"Health insurance coverage" means benefits consisting of coverage for costs of medical care, whether directly, through insurance or reimbursement, or otherwise, and including items and services paid for as medical care under a group policy of accident and sickness insurance, hospital or medical service policy or certificate, hospital or medical service plan contract, or health maintenance organization contract, which coverage is subject to this title or is provided under a plan regulated under the Employee Retirement Income Security Act of 1974.

"Health insurer" means any insurance company that issues accident and sickness insurance policies providing hospital, medical and surgical, or major medical coverage on an expense-incurred basis, a corporation that provides accident and sickness subscription contracts, or any health maintenance organization that provides a health care plan that provides, arranges for, pays for, or reimburses any part of the cost of any health care services, that is licensed to engage in such business in the Commonwealth, and that is subject to the laws of the Commonwealth that regulate insurance within the meaning of § 514(b)(2) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. § 1144 (b)(2)).

CHAPTER 3

An Act to amend and reenact § 56-585.1 of the Code of Virginia, relating to electric utility ratemaking; recovery of costs of facilities.

[H 1220]

Approved February 12, 2016

Be it enacted by the General Assembly of Virginia:

1. That § 56-585.1 of the Code of Virginia is amended and reenacted as follows:

§ 56-585.1. Generation, distribution, and transmission rates after capped rates terminate or expire.

A. During the first six months of 2009, the Commission shall, after notice and opportunity for hearing, initiate proceedings to review the rates, terms and conditions for the provision of generation, distribution and transmission services of each investor-owned incumbent electric utility. Such proceedings shall be governed by the provisions of Chapter 10 (§ 56-232 et seq.), except as modified herein. In such proceedings the Commission shall determine fair rates of return on common equity applicable to the generation and distribution services of the utility. In so doing, the Commission may use any methodology to determine such return it finds consistent with the public interest, but such return shall not be set lower than the average of the returns on common equity reported to the Securities and Exchange Commission for the three most recent annual periods for which such data are available by not less than a majority, selected by the Commission as specified in subdivision 2 b, of other investor-owned electric utilities in the peer group of the utility, nor shall the Commission set such return more than 300 basis points higher than such average. The peer group of the utility shall be determined in the manner prescribed in subdivision 2 b. The Commission may increase or decrease such combined rate of return by up to 100 basis points based on the generating plant performance, customer service, and operating efficiency of a utility, as compared to nationally recognized standards determined by the Commission to be appropriate for such purposes. In such a proceeding, the Commission shall determine the rates that the utility may charge until such rates are adjusted. If the Commission finds that the utility's combined rate of return on common equity is more than 50 basis points below the combined rate of return as so determined, it shall be authorized to order increases to the utility's rates necessary to provide the opportunity to fully recover the costs of providing the utility's services and to earn not less than such combined rate of return. If the Commission finds that the utility's combined rate of return on common equity is more than 50 basis points above the combined rate of return as so determined, it shall be authorized either (i) to order reductions to the utility's rates it finds appropriate, provided that the Commission may not order such rate reduction unless it finds that the resulting rates will provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than the fair rates of return on common equity applicable to the generation and distribution services; or (ii) to direct that 60 percent of the amount of the utility's earnings that were more than 50 basis points above the fair combined rate of return for calendar year 2008 be credited to customers' bills, in which event such credits shall be amortized over a period of six to 12 months, as determined at the discretion of the Commission, following the effective date of the Commission's order and be allocated among customer classes such that the relationship between the specific customer class rates of return to the overall target rate of return will have the same relationship as the last approved allocation of revenues used to design base rates. Commencing in 2011, the Commission, after notice and opportunity for hearing, shall conduct biennial reviews of the rates, terms and conditions for the provision of generation, distribution and transmission services by each investor-owned incumbent electric utility, subject to the following provisions:

1. Rates, terms and conditions for each service shall be reviewed separately on an unbundled basis, and such reviews shall be conducted in a single, combined proceeding. The first such review shall utilize the two successive 12-month test periods ending December 31, 2010. However, the Commission may, in its discretion, elect to stagger its biennial reviews of utilities by utilizing the two successive 12-month test periods ending December 31, 2010, for a Phase I Utility, and utilizing the two successive 12-month test periods ending December 31, 2011, for a Phase II Utility, with subsequent proceedings

utilizing the two successive 12-month test periods ending December 31 immediately preceding the year in which such proceeding is conducted. For purposes of this section, a Phase I Utility is an investor-owned incumbent electric utility that was, as of July 1, 1999, not bound by a rate case settlement adopted by the Commission that extended in its application beyond January 1, 2002, and a Phase II Utility is an investor-owned incumbent electric utility that was bound by such a settlement.

2. Subject to the provisions of subdivision 6, fair rates of return on common equity applicable separately to the generation and distribution services of such utility, and for the two such services combined, shall be determined by the Commission during each such biennial review, as follows:

a. The Commission may use any methodology to determine such return it finds consistent with the public interest, but such return shall not be set lower than the average of the returns on common equity reported to the Securities and Exchange Commission for the three most recent annual periods for which such data are available by not less than a majority, selected by the Commission as specified in subdivision 2 b, of other investor-owned electric utilities in the peer group of the utility subject to such biennial review, nor shall the Commission set such return more than 300 basis points higher than such average.

b. In selecting such majority of peer group investor-owned electric utilities, the Commission shall first remove from such group the two utilities within such group that have the lowest reported returns of the group, as well as the two utilities within such group that have the highest reported returns of the group, and the Commission shall then select a majority of the utilities remaining in such peer group. In its final order regarding such biennial review, the Commission shall identify the utilities in such peer group it selected for the calculation of such limitation. For purposes of this subdivision, an investor-owned electric utility shall be deemed part of such peer group if (i) its principal operations are conducted in the southeastern United States east of the Mississippi River in either the states of West Virginia or Kentucky or in those states south of Virginia, excluding the state of Tennessee, (ii) it is a vertically-integrated electric utility providing generation, transmission and distribution services whose facilities and operations are subject to state public utility regulation in the state where its principal operations are conducted, (iii) it had a long-term bond rating assigned by Moody's Investors Service of at least Baa at the end of the most recent test period subject to such biennial review, and (iv) it is not an affiliate of the utility subject to such biennial review.

c. The Commission may, consistent with its precedent for incumbent electric utilities prior to the enactment of Chapters 888 and 933 of the Acts of Assembly of 2007, increase or decrease the utility's combined rate of return based on the Commission's consideration of the utility's performance.

d. In any Current Proceeding, the Commission shall determine whether the Current Return has increased, on a percentage basis, above the Initial Return by more than the increase, expressed as a percentage, in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, since the date on which the Commission determined the Initial Return. If so, the Commission may conduct an additional analysis of whether it is in the public interest to utilize such Current Return for the Current Proceeding then pending. A finding of whether the Current Return justifies such additional analysis shall be made without regard to any enhanced rate of return on common equity awarded pursuant to the provisions of subdivision 6. Such additional analysis shall include, but not be limited to, a consideration of overall economic conditions, the level of interest rates and cost of capital with respect to business and industry, in general, as well as electric utilities, the current level of inflation and the utility's cost of goods and services, the effect on the utility's ability to provide adequate service and to attract capital if less than the Current Return were utilized for the Current Proceeding then pending, and such other factors as the Commission may deem relevant. If, as a result of such analysis, the Commission finds that use of the Current Return for the Current Proceeding then pending would not be in the public interest, then the lower limit imposed by subdivision 2 a on the return to be determined by the Commission for such utility shall be calculated, for that Current Proceeding only, by increasing the Initial Return by a percentage at least equal to the increase, expressed as a percentage, in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, since the date on which the Commission determined the Initial Return. For purposes of this subdivision:

"Current Proceeding" means any proceeding conducted under any provisions of this subsection that require or authorize the Commission to determine a fair combined rate of return on common equity for a utility and that will be concluded after the date on which the Commission determined the Initial Return for such utility.

"Current Return" means the minimum fair combined rate of return on common equity required for any Current Proceeding by the limitation regarding a utility's peer group specified in subdivision 2 a.

"Initial Return" means the fair combined rate of return on common equity determined for such utility by the Commission on the first occasion after July 1, 2009, under any provision of this subsection pursuant to the provisions of subdivision 2 a.

e. In addition to other considerations, in setting the return on equity within the range allowed by this section, the Commission shall strive to maintain costs of retail electric energy that are cost competitive with costs of retail electric energy provided by the other peer group investor-owned electric utilities.

f. The determination of such returns shall be made by the Commission on a stand-alone basis, and specifically without regard to any return on common equity or other matters determined with regard to facilities described in subdivision 6.

g. If the combined rate of return on common equity earned by the generation and distribution services is no more than 50 basis points above or below the return as so determined or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, such return is no more than 70 basis points above or below the return as so determined, such combined return shall not be considered either excessive or insufficient, respectively. However, for any test period commencing after December 31, 2012, for a Phase II Utility, and after December 31, 2013, for a Phase I Utility, if the utility has, during the test period or periods under review, earned below the return as so determined, whether or not such combined return is within 70 basis points of the return as so determined, the utility may petition the Commission for approval of an increase in rates in accordance with the provisions of subdivision 8 a as if it had earned more than 70 basis points below a fair combined rate of return, and such proceeding shall otherwise be conducted in accordance with the provisions of this section.

h. Any amount of a utility's earnings directed by the Commission to be credited to customers' bills pursuant to this section shall not be considered for the purpose of determining the utility's earnings in any subsequent biennial review.

3. Each such utility shall make a biennial filing by March 31 of every other year, beginning in 2011, consisting of the schedules contained in the Commission's rules governing utility rate increase applications; however, if the Commission elects to stagger the dates of the biennial reviews of utilities as provided in subdivision 1, then each Phase I Utility shall commence biennial filings in 2011 and each Phase II Utility shall commence biennial filings in 2012. Such filing shall encompass the two successive 12-month test periods ending December 31 immediately preceding the year in which such proceeding is conducted, and in every such case the filing for each year shall be identified separately and shall be segregated from any other year encompassed by the filing. If the Commission determines that rates should be revised or credits be applied to customers' bills pursuant to subdivision 8 or 9, any rate adjustment clauses previously implemented pursuant to subdivision 5 or those related to facilities utilizing simple-cycle combustion turbines described in subdivision 6, shall be combined with the utility's costs, revenues and investments until the amounts that are the subject of such rate adjustment clauses are fully recovered. The Commission shall combine such clauses with the utility's costs, revenues and investments only after it makes its initial determination with regard to necessary rate revisions or credits to customers' bills, and the amounts thereof, but after such clauses are combined as herein specified, they shall thereafter be considered part of the utility's costs, revenues, and investments for the purposes of future biennial review proceedings. A Phase I Utility shall delay for one year the filing of its biennial review from March 31, 2013, to March 31, 2014, and shall not defer on its books for future recovery any costs incurred during calendar year 2011, other than as provided in subdivision 7 or § 56-249.6, and its subsequent biennial filing shall be made by March 31, 2016, and every two years thereafter.

4. The following costs incurred by the utility shall be deemed reasonable and prudent: (i) costs for transmission services provided to the utility by the regional transmission entity of which the utility is a member, as determined under applicable rates, terms and conditions approved by the Federal Energy Regulatory Commission, and (ii) costs charged to the utility that are associated with demand response programs approved by the Federal Energy Regulatory Commission and administered by the regional transmission entity of which the utility is a member. Upon petition of a utility at any time after the expiration or termination of capped rates, but not more than once in any 12-month period, the Commission shall approve a rate adjustment clause under which such costs, including, without limitation, costs for transmission service, charges for new and existing transmission facilities, administrative charges, and ancillary service charges designed to recover transmission costs, shall be recovered on a timely and current basis from customers. Retail rates to recover these costs shall be designed using the appropriate billing determinants in the retail rate schedules.

5. A utility may at any time, after the expiration or termination of capped rates, but not more than once in any 12-month period, petition the Commission for approval of one or more rate adjustment clauses for the timely and current recovery from customers of the following costs:

a. Incremental costs described in clause (vi) of subsection B of § 56-582 incurred between July 1, 2004, and the expiration or termination of capped rates, if such utility is, as of July 1, 2007, deferring such costs consistent with an order of the Commission entered under clause (vi) of subsection B of § 56-582. The Commission shall approve such a petition allowing the recovery of such costs that comply with the requirements of clause (vi) of subsection B of § 56-582;

b. Projected and actual costs for the utility to design and operate fair and effective peak-shaving programs. The Commission shall approve such a petition if it finds that the program is in the public interest; provided that the Commission shall allow the recovery of such costs as it finds are reasonable;

c. Projected and actual costs for the utility to design, implement, and operate energy efficiency programs, including a margin to be recovered on operating expenses, which margin for the purposes of this section shall be equal to the general rate of return on common equity determined as described in subdivision 2. The Commission shall only approve such a petition if it finds that the program is in the public interest. As part of such cost recovery, the Commission, if requested by the utility, shall allow for the recovery of revenue reductions related to energy efficiency programs. The Commission shall only allow such recovery to the extent that the Commission determines such revenue has not been recovered through margins from incremental off-system sales as defined in § 56-249.6 that are directly attributable to energy efficiency programs.

None of the costs of new energy efficiency programs of an electric utility, including recovery of revenue reductions, shall be assigned to any customer that has a verifiable history of having used more than 10 megawatts of demand from a single meter of delivery. Nor shall any of the costs of new energy efficiency programs of an electric utility, including recovery of revenue reductions, be incurred by any large general service customer as defined herein that has notified the

utility of non-participation in such energy efficiency program or programs. A large general service customer is a customer that has a verifiable history of having used more than 500 kilowatts of demand from a single meter of delivery. Non-participation in energy efficiency programs shall be allowed by the Commission if the large general service customer has, at the customer's own expense, implemented energy efficiency programs that have produced or will produce measured and verified results consistent with industry standards and other regulatory criteria stated in this section. The Commission shall, no later than November 15, 2009, promulgate rules and regulations to accommodate the process under which such large general service customers shall file notice for such an exemption and (i) establish the administrative procedures by which eligible customers will notify the utility and (ii) define the standard criteria that must be satisfied by an applicant in order to notify the utility. In promulgating such rules and regulations, the Commission may also specify the timing as to when a utility shall accept and act on such notice, taking into consideration the utility's integrated resource planning process as well as its administration of energy efficiency programs that are approved for cost recovery by the Commission. The notice of non-participation by a large general service customer, to be given by March 1 of a given year, shall be for the duration of the service life of the customer's energy efficiency program. The Commission on its own motion may initiate steps necessary to verify such non-participants' achievement of energy efficiency if the Commission has a body of evidence that the non-participant has knowingly misrepresented its energy efficiency achievement. A utility shall not charge such large general service customer, as defined by the Commission, for the costs of installing energy efficiency equipment beyond what is required to provide electric service and meter such service on the customer's premises if the customer provides, at the customer's expense, equivalent energy efficiency equipment. In all relevant proceedings pursuant to this section, the Commission shall take into consideration the goals of economic development, energy efficiency and environmental protection in the Commonwealth;

d. Projected and actual costs of participation in a renewable energy portfolio standard program pursuant to § 56-585.2 that are not recoverable under subdivision 6. The Commission shall approve such a petition allowing the recovery of such costs as are provided for in a program approved pursuant to § 56-585.2;

e. Projected and actual costs of projects that the Commission finds to be necessary to comply with state or federal environmental laws or regulations applicable to generation facilities used to serve the utility's native load obligations. The Commission shall approve such a petition if it finds that such costs are necessary to comply with such environmental laws or regulations; and

f. Projected and actual costs, not currently in rates, for the utility to design, implement, and operate programs approved by the Commission that accelerate the vegetation management of distribution rights-of-way. No costs shall be allocated to or recovered from customers that are served within the large general service rate classes for a Phase II Utility or that are served at subtransmission or transmission voltage, or take delivery at a substation served from subtransmission or transmission voltage, for a Phase I Utility.

The Commission shall have the authority to determine the duration or amortization period for any adjustment clause approved under this subdivision.

6. To ensure the generation and delivery of a reliable and adequate supply of electricity, to meet the utility's projected native load obligations and to promote economic development, a utility may at any time, after the expiration or termination of capped rates, petition the Commission for approval of a rate adjustment clause for recovery on a timely and current basis from customers of the costs of (i) a coal-fueled generation facility that utilizes Virginia coal and is located in the coalfield region of the Commonwealth, as described in § 15.2-6002, regardless of whether such facility is located within or without the utility's service territory, (ii) one or more other generation facilities, (iii) one or more major unit modifications of generation facilities, or (iv) one or more new underground facilities to replace one or more existing overhead distribution facilities of 69 kilovolts or less located within the Commonwealth; however, subject to the provisions of the following sentence, the utility shall not file a petition under clause (iv) more often than annually and, in such petition, shall not seek any annual incremental increase in the level of investments associated with such a petition that exceeds five percent of such utility's distribution rate base, as such rate base was determined for the most recently ended 12-month test period in the utility's latest biennial review proceeding conducted pursuant to subdivision 3 and concluded by final order of the Commission prior to the date of filing of such petition under clause (iv). In all proceedings regarding petitions filed under clause (iv), the level of investments approved for recovery in such proceedings shall be in addition to, and not in lieu of, levels of investments previously approved for recovery in prior proceedings under clause (iv). Such a petition concerning facilities described in clause (ii) that utilize nuclear power, facilities described in clause (ii) that are coal-fueled and will be built by a Phase I Utility, or facilities described in clause (i) may also be filed before the expiration or termination of capped rates. A utility that constructs or purchases any such generation facility, or purchases any facility consisting of at least one megawatt of generating capacity using energy derived from sunlight and located in the Commonwealth and that utilizes goods or services sourced, in whole or in part, from one or more Virginia businesses, shall have the right to recover the costs of the facility, as accrued against income, through its rates, including projected construction work in progress, and any associated allowance for funds used during construction, planning, development and construction or acquisition costs, life-cycle costs, costs related to assessing the feasibility of potential sites for new underground facilities, and costs of infrastructure associated therewith, plus, as an incentive to undertake such projects, an enhanced rate of return on common equity calculated as specified below; however, in determining the amounts recoverable under a rate adjustment clause for new underground facilities, the Commission shall not consider, or increase or reduce such amounts recoverable because of (a) the operation and maintenance costs attributable to either the overhead distribution facilities being replaced or the new

underground facilities or (b) any other costs attributable to the overhead distribution facilities being replaced. Notwithstanding the preceding sentence, the costs described in clauses (a) and (b) thereof shall remain eligible for recovery from customers through the utility's base rates for distribution service. A utility filing a petition for approval to construct or purchase a facility consisting of at least one megawatt of generating capacity using energy derived from sunlight and located in the Commonwealth and that utilizes goods or services sourced, in whole or in part, from one or more Virginia businesses may propose a rate adjustment clause based on a market index in lieu of a cost of service model for such facility. A utility seeking approval to construct or purchase a generating facility shall demonstrate that it has considered and weighed alternative options, including third-party market alternatives, in its selection process. The costs of the facility, other than return on projected construction work in progress and allowance for funds used during construction, shall not be recovered prior to the date a facility constructed by the utility and described in clause (i), (ii), or (iii) begins commercial operation, the date the utility becomes the owner of a purchased generation facility consisting of at least one megawatt of generating capacity using energy derived from sunlight and located in the Commonwealth and that utilizes goods or services sourced, in whole or in part, from one or more Virginia businesses, or the date new underground facilities are classified by the utility as plant in service. Such enhanced rate of return on common equity shall be applied to allowance for funds used during construction and to construction work in progress during the construction phase of the facility and shall thereafter be applied to the entire facility during the first portion of the service life of the facility. The first portion of the service life shall be as specified in the table below; however, the Commission shall determine the duration of the first portion of the service life of any facility, within the range specified in the table below, which determination shall be consistent with the public interest and shall reflect the Commission's determinations regarding how critical the facility may be in meeting the energy needs of the citizens of the Commonwealth and the risks involved in the development of the facility. After the first portion of the service life of the facility is concluded, the utility's general rate of return shall be applied to such facility for the remainder of its service life. As used herein, the service life of the facility shall be deemed to begin on the date a facility constructed by the utility and described in clause (i), (ii), or (iii) begins commercial operation, the date the utility becomes the owner of a purchased generation facility consisting of at least one megawatt of generating capacity using energy derived from sunlight and located in the Commonwealth and that utilizes goods or services sourced, in whole or in part, from one or more Virginia businesses, or the date new underground facilities are classified by the utility as plant in service, and such service life shall be deemed equal in years to the life of that facility as used to calculate the utility's depreciation expense. Such enhanced rate of return on common equity shall be calculated by adding the basis points specified in the table below to the utility's general rate of return, and such enhanced rate of return shall apply only to the facility that is the subject of such rate adjustment clause. Allowance for funds used during construction shall be calculated for any such facility utilizing the utility's actual capital structure and overall cost of capital, including an enhanced rate of return on common equity as determined pursuant to this subdivision, until such construction work in progress is included in rates. The construction of any facility described in clause (i) is in the public interest, and in determining whether to approve such facility, the Commission shall liberally construe the provisions of this title. The construction or purchase by a utility of one or more generation facilities with at least one megawatt of generating capacity, and with an aggregate rated capacity that does not exceed 500 megawatts, that use energy derived from sunlight and are located in the Commonwealth, regardless of whether any of such facilities are located within or without the utility's service territory, is in the public interest, and in determining whether to approve such facility, the Commission shall liberally construe the provisions of this title. A utility may enter into short-term or long-term power purchase contracts for the power derived from sunlight generated by such generation facility prior to purchasing the generation facility. In determining whether to approve petitions for rate adjustment clauses for new underground facilities, and in determining the level of costs to be recovered thereunder, the Commission shall liberally construe the provisions of this title and shall give due consideration to the public policy goals of increased electric service reliability and reduced outage times associated with the replacement of existing overhead distribution facilities with new underground facilities. The basis points to be added to the utility's general rate of return to calculate the enhanced rate of return on common equity, and the first portion of that facility's service life to which such enhanced rate of return shall be applied, shall vary by type of facility, as specified in the following table:

Type of Generation Facility	Basis Points	First Portion of Service Life
Nuclear-powered	200	Between 12 and 25 years
Carbon capture compatible, clean-coal powered	200	Between 10 and 20 years
Renewable powered, other than landfill gas powered	200	Between 5 and 15 years
Coalbed methane gas powered	150	Between 5 and 15 years
Landfill gas powered	200	Between 5 and 15 years
Conventional coal or combined-cycle combustion turbine	100	Between 10 and 20 years

For generating facilities other than those utilizing nuclear power or those utilizing energy derived from offshore wind, as of July 1, 2013, only those facilities as to which a rate adjustment clause under this subdivision has been previously approved by the Commission, or as to which a petition for approval of such rate adjustment clause was filed with the

Commission, on or before January 1, 2013, shall be entitled to the enhanced rate of return on common equity as specified in the above table during the construction phase of the facility and the approved first portion of its service life.

For generating facilities within the Commonwealth utilizing nuclear power or those utilizing energy derived from offshore wind projects located in waters off the Commonwealth's Atlantic shoreline, such facilities shall continue to be eligible for an enhanced rate of return on common equity during the construction phase of the facility and the approved first portion of its service life of between 12 and 25 years in the case of a facility utilizing nuclear power and for a service life of between 5 and 15 years in the case of a facility utilizing energy derived from offshore wind, provided, however, that, as of July 1, 2013, the enhanced return for such facilities shall be 100 basis points, which shall be added to the utility's general rate of return as determined under subdivision 2. Thirty percent of all costs of such a facility utilizing nuclear power that the utility incurred between July 1, 2007, and December 31, 2013, and all of such costs incurred after December 31, 2013, may be deferred by the utility and recovered through a rate adjustment clause under this subdivision at such time as the Commission provides in an order approving such a rate adjustment clause. The remaining 70 percent of all costs of such a facility that the utility incurred between July 1, 2007, and December 31, 2013, shall not be deferred for recovery through a rate adjustment clause under this subdivision; however, such remaining 70 percent of all costs shall be recovered ratably through existing base rates as determined by the Commission in the test periods under review in the utility's next biennial review filed after July 1, 2014. Thirty percent of all costs of such a facility utilizing energy derived from offshore wind that the utility incurred between July 1, 2007, and December 31, 2013, and all of such costs incurred after December 31, 2013, may be deferred by the utility and recovered through a rate adjustment clause under this subdivision at such time as the Commission provides in an order approving such a rate adjustment clause. The remaining 70 percent of all costs of such a facility that the utility incurred between July 1, 2007, and December 31, 2013, shall not be deferred for recovery through a rate adjustment clause under this subdivision; however, such remaining 70 percent of all costs shall be recovered ratably through existing base rates as determined by the Commission in the test periods under review in the utility's next biennial review filed after July 1, 2014.

In connection with planning to meet forecasted demand for electric generation supply and assure the adequate and sufficient reliability of service, consistent with § 56-598, planning and development activities for a new nuclear generation facility or facilities are in the public interest.

In connection with planning to meet forecasted demand for electric generation supply and assure the adequate and sufficient reliability of service, consistent with § 56-598, planning and development activities for a new utility-owned and utility-operated generating facility or facilities utilizing energy derived from sunlight with an aggregate capacity of 500 megawatts, or from offshore wind, are in the public interest.

Neither generation facilities described in clause (ii) that utilize simple-cycle combustion turbines nor new underground facilities shall receive an enhanced rate of return on common equity as described herein, but instead shall receive the utility's general rate of return during the construction phase of the facility and, thereafter, for the entire service life of the facility. No rate adjustment clause for new underground facilities shall allocate costs to, or provide for the recovery of costs from, customers that are served within the large power service rate class for a Phase I Utility and the large general service rate classes for a Phase II Utility. New underground facilities are hereby declared to be ordinary extensions or improvements in the usual course of business under the provisions of § 56-265.2.

As used in this subdivision, a generation facility is (1) "coalbed methane gas powered" if the facility is fired at least 50 percent by coalbed methane gas, as such term is defined in § 45.1-361.1, produced from wells located in the Commonwealth, and (2) "landfill gas powered" if the facility is fired by methane or other combustible gas produced by the anaerobic digestion or decomposition of biodegradable materials in a solid waste management facility licensed by the Waste Management Board. A landfill gas powered facility includes, in addition to the generation facility itself, the equipment used in collecting, drying, treating, and compressing the landfill gas and in transmitting the landfill gas from the solid waste management facility where it is collected to the generation facility where it is combusted.

For purposes of this subdivision, "general rate of return" means the fair combined rate of return on common equity as it is determined by the Commission from time to time for such utility pursuant to subdivision 2. In any proceeding under this subdivision conducted prior to the conclusion of the first biennial review for such utility, the Commission shall determine a general rate of return for such utility in the same manner as it would in a biennial review proceeding.

Notwithstanding any other provision of this subdivision, if the Commission finds during the biennial review conducted for a Phase II Utility in 2018 that such utility has not filed applications for all necessary federal and state regulatory approvals to construct one or more nuclear-powered or coal-fueled generation facilities that would add a total capacity of at least 1500 megawatts to the amount of the utility's generating resources as such resources existed on July 1, 2007, or that, if all such approvals have been received, that the utility has not made reasonable and good faith efforts to construct one or more such facilities that will provide such additional total capacity within a reasonable time after obtaining such approvals, then the Commission, if it finds it in the public interest, may reduce on a prospective basis any enhanced rate of return on common equity previously applied to any such facility to no less than the general rate of return for such utility and may apply no less than the utility's general rate of return to any such facility for which the utility seeks approval in the future under this subdivision.

7. Any petition filed pursuant to subdivision 4, 5, or 6 shall be considered by the Commission on a stand-alone basis without regard to the other costs, revenues, investments, or earnings of the utility. Any costs incurred by a utility prior to the filing of such petition, or during the consideration thereof by the Commission, that are proposed for recovery in such

petition and that are related to subdivision 5 a, or that are related to facilities and projects described in clause (i) of subdivision 6, or that are related to new underground facilities described in clause (iv) of subdivision 6, shall be deferred on the books and records of the utility until the Commission's final order in the matter, or until the implementation of any applicable approved rate adjustment clauses, whichever is later. Except as otherwise provided in subdivision 6, any costs prudently incurred on or after July 1, 2007, by a utility prior to the filing of such petition, or during the consideration thereof by the Commission, that are proposed for recovery in such petition and that are related to facilities and projects described in clause (ii) of subdivision 6 that utilize nuclear power, or coal-fueled facilities and projects described in clause (ii) of subdivision 6 if such coal-fueled facilities will be built by a Phase I Utility, shall be deferred on the books and records of the utility until the Commission's final order in the matter, or until the implementation of any applicable approved rate adjustment clauses, whichever is later. Any costs prudently incurred after the expiration or termination of capped rates related to other matters described in subdivision 4, 5, or 6 shall be deferred beginning only upon the expiration or termination of capped rates, provided, however, that no provision of this act shall affect the rights of any parties with respect to the rulings of the Federal Energy Regulatory Commission in PJM Interconnection LLC and Virginia Electric and Power Company, 109 F.E.R.C. P 61,012 (2004). A utility shall establish a regulatory asset for regulatory accounting and ratemaking purposes under which it shall defer its operation and maintenance costs incurred in connection with (i) the refueling of any nuclear-powered generating plant and (ii) other work at such plant normally performed during a refueling outage. The utility shall amortize such deferred costs over the refueling cycle, but in no case more than 18 months, beginning with the month in which such plant resumes operation after such refueling. The refueling cycle shall be the applicable period of time between planned refueling outages for such plant. As of January 1, 2014, such amortized costs are a component of base rates, recoverable in base rates only ratably over the refueling cycle rather than when such outages occur, and are the only nuclear refueling costs recoverable in base rates. This provision shall apply to any nuclear-powered generating plant refueling outage commencing after December 31, 2013, and the Commission shall treat the deferred and amortized costs of such regulatory asset as part of the utility's costs for the purpose of proceedings conducted (a) with respect to biennial filings under subdivision 3 made on and after July 1, 2014, and (b) pursuant to § 56-245 or the Commission's rules governing utility rate increase applications as provided in subsection B. This provision shall not be deemed to change or reset base rates.

The Commission's final order regarding any petition filed pursuant to subdivision 4, 5, or 6 shall be entered not more than three months, eight months, and nine months, respectively, after the date of filing of such petition. If such petition is approved, the order shall direct that the applicable rate adjustment clause be applied to customers' bills not more than 60 days after the date of the order, or upon the expiration or termination of capped rates, whichever is later.

8. In any biennial review proceeding, the following utility generation and distribution costs not proposed for recovery under any other subdivision of this subsection, as recorded per books by the utility for financial reporting purposes and accrued against income, shall be attributed to the test periods under review: costs associated with asset impairments related to early retirement determinations made by the utility prior to December 31, 2012, for utility generation plant; costs associated with severe weather events; and costs associated with natural disasters. Such costs shall be deemed to have been recovered from customers through rates for generation and distribution services in effect during the test periods under review unless such costs, individually or in the aggregate, together with the utility's other costs, revenues, and investments to be recovered through rates for generation and distribution services, result in the utility's earned return on its generation and distribution services for the combined test periods under review to fall more than 50 basis points below the fair combined rate of return authorized under subdivision 2 for such periods or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, to fall more than 70 basis points below the fair combined rate of return authorized under subdivision 2 for such periods. In such cases, the Commission shall, in such biennial review proceeding, authorize deferred recovery of such costs and allow the utility to amortize and recover such deferred costs over future periods as determined by the Commission. The aggregate amount of such deferred costs shall not exceed an amount that would, together with the utility's other costs, revenues, and investments to be recovered through rates for generation and distribution services, cause the utility's earned return on its generation and distribution services to exceed the fair rate of return authorized under subdivision 2, less 50 basis points, for the combined test periods under review or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, to exceed the fair rate of return authorized under subdivision 2 less 70 basis points. Nothing in this section shall limit the Commission's authority, pursuant to the provisions of Chapter 10 (§ 56-232 et seq.), including specifically § 56-235.2, following the review of combined test period earnings of the utility in a biennial review, for normalization of nonrecurring test period costs and annualized adjustments for future costs, in determining any appropriate increase or decrease in the utility's rates for generation and distribution services pursuant to subdivision 8 a or 8 c.

If the Commission determines as a result of such biennial review that:

a. The utility has, during the test period or periods under review, considered as a whole, earned more than 50 basis points below a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points below a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, the Commission shall order increases to the utility's rates necessary to provide the opportunity to fully recover the costs of providing the utility's services and to earn not less than such fair combined rate of return, using the most recently ended

12-month test period as the basis for determining the amount of the rate increase necessary. However, the Commission may not order such rate increase unless it finds that the resulting rates are necessary to provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than a fair combined rate of return on both its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, using the most recently ended 12-month test period as the basis for determining the permissibility of any rate increase under the standards of this sentence, and the amount thereof;

b. The utility has, during the test period or test periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, the Commission shall, subject to the provisions of subdivision 9, direct that 60 percent of the amount of such earnings that were more than 50 basis points, or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, that 70 percent of the amount of such earnings that were more than 70 basis points, above such fair combined rate of return for the test period or periods under review, considered as a whole, shall be credited to customers' bills. Any such credits shall be amortized over a period of six to 12 months, as determined at the discretion of the Commission, following the effective date of the Commission's order, and shall be allocated among customer classes such that the relationship between the specific customer class rates of return to the overall target rate of return will have the same relationship as the last approved allocation of revenues used to design base rates; or

c. Such biennial review is the second consecutive biennial review in which the utility has, during the test period or test periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matter determined with respect to facilities described in subdivision 6, the Commission shall, subject to the provisions of subdivision 9 and in addition to the actions authorized in subdivision b, also order reductions to the utility's rates it finds appropriate. However, the Commission may not order such rate reduction unless it finds that the resulting rates will provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, using the most recently ended 12-month test period as the basis for determining the permissibility of any rate reduction under the standards of this sentence, and the amount thereof.

The Commission's final order regarding such biennial review shall be entered not more than eight months after the date of filing, and any revisions in rates or credits so ordered shall take effect not more than 60 days after the date of the order. The fair combined rate of return on common equity determined pursuant to subdivision 2 in such biennial review shall apply, for purposes of reviewing the utility's earnings on its rates for generation and distribution services, to the entire two successive 12-month test periods ending December 31 immediately preceding the year of the utility's subsequent biennial review filing under subdivision 3.

9. If, as a result of a biennial review required under this subsection and conducted with respect to any test period or periods under review ending later than December 31, 2010 (or, if the Commission has elected to stagger its biennial reviews of utilities as provided in subdivision 1, under review ending later than December 31, 2010, for a Phase I Utility, or December 31, 2011, for a Phase II Utility), the Commission finds, with respect to such test period or periods considered as a whole, that (i) any utility has, during the test period or periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, and (ii) the total aggregate regulated rates of such utility at the end of the most recently-ended 12-month test period exceeded the annual increases in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, compounded annually, when compared to the total aggregate regulated rates of such utility as determined pursuant to the biennial review conducted for the base period, the Commission shall, unless it finds that such action is not in the public interest or that the provisions of subdivisions 8 b and c are more consistent with the public interest, direct that any or all earnings for such test period or periods under review, considered as a whole that were more than 50 basis points, or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points, above such fair combined rate of return shall be credited to customers' bills, in lieu of the provisions of subdivisions 8 b and c. Any such credits shall be amortized and allocated among customer classes in the manner provided by subdivision 8 b. For purposes of this subdivision:

"Base period" means (i) the test period ending December 31, 2010 (or, if the Commission has elected to stagger its biennial reviews of utilities as provided in subdivision 1, the test period ending December 31, 2010, for a Phase I Utility, or

December 31, 2011, for a Phase II Utility), or (ii) the most recent test period with respect to which credits have been applied to customers' bills under the provisions of this subdivision, whichever is later.

"Total aggregate regulated rates" shall include: (i) fuel tariffs approved pursuant to § 56-249.6, except for any increases in fuel tariffs deferred by the Commission for recovery in periods after December 31, 2010, pursuant to the provisions of clause (ii) of subsection C of § 56-249.6; (ii) rate adjustment clauses implemented pursuant to subdivision 4 or 5; (iii) revisions to the utility's rates pursuant to subdivision 8 a; (iv) revisions to the utility's rates pursuant to the Commission's rules governing utility rate increase applications, as permitted by subsection B, occurring after July 1, 2009; and (v) base rates in effect as of July 1, 2009.

10. For purposes of this section, the Commission shall regulate the rates, terms and conditions of any utility subject to this section on a stand-alone basis utilizing the actual end-of-test period capital structure and cost of capital of such utility, unless the Commission finds that the debt to equity ratio of such capital structure is unreasonable for such utility, in which case the Commission may utilize a debt to equity ratio that it finds to be reasonable for such utility in determining any rate adjustment pursuant to subdivisions 8 a and c, and without regard to the cost of capital, capital structure, revenues, expenses or investments of any other entity with which such utility may be affiliated. In particular, and without limitation, the Commission shall determine the federal and state income tax costs for any such utility that is part of a publicly traded, consolidated group as follows: (i) such utility's apportioned state income tax costs shall be calculated according to the applicable statutory rate, as if the utility had not filed a consolidated return with its affiliates, and (ii) such utility's federal income tax costs shall be calculated according to the applicable federal income tax rate and shall exclude any consolidated tax liability or benefit adjustments originating from any taxable income or loss of its affiliates.

B. Nothing in this section shall preclude an investor-owned incumbent electric utility from applying for an increase in rates pursuant to § 56-245 or the Commission's rules governing utility rate increase applications; however, in any such filing, a fair rate of return on common equity shall be determined pursuant to subdivision A 2. Nothing in this section shall preclude such utility's recovery of fuel and purchased power costs as provided in § 56-249.6.

C. Except as otherwise provided in this section, the Commission shall exercise authority over the rates, terms and conditions of investor-owned incumbent electric utilities for the provision of generation, transmission and distribution services to retail customers in the Commonwealth pursuant to the provisions of Chapter 10 (§ 56-232 et seq.), including specifically § 56-235.2.

D. The Commission may determine, during any proceeding authorized or required by this section, the reasonableness or prudence of any cost incurred or projected to be incurred, by a utility in connection with the subject of the proceeding. A determination of the Commission regarding the reasonableness or prudence of any such cost shall be consistent with the Commission's authority to determine the reasonableness or prudence of costs in proceedings pursuant to the provisions of Chapter 10 (§ 56-232 et seq.). In determining the reasonableness or prudence of a utility providing energy and capacity to its customers from renewable energy resources, the Commission shall consider the extent to which such renewable energy resources, whether utility-owned or by contract, further the objectives of the Commonwealth Energy Policy set forth in §§ 67-101 and 67-102, and shall also consider whether the costs of such resources is likely to result in unreasonable increases in rates paid by consumers.

E. The Commission shall promulgate such rules and regulations as may be necessary to implement the provisions of this section.

2. That the provisions of this act are declaratory of existing law.

3. That the provisions of this act shall apply to any petition or application filed before the State Corporation Commission on or after July 1, 2015.

4. That an emergency exists and this act is in force from its passage.

CHAPTER 4

An Act to amend and reenact §§ 38.2-231, 38.2-2113, and 38.2-2208 of the Code of Virginia, relating to notices relating to certain insurance policies.

[H 31]

Approved February 23, 2016

Be it enacted by the General Assembly of Virginia:

1. That §§ 38.2-231, 38.2-2113, and 38.2-2208 of the Code of Virginia are amended and reenacted as follows:

§ 38.2-231. Notice of cancellation, refusal to renew, reduction in coverage or increase in premium of certain liability insurance policies.

A. 1. No cancellation or refusal to renew by an insurer of (i) a policy of insurance as defined in § 38.2-117 or 38.2-118 insuring a business entity; (ii) a policy of insurance that includes as a part thereof insurance as defined in § 38.2-117 or 38.2-118 insuring a business entity; (iii) a policy of motor vehicle insurance against legal liability of the insured as defined in § 38.2-124 insuring a business entity; or (iv) a policy of miscellaneous casualty insurance as defined in subsection B of § 38.2-111 insuring a business entity shall be effective unless the insurer delivers or mails to the first named insured at the address shown on the policy a written notice of cancellation or refusal to renew, or delivers such notice electronically to the address provided by the first named insured. Such notice shall:

- a. Be in a type size authorized under § 38.2-311;
- b. State the date, which shall not be less than 45 days after the delivery or mailing of the notice of cancellation or refusal to renew, on which such cancellation or refusal to renew shall become effective, except that such effective date may not be less than 15 days from the date of mailing or delivery when the policy is being cancelled or not renewed for failure of the insured to discharge when due any of its obligations in connection with the payment of premium for the policy;
- c. State the specific reason or reasons of the insurer for cancellation or refusal to renew;
- d. Advise the first named insured of its right to request in writing, within 15 days of the receipt of the notice, that the Commissioner of Insurance review the action of the insurer; and
- e. In the case of a policy of motor vehicle insurance, inform the first named insured of the possible availability of other insurance which may be obtained through its agent, through another insurer, or through the Virginia Automobile Insurance Plan.

2. Nothing in this subsection shall apply to any policy of insurance if the named insured or his duly constituted attorney-in-fact has notified orally, or in writing, if the insurer requires such notification to be in writing, the insurer or its agent that he wishes the policy to be canceled or that he does not wish the policy to be renewed, or if, prior to the date of expiration, he fails to accept the offer of the insurer to renew the policy.

3. Nothing in this subsection shall apply if an affiliated insurer has manifested its willingness to provide coverage at a lower premium than would have been charged for the same exposures on the expiring policy. The affiliated insurer shall manifest its willingness to provide coverage by issuing a policy with the types and limits of coverage at least equal to those contained in the expiring policy unless the named insured has requested a change in coverage or limits. When such offer is made by an affiliated insurer, an offer of renewal shall not be required of the insurer of the expiring policy, and the policy issued by the affiliated insurer shall be deemed to be a renewal policy.

B. No insurer shall cancel or refuse to renew a policy of motor vehicle insurance against legal liability of the insured as defined in § 38.2-124 insuring a business entity solely because of lack of supporting business or lack of the potential for acquiring such business.

C. No reduction in coverage for personal injury or property damage liability initiated by an insurer and no insurer-initiated increase in the premium greater than 25 percent of (i) a policy of insurance defined in § 38.2-117 or 38.2-118 insuring a business entity; (ii) a policy of insurance that includes as a part thereof insurance defined in § 38.2-117 or 38.2-118 insuring a business entity; (iii) a policy of motor vehicle insurance against legal liability of the insured as defined in § 38.2-124 insuring a business entity; or (iv) a policy of miscellaneous casualty insurance as defined in subsection B of § 38.2-111 insuring a business entity, and which in the case of a reduction in coverage is subject to § 38.2-1912, shall be effective unless the insurer delivers or mails to the first named insured at the address shown on the policy, or delivers electronically to the address provided by the first named insured, a written notice of such reduction in coverage or premium increase not later than 45 days prior to the effective date of same. The increase in premium shall be the difference between the renewal premium and the premium charged by the insurer at the effective date of the expiring policy. Such notice shall:

1. Be in a type size authorized under § 38.2-311;
2. State the date, which shall not be less than 45 days after the delivery or mailing of the notice of reduction in coverage or increase in premium, on which such reduction in coverage or increase in premium shall become effective;
3. Advise the first named insured of the specific reason for the increase and the amount of the increase, or, if in the case of a reduction in coverage, the specific reason for the reduction and the manner in which coverage will be reduced, or that such information may be obtained from the agent or the insurer;
4. Advise the first named insured of its right to request in writing, within 15 days of receipt of the notice, that the Commissioner of Insurance review the action of the insurer.

D. If an insurer does not provide notice in the manner required in subsection C, coverage shall remain in effect until 45 days after written notice of reduction in coverage or increase in premium is mailed or delivered to the first named insured at the address shown on the policy, or delivered electronically to the address provided by the first named insured, unless the named insured obtains replacement coverage or elects to cancel sooner in either of which cases coverage under the prior policy shall cease on the effective date of the replacement coverage or the elected date of cancellation as the case may be. If the named insured fails to accept or rejects the changed policy, coverage for any period that extends beyond the expiration date will be under the prior policy's rates, terms and conditions as applied against the renewal policy's limits, rating exposures, and additional coverages. If the named insured accepts the changed policy, the reduction in coverage or increase in premium shall take effect upon the expiration of the prior policy.

E. Notice of reduction in coverage or increase in premium shall not be required if:

1. The insurer, after written demand, has not received, within 45 days after such demand has been mailed or delivered to the first named insured at the address shown on the policy, or delivered electronically to the address provided by the first named insured, sufficient information from the named insured to provide the required notice;
2. Such notice is waived in writing by the named insured;
3. The insurer delivers or mails to the first named insured a renewal policy or a renewal offer not less than 45 days prior to the effective date of the policy or, in the case of a medical malpractice insurance policy, not less than 90 days prior to the effective date of the policy;

4. The policy is issued to a large commercial risk as defined in subsection C of § 38.2-1903.1 but excluding policies of medical malpractice insurance; or

5. The policy is retrospectively rated, where the premium is adjusted at the end of the policy period to reflect the risk's actual loss experience.

F. No written notice of cancellation, refusal to renew, reduction in coverage, or increase in premium that is mailed or delivered electronically by an insurer to a first named insured in accordance with this section shall be effective unless *the insurer complies with the applicable provisions of subdivisions 1 through 4:*

1. *If the notice is mailed, proof of mailing a notice of cancellation, refusal to renew, reduction in coverage, or increase in premium shall be obtained using one of the following methods that demonstrates the date that the notice was sent to the first named insured at the address stated in the policy or to such insured's last known address:*

a. ~~It~~ The notice is sent by ~~registered or certified~~:

(1) Registered mail;

(2) Certified mail; or ~~any~~

(3) Any other similar first-class mail tracking method ~~that is~~ used or approved by the United States Postal Service, including Intelligent Mail barcode Tracing (IMb Tracing); or

b. *The notice is sent by another method of mailing for which a certificate of mailing is obtained from the United States Postal Service at the time the notice is accepted for mailing. A certificate of mailing from the United States Postal Service does not include a certificate of bulk mailing.*

2. *If the notice is delivered electronically, the insurer retains evidence of electronic transmittal or receipt of the notification for at least one year from the date of the transmittal; ~~and.~~*

~~2.~~ ~~The~~ 3. *If the notice is mailed, the insurer retains a copy of the notice of cancellation, refusal to renew, reduction in coverage, or increase in premium for at least one year from the date such action was effective. If the notice is mailed, proof of mailing from the United States Postal Service consistent with the mailing method utilized by the insurer shall be maintained for one year from the date the cancellation, refusal to renew, reduction in coverage, or increase in premium is effective.*

~~3.~~ 4. a. If the terms of a policy of motor vehicle insurance insuring a business entity require the notice of cancellation, refusal to renew, reduction in coverage, or increase in premium to be given to any lienholder, then the insurer shall mail such notice and retain a copy of the notice in the manner required by this subsection. If the notices sent to the first named insured and the lienholder are part of the same form, the insurer may retain a single copy of the notice. ~~The registered, certified or regular mail postal receipt and the copy of the notices required by this subsection shall be retained by the insurer for at least one year from the date of termination~~ *Proof of mailing from the United States Postal Service consistent with the mailing method utilized by the insurer shall be maintained for one year from the date the cancellation, refusal to renew, reduction in coverage, or increase in premium is effective.*

b. Notwithstanding the provisions of subdivision ~~3~~ 4 a, if the terms of the policy require the notice of cancellation, refusal to renew, reduction in coverage, or increase in premium to be given to any lienholder, the insurer and lienholder may agree by separate agreement that such notices may be transmitted electronically, provided that the insurer and lienholder agree upon the specifics for transmittal and ~~acknowledgment~~ *acknowledgment* of notification. Evidence of transmittal or receipt of the notification required by this subsection shall be retained by the insurer for at least one year from the date of termination.

4. "Copy," as used in this subsection, ~~shall include~~ *includes* photographs, microphotographs, photostats, microfilm, microcard, printouts, or other reproductions of electronically stored data; or copies from optical disks, electronically transmitted facsimiles, or any other reproduction of an original from a process ~~which~~ *that* forms a durable medium for its recording, storing, and reproducing.

G. Nothing in this section shall prohibit any insurer or agent from including in a notice of cancellation, refusal to renew, reduction in coverage, or premium increase any additional disclosure statements required by state or federal laws.

H. For the purpose of this section, the terms (i) "business entity" shall mean an entity as defined by subsection A of § 13.1-543, § 13.1-603 or 13.1-803 and shall include an individual, a partnership, an unincorporated association, the Commonwealth, a county, city, town, or an authority, board, commission, sanitation, soil and water, planning or other district, public service corporation owned, operated or controlled by the Commonwealth, a locality or other local governmental authority; (ii) "policy of motor vehicle insurance" shall mean a policy or contract for bodily injury or property damage liability insuring a business entity issued or delivered in this Commonwealth covering liability arising from the ownership, maintenance, or use of any motor vehicle, but does not include (a) any policy issued through the Virginia Automobile Insurance Plan, (b) any policy providing insurance only on an excess basis, or (c) any other contract providing insurance to the named insured even though the contract may incidentally provide insurance on motor vehicles; and (iii) "reduction in coverage" shall mean, but not be limited to, any diminution in scope of coverage, decrease in limits of liability, addition of exclusions, increase in deductibles, or reduction in the policy term or duration except a reduction in coverage filed with and approved by the Commission and applicable to an entire line, classification or subclassification of insurance.

I. Within 15 days of receipt of the notice of cancellation, refusal to renew, reduction in coverage, or increase in premium, the named insured shall be entitled to request in writing to the Commissioner that he review the action of the insurer. Upon receipt of the request, the Commissioner shall promptly begin a review to determine whether the insurer's

notice of cancellation, refusal to renew, reduction in coverage, or premium increase complies with the requirements of this section. Where the Commissioner finds from the review that the notice of cancellation, refusal to renew, reduction in coverage, or premium increase does not comply with the requirements of this section, he shall immediately notify the insurer, the named insured and any other person to whom such notice was required to be given by the terms of the policy that such notice is not effective. Nothing in this section authorizes the Commissioner to substitute his judgment as to underwriting for that of the insurer. Pending review by the Commission, this section shall not operate to relieve an insured from the obligation to pay any premium when due; however, if the Commission finds that the notice required by this section was not proper, the Commission may order the insurer to pay to the insured any overpayment of premium made by the insured.

J. Every insurer shall maintain for at least one year records of cancellation, refusals to renew, reductions in coverage, and premium increases to which this section applies and copies of every notice or statement required by subsections A, C, F, and L of this section that it sends to any of its insureds.

K. There shall be no liability on the part of and no cause of action of any nature shall arise against (i) the Commissioner of Insurance or his subordinates; (ii) any insurer, its authorized representative, its agents, or its employees; or (iii) any firm, person, or corporation furnishing to the insurer information as to reasons for cancellation, refusal to renew, reduction in coverage, or premium increase, for any statement made by any of them in complying with this section or for providing information pertaining thereto.

L. Notwithstanding anything in this section to the contrary, if an insurer cancels or refuses to renew a policy of medical malpractice insurance as defined in § 38.2-2800, or if, as a result of an insurer-initiated increase in premium, the premium increases for a medical malpractice insurance policy by more than 25 percent of the previous policy's premium, the insurer shall provide no fewer than 90 days' notice prior to the renewal effective date, or, if such policy is being cancelled or non-renewed for failure of the insured to discharge when due any of its obligations in connection with the payment of premium for the policy, the effective date of cancellation or refusal to renew shall not be less than 15 days from the date of mailing or delivery of the notice. The increase in the premium shall be the difference between the renewal premium and the premium charged by the insurer at the effective date of the expiring policy.

M. As used in this section, an "insurer-initiated increase in premium" means an increase in premium other than one resulting from changes in (i) coverage requested by the insured, (ii) policy limits requested by the insured, (iii) the insured's operation or location that result in a change in the classification of the risk, or (iv) the rating exposures including, but not limited to, increases in payroll, receipts, square footage, number of automobiles insured, or number of employees.

§ 38.2-2113. Mailing or electronic delivery of notice of cancellation or refusal to renew.

A. No written notice of cancellation or refusal to renew a policy written to insure owner-occupied dwellings shall be effective when mailed or delivered electronically by an insurer unless *the insurer complies with the applicable provisions of subdivisions 1, 2, and 3:*

1. *If the notice is mailed, proof of mailing a notice of cancellation or refusal to renew shall be obtained using one of the following methods that demonstrates the date that the notice was sent to the named insured at the address stated in the policy or to the named insured's last known address:*

a. ~~The notice is sent by registered or certified:~~

(1) Registered mail;

(2) Certified mail; or ~~any~~

(3) Any other similar first-class mail tracking method that is used or approved by the United States Postal Service, including Intelligent Mail barcode Tracing (IMb Tracing); or

b. *The notice is sent by another method of mailing for which a certificate of mailing is obtained from the United States Postal Service at the time the notice is accepted for mailing. A certificate of mailing from the United States Postal Service does not include a certificate of bulk mailing.*

2. *If the notice is delivered electronically, the insurer retains evidence of electronic transmittal or receipt of the notification for at least one year from the date of the transmittal; and*

~~3. If the notice is mailed, the insurer retains a copy of the notice of cancellation or refusal to renew for at least one year from the date such action was effective. CHAPTER 8

An Act to amend the Code of Virginia by adding a section numbered 62.1-44.19:21.1, relating to sediment reduction credits for MS4s.

[S 292]

Approved February 23, 2016

Be it enacted by the General Assembly of Virginia:**1. That the Code of Virginia is amended by adding a section numbered 62.1-44.19:21.1 as follows:****§ 62.1-44.19:21.1. Sediment credit use by regulated MS4s.**

A. Subject to the conditions and limitations of subsections B, C, and D, an MS4 permittee may acquire and use sediment credits for purposes of compliance with any waste load allocations established by total maximum daily loads for the Chesapeake Bay or its tidal tributaries applied in an MS4 permit issued pursuant to § 62.1-44.15:25, where such credit use is part of an integrated compliance plan for the MS4 permittee to address such nutrient and sediment total maximum daily loads.

B. Such method of compliance may be approved by the Department following review of an integrated compliance plan submitted by the permittee that includes the use of sediment credits. The permittee may use such credits for compliance purposes only if (i) the credits are generated and applied for purposes of compliance for the same calendar year; (ii) the credits are acquired no later than June 1 immediately following the calendar year to which the credits are applied; (iii) no later than June 1 immediately following the calendar year to which credits are applied, the permittee certifies on a form supplied by the Department that he has acquired sufficient credits to satisfy his compliance obligations; (iv) the credits are generated in the same tributary; (v) the sediment credits are not associated with phosphorus credits used for compliance with stormwater nonpoint nutrient runoff water quality criteria established pursuant to § 62.1-44.15:28; and (vi) the credits are derived from (a) implementation of best management practices in a defined area outside of an MS4 service area, in which case the necessary baseline sediment reduction for such defined area shall be achieved prior to the permittee's use of additional reductions as credit, or (b) a point source waste load allocation established by the Chesapeake Bay total maximum daily load, in which case the credit is the difference between the waste load allocation specified as an annual mass load and any lower monitored annual mass load that is discharged as certified on a form supplied by the Department.

C. This section shall not be construed to limit or otherwise affect the authority of the Board to establish and enforce more stringent water quality-based effluent limitations in permits where those limitations are necessary to protect local water quality. The exchange or acquisition of credits pursuant to this article shall not affect any requirement to comply with such local water quality-based limitations.

D. The Board may adopt regulations for the purpose of establishing procedures for the certification of nonpoint source sediment credits used pursuant to subsection B. The Board's administration of this section and its adoption of any such regulations shall be consistent wherever appropriate with the standards and procedures established pursuant to § 62.1-44.19:20 for certification of nonpoint source nutrient credits, including, without limitation, the opportunity for public notification, the retirement of credits, sediment baseline attainment as a condition on generation and use of nonpoint source sediment credits, financial assurance requirements, and requirements for inspection or auditing by the Department.

E. For the purposes of this section, "sediment credit" means a sediment or total suspended solids reduction that is expressed in pounds delivered to tidal waters within the Chesapeake Bay Watershed.

A. Any application for a permit to trespass upon or over or encroach upon subaqueous beds which are the Commonwealth's property may be approved by the Commissioner or his authorized representative if the application meets the requirements of §§ 28.2-1205 and 28.2-1206 and the following criteria are satisfied:

B. If the permit application is for a shore erosion control project recommended by the soil and water conservation district in which the project is to be located and the criteria listed in subsection A of this section are satisfied, the Commission may, after giving notice of the application to the Virginia Institute of Marine Science, approve the application without giving notice to or awaiting the approval of any other state agency.

C. The Commission shall, in conjunction with affected state and federal agencies, develop an expedited process for issuing general permits for activities that are intended to improve water quality such as bioengineered streambank projects and livestock stream crossings, and for activities required during emergencies in which a determination has been made that there is a threat to public or private property, or to the health and safety of the public. The development of the general permit shall be exempt from Article 2 (§ ~~2.2-4007~~ 2.2-4006 et seq.) of the Administrative Process Act.

D. *The Commission shall, in conjunction with affected state and federal agencies, develop an expedited process for issuing a permit for emergency activities intended to restore sand to any publicly owned beach damaged by sand erosion. Such erosion shall have been caused by a discrete, identifiable weather event or sequence of events that threatened public or private property or public health and safety and was the subject of a declaration of emergency by the Governor or the governing body of the locality in which the project is located. The development of the permit shall be exempt from Article 2 (§ 2.2-4006 et seq.) of the Administrative Process Act.*

3. To hunt or attempt to kill or trap any species of wild bird or wild animal after having obtained the daily bag or season limit during such day or season. However, any properly licensed person, or a person exempt from having to obtain a license, who has obtained such daily bag or season limit while hunting may assist others who are hunting game by calling game, retrieving game, handling dogs, or conducting drives if the weapon in his possession is an unloaded firearm, a bow without a nocked arrow, or an unloaded crossbow. Any properly licensed person, or person exempt from having to obtain a license, who has obtained such season limit prior to commencement of the hunt may assist others who are hunting game by calling game, retrieving game, handling dogs, or conducting drives, provided he does not have a firearm, bow, or crossbow in his possession.

8. To set a trap where it would be likely to injure persons, dogs, stock, or fowl.

9. To fail to visit all traps once each day and remove all animals caught, and immediately report to the landowner as to stock, dogs, or fowl that are caught and the date. However, the Director or his designee may authorize employees of federal, state, and local government agencies, and persons holding a valid Commercial Nuisance Animal Permit issued by the Department, to visit body-gripping traps that are completely submerged at least once every 72 hours, and the Board may

adopt regulations permitting trappers to visit traps less frequently under specified conditions. The Board shall adopt regulations permitting trappers to use remote trap-checking technology to check traps under specified conditions.

10. To hunt, trap, take, capture, kill, attempt to take, capture, or kill, possess, deliver for transportation, transport, cause to be transported, by any means whatever, receive for transportation or export, or import, at any time or in any manner, any wild bird or wild animal or the carcass or any part thereof, except as specifically permitted by law and only by the manner or means and within the numbers stated. In addition, any nonprofit organization exempt from taxation under § 501(c)(3) of the Internal Revenue Code; that is (a) organized to support wildlife habitat conservation and (b) approved by the Department; shall be allowed to offer wildlife mounts that have undergone the taxidermy process for sale in conjunction with fundraising activities. A violation of this subdivision shall be punishable as provided in § 29.1-553.

[H 88]

Be it enacted by the General Assembly of Virginia:

1. That §§ 24.2-106, 24.2-111, 24.2-114, and 24.2-411 of the Code of Virginia are amended and reenacted as follows:

§ 24.2-106. Appointment and terms; vacancies; chairman and secretary; certain prohibitions; training.

There shall be in each county and city an electoral board composed of three members who shall be appointed by a majority of the circuit judges of the judicial circuit for the county or city. If a majority of the judges cannot agree, the senior judge shall make the appointment. Any vacancy occurring on a board shall be filled by the same authority for the unexpired term. In the event of the temporary absence, or disability that precludes the performance of the duties, of one or more members that prevents attaining a quorum, the senior judge, for good cause, may appoint, on a meeting to meeting basis, a temporary member to the electoral board. The temporary appointee must be eligible for appointment and to the extent practicable maintain representation of political parties under § 24.2-106. The clerk of the circuit court shall send to the State Board a copy of each order making an appointment to an electoral board.

In the appointment of the electoral board, representation shall be given to each of the two political parties having the highest and next highest number of votes in the Commonwealth for Governor at the last preceding gubernatorial election. Two electoral board members shall be of the political party that cast the highest number of votes for Governor at that election. When the Governor was not elected as the candidate of a political party, representation shall be given to each of the political parties having the highest and next highest number of members of the General Assembly at the time of the appointment and two board members shall be of the political party having the highest number of members in the General Assembly. The political party entitled to the appointment shall make and file recommendations with the judges for the appointment not later than January 15 of the year of an appointment to a full term or, in the case of an appointment to fill a vacancy, within 30 days of the date of death or notice of resignation of the member being replaced. Its recommendations shall contain the names of at least three qualified voters of the county or city for each appointment. The judges shall promptly make such appointment (i) after receipt of the political party's recommendation or (ii) after January 15 for a full term or after the 30-day period expires for a vacancy appointment, whichever of the events described in clause (i) or (ii) first occurs.

The circuit judges of the judicial circuit for the county or city shall not appoint to the electoral board (i) any person who is the spouse of an electoral board member or the general registrar for the county or city, (ii) any person, or the spouse of any person, who is the parent, grandparent, sibling, child, or grandchild of an electoral board member or the general registrar of the county or city, or (iii) any person who is ineligible to serve under the provisions of this section.

Electoral board members shall serve three-year terms and be appointed to staggered terms, one term to expire at midnight on the last day of February each year. No three-year term shall be shortened to comply with the political party representation requirements of this section.

The board shall elect one of its members as chairman and another as secretary. The chairman and the secretary shall represent different political parties, unless the representative of the second-ranked political party declines in writing to accept the unfilled office. At any time that the secretary is incapacitated in such a way that makes it impossible for the secretary to carry out the duties of the position, the board may designate one of its other members as acting secretary. Any such designation shall be made in an open meeting and recorded in the minutes of the board.

The secretary of the electoral board shall immediately notify the State Board of any change in the membership or officers of the electoral board and shall keep the Board informed of the name, residence and mailing addresses, and home and business telephone numbers of each electoral board member.

CHAPTER 15

An Act to amend and reenact § 24.2-604 of the Code of Virginia, relating to election day program; permitted activities of participants.

[H 205]

Approved February 24, 2016

Be it enacted by the General Assembly of Virginia:

1. That § 24.2-604 of the Code of Virginia is amended and reenacted as follows:

§ 24.2-604. Prohibited activities at polls; notice of prohibited area; electioneering; presence of representatives of parties or candidates; simulated elections; observers; news media; penalties.

A. During the times the polls are open and ballots are being counted, it shall be unlawful for any person (i) to loiter or congregate within 40 feet of any entrance of any polling place; (ii) within such distance to give, tender, or exhibit any ballot, ticket, or other campaign material to any person or to solicit or in any manner attempt to influence any person in casting his vote; or (iii) to hinder or delay a qualified voter in entering or leaving a polling place.

B. Prior to opening the polls, the officers of election shall post, in the area within 40 feet of any entrance to the polling place, sufficient notices which state "Prohibited Area" in two-inch type. The notices shall also state the provisions of this

section in not less than 24-point type. The officers of election shall post the notices within the prohibited area to be visible to voters and the public.

C. The officers of election shall permit one authorized representative of each political party or independent candidate in a general or special election, or one authorized representative of each candidate in a primary election, to remain in the room in which the election is being conducted at all times. A representative may serve part of the day and be replaced by successive representatives. The officers of election shall have discretion to permit up to three authorized representatives of each political party or independent candidate in a general or special election, or up to three authorized representatives of each candidate in a primary election, to remain in the room in which the election is being conducted. The officers shall permit one such representative for each pollbook station. However, no more than one such representative for each pollbook station or three representatives of any political party or independent candidate, whichever number is larger, shall be permitted in the room at any one time. Each authorized representative shall be a qualified voter of any jurisdiction of the Commonwealth. Each representative shall present to the officers of election a written statement designating him to be a representative of the party or candidate and signed by the county or city chairman of his political party, the independent candidate, or the primary candidate, as appropriate. If the county or city chairman is unavailable to sign such a written designation, such a designation may be made by the state or district chairman of the political party. However, no written designation made by a state or district chairman shall take precedence over a written designation made by the county or city chairman. Such statement, bearing the chairman's or candidate's original signature, may be photocopied, and such photocopy shall be as valid as if the copy had been signed. No candidate whose name is printed on the ballot shall serve as a representative of a party or candidate for purposes of this section. Authorized representatives shall be allowed, whether in a regular polling place or central absentee voter precinct, to be close enough to the voter check-in table to be able to hear and see what is occurring; however, such observation shall not violate the secret vote provision of Article II, Section 3 of the Constitution of Virginia or otherwise interfere with the orderly process of the election. Any representative who complains to the chief officer of election that he is unable to hear or see the process may accept the chief officer's decision or, if dissatisfied, he may immediately appeal the decision to the local electoral board. Authorized representatives shall be allowed, whether in a regular polling place or central absentee voter precinct, to use a handheld wireless communications device, but shall not be allowed to use such a device to capture a digital image inside the polling place or central absentee voter precinct. The officers of election may prohibit the use of cellular telephones or other handheld wireless communications devices if such use will result in a violation of subsection A or D or § 24.2-607. Authorized representatives shall not be allowed in any case to provide assistance to any voter as permitted under § 24.2-649 or to wear any indication that they are authorized to assist voters either inside the polling place or within 40 feet of any entrance to the polling place.

D. It shall be unlawful for any authorized representative, voter, or any other person in the room to (i) hinder or delay a qualified voter; (ii) give, tender, or exhibit any ballot, ticket, or other campaign material to any person; (iii) solicit or in any manner attempt to influence any person in casting his vote; (iv) hinder or delay any officer of election; (v) be in a position to see the marked ballot of any other voter; or (vi) otherwise impede the orderly conduct of the election.

E. The officers of election may require any person who is found by a majority of the officers present to be in violation of this section to remain outside of the prohibited area. Any person violating subsection A or D shall be guilty of a Class 1 misdemeanor.

F. This section shall not be construed to prohibit a candidate from entering any polling place on the day of the election to vote, or to visit a polling place for no longer than 10 minutes per polling place per election day, provided that he complies with the restrictions stated in subsections A, D, and K.

G. This section shall not be construed to prohibit a minor from entering a polling place on the day of the election to vote in a simulated election at that polling place, provided that the local electoral board has determined that such polling place can accommodate simulated election activities without interference or substantial delay in the orderly conduct of the official voting process. Persons supervising or working in a simulated election in which minors vote may remain within such polling place. The local electoral board and the chief officer for the polling place shall exercise authority over, but shall have no responsibility for the administration of, simulated election related activities at the polling place.

H. A local electoral board, and its general registrar, may conduct a special election day program for high school students, selected by the electoral board in cooperation with high school authorities, in one or more polling places designated by the electoral board, other than a central absentee voter precinct. The program shall be designed to stimulate the students' interest in elections and registering to vote, provide assistance to the officers of election, and ensure the safe entry and exit of elderly and disabled voters from the polling place. *Each student shall receive, from a person designated by the electoral board, training on the duties, responsibilities, and prohibited conduct of election pages.* Each student shall take and sign an oath as an election page, serve under the direct supervision of the chief officer of election of his assigned polling place, and observe strict impartiality at all times. Election pages may observe the electoral process and seek information from the chief officer of election *and may assist in the arrangement of the voting equipment, furniture, and other materials for the conduct of the election,* but shall not ~~handle or touch ballots, voting machines, or any other official election materials, or~~ enter any voting booth. *Election pages may, at the direction and under the direct supervision of the chief officer of election, assist in the counting of unmarked ballots prior to the opening of the polls, but shall not handle or touch ballots in any other circumstance.*

I. A local electoral board may authorize in writing the presence of additional neutral observers as it deems appropriate, except as otherwise prohibited or limited by this section. Such observers shall comply with the restrictions in subsections A

and D and shall not be allowed in any case to provide assistance to any voter as permitted under § 24.2-649 or to wear any indication that they are authorized to assist voters either inside the polling place or within 40 feet of any entrance to the polling place.

J. The officers of election shall permit representatives of the news media to visit and film or photograph inside the polling place for a reasonable and limited period of time while the polls are open. However, the media (i) shall comply with the restrictions in subsections A and D; (ii) shall not film or photograph any person who specifically asks the media representative at that time that he not be filmed or photographed; (iii) shall not film or photograph the voter or the ballot in such a way that divulges how any individual voter is voting; and (iv) shall not film or photograph the voter list or any other voter record or material at the precinct in such a way that it divulges the name or other information concerning any individual voter. Any interviews with voters, candidates or other persons, live broadcasts, or taping of reporters' remarks, shall be conducted outside of the polling place and the prohibited area. The officers of election may require any person who is found by a majority of the officers present to be in violation of this subsection to leave the polling place and the prohibited area.

K. The provisions of subsections A and D shall not be construed to prohibit a person who approaches or enters the polling place for the purpose of voting from wearing a shirt, hat, or other apparel on which a candidate's name or a political slogan appears or from having a sticker or button attached to his apparel on which a candidate's name or a political slogan appears. This exemption shall not apply to candidates, representatives of candidates, or any other person who approaches or enters the polling place for any purpose other than voting.

CHAPTER 16

An Act to amend and reenact § 24.2-706 of the Code of Virginia, relating to absentee ballots; electronic transmission by general registrar.

[H 456]

Approved February 24, 2016

Be it enacted by the General Assembly of Virginia:

1. That § 24.2-706 of the Code of Virginia is amended and reenacted as follows:

§ 24.2-706. Duty of general registrar on receipt of application; statement of voter.

On receipt of an application for an absentee ballot, the general registrar shall enroll the name and address of each registered applicant on an absentee voter applicant list that shall be maintained in the office of the general registrar with a file of the applications of the listed applicants. The list shall be available for inspection and copying and the applications shall be available for inspection only by any registered voter during regular office hours. Upon request and for a reasonable fee, the Department of Elections shall provide an electronic copy of the absentee voter applicant list to any political party or candidate. Such list shall be used only for campaign and political purposes. Any list made available for inspection and copying under this section shall contain the post office box address in lieu of the residence street address for any individual who has furnished at the time of registration or subsequently, in addition to his street address, a post office box address pursuant to subsection B of § 24.2-418.

No list or application containing an individual's social security number, or any part thereof, or the individual's day and month of birth, shall be made available for inspection or copying by anyone. The Department of Elections shall prescribe procedures for general registrars to make the information in the lists and applications available in a manner that does not reveal social security numbers or parts thereof, or an individual's day and month of birth.

The completion and timely delivery of an application for an absentee ballot shall be construed to be an offer by the applicant to vote in the election.

The general registrar shall note on each application received whether the applicant is or is not a registered voter. In reviewing the application for an absentee ballot, the general registrar shall not reject the application of any individual because of an error or omission on any record or paper relating to the application, if such error or omission is not material in determining whether such individual is qualified to vote absentee.

If the application has been properly completed and signed and the applicant is a registered voter of the precinct in which he offers to vote, the general registrar shall, at the time when the printed ballots for the election are available, send by the deadline set out in § 24.2-612, obtaining a certificate or other evidence of either first-class or expedited mailing or delivery from the United States Postal Service or other commercial delivery provider, or deliver to him in person in the office of the registrar, the following items and nothing else:

1. An envelope containing the folded ballot, sealed and marked "Ballot within. Do not open except in presence of a witness."

2. An envelope, with printing only on the flap side, for resealing the marked ballot, on which envelope is printed the following:

"I do hereby state, subject to felony penalties for making false statements pursuant to § 24.2-1016, that my FULL NAME is _____ (last, first, middle); that I am now or have been at some time since last November's general election a legal resident of _____ (STATE YOUR LEGAL RESIDENCE IN VIRGINIA including the house

number, street name or rural route address, city, zip code); that I received the enclosed ballot(s) upon application to the registrar of such county or city; that I opened the envelope marked 'ballot within' and marked the ballot(s) in the presence of the witness, without assistance or knowledge on the part of anyone as to the manner in which I marked it (or I am returning the form required to report how I was assisted); that I then sealed the ballot(s) in this envelope; and that I have not voted and will not vote in this election at any other time or place.

Signature of Voter _____

Date _____

Signature of witness _____ "

For elections held after January 1, 2004, instead of the envelope containing the above oath, an envelope containing the standard oath prescribed by the presidential designee under § 101(b)(7) of the Uniformed and Overseas Citizens Absentee Voting Act (52 U.S.C. § 20301 et seq.) shall be sent to voters who are qualified to vote absentee under that Act.

3. A properly addressed envelope for the return of the ballot to the general registrar by mail or by the applicant in person.

4. Printed instructions for completing the ballot and statement on the envelope and returning the ballot.

For federal elections held after January 1, 2004, for any voter who is required by subparagraph (b) of 52 U.S.C. § 21083 of the Help America Vote Act of 2002 to show identification the first time the voter votes in a federal election in the state, the printed instructions shall direct the voter to submit with his ballot (i) a copy of a current and valid photo identification or (ii) a copy of a current utility bill, bank statement, government check, paycheck or other government document that shows the name and address of the voter. Such individual who desires to vote by mail but who does not submit one of the forms of identification specified in this paragraph may cast such ballot by mail and the ballot shall be counted as a provisional ballot under the provisions of § 24.2-653. The Department of Elections shall provide instructions to the electoral boards for the handling and counting of such provisional ballots pursuant to subsection B of § 24.2-653 and this section.

5. For any voter entitled to vote absentee under the Uniformed and Overseas Citizens Absentee Voting Act (52 U.S.C. § 20301 et seq.), information provided by the Department of Elections specific to the voting rights and responsibilities for such citizens, or information provided by the registrar specific to the status of the voter registration and absentee ballot application of such voter, may be included.

The envelopes and instructions shall be in the form prescribed by the Department of Elections.

If the applicant makes his application to vote in person under § 24.2-701 at a time when the printed ballots for the election are available, the general registrar, on the determination of the qualifications of the applicant to vote, shall provide to the applicant the items set forth in subdivisions 1 through 4, and no item shall be removed by the applicant from the office of the general registrar. On the request of the applicant, made no later than 5:00 p.m. on the seventh day prior to the election in which the applicant offers to vote, the general registrar may send the items set forth in subdivisions 1 through 4 to the applicant by mail, obtaining a certificate or other evidence of mailing.

If the applicant states as the reason for his absence on election day any of the reasons set forth in subdivision 2 of § 24.2-700, the general registrar, at the time when the printed ballots for the election are available, shall mail by the deadline set forth in § 24.2-612 or deliver in person to the applicant in the office of the general registrar the items as set forth in subdivisions 1 through 4 and, if necessary, an application for registration. A certificate or other evidence of mailing shall not be required. ~~The~~ *If the applicant requests that such items be sent by electronic transmission, the general registrar, at the time when the printed ballots for the election are available, shall send by but not later than the deadline set forth in § 24.2-612, shall send by electronic transmission the blank ballot, the form for the envelope for returning the marked ballot, and instructions to the voter by electronic transmission if the voter so requests. Such materials shall be sent using the official email address or fax number of the office of the general registrar published on the website of the Department of Elections. The State Board of Elections may prescribe by regulation the format of the email address used for transmitting ballots to eligible voters. A general registrar may also use electronic transmission facilities provided by the Federal Voting Assistance Program.* The voted ballot shall be returned to the general registrar as otherwise required by this chapter.

When the statement prescribed in subdivision 2 has been properly completed and signed by the registered voter and witnessed, his ballot shall not be subject to challenge pursuant to § 24.2-651.

The circuit courts shall have jurisdiction to issue an injunction to enforce the provisions of this section upon the application of (i) any aggrieved voter, (ii) any candidate in an election district in whole or in part in the court's jurisdiction where a violation of this section has occurred, or is likely to occur, or (iii) the campaign committee or the appropriate district political party chairman of such candidate. Any person who fails to discharge his duty as provided in this section through willful neglect of duty and with malicious intent shall be guilty of a Class 1 misdemeanor as provided in subsection A of § 24.2-1001.

Any interviews with voters, candidates or other persons, live broadcasts, or taping of reporters' remarks, shall be conducted outside of the polling place and the prohibited area. The officers of election may require any person who is found by a majority of the officers present to be in violation of this subsection to leave the polling place and the prohibited area.

§ 24.2-633. Notice of final testing of voting system; sealing equipment.

Before the final testing of voting or counting machines for any election, the ~~electoral board~~ *general registrar* shall mail written notice (i) to the chairman of the local committee of each political party, or (ii) in a primary election, to the chairman of the local committee of the political party holding the primary, or (iii) in a city or town council election in which no candidate is a party nominee and which is held when no other election having party nominees is being conducted, to the candidates.

The notice shall state the time and place where the machine will be tested and state that the political party or candidate receiving the notice may have one representative present while the equipment is tested.

At the time stated in the notice, the representatives, if present, shall be afforded an opportunity to see that the equipment is in proper condition for use at the election. When a machine has been so examined by the representatives, it shall be sealed with a numbered seal in their presence, or if the machine cannot be sealed with a numbered seal, it shall be locked with a key. The representatives shall certify for each machine the number registered on the protective counter and the number on the seal. When no party or candidate representative is present, the custodian shall seal the machine as prescribed in this section in the presence of a member of the electoral board ~~or its representative~~, *the general registrar, or a designee of the electoral board or general registrar.*

§ 24.2-634. Locking and securing after preparation.

When voting equipment has been properly prepared for an election, it shall be locked against voting and sealed, or if a voting or counting machine cannot be sealed with a numbered seal, it shall be locked with a key. The equipment keys and any electronic activation devices shall be retained in the custody of the ~~electoral board~~ *general registrar* and delivered to the officers of election as provided in § 24.2-639. After the voting equipment has been delivered to the polling places, the ~~electoral board~~ *general registrar* shall provide ample protection against tampering with or damage to the equipment.

§ 24.2-635. Demonstration of equipment.

In each county, city, or town in which voting or counting equipment is to be used, the electoral board *or general registrar* may designate times and places for the exhibition of equipment containing sample ballots, showing the title of offices to be filled, and, so far as practicable, the names of the candidates to be voted for at the next election for the purpose of informing voters who request instruction on the use of the equipment. No equipment shall be used for such instruction after being prepared and sealed for use in any election. During exhibitions, the counting mechanism, if any, of the equipment may be concealed from view.

§ 24.2-636. Instruction as to use of equipment.

No fewer than three nor more than ~~thirty~~ 30 days before each election, the electoral board *or general registrar* shall instruct, or cause to be instructed, on the use of the equipment and his duties in connection therewith, each officer of election appointed to serve in the election who has not previously been so instructed. The board *or the general registrar* shall not permit any person to serve as an officer who is not fully trained to conduct an election properly with the equipment. This section shall not be construed to prevent the appointment of a person as an officer of election to fill a vacancy in an emergency.

§ 24.2-637. Furniture and equipment to be at polling places.

Before the time to open the polls, each electoral board shall ~~have~~ *ensure that the general registrar has* the voting and counting equipment and all necessary furniture and materials at the polling places, with counters on the voting or counting devices set at zero (000), and otherwise in good and proper order for use at the election.

The ~~board~~ *general registrar* shall have the custody of such equipment, furniture, and materials when not in use at an election and shall maintain the equipment in accurate working order and in proper repair.

During the election, the exterior of the voting equipment and every part of the polling place shall be in plain view of the officers of election.

No voting or counting machines shall be removed from the plain view of the officers of election or from the polling place at any time during the election and through the determination of the vote as provided in § 24.2-657. However, an electronic voting machine that is so constructed as to be easily portable may be taken outside the polling place pursuant to subsection A of § 24.2-649 and to assist a voter age 65 or older or physically disabled so long as: (i) the voting machine remains in the plain view of two officers of election representing two political parties or, in a primary election, two officers of election representing the party conducting the primary, provided that if the use of two officers for this purpose would result in too few officers remaining in the polling place to meet legal requirements, the machine shall remain in plain view of one officer who shall be either the chief officer or the assistant chief officer; (ii) the voter casts his ballot in a secret manner unless the voter requests assistance pursuant to § 24.2-649; and (iii) there remain sufficient officers of election in the polling place to meet legal requirements. After the voter has completed voting his ballot, the officer or officers shall immediately return the voting machine to its assigned location inside the polling place. The machine number, the time that the machine was removed and the time that it was returned, the number on the machine's public counter before the machine was removed and the number on the same counter when it was returned, the names of the voters who used the machine while it was removed provided that secrecy of the ballot is maintained in accordance with guidance from the State Board, and the name or names of the officer or officers who accompanied the machine shall be recorded on the statement of results. If a polling place fails to record the information required in the previous sentence, or it is later proven that the information recorded was intentionally falsified, the local electoral board *or general registrar* shall dismiss at a minimum the chief

officer or the assistant chief officer, or both, as appropriate, and shall dismiss any other officer of election who is shown to have caused the failure to record the required information intentionally or by gross negligence or to have intentionally falsified the information. The dismissed officers shall not be allowed thereafter to serve as an officer or other election official anywhere in the Commonwealth. In the case of an emergency that makes a polling place unusable or inaccessible, voting or counting machines may be removed to an alternative polling place pursuant to the provisions of subsection D of § 24.2-310.

The equipment shall be placed at least four feet from any table where an officer of election is working or seated. The officers of election shall not themselves be, or permit any other person to be, in any position or near any position that will permit them to observe how a voter votes or has voted.

One of the officers shall inspect the face of the voting machine after each voter has cast his vote and verify that the ballots on the face of the machine are in their proper places and that the machine has not been damaged. During an election, the door or other covering of the counter compartment of the voting or counting machine shall not be unlocked or open or the counters exposed except for good and sufficient reasons, a statement of which shall be made and signed by the officers of election and attached to the statement of results. No person shall be permitted in or about the polling place except the voting equipment custodian, vendor, or contractor technicians and other persons authorized by this title.

§ 24.2-639. Duties of officers of election.

The officers of election of each precinct at which voting or counting machines are used shall meet at the polling place by 5:15 a.m. on the day of the election and arrange the equipment, furniture, and other materials for the conduct of the election. The officers of election shall verify that all required equipment, ballots, and other materials have been delivered to them for the election. The officers shall post at least two instruction cards for direct recording electronic machines conspicuously within the polling place.

The keys to the equipment and any electronic activation devices that are required for the operation of electronic voting equipment shall be delivered, prior to the opening of the polls, to the officer of election designated by the electoral board *or general registrar* in a sealed envelope on which has been written or printed the name of the precinct for which it is intended. The envelope containing the keys and any electronic activation devices shall not be opened until all of the officers of election for the precinct are present at the polling place and have examined the envelope to see that it has not been opened. The equipment shall remain locked against voting until the polls are formally opened and shall not be operated except by voters in voting.

Before opening the polls, each officer shall examine the equipment and see that no vote has been cast and that the counters register zero. The officers shall conduct their examination in the presence of the following party and candidate representatives: one authorized representative of each political party or independent candidate in a general or special election, or one authorized representative of each candidate in a primary election, if such representatives are available. Each authorized representative shall be a qualified voter of any jurisdiction of the Commonwealth. Each representative, who is not himself a candidate or party chairman, shall present to the officers of election a written statement designating him to be a representative of the party or candidate and signed by the county or city chairman of his political party, the independent candidate, or the primary candidate, as appropriate. If the county or city chairman is unavailable to sign such a written designation, such a designation may be made by the state or district chairman of the political party. However, no written designation made by a state or district chairman shall take precedence over a written designation made by the county or city chairman. Such statement, bearing the chairman's or candidate's original signature, may be photocopied and such photocopy shall be as valid as if the copy had been signed.

If any counter, other than a protective or private counter, on a ballot scanner or direct recording electronic machine is found not to register zero, the officers of election shall immediately notify the ~~electoral board~~ *general registrar*, who shall, if possible, substitute a machine in good working order; that has been prepared and tested pursuant to § 24.2-634. No ballot scanner or direct recording electronic machine shall be used if any counter, other than a protective or private counter, is found not to register zero.

§ 24.2-641. Sample ballot.

The electoral board *or general registrar* shall provide for each precinct in which any voting or counting machines are used; two sample ballots, which shall be arranged as a diagram of the front of the voting or counting machine as it will appear with the official ballot for voting on election day. Such sample ballots shall be posted for public inspection at each polling place during the day of election.

§ 24.2-642. Inoperative equipment.

A. When any voting or counting machine becomes inoperative in whole or in part while the polls are open, the officers of election shall immediately notify the electoral board *or general registrar*. If possible, the electoral board *or general registrar* shall dispatch a qualified technician to the polling place to repair the inoperative machine. All repairs shall be made in the presence of two officers of election representing the two political parties or, in the case of a primary election for only one party, two officers representing that party. If the machine cannot be repaired on site, the ~~electoral board~~ *general registrar* shall, if possible, substitute a machine in good order for the inoperative machine and at the close of the polls the record of both machines shall be taken and the votes shown on their counters shall be added together in ascertaining the results of the election.

No voting or counting machines, including inoperative machines, shall be removed from the plain view of the officers of election or from the polling place at any time during the election and through the determination of the vote as provided in § 24.2-657 except as explicitly provided pursuant to the provisions of this title.

No voting or counting machine that has become inoperative and contains votes may be removed from the polling place while the polls are open and votes are being ascertained. If the officers of election are unable to ascertain the results from the inoperative machine after the polls close in order to add its results to the results from the other machines in that precinct, the officers of election shall lock and seal the machine without removing the memory card, cartridge, or data storage medium and deliver the machine to either the clerk of court or registrar's office as provided for in § 24.2-659. On the day following the election, the electoral board shall meet and ascertain the results from the inoperative machine in accordance with the procedures prescribed by the machine's manufacturer and add the results to the results for the precinct to which the machine was assigned.

Nothing in this subsection shall prohibit the removal of an inoperative machine from a precinct prior to the opening of the polls or the first vote being cast on that machine. Any machine so removed shall be placed in the custody of an authorized custodian, technician, *general registrar*, or electoral board representative. If the inoperative machine can be repaired, it shall be retested and resealed pursuant to § 24.2-634 and may be returned to the precinct by an authorized custodian, technician, *general registrar*, or electoral board representative. The officers of election shall then open the machine pursuant to § 24.2-639.

B. In any precinct that uses a ballot that can be read without the use of the ballot scanner machine, if the ballot scanner machine becomes inoperative and there is no other available scanner, the uncounted ballots shall be placed in a ballot container or compartment that is used exclusively for uncounted ballots. If an operative scanner is available in the polling place after the polls have closed, such uncounted ballots shall be removed from the container and fed into the scanner, one at a time, by an officer of election in the presence of all persons who may be lawfully present at that time but before the votes are determined pursuant to § 24.2-657. If such a scanner is not available, the ballots may be counted manually or as directed by the electoral board.

C. An officer of election may have copies of the official paper ballot reprinted or reproduced by photographic, electronic, or mechanical processes for use at the election if (i) the inoperative machine cannot be repaired in time to continue using it at the election, (ii) a substitute machine is needed to conduct the election but is not available for use, (iii) the supply of official printed ballots that can be cast without use of the inoperative machine is not adequate, and (iv) the local electoral board approves the reprinting or reproducing of the official paper ballot. The voted ballot copies may be received by the officers of election and placed in the ballot container and counted with the votes registered on the voting or counting machines, and the result shall be declared the same as though no machine has been inoperative. The voted ballot copies shall be deemed official ballots for the purpose of § 24.2-665 and preserved and returned with the statement of results and with a certificate setting forth how and why the same were voted. The officer of election who had the ballot copies made shall provide a written statement of the number of copies made, signed by him and subject to felony penalties for making false statements pursuant to § 24.2-1016, to be preserved with the unused ballot copies.

§ 24.2-647. Voting systems; demonstration on election day.

The ~~electoral board~~ *general registrar* shall provide at each polling place on election day, for the voting system in use, a model of or materials displaying a portion of its ballot face. The model or materials shall be located on the table of one of the officers or in some other place accessible to the voters. An officer of election shall instruct any voter who requests instruction before voting on the proper manner of voting. The officer may direct the voter's attention to sample ballots so that the voter may become familiar with the location of questions and names of offices and candidates.

For ballot scanner machines, an officer of election, using a demonstration ballot and machine, shall show each voter who requests, immediately on entry to the polling place, the manner in which the ballot is to be voted.

If any voter, after entering the voting booth, asks for further instructions concerning the manner of voting, two of the officers from different political parties shall give such instructions to him, but no officer shall in any manner request or seek to persuade or induce any such voter to vote for or against any particular ticket, candidate, or question. After giving such instructions and before the voter votes, the officers shall leave the voting booth, and the voter shall cast his ballot in secret.

§ 24.2-659. Locking voting and counting machines after election and delivering keys to clerk; printed returns as evidence.

A. If the voting or counting machine is secured by the use of equipment keys, after the officers of election lock and seal each machine, the equipment keys shall be enclosed in an envelope that shall be sealed and have endorsed thereon a certificate of an officer of election stating the election precinct, the number of each machine, the number on the seal, and the number of the protective counter, if one, on the machine. The sealed envelope shall be delivered by one of the officers of the election to the clerk of the circuit court where the election was held. The custodians of the voting equipment shall enclose and seal in an envelope, properly endorsed, all other keys to all voting equipment in their jurisdictions and deliver the envelope to the clerk of the circuit court by noon on the day following the election. If the voting or counting machines are secured by the use of equipment keys or electronic activation devices that are not specific to a particular machine, after the officers of election lock and seal each machine, the equipment keys and electronic activation devices shall be enclosed in an envelope that shall be sealed and have endorsed thereon a certificate of an officer of election stating the election precinct. The sealed envelope shall be delivered by one of the officers of election to the clerk of the circuit court where the election was held.

If the voting or counting machine is secured by removal of the data storage device used in that election, the officers shall remove the data storage device and proceed to lock and seal each machine. The data storage device shall be enclosed in an envelope that shall be sealed and have endorsed thereon a certificate of an officer of election stating the election precinct, the number of each machine, the number on the seal, and the number of the protective counter, if one, on the machine. The sealed envelope shall be delivered by one of the officers of election to the clerk of the circuit court where the election was held. The equipment keys used at the polls shall be sealed in a different envelope and delivered to the clerk who shall release them to the ~~electoral board~~ *general registrar* upon request or at the expiration of the time specified by this section.

If the voting or counting machine provides for the creation of a separate master electronic back-up on a data storage device that combines the data for all of the voting or counting machines in a given precinct, that data storage device shall be enclosed in an envelope that shall be sealed and have endorsed thereon a certificate of an officer of election stating the name of the precinct. The sealed envelope shall be delivered by one of the officers of election to the clerk of the circuit court where the election was held. The data storage device for the individual machines may remain sealed in its individual machine until the expiration of the time specified by this section. The equipment keys and the electronic activation devices used at the polls shall be sealed together in a separate envelope and delivered to the clerk who shall release them to the ~~electoral board~~ *general registrar* upon request or at the expiration of the time specified by this section.

The voting and counting machines shall remain locked and sealed until the deadline to request a recount under Chapter 8 (§ 24.2-800 et seq.) has passed and, if any contest or recount is pending thereafter, until it has been concluded. The machines shall be opened and all data examined only (i) on the order of a court of competent jurisdiction or (ii) on the request of an authorized representative of the State Board, or the electoral board *or general registrar* at the direction of the State Board, in order to ensure the accuracy of the returns. In the event that machines are examined under clause (ii) of this paragraph, each political party and each independent candidate on the ballot, or each primary candidate, shall be entitled to have a representative present during such examination. The representatives and observers lawfully present shall be prohibited from interfering with the officers of election in any way. The State Board ~~or~~ local electoral board, *or general registrar* shall provide such parties and candidates reasonable advance notice of the examination.

When recounts occur in precincts using direct recording electronic machines with printed return sheets, the printed return sheets delivered to the clerk may be used as the official evidence of the results.

When the required time has expired, the clerk of the circuit court shall return all voting equipment keys to the ~~electoral board~~ *general registrar*.

B. The local electoral board *or general registrar* may direct that the officers of election and custodians, in lieu of conveying the sealed equipment keys to the clerk of the circuit court as provided in subsection A, shall convey them to the principal office of the general registrar on the night of the election. The general registrar shall secure and retain the sealed equipment keys and any other electronic locking or activation devices in his office and shall convey them to the clerk of the court by noon of the day following the ascertainment of the results of the election by the electoral board.

§ 24.2-668. Pollbooks, statements of results, and ballots to be sealed and delivered to clerk or general registrar.

A. After ascertaining the results and before adjourning, the officers shall put the pollbooks, the duplicate statements of results, and any printed inspection and return sheets in the envelopes provided by the State Board. The officers shall seal the envelopes and direct them to the clerk of the circuit court for the county or city. The pollbooks, statements, and sheets thus sealed and directed, the sealed counted ballots envelope or container, and the unused, defaced, spoiled and set aside ballots properly accounted for, packaged and sealed, shall be conveyed by one of the officers to be determined by lot, if they cannot otherwise agree, to the clerk of court by noon on the day following the election.

The clerk shall retain custody of the pollbooks, paper ballots, and other elections materials until the time has expired for initiating a recount, contest, or other proceeding in which the pollbooks, paper ballots, and other elections materials may be needed as evidence and there is no proceeding pending. The clerk shall (i) secure all pollbooks, paper ballots and other election materials in sealed boxes; (ii) place all of the sealed boxes in a vault or room not open to the public or to anyone other than the clerk and his staff; (iii) cause such vault or room to be securely locked except when access is necessary for the clerk and his staff; and (iv) upon the initiation of a recount, certify that these security measures have been taken in whatever form is deemed appropriate by the chief judge.

After that time the clerk shall deliver the pollbooks to the general registrar who shall return the pollbooks or transfer a copy of the electronic data to the State Board as directed by § 24.2-114 for voting credit purposes. After the pollbooks are returned by the State Board, the general registrar shall retain the pollbooks in his principal office for two years from the date of the election. The clerk shall retain the statement of results and any printed inspection and return sheets for two years and may then destroy them.

B. The local electoral board *or general registrar* may direct that the officers of election, in lieu of conveying the materials to the clerk of the circuit court as provided in subsection A ~~of this section~~, shall convey the materials to the principal office of the general registrar on the night of the election or the morning following the election as the board directs. The general registrar shall secure and retain the materials in his office and shall convey to the clerk of the court, by noon of the day following the ascertainment of the results of the election by the electoral board, all of the election materials. The general registrar shall retain for public inspection one copy of the statement of results.

C. If an electronic pollbook is used, the data disc or cartridge containing the electronic records of the election, or, alternately, a printed copy of the pollbook records of those who voted, shall be transmitted, sealed and retained as required

by this section, and otherwise treated as the pollbook for that election for all purposes subsequent to the election. Nothing in this title shall be construed to require that the equipment or software used to produce the electronic pollbook be sealed or retained along with the pollbook, provided that the records for the election have been transferred or printed according to the instructions of the State Board.

§ 24.2-683. Writ for special election to fill a vacancy.

Whenever the Governor, Speaker of the House, President pro tempore of the Senate, or either house of the General Assembly orders a special election, he, or the person designated to act for the house, shall issue a writ of election designating the office to be filled at the election and the time to hold the election. He shall transmit the writ to the secretary of the electoral board *and the general registrar* of each county or city in which the election is to be held. Each ~~secretary~~ *general registrar* shall post a copy of the writ on the official website for the county or city or at not less than 10 public places or have notice of the election published once in a newspaper of general circulation in his jurisdiction at least 10 days before the election. If the special election is held in more than one county or city, the ~~secretaries~~ *general registrars* may act jointly to have the notice published once before the election in the affected jurisdictions.

Whenever a special election is ordered to fill a vacancy otherwise than under the preceding paragraph, the officer ordering the election shall issue his writ of election at the time the vacancy occurs, designating the office to be filled at the election and the time and place to hold the election. He shall direct and transmit the writ to the secretary of the electoral board *and the general registrar* of each county or city in which the election is to be held. The ~~secretary~~ *general registrar*, or ~~secretaries~~ *general registrars* if the election will be held in more than one county or city, shall proceed to cause public notice to be given of the election in the same manner as is required in the preceding paragraph.

A copy of any order calling a special election to fill a vacancy shall be sent immediately to the State Board.

§ 24.2-684. How referendum elections called and held, and the results ascertained and certified.

Notwithstanding any other provision of any law or charter to the contrary, the provisions of this section shall govern all referenda.

No referendum shall be placed on the ballot unless specifically authorized by statute or by charter.

Whenever any question is to be submitted to the voters of any county, city, town, or other local subdivision, the referendum shall in every case be held pursuant to a court order as provided in this section. The court order calling a referendum shall state the question to appear on the ballot in plain English as that term is defined in § 24.2-687. The order shall be entered and the election held within a reasonable period of time subsequent to the receipt of the request for the referendum if the request is found to be in proper order. The court order shall set the date for the referendum in conformity with the requirements of § 24.2-682.

A copy of the court order calling a referendum shall be sent immediately to the State Board by the clerk of the court in which the order was issued.

The ballot shall be prepared by the appropriate ~~electoral board~~ *general registrar* and distributed to the appropriate precincts. On the day fixed for the referendum, the regular election officers shall open the polls and take the sense of the qualified voters of the county, city, town, or other local subdivision, as the case may be, on the question so submitted. The ballots for use at any such election shall be printed to state the question as follows:

"(Here state briefly the question submitted)

Yes

No"

The ballots shall be printed, marked, and counted and returns made and canvassed as in other elections. The results shall be certified by the secretary of the appropriate electoral board to the State Board, to the court ordering the election, and to such other authority as may be proper to accomplish the purpose of the election.

§ 24.2-712. Central absentee voter precincts; counting ballots.

A. Notwithstanding any other provision of law, the governing body of each county or city may establish one or more central absentee voter precincts in the courthouse or other public buildings for the purpose of receiving, counting, and recording absentee ballots cast in the county or city. The decision to establish any absentee voter precinct shall be made by the governing body by ordinance; the ordinance shall state for which elections the precinct shall be used. The decision to abolish any absentee voter precinct shall be made by the governing body by ordinance. Immediate notification of either decision shall be sent to the Department of Elections and the electoral board.

B. Each central absentee voter precinct shall have at least three officers of election as provided for other precincts. The number of officers shall be determined by the electoral board *and general registrar*.

C. If any voter brings an unmarked ballot to the central absentee voter precinct on the day of the election, he shall be allowed to vote it. If any voter brings an unmarked ballot to the general registrar on or before the day of the election, he shall be allowed to vote it, and his ballot shall be delivered to the absentee voter precinct pursuant to § 24.2-710.

The officers at the absentee voter precinct shall determine any appeal by any other voter whose name appears on the absentee voter applicant list and who offers to vote in person. If the officers at the absentee voter precinct produce records showing the receipt of his application and the certificate or other evidence of mailing for the ballot, they shall deny his appeal. If the officers cannot produce such records, the voter shall be allowed to vote in person at the absentee voter precinct and have his vote counted with other absentee votes. If the voter's appeal is denied, the provisions of § 24.2-708 shall be applicable, and the officers shall advise the voter that he may vote on presentation of a statement signed by him that he has not received an absentee ballot and subject to felony penalties for making false statements pursuant to § 24.2-1016.

D. Absentee ballots may be processed as required by § 24.2-711 by the officers of election at the central absentee voter precinct prior to the closing of the polls but the ballot container shall not be opened and the counting of ballots shall not begin prior to that time. In the case of machine-readable ballots, the ballot container may be opened and the absentee ballots may be inserted in the counting machines prior to the closing of the polls in accordance with procedures prescribed by the Department of Elections, including procedures to preserve ballot secrecy, but no ballot count totals shall be initiated prior to that time.

As soon as the polls are closed in the county or city the officers of election at the central absentee voter precinct shall proceed promptly to ascertain and record the vote given by absentee ballot and report the results in the manner provided for counting and reporting ballots generally in Article 4 (§ 24.2-643 et seq.) of Chapter 6.

E. The electoral board *or general registrar* may provide that the officers of election for a central absentee voter precinct may be assigned to work all or a portion of the time that the precinct is open on election day subject to the following conditions:

1. The chief officer and the assistant chief officer, appointed pursuant to § 24.2-115 to represent the two political parties, are on duty at all times; and

2. No officer, political party representative, or other candidate representative shall leave the precinct after any ballots have been counted until the polls are closed and the count for the precinct is completed and reported.

F. The general registrar may provide that the central absentee voter precinct will open after 6:00 a.m. on the day of the election provided that the office of the general registrar will be open for the receipt of absentee ballots until the central absentee voter precinct is open and that the officers of election for the central absentee voter precinct obtain the absentee ballots returned to the general registrar's office for the purpose of counting the absentee ballots at the central absentee voter precinct and provided further that the central absentee voter precinct is the same location as the office of the general registrar.

An Act to amend and reenact § 4.1-210 of the Code of Virginia, relating to alcoholic beverage control; mixed beverage licenses; performing arts facilities.

[H 226]

Approved February 25, 2016

Be it enacted by the General Assembly of Virginia:

1. That § 4.1-210 of the Code of Virginia is amended and reenacted as follows:

A. Subject to the provisions of § 4.1-124, the Board may grant the following licenses relating to mixed beverages:

1. Mixed beverage restaurant licenses, which shall authorize the licensee to sell and serve mixed beverages for consumption in dining areas and other designated areas of such restaurant. Such license may be granted only to persons (i) who operate a restaurant and (ii) whose gross receipts from the sale of food cooked or prepared, and consumed on the premises and nonalcoholic beverages served on the premises, after issuance of such license, amount to at least 45 percent of the gross receipts from the sale of mixed beverages and food. For the purposes of this subdivision, other designated areas shall include outdoor dining areas, whether or not contiguous to the licensed premises, which outdoor dining areas may have more than one means of ingress and egress to an adjacent public thoroughfare, provided such areas are under the control of the licensee and approved by the Board. Such noncontiguous designated areas shall not be approved for any retail license issued pursuant to subdivision A 5 of § 4.1-201.

Where such club prepares no food in its restaurant but purchases its food requirements from a restaurant licensed by the Board and located on another portion of the premises of the same hotel or motel building, this fact shall not prohibit the granting of a license by the Board to such club qualifying in all other respects. The club's gross receipts from the sale of nonalcoholic beverages consumed on the premises and food resold to its members and guests and consumed on the premises shall amount to at least 45 percent of its gross receipts from the sale of mixed beverages and food. 4. Mixed beverage special events licenses, to a duly organized nonprofit corporation or association in charge of a special event, which shall authorize the licensee to sell and serve mixed beverages for on-premises consumption in areas approved by the Board on the premises of the place designated in the license. The operation in all cases shall be upon premises owned by such licensee or occupied under a bona fide lease the original term of which was for more than one year's duration. Such license shall authorize the licensee to sell alcoholic beverages during scheduled events and performances for on-premises consumption in areas upon the licensed premises approved by the Board.

An Act to amend and reenact § 4.1-235 of the Code of Virginia, relating to alcoholic beverage control; distribution of liter tax on cider produced by farm wineries.

[H 654]

Approved February 25, 2016

Be it enacted by the General Assembly of Virginia:

1. That § 4.1-235 of the Code of Virginia is amended and reenacted as follows:

§ 4.1-235. Collection; computation, distribution of tax on wine and other alcoholic beverages; refunds and adjustments.

A. The Board shall collect the state taxes levied pursuant to §§ 4.1-213 and 4.1-234 as follows:

1. Collection shall be from the purchaser at the time of or prior to sale, except as to sales made to wholesale wine licensees. Wholesale wine licensees shall collect the taxes at the time of or prior to sale to retail licensees, and shall remit

such taxes monthly to the Board, along with such reports as may be required by the Board, at the time and in the manner prescribed by the Board.

2. In establishing the prices for items sold by it to persons other than wholesale licensees, the Board shall include a reasonable markup. The liter tax or 20 percent tax, as appropriate, shall then be added to the price of each container of alcoholic beverages. The four percent tax on vermouth and farm winery wines *and ciders* shall then be added for those products. In all cases the final price for each container may be established so as to be a multiple of five or rounded to end with a nine.

In accounting for the state tax on sales the Board shall divide the net sales for the quarter by 1.20 and multiply the result by 20 percent. As to the sale of vermouth and farm winery wine *and cider*, the Board shall divide the net sales for the quarter by 1.04 and multiply the result by four percent.

B. The amount of tax collected under this section during each quarter shall, within 50 days after the close of such quarter, be certified to the Comptroller by the Board and shall be transferred by him from the special fund described in § 4.1-116 to the general fund of the state treasury. The Board shall, not later than June 20 of every year, estimate the yield of the state tax on sales imposed by §§ 4.1-213 and 4.1-234 for the quarter ending June 30 and certify the amount of such estimate to the Comptroller, whereupon the Comptroller shall, before the end of the month, transfer the amount of such estimate from the special fund described in § 4.1-116 to the general fund of the state treasury, subject to such adjustment on account of an overestimate or underestimate as may be indicated within 50 days after the close of the quarter ending on June 30.

Forty-four percent of the amount derived from the liter tax levied pursuant to §§ ~~4.1-234~~ 4.1-213 and 4.1-234 shall be transferred to the general fund and paid to the several counties, cities, and towns of the Commonwealth in proportion to their respective populations, and is appropriated for such purpose.

The counties, cities, and towns shall in no event receive from the taxes derived from the sale of wines less revenue than was received by such counties, cities, and towns for the year ending June 30, 1976.

The portion of wine liter tax *and cider markup* collected pursuant to §§ 4.1-213 and 4.1-234 that is attributable to the sale of wine *and cider* produced by a farm winery shall be deposited in the Virginia Wine Promotion Fund established pursuant to § 3.2-3005.

Twelve percent of the amount derived from the liter tax levied shall be retained by the Board as operating revenue and distributed as provided in § 4.1-117.

C. As used in this section, the term "net sales" means gross sales less refunds to customers.

D. The Board may make a refund or adjustment of any tax paid to it under this section when (i) the wine upon which such tax has been paid has been condemned and is not permitted to be sold in the Commonwealth, or (ii) wine is returned by a retail licensee to a wholesale wine licensee for refund in accordance with Board regulations or approval. § 51.5-41. Discrimination against otherwise qualified persons with disabilities by employers prohibited.

A. No employer shall discriminate in employment or promotion practices against an otherwise qualified person with a disability solely because of such disability. For the purposes of this section, an "otherwise qualified person with a disability" means a person qualified to perform the duties of a particular job or position and whose disability is unrelated to the person's ability to perform such duties or position or is unrelated to the person's qualifications for employment or promotion.

B. It is the policy of the Commonwealth that persons with disabilities shall be employed in the state service, the service of the political subdivisions of the Commonwealth, in the public schools, and in all other employment supported in whole or in part by public funds on the same terms and conditions as other persons unless it is shown that the particular disability prevents the performance of the work involved.

C. An employer shall make reasonable accommodation to the known physical and mental impairments of an otherwise qualified person with a disability, if necessary to assist such person in performing a particular job, unless the employer can demonstrate that the accommodation would impose an undue burden on the employer. For the purposes of this section, "mental impairment" does not include active alcoholism or current drug addiction and does not include any mental impairment, disease, or defect that has been successfully asserted by an individual as a defense to any criminal charge.

1. In determining whether an accommodation would constitute an undue burden upon the employer, the following shall be considered:

- b. Size of the facility where employment occurs;

c. The nature and cost of the accommodations needed, taking into account alternate sources of funding or technical assistance included under §§ ~~51.5-165~~ and 51.5-173;

d. The possibility that the same accommodations may be used by other prospective employees;

e. Safety and health considerations of the person with a disability, other employees, and the public.

2. Notwithstanding the foregoing, any accommodation that would exceed \$500 in cost shall be rebuttably presumed to impose an undue burden upon any employer with fewer than 50 employees.

3. The employer has the right to choose among equally effective accommodations.

4. Nothing in this section shall require accommodations when the authority to make such accommodations is precluded under the terms of a lease or otherwise prohibited by statute, ordinance, or other regulation.

5. Building modifications made for the purposes of such reasonable accommodation may be made without requiring the remainder of the existing building to comply with the requirements of the Uniform Statewide Building Code.

D. Nothing in this section shall prohibit an employer from refusing to hire or promote, from disciplining, transferring, or discharging or taking any other personnel action pertaining to an applicant or an employee who, because of his disability, is unable to adequately perform his duties, or cannot perform such duties in a manner which would not endanger his health or safety or the health or safety of others. Nothing in this section shall subject an employer to any legal liability resulting from the refusal to employ or promote or from the discharge, transfer, discipline of, or the taking of any other personnel action pertaining to a person with a disability who, because of his disability, is unable to adequately perform his duties, or cannot perform such duties in a manner that would not endanger his health or safety or the health or safety of others.

E. Nothing in this section shall be construed as altering the provisions of the Virginia Minimum Wage Act (§ 40.1-28.8 et seq.).

F. This section shall not apply to employers covered by the federal Rehabilitation Act of 1973.

G. No employer who has hired any person because of the requirements of this section shall be liable for any alleged negligence in such hiring.

Be it enacted by the General Assembly of Virginia:**1. That § 4.1-210 of the Code of Virginia is amended and reenacted as follows:****§ 4.1-210. Mixed beverages licenses.**

A. Subject to the provisions of § 4.1-124, the Board may grant the following licenses relating to mixed beverages:

1. Mixed beverage restaurant licenses, which shall authorize the licensee to sell and serve mixed beverages for consumption in dining areas and other designated areas of such restaurant. Such license may be granted only to persons (i) who operate a restaurant and (ii) whose gross receipts from the sale of food cooked or prepared, and consumed on the premises and nonalcoholic beverages served on the premises, after issuance of such license, amount to at least 45 percent of the gross receipts from the sale of mixed beverages and food. For the purposes of this subdivision, other designated areas shall include outdoor dining areas, whether or not contiguous to the licensed premises, which outdoor dining areas may have more than one means of ingress and egress to an adjacent public thoroughfare, provided such areas are under the control of the licensee and approved by the Board. Such noncontiguous designated areas shall not be approved for any retail license issued pursuant to subdivision A 5 of § 4.1-201.

If the restaurant is located on the premises of a hotel or motel with not less than four permanent bedrooms where food and beverage service is customarily provided by the restaurant in designated areas, bedrooms and other private rooms of such hotel or motel, such licensee may (i) sell and serve mixed beverages for consumption in such designated areas, bedrooms and other private rooms and (ii) sell spirits packaged in original closed containers purchased from the Board for on-premises consumption to registered guests and at scheduled functions of such hotel or motel only in such bedrooms or private rooms. Where such club prepares no food in its restaurant but purchases its food requirements from a restaurant licensed by the Board and located on another portion of the premises of the same hotel or motel building, this fact shall not prohibit the granting of a license by the Board to such club qualifying in all other respects. The club's gross receipts from the sale of nonalcoholic beverages consumed on the premises and food resold to its members and guests and consumed on the premises shall amount to at least 45 percent of its gross receipts from the sale of mixed beverages and food. The operation in all cases shall be upon premises owned by such licensee or occupied under a bona fide lease the original term of which was for more than one year's

duration. Such license shall authorize the licensee to sell alcoholic beverages during scheduled events and performances for on-premises consumption in areas upon the licensed premises approved by the Board.

§ 20-60.5. Support payment provisions; how paid.

A. 1. Unless otherwise directed by the Committee on District Courts, in all cases in which payment of a support obligation arising under an order or decree entered prior to October 1, 1985, is made by the obligor through the office of a clerk of court, the clerk shall notify the payee and the obligor that the obligor will be directed to pay future support payments to the Department of Social Services as of the date provided in the notice.

In cases transferred from the courts to the Department of Social Services on or after October 1, 1985, the payee shall be deemed as having executed an authorization to seek or enforce a support obligation with the Department's Division of Child Support Enforcement unless the payee specifically indicates that the Division's services are not desired.

2. Unless otherwise directed by the Department of Social Services, the notice of change in payment shall be served or sent by certified mail, return receipt requested, and shall contain (i) the name of the payee and, if different in whole or in part, the names of the persons to whom an obligation of support is owed by the obligor, (ii) the name of the obligor, (iii) the amount of the periodic support payment, the due dates of such payments and any arrearages, (iv) the beginning date for sending payments to the Department of Social Services, and (v) the date by which the payee and obligor shall notify the Department of Social Services of the election to (a) have the Department of Social Services collect and disburse support payments together with forms and instructions for applying for such services or (b) have support payment made by the obligor directly to the payee. A copy of the notice also shall be transmitted to the Department of Social Services.

3. Unless otherwise directed by the Committee on District Courts, if both the obligor and the payee request in writing to the Department of Social Services that all support payments be made by the obligor directly to the payee, then the Department of Social Services shall so notify the court and the court shall enter an order to such effect. In the event an election is taken pursuant to subdivision 2 (v) (a), the notice of election shall have the same force and effect as an order of the court.

4. The above provisions shall also apply to payroll deductions made pursuant to § 20-79.1, except that only the payee and the employer shall receive such notice.

5. The change in payment provision required by subsection A shall be initiated by October 1, 1985, unless a different date is mutually agreed to by the Department of Social Services and the Committee on District Courts as to individual courts.

B. Unless a different date is mutually agreed to by the Department of Social Services and the Committee on District Courts, all orders or decrees for support entered on or after October 1, 1985, shall direct that payment be made only to the payee unless one of the parties objects, in which case the order or decree shall direct that payment be made to or through the Department of Social Services.

C. The Department of Social Services shall promptly pay to the payee all support payments collected by it which have been ordered by a court to be paid to or through the Department. The Department shall pay interest to the payee when such interest amount exceeds ~~five dollars~~ \$5 on a support payment as provided in § 63.2-1951.

D. If the Department of Social Services enters into a contract with a public or private entity for the processing of support payments, then, except as provided in subsection E, and notwithstanding any other provision of this section:

1. The Department shall notify the affected court of the existence of such contract and how payments are contractually required to be made to such contractors; and

2. The affected court shall include in all support orders (i) how payments are required to be made to such contractors and (ii) that payments are to be made in such manner until different payment instructions are mailed to the person making payments by the court or by the Department.

E. An employer of 10,000 persons or more shall not be required to make payments other than by combined single payment to the Department's central office in Richmond without the express written consent of the employer, unless the order is from a support enforcement agency outside the Commonwealth.

F. Upon any obligee's application for public assistance benefits or child support services, the Department of Social Services may change the payee to the Department so that payment is sent to the Department at its address as contained in the notice of change as described in this subsection. Upon the obligee's request that support services no longer be provided, the Department may change the payee to the obligee so that payment is sent to the obligee at the address provided by the obligee as contained in the notice of change as described in this subsection. Notice of such change shall be served on the obligor by certified mail, return receipt requested, *by electronic means*, or in accordance with Chapter 8 (§ 8.01-285 et seq.) or Chapter 9 (§ 8.01-328 et seq.) of Title 8.01. The change described in the notice shall be effective as to all payments paid on or after the date that notice was served regardless of when such payments were due. Return of service shall be made to the Department of Social Services at the location described in the notice. Upon obtaining service of the notice on the obligor, the Department of Social Services shall transmit a copy of such notice together with a copy of the proof of service to the court having jurisdiction for enforcement of the order and to the custodial parent.

§ 46.2-320.1. Other grounds for suspension; nonpayment of child support.

A. The Commissioner may enter into an agreement with the Department of Social Services whereby the Department may suspend or refuse to renew the driver's license of any person upon receipt of notice from the Department of Social Services that the person (i) is delinquent in the payment of child support by 90 days or more or in an amount of \$5,000 or more or (ii) has failed to comply with a subpoena, summons, or warrant relating to paternity or child support proceedings. A suspension or refusal to renew authorized pursuant to this section shall not be effective until 30 days after service on the delinquent obligor of notice of intent to suspend or refusal to renew. The notice of intent shall be served on the obligor by the Department of Social Services (a) by certified mail, return receipt requested, *or by electronic means*, sent to the obligor's last known addresses as shown in the records of the Department or the Department of Social Services; or (b) pursuant to § 8.01-296, or service may be waived by the obligor in accordance with procedures established by the Department of Social Services. The obligor shall be entitled to a judicial hearing if a request for a hearing is made, in writing, to the Department of Social Services within 10 days from service of the notice of intent. Upon receipt of the request for a hearing, the Department of Social Services shall petition the court that entered or is enforcing the order, requesting a hearing on the proposed suspension or refusal to renew. The court shall authorize the suspension or refusal to renew only if it finds that the obligor's noncompliance with the child support order was willful. Upon a showing by the Department of Social Services that the obligor is delinquent in the payment of child support by 90 days or more or in an amount of \$5,000 or more, the burden of proving that the delinquency was not willful shall rest upon the obligor. The Department shall not suspend or refuse to renew the driver's license until a final determination is made by the court.

B. At any time after service of a notice of intent, the person may petition the juvenile and domestic relations district court in the jurisdiction where he resides for the issuance of a restricted license to be used if the suspension or refusal to renew becomes effective. Upon such petition and a finding of good cause, the court may provide that such person be issued a restricted permit to operate a motor vehicle for any of the purposes set forth in subsection E of § 18.2-271.1. A restricted license issued pursuant to this subsection shall not permit any person to operate a commercial motor vehicle as defined in § 46.2-341.4. The court shall order the surrender of the person's license to operate a motor vehicle, to be disposed of in accordance with the provisions of § 46.2-398, and shall forward to the Commissioner a copy of its order entered pursuant to this subsection. The order shall specifically enumerate the restrictions imposed and contain such information regarding the person to whom such a permit is issued as is reasonably necessary to identify him.

C. The Department shall not renew a driver's license or terminate a license suspension imposed pursuant to this section until it has received from the Department of Social Services a certification that the person has (i) paid the delinquency in full; (ii) reached an agreement with the Department of Social Services to satisfy the delinquency within a period not to exceed 10 years, and at least one payment representing at least five percent of the total delinquency or \$600, whichever is greater, has been made pursuant to the agreement; (iii) complied with a subpoena, summons, or warrant relating to a paternity or child support proceeding; or (iv) completed or is successfully participating in an intensive case monitoring program for child support as ordered by a juvenile and domestic relations district court or as administered by the Department of Social Services. Certification by the Department of Social Services shall be made by electronic or telephonic communication and shall be made on the same work day that payment required by clause (i) or (ii) is made.

D. If a person who has entered into an agreement with the Department of Social Services pursuant to clause (ii) of subsection C fails to comply with the requirements of the agreement, the Department of Social Services shall notify the Department of the person's noncompliance and the Department shall suspend or refuse to renew the driver's license of the person until it has received from the Department of Social Services a certification that the person has paid the delinquency in full or has entered into a subsequent agreement with the Department of Social Services to satisfy the delinquency within a period not to exceed seven years and has made at least one payment of \$1,200 or five percent of the total delinquency, whichever is greater, pursuant to the agreement. If the person fails to comply with the terms of a subsequent agreement reached with the Department of Social Services pursuant to this section, without further notice to the person as provided in the subsequent agreement, the Department of Social Services shall notify the Department of the person's noncompliance, and the Department shall suspend or refuse to renew the driver's license of the person. A person who has failed to comply with the terms of a second or subsequent agreement pursuant to this subsection may be granted a new agreement with the

Department of Social Services if the person has made at least one payment of \$1,800 or five percent of the total delinquency, whichever is greater, and agrees to a repayment schedule of not more than seven years. Upon receipt of certification from the Department of Social Services of the person's satisfaction of these conditions, the Department shall issue a driver's license to the person or reinstate the person's driver's license. Certification by the Department of Social Services shall be made by electronic or telephonic communication and shall be made on the same work day that payment required by this subsection is made.

§ 63.2-527. Notice of earned income tax credit.

The Department shall provide notice regarding the availability of the federal earned income tax credit authorized in § 32 of the Internal Revenue Code and the state earned income tax credit authorized in subdivision B 2 of § 58.1-339.8 to all recipients of Temporary Assistance for Needy Families pursuant to Chapter 6 (§ 63.2-600 et seq.), food stamps pursuant to § 63.2-801, or medical assistance pursuant to § 32.1-325 who had earned income in the prior tax year based on information available through the Virginia Employment Commission and, according to information made available by the Virginia Department of Taxation, either did not file federal or state income taxes or filed taxes and did not claim the federal or state earned income tax credit. A statement that the parents shall keep the Department informed regarding access to health insurance coverage and health insurance policy information and a statement that health care coverage shall be required for the parents' dependent children if available at reasonable cost as defined in § 63.2-1900, or pursuant to subsection A of § 63.2-1903. If a child is enrolled in Department-sponsored health care coverage, the Department shall collect the cost of the coverage pursuant to subsection E of § 20-108.2;

9. A statement of each party's right to appeal and the procedures applicable to appeals from the decision of the Commissioner;

10. A statement that the obligor's income shall be immediately withheld to comply with this order unless the obligee, or the Department, if the obligee is receiving public assistance, and obligor agree to an alternative arrangement;

11. A statement that any determination of a support obligation under this section creates a judgment by operation of law and as such is entitled to full faith and credit in any other state or jurisdiction;

12. A statement that each party shall give the Department written notice of any change in his address, *including email address*, or phone number, *including cell phone number*, within 30 days;

13. A statement that each party shall keep the Department informed of the name, telephone number and address of his current employer;

14. A statement that if any arrearages for child support, including interest or fees, exist at the time the youngest child included in the order emancipates, payments shall continue in the total amount due (current support plus amount applied toward arrearages) at the time of emancipation until all arrearages are paid;

15. A statement that a petition may be filed for suspension of any license, certificate, registration, or other authorization to engage in a profession, trade, business, occupation, or recreational activity issued by the Commonwealth to a parent as provided in § 63.2-1937 upon a delinquency for a period of 90 days or more or in amount of \$5,000 or more. The order shall indicate whether either or both parents currently hold such an authorization and, if so, the type of authorization held;

16. A statement that the Department of Motor Vehicles may suspend or refuse to renew the driver's license of any person upon receipt of notice from the Department of Social Services that the person (i) is delinquent in the payment of child support by 90 days or in an amount of \$5,000 or more or (ii) has failed to comply with a subpoena, summons, or warrant relating to paternity or child support proceedings; and

17. A statement that on and after July 1, 1994, the Department of Social Services, as provided in § 63.2-1921 and in accordance with § 20-108.2, may initiate a review of the amount of support ordered by any court.

If no answer is received by the Commissioner within 10 days of the date of service or acceptance, the administrative support order shall be effective as provided in the notice. The Commissioner may initiate collection procedures pursuant to this chapter, Chapter 11 (§ 16.1-226 et seq.) of Title 16.1 or Title 20. The debtor and the obligee have 10 days from the date of receipt of the notice to file an answer with the Commissioner to exercise the right to an administrative hearing.

Any changes in the amount of the administrative order must be made pursuant to this section. In no event shall an administrative hearing alter or amend the amount or terms of any court order for support or decree of divorce ordering support. No *administrative* support order may be retroactively modified, but may be modified ~~with respect to any period during which there is a pending petition for modification in any court, but only~~ from the date that notice of the review has been served on the nonrequesting party. Notice of ~~the each~~ review shall be served ~~for each review on the nonrequesting party~~ (1) in accordance with the provisions of § 8.01-296, 8.01-327, or 8.01-329, ~~or~~ (2) by certified mail, ~~with proof of actual receipt by the addressee return receipt requested, or~~ (3) by *electronic means*, or (4) by the nonrequesting party executing a waiver. The existence of an administrative order shall not preclude either an obligor or obligee from commencing appropriate proceedings in a juvenile and domestic relations district court or a circuit court.

§ 63.2-1917. When delivery of notice to party at last known address may be deemed sufficient.

In any subsequent child support enforcement proceeding between the parties, upon sufficient showing that diligent effort was made to ascertain the location of a party, that party may be served with any required notice by delivery of the written notice to that party's residential or business address as filed with the court pursuant to § 20-60.3 or the Department, or if changed, as shown in the records of the Department or the court *or by electronic means as defined in § 63.2-1900*. However, any person served with notice as provided in this section may challenge, in a subsequent judicial proceeding, an order entered based upon such service on the grounds that he did not receive the notice and enforcement of the order would constitute manifest injustice.

§ 63.2-1921. Authority to initiate reviews of certain orders.

A. The Department may, pursuant to this chapter and in accordance with § 20-108.2, initiate a review of the amount of support ordered by any court. If a material change in circumstances has occurred, the Department shall report its findings and a proposed modified order to the court which entered the order or the court having current jurisdiction. Notice of ~~the each~~ review shall be served ~~for each review on both parties~~ *the nonrequesting party* (i) in accordance with the provisions of §§ 8.01-296, 8.01-327, or § 8.01-329, ~~or~~ (ii) by certified mail, ~~with proof of actual receipt by the addressee return receipt requested, or~~ (iii) by *electronic means*, or (iv) by the nonrequesting party executing a waiver. Either party may request a hearing on the proposed modified order by filing a request with such court within ~~thirty~~ 30 days of receipt of notice by the requesting party. Unless a hearing is requested within the time limits, no hearing shall be required and the court shall enter the modified order, which shall be effective from the date that notice of such review was served on the nonrequesting party. The court shall modify any prior court order, or schedule a hearing on its motion and so notify the parties and the Department. If a hearing is held, the Department shall have the burden of proof.

B. However, if the order being reviewed by the Department deviated from the guidelines, when entered, based on one or more of the deviating factors set out in § 20-108.1 and the Department determines that there has been a material change in circumstances, the procedure set forth in subsection A shall not apply and the Department shall schedule a hearing with the court which entered the order or the court having current jurisdiction.

C. A material change in circumstances shall be deemed to have occurred if the difference between the existing child support award and the amount which would result from application of the guidelines is at least ~~ten~~ 10 percent of the existing child support award but not less than ~~twenty-five dollars~~ \$25 per month.

§ 63.2-1923. Immediate withholding from income; exception; notices required.

A. Every administrative support order directing a noncustodial parent to pay child or child and spousal support shall provide for immediate income withholding from the noncustodial parent's income as defined in § 63.2-1900 of an amount for current support plus an amount to be applied toward liquidation of arrearages, if any, unless the obligor and the Department, on behalf of the obligee, agree to a written alternative payment arrangement, or good cause is shown. Good cause shall be based upon a written determination that, and explanation by the Department of why, implementing immediate withholding would not be in the best interests of the child. The total amount withheld shall not exceed the maximum amount permitted under § 34-29.

B. The order shall include, but not be limited to, notice (i) of the amount that will be withheld, (ii) that the withholding applies to any current or subsequent period of employment, (iii) of the right to contest whether a duty of support is owed and the information specified in the administrative order is correct, (iv) that a written request to appeal the withholding shall be made to the Department within 10 days of receipt of the notice, and (v) of the actions that will be taken by the Department if an appeal is noted, which shall include the opportunity to present his objections to the administrative hearing officer at a hearing held pursuant to § 63.2-1942. Upon service of the order on the employer by first-class or certified mail, *by electronic means*, or *by service in accordance with the provisions of §§ 8.01-296, 8.01-327 or § 8.01-329*, the employer shall deliver the order to the noncustodial parent. ~~A copy shall be sent by first-class mail to the obligee.~~

C. The noncustodial parent's employer shall be issued by first-class or certified mail or by electronic means, including facsimile transmission, an administrative order for withholding of income which shall conform to § 20-79.3. The rights and responsibilities of an employer with respect to such orders are set out in § 20-79.3.

D. Administrative orders for withholding from income shall be promptly terminated or modified by the Department when (i) the obligation to support has been satisfied and arrearages have been paid, (ii) the whereabouts of the child or child and custodial parent become unknown, or (iii) modification is appropriate because of a change in the amount of the obligation.

§ 63.2-1924. Withholding from income; default of administrative or judicial support order; notices required; priorities; orders from other states.

A. As part of every administrative support order directing a noncustodial parent to pay child or child and spousal support or by separate order at any time thereafter, provision shall be made for withholding from the income of the noncustodial parent the amount of the withholding order plus an amount to be applied toward liquidation of arrearages if the noncustodial parent fails to make payments in an amount equal to the support payable for one month. The total amount withheld shall not exceed the maximum amount permitted under § 34-29.

B. Upon default of an administrative or judicial support order, the Department shall serve notice on the noncustodial ~~parent~~ *parent's employer* of the delinquency in accordance with the provisions of §§ 8.01-296, 8.01-327 or § 8.01-329 or by certified mail or electronic means, including facsimile transmission, for delivery to the noncustodial parent. ~~The obligee shall also be sent a copy of such notice.~~ The notice shall inform the noncustodial parent (i) of the amount that will be withheld, (ii) that the withholding applies to any current or subsequent period of employment, (iii) of the right to contest but that the only basis for contesting the withholding is a mistake of fact, (iv) that a written request to contest the withholding must be made to the Department within 10 days of receipt of the notice, (v) of the actions that will be taken by the Department if a request to contest is noted, which shall include the opportunity to present his objections, which shall be limited to a mistake of fact, to the administrative hearing officer at a hearing held pursuant to § 63.2-1942, (vi) that a determination on the contest will be made no later than 45 days from the date of service of such notice, and (vii) that payment of overdue support upon receipt of the required notice shall not be a bar to the implementation of withholding. ~~Upon service of the notice on the employer for delivery to the obligor, a copy shall be sent by first-class mail to the obligee.~~

C. The noncustodial parent's employer shall be issued by first-class or certified mail or by electronic means, including facsimile transmission, an administrative order for withholding of income that shall conform to § 20-79.3. The rights and responsibilities of an employer with respect to such orders are set out in § 20-79.3.

D. The Department shall have the authority in the issuance of an administrative order under § 20-79.3, based on an existing court order, to convert the terms of payment to conform with the obligor's pay period interval. The Department shall utilize the conversion formula established by the Committee on District Courts.

E. Administrative orders for withholding from income shall be promptly terminated or modified by the Department when (i) the obligation to support has been satisfied and arrearages have been paid, (ii) the whereabouts of the child or child and custodial parent become unknown, or (iii) modification is appropriate because of a change in the amount of the obligation.

F. If a court of competent jurisdiction or the agency operating pursuant to an approved state plan under Sections 452 and 454 of the Social Security Act, as amended, in any state, territory of the United States or the District of Columbia has ordered a person to pay child or child and spousal support, upon notice and hearing as provided in this section, the Department shall issue an order, conforming to § 20-79.3, to the noncustodial parent's employer in this Commonwealth to withhold from the income of the noncustodial parent pursuant to a foreign support order in the same manner as provided in this section for administrative orders originating in this Commonwealth. Similar orders of the Department may be enforced in a similar manner in such other state, territory or district.

§ 63.2-1925. Certain amount of income that may be withheld by lien or order.

Whenever a support lien, order to withhold and deliver property or order for withholding of income is served upon any person, firm, corporation, association, political subdivision or department of this Commonwealth asserting a support debt

against income and there is any such income in the possession of such person, then that person shall withhold from the disposable income as defined in § 63.2-100 (i) the amount stated in the lien, the order to withhold and deliver property, or the order for withholding of income; or (ii) the maximum amount permitted under § 34-29, whichever is less. The order shall show the maximum percentage of disposable income which may be withheld pursuant to § 34-29. The lien or order to withhold and deliver shall continue to operate and require such person, firm, corporation, association, political subdivision, or department of this Commonwealth to withhold the nonexempt portion of income at each succeeding income disbursement interval until the entire amount of the support debt stated in the lien has been withheld. The order for withholding of income continues until further notice by first-class or certified mail, return receipt requested, *or by electronic means* from the Department is received by the employer.

§ 63.2-1929. Orders to withhold and to deliver property of debtor; issuance and service; contents; right to appeal; answer; effect; delivery of property; bond to release; fee; exemptions.

A. After notice containing an administrative support order has been served or service has been waived or accepted, an opportunity for a hearing has been exhausted and a copy of the order furnished as provided for in § 63.2-1916, or whenever a court order for child or child and spousal support has been entered, the Commissioner is authorized to issue to any person, firm, corporation, association, political subdivision or department of the Commonwealth, orders to withhold and to deliver property of any kind including, but not restricted to, income of the debtor, when the Commissioner has reason to believe that there is in the possession of such person, firm, corporation, association, political subdivision or department of the Commonwealth, property that is due, owing, or belonging to such debtor. The orders to withhold and to deliver shall take priority over all other debts and creditors under state law of such debtor including the proceeds or anticipated proceeds of a personal injury or wrongful death award or settlement except that the Department's lien shall be inferior to those liens created under § 8.01-66.2 or § 8.01-66.9, any statutory right of subrogation accruing to a health insurance provider, and the lien of the attorney representing the injured person in the personal injury or wrongful death action. However, orders to withhold and to deliver shall not take priority with respect to a prior payroll deduction or income withholding order pursuant to §§ 20-79.1, 20-79.2, 63.2-1923 or § 63.2-1924. The Department shall have the sole authority to negotiate settlement of its liens. Settlement of the Department's support liens does not affect the remaining support arrearages.

B. The order to withhold shall also be served upon the debtor within a reasonable time thereafter, and shall state the amount of the support debt accrued. The order shall state in summary the terms of §§ 63.2-1925 and 63.2-1930 and shall be served in the manner prescribed for the service of a warrant in a civil action ~~or~~ by certified mail, return receipt requested, *or by electronic means*. The order to withhold shall advise the debtor that this order has been issued to cause the property of the debtor to be taken to satisfy the debt and advise of property that may be exempted from this order. The order shall also advise the debtor of a right to appeal such order based upon a mistake of fact and that if no appeal is made within ~~ten~~ 10 days of being served, his property is subject to be taken.

C. If the debtor believes such property is exempt from this debt, within 10 days of the date of service of the order to withhold, the debtor may file an appeal to the Commissioner stating any exemptions that may be applicable. If the Commissioner receives a timely appeal, a hearing shall be promptly scheduled before a hearing officer upon reasonable notice to the obligee. The Commissioner may delegate authority to conduct the hearing to a duly qualified hearing officer who shall consider the debtor's appeal. Action by the Commissioner under the provisions of this chapter to collect such support debt shall be valid and enforceable during the pendency of any appeal.

The decision of the hearing officer shall be in writing and shall set forth the debtor's rights to appeal an adverse decision of the hearing officer pursuant to § 63.2-1943. The decision shall be served upon the debtor in accordance with the provisions of §§ 8.01-296, 8.01-327 or § 8.01-329 ~~or~~ mailed to the debtor at his last known address by certified mail, return receipt requested, *or provided by electronic means* or service may be waived. A copy of such decision shall also be ~~mailed~~ *provided* to the obligee. Such decision shall establish whether the debtor's property is exempt under state or federal laws and regulations.

D. Any person, firm, corporation, association, political subdivision or department of the Commonwealth upon whom service has been made is hereby required to answer such order to withhold within 10 days, exclusive of the day of service, under oath and in writing, and shall file true answers to the matters inquired of therein. In the event there is in the possession of any such person, firm, corporation, association, political subdivision or department of the Commonwealth, any property that may be subject to the claim of the Department, such property shall be withheld immediately upon receipt of the order to withhold, together with any additional property received by such person, firm, corporation, association, political subdivision, or department of the Commonwealth valued up to the amount of the order until receipt of an order to deliver or release. The property shall be delivered to the Commissioner upon receipt of an order to deliver; however, distribution of the property shall not be made during pendency of all appeals. Where money is due and owing under any contract of employment, express or implied, or is held by any person, firm, corporation, or association, political subdivision or department of the Commonwealth subject to withdrawal by the debtor, such money shall be delivered by remittance payable to the order of the Treasurer of Virginia. The person, firm, corporation, political subdivision or department of the Commonwealth herein specified shall be entitled to receive from such debtor a fee of \$5 for each answer or remittance on account of such debtor. The foregoing is subject to the exemptions contained in §§ 63.2-1925 and 63.2-1933.

E. Delivery to the Commissioner shall serve as full acquittance and the Commonwealth warrants and represents that it shall defend and hold harmless for such actions persons delivering money or property to the Commissioner pursuant to this chapter.

F. An order issued to an employer for withholding from the earnings of an employee pursuant to this section shall conform to § 20-79.3. The rights and obligations of an employer with respect to the order are set out in § 20-79.3.

§ 63.2-1930. Civil liability upon failure to comply with lien, order, etc.

Should any person, firm, corporation, association, political subdivision or department of this Commonwealth fail to answer an order to withhold and deliver within the time prescribed herein, or fail or refuse to deliver property pursuant to said order, or after actual notice of filing of a support lien, pay over, release, sell, transfer, or convey real or personal property subject to a support lien to or for the benefit of the debtor or any other person, or fail or refuse to surrender upon demand property distrained under § 63.2-1933 or fail or refuse to honor a voluntary assignment of wages under § 63.2-1945 presented by the Commissioner, such person, firm, corporation, association, political subdivision or department of this Commonwealth shall be liable to the Department in an amount equal to 100 percent of the value of the debt which is the basis of the lien, order to withhold and deliver, distraint, or an income withholding order or voluntary assignment of wages. A noncustodial parent's employer issued an income withholding order by first-class mail or *electronic means* pursuant to § 63.2-1923 or § 63.2-1924 shall not be liable to the Department unless the Department shows that such employer had actual notice of the withholding order.

§ 63.2-1933. Distraint, seizure and sale of property subject to liens.

Whenever a support lien has been filed pursuant to § 63.2-1927, the Commissioner may collect the support debt stated in such lien by distraint, seizure and sale of the property subject to such lien. The Commissioner shall give notice *by certified mail, return receipt requested, or electronic means* to the debtor and *by certified mail, return receipt requested, to any person known to have or claim an interest therein of the general description of the property to be sold and the time and place of sale of such property.* ~~Such notice shall be given to such persons by certified mail, return receipt requested.~~ A notice specifying the property to be sold shall be posted in at least two public places in the jurisdiction wherein the distraint has been made. The time of sale shall not be less than ~~ten~~ 10 nor more than ~~twenty~~ 20 days from the date of posting of such notices. Such sale shall be conducted by the Commissioner, who shall proceed to sell such property by parcel or by lot at a public auction, and who may set a minimum reasonable price to include the expenses of making a levy and of advertising the sale, and if the amount bid for such property at the sale is not equal to the price so fixed, the Commissioner may declare such property to be purchased by the Department for such price, or may conduct another sale of such property pursuant to the provisions of this section. In the event of sale, the debtor's account shall be credited with the amount for which the property has been sold. Property acquired by the Department as herein prescribed may be sold by the Commissioner at public or private sale, and the amount realized shall be placed in the state general fund to the credit of the Department. In all cases of sale, as aforesaid, the Commissioner shall issue a bill of sale or a deed to the purchaser and such bill of sale or deed shall be prima facie evidence of the right of the Commissioner to make such sale and conclusive evidence of the regularity of his proceeding in making the sale and shall transfer to the purchaser all right, title, and interest of the debtor in such property. The proceeds of any such sale, except in those cases wherein the property has been acquired by the Department, shall be first applied by the Commissioner to reimbursement of the costs of distraint and the sale, and thereafter in satisfaction of the delinquent account. Any excess which shall thereafter remain in the hands of the Commissioner shall be refunded to the debtor. Sums so refundable to a debtor may be subject to seizure or distraint by any taxing authority of the Commonwealth or its political subdivisions or by the Commissioner for new sums due and owing subsequent to the subject proceeding. Except as specifically provided in this chapter, there shall be exempt from attachment, distraint, seizure, execution and sale under this chapter such property as is exempt therefrom under the laws of this Commonwealth.

§ 63.2-1937. Applications for occupational or other license to include social security or control number; suspension upon delinquency; procedure.

Every initial application for or application for renewal of a license, certificate, registration or other authorization to engage in a business, trade, profession or occupation issued by the Commonwealth pursuant to Titles 22.1, 38.2, 46.2 or 54.1 or any other provision of law shall require that the applicant provide his social security number or a control number issued by the Department of Motor Vehicles pursuant to § 46.2-342.

Upon ~~thirty~~ 30 days' notice to an obligor who (i) has failed to comply with a subpoena, summons or warrant relating to paternity or child support proceedings or (ii) is alleged to be delinquent in the payment of child support by a period of ~~ninety~~ 90 days or more or for \$5,000 or more, an obligee or the Department on behalf of an obligee, may petition either the court that entered or the court that is enforcing the order for child support for an order suspending any license, certificate, registration or other authorization to engage in a business, trade, profession or occupation, or recreational activity issued to the obligor by the Commonwealth pursuant to Titles 22.1, 29.1, 38.2, 46.2 or 54.1 or any other provision of law. The notice shall be sent *in accordance with the provisions of § 8.01-296, 8.01-327, or 8.01-329*, by certified mail, with proof of actual receipt, or *by electronic means*. The notice shall specify that (a) the obligor has ~~thirty~~ 30 days from the date of receipt to comply with the subpoena, summons or warrant or pay the delinquency or to reach an agreement with the obligee or the Department to pay the delinquency and (b) if compliance is not forthcoming or payment is not made or an agreement cannot be reached within that time, a petition will be filed seeking suspension of any license, certificate, registration or other authorization to engage in a business, trade, profession or occupation, or recreational license issued by the Commonwealth to the obligor.

The court shall not suspend a license, certificate, registration or authorization upon finding that an alternate remedy is available to the obligee or the Department that is likely to result in collection of the delinquency. Further, the court may refuse to order the suspension upon finding that (1) suspension would result in irreparable harm to the obligor or employees

of the obligor or would not result in collection of the delinquency or (2) the obligor has made a demonstrated, good faith effort to reach an agreement with the obligee or the Department.

If the court finds that the obligor is delinquent in the payment of child support by ~~ninety~~ 90 days or more or in an amount of \$5,000 or more and holds a license, certificate, registration or other authority to engage in a business, trade, profession or occupation or recreational activity issued by the Commonwealth, it shall order suspension. The order shall require the obligor to surrender any license, certificate, registration or other such authorization to the issuing entity within ~~ninety~~ 90 days of the date on which the order is entered. If at any time after entry of the order the obligor (A) pays the delinquency or (B) reaches an agreement with the obligee or the Department to satisfy the delinquency within a period not to exceed ~~ten~~ 10 years and makes at least one payment, representing at least five percent of the total delinquency or \$500, whichever is greater, pursuant to the agreement, or (C) complies with the subpoena, summons or warrant or reaches an agreement with the Department with respect to the subpoena, summons or warrant, upon proof of payment or certification of the compliance or agreement, the court shall order reinstatement. Payment shall be proved by certified copy of the payment record issued by the Department or notarized statement of payment signed by the obligee. No fee shall be charged to a person who obtains reinstatement of a license, certificate, registration or authorization pursuant to this section.

§ 63.2-1942. Administrative hearing on notice of debt; withholdings; orders to withhold and deliver property to debtor; set-off debt collection.

The Commissioner may delegate authority to conduct any administrative hearing pursuant to this chapter to a duly qualified hearing officer. The hearing shall be held upon reasonable notice to the obligee and the debtor. In no event shall such hearing officer be legally competent to render a decision as to the validity of a court order or a defense of nonpaternity. A decision of the hearing officer shall be in writing and shall set forth the debtor's and payee's rights to appeal the decision of the hearing officer to the appropriate circuit or juvenile and domestic relations district court. The decision shall be served upon the debtor in accordance with the provisions of §§ 8.01-296, 8.01-327 or § 8.01-329 ~~or~~ mailed to the debtor at his last known address by certified mail, return receipt requested, *or provided by electronic means*, or the debtor may waive service of the decision at the time of the decision. A copy of such decision shall also be ~~mailed~~ *provided* to the obligee. Such decision shall establish the liability of the debtor, if any, and the validity of the administrative action taken.

Action by the Commissioner under the provisions of this chapter to collect such support debt shall be valid and enforceable during the pendency of any appeal. The Commissioner may file and serve liens pursuant to §§ 63.2-1927 and 63.2-1928 during the pendency of the hearing or thereafter, whether or not appealed. Further action under § 63.2-1929 may be taken prior to any hearing or appeal. If the decision is in favor of the debtor, all money collected during the pendency of the appeal shall be returned to the debtor in accordance with procedures adopted by the Board.

CHAPTER 30

An Act to amend and reenact §§ 64.2-2011 and 64.2-2014 of the Code of Virginia, relating to guardianship appointments, modifications, and terminations; notice to the Department of Medical Assistance Services.

[H 1266]

Approved February 25, 2016

Be it enacted by the General Assembly of Virginia:

1. That §§ 64.2-2011 and 64.2-2014 of the Code of Virginia are amended and reenacted as follows:

§ 64.2-2011. Qualification of guardian or conservator; clerk to record order and issue certificate; reliance on certificate.

A. A guardian or conservator appointed in the court order shall qualify before the clerk upon the following:

1. Subscribing to an oath promising to faithfully perform the duties of the office in accordance with all provisions of this chapter;
2. Posting of bond, but no surety shall be required on the bond of the guardian, and the conservator's bond may be with or without surety, as ordered by the court; and
3. Acceptance in writing by the guardian or conservator of any educational materials provided by the court.

B. Upon qualification, the clerk shall issue to the guardian or conservator a certificate with a copy of the order appended thereto. The clerk shall record the order in the same manner as a power of attorney would be recorded and shall, in addition to the requirements of § 64.2-2014, provide a copy of the order to the commissioner of accounts. It shall be the duty of a conservator having the power to sell real estate to record the order in the office of the clerk of any jurisdiction where the respondent owns real property. If the order appoints a guardian, the clerk shall promptly forward a copy of the order to the local department of social services in the jurisdiction where the respondent then resides *and to the Department of Medical Assistance Services*.

C. A conservator shall have all powers granted pursuant to § 64.2-2021 as are necessary and proper for the performance of his duties in accordance with this chapter, subject to the limitations that are prescribed in the order. The powers granted to a guardian shall only be those powers enumerated in the court order.

D. Any individual or entity conducting business in good faith with a guardian or conservator who presents a currently effective certificate of qualification may presume that the guardian or conservator is properly authorized to act as to any

matter or transaction, except to the extent of any limitations upon the fiduciary's powers contained in the court's order of appointment.

§ 64.2-2014. Clerk to index findings of incapacity or restoration; notice of findings.

A. A copy of the court's findings that a person is incapacitated or has been restored to capacity, or a copy of any order appointing a conservator or guardian pursuant to § 64.2-2115, shall be filed by the judge with the clerk of the circuit court for the county or city where the hearing took place as soon as practicable, but no later than the close of business on the next business day following the completion of the hearing. The clerk shall properly index the findings in the index to deed books by reference to the order book and page whereon the order is spread and shall immediately notify the Commissioner of Behavioral Health and Developmental Services in accordance with § 64.2-2028, the commissioner of accounts in order to ensure compliance by a conservator with the duties imposed pursuant to §§ 64.2-2021, 64.2-2022, 64.2-2023, and 64.2-2026, and the Commissioner of Elections with the information required by § 24.2-410. If a guardian is appointed, the clerk shall forward a copy of the court order to the local department of social services of the jurisdiction where the person then resides *and to the Department of Medical Assistance Services*. If a guardianship is terminated or otherwise modified, the clerk shall forward a copy of the court order to the local department of social services to which the original order of appointment was forwarded ~~and, if different,~~ to the local department of social services in the jurisdiction where the person then resides, *if different from the department to which the original order was forwarded, and to the Department of Medical Assistance Services*.

B. 1. That §§ 2.2-4019 and 2.2-4020 of the Code of Virginia are amended and reenacted as follows:

§ 2.2-4019. Informal fact finding proceedings.

A. Agencies shall ascertain the fact basis for their decisions of cases through informal conference or consultation proceedings unless the named party and the agency consent to waive such a conference or proceeding to go directly to a formal hearing. Such conference-consultation procedures shall include rights of parties to the case to (i) have reasonable notice thereof, *which notice shall include contact information consisting of the name, telephone number, and government email address of the person designated by the agency to answer questions or otherwise assist a named party*; (ii) appear in person or by counsel or other qualified representative before the agency or its subordinates, or before a hearing officer for the informal presentation of factual data, argument, or proof in connection with any case; (iii) have notice of any contrary fact basis or information in the possession of the agency that can be relied upon in making an adverse decision; (iv) receive a prompt decision of any application for a license, benefit, or renewal thereof; and (v) be informed, briefly and generally in writing, of the factual or procedural basis for an adverse decision in any case.

B. Agencies may, in their case decisions, rely upon public data, documents or information only when the agencies have provided all parties with advance notice of an intent to consider such public data, documents or information. This requirement shall not apply to an agency's reliance on case law and administrative precedent.

§ 2.2-4020. Formal hearings; litigated issues.

A. The agency shall afford opportunity for the formal taking of evidence upon relevant fact issues in any case in which the basic laws provide expressly for decisions upon or after hearing and may do so in any case to the extent that informal procedures under § 2.2-4019 have not been had or have failed to dispose of a case by consent.

B. Parties to formal proceedings shall be given reasonable notice of the (i) time, place, and nature thereof; (ii) basic law under which the agency contemplates its possible exercise of authority; ~~and~~; (iii) matters of fact and law asserted or questioned by the agency; *and (iv) contact information consisting of the name, telephone number, and government email address of the person designated by the agency to respond to questions or otherwise assist a named party*. notice but they shall be similarly informed thereafter in the further course of the proceedings whether pursuant to this section or to § 2.2-4019.

C. In all such formal proceedings the parties shall be entitled to be accompanied by and represented by counsel, to submit oral and documentary evidence and rebuttal proofs, to conduct such cross-examination as may elicit a full and fair disclosure of the facts, and to have the proceedings completed and a decision made with dispatch. The burden of proof shall be upon the proponent or applicant. The presiding officers at the proceedings may (i) administer oaths and affirmations, (ii) receive probative evidence, exclude irrelevant, immaterial, insubstantial, privileged, or repetitive proofs, rebuttal, or cross-examination, rule upon offers of proof, and oversee a verbatim recording of the evidence, (iii) hold conferences for the settlement or simplification of issues by consent, (iv) dispose of procedural requests, and (v) regulate and expedite the course of the hearing. Where a hearing officer presides, or where a subordinate designated for that purpose presides in hearings specified in subsection F of § 2.2-4024, he shall recommend findings and a decision unless the agency shall by its procedural regulations provide for the making of findings and an initial decision by the presiding officers subject to review and reconsideration by the agency on appeal to it as of right or on its own motion. The agency shall give deference to findings by the presiding officer explicitly based on the demeanor of witnesses.

D. Prior to the recommendations or decisions of subordinates, the parties concerned shall be given opportunity, on request, to submit in writing for the record (i) proposed findings and conclusions and (ii) statements of reasons therefor. In all cases, on request, opportunity shall be afforded for oral argument (i) to hearing officers or subordinate presiding officers, as the case may be, in all cases in which they make such recommendations or decisions or (ii) to the agency in cases in which it makes the original decision without such prior recommendation and otherwise as it may permit in its discretion or provide by general rule. Where hearing officers or subordinate presiding officers, as the case may be, make recommendations or decisions, the agency shall receive and act on exceptions thereto.

E. All decisions or recommended decisions shall be served upon the parties, become a part of the record, and briefly state or recommend the findings, conclusions, reasons, or basis therefor upon the evidence presented by the record and relevant to the basic law under which the agency is operating together with the appropriate order, license, grant of benefits, sanction, relief, or denial thereof.

Nothing in this article shall prohibit the Department from contracting pursuant to subdivision B 2 with an entity that may also provide privately funded surrogate decision-making services, including guardian and conservator services funded with fees generated by the estates of incapacitated persons, provided such private programs are administered by the contracting entity entirely separately from the local or regional Virginia public guardian and conservator programs, in conformity with regulations established by the Department in that respect.

D. In accordance with the Public Procurement Act (§ 2.2-4300 et seq.) and recommendations of the Public Guardian and Conservator Advisory Board, the Department may contract with a not-for-profit private entity that does not provide services to incapacitated persons as guardian or conservator to administer the program, and, if it does, the term "Department" when used in this article shall refer to the contract administrator.

2. That §§ 2.2-2411 and 2.2-2412 of the Code of Virginia are repealed.

1. § 1. *Any conservation police officer who (i) has at least 20 years of service as a conservation police officer, (ii) was a full-time sworn conservation police officer immediately prior to January 1, 2016, and (iii) was transitioned to a civilian position on January 1, 2016, by the Department of Game and Inland Fisheries shall be considered a retired law-enforcement officer for the purposes of §§ 9.1-1000, 18.2-308, 18.2-308.03, and 59.1-148.3.*

CHAPTER 42

An Act to amend the Code of Virginia by adding a section numbered 4.1-225.1, relating to alcoholic beverage control; summary suspension of license in emergency circumstances.

[H 322]

Approved February 26, 2016

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding a section numbered 4.1-225.1 as follows:

§ 4.1-225.1. Summary suspension in emergency circumstances; grounds; notice and hearing.

A. *Notwithstanding any provisions to the contrary in Article 3 (§ 2.2-4018 et seq.) of the Administrative Process Act or § 4.1-227 or 4.1-229, the Board may summarily suspend any license or permit if it has reasonable cause to believe that an act of violence resulting in death or serious bodily injury, or a recurrence of such acts, has occurred on (i) the licensed premises, (ii) any premises immediately adjacent to the licensed premises that is owned or leased by the licensee, or (iii) any portion of public property immediately adjacent to the licensed premises, and the Board finds that there exists a continuing threat to public safety and that summary suspension of the license or permit is justified to protect the health, safety, or welfare of the public.*

B. *Prior to issuing an order of suspension pursuant to this section, special agents of the Board shall conduct an initial investigation and submit all findings to the Secretary of the Board within 48 hours of any such act of violence. If the Board determines suspension is warranted, it shall immediately notify the licensee of its intention to temporarily suspend his license pending the outcome of a formal investigation. Such temporary suspension shall remain effective for a minimum of 48 hours. After the 48-hour period, the licensee may petition the Board for a restricted license pending the results of the formal investigation and proceedings for disciplinary review. If the Board determines that a restricted license is warranted, the Board shall have discretion to impose appropriate restrictions based on the facts presented.*

C. *Upon a determination to temporarily suspend a license, the Board shall immediately commence a formal investigation. The formal investigation shall be completed within 10 days of its commencement and the findings reported immediately to the Secretary of the Board. If, following the formal investigation, the Secretary of the Board determines that suspension of the license is warranted, a hearing shall be held within five days of the completion of the formal investigation. A decision shall be rendered within 10 days of conclusion of the hearing. If a decision is not rendered within 10 days of the conclusion of the hearing, the order of suspension shall be vacated and the license reinstated. Any appeal by the licensee*

shall be filed within 10 days of the decision and heard by the Board within 20 days of the decision. The Board shall render a decision on the appeal within 10 days of the conclusion of the appeal hearing.

D. Service of any order of suspension issued pursuant to this section shall be made by a special agent of the Board in person and by certified mail to the licensee. The order of suspension shall take effect immediately upon service.

E. This section shall not apply to (i) temporary licenses granted under § 4.1-211 or temporary permits granted under § 4.1-212, either of which may be revoked summarily in accordance with § 4.1-211, or (ii) licenses granted pursuant to subdivision 2 or 3 of § 4.1-207 or subdivision 4 or 5 of § 4.1-208.

CHAPTER 43

An Act to amend and reenact § 10.1-2211 of the Code of Virginia, relating to Cedar Hill Cemetery gravesites.

[H 1066]

Approved February 26, 2016

Be it enacted by the General Assembly of Virginia:

1. That § 10.1-2211 of the Code of Virginia is amended and reenacted as follows:

§ 10.1-2211. Disbursement of funds appropriated for caring for Confederate cemeteries and graves.

A. At the direction of the Director, the Comptroller of the Commonwealth is instructed and empowered to draw annual warrants upon the State Treasurer from any sums that may be provided in the general appropriation act, in favor of the treasurers of the Confederate memorial associations and chapters of the United Daughters of the Confederacy set forth in subsection B of this section. Such sums shall be expended by the associations and organizations for the routine maintenance of their respective Confederate cemeteries and graves and for the graves of Confederate soldiers and sailors not otherwise cared for in other cemeteries, and in erecting and caring for markers, memorials, and monuments to the memory of such soldiers and sailors. All such associations and organizations, through their proper officers, are required after July 1 of each year to submit to the Director a certified statement that the funds appropriated to the association or organization in the preceding fiscal year were or will be expended for the routine maintenance of cemeteries specified in this section and the graves of Confederate soldiers and sailors and in erecting and caring for markers, memorials and monuments to the memory of such soldiers and sailors. An association or organization failing to comply with any of the requirements of this section shall be prohibited from receiving moneys allocated under this section for all subsequent fiscal years until the association or organization fully complies with the requirements.

B. Allocation of appropriations made pursuant to this section shall be based on the number of graves, monuments and markers as set forth opposite the association's or organization's name, or as documented by each association or organization multiplied by the rate of \$5 or the average actual cost of routine maintenance, whichever is greater, for each grave, monument or marker in the care of a Confederate memorial association or chapter of the United Daughters of the Confederacy. For the purposes of this section the "average actual cost of care" shall be determined by the Department in a biennial survey of at least four properly maintained cemeteries, each located in a different geographical region of the Commonwealth.

CHAPTER 44

An Act to amend the Code of Virginia by adding a section numbered 54.1-4201.2, relating to firearms shows; voluntary background checks; penalties.

[S 715]

Approved February 26, 2016

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding a section numbered 54.1-4201.2 as follows:

§ 54.1-4201.2. Firearm transactions by persons other than dealers; voluntary background checks.

A. The Department of State Police shall be available at every firearms show held in the Commonwealth to make determinations in accordance with the procedures set out in § 18.2-308.2:2 of whether a prospective purchaser or transferee is prohibited under state or federal law from possessing a firearm. The Department of State Police shall establish policies and procedures in accordance with 28 C.F.R. § 25.6 to permit such determinations to be made by the Department of State Police.

Unless otherwise required by state or federal law, any party involved in the transaction may decide whether or not to have such a determination made.

The Department of State Police may charge a reasonable fee for the determination.

B. The promoter, as defined in § 54.1-4201.1, shall give the Department of State Police notice of the time and location of a firearms show at least 30 days prior to the show. The promoter shall provide the Department of State Police with adequate space, at no charge, to conduct such prohibition determinations. The promoter shall ensure that a notice that such determinations are available is prominently displayed at the show.

C. No person who sells or transfers a firearm at a firearms show after receiving a determination from the Department of State Police that the purchaser or transferee is not prohibited by state or federal law from possessing a firearm shall be liable for selling or transferring a firearm to such person.

D. The provisions of § 18.2-308.2:2, including definitions, procedures, and prohibitions, shall apply, mutatis mutandis, to the provisions of this section.

2. That the provisions of this act shall become effective only if approval is received from the U.S. Department of Justice for the Department of State Police to implement the policies and procedures set out in this act.

3. That the provisions of this act may result in a net increase in periods of imprisonment or commitment. Pursuant to § 30-19.1:4, the estimated amount of the necessary appropriation cannot be determined for periods of imprisonment in state adult correctional facilities; therefore, Chapter 665 of the Acts of Assembly of 2015 requires the Virginia Criminal Sentencing Commission to assign a minimum fiscal impact of \$50,000. Pursuant to § 30-19.1:4, the estimated amount of the necessary appropriation cannot be determined for periods of commitment to the custody of the Department of Juvenile Justice.

Resale of items obtained under this section is prohibited.

C. The Board may adopt regulations providing further exemptions to the permit requirement.

§ 29.1-521. Unlawful to hunt, trap, possess, sell or transport wild birds and wild animals except as permitted; exception; penalty.

A. The following shall be unlawful:

1. To hunt or kill any wild bird or wild animal, including any nuisance species, with a gun, firearm or other weapon, or to hunt or kill any deer or bear with a gun, firearm, or other weapon with the aid or assistance of dogs, on Sunday. The provision of this subdivision that prohibits the hunting or killing of any wild bird or wild animal, including nuisance species, on Sunday shall not apply to (i) raccoons, which may be hunted until 2:00 a.m. on Sunday mornings; (ii) any person who hunts or kills waterfowl, subject to geographical limitations established by the Director and except within 200 yards of a place of worship or any accessory structure thereof; or (iii) any landowner or member of his family or any person with written permission from the landowner who hunts or kills any wild bird or wild animal, including any nuisance species, on the landowner's property, except within 200 yards of a place of worship or any accessory structure thereof. (iii) reduce the allowable peak flow rate resulting from the 1.5-year, two-year, and 10-year, 24-hour storms to a level that is less than or equal to the peak flow rate from the site assuming it was in a good forested condition, achieved through multiplication of the forested peak flow rate by a reduction factor that is equal to the runoff volume from the site when it was in a good forested condition divided by the runoff volume from the site in its proposed condition, and shall be exempt from any flow rate capacity and velocity requirement for natural or man-made channels as defined in regulations promulgated pursuant to § 62.1-44.15:54 or 62.1-44.15:65. For plans approved on and after July 1, 2014, the flow rate capacity and velocity requirements of this subsection shall be satisfied by compliance with water quantity requirements in the Stormwater Management Act (§ 62.1-44.15:24 et seq.) and attendant regulations, unless such land-disturbing activities (a) are in accordance with the grandfathering or time limits on applicability of approved design criteria provisions of the Virginia Stormwater Management Program (VSMP) ~~Permit Regulations or exempt~~, in which case the flow rate capacity and velocity requirements of this subsection shall apply, or (b) are exempt pursuant to subdivision C 7 of § 62.1-44.15:34.

3. Contain conservation standards for various types of soils and land uses, which shall include criteria, techniques, and methods for the control of erosion and sediment resulting from land-disturbing activities.

B. The Board shall provide technical assistance and advice to, and conduct and supervise educational programs for VESCP authorities.

C. The Board shall adopt regulations establishing minimum standards of effectiveness of erosion and sediment control programs, and criteria and procedures for reviewing and evaluating the effectiveness of VESCPs. In developing minimum standards for program effectiveness, the Board shall consider information and standards on which the regulations promulgated pursuant to subsection A are based.

D. The Board shall approve VESCP authorities and shall periodically conduct a comprehensive program compliance review and evaluation to ensure that all VESCPs operating under the jurisdiction of this article meet minimum standards of effectiveness in controlling soil erosion, sediment deposition, and nonagricultural runoff. The Department shall develop a schedule for conducting periodic reviews and evaluations of the effectiveness of VESCPs unless otherwise directed by the Board. Such reviews where applicable shall be coordinated with those being implemented in accordance with the Stormwater Management Act (§ 62.1-44.15:24 et seq.) and associated regulations and the Chesapeake Bay Preservation Act (§ 62.1-44.15:67 et seq.) and associated regulations. The Department may also conduct a comprehensive or partial program compliance review and evaluation of a VESCP at a greater frequency than the standard schedule.

E. The Board shall issue certificates of competence concerning the content, application, and intent of specified subject areas of this article and accompanying regulations, including program administration, plan review, and project inspection, to personnel of program authorities and to any other persons who have completed training programs or in other ways demonstrated adequate knowledge. The Department shall administer education and training programs for specified subject areas of this article and accompanying regulations, and is authorized to charge persons attending such programs reasonable fees to cover the costs of administering the programs. Such education and training programs shall also contain expanded components to address plan review and project inspection elements of the Stormwater Management Act (§ 62.1-44.15:24 et seq.) and attendant regulations in accordance with § 62.1-44.15:30.

F. Department personnel conducting inspections pursuant to this article shall hold a certificate of competence as provided in subsection E.

(8f) Before issuing a special order under subdivision (8a) or by consent under (8d), with or without an assessment of a civil penalty, to an owner of a sewerage system requiring corrective action to prevent or minimize overflows of sewage from such system, the Board shall provide public notice of and reasonable opportunity to comment on the proposed order. Any such order under subdivision (8d) may impose civil penalties in amounts up to the maximum amount authorized in § 309(g) of the Clean Water Act. Any person who comments on the proposed order shall be given notice of any hearing to be held on the terms of the order. In any hearing held, such person shall have a reasonable opportunity to be heard and to present evidence. If no hearing is held before issuance of an order under subdivision (8d), any person who commented on the proposed order may file a petition, within 30 days after the issuance of such order, requesting the Board to set aside such order and provide a formal hearing thereon. If the evidence presented by the petitioner in support of the petition is material and was not considered in the issuance of the order, the Board shall immediately set aside the order, provide a formal hearing, and make such petitioner a party. If the Board denies the petition, the Board shall provide notice to the petitioner and make available to the public the reasons for such denial, and the petitioner shall have the right to judicial review of such decision under § 62.1-44.29 if he meets the requirements thereof.

(9) To make such rulings under §§ 62.1-44.16, 62.1-44.17, and 62.1-44.19 as may be required upon requests or applications to the Board, the owner or owners affected to be notified by certified mail as soon as practicable after the Board makes them and such rulings to become effective upon such notification.

(10) To adopt such regulations as it deems necessary to enforce the general *soil erosion control and stormwater management program* and water quality management program of the Board in all or part of the Commonwealth, except that a description of provisions of any proposed regulation which are more restrictive than applicable federal requirements, together with the reason why the more restrictive provisions are needed, shall be provided to the standing committee of each house of the General Assembly to which matters relating to the content of the regulation are most properly referable.

(11) To investigate any large-scale killing of fish.

(a) Whenever the Board shall determine that any owner, whether or not he shall have been issued a certificate for discharge of waste, has discharged sewage, industrial waste, or other waste into state waters in such quantity, concentration, or manner that fish are killed as a result thereof, it may effect such settlement with the owner as will cover the costs incurred by the Board and by the Department of Game and Inland Fisheries in investigating such killing of fish, plus the replacement value of the fish destroyed, or as it deems proper, and if no such settlement is reached within a reasonable time, the Board shall authorize its executive secretary to bring a civil action in the name of the Board to recover from the owner such costs and value, plus any court or other legal costs incurred in connection with such action.

(b) If the owner is a political subdivision of the Commonwealth, the action may be brought in any circuit court within the territory embraced by such political subdivision. If the owner is an establishment, as defined in this chapter, the action shall be brought in the circuit court of the city or the circuit court of the county in which such establishment is located. If the owner is an individual or group of individuals, the action shall be brought in the circuit court of the city or circuit court of the county in which such person or any of them reside.

(c) For the purposes of this subsection the State Water Control Board shall be deemed the owner of the fish killed and the proceedings shall be as though the State Water Control Board were the owner of the fish. The fact that the owner has or held a certificate issued under this chapter shall not be raised as a defense in bar to any such action.

(d) The proceeds of any recovery had under this subsection shall, when received by the Board, be applied, first, to reimburse the Board for any expenses incurred in investigating such killing of fish. The balance shall be paid to the Board of Game and Inland Fisheries to be used for the fisheries' management practices as in its judgment will best restore or replace the fisheries' values lost as a result of such discharge of waste, including, where appropriate, replacement of the fish killed with game fish or other appropriate species. Any such funds received are hereby appropriated for that purpose.

(e) Nothing in this subsection shall be construed in any way to limit or prevent any other action which is now authorized by law by the Board against any owner.

(f) Notwithstanding the foregoing, the provisions of this subsection shall not apply to any owner who adds or applies any chemicals or other substances that are recommended or approved by the State Department of Health to state waters in the course of processing or treating such waters for public water supply purposes, except where negligence is shown.

(12) To administer programs of financial assistance for planning, construction, operation, and maintenance of water quality control facilities for political subdivisions in the Commonwealth.

(13) To establish policies and programs for effective area-wide or basin-wide water quality control and management. The Board may develop comprehensive pollution abatement and water quality control plans on an area-wide or basin-wide basis. In conjunction with this, the Board, when considering proposals for waste treatment facilities, is to consider the feasibility of combined or joint treatment facilities and is to ensure that the approval of waste treatment facilities is in accordance with the water quality management and pollution control plan in the watershed or basin as a whole. In making such determinations, the Board is to seek the advice of local, regional, or state planning authorities.

(14) To establish requirements for the treatment of sewage, industrial wastes, and other wastes that are consistent with the purposes of this chapter; however, no treatment shall be less than secondary or its equivalent, unless the owner can demonstrate that a lesser degree of treatment is consistent with the purposes of this chapter.

(15) To promote and establish requirements for the reclamation and reuse of wastewater that are protective of state waters and public health as an alternative to directly discharging pollutants into waters of the state. The requirements shall address various potential categories of reuse and may include general permits and provide for greater flexibility and less stringent requirements commensurate with the quality of the reclaimed water and its intended use. The requirements shall be developed in consultation with the Department of Health and other appropriate state agencies. This authority shall not be construed as conferring upon the Board any power or duty duplicative of those of the State Board of Health.

(16) To establish and implement policies and programs to protect and enhance the Commonwealth's wetland resources. Regulatory programs shall be designed to achieve no net loss of existing wetland acreage and functions. Voluntary and incentive-based programs shall be developed to achieve a net resource gain in acreage and functions of wetlands. The Board shall seek and obtain advice and guidance from the Virginia Institute of Marine Science in implementing these policies and programs.

(17) To establish additional procedures for obtaining a Virginia Water Protection Permit pursuant to §§ 62.1-44.15:20 and 62.1-44.15:22 for a proposed water withdrawal involving the transfer of water resources between major river basins within the Commonwealth that may impact water basins in another state. Such additional procedures shall not apply to any water withdrawal in existence as of July 1, 2012, except where the expansion of such withdrawal requires a permit under §§ 62.1-44.15:20 and 62.1-44.15:22, in which event such additional procedures may apply to the extent of the expanded withdrawal only. The applicant shall provide as part of the application (i) an analysis of alternatives to such a transfer, (ii) a comprehensive analysis of the impacts that would occur in the source and receiving basins, (iii) a description of measures to mitigate any adverse impacts that may arise, (iv) a description of how notice shall be provided to interested parties, and (v) any other requirements that the Board may adopt that are consistent with the provisions of this section and §§ 62.1-44.15:20 and 62.1-44.15:22 or regulations adopted thereunder. This subdivision shall not be construed as limiting or expanding the Board's authority under §§ 62.1-44.15:20 and 62.1-44.15:22 to issue permits and impose conditions or limitations on the permitted activity.

(18) To be the lead agency for the Commonwealth's nonpoint source pollution management program, including coordination of the nonpoint source control elements of programs developed pursuant to certain state and federal laws, including § 319 of the federal Clean Water Act and § 6217 of the federal Coastal Zone Management Act. (19) To review for compliance with the provisions of this chapter the Virginia Erosion and Stormwater Management Programs adopted by localities pursuant to § 62.1-44.15:27, the Virginia Erosion and Sediment Control Programs adopted by localities pursuant to subdivision B 3 of § 62.1-44.15:27, and the programs adopted by localities pursuant to the Chesapeake Bay Preservation Act (§ 62.1-44.15:67 et seq.). The Board shall develop and implement a schedule for conducting such program reviews as often as necessary but at least once every five years. Following the completion of a compliance review in which deficiencies are found, the Board shall establish a schedule for the locality to follow in correcting the deficiencies and bringing its program into compliance. If the locality fails to bring its program into compliance in accordance with the compliance schedule, then the Board is authorized to (i) issue a special order to any locality imposing a civil penalty not to exceed \$5,000 per violation with the maximum amount not to exceed \$50,000 per order for noncompliance with the state program, to be paid into the state treasury and deposited in the Stormwater Local Assistance Fund established in § 62.1-44.15:29.1 or (ii) with the consent of the locality, provide in an order issued against the locality for the payment of civil charges for violations in lieu of civil penalties, in specific sums not to exceed the limit stated in this subdivision. Such civil charges shall be in lieu of any appropriate civil penalty that could be imposed under subsection (a) of § 62.1-44.32 and shall not be subject to the provisions of § 2.2-514. The Board shall not delegate to the Department its authority to issue special orders pursuant to clause (i). In lieu of issuing an order, the Board is authorized to take legal action against a locality pursuant to § 62.1-44.23 to ensure compliance.

4. Provisions for ensuring that ~~responsible~~ personnel and contractors *assisting the owner in carrying out the land-disturbing activity obtain training or qualifications for soil erosion control and stormwater management as set forth in regulations adopted pursuant to this article;*
5. Provisions for ensuring that personnel implementing approved standards and specifications pursuant to this section obtain certifications or qualifications ~~for erosion and sediment control and stormwater management~~ comparable to those required for ~~local government~~ VESMP personnel pursuant to subsection C of § 62.1-44.15:30;
- ~~5-~~ 6. Implementation of a project tracking ~~and notification~~ system *that ensures notification to the Department of all land-disturbing activities covered under this article; and*
- ~~6-~~ 7. Requirements for documenting onsite changes as they occur to ensure compliance with the requirements of ~~the~~ this article.

B. Linear projects subject to annual standards and specifications include:

1. ~~Construction, installation, or maintenance of electric transmission, natural gas, and telephone utility lines and pipelines, and water and sewer lines; and~~
2. ~~Construction of the tracks, rights-of-way, bridges, communication facilities, and other related structures and facilities of a railroad company.~~

Linear projects not included in subdivisions 1 and 2 shall comply with the requirements of the local or state VSMP in the locality within which the project is located.

~~E. E.~~ The Department shall perform random site inspections or inspections in response to a complaint to ~~assure~~ ensure compliance with this article; ~~the Erosion and Sediment Control Law (§ 62.1-44.15:51 et seq.); and regulations adopted thereunder. The Department may take enforcement actions in accordance with this article and related regulations.~~

~~F. F.~~ The Department shall assess an administrative charge to cover the costs of services rendered associated with its responsibilities pursuant to this section, *including standards and specifications review and approval, project inspections, and compliance. The Board may take enforcement actions in accordance with this article and related regulations.*

§ 62.1-44.15:33. Authorization for more stringent ordinances.

A. Localities that are ~~VSMP~~ serving as VESMP authorities are authorized to adopt more stringent *soil erosion control* or stormwater management ordinances than those necessary to ensure compliance with the Board's minimum regulations, provided that the more stringent ordinances are based upon factual findings of local or regional comprehensive watershed management studies or findings developed through the implementation of ~~a~~ an MS4 permit or a locally adopted watershed management study and are determined by the locality to be necessary to prevent any further degradation to water resources, to address ~~TMDL~~ total maximum daily load requirements, to protect exceptional state waters, or to address specific existing water pollution including nutrient and sediment loadings, stream channel erosion, depleted groundwater resources, or excessive localized flooding within the watershed and that prior to adopting more stringent ordinances a public hearing is held after giving due notice. *This process shall not be required when a VESMP authority chooses to reduce the threshold for regulating land-disturbing activities to a smaller area of disturbed land pursuant to § 62.1-44.15:34. However, this section shall not be construed to authorize a VESMP authority to impose a more stringent timeframe for land-disturbance review and approval than those provided in this article.*

B. Localities that are ~~VSMP~~ serving as VESMP authorities shall submit a letter report to the Department when more stringent stormwater management ordinances or more stringent requirements authorized by such *stormwater management* ordinances, such as may be set forth in design manuals, policies, or guidance documents developed by the localities, are determined to be necessary pursuant to this section within 30 days after adoption thereof. Any such letter report shall include a summary explanation as to why the more stringent ordinance or requirement has been determined to be necessary pursuant to this section. Upon the request of an affected landowner or his agent submitted to the Department with a copy to be sent to the locality, within 90 days after adoption of any such ordinance or derivative requirement, localities shall submit the ordinance or requirement and all other supporting materials to the Department for a determination of whether the requirements of this section have been met and whether any determination made by the locality pursuant to this section is supported by the evidence. The Department shall issue a written determination setting forth its rationale within 90 days of submission. Such a determination, or a failure by the Department to make such a determination within the 90-day period, may be appealed to the Board.

C. Localities shall not prohibit or otherwise limit the use of any best management practice (BMP) approved for use by the Director or the Board except as follows:

1. When the Director or the Board approves the use of any BMP in accordance with its stated conditions, the locality serving as a ~~VSMP~~ VESMP authority shall have authority to preclude the onsite use of the approved BMP, or to require more stringent conditions upon its use, for a specific land-disturbing project based on a review of the stormwater

management plan and project site conditions. Such limitations shall be based on site-specific concerns. Any project or site-specific determination purportedly authorized pursuant to this subsection may be appealed to the Department and the Department shall issue a written determination regarding compliance with this section to the requesting party within 90 days of submission. Any such determination, or a failure by the Department to make any such determination within the 90-day period, may be appealed to the Board.

2. When a locality is seeking to uniformly preclude jurisdiction-wide or otherwise limit geographically the use of a BMP approved by the Director or Board, or to apply more stringent conditions to the use of a BMP approved by the Director or Board, upon the request of an affected landowner or his agent submitted to the Department, with a copy submitted to the locality, within 90 days after adoption, such authorizing ordinances, design manuals, policies, or guidance documents developed by the locality that set forth the BMP use policy shall be provided to the Department in such manner as may be prescribed by the Department that includes a written justification and explanation as to why such more stringent limitation or conditions are determined to be necessary. The Department shall review all supporting materials provided by the locality to determine whether the requirements of this section have been met and that any determination made by the locality pursuant to this section is reasonable under the circumstances. The Department shall issue its determination to the locality in writing within 90 days of submission. Such a determination, or a failure by the Department to make such a determination within the 90-day period, may be appealed to the Board.

D. Based on a determination made in accordance with subsection B or C, any ordinance or other requirement enacted or established by a locality that is found to not comply with this section shall be null and void, replaced with state minimum standards, and remanded to the locality for revision to ensure compliance with this section. Any such ordinance or other requirement that has been proposed but neither enacted nor established shall be remanded to the locality for revision to ensure compliance with this section.

E. Any provisions of a local *erosion and sediment control* or stormwater management program in existence before January 1, 2013, 2016, that contains more stringent provisions than this article shall be exempt from the requirements of this section if the locality chooses to retain such provisions when it becomes a VESMP authority. However, such provisions shall be reported to the Board at the time of submission of the locality's VSMP VESMP approval package.

§ 62.1-44.15:34. Regulated activities; submission and approval of a permit application; security for performance; exemptions.

A. A person shall not conduct any land-disturbing activity until (i) he has submitted a permit to the appropriate VESMP authority an application to the VSMP authority that includes a state VSMP permit registration statement, if such statement is required, and, after July 1, 2014, a required, a soil erosion control and stormwater management plan or an executed agreement in lieu of a stormwater management plan, and has obtained VSMP authority approval to begin land disturbance. A locality that is not a VSMP authority shall provide a general notice to applicants of the state permit coverage requirement and report all approvals pursuant to the Erosion and Sediment Control Law (§ 62.1-44.15:51 et seq.) to begin land disturbance of one acre or greater to the Department at least monthly. Upon the development of an online reporting system by the Department, but no later than July 1, 2014, a VSMP authority shall be required to obtain evidence of state VSMP permit coverage where it is required prior to providing approval to begin land disturbance. The VSMP authority shall act on any permit plan, if required, and (ii) the VESMP authority has issued its land-disturbance approval. In addition, as a prerequisite to engaging in an approved land-disturbing activity, the name of the individual who will be assisting the owner in carrying out the activity and holds a Responsible Land Disturber certificate pursuant to § 62.1-44.15:30 shall be submitted to the VESMP authority. Any VESMP authority may waive the Responsible Land Disturber certificate requirement for an agreement in lieu of a plan for construction of a single-family detached residential structure; however, if a violation occurs during the land-disturbing activity for the single-family detached residential structure, then the owner shall correct the violation and provide the name of the individual holding a Responsible Land Disturber certificate as provided by § 62.1-14:30. Failure to provide the name of an individual holding a Responsible Land Disturber certificate prior to engaging in land-disturbing activities may result in revocation of the land-disturbance approval and shall subject the owner to the penalties provided in this article.

1. A VESMP authority that is implementing its program pursuant to subsection A of § 62.1-44.15:27 or subdivision B 1 of § 62.1-44.15:27 shall determine the completeness of any application within 15 days after receipt, and shall act on any application within 60 days after it has been determined by the VSMP VESMP authority to be a complete application. The VSMP authority may either issue project VESMP authority shall issue either land-disturbance approval or denial and shall provide written rationale for the any denial. The VSMP authority shall act on any permit application that has been previously disapproved within 45 days after the application has been revised, resubmitted for approval, and deemed complete. Prior to issuance of any approval, the VSMP Prior to issuing a land-disturbance approval, a VESMP authority shall be required to obtain evidence of permit coverage when such coverage is required. The VESMP authority also shall determine whether any resubmittal of a previously disapproved application is complete within 15 days after receipt and shall act on the resubmitted application within 45 days after receipt.

2. A VESMP authority implementing its program in coordination with the Department pursuant to subdivision B 2 of § 62.1-44.15:27 shall determine the completeness of any application within 15 days after receipt, and shall act on any application within 60 days after it has been determined by the VESMP authority to be complete. The VESMP authority shall forward a soil erosion control and stormwater management plan to the Department for review within five days of receipt. If the plan is incomplete, the Department shall return the plan to the locality immediately and the application process shall

start over. If the plan is complete, the Department shall review it for compliance with the water quality and water quantity technical criteria and provide its recommendation to the VESMP authority. The VESMP authority shall either (i) issue the land-disturbance approval or (ii) issue a denial and provide a written rationale for the denial. In no case shall a locality have more than 60 days for its decision on an application after it has been determined to be complete. Prior to issuing a land-disturbance approval, a VESMP authority shall be required to obtain evidence of permit coverage when such coverage is required.

The VESMP authority also shall forward to the Department any resubmittal of a previously disapproved application within five days after receipt, and the VESMP authority shall determine whether the plan is complete within 15 days of its receipt of the plan. The Department shall review the plan for compliance with the water quality and water quantity technical criteria and provide its recommendation to the VESMP authority, and the VESMP authority shall act on the resubmitted application within 45 days after receipt.

3. When a state agency or federal entity submits a soil erosion control and stormwater management plan for a project, land disturbance shall not commence until the Board has reviewed and approved the plan and has issued permit coverage when it is required.

a. The Board shall not approve a soil erosion control and stormwater management plan submitted by a state agency or federal entity for a project involving a land-disturbing activity (i) in any locality that has not adopted a local program with more stringent ordinances than those of the state program or (ii) in multiple jurisdictions with separate local programs, unless the plan is consistent with the requirements of the state program.

b. The Board shall not approve a soil erosion control and stormwater management plan submitted by a state agency or federal entity for a project involving a land-disturbing activity in one locality with a local program with more stringent ordinances than those of the state program, unless the plan is consistent with the requirements of the local program.

c. If onsite changes occur, the state agency or federal entity shall submit an amended soil erosion control and stormwater management plan to the Department.

d. The state agency or federal entity responsible for the land-disturbing activity shall ensure compliance with the approved plan. As necessary, the Board shall provide project oversight and enforcement.

4. Prior to issuance of any land-disturbance approval, the VESMP authority may also require an applicant, excluding state agencies and federal entities, to submit a reasonable performance bond with surety, cash escrow, letter of credit, any combination thereof, or such other legal arrangement acceptable to the VESMP authority, to ensure that measures could be taken by the VESMP authority at the applicant's expense should he fail, after proper notice, within the time specified to initiate or maintain appropriate actions that may be required of him by the permit conditions comply with the conditions imposed by the VESMP authority as a result of his land-disturbing activity. If the VESMP authority takes such action upon such failure by the applicant, the VESMP authority may collect from the applicant the difference should the amount of the reasonable cost of such action exceed the amount of the security held. Within 60 days of the completion of the requirements of the permit VESMP authority's conditions, such bond, cash escrow, letter of credit, or other legal arrangement, or the unexpended or unobligated portion thereof, shall be refunded to the applicant or terminated. These requirements are in addition to all other provisions of law relating to the issuance of permits and are not intended to otherwise affect the requirements for such permits.

B. A Chesapeake Bay Preservation Act Land-Disturbing Activity shall be subject to coverage under the Virginia Stormwater Management Program (VSMP) General Permit for Discharges of Stormwater from Construction Activities until July 1, 2014, at which time it shall no longer be considered a small construction activity but shall be then regulated under the requirements of this article. The VESMP authority may require changes to an approved soil erosion control and stormwater management plan in the following cases:

1. Where inspection has revealed that the plan is inadequate to satisfy applicable regulations or ordinances; or

2. Where the owner finds that because of changed circumstances or for other reasons the plan cannot be effectively carried out, and proposed amendments to the plan, consistent with the requirements of this article, are agreed to by the VESMP authority and the owner.

C. In order to prevent further erosion, a VESMP authority may require approval of a soil erosion control and stormwater management plan for any land identified as an erosion impact area by the VESMP authority.

D. A VESMP authority may enter into an agreement with an adjacent VESMP authority regarding the administration of multijurisdictional projects, specifying who shall be responsible for all or part of the administrative procedures. Should adjacent VESMP authorities fail to reach such an agreement, each shall be responsible for administering the area of the multijurisdictional project that lies within its jurisdiction.

E. The following requirements shall apply to land-disturbing activities in the Commonwealth:

1. Any land-disturbing activity that (i) disturbs one acre or more of land or (ii) disturbs less than one acre of land and is part of a larger common plan of development or sale that results in one acre or greater of land disturbance may, in accordance with regulations adopted by the Board, be required to obtain permit coverage.

2. For a land-disturbing activity occurring in an area not designated as a Chesapeake Bay Preservation Area subject to the Chesapeake Bay Preservation Act (§ 62.1-44.15:67 et seq.):

a. Soil erosion control requirements and water quantity technical criteria adopted pursuant to this article shall apply to any activity that disturbs 10,000 square feet or more, although the locality may reduce this regulatory threshold to a smaller area of disturbed land. A plan addressing these requirements shall be submitted to the VESMP authority in

accordance with subsection A. This subdivision shall also apply to additions or modifications to existing single-family detached residential structures.

b. Soil erosion control requirements and water quantity and water quality technical criteria shall apply to any activity that (i) disturbs one acre or more of land or (ii) disturbs less than one acre of land and is part of a larger common plan of development or sale that results in one acre or greater of land disturbance, although the locality may reduce this regulatory threshold to a smaller area of disturbed land. A plan addressing these requirements shall be submitted to the VESMP authority in accordance with subsection A.

3. For a land-disturbing activity occurring in an area designated as a Chesapeake Bay Preservation Area subject to the Chesapeake Bay Preservation Act (§ 62.1-44.15:67 et seq.):

a. Soil erosion control and water quantity and water quality technical criteria shall apply to any land-disturbing activity that disturbs 2,500 square feet or more of land, other than a single-family detached residential structure. However, the governing body of any affected locality may reduce this regulatory threshold to a smaller area of disturbed land. A plan addressing these requirements shall be submitted to the VESMP authority in accordance with subsection A.

b. For land-disturbing activities for single-family detached residential structures, soil erosion control and water quantity technical criteria shall apply to any land-disturbing activity that disturbs 2,500 square feet or more of land, and the locality also may require compliance with the water quality technical criteria. A plan addressing these requirements shall be submitted to the VESMP authority in accordance with subsection A.

~~C~~ F. Notwithstanding any other provisions of this article, the following activities are ~~exempt~~, not required to comply with the requirements of this article unless otherwise required by federal law:

1. Minor land-disturbing activities, including home gardens and individual home landscaping, repairs, and maintenance work;

2. Installation, maintenance, or repair of any individual service connection;

3. Installation, maintenance, or repair of any underground utility line when such activity occurs on an existing hard surfaced road, street, or sidewalk, provided the land-disturbing activity is confined to the area of the road, street, or sidewalk that is hard surfaced;

4. Installation, maintenance, or repair of any septic tank line or drainage field unless included in an overall plan for land-disturbing activity relating to construction of the building to be served by the septic tank system;

5. Permitted surface or deep mining operations and projects, or oil and gas operations and projects conducted ~~under the provisions of~~ pursuant to Title 45.1;

~~2~~ 6. Clearing of lands specifically for *bona fide* agricultural purposes ~~and~~; the management, tilling, planting, or harvesting of agricultural, horticultural, or forest crops; livestock feedlot operations; ~~or as additionally set forth by the Board in regulations, including~~; agricultural engineering operations ~~as follows~~, including construction of terraces, terrace outlets, check dams, desilting basins, dikes, ponds, ditches, strip cropping, lister furrowing, contour cultivating, contour furrowing, land drainage, and land irrigation; ~~however or as additionally set forth by the Board in regulations~~. However, this exception shall not apply to harvesting of forest crops unless the area on which harvesting occurs is reforested artificially or naturally in accordance with the provisions of Chapter 11 (§ 10.1-1100 et seq.) or is converted to bona fide agricultural or improved pasture use as described in subsection B of § 10.1-1163;

~~3~~ 7. Single-family residences separately built and disturbing less than one acre and not part of a larger common plan of development or sale, including additions or modifications to existing single-family detached residential structures. However, localities subject to the provisions of the Chesapeake Bay Preservation Act (§ 62.1-44.15:67 et seq.) may regulate these single-family residences where land disturbance exceeds 2,500 square feet;

~~4~~ 8. Land-disturbing activities that disturb less than one acre of land area except for land-disturbing activity exceeding an area of 2,500 square feet in all areas of the jurisdictions designated as subject to the Chesapeake Bay Preservation Area Designation and Management Regulations adopted pursuant to the provisions of the Chesapeake Bay Preservation Act (§ 62.1-44.15:67 et seq.) or activities that are part of a larger common plan of development or sale that is one acre or greater of disturbance; however, the governing body of any locality that administers a VESMP may reduce this exception to a smaller area of disturbed land or qualify the conditions under which this exception shall apply;

~~5~~ 7. Installation of fence and sign posts or telephone and electric poles and other kinds of posts or poles;

8. Shoreline erosion control projects on tidal waters when all of the land-disturbing activities are within the regulatory authority of and approved by local wetlands boards, the Marine Resources Commission, or the United States Army Corps of Engineers; however, any associated land that is disturbed outside of this exempted area shall remain subject to this article and the regulations adopted pursuant thereto;

9. Repair or rebuilding of the tracks, rights-of-way, bridges, communication facilities, and other related structures and facilities of a railroad company;

10. Land-disturbing activities in response to a public emergency where the related work requires immediate authorization to avoid imminent endangerment to human health or the environment. In such situations, the VESMP authority shall be advised of the disturbance within seven days of commencing the land-disturbing activity, and compliance with the administrative requirements of subsection A is required within 30 days of commencing the land-disturbing activity; and

11. Discharges to a sanitary sewer or a combined sewer system; that are not from a land-disturbing activity.

G. Notwithstanding any other provision of this article, the following activities are required to comply with the soil erosion control requirements but are not required to comply with the water quantity and water quality technical criteria, unless otherwise required by federal law:

~~6. 1. Activities under a state or federal reclamation program to return an abandoned property to an agricultural or open land use;~~

~~7. 2. Routine maintenance that is performed to maintain the original line and grade, hydraulic capacity, or original construction of the project. The paving of an existing road with a compacted or impervious surface and reestablishment of existing associated ditches and shoulders shall be deemed routine maintenance if performed in accordance with this subsection; and~~

~~8. Conducting land-disturbing activities in response to a public emergency where the related work requires immediate authorization to avoid imminent endangerment to human health or the environment. In such situations, the VSMP authority shall be advised of the disturbance within seven days of commencing the land-disturbing activity; and compliance with the administrative requirements of subsection A is required within 30 days of commencing the land-disturbing activity~~

~~3. Discharges from a land-disturbing activity to a sanitary sewer or a combined sewer system.~~

§ 62.1-44.15:35. Nutrient credit use and additional offsite options for construction activities.

A. As used in this section:

"Nutrient credit" or "credit" means a *type of offsite option that is a nutrient credit certified pursuant to Article 4.02 (§ 62.1-44.19:12 et seq.).*

"Offsite option" means an alternative available, away from the real property where land disturbance is occurring, to address water quality or water quantity technical criteria established pursuant to § 62.1-44.15:28.

"Tributary," within the Chesapeake Bay watershed, has the same meaning as in § 62.1-44.19:13. For areas outside of the Chesapeake Bay watershed, "tributary" includes the following watersheds: Albemarle Sound, Coastal; Atlantic Ocean, Coastal; Big Sandy; Chowan; Clinch-Powell; New Holston (Upper Tennessee); New River; Roanoke; and Yadkin.

"Virginia Stormwater Management Program Authority" or "VSMP authority" has the same meaning as in § 62.1-44.15:24 and includes, until July 1, 2014, any locality that has adopted a local stormwater management program.

~~B. A VSMP authority is authorized to allow compliance with stormwater nonpoint nutrient runoff water quality criteria established pursuant to § 62.1-44.15:28, in whole or in part, through the use of the applicant's acquisition of nutrient credits in the same tributary.~~

~~C. No applicant shall use nutrient credits to address water quantity control requirements. No applicant shall use nutrient credits or other offsite options. No offsite option shall be used in contravention of local water quality-based limitations (i) determined pursuant to subsection B of § 62.1-44.19:14, (ii) adopted pursuant to § 62.1-44.15:33 or other applicable authority, (iii) deemed necessary to protect public water supplies from demonstrated adverse nutrient impacts, or (iv) as otherwise may be established or approved by the Board. Where such a limitation exists, offsite options may be used provided that such options do not preclude or impair compliance with the local limitation.~~

~~D. A VSMP authority shall allow offsite options in accordance with subsection C. Unless prohibited by subsection B, a VESMP authority or a VSMP authority:~~

~~1. May allow the use of offsite options for compliance with water quality and water quantity technical criteria established pursuant to § 62.1-44.15:28, in whole or in part; and~~

~~2. Shall allow the use of nutrient credits for compliance with the water quality technical criteria when:~~

~~1. a. Less than five acres of land will be disturbed;~~

~~2. The postconstruction phosphorous control b. The phosphorous water quality reduction requirement is less than 10 pounds per year; or~~

~~3. The state permit applicant demonstrates c. It is demonstrated to the satisfaction of the VESMP or VSMP authority that (i) alternative site designs have been considered that may accommodate onsite best management practices, (ii) onsite best management practices have been considered in alternative site designs to the maximum extent practicable, (iii) appropriate onsite best management practices will be implemented, and (iv) full compliance with postdevelopment nonpoint nutrient runoff compliance requirements water quality technical criteria cannot practicably be met onsite. For purposes of this subdivision, if an applicant demonstrates The requirements of clauses (i) through (iv) shall be deemed to have been met if it is demonstrated that onsite control of at least 75 percent of the required phosphorous nutrient reductions; the applicant shall be deemed to have met the requirements of clauses (i) through (iv) water quality reduction will be achieved.~~

~~E. Documentation of the applicant's acquisition of nutrient credits shall be provided to the VSMP authority and the Department in a certification from the credit provider documenting the number of phosphorus nutrient credits acquired and the associated ratio of nitrogen nutrient credits at the credit-generating entity. Until the effective date of regulations establishing application fees in accordance with § 62.1-44.19:20, the credit provider shall pay the Department a water quality enhancement fee equal to six percent of the amount paid by the applicant for the credits. Such fee shall be deposited into the Virginia Stormwater Management Fund established by § 62.1-44.15:29.~~

~~F. Nutrient credits used pursuant to subsection B shall be generated in the same or adjacent eight-digit hydrologic unit code as defined by the United States Geological Survey as the permitted site except as otherwise limited in subsection C. Nutrient credits outside the same or adjacent eight-digit hydrologic unit code may only be used if it is determined by the VSMP authority that no credits are available within the same or adjacent eight-digit hydrologic unit code when the VSMP~~

authority accepts the final site design. In such cases, and subject to other limitations imposed in this section, credits available within the same tributary may be used. In no case shall credits from another tributary be used.

~~G.~~ For that portion of a site's compliance with stormwater nonpoint nutrient runoff water quality criteria being obtained through nutrient credits, the applicant shall (i) comply with a 1:1 ratio of the nutrient credits to the site's remaining postdevelopment nonpoint nutrient runoff compliance requirement being met by credit use and (ii) use credits certified as perpetual credits pursuant to Article 4.02 (§ 62.1-44.19:12 et seq.).

~~H.~~ D. No VSMP or VESMP authority may grant an exception to, or waiver of, ~~postdevelopment~~ *post-development* nonpoint nutrient runoff compliance requirements unless offsite options have been considered and found not available.

~~I.~~ E. The VSMP or VESMP authority shall require that ~~nutrient credits and other~~ offsite options approved by the Department or applicable state board, ~~including locality pollutant loading pro rata share programs established pursuant to § 15.2-2243,~~ achieve the necessary ~~nutrient phosphorous water quality~~ reductions prior to the commencement of the applicant's land-disturbing activity. A pollutant loading pro rata share program established by a locality pursuant to § 15.2-2243 and approved by the Department or applicable state board prior to January 1, 2011, including those that may achieve nutrient reductions after the commencement of the land-disturbing activity, may continue to operate in the approved manner for a transition period ending July 1, 2014. ~~The applicant~~ *In the case of a phased project, the land disturber may acquire or achieve the offsite nutrient reductions prior to the commencement of each phase of the land-disturbing activity in an amount sufficient for each such phase. The land disturber shall have the right to select between the use of nutrient credits or other offsite options, except during the transition period in those localities to which the transition period applies. The locality may use funds collected for nutrient reductions pursuant to a locality pollutant loading pro rata share program under § 15.2-2243 for nutrient reductions in the same tributary within the same locality as the land-disturbing activity or for the acquisition of nutrient credits. In the case of a phased project, the applicant may acquire or achieve the offsite nutrient reductions prior to the commencement of each phase of the land-disturbing activity in an amount sufficient for each such phase.*

~~J.~~ Nutrient reductions obtained through nutrient credits shall be credited toward compliance with any nutrient allocation assigned to a municipal separate storm sewer system in a Virginia Stormwater Management Program Permit or Total Maximum Daily Load applicable to the location where the activity for which the nutrient credits are used takes place. ~~If the activity for which the nutrient credits are used does not discharge to a municipal separate storm sewer system, the nutrient reductions shall be credited toward compliance with the applicable nutrient allocation.~~

~~K.~~ F. With the consent of the land disturber, in resolving enforcement actions, the VESMP authority or the Board may include the use of offsite options to compensate for (i) nutrient control deficiencies occurring during the period of noncompliance and (ii) permanent nutrient control deficiencies.

~~G.~~ This section shall not be construed as limiting the authority established under § 15.2-2243; however, under any pollutant loading pro rata share program established thereunder, the subdivider or developer shall be given appropriate credit for nutrient reductions achieved through offsite options. The locality may use funds collected for nutrient reductions pursuant to a locality pollutant loading pro rata share program for nutrient reductions in the same tributary within the same locality as the land-disturbing activity, or for the acquisition of nutrient credits.

~~H.~~ Nutrient credits shall not be used to address water quantity technical criteria. Nutrient credits shall be generated in the same or adjacent fourth order subbasin, as defined by the hydrologic unit boundaries of the National Watershed Boundary Dataset, as the land-disturbing activity. If no credits are available within these subbasins when the VESMP or VSMP authority accepts the final site design, credits available within the same tributary may be used. The following requirements apply to the use of nutrient credits:

1. Documentation of the acquisition of nutrient credits shall be provided to the VESMP authority and the Department or the VSMP authority in a certification from the credit provider documenting the number of phosphorus nutrient credits acquired and the associated ratio of nitrogen nutrient credits at the credit-generating entity.

2. Until the effective date of regulations establishing application fees in accordance with § 62.1-44.19:20, the credit provider shall pay the Department a water quality enhancement fee equal to six percent of the amount paid for the credits. Such fee shall be deposited into the Virginia Stormwater Management Fund established by § 62.1-44.15:29.

3. For that portion of a site's compliance with water quality technical criteria being obtained through nutrient credits, the land disturber shall (i) comply with a 1:1 ratio of the nutrient credits to the site's remaining post-development nonpoint nutrient runoff compliance requirement being met by credit use and (ii) use credits certified as perpetual credits pursuant to Article 4.02 (§ 62.1-44.19:12 et seq.).

4. A VESMP or VSMP authority shall allow the full or partial substitution of perpetual nutrient credits for existing onsite nutrient controls when (i) the nutrient credits will compensate for 10 or fewer pounds of the annual phosphorous requirement associated with the original land-disturbing activity or (ii) existing onsite controls are not functioning as anticipated after reasonable attempts to comply with applicable maintenance agreements or requirements and the use of nutrient credits will account for the deficiency. Upon determination by the VESMP or VSMP authority that the conditions established by clause (i) or (ii) have been met, the party responsible for maintenance shall be released from maintenance obligations related to the onsite phosphorous controls for which the nutrient credits are substituted.

~~L.~~ To the extent available, with the consent of the applicant, the VSMP authority, the Board or the Department may include the use of nutrient credits or other offsite measures in resolving enforcement actions to compensate for (i) nutrient control deficiencies occurring during the period of noncompliance and (ii) permanent nutrient control deficiencies.

M. This section shall not be construed as limiting the authority established under § 15.2-2243; however, under any pollutant loading pro rata share program established thereunder, the subdivider or developer shall be given appropriate credit for nutrient reductions achieved through nutrient credits or other offsite options.

N. In order to properly account for allowed nonpoint nutrient offsite reductions, an applicant shall report to the Department, in accordance with Department procedures, information regarding all offsite reductions that have been authorized to meet stormwater postdevelopment nonpoint nutrient runoff compliance requirements.

O. An applicant or a permittee found to be in noncompliance with the requirements of this section shall be subject to the enforcement and penalty provisions of this article.

1. The use of nutrient credits to meet post-construction nutrient control requirements shall be accounted for in the implementation of total maximum daily loads and MS4 permits as specified in subdivisions 1, 2, and 3. In order to ensure that the nutrient reduction benefits of nutrient credits used to meet post-construction nutrient control requirements are attributed to the location of the land-disturbing activity where the credit is used, the following account method shall be used:

1. Chesapeake Bay TMDL.

a. Where nutrient credits are used to meet nutrient reduction requirements applicable to redevelopment projects, a 1:1 credit shall be applied toward MS4 compliance with the Chesapeake Bay TMDL waste load allocation or related MS4 permit requirement applicable to the MS4 service area, including the site of the land-disturbing activity, such that the nutrient reductions of redevelopment projects are counted as part of the MS4 nutrient reductions to the same extent as when land-disturbing activities use onsite measures to comply.

b. Where nutrient credits are used to meet post-construction requirements applicable to new development projects, the nutrient reduction benefits represented by such credits shall be attributed to the location of the land-disturbing activity where the credit is used to the same extent as when land-disturbing activities use onsite measures to comply.

c. A 1:1 credit shall be applied toward compliance by a locality that operates a regulated MS4 with its Chesapeake Bay TMDL waste load allocation or related MS4 permit requirement to the extent that nutrient credits are obtained by the MS4 jurisdiction from a nutrient credit-generating entity as defined in § 62.1-44.19:13 independent of or in excess of those required to meet the post-construction requirements.

2. Local nutrient-related TMDLs adopted prior to the land-disturbing activity.

a. Where nutrient credits are used to meet nutrient reduction requirements applicable to redevelopment projects, a 1:1 credit shall be applied toward MS4 compliance with any local TMDL waste load allocation or related MS4 permit requirement applicable to the MS4 service area, including the site of the land-disturbing activity, such that the nutrient reductions of redevelopment projects are counted as part of the MS4 nutrient reductions to the same extent as when land-disturbing activities use onsite measures to comply, provided the nutrient credits are generated upstream of where the land-disturbing activity discharges to the water body segment that is subject to the TMDL.

b. Where nutrient credits are used to meet post-construction requirements applicable to new development projects, the nutrient reduction benefits represented by such credits shall be attributed to the location of the land-disturbing activity where the credit is used to the same extent as when land-disturbing activities use onsite measures to comply, provided the nutrient credits are generated upstream of where the land-disturbing activity discharges to the water body segment that is subject to the TMDL.

c. A 1:1 credit shall be applied toward MS4 compliance with any local TMDL waste load allocation or related MS4 permit requirement to the extent that nutrient credits are obtained by the MS4 jurisdiction from a nutrient credit-generating entity as defined in § 62.1-44.19:13 independent of or in excess of those required to meet the post-construction requirements. However, such credits shall be generated upstream of where the land-disturbing activity discharges to the water body segment that is subject to the TMDL.

3. Future local nutrient-related TMDLs.

This subdivision applies only to areas where there has been a documented prior use of nutrient credits to meet nutrient control requirements in an MS4 service area that flows to or is upstream of a water body segment for which a nutrient-related TMDL is being developed. For a TMDL waste load allocation applicable to the MS4, the Board shall develop the TMDL waste load allocation with the nutrient reduction benefits represented by the nutrient credit use being attributed to the MS4, except when the Board determines during the TMDL development process that reasonable assurance of implementation cannot be provided for nonpoint source load allocations due to the nutrient reduction benefits being attributed in this manner. The Board shall have no obligation to account for nutrient reduction benefits in this manner if the MS4 does not provide the Board with adequate documentation of (i) the location of the land-disturbing activities, (ii) the number of nutrient credits, and (iii) the generation of the nutrient credits upstream of the site at which the land-disturbing activity discharges to the water body segment addressed by the TMDL. Such attribution shall not be interpreted as amending the requirement that the TMDL be established at a level necessary to meet the applicable water quality standard.

§ 62.1-44.15:37. Notices to comply and stop work orders.

A. The VSMP authority (i) shall provide for periodic inspections of the installation of stormwater management measures; (ii) may require monitoring and reports from the person responsible for meeting the permit conditions to ensure compliance with the permit and to determine whether the measures required in the permit provide effective stormwater management; and (iii) shall conduct such investigations and perform such other actions as are necessary to carry out the provisions of this article. If the VSMP authority, where authorized to enforce this article, or the Department When the

~~VESMP authority or the Board determines that there is a failure to comply with the permit conditions, notice shall be served upon the permittee or person responsible for carrying out the permit conditions or conditions of land-disturbance approval, or to obtain an approved plan, permit, or land-disturbance approval prior to commencing land-disturbing activities, the VESMP authority or the Board may serve a notice to comply upon the owner, permittee, or person conducting land-disturbing activities without an approved plan, permit, or approval. Such notice to comply shall be served by delivery by facsimile, email, or other technology; by mailing with confirmation of delivery to the address specified in the permit or land-disturbance application, if available, or in the land records of the locality; or by delivery at the site of the development activities to the agent or employee supervising such activities to a person previously identified to the VESMP authority by the permittee or owner. The notice to comply shall specify the measures needed to comply with the permit conditions and shall specify the or land-disturbance approval conditions, or shall identify the plan approval or permit or land-disturbance approval needed to comply with this article, and shall specify a reasonable time within which such measures shall be completed. In any instance in which a required permit or land-disturbance approval has not been obtained, the VESMP authority or the Board may require immediate compliance. In any other case, the VESMP authority or the Board may establish the time for compliance by taking into account the risk of damage to natural resources and other relevant factors. Notwithstanding any other provision in this subsection, a VESMP authority or the Board may count any days of noncompliance as days of violation should the VESMP authority or the Board take an enforcement action. The issuance of a notice to comply by the Board shall not be considered a case decision as defined in § 2.2-4001.~~

~~B. Upon failure to comply within the time specified; a stop work order may be issued in accordance with subsection B by the VSMP authority, where authorized to enforce this article, or by the Board; or the permit may be revoked by the VSMP authority, or the state permit may be revoked by the Board. The Board or the VSMP authority, where authorized to enforce this article, may pursue enforcement in accordance with § 62.1-44.15:48:~~

~~B. If a permittee fails to comply with a notice issued in accordance with subsection A within the time specified, the VSMP authority, where authorized to enforce this article, or the Department may issue an in a notice to comply issued in accordance with subsection A, a locality serving as the VESMP authority or the Board may issue a stop work order requiring the owner, permittee, person responsible for carrying out an approved plan, or person conducting the land-disturbing activities without an approved plan or required permit or land-disturbance approval to cease all land-disturbing activities until the violation of the permit has ceased, or an approved plan and required permits and approvals are obtained, and specified corrective measures have been completed. The VESMP authority or the Board shall lift the order immediately upon completion and approval of corrective action or upon obtaining an approved plan or any required permits or approvals.~~

~~Such orders shall be issued (i) in accordance with local procedures if issued by a locality serving as a VSMP authority or (ii) after a hearing held in accordance with the requirements C. When such an order is issued by the Board, it shall be issued in accordance with the procedures of the Administrative Process Act (§ 2.2-4000 et seq.) if issued by the Department. Such orders shall become effective upon service on the person in the manner set forth in subsection A. However, where the alleged noncompliance is causing or presents an imminent and substantial danger of causing harmful erosion of lands or sediment deposition in waters within the watersheds of the Commonwealth or otherwise substantially impacting water quality, the locality serving as the VESMP authority or the Board may issue, without advance notice or procedures, an emergency order directing such person to cease immediately all land-disturbing activities on the site and shall provide an opportunity for a hearing, after reasonable notice as to the time and place thereof, to such person, to affirm, modify, amend, or cancel such emergency order.~~

~~D. The owner, permittee, or person conducting a land-disturbing activity may appeal the issuance of any order to the circuit court of the jurisdiction wherein the violation was alleged to occur or other appropriate court.~~

~~E. An aggrieved owner of property sustaining pecuniary damage from soil erosion or sediment deposition resulting from a violation of an approved plan or required land-disturbance approval, or from the conduct of a land-disturbing activity commenced without an approved plan or required land-disturbance approval, may give written notice of an alleged violation to the locality serving as the VESMP authority and to the Board.~~

~~1. If the VESMP authority has not responded to the alleged violation in a manner that causes the violation to cease and abates the damage to the aggrieved owner's property within 30 days following receipt of the notice from the aggrieved owner, the aggrieved owner may request that the Board conduct an investigation and, if necessary, require the violator to stop the alleged violation and abate the damage to the property of the aggrieved owner.~~

~~2. Upon receipt of the request, the Board shall conduct an investigation of the aggrieved owner's complaint. If the Board's investigation of the complaint indicates that (i) there is a violation and the VESMP authority has not responded to the violation as required by the VESMP and (ii) the VESMP authority has not responded to the alleged violation in a manner that causes the violation to cease and abates the damage to the aggrieved owner's property within 30 days from receipt of the notice from the aggrieved owner, then the Board shall give written notice to the VESMP authority that the Board intends to issue an order pursuant to subdivision 3.~~

~~3. If the VESMP authority has not instituted action to stop the violation and abate the damage to the aggrieved owner's property within 10 days following receipt of the notice from the Board, the Board is authorized to issue an order requiring the owner, person responsible for carrying out an approved plan, or person conducting the land-disturbing activity without an approved plan or required land-disturbance approval to cease all land-disturbing activities until the violation of the plan~~

has ceased or an approved plan and required land-disturbance approval are obtained, as appropriate, and specified corrective measures have been completed. The Board also may immediately initiate a program review of the VESMP.

4. Such orders are to be issued in accordance with the procedures of the Administrative Process Act (§ 2.2-4000 et seq.) and they shall become effective upon service on the person by mailing, with confirmation of delivery, sent to his address specified in the land records of the locality, or by personal delivery by an agent of the ~~VSM~~ authority or ~~Department~~ Board. Any subsequent identical mail or notice that is sent by the Board may be sent by regular mail. However, if the ~~VSM~~ authority or the ~~Department~~ Board finds that any such violation is grossly affecting or presents an imminent and substantial danger of causing harmful erosion of lands or sediment deposition in waters within the watersheds of the Commonwealth or otherwise substantially impacting water quality, it may issue, without advance notice or hearing, an emergency order directing such person to cease immediately all land-disturbing activities on the site immediately and shall provide an opportunity for a hearing, after reasonable notice as to the time and place thereof, to such person, to affirm, modify, amend, or cancel such emergency order.

5. If a person who has been issued an order or an emergency order is not complying with the terms thereof, the ~~VSM~~ authority or the ~~Department~~ Board may institute a proceeding in accordance with § 62.1-44.15:42 the appropriate circuit court for an injunction, mandamus, or other appropriate remedy compelling the person to comply with such order. Any civil penalties assessed by a court shall be paid into the state treasury and deposited by the State Treasurer into the Stormwater Local Assistance Fund established pursuant to § 62.1-44.15:29.1.

§ 62.1-44.15:39. Right of entry.

This definition shall not apply to any lot or parcel of land of 10,000 square feet or less used for residential purposes or to shorelines where the erosion results from wave action or other coastal processes.

~~"Land-disturbing activity" "Land disturbance" or "land-disturbing activity" means any man-made change to the land surface that may result in soil erosion from water or wind and the movement of sediments into state waters or onto lands in the Commonwealth, including, but not limited to, or has the potential to change its runoff characteristics, including the clearing, grading, excavating, transporting, and filling of land; except that the term shall not include:~~

~~1. Minor land-disturbing activities such as home gardens and individual home landscaping, repairs, and maintenance work;~~

~~2. Individual service connections;~~

11. Shoreline erosion control projects on tidal waters when all of the land-disturbing activities are within the regulatory authority of and approved by local wetlands boards, the Marine Resources Commission, or the United States Army Corps of Engineers; however, any associated land that is disturbed outside of this exempted area shall remain subject to this article and the regulations adopted pursuant thereto; and

12. Emergency work to protect life, limb, or property, and emergency repairs; however, if the land-disturbing activity would have required an approved erosion and sediment control plan, if the activity were not an emergency, then the land area disturbed shall be shaped and stabilized in accordance with the requirements of the VESCP authority.

"Natural channel design concepts" means the utilization of engineering analysis and fluvial geomorphic processes to create, rehabilitate, restore, or stabilize an open conveyance system for the purpose of creating or recreating a stream that conveys its bankfull storm event within its banks and allows larger flows to access its bankfull bench and its floodplain.

"Owner" means *the same as provided in § 62.1-44.3. For a land-disturbing activity that is regulated under this article, "owner" also includes* the owner or owners of the freehold of the premises or lesser estate therein, mortgagee or vendee in possession, assignee of rents, receiver, executor, trustee, lessee, or other person, firm, or corporation in control of a property.

"Peak flow rate" means the maximum instantaneous flow from a given storm condition at a particular location.

"Permittee" means the person to whom the local permit authorizing land-disturbing activities is issued or the person who certifies that the approved erosion and sediment control plan will be followed.

"Person" means any individual, partnership, firm, association, joint venture, public or private corporation, trust, estate, commission, board, public or private institution, utility, cooperative, county, city, town, or other political subdivision of the Commonwealth, governmental body, including a federal or state entity as applicable, any interstate body, or any other legal entity.

"Runoff volume" means the volume of water that runs off the land development project from a prescribed storm event.

"Soil erosion" means *the movement of soil by wind or water into state waters or onto lands in the Commonwealth.*

"Town" means an incorporated town.

"Virginia Erosion and Sediment Control Program" or "VESCP" means a program approved by the Board that has been established by a VESCP authority for the effective control of soil erosion, sediment deposition, and nonagricultural runoff associated with a land-disturbing activity to prevent the unreasonable degradation of properties, stream channels, waters, and other natural resources and shall include such items where applicable as local ordinances, rules, ~~permit requirements, annual standards and specifications,~~ policies and guidelines, technical materials, and requirements for plan review, inspection; ~~enforcement where authorized in this article,~~ and evaluation consistent with the requirements of this article ~~and its associated regulations.~~

"Virginia Erosion and Sediment Control Program authority" or "VESCP authority" means ~~an authority~~ *a locality* approved by the Board to operate a Virginia Erosion and Sediment Control Program. ~~An authority may include a state entity, including the Department; a federal entity; a district, county, city, or town; or for linear projects subject to annual standards and specifications, electric, natural gas, and telephone utility companies, interstate and intrastate natural gas pipeline companies, railroad companies, or authorities created pursuant to § 15.2-5102. A locality that has chosen not to establish a Virginia Erosion and Stormwater Management Program pursuant to subdivision B 3 of § 62.1-44.15:27 is required to become a VESCP authority in accordance with this article.~~

"Virginia Stormwater Management Program" or "VSMP" means a program established by the Board pursuant to § 62.1-44.15:27.1 on behalf of a locality on or after July 1, 2014, to manage the quality and quantity of runoff resulting from any land-disturbing activity that (i) disturbs one acre or more of land or (ii) disturbs less than one acre of land and is part of a larger common plan of development or sale that results in one acre or greater of land disturbance.

"Water quality volume" means the volume equal to the first one-half inch of runoff multiplied by the impervious surface of the land development project.

§ 62.1-44.15:51.1. Applicability.

The requirements of this article shall apply in any locality that has chosen not to establish a Virginia Erosion and Stormwater Management Program (VESMP) pursuant to subdivision B 3 of § 62.1-44.15:27. Each such locality shall be required to adopt and administer a Board-approved VESCP.

§ 62.1-44.15:52. Virginia Erosion and Sediment Control Program.

A. The Board shall develop a program and adopt regulations in accordance with the Administrative Process Act (§ 2.2-4000 et seq.) for the effective control of soil erosion, sediment deposition, and nonagricultural runoff that shall be met in any control program to prevent the unreasonable degradation of properties, stream channels, waters, and other natural resources. Stream restoration and relocation projects that incorporate natural channel design concepts are not man-made channels and shall be exempt from any flow rate capacity and velocity requirements for natural or man-made channels as defined in any regulations promulgated pursuant to this section or § 62.1-44.15:54 or 62.1-44.15:65. Any plan approved prior to July 1, 2014, that provides for stormwater management that addresses any flow rate capacity and velocity requirements for natural or man-made channels shall satisfy the flow rate capacity and velocity requirements for natural or man-made channels if the practices are designed to (i) detain the water quality volume equal to the first one-half inch of runoff multiplied by the impervious surface of the land development project and to release it over 48 hours; (ii) detain and release over a 24-hour period the expected rainfall resulting from the one-year, 24-hour storm; and (iii) reduce the allowable peak flow rate resulting from the 1.5-year, two-year, and 10-year, 24-hour storms to a level that is less than or equal to the peak flow rate from the site assuming it was in a good forested condition, achieved through multiplication of the forested peak flow rate by a reduction factor that is equal to the runoff volume from the site when it was in a good forested condition divided by the runoff volume from the site in its proposed condition, and shall be exempt from any flow rate capacity and velocity requirement for natural or man-made channels as defined in regulations promulgated pursuant to § 62.1-44.15:54 or 62.1-44.15:65. For plans approved on and after July 1, 2014, the flow rate capacity and velocity requirements of this subsection shall be satisfied by compliance with water quantity requirements in the Virginia Erosion and Stormwater Management Act (§ 62.1-44.15:24 et seq.) and attendant regulations, unless such land-disturbing activities are in accordance with the grandfathering provisions of the Virginia Erosion and Stormwater Management Program (VESMP) Permit (VESMP) Regulations or exempt pursuant to subdivision G 2 of § 62.1-44.15:34.

The regulations shall:

1. Be based upon relevant physical and developmental information concerning the watersheds and drainage basins of the Commonwealth, including, but not limited to, data relating to land use, soils, hydrology, geology, size of land area being disturbed, proximate water bodies and their characteristics, transportation, and public facilities and services;
2. Include such survey of lands and waters as may be deemed appropriate by the Board or required by any applicable law to identify areas, including multijurisdictional and watershed areas, with critical erosion and sediment problems; and
3. Contain conservation standards for various types of soils and land uses, which shall include criteria, techniques, and methods for the control of erosion and sediment resulting from land-disturbing activities.

B. The Board shall provide technical assistance and advice to, and conduct and supervise educational programs for VESCP authorities.

C. The Board shall adopt regulations establishing minimum standards of effectiveness of erosion and sediment control programs, and criteria and procedures for reviewing and evaluating the effectiveness of VESCPs. In developing minimum standards for program effectiveness, the Board shall consider information and standards on which the regulations promulgated pursuant to subsection A are based.

D. The Board shall approve VESCP authorities and shall periodically conduct a comprehensive program compliance review and evaluation to ensure that all VESCPs operating under the jurisdiction of this article meet minimum standards of effectiveness in controlling soil erosion, sediment deposition, and nonagricultural runoff. The Department shall develop a schedule for conducting periodic reviews and evaluations of the effectiveness of VESCPs unless otherwise directed by the Board. Such reviews where applicable shall be coordinated with those being implemented in accordance with the Stormwater Management Act (§ 62.1-44.15:24 et seq.) and associated regulations and the Chesapeake Bay Preservation Act (§ 62.1-44.15:67 et seq.) and associated regulations. The Department may also conduct a comprehensive or partial program compliance review and evaluation of a VESCP at a greater frequency than the standard schedule pursuant to subdivision (19) of § 62.1-44.15.

E. The Board shall issue certificates of competence certifications concerning the content, application, and intent of specified subject areas of this article and accompanying regulations, including program administration, plan review, and project inspection, to personnel of program authorities and to any other persons who have completed training programs or in other ways demonstrated adequate knowledge. The Department shall administer education and training programs for specified subject areas of this article and accompanying regulations, and is authorized to charge persons attending such programs reasonable fees to cover the costs of administering the programs. Such education and training programs shall also contain expanded components to address plan review and project inspection elements of the Virginia Erosion and Stormwater Management Act (§ 62.1-44.15:24 et seq.) and attendant regulations in accordance with § 62.1-44.15:30.

F. Department personnel conducting inspections pursuant to this article shall hold a certificate of competence certification as provided in subsection E.

§ 62.1-44.15:53. Certification of program personnel.

A. The minimum standards of VESCP effectiveness established by the Board pursuant to subsection C of § 62.1-44.15:52 shall provide that (i) an erosion and sediment control plan shall not be approved until it is reviewed by a certified plan reviewer; (ii) inspections of land-disturbing activities shall be conducted by a certified inspector; and (iii) a VESCP shall contain a certified program administrator, a certified plan reviewer, and a certified project inspector, who may be the same person.

B. Any person who holds a certificate of competence from the Board in the area of plan review, project inspection, or program administration that was attained prior to the adoption of the mandatory certification provisions of subsection A shall be deemed to satisfy the requirements of that area of certification.

C. Professionals registered in the Commonwealth pursuant to Article 1 (§ 54.1-400 et seq.) of Chapter 4 of Title 54.1 or a professional soil scientist as defined in § 54.1-2200 shall be deemed to ~~satisfy the certification requirements~~ *have met the provisions of this section for the purposes of renewals of certifications.*

§ 62.1-44.15:54. Virginia Erosion and Sediment Control Program.

~~A. Counties and cities shall adopt and administer a VESCP.~~

~~Any town lying within a county that has adopted its own VESCP may adopt its own program or shall become subject to the county program. If a town lies within the boundaries of more than one county, the town shall be considered for the purposes of this article to be wholly within the county in which the larger portion of the town lies. Any locality that has chosen not to establish a Virginia Erosion and Stormwater Management Program (VESMP) pursuant to subdivision B 3 of § 62.1-44.15:27 shall administer a VESCP in accordance with this article; however, a town may enter into an agreement with a county to administer the town's VESCP pursuant to subsection C of § 62.1-44.15:27.~~

B. A VESCP authority may enter into agreements or contracts with soil and water conservation districts, adjacent localities, or other public or private entities to assist with carrying out the provisions of this article, including the review and determination of adequacy of erosion and sediment control plans submitted for land-disturbing activities on a unit or units of land as well as for monitoring, reports, inspections, and enforcement ~~where authorized in this article~~, of such land-disturbing activities.

C. Any VESCP adopted by a county, city, or town shall be approved by the Board if it establishes by ordinance requirements that are consistent with this article and associated regulations.

D. Each approved VESCP operated by a county, city, or town shall include provisions for the ~~integration~~ *coordination* of the VESCP with ~~Virginia stormwater management~~, flood insurance, flood plain management, and other programs requiring compliance prior to authorizing a land-disturbing activity in order to make the submission and approval of plans, ~~issuance of permits~~, payment of fees, and coordination of inspection and enforcement activities more convenient and efficient both for the local governments and those responsible for compliance with the programs.

E. ~~The Board may approve a state entity, federal entity, or, for linear projects subject to annual standards and specifications, electric, natural gas, and telephone utility companies, interstate and intrastate natural gas pipeline companies, railroad companies, or authorities created pursuant to § 15.2-5102 to operate a VESCP consistent with the requirements of this article and its associated regulations and the VESCP authority's Department-approved annual standards and specifications. For these programs, enforcement shall be administered by the Department and the Board where applicable in accordance with the provisions of this article shall conduct compliance reviews of VESCPs in accordance with subdivision (19) of § 62.1-44.15. The Board or Department also may require any locality that is a VESCP authority to furnish when requested any information as may be required to accomplish the purposes of this article.~~

F. ~~Following completion of a compliance review of a VESCP in accordance with subsection D of § 62.1-44.15:52, the Department shall provide results and compliance recommendations to the Board in the form of a corrective action agreement if deficiencies are found; otherwise, the Board may find the program compliant. If a comprehensive or partial program compliance review conducted by the Department of a VESCP indicates that the VESCP authority has not administered, enforced where authorized to do so, or conducted its VESCP in a manner that satisfies the minimum standards of effectiveness established pursuant to subsection C of § 62.1-44.15:52, the Board shall establish a schedule for the VESCP authority to come into compliance. The Board shall provide a copy of its decision to the VESCP authority that specifies the deficiencies, actions needed to be taken, and the approved compliance schedule required to attain the minimum standard of effectiveness and shall include an offer to provide technical assistance to implement the corrective action. If the VESCP authority has not implemented the necessary compliance actions identified by the Board within 30 days following receipt of the corrective action agreement, or such additional period as is granted to complete the implementation of the corrective action, then the Board shall have the authority to (i) issue a special order to any VESCP, imposing a civil penalty not to exceed \$5,000 per day with the maximum amount not to exceed \$20,000 per violation for noncompliance with the state program, to be paid into the state treasury and deposited in the Virginia Stormwater Management Fund established by § 62.1-44.15:29 or (ii) revoke its approval of the VESCP. The Administrative Process Act (§ 2.2-4000 et seq.) shall govern the activities and proceedings of the Board and the judicial review thereof.~~

~~In lieu of issuing a special order or revoking the program, the Board is authorized to take legal action against a VESCP to ensure compliance.~~

G. ~~If the Board revokes its approval of the VESCP of a county, city, or town, and the locality is in a district, the district, upon approval of the Board, shall adopt and administer a VESCP for the locality. To carry out its program, the district shall adopt regulations in accordance with the Administrative Process Act (§ 2.2-4000 et seq.) consistent with this article and~~

associated regulations. The regulations may be revised from time to time as necessary. The program and regulations shall be available for public inspection at the principal office of the district.

H. If the Board (i) revokes its approval of a VESCP of a district, or of a county, city, or town not in a district, or (ii) finds that a local program consistent with this article and associated regulations has not been adopted by a district or a county, city, or town that is required to adopt and administer a VESCP, the Board shall find the VESCP authority provisional, and have the Department assist with the administration of the program until the Board finds the VESCP authority compliant with the requirements of this article and associated regulations. "Assisting with administration" includes but is not limited to the ability to review and comment on plans to the VESCP authority, to conduct inspections with the VESCP authority, and to conduct enforcement in accordance with this article and associated regulations.

I. If the Board revokes its approval of a state entity, federal entity, or, for linear projects subject to annual standards and specifications, electric, natural gas, and telephone utility companies, interstate and intrastate natural gas pipeline companies, railroad companies, or authorities created pursuant to § 15.2-5102, the Board shall find the VESCP authority provisional, and have the Department assist with the administration of the program until the Board finds the VESCP authority compliant with the requirements of this article and associated regulations. "Assisting with administration" includes the ability to review and comment on plans to the VESCP authority and to conduct inspections with the VESCP authority in accordance with this article and associated regulations.

J. F. Any VESCP authority that administers an erosion and sediment control program may charge applicants a reasonable fee to defray the cost of program administration. Such fee may be in addition to any fee charged for administration of a Virginia Stormwater Management Program, although payment of fees may be consolidated in order to provide greater convenience and efficiency for those responsible for compliance with the programs. A VESCP authority shall hold a public hearing prior to establishing a schedule of fees. The fee shall not exceed an amount commensurate with the services rendered, taking into consideration the time, skill, and the VESCP authority's expense involved.

K. The governing body of any county, city, or town, or a district board G. Any locality that is authorized to administer a VESCP, may adopt an ordinance or regulation where applicable providing that violations of any regulation or order of the Board, any provision of its program, any condition of a permit land-disturbance approval, or any provision of this article shall be subject to a civil penalty. The civil penalty for any one violation shall be not less than \$100 nor more than \$1,000. Each day during which the violation is found to have existed shall constitute a separate offense. In no event shall a series of specified violations arising from the same operative set of facts result in civil penalties that exceed a total of \$10,000, except that a series of violations arising from the commencement of land-disturbing activities without an approved plan for any site shall not result in civil penalties that exceed a total of \$10,000. Adoption of such an ordinance providing that violations are subject to a civil penalty shall be in lieu of criminal sanctions and shall preclude the prosecution of such violation as a misdemeanor under subsection A of § 62.1-44.15:63. The penalties set out in this subsection are also available to the Board in its enforcement actions.

§ 62.1-44.15:55. Regulated land-disturbing activities; submission and approval of erosion and sediment control plan.

A. Except as provided in § 62.1-44.15:56 for state agency and federal entity land-disturbing activities § 62.1-44.15:31 for a land-disturbing activity conducted by a state agency, federal entity, or other specified entity, no person shall engage in any land-disturbing activity until he has submitted to the VESCP authority an erosion and sediment control plan for the land-disturbing activity and the plan has been reviewed and approved. Upon the development of an online reporting system by the Department, but no later than July 1, 2014, a VESCP authority shall then be required to obtain evidence of Virginia Stormwater Management Program permit coverage where it is required prior to providing approval to begin land disturbance. Where land-disturbing activities involve lands under the jurisdiction of more than one VESCP, an erosion and sediment control plan may, at the request of one or all of the VESCP authorities, be submitted to the Department for review and approval rather than to each jurisdiction concerned. The Department may charge the jurisdictions requesting the review a fee sufficient to cover the cost associated with conducting the review. A VESCP may enter into an agreement with an adjacent VESCP regarding the administration of multijurisdictional projects whereby the jurisdiction that contains the greater portion of the project shall be responsible for all or part of the administrative procedures. Where Virginia Pollutant Discharge Elimination System permit coverage is required, a VESCP authority shall be required to obtain evidence of such coverage from the Department's online reporting system prior to approving the erosion and sediment control plan. A VESCP authority may enter into an agreement with an adjacent VESCP or VESMP authority regarding the administration of multijurisdictional projects specifying who shall be responsible for all or part of the administrative procedures. Should adjacent authorities fail to come to such an agreement, each shall be responsible for administering the area of the multijurisdictional project that lies within its jurisdiction. Where the land-disturbing activity results from the construction of a single-family residence, an agreement in lieu of a plan may be substituted for an erosion and sediment control plan if executed by the VESCP authority.

B. The VESCP authority shall review erosion and sediment control plans submitted to it and grant written approval within 60 days of the receipt of the plan if it determines that the plan meets the requirements of this article and the Board's regulations and if the person responsible for carrying out the plan certifies that he will properly perform the erosion and sediment control measures included in the plan and shall comply with the provisions of this article. In addition, as a prerequisite to engaging in the land-disturbing activities shown on the approved plan, the person responsible for carrying out the plan shall provide the name of an individual holding a certificate of competence to the VESCP authority, as provided

by § 62.1-44.15:52, who will be in charge of and responsible for carrying out the land-disturbing activity. However, any VESCP authority may waive the certificate of competence requirement for an agreement in lieu of a plan for construction of a single-family residence. If a violation occurs during the land-disturbing activity, then the person responsible for carrying out the agreement in lieu of a plan shall correct the violation and provide the name of an individual holding a certificate of competence, as provided by § 62.1-44.15:52. Failure to provide the name of an individual holding a certificate of competence prior to engaging in land-disturbing activities may result in revocation of the approval of the plan and the person responsible for carrying out the plan shall be subject to the penalties provided in this article.

When a plan is determined to be inadequate, written notice of disapproval stating the specific reasons for disapproval shall be communicated to the applicant within 45 days. The notice shall specify the modifications, terms, and conditions that will permit approval of the plan. If no action is taken by the VESCP authority within the time specified in this subsection, the plan shall be deemed approved and the person authorized to proceed with the proposed activity. The VESCP authority shall act on any erosion and sediment control plan that has been previously disapproved within 45 days after the plan has been revised, resubmitted for approval, and deemed adequate.

C. The VESCP authority may require changes to an approved plan in the following cases:

1. Where inspection has revealed that the plan is inadequate to satisfy applicable regulations; or
2. Where the person responsible for carrying out the approved plan finds that because of changed circumstances or for other reasons the approved plan cannot be effectively carried out, and proposed amendments to the plan, consistent with the requirements of this article and associated regulations, are agreed to by the VESCP authority and the person responsible for carrying out the plan.

~~D. Electric, natural gas, and telephone utility companies, interstate and intrastate natural gas pipeline companies, and railroad companies shall, and authorities created pursuant to § 15.2-5102 may, file general erosion and sediment control standards and specifications annually with the Department for review and approval. Such standards and specifications shall be consistent with the requirements of this article and associated regulations and the Stormwater Management Act (§ 62.1-44.15:24 et seq.) and associated regulations where applicable. The specifications shall apply to:~~

- ~~1. Construction, installation, or maintenance of electric transmission, natural gas, and telephone utility lines and pipelines, and water and sewer lines; and~~
- ~~2. Construction of the tracks, rights-of-way, bridges, communication facilities, and other related structures and facilities of the railroad company.~~

~~The Department shall have 60 days in which to approve the standards and specifications. If no action is taken by the Department within 60 days, the standards and specifications shall be deemed approved. Individual approval of separate projects within subdivisions 1 and 2 is not necessary when approved specifications are followed. Projects not included in subdivisions 1 and 2 shall comply with the requirements of the appropriate VESCP. The Board shall have the authority to enforce approved specifications and charge fees equal to the lower of (i) \$1,000 or (ii) an amount sufficient to cover the costs associated with standard and specification review and approval, project inspections, and compliance.~~

~~E. Any person engaging, in more than one jurisdiction, in the creation and operation of a wetland mitigation or stream restoration bank or banks, which have been approved and are operated in accordance with applicable federal and state guidance, laws, or regulations for the establishment, use, and operation of wetlands mitigation or stream restoration banks, pursuant to a mitigation banking instrument signed by the Department of Environmental Quality, the Marine Resources Commission, or the U.S. Army Corps of Engineers, may, at the option of that person, file general erosion and sediment control standards and specifications for wetland mitigation or stream restoration banks annually with the Department for review and approval consistent with guidelines established by the Board.~~

~~The Department shall have 60 days in which to approve the specifications. If no action is taken by the Department within 60 days, the specifications shall be deemed approved. Individual approval of separate projects under this subsection is not necessary when approved specifications are implemented through a project-specific erosion and sediment control plan. Projects not included in this subsection shall comply with the requirements of the appropriate local erosion and sediment control program. The Board shall have the authority to enforce approved specifications and charge fees equal to the lower of (i) \$1,000 or (ii) an amount sufficient to cover the costs associated with standard and specification review and approval, project inspections, and compliance. Approval of general erosion and sediment control specifications by the Department does not relieve the owner or operator from compliance with any other local ordinances and regulations including requirements to submit plans and obtain permits as may be required by such ordinances and regulations.~~

~~F. D. In order to prevent further erosion, a VESCP authority may require approval of an erosion and sediment control plan for any land identified by the VESCP authority as an erosion impact area.~~

~~G. E. For the purposes of subsections A and B, when land-disturbing activity will be required of a contractor performing construction work pursuant to a construction contract, the preparation, submission, and approval of an erosion and sediment control plan shall be the responsibility of the owner.~~

~~F. Notwithstanding any other provisions of this article, the following activities are not required to comply with the requirements of this article unless otherwise required by federal law:~~

- ~~1. Disturbance of a land area of less than 10,000 square feet in size or less than 2,500 square feet in an area designated as a Chesapeake Bay Preservation Area pursuant to the Chesapeake Bay Preservation Act (§ 62.1-44.15:67 et seq.). However, the governing body of the program authority may reduce this exception to a smaller area of disturbed land or qualify the conditions under which this exception shall apply;~~

2. *Minor land-disturbing activities such as home gardens and individual home landscaping, repairs, and maintenance work;*
3. *Installation, maintenance, or repair of any individual service connection;*
4. *Installation, maintenance, or repair of any underground utility line when such activity occurs on an existing hard surfaced road, street, or sidewalk, provided the land-disturbing activity is confined to the area of the road, street, or sidewalk that is hard surfaced;*
5. *Installation, maintenance, or repair of any septic tank line or drainage field unless included in an overall plan for land-disturbing activity relating to construction of the building to be served by the septic tank system;*
6. *Permitted surface or deep mining operations and projects, or oil and gas operations and projects conducted pursuant to Title 45.1;*
7. *Clearing of lands specifically for bona fide agricultural purposes; the management, tilling, planting, or harvesting of agricultural, horticultural, or forest crops; livestock feedlot operations; agricultural engineering operations, including construction of terraces, terrace outlets, check dams, desilting basins, dikes, ponds, ditches, strip cropping, lister furrowing, contour cultivating, contour furrowing, land drainage, and land irrigation; or as additionally set forth by the Board in regulations. However, this exception shall not apply to harvesting of forest crops unless the area on which harvesting occurs is reforested artificially or naturally in accordance with the provisions of Chapter 11 (§ 10.1-1100 et seq.) of Title 10.1 or is converted to bona fide agricultural or improved pasture use as described in subsection B of § 10.1-1163;*
8. *Installation of fence and sign posts or telephone and electric poles and other kinds of posts or poles;*
9. *Shoreline erosion control projects on tidal waters when all of the land-disturbing activities are within the regulatory authority of and approved by local wetlands boards, the Marine Resources Commission, or the United States Army Corps of Engineers; however, any associated land that is disturbed outside of this exempted area shall remain subject to this article and the regulations adopted pursuant thereto;*
10. *Land-disturbing activities in response to a public emergency where the related work requires immediate authorization to avoid imminent endangerment to human health or the environment. In such situations, the VESMP authority shall be advised of the disturbance within seven days of commencing the land-disturbing activity, and compliance with the administrative requirements of subsection A is required within 30 days of commencing the land-disturbing activity;*
11. *Discharges to a sanitary sewer or a combined sewer system that are not from a land-disturbing activity; and*
12. *Repair or rebuilding of the tracks, rights-of-way, bridges, communication facilities, and other related structures and facilities of a railroad company.*

§ 62.1-44.15:57. Approved plan required for issuance of grading, building, or other permits; security for performance.

Agencies authorized under any other law to issue grading, building, or other permits for activities involving land-disturbing activities regulated under this article shall not issue any such permit unless the applicant submits with his application an approved erosion and sediment control plan ~~and~~ certification that the plan will be followed, and, ~~upon the development of an online reporting system by the Department but no later than July 1, 2014,~~ evidence of Virginia ~~Stormwater Management Program~~ *Pollutant Discharge Elimination System* permit coverage where it is required. Prior to issuance of any permit, the agency may also require an applicant to submit a reasonable performance bond with surety, cash escrow, letter of credit, any combination thereof, or such other legal arrangement acceptable to the agency, to ensure that measures could be taken by the agency at the applicant's expense should he fail, after proper notice, within the time specified to initiate or maintain appropriate conservation action that may be required of him by the approved plan as a result of his land-disturbing activity. The amount of the bond or other security for performance shall not exceed the total of the estimated cost to initiate and maintain appropriate conservation action based on unit price for new public or private sector construction in the locality and a reasonable allowance for estimated administrative costs and inflation, which shall not exceed 25 percent of the estimated cost of the conservation action. § 58.1-439.12:06. **International trade facility tax credit.**

A. As used in this section, unless the context requires a different meaning:

"Affiliated companies" means two or more companies related to each other so that (i) one company owns at least 80 percent of the voting power of the other or others or (ii) the same interest owns at least 80 percent of the voting power of two or more companies.

"Capital investment" means the amount properly chargeable to a capital account for improvements to rehabilitate or expand depreciable real property placed in service during the taxable year and the cost of machinery, tools, and equipment used in an international trade facility directly related to the movement of cargo. For purposes of this section, machinery, tools, and equipment shall be deemed to include only that property placed in service by the international trade facility on and after January 1, 2011. Machinery, tools, and equipment excludes property (i) for which a credit under this section was previously granted; (ii) placed in service by the taxpayer, a related party as defined in § 267(b) of the Internal Revenue Code, as amended, or by a trade or business under common control as defined in § 52(b) of the Internal Revenue Code, as amended; or (iii) previously in service in the Commonwealth that has a basis in the hands of the person acquiring it, determined in whole or in part by reference to the basis of such property in the hands of the person from whom acquired or § 1014(a) of the Internal Revenue Code, as amended.

"Capital investment" shall not include:

"International trade facility" means a company that:

1. Is engaged in port-related activities, including, but not limited to, warehousing, distribution, freight forwarding and handling, and goods processing;
2. Uses maritime port facilities located in the Commonwealth; and
3. Transports at least five percent more cargo through maritime port facilities in the Commonwealth during the taxable year than was transported by the company through such facilities during the preceding taxable year.

"New, permanent full-time position" means a job of indefinite duration, created by the company after establishing or expanding an international trade facility in the Commonwealth, requiring a minimum of 35 hours of employment per week for each employee for the entire normal year of the company's operations, or a position of indefinite duration that requires a minimum of 35 hours of employment per week for each employee for the portion of the taxable year in which the employee was initially hired for, or transferred to, the international trade facility in the Commonwealth. Seasonal or temporary positions, or a job created when a job function is shifted from an existing location in the Commonwealth to the international trade facility, and positions in building and grounds maintenance, security, and other such positions that are ancillary to the principal activities performed by the employees at the international trade facility shall not qualify as new, permanent full-time positions.

Export cargo must be loaded on a barge or ocean-going vessel and import cargo must be discharged from a barge or ocean-going vessel at such facility.

B. For taxable years beginning on and after January 1, 2011, but before January 1, ~~2017~~ 2022, a taxpayer satisfying the requirements of this section shall be allowed a credit against the taxes imposed by Articles 2 (§ 58.1-320 et seq.) and 10 (§ 58.1-400 et seq.). The amount of the credit earned pursuant to this section shall be equal to either (i) \$3,500 per qualified full-time employee that results from increased qualified trade activities by the taxpayer or (ii) an amount equal to two percent of the capital investment made by the taxpayer to facilitate the increased qualified trade activities. The election of which tax credit amount to claim shall be the responsibility of the taxpayer. Both tax credits shall not be claimed for the same activities that occur in a calendar year. The portion of the \$3,500 credit earned with respect to any qualified full-time employee who works in the Commonwealth for less than 12 full months during the credit year shall be determined by multiplying the credit amount by a fraction, the numerator of which is the number of full months such employee worked for the international trade facility in the Commonwealth during the credit year and the denominator of which is 12.

C. The Tax Commissioner shall issue tax credits under this section, and in no case shall the Tax Commissioner issue more than \$1,250,000 in tax credits pursuant to this section in any fiscal year of the Commonwealth. If the amount of tax credits requested under this section for any taxable year exceeds \$1,250,000, such credits shall be allocated proportionately among all qualified taxpayers. The Tax Commissioner shall not issue tax credits under this section subsequent to the

Commonwealth's fiscal year ending on June 30, ~~2017~~ 2022. The taxpayer shall not be allowed to claim any tax credit under this section unless it has applied to the Department for the tax credit and the Department has approved the credit. The Department shall determine the credit amount allowable for the taxable year and shall provide a written certification to the taxpayer, which certification shall report the amount of the tax credit approved by the Department. The taxpayer shall attach the certification to the applicable income tax return.

D. The amount of the credit allowed pursuant to this section shall not exceed 50 percent of the tax imposed for the taxable year. Any remaining credit amount may be carried forward for the next 10 taxable years. In the event a taxpayer who is subject to the limitation imposed pursuant to this subsection is allowed a different tax credit pursuant to another section of the Code, or has a credit carry forward from a preceding taxable year, such taxpayer shall be considered to have first utilized any credit that does not have a carry forward provision, and then any credit carried forward from a preceding taxable year, before using any of the credit allowed pursuant to this section.

E. No credit shall be earned for any employee (i) for whom a credit under this section was previously earned by a related party as defined in § 267(b) of the Internal Revenue Code, as amended, or a trade or business under common control as defined in § 52(b) of the Internal Revenue Code, as amended; (ii) who was previously employed in the same job function in Virginia by a related party as defined in § 267(b) of the Internal Revenue Code, as amended, or a trade or business under common control as defined in § 52(b) of the Internal Revenue Code, as amended; (iii) whose job function was previously performed at a different location in Virginia by an employee of the taxpayer, by a related party as defined in § 267(b) of the Internal Revenue Code, as amended, or by a trade or business under common control as defined in § 52(b) of the Internal Revenue Code, as amended; or (iv) whose job function previously qualified for a credit under this section at a different major business facility, as defined in subsection C of § 58.1-439, on behalf of the taxpayer, by a related party as defined in § 267(b) of the Internal Revenue Code, as amended, or a trade or business under common control as defined in § 52(b) of the Internal Revenue Code, as amended.

F. For purposes of this section, the amount of any credit attributable to a partnership, electing small business corporation (S corporation), or limited liability company shall be allocated to the individual partners, shareholders, or members, respectively, in proportion to their ownership or interest in such business entities.

G. For purposes of this section, two or more affiliated companies may elect to aggregate the number of jobs created for qualified full-time employees or the amounts of capital investments as the result of the establishment or expansion by the individual companies in order to qualify for the credit allowed herein.

H. Recapture of the credit amount, under the following circumstances, shall be accomplished by increasing the tax in any of the five years succeeding the taxable year in which a credit has been earned pursuant to this section if the number of qualified full-time employees falls below the average number of qualified full-time employees during the taxable year. The tax increase amount shall be determined by (i) recalculating the credit that would have been earned for the original taxable year using the decreased number of qualified full-time employees and (ii) subtracting the recalculated credit amount from the amount previously earned. In the event that the average number of qualified full-time employees employed at an international trade facility falls below the number employed by the taxpayer prior to claiming any credits pursuant to this section in any of the five taxable years succeeding the year in which the credits were earned, all credits earned with respect to the international trade facility shall be recaptured. No credit amount shall be recaptured more than once pursuant to this subsection. Any recapture pursuant to this subsection shall reduce credits earned but not yet allowed, and credits allowed but carried forward, before the taxpayer's tax liability is increased.

I. Notwithstanding the provisions of § 58.1-3, the Department of Taxation shall annually provide information to the Virginia Port Authority related to tax credits issued pursuant to this section.

J. The Tax Commissioner shall issue guidelines that are necessary and desirable to carry out the provisions of this section, including (i) the computation, carryover, and recapture of the credits provided under this section; (ii) the establishment of criteria for (a) international trade facilities, (b) qualified full-time employees at such facilities, and (c) capital investments; and (iii) the computation, carryover, recapture, and redemption of the credit by affiliated companies. Such guidelines shall be exempt from the provisions of the Administrative Process Act (§ 2.2-4000 et seq.).

§ 58.1-439.12:09. Barge and rail usage tax credit.

A. As used in this section:

"International trade facility" means a company that:

1. Is doing business in the Commonwealth and engaged in port-related activities, including but not limited to warehousing, distribution, freight forwarding and handling, and goods processing;
2. Has the sole discretion and authority to move cargo originating or terminating in the Commonwealth;
3. Uses maritime port facilities located in the Commonwealth; and
4. Uses barges and rail systems to move cargo through port facilities in the Commonwealth rather than trucks or other motor vehicles on the Commonwealth's highways.

B. For taxable years beginning on and after January 1, 2011, but before January 1, ~~2017~~ 2022, a company that is an international trade facility shall be allowed a credit against the taxes imposed by Articles 2 (§ 58.1-320 et seq.), 6 (§ 58.1-360 et seq.), and 10 (§ 58.1-400 et seq.); Chapter 12 (§ 58.1-1200 et seq.); Article 1 (§ 58.1-2500 et seq.) of Chapter 25; or Article 2 (§ 58.1-2620 et seq.) of Chapter 26. The amount of the credit shall be \$25 per 20-foot equivalent unit (TEU), 16 tons of noncontainerized cargo, or one unit of roll-on/roll-off cargo moved by barge or rail rather than by trucks or other motor vehicles on the Commonwealth's highways.

C. The Tax Commissioner shall issue tax credits under this section, and in no case shall the Tax Commissioner issue more than \$500,000 in tax credits pursuant to this section in any fiscal year of the Commonwealth. In addition, the Tax Commissioner shall not issue tax credits under this section subsequent to the Commonwealth's fiscal year ending on June 30, ~~2017~~ 2022. The international trade facility shall not be allowed to claim any tax credit under this section unless it has applied to the Department for the tax credit and the Department has approved the credit. The Department shall determine the credit amount allowable for the year and shall provide a written certification to the international trade facility, which certification shall report the amount of the tax credit approved by the Department. The international trade facility shall attach the certification to the applicable tax return.

D. For purposes of this section, the amount of any credit attributable to a partnership, electing small business corporation (S corporation), or limited liability company shall be allocated to the individual partners, shareholders, or members, respectively, in proportion to their ownership or interest in such business entities.

E. Any credit not usable for the taxable year may be carried over for the next five taxable years or until such credit is fully taken, whichever occurs first. The amount of the credit allowed pursuant to this section shall not exceed the tax imposed for such taxable year. No credit shall be carried back to a preceding taxable year. If a taxpayer that is subject to the tax limitation imposed pursuant to this subsection is allowed another credit pursuant to any other section of this Code or has a credit carryover from a preceding taxable year, such taxpayer shall be considered to have first utilized any credit allowed that does not have a carryover provision, and then any credit that is carried forward from a preceding taxable year, before using any credit allowed pursuant to this section.

F. Notwithstanding the provisions of § 58.1-3, the Department of Taxation shall annually provide information to the Virginia Port Authority related to tax credits issued pursuant to this section.

G. The Tax Commissioner shall issue guidelines that are necessary and desirable to carry out the provisions of this section, including (i) the computation and carryover of the credits provided under this section and (ii) the establishment of criteria for international trade facilities. Such guidelines shall be exempt from the Administrative Process Act (§ 2.2-4000 et seq.).

"Base year port cargo volume" means the total amount of (i) net tons of noncontainerized cargo, (ii) TEUs of cargo, or (iii) units of roll-on/roll-off cargo actually transported by way of a waterborne ship or vehicle through a port facility during the period from (i) January 1, 2010, through December 31, 2010, for manufacturing-related entities or (ii) January 1, 2012, through December 31, 2012, for agricultural entities and mineral and gas entities. Base year port cargo volume must be at least 75 net tons of noncontainerized cargo, 10 loaded TEUs, or 10 units of roll-on/roll-off cargo for a taxpayer to be eligible for the credits provided in this section. For a taxpayer that does not ship that amount in the year ending December 31, 2010, or December 31, 2012, as applicable, including a taxpayer who locates in Virginia after such periods, its base cargo volume will be measured by the initial January 1 through December 31 calendar year in which it meets the requirements of 75 net tons of noncontainerized cargo, 10 loaded TEUs, or 10 units of roll-on/roll-off cargo. Base year port cargo volume must be recalculated each calendar year after the initial base year.

"Major facility" means a new facility to be located in Virginia that is projected to import or export cargo through a port in excess of 25,000 TEUs in its first calendar year.

"Manufacturing-related entity" means a person engaged in the manufacturing of goods or the distribution of manufactured goods.

"TEU" or "20-foot equivalent unit" means a volumetric measure based on the size of a container that is 20 feet long by eight feet wide by eight feet, six inches high.

B. 1. For taxable years beginning on and after January 1, 2011, but before January 1, ~~2017~~ 2022, a taxpayer that is an agricultural entity, manufacturing-related entity, or mineral and gas entity that uses port facilities in the Commonwealth and increases its port cargo volume at these facilities by a minimum of five percent in a single calendar year over its base year port cargo volume is eligible to claim a credit against the tax levied pursuant to §§ 58.1-320 and 58.1-400 in an amount determined by the Virginia Port Authority. The Virginia Port Authority may waive the requirement that port cargo volume be increased by a minimum of five percent over base year port cargo volume for any taxpayer that qualifies as a major facility.

2. Qualifying taxpayers that increase their port cargo volume by a minimum of five percent in a qualifying calendar year shall receive a \$50 credit against the tax levied pursuant to §§ 58.1-320 and 58.1-400 for each TEU, unit of roll-on/roll-off cargo, or 16 net tons of noncontainerized cargo, as applicable, above the base year port cargo volume. A

qualifying taxpayer that is a major facility as defined in this section shall receive a \$50 credit against the tax levied pursuant to §§ 58.1-320 and 58.1-400 for each TEU, unit of roll-on/roll-off cargo, or 16 net tons of noncontainerized cargo, as applicable, transported through a port facility during the major facility's first calendar year. A qualifying taxpayer may not receive more than \$250,000 for each calendar year except as provided for in subdivision C 2. The maximum amount of credits allowed for all qualifying taxpayers pursuant to this section shall not exceed \$3.2 million for each calendar year. The Virginia Port Authority shall allocate the credits pursuant to the provisions in subdivisions C 1 and C 2.

3. If the credit exceeds the taxpayer's tax liability for the taxable year, the excess amount may be carried forward and claimed against income taxes in the next five succeeding taxable years.

4. The credit may be claimed by the taxpayer as provided in subdivision 1 only if the taxpayer owns the cargo at the time the port facilities are used.

C. 1. For every year in which a taxpayer claims the credit, the taxpayer shall submit an application to the Virginia Port Authority by March 1 of the calendar year after the calendar year in which the increase in port cargo volume occurs. The taxpayer shall attach a schedule to the taxpayer's application to the Virginia Port Authority with the following information and any other information requested by the Virginia Port Authority or the Department:

a. A description of how the base year port cargo volume and the increase in port cargo volume were determined;

b. The amount of the base year port cargo volume;

c. The amount of the increase in port cargo volume for the taxable year stated both as a percentage increase and as a total increase in net tons of noncontainerized cargo, TEUs of cargo, and units of roll-on/roll-off cargo, as applicable, including information that demonstrates an increase in port cargo volume in excess of the minimum amount required to claim the tax credits pursuant to this section;

d. Any tax credit utilized by the taxpayer in prior years; and

e. The amount of tax credit carried over from prior years.

2. If on March 15 of each year the \$3.2 million amount of credit is not fully allocated among qualifying taxpayers, then those taxpayers who have been allocated a credit for the prior year shall be allowed a pro rata share of the remaining allocated credit up to \$3.2 million. If on March 15 of each year, the cumulative amount of tax credits requested by qualifying taxpayers for the prior year exceeds \$3.2 million, then the \$3.2 million in credits shall be prorated among the qualifying taxpayers who requested the credit.

3. The taxpayer shall claim the credit on its income tax return in a manner prescribed by the Department. The Department may require a copy of the certification form issued by the Virginia Port Authority be attached to the return or otherwise provided. Qualifying taxpayers may also claim the credit pursuant to § 58.1-439.12:09 for the same containers, noncontainerized cargo, or roll-on/roll-off units of cargo for which a credit is claimed under this section provided such taxpayer meets the applicable criteria set forth therein.

D. Credits granted to a partnership, limited liability company, or electing small business corporation (S corporation) shall be allocated to the individual partners, members, or shareholders, respectively, in proportion to their ownership interests in such business entities.

§ 58.1-439.15. Technology Initiative in Tobacco-Dependent Localities Fund.

There is hereby created in the Department of the Treasury a special fund that shall be known as the Technology Initiative in Tobacco-Dependent Localities Fund (the Fund). The Fund shall be composed of those moneys deposited from the Tobacco Indemnification and Community Revitalization Fund as provided in § 3.2-3106. The Department of the Treasury shall administer and manage the Fund. CHAPTER 71

An Act to amend and reenact §§ 38.2-231, 38.2-2113, and 38.2-2208 of the Code of Virginia, relating to notices relating to certain insurance policies.

[S 192]

Approved March 1, 2016

Be it enacted by the General Assembly of Virginia:

1. That §§ 38.2-231, 38.2-2113, and 38.2-2208 of the Code of Virginia are amended and reenacted as follows:

§ 38.2-231. Notice of cancellation, refusal to renew, reduction in coverage or increase in premium of certain liability insurance policies.

A. 1. No cancellation or refusal to renew by an insurer of (i) a policy of insurance as defined in § 38.2-117 or 38.2-118 insuring a business entity; (ii) a policy of insurance that includes as a part thereof insurance as defined in § 38.2-117 or 38.2-118 insuring a business entity; (iii) a policy of motor vehicle insurance against legal liability of the insured as defined in § 38.2-124 insuring a business entity; or (iv) a policy of miscellaneous casualty insurance as defined in subsection B of § 38.2-111 insuring a business entity shall be effective unless the insurer delivers or mails to the first named insured at the address shown on the policy a written notice of cancellation or refusal to renew, or delivers such notice electronically to the address provided by the first named insured. Such notice shall:

a. Be in a type size authorized under § 38.2-311;

b. State the date, which shall not be less than 45 days after the delivery or mailing of the notice of cancellation or refusal to renew, on which such cancellation or refusal to renew shall become effective, except that such effective date may not be less than 15 days from the date of mailing or delivery when the policy is being cancelled or not renewed for failure of the insured to discharge when due any of its obligations in connection with the payment of premium for the policy;

c. State the specific reason or reasons of the insurer for cancellation or refusal to renew;

d. Advise the first named insured of its right to request in writing, within 15 days of the receipt of the notice, that the Commissioner of Insurance review the action of the insurer; and

e. In the case of a policy of motor vehicle insurance, inform the first named insured of the possible availability of other insurance which may be obtained through its agent, through another insurer, or through the Virginia Automobile Insurance Plan.

2. Nothing in this subsection shall apply to any policy of insurance if the named insured or his duly constituted attorney-in-fact has notified orally, or in writing, if the insurer requires such notification to be in writing, the insurer or its agent that he wishes the policy to be canceled or that he does not wish the policy to be renewed, or if, prior to the date of expiration, he fails to accept the offer of the insurer to renew the policy.

3. Nothing in this subsection shall apply if an affiliated insurer has manifested its willingness to provide coverage at a lower premium than would have been charged for the same exposures on the expiring policy. The affiliated insurer shall manifest its willingness to provide coverage by issuing a policy with the types and limits of coverage at least equal to those contained in the expiring policy unless the named insured has requested a change in coverage or limits. When such offer is made by an affiliated insurer, an offer of renewal shall not be required of the insurer of the expiring policy, and the policy issued by the affiliated insurer shall be deemed to be a renewal policy.

B. No insurer shall cancel or refuse to renew a policy of motor vehicle insurance against legal liability of the insured as defined in § 38.2-124 insuring a business entity solely because of lack of supporting business or lack of the potential for acquiring such business.

C. No reduction in coverage for personal injury or property damage liability initiated by an insurer and no insurer-initiated increase in the premium greater than 25 percent of (i) a policy of insurance defined in § 38.2-117 or

38.2-118 insuring a business entity; (ii) a policy of insurance that includes as a part thereof insurance defined in § 38.2-117 or 38.2-118 insuring a business entity; (iii) a policy of motor vehicle insurance against legal liability of the insured as defined in § 38.2-124 insuring a business entity; or (iv) a policy of miscellaneous casualty insurance as defined in subsection B of § 38.2-111 insuring a business entity, and which in the case of a reduction in coverage is subject to § 38.2-1912, shall be effective unless the insurer delivers or mails to the first named insured at the address shown on the policy, or delivers electronically to the address provided by the first named insured, a written notice of such reduction in coverage or premium increase not later than 45 days prior to the effective date of same. The increase in premium shall be the difference between the renewal premium and the premium charged by the insurer at the effective date of the expiring policy. Such notice shall:

1. Be in a type size authorized under § 38.2-311;
2. State the date, which shall not be less than 45 days after the delivery or mailing of the notice of reduction in coverage or increase in premium, on which such reduction in coverage or increase in premium shall become effective;
3. Advise the first named insured of the specific reason for the increase and the amount of the increase, or, if in the case of a reduction in coverage, the specific reason for the reduction and the manner in which coverage will be reduced, or that such information may be obtained from the agent or the insurer;
4. Advise the first named insured of its right to request in writing, within 15 days of receipt of the notice, that the Commissioner of Insurance review the action of the insurer.

D. If an insurer does not provide notice in the manner required in subsection C, coverage shall remain in effect until 45 days after written notice of reduction in coverage or increase in premium is mailed or delivered to the first named insured at the address shown on the policy, or delivered electronically to the address provided by the first named insured, unless the named insured obtains replacement coverage or elects to cancel sooner in either of which cases coverage under the prior policy shall cease on the effective date of the replacement coverage or the elected date of cancellation as the case may be. If the named insured fails to accept or rejects the changed policy, coverage for any period that extends beyond the expiration date will be under the prior policy's rates, terms and conditions as applied against the renewal policy's limits, rating exposures, and additional coverages. If the named insured accepts the changed policy, the reduction in coverage or increase in premium shall take effect upon the expiration of the prior policy.

E. Notice of reduction in coverage or increase in premium shall not be required if:

1. The insurer, after written demand, has not received, within 45 days after such demand has been mailed or delivered to the first named insured at the address shown on the policy, or delivered electronically to the address provided by the first named insured, sufficient information from the named insured to provide the required notice;
2. Such notice is waived in writing by the named insured;
3. The insurer delivers or mails to the first named insured a renewal policy or a renewal offer not less than 45 days prior to the effective date of the policy or, in the case of a medical malpractice insurance policy, not less than 90 days prior to the effective date of the policy;
4. The policy is issued to a large commercial risk as defined in subsection C of § 38.2-1903.1 but excluding policies of medical malpractice insurance; or
5. The policy is retrospectively rated, where the premium is adjusted at the end of the policy period to reflect the risk's actual loss experience.

F. No written notice of cancellation, refusal to renew, reduction in coverage, or increase in premium that is mailed or delivered electronically by an insurer to a first named insured in accordance with this section shall be effective unless *the insurer complies with the applicable provisions of subdivisions 1 through 4:*

1. If the notice is mailed, proof of mailing a notice of cancellation, refusal to renew, reduction in coverage, or increase in premium shall be obtained using one of the following methods that demonstrates the date that the notice was sent to the first named insured at the address stated in the policy or to such insured's last known address:

2. If the notice is delivered electronically, the insurer retains evidence of electronic transmittal or receipt of the notification for at least one year from the date of the transmittal; ~~and~~

~~2.~~ *3. If the notice is mailed, the insurer retains a copy of the notice of cancellation, refusal to renew, reduction in coverage, or increase in premium for at least one year from the date such action was effective. If the notice is mailed, proof of mailing from the United States Postal Service consistent with the mailing method utilized by the insurer shall be maintained for one year from the date the cancellation, refusal to renew, reduction in coverage, or increase in premium is effective.*

~~3.~~ *4. a. If the terms of a policy of motor vehicle insurance insuring a business entity require the notice of cancellation, refusal to renew, reduction in coverage, or increase in premium to be given to any lienholder, then the insurer shall mail*

such notice and retain a copy of the notice in the manner required by this subsection. If the notices sent to the first named insured and the lienholder are part of the same form, the insurer may retain a single copy of the notice. ~~The registered, certified or regular mail postal receipt and the copy of the notices required by this subsection shall be retained by the insurer for at least one year from the date of termination~~ *Proof of mailing from the United States Postal Service consistent with the mailing method utilized by the insurer shall be maintained for one year from the date the cancellation, refusal to renew, reduction in coverage, or increase in premium is effective.*

b. Notwithstanding the provisions of subdivision ~~3~~ 4 a, if the terms of the policy require the notice of cancellation, refusal to renew, reduction in coverage, or increase in premium to be given to any lienholder, the insurer and lienholder may agree by separate agreement that such notices may be transmitted electronically, provided that the insurer and lienholder agree upon the specifics for transmittal and ~~acknowledgement~~ *acknowledgment* of notification. Evidence of transmittal or receipt of the notification required by this subsection shall be retained by the insurer for at least one year from the date of termination.

4. "Copy," as used in this subsection, ~~shall include~~ *includes* photographs, microphotographs, photostats, microfilm, microcard, printouts, or other reproductions of electronically stored data; or copies from optical disks, electronically transmitted facsimiles, or any other reproduction of an original from a process ~~which~~ *that* forms a durable medium for its recording, storing, and reproducing.

G. Nothing in this section shall prohibit any insurer or agent from including in a notice of cancellation, refusal to renew, reduction in coverage, or premium increase any additional disclosure statements required by state or federal laws.

H. For the purpose of this section, the terms (i) "business entity" shall mean an entity as defined by subsection A of § 13.1-543, § 13.1-603 or 13.1-803 and shall include an individual, a partnership, an unincorporated association, the Commonwealth, a county, city, town, or an authority, board, commission, sanitation, soil and water, planning or other district, public service corporation owned, operated or controlled by the Commonwealth, a locality or other local governmental authority; (ii) "policy of motor vehicle insurance" shall mean a policy or contract for bodily injury or property damage liability insuring a business entity issued or delivered in this Commonwealth covering liability arising from the ownership, maintenance, or use of any motor vehicle, but does not include (a) any policy issued through the Virginia Automobile Insurance Plan, (b) any policy providing insurance only on an excess basis, or (c) any other contract providing insurance to the named insured even though the contract may incidentally provide insurance on motor vehicles; and (iii) "reduction in coverage" shall mean, but not be limited to, any diminution in scope of coverage, decrease in limits of liability, addition of exclusions, increase in deductibles, or reduction in the policy term or duration except a reduction in coverage filed with and approved by the Commission and applicable to an entire line, classification or subclassification of insurance.

I. Within 15 days of receipt of the notice of cancellation, refusal to renew, reduction in coverage, or increase in premium, the named insured shall be entitled to request in writing to the Commissioner that he review the action of the insurer. Upon receipt of the request, the Commissioner shall promptly begin a review to determine whether the insurer's notice of cancellation, refusal to renew, reduction in coverage, or premium increase complies with the requirements of this section. Where the Commissioner finds from the review that the notice of cancellation, refusal to renew, reduction in coverage, or premium increase does not comply with the requirements of this section, he shall immediately notify the insurer, the named insured and any other person to whom such notice was required to be given by the terms of the policy that such notice is not effective. Nothing in this section authorizes the Commissioner to substitute his judgment as to underwriting for that of the insurer. Pending review by the Commission, this section shall not operate to relieve an insured from the obligation to pay any premium when due; however, if the Commission finds that the notice required by this section was not proper, the Commission may order the insurer to pay to the insured any overpayment of premium made by the insured.

J. Every insurer shall maintain for at least one year records of cancellation, refusals to renew, reductions in coverage, and premium increases to which this section applies and copies of every notice or statement required by subsections A, C, E, and L ~~of this section~~ that it sends to any of its insureds.

L. Notwithstanding anything in this section to the contrary, if an insurer cancels or refuses to renew a policy of medical malpractice insurance as defined in § 38.2-2800, or if, as a result of an insurer-initiated increase in premium, the premium increases for a medical malpractice insurance policy by more than 25 percent of the previous policy's premium, the insurer shall provide no fewer than 90 ~~days~~ *days*' notice prior to the renewal effective date, or, if such policy is being cancelled or non-renewed for failure of the insured to discharge when due any of its obligations in connection with the payment of premium for the policy, the effective date of cancellation or refusal to renew shall not be less than 15 days from the date of mailing or delivery of the notice. The increase in the premium shall be the difference between the renewal premium and the premium charged by the insurer at the effective date of the expiring policy.

M. As used in this section, an "insurer-initiated increase in premium" means an increase in premium other than one resulting from changes in (i) coverage requested by the insured, (ii) policy limits requested by the insured, (iii) the insured's

operation or location that result in a change in the classification of the risk, or (iv) the rating exposures including, but not limited to, increases in payroll, receipts, square footage, number of automobiles insured, or number of employees.

§ 38.2-2113. Mailing or electronic delivery of notice of cancellation or refusal to renew.

- 3. Encourage the cooperation of member states in the areas of EMS licensure and regulation;*

L. Upon determination that an emergency exists, the Commission may consider and adopt an emergency rule without prior notice, opportunity for comment, or hearing, provided that the usual rulemaking procedures provided in the compact and in this section shall be retroactively applied to the rule as soon as reasonably possible, in no event later than ninety (90) days after the effective date of the rule. For the purposes of this provision, an emergency rule is one that must be adopted immediately in order to:

1. Meet an imminent threat to public health, safety, or welfare;
2. Prevent a loss of Commission or member state funds;
3. Meet a deadline for the promulgation of an administrative rule that is established by federal law or rule; or
4. Protect public health and safety.

M. The Commission or an authorized committee of the Commission may direct revisions to a previously adopted rule or amendment for purposes of correcting typographical errors, errors in format, errors in consistency, or grammatical errors. Public notice of any revisions shall be posted on the website of the Commission. The revision shall be subject to challenge by any person for a period of thirty (30) days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge shall be made in writing and delivered to the chair of the Commission prior to the end of the notice period. If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the Commission.

SECTION 13. OVERSIGHT, DISPUTE RESOLUTION, AND ENFORCEMENT

A. Oversight.

1. The executive, legislative, and judicial branches of state government in each member state shall enforce this compact and take all actions necessary and appropriate to effectuate the compact's purposes and intent. The provisions of this compact and the rules promulgated hereunder shall have standing as statutory law.

2. All courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of this compact which may affect the powers, responsibilities, or actions of the Commission.

3. The Commission shall be entitled to receive service of process in any such proceeding and shall have standing to intervene in such a proceeding for all purposes. Failure to provide service of process to the Commission shall render a judgment or order void as to the Commission, this compact, or promulgated rules.

B. Default, Technical Assistance, and Termination.

1. If the Commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact or the promulgated rules, the Commission shall:

- a. Provide written notice to the defaulting state and other member states of the nature of the default, the proposed means of curing the default, and/or any other action to be taken by the Commission; and
- b. Provide remedial training and specific technical assistance regarding the default.

2. If a state in default fails to cure the default, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the member states, and all rights, privileges, and benefits conferred by this compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

3. Termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the Commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states.

4. A state that has been terminated from the compact is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

5. The Commission shall not bear any costs related to a state that is found to be in default or that has been terminated from the compact, unless agreed upon in writing between the Commission and the defaulting state.

6. The defaulting state may appeal the action of the Commission by petitioning the U.S. District Court for the District of Columbia or the federal district where the Commission has its principal offices. The prevailing member shall be awarded all costs of such litigation, including reasonable attorney fees.

C. Dispute Resolution.

1. Upon request by a member state, the Commission shall attempt to resolve disputes related to the compact that arise among member states and between member and nonmember states.

2. The Commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

D. Enforcement.

1. The Commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact.

2. By majority vote, the Commission may initiate legal action in the United States District Court for the District of Columbia or the federal district where the Commission has its principal offices against a member state in default to enforce compliance with the provisions of the compact and its promulgated rules and bylaws. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing member shall be awarded all costs of such litigation, including reasonable attorney fees.

3. The remedies herein shall not be the exclusive remedies of the Commission. The Commission may pursue any other remedies available under federal or state law.

SECTION 14. DATE OF IMPLEMENTATION OF THE INTERSTATE COMMISSION FOR EMS PERSONNEL PRACTICE AND ASSOCIATED RULES, WITHDRAWAL, AND AMENDMENT

A. The compact shall come into effect on the date on which the compact statute is enacted into law in the tenth member state. The provisions, which become effective at that time, shall be limited to the powers granted to the Commission relating to assembly and the promulgation of rules. Thereafter, the Commission shall meet and exercise rulemaking powers necessary to the implementation and administration of the compact.

B. Any state that joins the compact subsequent to the Commission's initial adoption of the rules shall be subject to the rules as they exist on the date on which the compact becomes law in that state. Any rule that has been previously adopted by the Commission shall have the full force and effect of law on the day the compact becomes law in that state.

C. Any member state may withdraw from this compact by enacting a statute repealing the same.

1. A member state's withdrawal shall not take effect until six (6) months after enactment of the repealing statute.

2. Withdrawal shall not affect the continuing requirement of the withdrawing state's EMS authority to comply with the investigative and adverse action reporting requirements of this act prior to the effective date of withdrawal.

D. Nothing contained in this compact shall be construed to invalidate or prevent any EMS personnel licensure agreement or other cooperative arrangement between a member state and a nonmember state that does not conflict with the provisions of this compact.

E. This compact may be amended by the member states. No amendment to this compact shall become effective and binding upon any member state until it is enacted into the laws of all member states.

SECTION 15. CONSTRUCTION AND SEVERABILITY

This compact shall be liberally construed so as to effectuate the purposes thereof. If this compact shall be held contrary to the constitution of any member state thereto, the compact shall remain in full force and effect as to the remaining member states. Nothing in this compact supersedes state law or rules related to licensure of EMS agencies.

2. That the provisions of this act shall expire on July 1, 2021, if the Recognition of EMS Personnel Licensure Interstate Compact has not become effective as a result of enactment of the compact into law by at least 10 member states by that date.

3. That the Emergency Medical Services Advisory Board shall review decisions of the Interstate Commission for Emergency Medical Services Personnel Practice established pursuant to this compact and, upon approval by the Interstate Commission for Emergency Medical Services Personnel Practice of any action that will have the result of increasing the cost to the Commonwealth of membership in the compact, may recommend to the General Assembly that the Commonwealth withdraw from the compact.

6. To promulgate regulations in accordance with the Administrative Process Act (§ 2.2-4000 et seq.) ~~which~~ *that* are reasonable and necessary to administer effectively the regulatory system, *which shall include provisions for the satisfaction of board-required continuing education for individuals registered, certified, licensed, or issued a multistate licensure privilege by a health regulatory board through delivery of health care services, without compensation, to low-income individuals receiving health services through a local health department or a free clinic organized in whole or primarily for the delivery of those health services.* Such regulations shall not conflict with the purposes and intent of this chapter or of Chapter 1 (§ 54.1-100 et seq.) and Chapter 25 (§ 54.1-2500 et seq.) ~~of this title.~~
7. To revoke, suspend, restrict, or refuse to issue or renew a registration, certificate, license or multistate licensure privilege which such board has authority to issue for causes enumerated in applicable law and regulations.
8. To appoint designees from their membership or immediate staff to coordinate with the Director and the Health Practitioners' Monitoring Program Committee and to implement, as is necessary, the provisions of Chapter 25.1 (§ 54.1-2515 et seq.) of this title. Each health regulatory board shall appoint one such designee.
9. To take appropriate disciplinary action for violations of applicable law and regulations, and to accept, in their discretion, the surrender of a license, certificate, registration or multistate licensure privilege in lieu of disciplinary action.
10. To appoint a special conference committee, composed of not less than two members of a health regulatory board or, when required for special conference committees of the Board of Medicine, not less than two members of the Board and one member of the relevant advisory board, or, when required for special conference committees of the Board of Nursing, not less than one member of the Board and one member of the relevant advisory board, to act in accordance with § 2.2-4019 upon receipt of information that a practitioner or permit holder of the appropriate board may be subject to disciplinary action or to consider an application for a license, certification, registration, permit or multistate licensure privilege in nursing. The special conference committee may (i) exonerate; (ii) reinstate; (iii) place the practitioner or permit holder on probation with such terms as it may deem appropriate; (iv) reprimand; (v) modify a previous order; (vi) impose a monetary penalty pursuant to § 54.1-2401, (vii) deny or grant an application for licensure, certification, registration, permit, or multistate licensure privilege; and (viii) issue a restricted license, certification, registration, permit or multistate licensure privilege subject to terms and conditions. The order of the special conference committee shall become final 30 days after service of the order unless a written request to the board for a hearing is received within such time. If service of the decision to a party is accomplished by mail, three days shall be added to the 30-day period. Upon receiving a timely written request for a hearing, the board or a panel of the board shall then proceed with a hearing as provided in § 2.2-4020, and the action of the committee shall be vacated. This subdivision shall not be construed to limit the authority of a board to delegate to an appropriately qualified agency subordinate, as defined in § 2.2-4001, the authority to conduct informal fact-finding proceedings in accordance with § 2.2-4019, upon receipt of information that a practitioner may be subject to a disciplinary action. The recommendation of such subordinate may be considered by a panel consisting of at least five board members, or, if a quorum of the board is less than five members, consisting of a quorum of the members, convened for the purpose of issuing a case decision. Criteria for the appointment of an agency subordinate shall be set forth in regulations adopted by the board.
11. To convene, at their discretion, a panel consisting of at least five board members or, if a quorum of the board is less than five members, consisting of a quorum of the members to conduct formal proceedings pursuant to § 2.2-4020, decide the case, and issue a final agency case decision. Any decision rendered by majority vote of such panel shall have the same effect as if made by the full board and shall be subject to court review in accordance with the Administrative Process Act. No member who participates in an informal proceeding conducted in accordance with § 2.2-4019 shall serve on a panel conducting formal proceedings pursuant to § 2.2-4020 to consider the same matter.
12. To issue inactive licenses or certificates and promulgate regulations to carry out such purpose. Such regulations shall include, but not be limited to, the qualifications, renewal fees, and conditions for reactivation of licenses or certificates.
13. 14. To request and accept from a certified, registered or licensed practitioner or person holding a multistate licensure privilege to practice nursing, in lieu of disciplinary action, a confidential consent agreement. A confidential consent agreement shall be subject to the confidentiality provisions of § 54.1-2400.2 and shall not be disclosed by a practitioner. A confidential consent agreement shall include findings of fact and may include an admission or a finding of a violation. A confidential consent agreement shall not be considered either a notice or order of any health regulatory board, but it may be considered by a board in future disciplinary proceedings. A confidential consent agreement shall be entered into only in cases involving minor misconduct where there is little or no injury to a patient or the public and little likelihood of repetition by the practitioner. A board shall not enter into a confidential consent agreement if there is probable cause to believe the practitioner has (i) demonstrated gross negligence or intentional misconduct in the care of patients or (ii) conducted his practice in such a manner as to be a danger to the health and welfare of his patients or the public. A certified, registered or licensed practitioner who has entered into two confidential consent agreements involving a standard of care violation, within the 10-year period immediately preceding a board's receipt of the most recent report or complaint being considered, shall receive public discipline for any subsequent violation within the 10-year period unless the board finds there are sufficient facts and circumstances to rebut the presumption that the disciplinary action be made public.

15. When a board has probable cause to believe a practitioner is unable to practice with reasonable skill and safety to patients because of excessive use of alcohol or drugs or physical or mental illness, the board, after preliminary investigation by an informal fact-finding proceeding, may direct that the practitioner submit to a mental or physical examination. Failure to submit to the examination shall constitute grounds for disciplinary action. Any practitioner affected by this subsection shall be afforded reasonable opportunity to demonstrate that he is competent to practice with reasonable skill and safety to patients. For the purposes of this subdivision, "practitioner" shall include any person holding a multistate licensure privilege to practice nursing.

2. That the provisions of this act shall become effective on January 1, 2017.

CHAPTER 84

An Act to amend and reenact § 32.1-162.18 of the Code of Virginia, relating to informed consent to experimental treatment; neurodegenerative diseases.

[H 337]

Approved March 1, 2016

Be it enacted by the General Assembly of Virginia:

1. That § 32.1-162.18 of the Code of Virginia is amended and reenacted as follows:

§ 32.1-162.18. Informed consent.

A. In order to conduct human research in this Commonwealth, informed consent must be obtained if the person who is to be the human subject is as follows: (i) capable of making an informed decision, then it shall be subscribed to in writing by the person and witnessed; (ii) incapable of making an informed decision, as defined in § 54.1-2982, at the time consent is required, then it shall be subscribed to in writing by the person's legally authorized representative and witnessed; or (iii) a minor otherwise capable of rendering informed consent, then it shall be subscribed to in writing by both the minor and his legally authorized representative. The giving of consent by a legally authorized representative shall be subject to the provisions of subsection B of this section. If two or more persons who qualify as legally authorized representatives and have equal decision-making priority under this chapter inform the principal investigator or attending physician that they disagree as to participation of the prospective subject in human research, the subject shall not be enrolled in the human research that is the subject of the consent. No informed consent form shall include any language through which the person who is to be the human subject waives or appears to waive any of his legal rights, including any release of any individual, institution, or agency or any agents thereof from liability for negligence.

Notwithstanding consent by a legally authorized representative, no person shall be forced to participate in any human research if the investigator conducting the human research knows that participation in the research is protested by the prospective subject. In the case of persons suffering from ~~organic brain diseases~~ *neurodegenerative diseases* causing

progressive deterioration of cognition for which there is no known cure or ~~medically accepted treatment~~, the implementation of experimental courses of therapeutic treatment, *including non-pharmacological treatment*, to which a legally authorized representative has given informed consent shall not constitute the use of force.

B. A legally authorized representative may not consent to nontherapeutic research unless it is determined by the human research committee that such nontherapeutic research will present no more than a minor increase over minimal risk to the human subject. A legally authorized representative may not consent to participation in human research on behalf of a prospective subject if the legally authorized representative knows, or upon reasonable inquiry ought to know, that any aspect of the human research protocol is contrary to the religious beliefs or basic values of the prospective subject, whether expressed orally or in writing. A legally authorized representative may not consent to participation in human research involving nontherapeutic sterilization, abortion, psychosurgery or admission for research purposes to a facility or hospital as defined in § 37.2-100.

C. Except as provided elsewhere in this chapter, no investigator may involve a human being as a subject in research covered by this chapter unless the investigator has obtained the legally effective informed consent of the subject or the subject's legally authorized representative. An investigator shall seek such consent only under circumstances that provide the prospective subject or the legally authorized representative sufficient opportunity to consider whether or not to participate and that minimize the possibility of coercion or undue influence.

D. The human research review committee may approve a consent procedure which omits or alters some or all of the basic elements of informed consent, or waives the requirement to obtain informed consent, if the committee finds and documents that (i) the research involves no more than minimal risk to the subjects; (ii) the omission, alteration or waiver will not adversely affect the rights and welfare of the subjects; (iii) the research could not practicably be performed without the omission, alteration or waiver; and (iv) after participation, the subjects are to be provided with additional pertinent information, whenever appropriate.

E. The human research review committee may waive the requirement that the investigator obtain written informed consent for some or all subjects, if the committee finds that the only record linking the subject and the research would be the consent document and the principal risk would be potential harm resulting from a breach of confidentiality. The committee may require the investigator to provide the subjects with a written statement explaining the research. Further, each subject shall be asked whether he wants documentation linking him to the research and the subject's wishes shall govern.

CHAPTER 85

An Act to amend and reenact § 32.1-127 of the Code of Virginia, relating to nursing homes; reimbursement of unexpended patient funds.

[H 343]

Approved March 1, 2016

Be it enacted by the General Assembly of Virginia:

1. That § 32.1-127 of the Code of Virginia is amended and reenacted as follows:

§ 32.1-127. Regulations.

A. The regulations promulgated by the Board to carry out the provisions of this article shall be in substantial conformity to the standards of health, hygiene, sanitation, construction and safety as established and recognized by medical and health care professionals and by specialists in matters of public health and safety, including health and safety standards established under provisions of Title XVIII and Title XIX of the Social Security Act, and to the provisions of Article 2 (§ 32.1-138 et seq.).

For purposes of this paragraph, facilities in which five or more first trimester abortions per month are performed shall be classified as a category of "hospital";

4. Shall also require that each hospital establish a protocol for organ donation, in compliance with federal law and the regulations of the Centers for Medicare and Medicaid Services (CMS), particularly 42 C.F.R. § 482.45. Each hospital shall have an agreement with an organ procurement organization designated in CMS regulations for routine contact, whereby the provider's designated organ procurement organization certified by CMS (i) is notified in a timely manner of all deaths or

imminent deaths of patients in the hospital and (ii) is authorized to determine the suitability of the decedent or patient for organ donation and, in the absence of a similar arrangement with any eye bank or tissue bank in Virginia certified by the Eye Bank Association of America or the American Association of Tissue Banks, the suitability for tissue and eye donation. The hospital shall also have an agreement with at least one tissue bank and at least one eye bank to cooperate in the retrieval, processing, preservation, storage, and distribution of tissues and eyes to ensure that all usable tissues and eyes are obtained from potential donors and to avoid interference with organ procurement. The protocol shall ensure that the hospital collaborates with the designated organ procurement organization to inform the family of each potential donor of the option to donate organs, tissues, or eyes or to decline to donate. The individual making contact with the family shall have completed a course in the methodology for approaching potential donor families and requesting organ or tissue donation that (a) is offered or approved by the organ procurement organization and designed in conjunction with the tissue and eye bank community and (b) encourages discretion and sensitivity according to the specific circumstances, views, and beliefs of the relevant family. In addition, the hospital shall work cooperatively with the designated organ procurement organization in educating the staff responsible for contacting the organ procurement organization's personnel on donation issues, the proper review of death records to improve identification of potential donors, and the proper procedures for maintaining potential donors while necessary testing and placement of potential donated organs, tissues, and eyes takes place. This process shall be followed, without exception, unless the family of the relevant decedent or patient has expressed opposition to organ donation, the chief administrative officer of the hospital or his designee knows of such opposition, and no donor card or other relevant document, such as an advance directive, can be found;

5. Shall require that each hospital that provides obstetrical services establish a protocol for admission or transfer of any pregnant woman who presents herself while in labor;

6. Shall also require that each licensed hospital develop and implement a protocol requiring written discharge plans for identified, substance-abusing, postpartum women and their infants. The protocol shall require that the discharge plan be discussed with the patient and that appropriate referrals for the mother and the infant be made and documented. Appropriate referrals may include, but need not be limited to, treatment services, comprehensive early intervention services for infants and toddlers with disabilities and their families pursuant to Part H of the Individuals with Disabilities Education Act, 20 U.S.C. § 1471 et seq., and family-oriented prevention services. The discharge planning process shall involve, to the extent possible, the father of the infant and any members of the patient's extended family who may participate in the follow-up care for the mother and the infant. Immediately upon identification, pursuant to § 54.1-2403.1, of any substance-abusing, postpartum woman, the hospital shall notify, subject to federal law restrictions, the community services board of the jurisdiction in which the woman resides to appoint a discharge plan manager. The community services board shall implement and manage the discharge plan;

7. Shall require that each nursing home and certified nursing facility fully disclose to the applicant for admission the home's or facility's admissions policies, including any preferences given;

8. Shall require that each licensed hospital establish a protocol relating to the rights and responsibilities of patients which shall include a process reasonably designed to inform patients of such rights and responsibilities. Such rights and responsibilities of patients, a copy of which shall be given to patients on admission, shall be consistent with applicable federal law and regulations of the Centers for Medicare and Medicaid Services;

9. Shall establish standards and maintain a process for designation of levels or categories of care in neonatal services according to an applicable national or state-developed evaluation system. Such standards may be differentiated for various levels or categories of care and may include, but need not be limited to, requirements for staffing credentials, staff/patient ratios, equipment, and medical protocols;

10. Shall require that each nursing home and certified nursing facility train all employees who are mandated to report adult abuse, neglect, or exploitation pursuant to § 63.2-1606 on such reporting procedures and the consequences for failing to make a required report;

11. Shall permit hospital personnel, as designated in medical staff bylaws, rules and regulations, or hospital policies and procedures, to accept emergency telephone and other verbal orders for medication or treatment for hospital patients from physicians, and other persons lawfully authorized by state statute to give patient orders, subject to a requirement that such verbal order be signed, within a reasonable period of time not to exceed 72 hours as specified in the hospital's medical staff bylaws, rules and regulations or hospital policies and procedures, by the person giving the order, or, when such person is not available within the period of time specified, co-signed by another physician or other person authorized to give the order;

12. Shall require, unless the vaccination is medically contraindicated or the resident declines the offer of the vaccination, that each certified nursing facility and nursing home provide or arrange for the administration to its residents of (i) an annual vaccination against influenza and (ii) a pneumococcal vaccination, in accordance with the most recent recommendations of the Advisory Committee on Immunization Practices of the Centers for Disease Control and Prevention;

13. 14. Shall require that each nursing home and certified nursing facility ascertain, prior to admission, whether a potential patient is a registered sex offender, if the home or facility anticipates the potential patient will have a length of stay greater than three days or in fact stays longer than three days;

15. Shall require that each licensed hospital include in its visitation policy a provision allowing each adult patient to receive visits from any individual from whom the patient desires to receive visits, subject to other restrictions contained in the visitation policy including, but not limited to, those related to the patient's medical condition and the number of visitors permitted in the patient's room simultaneously;

16. Shall require that each nursing home and certified nursing facility shall, upon the request of the facility's family council, send notices and information about the family council mutually developed by the family council and the administration of the nursing home or certified nursing facility, and provided to the facility for such purpose, to the listed responsible party or a contact person of the resident's choice up to six times per year. Such notices may be included together with a monthly billing statement or other regular communication. Notices and information shall also be posted in a designated location within the nursing home or certified nursing facility;

17. Shall require that each nursing home and certified nursing facility maintain liability insurance coverage in a minimum amount of \$1 million, and professional liability coverage in an amount at least equal to the recovery limit set forth in § 8.01-581.15, to compensate patients or individuals for injuries and losses resulting from the negligent or criminal acts of the facility. Failure to maintain such minimum insurance shall result in revocation of the facility's license; ~~and~~

18. Shall require each hospital that provides obstetrical services to establish policies to follow when a stillbirth, as defined in § 32.1-69.1, occurs that meet the guidelines pertaining to counseling patients and their families and other aspects of managing stillbirths as may be specified by the Board in its regulations; *and*

19. *Shall require each nursing home to provide a full refund of any unexpended patient funds on deposit with the facility following the discharge or death of a patient, other than entrance-related fees paid to a continuing care provider as defined in § 38.2-4900, within 30 days of a written request for such funds by the discharged patient or, in the case of the death of a patient, the person administering the person's estate in accordance with the Virginia Small Estates Act (§ 64.2-600 et seq.).*

Facilities which have identified a lot which is known to be contaminated shall notify the recipient's attending physician and request that he notify the recipient of the contamination. If the physician is unavailable, the facility shall notify by mail, return receipt requested, each recipient who received treatment from a known contaminated lot at the individual's last known address.

CHAPTER 86

An Act to amend and reenact § 54.1-3303 of the Code of Virginia, relating to TPA-certified optometrists; prescription of certain Schedule II controlled substances.

[H 498]

Approved March 1, 2016

Be it enacted by the General Assembly of Virginia:

1. That § 54.1-3303 of the Code of Virginia is amended and reenacted as follows:

§ 54.1-3303. Prescriptions to be issued and drugs to be dispensed for medical or therapeutic purposes only.

A. A prescription for a controlled substance may be issued only by a practitioner of medicine, osteopathy, podiatry, dentistry or veterinary medicine who is authorized to prescribe controlled substances, or by a licensed nurse practitioner pursuant to § 54.1-2957.01, a licensed physician assistant pursuant to § 54.1-2952.1, or a TPA-certified optometrist pursuant to Article 5 (§ 54.1-3222 et seq.) of Chapter 32. The prescription shall be issued for a medicinal or therapeutic purpose and may be issued only to persons or animals with whom the practitioner has a bona fide practitioner-patient relationship.

For purposes of this section, a bona fide practitioner-patient-pharmacist relationship is one in which a practitioner prescribes, and a pharmacist dispenses, controlled substances in good faith to his patient for a medicinal or therapeutic purpose within the course of his professional practice. In addition, a bona fide practitioner-patient relationship means that the practitioner shall (i) ensure that a medical or drug history is obtained; (ii) provide information to the patient about the benefits and risks of the drug being prescribed; (iii) perform or have performed an appropriate examination of the patient, either physically or by the use of instrumentation and diagnostic equipment through which images and medical records may be transmitted electronically; except for medical emergencies, the examination of the patient shall have been performed by the practitioner himself, within the group in which he practices, or by a consulting practitioner prior to issuing a prescription; and (iv) initiate additional interventions and follow-up care, if necessary, especially if a prescribed drug may have serious side effects.

For the purpose of prescribing a Schedule VI controlled substance to a patient via telemedicine services as defined in § 38.2-3418.16, a prescriber may establish a bona fide practitioner-patient relationship by an examination through face-to-face interactive, two-way, real-time communications services or store-and-forward technologies when all of the following conditions are met: (a) the patient has provided a medical history that is available for review by the prescriber; (b) the prescriber obtains an updated medical history at the time of prescribing; (c) the prescriber makes a diagnosis at the time of prescribing; (d) the prescriber conforms to the standard of care expected of in-person care as appropriate to the patient's age and presenting condition, including when the standard of care requires the use of diagnostic testing and performance of a physical examination, which may be carried out through the use of peripheral devices appropriate to the patient's condition; (e) the prescriber is actively licensed in the Commonwealth and authorized to prescribe; (f) if the patient is a member or enrollee of a health plan or carrier, the prescriber has been credentialed by the health plan or carrier as a participating provider and the diagnosing and prescribing meets the qualifications for reimbursement by the health plan or carrier pursuant to § 38.2-3418.16; and (g) upon request, the prescriber provides patient records in a timely manner in accordance with the provisions of § 32.1-127.1:03 and all other state and federal laws and regulations. Nothing in this paragraph shall permit a prescriber to establish a bona fide practitioner-patient relationship for the purpose of prescribing a Schedule VI controlled substance when the standard of care dictates that an in-person physical examination is necessary for diagnosis. Nothing in this paragraph shall apply to: (1) a prescriber providing on-call coverage per an agreement with another prescriber or his prescriber's professional entity or employer; (2) a prescriber consulting with another prescriber regarding a patient's care; or (3) orders of prescribers for hospital out-patients or in-patients.

Any practitioner who prescribes any controlled substance with the knowledge that the controlled substance will be used otherwise than medicinally or for therapeutic purposes shall be subject to the criminal penalties provided in § 18.2-248 for violations of the provisions of law relating to the distribution or possession of controlled substances.

B. In order to determine whether a prescription that appears questionable to the pharmacist results from a bona fide practitioner-patient relationship, the pharmacist shall contact the prescribing practitioner or his agent and verify the identity of the patient and name and quantity of the drug prescribed. The person knowingly filling an invalid prescription shall be subject to the criminal penalties provided in § 18.2-248 for violations of the provisions of law relating to the sale, distribution or possession of controlled substances.

No prescription shall be filled unless there is a bona fide practitioner-patient-pharmacist relationship. A prescription not issued in the usual course of treatment or for authorized research is not a valid prescription.

C. Notwithstanding any provision of law to the contrary and consistent with recommendations of the Centers for Disease Control and Prevention or the Department of Health, a practitioner may prescribe Schedule VI antibiotics and antiviral agents to other persons in close contact with a diagnosed patient when (i) the practitioner meets all requirements of a bona fide practitioner-patient relationship, as defined in subsection A, with the diagnosed patient; (ii) in the practitioner's professional judgment, the practitioner deems there is urgency to begin treatment to prevent the transmission of a communicable disease; (iii) the practitioner has met all requirements of a bona fide practitioner-patient relationship, as defined in subsection A, for the close contact except for the physical examination required in clause (iii) of subsection A; and (iv) when such emergency treatment is necessary to prevent imminent risk of death, life-threatening illness, or serious disability.

D. A pharmacist may dispense a controlled substance pursuant to a prescription of an out-of-state practitioner of medicine, osteopathy, podiatry, dentistry or veterinary medicine authorized to issue such prescription if the prescription complies with the requirements of this chapter and the Drug Control Act (§ 54.1-3400 et seq.).

E. A licensed nurse practitioner who is authorized to prescribe controlled substances pursuant to § 54.1-2957.01 may issue prescriptions or provide manufacturers' professional samples for controlled substances and devices as set forth in the Drug Control Act (§ 54.1-3400 et seq.) in good faith to his patient for a medicinal or therapeutic purpose within the scope of his professional practice.

F. A licensed physician assistant who is authorized to prescribe controlled substances pursuant to § 54.1-2952.1 may issue prescriptions or provide manufacturers' professional samples for controlled substances and devices as set forth in the Drug Control Act (§ 54.1-3400 et seq.) in good faith to his patient for a medicinal or therapeutic purpose within the scope of his professional practice.

G. A TPA-certified optometrist who is authorized to prescribe controlled substances pursuant to Article 5 (§ 54.1-3222 et seq.) of Chapter 32 may issue prescriptions in good faith or provide manufacturers' professional samples to his patients for medicinal or therapeutic purposes within the scope of his professional practice for the drugs specified on the TPA-Formulary, established pursuant to § 54.1-3223, which shall be limited to (i) *analgesics included on Schedule II controlled substances as defined in § 54.1-3448 of the Drug Control Act (§ 54.1-3400 et seq.) consisting of hydrocodone in combination with acetaminophen*; (ii) oral analgesics included in Schedules III through VI, as defined in §§ 54.1-3450 and 54.1-3455 of the Drug Control Act (§ 54.1-3400 et seq.), which are appropriate to relieve ocular pain; ~~(iii)~~; (iii) other oral Schedule VI controlled substances, as defined in § 54.1-3455 of the Drug Control Act, appropriate to treat diseases and abnormal conditions of the human eye and its adnexa; ~~(iii)~~; (iv) topically applied Schedule VI drugs, as defined in § 54.1-3455 of the Drug Control Act; and ~~(iv)~~ (v) intramuscular administration of epinephrine for treatment of emergency cases of anaphylactic shock.

H. The requirement for a bona fide practitioner-patient relationship shall be deemed to be satisfied by a member or committee of a hospital's medical staff when approving a standing order or protocol for the administration of influenza vaccinations and pneumococcal vaccinations in a hospital in compliance with § 32.1-126.4.

CHAPTER 87

A. There is hereby created the Onsite Sewage Indemnification fund whose purpose is to receive moneys generated by a portion of the fees collected by the Department of Health pursuant to subsections C and E of § 32.1-164 and appropriated by the Commonwealth for the purpose of assisting any Virginia real property owner holding a valid permit to operate an onsite sewage system when such system or components thereof fail within three years of construction and such failure results from the negligence of the Department of Health. The fund may also be used, in the discretion of the Board, to support the program for training and recognition of ~~authorized~~ licensed onsite soil evaluators.

B. Ten dollars of each fee collected by the Department of Health pursuant to subsections C and E of § 32.1-164 shall be deposited by the Comptroller to this fund to be appropriated for the purposes of this section to the Department of Health by the General Assembly as it deems necessary.

C. The owner of an onsite sewage system that has been permitted by the Department of Health may cause, by filing a request for payment from the fund within one year from the date the system or components thereof failed, the Commissioner to review the circumstances of the onsite sewage system failure, if the onsite sewage system has failed within three years of construction. Upon the Commissioner's finding that the onsite sewage system was permitted by the Department and (i) the system or components thereof failed within three years of construction; (ii) that specific actions of the Department were negligent and that those actions caused the failure; and (iii) that the owner filed a request for payment from the fund within one year from the date the system or components thereof failed, the Commissioner shall, subject to the limitations stated herein, reimburse the owner for the reasonable cost of following the Board's regulations to repair or replace the failed onsite sewage system or components thereof.

D. Prior to receiving payment from the fund, the owner shall follow the requirements in the Board's regulations to repair or replace the failed onsite sewage system or components thereof.

E. The total amount an owner may receive in payment from the fund shall not exceed \$30,000. Only the costs of the system that failed or the costs of labor and equipment required to repair or replace the failed onsite sewage system or components thereof are reimbursable by the fund.

F. If the Commissioner finds that the system was permitted by the Department and has failed within three years of construction and that the failure resulted from faulty construction or other private party error, the Commissioner may assist the owner of the failed system in seeking redress from the system's builder or other private party.

G. Every request for payment from the fund shall be forever barred unless the owner has filed a complete application as required by the Department. The request shall be filed with the Commissioner within one year from the date that the onsite sewage system or components thereof first failed. However, if the owner was under a disability at the time the cause of action accrued, the tolling provisions of § 8.01-229 shall apply. The owner shall mail the request for payment from the fund via the United States Postal Service by certified mail, return receipt requested, addressed to the Commissioner.

In any action contesting the filing of the request for payment from the fund, the burden of proof shall be on the owner to establish mailing and receipt of the notice in conformity with this section. The signed receipt indicating delivery to the Commissioner, when admitted into evidence, shall be prima facie evidence of filing of the request for payment from the fund under this section. The request for payment from the fund shall be deemed to be timely filed if it is sent by certified mail, return receipt requested, and if the official receipt shows that the mailing was within the prescribed time limits.

Notwithstanding any provision of this article, the liability for any payment from the fund shall be conditioned upon the execution by the owner of a release approved by the Attorney General of all claims against the Commonwealth, its political subdivisions, agencies, and instrumentalities and against any officer or employee of the Commonwealth in connection with or arising out of the occurrence complained of.

H. The Commissioner and the Attorney General shall cooperatively develop an actuarially sound program and policy for identifying, evaluating, and processing requests for payment from the fund.

I. If the Commissioner refuses the request for payment from the fund, the owner may appeal the refusal to the State Health Department Sewage Handling and Disposal Appeal Review Board.

The Board may promulgate regulations pursuant to the Administrative Process Act (§ 2.2-4000 et seq.) for the administration of the fund consistent with this chapter.

In the event the fund is insufficient to meet requests for payment from the fund, this section and the creation of the fund shall not be construed to provide liability on the part of the Department or any of its personnel where no such liability existed prior to July 1, 1994.

§ 32.1-176.5:2. Prohibition on private well construction.

The Department shall endeavor to develop placements for VIEW participants that will enable participants to develop job skills that are likely to result in independent employment and that take into consideration the proficiency, experience, skills, and prior training of a participant.

VIEW shall recognize clearly defined responsibilities and obligations on the part of public assistance recipients and shall include a written agreement of personal responsibility requiring parents to participate in work activities while receiving TANF, earned-income disregards to reduce disincentives to work, and a limit on TANF financial assistance.

VIEW shall require all able-bodied recipients of TANF who do not meet an exemption to participate in a work activity. VIEW shall require eligible TANF recipients to participate in unsubsidized, partially subsidized or fully subsidized employment or other allowable TANF work activity as defined by federal law and enter into an agreement of personal responsibility.

B. To the maximum extent permitted by federal law, and notwithstanding other provisions of Virginia law, the Department and local departments may, through applicable procurement laws and regulations, engage the services of public and private organizations to operate VIEW and to provide services incident to such operation.

C. All VIEW participants shall be under the direction and supervision of a case manager.

FEP shall assign participants to subsidized wage-paying private-sector jobs designed to increase the participants' self-sufficiency and improve their competitive position in the workforce.

b. Participants in FEP shall be placed in full-time employment when appropriate and shall be paid by the employer at an hourly rate not less than the federal or state minimum wage, whichever is higher. At no point shall a participant's spendable income received from wages and tax credits be less than the value of TANF received prior to the work placement.

c. Every employer subject to the Virginia unemployment insurance tax shall be eligible for assignment of FEP participants, but no employer shall be required to utilize such participants. Employers shall ensure that jobs made available to FEP participants are in conformity with § 3304(a)(5) of the Federal Unemployment Tax Act. b. The number of hours per week for participants shall be determined by combining the total dollar amount of TANF and food stamps and dividing by the minimum wage with a maximum of a work week of 32 hours, of which up to 12 hours of employment-related education and training may substitute for work experience employment; or

5. Any other allowable TANF work activity as defined by federal law.

E. Notwithstanding the provisions of subsections A and D, if a local department determines that a VIEW participant is in need of job skills and would benefit from immediate job skills training, it may place the participant in a program preparing individuals for a high school equivalency examination approved by the Board of Education ~~or~~ a career and technical education program targeted at skills required for particular employment opportunities, *or an apprenticeship program developed by the local department in accordance with requirements established by the Department*. F. Participants may be reevaluated after a period determined by the local department and reassigned to another work component. In addition, the number of hours worked may be reduced by the local department so that a participant may complete additional training or education to further his employability.

G. Local departments shall be authorized to sanction parents up to the full amount of the TANF grant for noncompliance, unless good cause exists.

H. VIEW participants shall not be assigned to projects that require that they travel unreasonable distances from their homes or remain away from their homes overnight without their consent.

Any injury to a VIEW participant arising out of and in the course of community work experience shall be covered by the participant's existing Medicaid coverage. If a community work experience participant is unable to work due to such an accident, his status shall be reviewed to determine whether he is eligible for an exemption from the limitation on TANF financial assistance.

A community work experience participant who becomes incapacitated for 30 days or more shall be eligible for TANF financial assistance for the duration of the incapacity, if otherwise eligible.

The Board shall adopt regulations providing for the accrual of paid sick leave or other equivalent mechanism for community work experience participants.

§ 32.1-371. Recognition of Emergency Medical Services Personnel Licensure Interstate Compact.

The Recognition of Emergency Medical Services Personnel Licensure Interstate Compact is hereby enacted into law and entered into with all jurisdictions legally joining therein in the form substantially as follows:

SECTION 1. PURPOSE

In order to protect the public through verification of competency and ensure accountability for patient-care-related activities, all states license emergency medical services (EMS) personnel, such as emergency medical technicians (EMTs), advanced EMTs, and paramedics. This compact is intended to facilitate the day-to-day movement of EMS personnel across state boundaries in the performance of their EMS duties as assigned by an appropriate authority and authorize state EMS offices to afford immediate legal recognition to EMS personnel licensed in a member state. This compact recognizes that states have a vested interest in protecting the public's health and safety through their licensing and regulation of EMS personnel and that such state regulation shared among the member states will best protect public health and safety. This compact is designed to achieve the following purposes and objectives:

- 1. Increase public access to EMS personnel;*
- 2. Enhance the states' ability to protect the public's health and safety, especially patient safety;*
- 3. Encourage the cooperation of member states in the areas of EMS licensure and regulation;*
- 4. Support licensing of military members who are separating from an active duty tour and licensing of their spouses;*
- 5. Facilitate the exchange of information between member states regarding EMS personnel licensure, adverse action, and significant investigatory information;*

If a remote state takes action, it shall promptly notify the home state and the Commission.

G. Nothing in this compact shall override a member state's decision that participation in an alternative program may be used in lieu of adverse action and that such participation shall remain nonpublic if required by the member state's laws. Member states must require individuals who enter any alternative programs to agree not to practice in any other member state during the term of the alternative program without prior authorization from such other member state.

The Commission shall keep minutes that fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, and the reasons therefor, including a description of the views expressed. Failure to provide service of process to the Commission shall render a judgment or order void as to the Commission, this compact, or promulgated rules.

B. Default, Technical Assistance, and Termination.

1. If the Commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact or the promulgated rules, the Commission shall:

a. Provide written notice to the defaulting state and other member states of the nature of the default, the proposed means of curing the default, and/or any other action to be taken by the Commission; and

b. Provide remedial training and specific technical assistance regarding the default.

2. If a state in default fails to cure the default, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the member states, and all rights, privileges, and benefits conferred by this compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

3. Termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the Commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states.

4. A state that has been terminated from the compact is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

5. The Commission shall not bear any costs related to a state that is found to be in default or that has been terminated from the compact, unless agreed upon in writing between the Commission and the defaulting state.

6. The defaulting state may appeal the action of the Commission by petitioning the U.S. District Court for the District of Columbia or the federal district where the Commission has its principal offices. The prevailing member shall be awarded all costs of such litigation, including reasonable attorney fees.

C. Dispute Resolution.

1. Upon request by a member state, the Commission shall attempt to resolve disputes related to the compact that arise among member states and between member and nonmember states.

2. The Commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

D. Enforcement.

1. The Commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact.

2. By majority vote, the Commission may initiate legal action in the United States District Court for the District of Columbia or the federal district where the Commission has its principal offices against a member state in default to enforce compliance with the provisions of the compact and its promulgated rules and bylaws. The relief sought may include both

injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing member shall be awarded all costs of such litigation, including reasonable attorney fees.

3. The remedies herein shall not be the exclusive remedies of the Commission. The Commission may pursue any other remedies available under federal or state law.

SECTION 14. DATE OF IMPLEMENTATION OF THE INTERSTATE COMMISSION FOR EMS PERSONNEL PRACTICE AND ASSOCIATED RULES, WITHDRAWAL, AND AMENDMENT

A. The compact shall come into effect on the date on which the compact statute is enacted into law in the tenth member state. The provisions, which become effective at that time, shall be limited to the powers granted to the Commission relating to assembly and the promulgation of rules. Thereafter, the Commission shall meet and exercise rulemaking powers necessary to the implementation and administration of the compact.

B. Any state that joins the compact subsequent to the Commission's initial adoption of the rules shall be subject to the rules as they exist on the date on which the compact becomes law in that state. Any rule that has been previously adopted by the Commission shall have the full force and effect of law on the day the compact becomes law in that state.

C. Any member state may withdraw from this compact by enacting a statute repealing the same.

1. A member state's withdrawal shall not take effect until six (6) months after enactment of the repealing statute.

2. Withdrawal shall not affect the continuing requirement of the withdrawing state's EMS authority to comply with the investigative and adverse action reporting requirements of this act prior to the effective date of withdrawal.

D. Nothing contained in this compact shall be construed to invalidate or prevent any EMS personnel licensure agreement or other cooperative arrangement between a member state and a nonmember state that does not conflict with the provisions of this compact.

E. This compact may be amended by the member states. No amendment to this compact shall become effective and binding upon any member state until it is enacted into the laws of all member states.

SECTION 15. CONSTRUCTION AND SEVERABILITY

This compact shall be liberally construed so as to effectuate the purposes thereof. If this compact shall be held contrary to the constitution of any member state thereto, the compact shall remain in full force and effect as to the remaining member states. Nothing in this compact supersedes state law or rules related to licensure of EMS agencies.

2. That the provisions of this act shall expire on July 1, 2021, if the Recognition of EMS Personnel Licensure Interstate Compact has not become effective as a result of enactment of the compact into law by at least 10 member states by that date.

3. That the Emergency Medical Services Advisory Board shall review decisions of the Interstate Commission for Emergency Medical Services Personnel Practice established pursuant to this compact and, upon approval by the Interstate Commission for Emergency Medical Services Personnel Practice of any action that will have the result of increasing the cost to the Commonwealth of membership in the compact, may recommend to the General Assembly that the Commonwealth withdraw from the compact.

CHAPTER 108

An Act to amend the Code of Virginia by adding in Chapter 30 of Title 54.1 an article numbered 6.1, consisting of sections numbered 54.1-3040.1 through 54.1-3040.11, and to repeal Article 6 (§§ 54.1-3030 through 54.1-3040) of Chapter 30 of Title 54.1 of the Code of Virginia, relating to multistate licensure for nurses; Nurse Licensure Compact.

[S 265]

Approved March 1, 2016

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding in Chapter 30 of Title 54.1 an article numbered 6.1, consisting of sections numbered 54.1-3040.1 through 54.1-3040.11, as follows:

Article 6.1.

Nurse Licensure Compact.

§ 54.1-3040.1. Findings and declaration of purpose.

A. The party states find that:

1. The health and safety of the public are affected by the degree of compliance with and the effectiveness of enforcement activities related to state nurse licensure laws;

2. Violations of nurse licensure and other laws regulating the practice of nursing may result in injury or harm to the public;

3. The expanded mobility of nurses and the use of advanced communication technologies as part of our nation's health care delivery system require greater coordination and cooperation among states in the areas of nurse licensure and regulation;

4. New practice modalities and technology make compliance with individual state nurse licensure laws difficult and complex;

5. The current system of duplicative licensure for nurses practicing in multiple states is cumbersome and redundant for both nurses and states; and

6. Uniformity of nurse licensure requirements throughout the states promotes public safety and public health benefits.

B. The general purposes of this Compact are to:

1. Facilitate the states' responsibility to protect the public's health and safety;

2. Ensure and encourage the cooperation of party states in the areas of nurse licensure and regulation;

3. Facilitate the exchange of information between party states in the areas of nurse regulation, investigation, and adverse actions;

4. Promote compliance with the laws governing the practice of nursing in each jurisdiction;

5. Invest all party states with the authority to hold a nurse accountable for meeting all state practice laws in the state in which the patient is located at the time care is rendered through the mutual recognition of party state licenses;

6. Decrease redundancies in the consideration and issuance of nurse licenses; and

7. Provide opportunities for interstate practice by nurses who meet uniform licensure requirements.

§ 54.1-3040.2. Definitions.

As used in the Nurse Licensure Compact, unless the context requires a different meaning:

"Adverse action" means any administrative, civil, equitable or criminal action permitted by a state's laws which is imposed by a licensing board or other authority against a nurse, including actions against an individual's license or multistate licensure privilege such as revocation, suspension, probation, monitoring of the licensee, limitation on the licensee's practice, or any other encumbrance on licensure affecting a nurse's authorization to practice, including issuance of a cease and desist action.

"Alternative program" means a nondisciplinary monitoring program approved by a licensing board.

"Coordinated licensure information system" means an integrated process for collecting, storing, and sharing information on nurse licensure and enforcement activities related to nurse licensure laws that is administered by a nonprofit organization composed of and controlled by licensing boards.

"Current significant investigative information" means:

1. Investigative information that a licensing board, after a preliminary inquiry that includes notification and an opportunity for the nurse to respond, if required by state law, has reason to believe is not groundless and, if proved true, would indicate more than a minor infraction; or

2. Investigative information that indicates that the nurse represents an immediate threat to public health and safety regardless of whether the nurse has been notified and had an opportunity to respond.

"Encumbrance" means a revocation or suspension of, or any limitation on, the full and unrestricted practice of nursing imposed by a licensing board.

"Home state" means the party state which is the nurse's primary state of residence.

"Licensing board" means a party state's regulatory body responsible for issuing nurse licenses.

"Multistate license" means a license to practice as a registered or a licensed practical/vocational nurse (LPN/VN) issued by a home state licensing board that authorizes the licensed nurse to practice in all party states under a multistate licensure privilege.

"Multistate licensure privilege" means a legal authorization associated with a multistate license permitting the practice of nursing as either a registered nurse (RN) or LPN/VN in a remote state.

"Nurse" means RN or LPN/VN, as those terms are defined by each party state's practice laws.

"Party state" means any state that has adopted this Compact.

"Remote state" means a party state, other than the home state.

"Single-state license" means a nurse license issued by a party state that authorizes practice only within the issuing state and does not include a multistate licensure privilege to practice in any other party state.

"State" means a state, territory, or possession of the United States and the District of Columbia.

"State practice laws" means a party state's laws, rules, and regulations that govern the practice of nursing, define the scope of nursing practice, and create the methods and grounds for imposing discipline. "State practice laws" does not include requirements necessary to obtain and retain a license, except for qualifications or requirements of the home state.

§ 54.1-3040.3. General provisions and jurisdiction.

A. A multistate license to practice registered or licensed practical/vocational nursing issued by a home state to a resident in that state will be recognized by each party state as authorizing a nurse to practice as a registered nurse (RN) or as a licensed practical/vocational nurse (LPN/VN), under a multistate licensure privilege, in each party state.

B. A state must implement procedures for considering the criminal history records of applicants for initial multistate license or licensure by endorsement. Such procedures shall include the submission of fingerprints or other biometric-based information by applicants for the purpose of obtaining an applicant's criminal history record information from the Federal Bureau of Investigation and the agency responsible for retaining that state's criminal records.

C. Each party state shall require the following for an applicant to obtain or retain a multistate license in the home state:

1. Meets the home state's qualifications for licensure or renewal of licensure, as well as all other applicable state laws;

2. Has (a) graduated or is eligible to graduate from a licensing board-approved RN or LPN/VN prelicensure education program or (b) graduated from a foreign RN or LPN/VN prelicensure education program that has been approved by the authorized accrediting body in the applicable country and has been verified by an independent credentials review agency to be comparable to a licensing board-approved prelicensure education program;

3. Has, if a graduate of a foreign prelicensure education program not taught in English or if English is not the individual's native language, successfully passed an English proficiency examination that includes the components of reading, speaking, writing, and listening;

4. Has successfully passed an NCLEX-RN® or NCLEX-PN® Examination or recognized predecessor, as applicable;

5. Is eligible for or holds an active, unencumbered license;

6. Has submitted, in connection with an application for initial licensure or licensure by endorsement, fingerprints or other biometric data for the purpose of obtaining criminal history record information from the Federal Bureau of Investigation and the agency responsible for retaining that state's criminal records;

7. Has not been convicted or found guilty, or has entered into an agreed disposition, of a felony offense under applicable state or federal criminal law;

8. Has not been convicted or found guilty, or has entered into an agreed disposition, of a misdemeanor offense related to the practice of nursing as determined on a case-by-case basis;

9. Is not currently enrolled in an alternative program;

10. Is subject to self-disclosure requirements regarding current participation in an alternative program; and

11. Has a valid United States social security number.

D. All party states shall be authorized, in accordance with existing state due process law, to take adverse action against a nurse's multistate licensure privilege, such as revocation, suspension, probation, or any other action that affects a nurse's authorization to practice under a multistate licensure privilege, including cease and desist actions. If a party state takes such action, it shall promptly notify the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system shall promptly notify the home state of any such actions by remote states.

E. A nurse practicing in a party state must comply with the state practice laws of the state in which the client is located at the time service is provided. The practice of nursing is not limited to patient care, but shall include all nursing practice as defined by the state practice laws of the party state in which the client is located. The practice of nursing in a party state under a multistate licensure privilege will subject a nurse to the jurisdiction of the licensing board, the courts, and the laws of the party state in which the client is located at the time service is provided.

F. Individuals not residing in a party state shall continue to be able to apply for a party state's single-state license as provided under the laws of each party state. However, the single-state license granted to these individuals will not be recognized as granting the privilege to practice nursing in any other party state. Nothing in this Compact shall affect the requirements established by a party state for the issuance of a single-state license.

G. Any nurse holding a home state multistate license, on the effective date of this Compact, may retain and renew the multistate license issued by the nurse's then-current home state, provided that:

1. A nurse who changes primary state of residence after this Compact's effective date must meet all applicable requirements of subsection C to obtain a multistate license from a new home state.

2. A nurse who fails to satisfy the multistate licensure requirements in subsection C due to a disqualifying event occurring after this Compact's effective date shall be ineligible to retain or renew a multistate license, and the nurse's multistate license shall be revoked or deactivated in accordance with applicable rules adopted by the Interstate Commission of Nurse Licensure Compact Administrators (Commission).

§ 54.1-3040.4. Applications for licensure in a party state.

A. Upon application for a multistate license, the licensing board in the issuing party state shall ascertain, through the coordinated licensure information system, whether the applicant has ever held, or is the holder of, a license issued by any other state, whether there are any encumbrances on any license or multistate licensure privilege held by the applicant, whether any adverse action has been taken against any license or multistate licensure privilege held by the applicant, and whether the applicant is currently participating in an alternative program.

B. A nurse may hold a multistate license issued by the home state in only one party state at a time.

C. If a nurse changes primary state of residence by moving between two party states, the nurse must apply for licensure in the new home state, and the multistate license issued by the prior home state will be deactivated in accordance with applicable rules adopted by the Commission.

1. The nurse may apply for licensure in advance of a change in primary state of residence.

2. A multistate license shall not be issued by the new home state until the nurse provides satisfactory evidence of a change in primary state of residence to the new home state and satisfies all applicable requirements to obtain a multistate license from the new home state.

D. If a nurse changes primary state of residence by moving from a party state to a non-party state, the multistate license issued by the prior home state will convert to a single-state license, valid only in the former home state.

§ 54.1-3040.5. Additional authorities invested in party state licensing boards.

A. In addition to the other powers conferred by state law, a licensing board shall have the authority to:

1. Take adverse action against a nurse's multistate licensure privilege to practice within that party state.

a. Only the home state shall have the power to take adverse action against a nurse's license issued by the home state.

b. For purposes of taking adverse action, the home state licensing board shall give the same priority and effect to reported conduct received from a remote state as it would if such conduct had occurred within the home state. In so doing, the home state shall apply its own state laws to determine appropriate action.

2. Issue cease and desist orders or impose an encumbrance on a nurse's authority to practice within that party state.

3. Complete any pending investigations of a nurse who changes primary state of residence during the course of such investigations. The licensing board shall also have the authority to take appropriate action(s) and shall promptly report the conclusions of such investigations to the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system shall promptly notify the new home state of any such actions.

4. Issue subpoenas for both hearings and investigations that require the attendance and testimony of witnesses, as well as the production of evidence. Subpoenas issued by a licensing board in a party state for the attendance and testimony of witnesses or the production of evidence from another party state shall be enforced in the latter state by any court of competent jurisdiction, according to the practice and procedure of that court applicable to subpoenas issued in proceedings pending before it. The issuing authority shall pay any witness fees, travel expenses, mileage, and other fees required by the service statutes of the state in which the witnesses or evidence are located.

5. Obtain and submit, for each nurse licensure applicant, fingerprint or other biometric-based information to the Federal Bureau of Investigation for criminal background checks, receive the results of the Federal Bureau of Investigation record search on criminal background checks, and use the results in making licensure decisions.

6. If otherwise permitted by state law, recover from the affected nurse the costs of investigations and disposition of cases resulting from any adverse action taken against that nurse.

7. Take adverse action based on the factual findings of the remote state, provided that the licensing board follows its own procedures for taking such adverse action.

B. If adverse action is taken by the home state against a nurse's multistate license, the nurse's multistate licensure privilege to practice in all other party states shall be deactivated until all encumbrances have been removed from the multistate license. All home state disciplinary orders that impose adverse action against a nurse's multistate license shall include a statement that the nurse's multistate licensure privilege is deactivated in all party states during the pendency of the order.

C. Nothing in this Compact shall override a party state's decision that participation in an alternative program may be used in lieu of adverse action. The home state licensing board shall deactivate the multistate licensure privilege under the multistate license of any nurse for the duration of the nurse's participation in an alternative program.

§ 54.1-3040.6. Coordinated licensure information system and exchange of information.

A. All party states shall participate in a coordinated licensure information system of all licensed registered nurses (RNs) and licensed practical/vocational nurses (LPNs/VNs). This system will include information on the licensure and disciplinary history of each nurse, as submitted by party states, to assist in the coordination of nurse licensure and enforcement efforts.

B. The Commission, in consultation with the administrator of the coordinated licensure information system, shall formulate necessary and proper procedures for the identification, collection, and exchange of information under this Compact.

C. All licensing boards shall promptly report to the coordinated licensure information system any adverse action, any current significant investigative information, denials of applications (with the reasons for such denials), and nurse participation in alternative programs known to the licensing board regardless of whether such participation is deemed nonpublic or confidential under state law.

D. Current significant investigative information and participation in nonpublic or confidential alternative programs shall be transmitted through the coordinated licensure information system only to party state licensing boards.

E. Notwithstanding any other provision of law, all party state licensing boards contributing information to the coordinated licensure information system may designate information that may not be shared with non-party states or disclosed to other entities or individuals without the express permission of the contributing state.

F. Any personally identifiable information obtained from the coordinated licensure information system by a party state licensing board shall not be shared with non-party states or disclosed to other entities or individuals except to the extent permitted by the laws of the party state contributing the information.

G. Any information contributed to the coordinated licensure information system that is subsequently required to be expunged by the laws of the party state contributing that information shall also be expunged from the coordinated licensure information system.

H. The Compact administrator of each party state shall furnish a uniform data set to the Compact administrator of each other party state, which shall include, at a minimum:

1. Identifying information;

2. Licensure data;

3. Information related to alternative program participation; and

4. Other information that may facilitate the administration of this Compact, as determined by Commission rules.

I. The Compact administrator of a party state shall provide all investigative documents and information requested by another party state.

§ 54.1-3040.7. Establishment of the Interstate Commission of Nurse Licensure Compact Administrators.

A. The party states hereby create and establish a joint public entity known as the Interstate Commission of Nurse Licensure Compact Administrators (Commission).

1. The Commission is an instrumentality of the party states.

2. Venue is proper, and judicial proceedings by or against the Commission shall be brought solely and exclusively, in a court of competent jurisdiction where the principal office of the Commission is located. The Commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings.

3. Nothing in this Compact shall be construed to be a waiver of sovereign immunity.

B. Membership, voting, and meetings.

1. Each party state shall have and be limited to one administrator. The head of the state licensing board or designee shall be the administrator of this Compact for each party state. Any administrator may be removed or suspended from office as provided by the law of the state from which the Administrator is appointed. Any vacancy occurring in the Commission shall be filled in accordance with the laws of the party state in which the vacancy exists.

2. Each administrator shall be entitled to one (1) vote with regard to the promulgation of rules and creation of bylaws and shall otherwise have an opportunity to participate in the business and affairs of the Commission. An administrator shall vote in person or by such other means as provided in the bylaws. The bylaws may provide for an administrator's participation in meetings by telephone or other means of communication.

3. The Commission shall meet at least once during each calendar year. Additional meetings shall be held as set forth in the bylaws or rules of the commission.

4. All meetings shall be open to the public, and public notice of meetings shall be given in the same manner as required under the rulemaking provisions in § 54.1-3040.8.

5. The Commission may convene in a closed, nonpublic meeting if the Commission must discuss:

a. Noncompliance of a party state with its obligations under this Compact;

b. The employment, compensation, discipline, or other personnel matters, practices, or procedures related to specific employees or other matters related to the Commission's internal personnel practices and procedures;

c. Current, threatened, or reasonably anticipated litigation;

d. Negotiation of contracts for the purchase or sale of goods, services, or real estate;

e. Accusing any person of a crime or formally censuring any person;

f. Disclosure of trade secrets or commercial or financial information that is privileged or confidential;

g. Disclosure of information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy;

h. Disclosure of investigatory records compiled for law-enforcement purposes;

i. Disclosure of information related to any reports prepared by or on behalf of the Commission for the purpose of investigation of compliance with this Compact; or

j. Matters specifically exempted from disclosure by federal or state statute.

6. If a meeting, or portion of a meeting, is closed pursuant to this provision, the Commission's legal counsel or designee shall certify that the meeting may be closed and shall reference each relevant exempting provision. The Commission shall keep minutes that fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, and the reasons therefor, including a description of the views expressed. All documents considered in connection with an action shall be identified in such minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release by a majority vote of the Commission or order of a court of competent jurisdiction.

C. The Commission shall, by a majority vote of the administrators, prescribe bylaws or rules to govern its conduct as may be necessary or appropriate to carry out the purposes and exercise the powers of this Compact, including but not limited to:

1. Establishing the fiscal year of the Commission;

2. Providing reasonable standards and procedures:

a. For the establishment and meetings of other committees; and

b. Governing any general or specific delegation of any authority or function of the Commission;

3. Providing reasonable procedures for calling and conducting meetings of the Commission, ensuring reasonable advance notice of all meetings, and providing an opportunity for attendance of such meetings by interested parties, with enumerated exceptions designed to protect the public's interest, the privacy of individuals, and proprietary information, including trade secrets. The Commission may meet in closed session only after a majority of the administrators vote to close a meeting in whole or in part. As soon as practicable, the Commission must make public a copy of the vote to close the meeting revealing the vote of each administrator, with no proxy votes allowed;

4. Establishing the titles, duties, and authority and reasonable procedures for the election of the officers of the Commission;

5. Providing reasonable standards and procedures for the establishment of the personnel policies and programs of the Commission. Notwithstanding any civil service or other similar laws of any party state, the bylaws shall exclusively govern the personnel policies and programs of the Commission; and

6. Providing a mechanism for winding up the operations of the Commission and the equitable disposition of any surplus funds that may exist after the termination of this Compact after the payment or reserving of all of its debts and obligations.

D. The Commission shall publish its bylaws and rules, and any amendments thereto, in a convenient form on the website of the Commission.

E. The Commission shall maintain its financial records in accordance with the bylaws.

F. The Commission shall meet and take such actions as are consistent with the provisions of this Compact and the bylaws.

G. The Commission shall have the following powers:

1. To promulgate uniform rules to facilitate and coordinate implementation and administration of this Compact. The rules shall have the force and effect of law and shall be binding in all party states;

2. To bring and prosecute legal proceedings or actions in the name of the Commission, provided that the standing of any licensing board to sue or be sued under applicable law shall not be affected;

3. To purchase and maintain insurance and bonds;

4. To borrow, accept, or contract for services of personnel, including, but not limited to, employees of a party state or nonprofit organizations;

5. To cooperate with other organizations that administer state compacts related to the regulation of nursing, including but not limited to sharing administrative or staff expenses, office space, or other resources;

6. To hire employees, elect or appoint officers, fix compensation, define duties, grant such individuals appropriate authority to carry out the purposes of this Compact and to establish the Commission's personnel policies and programs relating to conflicts of interest, qualifications of personnel, and other related personnel matters;

7. To accept any and all appropriate donations, grants, and gifts of money, equipment, supplies, materials, and services and to receive, utilize, and dispose of the same, provided that at all times the Commission shall avoid any appearance of impropriety or conflict of interest;

8. To lease, purchase, accept appropriate gifts or donations of, or otherwise to own, hold, improve, or use, any property, whether real, personal or mixed, provided that at all times the Commission shall avoid any appearance of impropriety;

9. To sell, convey, mortgage, pledge, lease, exchange, abandon, or otherwise dispose of any property, whether real, personal, or mixed;

10. To establish a budget and make expenditures;

11. To borrow money;

12. To appoint committees, including advisory committees comprised of administrators, state nursing regulators, state legislators or their representatives, and consumer representatives and other such interested persons;

13. To provide and receive information from, and to cooperate with, law-enforcement agencies;

14. To adopt and use an official seal; and

15. To perform such other functions as may be necessary or appropriate to achieve the purposes of this Compact consistent with the state regulation of nurse licensure and practice.

H. Financing of the Commission.

1. The Commission shall pay, or provide for the payment of, the reasonable expenses of its establishment, organization, and ongoing activities.

2. The Commission may also levy on and collect an annual assessment from each party state to cover the cost of its operations, activities, and staff in its annual budget as approved each year. The aggregate annual assessment amount, if any, shall be allocated based upon a formula to be determined by the Commission, which shall promulgate a rule that is binding upon all party states.

3. The Commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same, nor shall the Commission pledge the credit of any of the party states, except by, and with the authority of, such party state.

4. The Commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Commission shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the Commission shall be audited yearly by a certified or licensed public accountant, and the report of the audit shall be included in and become part of the annual report of the Commission.

I. Qualified immunity, defense, and indemnification.

1. The administrators, officers, executive director, employees, and representatives of the Commission shall be immune from suit and liability, either personally or in their official capacity, for any claim for damage to or loss of property or personal injury or other civil liability caused by or arising out of any actual or alleged act, error, or omission that occurred, or that the person against whom the claim is made had a reasonable basis for believing occurred, within the scope of Commission employment, duties or responsibilities, provided that nothing in this subdivision shall be construed to protect any such person from suit or liability for any damage, loss, injury, or liability caused by the intentional, willful, or wanton misconduct of that person.

2. The Commission shall defend any administrator, officer, executive director, employee, or representative of the Commission in any civil action seeking to impose liability arising out of any actual or alleged act, error, or omission that occurred within the scope of Commission employment, duties, or responsibilities, or that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of Commission employment, duties, or responsibilities, provided that nothing herein shall be construed to prohibit that person from retaining his or her own counsel and provided further that the actual or alleged act, error, or omission did not result from that person's intentional, willful, or wanton misconduct.

3. The Commission shall indemnify and hold harmless any administrator, officer, executive director, employee, or representative of the Commission for the amount of any settlement or judgment obtained against that person arising out of any actual or alleged act, error, or omission that occurred within the scope of Commission employment, duties, or responsibilities, or that such person had a reasonable basis for believing occurred within the scope of Commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from the intentional, willful, or wanton misconduct of that person.

§ 54.1-3040.8. Rulemaking.

A. The Commission shall exercise its rulemaking powers pursuant to the criteria set forth in this Article and the rules adopted thereunder. Rules and amendments shall become binding as of the date specified in each rule or amendment and shall have the same force and effect as provisions of this Compact.

B. Rules or amendments to the rules shall be adopted at a regular or special meeting of the Commission.

C. Prior to promulgation and adoption of a final rule or rules by the Commission, and at least sixty (60) days in advance of the meeting at which the rule will be considered and voted upon, the Commission shall file a notice of proposed rulemaking:

1. On the website of the Commission; and

2. On the website of each licensing board or the publication in which each state would otherwise publish proposed rules.

D. The notice of proposed rulemaking shall include:

1. The proposed time, date, and location of the meeting in which the rule will be considered and voted upon;

2. The text of the proposed rule or amendment and the reason for the proposed rule;

3. A request for comments on the proposed rule from any interested person; and

4. The manner in which interested persons may submit notice to the Commission of their intention to attend the public hearing and submit any written comments.

E. Prior to adoption of a proposed rule, the Commission shall allow persons to submit written data, facts, opinions, and arguments, which shall be made available to the public.

F. The Commission shall grant an opportunity for a public hearing before it adopts a rule or amendment.

G. The Commission shall publish the place, time, and date of the scheduled public hearing.

1. Hearings shall be conducted in a manner providing each person who wishes to comment a fair and reasonable opportunity to comment orally or in writing. All hearings will be recorded, and a copy will be made available upon request.

2. Nothing in this section shall be construed as requiring a separate hearing on each rule. Rules may be grouped for the convenience of the Commission at hearings required by this section.

H. If no one appears at the public hearing, the Commission may proceed with promulgation of the proposed rule.

I. Following the scheduled hearing date, or by the close of business on the scheduled hearing date if the hearing was not held, the Commission shall consider all written and oral comments received.

J. The Commission shall, by majority vote of all administrators, take final action on the proposed rule and shall determine the effective date of the rule, if any, based on the rulemaking record and the full text of the rule.

K. Upon determination that an emergency exists, the Commission may consider and adopt an emergency rule without prior notice, opportunity for comment, or hearing, provided that the usual rulemaking procedures provided in this Compact and in this section shall be retroactively applied to the rule as soon as reasonably possible, in no event later than ninety (90) days after the effective date of the rule. For the purposes of this provision, an emergency rule is one that must be adopted immediately in order to:

1. Meet an imminent threat to public health, safety, or welfare;

2. Prevent a loss of Commission or party state funds; or

3. Meet a deadline for the promulgation of an administrative rule that is required by federal law or rule.

L. The Commission may direct revisions to a previously adopted rule or amendment for purposes of correcting typographical errors, errors in format, errors in consistency, or grammatical errors. Public notice of any revisions shall be posted on the website of the Commission. The revision shall be subject to challenge by any person for a period of thirty (30) days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge shall be made in writing, and delivered to the Commission, prior to the end of the notice period. If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the Commission.

§ 54.1-3040.9. Oversight, dispute resolution, and enforcement.

A. Oversight.

1. Each party state shall enforce this Compact and take all actions necessary and appropriate to effectuate this Compact's purposes and intent.

2. The Commission shall be entitled to receive service of process in any proceeding that may affect the powers, responsibilities, or actions of the Commission and shall have standing to intervene in such a proceeding for all purposes. Failure to provide service of process in such proceeding to the Commission shall render a judgment or order void as to the Commission, this Compact, or promulgated rules.

B. Default, technical assistance and termination.

1. If the Commission determines that a party state has defaulted in the performance of its obligations or responsibilities under this Compact or the promulgated rules, the Commission shall:

a. Provide written notice to the defaulting state and other party states of the nature of the default, the proposed means of curing the default, or any other action to be taken by the Commission; and

b. Provide remedial training and specific technical assistance regarding the default.

2. If a state in default fails to cure the default, the defaulting state's membership in this Compact may be terminated upon an affirmative vote of a majority of the administrators, and all rights, privileges, and benefits conferred by this Compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

3. Termination of membership in this Compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the Commission to the governor of the defaulting state and to the executive officer of the defaulting state's licensing board and to each of the party states.

4. A state whose membership in this Compact has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

5. The Commission shall not bear any costs related to a state that is found to be in default or whose membership in this Compact has been terminated unless agreed upon in writing between the Commission and the defaulting state.

6. The defaulting state may appeal the action of the Commission by petitioning the U.S. District Court for the District of Columbia or the federal district in which the Commission has its principal offices. The prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees.

C. Dispute resolution.

1. Upon request by a party state, the Commission shall attempt to resolve disputes related to the Compact that arise among party states and between party and non-party states.

2. The Commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes, as appropriate.

3. In the event the Commission cannot resolve disputes among party states arising under this Compact:

a. The party states may submit the issues in dispute to an arbitration panel, which will be comprised of individuals appointed by the Compact administrator in each of the affected party states and an individual mutually agreed upon by the Compact administrators of all the party states involved in the dispute.

b. The decision of a majority of the arbitrators shall be final and binding.

D. Enforcement.

1. The Commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this Compact.

2. By majority vote, the Commission may initiate legal action in the U.S. District Court for the District of Columbia or the federal district in which the Commission has its principal offices against a party state that is in default to enforce compliance with the provisions of this Compact and its promulgated rules and bylaws. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees.

3. The remedies herein shall not be the exclusive remedies of the Commission. The Commission may pursue any other remedies available under federal or state law.

§ 54.1-3040.10. Effective date, withdrawal, and amendment.

A. This Compact shall become effective and binding on the earlier of the date of legislative enactment of this Compact into law by no less than twenty-six (26) states or December 31, 2018. All party states to this Compact that also were parties to the prior Nurse Licensure Compact (Prior Compact) superseded by this Compact shall be deemed to have withdrawn from said Prior Compact within six (6) months after the effective date of this Compact.

B. Each party state to this Compact shall continue to recognize a nurse's multistate licensure privilege to practice in that party state issued under the Prior Compact until such party state has withdrawn from the Prior Compact.

C. Any party state may withdraw from this Compact by enacting a statute repealing the same. A party state's withdrawal shall not take effect until six (6) months after enactment of the repealing statute.

D. A party state's withdrawal or termination shall not affect the continuing requirement of the withdrawing or terminated state's licensing board to report adverse actions and significant investigations occurring prior to the effective date of such withdrawal or termination.

E. Nothing contained in this Compact shall be construed to invalidate or prevent any nurse licensure agreement or other cooperative arrangement between a party state and a non-party state that is made in accordance with the other provisions of this Compact.

F. This Compact may be amended by the party states. No amendment to this Compact shall become effective and binding upon the party states unless and until it is enacted into the laws of all party states.

G. Representatives of non-party states to this Compact shall be invited to participate in the activities of the Commission, on a nonvoting basis, prior to the adoption of this Compact by all states.

§ 54.1-3040.11. Construction and severability.

This Compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this Compact shall be severable, and if any phrase, clause, sentence, or provision of this Compact is declared to be contrary to the constitution

of any party state or of the United States, or if the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this Compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this Compact shall be held to be contrary to the constitution of any party state, this Compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the party state affected as to all severable matters.

2. That the provisions of the first enactment clause of this act shall become effective upon adoption of the Nurse Licensure Compact as set forth in the first enactment clause by 26 states or on December 31, 2018, whichever comes first.

3. That Article 6 (§§ 54.1-3030 through 54.1-3040) of Chapter 30 of Title 54.1 is repealed on the date the first enactment clause of this act becomes effective.

4. That the Virginia Nurses Association, on behalf of its constituency, may send a request to the Chairmen of the House Committee on Health, Welfare and Institutions and the Senate Committee on Education and Health for reconsideration of the Nurse Licensure Compact by the General Assembly if the nurses of Virginia become dissatisfied with its provisions.

Any properly licensed person, or person exempt from having to obtain a license, who has obtained such season limit prior to commencement of the hunt may assist others who are hunting game by calling game, retrieving game, handling dogs, or conducting drives, provided he does not have a firearm, bow or crossbow in his possession.

8. To set a trap where it would be likely to injure persons, dogs, stock, or fowl.

9. To fail to visit all traps once each day and remove all animals caught, and immediately report to the landowner as to stock, dogs or fowl that are caught and the date. However, the Director or his designee may authorize employees of federal, state, and local government agencies, and persons holding a valid Commercial Nuisance Animal Permit issued by the Department, to visit body-gripping traps that are completely submerged at least once every 72 hours and the Board may adopt regulations permitting trappers to visit traps less frequently under specified conditions. The Board shall adopt regulations permitting trappers to use remote trap-checking technology to check traps under specified conditions.

10. To hunt, trap, take, capture, kill, attempt to take, capture or kill, possess, deliver for transportation, transport, cause to be transported, by any means whatever, receive for transportation or export, or import, at any time or in any manner, any wild bird or wild animal or the carcass or any part thereof, except as specifically permitted by law and only by the manner or means and within the numbers stated. 11. To offer for sale, sell, offer to purchase, or purchase, at any time or in any manner, any wild bird or wild animal or the carcass or any part thereof, except as specifically permitted by law, including, ~~but not limited to,~~ subsection D of § 29.1-553. However, any nonprofit organization exempt from taxation under § 501(c)(3) of the Internal Revenue Code, which is (i) organized to provide wild game as food to the hungry and (ii) authorized by the Department to possess, transport and distribute donated or unclaimed meat to the hungry, may pay a processing fee in order to obtain such meat. Such fees shall not exceed the actual cost for processing the meat. In addition, any nonprofit organization exempt from taxation under § 501(c)(3) of the Internal Revenue Code, that is (a) organized to support wildlife habitat conservation and (b) approved by the Department, shall be allowed to offer wildlife mounts that have undergone the taxidermy process for sale in conjunction with fundraising activities. A violation of this subdivision shall be punishable as provided in § 29.1-553.

B. Notwithstanding any other provision of this article, any American Indian, who produces verification that he is an enrolled member of a tribe recognized by the Commonwealth, another state or the U.S. government, may possess, offer for sale or sell to another American Indian, or offer to purchase or purchase from another American Indian, parts of legally obtained fur-bearing animals, nonmigratory game birds, and game animals, except bear. Such legally obtained parts shall include antlers, hooves, feathers, claws and bones.

"Verification" as used in this ~~section~~ subsection shall include, but is not limited to, (i) showing a valid tribal identification card, (ii) confirmation through a central tribal registry, (iii) a letter from a tribal chief or council, or (iv) certification from a tribal office that the person is an enrolled member of the tribe.

C. A violation of subdivisions A 1 through 10 shall be punishable as a Class 3 misdemeanor.

2. That the provisions of this act amending § 29.1-521 of the Code of Virginia shall expire on July 1, 2017.

1. That § 46.2-1112 of the Code of Virginia is amended and reenacted as follows:

§ 46.2-1112. Length of vehicles, generally; special permits; vehicle combinations, etc., operating on certain highways; penalty.

~~Except for buses and motor homes, no~~ No motor vehicle longer than 40 feet shall be operated on any highway in the Commonwealth *except for buses and motor homes*. The actual length of any combination of vehicles, *including motor homes and buses*, coupled together including any load thereon shall not exceed a total of 65 feet. However, the length of a tractor truck semitrailer combination may exceed 65 feet in length, provided the semitrailer does not exceed 53 feet in length and the distance between the kingpin of the semitrailer and the rearmost axle or a point midway between the rear tandem axles does not exceed 41 feet. The Commissioner of Highways may impose restrictions on the operation of vehicles exceeding 65 feet in length on certain roads, based on a safety and engineering analysis. No bus or motor home longer than 45 feet shall be operated on any highway in the Commonwealth. No tolerance shall be allowed that exceeds 12 inches.

The Commissioner, however, when good cause is shown, may issue a special permit for combinations either in excess of 65 feet, including any load thereon, or where the object or objects to be carried cannot be moved otherwise. Such permits may also be issued by the Department when the total number of otherwise overdimensional loads of modular housing of no more than two units may be reduced by permitting the use of an overlength trailer not exceeding 54 feet. No permit shall be issued by the Commissioner until an engineering analysis of a proposed routing has been conducted by the Commissioner of Highways to assess the ability of the roadway to be traversed to sustain the vehicle's size.

No overall length restrictions, however, shall be imposed on any tractor truck semitrailer combinations drawing one trailer or any tractor truck semitrailer combinations when operated on any interstate highway or on any highway as designated by the Commonwealth Transportation Board. No such designation shall be made, however, until notice of any proposed designation has been provided by the Commissioner of Highways to the governing body of every locality wherein any highway affected by the proposed designation is located.

No individual semitrailer or trailer being drawn in a tractor truck semitrailer trailer combination, however, shall exceed 28 1/2 feet in length, and no semitrailer being operated in a tractor truck semitrailer combination shall exceed 48 feet in length, except when semitrailers have a distance of not more than 41 feet between the kingpin of the semitrailer and the rearmost axle or a point midway between the rear tandem axles, such semitrailer shall be allowed not more than 53 feet in length.

The length limitations on semitrailers and trailers in the foregoing provisions of this section shall be exclusive of safety and energy conservation devices, steps and handholds for entry and egress, rubber dock guards, flexible fender extensions, mudflaps, refrigeration units, and air compressors. The Commissioner of Highways shall designate reasonable access to terminals, facilities for food, fuel, repairs and rest. Household goods carriers and any tractor truck semitrailer combination in which the semitrailer has a length of no more than 28 1/2 feet shall not be denied reasonable access to points of loading and unloading, except as designated, based on safety considerations, by the Commissioner of Highways.

Any person operating a vehicle whose length is not in conformity with the provisions of this chapter on a two-lane highway where passing is permitted shall be guilty of a traffic infraction and fined \$250.

2. That the provisions of this act are declaratory of existing law.

[H 438]

Approved March 1, 2016

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding a section numbered 62.1-44.19:21.1 as follows:

§ 62.1-44.19:21.1. Sediment credit use by regulated MS4s.

A. *Subject to the conditions and limitations of subsections B, C, and D, an MS4 permittee may acquire and use sediment credits for purposes of compliance with any waste load allocations established by total maximum daily loads for the Chesapeake Bay or its tidal tributaries applied in an MS4 permit issued pursuant to § 62.1-44.15:25, where such credit use is part of an integrated compliance plan for the MS4 permittee to address such nutrient and sediment total maximum daily loads.*

B. Such method of compliance may be approved by the Department following review of an integrated compliance plan submitted by the permittee that includes the use of sediment credits. The permittee may use such credits for compliance purposes only if (i) the credits are generated and applied for purposes of compliance for the same calendar year; (ii) the credits are acquired no later than June 1 immediately following the calendar year to which the credits are applied; (iii) no later than June 1 immediately following the calendar year to which credits are applied, the permittee certifies on a form supplied by the Department that he has acquired sufficient credits to satisfy his compliance obligations; (iv) the credits are generated in the same tributary; (v) the sediment credits are not associated with phosphorus credits used for compliance with stormwater nonpoint nutrient runoff water quality criteria established pursuant to § 62.1-44.15:28; and (vi) the credits are derived from (a) implementation of best management practices in a defined area outside of an MS4 service area, in which case the necessary baseline sediment reduction for such defined area shall be achieved prior to the permittee's use of additional reductions as credit, or (b) a point source waste load allocation established by the Chesapeake Bay total maximum daily load, in which case the credit is the difference between the waste load allocation specified as an annual mass load and any lower monitored annual mass load that is discharged as certified on a form supplied by the Department.

C. This section shall not be construed to limit or otherwise affect the authority of the Board to establish and enforce more stringent water quality-based effluent limitations in permits where those limitations are necessary to protect local water quality. The exchange or acquisition of credits pursuant to this article shall not affect any requirement to comply with such local water quality-based limitations.

D. The Board may adopt regulations for the purpose of establishing procedures for the certification of nonpoint source sediment credits used pursuant to subsection B. The Board's administration of this section and its adoption of any such regulations shall be consistent wherever appropriate with the standards and procedures established pursuant to § 62.1-44.19:20 for certification of nonpoint source nutrient credits, including, without limitation, the opportunity for public notification, the retirement of credits, sediment baseline attainment as a condition on generation and use of nonpoint source sediment credits, financial assurance requirements, and requirements for inspection or auditing by the Department.

E. For the purposes of this section, "sediment credit" means a sediment or total suspended solids reduction that is expressed in pounds delivered to tidal waters within the Chesapeake Bay Watershed.

1. That § 33.2-214.1 of the Code of Virginia is amended and reenacted as follows:

§ 33.2-214.1. Statewide prioritization process for project selection.

A. The General Assembly declares it to be in the public interest that a prioritization process for projects funded by the Commonwealth Transportation Board be developed and implemented to improve the efficiency and effectiveness of the state's transportation system, transportation safety, transportation accessibility for people and freight, environmental quality, and economic development in the Commonwealth.

B. Subject to the limitations in subsection C, the Commonwealth Transportation Board shall develop, in accordance with federal transportation requirements, and in cooperation with metropolitan planning organizations wholly within the Commonwealth and with the Northern Virginia Transportation Authority, a statewide prioritization process for the use of funds allocated pursuant to §§ 33.2-358, 33.2-370, and 33.2-371 or apportioned pursuant to 23 U.S.C. § 104. Such prioritization process shall be used for the development of the Six-Year Improvement Program pursuant to § 33.2-214 and shall consider, at a minimum, highway, transit, rail, roadway, technology operational improvements, and transportation demand management strategies.

1. The prioritization process shall be based on an objective and quantifiable analysis that considers, at a minimum, the following factors relative to the cost of the project or strategy: congestion mitigation, economic development, accessibility, safety, and environmental quality.

2. Prior to the analysis in subdivision 1, candidate projects and strategies shall be screened by the Commonwealth Transportation Board to determine whether they are consistent with the assessment of capacity needs for all for corridors of statewide significance, regional networks, and improvements to promote urban development areas established pursuant to § 15.2-2223.1, undertaken in the Statewide Transportation Plan in accordance with § 33.2-353.

3. The Commonwealth Transportation Board shall weight the factors used in subdivision 1 for each of the state's highway construction districts. 4. The Commonwealth Transportation Board shall solicit input from localities, metropolitan planning organizations, transit authorities, transportation authorities, and other stakeholders in its development of the prioritization process pursuant to this section. C. The prioritization process developed under subsection B shall not apply to the following: projects or activities undertaken pursuant to § 33.2-352; projects funded by the Congestion Mitigation Air Quality funds apportioned to the state pursuant to 23 U.S.C. § 104(b)(4) and state matching funds; projects funded by the Highway Safety Improvement Program funds apportioned to the state pursuant to 23 U.S.C. § 104(b)(3) and state matching funds; projects funded by the Transportation Alternatives funds set-aside pursuant to 23 U.S.C. § 213 and state matching funds; projects funded by the revenue-sharing program pursuant to § 33.2-357; and projects funded by federal programs established by the federal government after June 30, 2014, with specific rules that restrict the types of projects that may be funded, excluding restrictions on the location of projects with regard to highway functional classification. The Commonwealth Transportation Board may, at its discretion, develop a prioritization process for any of the funds covered by this subsection, subject to planning and funding requirements of federal law.

D. The Commonwealth Transportation Board shall make public, in an accessible format, the results of the screening and analysis of candidate projects and strategies under subsection B, including the weighting of factors *and the criteria used to determine the value of each factor*, ~~in a timely fashion~~ *no later than 30 days prior to a vote on such projects or strategies.*

The governing body of each participating county and city shall appoint from among its members the number of commissioners to which the county or city is entitled; however, for those commissions with powers as set forth in subsection A of § 33.2-1915, the governing body of each participating county or city is not limited to appointing commissioners from among its members. In addition, the governing body may appoint, from its number or otherwise, designated alternate members for those appointed to the commission who shall be able to exercise all of the powers and duties of a commission member when the regular member is absent from commission meetings. Each such appointee shall serve at the pleasure of the appointing body; however, no appointee to a commission with powers as set forth in subsection B of § 33.2-1915 may continue to serve when he is no longer a member of the appointing body. Each governing body shall inform the commission of its appointments to and removals from the commission by delivering to the commission a certified copy of the resolution making the appointment or causing the removal.

The Chairman of the Commonwealth Transportation Board, or his designee, shall be a member of each commission, ex officio with voting privileges. The Chairman of the Commonwealth Transportation Board may appoint an alternate member who may exercise all the powers and duties of the Chairman of the Commonwealth Transportation Board when neither the Chairman of the Commonwealth Transportation Board nor his designee is present at a commission meeting.

The Potomac and Rappahannock Transportation Commission shall also include two members of the House of Delegates and one member of the Senate from legislative districts located wholly or in part within the boundaries of the transportation district. The members of the House of Delegates shall be appointed by the Speaker of the House for terms coincident with their terms of office, and the member of the Senate shall be appointed by the Senate Committee on Rules for a term coincident with his term of office. The members of the General Assembly shall be eligible for reappointment for successive terms. Vacancies occurring other than by expiration of a term shall be filled for the unexpired term. Vacancies shall be filled in the same manner as the original appointments.

The Transportation District Commission of Hampton Roads shall consist of one nonlegislative citizen member appointed by the Governor from each county and city embraced by the transportation district. However, for the gubernatorial appointments that will become effective July 1, 2016, three of the appointments shall be for initial terms of two years and three appointments shall be for terms of four years. Thereafter, all gubernatorial appointments shall be for terms of four years so as to stagger the terms of the gubernatorial appointees. The governing body of each such county or city may appoint either a member of its governing body or its county or city manager to serve as an ex officio member with voting privileges. Every such ex officio member shall be allowed to attend all meetings of the commission that other members may be required to attend. Vacancies shall be filled in the same manner as the original appointments.

~~B. Any~~ ~~The Secretary or his designee and any~~ ~~appointed member of the Northern Virginia Transportation Commission and the Secretary or his designee is~~ ~~are~~ authorized to serve as ~~a member~~ ~~members~~ of the board of directors of the Washington Metropolitan Area Transit Authority (§ 33.2-3100 et seq.) and while so serving the provisions of § 2.2-2800 shall not apply to such member. Any designee serving as the principal member must reside in a locality served by WMATA.

In selecting from its membership those members to serve on the board of directors of WMATA, the Northern Virginia Transportation Commission shall comply with the following requirements:

2. A board member shall have (i) experience in at least one of the fields of transit planning, transportation planning, or land use planning; transit or transportation management or other public sector management; engineering; finance; public safety; homeland security; human resources; or the law or (ii) knowledge of the region's transportation issues derived from working on regional transportation issue resolution.

3. A board member shall be a regular patron of the services provided by WMATA.

4. Board members shall serve a term of four years with a maximum of two consecutive terms. A board member's term or terms must coincide with his term on the body that appointed him to the Northern Virginia Transportation Commission. Any vacancy created if a board member cannot fulfill his term because his term on the appointing body has ended shall be filled for the unexpired term in the same manner as the member being replaced was appointed within 60 days of the vacancy. The initial appointments to a four-year term will be as follows: the Secretary, or his designee, for a term of four years; the second principal member for a term of three years; one alternate for a term of two years; and the remaining alternate for a term of one year. Thereafter, board members shall be appointed for terms of four years. Service on the WMATA board of directors prior to July 1, 2012, shall not be considered in determining length of service. Any person appointed to an initial one-year or two-year term, or appointed to an unexpired term in which two years or less is remaining, shall be eligible to serve two consecutive four-year terms after serving the initial or unexpired term.

5. Members may be removed from the board of directors of WMATA if they attend fewer than three-fourths of the meetings in a calendar year; if they are conflicted due to employment at WMATA; or if they are found to be in violation of the State and Local Government Conflict of Interests Act (§ 2.2-3100 et seq.). If a board member is removed during a term, the vacancy shall be filled pursuant to the provisions of subdivision 4.

6. Each member of the Northern Virginia Transportation Commission appointed to the board of directors of WMATA shall file semiannual reports with the Secretary's office beginning July 1, 2012. The reports shall include (i) the dates of attendance at WMATA board meetings, (ii) any reasons for not attending a specific meeting, and (iii) dates and attendance at other WMATA-related public events.

Any entity that provides compensation to a WMATA board member for his service on the WMATA board shall be required to submit on July 1 of each year to the Secretary the amount of that compensation. Such letter will remain on file with the Secretary's office and be available for public review.

C. When the Northern Virginia Transportation Commission and the Potomac and Rappahannock Transportation Commission enter into an agreement to operate a commuter railway, the agreement governing the creation of the railway shall provide that the Chairman of the Commonwealth Transportation Board or his designee shall have one vote on the oversight board for the railway. For each year in which the state contribution to the railway is greater than or equal to the highest contribution from an individual locality, the total annual subsidy as provided by the member localities used to determine vote weights shall be recalculated to include the Commonwealth contributing an amount equal to the highest contributing locality. The vote weights shall be recalculated to provide the Chairman of the Commonwealth Transportation Board or his designee the same weight as the highest contributing locality. The revised vote weights shall be used in determining the passage of motions before the oversight board.

D. Alcoholic beverages at government stores shall be sold by employees of the Authority who shall carry out the provisions of this title and Board regulations governing the operation of government stores and the sale of alcoholic beverages, except that the Board may appoint the holder of a distiller's license or its officers and employees as agents of the Board for the sale of spirits, manufactured by or for, or blended by such licensee on the licensed premises, at government stores established by the Board on the distiller's licensed premises.

§ 4.1-215. Limitation on manufacturers, bottlers and wholesalers; exemptions.

A. Unless exempted pursuant to subsection B, no retail license for the sale of alcoholic beverages shall be granted to any (i) manufacturer, bottler or wholesaler of alcoholic beverages, whether licensed in the Commonwealth or not; (ii) officer or director of any such manufacturer, bottler or wholesaler; (iii) partnership or corporation, where any partner or stockholder is an officer or director of any such manufacturer, bottler or wholesaler; (iv) corporation which is a subsidiary of a corporation which owns or has interest in another subsidiary corporation which is a manufacturer, bottler or wholesaler of alcoholic beverages; or (v) manufacturer, bottler or wholesaler of alcoholic beverages who has a financial interest in a corporation which has a retail license as a result of a holding company, which owns or has an interest in such manufacturer,

Notwithstanding any other provision of this title, a manufacturer of malt beverages or wine, whether licensed in the Commonwealth or not, may obtain a banquet license for a special event as provided in § 4.1-209 upon application to the Board provided that such event is (a) at a place approved by the Board and (b) conducted for the purposes of featuring and educating the consuming public about malt beverage or wine products. Such manufacturer shall be limited to no more than four banquet licenses for such special events per year. Where the event occurs on no more than three consecutive days, a manufacturer need only obtain one such license for the event.

Notwithstanding any other provision of this title, a manufacturer of distilled spirits, whether licensed in the Commonwealth or not, may obtain a banquet license for a special event as provided in subdivision A 4 of § 4.1-210 upon application to the Board, provided that such event is (1) at a place approved by the Board and (2) conducted for the purposes of featuring and educating the consuming public about the manufacturer's spirits products. Such manufacturer shall be limited to no more than four banquet licenses for such special events per year. Where the event occurs on no more than three consecutive days, a manufacturer need only obtain one such license for the event. Such banquet license shall authorize the manufacturer to give samples of spirits to any person to whom alcoholic beverages may be lawfully sold in designated areas at the special event, provided that (A) no single sample shall exceed one-half ounce per spirits product offered, *unless served as a mixed beverage, in which case a single sample may contain up to one and one-half ounces of spirits*, and (B) no more than ~~four spirits products~~ *three ounces of spirits* may be offered to any patron. 3. Farm winery licensees engaging in conduct authorized by subdivision 5 of § 4.1-207;
4. Manufacturers, bottlers or wholesalers of alcoholic beverages who do not (i) sell or otherwise furnish, directly or indirectly, alcoholic beverages or other merchandise to persons holding a retail license or banquet license as described in subsection A and (ii) require, by agreement or otherwise, such person to exclude from sale at his establishment alcoholic beverages of other manufacturers, bottlers or wholesalers;
5. Wineries, farm wineries, or breweries engaging in conduct authorized by § 4.1-209.1 or 4.1-212.1; or

C. The General Assembly finds that it is necessary and proper to require a separation between manufacturing interests, wholesale interests and retail interests in the production and distribution of alcoholic beverages in order to prevent suppliers from dominating local markets through vertical integration and to prevent excessive sales of alcoholic beverages caused by overly aggressive marketing techniques. The exceptions established by this section to the general prohibition against tied interests shall be limited to their express terms so as not to undermine the general prohibition and shall therefore be construed accordingly.

A. In order to save lives by reducing the shortage of organs and tissues for transplantation and to implement cost savings for patients and various state agencies by eliminating needless bureaucracy, there is hereby established the Virginia Donor Registry (hereinafter referred to as the Registry), which shall be created, compiled, operated, maintained, and modified as necessary by the Virginia Transplant Council in accordance with the regulations of the Board of Health and the administration of the Department of Health. At its sole discretion, the Virginia Transplant Council may contract with a third party or parties to create, compile, operate, maintain or modify the Registry. (§ 32.1-291.1 et seq.) shall be compiled, maintained, and modified as necessary in the Registry by the Virginia Transplant Council.

B. The Registry and all information therein shall be confidential and subject to access only by personnel of the Department of Health and designated organ procurement organizations, eye banks, and tissue banks, operating in or serving Virginia that are members of the Virginia Transplant Council, for the purpose of identifying and determining the suitability of a potential donor according to the provisions of subdivision B 4 of § 32.1-127 or subsection H G of § 46.2-342.

If the Department receives information from the National Change of Address System indicating that a person whose name appears in a Department record has submitted a permanent change of address to the Postal Service, the Department may then update its records with the mailing address obtained from the National Change of Address System.

D. The license shall be made of a material and in a form to be determined by the Commissioner.

~~O. Notwithstanding the foregoing provisions of this section, the Department shall continue to use the uniform donor document, as formerly set forth in subsection F, for organ donation designation until such time as a new method is fully implemented, which shall be no later than July 1, 1994. Any such uniform donor document shall, when properly executed, remain valid and shall continue to be subject to all conditions for execution, delivery, amendment, and revocation as set out in Article 2 (§ 32.1-289.2 et seq.) of Chapter 8 of Title 32.1.~~

Persons 70 years of age or older may exchange a valid Virginia driver's license for a special identification card at no fee. Special identification cards subsequently issued to such persons shall be subject to the regular fees for special identification cards.

B. The fee for the issuance of an original or renewal special identification card is \$5. The fee for the issuance of a duplicate or reissue of a special identification card is \$5. Persons 21 years old or older may be issued a scenic special identification card for an additional fee of \$5.

C. Every special identification card shall expire on the last day of the month of birth of the applicant in years in which the applicant attains an age exactly divisible by five. At no time shall any special identification card be issued for less than three nor more than seven years, except under the provisions of subsection B of § 46.2-328.1 and except that those cards issued to children under the age of 15 shall expire on the child's sixteenth birthday, thereafter the special identification card may be renewed on or before the last day of the month of birth of the applicant and shall be valid for five years, expiring in the next year in which the applicant's age is exactly divisible by five, except under the provisions of subsection B of § 46.2-328.1. Notwithstanding these limitations, the Commissioner may extend the validity period of an expiring card if (i) he Department is unable to process an application for renewal due to circumstances beyond its control, (ii) the extension has been authorized under a directive from the Governor, and (iii) the card was not issued as a temporary special identification card under the provisions of subsection B of § 46.2-328.1. However, in no event shall the validity period be extended more than 90 days per occurrence of such conditions.

D. A special identification card issued under this section may be similar in size, shape, and design to a driver's license, and include a photograph of its holder, but the card shall be readily distinguishable from a driver's license and shall clearly state that it does not authorize the person to whom it is issued to drive a motor vehicle. Every applicant for a special identification card shall appear in person before the Department to apply for a renewal, duplicate or reissue unless specifically permitted by the Department to apply in another manner.

E. Special identification cards, for persons at least 15 years old but less than 21 years old, shall be immediately and readily distinguishable from those issued to persons 21 years old or older. Distinguishing characteristics shall include unique design elements of the document and descriptors within the photograph area to identify persons who are at least 15 years old but less than 21 years old. These descriptors shall include the month, day, and year when the person will become 21 years old.

F. Special identification cards for persons under age 15 shall bear a full face photograph. The special identification card issued to persons under age 15 shall be readily distinguishable from a driver's license and from other special identification cards issued by the Department. Such cards shall clearly indicate that it does not authorize the person to whom it is issued to drive a motor vehicle.

G. Unless otherwise prohibited by law, a valid Virginia driver's license may be surrendered for a special identification card without the applicant's having to present proof of legal presence as required by § 46.2-328.1 if the Virginia driver's license is unexpired and it has not been revoked, suspended, or cancelled. The special identification card shall be considered a reissue and the expiration date shall be the last day of the month of the surrendered driver's license's month of expiration.

H. Any personal information, as identified in § 2.2-3801, which is retained by the Department from an application for the issuance of a special identification card is confidential and shall not be divulged to any person, association, corporation, or organization, public or private, except to the legal guardian or the attorney of the applicant or to a person, association, corporation, or organization nominated in writing by the applicant, his legal guardian, or his attorney. This subsection shall not prevent the Department from furnishing the application or any information thereon to any law-enforcement agency.

I. Any person who uses a false or fictitious name or gives a false or fictitious address in any application for an identification card or knowingly makes a false statement or conceals a material fact or otherwise commits a fraud in any such application shall be guilty of a Class 2 misdemeanor. However, where the name or address is given, or false statement is made, or fact is concealed, or fraud committed, with the intent to purchase a firearm or where the identification card is obtained for the purpose of committing any offense punishable as a felony, a violation of this section shall constitute a Class 4 felony.

J. The Department may promulgate regulations necessary for the effective implementation of the provisions of this section.

K. The Department shall utilize the various communications media throughout the Commonwealth to inform Virginia residents of the provisions of this section and to promote and encourage the public to take advantage of its provisions.

L. The Department shall electronically transmit application information to the Department of State Police, in a format approved by the State Police, for comparison with information contained in the Virginia Criminal Information Network and National Crime Information Center Convicted Sexual Offender Registry Files, at the time of issuance of a special identification card. Whenever it appears from the records of the State Police that a person has failed to comply with the duty to register or reregister pursuant to Chapter 9 (§ 9.1-900 et seq.) of Title 9.1, the State Police shall promptly investigate and, if there is probable cause to believe a violation has occurred, obtain a warrant or assist in obtaining an indictment charging a violation of § 18.2-472.1 in the jurisdiction in which the person made application for the special identification card.

M. When requested by the applicant, the applicant's parent if the applicant is a minor, or the applicant's guardian, and upon presentation of a signed statement by a licensed physician confirming the applicant's condition, the Department shall indicate on the applicant's special identification card that the applicant has any condition listed in subsection ~~M~~ K of § 46.2-342.

CHAPTER 137

An Act to amend and reenact § 62.1-44.19:15 of the Code of Virginia, relating to the Chesapeake Bay Watershed Nutrient Credit Exchange Program.

[S 314]

Approved March 1, 2016

Be it enacted by the General Assembly of Virginia:

1. That § 62.1-44.19:15 of the Code of Virginia is amended and reenacted as follows:

§ 62.1-44.19:15. New or expanded facilities.

A. An owner or operator of a new or expanded facility shall comply with the applicable requirements of this section as a condition of the facility's coverage under the general permit.

1. An owner or operator of a facility authorized by a Virginia Pollutant Discharge Elimination System permit first issued before July 1, 2005, that expands his facility to discharge 100,000 gallons or more per day, or an equivalent load directly into tidal waters, or 500,000 gallons or more per day, or an equivalent load, directly into nontidal waters shall demonstrate to the Department that he has acquired waste load allocations sufficient to offset any increase in his delivered total nitrogen and delivered total phosphorus loads resulting from any expansion beyond his waste load allocations or permitted design capacity as of July 1, 2005, and will install state-of-the-art nutrient removal technology at the time of the expansion.

2. An owner or operator of a facility authorized by a Virginia Pollutant Discharge Elimination System permit first issued before July 1, 2005, that expands his facility to discharge 100,000 gallons or more per day up to and including 499,999 gallons per day, or an equivalent load, directly into nontidal waters, shall demonstrate to the Department that he has acquired waste load allocations sufficient to offset any increase in his delivered total nitrogen and delivered total phosphorus loads resulting from any expansion beyond his permitted capacity as of July 1, 2005, and will install, at a minimum, biological nutrient removal technology at the time of the expansion.

3. An owner or operator of a facility authorized by a Virginia Pollutant Discharge Elimination System permit first issued before July 1, 2005, that expands his facility to discharge 40,000 gallons or more per day up to and including 99,999 gallons per day, or an equivalent load, directly into tidal or nontidal waters, shall demonstrate to the Department that he has acquired waste load allocations sufficient to offset any increase in his delivered total nitrogen and delivered total phosphorus loads resulting from any expansion beyond his permitted capacity as of July 1, 2005.

4. An owner or operator of a facility authorized by a Virginia Pollutant Discharge Elimination System permit first issued on or after July 1, 2005, to discharge 40,000 gallons or more per day, or an equivalent load, shall demonstrate to the Department that he has acquired waste load allocations sufficient to offset his delivered total nitrogen and delivered total phosphorus loads, and will install (i) at a minimum, biological nutrient removal technology at any facility authorized to discharge up to and including 99,999 gallons per day, or an equivalent load, directly into tidal and nontidal waters, or up to and including 499,999 gallons per day, or an equivalent load, to nontidal waters; and (ii) state-of-the-art nutrient removal technology at any facility authorized to discharge 100,000 gallons or more per day, or an equivalent load, directly into tidal waters, or 500,000 gallons or more per day, or an equivalent load, directly into nontidal waters.

5. An owner or operator of a facility treating domestic sewage authorized by a Virginia Pollutant Discharge Elimination System permit with a discharge greater than 1,000 gallons per day up to and including 39,999 gallons per day that has not commenced the discharge of pollutants prior to January 1, 2011, shall demonstrate to the Department that he has acquired waste load allocations sufficient to offset his delivered total nitrogen and delivered total phosphorus loads prior to commencing the discharge, except when the facility is for short-term temporary use only or when treatment of domestic sewage is not the primary purpose of the facility.

B. Waste load allocations required by this section to offset new or increased delivered total nitrogen and delivered total phosphorus loads shall be acquired in accordance with this subsection.

1. Such allocations may be acquired from one or a combination of the following:

a. Acquisition of all or a portion of the waste load allocations or point source nitrogen or point source phosphorus credits from one or more permitted facilities in the same tributary;

b. Acquisition of credits certified by the Board pursuant to § 62.1-44.19:20. Such best management practices shall achieve reductions beyond those already required by or funded under federal or state law, or the Virginia Chesapeake Bay TMDL Watershed Implementation Plan, and shall be installed in the same tributary in which the new or expanded facility is located and included as conditions of the facility's individual Virginia Pollutant Discharge Elimination System permit;

- c. Acquisition of allocations purchased through the Nutrient Offset Fund established pursuant to § 10.1-2128.2; or
- d. Acquisition of allocations through such other means as may be approved by the Department on a case-by-case basis.

e. Acquisition of credits or allocations through the implementation of best management practices on lands owned or controlled by, or under contractual obligation with, the new or expanded facility that achieve reductions greater than those currently required by or funded under federal or state law, or the Virginia Chesapeake Bay TMDL Watershed Implementation Plan, subject to the approval by the Board in accordance with standards and procedures that are consistent with those established in § 62.1-44.19:20. Any such best management practices shall be implemented on lands within the same tributary as the new or expanded facility, and any credits assigned by the Board based on those practices shall be subject to adjustment based on the relevant delivery factor, as defined in § 62.1-44.19:13.

2. Such allocations or credits shall be provided for a minimum period of five years with each registration under the general permit. This subdivision shall not preclude ~~the Board from adopting~~ longer-term or permanent ~~allocation requirements by regulation~~ allocations, except that such allocations are subject to modification by the Board where necessary to conform to the Chesapeake Bay TMDL.

3. The Board shall give priority to allocations or credits acquired in accordance with subdivisions 1 a, 1 b, and 1 d. The Board shall approve allocations acquired in accordance with subdivision 1 d only after the owner or operator has demonstrated that he has made a good faith effort to acquire sufficient allocations in accordance with subdivisions 1 a, 1 b, and 1 d and that such allocations are not reasonably available taking into account timing, cost, and other relevant factors.

4. Notwithstanding the priority provisions in subdivision 3, the Board may grant a waste load allocation in accordance with subdivision 1 d to an owner or operator of a facility authorized by a Virginia Pollution Abatement permit to land apply domestic sewage if (i) the Virginia Pollution Abatement permit was issued before July 1, 2005; (ii) the waste load allocation does not exceed such facility's permitted design capacity as of July 1, 2005; (iii) the waste treated by the existing facility is going to be treated and discharged pursuant to a Virginia Pollutant Discharge Elimination System permit for a new discharge; and (iv) the owner or operator installs state-of-the-art nutrient removal technology at such facility. Such facilities cannot generate credits or waste load allocations, based upon the removal of land application sites, that can be acquired by other permitted facilities to meet the requirements of this article.

C. Until such time as the Director finds that no allocations are reasonably available in an individual tributary, the general permit shall provide for the acquisition of allocations through payments into the Nutrient Offset Fund established in § 10.1-2128.2. Such payments shall be promptly applied by the Department to achieve equivalent point or nonpoint source reductions in the same tributary beyond those reductions already required by or funded under federal or state law or the Virginia Chesapeake Bay TMDL Watershed Implementation Plan. The general permit shall base the cost of each pound of allocation on (i) the estimated cost of achieving a reduction of one pound of nitrogen or phosphorus at the facility that is securing the allocation, or comparable facility, for each pound of allocation acquired; or (ii) the average cost of reducing two pounds of nitrogen or phosphorus from nonpoint sources in the same tributary for each pound of allocation acquired, whichever is higher. Upon each reissuance of the general permit, the Board may adjust the cost of each pound of allocation based on current costs and cost estimates.

D. The acquisition of nutrient allocations or credits from animal waste-to-energy or animal waste reduction facilities, or the acquisition of such nutrient allocations or credits from entities acting on behalf of such facilities, shall be considered point source allocations or credits for all nutrient trading purposes and shall not be subject to any otherwise applicable nonpoint source trading ratio if the best management practice being used to generate such nutrient allocations or credits is a point source nutrient removal technology. Point source nutrient removal technology shall include animal waste gasification in which lab analysis of the animal waste reveals the concentration of nutrients in the animal waste being fed into the gasifier, and the fate of the nutrients during the animal waste gasification process, is known and documented using studies such as air emissions tests and ash analyses.

CHAPTER 138

Be it enacted by the General Assembly of Virginia:

1. § 1. *The Interstate 66 bridge in Warren County over Route 624 is hereby designated the "Trooper Harry Lee Henderson Memorial Bridge." CHAPTER 139

An Act to amend and reenact § 33.2-209 of the Code of Virginia, relating to Request for Proposal for design-build projects.

[S 465]

Approved March 1, 2016

Be it enacted by the General Assembly of Virginia:

1. That § 33.2-209 of the Code of Virginia is amended and reenacted as follows:

§ 33.2-209. Construction and maintenance contracts and activities related to passenger and freight rail and public transportation.

A. The Board shall have the power and duty to let all contracts to be administered by the Department of Transportation or the Department of Rail and Public Transportation for the construction, maintenance, and improvement of the highways comprising systems of state highways and for all activities related to passenger and freight rail and public transportation in excess of \$5 million. The Commissioner of Highways has authority to let all Department of Transportation-administered contracts for highway construction, maintenance, and improvements up to \$5 million in value. The Director of the Department of Rail and Public Transportation has the authority to let contracts for passenger and freight rail and public transportation improvements up to \$5 million in value. The Commissioner of Highways is authorized to enter into agreements with localities, authorities, and transportation districts to administer projects and to allow those localities, authorities, and transportation districts to let contracts with no limit on contract value and without prior concurrence of the Commissioner of Highways or the Board for highway construction, maintenance, and improvements within their jurisdictions, in accordance with those provisions of this Code providing those localities, authorities, and transportation districts the ability to let such contracts. The Director of the Department of Rail and Public Transportation is authorized to enter into agreements with localities, authorities, and transportation districts to administer projects and to allow those localities, authorities, and transportation districts to let contracts with no limit on contract value and without prior concurrence of the Director of the Department of Rail and Public Transportation or the Board for passenger and freight rail and public transportation activities within their jurisdictions, in accordance with those provisions of this Code providing those localities, authorities, and transportation districts the ability to let such contracts. The Commissioner of Highways and the Director of the Department of Rail and Public Transportation shall report on their respective transportation contracting activities at least quarterly to the Board.

B. The Board may award contracts for the construction of transportation projects on a design-build basis. These contracts may be awarded after a written determination is made by the Commissioner of Highways or the Director of the Department of Rail and Public Transportation, pursuant to objective criteria previously adopted by the Board regarding the use of design-build, that delivery of the projects must be expedited and that it is not in the public interest to comply with the design and construction contracting procedures normally followed. Such objective criteria shall include requirements for prequalification of contractors and competitive bidding processes. These contracts shall be of such size and scope to encourage maximum competition and participation by agency prequalified and otherwise qualified contractors. Such determination shall be retained for public inspection in the official records of the Department of Transportation or the Department of Rail and Public Transportation, as the case may be, and shall include a description of the nature and scope of the project and the reasons for the Commissioner's or the Director's determination that awarding a design-build contract will best serve the public interest. *A Request for Proposal for transportation projects to be delivered on a design-build basis pursuant to this section may allow for the submission and consideration of alternative technical concepts in accordance with the procedures set forth in such Request for Proposal.* The provisions of this section shall supersede contrary provisions of subsection D of § 2.2-4303 and § 2.2-4306.

For the purposes of this subsection, "alternative technical concepts" means proposed changes to agency-supplied base design configurations, project scope, design, or construction criteria that provide a solution that is equal to or better than the requirements in the Request for Proposal.

C. The Board may award contracts for the provision of equipment, materials, and supplies to be used in construction of transportation projects on a fixed-price basis. Any such contract may provide that the price to be paid for the provision of equipment, materials, and supplies to be furnished in connection with the projects shall not be increased but shall remain fixed until completion of the projects specified in the contracts. Material components of any such contract for annual and multiyear programs, including maintenance, may be fixed at the outset of the projects and until completion based on best achievable prices.

CHAPTER 140

An Act to amend and reenact § 4.1-235 of the Code of Virginia, relating to alcoholic beverage control; distribution of liter tax on cider produced by farm wineries.

[S 569]

Approved March 1, 2016

Be it enacted by the General Assembly of Virginia:

1. That § 4.1-235 of the Code of Virginia is amended and reenacted as follows:

§ 4.1-235. Collection; computation, distribution of tax on wine and other alcoholic beverages; refunds and adjustments.

A. The Board shall collect the state taxes levied pursuant to §§ 4.1-213 and 4.1-234 as follows:

1. Collection shall be from the purchaser at the time of or prior to sale, except as to sales made to wholesale wine licensees. Wholesale wine licensees shall collect the taxes at the time of or prior to sale to retail licensees, and shall remit such taxes monthly to the Board, along with such reports as may be required by the Board, at the time and in the manner prescribed by the Board.

2. In establishing the prices for items sold by it to persons other than wholesale licensees, the Board shall include a reasonable markup. The liter tax or 20 percent tax, as appropriate, shall then be added to the price of each container of alcoholic beverages. The four percent tax on vermouth and farm winery wines *and ciders* shall then be added for those products. In all cases the final price for each container may be established so as to be a multiple of five or rounded to end with a nine.

In accounting for the state tax on sales the Board shall divide the net sales for the quarter by 1.20 and multiply the result by 20 percent. As to the sale of vermouth and farm winery wine *and cider*, the Board shall divide the net sales for the quarter by 1.04 and multiply the result by four percent.

B. The amount of tax collected under this section during each quarter shall, within 50 days after the close of such quarter, be certified to the Comptroller by the Board and shall be transferred by him from the special fund described in § 4.1-116 to the general fund of the state treasury. The Board shall, not later than June 20 of every year, estimate the yield of the state tax on sales imposed by §§ 4.1-213 and 4.1-234 for the quarter ending June 30 and certify the amount of such estimate to the Comptroller, whereupon the Comptroller shall, before the end of the month, transfer the amount of such estimate from the special fund described in § 4.1-116 to the general fund of the state treasury, subject to such adjustment on account of an overestimate or underestimate as may be indicated within 50 days after the close of the quarter ending on June 30.

Forty-four percent of the amount derived from the liter tax levied pursuant to §§ 4.1-213 and 4.1-234 shall be transferred to the general fund and paid to the several counties, cities, and towns of the Commonwealth in proportion to their respective populations, and is appropriated for such purpose.

The counties, cities, and towns shall in no event receive from the taxes derived from the sale of wines less revenue than was received by such counties, cities, and towns for the year ending June 30, 1976.

The portion of wine liter tax *and cider markup* collected pursuant to §§ 4.1-213 and 4.1-234 that is attributable to the sale of wine *and cider* produced by a farm winery shall be deposited in the Virginia Wine Promotion Fund established pursuant to § 3.2-3005.

Twelve percent of the amount derived from the liter tax levied shall be retained by the Board as operating revenue and distributed as provided in § 4.1-117.

C. As used in this section, the term "net sales" means gross sales less refunds to customers.

D. The Board may make a refund or adjustment of any tax paid to it under this section when (i) the wine upon which such tax has been paid has been condemned and is not permitted to be sold in the Commonwealth, or (ii) wine is returned by a retail licensee to a wholesale wine licensee for refund in accordance with Board regulations or approval. Any claim for such refund or adjustment shall be made to the Board in the report filed with the Board by the wholesale wine licensee for the period in which such return and refund occurs.

CHAPTER 141

An Act to amend and reenact §§ 4.1-119, as it is currently effective and as it shall become effective, and 4.1-215 of the Code of Virginia, relating to alcoholic beverage control; spirits tastings by distiller licensee.

[S 536]

Approved March 1, 2016

Be it enacted by the General Assembly of Virginia:

1. That §§ 4.1-119, as it is currently effective and as it shall become effective, and 4.1-215 of the Code of Virginia are amended and reenacted as follows:

§ 4.1-119. (Effective until July 1, 2018) Operation of government stores.

A. Subject to the requirements of §§ 4.1-121 and 4.1-122, the Board may establish, maintain and operate government stores for the sale of alcoholic beverages, other than beer and wine not produced by farm wineries, vermouth, mixers, and products used in connection with distilled spirits, including any garnish or garnishment applied to the rim of a glass of distilled spirits, as may be approved by the Board from time to time, in such counties, cities, and towns considered advisable by the Board. The Board may discontinue any such store.

B. With respect to the sale of wine produced by farm wineries, the Board may give preference to farm wineries that produce 2,500 cases or less of wine per year.

C. The Board shall fix the wholesale and retail prices at which the various classes, varieties and brands of alcoholic beverages and other Board-approved products that are sold in government stores. Differences in the cost of operating stores, and market competition and conditions may be reflected in the sale price of alcoholic beverages sold at government stores. The Board may sell alcoholic beverages to federal instrumentalities (i) authorized and operating under the laws of the United States and regulations of the United States Department of Defense and (ii) located within the boundaries of federal enclaves or reservations over which the United States has acquired jurisdiction, at prices which may be greater or less than the wholesale price charged other authorized purchasers.

D. Alcoholic beverages at government stores shall be sold by employees of the Board, who shall carry out the provisions of this title and Board regulations governing the operation of government stores and the sale of alcoholic beverages, except that the Board may appoint the holder of a distiller's license or its officers and employees as agents of the Board for the sale of spirits, manufactured by or for, or blended by such licensee on the licensed premises, at government stores established by the Board on the distiller's licensed premises.

Such agents shall sell the spirits in accordance with the provisions of this title, Board regulations, and the terms of the agency agreement between the Board and the licensed distiller.

For the purposes of this subsection, "blended" means the receipt by a licensed distiller of deliveries and shipments of alcoholic beverages, other than wine and beer, in accordance with subdivision 6 of § 4.1-201 to be (i) additionally aged by the receiving distillery in order to increase the quality and flavor of such alcoholic beverages and (ii) bottled by the receiving distillery.

E. No Class 1 neutral grain spirit or alcohol, as defined by federal regulations, that is without distinctive character, aroma, taste or color shall be sold in government stores at a proof greater than 101 except upon permits issued by the Board for industrial, commercial, culinary, or medical use.

F. All alcoholic beverages sold in government stores, except for tasting samples pursuant to subsection G sold in government stores established by the Board on a distiller's licensed premises, shall be in closed containers, sealed and affixed with labels prescribed by the Board.

G. No alcoholic beverages shall be consumed in a government store by any person unless it is part of an organized tasting event conducted by (i) an employee of a manufacturer of distilled spirits or farm winery or (ii) an authorized representative of a manufacturer of distilled spirits or farm winery with a permit issued by the Board pursuant to subdivision A 15 of § 4.1-212, ~~and~~ at which the samples of alcoholic beverages provided to any consumer do not exceed the limits for spirits or wine set forth in subdivision A 5 of § 4.1-201.1. No sample may be consumed by any individual to whom alcoholic beverages may not lawfully be sold pursuant to § 4.1-304.

Notwithstanding the provision of this subsection to the contrary, an agent of the Board appointed pursuant to subsection D may give samples of *spirits*, beer, wine, or cider to persons to whom alcoholic beverages may be lawfully sold for on-premises consumption, provided that (i) the *spirits*, beer, wine, or cider samples are manufactured within the same licensed premises or on contiguous premises of such agent licensed as a *distillery*, brewery, or winery; (ii) no single sample shall exceed four ounces of beer, two ounces of wine, or one-half ounce of spirits, *unless served as a mixed beverage, in which case a single sample may contain up to one and one-half ounces of spirits*; ~~and~~ (iii) no more than four total samples of alcoholic beverage products *or, in the case of spirits samples, no more than three ounces of spirits* shall be given or sold to any person per day; *and (iv) in the case of spirits samples, a method is used to track the consumption of each consumer.* Nothing in this paragraph shall prohibit such agent from serving samples of spirits as *part of a mixed beverage.*

The Board shall establish guidelines governing tasting events conducted pursuant to this subsection.

H. With respect to purchases by licensees at government stores, the Board shall (i) accept in payment for any purchase or series of purchases cash, electronic fund transfer, credit or debit card, or check payable to the Board, in the exact amount of any such purchase or series of purchases and (ii) provide notice to licensees on Board policies relating to the assignment of government stores from which licensees may purchase products and any procedure for the licensee to elect to make purchases from an alternative government store.

I. With respect to purchases by consumers at government stores, the Board shall accept cash in payment for any purchase or series of purchases. The Board may adopt regulations which provide for accepting a credit card or debit card as payment. Such regulations may provide for the collection, where appropriate, of related fees, penalties and service charges for the use of a credit card or debit card by any consumer.

§ 4.1-119. (Effective July 1, 2018) Operation of government stores.

A. Subject to the requirements of §§ 4.1-121 and 4.1-122, the Board may establish, maintain and operate government stores for the sale of alcoholic beverages, other than beer and wine not produced by farm wineries, vermouth, mixers, and products used in connection with distilled spirits, including any garnish or garnishment applied to the rim of a glass of distilled spirits, as may be approved by the Board from time to time, in such counties, cities, and towns considered advisable by the Board. The Board may discontinue any such store.

B. With respect to the sale of wine produced by farm wineries, the Board may give preference to farm wineries that produce 2,500 cases or less of wine per year.

C. The Board shall fix the wholesale and retail prices at which the various classes, varieties and brands of alcoholic beverages and other Board-approved products that are sold in government stores. Differences in the cost of operating stores, and market competition and conditions may be reflected in the sale price of alcoholic beverages sold at government stores. The Board may sell alcoholic beverages to federal instrumentalities (i) authorized and operating under the laws of the

United States and regulations of the United States Department of Defense and (ii) located within the boundaries of federal enclaves or reservations over which the United States has acquired jurisdiction, at prices which may be greater or less than the wholesale price charged other authorized purchasers. Nothing in this subsection shall be construed to limit the authority of the Board to fix the retail price of alcoholic beverages sold at government stores, which retail price may include promotional, volume, or other discounts deemed appropriate by the Board.

D. Alcoholic beverages at government stores shall be sold by employees of the Authority who shall carry out the provisions of this title and Board regulations governing the operation of government stores and the sale of alcoholic beverages, except that the Board may appoint the holder of a distiller's license or its officers and employees as agents of the Board for the sale of spirits, manufactured by or for, or blended by such licensee on the licensed premises, at government stores established by the Board on the distiller's licensed premises.

Such agents shall sell the spirits in accordance with the provisions of this title, Board regulations, and the terms of the agency agreement between the Authority and the licensed distiller.

For the purposes of this subsection, "blended" means the receipt by a licensed distiller of deliveries and shipments of alcoholic beverages, other than wine and beer, in accordance with subdivision 6 of § 4.1-201 to be (i) additionally aged by the receiving distillery in order to increase the quality and flavor of such alcoholic beverages and (ii) bottled by the receiving distillery.

E. Notwithstanding any other provision of this title, a manufacturer of malt beverages or wine, whether licensed in the Commonwealth or not, may obtain a banquet license for a special event as provided in § 4.1-209 upon application to the Board provided that such event is (a) at a place approved by the Board and (b) conducted for the purposes of featuring and educating the consuming public about malt beverage or wine products. Such manufacturer shall be limited to no more than four banquet licenses for such special events per year. Where the event occurs on no more than three consecutive days, a manufacturer need only obtain one such license for the event.

Notwithstanding any other provision of this title, a manufacturer of distilled spirits, whether licensed in the Commonwealth or not, may obtain a banquet license for a special event as provided in subdivision A 4 of § 4.1-210 upon application to the Board, provided that such event is (1) at a place approved by the Board and (2) conducted for the purposes of featuring and educating the consuming public about the manufacturer's spirits products. C. The General Assembly finds that it is necessary and proper to require a separation between manufacturing interests, wholesale interests and retail interests in the production and distribution of alcoholic beverages in order to prevent suppliers from dominating local markets through vertical integration and to prevent excessive sales of alcoholic beverages caused by overly aggressive marketing techniques. The exceptions established by this section to the general prohibition against tied interests shall be limited to their express terms so as not to undermine the general prohibition and shall therefore be construed accordingly.

CHAPTER 146

An Act to amend and reenact § 22.1-253.13:1 of the Code of Virginia, relating to public schools; physical activity requirement.

[H 357]

Approved March 1, 2016

Be it enacted by the General Assembly of Virginia:

1. That § 22.1-253.13:1 of the Code of Virginia is amended and reenacted as follows:

§ 22.1-253.13:1. Standard 1. Instructional programs supporting the Standards of Learning and other educational objectives.

A. The General Assembly and the Board of Education believe that the fundamental goal of the public schools of the Commonwealth must be to enable each student to develop the skills that are necessary for success in school, preparation for life, and reaching their full potential. The General Assembly and the Board of Education find that the quality of education is dependent upon the provision of (i) the appropriate working environment, benefits, and salaries necessary to ensure the availability of high-quality instructional personnel; (ii) the appropriate learning environment designed to promote student achievement; (iii) quality instruction that enables each student to become a productive and educated citizen of Virginia and the United States of America; and (iv) the adequate commitment of other resources. In keeping with this goal, the General

Assembly shall provide for the support of public education as set forth in Article VIII, Section 1 of the Constitution of Virginia.

B. The Board of Education shall establish educational objectives known as the Standards of Learning, which shall form the core of Virginia's educational program, and other educational objectives, which together are designed to ensure the development of the skills that are necessary for success in school and for preparation for life in the years beyond. At a minimum, the Board shall establish Standards of Learning for English, mathematics, science, and history and social science. The Standards of Learning shall not be construed to be regulations as defined in § 2.2-4001.

The Board shall seek to ensure that the Standards of Learning are consistent with a high-quality foundation educational program. The Standards of Learning shall include, but not be limited to, the basic skills of communication (listening, speaking, reading, and writing); computation and critical reasoning, including problem solving and decision making; proficiency in the use of computers and related technology; and the skills to manage personal finances and to make sound financial decisions.

The English Standards of Learning for reading in kindergarten through grade three shall be based on components of effective reading instruction, to include, at a minimum, phonemic awareness, phonics, fluency, vocabulary development, and text comprehension.

The Standards of Learning in all subject areas shall be subject to regular review and revision to maintain rigor and to reflect a balance between content knowledge and the application of knowledge in preparation for eventual employment and lifelong learning. The Board of Education shall establish a regular schedule, in a manner it deems appropriate, for the review, and revision as may be necessary, of the Standards of Learning in all subject areas. Such review of each subject area shall occur at least once every seven years. Nothing in this section shall be construed to prohibit the Board from conducting such review and revision on a more frequent basis.

To provide appropriate opportunity for input from the general public, teachers, and local school boards, the Board of Education shall conduct public hearings prior to establishing revised Standards of Learning. Thirty days prior to conducting such hearings, the Board shall give notice of the date, time, and place of the hearings to all local school boards and any other persons requesting to be notified of the hearings and publish notice of its intention to revise the Standards of Learning in the Virginia Register of Regulations. Interested parties shall be given reasonable opportunity to be heard and present information prior to final adoption of any revisions of the Standards of Learning.

In addition, the Department of Education shall make available and maintain a website, either separately or through an existing website utilized by the Department of Education, enabling public elementary, middle, and high school educators to submit recommendations for improvements relating to the Standards of Learning, when under review by the Board according to its established schedule, and related assessments required by the Standards of Quality pursuant to this chapter. Such website shall facilitate the submission of recommendations by educators.

School boards shall implement the Standards of Learning or objectives specifically designed for their school divisions that are equivalent to or exceed the Board's requirements. Students shall be expected to achieve the educational objectives established by the school division at appropriate age or grade levels. The curriculum adopted by the local school division shall be aligned to the Standards of Learning.

The Board of Education shall include in the Standards of Learning for history and social science the study of contributions to society of diverse people. For the purposes of this subsection, "diverse" includes consideration of disability, ethnicity, race, and gender.

The Board of Education shall include in the Standards of Learning for health instruction in emergency first aid, cardiopulmonary resuscitation, and the use of an automated external defibrillator, including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation. Such instruction shall be based on the current national evidence-based emergency cardiovascular care guidelines for cardiopulmonary resuscitation and the use of an automated external defibrillator, such as a program developed by the American Heart Association or the American Red Cross. No teacher who is in compliance with subdivision D 5 of § 22.1-298.1 shall be required to be certified as a trainer of cardiopulmonary resuscitation to provide instruction for non-certification.

With such funds as are made available for this purpose, the Board shall regularly review and revise the competencies for career and technical education programs to require the full integration of English, mathematics, science, and history and social science Standards of Learning. Career and technical education programs shall be aligned with industry and professional standard certifications, where they exist.

C. Local school boards shall develop and implement a program of instruction for grades K through 12 that is aligned to the Standards of Learning and meets or exceeds the requirements of the Board of Education. Local school boards shall also develop and implement programs of prevention, intervention, or remediation for students who are educationally at risk including, but not limited to, those who fail to achieve a passing score on any Standards of Learning assessment in grades three through eight or who fail an end-of-course test required for the award of a verified unit of credit. Upon making such commitments to the Governor and the General Assembly by August 1, 2005, the public institution of higher education shall be allowed to exercise the restructured financial and operational authority set forth in subdivisions A 1 through A 13, subject to such conditions as may be provided under the enabling statutes granting the additional authority.

C. As provided in § 23-9.6:1.01, the State Council of Higher Education shall in consultation with the respective chairmen of the House Committees on Education and Appropriations and the Senate Committees on Finance and Education and Health or their designees, representatives of public institutions of higher education, and such other state officials as may be designated by the Governor, develop objective measures of educational-related performance and institutional performance benchmarks for such objective measures. At a minimum, the State Council shall develop such objective measures and institutional performance benchmarks for the goals and objectives set forth in subdivisions B 1 through B 10 and B 12. In addition, the Governor shall develop objective measures of financial and administrative management performance and related institutional performance benchmarks for the goals and objectives set forth in subdivision B 11.

As provided in subsection C of § 23-9.6:1.01, any public institution of higher education that has been certified during the fiscal year by the State Council of Higher Education for Virginia as meeting the institutional performance benchmarks in effect for the fiscal year as set forth in the general appropriation act shall be provided the financial benefits under § 2.2-5005. Such benefits shall first be provided as determined under such section. Objective criteria for measuring performance with regard to the state goals and objectives developed pursuant to subsection B, and benefits or consequences for meeting or not meeting those goals and objectives, shall be developed as provided in subdivision B 5 of § 23-38.87:20.

D. 1. The restructured financial and operational authority set forth in ~~Article~~ *Subchapter 3* (§ 23-38.91 et seq.) shall only be granted in accordance with the expressed terms of a management agreement between the public institution of higher education and the Commonwealth.

No restructured financial or operational authority set forth in ~~Article~~ *Subchapter 3* (§ 23-38.91 et seq.) shall be granted to a public institution of higher education unless such authority is expressly included in the management agreement. In addition, the only implied authority that shall be granted from entering into a management agreement is that implied authority that is actually necessary to carry out the expressed grant of restructured financial or operational authority. As a matter of law, the initial presumption shall be that any restructured financial or operational authority set forth in ~~Article~~ *Subchapter 3* (§ 23-38.91 et seq.) is not included in the management agreement. These requirements shall also apply to any other provision included in ~~Article~~ *Subchapter 3* (§ 23-38.91 et seq.).

2. No public institution of higher education shall enter into a management agreement unless:

a. (i) Its most current and unenhanced bond rating received from (a) Moody's Investors Service, Inc., (b) Standard & Poor's, Inc., or (c) Fitch Investor's Services, Inc. is at least AA- (i.e., AA minus) or its equivalent, provided that such bond rating has been received within the last three years of the date that the initial agreement is entered into or (ii) the institution has (a) participated in decentralization pilot programs in the areas of finance and capital outlay, (b) demonstrated management competency in those two areas as evidenced by a written certification from the Cabinet Secretary or Secretaries designated by the Governor, (c) received additional operational authority under a memorandum of understanding pursuant to § 23-38.90 in at least one functional area, and (d) demonstrated management competency in that area for a period of at least two years. In submitting "The Budget Bill" for calendar year 2005 pursuant to subsection A of § 2.2-1509, the Governor shall include criteria for determining whether or not an institution has demonstrated the management competency required by clause (ii);

b. An absolute two-thirds, or more, of the institution's governing body shall have voted in the affirmative for a resolution expressing the sense of the body that the institution is qualified to be, and should be, governed by the provisions of ~~Article~~ *Subchapter 3* (§ 23-38.91 et seq.), which resolution shall be included in the initial management agreement;

c. The institution agrees to reimburse the Commonwealth for any additional costs to the Commonwealth in providing health or other group insurance benefits to employees, and in undertaking any risk management program, that are attributable to the institution's exercise of any restructured financial or operational authority set forth in ~~Article~~ *Subchapter 3* (§ 23-38.91 et seq.). The institution's agreement to reimburse the Commonwealth for such additional costs shall be expressly included in each management agreement with the institution. The Secretary of Finance and the Secretary of Administration, in consultation with the Virginia Retirement System and the affected institutions, shall establish procedures for determining any amounts to be paid by each institution and a mechanism for transferring the appropriate amounts directly and solely to the programs whose costs have been affected.

In developing management agreements, public institutions of higher education shall give consideration to potential future impacts of tuition increases on the Virginia College Savings Plan (§ 23-38.75) and shall discuss such potential impacts with parties participating in development of such agreements. The chief executive officer of the Virginia College Savings Plan shall provide to the institution and such parties the Plan's assumptions underlying the contract pricing of the program; and

d. Before executing a management agreement with the Commonwealth that affects insurance or benefit programs administered by the Virginia Retirement System, the Governor shall transmit a draft of the relevant provisions to the Board of Trustees of the Virginia Retirement System, which shall review the relevant provisions in order to ensure compliance with the applicable provisions of Title 51.1, administrative policies and procedures and federal regulations governing retirement plans. The Board shall advise the Governor and appropriate Cabinet Secretaries of any conflicts.

3. Each initial management agreement with an institution shall remain in effect for a period of three years. Subsequent management agreements with the institution shall remain in effect for a period of five years.

If an existing agreement is not renewed or a new agreement executed prior to the expiration of the three-year or five-year term, as applicable, the existing agreement shall remain in effect on a provisional basis for a period not to exceed one year. If, after the expiration of the provisional one-year period, the management agreement has not been renewed or a new agreement executed, the institution shall no longer be granted any of the financial or operational authority set forth in ~~Article~~ *Subchapter 3* (§ 23-38.91 et seq.), unless and until such time as a new management agreement is entered into between the institution and the Commonwealth.

The Joint Legislative Audit and Review Commission, in cooperation with the Auditor of Public Accounts, shall conduct a review relating to the initial management agreement with each public institution of higher education. The review shall cover a period of at least the first 24 months from the effective date of the management agreement. The review shall include, but shall not be limited to, the degree of compliance with the expressed terms of the management agreement, the degree to which the institution has demonstrated its ability to manage successfully the administrative and financial operations of the institution without jeopardizing the financial integrity and stability of the institution, the degree to which the institution is meeting the objectives described in subsection B, and any related impact on students and employees of the institution from execution of the management agreement. The Joint Legislative Audit and Review Commission shall make a written report of its review no later than June 30 of the third year of the management agreement. The Joint Legislative Audit and Review Commission is authorized, but not required, to conduct a similar review of any management agreement entered into subsequent to the initial agreement.

4. The right and power by the Governor to void a management agreement shall be expressly included in each management agreement. The management agreement shall provide that if the Governor makes a written determination that a public institution of higher education that has entered into a management agreement with the Commonwealth is not in substantial compliance with the terms of the agreement or with the requirements of this chapter in general, (i) the Governor shall provide a copy of that written determination to the chairmen of the Board of Visitors or other governing body of the public institution of higher education and to the members of the General Assembly, and (ii) the institution shall develop and implement a plan of corrective action, satisfactory to the Governor, for purposes of coming into substantial compliance with the terms of the management agreement and with the requirements of this chapter, as soon as practicable, and shall provide a copy of such corrective action plan to the members of the General Assembly. If after a reasonable period of time after the corrective action plan has been implemented by the institution, the Governor determines that the institution is not yet in substantial compliance with the management agreement or the requirements of this chapter, the Governor may void the management agreement. Upon the Governor voiding a management agreement, the affected public institution of higher education shall not be allowed to exercise any restructured financial or operational authority pursuant to the provisions of ~~Article Subchapter 3~~ *Article Subchapter 3* (§ 23-38.91 et seq.) unless and until the institution enters into a subsequent management agreement with the Secretary or Secretaries designated by the Governor or the void management agreement is reinstated by the General Assembly.

5. A management agreement with a public institution of higher education shall not grant any of the restructured financial or operational authority set forth in ~~Article Subchapter 3~~ *Article Subchapter 3* (§ 23-38.91 et seq.) to the Virginia Cooperative Extension and Agricultural Experiment Station, the University of Virginia College at Wise, or the Virginia Institute of Marine Sciences or to an affiliated entity of the institution unless such intent, as well as the degree of the restructured financial or operational authority to be granted, is expressly included in the management agreement.

6. Following the execution of each management agreement with a public institution of higher education and submission of that management agreement to the Chairmen of the House Committee on Appropriations, the House Committee on Education, the Senate Committee on Finance, and the Senate Committee on Education and Health pursuant to § 23-38.97, the Governor shall include a recommendation for approval of the management agreement in "The Budget Bill" submitted pursuant to subsection A of § 2.2-1509 or in his gubernatorial amendments submitted pursuant to subsection E of § 2.2-1509 due by the December 20 that immediately follows the date of submission of the management agreement to such Committees. Following the General Assembly's consideration of whether to approve or disapprove the management agreement as recommended, if the management agreement is approved as part of the general appropriation act, it shall become effective on the effective date of such general appropriation act. However, no management agreement shall be entered into by a public institution of higher education and the Secretary or Secretaries designated by the Governor after November 15 of a calendar year.

E. A covered institution and the members of its governing body, officers, directors, employees, and agents shall be entitled to the same sovereign immunity to which they would be entitled if the institution were not governed by this chapter; provided further, that the Virginia Tort Claims Act (§ 8.01-195.1 et seq.) and its limitations on recoveries shall remain applicable with respect to institutions governed by this chapter.

CHAPTER 155

An Act to amend and reenact § 22.1-253.13:1 of the Code of Virginia, relating to public schools; physical activity requirement.

[S 211]

Approved March 1, 2016

Be it enacted by the General Assembly of Virginia:**1. That § 22.1-253.13:1 of the Code of Virginia is amended and reenacted as follows:****§ 22.1-253.13:1. Standard 1. Instructional programs supporting the Standards of Learning and other educational objectives.**

A. The General Assembly and the Board of Education believe that the fundamental goal of the public schools of the Commonwealth must be to enable each student to develop the skills that are necessary for success in school, preparation for life, and reaching their full potential. The General Assembly and the Board of Education find that the quality of education is dependent upon the provision of (i) the appropriate working environment, benefits, and salaries necessary to ensure the availability of high-quality instructional personnel; (ii) the appropriate learning environment designed to promote student achievement; (iii) quality instruction that enables each student to become a productive and educated citizen of Virginia and the United States of America; and (iv) the adequate commitment of other resources. In keeping with this goal, the General Assembly shall provide for the support of public education as set forth in Article VIII, Section 1 of the Constitution of Virginia.

B. The Board of Education shall establish educational objectives known as the Standards of Learning, which shall form the core of Virginia's educational program, and other educational objectives, which together are designed to ensure the development of the skills that are necessary for success in school and for preparation for life in the years beyond. At a minimum, the Board shall establish Standards of Learning for English, mathematics, science, and history and social science. The Standards of Learning shall not be construed to be regulations as defined in § 2.2-4001.

The Board shall seek to ensure that the Standards of Learning are consistent with a high-quality foundation educational program. The Standards of Learning shall include, but not be limited to, the basic skills of communication (listening, speaking, reading, and writing); computation and critical reasoning, including problem solving and decision making; proficiency in the use of computers and related technology; and the skills to manage personal finances and to make sound financial decisions.

The English Standards of Learning for reading in kindergarten through grade three shall be based on components of effective reading instruction, to include, at a minimum, phonemic awareness, phonics, fluency, vocabulary development, and text comprehension.

The Standards of Learning in all subject areas shall be subject to regular review and revision to maintain rigor and to reflect a balance between content knowledge and the application of knowledge in preparation for eventual employment and lifelong learning. The Board of Education shall establish a regular schedule, in a manner it deems appropriate, for the review, and revision as may be necessary, of the Standards of Learning in all subject areas. Such review of each subject area shall occur at least once every seven years. Nothing in this section shall be construed to prohibit the Board from conducting such review and revision on a more frequent basis.

To provide appropriate opportunity for input from the general public, teachers, and local school boards, the Board of Education shall conduct public hearings prior to establishing revised Standards of Learning. Thirty days prior to conducting such hearings, the Board shall give notice of the date, time, and place of the hearings to all local school boards and any other persons requesting to be notified of the hearings and publish notice of its intention to revise the Standards of Learning in the Virginia Register of Regulations. Interested parties shall be given reasonable opportunity to be heard and present information prior to final adoption of any revisions of the Standards of Learning.

In addition, the Department of Education shall make available and maintain a website, either separately or through an existing website utilized by the Department of Education, enabling public elementary, middle, and high school educators to submit recommendations for improvements relating to the Standards of Learning, when under review by the Board according to its established schedule, and related assessments required by the Standards of Quality pursuant to this chapter. Such website shall facilitate the submission of recommendations by educators.

School boards shall implement the Standards of Learning or objectives specifically designed for their school divisions that are equivalent to or exceed the Board's requirements. Students shall be expected to achieve the educational objectives established by the school division at appropriate age or grade levels. The curriculum adopted by the local school division shall be aligned to the Standards of Learning.

The Board of Education shall include in the Standards of Learning for history and social science the study of contributions to society of diverse people. For the purposes of this subsection, "diverse" includes consideration of disability, ethnicity, race, and gender.

The Board of Education shall include in the Standards of Learning for health instruction in emergency first aid, cardiopulmonary resuscitation, and the use of an automated external defibrillator, including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation. Such instruction shall be based on the current national evidence-based emergency cardiovascular care guidelines for cardiopulmonary resuscitation and the use of an automated external

defibrillator, such as a program developed by the American Heart Association or the American Red Cross. No teacher who is in compliance with subdivision D 5 of § 22.1-298.1 shall be required to be certified as a trainer of cardiopulmonary resuscitation to provide instruction for non-certification.

With such funds as are made available for this purpose, the Board shall regularly review and revise the competencies for career and technical education programs to require the full integration of English, mathematics, science, and history and social science Standards of Learning. Career and technical education programs shall be aligned with industry and professional standard certifications, where they exist.

C. Local school boards shall develop and implement a program of instruction for grades K through 12 that is aligned to the Standards of Learning and meets or exceeds the requirements of the Board of Education. The program of instruction shall emphasize reading, writing, speaking, mathematical concepts and computations, proficiency in the use of computers and related technology, and scientific concepts and processes; essential skills and concepts of citizenship, including knowledge of Virginia history and world and United States history, economics, government, foreign languages, international cultures, health and physical education, environmental issues, and geography necessary for responsible participation in American society and in the international community; fine arts, which may include, but need not be limited to, music and art, and practical arts; knowledge and skills needed to qualify for further education, gainful employment, or training in a career or technical field; and development of the ability to apply such skills and knowledge in preparation for eventual employment and lifelong learning and to achieve economic self-sufficiency.

Local school boards shall also develop and implement programs of prevention, intervention, or remediation for students who are educationally at risk including, but not limited to, those who fail to achieve a passing score on any Standards of Learning assessment in grades three through eight or who fail an end-of-course test required for the award of a verified unit of credit. Such programs shall include components that are research-based.

Any student who achieves a passing score on one or more, but not all, of the Standards of Learning assessments for the relevant grade level in grades three through eight may be required to attend a remediation program.

Any student who fails to achieve a passing score on all of the Standards of Learning assessments for the relevant grade level in grades three through eight or who fails an end-of-course test required for the award of a verified unit of credit shall be required to attend a remediation program or to participate in another form of remediation. Division superintendents shall require such students to take special programs of prevention, intervention, or remediation, which may include attendance in public summer school programs, in accordance with clause (ii) of subsection A of § 22.1-254 and § 22.1-254.01.

Remediation programs shall include, when applicable, a procedure for early identification of students who are at risk of failing the Standards of Learning assessments in grades three through eight or who fail an end-of-course test required for the award of a verified unit of credit. Such programs may also include summer school for all elementary and middle school grades and for all high school academic courses, as defined by regulations promulgated by the Board of Education, or other forms of remediation. Summer school remediation programs or other forms of remediation shall be chosen by the division superintendent to be appropriate to the academic needs of the student. Students who are required to attend such summer school programs or to participate in another form of remediation shall not be charged tuition by the school division.

The requirement for remediation may, however, be satisfied by the student's attendance in a program of prevention, intervention or remediation that has been selected by his parent, in consultation with the division superintendent or his designee, and is either (i) conducted by an accredited private school or (ii) a special program that has been determined to be comparable to the required public school remediation program by the division superintendent. The costs of such private school remediation program or other special remediation program shall be borne by the student's parent.

The Board of Education shall establish standards for full funding of summer remedial programs that shall include, but not be limited to, the minimum number of instructional hours or the equivalent thereof required for full funding and an assessment system designed to evaluate program effectiveness. Based on the number of students attending and the Commonwealth's share of the per pupil instructional costs, state funds shall be provided for the full cost of summer and other remediation programs as set forth in the appropriation act, provided such programs comply with such standards as shall be established by the Board, pursuant to § 22.1-199.2.

D. Local school boards shall also implement the following:

1. Programs in grades K through three that emphasize developmentally appropriate learning to enhance success.
2. Programs based on prevention, intervention, or remediation designed to increase the number of students who earn a high school diploma and to prevent students from dropping out of school. Such programs shall include components that are research-based.
3. Career and technical education programs incorporated into the K through 12 curricula that include:
 - a. Knowledge of careers and all types of employment opportunities, including, but not limited to, apprenticeships, entrepreneurship and small business ownership, the military, and the teaching profession, and emphasize the advantages of completing school with marketable skills;
 - b. Career exploration opportunities in the middle school grades;
 - c. Competency-based career and technical education programs that integrate academic outcomes, career guidance, and job-seeking skills for all secondary students. Programs shall be based upon labor market needs and student interest. Career guidance shall include counseling about available employment opportunities and placement services for students exiting school. Each school board shall develop and implement a plan to ensure compliance with the provisions of this subdivision.

Such plan shall be developed with the input of area business and industry representatives and local community colleges and shall be submitted to the Superintendent of Public Instruction in accordance with the timelines established by federal law; and

d. Annual notice on its website to enrolled high school students and their parents of the availability of the postsecondary education and employment data published by the State Council of Higher Education on its website pursuant to § 23-9.2:3.04.

4. Educational objectives in middle and high school that emphasize economic education and financial literacy pursuant to § 22.1-200.03.

5. Early identification of students with disabilities and enrollment of such students in appropriate instructional programs consistent with state and federal law.

6. Early identification of gifted students and enrollment of such students in appropriately differentiated instructional programs.

7. Educational alternatives for students whose needs are not met in programs prescribed elsewhere in these standards. Such students shall be counted in average daily membership (ADM) in accordance with the regulations of the Board of Education.

8. Adult education programs for individuals functioning below the high school completion level. Such programs may be conducted by the school board as the primary agency or through a collaborative arrangement between the school board and other agencies.

9. A plan to make achievements for students who are educationally at risk a divisionwide priority that shall include procedures for measuring the progress of such students.

10. An agreement for postsecondary degree attainment with a community college in the Commonwealth specifying the options for students to complete an associate's degree or a one-year Uniform Certificate of General Studies from a community college concurrent with a high school diploma. Such agreement shall specify the credit available for dual enrollment courses and Advanced Placement courses with qualifying exam scores of three or higher.

11. A plan to notify students and their parents of the availability of dual enrollment and advanced placement classes, the International Baccalaureate Program, and Academic Year Governor's School Programs, the qualifications for enrolling in such classes and programs, and the availability of financial assistance to low-income and needy students to take the advanced placement and International Baccalaureate examinations. This plan shall include notification to students and parents of the agreement with a community college in the Commonwealth to enable students to complete an associate's degree or a one-year Uniform Certificate of General Studies concurrent with a high school diploma.

12. Identification of students with limited English proficiency and enrollment of such students in appropriate instructional programs.

13. Early identification, diagnosis, and assistance for students with reading and mathematics problems and provision of instructional strategies and reading and mathematics practices that benefit the development of reading and mathematics skills for all students.

Local school divisions shall provide reading intervention services to students in kindergarten through grade three who demonstrate deficiencies based on their individual performance on the Standards of Learning reading test or any reading diagnostic test that meets criteria established by the Department of Education. Local school divisions shall report the results of the diagnostic tests to the Department of Education on an annual basis, at a time to be determined by the Superintendent of Public Instruction. Each student who receives early intervention reading services will be assessed again at the end of that school year. The local school division, in its discretion, shall provide such reading intervention services prior to promoting a student from grade three to grade four. Reading intervention services may include the use of: special reading teachers; trained aides; volunteer tutors under the supervision of a certified teacher; computer-based reading tutorial programs; aides to instruct in-class groups while the teacher provides direct instruction to the students who need extra assistance; and extended instructional time in the school day or school year for these students. Funds appropriated for prevention, intervention, and remediation; summer school remediation; at-risk; or early intervention reading may be used to meet the requirements of this subdivision.

Local school divisions shall provide algebra readiness intervention services to students in grades six through nine who are at risk of failing the Algebra I end-of-course test, as demonstrated by their individual performance on any diagnostic test that has been approved by the Department of Education. Local school divisions shall report the results of the diagnostic tests to the Department of Education on an annual basis, at a time to be determined by the Superintendent of Public Instruction. Each student who receives algebra readiness intervention services will be assessed again at the end of that school year. Funds appropriated for prevention, intervention, and remediation; summer school remediation; at-risk; or algebra readiness intervention services may be used to meet the requirements of this subdivision.

14. Incorporation of art, music, and physical education as a part of the instructional program at the elementary school level.

15. A program of physical ~~fitness~~ activity available to all students *in grades kindergarten through five consisting of at least 20 minutes per day or an average of 100 minutes per week during the regular school year and available to all students in grades six through 12* with a goal of at least 150 minutes per week on average during the regular school year. Such program may include any combination of (i) physical education classes, (ii) extracurricular athletics, ~~or~~ (iii) recess, or (iv) other programs and physical activities deemed appropriate by the local school board. 17. The collection and analysis of data and the use of the results to evaluate and make decisions about the instructional program.

E. From such funds as may be appropriated or otherwise received for such purpose, there shall be established within the Department of Education a unit to (i) conduct evaluative studies; (ii) provide the resources and technical assistance to increase the capacity for school divisions to deliver quality instruction; and (iii) assist school divisions in implementing those programs and practices that will enhance pupil academic performance and improve family and community involvement in the public schools. Such unit shall identify and analyze effective instructional programs and practices and professional development initiatives; evaluate the success of programs encouraging parental and family involvement; assess changes in student outcomes prompted by family involvement; and collect and disseminate among school divisions information regarding effective instructional programs and practices, initiatives promoting family and community involvement, and potential funding and support sources. Such unit may also provide resources supporting professional development for administrators and teachers. In providing such information, resources, and other services to school divisions, the unit shall give priority to those divisions demonstrating a less than 70 percent passing rate on the Standards of Learning assessments.

F. Each local school board may enter into agreements for postsecondary credential, certification, or license attainment with community colleges or other public institutions of higher education or educational institutions established pursuant to Title 23 that offer a career and technical education curriculum. Such agreements shall specify (i) the options for students to take courses as part of the career and technical education curriculum that lead to an industry-recognized credential, certification, or license concurrent with a high school diploma and (ii) the credentials, certifications, or licenses available for such courses.

An Act to amend and reenact § 8.01-407 of the Code of Virginia, relating to attorney-issued summons; proof of payment to clerk's office.

[H 496]

Approved March 1, 2016

Be it enacted by the General Assembly of Virginia:

1. That § 8.01-407 of the Code of Virginia is amended and reenacted as follows:

§ 8.01-407. How summons for witness issued, and to whom directed; prior permission of court to summon certain officials and judges; attendance before commissioner of other state; attorney-issued summons.

A. A summons may be issued, directed as prescribed in § 8.01-292, commanding the officer to summon any person to attend on the day and at the place that such attendance is desired, to give evidence before a court, grand jury, arbitrators, magistrate, notary, or any commissioner or other person appointed by a court or acting under its process or authority in a judicial or quasi-judicial capacity. The summons may be issued by the clerk of the court if the attendance is desired at a court or in a proceeding pending in a court. The clerk shall not impose any time restrictions limiting the right to properly request a summons up to and including the date of the proceeding:

If attendance is desired before a commissioner in chancery or other commissioner of a court, the summons may be issued by the clerk of the court in which the matter is pending, or by such commissioner in chancery or other commissioner;

If attendance is desired before a notary or other officer taking a deposition, the summons may be issued by such notary or other officer at the instance of the attorney desiring the attendance of the person sought;

If attendance is sought before a grand jury, the summons may be issued by the attorney for the Commonwealth, or the clerk of the court, at the instance of the attorney for the Commonwealth.

Except as otherwise provided in this subsection, if attendance is desired in a civil proceeding pending in a court or at a deposition in connection with such proceeding, including medical malpractice review panels, and a claim before the Workers' Compensation Commission, a summons may be issued by an attorney-at-law who is an active member of the Virginia State Bar at the time of issuance, as an officer of the court. An attorney-issued summons shall be on a form approved by the Supreme Court, signed by the attorney and shall include the attorney's address. The summons and any transmittal sheet shall be deemed to be a pleading to which the provisions of § 8.01-271.1 shall apply. A copy of the summons and, if served by a sheriff, all service of process fees, shall be mailed or delivered to the clerk's office of the court in which the case is pending or the Workers' Compensation Commission, as applicable, on the day of issuance by the attorney. The law governing summonses issued by a clerk shall apply mutatis mutandis. When an attorney-at-law *who is an active member of the Virginia State Bar* transmits one or more attorney-issued subpoenas to a sheriff to be served in his jurisdiction, such subpoenas shall be accompanied by a transmittal sheet. The transmittal sheet, which may be in the form of a letter, shall contain for each subpoena: (i) the person to be served, (ii) the name of the city or county in which the subpoena is to be served, in parentheses, (iii) the style of the case in which the subpoena was issued, (iv) the court in which the case is pending, and (v) the amount of fees tendered or paid to each clerk in whose court the case is pending together with a photocopy of *either (a) the payment instrument and a photocopy of the letter sent to the clerk's office that accompanied such payment instrument or (b) the clerk's receipt.* If copies of the same transmittal sheet are used to send subpoenas to more

than one sheriff for service of process, then subpoenas shall be grouped by the jurisdiction in which they are to be served. For each person to be served, an original subpoena and copy thereof shall be included. If the attorney desires a return copy of the transmittal sheet as proof of receipt, he shall also enclose an additional copy of the transmittal sheet together with an envelope addressed to the attorney with sufficient first class postage affixed. Upon receipt of such transmittal, the transmittal sheet shall be date-stamped and, if the extra copy and above-described envelope are provided, the copy shall also be date-stamped and returned to the attorney-at-law in the above-described envelope.

However, when such transmittal does not comply with the provisions of this section, the sheriff may promptly return such transmittal if accompanied by a short description of such noncompliance. An attorney may not issue a summons in any of the following civil proceedings: ~~(i)~~ (a) habeas corpus under Article 3 (§ 8.01-654 et seq.) of Chapter 25 of this title, ~~(ii)~~ (b) delinquency or abuse and neglect proceedings under Article 3 (§ 16.1-241 et seq.) of Chapter 11 of Title 16.1, ~~(iii)~~ (c) civil forfeiture proceedings, ~~(iv)~~ (d) habitual offender proceedings under Article 9 (§ 46.2-351 et seq.) of Chapter 3 of Title 46.2, ~~(v)~~ (e) administrative license suspension pursuant to § 46.2-391.2, and ~~(vi)~~ (f) petition for writs of mandamus or prohibition in connection with criminal proceedings. A sheriff shall not be required to serve an attorney-issued subpoena that is not issued at least five business days prior to the date that attendance is desired.

In other cases, if attendance is desired, the summons may be issued by the clerk of the circuit court of the county or city in which the attendance is desired.

A summons shall express on whose behalf, and in what case or about what matter, the witness is to attend. Failure to respond to any such summons shall be punishable by the court in which the proceeding is pending as for contempt. When any subpoena is served less than five calendar days before appearance is required, the court may, after considering all of the circumstances, refuse to enforce the subpoena for lack of adequate notice. If any subpoena is served less than five calendar days before appearance is required upon any judicial officer generally incompetent to testify pursuant to § 19.2-271, such subpoena shall be without legal force or effect unless the subpoena has been issued by a judge.

B. No subpoena shall, without permission of the court first obtained, issue for the attendance of the Governor, Lieutenant Governor, or Attorney General of this Commonwealth, a judge of any court thereof; the President or Vice President of the United States; any member of the President's Cabinet; any ambassador or consul; or any military officer on active duty holding the rank of admiral or general.

C. This section shall be deemed to authorize a summons to compel attendance of a citizen of the Commonwealth before commissioners or other persons appointed by authority of another state when the summons requires the attendance of such witness at a place not out of his county or city.

CHAPTER 174

An Act to amend and reenact § 2.2-4302.2 of the Code of Virginia, relating to the Virginia Public Procurement Act; procurement of information technology goods and services; contractor liability.

[S 150]

Approved March 1, 2016

Be it enacted by the General Assembly of Virginia:

1. That § 2.2-4302.2 of the Code of Virginia is amended and reenacted as follows:

§ 2.2-4302.2. Process for competitive negotiation.

A. The process for competitive negotiation shall include the following:

1. Issuance of a written Request for Proposal indicating in general terms that which is sought to be procured, specifying the factors that will be used in evaluating the proposal, indicating whether a numerical scoring system will be used in evaluation of the proposal, and containing or incorporating by reference the other applicable contractual terms and conditions, including any unique capabilities, specifications or qualifications that will be required. In the event that a numerical scoring system will be used in the evaluation of proposals, the point values assigned to each of the evaluation criteria shall be included in the Request for Proposal or posted at the location designated for public posting of procurement notices prior to the due date and time for receiving proposals;

2. Public notice of the Request for Proposal at least 10 days prior to the date set for receipt of proposals by posting on the Department of General Services' central electronic procurement website or other appropriate websites. Additionally, public bodies shall publish in a newspaper of general circulation in the area in which the contract is to be performed so as to provide reasonable notice to the maximum number of offerors that can be reasonably anticipated to submit proposals in response to the particular request. Posting on the Department of General Services' central electronic procurement website shall be required of any state public body. Local public bodies are encouraged to utilize the Department of General Services' central electronic procurement website to provide the public with centralized visibility and access to the Commonwealth's procurement opportunities. In addition, proposals may be solicited directly from potential contractors. Any additional solicitations shall include certified businesses selected from a list made available by the Department of Small Business and Supplier Diversity; and

3. For goods, nonprofessional services, and insurance, selection shall be made of two or more offerors deemed to be fully qualified and best suited among those submitting proposals, on the basis of the factors involved in the Request for Proposal, including price if so stated in the Request for Proposal. *In the case of a proposal for information technology, as*

defined in § 2.2-2006, a public body shall not require an offeror to state in a proposal any exception to any liability provisions contained in the Request for Proposal. Negotiations shall then be conducted with each of the offerors so selected. The offeror shall state any exception to any liability provisions contained in the Request for Proposal in writing at the beginning of negotiations, and such exceptions shall be considered during negotiation. Price shall be considered, but need not be the sole or primary determining factor. After negotiations have been conducted with each offeror so selected, the public body shall select the offeror which, in its opinion, has made the best proposal and provides the best value, and shall award the contract to that offeror. When the terms and conditions of multiple awards are so provided in the Request for Proposal, awards may be made to more than one offeror. Should the public body determine in writing and in its sole discretion that only one offeror is fully qualified, or that one offeror is clearly more highly qualified than the others under consideration, a contract may be negotiated and awarded to that offeror; or

4. For professional services, the public body shall engage in individual discussions with two or more offerors deemed fully qualified, responsible and suitable on the basis of initial responses and with emphasis on professional competence, to provide the required services. Repetitive informal interviews shall be permissible. The offerors shall be encouraged to elaborate on their qualifications and performance data or staff expertise pertinent to the proposed project, as well as alternative concepts. In addition, offerors shall be informed of any ranking criteria that will be used by the public body in addition to the review of the professional competence of the offeror. The Request for Proposal shall not, however, request that offerors furnish estimates of man-hours or cost for services. At the discussion stage, the public body may discuss nonbinding estimates of total project costs, including, but not limited to, life-cycle costing, and where appropriate, nonbinding estimates of price for services. In accordance with § 2.2-4342, proprietary information from competing offerors shall not be disclosed to the public or to competitors. At the conclusion of discussion, outlined in this subdivision, on the basis of evaluation factors published in the Request for Proposal and all information developed in the selection process to this point, the public body shall select in the order of preference two or more offerors whose professional qualifications and proposed services are deemed most meritorious.

Negotiations shall then be conducted, beginning with the offeror ranked first. If a contract satisfactory and advantageous to the public body can be negotiated at a price considered fair and reasonable, the award shall be made to that offeror. Otherwise, negotiations with the offeror ranked first shall be formally terminated and negotiations conducted with the offeror ranked second, and so on until such a contract can be negotiated at a fair and reasonable price.

Notwithstanding the foregoing, if the terms and conditions for multiple awards are included in the Request for Proposal, a public body may award contracts to more than one offeror.

Should the public body determine in writing and in its sole discretion that only one offeror is fully qualified or that one offeror is clearly more highly qualified and suitable than the others under consideration, a contract may be negotiated and awarded to that offeror.

B. Multiphase professional services contracts satisfactory and advantageous to the completion of large, phased, or long-term projects may be negotiated and awarded based on a fair and reasonable price for the first phase only, where the completion of the earlier phases is necessary to provide information critical to the negotiation of a fair and reasonable price for succeeding phases. Prior to entering into any such contract, the public body shall (i) state the anticipated intended total scope of the project and (ii) determine in writing that the nature of the work is such that the best interests of the public body require awarding the contract.

Negotiations shall then be conducted, beginning with the offeror ranked first. If a contract satisfactory and advantageous to the public body can be negotiated at a price considered fair and reasonable *and pursuant to contractual terms and conditions acceptable to the public body*, the award shall be made to that offeror. Otherwise, negotiations with the offeror ranked first shall be formally terminated and negotiations conducted with the offeror ranked second, and so on until such a contract can be negotiated at a fair and reasonable price.

Notwithstanding the foregoing, if the terms and conditions for multiple awards are included in the Request for Proposal, a public body may award contracts to more than one offeror.

An Act to amend and reenact §§ 8.01-676.1 and 8.01-682 of the Code of Virginia, relating to security for appeal.

[H 437]

Approved March 1, 2016

Be it enacted by the General Assembly of Virginia:

1. That §§ 8.01-676.1 and 8.01-682 of the Code of Virginia are amended and reenacted as follows:

§ 8.01-676.1. Security for appeal.

A. Security for costs of appeal of right to Court of Appeals. — A party filing a notice of an appeal of right to the Court of Appeals shall simultaneously file an appeal bond or irrevocable letter of credit in the penalty of \$500, or such sum as the trial court may require, subject to subsection E, conditioned upon paying all costs and fees incurred in the Court of Appeals and the Supreme Court if it takes cognizance of the claim. If the appellant wishes suspension of execution, the security shall also be conditioned and shall be in such sum as the trial court may require as provided in subsection C.

B. Security for costs on petition for appeal to Court of Appeals or Supreme Court. — An appellant whose petition for appeal is granted by the Court of Appeals or the Supreme Court shall (if he has not done so) within 15 days from the date of the Certificate of Appeal file an appeal bond or irrevocable letter of credit in the same penalty as provided in subsection A, conditioned on the payment of all damages, costs, and fees incurred in the Court of Appeals and in the Supreme Court.

C. Security for suspension of execution. — An appellant who wishes execution of the judgment or award from which an appeal is sought to be suspended during the appeal shall, subject to the provisions of subsection J, file ~~an appeal a~~ *suspending* bond or irrevocable letter of credit conditioned upon the performance or satisfaction of the judgment and payment of all damages incurred in consequence of such suspension, and except as provided in subsection D, execution shall be suspended upon the filing of such security and the timely prosecution of such appeal. Such security shall be continuing and additional security shall not be necessary except as to any additional amount which may be added or to any additional requirement which may be imposed by the courts.

D. Suspension of execution in decrees for support and custody; injunctions. — The court from which an appeal is sought may refuse to suspend the execution of decrees for support and custody, and may also refuse suspension when a judgment refuses, grants, modifies, or dissolves an injunction.

E. Increase or decrease in penalty or other modification of security. —

1. The trial court or commission may, upon the motion of any party (i) for good cause shown, modify the terms of the security for the appeal or of the security for the suspension of execution of a judgment and (ii) resolve any objection to the form or issuer of a bond or letter of credit at any time until the Court of Appeals or the Supreme Court acts upon any similar

motion. Any party aggrieved by the decision of the trial court or commission may request a review of such decision by the appellate court before which the case is pending.

2. The Court of Appeals or the Supreme Court, ~~when it considers a petition for appeal,~~ may order that the penalty or any other terms or requirements of the security for the appeal or of the security for the suspension of execution of a judgment be modified for good cause shown *(i) upon the motion of any party or (ii) if such request is made in the brief of any party filed in the Court of Appeals, or in the Petition for Appeal or the appellee's Brief in Opposition filed in the Supreme Court or the Court of Appeals.*

3. Affidavits and counter-affidavits may be filed by the parties containing facts pertinent to such request. Any increase or decrease in the amount of or other modification of the security so ordered shall be effected in the clerk's office of the trial court within 15 days of the order of *the trial court*, the Court of Appeals, or the Supreme Court.

4. If an increase so ordered is not effected within 15 days, the appeal shall be dismissed, in the case of the security required under subsection A or B, or the suspension of execution of a judgment shall be discontinued, in the case of the security required under subsection C. ~~Such increase or decrease in the penalty or other modification of the security may also be considered and ordered by the trial court for good cause shown, on motion of either party, at any time until the Court of Appeals or the Supreme Court acts upon any similar motion, and failure to increase such penalty as hereinabove provided shall also cause the appeal to be dismissed, in the case of the security required under subsection A, or the suspension of execution of a judgment to be discontinued, in the case of the security required under subsection C.~~

F. By whom executed. — Each bond filed shall be executed by a party or another on his behalf, and by surety approved by the clerk of the court from which appeal is sought, or by the clerk of the Supreme Court or the clerk of the Court of Appeals if the bond is ordered by such Court. The letter of credit shall be from a bank incorporated or authorized to conduct banking business under the laws of this Commonwealth or authorized to do business in this Commonwealth under the banking laws of the United States, or a federally insured savings institution located in this Commonwealth.

G. H. Appeal from State Corporation Commission; suspension. — Any judgment, order, or decree of the State Corporation Commission subject to appeal to the Supreme Court may be suspended by the Commission or by the Supreme Court pending decision of the appeal if the Commission or the Supreme Court deems such suspension necessary for the proper administration of justice but only upon the written application of an appellant after reasonable notice to all other parties in interest and the filing of a suspending bond or irrevocable letter of credit with such conditions, in such penalty, and with such surety thereon as the Commission or the Supreme Court may deem sufficient. But no surety shall be required if the appellant is any county, city or town of this Commonwealth, or the Commonwealth.

I. Forms of bonds; letters of credit; where filed. — The Clerk of the Supreme Court shall prescribe separate forms for ~~appeal~~ bonds, one for costs alone, one for suspension of execution, and one for both and a form for irrevocable letters of credit, to which the bond or bonds or irrevocable letters of credit given shall substantially conform. The forms for each bond and the letter of credit shall be published in the Rules of Court. It shall be sufficient if the bond or letter of credit, when executed as required, is filed with the trial court, clerk of the Virginia Workers' Compensation Commission, or the clerk of the State Corporation Commission, whichever is applicable, and no personal appearance in the trial court, Virginia Workers' Compensation Commission, or State Corporation Commission by the principal, the surety on the bond or the bank issuing the letter of credit shall be required as a condition precedent to its filing.

J. In any civil litigation under any legal theory, the amount of the ~~appeal~~ *suspending* bond or irrevocable letter of credit to be furnished during the pendency of all appeals or discretionary reviews of any judgment granting legal, equitable, or any other form of relief in order to stay the execution thereon during the entire course of appellate review by any courts shall be set in accordance with applicable laws or court rules, ~~except that~~ *and the amount of the suspending bond or irrevocable letter of credit shall include an amount equivalent to one year's interest calculated from the date of the notice of appeal in accordance with § 8.01-682. However, the total* ~~appeal~~ *suspending* bond or irrevocable letter of credit that is required of an appellant and all of its affiliates shall not exceed \$25 million, regardless of the value of the judgment.

~~J1. Any objection to or motion for modification of the form, amount, or issuer of any letter of credit or bond may be made to, and decided by, the Court of Appeals or the Supreme Court. Any objection to or motion for modification of the form, amount, or issuer of any letter of credit or bond may also be made to, and decided by, the court or commission whose decision is being appealed at any time until the Court of Appeals or the Supreme Court acts upon any similar motion.~~

K. Dissipation of assets. — If the appellee proves by a preponderance of the evidence that a party bringing an appeal, for whom the ~~appeal~~ *suspending* bond or irrevocable letter of credit requirement has been limited or waived ~~pursuant to subsection J,~~ is purposefully dissipating its assets or diverting assets outside the jurisdiction of the United States courts for the purpose of evading the judgment, the limitation or waiver ~~granted pursuant to subsection J~~ shall be rescinded and a court may require the appellant to post a *suspending* bond or irrevocable letter of credit in an amount up to the full amount of the judgment. Dissipation of assets shall not include those ongoing expenditures made from assets of the kind that the appellant made in the regular course of business prior to the judgment being appealed, such as the payment of stock dividends and

other financial incentives to the shareholders of publicly owned companies, continued participation in charitable and civic activities, and other expenditures consistent with the exercise of good business judgment.

L. For good cause shown, a court may otherwise waive the filing of ~~an appeal~~ a *suspending* bond or irrevocable letter of credit as to the damages in excess of, or other than, the compensatory damages. *Subject to the provisions of subsection K, the parties may agree to waive the requirement of a suspending bond or irrevocable letter of credit or agree to a suspending bond or irrevocable letter of credit in an amount less than the compensatory damages.*

M. Exemption. — When an appeal is proper to protect the estate of a decedent or person under disability, or to protect the interest of the Commonwealth or any county, city, or town of this Commonwealth, no security for appeal shall be required.

N. Indigents. — No person who is an indigent shall be required to post security for an appeal bond.

O. Virginia Workers' Compensation Commission. — No claimant who files an appeal from a final decision of the Virginia Workers' Compensation Commission with the Court of Appeals shall be required to post security for costs as provided in subsection A or B if such claimant has not returned to his employment or by reason of his disability is unemployed. Such claimant shall file an affidavit describing his disability and employment status with the Court of Appeals together with a motion to waive the filing of the security under subsection A or B.

P. Time for filing security for appeal. — The appeal bond or letter of credit prescribed in subsections A and B is not jurisdictional and the time for filing such security in cases before the Court of Appeals or the Supreme Court may be extended by a judge or justice of the court before which the case is pending on motion for good cause shown and to attain the ends of justice. *The effect of failing to perfect an appeal bond shall be governed by the Rules of Supreme Court of Virginia.*

Q. Consideration of appeal bond, *suspending bond*, or letter of credit by Court of Appeals or Supreme Court. — A determination on an issue affecting an appeal bond, *suspending bond*, or letter of credit in a case before the Court of Appeals or the Supreme Court may be considered by an individual judge of such court rather than by a panel of judges.

R. This section applies to injunction bonds required pursuant to § 8.01-631.

S. *In accordance with § 1-205, if the party required to post an appeal or suspending bond tenders such bond together with cash in the full amount required by this section to the clerk specified in this section, no surety shall be required.*

§ 8.01-682. What damages awarded appellee.

When any judgment is affirmed, damages shall be awarded to the appellee. When the judgment is for the payment of money, the damages shall be the interest to which the party is legally entitled, *as provided in § 6.2-302 or any other provision of law*, from the date of filing the notice of appeal until the date the appellate court issues its mandate. Such interest shall be computed upon the whole amount of the recovery, including interest and costs, and such damages shall be in satisfaction of all interest during such period of time. When the judgment is not for the payment of any money, except costs, the damages shall be such specific sum as the appellate court may deem reasonable, not being more than \$2,500 nor less than \$150.

7. Compelling insureds to institute litigation to recover amounts due under an insurance policy by offering substantially less than the amounts ultimately recovered in actions brought by such insureds;

8. Attempting to settle claims for less than the amount to which a reasonable man would have believed he was entitled by reference to written or printed advertising material accompanying or made part of an application;

9. Attempting to settle claims on the basis of an application that was altered without notice to, or knowledge or consent of, the insured;

10. Making claims payments to insureds or beneficiaries not accompanied by a statement setting forth the coverage under which payments are being made;

11. Making known to insureds or claimants a policy of appealing from arbitration awards in favor of insureds or claimants for the purpose of compelling them to accept settlements or compromises less than the amount awarded in arbitration;

12. Delaying the investigation or payment of claims by requiring an insured, a claimant, or the physician of either to submit a preliminary claim report and then requiring the subsequent submission of formal proof of loss forms, when both contain substantially the same information;

Supplemental repair estimates that become necessary after the repair work has been initiated due to discovery of additional damage to the motor vehicle may also be made from photographs, videos, or electronically transmitted digital imagery of the motor vehicle, provided that in the case of disputed repairs a personal inspection is required.*

B. No violation of this section shall of itself be deemed to create any cause of action in favor of any person other than the Commission; but nothing in this subsection shall impair the right of any person to seek redress at law or equity for any conduct for which action may be brought.

C. 1. No insurer shall prepare or use an estimate of the cost of automobile repairs based on the use of an after market part, as defined herein, unless:

3. Prohibited releases. The identity of any individual providing information about a crime or criminal activity under a promise of anonymity shall not be disclosed.

B. Noncriminal records. ~~Records (i) required to be maintained by law-enforcement agencies pursuant to § 15.2-1722 or (ii) maintained by other public bodies engaged in criminal law-enforcement activities shall be subject to the provisions of~~

[H 231]

Approved March 1, 2016

Be it enacted by the General Assembly of Virginia:

1. That §§ 55-41, 55-47.01, 64.2-300, 64.2-311, 64.2-317, 64.2-500, 64.2-502, 64.2-556, 64.2-632, 64.2-1805, and 64.2-2022 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding in Chapter 3 of Title 64.2 an article numbered 1.1, consisting of sections numbered 64.2-308.1 through 64.2-308.17, as follows:

§ 55-41. Conveyance from husband and wife; effect on right of wife or husband.

When a husband and his wife have signed and delivered a writing purporting to convey any estate, real or personal, such writing, whether admitted to record or not, shall (i) if delivered prior to January 1, 1991, operate to convey from the spouse her right of dower or his right of curtesy in the real estate embraced therein, and (ii) if delivered after December 31, 1990, operate to manifest the spouse's written consent or joinder, as contemplated in § 64.2-305 *or* 64.2-308.9 to the transfer embraced therein. In either case, the writing passes from such spouse and his or her representatives all right, title and interest of every nature which at the date of such writing he or she may have in any estate conveyed thereby as effectually as if he or she were at such date an unmarried person. If, in either case, the writing is a deed conveying a spouse's land, no covenant or warranty therein on behalf of the other spouse joining in the deed shall operate to bind him or her any further than to convey her or his interest in such land, unless it is expressly stated that such spouse enters into such covenant or warranty for the purpose of binding himself or herself personally.

§ 55-47.01. Equitable separate estates abolished.

The estate known as the equitable separate estate no longer exists and any language in any writing, whenever executed, which purports to convey real property to a person as an equitable separate estate has no legal or equitable significance after January 1, 1991, except as provided in § 64.2-301 *or* 64.2-308.2.

Article 1.

Elective Share of Surviving Spouse of Decedent Dying before January 1, 2017.

§ 64.2-300. Applicability; definitions.

A. The provisions of this article shall apply to determining the elective share of a surviving spouse for decedents dying before January 1, 2017.

B. As used in this article, the terms "estate" and "property" shall include insurance policies, retirement benefits exclusive of federal social security benefits, annuities, pension plans, deferred compensation arrangements, and employee benefit plans to the extent owned by, vested in, or subject to the control of the decedent on the date of his death or the date of an irrevocable transfer by him during his lifetime. All such insurance policies and other benefits are included in the terms "estate" and "property" notwithstanding the presence of language contained in any statute otherwise providing that neither they nor their proceeds shall be liable to attachment, garnishment, levy, execution, or other legal process or be seized, taken, appropriated, or applied by any legal or equitable process or operation of law or any other such similar language.

Article 1.1.

Elective Share of Surviving Spouse of Decedent Dying on or after January 1, 2017.

§ 64.2-308.1. Applicability; definitions.

A. The provisions of this article shall apply to determining the elective share of a surviving spouse for decedents dying on or after January 1, 2017.

B. As used in this article, unless the context requires a different meaning:

"Decedent's non-probate transfers to others" means the amounts that are included in the augmented estate under § 64.2-308.6.

"Fractional interest in property held in joint tenancy with the right of survivorship," whether the fractional interest is unilaterally severable or not, means the fraction, the numerator of which is one and the denominator of which, if the decedent was a joint tenant, is one plus the number of joint tenants who survive the decedent and which, if the decedent was not a joint tenant, is the number of joint tenants.

"Marriage," as it relates to a transfer by the decedent during marriage, means any marriage of the decedent to the decedent's surviving spouse.

"Non-adverse party" means a person who does not have a substantial beneficial interest in the trust or other property arrangement that would be adversely affected by the exercise or non-exercise of the power that he possesses respecting the

trust or other property arrangement. A person having a general power of appointment over property is deemed to have a beneficial interest in the property.

"Power" or "power of appointment" includes a power to designate the beneficiary of a beneficiary designation.

"Presently exercisable general power of appointment" means a power of appointment under which, at the time in question, the decedent, whether or not he then had the capacity to exercise the power, held a power to create a present or future interest in himself, his creditors, his estate, or creditors of his estate, and includes a power to revoke or invade the principal of a trust or other property arrangement.

"Property" includes values subject to a beneficiary designation.

"Right to income" includes a right to payments under a commercial or private annuity, an annuity trust, a unitrust, or a similar arrangement.

"Transfer," as it relates to a transfer by or of the decedent, includes (i) an exercise or release of a presently exercisable general power of appointment held by the decedent, (ii) a lapse at death of a presently exercisable general power of appointment held by the decedent, and (iii) an exercise, release, or lapse of a general power of appointment that the decedent created in himself and of a power described in subdivision 2 b of § 64.2-308.6 that the decedent conferred on a non-adverse party.

§ 64.2-308.2. Dower or curtesy abolished.

The interests of dower and curtesy are abolished. However, the abolition of dower and curtesy pursuant to this section shall not change or diminish the nature or right of (i) any dower or curtesy interest of a surviving spouse whose dower or curtesy vested prior to January 1, 1991, or (ii) a creditor or other interested third party in any real estate subject to a right of dower or curtesy.

The rights of all such parties, and the procedures for enforcing such rights, shall continue to be governed by the laws in force prior to January 1, 1991.

§ 64.2-308.3. Elective share amount; effect of election on statutory benefits; non-domiciliary.

A. The surviving spouse of a decedent who dies domiciled in this state has a right of election, under the limitations and conditions stated in this article, to take an elective-share amount equal to 50 percent of the value of the marital-property portion of the augmented estate.

B. If the right of election is exercised by or on behalf of the surviving spouse, the surviving spouse's homestead allowance, exempt property, and family allowance, if any, are not charged against but are in addition to the elective-share amount.

C. The right, if any, of the surviving spouse of a decedent who dies domiciled outside this state to take an elective share in property in this state is governed by the law of the decedent's domicile at death.

§ 64.2-308.4. Composition of the augmented estate; marital property portion.

A. Subject to § 64.2-308.9, the value of the augmented estate, to the extent provided in §§ 64.2-308.5, 64.2-308.6, 64.2-308.7, and 64.2-308.8, consists of the sum of the values of all property, whether real or personal, movable or immovable, tangible or intangible, wherever situated, that constitute:

1. The decedent's net probate estate;
2. The decedent's non-probate transfers to others;
3. The decedent's non-probate transfers to the surviving spouse; and
4. The surviving spouse's property and non-probate transfers to others.

B. The value of the marital-property portion of the augmented estate consists of the sum of the values of the four components of the augmented estate as determined under subsection A multiplied by the following percentage:

If the decedent and the spouse were married to each other: The percentage is:

Less than 1 year	3%
1 year but less than 2 years	6%
2 years but less than 3 years	12%
3 years but less than 4 years	18%
4 years but less than 5 years	24%
5 years but less than 6 years	30%
6 years but less than 7 years	36%
7 years but less than 8 years	42%
8 years but less than 9 years	48%
9 years but less than 10 years	54%
10 years but less than 11 years	60%
11 years but less than 12 years	68%
12 years but less than 13 years	76%
13 years but less than 14 years	84%
14 years but less than 15 years	92%
15 years or more	100%

§ 64.2-308.5. Decedent's net probate estate.

The value of the augmented estate includes the value of the decedent's probate estate, reduced by funeral and administration expenses (excluding federal or state transfer taxes), homestead allowance, family allowances, exempt property, and enforceable claims.

§ 64.2-308.6. Decedent's non-probate transfers to others.

The value of the augmented estate includes the value of the decedent's non-probate transfers to others, not included under § 64.2-308.5, of any of the following types, in the amount provided respectively for each type of transfer:

1. Property owned or owned in substance by the decedent immediately before death that passed outside probate at the decedent's death. Property included under this category consists of:

a. Property over which the decedent, alone, immediately before death, held a presently exercisable general power of appointment. The amount included is the value of the property subject to the power, to the extent the property passed at the decedent's death, by exercise, release, lapse, in default, or otherwise, to or for the benefit of any person other than the decedent's estate or surviving spouse.

b. The decedent's fractional interest in property held by the decedent in joint tenancy with the right of survivorship. The amount included is the value of the decedent's fractional interest, to the extent the fractional interest passed by right of survivorship at the decedent's death to a surviving joint tenant other than the decedent's surviving spouse.

c. The decedent's ownership interest in property or accounts held in Payable on Death or Transfer on Death designations or co-ownership registration with the right of survivorship. The amount included is the value of the decedent's ownership interest, to the extent the decedent's ownership interest passed at the decedent's death to or for the benefit of any person other than the decedent's estate or surviving spouse.

d. Proceeds of insurance, including accidental death benefits, on the life of the decedent, if the decedent owned the insurance policy immediately before death or if and to the extent the decedent alone and immediately before death held a presently exercisable general power of appointment over the policy or its proceeds. The amount included is the value of the proceeds, to the extent they were payable at the decedent's death to or for the benefit of any person other than the decedent's estate or surviving spouse.

2. Property transferred in any of the following forms by the decedent during marriage:

a. Any irrevocable transfer in which the decedent retained the right to the possession or enjoyment of, or to the income from, the property if and to the extent the decedent's right terminated at or continued beyond the decedent's death. The amount included is the value of the fraction of the property to which the decedent's right related, to the extent the fraction of the property passed outside probate to or for the benefit of any person other than the decedent's estate or surviving spouse.

b. Any transfer in which the decedent created a power over income or property, exercisable by the decedent alone or in conjunction with any other person, or exercisable by a non-adverse party, to or for the benefit of the decedent, creditors of the decedent, the decedent's estate, or creditors of the decedent's estate. The amount included with respect to a power over property is the value of the property subject to the power, and the amount included with respect to a power over income is the value of the property that produces or produced the income, to the extent the power in either case was exercisable at the decedent's death to or for the benefit of any person other than the decedent's surviving spouse or to the extent the property passed at the decedent's death, by exercise, release, lapse, in default, or otherwise, to or for the benefit of any person other than the decedent's estate or surviving spouse. If the power is a power over both income and property and the preceding sentence produces different amounts, the amount included is the greater amount.

3. Property that passed during marriage and during the two-year period next preceding the decedent's death as a result of a transfer by the decedent if the transfer was of any of the following types:

a. Any property that passed as a result of the termination of a right or interest in, or power over, property that would have been included in the augmented estate under subdivision 1 a, b, or c, or under subdivision 2, if the right, interest, or power had not terminated until the decedent's death. The amount included is the value of the property that would have been included under those subdivisions if the property were valued at the time the right, interest, or power terminated, and is included only to the extent the property passed upon termination to or for the benefit of any person other than the decedent or the decedent's estate, spouse, or surviving spouse. As used in this subdivision, "termination," with respect to a right or interest in property, occurs when the right or interest terminated by the terms of the governing instrument or the decedent transferred or relinquished the right or interest, and, with respect to a power over property, occurs when the power terminated by exercise, release, lapse, default, or otherwise, but, with respect to a power described in subdivision 1 a, "termination" occurs when the power terminated by exercise or release, but not otherwise.

b. Any transfer of or relating to an insurance policy on the life of the decedent if the proceeds would have been included in the augmented estate under subdivision 1 d had the transfer not occurred. The amount included is the value of the insurance proceeds to the extent the proceeds were payable at the decedent's death to or for the benefit of any person other than the decedent's estate or surviving spouse.

c. Any transfer of property, to the extent not otherwise included in the augmented estate, made to or for the benefit of a person other than the decedent's surviving spouse. The amount included is the value of the transferred property to the extent the transfers to any one donee in either of the two years next preceding the date of the decedent's death exceeded the amount excludable from taxable gifts under 26 U.S.C. § 2503(b), or its successor, on the date of the gift.

§ 64.2-308.7. Decedent's non-probate transfers to the surviving spouse.

Excluding property passing to the surviving spouse under the federal social security system, the value of the augmented estate includes the value of the decedent's non-probate transfers to the decedent's surviving spouse, which

consist of all property that passed outside probate at the decedent's death from the decedent to the surviving spouse by reason of the decedent's death, including:

1. The decedent's fractional interest in property held as a joint tenant with the right of survivorship, to the extent that the decedent's fractional interest passed to the surviving spouse as surviving joint tenant;
2. The decedent's ownership interest in property or accounts held in co-ownership registration with the right of survivorship, or with Payable on Death or Transfer on Death designations to the extent the decedent's ownership interest passed to the surviving spouse as surviving co-owner; and
3. All other property that would have been included in the augmented estate under subdivision 1 or 2 of § 64.2-308.6 had it passed to or for the benefit of a person other than the decedent's spouse, surviving spouse, the decedent, or the decedent's creditors, estate, or estate creditors.

§ 64.2-308.8. Surviving spouse's property and non-probate transfers to others.

A. Except to the extent included in the augmented estate under § 64.2-308.5 or 64.2-308.7, the value of the augmented estate includes the value of:

1. Property that was owned by the decedent's surviving spouse at the decedent's death, including:
 - a. The surviving spouse's fractional interest in property held in joint tenancy with the right of survivorship;
 - b. The surviving spouse's ownership interest in property or accounts held in co-ownership registration with the right of survivorship; and
 - c. Property that passed to the surviving spouse by reason of the decedent's death, but not including the spouse's right to homestead allowance, family allowance, exempt property, or payments under the federal social security system.
2. Property that would have been included in the surviving spouse's non-probate transfers to others, other than the spouse's fractional and ownership interests included under subdivision 1 a or b, had the spouse been the decedent.

B. Property included under this section is valued at the decedent's death, taking the fact that the decedent predeceased the spouse into account, but, for purposes of subdivision A 1 a or b, the values of the spouse's fractional and ownership interests are determined immediately before the decedent's death if the decedent was then a joint tenant or a co-owner of the property or accounts. For purposes of subdivision A 2, proceeds of insurance that would have been included in the spouse's non-probate transfers to others under subdivision 1 d of § 64.2-308.6 are not valued as if the spouse were deceased.

C. The value of property included under this section is reduced by enforceable claims against the surviving spouse.

§ 64.2-308.9. Exclusions, valuation, and overlapping application.

A. The value of any property is excluded from the decedent's non-probate transfers to others:

1. To the extent the decedent received adequate and full consideration in money or money's worth for a transfer of the property; or
2. If the property was transferred with the written joinder of, or if the transfer was consented to in writing before or after the transfer by, the surviving spouse.

B. 1. The value of any property otherwise included under § 64.2-308.5 or 64.2-308.6, and its income or proceeds, is excluded from the decedent's net probate estate and non-probate transfers to others to the extent such property was transferred to or for the benefit of the decedent, before or during the marriage to the surviving spouse, by gift, will, transfer in trust, intestate succession, or any other method or form of transfer to the extent it was (i) transferred without full consideration in money or money's worth from a person other than the surviving spouse and (ii) maintained by the decedent as separate property.

2. The value of any property otherwise included under § 64.2-308.8, and its income or proceeds, is excluded from the surviving spouse's property and non-probate transfers to others to the extent such property was transferred to or for the benefit of the surviving spouse, before or during the marriage to the decedent, by gift, will, transfer in trust, intestate succession, or any other method or form of transfer to the extent it was (i) transferred without full consideration in money or money's worth from a person other than the decedent and (ii) maintained by the surviving spouse as separate property.

C. 1. The value of property:

1. Included in the augmented estate under § 64.2-308.5, 64.2-308.6, 64.2-308.7, or 64.2-308.8 is reduced in each category by enforceable claims against the included property; and

2. Includes the commuted value of any present or future interest and the commuted value of amounts payable under any trust, life insurance settlement option, annuity contract, public or private pension, disability compensation, death benefit or retirement plan, or any similar arrangement, exclusive of the federal social security system. Except as provided herein for interests passing to a surviving spouse, life estates and remainder interests are valued in the manner prescribed in Article 2 (§ 55-269.1 et seq.) of Chapter 15 of Title 55 and deferred payments and estates for years are discounted to present value using the interest rate specified in § 55-269.1. In valuing partial and contingent interests passing to the surviving spouse, and beneficial interests in trust, the following special rules apply:

a. The value of the beneficial interest of a spouse shall be the entire fair market value of any property held in trust if the decedent was the settlor of the trust, if the trust is held for the exclusive benefit of the surviving spouse during the surviving spouse's lifetime, and if the terms of the trust meet the following requirements:

(1) During the lifetime of the surviving spouse, the trust is controlled by the surviving spouse or one or more trustees who are non-adverse parties;

(2) The trustee shall distribute to or for the benefit of the surviving spouse the entire net income of the trust at least annually;

(3) *The trustee is permitted to distribute to or for the benefit of the surviving spouse out of the principal of the trust such amounts and at such times as the trustee, in its discretion, determines for the health, maintenance, and support of the surviving spouse; and*

(4) *In exercising discretion, the trustee may be authorized or required to take into consideration all other income assets and other means of support available to the surviving spouse.*

b. *To the extent that the partial or contingent interest is dependent upon the occurrence of any contingency that is not subject to the control of the surviving spouse and that is not subject to valuation by reference to the mortality and annuity tables set forth in §§ 55-271 through 55-277, the contingency will be conclusively presumed to result in the lowest possible value passing to the surviving spouse.*

c. *To the extent that the valuation of a partial or contingent interest is dependent upon the life expectancy of the surviving spouse, that life expectancy shall be conclusively presumed to be no less than 10 years, regardless of the actual attained age of the surviving spouse at the decedent's death.*

D. *In case of overlapping application to the same property of the subsections or subdivisions of § 64.2-308.6, 64.2-308.7, or 64.2-308.8, the property is included in the augmented estate under the provision yielding the greatest value, and under only one overlapping provision if they all yield the same value.*

§ 64.2-308.10. Sources from which elective share payable.

A. *In a proceeding for an elective share, the following are applied first to satisfy the elective-share amount and to reduce or eliminate any contributions due from the decedent's probate estate and recipients of the decedent's non-probate transfers to others:*

1. *The value of property excluded from the augmented estate under subsection A of § 64.2-308.9, which passes or has passed to the surviving spouse;*

2. *Amounts included in the augmented estate under § 64.2-308.5 that pass or have passed to the surviving spouse by testate or intestate succession and amounts included in the augmented estate under § 64.2-308.7; and*

3. *The marital property portion of amounts included in the augmented estate under § 64.2-308.8.*

B. *The marital property portion under subdivision A 3 is computed by multiplying the value of the amounts included in the augmented estate under § 64.2-308.8 by the percentage of the augmented estate set forth in the schedule in subsection B of § 64.2-308.4 appropriate to the length of time the spouse and the decedent were married to each other.*

C. *If, after the application of subsection A, the elective share amount is not fully satisfied, amounts included in the decedent's net probate estate, other than assets passing to the surviving spouse by testate or intestate succession, and in the decedent's non-probate transfers to others under subdivisions 1, 2, and 3 b of § 64.2-308.6 are applied first to satisfy the unsatisfied balance of the elective share amount. The decedent's net probate estate and that portion of the decedent's non-probate transfers to others are so applied that liability for the unsatisfied balance of the elective share amount is apportioned among the recipients of the decedent's net probate estate and of that portion of the decedent's non-probate transfers to others in proportion to the value of their interests therein.*

D. *If, after the application of subsections A and C, the elective share amount is not fully satisfied, the remaining portion of the decedent's non-probate transfers to others is so applied that liability for the unsatisfied balance of the elective share amount is apportioned among the recipients of the remaining portion of the decedent's non-probate transfers to others in proportion to the value of their interests therein.*

E. *The unsatisfied balance of the elective share amount as determined under subsection C or D is treated as a general pecuniary bequest.*

§ 64.2-308.11. Personal liability of recipients.

A. *Only original recipients of the decedent's non-probate transfers to others, and the donees of the recipients of the decedent's non-probate transfers to others, to the extent the donees have the property or its proceeds, are liable to make a proportional contribution toward satisfaction of the surviving spouse's elective share amount. A person liable to make contribution may choose to give up the proportional part of the decedent's non-probate transfers to him or to pay the value of the amount for which he is liable in cash, or, upon agreement of the surviving spouse, other property.*

B. *If any section or part of any section of this article is preempted by federal law with respect to a payment, an item of property, or any other benefit included in the decedent's non-probate transfers to others, a person who, not for value, receives the payment, item of property, or any other benefit is obligated to return the payment, item of property, or benefit, or is personally liable for the amount of the payment or the value of that item of property or benefit, as provided in § 64.2-308.10, to the person who would have been entitled to it were that section or part of that section not preempted.*

§ 64.2-308.12. Proceeding for elective share; time limit.

A. *The election by the surviving spouse of a decedent who dies domiciled in the Commonwealth must be made no later than six months after the later of (i) the time of the admission of the decedent's will to probate or (ii) the qualification of an administrator on the decedent's intestate estate, by a writing recorded in the court or the clerk's office thereof, upon such acknowledgment or proof as would authorize a writing to be admitted to record under Chapter 6 (§ 55-106 et seq.) of Title 55. The clerk shall record such election in the will book of the court. A copy of such election shall be provided to the personal representative, if any, by regular U.S. mail or hand delivery within 30 days of filing.*

B. *The surviving spouse must file the complaint to determine the elective share no later than six months after the filing of the election as set forth in subsection A. No later than 30 days after the filing of the complaint, the surviving spouse must provide a copy of the complaint to all known persons interested in the estate and to the distributees and recipients of*

portions of the augmented estate whose interests will be adversely affected by the taking of the elective share. The decedent's non-probate transfers to others are not included within the augmented estate for the purpose of computing the elective share if the complaint is filed more than 12 months after the decedent's death.

C. Notwithstanding the provisions of § 8.01-380, the election for an elective share may be withdrawn by the surviving spouse at any time before entry of a final determination by the court and such election shall be extinguished.

D. After notice and hearing, the court shall determine the elective share amount, and shall order its payment from the assets of the augmented estate or by contribution as appears appropriate under §§ 64.2-308.10 and 64.2-308.11. If it appears that a fund or property included in the augmented estate has not come into the possession of the personal representative, or has been distributed by the personal representative, the court nevertheless shall fix the liability of any person who has any interest in the fund or property or who has possession thereof, whether as trustee or otherwise. The proceeding may be maintained against fewer than all persons against whom relief could be sought, but no person is subject to contribution in any greater amount than such person would have been under §§ 64.2-308.10 and 64.2-308.11 had relief been secured against all persons subject to contribution.

E. An order or judgment of the court may be enforced as necessary in suit for contribution or payment in other courts of this state or other jurisdictions.

§ 64.2-308.13. Right of election personal to surviving spouse; incapacitated surviving spouse.

A. The right of election may be exercised only by or on behalf of a surviving spouse who is living when the election for the elective share is filed in the court under subsection A of § 64.2-308.12. If the election is not made by the surviving spouse personally, it may be made on the surviving spouse's behalf by his or her conservator or agent under the authority of a durable power of attorney.

B. If the election is made on behalf of a surviving spouse who is an incapacitated person, and the court enters an order determining the amounts due to the surviving spouse, the court must set aside that portion of the elective share amount due from the decedent's probate estate and recipients of the decedent's non-probate transfers to others under subsections C and D of § 64.2-308.10 and must appoint a trustee to administer that property for the support of the surviving spouse. For the purposes of this subsection, an election on behalf of a surviving spouse by a conservator or agent under a durable power of attorney is presumed to be on behalf of a surviving spouse who is an incapacitated person. The trustee must administer the trust in accordance with the following terms or such other terms as the court determines appropriate:

1. Expenditures of income and principal may be made in the manner, when, and to the extent that the trustee determines suitable and proper for the surviving spouse's support, without court order but with regard to other support, income, and property of the surviving spouse and benefits of medical or other forms of assistance from any state or federal government or governmental agency for which the surviving spouse must qualify on the basis of need.

2. During the surviving spouse's incapacity, neither the surviving spouse nor anyone acting on behalf of the surviving spouse has a power to terminate the trust; but if the surviving spouse regains capacity, the surviving spouse then acquires the power to terminate the trust and acquire full ownership of the trust property free of trust, by delivering to the trustee a writing signed by the surviving spouse declaring the termination.

3. Upon the surviving spouse's death, the trustee shall transfer the unexpended trust property in the following order: (i) under the residuary clause, if any, of the will of the predeceased spouse against whom the elective share was taken, as if that predeceased spouse died immediately after the surviving spouse; or (ii) to the predeceased spouse's heirs under Chapter 2 (§ 64.2-200 et seq.).

4. The trust shall be treated as a testamentary trust subject to the provisions governing testamentary trustees under Title 64.2.

§ 64.2-308.14. Waiver of right to elect and of other rights; defenses.

A. The right of election of a surviving spouse and the rights of the surviving spouse to homestead allowance, exempt property, and family allowance, or any of them, may be waived, wholly or partially, before or after marriage, by a written contract, agreement, or waiver signed by the surviving spouse.

B. A surviving spouse's waiver is not enforceable if the surviving spouse proves that:

1. The waiver was not executed voluntarily; or
2. The waiver was unconscionable when it was executed and before execution of the waiver because:
 - a. A fair and reasonable disclosure of the property or financial obligations of the decedent was not provided;
 - b. Any right to disclosure of the property or financial obligations of the decedent beyond the disclosure provided was not voluntarily and expressly waived, in writing; and
 - c. The surviving spouse did not have, or reasonably could not have had, an adequate knowledge of the property or financial obligations of the decedent.

C. An issue of unconscionability of a waiver is for decision by the court as a matter of law.

D. Unless it provides to the contrary, a waiver of all rights, or equivalent language, in the property or estate of a present or prospective spouse or a complete property settlement entered into after or in anticipation of separation or divorce is a waiver of all rights of elective share, homestead allowance, exempt property, and family allowance by each spouse in the property of the other and a renunciation by each of all benefits that would otherwise pass to one spouse from the other by intestate succession or by virtue of any will executed before the waiver or property settlement.

E. If a spouse willfully deserts or abandons the other spouse and such desertion or abandonment continues until the death of the other spouse, the party who deserted or abandoned the deceased spouse shall be barred of all interest in the decedent's estate by intestate succession, elective share, exempt property, family allowance, and homestead allowance.

§ 64.2-308.15. Protection of payors and other third parties.

A. Although under § 64.2-308.6 a payment, item of property, or other benefit is included in the decedent's non-probate transfers to others, a payor or other third party is not liable for having made a payment or transferred an item of property or other benefit to a beneficiary designated in a governing instrument, or for having taken any other action in good faith reliance on the validity of a governing instrument, upon request and satisfactory proof of the decedent's death, before the payor or other third party received written notice from the surviving spouse or spouse's representative as required by § 64.2-308.12, that a complaint for the elective share has been filed. A payor or other third party is liable for payments made or other actions taken after the payor or other third party received written notice that a complaint for the elective share has been filed.

B. A written notice that a complaint for the elective share has been filed must be mailed to the payor's or other third party's main office or home by registered or certified mail, return receipt requested, or served upon the payor or other third party in the same manner as a summons in a civil action. Upon receipt of written notice that a complaint for the elective share has been filed, a payor or other third party may pay any amount owed or transfer or deposit any item of property held by it to or with the court having jurisdiction of the probate proceedings relating to the decedent's estate. The court shall hold the funds or item of property, and, upon its determination under subsection D of § 64.2-308.12, shall order disbursement in accordance with the determination. If no complaint is filed in the court within the specified time under subsection A of § 64.2-308.12 or, if filed, the election for an elective share is withdrawn under subsection C of § 64.2-308.12, the court shall order disbursement to the designated beneficiary. Payments or transfers to the court or deposits made into court discharge the payor or other third party from all claims for amounts so paid or the value of property so transferred or deposited.

C. Upon complaint to the probate court by the beneficiary designated in a governing instrument, the court may order that all or part of the property be paid to the beneficiary in an amount and subject to conditions consistent with this article.

§ 64.2-308.16. Rights in family residence.

Until the surviving spouse's rights in the principal family residence have been determined and satisfied by an agreement between the parties or a final court decree, in cases (i) where the principal family residence passes under the provisions of § 64.2-200 and the decedent is survived by children or their descendants, one or more of whom are not children or their descendants of the surviving spouse, or (ii) where the surviving spouse claims an elective share in the decedent's augmented estate under this article, the surviving spouse may hold, occupy, and enjoy the principal family residence and curtilage without charge for rent, repairs, taxes, or insurance. If the surviving spouse is deprived of possession of the principal family residence and curtilage, upon the filing of a complaint for unlawful entry or detainer, he is entitled to recover possession of such residence and damages sustained by him by reason of such deprivation during the time he was so deprived. Nothing in this section shall be construed to impair the lien or delay the enforcement of such lien of the Commonwealth or any locality for the taxes assessed upon the property.

§ 64.2-308.17. Statutory rights barred by desertion or abandonment.

If a parent willfully deserts or abandons his minor or incapacitated child and such desertion or abandonment continues until the death of the child, the parent shall be barred of all interest in the child's estate by intestate succession.

§ 64.2-311. Homestead allowance.

A. In addition to any other right or allowance under this article, a surviving spouse of a decedent who was domiciled in the Commonwealth is entitled to a homestead allowance of \$20,000. If there is no surviving spouse, each minor child of the decedent is entitled to a homestead allowance amounting to \$20,000, divided by the number of minor children.

B. The homestead allowance has priority over all claims against the estate, except the family allowance and the right to exempt property.

C. The homestead allowance is in lieu of any share passing to the surviving spouse or minor children by the decedent's will or by intestate succession; provided, however, if the amount passing to the surviving spouse and minor children by the decedent's will or by intestate succession is less than \$20,000, then the surviving spouse or minor children are entitled to a homestead allowance in an amount that when added to the property passing to the surviving spouse and minor children by the decedent's will or by intestate succession, equals the sum of \$20,000.

D. If the surviving spouse claims and receives an elective share of the decedent's estate under §§ 64.2-302 through 64.2-307 or Article 1.1 (§ 64.2-308.1 et seq.), as applicable, the surviving spouse shall not have the benefit of any homestead allowance.

§ 64.2-317. Disposition upon death.

Upon death of a married person, one-half of the property to which this article applies is the property of the surviving spouse and is not subject to testamentary disposition by the decedent or distribution under the laws of intestate succession of the Commonwealth. One-half of that property is the property of the decedent and is subject to testamentary disposition or distribution under the laws of intestate succession of the Commonwealth. With respect to property to which this article applies, the decedent's one-half of the property is not subject to the surviving spouse's right to an elective share under § 64.2-302 or Article 1.1 (§ 64.2-308.1 et seq.), as applicable.

§ 64.2-500. Grant of administration with the will annexed.

A. If the will does not name an executor, or the executor named refuses to accept, fails to give bond, or dies, resigns, or is removed from office, the court or clerk may grant administration with the will annexed to a person who is a residual or substantial legatee under the will, or his designee, or if such person fails to apply for administration within 30 days, to a person who would have been entitled to administration if there had been no will.

B. Administration shall not be granted to any person unless he takes the required oath and gives bond, and the court or clerk is satisfied that he is suitable and competent to perform the duties of his office. Administration shall not be granted to any person under a disability as defined in § 8.01-2.

C. If any beneficiary of the estate objects, a spouse or parent who has been barred from all interest in the estate because of desertion or abandonment as provided under § 64.2-308 or 64.2-308.17, *as applicable*, may not serve as an administrator of the estate.

§ 64.2-502. Grant of administration of intestate estate.

A. The court or the clerk who would have jurisdiction as to the probate of a will, if there were a will, has jurisdiction to hear and determine the right of administration of the estate in the case of a person dying intestate. Administration shall be granted as follows:

1. During the first 30 days following the decedent's death, the court or the clerk may grant administration to a sole distributee, or his designee, or in the absence of a sole distributee, to any distributee, or his designee, who presents written waivers of the right to qualify from all other competent distributees.

2. After 30 days have passed since the decedent's death, the court or the clerk may grant administration to the first distributee, or his designee, who applies, provided, that if, during the first 30 days following the decedent's death, more than one distributee notifies the court or the clerk of an intent to qualify after the 30-day period has elapsed, the court or the clerk shall not grant administration to any distributee, or his designee, until the court or the clerk has given all such distributees an opportunity to be heard.

3. After 45 days have passed since the decedent's death, the court or the clerk may grant administration to any nonprofit charitable organization that operated as a conservator or guardian for the decedent at the time of his death if such organization certifies that it has made a diligent search to find an address for any sole distributee and has sent notice by certified mail to the last known address of any such distributee of its intention to apply for administration at least 30 days before such application, or, that it has not been able to find any address for such distributee. However, if, during the first 45 days following the decedent's death, any distributee notifies the court or the clerk of an intent to qualify after the 45-day period has elapsed, the court or the clerk shall not grant administration to any such organization until the court or the clerk has given all such distributees an opportunity to be heard. Qualification of such nonprofit charitable organization is not subject to challenge on account of the failure to make the certification required by this subdivision.

4. After 60 days have passed since the decedent's death, the court or the clerk may grant administration to one or more of the creditors or to any other person, provided such creditor or person other than a distributee certifies that he has made a diligent search to find an address for any sole distributee and has sent notice by certified mail to the last known address of any such distributee of his intention to apply for administration at least 30 days before such application, or that he has not been able to find any address for such distributee. Qualification of a creditor or person other than a distributee is not subject to challenge on account of the failure to make the certification required by this subdivision.

B. When granting administration, if the court determines that it is in the best interests of a decedent's estate, the court may depart from the provisions of this section at any time and grant administration to such person as the court deems appropriate.

C. The court or clerk may admit to probate a will of the decedent after a grant of administration. If administration has been granted to a creditor or person other than a distributee, the court or clerk may grant administration to a distributee who applies for administration and who has not previously been refused administration after reasonable notice has been given to such creditor or other person previously granted administration. Admission of a will to probate or the grant of administration pursuant to this subsection terminates any previous grant of administration.

D. The court or clerk shall not grant administration to any person unless satisfied that he is suitable and competent to perform the duties of his office. The clerk shall require such person to sign under oath that such person is not under a disability as defined in § 8.01-2 or, regardless of whether his civil rights have been restored, has not been convicted of a felony offense of (i) fraud or misrepresentation or (ii) robbery, extortion, burglary, larceny, embezzlement, fraudulent conversion, perjury, bribery, treason, or racketeering. However, if the person convicted of such felony offense is the sole distributee of the estate, then the court or clerk may grant administration to such person if he is otherwise suitable and competent to perform the duties of his office.

E. If any beneficiary of the estate objects, a spouse or parent who has been barred from all interest in the estate because of desertion or abandonment as provided under § 64.2-308 or 64.2-308.17, *as applicable*, may not serve as an administrator of the estate of the deceased spouse or child.

§ 64.2-556. Order to show cause against distribution of estate to legatees or distributees; liability of legatees or distributees to refund.

A. When a report of the accounts of any personal representative and of the debts and demands against the decedent's estate has been filed in the office of a clerk of a court, whether under §§ 64.2-550 and 64.2-551 or in a civil action, the court, after six months from the qualification of the personal representative, may, on motion of the personal representative, or a successor or substitute personal representative, or on motion of a legatee or distributee of the decedent, enter an order for the

creditors and all other persons interested in the estate of the decedent to show cause on the day named in the order against the payment and delivery of the estate of the decedent to his legatees or distributees. A copy of the order shall be published once a week for two successive weeks, in one or more newspapers, as the court directs; the costs of such publication shall be paid by the petitioner or applicant. On or after the day named in the order, the court may order the payment and delivery to the legatees or distributees of the whole or a part of the money and other estate not before distributed, with or without a refunding bond, as it prescribes. However, every legatee or distributee to whom any such payment or delivery is made, and his representatives, may, in a suit brought against him within five years after such payment or delivery is made, be adjudged to refund a due proportion of any claims enforceable against the decedent or his estate that have been finally allowed by the commissioner of accounts or the court, or that were not presented to the commissioner of accounts, and the costs of the recovery of such claim. In the event any claim becomes known to the fiduciary after the notice for debts and demands but prior to the entry of an order of distribution, the claimant, if the claim is disputed, shall be given notice in the form provided in § 64.2-550 and the order of distribution shall not be entered until after expiration of 10 days from the giving of such notice. If the claimant, within such 10-day period, indicates his desire to pursue the claim, the commissioner of accounts shall schedule a date for hearing the claim and for reporting thereon if action thereon is contemplated under § 64.2-550.

B. Any personal representative who has in good faith complied with the provisions of this section and has, in compliance with or, as subsequently approved by, the order of the court, paid and delivered the money or other estate in his possession to any party that the court has adjudged entitled thereto shall not be liable for any demands of creditors and all other persons.

C. Any personal representative who has in good faith complied with the provisions of this section and has, in compliance with, or as subsequently approved by, the order of the court, paid and delivered the money or other estate in his possession to any party that the court has adjudged entitled thereto, even if such distribution shall be prior to the expiration of the period of one year provided in § 64.2-302, *Article 1.1* (§ 64.2-308.1 *et seq.*) of Chapter 3, or § 64.2-313, 64.2-448, or 64.2-457, shall not be liable for any demands of spouses, persons seeking to impeach the will or establish another will, or purchasers of real estate from the personal representative, provided that the personal representative has contacted any surviving spouse known to it having rights of renunciation and ascertained that the surviving spouse had no plan to renounce the will, such intent to be stated in writing in the case of renunciation under § 64.2-302 or *Article 1.1* (§ 64.2-308.1 *et seq.*) of Chapter 3, as applicable, and that the personal representative has not been notified in writing of any person's intent to impeach the will or establish a later will in the case of persons claiming under § 64.2-448 or 64.2-457 or under a later will.

D. In the case of such distribution prior to the expiration of such one-year period, the personal representative shall take refunding bonds, without surety, to the next of kin or legatees to whom distribution is made, to protect against the contingencies specified in this section.

§ 64.2-632. Effect of transfer on death deed at transferor's death.

A. Except as otherwise provided in the transfer on death deed, in this section, in § 64.2-302 or *Article 1.1* (§ 64.2-308.1 *et seq.*) of Chapter 3, as applicable, or in Chapter 22 (§ 64.2-2200 *et seq.*) or 25 (§ 64.2-2500 *et seq.*), on the death of the transferor, the following rules apply to property that is the subject of a transfer on death deed and owned by the transferor at death:

1. Subject to subdivision 2, the interest in the property is transferred to and vests in the designated beneficiary at the death of the transferor in accordance with the deed.

2. The interest of a designated beneficiary is contingent on the designated beneficiary surviving the transferor. The interest of a designated beneficiary that fails to survive the transferor lapses.

3. Subject to subdivision 4, concurrent interests are transferred to the beneficiaries in equal and undivided shares with no right of survivorship.

4. If the transferor has identified two or more designated beneficiaries to receive concurrent interests in the property, the share of one that lapses or fails for any reason is transferred to the other, or to the others in proportion to the interest of each in the remaining part of the property held concurrently.

5. If, after making a transfer on death deed, the transferor is divorced a *vinculo matrimonii* or his marriage is annulled, the divorce or annulment revokes any transfer to a former spouse as designated beneficiary unless the transfer on death deed expressly provides otherwise.

B. Subject to Chapter 6 (§ 55-106 *et seq.*) of Title 55, a beneficiary takes the property subject to all conveyances, encumbrances, assignments, contracts, mortgages, liens, and other interests to which the property is subject at the transferor's death. For purposes of this subsection and Chapter 6 (§ 55-106 *et seq.*) of Title 55, the transfer and conveyance of the property subject to the transfer on death deed shall be deemed to be effective at the transferor's death.

C. If a transferor is a joint owner and is:

1. Survived by one or more other joint owners, the property that is the subject of a transfer on death deed belongs to the surviving joint owner or owners with right of survivorship but remains subject to the naming of the designated beneficiary in the transfer on death deed; or

2. The last surviving joint owner, the transfer on death deed is effective.

D. A transfer on death deed transfers property without covenant or warranty of title even if the deed contains a contrary provision.

§ 64.2-1805. Powers of guardian.

A. Whether appointed by a parent, the circuit court, or the circuit court clerk, a guardian of a ward's estate shall have the powers set forth in § 64.2-105 as of the date the guardian acts. A guardian of a ward's estate shall also have the following powers:

1. To ratify or reject a contract entered into by the ward;
2. To pay any sum distributable for the benefit of the ward by paying the sum directly to the ward, to the provider of goods and services that have been furnished to the ward, to any individual or facility that is responsible for or has assumed responsibility for care and custody of the ward, or to a ward's custodian under a Uniform Transfers to Minors Act, Uniform Gifts to Minors Act, or comparable law of any applicable jurisdiction;
3. To maintain life, health, casualty, and liability insurance for the benefit of the ward;
4. To manage the estate following the termination of the guardianship until its delivery to the ward or successors in interest;
5. To execute and deliver all instruments and to take all other actions that will serve the best interests of the ward;
6. To initiate a proceeding to seek a divorce or to make an augmented estate election under § 64.2-302 *or* 64.2-308.13, *as applicable*; and
7. To borrow money for such periods of time and upon such terms and conditions as to rates, maturities, renewals, and security as the guardian deems advisable, including the power to borrow from the guardian, if the guardian is a bank, for any purpose; to mortgage or pledge such portion of the ward's personal estate, and real estate subject to subsection B, as may be required to secure such loan or loans; and, as maker or endorser, to renew existing loans.

B. A guardian may exercise the powers set forth in subsection A without prior authorization, except that the court or the commissioner of accounts, if a guardian is appointed other than by the court, may impose requirements to be satisfied by the guardian prior to the conveyance of any interest in real estate, including (i) increasing the amount of the guardian's bond, (ii) securing an appraisal of the real estate or interest, (iii) giving notice to interested parties as the court or commissioner deems proper, and (iv) consulting with the commissioner of accounts.

1. If the court or commissioner of accounts imposes any requirements under this subsection, the guardian shall make a report of his compliance with each requirement, which shall be filed with the commissioner of accounts. Upon receipt of the guardian's report, the commissioner of accounts shall file promptly a report with the court stating whether the requirements imposed have been met and whether the conveyance is otherwise consistent with the guardian's duties. The conveyance shall not be closed until a report by the commissioner of accounts is filed with the court and confirmed as provided in §§ 64.2-1212, 64.2-1213, and 64.2-1214.

2. If the commissioner of accounts does not impose any requirements under this subsection, he shall, upon request of the guardian of the minor, issue a notarized statement providing that "The Commissioner of Accounts has declined to impose any requirements upon the power of (name of guardian), Guardian of (name of minor), to convey the following real estate of the minor: (property identification)." The conveyance shall not be closed until the guardian has furnished such a statement to the proposed grantee.

C. Any guardian may at any time irrevocably disclaim the right to exercise any of the powers conferred by this section by filing a written disclaimer with the clerk of the circuit court wherein his accounts may be settled. Such disclaimer shall relate back to the time when the guardian assumed the guardianship and shall be binding upon any successor guardian.

§ 64.2-2022. Management powers and duties of conservator.

A. A conservator, in managing the estate, shall have the powers set forth in § 64.2-105 as of the date the conservator acts as well as the following powers, which may be exercised without prior court authorization except as otherwise specifically provided in the court's order of appointment:

1. To ratify or reject a contract entered into by an incapacitated person;
2. To pay any sum distributable for the benefit of the incapacitated person or for the benefit of a legal dependent by paying the sum directly to the distributee, to the provider of goods and services, to any individual or facility that is responsible for or has assumed responsibility for care and custody, or to a distributee's custodian under a Uniform Gifts to Minors Act of any applicable jurisdiction or by paying the sum to the guardian of the incapacitated person or, in the case of a dependent, to the dependent's guardian or conservator;
3. To maintain life, health, casualty, and liability insurance for the benefit of the incapacitated person or his legal dependents;
4. To manage the estate following the termination of the conservatorship until its delivery to the incapacitated person or successors in interest;
5. To execute and deliver all instruments and to take all other actions that will serve in the best interests of the incapacitated person;
6. To initiate a proceeding (i) to revoke a power of attorney under the provisions of the Uniform Power of Attorney Act (§ 64.2-1600 et seq.), (ii) to make an augmented estate election under § 64.2-302 *or* 64.2-308.13, *as applicable*, or (iii) to make an election to take a family allowance, exempt property, or a homestead allowance under § 64.2-313; and
7. To borrow money for periods of time and upon terms and conditions for rates, maturities, renewals, and security that to the conservator shall seem advisable, including the power to borrow from the conservator, if the conservator is a bank, for any purpose; to mortgage or pledge the portion of the incapacitated person's estate that may be required to secure the loan or loans; and, as maker or endorser, to renew existing loans.

B. The court may impose requirements to be satisfied by the conservator prior to the conveyance of any interest in real estate, including (i) increasing the amount of the conservator's bond, (ii) securing an appraisal of the real estate or interest, (iii) giving notice to interested parties as the court deems proper, (iv) consulting by the conservator with the commissioner of accounts and, if one has been appointed, with the guardian, and (v) requiring the use of a common source information company, as defined in § 54.1-2130, when listing the property. If the court imposes any such requirements, the conservator shall make a report of his compliance with each requirement, to be filed with the commissioner of accounts. Promptly following receipt of the conservator's report, the commissioner of accounts shall file a report with the court indicating whether the requirements imposed have been met and whether the sale is otherwise consistent with the conservator's duties. The conveyance shall not be closed until a report by the commissioner of accounts is filed with the court and confirmed as provided in §§ 64.2-1212, 64.2-1213, and 64.2-1214.

a. If an infant becomes entitled to bring such action, the time during which he is within the age of minority shall not be counted as any part of the period within which the action must be brought except as to any such period during which the infant has been judicially declared emancipated; or

b. If a person entitled to bring such action becomes incapacitated, the time during which he is incapacitated shall not be computed as any part of the period within which the action must be brought, except where a conservator, guardian or committee is appointed for such person in which case an action may be commenced by such conservator, committee or guardian before the expiration of the applicable period of limitation or within one year after his qualification as such, whichever occurs later.

For the purposes of subdivisions 1 and 2 ~~of this subsection~~, a person shall be deemed incapacitated if he is so adjudged by a court of competent jurisdiction, or if it shall otherwise appear to the court or jury determining the issue that such person is or was incapacitated within the prescribed limitation period.

3. If a convict is or becomes entitled to bring an action against his committee, the time during which he is incarcerated shall not be counted as any part of the period within which the action must be brought.

B. Effect of death of a party. — The death of a person entitled to bring an action or of a person against whom an action may be brought shall toll the statute of limitations as follows:

1. Death of person entitled to bring a personal action. — If a person entitled to bring a personal action dies with no such action pending before the expiration of the limitation period for commencement thereof, then an action may be commenced

by the decedent's personal representative before the expiration of the limitation period including the limitation period as provided by subdivision E 3 or within one year after his qualification as personal representative, whichever occurs later.

2. Death of person against whom personal action may be brought. — a. If a person against whom a personal action may be brought dies before the commencement of such action and before the expiration of the limitation period for commencement thereof then a claim may be filed against the decedent's estate or an action may be commenced against the decedent's personal representative before the expiration of the applicable limitation period or within one year after the qualification of such personal representative, whichever occurs later.

b. If a person against whom a personal action may be brought dies before suit papers naming such person as defendant have been filed with the court, then such suit papers may be amended to substitute the decedent's personal representative as party defendant before the expiration of the applicable limitation period or within two years after the date such suit papers were filed with the court, whichever occurs later, and such suit papers shall be taken as properly filed.

3. Effect of death on actions for recovery of realty, or a proceeding for enforcement of certain liens relating to realty. — Upon the death of any person in whose favor or against whom an action for recovery of realty, or a proceeding for enforcement of certain liens relating to realty, may be brought, such right of action shall accrue to or against his successors in interest as provided in Article 2 (§ 8.01-236 et seq.) ~~of this chapter.~~

4. Accrual of a personal cause of action against the estate of any person subsequent to such person's death. — If a personal cause of action against a decedent accrues subsequent to his death, an action may be brought against the decedent's personal representative or a claim thereon may be filed against the estate of such decedent before the expiration of the applicable limitation period or within two years after the qualification of the decedent's personal representative, whichever occurs later.

5. Accrual of a personal cause of action in favor of decedent. — If a person dies before a personal cause of action which survives would have accrued to him, if he had continued to live, then an action may be commenced by such decedent's personal representative before the expiration of the applicable limitation period or within one year after the qualification of such personal representative, whichever occurs later.

6. Delayed qualification of personal representative. — If there is an interval of more than two years between the death of any person in whose favor or against whom a cause of action has accrued or shall subsequently accrue and the qualification of such person's personal representative, such personal representative shall, for the purposes of this chapter, be deemed to have qualified on the last day of such two-year period.

C. Suspension during injunctions. — When the commencement of any action is stayed by injunction, the time of the continuance of the injunction shall not be computed as any part of the period within which the action must be brought.

D. Obstruction of filing by defendant. — When the filing of an action is obstructed by a defendant's (i) filing a petition in bankruptcy or filing a petition for an extension or arrangement under the United States Bankruptcy Act or (ii) using any other direct or indirect means to obstruct the filing of an action, then the time that such obstruction has continued shall not be counted as any part of the period within which the action must be brought.

E. Dismissal, abatement, or nonsuit.

1. Except as provided in subdivision 3 ~~of this subsection,~~ if any action is commenced within the prescribed limitation period and for any cause abates or is dismissed without determining the merits, the time such action is pending shall not be computed as part of the period within which such action may be brought, and another action may be brought within the remaining period.

2. If a judgment or decree is rendered for the plaintiff in any action commenced within the prescribed limitation period and such judgment or decree is arrested or reversed upon a ground which does not preclude a new action for the same cause, or if there is occasion to bring a new action by reason of the loss or destruction of any of the papers or records in a former action which was commenced within the prescribed limitation period, then a new action may be brought within one year after such arrest or reversal or such loss or destruction, but not after.

3. If a plaintiff suffers a voluntary nonsuit as prescribed in § 8.01-380, the statute of limitations with respect to such action shall be tolled by the commencement of the nonsuited action, *regardless of whether the statute of limitations is statutory or contractual*, and the plaintiff may recommence his action within six months from the date of the order entered by the court, or within the original period of limitation, or within the limitation period as provided by subdivision B 1, whichever period is longer. This tolling provision shall apply irrespective of whether the action is originally filed in a federal or a state court and recommenced in any other court, and shall apply to all actions irrespective of whether they arise under common law or statute.

F. Effect of devise for payment of debts. — No provision in the will of any testator devising his real estate, or any part thereof, subject to the payment of his debts or charging the same therewith, or containing any other provision for the payment of debts, shall prevent this chapter from operating against such debts, unless it plainly appears to be the testator's intent that it shall not so operate.

G. Effect of new promise in writing.

1. If any person against whom a right of action has accrued on any contract, other than a judgment or recognizance, promises, by writing signed by him or his agent, payment of money on such contract, the person to whom the right has accrued may maintain an action for the money so promised, within such number of years after such promise as it might be maintained if such promise were the original cause of action. An acknowledgment in writing, from which a promise of payment may be implied, shall be deemed to be such promise within the meaning of this subsection.

2. The plaintiff may sue on the new promise described in subdivision 1 ~~of this subsection~~ or on the original cause of action, except that when the new promise is of such a nature as to merge the original cause of action then the action shall be only on the new promise.

H. Suspension of limitations in creditors' suits. — When an action is commenced as a general creditors' action, or as a general lien creditors' action, or as an action to enforce a mechanics' lien, the running of the statute of limitations shall be suspended as to debts provable in such action from the commencement of the action, provided they are brought in before the commissioner in chancery under the first reference for an account of debts; but as to claims not so brought in the statute shall continue to run, without interruption by reason either of the commencement of the action or of the order for an account, until a later order for an account, under which they do come in, or they are asserted by petition or independent action.

In actions not instituted originally either as general creditors' actions, or as general lien creditors' actions, but which become such by subsequent proceedings, the statute of limitations shall be suspended by an order of reference for an account of debts or of liens only as to those creditors who come in and prove their claims under the order. As to creditors who come in afterwards by petition or under an order of recomittal, or a later order of reference for an account, the statute shall continue to run without interruption by reason of previous orders until filing of the petition, or until the date of the reference under which they prove their claims, as the case may be.

I. When an action is commenced within a period of ~~thirty~~ 30 days prior to the expiration of the limitation period for commencement thereof and the defending party or parties desire to institute an action as third-party plaintiff against one or more persons not party to the original action, the running of the period of limitation against such action shall be suspended as to such new party for a period of ~~sixty~~ 60 days from the expiration of the applicable limitation period.

J. If any award of compensation by the Workers' Compensation Commission pursuant to Chapter 5 (§ 65.2-500 et seq.) of Title 65.2 is subsequently found void ab initio, other than an award voided for fraudulent procurement of the award by the claimant, the statute of limitations applicable to any civil action upon the same claim or cause of action in a court of this Commonwealth shall be tolled for that period of time during which compensation payments were made.

K. Suspension of limitations during criminal proceedings. — In any personal action for damages, if a criminal prosecution arising out of the same facts is commenced, the time such prosecution is pending shall not be computed as part of the period within which such a civil action may be brought. For purposes of this subsection, the time during which a prosecution is pending shall be calculated from the date of the issuance of a warrant, summons or capias, the return or filing of an indictment or information, or the defendant's first appearance in any court as an accused in such a prosecution, whichever date occurs first, until the date of the final judgment or order in the trial court, the date of the final disposition of any direct appeal in state court, or the date on which the time for noting an appeal has expired, whichever date occurs last. Thereafter, the civil action may be brought within the remaining period of the statute or within one year, whichever is longer.

If a criminal prosecution is commenced and a grand jury indictment is returned or a grand jury indictment is waived after the period within which a civil action arising out of the same set of facts may be brought, a civil action may be brought within one year of the date of the final judgment or order in the trial court, the date of the final disposition of any direct appeal in state court, or the date on which the time for noting an appeal has expired, whichever date occurs last, but no more than ~~ten~~ 10 years after the date of the crime or two years after the cause of action shall have accrued under § 8.01-249, whichever date occurs last.

3. In a claim for the negligent failure to diagnose a malignant tumor ~~or~~ cancer, *or an intracranial, intraspinal, or spinal schwannoma*, for a period of one year from the date the diagnosis of a malignant tumor ~~or~~ cancer, *or an intracranial, intraspinal, or spinal schwannoma* is communicated to the patient by a health care provider, provided that the health care provider's underlying act or omission was on or after July 1, 2008, *in the case of a malignant tumor or cancer or on or after July 1, 2016, in the case of an intracranial, intraspinal, or spinal schwannoma*. Claims under this section for the negligent failure to diagnose a malignant tumor or cancer, where the health care provider's underlying act or omission occurred prior to July 1, 2008, shall be governed by the statute of limitations that existed prior to July 1, 2008. *Claims under this section for the negligent failure to diagnose an intracranial, intraspinal, or spinal schwannoma, where the health care provider's underlying act or omission occurred prior to July 1, 2016, shall be governed by the statute of limitations that existed prior to July 1, 2016.*

However, the provisions of this subsection shall not apply to extend the limitations period beyond ~~ten~~ 10 years from the date the cause of action accrues, except that the provisions of subdivision A 2 of § 8.01-229 shall apply to toll the statute of limitations in actions brought by or on behalf of a person under a disability.

D. Every action for injury to the person, whatever the theory of recovery, resulting from sexual abuse occurring during the infancy or incapacity of the person as set forth in subdivision 6 of § 8.01-249 shall be brought within 20 years after the cause of action accrues.

The rules shall provide, among other provisions, that no commissioner shall consult with any party or any person acting on behalf of any party with respect to such proceeding without giving adequate notice and opportunity for all parties to participate.

§ 56-237.1. Notification of intent to seek rate change in schedules required to be filed under § 56-236.

CHAPTER 192

An Act to amend and reenact § 56-46.1 of the Code of Virginia, relating to State Corporation Commission; approval of electrical transmission lines; hearing.

[S 136]

Approved March 1, 2016

Be it enacted by the General Assembly of Virginia:

1. That § 56-46.1 of the Code of Virginia is amended and reenacted as follows:

§ 56-46.1. Commission to consider environmental, economic and improvements in service reliability factors in approving construction of electrical utility facilities; approval required for construction of certain electrical transmission lines; notice and hearings.

A. Whenever the Commission is required to approve the construction of any electrical utility facility, it shall give consideration to the effect of that facility on the environment and establish such conditions as may be desirable or necessary to minimize adverse environmental impact. In order to avoid duplication of governmental activities, any valid permit or approval required for an electric generating plant and associated facilities issued or granted by a federal, state or local governmental entity charged by law with responsibility for issuing permits or approvals regulating environmental impact and mitigation of adverse environmental impact or for other specific public interest issues such as building codes, transportation plans, and public safety, whether such permit or approval is granted prior to or after the Commission's decision, shall be deemed to satisfy the requirements of this section with respect to all matters that (i) are governed by the permit or approval or (ii) are within the authority of, and were considered by, the governmental entity in issuing such permit or approval, and the Commission shall impose no additional conditions with respect to such matters. Nothing in this section shall affect the ability of the Commission to keep the record of a case open. Nothing in this section shall affect any right to appeal such permits or approvals in accordance with applicable law. In the case of a proposed facility located in a region that was designated as of July 1, 2001, as serious nonattainment for the one-hour ozone standard as set forth in the federal Clean Air Act, the Commission shall not issue a decision approving such proposed facility that is conditioned upon issuance of any environmental permit or approval. In every proceeding under this subsection, the Commission shall receive and give consideration to all reports that relate to the proposed facility by state agencies concerned with environmental protection; and if requested by any county or municipality in which the facility is proposed to be built, to local comprehensive plans that have been adopted pursuant to Article 3 (§ 15.2-2223 et seq.) of Chapter 22 of Title 15.2. Additionally, the Commission (a) shall consider the effect of the proposed facility on economic development within the Commonwealth, including but not limited to furtherance of the economic and job creation objectives of the Commonwealth Energy Policy set forth in §§ 67-101 and 67-102, and (b) shall consider any improvements in service reliability that may result from the construction of such facility.

B. Subject to the provisions of subsection J, no electrical transmission line of 138 kilovolts or more shall be constructed unless the State Corporation Commission shall, after at least 30 days' advance notice by (i) publication in a newspaper or newspapers of general circulation in the counties and municipalities through which the line is proposed to be built, (ii) written notice to the governing body of each such county and municipality, and (iii) causing to be sent a copy of the notice by first class mail to all owners of property within the route of the proposed line, as indicated on the map or sketch of the route filed with the Commission, which requirement shall be satisfied by mailing the notice to such persons at such addresses as are indicated in the land books maintained by the commissioner of revenue, director of finance or treasurer of the county or municipality, approve such line. Such notices shall include a written description of the proposed route the line is to follow, as well as a map or sketch of the route including a digital geographic information system (GIS) map provided by the public utility showing the location of the proposed route. The Commission shall make GIS maps provided under this subsection available to the public on the Commission's website. Such notices shall be in addition to the advance notice to the chief administrative officer of the county or municipality required pursuant to § 15.2-2202. As a condition to approval the Commission shall determine that the line is needed and that the corridor or route the line is to follow will reasonably minimize adverse impact on the scenic assets, historic districts and environment of the area concerned. To assist the Commission in this determination, as part of the application for Commission approval of the line, the applicant shall summarize its efforts to reasonably minimize adverse impact on the scenic assets, historic districts, and environment of the area concerned. In making the determinations about need, corridor or route, and method of installation, the Commission shall verify the applicant's load flow modeling, contingency analyses, and reliability needs presented to justify the new line and its proposed method of installation. If the local comprehensive plan of an affected county or municipality designates corridors or routes for electric transmission lines and the line is proposed to be constructed outside such corridors or routes, in any hearing the county or municipality may provide adequate evidence that the existing planned corridors or routes designated in the plan can adequately serve the needs of the company. Additionally, the Commission shall consider, upon the request of the governing body of any county or municipality in which the line is proposed to be

constructed, (a) the costs and economic benefits likely to result from requiring the underground placement of the line and (b) any potential impediments to timely construction of the line.

C. If, prior to such approval, any interested party shall request a public hearing, the Commission shall, as soon as reasonably practicable after such request, hold such hearing or hearings at such place as may be designated by the Commission. In any hearing the public service company shall provide adequate evidence that existing rights-of-way cannot adequately serve the needs of the company.

If, prior to such approval, written requests therefor are received from *the governing body of any county or municipality through which the line is proposed to be built* or from 20 or more interested parties, the Commission shall hold at least one hearing in the area ~~which~~ that would be affected by construction of the line, for the purpose of receiving public comment on the proposal. If any hearing is to be held in the area affected, the Commission shall direct that a copy of the transcripts of any previous hearings held in the case be made available for public inspection at a convenient location in the area for a reasonable time before such local hearing.

D. As used in this section, unless the context requires a different meaning:

"Environment" or "environmental" shall be deemed to include in meaning "historic," as well as a consideration of the probable effects of the line on the health and safety of the persons in the area concerned.

"Interested parties" shall include the governing bodies of any counties or municipalities through which the line is proposed to be built, and persons residing or owning property in each such county or municipality.

"Public utility" means a public utility as defined in § 56-265.1.

"Qualifying facilities" means a cogeneration or small power production facility which meets the criteria of 18 C.F.R. Part 292.

"Reasonably accommodate requests to wheel or transmit power" means:

1. That the applicant will make available to new electric generation facilities constructed after January 9, 1991, qualifying facilities and other nonutilities, a minimum of one-fourth of the total megawatts of the additional transmission capacity created by the proposed line, for the purpose of wheeling to public utility purchasers the power generated by such qualifying facilities and other nonutility facilities which are awarded a power purchase contract by a public utility purchaser in compliance with applicable state law or regulations governing bidding or capacity acquisition programs for the purchase of electric capacity from nonutility sources, provided that the obligation of the applicant will extend only to those requests for wheeling service made within the 12 months following certification by the State Corporation Commission of the transmission line and with effective dates for commencement of such service within the 12 months following completion of the transmission line; and

2. That the wheeling service offered by the applicant, pursuant to subdivision D 1, will reasonably further the purposes of the Public Utilities Regulatory Policies Act of 1978 (P. L. 95-617), as demonstrated by submitting to the Commission, with its application for approval of the line, the cost methodologies, terms, conditions, and dispatch and interconnection requirements the applicant intends, subject to any applicable requirements of the Federal Energy Regulatory Commission, to include in its agreements for such wheeling service.

E. In the event that, at any time after the giving of the notice required in subsection B, it appears to the Commission that consideration of a route or routes significantly different from the route described in the notice is desirable, the Commission shall cause notice of the new route or routes to be published and mailed in accordance with subsection B. The Commission shall thereafter comply with the provisions of this section with respect to the new route or routes to the full extent necessary to give *affected localities and* interested parties in the newly affected areas the same protection afforded to *affected localities and* interested parties affected by the route described in the original notice.

F. Approval of a transmission line pursuant to this section shall be deemed to satisfy the requirements of § 15.2-2232 and local zoning ordinances with respect to such transmission line.

G. The Commission shall enter into a memorandum of agreement with the Department of Environmental Quality regarding the coordination of their reviews of the environmental impact of electric generating plants and associated facilities.

H. An applicant that is required to obtain (i) a certificate of public convenience and necessity from the Commission for any electric generating facility, electric transmission line, natural or manufactured gas transmission line as defined in 49 Code of Federal Regulations § 192.3, or natural or manufactured gas storage facility (hereafter, an energy facility) and (ii) an environmental permit for the energy facility that is subject to issuance by any agency or board within the Secretariat of Natural Resources, may request a pre-application planning and review process. In any such request to the Commission or the Secretariat of Natural Resources, the applicant shall identify the proposed energy facility for which it requests the pre-application planning and review process. The Commission, the Department of Environmental Quality, the Marine Resources Commission, the Department of Game and Inland Fisheries, the Department of Historic Resources, the Department of Conservation and Recreation, and other appropriate agencies of the Commonwealth shall participate in the pre-application planning and review process. Participation in such process shall not limit the authority otherwise provided by law to the Commission or other agencies or boards of the Commonwealth. The Commission and other participating agencies of the Commonwealth may invite federal and local governmental entities charged by law with responsibility for issuing permits or approvals to participate in the pre-application planning and review process. Through the pre-application planning and review process, the applicant, the Commission, and other agencies and boards shall identify the potential impacts and approvals that may be required and shall develop a plan that will provide for an efficient and coordinated

review of the proposed energy facility. The plan shall include (a) a list of the permits or other approvals likely to be required based on the information available, (b) a specific plan and preliminary schedule for the different reviews, (c) a plan for coordinating those reviews and the related public comment process, and (d) designation of points of contact, either within each agency or for the Commonwealth as a whole, to facilitate this coordination. The plan shall be made readily available to the public and shall be maintained on a dedicated website to provide current information on the status of each component of the plan and each approval process including opportunities for public comment.

I. The provisions of this section shall not apply to the construction and operation of a small renewable energy project, as defined in § 10.1-1197.5, by a utility regulated pursuant to this title for which the Department of Environmental Quality has issued a permit by rule pursuant to Article 5 (§ 10.1-1197.5 et seq.) of Chapter 11.1 of Title 10.1.

J. Approval under this section shall not be required for any transmission line for which a certificate of public convenience and necessity is not required pursuant to subdivision A of § 56-265.2.

CHAPTER 193

An Act to amend and reenact § 38.2-405 of the Code of Virginia and to amend the Code of Virginia by adding a section numbered 38.2-403.1, relating to the State Corporation Commission; insurance assessments; omissions; application for correction.

[S 209]

Approved March 1, 2016

Be it enacted by the General Assembly of Virginia:

1. That § 38.2-405 of the Code of Virginia is amended and reenacted and that the Code of Virginia is amended by adding a section numbered 38.2-403.1 as follows:

§ 38.2-403.1. Omitted assessments.

If the Commission ascertains that any assessment that could have been assessed during any current assessable year has not been assessed for any assessable year of the three years last past, or that the same has been assessed at less than the law required for any one or more of such years, or that the assessment, for any cause, has not been realized, the Commission shall list and assess the same at the rate prescribed for that year, adding thereto a penalty of 10 percent and interest at the rate established pursuant to § 58.1-1812 which shall be computed upon the assessment from the due date of the assessment until the assessment is paid.

§ 38.2-405. Application for correction of assessment.

~~A company~~ Any corporation aggrieved by the assessment assessed or imposed by or under authority of this chapter and collected from any corporation, domestic or foreign, may ~~appeal~~, within one year from the date of the payment of such assessment, apply to the ~~Supreme Court of Virginia in accordance with the Rules of Court applicable to appeals from the State Corporation Commission for a refund, in whole or in part, of the amount so assessed or imposed and paid. If the court is of the opinion that the assessment is either excessive or insufficient, the court shall by its order request the Commission to make appropriate adjustments. If the appellant fails to pay the assessment when due and the court affirms the action of the Commission, judgment shall be entered against the appellant for damages, which are to be paid to the Commission, equal to legal interest upon the amount of the assessment from the time the assessment was payable. If relief is granted in whole or in part, judgment shall be rendered against the Commonwealth for any excess that may have been paid, with legal interest. No payment shall be recovered after a formal adjudication in a proceeding in which the right of appeal existed and was not taken. Such application shall be by written petition, in duplicate and verified by affidavit. Such application shall be filed with the Commission and shall set forth the names and addresses of every party in interest.~~

§ 19.2-386.2. Seizure of named property.

A. When any property subject to seizure under Chapter 22.2 (§ 19.2-386.15 et seq.) or other provision under the Code has not been seized at the time an information naming that property is filed, the clerk of the circuit court or a judge of the circuit court, upon motion of the attorney for the Commonwealth wherein the information is filed, shall issue a warrant to the sheriff or other state or local law-enforcement officer authorized to serve criminal process in the jurisdiction where the property is located, describing the property named in the complaint and authorizing its immediate seizure.

B. In all cases of seizure of real property, a notice of lis pendens shall be filed with the clerk of the circuit court of the county or city wherein the property is located and shall be indexed in the land records in the name or names of those persons whose interests appear to be affected thereby.

C. An agency's failure to provide a copy of an inventory pursuant to this subsection shall not invalidate any forfeiture.

D. When any property is seized for the purposes of forfeiture under Chapter 22.2 (§ 19.2-386.15 et seq.) or other forfeiture provision under the Code, and an information naming that property has not been filed, neither the agency seizing the property nor any other law-enforcement agency may request, require, or in any manner induce any person who asserts ownership, lawful possession, or any lawful right to the property to waive his interest in or rights to the property until an information has been filed.

§ 19.2-386.2:1. Notice to Commissioner of Department of Motor Vehicles; duties of Commissioner.

If the property seized is a motor vehicle required by the motor vehicle laws of Virginia to be registered, the attorney for the Commonwealth shall forthwith notify the Commissioner of the Department of Motor Vehicles, by certified mail, *or electronically in a format prescribed by the Commissioner*, of such seizure and the motor number of the vehicle so seized, and the Commissioner shall promptly certify to such attorney for the Commonwealth the name and address of the person in whose name such vehicle is registered, together with the name and address of any person holding a lien thereon, ~~and the amount thereof~~. The Commissioner shall also forthwith notify such registered owner and lienor, in writing, of the reported seizure and the county or city wherein such seizure was made.

The certificate of the Commissioner, concerning such registration and lien, shall be received in evidence in any proceeding, either civil or criminal, under any provision of this chapter, in which such facts may be material to the issue involved.

§ 19.2-386.10. Trial.

A. A party defendant who fails to appear as provided in § 19.2-386.9 shall be in default. The forfeiture shall be deemed established as to the interest of any party in default upon entry of judgment as provided in § 19.2-386.11. Within ~~twenty-one~~ 21 days after entry of judgment, any party defendant against whom judgment has been so entered may petition the Department of Criminal Justice Services for remission of his interest in the forfeited property. For good cause shown and upon proof that the party defendant's interest in the property is exempt under subdivision 2, 3 or 4 of § 19.2-386.8, the Department of Criminal Justice Services shall grant the petition and direct the state treasury to either (i) remit to the party

defendant an amount not exceeding the party defendant's interest in the proceeds of sale of the forfeited property after deducting expenses incurred and payable pursuant to subsection B of § 19.2-386.12 or (ii) convey clear and absolute title to the forfeited property in extinguishment of such interest.

If any party defendant appears in accordance with § 19.2-386.9, the court shall proceed to trial of the case, unless trial by jury is demanded by the Commonwealth or any party defendant. At trial, the Commonwealth has the burden of proving that the property is subject to forfeiture under this chapter. Upon such a showing by the Commonwealth, the claimant has the burden of proving that the claimant's interest in the property is exempt under subdivision 2, 3 or 4 of § 19.2-386.8. The proof of all issues shall be by a preponderance of the evidence.

B. The information and trial thereon shall be independent of any criminal proceeding against any party or other person for violation of law. However, upon motion and for good cause shown, the court may stay a forfeiture proceeding that is related to any *warrant*, indictment, or information.

§ 19.2-386.14. Sharing of forfeited assets.

A. All cash, negotiable instruments, and proceeds from a sale conducted pursuant to § 19.2-386.7 or 19.2-386.12, after deduction of expenses, fees, and costs as provided in § 19.2-386.12, shall, as soon after entry of the forfeiture as is practicable, be distributed in a manner consistent with this chapter and Article VIII, Section 8 of the Constitution of Virginia.

A1. All cash, negotiable instruments and proceeds from a sale conducted pursuant to § 19.2-386.7 or 19.2-386.12, after deduction of expenses, fees and costs as provided in § 19.2-386.12, shall, as soon after entry of the forfeiture as is practicable, be paid over to the state treasury into a special fund of the Department of Criminal Justice Services for distribution in accordance with this section. The forfeited property and proceeds, less 10 percent, shall be made available to federal, state and local agencies to promote law enforcement in accordance with this section and regulations adopted by the Criminal Justice Services Board to implement the asset-sharing program.

The 10 percent retained by the Department shall be held in a nonreverting fund, known as the Asset Sharing Administrative Fund. Administrative costs incurred by the Department to manage and operate the asset-sharing program shall be paid from the Fund. Any amounts remaining in the Fund after payment of these costs shall be used to promote state or local law-enforcement activities. Distributions from the Fund for these activities shall be based upon need and shall be made from time to time in accordance with regulations promulgated by the Board.

B. Any federal, state or local agency or office that directly participated in the investigation or other law-enforcement activity which led, directly or indirectly, to the seizure and forfeiture shall be eligible for, and may petition the Department for, return of the forfeited asset or an equitable share of the net proceeds, based upon the degree of participation in the law-enforcement effort resulting in the forfeiture, taking into account the total value of all property forfeited and the total law-enforcement effort with respect to the violation of law on which the forfeiture is based. Upon finding that the petitioning agency is eligible for distribution and that all participating agencies agree on the equitable share of each, the Department shall distribute each share directly to the appropriate treasury of the participating agency.

If all eligible participating agencies cannot agree on the equitable shares of the net proceeds, the shares shall be determined by the Criminal Justice Services Board in accordance with regulations which shall specify the criteria to be used by the Board in assessing the degree of participation in the law-enforcement effort resulting in the forfeiture.

C. After the order of forfeiture is entered concerning any motor vehicle, boat, aircraft, or other tangible personal property, any seizing agency may (i) petition the Department for return of the property that is not subject to a grant or pending petition for remission or (ii) request the circuit court to order the property destroyed. Where all the participating agencies agree upon the equitable distribution of the tangible personal property, the Department shall return the property to those agencies upon finding that (a) the agency meets the criteria for distribution as set forth in subsection B and (b) the agency has a clear and reasonable law-enforcement need for the forfeited property.

If all eligible participating agencies cannot agree on the distribution of the property, distribution shall be determined by the Criminal Justice Services Board as in subsection B, taking into consideration the clear and reasonable law-enforcement needs for the property which the agencies may have. In order to equitably distribute tangible personal property, the Criminal Justice Services Board may require the agency receiving the property to reimburse the Department in cash for the difference between the fair market value of the forfeited property and the agency's equitable share as determined by the Criminal Justice Services Board.

If a seizing agency has received property for its use pursuant to this section, when the agency disposes of the property (1) by sale, the proceeds shall be distributed as set forth in this section; or (2) by destruction pursuant to a court order, the agency shall do so in a manner consistent with this section.

D. All forfeited property, including its proceeds or cash equivalent, received by a participating state or local agency pursuant to this section shall be used to promote law enforcement but shall not be used to supplant existing programs or funds. The Board shall promulgate regulations establishing an audit procedure to ensure compliance with this section.

E. On or after July 1, 2012, but before July 1, 2014, local seizing agencies may contribute cash funds and proceeds from forfeited property to the Virginia Public Safety Foundation to support the construction of the Commonwealth Public Safety Memorial. Any funds contributed by seizing agencies shall be contributed only after an internal analysis to determine that such contributions will not negatively impact law-enforcement training or operations.

F. *The Department shall report annually on or before December 31 to the Governor and the General Assembly the amount of all cash, negotiable instruments, and proceeds from sales conducted pursuant to § 19.2-386.7 or 19.2-386.12 that*

were forfeited to the Commonwealth, including the amount of all forfeitures distributed to the Literary Fund. Such report shall also detail the amount distributed by the Department to each federal, state, or local agency or office pursuant to this section, and the amount each state or local agency or office received from federal asset forfeiture proceedings. The Department shall ensure that such report is available to the public.

6. Nothing in this section shall be construed to grant the Department any authority over the operation and security of local jails not specified in any other provision of law. The Department shall investigate allegations of criminal behavior in accordance with a written agreement entered into with the Department of State Police. The Department shall not investigate any action falling within the authority vested in the Office of the State Inspector General pursuant to Chapter 3.2 (§ 2.2-307 et seq.) of Title 2.2 unless specifically authorized by the Office of the State Inspector General; ~~and~~

CHAPTER 206

An Act to amend and reenact § 46.2-1030 of the Code of Virginia, relating to general illumination lights on motorcycles.

[S 25]

Approved March 1, 2016

Be it enacted by the General Assembly of Virginia:

1. That § 46.2-1030 of the Code of Virginia is amended and reenacted as follows:

§ 46.2-1030. When lights to be lighted; number of lights to be lighted at any time; use of warning lights.

A. Every vehicle in operation on a highway in the Commonwealth shall display lighted headlights and illuminating devices as required by this article (i) from sunset to sunrise; (ii) during any other time when, because of rain, smoke, fog, snow, sleet, insufficient light, or other unfavorable atmospheric conditions, visibility is reduced to a degree whereby persons or vehicles on the highway are not clearly discernible at a distance of 500 feet; and (iii) whenever windshield wipers are in use as a result of fog, rain, sleet, or snow. The provisions of this subsection, however, shall not apply to instances when windshield wipers are used intermittently in misting rain, sleet, or snow.

B. Not more than four lights used to provide general illumination ahead of the vehicle, including at least two headlights and any other combination of fog lights or other auxiliary lights approved by the Superintendent, shall be lighted at any time. However, ~~this limitation~~ *motorcycles may be equipped with and use not more than five approved lights in order to provide general illumination ahead of the motorcycle. These limitations* shall not preclude the display of warning lights authorized in §§ 46.2-1020 through 46.2-1027, or other lights as may be authorized by the Superintendent.

C. Vehicles equipped with warning lights authorized in §§ 46.2-1020 through 46.2-1027 shall display lighted warning lights as authorized in such sections at all times when responding to emergency calls, towing disabled vehicles, or constructing, repairing, and maintaining public highways or utilities on or along public highways, except that amber lights on vehicles designed with a ramp on wheels and a hydraulic lift with a capacity to haul or tow another vehicle, commonly referred to as "rollback," need not be lit while the vehicle is in motion unless it is actually towing a vehicle.

D. The failure to display lighted headlights and illuminating devices under the conditions set forth in clause (iii) of subsection A ~~of this section~~ shall not constitute negligence per se, nor shall violation of clause (iii) of subsection A ~~of this section~~ constitute a defense to any claim for personal injury or recovery of medical expenses for injuries sustained in a motor vehicle accident.

E. No demerit points shall be assessed for failure to display lighted headlights and illuminating devices during periods of fog, rain, sleet, or snow in violation of clause (iii) of subsection A ~~of this section~~.

F. No citation for a violation of clause (iii) of subsection A ~~of this section~~ shall be issued unless the officer issuing such citation has cause to stop or arrest the driver of such motor vehicle for the violation of some other provision of this Code or local ordinance relating to the operation, ownership, or maintenance of a motor vehicle or any criminal statute.

CHAPTER 207

An Act to amend and reenact § 15.2-1517 of the Code of Virginia, relating to fire or rescue volunteers; mental health treatment; funding by locality.

[S 79]

Approved March 1, 2016

Be it enacted by the General Assembly of Virginia:

1. That § 15.2-1517 of the Code of Virginia is amended and reenacted as follows:

§ 15.2-1517. Insurance for employees and retired employees of localities and other local governmental entities; participation by certain volunteers.

A. Any locality may provide group life, accident, and health insurance programs for its officers and employees; employees of boards, commissions, agencies, or authorities created by or controlled by such locality; or employees of boards, commissions, agencies, or authorities that are political subdivisions of the Commonwealth and work in close cooperation with such locality. In addition, any locality that provides such a health insurance program may allow eligible members of approved volunteer fire or rescue companies, as determined by the locality, to participate in such a health insurance program. Such programs may be through a program of self-insurance, purchased insurance, or partial self-insurance and purchased insurance, whichever is determined to be the most cost effective. The total cost of such policies or protection may be paid entirely by the locality or shared with the employee. The governing body of any locality

may provide for its retired officers and retired employees to be eligible for such group life, accident, and health insurance programs. The cost of such insurance for retired officers and retired employees may be paid in whole or in part by the locality. The governing body of any locality may permit members of approved volunteer fire or rescue companies to participate in its group health insurance programs, subject to the eligibility criteria established by the locality. The cost of a volunteer's participation in such a health insurance program shall be paid for in full by the participating volunteer. *Any locality may fund the cost of a volunteer's participation in a mental health treatment and counseling program that is offered to individual members of approved volunteer fire or rescue companies and is comparable to an employee assistance program offered to paid employees of the locality.*

B. In the event a county or city elects to provide one or more of such programs for its officers and employees, it shall provide such programs to the constitutional officers and their employees on the same basis as provided to other officers and employees, unless the constitutional officers and employees are covered under a state program, and the cost of such local program shall be borne entirely by the locality or shared with the employee.

C. 1. Except as otherwise provided herein, in the event the governing body of any locality elects to provide group accident and health insurance for its officers and employees, including constitutional officers and their employees, such programs shall require that upon retirement, or upon the effective date of this provision for those who have previously retired, any such individual with (i) at least 15 years of continuous employment with the locality or (ii) less than 15 years of continuous employment who has retired due to line-of-duty injuries may choose to continue his coverage with the insurer at the retiree's expense until such individual attains 65 years of age at the insurer's customary premium rate applicable (a) to such policies, (b) to the class of risk to which the person then belongs, and (c) to his age.

2. The governing body, when providing this coverage, may further provide that the retiree be rated separately from the active employees covered under the group plan offered by such governing body.

3. Any locality that has not offered the opportunity to continue group health coverage provided by the locality as required by subdivision 1 to its retirees who had retired on or before June 30, 1993, and who meet the criteria for such coverage as set forth in subdivision 1, shall do so by July 1, 2000. Any retiree from the service of a locality who had retired on or before June 30, 1993, and who meets the criteria to continue his group health coverage from the locality under subdivision 1 who has not yet elected to continue his group health coverage from the locality shall elect whether to do so by July 1, 2000.

4. Nothing herein shall prohibit a locality from providing group accident and health coverage or benefits for its retirees in addition to the coverage required under this section.

D. Any locality that offers group health plans to its employees and the employees of constitutional officers and its retirees, as provided by this section or otherwise, may provide in the plan providing such coverage that any retiree who is participating in a group health plan provided by the locality who subsequently terminates his participation in such plan may not thereafter rejoin a group health plan provided by the locality.

CHAPTER 208

An Act to amend and reenact § 53.1-155 of the Code of Virginia, relating to transition assistance prior to parole or release.

[S 124]

Approved March 1, 2016

Be it enacted by the General Assembly of Virginia:

1. That § 53.1-155 of the Code of Virginia is amended and reenacted as follows:

§ 53.1-155. Investigation prior to release; transition assistance.

A. No person shall be released on parole by the Board until a thorough investigation has been made into the prisoner's history, physical and mental condition and character and his conduct, employment and attitude while in prison. The Board shall also determine that his release on parole will not be incompatible with the interests of society or of the prisoner. The provisions of this section shall not be applicable to persons released on parole pursuant to § 53.1-159.

B. An investigation conducted pursuant to this section shall include notification that a victim may submit to the Virginia Parole Board evidence concerning the impact that the release of the prisoner will have on such victim. This notification shall be sent to the last address provided to the Board by any victim of a crime for which the prisoner was incarcerated. The Board shall endeavor diligently to contact the victim prior to making any decision to release any inmate on discretionary parole. The victim of a crime for which the prisoner is incarcerated may present to the Board oral or written testimony concerning the impact that the release of the prisoner will have on the victim, and the Board shall consider such testimony in its review. Once testimony is submitted by a victim, such testimony shall remain in the prisoner's parole file and shall be considered by the Board at every parole review. The victim of a crime for which the prisoner is incarcerated may submit a written request to the Board to be notified of (i) the prisoner's parole eligibility date and mandatory release date as determined by the Department of Corrections, (ii) any parole-related interview dates, and (iii) the Board's decision regarding parole for the prisoner. The victim may request that the Board only notify the victim if, following its review, the Board is inclined to grant parole to the prisoner, in which case the victim shall have forty-five days to present written or oral testimony for the Board's consideration. If the victim has requested to be notified only if the Board is inclined to grant parole and no testimony, either written or oral, is received from the victim within at least forty-five days of the date of the

Board's notification, the Board shall render its decision based on information available to it in accordance with subsection A. The definition of victim in § 19.2-11.01 shall apply to this section.

Although any information presented by the victim of a crime for which the prisoner is incarcerated shall be retained in the prisoner's parole file and considered by the Board, such information shall not infringe on the Board's authority to exercise its decision-making authority.

C. Notwithstanding the provisions of subsection A, if a physical or mental examination of a prisoner eligible for parole has been conducted within the last twelve months, and the prisoner has not required medical or psychiatric treatment within a like period while incarcerated, the prisoner may be released on parole by the Parole Board directly from a local correctional facility.

The Department shall offer each prisoner to be released on parole or under mandatory release who has been sentenced to serve a term of imprisonment of at least three years the opportunity to participate in a transition program within six months of such prisoner's projected or mandatory release date. The program shall include advice for job training opportunities, recommendations for living a law-abiding life, and financial literacy information. The Secretary of Public Safety and Homeland Security shall prescribe guidelines to govern these programs.

For the purpose of this section, a weapon shall be deemed to be hidden from common observation when it is observable but is of such deceptive appearance as to disguise the weapon's true nature. It shall be an affirmative defense to a violation of clause (i) regarding a handgun, that a person had been issued, at the time of the offense, a valid concealed handgun permit.

B. This section shall not apply to any person while in his own place of abode or the curtilage thereof.

C. Except as provided in subsection A of § 18.2-308.012, this section shall not apply to:

However, if such officer retires on disability because of the service-related injury, and would be eligible under clause (i) for written proof of consultation to carry a concealed handgun, he may retain the previously issued written proof of consultation. A retired law-enforcement officer who receives proof of consultation and favorable review pursuant to this subdivision is authorized to carry a concealed handgun in the same manner as a law-enforcement officer authorized to carry a concealed handgun pursuant to subdivision 2;

The issuance of the proof of consultation and favorable review shall be entered into the Virginia Criminal Information Network.
