#### § 65.2-101. Definitions.

As used in this title:

"Average weekly wage" means:

1. a. The earnings of the injured employee in the employment in which he was working at the time of the injury during the period of 52 weeks immediately preceding the date of the injury, divided by 52; but if the injured employee lost more than seven consecutive calendar days during such period, although not in the same week, then the earnings for the remainder of the 52 weeks shall be divided by the number of weeks remaining after the time so lost has been deducted. When the employment prior to the injury extended over a period of less than 52 weeks, the method of dividing the earnings during that period by the number of weeks and parts thereof during which the employee earned wages shall be followed, provided that results fair and just to both parties will be thereby obtained. When, by reason of a shortness of time during which the employee has been in the employment of his employer or the casual nature or terms of his employment, it is impractical to compute the average weekly wages as above defined, regard shall be had to the average weekly amount which during the 52 weeks previous to the injury was being earned by a person of the same grade and character employed in the same class of employment in the same locality or community.

b. When for exceptional reasons the foregoing would be unfair either to the employer or employee, such other method of computing average weekly wages may be resorted to as will most nearly approximate the amount which the injured employee would be earning were it not for the injury.

2. Whenever allowances of any character made to an employee in lieu of wages are a specified part of the wage contract, they shall be deemed a part of his earnings. For the purpose of this title, the average weekly wage of the members of the Virginia National Guard, the Virginia Naval Militia and the Virginia Defense Force, registered members on duty or in training of the United States Civil Defense Corps of ~~this the~~ Commonwealth, volunteer firefighters engaged in firefighting activities under the supervision and control of the Department of Forestry, and forest wardens shall be deemed to be such amount as will entitle them to the maximum compensation payable under this title; however, any award entered under the provisions of this title on behalf of members of the National Guard, the Virginia Naval Militia or their dependents, or registered members on duty or in training of the United States Civil Defense Corps of ~~this the~~ Commonwealth or their dependents, shall be subject to credit for benefits paid them under existing or future federal law on account of injury or occupational disease covered by the provisions of this title.

3. Whenever volunteer firefighters, volunteer ~~lifesaving or volunteer rescue squad members~~ *emergency medical services personnel*, volunteer law-enforcement chaplains, auxiliary or reserve police, auxiliary or reserve deputy sheriffs, ~~volunteer emergency medical technicians~~, members of volunteer search and rescue organizations, volunteer members of community emergency response teams, and volunteer members of medical reserve corps are deemed employees under this title, their average weekly wage shall be deemed sufficient to produce the minimum compensation provided by this title for injured workers or their dependents. For the purposes of workers' compensation insurance premium calculations, the monthly payroll for each volunteer firefighter or volunteer ~~lifesaving or volunteer rescue squad member~~ *who is an individual who meets the definition of "emergency medical services personnel" in § 32.1-111.1* shall be deemed to be \$300.

A. Upon the initiative of any local or regional law-enforcement agency, fire department, department of social services, emergency medical services agency, Commonwealth's attorney's office, or community services board, local or regional child fatality teams may be established for the purpose of conducting contemporaneous reviews of local child deaths in order to develop interventions and strategies for prevention specific to the locality or region. Each team shall establish rules and procedures to govern the review process. Agencies may share information but shall be bound by confidentiality and execute a sworn statement to honor the confidentiality of the information they share. Violations shall be punishable as a

Class 3 misdemeanor. The State Child Fatality Review Team shall provide technical assistance and direction as provided for in subsection A of § 32.1-283.1.

D. All information and records obtained or created regarding the review of a fatality shall be confidential and shall be excluded from the Virginia Freedom of Information Act (§ 2.2-3700 et seq.) pursuant to subdivision 9 of § 2.2-3705.5. If available from other sources, however, such information and records shall not be immune from subpoena, subpoena duces tecum, discovery or introduction into evidence when obtained through such other sources solely because the information and records were presented to the team during a fatality review. No person who participated in the reviews nor any member of the team shall be required to make any statement as to what transpired during the review or what information was collected during the review. Upon the conclusion of the fatality review, all information and records concerning the victim and the family shall be returned to the originating agency or destroyed. However, the findings of the team may be disclosed or published in statistical or other form which shall not identify individuals. The portions of meetings in which individual cases are discussed by the team shall be closed pursuant to subdivision A 21 of § 2.2-3711. All team members, persons attending closed team meetings, and persons presenting information and records on specific fatalities to the team during closed meetings shall execute a sworn statement to honor the confidentiality of the information, records, discussions, and opinions disclosed during any closed meeting to review a specific death. Such service shall not extend to any parking lots adjacent to such driveways and entranceways not normally used by the volunteer fire department or ~~volunteer rescue squad vehicles~~ *emergency medical services agency* as their direct driveway or entrance.

#### **§ 33.2-501. Designation of HOV lanes; use of such lanes; penalties.**

A. In order to facilitate the rapid and orderly movement of traffic to and from urban areas during peak traffic periods, the Board may designate one or more lanes of any highway in the Interstate System, primary state highway system, or secondary state highway system as HOV lanes. When lanes have been so designated and have been appropriately marked with signs or other markers as the Board may prescribe, they shall be reserved during periods designated by the Board for the exclusive use of buses and high-occupancy vehicles. Any local governing body may also, with respect to highways under its exclusive jurisdiction, designate HOV lanes and impose and enforce restrictions on the use of such lanes. Any highway for which the locality receives highway maintenance funds pursuant to § 33.2-319 shall be deemed to be within the exclusive jurisdiction of the local governing body for the purposes of this section. HOV lanes shall be reserved for high-occupancy vehicles of a specified number of occupants as determined by the Board or, for HOV lanes designated by a local governing body, by that local governing body. Notwithstanding the foregoing provisions of this section, no designation of any lane or lanes of any highway as HOV lanes shall apply to the use of any such lanes by:

1. Emergency vehicles such as firefighting vehicles, ~~ambulances,~~ and ~~rescue squad~~ *emergency medical services* vehicles;
2. Law-enforcement vehicles;
3. Motorcycles;
4. a. Transit and commuter buses designed to transport 16 or more passengers, including the driver;
- b. Any vehicle operating under a certificate issued under § 46.2-2075, 46.2-2080, 46.2-2096, 46.2-2099.4, or 46.2-2099.44;
5. Vehicles of public utility companies operating in response to an emergency call;
6. Vehicles bearing clean special fuel vehicle license plates issued pursuant to § 46.2-749.3, provided such use is in compliance with federal law;
7. Taxicabs having two or more occupants, including the driver; or
8. (Contingent effective date) Any active duty military member in uniform who is utilizing Interstate 264 and Interstate 64 for the purposes of traveling to or from a military facility in the Hampton Roads Planning District.

In the Hampton Roads Planning District, HOV restrictions may be temporarily lifted and HOV lanes opened to use by all vehicles when restricting use of HOV lanes becomes impossible or undesirable and the temporary lifting of HOV limitations is indicated by signs along or above the affected portion of highway.

The Commissioner of Highways shall implement a program of the HOV facilities in the Hampton Roads Planning District beginning not later than May 1, 2000. This program shall include the temporary lifting of HOV restrictions and the opening of HOV lanes to all traffic when an incident resulting from nonrecurring causes within the general lanes occurs such that a lane of traffic is blocked or is expected to be blocked for 10 minutes or longer. The HOV restrictions for the facility shall be reinstated when the general lane is no longer blocked and is available for use.

The Commissioner of Highways shall maintain necessary records to evaluate the effects of such openings on the operation of the general lanes and the HOV lanes. This program will terminate if the Federal Highway Administration requires repayment of any federal highway construction funds because of the program's impact on the HOV facilities in Hampton Roads.

B. In designating any lane or lanes of any highway as HOV lanes, the Board or local governing body shall specify the hour or hours of each day of the week during which the lanes shall be so reserved, and the hour or hours shall be plainly posted at whatever intervals along the lanes the Board or local governing body deems appropriate. Any person driving a motor vehicle in a designated HOV lane in violation of this section is guilty of a traffic infraction, which shall not be a moving violation, and on conviction shall be fined \$100. However, violations committed within the boundaries of Planning District 8 shall be punishable as follows:

1. For a first offense, by a fine of \$125;
2. For a second offense within a period of five years from a first offense, by a fine of \$250;
3. For a third offense within a period of five years from a first offense, by a fine of \$500; and
4. For a fourth or subsequent offense within a period of five years from a first offense, by a fine of \$1,000.

Upon a conviction under this section, the court shall furnish to the Commissioner of the Department of Motor Vehicles in accordance with § 46.2-383 an abstract of the record of such conviction, which shall become a part of the person's driving record. Notwithstanding the provisions of § 46.2-492, no driver demerit points shall be assessed for any violation of this section, except that persons convicted of second, third, fourth, or subsequent violations within five years of a first offense committed in Planning District 8 shall be assessed three demerit points for each such violation.

C. In the prosecution of an offense, committed in the presence of a law-enforcement officer, of failure to obey a road sign restricting a highway, or portion thereof, to the use of high-occupancy vehicles, proof that the vehicle described in the HOV violation summons was operated in violation of this section, together with proof that the defendant was at the time of such violation the registered owner of the vehicle, shall constitute in evidence a rebuttable presumption that such registered owner of the vehicle was the person who committed the violation. Such presumption shall be rebutted if the registered owner of the vehicle testifies in open court under oath that he was not the operator of the vehicle at the time of the violation. A summons for a violation of this section may be executed in accordance with § 19.2-76.2. Such rebuttable presumption shall not arise when the registered owner of the vehicle is a rental or leasing company.

D. Notwithstanding the provisions of § 19.2-76, whenever a summons for a violation of this section is served in any locality, it may be executed by mailing by first-class mail a copy thereof to the address of the owner of the vehicle as shown

on the records of the Department of Motor Vehicles. If the summoned person fails to appear on the date of return set out in the summons mailed pursuant to this section, the summons shall be executed in the manner set out in § 19.2-76.3.

No proceedings for contempt or arrest of a person summoned by mailing shall be instituted for his failure to appear on the return date of the summons.

E. Notwithstanding § 33.2-613, high-occupancy vehicles having three or more occupants (HOV-3) may be permitted to use the Omer L. Hirst-Adelard L. Brault Expressway (Dulles Toll Road) without paying a toll.

F. Notwithstanding the contrary provisions of this section, the following conditions shall be met before the HOV-2 designation of Interstate Route 66 outside the Capital Beltway can be changed to HOV-3 or any more restrictive designation:

1. The Department of Transportation shall publish a notice of its intent to change the existing designation and also immediately provide similar notice of its intent to all members of the General Assembly representing districts that touch or are directly impacted by traffic on Interstate Route 66.

2. The Department of Transportation shall hold public hearings in the corridor to receive comments from the public.

3. The Department of Transportation shall make a finding of the need for a change in such designation, based on public hearings and its internal data, and present this finding to the Board for approval.

4. The Board shall make written findings and a decision based upon the following criteria:

a. Is changing the HOV-2 designation to HOV-3 in the public interest?

b. Is there quantitative and qualitative evidence that supports the argument that HOV-3 will facilitate the flow of traffic on Interstate Route 66?

c. Is changing the HOV-2 designation beneficial to comply with the federal Clean Air Act Amendments of 1990?

**§ 33.2-503. HOT lanes enforcement.**

Any person operating a motor vehicle on designated HOT lanes shall make arrangements with the HOT lanes operator for payment of the required toll prior to entering such HOT lanes. The driver of a vehicle who enters the HOT lanes in an unauthorized vehicle, in violation of the conditions for use of such HOT lanes established pursuant to § 33.2-502, without payment of the required toll or without having made arrangements with the HOT lanes operator for payment of the required toll shall have committed a violation of this section, which may be enforced in the following manner:

1. On a form prescribed by the Supreme Court, a summons for civil violation of this section may be executed by a law-enforcement officer, when such violation is observed by such officer. The form shall contain the option for the driver of the vehicle to prepay the unpaid toll and all penalties, administrative fees, and costs.

2. a. A HOT lanes operator shall install and operate, or cause to be installed or operated, a photo-enforcement system at locations where tolls are collected for the use of such HOT lanes.

b. A summons for civil violation of this section may be executed pursuant to this subdivision, when such violation is evidenced by information obtained from a photo-enforcement system as defined in this chapter. A certificate, sworn to or affirmed by a technician employed or authorized by the HOT lanes operator, or a facsimile of such a certificate, based on inspection of photographs, microphotographs, videotapes, or other recorded images produced by a photo-enforcement system, shall be prima facie evidence of the facts contained therein. Any photographs, microphotographs, videotape, or other recorded images evidencing such a violation shall be available for inspection in any proceeding to adjudicate the liability for such violation under this subdivision. Any vehicle rental or vehicle leasing company, if named in a summons, shall be released as a party to the action if it provides to the HOT lanes operator a copy of the vehicle rental agreement or lease or an affidavit identifying the renter or lessee prior to the date of hearing set forth in the summons. Upon receipt of such rental agreement, lease, or affidavit, a summons shall be issued for the renter or lessee identified therein. Release of this information shall not be deemed a violation of any provision of the Government Data Collection and Dissemination Practices Act (§ 2.2-3800 et seq.) or the Insurance Information and Privacy Protection Act (§ 38.2-600 et seq.).

c. On a form prescribed by the Supreme Court, a summons issued under this subdivision may be executed pursuant to § 19.2-76.2. Such form shall contain the option for the driver or registered owner to prepay the unpaid toll and all penalties, administrative fees, and costs. HOT lanes operator personnel or their agents mailing such summons shall be considered conservators of the peace for the sole and limited purpose of mailing such summons. Notwithstanding the provisions of § 19.2-76, a summons for a violation of this section may be executed by mailing by first-class mail a copy thereof to the address of the owner of the vehicle as shown on the records of the Department of Motor Vehicles or, if the registered owner has named and provided a valid address for the operator of the vehicle at the time of the violation in an affidavit executed pursuant to this subdivision, such named operator of the vehicle. If the summoned person fails to appear on the date of return set out in the summons mailed pursuant to this section, the summons shall be executed in the manner set out in § 19.2-76.3.

d. The registered owner of such vehicle shall be given reasonable notice by way of a summons as provided in this subdivision that his vehicle had been used in violation of this section, and such owner shall be given notice of the time and place of the hearing and notice of the civil penalty and costs for such offense.

Upon the filing of an affidavit with the court at least 14 days prior to the hearing date by the registered owner of the vehicle stating that he was not the driver of the vehicle on the date of the violation and providing the legal name and address of the driver of the vehicle at the time of the violation, a summons will also be issued to the alleged driver of the vehicle at the time of the offense. The affidavit shall constitute prima facie evidence that the person named in the affidavit was driving the vehicle at all the relevant times relating to the matter named in the affidavit.

If the registered owner of the vehicle produces a certified copy of a police report showing that the vehicle had been reported to the police as stolen prior to the time of the alleged offense and remained stolen at the time of the alleged offense, then the court shall dismiss the summons issued to the registered owner of the vehicle.

3. a. The HOT lanes operator may impose and collect an administrative fee in addition to the unpaid toll so as to recover the expenses of collecting the unpaid toll, which administrative fee shall be reasonably related to the actual cost of collecting the unpaid toll and not exceed \$100 per violation. The operator of the vehicle shall pay the unpaid tolls and any administrative fee detailed in a notice or invoice issued by a HOT lanes operator. If paid within 30 days of notification, the administrative fee shall not exceed \$25.

b. Upon a finding by a court of competent jurisdiction that the driver of the vehicle observed by a law-enforcement officer under subdivision 1 or the vehicle described in the summons for civil violation issued pursuant to evidence obtained by a photo-enforcement system under subdivision 2 was in violation of this section, the court shall impose a civil penalty upon the driver of such vehicle issued a summons under subdivision 1, or upon the driver or registered owner of such vehicle issued a summons under subdivision 2, payable to the HOT lanes operator as follows: for a first offense, \$50; for a second offense, \$250; for a third offense within a period of two years of the second offense, \$500; and for a fourth and subsequent offense within a period of three years of the second offense, \$1,000, together with, in each case, the unpaid toll, all accrued administrative fees imposed by the HOT lanes operator as authorized by this section, and applicable court costs. No person shall be subject to prosecution under both subdivisions 1 and 2 for actions arising out of the same transaction or occurrence.

c. Upon a finding by a court that a person has violated this section, in the event such person fails to pay the required penalties, fees, and costs, the court shall notify the Commissioner of the Department of Motor Vehicles, who shall suspend all of the registration certificates and license plates issued for any motor vehicles registered solely in the name of such person and shall not issue any registration certificate or license plate for any other vehicle that such person seeks to register solely in his name until the court has notified the Commissioner of the Department of Motor Vehicles that such penalties, fees, and costs have been paid. The HOT lanes operator and the Commissioner of the Department of Motor Vehicles may enter into an agreement whereby the HOT lanes operator may reimburse the Department of Motor Vehicles for its reasonable costs to develop, implement, and maintain this enforcement mechanism, and that specifies that the Commissioner of the Department of Motor Vehicles shall have an obligation to suspend such registration certificates so long as the HOT lanes operator makes the required reimbursements in a timely manner in accordance with the agreement.

d. Except as provided in subdivisions 4 and 5, imposition of a civil penalty pursuant to this section shall not be deemed a conviction as an operator of a motor vehicle under Title 46.2 and shall not be made part of the driving record of the person upon whom such civil penalty is imposed, nor shall it be used for insurance purposes in the provision of motor vehicle insurance coverage.

4. a. The HOT lanes operator may restrict the usage of the HOT lanes to designated vehicle classifications pursuant to an interim or final comprehensive agreement executed pursuant to § 33.2-1808 or 33.2-1809. Notice of any such vehicle classification restrictions shall be provided through the placement of signs or other markers prior to and at all HOT lanes entrances.

b. Upon a conviction under this subdivision, the court shall furnish to the Commissioner of the Department of Motor Vehicles, in accordance with § 46.2-383, an abstract of the record of such conviction, which shall become a part of the person's driving record. Notwithstanding the provisions of § 46.2-492, no driver demerit points shall be assessed for any violation of this subdivision, except that persons convicted of a second, third, fourth, or subsequent violation within five years of a first offense shall be assessed three demerit points for each such violation.

5. The driver of a vehicle who enters the HOT lanes by crossing through any barrier, buffer, or other area separating the HOT lanes from other lanes of travel is guilty of a violation of § 46.2-852, unless the vehicle is a state or local law-enforcement vehicle, firefighting truck, ~~ambulance~~, or ~~rescue squad~~ *emergency medical services* vehicle used in the performance of its official duties. No person shall be subject to prosecution both under this subdivision and under subdivision 1, 2, or 4 for actions arising out of the same transaction or occurrence.

Upon a conviction under this subdivision, the court shall furnish to the Commissioner of the Department of Motor Vehicles in accordance with § 46.2-383 an abstract of the record of such conviction, which shall become a part of the convicted person's driving record.

6. No person shall be subject to prosecution both under this section and under § 33.2-501, 46.2-819, or 46.2-819.1 for actions arising out of the same transaction or occurrence.

7. Any action under this section shall be brought in the general district court of the county or city in which the violation occurred.

**§ 38.2-1904. Rate standards.**

A. Rates for the classes of insurance to which this chapter applies shall not be excessive, inadequate, or unfairly discriminatory. All rates and all changes and amendments to rates to which this chapter applies for use in this Commonwealth shall consider loss experience and other factors within Virginia if relevant and actuarially sound; ~~provided;~~ *that* other data, including countrywide, regional, or other state data, may be considered where such data is relevant and where a sound actuarial basis exists for considering data other than Virginia-specific data.

1. No rate shall be held to be excessive unless it is unreasonably high for the insurance provided and a reasonable degree of competition does not exist in the area with respect to the classification to which the rate applies.

2. No rate shall be held inadequate unless it is unreasonably low for the insurance provided and (i) continued use of it would endanger solvency of the insurer or (ii) use of the rate by the insurer has or, if continued, will have the effect of destroying competition or creating a monopoly.

3. No rate shall be unfairly discriminatory if a different rate is charged for the same coverage and the rate differential (i) is based on sound actuarial principles or (ii) is related to actual or reasonably anticipated experience.

B. 1. In determining whether rates comply with the standards of subsection A ~~of this section~~, separate consideration shall be given to (i) past and prospective loss experience within and outside this Commonwealth, (ii) conflagration or catastrophe hazards, (iii) a reasonable margin for underwriting profit and contingencies, (iv) dividends, savings or unabsorbed premium deposits allowed or returned by insurers to their policyholders, members or subscribers, (v) past and prospective expenses both countrywide and those specifically applicable to this Commonwealth, (vi) the loss reserving practices, standards and procedures utilized by the insurer, (vii) investment income earned or realized by insurers from their unearned premium and loss reserve and the Commission may give separate consideration to investment income earned on

surplus funds, and (viii) all other relevant factors within and outside this Commonwealth. When actual experience or data does not exist, the Commission may consider estimates.

2. In the case of fire insurance rates, consideration shall be given to the experience of the fire insurance business during a period of not less than the most recent five-year period for which such experience is available.

3. In the case of workers' compensation insurance rates for volunteer firefighters or volunteer ~~lifescaping or volunteer rescue squad members~~ *emergency medical services personnel*, the rates shall be calculated based upon the combined experience of both volunteer firefighters or volunteer ~~lifescaping or volunteer rescue squad members~~ *emergency medical services personnel* and paid firefighters or paid ~~lifescaping or paid rescue squad members~~ *emergency medical services personnel*, so that the resulting rate is the same for both volunteer and paid members, but in no event shall resulting premiums be less than ~~forty dollars~~ \$40 per year for any volunteer firefighter or ~~rescue squad member~~ *volunteer emergency medical services personnel*.

4. In the case of uninsured motorist coverage required by subsection A of § 38.2-2206, consideration shall be given to all sums distributed by the Commission from the Uninsured Motorists Fund in accordance with the provisions of Chapter 30 (§ 38.2-3000 et seq.) ~~of this title~~.

C. For the classes of insurance to which this chapter applies, including insurance against contingent, consequential and indirect losses as defined in § 38.2-133 (i) the systems of expense provisions included in the rates for use by any insurer or group of insurers may differ from those of other insurers or groups of insurers to reflect the requirements of the operating methods of any such insurer or group for any class of insurance, or with respect to any subdivision or combination of insurance for which separate expense provisions are applicable, and (ii) risks may be grouped by classifications for the establishment of rates and minimum premiums. Classification rates may be modified to produce rates for individual risks in accordance with rating plans that establish standards for measuring variations in hazards, expense provisions, or both. The standards may measure any difference between risks that can be demonstrated to have a probable effect upon losses or expenses. Notwithstanding any other provision of this subsection, except as permitted by § 38.2-1908, each member of a rate service organization shall use the uniform classification system, uniform experience rating plan, and uniform statistical plan of its designated rate service organization in the provision of insurance defined in § 38.2-119.

D. No insurer shall use any information pertaining to any motor vehicle conviction or accident to produce increased or surcharged rates above their filed manual rates for individual risks for a period longer than ~~thirty-six~~ 36 months. This period shall begin no later than ~~twelve~~ 12 months after the date of the conviction or accident.

E. Each authorized insurer subject to the provisions of this chapter may file with the Commission an expense reduction plan that permits variations in expense provisions. Such filing may contain provisions permitting agents to reduce their commission resulting in an appropriate reduction in premium. Nothing in this section shall be construed to require an agent to reduce a commission, nor may an insurer unreasonably refuse to reduce a premium due to a commission reduction as permitted by its filed expense reduction plan.

#### **§ 38.2-2005. Provisions governing making of rates.**

A. Rates for the classes of insurance to which this chapter applies shall not be excessive, inadequate, or unfairly discriminatory. All rates and all changes and amendments to rates to which this chapter applies for use in this Commonwealth shall consider loss experience and other factors within Virginia if relevant and actuarially sound; however, other data, including countrywide, regional or other state data, may be considered where such data is relevant and where a sound actuarial basis exists for considering data other than Virginia-specific data.

B. 1. In making rates for the classes of insurance to which this chapter applies, separate consideration shall be given to (i) past and prospective loss experience within and outside this Commonwealth, (ii) conflagration or catastrophe hazards, (iii) a reasonable margin for underwriting profit and contingencies, (iv) dividends, savings or unabsorbed premium deposits allowed or returned by insurers to their policyholders, members or subscribers, (v) past and prospective expenses both countrywide and those specifically applicable to this Commonwealth, (vi) investment income earned or realized by insurers from their unearned premium and loss reserve and the Commission may give separate consideration to investment income earned on surplus funds, (vii) the loss reserving practices, standards and procedures utilized by the insurer, and (viii) all other relevant factors within and outside this Commonwealth. When actual experience or data does not exist, the Commission may consider estimates.

2. In the case of fire insurance rates, consideration shall be given to the experience of the fire insurance business during a period of not less than the most recent five-year period for which such experience is available.

3. [Repealed.]

In the case of workers' compensation insurance rates for volunteer firefighters or volunteer ~~lifescaping or volunteer rescue squad members~~ *emergency medical services personnel* written through the Virginia Worker's Compensation Insurance Plan, the rates shall be calculated based upon the combined experience of both volunteer firefighters or volunteer ~~lifescaping or volunteer rescue squad members~~ *emergency medical services personnel* and paid firefighters or paid ~~lifescaping or paid rescue squad members~~ *emergency medical services personnel*, so that the resulting rate is the same for both volunteer and paid members, but in no event shall resulting premiums be less than ~~forty dollars~~ \$40 per year for any volunteer firefighter or ~~rescue squad member~~ *volunteer emergency medical services personnel*.

C. For the classes of insurance to which this chapter applies (i) the systems of expense provisions included in the rates for use by any insurer or group of insurers may differ from those of other insurers or groups of insurers to reflect the requirements of the operating methods of any such insurer or group for any class of insurance, or for any subdivision or

combination of insurance for which separate expense provisions apply, and (ii) risks may be grouped by classifications for the establishment of rates and minimum premiums. Classification rates may be modified to produce rates for individual risks in accordance with rating plans that establish standards for measuring variations in hazards, expense provisions, or both. The standards may measure any difference among risks that can be demonstrated to have a probable effect upon losses or expenses.

D. All rates, rating schedules or rating plans and every manual of classifications, rules and rates, including every modification thereof, approved by the Commission under this chapter, shall be used until a change is approved by the Commission.

2. If the person is usually engaged in a remunerative occupation, an amount equal to the loss of income incurred after the date of the accident resulting from injuries received in the accident up to \$100 per week during the period from the first workday lost as a result of the accident up to the date the person is able to return to his usual occupation. However, the period shall not extend beyond one year from the date of the accident; and

3. An expense described in subdivision 1 shall be deemed to have been incurred:

Either or both of the coverages, as well as any other medical expense or loss of income coverage under any policy of automobile liability insurance, shall be payable to the covered injured person or pursuant to an assignment of benefits in accordance with subsection D, notwithstanding the failure or refusal of the named insured or other person entitled to the coverage to give notice to the insurer of an accident as soon as practicable under the terms of the policy, except where the failure or refusal prejudices the insurer in establishing the validity of the claim.

C. In any policy of personal automobile insurance in which the insured has purchased coverage under subsection A, every insurer providing such coverage arising from the ownership, maintenance or use of no more than four motor vehicles shall be liable to pay up to the maximum policy limit available on every motor vehicle insured under that coverage if the health care or disability expenses and costs mentioned in subsection A exceed the limits of coverage for any one motor vehicle so insured.

e. If the AOB form does not include a notice that complies with the provisions of subdivision g, (i) the assignor is given a separate document, in any printed or electronic format, that is delivered to the assignor at the same time as the AOB form and that contains a notice that complies with the provisions of subdivision g; (ii) the AOB form includes a conspicuous statement that a notice regarding the assignment of medical expense benefits is provided in a separate document; and

(iii) the AOB form is signed, initialed, or otherwise marked by the assignor at or near the statement described in clause (ii) to acknowledge that the assignor has read, or had the opportunity to read, the separate document containing the notice;

f. The statements required by subdivision D 1 to be included in the AOB form or a separate document, including the notice prescribed by subdivision g, are in not less than eight-point type; and

g. The assignor is provided, either in the AOB form or in a separate document, a notice that summarizes the effect of the assignment of medical expense benefits, which notice states the following:

"Notice: automobile accident patients

If you have been in an automobile accident, you may be entitled to payment from your automobile insurance if you have medical expense benefits coverage. By signing this assignment of benefits form you are giving to your health care provider the right to receive some or all of that payment directly from your automobile insurance company.

If you have health insurance and your healthcare provider is in-network: as long as you provide information necessary to verify your health insurance coverage the healthcare provider may only bill the amount you owe for any copayment, coinsurance, or deductibles to your automobile insurance and you may be entitled to any remainder of your automobile insurance benefit.

If you do not provide information necessary to verify your health insurance coverage, do not have health insurance, or your healthcare provider is not in your health insurer's provider network: your health care provider may bill their full charges to your automobile insurance.

You may want to consult your insurance agent or attorney before signing or initialing this form. You are not required to sign/initial this form to receive care."

2. Upon receipt of a copy of an AOB form that satisfies the requirements of subdivision D 1 and (i) an explanation of benefits or remittance advice or (ii) a bill, claim form, or documentation from the assignee advising that it has been represented to the assignee that the covered injured person does not have health insurance or is covered by a self-insured or self-funded employee welfare benefit plan subject to the Employee Retirement Income Security Act of 1974 which requires medical expense coverage to be primary, a motor vehicle insurer shall pay directly to the health care provider, from any medical expense benefits available to such person under a motor vehicle insurance policy:

4. A covered injured person shall not be required to assign to any person any medical expense benefits he may have under this section, including any assignment of the proceeds of such coverages;

5. An assignment of medical expense benefits shall be void and unenforceable as against public policy if the assignment does not comply with the requirements of subdivision D 1;

6. Medical expense benefits may not be reduced because of any benefits paid, payable, or provided by any insurance contract providing hospital, medical, surgical, and similar or related benefits, or any subscription contract or health services plan delivered or issued for delivery or providing for the payment of benefits to or on behalf of persons residing in or employed in the Commonwealth, except as authorized by this section; and

7. This shall be considered as a program of last resort for those local jurisdictions that cannot meet the full cost.

The Virginia Department of Emergency Management shall establish guidelines and procedures for determining whether and to what extent financial assistance to local governments may be provided.

Such abstract shall be provided at a fee that is one-half the normal charge if the request is accompanied by appropriate written evidence that the person has applied to be a volunteer with the Virginia Council of the Girl Scouts of the USA.

C. Whenever the Commissioner issues an order to suspend or revoke the driver's license or driving privilege of any individual, he may notify the National Driver Register Service operated by the United States Department of Transportation and any similar national driver information system and provide whatever classes of information the authority may require.

D. Accident reports may be inspected under the provisions of §§ 46.2-379 and 46.2-380.

E. Whenever the Commissioner takes any licensing action pursuant to the provisions of the Virginia Commercial Driver's License Act (§ 46.2-341.1 et seq.), he may provide information to the Commercial Driver License Information System, or any similar national commercial driver information system, regarding such action.

F. In addition to the foregoing provisions of this section, vehicle information may also be inspected under the provisions of §§ 46.2-633, 46.2-644.02, 46.2-644.03, and §§ 46.2-1200.1 through 46.2-1237.

#### **§ 46.2-334.01. Licenses issued to persons less than 19 years old subject to certain restrictions.**

A. Any learner's permit or driver's license issued to any person less than 18 years old shall be subject to the following:

1. Notwithstanding the provisions of § 46.2-498, whenever the driving record of a person less than 19 years old shows that he has been convicted of committing, when he was less than 18 years old, (i) an offense for which demerit points have been assessed or are assessable under Article 19 (§ 46.2-489 et seq.) or (ii) a violation of any provision of Article 12 (§ 46.2-1091 et seq.) or Article 13 (§ 46.2-1095 et seq.) of Chapter 10, the Commissioner shall direct such person to attend a driver improvement clinic. No safe driving points shall be awarded for such clinic attendance, nor shall any safe driving points be awarded for voluntary or court-assigned clinic attendance. Such person's parent, guardian, legal custodian, or other person standing in loco parentis may attend such clinic and receive a reduction in demerit points and/or an award of safe driving points pursuant to § 46.2-498. The provisions of this subdivision shall not be construed to prohibit awarding of safe driving points to a person less than 18 years old who attends and successfully completes a driver improvement clinic without having been directed to do so by the Commissioner or required to do so by a court.

2. If any person less than 19 years old is convicted a second time of committing, when he was less than 18 years old, (i) an offense for which demerit points have been assessed or are assessable under Article 19 (§ 46.2-489 et seq.) or (ii) a violation of any provision of Article 12 (§ 46.2-1091 et seq.) or Article 13 (§ 46.2-1095 et seq.) of Chapter 10, the Commissioner shall suspend such person's driver's license or privilege to operate a motor vehicle for 90 days. Such suspension shall be consecutive to, and not concurrent with, any other period of license suspension, revocation, or denial. Any person who has had his driver's license or privilege to operate a motor vehicle suspended in accordance with this subdivision may petition the juvenile and domestic relations district court of his residence for a restricted license to authorize such person to drive a motor vehicle in the Commonwealth to and from his home, his place of employment, or an institution of higher learning where he is enrolled, provided there is no other means of transportation by which such person may travel between his home and his place of employment or the institution of higher learning where he is enrolled. On such petition the court may, in its discretion, authorize the issuance of a restricted license for a period not to exceed the term of the suspension of the person's license or privilege to operate a motor vehicle in the Commonwealth. Such restricted license shall be valid solely for operation of a motor vehicle between such person's home and his place of employment or the institution of higher learning where he is enrolled.

3. If any person is convicted a third time of committing, when he was less than 18 years old, (i) an offense for which demerit points have been assessed or are assessable under Article 19 (§ 46.2-489 et seq.) or (ii) a violation of any provision of Article 12 (§ 46.2-1091 et seq.) or Article 13 (§ 46.2-1095 et seq.) of Chapter 10, the Commissioner shall revoke such person's driver's license or privilege to operate a motor vehicle for one year or until such person reaches the age of 18 years, whichever is longer. Such revocation shall be consecutive to, and not concurrent with, any other period of license suspension, revocation, or denial.

4. In no event shall any person subject to the provisions of this section be subject to the suspension or revocation provisions of subdivision 2 or 3 for multiple convictions arising out of the same transaction or occurrence.

B. The initial license issued to any person younger than 18 years of age shall be deemed a provisional driver's license. Until the holder is 18 years old, a provisional driver's license shall not authorize its holder to operate a motor vehicle with more than one passenger who is less than 21 years old, unless the driver is accompanied by a parent or person acting in loco parentis provided that such person accompanying the driver is occupying the seat beside the driver and is lawfully permitted to operate a motor vehicle at the time. After the first year the provisional license is issued the holder may operate a motor vehicle with up to three passengers who are less than 21 years old when (i) the holder is driving to or from a school-sponsored activity, or (ii) a licensed driver who is at least 21 years old is occupying the seat beside the driver, or (iii) in cases of emergency. This passenger limitation, however, shall not apply to members of the driver's family or household. For the purposes of this subsection, "a member of the driver's family or household" means any of the following: (a) the driver's spouse, children, stepchildren, brothers, sisters, half-brothers, half-sisters, and any individual who has a child in common with the driver, whether or not they reside in the same home with the driver; (b) the driver's brothers-in-law and sisters-in-law who reside in the same home with the driver; and (c) any individual who cohabits with the driver, and any children of such individual residing in the same home with the driver.

C. The holder of a provisional driver's license shall not operate a motor vehicle on the highways of the Commonwealth between the hours of midnight and 4:00 a.m. except when driving (i) to or from a place of business where he is employed; (ii) to or from an activity that is supervised by an adult and is sponsored by a school or by a civic, religious, or public organization; (iii) accompanied by a parent, a person acting in loco parentis, or by a spouse who is 18 years old or older, provided that such person accompanying the driver is actually occupying a seat beside the driver and is lawfully permitted to operate a motor vehicle at the time; or (iv) in cases of emergency, including response by volunteer firefighters and volunteer ~~rescue squad~~ *emergency medical services* personnel to emergency calls.

C1. Except in a driver emergency or when the vehicle is lawfully parked or stopped, the holder of a provisional driver's license shall not operate a motor vehicle on the highways of the Commonwealth while using any cellular telephone or any other wireless telecommunications device, regardless of whether such device is or is not hand-held.

D. The provisional driver's license restrictions in subsections B, C, and C1 shall expire on the holder's eighteenth birthday. A violation of the provisional driver's license restrictions in either subsection B, C, or C1 shall constitute a traffic infraction. For a second or subsequent violation of the provisional driver's license restrictions in either subsection B, C, or C1, in addition to any other penalties that may be imposed pursuant to § 16.1-278.10, the court may suspend the juvenile's privilege to drive for a period not to exceed six months.

E. A violation of subsection B, C, or C1 shall not constitute negligence, be considered in mitigation of damages of whatever nature, be admissible in evidence, or be the subject of comment by counsel in any action for the recovery of damages arising out of the operation, ownership, or maintenance of a motor vehicle, nor shall anything in this subsection change any existing law, rule, or procedure pertaining to any such civil action.

F. No citation for a violation of this section shall be issued unless the officer issuing such citation has cause to stop or arrest the driver of such motor vehicle for the violation of some other provision of this Code or local ordinance relating to the operation, ownership, or maintenance of a motor vehicle or any criminal statute.

#### **§ 46.2-502. Clinic fees.**

A. The Department and all businesses, organizations, governmental entities or individuals certified by the Department to provide driver improvement clinic instruction may charge a fee not to exceed \$100, which shall include the processing fee set forth in subsection B of this section, to persons notified by the Department to attend a driver improvement clinic. No

person shall be permitted to attend a driver improvement clinic unless the person first pays the required attendance fee to the business, organization, governmental entity or individual providing the driver improvement clinic instruction.

B. All businesses, organizations, governmental entities or individuals certified by the Department to provide driver improvement clinic instruction shall collect for the Department a processing fee of \$10 from each person attending a driver improvement clinic taught by such businesses, organizations, governmental entities or individuals. Such processing fee payments shall accompany the clinic rosters submitted to the Department by such businesses, organizations, governmental entities or individuals. No such processing fee, however, shall be required or collected from members of volunteer ~~rescue squads~~ *emergency medical services agencies* and volunteer fire departments who attend such clinics in order to successfully complete training for emergency vehicle operation. All fees collected by the Department under this subsection shall be paid by the Commissioner into the state treasury and shall be set aside as a special fund to be used to meet the expenses of the Department.

**§ 46.2-644.2. Department's records; fees; exemption.**

The Department shall maintain a record of any certificate of title it issued under this article. Fees to be paid to the Department for issuance of such certificates of title shall be the same as those imposed for the titling of motor vehicles pursuant to § 46.2-627.

Any all-terrain vehicle or off-road motorcycle purchased and used by a nonprofit volunteer ~~rescue squad~~ *emergency medical services agency* shall be exempt from fees imposed under this section.

**§ 46.2-649.1:1. Registration of vehicles owned and used by volunteer fire departments or volunteer emergency medical services agencies.**

Upon application therefor, the Commissioner shall register and issue permanent license plates without year or month decals for display on any (i) firefighting truck, trailer, and semitrailer on which firefighting apparatus is permanently attached when any such vehicle is owned or under exclusive control of a volunteer fire department or (ii) ~~ambulance or lifesaving or first aid crew or rescue squad~~ *emergency medical services vehicle* or other vehicle owned or used exclusively by a volunteer fire department or volunteer ~~lifesaving or first aid crew or rescue squad~~ *emergency medical services agency* if any such vehicle is used exclusively as an ~~ambulance or lifesaving and first aid~~ *emergency medical services vehicle* and is not rented, leased, or lent to any private individual, firm, or corporation, and no charge is made by the organization for the use of the vehicle. The equipment shall be painted a distinguishing color and conspicuously display in letters and figures not less than three inches in height the identity of the volunteer fire department; ~~lifesaving or first aid crew or rescue squad~~ *or volunteer emergency medical services agency* having control of its operation.

No fee shall be charged for any vehicle registration or license plate issuance under this section.

**§ 46.2-694. (Contingent expiration date) Fees for vehicles designed and used for transportation of passengers; weights used for computing fees; burden of proof.**

A. The annual registration fees for motor vehicles, trailers, and semitrailers designed and used for the transportation of passengers on the highways in the Commonwealth are:

1. Thirty-three dollars for each private passenger car or motor home if the passenger car or motor home weighs 4,000 pounds or less, provided that it is not used for the transportation of passengers for compensation and is not kept or used for rent or for hire, or is not operated under a lease without a chauffeur.

2. Thirty-eight dollars for each passenger car or motor home which weighs more than 4,000 pounds, provided that it is not used for the transportation of passengers for compensation and is not kept or used for rent or for hire, or is not operated under a lease without a chauffeur.

3. Thirty cents per 100 pounds or major fraction thereof for a private motor vehicle other than a motorcycle with a normal seating capacity of more than 10 adults, including the driver, if the private motor vehicle is not used for the transportation of passengers for compensation and is not kept or used for rent or for hire or is not operated under a lease without a chauffeur. In no case shall the fee be less than \$23 if the vehicle weighs 4,000 pounds or less or \$28 if the vehicle weighs more than 4,000 pounds.

4. Thirty cents per 100 pounds or major fraction thereof for a school bus. In no case shall the fee be less than \$23 if the vehicle weighs 4,000 pounds or less or \$28 if the vehicle weighs more than 4,000 pounds.

5. Twenty-three dollars for each trailer or semitrailer designed for use as living quarters for human beings.

6. Thirteen dollars plus \$0.30 per 100 pounds or major fraction thereof for each motor vehicle, trailer, or semitrailer used as a common carrier of passengers, operating either intrastate or interstate. Interstate common carriers of interstate passengers may elect to be licensed and pay the fees prescribed in subdivision 7 on submission to the Commissioner of a declaration of operations and equipment as he may prescribe. An additional \$5 shall be charged if the motor vehicle weighs more than 4,000 pounds.

7. Thirteen dollars plus \$0.70 per 100 pounds or major fraction thereof for each motor vehicle, trailer, or semitrailer used as a common carrier of interstate passengers if election is made to be licensed under this subsection. An additional \$5 shall be charged if the motor vehicle weighs more than 4,000 pounds. In lieu of the foregoing fee of \$0.70 per 100 pounds, a motor carrier of passengers, operating two or more vehicles both within and outside the Commonwealth and registered for insurance purposes with the Surface Transportation Board of the U.S. Department of Transportation, Federal Highway Administration, may apply to the Commissioner for prorated registration. Upon the filing of such application, in such form as the Commissioner may prescribe, the Commissioner shall apportion the registration fees provided in this subsection so that the total registration fees to be paid for such vehicles of such carrier shall be that proportion of the total fees, if there

were no apportionment, that the total number of miles traveled by such vehicles of such carrier within the Commonwealth bears to the total number of miles traveled by such vehicles within and outside the Commonwealth. Such total mileage in each instance is the estimated total mileage to be traveled by such vehicles during the license year for which such fees are paid, subject to the adjustment in accordance with an audit to be made by representatives of the Commissioner at the end of such license year, the expense of such audit to be borne by the carrier being audited. Each vehicle passing into or through Virginia shall be registered and licensed in Virginia and the annual registration fee to be paid for each such vehicle shall not be less than \$33. For the purpose of determining such apportioned registration fees, only those motor vehicles, trailers, or semitrailers operated both within and outside the Commonwealth shall be subject to inclusion in determining the apportionment provided for herein.

8. Thirteen dollars plus \$0.80 per 100 pounds or major fraction thereof for each motor vehicle, trailer or semitrailer kept or used for rent or for hire or operated under a lease without a chauffeur for the transportation of passengers. An additional fee of \$5 shall be charged if the vehicle weighs more than 4,000 pounds. This subsection does not apply to vehicles used as common carriers.

9. Twenty-three dollars for a taxicab or other vehicle which is kept for rent or hire operated with a chauffeur for the transportation of passengers, and which operates or should operate under permits issued by the Department as required by law. An additional fee of \$5 shall be charged if the vehicle weighs more than 4,000 pounds. This subsection does not apply to vehicles used as common carriers.

10. Eighteen dollars for a motorcycle, with or without a sidecar. To this fee shall be added a surcharge of \$3 which shall be distributed as provided in § 46.2-1191.

10a. Fourteen dollars for a moped, to be paid into the state treasury and set aside as a special fund to be used to meet the expenses of the Department.

10b. Eighteen dollars for an autocycle.

11. Twenty-three dollars for a bus used exclusively for transportation to and from church school, for the purpose of religious instruction, or church, for the purpose of divine worship. If the empty weight of the vehicle exceeds 4,000 pounds, the fee shall be \$28.

12. Thirteen dollars plus \$0.70 per 100 pounds or major fraction thereof for other passenger-carrying vehicles.

13. An additional fee of \$4.25 per year shall be charged and collected at the time of registration of each pickup or panel truck and each motor vehicle under subdivisions 1 through 12. All funds collected from \$4 of the \$4.25 fee shall be paid into the state treasury and shall be set aside as a special fund to be used only for emergency medical ~~service~~ services purposes. The moneys in the special emergency medical services fund shall be distributed as follows:

a. Two percent shall be distributed to the State Department of Health to provide funding to the Virginia Association of Volunteer Rescue Squads to be used solely for the purpose of conducting volunteer recruitment, retention, and training activities;

b. Thirty percent shall be distributed to the State Department of Health to support (i) emergency medical services training programs (excluding advanced life support classes); (ii) advanced life support training; (iii) recruitment and retention programs (all funds for such support shall be used to recruit and retain volunteer emergency medical services personnel only, including public awareness campaigns, technical assistance programs, and similar activities); (iv) emergency medical services system development, initiatives, and priorities based on needs identified by the State Emergency Medical Services Advisory Board; (v) local, regional, and statewide performance contracts for emergency medical services to meet the objectives stipulated in § 32.1-111.3; (vi) technology and radio communication enhancements; and (vii) improved emergency preparedness and response. Any funds set aside for distribution under this provision and remaining undistributed at the end of any fiscal year shall revert to the Rescue Squad Assistance Fund;

c. Thirty-two percent shall be distributed to the Rescue Squad Assistance Fund;

d. Ten percent shall be available to the State Department of Health's Office of Emergency Medical Services for use in emergency medical services; and

e. Twenty-six percent shall be returned by the Comptroller to the locality wherein such vehicle is registered, to provide funding for training of volunteer or salaried emergency medical ~~service~~ services personnel of ~~licensed~~, nonprofit emergency medical services agencies *that hold a valid license issued by the Commissioner of Health* and for the purchase of necessary equipment and supplies for use in such locality for ~~licensed, nonprofit~~ emergency medical ~~and rescue~~ services *provided by nonprofit emergency medical services agencies that hold a valid license issued by the Commissioner of Health*.

All revenues generated by the remaining \$0.25 of the \$4.25 fee approved by the 2008 Session of the General Assembly shall be deposited into the Rescue Squad Assistance Fund and used only to pay for the costs associated with the certification and recertification training of emergency medical services personnel.

The Comptroller shall clearly designate on the warrant, check, or other means of transmitting these funds that such moneys are only to be used for purposes set forth in this subdivision. Such funds shall be in addition to any local appropriations and local governing bodies shall not use these funds to supplant local funds. Each local governing body shall report annually to the Board of Health on the use of the funds returned to it pursuant to this section. In any case in which the local governing body grants the funds to a regional emergency medical services council to be distributed to the ~~licensed~~, nonprofit emergency medical ~~and rescue~~ services *agency that holds a valid license issued by the Commissioner of Health*, the local governing body shall remain responsible for the proper use of the funds. If, at the end of any fiscal year, a report on the use of the funds returned to the locality pursuant to this section for that year has not been received from a local

governing body, any funds due to that local governing body for the next fiscal year shall be retained until such time as the report has been submitted to the Board.

B. All motor vehicles, trailers, and semitrailers registered as provided in subsection B of § 46.2-646 shall pay a registration fee equal to one-twelfth of all fees required by subsection A of this section or § 46.2-697 for such motor vehicle, trailer, or semitrailer, computed to the nearest cent, multiplied by the number of months in the registration period for such motor vehicles, trailers, and semitrailers.

C. The manufacturer's shipping weight or scale weight shall be used for computing all fees required by this section to be based upon the weight of the vehicle.

D. The applicant for registration bears the burden of proof that the vehicle for which registration is sought is entitled by weight, design, and use to be registered at the fee tendered by the applicant to the Commissioner or to his authorized agent.

Notwithstanding the foregoing, for a member who (i) is a person who becomes a member on or after July 1, 2010, or (ii) does not have at least 60 months of creditable service as of January 1, 2013, the allowance shall equal the sum of (a) 1.65 percent of his average final compensation multiplied by the amount of his creditable service performed or purchased on or after January 1, 2013, and (b) 1.70 percent of his average final compensation multiplied by the amount of all other creditable service.

2. Early retirement; applicable to teachers, state employees, and certain others. - The allowance shall be determined in the same manner as for normal retirement with creditable service and average final compensation being determined as of the date of actual retirement. If the member has less than 30 years of service at retirement, the amount of the retirement allowance shall be reduced on an actuarial equivalent basis for the period by which the actual retirement date precedes the earlier of (i) his normal retirement date or (ii) the first date on which he would have completed a total of 30 years of creditable service. The provisions of this subdivision shall apply to teachers and state employees. These provisions shall also apply to employees of any political subdivision that participates in the retirement system if the political subdivision makes the election provided in subdivision 3.

3. If the creditable service of the member equals 30 or more years but the sum of his age at retirement plus his creditable service at retirement is less than 90, the amount of the retirement allowance shall be reduced on an actuarial equivalent basis for the period by which the actual retirement date precedes the earlier of (i) his normal retirement date or (ii) the first date on which the sum of his then attained age plus his then creditable service would have been equal to 90 or more had he remained in service until such date. If the member has less than 30 years of creditable service, the retirement allowance shall be reduced for the period by which the actual retirement date precedes the earlier of (i) his normal retirement date or (ii) the first date on which he would have completed a total of at least 30 years of creditable service and his then creditable service plus his then attained age would have been equal to 90 or more.

No such election shall be made for a person who becomes a member on or after July 1, 2010, or a member who does not have at least 60 months of creditable service as of January 1, 2013. Any election pursuant to this subdivision shall be set forth in a legally adopted resolution.

Notwithstanding the foregoing, a political subdivision by legally adopted resolution may declare to the Board that, for purposes of this subdivision, subdivisions B 1 and B 3 and subsection D of § 51.1-153, any person who *meets the definition of "emergency medical services personnel" in § 32.1-III.1* or is employed as a firefighter, ~~emergency medical technician,~~ or law-enforcement officer as those terms are defined in § 15.2-1512.2 (i) shall not be considered a person who becomes a member on or after July 1, 2010, and (ii) shall be deemed to have at least 60 months of creditable service as of January 1, 2013. Such resolution shall be irrevocable.

4. Additional allowance. - In addition to the allowance payable under subdivisions 1, 2, and 3, a member shall receive an additional allowance which shall be the actuarial equivalent, for his attained age at the time of retirement, of the excess of his accumulated contributions transferred from the abolished system to the retirement system, including interest credited at the rate of two percent compounded annually since the transfer to the date of retirement, over the annual amounts equal to four percent of his annual creditable compensation at the date of abolishment for a period equal to his period of membership in the abolished system.

5. 50/10 retirement. - The allowance shall be payable in a monthly stream of payments equal to the greater of (i) the actuarial equivalent of the benefit the member would have received had he terminated service and deferred retirement to age 55 or (ii) the actuarially calculated present value of the member's accumulated contributions, including accrued interest.

B. Beneficiary serving in position covered by this title.

2. Active members of the General Assembly who are eligible to receive a retirement allowance under this title, excluding their service as a member of the General Assembly, shall be eligible to receive a retirement allowance based on their creditable service and average final compensation for service other than as a member of the General Assembly. Such members of the General Assembly shall continue to be reported as any other members of the retirement system. Upon ceasing to serve in the General Assembly, members of the General Assembly receiving a retirement allowance based on their creditable service and average final compensation for service other than as a member of the General Assembly shall have their retirement allowance recomputed prospectively to include their service as a member of the General Assembly. Active members of the General Assembly shall be prohibited from receiving a service retirement allowance under this title based solely on their service as a member of the General Assembly.

3. (Expires July 1, 2015) Any person receiving a service retirement allowance under this chapter, who is hired as a local school board instructional or administrative employee required to be licensed by the Board of Education, may elect to continue to receive the retirement allowance during such employment, under the following conditions:

2. An employee participating in the hybrid retirement program may also make voluntary contributions to the defined contribution component of the program of up to four percent of creditable compensation or the limit on elective deferrals pursuant to § 457(b) of the Internal Revenue Code, whichever is less. 4. No loans or hardship distributions shall be available from contributions made by an employee under this subsection.

D. 1. The amount of the service retirement allowance under the defined benefit component of the program shall be governed by § 51.1-155 for all creditable service credited prior to the effective date of the member's participation in the program. When the employment prior to the injury extended over a period of less than 52 weeks, the method of dividing the earnings during that period by the number of weeks and parts thereof during which the employee earned wages shall be followed, provided that results fair and just to both parties will be thereby obtained. When, by reason of a shortness of time during which the employee has been in the employment of his employer or the casual nature or terms of his employment, it is impractical to compute the average weekly wages as above defined, regard shall be had to the average weekly amount which during the 52 weeks previous to the injury was being earned by a person of the same grade and character employed in the same class of employment in the same locality or community.

*An Act to amend and reenact §§ 18.2-271.1, 46.2-320.1, and 63.2-1952 of the Code of Virginia and to amend the Code of Virginia by adding a section numbered 63.2-1908.1, relating to child support; arrearage.*

[H 1783]

Approved March 23, 2015

**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 18.2-271.1, 46.2-320.1, and 63.2-1952 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding a section numbered 63.2-1908.1 as follows:**

**§ 18.2-271.1. Probation, education and rehabilitation of person charged or convicted; person convicted under law of another state.**

A. Any person convicted of a first or second offense of § 18.2-266, or any ordinance of a county, city, or town similar to the provisions thereof, or provisions of subsection A of § 46.2-341.24, shall be required by court order, as a condition of probation or otherwise, to enter into and successfully complete an alcohol safety action program in the judicial district in which such charge is brought or in any other judicial district upon such terms and conditions as the court may set forth. However, upon motion of a person convicted of any such offense following an assessment of the person conducted by an alcohol safety action program, the court, for good cause, may decline to order participation in such a program if the assessment by the alcohol safety action program indicates that intervention is not appropriate for such person. In no event shall such persons be permitted to enter any such program which is not certified as meeting minimum standards and criteria established by the Commission on the Virginia Alcohol Safety Action Program (VASAP) pursuant to this section and to § 18.2-271.2. However, any person charged with a violation of a first or second offense of § 18.2-266, or any ordinance of a county, city, or town similar to the provisions thereof, or provisions of subsection A of § 46.2-341.24, may, at any time prior to trial, enter into an alcohol safety action program in the judicial district in which such charge is brought or in any other judicial district. Any person who enters into such program prior to trial may pre-qualify with the program to have an ignition interlock system installed on any motor vehicle owned or operated by him. However, no ignition interlock company shall install an ignition interlock system on any such vehicle until a court issues to the person a restricted license with the ignition interlock restriction.

B. The court shall require the person entering such program under the provisions of this section to pay a fee of no less than \$250 but no more than \$300. A reasonable portion of such fee, as may be determined by the Commission on VASAP, but not to exceed 10 percent, shall be forwarded monthly to be deposited with the State Treasurer for expenditure by the Commission on VASAP, and the balance shall be held in a separate fund for local administration of driver alcohol rehabilitation programs. Upon a positive finding that the defendant is indigent, the court may reduce or waive the fee. In addition to the costs of the proceeding, fees as may reasonably be required of defendants referred for intervention under any such program may be charged.

C. Upon conviction of a violation of § 18.2-266 or any ordinance of a county, city or town similar to the provisions thereof, or subsection A of § 46.2-341.24, the court shall impose the sentence authorized by § 18.2-270 or 46.2-341.28 and the license revocation as authorized by § 18.2-271. In addition, if the conviction was for a second offense committed within less than 10 years after a first such offense, the court shall order that restoration of the person's license to drive be conditioned upon the installation of an ignition interlock system on each motor vehicle, as defined in § 46.2-100, owned by or registered to the person, in whole or in part, for a period of six months beginning at the end of the three year license revocation, unless such a system has already been installed for six months prior to that time pursuant to a restricted license order under subsection E of this section. Upon a finding that a person so convicted is required to participate in the program described herein, the court shall enter the conviction on the warrant, and shall note that the person so convicted has been referred to such program. The court may then proceed to issue an order in accordance with subsection E of this section, if

the court finds that the person so convicted is eligible for a restricted license. If the court finds good cause for a person not to participate in such program or subsequently that such person has violated, without good cause, any of the conditions set forth by the court in entering the program, the court shall dispose of the case as if no program had been entered, in which event the revocation provisions of § 46.2-389 and subsection A of § 46.2-391 shall be applicable to the conviction. The court shall, upon final disposition of the case, send a copy of its order to the Commissioner of the Department of Motor Vehicles. If such order provides for the issuance of a restricted license, the Commissioner of the Department of Motor Vehicles, upon receipt thereof, shall issue a restricted license. Appeals from any such disposition shall be allowed as provided by law. The time within which an appeal may be taken shall be calculated from the date of the final disposition of the case or any motion for rehearing, whichever is later.

D. Any person who has been convicted in another state of the violation of a law of such state substantially similar to the provisions of § 18.2-266 or subsection A of § 46.2-341.24, and whose privilege to operate a motor vehicle in this Commonwealth is subject to revocation under the provisions of § 46.2-389 and subsection A of § 46.2-391, may petition the general district court of the county or city in which he resides that he be given probation and assigned to a program as provided in subsection A of this section and that, upon entry into such program, he be issued an order in accordance with subsection E of this section. If the court finds that such person would have qualified therefor if he had been convicted in this Commonwealth of a violation of § 18.2-266 or subsection A of § 46.2-341.24, the court may grant the petition and may issue an order in accordance with subsection E of this section as to the period of license suspension or revocation imposed pursuant to § 46.2-389 or subsection A of § 46.2-391. Such order shall be conditioned upon the successful completion of a program by the petitioner. If the court subsequently finds that such person has violated any of the conditions set forth by the court, the court shall dispose of the case as if no program had been entered and shall notify the Commissioner, who shall revoke the person's license in accordance with the provisions of § 46.2-389 or subsection A of § 46.2-391. A copy of the order granting the petition or subsequently revoking or suspending such person's license to operate a motor vehicle shall be forthwith sent to the Commissioner of the Department of Motor Vehicles.

No period of license suspension or revocation shall be imposed pursuant to this subsection which, when considered together with any period of license suspension or revocation previously imposed for the same offense in any state, results in such person's license being suspended for a period in excess of the maximum periods specified in this subsection.

E. Except as otherwise provided herein, whenever a person enters a certified program pursuant to this section, and such person's license to operate a motor vehicle, engine or train in the Commonwealth has been suspended or revoked, the court may, in its discretion and for good cause shown, provide that such person be issued a restricted permit to operate a motor vehicle for any of the following purposes: (i) travel to and from his place of employment; (ii) travel to and from an alcohol rehabilitation or safety action program; (iii) travel during the hours of such person's employment if the operation of a motor vehicle is a necessary incident of such employment; (iv) travel to and from school if such person is a student, upon proper written verification to the court that such person is enrolled in a continuing program of education; (v) travel for health care services, including medically necessary transportation of an elderly parent or, as designated by the court, any person residing in the person's household with a serious medical problem upon written verification of need by a licensed health professional; (vi) travel necessary to transport a minor child under the care of such person to and from school, day care, and facilities housing medical service providers; (vii) travel to and from court-ordered visitation with a child of such person; (viii) travel to a screening, evaluation and education program entered pursuant to § 18.2-251 or subsection H of § 18.2-258.1; (ix) travel to and from court appearances in which he is a subpoenaed witness or a party and appointments with his probation officer and to and from any programs required by the court or as a condition of probation; (x) travel to and from a place of religious worship one day per week at a specified time and place; (xi) travel to and from appointments approved by the Division of Child Support Enforcement of the Department of Social Services as a requirement of participation in ~~a~~ *an administrative or* court-ordered intensive case monitoring program for child support for which the participant maintains written proof of the appointment, including written proof of the date and time of the appointment, on his person; (xii) travel to and from jail to serve a sentence when such person has been convicted and sentenced to confinement in jail and pursuant to § 53.1-131.1 the time to be served is on weekends or nonconsecutive days; or (xiii) travel to and from the facility that installed or monitors the ignition interlock in the person's vehicle. No restricted license issued pursuant to this subsection shall permit any person to operate a commercial motor vehicle as defined in the Virginia Commercial Driver's License Act (§ 46.2-341.1 et seq.). The court shall order the surrender of such person's license to operate a motor vehicle to be disposed of in accordance with the provisions of § 46.2-398 and shall forward to the Commissioner of the Department of Motor Vehicles a copy of its order entered pursuant to this subsection, which shall specifically enumerate the restrictions imposed and contain such information regarding the person to whom such a permit is issued as is reasonably necessary to identify such person. The court shall also provide a copy of its order to the person so convicted who may operate a motor vehicle on the order until receipt from the Commissioner of the Department of Motor Vehicles of a restricted license, if the order provides for a restricted license for that time period. A copy of such order and, after receipt thereof, the restricted license shall be carried at all times while operating a motor vehicle. Any person who operates a motor vehicle in violation of any restrictions imposed pursuant to this section shall be guilty of a violation of § 18.2-272. Such restricted license shall be conditioned upon enrollment within 15 days in, and successful completion of, a program as described in subsection A of this section. No restricted license shall be issued during the first four months of a revocation imposed pursuant to subsection B of § 18.2-271 or subsection A of § 46.2-391 for a second offense of the type described therein committed within 10 years of a first such offense. No restricted license shall be issued during the first year

of a revocation imposed pursuant to subsection B of § 18.2-271 or subsection A of § 46.2-391 for a second offense of the type described therein committed within five years of a first such offense. No restricted license shall be issued during any revocation period imposed pursuant to subsection C of § 18.2-271 or subsection B of § 46.2-391. Notwithstanding the provisions of § 46.2-411, the fee charged pursuant to § 46.2-411 for reinstatement of the driver's license of any person whose privilege or license has been suspended or revoked as a result of a violation of § 18.2-266, subsection A of § 46.2-341.24 or of any ordinance of a county, city or town, or of any federal law or the laws of any other state similar to the provisions of § 18.2-266 or subsection A of § 46.2-341.24 shall be \$105. Forty dollars of such reinstatement fee shall be retained by the Department of Motor Vehicles as provided in § 46.2-411, \$40 shall be transferred to the Commission on VASAP, and \$25 shall be transferred to the Commonwealth Neurotrauma Initiative Trust Fund.

F. The court shall have jurisdiction over any person entering such program under any provision of this section until such time as the case has been disposed of by either successful completion of the program, or revocation due to ineligibility or violation of a condition or conditions imposed by the court, whichever shall first occur. Revocation proceedings shall be commenced by notice to show cause why the court should not revoke the privilege afforded by this section. Such notice shall be made by first-class mail to the last known address of such person, and shall direct such person to appear before the court in response thereto on a date contained in such notice, which shall not be less than 10 days from the date of mailing of the notice. Failure to appear in response to such notice shall of itself be grounds for revocation of such privilege. Notice of revocation under this subsection shall be sent forthwith to the Commissioner of the Department of Motor Vehicles.

G. For the purposes of this section, any court which has convicted a person of a violation of § 18.2-266, subsection A of § 46.2-341.24 or any ordinance of a county, city or town similar to the provisions of § 18.2-266 shall have continuing jurisdiction over such person during any period of license revocation related to that conviction, for the limited purposes of (i) referring such person to a certified alcohol safety action program, (ii) providing for a restricted permit for such person in accordance with the provisions of subsection E, and (iii) imposing terms, conditions and limitations for actions taken pursuant to clauses (i) and (ii), whether or not it took either such action at the time of the conviction. This continuing jurisdiction is subject to the limitations of subsection E that provide that no restricted license shall be issued during a revocation imposed pursuant to subsection C of § 18.2-271 or subsection B of § 46.2-391 or during the first four months or first year, whichever is applicable, of the revocation imposed pursuant to subsection B of § 18.2-271 or subsection A of § 46.2-391. The provisions of this subsection shall apply to a person convicted of a violation of § 18.2-266, subsection A of § 46.2-341.24 or any ordinance of a county, city or town similar to the provisions of § 18.2-266 on, after and at any time prior to July 1, 2003.

H. The State Treasurer, the Commission on VASAP or any city or county is authorized to accept any gifts or bequests of money or property, and any grant, loan, service, payment or property from any source, including the federal government, for the purpose of driver alcohol education. Any such gifts, bequests, grants, loans or payments shall be deposited in the separate fund provided in subsection B.

I. The Commission on VASAP, or any county, city, town, or any combination thereof may establish and, if established, shall operate, in accordance with the standards and criteria required by this subsection, alcohol safety action programs in connection with highway safety. Each such program shall operate under the direction of a local independent policy board chosen in accordance with procedures approved and promulgated by the Commission on VASAP. Local sitting or retired district court judges who regularly hear or heard cases involving driving under the influence and are familiar with their local alcohol safety action programs may serve on such boards. The Commission on VASAP shall establish minimum standards and criteria for the implementation and operation of such programs and shall establish procedures to certify all such programs to ensure that they meet the minimum standards and criteria stipulated by the Commission. The Commission shall also establish criteria for the administration of such programs for public information activities, for accounting procedures, for the auditing requirements of such programs and for the allocation of funds. Funds paid to the Commonwealth hereunder shall be utilized in the discretion of the Commission on VASAP to offset the costs of state programs and local programs run in conjunction with any county, city or town and costs incurred by the Commission. The Commission shall submit an annual report as to actions taken at the close of each calendar year to the Governor and the General Assembly.

J. Notwithstanding any other provisions of this section or of § 18.2-271, nothing in this section shall permit the court to suspend, reduce, limit, or otherwise modify any disqualification from operating a commercial motor vehicle imposed under the provisions of the Virginia Commercial Driver's License Act (§ 46.2-341.1 et seq.).

**§ 46.2-320.1. Other grounds for suspension; nonpayment of child support.**

A. The Commissioner may enter into an agreement with the Department of Social Services whereby the Department may suspend or refuse to renew the driver's license of any person upon receipt of notice from the Department of Social Services that the person (i) is delinquent in the payment of child support by 90 days or more or in an amount of \$5,000 or more or (ii) has failed to comply with a subpoena, summons, or warrant relating to paternity or child support proceedings. A suspension or refusal to renew authorized pursuant to this section shall not be effective until 30 days after service on the delinquent obligor of notice of intent to suspend or refusal to renew. The notice of intent shall be served on the obligor by the Department of Social Services (a) by certified mail, return receipt requested, sent to the obligor's last known addresses as shown in the records of the Department or the Department of Social Services; or (b) pursuant to § 8.01-296, or service may be waived by the obligor in accordance with procedures established by the Department of Social Services. The obligor shall be entitled to a judicial hearing if a request for a hearing is made, in writing, to the Department of Social Services within 10 days from service of the notice of intent. Upon receipt of the request for a hearing, the Department of Social

Services shall petition the court that entered or is enforcing the order, requesting a hearing on the proposed suspension or refusal to renew. The court shall authorize the suspension or refusal to renew only if it finds that the obligor's noncompliance with the child support order was willful. Upon a showing by the Department of Social Services that the obligor is delinquent in the payment of child support by 90 days or more or in an amount of \$5,000 or more, the burden of proving that the delinquency was not willful shall rest upon the obligor. The Department shall not suspend or refuse to renew the driver's license until a final determination is made by the court.

B. At any time after service of a notice of intent, the person may petition the juvenile and domestic relations district court in the jurisdiction where he resides for the issuance of a restricted license to be used if the suspension or refusal to renew becomes effective. Upon such petition and a finding of good cause, the court may provide that such person be issued a restricted permit to operate a motor vehicle for any of the purposes set forth in subsection E of § 18.2-271.1. A restricted license issued pursuant to this subsection shall not permit any person to operate a commercial motor vehicle as defined in § 46.2-341.4. The court shall order the surrender of the person's license to operate a motor vehicle, to be disposed of in accordance with the provisions of § 46.2-398, and shall forward to the Commissioner a copy of its order entered pursuant to this subsection. The order shall specifically enumerate the restrictions imposed and contain such information regarding the person to whom such a permit is issued as is reasonably necessary to identify him.

C. The Department shall not renew a driver's license or terminate a license suspension imposed pursuant to this section until it has received from the Department of Social Services a certification that the person has (i) paid the delinquency in full; (ii) reached an agreement with the Department of Social Services to satisfy the delinquency within a period not to exceed 10 years, and at least one payment representing at least five percent of the total delinquency or \$600, whichever is greater, has been made pursuant to the agreement; (iii) complied with a subpoena, summons, or warrant relating to a paternity or child support proceeding; or (iv) completed or is successfully participating in an intensive case monitoring program for child support *as ordered by a juvenile and domestic relations district court for noncustodial parents, as determined by the court or as administered by the Department of Social Services.* Certification by the Department of Social Services shall be made by electronic or telephonic communication and shall be made on the same work day that payment required by clause (i) or (ii) is made.

D. If a person who has entered into an agreement with the Department of Social Services pursuant to clause (ii) of subsection C fails to comply with the requirements of the agreement, the Department of Social Services shall notify the Department of the person's noncompliance and the Department shall suspend or refuse to renew the driver's license of the person until it has received from the Department of Social Services a certification that the person has paid the delinquency in full or has entered into a subsequent agreement with the Department of Social Services to satisfy the delinquency within a period not to exceed seven years and has made at least one payment of \$1,200 or five percent of the total delinquency, whichever is greater, pursuant to the agreement. If the person fails to comply with the terms of a subsequent agreement reached with the Department of Social Services pursuant to this section, without further notice to the person as provided in the subsequent agreement, the Department of Social Services shall notify the Department of the person's noncompliance, and the Department shall suspend or refuse to renew the driver's license of the person. A person who has failed to comply with the terms of a second or subsequent agreement pursuant to this subsection may be granted a new agreement with the Department of Social Services if the person has made at least one payment of \$1,800 or five percent of the total delinquency, whichever is greater, and agrees to a repayment schedule of not more than seven years. Upon receipt of certification from the Department of Social Services of the person's satisfaction of these conditions, the Department shall issue a driver's license to the person or reinstate the person's driver's license. Certification by the Department of Social Services shall be made by electronic or telephonic communication and shall be made on the same work day that payment required by this subsection is made.

**§ 63.2-1908.1. Arrears compromise program.**

*The Department may establish and operate an arrears compromise program pursuant to which it may compromise child support arrears and interest accrued thereon owed to the Commonwealth for reimbursement of public assistance paid. The program shall take into consideration the obligor's ability to pay.*

**§ 63.2-1952. Interest on debts due.**

Interest at the judgment interest rate as established by § 6.2-302 on any arrearage pursuant to an order being enforced by the Department pursuant to this chapter shall be collected by the Commissioner except in the case of a minor obligor during the period of his minority. The Commissioner shall maintain interest balance due accounts. *In accordance with § 63.2-1908.1, the Commissioner may compromise interest on debt owed to the Commonwealth for reimbursement of public assistance paid.*

## CHAPTER 508

*An Act to amend and reenact §§ 51.1-142.2 and 51.1-142.3 of the Code of Virginia, relating to the Virginia Retirement System; prior service or membership credit.*

[H 1890]

Approved March 23, 2015

**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 51.1-142.2 and 51.1-142.3 of the Code of Virginia are amended and reenacted as follows:**

**§ 51.1-142.2. Prior service or membership credit for certain members; service credit for accumulated sick leave.**

Certain members may purchase credit for service as provided in this section.

A. ~~Except as provided in subdivisions 1 and 2, in order to receive credit for the service made available in subsection B,~~ a member in service shall be required to make a payment for each year, or portion thereof, to be credited at the time of purchase, equal to five percent of his creditable compensation or five percent of his average final compensation, whichever is greater, unless the member in service is purchasing the service made available in subsection B through a pre-tax or post-tax deduction; in which case the cost to purchase each year, or portion thereof, of such service shall be five percent of his creditable compensation.

1. A person who becomes a member on or after July 1, 2010, or a member who does not have at least 60 months of creditable service as of January 1, 2013, shall pay an amount equal to a rate approximating the normal cost for the retirement program under which the member is covered, with such rate for each retirement program to be determined by the Board, and reviewed by the Board no less than every six years. However, if the member does not purchase, or enter into a purchase of service contract for the service made available in subsection B within one year from his first date of hire or within one year of the final day of any leave of absence under subdivision B 2, as applicable; then, for each year or portion thereof to be credited at the time of purchase, the member shall pay an amount equal to the actuarial equivalent cost.

2. If a member other than a member described in subdivision 1 does not purchase, or enter into a purchase of service contract for, the service made available in subsection B within three years from his first date of hire or within three years of the final day of any leave of absence under subdivision B 2, as applicable; then, for each year or portion thereof to be credited at the time of purchase, the member shall pay an amount equal to the actuarial equivalent cost.

3. When a member requests credit for a portion of the period, the most recent portion shall be credited. Payment may be made in a lump sum at the time of purchase or by an additional payroll deduction. Any number of additional deductions may be permitted at any time. Should any additional deduction be terminated prior to purchasing the entire period that might otherwise be credited, the member shall be credited with the number of additional full or partial months of service for which full payment is made. If any additional deduction is continued beyond the point at which the entire period has been purchased, the member shall be credited with no more than the entire period that might otherwise have been credited and the excess amount deducted shall be refunded to the member.

Any employer may elect to pay an equivalent amount in lieu of all member contributions required of its employees for the purpose of service credit pursuant to this section. These contributions shall not be considered wages for purposes of Chapter 7 (§ 51.1-700 et seq.); nor shall they be considered to be salary for purposes of this chapter.

B. 1. Any member in service may purchase prior service credit ~~for from the following categories of service or leave:~~ (i) active duty military service in the armed forces of the United States, provided that the discharge from a period of active duty status with the armed forces was not dishonorable; (ii) creditable leave of absence for educational purposes that was previously approved by the member's employer; (iii) leave of absence for a serious health condition of the member or of an immediate family member, all as defined in the Family and Medical Leave Act of 1993, 29 U.S.C. § 2601 et seq., as amended, and previously certified by the member's employer; (iv) up to one year of service credit per occurrence of leave for any unpaid leave of absence due to the birth, adoption, or death of a qualified child, as defined in § 51.1-500; (v) service as a full-time employee of another state ~~or of, a public school system of another state, or a political subdivision or public school system of this the Commonwealth or another state, as certified by such state, public school system, or political subdivision or public school system~~ (iii) creditable; (v) full-time service of a political subdivision of this state not credited to the member under an agreement as provided for in § 51.1-143.1, as certified by such political subdivision; ~~(iv)~~ (vi) civilian service of the United States; ~~(v)~~ creditable (vii) full-time service at a private institution of higher education if the private institution is merged with a public institution of higher education and graduates of the private institution are then issued new degrees from the public institution; or ~~(vi)~~ (viii) any period of time when the member was employed part time or in a wage position by a participating employer and not otherwise eligible to participate in the retirement system because the member was not an employee as defined in § 51.1-124.3. However, no member in service shall be allowed to purchase more than a total of four years of service credit pursuant to this subdivision.

2. In addition to the service credit that may be purchased under subdivision 1, any member in service may purchase up to four years of service credit for prior active duty military service in the armed forces of the United States, provided that the discharge from a period of active duty status with the armed forces was not dishonorable.

3. *The service credit to be credited to a member under this subsection shall be calculated at the ratio of one year, or portion thereof, of service credit to one year, or portion thereof, of service purchased, except for employment service purchased under clause (viii) of subdivision 1, which shall be calculated at the ratio of one month of service credit for each 173 hours of service as certified by the employer.*

*For each year or portion thereof to be credited at the time of purchase under this subsection, the member shall pay the approximate normal cost of the retirement plan under which the member is covered at the time of such purchase, as determined by the Board in its sole discretion. If the member does not purchase, or enter into a purchase of service credit contract for, the service made available in this subsection within the first 24 months of the member's active service following his first date of hire or the final day of any applicable leave of absence, as applicable, then, for each year or portion thereof to be credited at the time of purchase, the member shall pay the actuarial equivalent cost. To the extent the member becomes inactive during the 24 months following his first date of hire or the final day of any applicable leave of absence, such periods shall not be included in the 24 months of active service.*

*Except as otherwise required by Chapter 1223 of Title 10 of the United States Code, as amended, no service credit may be purchased under this section if it is included in the calculation of any retirement allowance received or to be received by the member from this or another retirement system, or if there is a balance in a defined contribution account that serves as a primary retirement account related to such service.*

For purposes of this ~~subsection~~ section, "active duty military service" means full-time service of at least 180 consecutive days in the United States Army, Navy, Air Force, Marines, Coast Guard, or reserve components thereof.

~~2. Any member (i) granted a leave of absence for educational purposes may purchase service credit for such leave of absence, or (ii) granted any unpaid leave of absence due to the birth or adoption of a child may purchase up to one year of service credit per occurrence of leave.~~

~~C. B. Any member in service may purchase all prior service credit for creditable service lost from ceasing to be a member under this chapter, as provided in § 51.1-128, because of the withdrawal of his accumulated contributions. Notwithstanding any other provision in this section, the cost to purchase such service shall be five percent of his creditable compensation or five percent of his average final compensation, whichever is greater, unless the member in service is purchasing such service through a pre-tax or post-tax deduction, in which case the cost to purchase each year, or portion thereof, of such service shall be five percent of his creditable compensation; provided, however, that the applicable cost for a person enrolled in the hybrid retirement program described in § 51.1-169 shall be four percent. If the member purchases or enters into a contract to purchase such service within three years of the date he became eligible to purchase the service, then the service may be purchased in a lump sum at the time of purchase or through an additional payroll deduction. Any purchase of such service made at a time later than such period shall be made in a lump sum at the time of purchase. For each year or portion thereof to be credited at the time of purchase under this subsection, the member shall pay the withdrawn amount to be purchased plus interest accrued daily and compounded annually from the date of withdrawal to the date of payment at the assumed rate of return established by the Board for the actuarial valuation of the retirement system that is in effect at the time of the purchase. The Board shall develop guidelines and procedures for administering this subsection.~~

~~D. C. Any member in service may purchase service credit for accumulated sick leave on his effective date of retirement based upon such sums as the employer may provide as payment for any unused sick leave balances. The cost of service credit purchased under this subsection shall be the actuarial equivalent cost of such service.~~

~~E. D. Any member receiving benefits under the Virginia Workers' Compensation Act (§ 65.2-100 et seq.) may, in a manner prescribed by the Board and prior to the effective date of retirement, purchase service credit for service that is not reported to the retirement system by the member's employer while the member is receiving such benefits. Notwithstanding any other provision in this section, the cost to purchase such service shall be five percent of the member's creditable compensation.~~

*For each year or portion thereof to be credited at the time of purchase under this subsection, the member shall pay the approximate normal cost of the retirement plan under which the member is covered, as determined by the Board in its sole discretion. If the member does not purchase, or enter into a purchase of service credit contract for, any service made available in this subsection within the first 24 months of the member's active service following his first date of hire or the final day of any applicable leave of absence, then, for each year or portion thereof to be credited at the time of purchase, the member shall pay the actuarial equivalent cost. To the extent the member becomes inactive during the 24 months following his first date of hire or the final day of any applicable leave of absence, such periods shall not be included in the 24 months of active service.*

*E. Payment may be made in a lump sum at the time of purchase or by payroll deduction. Any number of additional deductions may be permitted at any time. Should any deduction be terminated before the member purchases the entire period contracted for, the member shall be credited with the number of full or partial months of service for which full payment has been made. If any deduction is continued after the entire period has been purchased, the member shall be credited with no more than the amount of service for which he was eligible and for which he paid, and the excess amount deducted shall be refunded to the member.*

*F. Any employer may elect to pay an equivalent amount in lieu of all member contributions required of its employees for the purchase of service credit pursuant to this section. These contributions shall not be considered wages for purposes of Chapter 7 (§ 51.1-700 et seq.), nor shall they be considered salary for purposes of this chapter.*

F. G. In any case where member and employer contributions, as required under this chapter, were not made because of an error in the payroll, personnel, or other classification system of an employer participating in the retirement system, service that has not been credited because of such error may be purchased on the following basis:

1. The most recent three years of service *credit* shall be purchased, using applicable member and employer contribution rates and creditable compensation in effect for such period, in a manner and *at the cost* prescribed by the Board; and

2. All other years of service *credit shall be purchased by the employer shall purchase* at an actuarial equivalent cost.

G. ~~The service credit to be credited to a member under this section shall be calculated at the ratio of one year, or portion thereof, of service credit to one year, or portion thereof, of service purchased, except for part-time service purchased under clause (vi) of subdivision B 1 which shall be calculated at the ratio of one month of service credit for each 173 hours of service as certified by the employer and as purchased by the member. Up to a maximum of four years of service credit may be purchased for each of clauses (i) through (vi) of subdivision B 1 and clauses (i) and (ii) of subdivision B 2. In addition, a member in service may purchase service credit for every year or portion thereof for service lost from cessation of membership as described in subsection C.~~

~~Except as otherwise required by Chapter 1223 of Title 10 of the United States Code, the service credit made available under this section may not be purchased if, before being purchased or at the time of such purchase pursuant to this section, the service to be purchased is service that is included in the calculation of any retirement allowance received or to be received by the member from this or another retirement system.~~

H. Any member may receive credit at no cost for service rendered in the armed forces of the United States provided (i) the member was on leave of absence from a covered position, (ii) the discharge from a period of active duty with the armed forces was not dishonorable, (iii) the member has not withdrawn his accumulated contributions, (iv) the member is not disabled or killed while on leave without pay while performing active duty military service in the armed forces of the United States, and (v) the member reenters service in a covered position within one year after discharge from the armed forces. In order to receive such service, the member must complete such forms and other requirements as are required by the Board and the retirement system.

**§ 51.1-142.3. Purchase of additional prior service credit by certain school division superintendents.**

A. In addition to the four years of prior service credit that may be purchased under clause ~~(ii)~~ (iv) of subdivision B A 1 of § 51.1-142.2, a school division superintendent appointed by a school board pursuant to § 22.1-60, with at least five years of creditable service in the Retirement System, may purchase up to a maximum of 10 additional years of prior service credit for creditable service of another state or of a political subdivision, or public school system of this or another state, as certified by such state, political subdivision, or public school system. Except as otherwise required by Chapter 1223 of Title 10 of the United States Code, the service credit made available under this section may not be purchased if, before being purchased or at the time of such purchase pursuant to this section, the service to be purchased is service that is included in the calculation of any retirement allowance received or to be received by the member from this or any other retirement system.

The school board that has appointed such school division superintendent may purchase such prior service credit on behalf of the school division superintendent.

B. The cost at the time of purchase for each additional year of service credit (or portion thereof) pursuant to this section, shall be 10 percent of the school division superintendent's creditable compensation or 10 percent of the school division superintendent's average final compensation, whichever is greater, provided that the service credit to be purchased is paid for in one lump-sum payment within one year after the school division superintendent first became eligible to purchase such service credit or by July 1, 2004, whichever is later.

A school division superintendent shall first become eligible to purchase prior service credit under this section as follows:

1. For members in service on June 30, 2003, and July 1, 2003, upon attaining five years of creditable service as a school division superintendent in the Retirement System;
2. For members in service on June 30, 2003, and July 1, 2003, who become a school division superintendent on or after July 1, 2003, upon attaining five years of creditable service as a school division superintendent in the Retirement System; and
3. For members not in service on June 30, 2003, upon the member earning five years of creditable service as a school division superintendent in the Retirement System for service performed after June 30, 2003.

C. In any case in which prior service credit pursuant to this section has been purchased by or on behalf of a school division superintendent, if the school division superintendent, subsequent to the date of such purchase, does not remain in such position with the local school board for at least the number of years purchased: (i) the Retirement System shall reduce the creditable service credited to the school division superintendent by an amount equivalent to the number of years of prior service purchased less the number of years served by the person as a school division superintendent with the local school board subsequent to the date of such purchase. Such reduction in creditable service shall be deemed to be forfeited by the school division superintendent for purposes of this chapter and the contributions representing that forfeited service shall be refunded to the school division superintendent; and (ii) the school division superintendent shall be liable to the local school board for the amount paid by the local school board for purchasing the forfeited prior service credit.

D. If a school division superintendent does not purchase the prior service credit described in subsection A within the timeframe provided in subsection B, such prior service credit may be purchased at the actuarial equivalent cost, provided that in no case shall any person purchase more than 10 years of such prior service credit under this section.

2. That the provisions of this act shall become effective on January 1, 2017.

### CHAPTER 509

*An Act to amend and reenact §§ 63.2-503 and 63.2-514 of the Code of Virginia, relating to public assistance; determining eligibility.*

[H 1918]

Approved March 23, 2015

**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 63.2-503 and 63.2-514 of the Code of Virginia are amended and reenacted as follows:**

**§ 63.2-503. Procedure upon receipt of application.**

A. Upon receipt of the application for public assistance, the local director shall make or cause to be made promptly ~~such an investigation as he deems necessary~~ to determine the completeness and correctness of the statements contained in the application and to ascertain the facts supporting the application and such other information as the local board or the Commissioner may require; ~~to determine whether an applicant is eligible for public assistance and shall submit recommendations in writing to the local board.~~

B. *In conducting the investigation required by subsection A, and only when consistent with federal law and regulations, the local director shall verify each applicant's identity, income, assets, and any other information necessary for the purpose of determining eligibility for public assistance, eliminating the duplication of assistance, and deterring fraud.*

C. *In cases in which information obtained as a result of the investigation required by subsection A is inconsistent with information provided by the applicant at the time of application or otherwise suggests that the applicant may not be eligible for public assistance, the local director shall notify the applicant in writing and provide opportunity for the applicant to explain the discrepancy. If the applicant fails to respond within 10 days of the date of such notice, the local director shall deny the application for public assistance. If the applicant responds within 10 days of such notice, upon receipt of such response, the local director shall conduct such further investigation as may be necessary to verify the applicant's response and resolve the discrepancy or other issue arising from comparing the information provided by the applicant with information obtained as a result of the investigation required by subsection A. If the local director determines that the information obtained as a result of the investigation required by subsection A is accurate, and that as a result the applicant is ineligible for public assistance, the local director shall so notify the applicant and public assistance shall be denied. In any case in which the local director believes that the applicant has obtained or attempted to obtain public assistance by means of willful false statements or representations, impersonation, or other fraudulent devices, the local director shall initiate a fraud investigation pursuant to § 63.2-526.*

D. *The Department shall establish a means to obtain and provide the data necessary for the local departments to conduct the search required by subsection B in an automated electronic format. In doing so, the Department may use a third-party contractor. The local department shall immediately take action upon obtaining information indicating a change in a recipient's circumstances that could warrant reconsideration, cancellation, or changes in the amount of public assistance paid to the recipient in accordance with the provisions of § 63.2-514.*

E. *The Department shall report to the General Assembly no later than December 1 of each year the following:*

1. *Which specific types or sources of information local directors used, either directly or through a third-party contractor, during the past year for the purpose of verifying applicants' identity, income, assets, and other information pursuant to subsection B; and*

2. *Any types or sources of information that the Department plans to make available to local directors to use in the future to verify applicants' identity, income, assets, and other information and the approximate date on which the local directors plan to begin using those types or sources of information.*

F. *The Department shall include in its report required pursuant to subsection F the number of applications for public assistance received in accordance with this section, the number of cases in which eligibility for public assistance was approved or denied, and the number of cases referred for investigation and the reasons in each case.*

G. *The Board may by regulation authorize the local directors to provide immediate and temporary assistance to persons pending action of the local boards.*

H. *In the event that any provision of this section conflicts with federal law or regulations, provisions of federal law shall prevail.*

**§ 63.2-514. Reconsideration or changes in amount of public assistance; cancellation.**

~~At~~ A. *Eligibility for public assistance grants shall be reconsidered in accordance with federal law or regulations by the local board as frequently as may be required by Board regulations local department at least annually or upon receipt of information indicating a change in the recipient's circumstances that may affect the amount of assistance paid to a recipient or the recipient's eligibility for assistance and at such other times as the local board may deem necessary. As part of such reconsideration, the local department shall conduct an investigation to determine whether a recipient is eligible for renewal of public assistance. Such investigation shall include a review of information described in subsection B of § 63.2-503 for each applicant. After such investigation as the local board deems necessary, or the Board requires, the amount of public*

assistance may be changed; or public assistance may be entirely withdrawn, if the local ~~board~~ department finds that the recipient's circumstances have altered sufficiently to warrant such action.

B. In cases in which information obtained as a result of the investigation required by subsection A is inconsistent with information provided by the applicant, the local department shall notify the applicant in writing and provide opportunity for the applicant to explain the discrepancy. If the applicant fails to respond within 10 days of the date of such notice, the local department shall refuse to renew the applicant's eligibility for public assistance. If the applicant responds within 10 days of such notice, upon receipt of such response, the local department shall conduct such further investigation as may be necessary to verify the applicant's response and resolve the discrepancy between information provided by the applicant and information obtained as a result of the investigation required by subsection A. If the local department determines that the information obtained as a result of the investigation required by subsection A is accurate and that as a result the applicant is ineligible for public assistance, the local director of social services shall so notify the applicant and public assistance shall be denied. In any case in which the local department believes that the applicant has obtained or attempted to obtain public assistance by means of willful false statements or representations, impersonation, or other fraudulent devices, the local director shall initiate a fraud investigation pursuant to § 63.2-526.

C. If the local ~~board~~ director does not act within ~~thirty~~ 30 days of the receipt of information affecting the amount of assistance or the eligibility therefor as to any recipient, or if the circumstances require immediate action, the ~~local director~~ Commissioner may make necessary adjustments in the amount of public assistance or suspend further assistance to any such individual pending action by the local ~~board~~ department.

## CHAPTER 510

An Act to amend and reenact § 20-108.2 of the Code of Virginia, relating to child support; health insurance premiums.

[H 1951]

Approved March 23, 2015

**Be it enacted by the General Assembly of Virginia:**

**1. That § 20-108.2 of the Code of Virginia is amended and reenacted as follows:**

**§ 20-108.2. Guideline for determination of child support; quadrennial review by Child Support Guidelines Review Panel; executive summary.**

A. There shall be a rebuttable presumption in any judicial or administrative proceeding for child support under this title or Title 16.1 or 63.2, including cases involving split custody or shared custody, that the amount of the award which would result from the application of the guidelines set forth in this section is the correct amount of child support to be awarded. In order to rebut the presumption, the court shall make written findings in the order as set out in § 20-108.1, which findings may be incorporated by reference, that the application of the guidelines would be unjust or inappropriate in a particular case as determined by relevant evidence pertaining to the factors set out in § 20-108.1. The Department of Social Services shall set child support at the amount resulting from computations using the guidelines set out in this section pursuant to the authority granted to it in Chapter 19 (§ 63.2-1900 et seq.) of Title 63.2 and subject to the provisions of § 63.2-1918.

B. For purposes of application of the guideline, a basic child support obligation shall be computed using the schedule set out below. For combined monthly gross income amounts falling between amounts shown in the schedule, basic child support obligation amounts shall be extrapolated. However, unless one of the following exemptions applies where the sole custody child support obligation as computed pursuant to subdivision G 1 is less than the statutory minimum per month, there shall be a presumptive minimum child support obligation of the statutory minimum per month payable by the payor parent. If the gross income of the obligor is equal to or less than 150 percent of the federal poverty level promulgated by the U.S. Department of Health and Human Services from time to time, then the court, upon hearing evidence that there is no ability to pay the presumptive statutory minimum, may set an obligation below the presumptive statutory minimum provided doing so does not create or reduce a support obligation to an amount which seriously impairs the custodial parent's ability to maintain minimal adequate housing and provide other basic necessities for the child. Exemptions from this presumptive minimum monthly child support obligation shall include: parents unable to pay child support because they lack sufficient assets from which to pay child support and who, in addition, are institutionalized in a psychiatric facility; are imprisoned for life with no chance of parole; are medically verified to be totally and permanently disabled with no evidence of potential for paying child support, including recipients of Supplemental Security Income (SSI); or are otherwise involuntarily unable to produce income. "Number of children" means the number of children for whom the parents share joint legal responsibility and for whom support is being sought.

C. For purposes of this section, "gross income" means all income from all sources, and shall include, but not be limited to, income from salaries, wages, commissions, royalties, bonuses, dividends, severance pay, pensions, interest, trust income,

annuities, capital gains, social security benefits except as listed below, workers' compensation benefits, unemployment insurance benefits, disability insurance benefits, veterans' benefits, spousal support, rental income, gifts, prizes or awards.

If a parent's gross income includes disability insurance benefits, it shall also include any amounts paid to or for the child who is the subject of the order and derived by the child from the parent's entitlement to disability insurance benefits. To the extent that such derivative benefits are included in a parent's gross income, that parent shall be entitled to a credit against his or her ongoing basic child support obligation for any such amounts, and, if the amount of the credit exceeds the parent's basic child support obligations, the credit may be used to reduce arrearages.

Gross income shall be subject to deduction of reasonable business expenses for persons with income from self-employment, a partnership, or a closely held business. "Gross income" shall not include:

1. Benefits from public assistance and social services programs as defined in § 63.2-100;
2. Federal supplemental security income benefits;
3. Child support received; or

4. Income received by the payor from secondary employment income not previously included in "gross income," where the payor obtained the income to discharge a child support arrearage established by a court or administrative order and the payor is paying the arrearage pursuant to the order. "Secondary employment income" includes but is not limited to income from an additional job, from self-employment, or from overtime employment. The cessation of such secondary income upon the payment of the arrearage shall not be the basis for a material change in circumstances upon which a modification of child support may be based.

For purposes of this subsection: (i) spousal support received shall be included in gross income and spousal support paid shall be deducted from gross income when paid pursuant to an order or written agreement and (ii) one-half of any self-employment tax paid shall be deducted from gross income.

Where there is an existing court or administrative order or written agreement relating to the child or children of a party to the proceeding, who are not the child or children who are the subject of the present proceeding, then there is a presumption that there shall be deducted from the gross income of the party subject to such order or written agreement, the amount that the party is actually paying for the support of a child or children pursuant to such order or agreement.

Where a party to the proceeding has a natural or adopted child or children in the party's household or primary physical custody, and the child or children are not the subject of the present proceeding, there is a presumption that there shall be deducted from the gross income of that party the amount as shown on the Schedule of Monthly Basic Child Support Obligations contained in subsection B that represents that party's support obligation based solely on that party's income as being the total income available for the natural or adopted child or children in the party's household or primary physical custody, who are not the subject of the present proceeding. Provided, however, that the existence of a party's financial responsibility for such a child or children shall not of itself constitute a material change in circumstances for modifying a previous order of child support in any modification proceeding. Any adjustment to gross income under this subsection shall not create or reduce a support obligation to an amount which seriously impairs the custodial parent's ability to maintain minimal adequate housing and provide other basic necessities for the child, as determined by the court.

In cases in which retroactive liability for support is being determined, the court or administrative agency may use the gross monthly income of the parties averaged over the period of retroactivity.

D. Except for good cause shown or the agreement of the parties, in addition to any other child support obligations established pursuant to this section, any child support order shall provide that the parents pay in proportion to their gross incomes, as used for calculating the monthly support obligation, any reasonable and necessary unreimbursed medical or dental expenses. The method of payment of those expenses shall be contained in the support order. Each parent shall pay his respective share of expenses as those expenses are incurred. Any amount paid under this subsection shall not be adjusted by, nor added to, the child support calculated in accordance with subsection G. For the purposes of this section, medical or dental expenses shall include but not be limited to eyeglasses, prescription medication, prosthetics, orthodontics, and mental health or developmental disabilities services, including but not limited to services provided by a social worker, psychologist, psychiatrist, counselor, or therapist.

E. ~~Any~~ *The costs for health care coverage as defined in § 63.2-1900, vision care coverage, and dental care coverage, when actually for the child or children who are the subject of the child support order that are being paid by a parent or that parent's spouse, to the extent such costs are directly allocable to the child or children, and which are the extra costs of covering the child or children beyond whatever coverage the parent or that parent's spouse providing the coverage would otherwise have, shall be added to the basic child support obligation. To determine the cost to be added to the basic child support obligation, the cost per person shall be applied to the child or children who are subject of the child support order. If the per child cost is provided by the insurer, that is the cost per person. Otherwise, to determine the cost per person, the cost of individual coverage for the policy holder shall be subtracted from the total cost of the coverage, and the remaining amount shall be divided by the number of remaining covered persons.*

F. Any child-care costs incurred on behalf of the child or children due to employment of the custodial parent shall be added to the basic child support obligation. Child-care costs shall not exceed the amount required to provide quality care from a licensed source. When requested by the noncustodial parent, the court may require the custodial parent to present documentation to verify the costs incurred for child care under this subsection. Where appropriate, the court shall consider the willingness and availability of the noncustodial parent to provide child care personally in determining whether child-care costs are necessary or excessive. Upon the request of either party, and upon a showing of the tax savings a party

derives from child-care cost deductions or credits, the court shall factor actual tax consequences into its calculation of the child-care costs to be added to the basic child support obligation.

G. 1. Sole custody support. The sole custody total monthly child support obligation shall be established by adding (i) the monthly basic child support obligation, as determined from the schedule contained in subsection B, (ii) costs for health care coverage to the extent allowable by subsection E, and (iii) work-related child-care costs and taking into consideration all the factors set forth in subsection B of § 20-108.1. The total monthly child support obligation shall be divided between the parents in the same proportion as their monthly gross incomes bear to their monthly combined gross income. The monthly obligation of each parent shall be computed by multiplying each parent's percentage of the parents' monthly combined gross income by the total monthly child support obligation.

However, the monthly obligation of the noncustodial parent shall be reduced by the cost for health care coverage to the extent allowable by subsection E when paid directly by the noncustodial parent or that parent's spouse. Unreimbursed medical and dental expenses shall be calculated and allocated in accordance with subsection D.

2. Split custody support. In cases involving split custody, the amount of child support to be paid shall be the difference between the amounts owed by each parent as a noncustodial parent, computed in accordance with subdivision 1, with the noncustodial parent owing the larger amount paying the difference to the other parent. Unreimbursed medical and dental expenses shall be calculated and allocated in accordance with subsection D.

For the purpose of this section and § 20-108.1, split custody shall be limited to those situations where each parent has physical custody of a child or children born of the parents, born of either parent and adopted by the other parent or adopted by both parents. For the purposes of calculating a child support obligation where split custody exists, a separate family unit exists for each parent, and child support for that family unit shall be calculated upon the number of children in that family unit who are born of the parents, born of either parent and adopted by the other parent or adopted by both parents. Where split custody exists, a parent is a custodial parent to the children in that parent's family unit and is a noncustodial parent to the children in the other parent's family unit.

### 3. Shared custody support.

(a) Where a party has custody or visitation of a child or children for more than 90 days of the year, as such days are defined in subdivision G 3 (c), a shared custody child support amount based on the ratio in which the parents share the custody and visitation of any child or children shall be calculated in accordance with this subdivision. The presumptive support to be paid shall be the shared custody support amount, unless a party affirmatively shows that the sole custody support amount calculated as provided in subdivision G 1 is less than the shared custody support amount. If so, the lesser amount shall be the support to be paid. For the purposes of this subsection, the following shall apply:

(i) Income share. "Income share" means a parent's percentage of the combined monthly gross income of both parents. The income share of a parent is that parent's gross income divided by the combined gross incomes of the parties.

(ii) Custody share. "Custody share" means the number of days that a parent has physical custody, whether by sole custody, joint legal or joint residential custody, or visitation, of a shared child per year divided by the number of days in the year. The actual or anticipated "custody share" of the parent who has or will have fewer days of physical custody shall be calculated for a one-year period. The "custody share" of the other parent shall be presumed to be the number of days in the year less the number of days calculated as the first parent's "custody share." For purposes of this calculation, the year may begin on such date as is determined in the discretion of the court, and the day may begin at such time as is determined in the discretion of the court. For purposes of this calculation, a day shall be as defined in subdivision G 3 (c).

(iii) Shared support need. "Shared support need" means the presumptive guideline amount of needed support for the shared child or children calculated pursuant to subsection B of this section, for the combined gross income of the parties and the number of shared children, multiplied by 1.4.

(iv) Sole custody support. "Sole custody support" means the support amount determined in accordance with subdivision G 1.

(b) Support to be paid. The shared support need of the shared child or children shall be calculated pursuant to subdivision G 3 (a)(iii). This amount shall then be multiplied by the other parent's custody share. To that sum for each parent shall be added the other parent's or that parent's spouse's cost of health care coverage to the extent allowable by subsection E, plus the other parent's work-related child-care costs to the extent allowable by subsection F. This total for each parent shall be multiplied by that parent's income share. The support amounts thereby calculated that each parent owes the other shall be subtracted one from the other and the difference shall be the shared custody support one parent owes to the other, with the payor parent being the one whose shared support is the larger. Unreimbursed medical and dental expenses shall be calculated and allocated in accordance with subsection D.

(c) Definition of a day. For the purposes of this section, "day" means a period of 24 hours; however, where the parent who has the fewer number of overnight periods during the year has an overnight period with a child, but has physical custody of the shared child for less than 24 hours during such overnight period, there is a presumption that each parent shall be allocated one-half of a day of custody for that period.

(d) Minimum standards. Any calculation under this subdivision shall not create or reduce a support obligation to an amount which seriously impairs the custodial parent's ability to maintain minimal adequate housing and provide other basic necessities for the child. If the gross income of either party is equal to or less than 150 percent of the federal poverty level promulgated by the U.S. Department of Health and Human Services from time to time, then the shared custody support

calculated pursuant to this subsection shall not be the presumptively correct support and the court may consider whether the sole custody support or the shared custody support is more just and appropriate.

(e) Support modification. When there has been an award of child support based on the shared custody formula and one parent consistently fails to exercise custody or visitation in accordance with the parent's custody share upon which the award was based, there shall be a rebuttable presumption that the support award should be modified.

(f) In the event that the shared custody support calculation indicates that the net support is to be paid to the parent who would not be the parent receiving support pursuant to the sole custody calculation, then the shared support shall be deemed to be the lesser support.

H. The Secretary of Health and Human Resources shall ensure that the guideline set out in this section is reviewed by October 31, 2001, and every four years thereafter, by the Child Support Guidelines Review Panel, consisting of 15 members comprised of four legislative members and 11 nonlegislative citizen members. Members shall be appointed as follows: three members of the House Committee for Courts of Justice, upon the recommendation of the chairman of such committee, to be appointed by the Speaker of the House of Delegates in accordance with the principles of proportional representation contained in the Rules of the House of Delegates; one member of the Senate Committee for Courts of Justice, upon the recommendation of the chairman of such committee, to be appointed by the Senate Committee on Rules; and one representative of a juvenile and domestic relations district court, one representative of a circuit court, one representative of the Department of Social Services' Division of Child Support Enforcement, three members of the Virginia State Bar, two custodial parents, two noncustodial parents, and one child advocate, upon the recommendation of the Secretary of Health and Human Resources, to be appointed by the Governor. The Panel shall determine the adequacy of the guideline for the determination of appropriate awards for the support of children by considering current research and data on the cost of and expenditures necessary for rearing children, and any other resources it deems relevant to such review. The Panel shall report its findings to the General Assembly as provided in the procedures of the Division of Legislative Automated Systems for the processing of legislative documents and reports before the General Assembly next convenes following such review.

Legislative members shall serve terms coincident with their terms of office. Nonlegislative citizen members shall serve at the pleasure of the Governor. All members may be reappointed. Appointments to fill vacancies, other than by expiration of a term, shall be made for the unexpired terms. Vacancies shall be filled in the same manner as the original appointments.

Legislative members shall receive such compensation as provided in § 30-19.12, and nonlegislative citizen members shall receive such compensation for the performance of their duties as provided in § 2.2-2813. All members shall be reimbursed for all reasonable and necessary expenses incurred in the performance of their duties as provided in §§ 2.2-2813 and 2.2-2825. Funding for the costs of compensation and expenses of the members shall be provided by the Department of Social Services.

The Department of Social Services shall provide staff support to the Panel. All agencies of the Commonwealth shall provide assistance to the Panel, upon request.

The chairman of the Panel shall submit to the Governor and the General Assembly a quadrennial executive summary of the interim activity and work of the Panel no later than the first day of 2006 regular session of the General Assembly and every four years thereafter. The executive summary shall be submitted as provided in the procedures of the Division of Legislative Automated Systems for the processing of legislative documents and reports and shall be posted on the General Assembly's website.

## CHAPTER 512

*An Act to amend and reenact § 51.1-505 of the Code of Virginia, relating to life insurance for retired state employees.*

[H 2277]

Approved March 23, 2015

### **Be it enacted by the General Assembly of Virginia:**

1. That § 51.1-505 of the Code of Virginia is amended and reenacted as follows:

**§ 51.1-505. Amounts of life and accident insurance for each employee; reduction and termination of insurance.**

A. Each employee to whom this chapter applies shall, subject to the terms and conditions thereof, be eligible to be insured for an amount of group life insurance plus an amount of group accidental death and dismemberment insurance, each amount equal to twice the amount of his annual salary. If an employee's annual salary is not an even multiple of \$1,000, his annual salary for purposes of this section shall be considered to be the next higher \$1,000. For purposes of this section, the annual salary of a member of the General Assembly shall be his creditable compensation for his last full calendar year of service or his salary under § 30-19.11, whichever is greater, and shall include the full amount of any salaries payable to such member for working in covered positions, regardless of whether such salaries were paid, reduced, or not paid because of such member's service in the General Assembly. The annual salary for an employee retired for service or disability on an immediate retirement allowance may be adjusted by the Board in accordance with the provisions of Chapter 1 (§ 51.1-124.1 et seq.).

Subject to the conditions and limitations of the group insurance policy, the accidental death and dismemberment insurance shall provide payments as follows:

Loss	Amount Payable
For loss of life	Full amount determined in accordance with the provisions of this section
Loss of one hand or of one foot or loss of sight of one eye	One-half of the amount determined in accordance with the provisions of this section
Loss of two or more such members	Full amount determined in accordance with the provisions of this section.

For any one accident, the aggregate amount of accidental death and dismemberment insurance that may be paid shall not exceed the maximum amount of accidental death and dismemberment insurance determined in accordance with this section.

Notwithstanding the provisions of § 51.1-124.8, the amount of life insurance for which an employee shall be eligible shall be equal to twice the amount of his annual salary without regard to the date of the employee's qualification for a retirement allowance.

B. The amount of life insurance on an employee who retires for service on an immediate retirement allowance or who elects to postpone the receipt of his retirement allowance to some date other than his last day of service shall be the amount set forth in subsection A, reduced by an amount equal to 25 percent thereof on the January 1 following the first full year from the date the employee is separated from service and each January 1 thereafter. The amount of life insurance on an employee who retires for disability on an immediate retirement allowance shall be the amount set forth in subsection A on the date the employee last rendered service reduced by an amount equal to 25 percent thereof on January 1 following the first full year from the date the employee attains his "normal retirement date" as defined in § 51.1-124.3, and each January 1 thereafter. If the employee by statute or Board regulation has been construed to be in service to the beginning of the next school year, the reduction shall not apply until the beginning of the next school year. The reduction shall not decrease the amount of life insurance on an employee to less than 25 percent of the amount of life insurance to which the initial reduction is applied, *provided, however, that the reduction shall not decrease the amount of life insurance to less than \$8,000 for employees with at least 30 years of creditable service, which amount shall be increased by the same percentage as any annual post-retirement supplement for retirees, as calculated for employees hired on or after July 1, 2010, pursuant to § 51.1-166.* For purposes of this subsection, an employee shall be deemed to have retired only if the employee has five or more years of service as an employee prior to the date of retirement. This requirement shall not be applicable if the employee is retired for disability.

Any employee who was denied membership in the Retirement System because of having attained age 60 at the time of being employed or reemployed and who has five or more years of service immediately prior to separation from service shall retain the life insurance coverage as though he had retired on an immediate retirement allowance.

C. For any employee who at any time has at least 20 years of creditable service in any retirement plan administered by the Virginia Retirement System or other Virginia public plan participating in the group life program established by this chapter, the amount of group life insurance shall be an amount equal to twice the amount of the highest annual salary earned during such employment.

The provisions of subsection B providing a reduction in the amount of life insurance shall apply to the amount of group life insurance as determined under this subsection for such employees with at least 20 years of creditable service.

D. The amount of life insurance for an employee who is retired for disability on an immediate retirement allowance, who also has attained age 55, and who elects to receive a retirement allowance as set forth in subsection C of § 51.1-160, shall be reduced as set forth in subsection B. The reduction shall begin the January 1 following the first full year from the date the employee elects a service retirement allowance.

E. All accidental death and dismemberment insurance on an employee shall cease upon the earliest of (i) his separation from service; (ii) his failure to pay, in the manner prescribed by the Board, the contribution required for the first 24 months of leave without pay; (iii) if the employee has not returned to pay status, the expiration of 24 months of leave without pay; or (iv) his retirement.

F. Except in case of retirement as provided in subsections B, C, and D, all life insurance on an employee shall cease upon the earliest of (i) his separation from service; (ii) his failure to pay, in the manner prescribed by the Board, the contribution required for the first 24 months of leave without pay; or (iii) if the employee has not returned to pay status, the expiration of 24 months of leave without pay. Except in the case of retirement, life insurance shall be subject to a temporary extension of 31 days. During this 31-day extension, the employee may convert his life insurance into an individual policy of life insurance (without disability or other supplementary benefits) in any one of the forms, except term insurance, then customarily issued by the insuring company. The amount of life insurance which may be converted shall not exceed the amount of his life insurance under the group insurance policy at the time coverage is terminated. The insurance shall be converted to an individual policy (a) without evidence of insurability, (b) at the premium applicable to the class of risk to which he belongs, and (c) to the form and amount of the individual policy at his then attained age, provided application for the individual policy and payment of the first premium thereon is made to the issuing company within the 31 days. The right to convert to an individual policy as provided in § 38.2-3333 shall not apply upon termination of this group policy or elimination of a class of insured employees.

Except as provided in subsection C, the amount of life insurance on each insured employee who retires shall be determined under the provisions of this chapter as it exists on the employee's date of retirement.

G. Each employee of a state institution of higher education or of a local school board who remains in service until the completion of the school year and who makes contributions required to provide insurance coverage until service normally will be resumed the beginning of the next school year shall be deemed to be in service as an employee through the period to which the payments apply. If the employee is retired for service or disability during this period, contributions made by the employee shall be accepted and retained as proper.

Each state employee of a public institution of higher education or a teaching hospital affiliated with a public institution of higher education who (i) is employed pursuant to a contract (a) that is for a term of employment of at least nine months and (b) that does not coincide with the normal scholastic year, (ii) remains in service until the completion of the contract year, and (iii) makes contributions required to provide insurance coverage until service normally will be resumed at the beginning of the next contract year shall be deemed to be in service as an employee through the period to which the payments apply. If the employee is retired for service or disability during this period, contributions made by the employee shall be accepted and retained as proper.

H. The limit of 24 months of leave without pay, after which accidental death and dismemberment insurance and life insurance shall cease, referred to in subsections E and F shall not apply to an employee who is on leave without pay while performing active duty military service in the armed forces of the United States.

I. The provisions of this section shall apply to all members of the Virginia Retirement System who, on and after July 1, 1995, are covered under the group life insurance program created pursuant to this section and whose effective date of retirement is (i) before July 1, 1970, or (ii) on and after July 1, 1970.

## CHAPTER 514

*An Act to amend and reenact § 54.1-3408 of the Code of Virginia, relating to pharmacists; oxygen and epinephrine.*

[H 1914]

Approved March 23, 2015

The Department of Health's policies and guidelines shall be consistent with applicable guidelines developed by the Centers for Disease Control and Prevention for preventing transmission of mycobacterium tuberculosis and shall be updated to incorporate any subsequently implemented standards of the Occupational Safety and Health Administration and the Department of Labor and Industry to the extent that they are inconsistent with the Department of Health's policies and guidelines. Such standing protocols shall explicitly describe the categories of persons to whom the tuberculin test is to be administered and shall provide for appropriate medical evaluation of those in whom the test is positive. The prescriber shall ensure that the nurse implementing such standing protocols has received adequate training in the practice and principles underlying tuberculin screening.

The Health Commissioner or his designee may authorize registered nurses, acting as agents of the Department of Health, to possess and administer, at the nurse's discretion, tuberculin purified protein derivative (PPD) to those persons in whom tuberculin skin testing is indicated based on protocols and policies established by the Department of Health.

prescriber's instructions pertaining to dosage, frequency, and manner of administration, and in accordance with regulations promulgated by the Board of Pharmacy relating to security and record keeping, when the drugs administered would be normally self-administered by (i) an individual receiving services in a program licensed by the Department of Behavioral Health and Developmental Services; (ii) a resident of the Virginia Rehabilitation Center for the Blind and Vision Impaired; (iii) a resident of a facility approved by the Board or Department of Juvenile Justice for the placement of children in need of services or delinquent or alleged delinquent youth; (iv) a program participant of an adult day-care center licensed by the Department of Social Services; (v) a resident of any facility authorized or operated by a state or local government whose primary purpose is not to provide health care services; (vi) a resident of a private children's residential facility, as defined in § 63.2-100 and licensed by the Department of Social Services, Department of Education, or Department of Behavioral Health and Developmental Services; or (vii) a student in a school for students with disabilities, as defined in § 22.1-319 and licensed by the Board of Education.

In addition, this section shall not prevent a person who has successfully completed a training program for the administration of drugs via percutaneous gastrostomy tube approved by the Board of Nursing and been evaluated by a registered nurse as having demonstrated competency in administration of drugs via percutaneous gastrostomy tube from administering drugs to a person receiving services from a program licensed by the Department of Behavioral Health and Developmental Services to such person via percutaneous gastrostomy tube. The continued competency of a person to administer drugs via percutaneous gastrostomy tube shall be evaluated semiannually by a registered nurse.

M. Medication aides registered by the Board of Nursing pursuant to Article 7 (§ 54.1-3041 et seq.) of Chapter 30 may administer drugs that would otherwise be self-administered to residents of any assisted living facility licensed by the Department of Social Services. O. In addition, this section shall not prevent the administration of drugs by a person to (i) a child in a child day program as defined in § 63.2-100 and regulated by the State Board of Social Services or a local government pursuant to § 15.2-914, or (ii) a student at a private school that complies with the accreditation requirements set forth in § 22.1-19 and is accredited by the Virginia Council for Private Education, provided such person (a) has satisfactorily completed a training program for this purpose approved by the Board of Nursing and taught by a registered nurse, licensed practical nurse, doctor of medicine or osteopathic medicine, or pharmacist; (b) has obtained written authorization from a parent or guardian; (c) administers drugs only to the child identified on the prescription label in accordance with the prescriber's instructions pertaining to dosage, frequency, and manner of administration; and (d) administers only those drugs that were dispensed from a pharmacy and maintained in the original, labeled container that would normally be self-administered by the child or student, or administered by a parent or guardian to the child or student.

P. In addition, this section shall not prevent the administration or dispensing of drugs and devices by persons if they are authorized by the State Health Commissioner in accordance with protocols established by the State Health Commissioner pursuant to § 32.1-42.1 when (i) the Governor has declared a disaster or a state of emergency or the United States Secretary of Health and Human Services has issued a declaration of an actual or potential bioterrorism incident or other actual or potential public health emergency; (ii) it is necessary to permit the provision of needed drugs or devices; and (iii) such persons have received the training necessary to safely administer or dispense the needed drugs or devices. Such persons shall administer or dispense all drugs or devices under the direction, control, and supervision of the State Health Commissioner.

Q. Nothing in this title shall prohibit the administration of normally self-administered drugs by unlicensed individuals to a person in his private residence.

R. This section shall not interfere with any prescriber issuing prescriptions in compliance with his authority and scope of practice and the provisions of this section to a Board agent for use pursuant to subsection G of § 18.2-258.1. Such prescriptions issued by such prescriber shall be deemed to be valid prescriptions.

S. Nothing in this title shall prevent or interfere with dialysis care technicians or dialysis patient care technicians who are certified by an organization approved by the Board of Health Professions or persons authorized for provisional practice pursuant to Chapter 27.01 (§ 54.1-2729.1 et seq.), in the ordinary course of their duties in a Medicare-certified renal dialysis facility, from administering heparin, topical needle site anesthetics, dialysis solutions, sterile normal saline solution, and blood volumizers, for the purpose of facilitating renal dialysis treatment, when such administration of medications occurs under the orders of a licensed physician, nurse practitioner, or physician assistant and under the immediate and direct supervision of a licensed registered nurse. Nothing in this chapter shall be construed to prohibit a patient care dialysis technician trainee from performing dialysis care as part of and within the scope of the clinical skills instruction segment of a

supervised dialysis technician training program, provided such trainee is identified as a "trainee" while working in a renal dialysis facility.

The dialysis care technician or dialysis patient care technician administering the medications shall have demonstrated competency as evidenced by holding current valid certification from an organization approved by the Board of Health Professions pursuant to Chapter 27.01 (§ 54.1-2729.1 et seq.).

T. Persons who are otherwise authorized to administer controlled substances in hospitals shall be authorized to administer influenza or pneumococcal vaccines pursuant to § 32.1-126.4.

U. Pursuant to a specific order for a patient and under his direct and immediate supervision, a prescriber may authorize the administration of controlled substances by personnel who have been properly trained to assist a doctor of medicine or osteopathic medicine, provided the method does not include intravenous, intrathecal, or epidural administration and the prescriber remains responsible for such administration.

V. A physician assistant, nurse or a dental hygienist may possess and administer topical fluoride varnish to the teeth of children aged six months to three years pursuant to an oral or written order or a standing protocol issued by a doctor of medicine, osteopathic medicine, or dentistry that conforms to standards adopted by the Department of Health.

W. *An Act to amend and reenact § 63.2-1505 of the Code of Virginia, relating to reports of suspected child abuse or neglect; time period for investigation and report; school division employees.*

[S 1117]

Approved March 23, 2015

**Be it enacted by the General Assembly of Virginia:****1. That § 63.2-1505 of the Code of Virginia is amended and reenacted as follows:****§ 63.2-1505. Investigations by local departments.**

A. An investigation requires the collection of information necessary to determine:

1. The immediate safety needs of the child;
2. The protective and rehabilitative services needs of the child and family that will deter abuse or neglect;
3. Risk of future harm to the child;
4. Alternative plans for the child's safety if protective and rehabilitative services are indicated and the family is unable or unwilling to participate in services;
5. Whether abuse or neglect has occurred;
6. If abuse or neglect has occurred, who abused or neglected the child; and
7. A finding of either founded or unfounded based on the facts collected during the investigation.

B. If the local department responds to the report or complaint by conducting an investigation, the local department shall:

1. Make immediate investigation and, if the report or complaint was based upon one of the factors specified in subsection B of § 63.2-1509, the local department may file a petition pursuant to § 16.1-241.3;

2. Complete a report and transmit it forthwith to the Department, except that no such report shall be transmitted in cases in which the cause to suspect abuse or neglect is one of the factors specified in subsection B of § 63.2-1509 and the mother sought substance abuse counseling or treatment prior to the child's birth;

3. Consult with the family to arrange for necessary protective and rehabilitative services to be provided to the child and his family;

4. Petition the court for services deemed necessary including, but not limited to, removal of the child or his siblings from their home;

5. Determine within 45 days if a report of abuse or neglect is founded or unfounded and transmit a report to such effect to the Department and to the person who is the subject of the investigation. However, upon written justification by the local department, the time for such determination may be extended not to exceed a total of 60 days or, in the event that the investigation is being conducted in cooperation with a law-enforcement agency and both parties agree that circumstances so warrant, as stated in the written justification, the time for such determination may be extended not to exceed 90 days. If through the exercise of reasonable diligence the local department is unable to find the child who is the subject of the report, the time the child cannot be found shall not be computed as part of the total time period allowed for the investigation and determination and documentation of such reasonable diligence shall be placed in the record. In cases involving the death of a child or alleged sexual abuse of a child who is the subject of the report, the time during which records necessary for the investigation of the complaint but not created by the local department, including autopsy or medical or forensic records or reports, are not available to the local department due to circumstances beyond the local department's control shall not be computed as part of the total time period allowed for the investigation and determination, and documentation of the circumstances that resulted in the delay shall be placed in the record. *In cases in which the subject of the investigation is a full-time, part-time, permanent, or temporary employee of a school division who is suspected of abusing or neglecting a child in the course of his educational employment, the time period for determining whether a report is founded or unfounded and transmitting a report to that effect to the Department and the person who is the subject of the investigation shall be mandatory, and every local department shall make the required determination and report within the specified time period without delay;*

6. If a report of abuse or neglect is unfounded, transmit a report to such effect to the complainant and parent or guardian and the person responsible for the care of the child in those cases where such person was suspected of abuse or neglect; and

7. If a report of child abuse and neglect is founded, and the subject of the report is a full-time, part-time, permanent, or temporary employee of a school division located within the Commonwealth, notify the relevant school board of the founded complaint.

Any information exchanged for the purposes of this subsection shall not be considered a violation of § 63.2-102, 63.2-104, or 63.2-105.

C. Each local board may obtain and consider, in accordance with regulations adopted by the Board, statewide criminal history record information from the Central Criminal Records Exchange and results of a search of the child abuse and neglect central registry of any individual who is the subject of a child abuse or neglect investigation conducted under this section when there is evidence of child abuse or neglect and the local board is evaluating the safety of the home and whether removal will protect a child from harm. The local board also may obtain such a criminal records or registry search on all

adult household members residing in the home where the individual who is the subject of the investigation resides and the child resides or visits. If a child abuse or neglect petition is filed in connection with such removal, a court may admit such information as evidence. Where the individual who is the subject of such information contests its accuracy through testimony under oath in hearing before the court, no court shall receive or consider the contested criminal history record information without certified copies of conviction. Further dissemination of the information provided to the local board is prohibited, except as authorized by law.

D. A person who has not previously participated in the investigation of complaints of child abuse or neglect in accordance with this chapter shall not participate in the investigation of any case involving a complaint of alleged sexual abuse of a child unless he (i) has completed a Board-approved training program for the investigation of complaints involving alleged sexual abuse of a child or (ii) is under the direct supervision of a person who has completed a Board-approved training program for the investigation of complaints involving alleged sexual abuse of a child. No individual may make a determination of whether a case involving a complaint of alleged sexual abuse of a child is founded or unfounded unless he has completed a Board-approved training program for the investigation of complaints involving alleged sexual abuse of a child.

## CHAPTER 525

*An Act to amend and reenact §§ 54.1-2930, 54.1-2935, and 54.1-2937 of the Code of Virginia and to repeal § 54.1-2933 of the Code of Virginia, relating to supervised clinical training required by the Board of Medicine for licensure.*

[S 1120]

Approved March 23, 2015

### **Be it enacted by the General Assembly of Virginia:**

**1. That §§ 54.1-2930, 54.1-2935, and 54.1-2937 of the Code of Virginia are amended and reenacted as follows:**

#### **§ 54.1-2930. Requirements for licensure.**

The Board may issue a license to practice medicine, osteopathy, chiropractic, and podiatric medicine to any candidate who has submitted satisfactory evidence verified by affidavits that he:

1. Is 18 years of age or more;
2. Is of good moral character;
3. Has successfully completed all or such part as may be prescribed by the Board, of an educational course of study of that branch of the healing arts in which he desires a license to practice, which course of study and the educational institution providing that course of study are acceptable to the Board; and
4. Has completed ~~one year~~ *at least 12 months* of satisfactory postgraduate training in ~~a hospital~~ *one program or institution* approved by an accrediting agency recognized by the Board for internships or residency training. At the discretion of the Board, the postgraduate training may be waived if an applicant for licensure in podiatry has been in active practice for four continuous years while serving in the military and is a diplomate of the American Board of Podiatric Surgery. Applicants for licensure in chiropractic need not fulfill this requirement.

In determining whether such course of study and institution are acceptable to it, the Board may consider the reputation of the institution and whether it is approved or accredited by regional or national educational or professional associations including, but not limited to, such organizations as the Accreditation Council for Graduate Medical Education, Liaison Committee on Medical Education, Council on Postgraduate Training of the American Osteopathic Association, Council on Osteopathic College Accreditation, College of Family Physicians of Canada, Committee for the Accreditation of Canadian Medical Schools, Education Commission on Foreign Medical Graduates, Royal College of Physicians and Surgeons of Canada, or their appropriate subsidiary agencies; by any appropriate agency of the United States government; or by any other organization approved by the Board. Supervised clinical training that is received in the United States as part of the curriculum of an international medical school shall be obtained in an approved hospital, institution or school of medicine offering an approved residency program in the specialty area for the relevant clinical training *or in a program acceptable to the Board and deemed a substantially equivalent experience*. The Board may also consider any other factors that reflect whether that institution and its course of instruction provide training sufficient to prepare practitioners to practice their branch of the healing arts with competency and safety in the Commonwealth.

#### **§ 54.1-2935. Supplemental training or study required of certain graduates.**

In the event that an applicant has completed an educational course of study in an institution that is not approved by an accrediting agency recognized by the Board, the applicant shall not be licensed until he has completed two years of satisfactory postgraduate training ~~in a hospital~~. *The two years shall include at least 12 months in one program or institution* approved by an accrediting agency recognized by the Board for internship or residency training *or in a clinical fellowship, acceptable to the Board, in the same or a related field*. The Board may consider other postgraduate training as a substitute for the required postgraduate training if it finds that such training is substantially equivalent to that required by this section.

#### **§ 54.1-2937. Temporary licenses to interns and residents in hospitals and other organizations.**

Upon recommendation by the chief of an approved internship or residency program as defined in this chapter, the Board may issue a temporary annual license to practice medicine, osteopathic medicine, *or podiatry* ~~or chiropractic~~ to interns and residents in such programs. No such license shall be issued to an intern or resident who has not completed

successfully the preliminary academic education required for admission to examinations given by the Board in his particular field of practice. Such license shall expire upon the holder's withdrawal or termination from the internship or residency program. The Board may prescribe such regulations not in conflict with existing law and require such reports from hospitals or other organizations operating an approved graduate medical education program in the Commonwealth as may be necessary to carry out the provisions of this section.

**2. That § 54.1-2933 of the Code of Virginia is repealed.**

In addition, the Board may repeal or amend any regulation adopted pursuant to this subsection. No regulations adopted or amended by the Board pursuant to this subsection, however, shall establish requirements for any license, permit or inspection unless such license, permit or inspection is otherwise provided for in this title. The provisions of the Food and Drug Administration's Food Code shall not apply to farmers selling their own farm-produced products directly to consumers for their personal use, whether such sales occur on such farmer's farm or at a farmers' market, unless such provisions are adopted in accordance with the Administrative Process Act (§ 2.2-4000 et seq.).

E. The provisions of the Administrative Process Act (§ 2.2-4000 et seq.) shall not apply to the adoption of any regulation pursuant to subsection C if the Board of Agriculture and Consumer Services adopts the same edition of the Food Code, or the same portions thereof, pursuant to subsection B of § 3.2-5121 and the regulations adopted by the Board and the Board of Agriculture and Consumer Services have the same effective date. ## **CHAPTER 529**

*An Act to amend and reenact §§ 63.2-1232 and 63.2-1237 of the Code of Virginia, relating to adoption; child in custody of prospective adoptive parent(s) for five years or more.*

[S 1268]

Approved March 23, 2015

### **Be it enacted by the General Assembly of Virginia:**

#### **1. That §§ 63.2-1232 and 63.2-1237 of the Code of Virginia are amended and reenacted as follows:**

##### **§ 63.2-1232. Requirements of a parental placement adoption; exception.**

A. The juvenile and domestic relations district court shall not accept consent until it determines that:

1. The birth parent(s) are aware of alternatives to adoption, adoption procedures, and opportunities for placement with other adoptive families, and that the birth parents' consent is informed and uncoerced.

2. A licensed or duly authorized child-placing agency has counseled the prospective adoptive parents with regard to alternatives to adoption, adoption procedures, including the need to address the parental rights of birth parents, the procedures for terminating such rights, and opportunities for adoption of other children; that the prospective adoptive parents' decision is informed and uncoerced; and that they intend to file an adoption petition and proceed toward a final order of adoption.

3. The birth parent(s) and adoptive parents have exchanged identifying information including but not limited to full names, addresses, physical, mental, social and psychological information and any other information necessary to promote the welfare of the child, unless both parties agree in writing to waive the disclosure of full names and addresses.

4. Any financial agreement or exchange of property among the parties and any fees charged or paid for services related to the placement or adoption of the child have been disclosed to the court and that all parties understand that no binding contract regarding placement or adoption of the child exists.

5. There has been no violation of the provisions of § 63.2-1218 in connection with the placement; however, if it appears there has been such violation, the court shall not reject consent of the birth parent to the adoption for that reason alone but shall report the alleged violation as required by § 63.2-1219.

6. A licensed or duly authorized child-placing agency has conducted a home study of the prospective adoptive home in accordance with regulations established by the Board and has provided to the court a report of such home study, which shall contain the agency's recommendation regarding the suitability of the placement. A married couple or an unmarried individual shall be eligible to receive placement of a child for adoption.

7. The birth parent(s) have been informed of their opportunity to be represented by legal counsel.

B. The juvenile and domestic relations district court shall not accept the consent if the requirements of subsection A have not been met. In such cases, it shall refer the birth parent to a licensed or duly authorized child-placing agency for investigation and recommendation in accordance with §§ 63.2-1208 and 63.2-1238. If the juvenile and domestic relations district court determines that any of the parties is financially unable to obtain the required services, it shall refer the matter to the local director.

C. In cases in which a birth parent who resides in the Commonwealth places his child for adoption with adoptive parents in another state and the laws of that receiving state govern the proceeding for adoption, the birth parent may elect to waive the execution of consent pursuant to § 63.2-1233 and instead execute consent to the adoption pursuant to the laws of the receiving state. Any waiver of consent made pursuant to this subsection shall be made under oath and in writing, and shall expressly state that the birth parent has received independent legal counsel from an attorney licensed in the Commonwealth of Virginia advising him of the laws of the Commonwealth, the laws of the receiving state pursuant to which he elects to consent to the adoption, and the effects of his waiver of consent pursuant to § 63.2-1233 and election to consent pursuant to the laws of the receiving state. Any waiver of consent and election to consent pursuant to the laws of a receiving state shall include the name, address, and telephone number of such legal counsel. Failure to comply with this section shall render a waiver of consent pursuant to § 63.2-1233 and election to consent pursuant to the laws of the receiving state as authorized by this subsection invalid.

*D. When consent to a parental placement adoption is sought pursuant to this article and the prospective adoptive parent(s) have had continuous physical and legal custody of the child for five or more years, the juvenile and domestic relations district court may, in its discretion, accept consent without (i) a home study as required by subsection A of § 63.2-1231 and subdivision A 6 of this section and (ii) the meeting and counseling requirements, as they relate to the prospective adoptive parent(s), listed in subsection A of § 63.2-1231 and subdivision A 2 of this section. All other provisions of the parental placement adoption statutes shall apply.*

**§ 63.2-1237. Petition for parental placement adoption; jurisdiction; contents.**

Proceedings for the parental placement adoption of a minor child and for a change of name of such child shall be instituted only by petition to the circuit court in the county or city in which the petitioner resides or in the county or city where a birth parent has executed a consent pursuant to § 63.2-1233. Such petition may be filed by any natural person who resides in the Commonwealth or is the adopting parent(s) of a child who was subject to a consent proceeding held pursuant to § 63.2-1233. The petition shall ask leave to adopt a minor child not legally the petitioner's by birth and, if it is so desired by the petitioner, also to change the name of such child. In the case of married persons, the petition shall be the joint petition of the husband and wife but, in the event the child to be adopted is legally the child by birth or adoption of one of the petitioners, such petitioner shall unite in the petition for the purpose of indicating his or her consent to the prayer thereof only. The petition shall contain a full disclosure of the circumstances under which the child came to live, and is living, in the home of the petitioner. Each petition for adoption shall be signed by the petitioner as well as by counsel of record, if any. In any case in which the petition seeks the entry of an adoption order without referral for investigation, the petition shall be under oath.

The petition shall state that the findings required by § 63.2-1232 have been made and shall be accompanied by appropriate documentation supporting such statement, to include copies of documents executing consent and transferring custody of the child to the prospective adoptive parents, and a copy of the report required by § 63.2-1231. The court shall not waive any of the requirements of this paragraph nor any of the requirements of § 63.2-1232 except as allowed pursuant to *subsection D of § 63.2-1232 or subdivision 4 of § 63.2-1233.*

A single petition for adoption under the provisions of this section shall be sufficient for the concurrent adoption by the same petitioners of two or more children who have the same birth parent or parents; and nothing in this section shall be construed as having heretofore required a separate petition for each of such children.

## CHAPTER 531

*An Act to amend and reenact §§ 63.2-900, 63.2-1250, 63.2-1251, and 63.2-1252 of the Code of Virginia, relating to placement of children entering foster care; Putative Father Registry.*

[S 1423]

Approved March 23, 2015

Be it enacted by the General Assembly of Virginia:

1. That §§ 63.2-900, 63.2-1250, 63.2-1251, and 63.2-1252 of the Code of Virginia are amended and reenacted as follows:

**§ 63.2-900. Accepting children for placement in homes, facilities, etc., by local boards.**

A. Pursuant to § 63.2-319, a local board shall have the right to accept for placement in suitable family homes, children's residential facilities or independent living arrangements, subject to the supervision of the Commissioner and in accordance with regulations adopted by the Board, such persons under 18 years of age as may be entrusted to it by the parent, parents or guardian, committed by any court of competent jurisdiction, or placed through an agreement between it and the parent, parents or guardians where legal custody remains with the parent, parents, or guardians.

The Board shall adopt regulations for the provision of foster care services by local boards, which shall be directed toward the prevention of unnecessary foster care placements and towards the immediate care of and permanent planning for children in the custody of or placed by local boards and that shall achieve, as quickly as practicable, permanent placements for such children. The local board shall first seek out kinship care options to keep children out of foster care and as a placement option for those children in foster care, if it is in the child's best interests, pursuant to § 63.2-900.1. In cases in which a child cannot be returned to his prior family or placed for adoption and kinship care is not currently in the best interests of the child, the local board shall consider the placement and services that afford the best alternative for protecting the child's welfare. Placements may include but are not limited to family foster care, treatment foster care and residential care. Services may include but are not limited to assessment and stabilization, diligent family search, intensive in-home, intensive wraparound, respite, mentoring, family mentoring, adoption support, supported adoption, crisis stabilization or other community-based services. The Board shall also approve in foster care policy the language of the agreement required in § 63.2-902. The agreement shall include at a minimum a Code of Ethics and mutual responsibilities for all parties to the agreement.

*Within 30 days of accepting for foster care placement a person under 18 years of age whose father is unknown, the local board shall request a search of the Putative Father Registry established pursuant to Article 7 (§ 63.2-1249 et seq.) of Chapter 12 to determine whether any man has registered as the putative father of the child. If the search results indicate that a man has registered as the putative father of the child, the local board shall contact the man to begin the process to determine paternity.*

The local board shall, in accordance with the regulations adopted by the Board and in accordance with the entrustment agreement or other order by which such person is entrusted or committed to its care, have custody and control of the person so entrusted or committed to it until he is lawfully discharged, has been adopted or has attained his majority.

Whenever a local board places a child where legal custody remains with the parent, parents or guardians, the board shall enter into an agreement with the parent, parents or guardians. The agreement shall specify the responsibilities of each for the care and control of the child.

The local board shall have authority to place for adoption, and to consent to the adoption of, any child properly committed or entrusted to its care when the order of commitment or entrustment agreement between the parent or parents and the agency provides for the termination of all parental rights and responsibilities with respect to the child for the purpose of placing and consenting to the adoption of the child.

The local board shall also have the right to accept temporary custody of any person under 18 years of age taken into custody pursuant to subdivision B of § 16.1-246 or § 63.2-1517. The placement of a child in a foster home, whether within or without the Commonwealth, shall not be for the purpose of adoption unless the placement agreement between the foster parents and the local board specifically so stipulates.

B. Prior to the approval of any family for placement of a child, a home study shall be completed and the prospective foster or adoptive parents shall be informed that information about shaken baby syndrome, its effects, and resources for help

and support for caretakers is available on a website maintained by the Department as prescribed in regulations adopted by the Board.

C. Prior to placing any such child in any foster home or children's residential facility, the local board shall enter into a written agreement with the foster parents, pursuant to § 63.2-902, or other appropriate custodian setting forth therein the conditions under which the child is so placed pursuant to § 63.2-902. However, if a child is placed in a children's residential facility licensed as a temporary emergency shelter, and a verbal agreement for placement is secured within eight hours of the child's arrival at the facility, the written agreement does not need to be entered into prior to placement, but shall be completed and signed by the local board and the facility representative within 24 hours of the child's arrival or by the end of the next business day after the child's arrival.

D. Within 72 hours of placing a child of school age in a foster care placement, as defined in § 63.2-100, the local social services agency making such placement shall, in writing, (i) notify the principal of the school in which the student is to be enrolled and the superintendent of the relevant school division or his designee of such placement, and (ii) inform the principal of the status of the parental rights.

If the documents required for enrollment of the foster child pursuant to § 22.1-3.1, 22.1-270 or 22.1-271.2, are not immediately available upon taking the child into custody, the placing social services agency shall obtain and produce or otherwise ensure compliance with such requirements for the foster child within 30 days after the child's enrollment.

**§ 63.2-1250. Registration; notice; form.**

A. Except as otherwise provided in subsection C, a man who desires to be notified of a *placement of a child by a local board pursuant to § 63.2-900, a proceeding for adoption of, or a proceeding for termination of parental rights regarding, a child that he may have fathered* shall register with the Putative Father Registry before the birth of the child or within 10 days after the birth. A registrant shall promptly notify the registry of any change in the information registered including but not limited to change of address. The Department shall incorporate all new information received into its records but is not required to obtain current information for incorporation in the registry.

B. A man will not prejudice any rights by failing to register if:

1. A father-child relationship between the man and the child has been established pursuant to § 20-49.1, 20-49.8, or if the man is a presumed father as defined in § 63.2-1202; or

2. The man commences a proceeding to adjudicate his paternity before a petition to accept consent or waive adoption consent is filed in the juvenile and domestic relations district court, or a petition for adoption or a petition for the termination of his parental rights is filed with the court.

C. Failure to register pursuant to subsection A shall waive all rights of a man who is not an acknowledged, presumed, or adjudicated father to withhold consent to an adoption proceeding unless the man was led to believe through the birth mother's fraud that (i) the pregnancy was terminated or the mother miscarried when in fact the baby was born or (ii) that the child died when in fact the child is alive. Upon the discovery of the fraud, the man shall register with the Putative Father Registry within 10 days.

D. The child-placing agency or adoptive parent(s) shall give notice of a *placement of a child by a local board pursuant to § 63.2-900, a proceeding for the adoption of, or a proceeding for termination of parental rights regarding, a child to a registrant who has timely registered pursuant to subsection A.* Notice shall be given pursuant to the requirements of this chapter or § 16.1-277.01 for the appropriate adoption proceeding.

E. Any man who has engaged in sexual intercourse with a woman is deemed to be on legal notice that a child may be conceived and the man is entitled to all legal rights and obligations resulting therefrom. Lack of knowledge of the pregnancy does not excuse failure to timely register. In the event that the identity and whereabouts of the birth father are reasonably ascertainable, written notice of the existence of an adoption plan and the availability of registration with the Putative Father Registry shall be provided by personal service or by certified mailing to the man's last known address. The man shall have no more than 10 days from the date of such personal service or certified mailing to register. The personal service or certified mailing may be done either prior to or after the birth of the child.

F. The Department shall prepare a form for registering with the agency that shall require (i) the registrant's name, date of birth and social security number; (ii) the registrant's driver's license number and state of issuance; (iii) the registrant's home address, telephone number and employer; (iv) the name, date of birth, ethnicity, address and telephone number of the putative mother, if known; (v) the state of conception; (vi) the place and date of birth of the child, if known; (vii) the name and gender of the child, if known; and (viii) the signature of the registrant. No form for registering with the Putative Father Registry pursuant to this subsection shall be complete unless signed by the registrant.

G. The form shall also state that (i) timely registration entitles the registrant to notice of a proceeding for adoption of the child or termination of the registrant's parental rights, (ii) registration does not commence a proceeding to establish paternity, (iii) the information disclosed on the form may be used against the registrant to establish paternity, (iv) services to assist in establishing paternity are available to the registrant through the Department, (v) the registrant should also register in another state if conception or birth of the child occurred in another state, (vi) information on registries of other states may be available from the Department, (vii) the form is signed under penalty of perjury, and (viii) procedures exist to rescind the registration of a claim of paternity.

**§ 63.2-1251. Furnishing information; confidentiality; penalty.**

A. The Department is not required to locate the mother of a child who is the subject of a registration, but the Department shall send a copy of the notice of registration to the mother if an address is provided.

B. Information contained in the registry is confidential and may only be released on request to:

1. A court or a person designated by the court;
2. The mother of the child who is the subject of the registration;
3. An agency authorized by law to receive such information;
4. A licensed child-placing agency;
5. A support enforcement agency;
6. The child's guardian ad litem;
7. A party or the party's attorney of record in an adoption proceeding, custody proceeding, paternity proceeding, or in a proceeding of termination of parental rights, regarding a child who is the subject of the registration; ~~and~~
8. A putative father registry in another state; *and*
9. *A local department of social services for the purpose of establishing paternity of a child accepted for placement by a local board pursuant to § 63.2-900.*

C. Information contained in the registry shall be exempt from disclosure under the Virginia Freedom of Information Act (§ 2.2-3700 et seq.).

D. An individual who intentionally releases information from the registry to an individual or agency not authorized to receive the information in this section is guilty of a Class 4 misdemeanor.

**§ 63.2-1252. Search of registry.**

A. If no father-child relationship has been established pursuant to § 20-49.1, a petitioner for adoption shall obtain from the Department a certificate that a search of the Putative Father Registry was performed. If the conception or birth of the child occurred in another state, a petitioner for adoption shall obtain a certificate from that state indicating that a search of the putative father registry was performed, if that state has a putative father registry.

B. The Department shall furnish to the requester a certificate of search of the registry upon the request of an individual, court, or agency listed in ~~§ 63.2-1253~~ *63.2-1251*. Any such certificate shall be signed on behalf of the Department and state that a search has been made of the registry and a registration containing the information required to identify the registrant has been found and is attached to the certificate of search or has not been found. Within four business days from the receipt of the request, the Department shall mail the certificate to the requestor by United States mail. Upon request of the requestor and payment of any additional costs, the Department shall have the certificate delivered to the requestor by overnight mail, in person, by messenger, by facsimile or other electronic communication. The Department's certificate or an appropriate certificate from another state shall be sufficient proof the registry was searched.

C. A petitioner shall file the certificate of search with the court before a proceeding for adoption of, or termination of parental rights regarding, a child may be concluded.

D. A certificate of search of the Putative Father Registry is admissible in a proceeding for adoption of, or termination of parental rights regarding, a child and, if relevant, in other legal proceedings.

**1. That § 32.1-122.6 of the Code of Virginia is amended and reenacted as follows:**

**§ 32.1-122.6. Conditional grants for certain medical students.**

A. With such funds as are appropriated for this purpose, the Board of Health shall establish annual medical scholarships for students who intend to enter the designated specialties of family practice medicine, general internal medicine, pediatrics, and obstetrics/gynecology ~~for students and who are~~ in good standing at ~~the Medical College of Virginia of Virginia Commonwealth University, the University of Virginia School of Medicine, and the Eastern Virginia Medical School~~ *a medical school in the United States that has received accreditation or provisional accreditation from the Liaison Committee on Medical Education or the Bureau of Professional Education of the American Osteopathic Association*. No recipient shall be awarded more than five scholarships. The amount and number of such scholarships ~~and the apportionment of the scholarships among the medical schools~~ shall be determined annually as provided in the appropriation act; ~~however, the Board shall reallocate annually any remaining funds from awards made pursuant to this section and § 32.1-122.5:1 among the schools participating in these scholarship programs, proportionally to their need, for additional medical scholarships for eligible students.~~ The Commissioner shall act as fiscal agent for the Board in administration of the scholarship funds.

~~The governing boards of Virginia Commonwealth University, the University of Virginia, and the Eastern Virginia Medical School shall submit to the Commissioner the names of those eligible applicants who are most qualified as determined by the regulations of the Board for these medical scholarships. The Commissioner shall award the scholarships to the applicants whose names are submitted by the governing boards.~~

B. The Board, after consultation with the Medical College of Virginia of Virginia Commonwealth University, the University of Virginia School of Medicine, and the Eastern Virginia Medical School, shall promulgate regulations to administer this scholarship program which that shall include, but not be limited to:

1. Qualifications of applicants;
2. Criteria for award of the scholarships to assure that recipients will fulfill the practice obligations established in this section;
3. Standards to assure that these scholarships increase access to primary health care for individuals who are indigent or who are recipients of public assistance;
4. Assurances that bona fide residents of Virginia, as determined by § 23-7.4, students of economically disadvantaged backgrounds and residents of medically underserved areas are given preference over nonresidents in determining scholarship eligibility and awards;
5. Assurances that scholarship recipients will begin medical practice in one of the designated specialties in an underserved area of the Commonwealth within two years following completion of their residencies;
6. Methods for reimbursement of the Commonwealth by recipients who fail to complete medical school or who fail to honor the obligation to engage in medical practice for a period of years equal to the number of annual scholarships received;
7. Procedures for reimbursing any recipient who has repaid the Commonwealth for part or all of any scholarship and who later fulfills the terms of his contract; and
8. Procedures for transferring unused funds upon the recommendation of the Commissioner and the approval of the Department of Planning and Budget in the event any of the medical schools has not recommended the award of its full complement of scholarships by January of each year and one or both of the other medical schools has a demonstrated need for additional scholarships for that year; and
9. Reporting of data related to the recipients of the scholarships by the medical schools.

C. Prior to the award of any scholarship, the applicant shall sign a contract in which he agrees to pursue the medical course of the school nominating him for the award until his graduation or to pursue his first year of postgraduate training at the hospital or institution approved by the school nominating him for the award and upon completing a term not to exceed three years, or four years for the obstetric/gynecology specialty, as an intern or resident at an approved institution or facility intends to promptly begin and thereafter engage continuously in one of the designated specialties of medical practice in an underserved area in Virginia for a period of years equal to the number of annual scholarships received. The contract shall specify that no form of medical practice such as military service or public health service may be substituted for the obligation to practice in one of the designated specialties in an underserved area in the Commonwealth.

The contract shall provide that the applicant will not voluntarily obligate himself for more than the minimum period of military service required for physicians by the laws of the United States and that, upon completion of this minimum period of obligatory military service, the applicant will promptly begin to practice in an underserved area in one of the designated specialties for the requisite number of years. The contract shall include other provisions as considered necessary by the Attorney General and the Commissioner.

The contract may be terminated by the recipient while the recipient is enrolled in medical school upon providing notice and immediate repayment of the total amount of scholarship funds received plus interest at the prevailing bank rate for similar amounts of unsecured debt.

D. In the event the recipient fails to maintain a satisfactory scholastic standing, the recipient may, upon certification of the Commissioner, be relieved of the obligations under the contract to engage in medical practice in an underserved area upon repayment to the Commonwealth of the total amount of scholarship funds received plus interest at the prevailing bank rate for similar amounts of unsecured debt.

E. In the event the recipient dies or becomes permanently disabled so as not to be able to engage in the practice of medicine, the recipient or his estate may, upon certification of the Commissioner, be relieved of the obligation under the contract to engage in medical practice in an underserved area upon repayment to the Commonwealth of the total amount of scholarship funds plus interest on such amount computed at eight percent per annum from the date of receipt of scholarship funds. This obligation may be waived in whole or in part by the Commissioner in his discretion upon application by the recipient or his estate to the Commissioner with proof of hardship or inability to pay.

F. Except as provided in subsections D and E, any recipient of a scholarship who fails or refuses to fulfill his obligation to practice medicine in one of the designated specialties in an underserved area for a period of years equal to the number of annual scholarships received shall reimburse the Commonwealth three times the total amount of the scholarship funds received plus interest at the prevailing bank rate for similar amounts of unsecured debt. If the recipient has fulfilled part of his contractual obligations by serving in an underserved area in one of the designated specialties, the total amount of the scholarship funds received shall be reduced by the amount of the annual scholarship multiplied by the number of years served.

G. The Commissioner shall collect all repayments required by this section and may establish a schedule of payments for reimbursement consistent with the regulations of the Board. No schedule of payments shall amortize the total amount due for a period of longer than two years following the completion of the recipient's postgraduate training or the recipient's entrance into the full-time practice of medicine, whichever is later. All such funds, including any interest thereon, shall be used only for the purposes of this section and shall not revert to the general fund. If any recipient fails to make any payment when and as due, the Commissioner shall notify the Attorney General. The Attorney General shall take such action as he

deems proper. In the event court action is required to collect a delinquent scholarship account, the recipient shall be responsible for the court costs and reasonable ~~attorneys'~~ attorney fees incurred by the Commonwealth in such collection.

H. For purposes of this section, the term "underserved area" ~~shall include~~ includes those medically underserved areas designated by the Board pursuant to § 32.1-122.5 and health professional shortage areas designated in accordance with the criteria established in 42 C.F.R. Part 5.

The evaluator shall prepare a report that shall include written findings as to whether:

1. Because of mental illness, the minor (i) presents a serious danger to himself or others to the extent that severe or irremediable injury is likely to result, as evidenced by recent acts or threats or (ii) is experiencing a serious deterioration of his ability to care for himself in a developmentally age-appropriate manner, as evidenced by delusional thinking or by a significant impairment of functioning in hydration, nutrition, self-protection, or self-control;

2. The minor is in need of inpatient treatment for a mental illness and is reasonably likely to benefit from the proposed treatment; and

3. Inpatient treatment is the least restrictive alternative that meets the minor's needs. The qualified evaluator shall submit his report to the juvenile and domestic relations district court for the jurisdiction in which the facility is located.

C. Upon admission of a minor under this section, the facility shall file a petition for judicial approval no sooner than 24 hours and no later than ~~96~~ 120 hours after admission with the juvenile and domestic relations district court for the jurisdiction in which the facility is located. To the extent available, the petition shall contain the information required by § 16.1-339.1. A copy of this petition shall be delivered to the minor's consenting parent. Upon receipt of the petition and of the evaluator's report submitted pursuant to subsection B, the judge shall appoint a guardian ad litem for the minor and counsel to represent the minor, unless it has been determined that the minor has retained counsel. A copy of the evaluator's report shall be provided to the minor's counsel and guardian ad litem. The court and the guardian ad litem shall review the petition and evaluator's report and shall ascertain the views of the minor, the minor's consenting parent, the evaluator, and the attending psychiatrist. The court shall conduct its review in such place and manner, including the facility, as it deems to be in the best interests of the minor. Based upon its review and the recommendations of the guardian ad litem, the court shall order one of the following dispositions:

1. If the court finds that the minor does not meet the criteria for admission specified in subsection B, the court shall issue an order directing the facility to release the minor into the custody of the parent who consented to the minor's admission. However, nothing herein shall be deemed to affect the terms and provisions of any valid court order of custody affecting the minor.

2. If the court finds that the minor meets the criteria for admission specified in subsection B, the court shall issue an order authorizing continued hospitalization of the minor for up to 90 days on the basis of the parent's consent.

Within 10 days after the admission of a minor under this section, the director of the facility or the director's designee shall ensure that an individualized plan of treatment has been prepared by the provider responsible for the minor's treatment and has been explained to the parent consenting to the admission and to the minor. A copy of the plan shall also be provided to the guardian ad litem and to counsel for the minor. The minor shall be involved in the preparation of the plan to the maximum feasible extent consistent with his ability to understand and participate, and the minor's family shall be involved to the maximum extent consistent with the minor's treatment needs. The plan shall include a preliminary plan for placement and aftercare upon completion of inpatient treatment and shall include specific behavioral and emotional goals against which the success of treatment may be measured.

3. If the court determines that the available information is insufficient to permit an informed determination regarding whether the minor meets the criteria specified in subsection B, the court shall schedule a commitment hearing that shall be conducted in accordance with the procedures specified in §§ 16.1-341 through 16.1-345. The minor may be detained in the hospital for up to ~~96~~ 120 additional hours pending the holding of the commitment hearing.

D. A minor admitted under this section who rescinds his objection may be retained in the hospital pursuant to § 16.1-338.

E. If the parent who consented to a minor's admission under this section revokes his consent at any time, the minor shall be released within 48 hours to the parent's custody unless the minor's continued hospitalization is authorized pursuant

to § 16.1-340.1 or 16.1-345. If the 48-hour time period expires on a Saturday, Sunday, legal holiday or day on which the court is lawfully closed, the 48 hours shall extend to the next day that is not a Saturday, Sunday, legal holiday or day on which the court is lawfully closed.

F. A minor who has been hospitalized while properly detained by a juvenile and domestic relations district court or circuit court shall be returned to the detention home, shelter care, or other facility approved by the Department of Juvenile Justice by the sheriff serving the jurisdiction where the minor was detained within 24 hours following completion of a period of inpatient treatment, unless the court having jurisdiction over the case orders that the minor be released from custody.

### CHAPTER 536

*An Act to amend and reenact § 51.1-142.2 of the Code of Virginia, relating to the Virginia Retirement System; purchase of prior service credit.*

[S 942]

Approved March 23, 2015

**Be it enacted by the General Assembly of Virginia:**

**1. That § 51.1-142.2 of the Code of Virginia is amended and reenacted as follows:**

**§ 51.1-142.2. Prior service or membership credit for certain members; service credit for accumulated sick leave.**

Certain members may purchase credit for service as provided in this section.

A. Except as provided in subdivisions 1 and 2, in order to receive credit for the service made available in subsection B, a member in service shall be required to make a payment for each year, or portion thereof, to be credited at the time of purchase, equal to five percent of his creditable compensation or five percent of his average final compensation, whichever is greater, unless the member in service is purchasing the service made available in subsection B through a pre-tax or post-tax deduction, in which case the cost to purchase each year, or portion thereof, of such service shall be five percent of his creditable compensation.

1. A person who becomes a member on or after July 1, 2010, or a member who does not have at least 60 months of creditable service as of January 1, 2013, shall pay an amount equal to a rate approximating the normal cost for the retirement program under which the member is covered, with such rate for each retirement program to be determined by the Board, and reviewed by the Board no less than every six years. However, if the member does not purchase, or enter into a purchase of service contract for the service made available in subsection B within one year from his first date of hire or within one year of the final day of any leave of absence under subdivision B 2, as applicable, then, for each year or portion thereof to be credited at the time of purchase, the member shall pay an amount equal to the actuarial equivalent cost.

2. If a member other than a member described in subdivision 1 does not purchase, or enter into a purchase of service contract for, the service made available in subsection B within three years from his first date of hire or within three years of the final day of any leave of absence under subdivision B 2, as applicable, then, for each year or portion thereof to be credited at the time of purchase, the member shall pay an amount equal to the actuarial equivalent cost.

3. When a member requests credit for a portion of the period, the most recent portion shall be credited. Payment may be made in a lump sum at the time of purchase or by an additional payroll deduction. Any number of additional deductions may be permitted at any time. Should any additional deduction be terminated prior to purchasing the entire period that might otherwise be credited, the member shall be credited with the number of additional full or partial months of service for which full payment is made. If any additional deduction is continued beyond the point at which the entire period has been purchased, the member shall be credited with no more than the entire period that might otherwise have been credited and the excess amount deducted shall be refunded to the member.

Any employer may elect to pay an equivalent amount in lieu of all member contributions required of its employees for the purpose of service credit pursuant to this section. These contributions shall not be considered wages for purposes of Chapter 7 (§ 51.1-700 et seq.), nor shall they be considered to be salary for purposes of this chapter.

B. 1. Any member in service may purchase prior service credit for (i) active duty military service in the armed forces of the United States, provided that the discharge from a period of active duty status with the armed forces was not dishonorable; (ii) creditable service of another state or of a political subdivision or public school system of this or another state, as certified by such state, political subdivision or public school system; (iii) creditable service of a political subdivision of this state not credited to the member under an agreement as provided for in § 51.1-143.1, as certified by such political subdivision; (iv) civilian service of the United States; (v) creditable service at a private institution of higher education if the private institution is merged with a public institution of higher education and graduates of the private institution are then issued new degrees from the public institution; or (vi) any period of time when the member was employed by a participating employer and not otherwise eligible to participate in the retirement system because the member was not an employee as defined in § 51.1-124.3.

For purposes of this subsection, "active duty military service" means full-time service of at least 180 consecutive days in the United States Army, Navy, Air Force, Marines, Coast Guard, or reserve components thereof.

2. Any member (i) granted a leave of absence for educational purposes may purchase service credit for such leave of absence; or (ii) granted any unpaid leave of absence due to the birth or adoption, or death of a qualifying child, as defined in § 51.1-500, may purchase up to one year of service credit per occurrence of leave.

C. Any member in service may purchase service credit for creditable service lost from ceasing to be a member under this chapter, as provided in § 51.1-128, because of the withdrawal of his accumulated contributions. Notwithstanding any other provision in this section, the cost to purchase such service shall be five percent of his creditable compensation or five percent of his average final compensation, whichever is greater, unless the member in service is purchasing such service through a pre-tax or post-tax deduction, in which case the cost to purchase each year, or portion thereof, of such service shall be five percent of his creditable compensation, provided, however, that the applicable cost for a person enrolled in the hybrid retirement program described in § 51.1-169 shall be four percent. If the member purchases or enters into a contract to purchase such service within three years of the date he became eligible to purchase the service, then the service may be purchased in a lump sum at the time of purchase or through an additional payroll deduction. Any purchase of such service made at a time later than such period shall be made in a lump sum at the time of purchase.

D. Any member in service may purchase service credit for accumulated sick leave on his effective date of retirement based upon such sums as the employer may provide as payment for any unused sick leave balances. The cost of service credit purchased under this subsection shall be the actuarial equivalent cost of such service.

E. Any member receiving benefits under the Virginia Workers' Compensation Act (§ 65.2-100 et seq.) may, in a manner prescribed by the Board and prior to the effective date of retirement, purchase service credit for service that is not reported to the retirement system by the member's employer while the member is receiving such benefits. Notwithstanding any other provision in this section, the cost to purchase such service shall be five percent of the member's creditable compensation.

F. In any case where member and employer contributions, as required under this chapter, were not made because of an error in the payroll, personnel, or other classification system of an employer participating in the retirement system, service that has not been credited because of such error may be purchased on the following basis:

1. The most recent three years of service shall be purchased, using applicable member and employer contribution rates and creditable compensation in effect for such period, in a manner and cost prescribed by the Board; and
2. All other years of service the employer shall purchase at an actuarial equivalent cost.

G. The service credit to be credited to a member under this section shall be calculated at the ratio of one year, or portion thereof, of service credit to one year, or portion thereof, of service purchased, except for part-time service purchased under clause (vi) of subdivision B 1 which shall be calculated at the ratio of one month of service credit for each 173 hours of service as certified by the employer and as purchased by the member. Up to a maximum of four years of service credit may be purchased for each of clauses (i) through (vi) of subdivision B 1 and clauses (i) and (ii) of subdivision B 2. In addition, a member in service may purchase service credit for every year or portion thereof for service lost from cessation of membership as described in subsection C.

Except as otherwise required by Chapter 1223 of Title 10 of the United States Code, the service credit made available under this section may not be purchased if, before being purchased or at the time of such purchase pursuant to this section, the service to be purchased is service that is included in the calculation of any retirement allowance received or to be received by the member from this or another retirement system.

H. Any member may receive credit at no cost for service rendered in the armed forces of the United States provided (i) the member was on leave of absence from a covered position, (ii) the discharge from a period of active duty with the armed forces was not dishonorable, (iii) the member has not withdrawn his accumulated contributions, (iv) the member is not disabled or killed while on leave without pay while performing active duty military service in the armed forces of the United States, and (v) the member reenters service in a covered position within one year after discharge from the armed forces. In order to receive such service, the member must complete such forms and other requirements as are required by the Board and the retirement system.

### CHAPTER 538

*An Act to amend and reenact §§ 51.1-169 and 51.1-610 of the Code of Virginia, relating to hybrid retirement program; school division deferred compensation and cash match plans.*

[S 1162]

Approved March 23, 2015

**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 51.1-169 and 51.1-610 of the Code of Virginia are amended and reenacted as follows:**

**§ 51.1-169. Hybrid retirement program.**

A. For purposes of this section, "hybrid retirement program" or "program" means a hybrid retirement program covering any employee in a position covered for retirement purposes under the provisions of Chapter 1 (§ 51.1-124.1 et seq.) for retirement purposes other than the Virginia Retirement System defined benefit retirement plan established under Chapter 1 (§ 51.1-124.1 et seq.). Persons who are participants in, or eligible to be participants in, the retirement plans under the provisions of Chapter 2 (§ 51.1-200 et seq.), Chapter 2.1 (§ 51.1-211 et seq.), the optional retirement plans established under §§ 51.1-126.1, 51.1-126.3, 51.1-126.4, and 51.1-126.7, or a person eligible to earn the benefits permitted by § 51.1-138 shall not be eligible to participate in the hybrid retirement program. Any person who is employed as a firefighter, emergency medical technician, or law-enforcement officer as those terms are defined in § 15.2-1512.2 and whose employing political subdivision has legally adopted an irrevocable resolution as described in subdivision B 4 of § 51.1-153 and subdivision A 3 of § 51.1-155 shall not be eligible to participate in the hybrid retirement program. No member of the Judicial Retirement System under Chapter 3 (§ 51.1-300 et seq.) shall be eligible to participate in the hybrid retirement program described in § 51.1-169 except members appointed to an original term on or after January 1, 2014.

The Board shall maintain the hybrid retirement program established by this section, and any employer is authorized to make contributions under such program for the benefit of its employees participating in such program. Every person who is otherwise eligible to participate in the program but is not a member of a retirement plan administered by the Virginia Retirement System the first time he is hired on or after January 1, 2014, in a covered position, shall participate in the hybrid retirement program established by this section.

A person who participates in the otherwise applicable defined benefit retirement plan established by this title and administered by the Virginia Retirement System under this chapter may make an irrevocable election to participate in the hybrid retirement program maintained under this section. Such election shall be exercised no later than April 30, 2014. If an election is not made by April 30, 2014, such employee shall be deemed to have elected not to participate in the hybrid retirement program and shall continue to participate in his current retirement plan.

*B. Except as otherwise provided in subsection G:*

1. The employer shall make contributions to the defined benefit component of the program in accordance with § 51.1-145.

2. The employer shall make a mandatory contribution to the defined contribution component of the program on behalf of an employee participating in the program in the amount of one percent of creditable compensation, *which shall be made to the appropriate cash match plan established for the employee under § 51.1-608.* In addition, the employer shall make a matching contribution on behalf of the employee based on the employee's voluntary contributions under the defined contribution component of the program to the deferred compensation plan established under § 51.1-602, up to a maximum of 2.5 percent of creditable compensation for the payroll period, as follows: (i) 100 percent of the first one percent of creditable compensation contributed by the employee to the defined contribution component of the program under subdivision C 2 for the payroll period, and (ii) 50 percent of the next three percent of creditable compensation contributed by the employee to the defined contribution component of the program under subdivision C 2 for the payroll period. The

matching contribution by the employer shall be made to the appropriate cash match plan established for the employee under § 51.1-608.

3. The total amount contributed by the employer under subdivision 2 shall vest to the employee's benefit according to the following schedule:

- a. Upon completion of two years of active participation, 50 percent.
- b. Upon completion of three years of active participation, 75 percent.
- c. Upon completion of four years of active participation, 100 percent.

For purposes of this subdivision, "active participation" includes creditable service, as defined in § 51.1-124.3, in any retirement plan established by this title and administered by the Retirement System.

If an employee terminates employment with an employer prior to achieving 100 percent vesting, contributions made by an employer on behalf of the employee under subdivision 2 that are not vested, shall be forfeited. The Board may establish a forfeiture account and may specify the uses of the forfeiture account.

4. An employee may direct the investment of contributions made by an employer under subdivision B 2.

5. No loans or hardship distributions shall be available from contributions made by an employer under subdivision B 2.

*C. Except as otherwise provided in subsection G:*

1. An employee participating in the hybrid retirement program maintained under this section shall, pursuant to procedures established by the Board, make mandatory contributions on a salary reduction basis in accordance with § 414(h) of the Internal Revenue Code (i) to the defined benefit component of the program in the amount of four percent of creditable compensation in lieu of the amount described in subsection A of § 51.1-144 and (ii) to the defined contribution component of the program in the amount of one percent of creditable compensation, *which shall be made to the appropriate cash match plan established for the employee under § 51.1-608.*

2. An employee participating in the hybrid retirement program may also make voluntary contributions to the defined contribution component of the program of up to four percent of creditable compensation or the limit on elective deferrals pursuant to § 457(b) of the Internal Revenue Code, whichever is less. The contribution by the employee shall be made to the appropriate deferred compensation plan established by the employee under § 51.1-602.

3. If an employee's voluntary contributions under subdivision C 2 are less than four percent of creditable compensation, the contribution will increase by one-half of one percent, beginning on January 1, 2017, and every three years thereafter, until the employee's voluntary contributions under subdivision C 2 reach four percent of creditable compensation. The increase will be effective beginning with the first pay period that begins in such calendar year unless the employee elects not to increase the voluntary contribution in a manner prescribed by the Board.

4. No loans or hardship distributions shall be available from contributions made by an employee under this subsection.

*5. Disclosure of all services, fees, restrictions, and surrender penalties associated with employee voluntary contributions under subdivision C 2 shall be provided by the Board on an annual basis to an employee who does not make the election provided in subdivision G 1.*

D. 1. The amount of the service retirement allowance under the defined benefit component of the program shall be governed by § 51.1-155 for all creditable service credited prior to the effective date of the member's participation in the program. For all other creditable service, the allowance shall equal one percent of a member's average final compensation multiplied by the amount of his creditable service while in the program. For judges who are participating in the hybrid retirement program, creditable service shall be determined as provided in § 51.1-303 and service retirement eligibility shall be determined as provided in § 51.1-305.

2. No member shall retire for disability under the defined benefit component of the program.

3. Except as provided in subdivision 1, any employee participating in the hybrid retirement program maintained under this section shall be considered to be a person who becomes a member on or after July 1, 2010.

4. In all other respects, administration of the defined benefit component of the program shall be governed by the provisions of Chapter 1 (§ 51.1-124.1 et seq.).

E. With respect to any employee who elects, pursuant to subsection A, to participate in the otherwise applicable defined benefit retirement plan established by this title and administered by the Virginia Retirement System, the employer shall collect and pay all employee and employer contributions to the Virginia Retirement System for retirement and group life insurance in accordance with the provisions of Chapter 1 (§ 51.1-124.1 et seq.) for such employee.

F. 1. The Board shall develop policies and procedures for administering the hybrid retirement program it maintains, including the establishment of guidelines for employee elections and deferrals under the program.

2. No employee who is an active member in the hybrid retirement program maintained under this section shall also be an active member of any other optional retirement plan maintained under the provisions of Chapter 1 (§ 51.1-124.1 et seq.).

3. If a member of the hybrid retirement program maintained under this section is at any time in service as an employee in a position covered for retirement purposes under the provisions of Chapter 1 (§ 51.1-124.1 et seq.), 2 (§ 51.1-200 et seq.), 2.1 (§ 51.1-211 et seq.), or 3 (§ 51.1-300 et seq.), his benefit payments under the hybrid retirement program maintained under this section shall be suspended while so employed; provided, however, reemployment shall have no effect on a payment under the defined contribution component of the program if the benefit is being paid in an annuity form under an annuity contract purchased with the member's account balance.

4. Any administrative fee imposed pursuant to subdivision A 13 of § 51.1-124.22 on any employer for administering and overseeing the hybrid retirement program maintained under this section shall be charged for each employee

participating in such program and shall be for costs incurred by the Virginia Retirement System that are directly related to the administration and oversight of such program. Notwithstanding the foregoing, the Board is authorized to collect all or a portion of such fee directly from the employee.

5. The creditable compensation for any employee on whose behalf employee or employer contributions are made into the hybrid retirement program shall not exceed the limit on compensation as adjusted by the Commissioner of the Internal Revenue Service pursuant to the transition provisions applicable to eligible participants under state and local governmental plans under § 401(a)(17) of the Internal Revenue Code as amended in 1993 and as contained in § 13212(d)(3) of the Omnibus Budget Reconciliation Act of 1993 (P.L. 103-66).

6. The Board may contract with private corporations or institutions, subject to the standards set forth in § 51.1-124.30, to provide investment products as well as any other goods and services related to the administration of the hybrid retirement program, *except as provided in subsection G*. The Virginia Retirement System is hereby authorized to perform related services, including but not limited to, providing consolidated billing, individual and collective recordkeeping and accountings, and asset purchase, control, and safekeeping.

*G.1. Any political subdivision of the Commonwealth that has established a plan pursuant to § 403(b) of the Internal Revenue Code of 1986, as amended (a "403(b) plan"), may, at its option, elect to allow its employees the option to direct that voluntary contributions to the defined contribution component of the program under subdivision C 2 be made to such 403(b) plan and the corresponding employer matching contributions under subdivision B 2 be made to such 403(b) plan or the appropriate local cash match plan established under § 51.1-610. All such voluntary contributions by an employee to such 403(b) plan shall be made on a pretax basis. Any such political subdivision of the Commonwealth that so directs shall develop policies and procedures for administering such contributions, subject to and in accordance with applicable federal law and regulations. The policies and procedures shall provide for the administration of vesting provisions as provided in subdivision B 3, the establishment of and uses for a forfeiture account as provided in subdivision B 3, and automatic contribution escalation provisions as provided in subdivision C 3, all with regard to employee voluntary contributions and corresponding employer matching contributions.*

*In all other respects, the political subdivision shall be subject to the provisions of the hybrid retirement program described in this section.*

2. The governing body of any political subdivision of the Commonwealth electing to allow its employees to use its 403(b) plan or a local cash match plan as described in subdivision 1 shall adopt a resolution on or before November 1, 2015, and submit such resolution to the Board to notify the Board of its election, which shall be effective January 1, 2016, and shall remain effective for 12 months. Thereafter, the governing body of any political subdivision of the Commonwealth may make or change its election for its employees no more often than annually by adopting a resolution on or before November 1 of each year notifying the Board of a new or changed election, which shall become effective on January 1.

3. A person who participates in the hybrid retirement program maintained under this section may make an election to participate in the 403(b) plan established by his employer under subdivision G 1. Such election shall be exercised no later than November 30, 2015, and shall be effective January 1, 2016. If an election is not made by November 30, 2015, such employee shall be deemed to have elected not to participate in the 403(b) plan established by his employer under subdivision G 1. Thereafter, such employee may make or change his election on or before November 30 of each year by notifying his employer of a new or changed election, which shall become effective the following January 1. If an election is not made or changed by November 30, such employee shall be deemed to have elected not to change the prior year's election.

4. In the case of a 403(b) plan or local cash match plan administered by a political subdivision of the Commonwealth that provides individual accounts permitting an employee or beneficiary to exercise discretion over assets in his account, the political subdivision shall not be liable for any loss resulting from such employee's or beneficiary's (i) investment of voluntary contributions in the political subdivision's 403(b) plan or matching contributions in the political subdivision's 403(b) plan or local cash match plan, (ii) exercise of discretion over the assets in any of his accounts, or (iii) inaction with respect to the assets in any of his accounts that results in such assets being placed in a default investment option selected by the political subdivision, provided that the investment options for the affected individual account and the particular default investment option for such individual account are selected in accordance with subsection A of § 51.1-803, applied *mutatis mutandis*. Under no circumstances shall the Commonwealth, the Board, employees of the Retirement System, the Investment Advisory Committee of the Retirement System, or any other advisory committee established by the Board bear any liability with respect to any plan or individual account described in this subsection.

5. The provisions of this subsection shall not apply to any political subdivision of the Commonwealth that has entered into an agreement with the Retirement System pursuant to § 51.1-603.1 or 51.1-611 except with regard to a 403(b) plan.

6. Disclosure of all services, fees, restrictions, and surrender penalties associated with employee voluntary contributions under subsection G shall be provided by the political subdivision of the Commonwealth on an annual basis to an employee who makes the election provided in subdivision G 1. Such employee shall also be provided with a side-by-side comparison of the long-term effects of generic expense ratios on his investments.

7. The Board shall not be responsible for administration of or recordkeeping related to voluntary contributions to the defined contribution component of the program made to a 403(b) plan or the corresponding employer matching

*contributions made to a 403(b) plan or the appropriate local cash match plan established under § 51.1-610 that are authorized by subdivision G 1.*

8. *The Board shall develop policies and procedures for administering the provisions of this subsection.*

**§ 51.1-610. Local cash match plans.**

A. Any county, municipality, authority, or other political subdivision of the Commonwealth may by ordinance or resolution adopt and establish for itself and its employees a cash match plan. Any such cash match plan may include constitutional officers and their employees. The ordinance or resolution adopting or establishing such plan shall create or designate an appropriate board or officer to administer the plan, and shall confer upon such board or officer the authority to do all things by way of supervision, administration, and implementation of the plan, including the power to contract with private corporations or institutions for services in connection therewith.

B. If it deems it advisable, any county, municipality, authority, or other political subdivision of the Commonwealth, which by ordinance or resolution adopts and establishes for itself and its employees a cash match plan, may create a trust or other special fund for the segregation of the funds or assets resulting from contributions.

~~C. No amount shall be credited pursuant to any cash match plan created pursuant to this section on behalf of a qualified participant who is participating in the hybrid retirement program described in § 51.1-169 if the qualified participant has not contributed the maximum amount of voluntary contributions under subdivision C 2 of § 51.1-169.~~

**2. That the provisions of this act shall become effective on January 1, 2016, except the provisions of subdivision G 2 of § 51.1-169 of the Code of Virginia, as created by this act, which shall become effective in due course.**

**§ 51.1-169. Hybrid retirement program.**

A. For purposes of this section, "hybrid retirement program" or "program" means a hybrid retirement program covering any employee in a position covered for retirement purposes under the provisions of Chapter 1 (§ 51.1-124.1 et seq.) for retirement purposes other than the Virginia Retirement System defined benefit retirement plan established under Chapter 1 (§ 51.1-124.1 et seq.). Persons who are participants in, or eligible to be participants in, the retirement plans under the provisions of Chapter 2 (§ 51.1-200 et seq.), Chapter 2.1 (§ 51.1-211 et seq.), the optional retirement plans established under §§ 51.1-126.1, 51.1-126.3, 51.1-126.4, and 51.1-126.7, or a person eligible to earn the benefits permitted by § 51.1-138 shall not be eligible to participate in the hybrid retirement program. No member of the Judicial Retirement System under Chapter 3 (§ 51.1-300 et seq.) shall be eligible to participate in the hybrid retirement program described in § 51.1-169 except members appointed to an original term on or after January 1, 2014.

The Board shall maintain the hybrid retirement program established by this section, and any employer is authorized to make contributions under such program for the benefit of its employees participating in such program. Every person who is otherwise eligible to participate in the program but is not a member of a retirement plan administered by the Virginia Retirement System the first time he is hired on or after January 1, 2014, in a covered position, shall participate in the hybrid retirement program established by this section.

A person who participates in the otherwise applicable defined benefit retirement plan established by this title and administered by the Virginia Retirement System under this chapter may make an irrevocable election to participate in the hybrid retirement program maintained under this section. Such election shall be exercised no later than April 30, 2014. If an election is not made by April 30, 2014, such employee shall be deemed to have elected not to participate in the hybrid retirement program and shall continue to participate in his current retirement plan.

B. *Except as otherwise provided in subsection G:*

1. The employer shall make contributions to the defined benefit component of the program in accordance with § 51.1-145.

2. The employer shall make a mandatory contribution to the defined contribution component of the program on behalf of an employee participating in the program in the amount of one percent of creditable compensation, *which shall be made to the appropriate cash match plan established for the employee under § 51.1-608.* In addition, the employer shall make a matching contribution on behalf of the employee based on the employee's voluntary contributions under the defined contribution component of the program to the deferred compensation plan established under § 51.1-602, up to a maximum of 2.5 percent of creditable compensation for the payroll period, as follows: (i) 100 percent of the first one percent of creditable compensation contributed by the employee to the defined contribution component of the program under

subdivision C 2 for the payroll period, and (ii) 50 percent of the next three percent of creditable compensation contributed by the employee to the defined contribution component of the program under subdivision C 2 for the payroll period. The matching contribution by the employer shall be made to the appropriate cash match plan established for the employee under § 51.1-608.

3. The total amount contributed by the employer under subdivision 2 shall vest to the employee's benefit according to the following schedule:

- a. Upon completion of two years of active participation, 50 percent.
- b. Upon completion of three years of active participation, 75 percent.
- c. Upon completion of four years of active participation, 100 percent.

For purposes of this subdivision, "active participation" includes creditable service, as defined in § 51.1-124.3, in any retirement plan established by this title and administered by the Retirement System.

If an employee terminates employment with an employer prior to achieving 100 percent vesting, contributions made by an employer on behalf of the employee under subdivision 2 that are not vested, shall be forfeited. The Board may establish a forfeiture account and may specify the uses of the forfeiture account.

4. An employee may direct the investment of contributions made by an employer under subdivision B 2.

2. An employee participating in the hybrid retirement program may also make voluntary contributions to the defined contribution component of the program of up to four percent of creditable compensation or the limit on elective deferrals pursuant to § 457(b) of the Internal Revenue Code, whichever is less. The contribution by the employee shall be made to the appropriate deferred compensation plan established by the employee under § 51.1-602.

3. If an employee's voluntary contributions under subdivision C 2 are less than four percent of creditable compensation, the contribution will increase by one-half of one percent, beginning on January 1, 2017, and every three years thereafter, until the employee's voluntary contributions under subdivision C 2 reach four percent of creditable compensation. The increase will be effective beginning with the first pay period that begins in such calendar year unless the employee elects not to increase the voluntary contribution in a manner prescribed by the Board.

4. No loans or hardship distributions shall be available from contributions made by an employee under this subsection.

*5. Disclosure of all services, fees, restrictions, and surrender penalties associated with employee voluntary contributions under subdivision C 2 shall be provided by the Board on an annual basis to an employee who does not make the election provided in subdivision G 1.*

D. 1. The amount of the service retirement allowance under the defined benefit component of the program shall be governed by § 51.1-155 for all creditable service credited prior to the effective date of the member's participation in the program. 4. Any administrative fee imposed pursuant to subdivision A 13 of § 51.1-124.22 on any employer for administering and overseeing the hybrid retirement program maintained under this section shall be charged for each employee participating in such program and shall be for costs incurred by the Virginia Retirement System that are directly related to the administration and oversight of such program. The plan shall include the defendant's home address, place of employment and address, social security number and bank information. If the court finds such plan to be reasonable and practical under the circumstances, it may consider probation or suspension of whatever portion of the sentence that it deems appropriate. By order of the court incorporating the defendant's plan or a reasonable and practical plan devised by the court, the defendant shall make restitution while he is free on probation or work release or following his release from confinement. Additionally, the court may order that the defendant make restitution during his confinement, if feasible, based upon both his earning capacity and net worth as determined by the court at sentencing.

If community service work is ordered, the court shall determine the terms and conditions upon which such work shall be performed. The court shall include such findings in the judgment order. The order shall specify that sums paid under such order shall be paid to the clerk, who shall disburse such sums as the court may, by order, direct. Any court desiring to participate in the Setoff Debt Collection Act (§§ 58.1-520 through 58.1-535) for the purpose of collecting fines or costs or providing restitution shall, at the time of sentencing, obtain the social security number of each defendant.

E. Unreasonable failure to execute the plan by the defendant shall result in revocation of the probation or imposition of the suspended sentence. A hearing shall be held in accordance with the provisions of this Code relating to revocation of probation or imposition of a suspended sentence before either such action is taken.

E1. A defendant convicted of an offense under § 18.2-374.1, 18.2-374.1:1, or 18.2-374.3 shall be ordered to pay mandatory restitution to the victim of the offense in an amount as determined by the court. The administrator shall reserve a sum sufficient in the Fund from which he shall make prompt payment to the victim for any proper claims. Before making the deposit he shall record the name, last known address and amount of restitution due each victim appearing from the clerk's report to be entitled to restitution.

G. If restitution pursuant to § 19.2-305 or this section is ordered to be paid by the defendant to the victim of a crime or other entity, and the Criminal Injuries Compensation Fund has made any payments to or on behalf of the victim for any loss, damage, or expenses included in the restitution order, then upon presentation by the Fund of a written request that sets forth the amount of payments made by the Fund to the victim or on the victim's behalf, the entity collecting restitution shall pay to the Fund as much of the restitution collected as will reimburse the Fund for its payments made to the victim or on the victim's behalf.

*An Act to amend and reenact § 64.2-502 of the Code of Virginia, relating to administration of intestate estate; person convicted of fraud, misrepresentation, robbery, etc.*

[S 865]

Approved March 23, 2015

### **Be it enacted by the General Assembly of Virginia:**

#### **1. That § 64.2-502 of the Code of Virginia is amended and reenacted as follows:**

##### **§ 64.2-502. Grant of administration of intestate estate.**

A. The court or the clerk who would have jurisdiction as to the probate of a will, if there were a will, has jurisdiction to hear and determine the right of administration of the estate in the case of a person dying intestate. Administration shall be granted as follows:

1. During the first 30 days following the decedent's death, the court or the clerk may grant administration to a sole distributee, or his designee, or in the absence of a sole distributee, to any distributee, or his designee, who presents written waivers of the right to qualify from all other competent distributees.

2. After 30 days have passed since the decedent's death, the court or the clerk may grant administration to the first distributee, or his designee, who applies, provided, that if, during the first 30 days following the decedent's death, more than one distributee notifies the court or the clerk of an intent to qualify after the 30-day period has elapsed, the court or the clerk shall not grant administration to any distributee, or his designee, until the court or the clerk has given all such distributees an opportunity to be heard.

3. After 45 days have passed since the decedent's death, the court or the clerk may grant administration to any nonprofit charitable organization that operated as a conservator or guardian for the decedent at the time of his death if such

organization certifies that it has made a diligent search to find an address for any sole distributee and has sent notice by certified mail to the last known address of any such distributee of its intention to apply for administration at least 30 days before such application, or, that it has not been able to find any address for such distributee. However, if, during the first 45 days following the decedent's death, any distributee notifies the court or the clerk of an intent to qualify after the 45-day period has elapsed, the court or the clerk shall not grant administration to any such organization until the court or the clerk has given all such distributees an opportunity to be heard. Qualification of such nonprofit charitable organization is not subject to challenge on account of the failure to make the certification required by this subdivision.

4. After 60 days have passed since the decedent's death, the court or the clerk may grant administration to one or more of the creditors or to any other person, provided such creditor or person other than a distributee certifies that he has made a diligent search to find an address for any sole distributee and has sent notice by certified mail to the last known address of any such distributee of his intention to apply for administration at least 30 days before such application, or that he has not been able to find any address for such distributee. Qualification of a creditor or person other than a distributee is not subject to challenge on account of the failure to make the certification required by this subdivision.

B. When granting administration, if the court determines that it is in the best interests of a decedent's estate, the court may depart from the provisions of this section at any time and grant administration to such person as the court deems appropriate.

C. The court or clerk may admit to probate a will of the decedent after a grant of administration. If administration has been granted to a creditor or person other than a distributee, the court or clerk may grant administration to a distributee who applies for administration and who has not previously been refused administration after reasonable notice has been given to such creditor or other person previously granted administration. Admission of a will to probate or the grant of administration pursuant to this subsection terminates any previous grant of administration.

D. The court or clerk shall not grant administration to any person unless satisfied that he is suitable and competent to perform the duties of his office. ~~Administration shall not be granted to any person~~ *The clerk shall require such person to sign under oath that such person is not under a disability as defined in § 8.01-2 or, regardless of whether his civil rights have been restored, has not been convicted of a felony offense of (i) fraud or misrepresentation or (ii) robbery, extortion, burglary, larceny, embezzlement, fraudulent conversion, perjury, bribery, treason, or racketeering. However, if the person convicted of such felony offense is the sole distributee of the estate, then the court or clerk may grant administration to such person if he is otherwise suitable and competent to perform the duties of his office.*

E. If any beneficiary of the estate objects, a spouse or parent who has been barred from all interest in the estate because of desertion or abandonment as provided under § 64.2-308 may not serve as an administrator of the estate of the deceased spouse or child.

*An Act to amend and reenact § 22.1-253.13:3 of the Code of Virginia, relating to public schools; Standards of Learning assessments.*

[H 1303]

Approved March 23, 2015

### **Be it enacted by the General Assembly of Virginia:**

**1. That § 22.1-253.13:3 of the Code of Virginia is amended and reenacted as follows:**

#### **§ 22.1-253.13:3. Standard 3. Accreditation, other standards, assessments, and releases from state regulations.**

A. The Board of Education shall promulgate regulations establishing standards for accreditation pursuant to the Administrative Process Act (§ 2.2-4000 et seq.), which shall include, but not be limited to, student outcome measures, requirements and guidelines for instructional programs and for the integration of educational technology into such instructional programs, administrative and instructional staffing levels and positions, including staff positions for supporting educational technology, student services, auxiliary education programs such as library and media services, course and credit requirements for graduation from high school, community relations, and the philosophy, goals, and objectives of public education in Virginia.

The Board of Education shall promulgate regulations establishing standards for accreditation of public virtual schools under the authority of the local school board that enroll students full time.

The Board shall review annually the accreditation status of all schools in the Commonwealth.

Each local school board shall maintain schools that are fully accredited pursuant to the standards for accreditation as prescribed by the Board of Education. Each local school board shall review the accreditation status of all schools in the local school division annually in public session. Within the time specified by the Board of Education, each school board shall submit corrective action plans for any schools within its school division that have been designated as not meeting the standards as approved by the Board.

When the Board of Education has obtained evidence through the school academic review process that the failure of schools within a division to achieve full accreditation status is related to division level failure to implement the Standards of Quality, the Board may require a division level academic review. After the conduct of such review and within the time specified by the Board of Education, each school board shall submit for approval by the Board a corrective action plan, consistent with criteria established by the Board and setting forth specific actions and a schedule designed to ensure that schools within its school division achieve full accreditation status. Such corrective action plans shall be part of the relevant school division's comprehensive plan pursuant to § 22.1-253.13:6.

With such funds as are appropriated or otherwise received for this purpose, the Board shall adopt and implement an academic review process, to be conducted by the Department of Education, to assist schools that are accredited with warning. The Department shall forward a report of each academic review to the relevant local school board, and such school board shall report the results of such academic review and the required annual progress reports in public session. The local school board shall implement any actions identified through the academic review and utilize them for improvement planning.

B. The Superintendent of Public Instruction shall develop and the Board of Education shall approve criteria for determining and recognizing educational performance in the Commonwealth's public school divisions and schools. Such criteria, when approved, shall become an integral part of the accreditation process and shall include student outcome measurements. The Superintendent of Public Instruction shall annually identify to the Board those school divisions and schools that exceed or do not meet the approved criteria. Such identification shall include an analysis of the strengths and weaknesses of public education programs in the various school divisions in Virginia and recommendations to the General Assembly for further enhancing student learning uniformly across the Commonwealth. In recognizing educational performance in the school divisions, the Board shall include consideration of special school division accomplishments, such as numbers of dual enrollments and students in Advanced Placement and International Baccalaureate courses, and participation in academic year Governor's Schools.

The Superintendent of Public Instruction shall assist local school boards in the implementation of action plans for increasing educational performance in those school divisions and schools that are identified as not meeting the approved criteria. The Superintendent of Public Instruction shall monitor the implementation of and report to the Board of Education on the effectiveness of the corrective actions taken to improve the educational performance in such school divisions and schools.

C. With such funds as are available for this purpose, the Board of Education shall prescribe assessment methods to determine the level of achievement of the Standards of Learning objectives by all students. Such assessments shall evaluate knowledge, application of knowledge, critical thinking, and skills related to the Standards of Learning being assessed. The Board shall, ~~(i) in consultation with the chairpersons of the eight regional superintendents' study groups, establish a~~

~~timetable for administering the Standards of Learning assessments to ensure genuine end-of-course and end-of-grade testing and (ii) with the assistance of independent testing experts, conduct a regular analysis and validation process for these assessments. The Department of Education shall make available to school divisions Standards of Learning assessments typically administered by the middle and high schools by December 1 of the school year in which such assessments are to be administered or when newly developed assessments are available, whichever is later.~~

The Board shall also provide the option of industry certification and state licensure examinations as a student-selected verified credit.

The Board of Education shall make publicly available such assessments in a timely manner and as soon as practicable following the administration of such tests, so long as the release of such assessments does not compromise test security or deplete the bank of assessment questions necessary to construct subsequent tests, or limit the ability to test students on demand and provide immediate results in the web-based assessment system.

The Board shall include in the student outcome measures that are required by the Standards for Accreditation end-of-course or end-of-grade assessments for various grade levels and classes, including the completion of the alternative assessments implemented by each local school board, in accordance with the Standards of Learning. These assessments shall include end-of-course or end-of-grade tests for English, mathematics, science, and history and social science.

The Standards of Learning assessments administered to students in grades three through eight shall not exceed (a) reading and mathematics in grades three and four; (b) reading, mathematics, and science in grade five; (c) reading and mathematics in grades six and seven; (d) reading, writing, mathematics, and science in grade eight; and (e) Virginia Studies and Civics and Economics once each at the grade levels deemed appropriate by each local school board.

Each school board shall annually certify that it has provided instruction and administered an alternative assessment, consistent with Board guidelines, to students in grades three through eight in each Standards of Learning subject area in which a Standards of Learning assessment was not administered during the school year. Such guidelines shall (1) incorporate options for age-appropriate, authentic performance assessments and portfolios with rubrics and other methodologies designed to ensure that students are making adequate academic progress in the subject area and that the Standards of Learning content is being taught; (2) permit and encourage integrated assessments that include multiple subject areas; and (3) emphasize collaboration between teachers to administer and substantiate the assessments and the professional development of teachers to enable them to make the best use of alternative assessments.

Local school divisions shall provide targeted mathematics remediation and intervention to students in grades six through eight who show computational deficiencies as demonstrated by their individual performance on any diagnostic test or grade-level Standards of Learning mathematics test that measures non-calculator computational skills.

In addition, to assess the educational progress of students, the Board of Education shall (A) develop appropriate assessments, which may include criterion-referenced tests and other assessment instruments that may be used by classroom teachers; (B) select appropriate industry certification and state licensure examinations; and (C) prescribe and provide measures, which may include nationally normed tests to be used to identify students who score in the bottom quartile at selected grade levels. An annual justification that includes evidence that the student meets the participation criteria defined by the Virginia Department of Education shall be provided for each student considered for the Virginia Grade Level Alternative. Each Individual Education Program team shall review such justification and make the final determination as to whether or not the Virginia Grade Level Alternative is appropriate for the student. The superintendent and the school board chairman shall certify to the Board of Education, as a part of certifying compliance with the Standards of Quality, that there is a justification in the Individual Education Program for every student who takes the Virginia Grade Level Alternative. Compliance with this requirement shall be monitored as a part of the special education monitoring process conducted by the Department of Education. The Board shall report to the Governor and General Assembly in its annual reports pursuant to § 22.1-18 any school division that is not in compliance with this requirement.

The Standards of Learning requirements, including all related assessments, shall be waived for any student awarded a scholarship under the Brown v. Board of Education Scholarship Program, pursuant to § 30-231.2, who is enrolled in a preparation program for a high school equivalency examination approved by the Board of Education or in an adult basic education program or an adult secondary education program to obtain the high school diploma or a high school equivalency certificate.

The Board of Education may adopt special provisions related to the administration and use of any Standards of Learning test or tests in a content area as applied to accreditation ratings for any period during which the Standards of Learning content or assessments in that area are being revised and phased in. Prior to statewide administration of such tests, the Board of Education shall provide notice to local school boards regarding such special provisions.

D. The Board of Education may pursue all available civil remedies pursuant to § 22.1-19.1 or administrative action pursuant to § 22.1-292.1 for breaches in test security and unauthorized alteration of test materials or test results.

The Board may initiate or cause to be initiated a review or investigation of any alleged breach in security, unauthorized alteration, or improper administration of tests, including the exclusion of students from testing who are required to be assessed, by local school board employees responsible for the distribution or administration of the tests.

Records and other information furnished to or prepared by the Board during the conduct of a review or investigation may be withheld pursuant to subdivision 11 of § 2.2-3705.3. However, this section shall not prohibit the disclosure of records to (i) a local school board or division superintendent for the purpose of permitting such board or superintendent to consider or to take personnel action with regard to an employee or (ii) any requester, after the conclusion of a review or

investigation, in a form that (a) does not reveal the identity of any person making a complaint or supplying information to the Board on a confidential basis and (b) does not compromise the security of any test mandated by the Board. Any local school board or division superintendent receiving such records or other information shall, upon taking personnel action against a relevant employee, place copies of such records or information relating to the specific employee in such person's personnel file.

Notwithstanding any other provision of state law, no test or examination authorized by this section, including the Standards of Learning assessments, shall be released or required to be released as minimum competency tests, if, in the judgment of the Board, such release would breach the security of such test or examination or deplete the bank of questions necessary to construct future secure tests.

E. With such funds as may be appropriated, the Board of Education may provide, through an agreement with vendors having the technical capacity and expertise to provide computerized tests and assessments, and test construction, analysis, and security, for (i) web-based computerized tests and assessments, including computer-adaptive Standards of Learning assessments, for the evaluation of student progress during and after remediation and (ii) the development of a remediation item bank directly related to the Standards of Learning.

F. To assess the educational progress of students as individuals and as groups, each local school board shall require the use of Standards of Learning assessments, alternative assessments, and other relevant data, such as industry certification and state licensure examinations, to evaluate student progress and to determine educational performance. Each local school shall require the administration of appropriate assessments to students, which may include criterion-referenced tests and teacher-made tests and shall include the Standards of Learning assessments, the local school board's alternative assessments, and the National Assessment of Educational Progress state-by-state assessment. Each school board shall analyze and report annually, in compliance with any criteria that may be established by the Board of Education, the results from the Stanford Achievement Test Series, Ninth Edition (Stanford Nine) assessment, if administered, industry certification examinations, and the Standards of Learning Assessments to the public.

The Board of Education shall not require administration of the Stanford Achievement Test Series, Ninth Edition (Stanford Nine) assessment, except as may be selected to facilitate compliance with the requirements for home instruction pursuant to § 22.1-254.1.

The Board shall include requirements for the reporting of the Standards of Learning assessment scores and averages for each year as part of the Board's requirements relating to the School Performance Report Card. Such scores shall be disaggregated for each school by student subgroups on the Virginia assessment program as appropriate and shall be reported to the public within three months of their receipt. These reports (i) shall be posted on the portion of the Department of Education's website relating to the School Performance Report Card, in a format and in a manner that allows year-to-year comparisons, and (ii) may include the National Assessment of Educational Progress state-by-state assessment.

G. Each local school division superintendent shall regularly review the division's submission of data and reports required by state and federal law and regulations to ensure that all information is accurate and submitted in a timely fashion. The Superintendent of Public Instruction shall provide a list of the required reports and data to division superintendents annually. The status of compliance with this requirement shall be included in the Board of Education's annual report to the Governor and the General Assembly as required by § 22.1-18.

H. Any school board may request the Board of Education for release from state regulations or, on behalf of one or more of its schools, for approval of an Individual School Accreditation Plan for the evaluation of the performance of one or more of its schools as authorized for certain other schools by the Standards of Accreditation pursuant to 8 VAC 20-131-280 C of the Virginia Administrative Code. Waivers of regulatory requirements may be granted by the Board of Education based on submission of a request from the division superintendent and chairman of the local school board. The Board of Education may grant, for a period up to five years, a waiver of regulatory requirements that are not (i) mandated by state or federal law or (ii) designed to promote health or safety. The school board shall provide in its waiver request a description of how the releases from state regulations are designed to increase the quality of instruction and improve the achievement of students in the affected school or schools. The Department of Education shall provide (a) guidance to any local school division that requests releases from state regulations and (b) information about opportunities to form partnerships with other agencies or entities to any local school division in which the school or schools granted releases from state regulations have demonstrated improvement in the quality of instruction and the achievement of students.

The Board of Education may also grant local school boards waivers of specific requirements in § 22.1-253.13:2, based on submission of a request from the division superintendent and chairman of the local school board, permitting the local school board to assign instructional personnel to the schools with the greatest needs, so long as the school division employs a sufficient number of personnel divisionwide to meet the total number required by § 22.1-253.13:2 and all pupil/teacher ratios and class size maximums set forth in subsection C of § 22.1-253.13:2 are met. The school board shall provide in its request a description of how the waivers from specific Standards of Quality staffing standards are designed to increase the quality of instruction and improve the achievement of students in the affected school or schools. The waivers may be renewed in up to five-year increments, or revoked, based on student achievement results in the affected school or schools.

**CHAPTER 562**

*An Act to amend and reenact §§ 22.1-253.13:1 and 22.1-298.1 of the Code of Virginia, relating to teacher licensure renewal; college credit.*

[H 1320]

Approved March 23, 2015

**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 22.1-253.13:1 and 22.1-298.1 of the Code of Virginia are amended and reenacted as follows:**

**§ 22.1-253.13:1. Standard 1. Instructional programs supporting the Standards of Learning and other educational objectives.**

*A. The General Assembly and the Board of Education believe that the fundamental goal of the public schools of the Commonwealth must be to enable each student to develop the skills that are necessary for success in school, preparation for life, and reaching their full potential. The General Assembly and the Board of Education find that the quality of education is dependent upon the provision of (i) the appropriate working environment, benefits, and salaries necessary to ensure the availability of high-quality instructional personnel; (ii) the appropriate learning environment designed to promote student achievement; (iii) quality instruction that enables each student to become a productive and educated citizen of Virginia and the United States of America; and (iv) the adequate commitment of other resources. In keeping with this goal, the General Assembly shall provide for the support of public education as set forth in Article VIII, Section 1 of the Constitution of Virginia.*

*B. The Board of Education shall establish educational objectives known as the Standards of Learning, which shall form the core of Virginia's educational program, and other educational objectives, which together are designed to ensure the*

development of the skills that are necessary for success in school and for preparation for life in the years beyond. At a minimum, the Board shall establish Standards of Learning for English, mathematics, science, and history and social science. The Standards of Learning shall not be construed to be regulations as defined in § 2.2-4001.

The Board shall seek to ensure that the Standards of Learning are consistent with a high-quality foundation educational program. The Standards of Learning shall include, but not be limited to, the basic skills of communication (listening, speaking, reading, and writing); computation and critical reasoning, including problem solving and decision making; proficiency in the use of computers and related technology; and the skills to manage personal finances and to make sound financial decisions.

The English Standards of Learning for reading in kindergarten through grade three shall be based on components of effective reading instruction, to include, at a minimum, phonemic awareness, phonics, fluency, vocabulary development, and text comprehension.

The Standards of Learning in all subject areas shall be subject to regular review and revision to maintain rigor and to reflect a balance between content knowledge and the application of knowledge in preparation for eventual employment and lifelong learning. The Board of Education shall establish a regular schedule, in a manner it deems appropriate, for the review, and revision as may be necessary, of the Standards of Learning in all subject areas. Such review of each subject area shall occur at least once every seven years. Nothing in this section shall be construed to prohibit the Board from conducting such review and revision on a more frequent basis.

To provide appropriate opportunity for input from the general public, teachers, and local school boards, the Board of Education shall conduct public hearings prior to establishing revised Standards of Learning. Thirty days prior to conducting such hearings, the Board shall give notice of the date, time, and place of the hearings to all local school boards and any other persons requesting to be notified of the hearings and publish notice of its intention to revise the Standards of Learning in the Virginia Register of Regulations. Interested parties shall be given reasonable opportunity to be heard and present information prior to final adoption of any revisions of the Standards of Learning.

In addition, the Department of Education shall make available and maintain a website, either separately or through an existing website utilized by the Department of Education, enabling public elementary, middle, and high school educators to submit recommendations for improvements relating to the Standards of Learning, when under review by the Board according to its established schedule, and related assessments required by the Standards of Quality pursuant to this chapter. Such website shall facilitate the submission of recommendations by educators.

School boards shall implement the Standards of Learning or objectives specifically designed for their school divisions that are equivalent to or exceed the Board's requirements. Students shall be expected to achieve the educational objectives established by the school division at appropriate age or grade levels. The curriculum adopted by the local school division shall be aligned to the Standards of Learning.

The Board of Education shall include in the Standards of Learning for history and social science the study of contributions to society of diverse people. For the purposes of this subsection, "diverse" includes consideration of disability, ethnicity, race, and gender.

The Board of Education shall include in the Standards of Learning for health instruction in emergency first aid, cardiopulmonary resuscitation, and the use of an automated external defibrillator, including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation. Such instruction shall be based on the current national evidence-based emergency cardiovascular care guidelines for cardiopulmonary resuscitation and the use of an automated external defibrillator, such as a program developed by the American Heart Association or the American Red Cross. No teacher who is in compliance with subdivision D 4 5 of § 22.1-298.1 shall be required to be certified as a trainer of cardiopulmonary resuscitation to provide instruction for non-certification.

With such funds as are made available for this purpose, the Board shall regularly review and revise the competencies for career and technical education programs to require the full integration of English, mathematics, science, and history and social science Standards of Learning. Career and technical education programs shall be aligned with industry and professional standard certifications, where they exist.

C. Local school boards shall develop and implement a program of instruction for grades K through 12 that is aligned to the Standards of Learning and meets or exceeds the requirements of the Board of Education. The program of instruction shall emphasize reading, writing, speaking, mathematical concepts and computations, proficiency in the use of computers and related technology, and scientific concepts and processes; essential skills and concepts of citizenship, including knowledge of Virginia history and world and United States history, economics, government, foreign languages, international cultures, health and physical education, environmental issues, and geography necessary for responsible participation in American society and in the international community; fine arts, which may include, but need not be limited to, music and art, and practical arts; knowledge and skills needed to qualify for further education, gainful employment, or training in a career or technical field; and development of the ability to apply such skills and knowledge in preparation for eventual employment and lifelong learning and to achieve economic self-sufficiency.

Local school boards shall also develop and implement programs of prevention, intervention, or remediation for students who are educationally at risk including, but not limited to, those who fail to achieve a passing score on any Standards of Learning assessment in grades three through eight or who fail an end-of-course test required for the award of a verified unit of credit. Such programs shall include components that are research-based.

Any student who achieves a passing score on one or more, but not all, of the Standards of Learning assessments for the relevant grade level in grades three through eight may be required to attend a remediation program.

Any student who fails to achieve a passing score on all of the Standards of Learning assessments for the relevant grade level in grades three through eight or who fails an end-of-course test required for the award of a verified unit of credit shall be required to attend a remediation program or to participate in another form of remediation. Division superintendents shall require such students to take special programs of prevention, intervention, or remediation, which may include attendance in public summer school programs, in accordance with clause (ii) of subsection A of § 22.1-254 and § 22.1-254.01.

Remediation programs shall include, when applicable, a procedure for early identification of students who are at risk of failing the Standards of Learning assessments in grades three through eight or who fail an end-of-course test required for the award of a verified unit of credit. Such programs may also include summer school for all elementary and middle school grades and for all high school academic courses, as defined by regulations promulgated by the Board of Education, or other forms of remediation. Summer school remediation programs or other forms of remediation shall be chosen by the division superintendent to be appropriate to the academic needs of the student. Students who are required to attend such summer school programs or to participate in another form of remediation shall not be charged tuition by the school division.

The requirement for remediation may, however, be satisfied by the student's attendance in a program of prevention, intervention or remediation that has been selected by his parent, in consultation with the division superintendent or his designee, and is either (i) conducted by an accredited private school or (ii) a special program that has been determined to be comparable to the required public school remediation program by the division superintendent. The costs of such private school remediation program or other special remediation program shall be borne by the student's parent.

The Board of Education shall establish standards for full funding of summer remedial programs that shall include, but not be limited to, the minimum number of instructional hours or the equivalent thereof required for full funding and an assessment system designed to evaluate program effectiveness. Based on the number of students attending and the Commonwealth's share of the per pupil instructional costs, state funds shall be provided for the full cost of summer and other remediation programs as set forth in the appropriation act, provided such programs comply with such standards as shall be established by the Board, pursuant to § 22.1-199.2.

D. Local school boards shall also implement the following:

1. Programs in grades K through three that emphasize developmentally appropriate learning to enhance success.
2. Programs based on prevention, intervention, or remediation designed to increase the number of students who earn a high school diploma and to prevent students from dropping out of school. Such programs shall include components that are research-based.
3. Career and technical education programs incorporated into the K through 12 curricula that include:
  - a. Knowledge of careers and all types of employment opportunities, including, but not limited to, apprenticeships, entrepreneurship and small business ownership, the military, and the teaching profession, and emphasize the advantages of completing school with marketable skills;
  - b. Career exploration opportunities in the middle school grades;
  - c. Competency-based career and technical education programs that integrate academic outcomes, career guidance, and job-seeking skills for all secondary students. Programs shall be based upon labor market needs and student interest. Career guidance shall include counseling about available employment opportunities and placement services for students exiting school. Each school board shall develop and implement a plan to ensure compliance with the provisions of this subdivision. Such plan shall be developed with the input of area business and industry representatives and local community colleges and shall be submitted to the Superintendent of Public Instruction in accordance with the timelines established by federal law; and
  - d. Annual notice on its website to enrolled high school students and their parents of the availability of the postsecondary education and employment data published by the State Council of Higher Education on its website pursuant to § 23-9.2:3.04.
4. Educational objectives in middle and high school that emphasize economic education and financial literacy pursuant to § 22.1-200.03.
5. Early identification of students with disabilities and enrollment of such students in appropriate instructional programs consistent with state and federal law.
6. Early identification of gifted students and enrollment of such students in appropriately differentiated instructional programs.
7. Educational alternatives for students whose needs are not met in programs prescribed elsewhere in these standards. Such students shall be counted in average daily membership (ADM) in accordance with the regulations of the Board of Education.
8. Adult education programs for individuals functioning below the high school completion level. Such programs may be conducted by the school board as the primary agency or through a collaborative arrangement between the school board and other agencies.
9. A plan to make achievements for students who are educationally at risk a divisionwide priority that shall include procedures for measuring the progress of such students.
10. An agreement for postsecondary degree attainment with a community college in the Commonwealth specifying the options for students to complete an associate's degree or a one-year Uniform Certificate of General Studies from a

community college concurrent with a high school diploma. Such agreement shall specify the credit available for dual enrollment courses and Advanced Placement courses with qualifying exam scores of three or higher.

11. A plan to notify students and their parents of the availability of dual enrollment and advanced placement classes, the International Baccalaureate Program, and Academic Year Governor's School Programs, the qualifications for enrolling in such classes and programs, and the availability of financial assistance to low-income and needy students to take the advanced placement and International Baccalaureate examinations. This plan shall include notification to students and parents of the agreement with a community college in the Commonwealth to enable students to complete an associate's degree or a one-year Uniform Certificate of General Studies concurrent with a high school diploma.

12. Identification of students with limited English proficiency and enrollment of such students in appropriate instructional programs.

13. Early identification, diagnosis, and assistance for students with reading and mathematics problems and provision of instructional strategies and reading and mathematics practices that benefit the development of reading and mathematics skills for all students.

Local school divisions shall provide reading intervention services to students in kindergarten through grade three who demonstrate deficiencies based on their individual performance on the Standards of Learning reading test or any reading diagnostic test that meets criteria established by the Department of Education. Local school divisions shall report the results of the diagnostic tests to the Department of Education on an annual basis, at a time to be determined by the Superintendent of Public Instruction. Each student who receives early intervention reading services will be assessed again at the end of that school year. The local school division, in its discretion, shall provide such reading intervention services prior to promoting a student from grade three to grade four. Reading intervention services may include the use of: special reading teachers; trained aides; volunteer tutors under the supervision of a certified teacher; computer-based reading tutorial programs; aides to instruct in-class groups while the teacher provides direct instruction to the students who need extra assistance; and extended instructional time in the school day or school year for these students. Funds appropriated for prevention, intervention, and remediation; summer school remediation; at-risk; or early intervention reading may be used to meet the requirements of this subdivision.

Local school divisions shall provide algebra readiness intervention services to students in grades six through nine who are at risk of failing the Algebra I end-of-course test, as demonstrated by their individual performance on any diagnostic test that has been approved by the Department of Education. Local school divisions shall report the results of the diagnostic tests to the Department of Education on an annual basis, at a time to be determined by the Superintendent of Public Instruction. Each student who receives algebra readiness intervention services will be assessed again at the end of that school year. Funds appropriated for prevention, intervention, and remediation; summer school remediation; at-risk; or algebra readiness intervention services may be used to meet the requirements of this subdivision.

14. Incorporation of art, music, and physical education as a part of the instructional program at the elementary school level.

15. A program of physical fitness available to all students with a goal of at least 150 minutes per week on average during the regular school year. Such program may include any combination of (i) physical education classes, (ii) extracurricular athletics, or (iii) other programs and physical activities deemed appropriate by the local school board. Each local school board shall incorporate into its local wellness policy a goal for the implementation of such program during the regular school year.

16. A program of student services for kindergarten through grade 12 that shall be designed to aid students in their educational, social, and career development.

17. The collection and analysis of data and the use of the results to evaluate and make decisions about the instructional program.

E. From such funds as may be appropriated or otherwise received for such purpose, there shall be established within the Department of Education a unit to (i) conduct evaluative studies; (ii) provide the resources and technical assistance to increase the capacity for school divisions to deliver quality instruction; and (iii) assist school divisions in implementing those programs and practices that will enhance pupil academic performance and improve family and community involvement in the public schools. Such unit shall identify and analyze effective instructional programs and practices and professional development initiatives; evaluate the success of programs encouraging parental and family involvement; assess changes in student outcomes prompted by family involvement; and collect and disseminate among school divisions information regarding effective instructional programs and practices, initiatives promoting family and community involvement, and potential funding and support sources. Such unit may also provide resources supporting professional development for administrators and teachers. In providing such information, resources, and other services to school divisions, the unit shall give priority to those divisions demonstrating a less than 70 percent passing rate on the Standards of Learning assessments.

#### **§ 22.1-298.1. Regulations governing licensure.**

A. As used in this section:

"Alternate route to licensure" means a nontraditional route to teacher licensure available to individuals who meet the criteria specified in the regulations issued by the Board of Education.

"Industry certification credential" means a career and technical education credential that is earned by successfully completing a Board of Education-approved industry certification examination, being issued a state professional license, or successfully completing an occupational competency examination.

"Licensure by reciprocity" means a process used to issue a license to an individual coming into Virginia from another state when that individual meets certain conditions specified in the Board of Education's regulations.

"Professional teacher's assessment" means those tests mandated for licensure as prescribed by the Board of Education.

"Provisional license" means a nonrenewable license issued by the Board of Education for a specified period of time, not to exceed three years, to an individual who may be employed by a school division in Virginia and who generally meets the requirements specified in the Board of Education's regulations for licensure, but who may need to take additional coursework or pass additional assessments to be fully licensed with a renewable license.

"Renewable license" means a license issued by the Board of Education for five years to an individual who meets the requirements specified in the Board of Education's regulations.

B. The Board of Education shall prescribe, by regulation, the requirements for the licensure of teachers and other school personnel required to hold a license. Such regulations shall include requirements for the denial, suspension, cancellation, revocation, and reinstatement of licensure. The Board of Education shall revoke the license of any person for whom it has received a notice of dismissal or resignation pursuant to subsection F of § 22.1-313 and, in the case of a person who is the subject of a founded complaint of child abuse or neglect, after all rights to any appeal provided by § 63.2-1526 have been exhausted. Regardless of the authority of any other agency of the Commonwealth to approve educational programs, only the Board of Education shall have the authority to license teachers to be regularly employed by school boards, including those teachers employed to provide nursing education.

The Board of Education shall prescribe by regulation the licensure requirements for teachers who teach only online courses, as defined in § 22.1-212.23. Such license shall be valid only for teaching online courses. Teachers who hold a five-year renewable license issued by the Board of Education may teach online courses for which they are properly endorsed.

1. Complete professional assessments as prescribed by the Board of Education;
2. Complete study in attention deficit disorder;
3. Complete study in gifted education, including the use of multiple criteria to identify gifted students; and
4. Complete study in methods of improving communication between schools and families and ways of increasing family involvement in student learning at home and at school.

D. In addition, such regulations shall include requirements that:

1. Every person seeking initial licensure or renewal of a license demonstrate proficiency in the use of educational technology for instruction;

2. Every person seeking initial licensure and persons seeking licensure renewal as teachers who have not completed such study shall complete study in child abuse recognition and intervention in accordance with curriculum guidelines developed by the Board of Education in consultation with the Department of Social Services that are relevant to the specific teacher licensure routes;

3. Every person seeking initial licensure or renewal of a license shall receive professional development in instructional methods tailored to promote student academic progress and effective preparation for the Standards of Learning end-of-course and end-of-grade assessments;

4. *Every person seeking renewal of a license shall complete all renewal requirements, including professional development in a manner prescribed by the Board, except that no person seeking renewal of a license shall be required to satisfy any such requirement by completing coursework and earning credit at an institution of higher education;*

5. Every person seeking initial licensure or renewal of a license shall provide evidence of completion of certification or training in emergency first aid, cardiopulmonary resuscitation, and the use of automated external defibrillators. The certification or training program shall be based on the current national evidence-based emergency cardiovascular care guidelines for cardiopulmonary resuscitation and the use of an automated external defibrillator, such as a program developed by the American Heart Association or the American Red Cross. The Board shall provide a waiver for this requirement for any person with a disability whose disability prohibits such person from completing the certification or training;

~~5.~~ 6. Every person seeking licensure with an endorsement as a teacher of the blind and visually impaired shall demonstrate proficiency in reading and writing Braille; and

~~6.~~ 7. Every teacher seeking initial licensure with an endorsement in the area of career and technical education shall have an industry certification credential in the area in which the teacher seeks endorsement.

E. The Board's regulations shall require that initial licensure for principals and assistant principals be contingent upon passage of an assessment as prescribed by the Board.

F. The Board shall establish criteria in its regulations to effectuate the substitution of experiential learning for coursework for those persons seeking initial licensure through an alternate route as defined in Board regulations.

G. Notwithstanding any provision of law to the contrary, the Board may provide for the issuance of a provisional license, valid for a period not to exceed three years, to any person who does not meet the requirements of this section or any other requirement for licensure imposed by law.

H. The Board's licensure regulations shall also provide for licensure by reciprocity:

1. With comparable endorsement areas for those individuals holding a valid out-of-state teaching license and national certification from the National Board for Professional Teaching Standards or a nationally recognized certification program approved by the Board of Education. The application for such individuals shall require evidence of such valid licensure and national certification and shall not require official student transcripts;

2. For individuals who have obtained a valid out-of-state license, with full credentials and without deficiencies, that is in force at the time the application for a Virginia license is received by the Department of Education. The individual must establish a file in the Department of Education by submitting a complete application packet, which shall include official student transcripts. An assessment of basic skills as provided in § 22.1-298.2 and service requirements shall not be imposed for these licensed individuals; however, other licensing assessments, as prescribed by the Board of Education, shall be required; and

3. The Board may include other provisions for reciprocity in its regulations.

### CHAPTER 564

*An Act to amend and reenact § 22.1-253.13:4 of the Code of Virginia, relating to diploma seals; biliteracy.*

[H 1351]

Approved March 23, 2015

**Be it enacted by the General Assembly of Virginia:**

**1. That § 22.1-253.13:4 of the Code of Virginia is amended and reenacted as follows:**

**§ 22.1-253.13:4. Standard 4. Student achievement and graduation requirements.**

A. Each local school board shall award diplomas to all secondary school students, including students who transfer from nonpublic schools or from home instruction, who earn the units of credit prescribed by the Board of Education, pass the prescribed tests, and meet such other requirements as may be prescribed by the local school board and approved by the Board of Education. Provisions shall be made to facilitate the transfer and appropriate grade placement of students from other public secondary schools, from nonpublic schools, or from home instruction as outlined in the standards for accreditation. Course credits earned for online courses taken in the Department of Education's Virtual Virginia program shall transfer to Virginia public schools in accordance with provisions of the standards for accreditation. Further, reasonable accommodation to meet the requirements for diplomas shall be provided for otherwise qualified students with disabilities as needed.

In addition, each local school board may devise, vis-a-vis the award of diplomas to secondary school students, a mechanism for calculating class rankings that takes into consideration whether the student has taken a required class more than one time and has had any prior earned grade for such required class expunged.

Each local school board shall notify the parents of rising eleventh and twelfth grade students of (i) the number and subject area requirements of standard and verified units of credit required for graduation pursuant to the standards for accreditation and (ii) the remaining number and subject area requirements of such units of credit the individual student requires for graduation.

B. Students identified as disabled who complete the requirements of their individualized education programs shall be awarded special diplomas by local school boards.

Each local school board shall notify the parent of such students with disabilities who have an individualized education program and who fail to meet the requirements for a standard or advanced studies diploma of the student's right to a free and appropriate education to age 21, inclusive, pursuant to Article 2 (§ 22.1-213 et seq.) of Chapter 13.

C. Students who have completed a prescribed course of study as defined by the local school board shall be awarded certificates of program completion by local school boards if they are not eligible to receive a Board of Education-approved diploma.

Each local school board shall provide notification of the right to a free public education for students who have not reached 20 years of age on or before August 1 of the school year, pursuant to Chapter 1 (§ 22.1-1 et seq.), to the parent of students who fail to graduate or who have failed to achieve the number of verified units of credit required for graduation as provided in the standards for accreditation. If such student who does not graduate or achieve such verified units of credit is a student for whom English is a second language, the local school board shall notify the parent of the student's opportunity for a free public education in accordance with § 22.1-5.

D. In establishing course and credit requirements for a high school diploma, the Board shall:

1. Provide for the selection of integrated learning courses meeting the Standards of Learning and approved by the Board to satisfy graduation credit requirements, which shall include Standards of Learning testing, as necessary.

2. Establish the requirements for a standard and an advanced studies high school diploma, which shall each include at least one credit in fine or performing arts or career and technical education and one credit in United States and Virginia history. The requirements for a standard high school diploma shall, however, include at least two sequential electives chosen from a concentration of courses selected from a variety of options that may be planned to ensure the completion of a focused sequence of elective courses. Such focused sequence of elective courses shall provide a foundation for further education or training or preparation for employment. The advanced studies diploma shall be the recommended diploma for students pursuing baccalaureate study. Both the standard and the advanced studies diploma shall prepare students for post-secondary education and the career readiness required by the Commonwealth's economy.

Beginning with first-time ninth grade students in the 2013-2014 school year, requirements for the standard diploma shall include a requirement to earn a career and technical education credential that has been approved by the Board, that could include, but not be limited to, the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, or the Virginia workplace readiness skills assessment.

Beginning with first-time ninth grade students in the 2016-2017 school year, requirements for the standard and advanced diplomas shall include a requirement to be trained in emergency first aid, cardiopulmonary resuscitation, and the use of automated external defibrillators, including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation.

The Board shall make provision in its regulations for students with disabilities to earn a standard diploma.

3. Provide, in the requirements to earn a standard or advanced studies diploma, the successful completion of one virtual course. The virtual course may be a noncredit-bearing course.

4. Provide, in the requirements for the verified units of credit stipulated for obtaining the standard or advanced studies diploma, that students completing elective classes into which the Standards of Learning for any required course have been integrated may take the relevant Standards of Learning test for the relevant required course and receive, upon achieving a satisfactory score on the specific Standards of Learning assessment, a verified unit of credit for such elective class that shall be deemed to satisfy the Board's requirement for verified credit for the required course.

5. Establish a procedure to facilitate the acceleration of students that allows qualified students, with the recommendation of the division superintendent, without completing the 140-hour class, to obtain credit for such class upon demonstration of mastery of the course content and objectives. Having received credit for the course, the student shall be permitted to sit for the relevant Standards of Learning assessment and, upon receiving a passing score, shall earn a verified credit. Nothing in this section shall preclude relevant school division personnel from enforcing compulsory attendance in public schools.

6. Provide for the award of verified units of credit for passing scores on industry certifications, state licensure examinations, and national occupational competency assessments approved by the Board of Education.

School boards shall report annually to the Board of Education the number of Board-approved industry certifications obtained, state licensure examinations passed, national occupational competency assessments passed, Virginia workplace readiness skills assessments passed, and the number of career and technical education completers who graduated. These numbers shall be reported as separate categories on the School Performance Report Card.

For the purposes of this subdivision, "career and technical education completer" means a student who has met the requirements for a career and technical concentration or specialization and all requirements for high school graduation or an approved alternative education program.

In addition, the Board may:

a. For the purpose of awarding verified units of credit, approve the use of additional or substitute tests for the correlated Standards of Learning assessment, such as academic achievement tests, industry certifications or state licensure examinations; and

b. Permit students completing career and technical education programs designed to enable such students to pass such industry certification examinations or state licensure examinations to be awarded, upon obtaining satisfactory scores on such industry certification or licensure examinations, the appropriate verified units of credit for one or more career and

technical education classes into which relevant Standards of Learning for various classes taught at the same level have been integrated. Such industry certification and state licensure examinations may cover relevant Standards of Learning for various required classes and may, at the discretion of the Board, address some Standards of Learning for several required classes.

7. Provide for the waiver of certain graduation requirements (i) upon the Board's initiative or (ii) at the request of a local school board. Such waivers shall be granted only for good cause and shall be considered on a case-by-case basis.

8. Consider all computer science course credits earned by students to be science course credits, mathematics course credits, or career and technical education credits. The Board of Education shall develop guidelines addressing how computer science courses can satisfy graduation requirements.

E. In the exercise of its authority to recognize exemplary ~~academic~~ performance by providing for diploma seals, ~~the~~:

~~1. The Board of Education shall develop criteria for recognizing exemplary performance in career and technical education programs by students who have completed the requirements for a Board of Education-approved diploma and shall award seals on the diplomas of students meeting such criteria.~~

The Board shall consider including criteria for (i) technology courses; (ii) technical writing, reading, and oral communication skills; (iii) technology-related training; and (iv) industry, professional, and trade association national certifications.

~~The~~ 3. The Board shall ~~also~~ establish criteria for awarding a diploma seal for excellence in civics education and understanding of our state and federal constitutions and the democratic model of government for the Board of Education-approved diplomas. The Board shall consider including criteria for (i) successful completion of history, government, and civics courses, including courses that incorporate character education; (ii) voluntary participation in community service or extracurricular activities that includes the types of activities that shall qualify as community service and the number of hours required; and (iii) related requirements as it deems appropriate.

4. The Board shall establish criteria for awarding a diploma seal of biliteracy to any student who demonstrates proficiency in English and at least one other language for the Board of Education-approved diplomas. The Board shall consider criteria including the student's (i) score on a College Board Advanced Placement foreign language examination, (ii) score on an SAT II Subject Test in a foreign language, (iii) proficiency level on an ACTFL Assessment of Performance toward Proficiency in Languages (AAPPL) measure or another nationally or internationally recognized language proficiency test, or (iv) cumulative grade point average in a sequence of foreign language courses approved by the Board.

F. The Board shall establish, by regulation, requirements for the award of a general achievement adult high school diploma for those persons who are not subject to the compulsory school attendance requirements of § 22.1-254 and have (i) achieved a passing score on a high school equivalency examination approved by the Board of Education; (ii) successfully completed an education and training program designated by the Board of Education; (iii) earned a Board of Education-approved career and technical education credential such as the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, or the Virginia workplace readiness skills assessment; and (iv) satisfied other requirements as may be established by the Board for the award of such diploma.

G. To ensure the uniform assessment of high school graduation rates, the Board shall collect, analyze, and report high school graduation and dropout data using a formula prescribed by the Board.

The Board may promulgate such regulations as may be necessary and appropriate for the collection, analysis, and reporting of such data.

**2. That the Board of Education shall establish criteria for awarding a diploma seal of biliteracy pursuant to this act in time for any student graduating from a public high school in the Commonwealth in 2016 to be awarded such a diploma seal.**

## CHAPTER 566

*An Act to amend and reenact §§ 22.1-253.13:3 and 22.1-253.13:9 of the Code of Virginia, relating to school accreditation frequency.*

[H 1674]

Approved March 23, 2015

**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 22.1-253.13:3 and 22.1-253.13:9 of the Code of Virginia are amended and reenacted as follows:**

**§ 22.1-253.13:3. Standard 3. Accreditation, other standards, assessments, and releases from state regulations.**

A. The Board of Education shall promulgate regulations establishing standards for accreditation pursuant to the Administrative Process Act (§ 2.2-4000 et seq.), which shall include, but not be limited to, student outcome measures, requirements and guidelines for instructional programs and for the integration of educational technology into such instructional programs, administrative and instructional staffing levels and positions, including staff positions for supporting educational technology, student services, auxiliary education programs such as library and media services, course and credit requirements for graduation from high school, community relations, and the philosophy, goals, and objectives of public education in Virginia.

The Board of Education shall promulgate regulations establishing standards for accreditation of public virtual schools under the authority of the local school board that enroll students full time.

The Board shall review annually the accreditation status of all schools in the Commonwealth. *However, the Board may review the accreditation status of a school once every three years if the school has been fully accredited for three consecutive years. Upon such triennial review, the Board shall review the accreditation status of the school for each individual year within that triennial review period. If the Board finds that the school would have been accredited every year of that triennial review period the Board may accredit the school for another three years. The Board shall review the accreditation status of any school that (i) in any individual year within the triennial review period would have failed to achieve full accreditation or (ii) in the previous year has had an adjustment of its boundaries by a school board pursuant to subdivision 4 of § 22.1-79 that affects at least 10 percent of the student population of the school.*

Each local school board shall maintain schools that are fully accredited pursuant to the standards for accreditation as prescribed by the Board of Education. Each local school board shall review the accreditation status of all schools in the local school division annually in public session. Within the time specified by the Board of Education, each school board shall submit corrective action plans for any schools within its school division that have been designated as not meeting the standards as approved by the Board.

When the Board of Education has obtained evidence through the school academic review process that the failure of schools within a division to achieve full accreditation status is related to division level failure to implement the Standards of Quality, the Board may require a division level academic review. After the conduct of such review and within the time specified by the Board of Education, each school board shall submit for approval by the Board a corrective action plan, consistent with criteria established by the Board and setting forth specific actions and a schedule designed to ensure that schools within its school division achieve full accreditation status. Such corrective action plans shall be part of the relevant school division's comprehensive plan pursuant to § 22.1-253.13:6.

With such funds as are appropriated or otherwise received for this purpose, the Board shall adopt and implement an academic review process, to be conducted by the Department of Education, to assist schools that are accredited with warning. The Department shall forward a report of each academic review to the relevant local school board, and such school board shall report the results of such academic review and the required annual progress reports in public session. The local school board shall implement any actions identified through the academic review and utilize them for improvement planning.

B. The Superintendent of Public Instruction shall develop and the Board of Education shall approve criteria for determining and recognizing educational performance in the Commonwealth's public school divisions and schools. Such criteria, when approved, shall become an integral part of the accreditation process and shall include student outcome measurements. The Superintendent of Public Instruction shall annually identify to the Board those school divisions and schools that exceed or do not meet the approved criteria. Such identification shall include an analysis of the strengths and weaknesses of public education programs in the various school divisions in Virginia and recommendations to the General Assembly for further enhancing student learning uniformly across the Commonwealth. In recognizing educational performance in the school divisions, the Board shall include consideration of special school division accomplishments, such as numbers of dual enrollments and students in Advanced Placement and International Baccalaureate courses, and participation in academic year Governor's Schools.

The Superintendent of Public Instruction shall assist local school boards in the implementation of action plans for increasing educational performance in those school divisions and schools that are identified as not meeting the approved criteria. The Superintendent of Public Instruction shall monitor the implementation of and report to the Board of Education on the effectiveness of the corrective actions taken to improve the educational performance in such school divisions and schools.

C. With such funds as are available for this purpose, the Board of Education shall prescribe assessment methods to determine the level of achievement of the Standards of Learning objectives by all students. Such assessments shall evaluate knowledge, application of knowledge, critical thinking, and skills related to the Standards of Learning being assessed. The Board shall (i) in consultation with the chairpersons of the eight regional superintendents' study groups, establish a timetable for administering the Standards of Learning assessments to ensure genuine end-of-course and end-of-grade testing and (ii) with the assistance of independent testing experts, conduct a regular analysis and validation process for these assessments.

The Board shall also provide the option of industry certification and state licensure examinations as a student-selected verified credit.

The Board of Education shall make publicly available such assessments in a timely manner and as soon as practicable following the administration of such tests, so long as the release of such assessments does not compromise test security or deplete the bank of assessment questions necessary to construct subsequent tests, or limit the ability to test students on demand and provide immediate results in the web-based assessment system.

The Board shall include in the student outcome measures that are required by the Standards for Accreditation end-of-course or end-of-grade assessments for various grade levels and classes, including the completion of the alternative assessments implemented by each local school board, in accordance with the Standards of Learning. These assessments shall include end-of-course or end-of-grade tests for English, mathematics, science, and history and social science.

The Standards of Learning assessments administered to students in grades three through eight shall not exceed (a) reading and mathematics in grades three and four; (b) reading, mathematics, and science in grade five; (c) reading and mathematics in grades six and seven; (d) reading, writing, mathematics, and science in grade eight; and (e) Virginia Studies and Civics and Economics once each at the grade levels deemed appropriate by each local school board.

Each school board shall annually certify that it has provided instruction and administered an alternative assessment, consistent with Board guidelines, to students in grades three through eight in each Standards of Learning subject area in which a Standards of Learning assessment was not administered during the school year. Such guidelines shall (1) incorporate options for age-appropriate, authentic performance assessments and portfolios with rubrics and other methodologies designed to ensure that students are making adequate academic progress in the subject area and that the Standards of Learning content is being taught; (2) permit and encourage integrated assessments that include multiple subject areas; and (3) emphasize collaboration between teachers to administer and substantiate the assessments and the professional development of teachers to enable them to make the best use of alternative assessments.

Local school divisions shall provide targeted mathematics remediation and intervention to students in grades six through eight who show computational deficiencies as demonstrated by their individual performance on any diagnostic test or grade-level Standards of Learning mathematics test that measures non-calculator computational skills.

In addition, to assess the educational progress of students, the Board of Education shall (A) develop appropriate assessments, which may include criterion-referenced tests and other assessment instruments that may be used by classroom teachers; (B) select appropriate industry certification and state licensure examinations; and (C) prescribe and provide measures, which may include nationally normed tests to be used to identify students who score in the bottom quartile at selected grade levels. An annual justification that includes evidence that the student meets the participation criteria defined by the Virginia Department of Education shall be provided for each student considered for the Virginia Grade Level Alternative. Each Individual Education Program team shall review such justification and make the final determination as to whether or not the Virginia Grade Level Alternative is appropriate for the student. The superintendent and the school board chairman shall certify to the Board of Education, as a part of certifying compliance with the Standards of Quality, that there is a justification in the Individual Education Program for every student who takes the Virginia Grade Level Alternative. Compliance with this requirement shall be monitored as a part of the special education monitoring process conducted by the Department of Education. The Board shall report to the Governor and General Assembly in its annual reports pursuant to § 22.1-18 any school division that is not in compliance with this requirement.

The Standards of Learning requirements, including all related assessments, shall be waived for any student awarded a scholarship under the Brown v. Board of Education Scholarship Program, pursuant to § 30-231.2, who is enrolled in a preparation program for a high school equivalency examination approved by the Board of Education or in an adult basic education program or an adult secondary education program to obtain the high school diploma or a high school equivalency certificate.

The Board of Education may adopt special provisions related to the administration and use of any Standards of Learning test or tests in a content area as applied to accreditation ratings for any period during which the Standards of Learning content or assessments in that area are being revised and phased in. Prior to statewide administration of such tests, the Board of Education shall provide notice to local school boards regarding such special provisions.

D. The Board of Education may pursue all available civil remedies pursuant to § 22.1-19.1 or administrative action pursuant to § 22.1-292.1 for breaches in test security and unauthorized alteration of test materials or test results.

The Board may initiate or cause to be initiated a review or investigation of any alleged breach in security, unauthorized alteration, or improper administration of tests, including the exclusion of students from testing who are required to be assessed, by local school board employees responsible for the distribution or administration of the tests.

Records and other information furnished to or prepared by the Board during the conduct of a review or investigation may be withheld pursuant to subdivision 11 of § 2.2-3705.3. However, this section shall not prohibit the disclosure of records to (i) a local school board or division superintendent for the purpose of permitting such board or superintendent to consider or to take personnel action with regard to an employee or (ii) any requester, after the conclusion of a review or investigation, in a form that (a) does not reveal the identity of any person making a complaint or supplying information to the Board on a confidential basis and (b) does not compromise the security of any test mandated by the Board. Any local school board or division superintendent receiving such records or other information shall, upon taking personnel action against a relevant employee, place copies of such records or information relating to the specific employee in such person's personnel file.

Notwithstanding any other provision of state law, no test or examination authorized by this section, including the Standards of Learning assessments, shall be released or required to be released as minimum competency tests, if, in the

judgment of the Board, such release would breach the security of such test or examination or deplete the bank of questions necessary to construct future secure tests.

E. With such funds as may be appropriated, the Board of Education may provide, through an agreement with vendors having the technical capacity and expertise to provide computerized tests and assessments, and test construction, analysis, and security, for (i) web-based computerized tests and assessments, including computer-adaptive Standards of Learning assessments, for the evaluation of student progress during and after remediation and (ii) the development of a remediation item bank directly related to the Standards of Learning.

F. To assess the educational progress of students as individuals and as groups, each local school board shall require the use of Standards of Learning assessments, alternative assessments, and other relevant data, such as industry certification and state licensure examinations, to evaluate student progress and to determine educational performance. Each local school shall require the administration of appropriate assessments to students, which may include criterion-referenced tests and teacher-made tests and shall include the Standards of Learning assessments, the local school board's alternative assessments, and the National Assessment of Educational Progress state-by-state assessment. Each school board shall analyze and report annually, in compliance with any criteria that may be established by the Board of Education, the results from the Stanford Achievement Test Series, Ninth Edition (Stanford Nine) assessment, if administered, industry certification examinations, and the Standards of Learning Assessments to the public.

The Board of Education shall not require administration of the Stanford Achievement Test Series, Ninth Edition (Stanford Nine) assessment, except as may be selected to facilitate compliance with the requirements for home instruction pursuant to § 22.1-254.1.

The Board shall include requirements for the reporting of the Standards of Learning assessment scores and averages for each year, *regardless of accreditation frequency*, as part of the Board's requirements relating to the School Performance Report Card. Such scores shall be disaggregated for each school by student subgroups on the Virginia assessment program as appropriate and shall be reported to the public within three months of their receipt. These reports (i) shall be posted on the portion of the Department of Education's website relating to the School Performance Report Card, in a format and in a manner that allows year-to-year comparisons, and (ii) may include the National Assessment of Educational Progress state-by-state assessment.

G. Each local school division superintendent shall regularly review the division's submission of data and reports required by state and federal law and regulations to ensure that all information is accurate and submitted in a timely fashion. The Superintendent of Public Instruction shall provide a list of the required reports and data to division superintendents annually. The status of compliance with this requirement shall be included in the Board of Education's annual report to the Governor and the General Assembly as required by § 22.1-18.

H. Any school board may request the Board of Education for release from state regulations or, on behalf of one or more of its schools, for approval of an Individual School Accreditation Plan for the evaluation of the performance of one or more of its schools as authorized for certain other schools by the Standards of Accreditation pursuant to 8 VAC 20-131-280 C of the Virginia Administrative Code. Waivers of regulatory requirements may be granted by the Board of Education based on submission of a request from the division superintendent and chairman of the local school board. The Board of Education may grant, for a period up to five years, a waiver of regulatory requirements that are not (i) mandated by state or federal law or (ii) designed to promote health or safety. The school board shall provide in its waiver request a description of how the releases from state regulations are designed to increase the quality of instruction and improve the achievement of students in the affected school or schools. The Department of Education shall provide (a) guidance to any local school division that requests releases from state regulations and (b) information about opportunities to form partnerships with other agencies or entities to any local school division in which the school or schools granted releases from state regulations have demonstrated improvement in the quality of instruction and the achievement of students.

The Board of Education may also grant local school boards waivers of specific requirements in § 22.1-253.13:2, based on submission of a request from the division superintendent and chairman of the local school board, permitting the local school board to assign instructional personnel to the schools with the greatest needs, so long as the school division employs a sufficient number of personnel divisionwide to meet the total number required by § 22.1-253.13:2 and all pupil/teacher ratios and class size maximums set forth in subsection C of § 22.1-253.13:2 are met. The school board shall provide in its request a description of how the waivers from specific Standards of Quality staffing standards are designed to increase the quality of instruction and improve the achievement of students in the affected school or schools. The waivers may be renewed in up to five-year increments, or revoked, based on student achievement results in the affected school or schools.

**§ 22.1-253.13:9. Virginia Index of Performance incentive program.**

A. Schools and local school divisions shall be recognized by the Board of Education in accordance with guidelines it shall establish for the Virginia Index of Performance (VIP) incentive program. The VIP incentive program shall be designed to recognize and reward fully accredited schools and school divisions that make significant progress toward achieving advanced proficiency levels in reading, mathematics, science, and history and social science, and on other indicators of school and student performance that are aligned with the Commonwealth's goals for public education. Such recognition may include:

1. Public announcements recognizing individual schools and divisions;
2. Tangible rewards;
3. Waivers of certain board regulations;

4. Exemptions from certain reporting requirements; or
5. Other commendations deemed appropriate to recognize high achievement.

In addition to Board recognition, local school boards shall adopt policies to recognize individual schools through public announcements or media releases as well as other appropriate recognition.

In order to encourage school divisions to promote student achievement in science, technology, engineering, and mathematics, the Board of Education shall take into account in its guidelines a school division's increase in enrollments and elective course offerings in these areas.

B. A school that maintains a passing rate on Virginia assessment program tests or additional tests approved by the Board of 95 percent or above in each of the four core academic areas for two consecutive years may, upon application to the Department of Education, receive a waiver from ~~annual~~ accreditation. A school receiving such a waiver shall be fully accredited for a three-year period. However, such school shall continue to annually submit documentation in compliance with the pre-accreditation eligibility requirements.

C. Schools may be eligible to receive the Governor's Award for Outstanding Achievement. This award will be given to schools rated fully accredited that significantly increase the achievement of students within student subgroups in accordance with guidelines prescribed by the Board of Education.

D. In its guidelines for calculating an award under the Virginia Index of Performance incentive program pursuant to this section, the Department of Education shall take into account the number of high school students who earn the one-year Uniform Certificate of General Studies or an associate's degree from a community college in the Commonwealth concurrent with a high school diploma.

*An Act to amend and reenact § 22.1-254.1 of the Code of Virginia, relating to requirements for home instruction of children; testing options.*

[S 1403]

Approved March 23, 2015

**Be it enacted by the General Assembly of Virginia:**

**1. That § 22.1-254.1 of the Code of Virginia is amended and reenacted as follows:**

**§ 22.1-254.1. Declaration of policy; requirements for home instruction of children.**

A. When the requirements of this section have been satisfied, instruction of children by their parents is an acceptable alternative form of education under the policy of the Commonwealth of Virginia. Any parent of any child who will have reached the fifth birthday on or before September 30 of any school year and who has not passed the eighteenth birthday may elect to provide home instruction in lieu of school attendance if he (i) holds a high school diploma; or (ii) is a teacher of qualifications prescribed by the Board of Education; or (iii) provides a program of study or curriculum which may be delivered through a correspondence course or distance learning program or in any other manner; or (iv) provides evidence that he is able to provide an adequate education for the child.

B. Any parent who elects to provide home instruction in lieu of school attendance shall annually notify the division superintendent in August of his intention to so instruct the child and provide a description of the curriculum, limited to a list of subjects to be studied during the coming year, and evidence of having met one of the criteria for providing home instruction as required by subsection A. Effective July 1, 2000, parents electing to provide home instruction shall provide such annual notice no later than August 15. Any parent who moves into a school division or begins home instruction after the school year has begun shall notify the division superintendent of his intention to provide home instruction as soon as practicable and shall thereafter comply with the requirements of this section within 30 days of such notice. The division superintendent shall notify the Superintendent of Public Instruction of the number of students in the school division receiving home instruction.

C. The parent who elects to provide home instruction shall provide the division superintendent by August 1 following the school year in which the child has received home instruction with either (i) evidence that the child has attained a composite score in or above the fourth stanine on any nationally normed standardized achievement test, *or an equivalent score on the ACT, SAT, or PSAT test* or (ii) an evaluation or assessment which the division superintendent determines to indicate that the child is achieving an adequate level of educational growth and progress, including but not limited to: (a) an evaluation letter from a person licensed to teach in any state, or a person with a master's degree or higher in an academic discipline, having knowledge of the child's academic progress, stating that the child is achieving an adequate level of educational growth and progress; or (b) a report card or transcript from a community college or college, college distance learning program, or home-education correspondence school.

In the event that evidence of progress as required in this subsection is not provided by the parent, the home instruction program for that child may be placed on probation for one year. Parents shall file with the division superintendent evidence of their ability to provide an adequate education for their child in compliance with subsection A and a remediation plan for the probationary year which indicates their program is designed to address any educational deficiency. Upon acceptance of such evidence and plan by the division superintendent, the home instruction may continue for one probationary year. If the remediation plan and evidence are not accepted or the required evidence of progress is not provided by August 1 following

the probationary year, home instruction shall cease and the parent shall make other arrangements for the education of the child which comply with § 22.1-254. The requirements of subsection C shall not apply to children who are under the age of six as of September 30 of the school year.

D. Nothing in this section shall prohibit a pupil and his parents from obtaining an excuse from school attendance by reason of bona fide religious training or belief pursuant to subdivision B 1 of § 22.1-254.

E. Any party aggrieved by a decision of the division superintendent may appeal his decision within 30 days to an independent hearing officer. The independent hearing officer shall be chosen from the list maintained by the Executive Secretary of the Supreme Court for hearing appeals of the placements of children with disabilities. The costs of the hearing shall be apportioned among the parties by the hearing officer in a manner consistent with his findings.

F. School boards shall implement a plan to notify students receiving home instruction pursuant to this section and their parents of the availability of Advanced Placement (AP) and Preliminary Scholastic Aptitude Test (PSAT) examinations and the availability of financial assistance to low-income and needy students to take these examinations. School boards shall implement a plan to make these examinations available to students receiving home instruction.

## CHAPTER 569

*An Act to amend and reenact § 2.2-4309 of the Code of Virginia, relating to the Virginia Public Procurement Act; contract modification.*

[H 1628]

Approved March 23, 2015

**Be it enacted by the General Assembly of Virginia:**

**1. That § 2.2-4309 of the Code of Virginia is amended and reenacted as follows:**

**§ 2.2-4309. Modification of the contract.**

*A. A public contract may include provisions for modification of the contract during performance, but no fixed-price contract may be increased by more than twenty-five percent of the amount of the contract or \$50,000, whichever is greater, without the advance written approval of the Governor or his designee, in the case of state agencies, or the governing body, in the case of political subdivisions. In no event may the amount of any contract, without adequate consideration, be increased for any purpose, including, but not limited to, relief of an offeror from the consequences of an error in its bid or offer.*

*B. Any public body may extend the term of an existing contract for services to allow completion of any work undertaken but not completed during the original term of the contract.*

*C. Nothing in this section shall prevent any public body from placing greater restrictions on contract modifications.*

*D. The provisions of this section shall not limit the amount a party to a public contract may claim or recover against a public body pursuant to § 2.2-4363 or any other applicable statute or regulation. Modifications made by a political subdivision that fail to comply with this section are voidable at the discretion of the governing body, and the unauthorized approval of a modification cannot be the basis of a contractual claim as set forth in § 2.2-4363.*

## CHAPTER 570

*An Act to amend and reenact § 2.2-4302.2 of the Code of Virginia, relating to the Virginia Public Procurement Act; job order contracts and design professional contracts.*

[H 1637]

Approved March 23, 2015

**Be it enacted by the General Assembly of Virginia:****1. That § 2.2-4302.2 of the Code of Virginia is amended and reenacted as follows:****§ 2.2-4302.2. Process for competitive negotiation.**

A. The process for competitive negotiation shall include the following:

1. Issuance of a written Request for Proposal indicating in general terms that which is sought to be procured, specifying the factors that will be used in evaluating the proposal and containing or incorporating by reference the other applicable contractual terms and conditions, including any unique capabilities, specifications or qualifications that will be required;

2. Public notice of the Request for Proposal at least 10 days prior to the date set for receipt of proposals by posting on the Department of General Services' central electronic procurement website or other appropriate websites. Additionally, public bodies shall publish in a newspaper of general circulation in the area in which the contract is to be performed so as to provide reasonable notice to the maximum number of offerors that can be reasonably anticipated to submit proposals in response to the particular request. Posting on the Department of General Services' central electronic procurement website shall be required of any state public body. Local public bodies are encouraged to utilize the Department of General Services' central electronic procurement website to provide the public with centralized visibility and access to the Commonwealth's procurement opportunities. In addition, proposals may be solicited directly from potential contractors. Any additional solicitations shall include certified businesses selected from a list made available by the Department of Small Business and Supplier Diversity; and

3. For goods, nonprofessional services, and insurance, selection shall be made of two or more offerors deemed to be fully qualified and best suited among those submitting proposals, on the basis of the factors involved in the Request for Proposal, including price if so stated in the Request for Proposal. Negotiations shall then be conducted with each of the offerors so selected. Price shall be considered, but need not be the sole or primary determining factor. After negotiations have been conducted with each offeror so selected, the public body shall select the offeror which, in its opinion, has made the best proposal and provides the best value, and shall award the contract to that offeror. When the terms and conditions of multiple awards are so provided in the Request for Proposal, awards may be made to more than one offeror. Should the public body determine in writing and in its sole discretion that only one offeror is fully qualified, or that one offeror is clearly more highly qualified than the others under consideration, a contract may be negotiated and awarded to that offeror; or

4. For professional services, the public body shall engage in individual discussions with two or more offerors deemed fully qualified, responsible and suitable on the basis of initial responses and with emphasis on professional competence, to provide the required services. Repetitive informal interviews shall be permissible. The offerors shall be encouraged to elaborate on their qualifications and performance data or staff expertise pertinent to the proposed project, as well as alternative concepts. In addition, offerors shall be informed of any ranking criteria that will be used by the public body in addition to the review of the professional competence of the offeror. The Request for Proposal shall not, however, request that offerors furnish estimates of man-hours or cost for services. At the discussion stage, the public body may discuss nonbinding estimates of total project costs, including, but not limited to, life-cycle costing, and where appropriate, nonbinding estimates of price for services. In accordance with § 2.2-4342, proprietary information from competing offerors shall not be disclosed to the public or to competitors. At the conclusion of discussion, outlined in this subdivision, on the basis of evaluation factors published in the Request for Proposal and all information developed in the selection process to this point, the public body shall select in the order of preference two or more offerors whose professional qualifications and proposed services are deemed most meritorious.

Negotiations shall then be conducted, beginning with the offeror ranked first. If a contract satisfactory and advantageous to the public body can be negotiated at a price considered fair and reasonable, the award shall be made to that offeror. Otherwise, negotiations with the offeror ranked first shall be formally terminated and negotiations conducted with the offeror ranked second, and so on until such a contract can be negotiated at a fair and reasonable price.

Notwithstanding the foregoing, if the terms and conditions for multiple awards are included in the Request for Proposal, a public body may award contracts to more than one offeror.

Should the public body determine in writing and in its sole discretion that only one offeror is fully qualified or that one offeror is clearly more highly qualified and suitable than the others under consideration, a contract may be negotiated and awarded to that offeror.

B. For multiple projects, a contract for architectural or professional engineering services relating to construction projects, or a contract for job order contracting, may be negotiated by a public body, provided (i) the projects require similar experience and expertise, (ii) the nature of the projects is clearly identified in the Request for Proposal, and (iii) the contract is limited to a one-year term or when the cumulative total project fees reach the maximum cost authorized in this subsection, whichever occurs first.

Such contracts may be renewable for four additional one-year terms at the option of the public body. The fair and reasonable prices as negotiated shall be used in determining the cost of each project performed and the sum of all projects performed in a one-year contract term shall not exceed \$500,000, except that for:

1. A state agency, as defined in § 2.2-4347, the sum of all projects performed in a one-year contract term shall not exceed \$1 million as may be determined by the Director of the Department of General Services;

2. Any locality or any authority, sanitation district, metropolitan planning organization, or planning district commission with a population in excess of ~~80,000~~ 78,000, or any city within Planning District 8, the sum of all projects performed in a one-year contract term shall not exceed \$5 \$6 million and those awarded for any airport as defined in § 5.1-1 and aviation transportation projects, the sum of all such projects shall not exceed \$1.5 million;

3. Architectural and engineering services for rail and public transportation projects by the Director of the Department of Rail and Public Transportation, the sum of all projects in a one-year contract term shall not exceed \$2 million. Such contract may be renewable for two additional one-year terms at the option of the Director;

4. Environmental, location, design, and inspection work regarding highways and bridges by the Commissioner of Highways, the initial contract term shall be limited to two years or when the cumulative total project fees reach \$5 million, whichever occurs first. Such contract may be renewable for two additional one-year terms at the option of the Commissioner, and the sum of all projects in each one-year contract term shall not exceed \$5 million; and

5. Job order contracting, the sum of all projects performed in a one-year contract term shall not exceed ~~\$2~~ \$5 million.

Competitive negotiations for such contracts may result in awards to more than one offeror provided (i) the Request for Proposal so states and (ii) the public body has established procedures for distributing multiple projects among the selected contractors during the contract term.

C. For any single project, for (i) architectural or professional engineering services relating to construction projects, or (ii) job order contracting, the project fee shall not exceed \$100,000, or for architectural or engineering services for airports as defined in § 5.1-1 and aviation transportation projects, the project fee shall not exceed \$500,000, except that for:

1. A state agency as defined in § 2.2-4347, the project fee shall not exceed \$200,000, as may be determined by the Director of the Department of General Services;

2. Any locality or any authority or sanitation district with a population in excess of ~~80,000~~ 78,000, or any city within Planning District 8, the project fee shall not exceed ~~\$2~~ \$2.5 million; and

3. Job order contracting, the project fee shall not exceed ~~\$400,000~~ \$500,000.

The limitations imposed upon single project fees pursuant to this subsection shall not apply to environmental, location, design, and inspection work regarding highways and bridges by the Commissioner of Highways or architectural and engineering services for rail and public transportation projects by the Director of the Department of Rail and Public Transportation.

D. For the purposes of subsections B and C, any unused amounts from the first contract term shall not be carried forward to the additional term.

E. Multiphase professional services contracts satisfactory and advantageous to the completion of large, phased, or long term projects may be negotiated and awarded based on a fair and reasonable price for the first phase only, where the completion of the earlier phases is necessary to provide information critical to the negotiation of a fair and reasonable price for succeeding phases. Prior to the entering into any such contract, the public body shall (i) state the anticipated intended total scope of the project and (ii) determine in writing that the nature of the work is such that the best interests of the public body require awarding the contract.

## CHAPTER 571

*An Act to amend and reenact § 24.2-643 of the Code of Virginia, relating to voter identification; accepted forms of identification.*

[H 1653]

Approved March 23, 2015

### **Be it enacted by the General Assembly of Virginia:**

#### **1. That § 24.2-643 of the Code of Virginia is amended and reenacted as follows:**

##### **§ 24.2-643. Qualified voter permitted to vote; procedures at polling place; voter identification.**

A. After the polls are open, each qualified voter at a precinct shall be permitted to vote. The officers of election shall ascertain that a person offering to vote is a qualified voter before admitting him to the voting booth and furnishing an official ballot to him.

B. An officer of election shall ask the voter for his full name and current residence address and repeat, in a voice audible to party and candidate representatives present, the full name and address stated by the voter. The officer shall ask the voter to present any one of the following forms of identification: his valid Virginia driver's license, his valid United States passport, or any other photo identification issued by the Commonwealth, one of its political subdivisions, or the United States; any valid student identification card containing a photograph of the voter and issued by any institution of higher education located in the Commonwealth *or any private school located in the Commonwealth*; or any valid employee

identification card containing a photograph of the voter and issued by an employer of the voter in the ordinary course of the employer's business.

Any voter who does not show one of the forms of identification specified in this subsection shall be offered a provisional ballot under the provisions of § 24.2-653. The State Board of Elections shall provide an ID-ONLY provisional ballot envelope that requires no follow-up action by the registrar or electoral board other than matching submitted identification documents from the voter for the electoral board to make a determination on whether to count the ballot.

If the voter's name is found on the pollbook, if he presents one of the forms of identification listed above, if he is qualified to vote in the election, and if no objection is made, an officer shall enter, opposite the voter's name on the pollbook, the first or next consecutive number from the voter count form provided by the State Board, or shall enter that the voter has voted if the pollbook is in electronic form; an officer shall provide the voter with the official ballot; and another officer shall admit him to the voting booth. Each voter whose name has been marked on the pollbooks as present to vote and entitled to a ballot shall remain in the presence of the officers of election in the polling place until he has voted. If a line of voters who have been marked on the pollbooks as present to vote forms to await entry to the voting booths, the line shall not be permitted to extend outside of the room containing the voting booths and shall remain under observation by the officers of election.

A voter may be accompanied into the voting booth by his child age 15 or younger.

C. If the current residence address stated by the voter is different from the address shown on the pollbook, the officer of election shall furnish the voter with a change of address form prescribed by the State Board. Upon its completion, the voter shall sign the prescribed form, subject to felony penalties for making false statements pursuant to § 24.2-1016, which the officer of election shall then place in an envelope provided for such forms for transmission to the general registrar who shall then transfer or cancel the registration of such voter pursuant to Chapter 4 (§ 24.2-400 et seq.).

D. At the time the voter is asked his full name and current residence address, the officer of election shall ask any voter for whom the pollbook indicates that an identification number other than a social security number is recorded on the Virginia voter registration system if he presently has a social security number. If the voter is able to provide his social security number, he shall be furnished with a voter registration form prescribed by the State Board to update his registration information. Upon its completion, the form shall be placed by the officer of election in an envelope provided for such forms for transmission to the general registrar. Any social security numbers so provided shall be entered by the general registrar in the voter's record on the voter registration system.

**2. That the provisions of this act shall become effective on January 2, 2016.**

## CHAPTER 572

*An Act to amend and reenact § 2.2-1133 of the Code of Virginia, relating to the Department of General Services; Division of Engineering and Buildings; use of value engineering.*

[H 2293]

Approved March 23, 2015

[S 1351]

Approved March 23, 2015

**Be it enacted by the General Assembly of Virginia:****1. That § 24.2-604 of the Code of Virginia is amended and reenacted as follows:****§ 24.2-604. Prohibited activities at polls; notice of prohibited area; electioneering; presence of representatives of parties or candidates; simulated elections; observers; news media; penalties.**

A. During the times the polls are open and ballots are being counted, it shall be unlawful for any person (i) to loiter or congregate within 40 feet of any entrance of any polling place; (ii) within such distance to give, tender, or exhibit any ballot, ticket, or other campaign material to any person or to solicit or in any manner attempt to influence any person in casting his vote; or (iii) to hinder or delay a qualified voter in entering or leaving a polling place.

B. Prior to opening the polls, the officers of election shall post, in the area within 40 feet of any entrance to the polling place, sufficient notices which state "Prohibited Area" in two-inch type. The notices shall also state the provisions of this section in not less than 24-point type. The officers of election shall post the notices within the prohibited area to be visible to voters and the public.

C. The officers of election shall permit one authorized representative of each political party or independent candidate in a general or special election, or one authorized representative of each candidate in a primary election, to remain in the room in which the election is being conducted at all times. A representative may serve part of the day and be replaced by successive representatives. The officers of election shall have discretion to permit up to three authorized representatives of each political party or independent candidate in a general or special election, or up to three authorized representatives of each candidate in a primary election, to remain in the room in which the election is being conducted. The officers shall permit one such representative for each pollbook station. However, no more than one such representative for each pollbook station or three representatives of any political party or independent candidate, whichever number is larger, shall be permitted in the room at any one time. Each authorized representative shall be a qualified voter of any jurisdiction of the Commonwealth. Each representative shall present to the officers of election a written statement designating him to be a representative of the party or candidate and signed by the county or city chairman of his political party, the independent candidate, or the primary candidate, as appropriate. Such statement, bearing the chairman's or candidate's original signature, may be photocopied, and such photocopy shall be as valid as if the copy had been signed. No candidate whose name is printed on the ballot shall serve as a representative of a party or candidate for purposes of this section. Authorized representatives shall be allowed, whether in a regular polling place or central absentee voter precinct, to be close enough to the voter check-in table to be able to hear and see what is occurring; however, such observation shall not violate the secret vote provision of Article II, Section 3 of the Constitution of Virginia or otherwise interfere with the orderly process of the election. Any representative who complains to the chief officer of election that he is unable to hear or see the process may accept the chief officer's decision or, if dissatisfied, he may immediately appeal the decision to the local electoral board. Authorized representatives shall be allowed, whether in a regular polling place or central absentee voter precinct, to use a handheld wireless communications device, ~~except that authorized representatives shall not be allowed to use such devices when they contain a camera or other imaging device to film or photograph inside a polling place or central absentee voter precinct, but shall not be allowed to use such a device to capture a digital image inside the polling place or central absentee voter precinct.~~ The officers of election may prohibit the use of cellular telephones or other handheld wireless communications devices if such use will result in a violation of subsection A or D or § 24.2-607. Authorized representatives shall not be allowed in any case to provide assistance to any voter as permitted under § 24.2-649 or to wear any indication that they are authorized to assist voters either inside the polling place or within 40 feet of any entrance to the polling place.

D. E. The officers of election may require any person who is found by a majority of the officers present to be in violation of this section to remain outside of the prohibited area. Any person violating subsection A or D shall be guilty of a Class 1 misdemeanor.

F. This section shall not be construed to prohibit a candidate from entering any polling place on the day of the election to vote, or to visit a polling place for no longer than 10 minutes per polling place per election day, provided that he complies with the restrictions stated in subsections A, D, and K.

G. This section shall not be construed to prohibit a minor from entering a polling place on the day of the election to vote in a simulated election at that polling place, provided that the local electoral board has determined that such polling place can accommodate simulated election activities without interference or substantial delay in the orderly conduct of the official voting process. Persons supervising or working in a simulated election in which minors vote may remain within such polling place. The local electoral board and the chief officer for the polling place shall exercise authority over, but shall have no responsibility for the administration of, simulated election related activities at the polling place.

H. A local electoral board, and its general registrar, may conduct a special election day program for high school students, selected by the electoral board in cooperation with high school authorities, in one or more polling places designated by the electoral board, other than a central absentee voter precinct. The program shall be designed to stimulate the students' interest in elections and registering to vote, provide assistance to the officers of election, and ensure the safe entry and exit of elderly and disabled voters from the polling place. Each student shall take and sign an oath as an election page, serve under the direct supervision of the chief officer of election of his assigned polling place, and observe strict impartiality at all times. Election pages may observe the electoral process and seek information from the chief officer of election, but shall not handle or touch ballots, voting machines, or any other official election materials, or enter any voting booth.

I. A local electoral board may authorize in writing the presence of additional neutral observers as it deems appropriate, except as otherwise prohibited or limited by this section. Such observers shall comply with the restrictions in subsections A and D and shall not be allowed in any case to provide assistance to any voter as permitted under § 24.2-649 or to wear any indication that they are authorized to assist voters either inside the polling place or within 40 feet of any entrance to the polling place.

J. The officers of election shall permit representatives of the news media to visit and film or photograph inside the polling place for a reasonable and limited period of time while the polls are open. However, the media (i) shall comply with the restrictions in subsections A and D; (ii) shall not film or photograph any person who specifically asks the media representative at that time that he not be filmed or photographed; (iii) shall not film or photograph the voter or the ballot in such a way that divulges how any individual voter is voting; and (iv) shall not film or photograph the voter list or any other voter record or material at the precinct in such a way that it divulges the name or other information concerning any individual voter. Any interviews with voters, candidates or other persons, live broadcasts, or taping of reporters' remarks, shall be conducted outside of the polling place and the prohibited area. The officers of election may require any person who is found by a majority of the officers present to be in violation of this subsection to leave the polling place and the prohibited area.

K. The provisions of subsections A and D shall not be construed to prohibit a person who approaches or enters the polling place for the purpose of voting from wearing a shirt, hat, or other apparel on which a candidate's name or a political slogan appears or from having a sticker or button attached to his apparel on which a candidate's name or a political slogan appears. This exemption shall not apply to candidates, representatives of candidates, or any other person who approaches or enters the polling place for any purpose other than voting.

If such member of the armed forces of the United States is killed in action after January 1, 2015, and the surviving spouse has a qualified principal residence on the date that such member of the armed forces is killed in action, then the exemption for the surviving spouse shall begin on the date that such member of the armed forces is killed in action. For purposes of determining whether a dwelling, *or a portion of its value*, is exempt from county and town real property taxes, the average assessed value shall be such average for all dwellings located within the county that are situated on property zoned as single family residential.

C. The surviving spouse of a member of the armed forces killed in action shall qualify for the exemption so long as the surviving spouse does not remarry and continues to occupy the real property as his principal place of residence. *The exemption applies without any restriction on the spouse's moving to a different principal place of residence.*

D. A county, city, or town shall provide for the exemption from real property taxes (i) the qualifying dwelling, *or the portion of the value of such dwelling and land that qualifies for the exemption pursuant to subsection B*, and (ii) the land, not exceeding one acre, upon which it is situated. 2. In the event that the principal residence is jointly owned by two or more individuals; ~~not all of whom qualify for the exemption~~; *including the surviving spouse*, and no person is entitled to the exemption under this section by virtue of holding the property in any of the three ways set forth in subsection E, then the exemption shall be prorated by multiplying the amount of the exemption by a fraction that has as a numerator the percentage of ownership interest in the dwelling held by ~~all such joint owners who qualify for the exemption~~ *the surviving spouse*, and as a denominator, 100 percent.

Any such taxpayer, or his heirs, successors or assigns, who shall fail to have his taxes prorated by the county or city treasurer, as above provided, shall be entitled to apply to the appropriate court for proration of the taxes, as herein provided, in the same manner and within the same time as provided by law for the correction of erroneous assessments and refunding taxes erroneously charged; provided, however that in such proceedings such taxpayer shall be entitled to relief of interest and penalties only as to the proportionate part of the property so taken or acquired by the Commonwealth; or any county or municipality thereof; a church or religious body, ~~which~~ that is exempt from taxation by Article X, Section 6 of the Constitution of Virginia; a surviving spouse of a member of the armed forces of the United States who was killed in action for that portion of the property that is exempt from taxation pursuant to § 58.1-3219.9; or a disabled veteran for that portion of the property that is exempt from taxation pursuant to § 58.1-3219.5.

However, the Governor's prior written approval shall be required for transfers of such property developed wholly or predominately through the use of state general funds, exclusive of capital assets, and either (i) such property was developed by an employee of the institution acting within the scope of his assigned duties, or (ii) such property is to be transferred to an entity other than the Innovation and Entrepreneurship Investment Authority, an entity whose purpose is to manage intellectual properties on behalf of nonprofit organizations, colleges and universities, or an entity whose purpose is to benefit the respective institutions. The Governor may attach conditions to these transfers as he deems necessary. In the event the Governor does not approve such transfer, the materials shall remain the property of the respective institutions and may be used and developed in any manner permitted by law.

## CHAPTER 584

*An Act to amend and reenact § 38.2-2206 of the Code of Virginia and to amend the Code of Virginia by adding in Article 7 of Chapter 3 of Title 8.01 a section numbered 8.01-66.1:1, relating to motor vehicle accidents; settlement of underinsured motorist claims; subrogation claims by underinsured motorist benefits insurer.*

[S 1190]

Approved March 26, 2015

**Be it enacted by the General Assembly of Virginia:****1. That § 38.2-2206 of the Code of Virginia is amended and reenacted and that the Code of Virginia is amended by adding in Article 7 of Chapter 3 of Title 8.01 a section numbered 8.01-66.1:1 as follows:****§ 8.01-66.1:1. Subrogation claims by underinsured motorist benefits insurer.**

A. Any underinsured motorist benefits insurer paying such benefits to an insured, by way of settlement or payment pursuant to a judgment, shall have no right of subrogation against any individual or entity who settled with the underinsured motorist benefits insurer's insured pursuant to subsection K of § 38.2-2206 unless the underinsured motorist failed to reasonably cooperate in the defense of any lawsuit brought against him. An underinsured motorist shall be presumed to have failed to reasonably cooperate if he fails or refuses:

1. To attend his deposition or trial if subpoenaed to appear at least 21 days in advance of either event;
2. To assist in responding to written discovery;
3. To meet with defense counsel for a reasonable period of time after reasonable notice, by phone or in person, within 21 days of being served with any lawsuit and again prior to his deposition and trial; or
4. To notify counsel for the underinsured motorist benefits insurer of any change in address.

The underinsured motorist may rebut the presumption that he failed to reasonably cooperate. If the court finds that the underinsured motorist's failure to cooperate was not unreasonable or that the underinsured motorist otherwise acted in good faith in attempting to comply with his duty to reasonably cooperate with the underinsured motorist benefits insurer, then the underinsured motorist benefits insurer will not regain its right of subrogation.

B. The underinsured motorist benefits insurer seeking the cooperation of the underinsured motorist shall pay the reasonable costs and expenses related to procuring such cooperation, including any travel costs if the underinsured motorist resides more than 100 miles from the location of his deposition or trial. Travel costs may be considered by the court in determining whether the underinsured motorist's failure to cooperate was unreasonable or not.

C. If the court finds that the underinsured motorist satisfied his duty to cooperate with the underinsured motorist benefits insurer or that his failure to do so was not unreasonable, then the court may award him his costs in defending such subrogation action, including reasonable attorney fees.

**§ 38.2-2206. Uninsured motorist insurance coverage.**

A. Except as provided in subsection J of this section, no policy or contract of bodily injury or property damage liability insurance relating to the ownership, maintenance, or use of a motor vehicle shall be issued or delivered in this Commonwealth to the owner of such vehicle or shall be issued or delivered by any insurer licensed in this Commonwealth upon any motor vehicle principally garaged or used in this Commonwealth unless it contains an endorsement or provisions undertaking to pay the insured all sums that he is legally entitled to recover as damages from the owner or operator of an uninsured motor vehicle, within limits not less than the requirements of § 46.2-472. Those limits shall equal but not exceed the limits of the liability insurance provided by the policy, unless any one named insured rejects the additional uninsured motorist insurance coverage by notifying the insurer as provided in subsection B of § 38.2-2202. This rejection of the additional uninsured motorist insurance coverage by any one named insured shall be binding upon all insureds under such policy as defined in subsection B of this section. The endorsement or provisions shall also obligate the insurer to make payment for bodily injury or property damage caused by the operation or use of an underinsured motor vehicle to the extent the vehicle is underinsured, as defined in subsection B of this section. The endorsement or provisions shall also provide for at least \$20,000 coverage for damage or destruction of the property of the insured in any one accident but may provide an exclusion of the first \$200 of the loss or damage where the loss or damage is a result of any one accident involving an unidentifiable owner or operator of an uninsured motor vehicle.

B. As used in this section, the term "bodily injury" includes death resulting from bodily injury.

"Insured" as used in subsections A, D, G, and H of this section means the named insured and, while resident of the same household, the spouse of the named insured, and relatives, wards or foster children of either, while in a motor vehicle or otherwise, and any person who uses the motor vehicle to which the policy applies, with the expressed or implied consent of the named insured, and a guest in the motor vehicle to which the policy applies or the personal representative of any of the above.

"Uninsured motor vehicle" means a motor vehicle for which (i) there is no bodily injury liability insurance and property damage liability insurance in the amounts specified by § 46.2-472, (ii) there is such insurance but the insurer writing the insurance denies coverage for any reason whatsoever, including failure or refusal of the insured to cooperate with the insurer, (iii) there is no bond or deposit of money or securities in lieu of such insurance, (iv) the owner of the motor vehicle has not qualified as a self-insurer under the provisions of § 46.2-368, or (v) the owner or operator of the motor vehicle is immune from liability for negligence under the laws of the Commonwealth or the United States, in which case the provisions of subsection F shall apply and the action shall continue against the insurer. A motor vehicle shall be deemed uninsured if its owner or operator is unknown.

A motor vehicle is "underinsured" when, and to the extent that, the total amount of bodily injury and property damage coverage applicable to the operation or use of the motor vehicle and available for payment for such bodily injury or property damage, including all bonds or deposits of money or securities made pursuant to Article 15 (§ 46.2-435 et seq.) of Chapter 3 of Title 46.2, is less than the total amount of uninsured motorist coverage afforded any person injured as a result of the operation or use of the vehicle.

"Available for payment" means the amount of liability insurance coverage applicable to the claim of the injured person for bodily injury or property damage reduced by the payment of any other claims arising out of the same occurrence.

If an injured person is entitled to underinsured motorist coverage under more than one policy, the following order of priority of policies applies and any amount available for payment shall be credited against such policies in the following order of priority:

1. The policy covering a motor vehicle occupied by the injured person at the time of the accident;
2. The policy covering a motor vehicle not involved in the accident under which the injured person is a named insured;
3. The policy covering a motor vehicle not involved in the accident under which the injured person is an insured other than a named insured.

Where there is more than one insurer providing coverage under one of the payment priorities set forth, their liability shall be proportioned as to their respective underinsured motorist coverages.

Recovery under the endorsement or provisions shall be subject to the conditions set forth in this section.

C. There shall be a rebuttable presumption that a motor vehicle is uninsured if the Commissioner of the Department of Motor Vehicles certifies that, from the records of the Department of Motor Vehicles, it appears that: (i) there is no bodily injury liability insurance and property damage liability insurance in the amounts specified by § 46.2-472 covering the owner or operator of the motor vehicle; or (ii) no bond has been given or cash or securities delivered in lieu of the insurance; or (iii) the owner or operator of the motor vehicle has not qualified as a self-insurer in accordance with the provisions of § 46.2-368.

D. If the owner or operator of any motor vehicle that causes bodily injury or property damage to the insured is unknown, and if the damage or injury results from an accident where there has been no contact between that motor vehicle and the motor vehicle occupied by the insured, or where there has been no contact with the person of the insured if the insured was not occupying a motor vehicle, then for the insured to recover under the endorsement required by subsection A of this section, the accident shall be reported promptly to either (i) the insurer or (ii) a law-enforcement officer having jurisdiction in the county or city in which the accident occurred. If it is not reasonably practicable to make the report promptly, the report shall be made as soon as reasonably practicable under the circumstances.

E. If the owner or operator of any vehicle causing injury or damages is unknown, an action may be instituted against the unknown defendant as "John Doe" and service of process may be made by delivering a copy of the motion for judgment

or other pleadings to the clerk of the court in which the action is brought. Service upon the insurer issuing the policy shall be made as prescribed by law as though the insurer were a party defendant. The provisions of § 8.01-288 shall not be applicable to the service of process required in this subsection. The insurer shall have the right to file pleadings and take other action allowable by law in the name of John Doe.

F. If any action is instituted against the owner or operator of an uninsured or underinsured motor vehicle by any insured intending to rely on the uninsured or underinsured coverage provision or endorsement of this policy under which the insured is making a claim, then the insured shall serve a copy of the process upon this insurer in the manner prescribed by law, as though the insurer were a party defendant. The provisions of § 8.01-288 shall not be applicable to the service of process required in this subsection. The insurer shall then have the right to file pleadings and take other action allowable by law in the name of the owner or operator of the uninsured or underinsured motor vehicle or in its own name. Notwithstanding the provisions of subsection A, the immunity from liability for negligence of the owner or operator of a motor vehicle shall not be a bar to the insured obtaining a judgment enforceable against the insurer for the negligence of the immune owner or operator, and shall not be a defense available to the insurer to the action brought by the insured, which shall proceed against the named defendant although any judgment obtained against an immune defendant shall be entered in the name of "Immune Defendant" and shall be enforceable against the insurer and any other nonimmune defendant as though it were entered in the actual name of the named immune defendant. Nothing in this subsection shall prevent the owner or operator of the uninsured motor vehicle from employing counsel of his own choice and taking any action in his own interest in connection with the proceeding.

G. Any insurer paying a claim under the endorsement or provisions required by subsection A of this section shall be subrogated to the rights of the insured to whom the claim was paid against the person causing the injury, death, or damage and that person's insurer, although it may deny coverage for any reason, to the extent that payment was made. The bringing of an action against the unknown owner or operator as John Doe or the conclusion of such an action shall not bar the insured from bringing an action against the owner or operator proceeded against as John Doe, or against the owner's or operator's insurer denying coverage for any reason, if the identity of the owner or operator who caused the injury or damages becomes known. The bringing of an action against an unknown owner or operator as John Doe shall toll the statute of limitations for purposes of bringing an action against the owner or operator who caused the injury or damages until his identity becomes known. In no event shall an action be brought against an owner or operator who caused the injury or damages, previously filed against as John Doe, more than three years from the commencement of the action against the unknown owner or operator as John Doe in a court of competent jurisdiction. Any recovery against the owner or operator, or the insurer of the owner or operator shall be paid to the insurer of the injured party to the extent that the insurer paid the named insured in the action brought against the owner or operator as John Doe. However, the insurer shall pay its proportionate part of all reasonable costs and expenses incurred in connection with the action, including reasonable attorney's fees. Nothing in an endorsement or provisions made under this subsection nor any other provision of law shall prevent the joining in an action against John Doe of the owner or operator of the motor vehicle causing the injury as a party defendant, and the joinder is hereby specifically authorized. No action, verdict or release arising out of a suit brought under this subsection shall give rise to any defenses in any other action brought in the subrogated party's name, including res judicata and collateral estoppel.

H. No endorsement or provisions providing the coverage required by subsection A of this section shall require arbitration of any claim arising under the endorsement or provisions, nor may anything be required of the insured except the establishment of legal liability, nor shall the insured be restricted or prevented in any manner from employing legal counsel or instituting legal proceedings.

I. Except as provided in § 65.2-309.1, the provisions of subsections A and B of § 38.2-2204 and the provisions of subsection A of this section shall not apply to any policy of insurance to the extent that it covers the liability of an employer under any workers' compensation law, or to the extent that it covers liability to which the Federal Tort Claims Act applies. No provision or application of this section shall limit the liability of an insurer of motor vehicles to an employee or other insured under this section who is injured by an uninsured motor vehicle; provided that in the event an employee of a self-insured employer receives a workers' compensation award for injuries resulting from an accident with an uninsured motor vehicle, such award shall be set off against any judgment for damages awarded pursuant to this section for personal injuries resulting from such accident.

J. Policies of insurance whose primary purpose is to provide coverage in excess of other valid and collectible insurance or qualified self-insurance may include uninsured motorist coverage as provided in subsection A of this section. Insurers issuing or providing liability policies that are of an excess or umbrella type or which provide liability coverage incidental to a policy and not related to a specifically insured motor vehicle, shall not be required to offer, provide or make available to those policies uninsured or underinsured motor vehicle coverage as defined in subsection A of this section.

K. ~~A liability insurance carrier providing coverage under a policy issued or renewed on or after July 1, 1988, may pay the entire amount of its available coverage without obtaining a release of a claim if the claimant has underinsured insurance coverage in excess of the amount so paid. Any liability insurer making a payment pursuant to this section shall promptly give notice to its insured and to the insurer which provides the underinsured coverage that it has paid the full amount of its available coverage. An injured person, or in the case of death or disability his personal representative, may settle a claim with (i) a liability insurer or insurers, including any insurer providing liability coverage through an excess or umbrella insurance policy or contract and (ii) the liability insurer's or insurers' insured for the available limits of the liability insurer's coverage. Upon settlement with the liability insurer or insurers, the injured party or personal representative shall~~

proceed to execute a full release in favor of the underinsured motorist's liability insurer and its insured and finalize the proposed settlement without prejudice to any underinsured motorist benefits or claim. Upon payment of the liability insurer's available limits to the injured person or personal representative or his attorney, the liability insurer shall thereafter have no further duties to its insured, including the duty to defend its insured if an action has been or is brought against the liability insurer's insured, and the insurer providing applicable underinsured motorist coverage shall have no right of subrogation or claim against the underinsured motorist. However, if the underinsured motorist unreasonably fails to cooperate with the underinsured motorist benefits insurer in the defense of any lawsuit brought by the injured person or his personal representative, he may again be subjected to a claim for subrogation by the underinsured motorist benefits insurer pursuant to § 8.01-66.1:1. This section provides an alternative means by which the parties may resolve claims and does not eliminate or restrict any other available means.

L. If the liability insurer or insurers providing coverage to an underinsured motor vehicle owner or operator make an irrevocable offer in writing, which may be contingent upon waiver of subrogation, to pay the total amount of liability coverage available for payment with reference to a claim for property damage or bodily injury, 60 days following written notice of the offer to any insurer or insurers providing underinsured coverage that have been served pursuant to this section, the insurer or insurers providing liability coverage shall be relieved of the cost of defending the owner or operator incurred thereafter, including expenses as well as reasonable and necessary attorney fees, and the insurer or insurers providing the underinsured motorist coverage shall reimburse the liability insurer or insurers for the costs to defend the underinsured motor vehicle owner or operator to the date of the underinsured motorist insurer's offer of its limit of coverage. The liability insurer or insurers shall nonetheless retain the duty to defend their insured. If underinsured motorist coverage is provided by more than one insurer, the cost to defend shall be assumed in the same order of priority as set forth in subsection B with regard to the payment of underinsured benefits upon the offer of each underinsured motorist insurer's limit of coverage. This subsection, including the liability insurer's irrevocable offer and the underinsured insurer's liability for defense costs, shall not apply in the event of either a jury verdict being returned in an amount equal to or less than the total liability coverage available for payment or a dispositive ruling dismissing the plaintiff's complaint, including but not limited to the plaintiff taking a voluntary nonsuit. This subsection shall not apply to costs incurred in connection with an appeal. Any settlement between the injured person or his personal representative, any insurer providing liability coverage applicable to the claim, and the underinsured motorist described in subsection K shall be in writing, signed by both the injured person or his personal representative and the underinsured motorist, and shall include the following notice to the underinsured motorist, which must be initiated by the underinsured motorist:

*"NOTICE TO RELEASED PARTY: Your insurance company has agreed to pay the available limits of its insurance to settle certain claims on your behalf. This settlement secures a full release of you for all claims the claimant/plaintiff has against you arising out of the subject accident, as well as ensures that no judgment can ever be entered against you by the claimant/plaintiff. In order to protect yourself from subrogation by any underinsured motorist insurer, you are agreeing to cooperate with the underinsured motorist benefits insurer(s).*

*Under this manner of settlement, the underinsured motorist benefits insurer(s) that is/are involved in this case has/have no right of subrogation against you unless you fail to reasonably cooperate in its/their defense of the claim by not (i) attending your deposition and trial, if subpoenaed, (ii) assisting in responding to discovery, (iii) meeting with defense counsel at reasonable times after commencement of this suit and before your testimony at a deposition and/or trial, and (iv) notifying defense counsel of any change in your address.*

*Upon payment of the agreed settlement amount by your insurance company(ies), such company shall no longer owe you any duties, including the duty to hire and pay for an attorney for you. You are not required to consent to settlement in this manner. If you do not consent to settlement in this manner, your insurance company will still defend you in any lawsuit brought against you by the claimant/plaintiff, but you will not have the protections of a full release from the claimant/plaintiff, judgment could be entered against you and may exceed your available insurance coverage, and any underinsured motorist benefits insurer would have a right of subrogation against you to recover any moneys it pays to the claimant/plaintiff.*

*You are encouraged to discuss your rights and obligations related to settlement in this manner with your insurance company and/or an attorney. By signing this document, you agree to consent to this settlement and to reasonably cooperate with the underinsured motorist benefits insurer in the defense of any lawsuit brought by the claimant/plaintiff.*

\_\_\_\_\_ (initial)"

*In the alternative, the liability insurer may send the notice to the released party by certified mail return receipt requested to the underinsured motorist at his last known address.*

M. Any action brought by the injured person or his personal representative to recover underinsured motorist benefits after payment of the liability insurer's available limits pursuant to subsection K shall be brought against the released defendant or defendants, and a copy of the complaint shall be served on any insurer providing underinsured motorist benefits. If an action is pending at the time the liability insurer's available limits are paid to the injured person or personal representative or his attorney, then the action shall remain pending against the named defendant or defendants who have been released. If such action results in a verdict in favor of the injured person or his personal representative against a released defendant, then judgment as to that defendant shall be entered in the name of "Released Defendant" and shall be enforceable against the underinsured motorist benefits insurer or insurers, not to exceed the underinsured motorist benefits limits, and against any unreleased defendant, as though it were entered in the actual name of the released defendant.

*N. Any proposed settlement between a liability insurer and a person under a disability or a personal representative as permitted in subsection K that compromises in part a claim for personal injuries by the person under a disability or for death by wrongful act pursuant to § 8.01-50 may be, but is not required to be, approved pursuant to § 8.01-424 or 8.01-55, as applicable. If the personal representative elects not to have the settlement with the liability insurer approved pursuant to § 8.01-55, then any payment made to the personal representative by the liability insurer shall be made payable to the personal representative's attorney, to be held in trust, or paid into the court pursuant to § 8.01-600 if the personal representative is not represented by an attorney, with no disbursements made therefrom until the compromise is approved by the court pursuant to § 8.01-55. Approval by the court of a settlement between the liability insurer and a person under a disability or the personal representative pursuant to this subsection shall not prejudice the person's or personal representative's claim for underinsured motorist benefits.*

**2. That the provisions of this act shall apply to policies issued or renewed on or after January 1, 2016.**

## CHAPTER 585

An underinsured motorist shall be presumed to have failed to reasonably cooperate if he fails or refuses:*

- 1. To attend his deposition or trial if subpoenaed to appear at least 21 days in advance of either event;*
- 2. To assist in responding to written discovery;*
- 3. To meet with defense counsel for a reasonable period of time after reasonable notice, by phone or in person, within 21 days of being served with any lawsuit and again prior to his deposition and trial; or*
- 4. To notify counsel for the underinsured motorist benefits insurer of any change in address.*

*The underinsured motorist may rebut the presumption that he failed to reasonably cooperate. If the court finds that the underinsured motorist's failure to cooperate was not unreasonable or that the underinsured motorist otherwise acted in good faith in attempting to comply with his duty to reasonably cooperate with the underinsured motorist benefits insurer, then the underinsured motorist benefits insurer will not regain its right of subrogation.*

*B. The underinsured motorist benefits insurer seeking the cooperation of the underinsured motorist shall pay the reasonable costs and expenses related to procuring such cooperation, including any travel costs if the underinsured motorist resides more than 100 miles from the location of his deposition or trial. Travel costs may be considered by the court in determining whether the underinsured motorist's failure to cooperate was unreasonable or not.*

*C. If the court finds that the underinsured motorist satisfied his duty to cooperate with the underinsured motorist benefits insurer or that his failure to do so was not unreasonable, then the court may award him his costs in defending such subrogation action, including reasonable attorney fees.*

**§ 38.2-2206. Uninsured motorist insurance coverage.**

*A. Except as provided in subsection J of this section, no policy or contract of bodily injury or property damage liability insurance relating to the ownership, maintenance, or use of a motor vehicle shall be issued or delivered in this Commonwealth to the owner of such vehicle or shall be issued or delivered by any insurer licensed in this Commonwealth upon any motor vehicle principally garaged or used in this Commonwealth unless it contains an endorsement or provisions undertaking to pay the insured all sums that he is legally entitled to recover as damages from the owner or operator of an uninsured motor vehicle, within limits not less than the requirements of § 46.2-472. Those limits shall equal but not exceed the limits of the liability insurance provided by the policy, unless any one named insured rejects the additional uninsured motorist insurance coverage by notifying the insurer as provided in subsection B of § 38.2-2202. This rejection of the additional uninsured motorist insurance coverage by any one named insured shall be binding upon all insureds under such policy as defined in subsection B of this section. The endorsement or provisions shall also obligate the insurer to make payment for bodily injury or property damage caused by the operation or use of an underinsured motor vehicle to the extent the vehicle is underinsured, as defined in subsection B of this section. The endorsement or provisions shall also provide for at least \$20,000 coverage for damage or destruction of the property of the insured in any one accident but may provide an exclusion of the first \$200 of the loss or damage where the loss or damage is a result of any one accident involving an unidentifiable owner or operator of an uninsured motor vehicle.*

B. As used in this section, the term "bodily injury" includes death resulting from bodily injury.

"Insured" as used in subsections A, D, G, and H of this section means the named insured and, while resident of the same household, the spouse of the named insured, and relatives, wards or foster children of either, while in a motor vehicle or otherwise, and any person who uses the motor vehicle to which the policy applies, with the expressed or implied consent of the named insured, and a guest in the motor vehicle to which the policy applies or the personal representative of any of the above.

"Uninsured motor vehicle" means a motor vehicle for which (i) there is no bodily injury liability insurance and property damage liability insurance in the amounts specified by § 46.2-472, (ii) there is such insurance but the insurer writing the insurance denies coverage for any reason whatsoever, including failure or refusal of the insured to cooperate with the insurer, (iii) there is no bond or deposit of money or securities in lieu of such insurance, (iv) the owner of the motor vehicle has not qualified as a self-insurer under the provisions of § 46.2-368, or (v) the owner or operator of the motor vehicle is immune from liability for negligence under the laws of the Commonwealth or the United States, in which case the provisions of subsection F shall apply and the action shall continue against the insurer. A motor vehicle shall be deemed uninsured if its owner or operator is unknown.

A motor vehicle is "underinsured" when, and to the extent that, the total amount of bodily injury and property damage coverage applicable to the operation or use of the motor vehicle and available for payment for such bodily injury or property damage, including all bonds or deposits of money or securities made pursuant to Article 15 (§ 46.2-435 et seq.) of Chapter 3 of Title 46.2, is less than the total amount of uninsured motorist coverage afforded any person injured as a result of the operation or use of the vehicle.

"Available for payment" means the amount of liability insurance coverage applicable to the claim of the injured person for bodily injury or property damage reduced by the payment of any other claims arising out of the same occurrence.

If an injured person is entitled to underinsured motorist coverage under more than one policy, the following order of priority of policies applies and any amount available for payment shall be credited against such policies in the following order of priority:

1. The policy covering a motor vehicle occupied by the injured person at the time of the accident;
2. The policy covering a motor vehicle not involved in the accident under which the injured person is a named insured;
3. The policy covering a motor vehicle not involved in the accident under which the injured person is an insured other than a named insured.

Where there is more than one insurer providing coverage under one of the payment priorities set forth, their liability shall be proportioned as to their respective underinsured motorist coverages.

Recovery under the endorsement or provisions shall be subject to the conditions set forth in this section.

C. There shall be a rebuttable presumption that a motor vehicle is uninsured if the Commissioner of the Department of Motor Vehicles certifies that, from the records of the Department of Motor Vehicles, it appears that: (i) there is no bodily injury liability insurance and property damage liability insurance in the amounts specified by § 46.2-472 covering the owner or operator of the motor vehicle; or (ii) no bond has been given or cash or securities delivered in lieu of the insurance; or (iii) the owner or operator of the motor vehicle has not qualified as a self-insurer in accordance with the provisions of § 46.2-368.

D. If the owner or operator of any motor vehicle that causes bodily injury or property damage to the insured is unknown, and if the damage or injury results from an accident where there has been no contact between that motor vehicle and the motor vehicle occupied by the insured, or where there has been no contact with the person of the insured if the insured was not occupying a motor vehicle, then for the insured to recover under the endorsement required by subsection A of this section, the accident shall be reported promptly to either (i) the insurer or (ii) a law-enforcement officer having jurisdiction in the county or city in which the accident occurred. If it is not reasonably practicable to make the report promptly, the report shall be made as soon as reasonably practicable under the circumstances.

E. If the owner or operator of any vehicle causing injury or damages is unknown, an action may be instituted against the unknown defendant as "John Doe" and service of process may be made by delivering a copy of the motion for judgment or other pleadings to the clerk of the court in which the action is brought. Service upon the insurer issuing the policy shall be made as prescribed by law as though the insurer were a party defendant. The provisions of § 8.01-288 shall not be applicable to the service of process required in this subsection. The insurer shall have the right to file pleadings and take other action allowable by law in the name of John Doe.

F. If any action is instituted against the owner or operator of an uninsured or underinsured motor vehicle by any insured intending to rely on the uninsured or underinsured coverage provision or endorsement of this policy under which the insured is making a claim, then the insured shall serve a copy of the process upon this insurer in the manner prescribed by law, as though the insurer were a party defendant. The provisions of § 8.01-288 shall not be applicable to the service of process required in this subsection. The insurer shall then have the right to file pleadings and take other action allowable by law in the name of the owner or operator of the uninsured or underinsured motor vehicle or in its own name. Notwithstanding the provisions of subsection A, the immunity from liability for negligence of the owner or operator of a motor vehicle shall not be a bar to the insured obtaining a judgment enforceable against the insurer for the negligence of the immune owner or operator, and shall not be a defense available to the insurer to the action brought by the insured, which shall proceed against the named defendant although any judgment obtained against an immune defendant shall be entered in the name of "Immune Defendant" and shall be enforceable against the insurer and any other nonimmune defendant as though it were

entered in the actual name of the named immune defendant. Nothing in this subsection shall prevent the owner or operator of the uninsured motor vehicle from employing counsel of his own choice and taking any action in his own interest in connection with the proceeding.

G. Any insurer paying a claim under the endorsement or provisions required by subsection A of this section shall be subrogated to the rights of the insured to whom the claim was paid against the person causing the injury, death, or damage and that person's insurer, although it may deny coverage for any reason, to the extent that payment was made. The bringing of an action against the unknown owner or operator as John Doe or the conclusion of such an action shall not bar the insured from bringing an action against the owner or operator proceeded against as John Doe, or against the owner's or operator's insurer denying coverage for any reason, if the identity of the owner or operator who caused the injury or damages becomes known. The bringing of an action against an unknown owner or operator as John Doe shall toll the statute of limitations for purposes of bringing an action against the owner or operator who caused the injury or damages until his identity becomes known. In no event shall an action be brought against an owner or operator who caused the injury or damages, previously filed against as John Doe, more than three years from the commencement of the action against the unknown owner or operator as John Doe in a court of competent jurisdiction. Any recovery against the owner or operator, or the insurer of the owner or operator shall be paid to the insurer of the injured party to the extent that the insurer paid the named insured in the action brought against the owner or operator as John Doe. However, the insurer shall pay its proportionate part of all reasonable costs and expenses incurred in connection with the action, including reasonable attorney's fees. Nothing in an endorsement or provisions made under this subsection nor any other provision of law shall prevent the joining in an action against John Doe of the owner or operator of the motor vehicle causing the injury as a party defendant, and the joinder is hereby specifically authorized. No action, verdict or release arising out of a suit brought under this subsection shall give rise to any defenses in any other action brought in the subrogated party's name, including res judicata and collateral estoppel.

H. No endorsement or provisions providing the coverage required by subsection A of this section shall require arbitration of any claim arising under the endorsement or provisions, nor may anything be required of the insured except the establishment of legal liability, nor shall the insured be restricted or prevented in any manner from employing legal counsel or instituting legal proceedings.

I. Except as provided in § 65.2-309.1, the provisions of subsections A and B of § 38.2-2204 and the provisions of subsection A of this section shall not apply to any policy of insurance to the extent that it covers the liability of an employer under any workers' compensation law, or to the extent that it covers liability to which the Federal Tort Claims Act applies. No provision or application of this section shall limit the liability of an insurer of motor vehicles to an employee or other insured under this section who is injured by an uninsured motor vehicle; provided that in the event an employee of a self-insured employer receives a workers' compensation award for injuries resulting from an accident with an uninsured motor vehicle, such award shall be set off against any judgment for damages awarded pursuant to this section for personal injuries resulting from such accident.

J. Policies of insurance whose primary purpose is to provide coverage in excess of other valid and collectible insurance or qualified self-insurance may include uninsured motorist coverage as provided in subsection A of this section. Insurers issuing or providing liability policies that are of an excess or umbrella type or which provide liability coverage incidental to a policy and not related to a specifically insured motor vehicle, shall not be required to offer, provide or make available to those policies uninsured or underinsured motor vehicle coverage as defined in subsection A of this section.

~~K. A liability insurance carrier providing coverage under a policy issued or renewed on or after July 1, 1988, may pay the entire amount of its available coverage without obtaining a release of a claim if the claimant has underinsured insurance coverage in excess of the amount so paid. Any liability insurer making a payment pursuant to this section shall promptly give notice to its insured and to the insurer which provides the underinsured coverage that it has paid the full amount of its available coverage. An injured person, or in the case of death or disability his personal representative, may settle a claim with (i) a liability insurer or insurers, including any insurer providing liability coverage through an excess or umbrella insurance policy or contract and (ii) the liability insurer's or insurers' insured for the available limits of the liability insurer's coverage. Upon settlement with the liability insurer or insurers, the injured party or personal representative shall proceed to execute a full release in favor of the underinsured motorist's liability insurer and its insured and finalize the proposed settlement without prejudice to any underinsured motorist benefits or claim. Upon payment of the liability insurer's available limits to the injured person or personal representative or his attorney, the liability insurer shall thereafter have no further duties to its insured, including the duty to defend its insured if an action has been or is brought against the liability insurer's insured, and the insurer providing applicable underinsured motorist coverage shall have no right of subrogation or claim against the underinsured motorist. However, if the underinsured motorist unreasonably fails to cooperate with the underinsured motorist benefits insurer in the defense of any lawsuit brought by the injured person or his personal representative, he may again be subjected to a claim for subrogation by the underinsured motorist benefits insurer pursuant to § 8.01-66.1:1. This section provides an alternative means by which the parties may resolve claims and does not eliminate or restrict any other available means.~~

~~L. If the liability insurer or insurers providing coverage to an underinsured motor vehicle owner or operator make an irrevocable offer in writing, which may be contingent upon waiver of subrogation, to pay the total amount of liability coverage available for payment with reference to a claim for property damage or bodily injury, 60 days following written notice of the offer to any insurer or insurers providing underinsured coverage that have been served pursuant to this section, the insurer or insurers providing liability coverage shall be relieved of the cost of defending the owner or operator incurred~~

thereafter, including expenses as well as reasonable and necessary attorney fees, and the insurer or insurers providing the underinsured motorist coverage shall reimburse the liability insurer or insurers for the costs to defend the underinsured motor vehicle owner or operator to the date of the underinsured motorist insurer's offer of its limit of coverage. The liability insurer or insurers shall nonetheless retain the duty to defend their insured. If underinsured motorist coverage is provided by more than one insurer, the cost to defend shall be assumed in the same order of priority as set forth in subsection B with regard to the payment of underinsured benefits upon the offer of each underinsured motorist insurer's limit of coverage. This subsection, including the liability insurer's irrevocable offer and the underinsured insurer's liability for defense costs, shall not apply in the event of either a jury verdict being returned in an amount equal to or less than the total liability coverage available for payment or a dispositive ruling dismissing the plaintiff's complaint, including but not limited to the plaintiff taking a voluntary nonsuit. This subsection shall not apply to costs incurred in connection with an appeal. Any settlement between the injured person or his personal representative, any insurer providing liability coverage applicable to the claim, and the underinsured motorist described in subsection K shall be in writing, signed by both the injured person or his personal representative and the underinsured motorist, and shall include the following notice to the underinsured motorist, which must be initialed by the underinsured motorist:

*"NOTICE TO RELEASED PARTY: Your insurance company has agreed to pay the available limits of its insurance to settle certain claims on your behalf. This settlement secures a full release of you for all claims the claimant/plaintiff has against you arising out of the subject accident, as well as ensures that no judgment can ever be entered against you by the claimant/plaintiff. In order to protect yourself from subrogation by any underinsured motorist insurer, you are agreeing to cooperate with the underinsured motorist benefits insurer(s).*

*Under this manner of settlement, the underinsured motorist benefits insurer(s) that is/are involved in this case has/have no right of subrogation against you unless you fail to reasonably cooperate in its/their defense of the claim by not (i) attending your deposition and trial, if subpoenaed, (ii) assisting in responding to discovery, (iii) meeting with defense counsel at reasonable times after commencement of this suit and before your testimony at a deposition and/or trial, and (iv) notifying defense counsel of any change in your address.*

*Upon payment of the agreed settlement amount by your insurance company(ies), such company shall no longer owe you any duties, including the duty to hire and pay for an attorney for you. You are not required to consent to settlement in this manner. If you do not consent to settlement in this manner, your insurance company will still defend you in any lawsuit brought against you by the claimant/plaintiff, but you will not have the protections of a full release from the claimant/plaintiff, judgment could be entered against you and may exceed your available insurance coverage, and any underinsured motorist benefits insurer would have a right of subrogation against you to recover any moneys it pays to the claimant/plaintiff.*

*You are encouraged to discuss your rights and obligations related to settlement in this manner with your insurance company and/or an attorney. By signing this document, you agree to consent to this settlement and to reasonably cooperate with the underinsured motorist benefits insurer in the defense of any lawsuit brought by the claimant/plaintiff.*

\_\_\_\_\_ (initial)"

*In the alternative, the liability insurer may send the notice to the released party by certified mail return receipt requested to the underinsured motorist at his last known address.*

*M. Any action brought by the injured person or his personal representative to recover underinsured motorist benefits after payment of the liability insurer's available limits pursuant to subsection K shall be brought against the released defendant or defendants, and a copy of the complaint shall be served on any insurer providing underinsured motorist benefits. If an action is pending at the time the liability insurer's available limits are paid to the injured person or personal representative or his attorney, then the action shall remain pending against the named defendant or defendants who have been released. If such action results in a verdict in favor of the injured person or his personal representative against a released defendant, then judgment as to that defendant shall be entered in the name of "Released Defendant" and shall be enforceable against the underinsured motorist benefits insurer or insurers, not to exceed the underinsured motorist benefits limits, and against any unreleased defendant, as though it were entered in the actual name of the released defendant.*

*N. Any proposed settlement between a liability insurer and a person under a disability or a personal representative as permitted in subsection K that compromises in part a claim for personal injuries by the person under a disability or for death by wrongful act pursuant to § 8.01-50 may be, but is not required to be, approved pursuant to § 8.01-424 or 8.01-55, as applicable. If the personal representative elects not to have the settlement with the liability insurer approved pursuant to § 8.01-55, then any payment made to the personal representative by the liability insurer shall be made payable to the personal representative's attorney, to be held in trust, or paid into the court pursuant to § 8.01-600 if the personal representative is not represented by an attorney, with no disbursements made therefrom until the compromise is approved by the court pursuant to § 8.01-55. Approval by the court of a settlement between the liability insurer and a person under a disability or the personal representative pursuant to this subsection shall not prejudice the person's or personal representative's claim for underinsured motorist benefits.*

**2. That the provisions of this act shall apply to policies issued or renewed on or after January 1, 2016.**

## CHAPTER 586

*An Act to amend and reenact § 1-510 of the Code of Virginia, relating to official emblems and designations; state song.*

[H 1472]

Approved March 26, 2015

Whereas, the Commonwealth has no official song because "Carry Me Back to Old Virginny," declared the official song of the Commonwealth in 1940, was declared the official song emeritus of the Commonwealth in 1997; and

Whereas, the official song should reference the rich tradition of the Commonwealth and invoke images of the natural and scenic beauty its citizens celebrate; and

Whereas, the extensive history and diversity of the Commonwealth require the designation of two official songs that can be sung with pride and affection; and

Whereas, "Our Great Virginia," lyrics by Mike Greenly and arranged by Jim Papoulis, meets the melodic and lyrical requirements for a state song, the words of which are as follows:

"You'll always be our great Virginia.  
You're the birthplace of the nation:  
Where history was changed forever.  
Today, your glory stays, as we build tomorrow.

I fill with pride at all you give us—  
Rolling hills, majestic mountains,  
From the Shenandoah to the Atlantic,  
Rivers wide and forests tall, all in one Virginia.

For each of us here in Virginia,  
From farm to city dweller,  
All of us, we stand together.  
We're yours, we all are yours—  
Across our great Virginia.

You'll always be our great Virginia."; and

Whereas, "Sweet Virginia Breeze," by Robbin Thompson and Steve Bassett, meets the melodic and lyrical requirements for a state song, the words of which are as follows:

Woke up this morning, the breeze blowin' 'cross my face,  
And I just had to look up above and thank somebody for this place,  
Because He must've been thinkin' 'bout me  
When He planted that very first dogwood tree,  
It's where I want to be,  
Livin' in the Sweet Virginia Breeze.

Take me out to the country, it feels mighty good out there,  
When I get back to the city of the monuments,  
It doesn't matter where I hang my hat, it's home to me,  
The Blue Ridge Mountains tend to set me free,  
It's where I want to be,  
Livin' in the Sweet Virginia Breeze.

Wakes me up in the mornin',  
Rocks me to sleep at night,  
I've got a red bird singin' on my window sill,  
I know everything will be all right,  
Livin' in the Sweet Virginia Breeze.

Just sittin' on my back porch,  
I'm just watchin' the sun come up,  
Sweet sweet Virginia Breeze blowin' ripples 'cross my coffee cup,  
Because He must've been thinkin' 'bout me when He planted that very first  
dogwood tree,  
'Cause when that breeze comes blowin' through the trees,  
You know everything will be all right,  
Livin' in a Sweet Virginia Breeze,  
Sweet Virginia Breeze"; and

Whereas, "Our Great Virginia" is worthy of designation as the official traditional song of the Commonwealth and "Sweet Virginia Breeze" is worthy of designation as the official popular song of the Commonwealth; now, therefore,

**Be it enacted by the General Assembly of Virginia:**

**1. That § 1-510 of the Code of Virginia is amended and reenacted as follows:**

## CHAPTER 588

*An Act to amend and reenact § 22.1-227.01 of the Code of Virginia, relating to career and technical education; alignment with state or national program certification and accreditation standards.*

[H 1616]

Approved March 26, 2015

**Be it enacted by the General Assembly of Virginia:**

**1. That § 22.1-227.01 of the Code of Virginia is amended and reenacted as follows:**

**§ 22.1-227.01. Career and technical education defined.**

As used in this article, "career and technical education" means an organized education program offering a sequence of courses that (i) may incorporate field, laboratory, and classroom instruction; ~~and that~~ (ii) emphasize career and technical occupational experiences ~~and~~; (iii) are designed to prepare individuals for further education and gainful employment; and (iv) are aligned with state or national program certification and accreditation standards, if such standards exist for the sequence of courses. However, clause (iv) shall not apply to any program offered by industry in cooperation with a local school board.

## CHAPTER 589

*An Act to amend and reenact § 22.1-253.13:1 of the Code of Virginia, relating to agreements for postsecondary credential, certification, or license attainment.*

[H 1676]

Approved March 26, 2015

**Be it enacted by the General Assembly of Virginia:**

**1. That § 22.1-253.13:1 of the Code of Virginia is amended and reenacted as follows:**

**§ 22.1-253.13:1. Standard 1. Instructional programs supporting the Standards of Learning and other educational objectives.**

A. The General Assembly and the Board of Education believe that the fundamental goal of the public schools of the Commonwealth must be to enable each student to develop the skills that are necessary for success in school, preparation for life, and reaching their full potential. The General Assembly and the Board of Education find that the quality of education is dependent upon the provision of (i) the appropriate working environment, benefits, and salaries necessary to ensure the availability of high-quality instructional personnel; (ii) the appropriate learning environment designed to promote student achievement; (iii) quality instruction that enables each student to become a productive and educated citizen of Virginia and the United States of America; and (iv) the adequate commitment of other resources. In keeping with this goal, the General Assembly shall provide for the support of public education as set forth in Article VIII, Section 1 of the Constitution of Virginia.

B. The Board of Education shall establish educational objectives known as the Standards of Learning, which shall form the core of Virginia's educational program, and other educational objectives, which together are designed to ensure the development of the skills that are necessary for success in school and for preparation for life in the years beyond. At a minimum, the Board shall establish Standards of Learning for English, mathematics, science, and history and social science. The Standards of Learning shall not be construed to be regulations as defined in § 2.2-4001.

The Board shall seek to ensure that the Standards of Learning are consistent with a high-quality foundation educational program. The Standards of Learning shall include, but not be limited to, the basic skills of communication (listening, speaking, reading, and writing); computation and critical reasoning, including problem solving and decision making; proficiency in the use of computers and related technology; and the skills to manage personal finances and to make sound financial decisions.

The English Standards of Learning for reading in kindergarten through grade three shall be based on components of effective reading instruction, to include, at a minimum, phonemic awareness, phonics, fluency, vocabulary development, and text comprehension.

The Standards of Learning in all subject areas shall be subject to regular review and revision to maintain rigor and to reflect a balance between content knowledge and the application of knowledge in preparation for eventual employment and lifelong learning. The Board of Education shall establish a regular schedule, in a manner it deems appropriate, for the review, and revision as may be necessary, of the Standards of Learning in all subject areas. Such review of each subject area shall occur at least once every seven years. Nothing in this section shall be construed to prohibit the Board from conducting such review and revision on a more frequent basis.

To provide appropriate opportunity for input from the general public, teachers, and local school boards, the Board of Education shall conduct public hearings prior to establishing revised Standards of Learning. Thirty days prior to conducting such hearings, the Board shall give notice of the date, time, and place of the hearings to all local school boards and any other persons requesting to be notified of the hearings and publish notice of its intention to revise the Standards of Learning in the Virginia Register of Regulations. Interested parties shall be given reasonable opportunity to be heard and present information prior to final adoption of any revisions of the Standards of Learning.

In addition, the Department of Education shall make available and maintain a website, either separately or through an existing website utilized by the Department of Education, enabling public elementary, middle, and high school educators to submit recommendations for improvements relating to the Standards of Learning, when under review by the Board according to its established schedule, and related assessments required by the Standards of Quality pursuant to this chapter. Such website shall facilitate the submission of recommendations by educators.

School boards shall implement the Standards of Learning or objectives specifically designed for their school divisions that are equivalent to or exceed the Board's requirements. Students shall be expected to achieve the educational objectives established by the school division at appropriate age or grade levels. The curriculum adopted by the local school division shall be aligned to the Standards of Learning.

The Board of Education shall include in the Standards of Learning for history and social science the study of contributions to society of diverse people. For the purposes of this subsection, "diverse" includes consideration of disability, ethnicity, race, and gender.

The Board of Education shall include in the Standards of Learning for health instruction in emergency first aid, cardiopulmonary resuscitation, and the use of an automated external defibrillator, including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation. Such instruction shall be based on the current national evidence-based emergency cardiovascular care guidelines for cardiopulmonary resuscitation and the use of an automated external defibrillator, such as a program developed by the American Heart Association or the American Red Cross. No teacher who is in compliance with subdivision D 4 of § 22.1-298.1 shall be required to be certified as a trainer of cardiopulmonary resuscitation to provide instruction for non-certification.

With such funds as are made available for this purpose, the Board shall regularly review and revise the competencies for career and technical education programs to require the full integration of English, mathematics, science, and history and social science Standards of Learning. Career and technical education programs shall be aligned with industry and professional standard certifications, where they exist.

C. Local school boards shall develop and implement a program of instruction for grades K through 12 that is aligned to the Standards of Learning and meets or exceeds the requirements of the Board of Education. The program of instruction shall emphasize reading, writing, speaking, mathematical concepts and computations, proficiency in the use of computers and related technology, and scientific concepts and processes; essential skills and concepts of citizenship, including

knowledge of Virginia history and world and United States history, economics, government, foreign languages, international cultures, health and physical education, environmental issues, and geography necessary for responsible participation in American society and in the international community; fine arts, which may include, but need not be limited to, music and art, and practical arts; knowledge and skills needed to qualify for further education, gainful employment, or training in a career or technical field; and development of the ability to apply such skills and knowledge in preparation for eventual employment and lifelong learning and to achieve economic self-sufficiency.

Local school boards shall also develop and implement programs of prevention, intervention, or remediation for students who are educationally at risk including, but not limited to, those who fail to achieve a passing score on any Standards of Learning assessment in grades three through eight or who fail an end-of-course test required for the award of a verified unit of credit. Such programs shall include components that are research-based.

Any student who achieves a passing score on one or more, but not all, of the Standards of Learning assessments for the relevant grade level in grades three through eight may be required to attend a remediation program.

Any student who fails to achieve a passing score on all of the Standards of Learning assessments for the relevant grade level in grades three through eight or who fails an end-of-course test required for the award of a verified unit of credit shall be required to attend a remediation program or to participate in another form of remediation. Division superintendents shall require such students to take special programs of prevention, intervention, or remediation, which may include attendance in public summer school programs, in accordance with clause (ii) of subsection A of § 22.1-254 and § 22.1-254.01.

Remediation programs shall include, when applicable, a procedure for early identification of students who are at risk of failing the Standards of Learning assessments in grades three through eight or who fail an end-of-course test required for the award of a verified unit of credit. Such programs may also include summer school for all elementary and middle school grades and for all high school academic courses, as defined by regulations promulgated by the Board of Education, or other forms of remediation. Summer school remediation programs or other forms of remediation shall be chosen by the division superintendent to be appropriate to the academic needs of the student. Students who are required to attend such summer school programs or to participate in another form of remediation shall not be charged tuition by the school division.

The requirement for remediation may, however, be satisfied by the student's attendance in a program of prevention, intervention or remediation that has been selected by his parent, in consultation with the division superintendent or his designee, and is either (i) conducted by an accredited private school or (ii) a special program that has been determined to be comparable to the required public school remediation program by the division superintendent. The costs of such private school remediation program or other special remediation program shall be borne by the student's parent.

The Board of Education shall establish standards for full funding of summer remedial programs that shall include, but not be limited to, the minimum number of instructional hours or the equivalent thereof required for full funding and an assessment system designed to evaluate program effectiveness. Based on the number of students attending and the Commonwealth's share of the per pupil instructional costs, state funds shall be provided for the full cost of summer and other remediation programs as set forth in the appropriation act, provided such programs comply with such standards as shall be established by the Board, pursuant to § 22.1-199.2.

D. Local school boards shall also implement the following:

1. Programs in grades K through three that emphasize developmentally appropriate learning to enhance success.
2. Programs based on prevention, intervention, or remediation designed to increase the number of students who earn a high school diploma and to prevent students from dropping out of school. Such programs shall include components that are research-based.
3. Career and technical education programs incorporated into the K through 12 curricula that include:
  - a. Knowledge of careers and all types of employment opportunities, including, but not limited to, apprenticeships, entrepreneurship and small business ownership, the military, and the teaching profession, and emphasize the advantages of completing school with marketable skills;
  - b. Career exploration opportunities in the middle school grades;
  - c. Competency-based career and technical education programs that integrate academic outcomes, career guidance, and job-seeking skills for all secondary students. Programs shall be based upon labor market needs and student interest. Career guidance shall include counseling about available employment opportunities and placement services for students exiting school. Each school board shall develop and implement a plan to ensure compliance with the provisions of this subdivision. Such plan shall be developed with the input of area business and industry representatives and local community colleges and shall be submitted to the Superintendent of Public Instruction in accordance with the timelines established by federal law; and
  - d. Annual notice on its website to enrolled high school students and their parents of the availability of the postsecondary education and employment data published by the State Council of Higher Education on its website pursuant to § 23-9.2:3.04.
4. Educational objectives in middle and high school that emphasize economic education and financial literacy pursuant to § 22.1-200.03.
5. Early identification of students with disabilities and enrollment of such students in appropriate instructional programs consistent with state and federal law.
6. Early identification of gifted students and enrollment of such students in appropriately differentiated instructional programs.

7. Educational alternatives for students whose needs are not met in programs prescribed elsewhere in these standards. Such students shall be counted in average daily membership (ADM) in accordance with the regulations of the Board of Education.

8. Adult education programs for individuals functioning below the high school completion level. Such programs may be conducted by the school board as the primary agency or through a collaborative arrangement between the school board and other agencies.

9. A plan to make achievements for students who are educationally at risk a divisionwide priority that shall include procedures for measuring the progress of such students.

10. An agreement for postsecondary degree attainment with a community college in the Commonwealth specifying the options for students to complete an associate's degree or a one-year Uniform Certificate of General Studies from a community college concurrent with a high school diploma. Such agreement shall specify the credit available for dual enrollment courses and Advanced Placement courses with qualifying exam scores of three or higher.

11. A plan to notify students and their parents of the availability of dual enrollment and advanced placement classes, the International Baccalaureate Program, and Academic Year Governor's School Programs, the qualifications for enrolling in such classes and programs, and the availability of financial assistance to low-income and needy students to take the advanced placement and International Baccalaureate examinations. This plan shall include notification to students and parents of the agreement with a community college in the Commonwealth to enable students to complete an associate's degree or a one-year Uniform Certificate of General Studies concurrent with a high school diploma.

12. Identification of students with limited English proficiency and enrollment of such students in appropriate instructional programs.

13. Early identification, diagnosis, and assistance for students with reading and mathematics problems and provision of instructional strategies and reading and mathematics practices that benefit the development of reading and mathematics skills for all students.

Local school divisions shall provide reading intervention services to students in kindergarten through grade three who demonstrate deficiencies based on their individual performance on the Standards of Learning reading test or any reading diagnostic test that meets criteria established by the Department of Education. Local school divisions shall report the results of the diagnostic tests to the Department of Education on an annual basis, at a time to be determined by the Superintendent of Public Instruction. Each student who receives early intervention reading services will be assessed again at the end of that school year. The local school division, in its discretion, shall provide such reading intervention services prior to promoting a student from grade three to grade four. Reading intervention services may include the use of: special reading teachers; trained aides; volunteer tutors under the supervision of a certified teacher; computer-based reading tutorial programs; aides to instruct in-class groups while the teacher provides direct instruction to the students who need extra assistance; and extended instructional time in the school day or school year for these students. Funds appropriated for prevention, intervention, and remediation; summer school remediation; at-risk; or early intervention reading may be used to meet the requirements of this subdivision.

Local school divisions shall provide algebra readiness intervention services to students in grades six through nine who are at risk of failing the Algebra I end-of-course test, as demonstrated by their individual performance on any diagnostic test that has been approved by the Department of Education. Local school divisions shall report the results of the diagnostic tests to the Department of Education on an annual basis, at a time to be determined by the Superintendent of Public Instruction. Each student who receives algebra readiness intervention services will be assessed again at the end of that school year. Funds appropriated for prevention, intervention, and remediation; summer school remediation; at-risk; or algebra readiness intervention services may be used to meet the requirements of this subdivision.

14. Incorporation of art, music, and physical education as a part of the instructional program at the elementary school level.

15. A program of physical fitness available to all students with a goal of at least 150 minutes per week on average during the regular school year. Such program may include any combination of (i) physical education classes, (ii) extracurricular athletics, or (iii) other programs and physical activities deemed appropriate by the local school board. Each local school board shall incorporate into its local wellness policy a goal for the implementation of such program during the regular school year.

16. A program of student services for kindergarten through grade 12 that shall be designed to aid students in their educational, social, and career development.

17. The collection and analysis of data and the use of the results to evaluate and make decisions about the instructional program.

E. From such funds as may be appropriated or otherwise received for such purpose, there shall be established within the Department of Education a unit to (i) conduct evaluative studies; (ii) provide the resources and technical assistance to increase the capacity for school divisions to deliver quality instruction; and (iii) assist school divisions in implementing those programs and practices that will enhance pupil academic performance and improve family and community involvement in the public schools. Such unit shall identify and analyze effective instructional programs and practices and professional development initiatives; evaluate the success of programs encouraging parental and family involvement; assess changes in student outcomes prompted by family involvement; and collect and disseminate among school divisions information regarding effective instructional programs and practices, initiatives promoting family and community

involvement, and potential funding and support sources. Such unit may also provide resources supporting professional development for administrators and teachers. In providing such information, resources, and other services to school divisions, the unit shall give priority to those divisions demonstrating a less than 70 percent passing rate on the Standards of Learning assessments.

*F. Each local school board may enter into agreements for postsecondary credential, certification, or license attainment with community colleges or other public institutions of higher education or educational institutions established pursuant to Title 23 that offer a career and technical education curriculum. Such agreements shall specify (i) the options for students to take courses as part of the career and technical education curriculum that lead to an industry-recognized credential, certification, or license concurrent with a high school diploma and (ii) the credentials, certifications, or licenses available for such courses.*

## CHAPTER 590

*An Act to amend and reenact § 22.1-254.1 of the Code of Virginia, relating to requirements for home instruction of children; Testing Options.*

[H 1754]

Approved March 26, 2015

**Be it enacted by the General Assembly of Virginia:**

**1. That § 22.1-254.1 of the Code of Virginia is amended and reenacted as follows:**

**§ 22.1-254.1. Declaration of policy; requirements for home instruction of children.**

A. When the requirements of this section have been satisfied, instruction of children by their parents is an acceptable alternative form of education under the policy of the Commonwealth of Virginia. Any parent of any child who will have reached the fifth birthday on or before September 30 of any school year and who has not passed the eighteenth birthday may elect to provide home instruction in lieu of school attendance if he (i) holds a high school diploma; or (ii) is a teacher of qualifications prescribed by the Board of Education; or (iii) provides a program of study or curriculum which may be delivered through a correspondence course or distance learning program or in any other manner; or (iv) provides evidence that he is able to provide an adequate education for the child.

B. Any parent who elects to provide home instruction in lieu of school attendance shall annually notify the division superintendent in August of his intention to so instruct the child and provide a description of the curriculum, limited to a list of subjects to be studied during the coming year, and evidence of having met one of the criteria for providing home instruction as required by subsection A. Effective July 1, 2000, parents electing to provide home instruction shall provide such annual notice no later than August 15. Any parent who moves into a school division or begins home instruction after the school year has begun shall notify the division superintendent of his intention to provide home instruction as soon as practicable and shall thereafter comply with the requirements of this section within 30 days of such notice. The division superintendent shall notify the Superintendent of Public Instruction of the number of students in the school division receiving home instruction.

C. The parent who elects to provide home instruction shall provide the division superintendent by August 1 following the school year in which the child has received home instruction with either (i) evidence that the child has attained a composite score in or above the fourth stanine on any nationally normed standardized achievement test, *or an equivalent score on the ACT, SAT, or PSAT test* or (ii) an evaluation or assessment which the division superintendent determines to indicate that the child is achieving an adequate level of educational growth and progress, including but not limited to: (a) an evaluation letter from a person licensed to teach in any state, or a person with a master's degree or higher in an academic discipline, having knowledge of the child's academic progress, stating that the child is achieving an adequate level of educational growth and progress; or (b) a report card or transcript from a community college or college, college distance learning program, or home-education correspondence school.

In the event that evidence of progress as required in this subsection is not provided by the parent, the home instruction program for that child may be placed on probation for one year. Parents shall file with the division superintendent evidence of their ability to provide an adequate education for their child in compliance with subsection A and a remediation plan for the probationary year which indicates their program is designed to address any educational deficiency. Upon acceptance of such evidence and plan by the division superintendent, the home instruction may continue for one probationary year. If the remediation plan and evidence are not accepted or the required evidence of progress is not provided by August 1 following the probationary year, home instruction shall cease and the parent shall make other arrangements for the education of the child which comply with § 22.1-254. The requirements of subsection C shall not apply to children who are under the age of six as of September 30 of the school year.

D. Nothing in this section shall prohibit a pupil and his parents from obtaining an excuse from school attendance by reason of bona fide religious training or belief pursuant to subdivision B 1 of § 22.1-254.

E. Any party aggrieved by a decision of the division superintendent may appeal his decision within 30 days to an independent hearing officer. The independent hearing officer shall be chosen from the list maintained by the Executive Secretary of the Supreme Court for hearing appeals of the placements of children with disabilities. The costs of the hearing shall be apportioned among the parties by the hearing officer in a manner consistent with his findings.

F. School boards shall implement a plan to notify students receiving home instruction pursuant to this section and their parents of the availability of Advanced Placement (AP) and Preliminary Scholastic Aptitude Test (PSAT) examinations and the availability of financial assistance to low-income and needy students to take these examinations. School boards shall implement a plan to make these examinations available to students receiving home instruction.

## CHAPTER 591

*An Act to amend and reenact § 22.1-253.13:4 of the Code of Virginia, relating to the standard diploma; career and technical education credential; exemption.*

[H 2276]

Approved March 26, 2015

### **Be it enacted by the General Assembly of Virginia:**

#### **1. That § 22.1-253.13:4 of the Code of Virginia is amended and reenacted as follows:**

##### **§ 22.1-253.13:4. Standard 4. Student achievement and graduation requirements.**

A. Each local school board shall award diplomas to all secondary school students, including students who transfer from nonpublic schools or from home instruction, who earn the units of credit prescribed by the Board of Education, pass the prescribed tests, and meet such other requirements as may be prescribed by the local school board and approved by the Board of Education. Provisions shall be made to facilitate the transfer and appropriate grade placement of students from other public secondary schools, from nonpublic schools, or from home instruction as outlined in the standards for accreditation. Course credits earned for online courses taken in the Department of Education's Virtual Virginia program shall transfer to Virginia public schools in accordance with provisions of the standards for accreditation. Further, reasonable accommodation to meet the requirements for diplomas shall be provided for otherwise qualified students with disabilities as needed.

In addition, each local school board may devise, vis-a-vis the award of diplomas to secondary school students, a mechanism for calculating class rankings that takes into consideration whether the student has taken a required class more than one time and has had any prior earned grade for such required class expunged.

Each local school board shall notify the parents of rising eleventh and twelfth grade students of (i) the number and subject area requirements of standard and verified units of credit required for graduation pursuant to the standards for accreditation and (ii) the remaining number and subject area requirements of such units of credit the individual student requires for graduation.

B. Students identified as disabled who complete the requirements of their individualized education programs shall be awarded special diplomas by local school boards.

Each local school board shall notify the parent of such students with disabilities who have an individualized education program and who fail to meet the requirements for a standard or advanced studies diploma of the student's right to a free and appropriate education to age 21, inclusive, pursuant to Article 2 (§ 22.1-213 et seq.) of Chapter 13.

C. Students who have completed a prescribed course of study as defined by the local school board shall be awarded certificates of program completion by local school boards if they are not eligible to receive a Board of Education-approved diploma.

Each local school board shall provide notification of the right to a free public education for students who have not reached 20 years of age on or before August 1 of the school year, pursuant to Chapter 1 (§ 22.1-1 et seq.), to the parent of students who fail to graduate or who have failed to achieve the number of verified units of credit required for graduation as provided in the standards for accreditation. If such student who does not graduate or achieve such verified units of credit is a student for whom English is a second language, the local school board shall notify the parent of the student's opportunity for a free public education in accordance with § 22.1-5.

D. In establishing course and credit requirements for a high school diploma, the Board shall:

1. Provide for the selection of integrated learning courses meeting the Standards of Learning and approved by the Board to satisfy graduation credit requirements, which shall include Standards of Learning testing, as necessary.

2. Establish the requirements for a standard and an advanced studies high school diploma, which shall each include at least one credit in fine or performing arts or career and technical education and one credit in United States and Virginia history. The requirements for a standard high school diploma shall, however, include at least two sequential electives chosen from a concentration of courses selected from a variety of options that may be planned to ensure the completion of a focused sequence of elective courses. Such focused sequence of elective courses shall provide a foundation for further education or training or preparation for employment. The advanced studies diploma shall be the recommended diploma for students pursuing baccalaureate study. Both the standard and the advanced studies diploma shall prepare students for post-secondary education and the career readiness required by the Commonwealth's economy.

Beginning with first-time ninth grade students in the 2013-2014 school year, requirements for the standard diploma shall include a requirement to earn a career and technical education credential that has been approved by the Board, ~~that~~ *except when a career and technical education credential in a particular subject area is not readily available or appropriate or does not adequately measure student competency, in which case the student shall receive satisfactory competency-based instruction in the subject area to satisfy the standard diploma requirements. The career and technical education credential,*

when required, could include, ~~but not be limited to,~~ the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, or the Virginia workplace readiness skills assessment.

Beginning with first-time ninth grade students in the 2016-2017 school year, requirements for the standard and advanced diplomas shall include a requirement to be trained in emergency first aid, cardiopulmonary resuscitation, and the use of automated external defibrillators, including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation.

The Board shall make provision in its regulations for students with disabilities to earn a standard diploma.

3. Provide, in the requirements to earn a standard or advanced studies diploma, the successful completion of one virtual course. The virtual course may be a noncredit-bearing course.

4. Provide, in the requirements for the verified units of credit stipulated for obtaining the standard or advanced studies diploma, that students completing elective classes into which the Standards of Learning for any required course have been integrated may take the relevant Standards of Learning test for the relevant required course and receive, upon achieving a satisfactory score on the specific Standards of Learning assessment, a verified unit of credit for such elective class that shall be deemed to satisfy the Board's requirement for verified credit for the required course.

5. Establish a procedure to facilitate the acceleration of students that allows qualified students, with the recommendation of the division superintendent, without completing the 140-hour class, to obtain credit for such class upon demonstration of mastery of the course content and objectives. Having received credit for the course, the student shall be permitted to sit for the relevant Standards of Learning assessment and, upon receiving a passing score, shall earn a verified credit. Nothing in this section shall preclude relevant school division personnel from enforcing compulsory attendance in public schools.

6. Provide for the award of verified units of credit for passing scores on industry certifications, state licensure examinations, and national occupational competency assessments approved by the Board of Education.

School boards shall report annually to the Board of Education the number of Board-approved industry certifications obtained, state licensure examinations passed, national occupational competency assessments passed, Virginia workplace readiness skills assessments passed, and the number of career and technical education completers who graduated. These numbers shall be reported as separate categories on the School Performance Report Card.

For the purposes of this subdivision, "career and technical education completer" means a student who has met the requirements for a career and technical concentration or specialization and all requirements for high school graduation or an approved alternative education program.

In addition, the Board may:

a. For the purpose of awarding verified units of credit, approve the use of additional or substitute tests for the correlated Standards of Learning assessment, such as academic achievement tests, industry certifications or state licensure examinations; and

b. Permit students completing career and technical education programs designed to enable such students to pass such industry certification examinations or state licensure examinations to be awarded, upon obtaining satisfactory scores on such industry certification or licensure examinations, the appropriate verified units of credit for one or more career and technical education classes into which relevant Standards of Learning for various classes taught at the same level have been integrated. Such industry certification and state licensure examinations may cover relevant Standards of Learning for various required classes and may, at the discretion of the Board, address some Standards of Learning for several required classes.

7. Provide for the waiver of certain graduation requirements (i) upon the Board's initiative or (ii) at the request of a local school board. Such waivers shall be granted only for good cause and shall be considered on a case-by-case basis.

8. Consider all computer science course credits earned by students to be science course credits, mathematics course credits, or career and technical education credits. The Board of Education shall develop guidelines addressing how computer science courses can satisfy graduation requirements.

E. In the exercise of its authority to recognize exemplary academic performance by providing for diploma seals, the Board of Education shall develop criteria for recognizing exemplary performance in career and technical education programs by students who have completed the requirements for a Board of Education-approved diploma and shall award seals on the diplomas of students meeting such criteria.

In addition, the Board shall establish criteria for awarding a diploma seal for advanced mathematics and technology for the Board of Education-approved diplomas. The Board shall consider including criteria for (i) technology courses; (ii) technical writing, reading, and oral communication skills; (iii) technology-related training; and (iv) industry, professional, and trade association national certifications.

The Board shall also establish criteria for awarding a diploma seal for excellence in civics education and understanding of our state and federal constitutions and the democratic model of government for the Board of Education-approved diplomas. The Board shall consider including criteria for (i) successful completion of history, government, and civics courses, including courses that incorporate character education; (ii) voluntary participation in community service or extracurricular activities that includes the types of activities that shall qualify as community service and the number of hours required; and (iii) related requirements as it deems appropriate.

F. The Board shall establish, by regulation, requirements for the award of a general achievement adult high school diploma for those persons who are not subject to the compulsory school attendance requirements of § 22.1-254 and have

(i) achieved a passing score on a high school equivalency examination approved by the Board of Education; (ii) successfully completed an education and training program designated by the Board of Education; (iii) earned a Board of Education-approved career and technical education credential such as the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, or the Virginia workplace readiness skills assessment; and (iv) satisfied other requirements as may be established by the Board for the award of such diploma.

G. To ensure the uniform assessment of high school graduation rates, the Board shall collect, analyze, and report high school graduation and dropout data using a formula prescribed by the Board.

The Board may promulgate such regulations as may be necessary and appropriate for the collection, analysis, and reporting of such data.

## CHAPTER 592

*An Act to amend and reenact § 22.1-254.1 of the Code of Virginia, relating to information on students who receive home instruction or a religious exemption.*

[S 1383]

Approved March 26, 2015

### **Be it enacted by the General Assembly of Virginia:**

#### **1. That § 22.1-254.1 of the Code of Virginia is amended and reenacted as follows:**

##### **§ 22.1-254.1. Declaration of policy; requirements for home instruction of children.**

A. When the requirements of this section have been satisfied, instruction of children by their parents is an acceptable alternative form of education under the policy of the Commonwealth of Virginia. Any parent of any child who will have reached the fifth birthday on or before September 30 of any school year and who has not passed the eighteenth birthday may elect to provide home instruction in lieu of school attendance if he (i) holds a high school diploma; or (ii) is a teacher of qualifications prescribed by the Board of Education; or (iii) provides a program of study or curriculum which may be delivered through a correspondence course or distance learning program or in any other manner; or (iv) provides evidence that he is able to provide an adequate education for the child.

B. Any parent who elects to provide home instruction in lieu of school attendance shall annually notify the division superintendent in August of his intention to so instruct the child and provide a description of the curriculum, limited to a list of subjects to be studied during the coming year, and evidence of having met one of the criteria for providing home instruction as required by subsection A. Effective July 1, 2000, parents electing to provide home instruction shall provide such annual notice no later than August 15. Any parent who moves into a school division or begins home instruction after the school year has begun shall notify the division superintendent of his intention to provide home instruction as soon as practicable and shall thereafter comply with the requirements of this section within 30 days of such notice. The division superintendent shall notify the Superintendent of Public Instruction of the number of students in the school division receiving home instruction.

C. "Out-of-state employee" means an employee who, except for disaster-related or emergency-related work during the disaster response period, does not work in the Commonwealth.

"Registered business" means a domestic or foreign business entity that is listed in the business entity records maintained in the office of the clerk of the State Corporation Commission, provides public utility or communications services, and was in existence or had obtained from the State Corporation Commission a certificate of authority or registration to transact business in the Commonwealth prior to the declared disaster or emergency.

[H 1451]

Approved March 26, 2015

**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 55-222, 55-226.2, 55-248.4, 55-248.7:1, 55-248.7:2, 55-248.9:1, 55-248.15:1, 55-248.18, and 55-248.24 of the Code of Virginia are amended and reenacted as follows:**

**§ 55-222. Notice to terminate a tenancy; on whom served; when necessary.**

A. A tenancy from year to year may be terminated by either party giving three months' notice, in writing, prior to the end of any year of the tenancy, of his intention to terminate the same. A tenancy from month to month may be terminated by either party giving 30 days' notice in writing, prior to the next rent due date, of his intention to terminate the same, unless the rental agreement provides for a different notice period. *Written notice of termination shall be given in accordance with this chapter or the Virginia Residential Landlord and Tenant Act (§ 55-248.2 et seq.), as applicable.*

~~B. In addition to the termination rights set forth above in subsection A, and notwithstanding the terms of the lease, the landlord may terminate the lease due to rehabilitation or a change in the use of all or any part of a building containing at least four residential units, upon 120 days' prior written notice to the tenant. Changes in use shall include but not be limited to conversion to hotel, motel, apartment hotel or other commercial use, planned unit development, substantial rehabilitation, demolition or sale to a contract purchaser requiring an empty building. This 120-day notice requirement shall not be waived; however, a period of less than 120 days may be agreed upon by both the landlord and tenant in a written agreement separate from the rental agreement or lease executed after such notice is given and applicable only to the 120-day notice period. When such notice is to the tenant it may be served upon him or upon anyone holding under him the leased premises, or any part thereof. When it is by the tenant it may be served upon anyone who, at the time, owns the premises in whole or in part, or the agent of such owner, or according to the common law. This section shall not apply when, by special agreement, no notice is to be given; nor shall notice be necessary from or to a tenant whose term is to end at a certain time except in the case of a tenancy from month to month, which may be terminated by the landlord by giving the tenant 30 days' written notice prior to the next rent due date of the landlord's intention to terminate the tenancy.~~

The written notice required by this section to terminate a tenancy shall not be contained in the rental agreement or lease, but shall be a separate writing.

**§ 55-226.2. Energy submetering, energy allocation equipment, sewer and water submetering equipment, ratio utility billings systems; local government fees.**

A. Energy submetering equipment, energy allocation equipment, water and sewer submetering equipment, or a ratio utility billing system may be used in a commercial or residential building, *manufactured home park*, or campground if clearly stated in the rental agreement or lease for the leased premises or dwelling unit. All energy submetering equipment and energy allocation equipment shall meet the requirements and standards established and enforced by the State Corporation Commission pursuant to § 56-245.3.

B. If energy submetering equipment, water and sewer submetering equipment, or energy allocation equipment is used in any building, *manufactured home park*, or campground, the owner, manager, or operator of the building, *manufactured home park*, or campground shall bill the tenant for electricity, natural gas or water and sewer for the same billing period as the utility serving the building or campground, unless the rental agreement or lease expressly provides otherwise. The owner, manager, or operator of the building, *manufactured home park*, or campground may charge and collect from the tenant additional service charges, including, but not limited to, monthly billing fees, account set-up fees or account move-out fees, to cover the actual costs of administrative expenses and billing charged to the building, *manufactured home park*, or campground owner, manager, or operator by a third-party provider of such services, provided that such charges are agreed to by the building or campground owner and the tenant in the rental agreement or lease. The building or campground owner may require the tenant to pay a late charge of up to \$5 if the tenant fails to make payment when due, which shall not be less than 15 days following the date of mailing or delivery of the bill sent pursuant to this section.

C. If a ratio utility billing system is used in any building, *manufactured home park*, or campground, in lieu of increasing the rent, the owner, manager, or operator of the building, *manufactured home park*, or campground may employ such a program that utilizes a mathematical formula for allocating, among the tenants in a building, *manufactured home park*, or campground, the actual or anticipated water, sewer, electrical, or natural gas billings billed to the building or campground owner from a third-party provider of the utility service. The owner, manager, or operator of the building, *manufactured home park*, or campground may charge and collect from the tenant additional service charges, including but not limited to monthly billing fees, account set-up fees, or account move-out fees, to cover the actual costs of administrative expenses and billings charged to the building, *manufactured home park*, or campground owner, manager, or operator by a third-party provider of such services, provided that such charges are agreed to by the building, *manufactured home park*, or campground owner and the tenant in the rental agreement or lease. The building, *manufactured home park*, or campground owner may require the tenant to pay a late charge of up to \$5 if the tenant fails to make payment when due, which shall not be less than 15 days following the date of mailing or delivery of the bill sent pursuant to this section. The late charge shall be deemed rent (i) as defined in § 55-248.4 if a ratio utility billing system is used in a residential multifamily dwelling unit subject to the Virginia Residential Landlord and Tenant Act (§ 55-248.2 et seq.) or (ii) as defined in § 55-248.41 if a ratio utility billing system is used in *manufactured home park* subject to the *Manufactured Home Lot Rental Act* (55-248.41 et seq.).

D. Energy allocation equipment shall be tested periodically by the owner, operator or manager of the building, *manufactured home park*, or campground. Upon the request by a tenant, the owner shall test the energy allocation equipment without charge. The test conducted without charge to the tenant shall not be conducted more frequently than once in a 24-month period for the same tenant. The tenant or his designated representative may be present during the testing of the energy allocation equipment. A written report of the results of the test shall be made to the tenant within 10 working days after the completion of the test.

E. The owner of any building, *manufactured home park*, or campground shall maintain adequate records regarding energy submetering equipment, water and sewer submetering equipment, energy allocation equipment, or a ratio utility billing system. A tenant may inspect and copy the records for the leased premises during reasonable business hours at a convenient location within the building or campground. The owner of the building or campground may impose and collect a reasonable charge for copying documents, reflecting the actual costs of materials and labor for copying, prior to providing copies of the records to the tenant.

F. Notwithstanding any enforcement action undertaken by the State Corporation Commission pursuant to its authority under § 56-245.3, tenants and owners shall retain any private right of action resulting from any breach of the rental agreement or lease terms required by this section or § 56-245.3, if applicable, to the same extent as such actions may be maintained for breach of other terms of the rental agreement or lease under Chapter 13 (§ 55-217 et seq.) or Chapter 13.2 (§ 55-248.2 et seq.) of this title, if applicable. The use of energy submetering equipment, water and sewer submetering equipment, energy allocation equipment, or a ratio utility billing system is not within the jurisdiction of the Department of Agriculture and Consumer Services under Chapter 56 (§ 3.2-5600 et seq.) of Title 3.2.

G. In lieu of increasing the rent, the owner, manager, or operator of a commercial or residential building, *manufactured home park*, or campground may employ a program that utilizes a mathematical formula for allocating the actual or anticipated local government fees billed to the building, *manufactured home park*, or campground owner among the tenants in such building, *manufactured home park*, or campground if clearly stated in the rental agreement or lease for the leased premises or dwelling unit. Permitted allocation methods may include formulas based upon square footage, occupancy, number of bedrooms, or some other specific method agreed to by the building, *manufactured home park*, or campground owner and the tenant in the rental agreement or lease. Such owner, manager, or operator of a commercial or residential building, *manufactured home park*, or campground may also charge and collect from each tenant additional service charges, including monthly billing fees, account set-up fees, or account move-out fees, to cover the actual costs of administrative expenses for administration of such a program. If the building is residential and is subject to (i) the Virginia Residential Landlord and Tenant Act (§ 55-248.2 et seq.), such local government fees and administrative expenses shall be deemed to be rent as defined in § 55-248.4 or (ii) the *Manufactured Home Lot Rental Act (55-248.41 et seq.)*, such local government fees and administrative expenses shall be deemed to be rent as defined in § 55-248.41.

H. *Nothing in this section shall be construed to prohibit an owner, manager, or operator of a commercial or residential building, manufactured home park, or campground from including water, sewer, electrical, natural gas, or other utilities in the amount of rent as specified in the rental agreement or lease.*

If the landlord requires that such premiums be paid prior to the commencement of the tenancy, the total amount of all security deposits and insurance premiums for damage insurance and renter's insurance shall not exceed the amount of two months' periodic rent. Otherwise, the landlord may add a monthly amount as additional rent to recover the costs of such insurance coverage. The landlord shall notify a tenant in writing that the tenant has the right to obtain a separate policy from the landlord's policy for renter's insurance. If a tenant elects to obtain a separate policy, the tenant shall submit to the landlord written proof of such coverage and shall maintain such coverage at all times during the term of the rental agreement.

Where such a third party has been designated by the tenant, the landlord shall mail the duplicate copy of any summons issued pursuant to § 8.01-126 or notice to the designated third party at the same time the summons or notice is mailed to or served upon the tenant. Nothing in this subsection shall be construed to grant standing to any third party designated by the tenant to challenge actions of the landlord in which notice was mailed pursuant to this subsection. The failure of the landlord to give notice to a third party designated by the tenant shall not affect the validity of any judgment entered against the tenant.

C. *A landlord or managing agent may enter into an agreement with a third-party service provider to maintain tenant records in electronic form or other medium. In such case, the landlord and managing agent shall not be liable under this section in the event of a breach of the electronic data of such third-party service provider, except in the case of gross negligence or intentional act. Nothing herein shall be construed to require a landlord or managing agent to indemnify such third-party service provider.*

**§ 55-248.15:1. Security deposits.**

A. A landlord may not demand or receive a security deposit, however denominated, in an amount or value in excess of two months' periodic rent. Upon termination of the tenancy, such security deposit, whether it is property or money held by the landlord as security as hereinafter provided may be applied solely by the landlord (i) to the payment of accrued rent and including the reasonable charges for late payment of rent specified in the rental agreement; (ii) to the payment of the amount of damages which the landlord has suffered by reason of the tenant's noncompliance with § 55-248.16, less reasonable wear and tear; or (iii) to other damages or charges as provided in the rental agreement. Where there is more than one tenant subject to a rental agreement, unless otherwise agreed to in writing by each of the tenants, disposition of the security deposit shall be made with one check being payable to all such tenants and sent to a forwarding address provided by one of the tenants. Regardless of the number of tenants subject to a rental agreement, if a tenant fails to provide a forwarding address to the landlord to enable the landlord to make a refund of the security deposit, upon the expiration of one year from the date of the end of the 45-day time period, ~~the balance of such security deposit shall~~ *landlord shall, within a reasonable period of time not to exceed 90 days, escheat the balance of such security deposit and any other moneys due the tenant to the Commonwealth and, which sums shall be paid into the state treasury sent to the Virginia Department of Housing and Community Development, payable to the State Treasurer, and credited to the Virginia Housing Partnership Revolving Trust Fund established pursuant to § 36-142.* Upon payment to the Commonwealth, the landlord shall have no further liability to any tenant relative to the security deposit. If the landlord or managing agent is a real estate licensee, compliance with this paragraph shall be deemed compliance with § 54.1-2108 and corresponding regulations of the Real Estate Board.

Nothing in this section shall be construed by a court of law or otherwise as entitling the tenant, upon the termination of the tenancy, to an immediate credit against the tenant's delinquent rent account in the amount of the security deposit. The landlord shall apply the security deposit in accordance with this section within the 45-day time period. However, provided the landlord has given prior written notice in accordance with this section, the landlord may withhold a reasonable portion of the security deposit to cover an amount of the balance due on the water, sewer, or other utility account that is an obligation of the tenant to a third-party provider under the rental agreement for the dwelling unit, and upon payment of such obligations the landlord shall provide written confirmation to the tenant within 10 days thereafter, along with payment to the tenant of any balance otherwise due to the tenant. In order to withhold such funds as part of the disposition of the security deposit, the landlord shall have so advised the tenant of his rights and obligations under this section in (i) a termination notice to the tenant in accordance with this chapter, (ii) a vacating notice to the tenant in accordance with this section, or (iii) a separate written notice to the tenant at least 15 days prior to the disposition of the security deposit. Any written notice to the tenant shall be given in accordance with § 55-248.6.

The tenant may provide the landlord with written confirmation of the payment of the final water, sewer, or other utility bill for the dwelling unit, in which case the landlord shall refund the security deposit, unless there are other authorized deductions, within the 45-day period, or if the tenant provides such written confirmation after the expiration of the 45-day period, the landlord shall refund any remaining balance of the security deposit held to the tenant within 10 days following the receipt of such written confirmation provided by the tenant. If the landlord otherwise receives confirmation of payment of the final water, sewer, or other utility bill for the dwelling unit, the landlord shall refund the security deposit, unless there are other authorized deductions, within the 45-day period.

Nothing in this section shall be construed to prohibit the landlord from making the disposition of the security deposit prior to the 45-day period and charging an administrative fee to the tenant for such expedited processing, if the rental agreement so provides and the tenant requests expedited processing in a separate written document.

The landlord shall notify the tenant in writing of any deductions provided by this subsection to be made from the tenant's security deposit during the course of the tenancy. Such notification shall be made within 30 days of the date of the determination of the deduction and shall itemize the reasons in the same manner as provided in subsection B. Such notification shall not be required for deductions made less than 30 days prior to the termination of the rental agreement. If the landlord willfully fails to comply with this section, the court shall order the return of the security deposit to the tenant, together with actual damages and reasonable attorney fees, unless the tenant owes rent to the landlord, in which case, the court shall order an amount equal to the security deposit credited against the rent due to the landlord. In the event that damages to the premises exceed the amount of the security deposit and require the services of a third party contractor, the landlord shall give written notice to the tenant advising him of that fact within the 45-day period. If notice is given as prescribed in this paragraph, the landlord shall have an additional 15-day period to provide an itemization of the damages and the cost of repair. This section shall not preclude the landlord or tenant from recovering other damages to which he may be entitled under this chapter. The holder of the landlord's interest in the premises at the time of the termination of the tenancy, regardless of how the interest is acquired or transferred, is bound by this section and shall be required to return any security deposit received by the original landlord that is duly owed to the tenant, whether or not such security deposit is transferred with the landlord's interest by law or equity, regardless of any contractual agreements between the original landlord and his successors in interest.

B. The landlord shall:

1. Maintain and itemize records for each tenant of all deductions from security deposits provided for under this section which the landlord has made by reason of a tenant's noncompliance with § 55-248.16 during the preceding two years; and

2. Permit a tenant or his authorized agent or attorney to inspect such tenant's records of deductions at any time during normal business hours.

C. Upon request by the landlord to a tenant to vacate, or within five days after receipt of notice by the landlord of the tenant's intent to vacate, the landlord shall make reasonable efforts to advise the tenant of the tenant's right to be present at the landlord's inspection of the dwelling unit for the purpose of determining the amount of security deposit to be returned. If the tenant desires to be present when the landlord makes the inspection, he shall so advise the landlord in writing who, in turn, shall notify the tenant of the time and date of the inspection, which must be made within 72 hours of delivery of possession. Upon completion of the inspection attended by the tenant, the landlord shall furnish the tenant with an itemized list of damages to the dwelling unit known to exist at the time of the inspection.

D. If the tenant has any assignee or sublessee, the landlord shall be entitled to hold a security deposit from only one party in compliance with the provisions of this section.

**§ 55-248.18. Access; consent; correction of nonemergency conditions; relocation of tenant.**

A. The tenant shall not unreasonably withhold consent to the landlord to enter into the dwelling unit in order to inspect the premises, make necessary or agreed repairs, decorations, alterations or improvements, supply necessary or agreed services or exhibit the dwelling unit to prospective or actual purchasers, mortgagees, tenants, workmen or contractors. The landlord may enter the dwelling unit without consent of the tenant in case of emergency. The landlord shall not abuse the right of access or use it to harass the tenant. Except in case of emergency or if it is impractical to do so, the landlord shall give the tenant notice of his intent to enter and may enter only at reasonable times. Unless impractical to do so, the landlord shall give the tenant at least 24-hours' notice of routine maintenance to be performed that has not been requested by the tenant. If the tenant makes a request for maintenance, the landlord is not required to provide notice to the tenant.

B. Upon the sole determination by the landlord of the existence of a nonemergency property condition in the dwelling unit that requires the tenant to temporarily vacate the dwelling unit in order for the landlord to properly remedy such property condition, the landlord may, upon at least 30 days' written notice to the tenant, require the tenant to temporarily vacate the dwelling unit for a period not to exceed 30 days to a comparable dwelling unit, as selected by the landlord, and at no expense or cost to the tenant. *The landlord and tenant may agree for the tenant to temporarily vacate the dwelling unit in less than 30 days.* For purposes of this subsection, "nonemergency property condition" means (i) a condition in the dwelling unit that, in the determination of the landlord, is necessary for the landlord to remedy in order for the landlord to be in compliance with § 55-248.13; (ii) the condition does not need to be remedied within a 24-hour period, with any condition that needs to be remedied within 24 hours being defined as an "emergency condition"; and (iii) the condition can only be effectively remedied by the temporary relocation of the tenant pursuant to the provisions of this subsection.

The tenant shall continue to be responsible for payment of rent under the rental agreement during the period of any temporary relocation. The landlord shall pay all costs of repairs or remediation required to address the property condition. Refusal of the tenant to cooperate with a temporary relocation pursuant to this subsection shall be deemed a breach of the rental agreement, unless the tenant agrees to vacate the unit and terminate the rental agreement within the 30-day notice period. If the landlord properly remedies the nonemergency property condition within the 30-day period, nothing herein shall be construed to entitle the tenant to terminate the rental agreement. Further, nothing herein shall be construed to limit the landlord from taking legal action against the tenant for any noncompliance that occurs during the period of any temporary relocation pursuant to this section.

C. The landlord has no other right to access except by court order or that permitted by §§ 55-248.32 and 55-248.33 or if the tenant has abandoned or surrendered the premises.

D. The tenant may install, within the dwelling unit, new burglary prevention, including chain latch devices approved by the landlord, and fire detection devices, that the tenant may believe necessary to ensure his safety, provided:

1. Installation does no permanent damage to any part of the dwelling unit.

2. A duplicate of all keys and instructions of how to operate all devices are given to the landlord.

3. Upon termination of the tenancy the tenant shall be responsible for payment to the landlord for reasonable costs incurred for the removal of all such devices and repairs to all damaged areas.

E. Upon written request of the tenant, the landlord shall install a carbon monoxide alarm in the tenant's dwelling unit within 90 days of such request and may charge the tenant a reasonable fee to recover the costs of such installation. The landlord's installation of a carbon monoxide alarm shall be in compliance with the Uniform Statewide Building Code.

**§ 55-248.24. Fire or casualty damage.**

If the dwelling unit or premises are damaged or destroyed by fire or casualty to an extent that the tenant's enjoyment of the dwelling unit is substantially impaired or required repairs can only be accomplished if the tenant vacates the dwelling unit, either the tenant or the landlord may terminate the rental agreement. The tenant may terminate the rental agreement by vacating the premises and within 14 days thereafter, serve on the landlord a written notice of his intention to terminate the rental agreement, in which case the rental agreement terminates as of the date of vacating; or if continued occupancy is lawful, § 55-226 shall apply.

The landlord may terminate the rental agreement by giving the tenant ~~30~~ 14 days' notice of his intention to terminate the rental agreement based upon the landlord's determination that such damage requires the removal of the tenant and the use of the premises is substantially impaired, in which case the rental agreement terminates as of the expiration of the notice period.

If the rental agreement is terminated, the landlord shall return all security deposits in accordance with § 55-248.15:1 and prepaid rent, plus accrued interest, recoverable by law unless the landlord reasonably believes that the tenant, tenant's

guests, invitees or authorized occupants were the cause of the damage or casualty, in which case the landlord shall account to the tenant for the security and prepaid rent, plus accrued interest based upon the damage or casualty. Accounting for rent in the event of termination or apportionment shall be made as of the date of the casualty.

#### **§ 15.2-2201. Definitions.**

As used in this chapter, unless the context requires a different meaning:

"Affordable housing" means, as a guideline, housing that is affordable to households with incomes at or below the area median income, provided that the occupant pays no more than thirty percent of his gross income for gross housing costs, including utilities. For the purpose of administering affordable dwelling unit ordinances authorized by this chapter, local governments may establish individual definitions of affordable housing and affordable dwelling units including determination of the appropriate percent of area median income and percent of gross income.

"Conditional zoning" means, as part of classifying land within a locality into areas and districts by legislative action, the allowing of reasonable conditions governing the use of such property, such conditions being in addition to, or modification of the regulations provided for a particular zoning district or zone by the overall zoning ordinance.

"Development" means a tract of land developed or to be developed as a unit under single ownership or unified control which is to be used for any business or industrial purpose or is to contain three or more residential dwelling units. The term "development" shall not be construed to include any tract of land which will be principally devoted to agricultural production.

"Historic area" means an area containing one or more buildings or places in which historic events occurred or having special public value because of notable architectural, archaeological or other features relating to the cultural or artistic heritage of the community, of such significance as to warrant conservation and preservation.

"Incentive zoning" means the use of bonuses in the form of increased project density or other benefits to a developer in return for the developer providing certain features, design elements, uses, services, or amenities desired by the locality, including but not limited to, site design incorporating principles of new urbanism and traditional neighborhood development, environmentally sustainable and energy-efficient building design, affordable housing creation and preservation, and historical preservation, as part of the development.

"Local planning commission" means a municipal planning commission or a county planning commission.

"Military installation" means a base, camp, post, station, yard, center, homeport facility for any ship, or other activity under jurisdiction of the U.S. Department of Defense, including any leased facility, or any land or interest in land owned by the Commonwealth and administered by the Adjutant General of Virginia or the Virginia Department of Military Affairs. "Military installation" does not include any facility used primarily for civil works, rivers and harbors projects, or flood control projects.

"Mixed use development" means property that incorporates two or more different uses, and may include a variety of housing types, within a single development.

"Official map" means a map of legally established and proposed public streets, waterways, and public areas adopted by a locality in accordance with the provisions of Article 4 (§ 15.2-2233 et seq.) hereof.

"Planned unit development" means a form of development characterized by unified site design for a variety of housing types and densities, clustering of buildings, common open space, and a mix of building types and land uses in which project planning and density calculation are performed for the entire development rather than on an individual lot basis.

"Planning district commission" means a regional planning agency chartered under the provisions of Chapter 42 (§ 15.2-4200 et seq.) of this title.

"Plat" or "plat of subdivision" means the schematic representation of land divided or to be divided and information in accordance with the provisions of §§ 15.2-2241, 15.2-2242, 15.2-2258, 15.2-2262, and 15.2-2264, and other applicable statutes.

"Preliminary subdivision plat" means the proposed schematic representation of development or subdivision that establishes how the provisions of §§ 15.2-2241 and 15.2-2242, and other applicable statutes will be achieved.

"Resident curator" means a person, firm, or corporation that leases or otherwise contracts to manage, preserve, maintain, operate, or reside in a historic property in accordance with the provisions of § 15.2-2306 and other applicable statutes.

"Site plan" means the proposal for a development or a subdivision including all covenants, grants or easements and other conditions relating to use, location and bulk of buildings, density of development, common open space, public

facilities and such other information as required by the subdivision ordinance to which the proposed development or subdivision is subject.

"Special exception" means a special use; that is a use not permitted in a particular district except by a special use permit granted under the provisions of this chapter and any zoning ordinances adopted herewith.

"Street" means highway, street, avenue, boulevard, road, lane, alley, or any public way.

"Subdivision," unless otherwise defined in an ordinance adopted pursuant to § 15.2-2240, means the division of a parcel of land into three or more lots or parcels of less than five acres each for the purpose of transfer of ownership or building development, or, if a new street is involved in such division, any division of a parcel of land. The term includes resubdivision and, when appropriate to the context, shall relate to the process of subdividing or to the land subdivided and solely for the purpose of recordation of any single division of land into two lots or parcels, a plat of such division shall be submitted for approval in accordance with § 15.2-2258.

"Variance" means, in the application of a zoning ordinance, a reasonable deviation from those provisions regulating the *shape, size, or area of a lot or parcel of land; or the size, height, area, bulk, or location of a building or structure* when the strict application of the ordinance would ~~result in unnecessary or unreasonable hardship to the property owner~~ *unreasonably restrict the utilization of the property*, and such need for a variance would not be shared generally by other properties, and provided such variance is not contrary to the ~~intended spirit and purpose of the ordinance; and would result in substantial justice being done.~~ It shall not include a change in use, which change shall be accomplished by a rezoning or by a conditional zoning.

"Zoning" or "to zone" means the process of classifying land within a locality into areas and districts, such areas and districts being generally referred to as "zones," by legislative action and the prescribing and application in each area and district of regulations concerning building and structure designs, building and structure placement and uses to which land, buildings and structures within such designated areas and districts may be put.

**§ 15.2-2308. Boards of zoning appeals to be created; membership, organization, etc.**

A. Every locality that has enacted or enacts a zoning ordinance pursuant to this chapter or prior enabling laws, shall establish a board of zoning appeals that shall consist of either five or seven residents of the locality, appointed by the circuit court for the locality. Boards of zoning appeals for a locality within the fifteenth or nineteenth judicial circuit may be appointed by the chief judge or his designated judge or judges in their respective circuit, upon concurrence of such locality. Their terms of office shall be for five years each except that original appointments shall be made for such terms that the term of one member shall expire each year. The secretary of the board shall notify the court at least thirty days in advance of the expiration of any term of office, and shall also notify the court promptly if any vacancy occurs. Appointments to fill vacancies shall be only for the unexpired portion of the term. Members may be reappointed to succeed themselves. Members of the board shall hold no other public office in the locality except that one may be a member of the local planning commission. A member whose term expires shall continue to serve until his successor is appointed and qualifies. The circuit court for the City of Chesapeake and the Circuit Court for the City of Hampton shall appoint at least one but not more than three alternates to the board of zoning appeals. At the request of the local governing body, the circuit court for any other locality may appoint not more than three alternates to the board of zoning appeals. The qualifications, terms and compensation of alternate members shall be the same as those of regular members. A regular member when he knows he will be absent from or will have to abstain from any application at a meeting shall notify the chairman twenty-four hours prior to the meeting of such fact. The chairman shall select an alternate to serve in the absent or abstaining member's place and the records of the board shall so note. Such alternate member may vote on any application in which a regular member abstains.

B. Localities may, by ordinances enacted in each jurisdiction, create a joint board of zoning appeals that shall consist of two members appointed from among the residents of each participating jurisdiction by the circuit court for each county or city, plus one member from the area at large to be appointed by the circuit court or jointly by such courts if more than one, having jurisdiction in the area. The term of office of each member shall be five years except that of the two members first appointed from each jurisdiction, the term of one shall be for two years and of the other, four years. Vacancies shall be filled for the unexpired terms. In other respects, joint boards of zoning appeals shall be governed by all other provisions of this article.

C. With the exception of its secretary and the alternates, the board shall elect from its own membership its officers who shall serve annual terms as such and may succeed themselves. The board may elect as its secretary either one of its members or a qualified individual who is not a member of the board, excluding the alternate members. A secretary who is not a member of the board shall not be entitled to vote on matters before the board. ~~For~~ *Notwithstanding any other provision of law, general or special, for the conduct of any hearing, a quorum shall be not less than a majority of all the members of the board and the board shall offer an equal amount of time in a hearing on the case to the applicant, appellant or other person aggrieved under § 15.2-2314, and the staff of the local governing body.* Except for matters governed by § 15.2-2312, no action of the board shall be valid unless authorized by a majority vote of those present and voting. The board may make, alter and rescind rules and forms for its procedures, consistent with ordinances of the locality and general laws of the Commonwealth. The board shall keep a full public record of its proceedings and shall submit a report of its activities to the governing body or bodies at least once each year.

D. Within the limits of funds appropriated by the governing body, the board may employ or contract for secretaries, clerks, legal counsel, consultants, and other technical and clerical services. Members of the board may receive such

compensation as may be authorized by the respective governing bodies. Any board member or alternate may be removed for malfeasance, misfeasance or nonfeasance in office, or for other just cause, by the court that appointed him, after a hearing held after at least fifteen days' notice.

E. Notwithstanding any contrary provisions of this section, in the City of Virginia Beach, members of the board shall be appointed by the governing body. The governing body of such city shall also appoint at least one but not more than three alternates to the board.

**§ 15.2-2308.1. Boards of zoning appeals, ex parte communications, proceedings.**

A. *The non-legal staff of the governing body may have ex parte communications with a member of the board prior to the hearing but may not discuss the facts or law relative to a particular case. The applicant, landowner or his agent or attorney may have ex parte communications with a member of the board prior to the hearing but may not discuss the facts or law relative to a particular case. If any ex parte discussion of facts or law in fact occurs, the party engaging in such communication shall inform the other party as soon as practicable and advise the other party of the substance of such communication. For purposes of this section, regardless of whether all parties participate, ex parte communications shall not include (i) discussions as part of a public meeting or (ii) discussions prior to a public meeting to which staff of the governing body, the applicant, landowner or his agent or attorney are all invited.*

B. *Any materials relating to a particular case, including a staff recommendation or report furnished to a member of the board, shall be made available without cost to such applicant, appellant or other person aggrieved under § 15.2-2314, as soon as practicable thereafter, but in no event more than three business days of providing such materials to a member of the board. If the applicant, appellant or other person aggrieved under § 15.2-2314 requests additional documents or materials be provided by the locality other than those materials provided to the board, such request shall be made pursuant to § 2.2-3704. Any such materials furnished to a member of the board shall also be made available for public inspection pursuant to subsection F of § 2.2-3707.*

C. *For the purposes of this section, "non-legal staff of the governing body" means any staff who is not in the office of the attorney for the locality, or for the board, or who is appointed by special law or pursuant to § 15.2-1542. Nothing in this section shall preclude the board from having ex parte communications with any attorney or staff of any attorney where such communication is protected by the attorney-client privilege or other similar privilege or protection of confidentiality.*

D. *This section shall not apply to cases where an application for a special exception has been filed pursuant to subdivision 6 of § 15.2-2309.*

**§ 15.2-2309. Powers and duties of boards of zoning appeals.**

Boards of zoning appeals shall have the following powers and duties:

1. *To hear and decide appeals from any order, requirement, decision, or determination made by an administrative officer in the administration or enforcement of this article or of any ordinance adopted pursuant thereto. The decision on such appeal shall be based on the board's judgment of whether the administrative officer was correct. The determination of the administrative officer shall be presumed to be correct. At a hearing on an appeal, the administrative officer shall explain the basis for his determination after which the appellant has the burden of proof to rebut such presumption of correctness by a preponderance of the evidence. The board shall consider the purpose and intent of any applicable ordinances, laws, and regulations in making its decision. For purposes of this section, determination means any order, requirement, decision or determination made by an administrative officer. Any appeal of a determination to the board shall be in compliance with this section, notwithstanding any other provision of law, general or special.*

2. ~~To authorize~~ *Notwithstanding any other provision of law, general or special, to grant upon appeal or original application in specific cases such a variance as defined in § 15.2-2201 from the terms of the ordinance as will not be contrary to the public interest, when, owing to special conditions a literal enforcement of the provisions will result in unnecessary hardship; provided that the spirit of the ordinance shall be observed and substantial justice done, as follows: the burden of proof shall be on the applicant for a variance to prove by a preponderance of the evidence that his application meets the standard for a variance as defined in § 15.2-2201 and the criteria set out in this section.*

~~When a property owner can show that his~~ *Notwithstanding any other provision of law, general or special, a variance shall be granted if the evidence shows that the strict application of the terms of the ordinance would unreasonably restrict the utilization of the property or that the granting of the variance would alleviate a hardship due to a physical condition relating to the property or improvements thereon at the time of the effective date of the ordinance, and (i) the property interest for which the variance is being requested was acquired in good faith and where by reason of the exceptional and any hardship was not created by the applicant for the variance; narrowness, shallowness, size, or shape of a specific piece of property at the time of the effective date of the ordinance, or where by reason of exceptional topographic conditions or other extraordinary situation or condition of the piece of property, or of the condition, situation, or development of property immediately adjacent thereto, the strict application of the terms of the ordinance would effectively prohibit or unreasonably restrict the utilization of the property or where the board is satisfied, upon the evidence heard by it, that the granting of the variance will alleviate a clearly demonstrable hardship, as distinguished from a special privilege or convenience sought by the applicant, provided that all variances shall be in harmony with the intended spirit and purpose of the ordinance: (ii) the granting of the variance will not be of substantial detriment to adjacent property and nearby properties in the proximity of that geographical area; (iii) the condition or situation of the property concerned is not of so general or recurring a nature as to make reasonably practicable the formulation of a general regulation to be adopted as an amendment to the ordinance; (iv) the granting of the variance does not result in a use that is not otherwise permitted on such property or a change in the*

zoning classification of the property; and (v) the relief or remedy sought by the variance application is not available through a special exception process that is authorized in the ordinance pursuant to subdivision 6 of § 15.2-2309 or the process for modification of a zoning ordinance pursuant to subdivision A4 of § 15.2-2286 at the time of the filing of the variance application.

~~No such variance shall be authorized by the board unless it finds:~~

- ~~a. That the strict application of the ordinance would produce undue hardship relating to the property;~~
- ~~b. That the hardship is not shared generally by other properties in the same zoning district and the same vicinity; and~~
- ~~c. That the authorization of the variance will not be of substantial detriment to adjacent property and that the character of the district will not be changed by the granting of the variance.~~

No variance shall be ~~authorized~~ *considered* except after notice and hearing as required by § 15.2-2204. However, when giving any required notice to the owners, their agents or the occupants of abutting property and property immediately across the street or road from the property affected, the board may give such notice by first-class mail rather than by registered or certified mail.

~~No variance shall be authorized unless the board finds that the condition or situation of the property concerned is not of so general or recurring a nature as to make reasonably practicable the formulation of a general regulation to be adopted as an amendment to the ordinance.~~

In ~~authorizing~~ *granting* a variance, the board may impose such conditions regarding the location, character, and other features of the proposed structure or use as it may deem necessary in the public interest, and may require a guarantee or bond to ensure that the conditions imposed are being and will continue to be complied with. Notwithstanding any other provision of law, *general or special*, the property upon which a property owner has been granted a variance shall be treated as conforming for all purposes under state law and local ordinance; however, the structure permitted by the variance may not be expanded unless the expansion is within an area of the site or part of the structure for which no variance is required under the ordinance. Where the expansion is proposed within an area of the site or part of the structure for which a variance is required, the approval of an additional variance shall be required.

3. To hear and decide appeals from the decision of the zoning administrator after notice and hearing as provided by § 15.2-2204. However, when giving any required notice to the owners, their agents or the occupants of abutting property and property immediately across the street or road from the property affected, the board may give such notice by first-class mail rather than by registered or certified mail.

4. To hear and decide applications for interpretation of the district map where there is any uncertainty as to the location of a district boundary. After notice to the owners of the property affected by the question, and after public hearing with notice as required by § 15.2-2204, the board may interpret the map in such way as to carry out the intent and purpose of the ordinance for the particular section or district in question. However, when giving any required notice to the owners, their agents or the occupants of abutting property and property immediately across the street or road from the property affected, the board may give such notice by first-class mail rather than by registered or certified mail. The board shall not have the power to change substantially the locations of district boundaries as established by ordinance.

5. No provision of this section shall be construed as granting any board the power to rezone property or to base board decisions on the merits of the purpose and intent of local ordinances duly adopted by the governing body.

6. To hear and decide applications for special exceptions as may be authorized in the ordinance. The board may impose such conditions relating to the use for which a permit is granted as it may deem necessary in the public interest, including limiting the duration of a permit, and may require a guarantee or bond to ensure that the conditions imposed are being and will continue to be complied with.

No special exception may be granted except after notice and hearing as provided by § 15.2-2204. However, when giving any required notice to the owners, their agents or the occupants of abutting property and property immediately across the street or road from the property affected, the board may give such notice by first-class mail rather than by registered or certified mail.

7. To revoke a special exception previously granted by the board of zoning appeals if the board determines that there has not been compliance with the terms or conditions of the permit. No special exception may be revoked except after notice and hearing as provided by § 15.2-2204. However, when giving any required notice to the owners, their agents or the occupants of abutting property and property immediately across the street or road from the property affected, the board may give such notice by first-class mail rather than by registered or certified mail. If a governing body reserves unto itself the right to issue special exceptions pursuant to § 15.2-2286, and, if the governing body determines that there has not been compliance with the terms and conditions of the permit, then it may also revoke special exceptions in the manner provided by this subdivision.

8. The board by resolution may fix a schedule of regular meetings, and may also fix the day or days to which any meeting shall be continued if the chairman, or vice-chairman if the chairman is unable to act, finds and declares that weather or other conditions are such that it is hazardous for members to attend the meeting. Such finding shall be communicated to the members and the press as promptly as possible. All hearings and other matters previously advertised for such meeting in accordance with § 15.2-2312 shall be conducted at the continued meeting and no further advertisement is required.

#### **§ 15.2-2314. Certiorari to review decision of board.**

Any person or persons jointly or severally aggrieved by any decision of the board of zoning appeals, or any aggrieved taxpayer or any officer, department, board or bureau of the locality, may file with the clerk of the circuit court for the county

or city a petition that shall be styled "In Re: date Decision of the Board of Zoning Appeals of [locality name]" specifying the grounds on which aggrieved within 30 days after the final decision of the board.

Upon the presentation of such petition, the court shall allow a writ of certiorari to review the decision of the board of zoning appeals and shall prescribe therein the time within which a return thereto must be made and served upon the secretary of the board of zoning appeals or, if no secretary exists, the chair of the board of zoning appeals, which shall not be less than 10 days and may be extended by the court. The allowance of the writ shall not stay proceedings upon the decision appealed from, but the court may, on application, on notice to the board and on due cause shown, grant a restraining order.

Any review of a decision of the board shall not be considered an action against the board and the board shall not be a party to the proceedings; however, the board shall participate in the proceedings to the extent required by this section. The governing body, the landowner, and the applicant before the board of zoning appeals shall be necessary parties to the proceedings *in the circuit court*. The court may permit intervention by any other person or persons jointly or severally aggrieved by any decision of the board of zoning appeals.

The board of zoning appeals shall not be required to return the original papers acted upon by it but it shall be sufficient to return certified or sworn copies thereof or of the portions thereof as may be called for by the writ. The return shall concisely set forth such other facts as may be pertinent and material to show the grounds of the decision appealed from and shall be verified.

~~If, upon the hearing, it shall appear to the court that testimony is necessary for the proper disposition of the matter, it may take evidence or appoint a commissioner to take evidence as it may direct and report the evidence to the court with his findings of fact and conclusions of law, which shall constitute a part of the proceedings upon which the determination of the court shall be made.~~ The court may reverse or affirm, wholly or partly, or may modify the decision brought up for review.

In the case of an appeal from the board of zoning appeals to the circuit court of an order, requirement, decision or determination of a zoning administrator or other administrative officer in the administration or enforcement of any ordinance or provision of state law, or any modification of zoning requirements pursuant to § 15.2-2286, the findings and conclusions of the board of zoning appeals on questions of fact shall be presumed to be correct. The appealing party may rebut that presumption by proving by a preponderance of the evidence, including the record before the board of zoning appeals, that the board of zoning appeals erred in its decision. Any party may introduce evidence in the proceedings in the court. The court shall hear any arguments on questions of law de novo.

~~In the case of an appeal by a person of any decision of the board of zoning appeals that denied or granted an application for a variance, or application for a special exception, the decision of the board of zoning appeals shall be presumed to be correct. The petitioner may rebut that presumption by showing to the satisfaction of the court that the board of zoning appeals applied erroneous principles of law, or where the discretion of the board of zoning appeals is involved, the decision of the board of zoning appeals was plainly wrong and in violation of the purpose and intent of the zoning ordinance proving by a preponderance of the evidence, including the record before the board of zoning appeals, that the board of zoning appeals erred in its decision.~~

*In the case of an appeal by a person of any decision of the board of zoning appeals that denied or granted application for a special exception, the decision of the board of zoning appeals shall be presumed to be correct. The petitioner may rebut that presumption by showing to the satisfaction of the court that the board of zoning appeals applied erroneous principles of law, or where the discretion of the board of zoning appeals is involved, the decision of the board of zoning appeals was plainly wrong, was in violation of the purpose and intent of the zoning ordinance, and is not fairly debatable.*

*In the case of an appeal from the board of zoning appeals to the circuit court of a decision of the board, any party may introduce evidence in the proceedings in the court in accordance with the Rules of Evidence of the Supreme Court of Virginia.*

Costs shall not be allowed against the locality, unless it shall appear to the court that it acted in bad faith or with malice. In the event the decision of the board is affirmed and the court finds that the appeal was frivolous, the court may order the person or persons who requested the issuance of the writ of certiorari to pay the costs incurred in making the return of the record pursuant to the writ of certiorari. If the petition is withdrawn subsequent to the filing of the return, the locality may request that the court hear the matter on the question of whether the appeal was frivolous.

*An Act to amend and reenact § 9.1-907 of the Code of Virginia, relating to the Sex Offender and Crimes Against Minors Registry; verification of registration information.*

[H 2228]

Approved March 26, 2015

**Be it enacted by the General Assembly of Virginia:**

**1. That § 9.1-907 of the Code of Virginia is amended and reenacted as follows:**

**§ 9.1-907. Procedures upon a failure to register or reregister.**

A. Whenever it appears from the records of the State Police that a person has failed to comply with the duty to register or reregister, the State Police shall promptly investigate and, if there is probable cause to believe a violation has occurred, obtain a warrant or assist in obtaining an indictment charging a violation of § 18.2-472.1 in the jurisdiction in which the

person last registered or reregistered or, if the person failed to comply with the duty to register, in the jurisdiction in which the person was last convicted of an offense for which registration or reregistration is required or if the person was convicted of an offense requiring registration outside the Commonwealth, in the jurisdiction in which the person resides. The State Police shall forward to the jurisdiction an affidavit signed by a custodian of the records that such person failed to comply with the duty to register or reregister. If such affidavit is admitted into evidence, it shall constitute prima facie evidence of the failure to comply with the duty to register or reregister in any trial or hearing for the violation of § 18.2-472.1, provided that in a trial or hearing other than a preliminary hearing, the requirements of subsection G of § 18.2-472.1 have been satisfied and the accused has not objected to the admission of the affidavit pursuant to subsection H of § 18.2-472.1. The State Police shall also promptly notify the local law-enforcement agency of the jurisdiction of the person's last known residence as shown in the records of the State Police.

B. Nothing in this section shall prohibit a law-enforcement officer employed by a sheriff's office or police department of a locality from enforcing the provisions of this chapter, including obtaining a warrant, or assisting in obtaining an indictment for a violation of § 18.2-472.1. The local law-enforcement agency shall notify the State Police forthwith of such actions taken pursuant to this chapter or under the authority granted pursuant to this section.

C. The State Police shall physically verify or cause to be physically verified the registration information within 30 days of the initial registration and semiannually each year thereafter and within 30 days of a change of address of those persons who are not under the control of the Department of Corrections or ~~Community Supervision~~ *community supervision* as defined by § 53.1-1, who are required to register pursuant to this chapter. Whenever it appears that a person has provided false registration information, the State Police shall promptly investigate and, if there is probable cause to believe that a violation has occurred, obtain a warrant or assist in obtaining an indictment charging a violation of § 18.2-472.1 in the jurisdiction in which the person last registered or reregistered. The State Police shall forward to the jurisdiction an affidavit signed by a custodian of the records that such person failed to comply with the provisions of this chapter. If such affidavit is admitted into evidence, it shall constitute prima facie evidence of the failure to comply with the provisions of this chapter in any trial or hearing for the violation of § 18.2-472.1, provided that in a trial or hearing other than a preliminary hearing, the requirements of subsection G of § 18.2-472.1 have been satisfied and the accused has not objected to the admission of the affidavit pursuant to subsection H of § 18.2-472.1. The State Police shall also promptly notify the local law-enforcement agency of the jurisdiction of the person's last known residence as shown in the records of the State Police.

D. The Department of Corrections or ~~Community Supervision~~ *community supervision* as defined by § 53.1-1 shall physically verify *or cause to be physically verified by the State Police* the registration information within 30 days of the original registration and semiannually each year thereafter and within 30 days of a change of address of all persons who are under the control of the Department of Corrections or ~~Community Supervision~~ *community supervision*, and those who are under supervision pursuant to § 37.2-919, who are required to register pursuant to this chapter. The Department of Corrections or ~~Community Supervision~~ *community supervision*, upon request, shall provide the State Police the verification information, in an electronic format approved by the State Police, regarding persons under their control who are required to register pursuant to the chapter. Whenever it appears that a person has provided false registration information, the Department of Corrections or ~~Community Supervision~~ *community supervision* shall promptly notify the State Police, who shall investigate and, if there is probable cause to believe that a violation has occurred, obtain a warrant or assist in obtaining an indictment charging a violation of § 18.2-472.1 in the jurisdiction in which the person last registered or reregistered. The State Police shall forward to the jurisdiction an affidavit signed by a custodian of the records that such person failed to comply with the provisions of this chapter. If such affidavit is admitted into evidence, it shall constitute prima facie evidence of the failure to comply with the provisions of this chapter in any trial or hearing for the violation of § 18.2-472.1, provided that in a trial or hearing other than a preliminary hearing, the requirements of subsection G of § 18.2-472.1 have been satisfied and the accused has not objected to the admission of the affidavit pursuant to subsection H of § 18.2-472.1. The State Police shall also promptly notify the local law-enforcement agency of the jurisdiction of the person's last known residence as shown in the records of the State Police.

## CHAPTER 599

*An Act to amend and reenact § 56-585.1 of the Code of Virginia, relating to electric utility ratemaking; recovery of costs of solar energy facilities.*

[H 2237]

Approved March 26, 2015

**Be it enacted by the General Assembly of Virginia:**

**1. That § 56-585.1 of the Code of Virginia is amended and reenacted as follows:**

**§ 56-585.1. Generation, distribution, and transmission rates after capped rates terminate or expire.**

A. During the first six months of 2009, the Commission shall, after notice and opportunity for hearing, initiate proceedings to review the rates, terms and conditions for the provision of generation, distribution and transmission services of each investor-owned incumbent electric utility. Such proceedings shall be governed by the provisions of Chapter 10 (§ 56-232 et seq.), except as modified herein. In such proceedings the Commission shall determine fair rates of return on common equity applicable to the generation and distribution services of the utility. In so doing, the Commission may use

any methodology to determine such return it finds consistent with the public interest, but such return shall not be set lower than the average of the returns on common equity reported to the Securities and Exchange Commission for the three most recent annual periods for which such data are available by not less than a majority, selected by the Commission as specified in subdivision 2 b, of other investor-owned electric utilities in the peer group of the utility, nor shall the Commission set such return more than 300 basis points higher than such average. The peer group of the utility shall be determined in the manner prescribed in subdivision 2 b. The Commission may increase or decrease such combined rate of return by up to 100 basis points based on the generating plant performance, customer service, and operating efficiency of a utility, as compared to nationally recognized standards determined by the Commission to be appropriate for such purposes. In such a proceeding, the Commission shall determine the rates that the utility may charge until such rates are adjusted. If the Commission finds that the utility's combined rate of return on common equity is more than 50 basis points below the combined rate of return as so determined, it shall be authorized to order increases to the utility's rates necessary to provide the opportunity to fully recover the costs of providing the utility's services and to earn not less than such combined rate of return. If the Commission finds that the utility's combined rate of return on common equity is more than 50 basis points above the combined rate of return as so determined, it shall be authorized either (i) to order reductions to the utility's rates it finds appropriate, provided that the Commission may not order such rate reduction unless it finds that the resulting rates will provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than the fair rates of return on common equity applicable to the generation and distribution services; or (ii) to direct that 60 percent of the amount of the utility's earnings that were more than 50 basis points above the fair combined rate of return for calendar year 2008 be credited to customers' bills, in which event such credits shall be amortized over a period of six to 12 months, as determined at the discretion of the Commission, following the effective date of the Commission's order and be allocated among customer classes such that the relationship between the specific customer class rates of return to the overall target rate of return will have the same relationship as the last approved allocation of revenues used to design base rates. Commencing in 2011, the Commission, after notice and opportunity for hearing, shall conduct biennial reviews of the rates, terms and conditions for the provision of generation, distribution and transmission services by each investor-owned incumbent electric utility, subject to the following provisions:

1. Rates, terms and conditions for each service shall be reviewed separately on an unbundled basis, and such reviews shall be conducted in a single, combined proceeding. The first such review shall utilize the two successive 12-month test periods ending December 31, 2010. However, the Commission may, in its discretion, elect to stagger its biennial reviews of utilities by utilizing the two successive 12-month test periods ending December 31, 2010, for a Phase I Utility, and utilizing the two successive 12-month test periods ending December 31, 2011, for a Phase II Utility, with subsequent proceedings utilizing the two successive 12-month test periods ending December 31 immediately preceding the year in which such proceeding is conducted. For purposes of this section, a Phase I Utility is an investor-owned incumbent electric utility that was, as of July 1, 1999, not bound by a rate case settlement adopted by the Commission that extended in its application beyond January 1, 2002, and a Phase II Utility is an investor-owned incumbent electric utility that was bound by such a settlement.

2. Subject to the provisions of subdivision 6, fair rates of return on common equity applicable separately to the generation and distribution services of such utility, and for the two such services combined, shall be determined by the Commission during each such biennial review, as follows:

a. The Commission may use any methodology to determine such return it finds consistent with the public interest, but such return shall not be set lower than the average of the returns on common equity reported to the Securities and Exchange Commission for the three most recent annual periods for which such data are available by not less than a majority, selected by the Commission as specified in subdivision 2 b, of other investor-owned electric utilities in the peer group of the utility subject to such biennial review, nor shall the Commission set such return more than 300 basis points higher than such average.

b. In selecting such majority of peer group investor-owned electric utilities, the Commission shall first remove from such group the two utilities within such group that have the lowest reported returns of the group, as well as the two utilities within such group that have the highest reported returns of the group, and the Commission shall then select a majority of the utilities remaining in such peer group. In its final order regarding such biennial review, the Commission shall identify the utilities in such peer group it selected for the calculation of such limitation. For purposes of this subdivision, an investor-owned electric utility shall be deemed part of such peer group if (i) its principal operations are conducted in the southeastern United States east of the Mississippi River in either the states of West Virginia or Kentucky or in those states south of Virginia, excluding the state of Tennessee, (ii) it is a vertically-integrated electric utility providing generation, transmission and distribution services whose facilities and operations are subject to state public utility regulation in the state where its principal operations are conducted, (iii) it had a long-term bond rating assigned by Moody's Investors Service of at least Baa at the end of the most recent test period subject to such biennial review, and (iv) it is not an affiliate of the utility subject to such biennial review.

c. The Commission may, consistent with its precedent for incumbent electric utilities prior to the enactment of Chapters 888 and 933 of the Acts of Assembly of 2007, increase or decrease the utility's combined rate of return based on the Commission's consideration of the utility's performance.

d. In any Current Proceeding, the Commission shall determine whether the Current Return has increased, on a percentage basis, above the Initial Return by more than the increase, expressed as a percentage, in the United States Average

Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, since the date on which the Commission determined the Initial Return. If so, the Commission may conduct an additional analysis of whether it is in the public interest to utilize such Current Return for the Current Proceeding then pending. A finding of whether the Current Return justifies such additional analysis shall be made without regard to any enhanced rate of return on common equity awarded pursuant to the provisions of subdivision 6. Such additional analysis shall include, but not be limited to, a consideration of overall economic conditions, the level of interest rates and cost of capital with respect to business and industry, in general, as well as electric utilities, the current level of inflation and the utility's cost of goods and services, the effect on the utility's ability to provide adequate service and to attract capital if less than the Current Return were utilized for the Current Proceeding then pending, and such other factors as the Commission may deem relevant. If, as a result of such analysis, the Commission finds that use of the Current Return for the Current Proceeding then pending would not be in the public interest, then the lower limit imposed by subdivision 2 a on the return to be determined by the Commission for such utility shall be calculated, for that Current Proceeding only, by increasing the Initial Return by a percentage at least equal to the increase, expressed as a percentage, in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, since the date on which the Commission determined the Initial Return. For purposes of this subdivision:

"Current Proceeding" means any proceeding conducted under any provisions of this subsection that require or authorize the Commission to determine a fair combined rate of return on common equity for a utility and that will be concluded after the date on which the Commission determined the Initial Return for such utility.

"Current Return" means the minimum fair combined rate of return on common equity required for any Current Proceeding by the limitation regarding a utility's peer group specified in subdivision 2 a.

"Initial Return" means the fair combined rate of return on common equity determined for such utility by the Commission on the first occasion after July 1, 2009, under any provision of this subsection pursuant to the provisions of subdivision 2 a.

e. In addition to other considerations, in setting the return on equity within the range allowed by this section, the Commission shall strive to maintain costs of retail electric energy that are cost competitive with costs of retail electric energy provided by the other peer group investor-owned electric utilities.

f. The determination of such returns shall be made by the Commission on a stand-alone basis, and specifically without regard to any return on common equity or other matters determined with regard to facilities described in subdivision 6.

g. If the combined rate of return on common equity earned by the generation and distribution services is no more than 50 basis points above or below the return as so determined or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, such return is no more than 70 basis points above or below the return as so determined, such combined return shall not be considered either excessive or insufficient, respectively. However, for any test period commencing after December 31, 2012, for a Phase II Utility, and after December 31, 2013, for a Phase I Utility, if the utility has, during the test period or periods under review, earned below the return as so determined, whether or not such combined return is within 70 basis points of the return as so determined, the utility may petition the Commission for approval of an increase in rates in accordance with the provisions of subdivision 8 a as if it had earned more than 70 basis points below a fair combined rate of return, and such proceeding shall otherwise be conducted in accordance with the provisions of this section.

h. Any amount of a utility's earnings directed by the Commission to be credited to customers' bills pursuant to this section shall not be considered for the purpose of determining the utility's earnings in any subsequent biennial review.

3. Each such utility shall make a biennial filing by March 31 of every other year, beginning in 2011, consisting of the schedules contained in the Commission's rules governing utility rate increase applications; however, if the Commission elects to stagger the dates of the biennial reviews of utilities as provided in subdivision 1, then Phase I utilities shall commence biennial filings in 2011 and Phase II utilities shall commence biennial filings in 2012. Such filing shall encompass the two successive 12-month test periods ending December 31 immediately preceding the year in which such proceeding is conducted, and in every such case the filing for each year shall be identified separately and shall be segregated from any other year encompassed by the filing. If the Commission determines that rates should be revised or credits be applied to customers' bills pursuant to subdivision 8 or 9, any rate adjustment clauses previously implemented pursuant to subdivision 5 or those related to facilities utilizing simple-cycle combustion turbines described in subdivision 6, shall be combined with the utility's costs, revenues and investments until the amounts that are the subject of such rate adjustment clauses are fully recovered. The Commission shall combine such clauses with the utility's costs, revenues and investments only after it makes its initial determination with regard to necessary rate revisions or credits to customers' bills, and the amounts thereof, but after such clauses are combined as herein specified, they shall thereafter be considered part of the utility's costs, revenues, and investments for the purposes of future biennial review proceedings. A Phase I utility shall delay for one year the filing of its biennial review from March 31, 2013, to March 31, 2014, and shall not defer on its books for future recovery any costs incurred during calendar year 2011, other than as provided in subdivision 7 or § 56-249.6, and its subsequent biennial filing shall be made by March 31, 2016, and every two years thereafter.

4. The following costs incurred by the utility shall be deemed reasonable and prudent: (i) costs for transmission services provided to the utility by the regional transmission entity of which the utility is a member, as determined under applicable rates, terms and conditions approved by the Federal Energy Regulatory Commission, and (ii) costs charged to the

utility that are associated with demand response programs approved by the Federal Energy Regulatory Commission and administered by the regional transmission entity of which the utility is a member. Upon petition of a utility at any time after the expiration or termination of capped rates, but not more than once in any 12-month period, the Commission shall approve a rate adjustment clause under which such costs, including, without limitation, costs for transmission service, charges for new and existing transmission facilities, administrative charges, and ancillary service charges designed to recover transmission costs, shall be recovered on a timely and current basis from customers. Retail rates to recover these costs shall be designed using the appropriate billing determinants in the retail rate schedules.

5. A utility may at any time, after the expiration or termination of capped rates, but not more than once in any 12-month period, petition the Commission for approval of one or more rate adjustment clauses for the timely and current recovery from customers of the following costs:

a. Incremental costs described in clause (vi) of subsection B of § 56-582 incurred between July 1, 2004, and the expiration or termination of capped rates, if such utility is, as of July 1, 2007, deferring such costs consistent with an order of the Commission entered under clause (vi) of subsection B of § 56-582. The Commission shall approve such a petition allowing the recovery of such costs that comply with the requirements of clause (vi) of subsection B of § 56-582;

b. Projected and actual costs for the utility to design and operate fair and effective peak-shaving programs. The Commission shall approve such a petition if it finds that the program is in the public interest; provided that the Commission shall allow the recovery of such costs as it finds are reasonable;

c. Projected and actual costs for the utility to design, implement, and operate energy efficiency programs, including a margin to be recovered on operating expenses, which margin for the purposes of this section shall be equal to the general rate of return on common equity determined as described in subdivision 2. The Commission shall only approve such a petition if it finds that the program is in the public interest. As part of such cost recovery, the Commission, if requested by the utility, shall allow for the recovery of revenue reductions related to energy efficiency programs. The Commission shall only allow such recovery to the extent that the Commission determines such revenue has not been recovered through margins from incremental off-system sales as defined in § 56-249.6 that are directly attributable to energy efficiency programs.

None of the costs of new energy efficiency programs of an electric utility, including recovery of revenue reductions, shall be assigned to any customer that has a verifiable history of having used more than 10 megawatts of demand from a single meter of delivery. Nor shall any of the costs of new energy efficiency programs of an electric utility, including recovery of revenue reductions, be incurred by any large general service customer as defined herein that has notified the utility of non-participation in such energy efficiency program or programs. A large general service customer is a customer that has a verifiable history of having used more than 500 kilowatts of demand from a single meter of delivery. Non-participation in energy efficiency programs shall be allowed by the Commission if the large general service customer has, at the customer's own expense, implemented energy efficiency programs that have produced or will produce measured and verified results consistent with industry standards and other regulatory criteria stated in this section. The Commission shall, no later than November 15, 2009, promulgate rules and regulations to accommodate the process under which such large general service customers shall file notice for such an exemption and (i) establish the administrative procedures by which eligible customers will notify the utility and (ii) define the standard criteria that must be satisfied by an applicant in order to notify the utility. In promulgating such rules and regulations, the Commission may also specify the timing as to when a utility shall accept and act on such notice, taking into consideration the utility's integrated resource planning process as well as its administration of energy efficiency programs that are approved for cost recovery by the Commission. The notice of non-participation by a large general service customer, to be given by March 1 of a given year, shall be for the duration of the service life of the customer's energy efficiency program. The Commission on its own motion may initiate steps necessary to verify such non-participants' achievement of energy efficiency if the Commission has a body of evidence that the non-participant has knowingly misrepresented its energy efficiency achievement. A utility shall not charge such large general service customer, as defined by the Commission, for the costs of installing energy efficiency equipment beyond what is required to provide electric service and meter such service on the customer's premises if the customer provides, at the customer's expense, equivalent energy efficiency equipment. In all relevant proceedings pursuant to this section, the Commission shall take into consideration the goals of economic development, energy efficiency and environmental protection in the Commonwealth;

d. Projected and actual costs of participation in a renewable energy portfolio standard program pursuant to § 56-585.2 that are not recoverable under subdivision 6. The Commission shall approve such a petition allowing the recovery of such costs as are provided for in a program approved pursuant to § 56-585.2; and

e. Projected and actual costs of projects that the Commission finds to be necessary to comply with state or federal environmental laws or regulations applicable to generation facilities used to serve the utility's native load obligations. The Commission shall approve such a petition if it finds that such costs are necessary to comply with such environmental laws or regulations.

The Commission shall have the authority to determine the duration or amortization period for any adjustment clause approved under this subdivision.

6. To ensure the generation and delivery of a reliable and adequate supply of electricity, to meet the utility's projected native load obligations and to promote economic development, a utility may at any time, after the expiration or termination of capped rates, petition the Commission for approval of a rate adjustment clause for recovery on a timely and current basis

from customers of the costs of (i) a coal-fueled generation facility that utilizes Virginia coal and is located in the coalfield region of the Commonwealth, as described in § 15.2-6002, regardless of whether such facility is located within or without the utility's service territory, (ii) one or more other generation facilities, (iii) one or more major unit modifications of generation facilities, or (iv) one or more new underground facilities to replace one or more existing overhead distribution facilities of 69 kilovolts or less located within the Commonwealth; however, subject to the provisions of the following sentence, the utility shall not file a petition under clause (iv) more often than annually and, in such petition, shall not seek any annual incremental increase in the level of investments associated with such a petition that exceeds five percent of such utility's distribution rate base, as such rate base was determined for the most recently ended 12-month test period in the utility's latest biennial review proceeding conducted pursuant to subdivision 3 and concluded by final order of the Commission prior to the date of filing of such petition under clause (iv). In all proceedings regarding petitions filed under clause (iv), the level of investments approved for recovery in such proceedings shall be in addition to, and not in lieu of, levels of investments previously approved for recovery in prior proceedings under clause (iv). Such a petition concerning facilities described in clause (ii) that utilize nuclear power, facilities described in clause (ii) that are coal-fueled and will be built by a Phase I utility, or facilities described in clause (i) may also be filed before the expiration or termination of capped rates. A utility that constructs or purchases any such generation facility consisting of at least one megawatt of generating capacity using energy derived from sunlight and located in the Commonwealth and that utilizes goods or services sourced, in whole or in part, from one or more Virginia businesses, shall have the right to recover the costs of the facility, as accrued against income, through its rates, including projected construction work in progress, and any associated allowance for funds used during construction, planning, development and construction or acquisition costs, life-cycle costs, costs related to assessing the feasibility of potential sites for new underground facilities, and costs of infrastructure associated therewith, plus, as an incentive to undertake such projects, an enhanced rate of return on common equity calculated as specified below; however, in determining the amounts recoverable under a rate adjustment clause for new underground facilities, the Commission shall not consider, or increase or reduce such amounts recoverable because of (a) the operation and maintenance costs attributable to either the overhead distribution facilities being replaced or the new underground facilities or (b) any other costs attributable to the overhead distribution facilities being replaced. Notwithstanding the preceding sentence, the costs described in clauses (a) and (b) thereof shall remain eligible for recovery from customers through the utility's base rates for distribution service. *A utility filing a petition for approval to construct or purchase a facility consisting of at least one megawatt of generating capacity using energy derived from sunlight and located in the Commonwealth and that utilizes goods or services sourced, in whole or in part, from one or more Virginia businesses may propose a rate adjustment clause based on a market index in lieu of a cost of service model for such facility.* A utility seeking approval to construct or purchase a generating facility shall demonstrate that it has considered and weighed alternative options, including third-party market alternatives, in its selection process. The costs of the facility, other than return on projected construction work in progress and allowance for funds used during construction, shall not be recovered prior to the date a facility constructed by the utility and described in clause (i), (ii), or (iii) begins commercial operation, the date the utility becomes the owner of a purchased generation facility consisting of at least one megawatt of generating capacity using energy derived from sunlight and located in the Commonwealth and that utilizes goods or services sourced, in whole or in part, from one or more Virginia businesses, or the date new underground facilities are classified by the utility as plant in service. Such enhanced rate of return on common equity shall be applied to allowance for funds used during construction and to construction work in progress during the construction phase of the facility and shall thereafter be applied to the entire facility during the first portion of the service life of the facility. The first portion of the service life shall be as specified in the table below; however, the Commission shall determine the duration of the first portion of the service life of any facility, within the range specified in the table below, which determination shall be consistent with the public interest and shall reflect the Commission's determinations regarding how critical the facility may be in meeting the energy needs of the citizens of the Commonwealth and the risks involved in the development of the facility. After the first portion of the service life of the facility is concluded, the utility's general rate of return shall be applied to such facility for the remainder of its service life. As used herein, the service life of the facility shall be deemed to begin on the date a facility constructed by the utility and described in clause (i), (ii), or (iii) begins commercial operation, the date the utility becomes the owner of a purchased generation facility consisting of at least one megawatt of generating capacity using energy derived from sunlight and located in the Commonwealth and that utilizes goods or services sourced, in whole or in part, from one or more Virginia businesses, or the date new underground facilities are classified by the utility as plant in service, and such service life shall be deemed equal in years to the life of that facility as used to calculate the utility's depreciation expense. Such enhanced rate of return on common equity shall be calculated by adding the basis points specified in the table below to the utility's general rate of return, and such enhanced rate of return shall apply only to the facility that is the subject of such rate adjustment clause. Allowance for funds used during construction shall be calculated for any such facility utilizing the utility's actual capital structure and overall cost of capital, including an enhanced rate of return on common equity as determined pursuant to this subdivision, until such construction work in progress is included in rates. The construction of any facility described in clause (i) is in the public interest, and in determining whether to approve such facility, the Commission shall liberally construe the provisions of this title. *The construction or purchase by a utility of one or more generation facilities with at least one megawatt of generating capacity, and with an aggregate rated capacity that does not exceed 500 megawatts, that use energy derived from sunlight and are located in the Commonwealth, regardless of whether any of such facilities are located within or without the utility's service territory, is in the public interest, and in determining whether to approve such*

facility, the Commission shall liberally construe the provisions of this title. A utility may enter into short-term or long-term power purchase contracts for the power derived from sunlight generated by such generation facility prior to purchasing the generation facility. In determining whether to approve petitions for rate adjustment clauses for new underground facilities, and in determining the level of costs to be recovered thereunder, the Commission shall liberally construe the provisions of this title and shall give due consideration to the public policy goals of increased electric service reliability and reduced outage times associated with the replacement of existing overhead distribution facilities with new underground facilities. The basis points to be added to the utility's general rate of return to calculate the enhanced rate of return on common equity, and the first portion of that facility's service life to which such enhanced rate of return shall be applied, shall vary by type of facility, as specified in the following table:

Type of Generation Facility	Basis Points	First Portion of Service Life
Nuclear-powered	200	Between 12 and 25 years
Carbon capture compatible, clean-coal powered	200	Between 10 and 20 years
Renewable powered, other than landfill gas powered	200	Between 5 and 15 years
Coalbed methane gas powered	150	Between 5 and 15 years
Landfill gas powered	200	Between 5 and 15 years
Conventional coal or combined-cycle combustion turbine	100	Between 10 and 20 years

For generating facilities other than those utilizing nuclear power or those utilizing energy derived from offshore wind, as of July 1, 2013, only those facilities as to which a rate adjustment clause under this subdivision has been previously approved by the Commission, or as to which a petition for approval of such rate adjustment clause was filed with the Commission, on or before January 1, 2013, shall be entitled to the enhanced rate of return on common equity as specified in the above table during the construction phase of the facility and the approved first portion of its service life.

For generating facilities within the Commonwealth utilizing nuclear power or those utilizing energy derived from offshore wind projects located in waters off the Commonwealth's Atlantic shoreline, such facilities shall continue to be eligible for an enhanced rate of return on common equity during the construction phase of the facility and the approved first portion of its service life of between 12 and 25 years in the case of a facility utilizing nuclear power and for a service life of between 5 and 15 years in the case of a facility utilizing energy derived from offshore wind, provided, however, that, as of July 1, 2013, the enhanced return for such facilities shall be 100 basis points, which shall be added to the utility's general rate of return as determined under subdivision 2. Thirty percent of all costs of such a facility utilizing nuclear power that the utility incurred between July 1, 2007, and December 31, 2013, and all of such costs incurred after December 31, 2013, may be deferred by the utility and recovered through a rate adjustment clause under this subdivision at such time as the Commission provides in an order approving such a rate adjustment clause. The remaining 70 percent of all costs of such a facility that the utility incurred between July 1, 2007, and December 31, 2013, shall not be deferred for recovery through a rate adjustment clause under this subdivision; however, such remaining 70 percent of all costs shall be recovered ratably through existing base rates as determined by the Commission in the test periods under review in the utility's next biennial review filed after July 1, 2014. Thirty percent of all costs of such a facility utilizing energy derived from offshore wind that the utility incurred between July 1, 2007, and December 31, 2013, and all of such costs incurred after December 31, 2013, may be deferred by the utility and recovered through a rate adjustment clause under this subdivision at such time as the Commission provides in an order approving such a rate adjustment clause. The remaining 70 percent of all costs of such a facility that the utility incurred between July 1, 2007, and December 31, 2013, shall not be deferred for recovery through a rate adjustment clause under this subdivision; however, such remaining 70 percent of all costs shall be recovered ratably through existing base rates as determined by the Commission in the test periods under review in the utility's next biennial review filed after July 1, 2014.

In connection with planning to meet forecasted demand for electric generation supply and assure the adequate and sufficient reliability of service, consistent with § 56-598, planning and development activities for a new nuclear generation facility or facilities are in the public interest.

In connection with planning to meet forecasted demand for electric generation supply and assure the adequate and sufficient reliability of service, consistent with § 56-598, planning and development activities for a new *utility-owned and utility-operated* generating facility or facilities utilizing energy derived from *sunlight with an aggregate capacity of 500 megawatts, or from offshore wind*, are in the public interest.

Neither generation facilities described in clause (ii) that utilize simple-cycle combustion turbines nor new underground facilities shall receive an enhanced rate of return on common equity as described herein, but instead shall receive the utility's general rate of return during the construction phase of the facility and, thereafter, for the entire service life of the facility. No rate adjustment clause for new underground facilities shall allocate costs to, or provide for the recovery of costs from, customers that are served within the large power service rate class for a Phase I utility and the large general service rate classes for a Phase II utility. New underground facilities are hereby declared to be ordinary extensions or improvements in the usual course of business under the provisions of § 56-265.2.

As used in this subdivision, a generation facility is (1) "coalbed methane gas powered" if the facility is fired at least 50 percent by coalbed methane gas, as such term is defined in § 45.1-361.1, produced from wells located in the

Commonwealth, and (2) "landfill gas powered" if the facility is fired by methane or other combustible gas produced by the anaerobic digestion or decomposition of biodegradable materials in a solid waste management facility licensed by the Waste Management Board. A landfill gas powered facility includes, in addition to the generation facility itself, the equipment used in collecting, drying, treating, and compressing the landfill gas and in transmitting the landfill gas from the solid waste management facility where it is collected to the generation facility where it is combusted.

For purposes of this subdivision, "general rate of return" means the fair combined rate of return on common equity as it is determined by the Commission from time to time for such utility pursuant to subdivision 2. In any proceeding under this subdivision conducted prior to the conclusion of the first biennial review for such utility, the Commission shall determine a general rate of return for such utility in the same manner as it would in a biennial review proceeding.

Notwithstanding any other provision of this subdivision, if the Commission finds during the biennial review conducted for a Phase II utility in 2018 that such utility has not filed applications for all necessary federal and state regulatory approvals to construct one or more nuclear-powered or coal-fueled generation facilities that would add a total capacity of at least 1500 megawatts to the amount of the utility's generating resources as such resources existed on July 1, 2007, or that, if all such approvals have been received, that the utility has not made reasonable and good faith efforts to construct one or more such facilities that will provide such additional total capacity within a reasonable time after obtaining such approvals, then the Commission, if it finds it in the public interest, may reduce on a prospective basis any enhanced rate of return on common equity previously applied to any such facility to no less than the general rate of return for such utility and may apply no less than the utility's general rate of return to any such facility for which the utility seeks approval in the future under this subdivision.

7. Any petition filed pursuant to subdivision 4, 5, or 6 shall be considered by the Commission on a stand-alone basis without regard to the other costs, revenues, investments, or earnings of the utility. Any costs incurred by a utility prior to the filing of such petition, or during the consideration thereof by the Commission, that are proposed for recovery in such petition and that are related to subdivision 5 a, or that are related to facilities and projects described in clause (i) of subdivision 6, or that are related to new underground facilities described in clause (iv) of subdivision 6, shall be deferred on the books and records of the utility until the Commission's final order in the matter, or until the implementation of any applicable approved rate adjustment clauses, whichever is later. Except as otherwise provided in subdivision 6, any costs prudently incurred on or after July 1, 2007, by a utility prior to the filing of such petition, or during the consideration thereof by the Commission, that are proposed for recovery in such petition and that are related to facilities and projects described in clause (ii) of subdivision 6 that utilize nuclear power, or coal-fueled facilities and projects described in clause (ii) of subdivision 6 if such coal-fueled facilities will be built by a Phase I Utility, shall be deferred on the books and records of the utility until the Commission's final order in the matter, or until the implementation of any applicable approved rate adjustment clauses, whichever is later. Any costs prudently incurred after the expiration or termination of capped rates related to other matters described in subdivision 4, 5, or 6 shall be deferred beginning only upon the expiration or termination of capped rates, provided, however, that no provision of this act shall affect the rights of any parties with respect to the rulings of the Federal Energy Regulatory Commission in PJM Interconnection LLC and Virginia Electric and Power Company, 109 F.E.R.C. P 61,012 (2004). A utility shall establish a regulatory asset for regulatory accounting and ratemaking purposes under which it shall defer its operation and maintenance costs incurred in connection with (i) the refueling of any nuclear-powered generating plant and (ii) other work at such plant normally performed during a refueling outage. The utility shall amortize such deferred costs over the refueling cycle, but in no case more than 18 months, beginning with the month in which such plant resumes operation after such refueling. The refueling cycle shall be the applicable period of time between planned refueling outages for such plant. As of January 1, 2014, such amortized costs are a component of base rates, recoverable in base rates only ratably over the refueling cycle rather than when such outages occur, and are the only nuclear refueling costs recoverable in base rates. This provision shall apply to any nuclear-powered generating plant refueling outage commencing after December 31, 2013, and the Commission shall treat the deferred and amortized costs of such regulatory asset as part of the utility's costs for the purpose of proceedings conducted (a) with respect to biennial filings under subdivision 3 made on and after July 1, 2014, and (b) pursuant to § 56-245 or the Commission's rules governing utility rate increase applications as provided in subsection B. This provision shall not be deemed to change or reset base rates.

The Commission's final order regarding any petition filed pursuant to subdivision 4, 5, or 6 shall be entered not more than three months, eight months, and nine months, respectively, after the date of filing of such petition. If such petition is approved, the order shall direct that the applicable rate adjustment clause be applied to customers' bills not more than 60 days after the date of the order, or upon the expiration or termination of capped rates, whichever is later.

8. In any biennial review proceeding, the following utility generation and distribution costs not proposed for recovery under any other subdivision of this subsection, as recorded per books by the utility for financial reporting purposes and accrued against income, shall be attributed to the test periods under review: costs associated with asset impairments related to early retirement determinations made by the utility prior to December 31, 2012, for utility generation plant; costs associated with severe weather events; and costs associated with natural disasters. Such costs shall be deemed to have been recovered from customers through rates for generation and distribution services in effect during the test periods under review unless such costs, individually or in the aggregate, together with the utility's other costs, revenues, and investments to be recovered through rates for generation and distribution services, result in the utility's earned return on its generation and distribution services for the combined test periods under review to fall more than 50 basis points below the fair combined

rate of return authorized under subdivision 2 for such periods or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, to fall more than 70 basis points below the fair combined rate of return authorized under subdivision 2 for such periods. In such cases, the Commission shall, in such biennial review proceeding, authorize deferred recovery of such costs and allow the utility to amortize and recover such deferred costs over future periods as determined by the Commission. The aggregate amount of such deferred costs shall not exceed an amount that would, together with the utility's other costs, revenues, and investments to be recovered through rates for generation and distribution services, cause the utility's earned return on its generation and distribution services to exceed the fair rate of return authorized under subdivision 2, less 50 basis points, for the combined test periods under review or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, to exceed the fair rate of return authorized under subdivision 2 less 70 basis points. Nothing in this section shall limit the Commission's authority, pursuant to the provisions of Chapter 10 (§ 56-232 et seq.), including specifically § 56-235.2, following the review of combined test period earnings of the utility in a biennial review, for normalization of nonrecurring test period costs and annualized adjustments for future costs, in determining any appropriate increase or decrease in the utility's rates for generation and distribution services pursuant to subdivision 8 a or 8 c.

If the Commission determines as a result of such biennial review that:

a. The utility has, during the test period or periods under review, considered as a whole, earned more than 50 basis points below a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points below a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, the Commission shall order increases to the utility's rates necessary to provide the opportunity to fully recover the costs of providing the utility's services and to earn not less than such fair combined rate of return, using the most recently ended 12-month test period as the basis for determining the amount of the rate increase necessary. However, the Commission may not order such rate increase unless it finds that the resulting rates are necessary to provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than a fair combined rate of return on both its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, using the most recently ended 12-month test period as the basis for determining the permissibility of any rate increase under the standards of this sentence, and the amount thereof;

b. The utility has, during the test period or test periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, the Commission shall, subject to the provisions of subdivision 9, direct that 60 percent of the amount of such earnings that were more than 50 basis points, or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, that 70 percent of the amount of such earnings that were more than 70 basis points, above such fair combined rate of return for the test period or periods under review, considered as a whole, shall be credited to customers' bills. Any such credits shall be amortized over a period of six to 12 months, as determined at the discretion of the Commission, following the effective date of the Commission's order, and shall be allocated among customer classes such that the relationship between the specific customer class rates of return to the overall target rate of return will have the same relationship as the last approved allocation of revenues used to design base rates; or

c. Such biennial review is the second consecutive biennial review in which the utility has, during the test period or test periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matter determined with respect to facilities described in subdivision 6, the Commission shall, subject to the provisions of subdivision 9 and in addition to the actions authorized in subdivision b, also order reductions to the utility's rates it finds appropriate. However, the Commission may not order such rate reduction unless it finds that the resulting rates will provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, using the most recently ended 12-month test period as the basis for determining the permissibility of any rate reduction under the standards of this sentence, and the amount thereof.

The Commission's final order regarding such biennial review shall be entered not more than eight months after the date of filing, and any revisions in rates or credits so ordered shall take effect not more than 60 days after the date of the order. The fair combined rate of return on common equity determined pursuant to subdivision 2 in such biennial review shall apply, for purposes of reviewing the utility's earnings on its rates for generation and distribution services, to the entire two successive 12-month test periods ending December 31 immediately preceding the year of the utility's subsequent biennial review filing under subdivision 3.

9. If, as a result of a biennial review required under this subsection and conducted with respect to any test period or periods under review ending later than December 31, 2010 (or, if the Commission has elected to stagger its biennial reviews of utilities as provided in subdivision 1, under review ending later than December 31, 2010, for a Phase I Utility, or December 31, 2011, for a Phase II Utility), the Commission finds, with respect to such test period or periods considered as a whole, that (i) any utility has, during the test period or periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, and (ii) the total aggregate regulated rates of such utility at the end of the most recently-ended 12-month test period exceeded the annual increases in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, compounded annually, when compared to the total aggregate regulated rates of such utility as determined pursuant to the biennial review conducted for the base period, the Commission shall, unless it finds that such action is not in the public interest or that the provisions of subdivisions 8 b and c are more consistent with the public interest, direct that any or all earnings for such test period or periods under review, considered as a whole that were more than 50 basis points, or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points, above such fair combined rate of return shall be credited to customers' bills, in lieu of the provisions of subdivisions 8 b and c. Any such credits shall be amortized and allocated among customer classes in the manner provided by subdivision 8 b. For purposes of this subdivision:

"Base period" means (i) the test period ending December 31, 2010 (or, if the Commission has elected to stagger its biennial reviews of utilities as provided in subdivision 1, the test period ending December 31, 2010, for a Phase I Utility, or December 31, 2011, for a Phase II Utility), or (ii) the most recent test period with respect to which credits have been applied to customers' bills under the provisions of this subdivision, whichever is later.

"Total aggregate regulated rates" shall include: (i) fuel tariffs approved pursuant to § 56-249.6, except for any increases in fuel tariffs deferred by the Commission for recovery in periods after December 31, 2010, pursuant to the provisions of clause (ii) of subsection C of § 56-249.6; (ii) rate adjustment clauses implemented pursuant to subdivision 4 or 5; (iii) revisions to the utility's rates pursuant to subdivision 8 a; (iv) revisions to the utility's rates pursuant to the Commission's rules governing utility rate increase applications, as permitted by subsection B, occurring after July 1, 2009; and (v) base rates in effect as of July 1, 2009.

10. For purposes of this section, the Commission shall regulate the rates, terms and conditions of any utility subject to this section on a stand-alone basis utilizing the actual end-of-test period capital structure and cost of capital of such utility, unless the Commission finds that the debt to equity ratio of such capital structure is unreasonable for such utility, in which case the Commission may utilize a debt to equity ratio that it finds to be reasonable for such utility in determining any rate adjustment pursuant to subdivisions 8 a and c, and without regard to the cost of capital, capital structure, revenues, expenses or investments of any other entity with which such utility may be affiliated. In particular, and without limitation, the Commission shall determine the federal and state income tax costs for any such utility that is part of a publicly traded, consolidated group as follows: (i) such utility's apportioned state income tax costs shall be calculated according to the applicable statutory rate, as if the utility had not filed a consolidated return with its affiliates, and (ii) such utility's federal income tax costs shall be calculated according to the applicable federal income tax rate and shall exclude any consolidated tax liability or benefit adjustments originating from any taxable income or loss of its affiliates.

B. Nothing in this section shall preclude an investor-owned incumbent electric utility from applying for an increase in rates pursuant to § 56-245 or the Commission's rules governing utility rate increase applications; however, in any such filing, a fair rate of return on common equity shall be determined pursuant to subdivision A 2. Nothing in this section shall preclude such utility's recovery of fuel and purchased power costs as provided in § 56-249.6.

C. Except as otherwise provided in this section, the Commission shall exercise authority over the rates, terms and conditions of investor-owned incumbent electric utilities for the provision of generation, transmission and distribution services to retail customers in the Commonwealth pursuant to the provisions of Chapter 10 (§ 56-232 et seq.), including specifically § 56-235.2.

D. The Commission may determine, during any proceeding authorized or required by this section, the reasonableness or prudence of any cost incurred or projected to be incurred, by a utility in connection with the subject of the proceeding. A determination of the Commission regarding the reasonableness or prudence of any such cost shall be consistent with the Commission's authority to determine the reasonableness or prudence of costs in proceedings pursuant to the provisions of Chapter 10 (§ 56-232 et seq.). In determining the reasonableness or prudence of a utility providing energy and capacity to its customers from renewable energy resources, the Commission shall consider the extent to which such renewable energy resources, whether utility-owned or by contract, further the objectives of the Commonwealth Energy Policy set forth in §§ 67-101 and 67-102, and shall also consider whether the costs of such resources is likely to result in unreasonable increases in rates paid by consumers.

E. The Commission shall promulgate such rules and regulations as may be necessary to implement the provisions of this section.

C. A licensed bail bondsman shall ensure that each recognizance on all bonds for which he signs shall contain the name and contact information for both the surety agent and the registered agent of the issuing company.

D. An administrative fee may be charged by a bail bondsman, not to exceed reasonable costs. Reasonable costs may include, but are not limited to, travel, court time, recovery fees, phone expenses, administrative overhead and postage.

E. A property bail bondsman shall not enter into any bond if the aggregate of the penalty of such bond and all other bonds, on which he has not been released from liability, is in excess of four times the true market value of the equity in his real estate, cash or certificates of deposit issued by a federally insured institution, or any combination thereof.

F. A property bail bondsman or his agent shall not refuse to cover any forfeiture of bond against him or refuse to pay such forfeiture after notice and final order of the court.

I. A licensed bail bondsman shall not charge a bail bond premium less than 10 percent or more than 15 percent of the amount of the bond. A licensed bail bondsman shall not loan money with interest for the purpose of helping another obtain a bail bond.

For the purposes of this section subsection, a "bail bond premium is defined as" means the amount of money paid to a licensed bail bondsman for the execution of a bail bond.

*J. A licensed bail bondsman who has been arrested for a felony offense shall not issue any new bonds pending the outcome of the investigation by the Department.*

**§ 9.1-185.14. Reporting standards and requirements.**

Each licensed bail bondsman shall report within ~~30~~ 10 calendar days to the Department any change in his residence, name, business name or business address, and ensure that the Department has the names and all fictitious names of all companies under which he carries out his bail bonding business.

B. Each licensed bail bondsman *arrested for or* convicted of a felony shall report within ~~30~~ 10 calendar days to the Department the facts and circumstances regarding the criminal *arrest or* conviction.

C. Each licensed bail bondsman shall report to the Department within ~~30~~ 10 calendar days of the final disposition of the matter any administrative action taken against him by another governmental agency in the Commonwealth or in another jurisdiction. Such report shall include a copy of the order, consent to order or other relevant legal documents.

E. Each licensed property bail bondsman shall report to the Department any change in the number of agents in his employ within seven days of such change and concurrently provide proof of collateral of \$200,000 for each new agent, in accordance with subsection C of § 9.1-185.5.

F. Each licensed surety bail bondsman shall report to the Department within 30 days any change in his employment or agency status with a licensed insurance company. [H 2385]

Approved March 26, 2015

**Be it enacted by the General Assembly of Virginia:**

**1. That § 18.2-431.1 of the Code of Virginia is amended and reenacted as follows:**

**§ 18.2-431.1. Illegal conveyance or possession of cellular telephone or other wireless telecommunications device by prisoner or committed person; penalty.**

[H 2369]

Approved March 26, 2015

**Be it enacted by the General Assembly of Virginia:****1. That § 19.2-13 of the Code of Virginia is amended and reenacted as follows:****§ 19.2-13. Special conservators of the peace; authority; jurisdiction; registration; bond; liability of employers; penalty; report.**

A. Upon the application of (i) any sheriff or chief of police of any county, city, or town; (ii) any corporation authorized to do business in the Commonwealth; (iii) the owner, proprietor, or authorized custodian of any place within the Commonwealth; or (iv) any museum owned and managed by the Commonwealth, a circuit court judge of any county or city shall appoint special conservators of the peace who shall serve as such for such length of time as the court may designate, but not exceeding four years under any one appointment, *during which time the court shall retain jurisdiction over the appointment order*, upon a showing by the applicant of a necessity for the security of property or the peace and presentation of evidence that the person or persons to be appointed as a special conservator of the peace possess a valid registration issued by the Department of Criminal Justice Services in accordance with the provisions of subsection B. However, a judge may deny the appointment for good cause, and shall state the specific reasons for the denial in writing in the order denying the appointment. *A judge also may revoke the appointment order for good cause shown, upon the filing of a sworn petition by the attorney for the Commonwealth, sheriff, or chief of police for any locality in which the special conservator of the peace is authorized to serve or by the Department of Criminal Justice Services. Prior to revocation, a hearing shall be set and the special conservator of the peace shall be given notice and the opportunity to be heard. The judge may temporarily suspend the appointment pending the hearing for good cause shown. A hearing on the petition shall be heard by the court as soon as practicable.*

The order of appointment may provide that a special conservator of the peace shall have all the powers, functions, duties, responsibilities and authority of any other conservator of the peace within such geographical limitations as the court may deem appropriate within the confines of the county, city or town that makes application or within the county, city or town where the corporate applicant is located, limited, except as provided in subsection E, to the judicial circuit wherein application has been made, whenever such special conservator of the peace is engaged in the performance of his duties as such. The order may also provide that the special conservator of the peace is a "law-enforcement officer" for the purposes of Article 4 (§ 37.2-808 et seq.) of Chapter 8 of Title 37.2 or Article 16 (§ 16.1-335 et seq.) of Chapter 11 of Title 16.1. The order may also provide that the special conservator of the peace is authorized to use the seal of the Commonwealth in a badge or other credential of office as the court may deem appropriate. The order may also provide that the special conservator of the peace may use the title "police" on any badge or uniform worn in the performance of his duties as such. The order may also provide that a special conservator of the peace who has completed the minimum training standards established by the Department of Criminal Justice Services, has the authority to affect arrests, using up to the same amount of force as would be allowed to a law-enforcement officer employed by the Commonwealth or any of its political subdivisions when making a lawful arrest. The order also may (a) require the local sheriff or chief of police to conduct a background investigation which may include a review of the applicant's school records, employment records, or interviews with persons possessing general knowledge of the applicant's character and fitness for such appointment and (b) limit the use of flashing lights and sirens on personal vehicles used by the conservator in the performance of his duties. Prior to granting an application for appointment, the circuit court shall ensure that the applicant has met the registration requirements established by the Criminal Justice Services Board.

B. Effective September 15, 2004, no person shall seek appointment as a special conservator of the peace from a circuit court judge without possessing a valid registration issued by the Department of Criminal Justice Services, except as provided in this section. Applicants for registration may submit an application on or after January 1, 2004. A temporary registration may be issued in accordance with regulations established by the Criminal Justice Services Board while awaiting the results of a state and national fingerprint search. However, no person shall be issued a temporary registration until he has (i) complied with, or been exempted from the compulsory minimum training standards as set forth in this section, (ii) submitted his fingerprints on a form provided by the Department to be used for the conduct of a national criminal records search and a Virginia criminal history records search, and (iii) met all other requirements of this article and Board regulations. No person with a criminal conviction for a misdemeanor involving (a) moral turpitude, (b) assault and battery, (c) damage to real or personal property, (d) controlled substances or imitation controlled substances as defined in Article 1 (§ 18.2-247 et seq.) of Chapter 7 of Title 18.2, (e) prohibited sexual behavior as described in Article 7 (§ 18.2-61 et seq.) of Chapter 4 of Title 18.2, or (f) firearms, or ~~(g)~~ for any felony, shall be registered as a special conservator of the peace. *Any appointment for a special conservator of the peace shall be eligible for suspension and revocation after a hearing pursuant to subsection A if the special conservator of the peace is convicted of any offense listed in subdivisions (a) through (f) or of any felony.* All appointments for special conservators of the peace shall become void on September 15, 2004, unless they have obtained a valid registration issued by the Department of Criminal Justice Services.

C. Each person registered as or seeking registration as a special conservator of the peace shall be covered by (i) a cash bond, or a surety bond executed by a surety company authorized to do business in the Commonwealth, in a reasonable amount to be fixed by the Board, not to be less than \$10,000, conditioned upon the faithful and honest conduct of his business or employment; or (ii) evidence of a policy of liability insurance or self-insurance in an amount and with coverage as fixed by the Board. Any person who is aggrieved by the misconduct of any person registered as a special conservator of the peace and recovers a judgment against the registrant, which is unsatisfied in whole or in part, may bring an action in his own name against the bond or insurance policy of the registrant.

D. Individuals listed in § 19.2-12, individuals who have complied with or been exempted pursuant to subsection A of § 9.1-141, individuals employed as law-enforcement officers as defined in § 9.1-101 who have met the minimum qualifications set forth in § 15.2-1705 shall be exempt from the requirements in subsections A through C. Further, individuals appointed under subsection A and employed by a private corporation or entity that meets the requirements of subdivision (ii) of the definition of criminal justice agency in § 9.1-101, shall be exempt from the registration requirements of subsection A and from subsections B and C provided they have met the minimum qualifications set forth in § 15.2-1705. The Department of Criminal Justice Services shall, upon request by the circuit court, provide evidence to the circuit court of such employment prior to appointing an individual special conservator of the peace. The employing agency shall notify the circuit court within 30 days after the date such individual has left employment and all powers of the special conservator of the peace shall be void. Failure to provide such notification shall be punishable by a fine of \$250 plus an additional \$50 per day for each day such notice is not provided.

E. When the application is made, the circuit court shall specify in the order of appointment the name of the applicant authorized under subsection A and the geographic jurisdiction of the special conservator of the peace. Court appointments shall be limited to the judicial circuit wherein application has been made. In the case of a corporation or other business, the court appointment may also include, for good cause shown, any real property owned or leased by the corporation or business, including any subsidiaries, in other specifically named cities and counties, but shall provide that the powers of the special conservator of the peace do not extend beyond the boundaries of such real property. Effective July 1, 2004, the clerk of the appointing circuit court shall transmit a copy of the order of appointment that shall specify the following information: the person's complete name, address, date of birth, social security number, gender, race, height, weight, color of hair, color of eyes, firearm authority or limitation as set forth in subsection F, date of the order, and other information as may be required by the Department of State Police. The Department of State Police shall enter the person's name and other information into the Virginia Criminal Information Network established and maintained by the Department pursuant to Chapter 2 (§ 52-12 et seq.) of Title 52. The Department of State Police may charge a fee not to exceed \$10 to cover its costs associated with processing these orders. Each special conservator of the peace so appointed on application shall present his credentials to the chief of police or sheriff or his designee of all jurisdictions where he has conservator powers. If his powers are limited to certain areas owned or leased by a corporation or business, he shall also provide notice of the exact physical addresses of those areas. Each special conservator shall provide a temporary registration letter issued by the Department of Criminal Justice Services prior to seeking an appointment by the circuit court. Once the applicant receives the appointment from the circuit court the applicant shall file the appointment order with the Department of Criminal Justice Services in order to receive his special conservator of the peace photo registration card.

If any such special conservator of the peace is the employee, agent or servant of another, his appointment as special conservator of the peace shall not relieve his employer, principal or master, from civil liability to another arising out of any wrongful action or conduct committed by such special conservator of the peace while within the scope of his employment.

Effective July 1, 2002, no person employed by a local school board as a school security officer, as defined in § 9.1-101, shall be eligible for appointment as a conservator for purposes of maintaining safety in a public school in the Commonwealth. All appointments of special conservators of the peace granted to school security officers as defined in § 9.1-101 prior to July 1, 2002 are void.

F. The court may limit or prohibit the carrying of weapons by any special conservator of the peace initially appointed on or after July 1, 1996, while the appointee is within the scope of his employment as such.

[S 1074]

Approved March 26, 2015

**Be it enacted by the General Assembly of Virginia:**

**1. That § 9.1-918 of the Code of Virginia is amended and reenacted and that the Code of Virginia is amended by adding in Chapter 9 of Title 9.1 a section numbered 9.1-923 as follows:**

**§ 9.1-918. Misuse of registry or supplement information; penalty.**

Use of registry information or information from the Supplement to the Registry established pursuant to § 9.1-923 for purposes not authorized by this chapter is prohibited, the unlawful use of the information contained in or derived from the

Registry or Supplement for purposes of intimidating or harassing another is prohibited, and a willful violation of this chapter is a Class 1 misdemeanor. For purposes of this section, absent other aggravating circumstances, the mere republication or reasonable distribution of material contained on or derived from the publicly available Internet sex offender database shall not be deemed intimidation or harassment.

**§ 9.1-923. Supplement to the Sex Offender and Crimes Against Minors Registry established.**

A. The Superintendent of State Police shall establish a Supplement to the Registry of information composed of persons who were convicted of an offense listed in subsection B on or after July 1, 1980, and before July 1, 1994, but whose names are not on the Registry. Access to the Supplement to the Registry shall be made available to the public on the website of the Department of State Police and shall contain the following information for each person: name, year of birth, the date of the conviction, the jurisdiction in which the conviction occurred, the person's age on the date of the conviction, the offense of which he was convicted, and the Code of Virginia section of the conviction.

B. Information on the following offenses where the conviction occurred on or after July 1, 1980, and before July 1, 1994, shall be listed in the Supplement: clause (i) of § 18.2-48 if the victim was a minor; clauses (ii) and (iii) of § 18.2-48; § 18.2-61; § 18.2-63 if the victim was under 13 years of age; subsection A of § 18.2-63 if the offender was more than five years older than the victim; §§ 18.2-67.1, 18.2-67.2, and 18.2-67.3; § 18.2-67.4 if the victim was a minor; subsections A and B of § 18.2-67.5; subsection C of § 18.2-67.5 if the victim was a minor; § 18.2-361 if the victim was a minor; and §§ 18.2-370, 18.2-370.1, and 18.2-374.1.

C. Persons whose names and conviction information appear on the Supplement are not subject to the registration requirements of this chapter and are not considered persons for whom registration is required unless they are required to register pursuant to other provisions of this chapter.

D. A person whose name and conviction information appear on the Supplement may, regardless of the date of conviction, petition the circuit court in which he was convicted or the circuit court where he then resides for removal of his name and conviction information from the Supplement if the offense he was convicted of would qualify for removal from the Registry under § 9.1-910. A petition may not be filed until all court ordered treatment, counseling, and restitution has been completed. The court shall obtain a copy of the petitioner's complete criminal history and then hold a hearing on the petition at which the applicant and any interested persons may present witnesses and other evidence. The Commonwealth shall be made a party to any action under this subsection. If after such a hearing, the court is satisfied that such person does not pose a risk to public safety, the court shall grant the petition. In the event the petition is not granted, the person shall wait at least 24 months from the date of denial to file a new petition for removal from the Supplement. The State Police shall remove from the Supplement the name and conviction information upon receipt of an order granting a petition pursuant to this subsection.

E. The Superintendent of State Police shall complete the Supplement to the Registry prior to January 1, 2016.

**§ 4.1-119. Operation of government stores.**

A. Subject to the requirements of §§ 4.1-121 and 4.1-122, the Board may establish, maintain and operate government stores for the sale of alcoholic beverages, other than beer and wine not produced by farm wineries, vermouth, mixers, and products used in connection with distilled spirits, including any garnish or garnishment applied to the rim of a glass of distilled spirits, as may be approved by the Board from time to time, in such counties, cities, and towns considered advisable by the Board. The Board may discontinue any such store.

B. With respect to the sale of wine produced by farm wineries, the Board may give preference to farm wineries that produce 2,500 cases or less of wine per year.

C. The Board shall fix the wholesale and retail prices at which the various classes, varieties and brands of alcoholic beverages and other Board-approved products that are sold in government stores. Differences in the cost of operating stores, and market competition and conditions may be reflected in the sale price of alcoholic beverages sold at government stores. The Board may sell alcoholic beverages to federal instrumentalities (i) authorized and operating under the laws of the United States and regulations of the United States Department of Defense and (ii) located within the boundaries of federal enclaves or reservations over which the United States has acquired jurisdiction, at prices which may be greater or less than the wholesale price charged other authorized purchasers.

D. Alcoholic beverages at government stores shall be sold by employees of the Board, who shall carry out the provisions of this title and Board regulations governing the operation of government stores and the sale of alcoholic beverages, except that the Board may appoint the holder of a distiller's license or its officers and employees as agents of the

However, upon petition by the Department of Agriculture and Consumer Services, the Board may permit the use of a lesser percentage of products grown on the licensee's farm if unusually severe weather or disease conditions cause a significant reduction in the availability of agricultural products grown on the farm to manufacture the spirits during a given license year;

2. Such licensee is a duly organized nonprofit association holding title to real property, together with improvements thereon that are significant in American history, under a charter from the Commonwealth to preserve such property, and which association accepts no federal, state, or local funds;

E. No Class 1 neutral grain spirit or alcohol, as defined by federal regulations, that is without distinctive character, aroma, taste or color shall be sold in government stores at a proof greater than 101 except upon permits issued by the Board for industrial, commercial, culinary, or medical use.

H. With respect to purchases by licensees at government stores, the Board shall (i) accept in payment for any purchase or series of purchases cash, electronic fund transfer, credit or debit card, or check payable to the Board, in the exact amount of any such purchase or series of purchases and (ii) provide notice to licensees on Board policies relating to the assignment of government stores from which licensees may purchase products and any procedure for the licensee to elect to make purchases from an alternative government store.

I. With respect to purchases by consumers at government stores, the Board shall accept cash in payment for any purchase or series of purchases. The Board may adopt regulations which provide for accepting a credit card or debit card as payment. Such regulations may provide for the collection, where appropriate, of related fees, penalties and service charges for the use of a credit card or debit card by any consumer.

*Notwithstanding any other provision of this title, a manufacturer of distilled spirits, whether licensed in the Commonwealth or not, may obtain a banquet license for a special event as provided in subdivision A 4 of § 4.1-210 upon application to the Board, provided that such event is (1) at a place approved by the Board and (2) conducted for the purposes of featuring and educating the consuming public about the manufacturer's spirits products. Such manufacturer shall be limited to no more than four banquet licenses for such special events per year. Where the event occurs on no more than three consecutive days, a manufacturer need only obtain one such license for the event. Such banquet license shall authorize the manufacturer to give samples of spirits to any person to whom alcoholic beverages may be lawfully sold in designated areas at the special event, provided that (A) no single sample shall exceed one-half ounce per spirits product offered and (B) no more than four spirits products may be offered to any patron. Nothing in this paragraph shall prohibit such manufacturer from serving such samples as a mixed beverage.*

B. This section shall not apply to:

C. The General Assembly finds that it is necessary and proper to require a separation between manufacturing interests, wholesale interests and retail interests in the production and distribution of alcoholic beverages in order to prevent suppliers from dominating local markets through vertical integration and to prevent excessive sales of alcoholic beverages caused by overly aggressive marketing techniques. The exceptions established by this section to the general prohibition against tied interests shall be limited to their express terms so as not to undermine the general prohibition and shall therefore be construed accordingly.

**§ 4.1-325. Prohibited acts by mixed beverage licensees; penalty.**

Any gift permitted by this subdivision shall be subject to the taxes imposed by this title on sales of alcoholic beverages. The licensee shall keep complete and accurate records of gifts given in accordance with this subdivision; or

23. Establish any normal or customary pricing of its alcoholic beverages that is intended as a shift or device to evade any "happy hour" regulations adopted by the Board; however, a licensee may increase the volume of an alcoholic beverage sold to a customer if there is a commensurate increase in the normal or customary price charged for the same alcoholic beverage.

B. Any person convicted of a violation of this section shall be guilty of a Class 1 misdemeanor.

C. The provisions of subdivisions A 12 and A 13 shall not apply to persons operating theaters, concert halls, art centers, museums, or similar establishments that are devoted primarily to the arts or theatrical performances, when the performances that are presented are expressing matters of serious literary, artistic, scientific, or political value.

#### **§ 4.1-325.2. Prohibited acts by employees of wine or beer licensees; penalty.**

A. In addition to the provisions of § 4.1-324, no retail wine or beer licensee or his agent or employee shall consume any alcoholic beverages while on duty and in a position that is involved in the selling or serving of alcoholic beverages to customers.

The provisions of this subsection shall not prohibit any retail licensee or his designated employee from (i) consuming product samples or sample servings of beer or wine provided by a representative of a licensed beer or wine wholesaler or manufacturer, if such samples are provided in accordance with Board regulations and the retail licensee or his designated employee does not violate the provisions of subdivision 1 f of § 4.1-225 or (ii) tasting an alcoholic beverage that has been or will be delivered to a customer for quality control purposes.

[H 1486]

Approved March 26, 2015

**Be it enacted by the General Assembly of Virginia:**

**1. That § 65.2-307 of the Code of Virginia is amended and reenacted as follows:**

**§ 65.2-307. Employee's rights under Act exclude all others; exception.**

A. The rights and remedies herein granted to an employee when his employer and he have accepted the provisions of this title respectively to pay and accept compensation on account of injury or death by accident shall exclude all other rights and remedies of such employee, his personal representative, parents, dependents, or next of kin, at common law or otherwise, on account of such injury, loss of service, or death.

B. *If a court of the Commonwealth makes a finding in a final unappealed order based on an evidentiary hearing or a factual stipulation of the parties and participants thereto that the cause of action relating to an accident, injury, disease, or death is barred by this section, that finding shall be res judicata between those same parties and estop them and any employer, uninsured employer's fund, guarantee fund, responsible entities, or statutory employer from arguing before the Commission that the accident, injury, disease, or death did not arise out of and in the course of such employee's employment. However, except in the case of a self-insured employer or business entity closely related to a party to the court proceeding, in order for the court finding to be res judicata as to a non-party, notice shall be provided in the same manner as allowed in subsection F of § 38.2-2206 or § 8.01-288 to any employer, uninsured employer's fund, guarantee fund, responsible entities, or statutory employer sought to be bound. In addition, any such entities so notified shall be given the same opportunity to be heard in that court proceeding as a party to the same, but limited to the issue of whether the accident, injury, disease, or death arose out of and in the course of the employee's employment. Failure to provide notice to any party to the court proceeding shall not affect the rights, privileges, or obligations of said parties thereto but shall affect only the applicability of this subsection and only as stated herein. Furthermore, the findings by either the Commission or the court under this subsection shall not prevent the parties and participants to those proceedings from raising or relying upon any and all other available defenses.*

C. Notwithstanding this exclusion, nothing in the Act shall bar an employer from voluntarily agreeing to pay an employee compensation above and beyond those benefits provided for in the Act. Nothing herein, however, shall be deemed to affect or alter any existing right or remedy of the employer or employee under the Act.

*An Act to amend and reenact §§ 2.2-4007.04 and 30-73.3 of the Code of Virginia, relating to the Administrative Process Act; certain review by Joint Commission on Administrative Rules.*

[H 1751]

Approved March 26, 2015

**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 2.2-4007.04 and 30-73.3 of the Code of Virginia are amended and reenacted as follows:**

**§ 2.2-4007.04. Economic impact analysis.**

A. Before delivering any proposed regulation under consideration to the Registrar as required in § 2.2-4007.05, the agency shall submit on the Virginia Regulatory Town Hall a copy of that regulation to the Department of Planning and Budget. In addition to determining the public benefit, the Department of Planning and Budget in coordination with the agency shall, within 45 days, prepare an economic impact analysis of the proposed regulation, as follows:

1. The economic impact analysis shall include but need not be limited to the projected number of businesses or other entities to whom the regulation would apply; the identity of any localities and types of businesses or other entities particularly affected by the regulation; the projected number of persons and employment positions to be affected; the impact of the regulation on the use and value of private property, including additional costs related to the development of real estate for commercial or residential purposes; and the projected costs to affected businesses, localities, or entities of implementing or complying with the regulations, including the estimated fiscal impact on such localities and sources of potential funds to implement and comply with such regulation. A copy of the economic impact analysis shall be provided to the Joint Commission on Administrative Rules;

2. If the regulation may have an adverse effect on small businesses, the economic impact analysis shall also include (i) an identification and estimate of the number of small businesses subject to the regulation; (ii) the projected reporting, recordkeeping, and other administrative costs required for small businesses to comply with the regulation, including the type of professional skills necessary for preparing required reports and other documents; (iii) a statement of the probable

effect of the regulation on affected small businesses; and (iv) a description of any less intrusive or less costly alternative methods of achieving the purpose of the regulation. As used in this subdivision, "small business" has the same meaning as provided in subsection A of § 2.2-4007.1; and

3. In the event the Department cannot complete an economic impact statement within the 45-day period, it shall advise the agency and the Joint Commission on Administrative Rules as to the reasons for the delay. In no event shall the delay exceed 30 days beyond the original 45-day period.

B. Agencies shall provide the Department with such estimated fiscal impacts on localities and sources of potential funds. The Department may request the assistance of any other agency in preparing the analysis. The Department shall deliver a copy of the analysis to the agency drafting the regulation, which shall comment thereon as provided in § 2.2-4007.05, a copy to the Registrar for publication with the proposed regulation, and an electronic copy to each member of the General Assembly. No regulation shall be promulgated for consideration pursuant to § 2.2-4007.05 until the impact analysis has been received by the Registrar. For purposes of this section, the term "locality, business, or entity particularly affected" means any locality, business, or entity that bears any identified disproportionate material impact that would not be experienced by other localities, businesses, or entities. The analysis shall represent the Department's best estimate for the purposes of public review and comment on the proposed regulation. The accuracy of the estimate shall in no way affect the validity of the regulation, nor shall any failure to comply with or otherwise follow the procedures set forth in this subsection create any cause of action or provide standing for any person under Article 5 (§ 2.2-4025 et seq.) or otherwise to challenge the actions of the Department hereunder or the action of the agency in adopting the proposed regulation.

*C. In the event the economic impact analysis completed by the Department reveals that the proposed regulation would have an adverse economic impact on businesses or would impose a significant adverse economic impact on a locality, business, or entity particularly affected, the Department shall advise the Joint Commission on Administrative Rules, the House Committee on Appropriations, and the Senate Committee on Finance within the 45-day period. The Joint Commission on Administrative Rules shall review such rule or regulation and issue a statement containing the Commission's findings in accordance with § 30-73.3.*

#### **§ 30-73.3. Powers and duties of Commission.**

A. The Commission shall have the powers and duties to:

1. Review proposed rules and regulations of any agency during the promulgation or final adoption process and determine whether or not the rule or regulation (i) is authorized by statute, (ii) complies with legislative intent, and (iii) contains no mandate that improperly burdens businesses or would impose a significant adverse economic impact on a locality, business, or entity particularly affected as defined in § 2.2-4007.04.

2. Review the impact of the rule or regulation on (i) the economy, (ii) protection of the Commonwealth's natural resources pursuant to Article XI, Section 1 of the Constitution of Virginia, (iii) government operations of the State and localities, and (iv) affected persons and businesses.

3. File with the Registrar and the agency promulgating the regulation an objection to a proposed or final adopted regulation.

4. Suspend the effective date of any portion or all of a final regulation with the concurrence of the Governor as provided in subsection B of § 2.2-4014.

5. Make recommendations to the Governor and General Assembly for action based on its review of any proposed rule or regulation.

6. Review any existing agency rule, regulation, practice or the failure of an agency to adopt a rule and recommend to the Governor and the General Assembly that a rule be modified, repealed or adopted.

*B. If the Commission finds that a rule or regulation improperly burdens businesses or would impose a significant adverse economic impact on a locality, business, or entity particularly affected, it shall report quarterly to the Governor and the General Assembly on any such regulation. The report shall contain a statement of any position taken by the Commission on any such regulation.*

C. If the Commission decides to seek suspension of a final rule or regulation, it shall deliver a statement to the Governor, signed by a majority of the members of the Commission, asking the Governor to concur in delaying the effective date of a portion or all of the final regulation until the end of the next regular legislative session as provided in §§ 2.2-4014 and 2.2-4015.

~~C. D.~~ Based upon its review of (i) any final rule or regulation during the promulgation or final adoption process or (ii) any existing agency rule, regulation, practice or failure to adopt a rule or regulation, the Commission may prepare and arrange for the introduction of a bill to clarify the intent of the General Assembly when it enacted a law or to correct any misapplication of a law by an agency.

## **CHAPTER 609**

*An Act to amend and reenact §§ 58.1-638 and 62.1-132.1 of the Code of Virginia, relating to the Virginia Port Authority; capital projects.*

Be it enacted by the General Assembly of Virginia:

1. That §§ 58.1-638 and 62.1-132.1 of the Code of Virginia are amended and reenacted as follows:

§ 58.1-638. **Disposition of state sales and use tax revenue; localities' share; Game Protection Fund.**

A. The Comptroller shall designate a specific revenue code number for all the state sales and use tax revenue collected under the preceding sections of this chapter.

1. The sales and use tax revenue generated by the one-half percent sales and use tax increase enacted by the 1986 Special Session of the General Assembly shall be paid, in the manner hereinafter provided in this section, to the Transportation Trust Fund as defined in § 33.2-1524. Of the funds paid to the Transportation Trust Fund, an aggregate of 4.2 percent shall be set aside as the Commonwealth Port Fund as provided in this section; an aggregate of 2.4 percent shall be set aside as the Commonwealth Airport Fund as provided in this section; and an aggregate of 14.7 percent shall be set aside as the Commonwealth Mass Transit Fund as provided in this section. The Fund's share of such net revenue shall be computed as an estimate of the net revenue to be received into the state treasury each month, and such estimated payment shall be adjusted for the actual net revenue received in the preceding month. All payments shall be made to the Fund on the last day of each month.

2. There is hereby created in the Department of the Treasury a special nonreverting fund which shall be a part of the Transportation Trust Fund and which shall be known as the Commonwealth Port Fund.

a. The Commonwealth Port Fund shall be established on the books of the Comptroller and the funds remaining in such Fund at the end of a biennium shall not revert to the general fund but shall remain in the Fund. Interest earned on such funds shall remain in the Fund and be credited to it. Funds may be paid to any authority, locality or commission for the purposes hereinafter specified.

b. The amounts allocated pursuant to this section shall be allocated by the Commonwealth Transportation Board to the Board of Commissioners of the Virginia Port Authority to be used to support port capital needs and the preservation of existing capital needs of all ocean, river, or tributary ports within the Commonwealth. *Expenditures for such capital needs are restricted to those capital projects specified in subsection B of § 62.1-132.1.*

c. Commonwealth Port Fund revenue shall be allocated by the Board of Commissioners to the Virginia Port Authority in order to foster and stimulate the flow of maritime commerce through the ports of Virginia, including but not limited to the ports of Richmond, Hopewell, and Alexandria.

3. There is hereby created in the Department of the Treasury a special nonreverting fund which shall be part of the Transportation Trust Fund and which shall be known as the Commonwealth Airport Fund. The Commonwealth Airport Fund shall be established on the books of the Comptroller and any funds remaining in such Fund at the end of a biennium shall not revert to the general fund but shall remain in the Fund. Interest earned on the funds shall be credited to the Fund. The funds so allocated shall be allocated by the Commonwealth Transportation Board to the Virginia Aviation Board. The funds shall be allocated by the Virginia Aviation Board to any Virginia airport which is owned by the Commonwealth, a governmental subdivision thereof, or a private entity to which the public has access for the purposes enumerated in § 5.1-2.16, or is owned or leased by the Metropolitan Washington Airports Authority (MWAA), as follows:

Any new funds in excess of \$12.1 million which are available for allocation by the Virginia Aviation Board from the Commonwealth Transportation Fund, shall be allocated as follows: 60 percent to MWAA, up to a maximum annual amount of \$2 million, and 40 percent to air carrier airports as provided in subdivision A 3 a. Except for adjustments due to changes in enplaned passengers, no air carrier airport sponsor, excluding MWAA, shall receive less funds identified under subdivision A 3 a than it received in fiscal year 1994-1995.

Of the remaining amount:

a. Forty percent of the funds shall be allocated to air carrier airports, except airports owned or leased by MWAA, based upon the percentage of enplanements for each airport to total enplanements at all air carrier airports, except airports owned or leased by MWAA. No air carrier airport sponsor, however, shall receive less than \$50,000 nor more than \$2 million per year from this provision.

b. Forty percent of the funds shall be allocated by the Aviation Board for air carrier and reliever airports on a discretionary basis, except airports owned or leased by MWAA.

c. Twenty percent of the funds shall be allocated by the Aviation Board for general aviation airports on a discretionary basis.

3a. There is hereby created in the Department of the Treasury a special nonreverting fund that shall be a part of the Transportation Trust Fund and that shall be known as the Commonwealth Space Flight Fund. The Commonwealth Space Flight Fund shall be established on the books of the Comptroller and the funds remaining in such Fund at the end of a biennium shall not revert to the general fund but shall remain in the Fund. Interest earned on such funds shall remain in the Fund and be credited to it.

a. The amounts allocated to the Commonwealth Space Flight Fund pursuant to § 33.2-1526 shall be allocated by the Commonwealth Transportation Board to the Board of Directors of the Virginia Commercial Space Flight Authority to be used to support the capital needs, maintenance, and operating costs of any and all facilities owned and operated by the Virginia Commercial Space Flight Authority.

b. Commonwealth Space Flight Fund revenue shall be allocated by the Board of Directors to the Virginia Commercial Space Flight Authority in order to foster and stimulate the growth of the commercial space flight industry in Virginia.

4. There is hereby created in the Department of the Treasury a special nonreverting fund which shall be a part of the Transportation Trust Fund and which shall be known as the Commonwealth Mass Transit Fund.

a. The Commonwealth Mass Transit Fund shall be established on the books of the Comptroller and any funds remaining in such Fund at the end of the biennium shall not revert to the general fund but shall remain in the Fund. Interest earned on such funds shall be credited to the Fund. Funds may be paid to any local governing body, transportation district commission, or public service corporation for the purposes hereinafter specified.

b. The amounts allocated pursuant to this section shall be used to support the operating, capital, and administrative costs of public transportation at a state share determined by the Commonwealth Transportation Board, and these amounts may be used to support the capital project costs of public transportation and ridesharing equipment, facilities, and associated costs at a state share determined by the Commonwealth Transportation Board. Capital costs may include debt service payments on local or agency transit bonds. In making these determinations, the Commonwealth Transportation Board shall confer with the Director of the Department of Rail and Public Transportation. In development of the Director's recommendation and subsequent allocation of funds by the Commonwealth Transportation Board, the Director of the Department of Rail and Public Transportation and the Commonwealth Transportation Board shall adhere to the following:

(1) For the distribution of revenues from the Commonwealth Mass Transit Fund, of those revenues generated in 2014 and thereafter, the first \$160 million in revenues or the maximum available revenues if less than \$160 million shall be distributed by the Commonwealth Transportation Board as follows:

(a) Funds for special programs, which shall include ridesharing, transportation demand management programs, experimental transit, public transportation promotion, operation studies, and technical assistance, shall not exceed 3 percent of the funds pursuant to this section and may be allocated to any local governing body, planning district commission, transportation district commission, or public transit corporation, or may be used directly by the Department of Rail and Public Transportation for the following purposes and aid of public transportation services:

(b) At least 72 percent of the funds shall be distributed to each transit property in the same proportion as its operating expenses bear to the total statewide operating expenses and shall be spent for the purposes specified in subdivision 4 b.

(c) Twenty-five percent of the funds shall be allocated and distributed utilizing a tiered approach evaluated by the Transit Service Delivery Advisory Committee along with the Director of the Department of Rail and Public Transportation and established by the Commonwealth Transportation Board for capital purposes based on asset need and anticipated state participation level and revenues. The tier distribution measures may be evaluated by the Transit Service Delivery Advisory Committee along with the Director of the Department of Rail and Public Transportation every three years and, if redefined by the Board, shall be published at least one year in advance of being applied. Funds allocated for debt service payments will be included in the tier that applies to the capital asset that is leveraged.

(d) Transfer of funds from funding categories in subdivisions 4 b (1)(a) and 4 b (1)(c) to 4 b (1)(b) shall be considered by the Commonwealth Transportation Board in times of statewide economic distress or statewide special need.

(2) The Commonwealth Transportation Board shall allocate the remaining revenues after the application of the provisions set forth in subdivision 4 b (1) generated for the Commonwealth Mass Transit Fund for 2014 and succeeding years as follows:

(a) Funds pursuant to this section shall be distributed among operating, capital, and special projects in order to respond to the needs of the transit community.

(b) Of the funds pursuant to this section, at least 72 percent shall be allocated to support operating costs of transit providers and distributed by the Commonwealth Transportation Board based on service delivery factors, based on effectiveness and efficiency, as established by the Commonwealth Transportation Board. These measures and their relative weight shall be evaluated every three years and, if redefined by the Commonwealth Transportation Board, shall be published and made available for public comment at least one year in advance of being applied. In developing the service delivery factors, the Commonwealth Transportation Board shall create for the Department of Rail and Public Transportation a Transit Service Delivery Advisory Committee, consisting of two members appointed by the Virginia Transit Association, one member appointed by the Community Transportation Association of Virginia, one member appointed by the Virginia Municipal League, one member appointed by the Virginia Association of Counties, and three members appointed by the Director of the Department of Rail and Public Transportation, to advise the Department of Rail and Public Transportation in the development of a distribution process for the funds allocated pursuant to this subdivision 4 b (2)(b) and how transit systems can incorporate these metrics in their transit development plans. The Transit Service Delivery Advisory Committee shall elect a Chair. The Department of Rail and Public Transportation shall provide administrative support to the committee. Effective July 1, 2013, the Transit Service Delivery Advisory Committee shall meet at least annually and consult with interested stakeholders and hold at least one public hearing and report its findings to the Director of the Department of Rail and Public Transportation. Prior to the Commonwealth Transportation Board approving the service delivery factors, the Director of the Department of Rail and Public Transportation along with the Chair of the Transit Service Delivery Advisory Committee shall brief the Senate Committee on Finance, the House Appropriations Committee, and the Senate and House Committees on Transportation on the findings of the Transit Service Delivery Advisory Committee and the Department's

recommendation. Before redefining any component of the service delivery factors, the Commonwealth Transportation Board shall consult with the Director of the Department of Rail and Public Transportation, Transit Service Delivery Advisory Committee, and interested stakeholders and provide for a 45-day public comment period. Prior to approval of any amendment to the service delivery measures, the Board shall notify the aforementioned committees of the pending amendment to the service delivery factors and its content.

(c) Funds for special programs, which shall include ridesharing, transportation demand management programs, experimental transit, public transportation promotion, operation studies, and technical assistance, shall not exceed 3 percent of the funds pursuant to this section and may be allocated to any local governing body, planning district commission, transportation district commission, or public transit corporation, or may be used directly by the Department of Rail and Public Transportation for the following purposes and aid of public transportation services:

(i) To finance a program administered by the Department of Rail and Public Transportation designed to promote the use of public transportation and ridesharing throughout Virginia.

(ii) To finance up to 80 percent of the cost of the development and implementation of projects where the purpose of such project is to enhance the provision and use of public transportation services.

(d) Of the funds pursuant to this section, 25 percent shall be allocated and distributed utilizing a tiered approach evaluated by the Transit Service Delivery Advisory Committee along with the Director of Rail and Public Transportation and established by the Commonwealth Transportation Board for capital purposes based on asset need and anticipated state participation level and revenues. The tier distribution measures may be evaluated by the Transit Service Delivery Advisory Committee along with the Director of Rail and Public Transportation every three years and, if redefined by the Board, shall be published at least one year in advance of being applied. Funds allocated for debt service payments shall be included in the tier that applies to the capital asset that is leveraged.

(e) Transfer of funds from funding categories in subdivisions 4 b (2)(c) and 4 b (2)(d) to 4 b (2)(b) shall be considered by the Commonwealth Transportation Board in times of statewide economic distress or statewide special need.

(f) The Department of Rail and Public Transportation may reserve a balance of up to five percent of the Commonwealth Mass Transit Fund revenues under this subsection in order to assure better stability in providing operating and capital funding to transit entities from year to year.

(3) The Commonwealth Mass Transit Fund shall not be allocated without requiring a local match from the recipient.

c. There is hereby created in the Department of the Treasury a special nonreverting fund known as the Commonwealth Transit Capital Fund. The Commonwealth Transit Capital Fund shall be part of the Commonwealth Mass Transit Fund. The Commonwealth Transit Capital Fund subaccount shall be established on the books of the Comptroller and consist of such moneys as are appropriated to it by the General Assembly and of all donations, gifts, bequests, grants, endowments, and other moneys given, bequeathed, granted, or otherwise made available to the Commonwealth Transit Capital Fund. Any funds remaining in the Commonwealth Transit Capital Fund at the end of the biennium shall not revert to the general fund, but shall remain in the Commonwealth Transit Capital Fund. Interest earned on funds within the Commonwealth Transit Capital Fund shall remain in and be credited to the Commonwealth Transit Capital Fund. Proceeds of the Commonwealth Transit Capital Fund may be paid to any political subdivision, another public entity created by an act of the General Assembly, or a private entity as defined in § 33.2-1800 and for purposes as enumerated in subdivision 7 of § 33.2-1701 or expended by the Department of Rail and Public Transportation for the purposes specified in this subdivision. Revenues of the Commonwealth Transit Capital Fund shall be used to support capital expenditures involving the establishment, improvement, or expansion of public transportation services through specific projects approved by the Commonwealth Transportation Board. The Commonwealth Transit Capital Fund shall not be allocated without requiring a local match from the recipient.

d. The Commonwealth Transportation Board may allocate up to three and one-half percent of the funds set aside for the Commonwealth Mass Transit Fund to support costs of project development, project administration, and project compliance incurred by the Department of Rail and Public Transportation in implementing rail, public transportation, and congestion management grants and programs.

5. Funds for Metro shall be paid by the Northern Virginia Transportation Commission (NVTC) to the Washington Metropolitan Area Transit Authority (WMATA) and be a credit to the Counties of Arlington and Fairfax and the Cities of Alexandria, Falls Church, and Fairfax in the following manner:

a. Local obligations for debt service for WMATA rail transit bonds apportioned to each locality using WMATA's capital formula shall be paid first by NVTC. NVTC shall use 95 percent state aid for these payments.

b. The remaining funds shall be apportioned to reflect WMATA's allocation formulas by using the related WMATA-allocated subsidies and relative shares of local transit subsidies. Capital costs shall include 20 percent of annual local bus capital expenses. Hold harmless protections and obligations for NVTC's jurisdictions agreed to by NVTC on November 5, 1998, shall remain in effect.

Appropriations from the Commonwealth Mass Transit Fund are intended to provide a stable and reliable source of revenue as defined by Public Law 96-184.

6. Notwithstanding any other provision of law, funds allocated to Metro may be disbursed by the Department of Rail and Public Transportation directly to Metro or to any other transportation entity that has an agreement to provide funding to Metro.

B. The sales and use tax revenue generated by a one percent sales and use tax shall be distributed among the counties and cities of the Commonwealth in the manner provided in subsections C and D.

C. The localities' share of the net revenue distributable under this section among the counties and cities shall be apportioned by the Comptroller and distributed among them by warrants of the Comptroller drawn on the Treasurer of Virginia as soon as practicable after the close of each month during which the net revenue was received into the state treasury. The distribution of the localities' share of such net revenue shall be computed with respect to the net revenue received into the state treasury during each month, and such distribution shall be made as soon as practicable after the close of each such month.

D. The net revenue so distributable among the counties and cities shall be apportioned and distributed upon the basis of the latest yearly estimate of the population of cities and counties ages five to 19, provided by the Weldon Cooper Center for Public Service of the University of Virginia. Such population estimate produced by the Weldon Cooper Center for Public Service of the University of Virginia shall account for persons who are domiciled in orphanages or charitable institutions or who are dependents living on any federal military or naval reservation or other federal property within the school division in which the institutions or federal military or naval reservation or other federal property is located. Such population estimate produced by the Weldon Cooper Center for Public Service of the University of Virginia shall account for members of the military services who are under 20 years of age within the school division in which the parents or guardians of such persons legally reside. Such population estimate produced by the Weldon Cooper Center for Public Service of the University of Virginia shall account for individuals receiving services in state hospitals, state training centers, or mental health facilities, persons who are confined in state or federal correctional institutions, or persons who attend the Virginia School for the Deaf and the Blind within the school division in which the parents or guardians of such persons legally reside. Such population estimate produced by the Weldon Cooper Center for Public Service of the University of Virginia shall account for persons who attend institutions of higher education within the school division in which the student's parents or guardians legally reside. To such estimate, the Department of Education shall add the population of students with disabilities, ages two through four and 20 through 21, as provided to the Department of Education by school divisions. The revenue so apportionable and distributable is hereby appropriated to the several counties and cities for maintenance, operation, capital outlays, debt and interest payments, or other expenses incurred in the operation of the public schools, which shall be considered as funds raised from local resources. In any county, however, wherein is situated any incorporated town constituting a school division, the county treasurer shall pay into the town treasury for maintenance, operation, capital outlays, debt and interest payments, or other expenses incurred in the operation of the public schools, the proper proportionate amount received by him in the ratio that the school population of such town bears to the school population of the entire county. If the school population of any city or of any town constituting a school division is increased by the annexation of territory since the last estimate of school population provided by the Weldon Cooper Center for Public Service, such increase shall, for the purposes of this section, be added to the school population of such city or town as shown by the last such estimate and a proper reduction made in the school population of the county or counties from which the annexed territory was acquired.

E. Beginning July 1, 2000, of the remaining sales and use tax revenue, the revenue generated by a two percent sales and use tax, up to an annual amount of \$13 million, collected from the sales of hunting equipment, auxiliary hunting equipment, fishing equipment, auxiliary fishing equipment, wildlife-watching equipment, and auxiliary wildlife-watching equipment in Virginia, as estimated by the most recent U.S. Department of the Interior, Fish and Wildlife Service and U.S. Department of Commerce, Bureau of the Census National Survey of Fishing, Hunting, and Wildlife-Associated Recreation, shall be paid into the Game Protection Fund established under § 29.1-101 and shall be used, in part, to defray the cost of law enforcement. Not later than 30 days after the close of each quarter, the Comptroller shall transfer to the Game Protection Fund the appropriate amount of collections to be dedicated to such Fund. At any time that the balance in the Capital Improvement Fund, established under § 29.1-101.01, is equal to or in excess of \$35 million, any portion of sales and use tax revenues that would have been transferred to the Game Protection Fund, established under § 29.1-101, in excess of the net operating expenses of the Board, after deduction of other amounts which accrue to the Board and are set aside for the Game Protection Fund, shall remain in the general fund until such time as the balance in the Capital Improvement Fund is less than \$35 million.

F. 1. Of the net revenue generated from the one-half percent increase in the rate of the state sales and use tax effective August 1, 2004, pursuant to enactments of the 2004 Special Session I of the General Assembly, the Comptroller shall transfer from the general fund of the state treasury to the Public Education Standards of Quality/Local Real Estate Property Tax Relief Fund established under § 58.1-638.1 an amount equivalent to one-half of the net revenue generated from such one-half percent increase as provided in this subdivision. The transfers to the Public Education Standards of Quality/Local Real Estate Property Tax Relief Fund under this subdivision shall be for one-half of the net revenue generated (and collected in the succeeding month) from such one-half percent increase for the month of August 2004 and for each month thereafter.

2. Beginning July 1, 2013, of the remaining sales and use tax revenue, an amount equal to the revenue generated by a 0.125 percent sales and use tax shall be distributed to the Public Education Standards of Quality/Local Real Estate Property Tax Relief Fund established under § 58.1-638.1, and be used for the state's share of Standards of Quality basic aid payments.

3. For the purposes of the Comptroller making the required transfers under subdivision 1 and 2, the Tax Commissioner shall make a written certification to the Comptroller no later than the twenty-fifth of each month certifying the sales and use tax revenues generated in the preceding month. Within three calendar days of receiving such certification, the Comptroller shall make the required transfers to the Public Education Standards of Quality/Local Real Estate Property Tax Relief Fund.

G. (Contingent expiration date - see note) Beginning July 1, 2013, of the remaining sales and use tax revenue, an amount equal to the following percentages of the revenue generated by a one-half percent sales and use tax, such as that paid to the Transportation Trust Fund as provided in subdivision A 1, shall be paid to the Highway Maintenance and Operating Fund established pursuant to § 33.2-1530:

1. For fiscal year 2014, an amount equal to 10 percent;
2. For fiscal year 2015, an amount equal to 20 percent;
3. For fiscal year 2016, an amount equal to 30 percent; and
4. For fiscal year 2017 and thereafter, an amount equal to 35 percent.

The Highway Maintenance and Operating Fund's share of the net revenue distributable under this subsection shall be computed as an estimate of the net revenue to be received into the state treasury each month, and such estimated payment shall be adjusted for the actual net revenue received in the preceding month. All payments shall be made to the Fund on the last day of each month.

H. (Contingent expiration date - see note) 1. The additional revenue generated by increases in the state sales and use tax from Planning District 8 pursuant to §§ 58.1-603.1, 58.1-604.01, 58.1-604.1, and 58.1-614 shall be deposited by the Comptroller in the fund established under § 33.2-2509.

3. The additional revenue generated by increases in the state sales and use tax in any other Planning District pursuant to §§ 58.1-603.1, 58.1-604.01, 58.1-604.1, and 58.1-614 shall be deposited into special funds that shall be established by appropriate legislation.

4. The net revenues distributable under this subsection shall be computed as an estimate of the net revenue to be received by the state treasury each month, and such estimated payment shall be adjusted for the actual net revenue received in the preceding month. All payments shall be made to the appropriate funds on the last day of each month.

I. If errors are made in any distribution, or adjustments are otherwise necessary, the errors shall be corrected and adjustments made in the distribution for the next quarter or for subsequent quarters.

J. The term "net revenue," as used in this section, means the gross revenue received into the general fund or the Transportation Trust Fund of the state treasury under the preceding sections of this chapter, less refunds to taxpayers.

**§ 13.1-749.1. Election to purchase in lieu of dissolution.**

A. Unless otherwise provided in the articles of incorporation, in a proceeding under subdivision A 1 of § 13.1-747 to dissolve a corporation, the corporation may elect or, if it fails to elect, one or more shareholders may elect to purchase all shares owned by the petitioning shareholder at the fair value of the shares. An election pursuant to this section shall be irrevocable unless the court determines that it is equitable to set aside or modify the election.

B. An election to purchase pursuant to this section may be filed with the court at any time within 90 days after the filing of the petition under subdivision A 1 of § 13.1-747 or at such later time as the court in its discretion may allow. If the election to purchase is filed by one or more shareholders, the corporation shall, within 10 days thereafter, give written notice to all shareholders, other than the petitioner. The notice shall state the name and number of shares owned by the petitioner and the name and number of shares owned by each electing shareholder and shall advise the recipients of their right to join in the election to purchase shares in accordance with this section. Shareholders who wish to participate shall file notice of their intention to join in the purchase no later than 30 days after the effective date of the notice to them. All shareholders who have filed an election or notice of their intention to participate in the election to purchase thereby become parties to the proceeding and shall participate in the purchase in proportion to their ownership of shares as of the date the first election was filed, unless they otherwise agree or the court otherwise directs. After an election has been filed by the corporation or one or more shareholders, the proceeding under subdivision A 1 of § 13.1-747 may not be discontinued or settled, nor may the petitioning shareholder sell or otherwise dispose of the petitioner's shares, unless the court determines that it would be equitable to the corporation and the shareholders, other than the petitioner, to permit such discontinuance, settlement, sale, or other disposition.

C. If, within 60 days of the filing of the first election, the parties reach agreement as to the fair value and terms of purchase of the petitioner's shares, the court shall enter an order directing the purchase of petitioner's shares upon the terms and conditions agreed to by the parties.

D. If the parties are unable to reach an agreement as provided for in subsection C, the court, upon application of any party, shall stay the proceedings under subdivision A 1 of § 13.1-747 and determine the fair value of the petitioner's shares as of the day before the date on which the petition under subdivision A 1 of § 13.1-747 was filed or as of such other date as the court deems appropriate under the circumstances. *The determination of fair value shall include consideration of all relevant facts and circumstances, including, unless the court determines it would be unjust or inequitable to do so, (i) the petitioner's minority status, (ii) the marketability of the petitioner's shares, (iii) the relevant terms of any shareholders' agreement, and (iv) if the court finds that the value of the corporation has been diminished by the wrongful conduct of controlling shareholders, the petitioner's proportionate claim for any compensable corporate injury.* In determining the fair value, the court may, in its discretion, select an appraiser to appraise the fair value of the petitioner's shares and shall assess the cost of any such appraisal to the parties, to the corporation, or both, as the equities may appear to the court.

E. Upon determining the fair value of the shares, the court shall enter an order directing the purchase upon such terms and conditions as the court deems appropriate, which may include payment of the purchase price in installments, where necessary in the interests of equity, provision for security to assure payment of the purchase price and any additional costs, fees and expenses as may have been awarded, and, if the shares are to be purchased by shareholders, the allocation of shares among them. In allocating petitioner's shares among holders of different classes of shares, the court should attempt to preserve the existing distribution of voting rights among holders of different classes insofar as practicable and may direct that holders of a specific class or classes shall not participate in the purchase. Interest may be allowed at the rate and from the date determined by the court to be equitable, but if the court finds that the refusal of the petitioning shareholder to accept an offer of payment was arbitrary or otherwise not in good faith, no interest shall be allowed. If the court finds that the petitioning shareholder had probable grounds for relief under subdivision A 1 b or d of § 13.1-747, it may award to the petitioning shareholder reasonable fees and expenses of counsel and of any experts employed by the shareholder.

F. Upon entry of an order under subsection C or E, the court shall dismiss the petition to dissolve the corporation under subdivision A 1 of § 13.1-747 and the petitioning shareholder shall no longer have any rights or status as a shareholder of the corporation, except the right to receive the amounts awarded to him by the order of the court, which shall be enforceable in the same manner as any other judgment.

G. The purchase ordered pursuant to subsection E shall be made within 10 days after the date the order becomes final.

H. Any payment by the corporation pursuant to an order under subsection C or E, other than an award of fees and expenses pursuant to subsection E, is subject to the provisions of § 13.1-653.

#### **§ 13.1-826. General powers.**

**§ 13.1-841. Corporate action without meeting.**

A. 1. Corporate action required or permitted by this ~~Act~~ chapter to be taken at a meeting of the members may be taken without a meeting and without prior notice if the corporate action is taken by all members entitled to vote on the corporate action, in which case no corporate action by the board of directors shall be required.

2. Notwithstanding subdivision 1 of this subsection, if so provided in the articles of incorporation of a corporation, corporate action required or permitted by this ~~Act~~ chapter to be taken at a meeting of members may be taken without a meeting and without prior notice, if the corporate action is taken by members who would be entitled to vote at a meeting of members having voting power to cast not fewer than the minimum number (or numbers, in the case of voting by voting groups) of votes that would be necessary to authorize or take the corporate action at a meeting at which all members entitled to vote thereon were present and voted.

3. The corporate action shall be evidenced by one or more written consents bearing the date of execution and describing the corporate action taken, signed by the members entitled to take such corporate action without a meeting and delivered to the secretary of the corporation for inclusion in the minutes or filing with the corporate records. Any corporate action taken by written consent shall be effective according to its terms when the requisite consents are in possession of the corporation. Corporate action taken under this section is effective as of the date specified therein, provided the consent states the date of execution by each member.

B. If not otherwise determined under § 13.1-840 or 13.1-844, the record date for determining members entitled to take corporate action without a meeting is the date the first member signs the consent under subsection A. No written consent shall be effective to take the corporate action referred to therein unless, within 120 days after the earliest date of execution appearing on a consent delivered to the corporation in the manner required by this section, written consents sufficient in number to take corporate action are received by the corporation. A written consent may be revoked by a writing to that effect received by the corporation prior to receipt by the corporation of unrevoked written consents sufficient in number to take corporate action.

C. For purposes of this section, written consent may be accomplished by one or more electronic transmissions, as defined in § 13.1-803. A consent signed under this section has the effect of a vote of voting members at a meeting and may be described as such in any document filed with the Commission under this ~~Act~~ chapter.

D. If corporate action is to be taken under this section by fewer than all of the members entitled to vote on the action, the corporation shall give written notice of the proposed corporate action, not less than five days before the action is taken, to all persons who are members on the record date and who are entitled to vote on the matter. The notice shall contain or be accompanied by the same material that under this ~~Act~~ chapter would have been required to be sent to members in a notice of meeting at which the corporate action would have been submitted to the members for a vote.

E. If this ~~Act~~ chapter requires that notice of proposed corporate action be given to nonvoting members and the corporate action is to be taken by consent of the voting members, the corporation shall give its nonvoting members written

notice of the proposed action not less than five days before it is taken. The notice shall contain or be accompanied by the same material that under this ~~Act~~ chapter would have been required to be sent to nonvoting members in a notice of meeting at which the corporate action would have been submitted to the members for a vote.

*F. Any person, whether or not then a member, may provide that a consent in writing as a member shall be effective at a future time, including the time when an event occurs, but such future time shall not be more than 60 days after such provision is made. Any such consent shall be deemed to have been made for purposes of this section at the future time so specified for the consent to be effective, provided that (i) the person is a member at such future time and (ii) the person did not revoke the consent prior to such future time.*

**§ 13.1-842. Notice of meeting.**

A. 1. A corporation shall notify members of the date, time and place of each annual and special members' meeting. Such notice shall be given no less than 10 nor more than 60 days before the meeting date except that notice of a members' meeting to act on an amendment of the articles of incorporation, a plan of merger, domestication, a proposed sale of assets pursuant to § 13.1-900, or the dissolution of the corporation shall be given not less than 25 nor more than 60 days before the meeting date. Unless this ~~Act~~ chapter or the articles of incorporation require otherwise, the corporation is required to give notice only to members entitled to vote at the meeting.

2. In lieu of delivering notice as specified in subdivision A 1, the corporation may publish such notice at least once a week for two successive calendar weeks in a newspaper published in the city or county in which the registered office is located, or having a general circulation therein, the first publication to be not more than 60 days, and the second not less than seven days before the date of the meeting.

B. Unless this ~~Act~~ chapter or the articles of incorporation require otherwise, notice of an annual meeting need not state the purpose or purposes for which the meeting is called.

C. Notice of a special meeting shall state the purpose or purposes for which the meeting is called.

D. If not otherwise fixed under § 13.1-840 or 13.1-844, the record date for determining members entitled to notice of and to vote at an annual or special meeting is the day before the effective date of the notice to members.

E. Unless the bylaws require otherwise, if an annual or special meeting is adjourned to a different date, time, or place, notice need not be given if the new date, time, or place is announced at the meeting before adjournment. If a new record date for the adjourned meeting is or shall be fixed under § 13.1-844, however, *not less than 10 days before the meeting date* notice of the adjourned meeting shall be given under this section to persons who are members as of the new record date.

**§ 13.1-847.1. Voting procedures and inspectors of elections.**

A. A corporation may appoint one or more inspectors to act at a meeting of members ~~and make a written report of the inspector's determinations. The corporation may designate one or more persons as alternate inspectors to replace any inspector who fails to act. If no inspector or alternate is able to act at a meeting of members, the person presiding at the meeting shall appoint one or more inspectors to act at the meeting in connection with determining voting results.~~ Each inspector, before entering upon the discharge of his duties, shall ~~take and sign an oath~~ *certify in writing that the inspector will faithfully to* execute the duties of inspector with strict impartiality and according to the best of his ability.

B. The inspectors shall (i) ascertain the number of members and the voting power of each, (ii) determine the number of the members represented at a meeting and the validity of ~~proxies~~ *proxy appointments* and ballots, (iii) count all votes, (iv) determine, and retain for a reasonable period a record of the disposition of, any challenges made to any determination by the inspectors, and (v) certify their determination of the number of members represented at the meeting and their count of ~~all~~ *the* votes. The inspectors may appoint or retain other persons or entities to assist the inspectors in the performance of their duties, *and may rely on information provided by such persons and other persons, including those appointed to tabulate votes, unless the inspectors believe reliance is unwarranted.* In any court proceeding there shall be a rebuttable presumption that the report of the inspectors is correct.

C. No ballot, proxies, or votes, nor any revocations thereof or changes thereto, shall be accepted by the inspectors after the closing of the polls unless the circuit court of the city or county where the corporation's principal office is located or, if none in the Commonwealth, where its registered office is located, upon application by a member, shall determine otherwise.

D. In determining the validity of proxies and ballots and in counting the votes, the inspectors shall be limited to an examination of the proxies, any envelopes submitted with those proxies, any information provided in accordance with subsection B of § 13.1-847, ballots, and the regular books and records of the corporation. If the inspectors consider other reliable information for the limited purpose permitted herein, they shall specify, at the time that they make their certification pursuant to clause (v) of subsection B, the precise information that they considered, including the person or persons from whom they obtained the information, when the information was obtained, the means by which the information was obtained, and the basis for their belief that such information is accurate and reliable.

E. If authorized by the board of directors, any member vote to be taken by written ballot may be satisfied by a ballot submitted by electronic transmission by the member or the member's proxy, provided that any such electronic transmission shall either set forth or be submitted with information from which it may be determined that the electronic transmission was authorized by the member or the member's proxy. *A member who votes by a ballot submitted by electronic transmission is deemed present at the meeting of members.*

**§ 13.1-848. Corporation's acceptance of votes.**

A. If the name signed on a vote, *ballot*, consent, waiver, or proxy appointment corresponds to the name of a member, the corporation, if acting in good faith, is entitled to accept the vote, *ballot*, consent, waiver, or proxy appointment and give it effect as the act of the member.

B. If the name signed on a vote, *ballot*, consent, waiver, or proxy appointment does not correspond to the name of a member, the corporation, if acting in good faith, is nevertheless entitled to accept the vote, *ballot*, consent, waiver, or proxy appointment and give it effect as the act of the member if:

1. The member is an entity and the name signed purports to be that of an officer, partner or agent of the entity;
2. The name signed purports to be that of an administrator, executor, guardian, or conservator representing the member and, if the corporation requests, evidence of fiduciary status acceptable to the corporation has been presented with respect to the vote, *ballot*, consent, waiver, or proxy appointment;
3. The name signed purports to be that of a receiver or trustee in bankruptcy of the member and, if the corporation requests, evidence acceptable to the corporation that such receiver or trustee has been authorized to vote the membership interest in an order of the court by which such person was appointed has been presented with respect to the vote, *ballot*, consent, waiver, or proxy appointment;
