   e. In selecting eligible generating facilities for dedication to its pilot program, an investor-owned utility shall give due consideration to relative costs, economic development benefits, and geographic diversity of eligible generating facilities.

   f. The investor-owned utility's application to the Commission shall include a description of the application of the price and non-price criteria in the investor-owned utility's selection of participating generating facilities from among the proposals submitted in response to the RFP.

3. The amount of generating capacity of the eligible generating facilities in an investor-owned utility's pilot program shall not be less than (i) 0.5 megawatt if the pilot program is conducted by a Phase I Utility or (ii) 10 megawatts if the pilot program is conducted by a Phase II Utility.

4. The amount of generating capacity of the eligible generating facilities in an investor-owned utility's pilot program shall not exceed (i) 10 megawatts if the pilot program is conducted by a Phase I Utility or (ii) 40 megawatts if the pilot program is conducted by a Phase II Utility.

5. An investor-owned utility shall have the option of increasing the amount of generating capacity of the eligible generating facilities in its pilot program above the amount most recently approved by the Commission, in such increments as the investor-owned utility elects, as follows:

   a. Any such increase shall not result in an amount of generating capacity that exceeds the cap specified for the investor-owned utility's pilot program under subdivision 4;
b. No such increase shall be authorized until such time that 90 percent of the amount of generating capacity of the eligible generating facilities then approved for its pilot program has been subscribed by customers through the investor-owned utility's voluntary companion rate schedule;

c. An investor-owned utility may seek any number of increases in the amount of generating capacity of the eligible generating facilities in its pilot program, subject to the conditions in subdivisions a and b; and

d. The investor-owned utility shall select eligible generating facilities for any increase in the generating capacity of its pilot program through an RFP process that complies with the requirements of subdivision 2.

6. Each pilot program shall expire at the end of its pilot program period, unless renewed or made permanent by appropriate legislation as provided in subsection G.

7. The renewable energy certificates and other environmental attributes associated with the voluntary companion rate schedule shall be retired by the investor-owned utility on the subscribing customer's behalf.

8. An investor-owned utility shall recover all its pilot program costs primarily through its voluntary companion rate schedule. However, pilot program costs that are not recovered through the voluntary companion rate schedule shall be recoverable from a participating third party and not from the investor-owned utility's Virginia jurisdictional customers. To the extent participating third parties are obligated for pilot program costs not recovered through the voluntary companion rate schedule, variable-output contracts between participating third parties other than affiliates and investor-owned utilities shall be negotiated at arm's length and shall not be reviewable by the Commission and shall require no further Commission approvals pursuant to Chapter 4 (§ 56-76 et seq.) or other applicable law.

9. At the conclusion of the pilot program period, to the extent that the pilot program is not made permanent or extended, each participating generating facility shall cease to be part of the pilot program and shall return to operation under the variable-output contract with a participating third party.

10. Any fixed generation costs and fixed purchased power costs shall remain fixed for subscribing customers throughout the duration of the subscribing customers' continuous and uninterrupted participation in the voluntary companion rate schedule. A subscribing customer's participation in the voluntary companion rate schedule shall be deemed to be continuous and uninterrupted notwithstanding a change in the location where the customer receives service if the new location continues to be within the investor-owned utility's service territory and the customer provides the investor-owned utility with notice of the change prior to or within 90 days following the change. Investor-owned utilities are authorized to decrease the generation or purchased power rate, or both, at any time to reflect cost reductions, if any, subject to Commission review. If, pursuant to subdivision 9, the pilot program is not made permanent or continued, the subscribing customers' subscriptions to the voluntary companion rate schedule shall survive the termination of the pilot program.

11. A subscribing customer's usage that exceeds the amount subscribed for under the voluntary companion rate schedule shall be billed under the customer's applicable standard rate.

12. An investor-owned utility shall not require a subscribing customer to enter an agreement or subscription for participation in a pilot program of more than 12 months' duration unless the subscribing customer's subscription exceeds 100 kW, or its equivalent in kWh, at the time the customer initially enters into the agreement or subscription.

13. As part of an arrangement with a solar development entity, a utility may enter into an agreement that provides for risk sharing and collaboration in marketing a utility's pilot program if the solar development entity is a participating third party.

14. An investor-owned utility shall have the ability to close its pilot program to new subscribers according to the terms of the voluntary companion rate schedule upon notice to the Commission. This option shall be exercisable once per year, upon the anniversary date of the Commission's order approving the voluntary companion rate schedule.

C. Notwithstanding the provisions of subsection B of § 56-234 and §§ 56-249.6 and 56-585.1, upon application of a utility consumer services cooperative the Commission shall review a proposal submitted by the cooperative for a voluntary companion rate schedule. If the Commission finds that the proposal is reasonable and prudent, it shall approve the voluntary companion rate schedule for the cooperative to conduct a pilot program pursuant to this section. No utility consumer services cooperative shall be required to conduct a pilot program pursuant to this section. In making an application to the Commission pursuant to this subsection, a utility consumer services cooperative shall have flexibility to design its voluntary companion rate schedule in a manner that, notwithstanding anything to the contrary in this section, provides the cooperative the ability to:

1. Construct or purchase its generating facilities, or dedicate a portion of its existing power supply portfolio, for its community solar pilot program along with one or more other utility consumer services cooperatives, one or both Phase I or Phase II Utilities, or a utility aggregation cooperative, through requests for proposal or through a contract with a third party or a utility aggregation cooperative;

2. If constructing or purchasing its generating facilities, or dedicating a portion of its existing power supply portfolio, for its pilot program through a utility aggregation cooperative, include generating facilities that may be already in service or may be first placed into service at any time;

3. Utilize generating facilities of any generating capacity for its pilot program;

4. Physically locate the generating facilities used for the pilot program inside or outside of its certificated service territory;

5. Design its voluntary companion rate schedule in coordination with one or more utility consumer services cooperatives, such that participating subscribers from both cooperatives subscribe to an identical rate schedule;
6. Permanently end its pilot program for all subscribers according to the terms of the voluntary companion rate schedule; and

7. Recover pilot program costs that are not recovered through the voluntary companion rate schedule by including unrecovered purchased power expense in the cooperative's cost of purchased power and through a regulatory asset for unrecovered costs that are not purchased power expense, subject to the oversight of the cooperative's board of directors, which regulatory asset shall be approved by the Commission.

D. The participation of retail customers in a pilot program administered by a participating utility in the Commonwealth is in the public interest. Voluntary companion rate schedules approved by the Commission pursuant to this section are necessary in order to acquire information which is in furtherance of the public interest. The Commission shall approve the recovery of pilot program costs that it deems to be reasonable and prudent. The Commission shall also approve the pilot program design, the voluntary companion rate schedule, and the portfolio of participating generating facilities. No Commission review or approval of individual participating generating facilities, agreements, sites, or RFPs shall be required pursuant to this section or any other section of the Code.

E. Any voluntary companion rate schedule approved by the Commission pursuant to this section shall not be considered a tariff for electric energy provided 100 percent from renewable energy pursuant to § 56-577.

F. Each participating utility shall report on the status of its pilot program, including the number of subscribing customers, to the Governor, the Commission, and the Chairmen of the House and Senate Commerce and Labor Committees. The report shall be filed the earlier of (i) three years after the date a customer of the participating utility first subscribes to its pilot program or (ii) July 1, 2022. If a participating utility closes its pilot program to new subscribers pursuant to subdivision B 14, it shall notify the Governor, the Commission, and the Chairmen of the House and Senate Commerce and Labor Committees not later than three months after such closure, which notification shall (a) describe the reasons for the closure and (b) be provided in lieu of the status report otherwise required by this subsection.

G. At any time after filing its report on the status of its pilot program as required by subsection F, a participating utility may, in its application proceeding, move the Commission to make its pilot program permanent. The motion shall include a compliance filing with conforming changes to the participating utility's applicable rate schedules. Upon the Commission's granting of the motion, the pilot program shall become a regular rate schedule of the participating utility.

§ 56-585.3. Regulation of cooperative rates after rate caps.

A. After the expiration or termination of capped rates, the rates, terms and conditions of distribution electric cooperatives subject to Article 1 (§ 56-231.15 et seq.) of Chapter 9.1 of this title shall be regulated in accordance with the provisions of Chapters 9.1 (§ 56-231.15 et seq.) and 10 (§ 56-232 et seq.) of this title, as modified by the following provisions:

1. Except for energy related cost (fuel cost), the Commission shall not require any cooperative to adjust, modify, or revise its rates, by means of riders or otherwise, to reflect changes in wholesale power cost which occurred during the capped rate period, other than in a general rate proceeding;

2. Each cooperative may, without Commission approval or the requirement of any filing other than as provided in this subdivision, upon an affirmative resolution of its board of directors, increase or decrease all classes of its rates for distribution services at any time, provided, however, that such adjustments will not effect a cumulative net increase or decrease in excess of five percent in such rates in any three-year period. Such adjustments will not affect or be limited by any existing fuel or wholesale power cost adjustment provisions. The cooperative will promptly file any such revised rates with the Commission for informational purposes;

3. Each cooperative may, without Commission approval, upon an affirmative resolution of its board of directors, make any adjustment to its terms and conditions that does not affect the cooperative's revenues from the distribution or supply of electric energy. In addition, a cooperative may make such adjustments to any pass-through of third-party service charges and fees, and to any fees, charges and deposits set out in Schedule F of such cooperative's Terms and Conditions filed as of January 1, 2007. The cooperative will promptly file any such amended terms and conditions with the Commission for informational purposes;

4. Each cooperative may, without Commission approval or the requirement of any filing other than as provided in this subdivision, upon an affirmative resolution of its board of directors, make any adjustment to its rates reasonably calculated to collect any or all of the fixed costs of owning and operating its electric distribution system, including without limitation, such costs as are identified as customer-related costs in a cost of service study, through a new or modified fixed monthly charge, rather than through volumetric charges associated with the use of electric energy or demand, or to rebalance among any of the fixed monthly charge, distribution demand, and distribution energy; however, such adjustments shall be revenue neutral based on the cooperative's determination of the proper intra-class allocation of the revenues produced by its then current rates. If a rate class contains a supply demand charge, the cooperative may rebalance its rate for electricity supply service pursuant to this subdivision. The cooperative shall promptly file any such revised tariffs reflecting any such adjustments with the Commission for informational purposes; and

5. A cooperative may, at any time after the expiration or termination of capped rates, petition the Commission for approval of one or more rate adjustment clauses for the timely and current recovery from customers of the costs described in subdivisions A 5 b and e of § 56-585.1.
B. None of the adjustments described in subdivisions A 2 through A 5 will apply to the rates paid by any customer that takes service by means of dedicated distribution facilities and had noncoincident peak demand in excess of 90 megawatts in calendar year 2006.

C. Nothing in this section shall be deemed to grant to a cooperative any authority to amend or adjust any terms and conditions of service or agreements regarding pole attachments or the use of the cooperative's poles or conduits.

§ 56-585.4. Net energy metering transition provisions for electric cooperatives.

Distribution electric cooperatives subject to Article 1 (§ 56-231.15 et seq.) of Chapter 9.1 shall be regulated in accordance with the provisions of Chapters 9.1 (§ 56-231.15 et seq.) and 10 (§ 56-232 et seq.), as amended by relevant sections of this chapter and by the following provisions:

1. Notwithstanding anything to the contrary in this title, each cooperative may, without Commission approval or the requirement of any filing other than as provided in this subdivision, upon the adoption by its board of directors of a resolution so providing, make adjustments in the cooperative's rates, terms, conditions, and rate schedules governing net energy metering as provided in this section by electing to subject itself to the provisions of this section. The cooperative promptly shall (i) file such resolution and notice with the Commission for informational purposes and (ii) place a notice of its board of directors' adoption of such resolution (the Cooperative Net Energy Metering Transition Notice) on the cooperative's website. The Cooperative Net Energy Metering Transition Notice shall contain an initial election date and a date upon which, for each class of net energy metering customer, the transition shall become effective upon the first to occur of (a) the date the cooperative reaches the cap set forth in subsection F of § 56-594.01 or (b) five years following the date of the initial Cooperative Net Energy Metering Transition Notice. If a cooperative transitions a given class of customers as a result of reaching a cap set forth in subsection F of § 56-594.01, the effectiveness of such transition shall be permanent, regardless of future changes in the cooperative's system peak. A Cooperative Net Energy Metering Transition Notice may be amended and refiled as the cooperative deems appropriate at any time. Any eligible customer-generator as defined in § 56-594 that was interconnected prior to a transition start date enumerated in a Cooperative Net Energy Metering Transition Notice may continue to participate in net energy metering pursuant to the terms of § 56-594.01 until July 1, 2039.

2. After the transition date for a class of customers, any standby charges implemented by the cooperative pursuant to subsection H of § 56-594.01 shall be eliminated and are prohibited. The cooperative may make any necessary changes to rate schedules or terms and conditions and shall promptly file the same with the Commission for informational purposes.

3. Whenever the cooperative's transition date occurs, the cooperative may establish and publish, without Commission approval or the requirement of any filing other than as provided in this subdivision, a new rate schedule or rider for purposes of its new net energy metering program established pursuant to this section and shall promptly file the same with the Commission for informational purposes.

4. The new rate schedule or rider described in subdivision 3 may contain a demand charge or charges for distribution, supply, or both, based upon a customer's monthly, ratcheted, or 60-minute absolute value noncoincident peak demand for customers that were not previously subject to demand charges in each rate class; however, such demand charges shall be revenue neutral based on the cooperative's determination of the proper intra-class allocation of the revenues produced by its then-current rates serving the same rate class of customer. The cooperative shall implement such new demand charge through the provisions of subdivision 5. The cooperative shall file promptly revised tariffs reflecting any such new demand charges with the Commission for informational purposes. The demand charge component of any net energy metering rate class derived from a rate class with a preexisting demand charge shall remain fixed for a period of five years.

5. Demand charges shall be set to zero. In the second year of the five-year period, the demand charges shall not exceed $0.25 per kilowatt of distribution demand and $0.25 per kilowatt of supply demand. In the third year of the five-year period, the demand charges shall not exceed $0.50 per kilowatt of distribution demand and $0.50 per kilowatt of supply demand. In the fourth year of the five-year period, the demand charges shall not exceed $0.75 per kilowatt of distribution demand and $0.75 per kilowatt of supply demand. In the fifth year of the five-year period, the demand charges shall not exceed $1 per kilowatt of distribution demand and $1 per kilowatt of supply demand.

6. After the transition date for a given class of customers, the following caps, which shall be in lieu of the caps established by subsection F of § 56-594.01, shall apply to net energy metering for that class of customer. The caps shall be calculated as described in subsection F of § 56-594.01 except that the caps shall be adjusted as follows, expressed in
alternating current nameplate capacity of the generators: three percent of system peak for residential customers, four percent of system peak for not-for-profit and nonjurisdictional customers, and two percent for other nonresidential customers.

7. After the transition date for a given class of customers, only the following restrictions shall apply to the capacity of a net energy metering electrical generating facility:
   a. For nonresidential customers, the maximum capacity shall not exceed the least of:
      (1) 1.2 megawatts alternating current;
      (2) One percent of the cooperative's system peak calculated according to the methodology described in subsection F of § 56-594.01; or
      (3) The expected annual energy consumption based on the previous 12 months of billing history or an annualized calculation of billing history if 12 months of billing history is not available; and
   b. For residential customers, the maximum capacity shall not exceed 125 percent of the expected annual energy consumption based on the previous 12 months of billing history or an annualized calculation of billing history if 12 months of billing history is not available.

8. After the transition date for a given class of customers, third-party partial requirements power purchase agreements entered into with registered providers shall be permitted for that class of customer pursuant to subsection K of § 56-594.01.

A. The Commission shall establish by regulation a program that affords eligible customer-generators the opportunity to participate in net energy metering, and a program, to begin no later than July 1, 2014, for customers of investor-owned utilities and to begin no later than July 1, 2015, and to end July 1, 2019, for customers of electric cooperatives as provided in subsection G, to afford eligible agricultural customer-generators the opportunity to participate in net energy metering. The regulations may include, but need not be limited to, requirements for (i) retail sellers; (ii) owners or operators of distribution or transmission facilities; (iii) providers of default service; (iv) eligible customer-generators; (v) eligible agricultural customer-generators; or (vi) any combination of the foregoing, as the Commission determines will facilitate the provision of net energy metering, provided that the Commission determines that such requirements do not adversely affect the public interest. On and after July 1, 2017, small agricultural generators or eligible agricultural customer-generators may elect to interconnect pursuant to the provisions of this section or as small agricultural generators pursuant to § 56-594.2, but not both. Existing eligible agricultural customer-generators may elect to become small agricultural generators, but may not revert to being eligible agricultural customer-generators after such election. On and after July 1, 2019, interconnection of eligible agricultural customer-generators shall cease for electric cooperatives only, and such facilities shall interconnect solely as small agricultural generators. For electric cooperatives, eligible agricultural customer-generators whose renewable energy generating facilities were interconnected before July 1, 2019, may continue to participate in net energy metering pursuant to this section for a period not to exceed 25 years from the date of their renewable energy generating facility's original interconnection.

B. For the purpose of this section:
   "Eligible agricultural customer-generator” means a customer that operates a renewable energy generating facility as part of an agricultural business, which generating facility (i) uses as its sole energy source solar power, wind power, or aerobic or anaerobic digester gas, (ii) does not have an aggregate generation capacity of more than 500 kilowatts, (iii) is located on land owned or controlled by the agricultural business, (iv) is connected to the customer's wiring on the customer's side of its interconnection with the distributor; (v) is interconnected and operated in parallel with an electric company's transmission and distribution facilities, and (vi) is used primarily to provide energy to metered accounts of the agricultural business. An eligible agricultural customer-generator may be served by multiple meters that are located at separate but contiguous sites, such that the eligible agricultural customer-generator may aggregate in a single account the electricity consumption and generation measured by the meters, provided that the same utility serves all such meters. The aggregated load shall be served under the appropriate tariff.

   "Eligible customer-generator” means a customer that owns and operates, or contracts with other persons to own, operate, or both, an electrical generating facility that (i) has a capacity of not more than 20 kilowatts for residential customers and not more than one megawatt for nonresidential customers on an electrical generating facility placed in service after July 1, 2015; (ii) uses as its total source of fuel renewable energy, as defined in § 56-576; (iii) is located on the customer's premises and is connected to the customer's wiring on the customer's side of its interconnection with the distributor; (iv) is interconnected and operated in parallel with an electric company's transmission and distribution facilities; and (v) is intended primarily to offset all or part of the customer's own electricity requirements. In addition to the electrical generating facility size limitations in clause (i), the capacity of any generating facility installed under this section after July 1, 2015, shall not exceed the expected annual energy consumption based on the previous 12 months of billing history or an annualized calculation of billing history if 12 months of billing history is not available.

   "Net energy metering” means measuring the difference, over the net metering period, between (i) electricity supplied to an eligible customer-generator or eligible agricultural customer-generator from the electric grid and (ii) the electricity generated and fed back to the electric grid by the eligible customer-generator or eligible agricultural customer-generator.

   "Net metering period" means the 12-month period following the date of final interconnection of the eligible customer-generator's or eligible agricultural customer-generator's system with an electric service provider, and each 12-month period thereafter.
"Small agricultural generator" has the same meaning that is ascribed to that term in § 56-594.2.

C. The Commission's regulations shall ensure that (i) the metering equipment installed for net metering shall be capable of measuring the flow of electricity in two directions and (ii) any eligible customer-generator seeking to participate in net energy metering shall notify its supplier and receive approval to interconnect prior to installation of an electrical generating facility. The electric distribution company shall have 30 days from the date of notification for residential facilities, and 60 days from the date of notification for nonresidential facilities, to determine whether the interconnection requirements have been met. Such regulations shall allocate fairly the cost of such equipment and any necessary interconnection. An eligible customer-generator's electrical generating system, and each electrical generating system of an eligible agricultural customer-generator, shall meet all applicable safety and performance standards established by the National Electrical Code, the Institute of Electrical and Electronics Engineers, and accredited testing laboratories such as Underwriters Laboratories. Beyond the requirements set forth in this section and to ensure public safety, power quality, and reliability of the supplier's electric distribution system, an eligible customer-generator or eligible agricultural customer-generator whose electrical generating system meets those standards and rules shall bear all reasonable costs of equipment required for the interconnection to the supplier's electric distribution system, including costs, if any, to (a) install additional controls, (b) perform or pay for additional tests, and (c) purchase additional liability insurance.

D. The Commission shall establish minimum requirements for contracts to be entered into by the parties to net metering arrangements. Such requirements shall protect the eligible customer-generator or eligible agricultural customer-generator against discrimination by virtue of its status as an eligible customer-generator or eligible agricultural customer-generator, and permit customers that are served on time-of-use tariffs that have electricity supply demand charges contained within the electricity supply portion of the time-of-use tariffs to participate as an eligible customer-generator or eligible agricultural customer-generator. Notwithstanding the cost allocation provisions of subsection C, eligible customer-generators or eligible agricultural customer-generators served on demand charge-based time-of-use tariffs shall bear the incremental metering costs required to net meter such customers.

E. If electricity generated by an eligible customer-generator or eligible agricultural customer-generator over the net metering period exceeds the electricity consumed by the eligible customer-generator or eligible agricultural customer-generator, the customer-generator or eligible agricultural customer-generator shall be compensated for the excess electricity if the entity contracting to receive such electric energy and the eligible customer-generator or eligible agricultural customer-generator enter into a power purchase agreement for such excess electricity. Upon the written request of the eligible customer-generator or eligible agricultural customer-generator, the supplier that serves the eligible customer-generator or eligible agricultural customer-generator shall enter into a power purchase agreement with the requesting eligible customer-generator or eligible agricultural customer-generator that is consistent with the minimum requirements for contracts established by the Commission pursuant to subsection D. The power purchase agreement shall obligate the supplier to purchase such excess electricity at the rate that is provided for such purchases in a net metering standard contract or tariff approved by the Commission, unless the parties agree to a higher rate. The eligible customer-generator or eligible agricultural customer-generator owns any renewable energy certificates associated with its electrical generating facility; however, at the time that the eligible customer-generator or eligible agricultural customer-generator enters into a power purchase agreement with its supplier, the eligible customer-generator or eligible agricultural customer-generator shall have a one-time option to sell the renewable energy certificates associated with such electrical generating facility to its supplier and be compensated at an amount that is established by the Commission to reflect the value of such renewable energy certificates. Nothing in this section shall prevent the eligible customer-generator or eligible agricultural customer-generator and the supplier from voluntarily entering into an agreement for the sale and purchase of excess electricity or renewable energy certificates at mutually-agreed upon prices if the eligible customer-generator or eligible agricultural customer-generator does not exercise its option to sell its renewable energy certificates to its supplier at Commission-approved prices at the time that the eligible customer-generator or eligible agricultural customer-generator enters into a power purchase agreement with its supplier. All costs incurred by the supplier to purchase excess electricity and renewable energy certificates from eligible customer-generators or eligible agricultural customer-generators shall be recoverable through its Renewable Energy Portfolio Standard (RPS) rate adjustment clause, if the supplier has a Commission-approved RPS plan. If not, then all costs shall be recoverable through the supplier's fuel adjustment clause. For purposes of this section, "all costs" shall be defined as the rates paid to the eligible customer-generator or eligible agricultural customer-generator for the purchase of excess electricity and renewable energy certificates and any administrative costs incurred to manage the eligible customer-generator's or eligible agricultural customer-generator's power purchase arrangements. The net metering standard contract or tariff shall be available to eligible customer-generators or eligible agricultural customer-generators on a first-come, first-served basis in each electric distribution company's Virginia service area until the rated generating capacity owned and operated by eligible customer-generators, eligible agricultural customer-generators, and small agricultural generators in the state Commonwealth reaches one percent of each electric distribution company's adjusted Virginia peak-load forecast for the previous year (the systemwide cap), and shall require the supplier to pay the eligible customer-generator or eligible agricultural customer-generator for such excess electricity in a timely manner at a rate to be established by the Commission.

F. Any residential eligible customer-generator or eligible agricultural customer-generator who owns and operates, or contracts with other persons to own, operate, or both, an electrical generating facility with a capacity that exceeds 10 kilowatts shall pay to its supplier, in addition to any other charges authorized by law, a monthly standby charge. The
amount of the standby charge and the terms and conditions under which it is assessed shall be in accordance with a methodology developed by the supplier and approved by the Commission. The Commission shall approve a supplier's proposed standby charge methodology if it finds that the standby charges collected from all such eligible customer-generators and eligible agricultural customer-generators allow the supplier to recover only the portion of the supplier's infrastructure costs that are properly associated with serving such eligible customer-generators or eligible agricultural customer-generators. Such an eligible customer-generator or eligible agricultural customer-generator shall not be liable for a standby charge until the date specified in an order of the Commission approving its supplier's methodology.

G. On and after the later of July 1, 2019, or the effective date of regulations that the Commission is required to adopt pursuant to § 56-594.01, (i) net energy metering in the service territory of each electric cooperative shall be conducted as provided in a program implemented pursuant to § 56-594.01 and (ii) the provisions of this section shall not apply to net energy metering in the service territory of an electric cooperative except as provided in § 56-594.01.

§ 56-594.01. Net energy metering provisions for electric cooperative service territories.
A. The Commission shall establish by regulation a program that affords eligible customer-generators the opportunity to participate in net energy metering in the service territory of each electric cooperative, which program shall commence on the later of July 1, 2019, or the effective date of such regulations. Such regulations shall be similar to existing regulations promulgated pursuant to § 56-594. In lieu of adopting new regulations, the Commission may amend such existing regulations to apply to electric cooperatives with such revisions as are required to comply with the provisions of this section. The regulations may include requirements applicable to (i) retail sellers, (ii) owners or operators of distribution or transmission facilities, (iii) providers of default service, (iv) eligible customer-generators, or (v) any combination of the foregoing, as the Commission determines will facilitate the provision of net energy metering, provided that the Commission determines that such requirements do not adversely affect the public interest.

B. As used in this section:
"Eligible customer-generator" means a customer that owns and operates, or contracts with other persons to own, operate, or both, an electrical generating facility that (i) has a capacity of not more than 20 kilowatts for residential customers and not more than one megawatt for nonresidential customers on an electrical generating facility located in service after July 1, 2015, (ii) uses as its total source of fuel renewable energy as defined in § 56-576; (iii) is located on the customer's premises and is connected to the customer's wiring on the customer's side of its interconnection with the distributor; (iv) is interconnected and operated in parallel with an electric company's transmission and distribution facilities; and (v) is intended primarily to offset all or part of the customer's own electricity requirements. In addition to the electrical generating facility size limitations in clause (i), the capacity of any generating facility installed under this section after July 1, 2015, shall not exceed the expected annual energy consumption based on the previous 12 months of billing history or an annualized calculation of billing history if 12 months of billing history is not available.

"Net energy metering" means measuring the difference, over the net metering period, between (i) electricity supplied to an eligible customer-generator from the electric grid and (ii) the electricity generated and fed back to the electric grid by the eligible customer-generator.

"Net metering period" means the 12-month period following the date of final interconnection of the eligible customer-generator's system with an electric service provider, and each 12-month period thereafter.

C. The Commission's regulations shall ensure that (i) the metering equipment installed for net metering shall be capable of measuring the flow of electricity in two directions and (ii) any eligible customer-generator seeking to participate in net energy metering shall notify its supplier and receive approval to interconnect prior to installation of an electrical generating facility. The Commission shall publish a form for such prior notice and such notice shall be processed promptly by the supplier prior to any construction activity taking place. After construction, inspection and documentation thereof shall be required prior to interconnection. The electric distribution company shall have 30 days from the date of each notification for residential facilities, and 60 days from the date of each notification for nonresidential facilities, to determine whether the interconnection requirements have been met. Such regulations shall allocate fairly the cost of such equipment and any necessary interconnection. An eligible customer-generator's electrical generating system shall meet all applicable safety and performance standards established by the National Electrical Code, the Institute of Electrical and Electronics Engineers, and accredited testing laboratories such as Underwriters Laboratories. In addition to the requirements set forth in this section and to ensure public safety, power quality, and reliability of the supplier's electric distribution system, an eligible customer-generator whose electrical generating system meets those standards and rules shall bear all reasonable costs of equipment required for the interconnection to the supplier's electric distribution system, including costs, if any, to (a) install additional controls, (b) perform or pay for additional tests, and (c) purchase additional liability insurance. An electric cooperative may publish and use its own forms, including an electronic form, for purposes of implementing the regulations described herein so long as the information collected on the Commission's form is also collected by the cooperative and submitted to the Commission.

D. The Commission shall establish minimum requirements for contracts to be entered into by the parties to net metering arrangements. Such requirements shall protect the eligible customer-generator against discrimination by virtue of its status as an eligible customer-generator and permit customers that are served on time-of-use tariffs that have electricity supply demand charges contained within the electricity supply portion of the time-of-use tariffs to participate as an eligible customer-generator. Notwithstanding the cost allocation provisions of subsection C, eligible customer-generators served on demand charge-based time-of-use tariffs shall bear the incremental metering costs required to net meter such customers.
E. If electricity generated by an eligible customer-generator over the net metering period exceeds the electricity consumed by the eligible customer-generator, the customer-generator shall be compensated for the excess electricity if the entity contracting to receive such electric energy and the eligible customer-generator enter into a power purchase agreement for such excess electricity. Upon the written request of the eligible customer-generator, the supplier that serves the eligible customer-generator shall enter into a power purchase agreement with the requesting eligible customer-generator that is consistent with the minimum requirements for contracts established by the Commission pursuant to subsection D. The power purchase agreement shall obligate the supplier to purchase such excess electricity at the rate that is provided for such purchases in a net metering standard contract or tariff approved by the Commission, unless the parties agree to a higher rate. The eligible customer-generator owns any renewable energy certificates associated with its electrical generating facility; however, at the time that the eligible customer-generator enters into a power purchase agreement with its supplier, the eligible customer-generator shall have a one-time option to sell the renewable energy certificates associated with such electrical generating facility to its supplier and be compensated at an amount that is established by the Commission to reflect the value of such renewable energy certificates. Nothing in this section shall prevent the eligible customer-generator and the supplier from voluntarily entering into an agreement for the sale and purchase of excess electricity or renewable energy certificates at mutually agreed upon prices if the eligible customer-generator does not exercise its option to sell its renewable energy certificates to its supplier at Commission-approved prices at the time that the eligible customer-generator enters into a power purchase agreement with its supplier. All costs incurred by the supplier to purchase excess electricity and renewable energy certificates from eligible customer-generators shall be recoverable through its fuel adjustment clause. For purposes of this section, "all costs" shall be defined as the rates paid to the eligible customer-generator for the purchase of excess electricity and renewable energy certificates and any administrative costs incurred to manage the eligible customer-generator’s power purchase arrangements. The net metering standard contract or tariff shall be available to eligible customer-generators on a first-come, first-served basis, subject to the provisions of subsection F, and shall require the supplier to pay the eligible customer-generator for such excess electricity in a timely manner at a rate to be established by the Commission.

F. Net energy metering shall be open to customers on a first-come, first-served basis until such time as the total capacity of the generation facilities, expressed in alternating current nameplate, reaches two percent of system peak for residential customers, two percent of system peak for not-for-profit and nonjurisdictional customers, and one percent of system peak for other nonresidential customers, which are herein referred to as the electric cooperative’s caps. As used in this subsection, "percent of system peak" refers to a percentage of the electric cooperative’s highest total system peak, based on the noncoincident peak of the electric cooperative or the coincident peak of all of the electric cooperative’s customers, within the past three years as listed in Part O, Line 20 of Form 7 filed with the Rural Utilities Service or its equivalent, less any portion of the cooperative’s total load that is served by a competitive service provider or by a market-based rate. Such caps shall not decrease but may increase if the system peak in any year exceeds the previous year’s system peak. Nothing in this subsection shall amend or confer new rights upon any existing nonjurisdictional contract or arrangement or work to submit any nonjurisdictional customer, contract, or arrangement to the jurisdiction of the Commission. For purposes of calculating the caps established in this subsection, all net energy metering shall be counted, whenever interconnected, and shall include net energy metering interconnected pursuant to § 56-594, agricultural net energy metering, and any net energy metering entered into with a third-party provider registered pursuant to subsection K. Net energy metering with nonjurisdictional customers entered into prior to July 1, 2019, may be counted toward the caps, in the discretion of the cooperative, as net energy metering if the nonjurisdictional customer takes service pursuant to a cooperative’s net energy metering rider. Net energy metering with nonjurisdictional customers entered into on or after July 1, 2019, shall be counted toward the caps by default unless the cooperative has reason to exclude such net energy metering as subject to a separate contract or arrangement. Each electric cooperative governed by this section shall publish information regarding the calculation and status of its caps pursuant to this subsection, or the electric cooperative’s systemwide cap established in § 56-585.4 if applicable, on the electric cooperative’s website.

G. An electric cooperative may, without Commission approval or the requirement of any filing other than as provided in this subsection, upon the adoption by its board of directors of a resolution so providing, raise the caps established in subsection F up to a cumulative total of seven percent of system peak, calculated according to the methodology described in subsection F, with any increase allocated among residential, not-for-profit and nonjurisdictional, and other nonresidential customers as the board of directors may find to be in the interests of the electric cooperative’s membership. The electric cooperative shall promptly file a revised net energy metering compliance filing with the Commission for informational purposes.

H. Any residential eligible customer-generator who owns and operates, or contracts with other persons to own, operate, or both, an electrical generating facility with a capacity that exceeds 10 kilowatts shall pay to its supplier, in addition to any other charges authorized by law, a monthly standby charge. The amount of the standby charge and the terms and conditions under which it is assessed shall be in accordance with a methodology developed by the supplier and approved by the Commission. The Commission shall approve a supplier’s proposed standby charge methodology if it finds that the standby charges collected from all such eligible customer-generators allow the supplier to recover only the portion of the supplier’s infrastructure costs that are properly associated with serving such eligible customer-generators. Such an eligible customer-generator shall not be liable for a standby charge until the date specified in an order of the Commission approving its supplier’s methodology.
I. Any eligible agricultural customer-generator interconnected in an electric cooperative service territory prior to July 1, 2019, shall continue to be governed by § 56-594 and the regulations adopted pursuant thereto throughout the grandfathering period described in subsection A of § 56-594.

J. Any eligible customer-generator served by a competitive service provider pursuant to the provisions of § 56-577 shall engage in net energy metering only with such supplier and pursuant only to tariffs filed by such supplier. Such an eligible customer-generator shall pay the full portion of its distribution charges, without offset or netting, to its electric cooperative.

K. After the conclusion of the Commission's rulemaking proceeding pursuant to subsection L, third-party partial requirements power purchase agreements, the purpose of which is to finance the purchase of renewable generation facilities by eligible customer-generators through the sale of electricity, shall be permitted pursuant to the provisions of this section only for those retail customers and nonjurisdictional customers of the electric cooperative that are exempt from federal income taxation, unless otherwise permitted by § 56-585.4. No person shall offer a third-party partial requirements power purchase agreement in the service territory of an electric cooperative without fulfilling the registration requirements set forth in this section and complying with applicable Commission rules, including those adopted pursuant to subdivision L.2.

L. After August 1, 2019, but before January 1, 2020, the Commission shall initiate a rulemaking proceeding to promulgate the regulations necessary to implement this section as follows:

1. In conducting such a proceeding, the Commission may require notice to be given to current eligible customer-generators and eligible agricultural customer-generators but shall not require general publication of the notice. An opportunity to request a hearing shall be afforded, but a hearing is not required. In the rulemaking proceeding, the electric cooperatives governed by this section shall be required to submit compliance filings, but no other individual proceedings shall be required or conducted.

2. In promulgating regulations to govern third-party power purchase agreement providers as retail sellers, the Commission shall:
   a. Direct the staff to administer a registration system for such providers;
   b. Enumerate in its regulations the jurisdiction of the Commission over providers, generally limited in scope to the behavior of providers, customer complaints, and their compliance with the registration requirements and stating clearly that civil contract disputes and claims for damages against providers shall not be subject to the jurisdiction of the Commission;
   c. Establish enumerate in its regulations the maximum extent of its authority over the providers, to be limited to any or all of:
      (1) Monetary penalties against registered providers not to exceed $30,000 per provider registration;
      (2) Orders for providers to cease or desist from a certain practice, act, or omission;
      (3) Debarment of registered providers;
      (4) The issuance of orders to show cause; and
      (5) Authority incident to subdivisions (1) through (4);
   d. Delineate in its regulations two classes of providers, one for residential customers and one for nonresidential customers;
   e. Direct the staff to set up a self-certification system as described in this subdivision;
   f. Establish business practice and consumer protection standards from a national renewable energy association whose business is germane to the businesses of the providers;
   g. Require providers to comply with other applicable Commission regulations governing interconnection and safety, including utility procedures governing the same;
   h. Require minimum capitalization or other bond or surety that, in the judgment of the Commission, is necessary for adequate consumer protection and in the public interest;
   i. Require the payment of a fee of $250 for residential and nonresidential provider registration; and
   j. Provide that no registered provider, by virtue of that status alone, shall be considered a public utility or competitive service provider for purposes of this title.

3. The self-certification system described in this subdivision shall require a provider to affirm to the staff, under the penalty of revocation of registration, (i) that it is licensed to do business in Virginia; (ii) the names of the responsible officers of the provider entity; (iii) that its named officers have no felony convictions or convictions for crimes of moral turpitude; (iv) that it will abide by all applicable Commission regulations promulgated under this section or for purposes of interconnections and safety; (v) that it will appoint an officer to be a primary liaison to the staff; (vi) that it will appoint an employee to be a primary contact for customer complaints; (vii) that it will have and disclose to customers a dispute resolution procedure; (viii) that it has specified in its registration materials in which territories it intends to offer power purchase agreements; (ix) that it, and each of its named officers, agree to submit themselves to the jurisdiction of the Commission as described in this subdivision; and (x) that, once registered, the provider shall report any material changes in its registration materials to the staff, as a continuing obligation of registration. The staff shall send a copy of the registration materials to each cooperative in whose territory the provider intends to offer power purchase agreements. The staff, once satisfied that the certifications required pursuant to this subdivision are complete, and not more than 30 days following the initial and complete submittal of the registration materials, shall enter the provider onto the official register of providers. No formal Commission proceeding is required for registration but may be initiated if the staff (a) has reason to
The State Corporation Commission, the office of Consumer Counsel of the Attorney General, from proceeding in a cause of action under the Virginia Consumer Protection Act, § 59.1-196 et seq.

The Commission shall complete such rulemaking procedure within 12 months of its initiation.

2. That no later than 60 days after the effective date of this act each Phase II Utility, as such term is defined in subdivision A 1 of § 56-585.1 of the Code of Virginia, shall convene a stakeholder process to make recommendations to the utility concerning (i) the development of retail rate schedules designed to offer time-varying pricing that take advantage of advanced metering technology in customer information systems; (ii) the development of incentive programs for the installation of equipment to develop electric energy derived from sunlight for customers using advanced metering technology served under such time-varying rate schedules; (iii) the possible transition of net metering customers using advanced metering technology to the time-varying rate schedules; (iv) peak shaving programs; (v) the provision of on-site distributed renewable generation to multifamily dwellings; and (vi) related system effects and requirements arising from distributed generation resources. An independent facilitator with expertise in rate design, cost recovery, and solar markets, compensated by the utility, shall facilitate such stakeholder process. The utility shall consult with the stakeholder group and the State Corporation Commission prior to engaging the independent facilitator. Such stakeholder process shall include representatives from the utility, the State Corporation Commission, the office of Consumer Counsel of the Attorney General, the Department of Mines, Minerals and Energy, net-metering program administrators, customer-generators, agricultural customer-generators, solar energy program implementers, solar energy providers, other residential and small business customers, and any other interested stakeholder who the utility deems appropriate for inclusion in such process. The utility shall report on the status of the work of the stakeholder group and the programs developed in conjunction with such stakeholder group, including the petitions filed and the determination thereon, to the Governor, the State Corporation Commission, and the Chairmen of the House and Senate Committees on Commerce and Labor on January 1, 2020, and thereafter on January 1 of each successive year. The scope of the work of the stakeholder group convened pursuant to this enactment shall include the following:

1. In developing the retail rate schedules designed to offer time-varying pricing that take advantage of advanced metering technology, the stakeholder group shall include at least one non-demand schedule.

2. In developing incentive programs for the installation of equipment to develop electric energy derived from sunlight for customers using advanced metering technology served under such time-varying rate schedules, the stakeholder group shall seek to accelerate solar development without adversely impacting other non-solar customers and to establish appropriate incentives to sustain the program, including consideration of the expiration of federal tax incentives available. Any such incentive program shall be limited to net-metering customers until other customers receive advanced metering technology.

3. In developing recommendations for the possible transition of net metering customers to the time-varying rate schedules, the stakeholder group shall (i) recommend the timing and increases in the net-metering cap to take advantage of the deployment of advanced metering technology and the approval of time-varying rate schedules, in a range estimated to be between two percent and four percent, and (ii) recommend appropriate increases in customer class caps, aligned with potential system cap increases, and the timing of deployment of advanced metering technology, taking into consideration infrastructure costs and rate impacts of higher solar distributed generation capacity. The stakeholder group shall recommend capacity and market milestones for growth of solar distributed generation capacity.

4. The stakeholder group shall develop recommendations related to distributed generation resources, including rate design options for the possible transition from retail net metering to successor time-varying rate schedules, recognizing the dependency of such rate design to the deployment of advanced metering technology. The stakeholder group design shall encourage rate stability and allow sufficient transition time for customer education. The stakeholder group shall seek to encourage voluntary transition to time-varying rate schedules and shall provide mechanisms to gather data from such early adopters in order to minimize program impacts on existing net metering customers and other ratepayers. The stakeholder group shall make recommendations about the appropriate grandfathering of existing net metering customers who elect not to be served under the time-varying rate schedules.

5. The stakeholder group may address the availability of power purchase agreements, standby and demand charges, Schedule 19 PURPA contracts, distributed generation storage deployment, and other topics that the facilitator deems appropriate.

3. That on or before March 1, 2020, a Phase II Utility, as such term is defined in subdivision A 1 of § 56-585.1 of the Code of Virginia, shall develop and submit to the State Corporation Commission for approval retail rate schedules designed to offer time-varying pricing, including at least one non-demand rate schedule. Customer-generators or agricultural customer-generators participating in net metering may elect to be served under such time-varying rate schedule at such time as the customer-generator or agricultural customer-generator is served by advanced-metering technology equipment satisfactory to the utility.
4. That on or before March 1, 2020, a Phase II Utility, as such term is defined in subdivision A 1 of § 56-585.1 of the Code of Virginia, shall develop and submit to the State Corporation Commission for approval an incentive program for the installation of equipment to develop electric energy derived from sunlight for customers served under time-varying retail rate schedules that have advanced-metering technology equipment satisfactory to the utility.

Be it enacted by the General Assembly of Virginia:

1. § 1. The Department of Education, in consultation with appropriate stakeholders, including a parent of a currently-enrolled public school student diagnosed with dyslexia, shall develop a plan to implement a pilot program to incorporate additional diagnostic tools into reading diagnostic tests used for screening students in kindergarten through grade three. Such plan shall consider the appropriate interventions and services for students identified through such additional diagnostic tools and the resources that are necessary for the implementation of such interventions and services. The Department of Education shall submit such plan to the Chairmen of the House Committee on Education, the Senate Committee on Education and Health, the House Committee on Appropriations, and the Senate Committee on Finance no later than December 1, 2019.

Members of the General Assembly shall be ineligible to serve on boards, commissions, and councils within the executive branch of state government who are responsible for administering programs established by the General Assembly. Such prohibition shall not extend to boards, commissions, and councils engaged solely in policy studies or commemorative activities. If any law directs the appointment of any member of the General Assembly to a board, commission, or council in the executive branch of state government that is responsible for administering programs established by the General Assembly, such portion of such law shall be void, and the Governor shall appoint another person from the Commonwealth at large to fill such a position.

An Act to direct the Department of Education to encourage school boards of school divisions that have a significant number of enrolled military-connected students to partner with the National Math and Science Initiative.

Approved March 21, 2019

Be it enacted by the General Assembly of Virginia:

1. § 1. The Department of Education shall encourage school boards of school divisions that have a significant number of enrolled military-connected students to partner with the National Math and Science Initiative to provide such students with the tools and resources necessary to advance science, technology, engineering, and mathematics learning opportunities and career readiness. The Department shall provide technical assistance to any school board seeking to enter into such a partnership, upon request.
An Act to amend and reenact § 56-585.1 of the Code of Virginia, relating to electric utilities; energy efficiency programs.

Be it enacted by the General Assembly of Virginia:

1. That § 56-585.1 of the Code of Virginia is amended and reenacted as follows:

   § 56-585.1. Generation, distribution, and transmission rates after capped rates terminate or expire.

   A. During the first six months of 2009, the Commission shall, after notice and opportunity for hearing, initiate proceedings to review the rates, terms and conditions for the provision of generation, distribution and transmission services of each investor-owned incumbent electric utility. Such proceedings shall be governed by the provisions of Chapter 10 (§ 56-232 et seq.), except as modified herein. In such proceedings the Commission shall determine fair rates of return on common equity applicable to the generation and distribution services of the utility. In so doing, the Commission may use any methodology to determine such return it finds consistent with the public interest, but such return shall not be set lower than the average of the returns on common equity reported to the Securities and Exchange Commission for the three most recent annual periods for which such data are available by not less than a majority, selected by the Commission as specified in subdivision 2 b, of other investor-owned electric utilities in the peer group of the utility, nor shall the Commission set such return more than 300 basis points higher than such average. The peer group of the utility shall be determined in the manner prescribed in subdivision 2 b. The Commission may increase or decrease such combined rate of return by up to 100 basis points based on the generating plant performance, customer service, and operating efficiency of a utility, as compared to nationally recognized standards determined by the Commission to be appropriate for such purposes. In such a proceeding, the Commission shall determine the rates that the utility may charge until such rates are adjusted. If the Commission finds that the utility's combined rate of return on common equity is more than 50 basis points below the combined rate of return as so determined, it shall be authorized to order increases to the utility's rates necessary to provide the opportunity to fully recover the costs of providing the utility's services and to earn not less than such combined rate of return. If the Commission finds that the utility's combined rate of return on common equity is more than 50 basis points above the combined rate of return as so determined, it shall be authorized either (i) to order reductions to the utility's rates it finds appropriate, provided that the Commission may not order such rate reduction unless it finds that the resulting rates will provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than the fair rates of return on common equity applicable to the generation and distribution services; or (ii) to direct that 60 percent of the amount of the utility's earnings that were more than 50 basis points above the fair combined rate of return for calendar year 2008 be credited to customers' bills, in which event such credits shall be amortized over a period of six to 12 months, as determined at the discretion of the Commission, following the effective date of the Commission's order and be allocated among customer classes such that the relationship between the specific customer class rates of return to the overall target rate of return will have the same relationship as the last approved allocation of revenues used to design base rates. Commencing in 2011, the Commission, after notice and opportunity for hearing, shall conduct reviews of the rates, terms and conditions for the provision of generation, distribution and transmission services by each investor-owned incumbent electric utility, subject to the following provisions:

1. Rates, terms and conditions for each service shall be reviewed separately on an unbundled basis, and such reviews shall be conducted in a single, combined proceeding. Pursuant to subsection A of § 56-585.1:1, the Commission shall conduct a review for a Phase I Utility in 2020, utilizing the three successive 12-month test periods beginning January 1, 2017, and ending December 31, 2019. Thereafter, reviews for a Phase I Utility will be on a triennial basis with subsequent proceedings utilizing the three successive 12-month test periods ending December 31 immediately preceding the year in which such review proceeding is conducted. Pursuant to subsection A of § 56-585.1:1, the Commission shall conduct a review for a Phase II Utility in 2021, utilizing the four successive 12-month test periods beginning January 1, 2017, and ending December 31, 2020, with subsequent reviews on a triennial basis utilizing the three successive 12-month test periods ending December 31 immediately preceding the year in which such review proceeding is conducted. All such reviews occurring after December 31, 2017, shall be referred to as triennial reviews. For purposes of this section, a Phase I Utility is an investor-owned incumbent electric utility that was, as of July 1, 1999, not bound by a rate case settlement adopted by the Commission that extended in its application beyond January 1, 2002, and a Phase II Utility is an investor-owned incumbent electric utility that was bound by such a settlement.

2. Subject to the provisions of subdivision 6, the fair rate of return on common equity applicable separately to the generation and distribution services of such utility, and for the two such services combined, and for any rate adjustment clauses approved under subdivision 5 or 6, shall be determined by the Commission during each such triennial review, as follows:

   a. The Commission may use any methodology to determine such return it finds consistent with the public interest, but such return shall not be set lower than the average of the returns on common equity reported to the Securities and Exchange Commission for the three most recent annual periods for which such data are available by not less than a majority, selected by the Commission as specified in subdivision 2 b, of other investor-owned electric utilities in the peer group of the utility
subject to such triennial review, nor shall the Commission set such return more than 300 basis points higher than such average.

b. In selecting such majority of peer group investor-owned electric utilities, the Commission shall first remove from such group the two utilities within such group that have the lowest reported returns of the group, as well as the two utilities within such group that have the highest reported returns of the group, and the Commission shall then select a majority of the utilities remaining in such peer group. In its final order regarding such triennial review, the Commission shall identify the utilities in such peer group it selected for the calculation of such limitation. For purposes of this subdivision, an investor-owned electric utility shall be deemed part of such peer group if (i) its principal operations are conducted in the southeastern United States east of the Mississippi River in either the states of West Virginia or Kentucky or in those states south of Virginia, excluding the state of Tennessee, (ii) it is a vertically-integrated electric utility providing generation, transmission and distribution services whose facilities and operations are subject to state public utility regulation in the state where its principal operations are conducted, (iii) it had a long-term bond rating assigned by Moody's Investors Service of at least Baa at the end of the most recent test period subject to such triennial review, and (iv) it is not an affiliate of the utility subject to such triennial review.

c. The Commission may, consistent with its precedent for incumbent electric utilities prior to the enactment of Chapters 888 and 933 of the Acts of Assembly of 2007, increase or decrease the utility's combined rate of return based on the Commission's consideration of the utility's performance.

d. In any Current Proceeding, the Commission shall determine whether the Current Return has increased, on a percentage basis, above the Initial Return by more than the increase, expressed as a percentage, in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, since the date on which the Commission determined the Initial Return. If so, the Commission may conduct an additional analysis of whether it is in the public interest to utilize such Current Return for the Current Proceeding then pending. A finding of whether the Current Return justifies such additional analysis shall be made without regard to any enhanced rate of return on common equity awarded pursuant to the provisions of subdivision 6. Such additional analysis shall include, but not be limited to, a consideration of overall economic conditions, the level of interest rates and cost of capital with respect to business and industry, in general, as well as electric utilities, the current level of inflation and the utility's cost of goods and services, the effect on the utility's ability to provide adequate service and to attract capital if less than the Current Return were utilized for the Current Proceeding then pending, and such other factors as the Commission may deem relevant. If, as a result of such analysis, the Commission finds that use of the Current Return for the Current Proceeding then pending would not be in the public interest, then the lower limit imposed by subdivision 2a on the return to be determined by the Commission for such utility shall be calculated, for that Current Proceeding only, by increasing the Initial Return by a percentage at least equal to the increase, expressed as a percentage, in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, since the date on which the Commission determined the Initial Return. For purposes of this subdivision:

"Current Proceeding" means any proceeding conducted under any provisions of this subsection that require or authorize the Commission to determine a fair combined rate of return on common equity for a utility and that will be concluded after the date on which the Commission determined the Initial Return for such utility.

"Current Return" means the minimum fair combined rate of return on common equity required for any Current Proceeding by the limitation regarding a utility's peer group specified in subdivision 2a.

"Initial Return" means the fair combined rate of return on common equity determined for such utility by the Commission on the first occasion after July 1, 2009, under any provision of this subsection pursuant to the provisions of subdivision 2a.

e. In addition to other considerations, in setting the return on equity within the range allowed by this section, the Commission shall strive to maintain costs of retail electric energy that are cost competitive with costs of retail electric energy provided by the other peer group investor-owned electric utilities.

f. The determination of such returns shall be made by the Commission on a stand-alone basis, and specifically without regard to any return on common equity or other matters determined with regard to facilities described in subdivision 6.

g. If the combined rate of return on common equity earned by the generation and distribution services is no more than 50 basis points above or below the return as so determined or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, such return is no more than 70 basis points above or below the return as so determined, such combined return shall not be considered either excessive or insufficient, respectively. However, for any test period commencing after December 31, 2012, for a Phase II Utility, and after December 31, 2013, for a Phase I Utility, if the utility has, during the test period or periods under review, earned below the return as so determined, whether or not such combined return is within 70 basis points of the return as so determined, the utility may petition the Commission for approval of an increase in rates in accordance with the provisions of subdivision 8 as if it had earned more than 70 basis points below a fair combined rate of return, and such proceeding shall otherwise be conducted in accordance with the provisions of this section. The provisions of this subdivision are subject to the provisions of subdivision 8.

h. Any amount of a utility's earnings directed by the Commission to be credited to customers' bills pursuant to this section shall not be considered for the purpose of determining the utility's earnings in any subsequent triennial review.
3. Each such utility shall make a triennial filing by March 31 of every third year, with such filings commencing for a Phase I Utility in 2020, and such filings commencing for a Phase II Utility in 2021, consisting of the schedule contained in the Commission's rules governing utility rate increase applications. Such filing shall encompass the three successive 12-month test periods ending December 31 immediately preceding the year in which such proceeding is conducted, except that the filing for a Phase II Utility in 2021 shall encompass the four successive 12-month test periods ending December 31, 2020, and in every such case the filing for each year shall be identified separately and shall be segregated from any other year encompassed by the filing. If the Commission determines that rates should be revised or credits be applied to customers' bills pursuant to subdivision 8 or 9, any rate adjustment clauses previously implemented related to facilities utilizing simple-cycle combustion turbines described in subdivision 6, shall be combined with the utility's costs, revenues and investments until the amounts that are the subject of such rate adjustment clauses are fully recovered. The Commission shall combine such clauses with the utility's costs, revenues and investments only after it makes its initial determination with regard to necessary rate revisions or credits to customers' bills, and the amounts thereof, but after such clauses are combined as herein specified, they shall thereafter be considered part of the utility's costs, revenues, and investments for the purposes of future triennial review proceedings. In a triennial filing under this subdivision that does not result in an overall rate change a utility may propose an adjustment to one or more tariffs that are revenue neutral to the utility.

4. The following costs incurred by the utility shall be deemed reasonable and prudent: (i) costs for transmission services provided to the utility by the regional transmission entity of which the utility is a member, as determined under applicable rates, terms and conditions approved by the Federal Energy Regulatory Commission, and (ii) costs charged to the utility that are associated with demand response programs approved by the Federal Energy Regulatory Commission and administered by the regional transmission entity of which the utility is a member. Upon petition of a utility at any time after the expiration or termination of capped rates, but not more than once in any 12-month period, the Commission shall approve a rate adjustment clause under which such costs, including, without limitation, costs for transmission service, charges for new and existing transmission facilities, administrative charges, and ancillary service charges designed to recover transmission costs, shall be recovered on a timely and current basis from customers. Retail rates to recover these costs shall be designed using the appropriate billing determinants in the retail rate schedules.

5. A utility may at any time, after the expiration or termination of capped rates, but not more than once in any 12-month period, petition the Commission for approval of one or more rate adjustment clauses for the timely and current recovery from customers of the following costs:

   a. Incremental costs described in clause (vi) of subsection B of § 56-582 incurred between July 1, 2004, and the expiration or termination of capped rates, if such utility is, as of July 1, 2007, deferring such costs consistent with an order of the Commission entered under clause (vi) of subsection B of § 56-582. The Commission shall approve such a petition allowing the recovery of such costs that comply with the requirements of clause (vi) of subsection B of § 56-582;

   b. Projected and actual costs for the utility to design and operate fair and effective peak-shaving programs. The Commission shall approve such a petition if it finds that the program is in the public interest; provided that the Commission shall allow the recovery of such costs as it finds are reasonable;

   c. Projected and actual costs for the utility to design, implement, and operate energy efficiency programs, including a margin to be recovered on operating expenses, which margin for the purposes of this section shall be equal to the general rate of return on common equity determined as described in subdivision 2. Any such petition shall include a proposed budget for the design, implementation, and operation of the energy efficiency program. The Commission shall only approve such a petition if it finds that the program is in the public interest. If the Commission determines that an energy efficiency program or portfolio of programs is not in the public interest, its final order shall include all work product and analysis conducted by the Commission's staff in relation to that program that has bearing upon the Commission's determination. Such order shall adhere to existing protocols for extraordinarily sensitive information. As part of such cost recovery, the Commission, if requested by the utility, shall allow for the recovery of revenue reductions related to energy efficiency programs. The Commission shall only allow such recovery to the extent that the Commission determines such revenue has not been recovered through margins from incremental off-system sales as defined in § 56-249.6 that are directly attributable to energy efficiency programs.

   None of the costs of new energy efficiency programs of an electric utility, including recovery of revenue reductions, shall be assigned to any large general service customer. A large general service customer is a customer that has a verifiable history of having used more than 500 kilowatts of demand from a single meter of delivery. A utility shall not charge such large general service customer, as defined by the Commission, for the costs of installing energy efficiency equipment beyond what is required to provide electric service and meter such service on the customer's premises if the customer provides, at the customer's expense, equivalent energy efficiency equipment. In all relevant proceedings pursuant to this section, the Commission shall take into consideration the goals of economic development, energy efficiency and environmental protection in the Commonwealth;

   d. Projected and actual costs of participation in a renewable energy portfolio standard program pursuant to § 56-585.2 that are not recoverable under subdivision 6. The Commission shall approve such a petition allowing the recovery of such costs as are provided for in a program approved pursuant to § 56-585.2;

   e. Projected and actual costs of projects that the Commission finds to be necessary to comply with state or federal environmental laws or regulations applicable to generation facilities used to serve the utility's native load obligations. The
Commission shall approve such a petition if it finds that such costs are necessary to comply with such environmental laws or regulations; and

f. Projected and actual costs, not currently in rates, for the utility to design, implement, and operate programs approved by the Commission that accelerate the vegetation management of distribution rights-of-way. No costs shall be allocated to or recovered from customers that are served within the large general service rate classes for a Phase II Utility or that are served at subtransmission or transmission voltage, or take delivery at a substation served from subtransmission or transmission voltage, for a Phase I Utility.

Any rate adjustment clause approved under subdivision 5 c by the Commission shall remain in effect until the utility exhausts the approved budget for the energy efficiency program. The Commission shall have the authority to determine the duration or amortization period for any other rate adjustment clause approved under this subdivision.

6. To ensure the generation and delivery of a reliable and adequate supply of electricity, to meet the utility's projected native load obligations and to promote economic development, a utility may at any time, after the expiration or termination of capped rates, petition the Commission for approval of a rate adjustment clause for recovery on a timely and current basis from customers of the costs of (i) a coal-fueled generation facility that utilizes Virginia coal and is located in the coalfield region of the Commonwealth as described in § 15.2-6002, regardless of whether such facility is located within or without the utility's service territory, (ii) one or more other generation facilities, (iii) one or more major unit modifications of generation facilities, including the costs of any system or equipment upgrade, system or equipment replacement, or other cost reasonably appropriate to extend the combined operating license for or the operating life of one or more generation facilities utilizing nuclear power, (iv) one or more new underground facilities to replace one or more existing overhead distribution facilities of 69 kilovolts or less located within the Commonwealth, (v) one or more pumped hydroelectricity generation and storage facilities that utilize on-site or off-site renewable energy resources as all or a portion of their power source and such facilities and associated resources are located in the coalfield region of the Commonwealth as described in § 15.2-6002, regardless of whether such facility is located within or without the utility's service territory, or (vi) one or more electric distribution grid transformation projects; however, subject to the provisions of the following sentence, the utility shall not file a petition under clause (iv) more often than annually and, in such petition, shall not seek any annual incremental increase in the level of investments associated with such a petition that exceeds five percent of such utility's distribution rate base, as such rate base was determined for the most recently ended 12-month test period in the utility's latest review proceeding conducted pursuant to subdivision 3 and concluded by final order of the Commission prior to the date of filing of such petition under clause (iv). In all proceedings regarding petitions filed under clause (iv) or (vi), the level of investments approved for recovery in such proceedings shall be in addition to, and not in lieu of, levels of investments previously approved for recovery in prior proceedings under clause (iv) or (vi), as applicable. As of December 1, 2028, any costs recovered by a utility pursuant to clause (iv) shall be limited to any remaining costs associated with conversions of overhead distribution facilities to underground facilities that have been previously approved or are pending approval by the Commission through a petition by the utility under this subdivision. Such a petition concerning facilities described in clause (ii) that utilize nuclear power, facilities described in clause (ii) that are coal-fueled and will be built by a Phase I Utility, or facilities described in clause (i) may also be filed before the expiration or termination of capped rates. A utility that constructs or makes modifications to any such facility, or purchases any facility consisting of at least one megawatt of generating capacity using energy derived from sunlight and located in the Commonwealth that utilizes goods or services sourced, in whole or in part, from one or more Virginia businesses, shall have the right to recover the costs of the facility, as accrued against income, through its rates, including projected construction work in progress, and any associated allowance for funds used during construction, planning, development and construction or acquisition costs, life-cycle costs, costs related to assessing the feasibility of potential sites for new underground facilities, and costs of infrastructure associated therewith, plus, as an incentive to undertake such projects, an enhanced rate of return on common equity calculated as specified below; however, in determining the amounts recoverable under a rate adjustment clause for new underground facilities, the Commission shall not consider, or increase or reduce such amounts recoverable because of (a) the operation and maintenance costs attributable to either the overhead distribution facilities being replaced or the new underground facilities or (b) any other costs attributable to the overhead distribution facilities being replaced. Notwithstanding the preceding sentence, the costs described in clauses (a) and (b) thereof shall remain eligible for recovery from customers through the utility's base rates for distribution service. A utility filing a petition for approval to construct or purchase a facility consisting of at least one megawatt of generating capacity using energy derived from sunlight and located in the Commonwealth and that utilizes goods or services sourced, in whole or in part, from one or more Virginia businesses may propose a rate adjustment clause based on a market index in lieu of a cost of service model for such facility. A utility seeking approval to construct or purchase a generating facility described in clause (i) or (ii) shall demonstrate that it has considered and weighed alternative options, including third-party market alternatives, in its selection process. The costs of the facility, other than return on projected construction work in progress and allowance for funds used during construction, shall not be recovered prior to the date a facility constructed by the utility and described in clause (i), (ii), (iii) or (v) begins commercial operation, the date the utility becomes the owner of a purchased generation facility consisting of at least one megawatt of generating capacity using energy derived from sunlight and located in the Commonwealth and that utilizes goods or services sourced, in whole or in part, from one or more Virginia businesses, or the date new underground facilities are classified by the utility as plant in service.
Such enhanced rate of return on common equity shall be applied to allowance for funds used during construction and to
costs associated with such new underground facilities that are deemed to be reasonably and prudently incurred and,
notwithstanding the provisions of subsection C or D, shall be approved for recovery by the
Commission pursuant to this subdivision, provided that the total costs associated with the replacement of any subset of
existing overhead distribution tap lines proposed by the utility with new underground facilities, exclusive of financing costs,
shall not exceed an average cost per customer of $20,000, with such customers, including those served directly by or
downline of the tap lines proposed for conversion, and, further, such total costs shall not exceed an average cost per mile of
tap lines converted, exclusive of financing costs, of $750,000. A utility shall, without regard for whether it has petitioned for
any rate adjustment clause pursuant to clause (vi), petition the Commission, not more than once annually, for approval of a
plan for electric distribution grid transformation projects. Any plan for electric distribution grid transformation projects
shall include both measures to facilitate integration of distributed energy resources and measures to enhance physical
electric distribution grid reliability and security. In ruling upon such a petition, the Commission shall consider whether the
utility's plan for such projects, and the projected costs associated therewith, are reasonable and prudent. Such petition shall
be considered on a stand-alone basis without regard to the other costs, revenues, investments, or earnings of the utility;
without regard to whether the costs associated with such projects will be recovered through a rate adjustment clause under
this subdivision or through the utility's rates for generation and distribution services; and without regard to whether such
costs will be the subject of a customer credit offset, as applicable, pursuant to subdivision 8 d. The Commission's final order
regarding any such petition for approval of an electric distribution grid transformation plan shall be entered by the
Commission not more than six months after the date of filing such petition. The Commission shall likewise enter its final
order with respect to any petition by a utility for a certificate to construct and operate a generating facility or facilities
utilizing energy derived from sunlight, pursuant to subsection D of § 56-580, within six months after the date of filing such
petition. The basis points to be added to the utility's general rate of return to calculate the enhanced rate of return on
common equity, and the first portion of that facility's service life to which such enhanced rate of return shall be applied,
shall vary by type of facility, as specified in the following table:

For generating facilities other than those utilizing nuclear power constructed pursuant to clause (ii) or those utilizing energy derived from offshore wind, as of July 1, 2013, only those facilities as to which a rate adjustment clause under this subdivision has been previously approved by the Commission, or as to which a petition for approval of such rate adjustment clause was filed with the Commission, on or before January 1, 2013, shall be entitled to the enhanced rate of return on common equity as specified in the above table during the construction phase of the facility and the approved first portion of its service life.

For generating facilities within the Commonwealth utilizing nuclear power or those utilizing energy derived from offshore wind projects located in waters off the Commonwealth’s Atlantic shoreline, such facilities shall continue to be eligible for an enhanced rate of return on common equity during the construction phase of the facility and the approved first portion of its service life of between 12 and 25 years in the case of a facility utilizing nuclear power and for a service life of between 5 and 15 years in the case of a facility utilizing energy derived from offshore wind, provided, however, that, as of July 1, 2013, the enhanced return for such facilities constructed pursuant to clause (ii) shall be 100 basis points, which shall be added to the utility’s general rate of return as determined under subdivision 2. Thirty percent of all costs of such a facility utilizing nuclear power that the utility incurred between July 1, 2007, and December 31, 2013, and all of such costs incurred after December 31, 2013, may be deferred by the utility and recovered through a rate adjustment clause under this subdivision at such time as the Commission provides in an order approving such a rate adjustment clause. The remaining 70 percent of all costs of such a facility that the utility incurred between July 1, 2007, and December 31, 2013, shall not be deferred for recovery through a rate adjustment clause under this subdivision; however, such remaining 70 percent of all costs shall be recovered ratably through existing base rates as determined by the Commission in the test periods under review in the utility’s next review filed after July 1, 2014. Thirty percent of all costs of such a facility utilizing energy derived from offshore wind that the utility incurred between July 1, 2007, and December 31, 2013, and all of such costs incurred after December 31, 2013, may be deferred by the utility and recovered through a rate adjustment clause under this subdivision at such time as the Commission provides in an order approving such a rate adjustment clause. The remaining 70 percent of all costs of such a facility that the utility incurred between July 1, 2007, and December 31, 2013, shall not be deferred for recovery through a rate adjustment clause under this subdivision; however, such remaining 70 percent of all costs shall be recovered ratably through existing base rates as determined by the Commission in the test periods under review in the utility’s next review filed after July 1, 2014.

In connection with planning to meet forecasted demand for electric generation supply and assure the adequate and sufficient reliability of service, consistent with § 56-598, planning and development activities for a new nuclear generation facility or facilities are in the public interest.

In connection with planning to meet forecasted demand for electric generation supply and assure the adequate and sufficient reliability of service, consistent with § 56-598, planning and development activities for a new utility-owned and utility-operated generating facility or facilities utilizing energy derived from sunlight or from onshore or offshore wind are in the public interest.

Construction, purchasing, or leasing activities for a new utility-owned and utility-operated generating facility or facilities utilizing energy derived from sunlight or from wind with an aggregate capacity of 5,000 megawatts, including rooftop solar installations with a capacity of not less than 50 kilowatts, and with an aggregate capacity of 50 megawatts, together with a new test or demonstration project for a utility-owned and utility-operated generating facility or facilities utilizing energy derived from offshore wind with an aggregate capacity of not more than 16 megawatts, are in the public interest. To the extent that a utility elects to recover the costs of any such new generation facility or facilities through its rates for generation and distribution services and does not petition and receive approval from the Commission for recovery of such costs through a rate adjustment clause described in clause (ii), the Commission shall, upon the request of the utility in a triennial review proceeding, provide for a customer credit reinvestment offset, as applicable, pursuant to subdivision 8 d with respect to all costs deemed reasonable and prudent by the Commission in a proceeding pursuant to subsection D of § 56-580 or in a triennial review proceeding.

Electric distribution grid transformation projects are in the public interest. To the extent that a utility elects to recover the costs of such electric distribution grid transformation projects through its rates for generation and distribution services, and does not petition and receive approval from the Commission for recovery of such costs through a rate adjustment clause described in clause (vi), the Commission shall, upon the request of the utility in a triennial review proceeding, provide for a customer credit reinvestment offset, as applicable, pursuant to subdivision 8 d with respect to all costs deemed reasonable and prudent by the Commission in a proceeding for approval of a plan for electric distribution grid transformation projects pursuant to subdivision 6 or in a triennial review proceeding.

Neither generation facilities described in clause (ii) that utilize simple-cycle combustion turbines nor new underground facilities shall receive an enhanced rate of return on common equity as described herein, but instead shall receive the
utility's general rate of return during the construction phase of the facility and, thereafter, for the entire service life of the facility. No rate adjustment clause for new underground facilities shall allocate costs to, or provide for the recovery of costs from, customers that are served within the large power service rate class for a Phase I Utility and the large general service rate classes for a Phase II Utility. New underground facilities are hereby declared to be ordinary extensions or improvements in the usual course of business under the provisions of § 56-265.2.

As used in this subdivision, a generation facility is (1) "coalbed methane gas powered" if the facility is fired at least 50 percent by coalbed methane gas, as such term is defined in § 45.1-361.1, produced from wells located in the Commonwealth, and (2) "landfill gas powered" if the facility is fired by methane or other combustible gas produced by the anaerobic digestion or decomposition of biodegradable materials in a solid waste management facility licensed by the Waste Management Board. A landfill gas powered facility includes, in addition to the generation facility itself, the equipment used in collecting, drying, treating, and compressing the landfill gas and in transmitting the landfill gas from the solid waste management facility where it is collected to the generation facility where it is combusted.

For purposes of this subdivision, "general rate of return" means the fair combined rate of return on common equity as it is determined by the Commission for such utility pursuant to subdivision 2.

Notwithstanding any other provision of this subdivision, if the Commission finds during the triennial review conducted for a Phase II Utility in 2021 that such utility has not filed applications for all necessary federal and state regulatory approvals to construct one or more nuclear-powered or coal-fueled generation facilities that would add a total capacity of at least 1500 megawatts to the amount of the utility's generating resources as such resources existed on July 1, 2007, or that, if all such approvals have been received, that the utility has not made reasonable and good faith efforts to construct one or more such facilities that will provide such additional total capacity within a reasonable time after obtaining such approvals, then the Commission, if it finds it in the public interest, may reduce on a prospective basis any enhanced rate of return on common equity previously applied to any such facility to no less than the general rate of return for such utility and may apply no less than the utility's general rate of return to any such facility for which the utility seeks approval in the future under this subdivision.

Notwithstanding any other provision of this subdivision, if a Phase II utility obtains approval from the Commission of a rate adjustment clause pursuant to subdivision 6 associated with a test or demonstration project involving a generation facility utilizing energy from offshore wind, and such utility has not, as of July 1, 2023, commenced construction as defined for federal income tax purposes of an offshore wind generation facility or facilities with a minimum aggregate capacity of 250 megawatts, then the Commission, if it finds it in the public interest, may direct that the costs associated with any such rate adjustment clause involving said test or demonstration project shall thereafter no longer be recovered through a rate adjustment clause pursuant to subdivision 6 and shall instead be recovered through the utility's rates for generation and distribution services, with no change in such rates for generation and distribution services as a result of the combination of such costs with the other costs, revenues, and investments included in the utility's rates for generation and distribution services. Any such costs shall remain combined with the utility's other costs, revenues, and investments included in its rates for generation and distribution services until such costs are fully recovered.

7. Any petition filed pursuant to subdivision 4, 5, or 6 shall be considered by the Commission on a stand-alone basis without regard to the other costs, revenues, investments, or earnings of the utility. Any costs incurred by a utility prior to the filing of such petition, or during the consideration thereof by the Commission, that are proposed for recovery in such petition and that are related to subdivision 5 a, or that are related to facilities and projects described in clause (i) of subdivision 6, or that are related to new underground facilities described in clause (iv) of subdivision 6, shall be deferred on the books and records of the utility until the Commission's final order in the matter, or until the implementation of any applicable approved rate adjustment clauses, whichever is later. Except as otherwise provided in subdivision 6, any costs prudently incurred on or after July 1, 2007, by a utility prior to the filing of such petition, or during the consideration thereof by the Commission, that are proposed for recovery in such petition and that are related to facilities and projects described in clause (i) or clause (iii) of subdivision 6 that utilize nuclear power, or coal-fueled facilities and projects described in clause (ii) of subdivision 6 if such coal-fueled facilities will be built by a Phase I Utility, shall be deferred on the books and records of the utility until the Commission's final order in the matter, or until the implementation of any applicable approved rate adjustment clauses, whichever is later. Any costs prudently incurred after the expiration or termination of capped rates related to other matters described in subdivision 4, 5, or 6 shall be deferred beginning only upon the expiration or termination of capped rates, provided, however, that no provision of this act shall affect the rights of any parties with respect to the rulings of the Federal Energy Regulatory Commission in PJM Interconnection LLC and Virginia Electric and Power Company, 109 F.E.R.C. P 61,012 (2004). A utility shall establish a regulatory asset for regulatory accounting and ratemaking purposes under which it shall defer its operation and maintenance costs incurred in connection with (i) the refueling of any nuclear-powered generating plant and (ii) other work at such plant normally performed during a refueling outage. The utility shall amortize such deferred costs over the refueling cycle, but in no case more than 18 months, beginning with the month in which such plant resumes operation after such refueling. The refueling cycle shall be the applicable period of time between planned refueling outages for such plant. As of January 1, 2014, such amortized costs are a component of base rates, recoverable in base rates only ratably over the refueling cycle rather than when such outages occur, and are the only nuclear refueling costs recoverable in base rates. This provision shall apply to any nuclear-powered generating plant refueling outage commencing after December 31, 2013, and the Commission shall treat the deferred and amortized costs of such regulatory asset as part of the utility's costs for the purpose of proceedings conducted (a) with
respect to triennial filings under subdivision 3 made on and after July 1, 2014, and (b) pursuant to § 56-245 or the Commission's rules governing utility rate increase applications as provided in subsection B. This provision shall not be deemed to change or reset base rates.

The Commission's final order regarding any petition filed pursuant to subdivision 4, 5, or 6 shall be entered not more than three months, eight months, and nine months, respectively, after the date of filing of such petition. If such petition is approved, the order shall direct that the applicable rate adjustment clause be applied to customers' bills not more than 60 days after the date of the order, or upon the expiration or termination of capped rates, whichever is later.

8. In any triennial review proceeding, for the purposes of reviewing earnings on the utility's rates for generation and distribution services, the following utility generation and distribution costs not proposed for recovery under any other subdivision of this subsection, as recorded per books by the utility for financial reporting purposes and accrued against income, shall be attributed to the test periods under review and deemed fully recovered in the period recorded: costs associated with asset impairments related to early retirement determinations made by the utility for utility generation facilities fueled by coal, natural gas, or oil or for automated meter reading electric distribution service meters; costs associated with projects necessary to comply with state or federal environmental laws, regulations, or judicial or administrative orders relating to coal combustion by-product management that the utility does not petition to recover through a rate adjustment clause pursuant to subdivision 5 e; costs associated with severe weather events; and costs associated with natural disasters. Such costs shall be deemed to have been recovered from customers through rates for generation and distribution services in effect during the test periods under review unless such costs, individually or in the aggregate, together with the utility's other costs, revenues, and investments to be recovered through rates for generation and distribution services, result in the utility's earned return on its generation and distribution services for the combined test periods under review to fall more than 50 basis points below the fair combined rate of return authorized under subdivision 2 for such periods or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, to fall more than 70 basis points below the fair combined rate of return authorized under subdivision 2 for such periods. In such cases, the Commission shall, in such triennial review proceeding, authorize deferred recovery of such costs and allow the utility to amortize and recover such deferred costs over future periods as determined by the Commission. The aggregate amount of such deferred costs shall not exceed an amount that would, together with the utility's other costs, revenues, and investments to be recovered through rates for generation and distribution services, cause the utility's earned return on its generation and distribution services to exceed the fair rate of return authorized under subdivision 2, less 50 basis points, for the combined test periods under review or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, to exceed the fair rate of return authorized under subdivision 2 less 70 basis points. Nothing in this section shall limit the Commission's authority, pursuant to the provisions of Chapter 10 (§ 56-232 et seq.), including specifically § 56-235.2, following the review of combined test period earnings of the utility in a triennial review, for normalization of nonrecurring test period costs and annualized adjustments for future costs, in determining any appropriate increase or decrease in the utility's rates for generation and distribution services pursuant to subdivision 8 a or 8 c.

If the Commission determines as a result of such triennial review that:

a. The utility has, during the test period or periods under review, considered as a whole, earned more than 50 basis points below a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points below a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, the Commission shall order increases to the utility's rates necessary to provide the opportunity to fully recover its costs of providing its services and to earn not less than a fair combined rate of return on both its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, using the most recently ended 12-month test period as the basis for determining the amount of the rate increase necessary. However, in the first triennial review proceeding conducted after January 1, 2021, for a Phase II Utility, the Commission may not order a rate increase, and in all triennial reviews of a Phase I or Phase II utility, the Commission may not order such rate increase unless it finds that the resulting rates are necessary to provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than a fair combined rate of return on both its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, using the most recently ended 12-month test period as the basis for determining the permissibility of any rate increase under the standards of this sentence, and the amount thereof; and provided that, solely in connection with making its determination concerning the necessity for such a rate increase or the amount thereof, the Commission shall, in any triennial review proceeding conducted prior to July 1, 2028, exclude from this most recently ended 12-month test period any remaining investment levels associated with a prior customer credit reinvestment offset pursuant to subdivision d.

b. The utility has, during the test period or test periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, the Commission shall, subject to the provisions of subdivisions 8 d and 9, direct that 60 percent of the amount of such earnings
that were more than 50 basis points, or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, that 70 percent of the amount of such earnings that were more than 70 basis points, above such fair combined rate of return for the test period or periods under review, considered as a whole, shall be credited to customers' bills. Any such credits shall be amortized over a period of six to 12 months, as determined at the discretion of the Commission, following the effective date of the Commission's order, and shall be allocated among customer classes such that the relationship between the specific customer class rates of return to the overall target rate of return will have the same relationship as the last approved allocation of revenues used to design base rates; or

c. In any triennial review proceeding conducted after January 1, 2020, for a Phase I Utility or after January 1, 2021, for a Phase II Utility in which the utility has, during the test period or test periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matter determined with respect to facilities described in subdivision 6, and the combined aggregate level of capital investment that the Commission has approved other than those capital investments that the Commission has approved for recovery pursuant to a rate adjustment clause pursuant to subdivision 6 made by the utility during the test periods under review in that triennial review proceeding in new utility-owned generation facilities utilizing energy derived from sunlight, or from wind, and in electric distribution grid transformation projects, as determined pursuant to subdivision 8 d, does not equal or exceed 100 percent of the earnings that are more than 70 basis points above the utility's fair combined rate of return on its generation and distribution services for the combined test periods under review in that triennial review proceeding, the Commission shall, subject to the provisions of subdivision 9 and in addition to the actions authorized in subdivision b, also order reductions to the utility's rates it finds appropriate. However, in the first triennial review proceeding conducted after January 1, 2021, for a Phase II Utility, any reduction to the utility's rates ordered by the Commission pursuant to this subdivision shall not exceed $50 million in annual revenues, with any reduction allocated to the utility's rates for generation services, and in each triennial review of a Phase I or Phase II Utility, the Commission may not order such rate reduction unless it finds that the resulting rates will provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, using the most recently ended 12-month test period as the basis for determining the permissibility of any rate reduction under the standards of this sentence, and the amount thereof; and

d. (Expires July 1, 2028) In any triennial review proceeding conducted after December 31, 2017, upon the request of the utility, the Commission shall determine, prior to directing that 70 percent of earnings that are more than 70 basis points above the utility's fair combined rate of return on its generation and distribution services for the test period or periods under review be credited to customer bills pursuant to subdivision 8 b, the aggregate level of prior capital investment that the Commission has approved other than those capital investments that the Commission has approved for recovery pursuant to a rate adjustment clause pursuant to subdivision 6 made by the utility during the test period or periods under review in both (i) new utility-owned generation facilities utilizing energy derived from sunlight, or from onshore or offshore wind, and (ii) electric distribution grid transformation projects, as determined by the utility's plant in service and construction work in progress balances related to such investments as recorded per books by the utility for financial reporting purposes as of the end of the most recent test period under review. Any such combined capital investment amounts shall offset any customer bill credit amounts, on a dollar for dollar basis, up to the aggregate level of invested or committed capital under clauses (i) and (ii). The aggregate level of qualifying invested or committed capital under clauses (i) and (ii) is referred to in this subdivision as the customer credit reinvestment offset, which offsets the customer bill credit amount that the utility has invested or will invest in new solar or wind generation facilities or electric distribution grid transformation projects for the benefit of customers, in amounts up to 100 percent of earnings that are more than 70 basis points above the utility's fair rate of return on its generation and distribution services, and thereby reduce or eliminate otherwise incremental rate adjustment clause charges and increases to customer bills, which is deemed to be in the public interest. If 100 percent of the amount of earnings that are more than 70 basis points above the utility's fair combined rate of return on its generation and distribution services, as determined in subdivision 2, exceeds the aggregate level of invested capital in new utility-owned generation facilities utilizing energy derived from sunlight, or from wind, and electric distribution grid transformation projects, as provided in clauses (i) and (ii), during the test period or periods under review, then 70 percent of the amount of such excess shall be credited to customer bills as provided in subdivision 8 b in connection with the triennial review proceeding. The portion of any costs associated with new utility-owned generation facilities utilizing energy derived from sunlight, or from wind, or electric distribution grid transformation projects that is the subject of any customer credit reinvestment offset pursuant to this subdivision shall not thereafter be recovered through the utility's rates for generation and distribution services over the service life of such facilities and shall not thereafter be included in the utility's costs, revenues, and investments in future triennial review proceedings conducted pursuant to subdivision 2 and shall not be the subject of a rate adjustment clause petition pursuant to subdivision 6. The portion of any costs associated with new utility-owned generation facilities utilizing energy derived from sunlight, or from wind, or electric distribution grid transformation projects that is not the subject of any customer credit reinvestment offset pursuant to this subdivision may be recovered through the utility's rates for generation and distribution services over the service life of such facilities and shall be included in the utility's costs,
revenues, and investments in future triennial review proceedings conducted pursuant to subdivision 2 until such costs are
fully recovered, and if such costs are recovered through the utility's rates for generation and distribution services, they shall
not be the subject of a rate adjustment clause petition pursuant to subdivision 6. Only the portion of such costs of new
utility-owned generation facilities utilizing energy derived from sunlight, or from wind, or electric distribution grid
transformation projects that has not been included in any customer credit reinvestment offset pursuant to this subdivision,
and not otherwise recovered through the utility's rates for generation and distribution services, may be the subject of a rate
adjustment clause petition by the utility pursuant to subdivision 6.

The Commission's final order regarding such triennial review shall be entered not more than eight months after the date of
filing, and any revisions in rates or credits so ordered shall take effect not more than 60 days after the date of the order.
The fair combined rate of return on common equity determined pursuant to subdivision 2 in such triennial review shall apply,
for purposes of reviewing the utility's earnings on its rates for generation and distribution services, to the entire three
successive 12-month test periods ending December 31 immediately preceding the year of the utility's subsequent triennial
review filing under subdivision 3 and shall apply to applicable rate adjustment clauses under subdivisions 5 and 6
respectively from the date the Commission's final order in the triennial review proceeding, utilizing rate adjustment clause
true-up protocols as the Commission in its discretion may determine.

9. If, as a result of a triennial review required under this subsection and conducted with respect to any test period or
periods under review ending later than December 31, 2010 (or, if the Commission has elected to stagger its biennial reviews
of utilities as provided in subdivision 1, under review ending later than December 31, 2010, for a Phase I Utility, or
December 31, 2011, for a Phase II Utility), the Commission finds, with respect to such test period or periods considered as a
whole, that (i) any utility has, during the test period or periods under review, considered as a whole, earned more than
50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period
commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than
70 basis points above a fair combined rate of return on its generation and distribution services, as determined in
subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities
described in subdivision 6, and (ii) the total aggregate regulated rates of such utility at the end of the most recently ended
12-month test period exceeded the annual increases in the United States Average Consumer Price Index for all items, all
urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor,
compounded annually, when compared to the total aggregate regulated rates of such utility as determined pursuant to the
review conducted for the base period, the Commission shall, unless it finds that such action is not in the public interest or
that the provisions of subdivisions 8 b and c are more consistent with the public interest, direct that any or all earnings for
such test period or periods under review, considered as a whole that were more than 50 basis points, or, for any test period
commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than
70 basis points, above such fair combined rate of return shall be credited to customers' bills, in lieu of the provisions of
subdivisions 8 b and c, provided that no credits shall be provided pursuant to this subdivision in connection with any
triennial review unless such bill credits would be payable pursuant to the provisions of subdivision 8 d, and any credits
under this subdivision shall be calculated net of any customer credit reinvestment offset amounts under subdivision 8 d. Any
such credits shall be amortized and allocated among customer classes in the manner provided by subdivision 8 b. For
purposes of this subdivision:

"Base period" means (i) the test period ending December 31, 2010 (or, if the Commission has elected to stagger its
biennial reviews of utilities as provided in subdivision 1, the test period ending December 31, 2010, for a Phase I Utility, or
December 31, 2011, for a Phase II Utility), or (ii) the most recent test period with respect to which credits have been applied
to customers' bills under the provisions of this subdivision, whichever is later.

"Total aggregate regulated rates" shall include: (i) fuel tariffs approved pursuant to § 56-249.6, except for any increases
in fuel tariffs deferred by the Commission for recovery in periods after December 31, 2010, pursuant to the provisions of
clause (ii) of subsection C of § 56-249.6; (ii) rate adjustment clauses implemented pursuant to subdivision 4 or 5; (iii)
revisions to the utility's rates pursuant to subdivision 8 a; (iv) revisions to the utility's rates pursuant to the
Commission's rules governing utility rate increase applications, as permitted by subsection B, occurring after July 1, 2009; and
(v) base rates in effect as of July 1, 2009.

10. For purposes of this section, the Commission shall regulate the rates, terms and conditions of any utility subject to
this section on a stand-alone basis utilizing the actual end-of-test period capital structure and cost of capital of such utility,
excluding any debt associated with securitized bonds that are the obligation of non-Virginia jurisdictional customers, unless
the Commission finds that the debt to equity ratio of such capital structure is unreasonable for such utility, in which case the
Commission may utilize a debt to equity ratio that it finds to be reasonable for such utility in determining any rate
adjustment pursuant to subdivisions 8 a and c, and without regard to the cost of capital, capital structure, revenues, expenses
or investments of any other entity with which such utility may be affiliated. In particular, and without limitation, the
Commission shall determine the federal and state income tax costs for any such utility that is part of a publicly traded,
consolidated group as follows: (i) such utility's apportioned state income tax costs shall be calculated according to the
applicable statutory rate, as if the utility had not filed a consolidated return with its affiliates, and (ii) such utility's federal
income tax costs shall be calculated according to the applicable federal income tax rate and shall exclude any consolidated
tax liability or benefit adjustments originating from any taxable income or loss of its affiliates.
B. Nothing in this section shall preclude an investor-owned incumbent electric utility from applying for an increase in rates pursuant to § 56-245 or the Commission's rules governing utility rate increase applications; however, in any such filing, a fair rate of return on common equity shall be determined pursuant to subdivision A 2. Nothing in this section shall preclude such utility's recovery of fuel and purchased power costs as provided in § 56-249.6.

C. Except as otherwise provided in this section, the Commission shall exercise authority over the rates, terms and conditions of investor-owned incumbent electric utilities for the provision of generation, transmission and distribution services to retail customers in the Commonwealth pursuant to the provisions of Chapter 10 (§ 56-232 et seq.), including specifically § 56-235.2.

D. The Commission may determine, during any proceeding authorized or required by this section, the reasonableness or prudence of any cost incurred or projected to be incurred, by a utility in connection with the subject of the proceeding. A determination of the Commission regarding the reasonableness or prudence of any such cost shall be consistent with the Commission's authority to determine the reasonableness or prudence of costs in proceedings pursuant to the provisions of Chapter 10 (§ 56-232 et seq.). In determining the reasonableness or prudence of a utility providing energy and capacity to its customers from renewable energy resources, the Commission shall consider the extent to which such renewable energy resources, whether utility-owned or by contract, further the objectives of the Commonwealth Energy Policy set forth in §§ 67-101 and 67-102, and shall also consider whether the costs of such resources is likely to result in unreasonable increases in rates paid by customers.

E. The Commission shall promulgate such rules and regulations as may be necessary to implement the provisions of this section.

CHAPTER 774

An Act to amend and reenact §§ 2.2-3803, 23.1-402, 37.2-712, and 66-25 of the Code of Virginia, relating to the Government Data Collection and Dissemination Practices Act; collection or dissemination of information concerning religious preferences and affiliations.

Approved March 22, 2019

Be it enacted by the General Assembly of Virginia:
1. That §§ 2.2-3803, 23.1-402, 37.2-712, and 66-25 of the Code of Virginia are amended and reenacted as follows:

§ 2.2-3803. Administration of systems including personal information; Internet privacy policy; exceptions.
A. Any agency maintaining an information system that includes personal information shall:
1. Collect, maintain, use, and disseminate only that personal information permitted or required by law to be so collected, maintained, used, or disseminated; or
2. Maintain a list of all persons or organizations having regular access authority but excluding access by the personnel of the agency wherein data is put to service for the purpose for which it is obtained;
3. Collect information to the greatest extent feasible from the data subject directly, or through the sharing of data with other agencies, in order to accomplish a proper purpose of the agency;
4. Make no dissemination to another system without (i) specifying requirements for security and usage including limitations on access thereto, and (ii) receiving reasonable assurances that those requirements and limitations will be observed. This subdivision shall not apply, however, to a dissemination made by an agency to an agency in another state, district or territory of the United States where the personal information is requested by the agency of such other state, district or territory in connection with the application of the data subject therein for a service, privilege or right under the laws thereof, nor shall this apply to information transmitted to family advocacy representatives of the United States Armed Forces in accordance with subsection N of § 63.2-1503;
5. Establish appropriate safeguards to secure the system from any reasonably foreseeable threat to its security; and
6. Collect no personal information concerning the political or religious beliefs, affiliations, and activities of data subjects that is maintained, used, or disseminated in or by any information system operated by any agency unless authorized explicitly by statute or ordinance. Nothing in this subdivision shall be construed to allow an agency to disseminate to
federal government authorities information concerning the religious beliefs and affiliations of data subjects for the purpose of compiling a list, registry, or database of individuals based on religious affiliation, national origin, or ethnicity, unless such dissemination is specifically required by state or federal law.

B. Every public body, as defined in § 2.2-3701, that has an Internet website associated with that public body shall develop an Internet privacy policy and an Internet privacy policy statement that explains the policy to the public. The policy shall be consistent with the requirements of this chapter. The statement shall be made available on the public body's website in a conspicuous manner. The Secretary of Technology or his designee shall provide guidelines for developing the policy and the statement, and each public body shall tailor the policy and the statement to reflect the information practices of the individual public body. At minimum, the policy and the statement shall address (i) what information, including personally identifiable information, will be collected, if any; (ii) whether any information will be automatically collected simply by accessing the website and, if so, what information; (iii) whether the website automatically places a computer file, commonly referred to as a “cookie,” on the Internet user's computer and, if so, for what purpose; and (iv) how the collected information is being used or will be used.

C. Notwithstanding the provisions of subsection A, the Virginia Retirement System may disseminate information as to the retirement status or benefit eligibility of any employee covered by the Virginia Retirement System, the Judicial Retirement System, the State Police Officers' Retirement System, or the Virginia Law Officers' Retirement System, to the chief executive officer or personnel officers of the state or local agency by which he is employed.

D. Notwithstanding the provisions of subsection A, the Department of Social Services may disseminate client information to the Department of Taxation for the purposes of providing specified tax information as set forth in clause (ii) of subsection C of § 58.1-3.

E. Notwithstanding the provisions of subsection A, the State Council of Higher Education for Virginia may disseminate student information to agencies acting on behalf or in place of the U.S. government to gain access to data on wages earned outside the Commonwealth or through federal employment, for the purposes of complying with § 23.1-204.1.

§ 23.1-402. Collection and dissemination of information concerning religious preferences and affiliations.
A. Notwithstanding any provision of law to the contrary, any public institution of higher education may collect and disseminate information concerning the religious preferences and affiliations of its students, provided that no such institution shall (i) require any student to indicate his religious preference or affiliation or (ii) disseminate such information without the student's consent.

B. No consent given pursuant to this section shall be construed to allow any public institution of higher education to disseminate to federal government authorities information concerning the religious preferences and affiliations of its students for the purpose of compiling a list, registry, or database of individuals based on religious affiliation, national origin, or ethnicity, unless such dissemination is specifically required by state or federal law.

§ 37.2-712. Collection and dissemination of information concerning religious preferences and affiliations.
A. Notwithstanding any provision of law to the contrary, any state facility may collect and disseminate information concerning the religious preferences and affiliations of individuals receiving services, provided that no individual may be required to indicate his religious preference or affiliation and that no dissemination of the information shall be made except to categories of persons as to whom the individual or his guardian or other legally authorized representative or other fiduciary has given his authorization that dissemination may be made.

B. No authorization given pursuant to this section shall be construed to allow any state facility to disseminate to federal government authorities information concerning the religious preferences and affiliations of individuals receiving services for the purpose of compiling a list, registry, or database of individuals based on religious affiliation, national origin, or ethnicity, unless such dissemination is specifically required by state or federal law.

A. Notwithstanding any provision of law to the contrary, any correctional facility established pursuant to this chapter or Chapter 11 (§ 16.1-226 et seq.) of Title 16.1 may collect and disseminate information concerning the religious preferences and affiliations of persons committed to its custody. No person shall be required to indicate his religious preference or affiliation, and no dissemination of the information shall be made except to categories of persons designated by the person who has given his consent to such dissemination.

B. No consent given pursuant to this section shall be construed to allow any correctional facility established pursuant to this chapter or Chapter 11 (§ 16.1-226 et seq.) of Title 16.1 to disseminate to federal government authorities information concerning the religious preferences and affiliations of persons committed to its custody for the purpose of compiling a list, registry, or database of individuals based on religious affiliation, national origin, or ethnicity, unless such dissemination is specifically required by state or federal law.

CHAPTER 775

However, no information that is otherwise open to inspection under this chapter shall be deemed excluded by virtue of the fact that it has been attached to or incorporated within any working paper or correspondence. Further, information publicly available or not otherwise subject to an exclusion under this chapter or other provision of law that has been aggregated, combined, or changed in format without substantive analysis or revision shall not be deemed working papers. No resolution, ordinance, rule, contract, regulation or motion adopted, passed or agreed to in a closed meeting shall become effective unless the public body, following the meeting, reconvenes in open meeting and takes a vote of the membership on such resolution, ordinance, rule, contract, regulation, or motion that shall have its substance reasonably identified in the open meeting.

C. Public officers improperly selected due to the failure of the public body to comply with the other provisions of this section shall be de facto officers and, as such, their official actions are valid until they obtain notice of the legal defect in their election.

D. Nothing in this section shall be construed to prevent the holding of conferences between two or more public bodies, or their representatives, but these conferences shall be subject to the same procedures for holding closed meetings as are applicable to any other public body.
E. This section shall not be construed to (i) require the disclosure of any contract between the Department of Health Professions and an impaired practitioner entered into pursuant to Chapter 25.1 (§ 54.1-2515 et seq.) of Title 54.1 or (ii) require the board of directors of any authority created pursuant to the Industrial Development and Revenue Bond Act (§ 15.2-4900 et seq.), or any public body empowered to issue industrial revenue bonds by general or special law, to identify a business or industry to which subdivision A 5 applies. However, such business or industry shall be identified as a matter of public record at least 30 days prior to the actual date of the board's authorization of the sale or issuance of such bonds.

§ 15.2-1627.5. Coordination of multidisciplinary response to child sexual abuse and the abuse, neglect, and exploitation of adults.

A. The attorney for the Commonwealth in each jurisdiction in the Commonwealth shall establish a multidisciplinary child sexual abuse response team, which may be an existing multidisciplinary team. The multidisciplinary team shall conduct regular reviews of new and ongoing reports of felony sex offenses in the jurisdiction involving a child and the investigations thereof and, at the request of any member of the team, may conduct reviews of any other reports of child abuse and neglect or sex offenses in the jurisdiction involving a child and the investigations thereof. The multidisciplinary team shall meet frequently enough to ensure that no new or ongoing reports go more than 60 days without being reviewed by the team.

B. The following individuals, or their designees, shall participate in review meetings of the multidisciplinary team established pursuant to subsection A: the attorney for the Commonwealth; law-enforcement officials responsible for the investigation of sex offenses involving a child in the jurisdiction; a representative of the local child protective services unit; a representative of a child advocacy center serving the jurisdiction, if one exists; and a representative of an Internet Crimes Against Children task force affiliate agency serving the jurisdiction, if one exists. In addition, the attorney for the Commonwealth may invite other individuals, or their designees, including the school superintendent of the jurisdiction; a representative of any sexual assault crisis center serving the jurisdiction, if one exists; the director of the victim/witness program serving the jurisdiction, if one exists; and a health professional knowledgeable in the treatment and provision of services to children who have been sexually abused.

C. The attorney for the Commonwealth in each jurisdiction may also establish a multidisciplinary adult abuse, neglect, and exploitation response team to review cases of abuse, neglect, and exploitation of adults as defined in § 63.2-1603. The multidisciplinary team may be established separately or in conjunction with any already existing multidisciplinary team.

§ 63.2-1605. Protective services for adults by local departments.

A. Each local board, to the extent that federal or state matching funds are made available to each locality, shall provide, pursuant to regulations and subject to supervision of the Commissioner for Aging and Rehabilitative Services, adult protective services for adults who are found to be abused, neglected, or exploited and who meet one of the following criteria: (i) the adult is 60 years of age or older or (ii) the adult is 18 years of age or older and is incapacitated. The requirement to provide such services shall not limit the right of any individual to refuse to accept any of the services so offered, except as provided in § 63.2-1608.

B. Upon receipt of the report pursuant to § 63.2-1606, the local department shall determine the validity of such report and shall initiate an investigation within 24 hours of the time the report is received in the local department. Local departments shall consider valid any report meeting all of the following criteria: (i) the subject of the report is an adult as defined in this article, (ii) the report concerns a specific adult and there is enough information to locate the adult, and (iii) the report describes the circumstances of the alleged abuse, neglect, or exploitation.

C. The local department or the adult protective services hotline shall immediately refer the matter and all relevant documentation to the local law-enforcement agency where the adult resides or where the alleged abuse, neglect, or exploitation took place or, if these places are unknown, where the alleged abuse, neglect, or exploitation was discovered for investigation, upon receipt of an initial report pursuant to § 63.2-1606 involving any of the following or upon determining, during the course of an investigation pursuant to this article, the occurrence of any of the following:

1. Sexual abuse as defined in § 18.2-67.10;
2. Death that is believed to be the result of abuse or neglect;
3. Serious bodily injury or disease as defined in § 18.2-369 that is believed to be the result of abuse or neglect;
4. Suspected financial exploitation of an adult; or
5. Any other criminal activity involving abuse or neglect that places the adult in imminent danger of death or serious bodily harm.

Local law-enforcement agencies shall provide local departments and the adult protective services hotline with a preferred point of contact for referrals.

D. The local department shall refer any appropriate matter and all relevant documentation, to the appropriate licensing, regulatory, or legal authority for administrative action or criminal investigation.

E. If a local department is denied access to an adult for whom there is reason to suspect the need for adult protective services, then the local department may petition the circuit court for an order allowing access or entry or both. Upon a showing of good cause supported by an affidavit or testimony in person, the court may enter an order permitting such access or entry.

F. In any case of suspected adult abuse, neglect, or exploitation, local departments, with the informed consent of the adult or his legal representative, shall take or cause to be taken photographs, video recordings, or appropriate medical imaging of the adult and his environment as long as such measures are relevant to the investigation and do not conflict with
§ 18.2-386.1. However, if the adult is determined to be incapable of making an informed decision and of giving informed consent and either has no legal representative or the legal representative is the suspected perpetrator of the adult abuse, neglect, or exploitation, consent may be given by an agent appointed under an advance medical directive or medical power of attorney, or by a person authorized, pursuant to § 54.1-2986. In the event no agent or authorized representative is immediately available, then consent shall be deemed to be given.

G. Local departments shall foster the development, implementation, and coordination of adult protective services to prevent adult abuse, neglect, and exploitation.

H. Local departments shall not investigate allegations of abuse, neglect, or exploitation of adults incarcerated in state correctional facilities.

I. The report and evidence received by the local department and any written findings, evaluations, records, and recommended actions shall be confidential and shall be exempt from disclosure requirements of the Virginia Freedom of Information Act (§ 2.2-3700 et seq.), except that such information may be disclosed to persons having a legitimate interest in the matter in accordance with §§ 63.2-102 and 63.2-104 and pursuant to official interagency agreements or memoranda of understanding between state agencies.

J. All written findings and actions of the local department or its director regarding adult protective services investigations are final and shall not be (i) appealable to the Commissioner for Aging and Rehabilitative Services or (ii) considered a final agency action for purposes of judicial review pursuant to the provisions of the Administrative Process Act (§ 2.2-4000 et seq.).

K. Each local department may foster, when practicable, the creation, maintenance, and coordination of community-based multidisciplinary teams that shall include, where possible, members of the medical, mental health, social work, nursing, education, legal, and law-enforcement professions. Such teams shall:

1. Assist the local department in identifying abused, neglected, and exploited adults as defined in § 63.2-1603.

2. Coordinate medical, social, and legal services for abused, neglected, and exploited adults and their families.

3. Develop innovative programs for detection and prevention of the abuse, neglect, and exploitation of adults.

4. Promote community awareness and action to address the abuse, neglect, and exploitation of adults.

5. Disseminate information to the general public regarding the problem of abuse, neglect, and exploitation of adults, strategies and methods for preventing such abuse, neglect, and exploitation, and treatment options for abused, neglected, and exploited adults.

Such multidisciplinary teams may share information among the parties in the performance of their duties but shall be bound by confidentiality and shall execute a sworn statement to honor the confidentiality of the information they share. A violation of this subsection is punishable as a Class 3 misdemeanor. All such information and records shall be used by the team only in the exercise of its proper function and shall not be disclosed. No person who participated in the team and no member of the team shall be required to make any statement as to what transpired during a meeting or what information was collected during the meeting. Upon the conclusion of a meeting, all information and records concerning the adult shall be returned to the originating agency or destroyed. Any information exchanged in accordance with the multidisciplinary review team shall not be considered to be a violation of any of the provisions of § 63.2-102, 63.2-104, or 63.2-105.

CHAPTER 779

An Act to amend and reenact § 38.2-2206 of the Code of Virginia, relating to uninsured motorist insurance coverage; settlement and release.

Approved March 22, 2019

Be it enacted by the General Assembly of Virginia:
1. That § 38.2-2206 of the Code of Virginia is amended and reenacted as follows:

§ 38.2-2206. Uninsured motorist insurance coverage.

A. Except as provided in subsection J of this section, no policy or contract of bodily injury or property damage liability insurance relating to the ownership, maintenance, or use of a motor vehicle shall be issued or delivered in this Commonwealth to the owner of such vehicle or shall be issued or delivered by any insurer licensed in this Commonwealth upon any motor vehicle principally garaged or used in this Commonwealth unless it contains an endorsement or provisions undertaking to pay the insured all sums that he is legally entitled to recover as damages from the owner or operator of an uninsured motor vehicle, within limits not less than the requirements of § 46.2-472. Those limits shall equal but not exceed the limits of the liability insurance provided by the policy, unless any one named insured rejects the additional uninsured motorist insurance coverage by notifying the insurer as provided in subsection B of § 38.2-2202. This rejection of the additional uninsured motorist insurance coverage by any one named insured shall be binding upon all insureds under such policy as defined in subsection B of this section. The endorsement or provisions shall also provide for at least $20,000 coverage for damage or destruction of the property of the insured in any one accident but may provide an exclusion of the first $200 of the loss or damage where the loss or damage is a result of any one accident involving an unidentified owner or operator of an uninsured motor vehicle.

B. As used in this section, the term "bodily injury" includes death resulting from bodily injury.

"Insured" means the named insured and, while resident of the same household, the spouse of the named insured, and relatives, wards or foster children of either, while in a motor vehicle or otherwise, and any person who uses the motor vehicle to which the policy applies, with the expressed or implied consent of the named insured, and a guest in the motor vehicle to which the policy applies or the personal representative of any of the above.

"Uninsured motor vehicle" means a motor vehicle for which (i) there is no bodily injury liability insurance and property damage liability insurance in the amounts specified by § 46.2-472, (ii) there is such insurance but the insurer writing the insurance denies coverage for any reason whatsoever, including failure or refusal of the insured to cooperate with the insurer, (iii) there is no bond or deposit of money or securities in lieu of such insurance, (iv) the owner of the motor vehicle has not qualified as a self-insurer under the provisions of § 46.2-368, or (v) the owner or operator of the motor vehicle is immune from liability for negligence under the laws of the Commonwealth or the United States, in which case the provisions of subsection F shall apply and the action shall continue against the insurer. A motor vehicle shall be deemed uninsured if its owner or operator is unknown.

A motor vehicle is "underinsured" when, and to the extent that, the total amount of bodily injury and property damage coverage applicable to the operation or use of the motor vehicle and available for payment for such bodily injury or property damage, including all bonds or deposits of money or securities made pursuant to Article 15 (§ 46.2-435 et seq.) of Chapter 3 of Title 46.2, is less than the total amount of uninsured motorist coverage afforded any person injured as a result of the operation or use of the vehicle.

"Available for payment" means the amount of liability insurance coverage applicable to the claim of the injured person for bodily injury or property damage reduced by the payment of any other claims arising out of the same occurrence.

If an injured person is entitled to underinsured motorist coverage under more than one policy, the following order of priority of policies applies and any amount available for payment shall be credited against such policies in the following order of priority:

1. The policy covering a motor vehicle occupied by the injured person at the time of the accident;
2. The policy covering a motor vehicle not involved in the accident under which the injured person is a named insured;
3. The policy covering a motor vehicle not involved in the accident under which the injured person is an insured other than a named insured.

Where there is more than one insurer providing coverage under one of the payment priorities set forth, their liability shall be proportioned as to their respective uninsured motorist coverages.

Recovery under the endorsement or provisions shall be subject to the conditions set forth in this section.

C. There shall be a rebuttable presumption that a motor vehicle is uninsured if the Commissioner of the Department of Motor Vehicles certifies that, from the records of the Department of Motor Vehicles, it appears that (i) there is no bodily injury liability insurance and property damage liability insurance in the amounts specified by § 46.2-472 covering the owner or operator of the motor vehicle; or (ii) no bond has been given or cash or securities delivered in lieu of the insurance; or (iii) the owner or operator of the motor vehicle has not qualified as a self-insurer in accordance with the provisions of § 46.2-368.

D. If the owner or operator of any motor vehicle that causes bodily injury or property damage to the insured is unknown, and if the damage or injury results from an accident where there has been no contact between that motor vehicle and the motor vehicle occupied by the insured, or where there has been no contact with the person of the insured if the insured was not occupying a motor vehicle, then for the insured to recover under the endorsement required by subsection A of this section, the accident shall be reported promptly to either (i) the insurer or (ii) a law-enforcement officer having jurisdiction in the county or city in which the accident occurred. If it is not reasonably practicable to make the report promptly, the report shall be made as soon as reasonably practicable under the circumstances.

E. If the owner or operator of any vehicle causing injury or damages is unknown, an action may be instituted against the unknown defendant as "John Doe" and service of process may be made by delivering a copy of the motion for judgment or other pleadings to the clerk of the court in which the action is brought. Service upon the insurer issuing the policy shall be made as prescribed by law as though the insurer were a party defendant. The provisions of § 8.01-288 shall not be applicable to the service of process required in this subsection. The insurer shall have the right to file pleadings and take other action allowable by law in the name of John Doe.

F. If any action is instituted against the owner or operator of an uninsured or underinsured motor vehicle by any insured intending to rely on the uninsured or underinsured coverage provision or endorsement of this policy under which the insured is making a claim, then the insured shall serve a copy of the process upon this insurer in the manner prescribed by law, as though the insurer were a party defendant. The provisions of § 8.01-288 shall not be applicable to the service of process required in this subsection. The insurer shall then have the right to file pleadings and take other action allowable by law in the name of the owner or operator of the uninsured or underinsured motor vehicle or in its own name. Notwithstanding the provisions of subsection A, the immunity from liability for negligence of the owner or operator of a motor vehicle shall not be a bar to the insured obtaining a judgment enforceable against the insurer for the negligence of the immune owner or operator, and shall not be a defense available to the insurer to the action brought by the insured, which shall proceed against the named defendant although any judgment obtained against an immune defendant shall be entered in the name of "Immune Defendant" and shall be enforceable against the insurer and any other nonimmune defendant as though it were entered in the actual name of the named immune defendant. Nothing in this subsection shall prevent the owner or operator of the uninsured motor vehicle from employing counsel of his own choice and taking any action in his own interest in connection with the proceeding.

G. Any insurer paying a claim under the endorsement or provisions required by subsection A of this section shall be subrogated to the rights of the insured to whom the claim was paid against the person causing the injury, death, or damage and that person's insurer, although it may deny coverage for any reason, to the extent that payment was made. The bringing of an action against the unknown owner or operator as John Doe or the conclusion of such an action shall not bar the insured from bringing an action against the owner or operator proceeded against as John Doe, or against the owner's or operator's insurer denying coverage for any reason, if the identity of the owner or operator who caused the injury or damages becomes known. The bringing of an action against an unknown owner or operator as John Doe shall toll the statute of limitations for purposes of bringing an action against the owner or operator who caused the injury or damages until his identity becomes known. In no event shall an action be brought against an owner or operator who caused the injury or damages, previously filed against as John Doe, more than three years from the commencement of the action against the unknown owner or operator as John Doe in a court of competent jurisdiction. Any recovery against the owner or operator, or the insurer of the owner or operator shall be paid to the insurer of the injured party to the extent that the insurer paid the named insured in the action brought against the owner or operator as John Doe. However, the insurer shall pay its proportionate part of all reasonable costs and expenses incurred in connection with the action, including reasonable attorney's fees. Nothing in an endorsement or provisions made under this subsection nor any other provision of law shall prevent the joining in an action against John Doe of the owner or operator of the motor vehicle causing the injury as a party defendant, and the joiner is hereby specifically authorized. No action, verdict or release arising out of a suit brought under this subsection shall give rise to any defenses in any other action brought in the subrogated party's name, including res judicata and collateral estoppel.

H. No endorsement or provisions providing the coverage required by subsection A of this section shall require arbitration of any claim arising under the endorsement or provisions, nor may anything be required of the insured except the establishment of legal liability, nor shall the insured be restricted or prevented in any manner from employing legal counsel or instituting legal proceedings.
I. Except as provided in § 65.2-309.1, the provisions of subsections A and B of § 38.2-2204 and the provisions of subsection A of this section shall not apply to any policy of insurance to the extent that it covers the liability of an employer under any workers' compensation law, or to the extent that it covers liability to which the Federal Tort Claims Act applies. No provision or application of this section shall limit the liability of an insurer of motor vehicles to an employee or other person insured under this section who is injured by an uninsured motor vehicle; provided that in the event an employee of a self-insured employer receives a workers' compensation award for injuries resulting from an accident with an uninsured motor vehicle, such award shall be set off against any judgment for damages awarded pursuant to this section for personal injuries resulting from such accident.

J. Policies of insurance whose primary purpose is to provide coverage in excess of other valid and collectible insurance or qualified self-insurance may include uninsured motorist coverage as provided in subsection A of this section. Insurers issuing or providing liability policies that are of an excess or umbrella type or which provide liability coverage incidental to a policy and not related to a specifically insured motor vehicle, shall not be required to offer, provide or make available to those policies uninsured or underinsured motor vehicle coverage as defined in subsection A of this section.

K. An injured person, or in the case of death or disability his personal representative, may settle a claim with (i) a liability insurer or insurers, including any insurer providing liability coverage through an excess or umbrella insurance policy or contract and (ii) the liability insurer's or insurers insured for the available limits of the liability insurer's coverage. Upon settlement with the liability insurer or insurers, the injured party or personal representative shall proceed to execute a full release in favor of the underinsured motorist's liability insurer and its insured and finalize the proposed settlement without prejudice to any underinsured motorist benefits claim or claim. Any such release that states that it is being executed pursuant to or consistent with this subsection shall not operate to release any parties other than the liability insurer and underinsured motorist, regardless of the identities of the released parties set forth in the release, and any terms contained in the release that are inconsistent with, or in violation of, this section are null and void. Upon payment of the liability insurer's available limits to the injured person or personal representative or his attorney, the liability insurer shall thereafter have no further duties to its insured, including the duty to defend its insured if an action has been or is brought against the liability insurer's insured, and the insurer providing applicable underinsured motorist coverage shall have no right of subrogation or claim against the underinsured motorist. However, if the underinsured motorist unreasonably fails to cooperate with the underinsured motorist benefits insurer in the defense of any lawsuit brought by the injured person or his personal representative, he may again be subjected to a claim for subrogation by the underinsured motorist benefits insurer pursuant to § 8.01-66.1:1. Nothing in this section or § 8.01-66.1:1 shall create any duty on the part of any underinsured motorist benefits insurer to defend any underinsured motorist. No attorney-client relationship is created between the underinsured motorist and counsel for the underinsured motorist benefits insurer without the express intent and agreement of the underinsured motorist, the underinsured motorist benefits insurer, and counsel for the underinsured motorist benefits insurer. This section provides an alternative means by which the parties may resolve claims and does not eliminate or restrict any other available means.

L. Any settlement between the injured person or his personal representative, any insurer providing liability coverage applicable to the claim, and the underinsured motorist described in subsection K shall be in writing, signed by both the injured person or his personal representative and the underinsured motorist, and shall include the following notice to the underinsured motorist, which must be initialed by the underinsured motorist:

"NOTICE TO RELEASED PARTY: Your insurance company has agreed to pay the available limits of its insurance to settle certain claims on your behalf. This settlement secures a full release of you for all claims the claimant/plaintiff has against you arising out of the subject accident, as well as ensures that no judgment can ever be entered against you by the claimant/plaintiff. In order to protect yourself from subrogation by any underinsured motorist insurer, you are agreeing to cooperate with the underinsured motorist benefits insurer(s). The underinsured motorist benefits insurer is not your insurer and has no duty to defend you.

Under this manner of settlement, the underinsured motorist benefits insurer(s) that is/are involved in this case has/have no right of subrogation against you unless you fail to reasonably cooperate in its/their defense of the claim by not (i) attending your deposition and trial, if subpoenaed, (ii) assisting in responding to discovery, (iii) meeting with defense counsel at reasonable times after commencement of this suit and before your testimony at a deposition and/or trial, and (iv) notifying the underinsured motorist benefits insurer or its defense counsel of any change in your address, provided that the underinsured motorist benefits insurer or its defense counsel has notified you of its existence and provided you with their contact information.

Upon payment of the agreed settlement amount by your insurance company(ies), such company shall no longer owe you any duties, including the duty to hire and pay for an attorney for you. You are not required to consent to settlement in this manner. If you do not consent to settlement in this manner, your insurance company will still defend you in any lawsuit brought against you by the claimant/plaintiff, but you will not have the protections of a full release from the claimant/plaintiff, judgment could be entered against you and may exceed your available insurance coverage, and any underinsured motorist benefits insurer would have a right of subrogation against you to recover any moneys it pays to the claimant/plaintiff.

You are encouraged to discuss your rights and obligations related to settlement in this manner with your insurance company and/or an attorney. By signing this document, you agree to consent to this settlement and to reasonably cooperate with the underinsured motorist benefits insurer in the defense of any lawsuit brought by the claimant/plaintiff.

____________________ (initial)"
In the alternative to having the underinsured motorist sign the release and initial the notice, the liability insurer may send the notice and release to the released party underinsured motorist by certified mail return receipt requested to the underinsured motorist at his last known address, which will be deemed to have satisfied the requirements of this subsection.

M. Any action brought by the injured person or his personal representative to recover underinsured motorist benefits after payment of the liability insurer's available limits pursuant to subsection K shall be brought against the released defendant or defendants, and a copy of the complaint shall be served on any insurer providing underinsured motorist benefits. If an action is pending at the time the liability insurer's available limits are paid to the injured person or personal representative or his attorney, then the action shall remain pending against the named defendant or defendants who have been released. If such action results in a verdict in favor of the injured person or his personal representative against a released defendant, then judgment as to that defendant shall be entered in the name of "Released Defendant" and shall be enforceable against the underinsured motorist benefits insurer or insurers, not to exceed the underinsured motorist benefits limits, and against any unreleased defendant, as though it were entered in the actual name of the released defendant.

N. Any proposed settlement between a liability insurer and a person under a disability or a personal representative as permitted in subsection K that compromises in part a claim for personal injuries by the person under a disability or for death by wrongful act pursuant to § 8.01-50 may be, but is not required to be, approved pursuant to § 8.01-424 or 8.01-55, as applicable. If the personal representative elects not to have the settlement with the liability insurer approved pursuant to § 8.01-55, then any payment made to the personal representative by the liability insurer shall be made payable to the personal representative's attorney, to be held in trust, or paid into the court pursuant to § 8.01-600 if the personal representative is not represented by an attorney, with no disbursements made therefrom until the compromise is approved by the court pursuant to § 8.01-55. Approval by the court of a settlement between the liability insurer and a person under a disability or the personal representative pursuant to this subsection shall not prejudice the person's or personal representative's claim for underinsured motorist benefits.

§ 46.2-904. Use of roller skates and skateboards on sidewalks and shared-use paths; operation of bicycles and certain motorized and electric items and devices on sidewalks, crosswalks, and shared-use paths; local ordinances.

The governing body of any county, city, or town may by ordinance prohibit the use of roller skates, skateboards, and electric personal delivery devices and/or the riding of bicycles, electric personal assistive mobility devices, motorized skateboards or scooters, motor-driven cycles, or electric power-assisted bicycles on designated sidewalks or crosswalks, including those of any church, school, recreational facility, or any business property open to the public where such activity is prohibited. Signs indicating such prohibition shall be conspicuously posted in general areas where use of roller skates, skateboards, and electric personal delivery devices, and/or bicycle, electric personal assistive mobility devices, motorized skateboards or scooters, motor-driven cycles, or electric power-assisted bicycle riding is prohibited. Unless otherwise prohibited, electric personal delivery devices may be operated on the sidewalks and shared-use paths and across the roadway on a crosswalk of any locality of the Commonwealth.

A person riding a bicycle, electric personal assistive mobility device, motorized skateboard or scooter, motor-driven cycle, or electric power-assisted bicycle on a sidewalk or shared-use path or across a roadway on a crosswalk shall yield the right-of-way to any pedestrian and shall give an audible signal before overtaking and passing any pedestrian. An electric personal delivery device operated on a sidewalk or shared-use path or across a roadway on a crosswalk shall yield the right-of-way to any pedestrian.

No person shall ride a bicycle, electric personal assistive mobility device, motorized skateboard or scooter, motor-driven cycle, or electric power-assisted bicycle or operate an electric personal delivery device on a sidewalk, or across a roadway on a crosswalk, where such use of bicycles, electric personal assistive mobility devices, electric personal delivery devices, motorized skateboards or scooters, motor-driven cycles, or electric power-assisted bicycles is prohibited by official traffic control devices. No person shall park a bicycle, electric power-assisted bicycle, or motorized skateboard or scooter in a manner that impedes the normal movement of pedestrian or other traffic or where such parking is prohibited by official traffic control devices.

A person riding a bicycle, electric personal assistive mobility device, motorized skateboard or scooter, motor-driven cycle, or electric power-assisted bicycle on a sidewalk or shared-use path or across a roadway on a crosswalk shall have all the rights and duties of a pedestrian under the same circumstances. An electric personal delivery device operated on a sidewalk or shared-use path or across a roadway on a crosswalk shall have all the rights and duties of a pedestrian under the same circumstances.
A violation of any ordinance adopted pursuant to this section or any provision of this section shall be punishable by a civil penalty of not more than $50.
§ 46.2-905. Riding bicycles, electric personal assistive mobility devices, electric power-assisted bicycles, motorized skateboards or scooters, and mopeds on roadways and bicycle paths.

Any person operating a bicycle, electric personal assistive mobility device, electric power-assisted bicycle, motorized skateboard or scooter, or moped on a roadway at less than the normal speed of traffic at the time and place under conditions then existing shall ride as close as safely practicable to the right curb or edge of the roadway, except under any of the following circumstances:

1. When overtaking and passing another vehicle proceeding in the same direction;
2. When preparing for a left turn at an intersection or into a private road or driveway;
3. When reasonably necessary to avoid conditions including, but not limited to, fixed or moving objects, parked or moving vehicles, pedestrians, animals, surface hazards, or substandard width lanes that make it unsafe to continue along the right curb or edge;
4. When avoiding riding in a lane that must turn or diverge to the right; and
5. When riding upon a one-way road or highway, a person may also ride as near the left-hand curb or edge of such roadway as safely practicable.

For purposes of this section, a "substandard width lane" is a lane too narrow for a bicycle, electric personal assistive mobility device, electric power-assisted bicycle, motorized skateboard or scooter, or moped and another vehicle to pass safely side by side within the lane.

Persons riding bicycles, electric personal assistive mobility devices, or electric power-assisted bicycles, or motorized skateboards or scooters on a highway shall not ride more than two abreast. Persons riding two abreast shall not impede the normal and reasonable movement of traffic, shall move into a single file formation as quickly as is practicable when being overtaken from the rear by a faster moving vehicle, and, on a laned roadway, shall ride in a single lane.

Notwithstanding any other provision of law to the contrary, the Department of Conservation and Recreation shall permit the operation of electric personal assistive mobility devices on any bicycle path or trail designated by the Department for such use.

§ 46.2-908.1. Electric personal assistive mobility devices, electric personal delivery devices, electrically powered toy vehicles, electric power-assisted bicycles, and motorized skateboards or scooters.

All electric personal assistive mobility devices, electric personal delivery devices, electrically powered toy vehicles, and electric power-assisted bicycles shall be equipped with spill-proof, sealed, or gelled electrolyte batteries. No person shall at any time or at any location operate (i) drive an electric personal assistive mobility device or an electric power-assisted bicycle at a speed faster than 25 miles per hour or (ii) operate a motorized skateboard or scooter at a speed faster than 20 miles per hour; or (iii) an electric personal delivery device at a speed faster than 10 miles per hour. No person shall operate a skateboard or scooter that would otherwise meet the definition of a motorized skateboard or scooter but is capable of speeds greater than 20 miles per hour at a speed greater than 20 miles per hour. No person less than 14 years old shall drive any electric personal assistive mobility device, motorized skateboard or foot-scooter scooter, or electric power-assisted bicycle unless under the immediate supervision of a person who is at least 18 years old.

An electric personal assistive mobility device or motorized skateboard or foot-scooter scooter may be operated on any highway with a maximum speed limit of 25 miles per hour or less. An electric personal assistive mobility device shall only operate on any highway authorized by this section if a sidewalk is not provided along such highway or if operation of the electric personal assistive mobility device on such sidewalk is prohibited pursuant to § 46.2-904. Nothing in this section shall prohibit the operation of an electric personal assistive mobility device, electric personal delivery device, or motorized skateboard or foot-scooter scooter in the crosswalk of any highway where the use of such crosswalk is authorized for pedestrians, bicycles, or electric power-assisted bicycles.

Operation of electric personal assistive mobility devices, motorized skateboards or scooters, electrically powered toy vehicles, bicycles, and electric power-assisted bicycles is prohibited on any Interstate Highway System component except as provided by the section.

The Commonwealth Transportation Board may authorize the use of bicycles or motorized skateboards or scooters on an Interstate Highway System Component provided the operation is limited to bicycle or pedestrian facilities that are barrier separated from the roadway and automobile traffic and such component meets all applicable safety requirements established by federal and state law.

§ 46.2-1015. Lights on bicycles, electric personal assistive mobility devices, electric personal delivery devices, electric power-assisted bicycles, mopeds, and motorized skateboards or scooters.

A. Every bicycle, electric personal assistive mobility device, electric personal delivery device, electric power-assisted bicycle, and moped, and motorized skateboard or scooter with handlebars when in use between sunset and sunrise shall be equipped with a headlight on the front emitting a white light visible in clear weather from a distance of at least 500 feet to the front and a red reflector visible from a distance of at least 600 feet to the rear when directly in front of lawful lower beams of headlights on a motor vehicle. Such lights and reflector shall be of types approved by the Superintendent.

In addition to the foregoing provisions of this section, a bicycle or its rider may be equipped with lights or reflectors. These lights may be steady burning or blinking.

B. Every bicycle, or its rider, shall be equipped with a taillight on the rear emitting a red light plainly visible in clear weather from a distance of at least 500 feet to the rear when in use between sunset and sunrise and operating on any highway with a speed limit of 35 mph or greater. Any such taillight shall be of a type approved by the Superintendent.
§ 46.2-1041. Restrictions as to solid rubber tires.

Every tire, other than a pneumatic tire, made of rubber on a motor vehicle moved on any highway shall have rubber on its entire traction surface at least one inch thick above the edge of the flange of the entire periphery. No motor vehicle equipped with such tires shall be operated on any highway in the Commonwealth unless a permit therefor is first secured from the Department of Transportation.

§ 46.2-1081. Slow-moving vehicle emblems.

A. Every farm tractor, self-propelled unit of farm equipment or implement of husbandry, and any other vehicle designed for operation at speeds not in excess of 25 miles per hour or normally operated at speeds not in excess of 25 miles per hour, shall display a triangular slow-moving vehicle emblem on the rear of the vehicle when traveling on a public highway at any time of the day or night.

B. Should a slow-moving vehicle tow a unit on a public highway, then the towing vehicle or the towed unit shall be equipped with the slow-moving vehicle emblem as follows:

1. If the towed unit or any load thereon obscures the slow-moving vehicle emblem on the towing vehicle, the towed unit shall be equipped with a slow-moving vehicle emblem, in which case the towing vehicle need not display such emblem.

2. If the slow-moving vehicle emblem on the towing vehicle is not obscured by the towed unit or any load thereon, then either or both such vehicles may be equipped with such emblem.

C. The standards and specifications for the slow-moving vehicle emblem and the position of mounting of the emblem shall conform to standards and specifications adopted by the American Society of Agricultural Engineers, the Society of Automotive Engineers, the American National Standards Institute, Inc., or the federal Department of Transportation.

D. The use of the slow-moving vehicle emblem shall be restricted to the uses specified in this title.

E. The provisions of this section shall not apply to bicycles, electric power-assisted bicycles, or mopeds, or motorized skateboards or scooters. Display of a slow-moving vehicle emblem on a bicycle, electric power-assisted bicycle, or moped, or motorized skateboard or scooter shall not be deemed a violation of this section.

Any county, city, town, or political subdivision may (i) by ordinance regulate or (ii) by any governing body action or administrative action establish a demonstration project or pilot program regulating the operation of motorized skateboards or scooters, bicycles, or electric power-assisted bicycles for hire, provided that such regulation or other governing body or administrative action is consistent with this title. Such ordinance or other governing body or administrative action may require persons offering motorized skateboards or scooters, bicycles, or electric power-assisted bicycles for hire to be licensed, provided that on or after January 1, 2020, in the absence of any licensing ordinance, regulation, or other action, a person may offer motorized skateboards or scooters, bicycles, or electric power-assisted bicycles for hire.

2. That the provisions of this act adding § 46.2-1315 to the Code of Virginia shall not be construed to impact any existing regulations, ordinances, or pilot projects currently being implemented by a locality or political subdivision as authorized by existing law.

3. That the provisions of this act amending § 46.2-903 of the Code of Virginia shall become effective January 1, 2020.

A. When a person is charged with a simple assault in violation of subsection A of § 18.2-57 where the victim was a family or household member of the person or a violation of § 18.2-57.2, the court may defer the proceedings against such person, without a finding of guilt, and place him on probation under the terms of this section.
B. If the court defers further proceedings, at that time the court shall determine whether the clerk of court has been provided with the fingerprint identification information or fingerprints of the person, taken by a law-enforcement officer pursuant to § 19.2-390, and, if not, shall order that the fingerprints and photograph of the person be taken by a law-enforcement officer. A person may file a motion to withdraw his consent to the deferral and waiver of his right to appeal within 10 days of the entry of the order deferring proceedings on a form prescribed by the Office of the Executive Secretary of the Supreme Court of Virginia. The court shall schedule a hearing within 30 days of receipt of the motion and shall provide reasonable notice to the attorney for the Commonwealth and to the person and his attorney, if any. If the person appears at the hearing and requests to withdraw his consent, the court shall order that the fingerprints and photograph of the person be taken by a law-enforcement officer pursuant to § 19.2-390, and, if not, shall order that the fingerprints and photograph of the person be taken by a law-enforcement officer.

C. The court shall (i) where a local community-based probation services agency established pursuant to Article 9 (§ 9.1-173 et seq.) of Chapter 1 of Title 9.1 is available, order that the eligible person be placed with such agency and require, as a condition of local community-based probation, the person to successfully complete all treatment, education programs, or services, or any combination thereof, indicated by an assessment or evaluation obtained by the local community-based probation services agency if such assessment, treatment, or education services are availables or (ii) require successful completion of treatment, education programs, or services, or any combination thereof, such as, in the opinion of the court, may be best suited to the needs of the person.

D. The court shall require the person entering education or treatment program or services under the provisions of this section to pay all or part of the costs of the program or services, including the costs of any assessment, evaluation, testing, education, and treatment, based upon the person's ability to pay. Such programs or services shall offer a sliding-scale fee structure or other mechanism to assist participants who are unable to pay the full costs of the required programs or services.

The court shall order the person to be of good behavior for a total period of not less than two years following the deferral of proceedings, including the period of supervised probation, if available.

The court shall, unless done at arrest, order the person to report to the original arresting law-enforcement agency to submit to fingerprinting.

E. Upon fulfillment of the terms and conditions specified in the court order, and upon determining that the clerk of court has been provided with the fingerprint identification information or fingerprints of such person, the court shall discharge the person and dismiss the proceedings against him. Discharge and dismissal under this section shall be without adjudication of guilt and is a conviction only for the purposes of applying this section in subsequent proceedings. No charges dismissed pursuant to this section shall be eligible for expungement under § 19.2-392.2.

F. Upon violation of a term or condition of supervised probation or of the period of good behavior, the court may enter an adjudication of guilt and proceed as otherwise provided by law. Any person placed on probation pursuant to this section who is subsequently adjudicated guilty upon a violation of a term or condition of his probation shall have no right of appeal on such adjudication.

G. Notwithstanding any other provision of this section, whenever a court places a person on probation upon terms and conditions pursuant to this section, such action shall be treated as a conviction for purposes of Article 6.1 (§ 18.2-307.1 et seq.) of Chapter 7.

If the court defers further proceedings, at that time the court shall determine whether the clerk of court has been provided with the fingerprint identification information or fingerprints of the person, taken by a law-enforcement officer pursuant to § 19.2-390, and, if not, shall order that the fingerprints and photograph of the person be taken by a law-enforcement officer.

As a term or condition, the court shall require the accused to undergo a substance abuse assessment pursuant to § 18.2-251.01 or 19.2-299.2, as appropriate, and enter treatment and/or education program or services, if available, such as, in the opinion of the court, may be best suited to the needs of the accused based upon consideration of the substance abuse assessment. The program or services may be located in the judicial district in which the charge is brought or in any other judicial district as the court may provide. Whenever any person is detained by or is in the custody of an arresting officer for a violation of any county, city, or town ordinance or of any provision of this Code, punishable as a Class 3 or Class 4 misdemeanor or any other misdemeanor for which he cannot receive a jail sentence, except as otherwise provided in Title 46.2, or to the offense of public drunkenness as defined in § 18.2-388, the arresting officer shall take the name and address of such person and issue a summons or otherwise notify him in writing to appear at a time and place to be specified in such summons or notice. Upon the giving of such person's written promise to appear at such time and place, the officer shall forthwith release him from custody. However, if any such person shall fail or refuse to discontinue the unlawful act, the officer may proceed according to the provisions of § 19.2-82.

3. Unless otherwise authorized by law, any person so summoned shall not be held in custody after the issuance of such summons for the purpose of complying with the requirements of Chapter 23 (§ 19.2-387 et seq.) of this title. Reports to the Central Criminal Records Exchange concerning such persons shall be made after a disposition of guilt is entered as provided for in § 19.2-390 pursuant to subdivision A 2 of § 19.2-390 and subsection C of § 19.2-390.

Any person refusing to give such written promise to appear under the provisions of this section shall be taken immediately by the arresting or other police officer before a magistrate or other issuing authority having jurisdiction, who shall proceed according to provisions of § 19.2-82.
Any person who willfully violates his written promise to appear, given in accordance with this section, shall be treated in accordance with the provisions of § 19.2-128, regardless of the disposition of, and in addition to, the charge upon which he was originally arrested.

Any person charged with committing any violation of § 18.2-407 may be arrested and immediately brought before a magistrate who shall proceed as provided in § 19.2-82.

B. Conservators of the peace appointed under Chapter 2 (§ 19.2-12 et seq.) may issue summonses pursuant to this section, if such officers are in uniform or displaying a badge of office. On application, the chief law-enforcement officer of the county or city shall supply each officer with a supply of summons forms, for which such officer shall account pursuant to regulation of such chief law-enforcement officer.

C. The summons used by a law-enforcement officer pursuant to this section shall be in form the same as the uniform summons for motor vehicle law violations as prescribed pursuant to § 46.2-388.

§ 19.2-232. What process to be awarded against accused on indictment, etc.

When an indictment or presentment is found or made, or information filed, the court, or the judge thereof, shall award process against the accused to answer the same, if he be not in custody. Such process, if the prosecution be for a felony, shall be a capias; if it be for a misdemeanor, for which imprisonment may be imposed, it may be a capias or summons, in the discretion of the court or judge; in all other cases, it shall be, in the first instance a summons, but if a summons be returned executed and the defendant does not appear, or be returned not found, the court or judge may award a capias. The officer serving the summons or capias shall also serve a copy of the indictment, presentment, or information therewith.

If the accused is in custody when an indictment or presentment is found or made, or information is filed, and no process is awarded, the attorney for the Commonwealth shall so notify the court of such at the time of first appearance for each indictment, presentment, or information for which a report is required upon arrest pursuant to subsection A of § 19.2-390, and the court shall order that the fingerprints and photograph of the accused be taken for each offense by a law-enforcement officer or by the agency that has custody of the accused at the time of first appearance. The law-enforcement officer or agency taking the fingerprints and photograph shall submit a report to the Central Criminal Records Exchange for each offense pursuant to subsection A of § 19.2-390.

§ 19.2-303. Suspension or modification of sentence; probation; taking of fingerprints and blood, saliva, or tissue sample as condition of probation.

After conviction, whether with or without jury, the court may suspend imposition of sentence or suspend the sentence in whole or part and in addition may place the defendant on probation under such conditions as the court shall determine, including monitoring by a GPS (Global Positioning System) tracking device, or other similar device, or may, as a condition of a suspended sentence, require the defendant to make at least partial restitution to the aggrieved party or parties for damages or loss caused by the offense for which convicted, or to perform community service, or both, under terms and conditions which shall be entered in writing by the court. The defendant may be ordered by the court to pay the cost of the GPS tracking device or other similar device. If, however, the court suspends or modifies any sentence fixed by a jury pursuant to § 19.2-295, the court shall file a statement of the reasons for the suspension or modification in the same manner as the statement required pursuant to subsection B of § 19.2-298.01. The judge, after convicting the defendant of a felony offense for which a report to the Central Criminal Records Exchange is required in accordance with subsection A of § 19.2-390, shall determine whether a copy of the defendant's fingerprints are on file at the Central Criminal Records Exchange or fingerprint identification information has been provided by a law-enforcement officer to the clerk of court for each such offense. In any case where fingerprints are not on file or fingerprint identification information has not been provided by a law-enforcement officer to the clerk of court, the judge shall require that fingerprints and a photograph be taken by a law-enforcement officer as a condition of probation or of the suspension of the imposition or execution of any sentence for such offense. Such fingerprints shall be submitted to the Central Criminal Records Exchange under the provisions of subsection D of § 19.2-390.

In those courts having electronic access to the Local Inmate Data System (LIDS) within the courtroom, prior to or upon sentencing, the clerk of court shall also determine by reviewing LIDS whether a blood, saliva, or tissue sample has been taken for DNA analysis and submitted to the DNA data bank maintained by the Department of Forensic Science pursuant to Article 1.1 (§ 19.2-310.2 et seq.) of Chapter 18 of this title. In any case in which the clerk has determined that a DNA sample or analysis is not stored in the DNA data bank, or in any case in which electronic access to LIDS is not available in the courtroom, the court shall order that the defendant appear within 30 days before the sheriff or probation officer and allow the sheriff or probation officer to take the required sample. The order shall also require that, if the defendant has not appeared and allowed the sheriff or probation officer to take the required sample by the date stated in the order, then the sheriff or probation officer shall report to the court the defendant's failure to appear and provide the required sample.

After conviction and upon sentencing of an active participant or member of a criminal street gang, the court may, as a condition for suspending the imposition of the sentence in whole or in part or for placing the accused on probation, place reasonable restrictions on those persons with whom the accused may have contact. Such restrictions may include prohibiting the accused from having contact with anyone whom he knows to be a member of a criminal street gang, except that contact with a family or household member, as defined in § 16.1-228, shall be permitted unless expressly prohibited by the court.
In any case where a defendant is convicted of a violation of § 18.2-48, 18.2-61, 18.2-63, 18.2-67.1, 18.2-67.2, 18.2-67.3, 18.2-370, or 18.2-370.1, committed on or after July 1, 2006, and some portion of the sentence is suspended, the judge shall order that the period of suspension shall be for a length of time at least equal to the statutory maximum period for which the defendant might originally have been sentenced to be imprisoned, and the defendant shall be placed on probation for that period of suspension subject to revocation by the court. The conditions of probation may include such conditions as the court shall determine, including active supervision. Where the conviction is for a violation of clause (iii) of subsection A of § 18.2-61, subdivision A 1 of § 18.2-67.1, or subdivision A 1 of § 18.2-67.2, the court shall order that at least three years of the probation include active supervision of the defendant under a postrelease supervision program operated by the Department of Corrections, and for at least three years of such active supervision, the defendant shall be subject to electronic monitoring by means of a GPS (Global Positioning System) tracking device, or other similar device.

If a person is sentenced to jail upon conviction of a misdemeanor or a felony, the court may, at any time before the sentence has been completely served, suspend the unserved portion of any such sentence, place the person on probation for such time as the court shall determine, or otherwise modify the sentence imposed.

If a person has been sentenced for a felony to the Department of Corrections but has not actually been transferred to a receiving unit of the Department, the court which heard the case, if it appears compatible with the public interest and there are circumstances in mitigation of the offense, may, at any time before the person is transferred to the Department, suspend or otherwise modify the unserved portion of such a sentence. The court may place the person on probation for such time as the court shall determine.

§ 19.2-303.2. Modification of conditions of suspended sentence or probation to require fingerprinting.

In any case where the court has suspended the imposition or execution of a sentence or placed the defendant on probation, the court may modify the sentence or conditions of probation at any time within the period of suspension or supervision to require that the fingerprints and photograph of the defendant be taken by a law-enforcement officer as a condition of that suspended sentence or probation, but only upon a hearing after reasonable notice to both the defendant and the attorney for the Commonwealth.

§ 19.2-303.2. Persons charged with first offense may be placed on probation.

Whenever any person who has not previously been convicted of any felony pleads guilty to or enters a plea of not guilty to any crime against property constituting a misdemeanor, under Articles 5, 6, 7 and 8 of Chapter 5 (§ 18.2-119 et seq.) of Title 18.2, the court, upon such plea if the facts found by the court would justify a finding of guilt, without entering a judgment of guilt and with the consent of the accused, may defer further proceedings and place him on probation subject to terms and conditions, which may include restitution for losses caused, set by the court. If the court defers further proceedings for an offense that is required to be reported to the Central Criminal Records Exchange pursuant to § 19.2-390, at that time the court shall determine whether the clerk of court has been provided with the fingerprint identification information or fingerprints of the accused, taken by a law-enforcement officer pursuant to § 19.2-390, and, if not, shall order that the fingerprints and photograph of the accused be taken by a law-enforcement officer. Upon violation of a term or condition, the court may enter an adjudication of guilt and proceed as otherwise provided. Upon fulfillment of the terms and conditions, and upon determining that the clerk of court has been provided with the fingerprint identification information or fingerprints of such person for an offense that is required to be reported to the Central Criminal Records Exchange pursuant to § 19.2-390, the court shall discharge the person and dismiss the proceedings against him. Discharge and dismissal under this section shall be without adjudication of guilt and is a conviction only for the purpose of applying this section in subsequent proceedings.

§ 19.2-305.1. Restitution for property damage or loss; community service.

A. Notwithstanding any other provision of law, no person convicted of a crime in violation of any provision in Title 18.2, which resulted in property damage or loss, shall be placed on probation or have his sentence suspended unless such person shall make at least partial restitution for such property damage or loss, or shall be compelled to perform community services, or both, or shall submit a plan for doing that which appears to the court to be feasible under the circumstances.

B. Notwithstanding any other provision of law, any person who, on or after July 1, 1995, commits, and is convicted of, a crime in violation of any provision in Title 18.2 shall make at least partial restitution for any property damage or loss caused by the crime or for any medical expenses or expenses directly related to funeral or burial incurred by the victim or his estate as a result of the crime, may be compelled to perform community services and, if the court so orders, shall submit a plan for doing that which appears to be feasible to the court under the circumstances.

B1. Notwithstanding any other provision of law, any person, who on or after July 1, 2005 commits and is convicted of a crime in violation of § 18.2-248 involving the manufacture of any controlled substance, may be ordered, upon presentation of suitable evidence of such costs, by the court to reimburse the Commonwealth or the locality for the costs incurred by the jurisdiction, as the case may be, for the removal and remediation associated with the illegal manufacture of any controlled substance by the defendant.

B2. Notwithstanding any other provision of law, any person who, on or after July 1, 2015, commits and is convicted of a violation of § 18.2-138 for damage to the Capitol or any building, monument, statuary, artwork, or other state property in Capitol Square, or at any other property assigned to the Capitol Police, shall be ordered to pay restitution to the Commonwealth for the full amount of damages. Any person who, on or after July 1, 2015, commits and is convicted of a violation of § 18.2-405, 18.2-407, or 18.2-408 in Capitol Square, or at any other property assigned to the Capitol Police,
shall be ordered to pay restitution to the Commonwealth for the full amount of damages to the Capitol or any building, monument, statue, artwork, or other state property in Capitol Square, or at any other property assigned to the Capitol Police, to which damage is caused during such riot or unlawful assembly. In any prosecution under § 18.2-138, 18.2-405, 18.2-407, or 18.2-408, testimony of the Division of Engineering and Buildings of the Department of General Services or the Division of Risk Management shall be admissible as evidence of value or extent of damages or cost of repairs to the Capitol or any building, monument, statue, artwork, or other state property in Capitol Square, or at any other property assigned to the Capitol Police. For the purposes of this subsection, "Capitol Square" means the grounds and the interior and exterior of all buildings in that area in the City of Richmond bounded by Bank, Governor, Broad, and Ninth Streets. "Capitol Square" includes the exterior of all state buildings that are at least 50 years old and bordering the boundary streets.

C. At or before the time of sentencing, the court shall receive and consider any plan for making restitution submitted by the defendant. The plan shall include the defendant's home address, place of employment and address, social security number and bank information. If the court finds such plan to be reasonable and practical under the circumstances, it may consider probation or suspension of whatever portion of the sentence that it deems appropriate. By order of the court incorporating the defendant's plan or a reasonable and practical plan devised by the court, the defendant shall make restitution while he is free on probation or work release or following his release from confinement. Additionally, the court may order that the defendant make restitution during his confinement, if feasible, based upon both his earning capacity and net worth as determined by the court at sentencing.

D. At the time of sentencing, the court shall determine the amount to be repaid by the defendant and the terms and conditions thereof. If community service work is ordered, the court shall determine the terms and conditions upon which such work shall be performed. The court shall include such findings in the judgment order. The order shall specify that sums paid under such order shall be paid to the clerk, who shall disburse such sums as the court may, by order, direct. The clerk shall record receipt of restitution payments in an automated financial management system operated and maintained by the Executive Secretary of the Supreme Court or such other system established and maintained by a circuit court clerk pursuant to § 17.1-502. Any court desiring to participate in the Setoff Debt Collection Act (§§ 58.1-520 through 58.1-535) for the purpose of collecting fines or costs or providing restitution shall, at the time of sentencing, obtain the social security number of each defendant.

E. At the time of sentencing, the court shall enter the amount of restitution to be repaid by the defendant, the date by which all restitution is to be paid, the terms and conditions of such repayment, and the victim's name and contact information, including the victim's home address, telephone number, and email address, on a form prescribed by the Office of the Executive Secretary of the Supreme Court of Virginia. If the attorney for the Commonwealth participated in the prosecution of the defendant, the attorney for the Commonwealth or his designee shall complete, to the extent possible, all portions of the form excluding the amount of restitution to be repaid by the defendant and the terms and conditions of such repayment. If the attorney for the Commonwealth did not participate in the prosecution of the defendant, the court or the clerk shall complete the form. A copy of the form, excluding contact information for the victim, shall be provided to the defendant at sentencing. A copy of the form shall be provided to the attorney for the Commonwealth and to the victim, his agent, or his estate upon request and free of charge. Except as provided in this section or otherwise required by law, the victim's contact information shall be confidential, and the clerk shall not disclose such confidential information to any person.

F. 1. In any case in which the court orders the defendant to pay restitution and places the defendant on probation that includes a period of active supervision, the probation agency supervising the defendant shall notify the court and the attorney for the Commonwealth of the amount of any restitution that remains unsatisfied and the last known address for the defendant (i) 60 days prior to the defendant's release from supervision pursuant to the terms of the sentencing order or (ii) if the agency requests that the defendant be released from supervision, at the time the agency submits its request to the court. Such notice shall be in writing and the attorney for the Commonwealth shall, if practicable, provide a copy of the notice to the victim. If any amount of restitution remains unsatisfied, the court shall conduct a hearing prior to the defendant's release from supervision after providing notice of the hearing to the defendant and the attorney for the Commonwealth. If the court finds that the defendant is not in compliance with the restitution order, the court may (a) release the defendant from supervision, (b) modify the period or terms of supervision pursuant to § 19.2-304, (c) revoke some or all of the suspended sentence or probation pursuant to § 19.2-306, or (d) proceed in accordance with subsection E of § 19.2-358. The court shall also docket the restitution order as a civil judgment pursuant to subsection B of § 19.2-305.2 unless such order has previously been docketed. Any defendant who is released from supervision shall be subject to the provisions of subdivision 3.

2. In any case in which the court orders the defendant to pay restitution and places the defendant on probation that does not include a period of active supervision, the court shall include in the order a date, not to exceed two years from the date of the entry of the order or, if the court has sentenced the defendant to an active term of incarceration, from the date of the defendant's release from incarceration, on which the defendant's compliance with the restitution order shall be reviewed and the court shall schedule a hearing for such date. The court may, on its own motion, cancel the hearing if the amount of restitution has been satisfied. If at the hearing the court finds that the defendant is not in compliance with the restitution order, the court may (i) modify the period or terms of probation pursuant to § 19.2-304, (ii) revoke some or all of the suspended sentence or probation pursuant to § 19.2-306, or (iii) proceed in accordance with the provisions of subsection E of § 19.2-358. The court shall also docket the restitution order as a civil judgment pursuant to subsection B of § 19.2-305.2
unless such order has previously been docketed. After the hearing conducted pursuant to this subdivision, the defendant shall be subject to the provisions of subdivision 3.

3. If any amount of restitution remains unsatisfied at the time of a hearing conducted pursuant to subdivision 1 or 2, the court shall continue to schedule hearings to review the defendant's compliance with the restitution order until the amount of restitution has been satisfied and provide notice of such hearings to the defendant. The court may, on its own motion, cancel any such hearing if the amount of restitution has been satisfied or if the defendant is in compliance with the restitution order. If at any hearing conducted pursuant to this subdivision the court finds that the defendant is not in compliance with the restitution order, the court may (i) modify the period or terms of probation pursuant to § 19.2-304, (ii) revoke some or all of the suspended sentence or probation pursuant to § 19.2-306, or (iii) proceed in accordance with the provisions of subsection E of § 19.2-358. The court shall follow the procedures set forth in this subdivision for the purpose of reviewing compliance with a restitution order by a defendant (a) until the amount of restitution has been satisfied or (b) if any amount of restitution remains unsatisfied, for the longer of 10 years from the date of the hearing held pursuant to subdivision 1 or 2 or the period of probation ordered by the court.

4. If the court determines at any hearing conducted pursuant to this subsection that the defendant is unable to pay restitution and will remain unable to pay restitution for the duration of the review period set forth in subdivision 3, the court may discontinue any further hearings to review a defendant's compliance with the restitution order.

5. If the court determines that a defendant would be incarcerated on the date of any hearing scheduled pursuant to this subsection, the court may remove the case from the docket, reschedule such hearing to a date after the defendant's release from incarceration, and provide notice of the hearing to the defendant and the attorney for the Commonwealth. If the defendant who is on probation that includes a period of active supervision is incarcerated, the probation agency supervising the defendant shall notify the court when the defendant has been released from incarceration.

6. No provision of this subsection shall be construed to prohibit the court from exercising any authority otherwise granted by law over a defendant during any period of probation ordered by the court.

7. At every hearing conducted pursuant to subdivision 1 where the defendant was convicted of an offense for which a report to the Central Criminal Records Exchange is required under subsection A of § 19.2-390, if the court has not previously verified that the conviction for such offense appears on the criminal history record of the defendant, the court shall review the criminal history record of the defendant and determine whether the present conviction appears on that record. The probation officer for the defendant shall provide the criminal history record to the court at such hearing. If the present conviction does not appear on the criminal history record, the court shall order that the fingerprints and photograph of the defendant be taken by a law-enforcement officer and submitted to the Central Criminal Records Exchange. If fingerprints and a photograph have previously been taken for such conviction, the probation officer shall provide written or electronic notification to the Central Criminal Records Exchange within the Department of State Police that the conviction does not appear on the offender's criminal history record prior to his release from supervision.

8. At every hearing conducted pursuant to subdivision 2 where the attorney for the Commonwealth participated in the prosecution and the defendant was convicted of an offense for which a report to the Central Criminal Records Exchange is required under subsection A of § 19.2-390, if the court has not previously verified that the conviction for such offense appears on the criminal history record of the defendant, the court shall review the criminal history record of the defendant and determine whether the present conviction appears on that record. If the attorney for the Commonwealth participated in the prosecution of the offense, the attorney for the Commonwealth shall provide the criminal history record to the court at such hearing. If the present conviction does not appear on the criminal history record, the court shall order that the fingerprints and photograph of the defendant be taken by a law-enforcement officer and submitted to the Central Criminal Records Exchange. If fingerprints and a photograph have previously been taken for such conviction, the attorney for the Commonwealth shall provide written or electronic notification to the Central Criminal Records Exchange within the Department of State Police that the conviction does not appear on the offender's criminal history record.

G. Unreasonable failure to execute the plan by the defendant shall result in revocation of the probation or imposition of the suspended sentence. A hearing shall be held in accordance with the provisions of this Code relating to revocation of probation or imposition of a suspended sentence before either such action is taken.

H. A defendant convicted of an offense under § 18.2-374.1, 18.2-374.1:1, or 18.2-374.3 shall be ordered to pay mandatory restitution to the victim of the offense in an amount as determined by the court. For purposes of this subsection, "victim" means a person who is depicted in a still or videographic image involved in an offense under § 18.2-374.1, 18.2-374.1:1, or 18.2-374.3.

The Commonwealth shall make reasonable efforts to notify victims of offenses under § 18.2-374.1, 18.2-374.1:1, or 18.2-374.3.

I. If restitution is ordered to be paid by the defendant to the victim of a crime and the victim can no longer be located or identified, the clerk shall deposit any such restitution collected to the Criminal Injuries Compensation Fund for the benefit of crime victims by November 1 of each year. If a clerk does not have any such restitution to deposit, the clerk shall provide a statement to that effect to the Fund by November 1 of each year. The administrator shall reserve a sum sufficient in the Fund from which he shall make prompt payment directly to the victim for any proper claims. When depositing such restitution to the Fund, the clerk shall report the victim's last known contact information, including the victim's home address, telephone number, and email address, and the amount of restitution being deposited for that victim. Before making the deposit, the administrator shall record the name, contact information, and amount of restitution being deposited for each
victim appearing from the clerk's report to be entitled to restitution. The victim's contact information reported to the Fund shall be confidential and shall not be disseminated further except as otherwise required by law.

J. If restitution pursuant to § 19.2-305 or this section is ordered to be paid by the defendant to the victim of a crime or other entity, and the Criminal Injuries Compensation Fund has made any payments to or on behalf of the victim for any loss, damage, or expenses included in the restitution order, then upon presentation by the Fund of a written request that sets forth the amount of payments made by the Fund to the victim or on the victim's behalf, the entity collecting restitution shall pay to the Fund as much of the restitution collected as will reimburse the Fund for its payments made to the victim or on the victim's behalf.

K. Whenever a defendant is ordered to pay restitution, any sums collected shall be used first to satisfy such restitution order and any collection costs associated with restitution prior to being used to satisfy any fine, forfeiture, penalty, or cost assessed against the defendant.

A. It shall be the duty of the Central Criminal Records Exchange to receive, classify, and file criminal history record information as defined in § 9.1-101 and other records required to be reported to it by §§ 16.1-299 and 19.2-390. The Exchange is authorized to prepare and furnish to all state and local law-enforcement officials and agencies; to clerks of circuit courts, general district courts, and juvenile and domestic relations district courts; and to corrections and penal officials, forms which shall be used for the making of such reports.

B. Juvenile records received pursuant to § 16.1-299 shall be maintained separately from adult records.

C. The Exchange shall submit periodic reports to the Office of the Executive Secretary of the Supreme Court of Virginia, the clerk of each circuit court and district court, attorneys for the Commonwealth, and law-enforcement agencies containing a list of offenses with unapplied criminal history record information. Reports to the Office of the Executive Secretary of the Supreme Court of Virginia shall be quarterly and shall include all such offenses within the Commonwealth identified by jurisdiction and by court. Reports to the clerk of each circuit court and district court shall be quarterly and shall include only such offenses that were submitted by the respective clerk of court. Reports to attorneys for the Commonwealth shall be quarterly and shall include only such offenses that were submitted by law-enforcement agencies and courts in the county or city served by the respective attorney for the Commonwealth. Reports to law-enforcement agencies shall be monthly and shall include only such offenses for which the respective law-enforcement agency executed the arrest or issued the summons.

D. The Exchange shall review offenses containing unapplied criminal history record information and shall make reasonable efforts to ensure that such information, including any offense of which the Exchange is notified pursuant to subdivision A 12 of § 9.1-176.1, subdivision F 7 or 8 of § 19.2-305.1, subsection B of § 53.1-23, or subdivision 13 or 14 of § 53.1-145, is applied to criminal history records. The Exchange may request and shall receive from the clerk of each circuit court and district court, attorneys for the Commonwealth, law-enforcement agencies, the Department of Corrections, the Department of Forensic Science, and local probation and community corrections agencies cooperation and assistance to obtain positive identification or to reconcile any inconsistencies, errors, or omissions within such unapplied criminal history record information.

E. The Exchange shall submit a report to the Governor and General Assembly on or before November 1 of each year on the status of unapplied criminal history record information and any updates to fingerprinting policies and procedures. The report shall include the following, if known: (i) the total number of offenses submitted to the Exchange, identified by the year of the offense and the year the charge was filed for such offense, that contain unapplied criminal history record information and cannot be applied to criminal history records; (ii) the number of such offenses submitted to the Exchange without fingerprints or positive identification and the law-enforcement agencies that submitted those offenses; (iii) the number of such offenses submitted to the Exchange with an inconsistency, error, or omission and, for those offenses, the jurisdiction from which the offense was submitted; and (iv) efforts made by the Exchange to ensure that unapplied criminal history record information is applied to criminal history records, including any offenses of which the Exchange was notified pursuant to subdivision A 12 of § 9.1-176.1, subdivision F 7 or 8 of § 19.2-305.1, subsection B of § 53.1-23, or subdivision 13 or 14 of § 53.1-145.

§ 19.2-390. Reports to be made by local law-enforcement officers, conservators of the peace, clerks of court, Secretary of the Commonwealth and Corrections officials to State Police; material submitted by other agencies.
A. 1. Every state official or agency having the power to arrest, the sheriffs of counties, the police officials of cities and towns, and any other local law-enforcement officer or conservator of the peace having the power to arrest for a felony shall make a report to the Central Criminal Records Exchange, on forms provided by it, of any arrest, including those arrests involving the taking into custody of, or service of process upon, any person on charges resulting from an indictment, presentment or information, the arrest on capias or warrant for failure to appear, and the service of a warrant for another jurisdiction, for each charge when any person is arrested on any of the following charges:
   a. Treason;
   b. Any felony;
   c. Any offense punishable as a misdemeanor under Title 54.1; or
d. Any misdemeanor punishable by confinement in jail (i) under Title 18.2 or 19.2, or any similar ordinance of any county, city or town, (ii) under § 20-61, or (iii) under § 161.2-253; or

e. Any offense in violation of § 3.2-6570, 4.1-309.1, 5.1-13, 15.2-1612, 46.2-339, 46.2-341.21, 46.2-341.24, 66.2-341.26, 46.2-817, 58.1-3141, 58.1-4018.1, 60.2-632, 63.2-1509, or 63.2-1727.

The reports shall contain such information as is required by the Exchange and shall be accompanied by fingerprints of the individual arrested for each charge. Effective January 1, 2006, the corresponding photograph of the individual arrested shall accompany the report. Fingerprint cards prepared by a law-enforcement agency for inclusion in a national criminal justice file shall be forwarded to the Exchange for transmittal to the appropriate bureau. Nothing in this section shall preclude each local law-enforcement agency from maintaining its own separate photographic database. Fingerprints and photographs required to be taken pursuant to this subsection or subdivision A3c of § 19.2-123 may be taken at the facility where the magistrate is located, including a regional jail, even if the accused is not committed to jail.

2. For persons arrested and released on summons in accordance with § 19.2-74, such report shall not be required until (i) a conviction is entered and no appeal is noted or if an appeal is noted, the conviction is upheld upon appeal or the person convicted withdraws his appeal; (ii) the court defers or dismisses the proceeding pursuant to § 18.2-57.3, 18.2-251, or 19.2-303.2; or (iii) an acquittal by reason of insanity pursuant to § 19.2-182.2 is entered. Upon such conviction or acquittal, the court shall remand the individual to the custody of the office of the chief law-enforcement officer of the county or city. 8. Provide information to assist any law-enforcement officer with the return to custody of defendants placed on supervision for which a capias has been sought;

10. Determine by reviewing the Local Inmate Data System upon intake and again prior to discharge whether a blood, saliva, or tissue sample has been taken for DNA analysis for each offender required to submit a sample pursuant to Article 1.1 (§ 19.2-310.2 et seq.) of Chapter 18 of Title 19.2 and, if no sample has been taken, require an offender to submit a sample for DNA analysis; and
11. Monitor the collection and payment of restitution to the victims of crime for offenders placed on local supervised probation; and

§ 18.2-57.3. Persons charged with first offense of assault and battery against a family or household member may be placed on local community-based probation; conditions; education and treatment programs; costs and fees; violations; discharge.
A. When a person is charged with a simple assault in violation of subsection A of § 18.2-57 where the victim was a family or household member of the person or a violation of § 18.2-57.2, the court may defer the proceedings against such person, without a finding of guilt, and place him on probation under the terms of this section.

B. For a person to be eligible for such deferral, the court shall find that (i) the person was an adult at the time of the commission of the offense; (ii) the person has not previously been convicted of any offense under this article or under any statute of the United States or of any state or any ordinance of any local government relating to an assault or assault and battery against a family or household member; (iii) (a) the person has not previously been convicted of an act of violence as defined in § 19.2-297.1 or (b) if such person has been previously convicted of such an act of violence, the attorney for the Commonwealth does not object to the deferral; (iv) the person has not previously had a proceeding against him for violation of such an offense dismissed as provided in this section; (v) the person pleads guilty to, or enters a plea of not guilty or nolo contendere and the court finds the evidence is sufficient to find the person guilty of, simple assault in violation of subsection A of § 18.2-57 where the victim was a family or household member of the person or a violation of § 18.2-57.2; and (vi) the person consents to such deferral and to a waiver of his right to appeal a finding of facts sufficient to justify a finding of guilt under this section entered pursuant to subsection F for a violation of a term or condition of his probation. If the court defers further proceedings, at that time the court shall determine whether the clerk of court has been provided with the fingerprint identification information or fingerprints of the person, taken by a law-enforcement officer pursuant to § 19.2-390, and, if not, shall order that the fingerprints and photograph of the person be taken by a law-enforcement officer. A person may file a motion to withdraw his consent to the deferral and waiver of his right to appeal within 10 days of the entry of the order deferring proceedings on a form prescribed by the Office of the Executive Secretary of the Supreme Court of Virginia. The court shall schedule a hearing within 30 days of receipt of the motion and shall provide reasonable notice to the attorney for the Commonwealth and to the person and his attorney, if any. If the person appears at the hearing and requests to withdraw his consent, the court shall grant such request, enter a final order adjudicating guilt, and sentence the person accordingly. If the person does not appear at the hearing, the court shall deny his request to withdraw his consent.

C. The court shall (i) where a local community-based probation services agency established pursuant to Article 9 (§ 9.1-173 et seq.) of Chapter 1 of Title 9.1 is available, order that the eligible person be placed with such agency and require, as a condition of local community-based probation, the person to successfully complete all treatment, education programs, or services, or any combination thereof, indicated by an assessment or evaluation obtained by the local community-based probation services agency if such assessment, treatment, or education services are available; or (ii) require successful completion of treatment, education programs, or services, or any combination thereof, such as, in the opinion of the court, may be best suited to the needs of the person.

D. The court shall require the person entering such education or treatment program or services under the provisions of this section to pay all or part of the costs of the program or services, including the costs of any assessment, evaluation, testing, education, and treatment, based upon the person's ability to pay. Such programs or services shall offer a sliding-scale fee structure or other mechanism to assist participants who are unable to pay the full costs of the required programs or services.

The court shall order the person to be of good behavior for a total period of not less than two years following the deferral of proceedings, including the period of supervised probation, if available.

The court shall, unless done at arrest, order the person to report to the original arresting law-enforcement agency to submit to fingerprinting.

E. Upon fulfillment of the terms and conditions specified in the court order, and upon determining that the clerk of court has been provided with the fingerprint identification information or fingerprints of such person, the court shall discharge the person and dismiss the proceedings against him. Discharge and dismissal under this section shall be without adjudication of guilt and is a conviction only for the purposes of applying this section in subsequent proceedings. No charges dismissed pursuant to this section shall be eligible for expungement under § 19.2-392.2.

F. Upon violation of a term or condition of supervised probation or of the period of good behavior, the court may enter an adjudication of guilt and proceed as otherwise provided by law. Any person placed on probation pursuant to this section who is subsequently adjudicated guilty upon a violation of a term or condition of his probation shall have no right of appeal on such adjudication.

G. Notwithstanding any other provision of this section, whenever a court places a person on probation pursuant to terms and conditions pursuant to this section, such action shall be treated as a conviction for purposes of Article 6.1 (§ 18.2-307.1 et seq.) of Chapter 7.

§ 18.2-251. Persons charged with first offense may be placed on probation; conditions; substance abuse screening, assessment treatment and education programs or services; drug tests; costs and fees; violations; discharge.

Whenever any person who has not previously been convicted of any offense under this article or under any statute of the United States or of any state relating to narcotic drugs, marijuana, or stimulant, depressant, or hallucinogenic drugs, or has not previously had a proceeding against him for violation of such an offense dismissed as provided in this section, pleads guilty to or enters a plea of not guilty to possession of a controlled substance under § 18.2-250.1 to possession of marijuana under § 18.2-250.1, the court, upon such plea if the facts found by the court would justify a finding of guilt, without entering a judgment of guilt and with the consent of the accused, may defer further proceedings and place him on probation upon terms and conditions. If the court defers further proceedings, at that time the court shall determine whether
the clerk of court has been provided with the fingerprint identification information or fingerprints of the person, taken by a law-enforcement officer pursuant to § 19.2-390, and, if not, shall order that the fingerprints and photograph of the person be taken by a law-enforcement officer.

As a term or condition, the court shall require the accused to undergo a substance abuse assessment pursuant to § 18.2-251.01 or 19.2-299.2, as appropriate, and enter treatment and/or education program or services, if available, such as, in the opinion of the court, may be best suited to the needs of the accused based upon consideration of the substance abuse assessment. The program or services may be located in the judicial district in which the charge is brought or in any other judicial district as the court may provide. The services shall be provided by (i) a program licensed by the Department of Behavioral Health and Developmental Services, by a similar program which is made available through the Department of Corrections, (ii) a local community-based probation services agency established pursuant to § 9.1-174, or (iii) an ASAP program certified by the Commission on VASP.

The court shall require the person entering such program under the provisions of this section to pay all or part of the costs of the program, including the costs of the screening, assessment, testing, and treatment, based upon the accused's ability to pay unless the person is determined by the court to be indigent.

As a condition of probation, the court shall require the accused (a) to successfully complete treatment or education program or services, (b) to remain drug and alcohol free during the period of probation and submit to such tests during that period as may be necessary and appropriate to determine if the accused is drug and alcohol free, (c) to make reasonable efforts to secure and maintain employment, and (d) to comply with a plan of at least 100 hours of community service for a felony and up to 24 hours of community service for a misdemeanor. In addition to any community service required by the court pursuant to clause (d), if the court does not suspend or revoke the accused's license as a term or condition of probation for a violation of § 18.2-250.1, the court shall require the accused to comply with a plan of 50 hours of community service. Such testing shall be conducted by personnel of the supervising probation agency or personnel of any program or agency approved by the supervising probation agency.

The court shall, unless done at arrest, order the accused to report to the original arresting law-enforcement agency to submit to fingerprinting.

Upon violation of a term or condition, the court may enter an adjudication of guilt and proceed as otherwise provided. Upon fulfillment of the terms and conditions, and upon determining that the clerk of court has been provided with the fingerprint identification information or fingerprints of such person, the court shall discharge the person and dismiss the proceedings against him. Discharge and dismissal under this section shall be without adjudication of guilt and is a conviction only for the purposes of applying this section in subsequent proceedings.

Notwithstanding any other provision of this section, whenever a court places an individual on probation upon terms and conditions pursuant to this section, such action shall be treated as a conviction for purposes of §§ 18.2-259.1, 22.1-315, and 46.2-390.1, and the driver's license forfeiture provisions of those sections shall be imposed. However, if the court places an individual on probation upon terms and conditions for a violation of § 18.2-250.1, such action shall not be treated as a conviction for purposes of § 18.2-259.1 or 46.2-390.1, provided that a court (1) may suspend or revoke an individual's driver's license as a term or condition of probation and (2) shall suspend or revoke an individual's driver's license as a term or condition of probation for a period of six months if the violation of § 18.2-250.1 was committed while such person was in operation of a motor vehicle. The provisions of this paragraph shall not be applicable to any offense for which a juvenile has had his license suspended or denied pursuant to § 16.1-278.9 for the same offense.

§ 19.2-74. Issuance and service of summons in place of warrant in misdemeanor case; issuance of summons by special conservators of the peace.

A. 1. Whenever any person is detained by or is in the custody of an arresting officer for any violation committed in such officer's presence which offense is a violation of any county, city or town ordinance or of any provision of this Code punishable as a Class 1 or Class 2 misdemeanor or any other misdemeanor for which he may receive a jail sentence, except as otherwise provided in Title 46.2, or for offenses listed in subsection D of § 19.2-81, or an arrest on a warrant charging an offense which a summons may be issued, and when specifically authorized by the judicial officer issuing the warrant, the arresting officer shall take the name and address of such person and issue a summons or otherwise notify him in writing to appear at a time and place to be specified in such summons or notice. Upon the giving by such person of his written promise to appear at such time and place, the officer shall forthwith release him
from custody. However, if any such person shall fail or refuse to discontinue the unlawful act, the officer may proceed according to the provisions of § 19.2-82.

3. Any person so summoned shall be held in custody after the issuance of such summons for the purpose of complying with the requirements of Chapter 23 (§ 19.2-387 et seq.) of this title. Reports to the Central Criminal Records Exchange concerning such persons shall be made as provided in subdivision A 2 of § 19.2-390 and subsection C of § 19.2-390.

Any person refusing to give such written promise to appear under the provisions of this section shall be taken immediately by the arresting or other police officer before a magistrate or other issuing authority having jurisdiction, who shall proceed according to provisions of § 19.2-82.

Any person who willfully violates his written promise to appear, given in accordance with this section, shall be treated in accordance with the provisions of § 19.2-128, regardless of the disposition of, and in addition to, the charge upon which he was originally arrested.

Any person charged with committing any violation of § 18.2-407 may be arrested and immediately brought before a magistrate who shall proceed as provided in § 19.2-82.

B. Conservators of the peace appointed under Chapter 2 (§ 19.2-12 et seq.) may issue summonses pursuant to this section, if such officers are in uniform or displaying a badge of office. On application, the chief law-enforcement officer of the county or city shall supply each officer with a supply of summonses forms, for which such officer shall account pursuant to regulation of such chief law-enforcement officer.

C. The summons used by a law-enforcement officer pursuant to this section shall be in form the same as the uniform summons for motor vehicle law violations as prescribed pursuant to § 46.2-388.

§ 19.2-232. What process to be awarded against accused on indictment, etc.

When an indictment or presentment is found or made, or information filed, the court, or the judge thereof, shall award process against the accused to answer the same, if he be not in custody. Such process, if the prosecution be for a felony, shall be a capias; if it be for a misdemeanor, for which imprisonment may be imposed, it may be a capias or summons, in the discretion of the court or judge; in all other cases, it shall be, in the first instance a summons, but if a summons be returned executed and the defendant does not appear, or be returned not found, the court or judge may award a capias. The officer serving the summons or capias shall also serve a copy of the indictment, presentment, or information therewith.

If the accused is in custody when an indictment or presentment is found or made, or information is filed, and no process is awarded, the attorney for the Commonwealth shall so notify the court of such at the time of first appearance for each indictment, presentment, or information for which a report is required upon arrest pursuant to subsection A of § 19.2-390, and the court shall order that the fingerprints and photograph of the accused be taken for each offense by a law-enforcement officer or by the agency that has custody of the accused at the time of first appearance. The law-enforcement officer or agency taking the fingerprints and photograph shall submit a report to the Central Criminal Records Exchange for each offense pursuant to subsection A of § 19.2-390.

§ 19.2-303. Suspension or modification of sentence; probation; taking of fingerprints and blood, saliva, or tissue sample as condition of probation.

After conviction, whether with or without jury, the court may suspend imposition of sentence or suspend the sentence in whole or part and in addition may place the defendant on probation under such conditions as the court shall determine, including monitoring by a GPS (Global Positioning System) tracking device, or other similar device, or may, as a condition of a suspended sentence, require the defendant to make at least partial restitution to the aggrieved party or parties for damages or loss caused by the offense for which convicted, or to perform community service, or both, under terms and conditions which shall be entered in writing by the court. The defendant may be ordered by the court to pay the cost of the GPS tracking device or other similar device. If, however, the court suspends or modifies any sentence fixed by a jury pursuant to § 19.2-295, the court shall file a statement of the reasons for the suspension or modification in the same manner as the statement required pursuant to subsection B of § 19.2-298.01. The judge, after convicting the defendant of a felony, any offense for which a report to the Central Criminal Records Exchange is required in accordance with subsection A of § 19.2-390, shall determine whether a copy of the defendant's fingerprints are on file at the Central Criminal Records Exchange or fingerprint identification information has been provided by a law-enforcement officer to the clerk of court for each such offense. In any case where fingerprints are not on file or fingerprint identification information has not been provided by a law-enforcement officer, the judge shall require that fingerprints and a photograph be taken by the law-enforcement officer as a condition of probation or of the suspension of the imposition or execution of any sentence for such offense. Such fingerprints shall be submitted to the Central Criminal Records Exchange under the provisions of subsection D of § 19.2-390.

In those courts having electronic access to the Local Inmate Data System (LIDS) within the courtroom, prior to or upon sentencing, the clerk of court shall also determine by reviewing LIDS whether a blood, saliva, or tissue sample has been taken for DNA analysis and submitted to the DNA data bank maintained by the Department of Forensic Science pursuant to Article 1.1 (§ 19.2-310.2 et seq.) of Chapter 18 of this title. In any case in which the clerk has determined that a DNA sample or analysis is not stored in the DNA data bank, or in any case in which electronic access to LIDS is not available in the courtroom, the court shall order that the defendant appear within 30 days before the sheriff or probation officer and allow the sheriff or probation officer to take the required sample. The order shall also require that, if the defendant has not appeared and allowed the sheriff or probation officer to take the required sample by the date stated in the
order, then the sheriff or probation officer shall report to the court the defendant's failure to appear and provide the required sample.

After conviction and upon sentencing of an active participant or member of a criminal street gang, the court may, as a condition for suspending the imposition of the sentence in whole or in part or for placing the accused on probation, place reasonable restrictions on those persons with whom the accused may have contact. Such restrictions may include prohibiting the accused from having contact with anyone whom he knows to be a member of a criminal street gang, except that contact with a family or household member, as defined in § 16.1-228, shall be permitted unless expressly prohibited by the court.

In any case where a defendant is convicted of a violation of § 18.2-48, 18.2-61, 18.2-63, 18.2-67.1, 18.2-67.2, 18.2-67.3, 18.2-370, or 18.2-370.1, committed on or after July 1, 2006, and some portion of the sentence is suspended, the judge shall order that the period of suspension shall be for a length of time at least equal to the statutory maximum period for which the defendant might originally have been sentenced to be imprisoned, and the defendant shall be placed on probation for that period of suspension subject to revocation by the court. The conditions of probation may include such conditions as the court shall determine, including active supervision. Where the conviction is for a violation of clause (iii) of subsection A of § 18.2-61, subdivision A 1 of § 18.2-67.1, or subdivision A 1 of § 18.2-67.2, the court shall order that at least three years of the probation include active supervision of the defendant under a postrelease supervision program operated by the Department of Corrections, and for at least three years of such active supervision, the defendant shall be subject to electronic monitoring by means of a GPS (Global Positioning System) tracking device, or other similar device.

If a person is sentenced to jail upon conviction of a misdemeanor or a felony, the court may, at any time before the sentence has been completely served, suspend the unserved portion of any such sentence, place the person on probation for such time as the court shall determine, or otherwise modify the sentence imposed.

If a person has been sentenced for a felony to the Department of Corrections but has not actually been transferred to a receiving unit of the Department, the court which heard the case, if it appears compatible with the public interest and there are circumstances in mitigation of the offense, may, at any time before the person is transferred to the Department, suspend or otherwise modify the unserved portion of such a sentence. The court may place the person on probation for such time as the court shall determine.

§ 19.2-303.02. Modification of conditions of suspended sentence or probation to require fingerprinting.

In any case where the court has suspended the imposition or execution of a sentence or placed the defendant on probation, the court may modify the sentence or conditions of probation at any time within the period of suspension or supervision to require that the fingerprints and photograph of the defendant be taken by a law-enforcement officer as a condition of that suspended sentence or probation, but only upon a hearing after reasonable notice to both the defendant and the attorney for the Commonwealth.

§ 19.2-303.2. Persons charged with first offense may be placed on probation.

Whenever any person who has not previously been convicted of any felony pleads guilty to or enters a plea of not guilty to any crime against property constituting a misdemeanor, under Articles 5, 6, 7 and 8 of Chapter 5 (§ 18.2-119 et seq.) of Title 18.2, the court, upon such plea if the facts found by the court would justify a finding of guilt, without entering a judgment of guilt and with the consent of the accused, may defer further proceedings and place him on probation subject to terms and conditions, which may include restitution for losses caused, set by the court. If the court defers further proceedings for an offense that is required to be reported to the Central Criminal Records Exchange pursuant to § 19.2-390, at that time the court shall determine whether the clerk of court has been provided with the fingerprint identification information or fingerprints of the accused, taken by a law-enforcement officer pursuant to § 19.2-390, and, if not, shall order that the fingerprints and photograph of the accused be taken by a law-enforcement officer. Upon violation of a term or condition, the court may enter an adjudication of guilt and proceed as otherwise provided. Upon fulfillment of the terms and conditions, and upon determining that the clerk of court has been provided with the fingerprint identification information or fingerprints of such person for an offense that is required to be reported to the Central Criminal Records Exchange pursuant to § 19.2-390, the court shall discharge the person and dismiss the proceedings against him. Discharge and dismissal under this section shall be without adjudication of guilt and is a conviction only for the purpose of applying this section in subsequent proceedings.

§ 19.2-305.1. Restitution for property damage or loss; community service.

A. Notwithstanding any other provision of law, no person convicted of a crime in violation of any provision in Title 18.2, which resulted in property damage or loss, shall be placed on probation or have his sentence suspended unless such person shall make at least partial restitution for such property damage or loss, or shall be compelled to perform community services, or both, or shall submit a plan for doing that which appears to the court to be feasible under the circumstances.

B. Notwithstanding any other provision of law, any person who, on or after July 1, 1995, commits, and is convicted of, a crime in violation of any provision in Title 18.2 shall make at least partial restitution for any property damage or loss caused by the crime or for any medical expenses or expenses directly related to funeral or burial incurred by the victim or his estate as a result of the crime, may be compelled to perform community services and, if the court so orders, shall submit a plan for doing that which appears to be feasible to the court under the circumstances.

B1. Notwithstanding any other provision of law, any person, who on or after July 1, 2005 commits and is convicted of a crime in violation of § 18.2-248 involving the manufacture of any controlled substance, may be ordered, upon

presentation of suitable evidence of such costs, by the court to reimburse the Commonwealth or the locality for the costs incurred by the jurisdiction, as the case may be, for the removal and remediation associated with the illegal manufacture of any controlled substance by the defendant.

B2. Notwithstanding any other provision of law, any person who, on or after July 1, 2015, commits and is convicted of a violation of § 18.2-138 for damage to the Capitol or any building, monument, statuary, artwork, or other state property in Capitol Square, or at any other property assigned to the Capitol Police, shall be ordered to pay restitution to the Commonwealth for the full amount of damages. Any person who, on or after July 1, 2015, commits and is convicted of a violation of § 18.2-405, 18.2-407, or 18.2-408 in Capitol Square, or at any other property assigned to the Capitol Police, shall be ordered to pay restitution to the Commonwealth for the full amount of damages to the Capitol or any building, monument, statuary, artwork, or other state property in Capitol Square, or at any other property assigned to the Capitol Police, to which damage is caused during such riot or unlawful assembly. In any prosecution under § 18.2-138, 18.2-405, 18.2-407, or 18.2-408, testimony of the Division of Engineering and Buildings of the Department of General Services or the Division of Risk Management shall be admissible as evidence of value or extent of damages or cost of repairs to the Capitol or any building, monument, statuary, artwork, or other state property in Capitol Square, or at any other property assigned to the Capitol Police. For the purposes of this subsection, "Capitol Square" means the grounds and the interior and exterior of all buildings in that area in the City of Richmond bounded by Bank, Governor, Broad, and Ninth Streets. "Capitol Square" includes the exterior of all state buildings that are at least 50 years old and bordering the boundary streets.

C. At or before the time of sentencing, the court shall receive and consider any plan for making restitution submitted by the defendant. The plan shall include the defendant's home address, place of employment and address, social security number and bank information. If the court finds such plan to be reasonable and practical under the circumstances, it may consider probation or suspension of whatever portion of the sentence that it deems appropriate. By order of the court incorporating the defendant's plan or a reasonable and practical plan devised by the court, the defendant shall make restitution while he is free on probation or work release or following his release from confinement. Additionally, the court may order that the defendant make restitution during his confinement, if feasible, based upon both his earning capacity and net worth as determined by the court at sentencing.

D. At the time of sentencing, the court shall determine the amount to be repaid by the defendant and the terms and conditions thereof. If community service work is ordered, the court shall determine the terms and conditions upon which such work shall be performed. The court shall include such findings in the judgment order. The order shall specify that sums paid under such order shall be paid to the clerk, who shall disburse such sums as the court may, by order, direct. The clerk shall record receipt of restitution payments in an automated financial management system operated and maintained by the Executive Secretary of the Supreme Court or such other system established and maintained by a circuit court clerk pursuant to § 17.1-502. Any court desiring to participate in the Setoff Debt Collection Act (§§ 58.1-520 through 58.1-535) for the purpose of collecting fines or costs or providing restitution shall, at the time of sentencing, obtain the social security number of each defendant.

E. At the time of sentencing, the court shall enter the amount of restitution to be repaid by the defendant, the date by which all restitution is to be paid, the terms and conditions of such repayment, and the victim's name and contact information, including the victim's home address, telephone number, and email address, on a form prescribed by the Office of the Executive Secretary of the Supreme Court of Virginia. If the attorney for the Commonwealth participated in the prosecution of the defendant, the attorney for the Commonwealth or his designee shall complete, to the extent possible, all portions of the form excluding the amount of restitution to be repaid by the defendant and the terms and conditions of such repayment. If the attorney for the Commonwealth did not participate in the prosecution of the defendant, the court or the clerk shall complete the form. A copy of the form, excluding contact information for the victim, shall be provided to the defendant at sentencing. A copy of the form shall be provided to the attorney for the Commonwealth and to the victim, his agent, or his estate upon request and free of charge. Except as provided in this section or otherwise required by law, the victim's contact information shall be confidential, and the clerk shall not disclose such confidential information to any person.

F. 1. In any case in which the court orders the defendant to pay restitution and places the defendant on probation that includes a period of active supervision, the probation agency supervising the defendant shall notify the court and the attorney for the Commonwealth of the amount of any restitution that remains unsatisfied and the last known address for the defendant (i) 60 days prior to the defendant's release from supervision pursuant to the terms of the sentencing order or (ii) if the agency requests that the defendant be released from supervision, at the time the agency submits its request to the court. Such notice shall be in writing and the attorney for the Commonwealth shall, if practicable, provide a copy of the notice to the victim. If any amount of restitution remains unsatisfied, the court shall conduct a hearing prior to the defendant's release from supervision after providing notice of the hearing to the defendant and the attorney for the Commonwealth. If the court finds that the defendant is not in compliance with the restitution order, the court may (a) release the defendant from supervision, (b) modify the period or terms of supervision pursuant to § 19.2-304, (c) revoke some or all of the suspended sentence or probation pursuant to § 19.2-306, or (d) proceed in accordance with subsection E of § 19.2-358. The court shall also docket the restitution order as a civil judgment pursuant to subsection B of § 19.2-305.2 unless such order has previously been docketed. Any defendant who is released from supervision shall be subject to the provisions of subdivision 3.

2. In any case in which the court orders the defendant to pay restitution and places the defendant on probation that does not include a period of active supervision, the court shall include in the order a date, not to exceed two years from the date...
of the entry of the order or, if the court has sentenced the defendant to an active term of incarceration, from the date of the defendant's release from incarceration, on which the defendant's compliance with the restitution order shall be reviewed and the court shall schedule a hearing for such date. The court may, on its own motion, cancel the hearing if the amount of restitution has been satisfied. If at the hearing the court finds that the defendant is not in compliance with the restitution order, the court may (i) modify the period or terms of probation pursuant to § 19.2-304, (ii) revoke some or all of the suspended sentence or probation pursuant to § 19.2-306, or (iii) proceed in accordance with the provisions of subsection E of § 19.2-358. The court shall also docket the restitution order as a civil judgment pursuant to subsection B of § 19.2-305.2 unless such order has previously been docketed. After the hearing conducted pursuant to this subdivision, the defendant shall be subject to the provisions of subdivision 3.

3. If any amount of restitution remains unsatisfied at the time of a hearing conducted pursuant to subdivision 1 or 2, the court shall continue to schedule hearings to review the defendant's compliance with the restitution order until the amount of restitution has been satisfied and provide notice of such hearings to the defendant. The court may, on its own motion, cancel any such hearing if the amount of restitution has been satisfied or if the defendant is in compliance with the restitution order. If at any hearing conducted pursuant to this subdivision the court finds that the defendant is not in compliance with the restitution order, the court may (i) modify the period or terms of probation pursuant to § 19.2-304, (ii) revoke some or all of the suspended sentence or probation pursuant to § 19.2-306, or (iii) proceed in accordance with the provisions of subsection E of § 19.2-358. The court shall follow the procedures set forth in this subdivision for the purpose of reviewing compliance with a restitution order by a defendant (a) until the amount of restitution has been satisfied or (b) if any amount of restitution remains unsatisfied, for the longer of 10 years from the date of the hearing held pursuant to subdivision 1 or 2 or the period of probation ordered by the court.

4. If the court determines at any hearing conducted pursuant to this subsection that the defendant is unable to pay restitution and will remain unable to pay restitution for the duration of the review period set forth in subdivision 3, the court may discontinue any further hearings to review a defendant's compliance with the restitution order.

5. If the court determines that a defendant would be incarcerated on the date of any hearing scheduled pursuant to this subsection, the court may remove the case from the docket, reschedule such hearing to a date after the defendant's release from incarceration, and provide notice of the hearing to the defendant and the attorney for the Commonwealth. If the defendant who is on probation that includes a period of active supervision is incarcerated, the probation agency supervising the defendant shall notify the court when the defendant has been released from incarceration.

6. No provision of this subsection shall be construed to prohibit the court from exercising any authority otherwise granted by law over a defendant during any period of probation ordered by the court.

7. At every hearing conducted pursuant to subdivision 1 where the defendant was convicted of an offense for which a report to the Central Criminal Records Exchange is required under subsection A of § 19.2-390, if the court has not previously verified that the conviction for such offense appears on the criminal history record of the defendant, the court shall review the criminal history record of the defendant and determine whether the present conviction appears on that record. The probation officer for the defendant shall provide the criminal history record to the court at such hearing. If the present conviction does not appear on the criminal history record, the court shall order that the fingerprints and photograph of the defendant be taken by a law-enforcement officer and submitted to the Central Criminal Records Exchange. If fingerprints and a photograph have previously been taken for such conviction, the probation officer shall provide written or electronic notification to the Central Criminal Records Exchange within the Department of State Police that the conviction does not appear on the offender's criminal history record prior to his release from supervision.

8. At every hearing conducted pursuant to subdivision 2 where the attorney for the Commonwealth participated in the prosecution and the defendant was convicted of an offense for which a report to the Central Criminal Records Exchange is required under subsection A of § 19.2-390, if the court has not previously verified that the conviction for such offense appears on the criminal history record of the defendant, the court shall review the criminal history record of the defendant and determine whether the present conviction appears on that record. If the attorney for the Commonwealth participated in the prosecution of the offense, the attorney for the Commonwealth shall provide the criminal history record to the court at such hearing. If the present conviction does not appear on the criminal history record, the court shall order that the fingerprints and photograph of the defendant be taken by a law-enforcement officer and submitted to the Central Criminal Records Exchange. If fingerprints and a photograph have previously been taken for such conviction, the attorney for the Commonwealth shall provide written or electronic notification to the Central Criminal Records Exchange within the Department of State Police that the conviction does not appear on the offender's criminal history record.

G. Unreasonable failure to execute the plan by the defendant shall result in revocation of the probation or imposition of the suspended sentence. A hearing shall be held in accordance with the provisions of this Code relating to revocation of probation or imposition of a suspended sentence before either such action is taken.

H. A defendant convicted of an offense under § 18.2-374.1, 18.2-374.1:1, or 18.2-374.3 shall be ordered to pay mandatory restitution to the victim of the offense in an amount as determined by the court. For purposes of this subsection, "victim" means a person who is depicted in a still or videographic image involved in an offense under § 18.2-374.1, 18.2-374.1:1, or 18.2-374.3.

The Commonwealth shall make reasonable efforts to notify victims of offenses under § 18.2-374.1, 18.2-374.1:1, or 18.2-374.3.
I. If restitution is ordered to be paid by the defendant to the victim of a crime and the victim can no longer be located or identified, the clerk shall deposit any such restitution collected to the Criminal Injuries Compensation Fund for the benefit of crime victims by November 1 of each year. If a clerk does not have any such restitution to deposit, the clerk shall provide a statement to that effect to the Fund by November 1 of each year. The administrator shall reserve a sum sufficient in the Fund from which he shall make prompt payment directly to the victim for any proper claims. When depositing such restitution to the Fund, the clerk shall report the victim's last known contact information, including the victim's home address, telephone number, and email address, and the amount of restitution being deposited for that victim. Before making the deposit, the administrator shall record the name, contact information, and amount of restitution being deposited for each victim appearing from the clerk's report to be entitled to restitution. The victim's contact information reported to the Fund shall be confidential and shall not be disseminated further except as otherwise required by law.

J. If restitution pursuant to § 19.2-305 or this section is ordered to be paid by the defendant to the victim of a crime or other entity, and the Criminal Injuries Compensation Fund has made any payments to or on behalf of the victim for any loss, damage, or expenses included in the restitution order, then upon presentation by the Fund of a written request that sets forth the amount of payments made by the Fund to the victim or on the victim's behalf, the entity collecting restitution shall pay to the Fund as much of the restitution collected as will reimburse the Fund for its payments made to the victim or on the victim's behalf.

K. Whenever a defendant is ordered to pay restitution, any sums collected shall be used first to satisfy such restitution order and any collection costs associated with restitution prior to being used to satisfy any fine, forfeiture, penalty, or cost assessed against the defendant.

A. It shall be the duty of the Central Criminal Records Exchange to receive, classify, and file criminal history record information as defined in § 9.1-101 and other records required to be reported to it by §§ 16.1-299 and 19.2-390. district or juvenile and domestic relations district courts.

§ 53.1-165. Revocation of parole or postrelease supervision; hearing; procedure for parolee or felon serving
period of postrelease supervision in another state; appointment of attorney.

A. Whenever any parolee or felon serving a period of postrelease supervision is arrested and recommitted as provided
herein, a preliminary hearing to determine probable cause that such parolee has violated one or more of the terms or
conditions upon which he was released on parole or postrelease period of supervision shall be held by any hearing officer
who has been designated as such by the Director of the Department to conduct such hearings. However, if a parolee is
engaged in the illegal use of controlled substances or marijuana, or the abuse of alcohol. The cost of the test may be charged
to the person under supervision. Regulations governing the officer's exercise of this authority shall be promulgated by the
Board;

Upon request of the hearing officer, the attorney for the Commonwealth of whose jurisdiction within which such hearings
are to be held shall request the circuit court of such jurisdiction to appoint one or more discreet attorneys-at-law to represent
parolees in any proceedings held before him. Each attorney so appointed shall be available to serve upon request of the
hearing officer. The term of each attorney's appointment shall continue until such time as a successor may be appointed. A
hearing officer shall be authorized to issue subpoenas requiring the attendance of witnesses and the production of records,
memoranda, papers and other documents before him and to administer oaths and to take testimony thereunder.

Upon a finding of probable cause by the hearing officer, the Board or its authorized representative shall conduct a
hearing, consider the case and act with reference thereto within a reasonable time thereafter. Upon request of the Board, the
attorney for the Commonwealth of the jurisdiction within which such hearings are to be held shall request the circuit court
of that jurisdiction to appoint one or more discreet attorneys-at-law to represent parolees in proceedings held or to be held
before the Board. Each attorney shall be available to serve upon request of the Board. The term of each attorney's
appointment shall continue until such time as a successor may be appointed. The Board, in its discretion, may revoke the
parole and order the reincarceration of the prisoner for the unserved portion of the term of imprisonment originally imposed
upon him, or it may reinstate the parole either upon such terms and conditions as were originally prescribed, or as may be
prescribed in addition thereto or in lieu thereof. When a parole violation is based on a new felony conviction for which the individual has been sentenced to two or more years, excluding any time of said sentence which has been suspended, any individual Board member, so authorized by the Board, may after such hearing revoke the individual's parole as otherwise provided herein.

Upon revocation of parole for any felony offense, the Board or its authorized representative shall order that the Department of Corrections take fingerprints and a photograph of the person for each offense and transmit such information to the Central Criminal Records Exchange pursuant to subsection D of § 19.2-390.

B. In cases in which a parolee or felon serving a period of postrelease supervision is in another state, any hearing officer who has been designated as such by the Director of the Department may be sent to that state to conduct a preliminary hearing to determine probable cause that the parolee has violated one or more of the terms and conditions upon which he was released upon parole.

C. Any attorney-at-law appointed pursuant to this section shall be paid as directed by the court making the appointment, from funds appropriated for court costs and expenses, reasonable compensation on an hourly basis and necessary expenses, based upon a report to be furnished to it by such attorney. In the event an attorney-at-law is appointed in another state, he shall be paid out of funds appropriated to the Department.

2. § 1. The Department of State Police shall make reasonable efforts to ensure that criminal history record information that was reported to the Central Criminal Records Exchange pursuant to § 19.2-390 of the Code of Virginia prior to July 1, 2019, and not applied to the criminal history record of a person be applied to the criminal history record of that person. Such efforts shall prioritize identifying any felony convictions that have not been applied to criminal history records and providing such information to the law-enforcement agency that made the arrest and to the attorney for the Commonwealth in the jurisdiction where the conviction was entered. All state and local government agencies shall provide such assistance as may be requested by the Department of State Police to aid in the successful and timely completion of these efforts. Notwithstanding any other provision of law to the contrary, the Department of State Police and other state and local government agencies may receive from and disseminate to individuals, state agencies, and local government agencies any information that may be necessary for the successful and timely completion of these efforts. The Department of State Police shall report on the progress of these efforts to the Governor and the Chairman of the Virginia State Crime Commission by November 1, 2019.

3. That the Department of State Police, in coordination with the Department of Criminal Justice Services, shall develop a form to be used by local community-based probation officers when ordering an offender to report to a law-enforcement agency or to the Department of State Police and submit to having his fingerprints and photograph taken pursuant to the provisions of subdivision A 12 of § 9.1-176.1 of the Code of Virginia, as amended by this act. Such form shall include information necessary for that law-enforcement agency or the Department of State Police to ensure that the fingerprints and photograph of the offender can be applied to his criminal history record for each offense that does not appear on the criminal history record. Such form shall include a portion that is returnable to the local community-based probation office by the law-enforcement agency or Department of State Police and a portion to be provided to the offender after fingerprints and a photograph have been taken.

CHAPTER 785

An Act to amend and reenact § 16.1-107 of the Code of Virginia, relating to unlawful detainer; appeal bond.

[§ 1626]

Be it enacted by the General Assembly of Virginia:

1. That § 16.1-107 of the Code of Virginia is amended and reenacted as follows:

A. No appeal shall be allowed unless and until the party applying for the same or someone for him shall give bond, in an amount and with sufficient surety approved by the judge or by his clerk if there is one, or in an amount sufficient to satisfy the judgment of the court in which it was rendered. Either such amount shall include the award of attorney fees, if any. Such bond shall be posted with 30 days from the date of judgment, except for an appeal from the judgment of a general district court on an unlawful detainer pursuant to § 8.01-129. However, no appeal bond shall be required of a plaintiff in a civil case where the defendant has not asserted a counterclaim, the Commonwealth or when an appeal is proper to protect the estate of a decedent, an infant, a convict, or an insane person, or the interest of a county, city, town or transportation district created pursuant to the Transportation District Act of 1964 (§ 33.2-1900 et seq.) of Title 33.2. No appeal bond shall be required of a defendant with indemnity coverage through a policy of liability insurance sufficient to satisfy the judgment if the defendant's insurer provides a written irrevocable confirmation of coverage in the amount of the judgment. If defendant's insurer does not provide a written irrevocable confirmation of coverage in the amount of the judgment then an appeal bond will be required.

B. In all civil cases, except trespass, ejectment, unlawful detainer against a former owner based upon a foreclosure against that owner, or any action involving the recovering rents, no indigent person shall be required to post an appeal bond. In cases of unlawful detainer against a former owner based upon a foreclosure against that owner, a person who has been determined to be indigent pursuant to the guidelines set forth in § 19.2-159 shall post an appeal bond within 30 days from the date of judgment.

C. In cases of unlawful detainer for a residential dwelling unit, notwithstanding the provisions of § 8.01-129, an appeal bond shall be posted by the defendant with payment into the general district court in the amount of outstanding rent, late charges, attorney fees, and any other charges or damages due, as contracted for in the rental agreement, and as amended on the unlawful detainer by the court. If such amount is not so paid, any such appeal shall not be perfected as a matter of law. Upon perfection of an appeal, the defendant shall pay the rental amount as contracted for in the rental agreement to the plaintiff on or before the fifth day of each month. If any such rental payment is not so paid, upon written motion of the plaintiff with a copy of such written motion mailed by regular mail to the tenant, the judge of the circuit court shall, without hearing, enter judgment for the amount of outstanding rent, late charges, attorney fees, and any other charges or damages due as of that date, subtracting any payments made by such tenant as reflected in the court accounts and on a written affidavit submitted by the plaintiff, plaintiff’s managing agent, or plaintiff’s attorney with a copy of such affidavit mailed by regular mail to the tenant, and an order of possession without further hearings or proceedings in such court. Any funds held in a court account shall be released to the plaintiff without further hearing or proceeding of the court unless the defendant has filed a motion to retain some or all of such funds and the court, after a hearing, enters an order finding that the defendant is likely to succeed on the merits of a counterclaim alleging money damages against the plaintiff, in which case funds shall be held by order of such court.
D. If such bond is furnished by or on behalf of any party against whom judgment has been rendered for money or property or both, the bond shall be conditioned for the performance and satisfaction of such judgment or order as may be entered against such party on appeal, and for the payment of all costs and damages which may be awarded against him in the appellate court. If the appeal is by a party against whom there is no recovery except for costs, the bond shall be conditioned for the payment of such costs and damages as may be awarded against him on the appeal.

E. In addition to the foregoing, any party applying for appeal shall, within 30 days from the date of the judgment, pay to the clerk of the court from which the appeal is taken the amount of the writ tax of the court to which the appeal is taken and costs as required by subdivision A 13 of § 17.1-275, including all fees for service of process of the notice of appeal in the circuit court pursuant to § 16.1-112.

CHAPTER 786

An Act to amend and reenact §§ 19.2-310.2 and 58.1-3 of the Code of Virginia and to repeal § 55-112 of the Code of Virginia, relating to clerks of court; collection of DNA sample for certain offenses; disclosure of tax information; Torrens system.

[S 1166]

Approved March 22, 2019

Be it enacted by the General Assembly of Virginia:

1. That §§ 19.2-310.2 and 58.1-3 of the Code of Virginia are amended and reenacted as follows:

§ 19.2-310.2. Blood, saliva, or tissue sample required for DNA analysis upon conviction of certain crimes; fee.

A. Every person convicted of a felony on or after July 1, 1990, every person convicted of a felony offense under Article 7 (§ 18.2-61 et seq.) of Chapter 4 of Title 18.2 who was incarcerated on July 1, 1989, and every person convicted of a misdemeanor violation of § 16.1-253.2, 18.2-57, 18.2-60.3, 18.2-60.4, 18.2-67.4, 18.2-67.4:1, 18.2-67.4:2, 18.2-67.5, 18.2-102, 18.2-119, 18.2-121, 18.2-130, 18.2-370.6, 18.2-387, or 18.2-387.1 or subsection E of § 18.2-460 or of any similar ordinance of any locality shall have a sample of his blood, saliva, or tissue taken for DNA (deoxyribonucleic acid) analysis to determine identification characteristics specific to the person. If a sample has been previously taken from the person as indicated by the Local Inmate Data System (LIDS), no additional sample shall be taken. The Department of Forensic Science shall provide to LIDS the most current information submitted to the DNA data bank on a weekly basis and shall remove from LIDS and the data bank persons no longer eligible to be in the data bank. A fee of $53 shall be charged for the withdrawal of this sample. The fee shall be taxed as part of the costs of the criminal case resulting in the conviction and $15 of the fee shall be paid into the general fund of the locality where the sample was taken and $38 of the fee shall be paid into the general fund of the state treasury. This fee shall only be taxed one time regardless of the number of samples taken. The assessment provided for herein shall be in addition to any other fees prescribed by law. The analysis shall be performed by the Department of Forensic Science or other entity designated by the Department. The identification characteristics of the profile resulting from the DNA analysis shall be stored and maintained by the Department in a DNA data bank and shall be made available only as provided in § 19.2-310.5.

B. After July 1, 1990, the blood, saliva, or tissue sample shall be taken prior to release from custody. Notwithstanding the provisions of § 53.1-159, any person convicted of an offense listed in subsection A who is in custody after July 1, 1990, shall provide a blood, saliva, or tissue sample prior to his release. Every person so convicted after July 1, 1990, who is not sentenced to a term of confinement shall provide a blood, saliva, or tissue sample as a condition of such sentence. A person required under this section to submit a sample for DNA analysis is not relieved from this requirement regardless of whether no blood, saliva, or tissue sample has been taken before the person or, if a sample has been taken, whether the sample or the results from the analysis of a sample cannot be found in the DNA data bank maintained by the Department of Forensic Science.

C. Nothing in this section shall prevent the Department of Forensic Science from including the identification characteristics of an individual's DNA profile in the DNA data bank as ordered by a circuit court pursuant to a lawful plea agreement.

D. A collection or placement of a sample for DNA analysis that was taken or retained in good faith does not invalidate the sample's use in the data bank pursuant to the provisions of this article. The detention, arrest, or conviction of a person based upon a data bank match or data bank information is not invalidated if it is determined that the sample was obtained, placed, or retained in the data bank in good faith, or if the conviction or juvenile adjudication that resulted in the collection of the DNA sample was subsequently vacated or otherwise altered in any future proceeding, including but not limited to post-trial or post-fact-finding motions, appeals, or collateral attacks.

E. The Virginia Department of Corrections and the Department of Forensic Science shall, on a quarterly basis, compare databases of offenders under the custody or supervision of the Department of Corrections with the DNA data bank of the Department of Forensic Science. The Virginia Department of Corrections shall require a DNA sample of those offenders under its custody or supervision if they are not identified in the DNA data bank.

F. The Department of State Police shall verify that a DNA sample required to be taken for the Sex Offender and Crimes Against Minors Registry pursuant to § 9.1-903 has been received by the Department of Forensic Science. In any instance
where a DNA sample has not been received, the Department of State Police or its designee shall obtain from the person required to register a sample for DNA analysis.

G. Each community-based probation services agency established pursuant to § 9.1-174 shall determine by reviewing the Local Inmate Data System upon intake and again prior to discharge whether a blood, saliva, or tissue sample has been taken for DNA analysis for each offender required to submit a sample pursuant to this section and, if no sample has been taken, require an offender to submit a sample for DNA analysis.

H. The sheriff or regional jailer shall determine by reviewing the Local Inmate Data System upon intake and again prior to release whether a blood, saliva, or tissue sample has been taken for DNA analysis for each offender required to submit a sample pursuant to this section and, if no sample has been taken, require an offender to submit a sample for DNA analysis.

A. Except in accordance with a proper judicial order or as otherwise provided by law, the Tax Commissioner or agent, clerk, commissioner of the revenue, treasurer, or any other state or local tax or revenue officer or employee, or any person to whom tax information is divulged pursuant to this section or § 58.1-512 or 58.1-2712.2, or any former officer or employee of any of the aforementioned offices shall not divulge any information acquired by him in the performance of his duties with respect to the transactions, property, including personal property, income or business of any person, firm or corporation. Such prohibition specifically includes any copy of a federal return or federal return information required by Virginia law to be attached to or included in the Virginia return. This prohibition shall apply to any reports, returns, financial documents or other information filed with the Attorney General pursuant to the provisions of Article 3 (§ 3.2-4204 et seq.) of Chapter 42 of Title 3.2. Any person violating the provisions of this section is guilty of a Class 1 misdemeanor. The provisions of this subsection shall not be applicable, however, to:

1. Matters required by law to be entered on any public assessment roll or book;
2. Acts performed or words spoken, published, or shared with another agency or subdivision of the Commonwealth in the line of duty under state law;
3. Inquiries and investigations to obtain information as to the process of real estate assessments by a duly constituted committee of the General Assembly, or when such inquiry or investigation is relevant to its study, provided that any such information obtained shall be privileged;
4. The sales price, date of construction, physical dimensions or characteristics of real property, or any information required for building permits;
5. Copies of or information contained in an estate's probate tax return, filed with the clerk of court pursuant to § 58.1-1714, when requested by a beneficiary of the estate or an heir at law of the decedent or by the commissioner of accounts making a settlement of accounts filed in such estate;
6. Information regarding nonprofit entities exempt from sales and use tax under § 58.1-609.11, when requested by the General Assembly or any duly constituted committee of the General Assembly;
7. Reports or information filed with the Attorney General by a Stamping Agent pursuant to the provisions of Article 3 (§ 3.2-4204 et seq.), when such reports or information are provided by the Attorney General to a tobacco products manufacturer who is required to establish a qualified escrow fund pursuant to § 3.2-4201 and are limited to the brand families of that manufacturer as listed in the Tobacco Directory established pursuant to § 3.2-4206 and are limited to the current or previous two calendar years or in any year in which the Attorney General receives Stamping Agent information that potentially alters the required escrow deposit of the manufacturer. The information shall only be provided in the following manner: the manufacturer may make a written request, on a quarterly or yearly basis or when the manufacturer is notified by the Attorney General of a potential change in the amount of a required escrow deposit, to the Attorney General for a list of the Stamping Agents who reported stamping or selling its products and the amount reported. The Attorney General shall provide the list within 15 days of receipt of the request. If the manufacturer wishes to obtain actual copies of the reports the Stamping Agents filed with the Attorney General, it must first request them from the Stamping Agents pursuant to subsection C of § 3.2-4209. If the manufacturer does not receive the reports pursuant to subsection C of § 3.2-4209, the manufacturer may make a written request to the Attorney General, including a copy of the prior written request to the Stamping Agent and any response received, for copies of any reports not received. The Attorney General shall provide copies of the reports within 45 days of receipt of the request.

B. 1. Nothing contained in this section shall be construed to prohibit the publication of statistics so classified as to prevent the identification of particular reports or returns and the items thereof or the publication of delinquent lists showing the names of taxpayers who are currently delinquent, together with any relevant information which in the opinion of the Department may assist in the collection of such delinquent taxes. Notwithstanding any other provision of this section or other law, the Department, upon request by the General Assembly or any duly constituted committee of the General Assembly, shall disclose the total aggregate amount of an income tax deduction or credit taken by all taxpayers, regardless of (i) how few taxpayers took the deduction or credit or (ii) any other circumstances. This section shall not be construed to prohibit a local tax official from disclosing whether a person, firm or corporation is licensed to do business in that locality and divulging, upon written request, the name and address of any person, firm or corporation transacting business under a fictitious name. Additionally, notwithstanding any other provision of law, the commissioner of revenue is authorized to provide, upon written request stating the reason for such request, the Tax Commissioner with information obtained from

Additionally, notwithstanding any other provision of law, the Department is hereby authorized to make available the names and certificate of registration numbers of dealers who are currently registered for retail sales and use tax.

3. This section shall not prohibit the Department from disclosing information to nongovernmental entities with which the Department has entered into a contract to provide services that assist it in the administration of refund processing or other services related to its administration of taxes.

4. This section shall not prohibit the Department from disclosing information to taxpayers regarding whether the taxpayer's employer or another person or entity required to withhold on behalf of such taxpayer submitted withholding records to the Department for a specific taxable year as required pursuant to subdivision C 1 of § 58.1-478.

5. A confidential tax document is any correspondence, document, or tax return that is prohibited from being divulged by subsection A, B, C, or D and includes any document containing information on the transactions, property, income, or business of any person, firm, or corporation that is required to be filed with any state official by § 58.1-512. 1. That §§ 8.01-195.4 and 16.1-77 of the Code of Virginia are amended and reenacted as follows:

§ 8.01-195.4. Jurisdiction of claims under this article; right to jury trial; service on Commonwealth or locality; amending amount of claim.

The general district courts shall have exclusive original jurisdiction to hear, determine, and render judgment on any claim against the Commonwealth or any transportation district cognizable under this article when the amount of the claim does not exceed $4,500, exclusive of interest and any attorneys' fees. Jurisdiction shall be concurrent with the circuit courts when the amount of the claim exceeds $4,500 but does not exceed $25,000, exclusive of interest and such attorneys' fees. Jurisdiction of claims when the amount exceeds $25,000 shall be limited to the circuit courts of the Commonwealth. The parties to any such action in the circuit courts shall be entitled to a trial by jury.

While a matter is pending in a general district court or a circuit court, upon motion of the plaintiff seeking to increase or decrease the amount of the claim, the court shall order transfer of the matter to the general district court or circuit court that has jurisdiction over the amended amount of the claim without requiring that the case first be dismissed or that the plaintiff suffer a nonsuit, and the tolling of the applicable statutes of limitations governing the pending matter shall be unaffected by the transfer. Where such a matter is pending, if the plaintiff is seeking to increase or decrease the amount of the claim to an amount wherein the general district court and the circuit court would have concurrent jurisdiction, the court shall transfer the matter to either the general district court or the circuit court, as directed by the plaintiff, provided that such court otherwise has jurisdiction over the matter. Except for good cause shown, no such order of transfer shall issue unless the motion to amend and transfer is made at least 10 days before trial. The plaintiff shall pay filing and other fees as otherwise provided by law to the clerk of the court to which the case is transferred, and such clerk shall process the claim as if it were a new civil action. The plaintiff shall prepare and present the order of transfer to the transferring court for entry, after which time the case shall be removed from the pending docket of the transferring court and the order of transfer placed among its records. The plaintiff shall provide a certified copy of the transfer order to the receiving court.

In all actions against the Commonwealth commenced pursuant to this article, the Commonwealth shall be a proper party defendant, and service of process shall be made on the Attorney General. The notice of claim shall be filed pursuant to § 8.01-195.6 on the Director of the Division of Risk Management or the Attorney General. In all such actions against a transportation district, the district shall be a proper party and service of process and notices shall be made on the chairman of the commission of the transportation district.

§ 16.1-77. Civil jurisdiction of general district courts; amending amount of claim.

Except as provided in Article 5 (§ 16.1-122.1 et seq.), each general district court shall have, within the limits of the territory it serves, civil jurisdiction as follows:

(1) Exclusive original jurisdiction of any claim to specific personal property or to any debt, fine or other money, or to damages for breach of contract or for injury done to property, real or personal, or for any injury to the person that would be recoverable by action at law or suit in equity, when the amount of such claim does not exceed $4,500 exclusive of interest and any attorney fees, and concurrent jurisdiction with the circuit courts having jurisdiction in such territory of any such claim when the amount thereof exceeds $4,500 but does not exceed $25,000, exclusive of interest and any attorney fees. However, this $25,000 limit shall not apply with respect to distress warrants under the provisions of § 46.2-1135, nor cases involving forfeit of a bond pursuant to § 19.2-143. While a matter is pending in a general district court, upon motion of the plaintiff seeking to increase the amount of the claim, the court shall order transfer of the matter to the circuit court that has jurisdiction over the amended amount of the claim without requiring that the case first be dismissed or that the plaintiff suffer a nonsuit, and the tolling of the applicable statutes of limitations governing the pending matter shall be unaffected by the transfer. Except for good cause shown, no such order of transfer shall issue unless the motion to amend and transfer is made at least 10 days before trial. The plaintiff shall pay filing and other fees as otherwise provided by law to the clerk of the court to which the case is transferred, and such clerk shall process the claim as if it were a new civil action. The plaintiff shall prepare and present the order of transfer to the transferring court for entry, after which time the case shall be removed from the pending docket of the transferring court and the order of transfer placed among its records. The plaintiff shall provide a certified copy of the transfer order to the receiving court.

(2) Jurisdiction to try and decide attachment cases when the amount of the plaintiff's claim does not exceed $25,000 exclusive of interest and any attorney fees.

(3) Jurisdiction of actions of unlawful entry or detainer as provided in Article 13 (§ 8.01-124 et seq.) of Chapter 3 of Title 8.01, and in Chapter 13 (§ 55-217 et seq.) of Title 55, and the maximum jurisdictional limits prescribed in subdivision (1) shall not apply to any claim, counter-claim or cross-claim in an unlawful detainer action that includes a claim for damages sustained or rent against any person obligated on the lease or guarantee of such lease.

(4) Except where otherwise specifically provided, all jurisdiction, power and authority over any civil action or proceeding conferred upon any general district court judge or magistrate under or by virtue of any provisions of the Code.

(5) Jurisdiction to try and decide suits in interpleader involving personal or real property where the amount of money or value of the property is not more than the maximum jurisdictional limits of the general district court. However, the maximum jurisdictional limits prescribed in subdivision (1) shall not apply to any claim, counter-claim, or cross-claim in an interpleader action that is limited to the disposition of an earnest money deposit pursuant to a real estate purchase contract. The action shall be brought in accordance with the procedures for interpleader as set forth in § 8.01-364. However, the
an action filed under this section, the court may award the owner his reasonable (i) attorneys' fees, (ii) court costs, and (iii) fees for no more than three expert witnesses testifying at trial up to three experts or as many experts as are called by the petitioner, whichever is greater, who testified at trial if (a) the court finds that the petitioner maliciously, willfully, or
recklessly damaged the owner’s property; or (ii) the court awards the owner actual damages in an amount 30 percent or more
greater than the petitioner’s final written offer made no later than 30 days after the filing of an answer in circuit court or the
return date in general district court. A proceeding under this subsection shall not preclude the owner from pursuing any
additional remedies available at law or equity.

F. The requirements of this section shall not apply to the practice of land surveying, as defined in § 54.1-400, when
such surveying is not involved in any eminent domain or any proposed eminent domain matter.

§ 25.1-230. Measure of just compensation; oaths of members of body determining just compensation.
A. The body determining just compensation shall in each case ascertain the amount of just compensation to which a
party is entitled as follows:
1. If the condemnation proceeding is brought utilizing the procedure set forth in Chapter 3 (§ 25.1-300 et seq.) of this
title or §§ 33.2-1018 through 33.2-1029, the body determining just compensation shall ascertain (i) the value of the property
to be taken and (ii) the damages, if any, which that may accrue to the residue beyond the specific enhancement in value, if
any, to such residue caused by reason of such the taking and public use by the petitioner, however, (i) such enhancement in
value shall not be offset against the value of the property taken, and (ii) if such for which it is condemned. Such
enhancement in value shall exceed not be offset against the value of the property taken, and if such enhancement in value
exceeds the damage damages, there shall be no recovery against the landowner for such excess; and
2. In any other condemnation proceeding, the body determining just compensation shall ascertain the value of the
property to be taken and the damages, if any, to any other property beyond the peculiar benefits; if any, to such other
property, by reason of such taking and use by the petitioner.

In determining the market value of the property before the taking, the body determining just compensation may
consider everything a buyer and seller in the marketplace would reasonably consider, but may not consider any increase or
decline in the fair market value of the property caused by the public use for which the property is being acquired, or by the
likelihood that the property would be acquired for such public use, other than that due to physical deterioration within the
reasonable control of the owner.

In determining the market value of the residue after the taking, the body determining just compensation may consider
everything a buyer and seller in the marketplace would reasonably consider, including the public use for which the property
is being acquired, but may not consider any general enhancement the residue experiences in common with surrounding
properties as a result of the public use.

Nothing in this subsection shall make evidence of tax assessments admissible as proof of value in an eminent domain
proceeding.

B. Before executing their duties, each member of the body determining just compensation shall take an oath before an
officer authorized by the laws of this the Commonwealth to administer an oath that he will faithfully and impartially
ascertain the amount of just compensation to which a party is entitled.

§ 25.1-230.1. Lost access and lost profits.
A. For purposes of this section:
“Business” shall have the same meaning as set forth in § 25.1-400.
“Business profit” means the average net income for federal income tax purposes for the three years immediately prior
to the latter of (i) the date of valuation or (ii) the date the state agency or its contractor prevents the owner from using the
land or any of the owner’s other property rights are taken, for a business or farm operation located on the property taken.

“Direct access” means ingress or egress on or off a public road, street, or highway at a location where the property
adjoins that road, street, or highway.

“Farm operation” shall have the same meaning as set forth in § 25.1-400.
B. The body determining just compensation shall include in its determination of damage to the residue any loss in
market value of the remaining property from lost access caused by the taking or damaging of the property. The body
determining just compensation shall ascertain any reduction in value for lost access, if any, that may accrue to the residue
(i) beyond the enhancement in value, if any, to such residue as provided in subdivision A 1 of § 25.1-230, or (ii) beyond the
peculiar benefits, if any, to such other property as provided in subdivision A 2 of as provided in subdivision A of § 25.1-230,
by reason of the taking and use by the petitioner. If such peculiar benefit or enhancement in value shall exceed the reduction
in value, there shall be no recovery against the landowner for such excess. The body determining just compensation may not
consider an injury or benefit that the property owner experiences in common with the general community, including off-site
circuit or diversion of traffic, arising from an exercise of the police power. The body determining just
compensation shall ensure that any compensation awarded for lost access shall not be duplicated in the compensation
otherwise awarded to the owner of the property taken or damaged.

C. The body determining just compensation shall include in its determination of just compensation lost profits to the
owner of a business or farm operation conducted on the property taken only if the owner proves with reasonable certainty
the amount of the loss and that the loss is directly and proximately caused by the taking of the property through the exercise
of eminent domain and the following conditions are met:
1. The loss cannot be reasonably prevented by a relocation of the business or farm operation, or by taking steps and
adopting procedures that a reasonably prudent person would take and adopt;
2. The loss will not be included in relocation assistance provided pursuant to Chapter 4 (§ 25.1-400 et seq.);
3. Compensation for the loss will not be duplicated in the compensation otherwise awarded to the owner of the property taken or damaged; and
4. The loss shall be determined in accordance with generally accepted accounting principles applied on a consistent basis.

D. Any and all liability for lost access shall be established and made a part of the award of just compensation for damage to the residue of the property taken or damaged, and any and all liability for lost profits shall be set forth specifically in the award. In a partial acquisition, in the event that the owner of the property being condemned and the owner of the business or farm operation claiming lost profits are the same, then any enhancement or peculiar benefit shall be offset against both damage to the residue and lost profits.

E. It shall not be a requirement of any bona fide effort to purchase the property pursuant to § 25.1-204 or 33.2-1001 that the petitioner include any liability for lost profits in a written offer to purchase the property.

F. In any proceeding in which the owner of a business or farm operation seeks to recover lost profits, the owner shall provide the condemning authority with all federal income tax returns, if any, relating to the business or farm operation for which the owner seeks lost profits for a period of three years prior to the later of (i) the valuation date or (ii) the date the state agency or its contractor prevents the owner from using the land or any of the owner's other property rights are taken, and for each year thereafter during the pendency of the condemnation proceeding. The condemning authority shall not divulge the information provided pursuant to this subsection except in connection with the condemnation proceeding. Additionally, unless already named in the petition for condemnation, the owner may intervene in the proceeding by filing a motion to intervene accompanied by a petition for intervention setting forth the basis for the lost profits claim under this chapter. Proceedings to adjudicate lost profits may be bifurcated from the other proceedings to determine just compensation if the lost profits claim period will not expire until one year or later from the date of the filing of the petition for condemnation, but such bifurcation shall not prevent the entry of an order confirming indefeasible title to the land interests acquired by the condemning authority.

G. Nothing in this section is intended to provide for compensation for inverse condemnation claims for temporary interference with or interruption of a business or farm operation other than that which is directly and proximately caused by a taking or damaging of property through the exercise of eminent domain.

§ 25.1-312. Reimbursement of owner for costs when taking is abandoned or denied.
A. No reformation, alteration, revision, amendment, or invalidation shall be made to a recorded certificate for any purpose without the prior consent of the court wherein such certificate is recorded.
B. The court shall have jurisdiction to:
1. Reform, alter, revise, amend, or invalidate, in whole or in part, any certificate; and
2. Correct mistakes in the description of the property affected by such certificate, the name or names of the owner or owners in the certificate, or any other error that may exist with respect to such certificate for any other purpose.
C. A petition filed by the authorized condemnor with the court setting forth any error made in such certificate, or the necessity of any change therein, shall be deemed sufficient basis for the reformation, alteration, revision, amendment, or invalidation in whole or in part of such certificate.
D. The court may enter an order permitting the reformation, alteration, revision, amendment or invalidation, in whole or in part, of the certificate. Such order, together with any revised certificate that may be necessary, shall be recorded in the clerk's office in the same manner required for the recordation of a certificate. The filing of any certificate pursuant to the provisions of this section shall not alter the date of taking as established by the recordation of the original certificate pursuant to § 25.1-307 as to any property that is included in the amended certificate. An amended certificate shall not include any property not included in the original certificate.
E. Nothing in this section shall be construed to prohibit or preclude any person damaged by reason of a mistake in, or the invalidation of, a certificate from recovering damages in a condemnation proceeding resulting from such reformation, alteration, revision, amendment, or invalidation.

§ 25.1-419. Reimbursement of owner for costs when taking is abandoned or denied.
The court having jurisdiction of in which a condemnation proceeding is instituted by a state agency to acquire real property by condemnation shall award the owner of any right, title, or interest in such real property such sum as will, in the opinion of the court, reimburse such owner for his reasonable costs, disbursements, and expenses, including reasonable attorney, appraisal, and engineering fees, actually incurred because of the condemnation proceedings, if (i) the final judgment is that the state agency cannot acquire the real property by condemnation or (ii) the proceeding taking is abandoned by the state agency, in full or in part. The award of such sums shall be paid by the state agency that sought to condemn the property.

§ 33.2-1011. Right to enter on land to ascertain its suitability for highway and other transportation purposes; damage resulting from such entry.
A. Such officers, agents, or servants shall exercise care to protect any improvements, growing crops, or timber in
making such examination or survey. Such officers, agents, or servants may enter upon any property without the written permission of its owners if (i) the Commissioner has requested the owner's permission to inspect the property as provided in subsection B, (ii) the owner's written permission is not received prior to the date entry is proposed, and (iii) the Commissioner has given the owner notice of intent to enter as provided in subsection C.

D. Notwithstanding the provisions in subsections A and B, nothing shall preclude entry prior to the anticipated date of entry specified in the notice if the property owner or his designated representative agrees to or requests a date of entry prior to the date of entry specified in the notice.

E. The Commissioner of Highways, through his duly authorized officers, agents, or servants, shall make reimbursement for any actual damages to real or personal property resulting from entry upon the property. In any action filed under this section, the court may award the owner his reasonable attorney fees; court costs; and fees for no more than three expert witnesses testifying at trial if (i) the court finds that the Commissioner of Highways maliciously, willfully, or recklessly damaged the owner's property; and (ii) the court awards the owner actual damages in an amount 20 percent or more greater than the final written offer of the Commissioner of Highways made no later than 30 days after the filing of an answer in circuit court or the return date in general district court. A proceeding under this subsection shall not preclude the owner from pursuing any additional remedies available to the landowner. 1. A request for permission to inspect shall (i) be sent to the owner by certified mail, return receipt requested, delivered by guaranteed overnight courier, or otherwise delivered to the owner in person with proof of delivery and (ii) be made not less than 15 days prior to the first date of the proposed inspection. A request for permission to inspect shall be deemed to be made on the date of mailing, if mailed, or otherwise on the date of delivery.

2. A request for permission to inspect shall include (i) the specific date or dates such inspection is proposed to be made; (ii) the name of the entity entering the property; (iii) the number of persons for whom permission is sought; (iv) the purpose for which entry is made; and (v) the testing, appraisals, or examinations to be performed and other actions to be taken.

The notice of intent to enter shall include (a) the specific date or dates of such intended entry; (b) the name of the entity entering the property; (c) the number of persons intending to enter the property; (d) the purpose for which entry is made; and (e) the testing, appraisals, or examinations to be performed and other actions to be taken, which in no way shall exceed those set forth in the request for permission pursuant to subdivision B. 2. Notice of intent to enter shall be deemed made on the earlier of (1) the date of mailing, if mailed, or (2) the date of delivery or posting. Any individual entering the property shall carry identification and shall present such identification upon request of the landowner or his authorized representative.

D. Any entry authorized by this section (i) shall be for the purpose of making surveys, tests, appraisals, or examinations thereof in order to determine the suitability of such property for the project and (ii) shall not be deemed a trespass.

E. The Commissioner shall make reimbursement for any actual damages resulting from entry upon the property. In any action filed under this section, the court may award the owner his reasonable (i) attorney fees; (ii) court costs; and (iii) fees for up to three experts or as many experts as are called by the condemnor, whichever is greater, who testified at trial if the court finds that the Commissioner damaged the owner's property. A proceeding under this subsection shall not preclude the owner from pursuing any additional remedies available at law or equity.

F. The requirements of this section shall not apply to the practice of land surveying, as defined in § 54.1-400, when such surveying is not involved in any eminent domain or any proposed eminent domain matter.

§ 33.2-1024. Reformation, alteration, revision, amendment, or invalidation of certificate.

Upon the recordation of such certificate, no reformation, alteration, revision, amendment, or invalidation shall be made for any purpose without the prior consent of the court wherein such certificate is recorded. The court shall have jurisdiction to reform, alter, revise, amend, or invalidate in whole or in part any certificate; to correct mistakes in the description of the property affected by such certificate; to correct the name of the owner in the certificate; to correct any other error that may exist with respect to such certificate; or for any other purpose. A petition filed by the Commissioner of Highways with the court setting forth any error made in such certificate, or the necessity of any change therein, shall be deemed sufficient basis for the reformation, alteration, revision, amendment, or invalidation in whole or in part of such certificate. The court may enter an order permitting the reformation, alteration, revision, amendment, or invalidation in whole or in part, and such
order, together with any revised certificate that may be necessary, shall be recorded in the current deed book. The filing of any certificate pursuant to the provisions of this section shall not alter the date of taking as established by the filing of the original certificate pursuant to § 33.2-1021 as to any land that is included in the amended certificate, and no such amended certificate shall include any land not in the original certificate. Nothing in this section shall be construed to prohibit or preclude any person damaged thereby from showing in the proper proceeding the damage suffered by reason of such mistake or the invalidation of a certificate or deposit as provided in this section from recovering any damages in a condemnation proceeding resulting from such reformation, alteration, revision, amendment, or invalidation.

2. That the provisions of this act shall not apply to condemnation proceedings in which the petitioner filed, prior to July 1, 2019, (i) a petition in condemnation pursuant to Chapter 2 (§ 25.1-200 et seq.) of Title 25.1 of the Code of Virginia or (ii) a certificate of take or deposit pursuant to Title 33.2 or Chapter 3 (§ 25.1-300 et seq.) of Title 25.1 of the Code of Virginia. I. The City of Virginia Beach may issue bonds to refund any of its bonds then outstanding, including the payment of any redemption premium and any interest accrued or to accrue to the earliest or any subsequent date of redemption, purchase, or maturity of the bonds. Refunding bonds may be issued for the public purposes of realizing savings in the effective costs of debt service, directly or through a debt restructuring, for alleviating impending or actual default and may be issued in one or more series in an amount in excess of that of the bonds to be refunded.

   C. Each school board shall assign licensed instructional personnel in a manner that produces divisionwide ratios of students in average daily membership to full-time equivalent teaching positions, excluding special education teachers, principals, assistant principals, school counselors, and librarians, that are not greater than the following ratios: (i) 24 to one in kindergarten with no class being larger than 29 students; if the average daily membership in any kindergarten class exceeds 24 pupils, a full-time teacher’s aide shall be assigned to the class; (ii) 24 to one in grades one, two, and three with no class being larger than 30 students; (iii) 25 to one in grades four through six with no class being larger than 35 students; and (iv) 24 to one in English classes in grades six through 12. After September 30 of any school year, anytime the number of students in a class exceeds the class size limit established by this subsection, the local school division shall notify the parent of each student in such class of such fact no later than 10 days after the date on which the class exceeded the class size limit. Such notification shall state the reason that the class size exceeds the class size limit and describe the measures that the local school division will take to reduce the class size to comply with this subsection.

   Within its regulations governing special education programs, the Board shall seek to set pupil/teacher ratios for pupils with intellectual disability that do not exceed the pupil/teacher ratios for self-contained classes for pupils with specific learning disabilities.

   Further, school boards shall assign instructional personnel in a manner that produces schoolwide ratios of students in average daily memberships to full-time equivalent teaching positions of 21 to one in middle schools and high schools.
School divisions shall provide all middle and high school teachers with one planning period per day or the equivalent, unencumbered of any teaching or supervisory duties.

D. Each local school board shall employ with state and local basic, special education, gifted, and career and technical education funds a minimum number of licensed, full-time equivalent instructional personnel for each 1,000 students in average daily membership (ADM) as set forth in the appropriation act. Calculations of kindergarten positions shall be based on full-day kindergarten programs. Beginning with the March 31 report of average daily membership, those school divisions offering half-day kindergarten with pupil/teacher ratios that exceed 30 to one shall adjust their average daily membership for kindergarten to reflect 85 percent of the total kindergarten average daily memberships, as provided in the appropriation act.

E. In addition to the positions supported by basic aid and in support of regular school year programs of prevention, intervention, and remediation, state funding, pursuant to the appropriation act, shall be provided to fund certain full-time equivalent instructional positions for each 1,000 students in grades K through 12 who are identified as needing prevention, intervention, and remediation services. State funding for prevention, intervention, and remediation programs provided pursuant to this subsection and the appropriation act may be used to support programs for educationally at-risk students as identified by the local school boards.

To provide algebra readiness intervention services required by § 22.1-253.13:1, school divisions may employ mathematics teacher specialists to provide the required algebra readiness intervention services. School divisions using the Standards of Learning Algebra Readiness Initiative funding in this manner shall only employ instructional personnel licensed by the Board of Education.

F. In addition to the positions supported by basic aid and those in support of regular school year programs of prevention, intervention, and remediation, state funding, pursuant to the appropriation act, shall be provided to support 17 full-time equivalent instructional positions for each 1,000 students identified as having limited English proficiency, which positions may include dual language teachers who provide instruction in English and in a second language.

To provide flexibility in the instruction of English language learners who have limited English proficiency and who are at risk of not meeting state accountability standards, school divisions may use state and local funds from the Standards of Quality Prevention, Intervention, and Remediation account to employ additional English language learner teachers or dual language teachers to provide instruction to identified limited English proficiency students. Using these funds in this manner is intended to supplement the instructional services provided in this section. School divisions using the SOQ Prevention, Intervention, and Remediation funds in this manner shall employ only instructional personnel licensed by the Board of Education.

G. In addition to the full-time equivalent positions required elsewhere in this section, each local school board shall employ the following reading specialists in elementary schools, one full-time in each elementary school at the discretion of the local school board. One reading specialist employed by each local school board that employs a reading specialist shall have training in the identification of and the appropriate interventions, accommodations, and teaching techniques for students with dyslexia or a related disorder and shall serve as an advisor on dyslexia and related disorders. Such reading specialist shall have an understanding of the definition of dyslexia and a working knowledge of (i) techniques to help a student on the continuum of skills with dyslexia; (ii) dyslexia characteristics that may manifest at different ages and grade levels; (iii) the basic foundation of the keys to reading, including multisensory, explicit, systemic, and structured reading instruction; and (iv) appropriate interventions, accommodations, and assistive technology supports for students with dyslexia.

To provide reading intervention services required by § 22.1-253.13:1, school divisions may employ reading specialists to provide the required reading intervention services. School divisions using the Early Reading Intervention Initiative funds in this manner shall employ only instructional personnel licensed by the Board of Education.

H. Each local school board shall employ, at a minimum, the following full-time equivalent positions for any school that reports fall membership, according to the type of school and student enrollment:

1. Principals in elementary schools, one half-time to 299 students, one full-time at 300 students; principals in middle schools, one full-time, to be employed on a 12-month basis; principals in high schools, one full-time, to be employed on a 12-month basis;

2. Assistant principals in elementary schools, one half-time at 600 students, one full-time at 900 students; assistant principals in middle schools, one full-time for each 600 students; assistant principals in high schools, one full-time for each 600 students; and school divisions that employ a sufficient number of assistant principals to meet this staffing requirement may assign assistant principals to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary;

3. Librarians in elementary schools, one part-time to 299 students, one full-time at 300 students; librarians in middle schools, one-half time to 299 students, one full-time at 300 students, two full-time at 1,000 students; librarians in high schools, one-half time to 299 students, one full-time at 300 students, two full-time at 1,000 students. Local school divisions that employ a sufficient number of librarians to meet this staffing requirement may assign librarians to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary; and

4. Guidance counselors:
   a. Effective with the 2019-2020 school year; in elementary schools, one hour per day for 75 students, one hour per day additional time per 75 students or major fraction thereof; guidance counselors in...
middle schools, one period per 80 65 students, one full-time at 400 325 students, one additional period per 60 65 students or major fraction thereof; guidance counselors in high schools, one period per 20 60 students, one full-time at 350 300 students, one additional period per 20 60 students or major fraction thereof.

b. Local school divisions that employ a sufficient number of guidance school counselors to meet this the school counselor staffing requirement requirements set forth in this subdivision may assign guidance school counselors to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary high schools.

I. Local school boards shall employ five full-time equivalent positions per 1,000 students in grades kindergarten through five to serve as elementary resource teachers in art, music, and physical education.

J. Local school boards shall employ two full-time equivalent positions per 1,000 students in grades kindergarten through 12, one to provide technology support and one to serve as an instructional technology resource teacher.

To provide flexibility, school divisions may use the state and local funds for instructional technology resource teachers to employ a data coordinator position, an instructional technology resource teacher position, or a data coordinator/instructional resource teacher blended position. The data coordinator position is intended to serve as a resource to principals and classroom teachers in the area of data analysis and interpretation for instructional and school improvement purposes, as well as for overall data management and administration of state assessments. School divisions using these funds in this manner shall employ only instructional personnel licensed by the Board of Education.

K. Local school boards may employ additional positions that exceed these minimal staffing requirements. These additional positions may include, but are not limited to, those funded through the state's incentive and categorical programs as set forth in the appropriation act.

L. A combined school, such as kindergarten through 12, shall meet at all grade levels the staffing requirements for the highest grade level in that school; this requirement shall apply to all staff, except for guidance school counselors, and shall be based on the school's total enrollment; guidance school counselor staff requirements shall, however, be based on the enrollment at the various school organization levels, i.e., elementary, middle, or high school. The Board of Education may grant waivers from these staffing levels upon request from local school boards seeking to implement experimental or innovative programs that are not consistent with these staffing levels.

M. School boards shall, however, annually, on or before December 31, report to the public (i) the actual pupil/teacher ratios in elementary school classrooms in the local school division by school for the current school year; and (ii) the actual pupil/teacher ratios in middle school and high school in the local school division by school for the current school year. Actual pupil/teacher ratios shall include only the teachers who teach the grade and class on a full-time basis and shall exclude resource personnel. School boards shall report pupil/teacher ratios that include resource teachers in the same annual report. Any classes funded through the voluntary kindergarten through third grade class size reduction program shall be identified as such classes. Any classes having waivers to exceed the requirements of this subsection shall also be identified. Schools shall be identified; however, the data shall be compiled in a manner to ensure the confidentiality of all teacher and pupil identities.

N. Students enrolled in a public school on a less than full-time basis shall be counted in ADM in the relevant school division. Students who are either (i) enrolled in a nonpublic school or (ii) receiving home instruction pursuant to § 22.1-254.1, and who are enrolled in public school on a less than full-time basis in any mathematics, science, English, history, social science, career and technical education, fine arts, foreign language, or health education or physical education course shall be counted in the ADM in the relevant school division on a pro rata basis as provided in the appropriation act. Each such course enrollment by such students shall be counted as 0.25 in the ADM; however, no such nonpublic or home school student shall be counted as more than one-half a student for purposes of such pro rata calculation. Such calculation shall not include enrollments of such students in any other public school courses.

O. Each local school board shall provide those support services that are necessary for the efficient and cost-effective operation and maintenance of its public schools.

For the purposes of this title, unless the context otherwise requires, "support services positions" shall include the following:

2. Fiscal and human resources positions, including fiscal and audit operations;
3. Student support positions, including (i) social workers and social work administrative positions; (ii) guidance school counselor administrative positions not included in subdivision H 4; (iii) homebound administrative positions supporting instruction; (iv) attendance support positions related to truancy and dropout prevention; and (v) health and behavioral positions, including school nurses and school psychologists;

6. Operation and maintenance positions, including facilities; pupil transportation positions; operation and maintenance professional and service positions; and security service, trade, and laborer positions;

School-based clerical personnel in elementary schools; part-time to 299 students, one full-time at 300 students; clerical personnel in middle schools; one full-time and one additional full-time for each 600 students beyond 200 students and one full-time for the library at 750 students; clerical personnel in high schools; one full-time and one additional full-time for each 600 students beyond 200 students and one full-time for the library at 750 students. Local school divisions that employ a sufficient number of school-based clerical personnel to meet this staffing requirement may assign the clerical personnel to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary.

Pursuant to the appropriation act, support services shall be funded from basic school aid.

School divisions may use the state and local funds for support services to provide additional instructional services.

P. Notwithstanding the provisions of this section, when determining the assignment of instructional and other licensed personnel in subsections C through J, a local school board shall not be required to include full-time students of approved virtual school programs.

The Secretary of Education, upon receiving recommendations for appointments from the Virginia Parent Teacher Association, Virginia Education Association, Virginia School Boards Association, Virginia Association of Secondary School Principals, Virginia Association of Elementary School Principals, Virginia Association of School Superintendents, Virginia State Reading Association, Virginia School Counselor Association, and Virginia Association for Supervision and Curriculum Development, shall establish and appoint nonlegislative citizen members to the Standards of Learning Innovation Committee (Committee). The Superintendent of Public Instruction, the President of the Board of Education or his designee, and the Secretary of Education or his designee shall serve ex officio. All other members shall be appointed for terms of two years. The Committee, under the direction of the Secretary, shall periodically make recommendations to the Board of Education on (a) the Standards of Learning assessments, (b) authentic individual student growth measures, (c) alignment between the Standards of Learning and assessments and the School Performance Report Card, and (d) ideas on innovative teaching in the classroom. An affirmative vote by a majority of the legislative members in attendance and a majority of nonlegislative members in attendance shall be required for the Committee to adopt any recommendations. The Board of Education shall review the recommendations of the Committee and submit to the Chairmen of the House Committee on Education and the Senate Committee on Education and Health, in advance of the next regular session of the General Assembly, any comments on such recommendations that the Board of Education deems appropriate.

§ 22.1-290.01. Virginia Teaching Scholarship Loan Program established; purpose; Board of Education to administer Program; eligibility requirements for scholarship and awards; collaboration and consultation with State Council of Higher Education; repayment of scholarship required.

A. With such funds as may be appropriated for this purpose and any gifts, donations, grants, bequests, and other funds that may be received on behalf of the Program by the Board of Education, there is hereby established the Virginia Teaching Scholarship Loan Program, hereinafter referred to as the "Program," to: (i) increase the number of teacher candidates pursuing careers in critical teacher shortage areas as defined in the Board of Education's Regulations Governing the Determination of Critical Teacher Shortage Areas; (ii) expand eligibility to teacher candidates, including graduate students and paraprofessionals from Virginia school divisions who are enrolled full-time or part-time in an approved teacher education program; (iii) increase the diversity of persons pursuing careers in teaching, including male teacher candidates enrolled in an elementary or middle school education program and minority teacher candidates enrolled in any teaching endorsement area; and (iv) increase the number of teacher candidates pursuing careers in career and technical education.

B. The Board of Education shall establish, in regulation, criteria for determining critical teacher shortage areas for awarding scholarships pursuant to this section. The criteria shall include such factors as the needs in teaching endorsement areas among the several school divisions of the Commonwealth, teacher shortages at the elementary and secondary grade levels, and teacher shortages in rural and urban regions of the Commonwealth.

C. The Program shall be administered by the Board of Education. The Board may promulgate such regulations as may be necessary for the implementation of the Program. The Board shall consult with the State Council of Higher Education in the implementation of the Program.

The Program shall consist of scholarships awarded annually to teacher candidates, including graduate students and paraprofessionals from Virginia school divisions at an accredited baccalaureate private institution of higher education in the Commonwealth or baccalaureate public institution of higher education in the Commonwealth, who (i) are enrolled full-time or part-time in an approved teacher education program or are participants in another approved teacher education program; (ii) have maintained a cumulative grade point average of at least 2.7 on a 4.0 scale or its equivalent; and (iii) are nominated

In addition, the candidates must meet one or more of the following criteria: (a) be enrolled in a program leading to an endorsement in a critical shortage area as established by the Board of Education; (b) be a male teacher candidate in an elementary or middle school education program; (c) be a minority teacher candidate enrolled in any teacher endorsement area; or (d) be a student in an approved teacher education program leading to an endorsement in career and technical education.

Upon program completion, the scholarship recipient shall begin teaching in the public schools of the Commonwealth in the first full academic year after becoming eligible for a teaching license, and shall fulfill the teaching obligation in accordance with the promissory note by teaching continuously in Virginia for the same number of years that he was the beneficiary of such scholarship. Such scholarship recipient may fulfill the teaching obligation by accepting a teaching position (i) in one of the critical teacher shortage disciplines as established by the Board of Education; or (ii) in a career and technical education discipline; or (iii) regardless of teaching discipline, in a school with a high concentration of students eligible for free or reduced lunch; or (iv) in any discipline or at any grade level within a school division with a shortage of teachers, as defined in the Board of Education's Regulations Governing the Determination of Critical Teacher Shortage Areas; or (v) in a rural or urban region of the state with a teacher shortage.

E. The Board of Education may recover the total amount of funds awarded as a scholarship, or the appropriate proportion thereof, including any accrued interest, if the scholarship recipient fails to honor the teaching obligation.

F. There is hereby created in the Department of the Treasury a special nonreverting fund known as the Virginia Teaching Scholarship Loan Fund, hereinafter referred to as the "Fund." The Fund shall be established on the books of the Comptroller, and any moneys remaining in the Fund at the end of the biennium shall not revert to the general fund but shall remain in the Fund. The Fund shall consist of such moneys as may be appropriated for the Virginia Teaching Scholarship Loan Program and such gifts, donations, grants, bequests, and other funds as may be received on its behalf by the Board of Education. The Fund shall be used solely to fund the Virginia Teaching Scholarship Loan Program. Interest earned on such moneys shall remain in the Fund and be credited to it. Moneys in the Fund shall be used solely to award scholarships pursuant to the Virginia Teaching Scholarship Loan Program as provided in this section. Disbursements from the Fund for such scholarships shall be made by the State Treasurer on warrants issued by the Comptroller upon written request of the President of the Board of Education.

G. The Board of Education and the State Council of Higher Education shall make available to parents, students, teachers, high school guidance counselors, and academic advisors and financial aid administrators at public and private institutions of higher education information concerning the Virginia Teacher Scholarship Loan Program, eligibility for the loans, and the terms and conditions under which such loans are awarded, in order that students interested in pursuing careers in the teaching profession may be advised of the availability of such financial assistance.

CHAPTER 797

An Act to amend and reenact § 19.2-169.3 of the Code of Virginia, relating to disposition of unrestorably incompetent defendants; capital murder.

[S 1231]

Approved March 25, 2019

Be it enacted by the General Assembly of Virginia:

1. That § 19.2-169.3 of the Code of Virginia is amended and reenacted as follows:

§ 19.2-169.3. Disposition of the unrestorably incompetent defendant; capital murder charge; sexually violent offense charge.

A. If, at any time after the defendant is ordered to undergo treatment pursuant to subsection A of § 19.2-169.2, the director of the community services board or behavioral health authority or his designee or the director of the treating inpatient facility or his designee concludes that the defendant is likely to remain incompetent for the foreseeable future, he shall send a report to the court so stating. The report shall also indicate whether, in the board, authority, or inpatient facility director's or his designee's opinion, the defendant should be released, committed pursuant to Article 5 (§ 37.2-814 et seq.) of Chapter 8 of Title 37.2, committed pursuant to Chapter 9 (§ 37.2-900 et seq.) of Title 37.2, or certified pursuant to § 37.2-806 in the event he is found to be unrestorably incompetent. Upon receipt of the report, the court shall make a competency determination according to the procedures specified in subsection E of § 19.2-169.1. If the court finds that the defendant is incompetent and is likely to remain so for the foreseeable future, it shall order that he be (i) released, (ii) committed pursuant to Article 5 (§ 37.2-814 et seq.) of Chapter 8 of Title 37.2, or (iii) certified pursuant to § 37.2-806. However, if the court finds that the defendant is incompetent and is likely to remain so for the foreseeable future and the
defendant has been charged with a sexually violent offense, as defined in § 37.2-900, he shall be screened pursuant to the procedures set forth in §§ 37.2-903 and 37.2-904. If the court finds the defendant incompetent but restorable to competency in the foreseeable future, it may order treatment continued until six months have elapsed from the date of the defendant's initial admission under subsection A of § 19.2-169.2.

B. At the end of six months from the date of the defendant's initial admission under subsection A of § 19.2-169.2 if the defendant remains incompetent in the opinion of the board, authority, or inpatient facility director or his designee, the director or his designee shall notify the court and make recommendations concerning disposition of the defendant as described in subsection A. The court shall hold a hearing according to the procedures specified in subsection E of § 19.2-169.1 and, if it finds the defendant unrestorable incompetent, shall order one of the dispositions described in subsection A. If the court finds the defendant incompetent but restorable to competency, it may order continued treatment under subsection A of § 19.2-169.2 for additional six-month periods, provided a hearing pursuant to subsection E of § 19.2-169.1 is held at the completion of each such period and the defendant continues to be incompetent but restorable to competency in the foreseeable future.

C. If any defendant has been charged with a misdemeanor in violation of Article 3 (§ 18.2-95 et seq.) of Chapter 5 of Title 18.2 or Article 5 (§ 18.2-119 et seq.) of Chapter 5 of Title 18.2, other than a misdemeanor charge pursuant to § 18.2-130 or Article 2 (§ 18.2-415 et seq.) of Chapter 9 of Title 18.2, and is being treated pursuant to subsection A of § 19.2-169.2, and after 45 days has not been restored to competency, the director of the community service board, behavioral health authority, or the director of the treating inpatient facility, or any of their designees, shall send a report indicating the defendant's status to the court. The report shall also indicate whether the defendant should be released or committed pursuant to § 37.2-817 or certified pursuant to § 37.2-806. Upon receipt of the report, if the court determines that the defendant is still incompetent, the court shall order that the defendant be released, committed, or certified, and may dismiss the charges against the defendant.

D. Unless an incompetent defendant is charged with capital murder or the charges against an incompetent criminal defendant have been previously dismissed, charges against an unrestorable incompetent defendant shall be dismissed on the date upon which his sentence would have expired had he been convicted and received the maximum sentence for the crime charged, or on the date five years from the date of his arrest for such charges, whichever is sooner.

E. If the court orders an unrestorable incompetent defendant to be screened pursuant to the procedures set forth in §§ 37.2-903 and 37.2-904, it shall order the attorney for the Commonwealth in the jurisdiction wherein the defendant was charged and the Commissioner of Behavioral Health and Developmental Services to provide the Director of the Department of Corrections with any information relevant to the review, including, but not limited to: (i) a copy of the warrant or indictment, (ii) a copy of the defendant's criminal record, (iii) information about the alleged crime, (iv) a copy of the competency report completed pursuant to § 19.2-169.1, and (v) a copy of the report prepared by the director of the defendant's community service board, behavioral health authority, or treating inpatient facility or his designee pursuant to this section. The court shall further order that the defendant be held in the custody of the Department of Behavioral Health and Developmental Services for secure confinement and treatment until the Commitment Review Committee's and Attorney General's review and any subsequent hearing or trial are completed. If the court receives notice that the Attorney General has declined to file a petition for the commitment of an unrestorable incompetent defendant as a sexually violent predator after conducting a review pursuant to § 37.2-905, the court shall order that the defendant be released, committed pursuant to Article 5 (§ 37.2-814 et seq.) of Chapter 8 of Title 37.2, or certified pursuant to § 37.2-806.

F. In any case when an incompetent defendant is charged with capital murder and has been determined to be unrestorable incompetent, notwithstanding any other provision of this section, the charge shall not be dismissed and the court having jurisdiction over the capital murder case may order that the defendant receive continued treatment under subsection A of § 19.2-169.2 for additional six-month periods without limitation in a secure facility determined by the Commissioner of the Department of Behavioral Health and Developmental Services where the defendant shall remain until further order of the court, provided that (i) a hearing pursuant to subsection E of § 19.2-169.1 is held at the completion of each such period yearly intervals for five years and at biennial intervals thereafter, or at any time that the director of the treating facility or his designee submits a competency report to the court in accordance with subsection D of § 19.2-169.1 that the defendant's competency has been restored, (ii) the defendant remains incompetent, (iii) the court finds continued treatment to be medically appropriate, and (iv) the defendant presents a danger to himself or others. No unrestorable incompetent defendant charged with capital murder shall be released except pursuant to a court order.

G. The attorney for the Commonwealth may bring charges that have been dismissed against the defendant when he is restored to competency.

CHAPTER 801

Approved March 25, 2019

Be it enacted by the General Assembly of Virginia:
1. That §§ 58.1-3219.5, 58.1-3219.9, and 58.1-3219.14 of the Code of Virginia are amended and reenacted as follows:
§ 58.1-3219.5. Exemption from taxes on property for disabled veterans.

A. Pursuant to subdivision (a) of Section 6-A of Article X of the Constitution of Virginia, and for tax years beginning on or after January 1, 2011, the General Assembly hereby exempts from taxation the real property, including the joint real property of husband and wife, of any veteran who has been rated by the U.S. Department of Veterans Affairs or its successor agency pursuant to federal law to have a 100 percent service-connected, permanent, and total disability, and who occupies the real property as his principal place of residence. If the veteran's disability rating occurs after January 1, 2011, and he has a qualified primary residence on the date of the rating, then the exemption for him under this section begins on the date of such rating. However, no county, city, or town shall be liable for any interest on any refund due to the veteran for taxes paid prior to the veteran's filing of the affidavit or written statement required by § 58.1-3219.6. If the qualified veteran acquires the property after January 1, 2011, then the exemption shall begin on the date of acquisition, and the previous owner may be entitled to a refund for a pro rata portion of real property taxes paid pursuant to § 58.1-3360.

B. The surviving spouse of a veteran eligible for the exemption set forth in this article shall also qualify for the exemption, so long as the death of the veteran occurs on or after January 1, 2011, and the surviving spouse does not remarry, and the surviving spouse continues to occupy the real property as his. The exemption applies without any restriction on the spouse's moving to a different principal place of residence.

C. A county, city, or town shall provide for the exemption from real property taxes the qualifying dwelling pursuant to this section and shall provide for the exemption from real property taxes the land, not exceeding one acre, upon which it is situated. However, if a county, city, or town provides for an exemption from or deferral of real property taxes of more than one acre of land pursuant to Article 2 (§ 58.1-3210 et seq.), then the county, city, or town shall also provide an exemption for the same number of acres pursuant to this section. If the veteran owns a house that is his residence, including a manufactured home as defined in § 46.2-100 whether or not the wheels and other equipment previously used for mobility have been removed, such house or manufactured home shall be exempt even if the veteran does not own the land on which the house or manufactured home is located. If such land is not owned by the veteran, then the land is not exempt. A real property improvement other than a dwelling, including the land upon which such improvement is situated, made to such one acre or greater number of acres exempt from taxation pursuant to this subsection shall also be exempt from taxation so long as the principal use of the improvement is (i) to house or cover motor vehicles or household goods and personal effects as classified in subdivision A 14 of § 58.1-3503 and as listed in § 58.1-3504 and (ii) for other than a business purpose.

D. For purposes of this exemption, real property of any veteran includes real property (i) held by a veteran alone or in conjunction with the veteran's spouse as tenant or tenants for life or joint lives, (ii) held in a revocable inter vivos trust over which a veteran alone or in conjunction with his spouse possesses a life estate or an estate for joint lives or enjoys a continuing right of use or support. The term does not include any interest held under a leasehold or term of years.

The exemption for a surviving spouse under subsection B includes real property (a) held by the veteran's spouse as tenant for life, (b) held in a revocable inter vivos trust over which the surviving spouse holds the power of revocation, or (c) held in an irrevocable trust under which the surviving spouse possesses a life estate or enjoys a continuing right of use or support. The exemption does not apply to any interest held under a leasehold or term of years.

E. 1. In the event that (i) a person is entitled to an exemption under this section by virtue of holding the property in any of the three ways set forth in subsection D and (ii) one or more other persons have an ownership interest in the property that permits them to occupy the property, then the tax exemption for the property that otherwise would have been provided shall be prorated by multiplying the amount of the exemption by a fraction that has as a numerator the number of people who are qualified for the exemption pursuant to this section and as a denominator the total number of all people having an ownership interest that permits them to occupy the property.

2. In the event that the primary residence is jointly owned by two or more individuals, not all of whom qualify for the exemption pursuant to subsection A or B, and no person is entitled to the exemption under this section by virtue of holding the property in any of the three ways set forth in subsection D, then the exemption shall be prorated by multiplying the amount of the exemption by a fraction that has as a numerator the percentage of ownership interest in the dwelling held by all such joint owners who qualify for the exemption pursuant to subsections A and B, and as a denominator, 100 percent.

§ 58.1-3219.9. Exemption from taxes on property of surviving spouses of members of the armed forces killed in action.

A. Pursuant to subdivision (b) of Section 6-A of Article X of the Constitution of Virginia, and for tax years beginning on or after January 1, 2015, the General Assembly hereby exempts from taxation the real property described in subsection B of the surviving spouse (i) of any member of the armed forces of the United States who was killed in action as determined by the U.S. Department of Defense and (ii) who occupies the real property as his principal place of residence. For purposes of this section, such determination of "killed in action" includes a determination by the U.S. Department of Defense of "died of wounds received in action." If such member of the armed forces of the United States is killed in action after January 1, 2015, and the surviving spouse has a qualified principal residence on the date that such member of the armed forces is killed in action, then the exemption for the surviving spouse shall begin on the date that such member of the armed forces is killed in action. However, no county, city, or town shall be liable for any interest on any refund due to the surviving spouse for taxes paid prior to the surviving spouse's filing of the affidavit or written statement required by § 58.1-3219.10. If the surviving spouse acquires the property after January 1, 2015, then the exemption shall begin on the date of acquisition, and the previous owner may be entitled to a refund for a pro rata portion of real property taxes paid pursuant to § 58.1-3360.
B. Those dwellings in the locality with assessed values in the most recently ended tax year that are not in excess of the average assessed value for such year of a dwelling situated on property that is zoned as single family residential shall qualify for a total exemption from real property taxes under this article. If the value of a dwelling is in excess of the average assessed value as described in this subsection, then only that portion of the assessed value in excess of the average assessed value shall be subject to real property taxes, and the portion of the assessed value that is not in excess of the average assessed value shall be exempt from real property taxes. Single family homes, condominiums, town homes, manufactured homes as defined in § 46.2-100 whether or not the wheels and other equipment previously used for mobility have been removed, and other types of dwellings of surviving spouses, whether or not the land on which the single family home, condominium, town home, manufactured home, or other type of dwelling of a surviving spouse is located is owned by someone other than the surviving spouse, that (i) meet this requirement and (ii) are occupied by such persons as their principal place of residence shall qualify for the real property tax exemption. If the land on which the single family home, condominium, town home, manufactured home, or other type of dwelling is located is not owned by the surviving spouse, then the land is not exempt.

For purposes of determining whether a dwelling, or a portion of its value, is exempt from county and town real property taxes, the average assessed value shall be such average for all dwellings located within the county that are situated on property zoned as single family residential.

C. The surviving spouse of a member of the armed forces killed in action shall qualify for the exemption so long as the surviving spouse does not remarry and continues to occupy the real property as his principal place of residence. The exemption applies without any restriction on the spouse's moving to a different principal place of residence.

D. A county, city, or town shall provide for the exemption from real property taxes (i) the qualifying dwelling, or the portion of the value of such dwelling and land that qualifies for the exemption pursuant to subsection B, and (ii) except land not owned by the surviving spouse, the land, not exceeding one acre, upon which it is situated. However, if a county, city, or town provides for an exemption from or deferral of real property taxes of more than one acre of land pursuant to Article 2 (§ 58.1-3210 et seq.), then the county, city, or town shall also provide an exemption for the same number of acres pursuant to this section. A real property improvement other than a dwelling, including the land upon which such improvement is situated, made to such one acre or greater number of acres exempt from taxation pursuant to this subsection shall also be exempt from taxation so long as the principal use of the improvement is (i) to house or cover motor vehicles or household goods and personal effects as classified in subdivision A 14 of § 58.1-3503 and as listed in § 58.1-3504 and (ii) for other than a business purpose.

E. For purposes of this exemption, real property of any surviving spouse of a member of the armed forces killed in action includes real property (i) held by a surviving spouse as a tenant for life, (ii) held in a revocable inter vivos trust over which the surviving spouse holds the power of revocation, or (iii) held in an irrevocable trust under which the surviving spouse possesses a life estate or enjoys a continuing right of use or support. The term does not include any interest held under a leasehold or term of years.

F. 1. In the event that (i) a surviving spouse is entitled to an exemption under this section by virtue of holding the property in any of the three ways set forth in subsection E and (ii) one or more other persons have an ownership interest in the property that permits them to occupy the property, then the tax exemption for the property that otherwise would have been provided shall be prorated by multiplying the amount of the exemption by a fraction that has 1 as a numerator and has as a denominator the total number of all people having an ownership interest that permits them to occupy the property.

2. In the event that the principal residence is jointly owned by two or more individuals including the surviving spouse, and no person is entitled to the exemption under this section by virtue of holding the property in any of the three ways set forth in subsection E, then the exemption shall be prorated by multiplying the amount of the exemption by a fraction that has as a numerator the percentage of ownership interest in the dwelling held by the surviving spouse, and as a denominator, 100 percent.

§ 58.1-3219.14. Exemption from taxes on property of surviving spouses of certain persons killed in the line of duty.

A. Pursuant to Article X, Section 6-B of the Constitution of Virginia, for tax years beginning on or after January 1, 2017, any county, city, or town may exempt from taxation the real property described in subsection B of the qualifying dwelling of any covered person who occupies the real property as his principal place of residence. If the covered person's death occurred on or prior to January 1, 2017, and the surviving spouse has a principal residence on January 1, 2017, eligible for the exemption under this section, then the exemption for the surviving spouse shall begin on January 1, 2017. If the covered person's death occurs after January 1, 2017, and the surviving spouse has a principal residence eligible for the exemption under this section on the date that such covered person dies, then the exemption for the surviving spouse shall begin on the date that such covered person dies. If the surviving spouse acquires the property after January 1, 2017, then the exemption shall begin on the date of acquisition, and the previous owner may be entitled to a refund for a pro rata portion of real property taxes paid pursuant to § 58.1-3360. No county, city, or town shall be liable for any interest on any refund due to the surviving spouse for taxes paid prior to the surviving spouse's filing of the affidavit or written statement required by § 58.1-3219.15.

B. Those dwellings, in any locality that provides the exemption pursuant to this article, with assessed values in the most recently ended tax year that are not in excess of the average assessed value for such year of a dwelling situated on property that is zoned as single-family residential shall qualify for a total exemption from real property taxes under this

Tax-credit-derived funds not used for such scholarships may only be used for the administrative expenses of the scholarship foundation. Any scholarship foundation that fails to meet such disbursement requirement shall, for the first offense, be required to pay a civil penalty equal to 200 percent of the difference between 90 percent of the value of the tax-credit-derived donations it received in the applicable 12-month period and the amount that was actually disbursed. Such civil penalty shall be remitted by the scholarship foundation to the Department of Education within 30 days after the end of the one-year period and deposited to the general fund. For a second offense within a five-year period, the scholarship foundation shall be removed from the annual list published pursuant to this section and shall not be entitled to request preauthorization for additional tax credits, nor shall it be entitled to receive and administer additional tax-credit-derived funds for two years. After two years, the scholarship foundation shall be eligible to reapply to be included on the annual list to receive and administer tax-credit derived funds. Such civil penalty shall be remitted by the scholarship foundation to the Department of Education by November 1 of the same year and deposited to the general fund. For a second offense within a five-year period, the scholarship foundation shall be removed from the annual list published pursuant to this section and shall not be entitled to request preauthorization for additional tax credits, nor shall it be entitled to receive and administer additional tax-credit-derived funds. After two years, the scholarship foundation shall be eligible to reapply to be included on the annual list to receive and administer tax-credit derived funds. If a scholarship foundation is authorized to be added to the annual list after such reapplication, the scholarship foundation shall not be considered to have any previous offenses for purposes of this subsection.

In mailing such scholarship payments, the eligible scholarship foundation shall include a written notice to the eligible school that the source of the scholarship was donations made by persons receiving tax credits for the same pursuant to this article.

Eligible schools shall compile the results of any national norm-referenced achievement test for each of its students or eligible students with a disability receiving tax-credit-derived scholarships and shall provide the respective parents or legal guardians of such students or eligible students with a disability with a copy of the results on an annual basis, beginning with the first year of testing of the student or eligible student with a disability. Such schools also shall annually provide to the Department of Education for each such student or eligible student with a disability the achievement test results, beginning with the first year of testing of the student or eligible student with a disability, and student information that would allow the Department to aggregate the achievement test results by grade level, gender, family income level, number of years of participation in the scholarship program, and race. Beginning with the third year of testing of each such student and test-related data collection, the Department of Education shall ensure that the achievement test results and associated learning gains are published on the Department of Education's website in accordance with such classifications and in an aggregate form as to prevent the identification of any student or eligible student with a disability. Eligible schools shall annually provide to the Superintendent of Public Instruction graduation rates of its students or eligible students with a disability participating in the scholarship program in a manner consistent with nationally recognized standards. In publishing and disseminating achievement test results and other information, the Superintendent of Public Instruction and the Department of Education shall ensure compliance with all student privacy laws.

The aggregate amount of scholarships provided to each student or eligible student with a disability who does not meet the requirements of subdivision 2 for any single school year by all eligible scholarship foundations from eligible donations shall not exceed the lesser of (i) the actual qualified educational expenses of the student or (ii) 100 percent of the per-pupil amount distributed to the local school division (in which the student resides) as the state's share of the standards of quality costs using the composite index of ability to pay as defined in the general appropriation act.

2. a. Except as provided in subdivision 1, the aggregate amount of scholarships provided to each eligible student with a disability for any single school year by all eligible scholarship foundations from eligible donations shall not exceed the lesser of (i) the actual qualified educational expenses of the student or (ii) 300 percent of the per pupil amount distributed to the local school division (in which the eligible student with a disability resides) as the state’s share of the standards of quality costs using the composite index of ability to pay as defined in the general appropriation act.

b. F. Scholarship foundations shall develop procedures for disbursing scholarships in quarterly or semester payments throughout the school year to ensure scholarships are portable.

G. Scholarship foundations that receive donations of marketable securities for which tax credits were issued under this article shall be required to sell such securities and convert the donation into cash immediately, but in no case more than 21 days after receipt of the donation.

H. Each scholarship foundation with total revenues (including the value of all donations) (i) in excess of $100,000 for the foundation's most recent fiscal year ended shall have an audit or review performed by an independent certified public accountant of the foundation's donations received in such year for which tax credits were issued under this article or (ii) of $100,000 or less for the foundation's most recent fiscal year ended shall have a compilation performed by an independent certified public accountant of the foundation's donations received in such year for which tax credits were issued under this article. Once a foundation has been qualified by the Department of Education, it shall remain qualified until the Department of Education upon request.

I. The Department of Education shall publish annually on its website a list of each scholarship foundation qualified under this article. Once a foundation has been qualified by the Department of Education, it shall remain qualified until the Department removes the foundation from its annual list. The Department of Education shall remove a foundation from the annual list if it no longer meets the requirements of this article. The Department of Education may periodically require a qualified foundation to submit updated or additional information for purposes of determining whether or not the foundation continues to meet the requirements of this article.

J. Actions of the Superintendent of Public Instruction or the Department of Education relating to the awarding of tax credits under this article and the qualification of scholarship foundations shall be exempt from the provisions of the Administrative Process Act (§ 2.2-4000 et seq.). Decisions of the Superintendent of Public Instruction or the Department of Education shall be final and not subject to review or appeal.

2. That the provisions of this act shall apply to taxable years beginning on and after January 1, 2019, but before January 1, 2024.

previously could have petitioned the Supreme Court for a writ of error under § 19.2-317. The Commonwealth may also petition the Court of Appeals for an appeal in a criminal case pursuant to § 19.2-398.

B. In accordance with other applicable provisions of law, appeals lie directly to the Supreme Court from a conviction in which a sentence of death is imposed, from a final decision, judgment or order of a circuit court involving a petition for a writ of habeas corpus, from any final finding, decision, order, or judgment of the State Corporation Commission, and from proceedings under §§ 54.1-3935 and 54.1-3937. The Court of Appeals shall not have jurisdiction over any cases or proceedings described in this subsection.

§ 17.1-410. Disposition of appeals; finality of decisions.
A. Each appeal of right taken to the Court of Appeals and each appeal for which a petition for appeal has been granted shall be considered by a panel of the court.

When the Court of Appeals has (i) rejected a petition for appeal, (ii) dismissed an appeal in any case in accordance with the Rules of Court, or (iii) decided an appeal, its decision shall be final, without appeal to the Supreme Court, in:

1. Traffic infraction and misdemeanor cases where no incarceration is imposed;
2. Cases originating before any administrative agency of the Virginia Workers' Compensation Commission;
3. Cases involving the affirmation or annulment of a marriage, divorce, custody, spousal or child support or the control or disposition of a juvenile and other domestic relations cases arising under Title 16.1 or Title 20, or involving adoption under Chapter 12 (§ 63.2-1200 et seq.) of Title 63.2;

Such finality of the Court of Appeals' decision shall not preclude a defendant, if he is convicted, from requesting the Court of Appeals or Supreme Court on direct appeal to reconsider an issue which was the subject of the pretrial appeal; and
5. Appeals involving involuntary treatment of prisoners pursuant to § 53.1-40.1 or 53.1-133.04.

B. Notwithstanding the provisions of subsection A, in any case other than an appeal pursuant to § 19.2-398, in which the Supreme Court determines on a petition for review that the decision of the Court of Appeals involves a substantial constitutional question as a determinative issue or matters of significant precedential value, review may be had in the Supreme Court in accordance with the provisions of § 17.1-411.

§ 37.2-803. Special justices to perform duties of judge.

The chief judge of each judicial circuit may appoint one or more special justices, for the purpose of performing the duties required of a judge by this chapter, Chapter 11 (§ 37.2-1100 et seq.), and §§ 16.1-69.28, 16.1-335 through 16.1-348, 19.2-169.6, 19.2-174.1, 19.2-182.9, 53.1-40.1, 53.1-40.2, and 53.1-40.9, and 53.1-133.04. Each special justice shall be a person licensed to practice law in the Commonwealth or a retired or substitute judge in good standing and shall have all the powers and jurisdiction conferred upon a judge. The special justice shall serve under the supervision and at the pleasure of the chief judge of the judicial circuit for a period of up to six years. The special justice may be reappointed and may serve additional periods of up to six years, at the pleasure of the chief judge. Within six months of appointment, each special justice appointed on or after January 1, 1996, shall complete a minimum training program prescribed by the Executive Secretary of the Supreme Court. Special justices shall collect the fees prescribed in this chapter for their service and shall retain those fees, unless the governing body of the county or city in which the services are performed provides for the payment of an annual salary for the services, in which case the fees shall be collected and paid into the treasury of that county or city.

§ 53.1-133.04. Medical and mental health treatment of prisoners incapable of giving consent.
A. The sheriff or administrator in charge of a local or regional correctional facility or his designee may petition the circuit court or any district court judge or any special justice, as defined in § 37.2-100, herein referred to as the court, of the county or city in which the prisoner is located for an order authorizing treatment of a prisoner confined in the local or regional correctional facility. Upon filing the petition, the petitioner or the court shall serve a certified copy of the petition to the person for whom treatment is sought and, if the identity and whereabouts of the person's next of kin are known, to the person's next of kin. The court shall authorize such treatment in a facility designated by the sheriff or administrator upon finding, on the basis of clear and convincing evidence, that the prisoner is incapable, either mentally or physically, of giving informed consent to such treatment; that the prisoner does not have a relevant advanced directive, guardian, or other substitute decision maker; that the proposed treatment is in the best interests of the prisoner and that the jail has sufficient medical and nursing resources available to safely administer the treatment and respond to any adverse side effects that might arise from the treatment. The facility designated for treatment by the sheriff or administrator may be located within a local or regional correctional facility if such facility is licensed to provide the treatment authorized by the court.

B. Prior to the court's authorization of such treatment, the court shall appoint an attorney to represent the interests of the prisoner. Evidence shall be presented concerning the prisoner's condition and proposed treatment, which evidence may, in the court's discretion and in the absence of objection by the prisoner or the prisoner's attorney, be submitted by affidavit.

C. Any order authorizing treatment pursuant to subsection A shall describe the treatment authorized and authorize generally such examinations, tests, medications, and other treatments as are in the best interests of the prisoner but may not authorize nontherapeutic sterilization, abortion, or psychosurgery. Such order shall require the licensed physician, psychiatrist, clinical psychologist, professional counselor, or clinical social worker acting within his area of expertise who is treating the prisoner to report to the court and the prisoner's attorney any change in the prisoner's condition resulting in restoration of the prisoner's capability to consent prior to completion of the authorized treatment and related services. Upon
receipt of such report, the court may enter such order withdrawing or modifying its prior authorization as it deems appropriate. Any petition or order under this section may be orally presented or entered, provided that a written order is subsequently executed.

D. Prior to authorizing treatment pursuant to this section, the court shall find that there is no available person with legal authority under the Health Care Decisions Act (§ 54.1-2981 et seq.) or under other applicable law to authorize the proposed treatment.

E. Any order of a judge under subsection A may be appealed de novo within 10 days to the circuit court for the jurisdiction where the prisoner is located, and any order of a circuit court hereunder, either originally or on appeal, may be appealed within 10 days to the Court of Appeals, which shall give such appeal priority and hear the appeal as soon as possible.

F. Whenever the director of any hospital or facility reasonably believes that treatment is necessary to protect the life, health, or safety of a prisoner, such treatment may be given during the period allowed for any appeal unless prohibited by order of a court of record wherein the appeal is pending.

G. Upon the advice of a licensed physician, psychiatrist, or clinical psychologist acting within his area of expertise who has attempted to obtain consent and upon a finding of probable cause to believe that a prisoner is incapable, due to any physical or mental condition, of giving informed consent to treatment and that the medical standard of care calls for testing, observation, or other treatment within the next 12 hours to prevent death, disability, or a serious irreversible condition, the court or, if the court is unavailable, a magistrate shall issue an order authorizing temporary admission of the prisoner to a hospital or other health care facility and authorizing such testing, observation, or other treatment. Such order shall expire after a period of 12 hours unless extended by the court as part of an order authorizing treatment under subsection A.

H. Any licensed health or mental health professional or licensed facility providing services pursuant to the court’s or magistrate’s authorization as provided in this section shall have no liability arising out of a claim to the extent that it is based on lack of consent to such services, except with respect to injury or death resulting from gross negligence or willful and wanton misconduct. Any such professional or facility providing services with the consent of the prisoner receiving treatment shall have no liability arising out of a claim to the extent that it is based on lack of capacity to consent, except with respect to injury or death resulting from gross negligence or willful and wanton misconduct, if a court or a magistrate has denied a petition hereunder to authorize such services and such denial was based on an affirmative finding that the prisoner was capable of making an informed decision regarding the proposed services.

I. Nothing in this section shall be deemed to limit or repeal any common law rule relating to consent for medical treatment or the right to apply or the authority conferred by any other applicable statute or regulation relating to consent.

§ 53.1-133.05. Place of hearing on medical or mental health treatment of prisoners incapable of giving consent; fees and expenses.

A. Any hearing held by a court pursuant to § 53.1-133.04 may be held in any courtroom available within the county or city wherein the prisoner is located or any appropriate place that may be made available by the sheriff or administrator in charge of a local or regional correctional facility and approved by the judge. Nothing herein shall be construed as prohibiting holding the hearing on the grounds of a correctional facility or a hospital or a facility for the care and treatment of individuals with mental illness.

B. Any special justice, as defined in § 37.2-100, and any district court substitute judge who presides over hearings pursuant to the provisions of § 53.1-133.04 shall receive a fee as provided in § 37.2-804 for each proceeding under § 53.1-133.04 and his necessary mileage. However, if a commitment hearing under § 19.2-169.6 and the proceeding under § 53.1-133.04 are combined for hearing or are heard on the same day, only one fee shall be allowed.

C. Every physician or clinical psychologist who is not regularly employed by the Commonwealth who is required to serve as a witness for the Commonwealth in any proceeding under § 53.1-133.04 shall receive a fee as provided in § 37.2-804. However, if a commitment hearing under § 19.2-169.6 and the proceeding under § 53.1-133.04 are combined for hearing or are heard on the same day, only one fee shall be allowed.

E. Except as hereinafter provided, all expenses incurred, including the fees, attendance, and mileage aforesaid, shall be paid by the Commonwealth. Any such fees, costs, and expenses incurred in connection with a proceeding under § 53.1-133.04, when paid by the Commonwealth, shall be recoverable by the Commonwealth from the prisoner who is the subject of the examination, hearing, or proceeding or from his estate. No such fees or costs shall be recovered, however, from the prisoner or his estate when no good cause for his admission exists or when the recovery would create an undue financial hardship.

There is hereby levied and imposed, in addition to all other taxes and fees now imposed by law, a tax upon the use or consumption of tangible personal property in this Commonwealth, or the storage of such property outside the Commonwealth for use or consumption in this Commonwealth, in the amount of 4.3 percent:

1. Of the cost price of each item or article of tangible personal property used or consumed in this Commonwealth. Tangible personal property that has been acquired for use outside this Commonwealth and subsequently becomes subject to the tax imposed hereunder shall be taxed on the basis of its cost price if such property is brought within this Commonwealth for use within six months of its acquisition; but if so brought within this Commonwealth six months or more after its acquisition, such property shall be taxed on the basis of the current market value (but not in excess of its cost price) of such property at the time of its first use within this Commonwealth. Such tax shall be based on such proportion of the cost price or current market value as the duration of time of use within this Commonwealth bears to the total useful life of such property (but it shall be presumed in all cases that such property will remain within this Commonwealth for the remainder of its useful life unless convincing evidence is provided to the contrary).

2. Of the cost price of each item or article of tangible personal property stored outside this Commonwealth for use or consumption in this Commonwealth.

3. A transaction taxed under § 58.1-603 shall not also be taxed under this section, nor shall the same transaction be taxed more than once under either section.

4. The use tax shall not apply with respect to the use of any article of tangible personal property brought into this Commonwealth by a nonresident individual, visiting in Virginia, for his personal use, while within this Commonwealth.

5. (Contingent repeal date — see note) The use tax shall not apply to out-of-state mail order catalog purchases totaling $100 or less during any calendar year.

§ 58.1-604. (Contingent effective date) Imposition of use tax.

There is hereby levied and imposed, in addition to all other taxes and fees now imposed by law, a tax upon the use or consumption of tangible personal property in this Commonwealth, or the storage of such property outside the Commonwealth for use or consummation in this Commonwealth, in the amount of three and one-half percent through midnight on July 31, 2004, and four percent beginning on and after August 1, 2004:

1. Of the cost price of each item or article of tangible personal property used or consumed in this Commonwealth. Tangible personal property which has been acquired for use outside this Commonwealth and subsequently becomes subject to the tax imposed hereunder shall be taxed on the basis of its cost price if such property is brought within this Commonwealth for use within six months of its acquisition; but if so brought within this Commonwealth six months or more after its acquisition, such property shall be taxed on the basis of the current market value (but not in excess of its cost price) of such property at the time of its first use within this Commonwealth. Such tax shall be based on such proportion of the cost price or current market value as the duration of time of use within this Commonwealth bears to the total useful life of such property (but it shall be presumed in all cases that such property will remain within this Commonwealth for the remainder of its useful life unless convincing evidence is provided to the contrary).

2. Of the cost price of each item or article of tangible personal property stored outside this Commonwealth for use or consumption in this Commonwealth.

3. A transaction taxed under § 58.1-603 shall not also be taxed under this section, nor shall the same transaction be taxed more than once under either section.

4. The use tax shall not apply with respect to the use of any article of tangible personal property brought into this Commonwealth by a nonresident individual, visiting in Virginia, for his personal use, while within this Commonwealth.

5. The use tax shall not apply to out-of-state mail order catalog purchases totaling $100 or less during any calendar year.
§ 58.1-605. (Contingent expiration date) To what extent and under what conditions cities and counties may levy local sales taxes; collection thereof by Commonwealth and return of revenue to each city or county entitled thereto.

A. No county, city or town shall impose any local general sales or use tax or any local general retail sales or use tax except as authorized by this section.

B. The council of any city and the governing body of any county may levy a general retail sales tax at the rate of one percent to provide revenue for the general fund of such city or county. Such tax shall be added to the rate of the state sales tax imposed by §§ 58.1-603 and 58.1-604 and shall be subject to all the provisions of this chapter and the rules and regulations published with respect thereto. No discount under § 58.1-622 shall be allowed on a local sales tax.

C. 1. The council of any city and the governing body of any county desiring to impose a local sales tax under this section may do so by the adoption of an ordinance stating its purpose and referring to this section, and providing that such ordinance shall be effective on the first day of a month at least 60 days after its adoption. A certified copy of such ordinance shall be forwarded to the Tax Commissioner so that it will be received within five days after its adoption.

2. Prior to any change in the rate of any local sales and use tax, the Tax Commissioner shall provide remote sellers with at least 30 days' notice. Any change in the rate of any local sales and use tax shall only become effective on the first day of a calendar quarter. Failure to provide notice pursuant to this section shall require the Commonwealth and the locality to apply the preceding effective rate until 30 days after notification is provided.

D. Any local sales tax levied under this section shall be administered and collected by the Tax Commissioner in the same manner and subject to the same penalties as provided for the state sales tax.

E. All local sales tax moneys collected by the Tax Commissioner under this section shall be paid into the state treasury to the credit of a special fund which is hereby created on the Comptroller's books under the name "Collections of Local Sales Taxes." Such local sales tax moneys shall be credited to the account of each particular city or county levying a local sales tax under this section. The basis of such credit shall be the city or county in which the sales were made as shown by the records of the Department and certified by it monthly to the Comptroller, namely, the city or county of location of each place of business of every dealer paying the tax to the Commonwealth without regard to the city or county of possible use by the purchasers. If a dealer has any place of business located in more than one political subdivision by reason of the boundary line or lines passing through such place of business, the amount of sales tax paid by such a dealer with respect to such place of business shall be treated for the purposes of this section as follows: one-half shall be assignable to each political subdivision where two are involved, one-third where three are involved, and one-fourth where four are involved.

F. As soon as practicable after the local sales tax moneys have been paid into the state treasury in any month for the preceding month, the Comptroller shall draw his warrant on the Treasurer of Virginia in the proper amount in favor of each city or county entitled to the monthly return of its local sales tax moneys, and such payments shall be charged to the account of each such city or county under the special fund created by this section. If errors are made in any such payment, or adjustments are otherwise necessary, whether attributable to refunds to taxpayers, or to some other fact, the errors shall be corrected and adjustments made in the payments for the next two months as follows: one-half of the total adjustment shall be included in the payments for the next two months. In addition, the payment shall include a refund of amounts erroneously not paid to the city or county and not previously refunded during the three years preceding the discovery of the error. A correction and adjustment in payments described in this subsection due to the misallocation of funds by the dealer shall be made within three years of the date of the payment error.

G. Such payments to counties are subject to the qualification that in any county wherein is situated any incorporated town constituting a special school district and operated as a separate school district under a town school board of three members appointed by the town council, the county treasurer shall pay into the town treasury for general governmental purposes the proper proportionate amount received by him in the ratio that the school age population of such town bears to the school age population of the entire county. If the school age population of any town constituting a separate school district is increased by the annexation of territory since the last estimate of school age population provided by the Weldon Cooper Center for Public Service, such increase shall, for the purposes of this section, be added to the school age population of such town as shown by the last such estimate and a proper reduction made in the school age population of the county or counties from which the annexed territory was acquired.

H. One-half of such payments to counties are subject to the further qualification, other than as set out in subsection G above, that in any county wherein is situated any incorporated town not constituting a separate special school district which has complied with its charter provisions providing for the election of its council and mayor for a period of at least four years immediately prior to the adoption of the sales tax ordinance, the county treasurer shall pay into the town treasury of each such town for general governmental purposes the proper proportionate amount received by him in the ratio that the school age population of such town bears to the school age population of the entire county, based on the latest estimate provided by the Weldon Cooper Center for Public Service. The preceding requirement pertaining to the time interval between compliance with election provisions and adoption of the sales tax ordinance shall not apply to a tier-city. If the school age population of any such town not constituting a separate special school district is increased by the annexation of territory or otherwise since the last estimate of school age population provided by the Weldon Cooper Center for Public Service, such increase shall, for the purposes of this section, be added to the school age population of such town as shown by the last such estimate and a proper reduction made in the school age population of the county or counties from which the annexed territory was acquired.
CH. 815 | ACTS OF ASSEMBLY | 1912

I. Notwithstanding the provisions of subsection H, the board of supervisors of a county may, in its discretion, appropriate funds to any incorporated town not constituting a separate school district within such county which has not complied with the provisions of its charter relating to the elections of its council and mayor, an amount not to exceed the amount it would have received from the tax imposed by this chapter if such election had been held.

J. It is further provided that if any incorporated town which would otherwise be eligible to receive funds from the county treasurer under subsection G or H of this section be located in a county which does not levy a general retail sales tax under the provisions of this law, such town may levy a general retail sales tax at the rate of one percent to provide revenue for the general fund of the town, subject to all the provisions of this section generally applicable to cities and counties. Any tax levied under the authority of this subsection shall in no case continue to be levied on or after the effective date of a county ordinance imposing a general retail sales tax in the county within which such town is located.

C. A dealer shall be deemed to have sufficient activity within the Commonwealth to require registration under § 58.1-613 if he it:

A dealer is presumed to have sufficient activity within the Commonwealth to require registration under § 58.1-612 (unless the presumption is rebutted as provided herein) if any commonly controlled person maintains a distribution center, warehouse, fulfillment center, office, or similar location within the Commonwealth that facilitates the delivery of tangible personal property sold by the dealer to its customers. The presumption in this subsection may be rebutted by demonstrating that the activities conducted by the commonly controlled person in the Commonwealth are not significantly associated with the dealer's ability to establish or maintain a market in the Commonwealth for the dealer's sales. For purposes of this subsection, a "commonly controlled person" means any person that is a member of the same "controlled group of corporations," as defined in § 1563(a) of the Internal Revenue Code of 1954, as amended or renumbered, as the dealer or any other entity that, notwithstanding its form of organization, bears the same ownership relationship to the dealer as a corporation that is a member of the same "controlled group of corporations," as defined in § 1563(a) of the Internal Revenue Code of 1954, as amended or renumbered.

E. Notwithstanding any other provision of this section, the following shall not be considered to determine whether a person who has contracted with a commercial printer for printing in the Commonwealth is a "dealer" and whether such person has sufficient contact with the Commonwealth to be required to register under § 58.1-613:

1. The ownership or leasing by that person of tangible or intangible property located at the Virginia premises of the commercial printer which is used solely in connection with the printing contract with the person;
2. The sale by that person of property of any kind printed at and shipped or distributed from the Virginia premises of the commercial printer;
3. Activities in connection with the printing contract with the person performed by or on behalf of that person at the Virginia premises of the commercial printer; and
4. Activities in connection with the printing contract with the person performed by the commercial printer within Virginia for or on behalf of that person.

F. In addition to the jurisdictional standards contained in subsections C and D, nothing contained herein (in this chapter other than in subsection E) shall limit any authority which that this Commonwealth may enjoy under the provisions of federal law or an opinion of the United States Supreme Court to require the collection of sales and use taxes by any dealer who regularly or systematically solicits sales within this Commonwealth. Furthermore, nothing contained in subsection C shall require any broadcaster, printer, outdoor advertising firm, advertising distributor, or publisher which broadcasts, publishes, or displays or distributes paid commercial advertising in this Commonwealth which is intended to be disseminated primarily to consumers located in this Commonwealth to report or impose any liability to pay any tax imposed under this chapter solely because such broadcaster, printer, outdoor advertising firm, advertising distributor, or publisher accepted such advertising contracts from out-of-state advertisers or sellers.

G. (Contingent effective date) Pursuant to any federal legislation that grants states the authority to require remote sellers to collect sales and use tax, the Commonwealth is authorized, as permitted by such federal legislation, to require collection of sales and use tax by any remote seller, or a single or consolidated provider acting on behalf of a remote seller, for sales made by all persons related within the meanings of subsections (b) and (c) of § 267 or § 707(b)(1) of the Internal Revenue Code of 1986, but only if such seller, even if such seller would not have been required to collect and remit sales and use tax had the sale not been made through such marketplace.

§ 58.1-612.1. Tax collectible from marketplace facilitators; "marketplace facilitator" defined.
A. As used in this chapter:
"Marketplace facilitator" means a person that contracts with a marketplace seller to facilitate, for consideration and regardless of whether such consideration is deducted as fees from transactions, the sale of such marketplace seller's products through a physical or electronic marketplace operated by such person. "Marketplace facilitator" does not include a payment processor business appointed by a merchant to handle payment transactions from various channels, such as credit cards and debit cards, and whose sole activity with respect to marketplace sales is to handle transactions between two parties. "Marketplace facilitator" does not include a platform or forum that exclusively provides internet advertising services, including any advertisements that may list products for sale, so long as such platform or forum does not also engage directly or indirectly through one or more commonly controlled persons, as defined in subsection D of § 58.1-612, in the activities described in subsection C.

"Marketplace seller" means a person that is not a commonly controlled person, as defined in subsection D of § 58.1-612, to a marketplace facilitator and that makes sales through any physical or electronic marketplace operated by such marketplace facilitator, even if such seller would not have been required to collect and remit sales and use tax had the sale not been made through such marketplace.

B. The tax levied under this chapter shall be collectible from all persons that are marketplace facilitators that have sufficient contact with Virginia to require registration under subsection C.

C. A marketplace facilitator shall be deemed to have sufficient activity within the Commonwealth to require registration under § 58.1-613 if it meets at least one requirement in each of subdivisions 1, 2, and 3:
1. It engages, either directly or indirectly, through a commonly controlled person as defined in subsection D of § 58.1-612 in any of the following activities:
   a. Transmitting or communicating an offer or acceptance between a purchaser and a marketplace seller;
b. Owning or operating the infrastructure, whether electronic or physical, or technology that brings purchasers and marketplace sellers together; or
c. Providing a virtual currency that purchasers are allowed or required to use to purchase products from the marketplace seller;
2. It engages in any of the following activities with respect to a marketplace seller’s products:
   a. Payment processing;
   b. Fulfillment or storage;
   c. Listing products for sale;
   d. Setting prices;
   e. Branding sales as those of the marketplace facilitator; or
   f. Providing customer service or accepting or assisting with returns or exchanges; and
3. It establishes economic nexus through either of the following activities:
   a. Facilitating sales in Virginia that, in the aggregate, generate more than $100,000 in gross revenue, or other minimum amount as may be required by federal law, for such marketplace facilitator. A marketplace facilitator may exceed this threshold based on sales for either the previous or current calendar year. In determining the amount of a marketplace facilitator’s gross revenues, the sales made by all commonly controlled persons, as defined in subsection D of § 58.1-612, shall be aggregated; or
   b. Facilitating 200 or more separate retail sale transactions, or other minimum amount as may be required by federal law, in the Commonwealth in the previous or current calendar year. In determining the total number of retail sales transactions attributable to a marketplace facilitator, the sales made by all commonly controlled persons, as defined in subsection D of § 58.1-612, shall be aggregated.
   D. 1. A marketplace facilitator shall be considered a dealer for purposes of this chapter and shall collect the tax imposed by this chapter on all transactions that it facilitates through its marketplace.
   2. No marketplace seller shall collect sales and use tax on a transaction made through a marketplace facilitator’s marketplace.
3. Notwithstanding the provisions of subdivisions 1 and 2, the Department shall allow for a waiver from the requirements of subdivisions 1 and 2 if a marketplace facilitator demonstrates, to the satisfaction of the Commissioner, that either (i) all of its marketplace sellers already are registered dealers under § 58.1-613 or (ii) the marketplace seller has sufficient nexus to require registration under § 58.1-613 and that collection of the tax by the marketplace facilitator for such marketplace seller would create an undue burden or hardship for either party. If such waiver is granted, the tax levied under this chapter shall be collectible from the marketplace seller. The Department shall develop guidelines that establish (a) the criteria for obtaining a waiver pursuant to this section, (b) the process and procedure for a marketplace facilitator to apply for a waiver; and (c) the process for providing notice to an affected marketplace facilitator and marketplace seller of a waiver obtained pursuant to this subdivision.
   E. A marketplace facilitator shall be relieved from liability, including penalties and interest, for the incorrect collection or remittance of sales and use tax on transactions it facilitates or for which it is the seller if the error is due to reasonable reliance on (i) an invalid exemption certificate provided by the marketplace seller or the purchaser; (ii) incorrect or insufficient information provided by the Commonwealth; or (iii) incorrect or insufficient information provided by the marketplace seller or purchaser regarding the tax classification or proper sourcing of an item or transaction, provided that the marketplace facilitator can demonstrate it made a reasonable effort to obtain accurate information from the marketplace seller or purchaser. The relief from liability afforded to the marketplace facilitator pursuant to this subsection shall not exceed the total amount of tax due from the marketplace facilitator on the incorrect transaction independent of any penalties or interest that would have otherwise applied. Any deficiency resulting from incorrect information provided by the marketplace seller or as the result of an audit shall be the liability of the marketplace seller.
   F. A marketplace facilitator is the sole entity subject to audit by the Department for sales and use tax collection for all transactions facilitated by the marketplace facilitator unless (i) the marketplace facilitator can demonstrate that its failure to collect the proper tax was due to incorrect information provided by the marketplace seller or (ii) the marketplace seller is subject to a waiver granted pursuant to subdivision D 3.
   G. If a marketplace facilitator lacks physical presence in the Commonwealth and has both facilitated and made direct sales into the Commonwealth, both types of sales shall be considered in determining whether it has established economic nexus.
   H. When a marketplace seller that is not otherwise required to register for the collection of the tax under any of the provisions contained in subdivisions C 1 through 9 of § 58.1-612 makes both direct sales and sales on a marketplace facilitator’s marketplace, only the marketplace seller’s direct sales shall be considered in determining whether the marketplace seller is required to register for the collection of the tax under subdivision C 10 or 11 of § 58.1-612.
   I. No class action shall be brought against a marketplace facilitator in any court of the Commonwealth on behalf of customers arising from or in any way related to an overpayment of sales and use tax collected on sales facilitated by the marketplace facilitator; regardless of whether such claim is characterized as a tax refund claim. Nothing in this subsection shall affect a customer’s right to seek a refund on an individual basis.
§ 58.1-615. (Contingent expiration date) Returns by dealers.
A. Every dealer required to collect or pay the sales or use tax shall, on or before the twentieth day of the month following the month in which the tax shall become effective, transmit to the Tax Commissioner a return showing the gross sales, gross proceeds, or cost price, as the case may be, arising from all transactions taxable under this chapter during the preceding calendar month, and thereafter a like return shall be prepared and transmitted to the Tax Commissioner by every dealer on or before the twentieth day of each month, for the preceding calendar month. In the case of dealers regularly keeping books and accounts on the basis of an annual period which varies 52 to 53 weeks, the Tax Commissioner may make rules and regulations for reporting consistent with such accounting period.

Notwithstanding any other provision of this chapter, a dealer may be required by the Tax Commissioner to file sales or use tax returns on an accounting period less frequent than monthly when, in the opinion of the Tax Commissioner, the administration of the taxes imposed by this chapter would be enhanced. If a dealer is required to file other than monthly, each such return shall be due on or before the twentieth day of the month following the close of the period. Each such return shall contain all information required for monthly returns.

A sales or use tax return shall be filed by each registered dealer even though the dealer is not liable to remit to the Tax Commissioner any tax for the period covered by the return.

The Tax Commissioner shall not require that more than one sales and use tax return per month be filed with the Department by any remote seller or any software provider on behalf of such remote seller.
B. [Expired.]

C. Any return required to be filed with the Tax Commissioner under this section shall be deemed to have been filed with the Tax Commissioner on the date that such return is delivered by the dealer to the commissioner of the revenue or the treasurer for the locality in which the dealer is located and receipt is acknowledged by the commissioner of the revenue or treasurer. The commissioner of the revenue or the treasurer shall stamp such date on the return, and shall mail the return to the Tax Commissioner no later than the following business day. The commissioner of the revenue or the treasurer may collect from the dealer the cost of postage for such mailing.

D. Every dealer who elects to file a consolidated sales tax return for any taxable period and who is required to remit payment by electronic funds transfer pursuant to subsection B of § 58.1-202.1 beginning on and after July 1, 2010, shall file its monthly return using an electronic medium prescribed by the Tax Commissioner. A waiver of this requirement may be granted if the Tax Commissioner determines that it creates an unreasonable burden on the dealer.

A. The tax levied by this chapter shall be paid by the dealer, but the dealer shall separately state the amount of the tax and add such tax to the sales price or charge. Thereafter, such tax shall be a debt from the purchaser, consumer, or lessee to the dealer until paid and shall be recoverable at law in the same manner as other debts. No action at law or suit in equity under this chapter may be maintained in this Commonwealth by any dealer who is not registered under § 58.1-613 or is delinquent in the payment of the taxes imposed under this chapter.

B. Notwithstanding any exemption from taxes which any dealer now or hereafter may enjoy under the Constitution or laws of this or any other state, or of the United States, such dealer shall collect such tax from the purchaser, consumer, or lessee and shall pay the same over to the Tax Commissioner as herein provided.

C. Any dealer collecting the sales or use tax on transactions exempt or not taxable under this chapter shall transmit to the Tax Commissioner such erroneously or illegally collected tax unless or until he is required to refund the same to the person who remitted the tax. Such person shall be entitled to recover the tax, with interest, from any dealer who collected the tax, but the Tax Commissioner may collect the tax from the dealer on or before the twenty-first day of each month, for the preceding calendar month. In the case of dealers regularly keeping books and accounts on the basis of an annual period which varies 52 to 53 weeks, the Tax Commissioner may make rules and regulations for reporting consistent with such accounting period.

D. 1. Any dealer who neglects, fails, or refuses to collect such tax upon every taxable sale, distribution, lease, or storage of tangible personal property made by him, his agents, or employees shall be liable for and pay the tax himself, and such dealer shall not thereafter be entitled to sue for or recover in this Commonwealth any part of the purchase price or rental from the purchaser until such tax is paid. Moreover, any dealer who neglects, fails, or refuses to pay or collect the tax herein provided, either by himself or through his agents or employees, shall be guilty of a Class 1 misdemeanor.

2. Notwithstanding subdivision 1, any remote seller or marketplace facilitator that has collected an incorrect amount of sales and use tax shall be relieved from liability for such amount, including any penalty or interest, if the error is a result of the remote seller’s or marketplace facilitator’s reasonable reliance on information provided by the Commonwealth.

E. [Contingent effective date] Notwithstanding subsection D, any remote seller, single provider, or consolidated provider who has collected an incorrect amount of sales or use tax shall be relieved from liability for such additional amount, including any penalty or interest, if collection of the improper amount is a result of the remote seller, single provider, or consolidated provider’s reasonable reliance upon information provided by the Commonwealth, including, but not limited to, any information obtained from software provided by the Department of Taxation pursuant to subsection B of § 58.1-604.

F. All sums collected by a dealer as required by this chapter shall be deemed to be held in trust for the Commonwealth.

G. [Contingent effective date] Notwithstanding the foregoing provisions of this section, any dealer is authorized during the period of time set forth in §§ 58.1-611.2 and 58.1-611.3 or subdivision 18 of § 58.1-609.1 not to collect the tax levied by this chapter or levied under the authority granted in §§ 58.1-605 and 58.1-606 from the purchaser, and to absorb such tax itself. A dealer electing to absorb such taxes shall be liable for payment of such taxes to the Tax Commissioner in the same manner as if it is for tax collected from a purchaser pursuant to this section.
A. The tax levied by this chapter shall be paid by the dealer, but the dealer shall separately state the amount of the tax and add such tax to the sales price or charge. Thereafter, such tax shall be a debt from the purchaser, consumer, or lessee to the dealer until paid and shall be recoverable at law in the same manner as other debts. No action at law or suit in equity under this chapter may be maintained in this Commonwealth by any dealer who that is not registered under § 58.1-613 or is delinquent in the payment of the taxes imposed under this chapter.

B. Notwithstanding any exemption from taxes which any dealer now or hereafter may enjoy under the Constitution or laws of this or any other state, or of the United States, such dealer shall collect such tax from the purchaser, consumer, or lessee and shall pay the same over to the Tax Commissioner as herein provided.

C. Any dealer collecting the sales or use tax on transactions exempt or not taxable under this chapter shall transmit to the Tax Commissioner such erroneously or illegally collected tax unless or until he it can affirmatively show that the tax has since been refunded to the purchaser or credited to its his account.

D. 1. Any dealer who that neglects, fails, or refuses to collect such tax upon every taxable sale, distribution, lease, or storage of tangible personal property made by him it, its his agents, or employees shall be liable for and pay the tax himself itself, and such dealer shall not thereafter be entitled to sue for or recover in this Commonwealth any part of the purchase price or rental from the purchaser until such tax is paid. A correction and adjustment in payments described in this subsection due to the misallocation of funds by the dealer shall be made within three years of the date of the payment error.

G. Such payments to counties are subject to the qualification that in any county wherein is situated any incorporated town constituting a special school district and operated as a separate school district under a town school board of three members appointed by the town council, the county treasurer shall pay into the town treasury for general governmental purposes the proper proportionate amount received by him in the ratio that the school age population of such town bears to the school age population of the entire county. If the school age population of any town constituting a separate school district is increased by the annexation of territory since the last estimate of school age population provided by the Weldon Cooper Center for Public Service, such increase shall, for the purposes of this section, be added to the school age population of such town as shown by the last such estimate and a proper reduction made in the school age population of the county or counties from which the annexed territory was acquired.

H. One-half of such payments to counties are subject to the further qualification, other than as set out in subsection G above, that in any county wherein is situated any incorporated town not constituting a separate special school district which has complied with its charter provisions providing for the election of its council and mayor for a period of at least four years immediately prior to the adoption of the sales tax ordinance, the county treasurer shall pay into the town treasury of each such town for general governmental purposes the proper proportionate amount received by him in the ratio that the school age population of each such town bears to the school age population of the entire county, based on the latest estimate provided by the Weldon Cooper Center for Public Service. The preceding requirement pertaining to the time interval between compliance with election provisions and adoption of the sales tax ordinance shall not apply to a tier-city. If the school age population of any such town not constituting a separate special school district is increased by the annexation of territory or otherwise since the last estimate of school age population provided by the Weldon Cooper Center for Public Service, such increase shall, for the purposes of this section, be added to the school age population of such town as shown by the last such estimate and a proper reduction made in the school age population of the county or counties from which the annexed territory was acquired.

I. Notwithstanding the provisions of subsection H, the board of supervisors of a county may, in its discretion, appropriate funds to any incorporated town not constituting a separate school district within such county which has not complied with the provisions of its charter relating to the elections of its council and mayor, an amount not to exceed the amount it would have received from the tax imposed by this chapter if such election had been held.

J. It is further provided that if any incorporated town which would otherwise be eligible to receive funds from the county treasurer under subsection G or H of this section be located in a county which does not levy a general retail sales tax under the provisions of this law, such town may levy a general retail sales tax at the rate of one percent to provide revenue for the general fund of the town, subject to all the provisions of this section generally applicable to cities and counties. Any tax levied under the authority of this subsection shall in no case continue to be levied on or after the effective date of a county ordinance imposing a general retail sales tax in the county within which such town is located.

§ 58.1-612. Tax collectible from dealers; "dealer" defined; jurisdiction.

A. The tax levied by §§ 58.1-603 and 58.1-604 shall be collectible from all persons who that are dealers, as hereinafter defined in this section, and who have sufficient contact with the Commonwealth to qualify under (i) subsections (ii) B and C or (ii) subsections B and D.

B. The term "dealer," as used in this chapter, shall include "dealer" includes every person who that:

1. Manufactures or produces tangible personal property for sale at retail, for use, consumption, or distribution, or for storage to be used or consumed in this Commonwealth;
2. Imports or causes to be imported into this Commonwealth tangible personal property from any state or foreign country, for sale at retail, for use, consumption, or distribution, or for storage to be used or consumed in this Commonwealth;

3. Sells at retail, or who that offers for sale at retail, or who that has in his its possession for sale at retail, or for use, consumption, or distribution, or for storage to be used or consumed in this Commonwealth, tangible personal property;

4. Has sold at retail, used, consumed, distributed, or stored for use or consumption in this Commonwealth, tangible personal property and who that cannot prove that the tax levied by this chapter has been paid on the sale at retail, the use, consumption, distribution, or storage of such tangible personal property;

5. Leases or rents tangible personal property for a consideration, permitting the use or possession of such property without transferring title thereto;

6. Is the lessee or rentee of tangible personal property and who that pays to the owner of such property a consideration for the use or possession of such property without acquiring title thereto;

7. As a representative, agent, or solicitor, of an out-of-state principal, solicits, receives and accepts orders from persons in this Commonwealth for future delivery and whose principal refuses to register as a dealer under § 58.1-613; or

8. Becomes liable to and owes this Commonwealth any amount of tax imposed by this chapter, whether it holds, or is required to hold, a certificate of registration under § 58.1-613.

C. A dealer shall be deemed to have sufficient activity within the Commonwealth to require registration under § 58.1-613 if it is:

1. Maintains or has within this Commonwealth, directly or through an agent or subsidiary, an office, warehouse, or place of business of any nature;

2. Solicits business in this Commonwealth by employees, independent contractors, agents or other representatives;

3. Advertises in newspapers or other periodicals printed and published within this Commonwealth, on billboards or posters located in this Commonwealth, or through materials distributed in this Commonwealth by means other than the United States mail;

A person shall be deemed to be making regular deliveries hereunder if vehicles other than those operated by a common carrier enter this Commonwealth more than 12 times during a calendar year to deliver goods sold by him;

5. Solicits business in this Commonwealth on a continuous, regular, seasonal, or systematic basis by means of advertising that is broadcast or relayed from a transmitter within this Commonwealth or distributed from a location within this Commonwealth;

6. Solicits business in this Commonwealth by mail, if the solicitations are continuous, regular, seasonal, or systematic and if the dealer benefits from any banking, financing, debt collection, or marketing activities occurring in this Commonwealth or benefits from the location in this Commonwealth of authorized installation, servicing, or repair facilities;

7. Is owned or controlled by the same interests which own or control a business located within this Commonwealth;

8. Has a franchisee or licensee operating under the same trade name within this Commonwealth or distributed from a location within this Commonwealth;

9. Owns tangible personal property that is for sale located in this Commonwealth, or that is rented or leased to a consumer in this Commonwealth, or offers tangible personal property, on approval, to consumers in this Commonwealth;

10. Receives more than $100,000 in gross revenue, or other minimum amount as may be required by federal law, from retail sales in the Commonwealth in the previous or current calendar year, provided that in determining the amount of a dealer's gross revenues, the sales made by all commonly controlled persons as defined in subsection D shall be aggregated; or

11. Engages in 200 or more separate retail sales transactions, or other minimum amount as may be required by federal law, in the Commonwealth in the previous or current calendar year, provided that in determining the total number of a dealer's retail sales transactions, the sales made by all commonly controlled persons as defined in subsection D shall be aggregated.

D. A dealer is presumed to have sufficient activity within the Commonwealth to require registration under § 58.1-613 (unless the presumption is rebutted as provided herein) if any commonly controlled person maintains a distribution center, warehouse, fulfillment center, office, or similar location within the Commonwealth that facilitates the delivery of tangible personal property sold by the dealer to its customers. The presumption in this subsection may be rebutted by demonstrating that the activities conducted by the commonly controlled person in the Commonwealth are not significantly associated with the dealer's ability to establish or maintain a market in the Commonwealth for the dealer's sales. For purposes of this subsection, a "commonly controlled person" means any person that is a member of the same "controlled group of corporations," as defined in § 1563(a) of the Internal Revenue Code of 1954, as amended or renumbered, as the dealer or any other entity that, notwithstanding its form of organization, bears the same ownership relationship to the dealer as a corporation that is a member of the same "controlled group of corporations," as defined in § 1563(a) of the Internal Revenue Code of 1954, as amended or renumbered.

E. Notwithstanding any other provision of this section, the following shall not be considered to determine whether a person who that has contracted with a commercial printer for printing in the Commonwealth is a "dealer" and whether such person has sufficient contact with the Commonwealth to be required to register under § 58.1-613:

1. The ownership or leasing by that person of tangible or intangible property located at the Virginia premises of the commercial printer which is used solely in connection with the printing contract with the person;
2. The sale by that person of property of any kind printed at and shipped or distributed from the Virginia premises of the commercial printer;
3. Activities in connection with the printing contract with the person performed by or on behalf of that person at the Virginia premises of the commercial printer; and
4. Activities in connection with the printing contract with the person performed by the commercial printer within Virginia for or on behalf of that person.

F. In addition to the jurisdictional standards contained in subsections C and D, nothing contained herein (in this chapter other than in subsection E) shall limit any authority which that this Commonwealth may enjoy under the provisions of federal law or an opinion of the United States Supreme Court to require the collection of sales and use taxes by any dealer who that regularly or systematically solicits sales within this Commonwealth. Furthermore, nothing contained in subsection C shall require any broadcaster, printer, outdoor advertising firm, advertising distributor, or publisher which broadcasts, publishes, or displays or distributes paid commercial advertising in this Commonwealth which is intended to be disseminated primarily to consumers located in this Commonwealth to report or impose any liability to pay any tax imposed under this chapter solely because such broadcaster, printer, outdoor advertising firm, advertising distributor, or publisher accepted such advertising contracts from out-of-state advertisers or sellers.

G. (Contingent effective date) Pursuant to any federal legislation that grants states the authority to require remote sellers to collect sales and use tax, the Commonwealth is authorized, as permitted by such federal legislation, to require collection of sales and use tax by any remote seller, or a single or consolidated provider acting on behalf of a remote seller. If the federal legislation has an exemption for sellers whose sales are less than a minimum amount, then in determining such amount, the sales made by all persons related within the meanings of subsections (b) and (c) of § 267 or § 702(b)(1) of the Internal Revenue Code of 1986 shall be aggregated.

§ 58.1-612.1. Tax collectible from marketplace facilitators; "marketplace facilitator" defined.
A. As used in this chapter:
"Marketplace facilitator" means a person that contracts with a marketplace seller to facilitate, for consideration and regardless of whether such consideration is deducted as fees from transactions, the sale of such marketplace seller's products through a physical or electronic marketplace operated by such person. "Marketplace facilitator" does not include a payment processor business appointed by a merchant to handle payment transactions from various channels, such as credit cards and debit cards, and whose sole activity with respect to marketplace sales is to handle transactions between two parties. "Marketplace facilitator" does not include a platform or forum that exclusively provides internet advertising services, including any advertisements that may list products for sale, so long as such platform or forum does not also engage directly or indirectly through one or more commonly controlled persons, as defined in subsection D of § 58.1-612, in the activities described in subsection C.

"Marketplace seller" means a person that is not a commonly controlled person, as defined in subsection D of § 58.1-612, to a marketplace facilitator and that makes sales through any physical or electronic marketplace operated by such marketplace facilitator, even if such seller would not have been required to collect and remit sales and use tax had the sale not been made through such marketplace.

B. The tax levied under this chapter shall be collectible from all persons that are marketplace facilitators that have sufficient contact with Virginia to require registration under subsection C.

C. A marketplace facilitator shall be deemed to have sufficient activity within the Commonwealth to require registration under § 58.1-613 if it meets at least one requirement in each of subdivisions 1, 2, and 3:
1. It engages, either directly or indirectly, through a commonly controlled person as defined in subsection D of § 58.1-612 in any of the following activities:
a. Transmitting or communicating an offer or acceptance between a purchaser and a marketplace seller;
b. Owning or operating the infrastructure, whether electronic or physical, or technology that brings purchasers and marketplace sellers together; or
c. Providing a virtual currency that purchasers are allowed or required to use to purchase products from the marketplace seller;
2. It engages in any of the following activities with respect to a marketplace seller's products:
a. Payment processing;
b. Fulfillment or storage;
c. Listing products for sale;
d. Setting prices;
e. Branding sales as those of the marketplace facilitator; or
f. Providing customer service or accepting or assisting with returns or exchanges; and
3. It establishes economic nexus through either of the following activities:
a. Facilitating sales in Virginia that, in the aggregate, generate more than $100,000 in gross revenue, or other minimum amount as may be required by federal law, for such marketplace facilitator. A marketplace facilitator may exceed this threshold based on sales for either the previous or current calendar year. In determining the amount of a marketplace facilitator's gross revenues, the sales made by all commonly controlled persons, as defined in subsection D of § 58.1-612, shall be aggregated; or
b. Facilitating 200 or more separate retail sale transactions, or other minimum amount as may be required by federal law, in the Commonwealth in the previous or current calendar year. In determining the total number of retail sales transactions attributable to a marketplace facilitator, the sales made by all commonly controlled persons, as defined in subsection D of § 58.1-612, shall be aggregated.

D. 1. A marketplace facilitator shall be considered a dealer for purposes of this chapter and shall collect the tax imposed by this chapter on all transactions that it facilitates through its marketplace.

2. No marketplace seller shall collect sales and use tax on a transaction made through a marketplace facilitator’s marketplace.

3. Notwithstanding the provisions of subdivisions 1 and 2, the Department shall allow for a waiver from the requirements of subdivisions 1 and 2 if a marketplace facilitator demonstrates, to the satisfaction of the Commissioner, that either (i) all of its marketplace sellers already are registered dealers under § 58.1-613 or (ii) the marketplace seller has sufficient nexus to require registration under § 58.1-613 and that collection of the tax by the marketplace facilitator for such marketplace seller would create an undue burden or hardship for either party. If such waiver is granted, the tax levied under this chapter shall be collectible from the marketplace seller. The Department shall develop guidelines that establish (a) the criteria for obtaining a waiver pursuant to this section, (b) the process and procedure for a marketplace facilitator to apply for a waiver, and (c) the process for providing notice to an affected marketplace facilitator and marketplace seller of a waiver obtained pursuant to this subdivision.

E. A marketplace facilitator shall be relieved from liability, including penalties and interest, for the incorrect collection or remittance of sales and use tax on transactions it facilitates or for which it is the seller if the error is due to reasonable reliance on (i) an invalid exemption certificate provided by the marketplace seller or the purchaser; (ii) incorrect or insufficient information provided by the Commonwealth; or (iii) incorrect or insufficient information provided by the marketplace seller or purchaser regarding the tax classification or proper sourcing of an item or transaction, provided that the marketplace facilitator can demonstrate it made a reasonable effort to obtain accurate information from the marketplace seller or purchaser. The relief from liability afforded to the marketplace facilitator pursuant to this subsection shall not exceed the total amount of tax due from the marketplace facilitator on the incorrect transaction independent of any penalties or interest that would have otherwise applied. Any deficiency resulting from incorrect information provided by the marketplace seller or as the result of an audit shall be the liability of the marketplace seller.

F. A marketplace facilitator is the sole entity subject to audit by the Department for sales and use tax collection for all transactions facilitated by the marketplace facilitator unless (i) the marketplace facilitator can demonstrate that its failure to collect the proper tax was due to incorrect information provided by the marketplace seller or (ii) the marketplace seller is subject to a waiver granted pursuant to subdivision D 3.

G. If a marketplace facilitator lacks physical presence in the Commonwealth and has both facilitated and made direct sales into the Commonwealth, both types of sales shall be considered in determining whether it has established economic nexus.

H. When a marketplace seller that is not otherwise required to register for the collection of the tax under any of the provisions contained in subdivisions C 1 through 9 of § 58.1-612 makes both direct sales and sales on a marketplace facilitator’s marketplace, only the marketplace seller’s direct sales shall be considered in determining whether the marketplace seller is required to register for the collection of the tax under subdivision C 10 or 11 of § 58.1-612.

I. No class action shall be brought against a marketplace facilitator in any court of the Commonwealth on behalf of customers arising from or in any way related to an overpayment of sales and use tax collected on sales facilitated by the marketplace facilitator, regardless of whether such claim is characterized as a tax refund claim. Nothing in this subsection shall affect a customer’s right to seek a refund on an individual basis.

§ 58.1-615. (Contingent expiration date) Returns by dealers.

A. Every dealer required to collect or pay the sales or use tax shall, on or before the twentieth day of the month following the month in which the tax shall become effective, transmit to the Tax Commissioner a return showing the gross sales, gross proceeds, or cost price, as the case may be, arising from all transactions taxable under this chapter during the preceding calendar month, and thereafter a like return shall be prepared and transmitted to the Tax Commissioner by every dealer on or before the twentieth day of each month, for the preceding calendar month. In the case of dealers regularly keeping books and accounts on the basis of an annual period which varies 52 to 53 weeks, the Tax Commissioner may make rules and regulations for reporting consistent with such accounting period.

Notwithstanding any other provision of this chapter, a dealer may be required by the Tax Commissioner to file sales or use tax returns on an accounting period less frequent than monthly when, in the opinion of the Tax Commissioner, the administration of the taxes imposed by this chapter would be enhanced. If a dealer is required to file other than monthly, each such return shall be due on or before the twentieth day of the month following the close of the period. Each such return shall contain all information required for monthly returns.

A sales or use tax return shall be filed by each registered dealer even though the dealer is not liable to remit to the Tax Commissioner any tax for the period covered by the return.

The Tax Commissioner shall not require that more than one sales and use tax return per month be filed with the Department by any remote seller or any software provider on behalf of such remote seller.

B. [Expired.]
C. Any return required to be filed with the Tax Commissioner under this section shall be deemed to have been filed with the Tax Commissioner on the date that such return is delivered by the dealer to the commissioner of the revenue or the treasurer for the locality in which the dealer is located and receipt is acknowledged by the commissioner of the revenue or treasurer. The commissioner of the revenue or the treasurer shall stamp such date on the return, and shall mail the return to the Tax Commissioner no later than the following business day. The commissioner of the revenue or the treasurer may collect from the dealer the cost of postage for such mailing.

D. Every dealer who that elects to file a consolidated sales tax return for any taxable period and who that is required to remit payment by electronic funds transfer pursuant to subsection B of § 58.1-202.1 beginning on and after July 1, 2010, shall file his its monthly return using an electronic medium prescribed by the Tax Commissioner. A waiver of this requirement may be granted if the Tax Commissioner determines that it creates an unreasonable burden on the dealer.

A. The tax levied by this chapter shall be paid by the dealer, but the dealer shall separately state the amount of the tax and add such tax to the sales price or charge. Thereafter, such tax shall be a debt from the purchaser, consumer, or lessee to the dealer until paid and shall be recoverable at law in the same manner as other debts. No action at law or suit in equity under this chapter may be maintained in this Commonwealth by any dealer who is not registered under § 58.1-613 or is delinquent in the payment of the taxes imposed under this chapter.
B. Notwithstanding any exemption from taxes which any dealer now or hereafter may enjoy under the Constitution or laws of this or any other state, or of the United States, such dealer shall collect such tax from the purchaser, consumer, or lessee and shall pay the same over to the Tax Commissioner as herein provided.
C. Any dealer collecting the sales or use tax on transactions exempt or not taxable under this chapter shall transmit to the Tax Commissioner such erroneously or illegally collected tax unless or until he it can affirmatively show that the tax has since been refunded to the purchaser or credited to his its account.
D. 1. Any dealer who that elects to absorb any taxes which any dealer now or hereafter may enjoy under the Constitution or laws of this or any other state, or of the United States, shall be liable for payment of such taxes to the Tax Commissioner in the same manner as he itself is for tax collected from a purchaser pursuant to this section.
D. 2. Notwithstanding subdivision 1, any remote seller or marketplace facilitator that has collected an incorrect amount of sales and use tax shall be liable for payment of such tax unless or until he it can affirmatively show that the tax has since been refunded to the purchaser or credited to his its account.
E. (Contingent effective date) Notwithstanding subsection D, any remote seller, single provider, or consolidated provider who has collected an incorrect amount of sales and use tax shall be relieved from liability for such additional amount, including any penalty or interest, if collection of the improper amount is a result of the remote seller's or marketplace facilitator's reasonable reliance on information provided by the Commonwealth, including, but not limited to, any information obtained from software provided by the Department of Taxation pursuant to subsection B of § 58.1-604.

A. The tax levied by this chapter shall be paid by the dealer, but the dealer shall separately state the amount of the tax and add such tax to the sales price or charge. Thereafter, such tax shall be a debt from the purchaser, consumer, or lessee to the dealer until paid and shall be recoverable at law in the same manner as other debts. No action at law or suit in equity under this chapter may be maintained in this Commonwealth by any dealer who that is not registered under § 58.1-613 or is delinquent in the payment of the taxes imposed under this chapter.
B. Notwithstanding any exemption from taxes which any dealer now or hereafter may enjoy under the Constitution or laws of this or any other state, or of the United States, such dealer shall collect such tax from the purchaser, consumer, or lessee and shall pay the same over to the Tax Commissioner as herein provided.
C. Any dealer collecting the sales or use tax on transactions exempt or not taxable under this chapter shall transmit to the Tax Commissioner such erroneously or illegally collected tax unless or until he it can affirmatively show that the tax has since been refunded to the purchaser or credited to his its account.
D. 1. Any dealer who that elects to absorb any taxes which any dealer now or hereafter may enjoy under the Constitution or laws of this or any other state, or of the United States, shall be liable for payment of such taxes to the Tax Commissioner in the same manner as he itself is for tax collected from a purchaser pursuant to this section.
2. Notwithstanding subdivision 1, any remote seller or marketplace facilitator that has collected an incorrect amount of sales and use tax shall be relieved from liability for such amount, including any penalty or interest, if the error is a result of the remote seller’s or marketplace facilitator’s reasonable reliance on information provided by the Commonwealth.

E. (Contingent effective date — see Editor’s note) Notwithstanding subsection D, any remote seller, single provider, or consolidated provider who has collected an incorrect amount of sales or use tax shall be relieved from liability for such additional amount, including any penalty or interest, if collection of the improper amount is a result of the remote seller, single provider, or consolidated provider’s reasonable reliance upon information provided by the Commonwealth, including, but not limited to, any information obtained from software provided by the Department of Taxation pursuant to subsection B of § 58.1-601.

F. All sums collected by a dealer as required by this chapter shall be deemed to be held in trust for the Commonwealth.

F. Notwithstanding the foregoing provisions of this section, any dealer is authorized during the period of time set forth in § 58.1-611.2 not to collect the tax levied by this chapter or levied under the authority granted in §§ 58.1-605 and 58.1-606 from the purchaser, and to absorb such tax himself itself. A dealer electing to absorb such taxes shall be liable for payment of such taxes to the Tax Commissioner in the same manner as he it is for tax collected from a purchaser pursuant to this section.

§ 58.1-635. (Contingent expiration date) Failure to file return; fraudulent return; civil penalties.

A. When any dealer fails to make any return and pay the full amount of the tax required by this chapter, there shall be imposed, in addition to other penalties provided herein, a specific penalty to be added to the tax in the amount of six percent if the failure is for not more than one month, with an additional six percent for each additional month, or fraction thereof, during which the failure continues, not to exceed thirty percent in the aggregate. In no case, however, shall the penalty be less than ten dollars $10 and such minimum penalty shall apply whether or not any tax is due for the period for which such return was required. If such failure is due to providential or other good cause shown to the satisfaction of the Tax Commissioner, such return with or without remittance may be accepted exclusive of penalties. In the case of a false or fraudulent return where willful intent exists to defraud the Commonwealth of any tax due under this chapter, or in the case of a willful failure to file a return with the intent to defraud the Commonwealth of any such tax, a specific penalty of fifty 50 percent of the amount of the proper tax shall be assessed. All penalties and interest imposed by this chapter shall be payable by the dealer and collectible by the Tax Commissioner in the same manner as if they were a part of the tax imposed.

B. It shall be prima facie evidence of intent to defraud the Commonwealth of any tax due under this chapter when any dealer reports his its gross sales, gross proceeds or cost price, as the case may be, at fifty 50 percent or less of the actual amount.

C. Interest at a rate determined in accordance with § 58.1-15, shall accrue on the tax until the same is paid, or until an assessment is made, pursuant to § 58.1-15, after which interest shall accrue as provided therein.

D. Notwithstanding any other provision of this section, any remote seller or marketplace facilitator that has collected an incorrect amount of sales and use tax shall be relieved from liability for such amount, including any penalty or interest, if the error is a result of the remote seller’s or marketplace facilitator’s reasonable reliance on information provided by the Commonwealth.

3. That the fourth enactment of Chapter 766 of the Acts of Assembly of 2013 is amended and reenacted as follows:

4. That Article 22 (§§ 58.1-540 through 58.1-549) of Chapter 3 of Title 58.1 of the Code of Virginia, §§ 58.1-609.4 through 58.1-612, as it may become effective, 58.1-2289, as it may become effective, 58.1-2290, and 58.1-2701, as it may become effective, of the Code of Virginia and the second enactment of Chapter 822 of the Acts of Assembly of 2009, as amended by Chapter 535 of the Acts of Assembly of 2012, are repealed.

5. That nothing in this act shall be construed to appropriate or transfer any transportation revenues for nontransportation purposes pursuant to the twenty-second enactment of Chapter 896 of the Acts of Assembly of 2007 or the fourteenth enactment of Chapter 766 of the Acts of Assembly of 2013.

6. That the provisions of this act requiring remote sales and use tax collection by remote sellers and marketplace facilitators in the Commonwealth shall not apply to any retail sales transactions occurring before July 1, 2019; however, transactions occurring before July 1, 2019, may be included in the calculation of gross revenue or retail transactions pursuant to the provisions of subdivisions C 10 and 11 of § 58.1-612 of the Code of Virginia, as amended by this act. Upon the written application and for good cause shown, in order to ensure the accurate and timely collection of taxes due, the Department of Taxation may temporarily suspend or delay the collection or reporting requirements, or both, of a marketplace facilitator for a period not to exceed 90 days after collection is required.

7. That the Department of Taxation shall develop guidelines implementing the provisions of this act, including guidelines implementing the provisions of subsection D of § 58.1-612.1 of the Code of Virginia, as created by this act, creating a waiver. Such guidelines shall be exempt from the provisions of the Administrative Process Act (§ 2.2-4000 et seq. of the Code of Virginia).
8. That should any portion of this act be held unconstitutional by a court of competent jurisdiction, the remaining portions of this act shall remain in effect.

Upon receipt of a request for an expedited external review of an adverse determination, the independent review organization conducting the external review shall determine whether the covered person shall be required to complete the health carrier's expedited internal appeal process before it conducts the expedited external review. The independent review organization conducting the expedited external review shall promptly notify the covered person and his authorized representative, if any, of this determination, and either proceed with the expedited external review or wait until completion of the internal expedited appeal process.
D. A request for an external review of an adverse determination may be made before the covered person has exhausted the health carrier's internal appeal process whenever the health carrier agrees to waive the exhaustion requirement. If the exhaustion requirement is waived, the covered person or his authorized representative may file a request in writing for a standard external review.

C. Within one business day after completion of the preliminary review, the health carrier shall notify in writing the Commission, the covered person, and his authorized representative, if any, whether the request is complete and eligible for external review and, if ineligible, the reasons for ineligibility. If the request is not complete, the notice shall include what information or materials are needed to make the request complete. Such notice shall include a statement informing the covered person and his authorized representative, if any, that the health carrier's determination of ineligibility may be appealed to the Commission. If the health carrier makes an ineligibility determination, the Commission may determine that a request is eligible for external review and require that it be referred for external review. In making this determination, the Commission's decision shall be made in accordance with the terms of the covered person's health benefit plan and the requirements of subsection B.
D. Within one business day after the date of receipt of the notice described in subsection C, the Commission shall assign an independent review organization to conduct the external review and notify in writing the health carrier, the covered person, and his authorized representative, if any, of the request's eligibility and acceptance for external review and the name of the assigned independent review organization. The Commission shall include in such notice a statement that the covered person or his authorized representative may submit in writing to the assigned independent review organization, within five business days following the date of receipt, additional information that the independent review organization shall consider when conducting the external review.
E. Within five business days after the date of receipt of the notice from the Commission, the health carrier or its designee utilization review entity shall provide to the assigned independent review organization the documents and any information considered in making the adverse determination or final adverse determination. Failure by the health carrier or its utilization review entity to provide the documents and information within the time specified shall not delay the conduct of the external review. If the health carrier or its utilization review entity fails to provide the documents and information within the time specified, the assigned independent review organization may terminate the external review and make a decision to reverse the adverse determination or final adverse determination. Within one business day after making such
decision, the independent review organization shall notify the covered person, his authorized representative, if any, the
health carrier, and the Commission.

F. The assigned independent review organization shall review all of the information and documents timely received
from the health carrier and any other information submitted in writing by the covered person or his authorized
representative. The independent review organization is not required to, but may, accept and consider information submitted
late from the covered person or his authorized representative, if any. Upon receipt of any information submitted by the
covered person or his authorized representative, the assigned independent review organization shall within one business day
forward the information to the health carrier.

G. Upon receipt of the information from the assigned independent review organization, the health carrier may
reconsider its adverse determination or final adverse determination. Reconsideration by the health carrier of its adverse
determination or final adverse determination shall not delay or terminate the external review. The external review may only
be terminated if the health carrier decides to reverse its adverse determination or final adverse determination and provide
coverage or payment for the health care service. Within one business day after making the decision to reverse its adverse
determination or final adverse determination, the health carrier shall notify the covered person, his authorized
representative, if any, the assigned independent review organization, and the Commission in writing of its decision. Upon
receipt of the notice of the health carrier's decision to reverse its adverse determination or final adverse determination, the
assigned independent review organization shall terminate the external review.

H. The assigned independent review organization, to the extent the information or documents are available and the
independent review organization considers them appropriate, shall also consider the following in reaching a decision:

1. The covered person's medical records;
2. The attending health care professional's recommendation;

covered person, his authorized representative, or the covered person's treating provider;

5. The most appropriate practice guidelines, which shall include applicable evidence-based standards and may include
any other practice guidelines developed by the federal government or national or professional medical societies, boards, and
associations;
6. Any applicable clinical review criteria developed and used by the health carrier or its designee utilization review
entity; and
7. The opinion of the independent review organization's clinical reviewer or reviewers after considering the
information or documents described in subdivisions 1 through 6 to the extent the information or documents are available and
the clinical reviewer or reviewers consider appropriate.

In reaching a decision, the assigned independent review organization shall not be bound by any decisions or
conclusions reached during the health carrier's utilization review process or the internal appeal process.

I. Within 45 days after the date of receipt of the request for an external review, the assigned independent review
organization shall provide written notice of its decision to uphold or reverse the adverse determination or the final adverse
determination to the covered person, his authorized representative, if any, the health carrier, and the Commission. The

Commission at the time the covered person receives:

maximum function, and the covered person or his authorized representative has filed a request for an expedited internal
appeal of the adverse determination; or
2. A final adverse determination if the covered person has (i) cancer or (ii) a medical condition where the time frame

admission, availability of care, continued stay, or health care service for which the covered person received emergency
services, but has not been discharged from a facility.
B. Upon receipt of a request for an expedited external review, the Commission shall promptly send a copy of the
request to the health carrier. Promptly upon receipt of such request, the health carrier shall determine whether the request
meets the eligibility requirements in subsection B of § 38.2-3561. The health carrier shall promptly notify the Commission,
the covered person, and his authorized representative, if any, of its eligibility determination. Such notice shall include a

Persons 70 years of age or older may exchange a valid Virginia driver's license for a special identification card at no fee. Special identification cards subsequently issued to such persons shall be subject to the regular fees for special identification cards.

B. The fee for the issuance of an original, duplicate, reissue, or renewal special identification card is $2 per year, with a $10 minimum fee. Persons 21 years old or older may be issued a scenic special identification card for an additional fee of $5.

C. Every special identification card shall expire on the applicant's birthday at the end of the period of years for which a special identification card has been issued. At no time shall any special identification card be issued for less than three nor more than eight years, except under the provisions of subsection B of § 46.2-328.1 and except that those cards issued to children under the age of 15 shall expire on the child's sixteenth birthday. Notwithstanding these limitations, the Commissioner may extend the validity period of an expiring card if (i) the Department is unable to process an application for renewal due to circumstances beyond its control, (ii) the extension has been authorized under a directive from the Governor, and (iii) the card was not issued as a temporary special identification card under the provisions of subsection B of § 46.2-328.1. However, in no event shall the validity period be extended more than 90 days per occurrence of such conditions. Any special identification card issued to a person required to register pursuant to Chapter 9 (§ 9.1-900 et seq.) of Title 9.1 shall expire on the applicant's birthday in years which the applicant attains an age equally divisible by five. For each person required to register pursuant to Chapter 9 of Title 9.1, the Department may not waive the requirement that each such person shall appear for each renewal or the requirement to obtain a photograph in accordance with subsection C of § 46.2-323.

D. A special identification card issued under this section may be similar in size, shape, and design to a driver's license, and include a photograph of its holder, but the card shall be readily distinguishable from a driver's license and shall clearly state that it does not authorize the person to whom it is issued to drive a motor vehicle. Every applicant for a special identification card shall appear in person before the Department to apply for a renewal, duplicate or reissue unless specifically permitted by the Department to apply in another manner.

E. Special identification cards, for persons at least 15 years old but less than 21 years old, shall be immediately and readily distinguishable from those issued to persons 21 years old or older. Distinguishing characteristics shall include unique design elements of the document and descriptors within the photograph area to identify persons who are at least 15 years old but less than 21 years old. These descriptors shall include the month, day, and year when the person will become 21 years old.

F. Special identification cards for persons under age 15 shall bear a full face photograph. The special identification card issued to persons under age 15 shall be readily distinguishable from a driver's license and from other special identification cards issued by the Department. Such cards shall clearly indicate that it does not authorize the person to whom it is issued to drive a motor vehicle.

G. Unless otherwise prohibited by law, a valid Virginia driver's license may shall be surrendered upon application for a special identification card without the applicant's having to present proof of legal presence as required by § 46.2-328.1 if the Virginia driver's license is unexpired and it has not been revoked, suspended, or cancelled. The special identification card shall be considered a reissue and the expiration date shall be the last day of the month of the surrendered driver's license's month of expiration.

H. Any personal information, as identified in § 2.2-3801, which is retained by the Department from an application for the issuance of a special identification card is confidential and shall not be divulged to any person, association, corporation, or organization, public or private, except to the legal guardian or the attorney of the applicant or to a person, association, corporation, or organization nominated in writing by the applicant, his legal guardian, or his attorney. This subsection shall not prevent the Department from furnishing the application or any information thereon to any law-enforcement agency.

I. Any person who uses a false or fictitious name or gives a false or fictitious address in any application for an identification card or knowingly makes a false statement or conceals a material fact or otherwise commits a fraud in any such application shall be guilty of a Class 2 misdemeanor. However, where the name or address is given, or false statement is made, or fact is concealed, or fraud committed, with the intent to purchase a firearm or where the identification card is obtained for the purpose of committing any offense punishable as a felony, a violation of this section shall constitute a Class 4 felony.

J. The Department may promulgate regulations necessary for the effective implementation of the provisions of this section.

K. The Department shall utilize the various communications media throughout the Commonwealth to inform Virginia residents of the provisions of this section and to promote and encourage the public to take advantage of its provisions.
§ 46.2-345.2. Issuance of special identification cards without photographs; fee; confidentiality; penalties.

A. On the application of any person with a sincerely held religious belief prohibiting the taking of a photograph who is a resident of the Commonwealth and who is at least 15 years of age, the Department shall issue a special identification card without a photograph to the person, provided that:

2. The applicant presents, when required by the Department, proof of identity, legal presence, residency, and social security number or non-work authorized status;

3. The applicant presents an approved and signed U.S. Department of the Treasury Internal Revenue Service (IRS) Form 4029 or if such applicant is a minor, the applicant's parent or legal guardian presents an approved and signed IRS Form 4029; and

4. The applicant does not hold a driver's license, commercial driver's license, temporary driver's permit, learner's permit, motorcycle learner's permit, or special identification card.

B. The fee for the issuance of an original, duplicate, or reissue special identification card without a photograph is $10 per year, with a $20 minimum fee.

C. Every special identification card without a photograph shall expire on the applicant's birthday at the end of the period of years for which a special identification card without a photograph has been issued. At no time shall any special identification card without a photograph be issued for more than eight years. Notwithstanding these limitations, the Commissioner may extend the validity period of an expiring card if (i) the Department is unable to process an application for re-issue due to circumstances beyond its control or (ii) the extension has been authorized under a directive from the Governor. However, in no event shall the validity period be extended more than 90 days per occurrence of such conditions.

D. A special identification card without a photograph issued under this section may be similar in size, shape, and design to a driver's license and shall not include a photograph of its holder. The card shall be readily distinguishable from a driver's license and shall clearly state that federal limits apply, that the card is not valid identification to vote, and that the card does not authorize the person to whom it is issued to drive a motor vehicle. Every applicant for a special identification card without a photograph shall appear in person before the Department to apply for a duplicate or reissue unless specifically permitted by the Department to apply in another manner.

E. Unless otherwise prohibited by law, a valid Virginia driver's license or special identification card shall be surrendered for a special identification card without a photograph without the applicant's having to present proof of legal presence as required by § 46.2-328.1 if the Virginia driver's license or special identification card is unexpired and has not been revoked, suspended, or canceled. The special identification card without a photograph shall be considered a reissue, and the expiration date shall be the last day of the month of the surrendered driver's license's or special identification card's month of expiration.

F. Any personal information, as identified in § 2.2-3801, that is retained by the Department from an application for the issuance of a special identification card without a photograph is confidential and shall not be divulged to any person, association, corporation, or organization, public or private, except to the legal guardian or the attorney of the applicant or to a person, association, corporation, or organization nominated in writing by the applicant, his legal guardian, or his attorney. This subsection shall not prevent the Department from furnishing the application or any information thereon to any law-enforcement agency.

G. Any person who uses a false or fictitious name or gives a false or fictitious address in any application for a special identification card without a photograph or knowingly makes a false statement or conceals a material fact or otherwise commits a fraud in any such application is guilty of a Class 2 misdemeanor; however, where the special identification card without a photograph is obtained for the purpose of committing any offense punishable as a felony, a violation of this section shall constitute a Class 4 felony.

H. When requested by the applicant, the applicant's parent if the applicant is a minor, or the applicant's guardian, and upon presentation of a signed statement by a licensed physician confirming the applicant's condition, the Department shall indicate on the applicant's special identification card without a photograph that the applicant has any condition listed in subsection K of § 46.2-342.
I. Unless the Code specifies that a photograph is required, a special identification card without a photograph shall be treated as a special identification card.

2. That until January 1, 2020, when an applicant who is deemed eligible for a special identification card without a photograph surrenders a Virginia driver's license or special identification card, the Department of Motor Vehicles is authorized to remove the applicant's photograph on file with the Department of Motor Vehicles, if the applicant requests such removal.

3. That the provisions of this act may result in a net increase in periods of imprisonment or commitment. Pursuant to § 30-19.1:4 of the Code of Virginia, the estimated amount of the necessary appropriation is $0 for periods of imprisonment in state adult correctional facilities and cannot be determined for periods of commitment to the custody of the Department of Juvenile Justice.

CHAPTER 833

An Act to amend and reenact §§ 56-577 and 56-587 of the Code of Virginia, relating to electric utility regulation; competitive suppliers.

Approved April 3, 2019

[CH. 833

Be it enacted by the General Assembly of Virginia:

1. That §§ 56-577 and 56-587 of the Code of Virginia are amended and reenacted as follows:

§ 56-577. Schedule for transition to retail competition; Commission authority; exemptions; pilot programs.

A. Retail competition for the purchase and sale of electric energy shall be subject to the following provisions:

1. Each incumbent electric utility owning, operating, controlling, or having an entitlement to transmission capacity shall join or establish a regional transmission entity, which entity may be an independent system operator, to which such utility shall transfer the management and control of its transmission system, subject to the provisions of § 56-579.

2. The generation of electric energy shall be subject to regulation as specified in this chapter.

3. From January 1, 2004, until the expiration or termination of capped rates, all retail customers of electric energy within the Commonwealth, regardless of customer class, shall be permitted to purchase electric energy from any supplier of electric energy licensed to sell retail electric energy within the Commonwealth. After the expiration or termination of capped rates, and subject to the provisions of subdivisions 4 and 5, only individual retail customers of electric energy within the Commonwealth, regardless of customer class, whose demand during the most recent calendar year exceeded five megawatts but did not exceed one percent of the customer's incumbent electric utility's peak load during the most recent calendar year unless such customer had noncoincident peak demand in excess of 90 megawatts in calendar year 2006 or any year thereafter, shall be permitted to purchase electric energy from any supplier of electric energy licensed to sell retail electric energy within the Commonwealth, except for any incumbent electric utility other than the incumbent electric utility serving the exclusive service territory in which such a customer is located, subject to the following conditions:

a. If such customer does not purchase electric energy from licensed suppliers after that date, such customer shall purchase electric energy from its incumbent electric utility.

b. Except as provided in subdivision 4, the demands of individual retail customers may not be aggregated or combined for the purpose of meeting the demand limitations of this provision, any other provision of this chapter to the contrary notwithstanding. For the purposes of this section, each noncontiguous site will nevertheless constitute an individual retail customer even though one or more such sites may be under common ownership of a single person.

c. If such customer does purchase electric energy from licensed suppliers after the expiration or termination of capped rates, it shall not thereafter be entitled to purchase electric energy from the incumbent electric utility without giving five years' advance written notice of such intention to such utility, except where such customer demonstrates to the Commission, after notice and opportunity for hearing, through clear and convincing evidence that its supplier has failed to perform, or has anticipatorily breached its duty to perform, or otherwise is about to fail to perform, through no fault of the customer, and that such customer is unable to obtain service at reasonable rates from an alternative supplier. If, as a result of such proceeding, the Commission finds it in the public interest to grant an exemption from the five-year notice requirement, such customer may thereafter purchase electric energy at the costs of such utility, as determined by the Commission pursuant to subdivision 3 d hereof, for the remainder of the five-year notice period, after which point the customer may purchase electric energy from the utility under rates, terms and conditions determined pursuant to § 56-585.1. However, such customer shall be allowed to individually purchase electric energy from the utility under rates, terms, and conditions determined pursuant to § 56-585.1 if, upon application by such customer, the Commission finds that neither such customer's incumbent electric utility nor retail customers of such utility that do not choose to obtain electric energy from alternate suppliers will be adversely affected in a manner contrary to the public interest by granting such petition. In making such determination, the Commission shall take into consideration, without limitation, the impact and effect of any and all other previously approved petitions of like type with respect to such incumbent electric utility. Any customer that returns to purchase electric energy from its incumbent electric utility, before or after expiration of the five-year notice period, shall be subject to minimum stay periods equal to those prescribed by the Commission pursuant to subdivision C 1.
d. The costs of serving a customer that has received an exemption from the five-year notice requirement under subdivision 3 c hereof shall be the market-based costs of the utility, including (i) the actual expenses of procuring such electric energy from the market, (ii) additional administrative and transaction costs associated with procuring such energy, including, but not limited to, costs of transmission, transmission line losses, and ancillary services, and (iii) a reasonable margin as determined pursuant to the provisions of subdivision A 2 of § 56-585.1. The methodology established by the Commission for determining such costs shall ensure that neither utilities nor other retail customers are adversely affected in a manner contrary to the public interest.

4. After the expiration or termination of capped rates, two Two or more individual nonresidential retail customers of electric energy within the Commonwealth, whose individual demand during the most recent calendar year did not exceed five megawatts, may petition the Commission for permission to aggregate or combine their demands, for the purpose of meeting the demand limitations of subdivision 3, so as to become qualified to purchase electric energy from any supplier of electric energy licensed to sell retail electric energy within the Commonwealth under the conditions specified in subdivision 3. The Commission may, after notice and opportunity for hearing, approve such petition if it finds that:

a. Neither such customers' incumbent electric utility nor retail customers of such utility that do not choose to obtain electric energy from alternate suppliers will be adversely affected in a manner contrary to the public interest by granting such petition. In making such determination, the Commission shall take into consideration, without limitation, the impact and effect of any and all other previously approved petitions of like type with respect to such incumbent electric utility; and

b. Approval of such petition is consistent with the public interest.

If such petition is approved, all customers whose load has been aggregated or combined shall thereafter be subject in all respects to the provisions of subdivision 3 and shall be treated as a single, individual customer for the purposes of said subdivision. In addition, the Commission shall impose reasonable periodic monitoring and reporting obligations on such customers to demonstrate that they continue, as a group, to meet the demand limitations of subdivision 3. If the Commission finds, after notice and opportunity for hearing, that such group of customers no longer meets the above demand limitations, the Commission may revoke its previous approval of the petition, or take such other actions as may be consistent with the public interest.

5. After the expiration or termination of capped rates, individual Individual retail customers of electric energy within the Commonwealth, regardless of customer class, shall be permitted:

a. To purchase electric energy provided 100 percent from renewable energy from any supplier of electric energy licensed to sell retail electric energy within the Commonwealth, other than any incumbent electric utility that is not the incumbent electric utility serving the exclusive service territory in which such a customer is located, if the incumbent electric utility serving the exclusive service territory does not offer an approved tariff for electric energy provided 100 percent from renewable energy; and

b. To continue purchasing renewable energy pursuant to the terms of a power purchase agreement in effect on the date there is filed with the Commission a tariff for the incumbent electric utility that serves the exclusive service territory in which the customer is located to offer electric energy provided 100 percent from renewable energy, for the duration of such agreement.

6. To the extent that an incumbent electric utility has elected as of February 1, 2019, the Fixed Resource Requirement alternative as a Load Serving Entity in the PJM Region and continues to make such election and is therefore required to obtain capacity for all load and expected load growth in its service area, any customer of a utility subject to that requirement that purchases energy pursuant to subdivision 3 or 4 from a supplier licensed to sell retail electric energy within the Commonwealth shall continue to pay its incumbent electric utility for the non-fuel generation capacity and transmission related costs incurred by the incumbent electric utility in order to meet the customer's capacity obligations, pursuant to the incumbent electric utility's standard tariff that has been approved by and is on file with the Commission. In the case of such customer, the advance written notice period established in subdivisions 3 c and d shall be three years. This subdivision shall not apply to the customers of licensed suppliers that (i) had an agreement with a licensed supplier entered into before February 1, 2019, or (ii) had aggregation petitions pending before the Commission prior to January 1, 2019, unless and until any customer referenced in clause (i) or (ii) has returned to purchase electric energy from its incumbent electric utility, pursuant to the provisions of subdivision 3 or 4, and is receiving electric energy from such incumbent electric utility.

7. A tariff for one or more classes of residential customers filed with the Commission for approval by a cooperative on or after July 1, 2010, shall be deemed to offer a tariff for electric energy provided 100 percent from renewable energy if it provides undifferentiated electric energy and the cooperative retires a quantity of renewable energy certificates equal to 100 percent of the electric energy provided pursuant to such tariff. A tariff for one or more classes of nonresidential customers filed with the Commission for approval by a cooperative on or after July 1, 2012, shall be deemed to offer a tariff for electric energy provided 100 percent from renewable energy if it provides undifferentiated electric energy and the cooperative retires a quantity of renewable energy certificates equal to 100 percent of the electric energy provided pursuant to such tariff. For purposes of this section, "renewable energy certificate" means, with respect to cooperatives, a tradable commodity or instrument issued by a regional transmission entity or affiliate or successor thereof in the United States that validates the generation of electricity from renewable energy sources or that is certified under a generally recognized renewable energy certificate standard. One renewable energy certificate equals 1,000 kWh or one MWh of electricity generated from renewable energy. A cooperative offering electric energy provided 100 percent from renewable energy pursuant to this subdivision that involves the retirement of renewable energy certificates shall disclose to its retail customers...
who express an interest in purchasing energy pursuant to such tariff (i) that the renewable energy is comprised of the retirement of renewable energy certificates, (ii) the identity of the entity providing the renewable energy certificates, and (iii) the sources of renewable energy being offered.

B. The Commission shall promulgate such rules and regulations as may be necessary to implement the provisions of this section.

C. 1. By January 1, 2002, the Commission shall promulgate regulations establishing whether and, if so, for what minimum periods, customers who request service from an incumbent electric utility pursuant to subsection D of § 56-582 or a default service provider, after a period of receiving service from other suppliers of electric energy, shall be required to use such service from such incumbent electric utility or default service provider, as determined to be in the public interest by the Commission.

2. Subject to (i) the availability of capped rate service under § 56-582, and (ii) the transfer of the management and control of an incumbent electric utility's transmission assets to a regional transmission entity after approval of such transfer by the Commission under § 56-579, retail customers of such utility (a) purchasing such energy from licensed suppliers and (b) otherwise subject to minimum stay periods prescribed by the Commission pursuant to subdivision 1, shall nevertheless be exempt from any such minimum stay obligations by agreeing to purchase electric energy at the market-based costs of such utility or default providers after a period of obtaining electric energy from another supplier. Such costs shall include (i) the actual expenses of procuring such electric energy from the market, (ii) additional administrative and transaction costs associated with procuring such energy, including, but not limited to, costs of transmission, transmission line losses, and ancillary services, and (iii) a reasonable margin. The methodology of ascertaining such costs shall be determined and approved by the Commission after notice and opportunity for hearing and after review of any plan filed by such utility to procure electric energy to serve such customers. The methodology established by the Commission for determining such costs shall be consistent with the goals of (a) promoting the development of effective competition and economic development within the Commonwealth as provided in subsection A of § 56-596, and (b) ensuring that neither incumbent utilities nor retail customers that do not choose to obtain electric energy from alternate suppliers are adversely affected.

3. Notwithstanding the provisions of subsection D of § 56-582 and subsection C of § 56-585, however, any such customers exempted from any applicable minimum stay periods as provided in subdivision 2 shall not be entitled to purchase retail electric energy thereafter from their incumbent electric utilities, or from any distributor required to provide default service under subsection B of § 56-585, at the capped rates established under § 56-582, unless such customers agree to satisfy any minimum stay period then applicable while obtaining retail electric energy at capped rates.

4. The Commission shall promulgate such rules and regulations as may be necessary to implement the provisions of this subsection, which rules and regulations shall include provisions specifying the commencement date of such minimum stay exemption program.

§ 56-587. Licensure of retail electric energy suppliers and persons providing other competitive services.

A. As a condition of doing business in the Commonwealth, each person except a default service provider seeking to sell, offering to sell, or selling electric energy to any retail customer in the Commonwealth, on and after January 1, 2002, shall obtain a license from the Commission to do so. A license shall not be required solely for the leasing or financing of property used in the sale of electricity to any retail customer in the Commonwealth.

The license shall authorize that person to engage in the activities authorized by such license until the license expires or is otherwise terminated, suspended or revoked.

B. 1. As a condition of obtaining, retaining and renewing any license issued pursuant to this section, a person shall satisfy such reasonable and nondiscriminatory requirements as may be specified by the Commission, which may include requirements that such person (i) demonstrate, in a manner satisfactory to the Commission, financial responsibility; (ii) post a bond as deemed adequate by the Commission to ensure that financial responsibility; (iii) pay an annual license fee to be determined by the Commission; and (iv) pay all taxes and fees lawfully imposed by the Commonwealth or by any municipality or other political subdivision of the Commonwealth. In addition, as a condition of obtaining, retaining and renewing any license pursuant to this section, a person shall satisfy such reasonable and nondiscriminatory requirements as may be specified by the Commission, including but not limited to requirements that such person demonstrate (i) technical capabilities as the Commission may deem appropriate; (ii) in the case of a person seeking to sell, offering to sell, or selling electric energy to any retail customer in the Commonwealth, access to generation and generation reserves; and (iii) adherence to minimum market conduct standards.

2. Any license issued by the Commission pursuant to this section to a person seeking to sell, offering to sell, or selling electric energy to any retail customer in the Commonwealth may be conditioned upon the licensee furnishing to the Commission prior to the provision of electric energy to consumers proof of adequate access to generation and generation reserves.

C. The Commission shall:

1. Shall establish a reasonable period within which any retail customer may cancel, without penalty or cost, any contract entered into with any person licensed pursuant to this section; and

2. May adopt other rules and regulations governing the requirements for obtaining, retaining, and renewing a license issued pursuant to this section, and may, as appropriate, refuse to issue a license to, or suspend, revoke, or refuse to renew the license of, any person that does not meet those requirements.
D. Each licensed supplier serving customers of a Phase I Utility, as defined in subdivision A 1 of § 56-585.1, shall file a report, verified by the president or the equivalent executive of such supplier, with the Commission by March 31 of each year that contains:

1. Copies of all marketing materials and other public information conveyed to potential customers regarding the services offered by the supplier;
2. Usage and revenue data for the most recent year submitted to the U.S. Energy Information Administration;
3. Copies of all agreements entered into during the previous calendar year with such customers taking service under subdivision A 3 of § 56-577. Such agreements may be filed under seal, and if so will be afforded confidential treatment and will not be disclosed beyond the Commission or its staff; and
4. A statement that the agreements submitted comply with the Commission's Rules Governing Retail Access to Competitive Energy Services (20VAC5-312-10 et seq.).

Failure to provide such report may be grounds for suspension or revocation of the supplier's license to sell retail electric energy within the Commonwealth.

E. Notwithstanding the provisions of § 13.1-620, a public service company may, through an affiliate or subsidiary, conduct one or more of the following businesses, even if such business is not related to or incidental to its stated business as a public service company: (i) become licensed as a retail electric energy supplier pursuant to this section, or for purposes of participation in an approved pilot program encompassing retail customer choice of electric energy suppliers; (ii) become licensed as an aggregator pursuant to § 56-588, or for purposes of participation in an approved pilot program encompassing retail customer choice of electric energy suppliers; or (iii) own, manage or control any plant or equipment or any part of a plant or equipment used for the generation of electric energy.

The owner of a farm vehicle shall inform the Commissioner within 30 days or at the time of his next registration renewal, whichever comes first, when such vehicle is no longer used exclusively for farm use as defined in this section, and shall pay the appropriate registration fee for the vehicle based on its type of operation. It shall constitute a Class 2 misdemeanor to: (i) operate or to permit the operation of any farm motor vehicle for which the fee for registration and license plates is herein prescribed on any highway in the Commonwealth without having paid the prescribed registration fee; or (ii) operate or permit the operation of any motor vehicle, registered under this section, for purposes other than as provided under subsection B; or (iii) operate as a for-hire vehicle.

G. Nothing in this section shall affect the exemptions of agricultural and horticultural vehicles under §§ 46.2-664 through 46.2-670.

H. Notwithstanding other provisions of this section, vehicles licensed under this section may be used by volunteer emergency medical services personnel and volunteer firefighters in responding to emergency calls, in reporting for regular duty, and in attending emergency medical services agency or fire company meetings and drills.

§ 46.2-702.1:1. Distribution of certain other revenues.

A. Except as provided in subsection B, net additional revenues shall be deposited as follows: (i) an amount equal to such net additional revenues multiplied by a ratio of the vehicle miles traveled on Interstate 81 by vehicles classified as Class 6 or higher by the Federal Highway Administration to the total vehicle miles traveled on all interstate highways in the Commonwealth by vehicles classified as Class 6 or higher by the Federal Highway Administration into the Interstate 81 Corridor Improvement Fund established pursuant to § 33.2-3601; (ii) an amount equal to such net additional revenues multiplied by a ratio of the vehicle miles traveled on the portion of interstate highways located within the boundaries of Planning District 8 by vehicles classified as Class 6 or higher by the Federal Highway Administration to total vehicle miles traveled on all interstate highways in the Commonwealth by vehicles classified as Class 6 or higher by the Federal Highway Administration into the Northern Virginia Transportation Authority Fund established pursuant to § 33.2-2509; and (iii) all remaining net additional revenues to the Commonwealth Transportation Board for use for operational purposes specified in subsection B; and

B. In the case of vehicles registered under the International Registration Plan, an amount that is approximately equal to the net additional revenues attributable to such vehicles shall be deposited as follows: (i) an amount equal to such net additional revenues multiplied by a ratio of the vehicle miles traveled on Interstate 81 by vehicles classified as Class 6 or higher by the Federal Highway Administration to the total vehicle miles traveled on all interstate highways in the Commonwealth by vehicles classified as Class 6 or higher by the Federal Highway Administration into the Interstate 81 Corridor Improvement Fund established pursuant to § 33.2-3601; (ii) an amount equal to such net additional revenues multiplied by a ratio of the vehicle miles traveled on the portion of interstate highways located within the boundaries of Planning District 8 by vehicles classified as Class 6 or higher by the Federal Highway Administration to total vehicle miles traveled on all interstate highways in the Commonwealth by vehicles classified as Class 6 or higher by the Federal Highway Administration into the Northern Virginia Transportation Authority Fund established pursuant to § 33.2-2509; and (iii) all remaining net additional revenues to the Commonwealth Transportation Board for use for operational purposes specified in subsection B; and

C. As used in this section, the term "farm" means one or more areas of land used for the production, cultivation, growing, or harvesting of agricultural products, but does not include a tree farm that is not also a nursery or Christmas tree farm, unless it is part of what otherwise is a farm. As used in this section, the term "agricultural products" means any nursery plants; Christmas trees; horticultural, viticultural, and other cultivated plants and crops; aquaculture; dairy; livestock; poultry; bee; or other farm products.
improvements and other enhancements to improve the safety and reliability of, and travel flow along, interstate highway corridors in the Commonwealth. The Board shall ensure that for any interstate highway with more than 10 percent of total interstate truck vehicle miles traveled that the total long-term expenditure for each such interstate highway is approximately equal to the proportional revenue subject to clause (iii) that is attributable to such interstate highway.

C. For purposes of this section, “net additional revenues” means the additional revenues, minus any refunds or remittances required to be paid, generated by (i) the additional fee imposed pursuant to subsection A of § 46.2-697.2 and (ii) increases in the registration fees under § 46.2-697 made pursuant to subsection B of § 46.2-697.2.

§ 58.1-2217.1. Additional taxes levied; rate.
A. In addition to all other taxes imposed by this chapter, there is hereby levied an additional tax per gallon on diesel fuel. Beginning July 1, 2021, the rate of such tax shall be 2.03 percent of the statewide average wholesale price of a gallon of diesel fuel for the applicable base period, excluding federal and state excise taxes, as determined by the Commissioner.

B. The Commissioner shall use the period from December 1 through May 31 as the base period for such determination for the immediately following period beginning July 1 and ending December 31, inclusive. The period from June 1 through November 30 shall be the next base period for the immediately following period beginning January 1 and ending June 30, inclusive. In no case shall the average wholesale price computed for purposes of this section be less than the statewide average wholesale price of a gallon of diesel fuel on February 20, 2013.

C. Blended fuel that contains diesel fuel shall be taxed at the rate levied on diesel fuel.

D. The tax imposed by this section shall be collected in the same manner as other taxes imposed pursuant to this chapter.

E. The revenues generated by the tax imposed by this section shall be distributed as follows: (i) an amount equal to such net revenues multiplied by a ratio of the vehicle miles traveled on Interstate 81 by vehicles classified as Class 6 or higher by the Federal Highway Administration to the total vehicle miles traveled on all interstate highways in the Commonwealth by vehicles classified as Class 6 or higher by the Federal Highway Administration into the Interstate 81 Corridor Improvement Fund established pursuant to § 33.2-3601; (ii) an amount equal to such net revenues multiplied by a ratio of the vehicle miles traveled on the portion of interstate highways located within the boundaries of Planning District 8 by vehicles classified as Class 6 or higher by the Federal Highway Administration to total vehicle miles traveled on all interstate highways in the Commonwealth by vehicles classified as Class 6 or higher by the Federal Highway Administration into the Interstate 81 Corridor Improvement Fund established pursuant to § 33.2-3601; and (iii) all remaining net revenues to the Commonwealth Transportation Board for use for operational improvements and other enhancements to improve the safety and reliability of, and travel flow along, interstate highway corridors in the Commonwealth. The Board shall ensure that for any interstate highway with more than 10 percent of total interstate truck vehicle miles traveled that the total long-term expenditure for each such interstate highway is approximately equal to the proportional revenue subject to clause (iii) that is attributable to such interstate highway.

§ 58.1-2295.1. Levy of tax in Interstate 81 Corridor; payment of tax.
A. In addition to all other taxes now imposed by law, there is hereby imposed a tax upon every distributor who engages in the business of selling fuels at wholesale to retail dealers for retail sale in any county or city in Planning District 3, 4, 5, 6, or 7, as established pursuant to Chapter 42 (§ 15.2-4200 et seq.) of Title 15.2.

B. 1. The tax shall be imposed on each gallon of fuel, other than diesel fuel, sold by a distributor to a retail dealer for retail sale in any such county or city described in subsection A at a rate of 2.1 percent of the statewide average distributor price of a gallon of unleaded regular gasoline as determined by the Commissioner pursuant to subdivision C 1. For alternative fuels other than liquid alternative fuels, the Commissioner shall determine an equivalent tax rate based on gasoline gallon equivalency.

   2. The tax shall be imposed on each gallon of diesel fuel sold by a distributor to a retail dealer for retail sale in any such county or city described in subsection A at a rate of 2.1 percent of the statewide average distributor price of a gallon of diesel fuel as determined by the Commissioner pursuant to subdivision C 2.

C. 1. To determine the statewide average distributor price of a gallon of unleaded regular gasoline, the Commissioner shall use the period from January 1 through November 30, inclusive, as the base period for such determination for the immediately following period beginning January 1 and ending June 30, inclusive. The Commissioner shall use the period from December 1 through May 31, inclusive, as the base period for the determination of the rate of tax for the immediately following period beginning July 1 and ending December 31, inclusive. In no case shall the statewide average distributor price of a gallon of unleaded regular gasoline determined for purposes of this section be less than the statewide average wholesale price of a gallon of unleaded regular gasoline on February 20, 2013, plus a distributor charge calculated by the Commissioner for that date.

   2. To determine the statewide average distributor price of a gallon of diesel fuel, the Commissioner shall use the period from June 1 through November 30, inclusive, as the base period for such determination for the immediately following period beginning January 1 and ending June 30, inclusive. The Commissioner shall use the period from December 1 through May 31, inclusive, as the base period for the determination of the rate of tax for the immediately following period beginning July 1 and ending December 31, inclusive. In no case shall the statewide average distributor price of a gallon of diesel fuel determined for purposes of this section be less than the statewide average wholesale price of a gallon of diesel fuel on February 20, 2013, plus a distributor charge calculated by the Commissioner for that date.

D. The tax levied under this section shall be imposed at the time of sale by the distributor to the retail dealer.
E. The tax imposed by this section shall be paid by the distributor, but the distributor shall separately state the amount of the tax and add such tax to the price or charge. Thereafter, such tax shall be debt from the retail dealer to the distributor until paid and shall be recoverable at law in the same manner as other debts. No action at law or suit in equity under this chapter shall be maintained in the Commonwealth by any distributor who is not registered under § 58.1-2299.2 or is delinquent in the payment of taxes imposed under this chapter.

F. Nothing in this section shall be construed to exempt the imposition and remittance of tax pursuant to this section in a sale to a retail dealer in which the distributor and the retail dealer are the same person.

G. Notwithstanding any other provision of law, no tax shall be imposed by the provisions of subdivision A 2 of § 58.1-2295 on any fuel upon which a tax is paid pursuant to this section.

§ 58.1-2299.20. (Contingent expiration date) Disposition of tax revenues.

A. All taxes, interest, and civil penalties paid to the Commissioner pursuant to this chapter for the sale of fuels at wholesale to retail dealers for retail sale in any county or city set forth in clause (i) of subdivision A 1 of § 58.1-2295, after subtraction of the direct costs of administration by the Department, shall be deposited each month as follows:

1. One-twelfth of an amount determined by multiplying $15 million by a fraction, the numerator of which shall be such transportation district's share of funding for the commuter rail service jointly operated by the two transportation districts and the denominator of which shall be the total funding share for such commuter rail service, shall be deposited in the Commuter Rail Operating and Capital Fund established pursuant to § 33.2-3500;

2. Until June 30, 2019, an amount equal to the increase in taxes, interest, and civil penalties paid to the Commissioner each month, compared with the same month for fiscal year 2018, minus any amounts deposited pursuant to subdivision 1, shall be deposited into the Washington Metropolitan Area Transit Capital Fund established pursuant to § 33.2-3401; and

b. Beginning on July 1, 2019, an amount equal to one-twelfth of the increase in taxes, interest, and civil penalties paid to the Commissioner in fiscal year 2019 compared to fiscal year 2018, minus any amounts deposited pursuant to subdivision A 1, shall be deposited in the Washington Metropolitan Area Transit Authority Capital Fund established pursuant to § 33.2-3401; and

3. All remaining funds shall be deposited in a special fund entitled the "Special Fund Account of the Transportation District of ____." The amounts deposited in the special fund shall be distributed monthly to the applicable transportation district commission of which the county or city is a member to be applied to the operating deficit, capital, and debt service of the mass transit system of such district or, in the case of a transportation district subject to the provisions of subsection C of § 33.2-1915, to be applied to and expended for any transportation purpose of such district. In the case of a jurisdiction which, after July 1, 1989, joins a transportation district which was established on or before January 1, 1986, and is also subject to subsection C of § 33.2-1915, the funds collected from that jurisdiction shall be applied to and expended for any transportation purpose of such jurisdiction.

B. All taxes, interest, and civil penalties paid to the Commissioner pursuant to this chapter for the sale of fuels at wholesale to retail dealers for retail sale in any county or city set forth in clause (ii) of subdivision A 1 of § 58.1-2295, after subtraction of the direct costs of administration by the Department, shall be deposited each month as follows:

1. One-twelfth of an amount determined by multiplying $15 million by a fraction, the numerator of which shall be such transportation district's share of funding for the commuter rail service jointly operated by the two transportation districts and the denominator of which shall be the total funding share for such commuter rail service, shall be deposited in the Commuter Rail Operating and Capital Fund established pursuant to § 33.2-3500; and

2. All remaining funds shall be deposited in a special fund entitled the "Special Fund Account of the Transportation District of ____." The amounts deposited in the special fund shall be distributed monthly to the applicable transportation district commission of which the county or city is a member to be applied to the operating deficit, capital, and debt service of the mass transit system of such district or, in the case of a transportation district subject to the provisions of subsection C of § 33.2-1915, to be applied to and expended for any transportation purpose of such district. In the case of a jurisdiction which, after July 1, 1989, joins a transportation district that was established on or before January 1, 1986, and is also subject to subsection C of § 33.2-1915, the funds collected from that jurisdiction shall be applied to and expended for any transportation purpose of such jurisdiction.

C. All taxes, interest, and civil penalties paid to the Commissioner pursuant to this chapter for the sale of fuels at wholesale to retail dealers for retail sale in any county or city set forth in subdivision A 2 of § 58.1-2295, after subtraction of the direct costs of administration by the Department, shall be deposited into special funds established by law. In the case of Planning District 23, the revenue generated and collected therein shall be deposited into the fund established in § 33.2-2600. For additional Planning Districts that may become subject to this section, funds shall be established by appropriate legislation.

D. All taxes, interest, and civil penalties paid to the Commissioner pursuant to this chapter for the sale of fuels at wholesale to retail dealers for retail sale in any county or city set forth in § 58.1-2295.1, after subtraction of the direct costs of administration by the Department, shall be deposited into the Interstate 81 Corridor Improvement Fund established pursuant to Chapter 36 (§ 33.2-3600) of Title 33.

E. The direct cost of administration of this section shall be credited to the funds appropriated to the Department.
§ 58.1-2299.20. (Contingent effective date) Disposition of tax revenues.

A. Except as provided in subsection B, all taxes, interest, and civil penalties paid to the Commissioner pursuant to this chapter, after subtraction of the direct costs of administration by the Department, shall be deposited in a special fund entitled the "Special Fund Account of the Transportation District of ____." The amounts deposited in the special fund shall be distributed monthly to the applicable transportation district commission of which the county or city is a member to be applied to the operating deficit, capital, and debt service of the mass transit system of such district or, in the case of a transportation district subject to the provisions of subsection C of § 33.2-1915, to be applied to and expended for any transportation purpose of such district. In the case of a jurisdiction which, after July 1, 1989, joins a transportation district which was established on or before January 1, 1986, and is also subject to subsection C of § 33.2-1915, the funds collected from that jurisdiction shall be applied to and expended for any transportation purpose of such jurisdiction. The direct costs of administration shall be credited to the funds appropriated to the Department.

B. All taxes, interest, and civil penalties paid to the Commissioner pursuant to this chapter for the sale of fuels at wholesale to retail dealers for retail sale in any county or city set forth in § 58.1-2295.1, after subtraction of the direct costs of administration by the Department, shall be deposited into the Interstate 81 Corridor Improvement Fund established pursuant to Chapter 36 (§ 33.2-3600) of Title 33.

§ 58.1-2701. Amount of tax.
A. Except as provided in subsection B C, every motor carrier shall pay a road tax per gallon equivalent to the cents per gallon credit for diesel fuel as determined under subsection A of § 58.1-2706 for the relevant period plus an additional $0.0255 amount per gallon, as determined by subsection B, calculated on the amount of motor fuel, diesel fuel or liquefied gases (which would not exist as liquids at a temperature of 60 degrees Fahrenheit and a pressure of 14.7 pounds per square inch absolute), used in its operations within the Commonwealth.

The tax imposed by this chapter shall be in addition to all other taxes of whatever character imposed on a motor carrier by any other provision of law.

B. The additional amount per gallon shall be determined by the Commissioner annually, effective July 1 of each year.

On July 1, 2019, the additional amount per gallon shall be calculated by multiplying the average fuel economy by $0.01125.
On July 1, 2020, and each July 1 thereafter, the additional amount per gallon shall be calculated by multiplying the average fuel economy by $0.0225. The additional amount per gallon shall be rounded to the nearest one-tenth of a cent. For purposes of this subsection, "average fuel economy" shall be calculated by dividing the total taxable miles driven in the Commonwealth by the total taxable gallons of fuel consumed in the Commonwealth, as reported in IFTA returns in the preceding taxable year.

C. In lieu of the tax imposed in subsection A, motor carriers registering qualified highway vehicles that are not registered under the International Registration Plan shall pay a fee of $150 per year for each qualified highway vehicle regardless of whether such vehicle will be included on the motor carrier's IFTA return. For the period of July 1, 2019, through June 30, 2020, the fee shall be adjusted based on the percent change in the road tax imposed pursuant to subsection A from June 30, 2019, to July 1, 2019. The Commissioner shall adjust the fee annually on July 1 of every year thereafter based on the percentage change in the road tax imposed pursuant to subsection A for the previous fiscal year as compared to the current fiscal year. The fee is due and payable when the vehicle registration fees are paid pursuant to the provisions of Article 7 (§ 46.2-685 et seq.) of Chapter 6 of Title 46.

If a vehicle becomes a qualified highway vehicle before the end of its registration period, the fee due at the time the vehicle becomes a qualified highway vehicle shall be prorated monthly to the registration expiration month. Fees paid under this subsection shall not be refunded unless a full refund of the registration fee paid is authorized by law.

D. 1. Except as provided in subdivision 2, all taxes and fees paid under the provisions of this chapter shall be credited to the Highway International Registration and Operating Fund established pursuant to § 33.2-1530, a special fund within the Commonwealth Transportation Fund.

2. The net additional revenues generated by this section pursuant to enactments of the 2019 Session of the General Assembly shall be deposited as follows: (i) an amount equal to such net revenues multiplied by a ratio of the vehicle miles traveled on Interstate 81 by vehicles classified as Class 6 or higher by the Federal Highway Administration to the total vehicle miles traveled on all interstate highways in the Commonwealth by vehicles classified as Class 6 or higher by the Federal Highway Administration into the Interstate 81 Corridor Improvement Fund established pursuant to § 33.2-3601; (ii) an amount equal to such net revenues multiplied by a ratio of the vehicle miles traveled on the portion of interstate highways located within the boundaries of Planning District 8 by vehicles classified as Class 6 or higher by the Federal Highway Administration to total vehicle miles traveled on all interstate highways in the Commonwealth by vehicles classified as Class 6 or higher by the Federal Highway Administration into the Northern Virginia Transportation Authority Fund established pursuant to § 33.2-2509; and (iii) all remaining net revenues to the Commonwealth Transportation Board for use for operational improvements and other enhancements to improve the safety and reliability of, and travel flow along, interstate highway corridors in the Commonwealth. The Board shall ensure that for any interstate highway with more than 10 percent of total interstate truck vehicle miles traveled that the total long-term expenditure for each such interstate highway is approximately equal to the proportional revenue subject to clause (iii) that is attributable to such interstate highway. For purposes of this subdivision, "net additional revenues" means the additional revenues generated by this section pursuant to enactments of the 2019 Session of the General Assembly, minus any refunds or remittances required to be paid.

An Act to amend the Code of Virginia by adding a section numbered 9.1-207.1, relating to firefighting foam management.

Approved April 3, 2019

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding a section numbered 9.1-207.1 as follows:

   § 9.1-207.1. Firefighting foam management.
   A. For purposes of this section, unless the context requires a different meaning:
      "Class B firefighting foam" means a foam designed for flammable liquid fires.
      "Local government" includes any locality, fire district, regional fire protection authority, or other special purpose district that provides firefighting services.
      "PFAS chemicals" means, for the purposes of firefighting agents, a class of fluorinated organic chemicals containing at least one fully fluorinated carbon atom and designed to be fully functional in class B firefighting foam formulations, including perfluorooalkyl and polyfluoroalkyl substances.
      "Testing" includes calibration testing, conformance testing, and fixed system testing.
   B. Beginning July 1, 2021, no person, local government, or agency of the Commonwealth shall discharge or otherwise use class B firefighting foam that contains intentionally added PFAS chemicals (i) for testing purposes, unless otherwise required by law or by the agency having jurisdiction over the testing facility, and with the condition that the testing facility has implemented appropriate containment, treatment, and disposal measures to prevent uncontrolled releases of foam to the environment or (ii) for training purposes, where such foam shall be replaced by nonfluorinated training foams.
   C. No provision of this section shall restrict (i) the manufacture, sale, or distribution of class B firefighting foam that contains intentionally added PFAS chemicals or (ii) the discharge or other use of such foams in emergency firefighting or fire prevention operations.

2. That the General Assembly finds that (i) an adequate, efficient, and safe Interstate 81 corridor is essential to the economic well-being of the communities located along the corridor and for the Commonwealth; (ii) Interstate 81 carries 42 percent of interstate truck vehicle miles traveled in the Commonwealth; (iii) trucks make up 20 to 30 percent of all traffic on Interstate 81; (iv) there are more than 2,000 traffic accidents each year on Interstate 81, and 30 of those accidents require more than six hours to clear; (v) the lack of parallel routes and automated traffic management systems on Interstate 81 increases the impact of traffic accidents on Interstate 81; (vi) due to these conditions and the high volume of truck traffic, the Interstate 81 corridor does not meet the needs of the surrounding communities; and (vii) current statewide transportation revenues are insufficient to implement necessary improvements to the Interstate 81 corridor.

3. That the Interstate 81 Committee (the Committee) created by this act shall review the Interstate 81 Corridor Improvement Plan adopted by the Commonwealth Transportation Board on December 5, 2018, as it relates to funding options for improvements to the Interstate 81 corridor and the prioritization of projects in the Interstate 81 corridor. The Committee shall conduct regional public meetings on options for funding and improvements and seek input from the public and stakeholder organizations. The Committee shall report to the Governor and the General Assembly by December 15, 2019, regarding its recommendations for funding and prioritization of projects.

4. That the provisions of this act that generate additional revenue through state taxes or fees for transportation throughout the Commonwealth and in Planning Districts 3, 4, 5, 6, and 7 shall expire on December 31 of any year in which the General Assembly appropriates or transfers any of such additional revenues for any non-transportation-related purpose or transfers any of such additional revenues that are to be deposited into the Commonwealth Transportation Fund or any subfund thereof pursuant to general law for a non-transportation-related purpose. In the event a local government of any county or city wherein the additional taxes and fees are levied appropriates or allocates any of such additional revenues to a non-transportation-related purpose, such locality shall not be the direct beneficiary of any of the revenues generated by the taxes or fees in the year immediately succeeding the year in which revenues were appropriated or allocated to a non-transportation-related purpose. For purposes of this act, any use that is consistent with a duly adopted Interstate 81 Corridor Improvement Plan shall be considered a transportation-related purpose.

5. That the provisions of this act adding § 58.1-2217.1 to the Code of Virginia shall become effective July 1, 2021.

6. That no funds deposited into the Northern Virginia Transportation Authority Fund pursuant to this act shall be used to support bonds or other debt.

7. That for purposes of making the calculation pursuant to subdivision C 4 of § 33.2-2510, any revenues deposited into the Northern Virginia Transportation Authority Fund pursuant to this act shall be determined to be attributable to each locality based on the percentage of all other taxes generated by or attributable to each such locality for purposes of such subdivision.

8. That should any portion of this act be held unconstitutional by a court of competent jurisdiction, the remaining portions of this act shall remain in effect.

CHAPTER 838

An Act to amend the Code of Virginia by adding a section numbered 9.1-207.1, relating to firefighting foam management.

Approved April 3, 2019

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding a section numbered 9.1-207.1 as follows:

   § 9.1-207.1. Firefighting foam management.
   A. For purposes of this section, unless the context requires a different meaning:
      "Class B firefighting foam" means a foam designed for flammable liquid fires.
      "Local government" includes any locality, fire district, regional fire protection authority, or other special purpose district that provides firefighting services.
      "PFAS chemicals" means, for the purposes of firefighting agents, a class of fluorinated organic chemicals containing at least one fully fluorinated carbon atom and designed to be fully functional in class B firefighting foam formulations, including perfluorooalkyl and polyfluoroalkyl substances.
      "Testing" includes calibration testing, conformance testing, and fixed system testing.
   B. Beginning July 1, 2021, no person, local government, or agency of the Commonwealth shall discharge or otherwise use class B firefighting foam that contains intentionally added PFAS chemicals (i) for testing purposes, unless otherwise required by law or by the agency having jurisdiction over the testing facility, and with the condition that the testing facility has implemented appropriate containment, treatment, and disposal measures to prevent uncontrolled releases of foam to the environment or (ii) for training purposes, where such foam shall be replaced by nonfluorinated training foams.
   C. No provision of this section shall restrict (i) the manufacture, sale, or distribution of class B firefighting foam that contains intentionally added PFAS chemicals or (ii) the discharge or other use of such foams in emergency firefighting or fire prevention operations.
An Act to amend and reenact §§ 32.1-102.2, as it is currently effective and as it shall become effective, and 32.1-102.4 of the Code of Virginia, relating to certificate of public need; charity care.

Approved April 3, 2019

Be it enacted by the General Assembly of Virginia:

1. That §§ 32.1-102.2, as it is currently effective and as it shall become effective, and 32.1-102.4 of the Code of Virginia are amended and reenacted as follows:

§ 32.1-102.2. (Effective until July 1, 2019) Regulations.

A. The Board shall promulgate regulations which are consistent with this article and:

1. Shall establish concise procedures for the prompt review of applications for certificates consistent with the provisions of this article which may include a structured batching process which incorporates, but is not limited to, authorization for the Commissioner to request proposals for certain projects. In any structured batching process established by the Board, applications, combined or separate, for computed tomographic (CT) scanning, magnetic resonance imaging (MRI), positron emission tomographic (PET) scanning, radiation therapy, stereotactic radiotherapy, proton beam therapy, or nuclear imaging shall be considered in the radiation therapy batch. A single application may be filed for a combination of (i) radiation therapy, stereotactic radiotherapy and proton beam therapy, and (ii) any or all of the computed tomographic (CT) scanning, magnetic resonance imaging (MRI), positron emission tomographic (PET) scanning, and nuclear medicine imaging:

2. May classify projects and may eliminate one or more or all of the procedures prescribed in § 32.1-102.6 for different classifications;

3. May provide for exempting from the requirement of a certificate projects determined by the Commissioner, upon application for exemption, to be subject to the economic forces of a competitive market or to have no discernible impact on the cost or quality of health services;

4. Shall establish specific criteria for determining need in rural areas, giving due consideration to distinct and unique geographic, socioeconomic, cultural, transportation, and other barriers to access to care in such areas and providing for weighted calculations of need based on the barriers to health care access in such rural areas in lieu of the determinations of need used for the particular proposed project within the relevant health systems area as a whole;

5. May establish, on or after July 1, 1999, a schedule of fees for applications for certificates to be applied to expenses for the administration and operation of the certificate of public need program. Such fees shall not be less than $1,000 nor exceed the lesser of one percent of the proposed expenditure for the project or $20,000. Until such time as the Board shall establish a schedule of fees, such fees shall be one percent of the proposed expenditure for the project; however, such fees shall not be less than $1,000 or more than $20,000; and

6. Shall establish an expedited application and review process for any certificate for projects reviewable pursuant to subdivision 8 of the definition of "project" in § 32.1-102.1. Regulations establishing the expedited application and review procedure shall include provisions for notice and opportunity for public comment on the application for a certificate, and criteria pursuant to which an application that would normally undergo the review process would instead undergo the full certificate of public need review process set forth in § 32.1-102.6; and

7. Shall require every medical care facility subject to the requirements of this article, other than a nursing home, that is not a medical care facility for which a certificate with conditions imposed pursuant to subsection F of § 32.1-102.4 has been issued and that provides charity care, as defined in § 32.1-102.1, to annually report the amount of charity care provided.

B. The Board shall promulgate regulations providing for time limitations for schedules for completion and limitations on the exceeding of the maximum capital expenditure amount for all reviewable projects. The Commissioner shall not approve any such extension or excess unless it complies with the Board's regulations. However, the Commissioner may approve a significant change in cost for an approved project that exceeds the authorized capital expenditure by more than 20 percent, provided the applicant has demonstrated that the cost increases are reasonable and necessary under all the circumstances and do not result from any material expansion of the project as approved.

C. The Board shall also promulgate regulations authorizing the Commissioner to condition approval of a certificate on the agreement of the applicant to provide a level of care at a reduced rate to indigents or accept patients requiring specialized care. In addition, the Board's licensure regulations shall direct the Commissioner to condition the issuing or renewing of any license for any applicant whose certificate was approved upon such condition on whether such applicant has complied with any agreement to provide a level of care at a reduced rate to indigents or accept patients requiring specialized care.

§ 32.1-102.2. (Effective July 1, 2019) Regulations.

The Board shall promulgate regulations that are consistent with this article and:

1. Shall establish concise procedures for the prompt review of applications for certificates consistent with the provisions of this article which may include a structured batching process which incorporates, but is not limited to, authorization for the Commissioner to request proposals for certain projects. In any structured batching process established by the Board, applications, combined or separate, for computed tomographic (CT) scanning, magnetic resonance imaging...
for the administration and operation of the certificate of public need program. Such fees shall not be less than $1,000 nor exceed the lesser of one percent of the proposed expenditure for the project or $20,000. Until such time as the Board shall establish a schedule of fees, such fees shall be one percent of the proposed expenditure for the project; however, such fees shall not be less than $1,000 or more than $20,000; and

5. May establish, on or after July 1, 1999, a schedule of fees for applications for certificates to be applied to expenses for the administration and operation of the certificate of public need program. Such fees shall not be less than $1,000 nor exceed the lesser of one percent of the proposed expenditure for the project or $20,000. Until such time as the Board shall establish a schedule of fees, such fees shall be one percent of the proposed expenditure for the project; however, such fees shall not be less than $1,000 or more than $20,000; and

6. Shall establish an expedited application and review process for any certificate for projects reviewable pursuant to subdivision 8 of the definition of “project” in § 32.1-102.1. Regulations establishing the expedited application and review procedure shall include provisions for notice and opportunity for public comment on the application for a certificate, and criteria pursuant to which an application that would normally undergo the review process would instead undergo the full certificate of public need review process set forth in § 32.1-102.6; and

7. Shall require every medical care facility subject to the requirements of this article, other than a nursing home, that is not a medical care facility for which a certificate with conditions imposed pursuant to subsection F of § 32.1-102.4 has been issued and that provides charity care, as defined in § 32.1-102.1, to annually report the amount of charity care provided.

B. The Board shall promulgate regulations providing for time limitations for schedules for completion and limitations on the exceeding of the maximum capital expenditure amount for all reviewable projects. The Commissioner shall not approve any such extension or excess unless it complies with the Board’s regulations. However, the Commissioner may approve a significant change in cost for an approved project that exceeds the authorized capital expenditure by more than 20 percent, provided the applicant has demonstrated that the cost increases are reasonable and necessary under all the circumstances and do not result from any material expansion of the project as approved.

C. The Board shall also promulgate regulations authorizing the Commissioner to condition approval of a certificate on the agreement of the applicant to provide a level of charity care to indigent persons or accept patients requiring specialized care. In addition, the Board’s licensure regulations shall direct the Commissioner to condition the issuing or renewing of any license for any applicant whose certificate was approved upon such condition on whether such applicant has complied with any agreement to provide a level of charity care to indigent persons or accept patients requiring specialized care. Except in the case of nursing homes, the value of charity care provided to individuals pursuant to this subsection shall be based on the provider reimbursement methodology utilized by the Centers for Medicare and Medicaid Services for reimbursement under Title XVIII of the Social Security Act, 42 U.S.C. § 1395 et seq.

§ 32.1-102.4. Conditions of certificates; monitoring; revocation of certificates.

A. A certificate shall be issued with a schedule for the completion of the project and a maximum capital expenditure amount for the project. The schedule may not be extended and the maximum capital expenditure may not be exceeded without the approval of the Commissioner in accordance with the regulations of the Board.

B. The Commissioner shall monitor each project for which a certificate is issued to determine its progress and compliance with the schedule and with the maximum capital expenditure. The Commissioner shall also monitor all continuing care retirement communities for which a certificate is issued authorizing the establishment of a nursing home facility or an increase in the number of nursing home beds pursuant to § 32.1-102.3:2 and shall enforce compliance with the conditions for such applications which are required by § 32.1-102.3:2. Any willful violation of a provision of § 32.1-102.3:2 or conditions of a certificate of public need granted under the provisions of § 32.1-102.3:2 shall be subject to a civil penalty of up to $100 per violation per day until the date the Commissioner determines that such facility is in compliance.

C. A certificate may be revoked when:
   1. Substantial and continuing progress towards completion of the project in accordance with the schedule has not been made;
   2. The maximum capital expenditure amount set for the project is exceeded;
   3. The applicant has willfully or recklessly misrepresented intentions or facts in obtaining a certificate; or
   4. A continuing care retirement community applicant has failed to honor the conditions of a certificate allowing the establishment of a nursing home facility or granting an increase in the number of nursing home beds in an existing facility which was approved in accordance with the requirements of § 32.1-102.3:2.

(MRI), positron emission tomographic (PET) scanning, radiation therapy, stereotactic radiotherapy, proton beam therapy, or nuclear imaging shall be considered in the radiation therapy batch. A single application may be filed for a combination of (i) radiation therapy, stereotactic radiotherapy and proton beam therapy, and (ii) any or all of the computed tomographic (CT) scanning, magnetic resonance imaging (MRI), positron emission tomographic (PET) scanning, and nuclear medicine imaging;
D. Further, the Commissioner shall not approve an extension for a schedule for completion of any project or the exceeding of the maximum capital expenditure of any project unless such extension or excess complies with the limitations provided in the regulations promulgated by the Board pursuant to § 32.1-102.2.

E. Any person willfully violating the Board's regulations establishing limitations for schedules for completion of any project or limitations on the exceeding of the maximum capital expenditure of any project shall be subject to a civil penalty of up to $100 per violation per day until the date of completion of the project.

F. (Effective until July 1, 2019) The Commissioner may condition, pursuant to the regulations of the Board, the approval of a certificate (i) upon the agreement of the applicant to provide a level of care at a reduced rate to indigents or accept patients requiring specialized care or (ii) upon the agreement of the applicant to facilitate the development and operation of primary medical care services in designated medically underserved areas of the applicant's service area.

The certificate holder shall provide documentation to the Department demonstrating that the certificate holder has satisfied the conditions of the certificate. If the certificate holder is unable or fails to satisfy the conditions of a certificate, the Department may approve alternative methods to satisfy the conditions pursuant to a plan of compliance. The plan of compliance shall identify a timeframe within which the certificate holder will satisfy the conditions of the certificate, and identify how the certificate holder will satisfy the conditions of the certificate, which may include (a) making direct payments to an organization authorized under a memorandum of understanding with the Department to receive contributions satisfying conditions of a certificate, (b) making direct payments to a private nonprofit foundation that funds basic insurance coverage for indigents authorized under a memorandum of understanding with the Department to receive contributions satisfying conditions of a certificate, or (c) other documented efforts or initiatives to provide primary or specialized care to underserved populations. In cases in which the certificate holder holds more than one certificate with conditions pursuant to this subsection, and the certificate holder is unable to satisfy the conditions of one certificate, such plan of compliance may provide for satisfaction of the conditions on that certificate by providing care at a reduced rate to indigent individuals in excess of the amount required by another certificate issued to the same holder, in an amount approved by the Department provided such care is offered at the same facility. Nothing in the preceding sentence shall prohibit the satisfaction of conditions of more than one certificate among various affiliated facilities or certificates subject to a system-wide or all-inclusive charity care condition established by the Commissioner. In determining whether the certificate holder has met the conditions of the certificate pursuant to a plan of completion, only such direct payments, efforts, or initiatives made or undertaken after issuance of the conditioned certificate shall be counted towards satisfaction of conditions.

Any person willfully refusing, failing, or neglecting to honor such agreement shall be subject to a civil penalty of up to $100 per violation per day until the date of compliance.

F. (Effective July 1, 2019) The Commissioner may condition, pursuant to the regulations of the Board, the approval of a certificate (i) upon the agreement of the applicant to provide a level of charity care to indigent persons or accept patients requiring specialized care or (ii) upon the agreement of the applicant to facilitate the development and operation of primary medical care services in designated medically underserved areas of the applicant's service area. Except in the case of nursing homes, the value of charity care provided to individuals pursuant to this subsection shall be based on the provider reimbursement methodology utilized by the Centers for Medicare and Medicaid Services for reimbursement under Title XVIII of the Social Security Act, 42 U.S.C. § 1395 et seq.

The certificate holder shall provide documentation to the Department demonstrating that the certificate holder has satisfied the conditions of the certificate, including documentation of the amount of charity care provided to patients. If the certificate holder is unable or fails to satisfy the conditions of a certificate, the Department may approve alternative methods to satisfy the conditions pursuant to a plan of compliance. The plan of compliance shall identify a timeframe within which the certificate holder will satisfy the conditions of the certificate, and identify how the certificate holder will satisfy the conditions of the certificate, which may include (a) making direct payments to an organization authorized under a memorandum of understanding with the Department to receive contributions satisfying conditions of a certificate, (b) making direct payments to a private nonprofit foundation that funds basic insurance coverage for indigents authorized under a memorandum of understanding with the Department to receive contributions satisfying conditions of a certificate, or (c) other documented efforts or initiatives to provide primary or specialized care to underserved populations. In cases in which the certificate holder holds more than one certificate with conditions pursuant to this subsection, and the certificate holder is unable to satisfy the conditions of one certificate, such plan of compliance may provide for satisfaction of the conditions on that certificate by providing care at a reduced rate to indigent individuals in excess of the amount required by another certificate issued to the same holder, in an amount approved by the Department provided such care is offered at the same facility. Nothing in the preceding sentence shall prohibit the satisfaction of conditions of more than one certificate among various affiliated facilities or certificates subject to a system-wide or all-inclusive charity care condition established by the Commissioner. In determining whether the certificate holder has met the conditions of the certificate pursuant to a plan of compliance, only such direct payments, efforts, or initiatives made or undertaken after issuance of the conditioned certificate shall be counted towards satisfaction of conditions.

Any person willfully refusing, failing, or neglecting to honor such agreement shall be subject to a civil penalty of up to $100 per violation per day until the date of compliance.

G. The Commissioner shall (i) review every certificate of public need upon which conditions were imposed pursuant to subsection F at least once every three years to determine whether such conditions continue to be appropriate or should be
revised and (ii) notify each certificate holder of his conclusions regarding (a) the appropriateness of conditions imposed on the certificate and whether such conditions should be revised and (b) the process by which the certificate holder may request amendments to conditions imposed on a certificate in accordance with subsection H.

H. Pursuant to regulations of the Board, the Commissioner may accept requests for and approve amendments to conditions of existing certificates related to the provision of care at reduced rates or to patients requiring specialized care or related to the development and operation of primary medical care services in designated medically underserved areas of the certificate holder's service area.

II. For the purposes of this section, "completion" means conclusion of construction activities necessary for the substantial performance of the contract.

CHAPTER 840

An Act to amend and reenact §§ 38.2-3559 through 38.2-3562 of the Code of Virginia, relating to health carriers; expedited reviews of adverse coverage determinations; exhaustion of internal reviews; cancer patients.

Approved April 3, 2019

Be it enacted by the General Assembly of Virginia:

1. That §§ 38.2-3559 through 38.2-3562 of the Code of Virginia are amended and reenacted as follows:

§ 38.2-3559. Notice of right to external review.

A. A health carrier shall notify the covered person in writing of an adverse determination or final adverse determination and the covered person's right to request an external review. The notice of the right to request an external review shall include the following, or substantially similar, language: "We have denied your request for the provision of or payment for a health care service or course of treatment. You may have the right to have our decision reviewed by health care professionals who have no association with us if our decision involved making a judgment as to the medical necessity, appropriateness, health care setting, level of care, or effectiveness of the health care service or treatment you requested by submitting a request for external review to the Commission."

B. The notice of the right to request an external review of an adverse determination shall include the following statements informing the covered person that:

1. If the covered person has a medical condition where the time frame for completion of a standard external review would seriously jeopardize the life or health of the covered person or would jeopardize the covered person's ability to regain maximum function, the health carrier does not issue a written decision within 30 days following the date the appeal requesting a review is filed and the covered person or his authorized representative did not request or agree to a delay, the covered person or his authorized representative may file a request for an expedited external review pursuant to § 38.2-3562; and

2. If the final adverse determination involves an admission, availability of care, continued stay, or health care service for which the covered person received emergency services, but has not been discharged from a facility, the covered person or his authorized representative may file a request for an expedited external review pursuant to § 38.2-3562; and

3. If the final adverse determination involves a denial of coverage based on a determination that the recommended or requested health care service or treatment is experimental or investigational, the covered person or his authorized representative may file a request for a standard external review pursuant to § 38.2-3563; or if the covered person's treating physician certifies in writing that the recommended or requested health care service or treatment would be significantly less effective if not promptly initiated, the covered person or his authorized representative may file a request for an expedited external review pursuant to § 38.2-3563.

C. The notice of the right to request an external review of a standard or expedited external review shall include the following statements informing the covered person that:

1. If the covered person's adverse determination involves a medical condition where the time frame for completion of a standard external review would seriously jeopardize the life or health of the covered person or would jeopardize the covered person's ability to regain maximum function, the covered person or his authorized representative may file a request for an expedited external review pursuant to § 38.2-3562; and

2. If the final adverse determination involves an admission, availability of care, continued stay, or health care service for which the covered person received emergency services, but has not been discharged from a facility, the covered person or his authorized representative may file a request for an expedited external review pursuant to § 38.2-3562; and

3. If the final adverse determination involves a denial of coverage based on a determination that the recommended or requested health care service or treatment is experimental or investigational, the covered person or his authorized representative may file a request for a standard external review pursuant to § 38.2-3563; or if the covered person's treating physician certifies in writing that the recommended or requested health care service or treatment would be significantly less effective if not promptly initiated, the covered person or his authorized representative may file a request for an expedited external review pursuant to § 38.2-3563.
A. A request for an external review shall not be made until the covered person has exhausted the health carrier's internal appeal process if the internal appeal process has been deemed to be exhausted or waived, a covered person or his authorized representative may file a request for an expedited external review of the adverse determination at the same time. Upon receipt of a request for an expedited external review of an adverse determination, the independent review organization conducting the external review shall determine whether the covered person shall be required to complete the health carrier's expedited internal appeal process before it conducts the expedited external review. The independent review organization shall promptly notify the covered person and his authorized representative, if any, of this determination, and either proceed with the expedited external review or wait until completion of the internal expedited appeal process.

B. A request for an external review of an adverse determination may be made before the covered person has exhausted the health carrier's internal appeal process whenever the health carrier agrees to waive the exhaustion requirement. If the exhaustion requirement is waived, the covered person or his authorized representative may file a request in writing for a standard external review.

§ 38.2-3561. Standard external review.

A. Within 120 days after the date of receipt of a notice of the right to an external review of a final adverse determination or an adverse determination if the internal appeal process has been deemed to be exhausted or waived, a covered person or his authorized representative may file a request for an external review in writing with the Commission. Within one business day after the date of receipt of a request for external review, the Commission shall send a copy of the request to the health carrier.

B. Within five business days following the date of receipt of the external review request from the Commission, the health carrier shall complete a preliminary review of the request to determine whether:

1. The individual is or was a covered person at the time the health care service was requested or, in the case of a retrospective review, was a covered person at the time the health care service was provided;
2. The health care service is a covered service, except as excluded for not meeting the health carrier's requirements for medical necessity, appropriateness, health care setting, level of care, or effectiveness;
3. The covered person has exhausted or is deemed to have exhausted the health carrier's internal appeal process, provided that a covered person's exhaustion of the health carrier's internal appeal process shall not be required if the adverse determination relates to the treatment of a cancer of the covered person; and
4. All the information and forms required to process the external review are complete.

C. Within one business day after completion of the preliminary review, the health carrier shall notify in writing the Commission, the covered person, and his authorized representative, if any, whether the request is complete and eligible for external review and, if ineligible, the reasons for ineligibility. If the request is not complete, the notice shall include what information or materials are needed to make the request complete. Such notice shall include a statement informing the covered person and his authorized representative, if any, that the health carrier's determination of ineligibility may be appealed to the Commission. If the health carrier makes an ineligibility determination, the Commission may determine that a request is eligible for external review and require that it be referred for external review. In making this determination, the Commission's decision shall be made in accordance with the terms of the covered person's health benefit plan and the requirements of subsection B.

D. Within one business day after the date of receipt of the notice described in subsection C, the Commission shall assign an independent review organization to conduct the external review and notify in writing the health carrier, the covered person, and his authorized representative, if any, of the request's eligibility and acceptance for external review and the name of the assigned independent review organization. The Commission shall include in such notice a statement that the covered person or his authorized representative may submit in writing to the assigned independent review organization, within five business days following the date of receipt, additional information that the independent review organization shall consider when conducting the external review.

E. Within five business days after the date of receipt of the notice from the Commission, the health carrier or its designee utilization review entity shall provide to the assigned independent review organization the documents and any information considered in making the adverse determination or final adverse determination. Failure by the health carrier or its utilization review entity to provide the documents and information within the time specified shall not delay the conduct of the external review. If the health carrier or its utilization review entity fails to provide the documents and information
within the time specified, the assigned independent review organization may terminate the external review and make a
decision to reverse the adverse determination or final adverse determination. Within one business day after making such
decision, the independent review organization shall notify the covered person, his authorized representative, if any, the
health carrier, and the Commission.

F. The assigned independent review organization shall review all of the information and documents timely received
from the health carrier and any other information submitted in writing by the covered person or his authorized
representative. The independent review organization is not required to, but may, accept and consider information submitted
late from the covered person or his authorized representative, if any. Upon receipt of any information submitted by the
covered person or his authorized representative, the assigned independent review organization shall within one business day
forward the information to the health carrier.

G. Upon receipt of the information from the assigned independent review organization, the health carrier may
reconsider its adverse determination or final adverse determination. Reconsideration by the health carrier of its adverse
determination or final adverse determination shall not delay or terminate the external review. The external review may only
be terminated if the health carrier decides to reverse its adverse determination or final adverse determination and provide
coverage or payment for the health care service. Within one business day after making the decision to reverse its adverse
determination or final adverse determination, the health carrier shall notify the covered person, his authorized
representative, if any, the assigned independent review organization, and the Commission in writing of its decision. Upon
receipt of the notice of the health carrier's decision to reverse its adverse determination or final adverse determination, the
assigned independent review organization shall terminate the external review.

H. The assigned independent review organization, to the extent the information or documents are available and the
independent review organization considers them appropriate, shall also consider the following in reaching a decision:
1. The covered person's medical records;
2. The attending health care professional's recommendation;
3. Consulting reports from appropriate health care professionals and other documents submitted by the health carrier,
covered person, his authorized representative, or the covered person's treating provider;
4. The terms of coverage under the covered person's health benefit plan;
5. The most appropriate practice guidelines, which shall include applicable evidence-based standards and may include
any other practice guidelines developed by the federal government or national or professional medical societies, boards, and
associations;
6. Any applicable clinical review criteria developed and used by the health carrier or its designee utilization review
entity; and
7. The opinion of the independent review organization's clinical reviewer or reviewers after considering the
information or documents described in subdivisions 1 through 6 to the extent the information or documents are available
and the clinical reviewer or reviewers consider appropriate.

In reaching a decision, the assigned independent review organization shall not be bound by any decisions or
conclusions reached during the health carrier's utilization review process or the internal appeal process.

I. Within 45 days after the date of receipt of the request for an external review, the assigned independent review
organization shall provide written notice of its decision to uphold or reverse the adverse determination or the final adverse
determination to the covered person, his authorized representative, if any, the health carrier, and the Commission. The
independent review organization shall include in such notice: a general description of the reason for the request for external
review; the date the independent review organization received the assignment from the Commission to conduct the external
review; the date the external review was conducted; the date of its decision; the principal reason or reasons for its decision,
including what applicable, if any, evidence-based standards were a basis for its decision; the rationale for its decision; and
references to the evidence or documentation, including evidence-based standards, considered in reaching its decision.

J. Upon receipt of a notice reversing the adverse determination or final adverse determination, the health carrier
promptly shall approve the coverage.

§ 38.2-3562. Expedited external review.
A. A covered person or his authorized representative may make a request for an expedited external review with the
Commission at the time the covered person receives:
1. An adverse determination if the adverse determination involves (i) cancer or (ii) a medical condition of the covered
person for which the time frame for completion of an expedited internal appeal involving an adverse determination would
seriously jeopardize the life or health of the covered person or would jeopardize the covered person's ability to regain
maximum function, and the covered person or his authorized representative has filed a request for an expedited internal
appeal of the adverse determination; or
2. A final adverse determination if the covered person has (i) cancer or (ii) a medical condition where the time frame
for completion of a standard external review would seriously jeopardize the life or health of the covered person or would
jeopardize the covered person's ability to regain maximum function, or if the final adverse determination concerns an
admission, availability of care, continued stay, or health care service for which the covered person received emergency
services, but has not been discharged from a facility.

B. Upon receipt of a request for an expedited external review, the Commission shall promptly send a copy of the
request to the health carrier. Promptly upon receipt of such request, the health carrier shall determine whether the request
meets the eligibility requirements in subsection B of § 38.2-3561. The health carrier shall promptly notify the Commission, the covered person, and his authorized representative, if any, of its eligibility determination. Such notice shall include a statement informing the covered person and his authorized representative, if any, that the health carrier's determination of ineligibility may be appealed to the Commission. If the health carrier makes an ineligibility determination, the Commission may determine that a request is eligible for external review and require that it be referred for external review. In making such determination, the Commission decision shall be made in accordance with the terms of the covered person's health benefit plan and the requirements of subsection B of § 38.2-3561.

Upon receipt of the notice that the request meets the eligibility requirements, the Commission shall promptly assign an independent review organization to conduct the expedited external review. The Commission shall promptly notify the health carrier of the name of the assigned independent review organization.

C. Promptly upon receipt of the notice from the Commission of the name of the independent review organization assigned, the health carrier or its designee utilization review entity shall provide or transmit all necessary documents and information considered in making the adverse determination or final adverse determination to the assigned independent review organization electronically, by telephone, facsimile, or any other available expeditious method.

D. The assigned independent review organization, to the extent the information or documents are available and the independent review organization considers them appropriate, shall also consider the following in reaching a decision:

1. The covered person’s pertinent medical records;
2. The attending health care professional’s recommendation;
3. Consulting reports from appropriate health care professionals and other documents submitted by the health carrier, covered person, his authorized representative, or the covered person's treating provider;
4. The terms of coverage under the covered person's health benefit plan;
5. The most appropriate practice guidelines, which shall include evidence-based standards, and may include any other practice guidelines developed by the federal government or national or professional medical societies, boards, and associations;
6. Any applicable clinical review criteria developed and used by the health carrier or its designee utilization review entity in making adverse determinations; and
7. The opinion of the independent review organization’s clinical reviewer or reviewers after considering the information and documents described in clauses 1 through 6 to the extent the information and documents are available and the clinical reviewer or reviewers consider appropriate.

In reaching a decision, the assigned independent review organization is not bound by any decisions or conclusions reached during the health carrier's utilization review process or internal appeal process.

E. As expeditiously as the covered person's medical condition or circumstances requires, but in no event more than 72 hours after the date of receipt of an eligible request for an expedited external review, the assigned independent review organization shall make a decision to uphold or reverse the adverse determination or final adverse determination and notify the covered person, his authorized representative, if any, the health carrier, and the Commission. If such decision was not in writing, within 48 hours after the date of providing such decision, the assigned independent review organization shall provide written confirmation of the decision to the covered person, his authorized representative, if any, the health carrier, and the Commission and include the information set forth in subsection I of § 38.2-3561.

F. Upon receipt of a decision reversing the adverse determination or final adverse determination, the health carrier shall promptly approve the coverage.

G. An expedited external review shall not be available for retrospective adverse determinations or retrospective final adverse determinations.

2. That an emergency exists and this act is in force from its passage.

In any court or legal proceeding in which any question arises about the calibration or accuracy of any laser speed determination device, radar, or microcomputer device, or handheld photo speed monitoring device as described in this section, or has received a radio message from the officer who observed the speed of the motor vehicle registered by the laser speed determination device, radar, or microcomputer device as described in this section. However, in case of an arrest based on such a message, such radio message shall have been dispatched immediately after the speed of the motor vehicle was registered and furnished the license number or other positive identification of the vehicle and the registered speed to the arresting officer.

An Act to amend and reenact § 46.2-882 of the Code of Virginia and to amend the Code of Virginia by adding a section numbered 46.2-882.1, relating to handheld photo speed monitoring devices.

Approved April 3, 2019

The speed of any motor vehicle may be determined by the use of (i) a laser speed determination device, (ii) radar, (iii) a microcomputer device that is physically connected to an odometer cable and both measures and records distance traveled and elapsed time to determine the average speed of a motor vehicle, or (iv) a microcomputer device that is located aboard an airplane or helicopter and measures and records distance traveled and elapsed time to determine the average speed of a motor vehicle being operated on highways within the Interstate System of highways as defined in § 33.2-100, or (v) a handheld photo speed monitoring device as defined in § 46.2-882.1. The results of such determinations shall be accepted as prima facie evidence of the speed of such motor vehicle in any court or legal proceeding where the speed of the motor vehicle is at issue.

In any court or legal proceeding in which any question arises about the calibration or accuracy of any laser speed determination device, radar, or microcomputer device, or handheld photo speed monitoring device as described in this section, or has received a radio message from the officer who observed the speed of the motor vehicle registered by the laser speed determination device, radar, or microcomputer device as described in this section. All localities may use laser and radar speed determination devices to measure speed. The Cities of Alexandria, Fairfax, Falls Church, Manassas, and Manassas Park and the Counties of Arlington, Fairfax, Loudoun, and Prince William and towns within such counties may use microcomputer devices as described in this section.

The Division of Purchases and Supply, pursuant to § 2.2-1112, shall determine the proper equipment used to determine the speed of motor vehicles and shall advise the respective law-enforcement officials of the same. Police chiefs and sheriffs shall ensure that all such equipment and devices purchased on or after July 1, 1986, meet or exceed the standards established by the Division.

§ 46.2-882.1. Use of handheld photo speed monitoring devices in highway work zones; penalty.

A. For the purposes of this section:

"Handheld photo speed monitoring device" means handheld equipment that uses LIDAR-based speed detection that produces one or more photographs, microphotographs, videotapes, or other recorded images of vehicles.

"Highway work zone" has the same meaning ascribed to it in § 46.2-878.1.

B. The Department of State Police may operate a handheld photo speed monitoring device in highway work zones for the purpose of recording violations of § 46.2-878.1.

1. A handheld photo speed monitoring device may be used only by a law-enforcement officer employed by the Department of State Police who is physically present in or around the highway work zone where a law-enforcement vehicle is present and displaying lighted blue or blue combination lights to record images of vehicles that are traveling at speeds of at least 12 miles per hour above the posted highway work zone speed limit within such highway work zone.

2. The operator of a vehicle shall be liable for a monetary civil penalty imposed pursuant to this section if such vehicle is found, as evidenced by information obtained from a handheld photo speed monitoring device, to be traveling at speeds of at least 12 miles per hour above the posted highway work zone speed limit within such highway work zone. Such civil penalty shall not exceed $125, and any prosecution shall be instituted and conducted in the same manner as prosecution for traffic infractions. Civil penalties collected under this section shall be paid into the state treasury and allocated to the...
Department of State Police. For any fiscal year, if the total amount collected from the penalties pursuant to this section is greater than 10 percent of the budget of the Department of State Police for the fiscal year after the costs of implementing and administering handheld photo speed monitoring devices are recovered, the state treasury shall allocate such moneys that exceed 10 percent of the total budget of the Department of State Police to the Literary Fund.

3. If a handheld photo speed monitoring device is used, proof of a violation of § 46.2-878.1 shall be evidenced by information obtained from such device. A certificate, or a facsimile thereof, sworn to or affirmed by a Virginia State Police officer, based upon inspection of photographs, microphotographs, videotape, or other recorded images produced by a handheld photo speed monitoring device, shall be prima facie evidence of the facts contained therein. Any photographs, microphotographs, videotape, or other recorded images evidencing such a violation shall be available for inspection in any proceeding to adjudicate the liability for such violation of § 46.2-878.1.

4. In the prosecution for a violation of § 46.2-878.1 in which a summons was issued pursuant to this section, prima facie evidence that the vehicle described in the summons issued pursuant to this section was operated in violation of § 46.2-878.1, together with proof that the defendant was at the time of such violation the owner, lessee, or renter of the vehicle, shall constitute in evidence a rebuttable presumption that such owner, lessee, or renter of the vehicle was the person who committed the violation. Such presumption shall be rebutted if the owner, lessee, or renter of the vehicle (i) files an affidavit by regular mail with the clerk of the general district court that he was not the operator of the vehicle at the time of the alleged violation or (ii) testifies in open court under oath that he was not the operator of the vehicle at the time of the alleged violation. Such presumption shall also be rebutted if a certified copy of a police report, showing that the vehicle had been reported to the police as stolen prior to the time of the alleged violation of § 46.2-878.1, is presented, prior to the return date established on the summons issued pursuant to this section, to the court adjudicating the alleged violation.

5. Imposition of a penalty pursuant to this section shall not be deemed a conviction as an operator and shall not be made part of the operating record of the person upon whom such liability is imposed, nor shall it be used for insurance purposes in the provision of motor vehicle insurance coverage.

6. A summons for a violation of § 46.2-878.1 issued pursuant to this section shall be executed by mailing by first-class mail a copy thereof to the owner, lessee, or renter of the vehicle. In the case of a vehicle owner, the copy shall be mailed to the address contained in the records of or accessible to the Department; in the case of a vehicle lessee or renter, the copy shall be mailed to the address contained in the records of the lessor or renter. Every such mailing shall include, in addition to the summons, a notice of (i) the summoned person's ability to rebut the presumption that he was the operator of the vehicle at the time of the alleged violation through the filing of an affidavit as provided in subdivision 4 and (ii) instructions for filing such affidavit, including the address to which the affidavit is to be sent. If the summoned person fails to appear on the date of return set out in the summons mailed pursuant to this section, the summons shall be executed in the manner set out in § 19.2-76.3. No proceedings for contempt or arrest of a person summoned by mailing shall be instituted for failure to appear on the return date of the summons. If the summons is issued to an owner, lessee, or renter of a vehicle with a registration outside the Commonwealth and such person fails to appear on the date of return set out in the summons mailed pursuant to this section, the summons will be eligible for all legal collections activities. Any summons executed for a violation of § 46.2-878.1 issued pursuant to this section shall provide to the person summoned at least 30 days from the mailing of the summons to inspect information collected by a handheld photo speed monitoring device in connection with the violation. If the Department of State Police does not execute a summons for a violation of § 46.2-878.1 issued pursuant to this section within 14 days from the date of the violation, all information collected pertaining to that suspected violation shall be purged within 16 days from the date of the violation.

7. Information collected by a handheld photo speed monitoring device operated pursuant to this section shall be limited exclusively to that information that is necessary for the enforcement of highway work zone speed violations. Information provided to the operator of a handheld photo speed monitoring device shall be protected in a database with security comparable to that of the Department's system and used only for enforcement against individuals who violate the provisions of this section or § 46.2-878.1. Notwithstanding any other provision of law, all photographs, microphotographs, electronic images, or other personal information collected by a handheld photo speed monitoring device shall be used exclusively for enforcing highway work zone speed limits and shall not be (i) open to the public; (ii) sold or used for sales, solicitation, or marketing purposes; (iii) disclosed to any other entity except as may be necessary for the enforcement of highway work zone speed limits or to a vehicle owner or operator as part of a challenge to the violation; or (iv) used in a court in a pending action or proceeding unless the action or proceeding relates to a violation of this section or § 46.2-878.1, or such information is requested upon order from a court of competent jurisdiction. Information collected under this section pertaining to a specific violation shall be purged and not retained later than 60 days after the collection of any civil penalties. Any Virginia State Police division using handheld photo speed monitoring devices shall annually certify compliance with this section and make all records pertaining to such system available for inspection and audit by the Commissioner of Highways or the Commissioner of the Department of Motor Vehicles or his designee. Any person who discloses personal information in violation of the provisions of this subdivision shall be subject to a civil penalty of $1,000 per disclosure.

8. A conspicuous sign shall be placed within 1,000 feet of any highway work zone at which a handheld photo speed monitoring device is used, indicating the use of the device. There shall be a rebuttable presumption that such sign was in place at the time of the commission of the speed limit violation.
2. That a private entity may enter into an agreement with the Department of State Police to be compensated for providing a handheld photo speed monitoring device and all related support services, including consulting, operations, and administration. However, only a law-enforcement officer employed by the Department of State Police may operate a handheld photo speed monitoring device and only a law-enforcement officer employed by the Department of State Police may swear to or affirm the certificate required by subdivision B 3 of § 46.2-882.1 of the Code of Virginia, as created by this act. The Department of State Police shall enter into an agreement for compensation based on the value of the goods and services provided, not on the number of violations paid or monetary penalties imposed.

3. That the provisions of the first and second enactments of this act shall not become effective unless reenacted by the 2020 Session of the General Assembly.

4. The Secretary of Public Safety and Homeland Security, in consultation with the Virginia State Police, the Virginia Sheriffs' Association, and the Virginia Association of Chiefs of Police, shall review the proposed use of handheld photo speed monitoring devices and consider legal and constitutional implications of dedicating civil penalties to any fund other than the Literary Fund. The Secretary of Public Safety and Homeland Security shall report the results of such review to the Chairmen of the Senate Committee for Courts of Justice, the Senate Committee on Finance, the House Committee for Courts of Justice, and the House Committee on Appropriations by November 1, 2019.

B. In addition to any penalties imposed pursuant to subsection A, if the court finds that any officer, employee, or member of a public body failed to provide public records to a requester in accordance with the provisions of this chapter because such officer, employee, or member altered or destroyed the requested public records with the intent to avoid the provisions of this chapter with respect to such request prior to the expiration of the applicable record retention period set by the retention regulations promulgated pursuant to the Virginia Public Records Act (§ 42.1-76 et seq.) by the State Library Board, the court may impose upon such officer, employee, or member in his individual capacity, whether or not a writ of mandamus or injunctive relief is awarded, a civil penalty of up to $100 per record altered or destroyed, which amount shall be paid into the Literary Fund.

In determining whether a civil penalty is appropriate, the court shall consider mitigating factors, including reliance of members of the public body on (i) opinions of the Attorney General, (ii) court cases substantially supporting the rationale of the public body, and (iii) published opinions of the Freedom of Information Advisory Council.

CHAPTER 845

An Act to amend and reenact § 40.1-29 of the Code of Virginia, relating to payment of wages; statement of earnings.

[S 1696]

Approved April 3, 2019

Be it enacted by the General Assembly of Virginia:

1. That § 40.1-29 of the Code of Virginia is amended and reenacted as follows:

§ 40.1-29. Time and medium of payment; withholding wages; written statement of earnings; agreement for forfeiture of wages; proceedings to enforce compliance; penalties.

A. 1. All employers operating a business shall establish regular pay periods and rates of pay for employees except executive personnel. All such employers shall pay salaried employees at least once each month and employees paid on an hourly rate at least once every two weeks or twice in each month, except that (i) a student who is currently enrolled in a work-study program or its equivalent administered by any secondary school, institution of higher education or trade school, and (ii) employees whose weekly wages total more than 150 percent of the average weekly wage of the Commonwealth as defined in § 65.2-500, upon agreement by each affected employee, may be paid once each month if the institution or employer so chooses. Upon termination of employment an employee shall be paid all wages or salaries due him for work performed prior thereto; such payment shall be made on or before the date on which he would have been paid for such work had his employment not been terminated.

2. Any such employer who knowingly fails to make payment of wages in accordance with this section shall be subject to a civil penalty not to exceed $1,000 for each violation. The Commissioner shall notify any employer who he alleges has violated any provision of this section by certified mail. Such notice shall contain a description of the alleged violation. Within 15 days of receipt of notice of the alleged violation, the employer may request an informal conference regarding such violation with the Commissioner. In determining the amount of any penalty to be imposed, the Commissioner shall consider the size of the business of the employer charged and the gravity of the violation. The decision of the Commissioner shall be final.

B. Payment of wages or salaries shall be (i) in lawful money of the United States, (ii) by check payable at face value upon demand in lawful money of the United States, (iii) by electronic automated fund transfer in lawful money of the United States into an account in the name of the employee at a financial institution designated by the employee, or (iv) by credit to a prepaid debit card or card account from which the employee is able to withdraw or transfer funds with full written disclosure by the employer of any applicable fees and affirmative consent thereto by the employee. However, an employer that elects not to pay wages or salaries in accordance with clause (i) or (ii) to an employee who is hired after January 1, 2010, shall be permitted to pay wages or salaries by credit to a prepaid debit card or card account in accordance with clause (iv), even though such employee has not affirmatively consented thereto, if the employee fails to designate an account at a financial institution in accordance with clause (iii) and the employer arranges for such card or card account to be issued through a network system through which the employee shall have the ability to make at least one free withdrawal or transfer per pay period, which withdrawal may be for any sum in such card or card account as the employee may elect, using such card or card account at financial institutions participating in such network system.
C. No employer shall withhold any part of the wages or salaries of any employee except for payroll, wage or withholding taxes and in accordance with law, without the written and signed authorization of the employee. An employer engaged in agricultural employment including agribusiness and forestry, upon request of his employee, shall furnish the latter a written statement of the gross wages earned by the employee during any pay period and the amount and purpose of any deductions therefrom. An employer engaged in agricultural employment including agribusiness and forestry, upon request of its employee, shall furnish the employee a written statement of the gross wages earned by the employee during any pay period and the amount and purpose of any deductions therefrom.

D. No employer shall require any employee, except executive personnel, to sign any contract or agreement which provides for the forfeiture of the employee's wages for time worked as a condition of employment or the continuance thereof, except as otherwise provided by law.

E. An employer who willfully and with intent to defraud fails or refuses to pay wages in accordance with this section:

1. To an employee or employees is guilty of a Class 1 misdemeanor if the value of the wages earned and not paid by the employer is less than $10,000; and

2. To an employee or employees is guilty of a Class 6 felony (i) if the value of the wages earned and not paid is $10,000 or more or (ii) regardless of the value of the wages earned and not paid, if the conviction is a second or subsequent conviction under this section.

For purposes of this section, the determination as to the "value of the wages earned" shall be made by combining all wages the employer failed or refused to pay pursuant to this section.

F. The Commissioner may require a written complaint of the violation of this section and, with the written and signed consent of an employee, may institute proceedings on behalf of an employee to enforce compliance with this section, and to collect any moneys unlawfully withheld from such employee which shall be paid to the employee entitled thereto. In addition, following the issuance of a final order by the Commissioner or a court, the Commissioner may engage private counsel, approved by the Attorney General, to collect any moneys owed to the employee or the Commonwealth. Upon entry of a final order of the Commissioner, or upon entry of a judgment, against the employer, the Commissioner or the court shall assess attorney's fees of one-third of the amount set forth in the final order or judgment.

G. In addition to being subject to any other penalty provided by the provisions of this section, any employer who fails to make payment of wages in accordance with subsection A shall be liable for the payment of all wages due, plus interest at an annual rate of eight percent accruing from the date the wages were due.

H. Civil penalties owed under this section shall be paid to the Commissioner for deposit into the general fund of the State Treasurer. The Commissioner shall prescribe procedures for the payment of proposed assessments of penalties which are not contested by employers. Such procedures shall include provisions for an employer to consent to abatement of the alleged violation and pay a proposed penalty or a negotiated sum in lieu of such penalty without admission of any civil liability arising from such alleged violation.

Final orders of the Commissioner, the general district courts or the circuit courts may be recorded, enforced and satisfied as orders or decrees of a circuit court upon certification of such orders by the Commissioner or the court as appropriate.

2. That the provisions of this act shall become effective on January 1, 2020.

   a. Used in the transportation of agricultural products of the farm he is working to market, or to other points for sale or processing, or when used to transport materials, tools, equipment, or supplies which are to be used or consumed on the farm he is working, or when used for any other transportation incidental to the regular operation of such farm;
   b. Used in transporting forest products, including forest materials originating on a farm or incident to the regular operation of a farm, to the farm he is working or transporting for any purpose forest products which originate on the farm he is working; or
   c. Used in the transportation of farm produce, supplies, equipment, or materials to a farm not worked by him, pursuant to a mutual cooperative agreement.
2. When the nonfarm use of such motor vehicle is limited to the personal use of the owner and his immediate family in attending church or school, securing medical treatment or supplies, or securing other household or family necessities.
C. As used in this section, the term "farm" means one or more areas of land used for the production, cultivation, growing, or harvesting of agricultural products, but does not include a tree farm that is not also a nursery or Christmas tree farm, unless it is part of what otherwise is a farm. As used in this section, the term "agricultural products" means any nursery plants; Christmas trees; horticultural, viticultural, and other cultivated plants and crops; aquaculture; dairy; livestock; poultry; bee; or other farm products.
D. The first application for registration of a vehicle under this section shall be made on forms provided by the Department and shall include:
   1. The location and acreage of each farm on which the vehicle to be registered is to be used;
   2. The type of agricultural commodities, poultry, dairy products or livestock produced on such farms and the approximate amounts produced annually;
   3. A statement, signed by the vehicle's owner, that the vehicle to be registered will only be used for one or more of the purposes specified in subsection B; and
   4. Other information required by the Department.

The above information is not required for the renewal of a vehicle's registration under this section.

E. The Department shall issue appropriately designated license plates for those motor vehicles registered under this section. The manner in which such license plates are designated shall be at the discretion of the Commissioner.

F. The owner of a farm vehicle shall inform the Commissioner within 30 days or at the time of his next registration renewal, whichever comes first, when such vehicle is no longer used exclusively for farm use as defined in this section, and shall pay the appropriate registration fee for the vehicle based on its type of operation. It shall constitute a Class 2 misdemeanor to: (i) operate or to permit the operation of any farm motor vehicle for which the fee for registration and license plates is herein prescribed on any highway in the Commonwealth without first having paid the prescribed registration fee; or (ii) operate or permit the operation of any motor vehicle, registered under this section, for purposes other than as provided under subsection B; or (iii) operate as a for-hire vehicle.

G. Nothing in this section shall affect the exemptions of agricultural and horticultural vehicles under §§ 46.2-664 through 46.2-670.

H. Notwithstanding other provisions of this section, vehicles licensed under this section may be used by volunteer emergency medical services personnel and volunteer firefighters in responding to emergency calls, in reporting for regular duty, and in attending emergency medical services agency or fire company meetings and drills.

§ 46.2-702.1:2. Distribution of certain other revenues.
A. Except as provided in subsection B, net additional revenues shall be deposited as follows: (i) an amount equal to such net additional revenues multiplied by a ratio of the vehicle miles traveled on Interstate 81 by vehicles classified as Class 6 or higher by the Federal Highway Administration to the total vehicle miles traveled on all interstate highways in the Commonwealth by vehicles classified as Class 6 or higher by the Federal Highway Administration into the Interstate 81 Corridor Improvement Fund established pursuant to § 33.2-3601; (ii) an amount equal to such net additional revenues multiplied by a ratio of the vehicle miles traveled on the portion of interstate highways located within the boundaries of Planning District 8 by vehicles classified as Class 6 or higher by the Federal Highway Administration to total vehicle miles traveled on all interstate highways in the Commonwealth by vehicles classified as Class 6 or higher by the Federal Highway Administration into the Interstate 81 Corridor Improvement Fund established pursuant to § 33.2-3601; (ii) an amount equal to such net additional revenues multiplied by a ratio of the vehicle miles traveled on Interstate 81 by vehicles classified as Class 6 or higher by the Federal Highway Administration into the Interstate 81 Corridor Improvement Fund established pursuant to § 33.2-3601; and (iii) all remaining net additional revenues to the Commonwealth Transportation Board for use for operational improvements and other enhancements to improve the safety and reliability of, and travel flow along, interstate highway corridors in the Commonwealth. The Board shall ensure that for any interstate highway with more than 10 percent of total interstate truck vehicle miles traveled that the total long-term expenditure for each such interstate highway is approximately equal to the proportional revenue subject to clause (iii) that is attributable to such interstate highway.

B. In the case of vehicles registered under the International Registration Plan, an amount that is approximately equal to the net additional revenues attributable to such vehicles shall be deposited as follows: (i) an amount equal to such net additional revenues multiplied by a ratio of the vehicle miles traveled on Interstate 81 by vehicles classified as Class 6 or higher by the Federal Highway Administration to the total vehicle miles traveled on all interstate highways in the Commonwealth by vehicles classified as Class 6 or higher by the Federal Highway Administration into the Interstate 81 Corridor Improvement Fund established pursuant to § 33.2-3601; and (iii) all remaining net additional revenues to the Commonwealth Transportation Board for use for operational improvements and other enhancements to improve the safety and reliability of, and travel flow along, interstate highway corridors in the Commonwealth. The Board shall ensure that for any interstate highway with more than 10 percent of total interstate truck vehicle miles traveled that the total long-term expenditure for each such interstate highway is approximately equal to the proportional revenue subject to clause (iii) that is attributable to such interstate highway.

C. For purposes of this section, "net additional revenues" means the additional revenues, minus any refunds or remittances required to be paid, generated by (i) the additional fee imposed pursuant to subsection A of § 46.2-697.2 and (ii) increases in the registration fees under § 46.2-697 made pursuant to subsection B of § 46.2-697.2.

§ 58.1-2217.1. Additional taxes levied; rate.
A. In addition to all other taxes imposed by this chapter, there is hereby levied an additional tax per gallon on diesel fuel. Beginning July 1, 2021, the rate of such tax shall be 2.03 percent of the statewide average wholesale price of a gallon of diesel fuel for the applicable base period, excluding federal and state excise taxes, as determined by the Commissioner.
B. The Commissioner shall use the period from December 1 through May 31 as the base period for such determination for the immediately following period beginning July 1 and ending December 31, inclusive. The period from June 1 through November 30 shall be the next base period for the immediately following period beginning January 1 and ending June 30, inclusive. In no case shall the average wholesale price computed for purposes of this section be less than the statewide average wholesale price of a gallon of diesel fuel on February 20, 2013.

C. Blended fuel that contains diesel fuel shall be taxed at the rate levied on diesel fuel.

D. The tax imposed by this section shall be collected in the same manner as other taxes imposed pursuant to this chapter.

E. The revenues generated by the tax imposed by this section shall be distributed as follows: (i) an amount equal to such net revenues multiplied by a ratio of the vehicle miles traveled on Interstate 81 by vehicles classified as Class 6 or higher by the Federal Highway Administration to the total vehicle miles traveled on all interstate highways in the Commonwealth by vehicles classified as Class 6 or higher by the Federal Highway Administration into the Interstate 81 Corridor Improvement Fund established pursuant to § 33.2-3601; (ii) an amount equal to such net revenues multiplied by a ratio of the vehicle miles traveled on the portion of interstate highways located within the boundaries of Planning District 8 by vehicles classified as Class 6 or higher by the Federal Highway Administration to total vehicle miles traveled on all interstate highways in the Commonwealth by vehicles classified as Class 6 or higher by the Federal Highway Administration into the Northern Virginia Transportation Authority Fund established pursuant to § 33.2-2509; and (iii) all remaining net revenues to the Commonwealth Transportation Board for use for operational improvements and other enhancements to improve the safety and reliability of, and travel flow along, interstate highway corridors in the Commonwealth. The Board shall ensure that for any interstate highway with more than 10 percent of total interstate truck vehicle miles traveled that the total long-term expenditure for each such interstate highway is approximately equal to the proportional revenue subject to clause (iii) that is attributable to such interstate highway.

§ 58.1-2295.1. Levy of tax in Interstate 81 Corridor; payment of tax.

A. In addition to all other taxes now imposed by law, there is hereby imposed a tax upon every distributor who engages in the business of selling fuels at wholesale to retail dealers for retail sale in any county or city in Planning District 3, 4, 5, 6, or 7, as established pursuant to Chapter 42 (§ 15.2-4200 et seq.) of Title 15.2.

B. 1. The tax shall be imposed on each gallon of fuel, other than diesel fuel, sold by a distributor to a retail dealer for retail sale in any such county or city described in subsection A at a rate of 2.1 percent of the statewide average distributor price of a gallon of unleaded regular gasoline as determined by the Commissioner pursuant to subdivision C 1. For alternative fuels other than liquid alternative fuels, the Commissioner shall determine an equivalent tax rate based on gasoline gallon equivalence.

2. The tax shall be imposed on each gallon of diesel fuel sold by a distributor to a retail dealer for retail sale in any such county or city described in subsection A at a rate of 2.1 percent of the statewide average distributor price of a gallon of diesel fuel as determined by the Commissioner pursuant to subdivision C 2.

C. 1. To determine the statewide average distributor price of a gallon of unleaded regular gasoline, the Commissioner shall use the period from November 30 of one year through December 31 of the following year, as the base period for such determination for the immediately following period beginning January 1 and ending December 31, inclusive. The Commissioner shall use the period from December 1 of one year through May 31 of the following year, as the base period for the determination of the rate of tax for the immediately following period beginning July 1 and ending December 31, inclusive. In no case shall the statewide average distributor price of a gallon of unleaded regular gasoline determined for purposes of this section be less than the statewide average wholesale price of a gallon of unleaded regular gasoline on February 20, 2013, plus a distributor charge calculated by the Commissioner for that date.

2. To determine the statewide average distributor price of a gallon of diesel fuel, the Commissioner shall use the period from June 1 of one year through November 30 of the following year, as the base period for such determination for the immediately following period beginning January 1 and ending June 30, inclusive. The Commissioner shall use the period from December 1 of one year through May 31 of the following year, as the base period for the determination of the rate of tax for the immediately following period beginning July 1 and ending December 31, inclusive. In no case shall the statewide average distributor price of a gallon of diesel fuel determined for purposes of this section be less than the statewide average wholesale price of a gallon of diesel fuel on February 20, 2013, plus a distributor charge calculated by the Commissioner for that date.

D. The tax levied under this section shall be imposed at the time of sale by the distributor to the retail dealer.

E. The tax imposed by this section shall be paid by the distributor, but the distributor shall separately state the amount of the tax and add such tax to the price or charge. Thereafter, such tax shall be debt from the retail dealer to the distributor until paid and shall be recoverable at law in the same manner as other debts. No action at law or suit in equity under this chapter shall be maintained in the Commonwealth by any distributor who is not registered under § 58.1-2299.2 or is delinquent in the payment of taxes imposed under this chapter.

F. Nothing in this section shall be construed to exempt the imposition and remittance of tax pursuant to this section in a sale to a retail dealer in which the distributor and the retail dealer are the same person.

G. Notwithstanding any other provision of law, no tax shall be imposed by the provisions of subdivision A 2 of § 58.1-2295 on any fuel upon which a tax is paid pursuant to this section.
§ 58.1-2299.20. (Contingent expiration date) Disposition of tax revenues.

A. All taxes, interest, and civil penalties paid to the Commissioner pursuant to this chapter for the sale of fuels at wholesale to retail dealers for retail sale in any county or city set forth in clause (i) of subdivision A 1 of § 58.1-2295, after subtraction of the direct costs of administration by the Department, shall be deposited each month as follows:

1. One-twelfth of an amount determined by multiplying $15 million by a fraction, the numerator of which shall be such transportation district's share of funding for the commuter rail service jointly operated by the two transportation districts and the denominator of which shall be the total funding share for such commuter rail service, shall be deposited in the Commuter Rail Operating and Capital Fund established pursuant to § 33.2-3500; and

2. a. Until June 30, 2019, an amount equal to the increase in taxes, interest, and civil penalties paid to the Commissioner each month, compared with the same month for fiscal year 2018, minus any amounts deposited pursuant to subdivision 1, shall be deposited into the Washington Metropolitan Area Transit Capital Fund established pursuant to § 33.2-3401; and

   b. Beginning on July 1, 2019, an amount equal to one-twelfth of the increase in taxes, interest, and civil penalties paid to the Commissioner in fiscal year 2019 compared to fiscal year 2018, minus any amounts deposited pursuant to subdivision 1, shall be deposited in the Washington Metropolitan Area Transit Authority Capital Fund established pursuant to § 33.2-3401; and

3. All remaining funds shall be deposited in a special fund entitled the "Special Fund Account of the Transportation District of ____." The amounts deposited in the special fund shall be distributed monthly to the applicable transportation district commission of which the county or city is a member to be applied to the operating deficit, capital, and debt service of the mass transit system of such district or, in the case of a transportation district subject to the provisions of subsection C of § 33.2-1915, to be applied to and expended for any transportation purpose of such district. In the case of a jurisdiction which, after July 1, 1989, joins a transportation district which was established on or before January 1, 1986, and is also subject to subsection C of § 33.2-1915, the funds collected from that jurisdiction shall be applied to and expended for any transportation purpose of such jurisdiction.

B. All taxes, interest, and civil penalties paid to the Commissioner pursuant to this chapter for the sale of fuels at wholesale to retail dealers for retail sale in any county or city set forth in clause (ii) of subdivision A 1 of § 58.1-2295, after subtraction of the direct costs of administration by the Department, shall be deposited each month as follows:

1. One-twelfth of an amount determined by multiplying $15 million by a fraction, the numerator of which shall be such transportation district's share of funding for the commuter rail service jointly operated by the two transportation districts and the denominator of which shall be the total funding share for such commuter rail service, shall be deposited in the Commuter Rail Operating and Capital Fund established pursuant to § 33.2-3500; and

2. All remaining funds shall be deposited in a special fund entitled the "Special Fund Account of the Transportation District of ____." The amounts deposited in the special fund shall be distributed monthly to the applicable transportation district commission of which the county or city is a member to be applied to the operating deficit, capital, and debt service of the mass transit system of such district or, in the case of a transportation district subject to the provisions of subsection C of § 33.2-1915, to be applied to and expended for any transportation purpose of such district. In the case of a jurisdiction which, after July 1, 1989, joins a transportation district which was established on or before January 1, 1986, and is also subject to subsection C of § 33.2-1915, the funds collected from that jurisdiction shall be applied to and expended for any transportation purpose of such jurisdiction.

C. All taxes, interest, and civil penalties paid to the Commissioner pursuant to this chapter for the sale of fuels at wholesale to retail dealers for retail sale in any county or city set forth in subdivision A 2 of § 58.1-2295, after subtraction of the direct costs of administration by the Department, shall be deposited into special funds established by law. In the case of Planning District 23, the revenue generated and collected therein shall be deposited into the fund established in § 33.2-2600. For additional Planning Districts that may become subject to this section, funds shall be established by appropriate legislation.

D. All taxes, interest, and civil penalties paid to the Commissioner pursuant to this chapter for the sale of fuels at wholesale to retail dealers for retail sale in any county or city set forth in § 58.1-2295.1, after subtraction of the direct costs of administration by the Department, shall be deposited into the Interstate 81 Corridor Improvement Fund established pursuant to Chapter 36 (§ 33.2-3600) of Title 33.2.

E. The direct cost of administration of this section shall be credited to the funds appropriated to the Department.

§ 58.1-2299.20. (Contingent effective date) Disposition of tax revenues.

A. Except as provided in subsection B, all taxes, interest, and civil penalties paid to the Commissioner pursuant to this chapter, after subtraction of the direct costs of administration by the Department, shall be deposited in a special fund entitled the "Special Fund Account of the Transportation District of ____." The amounts deposited in the special fund shall be distributed monthly to the applicable transportation district commission of which the county or city is a member to be applied to the operating deficit, capital, and debt service of the mass transit system of such district or, in the case of a transportation district subject to the provisions of subsection C of § 33.2-1915, to be applied to and expended for any transportation purpose of such district. In the case of a jurisdiction which, after July 1, 1989, joins a transportation district which was established on or before January 1, 1986, and is also subject to subsection C of § 33.2-1915, the funds collected from that jurisdiction shall be applied to and expended for any transportation purpose of such jurisdiction. The direct costs of administration shall be credited to the funds appropriated to the Department.
B. All taxes, interest, and civil penalties paid to the Commissioner pursuant to this chapter for the sale of fuels at wholesale to retail dealers for retail sale in any county or city set forth in § 58.1-2295.1, after subtraction of the direct costs of administration by the Department, shall be deposited into the Interstate 81 Corridor Improvement Fund established pursuant to Chapter 36 (§ 33.2-3600) of Title 33.2.

§ 58.1-2701. Amount of tax.

A. Except as provided in subsection C, every motor carrier shall pay a road tax per gallon equivalent to the cents per gallon credit for diesel fuel as determined under subsection A of § 58.1-2706 for the relevant period plus an additional $0.025 amount per gallon, as determined by subsection B, calculated on the amount of motor fuel, diesel fuel or liquefied gases (which would not exist as liquids at a temperature of 60 degrees Fahrenheit and a pressure of 14.7 pounds per square inch absolute), used in its operations within the Commonwealth.

The tax imposed by this chapter shall be in addition to all other taxes of whatever character imposed on a motor carrier by any other provision of law.

B. The additional amount per gallon shall be determined by the Commissioner annually, effective July 1 of each year. On July 1, 2019, the additional amount per gallon shall be calculated by multiplying the average fuel economy by $0.01125. On July 1, 2020, and each July 1 thereafter, the additional amount per gallon shall be calculated by multiplying the average fuel economy by $0.0225. The additional amount per gallon shall be rounded to the nearest one-tenth of a cent. For purposes of this subsection, "average fuel economy" shall be calculated by dividing the total taxable miles driven in the Commonwealth by the total taxable gallons of fuel consumed in the Commonwealth, as reported in IFTA returns in the preceding taxable year.

C. In lieu of the tax imposed in subsection A, motor carriers registering qualified highway vehicles that are not registered under the International Registration Plan shall pay a fee of $150 per year for each qualified highway vehicle regardless of whether such vehicle will be included on the motor carrier's IFTA return. For the period of July 1, 2019, through June 30, 2020, the fee shall be adjusted based on the percent change in the road tax imposed pursuant to subsection A from June 30, 2019, to July 1, 2019. The Commissioner shall adjust the fee annually on July 1 of every year thereafter based on the percentage change in the road tax imposed pursuant to subsection A for the previous fiscal year as compared to the current fiscal year. The fee is due and payable when the vehicle registration fees are paid pursuant to the provisions of Article 7 (§ 46.2-685 et seq.) of Chapter 6 of Title 46.2.

If a vehicle becomes a qualified highway vehicle before the end of its registration period, the fee due at the time the vehicle becomes a qualified highway vehicle shall be prorated monthly to the registration expiration month. Fees paid under this subsection shall not be refunded unless a full refund of the registration fee paid is authorized by law.

C. A. Except as provided in subdivision 2, all taxes and fees paid under the provisions of this chapter shall be credited to the Highways Maintenance and Operating Fund established pursuant to § 33.2-1530, a special fund within the Commonwealth Transportation Fund.

2. The net additional revenues generated by this section pursuant to enactments of the 2019 Session of the General Assembly shall be deposited as follows: (i) an amount equal to such net revenues multiplied by a ratio of the vehicle miles traveled on Interstate 81 by vehicles classified as Class 6 or higher by the Federal Highway Administration to the total vehicle miles traveled on all interstate highways in the Commonwealth by vehicles classified as Class 6 or higher by the Federal Highway Administration into the Interstate 81 Corridor Improvement Fund established pursuant to § 33.2-3601; (ii) an amount equal to such net revenues multiplied by a ratio of the vehicle miles traveled on the portion of interstate highways located within the boundaries of Planning District 8 by vehicles classified as Class 6 or higher by the Federal Highway Administration to total vehicle miles traveled on all interstate highways in the Commonwealth by vehicles classified as Class 6 or higher by the Federal Highway Administration into the Interstate 81 Corridor Improvement Fund established pursuant to § 33.2-2509; and (iii) all remaining net revenues to the Commonwealth Transportation Authority Fund for use for operational improvements and other enhancements to improve the safety and reliability of, and travel flow along, interstate highway corridors in the Commonwealth. The Board shall ensure that for any interstate highway with more than 10 percent of total interstate truck vehicle miles traveled that the total long-term expenditure for each such interstate highway is approximately equal to the proportional revenue subject to clause (iii) that is attributable to such interstate highway. For purposes of this subdivision, "net additional revenues" means the additional revenues generated by this section pursuant to enactments of the 2019 Session of the General Assembly, minus any refunds or remittances required to be paid.

2. That the General Assembly finds that (i) an adequate, efficient, and safe Interstate 81 corridor is essential to the economic well-being of the communities located along the corridor and for the Commonwealth; (ii) Interstate 81 carries 42 percent of interstate truck vehicle miles traveled in the Commonwealth; (iii) trucks make up 20 to 30 percent of all traffic on Interstate 81; (iv) there are more than 2,000 traffic accidents each year on Interstate 81, and 30 of those accidents require more than six hours to clear; (v) the lack of parallel routes and automated traffic management systems on Interstate 81 increases the impact of traffic accidents on Interstate 81; (vi) due to these conditions and the high volume of truck traffic, the Interstate 81 corridor does not meet the needs of the surrounding communities; and (vii) current statewide transportation revenues are insufficient to implement necessary improvements to the Interstate 81 corridor.

3. That the Interstate 81 Committee (the Committee) created by this act shall review the Interstate 81 Corridor Improvement Plan adopted by the Commonwealth Transportation Board on December 5, 2018, as it relates to
An Act to provide civil relief for citizens of the Commonwealth who are employees or contractors of the United States government who have been furloughed or otherwise are or were not receiving wages or payments as a result of the partial closure of federal government.

4. As used in this act, “written proof” means (i) a paystub issued by a federal government agency showing zero dollars in earnings for a pay period within the period of the partial closure of the United States government beginning on December 22, 2018, defaults on a note that is secured by a one-family to four-family residential property located in the Commonwealth and is subject to a foreclosure proceeding on any mortgage or to the execution of or sale under any deed of trust shall be granted a 30-day stay of such proceeding if the homeowner requests a stay and provides written proof to his lender that he was furloughed or otherwise was or is not currently receiving wages or payments as a result of the partial closure of the United States government beginning on December 22, 2018, and is (i) an employee of the United States government, (ii) an independent contractor for the United States government, or (iii) an employee of a company under contract with the United States government.

CHAPTER 848

An Act to amend and reenact § 3.2-6500 of the Code of Virginia, relating to companion animals; adequate shelter and space.

Approved April 29, 2019

Be it enacted by the General Assembly of Virginia:

1. That § 3.2-6500 of the Code of Virginia is amended and reenacted as follows:

§ 3.2-6500. Definitions.

As used in this chapter unless the context requires a different meaning:

"Abandon" means to desert, forsake, or absolutely give up an animal without having secured another owner or custodian for the animal or by failing to provide the elements of basic care as set forth in § 3.2-6503 for a period of four consecutive days.

"Adequate care" or "care" means the responsible practice of good animal husbandry, handling, production, management, confinement, feeding, watering, protection, shelter, transportation, treatment, and, when necessary, euthanasia, appropriate for the age, species, condition, size and type of the animal and the provision of veterinary care when needed to prevent suffering or impairment of health.

"Adequate exercise" or "exercise" means the opportunity for the animal to move sufficiently to maintain normal muscle tone and mass for the age, species, size, and condition of the animal.

"Adequate feed" means access to and the provision of food that is of sufficient quantity and nutritive value to maintain each animal in good health; is accessible to each animal; is prepared so as to permit ease of consumption for the age, species, condition, size and type of each animal; is provided in a clean and sanitary manner; is placed so as to minimize contamination by excrement and pests; and is provided at suitable intervals for the species, age, and condition of the animal, but at least once daily, except as prescribed by a veterinarian or as dictated by naturally occurring states of hibernation or fasting normal for the species.

"Adequate shelter" means provision of and access to shelter that is suitable for the species, age, condition, size, and type of each animal; provides adequate space for each animal; is safe and protects each animal from injury, rain, sleet, snow, hail, direct sunlight, the adverse effects of heat or cold, physical suffering, and impairment of health; is properly lighted; is properly cleaned; enables each animal to be clean and dry, except when detrimental to the species; during hot weather, is properly shaded and does not readily conduct heat; during cold weather, has a windbreak at its entrance and provides a quantity of bedding material consisting of straw, cedar shavings, or the equivalent that is sufficient to protect the animal from cold and promote the retention of body heat; and, for dogs and cats, provides a solid surface, resting platform, pad, floormat, or similar device that is large enough for the animal to lie on in a normal manner and can be maintained in a sanitary manner. Under this chapter, shelters whose wire, grid, or slat floors: (i) permit the animals' feet to pass through the openings, (ii) sag under the animals' weights, or (iii) otherwise do not protect the animals' feet or toes from injury are not adequate shelter.

"Adequate space" means sufficient space to allow each animal to: (i) easily stand, sit, lie, turn about, and make all other normal body movements in a comfortable, normal position for the animal; and (ii) interact safely with other animals in the enclosure.     A. Out of this appropriation shall be paid the annual salary of the Director, Joint Legislative

B. JLARC, upon request of the Department of Planning and Budget and approval of the Chairman, shall review and provide comments to the department on its use of performance measures in the state budget process. JLARC staff shall review the methodology and proposed uses of such performance measures and provide periodic status reports to the Commission.

C. Expenses associated with the oversight responsibility of the Virginia Retirement System by JLARC and the House Appropriations and Senate Finance Committees shall be reimbursed by the Virginia Retirement System upon documentation by the Director, JLARC of the expenses incurred.

D. Out of this appropriation, funds are provided to continue the technical support staff of JLARC, in order to assist with legislative fiscal impact analysis when an impact statement is referred from the Chairman of a standing committee of the House or Senate, and to conduct oversight of the expenditure forecasting process. Pursuant to existing statutory authority, all agencies of the Commonwealth shall provide access to information necessary to accomplish these duties.

E.1. The General Assembly hereby designates the Joint Legislative Audit and Review Commission (JLARC) to review and evaluate the Virginia Information Technologies Agency (VITA) on a continuing basis and to make such special studies and reports as may be requested by the General Assembly, the House Appropriations Committee, or the Senate Finance Committee.

2. The areas of review and evaluation to be conducted by the Commission shall include, but are not limited to, the following: (i) VITA's infrastructure outsourcing contracts and any amendments thereto; (ii) adequacy of VITA's planning and oversight responsibilities, including VITA's oversight of information technology projects and the security of governmental information; (iii) cost-effectiveness and adequacy of VITA's procurement services and its oversight of the procurement activities of State agencies.

3. For the purpose of carrying out its duties and notwithstanding any contrary provision of law, JLARC shall have the legal authority to access the information, records, facilities, and employees of VITA.

4. Records provided to VITA by a private entity pertaining to VITA's comprehensive infrastructure agreement or any successor contract, or any contractual amendments thereto for the operation of the Commonwealth's information technology infrastructure shall be exempt from the Virginia Freedom of Information Act (§ 2.2-3700 et seq.), to the extent that such records contain (i) trade secrets of the private entity as defined in the Uniform Trade Secrets Act (§ 59.1-336 et seq.) or (ii) financial records of the private entity, including balance sheets and financial statements, that are not generally available to the public through regulatory disclosure or otherwise. In order for the records specified in clauses (i) and (ii) to be excluded from the Virginia Freedom of Information Act, the private entity shall make a written request to VITA:

a. Invoking such exclusion upon submission of the data or other materials for which protection from disclosure is sought;

b. Identifying with specificity the data or other materials for which protection is sought; and

c. Stating the reasons why protection is necessary.

VITA shall determine whether the requested exclusion from disclosure is necessary to protect the trade secrets or financial records of the private entity. VITA shall make a written determination of the nature and scope of the protection to be afforded by it under this subdivision. Once a written determination is made by VITA, the records afforded protection under this subdivision shall continue to be protected from disclosure when in the possession of VITA or JLARC.

Except as specifically provided in this item, nothing in this item shall be construed to
authorize the withholding of (a) procurement records as required by § 56-575.17; (b) information concerning the terms and conditions of any interim or comprehensive agreement, service contract, lease, partnership, or any agreement of any kind entered into by VITA and the private entity; (c) information concerning the terms and conditions of any financing arrangement that involves the use of any public funds; or (d) information concerning the performance of the private entity under the comprehensive infrastructure agreement, or any successor contract, or any contractual amendments thereto for the operation of the Commonwealth's information technology infrastructure.

5. The Chairman of JLARC may appoint a permanent subcommittee to provide guidance and direction for VITA review and evaluation activities, subject to the full Commission’s supervision and such guidelines as the Commission itself may provide.

6. All agencies of the Commonwealth shall cooperate as requested by JLARC in the performance of its duties under this authority.

F.1. The General Assembly hereby designates the Joint Legislative Audit and Review Commission (JLARC) to conduct, on a continuing basis, a review and evaluation of economic development initiatives and policies and to make such special studies and reports as may be requested by the General Assembly, the House Appropriations Committee, or the Senate Finance Committee.

2. The areas of review and evaluation to be conducted by the Commission shall include, but are not limited to, the following: (i) spending on and performance of individual economic development incentives, including grants, tax preferences, and other assistance; (ii) economic benefits to Virginia of total spending on economic development initiatives at least biennially; (iii) effectiveness, value to taxpayers, and economic benefits to Virginia of individual economic development initiatives on a cycle approved by the Commission; and (iv) design, oversight, and accountability of economic development entities, initiatives, and policies as needed.

3. For the purpose of carrying out its duties under this authority and notwithstanding any contrary provision of law, JLARC shall have the legal authority to access the facilities, employees, information, and records, including confidential information, and the public and executive session meetings and records of the board of VEDP, involved in economic development initiatives and policies for the purpose of carrying out such duties in accordance with the established standards, processes, and practices exercised by JLARC pursuant to its statutory authority. Access shall include the right to attend such meetings for the purpose of carrying out such duties. Any non-disclosure agreement that VEDP enters into on or after July 1, 2016, for the provision of confidential and proprietary information to VEDP by a third party shall require that JLARC also be allowed access to such information for the purposes of carrying out its duties.

4. Notwithstanding the provisions of subsection A or B of § 58.1-3 or any other provision of law, unless prohibited by federal law, an agreement with a federal entity, or a court decree, the Tax Commissioner is authorized to provide to JLARC such tax information as may be necessary to conduct oversight of economic development initiatives and policies.

5. The following records shall be excluded from the provisions of the Virginia Freedom of Information Act (§ 2.2-3700 et seq.), and shall not be disclosed by JLARC:

(a) records provided by a public body as defined in § 2.2-3701, Code of Virginia, to JLARC in connection with its oversight of economic development initiatives and policies, where the records would not be subject to disclosure by the public body providing the records. The public body providing the records to JLARC shall identify the specific portion of the records to be protected and the applicable provision of the Freedom of Information Act or other provision of law that excludes the record or portions thereof from mandatory disclosure.

(b) confidential proprietary records provided by private entities pursuant to a promise of confidentiality from JLARC, used by JLARC in connection with its oversight of economic development initiatives and policies where, if such records are made public, the financial interest of the private entity would be adversely affected.

6. By August 15 of each year, the Secretary of Commerce and Trade shall provide to JLARC all information collected pursuant to § 2.2-206.42, Code of Virginia, in a format and manner
specified by JLARC to ensure that the final report to be submitted by the Secretary fulfills the intent of the General Assembly and provides the data and evaluation in a meaningful manner for decision-makers.

7. JLARC shall assist the agencies submitting information to the Secretary of Commerce and Trade pursuant to the provisions of § 2.2-206.42, Code of Virginia, to ensure that the agencies work together to effectively develop standard definitions and measures for the data required to be reported and facilitate the development of appropriate unique project identifiers to be used by the impacted agencies.

8. The Chairman of JLARC may appoint a permanent subcommittee to provide guidance and direction for ongoing review and evaluation activities, subject to the full Commission's supervision and such guidelines as the Commission itself may provide.

9. JLARC may employ on a consulting basis such professional or technical experts as may be reasonably necessary for the Commission to fulfill its responsibilities under this authority.

10. All agencies of the Commonwealth shall cooperate as requested by JLARC in the performance of its duties under this authority.

11. The Joint Legislative Audit and Review Commission (JLARC) is hereby directed to review Virginia529’s proposed weighted average tuition (WAT) payout model for the Prepaid529 program and report how the WAT payout model would change Prepaid529 relative to the existing model. In conducting the review, JLARC should address how the proposal would impact 1) program payout, 2) contract costs, 3) program sustainability, 4) overall complexity of the program, 5) any other factors relevant to the program. JLARC should complete the review and submit a final report, including any recommendations, to JLARC and the Chairman of the House Appropriations and Senate Finance Committee by November 30, 2018. Virginia529 shall provide assistance on this review upon request.

12. Since the Virginia College Savings Plan’s (Virginia529) Prepaid529 is a public fund, and accurate benchmarks are necessary to ensure accountability and transparency for plan participants and other stakeholders such as the state, the Joint Legislative Audit and Review Commission (JLARC) is directed to contract with a third-party consultant to conduct an independent review of investment performance benchmarks used for the fund. The consultant, which should have expertise in institutional investment, shall determine whether Virginia529 is using appropriate benchmarks to measure performance, given the investment goals, strategies, and risk tolerance that the Virginia529 Board and Investment Advisory Committee have adopted for the fund. The contract should be procured through a request for proposal (RFP). The consultant shall report its findings and make recommendations, as warranted, for changes to existing benchmarks, by December 15, 2018. JLARC’s expenses related to its duties under this amendment shall be reimbursed by Virginia529 as required under § 30-335. The consultant’s recommendations shall be considered by the Virginia529 Board and Investment Advisory Committee.

G. Notwithstanding the salaries listed in paragraph A. of this item, the Joint Legislative Audit and Review Commission (JLARC) may establish a salary range for the Director of JLARC.

H.1. The General Assembly hereby designates the Joint Legislative Audit and Review Commission (JLARC) to review and evaluate the agencies and programs under the Secretary of Health and Human Resources (HHR) on a continuing basis.

2. Review and evaluation work shall be directed by JLARC in consultation with the Joint Committee for Health and Human Resources Oversight.

3. Review and evaluation shall include, but not be limited to (i) studies of agencies or programs; (ii) targeted analysis of spending trends and other issues warranting examination; and (iii) assessment of the soundness and accuracy of population and spending forecasts, including the process, assumptions, methodology, and results.

4. For the purpose of carrying out its duties and notwithstanding any contrary provision of law, JLARC shall have the legal authority to access the information, records, facilities, and employees of all agencies within the HHR secretariat.
5. The following records shall be excluded from the provisions of the Virginia Freedom of Information Act (§ 2.2-3700 et seq.), and shall not be disclosed by JLARC:

(a) records provided by a public body as defined in § 2.2-3701, Code of Virginia, to JLARC in connection with its evaluation of agencies and programs within the HHR secretariat, where the records would not be subject to disclosure by the public body providing the records. The public body providing the records to JLARC shall identify the specific portion of the records to be protected and the applicable provision of the Freedom of Information Act or other provision of law that excludes the record or portions thereof from mandatory disclosure.

(b) confidential proprietary records provided by private entities pursuant to a promise of confidentiality from JLARC, used by JLARC in connection with its evaluation of agencies and programs within the HHR secretariat where, if such records are made public, the financial interest of the private entity would be adversely affected.

6. The Chairman of JLARC may appoint a permanent subcommittee to provide guidance and direction for ongoing review and evaluation of agencies and programs within the HHR secretariat, subject to the full Commission's supervision and such guidelines as the Commission itself may provide.

7. JLARC may employ on a consulting basis such professional or technical experts as may be reasonably necessary for the Commission to fulfill its responsibilities under this authority.

8. All agencies of the Commonwealth shall cooperate as requested by JLARC in the performance of its duties under this authority.

I. Included within the appropriation for this item is $200,000 in the first year from the general fund for the Joint Legislative Audit and Review Commission to contract with one or more third-party independent reviewers to evaluate the Commonwealth’s current and potential gaming governance structures, current and potential revenues to the Commonwealth, and any other relevant subjects it deems necessary pursuant to the study. In conducting this evaluation, the Joint Legislative Audit and Review Commission shall consider the impact of additional gaming and sports wagering, including both physical casino facilities and online gaming and sports wagering, as well as increased charitable gaming, on existing thoroughbred racing, breeding and related agribusiness industries, as well as the current and future revenues of the Virginia Lottery. The Joint Legislative Audit and Review Commission shall coordinate the study, and all state agencies, public bodies, and officials shall cooperate with the Joint Legislative Audit and Review Commission pursuant to completion of the study, as it deems necessary, upon its request.

J. Included within this appropriation is $300,000 the first year from the general fund to support the cost of actuarial analysis and consultant costs in the completion of the JLARC review of Virginia Workers’ Compensation program and policies.

K.1. The General Assembly hereby designates the Joint Legislative Audit and Review Commission (JLARC) to review and evaluate the Commonwealth's enterprise resource planning and related financial, payroll, personnel management and benefit eligibility systems (Cardinal) on a continuing basis and to provide such special studies and reports as may be requested by the General Assembly, the House Appropriations Committee, or the Senate Finance Committee.

2. The areas of review and evaluation to be conducted by the Commission shall include, but are not limited to, the following: (i) procurement for the planning, development, implementation, operation, and maintenance of Cardinal and any subsequent contracts and amendments thereto; (ii) the development, implementation, performance, and costs of Cardinal; (iii) the long-term viability of the technologies utilized in Cardinal; (iv) the adequacy of the system of governance for Cardinal, including the responsibility for, and control of specific data in Cardinal, the responsibility for systems support and maintenance, and the appropriate role of the Virginia Information Technologies Agency; and (v) the security of governmental and personally identifiable information contained in Cardinal.

3. For the purpose of carrying out its duties and notwithstanding any contrary provision of law, JLARC shall have the legal authority to access the information, records, facilities, and employees of all state agencies and institutions.
4. The following records shall be excluded from the provisions of the Virginia Freedom of Information Act (§ 2.2-3700 et seq.), and shall not be disclosed by JLARC:

(a) records provided by a public body as defined in § 2.2-3701, Code of Virginia, to JLARC in connection with its evaluation of Cardinal, where the records would not be subject to disclosure by the public body providing the records. The public body providing the records to JLARC shall identify the specific portion of the records to be protected and the applicable provision of the Freedom of Information Act or other provision of law that excludes the record or portions thereof from mandatory disclosure.

(b) confidential proprietary records provided by private entities pursuant to a promise of confidentiality from JLARC, used by JLARC in connection with its evaluation of Cardinal where, if such records are made public, the financial interest of the private entity would be adversely affected.

5. The Chairman of JLARC may appoint a permanent subcommittee to provide guidance and direction for Cardinal review and evaluation activities, subject to the full Commission's supervision and such guidelines as the Commission itself may provide.

6. JLARC may employ on a consulting basis such professional or technical experts as may be reasonably necessary for the Commission to fulfill its responsibilities under this authority.

Authority: Article VI, Section 1, Constitution of Virginia; Title 17.1, Chapter 5; § 19.2-163, Code of Virginia.

A. Out of the amounts in this Item for Trial Processes shall be paid:

1. The annual salaries of Circuit Court judges, each at $171,120 from July 1, 2018, to November 24, 2018, $174,542 from November 25, 2018, to November 24, 2019, and $171,120 from November 25, 2019, to June 30, 2020. Such salaries shall represent the total compensation from all sources for Circuit Court judges.

2. Expenses necessarily incurred for the position of judge of the Circuit Court, including clerk hire not exceeding $1,500 a year for each judge.

3. The state's share of expenses incident to the prosecution of a petition for a writ of habeas corpus by an indigent petitioner, including payment of counsel fees as fixed by the Court; the expenses shall be paid upon receipt of an appropriate order from a Circuit Court.

4. A circuit court judge shall only be reimbursed for mileage for commuting if the judge has to travel to a courthouse in a county or city other than the one in which the judge resides and the distance between the judge's residence and the courthouse is greater than 25 miles.

B. The Chief Circuit Court Judge shall restrict the appointment of special justices to conduct involuntary mental commitment hearings to those unusual instances when no General District Court or Juvenile and Domestic Relations District Court Judge can be made available or when the volume of the hearings would require more than eight hours a week.

C. There is hereby reappropriated the unexpended balance remaining at the close of business on June 30, 2018, in the appropriation made in Item 42, Chapter 836, Acts of Assembly of 2017, in the item detail Other Court Costs and Allowances (Criminal Fund) and the balance remaining in this item detail on June 30, 2019.

D. The appropriation in this Item for Other Court Costs and Allowances (Criminal Fund) shall be used to implement the provisions of § 8.01-384.1:1, Code of Virginia.

E.1. General fund appropriations for Other Court Costs and Allowances (Criminal Fund) total $124,384,073 124,909,073 the first year and $124,384,073 124,909,073 the second year in this Item and Items 35, 39, 41, 42 and 43.

The Chief Justice of the Supreme Court of Virginia shall determine how the amounts appropriated to Other Courts Costs and Allowances (Criminal Fund) will be allocated, consistent with statutory provisions in the Code of Virginia. Funds within these appropriations are to be used to fund fully the statutory caps on compensation applicable to attorneys appointed by the court to defend criminal charges. Should this appropriation not be sufficient to fund fully all of the statutory caps on compensation as established by § 19.2-163, Code of Virginia, that this appropriation shall be applied first to fully fund the statutory caps for the most serious noncapital felonies and then, should funds still remain in this appropriation, to the other statutory caps, in declining order of the severity of the charges to which each cap is applicable.

3. Out of the amount appropriated from the general fund for Other Court Costs and Allowances (Criminal Fund) in this Item, there shall be transferred an amount not to

exceed $880,000 the first year and not to exceed $880,000 the second year to the Criminal Injuries Compensation Fund, administered by the Virginia Workers' Compensation Commission, for the administration of the physical evidence recovery kit (PERK) program.

4. Notwithstanding the provisions of § 19.2-163, Code of Virginia, the amount of compensation allowed to counsel appointed by the court to defend a felony charge that may be punishable by death shall be calculated on an hourly basis at a rate set by the Supreme Court of Virginia.

F. 1. For any hearing conducted pursuant to § 19.2-306, Code of Virginia, the circuit court shall have presented to it a sentencing revocation report prepared on a form designated by the Virginia Criminal Sentencing Commission indicating the condition or conditions of the suspended sentence, good behavior, or probation supervision that the defendant has allegedly violated.

2. For any hearing conducted pursuant to § 19.2-306 in which the defendant is cited for violation of a condition or conditions other than a new criminal offense conviction, the court shall also have presented to it the applicable probation violation guideline worksheets established pursuant to Chapter 1042 of the Acts of Assembly 2003. The court shall review and consider the suitability of the discretionary probation violation guidelines. Before imposing sentence, the court shall state for the record that such review and consideration have been accomplished and shall make the completed worksheets a part of the record of the case and open for inspection. In hearings in which the court imposes a sentence that is either greater or less than that indicated by the discretionary probation violation guidelines, the court shall file with the record of the case a written explanation of such departure.

3. Following any hearing conducted pursuant to § 19.2-306 and the entry of a final order, the clerk of the circuit court in which the hearing was held shall cause a copy of such order or orders, the original sentencing revocation report, any applicable probation violation guideline worksheets prepared in the case, and a copy of any departure explanation prepared pursuant to subsection F.2., to be forwarded to the Virginia Criminal Sentencing Commission within 30 days.

4. The failure to follow any or all of the provisions specified in F.1. through F.3 or the failure to follow any or all of these provisions in the prescribed manner shall not be reviewable on appeal or the basis of any other post-hearing relief.

The provisions of this item shall not apply to facilities that were subject to litigation on or before November 30, 2008.

H. In order to reduce expenditures through the Criminal Fund for court-appointed counsel, effective July 1, 2014, compensation paid to attorneys appointed pursuant to Virginia Code § 53.1-40 shall be limited to $55 per hour, with a maximum per diem compensation of $200, plus reasonable expenses, to be paid from the Criminal Fund.

I. 1. Notwithstanding the provisions of § 19.2-155, Code of Virginia, in cases where an Attorney for the Commonwealth must recuse himself from a case or a special prosecutor must be appointed, the circuit court judge must appoint an Attorney for the Commonwealth or an Assistant Attorney for the Commonwealth from another jurisdiction. If the circuit court judge determines that the appointment of such Attorney for the Commonwealth or such Assistant Attorney for the Commonwealth is not appropriate or that such an attorney or assistant is unavailable then the judge must request approval from the Executive Secretary of the Supreme Court for an exception to this requirement.

2. The Executive Secretary of the Supreme Court shall include in the annual report required in paragraph A. of Item 38 information on the number of exceptions granted related to special prosecutors and the related expenditures.

J. Notwithstanding any other provisions of Chapter 23 of Title 8.1 of the Code of Virginia, a reasonable fee not to exceed $150 may be charged by Commissioners of Accounts for any foreclosures on a timeshare estate to reimburse those for the reasonable costs associated therewith.

B. Out of the amounts provided for in this Item, no expenditures shall be made to provide security devices such as magnetometers in standard use in major metropolitan airports. Personnel expenditures for operation of such equipment incidental to the duties of courtroom and courthouse security deputies may be authorized, provided that no additional expenditures for personnel shall be approved for the principal purpose of operating these devices.

C. Notwithstanding the provisions of § 53.1-120, or any other section of the Code of Virginia, unless a judge provides the sheriff with a written order stating that a substantial security risk exists in a particular case, no courtroom security deputies may be ordered for civil cases, not more than one deputy may be ordered for criminal cases in a district court, and not more than two deputies may be ordered for criminal cases in a circuit court. In complying with such orders for additional security, the sheriff may consider other deputies present in the courtroom as part of his security force.

D. Should the scheduled opening date of any facility be delayed for which funds are available in this Item, the Director, Department of Planning and Budget, may allot such funds as the Compensation Board may request to allow the employment of staff for training purposes not more than 45 days prior to the rescheduled opening date for the facility.

E. Consistent with the provisions of paragraph B of Item 73, the board shall allocate the additional jail deputies provided in this appropriation using a ratio of one jail deputy for every 3.0 beds of operational capacity. Operational capacity shall be determined by the Department of Corrections. No additional deputy sheriffs shall be provided from this appropriation to a local jail in which the present staffing exceeds this ratio unless the jail is overcrowded. Overcrowding for these purposes shall be defined as when the average annual daily population exceeds the operational capacity. In those jails experiencing overcrowding, the board may allocate one additional jail deputy for every five average annual daily prisoners above operational capacity. Should overcrowding be reduced or eliminated in any jail, the Compensation Board shall reallocate positions previously assigned due to overcrowding to other jails in the Commonwealth that are experiencing overcrowding.

F. Two-thirds of the salaries set by the Compensation Board of medical, treatment, and inmate classification positions approved by the Compensation Board for local correctional facilities shall be paid out of this appropriation.

G.1. Subject to appropriations by the General Assembly for this purpose, the Compensation Board shall provide for a master deputy pay grade to those sheriffs’ offices which had certified, on or before January 1, 1997, having a career development plan for deputy sheriffs that meet the minimum criteria set forth by the Compensation Board for such plans. The Compensation Board shall allow for additional grade 9 positions, at a level not to exceed one grade 9 master deputy per every five Compensation Board grade 7 and 8 deputy positions in each sheriff’s office.
2. Each sheriff who desires to participate in the Master Deputy Program who had not certified a career development plan on or before January 1, 1997, may elect to participate by certifying to the Compensation Board that the career development plan in effect in his office meets the minimum criteria for such plans as set by the Compensation Board. Such election shall be made by July 1 for an effective date of participation the following July 1.

3. Subject to appropriations by the General Assembly for this purpose, funding shall be provided by the Compensation Board for participation in the Master Deputy Program to sheriffs' offices electing participation after January 1, 1997, according to the date of receipt by the Compensation Board of the election by the sheriff.

H. The Compensation Board shall estimate biannually the number of additional law enforcement deputies which will be needed in accordance with § 15.2-1609.1, Code of Virginia. Such estimate of the number of positions and related costs shall be included in the board's biennial budget request submission to the Governor and General Assembly. The allocation of such positions, established by the Governor and General Assembly in Item 73 of this act, shall be determined by the Compensation Board on an annual basis. The annual allocation of these positions to local sheriffs' offices shall be based upon the most recent final population estimate for the locality that is available to the Compensation Board at the time when the agency's annual budget request is completed. The source of such population estimates shall be the Weldon Cooper Center for Public Service of the University of Virginia or the United States Bureau of the Census. For the first year of the biennium, the Compensation Board shall allocate positions based upon the most recent provisional population estimates available at the time the agency's annual budget is completed.

I. Any amount in the program Financial Assistance for Sheriffs' Offices and Regional Jails may be transferred between Items 66 and 67, as needed, to cover any deficits incurred in the programs Financial Assistance for Confinement of Inmates in Local and Regional Facilities, and Financial Assistance for Sheriffs' Offices and Regional Jails.

J. Subject to appropriations by the General Assembly for this purpose, the Compensation Board shall provide for a Sheriffs' Career Development Program.

2. Following receipt of a sheriff's certification that the minimum requirements of the Sheriffs' Career Development Program have been met, and provided that such certification is submitted by sheriffs as part of their annual budget request to the Compensation Board on or before February 1 of each year, the Compensation Board shall increase the annual salary shown in paragraph A of this Item by the percentage shown herein for a twelve-month period effective the following July 1.

a. 9.3 percent increase for all sheriffs who certify their compliance with the established minimum criteria for the Sheriffs' Career Development Program where such criteria includes that a sheriff has achieved certification in a program agreed upon by the Compensation Board and the Virginia Sheriffs' Institute by Virginia Commonwealth University, or, where such criteria include that a sheriff's office seeking accreditation has been assessed and will be considered for accreditation by the accrediting body no later than March 1, and have achieved accreditation by March 1 from the Virginia Law Enforcement Professional Standards Commission, or the Commission on Accreditation of Law Enforcement agencies, or the American Correctional Association.

3. Other constitutional officers' associations may request the General Assembly to include certification in a program agreed upon by the Compensation Board and the officers' associations by the Weldon Cooper Center for Public Service to the requirements for participation in their respective career development programs.

K. Notwithstanding the provisions of Article 7, Chapter 15, Title 56, Code of Virginia, $8,000,000 the first year and $8,000,000 the second year from the Wireless E-911 Fund is included in this appropriation for local law enforcement dispatchers to offset dispatch center operations and related costs.

L. Notwithstanding the provisions of §§ 53.1-131 through 53.1 -131.3, Code of Virginia, local and regional jails may charge inmates participating in inmate work programs a reasonable daily amount, not to exceed the actual daily cost, to operate the program.

A. In the event the appropriation in this Item proves to be insufficient to fund all of its provisions, any amount remaining as of June 1, 2019, and June 1, 2020, may be reallocated among localities on a pro rata basis according to such deficiency.

B. For the purposes of this Item, the following definitions shall be applicable:

1. Effective sentence--a convicted offender's sentence as rendered by the court less any portion of the sentence suspended by the court.

2. Local responsible inmate--(a) any person arrested on a state warrant and incarcerated in a local correctional facility, as defined by § 53.1-1, Code of Virginia, prior to trial; (b) any person convicted of a misdemeanor offense and sentenced to a term in a local correctional facility; or (c) any person convicted of a felony offense and given an effective sentence of (i) twelve months or less or (ii) less than one year.

3. State responsible inmate--any person convicted of one or more felony offenses and (a) the sum of consecutive effective sentences for felonies, committed on or after January 1, 1995, is (i) more than 12 months or (ii) one year or more, or (b) the sum of consecutive effective sentences for felonies, committed before January 1, 1995, is more than two years.

C. The individual or entity responsible for operating any facility which receives funds from this Item may, if requested by the Department of Corrections, enter into an agreement with the department to accept the transfer of convicted felons, from other local facilities or from facilities operated by the Department of Corrections. In entering into any such agreements, or in effecting the transfer of offenders, the Department of Corrections shall consider the security requirements of transferred offenders and the capability of the local facility to maintain such offenders. For purposes of calculating the amount due each locality, all funds earned by the locality as a result of an agreement with the Department of Corrections shall be included as receipts from these appropriations.

D. Out of this appropriation, an amount not to exceed $377,010 the first year and $377,010 the second year from the general fund, is designated to be held in reserve for unbudgeted medical expenses incurred by local correctional facilities in the care of state responsible felons.

E. The following amounts shall be paid out of this appropriation to compensate localities for the cost of maintaining prisoners in local correctional facilities, as defined by § 53.1-1, Code of Virginia, or if the prisoner is not housed in a local correctional facility, in an alternative to
incarceration program operated by, or under the authority of, the sheriff or jail board:

1. For local responsible inmates--$4 per inmate day, or, if the inmate is housed and maintained in a jail farm not under the control of the sheriff, the rate shall be $18 per inmate day.

2. For state responsible inmates--$12 per inmate day.

F. For the payment specified in paragraph E 1 of this Item for prisoners in alternative punishment or alternative to incarceration programs:

1. Such payment is intended to be made for prisoners that would otherwise be housed in a local correctional facility. It is not intended for prisoners that would otherwise be sentenced to community service or placed on probation.

2. No such payment shall be made unless the program has been approved by the Department of Corrections or the Department of Criminal Justice Services. Alternative punishment or alternative to incarceration programs, however, may include supervised work experience, treatment, and electronic monitoring programs.

G.1. Except as provided for in paragraph G 2, and notwithstanding any other provisions of this Item, the Compensation Board shall provide payment to any locality with an average daily jail population of under ten in FY 1995 an inmate per diem rate of $18 per day for local responsible inmates and $12 per day for state responsible inmates held in these jails in lieu of personal service costs for corrections' officers.

2. Any locality covered by the provisions of this paragraph shall be exempt from the provisions thereof provided that the locally elected sheriff, with the assistance of the Compensation Board, enters into good faith negotiations to house his prisoners in an existing local or regional jail. In establishing the per diem rate and capital contribution, if any, to be charged to such locality by a local or regional jail, the Compensation Board and the local sheriff or regional jail authority shall consider the operating support and capital contribution made by the Commonwealth, as required by §§ 15.2-1613, 15.2-1615.1, 53.1-80, and 53.1-81, Code of Virginia. The Compensation Board shall report periodically to the Chairmen of the House Appropriations and Senate Finance Committees on the progress of these negotiations and may withhold the exemption granted by this paragraph if, in the board's opinion, the local sheriff fails to negotiate in good faith.

H.1. The Compensation Board shall recover the state-funded costs associated with housing federal inmates, District of Columbia inmates or contract inmates from other states. The Compensation Board shall determine, by individual jail, the amount to be recovered by the Commonwealth by multiplying the jail's current inmate days for this population by the proportion of the jail's per inmate day salary funds provided by the Commonwealth, as identified in the most recent Jail Cost Report prepared by the Compensation Board. Beginning July 1, 2009, the Compensation Board shall determine, by individual jail, the amount to be recovered by the Commonwealth by multiplying the jail's current inmate days for this population by the proportion of the jail's per inmate day operating costs provided by the Commonwealth, excluding payments otherwise provided for in this Item, as identified in the most recent Jail Cost Report prepared by the Compensation Board. If a jail is not included in the most recent Jail Cost Report, the Compensation Board shall use the statewide average of per inmate day salary funds provided by the Commonwealth.

2. The Compensation Board shall deduct the amount to be recovered by the Commonwealth from the facility's next quarterly per diem payment for state-responsible and local-responsible inmates. Should the next quarterly per diem payment owed the locality not be sufficient against which to net the total quarterly recovery amount, the locality shall remit the remaining amount not recovered to the Compensation Board.

3. Any local or regional jail which receives funding from the Compensation Board shall give priority to the housing of local-responsible, state-responsible, and state contract inmates, in that order, as provided in paragraph H 1.

4. The Compensation Board shall not provide any inmate per diem payments to any local or regional jail which holds federal inmates in excess of the number of beds contracted for with the Department of Corrections, unless the Director, Department of Corrections,
certifies to the Chairman of the Compensation Board that a) such contract beds are not required; b) the facility has operational capacity built under contract with the federal government; c) the facility has received a grant from the federal government for a portion of the capital costs; or d) the facility has applied to the Department of Corrections for participation in the contract bed program with a sufficient number of beds to meet the Department of Corrections' need or ability to fund contract beds at that facility in any given fiscal year.

5. The Compensation Board shall apply the cost recovery methodology set out in paragraph H 1 of this Item to any jail which holds inmates from another state on a contractual basis. However, recovery in such circumstances shall not be made for inmates held pending extradition to other states or pending transfer to the Virginia Department of Corrections.

6. The provisions of this paragraph shall not apply to any local or regional jail where the cumulative federal share of capital costs exceeds the Commonwealth's cumulative capital contribution.

7. For a local or regional jail which operates bed space specifically built utilizing federal capital or grant funds for the housing of federal inmates and for which Compensation Board funding has never been authorized for staff for such bed space, the Compensation Board shall allow an exemption from the recovery provided in paragraph H.1. for a defined number of federal prisoners upon certification by the sheriff or superintendent that the federal government has paid for the construction of bed space in the facility or provided a grant for a portion of the capital cost. 2. The attorneys for the Commonwealth and their successors who serve on a full-time basis pursuant to §§ 15.2-1627.1, 15.2-1628, 15.2-1629, 15.2-1630 or § 15.2-1631, Code of Virginia, shall receive salaries as if they served localities with populations between 35,000 and 44,999.

3. Whenever an attorney for the Commonwealth is such for a county and city together, or for two or more cities, the aggregate population of such political subdivisions shall be the population for the purpose of arriving at the salary of such attorney for the Commonwealth under the provisions of this paragraph and such attorney for the Commonwealth shall receive as additional compensation the sum of one thousand dollars.

B. No expenditure shall be made out of this Item for the employment of investigators, clerk-investigators or other investigative personnel in the office of an attorney for the Commonwealth.

C. Consistent with the provisions of § 19.2-349, Code of Virginia, attorneys for the Commonwealth may, in addition to the options otherwise provided by law, employ individuals to assist in collection of outstanding fines, costs, forfeitures, penalties, and restitution. Notwithstanding any other provision of law, beginning on the date upon which the order or judgment is entered, the costs associated with employing such individuals may be paid from the proceeds of the amounts collected provided that the cost is apportioned on a pro rata basis according to the amount collected which is due the state and that which is due the locality. The attorneys for the Commonwealth shall account for the amounts collected and apportion costs associated with the collections consistent with procedures issued by the Auditor of Public Accounts.

D. The provisions of this act notwithstanding, no Commonwealth's attorney, public defender or employee of a public defender, shall be paid or receive reimbursement for the state portion of a salary in excess of the salary paid to judges of the circuit court. Nothing in this paragraph shall be construed to limit the ability of localities to supplement the salaries of locally elected constitutional officers or their employees.

E. The Statewide Juvenile Justice project positions, as established under the provisions of Item 74 E, of Chapter 912, 1996 Acts of Assembly, and Chapter 924, 1997 Acts of Assembly, are continued under the provisions of this act. The Commonwealth's attorneys receiving such positions shall annually certify to the Compensation Board that the positions are used primarily, if not exclusively, for the prosecution of delinquency and domestic relations felony cases, as defined by Chapters 912 and 924. In the event the positions are not primarily or exclusively used for the prosecution of delinquency and domestic relations felony cases, the Compensation Board shall reallocate such positions by using the allocation provisions as provided for the board in Item 74 E of Chapters 912 and 924.

F. The Compensation Board shall monitor the Department of Taxation program regarding the collection of unpaid fines and court costs by private debt collection firms contracted by Commonwealth's attorneys and shall include, in its annual report to the General Assembly on the collection of court-ordered fines and fees for clerks of the courts and Commonwealth's attorneys, the amount of unpaid fines and costs collected by this program.

G. Out of this appropriation, $389,165 the first year and $389,165 the second year from the general fund is designated for the Compensation Board to fund five additional positions in Commonwealth's attorney's offices that shall be dedicated to prosecuting gang-related criminal activities. The board shall ensure that these positions work across jurisdictional lines, serving the Northern Virginia area (counties of Fairfax, Loudoun, Prince William, and Arlington and the cities of Falls Church, Alexandria, Manassas, Manassas Park and Fairfax).

H. In accordance with the provisions of § 19.2-349, Code of Virginia, attorneys for the Commonwealth may employ individuals, or contract with private attorneys, private collection agencies, or other state or local agencies, to assist in collection of delinquent fines, costs, forfeitures, penalties, and restitution. If the attorney for the Commonwealth employs
individuals, the costs associated with employing such individuals may be paid from the proceeds of the amounts collected provided that the cost is apportioned on a pro rata basis according to the amount collected which is due the state and that which is due the locality. If the attorney for the Commonwealth does not undertake collection, the attorney for the Commonwealth shall, as soon as practicable, take steps to ensure that any agreement or contract with an individual, attorney or agency complies with the terms of the current Master Guidelines Governing Collection of Unpaid Delinquent Court-Ordered Fines and Costs Pursuant to Virginia Code § 19.2-349 promulgated by the Office of the Attorney General, the Executive Secretary of the Supreme Court, the Department of Taxation, and the Compensation Board ("the Master Guidelines"). Notwithstanding any other provision of law, the delinquent amounts owed shall be increased by seventeen (17) percent to help offset the costs associated with employing such individuals or contracting with such agencies or individuals. If such increase would exceed the contracted collection agent's fee, then the delinquent amount owed shall be increased by the percentage or amount of the collection agent's fee. Effective July 1, 2015, as provided in § 19.2-349, Code of Virginia, treasurers not being compensated on a contingency basis as of January 1, 2015 shall be prohibited from being compensated on a contingency basis but shall instead be compensated for administrative costs pursuant to § 58.1-3958, Code of Virginia. Treasurers currently collecting a contingency fee shall be eligible to contract on a contingency fee basis. Effective July 1, 2015, any treasurer collecting a contingency fee shall retain only the expenses of collection, and the excess collection shall be divided between the state and the locality in the same manner as if the collection had been done by the attorney for the Commonwealth. The attorneys for the Commonwealth shall account for the amounts collected and the fees and costs associated with the collections consistent with procedures issued by the Auditor of Public Accounts.

I. Notwithstanding the provisions of Article 7, Chapter 4, Title 38, Code of Virginia, beginning July 1, 2018, $600,000 each year from the Insurance Fraud Fund is included in this appropriation to fund multi-jurisdictional Assistant Commonwealth's Attorney positions that shall be dedicated to prosecuting insurance fraud and related criminal activities. The Department of State Police shall identify those jurisdictions most affected by insurance fraud based upon data provided by the Virginia State Police Insurance Fraud Program. The Virginia State Police Insurance Fraud Program shall ensure that these positions work across jurisdictional lines, serving jurisdictions identified as most in need of these resources as supported by data. These funds shall remain unallocated until the Compensation Board and Virginia State Police notify the Director of the Department of Planning and Budget of the joint agreements reached with the Commonwealth's Attorneys of the jurisdictions receiving the additional Assistant Commonwealth's Attorney positions and the jurisdictions to be served by these positions. The Commonwealth's Attorneys receiving such positions shall annually certify to the Compensation Board that these positions are used primarily, if not exclusively, for the prosecution of insurance fraud and related criminal activities.

J. The appropriations in this item includes $1,471,228 the second year from the general fund to fund approximately twenty percent of the unfunded positions needed based on the fiscal year 2019 staffing standards calculation.

K. Any locality in the Commonwealth that employs the use of body worn cameras for its law enforcement officers shall be required to establish and fund one full-time equivalent entry-level Assistant Commonwealth's Attorney, at a salary no less than that established by the Compensation Board for an entry-level Commonwealth's Attorney, for up to 75 body worn cameras employed for use by local law enforcement officers, and one Assistant Commonwealth's Attorney for every 75 body worn cameras employed for use by local law enforcement officers, thereafter. However, with the consent of the Commonwealth's Attorney, a locality may provide their Commonwealth's Attorney's office with additional funding, using a different formula than stated above, as needed to accommodate the additional workload resulting from the requirement to review, redact and present footage from body worn cameras. If, as of July 1, 2019, a locality is providing additional funding to the Commonwealth's Attorney's office specifically to address the staffing and workload impact of the implementation of body worn cameras on that office, that additional funding shall be credited to the formula used in that locality. Any agreed upon funding formula between the impacted Commonwealth's Attorney and the locality employing body worn cameras shall be filed with the
Compensation Board by July 1, 2019 and shall remain in effect unless modified by the agreement of both parties until June 30th of the following year. The term "locality" means every county or independent city with an Attorney for the Commonwealth. The term "employed for use" includes all body worn cameras maintained by the law enforcement agency or agencies of that locality, regardless of any temporary inoperability.

A. It is the intent of the General Assembly that state programs providing financial, technical, or training assistance to local governments for economic development projects or directly to businesses seeking to relocate or expand operations in Virginia should not be used to help a company relocate or expand its operations in one or more Virginia communities when the same company is simultaneously closing facilities in other Virginia communities. It is the responsibility of the Secretary of Commerce and Trade to enforce this policy and to inform the Chairmen of the Senate Finance and House Appropriations Committees in writing of the justification to override this policy for any exception.

B. The Secretary shall develop and implement, as a component of the comprehensive economic development policy requirements as established in § 2.2-205, Code of Virginia, a strategic workforce development plan for the Commonwealth.

Notwithstanding any contrary provision of law, the authority and responsibilities of the Secretary of Technology referenced in § 2.2-225, Code of Virginia, shall be divided between the Secretary of Administration and the Secretary of Commerce and Trade as determined by the Governor.

D. The Secretary of Commerce and Trade shall conduct a comprehensive examination of the Commonwealth's economic development system and make recommendations to consolidate and improve coordination of activities to increase efficiency and effectiveness of economic development programs and policies. In developing recommendations, the Secretary shall seek input from a group of stakeholders which shall include a representative from each of the secretariats responsible for agencies with economic development programs, and representatives from the staffs of the House Appropriations and Senate Finance Committees. The examination of economic development programs and policies shall include, but is not limited to, workforce development initiatives; grants; services such as trade development, site selection and technical assistance; tax incentives such as modified apportionment formulas, credits, exemptions, and subtractions; proceeds from bonds; rights to lease property at below fair market value; and any other incentives from the Commonwealth. The Secretary shall report recommendations to the Governor and the Chairmen of the House Finance, House Appropriations and Senate Finance Committees by November 1, 2018.

E. The Secretary of Commerce and Trade, or his designee, shall convene a workgroup to address the challenges outlined in House Bill 2153 introduced in the 2019 session of the Virginia General Assembly. The workgroup shall include representatives from, but not limited to, the following: (i) the Secretary of Commerce and Trade, or his designee; (ii) the Secretary of Finance, or his designee; (iii) the Director of Small Business and Supplier Diversity; (iv) the Director of the Small Business Finance Authority; and, (v) the State Coordinator of Emergency Management.

Such report shall include an explanation on the jobs anticipated to be created, the capital investment made for the project, and why the waiver was provided.

5. It is the intent of the General Assembly that the Virginia Economic Development Partnership shall work with localities awarded grants from the Commonwealth's Development Opportunity Fund to recover such moneys when the economic development projects fail to meet minimal agreed-upon capital investment and job creation targets. All such recoveries
shall be deposited and credited to the Commonwealth's Development Opportunity Fund.

6. Up to $5,000,000 of previously awarded funds and funds repaid by political subdivisions or business beneficiaries and deposited to the Commonwealth's Development Opportunity Fund may be used to assist Prince George County with site improvements related to the location of a major aerospace engine manufacturer to the Commonwealth.

7. Up to $2,675,000 of previously awarded funds and funds repaid by political subdivisions or business beneficiaries and deposited to the Commonwealth's Development Opportunity Fund may be reallocated to the Virginia Jobs Investment Program Fund and made available for eligible businesses under the Virginia Jobs Investment Program subject to the conditions set forth in § 2.2-2240.3, Code of Virginia.

B.1. Out of the appropriation for this Item, $4,879,210 the first year and $5,446,900 the second year from the general fund shall be deposited to the Investment Performance Grant subfund of the Virginia Investment Partnership Grant Fund to be used to pay investment performance grants in accordance with § 2.2-5101, Code of Virginia.

Costs for professional and occupational regulation may be met by fees paid by the respective professions and occupations.

A. Any fund balances currently held in the Dedicated Special Revenue Fund (0900), the Common Interest Community Management Information Fund (0259) and the Special Revenue Fund (0200) shall be held in reserve and may not be disbursed by the Department of Professional and Occupational Regulation, but shall be applied to offset the anticipated, future costs of restructuring its organization, including additional staffing needs and the replacement or upgrade of the Department's information technology systems requirements as listed in (B) and (C) of this item. Such reserve funds shall be disbursed only to cover expenses of the Department or its regulatory boards as provided in § 54.1-308.

B.1. The Department of Professional and Occupational Regulation shall conduct a comprehensive assessment of its staffing needs and organizational structure to improve its performance, increase efficiency and effectively conduct its responsibilities and obligations.

2. The purpose of the assessment is to ensure that the department has sufficient staffing resources to (i) meet performance goals for processing transactions and handling customer inquiries and (ii) perform employment verifications and on-site audits recommended by JLARC. If the assessment finds additional positions are needed, DPOR should evaluate whether existing part-time positions should be converted to full-time positions and if existing positions elsewhere in the department can be reallocated.

3. During its comprehensive assessment the Department shall: (i) consider establishing one or more positions vested with the following agency-wide duties: (a) coordinate and assist in the development of agency regulations; (b) coordinate agency legislative efforts; (c) lead agency communications with external parties; and (d) serve as staff to the Board for Professional and Occupational Regulation; (ii) rank all vacant positions based on how critical they are to the department's ability to fulfill its responsibilities in order to enable its human resources staff to use the rankings to prioritize the advertising and filling of positions, using hiring processes that reflect best practices; and, (iii) consider reassignment to other divisions the following functions that are currently assigned to the licensing division: (a) handling Freedom of Information Act requests; (b) scanning documents; (c) managing policies and procedures; (d) evaluating business processes; and (e) agency-wide training.

4. The assessment should be submitted to the Department of Planning and Budget and the Chairmen of the House Appropriations Committee and Senate Finance Committee along with the agency's estimated funding needs by November 1, 2019.

C.1. At a minimum, the new or improved information technology system should have the capacity to do the following: (i) accept and process applications and payments online; (ii)
improve the ease of online renewals; and (iii) integrate licensing data with enforcement case management data. The plan should identify the expected staffing needs during and after the system upgrade or replacement project, how staffing needs will be met, and the cost of the proposed upgrade or project.

2. When developing the plan to replace or upgrade the current information technology system, including the licensing system, the Department of Professional and Occupational Regulation shall consider the transfer of information technology-related responsibilities for its licensing system and technical aspects of website management, records management, and electronic forms, from the licensing division to the Information Technology division.

3. The plan should be submitted to the Department of Planning and Budget and the Chairmen of the House Appropriations Committee and Senate Finance Committee along with the agency’s estimated funding needs by November 1, 2019.

Any statutory or regulatory requirement to display, post, or produce a credential issued by a Department regulatory board or the Department may be satisfied by the proffer of an electronic credential. The Department may use a third-party electronic credential system that is not maintained by the agency. Such electronic credential system shall include a verification system that is operated by the agency or its agent on its behalf for the purpose of verifying the authenticity and validity of electronic credentials issued by the Department. No funds are appropriated for this purpose.
