2.a. The department shall utilize a Pharmacy and Therapeutics Committee to assist in the development and ongoing administration of the Preferred Drug List program. The Pharmacy and Therapeutics Committee shall be composed of 8 to 12 members, including the Commissioner, Department of Behavioral Health and Developmental Services, or his designee. The Pharmacy and Therapeutics Committee shall recommend to the department (i) which therapeutic classes of drugs should be subject to the Preferred Drug List program and prior authorization requirements; (ii) specific drugs within each therapeutic class to be included on the preferred drug list; (iii) appropriate exclusions for medications, including atypical anti-psychotics, used for the treatment of serious mental illnesses such as bi-polar disorders, schizophrenia, and depression; (iv) appropriate exclusions for medications used for the treatment of brain disorders, cancer and HIV-related conditions; (v) appropriate exclusions for therapeutic classes in which there is only one drug in the therapeutic class or there is very low utilization, or for which it is not cost-effective to include in the Preferred Drug List program; and (vi) appropriate grandfather clauses when prior authorization would interfere with established complex drug regimens that have proven to be clinically effective. In developing and maintaining the preferred drug list, the cost effectiveness of any given drug shall be considered only after it is determined to be safe and clinically effective.

b. The Pharmacy and Therapeutics Committee shall schedule meetings at least semi-annually and may meet at other times at the discretion of the chairperson and members. At the meetings, the Pharmacy and Therapeutics committee shall review any drug in a class subject to the Preferred Drug List that is newly approved by the Federal Food and Drug Administration, provided there is at least thirty (30) days notice of such approval prior to the date of the quarterly meeting.

6. Notwithstanding § 32.1-331.12 et seq., Code of Virginia, to implement these changes, the Department of Medical Assistance Services shall promulgate emergency regulations to become effective within 280 days or less from the enactment of this act. The department may also require retrospective clinical justification according to FDA approved indications and dosage levels for the use of multiple behavioral health drugs for a Medicaid patient. For individuals 18 years of age and younger who are prescribed three or more behavioral health drugs, the department may implement clinical edits that target inefficient, ineffective, or potentially harmful prescribing patterns in accordance with FDA-approved indications and dosage levels.				
8. The Department of Medical Assistance Services shall ensure that in the process of developing the Preferred Drug List, the Pharmacy and Therapeutics Committee considers the value of including those prescription medications which improve drug regimen compliance, reduce medication errors, or decrease medication abuse through the use of medication delivery systems that include, but are not limited to, transdermal and injectable delivery systems.

III. Effective July 1, 2013, the Department of Medical Assistance Services shall have the authority, to establish a 25 percent higher reimbursement rate for congregate residential services for individuals with complex medical or behavioral needs currently residing in an institution and unable to transition to integrated settings in the community due to the need for services that cannot be provided within the maximum allowable rate, or individuals whose needs present imminent risk of institutionalization and enhanced waiver services are needed beyond those available within the maximum allowable rate. The department shall have authority to promulgate regulations to implement this change within 280 days or less from the enactment of this act.

JJJ. The Department of Medical Assistance Services shall amend the State Plan for Medical Assistance to allow for delivery of notices of program reimbursement or other items referred to in the regulations related to provider appeals by electronic means consistent with the Uniform Electronic Transactions Act. The department shall implement this change effective July 1, 2013, and prior to completion of any regulatory process undertaken in order to effect such changes.

KKK. The Department of Medical Assistance Services shall amend the State Plan for Medical Assistance to convert the current cost-based payment methodology for nursing facility operating rates in 12 VAC 30-90-41 to a price-based methodology effective July 1, 2014. The new price-based payment methodology shall be implemented in a budget neutral manner.

1. The department shall calculate prospective operating rates for direct and indirect costs in the following manner:

a. The department shall calculate the cost per day in the base year for direct and indirect operating costs for each nursing facility. The department shall use existing definitions of direct and indirect costs.

b. The initial base year for calculating the cost per day is cost reports ending in calendar year 2011. The department shall rebase prices in fiscal year 2018 and every three years thereafter using the most recent reliable calendar year cost-settled cost reports for freestanding nursing facilities that have been completed as of September 1.

c. Each nursing facility's direct cost per day shall be neutralized by dividing the direct cost per day by the raw Medicaid facility case-mix that corresponds to the base year by facility.

d. Costs per day shall be inflated to the midpoint of the fiscal year rate period using the moving average Virginia Nursing Home inflation index for the 4th quarter of each year (the midpoint of the fiscal year). Costs in the 2011 base year shall be inflated from the midpoint of

ITEM 301.	Item Details(\$)		Appropriations(\$)	
	First Year FY2015	Second Year FY2016	First Year FY2015	Second Year FY2016
the cost report year to the midpoint of fiscal year 2012 by pro-rating fiscal year 2012 inflation and annual inflation after that. Annual inflation adjustments shall be based on the last available report prior to the beginning of the fiscal year and corrected for any revisions to prior year inflation.				
e. Prices will be established for the following peer groups using a combination of Medicare wage regions and Medicaid rural and bed size modifications based on similar costs.				
1) Direct Peer groups				
- Northern Virginia MSA				
- Other MSAs				
- Northern Rural				
- Southern Rural				
2) Indirect Peer Groups				
- Northern Virginia MSA				
- Rest of State - Greater than 60 Beds				
- Other MSAs				
- Northern Rural				
- Southern Rural				
- Rest of State - 60 Beds or Less				
f. The price for each peer group shall be based on the following adjustment factors:				
1) Direct - 105 percent of the peer group day-weighted median neutralized and inflated cost per day for freestanding nursing facilities.				
2) Indirect - 100.7 percent of the peer group day-weighted median inflated cost per day for freestanding nursing facilities.				
g. Facilities with costs projected to the rate year below 95 percent of the price shall have an adjusted price equal to the price minus the difference between their cost and 95 percent of the unadjusted price. Adjusted prices will be established at each rebasing. New facilities after the base year shall not have an adjusted price until the next rebasing. The "spending floor" limits the potential gain of low cost facilities, thereby making it possible to implement higher adjustment factors for other facilities at less cost.				
h. Individual claim payment for direct costs shall be based on each resident's Resource Utilization Group (RUG) during the service period times the facility direct price (similar to Medicare).				
i. Resource Utilization Group (RUG) is a resident classification system that groups nursing facility residents according to resource utilization and assigns weights related to the resource utilization for each classification. The department shall use RUGS to determine facility case mix for cost neutralization in determining the direct costs used in setting the price and for adjusting the claim payments for residents. The department may elect to transition from the RUG-III 34 Medicaid grouper to the RUG-IV 48 grouper in the following manner.				
1) The department shall neutralize direct costs per day in the base year using the most current RUG grouper applicable to the base year.				
2) The department shall utilize RUG-III 34 groups and weights in fiscal year 2015 for claim payments.				

ITEM 301.	Item Details(\$)		Appropriations(\$)	
	First Year FY2015	Second Year FY2016	First Year FY2015	Second Year FY2016

3) Beginning in fiscal year 2016, the department may elect to implement RUG-IV 48 Medicaid groups and weights for claim payments.

4) RUG-IV 48 weights used for claim payments will be normalized to RUG-III 34 weights as long as base year costs are neutralized by the RUG-III 34 group. In that the weights are not the same under RUG IV as under RUG III, normalization will insure that total payments in direct using the RUGs IV 48 weights will be the same as total payments in direct using the RUGs-III 34 grouper.

j. The department shall transition to the price-based methodology over a period of four years, blending the price-based rate described here with the cost-based rate based on current law with the following adjustments. The facility cost-based operating rates shall be the direct and indirect rates for fiscal year 2015 based on facility case-mix neutral rates modeled after the law that would have been in effect in fiscal year 2015 absent this amendment and using base year data from calendar year 2011 inflated to the rate year. Based on a four-year transition, the rate will be based on the following blend:

- 1) Fiscal year 2015 - 25 percent of the price-based rate and 75 percent of the cost-based rate.
- 2) Fiscal year 2016 - 50 percent of the price-based rate and 50 percent of the cost-based rate.
- 3) Fiscal year 2017 - 75 percent of the price-based rate and 25 percent of the cost-based rate.
- 4) Fiscal year 2018 - 100 percent of the price-based (fully implemented).

During the first transition year for the period July 1, 2014 through October 31, 2014, DMAS shall case-mix adjust each direct cost component of the rates using the average facility case-mix from the two most recent finalized quarters (September and December 2013) instead of adjusting this component claim by claim.

Cost-based rates to be used in the transition for facilities without cost data in the base year but placed in service prior to July 1, 2013 shall be determined based on the most recently settled cost data. If there is no settled cost report at the beginning of a fiscal year, then 100 percent of the price-based rate shall be used for that fiscal year. Facilities placed in service after June 30, 2013 shall be paid 100 percent of the price-based rate.

2. Prospective capital rates shall be calculated in the following manner.

a. Fair rental value per diem rates for the fiscal year shall be calculated for all freestanding nursing facilities based on the prior calendar year information aged to the fiscal year and using RS Means factors and rental rates corresponding to the fiscal year. There will be no separate calculation for beds subject to and not subject to transition.

b. The department shall develop a procedure for mid-year fair rental value per diem rate changes for nursing facilities that put into service a major renovation or new beds. A major renovation shall be defined as an increase in capital of \$3,000 per bed. The nursing facility shall submit complete pro forma documentation at least 60 days prior to the effective date and the new rate shall be effective at the beginning of the month following the end of the 60 days. The provider shall submit final documentation within 60 days of the new rate effective date and the department shall review final documentation and modify the rate if necessary effective 90 days after the implementation of the new rate. No mid-year rate changes shall be made for an effective date after April 30 of the fiscal year.

c. Effective July 1, 2014, the rental rate shall be 8.0 percent.

d. These FRV changes shall also apply to specialized care facilities.

e. The capital per diem rate for hospital-based nursing facilities shall be the last settled capital per diem.

3. Prospective Nurse Aide Training and Competency Evaluation Programs (NATCEP) rates shall be the Medicaid per diem rate in the base year inflated to the rate year based on inflation used in the operating rate calculations.

5. The department shall have the authority to implement these payment changes effective July 1, 2014 and prior to completion of any regulatory process in order to effect such changes.

6. *The department shall amend the State Plan for Medical Assistance to reimburse the price-based operating rate rather than the transition operating rate to any nursing facility whose licensed bed capacity decreased by at least 30 beds after 2011 and whose occupancy increased from less than 70 percent in 2011 to more than 80 percent in 2013. The department shall have the authority to implement this reimbursement change effective July 1, 2015, and prior to completion of any regulatory process in order to effect such change.*

LLL. The Department of Medical Assistance Services shall amend its State Plan under Title XIX of the Social Security Act to implement reasonable restrictions on the amount of incurred dental expenses allowed as a deduction from income for nursing facility residents. Such limitations shall include: (i) that routine exams and x-rays, and dental cleaning shall be limited to twice yearly; (ii) full mouth x-rays shall be limited to once every three years; and (iii) deductions for extractions and fillings shall be permitted only if medically necessary as determined by the department.

MMM. Notwithstanding §32.1-325, et seq. and §32.1-351, et seq. of the Code of Virginia, and effective upon the availability of subsidized private health insurance offered through a Health Benefits Exchange in Virginia as articulated through the federal Patient Protection and Affordable Care Act (PPACA), the Department of Medical Assistance Services shall eliminate, to the extent not prohibited under federal law, Medicaid Plan First and FAMIS Moms program offerings to populations eligible for and enrolled in said subsidized coverage in order to remove disincentives for subsidized private healthcare coverage through publicly-offered alternatives. To ensure, to the extent feasible, a smooth transition from public coverage, DMAS shall endeavor to phase out such coverage for existing enrollees once subsidized private insurance is available through a Health Benefits Exchange in Virginia. The department shall implement any necessary changes upon federal approval and prior to the completion of any regulatory process undertaken in order to effect such change.

NNN. The Department of Medical Assistance Services shall have authority to amend the State Plans for Medical Assistance under Titles XIX and XXI of the Social Security Act, and any waivers thereof, to implement requirements of the federal Patient Protection and Affordable Care Act (PPACA) as it pertains to implementation of Medicaid and CHIP eligibility determination and case management standards and practices, including the Modified Adjusted Gross Income (MAGI) methodology. The department shall have authority to implement such standards and practices upon federal approval and prior to the completion of any regulatory process undertaken in order to effect such change.

OOO. Effective July 1, 2013, the Department of Medical Assistance Services shall establish a Medicaid Physician and Managed Care Liaison Committee including, but not limited to, representatives from the following organizations: the Virginia Academy of Family Physicians; the American Academy of Pediatricians - Virginia Chapter; the Virginia College of Emergency Physicians; the American College of Obstetrics and Gynecology - Virginia Section; Virginia Chapter, American College of Radiology; the Psychiatric Society of Virginia; the Virginia Medical Group Management Association; and the Medical Society of Virginia. The committee shall also include representatives from each of the department's contracted managed care organizations and a representative from the Virginia Association of Health Plans. The committee will work with the department to investigate the implementation of quality, cost-effective health care initiatives, to identify means to increase provider participation in the Medicaid program, to remove administrative obstacles to quality, cost-effective patient care, and to address other matters as raised by the department or members of the committee. The committee shall meet semi-annually, or more frequently if requested by the department or members of the committee. The department, in cooperation with the committee, shall report on the committee's activities annually to the Board of Medical Assistance Services and to the Chairmen of the House Appropriations and Senate Finance Committees and the Department of Planning and Budget no later than October 1 each year.

PPP. The Department of Medical Assistance Services shall establish a work group of representatives of providers of home- and community-based care services to continue improvements in the audit process and procedures for home- and community-based utilization

and review audits. The Department of Medical Assistance Services shall report on any revisions to the methodology for home- and community-based utilization and review audits, including progress made in addressing provider concerns and solutions to improve the process for providers while ensuring program integrity. In addition, the report shall include documentation of the past year's audits, a summary of the number of audits to which retractions were assessed and the total amount, the number of appeals received and the results of appeals. The report shall be provided to the Chairmen of the House Appropriations and Senate Finance Committees by December 1 of each year.

QQQ. The Department of Medical Assistance Services shall amend the State Plan for Medical Assistance to calculate an indirect medical education (IME) factor for Virginia freestanding children's hospitals with greater than 50 percent Medicaid utilization in 2009. Total payments for IME in combination with other payments for freestanding children's hospitals with greater than 50 percent Medicaid utilization in 2009 may not exceed the federal uncompensated care cost limit that disproportionate share hospital payments are subject to. The department shall have the authority to implement these reimbursement changes effective July 1, 2013, and prior to completion of any regulatory process undertaken in order to effect such change.

RRR. The Department of Medical Assistance Services shall realign the billable activities paid for individual supported employment provided under the Medicaid home- and community-based waivers to be consistent with job development and job placement services provided through employment services organizations that are reimbursed by the Department for Aging and Rehabilitative Services. The department shall have the authority to implement this reimbursement change effective July 1, 2013, and prior to the completion of any regulatory process undertaken in order to effect such change.

SSS. Effective July 1, 2013, the Department of Medical Assistance Services shall take the steps necessary to amend the Intellectual Disability Waiver and the Individual and Family Developmental Disabilities Support Waiver to change the unit of service for skilled and private duty nursing from the current one hour to one-quarter of an hour. The department shall implement this change using a methodology that is budget neutral.

TTT.1. The Department of Medical Assistance Services shall seek federal authority through any necessary waiver(s) and/or State Plan authorization under Titles XIX and XXI of the Social Security Act to implement a comprehensive value-driven, market-based reform of the Virginia Medicaid/FAMIS programs. This reform shall be implemented in three phases as outlined in paragraphs 2, 3 and 4. The department shall have authority to implement necessary changes when feasible after federal approval and prior to the completion of any regulatory process undertaken in order to effect such change.

2. In the first phase of reform, the Department of Medical Assistance Services shall continue currently authorized reforms of the Virginia Medicaid/FAMIS service delivery model that shall, at a minimum, include (i) implementation of a Medicare-Medicaid Enrollee (dual eligible) Financial Alignment demonstration as evidenced by a Memorandum of Understanding with the Centers for Medicare and Medicaid Services (CMS), signing of a three-way contract with CMS and participating plans, and approval of the necessary amendments to the State Plan for Medical Assistance and any waivers thereof; (ii) enhanced program integrity and fraud prevention efforts to include at a minimum: recovery audit contracting (RAC), data mining, service authorization, enhanced coordination with the Medicaid Fraud Control Unit (MFCU), and Payment Error Rate Measurement (PERM); (iii) inclusion of children enrolled in foster care in managed care; (iv) implementation of a new eligibility and enrollment information system for Medicaid and other social services; (v) improved access to Veterans services through creation of the Veterans Benefit Enhancement Program; and (vi) expedite the tightening of standards, services limits, provider qualifications, and licensure requirements for community behavioral health services.

3. In the second phase of reform, the Department of Medical Assistance Services shall implement value-based purchasing reforms for all recipients subject to a Modified Adjusted Gross Income (MAGI) methodology for program eligibility and any other recipient categories not excluded from the Medallion II managed care program. Such reforms shall, at a minimum, include the following: (i) the services and benefits provided are the types of services and benefits provided by commercial insurers and may include appropriate and reasonable limits on services such as occupational, physical, and speech therapy, and home care with the exception

of non-traditional behavioral health and substance use disorder services; (ii) reasonable limitations on non-essential benefits such as non-emergency transportation are implemented; and (iii) patient responsibility is required including reasonable cost-sharing and active patient participation in health and wellness activities to improve health and control costs.

To administer this reformed delivery model, the department is authorized to contract with qualified health plans to offer recipients a Medicaid benefit package adhering to these principles. Any coordination of non-traditional behavioral health services covered under contract with qualified health plans or through other means shall adhere to the principles outlined in paragraph OO. c. This reformed service delivery model shall be mandatory, to the extent allowed under the relevant authority granted by the federal government and shall, at a minimum, include (i) limited high-performing provider networks and medical/health homes; (ii) financial incentives for high quality outcomes and alternative payment methods; (iii) improvements to encounter data submission, reporting, and oversight; (iv) standardization of administrative and other processes for providers; and (v) support of the health information exchange.

The second phase of reform shall also include administrative simplification of the Medicaid program through any necessary waiver(s) and/or State Plan authorization under Titles XIX and XXI of the Social Security Act and outline agreed upon parameters and metrics to provide maximum flexibility and expedited ability to develop and implement pilot programs to test innovative models that (i) leverage innovations and variations in regional delivery systems; (ii) link payment and reimbursement to quality and cost containment outcomes; or (iii) encourage innovations that improve service quality and yield cost savings to the Commonwealth. Upon federal approval, the department shall have authority to implement such pilot programs prior to the completion of the regulatory process.

4. In the third phase of reform, the Department of Medical Assistance Services shall seek reforms to include all remaining Medicaid populations and services, including long-term care and home- and community-based waiver services into cost-effective, managed and coordinated delivery systems. The department shall begin designing the process and obtaining federal authority to transition all remaining Medicaid beneficiaries into a coordinated delivery system.

5. The Department of Medical Assistance Services shall provide a report to the Medicaid Innovation and Reform Commission on the specific waiver and/or State Plan changes that have been approved and status of implementing such changes, and associated cost savings or cost avoidance to Medicaid/FAMIS expenditures.

**I VETO THIS ITEM WHICH IS UNCONSTITUTIONAL. /s/ Terence R. McAuliffe (6/21/14) (Vetoed item is enclosed in brackets.)**

6.a. The Department shall seek the approval of the Medicaid Innovation and Reform Commission to amend the State Plan for Medicaid Assistance under Title XIX of the Social Security Act, and any waivers thereof, to implement coverage for newly eligible individuals pursuant to 42 U.S.C. § 1396d(y)(1)[2010] of the Patient Protection and Affordable Care Act. If the Medicaid Innovation and Reform Commission determines that the conditions in paragraphs 2, 3, 4, and 5 have been met, then the Commission shall approve implementation of coverage for newly eligible individuals pursuant to 42 U.S.C. § 1396d(y)(1)[2010] of the Patient Protection and Affordable Care Act.

b. Upon approval by the Medicaid Innovation and Reform Commission, the department shall implement the provisions in paragraph 6.a. of this item by July 1, 2014, or as soon as feasible thereafter.

7.a. Contingent upon the expansion of eligibility in paragraph 6.a., there is hereby created in the state treasury a special nonreverting fund to be known as the Virginia Health Reform and Innovation Fund, hereafter referred to as the "Fund." The Fund shall be established on the books of the Comptroller and any moneys remaining in the Fund at the end of each fiscal year shall not revert to the general fund but shall remain in the Fund. For purposes of the Comptroller's preliminary and final annual reports required by § 2.2-813, however, all deposits to and disbursements from the Fund shall be accounted for as part of the general fund of the state treasury.

b. The Director of the Department of Medical Assistance Services, in consultation with the Director of the Department of Planning and Budget, shall annually identify projected general fund savings attributable to enrollment of newly eligible individuals included in 42 U.S.C. § 1396d(y)(1)[2010] of the PPACA, including behavioral health services, inmate health care, and indigent care. Beginning with development of the fiscal year 2015 budget, these projected savings shall be reflected in reduced appropriations to the affected agencies and the amounts deposited into the Fund net of any appropriation increases necessary to meet resulting programmatic requirements of the Department of Medical Assistance Services. Beginning in fiscal year 2015, funding to support health innovations described in Paragraph 3 shall be appropriated from the Fund not to exceed \$3.5 million annually. Funding shall be distributed through health innovation grants to private and public entities in order to reduce the annual rate of growth in health care spending or improve the delivery of health care in the Commonwealth. When the department, in consultation with the Department of Planning and Budget, determines that the general fund expenses incurred from coverage of newly eligible individuals included in 42 U.S.C. § 1396d(y)(1)[2010] of the PPACA exceed any associated savings, a percentage of the principle of the Fund as determined necessary by the department and the Department of Planning and Budget to cover the cost of the newly eligible population shall be reallocated to the general fund and appropriated to the department to offset the cost of this population. Principle shall be allocated on an annual basis for as long as funding is available.

8. In the event that the increased federal medical assistance percentages for newly eligible individuals included in 42 U.S.C. § 1396d(y)(1)[2010] of the PPACA is modified through federal law or regulation from the methodology in effect on January 1, 2014, resulting in a reduction in federal medical assistance as determined by the department in consultation with the Department of Planning and Budget, the Department of Medical Assistance Services shall disenroll and eliminate coverage for individuals who obtained coverage through 42 U.S.C. § 1396d(y)(1) [2010] of the PPACA. The disenrollment process shall include written notification to affected Medicaid beneficiaries, Medicaid managed care plans, and other providers that coverage will cease as soon as allowable under federal law from the date the department is notified of a reduction in Federal Medical Assistance Percentage.

9. That notwithstanding any other provision of this act, or any other law, no general or nongeneral funds shall be appropriated or expended for such costs as may be incurred to implement coverage for newly eligible individuals pursuant to 42 U.S.C. § 1396d(y)(1)[2010] of the Patient Protection and Affordable Care Act, unless included in an appropriation bill adopted by the General Assembly on or after July 1, 2014.

UUU.1. The Director of the Department of Medical Assistance Services shall continue to make improvements in the provision of health and long-term care services under Medicaid/FAMIS that are consistent with evidence-based practices and delivered in a cost effective manner to eligible individuals.

2. In order to effect such improvements and ensure that reform efforts are cost effective relative to current forecasted Medicaid/FAMIS expenditure levels, the Department of Medical Assistance Services shall (i) develop a five-year consensus forecast of expenditures and savings associated with the Virginia Medicaid/FAMIS reform efforts by November 15 of each year in conjunction with the Department of Planning and Budget, and with input from the House Appropriations and Senate Finance Committees, and (ii) engage stakeholder involvement in meeting annual targets for quality and cost-effectiveness.

VVV. Effective July 1, 2014, the Department of Medical Assistance Services shall replace the AP-DRG grouper with the APR-DRG grouper for hospital inpatient reimbursement. The department shall develop budget neutral case rates and Virginia-specific weights for the APR-DRG grouper based on the FY 2011 base year. The department shall phase in the APR-DRG weights by blending in 50 percent of the full APR-DRG weights with 50 percent of FY 2014 AP-DRG weights in the first year and 75 percent of the full APR-DRG weights with 25 percent of the FY 2014 AP-DRG weights in the second year for each APR-DRG group and severity. FY 2014 AP-DRG weights shall be calculated as a weighted average FY 2014 AP-DRG weight for all claims in the base year that group to each APR-DRG group and severity. Full APR-DRG weights shall be used in the third year and succeeding years for each APR-DRG group and severity. The department shall have the authority to implement these reimbursement changes effective July 1, 2014, and prior to completion of any regulatory process in order to effect such changes.

WWW.1. Effective July 1, 2014, the Department of Medical Assistance Services shall replace the current Disproportionate Share Hospital (DSH) methodology with the following methodology:

a) DSH eligible hospitals must have a total Medicaid Inpatient Utilization Rate equal to 14 percent or higher in the base year using Medicaid days eligible for Medicare DSH or a Low Income Utilization Rate in excess of 25 percent and meet other federal requirements. Eligibility for out of state cost reporting hospitals shall be based on total Medicaid utilization or on total Medicaid NICU utilization equal to 14 percent or higher.

b) Each hospital's DSH payment shall be equal to the DSH per diem multiplied by each hospital's eligible DSH days in a base year. Days reported in provider fiscal years in state FY 2011 will be the base year for FY 2015 prospective DSH payments. DSH will be recalculated annually with an updated base year. DSH payments are subject to applicable federal limits.

c) Eligible DSH days are the sum of all Medicaid inpatient acute, psychiatric and rehabilitation days above 14 percent for each DSH hospital subject to special rules for out of state cost reporting hospitals. Eligible DSH days for out of state cost reporting hospitals shall be the higher of the number of eligible days based on the calculation in the first sentence times Virginia Medicaid utilization (Virginia Medicaid days as a percent of total Medicaid days) or the Medicaid NICU days above 14 percent times Virginia NICU Medicaid utilization (Virginia NICU Medicaid days as a percent of total NICU Medicaid days). Eligible DSH days for out of state cost reporting hospitals who qualify for DSH but who have less than 12 percent Virginia Medicaid utilization shall be 50 percent of the days that would have otherwise been eligible DSH days.

d) Additional eligible DSH days are days that exceed 28 percent Medicaid utilization for Virginia Type Two hospitals (excluding Children's Hospital of the Kings Daughters).

e) The DSH per diem shall be calculated in the following manner:

a. The DSH per diem for Type Two hospitals is calculated by dividing the total Type Two DSH allocation by the sum of eligible DSH days for all Type Two DSH hospitals. For purposes of DSH, Type Two hospitals do not include Children's Hospital of the Kings Daughters (CHKD) or any hospital whose reimbursement exceeds its federal uncompensated care cost limit. The Type Two Hospital DSH allocation shall equal the amount of DSH paid to Type Two hospitals in state FY 2014 increased annually by the percent change in the federal allotment, including any reductions as a result of the Affordable Care Act, adjusted for the state fiscal year.

b. The DSH per diem for State Inpatient Psychiatric Hospitals is calculated by dividing the total State Inpatient Psychiatric Hospital DSH allocation by the sum of eligible DSH days. The State Inpatient Psychiatric Hospital DSH allocation shall equal the amount of DSH paid in state FY 2013 increased annually by the percent change in the federal allotment, including any reductions as a result of the Affordable Care Act, adjusted for the state fiscal year.

c. The DSH per diem for CHKD shall be three times the DSH per diem for Type Two hospitals.

d. The DSH per diem for Type One hospitals shall be 17 times the DSH per diem for Type Two hospitals.

2. Each year, the department shall determine how much Type Two DSH has been reduced as a result of the Affordable Care Act and adjust the percent of cost reimbursed for outpatient hospital reimbursement.

3. The department shall convene the Hospital Payment Policy Advisory Council at least once a year to consider additional changes to the DSH methodology.

4. The department shall have the authority to implement these reimbursement changes effective July 1, 2014, and prior to completion of any regulatory process in order to effect such changes.

The Department of Medical Assistance Services (DMAS) shall not change the unit of service or rate of reimbursement for Mental Health Skill-Building Services (MHSS) until the 2015 General Assembly has reviewed the impact of the December 1, 2013 emergency regulations that changed the eligibility and service description for Mental Health Skill-Building Services. DMAS and the Department of Behavioral Health and Developmental Services shall jointly prepare a report to be delivered by November 1, 2014 to the Chairmen of the House Appropriations and Senate Finance Committees. The report shall document the impact of the MHSS regulations implemented on December 1, 2013 and shall include an assessment of the fiscal impact, consumer and family impact, service delivery impact, and impact upon other agencies and facilities in Virginia.

B. Notwithstanding any law to the contrary, on July 1, of each year, the State Comptroller shall transfer to the general fund any nongeneral fund balance accumulated by the Department of Behavioral Health and Developmental Services, except for federal grant funds, in excess of \$30,000,000.

The trust fund will receive any savings resulting from facility restructuring. Thereafter, the fund will be used to enhance services to individuals with mental illness, intellectual disability and substance abuse problems.

2. If an offender assigned to the program voluntarily withdraws from the program, is removed from the program by the Department of Corrections for intractable behavior, fails to participate in program activities, or fails to comply with the terms and conditions of the program, the Department of Corrections shall notify the court, outlining specific reasons for the removal and shall reassign the defendant to another incarceration assignment as appropriate. Due to the multiple payor sources associated with inpatient and outpatient health care services, the Department of Corrections and the Department of Medical Assistance Services shall consult with the applicable provider community to ensure that administrative burdens are minimized and payment for health care services is rendered in a prompt manner. The Departments of Medical Assistance Services and Corrections shall provide a joint report on the implementation of this initiative and the expected cost savings to the Commonwealth. Copies of this report shall be provided to the Secretaries of Health and Human Services and Public Safety, and to the Chairmen of the House Appropriations and Senate Finance Committees, by October 1, 2014.

*P.1. The Department of Corrections shall develop and issue a Request for Information for the comprehensive management and provision of health care services for (i) all inmates confined at facilities not covered by the August 4, 2014, solicitation for health care management services, and (ii) all inmates confined at Department facilities statewide. This request for information shall focus on identifying health care management models that use the best practices and cost containment methods employed by Medicaid managed care organizations in delivering provider-managed and outcome-based comprehensive health care services. These services shall include consolidated management and operational responsibility for delivering all primary and specialty care, nursing, x-ray, dialysis, dental, medical supplies, laboratory services, and pharmaceuticals, as well as all off-site care, case management, and related services. Specific information shall be sought on 1) how existing state-funded managed care networks can be leveraged; 2) federal health care funding opportunities; 3) identifying state-of-the-art practices in care coordination and utilization review; and 4) identifying innovative correctional health care management systems being used or developed in other states. A report summarizing the responses to the Request for Information and estimating the potential long-term savings from the approaches identified in the responses shall be provided to the Chairmen of the House Appropriations and Senate Finance Committees, the Secretary of Public Safety and Homeland Security, and the Department of Planning and Budget no later than October 1, 2015.*

*a. The costs, benefits, and administrative actions required to eliminate the Department's reliance on a private contractor for the delivery of inmate health care at multiple facilities, and to provide the same services internally using either state employees or individual contract medical personnel.*

*b. The costs, benefits, and administrative actions required to transition to a statewide health care management model that uses best practices and cost containment methods employed by prison health care management and Medicaid managed care organizations to deliver provider-managed and outcome-based comprehensive health care services through a single statewide contract for all of the Department's adult correctional centers.*

*c. A review of the Department's actual cost experience comparing the previous arrangement in which the contractor assumed full financial risk for the payment of off-site inpatient and outpatient services, and the current and proposed arrangement in which the Department assumes that risk and also receives any Medicaid reimbursement for such off-site expenses. For*

*purposes of analyzing the first arrangement, it is assumed that the benefit of any Medicaid or other third-party reimbursement for hospital or other services would accrue to the contractor. This review shall also compare cost trends experienced by other states which have adopted these two arrangements.*

*d. A comparison of the costs and benefits of the Department's current management of inmate health care, including the model envisioned in its August 2014 Request for Proposals, to the alternative models the Department is directed to assess in subsections a, b, and c above.*

*e. The Department of Human Resources Management, the Department of Planning and Budget and other executive branch agencies shall provide technical assistance to the Department as needed.*

*Q. C. The Department of Juvenile Justice shall reimburse localities, pursuant to § 66-15, Code of Virginia, at the rate of \$50 per day for housing juveniles who have been committed to the department, for each day after the department has received a valid commitment order and other pertinent information as required by § 16.1-287, Code of Virginia.

D. Notwithstanding the provisions of §16.1-322.1 of the Code of Virginia, the department shall apportion to localities the amounts appropriated in this Item.

E.1. The appropriation for Financial Assistance for Community Based Alternative Treatment Services includes \$10,379,926 the first year and \$10,379,926 the second year from the general fund for the implementation of the financial assistance provisions of the Juvenile Community Crime Control Act (VJCCCA), §§ 16.1-309.2 through 16.1-309.10, Code of Virginia. Notwithstanding § 16.1-309.6, Code of Virginia, localities participating in this program and contributing through their local match an amount of local funds which is greater than they receive from the Commonwealth under this program are authorized, but not required, to provide a contribution greater than the state general fund contribution. In no case shall their local match be less than their state share.

2. Notwithstanding the provisions of §§ 16.1-309.2 through 16.1-309.10, Code of Virginia, the Board of Juvenile Justice shall establish guidelines for use in determining the types of programs for which VJCCCA funding may be expended. The department shall establish a format to receive biennial or annual requests for funding from localities, based on these guidelines. For each program requested, the plan shall document the need for the program, goals, and measurable objectives, and a budget for the proposed expenditure of these funds and any other resources to be committed by localities.

3.a. Notwithstanding the provisions of § 16.1-309.7 B, Code of Virginia, unobligated VJCCCA funds must be returned to the department by each grantee locality no later than October 1 of the fiscal year following the fiscal year in which they were received, or a similar amount may be withheld from the current fiscal year's periodic payments designated by the department for that locality. The Director, Department of Planning and Budget, may increase the general fund appropriation for this Item up to the amount of unobligated VJCCCA funds returned to the Department of Juvenile Justice.

b. All such unobligated and reappropriated balances shall be used by the department for the purpose of awarding short-term supplementary grants to localities, for programs and services which have been demonstrated to improve outcomes, including reduced recidivism, of juvenile offenders. Such programs and services must augment and support current VJCCCA-funded programs within each affected locality. The grantee locality shall submit an outcomes report to the department, in accord with a written memorandum of agreement which shall accompany the supplementary grant award. This provision shall apply to funds obligated to and in the possession of the department and its grant recipients. The entity which returns unobligated funds under this provision shall not have a presumptive entitlement to a supplementary grant.

c. The Department of Juvenile Justice, with the assistance of the Department of Corrections, the Virginia Council on Juvenile Detention, juvenile court service unit directors, juvenile and domestic relations district court judges, and juvenile justice advocacy groups, shall provide a report on the types of programs supported by the Juvenile Community Crime Control Act and whether the youth participating in such programs are statistically less likely to be arrested, adjudicated or convicted, or incarcerated for either misdemeanors or crimes that would otherwise be considered felonies if committed by an adult.

F. The department shall consolidate the annual reporting requirements in §§ 2.2-222 and 66-13 and in Chapters 755 and 914 of the 1996 Acts of the General Assembly concerning juvenile offender demographics. The consolidated annual report shall address the progress of Virginia Juvenile Community Crime Control Act programs including the requirements in Article 12.1 of Chapter 11 of Title 16.1 (§ 16.1-309.2 et seq.) relating to the number of juveniles served, the average cost for residential and nonresidential services, the number of employees, and descriptions of the contracts entered into by localities. Notwithstanding any other provisions of the Code of Virginia, the consolidated report shall be submitted to the Governor, the General Assembly, the Chairmen of the House Appropriations and Senate Finance Committees, the Secretary of Public Safety and Homeland Security, and the Department of Planning and Budget by the first day of the regular General Assembly session.

Authority: Title 2.2, Chapter 20.1, Code of Virginia.

A.1. Notwithstanding any other provision of law except the limitations imposed by § 2.2-225, § 2.2-518, §§ 2.2-2007 through 2.2-2010, §§ 2.2-2015 through 2.2-2021, § 2.2-4803 and § 2.2-4806, Code of Virginia, Executive Department agencies and institutions may enter into management agreements with CGI Technologies & Solutions, Inc. (CGI) for debt collection and cost recovery services pursuant to Statements of Work 6 and 7 of the Enterprise Applications Master Services Agreement between the Commonwealth of Virginia and CGI. Executive Department agencies and institutions may also enter into additional Statements of Work with CGI pursuant to § 2.2.4 of the Enterprise Applications Master Services Agreement for services related to such Agreement, which may include, but not be limited to, services supporting projects in the five towers of enterprise-level endeavors (financial management, human resource management, supply chain management, administrative management, and applications development and management). Work on enhanced collections and recoveries or any additional Statements of Work pursuant to § 2.2.4 of the Enterprise Applications Master Services Agreement shall not proceed if they commit the Commonwealth to expanding or significantly altering any existing federal or state program without the review and approval of the Governor and prior consultation with the Chairmen of the House Appropriations and Senate Finance Committees.

2. Moneys resulting from enhanced collections and cost recoveries pursuant to this Item shall be held in the Virginia Technology Infrastructure Fund as established by § 2.2-2023, Code of Virginia.

3. *The Chief Information Officer of the Commonwealth shall be required to review and approve any contractual agreements made pursuant to the Enterprise Applications Master Services Agreement with CGI Technologies and Solutions, Inc. before any such contract may go into effect.*

B.1. As established in § 3-2.03 of this act, working capital advances totaling up to \$90,000,000 will provide for the development of enterprise applications for the Commonwealth, including the development of the performance budgeting and financial management systems. These working capital advances will be repaid from anticipated revenues from enhanced collections, cost recoveries, inter-agency collaborative projects and other initiatives to be collected pursuant to this item and will be deposited into the Virginia Technology Infrastructure Fund. No funds derived from these working capital advances shall be expended without the prior budget approval of the Secretaries of Technology and Finance. The State Comptroller shall notify the Governor and the Chairmen of the House Appropriations and Senate Finance Committees prior to any approved expenditure.

2. Funds received from the working capital advance will be used only for enterprise resource planning and development costs. No funds received from this working capital advance shall be used as payment toward operating costs of this or any other program.

3. At the end of each fiscal year, the Governor is authorized to apply up to \$2,000,000 from the unappropriated general fund balance in this act to pay down this working capital advance in the event other repayment sources in this act are not available or are insufficient to maintain a reasonable schedule for the payback of the working capital advance.

C.1. In order to minimize the cost of information systems development, the Secretary of Technology shall work with all Cabinet Secretaries and their agencies to develop Commonwealth data standards for citizen-centric data, personnel, recipient information, and other common sources of information gathered by the Commonwealth and in use by systems set out within this item.

2. Where active projects in this item, have implemented standardized data, the Secretary of Technology shall work with all Cabinet Secretaries and their agencies to determine if these standards should be adopted as Commonwealth data standards for use in active or future major IT projects or investments. Where active projects in this item do not conform to the Commonwealth's data standard, the Secretary of Technology shall include in the interim a plan for how the Secretary of Technology will identify data standards that should be adopted as Commonwealth data standards and the estimated cost of ensuring that each active IT project in the item complies with the Commonwealth data standard.

3. The Chief Information Officer of the Commonwealth shall provide a report on progress toward discontinuation of the Unisys mainframe to the Governor and Chairmen of the House Appropriations and Senate Finance Committees not later than September 15 of each year until such usage is discontinued. Agencies that use the Unisys mainframe shall provide all data and other information requested by the Virginia Information Technologies Agency (VITA) in a timely manner. All users of the Unisys mainframe shall also ensure that their current and future information technology strategic plans address anticipated changes in usage of the Unisys and any replacement, ancillary, or supplemental services. As required by §§ 2.2-2007 and 2.2-1507, Code of Virginia, all budget requests that address or are affected by the reduction in the use of the Unisys mainframe shall be submitted to VITA prior to submission to the Department of Planning and Budget, in sufficient time to allow VITA to comply with its reporting responsibilities under those sections and under § 2.2-2013. VITA shall use this information to monitor actual and projected usage of the Unisys and IBM mainframe, servers, storage, and other services whose usage is affected by reduction in the use of the Unisys mainframe.

D.1. Notwithstanding the provisions of §§ 2.2-1509, 2.2-2007 and 2.2-2017, Code of Virginia, the scope of formal reporting on major information technology projects in the Recommended Technology Investment Projects (RTIP) report is reduced. The efforts involved in researching, analyzing, reviewing, and preparing the report will be streamlined and project ranking will be discontinued. Project analysis will be targeted as determined by the Chief Information Officer (CIO) and the Secretary of Technology. Information on major information technology investments will continue to be provided General Assembly members and staff. Specifically, the following tasks will not be required, though the task may be performed in a more streamlined fashion: (i) The annual report to the Governor, the Secretary, and the Joint Commission on Technology and Science; (ii) The annual report from the CIO for submission to the Secretary, the Information Technology Advisory Council, and the Joint Commission on Technology and Science on a prioritized list of Recommended Technology Investment Projects (RTIP Report); (iii) The development by the CIO and regular update of a methodology for prioritizing projects based upon the allocation of points to defined criteria and the inclusion of this information in the RTIP Report; (iv) The indication by the CIO of the number of points and how they were awarded for each project recommended for funding in the RTIP Report; (v) The reporting, for each project listed in the RTIP, of all projected costs of ongoing operations and maintenance activities of the project for the next three biennia following project implementation, a justification and description for each project baseline change, and whether the project fails to incorporate existing standards for the maintenance, exchange, and security of data; and (vi) The reporting of trends in current projected information technology spending by state agencies and secretariats, including spending on projects, operations and maintenance, and payments to Virginia Information Technologies Agency.

2. Pursuant to §2.2-1509.3, Code of Virginia, the following major information technology projects are active and have been approved and recommended for funding by the Secretary of Technology. The data listed was self-reported to the Virginia Information Technologies Agency (VITA) by the responsible agencies. These projects are supported by strong business cases and thus were considered as priorities for funding in this biennium. VITA shall make available on its website a listing of active and approved major information technology programs updated on a quarterly basis. Notwithstanding any other provision of law and effective July 1, 2015, the Virginia Information Technologies Agency (VITA) shall maintain and update quarterly a list of major information technology projects that are active or are expected to become active in the next fiscal year and have been approved and recommended for funding by the Secretary of Technology. Such list shall serve as the official repository for all ongoing information technology projects in the Commonwealth and shall include all information required by § 2.2-1509.3 (B)(1)-(8), Code of Virginia. VITA shall make such list publically available on its website, updated on a quarterly basis, and shall submit electronically such quarterly update to the Chairmen of the House Appropriations and Senate Finance Committees and the Director,

<b>Virginia Department of Transportation (501) - CSC System 2.0</b>	Jan 24, 2013	Dec 31, 2014	\$5,910,333

Project Approach: The approach for the CSC System 2.0 project is comprised of five key activities that include Project Initiation and Planning, Requirements Gathering, System Procurement, System Design and Implementation (Phase 3), and Project Closeout. Project Initiation and Planning comprises a key set of project activities designed to ensure that the project team is fully aligned with the client's project objectives and to establish the project management structures that will assist in achieving client business objectives for the project. To that end, a key task of Project Initiation and Planning is working with the VDOT's Project Sponsor and Project Manager to define and finalize the project scope, approach, and timeline and is reflected in this document. Project Schedule Development and Maintenance Project schedules are critical tools used to keep projects under control. We will use Microsoft (MS) Project 2002 as the project scheduling software and will provide initial and all subsequent versions of the project schedule in this format. It is our belief that the most detailed level of work defined in a project schedule should have clearly recognizable end point, where all can agree that the activity planned has, in fact, been successfully completed. Normally, this is done by assigning either well-defined milestones or well-defined deliverables to each activity. The CSC System 2.0 project team will work with VDOT's Project Manager(s) at project kickoff to develop a schedule for meeting the project objectives in accordance with VDOT's needs. The initial version of the project schedule has estimated start and end dates, which in turn will define the expected duration of the activity. Where dependencies and/or linkages between tasks exist, these will be specifically identified. It will be possible to identify the critical path within the project for those tasks that have been entered into Project Server and also view and manage multiple critical paths for each series of tasks. Specifically, the anticipated benefits of the CSC System 2.0 project include but are not limited to: 1) Provide better access to all VDOT information, 2) Provide better and more efficient service to internal and external customers with technology enabled systems that are integrated with appropriate VDOT systems, 3) Enable self-service and better customer follow-up, 4) Offer additional automated communications channels to customers, 5) Provide ability to track customer interactions, 6) Provide ability to close the loop with customers on their requests, and 7) Provide management reporting to enable better decision making.

This project is designed to establish a death reporting service/interfaces between the death registry and the ESB. The service will be supported by an extract of the minimum required fields to identify a death record. Additional development may be required to add a match code (Yes/No) and an MPI placeholder. In addition to supporting an inquiry death service on the ESB, a publish and subscribe model will be developed so the registry can actively publish new death notices as they occur. This will allow subscribers to trigger appropriate processing based on the notification.

The EDSP Eligibility Modernization Conversion project will focus its efforts on converting the data in the ADAPT legacy system and DMAS CHAMPS legacy system for the Families & Children’s Medicaid, CHIP, and FAMIS categories into VaCMS. The CMS federal requirement stipulates for these eligible ongoing Medicaid categories (starting April 2014) at the time of their renewal process, continued eligibility must be evaluated against the new MAGI Medicaid rules. This conversion project will move those existing cases into VaCMS and eligibility determination be performed by the external rules engine accomplished in the Eligibility Modernization MAGI project. Conversion will be performed on a month by month schedule (based on the Medicaid renewal date) until all cases for these categories have been converted from these two legacy systems, enabling the discontinuance of Medicaid from the ADAPT legacy system and the retirement of the CHAMPS legacy system. The Eligibility Modernization Conversion project will result in: The elimination of multiple Medicaid case management systems into a single case management system. Improve the use of technology for efficient case management. Consistency due to data consolidation. Reduction in fraud and errors through data consolidation.

<p><b>Department of Social Services (765) - EDSP - Eligibility Modernization - Program Migration Project</b></p> <p>The modernization and migration consists of MAPPER UNISYS system replacement for the ADAPT application and the Energy Assistance Program application. ADAPT is the current eligibility determination and case management system for SNAP, TANF, Employment Service. The Eligibility Modernization Program Migration Project will convert the cases that contain the programs in ADAPT and the Energy system into VaCMS along with accepting new applications for these programs via online (Customer Portal) and paper (manual data entry) processes. This project also involves the external rules engine (iLOG). All program rules will be incorporated into iLOG with the outcome of eligibility determination, authorization, and case management within this single case management solution. The EDSP Eligibility Modernization Program Migration Project anticipates minor changes to Customer Portal to accommodate VaCMS changes. All interfaces currently being performed by the legacy systems are included and must be performed by the single case management system. Work efforts will be performed to sunset the ADAPT and Energy legacy systems as all programs are converted to VaCMS. Leveraging the current web-based technology provided in the VaCMS solution and/or the technology in the Customer Portal will allow VDSS to work towards each state and local DSS employee having a single sign-on to access other VDSS systems. VDSS anticipates using a single authentication tool to allow users to sign into the VDSS "system" one time. VDSS has also researched other vendor solutions to resolve the challenge of having many different "terminal emulation" based legacy type applications. <p><b>Department of Health (601) — Electronic Death Registration (EDR)</b></p> <p>Project Approach: The Office of Information Management (OIM) has performed a feasibility analysis and considered options such as the availability of a Customer Off The Shelf (COTS) system or some form of "canned" software. After much research, it became readily apparent, that no related, customizable application exists or has been developed that DVR could use to perform their tasks regarding death registration. Several States such as Indiana and Nebraska have developed and deployed electronic death registration systems, but those systems are neither web-based nor available online. They remain client-server applications until now. Other States such as California, have developed a web-based electronic death registration system, but have significantly different requirements and lack the total automation that DVR desires. Additionally, some of the technologies used would not be compatible with other OIM systems which would make integration difficult and expensive. Furthermore, while standardization of death certificates throughout the United States is an objective, it might only be possible to a certain extent. The stakeholders of the applications for different States have different requirements. In order to best serve the requirements of the stakeholders (DVR, Funeral Directors, OCMEs, Physicians), the Office of Information Management along with the users of the Division of Vital Records, propose to develop an in-house, customized, web-based Electronic Death Registration system that will meet the needs of the Business Users and can be seamlessly integrated, with only nominal costs, into the current Virginia Vital Events and Screening Tracking System (VVESTS) which was also developed and created in-house by OIM. Therefore, OIM is proposing to add the (EDR) system as a new subsystem to VVESTS. Reducing many disparate systems into a single, central database will lower maintenance cost and as VVESTS has proven, will provide additional benefits of improved analysis capacity across programs, thus, permitting OIM to also utilize the existing infrastructure, advanced security features and existing Oracle software license. OIM will continue the same technology deployed with VVEST namely Oracle Web Technology, upgrading the current database to Oracle 11G, for the front end we will utilize Oracle Designer 2000 and web-toolkit and the web servers will utilize the Oracle Application Server powered by Apache v. 1.2 Furthermore, OIM is proposing to use some of the same IT team that so successfully developed the VVESTS application. This approach is also consistent with the strategic goal of OIM to develop enterprise architecture, rather than separate isolated systems. To reiterate, this new system shall be web-based, allowing all participating users to perform their duties and fulfill their responsibilities online, thereby, reducing and eventually eliminating any of the paperwork that is currently required.</p>	Mar 22, 2011	Dec 30, 2014	\$3,003,500

In order to properly manage the care provided, clinical data in the form of thousands of transactions per facility per day needs to be collected, stored and analyzed using an electronic medical record. The system would be implemented at all sixteen facilities and Central Office and would help to eliminate the manual data processes still used in many clinical areas. Develop standard business process and electronic content management for HR's three highest priority workflows: (a) Pay Action, (b) Annual Performance Management, and(c) Critical Hire; 3. Develop a solution that leverages the agency's SharePoint Server 2010 to meet VDOT HR's workflow improvement and electronic content management needs. The benefits of this project will increase the efficiency and effectiveness of Human Resources by converting three manual paper-based workflows into an electronic content management system with automated workflows. It will improve HR's overall productivity, service levels, and data accuracy while maintaining cost effectiveness and compliance with HR, IT, and records management's regulations, policies, and standards. Secure access to electronic personnel files regardless of time and location will enable a culture of collaboration across the enterprise. There is a huge opportunity for other organizations and agencies outside of VDOT to learn from this initiative. Other organizations who are interested in optimizing their HR processes have already expressed interest in learning about the benefits and results of this project effort. Identification of those agencies with potential interest (such as VITA and VCCS), and making recommendations and sharing project deliverables with those organizations will be made at the conclusion of this project or as requested.</p>	Mar 29, 2012	Mar 7, 2014	\$1,521,102

<b>Virginia Employment Commission (182) — Unemployment Insurance Modernization</b>	Sep 17, 2009	Feb 28, 2015	\$58,540,154
<p>The modernization of the Unemployment Insurance System is a major initiative for the VEC in the Agency Strategic Plan. This client/server system will replace the VEC's decades-old IBM-mainframe Benefits, Tax, and Wage systems. Agency stakeholders will have direct leadership and governance responsibilities for the Investment. Customer stakeholders include employers of the Commonwealth as well as individual citizens who require support from the Unemployment Insurance program. Approach: Prior to selecting a solution the VEC reviewed the similar efforts in other states and conducted interviews with states engaged in UI Modernization. VEC documented lessons learned and developed decision tools to be used in the procurement process. VEC also went through a Business Process Reengineering effort and developed process flows for key business processes. The solution consists of replacing the Unemployment Insurance Benefits, Tax, and Wage systems with a modern, integrated system based on client/server and web-based technologies. The solution enhances and expands self-service, document management, workflow, and on-line processing with applications that are easy to use and minimize manual intervention. Phase 1 of the solution was an RFP and selection and IT vendor partner. Phase 2 was to develop a comprehensive Project Plan, for the IAOC, and procure an IV&amp;V vendor who will review project progress at key milestones. Phase 3 was to define and document the Architectural designs and Technology Architecture requirements. Phase 4 is system construction based on the above architectural designs followed by testing, training, rollout, and project closing.</p>

<p><b>Department of Health (601) — Women, Infants, Children (WIC) Electronic Benefits Transfer (EBT) Project</b></p> <p>This project will develop and implement the business processes and associated technology to provide e-WIC issuance, redemption, payment, and reconciliation services to distribute food benefits in the Virginia and West Virginia WIC Programs, the states of the e-WIC Consortium. Virginia will act as the lead state and will perform Consortium level project management and administration activities. The project will require procurement of a number of services including support for the development of an Implementation Advanced Planning Document (IAPD), as required by the United States Department of Agriculture Food and Nutrition Service, Quality Assurance and Monitoring, and Design, Development, and Implementation of the selected e-WIC solution. During preliminary planning of the e-WIC project, the Virginia Division of WIC and Community Nutrition Services completed a baseline analysis of the current system and conducted a feasibility study and cost-benefit analysis to evaluate three e-WIC alternatives. The WIC EBT Feasibility Study and Cost Benefit Analysis found that the online, outsourced EBT technology received the highest ranking with respect to the evaluation criteria selected by the state. Online EBT requires a real-time connection to the host for transaction authorization, as the term off-line indicates, transactions at the point of sale (POS) do not require a real-time connection to the host for authorization, instead transactions are validated directly against data stored on a Smart card. Among other criteria, each alternative was evaluated with respect to its proven record of implementation, operation, and integration; its ability to increase accuracy and accountability; and its ability to minimize ongoing operations costs. Given the context of the Virginia WIC Program, including current IT development projects and in-house technology development support, the online, outsourced solution provides the greatest opportunity to meet project goals including, accomplishment of the proposed development schedule and implementation of proven technology.</p>	<p>Jan 8, 2009</p>	<p>Oct 13, 2014</p>	<p>\$6,619,018</p>

In an effort to follow the consortium model in achieving economies of scale and at the request of USDA FNS, the Virginia WIC Program will jointly and concurrently conduct e-WIC planning activities with West Virginia. As members of the Crossroads Consortium to develop a new WIC management information system (MIS), Virginia and West Virginia have the opportunity to leverage shared knowledge and similar development environments while furthering the adoption of e-WIC. In order to expedite e-WIC project initiation and planning in West Virginia, the Virginia WIC Program modified the RFP for planning services, issued on February 23, 2009, to include West Virginia. Virginia, having completed pre-planning for e-WIC and as the RFP initiator for planning, will take the lead state role in project management and administration. Virginia will be responsible for project procurements and funding administration. In addition to IAPD development, the modified RFP requests a baseline analysis, feasibility study and cost benefit analysis for West Virginia. Once these preliminary items are completed, Virginia and West Virginia will proceed with the planning activities associated with the RFP. The states will combine their efforts to develop a joint IAPD including functional requirements based on the Crossroads SAM system. The states will also work together to define system telecommunication and architecture requirements, retailer implementation requirements, and procurement specifications. At the completion of planning, both states will be prepared to develop an e-WIC solution that will interface with the Crossroads MIS.

During project planning the e-WIC Consortium, with support from a qualified planning services vendor contracted through the planning RFP, will develop an IAPD as required by the USDA Food and Nutrition Service. This document will include a joint functional requirements study, a general system design, a capacity plan, a project management plan, a statement of resource requirements, a schedule of milestones and activities with deliverables, a proposed budget, a retailer management plan, a retailer implementation plan, a security plan, and a training plan. The feasibility study and cost benefit analysis completed for each state will be finalized and will also become a part of the completed IAPD. The e-WIC Consortium will also prepare procurement requests for Quality Assurance (QA) and Design, Development, and Implementation (DD&I) services. Quality Assurance services will provide a formal methodology to evaluate, assess, recommend, and track the progress of e-WIC project variables (including cost, schedule, scope, quality, accuracy, completeness, timeliness, and consistency of deliverables) throughout the project life cycle. The QA service provider will develop plans for Issues Management, Change Management, and Risk Management and maintain corresponding logs to track project developments. The QA project plans will be incorporated into the formal project plan including the activities of both the Consortium project team and the DD&I contractor.

During project execution the e-WIC Consortium will work with a qualified EBT service developer to design, develop and implement the e-WIC system. Virginia, as the lead state of the Consortium, will be responsible for project management and contract administration throughout the duration of the project. The Consortium will submit regular status reports to the appropriate stakeholders including USDA FNS and other internal and external oversight authorities. At the completion of the e-WIC project the Consortium will manage the transition from project implementation to operations. Each state will contract for operations separately. The EBT service provider selected in each state will begin full operations as the State's EBT processor.

**Department of Taxation (161) - Collection and Audit Case Management Mobile System**

Jul 1, 2014	Jun 30, 2018	\$3,000,000
-------------	--------------	-------------

Mobile Collection and Case Management system will allow TAX field staff (auditors/collectors) to use tablets. The tablets would have an audit application that would encompass audit case management and audit workbench. Auditors could connect where ever a cell signal was available. The application would have the ability to work disconnected in the event there is no cell signal available. The system will have the ability to accept a credit/debit card or electronic check, and the ability to exchange encrypted electronic documents with taxpayers. The system will integrate directly with AR so audit returns could be loaded automatically w/the appropriate compliance code and no additional involvement by other staff. As technology moves to more mobile platforms, TAX needs to enable systems to interface with them. It also makes sense for TAX staff, especially those in the field to have the same tools as our customers. This solution will allow TAX staff the use of a tablet and/or smart phone in the field to assist taxpayers with filing returns and paying their taxes. The field rep would pull out his smart device and file the returns electronically, with the use of a Square which is an electronic device that is attached to a tablet or Smartphone that can process credit card payments. The rep will be able to take the payment electronically and have the confirmation of the filing and the payment emailed to the taxpayer. This presents an opportunity for educating the taxpayer and achieving the Commonwealth/TAX goals for electronic filing and payment. This would decrease paperwork for the agent and save TAX time and money because funds will be processed to the bank more efficiently, no delays or costs for mailing and there is no paper return or check process.

<b>Secretary of Health and Human Resources (188) - HIT/MITA Program</b> The purpose of the HIT/MITA Program is to align the Commonwealth with Federal direction relative to the American Recovery and Reinvestment Act (ARRA) and the Patient Protection and Affordable Care Act of 2010 (PPACA). These acts present significant funding opportunities to improve the quality and value of American healthcare. PPACA mandates Medicaid expansion in 2014, which is predicted to increase Virginia’s Medicaid membership by 35-45%. Leveraging the Federal funding opportunities to offset the impact of expansion is an important investment in Virginia’s future. The Federal funding available under ARRA and PPACA provide opportunities to achieve the following outcomes for Virginia: Build on current health reform efforts; Modernize information technology infrastructure as an enabler for future business transformation; Provide a technical environment where standards-based interoperability is possible between new and legacy systems; Provide web based self-directed service options for human services; *Reduce the need for large administrative and operational staff for Federal and State programs; Reduce overall long-term technology costs for Federal and State programs; and Provide an enterprise technology environment that is accessible on a pay-for-use basis by Federal, State, and local governments as well as non-government organizations, community based-services, and commercial interests as allowed by policy. <b>Department of Human Resource Management (129) - PMIS Migration from UNISYS</b> This project involves moving all DHRM applications off of the Unisys mainframe and into a server / web / relational database environment. NOTE: DHRM has submitted a budget request / decision package to DPB for \$5.5M for this project. The additional \$1.5M (that bring total project costs to \$7M) represent the monies that DHRM would already have in its base budget for existing personnel, office space, existing servers, etc. and would expend for the project over the FY15-16 biennium. At this stage of the cost estimation process DHRM anticipates that half of the \$5.5M requested in its decision package to DPB will be needed in FY15 and half in FY16. Authority: Title 2.2, Chapter 2, Article 10, § 2.2-201, and Titles 33, 46, and 58, Code of Virginia.

A. The transportation policy goals enumerated in this act shall be implemented by the Secretary of Transportation, including the Secretary acting as Chairman of the Commonwealth Transportation Board.

1. The maintenance of existing transportation assets to ensure the safety of the public shall be the first priority in budgeting, allocation, and spending. The highway share of the Transportation Trust Fund shall be used for highway maintenance and operation purposes prior to its availability for new development, acquisition, and construction.

2. The efficient and cost-effective movement of people and goods will consider the needs in, and connectivity of, all modes of transportation, including bicycling, walking, public transportation, highways, freight and passenger rail, ports, and airports. The planning, development, construction, and operations of Virginia’s transportation facilities will reflect this goal.

3. To the greatest extent possible, the appropriation of transportation revenues shall reflect planned spending of such revenues by agency and by program. The maximization of all federal transportation funds available to the Commonwealth shall be paramount in the budgetary, spending, and allocation processes. Notwithstanding any provision of law to the contrary, the secretary and all agencies within the transportation secretariat are hereby authorized to take all actions necessary to ensure that federal transportation funds are allocated and utilized for the maximum benefit of the Commonwealth, whether such actions or funds or both are authorized under P.L. 112-141 of the 112th Congress, or any successor or related federal transportation legislation, or regulation, rule, or guidance issued by the U.S. Department of Transportation or any federal agency.

B.1. The secretary shall ensure that the allocation of transportation funds apportioned and for which obligation authority is expected to be available under federal law shall be in accordance with such laws and in support of the transportation policy goals enumerated in this act. Furthermore, the secretary is authorized to take all actions necessary to allocate the required match for federal highway funds to ensure their appropriate and timely obligation and expenditure within the fiscal constraints of state transportation revenues. By June 1 of each year, the secretary, as Chairman of the Board, shall report to the Governor and General Assembly on the allocation of such federal transportation funds and the actions taken to provide the required match.

2. The board shall only make allocations providing the required match for federal Regional Surface Transportation Program funds to those Metropolitan Planning Organizations in urbanized areas greater than 200,000 that, in consultation with the Office of Intermodal Planning and Investment, have developed regional transportation and land use performance measures pursuant to Chapters 670 and 690 of the 2009 Acts of Assembly and have been approved by the board.

3. Projects funded, in whole or part, from federal funds referred to as congestion mitigation and air quality improvement, shall be selected as directed by the board. Such funds shall be federally obligated within 12 months of their allocation by the board and expended within 36 months of such obligation. If the requirements included in this paragraph are not met by such agency or recipient, then the board shall use such federal funds for any other project eligible under 23 USC 149.

Nongeneral fund revenues and balances required for this purpose are hereby appropriated.

D. Any supplemental salary payment to a state employee or class of state employees by a local governing body shall be governed by a written agreement between the agency head of the employee or class of employees receiving the supplement and the chief executive officer of the local governing body. The Secretary of Administration, in conjunction with the Secretary of Finance, may establish a program that allows for the sharing of cost savings from improved productivity, efficiency, and performance with agencies and employees. Such gain sharing programs require a management philosophy of open communication encouraging employee participation; a system which seeks, evaluates and implements employee input on increasing productivity; and a formula for measuring productivity gains and sharing these gains between employees and the agency. The Department of Human Resource Management, in conjunction with the Department of Planning and Budget, shall develop specific gain sharing program guidelines for use by agencies. In setting the employer retirement contribution rates for subsequent biennia, the board shall calculate a separate, supplemental employer contribution rate that will amortize such deferred payments over a period of ten years using the board's assumed long-term rate of return. provided such actions have been previously approved by the Governor, or 4. downsizing actions taken by state agencies as the result of the loss of federal or other grants, private donations, or other nongeneral fund revenue, and if the Director of the Department of Human Resource Management certifies that the action comports with personnel policy. Under these conditions, the entire cost of such benefits for involuntarily separated employees shall be factored into the employer contribution rates paid to the Virginia Retirement System.

M. The purpose of this paragraph is to provide a transitional severance benefit, under the conditions specified, to eligible city, county, school division or other political subdivision employees who are involuntarily separated from employment with their employer.

1.a. "Involuntary separation" includes, but is not limited to, terminations and layoffs from employment with the employer, or being placed on leave without pay-layoff or equivalent status, due to budget reductions, employer reorganizations, workforce downsizings, or other causes not related to the job performance or misconduct of the employee, but shall not include voluntary resignations. As used in this paragraph, a "terminated employee" shall mean an employee who is involuntarily separated from employment with his employer.

2.a. Any (i) "eligible employee" as defined in § 51.1-132, (ii) "teacher" as defined in § 51.1-124.3, and (iii) any "local officer" as defined in § 51.1.124.3 except for the treasurer, commissioner of the revenue, attorney for the Commonwealth, clerk of a circuit court, or sheriff of any county or city, and (a) for whom reemployment with his employer is not possible because there is no available position for which the employee is qualified or the position offered to the employee requires relocation or a reduction in salary and (b) whose involuntary separation was due to causes other than job performance or misconduct, shall be eligible, under the conditions specified, for the transitional severance benefit conferred by this paragraph. The date of involuntary separation shall mean the date an employee was terminated from employment or placed on leave without pay-layoff or equivalent status.

b. Eligibility shall commence on the date of involuntary separation.

3.a. On his date of involuntary separation, an eligible employee with (i) two years' service or less to the employer shall be entitled to receive a transitional severance benefit equivalent to four weeks of salary; (ii) three years through and including nine years of consecutive service to the employer shall be entitled to receive a transitional severance benefit equivalent to four weeks of salary plus one additional week of salary for every year of service over two years; (iii) ten years through and including fourteen years of consecutive service to the employer shall be entitled to receive a transitional severance benefit equivalent to twelve weeks of salary plus two additional weeks of salary for every year of service over nine years; or (iv) fifteen years or more of consecutive service to the employer shall be entitled to receive a transitional severance benefit equivalent to two weeks of salary for every year of service, not to exceed thirty-six weeks of salary.

b. Transitional severance benefits shall be computed by the terminating employer's payroll department. Partial years of service shall be rounded up to the next highest year of service.

c. Transitional severance benefits shall be paid by the employer in the same manner as normal salary. In accordance with § 60.2-229, transitional severance benefits shall be allocated to the date of involuntary separation. The right of any employee who receives a transitional severance benefit to also receive unemployment compensation pursuant to § 60.2-100 et seq. shall not be denied, abridged, or modified in any way due to receipt of the transitional severance benefit; however, any employee who is entitled to unemployment compensation shall have his transitional severance benefit reduced by the amount of such unemployment compensation. Any offset to a terminated employee's transitional severance benefit due to reductions for unemployment compensation shall be paid in one lump sum at the time the last transitional severance benefit payment is made.

d. For twelve months after the employee's date of involuntary separation, the employee shall continue to be covered under the (i) health insurance plan administered by the employer for its employees, if he participated in such plan prior to his date of involuntary separation, and (ii) group life insurance plan administered by the Virginia Retirement System pursuant to Chapter 5 (§ 51.1-500 et seq.) of Title 51.1, or such other group life insurance plan as may be administered by the employer. During such twelve months, the terminating employer shall continue to pay its share of the terminated employee's premiums. Upon expiration of such twelve month period, the terminated employee shall be eligible to purchase continuing health insurance coverage under COBRA.

e. Transitional severance benefit payments shall cease if a terminated employee is reemployed or hired in an individual capacity as an independent contractor or consultant by the employer during the time he is receiving such payments.

f. All transitional severance benefits payable pursuant to this section shall be subject to applicable federal laws and regulations.

4.a. In lieu of the transitional severance benefit provided in subparagraph 3 of this paragraph, any otherwise eligible employee who, on the date of involuntary separation, is also (i) a vested member of the Virginia Retirement System, including a member eligible for the benefits described in subsection B of § 51.1-138, and (ii) at least fifty years of age, may elect to have the employer purchase on his behalf years to be credited to either his age or creditable service or a combination of age and creditable service, except that any years of credit purchased on behalf of a member of the Virginia Retirement System, including a member eligible for the benefits described in subsection B of § 51.1-138, who is eligible for unreduced retirement shall be added to his creditable service and not his age. The cost of each year of age or creditable service purchased by the employer shall be equal to fifteen percent of the employee's present annual compensation. The number of years of age or creditable service to be purchased by the employer shall be equal to the quotient obtained by dividing (i) the cash value of the benefits to which the employee would be entitled under subparagraphs 3.a. and 3.d. of this paragraph by (ii) the cost of each year of age or creditable service. Partial years shall be rounded up to the next highest year. Deferred retirement under the provisions of subsection C of §§ 51.1-153 and 51.1-205, and disability retirement under the provisions of § 51.1-156 et seq., shall not be available under this paragraph.

b. In lieu of the (i) transitional severance benefit provided in subparagraph 3 of this paragraph and (ii) the retirement program provided in this subsection, any employee who is otherwise eligible may take immediate retirement pursuant to §§ 51.1-155.1 or 51.1-155.2.

c. The retirement allowance for any employee electing to retire under this paragraph who, by adding years to his age, is between ages fifty-five and sixty-five, shall be reduced on the actuarial basis provided in subdivision A. 2. of § 51.1-155.

d. The retirement program provided in this subparagraph shall be otherwise governed by policies and procedures developed by the Virginia Retirement System.

e. Costs associated with the provisions of this subparagraph shall be factored into the employer contribution rates paid to the Virginia Retirement System.

N. The final sentence of § 51.1-145 (N), Code of Virginia providing that the employer contribution rate established for each employer may include the annual rate of contribution payable by such employer with respect to employees enrolled in optional defined contribution retirement plans, shall not apply to optional defined retirement plans established under § 51.1-126 for employees engaged in teaching, administrative or research duties at institutions of higher education, § 51.1-126.1 for employees of teaching hospitals other than VCU and UVA Medical Centers, and § 51.1-126.3 for University of Virginia Medical Center employees.

A. To accomplish savings estimated at \$30,000,000 the first year and ~~\$30,000,000 the second year~~, the Department of Planning and Budget is hereby authorized to transfer to this Item from the general fund appropriation for state aid to local government programs or receive reimbursement payments in a manner that provides localities flexibility in how such savings are implemented.

B. The Director of the Department of Planning and Budget shall provide the chief operating officer of each city and county in the Commonwealth a list of certain state aid to local government programs along with an estimate of the general fund amount for each program that each county and city could expect to receive from the state during ~~each the first~~ year of the biennium. The total amount listed for these programs will serve as the basis for calculating the savings apportioned to each city and county for this Item. The pro rata savings apportionment will be equal to the percentage of the aggregate general fund amount for all of these state aid programs in each city and county, with such savings totaling \$30,000,000 the first year and ~~\$30,000,000 the second year~~.

C. Each city and county in the Commonwealth shall have flexibility in determining how it will implement the savings apportioned to it. Each city and county can choose to (i) take the total savings out of one program included on the list provided by the Department of Planning and Budget, (ii) reduce multiple state aid programs on a proportional basis or by a specified percentage reduction, or (iii) reimburse the Commonwealth in aggregate for its share of the savings, thereby keeping the state aid programs at an unreduced level. Each locality may also use option (iii) in combination with option (i) or (ii). The governing body of each city and county shall make its selection and certify its choice to the Director, Department of Planning and Budget, within 30 days of receipt of the savings amount apportioned to it from the Department of Planning and Budget. Within 10 days of receipt, the Director of the Department of Planning and Budget shall review such certification for accuracy to ascertain that the required savings amount apportioned to the city or county is obtainable using the selected option(s) submitted on the certification. Unless the Director of the Department of Planning and Budget finds a certification to include savings that are not obtainable or sustainable, the certification shall be approved and implemented without further delay. In the event that a city or county has not submitted or obtained an approved certification by January 1, 2015, the Director of the Department of Planning and Budget is hereby authorized to withhold an amount equivalent to the savings amount apportioned to the affected city or county from the aid to local government programs that the Director determines are most discretionary and represent general purpose aid to the local government in question before he begins to withhold any funds from categorical grants serving a particular functional area or public service.

D. The savings in state aid to local government programs identified by each city or county on its approved certification (or by the Director of the Department of Planning and Budget in absence of an approved certification) shall be transferred from the other items where such amounts are appropriated in this act to offset the reversion amount listed in this Item. Payments from local governments electing to use option (iii) in Paragraph C. shall be deposited to a suspense account which shall be administered pursuant to § 3-1.03 Part 3.

## PART 2: CAPITAL PROJECT EXPENSES

### § 2-0. GENERAL CONDITIONS

A.1. The General Assembly hereby authorizes the capital projects listed in this act. The amounts hereinafter set forth are appropriated to the state agencies named for the indicated capital projects. Amounts so appropriated and amounts reappropriated pursuant to paragraph G of this section shall be available for expenditure during the current biennium, subject to the conditions controlling the expenditures of capital project funds as provided by law. Reappropriated amounts, unless otherwise stated, are limited to the unexpended appropriation balances at the close of the previous biennium, as shown by the records of the Department of Accounts.

2. The Director, Department of Planning and Budget, may transfer appropriations listed in Part 2 of this act from the second year to the first year in accordance with § 4-1.03 a 5 of this act.

B. The five-digit number following the title of a project is the code identification number assigned for the life of the project.

C. Except as herein otherwise expressly provided, appropriations or reappropriations for structures may be used for the purchase of equipment to be used in the structures for which the funds are provided, subject to guidelines prescribed by the Governor.

D. Notwithstanding any other provisions of law, appropriations for capital projects shall be subject to the following:

1. Appropriations or reappropriations of funds made pursuant to this act for planning of capital projects shall not constitute implied approval of construction funds in a future biennium. Funds, other than the reappropriations referred to above, for the preparation of capital project proposals must come from the affected agency's existing resources.

2. No capital project for which appropriations for planning are contained in this act, nor any project for which appropriations for planning have been previously approved, shall be considered for construction funds until preliminary plans and cost estimates are reviewed by the Department of General Services. The purpose of this review is to avoid unnecessary expenditures for each project, in the interest of assuring the overall cost of the project is reasonable in relation to the purpose intended, regardless of discrete design choices.

E.1. Expenditures from Items in this act identified as "Maintenance Reserve" are to be made only for the maintenance of property, plant, and equipment as defined in § 4-4.01c of this act to the extent that funds included in the appropriation to the agency for this purpose in Part 1 of this act are insufficient.

2. Agencies and institutions of higher education can expend up to \$1,000,000 for a single repair or project through the maintenance reserve appropriation without a separate appropriation. Such expenditures shall be subject to rules and regulations prescribed by the Governor. To the extent an agency or institution of higher education has identified a potential project that exceeds this threshold or state agency has identified a potential project that exceeds the threshold prescribed in the rules or regulations, the Director, Department of Planning and Budget, can provide exemptions to the threshold as long as the project still meets the definition of a maintenance reserve project as defined by the Department of Planning and Budget.

3. Only facilities supported wholly or in part by the general fund shall utilize general fund maintenance reserve appropriations. Facilities supported entirely by nongeneral funds shall accomplish maintenance through the use of nongeneral funds.

#### F. Conditions Applicable to Bond Projects

1. The capital projects listed in §§ 2-23 and 2-24 for the indicated agencies and institutions of higher education are hereby authorized and sums from the sources and in the amount indicated are hereby appropriated and reappropriated. The issuance of bonds in a principal amount plus amounts needed to fund issuance costs, reserve funds, and other financing expenses, including capitalized interest for any project listed in §§ 2-23 and 2-24 is hereby authorized.

Using the Auditor of Public Accounts' calculation for fiscal year 2011, the State Comptroller shall deduct half of the amount in excess of 50 percent from any current payment of local fines and fees before remitting to the localities their remaining collections. When the State Comptroller has recovered in total, the half of the amount exceeding 50 percent, he shall pay all local collections monthly directly to the locality's treasury. The State Comptroller shall promptly and without delay transmit any and all non-withheld local fees and fines to the locality's treasury not later than sixty (60) days after these fines and fees were deposited and recorded in the state treasury by the District Courts. Furthermore, the State Comptroller and the Executive Secretary of the Supreme Court shall work with the District Courts and the localities to develop a process to provide the localities a complete accounting of when these fees were collected. The State Comptroller shall deposit the withheld funds in the Literary Fund, as they become available.

2. *By May 1, 2015 the Auditor of Public Accounts shall calculate the fines reversion amount defined as equal to one-quarter of (i) the total of the local fines and forfeitures collected by the District Courts in the immediately preceding fiscal year less (ii) 65 percent of the total fines and forfeitures collected by the District Courts for such prior fiscal year for each locality.*

**PART 4: GENERAL PROVISIONS****§ 4-0.00 OPERATING POLICIES****§ 4-0.01 OPERATING POLICIES**

- a. Each appropriating act of the General Assembly shall be subject to the following provisions and conditions, unless specifically exempt elsewhere in this act.
- b. All appropriations contained in this act, or in any other appropriating act of the General Assembly, are declared to be maximum appropriations and conditional on receipt of revenue.
- c. The Governor, as chief budget officer of the state, shall ensure that the provisions and conditions as set forth in this section are strictly observed.
- d. Public higher education institutions are not subject to the provisions of § 2.2-4800, Code of Virginia, or the provisions of the Department of Accounts' Commonwealth Accounting Policies and Procedures manual (CAPP) topic 20505 with regard to students who are veterans of the United States armed services and National Guard and are in receipt of federal educational benefits under the G.I. Bill. Public higher education shall establish internal procedures for the continued enrollment of such students to include resolution of outstanding accounts receivable.

**§ 4-1.00 APPROPRIATIONS****§ 4-1.01 PREREQUISITES FOR PAYMENT**

- a. The State Comptroller shall not pay any money out of the state treasury except pursuant to appropriations in this act or in any other act of the General Assembly making an appropriation during the current biennium.
- b. Moneys shall be spent solely for the purposes for which they were appropriated by the General Assembly, except as specifically provided otherwise by § 4-1.03 Appropriation Transfers, § 4-4.01 Capital Projects, or § 4-5.01 a. Settlement of Claims with Individuals. Should the Governor find that moneys are not being spent in accordance with provisions of the act appropriating them, he shall restrain the State Comptroller from making further disbursements, in whole or in part, from said appropriations. Further, should the Auditor of Public Accounts determine that a state or other agency is not spending moneys in accordance with provisions of the act appropriating them, he shall so advise the Governor or other governing authority, the State Comptroller, the Chairman of the Joint Legislative Audit and Review Commission, and Chairmen of the Senate Finance and House Appropriations Committees.
- c. Exclusive of revenues paid into the general fund of the state treasury, all revenues earned or collected by an agency, and contained in an appropriation item to the agency shall be expended first during the fiscal year, prior to the expenditure of any general fund appropriation within that appropriation item, unless prohibited by statute or by the terms and conditions of any gift, grant or donation.

**§ 4-1.02 WITHHOLDING OF SPENDING AUTHORITY**

- a. For purposes of this subsection, withholding of spending authority is defined as any action pursuant to a budget reduction plan approved by the Governor to address a declared shortfall in budgeted revenue that impedes or limits the ability to spend appropriated moneys, regardless of the mechanism used to effect such withholding.
  - b.1. Changed Expenditure Factors: The Governor is authorized to reduce spending authority, by withholding allotments of appropriations, when expenditure factors, such as enrollments or population in institutions, are smaller than the estimates upon which the appropriation was based. Moneys generated from the withholding action shall not be reallocated for any other purpose, provided the withholding of allotments of appropriations under this provision shall not occur until at least 15 days after the Governor has transmitted a statement of changed factors and intent to withhold moneys to the Chairmen of the House Appropriations and Senate Finance Committees.
  - 2. Moneys shall not be withheld on the basis of reorganization plans or program evaluations until such plans or evaluations have been specifically presented in writing to the General Assembly at its next regularly scheduled session.
- c. Increased Nongeneral Fund Revenue:
  - 1. General fund appropriations to any state agency for operating expenses are supplemental to nongeneral fund revenues collected by the agency. To the extent that nongeneral fund revenues collected in a fiscal year exceed the estimate on which the operating budget was based, the Governor is authorized to withhold general fund spending authority, by withholding allotments of appropriations, in an equivalent amount. However, this limitation shall not apply to (a) restricted excess tuition and fees for educational and general programs in the institutions of higher education, as defined in § 4-2.01 c of this act; (b) appropriations to institutions of higher education designated for fellowships, scholarships and loans; (c) gifts or grants which are made to any state agency for the direct costs of a stipulated project; (d) appropriations to institutions for the mentally ill or

intellectually disabled payable from the Behavioral Health and Developmental Services Revenue Fund; and (e) general fund appropriations for highway construction and mass transit. Moneys unallotted under this provision shall not be reallocated for any other purpose.

2. To the degree that new or additional grant funds become available to supplement general fund appropriations for a program, following enactment of an appropriation act, the Governor is authorized to withhold general fund spending authority, by withholding allotments of appropriations, in an amount equivalent to that provided from grant funds, unless such action is prohibited by the original provider of the grant funds. The withholding action shall not include general fund appropriations, which are required to match grant funds. Moneys unallotted under this provision shall not be reallocated for any other purpose.

d. Reduced General Fund Resources:

1. The term "general fund resources" as applied in this subsection includes revenues collected and paid into the general fund of the state treasury during the current biennium, transfers to the general fund of the state treasury during the current biennium, and all unexpended balances brought forward from the previous biennium.

2. In the event that general fund resources are estimated by the Governor to be insufficient to pay in full all general fund appropriations authorized by the General Assembly, the Governor shall, subject to the qualifications herein contained, withhold general fund spending authority, by withholding allotments of appropriations, to prevent any expenditure in excess of the estimated general fund resources available.

3. In making this determination, the Governor shall take into account actual general fund revenue collections for the current fiscal year and the results of a formal written re-estimate of general fund revenues for the current and next biennium, prepared within the previous 90 days, in accordance with the process specified in § 2.2-1503, Code of Virginia. Said re-estimate of general fund revenues shall be communicated to the Chairmen of the Senate Finance, House Appropriations and House Finance Committees, prior to taking action to reduce general fund allotments of appropriations on account of reduced resources.

4.a) In addition to monthly reports on the status of revenue collections relative to the current fiscal year's estimate, the Governor shall provide a written quarterly assessment of the current economic outlook for the remainder of the fiscal year to the Chairmen of the House Appropriations, House Finance, and Senate Finance Committees.

b) Within five business days after the preliminary close of the state accounts at the end of the fiscal year, the State Comptroller shall provide the Governor with the actual total of (1) individual income taxes, (2) corporate income taxes, and (3) sales taxes for the just-completed fiscal year, with a comparison of such actual totals with the total of such taxes in the official budget estimate for that fiscal year. If that comparison indicates that the total of (1) individual income taxes, (2) corporate income taxes, and (3) sales taxes, as shown on the preliminary close, was one percent or more below the amount of such taxes in the official budget estimate for the just-completed fiscal year, the Governor shall prepare a written re-estimate of general fund revenues for the current biennium and the next biennium in accordance with § 2.2-1503, Code of Virginia, to be reported to the Chairmen of the Senate Finance, House Finance and House Appropriations Committees, not later than September 1 following the close of the fiscal year.

5.a) The Governor shall take no action to withhold allotments until a written plan detailing specific reduction actions approved by the Governor, identified by program and appropriation item, has been presented to the Chairmen of the House Appropriations and Senate Finance Committees. Subsequent modifications to the approved reduction plan also must be submitted to the Chairmen of the House Appropriations and Senate Finance Committees, prior to withholding allotments of appropriations.

b) In addition to the budget reduction plan approved by the Governor, all budget reduction proposals submitted by state agencies to the Governor or the Governor's staff, including but not limited to the Department of Planning and Budget, the Governor's Cabinet secretaries, or the Chief of Staff, whether submitted electronically or otherwise, shall be made available via electronic means to the Chairmen of the House Appropriations and Senate Finance Committees concurrently with that budget reduction plan.

6. In effecting the reduction of expenditures, the Governor shall not withhold allotments of appropriations for:

a) More than 15 percent cumulatively of the annual general fund appropriation contained in this act for operating expenses of any one state or nonstate agency or institution designated in this act by title, and the exact amount withheld, by state or nonstate agency or institution, shall be reported within five calendar days to the Chairmen of the Senate Finance and House Appropriations Committees. State agencies providing funds directly to grantees named in this act shall not apportion a larger cut to the grantee than the proportional cut apportioned to the agency. Without regard to § 4-5.05 b.4. of this act, the remaining appropriation to the grantee which is not subject to the cut, equal to at least 85 percent of the annual appropriation, shall be made by July 31, or in two equal installments, one payable by July 31 and the other payable by December 31, if the remaining appropriation is less than or equal to \$500,000, except in cases where the normal conditions of the grant dictate a different payment schedule.

b) The payment of principal and interest on the bonded debt or other bonded obligations of the Commonwealth, its agencies and its authorities, or for payment of a legally authorized deficit.

c) The payments for care of graves of Confederate dead.

d) The employer contributions, and employer-paid member contributions, to the Social Security System, Virginia Retirement System, Judicial Retirement System, State Police Officers Retirement System, Virginia Law Officers Retirement System, Optional Retirement Plan for College and University Faculty, Optional Retirement Plan for Political Appointees, Optional Retirement Plan for Superintendents, the Volunteer Service Award Program, the Virginia Retirement System's group life insurance, sickness and disability, and retiree health care credit programs for state employees, state-supported local employees and teachers. If the Virginia Retirement System Board of Trustees approves a contribution rate for a fiscal year that is lower than the rate on which the appropriation was based, or if the United States government approves a Social Security rate that is lower than that in effect for the current budget, the Governor may withhold excess contributions. However, employer and employee paid rates or contributions for health insurance and matching deferred compensation for state employees, state-supported local employees and teachers may not be increased or decreased beyond the amounts approved by the General Assembly. Payments for the employee benefit programs listed in this paragraph may not be delayed beyond the customary billing cycles that have been established by law or policy by the governing board.

e) The payments in fulfillment of any contract awarded for the design, construction and furnishing of any state building.

f) The salary of any state officer for whom the Constitution of Virginia prohibits a change in salary.

g) The salary of any officer or employee in the Executive Department by more than two percent (irrespective of the fund source for payment of salaries and wages); however, the percentage of reduction shall be uniformly applied to all employees within the Executive Department.

h) The appropriation supported by the State Bar Fund, as authorized by § 54.1-3913, Code of Virginia, unless the supporting revenues for such appropriation are estimated to be insufficient to pay the appropriation.

7. The Governor is authorized to withhold specific allotments of appropriations by a uniform percentage, a graduated reduction or on an individual basis, or apply a combination of these actions, in effecting the authorized reduction of expenditures, up to the maximum of 15 percent, as prescribed in subdivision 6a of this subsection.

8. Each nongeneral fund appropriation shall be payable in full only to the extent the nongeneral fund revenues from which the appropriation is payable are estimated to be sufficient. The Governor is authorized to reduce allotments of nongeneral fund appropriations by the amount necessary to ensure that expenditures do not exceed the supporting revenues for such appropriations; however, the Governor shall take no action to reduce allotments of appropriations for major nongeneral fund sources on account of reduced revenues until such time as a formal written re-estimate of revenues for the current and next biennium, prepared in accordance with the process specified in § 2.2-1503, Code of Virginia, has been reported to the Chairmen of the Senate Finance, House Finance, and House Appropriations Committees. For purposes of this subsection, major nongeneral fund sources are defined as Highway Maintenance and Operating Fund and Transportation Trust Fund.

9. Notwithstanding any contrary provisions of law, the Governor is authorized to transfer to the general fund on June 30 of each year of the biennium, or within 20 days from that date, any available unexpended balances in other funds in the state treasury, subject to the following:

a) The Governor shall declare in writing to the Chairmen of the Senate Finance and House Appropriations Committees that a fiscal emergency exists which warrants the transfer of nongeneral funds to the general fund and reports the exact amount of such transfer within five calendar days of the transfer;

b) No such transfer may be made from retirement or other trust accounts, the State Bar Fund as authorized by § 54.1-3913, Code of Virginia, debt service funds, or federal funds; and

c) The Governor shall include for informative purposes, in the first biennial budget he submits subsequent to the transfer, the amount transferred from each account or fund and recommendations for restoring such amounts.

10. The Director, Department of Planning and Budget, shall make available via electronic means a report of spending authority withheld under the provisions of this subsection to the Chairmen of the Senate Finance and House Appropriations Committees within five calendar days of the action to withhold. Said report shall include the amount withheld by agency and appropriation item.

11. If action to withhold allotments of appropriation under this provision is inadequate to eliminate the imbalance between projected general fund resources and appropriations, the Speaker of the House of Delegates and the President pro tempore of the Senate shall be advised in writing by the Governor, so that they may consider requesting a special session of the General Assembly.

Any nongeneral fund cash balance recorded on the books of the Department of Accounts as unexpended on the last day of the fiscal year may be appropriated for use in the succeeding fiscal year with the prior written approval of the Director, Department of Planning and Budget, unless the General Assembly shall have specifically provided otherwise. Revenues deposited to the Virginia Health Care Fund shall be used only as the state share of Medicaid, unless the General Assembly specifically authorizes an alternate use. With regard to the appropriation of other nongeneral fund cash balances, the Director shall make a listing of such transactions available to the public via electronic means no less than ten business days following the approval of the appropriation of any such balance.

5. Reporting:

The Director, Department of Planning and Budget, shall make available via electronic means a report on increases in unappropriated nongeneral funds in accordance with § 4-8.00, Reporting Requirements, or as modified by specific provisions in this subsection.

b. AGRIBUSINESS EQUIPMENT FOR THE DEPARTMENT OF CORRECTIONS

The Director of the Department of Planning and Budget may increase the Department of Corrections appropriation for the purchase of agribusiness equipment or the repair or construction of agribusiness facilities by an amount equal to fifty percent of any annual amounts in excess of fiscal year 1992 deposits to the general fund from agribusiness operations. It is the intent of the General Assembly that appropriation increases for the purposes specified shall not be used to reduce the general fund appropriations for the Department of Corrections.

§ 4-1.05 REVERSION OF APPROPRIATIONS AND REAPPROPRIATIONS

a. GENERAL FUND OPERATING EXPENSE:

1.a) General fund appropriations which remain unexpended on (i) the last day of the previous biennium or (ii) the last day of the first year of the current biennium, shall be reappropriated and allotted for expenditure where required by the Code of Virginia, where necessary for the payment of preexisting obligations for the purchase of goods or services, or where desirable, in the determination of the Governor, to address any of the six conditions listed in § 4-1.03 c.5 of this act or to provide financial incentives to reduce spending to effect current or future cost savings. With the exception of the unexpended general fund appropriations of agencies in the Legislative Department, the Judicial Department, the Independent Agencies, or institutions of higher education, all other such unexpended general fund appropriations unexpended on the last day of the previous biennium or the last day of the first year of the current biennium shall revert to the general fund.

General fund appropriations for agencies in the Legislative Department, the Judicial Department, and the Independent Agencies shall be reappropriated, except as may be specifically provided otherwise by the General Assembly. General fund appropriations shall also be reappropriated for institutions of higher education, subject to § 2.2-5005, Code of Virginia.

2. a. The Governor shall report within five calendar days after completing the reappropriation process to the Chairmen of the Senate Finance and House Appropriations Committees on the reappropriated amounts for each state agency in the Executive Department. He shall provide a preliminary report of reappropriation actions on or before November 1 and a final report on or before December 20 to the Chairmen of the House Appropriations and Senate Finance Committees.

b. The Director, Department of Planning and Budget, may transfer reappropriated amounts within an agency to cover nonrecurring costs.

3. Pursuant to subsection E of § 2.2-1125, Code of Virginia, the determination of compliance by an agency or institution with management standards prescribed by the Governor shall be made by the Secretary of Finance and the Secretary having jurisdiction over the agency or institution, acting jointly.

4. The general fund resources available for appropriation in the first enactment of this act include the reversion of certain unexpended balances in operating appropriations as of June 30 of the prior fiscal year, which were otherwise required to be reappropriated by language in the Appropriation Act.

5. Upon request, the Director, Department of Planning and Budget, shall provide a report to the Chairmen of the House Appropriations and Senate Finance Committees showing the amount reverted for each agency and the total amount of such reversions.

b. NONGENERAL FUND OPERATING EXPENSE:

Based on analysis by the State Comptroller, when any nongeneral fund has had no increases or decreases in fund balances for a period of 24 months, the State Comptroller shall promptly transfer and pay the balance into the fund balance of the general fund. If it is subsequently determined that an appropriate need warrants repayment of all or a portion of the amount transferred, the Director, Department of Planning and Budget shall include repayment in the next budget bill submitted to the General Assembly. This provision does not apply to funds held in trust by the Commonwealth.

c. CAPITAL PROJECTS:

1. Upon certification by the Director, Department of Planning and Budget, the State Comptroller is hereby authorized to revert to the fund balance of the general fund any portion of the unexpended general fund cash balance and corresponding appropriation or reappropriation for a capital project when the Director determines that such portion is not needed for completion of the project. The State Comptroller may similarly return to the appropriate fund source any part of the unexpended nongeneral fund cash balance and reduce any appropriation or reappropriation which the Director determines is not needed to complete the project.

2. The unexpended general fund cash balance and corresponding appropriation or reappropriation for capital projects shall revert to and become part of the fund balance of the general fund during the current biennium as of the date the Director, Department of Planning and Budget, certifies to the State Comptroller that the project has been completed in accordance with the intent of the appropriation or reappropriation and there are no known unpaid obligations related to the project. The State Comptroller shall return the unexpended nongeneral fund cash balance, if there be any, for such completed project to the source from which said nongeneral funds were obtained. Likewise, he shall revert an equivalent portion of the appropriation or reappropriation of said nongeneral funds.

3. The Director, Department of Planning and Budget, may direct the restoration of any portion of the reverted amount if he shall subsequently verify an unpaid obligation or requirement for completion of the project. In the case of a capital project for which an unexpended cash balance was returned and appropriation or reappropriation was reverted in the prior biennium, he may likewise restore any portion of such amount under the same conditions.

§ 4-1.06 LIMITED ADJUSTMENTS OF APPROPRIATIONS

a. LIMITED CONTINUATION OF APPROPRIATIONS.

Notwithstanding any contrary provision of law, any unexpended balances on the books of the State Comptroller as of the last day of the previous biennium shall be continued in force for such period, not exceeding 10 days from such date, as may be necessary in order to permit payment of any claims, demands or liabilities incurred prior to such date and unpaid at the close of business on such date, and shown by audit in the Department of Accounts to be a just and legal charge, for values received as of the last day of the previous biennium, against such unexpended balances.

b. LIMITATIONS ON CASH DISBURSEMENTS.

Notwithstanding any contrary provision of law, the State Comptroller may begin preparing the accounts of the Commonwealth for each subsequent fiscal year on or about 10 days before the start of such fiscal year. The books will be open only to enter budgetary transactions and transactions that will not require the receipt or disbursement of funds until after June 30. Should an emergency arise, or in years in which July 1 falls on a weekend requiring the processing of transactions on or before June 30, the State Comptroller may, with notification to the Auditor of Public Accounts, authorize the disbursement of funds drawn against appropriations of the subsequent fiscal year, not to exceed the sum of three million dollars (\$3,000,000) from the general fund. This provision does not apply to debt service payments on bonds of the Commonwealth which shall be made in accordance with bond documents, trust indentures, and/or escrow agreements.

§ 4-1.07 ALLOTMENTS

Except when otherwise directed by the Governor within the limits prescribed in §§ 4-1.02 Withholding of Spending Authority, 4-1.03 Appropriation Transfers, and 4-1.04 Appropriation Increases of this act, the Director, Department of Planning and Budget, shall prepare and act upon the allotment of appropriations required by this act, and by § 2.2-1819, Code of Virginia, and the authorizations for rates of pay required by this act. Such allotments and authorizations shall have the same effect as if the personal signature of the Governor were subscribed thereto. This section shall not be construed to prohibit an appeal by the head of any state agency to the Governor for reconsideration of any action taken by the Director, Department of Planning and Budget, under this section.

**§ 4-2.00 REVENUES**

§ 4-2.01 NONGENERAL FUND REVENUES

a. SOLICITATION AND ACCEPTANCE OF DONATIONS, GIFTS, GRANTS, AND CONTRACTS:

1. No state agency shall solicit or accept any donation, gift, grant, or contract without the written approval of the Governor except under written guidelines issued by the Governor which provide for the solicitation and acceptance of nongeneral funds, except that donations or gifts to the Virginia War Memorial Foundation that are small in size and number and valued at less than \$5,000, such as library items or small display items, may be approved by the Executive Director of the Virginia War

Memorial in consultation with the Secretary of Veterans Affairs and Homeland Security. All other gifts and donations to the Virginia War Memorial Foundation must receive written approval from the Secretary of Veterans Affairs and Homeland Security.

2. The Governor may issue policies in writing for procedures which allow state agencies to solicit and accept nonmonetary donations, gifts, grants, or contracts except that donations, gifts and grants of real property shall be subject to § 4-4.00 of this act and § 2.2-1149, Code of Virginia. This provision shall apply to donations, gifts and grants of real property to endowment funds of institutions of higher education, when such endowment funds are held by the institution in its own name and not by a separately incorporated foundation or corporation.

3. The preceding subdivisions shall not apply to property and equipment acquired and used by a state agency or institution through a lease purchase agreement and subsequently donated to the state agency or institution during or at the expiration of the lease purchase agreement, provided that the lessor is the Virginia College Building Authority.

4. The use of endowment funds for property, plant or equipment for state-owned facilities is subject to §§ 4-2.03 Indirect Costs, 4-4.01 Capital Projects-General and 4-5.03 Services and Clients of this act.

#### b. HIGHER EDUCATION TUITION AND FEES

1. Except as provided in Chapters 933 and 943 of the 2006 Acts of Assembly, Chapters 594 and 616 of the 2008 Acts of Assembly, and Chapters 675 and 685 of the 2009 Acts of Assembly, all nongeneral fund collections by public institutions of higher education, including collections from the sale of dairy and farm products, shall be deposited in the state treasury in accordance with § 2.2-1802, Code of Virginia, and expended by the institutions of higher education in accordance with the appropriations and provisions of this act, provided, however, that this requirement shall not apply to private gifts, endowment funds, or income derived from endowments and gifts.

2. a) The Boards of Visitors or other governing bodies of institutions of higher education may set tuition and fee charges at levels they deem to be appropriate for all resident student groups based on, but not limited to, competitive market rates, provided that the total revenue generated by the collection of tuition and fees from all students is within the nongeneral fund appropriation for educational and general programs provided in this act.

b) The Boards of Visitors or other governing bodies of institutions of higher education may set tuition and fee charges at levels they deem to be appropriate for all nonresident student groups based on, but not limited to, competitive market rates, provided that: i) the tuition and mandatory educational and general fee rates for nonresident undergraduate and graduate students cover at least 100 percent of the average cost of their education, as calculated through base adequacy guidelines adopted, and periodically amended, by the Joint Subcommittee Studying Higher Education Funding Policies, and ii) the total revenue generated by the collection of tuition and fees from all students is within the nongeneral fund appropriation for educational and general programs provided in this act.

c) For institutions charging nonresident students less than 100 percent of the cost of education, the State Council of Higher Education for Virginia may authorize a phased approach to meeting this requirement, when in its judgment, it would result in annual tuition and fee increases for nonresident students that would discourage their enrollment.

d) The Boards of Visitors or other governing bodies of institutions of higher education shall not increase the current proportion of nonresident undergraduate students if the institution's nonresident undergraduate enrollment exceeds 25 percent. Norfolk State University, Virginia Military Institute, Virginia State University, and two-year public institutions are exempt from this restriction.

3. a) In setting the nongeneral fund appropriation for educational and general programs at the institutions of higher education, the General Assembly shall take into consideration the appropriate student share of costs associated with providing full funding of the base adequacy guidelines referenced in subparagraph 2. b), raising average salaries for teaching and research faculty to the 60th percentile of peer institutions, and other priorities set forth in this act.

b) In determining the appropriate state share of educational costs for resident students, the General Assembly shall seek to cover at least 67 percent of educational costs associated with providing full funding of the base adequacy guidelines referenced in subparagraph 2. b), raising average salaries for teaching and research faculty to the 60th percentile of peer institutions, and other priorities set forth in this act.

4. a) Each institution and the State Council of Higher Education for Virginia shall monitor tuition, fees, and other charges, as well as the mix of resident and nonresident students, to ensure that the primary mission of providing educational opportunities to citizens of Virginia is served, while recognizing the material contributions provided by the presence of nonresident students. The State Council of Higher Education for Virginia shall also develop and enforce uniform guidelines for reporting student enrollments and the domiciliary status of students.

b) The State Council of Higher Education for Virginia shall report to the Governor and the Chairmen of the House Appropriations and Senate Finance Committees no later than August 1 of each year the annual change in total charges for tuition and all required fees approved and allotted by the Board of Visitors. As it deems appropriate, the State Council of Higher Education for Virginia shall provide comparative national, peer, and market data with respect to charges assessed students for tuition and required fees at institutions outside of the Commonwealth.

c) Institutions of higher education are hereby authorized to make the technology service fee authorized in Chapter 1042, 2003 Acts of Assembly, part of ongoing tuition revenue. Such revenues shall continue to be used to supplement technology resources at the institutions of higher education.

d) Except as provided in Chapters 933 and 943 of the 2006 Acts of Assembly, Chapters 594 and 616 of the 2008 Acts of Assembly, and Chapters 675 and 685 of the 2009 Acts of Assembly, each institution shall work with the State Council of Higher Education for Virginia and the Virginia College Savings Plan to determine appropriate tuition and fee estimates for tuition savings plans.

5. It is the intent of the General Assembly that each institution's combined general and nongeneral fund appropriation within its educational and general program closely approximate the anticipated annual budget each fiscal year.

6. Nonresident graduate students employed by an institution as teaching assistants, research assistants, or graduate assistants and paid at an annual contract rate of \$4,000 or more may be considered resident students for the purposes of charging tuition and fees.

7. The fund source "Higher Education Operating" within educational and general programs for institutions of higher education includes tuition and fee revenues from nonresident students to pay their proportionate share of the amortized cost of the construction of buildings approved by the Commonwealth of Virginia Educational Institutions Bond Act of 1992 and the Commonwealth of Virginia Educational Facilities Bond Act of 2002.

8. a) Except as provided in Chapters 933 and 943 of the 2006 Acts of Assembly, Chapters 594 and 616 of the 2008 Acts of Assembly, and Chapters 675 and 685 of the 2009 Acts of Assembly, mandatory fees for purposes other than educational and general programs shall not be increased for Virginia undergraduates beyond five percent annually, excluding requirements for wage, salary, and fringe benefit increases, authorized by the General Assembly. Fee increases required to carry out actions that respond to mandates of federal agencies are also exempt from this provision, provided that a report on the purposes of the amount of the fee increase is submitted to the Chairmen of the House Appropriations and Senate Finance Committees by the institution of higher education at least 30 days prior to the effective date of the fee increase.

b) This restriction shall not apply in the following instances: fee increases directly related to capital projects authorized by the General Assembly; fee increases to support student health services; and other fee increases specifically authorized by the General Assembly.

c) Due to the small mandatory non-educational and general program fees currently assessed students in the Virginia Community College System, increases in any one year of no more than \$15 shall be allowed on a cost-justified case-by-case basis, subject to approval by the State Board for Community Colleges.

9. Any institution of higher education granting new tuition waivers to resident or nonresident students not authorized by the Code of Virginia must absorb the cost of any discretionary waivers.

10. Tuition and fee revenues from nonresident students taking courses through Virginia institutions from the Southern Regional Education Board's Southern Regional Electronic Campus must exceed all direct and indirect costs of providing instruction to those students. Tuition and fee rates to meet this requirement shall be established by the Board of Visitors of the institution.

#### c. HIGHER EDUCATION PLANNED EXCESS REVENUES:

An institution of higher education, except for those public institutions governed by Chapters 933 and 943 of the 2006 Acts of Assembly, Chapters 594 and 616 of the 2008 Acts of Assembly, and Chapters 675 and 685 of the 2009 Acts of Assembly, may generate and retain tuition and fee revenues in excess of those provided in § 4-2.01 b Higher Education Tuition and Fees, subject to the following:

1. Such revenues are identified by language in the appropriations in this act to any such institution.

2. The use of such moneys is fully documented by the institution to the Governor prior to each fiscal year and prior to allotment.

3. The moneys are supplemental to, and not a part of, ongoing expenditure levels for educational and general programs used as the basis for funding in subsequent biennia.

4. The receipt and expenditure of these moneys shall be recorded as restricted funds on the books of the Department of Accounts and shall not revert to the surplus of the general fund at the end of the biennium.

5. Tuition and fee revenues generated by the institution other than as provided herein shall be subject to the provisions of § 4-1.04 a.3 Gifts, Grants, and Other Nongeneral Funds of this act.

Notwithstanding any contrary provision of law, for purposes of subsection C of § 58.1-3524 and subsection B of § 58.1-3536, Code of Virginia, the term general fund revenues, excluding transfers, is defined as (i) all state taxes, including penalties and interest, required and/or authorized to be collected and paid into the general fund of the state treasury pursuant to Title 58.1, Code of Virginia; (ii) permits, fees, licenses, fines, forfeitures, charges for services, and revenue from the use of money and property required and/or authorized to be paid into the general fund of the treasury; and (iii) amounts required to be deposited to the general fund of the state treasury pursuant to § 4-2.02 a.1., of this act. **I VETO THIS ITEM WHICH CONTINUES ON PAGE 2091. /s/ Terence R. McAuliffe (6/21/14) (Vetoed item is enclosed in brackets.)**

d. SETTLEMENTS NEGOTIATED BY THE OFFICE OF THE ATTORNEY GENERAL:

1. There is hereby created the Disbursement Review Committee (the "Committee"), the members of which are the Attorney General, who shall serve as chairman; the Chairman of the House Committee on Appropriations and one Delegate appointed by him, or their designees; the Chairman of the Senate Committee on Finance and one Senator appointed by him, or their designees; and two individuals appointed by the Governor. Whenever the Attorney General reasonably expects that there will be money or any real, tangible, or intangible property ("money or property"), or both, other than criminal fines (which would go to the Literary Fund) or attorney's fees (i) due or available to the Commonwealth as a result of any civil or criminal dispute or (ii) available to the Commonwealth or to any state or local governmental entity in the Commonwealth from any federal entity pursuant to an asset forfeiture equitable sharing agreement or other legal action, including a compromise, settlement, or agreement in a multistate action in which the Attorney General has participated on behalf of the Commonwealth or an agency of the Commonwealth, he shall forthwith notify all members of the Committee of the pertinent facts, and may convene a meeting of the Committee, but shall convene a meeting of the Committee at the request of any member.

2. For a compromise, settlement, or agreement under subdivision 1(i) above, the Attorney General shall prepare and recommend to the Committee a proposed Distribution Plan (the "Plan") regarding the distribution and use of money or property, or both, to be received by the Commonwealth as a result of any such compromise, settlement, or agreement. The Committee may propose the same or a modified Plan to the General Assembly for the distribution or use, or both, of such money or property, or both.

3. For a compromise, settlement, or agreement under subdivision 1(ii) above, if the distribution or use, or both, of any money or property, or both, to be received by the Commonwealth is determined by a court order, federal law, or by a federal entity pursuant to federal law (such as a federal asset forfeiture sharing agreement), the Attorney General shall prepare and provide to the Committee a proposed Plan for the distribution and use of any such money or property, or both, that is consistent with such court order, federal law, or regulations or policies of such federal agency. If the permissible purpose(s) for the distribution or use, or both, of such money or property, or both, is described in general terms (for example, it must be used for "law enforcement purposes" or for "consumer education"), the Committee may propose a modified Plan with a more particular distribution or use, or both, that falls within such general permissible purpose(s). If a federal entity must approve the final Plan for such distribution or use, or both, and does not approve the Plan submitted to it by the Attorney General, he shall so inform the Committee, and the Plan may be revised if deemed appropriate and resubmitted to the federal entity for approval. If the federal entity approves the original Plan or a revised Plan, the Attorney General shall so inform the Committee, and the Committee shall recommend to the General Assembly distribution or use, or both, of such money or property, or both, that is consistent with the Plan approved by the federal entity.

4. The Attorney General shall not enter into any compromise, settlement, or agreement for the distribution of money or property, or both, to be received by the Commonwealth under subdivision 1(i) or 1(ii) unless the compromise, settlement, or agreement provides that such money or property, or both, is to be deposited into the state treasury. No such distribution shall occur without a specific appropriation by the General Assembly that is consistent with the permissible purpose(s) set forth in the court order or federal law or by the federal entity. If a federal entity must approve the final Plan for such distribution or use, or both, and the General Assembly's appropriation in an appropriation act differs from the Plan approved by the federal entity, the appropriation shall be submitted to the federal entity for approval. The distribution of any money or property, or both, shall be done in a manner as prescribed by the State Comptroller in order to ensure proper accounting on the books of the Commonwealth.

**ITEM VETO CONTINUED FROM PAGE 2090. /s/ Terence R. McAuliffe (6/21/14) (Vetoed item is enclosed in brackets.)**

5. The provisions of subdivisions 1) through 4) shall not apply to any negotiation, compromise, settlement, or agreement involving money or property, or both (a) where the distribution and use of such money or property, or both, is governed specifically by this act or by the constitution or other law of the Commonwealth, (b) in which the total value of such moneys or property does not exceed \$250,000, or (c) in which the entire amount of the settlement is for services provided, or for property sold or provided, under a contract with a governmental entity. "Governmental entity" shall include, without limitation, public institutions of higher education. The General Assembly hereby appropriates a sum sufficient amount for any settlement or agreement authorized solely by virtue of this subdivision 5. The provisions of this § 4-2.02.d. shall not apply to state teaching hospitals.

## § 4-2.03 INDIRECT COSTS

## a. INDIRECT COST RECOVERIES FROM GRANTS AND CONTRACTS:

Each state agency, including institutions of higher education, which accepts a grant or contract shall recover full statewide and agency indirect costs unless prohibited by the grantor agency or exempted by provisions of this act.

## b. AGENCIES OTHER THAN INSTITUTIONS OF HIGHER EDUCATION:

The following conditions shall apply to indirect cost recoveries received by all agencies other than institutions of higher education:

1. The Governor shall include in the recommended nongeneral fund appropriation for each agency in this act the amount which the agency includes in its revenue estimate as an indirect cost recovery. The recommended nongeneral fund appropriations shall reflect the indirect costs in the program incurring the costs.

2. If actual agency indirect cost recoveries exceed the nongeneral fund amount appropriated in this act, the Director, Department of Planning and Budget, is authorized to increase the nongeneral fund appropriation to the agency by the amount of such excess indirect cost recovery. Such increase shall be made in the program incurring the costs.

3. Statewide indirect cost recoveries shall be paid into the general fund of the state treasury, unless the agency is specifically exempted from this requirement by language in this act. Any statewide indirect cost recoveries received by the agency in excess of the exempted sum shall be deposited to the general fund of the state treasury.

## c. INSTITUTIONS OF HIGHER EDUCATION:

The following conditions shall apply to indirect cost recoveries received by institutions of higher education:

1. Seventy percent shall be retained by the institution as an appropriation of moneys for the conduct and enhancement of research and research-related requirements. Such moneys may be used for payment of principal of and interest on bonds issued by or for the institution pursuant to § 23-19, Code of Virginia, for any appropriate purpose of the institution, including, but not limited to, the conduct and enhancement of research and research-related requirements.

2. Thirty percent of the indirect cost recoveries for the level of sponsored programs authorized in the appropriations in Part 1 of Chapter 1042 of the Acts of Assembly of 2003, shall be included in the educational and general revenues of the institution to meet administrative costs.

3. Institutions of higher education may retain 100 percent of the indirect cost recoveries related to research grant and contract levels in excess of the levels authorized in Chapter 1042 of the Acts of Assembly of 2003. This provision is included as an additional incentive for increasing externally funded research activities.

## d. REPORTS

The Director, Department of Planning and Budget, shall make available via electronic means a report to the Chairmen of the Senate Finance and House Appropriations Committees and the public no later than September 1 of each year on the indirect cost recovery moneys administratively appropriated.

## e. REGULATIONS:

The State Comptroller is hereby authorized to issue regulations to carry out the provisions of this subsection, including the establishment of criteria to certify that an agency is in compliance with the provisions of this subsection.

**§ 4-3.00 DEFICIT AUTHORIZATION AND TREASURY LOANS**

## § 4-3.01 DEFICITS

## a. GENERAL:

1. Except as provided in this section no state agency shall incur a deficit. No state agency receiving general fund appropriations under the provisions of this act shall obligate or expend moneys in excess of its general fund appropriations, nor shall it obligate or expend moneys in excess of nongeneral fund revenues that are collected and appropriated.

2. The Governor is authorized to approve deficit funding for a state agency under the following conditions:

a) an unanticipated federal or judicial mandate has been imposed,

b) insufficient moneys are available in the first year of the biennium for start-up of General Assembly-approved action, or

c) delay pending action by the General Assembly at its next legislative session will result in the curtailment of services required by statute or those required by federal mandate or will produce a threat to life, safety, health or property.

d) Such approval by the Governor shall be in writing under the conditions described in § 4-3.02 a Authorized Deficit Loans of this act and shall be promptly communicated to the Chairmen of the House Appropriations and Senate Finance Committees within five calendar days of deficit approval.

3. Deficits shall not be authorized for capital projects.

4. The Department of Transportation may obligate funds in excess of the current biennium appropriation for projects of a capital nature not covered by § 4-4.00 Capital Projects, of this act provided such projects a) are delineated in the Virginia Transportation Six-Year Improvement Program, as approved by the Commonwealth Transportation Board; and b) have sufficient cash allocated to each such project to cover projected costs in each year of the Program; and provided that c) sufficient revenues are projected to meet all cash obligations for such projects as well as all other commitments and appropriations approved by the General Assembly in the biennial budget.

b. UNAUTHORIZED DEFICITS: If any agency contravenes any of the prohibitions stated above, thereby incurring an unauthorized deficit, the Governor is hereby directed to withhold approval of such excess obligation or expenditure. Further, there shall be no reimbursement of said excess, nor shall there be any liability or obligation upon the state to make any appropriation hereafter to meet such unauthorized deficit. Further, those members of the governing board of any such agency who shall have voted therefor, or its head if there be no governing board, making any such excess obligation or expenditure shall be personally liable for the full amount of such unauthorized deficit and, at the discretion of the Governor, shall be deemed guilty of neglect of official duty and be subject to removal therefor. Further, the State Comptroller is hereby directed to make public any such unauthorized deficit, and the Director, Department of Planning and Budget, is hereby directed to set out such unauthorized deficits in the next biennium budget. In addition, the Governor is directed to bring this provision of this act to the attention of the members of the governing board of each state agency, or its head if there be no governing board, within two weeks of the date that this act becomes effective. The governing board or the agency head shall execute and return to the Governor a signed acknowledgment of such notification.

c. TOTAL AUTHORIZED DEFICITS: The amount which the Governor may authorize, under the provisions of this section during the current biennium, to be expended from loans repayable out of the general fund of the state treasury, for all state agencies, or other agencies combined, in excess of general fund appropriations for the current biennium, shall not exceed one and one-half percent (1 1/2%) of the revenues collected and paid into the general fund of the state treasury as defined in § 4-2.02 b. of this act during the last year of the previous biennium and the first year of the current biennium.

d. The Governor shall report any such authorized and unauthorized deficits to the Chairmen of the House Appropriations and Senate Finance Committees within five calendar days of deficit approval. By August 15 of each year, the Governor shall provide a comprehensive report to the Chairmen of the House Appropriations and Senate Finance Committees detailing all such deficits.

#### § 4-3.02 TREASURY LOANS

a. AUTHORIZED DEFICIT LOANS: A state agency requesting authorization for deficit spending shall prepare a plan for the Governor's review and approval, specifying appropriate financial, administrative and management actions necessary to eliminate the deficit and to prevent future deficits. At the close of business on the last day of the current biennium, any unexpended balance of such loan shall be applied toward repayment of the loan, unless such action is contrary to the conditions of the loan approval. The Director, Department of Planning and Budget, shall set forth in the next biennial budget all such loans which require an appropriation for repayment. A copy of the approved plan to eliminate the deficit shall be transmitted to the Chairmen of the House Appropriations and the Senate Finance Committees within five calendar days of approval.

2. Anticipation loans for operating expenses shall be in amounts not greater than the sum identified by the agency as the minimum amount required to meet the projected expenditures. The term of any anticipation loans granted for operating expenses shall not exceed twelve months.

3. Before an anticipation loan for a capital project is authorized, the agency shall develop a plan for financing such capital project; approval of the State Treasurer shall be obtained for all plans to incur authorized debt.

4. Anticipation loans for capital projects shall be in amounts not greater than the sum identified by the agency as required to meet the projected expenditures for the project within the current biennium.

5. To ensure that such loans are repaid as soon as practical and economical, the Department of Planning and Budget shall monitor the construction and expenditure schedules of all approved capital projects that will be paid for with proceeds from authorized debt and have anticipation loans.

6. Unless otherwise prohibited by federal or state law, the State Treasurer shall charge current market interest rates on anticipation loans made for operating purposes and capital projects subject to the following:

a) Anticipation loans for capital projects for which debt service will be paid with general fund appropriations shall be exempt from interest payments on borrowed balances.

b) Interest payments on anticipation loans for nongeneral fund capital projects or nongeneral fund operating expenses shall be made from appropriated nongeneral fund revenues. Such interest shall not be paid with the funds from the anticipation loan or from the proceeds of authorized debt without the approval of the State Treasurer.

c) REPORTING: All outstanding loans shall be reported by the Governor to the Chairmen of the House Appropriations and Senate Finance Committees by August 15 of each year. The report shall include a status of the repayment schedule for each loan.

Such loans shall not exceed the amount of the anticipated collections of such nongeneral fund revenues and shall be repaid only from such nongeneral fund revenues when collected.

b) When the payment of obligations for capital expenses for projects authorized under § 4-4.01 m is required prior to the collection of nongeneral fund revenues, any state agency or body corporate and politic, constituting a public corporation and government instrumentality, may borrow from the state treasury the required sums with the prior written approval of the Secretary of Finance or his designee as to the amount, terms and sources of such funds. Such loans shall be repaid only from nongeneral fund revenues associated with the project.

3. Anticipation loans for operating expenses shall be in amounts not greater than the sum identified by the agency as the minimum amount required to meet projected expenditures. The term of any anticipation loans granted for operating expenses shall not exceed 12 months.

#### § 4-3.03 CAPITAL LEASES

##### a. GENERAL:

1. As part of their capital budget submission, all agencies and institutions of the Commonwealth proposing building projects that may qualify as capital lease agreements, as defined in Generally Accepted Accounting Principles (GAAP), and that may be supported in whole, or in part, from appropriations provided for in this act, shall submit copies of such proposals to the Directors of the Departments of Planning and Budget and General Services, the State Comptroller, and the State Treasurer. The Secretary of Finance may promulgate guidelines for the review and approval of such requests.

2. The proposals shall be submitted in such form as the Secretary of Finance may prescribe. The Comptroller and the Director, Department of General Services shall be responsible for evaluating the proposals to determine if they qualify as capital lease agreements. The State Treasurer shall be responsible for incorporating existing and authorized capital lease agreements in the annual Debt Capacity Advisory Committee reports.

##### b. APPROVAL OF FINANCINGS:

1. For any project which qualifies as a capital lease, as defined in the preceding subdivisions a 1 and 2, and which is financed through the issuance of securities, the Treasury Board shall approve the terms and structure of such financing pursuant to § 2.2-2416, Code of Virginia.

2. For any project for which costs will exceed \$5,000,000 and which is financed through a capital lease transaction, the Treasury Board shall approve the financing terms and structure of such capital lease in addition to such other reviews and approvals as may be required by law. Prior to consideration by the Treasury Board, the Departments of Accounts, General Services, and Planning and Budget shall notify the Treasury Board upon their approval of any transaction which qualifies as a capital lease under the terms of this section. The State Treasurer shall notify the Chairmen of the House Appropriations and Senate Finance Committees of the action of the Treasury Board as it regards this subdivision within five calendar days of its action.

Furthermore, the Department of General Services is authorized to enter into capital leases for executive branch agencies provided that the resulting capital lease is funded entirely with nongeneral funds, is approved based on the requirements of § 4-3.03 b.1 and 2 above, and would not be considered tax supported debt of the Commonwealth.

#### § 4-4.00 CAPITAL PROJECTS

#### § 4-4.01 GENERAL

##### a. Definition:

1. Unless defined otherwise, when used in this section, "capital project" or "project" means acquisition of property and new construction and improvements related to state-owned property, plant or equipment (including plans therefor), as the terms "acquisition", "new construction", and "improvements" are defined in the instructions for the preparation of the Executive Budget. "Capital project" or "project" shall also mean any improvements to property leased for use by a state agency, and not owned by the state, when such improvements are financed by public funds, except as hereinafter provided in subdivisions 3 and 4 of this subsection.

2. The provisions of this section are applicable equally to acquisition of property and plant by purchase, gift, or any other means, including the acquisition of property through a lease/purchase contract, regardless of the method of financing or the source of funds. Acquisition of property by lease shall be subject to § 4-3.03 of this act.

3. The provisions of this section shall not apply to property or equipment acquired by lease or improvements to leased property and equipment when the improvements are provided by the lessor pursuant to the terms of the lease and upon expiration of the lease remain the property of the lessor.

4. The provisions of this section shall not apply to property leased by state agencies for the purposes described in §§ 2.2-1151 C and 33.1-93, Code of Virginia.

b. Notwithstanding any other provisions of law, requests for appropriations for capital projects shall be subject to the following:

1. The agency shall submit a capital project proposal for all requested capital projects. Such proposals shall be submitted to the Director, Department of Planning and Budget, for review and approval in accordance with guidelines prescribed by the director. Projects shall be developed to meet agency functional and space requirements within a cost range comparable to similar public and private sector projects.

2. Except for institutions of higher education governed by Chapters 933 and 943 of the 2006 Acts of Assembly, Chapters 594 and 616 of the 2008 Acts of Assembly and Chapters 675 and 685 of the 2009 Acts of Assembly, financings for capital projects shall comply, where applicable, with the Treasury Board Guidelines issued pursuant to § 2.2-2416, Code of Virginia, and any subsequent amendments thereto.

3. As part of any request for appropriations for an armory, the Department of Military Affairs shall obtain a written commitment from the host locality to share in the operating expense of the armory.

c. Each agency head shall provide annually to the Director, Department of Planning and Budget, a report on the use of the maintenance reserve appropriation of the agency in Part 2 of this act. In the use of its maintenance reserve appropriation, an agency shall give first priority to the repair or replacement of roof on buildings under control of the agency. The agency head shall certify in the agency's annual maintenance reserve report that to the best of his or her knowledge, all necessary roof repairs have been accomplished or are in the process of being accomplished. Such roof repairs and replacements shall be in accord with the technical requirements of the Commonwealth's Construction and Professional Services Manual.

d. The Department of Planning and Budget shall review its approach to capital outlay planning and budgeting from time to time and make available via electronic means a report of any proposed change to the Chairmen of the House Appropriations and Senate Finance Committees and the public prior to its implementation. Such report shall include an analysis of the impact of the suggested change on affected agencies and institutions.

e. Nothing in §§ 2-0 and 4-4.00 of this act shall be deemed to override the provisions of §§ 2.2-1132 and 62.1-132.6, Code of Virginia, amended by Chapter 488, 1997 Acts of Assembly, relating to Virginia Port Authority capital projects and procurement activities.

f. It is the intent of the General Assembly that the Department of Conservation and Recreation shall be authorized to initiate and accept by gift or purchase with nongeneral fund dollars any lands for State Park or Natural Area purposes which may become available, and that are not specifically appropriated by the General Assembly, when such acquisitions are made in accordance with the provisions of this section and other applicable provisions of state law including approval by the Governor.

g. Legislative Approval: It is the intent of the General Assembly that, with the exceptions noted in this paragraph and paragraph m, all capital projects to be undertaken by agencies of the Commonwealth, including institutions of higher education, shall be pursuant to approvals by the General Assembly as provided in the Six-Year Capital Outlay Plan established pursuant to § 2.2-1515, et seq., Code of Virginia. Otherwise, the consideration of capital projects shall be limited to:

1. Supplementing projects which have been bid and determined to have insufficient funding to be placed under contract, and

2. Projects declared by the Governor or the General Assembly to be of an emergency nature, which may avoid an increase in cost or otherwise result in a measurable benefit to the state, and/or which are required for the continued use of existing facilities.

3. This paragraph does not prohibit the initiation of projects authorized by § 4-4.01 m hereof, or projects included under the central appropriations for capital project expenses in this act.

h. Preliminary Requirements: In regard to each capital project for which appropriation or reappropriation is made pursuant to this act, or which is hereafter considered by the Governor for inclusion in the Executive Budget, or which is offered as a gift or is considered for purchase, the Governor is hereby required: (1) to determine the urgency of its need, as compared with the need for other capital projects as herein authorized, or hereafter considered; (2) to determine whether the proposed plans and specifications for each capital project are suitable and adequate, and whether they involve expenditures which are excessive for the purposes intended; (3) to determine whether labor, materials, and other requirements, if any, needed for the acquisition or construction of such project can and will be obtained at reasonable cost; and (4) to determine whether or not the project conforms to a site or master plan approved by the agency head or board of visitors of an institution of higher education for a program approved by the General Assembly.

i. Initiation Generally:

1. No architectural or engineering planning for, or construction of, or purchase of any capital project shall be commenced or revised without the prior written approval of the Governor or his designee.

2. The requirements of § 10.1-1190, Code of Virginia, shall be met prior to the release of funds for a major state project, provided, however, that the Governor or his designee is authorized to release from any appropriation for a major state project made pursuant to this act such sum or sums as may be necessary to pay for the preparation of the environmental impact report required by § 10.1-1188, Code of Virginia.

3. The Governor, at his discretion, or his designee may release from any capital project appropriation or reappropriation made pursuant to this act such sum (or sums) as may be necessary to pay for the preparation of plans and specifications by architects and engineers, provided that the estimated cost of the construction covered by such drawings and specifications does not exceed the appropriation therefor; provided, further, however, that the architectural and engineering fees paid on completion of the preliminary design for any such project may be based on such estimated costs as may be approved by the Governor in writing, where it is shown to the satisfaction of the Governor that higher costs of labor or material, or both, or other unforeseen conditions, have made the appropriation inadequate for the completion of the project for which the appropriation was made, and where in the judgment of the Governor such changed conditions justify the payment of architectural or engineering fees based on costs exceeding the appropriation.

4. Architectural or engineering contracts shall not be awarded in perpetuity for capital projects at any state institution, agency or activity.

j. Capital Projects Financed with Bonds: Capital projects proposed to be financed with (i) 9 (c) general obligation bonds or (ii) 9(d) obligations where debt service is expected to be paid from project revenues or revenues of the agency or institution, shall be reviewed as follows:

1. By August 15 of each year, requests for inclusion in the Executive Budget of capital projects to be financed with 9(c) general obligation bonds shall be submitted to the State Treasurer for evaluation of financial feasibility. Submission shall be in accordance with the instructions prescribed by the State Treasurer. The State Treasurer shall distribute copies of financial feasibility studies to the Director, Department of Planning and Budget, the Secretary for the submitting agency or institution, the Chairmen of the House Appropriations and Senate Finance Committees, and the Director, State Council of Higher Education for Virginia, if the project is requested by an institution of higher education.

2. By August 15 of each year, institutions shall also prepare and submit copies of financial feasibility studies to the State Council of Higher Education for Virginia for 9(d) obligations where debt service is expected to be paid from project revenues or revenues of the institution. The State Council of Higher Education for Virginia shall identify the impact of all projects requested by the institutions of higher education, and as described in § 4-4.01 j.1. of this act, on the current and projected cost to students in institutions of higher education and the impact of the project on the institution's need for student financial assistance. The State Council of Higher Education for Virginia shall report such information to the Secretary of Finance and the Chairmen of the House Appropriations and Senate Finance Committees no later than October 1 of each year.

3. Prior to the issuance of debt for 9(c) general obligation projects, when more than one year has elapsed since the review of financial feasibility specified in § 4-4.01 j 1 above, an updated feasibility study shall be prepared by the agency and reviewed by the State Treasurer prior to requesting the Governor's Opinion of Financial Feasibility required under Article X, Section 9 (c), of the Constitution of Virginia.

k. Transfers to supplement capital projects from nongeneral funds may be made under the conditions set forth in §§ 4-1.03 a, 4-1.04 a.3, and 4-4.01 m of this act.

1.1. Change in Size and Scope: Unless otherwise provided by law, the scope, which is the function or intended use, of any capital project may not be substantively changed, nor its size increased or decreased by more than five percent in size beyond the plans and justification which were the basis for the appropriation or reappropriation in this act or for the Governor's authorization pursuant to § 4-4.01 m of this act. However, this prohibition is not applicable to changes in size and scope required because of circumstances determined by the Governor to be an emergency, or requirements imposed by the federal government when such capital project is for armories or other defense-related installations and is funded in whole or in part by federal funds. Furthermore, this prohibition shall not apply to minor increases, beyond five percent, in square footage determined by the Director, Department of General Services, to be reasonable and appropriate based on a written justification submitted by the agency stating the reason for the increase, with the provision that such increase will not increase the cost of the project beyond the amount appropriated; nor to decreases in size beyond five percent to offset unbudgeted costs when such costs are determined by the Director, Department of Planning and Budget, to be reasonable based on a written justification submitted by the agency specifying the amount and nature of the unbudgeted costs and the types of actions that will be taken to decrease the size of the project. The written justification shall also include a certification, signed by the agency head, that the resulting project will be consistent with the original programmatic intent of the appropriations.

2. If space planning, energy conservation, and environmental standards guides for any type of construction have been approved by the Governor or the General Assembly, the Governor shall require capital projects to conform to such planning guides.

m. Projects Not Included In This Act:

1. Authorization by Governor:

a) The Governor may authorize initiation of, planning for, construction of or acquisition of a nongeneral fund capital project not specifically included in this act or provided for a program approved by the General Assembly through appropriations, under one or more of the following conditions:

1) The project is required to meet an emergency situation.

- 2) The project is to be operated as an auxiliary enterprise or sponsored program in an institution of higher education and will be fully funded by revenues of auxiliary enterprises or sponsored programs.
  - 3) The project is to be operated as an educational and general program in an institution of higher education and will be fully funded by nongeneral fund revenues of educational and general programs or from private gifts and indirect cost recoveries.
  - 4) The project consists of plant or property which has become available or has been received as a gift.
  - 5) The project has been recommended for funding by the Tobacco Indemnification and Community Revitalization Commission or the Virginia Tobacco Settlement Foundation.
- b) The foregoing conditions are subject to the following criteria:
- 1) Funds are available within the appropriations made by this act (including those subject to §§ 4-1.03 a, 4-1.04 a.3, and 4-2.03) without adverse effect on other projects or programs, or from unappropriated nongeneral fund revenues or balances.
  - 2) In the Governor's opinion such action may avoid an increase in cost or otherwise result in a measurable benefit to the state.
  - 3) The authorization includes a detailed description of the project, the project need, the total project cost, the estimated operating costs, and the fund sources for the project and its operating costs.
  - 4) The Chairmen of the House Appropriations and Senate Finance Committees shall be notified by the Governor prior to the authorization of any capital project under the provisions of this subsection.
  - 5) Permanent funding for any project initiated under this section shall only be from nongeneral fund sources.
2. Authorization by Director, Department of Planning and Budget:
- a) The Director, Department of Planning and Budget, may authorize initiation of a capital project not included in this act, if the General Assembly has enacted legislation to fund the project from bonds of the Virginia Public Building Authority, Virginia College Building Authority, or from reserves created by refunding of bonds issued by those Authorities.
3. Delegated authorization by Boards of Visitors, Public Institutions of Higher Education:
- a) In accordance with § 4-5.06 of this act, the board of visitors of any public institution of higher education that: i) has met the eligibility criteria set forth in Chapters 933 and 945 of the 2005 Acts of Assembly for additional operational and administrative autonomy, including having entered into a memorandum of understanding with the Secretary of Administration for delegated authority of nongeneral fund capital outlay projects, and ii) has received a sum sufficient nongeneral fund appropriation for emergency projects as set out in Part 2: Capital Project Expenses of this act, may authorize the initiation of any capital project that is not specifically set forth in this act provided that the project meets at least one of the conditions and criteria identified in § 4-4.01 m 1 of this act.
  - b) At least 30 days prior to the initiation of a project under this provision, the board of visitors must notify the Governor and Chairmen of the House Appropriations and Senate Finance Committees and must provide a life-cycle budget analysis of the project. Such analysis shall be in a form to be prescribed by the Auditor of Public Accounts.
  - c) The Commonwealth of Virginia shall have no general fund obligation for the construction, operation, insurance, routine maintenance, or long-term maintenance of any project authorized by the board of visitors of a public institution of higher education in accordance with this provision.
- n. Acquisition, maintenance, and operation of buildings and nonbuilding facilities in colleges and universities shall be subject to the following policies:
1. The anticipated program use of the building or nonbuilding facility should determine the funding source for expenditures for acquisition, construction, maintenance, operation, and repairs.
  2. Expenditures for land acquisition, site preparation beyond five feet from a building, and the construction of additional outdoor lighting, sidewalks, outdoor athletic and recreational facilities, and parking lots in the Virginia Community College System shall be made only from appropriated federal funds, Trust and Agency funds, including local government allocations or appropriations, or the proceeds of indebtedness authorized by the General Assembly.
  3. The general policy of the Commonwealth shall be that parking services are to be operated as an auxiliary enterprise by all colleges and universities. Institutions should develop sufficient reserves for ongoing maintenance and replacement of parking facilities.
  4. Except as provided in paragraph 2 above, expenditures for maintenance, replacement, and repair of outdoor lighting, sidewalks, and other infrastructure facilities may be made from any appropriated funds.

5. Expenditures for operations, maintenance, and repair of athletic, recreational, and public service facilities, both indoor and outdoor, should be from nongeneral funds. However, this condition shall not apply to any indoor recreational facility existing on a community college campus as of July 1, 1988.

6.a.1. At institutions of higher education that have met the eligibility criteria for additional operational and administrative authority as set forth in Chapters 933 and 945 of the 2005 Acts of Assembly or Chapters 824 and 829 of the 2008 Acts of Assembly, any repair, renovation, or new construction project costing up to \$2,000,000 shall be exempt from the capital outlay review and approval process. For purposes of this paragraph, projects shall not include any subset of a series of projects, which in combination would exceed the \$2,000,000 maximum.

2. All institutions of higher education shall be exempt from the capital review and approval process for repair, renovation, or new construction projects costing up to \$2,000,000.

b. Blanket authorizations funded entirely by nongeneral funds may be used for 1) renovation and infrastructure projects costing up to \$2,000,000 and 2) the planning of nongeneral fund new construction and renovation projects through bidding, with bid award made after receipt of a construction authorization. The Director, Department of Planning and Budget, may provide exemptions to the threshold.

7. It is the policy of the Commonwealth that the institutions of higher education shall treat the maintenance of their facilities as a priority for the allocation of resources. No appropriations shall be transferred from the "Operation and Maintenance of Plant" subprogram except for closely and definitely related purposes, as approved by the Director, Department of Planning and Budget, or his designee. A report providing the rationale for each approved transfer shall be made to the Chairmen of the House Appropriations and Senate Finance Committees.

o. Legislative Intent and Reporting: Appropriations for capital projects shall be deemed to have been made for purposes which require their expenditure, or being placed under contract for expenditure, during the current biennium. Agencies to which such appropriations are made in this act or any other act are required to report progress as specified by the Governor. If, in the opinion of the Governor, these reports do not indicate satisfactory progress, he is authorized to take such actions as in his judgment may be necessary to meet legislative intent as herein defined. Reporting on the progress of capital projects shall be in accordance with § 4-8.00, Reporting Requirements.

p. No expenditure from a general fund appropriation in this act shall be made to expand or enhance a capital outlay project beyond that anticipated when the project was initially approved by the General Assembly except to comply with requirements imposed by the federal government when such capital project is for armories or other defense-related installations and is funded in whole or in part by federal funds. General fund appropriations in excess of those necessary to complete the project shall not be reallocated to expand or enhance the project, or be reallocated to a different project. The prohibitions in this subsection shall not apply to transfers from projects for which reappropriations have been authorized.

q. Local or private funds to be used for the acquisition, construction or improvement of capital projects for state agency use as owner or lessee shall be deposited into the state treasury for appropriation prior to their expenditure for such projects.

r. State-owned Registered Historic Landmarks: To guarantee that the historical and/or architectural integrity of any state-owned properties listed on the Virginia Landmarks Register and the knowledge to be gained from archaeological sites will not be adversely affected because of inappropriate changes, the heads of those agencies in charge of such properties are directed to submit all plans for significant alterations, remodeling, redecoration, restoration or repairs that may basically alter the appearance of the structure, landscaping, or demolition to the Department of Historic Resources. Such plans shall be reviewed within thirty days and the comments of that department shall be submitted to the Governor through the Department of General Services for use in making a final determination.

s.1. The Governor may authorize the conveyance of any interest in property or improvements thereon held by the Commonwealth to the educational or real estate foundation of any institution of higher education where he finds that such property was acquired with local or private funds or by gift or grant to or for the use of the institution, and not with funds appropriated to the institution by the General Assembly. Any approved conveyance shall be exempt from § 2.2-1156, Code of Virginia, and any other statute concerning conveyance, transfer or sale of state property. If the foundation conveys any interest in the property or any improvements thereon, such conveyance shall likewise be exempt from compliance with any statute concerning disposition of state property. Any income or proceeds from the conveyance of any interest in the property shall be deemed to be local or private funds and may be used by the foundation for any foundation purpose.

2. This section shall not apply to public institutions of higher education governed by Chapters 933 and 943 of the 2006 Acts of Assembly, Chapters 594 and 616 of the 2008 Acts of Assembly, Chapters 824 and 829 of the 2008 Acts of Assembly, and Chapters 675 and 685 of the 2009 Acts of Assembly.

t.1. Facility Lease Agreements Involving Institutions of Higher Education: In the case of any lease agreement involving state-owned property controlled by an institution of higher education, where the lease has been entered into consistent with the provisions of § 2.2-1155, Code of Virginia, the Governor may amend, adjust or waive any project review and reporting procedures of Executive agencies as may reasonably be required to promote the property improvement goals for which the lease agreement was developed.

2. This section shall not apply to public institutions of higher education governed by Chapters 933 and 943 of the 2006 Acts of Assembly, Chapters 594 and 616 of the 2008 Acts of Assembly, Chapters 824 and 829 of the 2008 Acts of Assembly, and Chapters 675 and 685 of the 2009 Acts of Assembly.

u. Energy-efficiency Projects: Improvements to state-owned properties for the purpose of energy-efficiency shall be treated as follows:

1. Such improvements shall be considered an operating expense, provided that:

a) the scope of the project meets or exceeds the applicable energy-efficiency standards set forth in the American Society of Heating, Refrigerating, and Air Conditioning Engineers (ASHRAE), the Illuminating Engineering Society (IES) standard 90.1-1989 and is limited to measures listed in guidelines issued by the Department of General Services;

b) the project is financed consistent with the provisions of § 2.2-2417, Code of Virginia, which requires Treasury Board approval and is executed through a nonprofessional services contract with a vendor approved by the Department of General Services;

c) the scope of work has been reviewed and recommended by the Department of Mines, Minerals and Energy;

d) the total cost does not exceed \$3,000,000; and

e) if the total cost exceeds \$3,000,000, but does not exceed \$7,000,000, the energy savings from the project offset the total cost of the project, including debt service and interest payments.

2. If (a) the total cost of the improvement exceeds \$7,000,000 or (b) the total cost exceeds \$3,000,000, but does not exceed \$7,000,000, and the energy savings from the project do not fully offset the total cost of the project, including debt services and interest payments, the improvement shall be considered a capital expense regardless of the type of improvement and the following conditions must be met:

a) the scope of the project meets or exceeds the applicable energy-efficiency standards set forth in the American Society of Heating, Refrigerating, and Air Conditioning Engineers (ASHRAE), the Illuminating Engineering Society (IES) standard 90.1-1989 and is limited to measures listed in guidelines issued by the Department of General Services;

b) the project is financed consistent with the provisions of § 2.2-2417, Code of Virginia, which requires Treasury Board approval and is executed through a nonprofessional services contract with a vendor approved by the Department of General Services;

The provisions of §§ 2.0 and 4-4.01 of this act and the provisions of § 2.2-1132, Code of Virginia, shall not apply to energy conservation projects that qualify as capital expenses.

4. As used in this paragraph, "improvement" does not include (a) constructing, enlarging, altering, repairing or demolishing a building or structure, (b) changing the use of a building either within the same use group or to a different use group when the new use requires greater degrees of structural strength, fire protection, exit facilities or sanitary provisions, or (c) removing or disturbing any asbestos-containing materials during demolition, alteration, renovation of or additions to building or structures. If the projected scope of an energy-efficiency project includes any of these elements, it shall be subject to the capital outlay process as set out in this section.

5. The Director, Department of Planning and Budget, shall notify the Chairmen of the House Appropriations and Senate Finance Committees upon the initiation of any energy-efficiency projects under the provisions of this paragraph.

v. No expenditures shall be authorized for the purchase of fee simple title to any real property to be used for a correctional facility or for the actual construction of a correctional facility provided for in this act, or by reference hereto, that involves acquisition or new construction of youth or adult correctional facilities on real property which was not owned by the Commonwealth on January 1, 1995, until the governing body of the county, city or town wherein the project is to be located has adopted a resolution supporting the location of such project within the boundaries of the affected jurisdiction. The foregoing does not prohibit expenditures for site studies, real estate options, correctional facility design and related expenditures.

w. Except for institutions of higher education governed by Chapters 933 and 943 of the 2006 Acts of Assembly, Chapters 594 and 616 of the 2008 Acts of Assembly, and Chapters 675 and 685 of the 2009 Acts of Assembly, any alternative financing agreement entered into between a state agency or institution of higher education and a private entity or affiliated foundation must be reviewed and approved by the Treasury Board.

x. Prior to requesting authorization for new dormitory capital projects, institutions of higher education shall conduct a cost study to determine whether an alternative financing arrangement or public-private transaction would provide a more effective option for the construction of the proposed facility. This study shall be submitted to the Department of Planning and Budget as part of the budget development process and shall be evaluated by the Governor prior to submitting his proposed budget.

y. Any new construction project developed by or for the Chippokes Plantation Farm Foundation, with an estimated cost of \$750,000 or less, shall be exempt from the capital outlay review and approval process.

z. Construction or improvement projects of the Department of Military Affairs are not exempt from the capital outlay review process when the state procurement process is utilized, except for those projects with both an estimated cost of \$3,000,000 or less and are 100 percent federally reimbursed. The Department of Military Affairs shall submit by July 30 of each year to the Department of Planning and Budget a list of such projects that were funded pursuant to this exemption in the previous fiscal year and any projects that would be eligible for such funding in future fiscal years.

~~aa. Any bridge structure constructed and operated in accordance with the provisions of Chapter 581, 2009 Acts of Assembly, shall not be deemed to be within any locality to which it is attached pursuant to § 15.2-3105, Code of Virginia. This is declarative of existing law.~~

The capital improvements program shall include maintenance and deferred maintenance of the Commonwealth's existing facilities, and of the facility requirements necessary to deliver the programs of state agencies and institutions.

b. In effecting these policies, the Governor shall establish a capital budget plan to address the renewal and replacement of the Commonwealth's physical plant, using such guidelines as recommended by industry or government to maintain the Commonwealth's investment in its property and plant.

### § 4-5.00 SPECIAL CONDITIONS AND RESTRICTIONS ON EXPENDITURES

#### § 4-5.01 TRANSACTIONS WITH INDIVIDUALS

a. SETTLEMENT OF CLAIMS: Whenever a dispute, claim or controversy involving the interest of the Commonwealth is settled pursuant to § 2.2-514, Code of Virginia, payment may be made out of any appropriations, designated by the Governor, to the state agency(ies) which is (are) party to the settlement.

b. STUDENT FINANCIAL ASSISTANCE FOR HIGHER EDUCATION:

1. General:

a) The appropriations made in this act to state institutions of higher education within the Items for student financial assistance may be expended for any one, all, or any combination of the following purposes: grants to undergraduate students enrolled at least one-half time in a degree, certificate, *industry-based certification and related programs that do not qualify for other sources of student financial assistance* or diploma program; grants to full-time graduate students; graduate assistantships; grants to students enrolled full-time in a dual or concurrent undergraduate and graduate program. The institutions may also use these appropriations for the purpose of supporting work study programs. The institution is required to transfer to educational and general appropriations all funds used for work study or to pay graduate assistantships. Institutions may also contribute to federal or private student grant aid programs requiring matching funds by the institution, except for programs requiring work. The State Council of Higher Education for Virginia shall annually review each institution's plan for the expenditures of its general fund appropriation for undergraduate student financial assistance prior to the start of the fall term to determine program compliance. The institution's plan shall include the institution's assumptions and calculations for determining the cost of attendance, student financial need, and student remaining need as well as an award schedule or description of how funds are awarded. For the purposes of the proposed plan, each community college shall be considered independently. No limitations shall be placed on the awarding of nongeneral fund appropriations made in this act to state institutions of higher education within the Items for student financial assistance other than those found previously in this paragraph and as follows: (i) funds derived from in-state student tuition will not subsidize out-of-state students, (ii) students receiving these funds must be making satisfactory academic progress, (iii) awards made to students should be based primarily on financial need, and (iv) institutions should make larger grant and scholarship awards to students taking the number of credit hours necessary to complete a degree in a timely manner.

b) All awards made to undergraduate students from such Items shall be for Virginia students only and such awards shall offset all, or portions of, the costs of tuition and required fees, and, in the case of students qualifying under subdivision b 2 c)1) hereof, the cost of books. All undergraduate financial aid award amounts funded by this appropriation shall be proportionate to

the remaining need of individual students, with students with higher levels of remaining need receiving grants before other students. No criteria other than the need of the student shall be used to determine the award amount. Because of the low cost of attendance and recognizing that federal grants provide a much higher portion of cost than at other institutions, a modified approach and minimum award amount for the neediest VGAP student should be implemented for community college and Richard Bland College students based on remaining need and the combination of federal and grant state aid. Student financial need shall be determined by a need-analysis system approved by the Council.

c)1) All need-based awards made to graduate students shall be determined by the use of a need-analysis system approved by the Council.

2) As part of the six-year financial plans required in the provisions of Chapters 933 and 945 of the 2005 Acts of Assembly, each institution of higher education shall report the extent to which tuition and fee revenues are used to support graduate student aid and graduate compensation and how the use of these funds impacts planned increases in student tuition and fees.

d) A student who receives a grant under such Items and who, during a semester, withdraws from the institution which made the award must surrender the unearned portion. The institution shall calculate the unearned portion of the award based on the percentage used for federal Return to Title IV program purposes.

e) An award made under such Items to assist a student in attending an institution's summer session shall be prorated according to the size of comparable awards made in that institution's regular session.

f) The provisions of this act under the heading "Student Financial Assistance for Higher Education" shall not apply to (1) the soil scientist scholarships authorized under § 23-38.3, Code of Virginia and (2) *need-based financial aid programs for industry-based certification and related programs that do not qualify for other sources of student financial assistance, which will be subject to guidelines developed by the State Council of Higher Education for Virginia.*

g) Unless noted elsewhere in this act, general fund awards shall be named "Commonwealth" grants.

h) Unless otherwise provided by statute, undergraduate awards shall not be made to students seeking a second or additional baccalaureate degree until the financial aid needs of first-degree seeking students are fully met.

#### 2. Grants To Undergraduate Students:

a) Each institution which makes undergraduate grants paid from its appropriation for student financial assistance shall expend such sums as approved for that purpose by the Council.

b) A student receiving an award must be duly admitted and enrolled in a degree, certificate or diploma program at the institution making the award, and shall be making satisfactory academic progress as defined by the institution for the purposes of eligibility under Title IV of the federal Higher Education Act, as amended.

c)1) It is the intent of the General Assembly that students eligible under the Virginia Guaranteed Assistance Program (VGAP) authorized in Title 23, Chapter 4.4:2, Code of Virginia, shall receive grants before all other students at the same institution with equivalent remaining need from the appropriations for undergraduate student financial assistance found in Part 1 of this act (service area 1081000 - Scholarships). In each instance, VGAP eligible students shall receive awards greater than other students with equivalent remaining need.

2) The amount of each VGAP grant shall vary according to each student's remaining need and the total of tuition, all required fees and the cost of books at the institution the student will attend upon acceptance for admission. The actual amount of the VGAP award will be determined by the proportionate award schedule adopted by each institution; however, those students with the greatest financial need shall be guaranteed an award at least equal to tuition.

3) It is the intent of the General Assembly that the Virginia Guaranteed Assistance Program serve as an incentive to financially needy students now attending elementary and secondary school in Virginia to raise their expectations and their academic performance and to consider higher education an achievable objective in their futures.

4) Students may not receive a VGAP and a Commonwealth grant in the same semester.

#### 3. Grants To Graduate Students:

a) An individual award may be based on financial need but may, in addition to or instead of, be based on other criteria determined by the institution making the award. The amount of an award shall be determined by the institution making the award; however, the Council shall annually be notified as to the maximum size of a graduate award that is paid from funds in the appropriation.

b) A student receiving a graduate award paid from the appropriation must be duly admitted into a graduate degree program at the institution making the award.

c) Not more than 50 percent of the funds designated by an institution as graduate grants from the appropriation, and approved as such by the Council, shall be awarded to persons not eligible to be classified as Virginia domiciliary resident students except in cases where the persons meet the criteria outlined in § 4-2.01b.6.

4. Matching Funds: Any institution of higher education may, with the approval of the Council, use funds from its appropriation for fellowships and scholarships to provide the institutional contribution to any student financial aid program established by the federal government or private sources which requires the matching of the contribution by institutional funds, except for programs requiring work.

5. Discontinued Loan Program:

a) If any federal student loan program for which the institutional contribution was appropriated by the General Assembly is discontinued, the institutional share of the discontinued loan program shall be repaid to the fund from which the institutional share was derived unless other arrangements for the use of the funds are recommended by the Council and approved by the Department of Planning and Budget. Should the institution be permitted to retain the federal contributions to the program, the funds shall be used according to arrangements authorized by the Council and approved by the Department of Planning and Budget.

b)1) An institution of higher education may discontinue its student loan fund established pursuant to Title 23, Chapter 4.01, Code of Virginia. The full amount of cash in such discontinued loan fund shall be paid into the state treasury into a nonrevertible nongeneral fund account. Prior to such payment, the State Comptroller shall verify its accuracy, including the fact that the cash held by the institution in the loan fund will be fully depleted by such payment. The loan fund shall not be reestablished thereafter for that institution.

2) The cash so paid into the state treasury shall be used only for grants to undergraduate and graduate students in the Higher Education Student Financial Assistance program according to arrangements authorized by the Council and approved by the Department of Planning and Budget.

3) Payments on principal and interest of any promissory notes held by the discontinued loan fund shall continue to be received by the institution, which shall deposit such payments in the state treasury to the nonrevertible nongeneral fund account specified in subdivision (1) preceding, to be used for grants as specified in subdivision (2) preceding.

6. Reporting: The Council shall collect student-specific information for undergraduate students as is necessary for the operation of the Student Financial Assistance Program. The Council shall maintain regulations governing the operation of the Student Financial Assistance Program based on the provisions outlined in this section, the Code of Virginia, and State Council policy.

#### C. PAYMENTS TO CITIZEN MEMBERS OF NONLEGISLATIVE BODIES:

Notwithstanding any other provision of law, executive branch agencies shall not pay compensation to citizen members of boards, commissions, authorities, councils, or other bodies from any fund for the performance of such members' duties in the work of the board, commission, authority, council, or other body.

3. Notwithstanding any provision of the Code of Virginia or this act to the contrary, the Department of Taxation shall be exempt from participating in the debt collection process of the Office of the Attorney General.

No state agency, or its governing body, shall alter factors (e.g., qualification level for receipt of payment or service) which may increase the number of eligible recipients for its authorized services or payments, or alter factors which may increase the unit cost of benefit payments within its authorized services, unless the General Assembly has made an appropriation for the cost of such change.

2. ~~State agencies shall submit any proposed modifications in rates to be charged by internal service funds, pursuant to §§ 2.2-803, 2.2-1101, and 2.2-2013, Code of Virginia, that impact on agency expenditures to the Department of Planning and Budget for review prior to approval by the Joint Legislative Audit and Review Commission. The report shall include any proposed modifications in rates to be charged by internal service funds for review and approval by the Department of Planning and Budget. In its review, the Department of Planning and Budget shall determine whether the requested rate modifications are consistent with budget assumptions. The format by which agencies submit the operating plan for each internal service fund shall be determined by the Department of Planning and Budget with assistance from agencies that operate internal service funds as requested.~~

b) Offerings at previously approved off-campus locations shall also not be subject to these provisions.

c) Further, the provisions herein do not govern the establishment and operations of campus sites with a primary function of carrying out grant and contract research where direct and indirect costs from such research are covered through external funding sources. Artwork and photographs which exaggerate or extol rather than supplement or complement permissible information are prohibited. Mass mailings are generally prohibited; however, either mass mailings or newspaper inserts, but not both, may be used if other methods of distributing permissible information are not economically feasible in the institution's local service area.

3. Remedial Education: Senior institutions of higher education shall make arrangements with community colleges for the remediation of students accepted for admission by the senior institutions.

These transfers are limited to actions needed to adjust for overfunding or underfunding the program appropriations affected by the altered billing systems.

3. The provisions of this subsection shall not in any way affect the duties and responsibilities of the State Comptroller under the provisions of § 2.2-803, Code of Virginia.

4. It is the intent of the General Assembly that information technology (IT) systems, products, data, and service costs, including geographic information systems (GIS), be contained through the shared use of existing or planned equipment, data, or services which may be available or soon made available for use by state agencies, institutions, authorities, and other public bodies. State agencies, institutions, and authorities shall cooperate with the Virginia Information Technologies Agency in identifying the development and operational requirements for proposed IT and GIS systems, products, data, and services, including the proposed use, functionality, capacity and the total cost of acquisition, operation and maintenance.

The Director of the Department of General Services shall compare the cost of vehicles acquired by institutions of higher education to like vehicles under the state contract. If the comparison demonstrates for a given institution that the cost to the Commonwealth is greater for like vehicles than would be the case based on a contract of statewide applicability, the Governor or his designee may suspend the exemption granted to the institution pursuant to this subparagraph c.

3. The Director, Department of General Services, is hereby authorized to transfer surplus motor vehicles among the state agencies, and determine the value of such surplus equipment for the purpose of maintaining the financial accounts of the state agencies affected by such transfers.

For such use in excess of 15,000 miles in each fiscal year, the reimbursement shall be at a rate of 13.0 cents per mile, unless a state-owned vehicle is not available; then the rate shall be the IRS rate;

The Chief Information Officer and the State Comptroller shall develop statewide requirements for the use of cellular telephones and other telecommunication devices by in-scope Executive Department agencies, addressing the assignment, evaluation of need, safeguarding, monitoring, and usage of these telecommunication devices. The requirements shall include an acceptable use agreement template clearly defining an employee's responsibility when they receive and use a telecommunication device. Statewide requirements shall require some form of identification on a device in case it is lost or stolen and procedures to wipe the device clean of all sensitive information when it is no longer in use.

2. In-scope Executive Department agencies providing employees with telecommunication devices shall develop agency-specific policies, incorporating the guidance provided in § 4-5.04 k. 1. of this act and shall maintain a cost justification for the assignment or a public health, welfare and safety need.

The Chief Information Officer shall regularly procure these services and provide statewide contracts for use by all such agencies. These contracts shall require the vendors to provide detailed usage information in a useable electronic format to enable the in-scope agencies to properly monitor usage to make informed purchasing decisions and minimize costs.

4. The Chief Information Officer shall examine the feasibility of providing tools for in-scope Executive Department agencies to analyze usage and cost data to assist in determining the most cost effective plan combinations for the entity as a whole and individual users.

1. ALTERNATIVE PROCUREMENT: If any payment is declared unconstitutional for any reason or if the Attorney General finds in a formal, written, legal opinion that a payment is unconstitutional, in circumstances where a good or service can constitutionally be the subject of a purchase, the administering agency of such payment is authorized to use the affected appropriation to procure, by means of the Commonwealth's Procurement Act, goods and services, which are similar to those sought by such payment in order to accomplish the original legislative intent.

e. 1. Salaries for newly employed or promoted employees shall be established consistent with the compensation and classification plans established by the Governor.

2. The State Comptroller is hereby authorized to require payment of wages or salaries to state employees by direct deposit or by credit to a prepaid debit card or card account from which the employee is able to withdraw or transfer funds.

f. The provisions of this section, requiring prior written approval of the Governor relative to compensation, shall apply also to any system of incentive award payments which may be adopted and implemented by the Governor. The cost of implementing any such system shall be paid from any funds appropriated to the affected agencies.

- g. No lump sum appropriation for personal service shall be regarded as advisory or suggestive of individual salary rates or of salary schedules to be fixed under law by the Governor payable from the lump sum appropriation.
- h. Subject to approval by the Governor of a plan for a statewide employee meritorious service awards program, as provided for in § 2.2-1201-42, Code of Virginia, the costs for such awards shall be paid from any operating funds appropriated to the affected agencies.
- i. The General Assembly hereby affirms and ratifies the Governor's existing authority and the established practice of this body to provide for pay differentials or to supplement base rates of pay for employees in specific job classifications in particular geographic and/or functional areas where, in the Governor's discretion, they are needed for the purpose of maintaining salaries which enable the Commonwealth to maintain a competitive position in the relevant labor market.
- j.1. If at any time the Administrator of the Commonwealth's Attorneys' Services Council serves on the faculty of a state-supported institution of higher education, the faculty appointment must be approved by the Council. Such institution shall pay one-half of the salary listed in § 4-6.01 c 6 of this act. Further, such institution may provide compensation in addition to that listed in § 4-6.01 c 6; provided, however, that such additional compensation must be approved by the Council.
2. If the Administrator ceases to be a member of the faculty of a state-supported institution of higher education, the total salary listed in § 4-6.01 c 6 shall be paid from the Council's appropriation.
- k.1. Except as otherwise provided for in this subdivision, any increases in the salary band assignment of any job role contained in the compensation and classification plans approved by the Governor shall be effective beginning with the first pay period, defined as the pay period from June 25 through July 9, of the fiscal year if: (1) the agency certifies to the Secretary of Finance that funds are available within the agency's appropriation to cover the cost of the increase for the remainder of the current biennium and presents a plan for covering the costs next biennium and the Secretary concurs, or (2) such funds are appropriated by the General Assembly. If at any time the Secretary of Administration shall certify that such change in the salary band assignment for a job role is of an emergency nature and the Secretary of Finance shall certify that funds are available to cover the cost of the increase for the remainder of the biennium within the agency's appropriation, such change in compensation may be effective on a date agreed upon by these two Secretaries. The Secretary of Administration shall provide a monthly report of all such emergency changes in accordance with § 4-8.00, Reporting Requirements.
2. Salary adjustments for any employee through a promotion, role change, exceptional recruitment and retention incentive options, or in-range adjustment shall occur only if: a) the agency has sufficient funds within its appropriation to cover the cost of the salary adjustment for the remainder of the current biennium or b) such funds are appropriated by the General Assembly.
3. No changes in salary band assignments affecting classified employees of more than one agency shall become effective unless the Secretary of Finance certifies that sufficient funds are available to provide such increase or plan to all affected employees supported from the general fund.
- l. Full-time employees of the Commonwealth, including faculty members of state institutions of higher education, who are appointed to a state-level board, council, commission or similar collegial body shall not receive any such compensation for their services as members or chairmen except for reimbursement of reasonable and necessary expenses. The foregoing provision shall likewise apply to the Compensation Board, pursuant to § 15.2-1636.5, Code of Virginia.
- m.1. Notwithstanding any other provision of law, the board of visitors or other governing body of any public institution of higher education is authorized to establish age and service eligibility criteria for faculty participating in voluntary early retirement incentive plans for their respective institutions pursuant to § 23-9.2:3.1 B and the cash payment offered under such compensation plans pursuant to § 23-9.2:3.1 D, Code of Virginia. Notwithstanding the limitations in § 23-9.2:3.1 D, the total cost in any fiscal year for any such compensation plan, shall be set forth by the governing body in the compensation plan for approval by the Governor and review for legal sufficiency by the Office of the Attorney General.
2. Notwithstanding any other provision of law, employees holding full-time, academic-year classified positions at public institutions of higher education shall be considered "state employees" as defined in § 51.1-124.3, Code of Virginia, and shall be considered for medical/hospitalization, retirement service credit, and other benefits on the same basis as those individuals appointed to full-time, 12-month classified positions.
- n. Notwithstanding the Department of Human Resource Management Policies and Procedures, payment to employees with five or more years of continuous service who either terminate or retire from service shall be paid in one sum for twenty-five percent of their sick leave balance, provided, however, that the total amount paid for sick leave shall not exceed \$5,000 and the remaining seventy-five percent of their sick leave shall lapse. This provision shall not apply to employees who are covered by the Virginia Sickness and Disability Program as defined in § 51.1-1100, Code of Virginia. Such employees shall not be paid for their sick leave balances. However, they will be paid, if eligible as described above, for any disability leave credits they have at separation or retirement or may convert disability credits to service credit under the Virginia Retirement System pursuant to § 51.1-1103 (F), Code of Virginia.

o. It is the intent of the General Assembly that calculation of the faculty salary benchmark goal for the Virginia Community College System shall be done in a manner consistent with that used for four-year institutions, taking into consideration the number of faculty at each of the community colleges. In addition, calculation of the salary target shall reflect an eight percent salary differential in a manner consistent with other public four-year institutions and for faculty at Northern Virginia Community College.

p. Any public institution of higher education that has met the eligibility criteria set out in Chapters 933 and 945 of the 2005 Acts of Assembly may supplement annual salaries for classified employees from private gifts, endowment funds, or income from endowments and gifts, subject to policies approved by the board of visitors. The Commonwealth shall have no general fund obligations for the continuation of such salary supplements.

q. The Governor, or any other appropriate Board or Public Body, is authorized to adjust the salaries of employees specified in this item, and other items in the Act, to reflect the compensation adjustments authorized in Item 468 of this Act.

r. Any public institution of higher education shall not provide general fund monies above \$100,000 for any individual athletic coaching salaries after July 1, 2013. Athletic coaching salaries with general fund monies above this amount shall be phased-down over a five-year period at 20 percent per year until reaching the cap of \$100,000.

*s. The Governor, or any other appropriate Board or Public Body, is authorized to adjust the salaries of employees specified in this item, and other items in the Act, to reflect the compensation adjustments authorized in Item 467 of this Act.*

#### § 4-6.02 EMPLOYEE TRAINING AND STUDY

Subject to uniform rules and regulations established by the Governor, the head of any state agency may authorize, from any funds appropriated to such department, institution or other agency in this act or subsequently made available for the purpose, compensation or expenses or both compensation and expenses for employees pursuing approved training courses or academic studies for the purpose of becoming better equipped for their employment in the state service. The rules and regulations shall include reasonable provision for the return of any employee receiving such benefits for a reasonable period of duty, or for reimbursement to the state for expenditures incurred on behalf of the employee should he not return to state service.

#### § 4-6.03 EMPLOYEE BENEFITS

a. Any medical/hospitalization benefit program provided for state employees shall include the following provision: any state employee, as defined in § 2.2-2818, Code of Virginia, shall have the option to accept or reject coverage.

b. Except as provided for sworn personnel of the Department of State Police, no payment of, or reimbursement for, the employer paid contribution to the State Police Officers' Retirement System, or any system offering like benefits, shall be made by the Compensation Board of the Commonwealth at a rate greater than the employer rate established for the general classified workforce of the Commonwealth covered under the Virginia Retirement System. Any cost for benefits exceeding such general rate shall be borne by the employee or, in the case of a political subdivision, by the employer.

c. Each agency may, within the funds appropriated by this act, implement a transit and ridesharing incentive program for its employees. With such programs, agencies may reimburse employees for all or a portion of the costs incurred from using public transit, car pools, or van pools. The Secretary of Transportation shall develop guidelines for the implementation of such programs and any agency program must be developed in accordance with such guidelines. The guidelines shall be in accordance with the federal National Energy Policy Act of 1992 (P.L. 102-486), and no program shall provide an incentive that exceeds the actual costs incurred by the employee.

d. Any hospital that serves as the primary medical facility for state employees may be allowed to participate in the State Employee Health Insurance Program pursuant to § 2.2-2818, Code of Virginia, provided that (1) such hospital is not a participating provider in the network, contracted by the Department of Human Resource Management, that serves state employees and (2) such hospital enters into a written agreement with the Department of Human Resource Management as to the rates of reimbursement. The department shall accept the lowest rates offered by the hospital from among the rates charged by the hospital to (1) its largest purchaser of care, (2) any state or federal public program, or (3) any special rate developed by the hospital for the state employee health benefits program which is lower than either of the rates above. If the department and the hospital cannot come to an agreement, the department shall reimburse the hospital at the rates contained in its final offer to the hospital until the dispute is resolved. Any dispute shall be resolved through arbitration or through the procedures established by the Administrative Process Act, as the hospital may decide, without impairment of any residual right to judicial review.

e. Any classified employee of the Commonwealth and any person similarly employed in the legislative, judicial and independent agencies who (i) is compensated on a salaried basis and (ii) works at least twenty hours per week shall be considered a full-time employee for the purposes of participation in the Virginia Retirement System's group life insurance and retirement programs. Any part-time magistrate hired prior to July 1, 1999, shall have the option of participating in the programs under this provision.

f.1. Any member of the Virginia Retirement System who is retired under the provisions of § 51.1-155.1, Code of Virginia who: 1) returns to work in a position that is covered by the provisions of § 51.1-155.1, Code of Virginia after a break of not less than four years, 2) receives no other compensation for service to a public employer than that provided for the position covered by § 51.1-155.1, Code of Virginia during such period of reemployment, 3) retires within one year of commencing such period of reemployment, and 4) retires directly from service at the end of such period of reemployment may either:

a) Revert to the previous retirement benefit received under the provisions of § 51.1-155.1, Code of Virginia, including any annual cost of living adjustments granted thereon. This benefit may be adjusted upward to reflect the effect of such additional months of service and compensation received during the period of reemployment, or

b) Retire under the provisions of Title 51.1 in effect at the termination of his or her period of reemployment, including any purchase of service that may be eligible for purchase under the provisions of § 51.1-142.2, Code of Virginia.

2. The Virginia Retirement System shall establish procedures for verification by the employer of eligibility for the benefits provided for in this paragraph.

g. Notwithstanding any other provision of law, no agency head compensated by funds appropriated in this act may be a member of the Virginia Law Officers' Retirement System created under Title 51.1, Chapter 2.1, Code of Virginia. The provisions of this paragraph are effective on July 1, 2002, and shall not apply to the Chief of the Capitol Police.

h. Full-time employees appointed by the Governor who, except for meeting the minimum service requirements, would be eligible for the provisions of § 51.1-155.1, Code of Virginia, may, upon termination of service, use any severance allowance payment to purchase service to meet, but not exceed, the minimum service requirements of § 51.1-155.1, Code of Virginia. Such service purchase shall be at the rate of 15 percent of the employee's final creditable compensation or average final compensation, whichever is greater, and shall be completed within 90 days of separation of service.

i. When calculating the retirement benefits payable under the Virginia Retirement System (VRS), the State Police Officers' Retirement System (SPORS), the Virginia Law-enforcement Officers' Retirement System (VaLORS), or the Judicial Retirement System (JRS) to any employee of the Commonwealth or its political subdivisions who is called to active duty with the armed forces of the United States, including the United States Coast Guard, the Virginia Retirement System shall:

1) utilize the pre-deployment salary, or the actual salary paid by the Commonwealth or the political subdivision, whichever is higher, when calculating average compensation, and

2) include those months after September 1, 2001 during which the employee was serving on active duty with the armed forces of the United States in the calculation of creditable service.

j. The provisions in § 51.1-144, Code of Virginia, that require a member to contribute five percent of his creditable compensation for each pay period for which he receives compensation on a salary reduction basis, shall not apply to any (i) "state employee," as defined in § 51.1-124.3, Code of Virginia, who is an elected official, or (ii) member of the Judicial Retirement System under Chapter 3 of Title 51.1 (§ 51.1-300 et seq.), who is not a "person who becomes a member on or after July 1, 2010," as defined in § 51.1-124.3, Code of Virginia.

k. Notwithstanding the provisions of subsection G of § 51.1-156, any employee of a school division who completed a period of 24 months of leave of absence without pay during October 2013 and who had previously submitted an application for disability retirement to VRS in 2011 may submit an application for disability retirement under the provisions of § 51.1-156. Such application shall be received by the Virginia Retirement System no later than October 1, 2014. This provision shall not be construed to grant relief in any case for which a court of competent jurisdiction has already rendered a decision, as contemplated by Article II, Section 14 of the Constitution of Virginia.

l. Notwithstanding the provisions of subsection B of § 51.1-155, any person who (i) has attained age 62, (ii) is receiving a service retirement allowance under Chapter 1 of Title 51.1, and (iii) was employed in an otherwise covered position as interim president and chief executive officer of an institution of higher education, who were appointed prior to January 1, 2014, for a period necessary to rectify significant management deficiencies, may elect to continue to receive the retirement allowance during such employment. If the person elects to continue to receive the retirement allowance, then his service performed and compensation received during the period of time he receives the retirement allowance will not increase, decrease, or affect in any way his retirement benefits before, during, or after such employment.

#### § 4-6.04 CHARGES

a. **FOOD SERVICES:** Except as exempted by the prior written approval of the Director, Department of Human Resource Management, and the provisions of § 2.2-3605, Code of Virginia, state employees shall be charged for meals served in state facilities. Charges for meals will be determined by the agency. Such charges shall be not less than the value of raw food and the cost of direct labor and utilities incidental to preparation and service. Each agency shall maintain records as to the calculation of meal charges and revenues collected. Except where appropriations for operation of the food service are from nongeneral funds, all revenues received from such charges shall be paid directly and promptly into the general fund. The provisions of this paragraph shall not apply to on-duty employees assigned to correctional facilities operated by the Departments of Corrections and Juvenile Justice.

b. HOUSING SERVICES:

1. Each agency will collect a fee from state employees who occupy state-owned or leased housing, subject to guidelines provided by the Director, Department of General Services. Each agency head is responsible for establishing a fee for state-owned or leased housing and for documenting in writing why the rate established was selected. In exceptional circumstances, which shall be documented as being in the best interest of the Commonwealth by the agency requesting an exception, the Director, Department of General Services may waive the requirement for collection of fees.

2. All revenues received from housing fees shall be promptly deposited in the state treasury. For housing for which operating expenses or rent are financed by general fund appropriations, such revenues shall be deposited to the credit of the general fund. For housing for which operating expenses or rent are financed by nongeneral fund appropriations, such revenues shall be deposited to the credit of the nongeneral fund. Agencies which provide housing for which operating expenses or rent are financed from both general fund and nongeneral fund appropriations shall allocate such revenues, when deposited in the state treasury, to the appropriate fund sources in the same proportion as the appropriations. However, without exception, any portion of a housing fee attributable to depreciation for housing which was constructed with general fund appropriations shall be paid into the general fund.

c. PARKING SERVICES:

1. State-owned parking facilities

Agencies with parking space for employees in state-owned facilities shall, when required by the Director, Department of General Services, charge employees for such space on a basis approved by the Governor. All revenues received from such charges shall be paid directly and promptly into a special fund in the state treasury to be used, as determined by the Governor, for payment of costs for the provision of vehicle parking spaces. Interest shall be added to the fund as earned. –

2. Leased parking facilities in metropolitan Richmond area

Agencies occupying private sector leased or rental space in the metropolitan Richmond area, not including institutions of higher education, shall be required to charge a fee to employees for vehicle parking spaces that are assigned to them or are otherwise available either incidental to the lease or rental agreement or pursuant to a separate lease agreement for private parking space. In such cases, the individual employee parking fee shall not be less than that paid by employees parking in Department of General Services parking facilities at the Seat of Government. The Director, Department of General Services may amend or waive the fee requirement for good cause. Any such position level increases pursuant to this provision may not be approved for more than one year.

b. The Position Levels stipulated for the individual agencies within the Department of Behavioral Health and Developmental Services and the Department of Corrections are for reference only and are subject to changes by the applicable Department, provided that such changes do not result in exceeding the Position Level for that department.

The page should include a link to the State Council of Higher Education for Virginia's tuition and fee information. The boards should consider requiring institutions to list the major components of all mandatory fees, including the portion attributable to athletics, on a separate page attached to student invoices;*

2. *assess the feasibility and impact of raising additional revenue through campus recreation and fitness enterprises to reduce reliance on mandatory student fees. The assessments should address the feasibility and impact of raising additional revenue through charging for specialized programs and services, expanding membership, and/or charging all users of recreation facilities;*

3. *direct staff to perform a comprehensive review of the institution's organizational structure, including an analysis of spans of control and a review of staff activities and workload, and identify opportunities to streamline the organizational structure. Boards should further direct staff to implement the recommendations of the review to streamline their organizational structures where possible;*

4. *require periodic reports on average and median spans of control and the number of supervisors with six or fewer direct reports;*

5. *direct staff to revise human resource policies to eliminate unnecessary supervisory positions by developing standards that establish and promote broader spans of control. The new policies and standards should (i) set an overall target span of control for the institution, (ii) set a minimum number of direct reports per supervisor, with guidelines for exceptions, (iii) define the circumstances that necessitate the use of a supervisory position, (iv) prohibit the establishment of supervisory positions for the purpose of recruiting or retaining employees, and (v) establish a periodic review of departments where spans of control are unusually narrow; and,*

6. *direct institution staff to set and enforce policies to maximize standardization of purchases of commonly procured goods, including use of institution-wide contracts;*

7. *consider directing institution staff to provide an annual report on all institutional purchases, including small purchases, that are exceptions to the institutional policies for standardizing purchases.*

b. *The State Council on Higher Education for Virginia, to the extent practicable, shall:*

1. convene a working group of institution financial officers, with input from the Department of Accounts, the Department of Planning and Budget, and the Auditor of Public Accounts, to create a standard way of calculating and publishing mandatory non-E&G fees, including for intercollegiate athletics;
  2. update the state's Chart of Accounts for higher education in order to improve comparability and transparency of mandatory non-E&G fees, with input from the Department of Accounts, the Department of Planning and Budget, the Auditor of Public Accounts, and institutional staff. This process should be coordinated with the standardization of tuition and fee reporting;
  3. convene a working group of institutional staff to develop instructional and research space guidelines that adequately measure current use of space and plans for future use of space at Virginia's public higher education institutions;
  4. coordinate a committee of institutional representatives, such as the previously authorized Learning Technology Advisory Committee. In addition to the objectives set out in the Appropriation Act for the Learning Technology Advisory Committee, the committee should identify instructional technology initiatives and best practices for directly or indirectly lowering institutions' instructional expenditures per student while maintaining or enhancing student learning.
- c. Notwithstanding the provisions of § 23-9.14:1, the State Council of Higher Education for Virginia shall annually train boards of visitors members on the types of information members should request from institutions to inform decision making, such as performance measures, benchmarking data, the impact of financial decisions on student costs, and past and projected cost trends. Boards of Visitors members serving on finance and facilities subcommittees should, at a minimum, participate in the training within their first year of membership on the subcommittee. SCHEV should obtain assistance in developing or delivering the training from relevant agencies such as the Department of General Services and past or present finance officers at Virginia's public four-year institutions, as appropriate.
- d. The Department of Planning and Budget shall revise the formula used to make allocation recommendations for the state's maintenance reserve funding to account for higher maintenance needs resulting from poor facility condition, aging of facilities, and differences in facility use. Beginning with fiscal year 2016, the Department of Planning and Budget shall submit these recommendations to the Governor and General Assembly no later than November 1 of each year.
- e. The Six-Year Capital Outlay Plan Advisory Committee, the Department of Planning and Budget, and others as appropriate shall use the results of the prioritization process established by the State Council of Higher Education for Virginia in determining which capital projects should receive funding.
- f. Beginning with fiscal year 2016, the Auditor of Public Accounts shall include in its audit plan for each public institution of higher education a review of progress in implementing the JLARC recommendations contained in paragraph § 4-9.04 a.

#### **§ 4-11.00 STATEMENT OF FINANCIAL CONDITION**

Each agency head handling any state funds shall, at least once each year, upon request of the Auditor of Public Accounts, make a detailed statement, under oath, of the financial condition of his office as of the date of such call, to the Auditor of Public Accounts, and upon such forms as shall be prescribed by the Auditor of Public Accounts.

#### **§ 4-12.00 SEVERABILITY**

If any part, section, subsection, paragraph, sentence, clause, phrase, or item of this act or the application thereof to any person or circumstance is for any reason declared unconstitutional, such decisions shall not affect the validity of the remaining portions of this act which shall remain in force as if such act had been passed with the unconstitutional part, section, subsection, paragraph, sentence, clause, phrase, item or such application thereof eliminated; and the General Assembly hereby declares that it would have passed this act if such unconstitutional part, section, subsection, paragraph, sentence, clause, phrase, or item had not been included herein, or if such application had not been made.

#### **§ 4-13.00 CONFLICT WITH OTHER LAWS**

Notwithstanding any other provision of law, and until June 30, 2016, the provisions of this act shall prevail over any conflicting provision of any other law, without regard to whether such other law is enacted before or after this act; however, a conflicting provision of another law enacted after this act shall prevail over a conflicting provision of this act if the General Assembly has clearly evidenced its intent that the conflicting provision of such other law shall prevail, which intent shall be evident only if such other law (i) identifies the specific provision(s) of this act over which the conflicting provision of such other law is intended to prevail and (ii) specifically states that the terms of this section are not applicable with respect to the conflict between the provision(s) of this act and the provision of such other law.

[H 1307]

Approved March 26, 2015

**Be it enacted by the General Assembly of Virginia:**

**1. That § 22.1-260 of the Code of Virginia is amended and reenacted and that the Code of Virginia is amended by adding a section numbered 22.1-287.02 as follows:**

**§ 22.1-260. Reports of children enrolled and not enrolled; nonattendance.**

A. Within 10 days after the opening of the school, each public school principal shall report to the division superintendent:

1. The name, age and grade of each student enrolled in the school, and the name and address of the student's parent or guardian; and

2. To the best of the principal's information, the name of each child subject to the provisions of this article who is not enrolled in school, with the name and address of the child's parent or guardian.

B. At the end of each school year, each public school principal shall report to the division superintendent the number of students by grade level for whom a conference was scheduled as required by § 22.1-258. The division superintendent shall compile such grade level information for the division and provide such information to the Superintendent of Public Instruction annually.

~~C. For the purposes of this section, each student shall present a federal social security number within 90 days of his enrollment. The Board of Education shall, after consulting with the Social Security Administration, promulgate guidelines for determining which students are eligible to obtain social security numbers. In any case in which a student is ineligible, pursuant to these guidelines, to obtain a social security number or the parent is unwilling to present such number, the superintendent or his designee may assign another identifying number to the student or waive this requirement.~~

**§ 22.1-287.02. Unique student identification numbers.**

A. ~~Neither the Department of Education nor any local school board shall require any student enrolled in a public elementary or secondary school or receiving home instruction pursuant to § 22.1-254.1, or his parent, to provide the student's federal social security number.~~

B. ~~The Department of Education shall develop a system of unique student identification numbers. Each local school board shall assign such a number to each student enrolled in a public elementary or secondary school. No student identification number shall include or be derived from the student's federal social security number. Each student shall retain his student identification number for as long as he is enrolled in a public elementary or secondary school in the Commonwealth.~~

**2. That the provisions of this act shall become effective on August 1, 2015.**

## CHAPTER 667

*An Act to amend and reenact §§ 24.2-115 and 24.2-627 of the Code of Virginia, relating to presidential elections; number of officers of election and ballot scanner machines.*

[S 1062]

Approved March 26, 2015

**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 24.2-115 and 24.2-627 of the Code of Virginia are amended and reenacted as follows:**

**§ 24.2-115. Appointment, qualifications, and terms of officers of election.**

Each electoral board at its regular meeting in the first week of February of the year in which the terms of officers of election are scheduled to expire shall appoint officers of election. Their terms of office shall begin on March 1 following their appointment and continue, at the discretion of the electoral board, for a term not to exceed three years or until their successors are appointed.

Not less than three competent citizens shall be appointed for each precinct ~~and, insofar as practicable, a precinct having more than 4,000 registered voters shall have not less than five officers of election serving for a presidential election, and the electoral board shall appoint additional officers as needed to satisfy this requirement.~~ *Insofar as practicable, each officer shall be a qualified voter of the precinct he is appointed to serve, but in any case a qualified voter of the Commonwealth. In appointing the officers of election, representation shall be given to each of the two political parties having the highest and next highest number of votes in the Commonwealth for Governor at the last preceding gubernatorial election. The representation of the two parties shall be equal at each precinct having an even number of officers and shall vary by no more than one at each precinct having an odd number of officers. If practicable, officers shall be appointed from lists of nominations filed by the political parties entitled to appointments. The party shall file its nominations with the secretary of the electoral board at least 10 days before February 1 each year. The electoral board may appoint additional citizens who do*

not represent any political party to serve as officers. If practicable, no more than one-third of the total number of officers appointed for each precinct may be citizens who do not represent any political party.

Officers of election shall serve for all elections held in their respective precincts during their terms of office unless a substitute is required to be appointed pursuant to § 24.2-117 or the electoral board decides that fewer officers are needed for a particular election, in which case party representation shall be maintained as provided above. For a primary election involving only one political party, persons representing the political party holding the primary shall serve as the officers of election if possible.

The electoral board shall designate one officer as the chief officer of election and one officer as the assistant for each precinct. The officer designated as the assistant for a precinct, whenever practicable, shall not represent the same political party as the chief officer for the precinct. Notwithstanding any other provision of this section, where representatives for one or both of the two political parties having the largest number of votes for Governor in the last preceding gubernatorial election are unavailable, the electoral board may designate as the chief officer and the assistant chief officer citizens who do not represent any political party. In such case, the electoral board shall provide notice to representatives of both parties at least 10 days prior to the election that it intends to use nonaffiliated officers so that each party shall have the opportunity to provide additional nominations. The electoral board may also appoint at least one officer of election who reports to the precinct at least one hour prior to the closing of the precinct and whose primary responsibility is to assist with closing the precinct and reporting the results of the votes at the precinct.

The electoral board shall instruct each chief officer and assistant in his duties not less than three nor more than 30 days before each election. Each electoral board may instruct each officer of election in his duties at an appropriate time or times before each November general election, and shall conduct training of the officers of election consistent with the standards set by the State Board pursuant to subsection B of § 24.2-103. Each electoral board shall certify to the State Board that such training has been conducted every four years.

Notwithstanding the provisions of § 24.2-117, if an officer of election is unable to serve at any election during his term of office, the electoral board may at any time appoint a substitute who shall hold office and serve for the unexpired term.

Additional officers shall be appointed in accordance with this section at any time that the electoral board determines that they are needed *or as required by law*.

If practicable, substitute officers or additional officers appointed after the electoral board's regular meeting in the first week of February shall be appointed from lists of nominations filed by the political parties entitled to appointments. The electoral board shall inform the political parties of its decision to make such appointments and the party shall file its nominations with the secretary of the electoral board within five business days.

The secretary of the electoral board shall prepare a list of the officers of election that shall be available for inspection and posted in the general registrar's office prior to March 1 each year. Whenever substitute or additional officers are appointed, the secretary shall promptly add the names of the appointees to the public list. Upon request and at a reasonable charge not to exceed the actual cost incurred, the secretary shall provide a copy of the list of the officers of election, including their party designation and precinct to which they are assigned, to any requesting political party or candidate.

#### **§ 24.2-627. Electronic voting or counting machines; number required.**

A. The governing body of any county or city that adopts for use at elections direct recording electronic machines shall provide for each precinct at least the following number of voting machines:

- In each precinct having not more than 750 registered voters, 1;
- In each precinct having more than 750 but not more than 1,500 registered voters, 2;
- In each precinct having more than 1,500 but not more than 2,250 registered voters, 3;
- In each precinct having more than 2,250 but not more than 3,000 registered voters, 4;
- In each precinct having more than 3,000 but not more than 3,750 registered voters, 5;
- In each precinct having more than 3,750 but not more than 4,500 registered voters, 6;
- In each precinct having more than 4,500 but not more than 5,000 registered voters, 7.

B. The governing body of any county or city that adopts for use at elections ballot scanner machines shall provide for each precinct at least one voting booth with a marking device for each 425 registered voters or portion thereof and shall provide for each precinct at least one scanner. *However, each precinct having more than 4,000 registered voters shall be provided with not less than two scanners at a presidential election, unless the governing body, in consultation with the general registrar and the electoral board, determines that a second scanner is not necessary at any such precinct on the basis of voter turnout and the average wait time for voters in previous presidential elections.*

C. The local electoral board of any county or city shall be authorized to conduct any May general election, primary election, or special election held on a date other than a November general election with the number of voting or counting machines it determines is appropriate for each precinct, notwithstanding the provisions of subsections A and B.

D. For purposes of applying this section, an electoral board may exclude persons voting absentee in its calculations, and if it does so, the electoral board shall send to the State Board a statement of the number of voting systems to be used in each precinct. If the State Board finds that the number of voting systems is not sufficient, it may direct the local board to use more voting systems.

**§ 32.1-309.1. Identification of decedent, next of kin; disposition of claimed dead body.**

A. As used in this chapter, ~~next~~ unless the context requires a different meaning:

*"Disposition" means the burial, interment, entombment, cremation, or other authorized disposition of a dead body permitted by law.*

*"Next of kin" has the same meaning assigned to it in § 54.1-2800.*

B. In the absence of a next of kin, a person designated to make arrangements for *disposition* of the decedent's ~~burial or the disposition of his~~ remains pursuant to § 54.1-2825, an agent named in an advance directive pursuant to § 54.1-2984, or any guardian appointed pursuant to Chapter 20 (§ 64.2-2000 et seq.) of Title 64.2 who may exercise the powers conferred in the order of appointment or by § 64.2-2019, or upon the failure or refusal of such next of kin, designated person, agent, or guardian to accept responsibility for the disposition of the decedent, then any other person 18 years of age or older who is able to provide positive identification of the deceased and is willing to pay for the costs associated with the disposition of the decedent's remains shall be authorized to make arrangements for such disposition of the decedent's remains. If a funeral service establishment or funeral service licensee makes arrangements with a person other than a next of kin, designated person, agent, or guardian in accordance with this section, then the funeral service licensee or funeral service establishment shall be immune from civil liability unless such act, decision, or omission resulted from bad faith or malicious intent.

~~B- C.~~ Upon the death of any person, irrespective of the cause and manner of death, and irrespective of whether a medical examiner's investigation is required pursuant to § 32.1-283 or 32.1-285.1, the person or institution having initial custody of the dead body shall make good faith efforts to determine the identity of the decedent, if unknown, and to identify and notify the next of kin of the decedent regarding the decedent's death. If, upon notification of the death of the decedent, the next of kin of the decedent *or other person authorized by law to make arrangements for disposition of the decedent's remains* is willing and able to claim the body, the body may be claimed by the next of kin *or other person authorized by law to make arrangements for disposition of the decedent's remains* for disposition, and the claimant shall bear the expenses of such disposition. If the next of kin of the decedent *or other person authorized by law to make arrangements for disposition of the decedent's remains* fails or refuses to claim the body within 10 days of receiving notice of the death of the decedent, the body shall be disposed of in accordance with § 32.1-309.2.

~~C- D.~~ If the person or institution having initial custody of the dead body is unable to determine the identity of the decedent or to identify and notify the next of kin of the decedent regarding the decedent's death, the person or institution shall contact the primary law-enforcement agency for the locality, which shall make good faith efforts to determine the identity of the decedent and to identify and notify the next of kin of the decedent.

If the identity of the decedent is known to the primary law-enforcement agency or the primary law-enforcement agency is able to identify the decedent, the primary law-enforcement agency is able to identify and notify the next of kin of the decedent *or other person authorized by law to make arrangements for disposition of the decedent's remains*, and the next of kin of the decedent *or other person authorized by law to make arrangements for disposition of the decedent's remains* is willing and able to claim the body, the body may be claimed by the next of kin *or other person authorized by law to make arrangements for disposition of the decedent's remains* for disposition, and the claimant shall bear the expenses of such disposition.

If the identity of the decedent is known or the primary law-enforcement agency is able to determine the identity of the decedent but the primary law-enforcement agency is unable, despite good faith efforts, to identify and notify the decedent's next of kin *or other person authorized by law to make arrangements for disposition of the decedent's remains* within 10 days of the date of contact by the person or institution having initial custody of the dead body, or the primary law-enforcement agency is able to identify and notify the decedent's next of kin *or other person authorized by law to make arrangements for disposition of the decedent's remains* but the next of kin *or other person authorized by law to make arrangements for disposition of the decedent's remains* fails or refuses to claim the body within 10 days, the primary law-enforcement agency shall notify the person or institution having initial custody of the dead body, and the body shall be disposed of in accordance with § 32.1-309.2.

~~D- E.~~ In cases in which a dead body is claimed by the decedent's next of kin *or other person authorized by law to make arrangements for disposition of the decedent's remains* but the next of kin *or other person authorized by law to make arrangements for disposition of the decedent's remains* is unable to pay the reasonable costs of disposition of the body and the costs are paid by the county or city in which the decedent resided or in which the death occurred in accordance with this section, and the decedent has an estate out of which ~~burial~~ *disposition* expenses may be paid, in whole or in part, such assets shall be seized for such purpose.

~~E- F.~~ No dead body that is the subject of an investigation pursuant to § 32.1-283 or autopsy pursuant to § 32.1-285 shall be transferred for purposes of disposition until such investigation or autopsy has been completed.

~~F- G.~~ Any sheriff or primary law-enforcement officer, county, city, health care provider, funeral service establishment, funeral service licensee, or other person or institution that acts in accordance with the requirements of this chapter shall be immune from civil liability for any act, decision, or omission resulting from acceptance and disposition of the dead body in accordance with this section, unless such act, decision, or omission resulted from bad faith or malicious intent.

Upon entry of a final order for disposition of the dead body, the person or institution having initial custody of the body shall transfer custody of the body to a funeral service establishment, which shall take possession of the dead body for disposition in accordance with the provisions of such order. Except as provided in subsection B or C, the reasonable expenses of disposition of the body shall be borne (a) by the county or city in which the decedent resided at the time of death if the decedent was a resident of Virginia or (b) by the county or city where death occurred if the decedent was not a resident of Virginia or the location of the decedent's residence cannot reasonably be

determined. However, no such expenses shall be paid by such county or city until allowed by an appropriate court in such county or city.

B. In the case of a person who has been received into the state corrections system and died prior to his release, whose body is unclaimed, the Department of Corrections shall accept the body for proper disposition and shall bear the reasonable expenses for cremation or other disposition of the body. In the case of a person who has been received into the state corrections system and died prior to his release and whose claimant is financially unable to pay reasonable expenses of disposition, the expenses shall be borne by the county or city where the claimant resides.

C. In the case of a person who has been committed to the custody of the Department of Behavioral Health and Developmental Services and died prior to his release and whose claimant is financially unable to pay reasonable expenses of disposition, the expenses shall be borne by the county or city where the claimant resides.

D. Any person or institution having initial custody of a dead body may enter into an agreement with a local funeral service establishment whereby the funeral service establishment shall take possession of the dead body for the purpose of storing the dead body during such time as the person or institution having initial custody of the body or the primary local law-enforcement agency is engaged in identifying the decedent, attempting to identify and contact the next of kin of the decedent, and making arrangements for the final disposition of the body in accordance with this section, provided that at all times during which the funeral service establishment is providing storage of the body, the person or institution having initial custody of the dead body shall continue to have legal custody of the body until such time as custody is transferred in accordance with this chapter.

E. In cases in which a decedent whose remains are disposed of in accordance with this section has an estate out of which ~~burial~~ disposition expenses may be paid, in whole or in part, such assets shall be seized for such purpose.

F. No dead body that is the subject of an investigation pursuant to § 32.1-283 or autopsy pursuant to § 32.1-285 shall be transferred for purposes of disposition until such investigation or autopsy has been completed.

G. Any sheriff or primary law-enforcement officer, county, city, health care provider, funeral service establishment, or funeral service licensee; the Department of Corrections; or any other person or institution that acts in accordance with the requirements of this chapter shall be immune from civil liability for any act, decision, or omission resulting from acceptance and disposition of the dead body in accordance with this section, unless such act, decision, or omission resulted from bad faith or malicious intent.

H. Nothing in this section shall prevent a law-enforcement agency other than the primary law-enforcement agency from performing the duties established by this section if so requested by the primary law-enforcement agency and agreed to by the other law-enforcement agency.

### CHAPTER 674

*An Act to amend and reenact §§ 62.1-44.15:68 and 62.1-44.15:72 of the Code of Virginia, relating to daylighting of streams.*

[H 2067]

Approved March 27, 2015

**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 62.1-44.15:68 and 62.1-44.15:72 of the Code of Virginia are amended and reenacted as follows:**

**§ 62.1-44.15:68. Definitions.**

For the purposes of this article, the following words shall have the meanings respectively ascribed to them:

"Chesapeake Bay Preservation Area" means an area delineated by a local government in accordance with criteria established pursuant to § 62.1-44.15:72.

"Criteria" means criteria developed by the Board pursuant to § 62.1-44.15:72 for the purpose of determining the ecological and geographic extent of Chesapeake Bay Preservation Areas and for use by local governments in permitting, denying, or modifying requests to rezone, subdivide, or use and develop land in Chesapeake Bay Preservation Areas.

"Daylighted stream" means a stream that had been previously diverted into an underground drainage system, has been redirected into an aboveground channel using natural channel design concepts as defined in § 62.1-44.15:51, and would meet the criteria for being designated as a Resource Protection Area (RPA) as defined by the Board under this article.

"Department" means the Department of Environmental Quality.

"Director" means the Director of the Department of Environmental Quality.

"Secretary" means the Secretary of Natural Resources.

"Tidewater Virginia" means the following jurisdictions:

The Counties of Accomack, Arlington, Caroline, Charles City, Chesterfield, Essex, Fairfax, Gloucester, Hanover, Henrico, Isle of Wight, James City, King and Queen, King George, King William, Lancaster, Mathews, Middlesex, New Kent, Northampton, Northumberland, Prince George, Prince William, Richmond, Spotsylvania, Stafford, Surry, Westmoreland, and York, and the Cities of Alexandria, Chesapeake, Colonial Heights, Fairfax, Falls Church,

Fredericksburg, Hampton, Hopewell, Newport News, Norfolk, Petersburg, Poquoson, Portsmouth, Richmond, Suffolk, Virginia Beach, and Williamsburg.

**§ 62.1-44.15:72. Board to develop criteria.**

A. In order to implement the provisions of this article and to assist counties, cities, and towns in regulating the use and development of land and in protecting the quality of state waters, the Board shall promulgate regulations that establish criteria for use by local governments to determine the ecological and geographic extent of Chesapeake Bay Preservation Areas. The Board shall also promulgate regulations that establish criteria for use by local governments in granting, denying, or modifying requests to rezone, subdivide, or use and develop land in these areas.

B. In developing and amending the criteria, the Board shall consider all factors relevant to the protection of water quality from significant degradation as a result of the use and development of land. The criteria shall incorporate measures such as performance standards, best management practices, and various planning and zoning concepts to protect the quality of state waters while allowing use and development of land consistent with the provisions of this chapter. The criteria adopted by the Board, operating in conjunction with other state water quality programs, shall encourage and promote (i) protection of existing high quality state waters and restoration of all other state waters to a condition or quality that will permit all reasonable public uses and will support the propagation and growth of all aquatic life, including game fish, which might reasonably be expected to inhabit them; (ii) safeguarding the clean waters of the Commonwealth from pollution; (iii) prevention of any increase in pollution; (iv) reduction of existing pollution; and (v) promotion of water resource conservation in order to provide for the health, safety, and welfare of the present and future citizens of the Commonwealth.

C. Prior to the development or amendment of criteria, the Board shall give due consideration to, among other things, the economic and social costs and benefits which can reasonably be expected to obtain as a result of the adoption or amendment of the criteria.

D. In developing such criteria the Board may consult with and obtain the comments of any federal, state, regional, or local agency that has jurisdiction by law or special expertise with respect to the use and development of land or the protection of water. The Board shall give due consideration to the comments submitted by such federal, state, regional, or local agencies.

E. In developing such criteria, the Board shall provide that any locality in a Chesapeake Bay Preservation Area that allows the owner of an on-site sewage treatment system not requiring a Virginia Pollutant Discharge Elimination System permit to submit documentation in lieu of proof of septic tank pump-out shall require such owner to have such documentation certified by an operator or on-site soil evaluator licensed or certified under Chapter 23 (§ 54.1-2300 et seq.) of Title 54.1 as being qualified to operate, maintain, or design on-site sewage systems.

F. *In developing such criteria, the Board shall not require the designation of a Resource Protection Area (RPA) as defined according to the criteria developed by the Board, adjacent to a daylighted stream. However, a locality that elects not to designate an RPA adjacent to a daylighted stream shall use a water quality impact assessment to ensure that proposed development on properties adjacent to the daylighted stream does not result in the degradation of the stream. The water quality impact assessment shall (i) be consistent with the Board's criteria for water quality assessments in RPAs, (ii) identify the impacts of the proposed development on water quality, and (iii) determine specific measures for the mitigation of those impacts. The objective of this assessment is to ensure that practices on properties adjacent to daylighted streams are effective in retarding runoff, preventing erosion, and filtering nonpoint source pollution. The specific content for the water quality impact assessment shall be established and implemented by any locality that chooses not to designate an RPA adjacent to a daylighted stream. Nothing in this subsection shall limit a locality's authority to include a daylighted stream within the extent of an RPA.*

G. Effective July 1, 2014, requirements promulgated under this article directly related to compliance with the erosion and sediment control and stormwater management provisions of this chapter and regulated under the authority of those provisions shall cease to have effect.

with subsection D. The person land applying industrial wastes shall (i) provide advance notice of the estimated fee to the generator of the industrial wastes unless notification is waived, (ii) collect the fee from the generator, and (iii) remit the fee to the Department of Environmental Quality as provided by regulation. The fee shall be imposed on each dry ton of solid or semisolid industrial wastes that is land applied in a locality in accordance with the regulations adopted by the Board. To the extent feasible, the program shall emphasize in-field instruction and practical training. Persons employed by local governments shall successfully complete such training before the local government may request reimbursement from the Board for testing and monitoring of land application of solid or semisolid industrial wastes performed by the person. The completion of training shall not be a prerequisite to the exercise of authority granted to local governments by any applicable provision of law.

The Department may:

1. Charge attendees a reasonable fee to recover the actual costs of preparing course materials and providing facilities and instructors for the program. The fee shall be reimbursable from the Fund established pursuant to subsection G of § 62.1-44.19:3; and

A. Any locality that has adopted an ordinance for the testing and monitoring of the land application of industrial wastes pursuant to § 62.1-44.16 shall have the authority to order the abatement of any violation of § 62.1-44.16 or of any violation of any permit or certificate issued under that section. Such abatement order shall identify the activity constituting the violation, specify the provision of the Code of Virginia or permit condition violated by the activity, and order that the activity cease immediately.

B. In the event of any dispute concerning the existence of a violation, the activity alleged to be in violation shall be halted pending a determination by the Director, whose decision shall be final and binding unless reversed on judicial appeal pursuant to § 2.2-4026. Any person who fails or refuses to halt such activity may be compelled to do so by injunction issued by a court having competent jurisdiction. Upon determination by the Director that there has been a violation of § 62.1-44.16 or of any permit or certificate issued under that section and that such violation poses an imminent threat to public health, safety, or welfare, the Department shall commence appropriate action to abate the violation and immediately notify the chief administrative officer of any locality potentially affected by the violation. Neither the Board, the Commonwealth, nor any employee of the Commonwealth shall be liable for failing to provide the notification required by this section.

C. Local governments shall promptly notify the Department of all results from the testing and monitoring of the land application of industrial wastes performed by persons employed by local governments and any violation of § 62.1-44.16 or of any violation of any permit or certificate issued under that section, discovered by local governments.

A. 1. No owner of a sewage treatment works shall land apply, market or distribute sewage sludge from such treatment works except in compliance with a valid Virginia Pollutant Discharge Elimination System Permit or valid Virginia Pollution Abatement Permit.

2. Sewage sludge shall be treated to meet standards for land application as required by Board regulation prior to delivery at the land application site. No person shall alter the composition of sewage sludge at a site approved for land application of sewage sludge under a Virginia Pollution Abatement Permit or a Virginia Pollutant Discharge Elimination System. Any person who engages in the alteration of such sewage sludge shall be subject to the penalties provided in Article 6 (§ 62.1-44.31 et seq.) of this chapter. The addition of lime or deodorants to sewage sludge that has been treated to meet land application standards shall not constitute alteration of the composition of sewage sludge. The Department may authorize public institutions of higher education to conduct scientific research on the composition of sewage sludge that may be applied to land.

3. No person shall contract or propose to contract, with the owner of a sewage treatment works, to land apply, market or distribute sewage sludge in the Commonwealth, nor shall any person land apply, market or distribute sewage sludge in the Commonwealth without a current Virginia Pollution Abatement Permit authorizing land application, marketing or distribution of sewage sludge and specifying the location or locations, and the terms and conditions of such land application, marketing or distribution. The permit application shall not be complete unless it includes the landowner's written consent to apply sewage sludge on his property.

4. The land disposal of lime-stabilized septage and unstabilized septage is prohibited.

5. Beginning July 1, 2007, no application for a permit or variance to authorize the storage of sewage sludge shall be complete unless it contains certification from the governing body of the locality in which the sewage sludge is to be stored that the storage site is consistent with all applicable ordinances. The governing body shall confirm or deny consistency within 30 days of receiving a request for certification. If the governing body does not so respond, the site shall be deemed consistent.

B. The Board, with the assistance of the Department of Conservation and Recreation and the Department of Health, shall adopt regulations to ensure that (i) sewage sludge permitted for land application, marketing, or distribution is properly treated or stabilized; (ii) land application, marketing, and distribution of sewage sludge is performed in a manner that will protect public health and the environment; and (iii) the escape, flow or discharge of sewage sludge into state waters, in a manner that would cause pollution of state waters, as those terms are defined in § 62.1-44.3, shall be prevented.

C. Regulations adopted by the Board, with the assistance of the Department of Conservation and Recreation and the Department of Health pursuant to subsection B, shall include:

1. Requirements and procedures for the issuance and amendment of permits, including general permits, authorizing the land application, marketing or distribution of sewage sludge;

2. Procedures for amending land application permits to include additional application sites and sewage sludge types;

3. Standards for treatment or stabilization of sewage sludge prior to land application, marketing or distribution;

4. Requirements for determining the suitability of land application sites and facilities used in land application, marketing or distribution of sewage sludge;

5. Required procedures for land application, marketing, and distribution of sewage sludge;

6. Requirements for sampling, analysis, recordkeeping, and reporting in connection with land application, marketing, and distribution of sewage sludge;

7. Provisions for notification of local governing bodies to ensure compliance with §§ 62.1-44.15:3 and 62.1-44.19:3.4;

8. Requirements for site-specific nutrient management plans, which shall be developed by persons certified in accordance with § 10.1-104.2 prior to land application for all sites where sewage sludge is land applied, and approved by the Department of Conservation and Recreation prior to permit issuance under specific conditions, including but not limited to, sites operated by an owner or lessee of a Confined Animal Feeding Operation, as defined in subsection A of § 62.1-44.17:1, or Confined Poultry Feeding Operation, as defined in § 62.1-44.17:1.1, sites where the permit authorizes land application more frequently than once every three years at greater than 50 percent of the annual agronomic rate, and other sites based on site-specific conditions that increase the risk that land application may adversely impact state waters;

9. Procedures for the prompt investigation and disposition of complaints concerning land application of sewage sludge, including the requirements that (i) holders of permits issued under this section shall report all complaints received by them to the Department and to the local governing body of the jurisdiction in which the complaint originates, and (ii) localities receiving complaints concerning land application of sewage sludge shall notify the Department and the permit holder. The Department shall maintain a searchable electronic database of complaints received during the current and preceding calendar year, which shall include information detailing each complaint and how it was resolved; and

10. Procedures for receiving and responding to public comments on applications for permits and for permit amendments authorizing land application at additional sites. Such procedures shall provide that an application for any permit amendments to increase the acreage authorized by the initial permit by 50 percent or more shall be treated as a new application for purposes of public notice and public hearings.

D. Prior to issuance of a permit authorizing the land application, marketing or distribution of sewage sludge, the Department shall consult with, and give full consideration to the written recommendations of the Department of Health and the Department of Conservation and Recreation. Such consultation shall include any public health risks or water quality impacts associated with the permitted activity. The Department of Health and the Department of Conservation and Recreation may submit written comments on proposed permits within 30 days after notification by the Department.

E. Where, because of site-specific conditions, including soil type, identified during the permit application review process, the Department determines that special requirements are necessary to protect the environment or the health, safety or welfare of persons residing in the vicinity of a proposed land application site, the Department may incorporate in the permit at the time it is issued reasonable special conditions regarding buffering, transportation routes, slope, material source, methods of handling and application, and time of day restrictions exceeding those required by the regulations adopted under this section. Before incorporating any such conditions into the permit, the Department shall provide written notice to the permit applicant, specifying the reasons therefor and identifying the site-specific conditions justifying the additional requirements. The Department shall incorporate into the notice any written requests or recommendations concerning such site-specific conditions submitted by the local governing body where the land application is to take place. The permit applicant shall have at least 14 days in which to review and respond to the proposed conditions.

F. The Board shall adopt regulations prescribing a fee to be charged to all permit holders and persons applying for permits and permit modifications pursuant to this section. All fees collected pursuant to this subsection shall be deposited into the Sludge Management Fund. The fee for the initial issuance of a permit shall be \$5,000. The fee for the reissuance, amendment, or modification of a permit for an existing site shall not exceed \$1,000 and shall be charged only for permit actions initiated by the permit holder. Fees collected under this section shall be exempt from statewide indirect costs charged and collected by the Department of Accounts and shall not supplant or reduce the general fund appropriation to the Department.

G. There is hereby established in the treasury a special fund to be known as the Sludge Management Fund, hereinafter referred to as the Fund. The fees required by this section *and by subsection E of § 62.1-44.16* shall be transmitted to the Comptroller to be deposited into the Fund. The income and principal of the Fund shall be used only and exclusively (i) for the Department's direct and indirect costs associated with the processing of an application to issue, reissue, amend, or modify any permit to land apply, distribute, or market sewage sludge, *or industrial wastes*, the administration and management of the Department's sewage sludge *and industrial wastes* land application ~~program~~ *programs*, including ~~but not limited to~~, monitoring and inspecting, *and* the Department of Conservation and Recreation's costs for implementation of the sewage sludge application program; and (ii) to reimburse localities with duly adopted ordinances providing for the testing and monitoring of the land application of sewage sludge *or solid or semisolid industrial wastes*. The State Treasurer shall be the custodian of the moneys deposited in the Fund. No part of the Fund, either principal or interest earned thereon, shall revert to the general fund of the state treasury.

H. All persons holding or applying for a permit authorizing the land application of sewage sludge shall provide to the Board written evidence of financial responsibility, which shall be available to pay claims for cleanup costs, personal injury, and property damages resulting from the transportation, storage or land application of sewage sludge. The Board shall, by regulation, establish and prescribe mechanisms for meeting the financial responsibility requirements of this section.

I. Any county, city or town may adopt an ordinance that provides for the testing and monitoring of the land application of sewage sludge within its political boundaries to ensure compliance with applicable laws and regulations.

J. The Department, upon the timely request of any individual to test the sewage sludge at a specific site, shall collect samples of the sewage sludge at the site prior to the land application and submit such samples to a laboratory. The testing shall include an analysis of the (i) concentration of trace elements, (ii) coliform count, and (iii) pH level. The results of the laboratory analysis shall be (a) furnished to the individual requesting that the test be conducted and (b) reviewed by the Department. The person requesting the test and analysis of the sewage sludge shall pay the costs of sampling, testing, and analysis.

K. At least 100 days prior to commencing land application of sewage sludge at a permitted site, the permit holder shall deliver or cause to be delivered written notification to the chief executive officer or his designee for the local government where the site is located. The notice shall identify the location of the permitted site and the expected sources of the sewage sludge to be applied to the site. This requirement may be satisfied by providing a list of all available permitted sites in the locality at least 100 days prior to commencing the application at any site on the list. This requirement shall not apply to any application commenced prior to October 10, 2005. If the site is located in more than one county, the notice shall be provided to all jurisdictions where the site is located.

L. The permit holder shall deliver or cause to be delivered written notification to the Department at least 14 days prior to commencing land application of sewage sludge at a permitted site. The notice shall identify the location of the permitted site and the expected sources of the sewage sludge to be applied to the site.

M. The Department shall randomly conduct unannounced site inspections while land application of sewage sludge is in progress at a sufficient frequency to determine compliance with the requirements of this section, § 62.1-44.19:3.1, or regulations adopted under those sections.

N. Surface incorporation into the soil of sewage sludge applied to cropland may be required when practicable and compatible with a soil conservation plan meeting the standards and specifications of the U.S. Department of Agriculture Natural Resources Conservation Service.

O. The Board shall develop regulations specifying and providing for extended buffers to be employed for application of sewage sludge (i) to hay, pasture, and forestlands; or (ii) to croplands where surface incorporation is not practicable or is incompatible with a soil conservation plan meeting the standards and specifications of the U.S. Department of Agriculture Natural Resources Conservation Service. Such extended buffers may be included by the Department as site specific permit conditions pursuant to subsection E, as an alternative to surface incorporation when necessary to protect odor sensitive receptors as determined by the Department or the local monitor.

P. The Board shall adopt regulations requiring the payment of a fee for the land application of sewage sludge, pursuant to permits issued under this section. The person land applying sewage sludge shall (i) provide advance notice of the estimated fee to the generator of the sewage sludge unless notification is waived, (ii) collect the fee from the generator, and (iii) remit the fee to the Department as provided for by regulation. The fee shall be imposed on each dry ton of sewage sludge that is land applied in the Commonwealth. The regulations shall include requirements and procedures for:

1. Collection of fees by the Department;
2. Deposit of the fees into the Fund; and
3. Disbursement of proceeds by the Department pursuant to subsection G.

Q. The Department, in consultation with the Department of Health, the Department of Conservation and Recreation, the Department of Agriculture and Consumer Services, and the Virginia Cooperative Extension Service, shall establish and implement a program to train persons employed by those local governments that have adopted ordinances, pursuant to this section, to test and monitor the land application of sewage sludge. The program shall include, at a minimum, instruction in: (i) the provisions of the Virginia Biosolids Use Regulations; (ii) land application methods and equipment, including methods and processes for preparation and stabilization of sewage sludge that is land applied; (iii) sampling and chain of custody control; (iv) preparation and implementation of nutrient management plans for land application sites; (v) complaint response and preparation of complaint and inspection reports; (vi) enforcement authority and procedures; (vii) interaction and communication with the public; and (viii) preparation of applications for reimbursement of local monitoring costs disbursed pursuant to subsection G. To the extent feasible, the program shall emphasize in-field instruction and practical training. Persons employed by local governments shall successfully complete such training before the local government may request reimbursement from the Board for testing and monitoring of land application of sewage sludge performed by the person. The completion of training shall not be a prerequisite to the exercise of authority granted to local governments by any applicable provision of law.

The Department may:

1. Charge attendees a reasonable fee to recover the actual costs of preparing course materials and providing facilities and instructors for the program. The fee shall be reimbursable from the Fund established pursuant to this section; and
2. Request and accept the assistance and participation of other state agencies and institutions in preparing and presenting the course of training established by this subsection.

R. Localities, as part of their zoning ordinances, may designate or reasonably restrict the storage of sewage sludge based on criteria directly related to the public health, safety, and welfare of its citizens and the environment. Notwithstanding any contrary provision of law, a locality may by ordinance require that a special exception or a special use permit be obtained to begin the storage of sewage sludge on any property in its jurisdiction, including any area that is zoned as an agricultural district or classification. Such ordinances shall not restrict the storage of sewage sludge on a farm as long as such sludge is being stored (i) solely for land application on that farm and (ii) for a period no longer than 45 days. No person shall apply to the State Health Commissioner or the Department of Environmental Quality for a permit, a variance, or a permit modification authorizing such storage without first complying with all requirements adopted pursuant to this subsection.

**2. That the State Water Control Board shall promulgate regulations to implement the provisions of this act to be effective no later than January 1, 2016. The State Water Control Board's initial adoption of regulations necessary to implement the provisions of this act shall be exempt from the provisions of the Administrative Process Act (§ 2.2-4000 et seq.) of the Code of Virginia, except that the Department of Environmental Quality shall utilize a regulatory advisory panel to assist in the development of necessary regulations and shall provide an opportunity for public comment on the regulations prior to adoption.**

**3. That upon the effective date of this act, the fee imposed on each dry ton of solid or semisolid industrial waste that is land applied pursuant to subsection E of § 62.1-44.16 of the Code of Virginia, as created by this act, shall be \$5 until altered, amended, or rescinded by the State Water Control Board.**

## CHAPTER 680

*An Act to amend and reenact § 58.1-512 of the Code of Virginia, relating to the land preservation tax credit.*

[S 1019]

Approved March 27, 2015

**Be it enacted by the General Assembly of Virginia:**

**1. That § 58.1-512 of the Code of Virginia is amended and reenacted as follows:**

**§ 58.1-512. Land preservation tax credits for individuals and corporations.**

A. For taxable years beginning on or after January 1, 2000, there shall be allowed as a credit against the tax liability imposed by §§ 58.1-320 and 58.1-400, an amount equal to 50 percent of the fair market value of any land or interest in land

located in Virginia which is conveyed for the purpose of agricultural and forestal use, open space, natural resource, and/or biodiversity conservation, or land, agricultural, watershed and/or historic preservation, as an unconditional donation by the landowner/taxpayer to a public or private conservation agency eligible to hold such land and interests therein for conservation or preservation purposes. For such conveyances made on or after January 1, 2007, the tax credit shall be 40 percent of the fair market value of the land or interest in land so conveyed.

B. The fair market value of qualified donations made under this section shall be determined in accordance with § 58.1-512.1 and substantiated by a "qualified appraisal" prepared by a "qualified appraiser," as those terms are defined under applicable federal law and regulations governing charitable contributions. The value of the donated interest in land that qualifies for credit under this section, as determined according to appropriate federal law and regulations, shall be subject to the limits established by United States Internal Revenue Code § 170(e). In order to qualify for a tax credit under this section, the qualified appraisal shall be signed by the qualified appraiser, who must be licensed in the Commonwealth of Virginia as provided in § 54.1-2011, and a copy of the appraisal shall be submitted to the Department. In the event that any appraiser falsely or fraudulently overstates the value of the contributed property in an appraisal that the appraiser has signed, the Department may disallow further appraisals signed by the appraiser and shall refer the appraiser to the Real Estate Appraiser Board for appropriate disciplinary action pursuant to § 54.1-2013, which may include, but need not be limited to, revocation of the appraiser's license. Any appraisal that, upon audit by the Department, is determined to be false or fraudulent, may be disregarded by the Department in determining the fair market value of the property and the amount of tax credit to be allowed under this section.

C. 1. The amount of the credit that may be claimed by each taxpayer, including credit claimed by applying unused credits as provided under subsection C of § 58.1-513, shall not exceed \$50,000 for 2000 taxable years; \$75,000 for 2001 taxable years; \$100,000 for each of 2002 through 2008 taxable years; \$50,000 for each of 2009, 2010, and 2011 taxable years; ~~and~~; \$100,000 for *each of 2012, 2013, and 2014* taxable years; *\$20,000 for each of 2015 and 2016 taxable years; and \$50,000 for 2017 taxable years* and for each taxable year thereafter. *However, for any fee simple donation of land conveyed to the Commonwealth on or after January 1, 2015, the amount of the credit claimed shall not exceed \$100,000 for each taxable year, provided that no part of the charitable contributions deduction under § 170 of the Internal Revenue Code related to such fee simple donation is allowable by reason of a sale or exchange of property.* In addition, for each taxpayer, in any one taxable year the credit used may not exceed the amount of individual, fiduciary or corporate income tax otherwise due. Any portion of the credit that is unused in any one taxable year may be carried over for a maximum of 10 consecutive taxable years following the taxable year in which the credit originated until fully expended. A credit shall not be reduced by the amount of unused credit that could have been claimed in a prior year by the taxpayer but was unclaimed. For taxpayers affected by the credit reduction for taxable years 2009, 2010, ~~and 2011~~, *and 2015 and thereafter*, any portion of the credit that is unused in any one taxable year may be carried over for a maximum of 13 consecutive taxable years following the taxable year in which the credit originated until fully expended.

2. Qualified donations shall include the conveyance of a fee interest in real property or the conveyance in perpetuity of a less-than-fee interest in real property, such as a conservation restriction, preservation restriction, agricultural preservation restriction, or watershed preservation restriction, provided that such less-than-fee interest qualifies as a charitable deduction under § 170(h) of the United States Internal Revenue Code of 1986, as amended.

The Department of Conservation and Recreation shall compile an annual report on qualified donations of less-than-fee interests accepted by any public or private conservation agency in the respective calendar year and shall submit the report by December 1 of each year to the Chairmen of the House Committee on Appropriations, House Committee on Finance, and the Senate Committee on Finance. In preparing such report, the Department of Conservation and Recreation shall consult and coordinate with the Department of Taxation and the Departments of Forestry and Agriculture and Consumer Services to provide an estimate of the number of acres of land currently being used for "production agriculture and silviculture" as defined in § 3.2-300 that have been protected by qualified donations of less-than-fee interests. This report shall include information, when available, on land qualifying for credits being used for "production agriculture and silviculture" that have onsite operational best management practices, which are designed to reduce the amount of nutrients and sediment entering public waters. In addition, the report shall include information, when available, on riparian buffers, both vegetated/forested buffers and no-plow buffers, required by deed restriction on land qualifying for credits in order to protect water quality. This information shall be reported in summary fashion as appropriate to preserve confidentiality of information. Qualified donations shall not include the conveyance of a fee interest, or a less-than-fee interest, in real property by a charitable organization that (i) meets the definition of "holder" in § 10.1-1009 and (ii) holds one or more conservation easements acquired pursuant to the authority conferred on a "holder" by § 10.1-1010.

3. Any fee interest, or a less-than-fee interest, in real property that has been dedicated as open space within, or as part of, a residential subdivision or any other type of residential or commercial development; dedicated as open space in, or as part of, any real estate development plan; or dedicated for the purpose of fulfilling density requirements to obtain approvals for zoning, subdivision, site plan, or building permits shall not be a qualified donation under this article.

4. Qualified donations shall be eligible for the tax credit herein described if such donations are made to the Commonwealth of Virginia, an instrumentality thereof, or a charitable organization described in § 501(c)(3) of the United States Internal Revenue Code of 1986, as amended, if such charitable organization (i) meets the requirements of § 509(a)(2) or (ii) meets the requirements of § 509(a)(3) and is controlled by an organization described in § 509(a)(2).

5. The preservation, agricultural preservation, historic preservation or similar use and purpose of such property shall be assured in perpetuity. In the case of conveyances of a fee interest to a charitable organization that is a "holder" as defined in § 10.1-1009, the credit shall not be allowed until the charitable organization agrees that subsequent conveyances of the fee interest in the property will be (i) subject to a previous conveyance in perpetuity of a conservation easement, as that term is defined in § 10.1-1009, or subject to the conveyance in perpetuity of an open-space easement, as that term is defined in § 10.1-1700, or (ii) conveyed to the Commonwealth of Virginia or to a federal conservation agency. No credit shall be allowed with respect to any subsequent conveyances by the charitable organization.

D. The issuance of tax credits under this article for donations made on and after January 1, 2007, shall be in accordance with procedures and deadlines established by the Department and shall be administered under the following conditions:

1. The taxpayer shall apply for a credit after completing the donation by submitting a form or forms prescribed by the Department in consultation with the Department of Conservation and Recreation. If the application requests a credit of \$1 million or more or if the donation meets the conditions of subdivision 3 c, then a copy of the application shall also be filed with the Department of Conservation and Recreation by the taxpayer. The application shall include, but not be limited to:

- a. A description of the conservation purpose or purposes being served by the donation;
- b. The fair market value of land being donated in the absence of any easement or other restriction;
- c. The public benefit derived from the donation;
- d. The extent to which water quality best management practices will be implemented on the property; and
- e. Whether the property is fully or partially forested and a forest management plan is included in the terms of the donation.

2. Applications for otherwise qualified donations of a less-than-fee interest shall be accompanied by an affidavit describing how the donated interest in land meets the requirements of § 170(h) of the United States Internal Revenue Code of 1986, as amended, and the regulations adopted thereunder. The application with accompanying affidavit shall be submitted to the Department of Taxation, with a copy also provided to the Department of Conservation and Recreation.

3. a. No credit in the amount of \$1 million or more shall be issued with respect to a donation unless the conservation value of the donation has been verified by the Director of the Department of Conservation and Recreation, based on the criteria adopted by the Virginia Land Conservation Foundation for this purpose. Such criteria and subsequent amendments shall be exempt from the Administrative Process Act (§ 2.2-4000 et seq.), but the Virginia Land Conservation Foundation shall provide for adequate public participation, including adequate notice and opportunity to provide comments on the proposed criteria. The Director shall act on applications within 90 days of his receipt of a complete application and shall notify the taxpayer and the Department of Taxation of his action.

b. For purposes of determining whether a credit requires verification of the conservation value, the credits allowed under this article with respect to donations of any other portion of a recorded parcel of land within the preceding 11 years shall be aggregated with the credit claimed for the current donation. This subdivision shall not apply if (i) all owners of the parcel who have been allowed credit for a qualified donation are not affiliated with the person or entity seeking credit for the current donation of a different portion of the parcel and (ii) in the case of an individual seeking credit, the individual has not previously made a qualified donation for any portion of the parcel and is not an immediate family member of any such owners.

c. If (i) the real property that is the subject of the donation was partitioned from or part of another parcel of land and any other portion of such parcel, or any land partitioned from such parcel of land, has been allowed a tax credit under this article (or an application for tax credit is pending) within three years of such donation and (ii) the tax credit that would otherwise be allowed to the donor for such donation is at least \$250,000, then no credit under this article shall be issued with respect to such donation described in clause (i) unless the conservation value of the donation has been verified by the Director of the Department of Conservation and Recreation. The Director shall act on applications within 90 days of his receipt of a complete application and shall notify the taxpayer and the Department of Taxation of his action. Nothing in this subdivision shall be construed or interpreted (a) as allowing additional tax credit for any land or interest in land previously conveyed for which tax credit has already been allowed under this article or (b) affecting the validity of any tax credit allowed under this article for a prior conveyance of any land or interest in land.

4. a. Tax credits shall be issued on a calendar year basis, and in no case shall the Department issue more than the maximum allowed for the calendar year. The maximum amount of credits that may be issued in a calendar year shall be \$100 million plus any credits previously issued under this article but subsequently disallowed or invalidated by the Department. Credits previously issued but subsequently disallowed or invalidated shall be reissued in a subsequent calendar year. All credits shall be issued in the order that each complete application is ~~received~~ *filed*. *For filings by mail or a recognized commercial delivery service, the postmark or confirmation of shipment shall determine the date of filing.* If within 30 days after an application for credits has been filed the Tax Commissioner provides written notice to the donor that he has determined that the preparation of a second qualified appraisal is warranted, the application shall not be deemed complete until the fair market value of the donation has been finally determined by the Tax Commissioner. The Tax Commissioner shall make a final determination within 180 days of notifying the donor, unless the donor has filed an appeal. The donor shall have the right to appeal any decision of the Department in accordance with the provisions of Chapter 18 (§ 58.1-1800 et seq.). If more than one complete application is ~~received~~ *filed* at the same time, the credits with respect to those applications shall be issued in the order that the conveyances were recorded in the appropriate circuit court of the Commonwealth. In the event that a credit requires verification of the conservation value by the Department of Conservation

and Recreation and such verification has not been received at the time the maximum \$100 million allowed is reached for the calendar year of the donation, such credit shall not be issued for that calendar year but shall be issued in the calendar year that the conservation value of the credit is verified by the Department of Conservation and Recreation.

*No credit shall be allowed for any land or interest in land conveyed on or after July 1, 2015, unless a complete application for tax credit with regard to the conveyance has been filed with the Department by December 31 of the year following the calendar year of the conveyance. For filings by mail or a recognized commercial delivery service, the postmark or confirmation of shipment shall determine the date of filing. Solely for purposes of this condition, any application for which the Tax Commissioner has given written notice to the donor that the preparation of a second qualified appraisal is warranted shall be deemed timely filed, provided that the application was otherwise complete as of such filing deadline.*

b. Beginning with calendar year 2008, the \$100 million amount contained in subdivision 4 a shall be increased by an amount equal to \$100 million multiplied by the percentage by which the consumer price index for all-urban consumers published by the United States Department of Labor (CPI-U) for the 12-month period ending August 31 of the preceding year exceeds the CPI-U for the 12-month period ending August 31, 2006.

c. Beginning with calendar year ~~2013~~ 2015, the maximum amount of credits that may be issued in a calendar year shall not exceed ~~\$100~~ \$75 million. *In no case shall the Department issue any tax credit for a donation from any allocation or pool of tax credits attributable to a calendar year prior to the year in which the complete tax credit application for the donation was filed.*

Beginning with the submission due on or before December 20, ~~2013~~ 2015, and in each year thereafter, the Governor shall include in "The Budget Bill" submitted pursuant to subsection A of § 2.2-1509 or in his amendments to the general appropriation act in effect submitted pursuant to subsection E of § 2.2-1509 a recommended appropriation from the general fund equal to the difference between the amount calculated pursuant to subdivision b and ~~\$100~~ \$75 million, but not more than \$20 million, to be allocated as follows: 80 percent to the Virginia Land Conservation Fund to be used in accordance with § 10.1-1020, with no less than 50 percent of such appropriation to be used for fee simple acquisitions with public access or acquisitions of easements with public access; 10 percent to the Civil War Site Preservation Fund to be used in accordance with § 10.1-2202.4; and 10 percent to the Virginia Farmland Preservation Fund to be used in accordance with § 3.2-201.

5. a. Any taxpayer that has been issued a tax credit by the Department shall be allowed to use such credit for his or its taxable year that begins in the calendar year for which such credit was issued and for succeeding taxable years in accordance with the 10 consecutive taxable year carryforward provisions of this article, except for any taxpayer affected by the credit limitation for taxable years 2009, 2010, ~~and~~ 2011, *and 2015 and taxable years thereafter.* Such a taxpayer shall be allowed to use such credit for his or its taxable year that begins in the calendar year for which such credit was issued and for succeeding taxable years in accordance with the 13 consecutive taxable year carryforward provisions of this article.

b. Any taxpayer to whom a credit has been transferred may use such credit for the taxable year in which the transfer occurred and unused amounts may be carried forward to succeeding taxable years, but in no event may such transferred credit be used more than 11 years after it was originally issued by the Department or in any taxable year of such taxpayer that ended prior to the date of transfer, except for any taxpayer affected by the credit limitation for taxable years 2009, 2010, ~~and~~ 2011, *and 2015 and taxable years thereafter.* Such a taxpayer may use such credit for the taxable year in which the transfer occurred and unused amounts may be carried forward to succeeding taxable years, but in no event may such transferred credit be used more than 14 years after it was originally issued by the Department or in any taxable year of such taxpayer that ended prior to the date of transfer.

6. Neither the verification of conservation value by the Department of Conservation and Recreation nor the issuance of a credit by the Department of Taxation shall in any way be construed or interpreted as prohibiting the Department of Taxation or the Tax Commissioner from auditing any credit claimed pursuant to the provisions of this article or from assessing tax relating to the claiming of any credit under this article.

E. In any review or appeal before the Tax Commissioner or in any court in the Commonwealth the burden of proof shall be on the taxpayer to show that the fair market value and conservation value at the time of the qualified donation is consistent with this section and that all requirements of this article have been satisfied.

[S 1451]

Approved March 27, 2015

**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 33.2-309 and 33.2-1807 of the Code of Virginia are amended and reenacted as follows:**

**§ 33.2-309. Tolls for use of Interstate System components.**

A. Notwithstanding any contrary provision of this title and in accordance with all applicable federal and state statutes and requirements, the Board may impose and collect tolls from all classes of vehicles in amounts established by the Board for the use of any component of the Interstate System within the Commonwealth. However, prior approval of the General

Assembly shall be required prior to the imposition and collection of any toll for use of all or any portion of Interstate ~~Route~~ 81. *Prior approval of the General Assembly shall also be required prior to the imposition or collection of any toll for use of Interstate 95 south of Fredericksburg pursuant to the Interstate System Reconstruction or Rehabilitation Pilot Program.* Such funds so collected shall be deposited into the Transportation Trust Fund established pursuant to § 33.2-1524, subject to allocation by the Board as provided in this section.

B. The toll facilities authorized by this section shall be subject to the provisions of federal law for the purpose of tolling motor vehicles to finance interstate construction and reconstruction, promote efficiency in the use of highways, reduce traffic congestion, and improve air quality and for such other purposes as may be permitted by federal law.

C. In order to mitigate traffic congestion in the vicinity of the toll facilities, no toll facility shall be operated without high-speed automated toll collection technology designed to allow motorists to travel through the toll facilities without stopping to make payments. Nothing in this subsection shall be construed to prohibit a toll facility from retaining means of nonautomated toll collection in some lanes of the facility. The Board shall also consider traffic congestion and mitigation thereof and the impact on local traffic movement as factors in determining the location of the toll facilities authorized pursuant to this section.

D. The revenues collected from each toll facility established pursuant to this section shall be deposited into segregated subaccounts in the Transportation Trust Fund and may be allocated by the Board as the Board deems appropriate to:

1. Pay or finance all or part of the costs of programs or projects, including the costs of planning, operation, maintenance, and improvements incurred in connection with the toll facility, provided that such allocations shall be limited to programs and projects that are reasonably related to or benefit the users of the toll facility. The priorities of metropolitan planning organizations, planning district commissions, local governments, and transportation corridors shall be considered by the Board in making project allocations from such revenues deposited into the Transportation Trust Fund.

2. Repay funds from the Toll Facilities Revolving Account or the Transportation Partnership Opportunity Fund.

3. Pay the Board's reasonable costs and expenses incurred in the administration and management of the toll facility.

**§ 33.2-1807. Powers and duties of the private entity.**

A. The private entity shall have all power allowed by law generally to a private entity having the same form of organization as the private entity and shall have the power to develop and/or operate the qualifying transportation facility and impose user fees and/or enter into service contracts in connection with the use thereof. However, no tolls or user fees may be imposed by the private entity on Interstate 81 without the prior approval of the General Assembly. *Prior approval of the General Assembly shall also be required prior to the imposition or collection of any toll for use of Interstate 95 south of Fredericksburg pursuant to the Interstate System Reconstruction or Rehabilitation Pilot Program.*

B. The private entity may own, lease, or acquire any other right to use or develop and/or operate the qualifying transportation facility.

C. Subject to applicable permit requirements, the private entity shall have the authority to cross any canal or navigable watercourse so long as the crossing does not unreasonably interfere with then current navigation and use of the waterway.

D. In operating the qualifying transportation facility, the private entity may:

1. Make classifications according to reasonable categories for assessment of user fees; and

2. With the consent of the responsible public entity, make and enforce reasonable rules to the same extent that the responsible public entity may make and enforce rules with respect to a similar transportation facility.

E. The private entity shall:

1. Develop and/or operate the qualifying transportation facility in a manner that meets the standards of the responsible public entity for transportation facilities operated and maintained by such responsible public entity, all in accordance with the provisions of the interim agreement or the comprehensive agreement;

2. Keep the qualifying transportation facility open for use by the members of the public in accordance with the terms and conditions of the interim or comprehensive agreement after its initial opening upon payment of the applicable user fees and/or service payments, provided that the qualifying transportation facility may be temporarily closed because of emergencies or, with the consent of the responsible public entity, to protect the safety of the public or for reasonable construction or maintenance procedures;

3. Maintain, or provide by contract for the maintenance of, the qualifying transportation facility;

4. Cooperate with the responsible public entity in establishing any interconnection with the qualifying transportation facility requested by the responsible public entity; and

5. Comply with the provisions of the interim or comprehensive agreement and any service contract.

A copy of the buyer's order form shall be made available to a prospective buyer during the negotiating phase of a sale and prior to any sales agreement. The completed original shall be retained for a period of five years in accordance with § 46.2-1529, and a duplicate copy shall be delivered to the purchaser at the time of sale or exchange. A buyer's order shall include:

7. A description of any vehicle used as a trade-in and the amount credited the buyer for the trade-in. The description of the trade-in shall be the same as outlined in subdivision 4.
8. The amount of any sales and use tax, title fee, uninsured motor vehicle fee, registration fee, purchaser's on-line systems filing fee, or other fee required by law for which the buyer is responsible and the dealer has collected. Each tax and fee shall be individually listed and identified.
9. The net balance due at settlement.
10. Any item designated as "processing fee," and the amount charged by the dealer, if any, for processing the transaction. As used in this section processing includes obtaining title and license plates for the purchaser, but shall not include any "purchaser's on-line systems filing fee" as defined in § 46.2-1530.1 or any "dealer's manual transaction fee" as defined in § 46.2-1530.2.

11. Any item designated as "dealer's business license tax," and the amount charged by the dealer, if any.

12. If the dealer delivers to the customer a vehicle purchased by the customer on or after July 1, 2010, that is conditional on dealer-arranged financing, the following notice, printed in bold type no less than 10 point: "IF YOU ARE FINANCING THIS VEHICLE, PLEASE READ THIS NOTICE: YOU ARE PROPOSING TO ENTER INTO A RETAIL INSTALLMENT SALES CONTRACT WITH THE DEALER. PART OF YOUR CONTRACT INVOLVES FINANCING THE PURCHASE OF YOUR VEHICLE. IF YOU ARE FINANCING THIS VEHICLE AND THE DEALER INTENDS TO TRANSFER YOUR FINANCING TO A FINANCE PROVIDER SUCH AS A BANK, CREDIT UNION OR OTHER LENDER, YOUR VEHICLE PURCHASE DEPENDS ON THE FINANCE PROVIDER'S APPROVAL OF YOUR PROPOSED RETAIL INSTALLMENT SALES CONTRACT. IF YOUR RETAIL INSTALLMENT SALES CONTRACT IS APPROVED WITHOUT A CHANGE THAT INCREASES THE COST OR RISK TO YOU OR THE DEALER, YOUR PURCHASE CANNOT BE CANCELLED. IF YOUR RETAIL INSTALLMENT SALES CONTRACT IS NOT APPROVED, THE DEALER WILL NOTIFY YOU VERBALLY OR IN WRITING. YOU CAN THEN DECIDE TO PAY FOR THE VEHICLE IN SOME OTHER WAY OR YOU OR THE DEALER CAN CANCEL YOUR PURCHASE. ANY DOWN PAYMENT OR TRADE-IN YOU GAVE THE DEALER WILL BE RETURNED TO YOU. IF YOU DO NOT RETURN THE VEHICLE WITHIN 24 HOURS OF VERBAL OR WRITTEN NOTICE OF CANCELLATION, THE DEALER MAY LOCATE THE VEHICLE AND TAKE IT BACK WITHOUT FURTHER NOTICE TO YOU AS LONG AS THE DEALER FOLLOWS THE LAW AND DOES NOT CAUSE A BREACH OF THE PEACE WHEN TAKING THE VEHICLE BACK. IF THE DEALER DOES NOT RETURN YOUR DOWN PAYMENT AND ANY TRADE-IN WHEN THE DEALER GETS THE VEHICLE BACK IN THE SAME CONDITION IT WAS GIVEN TO YOU, EXCEPT FOR NORMAL WEAR AND TEAR, THE DEALER MAY BE LIABLE TO YOU UNDER THE VIRGINIA CONSUMER PROTECTION ACT."

13. For sales of used motor vehicles, the disclosure required by § 46.2-1529.1.

A completed buyer's order when signed by both buyer and seller may constitute a bill of sale.

B. The Board shall approve a buyer's order form and each dealer shall file with each original license application its buyer's order form, on which the processing fee amount is stated.

C. If a processing fee is charged, that fact and the amount of the processing fee shall be disclosed by the dealer. Disclosure shall be by placing a clear and conspicuous sign in the public sales area of the dealership. The sign shall be no smaller than eight and one-half inches by 11 inches and the print shall be no smaller than one-half inch, and in a form as approved by the Board.

D. If the buyer's order is for a new motor vehicle ~~having a gross vehicle weight rating of less than 16,000 pounds~~ that had accumulated, at the time of the sale, mileage in excess of 750 miles as a demonstrator or as a result of delivery to a prospective purchaser who never took title to the new motor vehicle and returned it, the vehicle may be sold as new, provided the dealer delivers this disclosure in writing on the buyer's order containing type of no smaller than 10 point or in a separate document containing only the disclosure in type of no smaller than 14 point: "Notice: This new motor vehicle has accumulated mileage in excess of 750 miles as the result of use as a demonstrator and/or as the result of delivery to a prior

prospective purchaser who never took title to it and who returned it." When delivered as a separate document, this disclosure shall also contain the actual odometer reading for the vehicle and shall be signed by the purchaser.

*E. The provisions of this section shall not apply to the sale or exchange of (i) a tractor truck, (ii) a truck having a gross vehicle weight rating of 16,000 pounds or more, or (iii) a semitrailer.*

## CHAPTER 683

*An Act to amend and reenact § 15.2-2114 of the Code of Virginia, relating to stormwater utility fees.*

[S 1047]

Approved March 27, 2015

### **Be it enacted by the General Assembly of Virginia:**

#### **1. That § 15.2-2114 of the Code of Virginia is amended and reenacted as follows:**

##### **§ 15.2-2114. Regulation of stormwater.**

A. Any locality, by ordinance, may establish a utility or enact a system of service charges to support a local stormwater management program consistent with Article 2.3 (§ 62.1-44.15:24 et seq.) of Chapter 3.1 of Title 62.1 or any other state or federal regulation governing stormwater management. Income derived from a utility or system of charges shall be dedicated special revenue, may not exceed the actual costs incurred by a locality operating under the provisions of this section, and may be used only to pay or recover costs for the following:

1. The acquisition, as permitted by § 15.2-1800, of real and personal property, and interest therein, necessary to construct, operate and maintain stormwater control facilities;
2. The cost of administration of such programs;
3. Planning, design, engineering, construction, and debt retirement for new facilities and enlargement or improvement of existing facilities, including the enlargement or improvement of dams, levees, floodwalls, and pump stations, whether publicly or privately owned, that serve to control stormwater;
4. Facility operation and maintenance, including the maintenance of dams, levees, floodwalls, and pump stations, whether publicly or privately owned, that serve to control the stormwater;
5. Monitoring of stormwater control devices and ambient water quality monitoring; and
6. Other activities consistent with the state or federal regulations or permits governing stormwater management, including, but not limited to, public education, watershed planning, inspection and enforcement activities, and pollution prevention planning and implementation.

B. The charges may be assessed to property owners or occupants, including condominium unit owners or tenants (when the tenant is the party to whom the water and sewer service is billed), and shall be based upon an analysis that demonstrates the rational relationship between the amount charged and the services provided. Prior to adopting such a system, a public hearing shall be held after giving notice as required by charter or by publishing a descriptive notice once a week for two successive weeks prior to adoption in a newspaper with a general circulation in the locality. The second publication shall not be sooner than one calendar week after the first publication. However, prior to adoption of any ordinance pursuant to this section related to the enlargement, improvement, or maintenance of privately owned dams, a locality shall comply with the notice provisions of § 15.2-1427 and hold a public hearing.

C. A locality adopting such a system shall provide for full waivers of charges to the following:

1. A federal, state, or local government, or public entity, that holds a permit to discharge stormwater from a municipal separate storm sewer system; except that the waiver of charges shall apply only to property covered by any such permit; and
2. Public roads and street rights-of-way that are owned and maintained by state or local agencies including property rights-of-way acquired through the acquisitions process.

D. A locality adopting such a system shall provide for full or partial waivers of charges to any person who installs, operates, and maintains a stormwater management facility that achieves a permanent reduction in stormwater flow or pollutant loadings. The locality shall base the amount of the waiver in part on the percentage reduction in stormwater flow or pollutant loadings, or both, from pre-installation to post-installation of the facility. No locality shall provide a waiver to any person who does not obtain a stormwater permit from the Department of Environmental Quality when such permit is required by statute or regulation.

E. A locality adopting such a system may provide for full or partial waivers of charges to cemeteries, property owned or operated by the locality administering the program, and public or private entities that implement or participate in strategies, techniques, or programs that reduce stormwater flow or pollutant loadings, or decrease the cost of maintaining or operating the public stormwater management system.

F. Any locality may issue general obligation bonds or revenue bonds in order to finance the cost of infrastructure and equipment for a stormwater control program. Infrastructure and equipment shall include structural and natural stormwater control systems of all types, including, without limitation, retention basins, sewers, conduits, pipelines, pumping and ventilating stations, and other plants, structures, and real and personal property used for support of the system. The procedure for the issuance of any such general obligation bonds or revenue bonds pursuant to this section shall be in conformity with the procedure for issuance of such bonds as set forth in the Public Finance Act (§ 15.2-2600 et seq.).

G. In the event charges are not paid when due, interest thereon shall at that time accrue at the rate, not to exceed the maximum amount allowed by law, determined by the locality until such time as the overdue payment and interest are paid. Charges and interest may be recovered by the locality by action at law or suit in equity and shall constitute a lien against the property, ranking on a parity with liens for unpaid taxes. The locality may combine the billings for stormwater charges with billings for water or sewer charges, real property tax assessments, or other billings; in such cases, the locality may establish the order in which payments will be applied to the different charges. No locality shall combine its billings with those of another locality or political subdivision, including an authority operating pursuant to Chapter 51 (§ 15.2-5100 et seq.) of Title 15.2, unless such locality or political subdivision has given its consent by duly adopted resolution or ordinance.

H. Any two or more localities may enter into cooperative agreements concerning the management of stormwater.

I. For purposes of implementing waivers pursuant to provision 1 of subsection C, for property where two adjoining localities subject to a revenue sharing agreement each hold municipal separate storm sewer permits, the waiver shall also apply to the property of each locality and of its school board that is accounted for in that locality's municipal separate storm sewer program plan, regardless of whether such property is located within the adjoining locality.

**§ 33.2-200. Commonwealth Transportation Board; membership; terms; vacancies.**

The Board shall have a total membership of ~~18~~ 17 members that shall consist of 14 nonlegislative citizen members and ~~four~~ three ex officio members as follows: the Secretary of Transportation, the Commissioner of Highways, and the Director of the Department of Rail and Public Transportation; ~~and the Executive Director of the Virginia Port Authority~~. The nonlegislative citizen members shall be appointed by the Governor as provided in § 33.2-201, subject to confirmation by the General Assembly; ~~and shall serve at the pleasure of the Governor~~. Appointments of nonlegislative citizen members shall be for terms of four years commencing on July 1, upon the expiration of the terms of the existing members, respectively. Vacancies shall be filled by appointment by the Governor for the unexpired term and shall be effective until 30 days after the next meeting of the ensuing General Assembly and, if confirmed, thereafter for the remainder of the term. No nonlegislative citizen member shall be eligible to serve more than two consecutive four-year terms. The remainder of any term to which a member is appointed to fill a vacancy shall not constitute a term in determining that member's eligibility for reappointment. Ex officio members of the Board shall serve terms coincident with their terms of office.

The Secretary shall serve as chairman of the Board and shall have voting privileges only in the event of a tie. The ~~Commissioner of Highways~~ senior nonlegislative citizen member shall serve as vice-chairman of the Board ~~and shall have voting privileges only in the event of a tie when he is presiding~~ and shall preside during the absence of the chairman. *In the event that more than one nonlegislative citizen member of the Board may be considered the senior nonlegislative citizen member, the Board shall elect the vice-chairman from such senior nonlegislative citizen members.* The Director of the Department of Rail and Public Transportation and the ~~Executive Director of the Virginia Port Authority~~ Commissioner of Highways shall not have voting privileges.

**§ 33.2-214. Transportation; Six-Year Improvement Program.**

A. The Board shall have the power and duty to monitor and, where necessary, approve actions taken by the Department of Rail and Public Transportation pursuant to Article 5 (§ 33.2-281 et seq.) in order to ensure the efficient and economical development of public transportation, the enhancement of rail transportation, and the coordination of such rail and public transportation plans with highway programs.

B. The Board shall have the power and duty to coordinate the planning for financing of transportation needs, including needs for highways, railways, seaports, airports, and public transportation and set aside funds as provided in § 33.2-1524. To allocate funds for these needs pursuant to §§ 33.2-358 and 58.1-638, the Board shall adopt a Six-Year Improvement

Program of anticipated projects and programs by July 1 of each year. This program shall be based on the most recent official Transportation Trust Fund revenue forecast and shall be consistent with a debt management policy adopted by the Board in consultation with the Debt Capacity Advisory Committee and the Department of the Treasury.

C. The Board shall have the power and duty to enter into contracts with local districts, commissions, agencies, or other entities created for transportation purposes.

D. The Board shall have the power and duty to promote increasing private investment in the Commonwealth's transportation infrastructure, including acquisition of causeways, bridges, tunnels, highways, and other transportation facilities.

E. The Board shall have the power and duty to integrate land use with transportation planning and programming, consistent with the efficient and economical use of public funds. If the Board determines that a local transportation plan described in § 15.2-2223 or any amendment as described in § 15.2-2229 or a metropolitan regional long-range transportation plan or regional Transportation Improvement Program as described in § 33.2-3201 is not consistent with the Board's Statewide Transportation Plan developed pursuant to § 33.2-353, the Six-Year Improvement Program adopted pursuant to subsection B, and the location of routes to be followed by roads comprising systems of state highways pursuant to subsection A of § 33.2-208, the Board shall notify the locality of such inconsistency and request that the applicable plan or program be amended accordingly. If, after a reasonable time, the Board determines that there is a refusal to amend the plan or program, then the Board may reallocate funds that were allocated to the nonconforming project as permitted by state or federal law. However, the Board shall not reallocate any funds allocated pursuant to § 33.2-319; ~~33.2-348; 33.2-362;~~ or 33.2-366, based on a determination of inconsistency with the Board's Statewide Transportation Plan or the Six-Year Improvement Program nor shall the Board reallocate any funds, allocated pursuant to ~~subdivision C 3 of subsection C or D of~~ § 33.2-358, from any projects on highways controlled by any county that has withdrawn, or elects to withdraw, from the secondary system of state highways based on a determination of inconsistency with the Board's Statewide Transportation Plan or the Six-Year Improvement Program. If a locality or metropolitan planning organization requests the termination of a project, and the Department does not agree to the termination, or if a locality or metropolitan planning organization does not advance a project to the next phase of construction when requested by the Board and the Department has expended state or federal funds, the locality or the localities within the metropolitan planning organization may be required to reimburse the Department for all funds expended on the project. If, after design approval by the Chief Engineer of the Department, a locality or metropolitan planning organization requests alterations to a project that, in the aggregate, exceeds 10 percent of the total project costs, the locality or the localities within the metropolitan planning organization may be required to reimburse the Department for the additional project costs above the original estimates for making such alterations.

**§ 33.2-214.1. Statewide prioritization process for project selection.**

A. The General Assembly declares it to be in the public interest that a prioritization process for projects funded by the Commonwealth Transportation Board be developed and implemented to improve the efficiency and effectiveness of the state's transportation system, transportation safety, transportation accessibility for people and freight, environmental quality, and economic development in the Commonwealth.

B. Subject to the limitations in subsection C, the Commonwealth Transportation Board shall develop, in accordance with federal transportation requirements, and in cooperation with metropolitan planning organizations wholly within the Commonwealth and with the Northern Virginia Transportation Authority, a statewide prioritization process for the use of funds allocated pursuant to §§ 33.2-358, 33.2-370, and 33.2-371 or apportioned pursuant to 23 U.S.C. § 104. Such prioritization process shall be used for the development of the Six-Year Improvement Program pursuant to § 33.2-214 and shall consider, at a minimum, highway, transit, rail, roadway, technology operational improvements, and transportation demand management strategies.

1. The prioritization process shall be based on an objective and quantifiable analysis that considers, at a minimum, the following factors relative to the cost of the project or strategy: congestion mitigation, economic development, accessibility, safety, and environmental quality.

2. Prior to the analysis in subdivision 1, candidate projects and strategies shall be screened by the Commonwealth Transportation Board to determine whether they are consistent with the assessment of capacity needs for all for corridors of statewide significance, regional networks, and improvements to promote urban development areas established pursuant to § 15.2-2223.1, undertaken in the Statewide Transportation Plan in accordance with § 33.2-353.

3. The Commonwealth Transportation Board shall weight the factors used in subdivision 1 for each of the state's highway construction districts. The Commonwealth Transportation Board may assign different weights to the factors, within each highway construction district, based on the unique needs and qualities of each highway construction district.

4. The Commonwealth Transportation Board shall solicit input from localities, metropolitan planning organizations, transit authorities, transportation authorities, and other stakeholders in its development of the prioritization process pursuant to this section. Further, the Board shall explicitly consider input provided by an applicable metropolitan planning organization or the Northern Virginia Transportation Authority when developing the weighting of factors pursuant to subdivision 3 for a metropolitan planning area with a population over 200,000 individuals.

C. The prioritization process developed under subsection B shall not apply to the following: projects or activities undertaken pursuant to § 33.2-352; projects funded by the Congestion Mitigation Air Quality funds apportioned to the state pursuant to 23 U.S.C. § 104(b)(4) and state matching funds; projects funded by the Highway Safety Improvement Program funds apportioned to the state pursuant to 23 U.S.C. § 104(b)(3) and state matching funds; projects funded by the

Transportation Alternatives funds set-aside pursuant to 23 U.S.C. § 213 and state matching funds; ~~projects funded pursuant to subdivisions C 2 and 3 of § 33.2-358~~; projects funded by the revenue-sharing program pursuant to § 33.2-357; and projects funded by federal programs established by the federal government after June 30, 2014, with specific rules that restrict the types of projects that may be funded, excluding restrictions on the location of projects with regard to highway functional classification. The Commonwealth Transportation Board may, at its discretion, develop a prioritization process for any of the funds covered by this subsection, subject to planning and funding requirements of federal law. ~~However, the Board shall defer to individual local governments for projects funded pursuant to subdivisions C 2 and 3 of § 33.2-358.~~

D. The Commonwealth Transportation Board shall make public, in an accessible format, the results of the screening and analysis of candidate projects and strategies under subsection B, including the weighting of factors, in a timely fashion.

**§ 33.2-221. Other powers, duties, and responsibilities.**

A. The Board shall have the power and duty to comply fully with the provisions of the present or future federal aid acts. The Board may enter into all contracts or agreements with the United States government and may do all other things necessary to carry out fully the cooperation contemplated and provided for by present or future acts of Congress related to transportation.

B. The Board shall have the power and duty to enter into all contracts with other states necessary for the proper coordination of the location, construction, maintenance, improvement, and operation of transportation systems, including the systems of state highways with the highways of such other states, and where necessary, seek the approval of such contracts by the Congress of the United States.

C. The Board shall have the power and duty to administer, distribute, and allocate funds in the Transportation Trust Fund as provided by law. The Board shall ensure that the total funds allocated to any highway construction project are equal to total expenditures within 12 months following completion of the project. ~~However, this requirement shall not apply to debt service apportionments pursuant to § 33.2-362 or 33.2-364.~~

D. The Board shall have the power and duty, with the advice of the Secretary of Finance and the State Treasurer, to engage a financial advisor and investment advisor who may be anyone within or without the government of the Commonwealth to assist in planning and making decisions concerning the investment of funds and the use of bonds for transportation purposes. The work of these advisors shall be coordinated with the Secretary of Finance and the State Treasurer.

E. The Board shall have the power and duty to enter into payment agreements with the Treasury Board related to payments on bonds issued by the Commonwealth Transportation Board.

F. When the traffic-carrying capacity of any of the systems of state highways or a portion thereof is increased by construction or improvement, the Board may enter into agreements with localities, authorities, and transportation districts to establish highway user fees for such system of state highways or portion thereof that the localities, authorities, and transportation districts maintain.

**§ 33.2-228. Agreements between Commissioner of Highways and certain localities.**

Notwithstanding the provisions of §§ 33.2-209, 33.2-214, ~~and 33.2-221, and 33.2-362~~, the Commissioner of Highways, pursuant to a resolution adopted by the Board and following receipt of a resolution adopted by the governing body of a city or town to which funds are apportioned pursuant to § 33.2-362 locality, may enter into an agreement with any such city or town locality pursuant to which the city or town locality assumes responsibility for the design, right-of-way acquisition, and construction of urban system highways or portions thereof in such city or town locality, using funds allocated pursuant to subdivision C 2 of § 33.2-358 § 33.2-371.

**§ 33.2-232. Annual report by Commissioner of Highways.**

The Commissioner of Highways shall annually report in writing to the Governor ~~and, the General Assembly, the Joint Legislative Audit and Review Commission, and the Board~~ no later than November 30 each year; ~~on (i) the condition and performance of the existing transportation infrastructure, using an asset management methodology and generally accepted engineering principles and business practices to identify and prioritize maintenance and operations needs and to identify performance standards to be used to determine those needs, and funding required to meet those needs; (ii) the Department's strategies for improving safety and security, increasing efficiency in agency programs and projects, and collaborating with the private sector and local government in the delivery of services; (iii) the operating and financial activities of the Department, including the construction and maintenance programs, transportation costs and revenue, and federal allocations; (iv) the use of funds in the Innovation and Technology Transportation Fund established pursuant to § 33.2-1534; and (v) other such matters of importance to transportation in the Commonwealth. The content of such report shall be specified by the Board and shall contain, at a minimum:~~

1. The condition of existing transportation assets, using asset management methodology pursuant to § 33.2-352;

2. The methodology used to determine maintenance needs, including an explanation of the transparent methodology used for the allocation of funds from the Highway Maintenance and Operating Fund pursuant to subsection A of § 33.2-352;

3. Beginning with the November 2015 report through the November 2019 report, the allocations to the reconstruction and rehabilitation of functionally obsolete or structurally deficient bridges and to the reconstruction of pavements determined to have a combined condition index of less than 60 and beginning with the November 2020 report, the methodology used to determine allocations of construction funds for state of good repair purposes as defined in § 33.2-369 and any waiver of the cap provided for in subsection B of § 33.2-369;

4. The performance targets and outcomes for (i) the current two-year period starting July 1 of even-numbered years and (ii) the following two-year period starting July 1 of the next even-numbered year. The targets and outcomes shall state what is expected to be achieved, based on funding identified for maintenance and state of good repair purposes, over each two-year period;

5. Beginning with the November 2016 report, a listing of prioritized pavement and bridge needs based on the priority ranking system developed by the Board pursuant to § 33.2-369 and a description of the priority ranking system;

6. 7. A review of the Department's collaboration with the private sector in delivering services.

**§ 33.2-318. Bypasses through or around cities and towns.**

A. The Commissioner of Highways may acquire by gift, purchase, exchange, condemnation, or otherwise such lands or interest therein necessary or proper for the purpose and may construct and improve thereon such bypasses or extensions and connections of the primary state highway system through or around cities and towns as the Board deems necessary for the uses of the primary state highway system, provided that the respective cities and towns with populations of 3,500 or more by action of their governing bodies agree to participate ~~in accordance with the provisions of § 33.2-348~~ in all costs of such construction and improvement, including the cost of rights-of-way, on that portion of any such bypass or extension that is located within any such city or town. The maintenance of that portion of a bypass or extension located within a city or town shall be borne by the city or town. However, the Board shall contribute to such maintenance in accordance with the provisions of law governing its contribution to the maintenance of highways, bridges, and streets in such cities and towns. The location, form, and character of informational, regulatory, and warning signs, curb and pavement, or other markings and traffic signals installed or placed by any public authority shall be subject to the approval of the Commissioner of Highways. At both ends of bypasses through or around cities and towns, the Commissioner of Highways shall erect and maintain adequate directional signs of sufficient size and suitable design to indicate clearly the main route leading directly into such cities and towns.

B. Notwithstanding the provisions of subsection A, in any case in which a municipality refuses to contribute to the construction of a bypass or an extension or connection of the primary state highway system within said municipality, the Commissioner of Highways may construct such bypass or extension and connection without any contribution by the municipality when the Board determines that such bypass or extension and connection is primarily rural in character and that the most desirable and economical location is within the municipality. Any bypass or extension and connection built under this subsection shall be maintained by the Commissioner of Highways as a part of the primary state highway system, and the municipality shall receive no payment for such bypass or extension and connection under § 33.2-319.

C. All the provisions of general law relating to the exercise of eminent domain by the Commissioner of Highways are applicable to such bypasses, extensions, and connections of the primary state highway system.

D. The Board may expend out of funds appropriated to the Board *and allocated to an applicable project* under ~~subsection B and subdivision C~~ of § 33.2-358, 33.2-370, or 33.2-371 such funds as may be necessary to carry out the provisions of this section.

**§ 33.2-319. Payments to cities and certain towns for maintenance of certain highways.**

The Commissioner of Highways, subject to the approval of the Board, shall make payments for maintenance, construction, or reconstruction of highways to all cities and towns eligible for ~~allocation of construction funds for urban highways~~ under § 33.2-362 *this section*. Such payments, however, shall only be made if those highways functionally classified as principal and minor arterial roads are maintained to a standard satisfactory to the Department. Whenever any city or town qualifies under this section for allocation of funds, such qualification shall continue to apply to such city or town regardless of any subsequent change in population and shall cease to apply only when so specifically provided by an act of the General Assembly. ~~All allocations made prior to July 1, 2001, to cities and towns meeting the criteria of the foregoing provisions of this section are hereby confirmed.~~

*Funds are allocated to urban highways in (i) all towns that have a population of more than 3,500 according to the last preceding United States census; (ii) all towns that, according to evidence satisfactory to the Board, have attained a population of more than 3,500 since the last preceding United States census; (iii) Chase City, Elkton, Grottoes, Narrows, Pearisburg, and Saltville, which, on June 30, 1985, maintained certain streets under former § 33.1-80 as then in effect; (iv) all cities regardless of their populations; and (v) the Towns of Altavista, Lebanon, and Wise.*

No payments shall be made to any such city or town unless the portion of the highway for which such payment is made either ~~(i)~~ (a) has ~~(1)~~ (1) an unrestricted right-of-way at least 50 feet wide and ~~(2)~~ (2) a hard-surface width of at least 30 feet; ~~(ii)~~ (b) has ~~(a)~~ (1) an unrestricted right-of-way at least 80 feet wide, ~~(b)~~ (2) a hard-surface width of at least 24 feet, and ~~(c)~~ (3) approved engineering plans for the ultimate construction of an additional hard-surface width of at least 24 feet within the same right-of-way; ~~(iii)~~ (c) (1) is a cul-de-sac, ~~(b)~~ (2) has an unrestricted right-of-way at least 40 feet wide, and ~~(c)~~ (3) has a turnaround that meets applicable standards set by the Department; ~~(iv)~~ (d) either ~~(a)~~ (1) has been paved and has constituted part of the primary or secondary state highway system prior to annexation or incorporation or ~~(b)~~ (2) has constituted part of the secondary state highway system prior to annexation or incorporation and is paved to a minimum width of 16 feet subsequent to such annexation or incorporation and with the further exception of streets or portions thereof that have previously been maintained under the provisions of § 33.2-339 or 33.2-340; ~~(v)~~ (e) was eligible for and receiving

such payments under the laws of the Commonwealth in effect on June 30, 1985; ~~(vi)~~ (f) is a street established prior to July 1, 1950, that has an unrestricted right-of-way width of not less than 30 feet and a hard-surface width of not less than 16 feet; ~~(vii)~~ (g) is a street functionally classified as a local street that was constructed on or after January 1, 1996, and that at the time of approval by the city or town met the criteria for pavement width and right-of-way of the then-current design standards for subdivision streets as set forth in regulations adopted by the Board; ~~(viii)~~ (h) is a street previously eligible to receive street payments that is located in the City of Norfolk or the City of Richmond and is closed to public travel, pursuant to legislation enacted by the governing body of the locality in which it is located, for public safety reasons, within the boundaries of a publicly funded housing development owned and operated by the local housing authority; or ~~(ix)~~ (i) is a local street, otherwise eligible, containing one or more physical protuberances placed within the right-of-way for the purpose of controlling the speed of traffic.

However, the Commissioner of Highways may waive the requirements as to hard-surface pavement or right-of-way width for highways where the width modification is at the request of the governing body of the locality and is to protect the quality of the affected locality's drinking water supply or, for highways constructed on or after July 1, 1994, to accommodate some other special circumstance where such action would not compromise the health, safety, or welfare of the public. The modification is subject to such conditions as the Commissioner of Highways may prescribe.

For the purpose of calculating allocations and making payments under this section, the Department shall divide affected highways into two categories, which shall be distinct from but based on functional classifications established by the Federal Highway Administration: ~~(1)~~ (A) principal and minor arterial roads and ~~(2)~~ (B) collector roads and local streets. Payments made to affected localities shall be based on the number of moving-lane-miles of highways or portions thereof available to peak-hour traffic in that locality.

The Department shall recommend to the Board an annual rate per category to be computed using the base rate of growth planned for the Department's Highway Maintenance and Operations program. The Board shall establish the annual rates of such payments as part of its allocation for such purpose, and the Department shall use those rates to calculate and put into effect annual changes in each qualifying city's or town's payment under this section.

The payments by the Department shall be paid in equal sums in each quarter of the fiscal year, and payments shall not exceed the allocation of the Board.

The chief administrative officer of the city or town receiving ~~this fund~~ *these funds* shall make annual categorical reports of expenditures to the Department, in such form as the Board shall prescribe, accounting for all expenditures, certifying that none of the money received has been expended for other than maintenance, construction, or reconstruction of the streets, and reporting on their performance as specified in subsection B of § 33.2-352. Such reports shall be included in the scope of the annual audit of each municipality conducted by independent certified public accountants.

**§ 33.2-328. Department of Transportation to install and maintain certain signs.**

Whenever so requested by the governing body of a county, the Department shall install a system of highway name signs on state-maintained highways at such time and upon such terms and conditions as may be mutually agreed to between the county and the Commissioner of Highways.

The Department shall install, using state forces or contract, the initial signing system, and the county shall be responsible for continuing maintenance of the signs. Supply of the signs by the Department, either by manufacture or purchase, and initial installation shall be paid for from ~~appropriate secondary construction funds allocated to the county or from primary construction funds available to the Department~~ *funds available to the Department for highway maintenance*.

No highway funds shall be used by the county for the cost of maintaining the signing system.

**§ 33.2-331. Annual meeting with county officers; six-year plan for secondary state highways; certain reimbursements required.**

For purposes of this section, "cancellation" means complete elimination of a highway construction or improvement project from the six-year plan.

The governing body of each county in the secondary state highway system may, jointly with the representatives of the Department as designated by the Commissioner of Highways, prepare a six-year plan for the improvements to the secondary state highway system in that county. Each such six-year plan shall be based upon the best estimate of funds to be available to the county for expenditure in the six-year period on the secondary state highway system. Each such plan shall list the proposed improvements, together with an estimated cost of each project so listed. Following the preparation of the plan, the board of supervisors or other local governing body shall conduct a public hearing after publishing notice in a newspaper published in or having general circulation in the county once a week for two successive weeks and posting notice of the proposed hearing at the front door of the courthouse of such county 10 days before the meeting. At the public hearings, which shall be conducted jointly by the board of supervisors and the representative of the Department, the entire six-year plan shall be discussed with the citizens of the county and their views considered. Following the discussion, the local governing body, together with the representative of the Department, shall finalize and officially adopt the six-year plan, which shall then be considered the official plan of the county.

At least once in each calendar year, representatives of the Department in charge of the secondary state highway system in each county, or some representative of the Department designated by the Commissioner of Highways, shall meet with the governing body of each county in a regular or special meeting of the local governing body for the purpose of preparing a budget for the expenditure of improvement funds for the next fiscal year. The representative of the Department shall furnish the local governing body with an updated estimate of funds, and the board and the representative of the Department shall

jointly prepare the list of projects to be carried out in that fiscal year taken from the six-year plan by order of priority and following generally the policies of the Board in regard to the statewide improvements to the secondary state highway system. Such list of priorities shall then be presented at a public hearing duly advertised in accordance with the procedure outlined in this section, and comments of citizens shall be obtained and considered. Following this public hearing, the board, with the concurrence of the representative of the Department, shall adopt, as official, a priority program for the ensuing year, and the Department shall include such listed projects in its secondary highways budget for the county for that year.

At least once every two years following the adoption of the original six-year plan, the governing body of each county, together with the representative of the Department, shall update the six-year plan of the county by adding to it and extending it as necessary so as to maintain it as a plan encompassing six years. Whenever additional funds for secondary highway purposes become available, the local governing body may request a revision in its six-year plan in order that such plan be amended to provide for the expenditure of the additional funds. Such additions and extensions to each six-year plan shall be prepared in the same manner and following the same procedures as outlined herein for its initial preparation. Where the local governing body and the representative of the Department fail to agree upon a priority program, the local governing body may appeal to the Commissioner of Highways. The Commissioner of Highways shall consider all proposed priorities and render a decision establishing a priority program based upon a consideration by the Commissioner of Highways of the welfare and safety of county citizens. Such decision shall be binding.

Nothing in this section shall preclude a local governing body, with the concurrence of the representative of the Department, from combining the public hearing required for revision of a six-year plan with the public hearing required for review of the list of priorities, provided that notice of such combined hearing is published in accordance with procedures provided in this section.

All such six-year plans shall consider all existing highways in the secondary state highway system, including those in the towns located in the county that are maintained as a part of the secondary state highway system, and shall be made a public document.

If any county cancels any highway construction or improvement project included in its six-year plan after the location and design for the project has been approved, such county shall reimburse the Department the net amount of all funds expended by the Department for planning, engineering, right-of-way acquisition, demolition, relocation, and construction between the date on which project development was initiated and the date of cancellation. To the extent that funds from secondary highway allocations pursuant to ~~§ 33.2-364~~ have been expended to pay for a highway construction or improvement project, all revenues generated from a reimbursement by the county shall be deposited into that same county's secondary highway allocation. The Commissioner of Highways may waive all or any portion of such reimbursement at his discretion.

The provisions of this section shall not apply in instances where less than 100 percent of the right-of-way is available for donation for unpaved highway improvements.

**§ 33.2-337. Contributions to primary or secondary state highway construction by counties.**

Notwithstanding any other provision of law, any county having highways in the primary or secondary state highway system may contribute funds annually for the construction of primary or secondary highways. The funds contributed by such county shall be appropriated from the county's general revenues for use by the Department on the primary or secondary state highway system within such county as may be determined by the board of supervisors of such county in cooperation with the Department. The funds to which any county may be entitled under the provisions of §§ § 33.2-358; ~~33.2-361, and 33.2-364~~ for construction, improvement, or maintenance of primary or secondary highways shall not be diminished by reason of any funds contributed for that purpose by such county or by any person or entity, regardless of whether such contributions are matched by state or federal funds.

**§ 33.2-338. Construction and improvement of primary or secondary highways by counties.**

A. Notwithstanding any other provisions of this article, the governing body of any county may expend general revenues or revenues derived from the sale of bonds for the purpose of constructing or improving highways, including curbs, gutters, drainageways, sound barriers, sidewalks, and all other features or appurtenances conducive to the public safety and convenience, that either have been or may be taken into the primary or secondary state highway system. Project planning and the acquisition of rights-of-way shall be under the control and at the direction of the county, subject to the approval of project plans and specifications by the Department. All costs incurred by the Department in administering such contracts shall be reimbursed from the county's general revenues or from revenues derived from the sale of bonds or such costs may be charged against the funds that the county may be entitled to under the provisions of § 33.2-358; ~~33.2-361, or 33.2-364.~~

B. Projects undertaken under the authority of subsection A shall not diminish the funds to which a county may be entitled under the provisions of § 33.2-357; ~~or 33.2-358; 33.2-361, or 33.2-364.~~

C. At the request of the county, the Department may agree to undertake the design, right-of-way acquisition, or construction of projects funded by the county. In such situations, the Department and the county shall enter into an agreement specifying all relevant procedures and responsibilities concerning the design, right-of-way acquisition, construction, or contract administration of projects to be funded by the county. The county shall reimburse the Department for all costs incurred by the Department in carrying out the aforesaid activities from general revenues or revenues derived from the sale of bonds.

D. Notwithstanding any contrary provision of law, any county may undertake activities toward the design, land acquisition, or construction of primary or secondary state highway projects that have been included in the six-year plan pursuant to § 33.2-331, or in the case of a primary state highway, an approved project included in the six-year improvement program of the Board. In such situations, the Department and the county shall enter into an agreement specifying all relevant procedures and responsibilities concerning the design, right-of-way acquisition, construction, or contract administration of projects to be funded by the Department. Such activities shall be undertaken with the prior concurrence of the Department, and the Department shall reimburse the county for expenses incurred in carrying out these activities. Such reimbursement shall be derived from primary or secondary highway funds that the county may be entitled to under the provisions of this chapter. The county may undertake these activities in accordance with all applicable county procedures, provided the Commissioner of Highways finds that those county procedures are substantially similar to departmental procedures and specifications.

E. If funding for the construction of a primary or interstate project is scheduled in the Board's Six-Year Improvement Program as defined in § 33.2-214, a locality may choose to advance funds to the project. If such advance is offered, the Board may consider such request and agree to such advancement and the subsequent reimbursement of the locality of the advance in accordance with terms agreed upon by the Board or its designee and the locality.

F. Any county carrying out any construction project as authorized in this section may, in so doing, exercise the powers granted the Commissioner of Highways under Article 1 (§ 33.2-1000 et seq.) of Chapter 10 to enter property for the purpose of making an examination and survey thereof, with a view to ascertainment of its suitability for highway purposes and any other purpose incidental thereto.

G. For the purposes of this section, any county without an existing franchise agreement, when administering a Department-sanctioned project under a land-use permit or transportation project agreement, shall have the same authority as the Department pertaining to the relocation of utilities.

H. Whenever so requested by any county, funding of any project undertaken as provided in this section may be supplemented solely by state funds in order to avoid the necessity of complying with additional federal requirements, provided a determination has been made by the Department that (i) adequate state funds are available to fully match available federal transportation funds and (ii) the Department can meet its federal obligation authority, as permitted by federal law.

**§ 33.2-349. Character of signs, markings, and signals.**

On any urban highway upon which the Board has expended funds ~~in the manner provided in §§ 33.2-348 and 33.2-362~~, the location, form, and character of informational, regulatory, and warning signs, curb and pavement, or other markings and traffic signals installed or placed by any public authority shall be subject to the approval of the Commissioner of Highways.

**§ 33.2-352. Asset management practices; report.**

A. The Department shall develop asset management practices in the operation and maintenance of the systems of state highways. *Such practices shall include a transparent methodology for the allocation of funds from the Highway Maintenance and Operating Fund established pursuant to § 33.2-1530 to highway systems maintenance and operations programs, including the allocations among the highway construction districts and among the Interstate System and primary and secondary state highway systems.*

B. The Commissioner of Highways shall advise the Board on or before June 30 of even-numbered years of performance targets and outcomes that are expected to be achieved, based on the funding identified for maintenance, over the biennium beginning July 1 of that year. In addition, not later than September 30 of even-numbered years, the Commissioner of Highways shall advise the Board on the Department's accomplishments relative to the expected outcomes and budget expenditures for the biennium ending June 30 of that year and also advise the Board as to the methodology used to determine maintenance needs and the justification as to the maintenance funding by source.

**§ 33.2-357. Revenue-sharing funds for systems in certain localities.**

A. From revenues made available by the General Assembly and appropriated for the improvement, construction, reconstruction, or maintenance of the systems of state highways, the Board may make an equivalent matching allocation to any locality for designations by the governing body of up to \$10 million for use by the locality to improve, construct, or reconstruct the highway systems within such locality with up to \$5 million for use by the locality to maintain the highway systems within such locality. After adopting a resolution supporting the action, the governing body of the locality may request revenue-sharing funds to improve, construct, reconstruct, or maintain a highway system located in another locality or between two or more localities or to bring subdivision streets, used as such prior to the date specified in § 33.2-335, up to standards sufficient to qualify them for inclusion in the primary or secondary state highway system. All requests for funding shall be accompanied by a prioritized listing of specified projects.

B. In allocating funds under this section, the Board shall give priority ~~first to allocations that will accelerate projects in the Board's Six-Year Improvement Program or the locality's capital plan and next to those to projects as follows:~~ *first, to projects that have previously received an allocation of funds pursuant to this section; second, to projects that (i) meet a transportation need identified in the Statewide Transportation Plan pursuant to § 33.2-353 or (ii) accelerate a project in a locality's capital plan; and third, to projects that address pavement resurfacing and bridge rehabilitation projects where the maintenance needs analysis determines that the infrastructure is below does not meet the Department's maintenance performance targets.*

C. The Department shall contract with the locality for the implementation of the project. Such contract may cover either a single project or may provide for the locality's implementation of several projects. The locality shall undertake implementation of the particular project by obtaining the necessary permits from the Department in order to ensure that the improvement is consistent with the Department's standards for such improvements. At the request of the locality, the Department may provide the locality with engineering, right-of-way acquisition, construction, or maintenance services for a project with its own forces. The locality shall provide payment to the Department for any such services. If administered by the Department, such contract shall also require that the governing body of the locality pay to the Department within 30 days the local revenue-sharing funds upon written notice by the Department of its intent to proceed. Any project having funds allocated under this program shall be initiated in such a fashion that at least a portion of such funds have been expended within one year of allocation. Any revenue-sharing funds for projects not initiated after two subsequent fiscal years of allocation may be reallocated at the discretion of the Board.

D. Total Commonwealth funds allocated by the Board under this section shall be no less than \$15 million and no more than \$200 million in each fiscal year, subject to appropriation for such purpose. For any fiscal year in which less than the full program allocation has been allocated by the Board to specific governing bodies, those localities requesting the maximum allocation under subsection A may be allowed an additional allocation at the discretion of the Board.

E. The funds allocated by the Board under this section shall be distributed and administered in accordance with the revenue-sharing program guidelines established by the Board.

**§ 33.2-358. Allocation of funds among highway systems.**

A. For the purposes of this section:

"Bridge reconstruction and rehabilitation" means reconstruction and rehabilitation of those bridges identified by the Department as being functionally obsolete or structurally deficient.

"High priority projects" means those projects of regional or statewide significance identified by the Board that reduce congestion, increase safety, create jobs, or increase economic development.

"High-tech infrastructure improvements" means those projects or programs identified by the Board that reduce congestion, improve mobility, improve safety, provide up-to-date travel data, or improve emergency response.

B. The Board shall allocate each year from all funds made available for highway purposes such amount as it deems reasonable and necessary for the maintenance of roads within the Interstate System, the primary state highway system, and the secondary state highway system and for city and town street maintenance payments pursuant to § 33.2-319 and payments made to counties that have withdrawn or elect to withdraw from the secondary state highway system pursuant to § 33.2-366.

C. ~~After~~ *Until July 1, 2020, after* funds are set aside for administrative and general expenses and pursuant to other provisions in this title that provide for the disposition of funds prior to allocation for highway purposes, and after allocation is made pursuant to subsection B, the Board shall allocate an amount determined by the Board not to exceed \$500 million in any given year as follows: (i) 25 percent to bridge reconstruction and rehabilitation; (ii) 25 percent to advancing high priority projects statewide; (iii) 25 percent to reconstructing deteriorated Interstate System, primary state highway system, and municipality maintained primary extension pavements determined to have a Combined Condition Index of less than 60; (iv) 15 percent to projects undertaken pursuant to the Public-Private Transportation Act of 1995 (§ 33.2-1800 et seq.); (v) five percent to paving unpaved highways carrying more than 50 vehicles per day; and (vi) five percent to the Innovation and Technology Transportation Fund established pursuant to § 33.2-1531 for high-tech infrastructure improvements, provided that at the discretion of the Board such percentages of funds may be adjusted in any given year to meet project cash flow needs or when funds cannot be expended due to legal, environmental, or other project management considerations ~~and provided that such allocations shall cease beginning July 1, 2020.~~ After such allocations are made, the Board may allocate each year up to 10 percent of the funds remaining for highway purposes for the undertaking and financing of rail projects that in the Board's determination will result in mitigation of highway congestion. After the foregoing allocations have been made, the Board shall allocate the remaining funds available for highway purposes, exclusive of federal funds for the Interstate System, ~~among the highway systems for construction first~~ pursuant to §§ ~~33.2-359 and~~ § 33.2-360 and ~~then any funds not allocated to a project in the Six-Year Improvement Program~~ as follows:

~~1. Forty percent of the remaining funds exclusive of federal-aid matching funds for the Interstate System shall be allocated to the primary state highway system, including the arterial network, and in addition, an amount shall be allocated to the primary state highway system as interstate matching funds as provided in subsection B of § 33.2-361.~~

~~2. Thirty percent of the remaining funds exclusive of federal-aid matching funds for the Interstate System shall be allocated to urban highways for state aid pursuant to § 33.2-348.~~

~~3. Thirty percent of the remaining funds exclusive of federal-aid matching funds for the Interstate System shall be allocated to the secondary state highway system 50 percent for the high-priority projects program established pursuant to § 33.2-370 and 50 percent for the highway construction district grant programs established pursuant to § 33.2-371.~~

D. *For funds allocated for fiscal years beginning on and after July 1, 2020, after funds are set aside for administrative and general expenses and pursuant to other provisions in this title that provide for the disposition of funds prior to allocation for highway purposes, and after allocation is made pursuant to subsection B, the Board shall allocate all remaining funds, including funds apportioned pursuant to 23 U.S.C. § 104, as follows:*

*1. Forty-five percent of the remaining funds to state of good repair purposes as set forth in § 33.2-369;*

2. Twenty-seven and one-half percent of the remaining funds to the high-priority projects program established pursuant to § 33.2-370; and

3. Twenty-seven and one-half percent of the remaining funds to the highway construction district grant programs established pursuant to § 33.2-371.

E. The funds allocated in subsection C or D shall not include any federal funds and related state match for federal funds with restrictions regarding the construction of general capacity expansion of roadways, or federal funds not under the control of the Board. Such exclusion shall not include restrictions on the location of projects to specific road classifications.

F. In addition, the Board, from funds appropriated for such purpose in the general appropriation act, shall allocate additional funds to the Cities of Newport News, Norfolk, and Portsmouth and the County of Warren in such manner and apportion such funds among such localities as the Board may determine, unless otherwise provided in the general appropriation act. The localities shall use such funds to address highway maintenance and repair needs created by or associated with port operations in those localities.

E. G. Notwithstanding the provisions of this section, the General Assembly may, through the general appropriation act, permit the Governor to increase the amounts to be allocated to highway maintenance, highway construction, either or both.

**§ 33.2-359. Unpaved secondary highway funds.**

~~A. Before funds are allocated for distribution for highway construction pursuant to subdivisions C 1, 2, and 3 of § 33.2-358, a fund shall be established for the paving of nonsurface treated secondary highways that carry 50 vehicles or more per day. Such fund shall contain 5-67 percent of the total funds available for highway construction under subdivisions C 1, 2, and 3 of § 33.2-358. Funds from the highway construction district grant programs established pursuant to § 33.2-371 shall be allocated for the improvement of nonsurface treated secondary highways that carry 50 or more vehicles per day. Funds shall be deducted from the allocation made to each highway construction district pursuant to subsection D of § 33.2-371 and such deduction shall be based on the ratio of nonsurface treated secondary highways in each highway construction district that carry 50 or more vehicles per day to the total number of such nonsurface treated secondary highways in the Commonwealth.~~

~~Total funds of the Commonwealth allocated by the Board under this section shall not exceed \$25 million annually.~~

~~B. Such funds shall be distributed to counties in the secondary state highway system based on the ratio of nonsurface treated roads in each county carrying 50 vehicles or more per day to the total number of such nonsurface treated roads in the Commonwealth.~~

~~C. The governing body of any county may have funds allocated to the county under this section added to the county's secondary system construction funds allocated pursuant to § 33.2-364. **§ 33.2-363. Construction of U.S. Route 29 bypass.**

~~If the construction of a U.S. Route 29 bypass around any city located in any county that both (i) is located outside Planning District 8 and (ii) operates under the county executive form of government is not constructed because of opposition from a metropolitan planning organization, and the Federal Highway Administration requires the Commonwealth to reimburse the federal government for federal funds expended in connection with such project, an amount equal to the amount of such reimbursement shall be deducted by the Board from primary state highway system construction funds allocated or allocable to the highway construction district in which the project was located. Furthermore, in the event of such nonconstruction, an amount equal to the total of all state funds expended on such project shall be deducted by the Board from primary state highway system construction funds allocated or allocable to the highway construction district in which the project was located.~~

**§ 33.2-365. Allocation of proceeds of Commonwealth of Virginia Transportation Capital Projects Revenue Bonds.**

secondary highway systems pursuant to subdivisions C 1, 2, and 3 of § 33.2-358; (ii) second, to provide any required funding to fulfill the Commonwealth's allocation of equivalent revenue sharing matching funds pursuant to § 33.2-357 to the extent determined by the Board; and (iii) third, to pay or fund the costs of statewide or regional projects throughout the Commonwealth. Costs incurred or to be incurred for construction or funding of these transportation projects shall include environmental and engineering studies; rights-of-way acquisition; improvements to all modes of transportation; acquisition, construction, and related improvements; and any financing costs or other financing expenses relating to such bonds. Such costs may include the payment of interest on such bonds for a period during construction and not exceeding one year after completion of construction of the relevant project.

4. The total amount of bonds authorized shall be used for purposes of applying the percentages in subdivisions 1, 2, and 3.

The payment rates shall be adjusted annually by the Board in accordance with procedures established for adjusting payments to cities and towns under § 33.2-319, and lane mileage shall be adjusted annually to include (a) streets and highways accepted for maintenance in the county system by the local governing body or (b) streets and highways constructed according to standards set forth in the county subdivision ordinance or county thoroughfare plan, and being not less than the standards set by the Department. Such counties shall, ~~in addition, each receive for construction from funds allocated pursuant to subdivision C 3 of § 33.2-358 an annual amount calculated in the same manner as payments for construction in the secondary state highway system are calculated~~ be eligible to receive allocations pursuant to subsection C or D of § 33.2-358.

Payment of the funds shall be made in four equal sums, one in each quarter of the fiscal year, ~~and shall be reduced in the case of each such county by the amount of federal aid construction funds credited to each such county.~~

The Board shall allocate these funds to projects in all nine highway construction districts for state of good repair purposes based on a priority ranking system that takes into consideration (i) the number, condition, and costs of structurally deficient bridges and (ii) the mileage, condition, and costs to replace deteriorated pavements. The Board shall ensure an equitable needs-based distribution of funding among the highway construction districts, with no district receiving more than 17.5 percent or less than 5.5 percent of the total funding allocated in any given year. The Board may, by a duly adopted resolution, waive the cap provided in this section for a fiscal year only when it determines that due to extraordinary circumstances or needs the cap inhibits the ability of the Department to address a key pavement or bridge need that has been identified.

C. In any year in which the Department has not met the established targets for secondary pavements developed in accordance with § 33.2-232 and before making the allocations in subsection B, the Board may allocate up to 20 percent of these funds to all nine highway construction districts to improve the condition of secondary pavements. Candidate projects and strategies shall be screened, evaluated, and selected by the Board according to the process established pursuant to subsection B of § 33.2-214.1 but shall be within a highway construction district and not outside such highway construction district. 2. Twenty-eight percent based on the ratio of vehicle miles traveled on primary highways within the highway construction district to the total vehicle miles traveled on primary highways in the Commonwealth;

3. Twenty-four percent based on the ratio of the population of counties within a highway construction district to the total population of all counties within the Commonwealth;

4. Ten percent based on the ratio of the number of primary lane-miles in the highway construction district to the total number of primary lane-miles within the Commonwealth;

5. Six percent based on the ratio of the land area of counties within the highway construction district to the total land area of counties within the Commonwealth; and

6. Two percent based on a primary need factor based on addressing the largest under-allocation to highway construction districts relative to primary needs.

**§ 33.2-1510. Fund for access roads and bikeways to public recreational areas and historical sites; construction, maintenance, etc., of such facilities.**

A. The General Assembly finds and declares that there is an increasing demand by the public for more public recreational areas throughout the Commonwealth, therefore creating a need for more access to these areas. There are also many sites of historical significance to which access is needed.

The General Assembly hereby declares it to be in the public interest that access roads and bikeways to public recreational areas and historical sites be provided by using funds obtained from motor fuel tax collections on motor fuel used for propelling boats and ships and funds contained in the highway portion of the Transportation Trust Fund.

B. ~~The~~ *Prior to making allocations pursuant to subsection D of § 33.2-358, the Board shall, from funds allocated to the primary system, secondary system, or urban system,* set aside the sum of \$3 million initially. This fund shall be expended by the Board for the construction, reconstruction, maintenance, or improvement of access roads and bikeways within localities. At the close of each succeeding fiscal year, the Board shall replenish this fund to the extent it deems necessary to carry out the purpose intended, provided the balance in the fund plus the replenishment does not exceed \$3 million.

C. Upon the setting aside of the funds as provided in this section, the Board shall construct, reconstruct, maintain, or improve access roads and bikeways to public recreational areas and historical sites upon the following conditions:

1. When the Director of the Department of Conservation and Recreation has designated a public recreational area as such or when the Director of the Department of Historic Resources has determined a site or area to be historic and recommends to the Board that an access road or bikeway be provided or maintained to that area;

2. When the Board pursuant to the recommendation from the Director of the Department of Conservation and Recreation declares by resolution that the access road or bikeway be provided or maintained;

3. When the governing body of the locality in which the access road or bikeway is to be provided or maintained passes a resolution requesting the road; and

4. When the governing body of the locality in which the bikeway is to be provided or maintained adopts an ordinance pursuant to Article 7 (§ 15.2-2280 et seq.) of Chapter 22 of Title 15.2.

No access road or bikeway shall be constructed, reconstructed, maintained, or improved on privately owned property.

D. Any access road constructed, reconstructed, maintained, or improved pursuant to the provisions of this section shall become part of the primary state highway system, the secondary state highway system, or the road system of the locality in which it is located in the manner provided by law and shall thereafter be constructed, reconstructed, maintained, and improved as other roads or highways in such systems. Any bikeway path constructed, reconstructed, maintained, or improved pursuant to the provisions of this section that is not situated within the right-of-way limits of an access road that has become, or which is to become, part of the primary state highway system, the secondary state highway system, or the road system of the locality shall, upon completion, become part of and be regulated and maintained by the authority or agency maintaining the public recreational area or historical site. It shall be the responsibility of the authority, agency, or locality requesting that a bikeway be provided for a public recreational or historical site to provide the right-of-way needed for the construction, reconstruction, maintenance, or improvement of the bikeway if such is to be situated outside the right-of-way limits of an access road.

To maximize the impact of the Fund, not more than \$400,000 of recreational access funds may be allocated for each individual access road project to or within any public recreational area or historical site operated by a state agency and not more than \$250,000 of recreational access funds may be allocated for each individual access road project to or within a public recreational area or historical site operated by a locality or an authority with an additional \$100,000 if supplemented on a dollar-for-dollar basis by the locality or authority from other than highway sources. Not more than \$75,000 of recreational access funds may be allocated for each individual bikeway project to a public recreational area or historical site operated by a state agency and not more than \$60,000 of recreational access funds may be allocated for each individual bikeway project to a public recreational area or historical site operated by a locality or an authority with an additional \$15,000 if supplemented on a dollar-for-dollar basis by a locality or authority from other than highway sources.

The Board, with the concurrence of the Director of the Department of Conservation and Recreation, is hereby authorized to establish guidelines to carry out the provisions of this section.

(d) Of the funds pursuant to this section, 25 percent shall be allocated and distributed utilizing a tiered approach evaluated by the Transit Service Delivery Advisory Committee along with the Director of Rail and Public Transportation and established by the Commonwealth Transportation Board for capital purposes based on asset need and anticipated state participation level and revenues. The tier distribution measures may be evaluated by the Transit Service Delivery Advisory Committee along with the Director of Rail and Public Transportation every three years and, if redefined by the Board, shall be published at least one year in advance of being applied. Funds allocated for debt service payments shall be included in the tier that applies to the capital asset that is leveraged.

The distribution of the localities' share of such net revenue shall be computed with respect to the net revenue received into the state treasury during each month, and such distribution shall be made as soon as practicable after the close of each such month.

D. The net revenue so distributable among the counties and cities shall be apportioned and distributed upon the basis of the latest yearly estimate of the population of cities and counties ages five to 19, provided by the Weldon Cooper Center for Public Service of the University of Virginia. Such population estimate produced by the Weldon Cooper Center for Public Service of the University of Virginia shall account for persons who are domiciled in orphanages or charitable institutions or who are dependents living on any federal military or naval reservation or other federal property within the school division in which the institutions or federal military or naval reservation or other federal property is located. Such population estimate produced by the Weldon Cooper Center for Public Service of the University of Virginia shall account for members of the military services who are under 20 years of age within the school division in which the parents or guardians of such persons legally reside. When required by the council, such annual statement shall be certified by independent certified public accountants.

~~(g)~~ (d) It shall be the duty of the director of finance, each and every month, to prepare a monthly statement, giving a full and detailed account of all moneys received, from what sources and on what account received, and of all moneys ordered to be paid or drawn by check by the director, and on what account the same have been paid; and the director shall deliver such statement to the city manager, and shall lay the same before the council at its next meeting.

(h) No contract, agreement or other obligation involving the expenditure of money shall be entered into nor shall any ordinance of the council or order of any officer of the city authorizing the city's obligation for expenditure of money be effective until and unless the director of finance shall have certified in writing that the money required for such contract, agreement, obligation or expenditure is in the city treasury to the credit of the fund from which it is to be drawn, and not appropriated for any other purpose, which certification may be endorsed on or recited in such ordinance, endorsed upon the contract, agreement or other instrument creating such obligation or upon such order, or may be contained in separate certification filed and preserved in the office of the city clerk; provided, however, that requirement of such certification shall not be applicable to the city's execution or issuance of bonds or notes under §§ 47, 48 and 49 of this charter. The sum so certified shall not thereafter be considered unencumbered, until the city is discharged from the contract, agreement or obligation.

(i) For the purpose of the certification required in subsection (h) of this section, all moneys actually in the treasury to the credit of the fund from which they are to be drawn and all moneys applicable to the payment of the obligation or appropriation involved that are anticipated to come into the treasury before the maturity of such contract, agreement or obligation from taxes, assessments, license fees or from sales of property or of services, products, or by-products of any city undertaking and all moneys to be derived from lawfully authorized bonds or from other sources, shall be deemed in the treasury to the credit of the appropriate fund and subject to such certification.

(j) Unless otherwise provided in this charter, the director of finance shall have all of the duties, responsibilities, powers and authority heretofore imposed upon or lodged in the city auditor by this charter or by the ordinances and resolutions of the council heretofore or hereafter adopted prior to the council's election of a director of finance.

~~(k)~~ (e) The director of finance shall have the power and the authority to use any and all collection methods available to the treasurers of the counties and cities under general law to collect delinquent real estate taxes, provided the responsibility for such collection has been transferred to the director of finance by ordinance adopted by city council.

In making its determination, the court shall consider all of the following factors that are relevant to the case: (i) the degree to which the delinquent act was committed with the use of force, threat or intimidation, (ii) the age and maturity of the complaining witness, (iii) the age and maturity of the offender, (iv) the difference in the ages of the complaining witness and the offender, (v) the nature of the relationship between the complaining witness and the offender, (vi) the offender's prior criminal history, and (vii) any other aggravating or mitigating factors relevant to the case. If the court grants the defendant's motion to withdraw his plea of guilty or of nolo contendere, his case shall be heard by another judge, unless the parties agree otherwise. Failure to make such determination or so advise the defendant does not otherwise invalidate the underlying conviction.

A. The Commission shall adopt an initial set of discretionary felony sentencing guidelines which shall become effective on January 1, 1995. 3. The midpoint of the initial recommended sentencing range for manufacturing, selling, giving or distributing, or possessing with the intent to manufacture, sell, give or distribute a Schedule I or II controlled substance shall be increased by (i) 200 percent in cases in which the defendant has previously been convicted of a violent felony offense punishable by a maximum punishment of less than 40 years or (ii) 400 percent in cases in which the defendant has previously been convicted of a violent felony offense punishable by a maximum term of imprisonment of 40 years or more; and

In making its determination, the court shall consider all of the following factors that are relevant to the case: (i) the degree to which the delinquent act was committed with the use of force, threat or intimidation, (ii) the age and maturity of the complaining witness, (iii) the age and maturity of the offender, (iv) the difference in the ages of the complaining witness and the offender, (v) the nature of the relationship between the complaining witness and the offender, (vi) the offender's prior criminal history, and (vii) any other aggravating or mitigating factors relevant to the case. H. Prior to entering judgment of conviction of an offense for which registration is required if the victim of the offense was a minor, physically helpless, or mentally incapacitated, when the indictment, warrant, or information does not allege that the victim of the offense was a minor, physically helpless, or mentally incapacitated, the court shall determine by a preponderance of the evidence whether the victim of the offense was a minor, physically helpless, or mentally incapacitated, as defined in § 18.2-67.10, and shall also determine the age of the victim at the time of the offense if it determines the victim to be a minor. When such a determination is required, the court shall advise the defendant of its determination and of the defendant's right to make a motion to withdraw a plea of guilty or nolo contendere pursuant to § 19.2-296. If the court grants the defendant's motion to withdraw his plea of guilty or of nolo contendere, his case shall be heard by another judge, unless the parties agree otherwise. Failure to make such determination or so advise the defendant does not otherwise invalidate the underlying conviction.

#### **§ 17.1-805. Adoption of initial discretionary sentencing guideline midpoints.**

A. The Commission shall adopt an initial set of discretionary felony sentencing guidelines which shall become effective on January 1, 1995. The initial recommended sentencing range for each felony offense shall be determined first, by computing the actual time-served distribution for similarly situated offenders, in terms of their conviction offense and prior criminal history, released from incarceration during the base period of calendar years 1988 through 1992, increased by 13.4 percent, and second, by eliminating from this range the upper and lower quartiles. The midpoint of each initial recommended sentencing range shall be the median time served for the middle two quartiles and subject to the following additional enhancements:

1. The midpoint of the initial recommended sentencing range for first degree murder, second degree murder, rape in violation of § 18.2-61, forcible sodomy, object sexual penetration, and aggravated sexual battery, shall be further increased by (i) 125 percent in cases in which the defendant has no previous conviction of a violent felony offense; (ii) 300 percent in cases in which the defendant has previously been convicted of a violent felony offense punishable by a maximum punishment of less than 40 years; or (iii) 500 percent in cases in which the defendant has previously been convicted of a violent felony offense punishable by a maximum punishment of 40 years or more, except that the recommended sentence for a defendant convicted of first degree murder who has previously been convicted of a violent felony offense punishable by a maximum term of imprisonment of 40 years or more shall be imprisonment for life;

2. The midpoint of the initial recommended sentencing range for voluntary manslaughter, robbery, aggravated malicious wounding, malicious wounding, and any burglary of a dwelling house or statutory burglary of a dwelling house or any burglary committed while armed with a deadly weapon or any statutory burglary committed while armed with a deadly weapon shall be further increased by (i) 100 percent in cases in which the defendant has no previous conviction of a violent felony offense, (ii) 300 percent in cases in which the defendant has previously been convicted of a violent felony offense punishable by a maximum term of imprisonment of less than 40 years, or (iii) 500 percent in cases in which the defendant has previously been convicted of a violent felony offense punishable by a maximum term of imprisonment of 40 years or more;

3. The midpoint of the initial recommended sentencing range for manufacturing, selling, giving or distributing, or possessing with the intent to manufacture, sell, give or distribute a Schedule I or II controlled substance shall be increased by (i) 200 percent in cases in which the defendant has previously been convicted of a violent felony offense punishable by a maximum punishment of less than 40 years or (ii) 400 percent in cases in which the defendant has previously been convicted of a violent felony offense punishable by a maximum term of imprisonment of 40 years or more; and

4. The midpoint of the initial recommended sentencing range for felony offenses not specified in subdivision 1, 2, or 3 shall be increased by 100 percent in cases in which the defendant has previously been convicted of a violent felony offense punishable by a maximum punishment of less than 40 years, and by 300 percent in cases in which the defendant has previously been convicted of a violent felony offense punishable by a maximum term of imprisonment of 40 years or more.

B. For purposes of this chapter, previous convictions shall include prior adult convictions and juvenile convictions and adjudications of delinquency based on an offense which would have been at the time of conviction a felony if committed by an adult under the laws of any state, the District of Columbia, the United States or its territories.

C. **1. That §§ 54.1-2105.01 and 54.1-2105.03 of the Code of Virginia are amended and reenacted as follows:**

**§ 54.1-2105.01. Educational requirements for all salespersons within one year of licensure.**

A. The Board shall establish guidelines for an educational curriculum of at least 30 hours of classroom, or correspondence or other distance learning, instruction, in specified areas, which shall be required of all salespersons within one year of issuance of a license by the Board. Failure of a new licensee to complete the 30-hour curriculum within one year of obtaining a real estate salesperson's license shall result in the license being placed on inactive status by the Board until the curriculum has been completed.

B. To establish the guidelines required by this section, the Board shall establish an industry advisory group composed of representatives of the practices of (i) residential real estate, (ii) commercial real estate, and (iii) property management. The industry advisory group shall consist of licensed real estate salespersons and real estate brokers who shall be appointed by and shall meet at the direction of the Board, at least annually, to update the guidelines. The Board shall review and may approve educational curricula developed by an approved school or other provider of real estate education authorized by this chapter. The industry advisory group shall serve at no cost to the Board.

C. The curricula for new licensees shall include topics that new licensees need to know in their practices, including contract writing, handling customer deposits, listing property, leasing property, agency, current industry issues and trends, *flood hazard areas and the National Flood Insurance Program*, property owners' and condominium association law, landlord-tenant law, Board regulations, and such other topics as designated by the Board. The continuing education requirements of this section for new licensees shall be in lieu of the continuing education requirements otherwise specified in this chapter and Board regulations.

**§ 54.1-2105.03. Continuing education; relicensure of brokers and salespersons.**

A. Board regulations shall include educational requirements as a condition for relicensure of brokers and salespersons to whom active licenses have been issued by the Board beyond those now specified by law as conditions for licensure.

1. Brokers to whom active licenses have been issued by the Board shall be required to satisfactorily complete courses of not less than 24 hours of classroom or correspondence or other distance learning instruction during each licensing term. Of the total 24 hours, the curriculum shall consist of:

a. A minimum of eight required hours to include at least three hours of ethics and standards of conduct, two hours of fair housing, and the remaining three hours of legal updates and emerging trends, *flood hazard areas and the National Flood Insurance Program*, real estate agency, and real estate contracts;

b. A minimum of eight hours of courses relating to supervision and management of real estate agents and the management of real estate brokerage firms as are approved by the Board; and

c. Eight hours of general elective courses as are approved by the Board.

The Board may, on a year-by-year basis, adjust the required hours and course topics specified in this subdivision for the next succeeding year, applicable to a licensee in the next renewal period for his license, including the addition of topics deemed by the Board to be essential. Such designation or adjustment by the Board shall be made prior to September 1 of any given calendar year. The action of the Board in making such adjustment shall be subject to § 2.2-4012.1.

The fair housing requirements shall include an update on current cases and administrative decisions under fair housing laws. If the licensee submits a notarized affidavit to the Board that certifies that he does not practice residential real estate and shall not do so during the licensing term, training in fair housing shall not be required; instead, such licensee shall receive training in other applicable federal and state discrimination laws and regulations.

2. Salespersons to whom active licenses have been issued by the Board shall be required to satisfactorily complete courses of not less than 16 hours of classroom or correspondence or other distance learning instruction during each licensing term. Of the total 16 hours, the curriculum shall consist of:

a. A minimum of eight required hours to include at least three hours of ethics and standards of conduct, two hours of fair housing, and the remaining three hours of legal updates and emerging trends, real estate agency, ~~and~~ real estate contracts, *and flood hazard areas and the National Flood Insurance Program*; and

b. Eight hours of general elective courses as are approved by the Board.

The Board may, on a year-by-year basis, readjust the required hours and course topics specified in this subdivision for the next succeeding year, applicable to a licensee in the next renewal period for his license, including the addition of topics deemed by the Board to be essential. Such designation or adjustment by the Board shall be made prior to September 1 of any given calendar year. The action of the Board in making such adjustment shall be subject to § 2.2-4012.1.

3. The Board shall approve a continuing education curriculum of not less than three hours, and as of July 1, 2012, every applicant for relicensure as an active broker or salesperson shall complete at a minimum one three-hour continuing education course on the changes to residential standard agency effective as of July 1, 2011, to Article 3 (§ 54.1-2130 et seq.) prior to renewal or reinstatement of his license. If the licensee submits a notarized affidavit to the Board that certifies that he does not practice residential real estate and shall not do so during the licensing term, training in residential representation shall not be required. A licensee who takes one three-hour continuing education class on residential representation shall satisfy the requirements for continuing education and may, but shall not be required to, take any further continuing education on residential standard agency.

The fair housing requirements shall include an update on current cases and administrative decisions under fair housing laws. If the licensee submits a notarized affidavit to the Board that certifies that he does not practice residential real estate and shall not do so during the licensing term, training in fair housing shall not be required; instead, such licensee shall receive training in other applicable federal and state discrimination laws and regulations.

4. For correspondence and other distance learning instruction offered by an approved provider, the Board shall establish the appropriate testing procedures to verify completion of the course and require the licensee to file a notarized affidavit certifying compliance with the course requirements. The Board may establish procedures to ensure the quality of the courses. The Board shall not require testing for continuing education courses completed through classroom instruction.

B. Every applicant for relicensure as an active salesperson or broker shall complete the continuing education requirements prior to each renewal or reinstatement of his license. The continuing education requirement shall also apply to

inactive licensees who make application for an active license. Notwithstanding this requirement, military personnel called to active duty in the armed forces of the United States may complete the required continuing education within six months of their release from active duty.

C. The Board shall establish procedures for the carryover of continuing education credits completed by licensees from the licensee's current license period to the licensee's next renewal period.

*An Act to amend and reenact § 56-600 of the Code of Virginia, relating to the Natural Gas Conservation and Ratemaking Efficiency Act; cost-effective programs.*

[S 1331]

Approved March 27, 2015

**Be it enacted by the General Assembly of Virginia:**

**1. That § 56-600 of the Code of Virginia is amended and reenacted as follows:**

**§ 56-600. Definitions.**

As used in this chapter:

"Allowed distribution revenue" means the average annual, weather-normalized, nongas commodity revenue per customer associated with the rates in effect as adopted in the applicable utility's last Commission-approved rate case or performance-based regulation plan, multiplied by the average number of customers served.

"Conservation and ratemaking efficiency plan" means a plan filed by a natural gas utility pursuant to this chapter that includes a decoupling mechanism.

"Cost-effective conservation and energy efficiency program" means a program approved by the Commission that is designed to decrease the average customer's annual, weather-normalized consumption or total gas bill, for gas and nongas elements combined, or avoid energy costs or consumption the customer may otherwise have incurred, and is determined by the Commission to be cost-effective upon consideration, among other factors, that the net present value of the benefits exceeds the net present value of the costs under the following four tests: the Total Resource Cost Test, the Program Administrator Test (also referred to as the Utility Cost Test), the Participant Test, and the Ratepayer Impact Measure Test. Such determination shall include an analysis of all four tests, and a program or portfolio of programs shall not be rejected based solely on the results of a single test. *Such determination shall also be made (i) with the assignment of administrative costs associated with the conservation and ratemaking efficiency plan to the portfolio as a whole and (ii) with the assignment of education and outreach costs associated with each program in a portfolio of programs to such program and not to individual measures within a program, when such administrative, education, or outreach costs are not otherwise directly assignable.* Without limitation, rate designs or rate mechanisms, customer education, customer incentives, and weatherization programs are examples of conservation and energy efficiency programs that the Commission may consider. Energy efficiency programs that provide measurable and verifiable energy savings to low-income customers or elderly customers may also be deemed cost effective. *A cost-effective conservation and energy efficiency program shall not include a program designed to convert propane customers to natural gas.*

"Decoupling mechanism" means a rate, tariff design or mechanism that decouples the recovery of a utility's allowed distribution revenue from the level of consumption of natural gas by its customers, including (i) a mechanism that adjusts actual nongas distribution revenues per customer to allowed distribution revenues per customer, such as a sales adjustment

clause, (ii) rate design changes that substantially align the percentage of fixed charge revenue recovery with the percentage of the utility's fixed costs, such as straight fixed variable rates, provided such mechanism includes a substantial demand component based on a customer's peak usage, or (iii) a combination of clauses (i) and (ii) that substantially decreases the relative amount of nongas distribution revenue affected by changes in per customer consumption of gas.

"Fixed costs" means any and all of the utility's nongas costs of service, together with an authorized return thereon, that are not associated with the cost of the natural gas commodity flowing through and measured by the customer's meter.

"Measure" means an individual item, service, offering, or rebate available to a customer of a natural gas utility as part of the utility's conservation and ratemaking efficiency plan.

"Natural gas utility" or "utility" means any investor-owned public service company engaged in the business of furnishing natural gas service to the public.

"Portfolio" means the program or programs included in a natural gas utility's conservation and ratemaking efficiency plan.

"Program" means a group of one or more related measures for a customer class.

"Revenue-neutral" means a change in a rate, tariff design or mechanism as a component of a conservation and ratemaking efficiency plan that does not shift annualized allowed distribution revenue between customer classes, and does not increase or decrease the utility's average, weather-normalized nongas utility revenue per customer for any given rate class by more than 0.25 percent when compared to (i) the rate, tariff design or mechanism in effect at the time a conservation and ratemaking efficiency plan is filed pursuant to this chapter or (ii) the allocation of costs approved by the Commission in a rate case using the cost of service methodology set forth in § 56-235.2 or a performance-based regulation plan authorized by § 56-235.6, where a plan is filed in conjunction with such case.

**§ 22.1-253.13:2. Standard 2. Instructional, administrative, and support personnel.**

A. The Board shall establish requirements for the licensing of teachers, principals, superintendents, and other professional personnel.

B. School boards shall employ licensed instructional personnel qualified in the relevant subject areas.

C. Each school board shall assign licensed instructional personnel in a manner that produces divisionwide ratios of students in average daily membership to full-time equivalent teaching positions, excluding special education teachers, principals, assistant principals, counselors, and librarians, that are not greater than the following ratios: (i) 24 to one in kindergarten with no class being larger than 29 students; if the average daily membership in any kindergarten class exceeds 24 pupils, a full-time teacher's aide shall be assigned to the class; (ii) 24 to one in grades one, two, and three with no class being larger than 30 students; (iii) 25 to one in grades four through six with no class being larger than 35 students; and (iv) 24 to one in English classes in grades six through 12.

Within its regulations governing special education programs, the Board shall seek to set pupil/teacher ratios for pupils with intellectual disability that do not exceed the pupil/teacher ratios for self-contained classes for pupils with specific learning disabilities.

Further, school boards shall assign instructional personnel in a manner that produces schoolwide ratios of students in average daily memberships to full-time equivalent teaching positions of 21 to one in middle schools and high schools. School divisions shall provide all middle and high school teachers with one planning period per day or the equivalent, unnumbered of any teaching or supervisory duties.

D. Each local school board shall employ with state and local basic, special education, gifted, and career and technical education funds a minimum number of licensed, full-time equivalent instructional personnel for each 1,000 students in average daily membership (ADM) as set forth in the appropriation act. Calculations of kindergarten positions shall be based on full-day kindergarten programs. Beginning with the March 31 report of average daily membership, those school divisions offering half-day kindergarten with pupil/teacher ratios that exceed 30 to one shall adjust their average daily membership for kindergarten to reflect 85 percent of the total kindergarten average daily memberships, as provided in the appropriation act.

E. In addition to the positions supported by basic aid and in support of regular school year programs of prevention, intervention, and remediation, state funding, pursuant to the appropriation act, shall be provided to fund certain full-time equivalent instructional positions for each 1,000 students in grades K through 12 who are identified as needing prevention, intervention, and remediation services. State funding for prevention, intervention, and remediation programs provided pursuant to this subsection and the appropriation act may be used to support programs for educationally at-risk students as identified by the local school boards.

To provide algebra readiness intervention services required by § 22.1-253.13:1, school divisions may employ mathematics teacher specialists to provide the required algebra readiness intervention services. School divisions using the Standards of Learning Algebra Readiness Initiative funding in this manner shall only employ instructional personnel licensed by the Board of Education.

F. In addition to the positions supported by basic aid and those in support of regular school year programs of prevention, intervention, and remediation, state funding, pursuant to the appropriation act, shall be provided to support 17 full-time equivalent instructional positions for each 1,000 students identified as having limited English proficiency.

To provide flexibility in the instruction of English language learners who have limited English proficiency and who are at risk of not meeting state accountability standards, school divisions may use state and local funds from the Standards of Quality Prevention, Intervention, and Remediation account to employ additional English language learner teachers to provide instruction to identified limited English proficiency students. Using these funds in this manner is intended to supplement the instructional services provided in this section. School divisions using the SOQ Prevention, Intervention, and Remediation funds in this manner shall employ only instructional personnel licensed by the Board of Education.

G. In addition to the full-time equivalent positions required elsewhere in this section, each local school board shall employ the following reading specialists in elementary schools, one full-time in each elementary school at the discretion of the local school board.

To provide reading intervention services required by § 22.1-253.13:1, school divisions may employ reading specialists to provide the required reading intervention services. School divisions using the Early Reading Intervention Initiative funds in this manner shall employ only instructional personnel licensed by the Board of Education.

H. Each local school board shall employ, at a minimum, the following full-time equivalent positions for any school that reports fall membership, according to the type of school and student enrollment:

1. Principals in elementary schools, one half-time to 299 students, one full-time at 300 students; principals in middle schools, one full-time, to be employed on a 12-month basis; principals in high schools, one full-time, to be employed on a 12-month basis;

2. Assistant principals in elementary schools, one half-time at 600 students, one full-time at 900 students; assistant principals in middle schools, one full-time for each 600 students; assistant principals in high schools, one full-time for each 600 students; and school divisions that employ a sufficient number of assistant principals to meet this staffing requirement may assign assistant principals to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary;

3. Librarians in elementary schools, one part-time to 299 students, one full-time at 300 students; librarians in middle schools, one-half time to 299 students, one full-time at 300 students, two full-time at 1,000 students; librarians in high schools, one half-time to 299 students, one full-time at 300 students, two full-time at 1,000 students. Local school divisions that employ a sufficient number of librarians to meet this staffing requirement may assign librarians to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary; and

4. Guidance counselors in elementary schools, one hour per day per 100 students, one full-time at 500 students, one hour per day additional time per 100 students or major fraction thereof; guidance counselors in middle schools, one period per 80 students, one full-time at 400 students, one additional period per 80 students or major fraction thereof; guidance counselors in high schools, one period per 70 students, one full-time at 350 students, one additional period per 70 students or major fraction thereof. Local school divisions that employ a sufficient number of guidance counselors to meet this staffing requirement may assign guidance counselors to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary.

I. Local school boards shall employ five full-time equivalent positions per 1,000 students in grades kindergarten through five to serve as elementary resource teachers in art, music, and physical education.

J. Local school boards shall employ two full-time equivalent positions per 1,000 students in grades kindergarten through 12, one to provide technology support and one to serve as an instructional technology resource teacher.

To provide flexibility, school divisions may use the state and local funds for instructional technology resource teachers to employ a data coordinator position, an instructional technology resource teacher position, or a data coordinator/instructional resource teacher blended position. The data coordinator position is intended to serve as a resource to principals and classroom teachers in the area of data analysis and interpretation for instructional and school improvement purposes, as well as for overall data management and administration of state assessments. School divisions using these funds in this manner shall employ only instructional personnel licensed by the Board of Education.

K. Local school boards may employ additional positions that exceed these minimal staffing requirements. These additional positions may include, but are not limited to, those funded through the state's incentive and categorical programs as set forth in the appropriation act.

L. A combined school, such as kindergarten through 12, shall meet at all grade levels the staffing requirements for the highest grade level in that school; this requirement shall apply to all staff, except for guidance counselors, and shall be based on the school's total enrollment; guidance counselor staff requirements shall, however, be based on the enrollment at the various school organization levels, i.e., elementary, middle, or high school. The Board of Education may grant waivers from these staffing levels upon request from local school boards seeking to implement experimental or innovative programs that are not consistent with these staffing levels.

M. School boards shall, however, annually, on or before January 1, report to the public the actual pupil/teacher ratios in elementary school classrooms by school for the current school year. Such actual ratios shall include only the teachers who teach the grade and class on a full-time basis and shall exclude resource personnel. School boards shall report pupil/teacher ratios that include resource teachers in the same annual report. Any classes funded through the voluntary kindergarten through third grade class size reduction program shall be identified as such classes. Any classes having waivers to exceed the requirements of this subsection shall also be identified. Schools shall be identified; however, the data shall be compiled in a manner to ensure the confidentiality of all teacher and pupil identities.

N. Students enrolled in a public school on a less than full-time basis shall be counted in ADM in the relevant school division. Students who are either (i) enrolled in a nonpublic school or (ii) receiving home instruction pursuant to § 22.1-254.1, and who are enrolled in public school on a less than full-time basis in any mathematics, science, English, history, social science, career and technical education, fine arts, foreign language, or health education or physical education course shall be counted in the ADM in the relevant school division on a pro rata basis as provided in the appropriation act. Each such course enrollment by such students shall be counted as 0.25 in the ADM; however, no such nonpublic or home

school student shall be counted as more than one-half a student for purposes of such pro rata calculation. Such calculation shall not include enrollments of such students in any other public school courses.

O. Each local school board shall provide those support services that are necessary for the efficient and cost-effective operation and maintenance of its public schools.

For the purposes of this title, unless the context otherwise requires, "support services positions" shall include the following:

1. Executive policy and leadership positions, including school board members, superintendents and assistant superintendents;

2. Fiscal and human resources positions, including fiscal and audit operations;

3. Student support positions, including (i) social workers and social work administrative positions; (ii) guidance administrative positions not included in subdivision H 4; (iii) homebound administrative positions supporting instruction; (iv) attendance support positions related to truancy and dropout prevention; and (v) health and behavioral positions, including school nurses and school psychologists;

4. Instructional personnel support, including professional development positions and library and media positions not included in subdivision H 3;

5. Technology professional positions not included in subsection J;

6. Operation and maintenance positions, including facilities; pupil transportation positions; operation and maintenance professional and service positions; and security service, trade, and laborer positions;

7. Technical and clerical positions for fiscal and human resources, student support, instructional personnel support, operation and maintenance, administration, and technology; and

8. School-based clerical personnel in elementary schools; part-time to 299 students, one full-time at 300 students; clerical personnel in middle schools; one full-time and one additional full-time for each 600 students beyond 200 students and one full-time for the library at 750 students; clerical personnel in high schools; one full-time and one additional full-time for each 600 students beyond 200 students and one full-time for the library at 750 students. Local school divisions that employ a sufficient number of school-based clerical personnel to meet this staffing requirement may assign the clerical personnel to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary.

Pursuant to the appropriation act, support services shall be funded from basic school aid.

School divisions may use the state and local funds for support services to provide additional instructional services.

P. Notwithstanding the provisions of this section, when determining the assignment of instructional and other licensed personnel in subsections C through J, *neither the Virginia Virtual School nor a local school board shall* ~~not~~ be required to include full-time students of approved virtual school programs.

**§ 58.1-638. Disposition of state sales and use tax revenue; localities' share; Game Protection Fund.**

A. The Comptroller shall designate a specific revenue code number for all the state sales and use tax revenue collected under the preceding sections of this chapter.

1. The sales and use tax revenue generated by the one-half percent sales and use tax increase enacted by the 1986 Special Session of the General Assembly shall be paid, in the manner hereinafter provided in this section, to the Transportation Trust Fund as defined in § 33.2-1524. Of the funds paid to the Transportation Trust Fund, an aggregate of 4.2 percent shall be set aside as the Commonwealth Port Fund as provided in this section; an aggregate of 2.4 percent shall be set aside as the Commonwealth Airport Fund as provided in this section; and an aggregate of 14.7 percent shall be set aside as the Commonwealth Mass Transit Fund as provided in this section. All payments shall be made to the Fund on the last day of each month.

2. There is hereby created in the Department of the Treasury a special nonreverting fund which shall be a part of the Transportation Trust Fund and which shall be known as the Commonwealth Port Fund.

Any new funds in excess of \$12.1 million which are available for allocation by the Virginia Aviation Board from the Commonwealth Transportation Fund, shall be allocated as follows: 60 percent to MWAA, up to a maximum annual amount of \$2 million, and 40 percent to air carrier airports as provided in subdivision A 3 a. Except for adjustments due to changes in enplaned passengers, no air carrier airport sponsor, excluding MWAA, shall receive less funds identified under subdivision A 3 a than it received in fiscal year 1994-1995.

Of the remaining amount:

a. Forty percent of the funds shall be allocated to air carrier airports, except airports owned or leased by MWAA, based upon the percentage of enplanements for each airport to total enplanements at all air carrier airports, except airports owned or leased by MWAA. No air carrier airport sponsor, however, shall receive less than \$50,000 nor more than \$2 million per year from this provision.

b. Forty percent of the funds shall be allocated by the Aviation Board for air carrier and reliever airports on a discretionary basis, except airports owned or leased by MWAA.

c. Twenty percent of the funds shall be allocated by the Aviation Board for general aviation airports on a discretionary basis.

a. b. Commonwealth Space Flight Fund revenue shall be allocated by the Board of Directors to the Virginia Commercial Space Flight Authority in order to foster and stimulate the growth of the commercial space flight industry in Virginia.

4. There is hereby created in the Department of the Treasury a special nonreverting fund which shall be a part of the Transportation Trust Fund and which shall be known as the Commonwealth Mass Transit Fund.

a. The Commonwealth Mass Transit Fund shall be established on the books of the Comptroller and any funds remaining in such Fund at the end of the biennium shall not revert to the general fund but shall remain in the Fund. Interest earned on such funds shall be credited to the Fund. Funds may be paid to any local governing body, transportation district commission, or public service corporation for the purposes hereinafter specified.

b. The amounts allocated pursuant to this section shall be used to support the operating, capital, and administrative costs of public transportation at a state share determined by the Commonwealth Transportation Board, and these amounts may be used to support the capital project costs of public transportation and ridesharing equipment, facilities, and associated costs at a state share determined by the Commonwealth Transportation Board. Capital costs may include debt service payments on local or agency transit bonds. In making these determinations, the Commonwealth Transportation Board shall confer with the Director of the Department of Rail and Public Transportation. In development of the Director's recommendation and subsequent allocation of funds by the Commonwealth Transportation Board, the Director of the Department of Rail and Public Transportation and the Commonwealth Transportation Board shall adhere to the following:

(1) For the distribution of revenues from the Commonwealth Mass Transit Fund, of those revenues generated in 2014 and thereafter, the first \$160 million in revenues or the maximum available revenues if less than \$160 million shall be distributed by the Commonwealth Transportation Board as follows:

(a) Funds for special programs, which shall include ridesharing, transportation demand management programs, experimental transit, public transportation promotion, operation studies, and technical assistance, shall not exceed 3 percent of the funds pursuant to this section and may be allocated to any local governing body, planning district commission, transportation district commission, or public transit corporation, or may be used directly by the Department of Rail and Public Transportation for the following purposes and aid of public transportation services:

(i) To finance a program administered by the Department of Rail and Public Transportation designed to promote the use of public transportation and ridesharing throughout Virginia.

(ii) To finance up to 80 percent of the cost of the development and implementation of projects where the purpose of such project is to enhance the provision and use of public transportation services.

(b) At least 72 percent of the funds shall be distributed to each transit property in the same proportion as its operating expenses bear to the total statewide operating expenses and shall be spent for the purposes specified in subdivision 4 b.

(c) Twenty-five percent of the funds shall be allocated and distributed utilizing a tiered approach evaluated by the Transit Service Delivery Advisory Committee along with the Director of the Department of Rail and Public Transportation and established by the Commonwealth Transportation Board for capital purposes based on asset need and anticipated state participation level and revenues. The tier distribution measures may be evaluated by the Transit Service Delivery Advisory Committee along with the Director of the Department of Rail and Public Transportation every three years and, if redefined

by the Board, shall be published at least one year in advance of being applied. Funds allocated for debt service payments will be included in the tier that applies to the capital asset that is leveraged.

(d) Transfer of funds from funding categories in subdivisions 4 b (1)(a) and 4 b (1)(c) to 4 b (1)(b) shall be considered by the Commonwealth Transportation Board in times of statewide economic distress or statewide special need.

(2) The Commonwealth Transportation Board shall allocate the remaining revenues after the application of the provisions set forth in subdivision 4 b (1) generated for the Commonwealth Mass Transit Fund for 2014 and succeeding years as follows:

(a) Funds pursuant to this section shall be distributed among operating, capital, and special projects in order to respond to the needs of the transit community.

(b) Of the funds pursuant to this section, at least 72 percent shall be allocated to support operating costs of transit providers and distributed by the Commonwealth Transportation Board based on service delivery factors, based on effectiveness and efficiency, as established by the Commonwealth Transportation Board. These measures and their relative weight shall be evaluated every three years and, if redefined by the Commonwealth Transportation Board, shall be published and made available for public comment at least one year in advance of being applied. In developing the service delivery factors, the Commonwealth Transportation Board shall create for the Department of Rail and Public Transportation a Transit Service Delivery Advisory Committee, consisting of two members appointed by the Virginia Transit Association, one member appointed by the Community Transportation Association of Virginia, one member appointed by the Virginia Municipal League, one member appointed by the Virginia Association of Counties, and three members appointed by the Director of the Department of Rail and Public Transportation, to advise the Department of Rail and Public Transportation in the development of a distribution process for the funds allocated pursuant to this subdivision 4 b (2)(b) and how transit systems can incorporate these metrics in their transit development plans. The Transit Service Delivery Advisory Committee shall elect a Chair. The Department of Rail and Public Transportation shall provide administrative support to the committee. Effective July 1, 2013, the Transit Service Delivery Advisory Committee shall meet at least annually and consult with interested stakeholders and hold at least one public hearing and report its findings to the Director of the Department of Rail and Public Transportation. Prior to the Commonwealth Transportation Board approving the service delivery factors, the Director of the Department of Rail and Public Transportation along with the Chair of the Transit Service Delivery Advisory Committee shall brief the Senate Committee on Finance, the House Appropriations Committee, and the Senate and House Committees on Transportation on the findings of the Transit Service Delivery Advisory Committee and the Department's recommendation. Before redefining any component of the service delivery factors, the Commonwealth Transportation Board shall consult with the Director of the Department of Rail and Public Transportation, Transit Service Delivery Advisory Committee, and interested stakeholders and provide for a 45-day public comment period. Prior to approval of any amendment to the service delivery measures, the Board shall notify the aforementioned committees of the pending amendment to the service delivery factors and its content.

(c) Funds for special programs, which shall include ridesharing, transportation demand management programs, experimental transit, public transportation promotion, operation studies, and technical assistance, shall not exceed 3 percent of the funds pursuant to this section and may be allocated to any local governing body, planning district commission, transportation district commission, or public transit corporation, or may be used directly by the Department of Rail and Public Transportation for the following purposes and aid of public transportation services:

(i) To finance a program administered by the Department of Rail and Public Transportation designed to promote the use of public transportation and ridesharing throughout Virginia.

(ii) To finance up to 80 percent of the cost of the development and implementation of projects where the purpose of such project is to enhance the provision and use of public transportation services.

(d) Of the funds pursuant to this section, 25 percent shall be allocated and distributed utilizing a tiered approach evaluated by the Transit Service Delivery Advisory Committee along with the Director of Rail and Public Transportation and established by the Commonwealth Transportation Board for capital purposes based on asset need and anticipated state participation level and revenues. The tier distribution measures may be evaluated by the Transit Service Delivery Advisory Committee along with the Director of Rail and Public Transportation every three years and, if redefined by the Board, shall be published at least one year in advance of being applied. Funds allocated for debt service payments shall be included in the tier that applies to the capital asset that is leveraged.

(e) Transfer of funds from funding categories in subdivisions 4 b (2)(c) and 4 b (2)(d) to 4 b (2)(b) shall be considered by the Commonwealth Transportation Board in times of statewide economic distress or statewide special need.

(f) The Department of Rail and Public Transportation may reserve a balance of up to five percent of the Commonwealth Mass Transit Fund revenues under this subsection in order to assure better stability in providing operating and capital funding to transit entities from year to year.

(3) The Commonwealth Mass Transit Fund shall not be allocated without requiring a local match from the recipient.

c. There is hereby created in the Department of the Treasury a special nonreverting fund known as the Commonwealth Transit Capital Fund. The Commonwealth Transit Capital Fund shall be part of the Commonwealth Mass Transit Fund. The Commonwealth Transit Capital Fund subaccount shall be established on the books of the Comptroller and consist of such moneys as are appropriated to it by the General Assembly and of all donations, gifts, bequests, grants, endowments, and other moneys given, bequeathed, granted, or otherwise made available to the Commonwealth Transit Capital Fund. Any funds remaining in the Commonwealth Transit Capital Fund at the end of the biennium shall not revert to the general fund,

but shall remain in the Commonwealth Transit Capital Fund. Interest earned on funds within the Commonwealth Transit Capital Fund shall remain in and be credited to the Commonwealth Transit Capital Fund. Proceeds of the Commonwealth Transit Capital Fund may be paid to any political subdivision, another public entity created by an act of the General Assembly, or a private entity as defined in § 33.2-1800 and for purposes as enumerated in subdivision 7 of § 33.2-1701 or expended by the Department of Rail and Public Transportation for the purposes specified in this subdivision. Revenues of the Commonwealth Transit Capital Fund shall be used to support capital expenditures involving the establishment, improvement, or expansion of public transportation services through specific projects approved by the Commonwealth Transportation Board. The Commonwealth Transit Capital Fund shall not be allocated without requiring a local match from the recipient.

d. The Commonwealth Transportation Board may allocate up to three and one-half percent of the funds set aside for the Commonwealth Mass Transit Fund to support costs of project development, project administration, and project compliance incurred by the Department of Rail and Public Transportation in implementing rail, public transportation, and congestion management grants and programs.

5. Funds for Metro shall be paid by the Northern Virginia Transportation Commission (NVTC) to the Washington Metropolitan Area Transit Authority (WMATA) and be a credit to the Counties of Arlington and Fairfax and the Cities of Alexandria, Falls Church, and Fairfax in the following manner:

a. Local obligations for debt service for WMATA rail transit bonds apportioned to each locality using WMATA's capital formula shall be paid first by NVTC. NVTC shall use 95 percent state aid for these payments.

b. The remaining funds shall be apportioned to reflect WMATA's allocation formulas by using the related WMATA-allocated subsidies and relative shares of local transit subsidies. Capital costs shall include 20 percent of annual local bus capital expenses. Hold harmless protections and obligations for NVTC's jurisdictions agreed to by NVTC on November 5, 1998, shall remain in effect.

Appropriations from the Commonwealth Mass Transit Fund are intended to provide a stable and reliable source of revenue as defined by Public Law 96-184.

6. Notwithstanding any other provision of law, funds allocated to Metro may be disbursed by the Department of Rail and Public Transportation directly to Metro or to any other transportation entity that has an agreement to provide funding to Metro.

B. The sales and use tax revenue generated by a one percent sales and use tax shall be distributed among the counties and cities of the Commonwealth in the manner provided in subsections C and D.

C. The localities' share of the net revenue distributable under this section among the counties and cities shall be apportioned by the Comptroller and distributed among them by warrants of the Comptroller drawn on the Treasurer of Virginia as soon as practicable after the close of each month during which the net revenue was received into the state treasury. The distribution of the localities' share of such net revenue shall be computed with respect to the net revenue received into the state treasury during each month, and such distribution shall be made as soon as practicable after the close of each such month.

D. The net revenue so distributable among the counties and cities shall be apportioned and distributed upon the basis of the latest yearly estimate of the population of cities and counties ages five to 19, provided by the Weldon Cooper Center for Public Service of the University of Virginia. Such population estimate produced by the Weldon Cooper Center for Public Service of the University of Virginia shall account for persons who are domiciled in orphanages or charitable institutions or who are dependents living on any federal military or naval reservation or other federal property within the school division in which the institutions or federal military or naval reservation or other federal property is located. Such population estimate produced by the Weldon Cooper Center for Public Service of the University of Virginia shall account for members of the military services who are under 20 years of age within the school division in which the parents or guardians of such persons legally reside. Such population estimate produced by the Weldon Cooper Center for Public Service of the University of Virginia shall account for individuals receiving services in state hospitals, state training centers, or mental health facilities, persons who are confined in state or federal correctional institutions, or persons who attend the Virginia School for the Deaf and the Blind or the Virginia Virtual School within the school division in which the parents or guardians of such persons legally reside. Such population estimate produced by the Weldon Cooper Center for Public Service of the University of Virginia shall account for persons who attend institutions of higher education within the school division in which the student's parents or guardians legally reside. To such estimate, the Department of Education shall add the population of students with disabilities, ages two through four and 20 through 21, as provided to the Department of Education by school divisions. The revenue so apportionable and distributable is hereby appropriated to the several counties and cities for maintenance, operation, capital outlays, debt and interest payments, or other expenses incurred in the operation of the public schools, which shall be considered as funds raised from local resources. In any county, however, wherein is situated any incorporated town constituting a school division, the county treasurer shall pay into the town treasury for maintenance, operation, capital outlays, debt and interest payments, or other expenses incurred in the operation of the public schools, the proper proportionate amount received by him in the ratio that the school population of such town bears to the school population of the entire county. If the school population of any city or of any town constituting a school division is increased by the annexation of territory since the last estimate of school population provided by the Weldon Cooper Center for Public Service, such increase shall, for the purposes of this section, be added to the school population of such city or town as

shown by the last such estimate and a proper reduction made in the school population of the county or counties from which the annexed territory was acquired.

E. Beginning July 1, 2000, of the remaining sales and use tax revenue, the revenue generated by a two percent sales and use tax, up to an annual amount of \$13 million, collected from the sales of hunting equipment, auxiliary hunting equipment, fishing equipment, auxiliary fishing equipment, wildlife-watching equipment, and auxiliary wildlife-watching equipment in Virginia, as estimated by the most recent U.S. Department of the Interior, Fish and Wildlife Service and U.S. Department of Commerce, Bureau of the Census National Survey of Fishing, Hunting, and Wildlife-Associated Recreation, shall be paid into the Game Protection Fund established under § 29.1-101 and shall be used, in part, to defray the cost of law enforcement. Not later than 30 days after the close of each quarter, the Comptroller shall transfer to the Game Protection Fund the appropriate amount of collections to be dedicated to such Fund. At any time that the balance in the Capital Improvement Fund, established under § 29.1-101.01, is equal to or in excess of \$35 million, any portion of sales and use tax revenues that would have been transferred to the Game Protection Fund, established under § 29.1-101, in excess of the net operating expenses of the Board, after deduction of other amounts which accrue to the Board and are set aside for the Game Protection Fund, shall remain in the general fund until such time as the balance in the Capital Improvement Fund is less than \$35 million.

F. 1. Of the net revenue generated from the one-half percent increase in the rate of the state sales and use tax effective August 1, 2004, pursuant to enactments of the 2004 Special Session I of the General Assembly, the Comptroller shall transfer from the general fund of the state treasury to the Public Education Standards of Quality/Local Real Estate Property Tax Relief Fund established under § 58.1-638.1 an amount equivalent to one-half of the net revenue generated from such one-half percent increase as provided in this subdivision. The transfers to the Public Education Standards of Quality/Local Real Estate Property Tax Relief Fund under this subdivision shall be for one-half of the net revenue generated (and collected in the succeeding month) from such one-half percent increase for the month of August 2004 and for each month thereafter.

2. Beginning July 1, 2013, of the remaining sales and use tax revenue, an amount equal to the revenue generated by a 0.125 percent sales and use tax shall be distributed to the Public Education Standards of Quality/Local Real Estate Property Tax Relief Fund established under § 58.1-638.1, and be used for the state's share of Standards of Quality basic aid payments.

3. For the purposes of the Comptroller making the required transfers under subdivision 1 and 2, the Tax Commissioner shall make a written certification to the Comptroller no later than the twenty-fifth of each month certifying the sales and use tax revenues generated in the preceding month. Within three calendar days of receiving such certification, the Comptroller shall make the required transfers to the Public Education Standards of Quality/Local Real Estate Property Tax Relief Fund.

G. (Contingent expiration date - see note) Beginning July 1, 2013, of the remaining sales and use tax revenue, an amount equal to the following percentages of the revenue generated by a one-half percent sales and use tax, such as that paid to the Transportation Trust Fund as provided in subdivision A 1, shall be paid to the Highway Maintenance and Operating Fund established pursuant to § 33.2-1530:

1. For fiscal year 2014, an amount equal to 10 percent;
2. For fiscal year 2015, an amount equal to 20 percent;
3. For fiscal year 2016, an amount equal to 30 percent; and
4. For fiscal year 2017 and thereafter, an amount equal to 35 percent.

The Highway Maintenance and Operating Fund's share of the net revenue distributable under this subsection shall be computed as an estimate of the net revenue to be received into the state treasury each month, and such estimated payment shall be adjusted for the actual net revenue received in the preceding month. All payments shall be made to the Fund on the last day of each month.

H. (Contingent expiration date - see note) 1. The additional revenue generated by increases in the state sales and use tax from Planning District 8 pursuant to §§ 58.1-603.1, 58.1-604.01, 58.1-604.1, and 58.1-614 shall be deposited by the Comptroller in the fund established under § 33.2-2509.

2. The additional revenue generated by increases in the state sales and use tax from Planning District 23 pursuant to §§ 58.1-603.1, 58.1-604.01, 58.1-604.1, and 58.1-614 shall be deposited by the Comptroller in the fund established under § 33.2-2600.

3. The additional revenue generated by increases in the state sales and use tax in any other Planning District pursuant to §§ 58.1-603.1, 58.1-604.01, 58.1-604.1, and 58.1-614 shall be deposited into special funds that shall be established by appropriate legislation.

4. The net revenues distributable under this subsection shall be computed as an estimate of the net revenue to be received by the state treasury each month, and such estimated payment shall be adjusted for the actual net revenue received in the preceding month. All payments shall be made to the appropriate funds on the last day of each month.

I. If errors are made in any distribution, or adjustments are otherwise necessary, the errors shall be corrected and adjustments made in the distribution for the next quarter or for subsequent quarters.

J. The term "net revenue," as used in this section, means the gross revenue received into the general fund or the Transportation Trust Fund of the state treasury under the preceding sections of this chapter, less refunds to taxpayers.

**2. That the initial appointments of nonlegislative citizen members shall be staggered as follows: three nonlegislative citizen members for terms of four years, two nonlegislative citizen members for terms of three years, and one nonlegislative citizen member for a term of two years, to be appointed by the Governor, subject to confirmation by the General Assembly. Thereafter, appointments shall be for terms of four years.**

3. That the provisions of this act shall become effective on July 1, 2016, and only if reenacted by the 2016 Session of the General Assembly.

## CHAPTER 701

*An Act to amend and reenact §§ 22.1-79.1 and 22.1-253.13:4 of the Code of Virginia, relating to graduation requirements; local alternative paths to standard units of credit.*

[H 1675]

Approved March 27, 2015

**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 22.1-79.1 and 22.1-253.13:4 of the Code of Virginia are amended and reenacted as follows:**

**§ 22.1-79.1. Opening of the school year; approvals for certain alternative schedules.**

A. Each local school board shall set the school calendar so that the first day students are required to attend school shall be after Labor Day. The Board of Education may waive this requirement based on a school board certifying that it meets one of the good cause requirements of subsection B.

B. For purposes of this section, "good cause" means:

1. A school division has been closed an average of eight days per year during any five of the last 10 years because of severe weather conditions, energy shortages, power failures, or other emergency situations;

2. A school division is providing, in the school year for which the waiver is sought, an instructional program or programs in one or more of its elementary or middle or high schools, excluding Virtual Virginia, which are dependent on and provided in one or more elementary or middle or high schools of another school division that qualifies for such waiver. However, any waiver granted by the Board of Education pursuant to this subdivision shall only apply to the opening date for those schools where such dependent programs are provided;

3. A school division is providing its students, in the school year for which the waiver is sought, with an experimental or innovative program which requires an earlier opening date than that established in subsection A of this section and which has been approved by the Department of Education pursuant to the regulations of the Board of Education establishing standards for accrediting public schools. However, any waiver or extension of the school year granted by the Board of Education pursuant to this subdivision or its standards for accrediting public schools for such an experimental or innovative program shall only apply to the opening date for those schools where such experimental or innovative programs are offered generally to the student body of the school. For the purposes of this subdivision, experimental or innovative programs shall include instructional programs that are offered on a year-round basis by the school division in one or more of its elementary or middle or high schools; or

4. A school division is entirely surrounded by a school division that has an opening date prior to Labor Day in the school year for which the waiver is sought. Such school division may open schools on the same opening date as the surrounding school division.

C. Individual schools may propose, and local school boards may approve, pursuant to guidelines developed by the Board of Education, alternative school schedule plans providing for the operation of schools on a four-day weekly calendar, so long as a minimum of 990 hours of instructional time is provided for grades one through twelve and 540 hours for kindergarten. ~~No alternative plan that reduces the instructional time in the core academics of English, mathematics, social studies, and science shall be approved.~~

**§ 22.1-253.13:4. Standard 4. Student achievement and graduation requirements.**

A. Each local school board shall award diplomas to all secondary school students, including students who transfer from nonpublic schools or from home instruction, who earn the units of credit prescribed by the Board of Education, pass the prescribed tests, and meet such other requirements as may be prescribed by the local school board and approved by the Board of Education. Provisions shall be made to facilitate the transfer and appropriate grade placement of students from other public secondary schools, from nonpublic schools, or from home instruction as outlined in the standards for accreditation. Course credits earned for online courses taken in the Department of Education's Virtual Virginia program shall transfer to Virginia public schools in accordance with provisions of the standards for accreditation. Further, reasonable accommodation to meet the requirements for diplomas shall be provided for otherwise qualified students with disabilities as needed.

In addition, each local school board may devise, vis-a-vis the award of diplomas to secondary school students, a mechanism for calculating class rankings that takes into consideration whether the student has taken a required class more than one time and has had any prior earned grade for such required class expunged.

Each local school board shall notify the parents of rising eleventh and twelfth grade students of (i) the number and subject area requirements of standard and verified units of credit required for graduation pursuant to the standards for accreditation and (ii) the remaining number and subject area requirements of such units of credit the individual student requires for graduation.

B. Students identified as disabled who complete the requirements of their individualized education programs shall be awarded special diplomas by local school boards.

Each local school board shall notify the parent of such students with disabilities who have an individualized education program and who fail to meet the requirements for a standard or advanced studies diploma of the student's right to a free and appropriate education to age 21, inclusive, pursuant to Article 2 (§ 22.1-213 et seq.) of Chapter 13.

C. Students who have completed a prescribed course of study as defined by the local school board shall be awarded certificates of program completion by local school boards if they are not eligible to receive a Board of Education-approved diploma.

Each local school board shall provide notification of the right to a free public education for students who have not reached 20 years of age on or before August 1 of the school year, pursuant to Chapter 1 (§ 22.1-1 et seq.), to the parent of students who fail to graduate or who have failed to achieve the number of verified units of credit required for graduation as provided in the standards for accreditation. If such student who does not graduate or achieve such verified units of credit is a student for whom English is a second language, the local school board shall notify the parent of the student's opportunity for a free public education in accordance with § 22.1-5.

D. In establishing course and credit requirements for a high school diploma, the Board shall:

1. Provide for the selection of integrated learning courses meeting the Standards of Learning and approved by the Board to satisfy graduation credit requirements, which shall include Standards of Learning testing, as necessary.

2. Establish the requirements for a standard and an advanced studies high school diploma, which shall each include at least one credit in fine or performing arts or career and technical education and one credit in United States and Virginia history. The requirements for a standard high school diploma shall, however, include at least two sequential electives chosen from a concentration of courses selected from a variety of options that may be planned to ensure the completion of a focused sequence of elective courses. Such focused sequence of elective courses shall provide a foundation for further education or training or preparation for employment. The advanced studies diploma shall be the recommended diploma for students pursuing baccalaureate study. Both the standard and the advanced studies diploma shall prepare students for post-secondary education and the career readiness required by the Commonwealth's economy.

Beginning with first-time ninth grade students in the 2013-2014 school year, requirements for the standard diploma shall include a requirement to earn a career and technical education credential that has been approved by the Board, that could include, but not be limited to, the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, or the Virginia workplace readiness skills assessment.

Beginning with first-time ninth grade students in the 2016-2017 school year, requirements for the standard and advanced diplomas shall include a requirement to be trained in emergency first aid, cardiopulmonary resuscitation, and the use of automated external defibrillators, including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation.

The Board shall make provision in its regulations for students with disabilities to earn a standard diploma.

3. Provide, in the requirements to earn a standard or advanced studies diploma, the successful completion of one virtual course. The virtual course may be a noncredit-bearing course.

4. Provide, in the requirements for the verified units of credit stipulated for obtaining the standard or advanced studies diploma, that students completing elective classes into which the Standards of Learning for any required course have been integrated may take the relevant Standards of Learning test for the relevant required course and receive, upon achieving a satisfactory score on the specific Standards of Learning assessment, a verified unit of credit for such elective class that shall be deemed to satisfy the Board's requirement for verified credit for the required course.

5. Establish a procedure to facilitate the acceleration of students that allows qualified students, with the recommendation of the division superintendent, without completing the 140-hour class, to obtain credit for such class upon demonstration of mastery of the course content and objectives. Having received credit for the course, the student shall be permitted to sit for the relevant Standards of Learning assessment and, upon receiving a passing score, shall earn a verified credit. Nothing in this section shall preclude relevant school division personnel from enforcing compulsory attendance in public schools.

6. Provide for the award of verified units of credit for passing scores on industry certifications, state licensure examinations, and national occupational competency assessments approved by the Board of Education.

School boards shall report annually to the Board of Education the number of Board-approved industry certifications obtained, state licensure examinations passed, national occupational competency assessments passed, Virginia workplace readiness skills assessments passed, and the number of career and technical education completers who graduated. These numbers shall be reported as separate categories on the School Performance Report Card.

For the purposes of this subdivision, "career and technical education completer" means a student who has met the requirements for a career and technical concentration or specialization and all requirements for high school graduation or an approved alternative education program.

In addition, the Board may:

a. For the purpose of awarding verified units of credit, approve the use of additional or substitute tests for the correlated Standards of Learning assessment, such as academic achievement tests, industry certifications or state licensure examinations; and

b. Permit students completing career and technical education programs designed to enable such students to pass such industry certification examinations or state licensure examinations to be awarded, upon obtaining satisfactory scores on such industry certification or licensure examinations, the appropriate verified units of credit for one or more career and

technical education classes into which relevant Standards of Learning for various classes taught at the same level have been integrated. Such industry certification and state licensure examinations may cover relevant Standards of Learning for various required classes and may, at the discretion of the Board, address some Standards of Learning for several required classes.

7. Provide for the waiver of certain graduation requirements (i) upon the Board's initiative or (ii) at the request of a local school board. Such waivers shall be granted only for good cause and shall be considered on a case-by-case basis.

8. Consider all computer science course credits earned by students to be science course credits, mathematics course credits, or career and technical education credits. The Board of Education shall develop guidelines addressing how computer science courses can satisfy graduation requirements.

9. *Permit local school divisions to waive the requirement for students to receive 140 clock hours of instruction to earn a standard unit of credit upon providing the Board with satisfactory proof, based on Board guidelines, that the students for whom such requirements are waived have learned the content and skills included in the relevant Standards of Learning.*

E. In the exercise of its authority to recognize exemplary academic performance by providing for diploma seals, the Board of Education shall develop criteria for recognizing exemplary performance in career and technical education programs by students who have completed the requirements for a Board of Education-approved diploma and shall award seals on the diplomas of students meeting such criteria.

In addition, the Board shall establish criteria for awarding a diploma seal for advanced mathematics and technology for the Board of Education-approved diplomas. The Board shall consider including criteria for (i) technology courses; (ii) technical writing, reading, and oral communication skills; (iii) technology-related training; and (iv) industry, professional, and trade association national certifications.

The Board shall also establish criteria for awarding a diploma seal for excellence in civics education and understanding of our state and federal constitutions and the democratic model of government for the Board of Education-approved diplomas. The Board shall consider including criteria for (i) successful completion of history, government, and civics courses, including courses that incorporate character education; (ii) voluntary participation in community service or extracurricular activities that includes the types of activities that shall qualify as community service and the number of hours required; and (iii) related requirements as it deems appropriate.

F. The Board shall establish, by regulation, requirements for the award of a general achievement adult high school diploma for those persons who are not subject to the compulsory school attendance requirements of § 22.1-254 and have (i) achieved a passing score on a high school equivalency examination approved by the Board of Education; (ii) successfully completed an education and training program designated by the Board of Education; (iii) earned a Board of Education-approved career and technical education credential such as the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, or the Virginia workplace readiness skills assessment; and (iv) satisfied other requirements as may be established by the Board for the award of such diploma.

G. To ensure the uniform assessment of high school graduation rates, the Board shall collect, analyze, and report high school graduation and dropout data using a formula prescribed by the Board.

The Board may promulgate such regulations as may be necessary and appropriate for the collection, analysis, and reporting of such data.

## CHAPTER 702

*An Act to amend and reenact §§ 22.1-79.1 and 22.1-253.13:4 of the Code of Virginia, relating to graduation requirements; local alternative paths to standard units of credit.*

[S 982]

Approved March 27, 2015

### **Be it enacted by the General Assembly of Virginia:**

#### **1. That §§ 22.1-79.1 and 22.1-253.13:4 of the Code of Virginia are amended and reenacted as follows:**

##### **§ 22.1-79.1. Opening of the school year; approvals for certain alternative schedules.**

A. Each local school board shall set the school calendar so that the first day students are required to attend school shall be after Labor Day. The Board of Education may waive this requirement based on a school board certifying that it meets one of the good cause requirements of subsection B.

B. For purposes of this section, "good cause" means:

1. A school division has been closed an average of eight days per year during any five of the last 10 years because of severe weather conditions, energy shortages, power failures, or other emergency situations;

2. A school division is providing, in the school year for which the waiver is sought, an instructional program or programs in one or more of its elementary or middle or high schools, excluding Virtual Virginia, which are dependent on and provided in one or more elementary or middle or high schools of another school division that qualifies for such waiver. However, any waiver granted by the Board of Education pursuant to this subdivision shall only apply to the opening date for those schools where such dependent programs are provided;

3. A school division is providing its students, in the school year for which the waiver is sought, with an experimental or innovative program which requires an earlier opening date than that established in subsection A of this section and which

has been approved by the Department of Education pursuant to the regulations of the Board of Education establishing standards for accrediting public schools. However, any waiver or extension of the school year granted by the Board of Education pursuant to this subdivision or its standards for accrediting public schools for such an experimental or innovative program shall only apply to the opening date for those schools where such experimental or innovative programs are offered generally to the student body of the school. For the purposes of this subdivision, experimental or innovative programs shall include instructional programs that are offered on a year-round basis by the school division in one or more of its elementary or middle or high schools; or

4. A school division is entirely surrounded by a school division that has an opening date prior to Labor Day in the school year for which the waiver is sought. Such school division may open schools on the same opening date as the surrounding school division.

C. Individual schools may propose, and local school boards may approve, pursuant to guidelines developed by the Board of Education, alternative school schedule plans providing for the operation of schools on a four-day weekly calendar, so long as a minimum of 990 hours of instructional time is provided for grades one through twelve and 540 hours for kindergarten. ~~No alternative plan that reduces the instructional time in the core academics of English, mathematics, social studies, and science shall be approved.~~

**§ 22.1-253.13:4. Standard 4. Student achievement and graduation requirements.**

A. Each local school board shall award diplomas to all secondary school students, including students who transfer from nonpublic schools or from home instruction, who earn the units of credit prescribed by the Board of Education, pass the prescribed tests, and meet such other requirements as may be prescribed by the local school board and approved by the Board of Education. Provisions shall be made to facilitate the transfer and appropriate grade placement of students from other public secondary schools, from nonpublic schools, or from home instruction as outlined in the standards for accreditation. Course credits earned for online courses taken in the Department of Education's Virtual Virginia program shall transfer to Virginia public schools in accordance with provisions of the standards for accreditation. Further, reasonable accommodation to meet the requirements for diplomas shall be provided for otherwise qualified students with disabilities as needed.

In addition, each local school board may devise, vis-a-vis the award of diplomas to secondary school students, a mechanism for calculating class rankings that takes into consideration whether the student has taken a required class more than one time and has had any prior earned grade for such required class expunged.

Each local school board shall notify the parents of rising eleventh and twelfth grade students of (i) the number and subject area requirements of standard and verified units of credit required for graduation pursuant to the standards for accreditation and (ii) the remaining number and subject area requirements of such units of credit the individual student requires for graduation.

B. Students identified as disabled who complete the requirements of their individualized education programs shall be awarded special diplomas by local school boards.

Each local school board shall notify the parent of such students with disabilities who have an individualized education program and who fail to meet the requirements for a standard or advanced studies diploma of the student's right to a free and appropriate education to age 21, inclusive, pursuant to Article 2 (§ 22.1-213 et seq.) of Chapter 13.

C. Students who have completed a prescribed course of study as defined by the local school board shall be awarded certificates of program completion by local school boards if they are not eligible to receive a Board of Education-approved diploma.

Each local school board shall provide notification of the right to a free public education for students who have not reached 20 years of age on or before August 1 of the school year, pursuant to Chapter 1 (§ 22.1-1 et seq.), to the parent of students who fail to graduate or who have failed to achieve the number of verified units of credit required for graduation as provided in the standards for accreditation. If such student who does not graduate or achieve such verified units of credit is a student for whom English is a second language, the local school board shall notify the parent of the student's opportunity for a free public education in accordance with § 22.1-5.

E. When necessary, each institution shall submit to the Governor and the General Assembly for approval a plan that reduces the subsidy in accordance with targets outlined in the plan over a five-year period until the subsidy percentage complies with the requirements of subsection C.

F. The Auditor of Public Accounts shall annually review each institution's progress towards meeting the requirements of each plan approved pursuant to subsection E as part of his annual audit pursuant to § 30-133.
