chapter 10 (§ 56-232 et seq.), including specifically § 56-235.2.

D. Nothing in this section shall preclude the Commission from determining, during any proceeding authorized or required by this section, the reasonableness or prudence of any cost incurred or projected to be incurred, by a utility in connection with the subject of the proceeding. A determination of the Commission regarding the reasonableness or prudence of any such cost shall be consistent with the Commission's authority to determine the reasonableness or prudence of costs in proceedings pursuant to the provisions of Chapter 10 (§ 56-232 et seq.). In determining the reasonableness or prudence of a utility providing energy and capacity to its customers from renewable energy resources, the Commission shall consider the extent to which such renewable energy resources, whether utility-owned or by contract, further the objectives of the Commonwealth Energy Policy set forth in §§ 67-101 and 67-102, and shall also consider whether the costs of such resources is likely to result in unreasonable increases in rates paid by consumers.

E. The Commission shall promulgate such rules and regulations as may be necessary to implement the provisions of this section.

CHAPTER 551

An Act to amend and reenact § 58.1-608.3 of the Code of Virginia, relating to sales and use tax; distribution of certain revenue.

[S 673]

Approved April 3, 2014

Be it enacted by the General Assembly of Virginia:

1. That § 58.1-608.3 of the Code of Virginia is amended and reenacted as follows:

§ 58.1-608.3. Entitlement to certain sales tax revenues.

A. As used in this section, the following words and terms have the following meanings, unless some other meaning is plainly intended:

"Bonds" means any obligations of a municipality for the payment of money.

"Cost," as applied to any public facility or to extensions or additions to any public facility, includes: (i) the purchase price of any public facility acquired by the municipality or the cost of acquiring all of the capital stock of the corporation owning the public facility and the amount to be paid to discharge any obligations in order to vest title to the public facility or any part of it in the municipality; (ii) expenses incident to determining the feasibility or practicability of the public facility; (iii) the cost of plans and specifications, surveys and estimates of costs and of revenues; (iv) the cost of all land, property, rights, easements and franchises acquired; (v) the cost of improvements, property or equipment; (vi) the cost of engineering, legal and other professional services; (vii) the cost of construction or reconstruction; (viii) the cost of all labor, materials, machinery and equipment; (ix) financing charges; (x) interest before and during construction and for up to one year after completion of construction; (xi) start-up costs and operating capital; (xii) payments by a municipality of its share of the cost of any multijurisdictional public facility; (xiii) administrative expense; (xiv) any amounts to be deposited to reserve or replacement funds; and (xv) other expenses as may be necessary or incident to the financing of the public facility. Any obligation or expense incurred by the public facility in connection with any of the foregoing items of cost may be regarded as a part of the cost.

"Municipality" means any county, city, town, authority, commission, or other public entity.

"Public facility" means (i) any auditorium, coliseum, convention center, sports facility that is designed for use primarily as a baseball stadium for a minor league professional baseball affiliated team or structures attached thereto, or conference center, which is owned by a Virginia county, city, town, authority, or other public entity and where exhibits,

meetings, conferences, conventions, seminars, or similar public events may be conducted; (ii) any hotel which is owned by a foundation whose sole purpose is to benefit a state-supported university and which is attached to and is an integral part of such facility, together with any lands reasonably necessary for the conduct of the operation of such events; (iii) any hotel which is attached to and is an integral part of such facility; or (iv) any hotel that is adjacent to a convention center owned by a public entity and where the hotel owner enters into a public-private partnership whereby the locality contributes infrastructure, real property, or conference space. However, such public facility must be located in the City of Fredericksburg, City of Hampton, City of Lynchburg, City of Newport News, City of Norfolk, City of Portsmouth, City of Richmond, City of Roanoke, City of Salem, City of Staunton, City of Suffolk, City of Virginia Beach, City of Winchester, or Town of Wise. Any property, real, personal, or mixed, which is necessary or desirable in connection with any such auditorium, coliseum, convention center, baseball stadium or conference center, including, without limitation, facilities for food preparation and serving, parking facilities, and administration offices, is encompassed within this definition. However, structures commonly referred to as "shopping centers" or "malls" shall not constitute a public facility hereunder. A public facility shall not include residential condominiums, townhomes, or other residential units. In addition, only a new public facility, or a public facility which will undergo a substantial and significant renovation or expansion, shall be eligible under subsection C. A new public facility is one whose construction began after December 31, 1991. A substantial and significant renovation entails a project whose cost is at least 50 percent of the original cost of the facility being renovated and shall have begun after December 31, 1991. A substantial and significant expansion entails an increase in floor space of at least 50 percent over that existing in the preexisting facility and shall have begun after December 31, 1991; or an increase in floor space of at least 10 percent over that existing in a public facility that qualified as such under this section and was constructed after December 31, 1991.

"Sales tax revenues" means such tax collections realized under the Virginia Retail Sales and Use Tax Act (§ 58.1-600 et seq.), as limited herein. "Sales tax revenues" does not include the revenue generated by (i) the 0.5 percent sales and use tax increase enacted by the 1986 Special Session of the General Assembly which shall be paid to the Transportation Trust Fund as defined in § 33.1-23.03:1, (ii) the 1.0 percent of the state sales and use tax revenue distributed among the counties and cities of the Commonwealth pursuant to subsection D of § 58.1-638 on the basis of school age population, or (iii) any sales and use tax revenues generated by increases or allocation changes imposed by the 2013 Session of the General Assembly. For a public facility that is a sports facility, "sales tax revenues" shall include such revenues generated by transactions taking place upon the premises of a baseball stadium or structures attached thereto.

B. Notwithstanding the definition of "public facility" in subsection A, a development project that meets the requirements for a "development of regional impact" set forth herein shall be deemed to be a public facility under the provisions of this section. The locality in which the public facility is located shall be entitled to all sales tax revenues generated by transactions taking place at such public facility solely to pay the cost of any bonds issued to pay the cost, or portion thereof, of such public facility pursuant to subsection C. For purposes of this subsection, the development of regional impact must be located in the City of Bristol.

For purposes of this subsection, a "development of regional impact" means a development project (i) towards which the locality contributes infrastructure or real property as part of a public-private partnership with the developer that is equal to at least 20 percent of the aggregate cost of development, (ii) that is reasonably expected to require a capital investment of at least \$50 million, (iii) that is reasonably expected to generate at least \$5 million annually in state sales and use tax revenue from sales within the development, (iv) that is reasonably expected to attract at least one million visitors annually, (v) that is reasonably expected to create at least 2,000 permanent jobs, (vi) that is located in a locality that had a rate of unemployment at least three percentage points higher than the statewide average in November 2011, and (vii) that is located in a locality that is adjacent to a state that has adopted a Border Region Retail Tourism Development District Act. Within 30 days from the date of notification by a locality that it intends to contribute infrastructure or real property as part of a public-private partnership with the developer of a development of regional impact, the Department of Taxation shall review the findings of the locality with respect to clauses (i) through (vi) and shall file a written report with the Chairmen of the House Committee on Finance, the House Committee on Appropriations, and the Senate Committee on Finance.

C. Any municipality which has issued bonds (i) after December 31, 1991, but before January 1, 1996, (ii) on or after January 1, 1998, but before July 1, 1999, (iii) on or after January 1, 1999, but before July 1, 2001, (iv) on or after July 1, 2000, but before July 1, 2003, (v) on or after July 1, 2001, but before July 1, 2005, (vi) on or after July 1, 2004, but before July 1, 2007, (vii) on or after July 1, 2009, but before July 1, 2012, (viii) on or after January 1, 2011, but prior to July 1, 2015, or (ix) on or after January 1, 2013, but prior to July 1, 2017, to pay the cost, or portion thereof, of any public facility shall be entitled to all sales tax revenues generated by transactions taking place in such public facility. Such entitlement shall continue for the lifetime of such bonds, ~~which entitlement shall not exceed 35 years, or any refinancing or refunding thereof, but in no event shall such entitlement exceed 35 years from the initial date that any bonds were issued to pay the cost, or a portion thereof, of any public facility,~~ and all such sales tax revenues shall be applied to repayment of the bonds. The State Comptroller shall remit such sales tax revenues to the municipality on a quarterly basis, subject to such reasonable processing delays as may be required by the Department of Taxation to calculate the actual net sales tax revenues derived from the public facility. The State Comptroller shall make such remittances to eligible municipalities, as provided herein, notwithstanding any provisions to the contrary in the Virginia Retail Sales and Use Tax Act (§ 58.1-600 et seq.). No such remittances shall be made until construction is completed and, in the case of a renovation or expansion, until the governing body of the municipality has certified that the renovation or expansion is completed; *however, in the case of any*

public facility consisting of more than one building or structure, such remittances shall be made on a quarterly basis beginning with the first quarter in which any sales tax revenue is generated by transactions taking place at any building or structure within such public facility, whether or not construction of all or any portion, phase, building, or structure of such public facility has been completed.

D. Nothing in this section shall be construed as authorizing the pledging of the faith and credit of the Commonwealth of Virginia, or any of its revenues, for the payment of any bonds. Any appropriation made pursuant to this section shall be made only from sales tax revenues derived from the public facility for which bonds may have been issued to pay the cost, in whole or in part, of such public facility.

CHAPTER 552

An Act to amend and reenact § 24.2-712 of the Code of Virginia, relating to elections; central absentee voter precincts.

[H 97]

Approved April 4, 2014

Be it enacted by the General Assembly of Virginia:

1. That § 24.2-712 of the Code of Virginia is amended and reenacted as follows:

§ 24.2-712. Central absentee voter precincts; counting ballots.

A. Notwithstanding any other provision of law, the governing body of each county or city may establish one or more central absentee voter precincts in the courthouse or other public buildings for the purpose of receiving, counting, and recording absentee ballots cast in the county or city. The decision to establish any absentee voter precinct shall be made by the governing body by ordinance; the ordinance shall state for which elections the precinct shall be used. The decision to abolish any absentee voter precinct shall be made by the governing body by ordinance. Immediate notification of either decision shall be sent to the State Board and the electoral board.

D. The appointed actuary shall not be liable for damages to any person, other than the insurer and the Commission for any act, error, omission, decision, or conduct with respect to the actuary's opinion, except in cases of fraud or willful misconduct on the part of the actuary.

e. In the case of an opinion required to be submitted by a foreign or alien insurer, the Commission may accept the opinion filed by that insurer with the insurance supervisory official of another state if the Commission determines that the opinion reasonably meets the requirements applicable to an insurer domiciled in the Commonwealth;

f. Except in cases of fraud or willful misconduct, the appointed actuary shall not be liable for damages to any person, other than the insurance company and the Commission, for any act, error, omission, decision, or conduct with respect to the appointed actuary's opinion; and

g. Disciplinary action by the Commission against the insurer or the appointed actuary shall be defined in regulations adopted by the Commission.

§ 38.2-1368. Minimum valuation standard for policies issued prior to certain dates.

The following provisions of this section shall apply only to those policies and contracts issued prior to the operative date stated in § 38.2-3214:

1. The legal minimum standard for the valuation of life insurance contracts issued prior to January 1, 1937, shall be on the basis of the American Experience Table of Mortality, with interest at four percent per year, and strictly in accordance with the terms and conditions of such contracts, and for life insurance contracts issued on and after that date shall be the one-year preliminary term method of valuation, as hereinafter modified, on the basis of the American Experience Table of Mortality or, at the option of the insurer, the American Men Ultimate Table of Mortality with interest at three and one-half percent per year.

2. If the net renewal premium under a limited payment life preliminary term policy providing for the payment of less than 20 annual premiums under the policy, or under an endowment preliminary term policy, exceeds that under a 20-payment life preliminary term policy, the reserve for that policy at the end of any year, including the first, shall be at least the reserve on a 20-payment life preliminary term policy issued in the same year and at the same age, together with an amount equivalent to the accumulation of a net level premium sufficient to provide for a pure endowment maturing one year after the date on which the last annual premium is due, or at the end of 20 years if the policy provides for the payment of premiums for more than 20 years, equal to the difference between the value on the maturity date of a 20-payment life preliminary term policy and the full net level premium reserve at such time of such a limited payment life or endowment policy. Policies valued by the above method shall contain a clause specifying either that the reserve of the policies shall be computed in accordance with the 20-payment life modification of the preliminary term method of valuation or that the first year's insurance is term insurance.

3. Except as otherwise provided in § 38.2-1370 for group annuity and pure endowment contracts, the legal minimum standard for the valuation of annuities issued on and after January 1, 1937, shall be the Combined Annuity Table, with interest at four percent per year, but annuities deferred 10 or more years and written in connection with life insurance shall be valued on the same basis as that used in computing the consideration or premium for the life insurance, or upon any higher standard, at the insurer's option.

4. The legal minimum standard for the calculation of the reserve liability for insurance against disability incorporated in life insurance policies issued on and after January 1, 1937, shall be on the basis of any table adopted by the insurer and approved by the Commission, with interest at three and one-half percent per year. However, in no case shall such liability be less than one-half of the net annual premium for the disability benefit computed by the table.

5. The legal standard for the valuation of group insurance written as yearly renewable term insurance issued on and after January 1, 1937, shall be on the basis of the American Men Ultimate Table of Mortality with interest at three and one-half percent per year.

6. The legal minimum standard for the valuation of industrial policies issued on and after January 1, 1937, shall be the American Experience Table of Mortality, with interest at three and one-half percent per year; however, any insurer may voluntarily value its industrial policies on the basis of the standard industrial mortality table or the substandard industrial mortality table, and by the level net premium method or in accordance with their terms by the modified preliminary term method as described in subdivision 2, or the full preliminary term method.

All industrial policies issued on and after January 1, 1937, shall be valued under the rules set forth in this section, whether or not the policies provide for surrender values, either in cash, paid-up insurance, or extended insurance.

7. The Commission may vary the standards of interest and mortality in the case of alien insurers as to contracts issued by those insurers in countries other than the United States, and in particular cases of invalid lives and other extra hazards.

8. If the actual annual premium charged for insurance is less than the net annual premium for the insurance, computed as specified in this section, the insurer shall set up an additional reserve equal to the value of an annuity of the difference between the actual premium charged and the net premium required by this section, and the term of which at the date of the valuation shall equal the period during which future premium payments are to become due on the insurance. The annuity shall be valued according to the table of mortality with the rate of interest at which the net annual premium is calculated.

9. Reserves for all of these policies and contracts, or all of any class of these policies and contracts, may be calculated, at the insurer's option, according to any standards that produce greater aggregate reserves for all the policies and contracts, or all of the class of the policies and contracts so valued, than the minimum reserves required by this section; and in each case the insurer shall report to the Commission in its annual statement the standards it used in making the valuation.

§ 38.2-1369. Computation of minimum standard.

Except as otherwise provided in §§ 38.2-1370, 38.2-1371, and 38.2-1378, the minimum standard for the valuation of all policies and contracts issued on or after the operative date stated in § 38.2-3214 shall be the Commissioners reserve valuation methods defined in §§ 38.2-1372, 38.2-1373, 38.2-1376, and 38.2-1378, three and one-half percent interest, or in the case of life insurance policies and contracts, other than annuity and pure endowment contracts, issued on or after July 1, 1975, four percent interest for policies issued prior to July 1, 1979, five and one-half percent interest for single premium life insurance policies and four and one-half percent interest for all other policies issued on and after July 1, 1979, and the following tables:

1. For ordinary policies of life insurance issued on the standard basis, excluding any disability and accidental death benefits in the policies: The Commissioners 1941 Standard Ordinary Mortality Table for policies issued prior to the operative date of § 38.2-3215; the Commissioners 1958 Standard Ordinary Mortality Table for policies issued on or after the operative date of § 38.2-3215 and prior to the operative date of § 38.2-3209, provided that for any category of policies issued on female risks, all modified net premiums and present values referred to in this article may be calculated according

to an age not more than six years younger than the actual age of the insured; and for policies issued on or after the operative date of § 38.2-3209:

- a. The Commissioners 1980 Standard Ordinary Mortality Table;
 - b. At the election of the insurer for any one or more specified plans of life insurance, the Commissioners 1980 Standard Ordinary Mortality Table with Ten-Year Select Mortality Factors; or
 - c. Any ordinary mortality table, adopted after 1980 by the NAIC, that is approved by regulation adopted by the Commission for use in determining the minimum standard of valuation for those policies;
2. For industrial life insurance policies issued on the standard basis, excluding any disability and accidental death benefits in those policies: The 1941 Standard Industrial Mortality Table for policies issued prior to the operative date of § 38.2-3216, and for policies issued on or after the operative date of § 38.2-3216, the Commissioners 1961 Standard Industrial Mortality Table or any industrial mortality table adopted after 1980 by the NAIC and approved by regulation adopted by the Commission for use in determining the minimum standard of valuation for the policies;
 3. For individual annuity and pure endowment contracts, excluding any disability and accidental death benefits in those contracts: The 1937 Standard Annuity Mortality Table or, at the insurer's option, the Annuity Mortality Table for 1949 Ultimate, or any modification of either of these tables approved by the Commission;
 4. For group annuity and pure endowment contracts, excluding any disability and accidental death benefits in those contracts: The Group Annuity Mortality Table for 1951, any modification of that table approved by the Commission, or, at the insurer's option, any of the tables or modifications of tables specified for individual annuity and pure endowment contracts;
 5. For total and permanent disability benefits in or supplementary to ordinary policies or contracts: For policies or contracts issued on or after January 1, 1966, the tables of Period 2 disablement rates and the 1930 to 1950 termination rates of the 1952 Disability Study of the Society of Actuaries, with due regard to the type of benefit or any tables of disablement rates and termination rates adopted after 1980 by the NAIC, and approved by regulation adopted by the Commission for use in determining the minimum standard of valuation for those policies; for policies or contracts issued on or after January 1, 1961, and prior to January 1, 1966, either those tables or, at the insurer's option, the Class (3) Disability Table (1926); and for policies issued prior to January 1, 1961, the Class (3) Disability Table (1926). Any such table shall, for active lives, be combined with a mortality table permitted for calculating the reserves for life insurance policies;
 6. For accidental death benefits in or supplementary to policies issued on or after January 1, 1966: The 1959 Accidental Death Benefits Table or any accidental death benefits table adopted after 1980 by the NAIC and approved by regulation adopted by the Commission for use in determining the minimum standard of valuation for those policies; for policies issued on or after January 1, 1961, and prior to January 1, 1966, either that table or, at the insurer's option, the Inter-Company Double Indemnity Mortality Table; and for policies issued prior to January 1, 1961, the Inter-Company Double Indemnity Mortality Table. Either table shall be combined with a mortality table for calculating the reserves for life insurance policies; and
 7. For group life insurance, life insurance issued on the substandard basis, and other special benefits: Any table approved by the Commission.

§ 38.2-1370. Computation of minimum standard for annuities.

A. Except as provided in § 38.2-1371, the minimum standard of valuation for individual annuity and pure endowment contracts issued on or after the operative date of this section and for annuities and pure endowments purchased on or after the operative date under group annuity and pure endowment contracts shall be the Commissioners reserve valuation methods defined in §§ 38.2-1372 and 38.2-1373 and the following tables and interest rates:

1. For individual annuity and pure endowment contracts issued prior to July 1, 1979, excluding any disability and accidental death benefits in those contracts: The 1971 Individual Annuity Mortality Table, or any modification of that table approved by the Commission, and six percent interest for single premium immediate annuity contracts and four percent interest for all other individual annuity and pure endowment contracts;
2. For individual single premium immediate annuity contracts issued on or after July 1, 1979, excluding any disability and accidental death benefits in those contracts: The 1971 Individual Annuity Mortality Table or any individual annuity mortality table adopted after 1980 by the NAIC and approved by regulation adopted by the Commission for use in determining the minimum standard of valuation for these contracts, or any modification of those tables approved by the Commission, and seven and one-half percent interest;
3. For individual annuity and pure endowment contracts issued on or after July 1, 1979, other than single premium immediate annuity contracts, excluding any disability and accidental death benefits in those contracts: The 1971 Individual Annuity Mortality Table or any individual annuity mortality table adopted after 1980 by the NAIC and approved by regulation adopted by the Commission for use in determining the minimum standard of valuation for those contracts, or any modification of those tables approved by the Commission, and five and one-half percent interest for single premium deferred annuity and pure endowment contracts and four and one-half percent interest for all other individual annuity and pure endowment contracts;
4. For annuities and pure endowments purchased prior to July 1, 1979, under group annuity and pure endowment contracts, excluding any disability and accidental death benefits purchased under those contracts: The 1971 Group Annuity Mortality Table or any modification of that table approved by the Commission, and six percent interest; and

5. For annuities and pure endowments purchased on or after July 1, 1979, under group annuity and pure endowment contracts, excluding any disability and accidental death benefits purchased under those contracts: The 1971 Group Annuity Mortality Table, or any group annuity mortality table adopted after 1980 by the NAIC and approved by regulation adopted by the Commission for use in determining the minimum standard of valuation for those annuities and pure endowments, or any modification of those tables approved by the Commission, and seven and one-half percent interest.

B. After July 1, 1975, any insurer may file with the Commission a written notice of its election to comply with the provisions of this section after a specified date before January 1, 1979, which shall be the operative date of this section for that insurer. However, an insurer may elect a different operative date for individual annuity and pure endowment contracts from that elected for group annuity and pure endowment contracts. If an insurer makes no election, the operative date of this section for that insurer shall be January 1, 1979.

§ 38.2-1371. Computation of minimum standard by calendar year of issue.

A. The interest rates used in determining the minimum standard for the valuation of the following shall be the calendar year statutory valuation interest rates determined as provided in subsection B:

1. Life insurance policies issued in a particular calendar year on or after the operative date of § 38.2-3209;

2. Individual annuity and pure endowment contracts issued in a particular calendar year on or after January 1, 1983, except that an insurer may elect for this to apply to all individual annuity and pure endowment contracts issued after July 1, 1982;

3. Annuities and pure endowments purchased in a particular calendar year on or after January 1, 1983, under group annuity and pure endowment contracts; and

4. The net increase, if any, in a particular calendar year after January 1, 1983, in amounts held under guaranteed interest contracts.

B. The calendar year statutory valuation interest rates, referred to in this section as "I," shall be determined as follows and the results rounded to the nearer one-quarter of one percent:

1. For life insurance:

$$I = .03 + W(R1 - .03) + (W/2)(R2 - .09);$$

2. For single premium immediate annuities and for annuity benefits involving life contingencies arising from other annuities with cash settlement options and from guaranteed interest contracts with cash settlement options:

$$I = .03 + W(R - .03).$$

For purposes of subdivisions 1 and 2:

R1 is the lesser of R and .09;

R2 is the greater of R and .09;

R is the reference interest rate defined in this section; and

W is the weighting factor defined in this section;

3. For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on an issue year basis, except as stated in subdivision 2, the formula for life insurance stated in subdivision 1 shall apply to annuities and guaranteed interest contracts with guarantee durations in excess of 10 years, and the formula for single premium immediate annuities stated in subdivision 2 shall apply to annuities and guaranteed interest contracts with guarantee duration of 10 years or less;

4. For other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the formula for single premium immediate annuities stated in subdivision 2 shall apply; and

5. For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a change in fund basis, the formula for single premium immediate annuities stated in subdivision 2 shall apply.

However, if the calendar year statutory valuation interest rate for a life insurance policy issued in any calendar year determined without reference to this sentence differs from the corresponding actual rate for similar policies issued in the immediately preceding calendar year by less than one-half of one percent, the calendar year statutory valuation interest rate for the life insurance policies shall be equal to the corresponding actual rate for the immediately preceding calendar year. For purposes of applying the immediately preceding sentence, the calendar year statutory valuation interest rate for life insurance policies issued in a calendar year shall be determined for 1980, using the reference interest rate defined in 1979, and shall be determined for each subsequent calendar year regardless of when § 38.2-3209 becomes operative.

C. The weighting factors referred to in the formulas stated in subsection B are given in the following tables:

1. Weighting factors for life insurance:

Guarantee Duration (Years)	Weighting Factors
10 or less	.50
More than 10, but not more than 20	.45
More than 20	.35

For life insurance, the guarantee duration is the maximum number of years the life insurance can remain in force on a basis guaranteed in the policy or under options to convert to plans of life insurance with premium rates or nonforfeiture values, or both, that are guaranteed in the original policy.

2. Weighting factor for single premium immediate annuities and for annuity benefits involving life contingencies arising from other annuities with cash settlement options and guaranteed interest contracts with cash settlement options:

.80

3. Weighting factors for other annuities and for guaranteed interest contracts, except as stated in subdivision 2, shall be as specified in tables a, b, and c of this subdivision, according to the rules and definitions in subdivisions d, e, and f of this subdivision:

a. For annuities and guaranteed interest contracts valued on an issue year basis:

Guarantee Duration (Years)	Weighting Factor		
	For Plan Type A	Plan Type B	Type C
5 or less:	.80	.60	.50
More than 5, but not more than 10	.75	.60	.50
More than 10, but not more than 20	.65	.50	.45
More than 20	.45	.35	.35

b. For annuities and guaranteed interest contracts valued on a change in fund basis, the factors shown in table a increased by:

	Plan Type		
	A	B	C
	.15	.25	.05

c. For annuities and guaranteed interest contracts valued on an issue year basis, other than those with no cash settlement options, that do not guarantee interest on considerations received more than one year after issue or purchase and for annuities and guaranteed interest contracts valued on a change in fund basis that do not guarantee interest rates on considerations received more than 12 months beyond the valuation date, the factors shown in table a or derived in table b increased by:

	Plan Type		
	A	B	C
	.05	.05	.05

d. For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, the guarantee duration is the number of years for which the contract guarantees interest rates in excess of the calendar year statutory valuation interest rate for life insurance policies with guarantee duration in excess of 20 years. For other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the guaranteed duration is the number of years from the date of issue or date of purchase to the date annuity benefits are scheduled to commence.

e. "Plan Type" as used in tables a, b, and c is defined as follows:

Plan Type A: At any time policyholder (i) may withdraw funds only with an adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company, (ii) may withdraw funds without an adjustment but in installments over five years or more, (iii) may withdraw funds as an immediate life annuity, or (iv) is not permitted to withdraw funds.

Plan Type B: Before expiration of the interest rate guarantee, policyholder may withdraw funds only (i) with an adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company, (ii) without an adjustment but in installments over five years or more, or (iii) no withdrawal permitted. At the end of interest rate guarantee, funds may be withdrawn without an adjustment in a single sum or installments over less than five years.

Plan Type C: Policyholder may withdraw funds before expiration of interest rate guarantee in a single sum or installments over less than five years either (i) without adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company or (ii) subject only to a fixed surrender charge stipulated in the contract as a percentage of the fund.

f. An insurer may elect to value guaranteed interest contracts with cash settlement options and annuities with cash settlement options on either an issue year basis or on a change-in-fund basis. Guaranteed interest contracts with no cash settlement options and other annuities with no cash settlement options must be valued on an issue year basis. As used in this section, an issue year basis of valuation refers to a valuation basis under which the interest rate used to determine the minimum valuation standard for the entire duration of the annuity or guaranteed interest contract is the calendar year valuation interest rate for the year of issue or year of purchase of the annuity or guaranteed interest contract, and the change-in-fund basis of valuation refers to a valuation basis under which the interest rate used to determine the minimum valuation standard applicable to each change in the fund held under the annuity or guaranteed interest contract is the calendar year valuation interest rate for the year of the change in the fund.

D. The reference interest rate referred to in subsection B shall be defined as follows:

1. For life insurance, the lesser of the average over a period of 36 months and the average over a period of 12 months, ending on June 30 of the calendar year preceding the year of issue, of the monthly average of the composite yield on seasoned corporate bonds, as published by Moody's Investors Service, Inc.

2. For single premium immediate annuities and for annuity benefits involving life contingencies arising from other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, the average over a

period of 12 months, ending on June 30 of the calendar year of issue or year of purchase, of the monthly average of the composite yield on seasoned corporate bonds, as published by Moody's Investors Service, Inc.

3. For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a year-of-issue basis, except as stated in subdivision 2, with guarantee duration in excess of 10 years, the lesser of the average over a period of 36 months and the average over a period of 12 months, ending on June 30 of the calendar year of issue or purchase, of the monthly average of the composite yield on seasoned corporate bonds, as published by Moody's Investors Service, Inc.

4. For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a year of issue basis, except as stated in subdivision 2, with guarantee duration of 10 years or less, the average over a period of 12 months, ending on June 30 of the calendar year of issue or purchase, of the monthly average of the composite yield on seasoned corporate bonds, as published by Moody's Investors Service, Inc.

5. For other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the average over a period of 12 months, ending on June 30 of the calendar year of issue or purchase, of the monthly average of the composite yield on seasoned corporate bonds, as published by Moody's Investors Service, Inc.

6. For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a change-in-fund basis, except as stated in subdivision 2, the average over a period of 12 months, ending on June 30 of the calendar year of the change in the fund, of the monthly average of the composite yield on seasoned corporate bonds, as published by Moody's Investors Service, Inc.

E. In the event that the monthly average of the composite yield on seasoned corporate bonds is no longer published by Moody's Investors Service, Inc., or in the event that the NAIC determines that the monthly average of the composite yield on seasoned corporate bonds as published by Moody's Investors Service, Inc., is no longer appropriate for the determination of the reference interest rate, then an alternative method for determination of the reference interest rate adopted by the NAIC and approved by regulation adopted by the Commission may be substituted.

§ 38.2-1372. Reserve valuation method; life insurance and endowment benefits.

A. Except as otherwise provided in §§ 38.2-1373, 38.2-1376, and 38.2-1378, reserves according to the Commissioners reserve valuation method for the life insurance and endowment benefits of policies providing for a uniform amount of insurance and requiring the payment of uniform premiums shall be the excess, if any, of the present value, at the date of valuation, of the future guaranteed benefits provided for by those policies, over the then-present value of any future modified net premiums for those policies. The modified net premiums for a policy shall be the uniform percentage of the respective contract premiums for the benefits, excluding any extra premiums charged because of impairments or special hazards, such that the present value, at the date of issue of the policy, of all modified net premiums shall be equal to the sum of the then-present value of the benefits provided for by the policy and the excess of subdivision 1 over subdivision 2, as follows:

1. A net level annual premium equal to the present value, at the date of issue, of the benefits provided for after the first policy year, divided by the present value, at the date of issue, of an annuity of one per annum payable on the first and each subsequent anniversary of the policy on which a premium falls due. However, the net level annual premium shall not exceed the net level annual premium on the nineteen-year premium whole life plan for insurance of the same amount at an age one year higher than the age at issue of the policy.

2. A net one-year term premium for the benefits provided for in the first policy year.

B. For a life insurance policy issued on or after January 1, 1986, for which the contract premium in the first policy year exceeds that of the second year and for which no comparable additional benefit is provided in the first year for the excess, and that provides an endowment benefit or a cash surrender value or a combination in an amount greater than the excess premium, the reserve according to the Commissioners reserve valuation method as of any policy anniversary occurring on or before the assumed ending date, defined herein as the first policy anniversary on which the sum of any endowment benefit and any cash surrender value then available is greater than the excess premium, shall, except as otherwise provided in § 38.2-1376, be the greater of the reserve as of the policy anniversary calculated as described in subsection A and the reserve as of the policy anniversary calculated as described in that subsection but with (i) the value defined in subdivision A 1 being reduced by 15 percent of the amount of such excess first-year premium, (ii) all present values of benefits and premiums being determined without reference to premiums or benefits provided for by the policy after the assumed ending date, (iii) the policy being assumed to mature on that date as an endowment, and (iv) the cash surrender value provided on that date being considered as an endowment benefit. In making the above comparison, the mortality and interest bases stated in §§ 38.2-1369 and 38.2-1371 shall be used.

C. Reserves according to the Commissioners reserve valuation method shall be calculated by a method consistent with the principles of the preceding subsections for:

1. Life insurance policies providing for a varying amount of insurance or requiring the payment of varying premiums;

2. Group annuity and pure endowment contracts purchased under a retirement plan or plan of deferred compensation, established or maintained by an employer, including a partnership or sole proprietorship, or by an employee organization, or by both, other than a plan providing individual retirement accounts or individual retirement annuities under § 408 of the Internal Revenue Code, as now or hereafter amended;

3. Disability and accidental death benefits in all policies and contracts; and

4. All other benefits, except life insurance and endowment benefits in life insurance policies and benefits provided by all other annuity and pure endowment contracts.

§ 38.2-1373. Reserve valuation method; annuity and pure endowment benefits.

A. This section shall apply to all annuity and pure endowment contracts other than group annuity and pure endowment contracts purchased under a retirement plan or plan of deferred compensation, established or maintained by an employer, including a partnership or sole proprietorship, or by an employee organization, or both, other than a plan providing individual retirement accounts or individual retirement annuities under § 408 of the Internal Revenue Code, as now or hereafter amended.

B. Reserves according to the Commissioners annuity reserve method for benefits under annuity or pure endowment contracts, excluding any disability and accidental death benefits in the contracts, shall be the greatest of the respective excesses of the present values, at the date of valuation, of the future guaranteed benefits, including guaranteed nonforfeiture benefits, provided for by the contracts at the end of each respective contract year, over the present value, at the date of valuation, of any future valuation considerations derived from future gross considerations, required by the terms of the contract, that become payable prior to the end of the respective contract year. The future guaranteed benefits shall be determined by using the mortality table, if any, and the interest rate, or rates, specified in those contracts for determining guaranteed benefits. The valuation considerations are the portions of the respective gross considerations applied under the terms of those contracts to determine nonforfeiture values.

§ 38.2-1374. Minimum reserves.

A. In no event shall an insurer's aggregate reserves for all life insurance policies, excluding disability and accidental death benefits, be less than the aggregate reserves calculated in accordance with the methods set forth in §§ 38.2-1372, 38.2-1373, 38.2-1376, and 38.2-1377 and the mortality table or tables and rate or rates of interest used in calculating nonforfeiture benefits for those policies.

B. In no event shall the aggregate reserves for all policies, contracts, and benefits be less than the aggregate reserves determined by the appointed actuary to be necessary to render the opinion required by § 38.2-1367.

§ 38.2-1375. Optional reserve calculation.

A. Reserves for any category of policies, contracts, or benefits as established by the Commission may be calculated, at the insurer's option, according to any standards that produce greater aggregate reserves for the category than those calculated according to the minimum standard provided in this article, but the rate or rates of interest used for policies and contracts other than annuity and pure endowment contracts shall not be higher than the corresponding rate or rates of interest used in calculating any nonforfeiture benefits provided for in those policies and contracts.

B. An insurer that adopts at any time a standard of valuation producing greater aggregate reserves than those calculated according to the minimum standard provided under this article may adopt a lower standard of valuation with the approval of the Commission, but not lower than the minimum provided herein, provided that, for the purposes of this section, the holding of additional reserves previously determined by the appointed actuary to be necessary to render the opinion required by § 38.2-1367 shall not be deemed to be the adoption of a higher standard of valuation.

§ 38.2-1376. Reserve calculation; valuation net premium exceeding the gross premium charged.

A. If in any contract year the gross premium charged by an insurer on a policy or contract is less than the valuation net premium for the policy or contract calculated by the method used in calculating the reserve but using the minimum valuation standards of mortality and rate of interest, the minimum reserve required for the policy or contract shall be the greater of either the reserve calculated according to the mortality table, rate of interest, and method actually used for the policy or contract or the reserve calculated by the method actually used for the policy or contract but using the minimum valuation standards of mortality and rate of interest and replacing the valuation net premium by the actual gross premium in each contract year for which the valuation net premium exceeds the actual gross premium. The minimum valuation standards of mortality and rate of interest referred to in this section are those standards stated in §§ 38.2-1369 and 38.2-1371.

B. For a life insurance policy issued on or after January 1, 1986, for which the gross premium in the first policy year exceeds that of the second year and for which no comparable additional benefit is provided in the first year for the excess and which provides an endowment benefit or a cash surrender value or a combination in an amount greater than the excess premium, the provisions of this section shall be applied as if the method actually used in calculating the reserve for the policy were the method described in § 38.2-1372, ignoring subsection B of § 38.2-1372. The minimum reserve at each policy anniversary of such a policy shall be the greater of the minimum reserve calculated in accordance with § 38.2-1372, including subsection B of that section, and the minimum reserve calculated in accordance with this section.

§ 38.2-1377. Reserve calculation; indeterminate premium plans.

In the case of a plan of life insurance that provides for future premium determination, the amounts of which are to be determined by the insurance company based on then estimates of future experience, or in the case of a plan of life insurance or annuity that is of such a nature that the minimum reserves cannot be determined by the methods described in §§ 38.2-1372, 38.2-1373, and 38.2-1376, the reserves that are held under the plan shall:

1. Be appropriate in relation to the benefits and the pattern of premiums for that plan; and
2. Be computed by a method that is consistent with the principles of this article, as determined by regulations adopted by the Commission.

§ 38.2-1378. Minimum standard for accident and health insurance contracts.

For accident and health insurance contracts issued on or after the operative date of the valuation manual, the standard prescribed in the valuation manual is the minimum standard of valuation required under subsection B of § 38.2-1366. For

disability and accident and sickness insurance contracts issued on or after January 1, 1937, and prior to the operative date of the valuation manual, the minimum standard of valuation is the standard adopted by the Commission by regulation.

§ 38.2-1379. Valuation manual for policies issued on or after the operative date of the valuation manual.

A. For policies issued on or after the operative date of the valuation manual, the standard prescribed in the valuation manual is the minimum standard of valuation required under subsection B of § 38.2-1366, except as provided under subsection E or subsection G.

B. The operative date of the valuation manual is January 1 of the first calendar year following the first July 1 as of which all of the following have occurred:

1. The valuation manual has been adopted by the NAIC by an affirmative vote of at least 42 members, or three-fourths of the members voting, whichever is greater.

2. The Standard Valuation Law, as amended by the NAIC in 2009, or legislation including substantially similar terms and provisions, has been enacted by states representing greater than 75 percent of the direct premiums written as reported in the following annual statements submitted for 2008: life, accident and health annual statements; health annual statements; or fraternal annual statements.

3. The Standard Valuation Law, as amended by the NAIC in 2009, or legislation including substantially similar terms and provisions, has been enacted by at least 42 of the following 55 jurisdictions: The 50 states of the United States, American Samoa, the American Virgin Islands, the District of Columbia, Guam, and Puerto Rico.

C. Unless a change in the valuation manual specifies a later effective date, changes to the valuation manual shall be effective on January 1 following the date when the following have occurred:

1. The change to the valuation manual has been adopted by the NAIC by an affirmative vote representing:

a. At least three-quarters of the members of the NAIC voting, but not less than a majority of the total membership; and
b. Members of the NAIC representing jurisdictions totaling greater than 75 percent of the direct premiums written as reported in the following annual statements most recently available prior to the vote in subdivision C 1 a: life, accident and health annual statements, health annual statements, or fraternal annual statements; or

2. The valuation manual becomes effective pursuant to an order of regulation adopted by the Commission.

D. The valuation manual shall specify all of the following:

1. Minimum valuation standards for and definitions of the policies or contracts subject to subsection B of § 38.2-1366. Such minimum valuation standards shall be:

a. The Commissioners reserve valuation method for life insurance contracts, other than annuity contracts, subject to subsection B of § 38.2-1366;

b. The Commissioners annuity reserve valuation method for annuity contracts subject to subsection B of § 38.2-1366; and

c. Minimum reserves for all other policies or contracts subject to subsection B of § 38.2-1366.

2. Which policies or contracts or types of policies or contracts are subject to the requirements of a principle-based valuation in subsection A of § 38.2-1380 and the minimum valuation standards consistent with those requirements;

3. For policies and contracts subject to a principle-based valuation under § 38.2-1380:

a. Requirements for the format of reports to the commissioner under subdivision B 3 of § 38.2-1380 and which reports shall include information necessary to determine if the valuation is appropriate and in compliance with this article.

b. Assumptions shall be prescribed for risks over which the company does not have significant control or influence.

c. Procedures for corporate governance and oversight of the actuarial function, and a process for appropriate waiver or modification of such procedures.

4. For policies not subject to a principle-based valuation under § 38.2-1380, the minimum valuation standard shall either:

a. Be consistent with the minimum standard of valuation prior to the operative date of the valuation manual; or

b. Develop reserves that quantify the benefits and guarantees, and the funding, associated with the contracts and their risks at a level of conservatism that reflects conditions that include unfavorable events that have a reasonable probability of occurring.

5. Other requirements, including those relating to reserve methods, models for measuring risk, generation of economic scenarios, assumptions, margins, use of company experience, risk measurement, disclosure, certifications, reports, actuarial opinions and memorandums, transition rules, and internal controls; and

6. The data and form of the data required under § 38.2-1381 and to whom the data is required to be submitted.

The valuation manual may specify other requirements, including those for data analyses and reporting of analyses.

E. If a specific valuation requirement is absent or if a specific valuation requirement in the valuation manual is not, in the opinion of the Commission, in compliance with this article, then the insurer shall, with respect to such requirements, comply with minimum valuation standards prescribed by the Commission by regulation.

F. The Commission may engage a qualified actuary, at the expense of the insurer, to perform an actuarial examination of the insurer and opine on the appropriateness of any reserve assumption or method used by the insurer, or to review and opine on an insurer's compliance with any requirement set forth in this article. The Commission may rely upon the opinion, regarding provisions contained within this article, of a qualified actuary engaged by the Commissioner of another state, district, or territory of the United States. As used in this subsection, the term "engage" includes employment and contracting.

G. The Commission may require an insurer to change any assumption or method that in the opinion of the Commission is necessary in order to comply with the requirements of the valuation manual or this article; and the insurer shall adjust the reserves as required by the Commission. The Commission may take other disciplinary action as permitted pursuant to § 38.2-219.

§ 38.2-1380. Requirements of a principle-based valuation.

A. An insurer shall establish reserves using a principle-based valuation that meets the following conditions for policies or contracts as specified in the valuation manual:

1. Quantify the benefits and guarantees, and the funding, associated with the contracts and their risks at a level of conservatism that reflects conditions that include unfavorable events that have a reasonable probability of occurring during the lifetime of the contracts. For policies or contracts with significant tail risk, reflects conditions appropriately adverse to quantify the tail risk;

2. Incorporate assumptions, risk analysis methods and financial models, and management techniques that are consistent with, but not necessarily identical to, those utilized within the insurer's overall risk assessment process, while recognizing potential differences in financial reporting structures and any prescribed assumptions or methods;

3. Incorporate assumptions that are derived in one of the following manners:

a. The assumption is prescribed in the valuation manual.

b. For assumptions that are not prescribed, the assumptions shall:

(1) Be established utilizing the insurer's available experience, to the extent it is relevant and statistically credible; or

(2) To the extent that insurer data is not available, relevant, or statistically credible, be established utilizing other relevant, statistically credible experience; and

4. Provide margins for uncertainty, including adverse deviation and estimation error; such that the greater the uncertainty the larger the margin and resulting reserve.

B. An insurer using a principle-based valuation for one or more policies or contracts subject to this section as specified in the valuation manual shall:

1. Establish procedures for corporate governance and oversight of the actuarial valuation function consistent with those described in the valuation manual.

2. Provide to the Commission and the board of directors an annual certification of the effectiveness of the internal controls with respect to the principle-based valuation. Such controls shall be designed to assure that all material risks inherent in the liabilities and associated assets subject to such valuation are included in the valuation, and that valuations are made in accordance with the valuation manual. The certification shall be based on the controls in place as of the end of the preceding calendar year.

3. Develop, and file with the Commission upon request, a principle-based valuation report that complies with standards prescribed in the valuation manual.

C. A principle-based valuation may include a prescribed formulaic reserve component.

§ 38.2-1381. Experience reporting for policies in force on or after the operative date of the valuation manual.

An insurer shall submit mortality, morbidity, policyholder behavior, or expense experience and other data as prescribed in the valuation manual.

§ 38.2-1382. Confidentiality.

A. For purposes of this section, "confidential information" means:

1. A memorandum in support of an opinion submitted under § 38.2-1367 and any other documents, materials, and other information, including all working papers, and copies thereof, created, produced, or obtained by or disclosed to the Commission or any other person in connection with such memorandum;

2. All documents, materials, and other information, including all working papers and copies thereof created, produced, or obtained by or disclosed to the Commission or any other person in the course of an examination made under subsection F of § 38.2-1379, provided, however, that if an examination report or other material prepared in connection with an examination made under Article 4 (§ 38.2-1317 et seq.) of Chapter 13 is not held as private and confidential information under Article 4, an examination report or other material prepared in connection with an examination made under subsection F of § 38.2-1379 shall not be "confidential information" to the same extent as if such examination report or other material had been prepared under Article 4;

3. Any reports, documents, materials, and other information developed by an insurer in support of, or in connection with, an annual certification by the insurer under subdivision B 2 of § 38.2-1380 evaluating the effectiveness of the insurer's internal controls with respect to a principle-based valuation and any other documents, materials, and other information, including all working papers and copies thereof created, produced, or obtained by or disclosed to the Commission or any other person in connection with such reports, documents, materials, and other information;

4. Any principle-based valuation report developed under subdivision B 3 of § 38.2-1380 and any other documents, materials, and other information, including all working papers and copies thereof created, produced, or obtained by or disclosed to the Commission or any other person in connection with such report; and

5. Any documents, materials, data, and other information submitted by an insurer under § 38.2-1381 (which are collectively referred to in this section as "experience data") and any other documents, materials, data, and other information, including all working papers and copies thereof created or produced in connection with such experience data, in each case that includes any potentially company-identifying or personally identifiable information, that is provided to or

obtained by the Commission (which, together with any experience data, are referred to in this section as the "experience materials"), and any other documents, materials, data, and other information, including all working papers and copies thereof created, produced, or obtained by or disclosed to the Commission or any other person in connection with such experience materials.

B. Privilege for, and confidentiality of, confidential information shall be governed by the following provisions:

1. Except as provided in this section, an insurer's confidential information is confidential by law and privileged, and shall not be subject to subpoena and shall not be subject to discovery or admissible in evidence in any private civil action, provided, however, that the Commission is authorized to use the confidential information in the furtherance of any regulatory or legal action brought against an insurer as a part of the Commission's official duties;

2. Neither the Commission nor any person who received confidential information while acting under the authority of the Commission shall be permitted or required to testify in any private civil action concerning any confidential information;

3. In order to assist in the performance of the Commission's duties, the Commission may share confidential information (i) with other state, federal, and international regulatory agencies and with the NAIC and its affiliates and subsidiaries and (ii) in the case of confidential information specified in subdivisions A 1 and A 4 only, with the Actuarial Board for Counseling and Discipline or its successor upon request stating that the confidential information is required for the purpose of professional disciplinary proceedings and with state, federal, and international law-enforcement officials; in the case of clauses (i) and (ii), provided that such recipient agrees, and has the legal authority to agree, to maintain the confidentiality and privileged status of such documents, materials, data, and other information in the same manner and to the same extent as required for the Commission;

4. The Commission may receive documents, materials, data, and other information, including otherwise confidential and privileged documents, materials, data, or information, from the NAIC and its affiliates and subsidiaries, from regulatory or law-enforcement officials of other foreign or domestic jurisdictions, and from the Actuarial Board for Counseling and Discipline or its successor and shall maintain as confidential or privileged any document, material, data, or other information received with notice or the understanding that it is confidential or privileged under the laws of the jurisdiction that is the source of the document, material, or other information;

5. The Commission may enter into agreements governing sharing and use of information consistent with this subsection;

6. No waiver of any applicable privilege or claim of confidentiality in the confidential information shall occur as a result of disclosure to the Commission under this section or as a result of sharing as authorized in subdivision 3;

7. A privilege established under the law of any state or jurisdiction that is substantially similar to the privilege established under this subsection shall be available and enforced in any proceeding in, and in any court of, the Commonwealth; and

8. As used in this section, "regulatory agency," "law-enforcement agency," and "NAIC" include their employees, agents, consultants, and contractors.

C. Notwithstanding subsection B, any confidential information specified in subdivisions A 1 and A 4:

1. May be subject to subpoena for the purpose of defending an action seeking damages from the appointed actuary submitting the related memorandum in support of an opinion submitted under § 38.2-1367 or principle-based valuation report developed under subdivision B 3 § 38.2-1380 by reason of an action required by this article or by regulations adopted hereunder;

2. May otherwise be released by the Commission with the written consent of the insurer; and

3. Once any portion of a memorandum in support of an opinion submitted under § 38.2-1367 or a principle-based valuation report developed under subdivision B 3 § 38.2-1380 is cited by an insurer in its marketing or is publicly volunteered to or before a governmental agency other than a state insurance department or is released by an insurer to the news media, all portions of such memorandum or report shall no longer be confidential.

§ 38.2-1383. Single state exemption.

A. The Commission may exempt specific product forms or product lines of a domestic insurer that is licensed and doing business only in the Commonwealth from the requirements of § 38.2-1379 provided:

1. The Commission has issued an exemption in writing to the insurer and has not subsequently revoked the exemption in writing; and

2. The insurer computes reserves using assumptions and methods used prior to the operative date of the valuation manual in addition to any requirements established by the Commission and adopted by regulation.

B. For any insurance company granted an exemption under this section, §§ 38.2-1367 through 38.2-1378 shall be applicable. With respect to any insurance company applying this exemption, any reference to § 38.2-1379 found in §§ 38.2-1367 through 38.2-1378 shall not be applicable.

§ 38.2-1384. Assessment against insurers whose policies are valued.

The Commission is hereby authorized to assess against every insurer whose policies are valued a sum equal to the cost of valuation, which shall be collected by the Commission and paid directly into the state treasury and credited to the "Bureau of Insurance Special Fund - State Corporation Commission" for the maintenance of the Bureau of Insurance as provided in subsection B of § 38.2-400.

§ 38.2-1385. Article not applicable in certain cases.

Nothing in this article shall be construed to apply to any insurer in the transaction of industrial sick benefit insurance as defined in § 38.2-3544, nor to fraternal benefit societies, except for § 38.2-1367.

§ 38.2-3101. Legal reserve insurers.

Any life insurer, association or society whose policies or certificates are required to contain any provision that a person insured shall, upon surrender of the policy during his lifetime, receive a surrender value, either in cash, paid-up insurance, or extended insurance, shall be regarded as a "legal reserve insurer," and shall maintain a reserve calculated in accordance with the provisions of Article 3 10 (~~§ 38.2-3126~~ 38.2-1365 et seq.) of ~~this chapter~~ Chapter 13. Nothing in this section shall be construed to apply to any insurer in the transaction of industrial sick benefit insurance as defined in § 38.2-3544, nor to fraternal benefit societies.

§ 38.2-3209. Same; adjusted premiums for policies.

A. This section shall apply to all policies issued on or after the operative date as defined in this section. Except as provided in subsection G of this section, the adjusted premiums for any policy shall be calculated on an annual basis and shall be a uniform percentage of the respective premiums specified in the policy for each policy year, excluding amounts payable as extra premiums to cover impairments or special hazards and also excluding any uniform annual contract charge or policy fee specified in the policy in a statement of the method to be used in calculating the cash surrender values and paid-up nonforfeiture benefits, so that the present value at the date of issue of the policy of all adjusted premiums shall equal the sum of (i) the then present value of the future guaranteed benefits provided for by the policy; (ii) 1 percent of either the amount of insurance, if the insurance is uniform in amount, or the average amount of insurance at the beginning of each of the first 10 policy years; and (iii) 125 percent of the nonforfeiture net level premium as defined in subsection B of this section. However, in applying the percentage specified in (iii) of this subsection no nonforfeiture net level premium shall be deemed to exceed four percent of either the amount of insurance, if the insurance is uniform in amount, or the average amount of insurance at the beginning of each of the first ten policy years. The date of issue of a policy for the purpose of this section shall be the date as of which the rated age of the insured is determined.

B. The nonforfeiture net level premium shall equal the present value, at the date of issue of the policy, of the guaranteed benefits provided for by the policy divided by the present value, at the date of issue of the policy, of an annual annuity of one dollar payable on the date of issue of the policy and on each anniversary of the policy on which a premium falls due.

C. For a policy that provides, on a basis guaranteed in the policy, unscheduled changes in benefits or premiums, or both, or that provides an option for changes in benefits or premiums, or both, other than a change to a new policy, the adjusted premiums and present values shall initially be calculated on the assumption that future benefits and premiums do not change from those stipulated at the date of issue of the policy. At the time of any change in the benefits or premiums, the future adjusted premiums, nonforfeiture net level premiums and present values shall be recalculated on the assumption that future benefits and premiums do not change from those stipulated by the policy immediately after the change.

D. Except as otherwise provided in subsection G of this section, the recalculated future adjusted premiums for any policy referred to in subsection C of this section shall be a uniform percentage of the respective future premiums specified in the policy for each policy year, excluding amounts payable as extra premiums to cover impairments and special hazards, and also excluding any uniform annual contract charge or policy fee specified in the policy in a statement of the method to be used in calculating the cash surrender values and paid-up nonforfeiture benefits, so that the present value at the time of change to the newly defined benefits or premiums of all future adjusted premiums shall equal the excess of (1) over (2), where (1) is (i) the then present value of the then future guaranteed benefits provided for by the policy plus (ii) any additional expense allowance and (2) is the then cash surrender value, if any, or present value of any paid-up nonforfeiture benefit under the policy.

E. The additional expense allowance, at the time of the change to the newly defined benefits or premiums, shall be the sum of (i) 1 percent of the excess, if positive, of the average amount of insurance at the beginning of each of the first 10 policy years after the change over the average amount of insurance before the change at the beginning of each of the first 10 policy years after the time of the most recent previous change, or, if there has been no previous change, the date of issue of the policy and (ii) 125 percent of the increase, if positive, in the nonforfeiture net level premium.

F. The recalculated nonforfeiture net level premium shall equal (1) divided by (2), where (1) is the sum of (i) the nonforfeiture net level premium applicable before the change times the present value of an annual annuity of one dollar payable on each anniversary of the policy on or after the date of the change on which a premium would have fallen due had the change not occurred, and (ii) the present value of the increase in future guaranteed benefits provided by the policy, and (2) is the present value of an annual annuity of one dollar payable on each anniversary of the policy on or after the date of change on which a premium falls due.

G. Notwithstanding any other provisions of this section, for a policy issued on a substandard basis that provides reduced graded amounts of insurance so that, in each policy year, the policy has the same tabular mortality cost as an otherwise similar policy issued on the standard basis that provides higher uniform amounts of insurance, adjusted premiums and present values for the substandard policy may be calculated as if it were issued to provide the higher uniform amounts of insurance on the standard basis.

H. All adjusted premiums and present values referred to in §§ 38.2-3202 through 38.2-3213 shall for all policies of ordinary insurance be calculated on the basis of (i) the Commissioners 1980 Standard Ordinary Mortality Table or (ii) at the election of the insurer for any one or more specified plans of life insurance, the Commissioners 1980 Standard Ordinary

Mortality Table with Ten-Year Select Mortality Factors. The premiums and values shall for all policies of industrial insurance be calculated on the basis of the Commissioners 1961 Standard Industrial Mortality Table. The premiums and values shall for all policies issued in a particular calendar year be calculated on the basis of a rate of interest not exceeding the nonforfeiture interest rate as defined in this section for policies issued in that calendar year, provided that:

1. At the insurer's option, calculations for all policies issued in a particular calendar year may be made on the basis of a rate of interest not exceeding the nonforfeiture interest rate, as defined in this section, for policies issued in the immediately preceding calendar year;

2. Under any paid-up nonforfeiture benefit, including any paid-up dividend additions, any cash surrender value available, whether or not required by § 38.2-3202, shall be calculated on the basis of the mortality table and rate of interest used in determining the amount of the paid-up nonforfeiture benefit and any paid-up dividend additions;

3. An insurer may calculate the amount of any guaranteed paid-up nonforfeiture benefit, including any paid-up additions, under the policy on the basis of an interest rate no lower than that specified in the policy for calculating cash surrender values;

4. In calculating the present value of any paid-up term insurance with any accompanying pure endowment offered as a nonforfeiture benefit, the rates of mortality assumed may be not more than those shown in the Commissioners 1980 Extended Term Insurance Table for policies of ordinary insurance and not more than the Commissioners 1961 Industrial Extended Term Insurance Table for policies of industrial insurance;

5. For insurance issued on a substandard basis, the calculation of any adjusted premiums and present values may be based on appropriate modifications of the tables referred to in this section;

6. ~~Any~~ For policies issued prior to the operative date of the valuation manual, any Commissioners Standard ordinary mortality tables adopted after 1980 by the National Association of Insurance Commissioners (NAIC) and approved by the Commission for use in determining the minimum nonforfeiture standard may be substituted for the Commissioners 1980 Standard Ordinary Mortality Table with or without Ten-Year Select Mortality Factors or for the Commissioners 1980 Extended Term Insurance Table. "Operative date of the valuation manual" means the January 1 of the first calendar year that the valuation manual as defined in § 38.2-1365 is effective.

For policies issued on or after the operative date of the valuation manual, the valuation manual shall provide the Commissioners Standard mortality table for use in determining the minimum nonforfeiture standard that may be substituted for the Commissioners 1980 Standard Ordinary Mortality Table with or without Ten-Year Select Mortality Factors or for the Commissioners 1980 Extended Term Insurance Table. If the Commission approves by regulation any Commissioners Standard ordinary mortality table adopted by the NAIC for use in determining the minimum nonforfeiture standard for policies issued on or after the operative date of the valuation manual, then that minimum nonforfeiture standard supersedes the minimum nonforfeiture standard provided by the valuation manual; and

7. ~~Any~~ For policies issued prior to the operative date of the valuation manual, any Commissioners Standard industrial mortality tables adopted after 1980 by the National Association of Insurance Commissioners and approved by the Commission for use in determining the minimum nonforfeiture standard may be substituted for the Commissioners 1961 Standard Industrial Mortality Table or the Commissioners 1961 Industrial Extended Term Insurance Table.

For policies issued on or after the operative date of the valuation manual, the valuation manual shall provide the Commissioners Standard mortality table for use in determining the minimum nonforfeiture standard that may be substituted for the Commissioners 1961 Standard Industrial Mortality Table or the Commissioners 1961 Industrial Extended Term Insurance Table. If the Commission approves by regulation any Commissioners Standard industrial mortality table adopted by the NAIC for use in determining the minimum nonforfeiture standard for policies issued on or after the operative date of the valuation manual, then that minimum nonforfeiture standard supersedes the minimum nonforfeiture standard provided by the valuation manual.

I. The nonforfeiture annual interest rate for any policy issued in a particular calendar year shall:

1. For policies issued prior to the operative date of the valuation manual, shall equal 125 percent of the calendar year statutory valuation interest rate for the policy as defined in §§ ~~38.2-3130 through 38.2-3142~~ Article 10 (§ 38.2-1365 et seq.) of Chapter 13, rounded to the nearest one-quarter percent, provided, however, that the nonforfeiture annual interest rate shall not be less than four percent; and

2. For policies issued on or after the operative date of the valuation manual, shall be provided by the valuation manual.

J. Any refile of nonforfeiture values or their methods of computation for any previously approved policy form that involves only a change in the interest rate or mortality table used to compute nonforfeiture values shall not require refile of any other provisions of that policy form.

K. After July 1, 1982, any insurer may file with the Commission a written notice of its election to comply with the provisions of this section after a specified date before January 1, 1989, which shall be the operative date of this section for that insurer. If an insurer makes no election, the operative date of this section for that insurer shall be January 1, 1989.

§ 38.2-3723. Reserves.

A. Each insurer licensed to write credit life insurance in the Commonwealth shall establish and maintain reserves on all its credit life insurance. The minimum standard for the valuation for such reserves:

1. For both male and female insureds shall be the 2001 Commissioners' Standard Ordinary (CSO) Male Composite Ultimate Mortality Table as adopted by the National Association of Insurance Commissioners;

2. Where the credit life policy or certificate insures two lives shall be twice the 2001 CSO Male Composite Ultimate Mortality Table based on the age of the older insured;

3. Shall use, for the interest rate calculation, the calendar year statutory valuation interest rates determined pursuant to §§ ~~38.2-3132 through 38.2-3136~~ 38.2-1371; and

4. Shall use, as the method of valuation, the Commissioners reserve valuation method set forth in § ~~38.2-3137~~ 38.2-1372.

Reserves may be calculated on an annual or a monthly basis with a reasonable assumption, subject to statistical proof, as to average ages at issue or at expiration.

B. Each insurer licensed to write credit accident and sickness insurance in the Commonwealth shall establish and maintain reserves on all its credit accident and sickness insurance. For contracts other than single premium credit disability contracts, the minimum standard for the valuation of such reserves shall be the total gross unearned premiums calculated by the actuarial method, but not less than the aggregate amounts calculated as of the valuation date by the refund formulas approved for the policies by the Commission pursuant to subsection C of § 38.2-3729. For single premium credit disability contracts, the minimum standard for valuation of such reserves:

1. For plans having less than a 15-day elimination period, the morbidity standard shall be the 1985 Commissioners' Individual Disability Table A as adopted by the NAIC (85CIDA) with claim incidence rates increased by 12 percent;

2. For plans having a greater than 14-day elimination period, the morbidity standard shall be the 85CIDA for a 14-day elimination period with claim incidence rates increased by 12 percent; and

3. The interest rate used shall be the calendar year statutory valuation interest rate for valuation of whole life insurance determined pursuant to §§ ~~38.2-3132 through 38.2-3136~~ 38.2-1371.

It may be assumed that all business written in any calendar month was written as of the fifteenth of such month.

C. For all credit life and disability contracts in the aggregate, if the net premium refund liability exceeds the aggregate recorded contract reserve, the insurer shall establish an additional reserve liability that is equal to the excess of the net refund liability over the contract reserve recorded. The net refund liability may include consideration of commission, premium tax, and other expenses recoverable. In all cases, such amounts shall be evaluated for probability of recovery.

D. In no event shall the aggregate reserves for all policies, contracts and benefits be less than the aggregate reserves determined by a qualified actuary to be necessary to support fully the insurer's obligations under its policies, certificates and contracts.

§ 38.2-4123. Exemptions.

Except as herein provided, societies shall be governed by this chapter and §§ 38.2-100 through 38.2-134, Chapters 2 (§ 38.2-200 et seq.) through 9 (§ 38.2-900 et seq.), §§ 38.2-1300 through 38.2-1315, 38.2-1315.1, ~~and 38.2-1317 through 38.2-1340, and 38.2-1367~~, Chapters 14 (§ 38.2-1400 et seq.), 15 (§ 38.2-1500 et seq.), and 18 (§ 38.2-1800 et seq.), §§ 38.2-3100 through 38.2-3125; ~~38.2-3127.1~~, and 38.2-3300 through 38.2-3317, Chapter 34 (§ 38.2-3400 et seq.), §§ 38.2-3500 through 38.2-3520, Chapter 36 (§ 38.2-3600 et seq.), Chapter 52 (§ 38.2-5200 et seq.), and Chapter 55 (§ 38.2-5500 et seq.), and shall be exempt from all other provisions of this title unless expressly designated therein, or unless they are specifically made applicable by this chapter.

2. That Article 3 (§§ 38.2-3126 through 38.2-3144) of Chapter 31 of Title 38.2 of the Code of Virginia is repealed.

3. That the provisions of this act shall become effective on January 1, 2015.

CHAPTER 574

An Act to amend and reenact §§ 24.2-707 and 24.2-711 of the Code of Virginia, relating to absentee ballots; date requirement.

[H 669]

Approved April 4, 2014

Be it enacted by the General Assembly of Virginia:

1. That §§ 24.2-707 and 24.2-711 of the Code of Virginia are amended and reenacted as follows:

§ 24.2-707. How ballots marked and returned by mail; cast in person; cast on voting equipment.

On receipt of a mailed absentee ballot, the voter shall, in the presence of a witness, (i) open the sealed envelope marked "ballot within" and (ii) mark and refold the ballot, as provided in §§ 24.2-644 and 24.2-646 without assistance and without making known how he marked the ballot, except as provided by § 24.2-704.

After the voter has marked his absentee ballot, he shall (a) enclose the ballot in the envelope provided for that purpose, (b) seal the envelope, (c) fill in and sign the statement printed on the back of the envelope in the presence of a witness, who shall sign the same envelope, (d) enclose the ballot envelope and any required assistance form within the envelope directed to the electoral board, and (e) seal that envelope and mail it to the office of the electoral board or deliver it personally to the electoral board or the general registrar. *A voter's failure to provide the date, or any part of the date, including the year, on which he signed the statement printed on the back of the envelope shall not be considered a material omission and shall not render his ballot void.* For purposes of this chapter, "mail" shall include delivery by a commercial delivery service, but shall not include delivery by a personal courier service or another individual except as provided by §§ 24.2-703.2 and 24.2-705.

An applicant who makes his application to vote in person at a time when the printed ballots for the election are available shall follow the same procedure set forth above except that he may complete the procedure in person in the office of the general registrar or secretary of the electoral board, or at another location or locations in the county or city approved by the electoral board, before a registrar or a member of the electoral board, or, if a ballot is cast at that time, before the officers of election appointed by the electoral board. Any such location shall be in a public building owned or leased by the city, the county, or a town within the county, with adequate facilities for the protection of all records concerning the absentee voters, the absentee ballots, both voted and unvoted, and any voting equipment in use at the location. Such location may be in a facility owned or leased by the Commonwealth and used as a location for Department of Motor Vehicles facilities and for an office of the general registrar. Such location shall be deemed the equivalent of the office of the general registrar or secretary of the electoral board for the purpose of completing the application for an absentee ballot in person pursuant to §§ 24.2-701 and 24.2-706. On the request of the applicant, made no later than 5:00 p.m. on the seventh day prior to the

election in which the applicant offers to vote, the general registrar or the secretary may send the items set forth in subdivisions 1 through 4 of § 24.2-706 to the applicant by mail, obtaining a certificate of mailing.

Failure to follow the procedures set forth above shall render the applicant's ballot void.

The electoral board of any county or city using a central absentee voting precinct may provide for the casting of absentee ballots on voting equipment prior to election day by applicants who are voting in person. The State Board shall prescribe procedures for the use of voting equipment. The procedures shall provide for the casting of absentee ballots prior to election day by in-person applicants on voting equipment which has been certified, and is currently approved, by the State Board. The procedures shall be applicable and uniformly applied by the State Board to all jurisdictions using comparable voting equipment. At least two officers of election, one representing each political party, shall be present during all hours that absentee voting is available at any location at which absentee ballots are cast prior to election day.

The requirement that officers of election shall be present if ballots are cast on voting equipment prior to election day shall not be applicable when the voting equipment is located in the office of the general registrar or secretary of the electoral board and the general registrar, an assistant registrar, or the secretary of the electoral board is present.

§ 24.2-711. Duties of officers of election.

Before the polls open, the officers of election at each precinct shall mark, for each person on the absentee voter applicant list, the letters "AB" (meaning absentee ballot) in the voting record column on the pollbook. The pollbook may be so marked prior to election day by the general registrar, the secretary of the electoral board, or staff under the direction of the general registrar or the secretary, or when the pollbook is produced by the State Board pursuant to § 24.2-404. If the pollbook has been marked prior to election day, before the polls open the officers of election at each precinct shall check the marks for accuracy and make any additions or corrections required.

The chief officer of election shall keep the copy of the absentee voter applicant list in the polling place as a public record open for inspection upon request at all times while the polls are open.

If a voter, whose name appears on the absentee voter applicant list, has not returned an unused ballot and offers to vote in his precinct, the officers of election in the precinct shall determine the matter pursuant to §§ 24.2-653.1 and 24.2-708.

Immediately after the close of the polls, the container of absentee ballots shall be opened by the officers of election. As each ballot envelope is removed from the container, the name of the voter shall be called and checked as if the voter were voting in person. If the voter is found entitled to vote, an officer shall mark the voter's name on the pollbook with the first or next consecutive number from the voter count form, or shall enter that the voter has voted if the pollbook is in electronic form. The ballot envelope shall then be opened, and the ballot deposited in the ballot container without being unfolded or examined. If the voter is found not entitled to vote, the unopened envelope shall be rejected. *An unopened envelope shall not be rejected on the sole basis of a voter's failure to provide the date, or any part of the date, including the year, on which he signed the statement printed on the back of the envelope.* A majority of the officers shall write and sign a statement of the cause for rejection on the envelope or on an attachment to the envelope.

When all ballots have been accounted for and either voted or rejected, the officers shall place the empty ballot envelopes, the return envelopes, and any rejected ballot envelopes, in one envelope provided for the purpose and seal and deliver it with the ballots cast at the election as provided in this title.

If a local governing body determines that a longer postponement is required, it may petition a three-judge panel of the Virginia Supreme Court, to include the Chief Justice as the presiding Justice, for an extension. The Chief Justice shall choose the other two Justices by lot. If the postponement of the election is ordered after voting at the polls on the original election date has already commenced and no ballots cast at the polls, voting equipment containing voted ballots, or pollbooks recording who has already voted in that election in that precinct have been destroyed or damaged as a direct result of the emergency, only qualified voters who had not yet voted shall be eligible to vote on the rescheduled election day and all votes cast on the original and postponed election dates shall be counted at the close of the polls on the rescheduled election day.

If one ballot has already been counted, any additional ballots from the same voter shall be void and shall not be counted. The provisions of § 24.2-1004 or any other law prohibiting any voter from voting more than once in the same election, or any oath attesting to the same, shall not apply to ballots otherwise lawfully cast or recast pursuant to this section.

No results shall be tallied or votes counted in any postponed election before the closing of the polls on the rescheduled election date. Officers of election in unaffected areas shall count and report the results for the postponed election after the close of the polls on the rescheduled election date. The counting may take place at the precinct or another location determined by the local electoral board.

The State Board shall prescribe appropriate procedures to implement this section.

§ 24.2-609. Voting booths.

Each electoral board shall provide at each polling place in its county or city one or more voting booths. At least one booth shall be an enclosure which permits the voter to vote by ~~paper printed~~ ballot in secret and is equipped with a writing surface ~~and~~, operative writing implements, and ~~adequately~~ ~~lighted~~ lighting. Enclosures for voting equipment shall provide for voting in secret and be adequately lighted. "Voting booth" includes enclosures for voting ~~paper printed~~ ballots and for voting equipment.

§ 24.2-612. List of offices and candidates filed with State Board and checked for accuracy; when ballots printed; number required.

Immediately after the expiration of the time provided by law for a candidate to qualify to have his name printed on the official ballot and prior to printing the ballots for an election, each electoral board shall forward to the State Board a list of the county, city, or town offices to be filled at the election and the names of all candidates who have filed for each office. In addition, each electoral board shall forward the name of any candidate who failed to qualify with the reason for his disqualification. On that same day, the electoral board shall also provide a copy of the notice to each disqualified candidate. The notice shall be sent by email or regular mail to the address on the candidate's certificate of candidate qualification, and such notice shall be deemed sufficient. The State Board shall promptly advise the electoral board of the accuracy of the list. The failure of any electoral board to send the list to the State Board for verification shall not invalidate any election.

Each electoral board shall have printed the number of ballots it determines will be sufficient to conduct the election.

Notwithstanding any other provisions of this title, the State Board may print or otherwise provide (i) one statewide paper ballot style for each paper ballot style in use for presidential and vice-presidential electors for use only by persons eligible to vote for those offices only under § 24.2-402 or clause (iii) or (v) of subsection B of § 24.2-416.1 or (ii) one statewide paper ballot style for each paper ballot style in use for Governor, Lieutenant Governor or Attorney General only for use as the early absentee ballot specified in § 24.2-702. The State Board may apportion or authorize the printer or vendor to apportion the costs for these ballots among the localities based on the number of ballots ordered. Any printer employed by the State Board shall execute the statement required by § 24.2-616. The State Board shall designate a representative to be present at the printing of such ballots and deliver them to the appropriate electoral boards pursuant to § 24.2-617. Upon receipt of such paper ballots, the electoral board shall affix its seal. Thereafter, such ballots shall be handled and accounted for, and the votes counted as the State Board shall specifically direct.

The electoral board shall make printed ballots available for absentee voting not later than 45 days prior to any election or within three business days of the receipt of a properly completed absentee ballot application, whichever is later. In the case of a special election, excluding for federal offices, if time is insufficient to meet the applicable deadline established herein, then the electoral board shall make printed ballots available as soon after the deadline as possible. For the purposes of this chapter, making printed ballots available includes mailing of such ballots or electronic transmission of such ballots pursuant to § 24.2-706 to a qualified absentee voter who is eligible for an absentee ballot under subdivision 2 of § 24.2-700. Not later than five days after absentee ballots are made available, each electoral board shall report to the State Board, in writing on a form approved by the State Board, whether it has complied with the applicable deadline.

Only the names of candidates for offices to be voted on in a particular election district shall be printed on the ballots for that election district.

The electoral boards shall send to the State Board a statement of the number of ~~paper~~ ballots ordered to be printed, proofs of each ~~paper and voting equipment~~ ~~printed~~ ballot for verification, and copies of each final ballot. If the State Board

finds that, in its opinion, the number of ballots ordered to be printed by any local electoral board is not sufficient, it may direct the local board to order the printing of a reasonable number of additional ballots.

§ 24.2-613. Form of ballot.

The ballots shall comply with the requirements of this title and the standards prescribed by the State Board.

For elections for federal, statewide, and General Assembly offices only, each candidate who has been nominated by a political party or in a primary election shall be identified by the name of his political party. Independent candidates shall be identified by the term "Independent." For the purpose of this section, any Independent candidate may, by producing sufficient and appropriate evidence of nomination by a "recognized political party" to the State Board, have the term "Independent" on the ballot converted to that of a "recognized political party" on the ballot and be treated on the ballot in a manner consistent with the candidates nominated by political parties. For the purpose of this section, a "recognized political party" is defined as an organization that, for at least six months preceding the filing of its nominee for the office, has had in continual existence a state central committee composed of registered voters residing in each congressional district of the Commonwealth, a party plan and bylaws, and a duly elected state chairman and secretary. A letter from the state chairman of a recognized political party certifying that a candidate is the nominee of that party and also signed by such candidate accepting that nomination shall constitute sufficient and appropriate evidence of nomination by a recognized political party. The name of the political party, the name of the "recognized political party," or term "Independent" may be shown by an initial or abbreviation to meet ballot requirements.

Except as provided for primary elections, the State Board shall determine by lot the order of the political parties, and the names of all candidates for a particular office shall appear together in the order determined for their parties. In an election district in which more than one person is nominated by one political party for the same office, the candidates' names shall appear alphabetically in their party groups under the name of the office, with sufficient space between party groups to indicate them as such. For the purpose of this section and § 24.2-640, except as provided for presidential elections in § 24.2-614, "recognized political parties" shall be treated as a class; the order of the recognized political parties within the class shall be determined by lot by the State Board; and the class shall follow the political parties as defined by § 24.2-101 and precede the independent class. Independent candidates shall be treated as a class under "Independent"; their names shall be placed on the ballot after the political parties and recognized political parties; and where there is more than one independent candidate for an office, their names shall appear alphabetically.

No individual's name shall appear on the ballot more than once for the same office.

In preparing the *printed* ballots for general, special, and primary elections, the State Board and electoral boards shall cause to be printed in not less than 10-point type, immediately below the title of any office, a statement of the number of candidates ~~who for whom votes~~ may be ~~voted for~~ cast for that office. The following language shall be used: "Vote for not more than":

~~At any precinct at which mark sense ballots are used, the mark sense ballot may be used in lieu of the official paper ballot with the approval of the State Board.~~

Any locality ~~which that~~ uses ~~mark sense machine-readable~~ ballots at one or more precincts, including any central absentee precinct, may, with the approval of the State Board, use ~~the mark sense ballot or a printed reproductions~~ reproduction of the ~~mark sense machine-readable~~ ballot in lieu of the official ~~paper machine-readable~~ ballot. Such reproductions shall be printed and otherwise handled in accordance with all laws and procedures that apply to official paper ballots.

In every county and city using voting systems requiring printed ballots, the electoral board shall furnish a sufficient number of ballots printed on plain white paper, of such form and size as will fit in the ballot frames.

§ 24.2-623. Ballot containers to be supplied by governing bodies; construction and custody.

The governing body of each county and city shall provide a ballot container for each precinct ~~and each part of a split precinct~~. The container shall have a lock and key and an opening of sufficient size to admit a single folded or unfolded ballot and no more. The containers shall be kept by the electoral boards for use in the precincts.

§ 24.2-625. Application of Title 24.2 and general law.

All of the provisions of this title and general law not inconsistent with the provisions of this article shall apply to elections in counties, cities, and towns adopting and using ~~mechanical or~~ electronic voting or counting ~~systems~~ machines.

§ 24.2-626. Governing bodies shall acquire electronic voting and counting machines.

The governing body of each county and city shall provide for the use of electronic voting or counting ~~systems~~ machines, of a kind approved by the State Board, at every precinct and for all elections held in the county, the city, or any part of the county or city.

Each county and city governing body shall purchase, lease, lease purchase, or otherwise acquire such ~~systems~~ machines and may provide for the payment therefor in the manner it deems proper. Systems of different kinds may be adopted for use and be used in different precincts of the same county or city, or within a precinct or precincts in a county or city, subject to the approval of the State Board.

On and after July 1, 2007, no county or city shall acquire any direct recording electronic machine (DRE) for use in elections in the county or city except as provided herein:

1. DREs acquired prior to July 1, 2007, may be used in elections in the county or city for the remainder of their useful life.

2. Any locality that acquired DREs prior to July 1, 2007, may acquire DREs on a temporary basis to conduct an election when the existing DRE inventory is insufficient to conduct the election because all or part of its inventory is under lock or seal as required by § 24.2-659.

3. Any locality may acquire DREs from another locality within the Commonwealth, from among their existing inventories, for the expressed purpose of providing accessible voting equipment as required by § 24.2-626.1. The local electoral board shall notify the State Board when acquiring any DRE under this provision and shall certify to the State Board that the DRE acquired under this provision is necessary to meet accessible voting requirements.

4. Any locality may modify its existing DREs to comply with federal or state law requirements to provide accessible voting equipment. Any modifications made to existing DREs must be authorized by the State Board of Elections prior to modification.

§ 24.2-627. Electronic voting or counting machines; number required.

A. The governing body of any county or city ~~which that~~ adopts for use at elections ~~mechanical or direct recording electronic voting systems machines~~ shall provide for each precinct at least the following number of voting ~~devices machines~~:

In each precinct having not more than 750 registered voters, 1;

In each precinct having more than 750 but not more than 1,500 registered voters, 2;

In each precinct having more than 1,500 but not more than 2,250 registered voters, 3;

In each precinct having more than 2,250 but not more than 3,000 registered voters, 4;

In each precinct having more than 3,000 but not more than 3,750 registered voters, 5;

In each precinct having more than 3,750 but not more than 4,500 registered voters, 6;

In each precinct having more than 4,500 but not more than 5,000 registered voters, 7.

B. The governing body of any county or city, ~~which that~~ adopts for use at elections ~~any electronic system which requires the voter to vote a ballot which is inserted in an electronic counter, ballot scanner machines~~ shall provide for each precinct at least one voting booth with a marking device for each 425 registered voters or portion thereof and shall provide for each precinct at least one ~~counting device scanner~~.

C. The local electoral board of any county or city shall be authorized to conduct any May general election, primary election, or special election held on a date other than a November general election with the number of voting or ~~marking devices counting machines~~ it determines is appropriate for each precinct, notwithstanding the provisions of subsections A and B ~~of this section~~.

D. For purposes of applying this section, an electoral board may exclude persons voting absentee in its calculations, and if it does so, the electoral board shall send to the State Board a statement of the number of voting systems to be used in each precinct. If the State Board finds that the number of voting systems is not sufficient, it may direct the local board to use more voting systems.

§ 24.2-629. State Board approval process of electronic voting systems.

A. Any person, firm, or corporation ~~hereinafter~~, referred to *in this article* as the "vendor," manufacturing, owning, or offering for sale any electronic voting or counting ~~system machine~~ and ballots designed to be used with such equipment may apply to the State Board, in the manner prescribed by the Board, to have examined a production model of such equipment and the ballots used with it. The Board may require the vendor to pay a reasonable application fee when he files his request for testing or certification of new or upgraded voting equipment. Receipts from such fees shall be credited to the Board for reimbursement of testing and certification expenses. In addition to any other materials that may be required, a current statement of the financial status of the vendor, including any assets and liabilities, shall be filed with the Board; if the vendor is not the manufacturer of the equipment for which application is made, such a statement shall also be filed for the manufacturer. These statements shall be exempt from the provisions of the Virginia Freedom of Information Act (§ 2.2-3700 et seq.). The Board shall require, at a site of its choosing, a demonstration of such ~~system equipment~~ and ballots and may require that a production model of the ~~system equipment~~ and a supply of ballots be provided to the Board for testing purposes. The Board shall also require the vendor to provide documentation of the practices recommended by the vendor to ensure the optimum security and functionality of the system.

B. ~~The provisions of this title pertaining to mechanical voting devices and ballots shall be deemed applicable to such equipment and ballots provided that (i) the counting equipment used with punched or mark sense ballots shall not be required to prevent a voter from voting for a greater number of candidates than he is lawfully entitled to; (ii) the provisions of this title pertaining to ballot squares shall not be applicable to punched or mark sense ballots; and (iii) any system approved pursuant to this title shall segregate ballots containing write-in votes from all others. Every electronic voting system shall ensure voting in absolute secrecy, and systems requiring the voter to vote a ballot that is inserted in an electronic counting device shall provide for secrecy of the ballot and a method to conceal the voted ballot. Systems requiring the voter to vote a ballot that is inserted in an electronic counting device shall report, if possible, the number of ballots on which a voter voted for a lesser number of candidates for an office than the number he was lawfully entitled to vote and the number of ballots on which a voter voted for a greater number of candidates than the number he was lawfully entitled to vote. Electronic voting devices shall be programmable, if possible, to allow such undervoted and overvoted ballots to be separated when necessary.~~

~~B1. The system shall provide the voter with an opportunity to correct any error before a permanent record is preserved. The Board may approve any kind of electronic voting system that meets the following requirements:~~

1. *It shall provide clear instructions for voters on how to mark or select their choice and cast that vote.*
2. *It shall provide facilities for voting for all offices at any election and on as many questions as may be submitted at any election.*
3. *It shall be capable of processing ballots for all parties holding a primary election on the same day, but programmable in such a way that an individual ballot cast by a voter is limited to the party primary election in which the voter chooses to participate.*
4. *It shall require votes for presidential and vice presidential electors to be cast for the presidential and vice presidential electors of one party by one operation. The ballot shall contain the words "Electors for" preceded by the name of the party or other authorized designation and followed by the names of the candidates for the offices of President and Vice President.*
5. *It shall enable the voter to cast votes for as many persons for an office as lawfully permitted, but no more. It shall prevent the voter from casting a vote for the same person more than once for the same office. However, ballot scanner machines shall not be required to prevent a voter from voting for a greater number of candidates than he is lawfully entitled to.*
6. *It shall enable the voter to cast a vote on any question on which he is lawfully permitted to vote, but no other.*
7. *It shall provide the voter with an opportunity to correct any error before a ballot is cast.*
8. *It shall correctly register or record and accurately count all votes cast for candidates and on questions.*
9. *It shall be provided with a "protective counter," whereby any operation of the machine before or after the election will be detected.*
10. *It shall be provided with a counter that at all times during an election shall show how many persons have voted.*
11. *It shall ensure voting in absolute secrecy. Ballot scanner machines shall provide for the secrecy of the ballot and a method to conceal the voted ballot.*
12. *It shall be programmable to allow ballots to be separated when necessary.*
13. *Ballot scanner machines shall report, if possible, the number of ballots on which a voter undervoted or overvoted.*

C. After its examination of the equipment, ballots, and other materials submitted by the vendors, the Board shall prepare and file in its office a report of its finding as to (i) the apparent capability of such equipment to accurately count, register, and report votes; (ii) whether the system can be conveniently used without undue confusion to the voter; (iii) its accessibility to voters with disabilities; (iv) whether the system can be safely used without undue potential for fraud; (v) the ease of its operation and transportation by voting equipment custodians and officers of election; (vi) the financial stability of the vendor and manufacturer; (vii) whether the system meets the requirements of this title; (viii) whether the system meets federal requirements; (ix) whether issues of reliability and security identified with the system by other state governments have been adequately addressed by the vendor; and (x) whether, in the opinion of the Board, the potential for approval of such system is such as to justify further examination and testing.

D. If the Board determines that there is such potential and prior to its final determination as to approval or disapproval of such system, the Board shall obtain a report by an independent electronics or engineering consultant as to (i) whether the system accurately counts, registers, and reports votes; (ii) whether it is capable of storing and retaining existing votes in a permanent memory in the event of power failure during and after the election; (iii) the number of separate memory capabilities for the storage of recorded votes; (iv) its mechanical and electronic perfections and imperfections; (v) the audit trail provided by the system; (vi) the anticipated frequency of repair; (vii) the ease of repair; (viii) the anticipated life of the equipment; (ix) its potential for fraudulent use; (x) its accessibility to voters with disabilities; (xi) the ease of its programming, transportation, and operation by voting equipment custodians and officers of election; and (xii) any other matters deemed necessary by the Board. Failure by an applicant to cooperate with the consultant by furnishing information and production equipment and ballots requested shall be deemed a withdrawal of the application, but nothing in this section shall require the disclosure of trade secrets by the applicant. If such trade secrets are essential to the proper analysis of the system and are provided for that reason, the consultant shall subscribe to an oath subject to the penalty for perjury that he will neither disclose nor make use of such information except as necessary for the system analysis. The report of the consultant shall be filed in the office of the Board.

~~D~~ E. In preparing the reports cited in subsections C and D, the Board shall require, as a condition of certification, that the system is comprehensively examined by individuals including at least one expert in election management and one in computer system security. The Board shall develop, in conjunction with the above listed individuals, a specific set of items to be examined and tested as part of the certification process to further elaborate on the requirements identified in this section.

~~E~~ F. If the Board determines that there is potential for approval of the system and prior to its final determination, the Board shall also require that the system be tested in an actual election in one or more counties or cities. Its use at such election shall be as valid for all purposes as if it had been legally approved by the Board and adopted by the counties or cities.

~~F~~ G. If, following testing, the Board approves any ~~electronic~~ voting system and its ballots for use, the Board shall so notify the electoral boards of each county and city. Systems so approved may be adopted for use at elections as herein provided. No form of ~~electronic~~ voting system and ballots not so approved shall be adopted by any county or city. Any ~~electronic~~ voting system and ballots approved for use by the Board shall be deemed to meet the requirements of this title and any applicable federal laws, and their use in any election shall be valid.

~~G. H.~~ A vendor whose ~~electronic~~ voting system is approved for use shall provide ~~annual~~ updates to the State Board concerning its recommended practices for optimum security and functionality of the system, *as may be requested by the Board*. Any product for which ~~annual~~ requested updates are not provided shall be deemed non-compliant and may be decertified at the discretion of the Board.

~~H. I.~~ The Board shall have the authority to investigate, at its discretion, any voting system certified in Virginia to ensure that it continues to meet the standards outlined in subsections C and D. The Board may, at its discretion, decertify any voting system based on significant problems detected with the voting system in Virginia or on reports provided by federal authorities or other state election officials.

§ 24.2-633. Notice of final testing of voting system; sealing equipment.

Before the final testing of voting or counting ~~equipment~~ machines for any election, the electoral board shall mail written notice (i) to the chairman of the local committee of each political party, or; (ii) in a primary election, to the chairman of the local committee of the political party holding the primary, or (iii) in a city or town council election in which no candidate is a party nominee and which is held when no other election having party nominees is being conducted, to the candidates.

The notice shall state the time and place where the ~~equipment~~ machine will be tested and state that the political party or candidate receiving the notice may have one representative present while the equipment is tested.

At the time stated in the notice, the representatives, if present, shall be afforded an opportunity to see that the equipment is in proper condition for use at the election. When a ~~device~~ machine has been so examined by the representatives, it shall be sealed with a numbered seal in their presence, or; if the ~~device~~ machine cannot be sealed with a numbered seal, it shall be locked with a key. The representatives shall certify ~~as to the numbers of the devices; if mechanical voting devices are used, that all counters are set at zero (000); for each machine~~ the number registered on the protective counter; and the number on the seal. When no party or candidate representative is present, the custodian shall seal the ~~device~~ machine as prescribed in this section in the presence of a member of the electoral board or its representative.

§ 24.2-634. Locking and securing after preparation.

When voting or counting equipment has been properly prepared for an election, it shall be locked against voting and sealed, or; if the ~~device~~ a voting or counting machine cannot be sealed with a numbered seal, it shall be locked with a key. The equipment keys and any electronic activation devices shall be retained in the custody of the electoral board and delivered to the officers of election as provided in § 24.2-639. After the voting equipment has been delivered to the polling places, the electoral board shall provide ample protection against tampering with or damage to the equipment.

§ 24.2-638. Voting equipment to be in plain view; officers and others not permitted to see actual voting; unlocking counter compartment of equipment, etc.

During the election, the exterior of the voting and counting equipment and every part of the polling place shall be in plain view of the officers of election.

No voting or counting ~~equipment~~ machines shall be removed from the plain view of the officers of election or from the polling place at any time during the election and through the determination of the vote as provided in § 24.2-657. However, an electronic voting ~~device~~ machine that is so constructed as to be easily portable may be taken outside the polling place pursuant to subsection A of § 24.2-649 and to assist a voter age 65 or older or physically disabled so long as: (i) the voting ~~device~~ machine remains in the plain view of two officers of election representing two political parties or, in a primary election, two officers of election representing the party conducting the primary, provided that if the use of two officers for this purpose would result in too few officers remaining in the polling place to meet legal requirements, the ~~equipment~~ machine shall remain in plain view of one officer who shall be either the chief officer or the assistant chief officer; (ii) the voter casts his ballot in a secret manner unless the voter requests assistance pursuant to § 24.2-649; and (iii) there remain sufficient officers of election in the polling place to meet legal requirements. After the voter has completed voting his ballot, the officer or officers shall immediately return the voting ~~device~~ machine to its assigned location inside the polling place. The machine number, the time that the machine was removed and the time that it was returned, the number on the machine's public counter before the machine was removed and the number on the same counter when it was returned, the names of the voters who used the machine while it was removed provided that secrecy of the ballot is maintained in accordance with guidance from the State Board, and the name or names of the officer or officers who accompanied the machine shall be recorded on the statement of results. If a polling place fails to record the information required in the previous sentence, or it is later proven that the information recorded was intentionally falsified, the local electoral board shall dismiss at a minimum the chief officer or the assistant chief officer, or both, as appropriate; and shall dismiss any other officer of election who is shown to have caused the failure to record the required information intentionally or by gross negligence or to have intentionally falsified the information. The dismissed officers shall not be allowed thereafter to serve as an officer or other election official anywhere in the Commonwealth. In the case of an emergency that makes a polling place unusable or inaccessible, voting or counting ~~equipment~~ machines may be removed to an alternative polling place pursuant to the provisions of subsection D of § 24.2-310.

The equipment shall be placed at least four feet from any table where an officer of election is working or seated. The officers of election shall not themselves be, or permit any other person to be, in any position or near any position that will permit them to observe how a voter votes or has voted.

One of the officers shall inspect the face of the voting ~~device~~ machine after each voter has cast his vote and verify that the ballots on the face of the ~~device~~ machine are in their proper places and that the ~~device~~ machine has not been damaged.

During an election, the door or other covering of the counter compartment of the voting or counting ~~device~~ machine shall not be unlocked or open or the counters exposed except for good and sufficient reasons, a statement of which shall be made and signed by the officers of election and attached to the statement of results. No person shall be permitted in or about the polling place except the voting equipment custodian, vendor, or contractor technicians, and other persons authorized by this title.

§ 24.2-639. Duties of officers of election.

The officers of election of each precinct at which voting or counting ~~equipment~~ machines ~~is~~ are used shall meet at the polling place by 5:15 a.m. on the day of the election and arrange the equipment, furniture, and other materials for the conduct of the election. The officers of election shall verify that all required equipment, ballots, and other materials have been delivered to them for the election. The officers shall post at least two instruction cards for ~~mechanical or~~ direct recording electronic ~~voting devices~~ machines conspicuously within the polling place.

The keys to the equipment and any electronic activation devices that are required for the operation of electronic voting equipment shall be delivered, prior to the opening of the polls, to the officer of election designated by the electoral board in a sealed envelope on which has been written or printed the name of the precinct for which it is intended. The envelope containing the keys and any electronic activation devices shall not be opened until all of the officers of election for the precinct are present at the polling place and have examined the envelope to see that it has not been opened. The equipment shall remain locked against voting until the polls are formally opened and shall not be operated except by voters in voting.

Before opening the polls, each officer shall examine the equipment and see that no vote has been cast and that the counters register zero. The officers shall conduct their examination in the presence of the following party and candidate representatives: one authorized representative of each political party or independent candidate in a general or special election, or one authorized representative of each candidate in a primary election, if such representatives are available. Each authorized representative shall be a qualified voter of any jurisdiction of the Commonwealth. Each representative, who is not himself a candidate or party chairman, shall present to the officers of election a written statement designating him to be a representative of the party or candidate and signed by the county or city chairman of his political party, the independent candidate, or the primary candidate, as appropriate. Such statement, bearing the chairman's or candidate's original signature, may be photocopied and such photocopy shall be as valid as if the copy had been signed.

~~If any counter, other than a protective or private counter, on mechanical voting equipment is found not to register zero, the officers shall make a written statement identifying the counter, together with the number registered on it, and shall sign and post the statement on the wall of the polling room, where it shall remain during the day of election. The officers shall enter a similar statement on the statement of results. In determining the results, they shall subtract such number from the final total registered on that counter.~~ If any counter, other than a protective or private counter, on a ~~mark sense ballot scanner~~ or direct recording electronic ~~voting device~~ machine is found not to register zero, the officers of election shall immediately notify the electoral board which shall, if possible, substitute a ~~device~~ machine in good working order, that has been prepared and tested pursuant to § 24.2-634. No ~~mark sense ballot scanner~~ or direct recording electronic ~~device~~ machine shall be used if any counter, other than a protective or private counter, is found not to register zero.

§ 24.2-641. Sample ballot.

The electoral board shall provide for each precinct in which ~~mechanical voting machines or direct electronic~~ any voting ~~devices or counting machines~~ are used, two sample ballots, which shall be arranged as a diagram of the front of the voting ~~or counting device~~ machine as it will appear with the official ballot for voting on election day. Such sample ballots shall be posted for public inspection at each polling place during the day of election.

§ 24.2-642. Inoperative equipment.

A. When any voting or counting ~~device~~ machine becomes inoperative in whole or in part while the polls are open, the officers of election shall immediately notify the electoral board. If possible, the electoral board shall dispatch a qualified technician to the polling place to repair the inoperative ~~device~~ machine. All repairs shall be made in the presence of two officers of election representing the two political parties or, in the case of a primary election for only one party, two officers representing that party. If the ~~device~~ machine cannot be repaired on site, the electoral board shall, if possible, substitute a ~~device~~ machine in good order for the inoperative ~~device, machine~~ and at the close of the polls the record of both ~~devices~~ machines shall be taken, and the votes shown on their counters shall be added together in ascertaining the results of the election.

No voting or counting ~~equipment~~ machines, including inoperative ~~equipment~~ machines, shall be removed from the plain view of the officers of election or from the polling place at any time during the election and through the determination of the vote as provided in § 24.2-657 except as explicitly provided pursuant to the provisions of this title.

No voting or counting ~~device~~ machine that has become inoperative and contains votes may be removed from the polling place while the polls are open and votes are being ascertained. If the officers of election are unable to ascertain the results from the inoperative ~~device~~ machine after the polls close in order to add its results to the results from the other ~~devices~~ machines in that precinct, the officers of election shall lock and seal the ~~device~~ machine without removing the memory card, cartridge, or data storage medium and deliver the ~~device~~ machine to either the clerk of court or registrar's office as provided for in § 24.2-659. On the day following the election, the electoral board shall meet and ascertain the results from the inoperative ~~device~~ machine in accordance with the procedures prescribed by the ~~device's~~ machine's manufacturer and add the results to the results for the precinct to which the ~~device~~ machine was assigned.

Nothing in this subsection shall prohibit the removal of an inoperative ~~device machine~~ from a precinct prior to the opening of the polls or ~~votes the first vote~~ being cast on that ~~device machine~~. Any ~~device machine~~ so removed shall be placed in the custody of an authorized custodian, technician, or electoral board representative. If the inoperative ~~device machine~~ can be repaired, it shall be retested and resealed pursuant to § 24.2-634 and may be returned to the precinct by an authorized custodian, technician, or electoral board representative. The officers of election shall then open the ~~device machine~~ pursuant to § 24.2-639.

B. In any precinct that uses a ballot that can be ~~marked read~~ without the use of the ~~counting device ballot scanner machine~~, if the ~~counting device ballot scanner machine~~ becomes inoperative and there is no other available ~~counting device scanner~~, the uncounted ballots shall be placed in a ballot container or compartment that is used exclusively for uncounted ballots. If an operative ~~counting device scanner~~ is available in the polling place after the polls have closed, such uncounted ballots shall be removed from the container and fed into the ~~counting device scanner~~, one at a time, by an officer of election in the presence of all persons who may be lawfully present at that time but before the votes are determined pursuant to § 24.2-657. If such ~~device a scanner~~ is not available, the ballots may be counted manually or as directed by the electoral board.

If he is unable to read and write or disabled for any cause other than blindness, he may designate an officer of election or some other person to assist him other than the voter's employer or agent of that employer, or officer or agent of the voter's union.

The officer of election or other person so designated shall not enter the booth with the voter unless (i) the voter signs a request stating that he requires assistance by reason of physical disability or inability to read or write and (ii) the officer of election or other person signs a statement that he is not the voter's employer or an agent of that employer, or an officer or agent of the voter's union, and that he will act in accordance with the requirements of this section. The request and statement shall be on a single form furnished by the State Board. If the voter is unable to sign the request, his own mark acknowledged by him before an officer of election shall be sufficient signature, provided no mark shall be required of a voter who is blind. An officer of election shall advise the voter and person assisting the voter of the requirements of this section and record the name of the voter and the name and address of the person assisting him.

The officer of election or other person so designated shall assist the qualified voter in the preparation of his ballot in accordance with his instructions and without soliciting his vote or in any manner attempting to influence his vote and shall not in any manner divulge or indicate, by signs or otherwise, how the voter voted on any office or question. Nothing in this ~~subsection~~ section shall be construed to require a voter to use the ~~equipment~~ machine unassisted.

§ 24.2-653. Voter whose name does not appear on pollbook or who is marked as having voted; handling of provisional ballots; ballots cast after normal close of polls due to court order extending polling hours.

A. When a person offers to vote pursuant to § 24.2-652 and the general registrar is not available or cannot state that the person is registered to vote, then such person shall be allowed to vote by ~~paper printed~~ ballot in the manner provided in this section. This procedure shall also apply when required by § 24.2-643 or 24.2-651.1.

Such person shall be given a ~~paper printed~~ ballot and provide, subject to the penalties for making false statements pursuant to § 24.2-1016, on a green envelope supplied by the State Board, the identifying information required on the

envelope, including *the last four digits* of his social security number, if any, full name including the maiden or any other prior legal name, date of birth, complete address, and signature. Such person shall be asked to present one of the forms of identification specified in subsection B of § 24.2-643. The officers of election shall note on the green envelope whether or not the voter has presented one of the specified forms of identification. The officers of election shall enter the appropriate information for the person in the precinct provisional ballots log in accordance with the instructions of the State Board but shall not enter a consecutive number for the voter on the pollbook nor otherwise mark his name as having voted. The officers of election shall provide an application for registration to the person offering to vote in the manner provided in this section.

The voter shall then, in the presence of an officer of election, but in a secret manner, mark the *printed* ballot as provided in § 24.2-644 and seal it in the green envelope. The envelope containing the ballot shall then promptly be placed in the ballot container by an officer of election.

An officer of election, by a written notice given to the voter, shall (i) inform him that a determination of his right to vote shall be made by the electoral board, (ii) advise the voter of the beginning time and place for the board's meeting and of the voter's right to be present at that meeting, and (iii) inform a voter voting provisionally when required by § 24.2-643 that he may submit a copy of one of the forms of identification specified in subsection B of § 24.2-643 to the electoral board by facsimile, electronic mail, in-person submission, or timely United States Postal Service or commercial mail delivery, to be received by the electoral board no later than noon on the third day after the election. At the meeting, the voter may request an extension of the determination of the provisional vote to the following day in order to provide information to prove that the voter is entitled to vote in the precinct pursuant to § 24.2-401. The electoral board shall have the authority to grant such extensions which it deems reasonable to determine the status of a provisional vote.

B. The provisional votes submitted pursuant to subsection A, in their unopened envelopes, shall be sealed in a special envelope marked "Provisional Votes," inscribed with the number of envelopes contained therein, and signed by the officers of election who counted them. All provisional votes envelopes shall be delivered either (i) to the clerk of the circuit court who shall deliver all such envelopes to the secretary of the electoral board or (ii) to the general registrar in localities in which the electoral board has directed delivery of election materials to the general registrar pursuant to § 24.2-668.

The electoral board shall meet on the day following the election and determine whether each person having submitted such a provisional vote was entitled to do so as a qualified voter in the precinct in which he offered the provisional vote. If the board is unable to determine the validity of all the provisional ballots offered in the election, or has granted any voter who has offered a provisional ballot an extension to the following day as provided in subsection A, the meeting shall stand adjourned from day to day, not to exceed seven calendar days from the date of the election, until the board has determined the validity of all provisional ballots offered in the election.

One authorized representative of each political party or independent candidate in a general or special election or one authorized representative of each candidate in a primary election shall be permitted to remain in the room in which the determination is being made as an observer so long as he does not participate in the proceedings and does not impede the orderly conduct of the determination. Each authorized representative shall be a qualified voter of any jurisdiction of the Commonwealth. Each representative, who is not himself a candidate or party chairman, shall present to the electoral board a written statement designating him to be a representative of the party or candidate and signed by the county or city chairman of his political party, the independent candidate, or the primary candidate, as appropriate. Such statement, bearing the chairman's or candidate's original signature, may be photocopied and such photocopy shall be as valid as if the copy had been signed.

Notwithstanding the provisions of the Virginia Freedom of Information Act (§ 2.2-3700 et seq.), attendance at meetings of the electoral board to determine the validity of provisional ballots shall be permitted only for the authorized representatives provided for in this subsection, for the persons whose provisional votes are being considered and their representative or legal counsel, and for appropriate staff and legal counsel for the electoral board.

If the electoral board determines that such person was not entitled to vote as a qualified voter in the precinct in which he offered the provisional vote, is unable to determine his right to vote, or has not been provided one of the forms of identification specified in subsection B of § 24.2-643, the envelope containing his ballot shall not be opened and his vote shall not be counted. The provisional vote shall be counted if (a) such person is entitled to vote in the precinct pursuant to § 24.2-401 or (b) the State Board or the voter presents proof that indicates the voter submitted an application for registration to the Department of Motor Vehicles or other state-designated voter registration agency prior to the close of registration pursuant to § 24.2-416 and the registrar determines that the person was qualified for registration based upon the application for registration submitted by the person pursuant to subsection A. The general registrar shall notify in writing pursuant to § 24.2-114 those persons found not properly registered or whose provisional vote was not counted.

If the electoral board determines that such person was entitled to vote, the name of the voter shall be entered in a provisional votes pollbook and marked as having voted, the envelope shall be opened, and the ballot placed in a ballot container without any inspection further than that provided for in § 24.2-646.

On completion of its determination, the electoral board shall proceed to count such ballots and certify the results of its count. Its certified results shall be added to those found pursuant to § 24.2-671. No adjustment shall be made to the statement of results for the precinct in which the person offered to vote.

The certification of the results of the count together with all ballots and envelopes, whether open or unopened, and other related material shall be delivered by the electoral board to the clerk of the circuit court and retained by him as provided for in §§ 24.2-668 and 24.2-669.

C. Whenever the polling hours are extended by an order of a court of competent jurisdiction, any ballots marked after the normal polling hours by persons who were not already in line at the time the polls would have closed, notwithstanding the court order, shall be treated as provisional ballots under this section. The officers of election shall mark the green envelope for each such provisional ballot to indicate that it was cast after normal polling hours due to the court order, and when preparing the materials to deliver to the registrar or electoral board, shall separate these provisional ballots from any provisional ballots used for any other reason. The electoral board shall treat these provisional ballots as provided in subsection B; however, the counted and uncounted provisional ballots marked after the normal polling hours shall be kept separate from all other ballots and recorded in a separate provisional ballots pollbook. The State Board of Elections shall provide instructions to the electoral boards for the handling and counting of such provisional ballots pursuant to this section.

§ 24.2-653.1. Voters who did not receive absentee ballots; provisional ballots.

A. The provisions of this section shall apply when (i) a person offers to vote pursuant to § 24.2-643 at his proper polling place or at a central absentee voter precinct established by the governing body of the county or city where he is registered to vote, (ii) his name is shown on the pollbook as having applied for an absentee ballot, and (iii) for any reason he did not receive or has lost the absentee ballot. In such case, he shall be entitled to cast a provisional ballot after presenting to the officer of election a statement signed by him that he did not receive the ballot or has lost the ballot, subject to felony penalties for making false statements as pursuant to § 24.2-1016.

B. Such person shall be given a ~~paper~~ printed ballot and be permitted to vote the provisional ballot in accordance with the provisions of § 24.2-653 and the instructions of the State Board. The electoral board shall process the ballot in accordance with the provisions of § 24.2-653 and the instructions of the State Board.

§ 24.2-654. Officers to lock and seal voting equipment and ascertain vote after polls closed; statement of results.

As soon as the polls are closed, the officers of election shall lock each voting and counting ~~device~~ machine against further voting. They shall then proceed to ascertain the vote given at the election and continue without adjournment until they declare the results of the election. They shall seal the ~~devices~~ machines.

In ascertaining the vote, the officers of election shall complete a statement of results in duplicate on the form and in the manner prescribed by the State Board.

§ 24.2-657. Determination of vote on voting systems.

In the presence of all persons who may be present lawfully at the time, giving full view of the voting ~~equipment and counters~~ systems or printed return sheets, the officers of election shall determine and announce the results as shown by the counters or printed return sheets, including the votes recorded for each office on the write-in ballots, and shall also announce the vote on every question. The vote as registered shall be entered on the statement of results. When completed, the statement shall be compared with the number on the counters on the equipment or on the printed return sheets. If, on ~~all~~ ~~mechanical~~ or direct recording electronic voting ~~devices~~ machines, the number of persons voting in the election, or the number of votes cast for any office or on any question, totals more than the number of names on the pollbooks of persons voting on the ~~devices~~ machines, then the figures recorded by the ~~devices~~ machines shall be accepted as correct. A statement to that effect shall be entered by the officers of election in the space provided on the statement of results.

§ 24.2-658. Machines with printed return sheets; disposition of sheets.

If ~~devices~~ machines that print returns are used, the printed inspection sheet and two copies of the printed return sheet containing the results of the election for each ~~device~~ machine shall be inserted in the envelope containing the ~~pollbooks~~ statement of results by the officers of election and sealed and returned as required by § 24.2-668.

The printed inspection sheets and one copy of the printed return sheets shall be kept with the ~~pollbooks~~ statement of results and preserved as provided in § 24.2-669.

One copy of the printed return sheets shall be made available by the clerk of the circuit court on the day following the election and for ~~sixty~~ 60 additional days for inspection and transcribing information therefrom by the public.

§ 24.2-659. Locking voting and counting machines after election and delivering keys to clerk; printed returns as evidence.

A. If the voting or counting ~~device~~ machine is secured by the use of equipment keys, after the officers of election lock and seal each voting and counting ~~device~~ machine, the equipment keys shall be enclosed in an envelope ~~which~~ that shall be sealed and have endorsed thereon a certificate of an officer of election stating the election precinct, the number of each ~~device~~ machine, the number on the seal, and the number of the protective counter, if one, on the ~~device~~ machine. The sealed envelope shall be delivered by one of the officers of the election to the clerk of the circuit court where the election was held. The custodians of the voting equipment shall enclose and seal in an envelope, properly endorsed, all other keys to all voting equipment in their jurisdictions and deliver the envelope to the clerk of the circuit court by noon on the day following the election. If the voting or counting ~~devices~~ machines are secured by the use of equipment keys or electronic activation devices that are not specific to a particular ~~device~~ machine, after the officers of election lock and seal each voting and counting ~~device~~ machine, the equipment keys and electronic activation devices shall be enclosed in an envelope that shall be sealed and have endorsed thereon a certificate of an officer of election stating the election precinct. The sealed envelope shall be delivered by one of the officers of election to the clerk of the circuit court where the election was held.

If the voting or counting ~~device machine~~ is secured by removal of the ~~memory card, cartridge, or other~~ data storage ~~medium device~~ used in that election, the officers shall remove the ~~memory card, cartridge, or other~~ data storage ~~medium device~~ and proceed to lock and seal each ~~voting and counting device machine~~. The ~~memory card, cartridge, or other~~ data storage ~~medium device~~ shall be enclosed in an envelope that shall be sealed and have endorsed thereon a certificate of an officer of election stating the election precinct, the number of each ~~device machine~~, the number on the seal, and the number of the protective counter, if one, on the ~~device machine~~. The sealed envelope shall be delivered by one of the officers of election to the clerk of the circuit court where the election was held. The equipment keys used at the polls shall be sealed in a different envelope and delivered to the clerk who shall release them to the electoral board upon request or at the expiration of the time specified by this section.

If the voting or counting ~~device machine~~ provides for the creation of a separate master electronic back-up on a ~~memory card, cartridge, or other~~ data storage ~~medium device~~ that combines the data for all of the voting ~~devices or counting machines~~ in a given precinct, that data storage ~~medium device~~ shall be enclosed in an envelope that shall be sealed and have endorsed thereon a certificate of an officer of election stating the name of the precinct. The sealed envelope shall be delivered by one of the officers of election to the clerk of the circuit court where the election was held. The ~~memory cards or~~ data storage ~~medium device~~ for the individual ~~devices machines~~ may remain sealed in its individual ~~device machine~~ until the expiration of the time specified by this section. The equipment keys and the electronic activation devices used at the polls shall be sealed together in a separate envelope and delivered to the clerk who shall release them to the electoral board upon request or at the expiration of the time specified by this section.

The voting and counting ~~devices machines~~ shall remain locked and sealed until the deadline to request a recount under Chapter 8 (§ 24.2-800 et seq.) has passed and, if any contest or recount is pending thereafter, until it has been concluded. The ~~devices machines~~ shall be opened and all data examined only (i) on the order of a court of competent jurisdiction or (ii) on the request of an authorized representative of the State Board or the electoral board at the direction of the State Board in order to ensure the accuracy of the returns. In the event that ~~devices machines~~ are examined under clause (ii) of this paragraph, each political party and each independent candidate on the ballot, or each primary candidate, shall be entitled to have a representative present during such examination. The representatives and observers lawfully present shall be prohibited from interfering with the officers of election in any way. The State Board or local electoral board shall provide such parties and candidates reasonable advance notice of the examination.

When recounts occur in precincts using ~~mechanical or direct recording~~ electronic ~~voting devices machines~~ with printed return sheets, the printed return sheets delivered to the clerk may be used as the official evidence of the results.

When the required time has expired, the clerk of the circuit court shall return all voting equipment keys to the electoral board.

B. The local electoral board may direct that the officers of election and custodians, in lieu of conveying the sealed equipment keys to the clerk of the circuit court as provided in subsection A ~~of this section~~, shall convey them to the principal office of the general registrar on the night of the election. The general registrar shall secure and retain the sealed equipment keys and any other electronic locking or activation devices in his office and shall convey them to the clerk of the court by noon of the day following the ascertainment of the results of the election by the electoral board.

§ 24.2-663. When ballot void.

If a ~~paper printed ballot or a ballot that is inserted into an electronic counting device~~ is found to have been voted for a greater number of names for any one office than the number of persons required to fill the office, or if the title of the office is erased, the ballot shall be considered void as to all the names designated to fill such office, but no further, and the ballot shall be counted for the other offices on the ballot. A. The State Board shall be authorized to ~~provide for pilot programs~~ *conduct a post-election audit of one or more ballot scanner machines in one or more precincts* in one or more localities with respect to an election in which the margin between the top two candidates for each office on the ballot exceeds 10 percent, with the consent of the electoral board of the locality; ~~to conduct a post-election audit of one or more optical scan tabulators in one or more precincts~~, notwithstanding any other provision of law to the contrary. The purposes of the ~~pilot programs audits~~ shall be to study the accuracy of ~~optical scan tabulators~~; ~~to evaluate the time, cost, and accuracy of audits~~; and ~~to determine proper procedures for conducting audits~~. ~~A pilot program may audit any combination of randomly selected or specific tabulators ballot scanner machines.~~

B. An audit ~~conducted as part of a pilot program~~ shall have no effect on the election results.

C. All audits shall be performed in accordance with the procedures prescribed by the State Board under the supervision of the local electoral board. The procedures established by the State Board shall include its procedures for conducting hand counts of ballots. Candidates and political parties may have representatives observe the audits.

D. At the conclusion of each audit, the local electoral board shall announce publicly the results of the audit of the machines in its jurisdiction. If the officers cannot produce such records, the voter shall be allowed to vote in person at the absentee voter precinct and have his vote counted with other absentee votes. If the voter's appeal is denied, the provisions of § 24.2-708 shall be applicable, and the officers shall advise the voter that he may vote on presentation of a statement signed by him that he has not received an absentee ballot and subject to felony penalties for making false statements pursuant to § 24.2-1016.

D. The petition shall set forth the results certified by the Board or electoral board and shall request the court to have the ballots in the election recounted or, in the case of ~~mechanical or direct recording electronic voting devices~~ *machines*, the vote redetermined.

In an election for office, a copy of the petition shall be served on the candidate apparently nominated or elected as provided under § 8.01-296 and within 10 days after the Board or electoral board has certified the results of such election. In a referendum, a copy of the petition shall be so served on the governing body or chief executive officer of the jurisdiction in which the election was held.

The chief judge of the circuit court in which a petition is filed shall promptly notify the Chief Justice of the Supreme Court of Virginia, who shall designate two other judges to sit with the chief judge, and the court shall be constituted and sit in all respects as a court appointed and sitting under §§ 24.2-805 and 24.2-806.

§ 24.2-801.1. Petition for recount of election for presidential electors; recount court.

The petition for a recount of an election for presidential electors shall be filed no later than 5:00 p.m. on the second calendar day after the day the State Board certifies the result of the election under § 24.2-679, but not thereafter. Presidential candidates who anticipate the possibility of asking for a recount are encouraged to so notify the State Board by letter as soon as possible after election day. The petition shall be filed in the Circuit Court of the City of Richmond. If any presidential candidate is eligible to seek a recount of the results of the election for presidential electors under § 24.2-800 the State Board shall, within 24 hours of the certification of the results, notify the Circuit Court of the City of Richmond and the Supreme Court of Virginia (i) that a recount is possible, (ii) which presidential candidate is eligible to seek a recount, and (iii) of the date the results were certified. The Circuit Court of the City of Richmond shall make arrangements to receive any such filing if the office would normally be closed the entire day, or prior to 5:00 p.m., on the second calendar day after the day the State Board certified the result of the election.

The petition shall set forth the results certified by the Board and shall request the court to have the ballots in the election recounted or, in the case of ~~mechanical or direct recording~~ electronic ~~voting devices~~ *machines*, the vote redetermined.

A copy of the petition shall be served on the presidential candidate whose electors were apparently elected as provided under § 8.01-296 and within five calendar days after the Board has certified the results of such election.

As soon as a petition is filed, the chief judge of the Circuit Court shall promptly notify the Chief Justice of the Supreme Court of Virginia, who shall designate two other judges to sit with the chief judge, and the court shall be constituted and sit in all respects as a court appointed and sitting under § 24.2-805.

Any recount of an election for presidential electors shall be held promptly and completed, in accordance with the provisions of 3 U.S.C. § 5, at least six days before the time fixed for the meeting of the electors.

§ 24.2-802. Procedure for recount.

A. The State Board of Elections shall promulgate standards for (i) the proper handling and security of voting and counting ~~devices~~ *machines*, ballots, and other materials required for a recount, (ii) accurate determination of votes based upon objective evidence and taking into account the counting ~~device~~ *machine* and form of ballots approved for use in the Commonwealth, and (iii) any other matters that will promote a timely and accurate resolution of the recount. The chief judge of the circuit court or the full recount court may, consistent with State Board of Elections standards, resolve disputes over the application of the standards and direct all other appropriate measures to ensure the proper conduct of the recount.

The recount procedures to be followed throughout the election district shall be as uniform as practicable, taking into account the types of ballots and voting ~~devices~~ *and counting machines* in use in the election district.

In preparation for the recount, the clerks of the circuit courts shall (a) secure all ~~paper~~ *printed* ballots and other election materials in sealed boxes; (b) place all of the sealed boxes in a vault or room not open to the public or to anyone other than the clerk and his staff; (c) cause such vault or room to be securely locked except when access is necessary for the clerk and his staff; and (d) certify that these security measures have been taken in whatever form is deemed appropriate by the chief judge.

B. Within seven calendar days of the filing of the petition for a recount of any election other than an election for presidential electors, or within five calendar days of the filing of a petition for a recount of an election for presidential electors, the chief judge of the circuit court shall call a preliminary hearing at which (i) motions may be disposed of and (ii) the rules of procedure may be fixed, both subject to review by the full court. As part of the preliminary hearing, the chief judge may permit the petitioner and his counsel, together with each other party and his counsel and at least two members of the electoral board and the custodians, to examine any direct ~~recording~~ electronic ~~voting device~~ *machine* of the type that prints returns when the print-out sheets are not clearly legible. The petitioner and his counsel and each other party and their counsel under supervision of the electoral board and its agents shall also have access to pollbooks and other materials used in the election for examination purposes, provided that individual ballots cast in the election shall not be examined at the preliminary hearing. The chief judge during the preliminary hearing shall review all security measures taken for all ballots and voting ~~devices~~ *and counting machines* and direct, as he deems necessary, all appropriate measures to ensure proper security to conduct the recount.

The chief judge, subject to review by the full court, may set the place or places for the recount and may order the delivery of election materials to a central location and the transportation of voting ~~devices~~ *and counting machines* to a central location in each county or city under appropriate safeguards.

After the full court is appointed under § 24.2-801 or 24.2-801.1, it shall call a hearing at which all motions shall be disposed of and the rules of procedure shall be fixed finally. The court shall call for the advice and cooperation of the State Board or any local electoral board, as appropriate, and such boards shall have the duty and authority to assist the court. The court shall fix procedures that shall provide for the accurate determination of votes in the election.

The determination of the votes in a recount shall be based on votes cast in the election and shall not take into account (a) any absentee ballots or provisional ballots sought to be cast but ruled invalid and not cast in the election, (b) ballots cast only for administrative or test purposes and voided by the officers of election, or (c) ballots spoiled by a voter and replaced with a new ballot.

The eligibility of any voter to have voted shall not be an issue in a recount. Commencing upon the filing of the recount, nothing shall prevent the discovery or disclosure of any evidence that could be used pursuant to § 24.2-803 in contesting the results of an election.

C. The court shall permit each candidate, or petitioner and governing body or chief executive officer, to select an equal number of the officers of election to be recount officials and to count *printed* ballots, or in the case of direct *recording* electronic ~~voting devices~~ *machines*, to redetermine the vote. The number shall be fixed by the court and be sufficient to conduct the recount within a reasonable period. The court may permit each party to the recount to submit a list of alternate officials in the number the court directs. There shall be at least one team of recount officials to recount ~~paper printed~~ ballots and to redetermine the vote cast on direct *recording* electronic ~~devices~~ *machines* of the type that prints returns for the election district at large in which the recount is being held. There shall be at least one team from each locality using ~~electronic counting devices~~ *ballot scanner machines* to insert the ballots into one or more ~~counting devices~~ *scanners*. The ~~counting devices~~ *ballot scanner machines* shall be programmed to count only votes cast for parties to the recount or for or against the question in a referendum recount. Each team shall be composed of one representative of each party.

The court may provide that if, at the time of the recount, any recount official fails to appear, the remaining recount officials present shall appoint substitute recount officials who shall possess the same qualifications as the recount officials for whom they substitute. The court may select pairs of recount coordinators to serve for each county or city in the election district who shall be members of the county or city electoral board and represent different political parties. The court shall have authority to summon such officials and coordinators. On the request of any party to the recount, the court shall allow that party to appoint one representative observer for each team of recount officials. The representative observers shall have an unobstructed view of the work of the recount officials. The expenses of its representatives shall be borne by each party.

D. The court (i) shall supervise the recount and (ii) may require delivery of any or all pollbooks used and any or all ballots cast at the election, or may assume supervision thereof through the recount coordinators and officials.

The redetermination of the vote in a recount shall be conducted as follows:

1. For paper ballots, the recount officials shall hand count the *paper* ballots using the standards promulgated by the State Board pursuant to subsection A.

2. For direct recording electronic machines (DREs), the recount officials shall open the envelopes with the printouts and read the results from the printouts. If the printout is not clear, or on the request of the court, the recount officials shall rerun the printout from the machine or examine the counters as appropriate.

3. For ~~optical scan tabulators~~ *ballot scanner machines*, the recount officials shall rerun all the *machine-readable* ballots through a ~~tabulator scanner~~ programmed to count only the votes for the office or issue in question in the recount and to set aside all ballots containing write-in votes, overvotes, and undervotes. The ballots that are set aside, any ballots not accepted by the ~~tabulator scanner~~, and any ballots for which a ~~tabulator scanner~~ could not be programmed to meet the programming requirements of this subdivision, shall be hand counted using the standards promulgated by the State Board pursuant to subsection A. If the total number of ~~paper machine-readable~~ ballots reported as counted by the ~~tabulator scanner~~ plus the total number of ballots set aside by the ~~tabulator scanner~~ do not equal the total number of ballots rerun through the ~~tabulator scanner~~, then all ballots cast on ~~optical scan equipment~~ *ballot scanner machines* for that precinct shall be set aside to be counted by hand using the standards promulgated by the State Board pursuant to subsection A. Prior to running the *machine-readable* ballots through the ~~tabulator ballot scanner machine~~, the recount officials shall ensure that logic and accuracy tests have been successfully performed on each ~~tabulator scanner~~ after the ~~tabulator scanner~~ has been programmed. The result calculated for ballots accepted by the ~~tabulator ballot scanner machine~~ during the recount shall be considered the correct determination for those *machine-readable* ballots unless the court finds sufficient cause to rule otherwise.

There shall be only one redetermination of the vote in each precinct.

At the conclusion of the recount of each precinct, the recount officials shall write down the number of valid ballots cast, this number being obtained from the ballots cast in the precinct, or from the ballots cast as shown on the statement of results if the ballots cannot be found, for each of the two candidates or for and against the question. They shall submit the ballots or the statement of results used, as to the validity of which questions exist, to the court. The written statement of any one recount official challenging a ballot shall be sufficient to require its submission to the court. If, on all direct *recording* electronic ~~voting devices~~ *machines*, the number of persons voting in the election, or the number of votes cast for the office or on the question, totals more than the number of names on the pollbooks of persons voting on the ~~devices~~ *voting machines*, the figures recorded by the ~~devices~~ *machines* shall be accepted as correct.

At the conclusion of the recount of all precincts, after allowing the parties to inspect the questioned ballots, and after hearing arguments, the court shall rule on the validity of all questioned ballots and votes. After determining all matters pertaining to the recount and redetermination of the vote as raised by the parties, the court shall certify to the State Board and the electoral board or boards (a) the vote for each party to the recount and declare the person who received the higher number of votes to be nominated or elected, as appropriate, or (b) the votes for and against the question and declare the outcome of the referendum. The State Board shall post on the Internet any and all changes made during the recount to the results as previously certified by it pursuant to § 24.2-679.

E. Costs of the recount shall be assessed against the counties and cities comprising the election district when (i) the candidate petitioning for the recount is declared the winner; (ii) the petitioners in a recount of a referendum win the recount; or (iii) there was between the candidate apparently nominated or elected and the candidate petitioning for the recount a difference of not more than one-half of one percent of the total vote cast for the two such candidates as determined by the State Board or electoral board prior to the recount. Otherwise the costs of the recount shall be assessed against the candidate petitioning for the recount or the petitioners in a recount of a referendum. If more than one candidate petitions for a recount,

the court may assess costs in an equitable manner between the counties and cities and any such candidate if both are liable for costs under this subsection. Costs incurred to date shall be assessed against any candidate or petitioner who defaults or withdraws his petition.

F. The court shall determine the costs of the recount subject to the following limitations: (i) no per diem payment shall be assessed for salaried election officials; (ii) no per diem payment to officers of election serving as recount officials shall exceed two-thirds of the per diem paid such officers by the county or city for service on election day; and (iii) per diem payments to alternates shall be allowed only if they serve.

G. Any petitioner who may be assessed with costs under subsection E shall post a bond with surety with the court in the amount of \$10 per precinct in the area subject to recount. If the petitioner wins the recount, the bond shall not be forfeit. If the petitioner loses the recount, the bond shall be forfeit only to the extent of the assessed costs. If the assessed costs exceed the bond, he shall be liable for such excess.

H. The recount proceeding shall be final and not subject to appeal.

I. For the purposes of this section:

"Overvote" means a ballot on which a voter casts a vote for a greater number of candidates or positions than the number for which he was lawfully entitled to vote and no vote shall be counted with respect to that office or issue.

"Undervote" means a ballot on which a voter casts a vote for a lesser number of candidates or positions than the number for which he was lawfully entitled to vote.

2. That §§ 24.2-628 and 24.2-640 of the Code of Virginia are repealed.

3. That an emergency exists and this act is in force from its passage.

B. If this section is violated while the person is engaged in hunting, trapping or pursuing game, the trial judge may, in addition to the penalty imposed by the jury or the court trying the case without a jury, revoke such person's hunting or trapping license and privileges to hunt or trap while possessing a firearm for a period of one to five years.

C. § 32.1-285. Autopsies.

A. If, in the opinion of the ~~medical examiner investigating the death or of the~~ *Office of the Chief Medical Examiner*, it is advisable and in the public interest that an autopsy be made *as part of the investigation of the death*, or if an autopsy is requested by the attorney for the Commonwealth or by a judge of the circuit court of the county or city wherein such body is or where death occurred or wherein any injury contributing to or causing death was sustained, an autopsy shall be performed by the Chief Medical Examiner, an ~~assistant chief medical examiner~~ *Assistant Chief Medical Examiner*, or a pathologist ~~employed as provided with whom the Commissioner has entered into an agreement in accordance with~~ § 32.1-281. Upon petition of a member of the immediate family or the spouse of the deceased in a case of death by injury, such circuit court may, for good cause shown, order an autopsy, after providing notice and an opportunity to be heard to the attorney for the Commonwealth for the jurisdiction wherein the injury contributing to or causing death was sustained or where death occurred. Further, in all cases of death suspected to be attributable to Sudden Infant Death Syndrome (SIDS), an autopsy shall be advisable and in the public interest and shall be performed as required by § 32.1-285.1. § 32.1-286. Exhumations.

A. In any case of death described in subsection A of § 32.1-283, where the body is buried without investigation by *the Chief Medical Examiner, an Assistant Chief Medical Examiner, or a medical examiner* ~~as to~~ *appointed pursuant to § 32.1-282* into the cause and manner of death or where sufficient cause develops for further investigation after a body is buried, the Chief Medical Examiner shall authorize such investigation and shall send a copy of the report to the appropriate attorney for the Commonwealth who shall communicate such report to a judge of the appropriate circuit court. Such judge may order that the body be exhumed and an autopsy performed thereon by the Chief Medical Examiner ~~or by~~, an Assistant Chief Medical Examiner, *or a pathologist with whom the Commissioner has entered into an agreement pursuant to § 32.1-281.* The pertinent facts disclosed by the autopsy shall be communicated to the judge who ordered it.

This provision is intended to provide a procedural mechanism for obtaining posthumous samples for reliable genetic testing and shall not require substantive proof of parentage to obtain the exhumation order.

§ 32.1-291.22. Cooperation between Office of the Chief Medical Examiner and procurement organization.

A. ~~A medical examiner~~ *The Office of the Chief Medical Examiner* and procurement organizations shall cooperate with each other to maximize the opportunity to recover anatomical gifts for the purpose of transplantation, therapy, research, or education.

B. If ~~a medical examiner~~ *the Office of the Chief Medical Examiner* receives notice from a procurement organization that an anatomical gift might be available or was made with respect to a decedent whose body is under the jurisdiction of the ~~medical examiner~~ *Office of the Chief Medical Examiner* and a postmortem examination is going to be performed, unless the ~~medical examiner~~ *Chief Medical Examiner or an Assistant Chief Medical Examiner* denies recovery in accordance with § 32.1-291.23, the ~~medical examiner or designee~~ *Office of the Chief Medical Examiner* shall ~~conduct~~, when practicable, *cause* a postmortem examination of the body or the part to be conducted in a manner and within a period compatible with its preservation for the purposes of the gift.

C. A part may not be removed from the body of a decedent under the jurisdiction of ~~a medical examiner~~ *the Office of the Chief Medical Examiner* for transplantation, therapy, research, or education unless the part is the subject of an anatomical gift. The body of a decedent under the jurisdiction of the ~~medical examiner~~ *Office of the Chief Medical Examiner* may not be delivered to a person for research or education unless the body is the subject of an anatomical gift. This subsection does not preclude ~~a medical examiner~~ *the Chief Medical Examiner or an Assistant Chief Medical Examiner* from performing the medicolegal autopsy upon the body or parts of a decedent under the jurisdiction of the ~~medical examiner~~ *Office of the Chief Medical Examiner* or from using the body or parts of a decedent under the jurisdiction of the ~~medical examiner~~ *Office of the Chief Medical Examiner* for the purposes of education, training, and research ~~required by the medical examiner~~.

§ 32.1-291.23. Facilitation of anatomical gift from decedent whose body is under jurisdiction of the Office of the Chief Medical Examiner.

A. Upon request of a procurement organization, ~~a medical examiner~~ *the Office of the Chief Medical Examiner* shall release to the procurement organization the name, contact information, and available medical and social history of a decedent whose body is under the jurisdiction of the ~~medical examiner~~ *Office of the Chief Medical Examiner*. If the decedent's body or part is medically suitable for transplantation, therapy, research, or education, the ~~medical examiner~~ *Office of the Chief Medical Examiner* shall release postmortem examination results to the procurement organization. The procurement organization may make a subsequent disclosure of the postmortem examination results or other information received from the ~~medical examiner~~ *Office of the Chief Medical Examiner* only if relevant to transplantation, therapy, research, or education.

B. The ~~medical examiner~~ *Office of the Chief Medical Examiner* may conduct a medicolegal investigation by reviewing all medical records, laboratory test results, x-rays, other diagnostic results, and other information that any person possesses about a donor or prospective donor whose body is under the jurisdiction of the ~~medical examiner~~ *that the medical examiner determines may be relevant to the investigation* *Office of the Chief Medical Examiner*.

C. A person that has any information requested by ~~a medical examiner~~ *the Office of the Chief Medical Examiner* pursuant to subsection B shall provide that information as expeditiously as possible to allow the ~~medical examiner~~ *Office of the Chief Medical Examiner* to conduct the medicolegal investigation within a period compatible with the preservation of parts for the purpose of transplantation, therapy, research, or education.

D. If an anatomical gift has been or might be made of a part of a decedent whose body is under the jurisdiction of the ~~medical examiner~~ *Office of the Chief Medical Examiner* and a postmortem examination is not required, or the ~~medical examiner~~ *Office of the Chief Medical Examiner* determines that a postmortem examination is required but that the recovery of the part that is the subject of an anatomical gift will not interfere with the examination, the ~~medical examiner~~ *Office of the Chief Medical Examiner* and procurement organization shall cooperate in the timely removal of the part from the decedent for the purpose of transplantation, therapy, research, or education.

E. The ~~medical examiner~~ *Office of the Chief Medical Examiner* and procurement organizations shall enter into an agreement setting forth protocols and procedures to govern relations between the parties when an anatomical gift of a part from a decedent under the jurisdiction of the ~~medical examiner~~ *Office of the Chief Medical Examiner* has been or might be made, but the ~~medical examiner~~ *Office of the Chief Medical Examiner* believes that the recovery of the part could interfere with the postmortem investigation into the decedent's cause or manner of death. Decisions regarding the recovery of organs, tissue and eyes from such a decedent shall be made in accordance with the agreement. In the event that ~~the medical examiner~~ *an Assistant Chief Medical Examiner* denies recovery of an anatomical gift, the procurement organization may request the Chief Medical Examiner to reconsider the denial and to permit the recovery to proceed. The parties shall evaluate the effectiveness of the protocols and procedures at regular intervals but no less frequently than every two years.

F. If the ~~medical examiner or designee~~ *Office of the Chief Medical Examiner* allows recovery of a part under subsection D or E, the procurement organization, upon request, shall cause the physician or technician who removes the part to provide the ~~medical examiner~~ *Office of the Chief Medical Examiner* with a record describing the condition of the part, a biopsy, a photograph, and any other information and observations that would assist in the postmortem examination.

G. If a ~~medical examiner or designee~~ *the Office of the Chief Medical Examiner* is required to be present at a removal procedure under subsection E, upon request the procurement organization requesting the recovery of the part shall reimburse the ~~medical examiner or designee~~ *Office of the Chief Medical Examiner* for the additional costs incurred in complying with subsection E.

§ 32.1-298. Notification of Commissioner and delivery of bodies.

Any person having charge or control of any dead human body ~~which is unclaimed for disposition, which is required to be buried at the public expense, or which~~ *that* has been lawfully donated for scientific study shall notify the Commissioner whenever and as soon as any such body comes to his possession, charge, or control and shall, without fee or reward, permit the Commissioner or his agents to remove such body, to be used for the advancement of health science.

§ 32.1-301. Burial, cremation, or return of bodies after scientific study.

After the bodies distributed pursuant to § 32.1-299 have been used for the purpose of instruction, they shall be decently interred or cremated by the institution or individual receiving them. However, if the decedent has stipulated in writing before his death that the cremated remains of his body, lawfully donated for scientific study, shall be returned to relatives for disposition after scientific study has been completed, or if the decedent's next of kin, who lawfully donated the body for scientific study, requests ~~the office of the Chief Medical Examiner~~ in writing at the time of donation that the decedent's cremated remains ~~shall~~ be returned to relatives after scientific study has been completed, the institution or individual that received the body shall return the decedent's cremated remains to his next of kin or relatives. Any such writing shall acknowledge the responsibility to maintain the current name, address, and telephone number of the relatives to whom the decedent's cremated remains are to be returned.

The written request of the decedent's next of kin shall include the name of the next of kin, the current address to which the cremated remains shall be delivered, and the current telephone number of the next of kin or relatives where they may be contacted. The costs of transporting and delivering the cremated remains shall be borne by the institution or individual receiving the body. The institution or individual that received the decedent's body and who has received such a written request shall not be obligated to return the decedent's cremated remains if the name, address, and telephone number of the next of kin or relatives have not been provided in such written request; or are no longer current.

§ 54.1-2807. Other prohibited activities.

A. A person licensed for the practice of funeral service shall not (i) remove or embalm a body when he has information indicating the death was such that ~~a medical examiner's~~ *an investigation by the Office of the Chief Medical Examiner* is required pursuant to § 32.1-283 or 32.1-285.1 or (ii) cremate or bury at sea a body until he has obtained permission of the ~~medical examiner~~ *Office of the Chief Medical Examiner* as required by § 32.1-284.

B. Except as provided in §§ 32.1-288 and 32.1-301, funeral service establishments shall not accept a dead human body from any public officer, ~~except the Chief Medical Examiner, an Assistant Chief Medical Examiner, or a medical examiner appointed pursuant to § 32.1-282,~~ or from any public or private facility or person having a professional relationship with the decedent without having first inquired about the desires of the next of kin and the persons liable for the funeral expenses of the decedent. The authority and directions of any next of kin shall govern the disposal of the body, subject to the provisions of § 54.1-2807.01 or 54.1-2825.

Any funeral service establishment violating this subsection shall not charge for any service delivered without the directions of the next of kin. However, in cases of accidental or violent death, the funeral service establishment may charge and be reimbursed for the removal of bodies and rendering necessary professional services until the next of kin or the persons liable for the funeral expenses have been notified.

C. No company, corporation, or association engaged in the business of paying or providing for the payment of the expenses for the care of the remains of deceased certificate holders or members or engaged in providing life insurance when the contract might or could give rise to an obligation to care for the remains of the insured shall contract to pay or pay any benefits to any licensee of the Board or other individual in a manner which could restrict the freedom of choice of the representative or next of kin of a decedent in procuring necessary and proper services and supplies for the care of the remains of the decedent.

D. No person licensed for the practice of funeral service or preneed funeral planning or any of his agents shall interfere with the freedom of choice of the general public in the choice of persons or establishments for the care of human remains or of preneed funeral planning or preneed funeral contracts.

E. This section shall not be construed to apply to the authority of any administrator, executor, trustee, or other person having a fiduciary relationship with the decedent.

§ 54.1-2818.1. Prerequisites for cremation.

No dead human body shall be cremated without permission of the ~~medical examiner~~ *Office of the Chief Medical Examiner* as required by § 32.1-284 and visual identification of the deceased by the next-of-kin or his representative, who may be any person designated to make arrangements for the decedent's burial or the disposition of his remains pursuant to § 54.1-2825, an agent named in an advance directive pursuant to § 54.1-2984, or a sheriff, upon court order, if no

next-of-kin, designated person, or agent is available. When visual identification is not feasible, other positive identification of the deceased may be used as a prerequisite for cremation.

§ 54.1-2972. When person deemed medically and legally dead; determination of death; nurses' or physician assistants' authority to pronounce death under certain circumstances.

A. A person shall be medically and legally dead if:

1. In the opinion of a physician duly authorized to practice medicine in this Commonwealth, based on the ordinary standards of medical practice, there is the absence of spontaneous respiratory and spontaneous cardiac functions and, because of the disease or condition which directly or indirectly caused these functions to cease, or because of the passage of time since these functions ceased, attempts at resuscitation would not, in the opinion of such physician, be successful in restoring spontaneous life-sustaining functions, and, in such event, death shall be deemed to have occurred at the time these functions ceased; or

2. In the opinion of a physician, who shall be duly licensed and a specialist in the field of neurology, neurosurgery, electroencephalography, or critical care medicine, when based on the ordinary standards of medical practice, there is the absence of brain stem reflexes, spontaneous brain functions and spontaneous respiratory functions and, in the opinion of another physician and such specialist, based on the ordinary standards of medical practice and considering the absence of brain stem reflexes, spontaneous brain functions and spontaneous respiratory functions and the patient's medical record, further attempts at resuscitation or continued supportive maintenance would not be successful in restoring such reflexes or spontaneous functions, and, in such event, death shall be deemed to have occurred at the time when these conditions first coincide.

B. A registered nurse or a physician assistant who practices under the supervision of a physician may pronounce death if the following criteria are satisfied: (i) the nurse is employed by or the physician assistant works at (a) a home health organization as defined in § 32.1-162.7, (b) a hospice as defined in § 32.1-162.1, (c) a hospital or nursing home as defined in § 32.1-123, including state-operated hospitals for the purposes of this section, (d) the Department of Corrections, or (e) a continuing care retirement community registered with the State Corporation Commission pursuant to Chapter 49 (§ 38.2-4900 et seq.) of Title 38.2; (ii) the nurse or physician assistant is directly involved in the care of the patient; (iii) the patient's death has occurred; (iv) the patient is under the care of a physician when his death occurs; (v) the patient's death has been anticipated; (vi) the physician is unable to be present within a reasonable period of time to determine death; and (vii) there is a valid Do Not Resuscitate Order pursuant to § 54.1-2987.1 for the patient who has died. The nurse or physician assistant shall inform the patient's attending and consulting physicians of his death as soon as practicable.

The nurse or physician assistant shall have the authority to pronounce death in accordance with such procedural regulations, if any, as may be promulgated by the Board of Medicine; however, if the circumstances of the death are not anticipated or the death requires an investigation by a ~~medical examiner~~ *the Office of the Chief Medical Examiner*, the nurse or physician assistant shall notify the ~~chief medical examiner~~ *Office of the Chief Medical Examiner* of the death and the body shall not be released to the funeral director.

This subsection shall not authorize a nurse or physician assistant to determine the cause of death. Determination of cause of death shall continue to be the responsibility of the attending physician, except as provided in § 32.1-263. Further, this subsection shall not be construed to impose any obligation to carry out the functions of this subsection.

This subsection shall not relieve any registered nurse or physician assistant from any civil or criminal liability that might otherwise be incurred for failure to follow statutes or Board of Nursing or Board of Medicine regulations.

C. Death, as defined in subdivision A 2, shall be determined by one of the two physicians and recorded in the patient's medical record and attested by the other physician. One of the two physicians determining or attesting to brain death may be the attending physician regardless of his specialty so long as at least one of the physicians is a specialist, as set out in subdivision A 2.

D. The alternative definitions of death provided in subdivisions A 1 and A 2 may be utilized for all purposes in the Commonwealth, including the trial of civil and criminal cases.

§ 54.1-2973. Persons who may authorize postmortem examination of decedent's body.

Any of the following persons, in order of priority stated, may authorize and consent to a postmortem examination and autopsy on a decedent's body for the purpose of determining the cause of death of the decedent, for the advancement of medical or dental education and research, or for the general advancement of medical or dental science, if: (i) no person in a higher class exists or no person in a higher class is available at the time authorization or consent is given, (ii) there is no actual notice of contrary indications by the decedent, and (iii) there is no actual notice of opposition by a member of the same or a prior class.

The order of priority shall be as follows: (1) any person designated to make arrangements for the disposition of the decedent's remains upon his death pursuant to § 54.1-2825; (2) the spouse; (3) an adult son or daughter; (4) either parent; (5) an adult brother or sister; (6) a guardian of the person of the decedent at the time of his death; or (7) any other person authorized or under legal obligation to dispose of the body.

If the physician or surgeon has actual notice of contrary indications by the decedent or of opposition to an autopsy by a member of the same or a prior class, the autopsy shall not be performed. The persons authorized herein may authorize or consent to the autopsy after death or before death.

In cases of death where official inquiry is authorized or required by law, the provisions of Article 1 (§ 32.1-277 et seq.) of Chapter 8 of Title 32.1 shall apply. If at the time of death, a postmortem examination is authorized or required by law, any

prior authorization or consent pursuant to this section shall not be valid unless the body is released by the *Office of the Chief Medical Examiner or one of his assistants.*

A surgeon or physician acting in accordance with the terms of this section shall not have any liability, civil or criminal, for the performance of the autopsy.

2. That § 32.1-280 of the Code of Virginia is repealed.

§ 22.1-253.13:3. Standard 3. Accreditation, other standards, assessments, and releases from state regulations.

A. The Board of Education shall promulgate regulations establishing standards for accreditation pursuant to the Administrative Process Act (§ 2.2-4000 et seq.), which shall include, but not be limited to, student outcome measures, requirements and guidelines for instructional programs and for the integration of educational technology into such instructional programs, administrative and instructional staffing levels and positions, including staff positions for supporting educational technology, student services, auxiliary education programs such as library and media services, course and credit requirements for graduation from high school, community relations, and the philosophy, goals, and objectives of public education in Virginia.

The Board of Education shall promulgate regulations establishing standards for accreditation of public virtual schools under the authority of the local school board that enroll students full time.

The Board shall review annually the accreditation status of all schools in the Commonwealth.

Each local school board shall maintain schools that are fully accredited pursuant to the standards for accreditation as prescribed by the Board of Education. Each local school board shall review the accreditation status of all schools in the local school division annually in public session. Within the time specified by the Board of Education, each school board shall submit corrective action plans for any schools within its school division that have been designated as not meeting the standards as approved by the Board.

When the Board of Education has obtained evidence through the school academic review process that the failure of schools within a division to achieve full accreditation status is related to division level failure to implement the Standards of Quality, the Board may require a division level academic review. After the conduct of such review and within the time specified by the Board of Education, each school board shall submit for approval by the Board a corrective action plan, consistent with criteria established by the Board and setting forth specific actions and a schedule designed to ensure that schools within its school division achieve full accreditation status. Such corrective action plans shall be part of the relevant school division's comprehensive plan pursuant to § 22.1-253.13:6.

With such funds as are appropriated or otherwise received for this purpose, the Board shall adopt and implement an academic review process, to be conducted by the Department of Education, to assist schools that are accredited with warning. The Department shall forward a report of each academic review to the relevant local school board, and such school board shall report the results of such academic review and the required annual progress reports in public session. The local school board shall implement any actions identified through the academic review and utilize them for improvement planning.

B. The Superintendent of Public Instruction shall develop and the Board of Education shall approve criteria for determining and recognizing educational performance in the Commonwealth's public school divisions and schools. Such criteria, when approved, shall become an integral part of the accreditation process and shall include student outcome measurements. The Superintendent of Public Instruction shall annually identify to the Board those school divisions and schools that exceed or do not meet the approved criteria. Such identification shall include an analysis of the strengths and weaknesses of public education programs in the various school divisions in Virginia and recommendations to the General Assembly for further enhancing student learning uniformly across the Commonwealth. In recognizing educational performance in the school divisions, the Board shall include consideration of special school division accomplishments, such as numbers of dual enrollments and students in Advanced Placement and International Baccalaureate courses, and participation in academic year Governor's Schools.

The Superintendent of Public Instruction shall assist local school boards in the implementation of action plans for increasing educational performance in those school divisions and schools that are identified as not meeting the approved criteria. The Superintendent of Public Instruction shall monitor the implementation of and report to the Board of Education on the effectiveness of the corrective actions taken to improve the educational performance in such school divisions and schools.

C. With such funds as are available for this purpose, the Board of Education shall prescribe assessment methods to determine the level of achievement of the Standards of Learning objectives by all students. Such assessments shall evaluate knowledge, application of knowledge, critical thinking, and skills related to the Standards of Learning being assessed. The Board shall (i) in consultation with the chairpersons of the eight regional superintendents' study groups, establish a timetable for administering the Standards of Learning assessments to ensure genuine end-of-course and end-of-grade testing and (ii) with the assistance of independent testing experts, conduct a regular analysis and validation process for these assessments.

In prescribing such Standards of Learning assessments, the Board shall provide local school boards the option of administering tests for United States History to 1877, United States History: 1877 to the Present, and Civics and Economics. The last administration of the cumulative grade eight history test will be during the 2007-2008 academic school year. Beginning with the 2008-2009 academic year, all school divisions shall administer the United States History to 1877, United States History: 1877 to the Present, and Civics and Economics tests. The Board shall also provide the option of industry certification and state licensure examinations as a student-selected verified credit.

The Board of Education shall make publicly available such assessments in a timely manner and as soon as practicable following the administration of such tests, so long as the release of such assessments does not compromise test security or deplete the bank of assessment questions necessary to construct subsequent tests, or limit the ability to test students on demand and provide immediate results in the web-based assessment system.

The Board shall include in the student outcome measures that are required by the Standards for Accreditation end-of-course or end-of-grade tests assessments for various grade levels and classes, as determined by the Board including the completion of the alternative assessments implemented by each local school board, in accordance with the Standards of Learning. These Standards of Learning assessments shall include, but need not be limited to, end-of-course or end-of-grade tests for English, mathematics, science, and history and social science.

The Standards of Learning assessments administered to students in grades three through eight shall not exceed (a) reading and mathematics in grades three and four; (b) reading, mathematics, and science in grade five; (c) reading and mathematics in grades six and seven; (d) reading, writing, mathematics, and science in grade eight; and (e) Virginia Studies and Civics and Economics once each at the grade levels deemed appropriate by each local school board.

Each school board shall annually certify that it has provided instruction and administered an alternative assessment, consistent with Board guidelines, to students in grades three through eight in each Standards of Learning subject area in which a Standards of Learning assessment was not administered during the school year. Such guidelines shall (1) incorporate options for age-appropriate, authentic performance assessments and portfolios with rubrics and other methodologies designed to ensure that students are making adequate academic progress in the subject area and that the Standards of Learning content is being taught; (2) permit and encourage integrated assessments that include multiple subject areas; and (3) emphasize collaboration between teachers to administer and substantiate the assessments and the professional development of teachers to enable them to make the best use of alternative assessments.

Local school divisions shall provide targeted mathematics remediation and intervention to students in grades six through eight who show computational deficiencies as demonstrated by their individual performance on any diagnostic test or grade-level Standards of Learning mathematics test that measures non-calculator computational skills.

In addition, to assess the educational progress of students, the Board of Education shall ~~(a)~~ (A) develop appropriate assessments, which may include criterion-referenced tests and ~~alternative~~ other assessment instruments that may be used by classroom teachers; ~~(b)~~ (B) select appropriate industry certification and state licensure examinations; and ~~(c)~~ (C) prescribe and provide measures, which may include nationally normed tests to be used to identify students who score in the bottom quartile at selected grade levels. An annual justification that includes evidence that the student meets the participation criteria defined by the Virginia Department of Education shall be provided for each student considered for the Virginia Grade Level Alternative. Each Individual Education Program team shall review such justification and make the final determination as to whether or not the Virginia Grade Level Alternative is appropriate for the student. The superintendent and the school board chairman shall certify to the Board of Education, as a part of certifying compliance with the Standards of Quality, that there is a justification in the Individual Education Program for every student who takes the Virginia Grade Level Alternative. Compliance with this requirement shall be monitored as a part of the special education monitoring process conducted by the Department of Education. The Board shall report to the Governor and General Assembly in its annual reports pursuant to § 22.1-18 any school division that is not in compliance with this requirement.

The Standards of Learning requirements, including all related assessments, shall be waived for any student awarded a scholarship under the Brown v. Board of Education Scholarship Program, pursuant to § 30-231.2, who is enrolled in a preparation program for the General Education Development (GED) certificate or in an adult basic education program to obtain the high school diploma.

The Board of Education may adopt special provisions related to the administration and use of any Standards of Learning test or tests in a content area as applied to accreditation ratings for any period during which the Standards of Learning content or assessments in that area are being revised and phased in. Prior to statewide administration of such tests, the Board of Education shall provide notice to local school boards regarding such special provisions.

D. The Board of Education may pursue all available civil remedies pursuant to § 22.1-19.1 or administrative action pursuant to § 22.1-292.1 for breaches in test security and unauthorized alteration of test materials or test results.

The Board may initiate or cause to be initiated a review or investigation of any alleged breach in security, unauthorized alteration, or improper administration of tests, including the exclusion of students from testing who are required to be assessed, by local school board employees responsible for the distribution or administration of the tests.

Records and other information furnished to or prepared by the Board during the conduct of a review or investigation may be withheld pursuant to subdivision 11 of § 2.2-3705.3. However, this section shall not prohibit the disclosure of records to (i) a local school board or division superintendent for the purpose of permitting such board or superintendent to consider or to take personnel action with regard to an employee or (ii) any requester, after the conclusion of a review or investigation, in a form that (a) does not reveal the identity of any person making a complaint or supplying information to

the Board on a confidential basis and (b) does not compromise the security of any test mandated by the Board. Any local school board or division superintendent receiving such records or other information shall, upon taking personnel action against a relevant employee, place copies of such records or information relating to the specific employee in such person's personnel file.

Notwithstanding any other provision of state law, no test or examination authorized by this section, including the Standards of Learning assessments, shall be released or required to be released as minimum competency tests, if, in the judgment of the Board, such release would breach the security of such test or examination or deplete the bank of questions necessary to construct future secure tests.

E. With such funds as may be appropriated, the Board of Education may provide, through an agreement with vendors having the technical capacity and expertise to provide computerized tests and assessments, and test construction, analysis, and security, for (i) web-based computerized tests and assessments, *including computer-adaptive Standards of Learning assessments*, for the evaluation of student progress during and after remediation and (ii) the development of a remediation item bank directly related to the Standards of Learning.

F. To assess the educational progress of students as individuals and as groups, each local school board shall require the use of Standards of Learning assessments, *alternative assessments*, and other relevant data, such as industry certification and state licensure examinations, to evaluate student progress and to determine educational performance. Each local school shall require the administration of appropriate assessments to all students for grade levels and courses identified by the Board of Education, which may include criterion-referenced tests; and teacher-made tests and alternative assessment instruments and shall include the Standards of Learning Assessments, *the local school board's alternative assessments*, and the National Assessment of Educational Progress state-by-state assessment. Each school board shall analyze and report annually, in compliance with any criteria that may be established by the Board of Education, the results from the Stanford Achievement Test Series, Ninth Edition (Stanford Nine) assessment, if administered, industry certification examinations, and the Standards of Learning Assessments to the public.

The Board of Education shall not require administration of the Stanford Achievement Test Series, Ninth Edition (Stanford Nine) assessment, except as may be selected to facilitate compliance with the requirements for home instruction pursuant to § 22.1-254.1.

The Board shall include requirements for the reporting of the Standards of Learning assessment scores and averages for each year as part of the Board's requirements relating to the School Performance Report Card. Such scores shall be disaggregated for each school by student subgroups on the Virginia assessment program as appropriate and shall be reported to the public within three months of their receipt. These reports (i) shall be posted on the portion of the Department of Education's website relating to the School Performance Report Card, in a format and in a manner that allows year-to-year comparisons, and (ii) may include the National Assessment of Educational Progress state-by-state assessment.

G. Each local school division superintendent shall regularly review the division's submission of data and reports required by state and federal law and regulations to ensure that all information is accurate and submitted in a timely fashion. The Superintendent of Public Instruction shall provide a list of the required reports and data to division superintendents annually. The status of compliance with this requirement shall be included in the Board of Education's annual report to the Governor and the General Assembly as required by § 22.1-18.

H. Any school board may request the Board of Education for release from state regulations or, on behalf of one or more of its schools, for approval of an Individual School Accreditation Plan for the evaluation of the performance of one or more of its schools as authorized for certain other schools by the Standards of Accreditation pursuant to 8 VAC 20-131-280 C of the Virginia Administrative Code. Waivers of regulatory requirements may be granted by the Board of Education based on submission of a request from the division superintendent and chairman of the local school board. The Board of Education may grant, for a period up to five years, a waiver of regulatory requirements that are not (i) mandated by state or federal law or (ii) designed to promote health or safety. The school board shall provide in its waiver request a description of how the releases from state regulations are designed to increase the quality of instruction and improve the achievement of students in the affected school or schools. The Department of Education shall provide (a) guidance to any local school division that requests releases from state regulations and (b) information about opportunities to form partnerships with other agencies or entities to any local school division in which the school or schools granted releases from state regulations have demonstrated improvement in the quality of instruction and the achievement of students.

The Board of Education may also grant local school boards waivers of specific requirements in § 22.1-253.13:2, based on submission of a request from the division superintendent and chairman of the local school board, permitting the local school board to assign instructional personnel to the schools with the greatest needs, so long as the school division employs a sufficient number of personnel divisionwide to meet the total number required by § 22.1-253.13:2 and all pupil/teacher ratios and class size maximums set forth in subsection C of § 22.1-253.13:2 are met. The school board shall provide in its request a description of how the waivers from specific Standards of Quality staffing standards are designed to increase the quality of instruction and improve the achievement of students in the affected school or schools. The waivers may be renewed in up to five-year increments, or revoked, based on student achievement results in the affected school or schools.

§ 22.1-253.13:10. Standards of Learning Innovation Committee.

The Secretary of Education, upon receiving recommendations for appointments from the Virginia Parent Teacher Association, Virginia Education Association, Virginia School Boards Association, Virginia Association of Secondary School Principals, Virginia Association of Elementary School Principals, Virginia Association of School Superintendents, Virginia

State Reading Association, Virginia School Counselor Association, and Virginia Association for Supervision and Curriculum Development, shall establish and appoint members from each of the specified groups to the Standards of Learning Innovation Committee (Committee). The Committee shall also include (i) four members of the Virginia House of Delegates, appointed by the Speaker of the House of Delegates; (ii) two members of the Virginia Senate, appointed by the Senate Committee on Rules on the recommendation of the Chair of the Senate Committee on Education and Health; at least one (iii) parent of a currently enrolled public school student, (iv) public elementary school teacher, (v) public secondary school teacher, (vi) public secondary school guidance counselor, (vii) school board member, (viii) public school principal, (ix) division superintendent, (x) curriculum and instruction specialist, (xi) higher education faculty member, (xii) business representative, and such other stakeholders as the Secretary deems appropriate. Members of the Committee should reflect geographic diversity and rural and urban school systems as far as practicable. The Superintendent of Public Instruction, the President of the Board of Education or his designee, and the Secretary of Education or his designee shall serve ex officio. All other members shall be appointed for terms of two years. The Committee, under the direction of the Secretary, shall periodically make recommendations to the Board of Education and the General Assembly on (a) the Standards of Learning assessments, (b) authentic individual student growth measures, (c) alignment between the Standards of Learning and assessments and the School Performance Report Card, and (d) ideas on innovative teaching in the classroom.

2. That the Board may reduce the number of Standards of Learning assessments administered to students as long as the number and type of assessments meet the minimal requirements established by the federal Elementary and Secondary Education Act of 1965, as amended. However, the number and type of assessments required by the Board shall not be less than the number and type of assessments required by the federal Elementary and Secondary Education Act of 1965 as of January 1, 2014.

CHAPTER 588

An Act to amend and reenact §§ 57-36 and 57-38.1 of the Code of Virginia, relating to cemeteries; procedure for the removal and relocation of human remains.

[H 997]

Approved April 4, 2014

Be it enacted by the General Assembly of Virginia:

1. That §§ 57-36 and 57-38.1 of the Code of Virginia are amended and reenacted as follows:

§ 57-36. Abandoned graveyards may be condemned; removal of bodies.

A. When a graveyard, wholly or partly within any county, city, or town, has been abandoned, or is unused and neglected by the owners, and such graveyard is necessary, in whole or in part, for public purposes, authorized by the charter of such city or town, or by the general statutes providing for the government of counties, cities, and towns, such county, city, or town may acquire title to such burying ground by condemnation proceedings, to be instituted and conducted in the manner and mode prescribed in the statutes providing for the exercise of the power of eminent domain by counties, cities, and towns. The locality may continue to maintain all or a portion of the burying ground as a graveyard.

B. The court taking jurisdiction of the case may, in its discretion, require the county, city, or town to acquire the whole burying ground, in which event the county, city, or town may use such part thereof as may be necessary for its purposes and sell the residue. The court, however, shall direct that the remains interred in such graveyard, if possible so to do, be removed to some repository used and maintained as a cemetery.

C. Should any county, city, or town, having acquired by any means land on which an abandoned graveyard is located, including lands acquired in accordance with § 22.1-126.1 for educational purposes, initiate plans to use that land for purposes other than to maintain the graveyard, such county, city, or town shall, prior to completion of said plans, develop and engage in active public notice and participation regarding efforts to avoid adverse impacts to the graveyard or to remove the remains interred in such graveyard to an alternative repository. Such public notice and participation shall include, at minimum, publication of at least one notice in a local newspaper of general circulation, notice posted at the site of the graveyard, and notice to and consultation with any historic preservation or other such commission, as well as area historical and genealogical societies, and at least one public hearing. The locality shall make a good faith effort to identify and contact living descendants of the persons buried in the graveyard, if known. In addition, the locality is encouraged to post such notice on the Internet, including appropriate websites and through the use of social media, and to consult with the Virginia Department of Historic Resources. Having given all public comment due consideration, the county, city, or town is encouraged first to adjust plans to maintain the graveyard as part of the larger land use plan or, if that is not feasible, to request permission to proceed with removal through the court or through the Virginia Department of Historic Resources should archaeological removal be appropriate. In any event, any removal of remains should be given all due care and respect, as should the selection of and reburial in another cemetery. This requirement for public notice, consultation, consideration of comments, and following due process for removal of human remains shall apply in cases where the presence of an abandoned graveyard is discovered during either the planning or construction phases of a project.

D. Any county, city, or town that has acquired by any means land on which an abandoned cemetery or gravesite of Virginians held as slaves at the time of their deaths is located shall notify the Virginia Department of Historic Resources of the location of such cemetery or gravesite. The Department shall record the location of the cemetery or gravesite. A listing

of the locations of all abandoned cemeteries and gravesites of Virginians held as slaves at the time of their deaths that have been provided to the Department shall be maintained by the Department as a public record.

§ 57-38.1. Proceedings by landowner for removal of remains from abandoned family graveyard.

The owner of any land on which is located an abandoned family graveyard, and there has been no reservation of rights in such graveyard, or when the beneficiaries of any reservations of rights desire to waive such rights, and in which no body has been interred for twenty-five years may file a bill in equity in the circuit court of the county or in the circuit or corporation court wherein such land is located for the purpose of having the remains interred in such graveyard removed to some more suitable repository. To such bill all persons in interest, known or unknown, other than the plaintiffs shall be duly made defendants. If any of such parties be unknown, ~~publication shall be had~~ the plaintiffs shall undertake active, good faith efforts to locate interested parties including, at a minimum, publication of at least one notice in a local newspaper of general circulation, notice posted at the site of the graveyard, and notice to and consultation with any historic preservation or other such commission, as well as area historical and genealogical societies. In addition, the plaintiff is encouraged to post such notice on the Internet, including appropriate websites and through the use of social media, and to consult with the Virginia Department of Historic Resources. Upon the case being properly matured for hearing, and proof being made of the propriety of the removal, the court may order the removal made and the remains properly deposited in another place, at the expense of the petitioner. Such removal and reinterment shall be done with due care and decency.

In determining the question of removal the court shall consider the historical significance of such graveyard and shall consider as well the wishes of the parties concerned so far as they are brought to its knowledge, including the desire of any beneficiaries of any reservation of rights to waive such reservation of rights in favor of removal, and so considering shall exercise a sound discretion in granting or refusing the relief prayed for.

CHAPTER 589

An Act to amend and reenact §§ 15.2-1656, 15.2-2506, and 58.1-1727 of the Code of Virginia, relating to constitutional officers.

[H 1051]

Approved April 4, 2014

Be it enacted by the General Assembly of Virginia:

1. That §§ 15.2-1656, 15.2-2506, and 58.1-1727 of the Code of Virginia are amended and reenacted as follows:

§ 15.2-1656. Supplies and equipment to be furnished to clerks of courts of record.

The governing body of each county and city shall, at the expense of the county or city, provide (i) suitable books and stationery, in addition to supplies furnished by the Commonwealth, for the use of clerks of all courts of record, together with appropriate cases and other furniture, for the safe and convenient keeping of all the books, documents and papers, in the custody of such officers; (ii) official seals for such officers; and (iii) such other office equipment, *electronic or other systems*, and appliances as in their judgment may be reasonably necessary for the proper conduct of such offices.

§ 15.2-2506. Publication and notice; public hearing; adjournment; moneys not to be paid out until appropriated.

A brief synopsis of the budget which, except in the case of the school division budget, shall be for informative and fiscal planning purposes only, shall be published once in a newspaper having general circulation in the locality affected, and notice given of one or more public hearings, at least seven days prior to the date set for hearing, at which any citizen of the locality shall have the right to attend and state his views thereon. Any locality not having a newspaper of general circulation may in lieu of the foregoing notice provide for notice by written or printed handbills, posted at such places as it may direct. The hearing shall be held at least seven days prior to the approval of the budget as prescribed in § 15.2-2503. With respect to the school division budget, which shall include the estimated required local match, such hearing shall be held at least seven days prior to the approval of that budget as prescribed in § 22.1-93. *With respect to the budget of a constitutional officer, if the proposed budget reduces funding of such officer at a rate greater than the average rate of reduced funding for other agencies appropriated through such locality's general fund, exclusive of the school division, the locality shall give written notice to such constitutional officer at least 14 days prior to adoption of the budget. If a constitutional officer determines that the proposed budget cuts would impair the performance of his statutory duties, such constitutional officer shall make a written objection to the local governing body within seven days after receipt of the written notice and shall deliver a copy of such objection to the Compensation Board. The local governing body shall consider the written objection of such constitutional officer.* The governing body may adjourn such hearing from time to time. The fact of such notice and hearing shall be entered of record in the minute book.

In no event, including school division budgets, shall such preparation, publication and approval be deemed to be an appropriation. No money shall be paid out or become available to be paid out for any contemplated expenditure unless and until there has first been made an annual, semiannual, quarterly or monthly appropriation for such contemplated expenditure by the governing body, except funds appropriated in a county having adopted the county executive form of government, outstanding grants may be carried over for one year without being reappropriated.

§ 58.1-1727. Taxes on suits or writ taxes generally.

A tax of \$5 is hereby imposed upon (i) the commencement of every civil action in a court of record, whether commenced by petition or notice, ejectment or attachment, other than a summons to answer a suggestion; (ii) the removal or appeal of a cause of action from a district court to a court of record; (iii) the appeal from the decision of the governing body of a county, city or town to a court of record, including the appeal of any decision of a board of zoning appeals; (iv) an attachment returnable to a court of record; and (v) a writ of mandamus sued out of any court, except the Supreme Court of Virginia. CHAPTER 590

An Act to amend and reenact § 22.1-253.13:4 of the Code of Virginia, relating to high school diploma course and credit requirements; computer science.

[H 1054]

Approved April 4, 2014

Be it enacted by the General Assembly of Virginia:

1. That § 22.1-253.13:4 of the Code of Virginia is amended and reenacted as follows:

§ 22.1-253.13:4. Standard 4. Student achievement and graduation requirements.

A. Each local school board shall award diplomas to all secondary school students, including students who transfer from nonpublic schools or from home instruction, who earn the units of credit prescribed by the Board of Education, pass the prescribed tests, and meet such other requirements as may be prescribed by the local school board and approved by the Board of Education. Provisions shall be made to facilitate the transfer and appropriate grade placement of students from other public secondary schools, from nonpublic schools, or from home instruction as outlined in the standards for accreditation. Course credits earned for online courses taken in the Department of Education's Virtual Virginia program shall transfer to Virginia public schools in accordance with provisions of the standards for accreditation. Further, reasonable accommodation to meet the requirements for diplomas shall be provided for otherwise qualified students with disabilities as needed.

In addition, each local school board may devise, vis-a-vis the award of diplomas to secondary school students, a mechanism for calculating class rankings that takes into consideration whether the student has taken a required class more than one time and has had any prior earned grade for such required class expunged.

Each local school board shall notify the parents of rising eleventh and twelfth grade students of (i) the number and subject area requirements of standard and verified units of credit required for graduation pursuant to the standards for accreditation and (ii) the remaining number and subject area requirements of such units of credit the individual student requires for graduation.

B. Students identified as disabled who complete the requirements of their individualized education programs shall be awarded special diplomas by local school boards.

Each local school board shall notify the parent of such students with disabilities who have an individualized education program and who fail to meet the requirements for a standard or advanced studies diploma of the student's right to a free and appropriate education to age 21, inclusive, pursuant to Article 2 (§ 22.1-213 et seq.) of Chapter 13.

C. Students who have completed a prescribed course of study as defined by the local school board shall be awarded certificates of program completion by local school boards if they are not eligible to receive a Board of Education-approved diploma.

Each local school board shall provide notification of the right to a free public education for students who have not reached 20 years of age on or before August 1 of the school year, pursuant to Chapter 1 (§ 22.1-1 et seq.), to the parent of students who fail to graduate or who have failed to achieve the number of verified units of credit required for graduation as provided in the standards for accreditation. If such student who does not graduate or achieve such verified units of credit is a student for whom English is a second language, the local school board shall notify the parent of the student's opportunity for a free public education in accordance with § 22.1-5.

D. In establishing course and credit requirements for a high school diploma, the Board shall:

1. Provide for the selection of integrated learning courses meeting the Standards of Learning and approved by the Board to satisfy graduation credit requirements, which shall include Standards of Learning testing, as necessary.

2. Establish the requirements for a standard and an advanced studies high school diploma, which shall each include at least one credit in fine or performing arts or career and technical education and one credit in United States and Virginia history. The requirements for a standard high school diploma shall, however, include at least two sequential electives chosen from a concentration of courses selected from a variety of options that may be planned to ensure the completion of a focused sequence of elective courses. Such focused sequence of elective courses shall provide a foundation for further education or training or preparation for employment. The advanced studies diploma shall be the recommended diploma for students pursuing baccalaureate study. Both the standard and the advanced studies diploma shall prepare students for post-secondary education and the career readiness required by the Commonwealth's economy.

Beginning with first-time ninth grade students in the 2013-2014 school year, requirements for the standard diploma shall include a requirement to earn a career and technical education credential that has been approved by the Board, that could include, but not be limited to, the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, or the Virginia workplace readiness skills assessment.

Beginning with first-time ninth grade students in the 2016-2017 school year, requirements for the standard and advanced diplomas shall include a requirement to be trained in emergency first aid, cardiopulmonary resuscitation, and the use of automated external defibrillators, including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation.

The Board shall make provision in its regulations for students with disabilities to earn a standard diploma.

3. Provide, in the requirements to earn a standard or advanced studies diploma, the successful completion of one virtual course. The virtual course may be a noncredit-bearing course.

4. Provide, in the requirements for the verified units of credit stipulated for obtaining the standard or advanced studies diploma, that students completing elective classes into which the Standards of Learning for any required course have been integrated may take the relevant Standards of Learning test for the relevant required course and receive, upon achieving a satisfactory score on the specific Standards of Learning assessment, a verified unit of credit for such elective class that shall be deemed to satisfy the Board's requirement for verified credit for the required course.

5. Establish a procedure to facilitate the acceleration of students that allows qualified students, with the recommendation of the division superintendent, without completing the 140-hour class, to obtain credit for such class upon demonstration of mastery of the course content and objectives. Having received credit for the course, the student shall be permitted to sit for the relevant Standards of Learning assessment and, upon receiving a passing score, shall earn a verified credit. Nothing in this section shall preclude relevant school division personnel from enforcing compulsory attendance in public schools.

6. Provide for the award of verified units of credit for passing scores on industry certifications, state licensure examinations, and national occupational competency assessments approved by the Board of Education.

School boards shall report annually to the Board of Education the number of Board-approved industry certifications obtained, state licensure examinations passed, national occupational competency assessments passed, Virginia workplace readiness skills assessments passed, and the number of career and technical education completers who graduated. These numbers shall be reported as separate categories on the School Performance Report Card.

For the purposes of this subdivision, "career and technical education completer" means a student who has met the requirements for a career and technical education concentration or specialization and all requirements for high school graduation or an approved alternative education program.

In addition, the Board may:

a. For the purpose of awarding verified units of credit, approve the use of additional or substitute tests for the correlated Standards of Learning assessment, such as academic achievement tests, industry certifications or state licensure examinations; and

b. Permit students completing career and technical education programs designed to enable such students to pass such industry certification examinations or state licensure examinations to be awarded, upon obtaining satisfactory scores on such industry certification or licensure examinations, the appropriate verified units of credit for one or more career and technical education classes into which relevant Standards of Learning for various classes taught at the same level have been integrated. Such industry certification and state licensure examinations may cover relevant Standards of Learning for various required classes and may, at the discretion of the Board, address some Standards of Learning for several required classes.

7. Provide for the waiver of certain graduation requirements (i) upon the Board's initiative or (ii) at the request of a local school board. Such waivers shall be granted only for good cause and shall be considered on a case-by-case basis.

8. *Consider all computer science course credits earned by students to be science course credits, mathematics course credits, or career and technical education credits. The Board of Education shall develop guidelines addressing how computer science courses can satisfy graduation requirements.*

E. In the exercise of its authority to recognize exemplary academic performance by providing for diploma seals, the Board of Education shall develop criteria for recognizing exemplary performance in career and technical education programs by students who have completed the requirements for a Board of Education-approved diploma and shall award seals on the diplomas of students meeting such criteria.

In addition, the Board shall establish criteria for awarding a diploma seal for advanced mathematics and technology for the Board of Education-approved diplomas. The Board shall consider including criteria for (i) technology courses; (ii) technical writing, reading, and oral communication skills; (iii) technology-related training; and (iv) industry, professional, and trade association national certifications.

The Board shall also establish criteria for awarding a diploma seal for excellence in civics education and understanding of our state and federal constitutions and the democratic model of government for the Board of Education-approved diplomas. The Board shall consider including criteria for (i) successful completion of history, government, and civics courses, including courses that incorporate character education; (ii) voluntary participation in community service or extracurricular activities that includes the types of activities that shall qualify as community service and the number of hours required; and (iii) related requirements as it deems appropriate.

F. The Board shall establish, by regulation, requirements for the award of a general achievement adult high school diploma for those persons who are not subject to the compulsory school attendance requirements of § 22.1-254 and have (i) achieved a passing score on the GED examination; (ii) successfully completed an education and training program designated by the Board of Education; (iii) earned a Board of Education-approved career and technical education credential such as the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, or the Virginia workplace readiness skills assessment; and (iv) satisfied other requirements as may be established by the Board for the award of such diploma.

G. To ensure the uniform assessment of high school graduation rates, the Board shall collect, analyze, and report high school graduation and dropout data using a formula prescribed by the Board.

The Board may promulgate such regulations as may be necessary and appropriate for the collection, analysis, and reporting of such data.

"Virginia Stormwater Management Program" or "VSMP" means a program approved by the Soil and Water Conservation Board after September 13, 2011, and until June 30, 2013, or the State Water Control Board on and after June 30, 2013, that has been established by a VSMP authority to manage the quality and quantity of runoff resulting from land-disturbing activities and shall include such items as local ordinances, rules, permit requirements, annual standards and specifications, policies and guidelines, technical materials, and requirements for plan review, inspection, enforcement, where authorized in this article, and evaluation consistent with the requirements of this article and associated regulations.

"Virginia Stormwater Management Program authority" or "VSMP authority" means an authority approved by the Board after September 13, 2011, to operate a Virginia Stormwater Management Program or, ~~until such approval is given,~~ the Department. An authority may include a locality; state entity, including the Department; federal entity; or, for linear projects subject to annual standards and specifications in accordance with subsection B of § 62.1-44.15:31, electric, natural gas, and telephone utility companies, interstate and intrastate natural gas pipeline companies, railroad companies, or authorities created pursuant to § 15.2-5102.

"Water quality volume" means the volume equal to the first one-half inch of runoff multiplied by the impervious surface of the land development project.

"Watershed" means a defined land area drained by a river or stream, karst system, or system of connecting rivers or streams such that all surface water within the area flows through a single outlet. In karst areas, the karst feature to which water drains may be considered the single outlet for the watershed.

§ 62.1-44.15:27. Establishment of Virginia Stormwater Management Programs.

A. Any locality, ~~excluding towns, unless such town that~~ operates a regulated MS4; ~~or that notifies the Department of its decision to participate in the establishment of a VSMP~~ shall be required to adopt a VSMP for land-disturbing activities consistent with the provisions of this article according to a schedule set by the ~~Board~~ Department. Such schedule shall require ~~adoption no sooner than 15 months and not more than 21 months following the effective date of the regulation that establishes local program criteria and delegation procedures, unless the Board deems that the Department's review of the VSMP warrants an extension up to an additional 12 months, provided the locality has made substantive progress implementation no later than July 1, 2014. Thereafter, the Department shall provide an annual schedule by which localities can submit applications to implement a VSMP.~~ Localities subject to this subsection are authorized to coordinate plan review and inspections with other entities in accordance with subsection H. ~~The Department shall operate a VSMP on behalf of any locality that does not operate a regulated MS4 and that does not notify the Department, according to a schedule set by the Department, of its decision to participate in the establishment of a VSMP. A locality that decides not to establish a VSMP shall still comply with the requirements set forth in this article and attendant regulations as required to satisfy the stormwater flow rate capacity and velocity requirements set forth in the Erosion and Sediment Control Law (§ 62.1-44.15:51 et seq.). A locality that is subject to the provisions of the Chesapeake Bay Preservation Act (§ 62.1-44.15:67 et seq.) also shall adopt requirements set forth in this article and attendant regulations as required to regulate Chesapeake Bay Preservation Act land-disturbing activities in accordance with § 62.1-44.15:28.~~

~~Notwithstanding any other provision of this subsection, any county that operates an MS4 that became a regulated MS4 on or after January 1, 2014 may elect, on a schedule set by the Department, to defer the implementation of the county's VSMP until no later than January 1, 2015. During this deferral period, when such county thus lacks the legal authority to operate a VSMP, the Department shall operate a VSMP on behalf of the county and address post-construction stormwater runoff and the required design criteria for stormwater runoff controls. Any such county electing to defer the establishment of its VSMP shall still comply with the requirements set forth in this article and attendant regulations as required to satisfy the stormwater flow rate capacity and velocity requirements set forth in the Erosion and Sediment Control Law (§ 62.1-44.15:51 et seq.).~~

B. Any town, ~~including a town that operates a regulated MS4,~~ lying within a county that has adopted a VSMP in accordance with subsection A may ~~adopt its own program or shall decide, but shall not be required, to become subject to the county program~~ county's VSMP. Any town lying within a county that operates an MS4 that became a regulated MS4 on or after January 1, 2014 may elect to become subject to the county's VSMP according to the deferred schedule established in subsection A. ~~During the county's deferral period, the Department shall operate a VSMP on behalf of the town and address post-construction stormwater runoff and the required design criteria for stormwater runoff controls for the town as provided in subsection A.~~ If a town lies within the boundaries of more than one county, the town shall be considered to be wholly within the county in which the larger portion of the town lies. Towns shall inform the Department of their decision according to a schedule established by the Department. Thereafter, the Department shall provide an annual schedule by which towns can submit applications to adopt a VSMP.

C. In support of VSMP authorities, the Department shall:

1. Provide assistance grants to localities not currently operating a local stormwater management program to help the localities to establish their VSMP.

2. Provide technical assistance and training.

3. Provide qualified services in specified geographic areas to a VSMP to assist localities in the administration of components of their programs. The Department shall actively assist localities in the establishment of their programs and in the selection of a contractor or other entity that may provide support to the locality or regional support to several localities.

D. The Department shall develop a model ordinance for establishing a VSMP consistent with this article and its associated regulations, including the Virginia Stormwater Management Program (VSMP) General Permit for Discharges of Stormwater from Construction Activities.

E. Each locality that administers an approved VSMP shall, by ordinance, establish a VSMP that shall be administered in conjunction with a local MS4 program and a local erosion and sediment control program if required pursuant to ~~Article 2-4~~ *the Erosion and Sediment Control Law* (§ 62.1-44.15:51 et seq.), and which shall include the following:

1. Consistency with regulations adopted in accordance with provisions of this article;
2. Provisions for long-term responsibility for and maintenance of stormwater management control devices and other techniques specified to manage the quality and quantity of runoff; and
3. Provisions for the integration of the VSMP with local erosion and sediment control, flood insurance, flood plain management, and other programs requiring compliance prior to authorizing construction in order to make the submission and approval of plans, issuance of permits, payment of fees, and coordination of inspection and enforcement activities more convenient and efficient both for the local governments and those responsible for compliance with the programs.

F. The Board may approve a state entity, including the Department, federal entity, or, for linear projects subject to annual standards and specifications, electric, natural gas, and telephone utility companies, interstate and intrastate natural gas pipeline companies, railroad companies, or authorities created pursuant to § 15.2-5102 to operate a Virginia Stormwater Management Program consistent with the requirements of this article and its associated regulations and the VSMP authority's Department-approved annual standards and specifications. For these programs, enforcement shall be administered by the Department and the Board where applicable in accordance with the provisions of this article.

G. The Board shall approve a VSMP when it deems a program consistent with this article and associated regulations, including the Virginia Stormwater Management Program (VSMP) General Permit for Discharges of Stormwater from Construction Activities.

H. A VSMP authority may enter into agreements or contracts with soil and water conservation districts, adjacent localities, or other public or private entities to carry out or assist with the responsibilities of this article.

I. ~~Localities~~ *If a locality establishes a VSMP, it shall issue a consolidated stormwater management and erosion and sediment control permit that is consistent with the provisions of the Erosion and Sediment Control Law* (§ 62.1-44.15:51 et seq.). When available in accordance with subsection J, such permit, where applicable, shall also include a copy of or reference to state VSMP permit coverage authorization to discharge.

J. Upon the development of an online reporting system by the Department, but no later than July 1, 2014, a VSMP authority shall then be required to obtain evidence of state VSMP permit coverage where it is required prior to providing approval to begin land disturbance.

K. Any VSMP adopted pursuant to and consistent with this article shall be considered to meet the stormwater management requirements under the Chesapeake Bay Preservation Act (§ 62.1-44.15:67 et seq.) and attendant regulations, and effective July 1, 2014, shall not be subject to local program review under the stormwater management provisions of the Chesapeake Bay Preservation Act.

L. All VSMP authorities shall comply with the provisions of this article and the stormwater management provisions of ~~Article 2-4~~ *the Erosion and Sediment Control Law* (§ 62.1-44.15:51 et seq.) and related regulations. The VSMP authority responsible for regulating the land-disturbing activity shall require compliance with the issued permit, permit conditions, and plan specifications. *The state shall enforce state permits.*

~~M. VSMPs adopted in accordance with this section shall become effective July 1, 2014, unless otherwise specified by the Board.~~

§ 62.1-44.15:28. Development of regulations.

A. The Board is authorized to adopt regulations that specify minimum technical criteria and administrative procedures for Virginia Stormwater Management Programs. The regulations shall:

1. Establish standards and procedures for administering a VSMP;
2. Establish minimum design criteria for measures to control nonpoint source pollution and localized flooding, and incorporate the stormwater management regulations adopted pursuant to the Erosion and Sediment Control Law (§ 62.1-44.15:51 et seq.), as they relate to the prevention of stream channel erosion. These criteria shall be periodically modified as required in order to reflect current engineering methods;
3. Require the provision of long-term responsibility for and maintenance of stormwater management control devices and other techniques specified to manage the quality and quantity of runoff;

4. Require as a minimum the inclusion in VSMPs of certain administrative procedures that include, but are not limited to, specifying the time period within which a VSMP authority shall grant land-disturbing activity approval, the conditions and processes under which approval shall be granted, the procedures for communicating disapproval, the conditions under which an approval may be changed, and requirements for inspection of approved projects;

5. Establish by regulations a statewide permit fee schedule to cover all costs associated with the implementation of a VSMP related to land-disturbing activities of one acre or greater. Such fee attributes include the costs associated with plan review, VSMP registration statement review, permit issuance, state-coverage verification, inspections, reporting, and

compliance activities associated with the land-disturbing activities as well as program oversight costs. The fee schedule shall also include a provision for a reduced fee for land-disturbing activities between 2,500 square feet and up to one acre in Chesapeake Bay Preservation Act (§ 62.1-44.15:67 et seq.) localities. The fee schedule shall be governed by the following:

a. The revenue generated from the statewide stormwater permit fee shall be collected utilizing, where practicable, an online payment system, and the Department's portion shall be remitted to the State Treasurer for deposit in the Virginia Stormwater Management Fund established pursuant to § 62.1-44.15:29. However, whenever the Board has approved a VSMP, no more than 30 percent of the total revenue generated by the statewide stormwater permit fees collected shall be remitted to the State Treasurer for deposit in the Virginia Stormwater Management Fund, with the balance going to the VSMP authority.

b. Fees collected pursuant to this section shall be in addition to any general fund appropriation made to the Department or other supporting revenue from a VSMP; however, the fees shall be set at a level sufficient for the Department and the VSMP to fully carry out their responsibilities under this article and its attendant regulations and local ordinances or standards and specifications where applicable. When establishing a VSMP, the VSMP authority shall assess the statewide fee schedule and shall have the authority to reduce or increase such fees, and to consolidate such fees with other program-related charges, but in no case shall such fee changes affect the amount established in the regulations as available to the Department for program oversight responsibilities pursuant to subdivision 5 a. A VSMP's portion of the fees shall be used solely to carry out the VSMP's responsibilities under this article and its attendant regulations, ordinances, or annual standards and specifications.

c. Until July 1, 2014, the fee for coverage under the General Permit for Discharges of Stormwater from Construction Activities issued by the Board, or where the Board has issued an individual permit or coverage under the General Permit for Discharges of Stormwater from Construction Activities for an entity for which it has approved annual standards and specifications, shall be \$750 for each large construction activity with sites or common plans of development equal to or greater than five acres and \$450 for each small construction activity with sites or common plans of development equal to or greater than one acre and less than five acres. On and after July 1, 2014, such fees shall only apply where coverage has been issued under the Board's General Permit for Discharges of Stormwater from Construction Activities to a state agency or federal entity for which it has approved annual standards and specifications. After establishment, such fees may be modified in the future through regulatory actions.

d. Until July 1, 2014, the Department is authorized to assess a \$125 reinspection fee for each visit to a project site that was necessary to check on the status of project site items noted to be in noncompliance and documented as such on a prior project inspection.

e. In establishing the fee schedule under this subdivision, the Department shall ensure that the VSMP authority portion of the statewide permit fee for coverage under the General Permit for Discharges of Stormwater from Construction Activities for small construction activity involving a single family detached residential structure with a site or area, within or outside a common plan of development or sale, that is equal to or greater than one acre but less than five acres shall be no greater than the VSMP authority portion of the fee for coverage of sites or areas with a land-disturbance acreage of less than one acre within a common plan of development or sale.

f. When any fees are collected pursuant to this section by credit cards, business transaction costs associated with processing such payments may be additionally assessed;

6. Establish statewide standards for stormwater management from land-disturbing activities of one acre or greater, except as specified otherwise within this article, and allow for the consolidation in the permit of a comprehensive approach to addressing stormwater management and erosion and sediment control, consistent with the provisions of the Erosion and Sediment Control Law (§ 62.1-44.15:51 et seq.) and this article. However, such standards shall also apply to land-disturbing activity exceeding an area of 2,500 square feet in all areas of the jurisdictions designated as subject to the Chesapeake Bay Preservation Area Designation and Management Regulations;

7. Establish a procedure by which a stormwater management plan that is approved for a residential, commercial, or industrial subdivision shall govern the development of the individual parcels, including those parcels developed under subsequent owners;

8. Notwithstanding the provisions of subdivision A 5, establish a procedure by which neither a registration statement nor payment of the Department's portion of the statewide permit fee established pursuant to that subdivision shall be required for coverage under the General Permit for Discharges of Stormwater from Construction Activities for construction activity involving a single-family detached residential structure, within or outside a common plan of development or sale;

9. Provide for reciprocity with programs in other states for the certification of proprietary best management practices;

10. Require that VSMPs maintain after-development runoff rate of flow and characteristics that replicate, as nearly as practicable, the existing predevelopment runoff characteristics and site hydrology, or improve upon the contributing share of the existing predevelopment runoff characteristics and site hydrology if stream channel erosion or localized flooding is an existing predevelopment condition. Except where more stringent requirements are necessary to address total maximum daily load requirements or to protect exceptional state waters, any land-disturbing activity that provides for stormwater management shall satisfy the conditions of this subsection if the practices are designed to (i) detain the water quality volume and to release it over 48 hours; (ii) detain and release over a 24-hour period the expected rainfall resulting from the one year, 24-hour storm; and (iii) reduce the allowable peak flow rate resulting from the 1.5-year, two-year, and 10-year, 24-hour storms to a level that is less than or equal to the peak flow rate from the site assuming it was in a good forested condition,

achieved through multiplication of the forested peak flow rate by a reduction factor that is equal to the runoff volume from the site when it was in a good forested condition divided by the runoff volume from the site in its proposed condition, and shall be exempt from any flow rate capacity and velocity requirements for natural or man-made channels as defined in any regulations promulgated pursuant to this section or any ordinances adopted pursuant to § 62.1-44.15:27 or 62.1-44.15:33;

~~8-~~ 11. Encourage low-impact development designs, regional and watershed approaches, and nonstructural means for controlling stormwater;

9- 12. Promote the reclamation and reuse of stormwater for uses other than potable water in order to protect state waters and the public health and to minimize the direct discharge of pollutants into state waters;

13. Establish procedures to be followed when a locality that operates a VSMP wishes to transfer administration of the VSMP to the Department;

~~10-~~ 14. Establish a statewide permit fee schedule for stormwater management related to municipal separate storm sewer system permits; and

~~11-~~ 15. Provide for the evaluation and potential inclusion of emerging or innovative stormwater control technologies that may prove effective in reducing nonpoint source pollution.

B. The Board may integrate and consolidate components of the regulations implementing the Erosion and Sediment Control program and the Chesapeake Bay Preservation Area Designation and Management program with the regulations governing the Virginia Stormwater Management Program (VSMP) Permit program or repeal components so that these programs may be implemented in a consolidated manner that provides greater consistency, understanding, and efficiency for those regulated by and administering a VSMP.

§ 62.1-44.15:33. Authorization for more stringent ordinances.

A. Localities *that are VSMP authorities* are authorized to adopt more stringent stormwater management ordinances than those necessary to ensure compliance with the Board's minimum regulations, provided that the more stringent ordinances are based upon factual findings of local or regional comprehensive watershed management studies or findings developed through the implementation of a MS4 permit or a locally adopted watershed management study and are determined by the locality to be necessary to prevent any further degradation to water resources, to address TMDL requirements, to protect exceptional state waters, or to address specific existing water pollution including nutrient and sediment loadings, stream channel erosion, depleted groundwater resources, or excessive localized flooding within the watershed and that prior to adopting more stringent ordinances a public hearing is held after giving due notice.

B. Localities *that are VSMP authorities* shall submit a letter report to the Department when more stringent stormwater management ordinances or more stringent requirements authorized by such ordinances, such as may be set forth in design manuals, policies, or guidance documents developed by the localities, are determined to be necessary pursuant to this section within 30 days after adoption thereof. Any such letter report shall include a summary explanation as to why the more stringent ordinance or requirement has been determined to be necessary pursuant to this section. Upon the request of an affected landowner or his agent submitted to the Department with a copy to be sent to the locality, within 90 days after adoption of any such ordinance or derivative requirement, localities shall submit the ordinance or requirement and all other supporting materials to the Department for a determination of whether the requirements of this section have been met and whether any determination made by the locality pursuant to this section is supported by the evidence. The Department shall issue a written determination setting forth its rationale within 90 days of submission. Such a determination, or a failure by the Department to make such a determination within the 90-day period, may be appealed to the Board.

C. Localities shall not prohibit or otherwise limit the use of any best management practice (BMP) approved for use by the Director or the Board except as follows:

1. When the Director or the Board approves the use of any BMP in accordance with its stated conditions, the locality serving as a VSMP authority shall have authority to preclude the onsite use of the approved BMP, or to require more stringent conditions upon its use, for a specific land-disturbing project based on a review of the stormwater management plan and project site conditions. Such limitations shall be based on site-specific concerns. Any project or site-specific determination purportedly authorized pursuant to this subsection may be appealed to the Department and the Department shall issue a written determination regarding compliance with this section to the requesting party within 90 days of submission. Any such determination, or a failure by the Department to make any such determination within the 90-day period, may be appealed to the Board.

2. When a locality is seeking to uniformly preclude jurisdiction-wide or otherwise limit geographically the use of a BMP approved by the Director or Board, or to apply more stringent conditions to the use of a BMP approved by the Director or Board, upon the request of an affected landowner or his agent submitted to the Department, with a copy submitted to the locality, within 90 days after adoption, such authorizing ordinances, design manuals, policies, or guidance documents developed by the locality that set forth the BMP use policy shall be provided to the Department in such manner as may be prescribed by the Department that includes a written justification and explanation as to why such more stringent limitation or conditions are determined to be necessary. The Department shall review all supporting materials provided by the locality to determine whether the requirements of this section have been met and that any determination made by the locality pursuant to this section is reasonable under the circumstances. The Department shall issue its determination to the locality in writing within 90 days of submission. Such a determination, or a failure by the Department to make such a determination within the 90-day period, may be appealed to the Board.
