**CHAPTER 226**

*An Act to amend and reenact §§ 55-509.4, 55-509.6, and 55-509.7 of the Code of Virginia, relating to common interest communities; disclosure packets.*

[H 1031]

Approved March 9, 2018

**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 55-509.4, 55-509.6, and 55-509.7 of the Code of Virginia are amended and reenacted as follows:**

**§ 55-509.4. Contract disclosure statement; right of cancellation; use of for sale sign in connection with resale; designation of authorized representative.**

A. Subject to the provisions of subsection A of § 55-509.10, an owner selling a lot shall disclose in the contract that (i) the lot is located within a development that is subject to the Virginia Property Owners' Association Act (§ 55-508 et seq.); (ii) the Act requires the seller to obtain from the property owners' association an association disclosure packet and provide it to the purchaser; (iii) the purchaser may cancel the contract within three days after receiving the association disclosure packet or being notified that the association disclosure packet will not be available; (iv) if the purchaser has received the association disclosure packet, the purchaser has a right to request an update of such disclosure packet in accordance with subsection H of § 55-509.6 or subsection ~~C~~ D of § 55-509.7, as appropriate; and (v) the right to receive the association disclosure packet and the right to cancel the contract are waived conclusively if not exercised before settlement.

For purposes of clause (iii), the association disclosure packet shall be deemed not to be available if (a) a current annual report has not been filed by the association with either the State Corporation Commission pursuant to § 13.1-936 or with the Common Interest Community Board pursuant to § 55-516.1, (b) the seller has made a written request to the association that the packet be provided and no such packet has been received within 14 days in accordance with subsection A of § 55-509.5, or (c) written notice has been provided by the association that a packet is not available.

B. If the contract does not contain the disclosure required by subsection A, the purchaser's sole remedy is to cancel the contract prior to settlement.

C. The information contained in the association disclosure packet shall be current as of a date specified on the association disclosure packet prepared in accordance with this section; however, a disclosure packet update or financial update may be requested in accordance with subsection G of § 55-509.6 or subsection *D* of § 55-509.7, as appropriate. The purchaser may cancel the contract: (i) within three days after the date of the contract, if on or before the date that the purchaser signs the contract, the purchaser receives the association disclosure packet or is notified that the association disclosure packet will not be available; (ii) within three days after receiving the association disclosure packet if the association disclosure packet or notice that the association disclosure packet will not be available is hand delivered, delivered by electronic means, or delivered by a commercial overnight delivery service or the United States Postal Service, and a receipt obtained; or (iii) within six days after the postmark date if the association disclosure packet or notice that the association disclosure packet will not be available is sent to the purchaser by United States mail. The purchaser may also cancel the contract at any time prior to settlement if the purchaser has not been notified that the association disclosure packet will not be available and the association disclosure packet is not delivered to the purchaser.

Notice of cancellation shall be provided to the lot owner or his agent by one of the following methods:

1. Hand delivery;
2. United States mail, postage prepaid, provided the sender retains sufficient proof of mailing, which may be either a United States postal certificate of mailing or a certificate of service prepared by the sender confirming such mailing;
3. Electronic means provided the sender retains sufficient proof of the electronic delivery, which may be an electronic receipt of delivery, a confirmation that the notice was sent by facsimile, or a certificate of service prepared by the sender confirming the electronic delivery; or
4. Overnight delivery using a commercial service or the United States Postal Service.

In the event of a dispute, the sender shall have the burden to demonstrate delivery of the notice of cancellation. Such cancellation shall be without penalty, and the seller shall cause any deposit to be returned promptly to the purchaser.

D. Whenever any contract is canceled based on a failure to comply with subsection A or C or pursuant to subsection B, any deposit or escrowed funds shall be returned within 30 days of the cancellation, unless the parties to the contract specify in writing a shorter period.

E. Any rights of the purchaser to cancel the contract provided by this chapter are waived conclusively if not exercised prior to settlement.

F. Except as expressly provided in this chapter, the provisions of this section and § 55-509.5 may not be varied by agreement, and the rights conferred by this section and § 55-509.5 may not be waived.

G. For purposes of this chapter:

"Delivery" means that the disclosure packet is delivered to the purchaser or purchaser's authorized agent by one of the methods specified in this section.

"Purchaser's authorized agent" means any person designated by such purchaser in a ratified real estate contract for purchase and sale of residential real property or other writing designating such agent.

"Receives, received, or receiving" the disclosure packet means that the purchaser or purchaser's authorized agent has received the disclosure packet by one of the methods specified in this section.

"Seller's authorized agent" means a person designated by such seller in a ratified real estate contract for purchase and sale of residential real property or other writing designating such agent.

H. Unless otherwise provided in the ratified real estate contract or other writing, delivery to the purchaser's authorized agent shall require delivery to such agent and not to a person other than such agent. Delivery of the disclosure packet may be made by the lot owner or the lot owner's authorized agent.

I. If the lot is governed by more than one association, the purchaser's right of cancellation may be exercised within the required time frames following delivery of the last disclosure packet or resale certificate.

J. Except as expressly authorized in this chapter or in the declaration or as otherwise provided by law, no property owners' association shall:

1. Require the use of any for sale sign that is (i) an association sign or (ii) a real estate sign that does not comply with the requirements of the Real Estate Board. An association may, however, prohibit the placement of signs in the common area and establish reasonable rules and regulations that regulate (a) the number of real estate signs to be located on real property upon which the owner has a separate ownership interest or a right of exclusive possession so long as at least one real estate sign is permitted; (b) the geographical location of real estate signs on real property in which the owner has a separate ownership interest or a right of exclusive possession, so long as the location of the real estate signs complies with the requirements of the Real Estate Board; (c) the manner in which real estate signs are affixed to real property; and (d) the period of time after settlement when the real estate signs on such real property shall be removed; or

2. Require any lot owner to execute a formal power of attorney if the lot owner designates a person licensed under the provisions of § 54.1-2106.1 as the lot owner's authorized representative, and the association shall recognize such representation without a formal power of attorney, provided that the association is given a written authorization signed by the lot owner designating such representative. Notwithstanding the foregoing, the requirements of § 13.1-849 of the Virginia Nonstock Corporation Act (§ 13.1-801 et seq.) and the association's declaration, bylaws, and articles of incorporation shall be satisfied before any such representative may exercise a vote on behalf of a lot owner as a proxy.

**§ 55-509.6. Fees for disclosure packet; professionally managed associations.**

A. A professionally managed association or its common interest community manager may charge certain fees as authorized by this section for the inspection of the property, the preparation and issuance of the disclosure packet required by § 55-509.5, and for such other services as set out in this section. The seller or the seller's authorized agent shall specify in writing whether the disclosure packet shall be delivered electronically or in hard copy, at the option of the seller or the seller's authorized agent, and shall specify the complete contact information for the parties to whom the disclosure packet shall be delivered.

B. A reasonable fee may be charged by the preparer as follows for:

1. The inspection of the exterior of the dwelling unit and the lot, as authorized in the declaration and as required to prepare the association disclosure packet, a fee not to exceed \$100;

2. The preparation and delivery of the disclosure packet in (i) paper format, a fee not to exceed \$150 for no more than two hard copies or (ii) electronic format, a fee not to exceed a total of \$125 for an electronic copy to each of the following named in the request: the seller, the seller's authorized agent, the purchaser, the purchaser's authorized agent, and not more than one other person designated by the requester. The preparer of the disclosure packet shall provide the disclosure packet directly to the designated persons. Only one fee shall be charged for the preparation and delivery of the disclosure packet;

3. At the option of the seller or the seller's authorized agent, with the consent of the association or the common interest community manager, expediting the inspection, preparation and delivery of the disclosure packet, an additional expedite fee not to exceed \$50;

4. At the option of the seller or the seller's authorized agent, an additional hard copy of the disclosure packet, a fee not to exceed \$25 per hard copy;

5. At the option of the seller or the seller's authorized agent, a fee not to exceed an amount equal to the actual cost paid to a third-party commercial delivery service for hand delivery or overnight delivery of the association disclosure packet; and

6. A post-closing fee to the purchaser of the property, collected at settlement, for the purpose of establishing the purchaser as the owner of the property in the records of the association, a fee not to exceed \$50.

Except as otherwise provided in subsection E, neither the association nor its common interest community manager shall require cash, check, certified funds or credit card payments at the time the request for the disclosure packet is made. The disclosure packet shall state that all fees and costs for the disclosure packet shall be the personal obligation of the lot owner and shall be an assessment against the lot and collectible as any other assessment in accordance with the provisions of the declaration and § 55-516, if not paid at settlement or within 60 days of the delivery of the disclosure packet, whichever occurs first.

For purposes of this section, an expedite fee shall only be charged if the inspection and preparation of delivery of the disclosure packet are completed within five business days of the request for a disclosure packet.

C. No fees other than those specified in this section, and as limited by this section, shall be charged by the association or its common interest community manager for compliance with the duties and responsibilities of the association under this chapter. No additional fee shall be charged for access to the association's or common interest community manager's website. The association or its common interest community manager shall publish and make available in paper or electronic format, or both, a schedule of the applicable fees so the seller or the seller's authorized agent will know such fees at the time of requesting the packet.

D. Any fees charged pursuant to this section shall be collected at the time of settlement on the sale of the lot and shall be due and payable out of the settlement proceeds in accordance with this section. The settlement agent shall escrow a sum sufficient to pay such costs of the seller at settlement. The seller shall be responsible for all costs associated with the preparation and delivery of the association disclosure packet, except for the costs of any disclosure packet update or financial update, which costs shall be the responsibility of the requester, payable at settlement. Neither the association nor its common interest community manager shall require cash, check, certified funds, or credit card payments at the time of the request is made for the association disclosure packet.

E. If settlement does not occur within 60 days of the delivery of the disclosure packet, or funds are not collected at settlement and disbursed to the association or the common interest community manager, all fees, including those costs that would have otherwise been the responsibility of the purchaser or settlement agent, shall be (i) assessed within one year after delivery of the disclosure packet against the lot owner, (ii) the personal obligation of the lot owner, and (iii) an assessment against the lot and collectible as any other assessment in accordance with the provisions of the declaration and § 55-516. The seller may pay the association by cash, check, certified funds, or credit card, if credit card payment is an option offered by the association. The association shall pay the common interest community manager the amount due from the lot owner within 30 days after invoice.

F. The maximum allowable fees charged in accordance with this section shall adjust every five years, as of January 1 of that year, in an amount equal to the annual increases for that five-year period in the United States Average Consumer Price

Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the U.S. Department of Labor.

G. If an association disclosure packet has been issued for a lot within the preceding 12-month period, a person specified in the written instructions of the seller or the seller's authorized agent, including the seller or the seller's authorized agent, or the purchaser or his authorized agent may request a disclosure packet update. The requester shall specify whether the disclosure packet update shall be delivered electronically or in hard copy, and shall specify the complete contact information of the parties to whom the update shall be delivered. The disclosure packet update shall be delivered within 10 days of the written request.

H. The settlement agent may request a financial update. The requester shall specify whether the financial update shall be delivered electronically or in hard copy, and shall specify the complete contact information of the parties to whom the update shall be delivered. The financial update shall be delivered within three business days of the written request.

I. A reasonable fee for the disclosure packet update or financial update may be charged by the preparer not to exceed \$50. At the option of the purchaser or the purchaser's authorized agent, the requester may request that the association or the common interest community manager perform an additional inspection of the exterior of the dwelling unit and the lot, as authorized in the declaration, for a fee not to exceed \$100. Any fees charged for the specified update shall be collected at the time settlement occurs on the sale of the property. The settlement agent shall escrow a sum sufficient to pay such costs of the seller at settlement. Neither the association nor its common interest community manager, if any, shall require cash, check, certified funds, or credit card payments at the time the request is made for the disclosure packet update. The requester may request that the specified update be provided in hard copy or in electronic form.

J. No association or common interest community manager may require the requester to request the specified update electronically. The seller or the seller's authorized agent shall continue to have the right to request a hard copy of the specified update in person at the principal place of business of the association. If the requester asks that the specified update be provided in electronic format, neither the association nor its common interest community manager may require the requester to pay any fees to use the provider's electronic network or system. A copy of the specified update shall be provided to the seller or the seller's authorized agent.

K. When an association disclosure packet has been delivered as required by § 55-509.5, the association shall, as to the purchaser, be bound by the statements set forth therein as to the status of the assessment account and the status of the lot with respect to any violation of the declaration, bylaws, rules and regulations, architectural guidelines and articles of incorporation, if any, of the association as of the date of the statement unless the purchaser had actual knowledge that the contents of the disclosure packet were in error.

L. If the association or its common interest community manager has been requested in writing to furnish the association disclosure packet required by § 55-509.5, failure to provide the association disclosure packet substantially in the form provided in this section shall be deemed a waiver of any claim for delinquent assessments or of any violation of the declaration, bylaws, rules and regulations, or architectural guidelines existing as of the date of the request with respect to the subject lot. The preparer of the association disclosure packet shall be liable to the seller in an amount equal to the actual damages sustained by the seller in an amount not to exceed \$1,000. The purchaser shall nevertheless be obligated to abide by the declaration, bylaws, rules and regulations, and architectural guidelines of the association as to all matters arising after the date of the settlement of the sale.

M. The Common Interest Community Board may assess a monetary penalty for failure to deliver the association disclosure packet within 14 days against any (i) property owners' association pursuant to § 54.1-2351 or (ii) common interest community manager pursuant to § 54.1-2349 and regulations promulgated thereto, and may issue a cease and desist order pursuant to § 54.1-2349 or 54.1-2352, as applicable.

*N. No association may collect fees authorized by this section unless the association (i) is registered with the Common Interest Community Board, (ii) is current in filing the most recent annual report with the Common Interest Community Board, (iii) is current in paying the annual payment to the Common Interest Community Board pursuant to § 55-516.1 and any assessment made by the Common Interest Community Board pursuant to § 55-530.1, and (iv) provides the disclosure packet electronically if so requested by the requester.*

**§ 55-509.7. Fees for disclosure packets; associations not professionally managed.**

A. An association that is not professionally managed may charge a fee for the preparation and issuance of the association disclosure packet required by § 55-509.5. Any fee shall reflect the actual cost of the preparation of the association disclosure packet, but shall not exceed \$0.10 per page of copying costs or a total of \$100 for all costs incurred in preparing the association disclosure packet. The seller or his authorized agent shall specify whether the association disclosure packet shall be delivered electronically or in hard copy and shall specify the complete contact information of the parties to whom the disclosure packet shall be delivered. If the seller or his authorized agent specifies that delivery shall be made to the purchaser or his authorized agent, the preparer shall provide the disclosure packet directly to the designated persons, at the same time it is delivered to the seller or his authorized agent. The association shall advise the requestor if electronic delivery of the disclosure packet or the disclosure packet update or financial update is not available, if electronic delivery has been requested by the seller or his authorized agent.

*B. At the option of the seller or the seller's authorized agent, with the consent of the association, a reasonable fee may be charged for (i) expediting the inspection, preparation and delivery of the disclosure packet, if completed within five business days of the request, not to exceed \$50; (ii) an additional hard copy of the disclosure packet not to exceed \$25 per*

*hard copy; and (iii) third-party commercial delivery service for hand delivery or overnight delivery of the association disclosure packet not to exceed an amount equal to the actual cost paid.*

~~C.~~ No fees other than those specified in this section shall be charged by the association for compliance with ~~its~~ duties and responsibilities under this section. Any fees charged pursuant to this section shall be collected at the time of delivery of the disclosure packet. If unpaid, any such fees shall be an assessment against the lot and collectible as any other assessment in accordance with the provisions of the declaration and § 55-516. The seller may pay the association by cash, check, certified funds, or credit card, if credit card payment is an option offered by the association.

~~C.~~ ~~D.~~ If an association disclosure packet has been issued for a lot within the preceding 12-month period, a person specified in the written instructions of the seller or his authorized agent, including the seller or his authorized agent, or the purchaser or his authorized agent may request a disclosure packet update. The requestor shall specify whether the disclosure packet update shall be delivered electronically or in hard copy and shall specify the complete contact information of the parties to whom the specified update shall be delivered. The disclosure packet update shall be delivered within 10 days of the written request therefor.

~~D.~~ ~~E.~~ The settlement agent may request a financial update. The requestor shall specify whether the financial update shall be delivered electronically or in hard copy, and shall specify the complete contact information of the parties to whom the update shall be delivered. The financial update shall be delivered within three business days of the written request therefor.

~~E.~~ ~~F.~~ A reasonable fee for the disclosure packet update or a financial update may be charged by the preparer not to exceed \$50. At the option of the purchaser or his authorized agent, the requestor may request that the association perform an additional inspection of the exterior of the dwelling unit and the lot, as authorized in the declaration, for a fee not to exceed \$50. Any fees charged for the specified update shall be collected at the time of delivery of the update. The association shall not require cash, check, certified funds, or credit card payments at the time the request is made for the disclosure packet update. The requestor may request that the specified update be provided in hard copy or in electronic form.

~~F.~~ ~~G.~~ No association may require the requestor to request the specified update electronically. The seller or his authorized agent shall continue to have the right to request a hard copy of the specified update in person at the principal place of business of the association. If the requestor asks that the specified update be provided in electronic format, the association shall not require the requestor to pay any fees to use the provider's electronic network or system. If the requestor asks that the specified update be provided in electronic format, the requestor may designate no more than two additional recipients to receive the specified update in electronic format at no additional charge. A copy of the specified update shall be provided to the seller or his authorized agent.

~~G.~~ ~~H.~~ When a disclosure packet has been delivered as required by § 55-509.5, the association shall, as to the purchaser, be bound by the statements set forth therein as to the status of the assessment account and the status of the lot with respect to any violation of the declaration, bylaws, rules and regulations, architectural guidelines and articles of incorporation, if any, of the association as of the date of the statement unless the purchaser had actual knowledge that the contents of the disclosure packet were in error.

~~H.~~ ~~I.~~ If the association has been requested to furnish the association disclosure packet required by this section, failure to provide the association disclosure packet substantially in the form provided in this section shall be deemed a waiver of any claim for delinquent assessments or of any violation of the declaration, bylaws, rules and regulations, or architectural guidelines existing as of the date of the request with respect to the subject lot. The association shall be liable to the seller in an amount equal to the actual damages sustained by the seller in an amount not to exceed \$500. The purchaser shall nevertheless be obligated to abide by the declaration, bylaws, rules and regulations, and architectural guidelines of the association as to all matters arising after the date of the settlement of the sale.

*J. No association may collect fees authorized by this section unless the association (i) is registered with the Common Interest Community Board, (ii) is current in filing the most recent annual report with the Common Interest Community Board, and (iii) is current in paying the annual payment to the Common Interest Community Board pursuant to § 55-516.1 and any assessment made by the Common Interest Community Board pursuant to § 55-530.1.*

*K. An association that is not professionally managed may charge and collect fees for inspection of the property, the preparation and issuance of an association disclosure packet, and such other services as set out in § 55-509.6, provided that the association provides the disclosure packet electronically if so requested by the requestor and otherwise complies with § 55-509.6.*

Also, on the basis of such information, the Commission may assess the amount of tax due from such employer and shall give written notice of such determination and assessment to such employer. Such determination and assessment shall be final (i) unless such employer, within 30 days after the mailing to the employer at his last known address or other service of the notice of such determination or assessment, applies to the Commission for a review of such determination and assessment or (ii) unless the Commission, on its own motion, sets aside, reduces or increases the same.

**CHAPTER 228**

*An Act to amend and reenact § 44-146.19 of the Code of Virginia, relating to Virginia Department of Emergency Management; local sheltering data.*

[H 1367]

Approved March 9, 2018

**Be it enacted by the General Assembly of Virginia:**

B. Each political subdivision shall have a director of emergency management who, after the term of the person presently serving in this capacity has expired and in the absence of an executive order by the Governor, shall be the following:

3. A coordinator of emergency management shall be appointed by the council of any town to ensure integration of its organization into the county emergency management organization;
4. In the case of the Town of Chincoteague and of towns with a population in excess of 5,000 having an emergency management organization separate from that of the county, the mayor or town manager shall appoint a coordinator of emergency services with consent of council;

In exercising the powers vested under this section, under the supervision and control of the Governor, the political subdivision may proceed without regard to time-consuming procedures and formalities prescribed by law (except mandatory constitutional requirements) pertaining to the performance of public work, entering into contracts, incurring of obligations, employment of temporary workers, rental of equipment, purchase of supplies and materials, levying of taxes, and appropriation and expenditure of public funds.

D. The director of each local organization for emergency management may, in collaboration with (i) other public and private agencies within the Commonwealth or (ii) other states or localities within other states, develop or cause to be

Such arrangements shall be consistent with state plans and programs and it shall be the duty of each local organization for emergency management to render assistance in accordance with the provisions of such mutual aid arrangements.

E. Each local and interjurisdictional agency shall prepare and keep current a local or interjurisdictional emergency operations plan for its area. The plan shall include, but not be limited to, responsibilities of all local agencies and shall establish a chain of command, and a provision that the Department of Criminal Justice Services and the Virginia Criminal Injuries Compensation Fund shall be contacted immediately to deploy assistance in the event of an emergency as defined in the emergency response plan when there are victims as defined in § 19.2-11.01. Every four years, each local and interjurisdictional agency shall conduct a comprehensive review and revision of its emergency operations plan to ensure that the plan remains current, and the revised plan shall be formally adopted by the locality's governing body. In the case of an interjurisdictional agency, the plan shall be formally adopted by the governing body of each of the localities encompassed by the agency. F. All political subdivisions shall provide (i) an annually updated emergency management assessment and (ii) data related to emergency sheltering capabilities, including emergency shelter locations, evacuation zones, capacity by person, medical needs capacity, current wind rating, standards compliance, backup power, and lead agency for staffing, to the State Coordinator of Emergency Management on or before July May 1 of each year.

G. By July 1, 2005, all localities with a population greater than 50,000 shall establish an alert and warning plan for the dissemination of adequate and timely warning to the public in the event of an emergency or threatened disaster. The governing body of the locality, in consultation with its local emergency management organization, shall amend its local emergency operations plan that may include rules for the operation of its alert and warning system, to include sirens, Emergency Alert System (EAS), NOAA Weather Radios, or other personal notification systems, amateur radio operators, or any combination thereof.

H. Localities that have established an agency of emergency management shall have authority to require the review of, and suggest amendments to, the emergency plans of nursing homes, assisted living facilities, adult day care centers, and child day care centers that are located within the locality.

**1. That §§ 55-225.47 and 55-248.34:1 of the Code of Virginia are amended and reenacted as follows:**

**§ 55-225.47. Landlord's acceptance of rent with reservation.**

~~A. Provided that the landlord has given written notice to the tenant that the rent will be accepted with reservation, the landlord may accept full or partial payment of all rent and receive an order of possession from a court of competent jurisdiction pursuant to an unlawful detainer action filed under Article 13 (§ 8.01-124 et seq.) of Chapter 3 of Title 8.01 and proceed with eviction under § 55-225.41, provided that the landlord has stated in a written notice to the tenant that any and all amounts owed to the landlord by the tenant, including payment of any rent, damages, money judgment, award of attorney fees, and court costs, would be accepted with reservation and would not constitute a waiver of the landlord's right to evict the tenant from the dwelling unit. Such notice shall may be included in a written termination notice given by the landlord to the tenant in accordance with § 55-225.43 or in a separate written notice given by the landlord to the tenant within five business days of receipt of the rent, and if so included, nothing herein shall be construed by a court of law or otherwise as requiring such landlord to give the tenant subsequent written notice. Unless the landlord has given such notice in a termination notice in accordance with § 55-225.43, the landlord shall continue to give a separate written notice to the tenant within five business days of receipt of the rent that the landlord continues to accept the rent with reservation in accordance with this section until such time as the violation alleged in the termination notice has been remedied or the matter has been adjudicated in a court of competent jurisdiction. If the dwelling unit is a public housing unit or other housing unit subject to regulation by the Department of Housing and Urban Development, the landlord shall be deemed to have accepted rent with reservation pursuant to this subsection if the landlord gives the tenant the written notice required herein for the portion of the rent paid by the tenant nothing herein shall be construed to require that written notice be given to any public agency paying a portion of the rent under the rental agreement. If a landlord enters into a new written rental agreement with the tenant prior to eviction, an order of possession obtained prior to the entry of such new rental agreement is not enforceable.~~

~~B. Subsequent to the entry of an order of possession by a court of competent jurisdiction but prior to eviction pursuant to § 55-225.41, the landlord may accept all amounts owed to the landlord by the tenant, including full payment of any money judgment, award of attorney fees, and court costs, and all subsequent rents that may be paid prior to eviction, and proceed with eviction, provided that the landlord has given the tenant written notice that any such payment would be accepted with reservation and would not constitute a waiver of the landlord's right to evict the tenant from the dwelling unit. However, if a landlord enters into a new written rental agreement with the tenant prior to eviction, an order of possession obtained prior to the entry of such new rental agreement is not enforceable. Such notice shall be given in a separate written notice given by the landlord within five business days of receipt of payment of such money judgment, attorney fees and court costs, and all subsequent rents that may be paid prior to eviction. If the dwelling unit is a public housing unit or other housing unit subject to regulation by the Department of Housing and Urban Development, the landlord shall be deemed to have accepted rent with reservation pursuant to this subsection if the landlord gives the tenant the written notice required herein for the portion of the rent paid by the tenant. Writs of possession in cases of unlawful entry and detainer are otherwise subject to § 8.01-471.~~

~~E~~. However, the tenant may pay or present to the court a redemption tender for payment of all rent due and owing as of the return date, including late charges, attorney fees, and court costs, at or before the first return date on an action for unlawful detainer. For purposes of this section, "redemption tender" means a written commitment to pay all rent due and owing as of the return date, including late charges, attorney fees, and court costs, by a local government or nonprofit entity within 10 days of said return date.

~~D~~. C. If the tenant presents a redemption tender to the court at the return date, the court shall continue the action for unlawful detainer for 10 days following the return date for payment to the landlord of all rent due and owing as of the return date, including late charges, attorney fees, and court costs and dismissal of the action upon such payment. Should the landlord not receive full payment of all rent due and owing as of the return date, including late charges, attorney fees, and court costs, within 10 days of the return date, the court shall, without further evidence, grant to the landlord judgment for all amounts due and immediate possession of the premises.

~~E~~. D. In cases of unlawful detainer, a tenant may pay the landlord or his attorney or pay into court all (i) rent due and owing as of the court date as contracted for in the rental agreement, (ii) other charges and fees as contracted for in the rental agreement, (iii) late charges contracted for in the rental agreement, (iv) reasonable attorney fees as contracted for in the rental agreement or as provided by law, and (v) costs of the proceeding as provided by law, at which time the unlawful detainer proceeding shall be dismissed. A tenant may invoke the rights granted in this section no more than one time during any 12-month period of continuous residency in the dwelling unit, regardless of the term of the rental agreement or any renewal term thereof.

**§ 55-248.34:1. Landlord's acceptance of rent with reservation.**

~~A~~. ~~Provided the landlord has given written notice to the tenant that the rent will be accepted with reservation, the~~ The landlord may accept full or partial payment of all rent and receive an order of possession from a court of competent jurisdiction pursuant to an unlawful detainer action filed under Article 13 (§ 8.01-124 et seq.) of Chapter 3 of Title 8.01 and proceed with eviction under § 55-248.38:2, ~~provided that the landlord has stated in a written notice to the tenant that any and all amounts owed to the landlord by the tenant, including payment of any rent, damages, money judgment, award of attorney fees, and court costs, would be accepted with reservation and would not constitute a waiver of the landlord's right to evict the tenant from the dwelling unit.~~ Such notice ~~shall~~ may be included in a written termination notice given by the landlord to the tenant in accordance with § 55-248.31 ~~or in a separate written notice given by the landlord to the tenant within five business days of receipt of the rent.~~ Unless the landlord has given such notice in a termination notice in accordance with § 55-248.31, the landlord shall continue to give a separate written notice to the tenant within five business days of receipt of the rent that the landlord continues to accept the rent with reservation in accordance with this section until such time as the violation alleged in the termination notice has been remedied or the matter has been adjudicated in a court of competent jurisdiction, and if so included, nothing herein shall be construed by a court of law or otherwise as requiring such landlord to give the tenant subsequent written notice. If the dwelling unit is a public housing unit or other housing unit subject to regulation by the Department of Housing and Urban Development, ~~the landlord shall be deemed to have accepted rent with reservation pursuant to this subsection if the landlord gives the tenant the written notice required herein for the portion of the rent paid by the tenant nothing herein shall be construed to require that written notice be given to any public agency paying a portion of the rent under the rental agreement.~~ If a landlord enters into a new written rental agreement with the tenant prior to eviction, an order of possession obtained prior to the entry of such new rental agreement is not enforceable.

~~B~~. Subsequent to the entry of an order of possession by a court of competent jurisdiction but prior to eviction pursuant to § 55-248.38:2, the landlord may accept all amounts owed to the landlord by the tenant, including full payment of any money judgment, award of attorney fees and court costs, and all subsequent rents that may be paid prior to eviction, and proceed with eviction provided that the landlord has given the tenant written notice that any such payment would be accepted with reservation and would not constitute a waiver of the landlord's right to evict the tenant from the dwelling unit. However, if a landlord enters into a new written rental agreement with the tenant prior to eviction, an order of possession obtained prior to the entry of such new rental agreement is not enforceable. Such notice shall be given in a separate written notice given by the landlord within five business days of receipt of payment of such money judgment, attorney fees and court costs, and all subsequent rents that may be paid prior to eviction. If the dwelling unit is a public housing unit or other housing unit subject to regulation by the Department of Housing and Urban Development, the landlord shall be deemed to have accepted rent with reservation pursuant to this subsection if the landlord gives the tenant the written notice required herein for the portion of the rent paid by the tenant. Writs of possession in cases of unlawful entry and detainer are otherwise subject to § 8.01-471.

~~E~~. However, the tenant may pay or present to the court a redemption tender for payment of all rent due and owing as of the return date, including late charges, attorney fees and court costs, at or before the first return date on an action for unlawful detainer. For purposes of this section, "redemption tender" means a written commitment to pay all rent due and owing as of the return date, including late charges, attorney fees, and court costs, by a local government or nonprofit entity within 10 days of said return date.

~~D~~. C. If the tenant presents a redemption tender to the court at the return date, the court shall continue the action for unlawful detainer for 10 days following the return date for payment to the landlord of all rent due and owing as of the return date, including late charges, attorney fees, and court costs and dismissal of the action upon such payment. Should the landlord not receive full payment of all rent due and owing as of the return date, including late charges, attorney fees, and

court costs, within 10 days of the return date, the court shall, without further evidence, grant to the landlord judgment for all amounts due and immediate possession of the premises.

~~E. D.~~ In cases of unlawful detainer, a tenant may pay the landlord or his attorney or pay into court all (i) rent due and owing as of the court date as contracted for in the rental agreement, (ii) other charges and fees as contracted for in the rental agreement, (iii) late charges contracted for in the rental agreement, (iv) reasonable attorney fees as contracted for in the rental agreement or as provided by law, and (v) costs of the proceeding as provided by law, at which time the unlawful detainer proceeding shall be dismissed. A tenant may invoke the rights granted in this section no more than one time during any 12-month period of continuous residency in the dwelling unit, regardless of the term of the rental agreement or any renewal term thereof.

**Be it enacted by the General Assembly of Virginia:**

**1. That § 4.1-208 of the Code of Virginia is amended and reenacted as follows:**

**§ 4.1-208. Beer licenses.**

A. The Board may grant the following licenses relating to beer:

1. Brewery licenses, which shall authorize the licensee to manufacture beer and to sell and deliver or ship the beer so manufactured, in accordance with Board regulations, in closed containers to (i) persons licensed to sell the beer at wholesale; (ii) persons licensed to sell beer at retail for the purpose of resale within a theme or amusement park owned and operated by the brewery or a parent, subsidiary or a company under common control of such brewery, or upon property of such brewery or a parent, subsidiary or a company under common control of such brewery contiguous to such premises, or in a development contiguous to such premises owned and operated by such brewery or a parent, subsidiary or a company under common control of such brewery; and (iii) persons outside the Commonwealth for resale outside the Commonwealth. Such license shall also authorize the licensee to sell at retail the brands of beer that the brewery owns at premises described in the brewery license for on-premises consumption and in closed containers for off-premises consumption, *provided that not less than 20 percent of the volume of beer sold for on-premises consumption in any calendar year is manufactured on the licensed premises.*

Such license may also authorize individuals holding a brewery license to (a) operate a facility designed for and utilized exclusively for the education of persons in the manufacture of beer, including sampling by such individuals of beer products, within a theme or amusement park located upon the premises occupied by such brewery, or upon property of such person contiguous to such premises, or in a development contiguous to such premises owned and operated by such person or a wholly owned subsidiary or (b) offer samples of the brewery's products to individuals visiting the licensed premises, provided that such samples shall be provided only to individuals for consumption on the premises of such facility or licensed premises and only to individuals to whom such products may be lawfully sold.

2. Limited brewery licenses, to breweries that manufacture no more than 15,000 barrels of beer per calendar year, provided that (i) the brewery is located on a farm in the Commonwealth on land zoned agricultural and owned or leased by such brewery or its owner and (ii) agricultural products, including barley, other grains, hops, or fruit, used by such brewery in the manufacture of its beer are grown on the farm. The licensed premises shall be limited to the portion of the farm on which agricultural products, including barley, other grains, hops, or fruit, used by such brewery in the manufacture of its beer are grown and that is contiguous to the premises of such brewery where the beer is manufactured, exclusive of any residence and the curtilage thereof. However, the Board may, with notice to the local governing body in accordance with the provisions of § 4.1-230, also approve other portions of the farm to be included as part of the licensed premises. For purposes of this subdivision, "land zoned agricultural" means (a) land zoned as an agricultural district or classification or (b) land otherwise permitted by a locality for limited brewery use. For purposes of this subdivision, "land zoned agricultural" does not include land zoned "residential conservation." Except for the limitation on land zoned "residential conservation," nothing in this definition shall otherwise limit or affect local zoning authority.

Limited brewery licensees shall be treated as breweries for all purposes of this title except as otherwise provided in this subdivision.

purpose of resale, (ii) owners of boats registered under the laws of the United States sailing for ports of call of a foreign country or another state, and (iii) persons outside the Commonwealth for resale outside the Commonwealth.

5. Beer importers' licenses, which shall authorize persons licensed within or outside the Commonwealth to sell and deliver or ship beer into the Commonwealth, in accordance with Board regulations, in closed containers, to persons in the Commonwealth licensed to sell beer at wholesale for the purpose of resale.

B. Any farm winery or limited brewery that, prior to July 1, 2016, (i) holds a valid license granted by the Board in accordance with this title and (ii) is in compliance with the local zoning ordinance as an agricultural district or classification or as otherwise permitted by a locality for farm winery or limited brewery use shall be allowed to continue such use as provided in § 15.2-2307, notwithstanding (a) the provisions of this section or (b) a subsequent change in ownership of the farm winery or limited brewery on or after July 1, 2016, whether by transfer, acquisition, inheritance, or other means. #### CHAPTER 236

*An Act to amend and reenact § 58.1-3219.5 of the Code of Virginia, relating to real property tax exemption; disabled veterans.*

[S 430]

Approved March 9, 2018

**Be it enacted by the General Assembly of Virginia:**

**1. That § 58.1-3219.5 of the Code of Virginia is amended and reenacted as follows:**

**§ 58.1-3219.5. Exemption from taxes on property for disabled veterans.**

A. Pursuant to subdivision (a) of Section 6-A of Article X of the Constitution of Virginia, and for tax years beginning on or after January 1, 2011, the General Assembly hereby exempts from taxation the real property, including the joint real property of husband and wife, of any veteran who has been rated by the U.S. Department of Veterans Affairs or its successor agency pursuant to federal law to have a 100 percent service-connected, permanent, and total disability, and who occupies the real property as his principal place of residence. If the veteran's disability rating occurs after January 1, 2011, and he has a qualified primary residence on the date of the rating, then the exemption for him under this section begins on the date of such rating. However, no county, city, or town shall be liable for any interest on any refund due to the veteran for taxes paid prior to the veteran's filing of the affidavit or written statement required by § 58.1-3219.6. If the qualified veteran acquires the property after January 1, 2011, then the exemption shall begin on the date of acquisition, and the previous owner may be entitled to a refund for a pro rata portion of real property taxes paid pursuant to § 58.1-3360.

B. The surviving spouse of a veteran eligible for the exemption set forth in this article shall also qualify for the exemption, so long as the death of the veteran occurs on or after January 1, 2011, the surviving spouse does not remarry, and the surviving spouse continues to occupy the real property as his principal place of residence.

C. A county, city, or town shall provide for the exemption from real property taxes the qualifying dwelling pursuant to this section and shall provide for the exemption from real property taxes the land, not exceeding one acre, upon which it is situated. However, if a county, city, or town provides for an exemption from or deferral of real property taxes of more than one acre of land pursuant to Article 2 (§ 58.1-3210 et seq.), then the county, city, or town shall also provide an exemption for the same number of acres pursuant to this section. If the veteran owns a house that is his residence, including a manufactured home as defined in § 46.2-100 whether or not the wheels and other equipment previously used for mobility have been removed, such house or manufactured home shall be exempt even if the veteran does not own the land on which the house or manufactured home is located. If such land is not owned by the veteran, then the land is not exempt. A real property improvement other than a dwelling, including the land upon which such improvement is situated, made to such one acre or greater number of acres exempt from taxation pursuant to this subsection shall also be exempt from taxation so long as the principal use of the improvement is (i) to house or cover motor vehicles or household goods and personal effects as classified in subdivision A 14 of § 58.1-3503 and as listed in § 58.1-3504 and (ii) for other than a business purpose.

D. For purposes of this exemption, real property of any veteran includes real property (i) held by a veteran alone or in conjunction with the veteran's spouse as tenant or tenants for life or joint lives, (ii) held in a revocable inter vivos trust over which the veteran or the veteran and his spouse hold the power of revocation, or (iii) held in an irrevocable trust under

which a veteran alone or in conjunction with his spouse possesses a life estate or an estate for joint lives or enjoys a continuing right of use or support. The term does not include any interest held under a leasehold or term of years.

The exemption for a surviving spouse under subsection B includes real property (a) held by the veteran's spouse as tenant for life, (b) held in a revocable inter vivos trust over which the surviving spouse holds the power of revocation, or (c) held in an irrevocable trust under which the surviving spouse possesses a life estate or enjoys a continuing right of use or support. The exemption does not apply to any interest held under a leasehold or term of years.

E. 1. In the event that (i) a person is entitled to an exemption under this section by virtue of holding the property in any of the three ways set forth in subsection D and (ii) one or more other persons have an ownership interest in the property that permits them to occupy the property, then the tax exemption for the property that otherwise would have been provided shall be prorated by multiplying the amount of the exemption by a fraction that has as a numerator the number of people who are qualified for the exemption pursuant to this section and has as a denominator the total number of all people having an ownership interest that permits them to occupy the property.

2. In the event that the primary residence is jointly owned by two or more individuals, not all of whom qualify for the exemption pursuant to subsection A or B, and no person is entitled to the exemption under this section by virtue of holding the property in any of the three ways set forth in subsection D, then the exemption shall be prorated by multiplying the amount of the exemption or deferral by a fraction that has as a numerator the percentage of ownership interest in the dwelling held by all such joint owners who qualify for the exemption pursuant to subsections A and B, and as a denominator, 100 percent.

"Virginia fee schedule" means a schedule of maximum fees for fee scheduled medical services for the medical community where the fee scheduled medical service is provided, as initially adopted by the Commission pursuant to subsection C and as adjusted as provided in subsection D.

B. The pecuniary liability of the employer for a:

1. Medical, surgical, and hospital service herein required when ordered by the Commission that is provided to an injured person prior to the transition date, regardless of the date of injury, shall be limited absent a contract providing otherwise, to such charges as prevail in the same community for similar treatment when such treatment is paid for by the injured person. *As used in this subdivision, "same community" for providers of medical services rendered outside of the Commonwealth shall be deemed to be the principal place of business of the employer if located in the Commonwealth or, if no such location exists, the location where the Commission hearing regarding the dispute is conducted;*

2. Fee scheduled medical service provided on or after the transition date, regardless of the date of injury, shall be limited to:

a. The amount provided for the payment for the fee scheduled medical service as set forth in a contract under which the provider has agreed to accept a specified amount in payment for the service provided, which amount may be less than or exceed the maximum amount for the service as set forth in the applicable Virginia fee schedule;

b. In the absence of a contract described in subdivision 2 a, the lesser of the billing amount or the amount for the fee scheduled medical service as set forth in the applicable Virginia fee schedule that is in effect on the date the service is provided, subject to an increase approved by the Commission pursuant to subsection H; or

c. In the absence of (i) a contract described in subdivision 2 a and (ii) a provision in a Virginia fee schedule that sets forth a maximum amount for the medical service on the date it is provided, the maximum amount determined by the Commission as provided in subsection E; and

3. Medical service provided on or after the transition date for the treatment of a traumatic injury or serious burn, regardless of the date of injury, shall be limited to:

a. The amount provided for the payment for the medical service provided for the treatment of the traumatic injury or serious burn as set forth in a contract under which the provider has agreed to accept a specified amount in payment for the service provided, which amount may be less than or exceed the maximum amount for the service calculated pursuant to subdivision 3 b; or

b. In the absence of a contract described in subdivision 3 a, an amount equal to 80 percent of the provider's charge for the service based on the provider's charge master or schedule of fees; however, if the compensability under this title of a claim for traumatic injury or serious burn is contested and after a hearing on the claim on its merits or after abandonment of a defense by the employer or insurance carrier, benefits for medical services are awarded and inure to the benefit of a third-party insurance carrier or health care provider and the Commission awards to the claimant's attorney a fee pursuant to subsection B of § 65.2-714, then the pecuniary liability of the employer for the service provided shall be limited to 100 percent of the provider's charge for the service based on the provider's charge master or schedule of fees.

C. The Commission shall adopt regulations establishing initial Virginia fee schedules for fee scheduled medical services as follows:

1. The Commission's regulations that establish the initial Virginia fee schedules shall be effective on January 1, 2018.

2. Separate initial Virginia fee schedules shall be established for fee scheduled medical services (i) provided by each category of providers of fee scheduled medical services and (ii) within each of the medical communities to reflect the

variations among the medical communities as provided in subdivision 3, for each category of providers of fee scheduled medical services.

3. The Virginia fee schedules for each medical community shall reflect variations among medical communities in (i) all reimbursements and other amounts paid to providers for fee scheduled medical services among the medical communities and (ii) the extent to which the number of providers within the various medical communities is adequate to meet the needs of injured workers.

4. In establishing the initial Virginia fee schedules for fee scheduled medical services, the Commission shall establish the maximum fee for each fee scheduled medical service at a level that approximates the reimbursement objective for each category of providers of fee scheduled medical services among the medical communities. The Commission shall retain a firm with nationwide experience and actuarial expertise in the development of workers' compensation fee schedules to assist the Commission in establishing the initial Virginia fee schedules. The Commission shall consult with the regulatory advisory panel established pursuant to subdivision F 2 prior to retaining such firm. Such firm shall be retained to assist the Commission in developing the Virginia fee schedules by recommending a methodology that will provide, at reasonable cost to the Commission, statistically valid estimates of the reimbursement objective for fee scheduled medical services within the medical communities, based on available data or, if the necessary data is not available, by recommending the optimal methodology for obtaining the necessary data. The Commission shall consult with the regulatory advisory panel prior to adopting any such methodology. Such methodology may, but is not required to, be based on applicable codes. The estimates of the reimbursement objective for fee scheduled medical services shall be derived from data on all reimbursements and other amounts paid to providers for fee scheduled medical services provided pursuant to this title during 2014 and 2015, to the extent available.

D. The Commission shall review Virginia fee schedules during the year that follows the transition date and biennially thereafter and, if necessary, adjust the Virginia fee schedules in order to address (i) inflation or deflation as reflected in the medical care component of the Consumer Price Index for All Urban Consumers (CPI-U) for the South as published by the Bureau of Labor Statistics of the U.S. Department of Labor; (ii) access to fee scheduled medical services; (iii) errors in calculations made in preparing the Virginia fee schedules; and (iv) incentives for providers. The Commission shall not adjust a Virginia fee schedule in a manner that reduces fees on an existing schedule unless such a reduction is based on deflation or a finding by the Commission that advances in technology or errors in calculations made in preparing the Virginia fee schedules justify a reduction in fees.

E. The maximum pecuniary liability of the employer for a fee scheduled medical service that is not included in a Virginia fee schedule when it is provided shall be determined by the Commission. The Commission's determination of the employer's maximum pecuniary liability for such fee scheduled medical service shall be effective until the Commission sets a maximum fee for the fee scheduled medical service and incorporates such maximum fee into an adjusted Virginia fee schedule adopted pursuant to subsection D. If the fee scheduled medical service is not included in a Virginia fee schedule because it is:

1. A new type of technology, the employer's maximum pecuniary liability shall not exceed 130 percent of the provider's invoiced cost for such device, as evidenced by a copy of the invoice. If the new type of technology has not been cleared or approved by the FDA prior to such date, then the provider shall not be entitled to payment or reimbursement therefor unless the employer or its insurer agree; or

2. A new type of procedure that has not been assigned a billing code, the employer's maximum pecuniary liability shall not exceed 80 percent of the provider's charge for the service based on the provider's charge master or schedule of fees, provided the employer and the provider mutually agree to the provision of such procedure.

F. The Commission shall:

1. Provide public access to information regarding the Virginia fee schedules for medical services, by categories of providers of fee scheduled medical services and for each medical community, through the Commission's website. No information provided on the website shall be provider-specific or disclose or release the identity of any provider; and

2. Utilize a 10-member regulatory advisory panel to assist in the development of regulations adopting initial Virginia fee schedules pursuant to subsection C, in adjusting initial Virginia fee schedules pursuant to subsection D, and on all matters involving or related to the fee schedule as deemed necessary by the Commission. One member of the regulatory advisory panel shall be selected by the Commission from each of the following: (i) the American Insurance Association; (ii) the Property and Casualty Insurers Association of America; (iii) the Virginia Self-Insurers Association, Inc.; (iv) the Medical Society of Virginia; (v) the Virginia Hospital and Healthcare Association; (vi) a Type One teaching hospital; (vii) the Virginia Orthopaedic Society; (viii) the Virginia Trial Lawyers Association; (ix) a group self-insurance association representing employers; and (x) a local government group self-insurance pool formed under Chapter 27 (§ 15.2-2700 et seq.) of Title 15.2. The Commission shall meet with the regulatory advisory panel and consider the recommendations of its members in its development of the Virginia fee schedules pursuant to subsections C and D.

G. The Commission's retaining of a firm with nationwide experience and actuarial expertise in the development of workers' compensation fee schedules to assist the Commission in developing the Virginia fee schedules pursuant to subsections C and D shall be exempt from the provisions of the Virginia Public Procurement Act (§ 2.2-4300 et seq.), provided the Commission shall issue a request for proposals that requires submission by a bidder of evidence that it satisfies the conditions for eligibility established in this subsection and in subdivision C 4. Records and information relating to payments or reimbursements to providers that is obtained by or furnished to the Commission by such firm or any other

person shall (i) be for the exclusive use of the Commission in the course of the Commission's development of fee schedules and related regulations and (ii) shall remain confidential and shall not be subject to the provisions of the Virginia Freedom of Information Act (§ 2.2-3700 et seq.).

H. When the total charges of a hospital or Type One teaching hospital, based on such provider's charge master, for inpatient hospital services covered by a DRG code exceed the charge outlier threshold, then the Commission shall establish the maximum fee for such scheduled inpatient hospital services at an amount equal to the total of (i) the maximum fee for the service as set forth in the applicable fee schedule and (ii) initially equal to 80 percent of the provider's total charges for the service in excess of the charge outlier threshold. The charge outlier threshold for such services initially shall equal 300 percent of the maximum fee for the service set forth in the applicable fee schedule; however, the Commission, in consultation with the firm retained pursuant to subdivision C 4, is authorized on a biennial basis to adjust such percentage if it finds that the number of such claims for which the total charges of the hospital or Type One teaching hospital exceed the charge outlier threshold is less than five percent or to increase such percentage if such number is greater than 10 percent of all such claims.

I. No provider shall use a different charge master or schedule of fees for any medical service provided under this title than the provider uses for health care services provided to patients who are not claimants under this title.

J. The employer shall not be liable in damages for malpractice by a physician or surgeon furnished by him pursuant to the provisions of § 65.2-603, but the consequences of any such malpractice shall be deemed part of the injury resulting from the accident and shall be compensated for as such.

K. The Commission shall determine the number and geographic area of communities across the Commonwealth. In establishing the communities, the Commission shall consider the ability to obtain relevant data based on geographic area and such other criteria as are consistent with the purposes of this title. The Commission shall use the communities established pursuant to this subsection in determining charges that prevail in the same community for treatment provided prior to the transition date.

L. The pecuniary liability of the employer for treatment of a medical service that is rendered on or after July 1, 2014, by:

1. A nurse practitioner or physician assistant serving as an assistant-at-surgery shall be limited to no more than 20 percent of the reimbursement due to the physician performing the surgery; and

2. An assistant surgeon in the same specialty as the primary surgeon shall be limited to no more than 50 percent of the reimbursement due to the primary physician performing the surgery.

M. Multiple procedures completed on a single surgical site associated with a medical service rendered on or after July 1, 2014, shall be coded and billed with appropriate CPT codes and modifiers and paid according to the National Correct Coding Initiative rules and the CPT codes as in effect at the time the health care was provided to the claimant.

N. The CPT code and National Correct Coding Initiative rules, as in effect at the time a medical service was provided to the claimant, shall serve as the basis for processing a health care provider's billing form or itemization for such items as global and comprehensive billing and the unbundling of medical services. Hospital in-patient medical services shall be coded and billed through the International Statistical Classification of Diseases and Related Health Problems as in effect at the time the medical service was provided to the claimant.

**§ 65.2-605.1. Prompt payment; limitation on claims.**

A. Payment for health care services that the employer does not contest, deny, or consider incomplete shall be made to the health care provider within 60 days after receipt of each separate itemization of the health care services provided.

B. If the itemization or a portion thereof is contested, denied, or considered incomplete, the employer or the employer's workers' compensation insurance carrier shall notify the health care provider within 45 days after receipt of the itemization that the itemization is contested, denied, or considered incomplete. The notification shall include the following information:

1. The reasons for contesting or denying the itemization, or the reasons the itemization is considered incomplete;

2. If the itemization is considered incomplete, all additional information required to make a decision; and

3. The remedies available to the health care provider if the health care provider disagrees.

Payment or denial shall be made within 60 days after receipt from the health care provider of the information requested by the employer or employer's workers' compensation carrier for an incomplete claim under this subsection.

C. Payment due for any properly documented health care services that are neither contested within the 45-day period nor paid within the 60-day period, as required by this section, shall be increased by interest at the judgment rate of interest as provided in § 6.2-302 retroactive to the date payment was due under this section.

D. An employer's liability to a health care provider under this section shall not affect its liability to an employee.

E. No employer or workers' compensation carrier may seek recovery of a payment made to a health care provider for health care services rendered after July 1, 2014, to a claimant, unless such recovery is sought less than one year from the date payment was made to the health care provider, except in cases of fraud. The Commission shall have jurisdiction over any disputes over recoveries.

F. No health care provider shall submit a claim to the Commission contesting the sufficiency of payment for health care services rendered to a claimant after July 1, 2014, unless (i) such claim is filed within one year of the date the last payment is received by the health care provider pursuant to this section or (ii) if the employer denied or contested payment for any portion of the health care services, then, as to that service or portion thereof, such claim is filed within one year of the date the medical award covering such date of service for a specific item or treatment in question becomes final.

G. ~~Any health care provider located outside of the Commonwealth who provides health care services under the Act to a claimant shall be reimbursed as provided in this section, and the "same community," as used in subdivision B 1 of § 65.2-605 for treatment provided prior to the transition date as defined in subsection A of § 65.2-605, shall be deemed to be the principal place of business of the employer if located in the Commonwealth or, if no such location exists, then the location where the Commission hearing regarding the dispute is conducted.~~

H. The Commission, by January 1, 2016, shall establish a schedule pursuant to which employers, employers' workers' compensation insurance carriers, and providers of workers' compensation medical services shall be required, by a date determined by the Commission that is no earlier than July 1, 2016, and no later than December 31, 2018, to adopt and implement infrastructure under which (i) providers of workers' compensation medical services (providers) shall submit their billing, claims, case management, health records, and all supporting documentation electronically to employers or employers' workers' compensation insurance carriers, as applicable (payers) and (ii) payers shall return actual payment, claim status, and remittance information electronically to providers that submit their billing and required supporting documentation electronically. The Commission shall establish standards and methods for such electronic submissions and transactions that are consistent with International Association of Industrial Accident Boards and Commission Medical Billing and Payment guidelines. The Commission shall determine the date by which payers and providers shall be required to adopt and implement the infrastructure, which determinations shall be based on the volume and complexity of workers' compensation cases in which the payer or provider is involved, the resources of the payer or provider, and such other criteria as the Commission determines to be appropriate.

## CHAPTER 264

*An Act to amend and reenact §§ 59.1-444.2 and 59.1-444.3 of the Code of Virginia, relating to security freezes on credit reports; fees.*

[H 1027]

Approved March 9, 2018

**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 59.1-444.2 and 59.1-444.3 of the Code of Virginia are amended and reenacted as follows:**

**§ 59.1-444.2. Security freezes.**

A. As used in this section, "security freeze" means a notice placed in a consumer's credit report, at the request of the consumer and subject to certain exceptions, that prohibits the consumer reporting agency from releasing the consumer's credit report or score relating to the extension of credit.

B. A consumer may request that a security freeze be placed on his or her credit report by sending a request in writing by certified mail, or such other secure method authorized by a consumer reporting agency, to a consumer reporting agency at an address designated by the consumer reporting agency to receive such requests. This subsection does not prevent a consumer reporting agency from advising a third party that a security freeze is in effect with respect to the consumer's credit report.

C. A consumer reporting agency shall place a security freeze on a consumer's credit report no later than three business days after receiving from the consumer:

1. A written request described in subsection B;

2. Proper identification; and
3. Payment of a fee not to exceed ~~\$10~~ \$5, if applicable.

A consumer reporting agency shall place a security freeze on a consumer's credit report no later than one business day after receiving such a request, if such request is made electronically at an address designated by the consumer reporting agency to receive such requests.

D. The consumer reporting agency shall send a written confirmation of the placement of the security freeze to the consumer within 10 business days. Upon placing the security freeze on the consumer's credit report, the consumer reporting agency shall provide the consumer with a unique personal identification number or password, or similar device to be used by the consumer when providing authorization for the release of his credit report for a specific period of time or for a specific party.

E. If the consumer wishes to allow his credit report to be accessed for a specific period of time or for a specific party while a freeze is in place, he shall contact the consumer reporting agency using a point of contact designated by the consumer reporting agency, request that the freeze be temporarily lifted, and provide the following:

1. Proper identification;
2. The unique personal identification number or password provided by the consumer reporting agency pursuant to subsection D; and
3. The proper information regarding the time period or the specific party for which the report shall be available to users of the credit report.

F. A consumer reporting agency:

1. Shall comply with a request made under subsection E:
  - a. Within three business days after receiving the request if the request is made at a postal address designated by the agency to receive such requests; or
  - b. Within 15 minutes after the consumer's request is received by the consumer reporting agency through the electronic contact method chosen by the consumer reporting agency in accordance with this section;
2. Is not required to temporarily lift a security freeze within the time provided in subdivision 1 b if:
  - a. The consumer fails to meet the requirements of subsection E; or
  - b. The consumer reporting agency's ability to temporarily lift the security freeze within 15 minutes is prevented by:
    - (1) An act of God, including fire, earthquakes, hurricanes, storms, or similar natural disaster or phenomena;
    - (2) Unauthorized or illegal acts by a third party, including terrorism, sabotage, riot, vandalism, labor strikes or disputes disrupting operations, or similar occurrence;
    - (3) Operational interruption, including electrical failure, unanticipated delay in equipment or replacement part delivery, computer hardware or software failures inhibiting response time, or similar disruption;
    - (4) Governmental action, including emergency orders or regulations, judicial or law-enforcement action, or similar directives;
    - (5) Regularly scheduled maintenance, during other than normal business hours, of, or updates to, the consumer reporting agency's systems; or
    - (6) Commercially reasonable maintenance of, or repair to, the consumer reporting agency's systems that is unexpected or unscheduled; and
3. May develop procedures involving the use of telephone, fax, the Internet, or other electronic media to receive and process a request from a consumer to temporarily lift a freeze on a credit report pursuant to subsection E in an expedited manner.

G. A consumer reporting agency shall remove or temporarily lift a freeze placed on a consumer's credit report only in the following cases:

1. Upon a consumer request, pursuant to subsection E or subsection J; or
2. If the consumer's credit report was frozen due to a material misrepresentation of fact by the consumer. If a consumer reporting agency intends to remove a freeze upon a consumer's credit report pursuant to this subdivision, the consumer reporting agency shall notify the consumer in writing prior to removing the freeze on the consumer's credit report.

H. If a third party requests access to a consumer credit report on which a security freeze is in effect, and this request is in connection with an application for credit or any other use, and the consumer does not allow his or her credit report to be accessed for that period of time, the third party may treat the application as incomplete.

I. If a consumer requests a security freeze, the consumer reporting agency shall disclose the process of placing and temporarily lifting a freeze, and the process for allowing access to information from the consumer's credit report for a period of time while the freeze is in place.

J. A security freeze shall remain in place until the consumer requests, using a point of contact designated by the consumer reporting agency, that the security freeze be removed. A consumer reporting agency shall remove a security freeze within three business days of receiving a request for removal from the consumer, who provides:

1. Proper identification; and
2. The unique personal identification number or password or similar device provided by the consumer reporting agency pursuant to subsection D.

K. A consumer reporting agency shall require proper identification of the person making a request to place or remove a security freeze.

L. The provisions of this section do not apply to the use of a consumer credit report by any of the following:

1. A person or entity, or a subsidiary, affiliate, or agent of that person or entity, or an assignee of a financial obligation owing by the consumer to that person or entity, or a prospective assignee of a financial obligation owing by the consumer to that person or entity in conjunction with the proposed purchase of the financial obligation, with which the consumer has or had prior to assignment an account or contract, including a demand deposit account, or to whom the consumer issued a negotiable instrument, for the purposes of reviewing the account or collecting the financial obligation owing for the account, contract, or negotiable instrument. For purposes of this paragraph, "reviewing the account" includes activities related to account maintenance, monitoring, credit line increases, and account upgrades and enhancements;

2. A subsidiary, affiliate, agent, assignee, or prospective assignee of a person to whom access has been granted for purposes of facilitating the extension of credit or other permissible use;

3. Any state or local agency, law-enforcement agency, trial court, or private collection agency acting pursuant to a court order, warrant, or subpoena;

4. A child support agency acting pursuant to Title IV-D of the Social Security Act (42 U.S.C. § 654 et seq.);

5. The Commonwealth or its agents or assigns acting to investigate fraud or acting to investigate or collect delinquent taxes or unpaid court orders or to fulfill any of its other statutory responsibilities provided such responsibilities are consistent with a permissible purpose under 15 U.S.C. § 1681b;

6. The use of credit information for the purposes of prescreening or postscreening as provided for by the federal Fair Credit Reporting Act;

7. Any person or entity administering a credit file monitoring subscription or similar service to which the consumer has subscribed;

8. Any person or entity for the purpose of providing a consumer with a copy of his credit report or score upon the consumer's request;

9. Any person or entity for use in setting or adjusting a rate, adjusting a claim, or underwriting for insurance purposes; or

10. Any employer in connection with any application for employment with the employer.

M. This section does not prevent a consumer reporting agency from charging a fee of no more than ~~\$10~~ \$5 to a consumer to place each freeze, except that a consumer reporting agency may not charge a fee to a victim of identity theft who has submitted a valid police report to the consumer reporting agency.

N. If a security freeze is in place, a consumer reporting agency shall not change any of the following official information in a consumer credit report without sending a written confirmation of the change to the consumer within 30 days of the change being posted to the consumer's file: name, date of birth, social security number, and address. Written confirmation is not required for technical modifications of a consumer's official information, including name and street abbreviations, complete spellings, or transposition of numbers or letters. In the case of an address change, the written confirmation shall be sent to both the new address and to the former address.

O. The following entities are not required to place a security freeze on a credit report:

1. A consumer reporting agency that acts only as a reseller of credit information by assembling and merging information contained in the database of another consumer reporting agency or multiple consumer credit reporting agencies, and does not maintain a permanent database of credit information from which new consumer credit reports are produced. However, a consumer reporting agency acting as a reseller shall honor any security freeze placed on a consumer credit report by another consumer reporting agency;

2. A check services or fraud prevention services company, which issues reports on incidents of fraud or authorizations for the purpose of approving or processing negotiable instruments, electronic funds transfers, or similar methods of payments;

3. 4. A consumer reporting agency's database or file that consists of information concerning, and used for, one or more of the following: criminal record information, fraud prevention or detection, personal loss history information, and employment, tenant, or background screening.

P. At any time a consumer is required to receive a summary of rights required under 15 U.S.C. § 1681g(d), the following notice shall be included:

"Virginia Consumers Have the Right to Obtain a Security Freeze.

You have a right to place a "security freeze" on your credit report, which will prohibit a consumer reporting agency from releasing information in your credit report without your express authorization. A security freeze must be requested in writing by certified mail. The security freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that using a security freeze to take control over who gets access to the personal and financial information in your credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application you make regarding a new loan, credit, mortgage, government services or payments, rental housing, employment, investment, license, cellular phone, utilities, digital signature, Internet credit card transaction, or other services, including an extension of credit at point of sale. When you place a security freeze on your credit report, you will be provided a personal identification number or password to use if you choose to remove the freeze on your credit

report or authorize the release of your credit report for a period of time or for a specific party after the freeze is in place. To provide that authorization you must contact the consumer reporting agency and provide all of the following:

1. The personal identification number or password;
2. Proper identification to verify your identity; and
3. The proper information regarding the period of time or the specific party for which the report shall be available.

A consumer reporting agency must authorize the release of your credit report no later than three business days after receiving the above information. A consumer credit reporting agency must authorize the release of your credit report no later than 15 minutes after receiving the request.

A security freeze does not apply to a person or entity, or its affiliates, or collection agencies acting on behalf of the person or entity, with which you have an existing account, that requests information in your credit report for the purposes of reviewing or collecting the account. Reviewing the account includes activities related to account maintenance, monitoring, credit line increases, and account upgrades and enhancements.

You have a right to bring civil action against anyone, including a consumer reporting agency, who improperly obtains access to a file, knowingly or willfully misuses file data, or fails to correct inaccurate file data.

Unless you are a victim of identity theft with a police report to verify the crimes, a consumer reporting agency has the right to charge you up to ~~\$10~~ \$5 to place a freeze on your credit report."

Q. Any person who willfully fails to comply with any requirement imposed under this section or § 59.1-444.3 with respect to any consumer is liable to that consumer in an amount equal to the sum of:

1. Any actual damages sustained by the consumer as a result of the failure or damages of not less than \$100 and not more than \$1,000;
2. Such amount of punitive damages as the court may allow; and
3. In the case of any successful action to enforce any liability under this section, the costs of the action together with reasonable attorney fees as determined by the court.

R. Any person who obtains a consumer report, requests a security freeze, requests the temporary lift of a freeze, or the removal of a security freeze from a consumer reporting agency under false pretenses or in an attempt to violate federal or state law shall be liable to the consumer reporting agency for actual damages sustained by the consumer reporting agency or \$1,000, whichever is greater.

S. Any person who is negligent in failing to comply with any requirement imposed under this section with respect to any consumer is liable to that consumer in an amount equal to the sum of:

1. Any actual damages sustained by the consumer as a result of the failure; and
2. In the case of any successful action to enforce any liability under this section, the costs of the action together with reasonable attorney fees as determined by the court.

T. Upon a finding by the court that an unsuccessful pleading, motion, or other paper filed in connection with an action under this section was filed in bad faith or for purposes of harassment, the court shall award to the prevailing party attorney fees reasonable in relation to the work expended in responding to the pleading, motion, or other paper.

U. Notwithstanding any other provision of law:

1. The exclusive authority to bring an action for any violation of subdivision F 1 b shall be with the Attorney General. In any action brought under this subsection, the Attorney General may cause an action to be brought in the name of the Commonwealth to enjoin the violation and to recover damages for aggrieved consumers consistent with the limits stated in subsections Q and S for such violations.

2. In any action brought under this subsection, if the court finds a willful violation, the court may, in its discretion, also award a civil penalty of not more than \$1,000 per violation, to be deposited in the Literary Fund of the Commonwealth.

3. In any action brought under this subsection, the Attorney General may recover any costs, the reasonable expenses incurred in investigating and preparing the case, and attorney fees.

*An Act to amend and reenact § 13.1-657 of the Code of Virginia, relating to stock corporations; action by shareholders without meeting.*

[H 1559]

Approved March 9, 2018

**Be it enacted by the General Assembly of Virginia:****1. That § 13.1-657 of the Code of Virginia is amended and reenacted as follows:****§ 13.1-657. Action without meeting.**

A. Action required or permitted by this chapter to be adopted or taken at a shareholders' meeting may be adopted or taken without a meeting if the action is adopted or taken by all the shareholders entitled to vote on the action, in which case no action by the board of directors shall be required. The adoption or taking of the action shall be evidenced by one or more written consents describing the action taken, signed by all the shareholders entitled to vote on the action, bearing the date of each signature, and delivered to the corporation for inclusion in the minutes or filing with the corporate records.

B. The articles of incorporation may authorize action by shareholders by less than unanimous written consent provided that the taking of such action is consistent with any requirements that may be set forth in the corporation's articles of incorporation, the bylaws, or this section. ~~For such action;~~ *however, unless the articles of incorporation of a public corporation authorized action by shareholders by less than unanimous written consent as of April 1, 2018, the shareholders of the public corporation shall not be entitled to act by less than unanimous written consent even if so authorized by the articles of incorporation if the articles of incorporation or bylaws of such public corporation allow the holders of 30 percent or fewer of all votes entitled to be cast to demand the calling of a special meeting of shareholders. For action by shareholders by less than unanimous written consent to be valid:*

1. It shall be an action that this chapter requires or permits to be adopted or taken at a shareholders' meeting;

2. The corporation's articles of incorporation shall authorize action by shareholders by less than unanimous written consent and, if a public corporation at the time of such authorization *and in addition to the other limitations in this subsection B*, the inclusion of the authorization in the articles of incorporation shall be approved by each voting group entitled to vote by the greater of:

a. The vote of that voting group required by the corporation's articles of incorporation to amend the articles of incorporation; and

b. More than two-thirds of all votes that the voting group is entitled to cast on the amendment;

3. Before the holders of more than 10 percent of the outstanding shares of any voting group entitled to vote on the action to be adopted or taken have executed the written consent, the corporation's secretary shall have received a copy of the form of written consent setting forth the action to be adopted or taken; and

4. The holders of not less than the minimum number of outstanding shares of each voting group entitled to vote on the action that would be required to adopt or take the action at a shareholders' meeting at which all shares of each voting group entitled to vote on the action were present and voted shall have signed written consents setting forth the action to be adopted or taken.

The written consent shall bear the date on which each shareholder signed the consent and be delivered to the corporation for inclusion in the minutes or filing with the corporate records.

C. If not otherwise fixed under § 13.1-656 or 13.1-660 and if prior board action is not required respecting the action to be adopted or taken without a meeting, the record date for determining the shareholders entitled to adopt or take action without a meeting shall be the first date on which a signed written consent is delivered to the corporation. If not otherwise fixed under § 13.1-656 or 13.1-660 and if prior board action is required respecting the action to be adopted or taken without a meeting, the record date shall be the close of business on the day the resolution of the board taking such prior action is adopted. No written consent shall be effective to adopt or take the action referred to therein unless, within 60 days of the earliest date on which a consent delivered to the corporation as required by this section was signed, written consents signed by the holders of shares having sufficient votes to adopt or take the action have been delivered to the corporation. A written consent may be revoked by a writing to that effect delivered to the corporation before unrevoked written consents sufficient in number to adopt or take the action are delivered to the corporation.

D. A consent signed pursuant to the provisions of this section has the effect of a vote at a meeting and may be described as such in any document. Unless the articles of incorporation, bylaws or a resolution of the board of directors provides for a

reasonable delay to permit tabulation of written consents, the action adopted or taken by written consent shall be effective when (i) written consents signed by the holders of shares having sufficient votes to adopt or take the action are delivered to the corporation or (ii) if an effective date is specified therein, as of such date provided such consent states the date of execution by the consenting shareholder.

E. Any person, whether or not then a shareholder, may provide that a consent in writing as a shareholder shall be effective at a future time, including the time when an event occurs, but such future time shall not be more than 60 days after such provision is made. Any such consent shall be deemed to have been made for purposes of this section at the future time so specified for the consent to be effective, provided that (i) the person is a shareholder at such future time and (ii) the person did not revoke the consent prior to such future time. Any such consent may be revoked, in the manner provided in subsection C, prior to its becoming effective.

F. If this chapter requires that notice of a proposed action be given to nonvoting shareholders and the action is to be adopted or taken by written consent of the voting shareholders, the corporation shall give its nonvoting shareholders written notice of the action not more than 10 days after (i) written consents sufficient to adopt or take the action have been delivered to the corporation, or (ii) such later date that tabulation of consents is completed pursuant to an authorization under subsection D. The notice shall reasonably describe the action adopted or taken and contain or be accompanied by the same material that under any provision of this chapter would have been required to be sent to nonvoting shareholders in a notice of a meeting at which the proposed action would have been submitted to the shareholders for action.

G. If action is adopted or taken by less than unanimous written consent of the voting shareholders, the corporation shall give its nonconsenting voting shareholders written notice of the action not more than 10 days after (i) written consents sufficient to adopt or take the action have been delivered to the corporation or (ii) such later date that tabulation of consents is completed pursuant to an authorization under subsection D. The notice shall reasonably describe the action adopted or taken and contain or be accompanied by the same material that under any provision of this chapter would have been required to be sent to voting shareholders in a notice of a meeting at which the action would have been submitted to the shareholders for action.

**1. That §§ 63.2-1701, 63.2-1709, 63.2-1709.2, 63.2-1710, and 63.2-1737 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding sections numbered 63.2-1710.1 and 63.2-1710.2 as follows:**

**§ 63.2-1701. Licenses required; issuance, expiration, and renewal; maximum number of residents, participants or children; posting of licenses.**

A. As used in this section, "person ~~who operates or maintains a child welfare agency~~" means any individual; corporation; partnership; association; limited liability company; local government; state agency, including any department, institution, authority, instrumentality, board, or other administrative agency of the Commonwealth; or other legal or commercial entity that operates or maintains a child welfare agency, *adult day care center, or assisted living facility*.

B. Every person who constitutes, or who operates or maintains, an assisted living facility, adult day care center, or child welfare agency shall obtain the appropriate license from the Commissioner, which may be renewed. However, no license shall be required for an adult day care center that provides services only to individuals enrolled in a Programs of All-Inclusive Care for the Elderly program operated in accordance with an agreement between the provider, the Department of Medical Assistance Services and the Centers for Medicare and Medicaid Services. The Commissioner, upon request, shall consult with, advise, and assist any person interested in securing and maintaining any such license. Each application for a license shall be made to the Commissioner, in such form as he may prescribe. It shall contain the name and address of the applicant and, if the applicant is an association, partnership, limited liability company, or corporation, the names and addresses of its officers and agents. The application shall also contain a description of the activities proposed to be engaged in and the facilities and services to be employed, together with other pertinent information as the Commissioner may require.

C. The licenses shall be issued on forms prescribed by the Commissioner. Any two or more licenses may be issued for concurrent operation of more than one assisted living facility, adult day care center, or child welfare agency, but each license shall be issued upon a separate form. Each license and renewals thereof for an assisted living facility, adult day care center, or child welfare agency may be issued for periods of up to three successive years, unless sooner revoked or surrendered. Licenses issued to child day centers under this chapter shall have a duration of two years from date of issuance.

D. The length of each license or renewal thereof for an assisted living facility shall be based on the judgment of the Commissioner regarding the compliance history of the facility and the extent to which it meets or exceeds state licensing standards. On the basis of this judgment, the Commissioner may issue licenses or renewals thereof for periods of six months, one year, two years, or three years.

E. The Commissioner may extend or shorten the duration of licensure periods for a child welfare agency whenever, in his sole discretion, it is administratively necessary to redistribute the workload for greater efficiency in staff utilization.

F. Each license shall indicate the maximum number of persons who may be cared for in the assisted living facility, adult day care center, or child welfare agency for which it is issued.

G. The license and any other documents required by the Commissioner shall be posted in a conspicuous place on the licensed premises.

H. Every person issued a license that has not been suspended or revoked shall renew such license prior to its expiration.

**§ 63.2-1709. Enforcement and sanctions; assisted living facilities and adult day care centers; interim administration; receivership, revocation, denial, summary suspension.**

A. Upon receipt and verification by the Commissioner of information from any source indicating an imminent and substantial risk of harm to residents, the Commissioner may require an assisted living facility to contract with an individual licensed by the Board of Long-Term Care Administrators, to be either selected from a list created and maintained by the Department of Medical Assistance Services or selected from a pool of appropriately licensed administrators recommended by the owner of the assisted living facility, to administer, manage, or operate the assisted living facility on an interim basis, and to attempt to bring the facility into compliance with all relevant requirements of law, regulation, or any plan of correction approved by the Commissioner. Such contract shall require the interim administrator to comply with any and all requirements established by the Department to ensure the health, safety, and welfare of the residents. Prior to or upon conclusion of the period of interim administration, management, or operation, an inspection shall be conducted to determine whether operation of the assisted living facility shall be permitted to continue or should cease. Such interim administration, management, or operation shall not be permitted when defects in the conditions of the premises of the assisted living facility (i) present imminent and substantial risks to the health, safety, and welfare of residents, and (ii) may not be corrected within a reasonable period of time. Any decision by the Commissioner to require the employment of a person to administer, manage, or operate an assisted living facility shall be subject to the rights of judicial review and appeal as provided in the Administrative Process Act (§ 2.2-4000 et seq.). Actual and reasonable costs of such interim administration shall be the responsibility of and shall be borne by the owner of the assisted living facility.

B. The Board shall adopt regulations for the Commissioner to use in determining when the imposition of administrative sanctions or initiation of court proceedings, severally or jointly, is appropriate in order to ensure prompt correction of violations in assisted living facilities and adult day care centers involving noncompliance with state law or regulation as discovered through any inspection or investigation conducted by the Departments of Social Services, Health, or Behavioral Health and Developmental Services. The Commissioner may impose such sanctions or take such actions as are appropriate for violation of any of the provisions of this subtitle or any regulation adopted under any provision of this subtitle that adversely affects the health, safety or welfare of an assisted living facility resident or an adult day care participant. Such sanctions or actions may include (i) petitioning the court to appoint a receiver for any assisted living facility or adult day care center and (ii) revoking or denying renewal of the license for the assisted living facility or adult day care center for violation of any of the provisions of this subtitle, § 54.1-3408 or any regulation adopted under this subtitle that violation adversely affects, or is an imminent and substantial threat to, the health, safety or welfare of the person cared for therein, or for permitting, aiding or abetting the commission of any illegal act in an assisted living facility or adult day care center.

C. The Commissioner may issue a summary order of suspension of the license to operate the assisted living facility pursuant to (i) *for assisted living facilities operated by agencies of the Commonwealth, the procedures set forth in § 63.2-1710.1* or (ii) *for all other assisted living facilities, the procedures hereinafter set forth in conjunction with any proceeding for revocation, denial, or other action when conditions or practices exist that pose an imminent and substantial threat to the health, safety, and welfare of the residents.* Before a summary order of suspension shall take effect, the Commissioner shall issue to the assisted living facility a notice of summary order of suspension setting forth ~~(i)~~ (a) the procedures for the summary order of suspension, ~~(ii)~~ (b) hearing and appeal rights as provided under this subsection, and ~~(iii)~~ (c) facts and evidence that formed the basis for which the summary order of suspension is sought. Such notice shall be served on the assisted living facility or its designee as soon as practicable thereafter by personal service or certified mail, return receipt requested, to the address of record of the assisted living facility. The order shall state the time, date, and location of a hearing to determine whether the suspension is appropriate. Such hearing shall be presided over by a hearing officer selected by the Commissioner from a list prepared by the Executive Secretary of the Supreme Court of Virginia and shall be held as soon as practicable, but in no event later than 15 business days following service of the notice of hearing; however, the hearing officer may grant a written request for a continuance, not to exceed an additional 10 business days, for good cause shown. After such hearing, the hearing officer shall provide to the Commissioner written findings and conclusions, together with a recommendation whether the license should be summarily suspended, whereupon the Commissioner shall adopt the hearing officer's recommended decision unless to do so would be an error of law or Department policy. Any final agency case decision in which the Commissioner rejects a hearing officer's recommended decision shall state with particularity the basis for rejection. The Commissioner shall issue: ~~(a)~~ (1) a final order of summary suspension or ~~(b)~~ (2) an order that summary suspension is not warranted by the facts and circumstances presented. A final order of summary suspension shall include notice that the assisted living facility may appeal the Commissioner's decision to the appropriate circuit court no later than 10 days following service of the order. A copy of any final order of summary suspension shall be prominently displayed by the provider at each public entrance of the facility, or in lieu thereof, the provider may display a written statement summarizing the terms of the order in a prominent location, printed in a clear and legible size and typeface, and identifying the location within the facility where the final order of summary suspension may be reviewed.

Upon appeal, the sole issue before the court shall be whether the Department had reasonable grounds to require the assisted living facility to cease operations during the pendency of the concurrent revocation, denial, or other proceeding. Any concurrent revocation, denial, or other proceeding shall not be affected by the outcome of any hearing on the appropriateness of the summary order of suspension. Failure to comply with the summary order of suspension shall constitute an offense under subdivision 1 of § 63.2-1712. All agencies and subdivisions of the Commonwealth shall cooperate with the Commissioner in the relocation of residents of an assisted living facility whose license has been summarily suspended pursuant to this section and in any other actions necessary to reduce the risk of further harm to residents.

D. Notice of the Commissioner's intent to revoke or deny renewal of the license for ~~the~~ *an assisted living facility or to summarily suspend the license of an assisted living facility* shall be provided by the Department and a copy of such notice shall be posted in a prominent place at each public entrance of the licensed premises to advise consumers of serious or persistent violations. In determining whether to deny, revoke, or summarily suspend a license, the Commissioner may choose to deny, revoke, or summarily suspend only certain authority of the assisted living facility to operate, and may restrict or modify the assisted living facility's authority to provide certain services or perform certain functions that the Commissioner determines should be restricted or modified in order to protect the health, safety, or welfare of the residents. Such *proposed* denial, revocation, or summary suspension of certain services or functions may be appealed (i) *if the assisted living facility is operated by an agency of the Commonwealth, in accordance with the provisions of § 63.2-1710.2 and (ii) for all other assisted living facilities*, as otherwise provided in this subtitle for any denial, revocation, or summary suspension.

**§ 63.2-1709.2. Enforcement and sanctions; special orders; civil penalties.**

A. Notwithstanding any other provision of law, following a proceeding as provided in § 2.2-4019, the Commissioner may issue a special order (i) for violation of any of the provisions of this subtitle, § 54.1-3408, or any regulation adopted under any provision of this subtitle which violation adversely affects, or is an imminent and substantial threat to, the health, safety, or welfare of the person cared for therein, or (ii) for permitting, aiding, or abetting the commission of any illegal act in an assisted living facility, adult day care center, or child welfare agency. Notice of the Commissioner's intent to take any of the actions enumerated in subdivisions B 1 through B 7 shall be provided by the Department and a copy of such notice shall be posted in a prominent place at each public entrance of the licensed premises to advise consumers of serious or persistent violations. The issuance of a special order shall be considered a case decision as defined in § 2.2-4001. *Actions set forth in subsection B may be appealed by (a) an assisted living facility, adult day care center, or child welfare agency operated by an agency of the Commonwealth in accordance with § 63.2-1710.2 or (b) any other assisted living facility, adult day care center, or child welfare agency in accordance with the Administrative Process Act (§ 2.2-4000 et seq.).* The Commissioner shall not delegate his authority to impose civil penalties in conjunction with the issuance of special orders.

B. The Commissioner may take the following actions regarding assisted living facilities, adult day care centers, and child welfare agencies through the issuance of a special order and may require a copy of the special order provided by the Department to be posted in a prominent place at each public entrance of the licensed premises to advise consumers of serious or persistent violations:

1. Place a licensee on probation upon finding that the licensee is substantially out of compliance with the terms of its license and that the health and safety of residents, participants, or children are at risk;
2. Reduce licensed capacity or prohibit new admissions when the Commissioner concludes that the licensee cannot make necessary corrections to achieve compliance with regulations except by a temporary restriction of its scope of service;
3. Mandate training for the licensee or licensee's employees, with any costs to be borne by the licensee, when the Commissioner concludes that the lack of such training has led directly to violations of regulations;
4. Assess civil penalties for each day the assisted living facility is or was out of compliance with the terms of its license and the health, safety, and welfare of residents are at risk, which shall be paid into the state treasury and credited to the Assisted Living Facility Education, Training, and Technical Assistance Fund created pursuant to § 63.2-1803.1; *however, no civil penalty shall be imposed pursuant to this subdivision on any assisted living facility operated by an agency of the Commonwealth.* The aggregate amount of such civil penalties shall not exceed \$10,000 for assisted living facilities in any 12-month period. Criteria for imposition of civil penalties and amounts, expressed in ranges, shall be developed by the Board, and shall be based upon the severity, pervasiveness, duration, and degree of risk to the health, safety, or welfare of residents. Such civil penalties shall be applied by the Commissioner in a consistent manner. Such criteria shall also provide that (i) the Commissioner may accept a plan of correction, including a schedule of compliance, from an assisted living facility prior to setting a civil penalty, and (ii) the Commissioner may reduce or abate the penalty amount if the facility complies with the plan of correction within its terms.

A single act, omission, or incident shall not give rise to imposition of multiple civil penalties even though such act, omission, or incident may violate more than one statute or regulation. A civil penalty that is not appealed becomes due on the first day after the appeal period expires. The license of an assisted living facility that has failed to pay a civil penalty due under this section shall not be renewed until the civil penalty has been paid in full, with interest, provided that the Commissioner may renew a license when an unpaid civil penalty is the subject of a pending appeal;

5. Assess civil penalties of not more than \$500 per inspection upon finding that the adult day care center or child welfare agency is substantially out of compliance with the terms of its license and the health and safety of residents,

participants, or children are at risk; *however, no civil penalty shall be imposed pursuant to this subdivision on any adult day care center or child welfare agency operated by an agency of the Commonwealth;*

6. Require licensees to contact parents, guardians, or other responsible persons in writing regarding health and safety violations; and

7. Prevent licensees who are substantially out of compliance with the licensure terms or in violation of the regulations from receiving public funds.

C. The Board shall adopt regulations to implement the provisions of this section.

**§ 63.2-1710. Appeal from refusal, denial of renewal, or revocation of license.**

A. Whenever the Commissioner refuses to issue a license or to renew a license, or revokes a license for an assisted living facility, adult day care center, or child welfare agency *operated by an agency of the Commonwealth, the provisions of § 63.2-1710.2 shall apply. Whenever the Commissioner refuses to issue a license or to renew a license or revokes a license for an assisted living facility, adult day care center, or child welfare agency other than an assisted living facility, adult day care center, or child welfare agency operated by an agency of the Commonwealth,* the provisions of the Administrative Process Act (§ 2.2-4000 et seq.) shall apply, except that all appeals from notice of the Commissioner's intent to refuse to issue or renew, or revoke a license shall be received in writing from the assisted living facility, adult day care center or child welfare agency operator within fifteen days of the date of receipt of the notice. Judicial review of a final review agency decision shall be in accordance with the provisions of the Administrative Process Act. No stay may be granted upon appeal to the Virginia Supreme Court.

B. In every appeal to a court of record, the Commissioner shall be named defendant.

C. An appeal, taken as provided in this section, shall operate to stay any criminal prosecution for operation without a license.

D. When issuance or renewal of a license as an assisted living facility or adult day care center has been refused by the Commissioner, the applicant shall not thereafter for a period of one year apply again for such license unless the Commissioner in his sole discretion believes that there has been such a change in the conditions on account of which he refused the prior application as to justify considering the new application. When an appeal is taken by the applicant pursuant to subsection A, the one-year period shall be extended until a final decision has been rendered on appeal.

E. When issuance or renewal of a license for a child welfare agency has been refused by the Commissioner, the applicant shall not thereafter for a period of six months apply again for such license unless the Commissioner in his sole discretion believes that there has been such a change in the conditions on account of which he refused the prior application as to justify considering the new application. When an appeal is taken by the applicant pursuant to subsection A, the six-month period shall be extended until a final decision has been rendered on appeal.

**§ 63.2-1710.1. Summary order of suspension; assisted living facilities, group homes, and children's residential facilities operated by an agency of the Commonwealth.**

*Whenever the Commissioner issues a summary order of suspension of the license to operate an assisted living facility, group home, or children's residential facility operated by an agency of the Commonwealth:*

1. *Before such summary order of suspension shall take effect, the Commissioner shall issue to the assisted living facility, group home, or children's residential facility a notice of summary order of suspension setting forth (i) the procedures for a hearing and right of review as provided in this section and (ii) facts and evidence that formed the basis on which the summary order of suspension is sought. Such notice shall be served on the licensee or its designee as soon as practicable thereafter by personal service or certified mail, return receipt requested, to the address of record of the licensee. The notice shall state the time, date, and location of a hearing to determine whether the suspension is appropriate. Such hearing shall be held no later than three business days after the issuance of the notice of the summary order of suspension and shall be convened by the Commissioner or his designee. After such hearing, the Commissioner may issue a final order of summary suspension or may find that such summary suspension is not warranted by the facts and circumstances presented.*

2. *A final order of summary suspension shall include notice that the licensee may request, in writing and within three business days after receiving the Commissioner's decision, that the Commissioner refer the matter to the Secretary of Health and Human Resources for resolution within three business days of the referral. Any determination by the Secretary shall be final and not subject to judicial review. If the final order of summary suspension is upheld, it shall take effect immediately, and a copy of the final order of summary suspension shall be prominently displayed by the licensee at each public entrance of the facility. Any concurrent revocation, denial, or other proceedings shall not be affected by the outcome of any determination by the Secretary.*

**§ 63.2-1710.2. Right to appeal notice of intent; assisted living facilities, adult day care centers, and child welfare agencies operated by agencies of the Commonwealth.**

*An assisted living facility, adult day care center, or child welfare agency operated by an agency of the Commonwealth shall have the right to appeal any notice of intent as follows:*

1. *Within 30 days after receiving a notice of intent to impose a sanction, the licensee shall request in writing that the Commissioner review the intended agency action and may submit, together with such request, relevant information, documentation, or other pertinent data supporting its appeal. The Commissioner shall issue a decision within 60 days after receiving the request and shall have the authority to uphold the sanction or take whatever action he deems appropriate to resolve the controversy.*

2. If the assisted living facility, adult day care center, or child welfare agency disputes the Commissioner's decision, the licensee shall request, within 30 days of receiving the Commissioner's decision, that the Commissioner refer the matter to the Secretary of Health and Human Resources. The Secretary shall issue a decision within 60 days of receiving the request for review. The Secretary's decision shall be final and shall not be subject to review.

**§ 63.2-1737. Licensure of group homes and residential facilities for children.**

A. Notwithstanding any other provisions of this subtitle, the Department shall cooperate with other state departments in fulfilling their respective licensing and certification responsibilities of children's residential facilities. The Board shall adopt regulations establishing the Department as the single licensing agency for the regulation of children's residential facilities, including group homes, which provide social services programs, with the exception of educational programs licensed by the Department of Education and facilities regulated by the Department of Juvenile Justice. Notwithstanding any other provisions of this chapter, licenses issued to children's residential facilities may be issued for periods of up to 36 successive months.

B. The Board's regulations for the regulation of children's residential facilities shall address the services required to be provided in such facilities as it may deem appropriate to ensure the health and safety of the children. In addition, the Board's regulations shall include, but shall not be limited to (i) specifications for the structure and accommodations of such facilities according to the needs of the children; (ii) rules concerning allowable activities, local government- and facility-imposed curfews, and study, recreational, and bedtime hours; and (iii) a requirement that each facility have a community liaison who shall be responsible for facilitating cooperative relationships with the neighbors, the school system, local law enforcement, local government officials, and the community at large.

C. Notwithstanding any other provisions of this chapter, any facility licensed by the Commissioner as a child-caring institution as of January 1, 1987, and that receives no public funds shall be licensed under minimum standards for licensed child-caring institutions as adopted by the Board and in effect on January 1, 1987. Effective January 1, 1987, all children's residential facilities shall be licensed under the regulations for children's residential facilities.

D. Pursuant to the procedures set forth in subsection E and in addition to the authority for other disciplinary actions provided in this title, the Commissioner may issue a summary order of suspension of the license of any group home or residential facility for children, in conjunction with any proceeding for revocation, denial, or other action, when conditions or practices exist in the home or facility that pose an immediate and substantial threat to the health, safety, and welfare of the children who are residents and the Commissioner believes the operation of the home or facility should be suspended during the pendency of such proceeding.

E. The summary order of suspension shall take effect upon its issuance and shall be served on the licensee or its designee as soon as practicable thereafter by personal service and certified mail, return receipt requested, to the address of record of the licensee. The order shall state the time, date, and location of a hearing to determine whether the suspension is appropriate. Such hearing shall be held no later than three business days after the issuance of the summary order of suspension and shall be convened by the Commissioner or his designee.

After such hearing, the Commissioner may issue a final order of summary suspension or may find that such summary suspension is not warranted by the facts and circumstances presented. A final order of summary suspension shall include notice that the licensee may appeal the Commissioner's decision to the appropriate circuit court no later than 10 days following issuance of the order. The sole issue before the court shall be whether the Commissioner had reasonable grounds to require the licensee to cease operations during the pendency of the concurrent revocation, denial, or other proceeding. The concurrent revocation, denial, or other proceeding shall not be affected by the outcome of any hearing on the appropriateness of the summary suspension.

The willful and material failure to comply with the summary order of suspension or final order of summary suspension shall be punishable as a Class 2 misdemeanor. The Commissioner may require the cooperation of any other agency or subdivision of the Commonwealth in the relocation of children who are residents of a home or facility whose license has been summarily suspended pursuant to this section and in any other actions necessary to reduce the risk of further harm to such residents.

*The provisions of this subsection shall not apply to any group home or children's residential facility operated by an agency of the Commonwealth, which shall instead be governed by the provisions of § 63.2-1710.1.*

F. In addition to the requirements set forth in subsection B, the Board's regulations shall require, as a condition of initial licensure or, if appropriate, license renewal, that the applicant shall: (i) be personally interviewed by Department personnel to determine the qualifications of the owner or operator before granting an initial license; (ii) provide evidence of having relevant prior experience before any initial license is granted; (iii) provide, as a condition of initial licensure or renewal licensure, evidence of staff participation in training on appropriate siting of the residential facilities for children, good neighbor policies, community relations, and shaken baby syndrome and its effects; and (iv) be required to screen residents prior to admission to exclude individuals with behavioral issues, such as histories of violence, that cannot be managed in the relevant residential facility.

G. In addition, the Department shall:

1. Notify relevant local governments and placing and funding agencies, including the Office of Children's Services, of multiple health and safety or human rights violations in residential facilities for which the Department serves as lead licensure agency when such violations result in the lowering of the licensure status of the facility to provisional;

2. Post on the Department's website information concerning the application for initial licensure of or renewal, denial, or provisional licensure of any residential facility for children located in the locality;
3. Require all licensees to self-report lawsuits against or settlements with residential facility operators relating to the health and safety or human rights of residents and any criminal charges that may have been made relating to the health and safety or human rights of residents;
4. Require proof of contractual agreements or staff expertise to provide educational services, counseling services, psychological services, medical services, or any other services needed to serve the residents in accordance with the facility's operational plan;
5. Disseminate to local governments, or post on the Department's website, an accurate (updated weekly or monthly as necessary) list of licensed and operating group homes and other residential facilities for children by locality with information on services and identification of the lead licensure agency; and
6. Modify the term of the license at any time during the term of the license based on a change in compliance.

"Board" means the Board of Optometry.

"Optometrist" means any person practicing the profession of optometry as defined in this chapter and the regulations of the Board.

*An Act to amend and reenact §§ 16.1-260, 19.2-83.1, and 22.1-279.3:1 of the Code of Virginia, relating to reports to school division superintendents; abduction.*

[H 292]

Approved March 9, 2018

**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 16.1-260, 19.2-83.1, and 22.1-279.3:1 of the Code of Virginia are amended and reenacted as follows:**

**§ 16.1-260. Intake; petition; investigation.**

A. All matters alleged to be within the jurisdiction of the court shall be commenced by the filing of a petition, except as provided in subsection H and in § 16.1-259. The form and content of the petition shall be as provided in § 16.1-262. No individual shall be required to obtain support services from the Department of Social Services prior to filing a petition seeking support for a child. Complaints, requests, and the processing of petitions to initiate a case shall be the responsibility of the intake officer. However, (i) the attorney for the Commonwealth of the city or county may file a petition on his own motion with the clerk; (ii) designated nonattorney employees of the Department of Social Services may complete, sign, and file petitions and motions relating to the establishment, modification, or enforcement of support on forms approved by the Supreme Court of Virginia with the clerk; (iii) designated nonattorney employees of a local department of social services may complete, sign, and file with the clerk, on forms approved by the Supreme Court of Virginia, petitions for foster care review, petitions for permanency planning hearings, petitions to establish paternity, motions to establish or modify support, motions to amend or review an order, and motions for a rule to show cause; and (iv) any attorney may file petitions on behalf of his client with the clerk except petitions alleging that the subject of the petition is a child alleged to be in need of

services, in need of supervision, or delinquent. Complaints alleging abuse or neglect of a child shall be referred initially to the local department of social services in accordance with the provisions of Chapter 15 (§ 63.2-1500 et seq.) of Title 63.2. Motions and other subsequent pleadings in a case shall be filed directly with the clerk. The intake officer or clerk with whom the petition or motion is filed shall inquire whether the petitioner is receiving child support services or public assistance. No individual who is receiving support services or public assistance shall be denied the right to file a petition or motion to establish, modify, or enforce an order for support of a child. If the petitioner is seeking or receiving child support services or public assistance, the clerk, upon issuance of process, shall forward a copy of the petition or motion, together with notice of the court date, to the Division of Child Support Enforcement.

B. The appearance of a child before an intake officer may be by (i) personal appearance before the intake officer or (ii) use of two-way electronic video and audio communication. If two-way electronic video and audio communication is used, an intake officer may exercise all powers conferred by law. All communications and proceedings shall be conducted in the same manner as if the appearance were in person, and any documents filed may be transmitted by facsimile process. The facsimile may be served or executed by the officer or person to whom sent, and returned in the same manner, and with the same force, effect, authority, and liability as an original document. All signatures thereon shall be treated as original signatures. Any two-way electronic video and audio communication system used for an appearance shall meet the standards as set forth in subsection B of § 19.2-3.1.

When the court service unit of any court receives a complaint alleging facts which may be sufficient to invoke the jurisdiction of the court pursuant to § 16.1-241, the unit, through an intake officer, may proceed informally to make such adjustment as is practicable without the filing of a petition or may authorize a petition to be filed by any complainant having sufficient knowledge of the matter to establish probable cause for the issuance of the petition.

An intake officer may proceed informally on a complaint alleging a child is in need of services, in need of supervision, or delinquent only if the juvenile (i) is not alleged to have committed a violent juvenile felony or (ii) has not previously been proceeded against informally or adjudicated delinquent for an offense that would be a felony if committed by an adult. A petition alleging that a juvenile committed a violent juvenile felony shall be filed with the court. A petition alleging that a juvenile is delinquent for an offense that would be a felony if committed by an adult shall be filed with the court if the juvenile had previously been proceeded against informally by intake or had been adjudicated delinquent for an offense that would be a felony if committed by an adult.

If a juvenile is alleged to be a truant pursuant to a complaint filed in accordance with § 22.1-258 and the attendance officer has provided documentation to the intake officer that the relevant school division has complied with the provisions of § 22.1-258, then the intake officer shall file a petition with the court. The intake officer may defer filing the complaint for 90 days and proceed informally by developing a truancy plan. The intake officer may proceed informally only if the juvenile has not previously been proceeded against informally or adjudicated in need of supervision for failure to comply with compulsory school attendance as provided in § 22.1-254. The juvenile and his parent or parents, guardian, or other person standing in loco parentis must agree, in writing, for the development of a truancy plan. The truancy plan may include requirements that the juvenile and his parent or parents, guardian, or other person standing in loco parentis participate in such programs, cooperate in such treatment, or be subject to such conditions and limitations as necessary to ensure the juvenile's compliance with compulsory school attendance as provided in § 22.1-254. The intake officer may refer the juvenile to the appropriate public agency for the purpose of developing a truancy plan using an interagency interdisciplinary team approach. The team may include qualified personnel who are reasonably available from the appropriate department of social services, community services board, local school division, court service unit, and other appropriate and available public and private agencies and may be the family assessment and planning team established pursuant to § 2.2-5207. If at the end of the 90-day period the juvenile has not successfully completed the truancy plan or the truancy program, then the intake officer shall file the petition.

Whenever informal action is taken as provided in this subsection on a complaint alleging that a child is in need of services, in need of supervision, or delinquent, the intake officer shall (i) develop a plan for the juvenile, which may include restitution and the performance of community service, based upon community resources and the circumstances which resulted in the complaint, (ii) create an official record of the action taken by the intake officer and file such record in the juvenile's case file, and (iii) advise the juvenile and the juvenile's parent, guardian, or other person standing in loco parentis and the complainant that any subsequent complaint alleging that the child is in need of supervision or delinquent based upon facts which may be sufficient to invoke the jurisdiction of the court pursuant to § 16.1-241 will result in the filing of a petition with the court.

C. The intake officer shall accept and file a petition in which it is alleged that (i) the custody, visitation, or support of a child is the subject of controversy or requires determination, (ii) a person has deserted, abandoned, or failed to provide support for any person in violation of law, (iii) a child or such child's parent, guardian, legal custodian, or other person standing in loco parentis is entitled to treatment, rehabilitation, or other services which are required by law, (iv) family abuse has occurred and a protective order is being sought pursuant to § 16.1-253.1, 16.1-253.4, or 16.1-279.1, or (v) an act of violence, force, or threat has occurred, a protective order is being sought pursuant to § 19.2-152.8, 19.2-152.9, or 19.2-152.10, and either the alleged victim or the respondent is a juvenile. If any such complainant does not file a petition, the intake officer may file it. In cases in which a child is alleged to be abused, neglected, in need of services, in need of supervision, or delinquent, if the intake officer believes that probable cause does not exist, or that the authorization of a petition will not be in the best interest of the family or juvenile or that the matter may be effectively dealt with by some

agency other than the court, he may refuse to authorize the filing of a petition. The intake officer shall provide to a person seeking a protective order pursuant to § 16.1-253.1, 16.1-253.4, or 16.1-279.1 a written explanation of the conditions, procedures and time limits applicable to the issuance of protective orders pursuant to § 16.1-253.1, 16.1-253.4, or 16.1-279.1. If the person is seeking a protective order pursuant to § 19.2-152.8, 19.2-152.9, or 19.2-152.10, the intake officer shall provide a written explanation of the conditions, procedures, and time limits applicable to the issuance of protective orders pursuant to § 19.2-152.8, 19.2-152.9, or 19.2-152.10.

D. Prior to the filing of any petition alleging that a child is in need of supervision, the matter shall be reviewed by an intake officer who shall determine whether the petitioner and the child alleged to be in need of supervision have utilized or attempted to utilize treatment and services available in the community and have exhausted all appropriate nonjudicial remedies which are available to them. When the intake officer determines that the parties have not attempted to utilize available treatment or services or have not exhausted all appropriate nonjudicial remedies which are available, he shall refer the petitioner and the child alleged to be in need of supervision to the appropriate agency, treatment facility, or individual to receive treatment or services, and a petition shall not be filed. Only after the intake officer determines that the parties have made a reasonable effort to utilize available community treatment or services may he permit the petition to be filed.

E. If the intake officer refuses to authorize a petition relating to an offense that if committed by an adult would be punishable as a Class 1 misdemeanor or as a felony, the complainant shall be notified in writing at that time of the complainant's right to apply to a magistrate for a warrant. If a magistrate determines that probable cause exists, he shall issue a warrant returnable to the juvenile and domestic relations district court. The warrant shall be delivered forthwith to the juvenile court, and the intake officer shall accept and file a petition founded upon the warrant. If the court is closed and the magistrate finds that the criteria for detention or shelter care set forth in § 16.1-248.1 have been satisfied, the juvenile may be detained pursuant to the warrant issued in accordance with this subsection. If the intake officer refuses to authorize a petition relating to a child in need of services or in need of supervision, a status offense, or a misdemeanor other than Class 1, his decision is final.

Upon delivery to the juvenile court of a warrant issued pursuant to subdivision 2 of § 16.1-256, the intake officer shall accept and file a petition founded upon the warrant.

F. The intake officer shall notify the attorney for the Commonwealth of the filing of any petition which alleges facts of an offense which would be a felony if committed by an adult.

G. Notwithstanding the provisions of Article 12 (§ 16.1-299 et seq.), the intake officer shall file a report with the division superintendent of the school division in which any student who is the subject of a petition alleging that such student who is a juvenile has committed an act, wherever committed, which would be a crime if committed by an adult, or that such student who is an adult has committed a crime and is alleged to be within the jurisdiction of the court. The report shall notify the division superintendent of the filing of the petition and the nature of the offense, if the violation involves:

1. A firearm offense pursuant to Article 4 (§ 18.2-279 et seq.), 5 (§ 18.2-288 et seq.), 6 (§ 18.2-299 et seq.), 6.1 (§ 18.2-307.1 et seq.), or 7 (§ 18.2-308.1 et seq.) of Chapter 7 of Title 18.2;
2. Homicide, pursuant to Article 1 (§ 18.2-30 et seq.) of Chapter 4 of Title 18.2;
3. Felonious assault and bodily wounding, pursuant to Article 4 (§ 18.2-51 et seq.) of Chapter 4 of Title 18.2;
4. Criminal sexual assault, pursuant to Article 7 (§ 18.2-61 et seq.) of Chapter 4 of Title 18.2;
5. Manufacture, sale, gift, distribution or possession of Schedule I or II controlled substances, pursuant to Article 1 (§ 18.2-247 et seq.) of Chapter 7 of Title 18.2;
6. Manufacture, sale or distribution of marijuana pursuant to Article 1 (§ 18.2-247 et seq.) of Chapter 7 of Title 18.2;
7. Arson and related crimes, pursuant to Article 1 (§ 18.2-77 et seq.) of Chapter 5 of Title 18.2;
8. Burglary and related offenses, pursuant to §§ 18.2-89 through 18.2-93;
9. Robbery pursuant to § 18.2-58;
10. Prohibited criminal street gang activity pursuant to § 18.2-46.2;
11. Recruitment of other juveniles for a criminal street gang activity pursuant to § 18.2-46.3; ~~or~~
12. An act of violence by a mob pursuant to § 18.2-42.1; *or*
13. *Abduction of any person pursuant to § 18.2-47 or 18.2-48.*

The failure to provide information regarding the school in which the student who is the subject of the petition may be enrolled shall not be grounds for refusing to file a petition.

The information provided to a division superintendent pursuant to this section may be disclosed only as provided in § 16.1-305.2.

H. The filing of a petition shall not be necessary:

1. In the case of violations of the traffic laws, including offenses involving bicycles, hitchhiking and other pedestrian offenses, game and fish laws, or a violation of the ordinance of any city regulating surfing or any ordinance establishing curfew violations, animal control violations, or littering violations. In such cases the court may proceed on a summons issued by the officer investigating the violation in the same manner as provided by law for adults. Additionally, an officer investigating a motor vehicle accident may, at the scene of the accident or at any other location where a juvenile who is involved in such an accident may be located, proceed on a summons in lieu of filing a petition.

2. In the case of seeking consent to apply for the issuance of a work permit pursuant to subsection H of § 16.1-241.

3. In the case of a misdemeanor violation of § 18.2-250.1, 18.2-266, 18.2-266.1, or 29.1-738, or the commission of any other alcohol-related offense, provided the juvenile is released to the custody of a parent or legal guardian pending the initial

court date. The officer releasing a juvenile to the custody of a parent or legal guardian shall issue a summons to the juvenile and shall also issue a summons requiring the parent or legal guardian to appear before the court with the juvenile. Disposition of the charge shall be in the manner provided in § 16.1-278.8, 16.1-278.8:01, or 16.1-278.9. If the juvenile so charged with a violation of § 18.2-51.4, 18.2-266, 18.2-266.1, 18.2-272, or 29.1-738 refuses to provide a sample of blood or breath or samples of both blood and breath for chemical analysis pursuant to §§ 18.2-268.1 through 18.2-268.12 or 29.1-738.2, the provisions of these sections shall be followed except that the magistrate shall authorize execution of the warrant as a summons. The summons shall be served on a parent or legal guardian and the juvenile, and a copy of the summons shall be forwarded to the court in which the violation is to be tried. When a violation of § 18.2-250.1 is charged by summons, the juvenile shall be entitled to have the charge referred to intake for consideration of informal proceedings pursuant to subsection B, provided such right is exercised by written notification to the clerk not later than 10 days prior to trial. At the time such summons alleging a violation of § 18.2-250.1 is served, the officer shall also serve upon the juvenile written notice of the right to have the charge referred to intake on a form approved by the Supreme Court and make return of such service to the court. If the officer fails to make such service or return, the court shall dismiss the summons without prejudice.

4. In the case of offenses which, if committed by an adult, would be punishable as a Class 3 or Class 4 misdemeanor. In such cases the court may direct that an intake officer proceed as provided in § 16.1-237 on a summons issued by the officer investigating the violation in the same manner as provided by law for adults provided that notice of the summons to appear is mailed by the investigating officer within five days of the issuance of the summons to a parent or legal guardian of the juvenile.

I. Failure to comply with the procedures set forth in this section shall not divest the juvenile court of the jurisdiction granted it in § 16.1-241.

**§ 19.2-83.1. Report of arrest of school employees and adult students for certain offenses.**

A. Every state official or agency and every sheriff, police officer, or other local law-enforcement officer or conservator of the peace having the power to arrest for a felony, upon arresting a person who is known or discovered by the arresting official to be a full-time, part-time, permanent, or temporary teacher or other employee in any public school division in this Commonwealth for a felony or a Class 1 misdemeanor or an equivalent offense in another state shall file a report of such arrest with the division superintendent of the employing division as soon as practicable. The contents of the report required pursuant to this section shall be utilized by the local school division solely to implement the provisions of subsection B of § 22.1-296.2 and § 22.1-315.

B. Every state official or agency and every sheriff, police officer, or other local law-enforcement officer or conservator of the peace having the power to arrest for a felony, shall file a report, as soon as practicable, with the division superintendent of the school division in which the student is enrolled upon arresting a person who is known or discovered by the arresting official to be a student age 18 or older in any public school division in this Commonwealth for:

8. Burglary and related offenses, pursuant to §§ 18.2-89 through 18.2-93;
9. Robbery pursuant to § 18.2-58;
10. Prohibited criminal street gang activity pursuant to § 18.2-46.2; ~~or~~

**§ 22.1-279.3:1. Reports of certain acts to school authorities.**

A. Reports shall be made to the division superintendent and to the principal or his designee on all incidents involving (i) the assault or assault and battery, without bodily injury, of any person on a school bus, on school property, or at a school-sponsored activity; (ii) the assault and battery that results in bodily injury, sexual assault, death, shooting, stabbing, cutting, or wounding of any person, *abduction of any person as described in § 18.2-47 or 18.2-48*, or stalking of any person as described in § 18.2-60.3, on a school bus, on school property, or at a school-sponsored activity; (iii) any conduct involving alcohol, marijuana, a controlled substance, imitation controlled substance, or an anabolic steroid on a school bus, on school property, or at a school-sponsored activity, including the theft or attempted theft of student prescription medications; (iv) any threats against school personnel while on a school bus, on school property or at a school-sponsored activity; (v) the illegal carrying of a firearm, as defined in § 22.1-277.07, onto school property; (vi) any illegal conduct involving firebombs, explosive materials or devices, or hoax explosive devices, as defined in § 18.2-85, or explosive or incendiary devices, as defined in § 18.2-433.1, or chemical bombs, as described in § 18.2-87.1, on a school bus, on school property, or at a school-sponsored activity; (vii) any threats or false threats to bomb, as described in § 18.2-83, made against

school personnel or involving school property or school buses; or (viii) the arrest of any student for an incident occurring on a school bus, on school property, or at a school-sponsored activity, including the charge therefor.

B. Notwithstanding the provisions of Article 12 (§ 16.1-299 et seq.) of Chapter 11 of Title 16.1, local law-enforcement authorities shall report, and the principal or his designee and the division superintendent shall receive such reports, on offenses, wherever committed, by students enrolled at the school if the offense would be a felony if committed by an adult or would be a violation of the Drug Control Act (§ 54.1-3400 et seq.) and occurred on a school bus, on school property, or at a school-sponsored activity, or would be an adult misdemeanor involving any incidents described in clauses (i) through (viii) of subsection A, and whether the student is released to the custody of his parent or, if 18 years of age or more, is released on bond. As part of any report concerning an offense that would be an adult misdemeanor involving an incident described in clauses (i) through (viii) of subsection A, local law-enforcement authorities and attorneys for the Commonwealth shall be authorized to disclose information regarding terms of release from detention, court dates, and terms of any disposition orders entered by the court, to the superintendent of such student's school division, upon request by the superintendent, if, in the determination of the law-enforcement authority or attorney for the Commonwealth, such disclosure would not jeopardize the investigation or prosecution of the case. No disclosures shall be made pursuant to this section in violation of the confidentiality provisions of subsection A of § 16.1-300 or the record retention and redisclosure provisions of § 22.1-288.2. Further, any school superintendent who receives notification that a juvenile has committed an act that would be a crime if committed by an adult pursuant to subsection G of § 16.1-260 shall report such information to the principal of the school in which the juvenile is enrolled.

C. The principal or his designee shall submit a report of all incidents required to be reported pursuant to this section to the superintendent of the school division. The division superintendent shall annually report all such incidents to the Department of Education for the purpose of recording the frequency of such incidents on forms that shall be provided by the Department and shall make such information available to the public.

In submitting reports of such incidents, principals and division superintendents shall accurately indicate any offenses, arrests, or charges as recorded by law-enforcement authorities and required to be reported by such authorities pursuant to subsection B.

A division superintendent who knowingly fails to comply or secure compliance with the reporting requirements of this subsection shall be subject to the sanctions authorized in § 22.1-65. A principal who knowingly fails to comply or secure compliance with the reporting requirements of this section shall be subject to sanctions prescribed by the local school board, which may include, but need not be limited to, demotion or dismissal.

The principal or his designee shall also notify the parent of any student involved in an incident required pursuant to this section to be reported, regardless of whether disciplinary action is taken against such student or the nature of the disciplinary action. Such notice shall relate to only the relevant student's involvement and shall not include information concerning other students.

Whenever any student commits any reportable incident as set forth in this section, such student shall be required to participate in such prevention and intervention activities as deemed appropriate by the superintendent or his designee. Prevention and intervention activities shall be identified in the local school division's drug and violence prevention plans developed pursuant to the federal Improving America's Schools Act of 1994 (Title IV — Safe and Drug-Free Schools and Communities Act).

D. Except as may otherwise be required by federal law, regulation, or jurisprudence, the principal shall immediately report to the local law-enforcement agency any act enumerated in clauses (ii) through (vii) of subsection A that may constitute a criminal offense and may report to the local law-enforcement agency any incident described in clause (i) of subsection A. Nothing in this section shall require delinquency charges to be filed or prevent schools from dealing with school-based offenses through graduated sanctions or educational programming before a delinquency charge is filed with the juvenile court.

Further, except as may be prohibited by federal law, regulation, or jurisprudence, the principal shall also immediately report any act enumerated in clauses (ii) through (v) of subsection A that may constitute a criminal offense to the parents of any minor student who is the specific object of such act. Further, the principal shall report that the incident has been reported to local law enforcement as required by law and that the parents may contact local law enforcement for further information, if they so desire.

E. A statement providing a procedure and the purpose for the requirements of this section shall be included in school board policies required by § 22.1-253.13:7.

The Board of Education shall promulgate regulations to implement this section, including, but not limited to, establishing reporting dates and report formats.

F. For the purposes of this section, "parent" or "parents" means any parent, guardian or other person having control or charge of a child.

G. This section shall not be construed to diminish the authority of the Board of Education or to diminish the Governor's authority to coordinate and provide policy direction on official communications between the Commonwealth and the United States government.

## CHAPTER 285

*An Act to authorize the issuance of bonds, in an amount up to \$21,000,000 plus financing costs, pursuant to Article X, Section 9 (c) of the Constitution of Virginia, for paying costs of acquiring, constructing, and equipping revenue-producing capital projects at institutions of higher education of the Commonwealth; to authorize the Treasury Board, by and with the consent of the Governor, to fix the details of such bonds, to provide for the sale of such bonds, and to issue notes to borrow money in anticipation of the issuance of the bonds; to provide for the pledge of the net revenues of such capital projects and the full faith, credit, and taxing power of the Commonwealth for the payment of such bonds; and to provide that the interest income on such bonds and notes shall be exempt from all taxation by the Commonwealth and any political subdivision thereof.*

[H 766]

Approved March 9, 2018

Whereas, Article X, Section 9 (c) of the Constitution of Virginia provides that the General Assembly may authorize the creation of debt secured by a pledge of net revenues derived from rates, fees, or other charges and the full faith and credit of the Commonwealth of Virginia, provided that such debt is created for specific revenue-producing capital projects, including their enlargement or improvement, at, among others, institutions of higher education of the Commonwealth; and

Whereas, in accordance with Article X, Section 9 (c) of the Constitution of Virginia, the Governor has certified in writing, filed with the Auditor of Public Accounts, his opinion that the anticipated net revenues of each of the capital projects identified below to be pledged to the payment of the principal of and the interest on that portion of such debt issued for each such project will be sufficient to meet such payments as the same become due and to provide such reserves as may be required by law and that each of the capital projects complies with the requirements of Article X, Section 9 (c) of the Constitution of Virginia; now, therefore,

**Be it enacted by the General Assembly of Virginia:**

**1. §1. Title.**

*This act shall be known and may be cited as the "Commonwealth of Virginia Institutions of Higher Education Bond Act of 2018."*

**§ 2. Authorization of bonds and bond anticipation notes.**

*The Treasury Board is hereby authorized, by and with the consent of the Governor, to sell and issue, pursuant to Article X, Section 9 (c) of the Constitution of Virginia, at one time or from time to time, bonds of the Commonwealth, to be designated "Commonwealth of Virginia Institutions of Higher Education Bonds, Series ....." in an aggregate principal amount not exceeding \$21,000,000, plus amounts needed to fund issuance costs, reserve funds, construction period interest, and other financing expenses. The Treasury Board is further hereby authorized, by and with the consent of the Governor, to borrow money in anticipation of the issuance of bonds by the issuance of bond anticipation notes (BANs), including BANs issued as commercial paper. The proceeds of such bonds and BANs, excluding amounts needed to fund issuance costs, reserve funds, and other financing expenses, shall be used exclusively for the purpose of providing funds, with any other available funds, for paying all or a portion of the costs of acquiring, constructing, renovating, enlarging, improving, and equipping revenue-producing capital projects at institutions of higher education of the Commonwealth as follows:*

<i>Institution</i>	<i>Project Title</i>	<i>Amount</i>
<i>Norfolk State University</i>	<i>Construct Residence Housing</i>	<i>\$10,000,000</i>
<i>The College of William and Mary in Virginia</i>	<i>Renovate Dormitories: Green &amp; Gold Phase</i>	<i>\$11,000,000</i>
<i>Total</i>		<i>\$21,000,000</i>

**§ 3. Application of proceeds.**

*The proceeds, including any premium, of bonds and BANs (except the proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds, and (iii) refunding BANs), shall be deposited in a special capital outlay fund in the state treasury and, together with the investment income thereon, shall be disbursed by the State Treasurer for paying costs of acquiring, constructing, renovating, enlarging, improving, and equipping the authorized capital projects, including financing costs. The proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds, and (iii) refunding BANs shall be used to pay such BANs, refunded bonds, and refunded BANs.*

**§ 4. Details, sale of bonds and BANs.**

*Bonds and BANs shall be dated and may be made redeemable before their maturity or maturities at such price or prices or within such price parameters, all as may be determined by the Treasury Board, by and with the consent of the Governor. Bonds and BANs shall be in such form, shall bear interest at such rate or rates, either at fixed rates or at rates established by formula or other method, and may contain such other provisions, all as determined by the Treasury Board or, when authorized by the Treasury Board, the State Treasurer. The principal of and premium, if any, and the interest on bonds and BANs shall be payable in lawful money of the United States of America. Bonds and BANs may be certificated or uncertificated as determined by the Treasury Board. The Treasury Board may contract for services of such registrars, transfer agents, or other authenticating agents as it deems appropriate to maintain a record of the persons entitled to the bonds and BANs. Bonds and BANs issued in certificated form may be issued under a system of book entry for recording the ownership and transfer of ownership of rights to receive payments on the bonds and BANs. The Treasury Board shall fix the authorized denomination or denominations of the bonds and the place or places of payment of certificated bonds and BANs, which may be at the Office of the State Treasurer or at any bank or trust company within or without the Commonwealth. Bonds shall mature at such time or times not exceeding 30 years from their date or dates, and BANs shall mature at such time or times not exceeding five years from their date or dates.*

*The Treasury Board may sell bonds and BANs in such manner, by competitive bidding, negotiated sale, or private placement, and for such price or within such price parameters as it may determine, by and with the consent of the Governor, to be in the best interest of the Commonwealth.*

*In the discretion of the Treasury Board, bonds and BANs may be issued at one time or from time to time and may be sold and issued at the same time with other general obligation bonds and BANs, respectively, of the Commonwealth authorized pursuant to Article X, Section 9 (a) (3), (b), and (c) of the Constitution of Virginia, as separate issues or as a combined issue, designated "Commonwealth of Virginia General Obligation Bonds Bond Anticipation Notes, Series."*

§ 5. Execution of bonds and BANs.

Certificated bonds and BANs shall be signed on behalf of the Commonwealth by the Governor and by the State Treasurer, or shall bear their facsimile signatures, and shall bear the lesser seal of the Commonwealth or a facsimile thereof. If the bonds or BANs bear the facsimile signature of the State Treasurer, they shall be signed by such administrative assistant as the State Treasurer shall determine or by such registrar or paying agent as may be designated to sign them by the Treasury Board. If any officer whose signature or facsimile signature appears on any bonds or BANs ceases to be such officer before delivery, such signature or facsimile signature shall nevertheless be valid and sufficient for all purposes the same as if such officer had remained in office until such delivery, and any bond or BAN may bear the facsimile signature of, or may be signed by, such persons as at the actual time of execution are the proper officers to sign such bond or BAN, although at the date of such bond or BAN, such persons may not have been such officers.

§ 6. Sources for payment of expenses.

All expenses incurred under this act shall be paid from the proceeds of bonds or BANs, from payments made by the institutions for which the capital projects were authorized in § 2, or from any other available funds as the Treasury Board shall determine.

§ 7. Revenues.

Each institution of higher education named in § 2 is hereby authorized (i) to fix, revise, charge, and collect rates, fees, and charges for or in connection with the use, occupancy, and services of each capital project named in § 2 or the system of which such capital project is a part and (ii) to pledge to the portion of the bonds or BANs issued for such capital project the net revenues resulting from such rates, fees, and charges and remaining after payment of the expenses of operating the project or system, as the case may be. The institution is further authorized to create debt service and sinking funds for the payments of the principal of, premium, if any, and interest on the bonds and other reserves required by any agency of the United States of America purchasing the bonds or any portion thereof.

§ 8. Investments and contracts.

A. Pending the application of the proceeds of the bonds or BANs (including refunding bonds and BANs) to the purpose for which they have been authorized and the application of funds set aside for the purpose to the payment of bonds or BANs, they may be invested by the State Treasurer in securities that are legal investments under the laws of the Commonwealth for public funds and sinking funds, as the case may be. Whenever the State Treasurer receives interest from the investment of the proceeds of bonds or any BANs, such interest shall become a part of the principal of the bonds or any BANs and shall be used in the same manner as required for principal of the bonds or BANs.

B. The Commonwealth may enter into any contract or other arrangement that is determined to be necessary or appropriate to place the obligation or investment of the Commonwealth, as represented by bonds, BANs, or investments, in whole or in part, on the interest rate, cash flow, or other basis desired by the Commonwealth. Such contract or other arrangement may include, without limitation, contracts commonly known as interest rate swap agreements and futures or contracts providing for payments based on levels of, or changes in, interest rates. These contracts or arrangements may be entered into by the Commonwealth in connection with, or incidental to, entering into, or maintaining any (i) agreement that secures bonds or BANs or (ii) investment, or contract providing for investment, otherwise authorized by law. These contracts and arrangements may contain such payment, security, default, remedy, and other terms and conditions as determined by the Commonwealth, after giving due consideration to the creditworthiness of the counterparty or other obligated party, including any rating by any nationally recognized rating agency, and any other criteria as may be appropriate. The determinations referred to in this subsection may be made by the Treasury Board or any public funds manager with professional investment capabilities duly authorized by the Treasury Board to make such determinations.

C. Any money set aside and pledged to secure payments of bonds, BANs, or any of the contracts entered into pursuant to this section may be invested in accordance with subsection A and may be pledged to and used to service any of the contracts or other arrangements entered into pursuant to subsection B.

§ 9. Security for bonds and BANs.

The net revenues of the capital projects set forth above and the full faith and credit of the Commonwealth are hereby irrevocably pledged for the payment of the principal of and the interest on bonds and BANs (unless the Treasury Board, by and with the consent of the Governor, shall provide otherwise) issued under this act. The proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds, and (iii) refunding BANs are hereby irrevocably pledged for the payment of principal of and interest and any premium on the BANs or bonds to be paid or redeemed thereby. In the event the net revenues pledged to the payment of the bonds or BANs are insufficient in any fiscal year for the timely payment of the principal of, premium, if any, and interest on the bonds or BANs, where the full faith and credit of the Commonwealth have been pledged, the General Assembly shall appropriate a sum sufficient therefor or the Governor shall direct payment therefor from the general fund revenues of the Commonwealth.

§ 10. Exemption of interest from tax.

The bonds and BANs issued under the provisions of this act, their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any county, city, or town, or other political subdivision thereof. The Treasury Board is authorized to take or refrain from taking any and all actions and to covenant to such effect, and to require the participating institutions to do and to covenant likewise, to the extent that, in the judgment of the Treasury Board, it is appropriate in order that interest on the bonds and BANs may be

exempt from federal income tax. Alternatively, interest on bonds and BANs may be made subject to inclusion in gross income of the holders thereof for federal income tax purposes.

§ 11. Refunding bonds and BANs.

The Treasury Board is authorized, by and with the consent of the Governor, to sell and issue, at one time or from time to time, refunding bonds and BANs of the Commonwealth and to refund any or all of the bonds and BANs, respectively, issued under this act or otherwise authorized pursuant to Article X, Section 9 (c) of the Constitution of Virginia. Refunding bonds and BANs may be issued in a principal amount up to the amount necessary to pay at maturity or redeem the bonds and BANs to be refunded and pay all issuance costs and other financing expenses of the refunding. Such refunding bonds and BANs may be issued whether or not the obligations to be refunded are then subject to redemption.

§ 12. Defeasance.

Any bond or BAN for which cash or direct obligations of the United States of America shall have been set aside in escrow with the State Treasurer or a bank or trust company, within or without the Commonwealth, shall be deemed no longer outstanding under the applicable authorizing instrument, this act, and Article X, Section 9 (c) or (b), as the case may be, of the Constitution of Virginia.

§ 13. Severability.

The provisions of this act or the application thereof to any person or circumstance that are held invalid shall not affect the validity of other provisions or applications of this act which can be given effect without the invalid provisions or applications.

**2. That an emergency exists and this act is in force from its passage.**

*An Act to amend and reenact § 33.2-261 of the Code of Virginia, relating to value engineering.*

[S 125]

Approved March 9, 2018

**Be it enacted by the General Assembly of Virginia:**

**1. That § 33.2-261 of the Code of Virginia is amended and reenacted as follows:**

**§ 33.2-261. Value engineering required in certain projects.**

For the purposes of this section, "value engineering" means a systematic process of review and analysis of an engineering project by a team of persons not originally involved in the project. Such team may offer suggestions that would improve project quality and reduce total project cost, ranging from a combination or elimination of inefficient or expensive parts or steps in the original proposal to total redesign of the project using different technologies, materials, or methods.

The Department shall employ value engineering in conjunction with any project that has an estimated construction cost of more than \$15 million on any highway system using criteria established by the Department, ~~including all projects~~

costing more than \$5 million. For the purposes of this section, "value engineering" means a systematic process of review and analysis of an engineering project by a team of persons not originally involved in the project. Such team may offer suggestions that would improve project quality and reduce total project cost, ranging from a combination or elimination of inefficient or expensive parts or steps in the original proposal to total redesign of the project using different technologies, materials, or methods.

After a review, the Commissioner of Highways may waive the requirements of this section for any project for compelling reasons. Any such waiver shall be in writing, state the reasons for the waiver, and apply only to a single project.

The provisions of this section shall not apply to projects that are designed (i) utilizing a design-build contract pursuant to § 33.2-209 or 33.2-269 or (ii) pursuant to the Public-Private Transportation Act of 1995 (§ 33.2-1800 et seq.).

**CHAPTER 291**

An Act to amend and reenact § 58.1-3216 of the Code of Virginia, relating to recapture of deferred real estate taxes.

[S 228]

Approved March 9, 2018

**Be it enacted by the General Assembly of Virginia:**

**1. That § 58.1-3216 of the Code of Virginia is amended and reenacted as follows:**

**§ 58.1-3216. Deferral programs; taxes to be lien on property.**

A. For purposes of this section:

"Nonqualified transfer" means a transfer in ownership of the real estate by gift or otherwise not for bona fide consideration, other than (i) a transfer by the qualified owner to a spouse, including without limitation a transfer creating a tenancy for life or joint lives; (ii) a transfer by the qualified owner or the qualified owner and his spouse to a revocable inter vivos trust over which the qualified owner, or the qualified owner and his spouse, hold the power of revocation; or (iii) a transfer to an irrevocable trust under which a qualified owner alone or in conjunction with his spouse possesses a life estate or an estate for joint lives, or enjoys a continuing right of use or support.

"Qualified owner" means the owner of the real property who qualifies for a tax deferral by county, city, or town ordinance.

B. In the event of a deferral of real estate taxes granted by ordinance, the accumulated amount of taxes deferred shall be paid to the county, city, or town concerned by the vendor, transferor, executor, or administrator: (i) upon the sale of the dwelling, real estate; (ii) upon a nonqualified transfer of the real estate; or (iii) from the estate of the decedent within one year after the death of the last qualified owner thereof who qualifies for tax deferral by the provisions of this section and by the county, city or town ordinance. Such deferred real estate taxes shall be paid without penalty, except that any ordinance establishing a combined program of exemptions and deferrals, or deferrals only, may provide for interest not to exceed eight percent per annum year on any amount so deferred, and such taxes and interest, if applicable, shall constitute a lien upon the said real estate as if it had been assessed without regard to the deferral permitted by this article. Any such lien shall, to the extent that it exceeds in the aggregate ten 10 percent of the price for which such real estate may be sold, be inferior to all other liens of record.

**CHAPTER 292**

An Act to amend and reenact §§ 58.1-3503 and 58.1-3506 of the Code of Virginia, relating to personal property tax; computer equipment and peripherals used in data centers.

[S 268]

Approved March 9, 2018

**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 58.1-3503 and 58.1-3506 of the Code of Virginia are amended and reenacted as follows:**

**§ 58.1-3503. General classification of tangible personal property.**

A. Tangible personal property is classified for valuation purposes according to the following separate categories which are not to be considered separate classes for rate purposes:

1. Farm animals, except as exempted under § 58.1-3505.

2. Farm machinery, except as exempted under § 58.1-3505.

3. Automobiles, except those described in subdivisions 7, 8, and 9 of this subsection and in subdivision A 8 of § 58.1-3504, which shall be valued by means of a recognized pricing guide or if the model and year of the individual automobile are not listed in the recognized pricing guide, the individual vehicle may be valued on the basis of percentage or percentages of original cost. In using a recognized pricing guide, the commissioner shall use either of the following two methods. The commissioner may use all applicable adjustments in such guide to determine the value of each individual automobile, or alternatively, if the commissioner does not utilize all applicable adjustments in valuing each automobile, he shall use the base value specified in such guide which may be either average retail, wholesale, or loan value, so long as uniformly applied within classifications of property. If the model and year of the individual automobile are not listed in the

recognized pricing guide, the taxpayer may present to the commissioner proof of the original cost, and the basis of the tax for purposes of the motor vehicle sales and use tax as described in § 58.1-2405 shall constitute proof of original cost. If such percentage or percentages of original cost do not accurately reflect fair market value, or if the taxpayer does not supply proof of original cost, then the commissioner may select another method which establishes fair market value.

4. Trucks of less than two tons, which may be valued by means of a recognized pricing guide or, if the model and year of the individual truck are not listed in the recognized pricing guide, on the basis of a percentage or percentages of original cost.

5. Trucks and other vehicles, as defined in § 46.2-100, except those described in subdivisions 4, and 6 through 10 of this subsection, which shall be valued by means of either a recognized pricing guide using the lowest value specified in such guide or a percentage or percentages of original cost.

6. Manufactured homes, as defined in § 36-85.3, which may be valued on the basis of square footage of living space.

7. Antique motor vehicles, as defined in § 46.2-100, which may be used for general transportation purposes as provided in subsection C of § 46.2-730.

8. Taxicabs.

9. Motor vehicles with specially designed equipment for use by the handicapped, which shall not be valued in relation to their initial cost, but by determining their actual market value if offered for sale on the open market.

10. Motorcycles, mopeds, all-terrain vehicles, and off-road motorcycles as defined in § 46.2-100, campers and other recreational vehicles, which shall be valued by means of a recognized pricing guide or a percentage or percentages of original cost.

11. Boats weighing under five tons and boat trailers, which shall be valued by means of a recognized pricing guide or a percentage or percentages of original cost.

12. Boats or watercraft weighing five tons or more, which shall be valued by means of a percentage or percentages of original cost.

13. Aircraft, which shall be valued by means of a recognized pricing guide or a percentage or percentages of original cost.

14. Household goods and personal effects, except as exempted under § 58.1-3504.

15. Tangible personal property used in a research and development business, which shall be valued by means of a percentage or percentages of original cost.

16. Programmable computer equipment and peripherals used in business which shall be valued by means of a percentage or percentages of original cost to the taxpayer, or by such other method as may reasonably be expected to determine the actual fair market value.

17. *Computer equipment and peripherals used in a data center, as defined in subdivision A 43 of § 58.1-3506, which shall be valued by means of a percentage or percentages of original cost, or by such other method as may reasonably be expected to determine the actual fair market value.*

18. All tangible personal property employed in a trade or business other than that described in subdivisions 1 through 16 of this subsection 17, which shall be valued by means of a percentage or percentages of original cost.

~~18.~~ 19. Outdoor advertising signs regulated under Article 1 (§ 33.2-1200 et seq.) of Chapter 12 of Title 33.2.

~~19.~~ 20. All other tangible personal property.

B. Methods of valuing property may differ among the separate categories, so long as each method used is uniform within each category, is consistent with requirements of this section and may reasonably be expected to determine actual fair market value as determined by the commissioner of revenue or other assessing official; however, assessment ratios shall only be used with the concurrence of the local governing body. A commissioner of revenue shall upon request take into account the condition of the property. The term "condition of the property" includes, but is not limited to, technological obsolescence of property where technological obsolescence is an appropriate factor for valuing such property. The commissioner of revenue shall make available to taxpayers on request a reasonable description of his valuation methods. Such commissioner, or other assessing officer, or his authorized agent, when using a recognized pricing guide as provided for in this section, may automatically extend the assessment if the pricing information is stored in a computer.

**§ 58.1-3506. Other classifications of tangible personal property for taxation.**

A. The items of property set forth below are each declared to be a separate class of property and shall constitute a classification for local taxation separate from other classifications of tangible personal property provided in this chapter:

1. a. Boats or watercraft weighing five tons or more, not used solely for business purposes;

b. Boats or watercraft weighing less than five tons, not used solely for business purposes;

Approved March 9, 2018

**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 56-234, 56-265.1, 56-466.2, 56-576, 56-585.1, 56-585.1:1, 56-585.1:2, 56-599, and 56-600 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding a section numbered 56-585.1:4 as follows:**

**§ 56-234. Duty to furnish adequate service at reasonable and uniform rates.**

A. It shall be the duty of every public utility to furnish reasonably adequate service and facilities at reasonable and just rates to any person, firm or corporation along its lines desiring same. Notwithstanding any other provision of law:

1. A telephone company shall not have the duty to extend or expand its facilities to furnish service and facilities when the person, firm or corporation has service available from one or more alternative providers of wireline or terrestrial wireless communications services at prevailing market rates; and

2. A telephone company may meet its duty to furnish reasonably adequate service and facilities through the use of any and all available wireline and terrestrial wireless technologies; however, a telephone company, when restoring service to an existing wireline customer, shall offer the option to furnish service using wireline facilities.

For purposes of subdivisions 1 and 2, the Commission shall have the authority upon request of an individual, corporation, or other entity, or a telephone company, to determine whether the wireline or terrestrial wireless communications service available to the party requesting service is a reasonably adequate alternative to local exchange telephone service.

The use by a telephone company of wireline and terrestrial wireless technologies shall not be construed to grant any additional jurisdiction or authority to the Commission over such technologies.

For purposes of subdivision 1, "prevailing market rates" means rates similar to those generally available to consumers in competitive areas for the same services.

B. It shall be the duty of every public utility to charge uniformly therefor all persons, corporations or municipal corporations using such service under like conditions. However, no provision of law shall be deemed to preclude voluntary

rate or rate design tests or experiments, or other experiments involving the use of special rates, where such experiments have been approved by order of the Commission after notice and hearing and a finding that such experiments are necessary in order to acquire information which is or may be in furtherance of the public interest. *The Commission's final order regarding any petition filed by an investor-owned electric utility for approval of a voluntary rate or rate design test or experiment shall be entered the earlier of not more than six months after the filing of the petition or not more than three months after the date of any evidentiary hearing concerning such petition.* The charge for such service shall be at the lowest rate applicable for such service in accordance with schedules filed with the Commission pursuant to § 56-236. But, subject to the provisions of § 56-232.1, nothing contained herein or in § 56-481.1 shall apply to (i) schedules of rates for any telecommunications service provided to the public by virtue of any contract with, (ii) for any service provided under or relating to a contract for telecommunications services with, or (iii) contracts for service rendered by any telephone company to, the state government or any agency thereof, or by any other public utility to any municipal corporation or to the state or federal government. The provisions hereof shall not apply to or in any way affect any proceeding pending in the State Corporation Commission on or before July 1, 1950, and shall not confer on the Commission any jurisdiction not now vested in it with respect to any such proceeding.

C. The Commission may conclude that competition can effectively ensure reasonably adequate retail services in competitive exchanges and may carry out its duty to ensure that a public utility is furnishing reasonably adequate retail service in its competitive exchanges by monitoring individual customer complaints and requiring appropriate responses to such complaints.

**§ 56-265.1. Definitions.**

In this chapter the following terms shall have the following meanings:

(a) "Company" means a corporation, a limited liability company, an individual, a partnership, an association, a joint-stock company, a business trust, a cooperative, or an organized group of persons, whether incorporated or not; or any receiver, trustee or other liquidating agent of any of the foregoing in his capacity as such; but not a municipal corporation or a county, unless such municipal corporation or county has obtained a certificate pursuant to § 56-265.4:4.

(b) "Public utility" means any company ~~which~~ *that* owns or operates facilities within the Commonwealth of Virginia for the generation, transmission, *storage*, or distribution of electric energy for sale, for the production, storage, transmission, or distribution, otherwise than in enclosed portable containers, of natural or manufactured gas or geothermal resources for sale for heat, light or power, or for the furnishing of telephone service, sewerage facilities or water; ~~however.~~ *As used in this definition, a facility for the storage of electric energy for sale includes one or more pumped hydroelectricity generation and storage facilities located in the coalfield region of Virginia as described in § 15.2-6002. However, the term "public utility" shall does not include any of the following:*

(1) Except as otherwise provided in § 56-265.3:1, any company furnishing sewerage facilities, geothermal resources or water to less than 50 customers. Any company furnishing water or sewer services to 10 or more customers and excluded by this subdivision from the definition of "public utility" for purposes of this chapter nevertheless shall not abandon the water or sewer services unless and until approval is granted by the Commission or all the customers receiving such services agree to accept ownership of the company.

(2) Any company generating and distributing electric energy exclusively for its own consumption.

(3) Any company (A) which furnishes electric service together with heating and cooling services, generated at a central plant installed on the premises to be served, to the tenants of a building or buildings located on a single tract of land undivided by any publicly maintained highway, street or road at the time of installation of the central plant, and (B) which does not charge separately or by meter for electric energy used by any tenant except as part of a rental charge. Any company excluded by this subdivision from the definition of "public utility" for the purposes of this chapter nevertheless shall, within 30 days following the issuance of a building permit, notify the State Corporation Commission in writing of the ownership, capacity and location of such central plant, and it shall be subject, with regard to the quality of electric service furnished, to the provisions of Chapters 10 (§ 56-232 et seq.) and 17 (§ 56-509 et seq.) ~~of this title~~ and regulations thereunder and be deemed a public utility for such purposes, if such company furnishes such service to 100 or more lessees.

(4) Any company, or affiliate thereof, making a first or direct sale, or ancillary transmission or delivery service, of natural or manufactured gas to fewer than 35 commercial or industrial customers, which are not themselves "public utilities" as defined in this chapter, or to certain public schools as indicated in this subdivision, for use solely by such purchasing customers at facilities which are not located in a territory for which a certificate to provide gas service has been issued by the Commission under this chapter and which, at the time of the Commission's receipt of the notice provided under § 56-265.4:5, are not located within any area, territory, or jurisdiction served by a municipal corporation that provided gas distribution service as of January 1, 1992, provided that such company shall comply with the provisions of § 56-265.4:5. Direct sales or ancillary transmission or delivery services of natural gas to public schools in the following localities may be made without regard to the number of schools involved and shall not count against the "fewer than 35" requirement in this subdivision: the Counties of Dickenson, Wise, Russell, and Buchanan, and the City of Norton.

(5) Any company which is not a public service corporation and which provides compressed natural gas service at retail for the public.

(6) Any company selling landfill gas from a solid waste management facility permitted by the Department of Environmental Quality to a public utility certificated by the Commission to provide gas distribution service to the public in the area in which the solid waste management facility is located. If such company submits to the public utility a written offer

for sale of such gas and the public utility does not agree within 60 days to purchase such gas on mutually satisfactory terms, then the company may sell such gas to (i) any facility owned and operated by the Commonwealth which is located within three miles of the solid waste management facility or (ii) any purchaser after such landfill gas has been liquefied. The provisions of this subdivision shall not apply to the City of Lynchburg or Fairfax County.

(7) Any authority created pursuant to the Virginia Water and Waste Authorities Act (§ 15.2-5100 et seq.) making a sale or ancillary transmission or delivery service of landfill gas to a commercial or industrial customer from a solid waste management facility permitted by the Department of Environmental Quality and operated by that same authority, if such an authority limits off-premises sale, transmission or delivery service of landfill gas to no more than one purchaser. The authority may contract with other persons for the construction and operation of facilities necessary or convenient to the sale, transmission or delivery of landfill gas, and no such person shall be deemed a public utility solely by reason of its construction or operation of such facilities. If the purchaser of the landfill gas is located within the certificated service territory of a natural gas public utility, the public utility may file for Commission approval a proposed tariff to reflect any anticipated or known changes in service to the purchaser as a result of the use of landfill gas. No such tariff shall impose on the purchaser of the landfill gas terms less favorable than similarly situated customers with alternative fuel capabilities; provided, however, that such tariff may impose such requirements as are reasonably calculated to recover the cost of such service and to protect and ensure the safety and integrity of the public utility's facilities.

(8) A company selling or delivering only landfill gas, electricity generated from only landfill gas, or both, that is derived from a solid waste management facility permitted by the Department of Environmental Quality and sold or delivered from any such facility to not more than three commercial or industrial purchasers or to a natural gas or electric public utility, municipal corporation or county as authorized by this section. If a purchaser of the landfill gas is located within the certificated service territory of a natural gas public utility or within an area in which a municipal corporation provides gas distribution service and the landfill gas is to be used in facilities constructed after January 1, 2000, such company shall submit to such public utility or municipal corporation a written offer for sale of that gas prior to offering the gas for sale or delivery to a commercial or industrial purchaser. If the public utility or municipal corporation does not agree within 60 days following the date of the offer to purchase such landfill gas on mutually satisfactory terms, then the company shall be authorized to sell such landfill gas, electricity, or both, to the commercial or industrial purchaser, utility, municipal corporation, or county. Such public utility may file for Commission approval a proposed tariff to reflect any anticipated or known changes in service to the purchaser as a result of the purchaser's use of the landfill gas. No such tariff shall impose on such purchaser of the landfill gas terms less favorable than those imposed on similarly situated customers with alternative fuel capabilities; provided, however, that such tariff may impose such requirements as are reasonably calculated to recover any cost of such service and to protect and ensure the safety and integrity of the public utility's facilities.

(9) A company that is not organized as a public service company pursuant to subsection D of § 13.1-620 and that sells and delivers propane air only to one or more public utilities. Any company excluded by this subdivision from the definition of "public utility" for the purposes of this chapter nevertheless shall be subject to the Commission's jurisdiction relating to gas pipeline safety and enforcement.

(10) A farm or aggregation of farms that owns and operates facilities within the Commonwealth for the generation of electric energy from waste-to-energy technology. As used in this subdivision, (i) "farm" means any person that obtains at least 51 percent of its annual gross income from agricultural operations and produces the agricultural waste used as feedstock for the waste-to-energy technology, (ii) "agricultural waste" means biomass waste materials capable of decomposition that are produced from the raising of plants and animals during agricultural operations, including animal manures, bedding, plant stalks, hulls, and vegetable matter, and (iii) "waste-to-energy technology" means any technology, including but not limited to a methane digester, that converts agricultural waste into gas, steam, or heat that is used to generate electricity on-site.

(11) A company, other than an entity organized as a public service company, that provides non-utility gas service as provided in § 56-265.4:6.

(12) *A company, other than an entity organized as a public service company, that provides storage of electric energy that is not for sale to the public.*

(c) "Commission" means the State Corporation Commission.

(d) "Geothermal resources" means those resources as defined in § 45.1-179.2.

**§ 56-466.2. Undergrounding existing overhead distribution lines; relocation of facilities of cable operator.**

When an investor-owned incumbent electric utility proposes to improve electric service reliability pursuant to clause (iv) of subdivision A 6 of § 56-585.1 by installing new underground facilities to replace the utility's existing overhead distribution tap lines, if the utility owns the poles from which the existing overhead distribution tap lines are to be relocated and any cable operator of a cable television system, as those terms are defined in § 15.2-2108.19, has also attached its facilities to such poles, the utility shall provide written notice to the cable operator of the utility's intention to relocate the overhead distribution tap lines ~~and to abandon or remove such poles~~ not less than 90 days prior to relocating the utility's overhead distribution lines. The cable operator shall notify the utility within 45 days of the notice of relocation whether the cable operator will relocate its facilities underground *or request to remain overhead in accordance with the provisions set forth herein*. If the cable operator elects to relocate its facilities underground, in such notice the cable operator may request that the utility use commercially reasonable efforts to negotiate a common shared underground easement for the facilities to be located underground of the utility and the cable operator. The cable operator shall be responsible to negotiate any

additional easements that it may require. If the cable operator elects to relocate its facilities underground, the cable operator may participate with the utility in a joint relocation of the overhead lines to underground or may engage its own contractors to undertake its relocation work if it deems it appropriate to do so. ~~If the cable operator may legally retain the poles that the utility intends to abandon and the cable operator wishes for its facilities to remain attached to the poles, the utility may convey such poles "as-is" and "where-is" to the cable operator at its depreciated cost less the estimated cost of removal, provided the cable operator assumes all liability for the pole and obtains an easement from the property owner for the use thereof on or before the date the poles are conveyed to the cable operator. In all cases, the cable operator shall be responsible for all costs related to the relocation of cable facilities and, unless otherwise agreed between the utility and the cable operator, the cable operator shall cease all use of such poles and shall relocate or remove its facilities from the poles on or before 90 days after the utility gives written notice to the cable operator that it has relocated its distribution tap lines underground.~~ The utility shall not abandon or remove the poles that the utility owns until the cable operator completes the relocation or removal of its facilities or 90 days after the completion of the relocation of the utility overhead distribution lines, whichever first occurs. *If the cable operator does not elect to relocate its facilities underground and requests to maintain its facilities overhead, the utility may either (i) convey such poles "as-is" and "where-is" to the cable operator at its depreciated cost less the estimated cost of removal, provided that the cable operator may legally retain the poles that the utility intends to abandon and assumes all liability for the poles conveyed or (ii) retain ownership of its poles and allow the cable operator's existing overhead facilities to remain attached, in which case the utility shall maintain the pole in accordance with prudent utility standards, provided that the cable operator shall continue to pay its pole attachment fees and otherwise comply with its contractual obligations pursuant to the applicable pole attachment agreement. In all cases, the cable operator shall be responsible for all costs related to the relocation or maintenance of its facilities.*

*In instances in which an investor-owned incumbent electric utility continues to own and maintain its utility poles after the overhead distribution lines of the utility formerly on such poles have been placed underground pursuant to the foregoing provisions, then for purposes of any agreement or ordinance with respect to a cable franchise under § 15.2-2108.20 or 15.2-2108.21, the utility shall not be deemed to have converted to underground.*

Energy efficiency programs include equipment, physical, or program change designed to produce measured and verified reductions in the amount of electricity required to perform the same function and produce the same or a similar outcome. Energy efficiency programs may include, but are not limited to, (i) programs that result in improvements in lighting design, heating, ventilation, and air conditioning systems, appliances, building envelopes, and industrial and commercial processes; (ii) measures, such as but not limited to the installation of advanced meters, implemented or installed by utilities, that reduce fuel use or losses of electricity and otherwise improve internal operating efficiency in generation, transmission, and distribution systems; and (iii) customer engagement programs that result in measurable and verifiable energy savings that lead to efficient use patterns and practices. Energy efficiency programs include demand response, combined heat and power and waste heat recovery, curtailment, or other programs that are designed to reduce electricity consumption so long as they reduce the total amount of electricity that is required for the same process or activity. Utilities shall be authorized to install and operate such advanced metering technology and equipment on a customer's premises; however, nothing in this chapter establishes a requirement that an energy efficiency program be implemented on a customer's premises and be connected to a customer's wiring on the customer's side of the inter-connection without the customer's expressed consent.

"In the public interest," for purposes of assessing energy efficiency programs, describes an energy efficiency program if, ~~among other factors, the Commission determines that the net present value of the benefits exceeds the net present value of the costs as determined by the Commission upon consideration~~ *not less than any three of the following four tests: (i) the Total Resource Cost Test; (ii) the Utility Cost Test (also referred to as the Program Administrator Test); (iii) the Participant Test; and (iv) the Ratepayer Impact Measure Test. Such determination shall include an analysis of all four tests, and a program or portfolio of programs shall not be rejected based solely on the results of a single test approved if the net present value of the benefits exceeds the net present value of the costs as determined by not less than any three of the four tests.* In addition, an energy efficiency program may be deemed to be "in the public interest" if the program provides measurable and verifiable energy savings to low-income customers or elderly customers.

"Measured and verified" means a process determined pursuant to methods accepted for use by utilities and industries to measure, verify, and validate energy savings and peak demand savings. This may include the protocol established by the United States Department of Energy, Office of Federal Energy Management Programs, Measurement and Verification Guidance for Federal Energy Projects, measurement and verification standards developed by the American Society of Heating, Refrigeration and Air Conditioning Engineers (ASHRAE), or engineering-based estimates of energy and demand savings associated with specific energy efficiency measures, as determined by the Commission.

**§ 56-585.1. Generation, distribution, and transmission rates after capped rates terminate or expire.**

A. During the first six months of 2009, the Commission shall, after notice and opportunity for hearing, initiate proceedings to review the rates, terms and conditions for the provision of generation, distribution and transmission services of each investor-owned incumbent electric utility. Such proceedings shall be governed by the provisions of Chapter 10 (§ 56-232 et seq.), except as modified herein. In such proceedings the Commission shall determine fair rates of return on common equity applicable to the generation and distribution services of the utility. In so doing, the Commission may use any methodology to determine such return it finds consistent with the public interest, but such return shall not be set lower than the average of the returns on common equity reported to the Securities and Exchange Commission for the three most recent annual periods for which such data are available by not less than a majority, selected by the Commission as specified in subdivision 2 b, of other investor-owned electric utilities in the peer group of the utility, nor shall the Commission set such return more than 300 basis points higher than such average. The peer group of the utility shall be determined in the manner prescribed in subdivision 2 b. The Commission may increase or decrease such combined rate of return by up to 100 basis points based on the generating plant performance, customer service, and operating efficiency of a utility, as compared to nationally recognized standards determined by the Commission to be appropriate for such purposes. In such a proceeding, the Commission shall determine the rates that the utility may charge until such rates are adjusted. If the Commission finds that the utility's combined rate of return on common equity is more than 50 basis points below the combined rate of return as so determined, it shall be authorized to order increases to the utility's rates necessary to provide the opportunity to fully recover the costs of providing the utility's services and to earn not less than such combined rate of return. If the Commission finds that the utility's combined rate of return on common equity is more than 50 basis points above the combined rate of return as so determined, it shall be authorized either (i) to order reductions to the utility's rates it finds appropriate, provided that the Commission may not order such rate reduction unless it finds that the resulting rates will provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than the fair rates of return on common equity applicable to the generation and distribution services; or (ii) to direct that 60 percent of the amount of the utility's earnings that were more than 50 basis points above the fair combined rate of return for calendar year 2008 be credited to customers' bills, in which event such credits shall be amortized over a period of six to 12 months, as determined at the discretion of the Commission, following the effective date of the Commission's order and be allocated

among customer classes such that the relationship between the specific customer class rates of return to the overall target rate of return will have the same relationship as the last approved allocation of revenues used to design base rates. Commencing in 2011, the Commission, after notice and opportunity for hearing, shall conduct ~~biennial~~ reviews of the rates, terms and conditions for the provision of generation, distribution and transmission services by each investor-owned incumbent electric utility, subject to the following provisions:

1. Rates, terms and conditions for each service shall be reviewed separately on an unbundled basis, and such reviews shall be conducted in a single, combined proceeding. ~~The first such review shall utilize Pursuant to subsection A of § 56-585.1:1, the Commission shall conduct a review for a Phase I Utility in 2020, utilizing the two three successive 12-month test periods beginning January 1, 2017, and ending December 31, 2019. However, the Commission may, in its discretion, elect to stagger its biennial reviews of utilities by utilizing the two successive 12-month test periods ending December 31, 2010, for a Phase I Utility, and utilizing the two successive 12-month test periods ending December 31, 2011. Thereafter, reviews for a Phase I Utility, will be on a triennial basis with subsequent proceedings utilizing the two three successive 12-month test periods ending December 31 immediately preceding the year in which such review proceeding is conducted. Pursuant to subsection A of § 56-585.1:1, the Commission shall conduct a review for a Phase II Utility in 2021, utilizing the four successive 12-month test periods beginning January 1, 2017, and ending December 31, 2020, with subsequent reviews on a triennial basis utilizing the three successive 12-month test periods ending December 31 immediately preceding the year in which such review proceeding is conducted. All such reviews occurring after December 31, 2017, shall be referred to as triennial reviews.~~ For purposes of this section, a Phase I Utility is an investor-owned incumbent electric utility that was, as of July 1, 1999, not bound by a rate case settlement adopted by the Commission that extended in its application beyond January 1, 2002, and a Phase II Utility is an investor-owned incumbent electric utility that was bound by such a settlement.

2. Subject to the provisions of subdivision 6, ~~the fair rates rate~~ of return on common equity applicable separately to the generation and distribution services of such utility, and for the two such services combined, ~~and for any rate adjustment clauses approved under subdivision 5 or 6,~~ shall be determined by the Commission during each such ~~biennial~~ *triennial* review, as follows:

a. The Commission may use any methodology to determine such return it finds consistent with the public interest, but such return shall not be set lower than the average of the returns on common equity reported to the Securities and Exchange Commission for the three most recent annual periods for which such data are available by not less than a majority, selected by the Commission as specified in subdivision 2 b, of other investor-owned electric utilities in the peer group of the utility subject to such ~~biennial~~ *triennial* review, nor shall the Commission set such return more than 300 basis points higher than such average.

b. In selecting such majority of peer group investor-owned electric utilities, the Commission shall first remove from such group the two utilities within such group that have the lowest reported returns of the group, as well as the two utilities within such group that have the highest reported returns of the group, and the Commission shall then select a majority of the utilities remaining in such peer group. In its final order regarding such ~~biennial~~ *triennial* review, the Commission shall identify the utilities in such peer group it selected for the calculation of such limitation. For purposes of this subdivision, an investor-owned electric utility shall be deemed part of such peer group if (i) its principal operations are conducted in the southeastern United States east of the Mississippi River in either the states of West Virginia or Kentucky or in those states south of Virginia, excluding the state of Tennessee, (ii) it is a vertically-integrated electric utility providing generation, transmission and distribution services whose facilities and operations are subject to state public utility regulation in the state where its principal operations are conducted, (iii) it had a long-term bond rating assigned by Moody's Investors Service of at least Baa at the end of the most recent test period subject to such ~~biennial~~ *triennial* review, and (iv) it is not an affiliate of the utility subject to such ~~biennial~~ *triennial* review.

c. The Commission may, consistent with its precedent for incumbent electric utilities prior to the enactment of Chapters 888 and 933 of the Acts of Assembly of 2007, increase or decrease the utility's combined rate of return based on the Commission's consideration of the utility's performance.

d. In any Current Proceeding, the Commission shall determine whether the Current Return has increased, on a percentage basis, above the Initial Return by more than the increase, expressed as a percentage, in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, since the date on which the Commission determined the Initial Return. If so, the Commission may conduct an additional analysis of whether it is in the public interest to utilize such Current Return for the Current Proceeding then pending. A finding of whether the Current Return justifies such additional analysis shall be made without regard to any enhanced rate of return on common equity awarded pursuant to the provisions of subdivision 6. Such additional analysis shall include, but not be limited to, a consideration of overall economic conditions, the level of interest rates and cost of capital with respect to business and industry, in general, as well as electric utilities, the current level of inflation and the utility's cost of goods and services, the effect on the utility's ability to provide adequate service and to attract capital if less than the Current Return were utilized for the Current Proceeding then pending, and such other factors as the Commission may deem relevant. If, as a result of such analysis, the Commission finds that use of the Current Return for the Current Proceeding then pending would not be in the public interest, then the lower limit imposed by subdivision 2 a on the return to be determined by the Commission for such utility shall be calculated, for that Current Proceeding only, by increasing the Initial Return by a percentage at least equal to the increase, expressed as a percentage, in the United States

Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, since the date on which the Commission determined the Initial Return. For purposes of this subdivision:

"Current Proceeding" means any proceeding conducted under any provisions of this subsection that require or authorize the Commission to determine a fair combined rate of return on common equity for a utility and that will be concluded after the date on which the Commission determined the Initial Return for such utility.

"Current Return" means the minimum fair combined rate of return on common equity required for any Current Proceeding by the limitation regarding a utility's peer group specified in subdivision 2 a.

"Initial Return" means the fair combined rate of return on common equity determined for such utility by the Commission on the first occasion after July 1, 2009, under any provision of this subsection pursuant to the provisions of subdivision 2 a.

e. In addition to other considerations, in setting the return on equity within the range allowed by this section, the Commission shall strive to maintain costs of retail electric energy that are cost competitive with costs of retail electric energy provided by the other peer group investor-owned electric utilities.

f. The determination of such returns shall be made by the Commission on a stand-alone basis, and specifically without regard to any return on common equity or other matters determined with regard to facilities described in subdivision 6.

g. If the combined rate of return on common equity earned by the generation and distribution services is no more than 50 basis points above or below the return as so determined or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, such return is no more than 70 basis points above or below the return as so determined, such combined return shall not be considered either excessive or insufficient, respectively. However, for any test period commencing after December 31, 2012, for a Phase II Utility, and after December 31, 2013, for a Phase I Utility, if the utility has, during the test period or periods under review, earned below the return as so determined, whether or not such combined return is within 70 basis points of the return as so determined, the utility may petition the Commission for approval of an increase in rates in accordance with the provisions of subdivision 8 a as if it had earned more than 70 basis points below a fair combined rate of return, and such proceeding shall otherwise be conducted in accordance with the provisions of this section. *The provisions of this subdivision are subject to the provisions of subdivision 8.*

h. Any amount of a utility's earnings directed by the Commission to be credited to customers' bills pursuant to this section shall not be considered for the purpose of determining the utility's earnings in any subsequent ~~biennial~~ *triennial* review.

3. Each such utility shall make a ~~biennial~~ *triennial* filing by March 31 of every ~~other third~~ *other* year, ~~beginning in 2011, with such filings commencing for a Phase I Utility in 2020, and such filings commencing for a Phase II Utility in 2021,~~ consisting of the schedules contained in the Commission's rules governing utility rate increase applications; ~~however, if the Commission elects to stagger the dates of the biennial reviews of utilities as provided in subdivision 1, then each Phase I Utility shall commence biennial filings in 2011 and each Phase II Utility shall commence biennial filings in 2012.~~ Such filing shall encompass the ~~two~~ *three* successive 12-month test periods ending December 31 immediately preceding the year in which such proceeding is conducted, *except that the filing for a Phase II Utility in 2021 shall encompass the four successive 12-month test periods ending December 31, 2020,* and in every such case the filing for each year shall be identified separately and shall be segregated from any other year encompassed by the filing. If the Commission determines that rates should be revised or credits be applied to customers' bills pursuant to subdivision 8 or 9, any rate adjustment clauses previously implemented ~~pursuant to subdivision 5 or those~~ related to facilities utilizing simple-cycle combustion turbines described in subdivision 6, shall be combined with the utility's costs, revenues and investments until the amounts that are the subject of such rate adjustment clauses are fully recovered. The Commission shall combine such clauses with the utility's costs, revenues and investments only after it makes its initial determination with regard to necessary rate revisions or credits to customers' bills, and the amounts thereof, but after such clauses are combined as herein specified, they shall thereafter be considered part of the utility's costs, revenues, and investments for the purposes of future ~~biennial~~ *triennial* review proceedings. ~~A Phase I Utility shall delay for one year the filing of its biennial review from March 31, 2013, to March 31, 2014, and shall not defer on its books for future recovery any costs incurred during calendar year 2011, other than as provided in subdivision 7 or § 56-249.6, and its subsequent biennial filing shall be made by March 31, 2016, and every two years thereafter.~~

4. The following costs incurred by the utility shall be deemed reasonable and prudent: (i) costs for transmission services provided to the utility by the regional transmission entity of which the utility is a member, as determined under applicable rates, terms and conditions approved by the Federal Energy Regulatory Commission, and (ii) costs charged to the utility that are associated with demand response programs approved by the Federal Energy Regulatory Commission and administered by the regional transmission entity of which the utility is a member. Upon petition of a utility at any time after the expiration or termination of capped rates, but not more than once in any 12-month period, the Commission shall approve a rate adjustment clause under which such costs, including, without limitation, costs for transmission service, charges for new and existing transmission facilities, administrative charges, and ancillary service charges designed to recover transmission costs, shall be recovered on a timely and current basis from customers. Retail rates to recover these costs shall be designed using the appropriate billing determinants in the retail rate schedules.

5. A utility may at any time, after the expiration or termination of capped rates, but not more than once in any 12-month period, petition the Commission for approval of one or more rate adjustment clauses for the timely and current recovery from customers of the following costs:

a. Incremental costs described in clause (vi) of subsection B of § 56-582 incurred between July 1, 2004, and the expiration or termination of capped rates, if such utility is, as of July 1, 2007, deferring such costs consistent with an order of the Commission entered under clause (vi) of subsection B of § 56-582. The Commission shall approve such a petition allowing the recovery of such costs that comply with the requirements of clause (vi) of subsection B of § 56-582;

b. Projected and actual costs for the utility to design and operate fair and effective peak-shaving programs. The Commission shall approve such a petition if it finds that the program is in the public interest; provided that the Commission shall allow the recovery of such costs as it finds are reasonable;

c. Projected and actual costs for the utility to design, implement, and operate energy efficiency programs, including a margin to be recovered on operating expenses, which margin for the purposes of this section shall be equal to the general rate of return on common equity determined as described in subdivision 2. The Commission shall only approve such a petition if it finds that the program is in the public interest. As part of such cost recovery, the Commission, if requested by the utility, shall allow for the recovery of revenue reductions related to energy efficiency programs. The Commission shall only allow such recovery to the extent that the Commission determines such revenue has not been recovered through margins from incremental off-system sales as defined in § 56-249.6 that are directly attributable to energy efficiency programs.

None of the costs of new energy efficiency programs of an electric utility, including recovery of revenue reductions, shall be assigned to any *large general service* customer that has a verifiable history of having used more than 10 megawatts of demand from a single meter of delivery. Nor shall any of the costs of new energy efficiency programs of an electric utility, including recovery of revenue reductions, be incurred by any large general service customer as defined herein that has notified the utility of non-participation in such energy efficiency program or programs. A large general service customer is a customer that has a verifiable history of having used more than 500 kilowatts of demand from a single meter of delivery. Non-participation in energy efficiency programs shall be allowed by the Commission if the large general service customer has, at the customer's own expense, implemented energy efficiency programs that have produced or will produce measured and verified results consistent with industry standards and other regulatory criteria stated in this section. The Commission shall, no later than November 15, 2009, promulgate rules and regulations to accommodate the process under which such large general service customers shall file notice for such an exemption and (i) establish the administrative procedures by which eligible customers will notify the utility and (ii) define the standard criteria that must be satisfied by an applicant in order to notify the utility. In promulgating such rules and regulations, the Commission may also specify the timing as to when a utility shall accept and act on such notice, taking into consideration the utility's integrated resource planning process as well as its administration of energy efficiency programs that are approved for cost recovery by the Commission. The notice of non-participation by a large general service customer, to be given by March 1 of a given year, shall be for the duration of the service life of the customer's energy efficiency program. The Commission on its own motion may initiate steps necessary to verify such non-participants' achievement of energy efficiency if the Commission has a body of evidence that the non-participant has knowingly misrepresented its energy efficiency achievement. A utility shall not charge such large general service customer, as defined by the Commission, for the costs of installing energy efficiency equipment beyond what is required to provide electric service and meter such service on the customer's premises if the customer provides, at the customer's expense, equivalent energy efficiency equipment. In all relevant proceedings pursuant to this section, the Commission shall take into consideration the goals of economic development, energy efficiency and environmental protection in the Commonwealth;

d. Projected and actual costs of participation in a renewable energy portfolio standard program pursuant to § 56-585.2 that are not recoverable under subdivision 6. The Commission shall approve such a petition allowing the recovery of such costs as are provided for in a program approved pursuant to § 56-585.2;

e. Projected and actual costs of projects that the Commission finds to be necessary to comply with state or federal environmental laws or regulations applicable to generation facilities used to serve the utility's native load obligations. The Commission shall approve such a petition if it finds that such costs are necessary to comply with such environmental laws or regulations; and

f. Projected and actual costs, not currently in rates, for the utility to design, implement, and operate programs approved by the Commission that accelerate the vegetation management of distribution rights-of-way. No costs shall be allocated to or recovered from customers that are served within the large general service rate classes for a Phase II Utility or that are served at subtransmission or transmission voltage, or take delivery at a substation served from subtransmission or transmission voltage, for a Phase I Utility.

The Commission shall have the authority to determine the duration or amortization period for any adjustment clause approved under this subdivision.

6. To ensure the generation and delivery of a reliable and adequate supply of electricity, to meet the utility's projected native load obligations and to promote economic development, a utility may at any time, after the expiration or termination of capped rates, petition the Commission for approval of a rate adjustment clause for recovery on a timely and current basis from customers of the costs of (i) a coal-fueled generation facility that utilizes Virginia coal and is located in the coalfield region of the Commonwealth as described in § 15.2-6002, regardless of whether such facility is located within or without

the utility's service territory, (ii) one or more other generation facilities, (iii) one or more major unit modifications of generation facilities, including the costs of any system or equipment upgrade, system or equipment replacement, or other cost reasonably appropriate to extend the combined operating license for or the operating life of one or more generation facilities utilizing nuclear power, (iv) one or more new underground facilities to replace one or more existing overhead distribution facilities of 69 kilovolts or less located within the Commonwealth, ~~or~~ (v) one or more pumped hydroelectricity generation and storage facilities that utilize on-site or off-site renewable energy resources as all or a portion of their power source and such facilities and associated resources are located in the coalfield region of the Commonwealth as described in § 15.2-6002, regardless of whether such facility is located within or without the utility's service territory, *or (vi) one or more electric distribution grid transformation projects*; however, subject to the provisions of the following sentence, the utility shall not file a petition under clause (iv) more often than annually and, in such petition, shall not seek any annual incremental increase in the level of investments associated with such a petition that exceeds five percent of such utility's distribution rate base, as such rate base was determined for the most recently ended 12-month test period in the utility's latest ~~biennial~~ review proceeding conducted pursuant to subdivision 3 and concluded by final order of the Commission prior to the date of filing of such petition under clause (iv). In all proceedings regarding petitions filed under clause (iv) *or (vi)*, the level of investments approved for recovery in such proceedings shall be in addition to, and not in lieu of, levels of investments previously approved for recovery in prior proceedings under clause (iv) *or (vi)*, *as applicable. As of December 1, 2028, any costs recovered by a utility pursuant to clause (iv) shall be limited to any remaining costs associated with conversions of overhead distribution facilities to underground facilities that have been previously approved or are pending approval by the Commission through a petition by the utility under this subdivision.* Such a petition concerning facilities described in clause (ii) that utilize nuclear power, facilities described in clause (ii) that are coal-fueled and will be built by a Phase I Utility, or facilities described in clause (i) may also be filed before the expiration or termination of capped rates. A utility that constructs or makes modifications to any such facility, or purchases any facility consisting of at least one megawatt of generating capacity using energy derived from sunlight and located in the Commonwealth and that utilizes goods or services sourced, in whole or in part, from one or more Virginia businesses, shall have the right to recover the costs of the facility, as accrued against income, through its rates, including projected construction work in progress, and any associated allowance for funds used during construction, planning, development and construction or acquisition costs, life-cycle costs, costs related to assessing the feasibility of potential sites for new underground facilities, and costs of infrastructure associated therewith, plus, as an incentive to undertake such projects, an enhanced rate of return on common equity calculated as specified below; however, in determining the amounts recoverable under a rate adjustment clause for new underground facilities, the Commission shall not consider, or increase or reduce such amounts recoverable because of (a) the operation and maintenance costs attributable to either the overhead distribution facilities being replaced or the new underground facilities or (b) any other costs attributable to the overhead distribution facilities being replaced. Notwithstanding the preceding sentence, the costs described in clauses (a) and (b) thereof shall remain eligible for recovery from customers through the utility's base rates for distribution service. A utility filing a petition for approval to construct or purchase a facility consisting of at least one megawatt of generating capacity using energy derived from sunlight and located in the Commonwealth and that utilizes goods or services sourced, in whole or in part, from one or more Virginia businesses may propose a rate adjustment clause based on a market index in lieu of a cost of service model for such facility. A utility seeking approval to construct or purchase a generating facility described in clause (i) or (ii) shall demonstrate that it has considered and weighed alternative options, including third-party market alternatives, in its selection process. The costs of the facility, other than return on projected construction work in progress and allowance for funds used during construction, shall not be recovered prior to the date a facility constructed by the utility and described in clause (i), (ii), ~~or~~ (iii) *or (v)* begins commercial operation, the date the utility becomes the owner of a purchased generation facility consisting of at least one megawatt of generating capacity using energy derived from sunlight and located in the Commonwealth and that utilizes goods or services sourced, in whole or in part, from one or more Virginia businesses, or the date new underground facilities are classified by the utility as plant in service. Such enhanced rate of return on common equity shall be applied to allowance for funds used during construction and to construction work in progress during the construction phase of the facility and shall thereafter be applied to the entire facility during the first portion of the service life of the facility. The first portion of the service life shall be as specified in the table below; however, the Commission shall determine the duration of the first portion of the service life of any facility, within the range specified in the table below, which determination shall be consistent with the public interest and shall reflect the Commission's determinations regarding how critical the facility may be in meeting the energy needs of the citizens of the Commonwealth and the risks involved in the development of the facility. After the first portion of the service life of the facility is concluded, the utility's general rate of return shall be applied to such facility for the remainder of its service life. As used herein, the service life of the facility shall be deemed to begin on the date a facility constructed by the utility and described in clause (i), (ii), ~~or~~ (iii) *or (v)* begins commercial operation, the date the utility becomes the owner of a purchased generation facility consisting of at least one megawatt of generating capacity using energy derived from sunlight and located in the Commonwealth and that utilizes goods or services sourced, in whole or in part, from one or more Virginia businesses, or the date new underground facilities *or new electric distribution grid transformation projects* are classified by the utility as plant in service, and such service life shall be deemed equal in years to the life of that facility as used to calculate the utility's depreciation expense. Such enhanced rate of return on common equity shall be calculated by adding the basis points specified in the table below to the utility's general rate of return, and such enhanced rate of return shall apply only to the facility that is the subject of such rate

adjustment clause. Allowance for funds used during construction shall be calculated for any such facility utilizing the utility's actual capital structure and overall cost of capital, including an enhanced rate of return on common equity as determined pursuant to this subdivision, until such construction work in progress is included in rates. The construction of any facility described in clause (i) or (v) is in the public interest, and in determining whether to approve such facility, the Commission shall liberally construe the provisions of this title. The construction or purchase by a utility of one or more generation facilities with at least one megawatt of generating capacity, and with an aggregate rated capacity that does not exceed ~~500~~ 5,000 megawatts, *including rooftop solar installations with a capacity of not less than 50 kilowatts, and with an aggregate capacity of 50 megawatts*, that use energy derived from sunlight *or from wind* and are located in the Commonwealth *or off the Commonwealth's Atlantic shoreline*, regardless of whether any of such facilities are located within or without the utility's service territory, is in the public interest, and in determining whether to approve such facility, the Commission shall liberally construe the provisions of this title. A utility may enter into short-term or long-term power purchase contracts for the power derived from sunlight generated by such generation facility prior to purchasing the generation facility. The replacement of any subset of a utility's existing overhead distribution tap lines that have, in the aggregate, an average of nine or more total unplanned outage events-per-mile over a preceding 10-year period with new underground facilities in order to improve electric service reliability is in the public interest. In determining whether to approve petitions for rate adjustment clauses for such new underground facilities that meet this criteria, and in determining the level of costs to be recovered thereunder, the Commission shall liberally construe the provisions of this title. ~~There shall be a rebuttable presumption that the~~ *The conversion of any such facilities will on or after September 1, 2016, is deemed to provide local and system-wide benefits; that such new underground facilities are and to be cost beneficial, and that the costs associated with such new underground facilities are deemed to be reasonably and prudently incurred and, notwithstanding the provisions of subsection C or D, shall be approved for recovery by the Commission pursuant to this subdivision, provided that the total costs associated with the replacement of any subset of existing overhead distribution tap lines proposed by the utility with new underground facilities, exclusive of financing costs, shall not exceed an average cost per customer of \$20,000, with such customers, including those served directly by or downline of the tap lines proposed for conversion, and, further, such total costs shall not exceed an average cost per mile of tap lines converted, exclusive of financing costs, of \$750,000. A utility shall, without regard for whether it has petitioned for any rate adjustment clause pursuant to clause (vi), petition the Commission, not more than once annually, for approval of a plan for electric distribution grid transformation projects. Any plan for electric distribution grid transformation projects shall include both measures to facilitate integration of distributed energy resources and measures to enhance physical electric distribution grid reliability and security. In ruling upon such a petition, the Commission shall consider whether the utility's plan for such projects, and the projected costs associated therewith, are reasonable and prudent. Such petition shall be considered on a stand-alone basis without regard to the other costs, revenues, investments, or earnings of the utility; without regard to whether the costs associated with such projects will be recovered through a rate adjustment clause under this subdivision or through the utility's rates for generation and distribution services; and without regard to whether such costs will be the subject of a customer credit offset, as applicable, pursuant to subdivision 8 d. The Commission's final order regarding any such petition for approval of an electric distribution grid transformation plan shall be entered by the Commission not more than six months after the date of filing such petition. The Commission shall likewise enter its final order with respect to any petition by a utility for a certificate to construct and operate a generating facility or facilities utilizing energy derived from sunlight, pursuant to subsection D of § 56-580, within six months after the date of filing such petition.* The basis points to be added to the utility's general rate of return to calculate the enhanced rate of return on common equity, and the first portion of that facility's service life to which such enhanced rate of return shall be applied, shall vary by type of facility, as specified in the following table:

Type of Generation Facility	Basis Points	First Portion of Service Life
Nuclear-powered	200	Between 12 and 25 years
Carbon capture compatible, clean-coal powered	200	Between 10 and 20 years
Renewable powered, other than landfill gas powered	200	Between 5 and 15 years
Coalbed methane gas powered	150	Between 5 and 15 years
Landfill gas powered	200	Between 5 and 15 years
Conventional coal or combined-cycle combustion turbine	100	Between 10 and 20 years

For generating facilities other than those utilizing nuclear power constructed pursuant to clause (ii) or those utilizing energy derived from offshore wind, as of July 1, 2013, only those facilities as to which a rate adjustment clause under this subdivision has been previously approved by the Commission, or as to which a petition for approval of such rate adjustment clause was filed with the Commission, on or before January 1, 2013, shall be entitled to the enhanced rate of return on common equity as specified in the above table during the construction phase of the facility and the approved first portion of its service life.

For generating facilities within the Commonwealth utilizing nuclear power or those utilizing energy derived from offshore wind projects located in waters off the Commonwealth's Atlantic shoreline, such facilities shall continue to be eligible for an enhanced rate of return on common equity during the construction phase of the facility and the approved first

portion of its service life of between 12 and 25 years in the case of a facility utilizing nuclear power and for a service life of between 5 and 15 years in the case of a facility utilizing energy derived from offshore wind, provided, however, that, as of July 1, 2013, the enhanced return for such facilities constructed pursuant to clause (ii) shall be 100 basis points, which shall be added to the utility's general rate of return as determined under subdivision 2. Thirty percent of all costs of such a facility utilizing nuclear power that the utility incurred between July 1, 2007, and December 31, 2013, and all of such costs incurred after December 31, 2013, may be deferred by the utility and recovered through a rate adjustment clause under this subdivision at such time as the Commission provides in an order approving such a rate adjustment clause. The remaining 70 percent of all costs of such a facility that the utility incurred between July 1, 2007, and December 31, 2013, shall not be deferred for recovery through a rate adjustment clause under this subdivision; however, such remaining 70 percent of all costs shall be recovered ratably through existing base rates as determined by the Commission in the test periods under review in the utility's next ~~biennial~~ review filed after July 1, 2014. Thirty percent of all costs of such a facility utilizing energy derived from offshore wind that the utility incurred between July 1, 2007, and December 31, 2013, and all of such costs incurred after December 31, 2013, may be deferred by the utility and recovered through a rate adjustment clause under this subdivision at such time as the Commission provides in an order approving such a rate adjustment clause. The remaining 70 percent of all costs of such a facility that the utility incurred between July 1, 2007, and December 31, 2013, shall not be deferred for recovery through a rate adjustment clause under this subdivision; however, such remaining 70 percent of all costs shall be recovered ratably through existing base rates as determined by the Commission in the test periods under review in the utility's next ~~biennial~~ review filed after July 1, 2014.

In connection with planning to meet forecasted demand for electric generation supply and assure the adequate and sufficient reliability of service, consistent with § 56-598, planning and development activities for a new nuclear generation facility or facilities are in the public interest.

In connection with planning to meet forecasted demand for electric generation supply and assure the adequate and sufficient reliability of service, consistent with § 56-598, planning and development activities for a new utility-owned and utility-operated generating facility or facilities utilizing energy derived from sunlight ~~with an aggregate capacity of 500 megawatts~~, or from onshore or offshore wind, are in the public interest.

*Construction, purchasing, or leasing activities for a new utility-owned and utility-operated generating facility or facilities utilizing energy derived from sunlight or from wind with an aggregate capacity of 5,000 megawatts, including rooftop solar installations with a capacity of not less than 50 kilowatts, and with an aggregate capacity of 50 megawatts, together with a new test or demonstration project for a utility-owned and utility-operated generating facility or facilities utilizing energy derived from offshore wind with an aggregate capacity of not more than 16 megawatts, are in the public interest. To the extent that a utility elects to recover the costs of any such new generation facility or facilities through its rates for generation and distribution services and does not petition and receive approval from the Commission for recovery of such costs through a rate adjustment clause described in clause (ii), the Commission shall, upon the request of the utility in a triennial review proceeding, provide for a customer credit reinvestment offset, as applicable, pursuant to subdivision 8 d with respect to all costs deemed reasonable and prudent by the Commission in a proceeding pursuant to subsection D of § 56-580 or in a triennial review proceeding.*

*Electric distribution grid transformation projects are in the public interest. To the extent that a utility elects to recover the costs of such electric distribution grid transformation projects through its rates for generation and distribution services, and does not petition and receive approval from the Commission for recovery of such costs through a rate adjustment clause described in clause (vi), the Commission shall, upon the request of the utility in a triennial review proceeding, provide for a customer credit reinvestment offset, as applicable, pursuant to subdivision 8 d with respect to all costs deemed reasonable and prudent by the Commission in a proceeding for approval of a plan for electric distribution grid transformation projects pursuant to subdivision 6 or in a triennial review proceeding.*

Neither generation facilities described in clause (ii) that utilize simple-cycle combustion turbines nor new underground facilities shall receive an enhanced rate of return on common equity as described herein, but instead shall receive the utility's general rate of return during the construction phase of the facility and, thereafter, for the entire service life of the facility. No rate adjustment clause for new underground facilities shall allocate costs to, or provide for the recovery of costs from, customers that are served within the large power service rate class for a Phase I Utility and the large general service rate classes for a Phase II Utility. New underground facilities are hereby declared to be ordinary extensions or improvements in the usual course of business under the provisions of § 56-265.2.

As used in this subdivision, a generation facility is (1) "coalbed methane gas powered" if the facility is fired at least 50 percent by coalbed methane gas, as such term is defined in § 45.1-361.1, produced from wells located in the Commonwealth, and (2) "landfill gas powered" if the facility is fired by methane or other combustible gas produced by the anaerobic digestion or decomposition of biodegradable materials in a solid waste management facility licensed by the Waste Management Board. A landfill gas powered facility includes, in addition to the generation facility itself, the equipment used in collecting, drying, treating, and compressing the landfill gas and in transmitting the landfill gas from the solid waste management facility where it is collected to the generation facility where it is combusted.

For purposes of this subdivision, "general rate of return" means the fair combined rate of return on common equity as it is determined by the Commission ~~from time to time~~ for such utility pursuant to subdivision 2. ~~In any proceeding under this subdivision conducted prior to the conclusion of the first biennial review for such utility, the Commission shall determine a general rate of return for such utility in the same manner as it would in a biennial review proceeding.~~

Notwithstanding any other provision of this subdivision, if the Commission finds during the ~~biennial~~ *triennial* review conducted for a Phase II Utility in ~~2018~~ 2021 that such utility has not filed applications for all necessary federal and state regulatory approvals to construct one or more nuclear-powered or coal-fueled generation facilities that would add a total capacity of at least 1500 megawatts to the amount of the utility's generating resources as such resources existed on July 1, 2007, or that, if all such approvals have been received, that the utility has not made reasonable and good faith efforts to construct one or more such facilities that will provide such additional total capacity within a reasonable time after obtaining such approvals, then the Commission, if it finds it in the public interest, may reduce on a prospective basis any enhanced rate of return on common equity previously applied to any such facility to no less than the general rate of return for such utility and may apply no less than the utility's general rate of return to any such facility for which the utility seeks approval in the future under this subdivision.

*Notwithstanding any other provision of this subdivision, if a Phase II utility obtains approval from the Commission of a rate adjustment clause pursuant to subdivision 6 associated with a test or demonstration project involving a generation facility utilizing energy from offshore wind, and such utility has not, as of July 1, 2023, commenced construction as defined for federal income tax purposes of an offshore wind generation facility or facilities with a minimum aggregate capacity of 250 megawatts, then the Commission, if it finds it in the public interest, may direct that the costs associated with any such rate adjustment clause involving said test or demonstration project shall thereafter no longer be recovered through a rate adjustment clause pursuant to subdivision 6 and shall instead be recovered through the utility's rates for generation and distribution services, with no change in such rates for generation and distribution services as a result of the combination of such costs with the other costs, revenues, and investments included in the utility's rates for generation and distribution services. Any such costs shall remain combined with the utility's other costs, revenues, and investments included in its rates for generation and distribution services until such costs are fully recovered.*

7. Any petition filed pursuant to subdivision 4, 5, or 6 shall be considered by the Commission on a stand-alone basis without regard to the other costs, revenues, investments, or earnings of the utility. Any costs incurred by a utility prior to the filing of such petition, or during the consideration thereof by the Commission, that are proposed for recovery in such petition and that are related to subdivision 5 a, or that are related to facilities and projects described in clause (i) of subdivision 6, or that are related to new underground facilities described in clause (iv) of subdivision 6, shall be deferred on the books and records of the utility until the Commission's final order in the matter, or until the implementation of any applicable approved rate adjustment clauses, whichever is later. Except as otherwise provided in subdivision 6, any costs prudently incurred on or after July 1, 2007, by a utility prior to the filing of such petition, or during the consideration thereof by the Commission, that are proposed for recovery in such petition and that are related to facilities and projects described in clause (ii) or clause (iii) of subdivision 6 that utilize nuclear power, or coal-fueled facilities and projects described in clause (ii) of subdivision 6 if such coal-fueled facilities will be built by a Phase I Utility, shall be deferred on the books and records of the utility until the Commission's final order in the matter, or until the implementation of any applicable approved rate adjustment clauses, whichever is later. Any costs prudently incurred after the expiration or termination of capped rates related to other matters described in subdivision 4, 5, or 6 shall be deferred beginning only upon the expiration or termination of capped rates, provided, however, that no provision of this act shall affect the rights of any parties with respect to the rulings of the Federal Energy Regulatory Commission in PJM Interconnection LLC and Virginia Electric and Power Company, 109 F.E.R.C. P 61,012 (2004). A utility shall establish a regulatory asset for regulatory accounting and ratemaking purposes under which it shall defer its operation and maintenance costs incurred in connection with (i) the refueling of any nuclear-powered generating plant and (ii) other work at such plant normally performed during a refueling outage. The utility shall amortize such deferred costs over the refueling cycle, but in no case more than 18 months, beginning with the month in which such plant resumes operation after such refueling. The refueling cycle shall be the applicable period of time between planned refueling outages for such plant. As of January 1, 2014, such amortized costs are a component of base rates, recoverable in base rates only ratably over the refueling cycle rather than when such outages occur, and are the only nuclear refueling costs recoverable in base rates. This provision shall apply to any nuclear-powered generating plant refueling outage commencing after December 31, 2013, and the Commission shall treat the deferred and amortized costs of such regulatory asset as part of the utility's costs for the purpose of proceedings conducted (a) with respect to ~~biennial~~ *triennial* filings under subdivision 3 made on and after July 1, 2014, and (b) pursuant to § 56-245 or the Commission's rules governing utility rate increase applications as provided in subsection B. This provision shall not be deemed to change or reset base rates.

The Commission's final order regarding any petition filed pursuant to subdivision 4, 5, or 6 shall be entered not more than three months, eight months, and nine months, respectively, after the date of filing of such petition. If such petition is approved, the order shall direct that the applicable rate adjustment clause be applied to customers' bills not more than 60 days after the date of the order, or upon the expiration or termination of capped rates, whichever is later.

8. In any ~~biennial~~ *triennial* review proceeding, *for the purposes of reviewing earnings on the utility's rates for generation and distribution services*, the following utility generation and distribution costs not proposed for recovery under any other subdivision of this subsection, as recorded per books by the utility for financial reporting purposes and accrued against income, shall be attributed to the test periods under review *and deemed fully recovered in the period recorded*: costs associated with asset impairments related to early retirement determinations made by the utility ~~prior to December 31, 2012~~, for utility generation ~~plant~~ *facilities fueled by coal, natural gas, or oil or for automated meter reading electric distribution service meters*; costs associated with projects necessary to comply with state or federal environmental laws, regulations, or

*judicial or administrative orders relating to coal combustion by-product management that the utility does not petition to recover through a rate adjustment clause pursuant to subdivision 5 e; costs associated with severe weather events; and costs associated with natural disasters. Such costs shall be deemed to have been recovered from customers through rates for generation and distribution services in effect during the test periods under review unless such costs, individually or in the aggregate, together with the utility's other costs, revenues, and investments to be recovered through rates for generation and distribution services, result in the utility's earned return on its generation and distribution services for the combined test periods under review to fall more than 50 basis points below the fair combined rate of return authorized under subdivision 2 for such periods or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, to fall more than 70 basis points below the fair combined rate of return authorized under subdivision 2 for such periods. In such cases, the Commission shall, in such ~~biennial~~ *triennial* review proceeding, authorize deferred recovery of such costs and allow the utility to amortize and recover such deferred costs over future periods as determined by the Commission. The aggregate amount of such deferred costs shall not exceed an amount that would, together with the utility's other costs, revenues, and investments to be recovered through rates for generation and distribution services, cause the utility's earned return on its generation and distribution services to exceed the fair rate of return authorized under subdivision 2, less 50 basis points, for the combined test periods under review or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, to exceed the fair rate of return authorized under subdivision 2 less 70 basis points. Nothing in this section shall limit the Commission's authority, pursuant to the provisions of Chapter 10 (§ 56-232 et seq.), including specifically § 56-235.2, following the review of combined test period earnings of the utility in a ~~biennial~~ *triennial* review, for normalization of nonrecurring test period costs and annualized adjustments for future costs, in determining any appropriate increase or decrease in the utility's rates for generation and distribution services pursuant to subdivision 8 a or 8 c.*

If the Commission determines as a result of such ~~biennial~~ *triennial* review that:

a. The utility has, during the test period or periods under review, considered as a whole, earned more than 50 basis points below a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points below a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, the Commission shall order increases to the utility's rates necessary to provide the opportunity to fully recover the costs of providing the utility's services and to earn not less than such fair combined rate of return, using the most recently ended 12-month test period as the basis for determining the amount of the rate increase necessary. However, *in the first triennial review proceeding conducted after January 1, 2021, for a Phase II Utility, the Commission may not order a rate increase, and in all triennial reviews of a Phase I or Phase II utility, the Commission may not order such rate increase unless it finds that the resulting rates are necessary to provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than a fair combined rate of return on both its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, using the most recently ended 12-month test period as the basis for determining the permissibility of any rate increase under the standards of this sentence, and the amount thereof; and provided that, solely in connection with making its determination concerning the necessity for such a rate increase or the amount thereof, the Commission shall, in any triennial review proceeding conducted prior to July 1, 2028, exclude from this most recently ended 12-month test period any remaining investment levels associated with a prior customer credit reinvestment offset pursuant to subdivision d.*

b. The utility has, during the test period or test periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, the Commission shall, subject to the provisions of ~~subdivision~~ *subdivisions 8 d and 9*, direct that 60 percent of the amount of such earnings that were more than 50 basis points, or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, that 70 percent of the amount of such earnings that were more than 70 basis points, above such fair combined rate of return for the test period or periods under review, considered as a whole, shall be credited to customers' bills. Any such credits shall be amortized over a period of six to 12 months, as determined at the discretion of the Commission, following the effective date of the Commission's order, and shall be allocated among customer classes such that the relationship between the specific customer class rates of return to the overall target rate of return will have the same relationship as the last approved allocation of revenues used to design base rates; or

c. ~~Such biennial~~ *In any triennial review is the second consecutive biennial review proceeding conducted after January 1, 2020, for a Phase I Utility or after January 1, 2021, for a Phase II Utility* in which the utility has, during the test period or test periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matter determined with respect to facilities described in subdivision 6, *and the combined aggregate level of capital*

*investment that the Commission has approved other than those capital investments that the Commission has approved for recovery pursuant to a rate adjustment clause pursuant to subdivision 6 made by the utility during the test periods under review in that triennial review proceeding in new utility-owned generation facilities utilizing energy derived from sunlight, or from wind, and in electric distribution grid transformation projects, as determined pursuant to subdivision 8 d, does not equal or exceed 100 percent of the earnings that are more than 70 basis points above the utility's fair combined rate of return on its generation and distribution services for the combined test periods under review in that triennial review proceeding, the Commission shall, subject to the provisions of subdivision 9 and in addition to the actions authorized in subdivision b, also order reductions to the utility's rates it finds appropriate. However, in the first triennial review proceeding conducted after January 1, 2021, for a Phase II Utility, any reduction to the utility's rates ordered by the Commission pursuant to this subdivision shall not exceed \$50 million in annual revenues, with any reduction allocated to the utility's rates for generation services, and in each triennial review of a Phase I or Phase II Utility, the Commission may not order such rate reduction unless it finds that the resulting rates will provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, using the most recently ended 12-month test period as the basis for determining the permissibility of any rate reduction under the standards of this sentence, and the amount thereof; and*

*d. In any triennial review proceeding conducted after December 31, 2017, upon the request of the utility, the Commission shall determine, prior to directing that 70 percent of earnings that are more than 70 basis points above the utility's fair combined rate of return on its generation and distribution services for the test period or periods under review be credited to customer bills pursuant to subdivision 8 b, the aggregate level of prior capital investment that the Commission has approved other than those capital investments that the Commission has approved for recovery pursuant to a rate adjustment clause pursuant to subdivision 6 made by the utility during the test period or periods under review in both (i) new utility-owned generation facilities utilizing energy derived from sunlight, or from onshore or offshore wind, and (ii) electric distribution grid transformation projects, as determined by the utility's plant in service and construction work in progress balances related to such investments as recorded per books by the utility for financial reporting purposes as of the end of the most recent test period under review. Any such combined capital investment amounts shall offset any customer bill credit amounts, on a dollar for dollar basis, up to the aggregate level of invested or committed capital under clauses (i) and (ii). The aggregate level of qualifying invested or committed capital under clauses (i) and (ii) is referred to in this subdivision as the customer credit reinvestment offset, which offsets the customer bill credit amount that the utility has invested or will invest in new solar or wind generation facilities or electric distribution grid transformation projects for the benefit of customers, in amounts up to 100 percent of earnings that are more than 70 basis points above the utility's fair rate of return on its generation and distribution services, and thereby reduce or eliminate otherwise incremental rate adjustment clause charges and increases to customer bills, which is deemed to be in the public interest. If 100 percent of the amount of earnings that are more than 70 basis points above the utility's fair combined rate of return on its generation and distribution services, as determined in subdivision 2, exceeds the aggregate level of invested capital in new utility-owned generation facilities utilizing energy derived from sunlight, or from wind, and electric distribution grid transformation projects, as provided in clauses (i) and (ii), during the test period or periods under review, then 70 percent of the amount of such excess shall be credited to customer bills as provided in subdivision 8 b in connection with the triennial review proceeding. The portion of any costs associated with new utility-owned generation facilities utilizing energy derived from sunlight, or from wind, or electric distribution grid transformation projects that is the subject of any customer credit reinvestment offset pursuant to this subdivision shall not thereafter be recovered through the utility's rates for generation and distribution services over the service life of such facilities and shall not thereafter be included in the utility's costs, revenues, and investments in future triennial review proceedings conducted pursuant to subdivision 2 and shall not be the subject of a rate adjustment clause petition pursuant to subdivision 6. The portion of any costs associated with new utility-owned generation facilities utilizing energy derived from sunlight, or from wind, or electric distribution grid transformation projects that is not the subject of any customer credit reinvestment offset pursuant to this subdivision may be recovered through the utility's rates for generation and distribution services over the service life of such facilities and shall be included in the utility's costs, revenues, and investments in future triennial review proceedings conducted pursuant to subdivision 2 until such costs are fully recovered, and if such costs are recovered through the utility's rates for generation and distribution services, they shall not be the subject of a rate adjustment clause petition pursuant to subdivision 6. Only the portion of such costs of new utility-owned generation facilities utilizing energy derived from sunlight, or from wind, or electric distribution grid transformation projects that has not been included in any customer credit reinvestment offset pursuant to this subdivision, and not otherwise recovered through the utility's rates for generation and distribution services, may be the subject of a rate adjustment clause petition by the utility pursuant to subdivision 6.*

The Commission's final order regarding such ~~biennial~~ triennial review shall be entered not more than eight months after the date of filing, and any revisions in rates or credits so ordered shall take effect not more than 60 days after the date of the order. The fair combined rate of return on common equity determined pursuant to subdivision 2 in such ~~biennial~~ triennial review shall apply, for purposes of reviewing the utility's earnings on its rates for generation and distribution services, to the entire ~~two~~ three successive 12-month test periods ending December 31 immediately preceding the year of the utility's subsequent ~~biennial~~ triennial review filing under subdivision 3 and shall apply to applicable rate adjustment

*clauses under subdivisions 5 and 6 prospectively from the date the Commission's final order in the triennial review proceeding, utilizing rate adjustment clause true-up protocols as the Commission in its discretion may determine.*

9. If, as a result of a ~~biennial~~ triennial review required under this subsection and conducted with respect to any test period or periods under review ending later than December 31, 2010 (or, if the Commission has elected to stagger its biennial reviews of utilities as provided in subdivision 1, under review ending later than December 31, 2010, for a Phase I Utility, or December 31, 2011, for a Phase II Utility), the Commission finds, with respect to such test period or periods considered as a whole, that (i) any utility has, during the test period or periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, and (ii) the total aggregate regulated rates of such utility at the end of the most ~~recently-ended~~ recently ended 12-month test period exceeded the annual increases in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, compounded annually, when compared to the total aggregate regulated rates of such utility as determined pursuant to the ~~biennial~~ review conducted for the base period, the Commission shall, unless it finds that such action is not in the public interest or that the provisions of subdivisions 8 b and c are more consistent with the public interest, direct that any or all earnings for such test period or periods under review, considered as a whole that were more than 50 basis points, or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points, above such fair combined rate of return shall be credited to customers' bills, in lieu of the provisions of subdivisions 8 b and c, *provided that no credits shall be provided pursuant to this subdivision in connection with any triennial review unless such bill credits would be payable pursuant to the provisions of subdivision 8 d, and any credits under this subdivision shall be calculated net of any customer credit reinvestment offset amounts under subdivision 8 d.* Any such credits shall be amortized and allocated among customer classes in the manner provided by subdivision 8 b. For purposes of this subdivision:

"Base period" means (i) the test period ending December 31, 2010 (or, if the Commission has elected to stagger its biennial reviews of utilities as provided in subdivision 1, the test period ending December 31, 2010, for a Phase I Utility, or December 31, 2011, for a Phase II Utility), or (ii) the most recent test period with respect to which credits have been applied to customers' bills under the provisions of this subdivision, whichever is later.

"Total aggregate regulated rates" shall include: (i) fuel tariffs approved pursuant to § 56-249.6, except for any increases in fuel tariffs deferred by the Commission for recovery in periods after December 31, 2010, pursuant to the provisions of clause (ii) of subsection C of § 56-249.6; (ii) rate adjustment clauses implemented pursuant to subdivision 4 or 5; (iii) revisions to the utility's rates pursuant to subdivision 8 a; (iv) revisions to the utility's rates pursuant to the Commission's rules governing utility rate increase applications, as permitted by subsection B, occurring after July 1, 2009; and (v) base rates in effect as of July 1, 2009.

10. For purposes of this section, the Commission shall regulate the rates, terms and conditions of any utility subject to this section on a stand-alone basis utilizing the actual end-of-test period capital structure and cost of capital of such utility, unless the Commission finds that the debt to equity ratio of such capital structure is unreasonable for such utility, in which case the Commission may utilize a debt to equity ratio that it finds to be reasonable for such utility in determining any rate adjustment pursuant to subdivisions 8 a and c, and without regard to the cost of capital, capital structure, revenues, expenses or investments of any other entity with which such utility may be affiliated. In particular, and without limitation, the Commission shall determine the federal and state income tax costs for any such utility that is part of a publicly traded, consolidated group as follows: (i) such utility's apportioned state income tax costs shall be calculated according to the applicable statutory rate, as if the utility had not filed a consolidated return with its affiliates, and (ii) such utility's federal income tax costs shall be calculated according to the applicable federal income tax rate and shall exclude any consolidated tax liability or benefit adjustments originating from any taxable income or loss of its affiliates.

B. Nothing in this section shall preclude an investor-owned incumbent electric utility from applying for an increase in rates pursuant to § 56-245 or the Commission's rules governing utility rate increase applications; however, in any such filing, a fair rate of return on common equity shall be determined pursuant to subdivision A 2. Nothing in this section shall preclude such utility's recovery of fuel and purchased power costs as provided in § 56-249.6.

C. Except as otherwise provided in this section, the Commission shall exercise authority over the rates, terms and conditions of investor-owned incumbent electric utilities for the provision of generation, transmission and distribution services to retail customers in the Commonwealth pursuant to the provisions of Chapter 10 (§ 56-232 et seq.), including specifically § 56-235.2.

D. The Commission may determine, during any proceeding authorized or required by this section, the reasonableness or prudence of any cost incurred or projected to be incurred, by a utility in connection with the subject of the proceeding. A determination of the Commission regarding the reasonableness or prudence of any such cost shall be consistent with the Commission's authority to determine the reasonableness or prudence of costs in proceedings pursuant to the provisions of Chapter 10 (§ 56-232 et seq.). In determining the reasonableness or prudence of a utility providing energy and capacity to its customers from renewable energy resources, the Commission shall consider the extent to which such renewable energy resources, whether utility-owned or by contract, further the objectives of the Commonwealth Energy Policy set forth in

§§ 67-101 and 67-102, and shall also consider whether the costs of such resources is likely to result in unreasonable increases in rates paid by ~~consumers~~ customers.

E. The Commission shall promulgate such rules and regulations as may be necessary to implement the provisions of this section.

**§ 56-585.1:1. Transitional Rate Period: review of rates, terms and conditions for utility generation facilities.**

~~Notwithstanding the provisions of §§ 56-249.6 and 56-585.1:~~

A. No biennial reviews of the rates, terms, and conditions for any service of a Phase I Utility, as defined in § 56-585.1, shall be conducted at any time by the ~~State Corporation~~ Commission for the ~~four~~ three successive 12-month test periods beginning January 1, 2014, and ending December 31, ~~2017~~ 2016. No biennial reviews of the rates, terms, and conditions for any service of a Phase II Utility, as defined in § 56-585.1, shall be conducted at any time by the ~~State Corporation~~ Commission for the ~~five~~ two successive 12-month test periods beginning January 1, 2015, and ending December 31, ~~2019~~ 2016. Such test periods beginning January 1, 2014, and ending December 31, 2017, for a Phase I Utility, and beginning January 1, 2015, and ending December 31, ~~2019~~ 2016, for a Phase II Utility, are collectively referred to herein as the "Transitional Rate Period." Review of recovery of fuel and purchase power costs shall continue during the Transitional Rate Period in accordance with § 56-249.6. Any biennial review of the rates, terms, and conditions for any service of a Phase II Utility occurring in 2015 during the Transitional Rate Period shall be solely a review of the utility's earnings on its rates for generation and distribution services for the two 12-month test periods ending December 31, 2014, and a determination of whether any credits to customers are due for such test periods pursuant to subdivision A 8 b of § 56-585.1. After the conclusion of the Transitional Rate Period, ~~biennial~~ reviews of the utility's rates for generation and distribution services shall resume for a Phase I Utility in 2020, with the first such proceeding utilizing the ~~two~~ three successive 12-month test periods beginning January 1, ~~2018~~ 2017, and ending December 31, 2019. After the conclusion of the Transitional Rate Period, ~~biennial~~ reviews of the utility's rates for generation and distribution services shall resume for a Phase II Utility, ~~as defined in § 56-585.1~~, in 2022 2021, with the first such proceeding utilizing the ~~two~~ four successive 12-month test periods beginning January 1, ~~2020~~ 2017, and ending December 31, ~~2021~~ 2020. Consistent with this provision, (i) no biennial filings shall be made by an investor-owned incumbent electric utility in the years 2016 through 2019, inclusive, and (ii) no adjustment to an investor-owned incumbent electric utility's existing tariff rates, including any rates adopted pursuant to § 56-235.2, shall be made between the beginning of the Transitional Rate Period and the conclusion of the first ~~biennial~~ review after the conclusion of the Transitional Rate Period, except as may be provided pursuant to § 56-245 or 56-249.6 or subdivisions A 4, 5, or 6 of § 56-585.1.

B. During the Transitional Rate Period, pursuant to § 56-36, the Commission shall have the right at all times to inspect the books, papers and documents of any investor-owned incumbent electric utility and to require from such companies, from time to time, special reports and statements, under oath, concerning their business.

C. 1. Commencing in 2016 and concluding in 2018, the State Corporation Commission, after notice and opportunity for a hearing, shall conduct a proceeding every two years to determine the fair rate of return on common equity to be used by a Phase I Utility as the general rate of return applicable to rate adjustment clauses under subdivisions A 5 or A 6 of § 56-585.1. A Phase I Utility's filing in such proceedings shall be made on or before March 31 of 2016, and 2018.

2. Commencing in 2017 and concluding in 2019, the State Corporation Commission, after notice and opportunity for a hearing, shall conduct a proceeding every two years to determine the fair rate of return on common equity to be used by a Phase II Utility as the general rate of return applicable to rate adjustment clauses under subdivisions A 5 or A 6 of § 56-585.1. A Phase II utility's filing in such proceedings shall be made on or before March 31 of 2017 and 2019.

3. Such fair rate of return shall be calculated pursuant to the methodology set forth in subdivisions A 2 a and b of § 56-585.1 and shall utilize the utility's actual end-of-test-period capital structure and cost of capital, as well as a 12-month test period ending December 31 immediately preceding the year in which the proceeding is conducted. The Commission's final order in such a proceeding shall be entered no later than eight months after the date of filing, with any adjustment to the fair rate of return for applicable rate adjustment clauses under subdivisions A 5 and 6 of § 56-585.1 taking effect on the date of the Commission's final order in the proceeding, utilizing rate adjustment clause true-up protocols as the Commission may in its discretion determine. Such proceeding shall concern only the issue of the determination of such fair rate of return to be used for rate adjustment clauses under subdivisions A 5 and 6 of § 56-585.1, and such determination shall have no effect on rates other than those applicable to such rate adjustment clauses; however, after the final such proceeding for a utility has been concluded, the fair combined rate of return on common equity so determined therein shall also be deemed equal to the fair combined rate of return on common equity to be used in such utility's first ~~biennial~~ review proceeding conducted after the end of the utility's Transitional Rate Period to review such utility's earnings on its rates for generation and distribution services for the historic test periods.

D. In furtherance of rate stability during the Transitional Rate Period, any Phase II Utility carrying a prior period deferred fuel expense recovery balance on its books and records as of December 31, 2014, shall not recover from customers 50 percent of any such balance outstanding as of December 31, 2014, and the State Corporation Commission shall implement as soon as practicable reductions in the fuel factor rate of any such Phase II Utility to reflect the nonrecovery of any such fuel expense as well as any reduction in the fuel factor associated with the Phase II Utility's current period forecasted fuel expense over recovery for the 2014-2015 fuel year and projected fuel expense for the 2015-2016 fuel year.

E. Except for early retirement plans identified by the utility in an integrated resource plan filed with the State Corporation Commission by September 1, 2014, for utility generation plants, an investor-owned incumbent electric utility

shall not permanently retire an electric power generation facility from service during the Transitional Rate Period without first obtaining the approval of the State Corporation Commission, upon petition from such investor-owned incumbent electric utility, and a finding by the State Corporation Commission that the retirement determination is reasonable and prudent. During the Transitional Rate Period, an investor-owned incumbent electric utility shall recover the following costs, as recorded per books by the utility for financial reporting purposes and accrued against income, only through its existing tariff rates for generation or distribution services, except such costs as may be recovered pursuant to § 56-245, § 56-249.6 or subdivisions A 4, A 5, or A 6 of § 56-585.1: (i) costs associated with asset impairments related to early retirement determinations for utility generation facilities resulting from the implementation of carbon emission guidelines for existing electric power generation facilities that the U.S. Environmental Protection Agency has issued pursuant to § 111(d) of the Clean Air Act; (ii) costs associated with severe weather events; and (iii) costs associated with natural disasters.

F. During the Transitional Rate Period:

1. The State Corporation Commission shall submit a report and make recommendations to the Governor and the General Assembly annually on or before December 1 of each year assessing the updated integrated resource plan of any investor-owned incumbent electric utility. The report shall include an analysis of, among other matters, the amount, reliability, and type of generation facilities needed to serve Virginia native load compared to what is then available to serve such load and what may be available to serve such load in the future in view of market conditions and current and pending state and federal environmental regulations. As a part of such report, the State Corporation Commission shall update its estimate of the impact upon electric rates in Virginia of the implementation of carbon emission guidelines for existing electric power generation facilities that the U.S. Environmental Protection Agency has issued pursuant to § 111(d) of the federal Clean Air Act. The State Corporation Commission shall submit copies of such annual reports to the Chairmen of the House and Senate Committees on Commerce and Labor and the Chairman of the Commission on Electric Utility Regulation; and

2. The Department of Environmental Quality shall submit a report and make recommendations to the Governor and the General Assembly annually on or before December 1 of each year concerning the implementation of carbon emission guidelines for existing electric power generation facilities that the U.S. Environmental Protection Agency has issued pursuant to § 111(d) of the federal Clean Air Act. The report shall include an analysis of, among other matters, the impact of such federal regulations on the operation of any investor-owned incumbent electric utility's electric power generation facilities and any changes, interdiction, or suspension of such regulations. The Department of Environmental Quality shall submit copies of such annual reports to the Chairmen of the House and Senate Committees on Commerce and Labor and the Chairman of the Commission on Electric Utility Regulation.

G. The construction or purchase by an investor-owned incumbent utility of one or more generation facilities with at least one megawatt of generating capacity, and with an aggregate rated capacity that does not exceed ~~500~~ 5,000 megawatts, including rooftop solar installations with a capacity of not less than 50 kilowatts, and with an aggregate capacity of 50 megawatts, that use energy derived from sunlight or from wind and are located in the Commonwealth or off the Commonwealth's Atlantic shoreline, regardless of whether any of such facilities are located within or without such utility's service territory, is in the public interest, and in determining whether to approve such facility, the Commission shall liberally construe the provisions of this section. Such utility shall utilize goods or services sourced, in whole or in part, from one or more Virginia businesses. The utility may propose a rate adjustment clause based on a market index in lieu of a cost of service model for such facility. An investor-owned incumbent utility may enter into short-term or long-term power purchase contracts for the power derived from sunlight generated by such generation facility prior to purchasing the generation facility.

H. To the extent that the provisions of this section are inconsistent with the provisions of §§ 56-249.6 and 56-585.1, the provisions of this section shall control.

**§ 56-585.1:2. Pilot program for energy assistance and weatherization.**

Notwithstanding the provisions of §§ 56-249.6 and 56-585.1:

Each Phase I and II Utility shall conduct a pilot program for energy assistance and weatherization for low income, elderly, and disabled individuals in their respective service territories in the Commonwealth. Each pilot program shall be funded by the utility and shall commence September 1, 2015. *Each Phase I Utility shall continue such pilot program at no less than the existing levels of funding as of July 1, 2018, for each year that the utility provides such service. Each Phase II Utility shall continue such pilot program at no less than \$13 million for each year the utility is providing such service. The funding for the pilot programs established pursuant hereto for energy assistance and weatherization for low-income, elderly, and disabled individuals in the service territory in the Commonwealth of each respective utility shall continue until the earlier of amendment or repeal of this section or July 1, 2028.* Each such utility shall report on the status of its pilot program, including the number of individuals served thereby, to the Governor, the State Corporation Commission, and the Chairmen of the House and Senate Commerce and Labor Committees by July 1, 2016, and each year thereafter.

**§ 56-585.1:4. Development of solar and wind generation capacity in the Commonwealth.**

A. Prior to January 1, 2024, (i) the construction or purchase by a public utility of one or more solar or wind generation facilities located in the Commonwealth or off the Commonwealth's Atlantic shoreline, each having a rated capacity of at least one megawatt and having in the aggregate a rated capacity that does not exceed 5,000 megawatts, or (ii) the purchase by a public utility of energy, capacity, and environmental attributes from solar facilities described in clause (i) owned by

persons other than a public utility is in the public interest, and the Commission shall so find if required to make a finding regarding whether such construction or purchase is in the public interest.

B. Prior to January 1, 2024, (i) the construction or purchase by a public utility of one or more solar or wind generation facilities located in the Commonwealth or off the Commonwealth's Atlantic shoreline, each having a rated capacity of less than one megawatt, including rooftop solar installations with a capacity of not less than 50 kilowatts, and having in the aggregate a rated capacity that does not exceed 500 megawatts, or (ii) the purchase by a public utility of energy, capacity, and environmental attributes from solar facilities described in clause (i) owned by persons other than a public utility is in the public interest, and the Commission shall so find if required to make a finding regarding whether such construction or purchase is in the public interest.

C. The aggregate cap of 5,000 megawatts of rated capacity described in clause (i) of subsection A and the aggregate cap of 500 megawatts of rated capacity described in clause (i) of subsection B are separate and independent from each other. The capacity of facilities in subsection B shall not be counted in determining the capacity of facilities in subsection A, and the capacity of facilities in subsection A shall not be counted in determining the capacity of facilities in subsection B.

D. Twenty-five percent of the solar generation capacity placed in service on or after July 1, 2018, located in the Commonwealth, and found to be in the public interest pursuant to subsection A or B shall be from the purchase by a public utility of energy, capacity, and environmental attributes from solar facilities owned by persons other than a public utility. The remainder shall be construction or purchase by a public utility of one or more solar generation facilities located in the Commonwealth. All of the solar generation capacity located in the Commonwealth and found to be in the public interest pursuant to subsection A or B shall be subject to competitive procurement, provided that a public utility may select solar generation capacity without regard to whether such selection satisfies price criteria if the selection of the solar generating capacity materially advances non-price criteria, including favoring geographic distribution of generating capacity, areas of higher employment, or regional economic development, if such non-price solar generating capacity selected does not exceed 25 percent of the utility's solar generating capacity.

E. Construction, purchasing, or leasing activities for a test or demonstration project for a new utility-owned and utility-operated generating facility or facilities utilizing energy derived from offshore wind with an aggregate capacity of not more than 16 megawatts are in the public interest.

F. A utility may elect to petition the Commission, outside of a triennial review proceeding conducted pursuant to § 56-585.1, at any time for a prudency determination with respect to the construction or purchase by the utility of one or more solar or wind generation facilities located in the Commonwealth or off the Commonwealth's Atlantic Shoreline or the purchase by the utility of energy, capacity, and environmental attributes from solar or wind facilities owned by persons other than the utility. The Commission's final order regarding any such petition shall be entered by the Commission not more than three months after the date of the filing of such petition.

**§ 56-599. Integrated resource plan required.**

A. Each electric utility shall file an updated integrated resource plan by July 1, 2015. Thereafter, each electric utility shall file an updated integrated resource plan ~~annually~~ by May 1, in each year immediately preceding the year the utility is subject to a triennial review filing. A copy of each integrated resource plan shall be provided to the Chairmen of the House and Senate Committees on Commerce and Labor and to the Chairman of the Commission on Electric Utility Regulation. All updated integrated resource plans shall comply with the provisions of any relevant order of the Commission establishing guidelines for the format and contents of updated and revised integrated resource plans. Each integrated resource plan shall consider options for maintaining and enhancing rate stability, energy independence, economic development including retention and expansion of energy-intensive industries, and service reliability.

B. In preparing an integrated resource plan, each electric utility shall systematically evaluate, and may propose:

1. Entering into short-term and long-term electric power purchase contracts;
2. Owning and operating electric power generation facilities;
3. Building new generation facilities;
4. Relying on purchases from the short term or spot markets;
5. Making investments in demand-side resources, including energy efficiency and demand-side management services;
6. Taking such other actions, as the Commission may approve, to diversify its generation supply portfolio and ensure that the electric utility is able to implement an approved plan;
7. The methods by which the electric utility proposes to acquire the supply and demand resources identified in its proposed integrated resource plan;
8. The effect of current and pending state and federal environmental regulations upon the continued operation of existing electric generation facilities or options for construction of new electric generation facilities; ~~and~~
9. The most cost effective means of complying with current and pending state and federal environmental regulations, including compliance options to minimize effects on customer rates of such regulations;
10. Long-term electric distribution grid planning and proposed electric distribution grid transformation projects; and
11. Developing a long-term plan for energy efficiency measures to accomplish policy goals of reduction in customer bills, particularly for low-income, elderly, and disabled customers; reduction in emissions; and reduction in carbon intensity.

C. The Commission shall analyze and review an integrated resource plan and, after giving notice and opportunity to be heard, the Commission shall make a determination *within nine months after the date of filing* as to whether *such an IRP integrated resource plan* is reasonable and is in the public interest.

**§ 56-600. Definitions.**

As used in this chapter:

"Allowed distribution revenue" means the average annual, weather-normalized, nongas commodity revenue per customer associated with the rates in effect as adopted in the applicable utility's last Commission-approved rate case or performance-based regulation plan, multiplied by the average number of customers served.

"Conservation and ratemaking efficiency plan" means a plan filed by a natural gas utility pursuant to this chapter that includes a decoupling mechanism.

"Cost-effective conservation and energy efficiency program" means a program approved by the Commission that is designed to decrease the average customer's annual, weather-normalized consumption or total gas bill, for gas and nongas elements combined, or avoid energy costs or consumption the customer may otherwise have incurred, and is determined by the Commission to be cost-effective ~~upon consideration, among other factors, that if~~ the net present value of the benefits exceeds the net present value of the costs ~~under as determined by not less than any three of the following four tests: the Total Resource Cost Test, the Program Administrator Test (also referred to as the Utility Cost Test), the Participant Test, and the Ratepayer Impact Measure Test.~~ Such determination shall include an analysis of all four tests, and a program or portfolio of programs shall ~~not be rejected based solely on the results of a single test approved if the net present value of the benefits exceeds the net present value of the costs as determined by not less than any three of the four tests.~~ Such determination shall also be made (i) with the assignment of administrative costs associated with the conservation and ratemaking efficiency plan to the portfolio as a whole and (ii) with the assignment of education and outreach costs associated with each program in a portfolio of programs to such program and not to individual measures within a program, when such administrative, education, or outreach costs are not otherwise directly assignable. Without limitation, rate designs or rate mechanisms, customer education, customer incentives, and weatherization programs are examples of conservation and energy efficiency programs that the Commission may consider. Energy efficiency programs that provide measurable and verifiable energy savings to low-income customers or elderly customers may also be deemed cost effective. A cost-effective conservation and energy efficiency program shall not include a program designed to convert propane customers to natural gas.

"Decoupling mechanism" means a rate, tariff design or mechanism that decouples the recovery of a utility's allowed distribution revenue from the level of consumption of natural gas by its customers, including (i) a mechanism that adjusts actual nongas distribution revenues per customer to allowed distribution revenues per customer, such as a sales adjustment clause, (ii) rate design changes that substantially align the percentage of fixed charge revenue recovery with the percentage of the utility's fixed costs, such as straight fixed variable rates, provided such mechanism includes a substantial demand component based on a customer's peak usage, or (iii) a combination of clauses (i) and (ii) that substantially decreases the relative amount of nongas distribution revenue affected by changes in per customer consumption of gas.

"Fixed costs" means any and all of the utility's nongas costs of service, together with an authorized return thereon, that are not associated with the cost of the natural gas commodity flowing through and measured by the customer's meter.

"Measure" means an individual item, service, offering, or rebate available to a customer of a natural gas utility as part of the utility's conservation and ratemaking efficiency plan.

"Natural gas utility" or "utility" means any investor-owned public service company engaged in the business of furnishing natural gas service to the public.

"Portfolio" means the program or programs included in a natural gas utility's conservation and ratemaking efficiency plan.

"Program" means a group of one or more related measures for a customer class.

"Revenue-neutral" means a change in a rate, tariff design or mechanism as a component of a conservation and ratemaking efficiency plan that does not shift annualized allowed distribution revenue between customer classes, and does not increase or decrease the utility's average, weather-normalized nongas utility revenue per customer for any given rate class by more than 0.25 percent when compared to (i) the rate, tariff design or mechanism in effect at the time a conservation and ratemaking efficiency plan is filed pursuant to this chapter or (ii) the allocation of costs approved by the Commission in a rate case using the cost of service methodology set forth in § 56-235.2 or a performance-based regulation plan authorized by § 56-235.6, where a plan is filed in conjunction with such case.

**2. § 1.** *There is hereby established a pilot program to further the understanding of underground electric transmission lines in regard to electric reliability, construction methods and related cost and timeline estimating, and the probability of meeting such projections. The pilot program shall consist of the approval to construct qualifying electrical transmission lines of 230 kilovolts or less (but greater than 69 kilovolts) in whole or in part underground. Such pilot program shall consist of a total of two qualifying electrical transmission line projects, constructed in whole or in part underground, as specified and set forth in this act.*

*§ 2. Notwithstanding any other law to the contrary, as a part of the pilot program established pursuant to this act, the State Corporation Commission shall approve as a qualifying project a transmission line of 230 kilovolts or less that is pending final approval of a certificate of public convenience and necessity from the State Corporation Commission as of December 31, 2017, for the construction of an electrical transmission line approximately 5.3 miles in length utilizing both overhead and underground transmission facilities, of which the underground portion shall be approximately 3.1 miles in*

length, which has been previously proposed for construction within or immediately adjacent to the right-of-way of an interstate highway. Once the State Corporation Commission has affirmed the project need through an order, the project shall be constructed in part underground, and the underground portion shall consist of a double circuit.

The State Corporation Commission shall approve such underground construction within 30 days of receipt of the written request of the public utility to participate in the pilot program pursuant to this section. The State Corporation Commission shall not require the submission of additional technical and cost analyses as a condition of its approval but may request such analyses for its review. The State Corporation Commission shall approve the underground construction of one contiguous segment of the transmission line that is approximately 3.1 miles in length that was previously proposed for construction within or immediately adjacent to the right-of-way of the interstate highway, for which, by resolution, the locality has indicated general community support. The remainder of the construction for the transmission line shall be aboveground. The Commission shall not be required to perform any further analysis as to the impacts of this route, including environmental impacts or impacts upon historical resources.

The electric utility may proceed to acquire right-of-way and take such other actions as it deems appropriate in furtherance of the construction of the approved transmission line, including acquiring the cables necessary for the underground installation.

§ 3. In reviewing applications submitted by public utilities for certificates of public convenience and necessity for the construction of electrical transmission lines of 230 kilovolts or less filed between July 1, 2018, and July 1, 2020, the State Corporation Commission shall approve, consistent with the requirements of § 4 of this enactment, one additional application as a qualifying project to be constructed in whole or in part underground, as a part of this pilot program. The one qualifying project shall be in addition to the qualifying project described in § 2 of this enactment.

§ 4. For purposes of § 3, a project shall be qualified to be placed underground, in whole or in part, if it meets all of the following criteria: (i) an engineering analysis demonstrates that it is technically feasible to place the proposed line, in whole or in part, underground; (ii) the governing body of each locality in which a portion of the proposed line will be placed underground indicates, by resolution, general community support for the project and that it supports the transmission line to be placed underground; (iii) a project has been filed with the State Corporation Commission or is pending issuance of a certificate of public convenience and necessity by July 1, 2020; (iv) the estimated additional cost of placing the proposed line, in whole or in part, underground does not exceed 2.5 times the cost of placing the same line overhead, assuming accepted industry standards for undergrounding to ensure safety and reliability; if the public utility, the affected localities, and the State Corporation Commission agree, a proposed underground line whose cost exceeds 2.5 times the cost of placing the line overhead may also be accepted into the pilot program; (v) the public utility requests that the project be considered as a qualifying project under this enactment; and (vi) the primary need of the project shall be for purposes of grid reliability, grid resiliency, or to support economic development priorities of the Commonwealth and shall not be to address aging assets that would have otherwise been replaced in due course.

§ 5. Approval of a transmission line pursuant to this enactment for inclusion in the pilot program shall be deemed to satisfy the requirements of § 15.2-2232 of the Code of Virginia and local zoning ordinances with respect to such transmission line and any associated facilities, such as stations, substations, transition stations and locations, and switchyards or stations, that may be required.

§ 6. The State Corporation Commission shall report annually to the Commission on Electric Utility Restructuring, the Joint Commission on Technology and Science, and the Governor on the progress of the pilot program by no later than December 1 of each year that this act is in effect. The State Corporation Commission shall submit a final report to the Commission on Electric Utility Restructuring, the Joint Commission on Technology and Science, and the Governor no later than December 1, 2024, analyzing the entire program and making recommendations about the continued placement of transmission lines underground in the Commonwealth. The State Corporation Commission's final report shall include, but not be limited to, analysis and findings of the costs of underground construction and historical and future consumer rate effects of such costs, effect of underground transmission lines on grid reliability, operability (including operating voltage), probability of meeting cost and construction timeline estimates of such underground transmission lines, and aesthetic or other benefits attendant to the placement of transmission lines underground.

§ 7. For the qualifying projects chosen pursuant to this enactment and not fully recoverable as charges for new transmission facilities pursuant to subdivision A 4 of § 56-585.1 of the Code of Virginia, the State Corporation Commission shall approve a rate adjustment clause. The rate adjustment clause shall provide for the full and timely recovery of any portion of the cost of such project not recoverable under applicable rates, terms, and conditions approved by the Federal Energy Regulatory Commission and shall include the use of the fair return on common equity most recently approved in a State Corporation Commission proceeding for such utility. Such costs shall be entirely assigned to the utility's Virginia jurisdictional customers. The State Corporation Commission's final order regarding any petition filed pursuant to this section shall be entered not more than three months after the filing of such petition.

§ 8. The provisions of this enactment shall not be construed to limit the ability of the State Corporation Commission to approve additional applications for placement of transmission lines underground.

§ 9. If two applications are not submitted to the State Corporation Commission that meet the requirements of this act, the State Corporation Commission shall document the failure of the projects to qualify for the pilot program in order to justify approving fewer than two projects to be placed underground, in whole or in part.

*§ 10. Insofar as the provisions of this act are inconsistent with the provisions of any other law or local ordinance, the provisions of this act shall be controlling.*

3. That after July 1, 2018, each Phase I Utility as defined in subdivision A 1 of § 56-585.1 of the Code of Virginia shall not recover from customers \$10 million of incurred fuel costs, and the State Corporation Commission shall implement at the time of the utility's next fuel cost recovery proceeding conducted pursuant to § 56-249.6 of the Code of Virginia reductions in the fuel factor rate of the Phase I Utility to reflect the nonrecovery of such fuel expense as well as any change in the fuel factor associated with the Phase I Utility's fuel recovery balance for the 2017-2018 fuel year and projected fuel expense for the 2018-2019 fuel year. Such nonrecovery shall not be included in any earnings test after July 1, 2018.

4. That, no later than 30 days following July 1, 2018, each Phase II Utility as defined in subdivision A 1 of § 56-585.1 of the Code of Virginia shall provide to its current customers a one-time, voluntary generation and distribution services bill credit, to be allocated on a historic test period energy usage basis, in an aggregate amount of \$133 million. Such one-time voluntary generation and distribution services bill credit shall not be included in any earnings test after July 1, 2018.

5. That, no later than 30 days after January 1, 2019, each Phase II Utility shall provide to its current customers a one-time, voluntary generation and distribution services bill credit, to be allocated on a historic test period energy usage basis, in an aggregate amount of \$67 million, which one-time voluntary generation and distribution services bill credit shall be included in the earnings test for the utility in its first triennial review after January 1, 2019.

6. That the State Corporation Commission shall implement adjustments in the rates for generation and distribution services of incumbent electric utilities, as defined in § 56-576 of the Code of Virginia, effective April 1, 2019, to reflect the actual annual reductions in corporate income taxes to be paid by such utilities pursuant to the provisions of the federal Tax Cuts and Jobs Act of 2017 (P.L. 115-97) and as of the effective date of such act.

7. That in advance of the determination of the State Corporation Commission (the Commission) as to rate reductions to reflect reductions in corporate income taxes pursuant to the sixth enactment of this act, any (i) Phase I Utility as defined in subdivision A 1 of § 56-585.1 of the Code of Virginia shall reduce its existing rates for generation and distribution services on an interim basis, within 30 days of July 1, 2018, in an amount sufficient to reduce its annual revenues from such rates by an aggregate amount of \$50 million and (ii) Phase II Utility as defined in subdivision A 1 of § 56-585.1 of the Code of Virginia shall reduce its existing rates for generation and distribution services on an interim basis, within 30 days of July 1, 2018, in an amount sufficient to reduce its annual revenues from such rates by an aggregate amount of \$125 million. The amount of such interim reduction in rates for generation and distribution services shall be attributable to reductions in the corporate income tax obligations of the utility pursuant to the provisions of the federal Tax Cuts and Jobs Act of 2017 (P.L. 115-97). In implementing any further reductions to the rates for generation and distribution services of any Phase I Utility or Phase II Utility effective April 1, 2019, pursuant to the sixth enactment of this act, the Commission shall consider this interim revenue requirement reduction, and its actions shall be limited to a true-up of this interim reduction amount to the actual annual reduction in corporate tax obligations of such utility as of the effective date of the federal Tax Cuts and Jobs Act of 2017 (P.L. 115-97).

8. That the provisions of this act amending and reenacting § 56-585.1 of the Code of Virginia by adding subdivision 8 d shall expire on July 1, 2028.

9. That the State Corporation Commission (the Commission) shall establish pilot programs under which each Phase I Utility and each Phase II Utility, as such terms are defined in subdivision A 1 of § 56-585.1 of the Code of Virginia, shall submit a proposal to deploy electric power storage batteries. A proposal shall provide for the deployment of batteries pursuant to a pilot program that accomplishes at least one of the following: (i) improve reliability of electrical transmission or distribution systems; (ii) improve integration of different types of renewable resources; (iii) deferred investment in generation, transmission, or distribution of electricity; (iv) reduced need for additional generation of electricity during times of peak demand; or (v) connection to the facilities of a customer receiving generation, transmission, and distribution service from the utility. A Phase I Utility may install batteries with up to 10 megawatts of capacity. A Phase II Utility may install batteries with up to 30 megawatts of capacity. Each pilot program shall have a duration of five years. The pilot program shall provide for the recovery of all reasonable and prudent costs incurred under the pilot program through the electric utility's base rates on a nondiscriminatory basis. Any pilot program proposed by a Phase I Utility or Phase II Utility that satisfies the requirements of this enactment is in the public interest.

10. That the State Corporation Commission shall, by December 1, 2018, adopt such rules or establish such guidelines as may be necessary for the general administration of pilot programs to deploy electric power storage batteries established by the ninth enactment of this act.

11. That any individual nonresidential retail customer of a Phase II Utility, as defined in subdivision A 1 of § 56-585.1 of the Code of Virginia, whose single account demand during the most recent calendar year exceeded 500 kilowatts but did not exceed one percent of the Phase II Utility's peak load during the most recent calendar year, unless such customer had noncoincident peak demand in excess of 90 megawatts in calendar year 2006 or any year thereafter, and that is currently taking service from the Phase II Utility pursuant to an approved tariff rate schedule applicable to large general service customers, not to include any customer taking service under any experimental or pilot

program tariff rate schedule, tariff rate schedule for market-based rates, tariff rate schedule to purchase 100 percent renewable energy pursuant to subdivision A 5 of § 56-577 of the Code of Virginia, or companion tariff rate schedule, that enters into an exclusive supply agreement with the Phase II Utility whereby the customer agrees to purchase electric energy exclusively from the Phase II Utility serving the exclusive service territory in which such retail customer is located for a period of three years or more shall be eligible for a Manufacturing and Commercial Competitiveness Retention Credit during the duration of such exclusive supply agreement, which shall reduce the base generation charges under the customer's existing approved tariff rate by a total of two percent.

12. That any Phase II Utility, as that term is defined in subdivision A 1 of § 56-585.1 of the Code of Virginia, shall consider in its integrated resource plan next filed after July 1, 2018, either as a demand-side energy efficiency measure or a supply-side generation alternative, whether the construction or purchase of one or more generation facilities with at least one megawatt of generating capacity, having a measurable aggregate rated capacity of 200 megawatts by 2024, that use combined heat and power or waste heat to power and are located in the Commonwealth, are in the customer interest. For purposes of this analysis, the total efficiency, including the use of thermal energy, for eligible combined heat and power facilities must meet or exceed 65 percent (Lower Heating Value). The assumed efficiency of waste heat to power systems that do not burn any supplemental fuel and use only waste heat as a fuel source is 100 percent. As used in this enactment, "waste heat to power" means a system that generates electricity through the recovery of a qualified waste heat resource and "qualified waste heat resource" means (i) exhaust heat or flared gas from an industrial process that does not have, as its primary purpose, the production of electricity and (ii) a pressure drop in any gas for an industrial or commercial process.

13. That each Phase I Utility and each Phase II Utility, as such terms are defined in subdivision A 1 of § 56-585.1 of the Code of Virginia, shall investigate the feasibility of providing broadband Internet services using utility distribution and transmission infrastructure. Such investigation shall include determination of regulatory barriers to such services and proposed legislation to address such barriers. The State Corporation Commission shall assist each such utility in its determination of such barriers and development of proposed legislation. Each such utility shall evaluate whether it is in the public interest and the interest of the utility (i) to make improvements to the distribution grid in furtherance of providing such broadband Internet services in conjunction with its program of electric distribution grid transformation projects; (ii) to operate broadband Internet services using utility distribution and transmission infrastructure to provide broadband Internet services to unserved areas of the Commonwealth; or (iii) to permit a commercial entity to lease such capacity to provide broadband Internet services to unserved areas of the Commonwealth. Each such utility shall report whether it determines such broadband Internet services using utility distribution and transmission infrastructure to be feasible, including the maturity of the technology, the compatibility of such services with existing electric services, the financial requirements to undertake such broadband Internet services, and those unserved areas in the Commonwealth where the provision of such broadband Internet services appears feasible, to the Governor, the State Corporation Commission, the Broadband Advisory Council, and the Chairmen of the House and Senate Committees on Commerce and Labor by December 1, 2018.

14. That it is the objective of the General Assembly that the construction and development of new utility-owned and utility-operated generating facilities utilizing energy derived from sunlight and from wind with an aggregate capacity of 5,000 megawatts, including rooftop solar installations with a capacity of not less than 50 kilowatts, and with an aggregate capacity of 50 megawatts, be placed in service on or before July 1, 2028. The State Corporation Commission shall submit a report and make recommendations to the Governor and the General Assembly annually on or before December 1 of each year through December 1, 2028, assessing (i) the aggregate annual new construction and development of new utility-owned and utility-operated generating facilities utilizing energy derived from sunlight, (ii) the integration of utility-owned renewable electric generation resources with the utility's electric distribution grid; (iii) the aggregate additional utility-owned and utility-operated generating facilities utilizing energy derived from sunlight placed in operation since July 1, 2018, and (iv) the need for additional generation of electricity utilizing energy derived from sunlight in order to meet the objective of the General Assembly on or before July 1, 2028. The State Corporation Commission shall submit copies of such annual reports to the Chairmen of the House and Senate Committees on Commerce and Labor and the Chairman of the Commission on Electric Utility Regulation.

15. That each Phase I Utility and Phase II Utility, as such terms are defined in subdivision A 1 of § 56-585.1 of the Code of Virginia, shall develop a proposed program of energy conservation measures. Any program shall provide for the submission of a petition or petitions for approval to design, implement, and operate energy efficiency programs pursuant to subdivision A 5 c of § 56-585.1 of the Code of Virginia. At least five percent of such energy efficiency programs shall benefit low-income, elderly, and disabled individuals. The projected costs for the utility to design, implement, and operate such energy efficiency programs, including a margin to be recovered on operating expenses, shall be no less than an aggregate amount of \$140 million for a Phase I Utility and \$870 million for a Phase II Utility for the period beginning July 1, 2018, and ending July 1, 2028, including any existing approved energy efficiency programs. In developing such portfolio of energy efficiency programs, each utility shall utilize a stakeholder process, to be facilitated by an independent monitor compensated under the funding provided pursuant to subdivision E of § 56-592.1 of the Code of Virginia, to provide input and feedback on the development of such energy efficiency

programs. Such stakeholder process shall include representatives from each utility, the State Corporation Commission, the office of Consumer Counsel of the Attorney General, the Department of Mines, Minerals and Energy, energy efficiency program implementers, energy efficiency providers, residential and small business customers, and any other interested stakeholder who the independent monitor deems appropriate for inclusion in such process. The utility shall report on the status of the energy efficiency program, including the petitions filed and the determination thereon, to the Governor, the State Corporation Commission, and the Chairmen of the House and Senate Commerce and Labor Committees on July 1, 2019, and annually thereafter through July 1, 2028.

16. That each Phase I Utility and each Phase II Utility, as such terms are defined in subdivision A 1 of § 56-585.1 of the Code of Virginia, shall investigate and report upon its economic development activities and assistance provided to Virginia localities in the area of economic development in each utility's respective service area. Such report shall include discussion of any existing economic rate incentives, the use thereof, and recommendations for changes of such economic rate incentives, if any; any electrical equipment discounts for economic development purposes; any ongoing support for the development of new economic development sites, including determining the energy infrastructure and permitting requirements in advance of an end-user locating on the site, and providing marketing assistance and promotion of validated sites; any direct assistance to localities in their economic development efforts, including responses to requests for information and proposals for economic development prospects; and any resources and personnel devoted to such economic development efforts. The report shall include a discussion of underserved areas, particularly in rural areas of the Commonwealth, together with suggestions for enhancing economic development assistance in such rural areas. The report shall also provide recommendations for the enhancement of economic development activities in each utility's respective service area, including a discussion of requirements to provide electric services to business-ready sites in advance of identifying a user for such sites. Each utility shall report to the Governor, the State Corporation Commission, and the Chairmen of the House and Senate Commerce and Labor Committees on December 1, 2018.

17. That each Phase I Utility and each Phase II Utility, as such terms are defined in subdivision A 1 of § 56-585.1 of the Code of Virginia, shall investigate potential improvements to the net energy metering programs as provided under § 56-594 of the Code of Virginia, potential improvements to the pilot programs for community solar development as provided under § 56-585.1:3 of the Code of Virginia, expansion of options for customers with corporate clean energy procurement targets, and impediments to the siting of new renewable energy projects. Each such utility shall include interested stakeholders in the investigation of such issues and the development of proposed legislation and shall issue a report of its findings to the Governor, the State Corporation Commission, and the Chairmen of the House and Senate Committees on Commerce and Labor by November 1, 2018.

18. That as part of its integrated resource plans filed between 2019 and 2028, any Phase II Utility, as that term is defined in subdivision A 1 of § 56-585.1 of the Code of Virginia, shall incorporate into its long-term plan for energy efficiency measures policy goals of reduction in customer bills, particularly for low-income, elderly, veterans, and disabled customers; reduction in emissions; and reduction in the utility's carbon intensity. Considerations shall include analysis of the following: energy efficiency programs for low-income customers in alignment with billing and credit practices; energy efficiency programs that reflect policies and regulations related to customers with serious medical conditions; programs specifically focused on low-income customers, occupants of multifamily housing, veterans, elderly, and disabled customers; options for combining distributed generation, energy storage, and energy efficiency for residential and small business customers; the extent that electricity rates account for the amount of customer electricity bills in the Commonwealth and how such extent in the Commonwealth compares with such extent in other states, including a comparison of the average retail electricity price per kWh by rate class among all 50 states and an analysis of each state's primary fuel sources for electricity generation, accounting for energy efficiency, heating source, cooling load, housing size, and other relevant factors; and other issues as may seem appropriate.

19. That the State Corporation Commission shall submit a report and make recommendations to the Governor and the General Assembly annually on or before December 1 of each year assessing (i) the reliability of electrical transmission or distribution systems; (ii) the integration of utility or customer owned renewable electric generation resources with the utility's electric distribution grid; (iii) the level of investment in generation, transmission, or distribution of electricity; (iv) the need for additional generation of electricity during times of peak demand; and (v) distribution system hardening projects and enhanced physical security measures. The State Corporation Commission shall submit copies of such annual reports to the Chairmen of the House and Senate Committees on Commerce and Labor and the Chairman of the Commission on Electric Utility Regulation.

20. That the provisions of this act shall apply to any applications pending with the State Corporation Commission regarding new underground facilities or offshore wind facilities on or after January 1, 2018.

21. That on or before July 1, 2028, subject to the approval of the State Corporation Commission (the Commission), a Phase I Utility, as that term is defined in subdivision A 1 of § 56-585.1 of the Code of Virginia, shall construct or acquire a generation facility or facilities utilizing energy derived from sunlight with an aggregate capacity of not less than 200 megawatts located in the Commonwealth, which utility-owned generation facility or facilities is in the public interest as is set forth in this act. If a Phase I Utility serves in more than one jurisdiction, and a jurisdiction other than the Commonwealth denies the Phase I Utility recovery of the costs of the generation facility or facilities

utilizing energy from sunlight allocated to that jurisdiction, the Phase I Utility can recover all of the costs of the generation facility or facilities utilizing energy from sunlight from its Virginia jurisdictional customers, and all attributes of the generation facility or facilities utilizing energy from sunlight, including energy and capacity shall be assigned to Virginia.

22. That from July 1, 2018, until July 1, 2028, not more than one-half of the combined capital investment amount attributable to (i) investments in new utility-owned generation facilities utilizing energy derived from sunlight or from wind; (ii) investments in electric distribution grid transformation projects; (iii) investments in one or more new underground facilities to replace one or more existing overhead distribution facilities of 69 kilovolts or less located within the Commonwealth; (iv) investment in the estimated additional cost of placing the two proposed pilot projects for the construction of qualifying electrical transmission lines of 230 kilovolts or less (but greater than 69 kilovolts) in whole or in part underground, in excess of the cost of placing the same lines overhead, assuming accepted industry standards for undergrounding to ensure safety and reliability; and (v) the projected costs for the utility to design, implement and operate energy efficiency programs, including a margin to be recovered on operating expenses, submitted to the Commission for approval, shall be (a) investments in one or more new underground facilities to replace one or more existing overhead distribution facilities of 69 kilovolts or less located within the Commonwealth; (b) investment in the estimated additional cost of placing the two proposed pilot projects for the construction of qualifying electrical transmission lines of 230 kilovolts or less (but greater than 69 kilovolts) in whole or in part underground in excess of the cost of placing the same line overhead, assuming accepted industry standards for undergrounding to ensure safety and reliability; and (c) electric distribution grid transformation projects solely designed for physical security at distribution substations.

23. That within 60 days after the conclusion of each triennial review proceeding conducted pursuant to § 56-585.1 of the Code of Virginia, the State Corporation Commission (the Commission) shall submit a report to the Governor and the General Assembly and the Chairmen of the House and Senate Commerce and Labor Committees describing and quantifying all investments made by the utility during the test period or periods under review in both (i) new utility-owned generation facilities utilizing energy derived from sunlight or from onshore or offshore wind and (ii) electric distribution grid transformation projects, as determined by the utility's plant in service and construction work in progress balances related to such investments as recorded per books by the utility for financial reporting purposes as of the end of the most recent test period under review. The Commission's report shall include, but not be limited to, an analysis of the financial effects of such investments, including the effects on customer rates, customer bill credits, and the earnings and rate base of each utility subject to the triennial review provisions of § 56-585.1.

24. That this act shall be known as the Grid Transformation and Security Act.

### CHAPTER 300

*An Act to amend and reenact § 46.2-330 of the Code of Virginia, relating to driver's license renewals; twenty-first birthday.*

[H 387]

Approved March 19, 2018

**Be it enacted by the General Assembly of Virginia:**

**1. That § 46.2-330 of the Code of Virginia is amended and reenacted as follows:**

**§ 46.2-330. Expiration and renewal of licenses; examinations required.**

A. Every driver's license shall expire on the applicant's birthday at the end of the period of years for which a driver's license has been issued. At no time shall any driver's license be issued for more than eight years *or less than five years, unless otherwise provided by law*. Thereafter the driver's license shall be renewed on or before the birthday of the licensee and shall be valid for a period not to exceed eight years except as otherwise provided by law. Any driver's license issued to a person age 75 or older shall be issued for a period not to exceed five years. Notwithstanding these limitations, the Commissioner may extend the validity period of an expiring license if (i) the Department is unable to process an application for renewal due to circumstances beyond its control, (ii) the extension has been authorized under a directive from the Governor, and (iii) the license was not issued as a temporary driver's license under the provisions of subsection B of § 46.2-328.1. However, in no event shall the validity period be extended more than 90 days per occurrence of such conditions. In determining the number of years for which a driver's license shall be renewed, the Commissioner shall take into consideration the examinations, conditions, requirements, and other criteria provided under this title that relate to the issuance of a license to operate a vehicle. Any driver's license issued to a person required to register pursuant to Chapter 9 (§ 9.1-900 et seq.) of Title 9.1 shall expire on the applicant's birthday in years which the applicant attains an age equally divisible by five.

B. Within one year prior to the date shown on the driver's license as the date of expiration, the Department shall send notice, to the holder thereof, at the address shown on the records of the Department in its driver's license file, that his license will expire on a date specified therein, whether he must be reexamined, and when he may be reexamined. Nonreceipt of the notice shall not extend the period of validity of the driver's license beyond its expiration date. The license holder may request the Department to send such renewal notice to an email or other electronic address, upon provision of such address to the Department.

Any driver's license may be renewed by application after the applicant has taken and successfully completed those parts of the examination provided for in §§ 46.2-311, 46.2-325, and the Virginia Commercial Driver's License Act (§ 46.2-341.1 et seq.), including vision and written tests, other than the parts of the examination requiring the applicant to drive a motor vehicle. All drivers applying in person for renewal of a license shall take and successfully complete the examination each renewal year. Every applicant for a renewal shall appear in person before the Department, unless specifically notified by the Department that renewal may be accomplished in another manner as provided in the notice. Applicants who are required to appear in person before the Department to apply for a renewal may also be required to present proof of identity, legal presence, residency, and social security number or non-work authorized status.

C. Notwithstanding any other provision of this section, the Commissioner, in his discretion, may require any applicant for renewal to be fully examined as provided in §§ 46.2-311 and 46.2-325 and the Virginia Commercial Driver's License Act (§ 46.2-341.1 et seq.). Furthermore, if the applicant is less than 75 years old, the Commissioner may waive the vision examination for any applicant for renewal of a driver's license that is not a commercial driver's license and the requirement for the taking of the written test as provided in subsection B of this section, § 46.2-325, and the Virginia Commercial Driver's License Act (§ 46.2-341.1 et seq.). However, in no case shall there be any waiver of the vision examination for applicants for renewal of a commercial driver's license or of the knowledge test required by the Virginia Commercial Driver's License Act for the hazardous materials endorsement on a commercial driver's license. No driver's license or learner's permit issued to any person who is 75 years old or older shall be renewed unless the applicant for renewal appears in person and either (i) passes a vision examination or (ii) presents a report of a vision examination, made within 90 days prior thereto by an ophthalmologist or optometrist, indicating that the applicant's vision meets or exceeds the standards contained in § 46.2-311.

D. Every applicant for renewal of a driver's license, whether renewal shall or shall not be dependent on any examination of the applicant, shall appear in person before the Department to apply for renewal, unless specifically notified by the Department that renewal may be accomplished in another manner as provided in the notice.

E. This section shall not modify the provisions of § 46.2-221.2.

F. 1. The Department shall electronically transmit application information, including a photograph, to the Department of State Police, in a format approved by the State Police, for comparison with information contained in the Virginia Criminal Information Network and National Crime Information Center Convicted Sexual Offender Registry files, at the time of the renewal of a driver's license. Whenever it appears from the records of the State Police that a person has failed to comply with the duty to register or reregister pursuant to Chapter 9 (§ 9.1-900 et seq.) of Title 9.1, the State Police shall promptly investigate and, if there is probable cause to believe a violation has occurred, obtain a warrant or assist in obtaining an indictment charging a violation of § 18.2-472.1 in the jurisdiction in which the person last registered or reregistered or in the jurisdiction where the person made application for licensure. **Be it enacted by the General Assembly of Virginia:**

**1. That §§ 64.2-308.9 and 64.2-308.10 of the Code of Virginia are amended and reenacted as follows:**

**§ 64.2-308.9. Exclusions, valuation, and overlapping application.**

A. The value of any property is excluded from the decedent's non-probate transfers to others:

1. To the extent *that* the decedent received adequate and full consideration in money or money's worth for a transfer of the property; or

2. If the property was transferred with the written joinder of, or if the transfer was consented to in writing before or after the transfer by, the surviving spouse.

B. 1. The value of any property otherwise included under § 64.2-308.5 ~~or~~, 64.2-308.6, *or* 64.2-308.7, and its income or proceeds, is excluded from the decedent's net probate estate ~~and~~ *decedent's* non-probate transfers to others, *and decedent's non-probate transfers to the surviving spouse* to the extent *that* such property was transferred to or for the benefit of the decedent, before or during the marriage to the surviving spouse, by gift, will, transfer in trust, intestate succession, or any other method or form of transfer to the extent *that* it was (i) transferred without full consideration in money or money's worth from a person other than the surviving spouse and (ii) maintained by the decedent as separate property.

2. The value of any property otherwise included under § 64.2-308.8, and its income or proceeds, is excluded from the surviving spouse's property and non-probate transfers to others to the extent *that* such property was transferred to or for the benefit of the surviving spouse, before or during the marriage to the decedent, by gift, will, transfer in trust, intestate succession, or any other method or form of transfer to the extent *that* it was (i) transferred without full consideration in money or money's worth from a person other than the decedent and (ii) maintained by the surviving spouse as separate property.

C. 1. The value of property:

1. Included in the augmented estate under § 64.2-308.5, 64.2-308.6, 64.2-308.7, or 64.2-308.8 is reduced in each category by enforceable claims against the included property; and

2. Includes the commuted value of any present or future interest and the commuted value of amounts payable under any trust, life insurance settlement option, annuity contract, public or private pension, disability compensation, death benefit or retirement plan, or any similar arrangement, exclusive of the federal social security system. Except as provided herein for interests passing to a surviving spouse, life estates and remainder interests are valued in the manner prescribed in Article 2 (§ 55- 269.1 et seq.) of Chapter 15 of Title 55 and deferred payments and estates for years are discounted to present value using the interest rate specified in § 55-269.1. In valuing partial and contingent interests passing to the surviving spouse, and beneficial interests in trust, the following special rules apply:

a. The value of the beneficial interest of a spouse shall be the entire fair market value of any property held in trust if the decedent was the settlor of the trust, if the trust is held for the exclusive benefit of the surviving spouse during the surviving spouse's lifetime, and if the terms of the trust meet the following requirements:

(1) During the lifetime of the surviving spouse, the trust is controlled by the surviving spouse or one or more trustees who are non-adverse parties;

(4) In exercising discretion, the trustee may be authorized or required to take into consideration all other income assets and other means of support available to the surviving spouse.

b. To the extent that the partial or contingent interest is dependent upon the occurrence of any contingency that is not subject to the control of the surviving spouse and that is not subject to valuation by reference to the mortality and annuity tables set forth in §§ 55-271 through 55-277, the contingency will be conclusively presumed to result in the lowest possible value passing to the surviving spouse.

c. To the extent that the valuation of a partial or contingent interest is dependent upon the life expectancy of the surviving spouse, that life expectancy shall be conclusively presumed to be no less than 10 years, regardless of the actual attained age of the surviving spouse at the decedent's death.

D. In case of overlapping application to the same property of the subsections or subdivisions of § 64.2-308.6, 64.2-308.7, or 64.2-308.8, the property is included in the augmented estate under the provision yielding the greatest value, and under only one overlapping provision if they all yield the same value.

**§ 64.2-308.10. Sources from which elective share payable.**

A. In a proceeding for an elective share, the following are applied first to satisfy the elective-share amount and to reduce or eliminate any contributions due from the decedent's probate estate and recipients of the decedent's non-probate transfers to others:

1. ~~The value of property~~ Amounts excluded from the augmented estate under ~~subsection A subdivision B 1~~ of § 64.2-308.9; ~~which passes or has~~ that passed to the surviving spouse ~~and amounts that passed to the surviving spouse at the decedent's death pursuant to the decedent's exercise of a power of appointment over property not included in the augmented estate;~~

2. Amounts included in the augmented estate under § 64.2-308.5 that pass or have passed to the surviving spouse by testate or intestate succession and amounts included in the augmented estate under § 64.2-308.7; and

3. The marital property portion of amounts included in the augmented estate under § 64.2-308.8.

B. The marital property portion under subdivision A 3 is computed by multiplying the value of the amounts included in the augmented estate under § 64.2-308.8 by the percentage of the augmented estate set forth in the schedule in subsection B of § 64.2-308.4 appropriate to the length of time the spouse and the decedent were married to each other.

C. If, after the application of subsection A, the elective share amount is not fully satisfied, amounts included in the decedent's net probate estate, other than assets passing to the surviving spouse by testate or intestate succession, and in the decedent's non-probate transfers to others under subdivisions 1, 2, and 3 b of § 64.2-308.6 are applied first to satisfy the unsatisfied balance of the elective share amount. The decedent's net probate estate and that portion of the decedent's non-probate transfers to others are so applied that liability for the unsatisfied balance of the elective share amount is apportioned among the recipients of the decedent's net probate estate and of that portion of the decedent's non-probate transfers to others in proportion to the value of their interests therein.

D. If, after the application of subsections A and C, the elective share amount is not fully satisfied, the remaining portion of the decedent's non-probate transfers to others is so applied that liability for the unsatisfied balance of the elective share amount is apportioned among the recipients of the remaining portion of the decedent's non-probate transfers to others in proportion to the value of their interests therein.

E. The unsatisfied balance of the elective share amount as determined under subsection C or D is treated as a general pecuniary bequest.

[S 16]

Approved March 19, 2018

**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 59.1-444.2 and 59.1-444.3 of the Code of Virginia are amended and reenacted as follows:**

**§ 59.1-444.2. Security freezes.**

A. As used in this section, "security freeze" means a notice placed in a consumer's credit report, at the request of the consumer and subject to certain exceptions, that prohibits the consumer reporting agency from releasing the consumer's credit report or score relating to the extension of credit.

B. A consumer may request that a security freeze be placed on his or her credit report by sending a request in writing by certified mail, or such other secure method authorized by a consumer reporting agency, to a consumer reporting agency at an address designated by the consumer reporting agency to receive such requests. This subsection does not prevent a consumer reporting agency from advising a third party that a security freeze is in effect with respect to the consumer's credit report.

C. A consumer reporting agency shall place a security freeze on a consumer's credit report no later than three business days after receiving from the consumer:

1. A written request described in subsection B;
2. Proper identification; and
3. Payment of a fee not to exceed ~~\$10~~ \$5, if applicable.

A consumer reporting agency shall place a security freeze on a consumer's credit report no later than one business day after receiving such a request, if such request is made electronically at an address designated by the consumer reporting agency to receive such requests.

D. The consumer reporting agency shall send a written confirmation of the placement of the security freeze to the consumer within 10 business days. Upon placing the security freeze on the consumer's credit report, the consumer reporting agency shall provide the consumer with a unique personal identification number or password, or similar device to be used by the consumer when providing authorization for the release of his credit report for a specific period of time or for a specific party.

E. If the consumer wishes to allow his credit report to be accessed for a specific period of time or for a specific party while a freeze is in place, he shall contact the consumer reporting agency using a point of contact designated by the consumer reporting agency, request that the freeze be temporarily lifted, and provide the following:

1. Proper identification;
2. The unique personal identification number or password provided by the consumer reporting agency pursuant to subsection D; and
3. The proper information regarding the time period or the specific party for which the report shall be available to users of the credit report.

F. A consumer reporting agency:

1. Shall comply with a request made under subsection E:
  - a. Within three business days after receiving the request if the request is made at a postal address designated by the agency to receive such requests; or

b. Within 15 minutes after the consumer's request is received by the consumer reporting agency through the electronic contact method chosen by the consumer reporting agency in accordance with this section;

2. Is not required to temporarily lift a security freeze within the time provided in subdivision 1 b if:

a. The consumer fails to meet the requirements of subsection E; or

b. The consumer reporting agency's ability to temporarily lift the security freeze within 15 minutes is prevented by:

(1) An act of God, including fire, earthquakes, hurricanes, storms, or similar natural disaster or phenomena;

(2) Unauthorized or illegal acts by a third party, including terrorism, sabotage, riot, vandalism, labor strikes or disputes disrupting operations, or similar occurrence;

(3) Operational interruption, including electrical failure, unanticipated delay in equipment or replacement part delivery, computer hardware or software failures inhibiting response time, or similar disruption;

(4) Governmental action, including emergency orders or regulations, judicial or law-enforcement action, or similar directives;

(5) Regularly scheduled maintenance, during other than normal business hours, of, or updates to, the consumer reporting agency's systems; or

(6) Commercially reasonable maintenance of, or repair to, the consumer reporting agency's systems that is unexpected or unscheduled; and

3. May develop procedures involving the use of telephone, fax, the Internet, or other electronic media to receive and process a request from a consumer to temporarily lift a freeze on a credit report pursuant to subsection E in an expedited manner.

G. A consumer reporting agency shall remove or temporarily lift a freeze placed on a consumer's credit report only in the following cases:

1. Upon a consumer request, pursuant to subsection E or subsection J; or

2. If the consumer's credit report was frozen due to a material misrepresentation of fact by the consumer. If a consumer reporting agency intends to remove a freeze upon a consumer's credit report pursuant to this subdivision, the consumer reporting agency shall notify the consumer in writing prior to removing the freeze on the consumer's credit report.

H. If a third party requests access to a consumer credit report on which a security freeze is in effect, and this request is in connection with an application for credit or any other use, and the consumer does not allow his or her credit report to be accessed for that period of time, the third party may treat the application as incomplete.

I. If a consumer requests a security freeze, the consumer reporting agency shall disclose the process of placing and temporarily lifting a freeze, and the process for allowing access to information from the consumer's credit report for a period of time while the freeze is in place.

J. A security freeze shall remain in place until the consumer requests, using a point of contact designated by the consumer reporting agency, that the security freeze be removed. A consumer reporting agency shall remove a security freeze within three business days of receiving a request for removal from the consumer, who provides:

1. Proper identification; and

2. The unique personal identification number or password or similar device provided by the consumer reporting agency pursuant to subsection D.

K. A consumer reporting agency shall require proper identification of the person making a request to place or remove a security freeze.

L. The provisions of this section do not apply to the use of a consumer credit report by any of the following:

1. A person or entity, or a subsidiary, affiliate, or agent of that person or entity, or an assignee of a financial obligation owing by the consumer to that person or entity, or a prospective assignee of a financial obligation owing by the consumer to that person or entity in conjunction with the proposed purchase of the financial obligation, with which the consumer has or had prior to assignment an account or contract, including a demand deposit account, or to whom the consumer issued a negotiable instrument, for the purposes of reviewing the account or collecting the financial obligation owing for the account, contract, or negotiable instrument. For purposes of this paragraph, "reviewing the account" includes activities related to account maintenance, monitoring, credit line increases, and account upgrades and enhancements;

9. Any person or entity for use in setting or adjusting a rate, adjusting a claim, or underwriting for insurance purposes; or
10. Any employer in connection with any application for employment with the employer.

M. This section does not prevent a consumer reporting agency from charging a fee of no more than ~~\$10~~ \$5 to a consumer to place each freeze, except that a consumer reporting agency may not charge a fee to a victim of identity theft who has submitted a valid police report to the consumer reporting agency.

N. If a security freeze is in place, a consumer reporting agency shall not change any of the following official information in a consumer credit report without sending a written confirmation of the change to the consumer within 30 days of the change being posted to the consumer's file: name, date of birth, social security number, and address. Written confirmation is not required for technical modifications of a consumer's official information, including name and street abbreviations, complete spellings, or transposition of numbers or letters. In the case of an address change, the written confirmation shall be sent to both the new address and to the former address.

O. The following entities are not required to place a security freeze on a credit report:

1. A consumer reporting agency that acts only as a reseller of credit information by assembling and merging information contained in the database of another consumer reporting agency or multiple consumer credit reporting agencies, and does not maintain a permanent database of credit information from which new consumer credit reports are produced. However, a consumer reporting agency acting as a reseller shall honor any security freeze placed on a consumer credit report by another consumer reporting agency;

"Virginia Consumers Have the Right to Obtain a Security Freeze.

You have a right to place a "security freeze" on your credit report, which will prohibit a consumer reporting agency from releasing information in your credit report without your express authorization. A security freeze must be requested in writing by certified mail. The security freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that using a security freeze to take control over who gets access to the personal and financial information in your credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application you make regarding a new loan, credit, mortgage, government services or payments, rental housing, employment, investment, license, cellular phone, utilities, digital signature, Internet credit card transaction, or other services, including an extension of credit at point of sale. When you place a security freeze on your credit report, you will be provided a personal identification number or password to use if you choose to remove the freeze on your credit report or authorize the release of your credit report for a period of time or for a specific party after the freeze is in place. To provide that authorization you must contact the consumer reporting agency and provide all of the following:

1. The personal identification number or password;
2. Proper identification to verify your identity; and
3. The proper information regarding the period of time or the specific party for which the report shall be available.

A consumer reporting agency must authorize the release of your credit report no later than three business days after receiving the above information. A consumer credit reporting agency must authorize the release of your credit report no later than 15 minutes after receiving the request.

A security freeze does not apply to a person or entity, or its affiliates, or collection agencies acting on behalf of the person or entity, with which you have an existing account, that requests information in your credit report for the purposes of reviewing or collecting the account. Reviewing the account includes activities related to account maintenance, monitoring, credit line increases, and account upgrades and enhancements.

You have a right to bring civil action against anyone, including a consumer reporting agency, who improperly obtains access to a file, knowingly or willfully misuses file data, or fails to correct inaccurate file data.

Unless you are a victim of identity theft with a police report to verify the crimes, a consumer reporting agency has the right to charge you up to ~~\$10~~ \$5 to place a freeze on your credit report."

Q. Any person who willfully fails to comply with any requirement imposed under this section or § 59.1-444.3 with respect to any consumer is liable to that consumer in an amount equal to the sum of:

1. Any actual damages sustained by the consumer as a result of the failure or damages of not less than \$100 and not more than \$1,000;
2. Such amount of punitive damages as the court may allow; and

3. In the case of any successful action to enforce any liability under this section, the costs of the action together with reasonable attorney fees as determined by the court.

R. Any person who obtains a consumer report, requests a security freeze, requests the temporary lift of a freeze, or the removal of a security freeze from a consumer reporting agency under false pretenses or in an attempt to violate federal or state law shall be liable to the consumer reporting agency for actual damages sustained by the consumer reporting agency or \$1,000, whichever is greater.

S. Any person who is negligent in failing to comply with any requirement imposed under this section with respect to any consumer is liable to that consumer in an amount equal to the sum of:

1. Any actual damages sustained by the consumer as a result of the failure; and

2. In the case of any successful action to enforce any liability under this section, the costs of the action together with reasonable attorney fees as determined by the court.

T. Upon a finding by the court that an unsuccessful pleading, motion, or other paper filed in connection with an action under this section was filed in bad faith or for purposes of harassment, the court shall award to the prevailing party attorney fees reasonable in relation to the work expended in responding to the pleading, motion, or other paper.

U. Notwithstanding any other provision of law:

1. The exclusive authority to bring an action for any violation of subdivision F 1 b shall be with the Attorney General. In any action brought under this subsection, the Attorney General may cause an action to be brought in the name of the Commonwealth to enjoin the violation and to recover damages for aggrieved consumers consistent with the limits stated in subsections Q and S for such violations.

2. In any action brought under this subsection, if the court finds a willful violation, the court may, in its discretion, also award a civil penalty of not more than \$1,000 per violation, to be deposited in the Literary Fund of the Commonwealth.

3. In any action brought under this subsection, the Attorney General may recover any costs, the reasonable expenses incurred in investigating and preparing the case, and attorney fees.

**§ 51.1-142.2. Prior service or membership credit for certain members; service credit for accumulated sick leave.**

Certain members may purchase credit for service as provided in this section.

A. 1. Any member in service may purchase service credit from the following categories of service or leave: (i) leave of absence for educational purposes that was previously approved by the member's employer; (ii) leave of absence for a serious health condition of the member or of an immediate family member, all as defined in the Family and Medical Leave Act of 1993, 29 U.S.C. § 2601 et seq., as amended, and previously certified by the member's employer; (iii) up to one year of service credit per occurrence of leave for any unpaid leave of absence due to the birth, adoption, or death of a qualifying child, as defined in § 51.1-500; (iv) service as a full-time employee of another state, a public school system of another state, or a political subdivision of the Commonwealth or another state, as certified by such state, public school system, or political subdivision; (v) full-time service of a political subdivision of this state not credited to the member under an agreement as provided for in § 51.1-143.1, as certified by such political subdivision; (vi) *full-time* civilian service of the United States; (vii) full-time service at a private institution of higher education if the private institution is merged with a public institution of higher education and graduates of the private institution are then issued new degrees from the public institution; or (viii) any period of time when the member was employed part time or in a wage position by a participating employer and not otherwise eligible to participate in the retirement system because the member was not an employee as defined in § 51.1-124.3. However, no member in service shall be allowed to purchase more than a total of four years of service credit pursuant to this subdivision.

2. In addition to the service credit that may be purchased under subdivision 1, any member in service may purchase up to four years of service credit for prior active duty military service in the armed forces of the United States, provided that the discharge from a period of active duty status with the armed forces was not dishonorable.

3. The service credit to be credited to a member under this subsection shall be calculated at the ratio of one year, or portion thereof, of service credit to one year, or portion thereof, of service purchased, except for employment service purchased under clause (viii) of subdivision 1, which shall be calculated at the ratio of one month of service credit for each 173 hours of service as certified by the employer.

For each year or portion thereof to be credited at the time of purchase under this subsection, the member shall pay the approximate normal cost of the retirement plan under which the member is covered at the time of such purchase, as determined by the Board in its sole discretion. If the member does not purchase, or enter into a purchase of service credit contract for, the service made available in this subsection within the first 24 months of the member's active service following his first date of hire or the final day of any applicable leave of absence, as applicable, then, for each year or portion thereof to be credited at the time of purchase, the member shall pay the actuarial equivalent cost. To the extent the member becomes inactive during the 24 months following his first date of hire or the final day of any applicable leave of absence, such periods shall not be included in the 24 months of active service.

Except as otherwise required by Chapter 1223 of Title 10 of the United States Code, as amended, no service credit may be purchased under this section if it is included in the calculation of any retirement allowance received or to be received by the member from this or another retirement system, or if there is a balance in a defined contribution account that serves as a primary retirement account related to such service.

For purposes of this subsection, "active duty military service" means full-time service of at least 180 consecutive days in the United States Army, Navy, Air Force, Marines, Coast Guard, or reserve components thereof.

B. Any member in service may purchase all prior service credit for creditable service lost from ceasing to be a member under this chapter, as provided in § 51.1-128, because of the withdrawal of his accumulated contributions. For each year or portion thereof to be credited at the time of purchase under this subsection, the member shall pay the withdrawn amount to be purchased plus interest accrued daily and compounded annually from the date of withdrawal to the date of payment at the assumed rate of return established by the Board for the actuarial valuation of the retirement system that is in effect at the time of the purchase. The Board shall develop guidelines and procedures for administering this subsection.

C. Any member in service may purchase service credit for accumulated sick leave on his effective date of retirement based upon such sums as the employer may provide as payment for any unused sick leave balances. The cost of service credit purchased under this subsection shall be the actuarial equivalent cost of such service.

D. Any member receiving benefits under the Virginia Workers' Compensation Act (§ 65.2-100 et seq.) may, in a manner prescribed by the Board and prior to the effective date of retirement, purchase service that is not reported to the retirement system by the member's employer while the member is receiving such benefits.

For each year or portion thereof to be credited at the time of purchase under this subsection, the member shall pay the approximate normal cost of the retirement plan under which the member is covered, as determined by the Board in its sole discretion. If the member does not purchase, or enter into a purchase of service credit contract for, any service made available in this subsection within the first 24 months of the member's active service following his first date of hire or the final day of any applicable leave of absence, then, for each year or portion thereof to be credited at the time of purchase, the member shall pay the actuarial equivalent cost. To the extent the member becomes inactive during the 24 months following his first date of hire or the final day of any applicable leave of absence, such periods shall not be included in the 24 months of active service.

E. Payment may be made in a lump sum at the time of purchase or by payroll deduction. Any number of additional deductions may be permitted at any time. Should any deduction be terminated before the member purchases the entire period contracted for, the member shall be credited with the number of full or partial months of service for which full payment has been made. If any deduction is continued after the entire period has been purchased, the member shall be credited with no more than the amount of service for which he was eligible and for which he paid, and the excess amount deducted shall be refunded to the member.

F. Any employer may elect to pay an equivalent amount in lieu of all member contributions required of its employees for the purchase of service credit pursuant to this section. These contributions shall not be considered wages for purposes of Chapter 7 (§ 51.1-700 et seq.), nor shall they be considered salary for purposes of this chapter.

G. In any case where member and employer contributions, as required under this chapter, were not made because of an error in the payroll, personnel, or other classification system of an employer participating in the retirement system, service that has not been credited because of such error may be purchased on the following basis:

1. The most recent three years of service credit shall be purchased, using applicable member and employer contribution rates and creditable compensation in effect for such period, in a manner and at the cost prescribed by the Board; and
2. All other years of service credit shall be purchased by the employer at an actuarial equivalent cost.

H. Any member may receive credit at no cost for service rendered in the armed forces of the United States provided (i) the member was on leave of absence from a covered position, (ii) the discharge from a period of active duty with the armed forces was not dishonorable, (iii) the member has not withdrawn his accumulated contributions, (iv) the member is not disabled or killed while on leave without pay while performing active duty military service in the armed forces of the United States, and (v) the member reenters service in a covered position within one year after discharge from the armed forces. In order to receive such service, the member must complete such forms and other requirements as are required by the Board and the retirement system.

**§ 51.1-159. Medical examinations of persons retired for disability.**

A. Once each year following retirement, the Board may require a former member who retired for disability and who has not attained his normal retirement age to undergo a medical examination by the Medical Board or a physician or ~~physicians~~ *other health care professional* designated by the Medical Board. If the former member refuses to submit to the required medical examination, his retirement allowance shall be discontinued until he complies. If he does not comply within six months of the date of the request, all of his rights to any further disability retirement allowance shall cease, subject to the provisions of § 51.1-160.

B. If the Medical Board determines that a beneficiary is not disabled after reviewing the findings of any of the medical examinations provided for in this section, all rights to any further disability allowance shall cease, subject to the provisions of § 51.1-160.

**§ 51.1-513.2. Long-term care coverage program.**

A. The Board shall maintain and administer a long-term care coverage *or similar benefit* program for any state employee working an average of at least 20 hours per week, and for any other person who has five or more years of creditable service with any retirement plan administered by the Virginia Retirement System. The long-term care coverage program may also extend coverage to eligible family members of such state employee or other person. The Board is authorized to contract for and purchase insurance coverage or to use other actuarially sound funding necessary to effectuate this provision. Participation in the long-term care coverage program shall be voluntary, subject to policies and procedures adopted by the Board.

B. Any person eligible to participate in the long-term care coverage program pursuant to § 51.1-513.3 will not be eligible for this plan.

C. Notwithstanding the provisions of subsection A, the Board may self-insure long-term care benefits provided under § 51.1-513.2 or 51.1-513.3 in accordance with the standards set forth in § 51.1-124.30.

The Board shall maintain and administer a plan or plans, hereinafter "plan" or "plans," for providing long-term care coverage *or a similar benefit program* for employees of local governments, local officers, and teachers. The plan or plans may also extend coverage to eligible family members of such employees of local governments, local officers, or teachers. The plan or plans may, but need not, be rated separately from any plan developed to provide long-term care coverage for state employees under § 51.1-513.2. Participation in such insurance plan or plans shall be (i) voluntary, (ii) approved by the participant's respective governing body, or by the local school board in the case of teachers, and (iii) subject to policies and procedures adopted by the Board.

B. For the purposes of this section:

"Employees of local governments" shall include all officers and employees, working an average of at least 20 hours per week, of the governing body of any county, city, or town, and the directing or governing body of any political entity, subdivision, branch or unit of the Commonwealth or of any commission or public authority or body corporate created by or under an act of the General Assembly specifying the power or powers, privileges or authority capable of exercise by the commission or public authority or body corporate, as distinguished from § 15.2-1300; *or* 15.2-1303; or similar statutes, provided that the officers and employees of a social services department; welfare board; community services board or behavioral health authority; or library board of a county, city, or town shall be deemed to be employees of local government.

A. There is hereby created in the state treasury a special nonreverting fund to be known as the Wireless E-911 Fund (the Fund). The Fund shall be established on the books of the Comptroller. Interest earned on moneys in the Fund shall remain in the Fund and be credited to it. Any moneys remaining in the Fund, including interest thereon, at the end of each fiscal year shall not revert to the general fund but shall remain in the Fund. Except as provided in § 2.2-2031, moneys in the Fund shall be used for the purposes stated in subsections C through D. Expenditures and disbursements from the Fund shall

be made by the State Treasurer on warrants issued by the Comptroller upon written request signed by the Tax Commissioner or the Chief Information Officer of the Commonwealth.

B. Each CMRS provider and each CMRS reseller shall collect a wireless E-911 surcharge from each of its customers whose place of primary use is within the Commonwealth. However, no surcharge shall be imposed on federal, state and local government agencies. A payment equal to all wireless E-911 surcharges shall be remitted within 30 days to the Department of Taxation. The Department of Taxation, after subtracting its direct costs of administration, shall deposit all remitted wireless E-911 surcharges into the state treasury. The Comptroller shall as soon as practicable deposit such moneys into the Fund. Each CMRS provider and CMRS reseller may retain an amount equal to three percent of the wireless E-911 surcharges collected to defray the costs of collecting the surcharges. State and local taxes shall not apply to any wireless E-911 surcharge collected from customers. Surcharges collected from customers shall be subject to the provisions of the federal Mobile Telecommunications Sourcing Act (4 U.S.C. § 116 et seq., as amended).

The CMRS provider and CMRS reseller shall collect the surcharge through regular periodic billing.

C. Beginning July 1, 2012, 60 percent of the Wireless E-911 Fund shall be distributed on a monthly basis to the PSAPs according to each PSAP's average pro rata distribution from the Wireless E-911 Fund for fiscal years 2007-2012, taking into account any funding adjustments made pursuant to subsection E. On or before July 1, 2018, and every five years thereafter, the Department of Taxation shall recalculate the distribution percentage for each PSAP based on the cost and call load data of the PSAP for the previous five fiscal years, which data shall continue to be received by the Board and then reported to the Department of Taxation. The distribution from the Wireless E-911 Fund shall be made on a monthly basis to the PSAPs according to such distribution percentage beginning July 1 of such fiscal year.

D. Using 30 percent of the Wireless E-911 Fund, the Board shall provide payment to CMRS providers of wireless E-911 CMRS costs. For these purposes each CMRS provider shall submit to the Board on or before December 31 of each year an estimate of wireless E-911 CMRS costs it expects to incur during the next fiscal year of counties and municipalities in whose jurisdiction it operates. The Board shall review such estimates and advise each CMRS provider on or before the following March 1 whether its estimate qualifies for payment hereunder and whether the Wireless E-911 Fund is expected to be sufficient for such payment during said fiscal year. A CMRS provider with an approved estimate of costs shall submit its request for payment of such costs no later than four months after the end of the fiscal year in which the cost was incurred. If the portion of the Fund designated for CMRS provider cost payments is insufficient to provide full payment to each CMRS provider for its costs, no unpaid cost shall be paid in the following fiscal year. The remaining 10 percent of the Fund and any remaining funds for the previous fiscal year from the 30 percent for CMRS providers shall be distributed to PSAPs or on behalf of PSAPs based on grant requests received by the Board each fiscal year. The Board shall establish criteria for receiving and making grants from the Fund, including procedures for determining the amount of a grant and payment schedule; however, the grants must be to the benefit of wireless E-911. Any grant funding that has not been committed by the Board by the end of the fiscal year shall be distributed to the PSAPs based on the same distribution percentage used during the fiscal year in which the funding was collected; however, the Board may retain some or all of this uncommitted funding for an identified funding need in the next fiscal year or for a reserve balance pursuant to a reserve balance policy adopted by the Board.

E. After the end of each fiscal year, on a schedule adopted by the Board, the Board shall audit the grant funding received by all recipients to ensure it was utilized in accordance with the grant requirements. For the fiscal year ending June 30, 2005, the Board shall determine whether qualifying payments to PSAP operators and CMRS providers during the preceding fiscal year exceeded or were less than the actual wireless E-911 PSAP costs or wireless E-911 CMRS costs of any PSAP operator or CMRS provider. Each funding recipient shall provide such verification of such costs as may be requested by the Board. Any overpayment shall be refunded to the Board or credited to payments during the then current fiscal year, on such schedule as the Board shall determine. If payments are less than the actual costs reported, the Board may include the additional funding in the then current fiscal year.

F. The Auditor of Public Accounts, or his legally authorized representatives, shall ~~annually~~ audit the Wireless E-911 Fund *as determined necessary by the Auditor of Public Accounts*. The cost of such audit shall be borne by the Board and be payable from the Wireless E-911 Fund, as appropriate. The Board shall furnish copies of the audits to the Governor, the Public Safety Subcommittees of the Senate Committee on Finance and the House Committee on Appropriations, and the Virginia State Crime Commission.

G. The special tax authorized by § 58.1-1730 shall not be imposed on consumers of CMRS.

**§ 59.1-394. Audit required.**

A regular post-audit shall be conducted of all accounts and transactions of the Commission. An ~~annual~~ audit of a fiscal and compliance nature of the accounts and transactions of the Commission shall be conducted by the Auditor of Public Accounts ~~on or before September 30 of each year~~ *as determined necessary by the Auditor of Public Accounts*. The cost of the ~~annual~~ audit and post-audit examinations shall be borne by the Commission.

[S 974]

Approved March 19, 2018

**Be it enacted by the General Assembly of Virginia:****1. That § 13.1-657 of the Code of Virginia is amended and reenacted as follows:****§ 13.1-657. Action without meeting.**

A. Action required or permitted by this chapter to be adopted or taken at a shareholders' meeting may be adopted or taken without a meeting if the action is adopted or taken by all the shareholders entitled to vote on the action, in which case no action by the board of directors shall be required. The adoption or taking of the action shall be evidenced by one or more written consents describing the action taken, signed by all the shareholders entitled to vote on the action, bearing the date of each signature, and delivered to the corporation for inclusion in the minutes or filing with the corporate records.

B. The articles of incorporation may authorize action by shareholders by less than unanimous written consent provided that the taking of such action is consistent with any requirements that may be set forth in the corporation's articles of incorporation, the bylaws, or this section. ~~For such action;~~ *however, unless the articles of incorporation of a public corporation authorized action by shareholders by less than unanimous written consent as of April 1, 2018, the shareholders of the public corporation shall not be entitled to act by less than unanimous written consent even if so authorized by the articles of incorporation if the articles of incorporation or bylaws of such public corporation allow the holders of 30 percent or fewer of all votes entitled be cast to demand the calling of a special meeting of shareholders. For action by shareholders by less than unanimous written consent to be valid:*

1. It shall be an action that this chapter requires or permits to be adopted or taken at a shareholders' meeting;

2. The corporation's articles of incorporation shall authorize action by shareholders by less than unanimous written consent and, if a public corporation at the time of such authorization *and in addition to the other limitations in this subsection B*, the inclusion of the authorization in the articles of incorporation shall be approved by each voting group entitled to vote by the greater of:

a. The vote of that voting group required by the corporation's articles of incorporation to amend the articles of incorporation; and

b. More than two-thirds of all votes that the voting group is entitled to cast on the amendment;

3. Before the holders of more than 10 percent of the outstanding shares of any voting group entitled to vote on the action to be adopted or taken have executed the written consent, the corporation's secretary shall have received a copy of the form of written consent setting forth the action to be adopted or taken; and

4. The holders of not less than the minimum number of outstanding shares of each voting group entitled to vote on the action that would be required to adopt or take the action at a shareholders' meeting at which all shares of each voting group entitled to vote on the action were present and voted shall have signed written consents setting forth the action to be adopted or taken.

The written consent shall bear the date on which each shareholder signed the consent and be delivered to the corporation for inclusion in the minutes or filing with the corporate records.

C. If not otherwise fixed under § 13.1-656 or 13.1-660 and if prior board action is not required respecting the action to be adopted or taken without a meeting, the record date for determining the shareholders entitled to adopt or take action without a meeting shall be the first date on which a signed written consent is delivered to the corporation. If not otherwise fixed under § 13.1-656 or 13.1-660 and if prior board action is required respecting the action to be adopted or taken without a meeting, the record date shall be the close of business on the day the resolution of the board taking such prior action is adopted. No written consent shall be effective to adopt or take the action referred to therein unless, within 60 days of the earliest date on which a consent delivered to the corporation as required by this section was signed, written consents signed by the holders of shares having sufficient votes to adopt or take the action have been delivered to the corporation. A written consent may be revoked by a writing to that effect delivered to the corporation before unrevoked written consents sufficient in number to adopt or take the action are delivered to the corporation.

D. A consent signed pursuant to the provisions of this section has the effect of a vote at a meeting and may be described as such in any document. Unless the articles of incorporation, bylaws or a resolution of the board of directors provides for a reasonable delay to permit tabulation of written consents, the action adopted or taken by written consent shall be effective when (i) written consents signed by the holders of shares having sufficient votes to adopt or take the action are delivered to the corporation or (ii) if an effective date is specified therein, as of such date provided such consent states the date of execution by the consenting shareholder.

E. Any person, whether or not then a shareholder, may provide that a consent in writing as a shareholder shall be effective at a future time, including the time when an event occurs, but such future time shall not be more than 60 days after such provision is made. Any such consent shall be deemed to have been made for purposes of this section at the future time so specified for the consent to be effective, provided that (i) the person is a shareholder at such future time and (ii) the

person did not revoke the consent prior to such future time. Any such consent may be revoked, in the manner provided in subsection C, prior to its becoming effective.

F. If this chapter requires that notice of a proposed action be given to nonvoting shareholders and the action is to be adopted or taken by written consent of the voting shareholders, the corporation shall give its nonvoting shareholders written notice of the action not more than 10 days after (i) written consents sufficient to adopt or take the action have been delivered to the corporation, or (ii) such later date that tabulation of consents is completed pursuant to an authorization under subsection D. The notice shall reasonably describe the action adopted or taken and contain or be accompanied by the same material that under any provision of this chapter would have been required to be sent to nonvoting shareholders in a notice of a meeting at which the proposed action would have been submitted to the shareholders for action.

G. If action is adopted or taken by less than unanimous written consent of the voting shareholders, the corporation shall give its nonconsenting voting shareholders written notice of the action not more than 10 days after (i) written consents sufficient to adopt or take the action have been delivered to the corporation or (ii) such later date that tabulation of consents is completed pursuant to an authorization under subsection D. The notice shall reasonably describe the action adopted or taken and contain or be accompanied by the same material that under any provision of this chapter would have been required to be sent to voting shareholders in a notice of a meeting at which the action would have been submitted to the shareholders for action.

**CHAPTER 312**

*An Act to amend and reenact § 16.1-260 of the Code of Virginia, relating to informal truancy plans.*

[H 274]

Approved March 19, 2018

**Be it enacted by the General Assembly of Virginia:**

**1. That § 16.1-260 of the Code of Virginia is amended and reenacted as follows:**

**§ 16.1-260. Intake; petition; investigation.**

A. All matters alleged to be within the jurisdiction of the court shall be commenced by the filing of a petition, except as provided in subsection H and in § 16.1-259. The form and content of the petition shall be as provided in § 16.1-262. No individual shall be required to obtain support services from the Department of Social Services prior to filing a petition seeking support for a child. Complaints, requests, and the processing of petitions to initiate a case shall be the responsibility of the intake officer. However, (i) the attorney for the Commonwealth of the city or county may file a petition on his own motion with the clerk; (ii) designated nonattorney employees of the Department of Social Services may complete, sign, and file petitions and motions relating to the establishment, modification, or enforcement of support on forms approved by the Supreme Court of Virginia with the clerk; (iii) designated nonattorney employees of a local department of social services may complete, sign, and file with the clerk, on forms approved by the Supreme Court of Virginia, petitions for foster care review, petitions for permanency planning hearings, petitions to establish paternity, motions to establish or modify support, motions to amend or review an order, and motions for a rule to show cause; and (iv) any attorney may file petitions on behalf of his client with the clerk except petitions alleging that the subject of the petition is a child alleged to be in need of services, in need of supervision, or delinquent. Complaints alleging abuse or neglect of a child shall be referred initially to the local department of social services in accordance with the provisions of Chapter 15 (§ 63.2-1500 et seq.) of Title 63.2. Motions and other subsequent pleadings in a case shall be filed directly with the clerk. The intake officer or clerk with whom the petition or motion is filed shall inquire whether the petitioner is receiving child support services or public assistance. No individual who is receiving support services or public assistance shall be denied the right to file a petition or motion to establish, modify, or enforce an order for support of a child. If the petitioner is seeking or receiving child support

services or public assistance, the clerk, upon issuance of process, shall forward a copy of the petition or motion, together with notice of the court date, to the Division of Child Support Enforcement.

B. The appearance of a child before an intake officer may be by (i) personal appearance before the intake officer or (ii) use of two-way electronic video and audio communication. If two-way electronic video and audio communication is used, an intake officer may exercise all powers conferred by law. All communications and proceedings shall be conducted in the same manner as if the appearance were in person, and any documents filed may be transmitted by facsimile process. The facsimile may be served or executed by the officer or person to whom sent, and returned in the same manner, and with the same force, effect, authority, and liability as an original document. All signatures thereon shall be treated as original signatures. Any two-way electronic video and audio communication system used for an appearance shall meet the standards as set forth in subsection B of § 19.2-3.1.

When the court service unit of any court receives a complaint alleging facts which may be sufficient to invoke the jurisdiction of the court pursuant to § 16.1-241, the unit, through an intake officer, may proceed informally to make such adjustment as is practicable without the filing of a petition or may authorize a petition to be filed by any complainant having sufficient knowledge of the matter to establish probable cause for the issuance of the petition.

An intake officer may proceed informally on a complaint alleging a child is in need of services, in need of supervision, or delinquent only if the juvenile (i) is not alleged to have committed a violent juvenile felony or (ii) has not previously been proceeded against informally or adjudicated delinquent for an offense that would be a felony if committed by an adult. A petition alleging that a juvenile committed a violent juvenile felony shall be filed with the court. A petition alleging that a juvenile is delinquent for an offense that would be a felony if committed by an adult shall be filed with the court if the juvenile had previously been proceeded against informally by intake or had been adjudicated delinquent for an offense that would be a felony if committed by an adult.

If a juvenile is alleged to be a truant pursuant to a complaint filed in accordance with § 22.1-258 and the attendance officer has provided documentation to the intake officer that the relevant school division has complied with the provisions of § 22.1-258, then the intake officer shall file a petition with the court. The intake officer may defer filing the complaint for 90 days and proceed informally by developing a truancy plan. ~~The intake officer may proceed informally only if, provided that~~ (a) the juvenile has not previously been proceeded against informally or adjudicated in need of supervision *on more than two occasions* for failure to comply with compulsory school attendance as provided in § 22.1-254 and (b) *the immediately previous informal action or adjudication occurred at least three calendar years prior to the current complaint.* The juvenile and his parent or parents, guardian, or other person standing in loco parentis must agree, in writing, for the development of a truancy plan. The truancy plan may include requirements that the juvenile and his parent or parents, guardian, or other person standing in loco parentis participate in such programs, cooperate in such treatment, or be subject to such conditions and limitations as necessary to ensure the juvenile's compliance with compulsory school attendance as provided in § 22.1-254. The intake officer may refer the juvenile to the appropriate public agency for the purpose of developing a truancy plan using an interagency interdisciplinary team approach. The team may include qualified personnel who are reasonably available from the appropriate department of social services, community services board, local school division, court service unit, and other appropriate and available public and private agencies and may be the family assessment and planning team established pursuant to § 2.2-5207. If at the end of the 90-day period the juvenile has not successfully completed the truancy plan or the truancy program, then the intake officer shall file the petition.

Whenever informal action is taken as provided in this subsection on a complaint alleging that a child is in need of services, in need of supervision, or delinquent, the intake officer shall ~~(i)~~ (1) develop a plan for the juvenile, which may include restitution and the performance of community service, based upon community resources and the circumstances which resulted in the complaint, ~~(ii)~~ (2) create an official record of the action taken by the intake officer and file such record in the juvenile's case file, and ~~(iii)~~ (3) advise the juvenile and the juvenile's parent, guardian, or other person standing in loco parentis and the complainant that any subsequent complaint alleging that the child is in need of supervision or delinquent based upon facts which may be sufficient to invoke the jurisdiction of the court pursuant to § 16.1-241 will result in the filing of a petition with the court.

C. The intake officer shall accept and file a petition in which it is alleged that (i) the custody, visitation, or support of a child is the subject of controversy or requires determination, (ii) a person has deserted, abandoned, or failed to provide support for any person in violation of law, (iii) a child or such child's parent, guardian, legal custodian, or other person standing in loco parentis is entitled to treatment, rehabilitation, or other services which are required by law, (iv) family abuse has occurred and a protective order is being sought pursuant to § 16.1-253.1, 16.1-253.4, or 16.1-279.1, or (v) an act of violence, force, or threat has occurred, a protective order is being sought pursuant to § 19.2-152.8, 19.2-152.9, or 19.2-152.10, and either the alleged victim or the respondent is a juvenile. If any such complainant does not file a petition, the intake officer may file it. In cases in which a child is alleged to be abused, neglected, in need of services, in need of supervision, or delinquent, if the intake officer believes that probable cause does not exist, or that the authorization of a petition will not be in the best interest of the family or juvenile or that the matter may be effectively dealt with by some agency other than the court, he may refuse to authorize the filing of a petition. The intake officer shall provide to a person seeking a protective order pursuant to § 16.1-253.1, 16.1-253.4, or 16.1-279.1 a written explanation of the conditions, procedures and time limits applicable to the issuance of protective orders pursuant to § 16.1-253.1, 16.1-253.4, or 16.1-279.1. If the person is seeking a protective order pursuant to § 19.2-152.8, 19.2-152.9, or 19.2-152.10, the intake

officer shall provide a written explanation of the conditions, procedures, and time limits applicable to the issuance of protective orders pursuant to § 19.2-152.8, 19.2-152.9, or 19.2-152.10.

D. Prior to the filing of any petition alleging that a child is in need of supervision, the matter shall be reviewed by an intake officer who shall determine whether the petitioner and the child alleged to be in need of supervision have utilized or attempted to utilize treatment and services available in the community and have exhausted all appropriate nonjudicial remedies which are available to them. When the intake officer determines that the parties have not attempted to utilize available treatment or services or have not exhausted all appropriate nonjudicial remedies which are available, he shall refer the petitioner and the child alleged to be in need of supervision to the appropriate agency, treatment facility, or individual to receive treatment or services, and a petition shall not be filed. Only after the intake officer determines that the parties have made a reasonable effort to utilize available community treatment or services may he permit the petition to be filed.

E. If the intake officer refuses to authorize a petition relating to an offense that if committed by an adult would be punishable as a Class 1 misdemeanor or as a felony, the complainant shall be notified in writing at that time of the complainant's right to apply to a magistrate for a warrant. If a magistrate determines that probable cause exists, he shall issue a warrant returnable to the juvenile and domestic relations district court. The warrant shall be delivered forthwith to the juvenile court, and the intake officer shall accept and file a petition founded upon the warrant. If the court is closed and the magistrate finds that the criteria for detention or shelter care set forth in § 16.1-248.1 have been satisfied, the juvenile may be detained pursuant to the warrant issued in accordance with this subsection. If the intake officer refuses to authorize a petition relating to a child in need of services or in need of supervision, a status offense, or a misdemeanor other than Class 1, his decision is final.

Upon delivery to the juvenile court of a warrant issued pursuant to subdivision 2 of § 16.1-256, the intake officer shall accept and file a petition founded upon the warrant.

F. The intake officer shall notify the attorney for the Commonwealth of the filing of any petition which alleges facts of an offense which would be a felony if committed by an adult.

G. Notwithstanding the provisions of Article 12 (§ 16.1-299 et seq.), the intake officer shall file a report with the division superintendent of the school division in which any student who is the subject of a petition alleging that such student who is a juvenile has committed an act, wherever committed, which would be a crime if committed by an adult, or that such student who is an adult has committed a crime and is alleged to be within the jurisdiction of the court. The report shall notify the division superintendent of the filing of the petition and the nature of the offense, if the violation involves:

1. A firearm offense pursuant to Article 4 (§ 18.2-279 et seq.), 5 (§ 18.2-288 et seq.), 6 (§ 18.2-299 et seq.), 6.1 (§ 18.2-307.1 et seq.), or 7 (§ 18.2-308.1 et seq.) of Chapter 7 of Title 18.2;
2. Homicide, pursuant to Article 1 (§ 18.2-30 et seq.) of Chapter 4 of Title 18.2;
3. Felonious assault and bodily wounding, pursuant to Article 4 (§ 18.2-51 et seq.) of Chapter 4 of Title 18.2;
4. Criminal sexual assault, pursuant to Article 7 (§ 18.2-61 et seq.) of Chapter 4 of Title 18.2;
5. Manufacture, sale, gift, distribution or possession of Schedule I or II controlled substances, pursuant to Article 1 (§ 18.2-247 et seq.) of Chapter 7 of Title 18.2;
6. Manufacture, sale or distribution of marijuana pursuant to Article 1 (§ 18.2-247 et seq.) of Chapter 7 of Title 18.2;
7. Arson and related crimes, pursuant to Article 1 (§ 18.2-77 et seq.) of Chapter 5 of Title 18.2;
8. Burglary and related offenses, pursuant to §§ 18.2-89 through 18.2-93;
9. Robbery pursuant to § 18.2-58;
10. Prohibited criminal street gang activity pursuant to § 18.2-46.2;
11. Recruitment of other juveniles for a criminal street gang activity pursuant to § 18.2-46.3; or
12. An act of violence by a mob pursuant to § 18.2-42.1.

The failure to provide information regarding the school in which the student who is the subject of the petition may be enrolled shall not be grounds for refusing to file a petition.

The information provided to a division superintendent pursuant to this section may be disclosed only as provided in § 16.1-305.2.

H. The filing of a petition shall not be necessary:

1. In the case of violations of the traffic laws, including offenses involving bicycles, hitchhiking and other pedestrian offenses, game and fish laws, or a violation of the ordinance of any city regulating surfing or any ordinance establishing curfew violations, animal control violations, or littering violations. In such cases the court may proceed on a summons issued by the officer investigating the violation in the same manner as provided by law for adults. Additionally, an officer investigating a motor vehicle accident may, at the scene of the accident or at any other location where a juvenile who is involved in such an accident may be located, proceed on a summons in lieu of filing a petition.

2. In the case of seeking consent to apply for the issuance of a work permit pursuant to subsection H of § 16.1-241.

3. In the case of a misdemeanor violation of § 18.2-250.1, 18.2-266, 18.2-266.1, or 29.1-738, or the commission of any other alcohol-related offense, provided the juvenile is released to the custody of a parent or legal guardian pending the initial court date. The officer releasing a juvenile to the custody of a parent or legal guardian shall issue a summons to the juvenile and shall also issue a summons requiring the parent or legal guardian to appear before the court with the juvenile. Disposition of the charge shall be in the manner provided in § 16.1-278.8, 16.1-278.8:01, or 16.1-278.9. If the juvenile so charged with a violation of § 18.2-51.4, 18.2-266, 18.2-266.1, 18.2-272, or 29.1-738 refuses to provide a sample of blood or breath or samples of both blood and breath for chemical analysis pursuant to §§ 18.2-268.1 through 18.2-268.12 or

29.1-738.2, the provisions of these sections shall be followed except that the magistrate shall authorize execution of the warrant as a summons. The summons shall be served on a parent or legal guardian and the juvenile, and a copy of the summons shall be forwarded to the court in which the violation is to be tried. When a violation of § 18.2-250.1 is charged by summons, the juvenile shall be entitled to have the charge referred to intake for consideration of informal proceedings pursuant to subsection B, provided such right is exercised by written notification to the clerk not later than 10 days prior to trial. At the time such summons alleging a violation of § 18.2-250.1 is served, the officer shall also serve upon the juvenile written notice of the right to have the charge referred to intake on a form approved by the Supreme Court and make return of such service to the court. If the officer fails to make such service or return, the court shall dismiss the summons without prejudice.

4. In the case of offenses which, if committed by an adult, would be punishable as a Class 3 or Class 4 misdemeanor. In such cases the court may direct that an intake officer proceed as provided in § 16.1-237 on a summons issued by the officer investigating the violation in the same manner as provided by law for adults provided that notice of the summons to appear is mailed by the investigating officer within five days of the issuance of the summons to a parent or legal guardian of the juvenile.

I. Failure to comply with the procedures set forth in this section shall not divest the juvenile court of the jurisdiction granted it in § 16.1-241.

### CHAPTER 315

*An Act to amend and reenact §§ 59.1-542 and 59.1-544 of the Code of Virginia, relating to the Enterprise Zone Grant Program; designation of enterprise zone; amendments to the size of an enterprise zone.*

[H 431]

Approved March 19, 2018

**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 59.1-542 and 59.1-544 of the Code of Virginia are amended and reenacted as follows:**

**§ 59.1-542. Enterprise zone designation.**

A. Upon the Department's announcement of periodic zone designation competitions, the governing body of any county or city may make written application to the Department to have an area or areas declared an enterprise zone. Such application shall include a description of the area or areas to be included, the development potential of these areas, the need for special state incentives, the local incentives that shall be provided to support new economic activity, and other information that the Department deems necessary to assess requests for designation.

B. Two or more adjacent localities may file a joint application for an enterprise zone. Localities applying for a joint zone shall demonstrate a regional need for an enterprise zone and a regional impact that could not be achieved through a single jurisdiction zone. Applicants for a joint zone shall also specify what mechanisms will be used to ensure that the economic benefits of such a zone are shared among the applicant localities.

C. An enterprise zone may consist of no more than three noncontiguous areas. The aggregate size of these noncontiguous zone areas shall be ~~specified by regulation~~ as follows:

1. For cities, the minimum size of an enterprise zone shall be one-quarter square mile and the maximum size of an enterprise zone shall be one square mile or seven percent of the jurisdiction's land area or an area that includes seven percent of the population, whichever is largest.

2. For towns designated as enterprise zones under former §§ 59.1-272 through 59.1-278, 59.1-279.1, or 59.1-280.2 through 59.1-284 of the Enterprise Zone Act (§ 59.1-270 et seq.), the size of an enterprise zone shall conform to the size requirements for cities in subdivision 1.

3. For unincorporated areas of counties, the minimum size of an enterprise zone shall be one-half square mile and the maximum size of an enterprise zone shall be six square miles.

In no instance shall a zone consist only of a site for a single business firm. Localities shall be limited to three enterprise zone designations.

D. A joint enterprise zone shall consist of no more than three noncontiguous zone areas for each participating locality. The aggregate size of these noncontiguous areas shall be specified by regulation.

E. Upon recommendation of the Director of the Department, the Governor may designate up to 30 enterprise zones in accordance with the provisions of this chapter. Such designations are to be done in coordination with the expiration of existing zones designated under earlier Enterprise Zone Program provisions. The initial round of six zone designation applications and approval may be conducted prior to adoption of final program regulations provided that the process is consistent with the provisions of this chapter. Enterprise zones shall be designated for an initial 10-year period except as provided for in subsections A and B of § 59.1-546. Upon recommendation of the Director of the Department, the Governor may renew zones for up to two five-year renewal periods. Recommendations for five-year renewals shall be based on the locality's performance of its enterprise zone responsibilities, the continued need for such a zone, and its effectiveness in creating jobs and capital investment.

F. Localities that have zone designations are responsible for providing the local incentives specified in their applications, providing timely submission of enterprise zone reports and evaluations as required by regulation, verifying that businesses and properties seeking enterprise zone incentives are physically located within their zones, and implementing an active local enterprise zone program within the context of overall economic development efforts.

**§ 59.1-544. Amendment of enterprise zones; redesignation of certain joint enterprise zones.**

A. Once an enterprise zone has been designated, the local government may make written application to the Department to amend the zone boundaries in accordance with the requirements of § 59.1-542. Such boundary amendments are subject to Department approval. *Any amendment to an enterprise zone that includes the elimination of an area or areas from a zone*

*shall not exceed the maximum size provisions of subsection C of § 59.1-542 and shall be reviewed by the Department with the potential impact on affected businesses and property owners given primary consideration.* Local governing bodies may amend their local enterprise zone incentives with the approval of the Department provided that the proposed incentive is equal to or superior to that in the original application or any previous amendment approved by the Department.

B. The Department may redesignate an existing joint enterprise zone consisting of two localities for the purpose of expanding the zone provided (i) all of the local governing bodies of the localities in which the proposed redesignated zone will be located have submitted to the Department resolutions supporting the proposed redesignation and applications for redesignation of the joint enterprise zone and (ii) the area of the locality added to the redesignated zone is contiguous to the existing joint enterprise zone and includes a revenue-sharing district that has experienced the loss of 900 permanent full-time positions within a 12-month period.

C. When a county or city was previously added to an existing enterprise zone to create a joint enterprise zone, the Department shall redesignate the enterprise zone when the term of the joint enterprise zone expires. The duration of the enterprise zone redesignated pursuant to this subsection shall be equal to the length of time the original enterprise zone existed before the county or city was added to create the joint enterprise zone.

D. As used in this section, "joint enterprise zone" means an enterprise zone located in two or more adjacent localities.

E. Any redesignation of an existing joint enterprise zone shall be in compliance with all applicable regulations promulgated by the Department.

**§ 19.2-305.1. Restitution for property damage or loss; community service.**

A. Notwithstanding any other provision of law, no person convicted of a crime in violation of any provision in Title 18.2, which resulted in property damage or loss, shall be placed on probation or have his sentence suspended unless such person shall make at least partial restitution for such property damage or loss, or shall be compelled to perform community services, or both, or shall submit a plan for doing that which appears to the court to be feasible under the circumstances.

B. Notwithstanding any other provision of law, any person who, on or after July 1, 1995, commits, and is convicted of, a crime in violation of any provision in Title 18.2 shall make at least partial restitution for any property damage or loss caused by the crime or for any medical expenses or expenses directly related to funeral or burial incurred by the victim or his estate as a result of the crime, may be compelled to perform community services and, if the court so orders, shall submit a plan for doing that which appears to be feasible to the court under the circumstances.

B1. Notwithstanding any other provision of law, any person, who on or after July 1, 2005 commits and is convicted of a crime in violation of § 18.2-248 involving the manufacture of any controlled substance, may be ordered, upon presentation of suitable evidence of such costs, by the court to reimburse the Commonwealth or the locality for the costs incurred by the jurisdiction, as the case may be, for the removal and remediation associated with the illegal manufacture of any controlled substance by the defendant.

B2. Notwithstanding any other provision of law, any person who, on or after July 1, 2015, commits and is convicted of a violation of § 18.2-138 for damage to the Capitol or any building, monument, statuary, artwork, or other state property in Capitol Square, or at any other property assigned to the Capitol Police, shall be ordered to pay restitution to the Commonwealth for the full amount of damages. Any person who, on or after July 1, 2015, commits and is convicted of a violation of § 18.2-405, 18.2-407, or 18.2-408 in Capitol Square, or at any other property assigned to the Capitol Police, shall be ordered to pay restitution to the Commonwealth for the full amount of damages to the Capitol or any building, monument, statuary, artwork, or other state property in Capitol Square, or at any other property assigned to the Capitol Police, to which damage is caused during such riot or unlawful assembly. In any prosecution under § 18.2-138, 18.2-405, 18.2-407, or 18.2-408, testimony of the Division of Engineering and Buildings of the Department of General Services or the Division of Risk Management shall be admissible as evidence of value or extent of damages or cost of repairs to the Capitol or any building, monument, statuary, artwork, or other state property in Capitol Square, or at any other property assigned to the Capitol Police. For the purposes of this subsection, "Capitol Square" means the grounds and the interior and exterior of all buildings in that area in the City of Richmond bounded by Bank, Governor, Broad, and Ninth Streets. "Capitol Square" includes the exterior of all state buildings that are at least 50 years old and bordering the boundary streets.

C. At or before the time of sentencing, the court shall receive and consider any plan for making restitution submitted by the defendant. The plan shall include the defendant's home address, place of employment and address, social security number and bank information. If the court finds such plan to be reasonable and practical under the circumstances, it may consider probation or suspension of whatever portion of the sentence that it deems appropriate. By order of the court incorporating the defendant's plan or a reasonable and practical plan devised by the court, the defendant shall make restitution while he is free on probation or work release or following his release from confinement. Additionally, the court may order that the defendant make restitution during his confinement, if feasible, based upon both his earning capacity and net worth as determined by the court at sentencing.

D. At the time of sentencing, the court shall determine the amount to be repaid by the defendant and the terms and conditions thereof. If community service work is ordered, the court shall determine the terms and conditions upon which such work shall be performed. The court shall include such findings in the judgment order. The order shall specify that sums paid under such order shall be paid to the clerk, who shall disburse such sums as the court may, by order, direct. Any court desiring to participate in the Setoff Debt Collection Act (§§ 58.1-520 through 58.1-535) for the purpose of collecting fines or costs or providing restitution shall, at the time of sentencing, obtain the social security number of each defendant.

E. At the time of sentencing, the court shall enter the amount of restitution to be repaid by the defendant, the date by which all restitution is to be paid, and the terms and conditions of such repayment on a form prescribed by the Office of the Executive Secretary of the Supreme Court of Virginia. If the attorney for the Commonwealth participated in the prosecution of the defendant, the attorney for the Commonwealth or his designee shall complete, to the extent possible, all portions of the form excluding the amount of restitution to be repaid by the defendant and the terms and conditions of such repayment. If the attorney for the Commonwealth did not participate in the prosecution of the defendant, the court or the clerk shall complete the form. A copy of the form, excluding contact information for the victim, shall be provided to the defendant at sentencing. A copy of the form shall be provided to the attorney for the Commonwealth and to the victim, his agent, or his estate upon request and free of charge.

F. 1. *In any case in which the court orders the defendant to pay restitution and places the defendant on probation that includes a period of active supervision, the probation agency supervising the defendant shall notify the court and the attorney for the Commonwealth of the amount of any restitution that remains unsatisfied and the last known address for the defendant (i) 60 days prior to the defendant's release from supervision pursuant to the terms of the sentencing order or (ii) if*

*the agency requests that the defendant be released from supervision, at the time the agency submits its request to the court. Such notice shall be in writing and the attorney for the Commonwealth shall, if practicable, provide a copy of the notice to the victim. If any amount of restitution remains unsatisfied, the court shall conduct a hearing prior to the defendant's release from supervision after providing notice of the hearing to the defendant and the attorney for the Commonwealth. If the court finds that the defendant is not in compliance with the restitution order, the court may (a) release the defendant from supervision, (b) modify the period or terms of supervision pursuant to § 19.2-304, (c) revoke some or all of the suspended sentence or probation pursuant to § 19.2-306, or (d) proceed in accordance with subsection E of § 19.2-358. The court shall also docket the restitution order as a civil judgment pursuant to subsection B of § 19.2-305.2 unless such order has previously been docketed. Any defendant who is released from supervision shall be subject to the provisions of subdivision 3.*

*2. In any case in which the court orders the defendant to pay restitution and places the defendant on probation that does not include a period of active supervision, the court shall include in the order a date, not to exceed two years from the date of the entry of the order or, if the court has sentenced the defendant to an active term of incarceration, from the date of the defendant's release from incarceration, on which the defendant's compliance with the restitution order shall be reviewed and the court shall schedule a hearing for such date. The court may, on its own motion, cancel the hearing if the amount of restitution has been satisfied. If at the hearing the court finds that the defendant is not in compliance with the restitution order, the court may (i) modify the period or terms of probation pursuant to § 19.2-304, (ii) revoke some or all of the suspended sentence or probation pursuant to § 19.2-306, or (iii) proceed in accordance with the provisions of subsection E of § 19.2-358. The court shall also docket the restitution order as a civil judgment pursuant to subsection B of § 19.2-305.2 unless such order has previously been docketed. After the hearing conducted pursuant to this subdivision, the defendant shall be subject to the provisions of subdivision 3.*

*3. If any amount of restitution remains unsatisfied at the time of a hearing conducted pursuant to subdivision 1 or 2, the court shall continue to schedule hearings to review the defendant's compliance with the restitution order until the amount of restitution has been satisfied and provide notice of such hearings to the defendant. The court may, on its own motion, cancel any such hearing if the amount of restitution has been satisfied or if the defendant is in compliance with the restitution order. If at any hearing conducted pursuant to this subdivision the court finds that the defendant is not in compliance with the restitution order, the court may (i) modify the period or terms of probation pursuant to § 19.2-304, (ii) revoke some or all of the suspended sentence or probation pursuant to § 19.2-306, or (iii) proceed in accordance with the provisions of subsection E of § 19.2-358. The court shall follow the procedures set forth in this subdivision for the purpose of reviewing compliance with a restitution order by a defendant (a) until the amount of restitution has been satisfied or (b) if any amount of restitution remains unsatisfied, for the longer of 10 years from the date of the hearing held pursuant to subdivision 1 or 2 or the period of probation ordered by the court.*

*4. If the court determines at any hearing conducted pursuant to this subsection that the defendant is unable to pay restitution and will remain unable to pay restitution for the duration of the review period set forth in subdivision 3, the court may discontinue any further hearings to review a defendant's compliance with the restitution order.*

*5. If the court determines that a defendant would be incarcerated on the date of any hearing scheduled pursuant to this subsection, the court may remove the case from the docket, reschedule such hearing to a date after the defendant's release from incarceration, and provide notice of the hearing to the defendant and the attorney for the Commonwealth. If the defendant who is on probation that includes a period of active supervision is incarcerated, the probation agency supervising the defendant shall notify the court when the defendant has been released from incarceration.*

*6. No provision of this subsection shall be construed to prohibit the court from exercising any authority otherwise granted by law over a defendant during any period of probation ordered by the court.*

*G. Unreasonable failure to execute the plan by the defendant shall result in revocation of the probation or imposition of the suspended sentence. A hearing shall be held in accordance with the provisions of this Code relating to revocation of probation or imposition of a suspended sentence before either such action is taken.*

*G. H. A defendant convicted of an offense under § 18.2-374.1, 18.2-374.1:1, or 18.2-374.3 shall be ordered to pay mandatory restitution to the victim of the offense in an amount as determined by the court. For purposes of this subsection, "victim" means a person who is depicted in a still or videographic image involved in an offense under § 18.2-374.1, 18.2-374.1:1, or 18.2-374.3.*

*The Commonwealth shall make reasonable efforts to notify victims of offenses under § 18.2-374.1, 18.2-374.1:1, or 18.2-374.3.*

*H. I. If restitution is ordered to be paid by the defendant to the victim of a crime and the victim can no longer be located or identified, the clerk shall deposit any such restitution collected to the Criminal Injuries Compensation Fund for the benefit of crime victims. The administrator shall reserve a sum sufficient in the Fund from which he shall make prompt payment to the victim for any proper claims. Before making the deposit he shall record the name, last known address and amount of restitution due each victim appearing from the clerk's report to be entitled to restitution.*

*H. J. If restitution pursuant to § 19.2-305 or this section is ordered to be paid by the defendant to the victim of a crime or other entity, and the Criminal Injuries Compensation Fund has made any payments to or on behalf of the victim for any loss, damage, or expenses included in the restitution order, then upon presentation by the Fund of a written request that sets forth the amount of payments made by the Fund to the victim or on the victim's behalf, the entity collecting restitution shall pay to the Fund as much of the restitution collected as will reimburse the Fund for its payments made to the victim or on the victim's behalf.*

¶ K. Whenever a defendant is ordered to pay restitution, any sums collected shall be used first to satisfy such restitution order and any collection costs associated with restitution prior to being used to satisfy any fine, forfeiture, penalty, or cost assessed against the defendant.

**§ 19.2-358. Procedure on default in deferred payment or installment payment of fine, costs, forfeiture, restitution or penalty.**

A. When an individual obligated to pay a fine, costs, forfeiture, ~~restitution~~ or penalty defaults in the payment or any installment payment, the court upon the motion of the Commonwealth in the case of a conviction of a violation of a state law, or attorney for a locality or for the Commonwealth in the event of a conviction of a violation of a local law or ordinance, or upon its own motion, may require him to show cause why he should not be confined in jail or fined for nonpayment. A show cause proceeding shall not be required prior to issuance of a *capias* if an order to appear on a date certain in the event of nonpayment was issued pursuant to subsection A of § 19.2-354 and the defendant failed to appear.

B. Following the order to show cause or following a *capias* issued for a defendant's failure to comply with a court order to appear issued pursuant to subsection A of § 19.2-354, unless the defendant shows that his default *for the payment of fines, costs, forfeitures, or penalties* was not attributable to an intentional refusal to obey the sentence of the court, or not attributable to a failure on his part to make a good faith effort to obtain the necessary funds for payment, or unless the defendant shows that any failure to appear was not attributable to an intentional refusal to obey the order of the court, the court may order the defendant confined as for a contempt for a term not to exceed sixty days or impose a fine not to exceed \$500. The court may provide in its order that payment or satisfaction of the amounts in default *for the payment of fines, costs, forfeitures, or penalties* at any time will entitle the defendant to his release from such confinement or, after entering the order, may at any time reduce the sentence for good cause shown, including payment or satisfaction of such amounts.

C. If it appears that the default *for the payment of fines, costs, forfeitures, or penalties* is excusable under the standards set forth in subsection B ~~hereof~~, the court may enter an order allowing the defendant additional time for payment, reducing the amount due or of each installment, or remitting the unpaid portion in whole or in part.

D. *When an individual obligated to pay restitution defaults in the payment or any installment payment, the court upon the motion of the Commonwealth in the case of a conviction of a violation of a state law, or attorney for a locality or for the Commonwealth in the event of a conviction of a violation of a local law or ordinance, or upon its own motion, may proceed in accordance with the procedures set forth in subsection E.*

E. *If, pursuant to subsection D or at a hearing conducted pursuant to subsection F of § 19.2-305.1, the court finds that a defendant is not in compliance with a restitution order, the court may order the defendant confined as for a contempt for a term not to exceed 60 days unless the defendant shows that his default was not attributable to an intentional refusal to obey the sentence of the court, or not attributable to a failure on his part to make a good faith effort to obtain the necessary funds for payment, or unless the defendant shows that any failure to appear was not attributable to an intentional refusal to obey the order of the court. The court may provide in its order that payment or satisfaction of the amounts in default at any time will entitle the defendant to his release from such confinement or, after entering the order, may at any time reduce the sentence for good cause shown, including payment or satisfaction of such amounts. If it appears that the defendant's default for the payment of restitution is excusable under the standards set forth in this subsection, the court may modify the terms for payment of restitution, except that the court may not modify the amount of restitution owed by the defendant.*

F. Nothing in this section shall be deemed to alter or interfere with the collection of fines by any means authorized for the enforcement of money judgments rendered in favor of the Commonwealth or any locality within the Commonwealth.

**§ 19.2-368.15. Subrogation of Commonwealth to claimant's right of action; lien in favor of the Commonwealth; disposition of funds collected.**

Acceptance of an award made pursuant to this chapter shall subrogate the Commonwealth, to the extent of such award, to any right or right of action accruing to the claimant or the victim to recover payments on account of losses resulting from the crime with respect to which the award is made. However, except as otherwise provided in subsection ~~4~~J of § 19.2-305.1, the Commonwealth shall not institute any proceedings in connection with its right of subrogation under this section within one year from the date of commission of the crime, unless any claimant or victim's right or action shall have been previously terminated. All funds collected by the Commonwealth in a proceeding instituted pursuant to this section shall be paid over to the Comptroller for deposit into the Criminal Injuries Compensation Fund.

Whenever any person receives an award from the Criminal Injuries Compensation Fund, the Commonwealth shall have a lien for the total amount paid by the Fund, or any portion thereof compromised pursuant to the authority granted under § 2.2-514, on the claim of such injured person or his personal representative against the person, firm, or corporation who is alleged to have caused such injuries. The Fund's lien shall be inferior to any lien for payment of reasonable attorney fees and costs, but shall be superior to all other liens created by § 8.01-66.2. The injured person may file a petition or motion to reduce the lien and apportion the recovery pursuant to § 8.01-66.9. The Fund's lien shall become effective when notice is provided pursuant to § 8.01-66.5 and liability shall attach pursuant to § 8.01-66.6.

**§ 53.1-145. Powers and duties of probation and parole officers.**

In addition to other powers and duties prescribed by this article, each probation and parole officer shall:

1. Investigate and report on any case pending in any court or before any judge in his jurisdiction referred to him by the court or judge;

3. Supervise and assist all persons within his territory released on parole or postrelease supervision, secure, as appropriate and when available resources permit, placement of such persons in a substance abuse treatment program which may include utilization of acupuncture and other treatment modalities, and, in his discretion, assist any person within his territory who has completed his parole, postrelease supervision, or has been mandatorily released from any correctional facility in the Commonwealth and requests assistance in finding a place to live, finding employment, or in otherwise becoming adjusted to the community;

4. Arrest and recommit to the place of confinement from which he was released, or in which he would have been confined but for the suspension of his sentence or of its imposition, for violation of the terms of probation, post-release supervision pursuant to § 19.2-295.2 or parole, any probationer, person subject to post-release supervision or parolee under his supervision, or as directed by the Chairman, Board member or the court, pending a hearing by the Board or the court, as the case may be;

5. Keep such records, make such reports, and perform other duties as may be required of him by the Director or by regulations prescribed by the Board of Corrections, and the court or judge by whom he was authorized;

6. Order and conduct, in his discretion, drug and alcohol screening tests of any probationer, person subject to post-release supervision pursuant to § 19.2-295.2 or parolee under his supervision who the officer has reason to believe is engaged in the illegal use of controlled substances or marijuana, or the abuse of alcohol. The cost of the test may be charged to the person under supervision. Regulations governing the officer's exercise of this authority shall be promulgated by the Board;

7. Have the power to carry a concealed weapon in accordance with regulations promulgated by the Board and upon the certification of appropriate training and specific authorization by a judge of a circuit court;

8. Provide services in accordance with any contract entered into between the Department of Corrections and the Department of Behavioral Health and Developmental Services pursuant to § 37.2-912;

9. Pursuant to any contract entered into between the Department of Corrections and the Department of Behavioral Health and Developmental Services, probation and parole officers shall have the power to provide intensive supervision services to persons placed on conditional release, regardless of whether the person has any time remaining to serve on any criminal sentence, pursuant to Chapter 9 (§ 37.2-900 et seq.);

10. Determine by reviewing the Local Inmate Data System upon intake and again prior to release whether a blood, saliva, or tissue sample has been taken for DNA analysis for each person placed on probation or parole required to submit a sample pursuant to Article 1.1 (§ 19.2-310.2 et seq.) of Chapter 18 of Title 19.2 and, if no sample has been taken, require a person placed on probation or parole to submit a sample for DNA analysis; ~~and~~

11. For every offender accepted pursuant to the Interstate Compact for the Supervision of Adult Offenders (§ 53.1-176.1 et seq.) who has been convicted of an offense that, if committed in Virginia, would be considered a felony, take a sample or verify that a sample has been taken and accepted into the data bank for DNA analysis in the Commonwealth; *and*

12. *Monitor the collection and payment of restitution to the victims of crime for offenders placed on supervised probation.*

Nothing in this article shall require probation and parole officers to investigate or supervise cases before general district or juvenile and domestic relations district courts.

**CHAPTER 317**

[H 488]

Approved March 19, 2018

**Be it enacted by the General Assembly of Virginia:**

**1. That § 3.15, as amended, of Chapter 619 of the Acts of Assembly of 1975 is amended and reenacted as follows:**

§ 3.15. Ordinances.

- (5) Regulate the rate charged for its services by the town; provided, however, that the council may by resolution authorize the rates or fees charged by the Department of Parks and Recreation for use of its facilities or participation in its programs and authorize the rates and fees charged by other departments of the town for sale of maps, reports or other publications or making of copies of printed or recorded matter;
- (6) Authorize the borrowing of money;
- (7) Convey or lease or authorize the conveyance or lease of any lands of the town.

Acts other than those referred to in the preceding sentence may be done either by ordinance or by resolution if not in conflict with law.

Upon introduction of any ordinance, the town clerk shall distribute a copy to each council member and to the manager, shall file a reasonable number of copies in the office of the town clerk and such other public places as the council may designate, and shall publish the ordinance together with a notice setting out the time and place for a public hearing thereon and for its consideration by the council. The public hearing shall follow the publication by at least ~~twelve~~ five days, may be held separately or in connection with a regular or special council meeting and may be adjourned from time to time; all persons interested shall have an opportunity to be heard. After the hearing the council may adopt the ordinance with or without amendment or reject it but, if it is amended so as to materially change the purpose and character of the proposed ordinance, the council may not adopt it until the ordinance or its amended sections have been subjected to all the procedures hereinbefore required for a newly introduced ordinance.

To pass an ordinance, the council shall vote on the proposed ordinance two times; ~~on first and second reading~~. No such civil penalty shall exceed \$1,000 for any individual violation.

**CHAPTER 318**

*An Act to amend and reenact § 15.2-2232 of the Code of Virginia, relating to comprehensive plan; solar facilities.*

[H 509]

Approved March 19, 2018

**Be it enacted by the General Assembly of Virginia:**

**1. That § 15.2-2232 of the Code of Virginia is amended and reenacted as follows:**

**§ 15.2-2232. Legal status of plan.**

A. Whenever a local planning commission recommends a comprehensive plan or part thereof for the locality and such plan has been approved and adopted by the governing body, it shall control the general or approximate location, character and extent of each feature shown on the plan. Thereafter, unless a feature is already shown on the adopted master plan or part thereof or is deemed so under subsection D, no street or connection to an existing street, park or other public area, public building or public structure, public utility facility or public service corporation facility other than a railroad facility or an underground natural gas or underground electric distribution facility of a public utility as defined in subdivision (b) of § 56-265.1 within its certificated service territory, whether publicly or privately owned, shall be constructed, established or authorized, unless and until the general location or approximate location, character, and extent thereof has been submitted to and approved by the commission as being substantially in accord with the adopted comprehensive plan or part thereof. In connection with any such determination, the commission may, and at the direction of the governing body shall, hold a public hearing, after notice as required by § 15.2-2204. Following the adoption of the Statewide Transportation Plan by the Commonwealth Transportation Board pursuant to § 33.2-353 and written notification to the affected local governments, each local government through which one or more of the designated corridors of statewide significance traverses, shall, at a

minimum, note such corridor or corridors on the transportation plan map included in its comprehensive plan for information purposes at the next regular update of the transportation plan map. Prior to the next regular update of the transportation plan map, the local government shall acknowledge the existence of corridors of statewide significance within its boundaries.

B. The commission shall communicate its findings to the governing body, indicating its approval or disapproval with written reasons therefor. The governing body may overrule the action of the commission by a vote of a majority of its membership. Failure of the commission to act within 60 days of a submission, unless the time is extended by the governing body, shall be deemed approval. The owner or owners or their agents may appeal the decision of the commission to the governing body within 10 days after the decision of the commission. The appeal shall be by written petition to the governing body setting forth the reasons for the appeal. The appeal shall be heard and determined within 60 days from its filing. A majority vote of the governing body shall overrule the commission.

C. Widening, narrowing, extension, enlargement, vacation or change of use of streets or public areas shall likewise be submitted for approval, but paving, repair, reconstruction, improvement, drainage or similar work and normal service extensions of public utilities or public service corporations shall not require approval unless such work involves a change in location or extent of a street or public area.

D. Any public area, facility or use as set forth in subsection A which is identified within, but not the entire subject of, a submission under either § 15.2-2258 for subdivision or subdivision A 8 of § 15.2-2286 for development or both may be deemed a feature already shown on the adopted master plan, and, therefore, excepted from the requirement for submittal to and approval by the commission or the governing body; provided, that the governing body has by ordinance or resolution defined standards governing the construction, establishment or authorization of such public area, facility or use or has approved it through acceptance of a proffer made pursuant to § 15.2-2303.

E. Approval and funding of a public telecommunications facility on or before July 1, 2012, by the Virginia Public Broadcasting Board pursuant to Article 12 (§ 2.2-2426 et seq.) of Chapter 24 of Title 2.2 or after July 1, 2012, by the Board of Education pursuant to § 22.1-20.1 shall be deemed to satisfy the requirements of this section and local zoning ordinances with respect to such facility with the exception of television and radio towers and structures not necessary to house electronic apparatus. The exemption provided for in this subsection shall not apply to facilities existing or approved by the Virginia Public Telecommunications Board prior to July 1, 1990. The Board of Education shall notify the governing body of the locality in advance of any meeting where approval of any such facility shall be acted upon.

F. On any application for a telecommunications facility, the commission's decision shall comply with the requirements of the Federal Telecommunications Act of 1996. Failure of the commission to act on any such application for a telecommunications facility under subsection A submitted on or after July 1, 1998, within 90 days of such submission shall be deemed approval of the application by the commission unless the governing body has authorized an extension of time for consideration or the applicant has agreed to an extension of time. The governing body may extend the time required for action by the local commission by no more than 60 additional days. If the commission has not acted on the application by the end of the extension, or by the end of such longer period as may be agreed to by the applicant, the application is deemed approved by the commission.

G. A proposed telecommunications tower or a facility constructed by an entity organized pursuant to Chapter 9.1 (§ 56-231.15 et seq.) of Title 56 shall be deemed to be substantially in accord with the comprehensive plan and commission approval shall not be required if the proposed telecommunications tower or facility is located in a zoning district that allows such telecommunications towers or facilities by right.

*H. A solar facility subject to subsection A shall be deemed to be substantially in accord with the comprehensive plan if (i) such proposed solar facility is located in a zoning district that allows such solar facilities by right or (ii) such proposed solar facility is designed to serve the electricity or thermal needs of the property upon which such facility is located, or will be owned or operated by an eligible customer-generator or eligible agricultural customer-generator under § 56-594 or by a small agricultural generator under § 56-594.2. All other solar facilities shall be reviewed for substantial accord with the comprehensive plan in accordance with this section. However, a locality may allow for a substantial accord review for such solar facilities to be advertised and approved concurrently in a public hearing process with a rezoning, special exception, or other approval process.*

**1. That § 46.2-1233.1 of the Code of Virginia is amended and reenacted as follows:**

§ 46.2-1233.1. Limitation on charges for towing and storage of certain vehicles.

No hookup and initial towing fee of any passenger car shall exceed ~~\$135~~ \$150. For towing a vehicle between seven o'clock p.m. and eight o'clock a.m. or on any Saturday, Sunday, or holiday, an additional fee of no more than \$25 per instance may be charged; however, in no event shall more than two such fees be charged for towing any such vehicle. Any such ordinance limiting fees shall also provide for periodic review of and timely adjustment of such limitations.

**CHAPTER 325**

*An Act to amend and reenact §§ 43-3 and 43-21 of the Code of Virginia, relating to general contractors; waiver or diminishment of lien rights; subordination of lien rights.*

[H 823]

Approved March 19, 2018

**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 43-3 and 43-21 of the Code of Virginia are amended and reenacted as follows:**

**§ 43-3. Lien for work done and materials furnished; waiver of right to file or enforce lien.**

A. All persons performing labor or furnishing materials of the value of \$150 or more, including the reasonable rental or use value of equipment, for the construction, removal, repair or improvement of any building or structure permanently annexed to the freehold, and all persons performing any labor or furnishing materials of like value for the construction of any railroad, shall have a lien, if perfected as hereinafter provided, upon such building or structure, and so much land therewith as shall be necessary for the convenient use and enjoyment thereof, and upon such railroad and franchises for the work done and materials furnished, subject to the provisions of § 43-20. But when the claim is for repairs or improvements to existing structures only, no lien shall attach to the property repaired or improved unless such repairs or improvements were ordered or authorized by the owner, or his agent.

If the building or structure being constructed, removed or repaired is part of a condominium as defined in § 55-79.41 or under the Horizontal Property Act (§§ 55-79.1 through 55-79.38), any person providing labor or furnishing material to one or more units or limited common elements within the condominium pursuant to a single contract may perfect a single lien encumbering the one or more units which are the subject of the contract or to which those limited common elements pertain, and for which payment has not been made. All persons providing labor or furnishing materials for the common elements pertaining to all the units may perfect a single lien encumbering all such condominium units. Whenever a lien has been or may be perfected encumbering two or more units, the proportionate amount of the indebtedness attributable to each unit shall be the ratio that the percentage liability for common expenses appertaining to that unit computed pursuant to subsection D of § 55-79.83 bears to the total percentage liabilities for all units which are encumbered by the lien. The lien claimant shall release from a perfected lien an encumbered unit upon request of the unit owner as provided in subsection B of § 55-79.46 upon receipt of payment equal to that portion of the indebtedness evidenced by the lien attributable to such unit determined as herein provided. In the event the lien is not perfected, the lien claimant shall upon request of any interested party execute lien releases for one or more units upon receipt of payment equal to that portion of the indebtedness attributable to such unit or units determined as herein provided but no such release shall preclude the lien claimant from perfecting a single lien against the unreleased unit or units for the remaining portion of the indebtedness.

B. Any person providing labor or materials for site development improvements or for streets, stormwater facilities, sanitary sewers or water lines for the purpose of providing access or service to the individual lots in a development or condominium units as defined in § 55-79.41 or under the Horizontal Property Act (§§ 55-79.1 through 55-79.38) shall have a lien on each individual lot in the development for the fractional part of the total value of the work contracted for by the claimant in the subdivision as is obtained by using "one" as the numerator and the number of lots being developed as the denominator and in the case of a condominium on each individual unit in an amount computed by reference to the liability of that unit for common expenses appertaining to that condominium pursuant to subsection D of § 55-79.83; provided, however, *that* no such lien shall be valid as to any lot or condominium unit unless the person providing such work shall, prior to the sale of such lot or condominium unit, file with the clerk of the circuit court of the jurisdiction in which such land lies a document setting forth a full disclosure of the nature of the lien which may be claimed, the total value of the work contracted for by the claimant in the subdivision and the portion thereof allocated to each lot as required herein, and a description of the development or condominium, and shall, thereafter, comply with all other applicable provisions of this chapter. "Site development improvements" means improvements which are provided for the development, such as project site grading, traffic signalization, and installation of electric, gas, cable, or other utilities, for the benefit of the development rather than for an individual lot. In determining the individual lots in the development for the purpose of allocating value of the work contracted for by the claimant, parcels of land within the development which are common area, or which are being developed for the benefit of the development as a whole and not for resale, shall not be included in the denominator of the disclosure statement.

Nothing contained herein shall be construed to prevent the filing of a mechanics' lien under the provisions of subsection A, or require the lien claimant to elect under which subsection the lien may be enforced.

C. Any right to file or enforce any mechanics' lien granted hereunder may be waived in whole or in part at any time by any person entitled to such lien, except that a *general contractor*, subcontractor, lower-tier subcontractor, or material supplier may not waive or diminish his lien rights in a contract in advance of furnishing any labor, services, or materials. A provision that waives or diminishes a *general contractor's*, subcontractor's, lower-tier subcontractor's, or material supplier's lien rights in a contract executed prior to providing any labor, services, or materials is null and void. In the event that payments are made to the contractor without designating to which lot the payments are to be applied, the payments shall be deemed to apply to any lot previously sold by the developer such that the remaining lots continue to bear liability for an amount up to but not exceeding the amount set forth in any disclosure statement filed under the provisions of subsection B.

D. A person who performs labor without a valid license or certificate issued by the Board for Contractors pursuant to Chapter 11 (§ 54.1-1100 et seq.) of Title 54.1, or without the proper class of license for the value of the work to be performed, when such a license or certificate is required by law for the labor performed shall not be entitled to a lien pursuant to this section.

**§ 43-21. Priorities between mechanics' and other liens.**

No lien or encumbrance upon the land created before the work was commenced or materials furnished shall operate upon the building or structure erected thereon, or materials furnished for and used in the same, until the lien in favor of the

person doing the work or furnishing the materials shall have been satisfied; nor shall any lien or encumbrance upon the land created after the work was commenced or materials furnished operate on the land, or such building or structure, until the lien in favor of the person doing the work or furnishing the materials shall have been satisfied.

Unless otherwise provided in the subordination agreement, if the holder of the prior recorded lien of a purchase money deed of trust subordinates to the lien of a construction money deed of trust, such subordination shall be limited to the construction money deed of trust and said prior lien shall not be subordinate to mechanics' and materialmen's liens to the extent of the value of the land by virtue of such agreement.

In the enforcement of the liens acquired under the previous sections of this chapter, any lien or encumbrance created on the land before the work was commenced or materials furnished shall be preferred in the distribution of the proceeds of sale only to the extent of the value of the land estimated, exclusive of the buildings or structures, at the time of sale, and the residue of the proceeds of sale shall be applied to the satisfaction of the liens provided for in the previous sections of this chapter. Provided that liens filed for performing labor or furnishing materials for the repair or improvement of any building or structure shall be subject to any encumbrance against such land and building or structure of record prior to the commencement of the improvements or repairs or the furnishing of materials or supplies therefor. Nothing contained in the foregoing proviso shall apply to liens that may be filed for the construction or removal of any building or structure.

*Notwithstanding the provisions of subsection C of § 43-3, a general contractor may, prior to or after providing any labor, services, or materials, contract to subordinate his lien rights to prior recorded and later recorded deeds of trust, provided that such contract is (i) in writing and (ii) signed by any general contractor whose lien rights are subordinated pursuant to such contract.*

§ 63. The council may at any time, after a public hearing, amend the town plan, ~~by including, but not limited to~~, widening, relocating, or closing existing streets and highways, and by altering any existing park or by laying out new streets and highways and establishing new parks. Before amending the town plan, the council shall refer the proposed amendment to the town planning commission for a report thereon, and shall not act on such amendment until a report has been received from said commission, unless a period of thirty days has elapsed after the date of reference to the commission. Any amendment of the town plan, upon its adoption by the council, shall be final unless changed as herein provided as to the location, length, and width of any street and highway, and the location and dimensions of any park. Any widening, relocating, closing or laying out of streets and highways proposed under the provisions of law other than those contained in this article shall be deemed an amendment of the town plan, and shall be subject in all respects to the provisions of this chapter.

~~And the~~ *The* council may, in its discretion, require the owner of such platted lands to submit profiles of such streets and alleys, showing the contour thereof, together with proper grade lines laid thereon, and if and when the council is satisfied that the proper grade lines are laid on such profiles, the profiles shall be approved by the council and recorded by the owner or at his expense in the record of the profiles of the streets and alleys of the town, and the council may, in its discretion, require such release and waiver to be made with reference thereto.

(c) Before approving any such plat of any subdivision of lots or lands the town council may, at its discretion, require the owner of such lot or lands to grade the streets and alleys therein, according to grade lines approved and established by the council.

§ 65. For the purpose of preserving the integrity of the plan, no permit shall hereafter be issued for the construction of any building within the street lines of any mapped street or highway, as laid down in the town plan, within the town. ~~Provided, however, if the land within any mapped street or highway is not yielding a fair return to the owner, the board of appeals, provided for in chapter nine hereof, by a majority vote of all its members, may issue a permit for a building within the street line of such street or highway, upon such conditions as will increase as little as possible the cost of opening such street or highway, and will protect as far as possible the rights of the public and the integrity of the town plan. The board of appeals, hereinafter authorized, before taking any action under the provisions of this section, shall hold a public hearing, of which adequate notice shall be given to all persons deemed to be affected. Any decision by the board of appeals, rendered under the provisions of this section, shall be subject to the same court review as provided for zoning decisions of the board.~~

§ 67. For the purpose stated in chapter one hundred and ninety-seven of the Acts of Assembly, approved March 18, 1926, the town council is hereby empowered to pass zoning ordinances in conformity with the said act, as amended, subject, however, to the following modifications thereto:

(b) Any zoning ordinance, regulations, restrictions, and boundaries of districts may be changed from time to time by the council, either upon its own motion or upon petition, under such conditions as the council may prescribe, after a public hearing and adequate notice to all owners and parties affected. ~~If a protest or protests be filed with the council, signed by the owners of twenty per centum or more of the area of the land included in the proposed change, or by the owners of twenty~~

per centum or more of the area of the land immediately adjacent to the land included in the proposed change; within a distance of one hundred feet therefrom; or by the owners of twenty per centum or more of the area of the land directly opposite across any street or streets from the land included in the proposed change; within a distance of one hundred feet from the street lines directly opposite; then no such change shall be made except by the majority vote of all of the members of the council. No change shall be made by the council in any zoning ordinance or map until such change has been referred to the town planning commission for a report thereon, and no action shall be taken by the council until a report has been received from the commission, unless a period of thirty days has elapsed after the date of reference to the commission.

(e) ~~Within thirty days after the adoption of any zoning ordinance and map, the council shall appoint a board of appeals, consisting of five members, none of whom shall hold any other positions with the town.~~

~~The council may remove any member of the board for cause, after a public hearing. If a vacancy occurs otherwise than by the expiration of the term of the different members, it shall be filled by the council for the unexpired term.~~

~~Unless the council designates some member of the board as chairman, the board shall select a chairman from among its own members, and may create and fill such other offices as it may choose. The board may employ such persons as the council may approve, and may expend such sums as are appropriated by the council for its work.~~

§ 65. For the purpose of preserving the integrity of the plan, no permit shall hereafter be issued for the construction of any building within the street lines of any mapped street or highway, as laid down in the town plan, within the town. ~~Provided, however, if the land within any mapped street or highway is not yielding a fair return to the owner, the board of appeals, provided for in chapter nine hereof, by a majority vote of all its members, may issue a permit for a building within the street line of such street or highway, upon such conditions as will increase as little as possible the cost of opening such street or highway, and will protect as far as possible the rights of the public and the integrity of the town plan. The board of appeals, hereinafter authorized, before taking any action under the provisions of this section, shall hold a public hearing, of which adequate notice shall be given to all persons deemed to be affected. Any decision by the board of appeals, rendered under the provisions of this section, shall be subject to the same court review as provided for zoning decisions of the board.~~

(b) Any zoning ordinance, regulations, restrictions, and boundaries of districts may be changed from time to time by the council, either upon its own motion or upon petition, under such conditions as the council may prescribe, after a public hearing and adequate notice to all owners and parties affected. ~~If a protest or protests be filed with the council, signed by the owners of twenty per centum or more of the area of the land included in the proposed change, or by the owners of twenty per centum or more of the area of the land immediately adjacent to the land included in the proposed change, within a distance of one hundred feet therefrom, or by the owners of twenty per centum or more of the area of the land directly opposite across any street or streets from the land included in the proposed change, within a distance of one hundred feet from the street lines directly opposite, then no such change shall be made except by the majority vote of all of the members of the council.~~ No change shall be made by the council in any zoning ordinance or map until such change has been referred to the town planning commission for a report thereon, and no action shall be taken by the council until a report has been received from the commission, unless a period of thirty days has elapsed after the date of reference to the commission.

(c) ~~Within thirty days after the adoption of any zoning ordinance and map, the council shall appoint a board of appeals, consisting of five members, none of whom shall hold any other positions with the town.~~

~~The council may remove any member of the board for cause, after a public hearing. If a vacancy occurs otherwise than by the expiration of the term of the different members, it shall be filled by the council for the unexpired term.~~

~~Unless the council designates some member of the board as chairman, the board shall select a chairman from among its own members, and may create and fill such other offices as it may choose. The board may employ such persons as the council may approve, and may expend such sums as are appropriated by the council for its work.~~

**Be it enacted by the General Assembly of Virginia:****1. That § 58.1-3378 of the Code of Virginia is amended and reenacted as follows:****§ 58.1-3378. Sittings; notices thereof.**

Each board of equalization shall sit at and for such time or times as may be necessary to discharge the duties imposed and to exercise the powers conferred by this chapter. Of each sitting public notice shall be given at least 10 days beforehand by publication in a newspaper having general circulation in the county or city and, in a county, also by posting the notice at the courthouse and at each public library, voting precinct or both. Such posting shall be done by the sheriff or his deputy. Such notice shall inform the public that the board shall sit at the place or places and on the days named therein for the purpose of equalizing real estate assessments in such county or city and for the purpose of hearing complaints of inequalities wherein the property owners allege a lack of uniformity in assessment, or errors in acreage in such real estate assessments. 1. The fair market value of real property shall be established by the board as of January 1 of the applicable year; or

The governing body of any county or city may provide by ordinance the date by which applications must be made by property owners or lessees for relief. Such date shall not be earlier than 30 days after the termination of the date set by the assessing officer to hear objections to the assessments as provided in § 58.1-3330. If no applications for relief are received by such date, the board of equalization shall be deemed to have discharged its duties. Such governing body may also provide by ordinance the deadline by which all applications must be finally disposed of by the board of equalization. All such deadlines shall be clearly stated on the notice of assessment. The governing body may provide for applications for relief to be made electronically; however, taxpayers retain the right to file applications on traditional paper forms provided by the governing body as long as such forms are submitted prior to the established deadline. If such paper forms are mailed by the applicant, the postmark date shall be considered the date of receipt by the governing body. A hearing for relief before the board of equalization regarding an assessment on residential property shall not be denied on the basis of a lack of information on the application for relief, as long as the application includes the address, the parcel number, and the owner's proposed assessed value for the property. *If the application for relief is sent electronically, the date the applicant sends the application shall be considered the date of receipt by the governing body. The application is considered sent when it meets the requirements of subsection (a) of § 59.1-493.* A hearing for relief before the board of equalization regarding an assessment on commercial, multi-family residential, or industrial property on the basis of fair market value shall not be denied on the basis of a lack of information on the application, as long as documentation of any applicable assessment methodologies is submitted with the application, and the application includes the address, the parcel number, and the owner's proposed assessed value for the property.

*An Act to require the Commonwealth of Virginia to become an associate member of the Multistate Tax Commission.*

[H 373]

Approved March 19, 2018

Whereas, the Multistate Tax Commission is an intergovernmental state tax agency working on behalf of states and taxpayers to administer, equitably and efficiently, tax laws that apply to multistate and multinational enterprises; and

Whereas, in 1967, the Multistate Tax Compact created the Multistate Tax Commission, which is charged with facilitating the proper determination of state and local tax liability of multistate taxpayers, including the equitable apportionment of tax bases and settlement of apportionment disputes, promoting uniformity or compatibility in significant components of tax systems, facilitating taxpayer convenience and compliance in the filing of tax returns and in other phases of tax administration, and avoiding duplicative taxation; and

Whereas, the Multistate Tax Commission has three levels of membership: compact members, which are states that have enacted the Multistate Tax Compact into state law; sovereignty members, which are states that support the purposes of the Multistate Tax Compact through regular participation in, and financial support for, the general activities of the Multistate Tax Commission; and associate members, which are states that participate in Multistate Tax Commission meetings and otherwise consult and cooperate with the Multistate Tax Commission and its other member states; and

Whereas, 48 states and the District of Columbia are currently members of the Multistate Tax Commission, and 26 of such states are associate members; and

Whereas, it is the duty of the Tax Commissioner of the Virginia Department of Taxation to supervise the administration of the tax laws of the Commonwealth insofar as they relate to taxable state subjects and assessments thereon, in light of objectives of ascertaining the best methods of reaching all taxable income, property, and transactions; effectuate equitable assessments; and avoid conflicts and duplication of taxation of the same income, property, and transactions; and

Whereas, the Multistate Tax Commission in 2014 and 2015 adopted revisions to its model Uniform Division of Income for Tax Purposes Act (UDITPA); and

Whereas, actions by the Multistate Tax Commission regarding other model legislation could have a significant impact on the competitiveness of the Commonwealth of Virginia; now, therefore,

**Be it enacted by the General Assembly of Virginia:**

**1. § 1.** *The Tax Commissioner of the Department of Taxation shall take such steps as are necessary for Virginia to become an associate member of the Multistate Tax Commission without payment of any membership fees, and shall participate in available Multistate Tax Commission discussions and meetings concerning model legislation and uniform tax policies that could affect the Commonwealth.*

**1. § 1.** *The Department of Taxation (Department) and the Virginia Employment Commission (Commission) shall consider the feasibility of permitting taxpayers to submit tax reports and payments electronically for both the Virginia Employment*

The amount of the annual credit for each new green job shall be \$500 for each annual salary that is \$50,000 or more. The credit shall be first allowed for the taxable year in which the job has been filled for at least one year and for each of the four succeeding taxable years provided the job is continuously filled during the respective taxable year. Each taxpayer qualifying under this section shall be allowed the credit for up to 350 green jobs.

taxable year, the amount that exceeds the tax liability may be carried over for credit against the income taxes of the taxpayer in the next five taxable years or until the total amount of the tax credit has been taken, whichever is sooner.

E. Credits granted to a partnership, limited liability company, or electing small business corporation (S corporation) shall be allocated to the individual partners, members, or shareholders, respectively, in proportion to their ownership or interest in such business entities.

F. If the taxpayer is eligible for the tax credits under this section and creates green jobs in an enterprise zone, as defined in § 59.1-539, such taxpayer may also qualify for the benefits under the Enterprise Zone Grant Program (§ 59.1-538 et seq.).

*An Act to amend and reenact § 33.2-1217 of the Code of Virginia, relating to signs or advertisements.*

[H 1523]

Approved March 19, 2018

**Be it enacted by the General Assembly of Virginia:**

**1. That § 33.2-1217 of the Code of Virginia is amended and reenacted as follows:**

**§ 33.2-1217. Special provisions pertaining to Interstate System, National Highway System, and federal-aid primary highways.**

A. Notwithstanding the territorial limitation set out in § 33.2-1202, no sign or advertisement adjacent to any Interstate System, National Highway System, or federal-aid primary highway shall be erected, maintained, or displayed that is visible

from the main traveled way within 660 feet of the nearest edge of the right-of-way, except as provided in subsections B and D, and outside of an urban area, no sign or advertisement beyond 660 feet of the nearest edge of the right-of-way of any Interstate System, National Highway System, or federal-aid primary highway that is visible from the main traveled way shall be erected, maintained, or displayed with the purpose of its message being read from the main traveled way, except as set forth in subsection C.

B. The following signs, advertisements, or advertising structures may be erected, maintained, and displayed within 660 feet of the right-of-way of any Interstate System, National Highway System, or federal-aid primary highway:

Class 1: Official signs. Directional and official signs and notices, including signs and notices pertaining to the availability of food, lodging, vehicle service and tourist information, natural wonders, scenic areas, museums, and historic attractions, as authorized or required by law; however, where such signs or notices pertain to facilities or attractions that are barrier free, such signs or notices shall contain the International Symbol of Access. The Board shall determine the type, lighting, size, location, number, and other requirements of signs of this class.

Class 2: On-premises signs. Signs not prohibited by other parts of this article that are consistent with the applicable provisions of this section and that advertise the sale or lease of, or activities being conducted upon, the real property where the signs are located, provided that any such signs that are located adjacent to and within 660 feet of any Interstate System highway and do not lie in commercial or industrial zones within the boundaries of incorporated municipalities, as such boundaries existed on September 21, 1959, wherein the use of real property adjacent to the Interstate System is subject to municipal regulation or control, or in areas where land use as of September 21, 1959, was clearly established by state law as industrial or commercial, shall comply with the following requirements:

1. Not more than one sign advertising the sale or lease of the same property may be erected or maintained in such manner as to be visible to traffic proceeding in any one direction on any one Interstate System highway;

2. Not more than one sign visible to traffic proceeding in any one direction on any one Interstate System highway and advertising activities being conducted upon the real property where the sign is located may be erected or maintained more than 50 feet from the advertised activity; ~~and no such sign may be located more than 250 feet from the center of the advertised activity;~~ and

3. No sign, except one that is not more than 50 feet from the advertised activity, that displays any trade name that refers to or identifies any service rendered or product sold may be erected or maintained unless the name of the advertised activity is displayed as conspicuously as such trade name.

Class 3: Other signs. Any signs or advertisements that are located within areas adjacent to any Interstate System, National Highway System, or federal-aid primary highway that are zoned industrial or commercial under authority of state law or in unzoned commercial or industrial areas as determined by the Board from actual land uses. The Board shall determine the size, lighting, and spacing of signs of this class, provided that such determination shall be no more restrictive than valid federal requirements on the same subject.

C. The following signs, advertisements, or advertising structures may be erected, maintained, and displayed beyond 660 feet of the right-of-way of any Interstate System, National Highway System, or federal-aid primary highway outside urban areas:

1. Class 1 and Class 2 signs, advertisements, or advertising structures set forth in subsection B.

2. All other signs, advertisements, or advertising structures erected, maintained, or displayed more than 660 feet from the nearest edge of the right-of-way of an Interstate System, National Highway System, or federal-aid primary highway, unless such sign or advertisement is visible from the main traveled way of such highways and erected, maintained, or displayed with the purpose of its message being read from the main traveled way of such highways.

In determining whether a sign, advertisement, or advertising structure is "erected, maintained, or displayed with the purpose of its message being read," the Commissioner of Highways shall consider, at a minimum, the nature of the business or product advertised thereon, the availability of such business or product to users of the controlled highway, and the visibility of the sign, advertisement, or advertising structure from the main traveled way of the controlled highway. Such visibility may be measured by considering the size or height of the sign, advertisement, or advertising structure; the configuration, size, and height of recognizable emblems, images, and lettering thereon; the angle of the sign, advertisement, or advertising structure to the main traveled way of the controlled highway; the degree to which physical obstructions hinder the view of the sign, advertisement, or advertising structure from the main traveled way of the controlled highway; and the time during which such sign, advertisement, or advertising structure is exposed to view by travelers on the main traveled way of the controlled highway traveling at the maximum and minimum speeds posted.

D. In order to provide information in the specific interest of the traveling public, the Department is authorized to maintain maps, permit informational directories and advertising pamphlets to be made available at rest areas, and establish information centers at rest areas for the purpose of informing the public of places of interest within the Commonwealth and providing such other information as may be considered desirable.

E. Notwithstanding any other provision of law, lawfully erected and maintained nonconforming signs, advertisements, and advertising structures shall not be removed or eliminated by amortization under state law or local ordinances without compensation as described in subsection F.

F. The Commissioner of Highways is authorized to acquire by purchase, gift, or the power of eminent domain and to pay just compensation upon the removal of nonconforming signs, advertisements, or advertising structures lawfully erected and maintained under state law or state regulations, provided that subsequent to November 6, 1978, whenever any local

ordinance that is more restrictive than state law requires the removal of such signs, advertisements, or advertising structures, the local governing body shall initiate the removal of such signs, advertisements, or advertising structures with the Commissioner of Highways, who shall have complete authority to administer the removal of such signs, advertisements, or advertising structures. Upon proof of payment presented to the local governing bodies, the local governing bodies shall reimburse the Commissioner of Highways the funds expended that are associated with the removal of such signs, advertisements, or advertising structures required by local ordinances, less any federal funds received for such purposes. Notwithstanding the provisions of this subsection, nothing shall prohibit the local governing bodies from removing signs, advertisements, or advertising structures that are made nonconforming solely by local ordinances so long as those ordinances require the local governing bodies to pay 100 percent of the cost of removing them and just compensation upon their removal.

Such compensation is authorized to be paid only for the taking from the owner of such sign or advertisement of all right, title, leasehold, and interest in such sign or advertisement and the taking from the owner of the real property on which the sign or advertisement is located of the right to erect and maintain such sign or advertisement thereon.

The Commissioner of Highways shall not be required to expend any funds under this section unless and until federal-aid matching funds are made available for this purpose.

In determining whether a sign, advertisement, or advertising structure is "erected, maintained, or displayed with the purpose of its message being read," the Commissioner of Highways shall consider, at a minimum, the nature of the business or product advertised thereon, the availability of such business or product to users of the controlled highway, and the visibility of the sign, advertisement, or advertising structure from the main traveled way of the controlled highway. Such visibility may be measured by considering the size or height of the sign, advertisement, or advertising structure; the configuration, size, and height of recognizable emblems, images, and lettering thereon; the angle of the sign, advertisement, or advertising structure to the main traveled way of the controlled highway; the degree to which physical obstructions hinder the view of the sign, advertisement, or advertising structure from the main traveled way of the controlled highway; and the time during which such sign, advertisement, or advertising structure is exposed to view by travelers on the main traveled way of the controlled highway traveling at the maximum and minimum speeds posted.

E. Notwithstanding any other provision of law, lawfully erected and maintained nonconforming signs, advertisements, and advertising structures shall not be removed or eliminated by amortization under state law or local ordinances without compensation as described in subsection F.

F. [S 232]

Approved March 19, 2018

Whereas, Article X, Section 9 (c) of the Constitution of Virginia provides that the General Assembly may authorize the creation of debt secured by a pledge of net revenues derived from rates, fees, or other charges and the full faith and credit of the Commonwealth of Virginia, provided that such debt is created for specific revenue-producing capital projects, including their enlargement or improvement, at, among others, institutions of higher education of the Commonwealth; and

**Be it enacted by the General Assembly of Virginia:**

**1. §1. Title.**

*This act shall be known and may be cited as the "Commonwealth of Virginia Institutions of Higher Education Bond Act of 2018."*

**§ 2. Authorization of bonds and bond anticipation notes.**

*The Treasury Board is hereby authorized, by and with the consent of the Governor, to sell and issue, pursuant to Article X, Section 9 (c) of the Constitution of Virginia, at one time or from time to time, bonds of the Commonwealth, to be designated "Commonwealth of Virginia Institutions of Higher Education Bonds, Series ....." in an aggregate principal amount not exceeding \$21,000,000, plus amounts needed to fund issuance costs, reserve funds, construction period interest, and other financing expenses. The Treasury Board is further hereby authorized, by and with the consent of the Governor, to borrow money in anticipation of the issuance of bonds by the issuance of bond anticipation notes (BANs), including BANs issued as commercial paper. The proceeds of such bonds and BANs, excluding amounts needed to fund issuance costs, reserve funds, and other financing expenses, shall be used exclusively for the purpose of providing funds, with any other available funds, for paying all or a portion of the costs of acquiring, constructing, renovating, enlarging, improving, and equipping revenue-producing capital projects at institutions of higher education of the Commonwealth as follows:*

<i>Institution</i>	<i>Project Title</i>	<i>Amount</i>

<i>Total</i>		<i>\$21,000,000</i>

**§ 3. Application of proceeds.**

*The proceeds, including any premium, of bonds and BANs (except the proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds, and (iii) refunding BANs), shall be deposited in a special capital outlay fund in the state treasury and, together with the investment income thereon, shall be disbursed by the State Treasurer for paying costs of acquiring, constructing, renovating, enlarging, improving, and equipping the authorized capital projects, including financing costs. The proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds, and (iii) refunding BANs shall be used to pay such BANs, refunded bonds, and refunded BANs.*

**§ 4. Details, sale of bonds and BANs.**

*Bonds and BANs shall be dated and may be made redeemable before their maturity or maturities at such price or prices or within such price parameters, all as may be determined by the Treasury Board, by and with the consent of the Governor. Bonds and BANs shall be in such form, shall bear interest at such rate or rates, either at fixed rates or at rates established by formula or other method, and may contain such other provisions, all as determined by the Treasury Board or, when authorized by the Treasury Board, the State Treasurer. The principal of and premium, if any, and the interest on bonds and BANs shall be payable in lawful money of the United States of America. Bonds and BANs may be certificated or uncertificated as determined by the Treasury Board. The Treasury Board may contract for services of such registrars, transfer agents, or other authenticating agents as it deems appropriate to maintain a record of the persons entitled to the bonds and BANs. Bonds and BANs issued in certificated form may be issued under a system of book entry for recording the ownership and transfer of ownership of rights to receive payments on the bonds and BANs. The Treasury Board shall fix the authorized denomination or denominations of the bonds and the place or places of payment of certificated bonds and BANs, which may be at the Office of the State Treasurer or at any bank or trust company within or without the Commonwealth. Bonds shall mature at such time or times not exceeding 30 years from their date or dates, and BANs shall mature at such time or times not exceeding five years from their date or dates.*

*The Treasury Board may sell bonds and BANs in such manner, by competitive bidding, negotiated sale, or private placement, and for such price or within such price parameters as it may determine, by and with the consent of the Governor, to be in the best interest of the Commonwealth.*

*In the discretion of the Treasury Board, bonds and BANs may be issued at one time or from time to time and may be sold and issued at the same time with other general obligation bonds and BANs, respectively, of the Commonwealth authorized pursuant to Article X, Section 9 (a) (3), (b), and (c) of the Constitution of Virginia, as separate issues or as a combined issue, designated "Commonwealth of Virginia General Obligation Bonds Bond Anticipation Notes, Series."*

**§ 5. Execution of bonds and BANs.**

*Certificated bonds and BANs shall be signed on behalf of the Commonwealth by the Governor and by the State Treasurer, or shall bear their facsimile signatures, and shall bear the lesser seal of the Commonwealth or a facsimile thereof. If the bonds or BANs bear the facsimile signature of the State Treasurer, they shall be signed by such administrative assistant as the State Treasurer shall determine or by such registrar or paying agent as may be designated to sign them by the Treasury Board. If any officer whose signature or facsimile signature appears on any bonds or BANs ceases to be such officer before delivery, such signature or facsimile signature shall nevertheless be valid and sufficient for all purposes the same as if such officer had remained in office until such delivery, and any bond or BAN may bear the facsimile signature of, or may be signed by, such persons as at the actual time of execution are the proper officers to sign such bond or BAN, although at the date of such bond or BAN, such persons may not have been such officers.*

**§ 6. Sources for payment of expenses.**

*All expenses incurred under this act shall be paid from the proceeds of bonds or BANs, from payments made by the institutions for which the capital projects were authorized in § 2, or from any other available funds as the Treasury Board shall determine.*

**§ 7. Revenues.**

*Each institution of higher education named in § 2 is hereby authorized (i) to fix, revise, charge, and collect rates, fees, and charges for or in connection with the use, occupancy, and services of each capital project named in § 2 or the system of which such capital project is a part and (ii) to pledge to the portion of the bonds or BANs issued for such capital project the net revenues resulting from such rates, fees, and charges and remaining after payment of the expenses of operating the project or system, as the case may be. The institution is further authorized to create debt service and sinking funds for the payments of the principal of, premium, if any, and interest on the bonds and other reserves required by any agency of the United States of America purchasing the bonds or any portion thereof.*

**§ 8. Investments and contracts.**

*A. Pending the application of the proceeds of the bonds or BANs (including refunding bonds and BANs) to the purpose for which they have been authorized and the application of funds set aside for the purpose to the payment of bonds or BANs, they may be invested by the State Treasurer in securities that are legal investments under the laws of the Commonwealth for public funds and sinking funds, as the case may be. Whenever the State Treasurer receives interest from the investment of the proceeds of bonds or any BANs, such interest shall become a part of the principal of the bonds or any BANs and shall be used in the same manner as required for principal of the bonds or BANs.*

*B. The Commonwealth may enter into any contract or other arrangement that is determined to be necessary or appropriate to place the obligation or investment of the Commonwealth, as represented by bonds, BANs, or investments, in whole or in part, on the interest rate, cash flow, or other basis desired by the Commonwealth. Such contract or other arrangement may include, without limitation, contracts commonly known as interest rate swap agreements and futures or contracts providing for payments based on levels of, or changes in, interest rates. These contracts or arrangements may be entered into by the Commonwealth in connection with, or incidental to, entering into, or maintaining any (i) agreement that secures bonds or BANs or (ii) investment, or contract providing for investment, otherwise authorized by law. These contracts and arrangements may contain such payment, security, default, remedy, and other terms and conditions as determined by the Commonwealth, after giving due consideration to the creditworthiness of the counterparty or other obligated party, including any rating by any nationally recognized rating agency, and any other criteria as may be appropriate. The determinations referred to in this subsection may be made by the Treasury Board or any public funds manager with professional investment capabilities duly authorized by the Treasury Board to make such determinations.*

*C. Any money set aside and pledged to secure payments of bonds, BANs, or any of the contracts entered into pursuant to this section may be invested in accordance with subsection A and may be pledged to and used to service any of the contracts or other arrangements entered into pursuant to subsection B.*

**§ 9. Security for bonds and BANs.**

*The net revenues of the capital projects set forth above and the full faith and credit of the Commonwealth are hereby irrevocably pledged for the payment of the principal of and the interest on bonds and BANs (unless the Treasury Board, by and with the consent of the Governor, shall provide otherwise) issued under this act. The proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds, and (iii) refunding BANs are hereby irrevocably pledged for the payment of principal of and interest and any premium on the BANs or bonds to be paid or redeemed thereby. In the event the net revenues pledged to the payment of the bonds or BANs are insufficient in any fiscal year for the timely payment of the principal of, premium, if any, and interest on the bonds or BANs, where the full faith and credit of the Commonwealth have been pledged, the General Assembly shall appropriate a sum sufficient therefor or the Governor shall direct payment therefor from the general fund revenues of the Commonwealth.*

**§ 10. Exemption of interest from tax.**

*The bonds and BANs issued under the provisions of this act, their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any county,*

city, or town, or other political subdivision thereof. The Treasury Board is authorized to take or refrain from taking any and all actions and to covenant to such effect, and to require the participating institutions to do and to covenant likewise, to the extent that, in the judgment of the Treasury Board, it is appropriate in order that interest on the bonds and BANs may be exempt from federal income tax. Alternatively, interest on bonds and BANs may be made subject to inclusion in gross income of the holders thereof for federal income tax purposes.

§ 11. Refunding bonds and BANs.

The Treasury Board is authorized, by and with the consent of the Governor, to sell and issue, at one time or from time to time, refunding bonds and BANs of the Commonwealth and to refund any or all of the bonds and BANs, respectively, issued under this act or otherwise authorized pursuant to Article X, Section 9 (c) of the Constitution of Virginia. Refunding bonds and BANs may be issued in a principal amount up to the amount necessary to pay at maturity or redeem the bonds and BANs to be refunded and pay all issuance costs and other financing expenses of the refunding. Such refunding bonds and BANs may be issued whether or not the obligations to be refunded are then subject to redemption.

§ 12. Defeasance.

Any bond or BAN for which cash or direct obligations of the United States of America shall have been set aside in escrow with the State Treasurer or a bank or trust company, within or without the Commonwealth, shall be deemed no longer outstanding under the applicable authorizing instrument, this act, and Article X, Section 9 (c) or (b), as the case may be, of the Constitution of Virginia.

§ 13. Severability.

The provisions of this act or the application thereof to any person or circumstance that are held invalid shall not affect the validity of other provisions or applications of this act which can be given effect without the invalid provisions or applications.

**2. That an emergency exists and this act is in force from its passage.**

## CHAPTER 359

*An Act to amend and reenact § 55-210.3:01 of the Code of Virginia, relating to the Uniform Disposition of Unclaimed Property Act; bank deposits and funds in financial organizations; charges on inactive accounts.*

[S 253]

Approved March 19, 2018

**Be it enacted by the General Assembly of Virginia:**

**1. That § 55-210.3:01 of the Code of Virginia is amended and reenacted as follows:**

**§ 55-210.3:01. Bank deposits and funds in financial organizations.**

A. Any demand, savings, or matured time deposit with a banking or financial organization, including deposits that are automatically renewable, and any funds paid toward the purchase of shares, a mutual investment certificate, or any other interest in a banking or financial organization is presumed abandoned unless the owner has, within five years:

1. In the case of a deposit or ownership of shares, increased or decreased the amount of the deposit or the number of shares owned, or presented the passbook or other similar evidence of the deposit or ownership of shares for the crediting of interest or dividends, or negotiated a check in payment of interest or dividends on a time deposit or ownership of shares;

2. Communicated in writing with the banking or financial organization concerning the property;

3. Otherwise indicated an interest in the property as evidenced by a memorandum or other record on file prepared by an employee of the banking or financial organization;

4. Owned other property to which subdivision A 1, A 2, or A 3 is applicable if the banking or financial organization communicated in writing with the owner with regard to the property that would otherwise be presumed abandoned under this paragraph at the address to which communications regarding the other property regularly are sent;

5. Had another relationship with the banking or financial organization concerning which the owner has (i) communicated in writing with the banking or financial organization, or (ii) otherwise indicated an interest as evidenced by a memorandum or other record on file prepared by an employee of the banking or financial organization if the banking or financial organization communicates in writing with the owner with regard to the property that would otherwise be abandoned under this paragraph at the address to which communications regarding the other relationship regularly are sent; or

6. A deposit made with or purchase of shares in a banking or financial organization by a court or by a guardian pursuant to order of a court or by any other person for the benefit of a person who was an infant at the time of the making of such deposit or purchase of shares, which deposit or ownership of shares is subject to withdrawal or transfer only upon the further order of such court or such guardian or other person, shall not be subject to the provisions of this chapter until one year after such infant attains the age of eighteen years or until one year after the death of such infant, whichever occurs sooner. These accounts are not subject to dormant service charges.

B. Notwithstanding any other provision of this section, share accounts of a member of a state or federally chartered credit union that is subject to or covered by life savings insurance provided by the credit union at no additional charge to the member shall be presumed abandoned five years after the date of the second mailing of a statement of account or other notification or communication that was returned as undeliverable, or after the date the credit union discontinued the

mailings to the member, whichever is earlier. Funds held or owing under the life savings insurance policy are presumed abandoned pursuant to § 55-210.4:01.

C. For purposes of this section, "property" includes any interest or dividends thereon. No banking or financial organization may deduct any service charge or cease to accrue interest on any account; from the date the account is declared dormant or inactive by such organization except in conformity with cessation of interest or service charges generally assessed upon active accounts *and except as provided in this section*. With respect to any property described in this section, a holder may not impose any charges due to dormancy or inactivity which differ from ~~those charges~~ imposed on active accounts or cease to pay interest *due to dormancy or inactivity that differs from the cessation of payment of interest on active accounts* unless:

1. There is an enforceable contract between the holder and the owner of the property pursuant to which the holder may impose those charges or cease payment of interest;

2. For property in excess of \$100, the holder, no more than three months prior to the initial imposition of those charges or cessation of interest, has given written notice to the owner of the amount of those charges at the last known address of the owner stating that those charges will be imposed or that interest will cease; however, such notice need not be given with respect to charges imposed or interest ceased before July 1, 1984; ~~and~~

3. When the holder ~~imposes those charges or ceases payment of interest, it does not for any reason other than to correct a documented internal error~~ receives a request from the owner of the property to reverse or cancel ~~those dormancy~~ charges or retroactively credit interest with respect to such property, *the holder may at its option either:*

*a. Reverse or cancel dormancy charges or retroactively credit interest with respect to any such property, in which event the holder shall reverse or cancel dormancy charges or retroactively credit interest for all such property that becomes subject to the reporting requirements in § 55-210.12 for the Department of the Treasury; or*

*b. Not reverse or cancel dormancy charges or retroactively credit interest with respect to any such property, in which event the holder shall not be required to reverse or cancel dormancy charges or retroactively credit interest for any such property that becomes subject to the reporting requirements in § 55-210.12 for the Department of the Treasury; and*

4. The holder may at its option reverse or cancel dormancy charges or retroactively credit interest with respect to any or all such property to correct a documented internal error without becoming required to reverse or cancel dormancy charges or retroactively credit interest for all such property that becomes subject to the reporting requirements in § 55-210.12 for the Department of the Treasury.

Notwithstanding any provision of this subsection to the contrary, a holder that is a state-chartered credit union may refund charges or reverse or cancel those charges or retroactively credit interest with respect to such property to the same extent that a federally-chartered credit union is authorized so to do pursuant to applicable provisions of federal law.

D. Any automatically renewable property to which this section applies is matured upon the expiration of its initial time period. However, in the case of any renewal to which the owner consents at or about the time of renewal by communicating in writing with the banking or financial organization or otherwise indicates consent as specified in subsection A of this section, the property is matured upon the expiration of the last time period for which consent was given. If, at the time provided for delivery in subsection D of § 55-210.12, a penalty or forfeiture in the payment of interest would result from the delivery of the property, the time for delivery is extended until the time when no penalty or forfeiture would result. Notwithstanding any other provision of this section to the contrary, any automatically renewable time deposit that has matured shall be presumed abandoned five years after the date of the second mailing of a statement of account or other notification or communication that was returned as undeliverable, or after the date the holder discontinued the mailings to the apparent owner, whichever is earlier. However, any automatically renewable time deposit for which no such statement or other notification or mailing is required to be sent by the banking or financial organization shall be presumed abandoned as otherwise provided in this section.

**2. That the provisions of this act are declarative of existing law.**

[H 52]

Approved March 19, 2018

**Be it enacted by the General Assembly of Virginia:**

**§ 19.2-169.1. Raising question of competency to stand trial or plead; evaluation and determination of competency.**

**A. Raising competency issue; appointment of evaluators.**

*If, at any time after the attorney for the defendant has been retained or appointed and before the end of trial, the court finds, upon hearing evidence or representations of counsel for the defendant or the attorney for the Commonwealth, that there is probable cause to believe that the defendant, whether a juvenile transferred pursuant to § 16.1-269.1 or adult, lacks substantial capacity to understand the proceedings against him or to assist his attorney in his own defense, the court shall order that a competency evaluation be performed by at least one psychiatrist or clinical psychologist who (i) has performed forensic evaluations; (ii) has successfully completed forensic evaluation training recognized by the Commissioner of Behavioral Health and Developmental Services; (iii) has demonstrated to the Commissioner competence to perform forensic evaluations; and (iv) is included on a list of approved evaluators maintained by the Commissioner.*

**B. Location of evaluation.**

*The evaluation shall be performed on an outpatient basis at a mental health facility or in jail unless an outpatient evaluation has been conducted and the outpatient evaluator opines that a hospital-based evaluation is needed to reliably reach an opinion or unless the court specifically finds that outpatient evaluation services are unavailable or unless the results of outpatient evaluation indicate that hospitalization of the defendant for evaluation on competency is necessary. If the court finds that hospitalization is necessary, the court, under authority of this subsection, may order the defendant sent to a hospital designated by the Commissioner of Behavioral Health and Developmental Services as appropriate for evaluations of persons under criminal charge. The defendant shall be hospitalized for such time as the director of the hospital deems necessary to perform an adequate evaluation of the defendant's competency, but not to exceed 30 days from the date of admission to the hospital unless the defendant is in the custody of the Commissioner of Behavioral Health and*

*Developmental Services pursuant to § 19.2-169.2, 19.2-169.6, 19.2-182.2, 19.2-182.3, 19.2-182.8, 19.2-182.9, or Article 5 (§ 37.2-814 et seq.) of Chapter 8 of Title 37.2.*

C. Provision of information to evaluators.

The court shall require the attorney for the Commonwealth to provide to the evaluators appointed under subsection A any information relevant to the evaluation, including, but not limited to (i) a copy of the warrant or indictment; (ii) the names and addresses of the attorney for the Commonwealth, the attorney for the defendant, and the judge ordering the evaluation; (iii) information about the alleged crime; and (iv) a summary of the reasons for the evaluation request. The court shall require the attorney for the defendant to provide any available psychiatric records and other information that is deemed relevant. The court shall require that information be provided to the evaluator within 96 hours of the issuance of the court order pursuant to this section.

D. The competency report.

Upon completion of the evaluation, the evaluators shall promptly submit a report in writing to the court and the attorneys of record concerning (i) the defendant's capacity to understand the proceedings against him; (ii) his ability to assist his attorney; and (iii) his need for treatment in the event he is found incompetent but restorable, or incompetent for the foreseeable future. If a need for restoration treatment is identified pursuant to clause (iii), the report shall state whether inpatient or outpatient treatment is recommended. No statements of the defendant relating to the time period of the alleged offense shall be included in the report. The evaluator shall also send a redacted copy of the report removing references to the defendant's name, date of birth, case number, and court of jurisdiction to the Commissioner of Behavioral Health and Developmental Services for the purpose of peer review to establish and maintain the list of approved evaluators described in subsection A.

E. The competency determination.

After receiving the report described in subsection D, the court shall promptly determine whether the defendant is competent to stand trial. A hearing on the defendant's competency is not required unless one is requested by the attorney for the Commonwealth or the attorney for the defendant, or unless the court has reasonable cause to believe the defendant will be hospitalized under § 19.2-169.2. If a hearing is held, the party alleging that the defendant is incompetent shall bear the burden of proving by a preponderance of the evidence the defendant's incompetency. The defendant shall have the right to notice of the hearing, the right to counsel at the hearing and the right to personally participate in and introduce evidence at the hearing.

The fact that the defendant claims to be unable to remember the time period surrounding the alleged offense shall not, by itself, bar a finding of competency if the defendant otherwise understands the charges against him and can assist in his defense. Nor shall the fact that the defendant is under the influence of medication bar a finding of competency if the defendant is able to understand the charges against him and assist in his defense while medicated.

**§ 19.2-169.5. Evaluation of sanity at the time of the offense; disclosure of evaluation results.**

A. Raising issue of sanity at the time of offense; appointment of evaluators.

If, at any time before trial, the court finds, upon hearing evidence or representations of counsel for the defendant, that there is probable cause to believe that the defendant's sanity will be a significant factor in his defense and that the defendant is financially unable to pay for expert assistance, the court shall appoint one or more qualified mental health experts to evaluate the defendant's sanity at the time of the offense and, where appropriate, to assist in the development of an insanity defense. Such mental health expert shall be a psychiatrist or a clinical psychologist who (i) has performed forensic examinations, (ii) has successfully completed forensic evaluation training recognized by the Commissioner of Behavioral Health and Developmental Services, (iii) has demonstrated to the Commissioner competence to perform forensic evaluations, and (iv) is included on a list of approved evaluators maintained by the Commissioner. The defendant shall not be entitled to a mental health expert of his own choosing or to funds to employ such expert.

B. Location of evaluation.

The evaluation shall be performed on an outpatient basis, at a mental health facility or in jail *unless an outpatient evaluation has been conducted and the outpatient evaluator opines that a hospital-based evaluation is needed to reliably reach an opinion or; unless the court specifically finds that outpatient services are unavailable; or unless the results of the outpatient evaluation indicate that hospitalization of the defendant for further evaluation of his sanity at the time of the offense is necessary.* If either finding is made, the court, under authority of this subsection, may order that the defendant be sent to a hospital designated by the Commissioner of Behavioral Health and Developmental Services as appropriate for evaluation of the defendant under criminal charge. The defendant shall be hospitalized for such time as the director of the hospital deems necessary to perform an adequate evaluation of the defendant's sanity at the time of the offense, but not to exceed 30 days from the date of admission to the hospital *unless the defendant is in the custody of the Commissioner of Behavioral Health and Developmental Services pursuant to § 19.2-169.2, 19.2-169.6, 19.2-182.2, 19.2-182.3, 19.2-182.8, 19.2-182.9, or Article 5 (§ 37.2-814 et seq.) of Chapter 8 of Title 37.2.*

C. Provision of information to evaluator.

The court shall require the party making the motion for the evaluation, and such other parties as the court deems appropriate, to provide to the evaluators appointed under subsection A any information relevant to the evaluation, including, but not limited to (i) copy of the warrant or indictment; (ii) the names and addresses of the attorney for the Commonwealth, the attorney for the defendant and the judge who appointed the expert; (iii) information pertaining to the alleged crime, including statements by the defendant made to the police and transcripts of preliminary hearings, if any; (iv) a summary of

the reasons for the evaluation request; (v) any available psychiatric, psychological, medical or social records that are deemed relevant; and (vi) a copy of the defendant's criminal record, to the extent reasonably available.

D. The evaluators shall prepare a full report concerning the defendant's sanity at the time of the offense, including whether he may have had a significant mental disease or defect which rendered him insane at the time of the offense. The report shall be prepared within the time period designated by the court, said period to include the time necessary to obtain and evaluate the information specified in subsection C.

E. Disclosure of evaluation results.

The report described in subsection D shall be sent solely to the attorney for the defendant and shall be deemed to be protected by the lawyer-client privilege. However, the Commonwealth shall be given the report in all felony cases, the results of any other evaluation of the defendant's sanity at the time of the offense, and copies of psychiatric, psychological, medical, or other records obtained during the course of any such evaluation, after the attorney for the defendant gives notice of an intent to present psychiatric or psychological evidence pursuant to § 19.2-168. In addition, in all cases, the evaluator shall send a redacted copy of the report removing references to the defendant's name, date of birth, case number, and court of jurisdiction to the Commissioner of Behavioral Health and Developmental Services for the purpose of peer review to establish and maintain the list of approved evaluators described in subsection A.

F. In any case where the defendant obtains his own expert to evaluate the defendant's sanity at the time of the offense, the provisions of subsections D and E, relating to the disclosure of the evaluation results, shall apply.

Such policy shall ensure that the patient, his agent, or the person authorized to make medical decisions pursuant to § 54.1-2986 (a) are informed of the patient's right to obtain his medical record and to obtain an independent medical opinion and (b) afforded reasonable opportunity to participate in the medical review committee meeting. Nothing in such policy shall prevent the patient, his agent, or the person authorized to make medical decisions pursuant to § 54.1-2986 from obtaining legal counsel to represent the patient or from seeking other remedies available at law, including seeking court review, provided that the patient, his agent, or the person authorized to make medical decisions pursuant to § 54.1-2986, or legal counsel provides written notice to the chief executive officer of the hospital within 14 days of the date on which the physician's determination that proposed medical treatment is medically or ethically inappropriate is documented in the patient's medical record.*

C. Upon obtaining the appropriate license, if applicable, licensed hospitals, nursing homes, and certified nursing facilities may operate adult day care centers.

D. All facilities licensed by the Board pursuant to this article which provide treatment or care for hemophiliacs and, in the course of such treatment, stock clotting factors, shall maintain records of all lot numbers or other unique identifiers for such clotting factors in order that, in the event the lot is found to be contaminated with an infectious agent, those hemophiliacs who have received units of this contaminated clotting factor may be apprised of this contamination. Facilities which have identified a lot which is known to be contaminated shall notify the recipient's attending physician and request that he notify the recipient of the contamination. If the physician is unavailable, the facility shall notify by mail, return receipt requested, each recipient who received treatment from a known contaminated lot at the individual's last known address.

**§ 54.1-2990. Medically unnecessary health care not required; procedure when physician refuses to comply with an advance directive or a designated person's health care decision; mercy killing or euthanasia prohibited.**

A. *As used in this section:*

*"Health care provider" has the same meaning as in § 8.01-581.1.*

*"Life-sustaining treatment" means any ongoing health care that utilizes mechanical or other artificial means to sustain, restore, or supplant a spontaneous vital function, including hydration, nutrition, maintenance medication, and cardiopulmonary resuscitation.*

B. Nothing in this article shall be construed to require a physician to prescribe or render health care to a patient that the physician determines to be medically or ethically inappropriate. ~~However, in such a case, if the physician's A determination of the medical or ethical inappropriateness of proposed health care shall be based solely on the patient's medical condition and not on the patient's age or other demographic status, disability, or diagnosis of persistent vegetative state.~~

*In cases in which a physician's determination that proposed health care, including life-sustaining treatment, is medically or ethically inappropriate is contrary to the request of the patient, the terms of a patient's advance directive, the decision of an agent or person authorized to make decisions pursuant to § 54.1-2986, or a Durable Do Not Resuscitate*

Order, the physician *or his designee* shall document the physician's determination in the patient's medical record, make a reasonable effort to inform the patient or the patient's agent or person with decision-making authority pursuant to § 54.1-2986 of such determination and the reasons for the determination therefor in writing, and provide a copy of the hospital's written policies regarding review of decisions regarding the medical or ethical appropriateness of proposed health care established pursuant to subdivision B 21 of § 32.1-127.

If the conflict remains unresolved, the physician shall make a reasonable effort to transfer the patient to another physician ~~who~~ *or facility* that is willing to comply with the request of the patient, the terms of the advance directive, the decision of an agent or person authorized to make decisions pursuant to § 54.1-2986, or a Durable Do Not Resuscitate Order and shall cooperate in transferring the patient to the physician or facility identified. The physician shall provide the patient or his agent or person with decision-making authority pursuant to § 54.1-2986 a reasonable time of not less than ~~fourteen~~ 14 days after the date on which the decision regarding the medical or ethical inappropriateness of the proposed treatment is documented in the patient's medical record in accordance with the hospital's written policy developed pursuant to subdivision B 21 of § 32.1-127 to effect such transfer. During this period, (i) the physician shall continue to provide any life-sustaining ~~care~~ *treatment* to the patient ~~which~~ that is reasonably available to such physician, as requested by the patient or his agent or person with decision-making authority pursuant to § 54.1-2986, and (ii) the hospital in which the patient is receiving life-sustaining treatment shall facilitate prompt access to the patient's medical record pursuant to § 32.1-127.1:03.

If, at the end of the 14-day period, the conflict remains unresolved despite compliance with the hospital's written policy established pursuant to subdivision B 21 of § 32.1-127 and the physician has been unable to identify another physician or facility willing to provide the care requested by the patient, the terms of the advance directive, or the decision of the agent or person authorized to make decisions pursuant to § 54.1-2986 to which to transfer the patient despite reasonable efforts, the physician may cease to provide the treatment that the physician has determined to be medically or ethically inappropriate subject to the right of court review by any party. However, artificial nutrition and hydration may be withdrawn or withheld only if, on the basis of physician's reasonable medical judgment, providing such artificial nutrition and hydration would (a) hasten the patient's death, (b) be medically ineffective in prolonging life, or (c) be contrary to the clearly documented wishes of the patient, the terms of the patient's advance directive, or the decision of an agent or person authorized to make decisions pursuant to § 54.1-2986 regarding the withholding of artificial nutrition or hydration. In all cases, care directed toward the patient's pain and comfort shall be provided.

~~B. For purposes of this section, "life-sustaining care" means any ongoing health care that utilizes mechanical or other artificial means to sustain, restore or supplant a spontaneous vital function, including hydration, nutrition, maintenance medication, and cardiopulmonary resuscitation.~~

C. Nothing in this section shall require the provision of health care that the physician is physically or legally unable to provide, or health care that the physician is physically or legally unable to provide without thereby denying the same health care to another patient.

D. Nothing in this article shall be construed to condone, authorize, or approve mercy killing or euthanasia; or to permit any affirmative or deliberate act or omission to end life other than to permit the natural process of dying.

E. Compliance with the requirements of this section shall not be admissible to prove a violation of or compliance with the standard of care as set forth in § 8.01-581.20.

## CHAPTER 371

*An Act to amend and reenact § 15.2-5384.1 of the Code of Virginia, relating to reimbursement of costs necessary to examine, review, and supervise a cooperative agreement.*

[H 663]

Approved March 19, 2018

**Be it enacted by the General Assembly of Virginia:****1. That § 15.2-5384.1 of the Code of Virginia is amended and reenacted as follows:****§ 15.2-5384.1. Review of cooperative agreements.**

A. The policy of the Commonwealth related to each participating locality is to encourage cooperative, collaborative, and integrative arrangements, including mergers and acquisitions among hospitals, health centers, or health providers who might otherwise be competitors. To the extent such cooperative agreements, or the planning and negotiations that precede such cooperative agreements, might be anticompetitive within the meaning and intent of state and federal antitrust laws, the intent of the Commonwealth with respect to each participating locality is to supplant competition with a regulatory program to permit cooperative agreements that are beneficial to citizens served by the Authority, and to invest in the Commissioner the authority to approve cooperative agreements recommended by the Authority and the duty of active supervision to ensure compliance with the provisions of the cooperative agreements that have been approved. Such intent is within the public policy of the Commonwealth to facilitate the provision of quality, cost-efficient medical care to rural patients.

B. A hospital may negotiate and enter into proposed cooperative agreements with other hospitals in the Commonwealth if the likely benefits resulting from the proposed cooperative agreements outweigh any disadvantages attributable to a reduction in competition that may result from the proposed cooperative agreements. Benefits to such a cooperative agreement may include, but are not limited to, improving access to care, advancing health status, targeting regional health issues, promoting technological advancement, ensuring accountability of the cost of care, enhancing academic engagement in regional health, strengthening the workforce for health-related careers, and improving health entity collaboration and regional integration where appropriate.

C. 1. Parties located within any participating locality may submit an application for approval of a proposed cooperative agreement to the Authority. In such an application, the applicants shall state in detail the nature of the proposed arrangement between them, including without limitation the parties' goals for, and methods for achieving, population health improvement, improved access to health care services, improved quality, cost efficiencies, ensuring affordability of care, and, as applicable, supporting the Authority's goals and strategic mission. The Authority shall determine whether the application is complete. If the Authority determines that the application is not complete, the Authority shall notify the applicants in writing of the additional items required to complete the application. A copy of the complete application shall be provided to the Commissioner and the Office of the Attorney General at the same time that it is submitted to the Authority. If the applicants believe the materials submitted contain proprietary information that are required to remain confidential, such information must be clearly identified and the applicants shall submit duplicate applications, one with full information for the Authority's use and one redacted application available for release to the public.

2. The Authority, promptly upon receipt of a complete application, shall publish notification of the application in a newspaper of general circulation in the LENOWISCO and Cumberland Plateau Planning Districts and on the Authority's website. The public may submit written comments regarding the application to the Authority within 20 days after the notice

is first published. The Authority shall promptly make any such comments available to the applicants. The applicants may respond in writing to the comments within 10 days after the deadline for submitting comments. Following the close of the written comment period, the Authority shall, in conjunction with the Commissioner, schedule a public hearing on the application. The hearing shall be held no later than 45 days after receipt of the application. Notice of the hearing shall be mailed to the applicants and to all persons who have submitted written comments on the proposed cooperative agreement. The Authority, no later than 15 days prior to the scheduled date of the hearing, also shall publish notice of the hearing in a newspaper of general circulation in the LENOWISCO and Cumberland Plateau Planning Districts and on the Authority's website.

D. In its review of an application submitted pursuant to subsection C, the Authority may consider the proposed cooperative agreement and any supporting documents submitted by the applicants, any written comments submitted by any person, any written response by the applicants, and any written or oral comments submitted at the public hearing. The Authority shall review a proposed cooperative agreement in consideration of the Commonwealth's policy to facilitate improvements in patient health care outcomes and access to quality health care, and population health improvement, in rural communities and in accordance with the standards set forth in subsection E. Any applicants to the proposed cooperative agreement under review, and their affiliates or employees, who are members of the Authority, as well as any members of the Authority that are competitors, or affiliates or employees of competitors, of the applicants proposing such cooperative agreement, shall not participate as a member of the Authority in the Authority's review of, or decision relating to, the proposed cooperative agreement; however, this prohibition on such person's participation shall not prohibit the person from providing comment on a proposed cooperative agreement to the Authority or the Commissioner. The Authority shall determine whether the proposed cooperative agreement should be recommended for approval by the Commissioner within 75 days of the date the completed application for the proposed cooperative agreement is submitted for approval. The Authority may extend the review period for a specified period of time upon 15 days' notice to the parties.

E. 1. The Authority shall recommend for approval by the Commissioner a proposed cooperative agreement if it determines that the benefits likely to result from the proposed cooperative agreement outweigh the disadvantages likely to result from a reduction in competition from the proposed cooperative agreement.

2. In evaluating the potential benefits of a proposed cooperative agreement, the Authority shall consider whether one or more of the following benefits may result from the proposed cooperative agreement:

- a. Enhancement of the quality of hospital and hospital-related care, including mental health services and treatment of substance abuse, provided to citizens served by the Authority, resulting in improved patient satisfaction;
- b. Enhancement of population health status consistent with the regional health goals established by the Authority;
- c. Preservation of hospital facilities in geographical proximity to the communities traditionally served by those facilities to ensure access to care;
- d. Gains in the cost-efficiency of services provided by the hospitals involved;
- e. Improvements in the utilization of hospital resources and equipment;
- f. Avoidance of duplication of hospital resources;
- g. Participation in the state Medicaid program; and
- h. Total cost of care.

3. The Authority's evaluation of any disadvantages attributable to any reduction in competition likely to result from the proposed cooperative agreement shall include, but need not be limited to, the following factors:

- a. The extent of any likely adverse impact of the proposed cooperative agreement on the ability of health maintenance organizations, preferred provider organizations, managed health care organizations, or other health care payors to negotiate reasonable payment and service arrangements with hospitals, physicians, allied health care professionals, or other health care providers;
- b. The extent of any reduction in competition among physicians, allied health professionals, other health care providers, or other persons furnishing goods or services to, or in competition with, hospitals that is likely to result directly or indirectly from the proposed cooperative agreement;
- c. The extent of any likely adverse impact on patients in the quality, availability, and price of health care services; and
- d. The availability of arrangements that are less restrictive to competition and achieve the same benefits or a more favorable balance of benefits over disadvantages attributable to any reduction in competition likely to result from the proposed cooperative agreement.

F. 1. If the Authority deems that the proposed cooperative agreement should be recommended for approval, it shall provide such recommendation to the Commissioner.

2. Upon receipt of the Authority's recommendation, the Commissioner may request from the applicants such supplemental information as the Commissioner deems necessary to the assessment of whether to approve the proposed cooperative agreement. The Commissioner shall consult with the Attorney General regarding his assessment of whether to approve the proposed cooperative agreement. On the basis of his review of the record developed by the Authority, including the Authority's recommendation, as well as any additional information received from the applicants as well as any other data, information, or advice available to the Commissioner, the Commissioner shall approve the proposed cooperative agreement if he finds after considering the factors in subsection E that the benefits likely to result from the proposed cooperative agreement outweigh the disadvantages likely to result from a reduction in competition from the proposed cooperative agreement. The Commissioner shall issue his decision in writing within 45 days of receipt of the Authority's

recommendation. However, if the Commissioner has requested additional information from the applicants, the Commissioner shall have an additional 15 days, following receipt of the supplemental information, to approve or deny the proposed cooperative agreement. The Commissioner may reasonably condition approval of the proposed cooperative agreement upon the parties' commitments to achieving the improvements in population health, access to health care services, quality, and cost efficiencies identified by the parties in support of their application for approval of the proposed cooperative agreement. Such conditions shall be fully enforceable by the Commissioner. The Commissioner's decision to approve or deny an application shall constitute a case decision pursuant to the Virginia Administrative Process Act (§ 2.2-4000 et seq.).

G. If approved, the cooperative agreement is entrusted to the Commissioner for active and continuing supervision to ensure compliance with the provisions of the cooperative agreement. The parties to a cooperative agreement that has been approved by the Commissioner shall report annually to the Commissioner on the extent of the benefits realized and compliance with other terms and conditions of the approval. The report shall describe the activities conducted pursuant to the cooperative agreement, including any actions taken in furtherance of commitments made by the parties or terms imposed by the Commissioner as a condition for approval of the cooperative agreement, and shall include information relating to price, cost, quality, access to care, and population health improvement. The Commissioner may require the parties to a cooperative agreement to supplement such report with additional information to the extent necessary to the Commissioner's active and continuing supervision to ensure compliance with the cooperative agreement. The Commissioner shall have the authority to investigate as needed, including the authority to conduct onsite inspections, to ensure compliance with the cooperative agreement.

H. If the Commissioner has reason to believe that compliance with a cooperative agreement no longer meets the requirements of this chapter, the Commissioner shall initiate a proceeding to determine whether compliance with the cooperative agreement no longer meets the requirements of this chapter. In the course of such proceeding, the Commissioner is authorized to seek reasonable modifications to a cooperative agreement, with the consent of the parties to the agreement, in order to ensure that it continues to meet the requirements of this chapter. The Commissioner is authorized to revoke a cooperative agreement upon a finding that (i) the parties to the agreement are not complying with its terms or the conditions of approval; (ii) the agreement is not in substantial compliance with the terms of the application or the conditions of approval; (iii) the benefits resulting from the approved agreement no longer outweigh the disadvantages attributable to the reduction in competition resulting from the agreement; (iv) the Commissioner's approval was obtained as a result of intentional material misrepresentation to the Commissioner or as the result of coercion, threats, or intimidation toward any party to the cooperative agreement; or (v) the parties to the agreement have failed to pay any required fee. All proceedings initiated by the Commissioner under this chapter and any judicial review thereof shall be held in accordance with and governed by the Virginia Administrative Process Act (§ 2.2-4000 et seq.).

I. The Commissioner shall maintain on file all cooperative agreements that the Commissioner has approved, including any conditions imposed by the Commissioner. Any party to a cooperative agreement that terminates its participation in such cooperative agreement shall file a notice of termination with the Commissioner within 30 days after termination.

J. ~~The Commissioner shall be entitled to reimbursement from the parties seeking approval of a cooperative agreement for all reasonable and actual costs, not to exceed \$75,000, incurred by the Commissioner in his review and approval of any cooperative agreement approved pursuant to this chapter. In addition, the Commissioner may assess an annual fee, in an amount established by regulation promulgated by the State Board of Health that does not exceed \$75,000, for the supervision of any cooperative agreement approved pursuant to this chapter and to support the implementation and administration of the provisions of this chapter may contract with qualified experts and consultants that he deems necessary in his review of an application for approval of a cooperative agreement or supervision of a cooperative agreement.~~

*K. The Commissioner shall be entitled to reimbursement from applicants seeking approval of a cooperative agreement for all reasonable and actual costs incurred by the Commissioner in his review of the application for a cooperative agreement made pursuant to this chapter, including costs of experts and consultants retained by the Commissioner. The Commissioner shall incur only those costs necessary to adequately review the application as determined in his sole discretion. The Commissioner shall maintain detailed records of all costs incurred for which he seeks reimbursement from the applicant.*

*L. The Commissioner shall determine the activities needed to actively supervise the cooperative agreement and may incur only those expenses necessary for such supervision as determined in his sole discretion. ### CHAPTER 373

*An Act to amend and reenact § 54.1-3303 of the Code of Virginia, relating to prescribing controlled substances; veterinarian-client-patient relationship.*

[H 1303]

Approved March 19, 2018

**Be it enacted by the General Assembly of Virginia:**

**1. That § 54.1-3303 of the Code of Virginia is amended and reenacted as follows:**

**§ 54.1-3303. Prescriptions to be issued and drugs to be dispensed for medical or therapeutic purposes only.**

A. A prescription for a controlled substance may be issued only by a practitioner of medicine, osteopathy, podiatry, dentistry or veterinary medicine who is authorized to prescribe controlled substances, or by a licensed nurse practitioner pursuant to § 54.1-2957.01, a licensed physician assistant pursuant to § 54.1-2952.1, or a TPA-certified optometrist pursuant to Article 5 (§ 54.1-3222 et seq.) of Chapter 32. The prescription shall be issued for a medicinal or therapeutic purpose and may be issued only to persons or animals with whom the practitioner has a bona fide practitioner-patient relationship or veterinarian-client-patient relationship.

For purposes of this section, a bona fide practitioner-patient-pharmacist relationship is one in which a practitioner prescribes, and a pharmacist dispenses, controlled substances in good faith to his patient for a medicinal or therapeutic purpose within the course of his professional practice. In addition, a bona fide practitioner-patient relationship means that the practitioner shall (i) ensure that a medical or drug history is obtained; (ii) provide information to the patient about the benefits and risks of the drug being prescribed; (iii) perform or have performed an appropriate examination of the patient, either physically or by the use of instrumentation and diagnostic equipment through which images and medical records may be transmitted electronically; except for medical emergencies, the examination of the patient shall have been performed by the practitioner himself, within the group in which he practices, or by a consulting practitioner prior to issuing a prescription; and (iv) initiate additional interventions and follow-up care, if necessary, especially if a prescribed drug may have serious side effects. A practitioner who performs or has performed an appropriate examination of the patient required pursuant to clause (iii), either physically or by the use of instrumentation and diagnostic equipment through which images and medical records may be transmitted electronically, for the purpose of establishing a bona fide practitioner-patient relationship, may prescribe Schedule II through VI controlled substances to the patient, provided that the prescribing of such Schedule II through V controlled substance is in compliance with federal requirements for the practice of telemedicine.

For the purpose of prescribing a Schedule VI controlled substance to a patient via telemedicine services as defined in § 38.2-3418.16, a prescriber may establish a bona fide practitioner-patient relationship by an examination through face-to-face interactive, two-way, real-time communications services or store-and-forward technologies when all of the following conditions are met: (a) the patient has provided a medical history that is available for review by the prescriber; (b) the prescriber obtains an updated medical history at the time of prescribing; (c) the prescriber makes a diagnosis at the time of prescribing; (d) the prescriber conforms to the standard of care expected of in-person care as appropriate to the patient's age and presenting condition, including when the standard of care requires the use of diagnostic testing and performance of a physical examination, which may be carried out through the use of peripheral devices appropriate to the patient's condition; (e) the prescriber is actively licensed in the Commonwealth and authorized to prescribe; (f) if the patient is a member or enrollee of a health plan or carrier, the prescriber has been credentialed by the health plan or carrier as a participating provider and the diagnosing and prescribing meets the qualifications for reimbursement by the health plan or carrier pursuant to § 38.2-3418.16; and (g) upon request, the prescriber provides patient records in a timely manner in accordance with the provisions of § 32.1-127.1:03 and all other state and federal laws and regulations. Nothing in this paragraph shall permit a prescriber to establish a bona fide practitioner-patient relationship for the purpose of prescribing a Schedule VI controlled substance when the standard of care dictates that an in-person physical examination is necessary for diagnosis. Nothing in this paragraph shall apply to: (1) a prescriber providing on-call coverage per an agreement with another prescriber or his prescriber's professional entity or employer; (2) a prescriber consulting with another prescriber regarding a patient's care; or (3) orders of prescribers for hospital out-patients or in-patients.

*For purposes of this section, a bona fide veterinarian-client-patient relationship is one in which a veterinarian, another veterinarian within the group in which he practices, or a veterinarian with whom he is consulting has assumed the responsibility for making medical judgments regarding the health of and providing medical treatment to an animal as defined in § 3.2-6500, other than an equine as defined in § 3.2-6200, a group of agricultural animals as defined in § 3.2-6500, or bees as defined in § 3.2-4400, and a client who is the owner or other caretaker of the animal, group of agricultural animals, or bees has consented to such treatment and agreed to follow the instructions of the veterinarian. Evidence that a veterinarian has assumed responsibility for making medical judgments regarding the health of and providing medical treatment to an animal, group of agricultural animals, or bees shall include evidence that the*

*veterinarian (A) has sufficient knowledge of the animal, group of agricultural animals, or bees to provide a general or preliminary diagnosis of the medical condition of the animal, group of agricultural animals, or bees; (B) has made an examination of the animal, group of agricultural animals, or bees, either physically or by the use of instrumentation and diagnostic equipment through which images and medical records may be transmitted electronically or has become familiar with the care and keeping of that species of animal or bee on the premises of the client, including other premises within the same operation or production system of the client, through medically appropriate and timely visits to the premises at which the animal, group of agricultural animals, or bees are kept; and (C) is available to provide follow-up care.*

Any practitioner who prescribes any controlled substance with the knowledge that the controlled substance will be used otherwise than medicinally or for therapeutic purposes shall be subject to the criminal penalties provided in § 18.2-248 for violations of the provisions of law relating to the distribution or possession of controlled substances.

B. In order to determine whether a prescription that appears questionable to the pharmacist results from a bona fide practitioner-patient relationship, the pharmacist shall contact the prescribing practitioner or his agent and verify the identity of the patient and name and quantity of the drug prescribed. The person knowingly filling an invalid prescription shall be subject to the criminal penalties provided in § 18.2-248 for violations of the provisions of law relating to the sale, distribution or possession of controlled substances.

No prescription shall be filled unless there is a bona fide practitioner-patient-pharmacist relationship. A prescription not issued in the usual course of treatment or for authorized research is not a valid prescription.

C. Notwithstanding any provision of law to the contrary and consistent with recommendations of the Centers for Disease Control and Prevention or the Department of Health, a practitioner may prescribe Schedule VI antibiotics and antiviral agents to other persons in close contact with a diagnosed patient when (i) the practitioner meets all requirements of a bona fide practitioner-patient relationship, as defined in subsection A, with the diagnosed patient; (ii) in the practitioner's professional judgment, the practitioner deems there is urgency to begin treatment to prevent the transmission of a communicable disease; (iii) the practitioner has met all requirements of a bona fide practitioner-patient relationship, as defined in subsection A, for the close contact except for the physical examination required in clause (iii) of subsection A; and (iv) when such emergency treatment is necessary to prevent imminent risk of death, life-threatening illness, or serious disability.

D. A pharmacist may dispense a controlled substance pursuant to a prescription of an out-of-state practitioner of medicine, osteopathy, podiatry, dentistry, optometry, or veterinary medicine, a nurse practitioner, or a physician assistant authorized to issue such prescription if the prescription complies with the requirements of this chapter and the Drug Control Act (§ 54.1-3400 et seq.).

E. A licensed nurse practitioner who is authorized to prescribe controlled substances pursuant to § 54.1-2957.01 may issue prescriptions or provide manufacturers' professional samples for controlled substances and devices as set forth in the Drug Control Act (§ 54.1-3400 et seq.) in good faith to his patient for a medicinal or therapeutic purpose within the scope of his professional practice.

F. A licensed physician assistant who is authorized to prescribe controlled substances pursuant to § 54.1-2952.1 may issue prescriptions or provide manufacturers' professional samples for controlled substances and devices as set forth in the Drug Control Act (§ 54.1-3400 et seq.) in good faith to his patient for a medicinal or therapeutic purpose within the scope of his professional practice.

G. A TPA-certified optometrist who is authorized to prescribe controlled substances pursuant to Article 5 (§ 54.1-3222 et seq.) of Chapter 32 may issue prescriptions in good faith or provide manufacturers' professional samples to his patients for medicinal or therapeutic purposes within the scope of his professional practice for the drugs specified on the TPA-Formulary, established pursuant to § 54.1-3223, which shall be limited to (i) analgesics included on Schedule II controlled substances as defined in § 54.1-3448 of the Drug Control Act (§ 54.1-3400 et seq.) consisting of hydrocodone in combination with acetaminophen; (ii) oral analgesics included in Schedules III through VI, as defined in §§ 54.1-3450 and 54.1-3455 of the Drug Control Act (§ 54.1-3400 et seq.), which are appropriate to relieve ocular pain; (iii) other oral Schedule VI controlled substances, as defined in § 54.1-3455 of the Drug Control Act, appropriate to treat diseases and abnormal conditions of the human eye and its adnexa; (iv) topically applied Schedule VI drugs, as defined in § 54.1-3455 of the Drug Control Act; and (v) intramuscular administration of epinephrine for treatment of emergency cases of anaphylactic shock.

H. The requirement for a bona fide practitioner-patient relationship shall be deemed to be satisfied by a member or committee of a hospital's medical staff when approving a standing order or protocol for the administration of influenza vaccinations and pneumococcal vaccinations in a hospital in compliance with § 32.1-126.4.

**CHAPTER 380**

*An Act to amend and reenact § 54.1-3303 of the Code of Virginia, relating to a protocol for prescription refills.*

[S 882]

Approved March 19, 2018

**Be it enacted by the General Assembly of Virginia:**

**1. That § 54.1-3303 of the Code of Virginia is amended and reenacted as follows:**

**§ 54.1-3303. Prescriptions to be issued and drugs to be dispensed for medical or therapeutic purposes only.**

A. A prescription for a controlled substance may be issued only by a practitioner of medicine, osteopathy, podiatry, dentistry or veterinary medicine who is authorized to prescribe controlled substances, or by a licensed nurse practitioner pursuant to § 54.1-2957.01, a licensed physician assistant pursuant to § 54.1-2952.1, or a TPA-certified optometrist pursuant to Article 5 (§ 54.1-3222 et seq.) of Chapter 32. The prescription shall be issued for a medicinal or therapeutic purpose and may be issued only to persons or animals with whom the practitioner has a bona fide practitioner-patient relationship.

For purposes of this section, a bona fide practitioner-patient-pharmacist relationship is one in which a practitioner prescribes, and a pharmacist dispenses, controlled substances in good faith to his patient for a medicinal or therapeutic purpose within the course of his professional practice. In addition, a bona fide practitioner-patient relationship means that the practitioner shall (i) ensure that a medical or drug history is obtained; (ii) provide information to the patient about the benefits and risks of the drug being prescribed; (iii) perform or have performed an appropriate examination of the patient, either physically or by the use of instrumentation and diagnostic equipment through which images and medical records may be transmitted electronically; except for medical emergencies, the examination of the patient shall have been performed by the practitioner himself, within the group in which he practices, or by a consulting practitioner prior to issuing a prescription; and (iv) initiate additional interventions and follow-up care, if necessary, especially if a prescribed drug may have serious side effects. A practitioner who performs or has performed an appropriate examination of the patient required pursuant to clause (iii), either physically or by the use of instrumentation and diagnostic equipment through which images and medical records may be transmitted electronically, for the purpose of establishing a bona fide practitioner-patient relationship, may prescribe Schedule II through VI controlled substances to the patient, provided that the prescribing of such Schedule II through V controlled substance is in compliance with federal requirements for the practice of telemedicine.

For the purpose of prescribing a Schedule VI controlled substance to a patient via telemedicine services as defined in § 38.2-3418.16, a prescriber may establish a bona fide practitioner-patient relationship by an examination through

face-to-face interactive, two-way, real-time communications services or store-and-forward technologies when all of the following conditions are met: (a) the patient has provided a medical history that is available for review by the prescriber; (b) the prescriber obtains an updated medical history at the time of prescribing; (c) the prescriber makes a diagnosis at the time of prescribing; (d) the prescriber conforms to the standard of care expected of in-person care as appropriate to the patient's age and presenting condition, including when the standard of care requires the use of diagnostic testing and performance of a physical examination, which may be carried out through the use of peripheral devices appropriate to the patient's condition; (e) the prescriber is actively licensed in the Commonwealth and authorized to prescribe; (f) if the patient is a member or enrollee of a health plan or carrier, the prescriber has been credentialed by the health plan or carrier as a participating provider and the diagnosing and prescribing meets the qualifications for reimbursement by the health plan or carrier pursuant to § 38.2-3418.16; and (g) upon request, the prescriber provides patient records in a timely manner in accordance with the provisions of § 32.1-127.1:03 and all other state and federal laws and regulations. Nothing in this paragraph shall permit a prescriber to establish a bona fide practitioner-patient relationship for the purpose of prescribing a Schedule VI controlled substance when the standard of care dictates that an in-person physical examination is necessary for diagnosis. Nothing in this paragraph shall apply to: (1) a prescriber providing on-call coverage per an agreement with another prescriber or his prescriber's professional entity or employer; (2) a prescriber consulting with another prescriber regarding a patient's care; or (3) orders of prescribers for hospital out-patients or in-patients.

Any practitioner who prescribes any controlled substance with the knowledge that the controlled substance will be used otherwise than medically or for therapeutic purposes shall be subject to the criminal penalties provided in § 18.2-248 for violations of the provisions of law relating to the distribution or possession of controlled substances.

B. In order to determine whether a prescription that appears questionable to the pharmacist results from a bona fide practitioner-patient relationship, the pharmacist shall contact the prescribing practitioner or his agent and verify the identity of the patient and name and quantity of the drug prescribed. The person knowingly filling an invalid prescription shall be subject to the criminal penalties provided in § 18.2-248 for violations of the provisions of law relating to the sale, distribution or possession of controlled substances.

No prescription shall be filled unless there is a bona fide practitioner-patient-pharmacist relationship. A prescription not issued in the usual course of treatment or for authorized research is not a valid prescription.

C. Notwithstanding any provision of law to the contrary and consistent with recommendations of the Centers for Disease Control and Prevention or the Department of Health, a practitioner may prescribe Schedule VI antibiotics and antiviral agents to other persons in close contact with a diagnosed patient when (i) the practitioner meets all requirements of a bona fide practitioner-patient relationship, as defined in subsection A, with the diagnosed patient; (ii) in the practitioner's professional judgment, the practitioner deems there is urgency to begin treatment to prevent the transmission of a communicable disease; (iii) the practitioner has met all requirements of a bona fide practitioner-patient relationship, as defined in subsection A, for the close contact except for the physical examination required in clause (iii) of subsection A; and (iv) when such emergency treatment is necessary to prevent imminent risk of death, life-threatening illness, or serious disability.

D. A pharmacist may dispense a controlled substance pursuant to a prescription of an out-of-state practitioner of medicine, osteopathy, podiatry, dentistry, optometry, or veterinary medicine, a nurse practitioner, or a physician assistant authorized to issue such prescription if the prescription complies with the requirements of this chapter and the Drug Control Act (§ 54.1-3400 et seq.).

E. A licensed nurse practitioner who is authorized to prescribe controlled substances pursuant to § 54.1-2957.01 may issue prescriptions or provide manufacturers' professional samples for controlled substances and devices as set forth in the Drug Control Act (§ 54.1-3400 et seq.) in good faith to his patient for a medicinal or therapeutic purpose within the scope of his professional practice.

F. A licensed physician assistant who is authorized to prescribe controlled substances pursuant to § 54.1-2952.1 may issue prescriptions or provide manufacturers' professional samples for controlled substances and devices as set forth in the Drug Control Act (§ 54.1-3400 et seq.) in good faith to his patient for a medicinal or therapeutic purpose within the scope of his professional practice.

G. A TPA-certified optometrist who is authorized to prescribe controlled substances pursuant to Article 5 (§ 54.1-3222 et seq.) of Chapter 32 may issue prescriptions in good faith or provide manufacturers' professional samples to his patients for medicinal or therapeutic purposes within the scope of his professional practice for the drugs specified on the TPA-Formulary, established pursuant to § 54.1-3223, which shall be limited to (i) analgesics included on Schedule II controlled substances as defined in § 54.1-3448 of the Drug Control Act (§ 54.1-3400 et seq.) consisting of hydrocodone in combination with acetaminophen; (ii) oral analgesics included in Schedules III through VI, as defined in §§ 54.1-3450 and 54.1-3455 of the Drug Control Act (§ 54.1-3400 et seq.), which are appropriate to relieve ocular pain; (iii) other oral Schedule VI controlled substances, as defined in § 54.1-3455 of the Drug Control Act, appropriate to treat diseases and abnormal conditions of the human eye and its adnexa; (iv) topically applied Schedule VI drugs, as defined in § 54.1-3455 of the Drug Control Act; and (v) intramuscular administration of epinephrine for treatment of emergency cases of anaphylactic shock.

H. The requirement for a bona fide practitioner-patient relationship shall be deemed to be satisfied by a member or committee of a hospital's medical staff when approving a standing order or protocol for the administration of influenza vaccinations and pneumococcal vaccinations in a hospital in compliance with § 32.1-126.4.

*I. Notwithstanding any other provision of law, a prescriber may authorize a registered nurse or licensed practical nurse to approve additional refills of a prescribed drug for no more than 90 consecutive days, provided that (i) the drug is classified as a Schedule VI drug; (ii) there are no changes in the prescribed drug, strength, or dosage; (iii) the prescriber has a current written protocol, accessible by the nurse, that identifies the conditions under which the nurse may approve additional refills; and (iv) the nurse documents in the patient's chart any refills authorized for a specific patient pursuant to the protocol and the additional refills are transmitted to a pharmacist in accordance with the allowances for an authorized agent to transmit a prescription orally or by facsimile pursuant to subsection C of § 54.1-3408.01 and regulations of the Board.*

*An Act to amend and reenact §§ 22.1-3, 22.1-3.1, and 22.1-270 of the Code of Virginia, relating to public schools; homeless children.*

[S 961]

Approved March 19, 2018

**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 22.1-3, 22.1-3.1, and 22.1-270 of the Code of Virginia are amended and reenacted as follows:**

**§ 22.1-3. Persons to whom public schools shall be free.**

A. The public schools in each school division shall be free to each person of school age who resides within the school division. Every person of school age shall be deemed to reside in a school division:

1. When the person is living with a natural parent or a parent by legal adoption;
2. When, in accordance with the provisions of § 22.1-360, the person is living with a noncustodial parent or other person standing in loco parentis, not solely for school purposes, pursuant to a Special Power of Attorney executed under 10 U.S.C. § 1044b by the custodial parent;
3. When the parents of such person are dead and the person is living with a person in loco parentis who actually resides within the school division;
4. When the parents of such person are unable to care for the person and the person is living, not solely for school purposes, with another person who resides in the school division and is (i) the court-appointed guardian, or has legal custody, of the person; (ii) acting in loco parentis pursuant to placement of the person for adoption by a person or entity authorized to do so under § 63.2-1200; or (iii) an adult relative providing temporary kinship care as that term is defined in § 63.2-100. Local school divisions may require one or both parents and the relative providing kinship care to submit signed, notarized affidavits (a) explaining why the parents are unable to care for the person, (b) detailing the kinship care arrangement, and (c) agreeing that the kinship care provider or the parent will notify the school within 30 days of when the kinship care arrangement ends, as well as a power of attorney authorizing the adult relative to make educational decisions regarding the person. A school division may also require the parent or adult relative to obtain written verification from the local department of social services where the parent or parents live, or from both that department and the department of social services where the kinship provider lives, that the kinship arrangement serves a legitimate purpose that is in the best interest of the person other than school enrollment. With written consent from the parent or adult relative, for the purposes of expediting enrollment, a school division may obtain such written verification directly from the local department or departments of social services. The verification process shall be consistent with confidentiality provisions of Article 5 (§ 22.1-287 et seq.) of Chapter 14 of this title and Chapter 1 (§ 63.2-100 et seq.) of Title 63.2. If the kinship care arrangement lasts more than one year, a school division may require continued verification directly from one or both departments of social services as to why the parents are unable to care for the person and that the kinship care arrangement serves a legitimate purpose other than school enrollment. A local school division may enroll a person living with a relative in a kinship care arrangement that has not been verified by a local department of social services;
5. When the person is living in the school division not solely for school purposes, as an emancipated minor; or
6. When the person living in the school division is a homeless child or youth, as set forth in this subdivision, who lacks a fixed, regular, and adequate nighttime residence. Such persons shall include (i) children and youths, including unaccompanied youths who are not in the physical custody of their parents, who (a) are sharing the housing of other persons

due to loss of housing, economic hardship, or ~~other causes a similar reason~~; are living in motels, hotels, trailer parks, or camping grounds due to lack of alternative adequate accommodations or in emergency; ~~congregate, temporary, or transitional shelters; or are abandoned in hospitals; or are awaiting foster care placement;~~ (b) are living in an institution that provides a temporary residence for individuals with mental illness or individuals intended to be institutionalized; (c) have a primary nighttime residence that is a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings; or ~~(d)~~ (c) are living in parked cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and (ii) migratory children, as defined in the federal Elementary and Secondary Education Act of 1965, P.L. 89-10, as amended, who are deemed homeless as they are living in circumstances set forth in clause (i).

For purposes of clause (i) of subdivision 6, "temporary shelter" means (1) any home, single or multi-unit dwelling, or housing unit in which persons who are without housing or a fixed address receive temporary housing or shelter or (2) any facility specifically designed or approved for the purpose of providing temporary housing or shelter to persons who are without permanent housing or a fixed address.

If a person resides within housing, temporary shelter, or primary nighttime residence as described in subdivision 6 that is situated in more than one school division, the person shall be deemed to reside in and shall be entitled to attend a public school within either school division. However, if a person resides in housing, temporary shelter, or primary nighttime residence as described in subdivision 6 that is located in one school division, but the property on which such housing, temporary shelter, or primary nighttime residence is located lies within more than one school division, such person shall be deemed to reside only in the single school division in which the housing, temporary shelter, or primary nighttime residence is located. Notwithstanding any such residency determination, any person residing in housing, a temporary shelter, or primary nighttime residence as described in subdivision 6 that is located in one school division, but the property on which such housing, temporary shelter, or primary nighttime residence is located lies within more than one school division, shall be deemed to reside in either school division, if such person or any sibling of such person residing in the same housing or temporary shelter attends, prior to July 1, 1999, or, in the case of a primary nighttime residence as described in subdivision 6, prior to July 1, 2000, a school within either school division in which the property on which the housing, temporary shelter, or primary nighttime residence is located.

School divisions shall comply with the requirements of *Subtitle VII-B* of the federal McKinney-Vento Homeless Education Assistance Improvements Act of 2001, as amended (42 U.S.C. § 11431 et seq.), to ensure that homeless children and youths shall receive the educational services comparable to those offered to other public school students.

School divisions serving the students identified in subdivision 6 shall coordinate the identification and provision of services to such students with relevant local social services agencies and other agencies and programs providing services to such students, and with other school divisions as may be necessary to resolve interdivisional issues.

B. In the interest of providing educational continuity to the children of military personnel, no child of a person on active military duty attending a school free of charge in accordance with this section shall be charged tuition by that school division upon such child's relocation to military housing located in another school division in the Commonwealth, pursuant to orders received by such child's parent to relocate to base housing and forfeit his military housing allowance. Such children shall be allowed to continue attending school in the school division they attended immediately prior to the relocation and shall not be charged tuition for attending such school. Such children shall be counted in the average daily membership of the school division in which they are enrolled. Further, the school division in which such children are enrolled subsequent to their relocation to base housing shall not be responsible for providing for their transportation to and from school.

#### § 22.1-3.1. Birth certificates required upon admission; required notice to the local law-enforcement agency.

A. Except as otherwise provided in this subsection, no pupil shall be admitted for the first time to any public school in any school division in this Commonwealth unless the person enrolling the pupil shall present, upon admission, a certified copy of the pupil's birth record. The principal or his designee shall record the official state birth number from the pupil's birth record into the pupil's permanent school record and may retain a copy in the pupil's permanent school record. If a certified copy of the pupil's birth record cannot be obtained, the person so enrolling the pupil shall submit an affidavit setting forth the pupil's age and explaining the inability to present a certified copy of the birth record. If the school division cannot ascertain a child's age because of the lack of a birth certificate, the child shall nonetheless be admitted into the public schools if the division superintendent determines that the person submitting the affidavit presents information sufficient to estimate with reasonable certainty the age of such child.

However, if the student seeking enrollment is a homeless child or youth as defined in § 22.1-3, the school shall immediately enroll such student, even if such student is unable to produce the records required for enrollment, and shall immediately contact the school last attended by the student to obtain relevant academic and other records, and shall comply with the provisions of *Subtitle VII-B* of the federal McKinney-Vento Homeless Education Assistance Improvements Act of 2001, as amended (42 U.S.C. § 11431 et seq.), including immediately referring the parent of the student or the youth to the local school division liaison, as described in the federal Act, who shall assist in obtaining the necessary records for enrollment.

B. Upon the failure of any person enrolling a pupil to present a certified copy of the pupil's birth record, the principal of the school in which the pupil is being enrolled or his designee shall immediately notify the local law-enforcement agency.

The notice to the local law-enforcement agency shall include copies of the submitted proof of the pupil's identity and age and the affidavit explaining the inability to produce a certified copy of the birth record.

C. Within 14 days after enrolling a transferred pupil, the principal of the school in which the pupil has been enrolled or his designee shall request that the principal or his designee of the school in which the pupil was previously enrolled submit documentation that a certified copy of the pupil's birth record was presented upon the pupil's initial enrollment.

D. Principals and their designees shall be immune from any civil or criminal liability in connection with any notice to a local law-enforcement agency of a pupil lacking a birth certificate or failure to give such notice as required by this section.

**§ 22.1-270. Preschool physical examinations.**

A. No pupil shall be admitted for the first time to any public kindergarten or elementary school in a school division unless such pupil shall furnish, prior to admission, (i) a report from a qualified licensed physician, or a licensed nurse practitioner or licensed physician assistant acting under the supervision of a licensed physician, of a comprehensive physical examination of a scope prescribed by the State Health Commissioner performed within the 12 months prior to the date such pupil first enters such public kindergarten or elementary school or (ii) records establishing that such pupil furnished such report upon prior admission to another school or school division and providing the information contained in such report.

If the pupil is a homeless child or youth as defined in *subdivision A 6 of § 22.1-3*, and for that reason cannot furnish the report or records required by (i) or (ii) of this subsection, and the person seeking to enroll the pupil furnishes to the school division an affidavit so stating and also indicating that, to the best of his knowledge, such pupil is in good health and free from any communicable or contagious disease, the school division shall immediately refer the student to the local school division liaison, as described in *Subtitle VII-B of the federal McKinney-Vento Homeless Education Assistance Improvements Act of 2001*, as amended (42 U.S.C. § 11431 et seq.) (the Act), who shall, as soon as practicable, assist in obtaining the necessary physical examination by the county or city health department or other clinic or physician's office and shall immediately admit the pupil to school, as required by such Act.

B. The physician, or licensed nurse practitioner or licensed physician assistant acting under the supervision of a licensed physician, making a report of a physical examination required by this section shall, at the end of such report, summarize the abnormal physical findings, if any, and shall specifically state what, if any, conditions are found that would identify the child as handicapped.

C. Such physical examination report shall be placed in the child's health record at the school and shall be made available for review by any employee or official of the State Department of Health or any local health department at the request of such employee or official.

D. Such physical examination shall not be required of any child whose parent shall object on religious grounds and who shows no visual evidence of sickness, provided that such parent shall state in writing that, to the best of his knowledge, such child is in good health and free from any communicable or contagious disease.

E. The health departments of all of the counties and cities of the Commonwealth shall conduct such physical examinations for medically indigent children without charge upon request and may provide such examinations to others on such uniform basis as such departments may establish.

F. Parents of entering students shall complete a health information form which shall be distributed by the local school divisions. Such forms shall be developed and provided jointly by the Department of Education and Department of Health, or developed and provided by the school division and approved by the Superintendent of Public Instruction. Such forms shall be returnable within 15 days of receipt unless reasonable extensions have been granted by the superintendent or his designee. Upon failure of the parent to complete such form within the extended time, the superintendent may send to the parent written notice of the date he intends to exclude the child from school; however, no child who is a homeless child or youth as defined in *subdivision A 6 of § 22.1-3* shall be excluded from school for such failure to complete such form.

[H 494]

Approved March 23, 2018

**Be it enacted by the General Assembly of Virginia:**

**1. That § 15.2-961 of the Code of Virginia is amended and reenacted as follows:**

**§ 15.2-961. Replacement of trees during development process in certain localities.**

A. Any locality with a population density of at least 75 persons per square mile *or any locality within the Chesapeake Bay watershed* may adopt an ordinance providing for the planting and replacement of trees during the development process pursuant to the provisions of this section. Population density shall be based upon the latest population estimates of the Cooper Center for Public Service of the University of Virginia.

B. The ordinance shall require that the site plan for any subdivision or development include the planting or replacement of trees on the site to the extent that, at 20 years, minimum tree canopies or covers will be provided in areas to be designated in the ordinance, as follows:

1. Ten percent tree canopy for a site zoned business, commercial, or industrial;
2. Ten percent tree canopy for a residential site zoned 20 or more units per acre;
3. Fifteen percent tree canopy for a residential site zoned more than 10 but less than 20 units per acre; *and*
4. Twenty percent tree canopy for a residential site zoned 10 units or less per acre; ~~and~~

~~5. Ten percent tree canopy for a cemetery as defined in § 54.1-2310, notwithstanding any other provision of this subsection.~~

However, the City of Williamsburg may require at 10 years the minimum tree canopies or covers set out above.

*C. The ordinance shall require that the site plan for any subdivision or development include, at 20 years, that a minimum 10 percent tree canopy will be provided on the site of any cemetery as defined in § 54.1-2310, notwithstanding any other provision of this section. In no event shall any local tree replacement or planting ordinance adopted pursuant to this section exceed the requirements of this subsection.*

D. The ordinance shall provide for reasonable provisions for reducing the tree canopy requirements or granting tree cover credit in consideration of the preservation of existing tree cover or for preservation of trees of outstanding age, size or physical characteristics.

~~E. The ordinance shall provide for reasonable exceptions to or deviations from these requirements to allow for the reasonable development of farm land or other areas devoid of healthy or suitable woody materials, for the preservation of wetlands, or otherwise when the strict application of the requirements would result in unnecessary or unreasonable hardship to the developer. In such instances, the ordinance may provide for a tree canopy bank whereby a portion of a development's tree canopy requirement may be met from off-site planting or replacement of trees at the direction of the locality. The following shall be exempt from the requirements of any tree replacement or planting ordinance promulgated under this section: dedicated school sites, playing fields and other nonwooded recreation areas, and other facilities and uses of a similar nature.~~

~~F. The ordinance may designate tree species that cannot be planted to meet minimum tree canopy requirements due to tendencies of such species to (i) negatively impact native plant communities, (ii) cause damage to nearby structures and infrastructure, or (iii) possess inherent physiological traits that cause such trees to structurally fail. All trees to be planted shall meet the specifications of the American Association of Nurserymen *AmericanHort*. The planting of trees shall be done in accordance with either the standardized landscape specifications jointly adopted by the Virginia Nurserymen's Virginia Nursery and Landscape Association, the Virginia Society of Landscape Designers and the Virginia Chapter of the American Society of Landscape Architects, or the road and bridge specifications of the Virginia Department of Transportation.~~

~~G. Existing trees which are to be preserved may be included to meet all or part of the canopy requirements, and may include wooded preserves, if the site plan identifies such trees and the trees meet standards of desirability and life-year expectancy which the locality may establish.~~

~~H. For purposes of this section:~~

~~"Tree canopy" or "tree cover" includes all areas of coverage by plant material exceeding five feet in height, and the extent of planted tree canopy at 10 or 20 years maturity. Planted canopy at 10 or 20 years maturity shall be based on published reference texts generally accepted by landscape architects, nurserymen, and arborists in the community, and the texts shall be specified in the ordinance.~~

~~I. Penalties for violations of ordinances adopted pursuant to this section shall be the same as those applicable to violations of zoning ordinances of the locality.~~

~~J. In no event shall any local tree replacement or planting ordinance adopted pursuant to this section exceed the requirements set forth herein.~~

~~K. Nothing in this section shall invalidate any local ordinance adopted pursuant to the provisions of this section prior to July 1, 1990, which imposes standards for tree replacement or planting during the development process.~~

~~L. Nothing in this section shall invalidate any local ordinance adopted by the City of Williamsburg that imposes standards for 10-year-minimum tree cover replacement or planting during the development process.~~

**Be it enacted by the General Assembly of Virginia:**

**1. That § 19.2-56 of the Code of Virginia is amended and reenacted as follows:**

**§ 19.2-56. To whom search warrant directed; what it shall command; warrant to show date and time of issuance; copy of affidavit to be part of warrant and served therewith; warrants not executed within 15 days.**

The judge, magistrate or other official authorized to issue criminal warrants, shall issue a search warrant if he finds from the facts or circumstances recited in the affidavit that there is probable cause for the issuance thereof.

Every search warrant shall be directed to (i) the sheriff, sergeant, or any policeman of the county, city or town in which the place to be searched is located, (ii) any law-enforcement officer or agent employed by the Commonwealth and vested with the powers of sheriffs and police, or (iii) jointly to any such sheriff, sergeant, policeman or law-enforcement officer or agent and an agent, special agent or officer of the Federal Bureau of Investigation, the Bureau of Alcohol, Tobacco and Firearms of the United States Treasury, the United States Naval Criminal Investigative Service, the United States Postal Department of Homeland Security, any inspector, law-enforcement official or police personnel of the United States Postal Service, or the Drug Enforcement Administration. The warrant shall command that the place be forthwith searched, either in day or night, and that the objects or persons described in the warrant, if found there, be seized. An inventory shall be produced before a court having jurisdiction of the offense or over the person to be arrested for whom a warrant or process for arrest has been issued in relation to which the warrant was issued as provided in § 19.2-57.

Any such warrant as provided in this section shall be executed by the policeman or other law-enforcement officer or agent into whose hands it shall come or be delivered. If the warrant is directed jointly to a sheriff, sergeant, policeman or law-enforcement officer or agent of the Commonwealth and a federal agent or officer as otherwise provided in this section, the warrant may be executed jointly or by the policeman, law-enforcement officer or agent into whose hands it is delivered. No other person may be permitted to be present during or participate in the execution of a warrant to search a place except (1) the owners and occupants of the place to be searched when permitted to be present by the officer in charge of the conduct of the search and (2) persons designated by the officer in charge of the conduct of the search to assist or provide expertise in the conduct of the search.

Any search warrant for records or other information pertaining to a subscriber to, or customer of, an electronic communication service or remote computing service, whether a domestic corporation or foreign corporation, that is transacting or has transacted any business in the Commonwealth, to be executed upon such service provider may be executed within or ~~without~~ outside the Commonwealth by hand, United States mail, commercial delivery service, facsimile, or other electronic means upon the service provider. Notwithstanding the provisions of § 19.2-57, the officer executing a warrant pursuant to this paragraph shall endorse the date of execution thereon and shall file the warrant, with the inventory attached (or a notation that no property was seized) and the accompanying affidavit, unless such affidavit was made by voice or videotape recording, within three days after the materials ordered to be produced are received by the officer from the service provider. The return shall be made in the circuit court clerk's office for the jurisdiction wherein the warrant was (A) *executed, if executed within the Commonwealth, and a copy of the return shall also be delivered to the clerk of the circuit court of the county or city where the warrant was issued; or (B) issued, if executed outside the Commonwealth.* Saturdays, Sundays, or any federal or state legal holiday shall not be used in computing the three-day filing period.

Electronic communication service or remote computing service providers, whether a foreign or domestic corporation, shall also provide the contents of electronic communications pursuant to a search warrant issued under this section and § 19.2-70.3 using the same process described in the preceding paragraph.

Notwithstanding the provisions of § 19.2-57, any search warrant for records or other information pertaining to a customer of a financial institution as defined in § 6.2-604, money transmitter as defined in § 6.2-1900, commercial business providing credit history or credit reports, or issuer as defined in § 6.2-424 may be executed within the Commonwealth by hand, United States mail, commercial delivery service, facsimile, or other electronic means upon the financial institution, money transmitter, commercial business providing credit history or credit reports, or issuer. The officer executing such warrant shall endorse the date of execution thereon and shall file the warrant, with the inventory attached (or a notation that no property was seized) and the accompanying affidavit, unless such affidavit was made by voice or videotape recording, within three days after the materials ordered to be produced are received by the officer from the financial institution, money transmitter, commercial business providing credit history or credit reports, or issuer. The return shall be made in the circuit court clerk's office for the jurisdiction wherein the warrant was executed. Saturdays, Sundays, or any federal or state legal holiday shall not be used in computing the three-day filing period. For the purposes of this section, the warrant will be considered executed in the jurisdiction where the entity on which the warrant is served is located.

Every search warrant shall contain the date and time it was issued. However, the failure of any such search warrant to contain the date and time it was issued shall not render the warrant void, provided that the date and time of issuing of said warrant is established by competent evidence.

The judge, magistrate, or other official authorized to issue criminal warrants shall attach a copy of the affidavit required by § 19.2-54, which shall become a part of the search warrant and served therewith. However, this provision shall not be applicable in any case in which the affidavit is made by means of a voice or videotape recording or where the affidavit has been sealed pursuant to § 19.2-54.

Any search warrant not executed within 15 days after issuance thereof shall be returned to, and voided by, the officer who issued such search warrant.

For the purposes of this section:

"Foreign corporation" means any corporation or other entity, whose primary place of business is located outside of the boundaries of the Commonwealth, that makes a contract or engages in a terms of service agreement with a resident of the Commonwealth to be performed in whole or in part by either party in the Commonwealth, or a corporation that has been issued a certificate of authority pursuant to § 13.1-759 to transact business in the Commonwealth. The making of the contract or terms of service agreement or the issuance of a certificate of authority shall be considered to be the agreement of the foreign corporation or entity that a search warrant or subpoena, which has been properly served on it, has the same legal force and effect as if served personally within the Commonwealth.

"Properly served" means delivery of a search warrant or subpoena by hand, by United States mail, by commercial delivery service, by facsimile or by any other manner to any officer of a corporation or its general manager in the Commonwealth, to any natural person designated by it as agent for the service of process, or if such corporation has designated a corporate agent, to any person named in the latest annual report filed pursuant to § 13.1-775.

Such written authorization, if required, shall be in addition to any written contract between the towing and recovery operator and the owner of the property or his agent, except for vehicles being towed from a locality within Planning District 8 or Planning District 16, which shall not require written authorization if such written contract is in place. Any such written contract governing a property located within Planning District 8 or Planning District 16 shall clearly state the terms on which towing and recovery operators may monitor private lots on behalf of property owners. The locality may impose and collect reasonable fees for the issuance and administration of permits as provided for in this subsection. Such ordinance may also provide grounds for revocation, suspension, or modification of any permit issued under this subsection, subject to notice to the permittee of the revocation, suspension, or modification and an opportunity for the permittee to have a hearing before the governing body of the locality or its designated agent to challenge the revocation, suspension, or modification. **Be it enacted by the General Assembly of Virginia:**

**1. That §§ 62.1-44.15:6, 62.1-266, and 62.1-267 of the Code of Virginia are amended and reenacted as follows:**

**§ 62.1-44.15:6. Permit fee regulations.**

A. The Board shall promulgate regulations establishing a fee assessment and collection system to recover a portion of the State Water Control Board's, the Department of Game and Inland Fisheries' and the Department of Conservation and Recreation's direct and indirect costs associated with the processing of an application to issue, reissue, amend or modify any permit or certificate, which the Board has authority to issue under this chapter and Chapters 24 (§ 62.1-242 et seq.) and 25 (§ 62.1-254 et seq.) of this title, from the applicant for such permit or certificate for the purpose of more efficiently and expeditiously processing permits. The fees shall be exempt from statewide indirect costs charged and collected by the Department of Accounts. The Board shall have no authority to charge such fees where the authority to issue such permits has been delegated to another agency that imposes permit fees.

B1. Permit fees charged an applicant for a Virginia Pollutant Discharge Elimination System permit or a Virginia Pollution Abatement permit shall reflect the average time and complexity of processing a permit in each of the various categories of permits and permit actions. For the purpose of this subdivision, "minor modifications" or "minor amendments" means specific types of changes defined by the Board that are made to keep the permit current with routine changes to the facility or its operation that do not require extensive review. A minor permit modification or amendment does not substantially alter permit conditions, increase the size of the operation, or reduce the capacity of the facility to protect human health or the environment.

B2. Each permitted facility shall pay a permit maintenance fee to the Board by October 1 of each year, not to exceed the following amounts:

For the purpose of this subdivision, "minor modifications" or "minor amendments" means specific types of changes defined by the Board that are made to keep the permit current with routine changes to the facility or its operation that do not require extensive review. A minor permit modification or amendment does not substantially alter permit conditions, increase the size of the operation, or reduce the capacity of the facility to protect human health or the environment.

C. When promulgating regulations establishing permit fees, the Board shall take into account the permit fees charged in neighboring states and the importance of not placing existing or prospective industries in the Commonwealth at a competitive disadvantage.

D. Beginning January 1, 1998, and January 1 of every even-numbered year thereafter, the Board shall make a report on the implementation of the water permit program to the Senate Committee on Agriculture, Conservation and Natural Resources, the Senate Committee on Finance, the House Committee on Appropriations, the House Committee on Agriculture, Chesapeake and Natural Resources and the House Committee on Finance. E. Fees collected pursuant to this section shall not supplant or reduce in any way the general fund appropriation to the Board.

F. Permit fee schedules shall apply to permit programs in existence on July 1, 1992, any additional permits that may be required by the federal government and administered by the Board, or any new permit required pursuant to any law of the Commonwealth.

G. The Board is authorized to promulgate regulations establishing a schedule of reduced permit fees for facilities that have established a record of compliance with the terms and requirements of their permits and shall establish criteria by regulation to provide for reductions in the annual fee amount assessed for facilities accepted into the Department's programs to recognize excellent environmental performance.

**§ 62.1-266. Ground water withdrawal permits.**

A. The Board may issue any ground water withdrawal permit upon terms, conditions, and limitations necessary for the protection of the public welfare, safety, and health.

1. The permittee has violated any regulation or order of the Board pertaining to ground water, any condition of a ground water withdrawal permit, any provision of this chapter, or any order of a court, where such violation presents a hazard or potential hazard to human health or the environment or is representative of a pattern of serious or repeated violations ~~which that~~, in the opinion of the Board, demonstrates the permittee's disregard for or inability to comply with applicable laws, regulations, or requirements;

2. The permittee has failed to disclose fully all relevant material facts or has misrepresented a material fact in applying for a permit, or in any other report or document required under this chapter or under the ground water withdrawal regulations of the Board;

3. The activity for which the permit was issued endangers human health or the environment and can be regulated to acceptable levels by amendment or revocation of the permit; or

4. There exists a material change in the basis on which the permit was issued that requires either a temporary or a permanent reduction or elimination of the withdrawal controlled by the permit necessary to protect human health or the environment.

F. No application for a ground water withdrawal permit shall be considered complete unless the applicant has provided the Executive Director of the Board with notification from the governing body of the ~~county, city or town~~ locality in which the withdrawal is to occur that the location and operation of the withdrawing facility is in compliance with all ordinances adopted pursuant to Chapter 22 (§ 15.2-2200 et seq.) of Title 15.2. B. In reviewing an application for a special exception, the Board may consider the amount and duration of the proposed withdrawal, the beneficial use intended for the ground water, the return of the ground water to the aquifer, and the effect of the withdrawal on human health and the environment. Any person requesting a special exception shall submit an application to the Board containing such information as the Board shall require by regulation adopted pursuant to this chapter.

C. Any special exception issued by the Board shall state the terms pursuant to which the applicant may withdraw ground water, including the amount of ground water that may be withdrawn in any period and the duration of the special exception. No special exception shall be issued for a term exceeding ~~ten~~ 15 years.

D. A violation of any term or provision of a special exception shall subject the holder thereof to the same penalties and enforcement procedures as would apply to a violation of a ground water withdrawal permit.

E. The Board shall have the power to amend or revoke any special exception after notice and opportunity for hearing on the grounds set forth in subsection D of § 62.1-266 for amendment or revocation of a ground water withdrawal permit.

*An Act to amend and reenact § 62.1-255 of the Code of Virginia and to amend the Code of Virginia by adding a section numbered 62.1-259.1, relating to ground water management; subdivisions; technical evaluation.*

[H 358]

Approved March 23, 2018

**Be it enacted by the General Assembly of Virginia:**

**1. That § 62.1-255 of the Code of Virginia is amended and reenacted and that the Code of Virginia is amended by adding a section numbered 62.1-259.1 as follows:**

**§ 62.1-255. Definitions.**

As used in this chapter, unless the context requires otherwise:

"Beneficial use" includes, but is not limited to, domestic (including public water supply), agricultural, commercial, and industrial uses.

"Board" means the State Water Control Board.

"Department" means the Department of Environmental Quality.

"Ground water" means any water, except capillary moisture, beneath the land surface in the zone of saturation or beneath the bed of any stream, lake, reservoir or other body of surface water wholly or partially within the boundaries of this Commonwealth, whatever the subsurface geologic structure in which such water stands, flows, percolates or otherwise occurs.

"Ground water withdrawal permit" means a certificate issued by the Board permitting the withdrawal of a specified quantity of ground water in a ground water management area.

"Person" means any and all persons, including individuals, firms, partnerships, associations, public or private institutions, municipalities or political subdivisions, governmental agencies, or private or public corporations organized under the laws of this Commonwealth or any other state or country.

"Surficial aquifer" means the upper surface of a zone of saturation, where the body of ground water is not confined by an overlying impermeable zone.

**§ 62.1-259.1. Certain withdrawals; technical evaluation required.**

*A. The developer of a subdivision, as defined in § 15.2-2201, located in a designated ground water management area shall apply for a technical evaluation from the Department of Environmental Quality prior to final subdivision plat approval if there will be 30 or more lots within the subdivision served by private wells, as defined in § 32.1-176.3. The application for a technical evaluation shall be on a form established by the Department and shall include a geophysical log from a geophysical borehole located within the subdivision. Such borehole may subsequently be utilized as a ground water supply for a dwelling unit or for other appropriate purpose within the subdivision. Within 60 days of receiving a complete application for a technical evaluation, the Department shall perform a technical evaluation and provide to the developer a recommendation sufficient to serve the water needs of each dwelling unit in the subdivision that specifies the aquifer or aquifers that will minimize unmitigated impacts to ground water resources and any offsite impacts to existing ground water users. The recommendation to the developer shall be nonbinding; however, any such developer who constructs one or more private wells in the subdivision in an aquifer inconsistent with the Department's recommendation shall prepare and submit a mitigation plan to the Department, consistent with requirements for mitigation plans established by the Board, and record a mitigation plan approved by the Department with the subdivision plat prior to constructing any private wells within the subdivision. The Department is authorized to charge the developer a fee not to exceed \$5,000 to perform the technical evaluation. This section shall not apply to the developer of a subdivision who constructs all of the private wells within the subdivision in the surficial aquifer.*

**2. That the technical evaluation requirement of this act applies to any such subdivision for which the developer obtains plat approval on or after July 1, 2018.**

However, none of these taxes and license fees shall be assessed or charged by any county on vehicles owned by residents of any town located in the county when such town constitutes a separate school district if the vehicles are already subject to town license fees and taxes, nor shall a town charge a license fee to any new resident of the town, previously a resident of a county within which all or part of the town is situated, who has previously paid a license fee for the same tax year to such county. The amount of the license fee or tax imposed by any county, city, or town on any motor vehicle, trailer, or semitrailer shall not be greater than the annual or one-year fee imposed by the Commonwealth on the motor vehicle, trailer, or semitrailer. The governing body of any county, city, or town issuing licenses under this section may by ordinance provide for a 50 percent reduction in the fee charged for the issuance of any such license issued for any vehicle owned or leased by any person who is 65 years old or older. No such discount, however, shall be available for more than one vehicle owned or leased by the same person.

The governing body of any county, city, or town issuing licenses free of charge under this subsection may by ordinance provide for (i) the limitation, restriction, or denial of such free issuance to an otherwise qualified applicant, including without limitation the denial of free issuance to a taxpayer who has failed to timely pay personal property taxes due with respect to the vehicle and (ii) the grounds for such limitation, restriction, or denial.

The situs for the imposition of licensing fees under this section shall in all cases, except as hereinafter provided, be the county, city, or town in which the motor vehicle, trailer, or semitrailer is normally garaged, stored, or parked. If it cannot be determined where the personal property is normally garaged, stored, or parked, the situs shall be the domicile of its owner. In the event the owner of the motor vehicle is a full-time student attending an institution of higher education, the situs shall be the domicile of such student, provided the student has presented sufficient evidence that he has paid a personal property tax on the motor vehicle in his domicile.

B. The revenue derived from all county, city, or town taxes and license fees imposed on motor vehicles, trailers, or semitrailers shall be applied to general county, city, or town purposes.

C. A county, city, or town may require that no motor vehicle, trailer, or semitrailer shall be locally licensed until the applicant has produced satisfactory evidence that all personal property taxes on the motor vehicle, trailer, or semitrailer to be licensed have been paid and satisfactory evidence that any delinquent motor vehicle, trailer, or semitrailer personal property taxes owing have been paid which have been properly assessed or are assessable against the applicant by the county, city, or town. A county, city, or town may also provide that no motor vehicle license shall be issued unless the tangible personal property taxes properly assessed or assessable by that locality on any tangible personal property used or usable as a dwelling titled by the Department of Motor Vehicles and owned by the taxpayer have been paid. Any county and any town within any such county may by agreement require that all personal property taxes assessed by either the county or the town on any vehicle be paid before licensure of such vehicle by either the county or the town.

C1. The Counties of Dinwiddie, Lee, and Wise may, by ordinance or resolution adopted after public notice and hearing and, with the consent of the treasurer, require that no license may be issued under this section unless the applicant has produced satisfactory evidence that all fees, including delinquent fees, payable to such county or local solid waste authority, for the disposal of solid waste pursuant to the Virginia Water and Waste Authorities Act (§ 15.2-5100 et seq.), or pursuant to § 15.2-2159, have been paid in full. For purposes of this subsection, all fees, including delinquent fees, payable to a county for waste disposal services described herein, shall be paid to the treasurer of such county; however, in Wise County, the fee shall be paid to the county or its agent.

D. The Counties of Arlington, Fairfax, Loudoun, and Prince William and towns within them and any city may require that no motor vehicle, trailer, or semitrailer shall be licensed by that jurisdiction unless all fines owed to the jurisdiction by the owner of the vehicle, trailer, or semitrailer for violation of the jurisdiction's ordinances governing parking of vehicles have been paid. The provisions of this subsection shall not apply to vehicles owned by firms or companies in the business of renting motor vehicles.

E. If in any county imposing license fees and taxes under this section, a town therein imposes like fees and taxes on vehicles of owners resident in the town, the owner of any vehicle subject to the fees or taxes shall be entitled, on the owner's displaying evidence that he has paid the fees or taxes, to receive a credit on the fees or taxes imposed by the county to the extent of the fees or taxes he has paid to the town. Nothing in this section shall deprive any town now imposing these licenses and taxes from increasing them or deprive any town not now imposing them from hereafter doing so, but subject to the limitations provided in subsection D. The governing body of any county and the governing body of any town in that county wherein each imposes the license tax herein provided may provide mutual agreements so that not more than one license plate or decal in addition to the state plate shall be required.

F. Notwithstanding the provisions of subsection E, in a consolidated county wherein a tier-city exists, the tier-city may, in accordance with the provisions of the agreement or plan of consolidation, impose license fees and taxes under this section in addition to those fees and taxes imposed by the county, provided that the combined county and tier-city rates do not exceed the maximum provided in subsection A. No credit shall be allowed on the fees or taxes imposed by the county for fees or taxes paid to the tier-city, except as may be provided by the consolidation agreement or plan. The governing body of any county and the governing body of any tier-city in such county wherein each imposes the license tax herein may provide by mutual agreement that no more than one license plate or decal in addition to the state license plate shall be required.

G. Any county, city, or town may by ordinance provide that it shall be unlawful for any owner or operator of a motor vehicle, trailer, or semitrailer (i) to fail to obtain and, if any required by such ordinance, to display the local license required by any ordinance of the county, city or town in which the vehicle is registered, or (ii) to display upon a motor vehicle, trailer, or semitrailer any such local license, required by ordinance to be displayed, after its expiration date. The ordinance may provide that a violation shall constitute a misdemeanor the penalty for which shall not exceed that of a Class 4 misdemeanor and may, in the case of a motor vehicle registered to a resident of the locality where such vehicle is registered, authorize the issuance by local law-enforcement officers of citations, summonses, parking tickets, or uniform traffic summonses for violations. Any such ordinance may also provide that a violation of the ordinance by the registered owner of the vehicle may not be discharged by payment of a fine except upon presentation of satisfactory evidence that the required license has been obtained. Nothing in this section shall be construed to require a county, city, or town to issue a decal or any other tangible evidence of a local license to be displayed on the licensed vehicle if the county's, city's, or town's ordinance does not require display of a decal or other evidence of payment. No ordinance adopted pursuant to this section shall require the display of any local license, decal, or sticker on any vehicle owned by a public service company, as defined in § 56-76, having a fleet of at least 2,500 vehicles garaged in the Commonwealth.

H. Except as provided by subsections E and F, no vehicle shall be subject to taxation under the provisions of this section in more than one jurisdiction. Furthermore, no person who has purchased a local vehicle license, decal, or sticker for a vehicle in one county, city, or town and then moves to and garages his vehicle in another county, city, or town shall be required to purchase another local license, decal, or sticker from the county, city, or town to which he has moved and wherein his vehicle is now garaged until the expiration date of the local license, decal, or sticker issued by the county, city, or town from which he moved.

I. Purchasers of new or used motor vehicles shall be allowed at least a 10-day grace period, beginning with the date of purchase, during which to pay license fees charged by local governments under authority of this section.

J. The treasurer or director of finance of any county, city, or town may enter into an agreement with the Commissioner whereby the Commissioner will refuse to issue or renew any vehicle registration of any applicant therefor who owes to such county, city, or town any local vehicle license fees or delinquent tangible personal property tax or parking citations. Before being issued any vehicle registration or renewal of such license or registration by the Commissioner, the applicant shall first satisfy all such local vehicle license fees and delinquent taxes or parking citations and present evidence satisfactory to the Commissioner that all such local vehicle license fees and delinquent taxes or parking citations have been paid in full. *However, a vehicle purchased by an applicant subsequent to the onset of enforcement action under this subsection may be issued an initial registration for a period of up to 90 days to allow the applicant to satisfy all applicable requirements under this subsection, provided that a fee sufficient for the registration period, as calculated under subsection B of § 46.2-694, is paid. Such initial registration shall not be eligible for the one-month registration extension provided for in § 46.2-752.1 for this same purpose.* The Commissioner shall charge a reasonable fee to cover the costs of such enforcement action, and the treasurer or director of finance may add the cost of this fee to the delinquent tax bill or the amount of the parking citation. The treasurer or director of finance of any county, city, or town seeking to collect delinquent taxes or parking citations through the withholding of registration or renewal thereof by the Commissioner as provided for in this subsection shall notify the Commissioner in the manner provided for in his agreement with the Commissioner and supply to the Commissioner information necessary to identify the debtor whose registration or renewal is to be denied. Any agreement entered into pursuant to the provisions of this subsection shall provide the debtor notice of the intent to deny renewal of registration or issuance of registration for any currently unregistered vehicle at least 30 days prior to the expiration date of a current vehicle registration. For the purposes of this subsection, notice by first-class mail to the registrant's address as

maintained in the records of the Department of Motor Vehicles shall be deemed sufficient. In the case of parking violations, the Commissioner shall only refuse to issue or renew the vehicle registration of any applicant therefor pursuant to this subsection for the vehicle that incurred the parking violations. The provisions of this subsection shall not apply to vehicles owned by firms or companies in the business of renting motor vehicles.

K. The governing bodies of any two or more counties, cities, or towns may enter into compacts for the regional enforcement of local motor vehicle license requirements. The governing body of each participating jurisdiction may by ordinance require the owner or operator of any motor vehicle, trailer, or semitrailer to display on his vehicle a valid local license issued by another county, city, or town that is a party to the regional compact, provided that the owner or operator is required by the jurisdiction of situs, as provided in § 58.1-3511, to obtain and display such license. The ordinance may also provide that no motor vehicle, trailer, or semitrailer shall be locally licensed until the applicant has produced satisfactory evidence that (i) all personal property taxes on the motor vehicle, trailer, or semitrailer to be licensed have been paid to all participating jurisdictions and (ii) any delinquent motor vehicle, trailer, or semitrailer personal property taxes that have been properly assessed or are assessable by any participating jurisdiction against the applicant have been paid. Any city and any county having the urban county executive form of government, the counties adjacent to such county and towns within them may require that no motor vehicle, trailer, or semitrailer shall be licensed by that jurisdiction or any other jurisdiction in the compact unless all fines owed to any participating jurisdiction by the owner of the vehicle for violation of any participating jurisdiction's ordinances governing parking of vehicles have been paid. The ordinance may further provide that a violation shall constitute a misdemeanor the penalty for which shall not exceed that of a Class 4 misdemeanor. Any such ordinance may also provide that a violation of the ordinance by the owner of the vehicle may not be discharged by payment of a fine and applicable court costs except upon presentation of satisfactory evidence that the required license has been obtained. The provisions of this subsection shall not apply to vehicles owned by firms or companies in the business of renting motor vehicles.

L. In addition to the taxes and license fees permitted in subsection A, counties, cities, and towns may charge a license fee of no more than \$1 per motor vehicle, trailer, and semitrailer. Except for the provisions of subsection B, such fee shall be subject to all other provisions of this section. All funds collected pursuant to this subsection shall be paid pursuant to § 51.1-1204 to the Volunteer Firefighters' and Rescue Squad Workers' Service Award Fund to the accounts of all members of the Fund who are volunteers for fire departments or emergency medical services agencies within the jurisdiction of the particular county, city, or town.

M. In any county, the county treasurer or comparable officer and the treasurer of any town located wholly or partially within such county may enter into a reciprocal agreement, with the approval of the respective local governing bodies, that provides for the town treasurer to collect license fees or taxes on any motor vehicle, trailer, or semitrailer owed to the county that are non-delinquent, delinquent, or both or for the county treasurer to collect license fees or taxes on any motor vehicle, trailer, or semitrailer owed to the town that are non-delinquent, delinquent, or both. A treasurer or comparable officer collecting any such license fee or tax pursuant to an agreement entered into under this subsection shall account for and pay over such amounts to the locality owed such license fee or tax in the same manner as provided by law. As used in this subsection, with regard to towns, "treasurer" means the town officer or employee vested with authority by the charter, statute, or governing body to collect local taxes.

N. For any summons issued for a violation of this section, the court may, in its discretion, dismiss the summons, where proof of compliance with this section is provided to the court on or before the court date.

However, in the case of any renewal to which the owner consents at or about the time of renewal by communicating in writing with the banking or financial organization or otherwise indicates consent as specified in subsection A of this section, the property is matured upon the expiration of the last time period for which consent was given. If, at the time provided for delivery in subsection D of § 55-210.12, a penalty or forfeiture in the payment of interest would result from the delivery of the property, the time for delivery is extended until the time when no penalty or forfeiture would result. Notwithstanding any other provision of this section to the contrary, any automatically renewable time deposit that has matured shall be presumed abandoned five years after the date of the second mailing of a statement of account or other notification or communication that was returned as undeliverable, or after the date the holder discontinued the mailings to the apparent owner, whichever is earlier. [H 28]

Approved March 23, 2018

**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 24.2-404 and 24.2-404.4 of the Code of Virginia are amended and reenacted as follows:**

**§ 24.2-404. Duties of Department of Elections.**

A. The Department of Elections shall provide for the continuing operation and maintenance of a central recordkeeping system, the Virginia voter registration system, for all voters registered in the Commonwealth.

In order to operate and maintain the system, the Department shall:

1. Maintain a complete, separate, and accurate record of all registered voters in the Commonwealth.
2. Require the general registrars to enter the names of all registered voters into the system and to change or correct registration records as necessary.
3. Provide to each general registrar, voter confirmation documents for newly registered voters and for notice to registered voters on the system of changes and corrections in their registration records and polling places and voter photo identification cards containing the voter's photograph and signature for free for those voters who do not have one of the forms of identification specified in subsection B of § 24.2-643. The Department shall promulgate rules and regulations authorizing each general registrar to obtain a photograph and signature of a voter who does not have one of the forms of identification specified in subsection B of § 24.2-643 for the purpose of providing such voter a voter photo identification card containing the voter's photograph and signature. The Department shall provide each general registrar with the equipment necessary to obtain a voter's signature and photograph and no general registrar shall be required to purchase such equipment at his own expense. Photographs and signatures obtained by a general registrar shall be submitted to the Department. The Department may contract with an outside vendor for the production and distribution of voter photo identification cards.
4. Require the general registrars to delete from the record of registered voters the name of any voter who (i) is deceased, (ii) is no longer qualified to vote in the county or city where he is registered due to removal of his residence, (iii) has been convicted of a felony, (iv) has been adjudicated incapacitated, (v) is known not to be a United States citizen by reason of reports from the Department of Motor Vehicles pursuant to § 24.2-410.1 or from the Department of Elections based on information received from the Systematic Alien Verification for Entitlements Program (SAVE Program) pursuant to subsection E, or (vi) is otherwise no longer qualified to vote as may be provided by law. Such action shall be taken no later than 30 days after notification from the Department. The Department shall promptly provide the information referred to in this subdivision, upon receiving it, to general registrars.
5. Retain on the system for four years a separate record for registered voters whose names have been deleted, with the reason for deletion.
6. Retain on the system permanently a separate record for information received regarding deaths, felony convictions, and adjudications of incapacity pursuant to §§ 24.2-408 through 24.2-410.
7. Provide to each general registrar, at least 16 days prior to a general or primary election and three days prior to a special election, an alphabetical list of all registered voters in each precinct or portion of a precinct in which the election is being held in the county, city, or town. These precinct lists shall be used as the official lists of qualified voters and shall constitute the pollbooks. The Department shall provide instructions for the division of the pollbooks and precinct lists into sections to accommodate the efficient processing of voter lines at the polls. Prior to any general, primary, or special election, the Department shall provide any general registrar, upon his request, with a separate electronic list of all registered voters in the registrar's county or city. The Department may share any information that it receives from another

agency of the Commonwealth with any Chief Election Officer of another state for the maintenance of the voter registration system.

10. Cooperate with other states and jurisdictions to develop systems to compare voters, voter history, and voter registration lists to ensure the accuracy of the voter registration rolls, to identify voters whose addresses have changed, to prevent duplication of registration in more than one state or jurisdiction, and to determine eligibility of individuals to vote in Virginia.

11. Reprint and impose a reasonable charge for the sale of any part of Title 24.2, lists of precincts and polling places, statements of election results by precinct, and any other items required of the Department by law. Receipts from such sales shall be credited to the Board for reimbursement of printing expenses.

B. The Department shall be authorized to provide for the production, distribution, and receipt of information and lists through the Virginia voter registration system by any appropriate means including, but not limited to, paper and electronic means. The Virginia Freedom of Information Act (§ 2.2-3700 et seq.) shall not apply to records about individuals maintained in this system.

C. The State Board shall institute procedures to ensure that each requirement of this section is fulfilled. As part of its procedures, the State Board shall provide that the general registrar shall mail notice of any cancellation pursuant to clause (v) of subdivision A 4 to the person whose registration is cancelled.

D. The State Board shall promulgate rules and regulations to ensure the uniform application of the law for determining a person's residence.

E. The Department shall apply to participate in the Systematic Alien Verification for Entitlements Program (SAVE Program) operated by U.S. Citizenship and Immigration Services of the U.S. Department of Homeland Security for the purposes of verifying that voters listed in the Virginia voter registration system are United States citizens. Upon approval of the application, the Department shall enter into any required memorandum of agreement with U.S. Citizenship and Immigration Services. The State Board shall promulgate rules and regulations governing the use of the immigration status and citizenship status information received from the SAVE Program.

F. The Department shall report annually by ~~August~~ *October* 1 for the preceding 12 months ending ~~June 30~~ *August 31* to the Committees on Privileges and Elections on each of its activities undertaken to maintain the Virginia voter registration system and the results of those activities. This report shall contain the methodology used in gathering and analyzing the data. The Commissioner of Elections shall certify that the data included in the report is accurate and reliable.*

**§ 24.2-404.4. Exchange of registered voter lists with other states.**

A. Pursuant to its authority under subsection A of § 24.2-405 and subsections B and C of § 24.2-406, the Department of Elections shall request voter registration information and lists of persons voting at primaries and elections, if available, from the states bordering the Commonwealth to identify duplicate registrations, voters who no longer reside in the Commonwealth, and other persons who are no longer entitled to be registered in order to maintain the overall accuracy of the voter registration system.

B. Pursuant to its authority under subdivision A 10 of § 24.2-404, the Department of Elections shall utilize data regarding voter registration and lists of persons voting at primaries and elections received through list comparisons with other states to identify duplicate registrations, voters who no longer reside in the Commonwealth, and other persons who are no longer entitled to be registered in order to maintain the overall accuracy of the voter registration system.

C. The Department shall compare the data received pursuant to subsections A and B with the state voter registration list and initiate list maintenance procedures under applicable state and federal law. The Department shall *include in its report to the House and Senate Committees on Privileges and Elections annually or, required by subsection F of § 24.2-404, the progress of activities conducted under this section, including the number of duplicate registrations found to exist and the procedures that the Department and general registrars are following to eliminate duplicate registrations from the Virginia registered voter lists. All annual reports required to be filed by the Department shall be governed by the provisions of § 2.2-608.*

**CHAPTER 461**

*An Act to amend and reenact §§ 2.2-4303 and 2.2-4303.1 of the Code of Virginia, relating to the Virginia Public Procurement Act; methods of procurement; professional services.*

[H 97]

Approved March 23, 2018

**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 2.2-4303 and 2.2-4303.1 of the Code of Virginia are amended and reenacted as follows:**

**§ 2.2-4303. Methods of procurement.**

A. All public contracts with nongovernmental contractors for the purchase or lease of goods, or for the purchase of services, insurance, or construction, shall be awarded after competitive sealed bidding, or competitive negotiation as provided in this section, unless otherwise authorized by law.

B. Professional services shall be procured by competitive negotiation.

C. Goods, services other than professional services, and insurance may be procured by competitive sealed bidding or competitive negotiation.

Upon a written determination made in advance by (i) the Governor or his designee in the case of a procurement by the Commonwealth or by a department, agency or institution thereof or (ii) the local governing body in the case of a procurement by a political subdivision of the Commonwealth, that competitive negotiation is either not practicable or not fiscally advantageous, insurance may be procured through a licensed agent or broker selected in the manner provided for the procurement of things other than professional services set forth in § 2.2-4302.2. The basis for this determination shall be documented in writing.

D. Construction may be procured only by competitive sealed bidding, except that competitive negotiation may be used in the following instances:

1. By any public body on a fixed price design-build basis or construction management basis as provided in Chapter 43.1 (§ 2.2-4378 et seq.); or

2. By any public body for the construction of highways and any draining, dredging, excavation, grading or similar work upon real property upon a determination made in advance by the public body and set forth in writing that competitive sealed bidding is either not practicable or not fiscally advantageous to the public, which writing shall document the basis for this determination.

E. Upon a determination in writing that there is only one source practicably available for that which is to be procured, a contract may be negotiated and awarded to that source without competitive sealed bidding or competitive negotiation. The writing shall document the basis for this determination. The public body shall issue a written notice stating that only one source was determined to be practicably available, and identifying that which is being procured, the contractor selected, and the date on which the contract was or will be awarded. This notice shall be posted on the Department of General Services' central electronic procurement website or other appropriate websites, and in addition, public bodies may publish in a newspaper of general circulation on the day the public body awards or announces its decision to award the contract, whichever occurs first. Posting on the Department of General Services' central electronic procurement website shall be required of any state public body. Local public bodies are encouraged to utilize the Department of General Services' central electronic procurement website to provide the public with centralized visibility and access to the Commonwealth's procurement opportunities.

F. In case of emergency, a contract may be awarded without competitive sealed bidding or competitive negotiation; however, such procurement shall be made with such competition as is practicable under the circumstances. A written determination of the basis for the emergency and for the selection of the particular contractor shall be included in the contract file. The public body shall issue a written notice stating that the contract is being awarded on an emergency basis, and identifying that which is being procured, the contractor selected, and the date on which the contract was or will be awarded. This notice shall be posted on the Department of General Services' central electronic procurement website or other appropriate websites, and in addition, public bodies may publish in a newspaper of general circulation on the day the public body awards or announces its decision to award the contract, whichever occurs first, or as soon thereafter as is practicable. Posting on the Department of General Services' central electronic procurement website shall be required of any state public body. Local public bodies are encouraged to utilize the Department of General Services' central electronic procurement website to provide the public with centralized visibility and access to the Commonwealth's procurement opportunities.

G. A public body may establish purchase procedures, if adopted in writing, not requiring competitive sealed bids or competitive negotiation for single or term contracts for:

1. Goods and services other than professional services and non-transportation-related construction, if the aggregate or the sum of all phases is not expected to exceed \$100,000; and

2. Transportation-related construction, if the aggregate or sum of all phases is not expected to exceed \$25,000.

However, such small purchase procedures shall provide for competition wherever practicable.

Such purchase procedures may allow for single or term contracts for professional services without requiring competitive negotiation, provided the aggregate or the sum of all phases is not expected to exceed ~~\$60,000~~ \$80,000.

Where small purchase procedures are adopted for construction, the procedures shall not waive compliance with the Uniform State Building Code.

For state public bodies, purchases under this subsection that are expected to exceed \$30,000 shall require the (a) written informal solicitation of a minimum of four bidders or offerors and (b) posting of a public notice on the Department of General Services' central electronic procurement website or other appropriate websites. Posting on the Department of General Services' central electronic procurement website shall be required of any state public body. Local public bodies are encouraged to utilize the Department of General Services' central electronic procurement website to provide the public with centralized visibility and access to the Commonwealth's procurement opportunities.

H. Upon a determination made in advance by a public body and set forth in writing that the purchase of goods, products or commodities from a public auction sale is in the best interests of the public, such items may be purchased at the

auction, including online public auctions. Purchase of information technology and telecommunications goods and nonprofessional services from a public auction sale shall be permitted by any authority, department, agency, or institution of the Commonwealth if approved by the Chief Information Officer of the Commonwealth. The writing shall document the basis for this determination. However, bulk purchases of commodities used in road and highway construction and maintenance, and aggregates shall not be made by online public auctions.

I. The purchase of goods or nonprofessional services, but not construction or professional services, may be made by reverse auctioning. However, bulk purchases of commodities used in road and highway construction and maintenance, and aggregates shall not be made by reverse auctioning.

**§ 2.2-4303.1. Architectural and professional engineering term contracting; limitations.**

A. A contract for architectural or professional engineering services relating to multiple construction projects may be awarded by a public body, provided (i) the projects require similar experience and expertise, (ii) the nature of the projects is clearly identified in the Request for Proposal, and (iii) the contract is limited to a term of one year or when the cumulative total project fees reach the maximum authorized in this section, whichever occurs first.

Such contracts may be renewable for four additional one-year terms at the option of the public body. The fair and reasonable prices as negotiated shall be used in determining the cost of each project performed.

B. The sum of all projects performed in a one-year contract term shall not exceed ~~\$500,000~~ \$750,000, except that for:

1. A state agency, as defined in § 2.2-4347, the sum of all projects performed in a one-year contract term shall not exceed \$1 million;

2. Any locality with a population in excess of 78,000 or school division within such locality, or any authority, sanitation district, metropolitan planning organization, transportation district commission, or planning district commission, or any city within Planning District 8, the sum of all projects performed in a one-year contract term shall not exceed \$6 million and those awarded for any airport as defined in § 5.1-1 and aviation transportation projects, the sum of all such projects shall not exceed \$1.5 million;

3. Architectural and engineering services for rail and public transportation projects by the Director of the Department of Rail and Public Transportation, the sum of all projects in a one-year contract term shall not exceed \$2 million. Such contract may be renewable for two additional one-year terms at the option of the Director; and

4. Environmental location, design, and inspection work regarding highways and bridges by the Commissioner of Highways, the initial contract term shall be limited to two years or when the cumulative total project fees reach \$5 million, whichever occurs first. Such contract may be renewable for two additional one-year terms at the option of the Commissioner, and the sum of all projects in each one-year contract term shall not exceed \$5 million.

C. Competitive negotiations for such architectural or professional engineering services contracts may result in awards to more than one offeror, provided (i) the Request for Proposal so states and (ii) the public body has established procedures for distributing multiple projects among the selected contractors during the contract term. Such procedures shall prohibit requiring the selected contractors to compete for individual projects based on price.

D. The fee for any single project shall not exceed \$150,000; however, for architectural or engineering services for airports as defined in § 5.1-1 and aviation transportation projects, the project fee of any single project shall not exceed \$500,000, except that for:

1. A state agency as defined in § 2.2-4347, the project fee shall not exceed \$200,000, as may be determined by the Director of the Department of General Services or as otherwise provided by the Restructured Higher Education Financial and Administrative Operations Act (§ 23.1-1000 et seq.); and

2. Any locality with a population in excess of 78,000 or school division within such locality, or any authority, transportation district commission, or sanitation district, or any city within Planning District 8, the project fee shall not exceed \$2.5 million.

The limitations imposed upon single-project fees pursuant to this subsection shall not apply to environmental, location, design, and inspection work regarding highways and bridges by the Commissioner of Highways or architectural and engineering services for rail and public transportation projects by the Director of the Department of Rail and Public Transportation.

E. For the purposes of subsection B, any unused amounts from one contract term shall not be carried forward to any additional term, except as otherwise provided by the Restructured Higher Education Financial and Administrative Operations Act (§ 23.1-1000 et seq.).

[S 130]

Approved March 23, 2018

**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 24.2-613, 24.2-614, 24.2-615, 24.2-641, and 24.2-644 of the Code of Virginia are amended and reenacted as follows:**

**§ 24.2-613. Form of ballot.**

A. The ballots shall comply with the requirements of this title and the standards prescribed by the State Board.

B. For elections for federal, statewide, and General Assembly offices only, each candidate who has been nominated by a political party or in a primary election shall be identified by the name of his political party. Independent candidates shall be identified by the term "Independent." For the purpose of this section, any Independent candidate may, by producing sufficient and appropriate evidence of nomination by a "recognized political party" to the State Board, have the term "Independent" on the ballot converted to that of a "recognized political party" on the ballot and be treated on the ballot in a manner consistent with the candidates nominated by political parties. For the purpose of this section, a "recognized political party" is defined as an organization that, for at least six months preceding the filing of its nominee for the office, has had in continual existence a state central committee composed of registered voters residing in each congressional district of the Commonwealth, a party plan and bylaws, and a duly elected state chairman and secretary. A letter from the state chairman of a recognized political party certifying that a candidate is the nominee of that party and also signed by such candidate accepting that nomination shall constitute sufficient and appropriate evidence of nomination by a recognized political party. The name of the political party, the name of the "recognized political party," or term "Independent" may be shown by an initial or abbreviation to meet ballot requirements.

C. Except as provided for primary elections, the State Board shall determine by lot the order of the political parties, and the names of all candidates for a particular office shall appear together in the order determined for their parties. In an election district in which more than one person is nominated by one political party for the same office, the candidates' names shall appear alphabetically in their party groups under the name of the office, with sufficient space between party groups to indicate them as such. For the purpose of this section, except as provided for presidential elections in § 24.2-614, "recognized political parties" shall be treated as a class; the order of the recognized political parties within the class shall be determined by lot by the State Board; and the class shall follow the political parties as defined by § 24.2-101 and precede the independent class. Independent candidates shall be treated as a class under "Independent", and their names shall be placed on the ballot after the political parties and recognized political parties. Where there is more than one independent candidate for an office, their names shall appear on the ballot in an order determined by the priority of time of filing all required paperwork for the office. In the event two or more candidates file simultaneously, the order of filing shall then be determined by lot by the electoral board as in the case of a tie vote for the office.

No individual's name shall appear on the ballot more than once for the same office.

D. In preparing the printed ballots for general, special, and primary elections, the State Board and ~~electoral boards~~ *general registrars* shall cause to be printed in not less than 10-point type, immediately below the title of any office, a statement of the number of candidates for whom votes may be cast for that office. For any office to which only one candidate can be elected, the following language shall be used: "Vote for only one." For any office to which more than one candidate can be elected, the following language shall be used: "Vote for not more than."

E. Any locality that uses machine-readable ballots at one or more precincts, including any central absentee precinct, may, with the approval of the State Board, use a printed reproduction of the machine-readable ballot in lieu of the official machine-readable ballot. Such reproductions shall be printed and otherwise handled in accordance with all laws and procedures that apply to official paper ballots.

~~In every county and city using voting systems requiring printed ballots, the electoral board shall furnish a sufficient number of ballots printed on plain white paper, of such form and size as will fit in the ballot frames.~~

**§ 24.2-614. Preparation and form of presidential election ballots.**

As soon as practicable after the seventy-fourth day before the presidential election, the State Board shall certify to the general registrar of each county and city the form of official ballot for the presidential election which shall be uniform throughout the Commonwealth. Each general registrar shall have the official ballot printed at least 45 days preceding the election.

The ballot shall contain the name of each political party and the party group name, if any, specified by the persons naming electors by petition pursuant to § 24.2-543. Below the party name in parentheses, the ballot shall contain the words "Electors for \_\_\_\_\_, President and \_\_\_\_\_, Vice President" with the blanks filled in with the names of the candidates for President and Vice President for whom the candidates for electors are expected to vote in the Electoral College. ~~A printed square shall precede the name of each political party or party designation.~~

Groups of petitioners qualifying for a party name under § 24.2-543 shall be treated as a class; the order of the groups shall be determined by lot by the State Board; and the groups shall immediately precede the independent class on the ballot. The names of the candidates within the independent class shall be listed alphabetically.

**§ 24.2-615. Separate questions for proposed constitutional amendments, etc.; uniform ballots.**

A separate ~~ballot question~~ *ballot question* shall be ~~printed~~ *presented* for each of the following: proposed amendments to the Constitution submitted to the qualified voters at one election; proposals submitted to the qualified voters after a constitutional convention pursuant to Article XII, Section 2 of the Constitution; candidates for President, Vice President, and presidential electors; and candidates for the Congress of the United States.

The form of the ballot shall be the same throughout the election district in which the same candidates are running to fill the same offices and throughout the district in which a question is submitted to the voters.

**§ 24.2-641. Sample ballot.**

The electoral board or general registrar shall provide for each precinct in which any voting or counting machines are used two sample ballots, ~~which shall be arranged as a diagram of the front of the voting or counting machine as it will appear with the official ballot for voting on election day for each ballot style in use at that precinct.~~ Such sample ballots shall be posted for public inspection at each polling place during the day of election.

**§ 24.2-644. Voting by paper ballot; voting for presidential electors; write-in votes.**

A. The qualified voter shall take the official paper ballot and enter the voting booth. After entering the voting booth, the qualified voter shall mark ~~immediately preceding the name of the ballot in accordance with the instructions for the type of ballot,~~ for each candidate for whom he wishes to vote a check (✓) or a cross (✗) or a line (—) in the square provided for such purpose, leaving unmarked the square preceding the name of each candidate for whom he does not wish to vote. Any ballot marked so that the intent of the voter is clear shall be counted.

B. The qualified voter at a presidential election shall mark ~~the square preceding the names and party designation the ballot in accordance with the instructions for the type of ballot,~~ for his choice of candidates for President and Vice President. His ballot so marked shall be counted as if he had marked ~~squares the ballot in accordance with the instructions for the type of ballot~~ preceding the names of the individual electors affiliated with his choice for President and Vice President. The qualified voter at a presidential election may cast a write-in vote for President and Vice President as provided in subsections C and D.

C. At all elections except primary elections it ~~shall be~~ is lawful for any voter to vote for any person other than the listed candidates for the office by writing or hand printing the person's name on the official ballot. No check or other mark shall be required to cast a valid write-in vote. Write-in votes for President and Vice President shall be counted only for candidates who have filed a joint declaration of intent to be write-in candidates for the offices with the Commissioner of Elections not less than 10 days before the date of the presidential election. The declaration of intent shall be on a form prescribed by the State Board and shall include a list of presidential electors pledged to those candidates which equals the whole number of senators and representatives to which the Commonwealth at that time is entitled in the Congress of the United States. A write-in vote cast for candidates for President and Vice President, or for a candidate for President only, shall be counted for the individual electors listed on the declaration of intent as pledged to those candidates.

D. No write-in vote shall be counted unless the name is entered on the ballot in conformance with this section. No write-in vote shall be counted when it is apparent to the officers of election that a voter has voted for the same person for the same office more than one time. No write-in vote shall be counted for an office for any person whose name appears on the ballot as a candidate for that office. If two or more persons are to be elected to the same office, a voter may vote for one or more persons whose names do appear on the ballot and one or more persons whose names do not appear on the ballot, provided that the total number of votes cast by him for that office does not exceed the number of persons to be elected to that office.
