For purposes of this article, persons who are deaf, dysphasic or have other communication disorders, who are otherwise mentally competent and able to communicate by means other than speech, shall not be considered incapable of making an informed decision.

"Life-prolonging procedure" means any medical procedure, treatment or intervention which (i) utilizes mechanical or other artificial means to sustain, restore or supplant a spontaneous vital function, or is otherwise of such a nature as to afford a patient no reasonable expectation of recovery from a terminal condition and (ii) when applied to a patient in a terminal condition, would serve only to prolong the dying process. The term includes artificially administered hydration and nutrition. However, nothing in this act shall prohibit the administration of medication or the performance of any medical procedure deemed necessary to provide comfort care or to alleviate pain, including the administration of pain relieving medications in excess of recommended dosages in accordance with §§ 54.1-2971.01 and 54.1-3408.1. "Persistent vegetative state" means a condition caused by injury, disease or illness in which a patient has suffered a loss of consciousness, with no behavioral evidence of self-awareness or awareness of surroundings in a learned manner, other than reflex activity of muscles and nerves for low level conditioned response, and from which, to a reasonable degree of medical probability, there can be no recovery.

"Physician" means a person licensed to practice medicine in the Commonwealth of Virginia or in the jurisdiction where the health care is to be rendered or withheld.

*"Qualified advance directive facilitator" means a person who has successfully completed a training program approved by the Department of Health for providing assistance in completing and executing a written advance directive, including successful demonstration of competence in assisting a person in completing and executing a valid advance directive and successful passage of a written examination.*

Additionally, the court may order that the defendant make restitution during his confinement, if feasible, based upon both his earning capacity and net worth as determined by the court at sentencing.

If community service work is ordered, the court shall determine the terms and conditions upon which such work shall be performed. The court shall include such findings in the judgment order. The requirements established by the Rules of Supreme Court of Virginia shall be posted in the clerk's office and on the court's website, if a website is available. As a condition of every such agreement, a defendant who enters into an installment or deferred payment agreement shall promptly inform the court of any change of mailing address during the term of the agreement. (2) The related member derives at least one-third of its gross revenues from the licensing of intangible property to parties who are not related members, and the transaction giving rise to the expenses and costs between the corporation and the related member was made at rates and terms comparable to the rates and terms of agreements that the related member has entered into with parties who are not related members for the licensing of intangible property; or

(3) The corporation can establish to the satisfaction of the Tax Commissioner that the intangible expenses and costs meet both of the following: (i) the related member during the same taxable year directly or indirectly paid, accrued or incurred such portion to a person who is not a related member, and (ii) the transaction giving rise to the intangible expenses and costs between the corporation and the related member did not have as a principal purpose the avoidance of any portion of the tax due under this chapter.

b. A corporation required to add to its federal taxable income intangible expenses and costs pursuant to subdivision a may petition the Tax Commissioner, after filing the related income tax return for the taxable year and remitting to the Tax Commissioner all taxes, penalties, and interest due under this article for such taxable year including tax upon any amount of intangible expenses and costs required to be added to federal taxable income pursuant to subdivision a, to consider evidence relating to the transaction or transactions between the corporation and a related member or members that resulted in the corporation's taxable income being increased, as required under subdivision a, for such intangible expenses and costs.

If the corporation can demonstrate to the Tax Commissioner's sole satisfaction, by clear and convincing evidence, that the transaction or transactions between the corporation and a related member or members resulting in such increase in taxable income pursuant to subdivision a had a valid business purpose other than the avoidance or reduction of the tax due under this chapter, the Tax Commissioner shall permit the corporation to file an amended return. For purposes of such amended return, the requirements of subdivision a shall not apply to any transaction for which the Tax Commissioner is satisfied (and has identified) that the transaction had a valid business purpose other than the avoidance or reduction of the tax due under this chapter. Such amended return shall be filed by the corporation within one year of the written permission granted by the Tax Commissioner and any refund of the tax imposed under this article shall include interest at a rate equal to the rate of interest established under § 58.1-15 and such interest shall accrue as provided under § 58.1-1833. However, upon the filing of such amended return, any related member of the corporation that subtracted from taxable income amounts received pursuant to subdivision C 21 shall be subject to the tax imposed under this article on that portion of such amounts for which the corporation has filed an amended return pursuant to this subdivision. In addition, for such transactions identified by the Tax Commissioner herein by which he has been satisfied by clear and convincing evidence, the Tax

Commissioner may permit the corporation in filing income tax returns for subsequent taxable years to deduct the related intangible expenses and costs without making the adjustment under subdivision a.

The Tax Commissioner may charge a fee for all direct and indirect costs relating to the review of any petition pursuant to this subdivision, to include costs necessary to secure outside experts in evaluating the petition. The Tax Commissioner may condition the review of any petition pursuant to this subdivision upon payment of such fee.

No suit for the purpose of contesting any action of the Tax Commissioner under this subdivision shall be maintained in any court of this Commonwealth.

c. Nothing in subdivision B 8 shall be construed to limit or negate the Department's authority under § 58.1-446;

9. a. For taxable years beginning on and after January 1, 2004, the amount of any interest expenses and costs directly or indirectly paid, accrued, or incurred to, or in connection directly or indirectly with one or more direct or indirect transactions with one or more related members to the extent such expenses and costs were deductible or deducted in computing federal taxable income for Virginia purposes. This addition shall not be required for any portion of the interest expenses and costs, if:

(1) The related member has substantial business operations relating to interest-generating activities, in which the related member pays expenses for at least five full-time employees who maintain, manage, defend or are otherwise responsible for operations or administration relating to the interest-generating activities; and

(2) The interest expenses and costs are not directly or indirectly for, related to or in connection with the direct or indirect acquisition, maintenance, management, sale, exchange, or disposition of intangible property; and

(iii) The related member engages in transactions with parties other than related members that generate revenue in excess of \$2 million annually; or

(iv) The transaction giving rise to the interest payments between the corporation and a related member was done at arm's length rates and terms and meets any of the following: (a) the related member uses funds that are borrowed from a party other than a related member or that are paid, incurred or passed-through to a person who is not a related member; (b) the debt is part of a regular and systematic funds management or portfolio investment activity conducted by the related member, whereby the funds of two or more related members are aggregated for the purpose of achieving economies of scale, the internal financing of the active business operations of members, or the benefit of centralized management of funds; (c) financing the expansion of the business operations; or (d) restructuring the debt of related members, or the pass-through of acquisition-related indebtedness to related members.

b. A corporation required to add to its federal taxable income interest expenses and costs pursuant to subdivision a may petition the Tax Commissioner, after filing the related income tax return for the taxable year and remitting to the Tax Commissioner all taxes, penalties, and interest due under this article for such taxable year including tax upon any amount of interest expenses and costs required to be added to federal taxable income pursuant to subdivision a, to consider evidence relating to the transaction or transactions between the corporation and a related member or members that resulted in the corporation's taxable income being increased, as required under subdivision a, for such interest expenses and costs.

If the corporation can demonstrate to the Tax Commissioner's sole satisfaction, by clear and convincing evidence, that the transaction or transactions between the corporation and a related member or members resulting in such increase in taxable income pursuant to subdivision a had a valid business purpose other than the avoidance or reduction of the tax due under this chapter and that the related payments between the parties were made at arm's length rates and terms, the Tax Commissioner shall permit the corporation to file an amended return. For purposes of such amended return, the requirements of subdivision a shall not apply to any transaction for which the Tax Commissioner is satisfied (and has identified) that the transaction had a valid business purpose other than the avoidance or reduction of the tax due under this chapter and that the related payments between the parties were made at arm's length rates and terms. Such amended return shall be filed by the corporation within one year of the written permission granted by the Tax Commissioner and any refund of the tax imposed under this article shall include interest at a rate equal to the rate of interest established under § 58.1-15 and such interest shall accrue as provided under § 58.1-1833. However, upon the filing of such amended return, any related member of the corporation that subtracted from taxable income amounts received pursuant to subdivision C 21 shall be subject to the tax imposed under this article on that portion of such amounts for which the corporation has filed an amended return pursuant to this subdivision. In addition, for such transactions identified by the Tax Commissioner herein by which he has been satisfied by clear and convincing evidence, the Tax Commissioner may permit the corporation in filing income tax returns for subsequent taxable years to deduct the related interest expenses and costs without making the adjustment under subdivision a.

The Tax Commissioner may charge a fee for all direct and indirect costs relating to the review of any petition pursuant to this subdivision, to include costs necessary to secure outside experts in evaluating the petition. The Tax Commissioner may condition the review of any petition pursuant to this subdivision upon payment of such fee.

No suit for the purpose of contesting any action of the Tax Commissioner under this subdivision shall be maintained in any court of this Commonwealth.

*An Act to amend and reenact § 32.1-102.4 of the Code of Virginia, relating to conditions on certificates of public need; alternative plans of compliance.*

[H 1544]

Approved March 27, 2017

**Be it enacted by the General Assembly of Virginia:**

- 1. That § 32.1-102.4 of the Code of Virginia is amended and reenacted as follows:**
  - § 32.1-102.4. Conditions of certificates; monitoring; revocation of certificates.**

A. A certificate shall be issued with a schedule for the completion of the project and a maximum capital expenditure amount for the project. The schedule may not be extended and the maximum capital expenditure may not be exceeded without the approval of the Commissioner in accordance with the regulations of the Board.

B. The Commissioner shall monitor each project for which a certificate is issued to determine its progress and compliance with the schedule and with the maximum capital expenditure. The Commissioner shall also monitor all continuing care retirement communities for which a certificate is issued authorizing the establishment of a nursing home facility or an increase in the number of nursing home beds pursuant to § 32.1-102.3:2 and shall enforce compliance with the conditions for such applications which are required by § 32.1-102.3:2. Any willful violation of a provision of § 32.1-102.3:2 or conditions of a certificate of public need granted under the provisions of § 32.1-102.3:2 shall be subject to a civil penalty of up to \$100 per violation per day until the date the Commissioner determines that such facility is in compliance.

C. A certificate may be revoked when:

1. Substantial and continuing progress towards completion of the project in accordance with the schedule has not been made;

2. The maximum capital expenditure amount set for the project is exceeded;

3. The applicant has willfully or recklessly misrepresented intentions or facts in obtaining a certificate; or

4. A continuing care retirement community applicant has failed to honor the conditions of a certificate allowing the establishment of a nursing home facility or granting an increase in the number of nursing home beds in an existing facility which was approved in accordance with the requirements of § 32.1-102.3:2.

D. Further, the Commissioner shall not approve an extension for a schedule for completion of any project or the exceeding of the maximum capital expenditure of any project unless such extension or excess complies with the limitations provided in the regulations promulgated by the Board pursuant to § 32.1-102.2.

E. Any person willfully violating the Board's regulations establishing limitations for schedules for completion of any project or limitations on the exceeding of the maximum capital expenditure of any project shall be subject to a civil penalty of up to \$100 per violation per day until the date of completion of the project.

F. The Commissioner may condition, pursuant to the regulations of the Board, the approval of a certificate (i) upon the agreement of the applicant to provide a level of care at a reduced rate to indigents or accept patients requiring specialized care or (ii) upon the agreement of the applicant to facilitate the development and operation of primary medical care services in designated medically underserved areas of the applicant's service area.

The certificate holder shall provide documentation to the Department demonstrating that the certificate holder has satisfied the conditions of the certificate. If the certificate holder is unable or fails to satisfy the conditions of a certificate, the Department may approve alternative methods to satisfy the conditions pursuant to a plan of compliance. The plan of compliance shall identify a timeframe within which the certificate holder will satisfy the conditions of the certificate, and identify how the certificate holder will satisfy the conditions of the certificate, which may include (i) making direct payments to an organization authorized under a memorandum of understanding with the Department to receive contributions satisfying conditions of a certificate, (ii) making direct payments to a private nonprofit foundation that funds basic insurance coverage for indigents authorized under a memorandum of understanding with the Department to receive contributions satisfying conditions of a certificate, or (iii) other documented efforts or initiatives to provide primary or specialized care to underserved populations. *In cases in which the certificate holder holds more than one certificate with conditions pursuant to this subsection, and the certificate holder is unable to satisfy the conditions of one certificate, such plan of compliance may provide for satisfaction of the conditions on that certificate by providing care at a reduced rate to indigent individuals in excess of the amount required by another certificate issued to the same holder, in an amount approved by the Department provided such care is offered at the same facility. Nothing in the preceding sentence shall prohibit the satisfaction of conditions of more than one certificate among various affiliated facilities or certificates subject to a system-wide or all-inclusive charity care condition established by the Commissioner.* In determining whether the certificate holder has met the conditions of the certificate pursuant to a plan of compliance, only such direct payments, efforts, or initiatives made or undertaken after issuance of the conditioned certificate shall be counted towards satisfaction of conditions.

Any person willfully refusing, failing, or neglecting to honor such agreement shall be subject to a civil penalty of up to \$100 per violation per day until the date of compliance.

G. Pursuant to regulations of the Board, the Commissioner may accept requests for and approve amendments to conditions of existing certificates related to the provision of care at reduced rates or to patients requiring specialized care or related to the development and operation of primary medical care services in designated medically underserved areas of the certificate holder's service area.

H. For the purposes of this section, "completion" means conclusion of construction activities necessary for the substantial performance of the contract.

*An Act to amend the Code of Virginia by adding a section numbered 46.2-410.2, relating to revocation or suspension of driver's licenses; laws of other jurisdictions.*

[H 1525]

Approved April 5, 2017

**Be it enacted by the General Assembly of Virginia:**

**1. That the Code of Virginia is amended by adding a section numbered 46.2-410.2 as follows:**

**§ 46.2-410.2. License suspension or revocation by Commissioner; offenses under the laws of other jurisdictions.**

*Notwithstanding any other provision of this chapter, the Commissioner shall not administratively revoke or suspend the driver's license of any person on the basis of receiving a record of such person's conviction for any offense under the laws of another jurisdiction that would otherwise require the Commissioner to revoke or suspend such person's driver's license unless such offense is substantially similar to an offense under the laws of the Commonwealth or a county, city, or town ordinance. Whenever the Commissioner is required to determine whether the law of another jurisdiction is substantially similar to the laws of the Commonwealth, or a county, city, or town ordinance, such determination shall be based only on the text of the other jurisdiction's law without reference to the particular circumstances of any conviction under such other jurisdiction's laws. However, if the Commissioner cannot reasonably determine from the text of the other jurisdiction's law whether such law is substantially similar to the laws of the Commonwealth, or a county, city, or town ordinance, the Commissioner may, if available, review a certified copy of the final order of the person's conviction in order to make such determination.*

**2. That the Department of Motor Vehicles shall reinstate a person's driver's license that was administratively revoked or suspended prior to July 1, 2017, by the Commissioner of the Department of Motor Vehicles solely on the basis of receiving a record of such person's conviction for any offense under the laws of another jurisdiction if, on a form promulgated by the Department of Motor Vehicles, such person submits to the Department of Motor Vehicles a request to review such suspension or revocation and the Department of Motor Vehicles determines that such suspension or revocation was based on a conviction not in compliance with the provisions of this act. The person requesting the review shall submit with the form a copy of the other jurisdiction's statute under which he was convicted that was in effect at the time of the conviction and a certified copy of the final order of conviction from the other jurisdiction. Any refusal by the Department of Motor Vehicles to reinstate a person's driver's license shall be reviewable in accordance with the provisions of § 46.2-410.1 of the Code of Virginia. The provisions of this act shall not apply to any disqualification of eligibility to operate a commercial motor vehicle imposed by the Commissioner of the Department of Motor Vehicles pursuant to Article 6.1 (§ 46.2-341.1 et seq.) of Chapter 3 of Title 46.2 of the Code of Virginia. Nothing herein shall require the Department of Motor Vehicles to reinstate a person's driver's license if such license was otherwise suspended or revoked.**

## CHAPTER 777

*An Act to amend and reenact § 38.2-401 of the Code of Virginia, relating to the Fire Programs Fund; rate of assessment; allocations.*

[H 1532]

Approved April 5, 2017

**Be it enacted by the General Assembly of Virginia:**

**1. That § 38.2-401 of the Code of Virginia is amended and reenacted as follows:**

**§ 38.2-401. Fire Programs Fund.**

A. 1. There is hereby established in the state treasury a special nonreverting fund to be known as the Fire Programs Fund, hereinafter referred to as "the Fund." The Fund shall be administered by the Department of Fire Programs under policies and definitions established by the Virginia Fire Services Board. All moneys collected pursuant to the assessment made by the Commission pursuant to subdivision 2 of this subsection shall be paid into the state treasury and credited to the Fund. The Fund shall also consist of any moneys appropriated thereto by the General Assembly and any grants or other

moneys received by the Virginia Fire Services Board or Department of Fire Programs for the purposes set forth in this section. Any moneys deposited to or remaining in such Fund during or at the end of each fiscal year or biennium, including interest thereon, shall not revert to the general fund but shall remain in the Fund. Interest earned on all moneys in the Fund and interest earned on moneys held by the Commission pursuant to subdivision 2 of this subsection prior to the deposit of such moneys into the Fund, including interest earned on such moneys during any period when the Commission is reconciling payments from insurers, shall remain in or be deposited into the Fund, as the case may be, and be credited to it. Such interest shall be set aside for fire service purposes in accordance with policies developed by the Virginia Fire Services Board. Notwithstanding any other provision of law to the contrary, policies established by the Virginia Fire Services Board for the administration of the Fund, and any grants provided from the Fund, that are not inconsistent with the purposes set out in this section shall be binding upon any locality that accepts such funds or related grants. The Commission shall be reimbursed from the Fund for all expenses necessary for the administration of this section. The balance of moneys in the Fund shall be allocated periodically as provided in this section. Expenditures and disbursements from the Fund shall be made by the State Treasurer on warrants issued by the Comptroller upon written request signed by the Executive Director of the Department of Fire Programs (Director) or his designee.

2. The Commission shall annually assess against all licensed insurance companies doing business in the Commonwealth by writing any type of insurance as defined in §§ 38.2-110, 38.2-111, 38.2-126, 38.2-130 and 38.2-131 and those combination policies as defined in § 38.2-1921 that contain insurance as defined in §§ 38.2-110, 38.2-111 and 38.2-126, an assessment in the amount of one percent of the total direct gross premium income for such insurance. Such assessment shall be apportioned, assessed and paid as prescribed by § 38.2-403. In any year in which a company has no direct gross premium income or in which its direct gross premium income is insufficient to produce at the rate of assessment prescribed by law an amount equal to or in excess of \$100, there shall be so apportioned and assessed against such company a contribution of \$100.

B. After reserving funds for the Fire Services Grant Program and Dry Fire Hydrant Grant Program pursuant to subsection D, ~~75~~ 80 percent of the remaining moneys available for allocation from the Fund shall be allocated to the several counties, cities and towns of the Commonwealth providing fire service operations to be used for the improvement of volunteer and career fire services in each of the receiving localities. Funds allocated to the counties, cities and towns pursuant to this subsection shall not be used directly or indirectly to supplant or replace any other funds appropriated by the counties, cities and towns for fire service operations. Such funds shall be used solely for the purposes of training volunteer or career firefighting personnel in each of the receiving localities; funding fire prevention and public safety education programs; constructing, improving and expanding regional or local fire service training facilities; purchasing emergency medical care and equipment for fire personnel; payment of personnel costs related to fire and medical training for fire personnel; or for purchasing personal protective equipment, vehicles, equipment and supplies for use in the receiving locality specifically for fire service purposes. Notwithstanding any other provision of the Code, when localities use such funds to construct, improve or expand fire service training facilities, fire-related training provided at such training facilities shall be by instructors certified or approved according to policies developed by the Virginia Fire Services Board. Distribution of this ~~75~~ 80 percent of the Fund shall be made on the basis of population as provided for in §§ 4.1-116 and 4.1-117; however, no county or city eligible for such funds shall receive less than \$10,000, nor eligible town less than \$4,000. The Virginia Fire Services Board shall be authorized to exceed allocations of \$10,000 for eligible counties and cities and \$4,000 for eligible towns, respectively. Allocations to counties, cities, and towns receiving such allocations shall be fair and equitable as set forth in Board policy. Any increases or decreases in such allocations shall be uniform for all localities. In order to remain eligible for such funds, each receiving locality shall report annually to the Department on the use of the funds allocated to it for the previous year and shall provide a completed Fire Programs Fund Disbursement Agreement form. Each receiving locality shall be responsible for certifying the proper use of the funds. If, at the end of any annual reporting period, a satisfactory report and a completed agreement form have not been submitted by a receiving locality, any funds due to that locality for the next year shall not be retained. Such funds shall be added to the ~~75~~ 80 percent of the Fund allocated to the counties, cities, and towns of the Commonwealth for improvement of fire services in localities.

C. The remainder of the moneys available for allocation from the Fund shall be used for (i) the purposes of carrying out the powers and duties assigned to the Department of Fire Programs under Chapter 2 (§ 9.1-200) of Title 9.1, which shall include providing funded training and administrative support services for nonfunded training to localities and (ii) the payment of the compensation and costs of expenses of the members of the Fire Services Board in performing their official duties; however, the Fund shall not be used for salaries or operating expenses associated with the Office of the State Fire Marshal.

D. The Fire Services Grant Program is hereby established and will be used as grants to provide regional fire services training facilities, to finance the Virginia Fire Incident Reporting System and to build or repair burn buildings as determined by the Virginia Fire Services Board. Beginning January 1, 1996, \$1 million from the assessments made pursuant to this section shall be distributed each year for the Fire Services Grant Program to be used as herein provided, and \$100,000 shall be distributed annually for continuing the statewide Dry Fire Hydrant Grant Program. Moneys allocated pursuant to this subsection shall be used for the purposes stated in this subsection, and for no other purpose. All grants provided from these programs shall be administered by the Department according to the policies established by the Virginia Fire Services Board.

E. Moneys in the Fund shall not be diverted or expended for any purpose not authorized by this section.

F. The Director shall establish written standards for determining the extent to which clients outside the Commonwealth shall be financially responsible for the cost of fire and emergency services training provided by the Department of Fire Programs. Revenues generated by such training shall be retained in the Fire Programs Fund and may be used solely for providing additional funded direct training to members of Virginia's fire and emergency services.

**2. That the provisions of this act shall not become effective unless reenacted by the 2018 Session of the General Assembly.**

**§ 2.2-3701. Definitions.**

As used in this chapter, unless the context requires a different meaning:

"Closed meeting" means a meeting from which the public is excluded.

"Electronic communication" means any audio or combined audio and visual communication method.

"Emergency" means an unforeseen circumstance rendering the notice required by this chapter impossible or impracticable and which circumstance requires immediate action.

"Information" as used in the exclusions established by §§ 2.2-3705.1 through 2.2-3705.7, means the content within a public record that references a specifically identified subject matter, and shall not be interpreted to require the production of information that is not embodied in a public record.

"Meeting" or "meetings" means the meetings including work sessions, when sitting physically, or through telephonic or video equipment pursuant to § 2.2-3708 or 2.2-3708.1, as a body or entity, or as an informal assemblage of (i) as many as three members or (ii) a quorum, if less than three, of the constituent membership, wherever held, with or without minutes being taken, whether or not votes are cast, of any public body. Neither the gathering of employees of a public body nor the gathering or attendance of two or more members of a public body (i) at any place or function where no part of the purpose of such gathering or attendance is the discussion or transaction of any public business, and such gathering or attendance was not called or prearranged with any purpose of discussing or transacting any business of the public body, or (ii) at a public forum, candidate appearance, or debate, the purpose of which is to inform the electorate and not to transact public business or to hold discussions relating to the transaction of public business, even though the performance of the members individually or collectively in the conduct of public business may be a topic of discussion or debate at such public meeting, shall be deemed a "meeting" subject to the provisions of this chapter.

"Open meeting" or "public meeting" means a meeting at which the public may be present.

"Public body" means any legislative body, authority, board, bureau, commission, district or agency of the Commonwealth or of any political subdivision of the Commonwealth, including cities, towns and counties, municipal councils, governing bodies of counties, school boards and planning commissions; boards of visitors of public institutions of higher education; and other organizations, corporations or agencies in the Commonwealth supported wholly or principally by public funds. It shall include (i) the Virginia Birth-Related Neurological Injury Compensation Program and its board of directors established pursuant to Chapter 50 (§ 38.2-5000 et seq.) of Title 38.2 and (ii) any committee, subcommittee, or other entity however designated, of the public body created to perform delegated functions of the public body or to advise the public body. It shall not exclude any such committee, subcommittee or entity because it has private sector or citizen members. Corporations organized by the Virginia Retirement System are "public bodies" for purposes of this chapter.

For the purposes of the provisions of this chapter applicable to access to public records, constitutional officers and private police departments as defined in § 9.1-101 shall be considered public bodies and, except as otherwise expressly provided by law, shall have the same obligations to disclose public records as other custodians of public records.

"Public records" means all writings and recordings that consist of letters, words or numbers, or their equivalent, set down by handwriting, typewriting, printing, photostating, photography, magnetic impulse, optical or magneto-optical form, mechanical or electronic recording or other form of data compilation, however stored, and regardless of physical form or characteristics, prepared or owned by, or in the possession of a public body or its officers, employees or agents in the transaction of public business. ~~Records that are not prepared for or used in the transaction of public business are not public records.~~

**§ 2.2-3704. Public records to be open to inspection; procedure for requesting records and responding to request; charges; transfer of records for storage, etc.**

A. Except as otherwise specifically provided by law, all public records shall be open to ~~inspection and copying by any~~ citizens of the Commonwealth, *representatives of newspapers and magazines with circulation in the Commonwealth, and representatives of radio and television stations broadcasting in or into the Commonwealth* during the regular office hours of the custodian of such records. Access to such records shall ~~not be denied to citizens of the Commonwealth, representatives of newspapers and magazines with circulation in the Commonwealth, and representatives of radio and television stations broadcasting in or into the Commonwealth~~ *be provided by the custodian in accordance with this chapter by inspection or by providing copies of the requested records, at the option of the requester.* The custodian may require the requester to provide his name and legal address. The custodian of such records shall take all necessary precautions for their preservation and safekeeping.

B. A request for public records shall identify the requested records with reasonable specificity. The request need not make reference to this chapter in order to invoke the provisions of this chapter or to impose the time limits for response by a public body. Any public body that is subject to this chapter and that is the custodian of the requested records shall promptly, but in all cases within five working days of receiving a request, provide the requested records to the requester or make one of the following responses in writing:

1. The requested records are being entirely withheld. Such response shall identify with reasonable particularity the volume and subject matter of withheld records, and cite, as to each category of withheld records, the specific Code section that authorizes the withholding of the records.

2. The requested records are being provided in part and are being withheld in part. Such response shall identify with reasonable particularity the subject matter of withheld portions, and cite, as to each category of withheld records, the specific Code section that authorizes the withholding of the records.

3. The requested records could not be found or do not exist. However, if the public body that received the request knows that another public body has the requested records, the response shall include contact information for the other public body.

4. It is not practically possible to provide the requested records or to determine whether they are available within the five-work-day period. Such response shall specify the conditions that make a response impossible. If the response is made within five working days, the public body shall have an additional seven work days in which to provide one of the four preceding responses.

C. Any public body may petition the appropriate court for additional time to respond to a request for records when the request is for an extraordinary volume of records or requires an extraordinarily lengthy search, and a response by the public body within the time required by this chapter will prevent the public body from meeting its operational responsibilities. Before proceeding with the petition, however, the public body shall make reasonable efforts to reach an agreement with the requester concerning the production of the records requested.

D. Subject to the provisions of subsection G, no public body shall be required to create a new record if the record does not already exist. However, a public body may abstract or summarize information under such terms and conditions as agreed between the requester and the public body.

E. Failure to respond to a request for records shall be deemed a denial of the request and shall constitute a violation of this chapter.

F. A public body may make reasonable charges not to exceed its actual cost incurred in accessing, duplicating, supplying, or searching for the requested records. No public body shall impose any extraneous, intermediary, or surplus fees or expenses to recoup the general costs associated with creating or maintaining records or transacting the general business of the public body. Any duplicating fee charged by a public body shall not exceed the actual cost of duplication. The public body may also make a reasonable charge for the cost incurred in supplying records produced from a geographic information system at the request of anyone other than the owner of the land that is the subject of the request. However, such charges shall not exceed the actual cost to the public body in supplying such records, except that the public body may charge, on a pro rata per acre basis, for the cost of creating topographical maps developed by the public body, for such maps or portions thereof, which encompass a contiguous area greater than 50 acres. All charges for the supplying of requested records shall be estimated in advance at the request of the citizen.

G. Public records maintained by a public body in an electronic data processing system, computer database, or any other structured collection of data shall be made available to a requester at a reasonable cost, not to exceed the actual cost in accordance with subsection F. When electronic or other databases are combined or contain exempt and nonexempt records, the public body may provide access to the exempt records if not otherwise prohibited by law, but shall provide access to the nonexempt records as provided by this chapter.

Public bodies shall produce nonexempt records maintained in an electronic database in any tangible medium identified by the requester, including, where the public body has the capability, the option of posting the records on a website or

delivering the records through an electronic mail address provided by the requester, if that medium is used by the public body in the regular course of business. No public body shall be required to produce records from an electronic database in a format not regularly used by the public body. However, the public body shall make reasonable efforts to provide records in any format under such terms and conditions as agreed between the requester and public body, including the payment of reasonable costs. The excision of exempt fields of information from a database or the conversion of data from one available format to another shall not be deemed the creation, preparation, or compilation of a new public record.

H. In any case where a public body determines in advance that charges for producing the requested records are likely to exceed \$200, the public body may, before continuing to process the request, require the requester to agree to payment of a deposit not to exceed the amount of the advance determination. The deposit shall be credited toward the final cost of supplying the requested records. The period within which the public body shall respond under this section shall be tolled for the amount of time that elapses between notice of the advance determination and the response of the requester.

I. Before processing a request for records, a public body may require the requester to pay any amounts owed to the public body for previous requests for records that remain unpaid 30 days or more after billing.

J. In the event a public body has transferred possession of public records to any entity, including but not limited to any other public body, for storage, maintenance, or archiving, the public body initiating the transfer of such records shall remain the custodian of such records for purposes of responding to requests for public records made pursuant to this chapter and shall be responsible for retrieving and supplying such public records to the requester. In the event a public body has transferred public records for storage, maintenance, or archiving and such transferring public body is no longer in existence, any public body that is a successor to the transferring public body shall be deemed the custodian of such records. In the event no successor entity exists, the entity in possession of the public records shall be deemed the custodian of the records for purposes of compliance with this chapter, and shall retrieve and supply such records to the requester. Nothing in this subsection shall be construed to apply to records transferred to the Library of Virginia for permanent archiving pursuant to the duties imposed by the Virginia Public Records Act (§ 42.1-76 et seq.). In accordance with § 42.1-79, the Library of Virginia shall be the custodian of such permanently archived records and shall be responsible for responding to requests for such records made pursuant to this chapter.

**§ 22.1-253.13:3. Standard 3. Accreditation, other standards, assessments, and releases from state regulations.**

A. The Board of Education shall promulgate regulations establishing standards for accreditation pursuant to the Administrative Process Act (§ 2.2-4000 et seq.), which shall include, but not be limited to, student outcome measures, requirements and guidelines for instructional programs and for the integration of educational technology into such instructional programs, administrative and instructional staffing levels and positions, including staff positions for supporting educational technology, student services, auxiliary education programs such as library and media services, requirements for graduation from high school, community relations, and the philosophy, goals, and objectives of public education in Virginia.

The Board of Education shall promulgate regulations establishing standards for accreditation of public virtual schools under the authority of the local school board that enroll students full time.

The Board shall review annually the accreditation status of all schools in the Commonwealth. The Board shall review the accreditation status of a school once every three years if the school has been fully accredited for three consecutive years. Upon such triennial review, the Board shall review the accreditation status of the school for each individual year within that triennial review period. If the Board finds that the school would have been accredited every year of that triennial review period the Board shall accredit the school for another three years. The Board may review the accreditation status of any other school once every two years or once every three years, provided that any school that receives a multiyear accreditation status other than full accreditation shall be covered by a Board-approved multiyear corrective action plan for the duration of the period of accreditation. Such multiyear corrective action plan shall include annual written progress updates to the Board. A multiyear accreditation status shall not relieve any school or division of annual reporting requirements.

Each local school board shall maintain schools that are fully accredited pursuant to the standards for accreditation as prescribed by the Board of Education. Each local school board shall report the accreditation status of all schools in the local school division annually in public session. Within the time specified by the Board of Education, each school board shall submit corrective action plans for any schools within its school division that have been designated as not meeting the standards as approved by the Board.

When the Board of Education determines through the school academic review process that the failure of schools within a division to achieve full accreditation status is related to division-level failure to implement the Standards of Quality or other division-level action or inaction, the Board may require a division-level academic review. After the conduct of such review and within the time specified by the Board of Education, each school board shall submit to the Board for approval a corrective action plan, consistent with criteria established by the Board setting forth specific actions and a schedule designed to ensure that schools within its school division achieve full accreditation status. If the Board determines that the proposed corrective action plan is not sufficient to enable all schools within the division to achieve full accreditation, the Board may return the plan to the local school board with directions to submit an amended plan pursuant to Board guidance. Such corrective action plans shall be part of the relevant school division's comprehensive plan pursuant to § 22.1-253.13:6.

With such funds as are appropriated or otherwise received for this purpose, the Board shall adopt and implement an academic review process, to be conducted by the Department of Education, to assist schools that are accredited with warning. The Department shall forward a report of each academic review to the relevant local school board, and such school board shall report the results of such academic review and the required annual progress reports in public session. The local school board shall implement any actions identified through the academic review and utilize them for improvement planning.

B. The Superintendent of Public Instruction shall develop and the Board of Education shall approve criteria for determining and recognizing educational performance in the Commonwealth's public school divisions and schools. Such criteria, when approved, shall become an integral part of the accreditation process and shall include student outcome measurements. The Superintendent of Public Instruction shall annually report to the Board on the accreditation status of all

school divisions and schools. Such report shall include an analysis of the strengths and weaknesses of public education programs in the various school divisions in Virginia and recommendations to the General Assembly for further enhancing student learning uniformly across the Commonwealth. In recognizing educational performance in the school divisions, the Board shall include consideration of special school division accomplishments, such as numbers of dual enrollments and students in Advanced Placement and International Baccalaureate courses, and participation in academic year Governor's Schools.

The Superintendent of Public Instruction shall assist local school boards in the implementation of action plans for increasing educational performance in those school divisions and schools that are identified as not meeting the approved criteria. The Superintendent of Public Instruction shall monitor the implementation of and report to the Board of Education on the effectiveness of the corrective actions taken to improve the educational performance in such school divisions and schools.

C. With such funds as are available for this purpose, the Board of Education shall prescribe assessment methods to determine the level of achievement of the Standards of Learning objectives by all students. Such assessments shall evaluate knowledge, application of knowledge, critical thinking, and skills related to the Standards of Learning being assessed. The Board shall, with the assistance of independent testing experts, conduct a regular analysis and validation process for these assessments. The Department of Education shall make available to school divisions Standards of Learning assessments typically administered by the middle and high schools by December 1 of the school year in which such assessments are to be administered or when newly developed assessments are available, whichever is later.

The Board shall also provide the option of industry certification and state licensure examinations as a student-selected credit.

The Board of Education shall make publicly available such assessments in a timely manner and as soon as practicable following the administration of such tests, so long as the release of such assessments does not compromise test security or deplete the bank of assessment questions necessary to construct subsequent tests, or limit the ability to test students on demand and provide immediate results in the web-based assessment system.

The Board shall include in the student outcome measures that are required by the Standards for Accreditation end-of-course or end-of-grade assessments for various grade levels and classes, including the completion of the alternative assessments implemented by each local school board, in accordance with the Standards of Learning. These assessments shall include end-of-course or end-of-grade tests for English, mathematics, science, and history and social science and may be integrated to include multiple subject areas.

The Board shall prescribe alternative methods of Standards of Learning assessment administration for children with disabilities, as that term is defined in § 22.1-213, who meet criteria established by the Board to demonstrate achievement of the Standards of Learning. An eligible student's Individual Education Program team shall make the final determination as to whether an alternative method of administration is appropriate for the student.

The Standards of Learning assessments administered to students in grades three through eight shall not exceed (a) reading and mathematics in grades three and four; (b) reading, mathematics, and science in grade five; (c) reading and mathematics in grades six and seven; (d) reading, writing, and mathematics in grade eight; (e) science after the student receives instruction in the grade six science, life science, and physical science Standards of Learning and before the student completes grade eight; and (f) Virginia Studies and Civics and Economics once each at the grade levels deemed appropriate by each local school board.

Each school board shall annually certify that it has provided instruction and administered an alternative assessment, consistent with Board guidelines, to students in grades three through eight in each Standards of Learning subject area in which a Standards of Learning assessment was not administered during the school year. Such guidelines shall (1) incorporate options for age-appropriate, authentic performance assessments and portfolios with rubrics and other methodologies designed to ensure that students are making adequate academic progress in the subject area and that the Standards of Learning content is being taught; (2) permit and encourage integrated assessments that include multiple subject areas; and (3) emphasize collaboration between teachers to administer and substantiate the assessments and the professional development of teachers to enable them to make the best use of alternative assessments.

Local school divisions shall provide targeted mathematics remediation and intervention to students in grades six through eight who show computational deficiencies as demonstrated by their individual performance on any diagnostic test or grade-level Standards of Learning mathematics test that measures non-calculator computational skills.

The Department of Education shall award recovery credit to any student in grades three through eight who fails a Standards of Learning assessment in English reading or mathematics, receives remediation, and subsequently retakes and passes such an assessment, including any such student who subsequently retakes such an assessment on an expedited basis.

In addition, to assess the educational progress of students, the Board of Education shall (A) develop appropriate assessments, which may include criterion-referenced tests and other assessment instruments that may be used by classroom teachers; (B) select appropriate industry certification and state licensure examinations; and (C) prescribe and provide measures, which may include nationally normed tests to be used to identify students who score in the bottom quartile at selected grade levels. An annual justification that includes evidence that the student meets the participation criteria defined by the Virginia Department of Education shall be provided for each student considered for the Virginia Grade Level Alternative. Each Individual Education Program team shall review such justification and make the final determination as to whether or not the Virginia Grade Level Alternative is appropriate for the student. The superintendent and the school board

chairman shall certify to the Board of Education, as a part of certifying compliance with the Standards of Quality, that there is a justification in the Individual Education Program for every student who takes the Virginia Grade Level Alternative. Compliance with this requirement shall be monitored as a part of the special education monitoring process conducted by the Department of Education. The Board shall report to the Governor and General Assembly in its annual reports pursuant to § 22.1-18 any school division that is not in compliance with this requirement.

The Standards of Learning requirements, including all related assessments, shall be waived for any student awarded a scholarship under the Brown v. Board of Education Scholarship Program, pursuant to § 30-231.2, who is enrolled in a preparation program for a high school equivalency examination approved by the Board of Education or in an adult basic education program or an adult secondary education program to obtain the high school diploma or a high school equivalency certificate.

The Department of Education shall develop processes for informing school divisions of changes in the Standards of Learning.

The Board of Education may adopt special provisions related to the administration and use of any Standards of Learning test or tests in a content area as applied to accreditation ratings for any period during which the Standards of Learning content or assessments in that area are being revised and phased in. Prior to statewide administration of such tests, the Board of Education shall provide notice to local school boards regarding such special provisions.

The Board of Education shall not include in its calculation of the passage rate of a Standards of Learning assessment for the purposes of state accountability any student whose parent has decided to not have his child take such Standards of Learning assessment, unless such exclusions would result in the school's not meeting any required state or federal participation rate.

D. The Board of Education may pursue all available civil remedies pursuant to § 22.1-19.1 or administrative action pursuant to § 22.1-292.1 for breaches in test security and unauthorized alteration of test materials or test results.

The Board may initiate or cause to be initiated a review or investigation of any alleged breach in security, unauthorized alteration, or improper administration of tests, including the exclusion of students from testing who are required to be assessed, by local school board employees responsible for the distribution or administration of the tests.

Records and other information furnished to or prepared by the Board during the conduct of a review or investigation may be withheld pursuant to subdivision ~~10~~ of § 2.2-3705.3. However, this section shall not prohibit the disclosure of records to (i) a local school board or division superintendent for the purpose of permitting such board or superintendent to consider or to take personnel action with regard to an employee or (ii) any requester, after the conclusion of a review or investigation, in a form that (a) does not reveal the identity of any person making a complaint or supplying information to the Board on a confidential basis and (b) does not compromise the security of any test mandated by the Board. Any local school board or division superintendent receiving such records or other information shall, upon taking personnel action against a relevant employee, place copies of such records or information relating to the specific employee in such person's personnel file.

Notwithstanding any other provision of state law, no test or examination authorized by this section, including the Standards of Learning assessments, shall be released or required to be released as minimum competency tests, if, in the judgment of the Board, such release would breach the security of such test or examination or deplete the bank of questions necessary to construct future secure tests.

E. With such funds as may be appropriated, the Board of Education may provide, through an agreement with vendors having the technical capacity and expertise to provide computerized tests and assessments, and test construction, analysis, and security, for (i) web-based computerized tests and assessments, including computer-adaptive Standards of Learning assessments, for the evaluation of student progress during and after remediation and (ii) the development of a remediation item bank directly related to the Standards of Learning.

F. To assess the educational progress of students as individuals and as groups, each local school board shall require the use of Standards of Learning assessments, alternative assessments, and other relevant data, such as industry certification and state licensure examinations, to evaluate student progress and to determine educational performance. Each local school shall require the administration of appropriate assessments to students, which may include criterion-referenced tests and teacher-made tests and shall include the Standards of Learning assessments, the local school board's alternative assessments, and the National Assessment of Educational Progress state-by-state assessment. Each school board shall analyze and report annually, in compliance with any criteria that may be established by the Board of Education, the results from the Stanford Achievement Test Series, Ninth Edition (Stanford Nine) assessment, if administered, industry certification examinations, and the Standards of Learning Assessments to the public.

The Board of Education shall not require administration of the Stanford Achievement Test Series, Ninth Edition (Stanford Nine) assessment, except as may be selected to facilitate compliance with the requirements for home instruction pursuant to § 22.1-254.1.

The Board shall include requirements for the reporting of the Standards of Learning assessment scores and averages for each year, regardless of accreditation frequency, as part of the Board's requirements relating to the School Performance Report Card. Such scores shall be disaggregated for each school by student subgroups on the Virginia assessment program as appropriate and shall be reported to the public within three months of their receipt. These reports (i) shall be posted on the portion of the Department of Education's website relating to the School Performance Report Card, in a format and in a

manner that allows year-to-year comparisons, and (ii) may include the National Assessment of Educational Progress state-by-state assessment.

G. Each local school division superintendent shall regularly review the division's submission of data and reports required by state and federal law and regulations to ensure that all information is accurate and submitted in a timely fashion. The Superintendent of Public Instruction shall provide a list of the required reports and data to division superintendents annually. The status of compliance with this requirement shall be included in the Board of Education's annual report to the Governor and the General Assembly as required by § 22.1-18.

H. Any school board may request the Board of Education for release from state regulations or, on behalf of one or more of its schools, for approval of an Individual School Accreditation Plan for the evaluation of the performance of one or more of its schools as authorized for certain other schools by the Standards of Accreditation pursuant to 8VAC20-131-280 C of the Virginia Administrative Code. Waivers of regulatory requirements may be granted by the Board of Education based on submission of a request from the division superintendent and chairman of the local school board. The Board of Education may grant, for a period up to five years, a waiver of regulatory requirements that are not (i) mandated by state or federal law or (ii) designed to promote health or safety. The school board shall provide in its waiver request a description of how the releases from state regulations are designed to increase the quality of instruction and improve the achievement of students in the affected school or schools. The Department of Education shall provide (a) guidance to any local school division that requests releases from state regulations and (b) information about opportunities to form partnerships with other agencies or entities to any local school division in which the school or schools granted releases from state regulations have demonstrated improvement in the quality of instruction and the achievement of students.

The Board of Education may also grant local school boards waivers of specific requirements in § 22.1-253.13:2, based on submission of a request from the division superintendent and chairman of the local school board, permitting the local school board to assign instructional personnel to the schools with the greatest needs, so long as the school division employs a sufficient number of personnel divisionwide to meet the total number required by § 22.1-253.13:2 and all pupil/teacher ratios and class size maximums set forth in subsection C of § 22.1-253.13:2 are met. The school board shall provide in its request a description of how the waivers from specific Standards of Quality staffing standards are designed to increase the quality of instruction and improve the achievement of students in the affected school or schools. The waivers may be renewed in up to five-year increments, or revoked, based on student achievement results in the affected school or schools.

**§ 22.1-279.8. School safety audits and school crisis, emergency management, and medical emergency response plans required.**

A. For the purposes of this section, unless the context requires otherwise:

"School crisis, emergency management, and medical emergency response plan" means the essential procedures, operations, and assignments required to prevent, manage, and respond to a critical event or emergency, including natural disasters involving fire, flood, tornadoes, or other severe weather; loss or disruption of power, water, communications or shelter; bus or other accidents; medical emergencies, including cardiac arrest and other life-threatening medical emergencies; student or staff member deaths; explosions; bomb threats; gun, knife or other weapons threats; spills or exposures to hazardous substances; the presence of unauthorized persons or trespassers; the loss, disappearance or kidnapping of a student; hostage situations; violence on school property or at school activities; incidents involving acts of terrorism; and other incidents posing a serious threat of harm to students, personnel, or facilities. The plan shall include a provision that the Department of Criminal Justice Services and the Virginia Criminal Injuries Compensation Fund shall be contacted immediately to deploy assistance in the event of an emergency as defined in the emergency response plan when there are victims as defined in § 19.2-11.01. The Department of Criminal Justice Services and the Virginia Criminal Injuries Compensation Fund shall be the lead coordinating agencies for those individuals determined to be victims, and the plan shall also contain current contact information for both agencies.

"School safety audit" means a written assessment of the safety conditions in each public school to (i) identify and, if necessary, develop solutions for physical safety concerns, including building security issues and (ii) identify and evaluate any patterns of student safety concerns occurring on school property or at school-sponsored events. Solutions and responses shall include recommendations for structural adjustments, changes in school safety procedures, and revisions to the school board's standards for student conduct.

B. The Virginia Center for School and Campus Safety, in consultation with the Department of Education, shall develop a list of items to be reviewed and evaluated in the school safety audits required by this section. Such items shall include those incidents reported to school authorities pursuant to § 22.1-279.3:1 and shall include a school inspection walk-through using a standardized checklist provided by the Virginia Center for School and Campus Safety, which shall incorporate crime prevention through environmental design principles.

The Virginia Center for School and Campus Safety shall prescribe a standardized report format for school safety audits, additional reporting criteria, and procedures for report submission, which may include instructions for electronic submission.

Each local school board shall require all schools under its supervisory control to annually conduct school safety audits as defined in this section and consistent with such list.

The results of such school safety audits shall be made public within 90 days of completion. The local school board shall retain authority to withhold or limit the release of any security plans, walk-through checklists, and specific vulnerability assessment components as provided in subdivision 7 4 of § 2.2-3705.2. The completed walk-through checklist

shall be made available upon request to the chief law-enforcement officer of the locality or his designee. Each school shall maintain a copy of the school safety audit, which may exclude such security plans, walk-through checklists, and vulnerability assessment components, within the office of the school principal and shall make a copy of such report available for review upon written request.

Each school shall submit a copy of its school safety audit to the relevant school division superintendent. The division superintendent shall collate and submit all such school safety audits, in the prescribed format and manner of submission, to the Virginia Center for School and Campus Safety and shall make available upon request to the chief law-enforcement officer of the locality the results of such audits.

C. The division superintendent shall establish a school safety audit committee to include, if available, representatives of parents, teachers, local law-enforcement, emergency services agencies, local community services boards, and judicial and public safety personnel. The school safety audit committee shall review the completed school safety audits and submit any plans, as needed, for improving school safety to the division superintendent for submission to the local school board.

D. Each school board shall ensure that every school that it supervises shall develop a written school crisis, emergency management, and medical emergency response plan, consistent with the definition provided in this section, and shall provide copies of such plans to the chief law-enforcement officer, the fire chief, the chief of the emergency medical services agency, and the emergency management official of the locality. Each school division shall designate an emergency manager. The Department of Education and the Virginia Center for School and Campus Safety shall provide technical assistance to the school divisions of the Commonwealth in the development of the school crisis, emergency management, and medical emergency response plans that describe the components of a medical emergency response plan developed in coordination with local emergency medical services providers, the training of school personnel and students to respond to a life-threatening emergency, and the equipment required for this emergency response. The local school board shall annually review the written school crisis, emergency management, and medical emergency response plans. The local school board shall have the authority to withhold or limit the review of any security plans and specific vulnerability assessment components as provided in subdivision 7 4 of § 2.2-3705.2. The local school division superintendent shall certify this review in writing to the Virginia Center for School and Campus Safety no later than August 31 of each year.

Upon consultation with local school boards, division superintendents, the Virginia Center for School and Campus Safety, and the Coordinator of Emergency Management, the Board of Education shall develop, and may revise as it deems necessary, a model school crisis, emergency management, and medical emergency response plan for the purpose of assisting the public schools in Virginia in developing viable, effective crisis, emergency management, and medical emergency response plans. Such model shall set forth recommended effective procedures and means by which parents can contact the relevant school or school division regarding the location and safety of their school children and by which school officials may contact parents, with parental approval, during a critical event or emergency.

**§ 23.1-2425. Confidential and public information.**

A. The Authority is subject to the provisions of the Freedom of Information Act (§ 2.2-3700 et seq.), including the exclusions set forth in subdivision ~~15~~ 14 of § 2.2-3705.7 and subdivision A 23 of § 2.2-3711.

B. For purposes of the Freedom of Information Act (§ 2.2-3700 et seq.), meetings of the board are not considered meetings of the board of visitors of the University. Meetings of the board may be conducted through telephonic or video means as provided in § 2.2-3708.

**§ 32.1-48.08. Declaration of quarantine.**

A. The State Health Commissioner may declare a quarantine of any person or persons or any affected area after he finds that the quarantine is the necessary means to contain a communicable disease of public health threat as defined in § 32.1-48.06 to which such person or persons or the people of an affected area have been or may have been exposed and thus may become infected.

B. The State Health Commissioner shall record his findings and any information on which he has relied in making the finding required for quarantine pursuant to subsection A. The State Health Commissioner's record of findings concerning any communicable disease of public health threat shall be confidential and shall not be disclosed in accordance with subdivision ~~17~~ 12 of § 2.2-3705.5.

C. The State Health Commissioner may order the quarantined person or persons to remain in their residences, to remain in another place where they are present, or to report to a place or places designated by the State Health Commissioner for the duration of their quarantine. An electronic device may be used to enforce any such quarantine. The Commissioner's order of quarantine shall be for a duration consistent with the known incubation period for such disease or, if the incubation period is unknown, for a period anticipated as being consistent with the incubation period for other similar infectious agents.

**§ 32.1-48.011. Isolation may be ordered under certain exceptional circumstances; Commissioner authorized to require hospitalization or other health care.**

A. Whenever the State Health Commissioner makes a determination of exceptional circumstances pursuant to § 32.1-48.05 and that the isolation procedures set forth in Article 3.01 (§ 32.1-48.01 et seq.) of this chapter are insufficient control measures to contain a communicable disease of public health threat, the isolation procedures herein may be invoked.

B. The State Health Commissioner may order the isolation of a person or persons upon a finding that (i) such person or persons are infected with or may reasonably be suspected to be infected with a communicable disease of public health threat and (ii) isolation is necessary to protect the public health, to ensure such isolated person or persons receive appropriate

medical treatment, and to protect health care providers and others who may come into contact with such infected person or persons.

C. The State Health Commissioner shall record his findings and any information on which he has relied in making the finding required for isolation pursuant to this section. The State Health Commissioner's record of findings concerning any communicable disease of public health threat that is involved in an order of isolation shall be confidential and shall not be disclosed in accordance with subdivision 47 12 of § 2.2-3705.5.

D. The Commissioner may order the isolated person or persons to remain in their places of residence, to remain in another place where they are present, or to report to a place or facility designated by the Commissioner for the duration of their isolation. An electronic device may be used to enforce any such isolation. The Commissioner's order of isolation shall be for a duration consistent with the known course of such communicable disease of public health threat or, if the course of the disease is unknown or uncertain, for a period consistent with the probable course of the communicable disease of public health threat.

E. To the extent that persons subject to an order of isolation pursuant to this article require hospitalization or other health care services, the State Health Commissioner shall be authorized to require that such services be provided.

F. The State Health Commissioner shall also have the authority to monitor the medical condition of any person or persons subject to an order of isolation pursuant to this article through regular visits by public health nurses or such other means as the Commissioner shall determine to be necessary.

**§ 32.1-48.015. Authorization to disclose health records.**

A. The provisions of this article are hereby declared to be necessary to prevent serious harm and serious threats to the health and safety of individuals and the public in Virginia for purposes of authorizing the State Health Commissioner or his designee to examine and review any health records of any person or persons subject to any order of quarantine or order of isolation pursuant to this article and the regulations of the Department of Health and Human Services promulgated in compliance with the Health Insurance Portability and Accountability Act of 1996, as amended. The State Health Commissioner shall authorize any designee in writing to so examine and review any health records of any person or persons subject to any order of quarantine or order of isolation pursuant to this article.

B. Pursuant to the regulations concerning patient privacy promulgated by the federal Department of Health and Human Services, covered entities may disclose protected health information to the State Health Commissioner or his designee without obtaining consent or authorization for such disclosure from the person who is the subject of the records. Such protected health information shall be used to facilitate the health care of any person or persons who are subject to an order of quarantine or an order of isolation. The State Health Commissioner or his designee shall only redisclose such protected health information in compliance with the aforementioned federal regulations. Further, the protected health information disclosed to the State Health Commissioner or his designee shall be held confidential and shall not be disclosed pursuant to the provisions of subdivision 47 12 of § 2.2-3705.5.

C. Pursuant to subsection G of § 32.1-116.3, any person requesting or requiring any employee of a public safety agency as defined in subsection J of § 32.1-45.2 to arrest, transfer, or otherwise exercise custodial supervision over an individual known to the requesting person (i) to be infected with any communicable disease or (ii) to be subject to an order of quarantine or an order of isolation pursuant to Article 3.02 (§ 32.1-48.05 et seq.) of Chapter 2 shall inform such employee of a public safety agency of the potential risk of exposure to a communicable disease.

**§ 32.1-283.1. State Child Fatality Review Team; membership; access to and maintenance of records; confidentiality; etc.**

A. There is hereby created the State Child Fatality Review Team, referred to in this section as "the Team," which shall develop and implement procedures to ensure that child deaths occurring in Virginia are analyzed in a systematic way. The Team shall review (i) violent and unnatural child deaths, (ii) sudden child deaths occurring within the first 18 months of life, and (iii) those fatalities for which the cause or manner of death was not determined with reasonable medical certainty. No child death review shall be initiated by the Team until conclusion of any law-enforcement investigation or criminal prosecution. The Team shall (i) develop and revise as necessary operating procedures for the review of child deaths, including identification of cases to be reviewed and procedures for coordination among the agencies and professionals involved, (ii) improve the identification, data collection, and record keeping of the causes of child death, (iii) recommend components for prevention and education programs, (iv) recommend training to improve the investigation of child deaths, and (v) provide technical assistance, upon request, to any local child fatality teams that may be established. The operating procedures for the review of child deaths shall be exempt from the Administrative Process Act (§ 2.2-4000 et seq.) pursuant to subdivision B 17 of § 2.2-4002.

B. The 16-member Team shall be chaired by the Chief Medical Examiner and shall be composed of the following persons or their designees: the Commissioner of Behavioral Health and Developmental Services; the Director of Child Protective Services within the Department of Social Services; the Superintendent of Public Instruction; the State Registrar of Vital Records; and the Director of the Department of Criminal Justice Services. In addition, one representative from each of the following entities shall be appointed by the Governor to serve for a term of three years: local law-enforcement agencies, local fire departments, local departments of social services, the Medical Society of Virginia, the Virginia College of Emergency Physicians, the Virginia Pediatric Society, local emergency medical services personnel, attorneys for the Commonwealth, and community services boards.

C. Upon the request of the Chief Medical Examiner in his capacity as chair of the Team, made after the conclusion of any law-enforcement investigation or prosecution, information and records regarding a child whose death is being reviewed by the Team may be inspected and copied by the Chief Medical Examiner or his designee, including, but not limited to, any report of the circumstances of the event maintained by any state or local law-enforcement agency or medical examiner, and information or records maintained on such child by any school, social services agency or court. Information, records, or reports maintained by any attorney for the Commonwealth shall be made available for inspection and copying by the Chief Medical Examiner pursuant to procedures which shall be developed by the Chief Medical Examiner and the Commonwealth's Attorneys' Services Council established by § 2.2-2617. Any presentence report prepared pursuant to § 19.2-299 for any person convicted of a crime that led to the death of the child shall be made available for inspection and copying by the Office of the Chief Medical Examiner pursuant to procedures which shall be developed by the Chief Medical Examiner. In addition, the Office of the Chief Medical Examiner may inspect and copy from any Virginia health care provider, on behalf of the Team, (i) without obtaining consent, the health and mental health records of the child and those perinatal medical records of the child's mother that related to such child and (ii) upon obtaining consent from each adult regarding his personal records, or from a parent regarding the records of a minor child, the health and mental health records of the child's family. All such information and records shall be confidential and shall be excluded from the Virginia Freedom of Information Act (§ 2.2-3700 et seq.) pursuant to subdivision 9 7 of § 2.2-3705.5. Upon the conclusion of the child death review, all information and records concerning the child and the child's family shall be shredded or otherwise destroyed by the Office of the Chief Medical Examiner in order to ensure confidentiality. Such information or records shall not be subject to subpoena or discovery or be admissible in any criminal or civil proceeding. If available from other sources, however, such information and records shall not be immune from subpoena, discovery, or introduction into evidence when obtained through such other sources solely because the information and records were presented to the Team during a child death review. Further, the findings of the Team may be disclosed or published in statistical or other form which shall not identify individuals. The portions of meetings in which individual child death cases are discussed by the Team shall be closed pursuant to subdivision A 21 of § 2.2-3711. In addition to the requirements of § 2.2-3712, all team members, persons attending closed team meetings, and persons presenting information and records on specific child deaths to the Team during closed meetings shall execute a sworn statement to honor the confidentiality of the information, records, discussions, and opinions disclosed during any closed meeting to review a specific child death. Violations of this subsection are punishable as a Class 3 misdemeanor.

D. Upon notification of a child death, any state or local government agency maintaining records on such child or such child's family which are periodically purged shall retain such records for the longer of 12 months or until such time as the State Child Fatality Review Team has completed its child death review of the specific case.

E. The Team shall compile annual data which shall be made available to the Governor and the General Assembly as requested. These statistical data compilations shall not contain any personally identifying information and shall be public records.

**§ 32.1-283.2. Local and regional child fatality review teams established; membership; authority; confidentiality; immunity.**

A. Upon the initiative of any local or regional law-enforcement agency, fire department, department of social services, emergency medical services agency, attorney for the Commonwealth's office, or community services board, local or regional child fatality teams may be established for the purpose of conducting contemporaneous reviews of local child deaths in order to develop interventions and strategies for prevention specific to the locality or region. Each team shall establish rules and procedures to govern the review process. Agencies may share information but shall be bound by confidentiality and execute a sworn statement to honor the confidentiality of the information they share. Violations are punishable as a Class 3 misdemeanor. The State Child Fatality Review Team shall provide technical assistance and direction as provided for in subsection A of § 32.1-283.1.

B. Local and regional teams may be composed of the following persons from the localities represented on a particular board or their designees: a medical examiner appointed pursuant to § 32.1-282, a local social services official in charge of child protective services, a director of the relevant local or district health department, a chief law-enforcement officer, a local fire marshal, a local emergency medical services agency chief, the attorney for the Commonwealth, an executive director of the local community services board or other local mental health agency, and such additional persons, not to exceed four, as may be appointed to serve by the chairperson of the local or regional team. The chairperson shall be elected from among the designated membership. The additional members appointed by the chairperson may include, but are not restricted to, representatives of local human services agencies; local public education agencies; local pediatricians, psychiatrists and psychologists; and local child advocacy organizations.

C. Each team shall establish local rules and procedures to govern the review process prior to conducting the first child fatality review. The review of a death shall be delayed until any criminal investigations connected with the death are completed or the Commonwealth consents to the commencement of such review prior to the completion of the criminal investigation.

D. All information and records obtained or created regarding the review of a fatality shall be confidential and shall be excluded from the Virginia Freedom of Information Act (§ 2.2-3700 et seq.) pursuant to subdivision 9 7 of § 2.2-3705.5. All such information and records shall be used by the team only in the exercise of its proper purpose and function and shall not be disclosed. Such information or records shall not be subject to subpoena, subpoena duces tecum, or discovery or be

admissible in any criminal or civil proceeding. If available from other sources, however, such information and records shall not be immune from subpoena, subpoena duces tecum, discovery or introduction into evidence when obtained through such other sources solely because the information and records were presented to the team during a fatality review. No person who participated in the reviews nor any member of the team shall be required to make any statement as to what transpired during the review or what information was collected during the review. Upon the conclusion of the fatality review, all information and records concerning the victim and the family shall be returned to the originating agency or destroyed. However, the findings of the team may be disclosed or published in statistical or other form which shall not identify individuals. The portions of meetings in which individual cases are discussed by the team shall be closed pursuant to subdivision A 21 of § 2.2-3711. All team members, persons attending closed team meetings, and persons presenting information and records on specific fatalities to the team during closed meetings shall execute a sworn statement to honor the confidentiality of the information, records, discussions, and opinions disclosed during any closed meeting to review a specific death. Violations of this subsection are punishable as a Class 3 misdemeanor.

E. Members of teams, as well as their agents and employees, shall be immune from civil liability for any act or omission made in connection with participation in a child fatality review team review, unless such act or omission was the result of gross negligence or willful misconduct. Any organization, institution, or person furnishing information, data, testimony, reports or records to review teams as part of such review, shall be immune from civil liability for any act or omission in furnishing such information, unless such act or omission was the result of gross negligence or willful misconduct.

**§ 32.1-283.3. Family violence fatality review teams established; model protocol and data management; membership; authority; confidentiality, etc.**

A. The Office of the Chief Medical Examiner shall develop a model protocol for the development and implementation of local family violence fatality review teams (teams) and such model protocol shall include relevant procedures for conducting reviews of fatal family violence incidents. ~~F~~ H. If restitution is ordered to be paid by the defendant to the victim of a crime and the victim can no longer be located or identified, the clerk shall deposit any such restitution collected to the Criminal Injuries Compensation Fund for the benefit of crime victims. The administrator shall reserve a sum sufficient in the Fund from which he shall make prompt payment to the victim for any proper claims. **§ 19.2-305.2. Amount of restitution; enforcement.**

A. B. An order of restitution may be docketed as provided in § 8.01-446 when so ordered by the court or upon written request of the victim and may be enforced by a victim named in the order to receive the restitution in the same manner as a judgment in a civil action. *Such docketing shall not be construed to prohibit the court from exercising any authority otherwise available to enforce the order of restitution.*

**§ 19.2-349. Responsibility for collections; clerks to report unsatisfied fines, etc.; duty of attorneys for Commonwealth; duties of Department of Taxation.**

A. The clerk of the circuit court and district court of every county and city shall submit to the judge of his court, the Department of Taxation, the State Compensation Board and the attorney for the Commonwealth of his county or city a monthly report of all fines, costs, forfeitures and penalties which are delinquent more than 30 days, including court-ordered restitution of a sum certain, imposed in his court for a violation of state law or a local ordinance which remain unsatisfied, including those which are delinquent in installment payments. C. It shall be the duty of the attorney for the Commonwealth to cause proper proceedings to be instituted for the collection and satisfaction of all fines, costs, forfeitures, penalties and restitution. The attorney for the Commonwealth shall determine whether it would be impractical or uneconomical for such service to be rendered by the office of the attorney for the Commonwealth. If the defendant does not enter into an installment payment agreement under § 19.2-354, the attorney for the Commonwealth and the clerk may agree to a process by which collection activity may be commenced 30 days after judgment.

If the attorney for the Commonwealth does not undertake collection, he shall contract with (i) private attorneys or private collection agencies, (ii) enter into an agreement with a local governing body, (iii) enter into an agreement with the county or city treasurer, or (iv) use the services of the Department of Taxation, upon such terms and conditions as may be established by guidelines promulgated by the Office of the Attorney General, the Executive Secretary of the Supreme Court with the Department of Taxation and the Compensation Board. If the attorney for the Commonwealth undertakes collection, he shall follow the procedures established by the Department of Taxation and the Compensation Board. Such guidelines shall not supersede contracts between attorneys for the Commonwealth and private attorneys and collection agencies when active collection efforts are being undertaken. As part of such contract, private attorneys or collection agencies shall be given access to the social security number of the defendant in order to assist in the collection effort. Any such private attorney shall be subject to the penalties and provisions of § 18.2-186.3.

However, in no event shall such attorney or collection agency receive a fee for amounts collected by the Department of Taxation under the Setoff Debt Collection Act (§ 58.1-520 et seq.). A local treasurer undertaking collection pursuant to an agreement with the attorney for the Commonwealth may collect the administrative fee authorized by § 58.1-3958.

~~C.~~ D. The Department of Taxation and the State Compensation Board shall be responsible for the collection of any judgment which remains unsatisfied or does not meet the conditions of § 19.2-354. Persons owing such unsatisfied judgments or failing to comply with installment payment agreements under § 19.2-354 shall be subject to the delinquent tax collection provisions of Title 58.1. The Department of Taxation and the State Compensation Board shall establish procedures to be followed by clerks of courts, attorneys for the Commonwealth, other state agencies and any private attorneys or collection agents and may employ private attorneys or collection agencies, or engage other state agencies to collect the judgment. The Department of Taxation and the Commonwealth shall be entitled to deduct a fee for services from amounts collected for violations of local ordinances.

The Department of Taxation and the State Compensation Board shall annually report to the Governor and the General Assembly the total of fines, costs, forfeitures and penalties assessed, collected, and unpaid and those which remain unsatisfied or do not meet the conditions of § 19.2-354 by each circuit and district court. **§ 19.2-368.15. Subrogation of Commonwealth to claimant's right of action; lien in favor of the Commonwealth; disposition of funds collected.**

Acceptance of an award made pursuant to this chapter shall subrogate the Commonwealth, to the extent of such award, to any right or right of action accruing to the claimant or the victim to recover payments on account of losses resulting from the crime with respect to which the award is made. However, except as otherwise provided in subsection ~~G~~ I of § 19.2-305.1, the Commonwealth shall not institute any proceedings in connection with its right of subrogation under this section within one year from the date of commission of the crime, unless any claimant or victim's right or action shall have

been previously terminated. All funds collected by the Commonwealth in a proceeding instituted pursuant to this section shall be paid over to the Comptroller for deposit into the Criminal Injuries Compensation Fund.

Whenever any person receives an award from the Criminal Injuries Compensation Fund, the Commonwealth shall have a lien for the total amount paid by the Fund, or any portion thereof compromised pursuant to the authority granted under § 2.2-514, on the claim of such injured person or his personal representative against the person, firm, or corporation who is alleged to have caused such injuries. The Fund's lien shall be inferior to any lien for payment of reasonable attorney fees and costs, but shall be superior to all other liens created by § 8.01-66.2. The injured person may file a petition or motion to reduce the lien and apportion the recovery pursuant to § 8.01-66.9. The Fund's lien shall become effective when notice is provided pursuant to § 8.01-66.5 and liability shall attach pursuant to § 8.01-66.6.

B. The minimum public liability financial responsibility requirements for motor carriers operating in intrastate commerce shall be *based on the gross vehicle weight rating of the vehicle as follows: for vehicles with a gross vehicle weight rating in excess of 10,000 pounds, the minimum requirement is \$750,000; for vehicles with a gross vehicle weight rating in excess of 7,500 pounds but not in excess of 10,000 pounds, the minimum requirement is \$300,000; for passenger cars, motorcycles, autocycles, and vehicles with a gross vehicle weight rating of 7,500 pounds or less, the minimum requirement for clause (i) of subsection A is \$25,000 per person, \$50,000 per incident for death and bodily injury and \$20,000 for property damage and for clause (ii) of subsection A is \$100,000 per person and \$300,000 per incident for death and bodily injury and at least \$50,000 for property damage.* The minimum insurance for motor carriers operating in interstate commerce shall equal the minimum required by federal law, rule, or regulation.

**§ 46.2-2143.2. Special insurance provisions for certain carriers.**

A. The provisions of this section shall apply only to motor carriers exempt under subdivision 6 of § 46.2-2101 and insurance policies maintained by such carriers pursuant to this article.

B. Insurance coverage for motor carriers shall be primary, and the requirements of § 46.2-2143.1 may be satisfied by any of the following:

1. Insurance maintained by the motor carrier;
2. Insurance maintained by another person on behalf of the motor carrier; or
3. Any combination of subdivisions 1 and 2.

C. A motor carrier may meet its obligation under subsection B of § 46.2-2143.1 through a policy obtained by a person other than the carrier under subdivision B 2 or 3 only if the motor carrier verifies that the policy is maintained by such other person.

D. Insurers providing coverage under subsection B of § 46.2-2143.1 shall have the exclusive duty to defend any liability claim, including any claim against a motor carrier or person acting for or on behalf of the motor carrier, arising from an accident occurring within the time period specified in subsection A of § 46.2-2143.1. Insurers of the personal automobile insurance policy of neither a person acting for or on behalf of the motor carrier nor the vehicle's owner shall have the duty to defend or indemnify the activities of a person acting for or on behalf of a motor carrier in connection with the motor carrier unless such policy expressly provides otherwise for the period of time to which subsection A of § 46.2-2143.1 is applicable or the policy contains an amendment or endorsement to provide that coverage.

E. Coverage under a motor carrier's insurance policy shall not be dependent on a personal automobile policy's first denying a claim, nor shall a personal automobile insurance policy be required to first deny a claim.

F. Nothing in this section shall be construed to require a personal automobile insurance policy to provide primary or excess coverage. The personal automobile insurance policy of neither a person acting for or on behalf of the motor carrier nor the vehicle's owner shall provide coverage for activities in connection with the motor carrier to such person acting for or on behalf of the motor carrier, the vehicle owner, or any third party unless such policy expressly provides otherwise for the period of time to which subsection A of § 46.2-2143.1 is applicable or the policy contains an amendment or endorsement to provide that coverage.

G. In every instance where motor carrier insurance maintained by a person other than the motor carrier to fulfill the insurance obligations of subsection B of § 46.2-2143.1 has lapsed or ceased to exist, the motor carrier shall provide the coverage required by that subsection beginning with the first dollar of a claim.

H. This section shall not limit the liability of a motor carrier arising out of an accident involving a person acting for or on behalf of the carrier in any action for damages against a motor carrier for an amount above the required insurance coverage.

I. Any person, or an attorney acting on his behalf, who suffers a loss in an automobile accident with a reasonable belief that the accident involves a vehicle operated by a person acting for or on behalf of a motor carrier and who provides the motor carrier with the date, approximate time, and location of the accident, the name of the vehicle operator, if available, and the accident report, if available, may request in writing from the motor carrier information relating to the insurance coverage and the company providing the coverage. The motor carrier shall respond electronically or in writing within 30 days. The motor carrier's response shall contain the following information: (i) whether, at the approximate time of the accident, the vehicle was being operated for or on behalf of the motor carrier; (ii) the name of the insurance carrier providing primary coverage; and (iii) the identity and last known address of the vehicle operator.

J. Any insurance required by subsection B of § 46.2-2143.1 may be placed with an insurer that has been admitted in Virginia or with an insurer providing surplus lines insurance as defined in § 38.2-4805.2.

K. Any insurance policy required by subsection B of § 46.2-2143.1 shall satisfy the financial responsibility requirement for a motor vehicle under § 46.2-706 during the period such vehicle is being operated for or on behalf of a motor carrier.

L. If a vehicle operated by a person acting for or on behalf of a motor carrier is insured under a personal automobile insurance policy that does not exclude coverage, then such policy shall provide primary coverage and an insurance policy maintained by the motor carrier under § 46.2-2143.1 shall provide excess coverage up to at least the limits required by § 46.2-2143.1.

M. In a claims coverage investigation, a motor carrier and its insurer shall cooperate with insurers involved in the claims coverage investigation to facilitate the exchange of information, including the date and time of any accident involving a vehicle operated for or on behalf of the motor carrier and the precise times that the vehicle was being operated for or on behalf of the motor carrier.

**§ 46.2-2144. Policies or surety bonds to be filed with the Department and securities with State Treasurer.**

A. Each motor carrier shall keep on file with the Department proof of an insurance policy or bond in accordance with this article. Record of the policy or bond shall remain in the files of the Department six months after the certificate of fitness, registration card, license plate, ~~identification marker~~ or permit is canceled for any cause. If federal, state, or municipal bonds are deposited with the State Treasurer in lieu of an insurance policy, the bonds shall remain deposited until six months after the registration card, license plate, certificate, ~~or permit or identification marker~~ is canceled for any cause unless otherwise ordered by the Department.

B. The Department may, without holding a hearing, suspend a permit or certificate of fitness if the permittee or certificate holder fails to comply with the requirements of this section.

**2. That § 46.2-2108.3 and Article 5 (§§ 46.2-2174, 46.2-2175, and 46.2-2176) of Chapter 21 of Title 46.2 of the Code of Virginia are repealed.**

**3. That the provisions of this act shall become effective on January 1, 2018.**

**§ 32.1-102.2. Regulations.**

A. The Board shall promulgate regulations ~~which~~ *that* are consistent with this article and:

1. Shall establish concise procedures for the prompt review of applications for certificates consistent with the provisions of this article which may include a structured batching process which incorporates, but is not limited to, authorization for the Commissioner to request proposals for certain projects. In any structured batching process established by the Board, applications, combined or separate, for computed tomographic (CT) scanning, magnetic resonance imaging (MRI), positron emission tomographic (PET) scanning, radiation therapy, stereotactic radiotherapy, proton beam therapy, or nuclear imaging shall be considered in the radiation therapy batch. A single application may be filed for a combination of (i) radiation therapy, stereotactic radiotherapy and proton beam therapy, and (ii) any or all of the computed tomographic (CT) scanning, magnetic resonance imaging (MRI), positron emission tomographic (PET) scanning, and nuclear medicine imaging;

2. May classify projects and may eliminate one or more or all of the procedures prescribed in § 32.1-102.6 for different classifications;

3. May provide for exempting from the requirement of a certificate projects determined by the Commissioner, upon application for exemption, to be subject to the economic forces of a competitive market or to have no discernible impact on the cost or quality of health services;

4. Shall establish specific criteria for determining need in rural areas, giving due consideration to distinct and unique geographic, socioeconomic, cultural, transportation, and other barriers to access to care in such areas and providing for weighted calculations of need based on the barriers to health care access in such rural areas in lieu of the determinations of need used for the particular proposed project within the relevant health systems area as a whole;

5. May establish, on or after July 1, 1999, a schedule of fees for applications for certificates to be applied to expenses for the administration and operation of the certificate of public need program. Such fees shall not be less than \$1,000 nor exceed the lesser of one percent of the proposed expenditure for the project or \$20,000. Until such time as the Board shall establish a schedule of fees, such fees shall be one percent of the proposed expenditure for the project; however, such fees shall not be less than \$1,000 or more than \$20,000; and

6. Shall establish an expedited application and review process for any certificate for projects reviewable pursuant to subdivision 8 of the definition of "project" in § 32.1-102.1. Regulations establishing the expedited application and review procedure shall include provisions for notice and opportunity for public comment on the application for a certificate, and criteria pursuant to which an application that would normally undergo the review process would instead undergo the full certificate of public need review process set forth in § 32.1-102.6.

B. The Board shall promulgate regulations providing for time limitations for schedules for completion and limitations on the exceeding of the maximum capital expenditure amount for all reviewable projects. The Commissioner shall not approve any such extension or excess unless it complies with the Board's regulations. However, the Commissioner may approve a significant change in cost for an approved project that exceeds the authorized capital expenditure by more than 20 percent, provided the applicant has demonstrated that the cost increases are reasonable and necessary under all the circumstances and do not result from any material expansion of the project as approved.

C. The Board shall also promulgate regulations authorizing the Commissioner to condition approval of a certificate on the agreement of the applicant to provide a level of *charity* care ~~at a reduced rate to indigents~~ *indigent persons* or accept patients requiring specialized care. In addition, the Board's licensure regulations shall direct the Commissioner to condition the issuing or renewing of any license for any applicant whose certificate was approved upon such condition on whether such applicant has complied with any agreement to provide a level of *charity* care ~~at a reduced rate to indigents~~ *indigent persons* or accept patients requiring specialized care. *Except in the case of nursing homes, the value of charity care provided to individuals pursuant to this subsection shall be based on the provider reimbursement methodology utilized by the Centers for Medicare and Medicaid Services for reimbursement under Title XVIII of the Social Security Act, 42 U.S.C. § 1395 et seq.*

**§ 32.1-102.4. Conditions of certificates; monitoring; revocation of certificates.**

A. A certificate shall be issued with a schedule for the completion of the project and a maximum capital expenditure amount for the project. The schedule may not be extended and the maximum capital expenditure may not be exceeded without the approval of the Commissioner in accordance with the regulations of the Board.

B. The Commissioner shall monitor each project for which a certificate is issued to determine its progress and compliance with the schedule and with the maximum capital expenditure. The Commissioner shall also monitor all continuing care retirement communities for which a certificate is issued authorizing the establishment of a nursing home facility or an increase in the number of nursing home beds pursuant to § 32.1-102.3:2 and shall enforce compliance with the conditions for such applications which are required by § 32.1-102.3:2. Any willful violation of a provision of § 32.1-102.3:2 or conditions of a certificate of public need granted under the provisions of § 32.1-102.3:2 shall be subject to a civil penalty of up to \$100 per violation per day until the date the Commissioner determines that such facility is in compliance.

C. A certificate may be revoked when:

1. Substantial and continuing progress towards completion of the project in accordance with the schedule has not been made;

2. The maximum capital expenditure amount set for the project is exceeded;

3. The applicant has willfully or recklessly misrepresented intentions or facts in obtaining a certificate; or

4. A continuing care retirement community applicant has failed to honor the conditions of a certificate allowing the establishment of a nursing home facility or granting an increase in the number of nursing home beds in an existing facility which was approved in accordance with the requirements of § 32.1-102.3:2.

D. Further, the Commissioner shall not approve an extension for a schedule for completion of any project or the exceeding of the maximum capital expenditure of any project unless such extension or excess complies with the limitations provided in the regulations promulgated by the Board pursuant to § 32.1-102.2.

E. Any person willfully violating the Board's regulations establishing limitations for schedules for completion of any project or limitations on the exceeding of the maximum capital expenditure of any project shall be subject to a civil penalty of up to \$100 per violation per day until the date of completion of the project.

F. The Commissioner may condition, pursuant to the regulations of the Board, the approval of a certificate (i) upon the agreement of the applicant to provide a level of *charity care* at a ~~reduced rate to indigents~~ *indigent persons* or accept patients requiring specialized care or (ii) upon the agreement of the applicant to facilitate the development and operation of primary medical care services in designated medically underserved areas of the applicant's service area. *Except in the case of nursing homes, the value of charity care provided to individuals pursuant to this subsection shall be based on the provider reimbursement methodology utilized by the Centers for Medicare and Medicaid Services for reimbursement under Title XVIII of the Social Security Act, 42 U.S.C. § 1395 et seq.*

The certificate holder shall provide documentation to the Department demonstrating that the certificate holder has satisfied the conditions of the certificate, *including documentation of the amount of charity care provided to patients*. If the certificate holder is unable or fails to satisfy the conditions of a certificate, the Department may approve alternative methods to satisfy the conditions pursuant to a plan of compliance. The plan of compliance shall identify a timeframe within which the certificate holder will satisfy the conditions of the certificate, and identify how the certificate holder will satisfy the conditions of the certificate, which may include (i) making direct payments to an organization authorized under a memorandum of understanding with the Department to receive contributions satisfying conditions of a certificate, (ii) making direct payments to a private nonprofit foundation that funds basic insurance coverage for indigents authorized under a memorandum of understanding with the Department to receive contributions satisfying conditions of a certificate, or (iii) other documented efforts or initiatives to provide primary or specialized care to underserved populations. In determining whether the certificate holder has met the conditions of the certificate pursuant to a plan of compliance, only such direct payments, efforts, or initiatives made or undertaken after issuance of the conditioned certificate shall be counted towards satisfaction of conditions.

Any person willfully refusing, failing, or neglecting to honor such agreement shall be subject to a civil penalty of up to \$100 per violation per day until the date of compliance.

G. Pursuant to regulations of the Board, the Commissioner may accept requests for and approve amendments to conditions of existing certificates related to the provision of care at reduced rates or to patients requiring specialized care or related to the development and operation of primary medical care services in designated medically underserved areas of the certificate holder's service area.

H. For the purposes of this section, "completion" means conclusion of construction activities necessary for the substantial performance of the contract.

**§ 32.1-276.5. Providers to submit data.**

A. Every health care provider shall submit data as required pursuant to regulations of the Board, consistent with the recommendations of the nonprofit organization in its strategic plans submitted and approved pursuant to § 32.1-276.4, and as required by this section. *Such data shall include relevant data and information for any parent or subsidiary company of the health care provider that operates in the Commonwealth.* Notwithstanding the provisions of Chapter 38 (§ 2.2-3800 et seq.) of Title 2.2, it shall be lawful to provide information in compliance with the provisions of this chapter.

B. In addition, health maintenance organizations shall annually submit to the Commissioner, to make available to consumers who make health benefit enrollment decisions, audited data consistent with the latest version of the Health Employer Data and Information Set (HEDIS), as required by the National Committee for Quality Assurance, or any other quality of care or performance information set as approved by the Board. The Commissioner, at his discretion, may grant a waiver of the HEDIS or other approved quality of care or performance information set upon a determination by the Commissioner that the health maintenance organization has met Board-approved exemption criteria. The Board shall promulgate regulations to implement the provisions of this section.

C. Every medical care facility as that term is defined in § 32.1-102.1 that furnishes, conducts, operates, or offers any reviewable service shall report data on utilization of such service to the Commissioner, who shall contract with the nonprofit organization authorized under this chapter to collect and disseminate such data. For purposes of this section, "reviewable service" shall mean inpatient beds, operating rooms, nursing home services, cardiac catheterization, computed tomographic (CT) scanning, stereotactic radiosurgery, lithotripsy, magnetic resonance imaging (MRI), magnetic source imaging, medical rehabilitation, neonatal special care, obstetrical services, open heart surgery, positron emission tomographic (PET) scanning, psychiatric services, organ and tissue transplant services, radiation therapy, stereotactic radiotherapy, proton beam therapy, nuclear medicine imaging except for the purpose of nuclear cardiac imaging, and substance abuse treatment.

*Every medical care facility for which a certificate of public need with conditions imposed pursuant to § 32.1-102.4 is issued shall report to the Commissioner data on charity care, as that term is defined in § 32.1-102.1, provided to satisfy a condition of a certificate of public need, including (i) the total amount of such charity care the facility provided to indigent*

persons; (ii) the number of patients to whom such charity care was provided; (iii) the specific services delivered to patients that are reported as charity care recipients; and (iv) the portion of the total amount of such charity care provided that each service represents. The value of charity care reported shall be based on the medical care facility's submission of applicable Diagnosis Related Group codes and Current Procedural Terminology codes aligned with methodology utilized by the Centers for Medicare and Medicaid Services for reimbursement under Title XVIII of the Social Security Act, 42 U.S.C. § 1395 et seq. Notwithstanding the foregoing, every nursing home as defined in § 32.1-123 for which a certificate of public need with conditions imposed pursuant to § 32.1-102.4 is issued shall report data on utilization and other data in accordance with regulations of the Board.

The Commissioner shall also negotiate and contract with a nonprofit organization authorized under § 32.1-276.4 for compiling, storing, and making available to consumers the data submitted by health maintenance organizations pursuant to this section. The nonprofit organization shall assist the Board in developing a quality of care or performance information set for such health maintenance organizations and shall, at the Commissioner's discretion, periodically review this information set for its effectiveness.

D. Every continuing care retirement community established pursuant to Chapter 49 (§ 38.2-4900 et seq.) of Title 38.2 that includes nursing home beds shall report data on utilization of such nursing home beds to the Commissioner, who shall contract with the nonprofit organization authorized under this chapter to collect and disseminate such data.

E. 6. Wherever a highway is marked with double traffic lines consisting of two immediately adjacent solid yellow lines, no vehicle shall be driven to the left of such lines, except (i) when turning left or (ii) in order to pass a pedestrian or a device moved by human power, including a bicycle, skateboard, or foot-scooter, provided such movement can be made safely; and

The Council shall revise such plan at least once every six years and shall submit such recommendations as are necessary for the implementation of the plan to the Governor and the General Assembly.

2. Review and approve or disapprove any proposed change in the statement of mission of any public institution of higher education and define the mission of all newly created public institutions of higher education. The Council shall report such approvals, disapprovals, and definitions to the Governor and the General Assembly at least once every six years. No such actions shall become effective until 30 days after adjournment of the session of the General Assembly next following the filing of such a report. Nothing in this subdivision shall be construed to authorize the Council to modify any mission statement adopted by the General Assembly or empower the Council to affect, either directly or indirectly, the selection of faculty or the standards and criteria for admission of any public institution of higher education, whether relating to academic standards, residence, or other criteria. Each such institution shall use an approved program that complies with the guidelines of the Council and is consistent with the institution's mission and educational objectives in the development of such assessment. with another institution of higher education with which it is not corporately connected or in such other way as the Council may authorize by regulation. In the event that an institution closes or has its approval to operate in the Commonwealth revoked, the Council, through its director, may take such action as is necessary to secure and preserve the student transcripts until such time as an appropriate institution accepts all or some of the transcripts. Nothing in this subdivision shall be deemed to interfere with the right of a student to his own transcripts or authorize disclosure of student records except as may otherwise be authorized by law.

**§ 20-107.1:1. Court may decree as to maintenance of life insurance policy.**

*A. Upon entry of a decree providing for (i) the dissolution of a marriage, (ii) a divorce, whether from the bond of matrimony or from bed and board, or (iii) separate maintenance, where an order for spousal support or separate maintenance has been entered by the court, the court may order a party to (a) maintain any existing life insurance policy on the insured party's life that was purchased during the marriage, is issued through the insured's employment, or is within effective control of the insured, provided that the party so ordered has the right to designate a beneficiary and that the payee*

has been designated as a beneficiary of such policy during the marriage and the payee is a party with an insurable interest pursuant to subsection B of § 38.2-301; (b) designate the other party as beneficiary of all or a portion of the death benefit of such life insurance for so long as the insured party so ordered has an obligation to pay spousal support to the other party, provided that the party so ordered has the right to designate a beneficiary and that the payee has been designated as a beneficiary of such policy during the marriage and the payee is a party with an insurable interest pursuant to subsection B of § 38.2-301 in accordance with the terms of the policy; (c) allocate the premium cost of such life insurance between the parties, provided that all premiums shall be billed to the policyholder; and (d) order the insured party to execute all appropriate forms or written consents to require the insurer to provide information to the party beneficiary as to the good standing of the policy and the maintenance of that party as beneficiary to the extent required by the order entered pursuant to this section. Any obligation or requirement under such an order shall cease upon the termination of the party's obligation to pay spousal support or separate maintenance.

B. In making a determination under subsection A, the court shall consider:

1. The age, health, and insurability of the insured party;
2. The age and health of the payee spouse;
3. The cost of the life insurance policy;
4. The amount and term of the award of spousal support or separate maintenance;
5. The prevailing insurance rates at the time of the order;
6. The ability of either spouse to pay the premium cost of the life insurance; and
7. Such other factors as the court deems necessary or appropriate to consider in order to arrive at a fair order.

C. Upon motion of either party, any order entered pursuant to this section may be modified upon a material change of circumstances, including a change in marital status of the payor spouse, and in consideration of the factors set forth in subsection B. This provision shall not permit the change in marital status of the payor spouse to be considered as a factor under § 20-107.1 or considered a material change in circumstances in any proceeding related to the modification of spousal support.

D. Nothing in this section shall be construed to create an independent cause of action on the part of any beneficiary against the insurer or to require an insurer to provide information relating to such policy to any person other than the policyholder without the written consent of the policyholder or unless ordered by the court.

E. Nothing in this section shall be construed to require an insurance company to renew or reinstate any insurance policy other than as provided in such insurance policy.

F. In the event a group policy issued by an employer that is subject to a court order pursuant to this section is terminated or canceled by the employer or there is an involuntary change in employment by the payor causing the policy to no longer be in effect, such circumstances shall not be the basis of any finding of contempt against the payor arising out of an order entered pursuant to this section.

G. This section shall not apply to any second to die insurance policies on the lives of the payor and payee.

H. In the case of a term life insurance policy that has the ability to convert to a permanent policy, the court shall not impose an obligation to pay for such a conversion.

### **§ 20-107.3. Court may decree as to property and debts of the parties.**

A. Upon decreeing the dissolution of a marriage, and also upon decreeing a divorce from the bond of matrimony, or upon the filing with the court as provided in subsection J of a certified copy of a final divorce decree obtained without the Commonwealth, the court, upon request of either party, (i) shall determine the legal title as between the parties, and the ownership and value of all property, real or personal, tangible or intangible, of the parties and shall consider which of such property is separate property, which is marital property, and which is part separate and part marital property in accordance with subdivision A 3 and (ii) shall determine the nature of all debts of the parties, or either of them, and shall consider which of such debts is separate debt and which is marital debt. The court shall determine the value of any such property as of the date of the evidentiary hearing on the evaluation issue. The court shall determine the amount of any such debt as of the date of the last separation of the parties, if at such time or thereafter at least one of the parties intends that the separation be permanent, and the extent to which such debt has increased or decreased from the date of separation until the date of the evidentiary hearing. Upon motion of either party made no less than 21 days before the evidentiary hearing the court may, for good cause shown, in order to attain the ends of justice, order that a different valuation date be used. The court, on the motion of either party, may retain jurisdiction in the final decree of divorce to adjudicate the remedy provided by this section when the court determines that such action is clearly necessary, and all decrees heretofore entered retaining such jurisdiction are validated.

1. Separate property is (i) all property, real and personal, acquired by either party before the marriage; (ii) all property acquired during the marriage by bequest, devise, descent, survivorship or gift from a source other than the other party; (iii) all property acquired during the marriage in exchange for or from the proceeds of sale of separate property, provided that such property acquired during the marriage is maintained as separate property; and (iv) that part of any property classified as separate pursuant to subdivision A 3. Income received from separate property during the marriage is separate property if not attributable to the personal effort of either party. The increase in value of separate property during the marriage is separate property, unless marital property or the personal efforts of either party have contributed to such increases and then only to the extent of the increases in value attributable to such contributions. The personal efforts of

either party must be significant and result in substantial appreciation of the separate property if any increase in value attributable thereto is to be considered marital property.

2. Marital property is (i) all property titled in the names of both parties, whether as joint tenants, tenants by the entirety or otherwise, except as provided by subdivision A 3, (ii) that part of any property classified as marital pursuant to subdivision A 3, or (iii) all other property acquired by each party during the marriage which is not separate property as defined above. All property including that portion of pensions, profit-sharing or deferred compensation or retirement plans of whatever nature, acquired by either spouse during the marriage, and before the last separation of the parties, if at such time or thereafter at least one of the parties intends that the separation be permanent, is presumed to be marital property in the absence of satisfactory evidence that it is separate property. For purposes of this section marital property is presumed to be jointly owned unless there is a deed, title or other clear indicia that it is not jointly owned.

3. The court shall classify property as part marital property and part separate property as follows:

a. In the case of income received from separate property during the marriage, such income shall be marital property only to the extent it is attributable to the personal efforts of either party. In the case of the increase in value of separate property during the marriage, such increase in value shall be marital property only to the extent that marital property or the personal efforts of either party have contributed to such increases, provided that any such personal efforts must be significant and result in substantial appreciation of the separate property.

For purposes of this subdivision, the nonowning spouse shall bear the burden of proving that (i) contributions of marital property or personal effort were made and (ii) the separate property increased in value. Once this burden of proof is met, the owning spouse shall bear the burden of proving that the increase in value or some portion thereof was not caused by contributions of marital property or personal effort.

"Personal effort" of a party shall be deemed to be labor, effort, inventiveness, physical or intellectual skill, creativity, or managerial, promotional or marketing activity applied directly to the separate property of either party.

b. In the case of any pension, profit-sharing, or deferred compensation plan or retirement benefit, the marital share as defined in subsection G shall be marital property.

c. In the case of any personal injury or workers' compensation recovery of either party, the marital share as defined in subsection H shall be marital property.

d. When marital property and separate property are commingled by contributing one category of property to another, resulting in the loss of identity of the contributed property, the classification of the contributed property shall be transmuted to the category of property receiving the contribution. However, to the extent the contributed property is retraceable by a preponderance of the evidence and was not a gift, such contributed property shall retain its original classification.

e. When marital property and separate property are commingled into newly acquired property resulting in the loss of identity of the contributing properties, the commingled property shall be deemed transmuted to marital property. However, to the extent the contributed property is retraceable by a preponderance of the evidence and was not a gift, the contributed property shall retain its original classification.

f. When separate property is retitled in the joint names of the parties, the retitled property shall be deemed transmuted to marital property. However, to the extent the property is retraceable by a preponderance of the evidence and was not a gift, the retitled property shall retain its original classification.

g. When the separate property of one party is commingled into the separate property of the other party, or the separate property of each party is commingled into newly acquired property, to the extent the contributed property is retraceable by a preponderance of the evidence and was not a gift, each party shall be reimbursed the value of the contributed property in any award made pursuant to this section.

h. Subdivisions A 3 d, e and f shall apply to jointly owned property. No presumption of gift shall arise under this section where (i) separate property is commingled with jointly owned property; (ii) newly acquired property is conveyed into joint ownership; or (iii) existing property is conveyed or retitled into joint ownership. For purposes of this subdivision A 3, property is jointly owned when it is titled in the name of both parties, whether as joint tenants, tenants by the entireties, or otherwise.

4. Separate debt is (i) all debt incurred by either party before the marriage, (ii) all debt incurred by either party after the date of the last separation of the parties, if at such time or thereafter at least one of the parties intends that the separation be permanent, and (iii) that part of any debt classified as separate pursuant to subdivision A 5. However, to the extent that a party can show by a preponderance of the evidence that the debt was incurred for the benefit of the marriage or family, the court may designate the debt as marital.

5. Marital debt is (i) all debt incurred in the joint names of the parties before the date of the last separation of the parties, if at such time or thereafter at least one of the parties intends that the separation be permanent, whether incurred before or after the date of the marriage, and (ii) all debt incurred in either party's name after the date of the marriage and before the date of the last separation of the parties, if at such time or thereafter at least one of the parties intends that the separation be permanent. However, to the extent that a party can show by a preponderance of the evidence that the debt, or a portion thereof, was incurred, or the proceeds secured by incurring the debt were used, in whole or in part, for a nonmarital purpose, the court may designate the entire debt as separate or a portion of the debt as marital and a portion of the debt as separate.

B. For the purposes of this section only, both parties shall be deemed to have rights and interests in the marital property. However, such interests and rights shall not attach to the legal title of such property and are only to be used as a consideration in determining a monetary award, if any, as provided in this section.

C. Except as provided in subsection G, the court shall have no authority to order the division or transfer of separate property or marital property, or separate or marital debt, which is not jointly owned or owed. However, upon a finding that separate property of one party is in the possession or control of the other party, the court may order that the property be transferred to the party whose separate property it is. The court may, based upon the factors listed in subsection E, divide or transfer or order the division or transfer, or both, of jointly owned marital property, jointly owed marital debt, or any part thereof. The court shall also have the authority to apportion and order the payment of the debts of the parties, or either of them, that are incurred prior to the dissolution of the marriage, based upon the factors listed in subsection E.

As a means of dividing or transferring the jointly owned marital property, the court may transfer or order the transfer of real or personal property or any interest therein to one of the parties, permit either party to purchase the interest of the other and direct the allocation of the proceeds, provided the party purchasing the interest of the other agrees to assume any indebtedness secured by the property, or order its sale by private sale by the parties, through such agent as the court shall direct, or by public sale as the court shall direct without the necessity for partition. All decrees entered prior to July 1, 1991, which are final and not subject to further proceedings on appeal as of that date, which divide or transfer or order the division or transfer of property directly between the parties are hereby validated and deemed self-executing. All orders or decrees which divide or transfer or order division or transfer of real property between the parties shall be recorded and indexed in the names of the parties in the appropriate grantor and grantee indexes in the land records in the clerk's office of the circuit court of the county or city in which the property is located.

D. In addition, based upon (i) the equities and the rights and interests of each party in the marital property, and (ii) the factors listed in subsection E, the court has the power to grant a monetary award, payable either in a lump sum or over a period of time in fixed amounts, to either party. The party against whom a monetary award is made may satisfy the award, in whole or in part, by conveyance of property, subject to the approval of the court. An award entered pursuant to this subsection shall constitute a judgment within the meaning of § 8.01-426 and shall not be docketed by the clerk unless the decree so directs. An award entered pursuant to this subsection may be enforceable in the same manner as any other money judgment. The provisions of § 8.01-382, relating to interest on judgments, shall apply unless the court orders otherwise.

Any marital property, which has been considered or ordered transferred in granting the monetary award under this section, shall not thereafter be the subject of a suit between the same parties to transfer title or possession of such property.

E. The amount of any division or transfer of jointly owned marital property, and the amount of any monetary award, the apportionment of marital debts, and the method of payment shall be determined by the court after consideration of the following factors:

1. The contributions, monetary and nonmonetary, of each party to the well-being of the family;
2. The contributions, monetary and nonmonetary, of each party in the acquisition and care and maintenance of such marital property of the parties;
3. The duration of the marriage;
4. The ages and physical and mental condition of the parties;
5. The circumstances and factors which contributed to the dissolution of the marriage, specifically including any ground for divorce under the provisions of subdivision A (1), (3) or (6) of § 20-91 or § 20-95;
6. How and when specific items of such marital property were acquired;
7. The debts and liabilities of each spouse, the basis for such debts and liabilities, and the property which may serve as security for such debts and liabilities;
8. The liquid or nonliquid character of all marital property;
9. The tax consequences to each party;
10. The use or expenditure of marital property by either of the parties for a nonmarital separate purpose or the dissipation of such funds, when such was done in anticipation of divorce or separation or after the last separation of the parties; and
11. Such other factors as the court deems necessary or appropriate to consider in order to arrive at a fair and equitable monetary award.

F. The court shall determine the amount of any such monetary award without regard to maintenance and support awarded for either party or support for the minor children of both parties and shall, after or at the time of such determination and upon motion of either party, consider whether an order for support and maintenance of a spouse or children shall be entered or, if previously entered, whether such order shall be modified or vacated.

G. In addition to the monetary award made pursuant to subsection D, and upon consideration of the factors set forth in subsection E:

1. The court may direct payment of a percentage of the marital share of any pension, profit-sharing or deferred compensation plan or retirement benefits, whether vested or nonvested, which constitutes marital property and whether payable in a lump sum or over a period of time. The court may order direct payment of such percentage of the marital share by direct assignment to a party from the employer trustee, plan administrator or other holder of the benefits. However, the court shall only direct that payment be made as such benefits are payable. No such payment shall exceed 50 percent of the marital share of the cash benefits actually received by the party against whom such award is made. "Marital share" means that portion of the total interest, the right to which was earned during the marriage and before the last separation of the parties, if at such time or thereafter at least one of the parties intended that the separation be permanent.

2. To the extent permitted by federal or other applicable law, the court may order a party to designate a spouse or former spouse as irrevocable beneficiary during the lifetime of the beneficiary of all or a portion of any survivor benefit or annuity plan of whatsoever nature, but not to include a life insurance policy *except to the extent permitted by § 20-107.1:1*. The court, in its discretion, shall determine as between the parties, who shall bear the costs of maintaining such plan.

H. In addition to the monetary award made pursuant to subsection D, and upon consideration of the factors set forth in subsection E, the court may direct payment of a percentage of the marital share of any personal injury or workers' compensation recovery of either party, whether such recovery is payable in a lump sum or over a period of time. However, the court shall only direct that payment be made as such recovery is payable, whether by settlement, jury award, court award, or otherwise. "Marital share" means that part of the total personal injury or workers' compensation recovery attributable to lost wages or medical expenses to the extent not covered by health insurance accruing during the marriage and before the last separation of the parties, if at such time or thereafter at least one of the parties intended that the separation be permanent.

I. Nothing in this section shall be construed to prevent the affirmation, ratification and incorporation in a decree of an agreement between the parties pursuant to §§ 20-109 and 20-109.1. Agreements, otherwise valid as contracts, entered into between spouses prior to the marriage shall be recognized and enforceable.

J. A court of proper jurisdiction under § 20-96 may exercise the powers conferred by this section after a court of a foreign jurisdiction has decreed a dissolution of a marriage or a divorce from the bond of matrimony, if (i) one of the parties was domiciled in this Commonwealth when the foreign proceedings were commenced, (ii) the foreign court did not have personal jurisdiction over the party domiciled in the Commonwealth, (iii) the proceeding is initiated within two years of receipt of notice of the foreign decree by the party domiciled in the Commonwealth, and (iv) the court obtains personal jurisdiction over the parties pursuant to subdivision A 9 of § 8.01-328.1, or in any other manner permitted by law.

K. The court shall have the continuing authority and jurisdiction to make any additional orders necessary to effectuate and enforce any order entered pursuant to this section, including the authority to:

1. Order a date certain for transfer or division of any jointly owned property under subsection C or payment of any monetary award under subsection D;
2. Punish as contempt of court any willful failure of a party to comply with the provisions of any order made by the court under this section;
3. Appoint a special commissioner to transfer any property under subsection C where a party refuses to comply with the order of the court to transfer such property; and
4. Modify any order entered in a case filed on or after July 1, 1982, intended to affect or divide any pension, profit-sharing or deferred compensation plan or retirement benefits pursuant to the United States Internal Revenue Code or other applicable federal laws, only for the purpose of establishing or maintaining the order as a qualified domestic relations order or to revise or conform its terms so as to effectuate the expressed intent of the order.

L. If it appears upon or after the entry of a final decree of divorce from the bond of matrimony that neither party resides in the city or county of the circuit court that entered the decree, the court may, on the motion of any party or on its own motion, transfer to the circuit court for the city or county where either party resides the authority to make additional orders pursuant to subsection K or to carry out or enforce any stipulation, contract, or agreement between the parties that has been affirmed, ratified, and incorporated by reference pursuant to § 20-109.1.

The Board may also appoint from the staff an assistant secretary and an assistant treasurer, who shall, in addition to other duties, discharge such functions of the secretary and treasurer, respectively, as may be directed by the Board.

B. The Board may, at its discretion and from time to time, also form a Maritime Advisory Council, consisting of representatives from the maritime industry, to provide advice and counsel to the Board of Commissioners on all matters associated with the Authority with the exception of the annual budget and personnel matters.

[H 2386]

Approved April 5, 2017

**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 19.2-349 and 19.2-354 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding a section numbered 19.2-354.1 as follows:**

**§ 19.2-349. Responsibility for collections; clerks to report unsatisfied fines, etc.; duty of attorneys for Commonwealth; duties of Department of Taxation.**

A. The clerk of the circuit court and district court of every county and city shall submit to the judge of his court, the Department of Taxation, the State Compensation Board and the attorney for the Commonwealth of his county or city a monthly report of all fines, costs, forfeitures and penalties which are delinquent more than ~~30~~ 90 days, including court-ordered restitution of a sum certain, imposed in his court for a violation of state law or a local ordinance which remain unsatisfied, including those which are delinquent in installment payments. The monthly report shall include the social security number or driver's license number of the defendant, if known, and such other information as the Department of Taxation and the Compensation Board deem appropriate. The Executive Secretary shall make the report required by this subsection on behalf of those clerks who participate in the Supreme Court's automated information system.

B. It shall be the duty of the attorney for the Commonwealth to cause proper proceedings to be instituted for the collection and satisfaction of all fines, costs, forfeitures, penalties and restitution. The attorney for the Commonwealth shall determine whether it would be impractical or uneconomical for such service to be rendered by the office of the attorney for the Commonwealth. If the defendant does not enter into an installment payment agreement under § 19.2-354, the attorney for the Commonwealth and the clerk may agree to a process by which collection activity may be commenced ~~30~~ 90 days after judgment.

If the attorney for the Commonwealth does not undertake collection, he shall contract with (i) private attorneys or private collection agencies, (ii) enter into an agreement with a local governing body, (iii) enter into an agreement with the county or city treasurer, or (iv) use the services of the Department of Taxation, upon such terms and conditions as may be established by guidelines promulgated by the Office of the Attorney General, the Executive Secretary of the Supreme Court with the Department of Taxation and the Compensation Board. If the attorney for the Commonwealth undertakes collection, he shall follow the procedures established by the Department of Taxation and the Compensation Board. Such guidelines shall not supersede contracts between attorneys for the Commonwealth and private attorneys and collection agencies when active collection efforts are being undertaken. As part of such contract, private attorneys or collection agencies shall be given access to the social security number of the defendant in order to assist in the collection effort. Any such private attorney shall be subject to the penalties and provisions of § 18.2-186.3.

The fees of any private attorneys or collection agencies shall be paid on a contingency fee basis out of the proceeds of the amounts collected. However, in no event shall such attorney or collection agency receive a fee for amounts collected by the Department of Taxation under the Setoff Debt Collection Act (§ 58.1-520 et seq.). A local treasurer undertaking collection pursuant to an agreement with the attorney for the Commonwealth may collect the administrative fee authorized by § 58.1-3958.

C. The Department of Taxation and the State Compensation Board shall be responsible for the collection of any judgment which remains unsatisfied or does not meet the conditions of § 19.2-354. Persons owing such unsatisfied judgments or failing to comply with installment payment agreements under § 19.2-354 shall be subject to the delinquent tax collection provisions of Title 58.1. The Department of Taxation and the State Compensation Board shall establish procedures to be followed by clerks of courts, attorneys for the Commonwealth, other state agencies and any private attorneys or collection agents and may employ private attorneys or collection agencies, or engage other state agencies to collect the judgment. The Department of Taxation and the Commonwealth shall be entitled to deduct a fee for services from amounts collected for violations of local ordinances.

The Department of Taxation and the State Compensation Board shall annually report to the Governor and the General Assembly the total of fines, costs, forfeitures and penalties assessed, collected, and unpaid and those which remain unsatisfied or do not meet the conditions of § 19.2-354 by each circuit and district court. The report shall include the procedures established by the Department of Taxation and the State Compensation Board pursuant to this section and a plan for increasing the collection of unpaid fines, costs, forfeitures and penalties. The Auditor of Public Accounts shall annually report to the Governor, the Executive Secretary of the Supreme Court and the General Assembly as to the adherence of clerks of courts, attorneys for the Commonwealth and other state agencies to the procedures established by the Department of Taxation and the State Compensation Board.

**§ 19.2-354. Authority of court to order payment of fine, costs, forfeitures, penalties or restitution in installments or upon other terms and conditions; community work in lieu of payment.**

A. Whenever (i) a defendant, convicted of a traffic infraction or a violation of any criminal law of the Commonwealth or of any political subdivision thereof, or found not innocent in the case of a juvenile, is sentenced to pay a fine, restitution, forfeiture or penalty and (ii) the defendant is unable to make payment of the fine, restitution, forfeiture, or penalty and costs within 30 days of sentencing, the court shall order the defendant to pay such fine, restitution, forfeiture or penalty and any costs which the defendant may be required to pay in deferred payments or installments. The court assessing the fine, restitution, forfeiture, or penalty and costs may authorize the clerk to establish and approve individual deferred or installment payment agreements. Any payment agreement authorized under this section shall be consistent with the ~~Rules of Supreme Court of Virginia~~ *provisions of § 19.2-354.1*, including any required minimum payments or other required conditions. The requirements ~~established by the Rules of Supreme Court of Virginia~~ *set forth in § 19.2-354.1* shall be posted in the clerk's office and on the court's website, if a website is available. As a condition of every such agreement, a defendant who enters into an installment or deferred payment agreement shall promptly inform the court of any change of mailing address during the term of the agreement. If the defendant is unable to make payment within ~~30~~ 90 days of sentencing, the court may assess a one-time fee not to exceed \$10 to cover the costs of management of the defendant's account until such account is paid in full. This one-time fee shall not apply to cases in which costs are assessed pursuant to § 17.1-275.1, 17.1-275.2, 17.1-275.3, 17.1-275.4, 17.1-275.7, 17.1-275.8, or 17.1-275.9. Installment or deferred payment agreements shall include terms for payment if the defendant participates in a program as provided in subsection B or C. The court, if such sum or sums are not paid in full by the date ordered, shall proceed in accordance with § 19.2-358.

B. When a person sentenced to the Department of Corrections or a local correctional facility owes any fines, costs, forfeitures, restitution or penalties, he shall be required as a condition of participating in any work release, home/electronic incarceration or nonconsecutive days program as set forth in § 53.1-60, 53.1-131, 53.1-131.1, or 53.1-131.2 to either make full payment or make payments in accordance with his installment or deferred payment agreement while participating in such program. If, after the person has an installment or deferred payment agreement, the person fails to pay as ordered, his participation in the program may be terminated until all fines, costs, forfeitures, restitution and penalties are satisfied. The Director of the Department of Corrections and any sheriff or other administrative head of any local correctional facility shall withhold such ordered payments from any amounts due to such person. Distribution of the money collected shall be made in the following order of priority to:

1. Meet the obligation of any judicial or administrative order to provide support and such funds shall be disbursed according to the terms of such order;
2. Pay any fines, restitution or costs as ordered by the court;
3. Pay travel and other such expenses made necessary by his work release employment or participation in an education or rehabilitative program, including the sums specified in § 53.1-150; and
4. Defray the offender's keep.

The balance shall be credited to the offender's account or sent to his family in an amount the offender so chooses.

The Board of Corrections shall promulgate regulations governing the receipt of wages paid to persons participating in such programs, the withholding of payments and the disbursement of appropriate funds.

C. The court shall establish a program and may provide an option to any person upon whom a fine and costs have been imposed to discharge all or part of the fine or costs by earning credits for the performance of community service work before or after imprisonment. The program shall specify the rate at which credits are earned and provide for the manner of applying earned credits against the fine or costs. The court shall have such other authority as is reasonably necessary for or incidental to carrying out this program.

D. When the court has authorized deferred payment or installment payments, the clerk shall give notice to the defendant that upon his failure to pay as ordered he may be fined or imprisoned pursuant to § 19.2-358 and his privilege to operate a motor vehicle will be suspended pursuant to § 46.2-395.

E. The failure of the defendant to enter into a deferred payment or installment payment agreement with the court or the failure of the defendant to make payments as ordered by the agreement shall allow the Tax Commissioner to act in accordance with § 19.2-349 to collect all fines, costs, forfeitures and penalties.

**§ 19.2-354.1. Deferred or installment payment agreements.**

A. For purposes of this section:

"Deferred payment agreement" means an agreement in which no installment payments are required and the defendant agrees to pay the full amount of the fines and costs at the end of the agreement's stated term.

"Fines and costs" means all fines, court costs, forfeitures, and penalties assessed in any case by a single court against a defendant for the commission of any crime or traffic infraction. "Fines and costs" includes restitution unless the court orders a separate payment schedule for restitution.

"Installment payment agreement" means an agreement in which the defendant agrees to make monthly or other periodic payments until the fines and costs are paid in full.

"Modified deferred payment agreement" means a deferred payment agreement in which the defendant also agrees to use best efforts to make monthly or other periodic payments.

B. The court shall give a defendant ordered to pay fines and costs written notice of the availability of deferred, modified deferred, and installment payment agreements and, if a community service program has been established, the availability of earning credit toward discharge of fines and costs through the performance of community service work. The court shall offer any defendant who is unable to pay in full the fines and costs within 30 days of sentencing the opportunity to enter into a deferred payment agreement, modified deferred payment agreement, or installment payment agreement.

C. The court shall not deny a defendant the opportunity to enter into a deferred, modified deferred, or installment payment agreement solely (i) because of the category of offense for which the defendant was convicted or found not innocent, (ii) because of the total amount of all fines and costs, (iii) because the defendant previously defaulted under the terms of a payment agreement, (iv) because the fines and costs have been referred for collections pursuant to § 19.2-349, (v) because the defendant has not established a payment history, or (vi) because the defendant is eligible for a restricted driver's license under subsection E of § 46.2-395.

D. In determining the length of time to pay under a deferred, modified deferred, or installment payment agreement and the amount of the payments, a court shall take into account the defendant's financial resources and obligations, including any fines and costs owed by the defendant in other courts. In assessing the defendant's ability to pay, the court shall use a written financial statement, on a form developed by the Executive Secretary of the Supreme Court, setting forth the defendant's financial resources and obligations or conduct an oral examination of the defendant to determine his financial resources and obligations. The court may require the defendant to present a summary prepared by the Department of Motor Vehicles of the other courts in which the defendant also owes fines and costs. The length of a payment agreement and the amount of the payments shall be reasonable in light of the defendant's financial resources and obligations and shall not be based solely on the amount of fines and costs. The court may offer a payment agreement combining an initial period during which no payment of fines and costs is required followed by a period of installment payments.

E. A court may require a down payment as a condition of a defendant entering a deferred, modified deferred, or installment payment agreement. Any down payment shall be a minimal amount to demonstrate the defendant's commitment to paying the fines and costs. In the case of an installment payment agreement, the required down payment may not exceed (i) if the fines and costs owed are \$500 or less, 10 percent of such amount or (ii) if the fines and costs owed are more than \$500, five percent of such amount or \$50, whichever is greater. A defendant may make a larger down payment than what is provided by this subsection.

F. All fines and costs that a defendant owes for all cases in any single court may be incorporated into one payment agreement, unless otherwise ordered by the court in specific cases. A payment agreement shall include only those outstanding fines and costs for which the limitations period set forth in § 19.2-341 has not run.

G. Any payment received within 10 days of its due date shall be considered to be timely made.

H. At any time during the duration of a payment agreement, the defendant may request a modification of the agreement in writing on a form provided by the Executive Secretary of the Supreme Court, and the court may grant such modification based on a good faith showing of need.

I. A court shall consider a request by a defendant who has defaulted on a payment agreement to enter into a subsequent payment agreement. In determining whether to approve the request for a subsequent payment agreement, the court shall consider any change in the defendant's circumstances. A court shall require a down payment to enter into a subsequent payment agreement, provided that the down payment required to enter into a subsequent payment agreement shall not exceed (i) if the fines and costs owed are \$500 or less, 10 percent of such amount or (ii) if the fines and costs owed are more than \$500, five percent of such amount or \$50, whichever is greater. When a defendant enters into a subsequent payment agreement, a court shall not require a defendant to establish a payment history on the subsequent payment agreement before restoring the defendant's driver's license.

§ 1. That the State Corporation Commission (Commission) shall conduct a pilot program ~~programs~~ under which a person that owns or operates a solar-powered or wind-powered electricity generation facility located on premises owned or leased by an eligible customer-generator, as defined in § 56-594 of the Code of Virginia, shall be permitted to sell the electricity generated from such facility exclusively to such eligible customer-generator under a power purchase agreement used to provide third party financing of the costs of such a renewable generation facility (third party power purchase agreement), subject to the following terms, conditions, and restrictions:

a. ~~The A~~ pilot program shall be conducted within the certificated service territory of ~~an each~~ investor-owned electric utility ~~that was bound by a rate case settlement adopted by the Commission that extended in its application beyond January 1, 2002, which utility is hereafter referred to as the other than a utility described in subsection G of § 56-580 of the Code of Virginia ("Pilot Utility"), provided that within the certificated service territory of an investor-owned utility that was not bound by a rate case settlement adopted by the Commission that extended in its application beyond January 1, 2002, nonprofit, private institutions of higher education as defined in § 23.1-100 of the Code of Virginia that are not being served by generation provided under subdivision A 5 of § 56-577 of the Code of Virginia shall be deemed to be customer-generators eligible to participate in the pilot program;~~

b. The aggregated capacity of all generation facilities that are subject to such third party power purchase agreements at any time during the pilot program shall not exceed 50 megawatts ~~for an investor-owned utility that was bound by a rate case settlement adopted by the Commission that extended in its application beyond January 1, 2002, or seven megawatts for an investor-owned utility that was not bound by a rate case settlement adopted by the Commission that extended in its application beyond January 1, 2002.~~ Such limitation on the aggregated capacity of such facilities shall constitute a portion of the existing limit of one percent of ~~the each~~ Pilot Utility's adjusted Virginia peak-load forecast for the previous year that is available to eligible customer-generators pursuant to subsection E of § 56-594 of the Code of Virginia. Notwithstanding any provision of this act that incorporates provisions of § 56-594, the seller and the customer shall elect either to (i) enter into their third party power purchase agreement subject to the conditions and provisions of the Pilot Utility's net energy metering program under § 56-594 or (ii) provide that electricity generated from the generation facilities subject to the third party power purchase agreement will not be net metered under § 56-594, provided that an election not to net meter under § 56-594 shall not exempt the third party power purchase agreement and the parties thereto from the requirements of this act that incorporate provisions of § 56-594;

The maximum generation capacity of one megawatt shall not affect the limits on the capacity of electrical generating capacities of 20 kilowatts for residential customers and 500 kilowatts for nonresidential customers set forth in subsection B of § 56-594 of the Code of Virginia, which limitations shall continue to apply to net energy metering generation facilities regardless of whether they are the subject of a third party power purchase agreement under the pilot program;

d. A generation facility that is the subject of a third party power purchase agreement under the pilot program shall serve only one customer, and a third party power purchase agreement shall not serve multiple customers;

e. The customer under a third party power purchase agreement under the pilot program shall be subject to the interconnection and other requirements imposed on eligible customer-generators pursuant to subsection C of § 56-594 of the Code of Virginia, including the requirement that the customer bear the reasonable costs, as determined by the Commission, of the items described in clauses (i), (ii), and (iii) of such subsection;

f. A third party power purchase agreement under the pilot program shall not be valid unless it conforms in all respects to the requirements of the pilot program conducted under the provisions of this act and unless the Commission and the Pilot Utility are provided written notice of the parties' intent to enter into a third party power purchase agreement not less than 30 days prior to the agreement's proposed effective date; and

g. An affiliate of the Pilot Utility shall be permitted to offer and enter into third party power purchase arrangements on the same basis as may any other person that satisfies the requirements of being a seller under a third party power purchase agreement under the pilot program.

**2. That the provisions of this act relating to a pilot program conducted within the certificated service territory of an investor-owned utility that was not bound by a rate case settlement adopted by the State Corporation Commission**

[S 854]

Approved April 5, 2017

**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 19.2-349 and 19.2-354 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding a section numbered 19.2-354.1 as follows:**

**§ 19.2-349. Responsibility for collections; clerks to report unsatisfied fines, etc.; duty of attorneys for Commonwealth; duties of Department of Taxation.**

A. The clerk of the circuit court and district court of every county and city shall submit to the judge of his court, the Department of Taxation, the State Compensation Board and the attorney for the Commonwealth of his county or city a monthly report of all fines, costs, forfeitures and penalties which are delinquent more than ~~30~~ 90 days, including court-ordered restitution of a sum certain, imposed in his court for a violation of state law or a local ordinance which remain unsatisfied, including those which are delinquent in installment payments. The monthly report shall include the social security number or driver's license number of the defendant, if known, and such other information as the Department of Taxation and the Compensation Board deem appropriate. The Executive Secretary shall make the report required by this subsection on behalf of those clerks who participate in the Supreme Court's automated information system.

B. It shall be the duty of the attorney for the Commonwealth to cause proper proceedings to be instituted for the collection and satisfaction of all fines, costs, forfeitures, penalties and restitution. The attorney for the Commonwealth shall determine whether it would be impractical or uneconomical for such service to be rendered by the office of the attorney for the Commonwealth. If the defendant does not enter into an installment payment agreement under § 19.2-354, the attorney for the Commonwealth and the clerk may agree to a process by which collection activity may be commenced ~~30~~ 90 days after judgment.

If the attorney for the Commonwealth does not undertake collection, he shall contract with (i) private attorneys or private collection agencies, (ii) enter into an agreement with a local governing body, (iii) enter into an agreement with the county or city treasurer, or (iv) use the services of the Department of Taxation, upon such terms and conditions as may be established by guidelines promulgated by the Office of the Attorney General, the Executive Secretary of the Supreme Court with the Department of Taxation and the Compensation Board. If the attorney for the Commonwealth undertakes collection, he shall follow the procedures established by the Department of Taxation and the Compensation Board. Such guidelines shall not supersede contracts between attorneys for the Commonwealth and private attorneys and collection agencies when active collection efforts are being undertaken. As part of such contract, private attorneys or collection agencies shall be given access to the social security number of the defendant in order to assist in the collection effort. Any such private attorney shall be subject to the penalties and provisions of § 18.2-186.3.

The fees of any private attorneys or collection agencies shall be paid on a contingency fee basis out of the proceeds of the amounts collected. However, in no event shall such attorney or collection agency receive a fee for amounts collected by the Department of Taxation under the Setoff Debt Collection Act (§ 58.1-520 et seq.). A local treasurer undertaking collection pursuant to an agreement with the attorney for the Commonwealth may collect the administrative fee authorized by § 58.1-3958.

C. The Department of Taxation and the State Compensation Board shall be responsible for the collection of any judgment which remains unsatisfied or does not meet the conditions of § 19.2-354. Persons owing such unsatisfied judgments or failing to comply with installment payment agreements under § 19.2-354 shall be subject to the delinquent tax collection provisions of Title 58.1. The Department of Taxation and the State Compensation Board shall establish procedures to be followed by clerks of courts, attorneys for the Commonwealth, other state agencies and any private attorneys or collection agents and may employ private attorneys or collection agencies, or engage other state agencies to collect the judgment. The Department of Taxation and the Commonwealth shall be entitled to deduct a fee for services from amounts collected for violations of local ordinances.

The Department of Taxation and the State Compensation Board shall annually report to the Governor and the General Assembly the total of fines, costs, forfeitures and penalties assessed, collected, and unpaid and those which remain unsatisfied or do not meet the conditions of § 19.2-354 by each circuit and district court. The report shall include the procedures established by the Department of Taxation and the State Compensation Board pursuant to this section and a plan for increasing the collection of unpaid fines, costs, forfeitures and penalties. The Auditor of Public Accounts shall annually report to the Governor, the Executive Secretary of the Supreme Court and the General Assembly as to the adherence of clerks of courts, attorneys for the Commonwealth and other state agencies to the procedures established by the Department of Taxation and the State Compensation Board.

**§ 19.2-354. Authority of court to order payment of fine, costs, forfeitures, penalties or restitution in installments or upon other terms and conditions; community work in lieu of payment.**

A. Whenever (i) a defendant, convicted of a traffic infraction or a violation of any criminal law of the Commonwealth or of any political subdivision thereof, or found not innocent in the case of a juvenile, is sentenced to pay a fine, restitution, forfeiture or penalty and (ii) the defendant is unable to make payment of the fine, restitution, forfeiture, or penalty and costs within 30 days of sentencing, the court shall order the defendant to pay such fine, restitution, forfeiture or penalty and any costs which the defendant may be required to pay in deferred payments or installments. The court assessing the fine, restitution, forfeiture, or penalty and costs may authorize the clerk to establish and approve individual deferred or installment payment agreements. Any payment agreement authorized under this section shall be consistent with the ~~Rules of Supreme Court of Virginia~~ *provisions of § 19.2-354.1*, including any required minimum payments or other required conditions. The requirements ~~established by the Rules of Supreme Court of Virginia~~ *set forth in § 19.2-354.1* shall be posted in the clerk's office and on the court's website, if a website is available. As a condition of every such agreement, a defendant who enters into an installment or deferred payment agreement shall promptly inform the court of any change of mailing address during the term of the agreement. If the defendant is unable to make payment within ~~30~~ 90 days of sentencing, the court may assess a one-time fee not to exceed \$10 to cover the costs of management of the defendant's account until such account is paid in full. This one-time fee shall not apply to cases in which costs are assessed pursuant to § 17.1-275.1,

17.1-275.2, 17.1-275.3, 17.1-275.4, 17.1-275.7, 17.1-275.8, or 17.1-275.9. Installment or deferred payment agreements shall include terms for payment if the defendant participates in a program as provided in subsection B or C. The court, if such sum or sums are not paid in full by the date ordered, shall proceed in accordance with § 19.2-358.

B. When a person sentenced to the Department of Corrections or a local correctional facility owes any fines, costs, forfeitures, restitution or penalties, he shall be required as a condition of participating in any work release, home/electronic incarceration or nonconsecutive days program as set forth in § 53.1-60, 53.1-131, 53.1-131.1, or 53.1-131.2 to either make full payment or make payments in accordance with his installment or deferred payment agreement while participating in such program. If, after the person has an installment or deferred payment agreement, the person fails to pay as ordered, his participation in the program may be terminated until all fines, costs, forfeitures, restitution and penalties are satisfied. The Director of the Department of Corrections and any sheriff or other administrative head of any local correctional facility shall withhold such ordered payments from any amounts due to such person. Distribution of the money collected shall be made in the following order of priority to:

1. Meet the obligation of any judicial or administrative order to provide support and such funds shall be disbursed according to the terms of such order;
2. Pay any fines, restitution or costs as ordered by the court;
3. Pay travel and other such expenses made necessary by his work release employment or participation in an education or rehabilitative program, including the sums specified in § 53.1-150; and
4. Defray the offender's keep.

The balance shall be credited to the offender's account or sent to his family in an amount the offender so chooses.

The Board of Corrections shall promulgate regulations governing the receipt of wages paid to persons participating in such programs, the withholding of payments and the disbursement of appropriate funds.

C. The court shall establish a program and may provide an option to any person upon whom a fine and costs have been imposed to discharge all or part of the fine or costs by earning credits for the performance of community service work before or after imprisonment. The program shall specify the rate at which credits are earned and provide for the manner of applying earned credits against the fine or costs. The court shall have such other authority as is reasonably necessary for or incidental to carrying out this program.

D. When the court has authorized deferred payment or installment payments, the clerk shall give notice to the defendant that upon his failure to pay as ordered he may be fined or imprisoned pursuant to § 19.2-358 and his privilege to operate a motor vehicle will be suspended pursuant to § 46.2-395.

E. The failure of the defendant to enter into a deferred payment or installment payment agreement with the court or the failure of the defendant to make payments as ordered by the agreement shall allow the Tax Commissioner to act in accordance with § 19.2-349 to collect all fines, costs, forfeitures and penalties.

**§ 19.2-354.1. Deferred or installment payment agreements.**

A. For purposes of this section:

"Deferred payment agreement" means an agreement in which no installment payments are required and the defendant agrees to pay the full amount of the fines and costs at the end of the agreement's stated term.

"Fines and costs" means all fines, court costs, forfeitures, and penalties assessed in any case by a single court against a defendant for the commission of any crime or traffic infraction. "Fines and costs" includes restitution unless the court orders a separate payment schedule for restitution.

"Installment payment agreement" means an agreement in which the defendant agrees to make monthly or other periodic payments until the fines and costs are paid in full.

"Modified deferred payment agreement" means a deferred payment agreement in which the defendant also agrees to use best efforts to make monthly or other periodic payments.

B. The court shall give a defendant ordered to pay fines and costs written notice of the availability of deferred, modified deferred, and installment payment agreements and, if a community service program has been established, the availability of earning credit toward discharge of fines and costs through the performance of community service work. The court shall offer any defendant who is unable to pay in full the fines and costs within 30 days of sentencing the opportunity to enter into a deferred payment agreement, modified deferred payment agreement, or installment payment agreement.

C. The court shall not deny a defendant the opportunity to enter into a deferred, modified deferred, or installment payment agreement solely (i) because of the category of offense for which the defendant was convicted or found not innocent, (ii) because of the total amount of all fines and costs, (iii) because the defendant previously defaulted under the terms of a payment agreement, (iv) because the fines and costs have been referred for collections pursuant to § 19.2-349, (v) because the defendant has not established a payment history, or (vi) because the defendant is eligible for a restricted driver's license under subsection E of § 46.2-395.

D. In determining the length of time to pay under a deferred, modified deferred, or installment payment agreement and the amount of the payments, a court shall take into account the defendant's financial resources and obligations, including any fines and costs owed by the defendant in other courts. In assessing the defendant's ability to pay, the court shall use a written financial statement, on a form developed by the Executive Secretary of the Supreme Court, setting forth the defendant's financial resources and obligations or conduct an oral examination of the defendant to determine his financial resources and obligations. The court may require the defendant to present a summary prepared by the Department of Motor Vehicles of the other courts in which the defendant also owes fines and costs. The length of a payment agreement and the

amount of the payments shall be reasonable in light of the defendant's financial resources and obligations and shall not be based solely on the amount of fines and costs. The court may offer a payment agreement combining an initial period during which no payment of fines and costs is required followed by a period of installment payments.

E. A court may require a down payment as a condition of a defendant entering a deferred, modified deferred, or installment payment agreement. Any down payment shall be a minimal amount to demonstrate the defendant's commitment to paying the fines and costs. In the case of an installment payment agreement, the required down payment may not exceed (i) if the fines and costs owed are \$500 or less, 10 percent of such amount or (ii) if the fines and costs owed are more than \$500, five percent of such amount or \$50, whichever is greater. A defendant may make a larger down payment than what is provided by this subsection.

F. All fines and costs that a defendant owes for all cases in any single court may be incorporated into one payment agreement, unless otherwise ordered by the court in specific cases. A payment agreement shall include only those outstanding fines and costs for which the limitations period set forth in § 19.2-341 has not run.

G. Any payment received within 10 days of its due date shall be considered to be timely made.

H. At any time during the duration of a payment agreement, the defendant may request a modification of the agreement in writing on a form provided by the Executive Secretary of the Supreme Court, and the court may grant such modification based on a good faith showing of need.

I. A court shall consider a request by a defendant who has defaulted on a payment agreement to enter into a subsequent payment agreement. In determining whether to approve the request for a subsequent payment agreement, the court shall consider any change in the defendant's circumstances. A court shall require a down payment to enter into a subsequent payment agreement, provided that the down payment required to enter into a subsequent payment agreement shall not exceed (i) if the fines and costs owed are \$500 or less, 10 percent of such amount or (ii) if the fines and costs owed are more than \$500, five percent of such amount or \$50, whichever is greater. When a defendant enters into a subsequent payment agreement, a court shall not require a defendant to establish a payment history on the subsequent payment agreement before restoring the defendant's driver's license.

*An Act to amend and reenact § 58.1-612 of the Code of Virginia, relating to sales and use tax; nexus to require certain businesses to collect and remit sales and use tax.*

[S 962]

Approved April 5, 2017

**Be it enacted by the General Assembly of Virginia:**

**1. That § 58.1-612 of the Code of Virginia is amended and reenacted as follows:**

**§ 58.1-612. Tax collectible from dealers; "dealer" defined; jurisdiction.**

A. The tax levied by §§ 58.1-603 and 58.1-604 shall be collectible from all persons who are dealers, as hereinafter defined, and who have sufficient contact with the Commonwealth to qualify under subsections (i) B and C or (ii) B and D.

B. The term "dealer," as used in this chapter, shall include every person who:

1. Manufactures or produces tangible personal property for sale at retail, for use, consumption, or distribution, or for storage to be used or consumed in this Commonwealth;
2. Imports or causes to be imported into this Commonwealth tangible personal property from any state or foreign country, for sale at retail, for use, consumption, or distribution, or for storage to be used or consumed in this Commonwealth;
3. Sells at retail, or who offers for sale at retail, or who has in his possession for sale at retail, or for use, consumption, or distribution, or for storage to be used or consumed in this Commonwealth, tangible personal property;
4. Has sold at retail, used, consumed, distributed, or stored for use or consumption in this Commonwealth, tangible personal property and who cannot prove that the tax levied by this chapter has been paid on the sale at retail, the use, consumption, distribution, or storage of such tangible personal property;
5. Leases or rents tangible personal property for a consideration, permitting the use or possession of such property without transferring title thereto;
6. Is the lessee or rentee of tangible personal property and who pays to the owner of such property a consideration for the use or possession of such property without acquiring title thereto;
7. As a representative, agent, or solicitor, of an out-of-state principal, solicits, receives and accepts orders from persons in this Commonwealth for future delivery and whose principal refuses to register as a dealer under § 58.1-613; or
8. Becomes liable to and owes this Commonwealth any amount of tax imposed by this chapter, whether he holds, or is required to hold, a certificate of registration under § 58.1-613.

C. A dealer shall be deemed to have sufficient activity within the Commonwealth to require registration under § 58.1-613 if he:

1. Maintains or has within this Commonwealth, directly or through an agent or subsidiary, an office, warehouse, or place of business of any nature;
2. Solicits business in this Commonwealth by employees, independent contractors, agents or other representatives;

3. Advertises in newspapers or other periodicals printed and published within this Commonwealth, on billboards or posters located in this Commonwealth, or through materials distributed in this Commonwealth by means other than the United States mail;

4. Makes regular deliveries of tangible personal property within this Commonwealth by means other than common carrier. A person shall be deemed to be making regular deliveries hereunder if vehicles other than those operated by a common carrier enter this Commonwealth more than 12 times during a calendar year to deliver goods sold by him;

5. Solicits business in this Commonwealth on a continuous, regular, seasonal, or systematic basis by means of advertising that is broadcast or relayed from a transmitter within this Commonwealth or distributed from a location within this Commonwealth;

6. 7. Is owned or controlled by the same interests which own or control a business located within this Commonwealth;

8. Has a franchisee or licensee operating under the same trade name in this Commonwealth if the franchisee or licensee is required to obtain a certificate of registration under § 58.1-613; or

9. Owns tangible personal property that is *for sale located in this Commonwealth, or that is* rented or leased to a consumer in this Commonwealth, or offers tangible personal property, on approval, to consumers in this Commonwealth.

D. A dealer is presumed to have sufficient activity within the Commonwealth to require registration under § 58.1-613 (unless the presumption is rebutted as provided herein) if any commonly controlled person maintains a distribution center, warehouse, fulfillment center, office, or similar location within the Commonwealth that facilitates the delivery of tangible personal property sold by the dealer to its customers. The presumption in this subsection may be rebutted by demonstrating that the activities conducted by the commonly controlled person in the Commonwealth are not significantly associated with the dealer's ability to establish or maintain a market in the Commonwealth for the dealer's sales. For purposes of this subsection, a "commonly controlled person" means any person that is a member of the same "controlled group of corporations," as defined in § 1563(a) of the Internal Revenue Code of 1954, as amended or renumbered, as the dealer or any other entity that, notwithstanding its form of organization, bears the same ownership relationship to the dealer as a corporation that is a member of the same "controlled group of corporations," as defined in § 1563(a) of the Internal Revenue Code of 1954, as amended or renumbered.

E. Notwithstanding any other provision of this section, the following shall not be considered to determine whether a person who has contracted with a commercial printer for printing in the Commonwealth is a "dealer" and whether such person has sufficient contact with the Commonwealth to be required to register under § 58.1-613:

1. The ownership or leasing by that person of tangible or intangible property located at the Virginia premises of the commercial printer which is used solely in connection with the printing contract with the person;

2. The sale by that person of property of any kind printed at and shipped or distributed from the Virginia premises of the commercial printer;

3. Activities in connection with the printing contract with the person performed by or on behalf of that person at the Virginia premises of the commercial printer; and

4. Activities in connection with the printing contract with the person performed by the commercial printer within Virginia for or on behalf of that person.

F. In addition to the jurisdictional standards contained in subsections C and D, nothing contained herein (other than subsection E) shall limit any authority which this Commonwealth may enjoy under the provisions of federal law or an opinion of the United States Supreme Court to require the collection of sales and use taxes by any dealer who regularly or systematically solicits sales within this Commonwealth. Furthermore, nothing contained in subsection C shall require any broadcaster, printer, outdoor advertising firm, advertising distributor, or publisher which broadcasts, publishes, or displays or distributes paid commercial advertising in this Commonwealth which is intended to be disseminated primarily to consumers located in this Commonwealth to report or impose any liability to pay any tax imposed under this chapter solely because such broadcaster, printer, outdoor advertising firm, advertising distributor, or publisher accepted such advertising contracts from out-of-state advertisers or sellers.

G. (Contingent effective date -- see note\*) Pursuant to any federal legislation that grants states the authority to require remote sellers to collect sales and use tax, the Commonwealth is authorized, as permitted by such federal legislation, to require collection of sales and use tax by any remote seller, or a single or consolidated provider acting on behalf of a remote seller. If the federal legislation has an exemption for sellers whose sales are less than a minimum amount, then in determining such amount, the sales made by all persons related within the meanings of subsections (b) and (c) of § 267 or § 707(b)(1) of the Internal Revenue Code of 1986 shall be aggregated.

**2. That an emergency exists and the provisions of this act shall become effective on June 1, 2017.**

**§ 15.2-914. Regulation of child-care services and facilities in certain counties and cities.**

Any (i) county that has adopted the urban county executive form of government, (ii) city adjacent to a county that has adopted the urban county executive form of government, or (iii) city which is completely surrounded by such county may by ordinance provide for the regulation and licensing of persons who provide child-care services for compensation and for the regulation and licensing of child-care facilities. "Child-care services" means provision of regular care, protection and guidance to one or more children not related by blood or marriage while such children are separated from their parent, guardian or legal custodian in a dwelling not the residence of the child during a part of the day for at least four days of a calendar week. "Child-care facilities" includes any commercial or residential structure which is used to provide child-care services.

Such local ordinance shall not require the regulation or licensing of any child-care facility that is licensed by the Commonwealth and such ordinance shall not require the regulation or licensing of any facility operated by a religious institution as exempted from licensure by § 63.2-1716.

Such local ordinances shall not be more extensive in scope than comparable state regulations applicable to family day homes. Such local ordinances may regulate the possession and storage of firearms, ammunition, or components or combination thereof at child-care facilities so long as such regulation remains no more extensive in scope than comparable state regulations applicable to family day homes. Local regulations shall not affect the manner of construction or materials to be used in the erection, alteration, repair or use of a residential dwelling.

Such local ordinances may require that persons who provide child-care services shall provide certification from the Central Criminal Records Exchange and a national criminal background check, in accordance with §§ 19.2-389 and 19.2-392.02, that such persons have not been convicted of any offense involving the sexual molestation of children, *or the physical or sexual abuse or rape of a child or any offense identified barrier crime defined in § 63.2-1719* 19.2-392.02, and such ordinances may require that persons who provide child-care services shall provide certification from the central registry of the Department of Social Services that such persons have not been the subject of a founded complaint of abuse or neglect. If an applicant is denied licensure because of any adverse information appearing on a record obtained from the Central Criminal Records Exchange, the national criminal background check, or the Department of Social Services, the applicant shall be provided a copy of the information upon which that denial was based.

**§ 16.1-333.1. Written findings necessary to order that minor is emancipated on the basis of intent to marry.**

The court may enter an order declaring such a minor who desires to get married emancipated if, after a hearing where both individuals intending to marry are present, the court makes written findings that:

1. It is the minor's own will that the minor enter into marriage, and the minor is not being compelled against the minor's will by force, threats, persuasions, menace, or duress;
2. The individuals to be married are mature enough to make such a decision to marry;
3. The marriage will not endanger the safety of the minor. In making this finding, the court shall consider (i) the age difference between the parties intending to be married; (ii) whether either individual to be married has a criminal record containing any conviction of an act of violence, as defined in § 19.2-297.1, or any conviction of ~~an offense set forth a barrier crime, as defined in § 63.2-1719 or 63.2-1726~~ 19.2-392.02; and (iii) any history of violence between the parties to be married; and

~~E~~ G. A defendant convicted of an offense under § 18.2-374.1, 18.2-374.1:1, or 18.2-374.3 shall be ordered to pay mandatory restitution to the victim of the offense in an amount as determined by the court. For purposes of this subsection,

"victim" means a person who is depicted in a still or videographic image involved in an offense under § 18.2-374.1, 18.2-374.1:1, or 18.2-374.3.

The Commonwealth shall make reasonable efforts to notify victims of offenses under § 18.2-374.1, 18.2-374.1:1, or 18.2-374.3.

~~F. H.~~ If restitution is ordered to be paid by the defendant to the victim of a crime and the victim can no longer be located or identified, the clerk shall deposit any such restitution collected to the Criminal Injuries Compensation Fund for the benefit of crime victims. The administrator shall reserve a sum sufficient in the Fund from which he shall make prompt payment to the victim for any proper claims. Before making the deposit he shall record the name, last known address and amount of restitution due each victim appearing from the clerk's report to be entitled to restitution.

~~G. **§ 19.2-305.2. Amount of restitution; enforcement.**

A. The court, when ordering restitution pursuant to § 19.2-305.1, may require that such defendant, in the case of an offense resulting in damage to or loss or destruction of property of a victim of the offense (i) return the property to the owner or (ii) if return of the property is impractical or impossible, pay an amount equal to the greater of the value of the property at the time of the offense or the value of the property at the time of sentencing.

B. An order of restitution may be docketed as provided in § 8.01-446 when so ordered by the court or upon written request of the victim and may be enforced by a victim named in the order to receive the restitution in the same manner as a judgment in a civil action. *Such docketing shall not be construed to prohibit the court from exercising any authority otherwise available to enforce the order of restitution.*

**§ 19.2-349. Responsibility for collections; clerks to report unsatisfied fines, etc.; duty of attorneys for Commonwealth; duties of Department of Taxation.**

A. The clerk of the circuit court and district court of every county and city shall submit to the judge of his court, the Department of Taxation, the State Compensation Board and the attorney for the Commonwealth of his county or city a monthly report of all fines, costs, forfeitures and penalties which are delinquent more than 30 days, including court-ordered restitution of a sum certain, imposed in his court for a violation of state law or a local ordinance which remain unsatisfied, including those which are delinquent in installment payments. The monthly report shall include the social security number or driver's license number of the defendant, if known, and such other information as the Department of Taxation and the Compensation Board deem appropriate. The Executive Secretary shall make the report required by this subsection on behalf of those clerks who participate in the Supreme Court's automated information system.

B. *The clerk of the circuit court and district court of every county and city shall submit quarterly to the attorney for the Commonwealth of his county or city and any probation agency that serves such county or city:*

2. *A list of all accounts where more than 90 days have passed since an account was sent to collections and no payments have been made toward fines, costs, forfeitures, penalties, or restitution. For accounts where restitution is owed, such report shall include the defendant's name, case number, and total amount of restitution and restitution interest due.*

C. It shall be the duty of the attorney for the Commonwealth to cause proper proceedings to be instituted for the collection and satisfaction of all fines, costs, forfeitures, penalties and restitution. The attorney for the Commonwealth shall determine whether it would be impractical or uneconomical for such service to be rendered by the office of the attorney for the Commonwealth. If the defendant does not enter into an installment payment agreement under § 19.2-354, the attorney for the Commonwealth and the clerk may agree to a process by which collection activity may be commenced 30 days after judgment.

If the attorney for the Commonwealth does not undertake collection, he shall contract with (i) private attorneys or private collection agencies, (ii) enter into an agreement with a local governing body, (iii) enter into an agreement with the county or city treasurer, or (iv) use the services of the Department of Taxation, upon such terms and conditions as may be established by guidelines promulgated by the Office of the Attorney General, the Executive Secretary of the Supreme Court with the Department of Taxation and the Compensation Board. If the attorney for the Commonwealth undertakes collection, he shall follow the procedures established by the Department of Taxation and the Compensation Board. Such guidelines shall not supersede contracts between attorneys for the Commonwealth and private attorneys and collection agencies when active collection efforts are being undertaken. As part of such contract, private attorneys or collection agencies shall be given access to the social security number of the defendant in order to assist in the collection effort. Any such private attorney shall be subject to the penalties and provisions of § 18.2-186.3.

The fees of any private attorneys or collection agencies shall be paid on a contingency fee basis out of the proceeds of the amounts collected. However, in no event shall such attorney or collection agency receive a fee for amounts collected by the Department of Taxation under the Setoff Debt Collection Act (§ 58.1-520 et seq.). A local treasurer undertaking

collection pursuant to an agreement with the attorney for the Commonwealth may collect the administrative fee authorized by § 58.1-3958.

⊖ *D.* The Department of Taxation and the State Compensation Board shall be responsible for the collection of any judgment which remains unsatisfied or does not meet the conditions of § 19.2-354. Persons owing such unsatisfied judgments or failing to comply with installment payment agreements under § 19.2-354 shall be subject to the delinquent tax collection provisions of Title 58.1. The Department of Taxation and the State Compensation Board shall establish procedures to be followed by clerks of courts, attorneys for the Commonwealth, other state agencies and any private attorneys or collection agents and may employ private attorneys or collection agencies, or engage other state agencies to collect the judgment. The Department of Taxation and the Commonwealth shall be entitled to deduct a fee for services from amounts collected for violations of local ordinances.

The Department of Taxation and the State Compensation Board shall annually report to the Governor and the General Assembly the total of fines, costs, forfeitures and penalties assessed, collected, and unpaid and those which remain unsatisfied or do not meet the conditions of § 19.2-354 by each circuit and district court. The report shall include the procedures established by the Department of Taxation and the State Compensation Board pursuant to this section and a plan for increasing the collection of unpaid fines, costs, forfeitures and penalties. The Auditor of Public Accounts shall annually report to the Governor, the Executive Secretary of the Supreme Court and the General Assembly as to the adherence of clerks of courts, attorneys for the Commonwealth and other state agencies to the procedures established by the Department of Taxation and the State Compensation Board.

**§ 19.2-368.15. Subrogation of Commonwealth to claimant's right of action; lien in favor of the Commonwealth; disposition of funds collected.**

Acceptance of an award made pursuant to this chapter shall subrogate the Commonwealth, to the extent of such award, to any right or right of action accruing to the claimant or the victim to recover payments on account of losses resulting from the crime with respect to which the award is made. However, except as otherwise provided in subsection ⊖ *I* of § 19.2-305.1, the Commonwealth shall not institute any proceedings in connection with its right of subrogation under this section within one year from the date of commission of the crime, unless any claimant or victim's right or action shall have been previously terminated. All funds collected by the Commonwealth in a proceeding instituted pursuant to this section shall be paid over to the Comptroller for deposit into the Criminal Injuries Compensation Fund.

Whenever any person receives an award from the Criminal Injuries Compensation Fund, the Commonwealth shall have a lien for the total amount paid by the Fund, or any portion thereof compromised pursuant to the authority granted under § 2.2-514, on the claim of such injured person or his personal representative against the person, firm, or corporation who is alleged to have caused such injuries. The Fund's lien shall be inferior to any lien for payment of reasonable attorney fees and costs, but shall be superior to all other liens created by § 8.01-66.2. The injured person may file a petition or motion to reduce the lien and apportion the recovery pursuant to § 8.01-66.9. The Fund's lien shall become effective when notice is provided pursuant to § 8.01-66.5 and liability shall attach pursuant to § 8.01-66.6.

The personal automobile insurance policy of neither a person acting for or on behalf of the motor carrier nor the vehicle's owner shall provide coverage for activities in connection with the motor carrier to such person acting for or on behalf of the motor carrier, the vehicle owner, or any third party unless such policy expressly provides otherwise for the period of time to which subsection A of § 46.2-2143.1 is applicable or the policy contains an amendment or endorsement to provide that coverage.

L. If a vehicle operated by a person acting for or on behalf of a motor carrier is insured under a personal automobile insurance policy that does not exclude coverage, then such policy shall provide primary coverage and an insurance policy maintained by the motor carrier under § 46.2-2143.1 shall provide excess coverage up to at least the limits required by § 46.2-2143.1.

If federal, state, or municipal bonds are deposited with the State Treasurer in lieu of an insurance policy, the bonds shall remain deposited until six months after the registration card, license plate, certificate, ~~or permit~~ ~~or identification marker~~ is canceled for any cause unless otherwise ordered by the Department.

B. The Department may, without holding a hearing, suspend a permit or certificate of fitness if the permittee or certificate holder fails to comply with the requirements of this section.

**2. That § 46.2-2108.3 and Article 5 (§§ 46.2-2174, 46.2-2175, and 46.2-2176) of Chapter 21 of Title 46.2 of the Code of Virginia are repealed.**

In the event that an institution closes or has its approval to operate in the Commonwealth revoked, the Council, through its director, may take such action as is necessary to secure and preserve the student transcripts until such time as an appropriate institution accepts all or some of the transcripts. #### CHAPTER 817

An Act to require evaluation of closure of coal combustion residuals units.

[S 1398]

Approved April 5, 2017

#### Be it enacted by the General Assembly of Virginia:

1. § 1. That every owner or operator of a coal combustion residuals (CCR) surface impoundment, as that term is defined at 40 C.F.R. § 257.53, that is located within the Chesapeake Bay watershed shall conduct an assessment of each such CCR surface impoundment (CCR unit) regarding the closure of any such unit. At a minimum, an assessment shall, for each CCR unit:

1. Identify and describe any groundwater or surface water pollution located at or stemming from the CCR unit, including pollution identified through past monitoring, and evaluate corrective measures to resolve such pollution. Any such evaluation shall address the issues set forth in 40 C.F.R. § 257.96(c) and shall describe and demonstrate how the proposed corrective measures will restore groundwater or surface water quality.

2. Evaluate the clean closure of the CCR unit through excavation and responsible recycling or reuse of coal ash residuals by incorporating them into concrete or other products in a manner that prevents the release into the environment of the pollutants contained within the coal ash residuals. Such evaluation shall consider the feasibility of the onsite processing of a CCR unit for cementitious purposes as well as the feasibility of creating a processing facility or facilities to serve multiple CCR units, including offsite CCR units.

3. Evaluate the clean closure of the CCR unit through the excavation and removal of coal ash residuals to dry, lined storage in an appropriately permitted and monitored landfill, including an analysis of the impact that any responsible recycling or reuse options would have on such excavation and removal.

4. Demonstrate the long-term safety of the CCR unit, addressing any long-term risks posed by the proposed closure plan and siting, including risks related to extreme weather events, flooding, hurricanes, storm surges, and erosive forces.

2. That no later than December 1, 2017, the owner or operator of any coal combustion residuals surface impoundment (CCR unit) subject to the assessment requirement of the first enactment of this act shall transmit such assessment to the Chairmen of the House Committee on Agriculture, Chesapeake and Natural Resources and the Senate Committee on Agriculture, Conservation and Natural Resources and to the Departments of Environmental Quality and Conservation and Recreation.

**3. That notwithstanding the provisions of this act, the Director of the Department of Environmental Quality (the Director) shall suspend, delay, or defer the issuance of any permit to provide for the closure of any CCR unit until May 1, 2018, or the effective date of any legislation adopted during the 2018 Regular Session of the General Assembly that addresses the closure of a CCR unit in Virginia, whichever occurs later. In deciding whether to issue any such permit, the Director need not include or rely upon his review of any such assessment.**

## CHAPTER 820

*An Act to amend and reenact § 56-585.1 of the Code of Virginia, relating to electric utility regulation; pumped hydroelectricity generation and storage facilities.*

[S 1418]

Approved April 5, 2017

**Be it enacted by the General Assembly of Virginia:**

**1. That § 56-585.1 of the Code of Virginia is amended and reenacted as follows:**

**§ 56-585.1. Generation, distribution, and transmission rates after capped rates terminate or expire.**

A. During the first six months of 2009, the Commission shall, after notice and opportunity for hearing, initiate proceedings to review the rates, terms and conditions for the provision of generation, distribution and transmission services of each investor-owned incumbent electric utility. Such proceedings shall be governed by the provisions of Chapter 10 (§ 56-232 et seq.), except as modified herein. In such proceedings the Commission shall determine fair rates of return on common equity applicable to the generation and distribution services of the utility. In so doing, the Commission may use any methodology to determine such return it finds consistent with the public interest, but such return shall not be set lower than the average of the returns on common equity reported to the Securities and Exchange Commission for the three most recent annual periods for which such data are available by not less than a majority, selected by the Commission as specified in subdivision 2 b, of other investor-owned electric utilities in the peer group of the utility, nor shall the Commission set such return more than 300 basis points higher than such average. The peer group of the utility shall be determined in the manner prescribed in subdivision 2 b. The Commission may increase or decrease such combined rate of return by up to 100 basis points based on the generating plant performance, customer service, and operating efficiency of a utility, as compared to nationally recognized standards determined by the Commission to be appropriate for such purposes. In such a proceeding, the Commission shall determine the rates that the utility may charge until such rates are adjusted. If the Commission finds that the utility's combined rate of return on common equity is more than 50 basis points below the combined rate of return as so determined, it shall be authorized to order increases to the utility's rates necessary to provide the opportunity to fully recover the costs of providing the utility's services and to earn not less than such combined rate of return. If the Commission finds that the utility's combined rate of return on common equity is more than 50 basis points above the combined rate of return as so determined, it shall be authorized either (i) to order reductions to the utility's rates it finds appropriate, provided that the Commission may not order such rate reduction unless it finds that the resulting rates will provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than the fair rates of return on common equity applicable to the generation and distribution services; or (ii) to direct that 60 percent of the amount of the utility's earnings that were more than 50 basis points above the fair combined rate of return for calendar year 2008 be credited to customers' bills, in which event such credits shall be amortized over a period of six to 12 months, as determined at the discretion of the Commission, following the effective date of the Commission's order and be allocated among customer classes such that the relationship between the specific customer class rates of return to the overall target rate of return will have the same relationship as the last approved allocation of revenues used to design base rates. Commencing in 2011, the Commission, after notice and opportunity for hearing, shall conduct biennial reviews of the rates, terms and conditions for the provision of generation, distribution and transmission services by each investor-owned incumbent electric utility, subject to the following provisions:

1. Rates, terms and conditions for each service shall be reviewed separately on an unbundled basis, and such reviews shall be conducted in a single, combined proceeding. The first such review shall utilize the two successive 12-month test periods ending December 31, 2010. However, the Commission may, in its discretion, elect to stagger its biennial reviews of utilities by utilizing the two successive 12-month test periods ending December 31, 2010, for a Phase I Utility, and utilizing the two successive 12-month test periods ending December 31, 2011, for a Phase II Utility, with subsequent proceedings utilizing the two successive 12-month test periods ending December 31 immediately preceding the year in which such proceeding is conducted. For purposes of this section, a Phase I Utility is an investor-owned incumbent electric utility that was, as of July 1, 1999, not bound by a rate case settlement adopted by the Commission that extended in its application beyond January 1, 2002, and a Phase II Utility is an investor-owned incumbent electric utility that was bound by such a settlement.

2. Subject to the provisions of subdivision 6, fair rates of return on common equity applicable separately to the generation and distribution services of such utility, and for the two such services combined, shall be determined by the Commission during each such biennial review, as follows:

a. The Commission may use any methodology to determine such return it finds consistent with the public interest, but such return shall not be set lower than the average of the returns on common equity reported to the Securities and Exchange Commission for the three most recent annual periods for which such data are available by not less than a majority, selected

by the Commission as specified in subdivision 2 b, of other investor-owned electric utilities in the peer group of the utility subject to such biennial review, nor shall the Commission set such return more than 300 basis points higher than such average.

b. In selecting such majority of peer group investor-owned electric utilities, the Commission shall first remove from such group the two utilities within such group that have the lowest reported returns of the group, as well as the two utilities within such group that have the highest reported returns of the group, and the Commission shall then select a majority of the utilities remaining in such peer group. In its final order regarding such biennial review, the Commission shall identify the utilities in such peer group it selected for the calculation of such limitation. For purposes of this subdivision, an investor-owned electric utility shall be deemed part of such peer group if (i) its principal operations are conducted in the southeastern United States east of the Mississippi River in either the states of West Virginia or Kentucky or in those states south of Virginia, excluding the state of Tennessee, (ii) it is a vertically-integrated electric utility providing generation, transmission and distribution services whose facilities and operations are subject to state public utility regulation in the state where its principal operations are conducted, (iii) it had a long-term bond rating assigned by Moody's Investors Service of at least Baa at the end of the most recent test period subject to such biennial review, and (iv) it is not an affiliate of the utility subject to such biennial review.

c. The Commission may, consistent with its precedent for incumbent electric utilities prior to the enactment of Chapters 888 and 933 of the Acts of Assembly of 2007, increase or decrease the utility's combined rate of return based on the Commission's consideration of the utility's performance.

d. In any Current Proceeding, the Commission shall determine whether the Current Return has increased, on a percentage basis, above the Initial Return by more than the increase, expressed as a percentage, in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, since the date on which the Commission determined the Initial Return. If so, the Commission may conduct an additional analysis of whether it is in the public interest to utilize such Current Return for the Current Proceeding then pending. A finding of whether the Current Return justifies such additional analysis shall be made without regard to any enhanced rate of return on common equity awarded pursuant to the provisions of subdivision 6. Such additional analysis shall include, but not be limited to, a consideration of overall economic conditions, the level of interest rates and cost of capital with respect to business and industry, in general, as well as electric utilities, the current level of inflation and the utility's cost of goods and services, the effect on the utility's ability to provide adequate service and to attract capital if less than the Current Return were utilized for the Current Proceeding then pending, and such other factors as the Commission may deem relevant. If, as a result of such analysis, the Commission finds that use of the Current Return for the Current Proceeding then pending would not be in the public interest, then the lower limit imposed by subdivision 2 a on the return to be determined by the Commission for such utility shall be calculated, for that Current Proceeding only, by increasing the Initial Return by a percentage at least equal to the increase, expressed as a percentage, in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, since the date on which the Commission determined the Initial Return. For purposes of this subdivision:

"Current Proceeding" means any proceeding conducted under any provisions of this subsection that require or authorize the Commission to determine a fair combined rate of return on common equity for a utility and that will be concluded after the date on which the Commission determined the Initial Return for such utility.

"Current Return" means the minimum fair combined rate of return on common equity required for any Current Proceeding by the limitation regarding a utility's peer group specified in subdivision 2 a.

"Initial Return" means the fair combined rate of return on common equity determined for such utility by the Commission on the first occasion after July 1, 2009, under any provision of this subsection pursuant to the provisions of subdivision 2 a.

e. In addition to other considerations, in setting the return on equity within the range allowed by this section, the Commission shall strive to maintain costs of retail electric energy that are cost competitive with costs of retail electric energy provided by the other peer group investor-owned electric utilities.

f. The determination of such returns shall be made by the Commission on a stand-alone basis, and specifically without regard to any return on common equity or other matters determined with regard to facilities described in subdivision 6.

g. If the combined rate of return on common equity earned by the generation and distribution services is no more than 50 basis points above or below the return as so determined or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, such return is no more than 70 basis points above or below the return as so determined, such combined return shall not be considered either excessive or insufficient, respectively. However, for any test period commencing after December 31, 2012, for a Phase II Utility, and after December 31, 2013, for a Phase I Utility, if the utility has, during the test period or periods under review, earned below the return as so determined, whether or not such combined return is within 70 basis points of the return as so determined, the utility may petition the Commission for approval of an increase in rates in accordance with the provisions of subdivision 8 a as if it had earned more than 70 basis points below a fair combined rate of return, and such proceeding shall otherwise be conducted in accordance with the provisions of this section.

h. Any amount of a utility's earnings directed by the Commission to be credited to customers' bills pursuant to this section shall not be considered for the purpose of determining the utility's earnings in any subsequent biennial review.

3. Each such utility shall make a biennial filing by March 31 of every other year, beginning in 2011, consisting of the schedules contained in the Commission's rules governing utility rate increase applications; however, if the Commission elects to stagger the dates of the biennial reviews of utilities as provided in subdivision 1, then each Phase I Utility shall commence biennial filings in 2011 and each Phase II Utility shall commence biennial filings in 2012. Such filing shall encompass the two successive 12-month test periods ending December 31 immediately preceding the year in which such proceeding is conducted, and in every such case the filing for each year shall be identified separately and shall be segregated from any other year encompassed by the filing. If the Commission determines that rates should be revised or credits be applied to customers' bills pursuant to subdivision 8 or 9, any rate adjustment clauses previously implemented pursuant to subdivision 5 or those related to facilities utilizing simple-cycle combustion turbines described in subdivision 6, shall be combined with the utility's costs, revenues and investments until the amounts that are the subject of such rate adjustment clauses are fully recovered. The Commission shall combine such clauses with the utility's costs, revenues and investments only after it makes its initial determination with regard to necessary rate revisions or credits to customers' bills, and the amounts thereof, but after such clauses are combined as herein specified, they shall thereafter be considered part of the utility's costs, revenues, and investments for the purposes of future biennial review proceedings. A Phase I Utility shall delay for one year the filing of its biennial review from March 31, 2013, to March 31, 2014, and shall not defer on its books for future recovery any costs incurred during calendar year 2011, other than as provided in subdivision 7 or § 56-249.6, and its subsequent biennial filing shall be made by March 31, 2016, and every two years thereafter.

4. The following costs incurred by the utility shall be deemed reasonable and prudent: (i) costs for transmission services provided to the utility by the regional transmission entity of which the utility is a member, as determined under applicable rates, terms and conditions approved by the Federal Energy Regulatory Commission, and (ii) costs charged to the utility that are associated with demand response programs approved by the Federal Energy Regulatory Commission and administered by the regional transmission entity of which the utility is a member. Upon petition of a utility at any time after the expiration or termination of capped rates, but not more than once in any 12-month period, the Commission shall approve a rate adjustment clause under which such costs, including, without limitation, costs for transmission service, charges for new and existing transmission facilities, administrative charges, and ancillary service charges designed to recover transmission costs, shall be recovered on a timely and current basis from customers. Retail rates to recover these costs shall be designed using the appropriate billing determinants in the retail rate schedules.

5. A utility may at any time, after the expiration or termination of capped rates, but not more than once in any 12-month period, petition the Commission for approval of one or more rate adjustment clauses for the timely and current recovery from customers of the following costs:

a. Incremental costs described in clause (vi) of subsection B of § 56-582 incurred between July 1, 2004, and the expiration or termination of capped rates, if such utility is, as of July 1, 2007, deferring such costs consistent with an order of the Commission entered under clause (vi) of subsection B of § 56-582. The Commission shall approve such a petition allowing the recovery of such costs that comply with the requirements of clause (vi) of subsection B of § 56-582;

b. Projected and actual costs for the utility to design and operate fair and effective peak-shaving programs. The Commission shall approve such a petition if it finds that the program is in the public interest; provided that the Commission shall allow the recovery of such costs as it finds are reasonable;

c. Projected and actual costs for the utility to design, implement, and operate energy efficiency programs, including a margin to be recovered on operating expenses, which margin for the purposes of this section shall be equal to the general rate of return on common equity determined as described in subdivision 2. The Commission shall only approve such a petition if it finds that the program is in the public interest. As part of such cost recovery, the Commission, if requested by the utility, shall allow for the recovery of revenue reductions related to energy efficiency programs. The Commission shall only allow such recovery to the extent that the Commission determines such revenue has not been recovered through margins from incremental off-system sales as defined in § 56-249.6 that are directly attributable to energy efficiency programs.

None of the costs of new energy efficiency programs of an electric utility, including recovery of revenue reductions, shall be assigned to any customer that has a verifiable history of having used more than 10 megawatts of demand from a single meter of delivery. Nor shall any of the costs of new energy efficiency programs of an electric utility, including recovery of revenue reductions, be incurred by any large general service customer as defined herein that has notified the utility of non-participation in such energy efficiency program or programs. A large general service customer is a customer that has a verifiable history of having used more than 500 kilowatts of demand from a single meter of delivery. Non-participation in energy efficiency programs shall be allowed by the Commission if the large general service customer has, at the customer's own expense, implemented energy efficiency programs that have produced or will produce measured and verified results consistent with industry standards and other regulatory criteria stated in this section. The Commission shall, no later than November 15, 2009, promulgate rules and regulations to accommodate the process under which such large general service customers shall file notice for such an exemption and (i) establish the administrative procedures by which eligible customers will notify the utility and (ii) define the standard criteria that must be satisfied by an applicant in order to notify the utility. In promulgating such rules and regulations, the Commission may also specify the timing as to when a utility shall accept and act on such notice, taking into consideration the utility's integrated resource planning process as well as its administration of energy efficiency programs that are approved for cost recovery by the Commission. The notice of non-participation by a large general service customer, to be given by March 1 of a given year, shall be for the

duration of the service life of the customer's energy efficiency program. The Commission on its own motion may initiate steps necessary to verify such non-participants' achievement of energy efficiency if the Commission has a body of evidence that the non-participant has knowingly misrepresented its energy efficiency achievement. A utility shall not charge such large general service customer, as defined by the Commission, for the costs of installing energy efficiency equipment beyond what is required to provide electric service and meter such service on the customer's premises if the customer provides, at the customer's expense, equivalent energy efficiency equipment. In all relevant proceedings pursuant to this section, the Commission shall take into consideration the goals of economic development, energy efficiency and environmental protection in the Commonwealth;

d. Projected and actual costs of participation in a renewable energy portfolio standard program pursuant to § 56-585.2 that are not recoverable under subdivision 6. The Commission shall approve such a petition allowing the recovery of such costs as are provided for in a program approved pursuant to § 56-585.2;

e. Projected and actual costs of projects that the Commission finds to be necessary to comply with state or federal environmental laws or regulations applicable to generation facilities used to serve the utility's native load obligations. The Commission shall approve such a petition if it finds that such costs are necessary to comply with such environmental laws or regulations; and

f. Projected and actual costs, not currently in rates, for the utility to design, implement, and operate programs approved by the Commission that accelerate the vegetation management of distribution rights-of-way. No costs shall be allocated to or recovered from customers that are served within the large general service rate classes for a Phase II Utility or that are served at subtransmission or transmission voltage, or take delivery at a substation served from subtransmission or transmission voltage, for a Phase I Utility.

The Commission shall have the authority to determine the duration or amortization period for any adjustment clause approved under this subdivision.

6. To ensure the generation and delivery of a reliable and adequate supply of electricity, to meet the utility's projected native load obligations and to promote economic development, a utility may at any time, after the expiration or termination of capped rates, petition the Commission for approval of a rate adjustment clause for recovery on a timely and current basis from customers of the costs of (i) a coal-fueled generation facility that utilizes Virginia coal and is located in the coalfield region of the Commonwealth, as described in § 15.2-6002, regardless of whether such facility is located within or without the utility's service territory, (ii) one or more other generation facilities, (iii) one or more major unit modifications of generation facilities, ~~or~~ (iv) one or more new underground facilities to replace one or more existing overhead distribution facilities of 69 kilovolts or less located within the Commonwealth, *or (v) one or more pumped hydroelectricity generation and storage facilities that utilize on-site or off-site renewable energy resources as all or a portion of their power source and such facilities and associated resources are located in the coalfield region of the Commonwealth as described in § 15.2-6002, regardless of whether such facility is located within or without the utility's service territory;* however, subject to the provisions of the following sentence, the utility shall not file a petition under clause (iv) more often than annually and, in such petition, shall not seek any annual incremental increase in the level of investments associated with such a petition that exceeds five percent of such utility's distribution rate base, as such rate base was determined for the most recently ended 12-month test period in the utility's latest biennial review proceeding conducted pursuant to subdivision 3 and concluded by final order of the Commission prior to the date of filing of such petition under clause (iv). In all proceedings regarding petitions filed under clause (iv), the level of investments approved for recovery in such proceedings shall be in addition to, and not in lieu of, levels of investments previously approved for recovery in prior proceedings under clause (iv). Such a petition concerning facilities described in clause (ii) that utilize nuclear power, facilities described in clause (ii) that are coal-fueled and will be built by a Phase I Utility, or facilities described in clause (i) may also be filed before the expiration or termination of capped rates. A utility that constructs any such facility, or purchases any facility consisting of at least one megawatt of generating capacity using energy derived from sunlight and located in the Commonwealth and that utilizes goods or services sourced, in whole or in part, from one or more Virginia businesses, shall have the right to recover the costs of the facility, as accrued against income, through its rates, including projected construction work in progress, and any associated allowance for funds used during construction, planning, development and construction or acquisition costs, life-cycle costs, costs related to assessing the feasibility of potential sites for new underground facilities, and costs of infrastructure associated therewith, plus, as an incentive to undertake such projects, an enhanced rate of return on common equity calculated as specified below; however, in determining the amounts recoverable under a rate adjustment clause for new underground facilities, the Commission shall not consider, or increase or reduce such amounts recoverable because of (a) the operation and maintenance costs attributable to either the overhead distribution facilities being replaced or the new underground facilities or (b) any other costs attributable to the overhead distribution facilities being replaced. Notwithstanding the preceding sentence, the costs described in clauses (a) and (b) thereof shall remain eligible for recovery from customers through the utility's base rates for distribution service. A utility filing a petition for approval to construct or purchase a facility consisting of at least one megawatt of generating capacity using energy derived from sunlight and located in the Commonwealth and that utilizes goods or services sourced, in whole or in part, from one or more Virginia businesses may propose a rate adjustment clause based on a market index in lieu of a cost of service model for such facility. A utility seeking approval to construct or purchase a generating facility *described in clause (i) or (ii)* shall demonstrate that it has considered and weighed alternative options, including third-party market alternatives, in its selection process. The costs of the facility, other than return on projected construction work in progress and allowance for funds used during

construction, shall not be recovered prior to the date a facility constructed by the utility and described in clause (i), (ii), or (iii) begins commercial operation, the date the utility becomes the owner of a purchased generation facility consisting of at least one megawatt of generating capacity using energy derived from sunlight and located in the Commonwealth and that utilizes goods or services sourced, in whole or in part, from one or more Virginia businesses, or the date new underground facilities are classified by the utility as plant in service. Such enhanced rate of return on common equity shall be applied to allowance for funds used during construction and to construction work in progress during the construction phase of the facility and shall thereafter be applied to the entire facility during the first portion of the service life of the facility. The first portion of the service life shall be as specified in the table below; however, the Commission shall determine the duration of the first portion of the service life of any facility, within the range specified in the table below, which determination shall be consistent with the public interest and shall reflect the Commission's determinations regarding how critical the facility may be in meeting the energy needs of the citizens of the Commonwealth and the risks involved in the development of the facility. After the first portion of the service life of the facility is concluded, the utility's general rate of return shall be applied to such facility for the remainder of its service life. As used herein, the service life of the facility shall be deemed to begin on the date a facility constructed by the utility and described in clause (i), (ii), or (iii) begins commercial operation, the date the utility becomes the owner of a purchased generation facility consisting of at least one megawatt of generating capacity using energy derived from sunlight and located in the Commonwealth and that utilizes goods or services sourced, in whole or in part, from one or more Virginia businesses, or the date new underground facilities are classified by the utility as plant in service, and such service life shall be deemed equal in years to the life of that facility as used to calculate the utility's depreciation expense. Such enhanced rate of return on common equity shall be calculated by adding the basis points specified in the table below to the utility's general rate of return, and such enhanced rate of return shall apply only to the facility that is the subject of such rate adjustment clause. Allowance for funds used during construction shall be calculated for any such facility utilizing the utility's actual capital structure and overall cost of capital, including an enhanced rate of return on common equity as determined pursuant to this subdivision, until such construction work in progress is included in rates. The construction of any facility described in clause (i) or (v) is in the public interest, and in determining whether to approve such facility, the Commission shall liberally construe the provisions of this title. The construction or purchase by a utility of one or more generation facilities with at least one megawatt of generating capacity, and with an aggregate rated capacity that does not exceed 500 megawatts, that use energy derived from sunlight and are located in the Commonwealth, regardless of whether any of such facilities are located within or without the utility's service territory, is in the public interest, and in determining whether to approve such facility, the Commission shall liberally construe the provisions of this title. A utility may enter into short-term or long-term power purchase contracts for the power derived from sunlight generated by such generation facility prior to purchasing the generation facility. In determining whether to approve petitions for rate adjustment clauses for new underground facilities, and in determining the level of costs to be recovered thereunder, the Commission shall liberally construe the provisions of this title and shall give due consideration to the public policy goals of increased electric service reliability and reduced outage times associated with the replacement of existing overhead distribution facilities with new underground facilities. The basis points to be added to the utility's general rate of return to calculate the enhanced rate of return on common equity, and the first portion of that facility's service life to which such enhanced rate of return shall be applied, shall vary by type of facility, as specified in the following table:

Type of Generation Facility	Basis Points	First Portion of Service Life
Nuclear-powered	200	Between 12 and 25 years
Carbon capture compatible, clean-coal powered	200	Between 10 and 20 years
Renewable powered, other than landfill gas powered	200	Between 5 and 15 years
Coalbed methane gas powered	150	Between 5 and 15 years
Landfill gas powered	200	Between 5 and 15 years
Conventional coal or combined-cycle combustion turbine	100	Between 10 and 20 years

For generating facilities other than those utilizing nuclear power or those utilizing energy derived from offshore wind, as of July 1, 2013, only those facilities as to which a rate adjustment clause under this subdivision has been previously approved by the Commission, or as to which a petition for approval of such rate adjustment clause was filed with the Commission, on or before January 1, 2013, shall be entitled to the enhanced rate of return on common equity as specified in the above table during the construction phase of the facility and the approved first portion of its service life.

For generating facilities within the Commonwealth utilizing nuclear power or those utilizing energy derived from offshore wind projects located in waters off the Commonwealth's Atlantic shoreline, such facilities shall continue to be eligible for an enhanced rate of return on common equity during the construction phase of the facility and the approved first portion of its service life of between 12 and 25 years in the case of a facility utilizing nuclear power and for a service life of between 5 and 15 years in the case of a facility utilizing energy derived from offshore wind, provided, however, that, as of July 1, 2013, the enhanced return for such facilities shall be 100 basis points, which shall be added to the utility's general rate of return as determined under subdivision 2. Thirty percent of all costs of such a facility utilizing nuclear power that the utility incurred between July 1, 2007, and December 31, 2013, and all of such costs incurred after December 31, 2013, may

be deferred by the utility and recovered through a rate adjustment clause under this subdivision at such time as the Commission provides in an order approving such a rate adjustment clause. The remaining 70 percent of all costs of such a facility that the utility incurred between July 1, 2007, and December 31, 2013, shall not be deferred for recovery through a rate adjustment clause under this subdivision; however, such remaining 70 percent of all costs shall be recovered ratably through existing base rates as determined by the Commission in the test periods under review in the utility's next biennial review filed after July 1, 2014. Thirty percent of all costs of such a facility utilizing energy derived from offshore wind that the utility incurred between July 1, 2007, and December 31, 2013, and all of such costs incurred after December 31, 2013, may be deferred by the utility and recovered through a rate adjustment clause under this subdivision at such time as the Commission provides in an order approving such a rate adjustment clause. The remaining 70 percent of all costs of such a facility that the utility incurred between July 1, 2007, and December 31, 2013, shall not be deferred for recovery through a rate adjustment clause under this subdivision; however, such remaining 70 percent of all costs shall be recovered ratably through existing base rates as determined by the Commission in the test periods under review in the utility's next biennial review filed after July 1, 2014.

In connection with planning to meet forecasted demand for electric generation supply and assure the adequate and sufficient reliability of service, consistent with § 56-598, planning and development activities for a new nuclear generation facility or facilities are in the public interest.

In connection with planning to meet forecasted demand for electric generation supply and assure the adequate and sufficient reliability of service, consistent with § 56-598, planning and development activities for a new utility-owned and utility-operated generating facility or facilities utilizing energy derived from sunlight with an aggregate capacity of 500 megawatts, or from offshore wind, are in the public interest.

Neither generation facilities described in clause (ii) that utilize simple-cycle combustion turbines nor new underground facilities shall receive an enhanced rate of return on common equity as described herein, but instead shall receive the utility's general rate of return during the construction phase of the facility and, thereafter, for the entire service life of the facility. No rate adjustment clause for new underground facilities shall allocate costs to, or provide for the recovery of costs from, customers that are served within the large power service rate class for a Phase I Utility and the large general service rate classes for a Phase II Utility. New underground facilities are hereby declared to be ordinary extensions or improvements in the usual course of business under the provisions of § 56-265.2.

As used in this subdivision, a generation facility is (1) "coalbed methane gas powered" if the facility is fired at least 50 percent by coalbed methane gas, as such term is defined in § 45.1-361.1, produced from wells located in the Commonwealth, and (2) "landfill gas powered" if the facility is fired by methane or other combustible gas produced by the anaerobic digestion or decomposition of biodegradable materials in a solid waste management facility licensed by the Waste Management Board. A landfill gas powered facility includes, in addition to the generation facility itself, the equipment used in collecting, drying, treating, and compressing the landfill gas and in transmitting the landfill gas from the solid waste management facility where it is collected to the generation facility where it is combusted.

For purposes of this subdivision, "general rate of return" means the fair combined rate of return on common equity as it is determined by the Commission from time to time for such utility pursuant to subdivision 2. In any proceeding under this subdivision conducted prior to the conclusion of the first biennial review for such utility, the Commission shall determine a general rate of return for such utility in the same manner as it would in a biennial review proceeding.

Notwithstanding any other provision of this subdivision, if the Commission finds during the biennial review conducted for a Phase II Utility in 2018 that such utility has not filed applications for all necessary federal and state regulatory approvals to construct one or more nuclear-powered or coal-fueled generation facilities that would add a total capacity of at least 1500 megawatts to the amount of the utility's generating resources as such resources existed on July 1, 2007, or that, if all such approvals have been received, that the utility has not made reasonable and good faith efforts to construct one or more such facilities that will provide such additional total capacity within a reasonable time after obtaining such approvals, then the Commission, if it finds it in the public interest, may reduce on a prospective basis any enhanced rate of return on common equity previously applied to any such facility to no less than the general rate of return for such utility and may apply no less than the utility's general rate of return to any such facility for which the utility seeks approval in the future under this subdivision.

7. Any petition filed pursuant to subdivision 4, 5, or 6 shall be considered by the Commission on a stand-alone basis without regard to the other costs, revenues, investments, or earnings of the utility. Any costs incurred by a utility prior to the filing of such petition, or during the consideration thereof by the Commission, that are proposed for recovery in such petition and that are related to subdivision 5 a, or that are related to facilities and projects described in clause (i) of subdivision 6, or that are related to new underground facilities described in clause (iv) of subdivision 6, shall be deferred on the books and records of the utility until the Commission's final order in the matter, or until the implementation of any applicable approved rate adjustment clauses, whichever is later. Except as otherwise provided in subdivision 6, any costs prudently incurred on or after July 1, 2007, by a utility prior to the filing of such petition, or during the consideration thereof by the Commission, that are proposed for recovery in such petition and that are related to facilities and projects described in clause (ii) of subdivision 6 that utilize nuclear power, or coal-fueled facilities and projects described in clause (ii) of subdivision 6 if such coal-fueled facilities will be built by a Phase I Utility, shall be deferred on the books and records of the utility until the Commission's final order in the matter, or until the implementation of any applicable approved rate adjustment clauses, whichever is later. Any costs prudently incurred after the expiration or termination of capped rates

related to other matters described in subdivision 4, 5, or 6 shall be deferred beginning only upon the expiration or termination of capped rates, provided, however, that no provision of this act shall affect the rights of any parties with respect to the rulings of the Federal Energy Regulatory Commission in PJM Interconnection LLC and Virginia Electric and Power Company, 109 F.E.R.C. P 61, 012 (2004). A utility shall establish a regulatory asset for regulatory accounting and ratemaking purposes under which it shall defer its operation and maintenance costs incurred in connection with (i) the refueling of any nuclear-powered generating plant and (ii) other work at such plant normally performed during a refueling outage. The utility shall amortize such deferred costs over the refueling cycle, but in no case more than 18 months, beginning with the month in which such plant resumes operation after such refueling. The refueling cycle shall be the applicable period of time between planned refueling outages for such plant. As of January 1, 2014, such amortized costs are a component of base rates, recoverable in base rates only ratably over the refueling cycle rather than when such outages occur, and are the only nuclear refueling costs recoverable in base rates. This provision shall apply to any nuclear-powered generating plant refueling outage commencing after December 31, 2013, and the Commission shall treat the deferred and amortized costs of such regulatory asset as part of the utility's costs for the purpose of proceedings conducted (a) with respect to biennial filings under subdivision 3 made on and after July 1, 2014, and (b) pursuant to § 56-245 or the Commission's rules governing utility rate increase applications as provided in subsection B. This provision shall not be deemed to change or reset base rates.

The Commission's final order regarding any petition filed pursuant to subdivision 4, 5, or 6 shall be entered not more than three months, eight months, and nine months, respectively, after the date of filing of such petition. If such petition is approved, the order shall direct that the applicable rate adjustment clause be applied to customers' bills not more than 60 days after the date of the order, or upon the expiration or termination of capped rates, whichever is later.

8. In any biennial review proceeding, the following utility generation and distribution costs not proposed for recovery under any other subdivision of this subsection, as recorded per books by the utility for financial reporting purposes and accrued against income, shall be attributed to the test periods under review: costs associated with asset impairments related to early retirement determinations made by the utility prior to December 31, 2012, for utility generation plant; costs associated with severe weather events; and costs associated with natural disasters. Such costs shall be deemed to have been recovered from customers through rates for generation and distribution services in effect during the test periods under review unless such costs, individually or in the aggregate, together with the utility's other costs, revenues, and investments to be recovered through rates for generation and distribution services, result in the utility's earned return on its generation and distribution services for the combined test periods under review to fall more than 50 basis points below the fair combined rate of return authorized under subdivision 2 for such periods or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, to fall more than 70 basis points below the fair combined rate of return authorized under subdivision 2 for such periods. In such cases, the Commission shall, in such biennial review proceeding, authorize deferred recovery of such costs and allow the utility to amortize and recover such deferred costs over future periods as determined by the Commission. The aggregate amount of such deferred costs shall not exceed an amount that would, together with the utility's other costs, revenues, and investments to be recovered through rates for generation and distribution services, cause the utility's earned return on its generation and distribution services to exceed the fair rate of return authorized under subdivision 2, less 50 basis points, for the combined test periods under review or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, to exceed the fair rate of return authorized under subdivision 2 less 70 basis points. Nothing in this section shall limit the Commission's authority, pursuant to the provisions of Chapter 10 (§ 56-232 et seq.), including specifically § 56-235.2, following the review of combined test period earnings of the utility in a biennial review, for normalization of nonrecurring test period costs and annualized adjustments for future costs, in determining any appropriate increase or decrease in the utility's rates for generation and distribution services pursuant to subdivision 8 a or 8 c.

If the Commission determines as a result of such biennial review that:

a. The utility has, during the test period or periods under review, considered as a whole, earned more than 50 basis points below a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points below a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, the Commission shall order increases to the utility's rates necessary to provide the opportunity to fully recover the costs of providing the utility's services and to earn not less than such fair combined rate of return, using the most recently ended 12-month test period as the basis for determining the amount of the rate increase necessary. However, the Commission may not order such rate increase unless it finds that the resulting rates are necessary to provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than a fair combined rate of return on both its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, using the most recently ended 12-month test period as the basis for determining the permissibility of any rate increase under the standards of this sentence, and the amount thereof;

b. The utility has, during the test period or test periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without

regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, the Commission shall, subject to the provisions of subdivision 9, direct that 60 percent of the amount of such earnings that were more than 50 basis points, or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, that 70 percent of the amount of such earnings that were more than 70 basis points, above such fair combined rate of return for the test period or periods under review, considered as a whole, shall be credited to customers' bills. Any such credits shall be amortized over a period of six to 12 months, as determined at the discretion of the Commission, following the effective date of the Commission's order, and shall be allocated among customer classes such that the relationship between the specific customer class rates of return to the overall target rate of return will have the same relationship as the last approved allocation of revenues used to design base rates; or

c. Such biennial review is the second consecutive biennial review in which the utility has, during the test period or test periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matter determined with respect to facilities described in subdivision 6, the Commission shall, subject to the provisions of subdivision 9 and in addition to the actions authorized in subdivision b, also order reductions to the utility's rates it finds appropriate. However, the Commission may not order such rate reduction unless it finds that the resulting rates will provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, using the most recently ended 12-month test period as the basis for determining the permissibility of any rate reduction under the standards of this sentence, and the amount thereof.

The Commission's final order regarding such biennial review shall be entered not more than eight months after the date of filing, and any revisions in rates or credits so ordered shall take effect not more than 60 days after the date of the order. The fair combined rate of return on common equity determined pursuant to subdivision 2 in such biennial review shall apply, for purposes of reviewing the utility's earnings on its rates for generation and distribution services, to the entire two successive 12-month test periods ending December 31 immediately preceding the year of the utility's subsequent biennial review filing under subdivision 3.

9. If, as a result of a biennial review required under this subsection and conducted with respect to any test period or periods under review ending later than December 31, 2010 (or, if the Commission has elected to stagger its biennial reviews of utilities as provided in subdivision 1, under review ending later than December 31, 2010, for a Phase I Utility, or December 31, 2011, for a Phase II Utility), the Commission finds, with respect to such test period or periods considered as a whole, that (i) any utility has, during the test period or periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, and (ii) the total aggregate regulated rates of such utility at the end of the most recently-ended 12-month test period exceeded the annual increases in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, compounded annually, when compared to the total aggregate regulated rates of such utility as determined pursuant to the biennial review conducted for the base period, the Commission shall, unless it finds that such action is not in the public interest or that the provisions of subdivisions 8 b and c are more consistent with the public interest, direct that any or all earnings for such test period or periods under review, considered as a whole that were more than 50 basis points, or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points, above such fair combined rate of return shall be credited to customers' bills, in lieu of the provisions of subdivisions 8 b and c. Any such credits shall be amortized and allocated among customer classes in the manner provided by subdivision 8 b. For purposes of this subdivision:

"Base period" means (i) the test period ending December 31, 2010 (or, if the Commission has elected to stagger its biennial reviews of utilities as provided in subdivision 1, the test period ending December 31, 2010, for a Phase I Utility, or December 31, 2011, for a Phase II Utility), or (ii) the most recent test period with respect to which credits have been applied to customers' bills under the provisions of this subdivision, whichever is later.

"Total aggregate regulated rates" shall include: (i) fuel tariffs approved pursuant to § 56-249.6, except for any increases in fuel tariffs deferred by the Commission for recovery in periods after December 31, 2010, pursuant to the provisions of clause (ii) of subsection C of § 56-249.6; (ii) rate adjustment clauses implemented pursuant to subdivision 4 or 5; (iii) revisions to the utility's rates pursuant to subdivision 8 a; (iv) revisions to the utility's rates pursuant to the Commission's rules governing utility rate increase applications, as permitted by subsection B, occurring after July 1, 2009; and (v) base rates in effect as of July 1, 2009.

10. For purposes of this section, the Commission shall regulate the rates, terms and conditions of any utility subject to this section on a stand-alone basis utilizing the actual end-of-test period capital structure and cost of capital of such utility, unless the Commission finds that the debt to equity ratio of such capital structure is unreasonable for such utility, in which

case the Commission may utilize a debt to equity ratio that it finds to be reasonable for such utility in determining any rate adjustment pursuant to subdivisions 8 a and c, and without regard to the cost of capital, capital structure, revenues, expenses or investments of any other entity with which such utility may be affiliated. In particular, and without limitation, the Commission shall determine the federal and state income tax costs for any such utility that is part of a publicly traded, consolidated group as follows: (i) such utility's apportioned state income tax costs shall be calculated according to the applicable statutory rate, as if the utility had not filed a consolidated return with its affiliates, and (ii) such utility's federal income tax costs shall be calculated according to the applicable federal income tax rate and shall exclude any consolidated tax liability or benefit adjustments originating from any taxable income or loss of its affiliates.

B. Nothing in this section shall preclude an investor-owned incumbent electric utility from applying for an increase in rates pursuant to § 56-245 or the Commission's rules governing utility rate increase applications; however, in any such filing, a fair rate of return on common equity shall be determined pursuant to subdivision A 2. Nothing in this section shall preclude such utility's recovery of fuel and purchased power costs as provided in § 56-249.6.

C. Except as otherwise provided in this section, the Commission shall exercise authority over the rates, terms and conditions of investor-owned incumbent electric utilities for the provision of generation, transmission and distribution services to retail customers in the Commonwealth pursuant to the provisions of Chapter 10 (§ 56-232 et seq.), including specifically § 56-235.2.

D. The Commission may determine, during any proceeding authorized or required by this section, the reasonableness or prudence of any cost incurred or projected to be incurred, by a utility in connection with the subject of the proceeding. A determination of the Commission regarding the reasonableness or prudence of any such cost shall be consistent with the Commission's authority to determine the reasonableness or prudence of costs in proceedings pursuant to the provisions of Chapter 10 (§ 56-232 et seq.). In determining the reasonableness or prudence of a utility providing energy and capacity to its customers from renewable energy resources, the Commission shall consider the extent to which such renewable energy resources, whether utility-owned or by contract, further the objectives of the Commonwealth Energy Policy set forth in §§ 67-101 and 67-102, and shall also consider whether the costs of such resources is likely to result in unreasonable increases in rates paid by consumers.

E. The Commission shall promulgate such rules and regulations as may be necessary to implement the provisions of this section.

## CHAPTER 825

*An Act to amend and reenact §§ 46.2-1231, 46.2-1232, and 46.2-1233.2 of the Code of Virginia and to amend the Code of Virginia by adding a section numbered 46.2-1233.3, relating to tow truck drivers and towing and recovery operators; requirements; civil penalties.*

[H 1960]

Approved April 26, 2017

**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 46.2-1231, 46.2-1232, and 46.2-1233.2 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding a section numbered 46.2-1233.3 as follows:**

**§ 46.2-1231. Ticketing, removal, or immobilization of trespassing vehicles by owner or operator of parking or other lot or building; charges.**

The owner, operator, or lessee of any parking lot, parking area, or parking space in a parking lot or area or any part of a parking lot or area, or of any other lot or building, including any county, city, or town, or authorized agent of the person having control of such premises may have any vehicle occupying the lot, area, space, or building without the permission of its owner, operator, lessee, or authorized agent of the one having the control of the premises, removed by towing or otherwise to a licensed garage for storage until called for by the owner or his agent if there are posted at all entrances to the parking lot or area signs clearly and conspicuously disclosing that such vehicle, if parked without permission, will be removed, towed, or immobilized. Such signs shall, at a minimum, include the nonemergency telephone number of the local law-enforcement agency or the telephone number of the responsible towing and recovery operator to contact for information related to the location of vehicles towed from that location. The requirements of this section relating to the posting of signs by an owner, operator, or lessee of any parking lot, parking area or space shall not apply to localities in which the local governing body has adopted an ordinance pursuant to § 46.2-1232.

Whenever a trespassing vehicle is removed or towed as permitted by this section, notice of this action shall forthwith be given by the tow truck operator to the State Police or the local law-enforcement agency of the jurisdiction from which the vehicle was towed. It shall be unlawful to fail to report such tow as required by this section and violation of the reporting requirement of this section shall constitute a traffic infraction punishable by a fine of not more than \$100. Such failure to report shall limit the amount which may be charged for the storage and safekeeping of the towed vehicle to an amount no greater than that charged for one day of storage and safekeeping. If the vehicle is removed and stored, the vehicle owner may be charged and the vehicle may be held for a reasonable fee for the removal and storage.

All businesses engaged in towing vehicles without the consent of their owners shall prominently display (i) at their main place of business and (ii) at any other location where towed vehicles may be reclaimed a comprehensive list of all their fees for towing, recovery, and storage services, or the basis of such charges. This requirement to display a list of fees may also be satisfied by providing, when the towed vehicle is reclaimed, a written list of such fees, either as part of a receipt or separately, to the person who reclaims the vehicle. Charges in excess of those posted shall not be collectable from any motor vehicle owner whose vehicle is towed, recovered, or stored without his consent. *At the time a vehicle owner or agent reclaims a towed vehicle, such towing and recovery operator, if located in Planning District 8, shall provide a written receipt that provides a telephone number or website available for customer complaints. A locality located wholly or partially in Planning District 8 may require additional information to be included on such receipt.*

Notwithstanding the foregoing provisions of this section, if the owner or representative or agent of the owner of the trespassing vehicle is present and removes the trespassing vehicle from the premises before it is actually towed, the trespassing vehicle shall not be towed, but the owner or representative or agent of the owner of the trespassing vehicle shall be liable for a reasonable fee, not to exceed \$25 or such other limit as the governing body of the county, city, or town may set by ordinance, in lieu of towing.

In lieu of having a trespassing vehicle removed by towing or otherwise, the owner, operator, lessee or authorized agent of the premises on which the trespassing vehicle is parked may cause the vehicle to be immobilized by a boot or other device that prevents a vehicle from being moved by preventing a wheel from turning, provided that the boot or other device does not damage the vehicle or wheel. The charge for the removal of any boot or device shall not exceed \$25 or such other

limit as the governing body of the county, city, or town may set by ordinance. In lieu of having the vehicle removed by towing or otherwise, or in lieu of causing the vehicle to be immobilized, the owner, operator, lessee or authorized agent of the premises on which the trespassing vehicle is parked may cause to have an authorized local government official or law-enforcement officer issue, on the premises, a notice of the violation of a parking ordinance or regulation created pursuant to § 46.2-1220 or § 46.2-1221 to the registered owner of the vehicle.

This section shall not apply to police, fire, or public health vehicles or where a vehicle, because of a wreck or other emergency, is parked or left temporarily on the property of another. The governing body of every county, city, and town may by ordinance set limits on fees and charges provided for in this section.

**§ 46.2-1232. Localities may regulate removal or immobilization of trespassing vehicles.**

A. The governing body of any county, city, or town may by ordinance regulate the removal of trespassing vehicles from property by or at the direction of the owner, operator, lessee, or authorized agent in charge of the property. In the event that a vehicle is towed from one locality and stored in or released from a location in another locality, the local ordinance, if any, of the locality from which the vehicle was towed shall apply.

B. No local ordinance adopted under authority of this section shall require that any towing and recovery business also operate as or provide services as a vehicle repair facility or body shop, filling station, or any business other than a towing and recovery business.

C. Any such local ordinance may also require towing and recovery operators to (i) obtain and retain photographs or other documentary evidence substantiating the reason for the removal; (ii) post signs at their main place of business and at any other location where towed vehicles may be reclaimed conspicuously indicating (a) the maximum charges allowed by local ordinance, if any, for all their fees for towing, recovery, and storage services and (b) the name and business telephone number of the local official, if any, responsible for handling consumer complaints; (iii) obtain at the time the vehicle is towed, verbal approval of an agent designated in the local ordinance who is available at all times; and (iv) obtain, at the time the vehicle is towed, if such towing is performed during the normal business hours of the owner of the property from which the vehicle is being towed, the written authorization of the owner of the property from which the vehicle is towed, or his agent. Such written authorization, if required, shall be in addition to any written contract between the towing and recovery operator and the owner of the property or his agent, *except for vehicles being towed from a locality within Planning District 8, which shall not require written authorization if such written contract is in place. Any such written contract governing a property located within Planning District 8 shall clearly state the terms on which towing and recovery operators may monitor private lots on behalf of property owners.* For the purposes of this subsection, "agent" shall not include any person who either (a) is related by blood or marriage to the towing and recovery operator or (b) has a financial interest in the towing and recovery operator's business.

D. Any such ordinance adopted by a locality within Planning District 8 may require towing companies that tow vehicles from the county, city, or town adopting the ordinance to other localities, provided that the stored or released location is within the Commonwealth of Virginia and within 10 miles of the point of origin of the actual towing, (i) to obtain from the locality from which such vehicles are towed a permit to do so and (ii) to submit to an inspection of such towing company's facilities to ensure that the company meets all the locality's requirements, regardless of whether such facilities are located within the locality or elsewhere. The locality may impose and collect reasonable fees for the issuance and administration of permits as provided for in this subsection. Such ordinance may also provide grounds for revocation, suspension, or modification of any permit issued under this subsection, subject to notice to the permittee of the revocation, suspension, or modification and an opportunity for the permittee to have a hearing before the governing body of the locality or its designated agent to challenge the revocation, suspension, or modification. *Any tow truck driver who removes or tows a vehicle, pursuant to any such ordinance, that is occupied by an unattended companion animal as defined in § 3.2-6500 shall, upon such removal, immediately notify the animal control office of the locality in which the vehicle is being removed or towed.* Nothing in this subsection shall be applicable to public safety towing.

**§ 46.2-1233.2. Advisory board.**

Prior to adopting or amending any ordinance pursuant to § 46.2-1232 or § 46.2-1233, the local governing body shall appoint an advisory board to advise the governing body with regard to the appropriate provisions of the ordinance. ~~Voting members~~ ~~Members~~ Members of the advisory board shall *only* consist of an equal number of representatives of local law-enforcement agencies and representatives of licensed towing and recovery operators, and one member of the general public. Any such advisory board shall meet at least once per year at the call of the chairman of the advisory board, who shall be elected annually from among the ~~voting~~ members of the advisory board by a majority vote. *The chairmanship of any such advisory board for any locality within Planning District 8 shall be for a term of one year and rotate annually between a representative of a local law-enforcement agency, a representative of a licensed towing and recovery operator, and one member of the general public.*

**§ 46.2-1233.3. Improper towing; penalty.**

A. *This section shall apply only to tow truck drivers and towing and recovery operators removing a vehicle without the consent of its owner from a location in Planning District 8.*

B. *In addition to any action brought pursuant to subsection B of § 46.2-119, any tow truck driver who violates subsection A of § 46.2-118 or § 46.2-1217, 46.2-1231, or 46.2-1233.1, or any ordinance adopted therefrom, or any ordinance adopted pursuant to § 46.2-1233, or any towing or recovery operator who violates subsection B of § 46.2-118 or § 46.2-1217, 46.2-1231, or 46.2-1233.1, or any ordinance adopted therefrom, or any ordinance adopted pursuant to*

§ 46.2-1233, is subject to a civil penalty of \$150 per violation. Such penalty shall be collected by the Office of the Attorney General, and the proceeds shall be deposited into the Literary Fund.

### CHAPTER 833

*An Act to amend and reenact § 58.1-3833 of the Code of Virginia, relating to county food and beverage tax; referendum.*

[S 1296]

Approved April 26, 2017

**Be it enacted by the General Assembly of Virginia:**

**1. That § 58.1-3833 of the Code of Virginia is amended and reenacted as follows:**

**§ 58.1-3833. County food and beverage tax.**

A. Any county is hereby authorized to levy a tax on food and beverages sold, for human consumption, by a restaurant, as such term is defined in subdivision 9 of § 35.1-1, not to exceed four percent of the amount charged for such food and beverages. Such tax shall not be levied on food and beverages sold through vending machines or by (i) boardinghouses that do not accommodate transients; (ii) cafeterias operated by industrial plants for employees only; (iii) restaurants to their employees as part of their compensation when no charge is made to the employee; (iv) volunteer fire departments and volunteer emergency medical services agencies; nonprofit churches or other religious bodies; or educational, charitable, fraternal, or benevolent organizations the first three times per calendar year and, beginning with the fourth time, on the first \$100,000 of gross receipts per calendar year from sales of food and beverages (excluding gross receipts from the first three times), as a fundraising activity, the gross proceeds of which are to be used by such church, religious body or organization exclusively for nonprofit educational, charitable, benevolent, or religious purposes; (v) churches that serve meals for their members as a regular part of their religious observances; (vi) public or private elementary or secondary schools, colleges, and universities to their students or employees; (vii) hospitals, medical clinics, convalescent homes, nursing homes, or other extended care facilities to patients or residents thereof; (viii) day care centers; (ix) homes for the aged, infirm, handicapped, battered women, narcotic addicts, or alcoholics; or (x) age-restricted apartment complexes or residences with restaurants, not open to the public, where meals are served and fees are charged for such food and beverages and are included in rental fees. Also, the tax shall not be levied on food and beverages: (a) when used or consumed and paid for by the Commonwealth, any political subdivision of the Commonwealth, or the United States; or (b) provided by a public or private nonprofit charitable organization or establishment to elderly, infirm, blind, handicapped, or needy persons in their homes, or at central locations; or (c) provided by private establishments that contract with the appropriate agency of the Commonwealth to offer food, food products, or beverages for immediate consumption at concession prices to elderly, infirm, blind, handicapped, or needy persons in their homes or at central locations.

Grocery stores and convenience stores selling prepared foods ready for human consumption at a delicatessen counter shall be subject to the tax, for that portion of the grocery store or convenience store selling such items.

This tax shall be levied only if the tax is approved in a referendum within the county which shall be held in accordance with § 24.2-684 and initiated either by a resolution of the board of supervisors or on the filing of a petition signed by a number of registered voters of the county equal in number to 10 percent of the number of voters registered in the county, as appropriate on January 1 of the year in which the petition is filed with the court of such county. *However, no referendum initiated by a resolution of the board of supervisors shall be authorized in a county in the three calendar years subsequent to*

*the electoral defeat of any referendum held pursuant to this section in such county.* The clerk of the circuit court shall publish notice of the election in a newspaper of general circulation in the county once a week for three consecutive weeks prior to the election. If the voters affirm the levy of a local meals tax, the tax shall be effective in an amount and on such terms as the governing body may by ordinance prescribe. If such resolution of the board of supervisors or such petition states for what projects and/or purposes the revenues collected from the tax are to be used, then the question on the ballot for the referendum shall include language stating for what projects and/or purposes the revenues collected from the tax are to be used.

*Any referendum held for the purpose of approving a county food and beverage tax pursuant to this section shall, in the language of the ballot question presented to voters, contain the following text in a paragraph unto itself: "If this food and beverage tax is adopted and a maximum tax rate of four percent is imposed, then the total tax imposed on all prepared food and beverage shall be ..." followed by the total, expressed as a percentage, of all existing ad valorem taxes applicable to the transaction added to the four percent county food and beverage tax to be approved by the referendum.*

The term "beverage" as set forth herein shall mean alcoholic beverages as defined in § 4.1-100 and nonalcoholic beverages served as part of a meal. The tax shall be in addition to the sales tax currently imposed by the county pursuant to the authority of Chapter 6 (§ 58.1-600 et seq.) of this title. Collection of such tax shall be in a manner prescribed by the governing body.

B. Notwithstanding the provisions of subsection A of this section, Roanoke County, Rockbridge County, Frederick County, Arlington County, and Montgomery County, are hereby authorized to levy a tax on food and beverages sold for human consumption by a restaurant, as such term is defined in § 35.1-1 and as modified in subsection A above and subject to the same exemptions, not to exceed four percent of the amount charged for such food and beverages, provided that the governing body of the respective county holds a public hearing before adopting a local food and beverage tax, and the governing body by unanimous vote adopts such tax by local ordinance. The tax shall be effective in an amount and on such terms as the governing body may by ordinance prescribe.

C. Nothing herein contained shall affect any authority heretofore granted to any county, city or town to levy a meals tax. The county tax limitations imposed pursuant to § 58.1-3711 shall apply to any tax levied under this section, mutatis mutandis. All food and beverage tax collections and all meals tax collections shall be deemed to be held in trust for the county, city or town imposing the applicable tax. The wrongful and fraudulent use of such collections other than remittance of the same as provided by law shall constitute embezzlement pursuant to § 18.2-111.

D. No county which has heretofore adopted an ordinance pursuant to subsection A of this section shall be required to submit an amendment to its meals tax ordinance to the voters in a referendum.

E. Notwithstanding any other provision of this section, no locality shall levy any tax under this section upon (i) that portion of the amount paid by the purchaser as a discretionary gratuity in addition to the sales price; (ii) that portion of the amount paid by the purchaser as a mandatory gratuity or service charge added by the restaurant in addition to the sales price, but only to the extent that such mandatory gratuity or service charge does not exceed 20% of the sales price; or (iii) alcoholic beverages sold in factory sealed containers and purchased for off-premises consumption or food purchased for human consumption as "food" is defined in the Food Stamp Act of 1977, 7 U.S.C. § 2012, as amended, and federal regulations adopted pursuant to that act, except for the following items: sandwiches, salad bar items sold from a salad bar, prepackaged single-serving salads consisting primarily of an assortment of vegetables, and nonfactory sealed beverages.

**§ 15.2-6709. Authority of localities.**

*Localities are hereby authorized to lend or donate money or other property or services to the Authority for any of its purposes. The locality making the grant or loan may restrict the use of such grants or loans to a specific project, within or outside that locality.*

**§ 15.2-6710. Assignment of liability.**

*Notwithstanding the provisions of § 46.2-2099.42, no private excursion train operator that has entered into a public-private partnership contract with the Authority pursuant to the Public-Private Educational Facilities and Infrastructure Act of 2002 (§ 56-575.1 et seq.) shall be liable upon a claim of personal injury or wrongful death arising from the operation of an excursion train, including operations, maintenance, or signalization of the tracks or facilities upon which the excursion train operates, except in the case of the gross negligence or intentional act of the private excursion train operator. **§ 15.2-2316.4. Zoning; small cell facilities.**

A. A locality shall not require that a special exception, special use permit, or variance be obtained for any small cell facility installed by a wireless services provider or wireless infrastructure provider on an existing structure, provided that the wireless services provider or wireless infrastructure provider (i) has permission from the owner of the structure to co-locate equipment on that structure and (ii) notifies the locality in which the permitting process occurs.

B. Localities may require administrative review for the issuance of any required zoning permits for the installation of a small cell facility by a wireless services provider or wireless infrastructure provider on an existing structure. Localities shall permit an applicant to submit up to 35 permit requests on a single application. In addition:

1. A locality shall approve or disapprove the application within 60 days of receipt of the complete application. Within 10 days after receipt of an application and a valid electronic mail address for the applicant, the locality shall notify the applicant by electronic mail whether the application is incomplete and specify any missing information; otherwise, the application shall be deemed complete. Any disapproval of the application shall be in writing and accompanied by an explanation for the disapproval. The 60-day period may be extended by the locality in writing for a period not to exceed an additional 30 days. The application shall be deemed approved if the locality fails to act within the initial 60 days or an extended 30-day period.

2. A locality may prescribe and charge a reasonable fee for processing the application not to exceed:

a. \$100 each for up to five small cell facilities on a permit application; and

b. \$50 for each additional small cell facility on a permit application.

3. Approval for a permit shall not be unreasonably conditioned, withheld, or delayed.

4. The locality may disapprove a proposed location or installation of a small cell facility only for the following reasons:

a. Material potential interference with other pre-existing communications facilities or with future communications facilities that have already been designed and planned for a specific location or that have been reserved for future public safety communications facilities;

b. The public safety or other critical public service needs;

c. Only in the case of an installation on or in publicly owned or publicly controlled property, excluding privately owned structures where the applicant has an agreement for attachment to the structure, aesthetic impact or the absence of all required approvals from all departments, authorities, and agencies with jurisdiction over such property; or

d. Conflict with an applicable local ordinance adopted pursuant to § 15.2-2306, or pursuant to local charter on a historic property that is not eligible for the review process established under 54 U.S.C. § 306108.

5. Nothing shall prohibit an applicant from voluntarily submitting, and the locality from accepting, any conditions that otherwise address potential visual or aesthetic effects resulting from the placement of small cell facilities.

6. Nothing in this section shall preclude a locality from adopting reasonable rules with respect to the removal of abandoned wireless support structures or wireless facilities.

C. Notwithstanding anything to the contrary in this section, the installation, placement, maintenance, or replacement of micro-wireless facilities that are suspended on cables or lines that are strung between existing utility poles in compliance with national safety codes shall be exempt from locality-imposed permitting requirements and fees.

**§ 15.2-2316.5. Moratorium prohibited.**

A locality shall not adopt a moratorium on considering zoning applications submitted by wireless services providers or wireless infrastructure providers.

CHAPTER 15.1.

WIRELESS COMMUNICATIONS INFRASTRUCTURE.

**§ 56-484.26. Definitions.**

As used in this chapter, unless the context requires a different meaning:

"Antenna" means communications equipment that transmits or receives electromagnetic radio signals used in the provision of any type of wireless communications services.

"Co-locate" means to install, mount, maintain, modify, operate, or replace a wireless facility on, under, within, or adjacent to a base station, building, existing structure, utility pole, or wireless support structure. "Co-location" has a corresponding meaning.

"Department" means the Department of Transportation.

"Districtwide permit" means a permit granted by the Department to a wireless services provider or wireless infrastructure provider that allows the permittee to use the rights-of-way under the Department's jurisdiction to install or maintain small cell facilities on existing structures in one of the Commonwealth's nine construction districts. A districtwide permit allows the permittee to perform multiple occurrences of activities necessary to install or maintain small cell facilities on non-limited access right-of-way without obtaining a single use permit for each occurrence. The central office permit manager shall be responsible for the issuance of all districtwide permits. The Department may authorize districtwide permits covering multiple districts.

"Existing structure" means any structure that is installed or approved for installation at the time a wireless services provider or wireless infrastructure provider provides notice to a locality or the Department of an agreement with the owner

of the structure to co-locate equipment on that structure. "Existing structure" includes any structure that is currently supporting, designed to support, or capable of supporting the attachment of wireless facilities, including towers, buildings, utility poles, light poles, flag poles, signs, and water towers.

"Micro-wireless facility" means a small cell facility that is not larger in dimension than 24 inches in length, 15 inches in width, and 12 inches in height and that has an exterior antenna, if any, not longer than 11 inches.

"Small cell facility" means a wireless facility that meets both of the following qualifications: (i) each antenna is located inside an enclosure of no more than six cubic feet in volume, or, in the case of an antenna that has exposed elements, the antenna and all of its exposed elements could fit within an imaginary enclosure of no more than six cubic feet and (ii) all other wireless equipment associated with the facility has a cumulative volume of no more than 28 cubic feet, or such higher limit as is established by the Federal Communications Commission. The following types of associated equipment are not included in the calculation of equipment volume: electric meter, concealment, telecommunications demarcation boxes, ground-based enclosures, back-up power systems, grounding equipment, power transfer switches, cut-off switches, and vertical cable runs for the connection of power and other services.

"Utility pole" means a structure owned, operated, or owned and operated by a public utility, local government, or the Commonwealth that is designed specifically for and used to carry lines, cables, or wires for communications, cable television, or electricity.

"Water tower" means a water storage tank, or a standpipe or an elevated tank situated on a support structure, originally constructed for use as a reservoir or facility to store or deliver water.

"Wireless facility" means equipment at a fixed location that enables wireless services between user equipment and a communications network, including (i) equipment associated with wireless services, such as private, broadcast, and public safety services, as well as unlicensed wireless services and fixed wireless services, such as microwave backhaul, and (ii) radio transceivers, antennas, coaxial, or fiber-optic cable, regular and backup power supplies, and comparable equipment, regardless of technological configuration.

"Wireless infrastructure provider" means any person, including a person authorized to provide telecommunications service in the state, that builds or installs transmission equipment, wireless facilities, or wireless support structures, but that is not a wireless services provider.

"Wireless services" means (i) "personal wireless services" as defined in 47 U.S.C. § 332(c)(7)(C)(i); (ii) "personal wireless service facilities" as defined in 47 U.S.C. § 332(c)(7)(C)(ii), including commercial mobile services as defined in 47 U.S.C. § 332(d), provided to personal mobile communication devices through wireless facilities; and (iii) any other fixed or mobile wireless service, using licensed or unlicensed spectrum, provided using wireless facilities.

"Wireless services provider" means a provider of wireless services.

"Wireless support structure" means a freestanding structure, such as a monopole, tower, either guyed or self-supporting, or suitable existing structure or alternative structure designed to support or capable of supporting wireless facilities. "Wireless support structure" does not include any telephone or electrical utility pole or any tower used for the distribution or transmission of electrical service.

**§ 56-484.27. Access to the public rights-of-way by wireless services providers and wireless infrastructure providers; generally.**

A. No locality or the Department shall impose on wireless services providers or wireless infrastructure providers any restrictions or requirements concerning the use of the public rights-of-way, including the permitting process, the zoning process, notice, time and location of excavations and repair work, enforcement of the statewide building code, and inspections, that are unfair, unreasonable, or discriminatory.

B. No locality or the Department shall require a wireless services provider or wireless infrastructure provider to provide in-kind services or physical assets as a condition of consent to use public rights-of-way or easements. This shall not limit the ability of localities, their authorities or commissions that provide utility services, or the Department to enter into voluntary pole attachment, tower occupancy, conduit occupancy, or conduit construction agreements with wireless services providers or wireless infrastructure providers.

C. No locality or the Department shall adopt a moratorium on considering requests for access to the public rights-of-way from wireless services providers or wireless infrastructure providers.

**§ 56-484.28. Access to public rights-of-way operated and maintained by the Department for the installation and maintenance of small cell facilities on existing structures.**

A. Upon application by a wireless services provider or wireless infrastructure provider, the Department shall issue a districtwide permit, consistent with applicable regulations that do not conflict with this chapter, granting access to public rights-of-way that it operates and maintains to install and maintain small cell facilities on existing structures in the rights-of-way. The application shall include a copy of the agreement under which the applicant has permission from the owner of the structure to the co-location of equipment on that structure. If the application is received on or after September 1, 2017, (i) the Department shall issue the districtwide permit within 30 days after receipt of the application and (ii) the districtwide permit shall be deemed granted if not issued within 30 days after receipt of the complete application. Within 10 days after receipt of an application and a valid electronic mail address for the applicant, the Department shall notify the applicant by electronic mail whether the application is incomplete and specify any missing information; otherwise, the application shall be deemed complete. A districtwide permit issued for the original installation shall allow the permittee to repair, replace, or perform routine maintenance operations to small cell facilities once installed.

B. The Department may require a separate single use permit to allow a wireless services provider or wireless infrastructure provider to install and maintain small cell facilities on an existing structure when such activity requires (i) working within the highway travel lane or requiring closure of a highway travel lane; (ii) disturbing the pavement, shoulder, roadway, or ditch line; (iii) placement on limited access rights-of-way; or (iv) any specific precautions to ensure the safety of the traveling public or the protection of public infrastructure or the operation thereof. Upon application by a wireless services provider or wireless infrastructure provider, the Department may issue a single use permit granting access to install and maintain small cell facilities in such circumstances. If the application is received on or after September 1, 2017, (a) the Department shall approve or disapprove the application within 60 days after receipt of the application, which 60-day period may be extended by the Department in writing for a period not to exceed an additional 30 days and (b) the application shall be deemed approved if the Department fails to approve or disapprove the application within the initial 60 days and any extension thereof. Any disapproval of an application for a single use permit shall be in writing and accompanied by an explanation of the reasons for the disapproval.

C. The Department shall not impose any fee for the use of the right-of-way on a wireless services provider or wireless infrastructure provider to attach or co-locate small cell facilities on an existing structure in the right-of-way. However, the Department may prescribe and charge a reasonable fee not to exceed \$750 for processing an application for a districtwide permit or \$150 for processing an application for a single use permit.

D. The Department shall not impose any fee or require a permit for the installation, placement, maintenance, or replacement of micro-wireless facilities that are suspended on cables or lines that are strung between existing utility poles in compliance with national safety codes. However, the Department may require a single use permit if such activities (i) involve working within the highway travel lane or require closure of a highway travel lane; (ii) disturb the pavement, shoulder, roadway, or ditch line; (iii) include placement on limited access rights-of-way; or (iv) require any specific precautions to ensure the safety of the traveling public or the protection of public infrastructure or the operation thereof, and either were not authorized in or will be conducted in a time, place, or manner that is inconsistent with terms of the existing permit for that facility or the structure upon which it is attached.

**§ 56-484.29. Access to locality rights-of-way for installation and maintenance of small cell facilities on existing structures.**

A. Upon application by a wireless services provider or wireless infrastructure provider, a locality may issue a permit granting access to the public rights-of-way it operates and maintains to install and maintain small cell facilities on existing structures. Such a permit shall grant access to all rights-of-way in the locality for the purpose of installing small cell facilities on existing structures, provided that the wireless services provider or wireless infrastructure provider (i) has permission from the owner of the structure to co-locate equipment on that structure and (ii) provides notice of the agreement and co-location to the locality. The locality shall approve or disapprove any such requested permit within 60 days of receipt of the complete application. Within 10 days after receipt of an application and a valid electronic mail address for the applicant, the locality shall notify the applicant by electronic mail whether the application is incomplete and specify any missing information; otherwise, the application shall be deemed complete. Any disapproval shall be in writing and accompanied by an explanation for the disapproval. The 60-day period may be extended by the locality in writing for a period not to exceed an additional 30 days. The permit request shall be deemed approved if the locality fails to act within the initial 60 days or an extended 30-day period. No such permit shall be required for providers of telecommunications services and nonpublic providers of cable television, electric, natural gas, water, and sanitary sewer services that, as of July 1, 2017, already have facilities lawfully occupying the public rights-of-way under the locality's jurisdiction.

B. Localities shall not impose any fee for the use of the rights-of-way, except for zoning, subdivision, site plan, and comprehensive plan fees of general application, on a wireless services provider or wireless infrastructure provider to attach or co-locate small cell facilities on an existing structure in the right-of-way. However, a locality may prescribe and charge a reasonable fee not to exceed \$250 for processing a permit application under subsection A.

C. Localities shall not impose any fee or require any application or permit for the installation, placement, maintenance, or replacement of micro-wireless facilities that are suspended on cables or lines that are strung between existing utility poles in compliance with national safety codes. However, the locality may require a single use permit if such activities (i) involve working within the highway travel lane or require closure of a highway travel lane; (ii) disturb the pavement, shoulder, roadway, or ditch line; (iii) include placement on limited access rights-of-way; or (iv) require any specific precautions to ensure the safety of the traveling public or the protection of public infrastructure or the operation thereof, and either were not authorized in or will be conducted in a time, place, or manner that is inconsistent with terms of the existing permit for that facility or the structure upon which it is attached.

**§ 56-484.30. Agreements for use of public right-of-way to construct new wireless support structures; relocation of wireless support structures.**

Subject to any applicable requirements of Article VII, Section 9 of the Constitution of Virginia, public right-of-way permits or agreements for the construction of wireless support structures issued on or after July 1, 2017, shall be for an initial term of at least 10 years, with at least three options for renewal for terms of five years, subject to terms providing for earlier termination for cause or by mutual agreement. Nothing herein is intended to prohibit the Department or localities from requiring permittees to relocate wireless support structures when relocation is necessary due to a transportation project, the need to remove a hazard from the right-of-way when the Commissioner of Highways determines such removal is necessary to ensure the safety of the traveling public, or material change to the right-of-way, so long as other users of the

*right-of-way that are in similar conflict with the use of the right-of-way are required to relocate. Such relocation shall be completed as soon as reasonably possible within the time set forth in any written request by the Department or a locality for such relocation, as long as the Department or a locality provides the permittee with a minimum of 180 days' advance written notice to comply with such relocation, unless circumstances beyond the control of the Department or the locality require a shorter period of advance notice. The permittee shall bear only the proportional cost of the relocation that is caused by the transportation project and shall not bear any cost related to private benefit or where the permittee was on private right-of-way. If the locality or the Department bears any of the cost of the relocation, the permittee shall not be obligated to commence the relocation until it receives the funds for such relocation. The permittee shall have no liability for any delays caused by a failure to receive funds for the cost of such relocation, and the Department or a locality shall have no obligation to collect such funds. If relocation is deemed necessary, the Department or locality shall work cooperatively with the permittee to minimize any negative impact to the wireless signal caused by the relocation. There may be emergencies when relocation is required to commence in an expedited manner, and in such situations the permittee and the locality or Department shall work diligently to accomplish such emergency relocation.*

**§ 56-484.31. Attachment of small cell facilities on government-owned structures.**

*A. If the Commonwealth or a locality agrees to permit a wireless services provider or a wireless infrastructure provider to attach small cell facilities to government-owned structures, both the government entity and the wireless services or wireless infrastructure provider shall negotiate in good faith to arrive at a mutually agreeable contract terms and conditions.*

*B. The rates, terms, and conditions for such agreement shall be just and reasonable, cost-based, nondiscriminatory, and competitively neutral, and shall comply with all applicable state and federal laws. However, rates for attachments to government-owned buildings may be based on fair market value.*

*C. For utility poles owned by a locality or the Commonwealth that support aerial cables used for video, communications, or electric service, the parties shall comply with the process for make-ready work under 47 U.S.C. § 224 and implementing regulations. The good faith estimate of the government entity owning or controlling the utility pole for any make-ready work necessary to enable the utility pole to support the requested co-location shall include pole replacement if necessary.*

*D. For utility poles owned by a locality or the Commonwealth that do not support aerial cables used for video, communications, or electric service, the government entity owning or controlling the utility pole shall provide a good faith estimate for any make-ready work necessary to enable the utility pole to support the requested co-location, including pole replacement, if necessary, within 60 days after receipt of a complete application. Make-ready work, including any pole replacement, shall be completed within 60 days of written acceptance of the good faith estimate by the wireless services provider or a wireless infrastructure provider.*

*E. The government entity owning or controlling the utility pole shall not require more make-ready work than required to meet applicable codes or industry standards. Charges for make-ready work, including any pole replacement, shall not exceed actual costs or the amount charged to other wireless services providers, providers of telecommunications services, and nonpublic providers of cable television and electric services for similar work and shall not include consultants' fees or expenses.*

*F. The annual recurring rate to co-locate a small cell facility on a government-owned utility pole shall not exceed the actual, direct, and reasonable costs related to the wireless services provider's or wireless infrastructure provider's use of space on the utility pole. In any controversy concerning the appropriateness of the rate, the government entity owning or controlling the utility pole shall have the burden of proving that the rates are reasonably related to the actual, direct, and reasonable costs incurred for use of space on the utility pole for such period.*

*G. This section shall not apply to utility poles, structures, or property of an electric utility owned or operated by a municipality or other political subdivision.*
