Only local sales tax moneys collected in that qualifying locality shall be deposited in that locality's fund.*

F. As soon as practicable after the local sales tax moneys have been paid into the state treasury in any month for the preceding month, the Comptroller shall draw his warrant on the State Treasurer in the proper amount in favor of ~~Halifax County~~ *each qualifying locality*, and such payments shall be charged to the account of ~~Halifax County~~ *the qualifying locality* under ~~the~~ *its* special fund created by this section. If errors are made in any such payment, or adjustments are otherwise necessary, whether attributable to refunds to taxpayers or to some other fact, the errors shall be corrected and adjustments made in the payments for the next two months as follows: one-half of the total adjustment shall be included in the payment for each of the next two months. In addition, the payment shall include a refund of amounts erroneously not paid to ~~Halifax County~~ *each qualifying locality* and not previously refunded during the three years preceding the discovery of the error. A correction and adjustment in payments described in this subsection due to the misallocation of funds by the dealer shall be made within three years of the date of the payment error.

G. The revenues from this tax shall be used solely for capital projects for new construction or major renovation of schools in ~~Halifax County~~ *the qualifying locality*, including bond and loan financing costs related to such construction or renovation.

§ 58.1-606.1. Additional local use tax in certain localities; use of revenues for construction or renovation of schools.

A. 1. The governing body of ~~Halifax County~~ *a qualifying locality* may levy a use tax at the rate of such sales tax under § 58.1-605.1 to provide revenue for capital projects for the construction or renovation of schools in ~~Halifax County~~ *such locality*. Such tax shall be added to the rates of the state and local use tax imposed by this chapter and shall be subject to all the provisions of this chapter, and all amendments thereof, and the rules and regulations published with respect thereto, except that no discount under § 58.1-622 shall be allowed on a local use tax.

2. Any tax imposed pursuant to this section shall expire (i) if the capital projects for the construction or renovation of schools are to be financed by bonds or loans, on the date by which such bonds or loans shall be repaid or (ii) if the capital projects for the construction or renovation of schools are not to be financed by bonds or loans, on a date chosen by the governing body and specified in any resolution passed pursuant to the provisions of subsection B. Such expiration date shall not be more than 20 years after the date of the resolution passed pursuant to the provisions of subsection B.

B. The governing body of ~~Halifax County~~ *the qualifying locality*, if it elects to impose a local use tax under this section may do so only if it has previously imposed the local sales tax authorized by § 58.1-605.1, by the adoption of an ordinance stating its purpose and referring to this section and providing that the local use tax shall become effective on the first day of a month at least 120 days after its adoption. Such ordinance shall state the date on which the use tax shall expire. A certified copy of such ordinance shall be forwarded to the Tax Commissioner so that it will be received within five days after its adoption.

C. Any local use tax levied under this section shall be administered and collected by the Tax Commissioner in the same manner and subject to the same exemptions and penalties as provided for the state use tax; however, the local sales tax levied under this section shall not be levied on food purchased for human consumption, as defined in § 58.1-611.1.

D. The local use tax authorized by this section shall not apply to transactions to which the sales tax applies, the situs of which for state and local sales tax purposes is the locality of location of each place of business of every dealer paying the tax to the Commonwealth without regard to the locality of possible use by the purchasers. However, the local use tax authorized

by this section shall apply to tangible personal property purchased outside the Commonwealth for use or consumption within the locality imposing the local use tax, or stored within the locality for use or consumption, where the property would have been subject to the sales tax if it had been purchased within the Commonwealth. The local use tax shall also apply to leases or rentals of tangible personal property where the place of business of the lessor is outside the Commonwealth and such leases or rentals are subject to the state tax. Moreover, the local use tax shall apply in all cases in which the state use tax applies.

E. Out-of-state dealers who hold certificates of registration to collect the use tax from their customers for remittance to the Commonwealth shall, to the extent reasonably practicable, in filing their monthly use tax returns with the Tax Commissioner, break down their shipments into the Commonwealth by counties and cities so as to show the county or city of destination. If, however, the out-of-state dealer is unable accurately to assign any shipment to a particular county or city, the local use tax on the tangible personal property involved shall be remitted to the Commonwealth by such dealer without attempting to assign the shipment to any county or city.

F. Local use tax revenue shall be deposited in the special fund established pursuant to subsection E of § 58.1-605.1. The Comptroller shall distribute the revenue to ~~Halifax County~~ *the qualifying locality*.

G. All revenue from this local use tax revenue shall be used solely for capital projects for new construction or major renovation of schools in ~~Halifax County~~ *the qualifying locality*, including bond and loan financing costs related to such construction or renovation.

Further, "industrial in nature" includes, but is not limited to, those businesses classified in codes 10 through 14 and 20 through 39 published in the Standard Industrial Classification Manual for 1972 and any supplements issued thereafter.

All sales for resale must be made in strict compliance with regulations applicable to this chapter. Any dealer making a sale for resale which is not in strict compliance with such regulations shall be personally liable for payment of the tax.

The terms "retail sale" and a "sale at retail" specifically include the following: (i) the sale or charges for any room or rooms, lodgings, or accommodations furnished to transients for less than 90 continuous days by any hotel, motel, inn, tourist camp, tourist cabin, camping grounds, club, or any other place in which rooms, lodging, space, or accommodations are regularly furnished to transients for a consideration; (ii) sales of tangible personal property to persons for resale when because of the operation of the business, or its very nature, or the lack of a place of business in which to display a certificate of registration, or the lack of a place of business in which to keep records, or the lack of adequate records, or because such persons are minors or transients, or because such persons are engaged in essentially service businesses, or for any other reason there is likelihood that the Commonwealth will lose tax funds due to the difficulty of policing such business operations; (iii) the separately stated charge made for automotive refinish repair materials that are permanently applied to or affixed to a motor vehicle during its repair; and (iv) the separately stated charge for equipment available for lease or purchase by a provider of satellite television programming to the customer of such programming. Equipment sold to a provider of satellite television programming for subsequent lease or purchase by the customer of such programming shall be deemed a sale for resale. The Tax Commissioner is authorized to promulgate regulations requiring vendors of or sellers to such persons to collect the tax imposed by this chapter on the cost price of such tangible personal property to such persons and may refuse to issue certificates of registration to such persons. The terms "retail sale" and a "sale at retail" also specifically include the separately stated charge made for supplies used during automotive repairs whether or not there is transfer of title or possession of the supplies and whether or not the supplies are attached to the automobile. The purchase of such supplies by an automotive repairer for sale to the customer of such repair services shall be deemed a sale for resale.

The term "transient" does not include a purchaser of camping memberships, time-shares, condominiums, or other similar contracts or interests that permit the use of, or constitute an interest in, real estate, however created or sold and whether registered with the Commonwealth or not. Further, a purchaser of a right or license which entitles the purchaser to use the amenities and facilities of a specific real estate project on an ongoing basis throughout its term shall not be deemed a transient, provided, however, that the term or time period involved is for seven years or more.

The terms "retail sale" and "sale at retail" do not include a transfer of title to tangible personal property after its use as tools, tooling, machinery or equipment, including dies, molds, and patterns, if (i) at the time of purchase, the purchaser is obligated, under the terms of a written contract, to make the transfer and (ii) the transfer is made for the same or a greater consideration to the person for whom the purchaser manufactures goods.

"Retailer" means every person engaged in the business of making sales at retail, or for distribution, use, consumption, or storage to be used or consumed in the Commonwealth.

"Sales price" means the total amount for which tangible personal property or services are sold, including any services that are a part of the sale, valued in money, whether paid in money or otherwise, and includes any amount for which credit is given to the purchaser, consumer, or lessee by the dealer, without any deduction therefrom on account of the cost of the property sold, the cost of materials used, labor or service costs, losses or any other expenses whatsoever. "Sales price" does not include (i) any cash discount allowed and taken; (ii) finance charges, carrying charges, service charges or interest from credit extended on sales of tangible personal property under conditional sale contracts or other conditional contracts providing for deferred payments of the purchase price; (iii) separately stated local property taxes collected; (iv) that portion of the amount paid by the purchaser as a discretionary gratuity added to the price of a meal; or (v) that portion of the amount paid by the purchaser as a mandatory gratuity or service charge added by a restaurant to the price of a meal, but only to the extent that such mandatory gratuity or service charge does not exceed 20 percent of the price of the meal. When used in relation to mining, "used directly" refers to the activities specified in this definition and, in addition, any reclamation activity of the land previously mined by the mining company required by state or federal law.

"Video programmer" means a person that provides video programming to end-user subscribers.

"Video programming" means video and/or information programming provided by or generally considered comparable to programming provided by a cable operator, including, but not limited to, Internet service.

§ 58.1-605. To what extent and under what conditions cities and counties may levy local sales taxes; collection thereof by Commonwealth and return of revenue to each city or county entitled thereto.

A. No county, city or town shall impose any local general sales or use tax or any local general retail sales or use tax except as authorized by this section or § 58.1-605.1.

B. The council of any city and the governing body of any county may levy a general retail sales tax at the rate of one percent to provide revenue for the general fund of such city or county. Such tax shall be added to the rate of the state sales tax imposed by §§ 58.1-603 and 58.1-604 and shall be subject to all the provisions of this chapter and the rules and regulations published with respect thereto. No discount under § 58.1-622 shall be allowed on a local sales tax.

C. 1. The council of any city and the governing body of any county desiring to impose a local sales tax under this section may do so by the adoption of an ordinance stating its purpose and referring to this section, and providing that such ordinance shall be effective on the first day of a month at least 60 days after its adoption. A certified copy of such ordinance shall be forwarded to the Tax Commissioner so that it will be received within five days after its adoption.

2. Prior to any change in the rate of any local sales and use tax, the Tax Commissioner shall provide remote sellers with at least 30 days' notice. Any change in the rate of any local sales and use tax shall only become effective on the first day of a calendar quarter. Failure to provide notice pursuant to this section shall require the Commonwealth and the locality to apply the preceding effective rate until 30 days after notification is provided.

D. Any local sales tax levied under this section shall be administered and collected by the Tax Commissioner in the same manner and subject to the same penalties as provided for the state sales tax.

E. All local sales tax moneys collected by the Tax Commissioner under this section shall be paid into the state treasury to the credit of a special fund which is hereby created on the Comptroller's books under the name "Collections of Local Sales Taxes." Such local sales tax moneys shall be credited to the account of each particular city or county levying a local sales tax under this section. The basis of such credit shall be the city or county in which the sales were made as shown by the records of the Department and certified by it monthly to the Comptroller, namely, the city or county of location of each place of business of every dealer paying the tax to the Commonwealth without regard to the city or county of possible use by the purchasers. If a dealer has any place of business located in more than one political subdivision by reason of the boundary line or lines passing through such place of business, the amount of sales tax paid by such a dealer with respect to such place of business shall be treated for the purposes of this section as follows: one-half shall be assignable to each political subdivision where two are involved, one-third where three are involved, and one-fourth where four are involved.

F. As soon as practicable after the local sales tax moneys have been paid into the state treasury in any month for the preceding month, the Comptroller shall draw his warrant on the Treasurer of Virginia in the proper amount in favor of each city or county entitled to the monthly return of its local sales tax moneys, and such payments shall be charged to the account of each such city or county under the special fund created by this section. If errors are made in any such payment, or adjustments are otherwise necessary, whether attributable to refunds to taxpayers, or to some other fact, the errors shall be corrected and adjustments made in the payments for the next two months as follows: one-half of the total adjustment shall be included in the payments for the next two months. In addition, the payment shall include a refund of amounts erroneously not paid to the city or county and not previously refunded during the three years preceding the discovery of the error. A correction and adjustment in payments described in this subsection due to the misallocation of funds by the dealer shall be made within three years of the date of the payment error.

G. Such payments to counties are subject to the qualification that in any county wherein is situated any incorporated town constituting a special school district and operated as a separate school district under a town school board of three members appointed by the town council, the county treasurer shall pay into the town treasury for general governmental purposes the proper proportionate amount received by him in the ratio that the school age population of such town bears to the school age population of the entire county. If the school age population of any town constituting a separate school district is increased by the annexation of territory since the last estimate of school age population provided by the Weldon Cooper Center for Public Service, such increase shall, for the purposes of this section, be added to the school age population of such town as shown by the last such estimate and a proper reduction made in the school age population of the county or counties from which the annexed territory was acquired.

H. One-half of such payments to counties are subject to the further qualification, other than as set out in subsection G, that in any county wherein is situated any incorporated town not constituting a separate special school district that has complied with its charter provisions providing for the election of its council and mayor for a period of at least four years immediately prior to the adoption of the sales tax ordinance, the county treasurer shall pay into the town treasury of each such town for general governmental purposes the proper proportionate amount received by him in the ratio that the school age population of each such town bears to the school age population of the entire county, based on the latest estimate provided by the Weldon Cooper Center for Public Service. The preceding requirement pertaining to the time interval between compliance with election provisions and adoption of the sales tax ordinance shall not apply to a tier-city. If the school age population of any such town not constituting a separate special school district is increased by the annexation of territory or otherwise since the last estimate of school age population provided by the Weldon Cooper Center for Public Service, such increase shall, for the purposes of this section, be added to the school age population of such town as shown by the last such estimate and a proper reduction made in the school age population of the county or counties from which the annexed territory was acquired.

I. The employer shall also enroll the children of an employee in the appropriate health coverage plan upon application by the children's other parent or legal guardian or upon application by the Department of Medical Assistance Services. In each case ~~which~~ *that* is being enforced by the Department of Social Services, the employer shall respond to such orders by advising the Department in which plan the children are enrolled or if the children are ineligible for any plan through the employer. The order to the employer shall specify either support withholdings or insurance premium deductions as having priority for the duration of the order in the event the maximum total deduction permitted at any time by § 34-29 is insufficient to fully cover both; the employer shall consider and direct insurance premium deductions and support withholdings the same for purposes of § 34-29. The employer shall not be held liable for any medical expenses incurred on behalf of the spouse, former spouse, or dependent children because of the employer's failure to enroll the spouse, former spouse, or dependent children in a health care plan after being directed to do so by a court or the Department. The employer shall not be obligated to subsequently make or change such enrollment if the group health insurance plan or other factors change after the spouse's, former spouse's, or child's eligibility or ineligibility for coverage is initially determined in response to the order for withholding. However, the employer shall not disenroll such children unless the employer (i) is provided satisfactory written evidence that such court or administrative order is no longer in effect, (ii) is provided satisfactory written evidence that the children are or will be enrolled in a comparable health coverage plan ~~which~~ *that* will take effect not later than the effective date of such disenrollment, or (iii) has eliminated family health coverage for all of its employees. A one-time fee of no more than ~~five dollars~~ \$5 may be charged by the employer to the employee for the administration of this requirement;

6. That a fee of ~~five dollars~~ \$5 for each reply or remittance on account of the obligor may be charged by the employer and withheld from the obligor's income in addition to the support amount to be withheld; however, child support withholding amounts collected from unemployment insurance benefits shall not be subject to this fee;

7. That the order is binding upon the employer and obligor and withholding is to continue until further notice by order of the court or the Department is served, or the obligor is no longer employed, whichever occurs first;

8. That the order shall have priority over any other types of liens created by state law against such income, except that if there is more than one court or administrative order for withholding for support against an obligor, the employer shall prorate among the orders based upon the current amounts due pursuant to more than one judicial or administrative order or a combination thereof, with any remaining amounts prorated among the accrued arrearages, if any, to the extent that the amounts withheld, when combined, do not exceed the maximum limits imposed under § 34-29 as specified in the order being honored;

9. That the obligor's rights are protected pursuant to § 63.2-1944 and that no employer shall discharge any employee, take disciplinary action against an employee, or *terminate a contract with* or refuse to employ a person by reason of the fact that his income has been made subject to a deduction pursuant to Chapter 19 (§ 63.2-1900 et seq.) of Title 63.2 or § 20-79.1 or 20-79.2 and an employer who discharges or takes disciplinary action against an employee, or *terminates a contract with* or refuses to employ any person because of an order for withholding under these sections shall be liable for a civil fine of not more than \$1,000;

10. The address to which the withholding is to be sent at the Department of Social Services and the case number, if available;

11. That the employer shall be liable for payments ~~which~~ *that* he fails to withhold or mail as specified in the order;

12. That employers shall remit payments on each regular pay date of the obligor, *or instance of compensation if the obligor is an independent contractor*, or, if electronic funds transfer is used, within four days of the pay date, directly to the Division of Child Support Enforcement for disbursement. All employers with at least 100 employees and all payroll processing firms with at least 50 clients shall remit payments by electronic funds transfer;

13. That the employer shall be deemed to have complied with the order by (i) mailing on each regular pay date of the obligor, *or instance of compensation if the obligor is an independent contractor*, to the Department, by first-class mail, any amount required to be deducted or (ii) ~~by~~ submitting such amounts by electronic funds transfer transmitted within ~~four~~ *four* days of the obligor's regular pay date *or instance of compensation*;

14. That the employer and obligor shall notify the Department promptly when the obligor terminates employment and shall provide the last known address of the obligor and name and address of the new employer, if known;

15. That amounts withheld from multiple employees identified as such by (i) amount, (ii) name, (iii) social security number, (iv) case number if provided in the order, and (v) date payment was withheld from obligor's income, may be combined into a single payment when payable to the same payee;

16. No order or directive shall require employers of 10,000 or more employees to make payments other than by combined single payment to the Department's central office in Richmond, without the employer's express written consent, unless the order is from a support enforcement agency outside the Commonwealth;

17. Payment pursuant to an order issued under this section shall serve as full acquittance of the employer under any contract of employment;

18. Notice that any employer who fails to timely withhold payments pursuant to this section shall be liable for any amount not timely withheld;

19. That the employer shall provide to the employee *or independent contractor* a copy of the withholding order and the notice to the employee sent by the court.

~~B. C.~~ If the employer receives an order that (i) does not contain the obligor's correct social security number, (ii) does not specify a single monetary amount to be withheld per regular pay period interval of the obligor, *unless the obligor is an independent contractor or the order is for lump sum withholding*, (iii) does not state the maximum percentage ~~which~~ *that* may be withheld pursuant to § 34-29, (iv) contains information ~~which~~ *that* is in conflict with the employer's current payroll records, or (v) orders payment to an entity other than to the Department of Social Services or the Department's designee, the employer may deposit in the mail or otherwise file a reply to that effect within five business days from service of such order. The order shall be void from transmission or filing of such reply unless the court or the Department, as applicable, finds that the reply is materially false. In addition, an employer of 10,000 or more persons may also file a reply, with like effect, if payment is ordered other than by combined single payment in the case of withholdings from multiple employees to the Department's central office in Richmond, without the employer's express written consent, unless the order is from a support enforcement agency outside the Commonwealth.

§ 63.2-1903. Authority to issue certain orders; civil penalty.

A. In the absence of a court order, the Department shall have the authority to issue orders directing the payment of child; and child and spousal support and, if available at reasonable cost as defined in § 63.2-1900, to require a provision for health care coverage, including Department-sponsored health care coverage, or cash medical support, or both, for dependent children of the parents, which shall include the requirements specified for employers pursuant to subdivision A B 5 of § 20-79.3. If health care coverage is unavailable at a reasonable cost, as defined in § 63.2-1900, or inaccessible to either parent, the Department shall refer the dependent children to the Family Access to Medical Insurance Security plan pursuant to § 32.1-351. However, prior to referring the dependent children to the Family Access to Medical Insurance Security plan, the Department shall confirm that neither parent has access to health care coverage at a reasonable cost for the dependent children. In ordering the payment of child support, the Department shall set such support at the amount resulting from computation pursuant to the guideline set out in § 20-108.2, subject to the provisions of § 63.2-1918.

B. When a payee, ~~as defined in § 63.2-1900~~, no longer has physical custody of a child, the Department shall have the authority to redirect child support payments to a custodial parent who has physical custody of the child when an assignment of rights has been made to the Department or an application for services has been made by such custodial parent with the Division of Child Support Enforcement.

C. D. The Department may order the obligor and payee to notify each other or the Department upon request of current gross income as defined in § 20-108.2 and any other pertinent information ~~which~~ *that* may affect child support amounts. For good cause shown, the Department may order that such information be provided to the Department and made available to the parties for inspection in lieu of the parties' providing such information directly to each other. The Department shall record the social security number of each party or control number issued to a party by the Department of Motor Vehicles pursuant to § 46.2-342 in the Department's file of the case.

E. The Department shall develop procedures governing the method and timing of periodic review and adjustment of child support orders established or enforced or both pursuant to Title IV-D of the Social Security Act, as amended. If there is an assignment under Title IV-A of the Social Security Act or at the request of either parent subject to the order, the Department shall initiate a review of such order every three years without requiring proof or showing of a change in circumstances; and shall initiate appropriate action to adjust such order in accordance with the provisions of § 20-108.2 and subject to the provisions of § 63.2-1918.

§ 63.2-1929. Orders to withhold and to deliver property of debtor; issuance and service; contents; right to appeal; answer; effect; delivery of property; bond to release; fee; exemptions.

A. After notice containing an administrative support order has been served or service has been waived or accepted, an opportunity for a hearing has been exhausted, and a copy of the order furnished as provided for in § 63.2-1916, or whenever a court order for child or child and spousal support has been entered, the Commissioner is authorized to issue to any person, firm, corporation, association, *or* political subdivision or department of the Commonwealth; orders to withhold and to deliver property of any kind, including, but not restricted to, income of the debtor, when the Commissioner has reason to believe that there is in the possession of such person, firm, corporation, association, *or* political subdivision or department of the Commonwealth; property that is due, owing, or belonging to such debtor. The orders to withhold and to deliver shall

take priority over all other debts and creditors under state law of such debtor, including the proceeds or anticipated proceeds of a personal injury or wrongful death award or settlement, except that the Department's lien shall be inferior to those liens created under § 8.01-66.2 or § 8.01-66.9, any statutory right of subrogation accruing to a health insurance provider, and the lien of the attorney representing the injured person in the personal injury or wrongful death action. However, orders to withhold and to deliver shall not take priority with respect to a prior payroll deduction or income withholding order pursuant to §§ 20-79.1, 20-79.2, 63.2-1923, or § 63.2-1924. The Department shall have the sole authority to negotiate settlement of its liens. Settlement of the Department's support liens does not affect the remaining support arrearages.

B. The order to withhold shall also be served upon the debtor within a reasonable time thereafter, and shall state the amount of the support debt accrued. The order shall state in summary the terms of §§ 63.2-1925 and 63.2-1930 and shall be served in the manner prescribed for the service of a warrant in a civil action, by certified mail, return receipt requested, or by electronic means. The order to withhold shall advise the debtor that this order has been issued to cause the property of the debtor to be taken to satisfy the debt and advise of property that may be exempted from this order. The order shall also advise the debtor of a right to appeal such order based upon a mistake of fact and that if no appeal is made within 10 days of being served, his property is subject to be taken.

C. If the debtor believes such property is exempt from this debt, within 10 days of the date of service of the order to withhold, the debtor may file an appeal to the Commissioner stating any exemptions that may be applicable. If the Commissioner receives a timely appeal, a hearing shall be promptly scheduled before a hearing officer upon reasonable notice to the obligee. The Commissioner may delegate authority to conduct the hearing to a duly qualified hearing officer who shall consider the debtor's appeal. Action by the Commissioner under the provisions of this chapter to collect such support debt shall be valid and enforceable during the pendency of any appeal.

The decision of the hearing officer shall be in writing and shall set forth the debtor's rights to appeal an adverse decision of the hearing officer pursuant to § 63.2-1943. The decision shall be served upon the debtor in accordance with the provisions of § 8.01-296, 8.01-327, or 8.01-329, mailed to the debtor at his last known address by certified mail, return receipt requested, or provided by electronic means or service may be waived. A copy of such decision shall also be provided to the obligee. Such decision shall establish whether the debtor's property is exempt under state or federal laws and regulations.

D. Any person, firm, corporation, association, *or* political subdivision or department of the Commonwealth upon whom service has been made is hereby required to answer such order to withhold within 10 days, exclusive of the day of service, under oath and in writing, and shall file true answers to the matters inquired of therein. In the event *that* there is in the possession of any such person, firm, corporation, association, *or* political subdivision or department of the Commonwealth, any property that may be subject to the claim of the Department, such property shall be withheld immediately upon receipt of the order to withhold, together with any additional property received by such person, firm, corporation, association, *or* political subdivision, *or* department of the Commonwealth valued up to the amount of the order until receipt of an order to deliver or release. The property shall be delivered to the Commissioner upon receipt of an order to deliver; however, distribution of the property shall not be made during pendency of all appeals. Where money is due and owing under any contract of employment, express or implied, or is held by any person, firm, corporation, ~~or~~ association, *or* political subdivision or department of the Commonwealth subject to withdrawal by the debtor, such money shall be delivered by remittance payable to the order of the Treasurer of Virginia. The person, firm, corporation, *association, or* political subdivision or department of the Commonwealth herein specified shall be entitled to receive from such debtor a fee of \$5 for each answer or remittance on account of such debtor. The foregoing is subject to the exemptions contained in §§ 63.2-1925 and 63.2-1933.

E. Delivery to the Commissioner shall serve as full acquittance and the Commonwealth warrants and represents that it shall defend and hold harmless for such actions persons delivering money or property to the Commissioner pursuant to this chapter.

F. An order issued to an employer for withholding from the earnings of an employee *or independent contractor* pursuant to this section shall conform to § 20-79.3. The rights and obligations of an employer with respect to the order are set out in § 20-79.3.

§ 63.2-1944. Employee debtor rights protected; limitation.

No employer shall discharge an employee *or terminate a contract with an independent contractor solely* for reason that a voluntary assignment of earnings under § 63.2-1945 has been presented in settlement of a support debt or that a support lien or order to withhold and deliver has been served against such employee's *or independent contractor's* earnings *or income*.

A. For the purposes of this section:

This information may be provided by mailing a copy of the employee's W-4 form or the independent contractor's W-9 form, transmitting information magnetically or electronically in the prescribed format or by any other means determined by the Virginia New Hire Reporting Center to result in timely reporting. Within three business days after the date information regarding a newly hired employee or new independent contractor is entered into the Virginia State Directory of New Hires, the Center shall furnish the information to the National Directory of New Hires established under § 453(i) of the Social Security Act, as amended.

9. Any additional documentation as may be required by the Department.

B. The Commissioner may refuse to grant a license to any application who fails or refuses to provide any information required to be submitted pursuant to subsection A.

§ 63.2-1701. Licenses required; issuance, expiration, and renewal; maximum number of residents, participants or children; posting of licenses.

A. As used in this section, "person" means any individual; corporation; partnership; association; limited liability company; local government; state agency, including any department, institution, authority, instrumentality, board, or other administrative agency of the Commonwealth; or other legal or commercial entity that operates or maintains a child welfare agency, adult day care center, or assisted living facility.

B. Every person who constitutes, or who operates or maintains, an assisted living facility, adult day care center, or child welfare agency shall obtain the appropriate license from the Commissioner, which may be renewed. However, no license shall be required for an adult day care center that provides services only to individuals enrolled in a Programs of All-Inclusive Care for the Elderly program operated in accordance with an agreement between the provider, the Department of Medical Assistance Services and the Centers for Medicare and Medicaid Services. Licenses issued to child day centers under this chapter shall have a duration of two years from date of issuance.

D. The length of each license or renewal thereof for an assisted living facility shall be based on the judgment of the Commissioner regarding the compliance history of the facility and the extent to which it meets or exceeds state licensing standards. On the basis of this judgment, the Commissioner may issue licenses or renewals thereof for periods of six months, one year, two years, or three years.

"Telehealth services" includes the use of such technologies as telephones, facsimile machines, electronic mail systems, store-and-forward technologies, and remote patient monitoring devices that are used to collect and transmit patient data for monitoring and interpretation. Nothing in this definition shall be construed or interpreted to amend the appropriate establishment of a bona fide practitioner-patient relationship, as defined in § 54.1-3303.

"Telemedicine services" has the same meaning as in § 38.2-3418.16.

Such criteria shall be used as a guide and resource for health care providers and are not intended to establish, in and of themselves, standards of care or to abrogate the requirements of § 8.01-581.20. A decision by a health care provider to deviate from the criteria shall not constitute negligence per se;

4. A strategy for integration of the Statewide Telehealth Plan with the State Health Plan, the Statewide Emergency Medical Services Plan, the Statewide Trauma Triage Plan, and the Stroke Triage Plan to support the purposes of each plan;

5. A strategy for the maintenance of the Statewide Telehealth Plan through (i) the development of an innovative payment model for emergency medical services that covers the transportation of a patient to a destination providing services of appropriate patient acuity and facilitates in-place treatment of a patient at the scene of an emergency response or via telehealth services and telemedicine services, where appropriate; (ii) the development of collaborative and uniform operating procedures for establishing and recording informed patient consent for the use of telehealth services and telemedicine services that are easily accessible by those medical professionals engaging in telehealth services and telemedicine services; and (iii) appropriate liability protection for providers involved in such telehealth and telemedicine consultation and treatment; and

6. A strategy for the collection of data regarding the use of telehealth services and telemedicine services in the delivery of inpatient and outpatient services, treatment of chronic illnesses, remote patient monitoring, and emergency medical services to determine the effect of use of telehealth services and telemedicine services on the medical system in the Commonwealth, including (i) the potential for reducing unnecessary inpatient hospital stays, particularly among patients with chronic illnesses or conditions; (ii) the impact of the use of telehealth services and telemedicine services on patient morbidity, mortality, and quality of life; (iii) the potential for reducing unnecessary prehospital and interhospital transfers; and (iv) the impact on annual expenditures for health care services for all payers, including expenditures by third-party payers and out-of-pocket expenditures by patients.

In addition, reimbursement to pharmacists acting under the terms of a collaborative agreement under this subsection shall not be subject to the provisions of § 38.2-3407.7, or (iii) the service is provided in accordance with § 54.1-3303.1.~~

A collaborative agreement is not required for the management of patients of an inpatient facility.

Other terms used in the context of this chapter shall be defined as provided in Chapter 34 (§ 54.1-3400 et seq.) unless the context requires a different meaning.

§ 54.1-3300.1. Participation in collaborative agreements; regulations to be promulgated by the Boards of Medicine and Pharmacy.

A. A pharmacist and his designated alternate pharmacists involved directly in patient care may participate with (i) any person licensed to practice medicine, osteopathy, or podiatry together with any person licensed, registered, or certified by a health regulatory board of the Department of Health Professions who provides health care services to patients of such person licensed to practice medicine, osteopathy, or podiatry; (ii) a physician's office as defined in § 32.1-276.3, provided that such collaborative agreement is signed by each physician participating in the collaborative ~~practice~~ agreement; (iii) any licensed physician assistant working under the supervision of a person licensed to practice medicine, osteopathy, or podiatry; or (iv) any licensed nurse practitioner working in accordance with the provisions of § 54.1-2957, involved directly in patient care in collaborative agreements which authorize cooperative procedures related to treatment using drug therapy, laboratory tests, or medical devices, under defined conditions or limitations, for the purpose of improving patient outcomes *for patients who meet the criteria set forth in the collaborative agreement.* However, no person licensed to practice medicine, osteopathy, or podiatry shall be required to participate in a collaborative agreement with a pharmacist and his designated alternate pharmacists, regardless of whether a professional business entity on behalf of which the person is authorized to act enters into a collaborative agreement with a pharmacist and his designated alternate pharmacists.

~~No patient shall be required to participate in a collaborative procedure without such patient's consent.~~ B. A patient who meets the criteria for inclusion in the category of patients whose care is subject to a collaborative agreement and who chooses to not participate in a collaborative procedure shall notify the prescriber of his refusal to participate in such

collaborative procedure. A prescriber may elect to have a patient not participate in a collaborative procedure by contacting the pharmacist or his designated alternative pharmacists or by documenting the same on the patient's prescription.

C. Collaborative agreements may include the implementation, modification, continuation, or discontinuation of drug therapy pursuant to written or electronic protocols, provided implementation of drug therapy occurs following diagnosis by the prescriber; the ordering of laboratory tests; or other patient care management measures related to monitoring or improving the outcomes of drug or device therapy. No such collaborative agreement shall exceed the scope of practice of the respective parties. Any pharmacist who deviates from or practices in a manner inconsistent with the terms of a collaborative agreement shall be in violation of § 54.1-2902; such violation shall constitute grounds for disciplinary action pursuant to §§ 54.1-2400 and 54.1-3316.

B. A pharmacist who initiates treatment with or dispenses or administers a drug or device pursuant to this section shall notify the patient's primary health care provider that the pharmacist has initiated treatment with such drug or device or that such drug or device has been dispensed or administered to the patient, provided that the patient consents to such notification. If the patient does not have a primary health care provider, the pharmacist shall counsel the patient regarding the benefits of establishing a relationship with a primary health care provider and, upon request, provide information regarding primary health care providers, including federally qualified health centers, free clinics, or local health departments serving the area in which the patient is located. 2. That the Board of Pharmacy, in collaboration with the Board of Medicine and the Department of Health, shall establish protocols for the initiating of treatment with and dispensing and administering of drugs and devices by pharmacists in accordance with § 54.1-3303.1 of the Code of Virginia, as created by this act, by November 1, 2020, and shall promulgate regulations to implement the provisions of the first enactment of this act to be effective within 280 days of its enactment. Such regulations shall include provisions for ensuring that physical settings in which treatment is provided pursuant to this act shall be in compliance with the Health Insurance Portability and Accountability Act, 42 U.S.C. § 1320d et seq.

3. That the Board of Pharmacy (the Board) shall establish a work group consisting of representatives of the Board of Medicine, the Department of Health, schools of medicine and pharmacy located in the Commonwealth, and such other stakeholders as the Board may deem appropriate to provide recommendations regarding the development of protocols for the initiating of treatment with and dispensing and administering by pharmacists to persons 18 years of age or older of drugs and devices, including (i) vaccines included on the Immunization Schedule published by the Centers for Disease Control and Prevention; (ii) drugs approved by the U.S. Food and Drug Administration for tobacco cessation therapy, including nicotine replacement therapy; (iii) tuberculin purified protein derivative for tuberculosis testing; (iv) controlled substances or devices for the treatment of diseases or conditions for which clinical decision making can be guided by a clinical test that is classified as waived under the federal Clinical Laboratory Improvement Amendments of 1988, including influenza virus, *Helicobacter pylori* bacteria, urinary

A. The custody, visitation, support, control or disposition of a child:

1. Who is alleged to be abused, neglected, in need of services, in need of supervision, a status offender, or delinquent except where the jurisdiction of the juvenile court has been terminated or divested;

Any objection based on jurisdiction under this subsection shall be made before a jury is impaneled and sworn in a jury trial or, in a nonjury trial, before the earlier of when the court begins to hear or receive evidence or the first witness is sworn, or it shall be conclusively waived for all purposes. W. Petitions filed by a juvenile seeking judicial authorization for a physician to perform an abortion if a minor elects not to seek consent of an authorized person.

After a hearing, a judge shall issue an order authorizing a physician to perform an abortion, without the consent of any authorized person, if he finds that (i) the minor is mature enough and well enough informed to make her abortion decision, in consultation with her physician, independent of the wishes of any authorized person, or (ii) the minor is not mature enough or well enough informed to make such decision, but the desired abortion would be in her best interest.

If the judge authorizes an abortion based on the best interests of the minor, such order shall expressly state that such authorization is subject to the physician or his agent giving notice of intent to perform the abortion; however, no such notice shall be required if the judge finds that such notice would not be in the best interest of the minor. In determining whether notice is in the best interest of the minor, the judge shall consider the totality of the circumstances; however, he shall find that notice is not in the best interest of the minor if he finds that (i) one or more authorized persons with whom the minor regularly and customarily resides is abusive or neglectful, and (ii) every other authorized person, if any, is either abusive or neglectful or has refused to accept responsibility as parent, legal guardian, custodian or person standing in loco parentis.

The minor may participate in the court proceedings on her own behalf, and the court may appoint a guardian ad litem for the minor. The court shall advise the minor that she has a right to counsel and shall, upon her request, appoint counsel for her.

Notwithstanding any other provision of law, the provisions of this subsection shall govern proceedings relating to consent for a minor's abortion. Court proceedings under this subsection and records of such proceedings shall be confidential. Such proceedings shall be given precedence over other pending matters so that the court may reach a decision promptly and without delay in order to serve the best interests of the minor. Court proceedings under this subsection shall be heard and decided as soon as practicable but in no event later than four days after the petition is filed.

An expedited confidential appeal to the circuit court shall be available to any minor for whom the court denies an order authorizing an abortion without consent or without notice. Any such appeal shall be heard and decided no later than five days after the appeal is filed. The time periods required by this subsection shall be subject to subsection B of § 1-210. An order authorizing an abortion without consent or without notice shall not be subject to appeal.

No filing fees shall be required of the minor at trial or upon appeal.

If either the original court or the circuit court fails to act within the time periods required by this subsection, the court before which the proceeding is pending shall immediately authorize a physician to perform the abortion without consent or notice to an authorized person.

Nothing contained in this subsection shall be construed to authorize a physician to perform an abortion on a minor in circumstances or in a manner that would be unlawful if performed on an adult woman.

A physician shall not knowingly perform an abortion upon an unemancipated minor unless consent has been obtained or the minor delivers to the physician a court order entered pursuant to this section and the physician or his agent provides such notice as such order may require. However, neither consent nor judicial authorization nor notice shall be required if the minor declares that she is abused or neglected and the attending physician has reason to suspect that the minor may be an abused or neglected child as defined in § 63.2-100 and reports the suspected abuse or neglect in accordance with § 63.2-1509; or if there is a medical emergency, in which case the attending physician shall certify the facts justifying the exception in the minor's medical record.

"Consent" means that (i) the physician has given notice of intent to perform the abortion and has received authorization from an authorized person, or (ii) at least one authorized person is present with the minor seeking the abortion and provides written authorization to the physician, which shall be witnessed by the physician or an agent thereof. In either case, the written authorization shall be incorporated into the minor's medical record and maintained as a part thereof.

"Medical emergency" means any condition which, on the basis of the physician's good faith clinical judgment, so complicates the medical condition of the pregnant minor as to necessitate the immediate abortion of her pregnancy to avert her death or for which a delay will create a serious risk of substantial and irreversible impairment of a major bodily function.

"Notice of intent to perform the abortion" means that (i) the physician or his agent has given actual notice of his intention to perform such abortion to an authorized person, either in person or by telephone, at least 24 hours previous to the performance of the abortion; or (ii) the physician or his agent, after a reasonable effort to notify an authorized person, has mailed notice to an authorized person by certified mail, addressed to such person at his usual place of abode, with return receipt requested, at least 72 hours prior to the performance of the abortion.

"Perform an abortion" means to interrupt or terminate a pregnancy by any surgical or nonsurgical procedure or to induce a miscarriage as provided in § 18.2-72, 18.2-73, or 18.2-74.

"Unemancipated minor" means a minor who has not been emancipated by (i) entry into a valid marriage, even though the marriage may have been terminated by dissolution; (ii) active duty with any of the Armed Forces of the United States; (iii) willingly living separate and apart from his or her parents or guardian, with the consent or acquiescence of the parents or guardian; or (iv) entry of an order of emancipation pursuant to Article 15 (§ 16.1-331 et seq.).

Y. Petitions involving minors filed pursuant to § 32.1-45.1 relating to obtaining a blood specimen or test results.

Z. *Petitions filed pursuant to § 16.1-283.3 for review of voluntary agreements for continuation of services and support for persons who meet the eligibility criteria for the Fostering Futures program set forth in § 63.2-919.*

The ages specified in this law refer to the age of the child at the time of the acts complained of in the petition.

Notwithstanding any other provision of law, no fees shall be charged by a sheriff for the service of any process in a proceeding pursuant to subdivision A 3, except as provided in subdivision A 6 of § 17.1-272, or subsection B, D, M, or R.

Notwithstanding the provisions of § 18.2-71, any physician who performs an abortion in violation of subsection W shall be guilty of a Class 3 misdemeanor.

§ 16.1-283.3. Review of voluntary continuing services and support agreements for former foster youth.

A. *Whenever a program participant, as defined in § 63.2-918, enters into a voluntary continuing services and support agreement with a local department of social services pursuant to § 63.2-921, a hearing shall be held to review the agreement and the program participant's case plan. In determining whether to approve the case plan, the court shall determine whether remaining in the care and placement responsibility of the local department of social services is in the program participant's best interests and whether the program participant's case plan is sufficient to achieve the goal of independence. Such hearing shall be held by the juvenile and domestic relations district court that last had jurisdiction over the program participant's foster care proceedings when the program participant was a minor. The petition for review of the voluntary continuing services and support agreement and the program participant's case plan shall be filed by the local department of social services no later than 30 days after execution of the voluntary continuing services and support agreement. The petition shall include documentation of the program participant's last foster care placement as a minor and the responsible local department of social services, a copy of the signed voluntary continuing services and support agreement, a copy of the program participant's case plan, and any other information the local department of social services or the program participant wishes the court to consider.*

B. Upon receiving a petition for review of the voluntary continuing services and support agreement and the program participant's case plan, the court shall schedule a hearing to be held within 45 days after receipt of the petition. The court may appoint counsel or a guardian ad litem for the program participant pursuant to § 16.1-266. The court may, reappoint or continue the appointment of the court-appointed special advocate volunteer who served the program participant as a minor or, if the previous volunteer is unavailable, appoint another special advocate volunteer. The court shall provide notice of the hearing and copies of the petition to the program participant, the program participant's legal counsel, the local department of social services, and any other persons who, in the court's discretion, have a legitimate interest in the hearing. The local department of social services shall identify for the court all persons who may have a legitimate interest in the hearing.

C. At the conclusion of the hearing, the court shall enter an order that:

1. Determines whether remaining under the care and placement responsibility of the local department of social services is in the best interests of the program participant; and

2. Approves or denies the program participant's case plan.

In determining whether to approve or deny the program participant's case plan, the court shall consider whether the services and support provided under the case plan are sufficient to support the program participant's goal of achieving independence. If the court makes any revision to the case plan, a copy of such revisions shall be sent by the court to all persons who received a copy of the original case plan.

D. After the initial hearing, the court may close the case or schedule a subsequent hearing to be held within six months to review the program participant's case plan. Subsequent review hearings may be held at six-month or shorter intervals in the discretion of the court. The local department of social services shall file a petition for review of the program participant's case plan within 30 days prior to any such scheduled hearing. If a hearing was not previously scheduled, the court shall schedule a hearing to be held within 30 days of receipt of the petition. The court shall provide notice of the hearing and a copy of the petition in accordance with subsection B. If subsequent review hearings are not held by the court, the local department of social services shall conduct administrative reviews pursuant to § 63.2-923.

E. In all hearings held pursuant to this section, the court shall consult with the program participant in an age-appropriate manner regarding his case plan.

§ 63.2-100. Definitions.

As used in this title, unless the context requires a different meaning:

"Abused or neglected child" means any child less than 18 years of age:

1. Whose parents or other person responsible for his care creates or inflicts, threatens to create or inflict, or allows to be created or inflicted upon such child a physical or mental injury by other than accidental means, or creates a substantial risk of death, disfigurement, or impairment of bodily or mental functions, including, but not limited to, a child who is with his parent or other person responsible for his care either (i) during the manufacture or attempted manufacture of a Schedule I or II controlled substance, or (ii) during the unlawful sale of such substance by that child's parents or other person responsible for his care, where such manufacture, or attempted manufacture or unlawful sale would constitute a felony violation of § 18.2-248;

2. Whose parents or other person responsible for his care neglects or refuses to provide care necessary for his health. However, no child who in good faith is under treatment solely by spiritual means through prayer in accordance with the tenets and practices of a recognized church or religious denomination shall for that reason alone be considered to be an abused or neglected child. Further, a decision by parents who have legal authority for the child or, in the absence of parents with legal authority for the child, any person with legal authority for the child, who refuses a particular medical treatment for a child with a life-threatening condition shall not be deemed a refusal to provide necessary care if (i) such decision is made jointly by the parents or other person with legal authority and the child; (ii) the child has reached 14 years of age and is sufficiently mature to have an informed opinion on the subject of his medical treatment; (iii) the parents or other person with legal authority and the child have considered alternative treatment options; and (iv) the parents or other person with legal authority and the child believe in good faith that such decision is in the child's best interest. Nothing in this subdivision shall be construed to limit the provisions of § 16.1-278.4;

3. Whose parents or other person responsible for his care abandons such child;

4. Whose parents or other person responsible for his care commits or allows to be committed any act of sexual exploitation or any sexual act upon a child in violation of the law;

5. Who is without parental care or guardianship caused by the unreasonable absence or the mental or physical incapacity of the child's parent, guardian, legal custodian or other person standing in loco parentis;

6. Whose parents or other person responsible for his care creates a substantial risk of physical or mental injury by knowingly leaving the child alone in the same dwelling, including an apartment as defined in § 55.1-2000, with a person to whom the child is not related by blood or marriage and who the parent or other person responsible for his care knows has been convicted of an offense against a minor for which registration is required as a violent sexual offender pursuant to § 9.1-902; or

7. Who has been identified as a victim of sex trafficking or severe forms of trafficking as defined in the Trafficking Victims Protection Act of 2000, 22 U.S.C. § 7102 et seq., and in the Justice for Victims of Trafficking Act of 2015, 42 U.S.C. § 5101 et seq.

If a civil proceeding under this title is based solely on the parent having left the child at a hospital or emergency medical services agency, it shall be an affirmative defense that such parent safely delivered the child to a hospital that provides 24-hour emergency services or to an attended emergency medical services agency that employs emergency medical services providers, within 14 days of the child's birth. For purposes of terminating parental rights pursuant to § 16.1-283 and placement for adoption, the court may find such a child is a neglected child upon the ground of abandonment.

"Adoptive home" means any family home selected and approved by a parent, local board or a licensed child-placing agency for the placement of a child with the intent of adoption.

2. At the meeting, the voter may request an extension of the determination of the provisional vote in order to provide information to prove that the voter is entitled to vote in the precinct pursuant to § 24.2-401. The electoral board shall have the authority to grant such extensions which it deems reasonable to determine the status of a provisional vote.~~

~~B- C. The provisional votes submitted pursuant to subsection A, in their unopened envelopes, shall be sealed in a special envelope marked "Provisional Votes," inscribed with the number of envelopes contained therein, and signed by the officers of election who counted them. All provisional votes envelopes shall be delivered either (i) to the clerk of the circuit court who shall deliver all such envelopes to the secretary of the electoral board or (ii) to the general registrar in localities in which the electoral board has directed delivery of election materials to the general registrar pursuant to § 24.2-668.~~

If the board is unable to determine the validity of all the provisional ballots offered in the election, or has granted any voter who has offered a provisional ballot an extension as provided in subsection A, the meeting shall stand adjourned; not to exceed seven calendar days from the date of the election; until the board has determined the validity of all provisional ballots offered in the election.~~

~~One authorized representative of each political party or independent candidate in a general or special election or one authorized representative of each candidate in a primary election shall be permitted to remain in the room in which the determination is being made as an observer so long as he does not participate in the proceedings and does not impede the orderly conduct of the determination. If the county or city chairman is unavailable to sign such a written designation, such a designation may be made by the state or district chairman of the~~

political party. However, no written designation made by a state or district chairman shall take precedence over a written designation made by the county or city chairman. Such statement, bearing the chairman's or candidate's original signature, may be photocopied and such photocopy shall be as valid as if the copy had been signed.

Notwithstanding the provisions of the Virginia Freedom of Information Act (§ 2.2-3700 et seq.), attendance at meetings of the electoral board to determine the validity of provisional ballots shall be permitted only for the authorized representatives provided for in this subsection, for the persons whose provisional votes are being considered and their representative or legal counsel, and for appropriate staff and legal counsel for the electoral board.

If the electoral board determines that such person was not entitled to vote as a qualified voter in the precinct in which he offered the provisional vote; is unable to determine his right to vote; or has not been provided one of the forms of identification specified in subsection B of § 24.2-643, the envelope containing his ballot shall not be opened and his vote shall not be counted. The provisional vote shall be counted if (a) such person is entitled to vote in the precinct pursuant to § 24.2-401 or (b) the Department of Elections or the voter presents proof that indicates the voter submitted an application for registration to the Department of Motor Vehicles or other state-designated voter registration agency prior to the close of registration pursuant to § 24.2-416 and the registrar determines that the person was qualified for registration based upon the application for registration submitted by the person pursuant to subsection A. The general registrar shall notify in writing pursuant to § 24.2-114 those persons found not properly registered or whose provisional vote was not counted.

If the electoral board determines that such person was entitled to vote, the name of the voter shall be entered in a provisional votes pollbook and marked as having voted; the envelope shall be opened; and the ballot placed in a ballot container without any inspection further than that provided for in § 24.2-646.

On completion of its determination, the electoral board shall proceed to count such ballots and certify the results of its count. Its certified results shall be added to those found pursuant to § 24.2-671. No adjustment shall be made to the statement of results for the precinct in which the person offered to vote. However, any voter who cast a provisional ballot and is determined by the electoral board to have been entitled to vote shall have his name included on the list of persons who voted that is submitted to the Department of Elections pursuant to § 24.2-406.

The certification of the results of the count together with all ballots and envelopes, whether open or unopened, and other related material shall be delivered by the electoral board to the clerk of the circuit court and retained by him as provided for in §§ 24.2-668 and 24.2-669.

C. Whenever the polling hours are extended by an order of a court of competent jurisdiction, any ballots marked after the normal polling hours by persons who were not already in line at the time the polls would have closed, notwithstanding the court order, shall be treated as provisional ballots under this section. The officers of election shall mark the green envelope for each such provisional ballot to indicate that it was cast after normal polling hours due to the court order, and when preparing the materials to deliver to the registrar or electoral board, shall separate these provisional ballots from any provisional ballots used for any other reason. The electoral board shall treat these provisional ballots as provided in subsection B; however, the counted and uncounted provisional ballots marked after the normal polling hours shall be kept separate from all other ballots and recorded in a separate provisional ballots pollbook. The Department of Elections shall provide instructions to the electoral boards for the handling and counting of such provisional ballots pursuant to this section.

§ 24.2-653.01. Provisional ballots; electoral boards to make determination as to validity.

A. The electoral board shall meet on the day following the election and determine whether each person having submitted a provisional vote pursuant to § 24.2-653 was entitled to do so as a qualified voter in the precinct in which he offered the provisional vote. At the meeting, the voter may request an extension of the determination of the provisional vote in order to provide information to prove that the voter is entitled to vote in the precinct pursuant to § 24.2-401. The electoral board shall have the authority to grant such extensions that it deems reasonable to determine the status of a provisional vote.

If the board is unable to determine the validity of all the provisional ballots offered in the election, or has granted any voter who has offered a provisional ballot an extension, the meeting shall stand adjourned, not to exceed seven calendar days from the date of the election, until the board has determined the validity of all provisional ballots offered in the election.

B. The electoral board shall permit one authorized representative of each political party or independent candidate in a general or special election or one authorized representative of each candidate in a primary election to remain in the room in which the determination is being made as an observer so long as he does not participate in the proceedings and does not impede the orderly conduct of the determination. Each authorized representative shall be a qualified voter of any jurisdiction of the Commonwealth. Each representative, who is not himself a candidate or party chairman, shall present to the electoral board a written statement designating him to be a representative of the party or candidate and signed by the county or city chairman of his political party, the independent candidate, or the primary candidate, as appropriate. If the county or city chairman is unavailable to sign such a written designation, such a designation may be made by the state or district chairman of the political party. However, no written designation made by a state or district chairman shall take precedence over a written designation made by the county or city chairman. Such statement, bearing the chairman's or candidate's original signature, may be photocopied and such photocopy shall be as valid as if the copy had been signed.

Notwithstanding the provisions of the Virginia Freedom of Information Act (§ 2.2-3700 et seq.), attendance at meetings of the electoral board to determine the validity of provisional ballots shall be permitted only for the authorized representatives provided for in this subsection, for the persons whose provisional votes are being considered and their representative or legal counsel, and for appropriate staff and legal counsel for the electoral board.

C. If the electoral board determines that such person was not entitled to vote as a qualified voter in the precinct in which he offered the provisional vote, is unable to determine his right to vote, or has not been provided one of the forms of identification specified in subsection B of § 24.2-643, the envelope containing his ballot shall not be opened and his vote shall not be counted. The general registrar shall notify in writing pursuant to § 24.2-114 those persons found not properly registered or whose provisional vote was not counted.

The provisional vote shall be counted if (i) such person is entitled to vote in the precinct pursuant to § 24.2-401 or (ii) the Department of Elections or the voter presents proof that indicates the voter submitted an application for registration to the Department of Motor Vehicles or other state-designated voter registration agency prior to the close of registration pursuant to § 24.2-416 and the registrar determines that the person was qualified for registration based upon the application for registration submitted by the person pursuant to subsection B of § 24.2-652.

If the electoral board determines that such person was entitled to vote, the name of the voter shall be entered in a provisional votes pollbook and marked as having voted, the envelope shall be opened, and the ballot shall be placed in a ballot container without any inspection further than that provided for in § 24.2-646.

D. On completion of its determination, the electoral board shall proceed to count such ballots and certify the results of its count. Its certified results shall be added to those found pursuant to § 24.2-671. No adjustment shall be made to the statement of results for the precinct in which the person offered to vote. However, any voter who cast a provisional ballot and is determined by the electoral board to have been entitled to vote shall have his name included on the list of persons who voted that is submitted to the Department of Elections pursuant to § 24.2-406.

E. The certification of the results of the count together with all ballots and envelopes, whether open or unopened, and other related material shall be delivered by the electoral board to the clerk of the circuit court and retained by him as provided for in §§ 24.2-668 and 24.2-669.

B. The completion and timely delivery of an application for an absentee ballot shall be construed to be an offer by the applicant to vote in the election.

The general registrar shall note on each application received whether the applicant is or is not a registered voter. In reviewing the application for an absentee ballot, the general registrar shall not reject the application of any individual because of an error or omission on any record or paper relating to the application, if such error or omission is not material in determining whether such individual is qualified to vote absentee.

If the application has been properly completed and signed and the applicant is a registered voter of the precinct in which he offers to vote, the general registrar shall, at the time when the printed ballots for the election are available, send by

the deadline set out in § 24.2-612, obtaining a certificate or other evidence of either first-class or expedited mailing or delivery from the United States Postal Service or other commercial delivery provider, or deliver to him in person in the office of the registrar, the following items and nothing else:

2. An envelope, with printing only on the flap side, for resealing the marked ballot, on which envelope is printed the following:

Signature of Voter _____

Date _____

Signature of witness _____"

For elections held after January 1, 2004, instead of the envelope containing the above oath, an envelope containing the standard oath prescribed by the presidential designee under § 101(b)(7) of the Uniformed and Overseas Citizens Absentee Voting Act (52 U.S.C. § 20301 et seq.) shall be sent to voters who are qualified to vote absentee under that Act.

When this statement has been properly completed and signed by the registered voter and witnessed, his ballot shall not be subject to challenge pursuant to § 24.2-651.

3. A properly addressed envelope for the return of the ballot to the general registrar by mail or by the applicant in person.

4. Printed instructions for completing the ballot and statement on the envelope and returning the ballot.

For federal elections held after January 1, 2004, for any voter who is required by subparagraph (b) of 52 U.S.C. § 21083 of the Help America Vote Act of 2002 to show identification the first time the voter votes in a federal election in the state, the printed instructions shall direct the voter to submit with his ballot (i) a copy of a current and valid photo identification or (ii) a copy of a current utility bill, bank statement, government check, paycheck or other government document that shows the name and address of the voter. Such individual who desires to vote by mail but who does not submit one of the forms of identification specified in this paragraph may cast such ballot by mail and the ballot shall be counted as a provisional ballot under the provisions of § ~~24.2-653~~ 24.2-653.01. The Department of Elections shall provide instructions to the electoral boards for the handling and counting of such provisional ballots pursuant to ~~subsection B of § 24.2-653~~ § 24.2-653.01 and this section.

5. For any voter entitled to vote absentee under the Uniformed and Overseas Citizens Absentee Voting Act (52 U.S.C. § 20301 et seq.), information provided by the Department of Elections specific to the voting rights and responsibilities for such citizens, or information provided by the registrar specific to the status of the voter registration and absentee ballot application of such voter, may be included.

The envelopes and instructions shall be in the form prescribed by the Department of Elections.

C. If the applicant completes his application in person under § 24.2-701 at a time when the printed ballots for the election are available, he may request that the general registrar send to him by mail the items set forth in subdivisions B 1 through 4, instead of casting the ballot in person. Such request shall be made no later than 5:00 p.m. on the seventh day prior to the election in which the applicant offers to vote, and the general registrar shall send those items to the applicant by mail, obtaining a certificate or other evidence of mailing.

D. If the applicant states as the reason for his absence on election day any of the reasons set forth in subdivision A 2 of § 24.2-700, the general registrar, at the time when the printed ballots for the election are available, shall mail by the deadline set forth in § 24.2-612 or deliver in person to the applicant in the office of the general registrar the items as set forth in subdivisions B 1 through 4 and, if necessary, an application for registration. A certificate or other evidence of mailing shall not be required. If the applicant requests that such items be sent by electronic transmission, the general registrar, at the time when the printed ballots for the election are available but not later than the deadline set forth in § 24.2-612, shall send by electronic transmission the blank ballot, the form for the envelope for returning the marked ballot, and instructions to the voter. Such materials shall be sent using the official email address or fax number of the office of the general registrar published on the Department of Elections website. The State Board of Elections may prescribe by regulation the format of the email address used for transmitting ballots to eligible voters. A general registrar may also use electronic transmission facilities provided by the Federal Voting Assistance Program. The voted ballot shall be returned to the general registrar as otherwise required by this chapter.

E. The circuit courts shall have jurisdiction to issue an injunction to enforce the provisions of this section upon the application of (i) any aggrieved voter, (ii) any candidate in an election district in whole or in part in the court's jurisdiction where a violation of this section has occurred, or is likely to occur, or (iii) the campaign committee or the appropriate district

political party chairman of such candidate. Any person who fails to discharge his duty as provided in this section through willful neglect of duty and with malicious intent shall be guilty of a Class 1 misdemeanor as provided in subsection A of § 24.2-1001.

On receipt of an absentee ballot, the electoral board or general registrar shall mark the date of receipt in the appropriate column opposite the name and address of the voter on the absentee voter applicant list maintained in the general registrar's office. A board member or registrar shall deposit the return envelope and the unopened ballot envelope in an appropriate container provided for the purpose, in which they shall remain until the day of the election, unless the registrar opts to open sealed ballot envelopes in order to expedite the counting of absentee ballots in accordance with § 24.2-709.1.

On the day before the election, the general registrar shall (i) make out in triplicate on a form prescribed by the State Board the absentee voter applicant list containing the names of all persons who applied for an absentee ballot through the third day before the election and (ii) by noon on the day before the election, deliver two copies of the list to the electoral board. The supplementary list shall be deemed part of the absentee voter applicant list and shall be prepared and delivered in accordance with the instructions of the State Board. The general registrar shall maintain one copy of the list in his office for two years as a public record open for inspection upon request during regular office hours.

On the day before the election, the electoral board shall deliver one copy of the list provided to it by the general registrar to the chief officer of election for each precinct. The list shall be attested by the secretary of the electoral board who shall be responsible for the delivery of the attested lists to the chief officer of election for each precinct.

Absentee ballots shall be accepted only from voters whose names appear on the attested list.

Before the polls close on the day of the election, the electoral board shall deliver the absentee ballot containers to, and obtain a receipt from, the officers of election at each appropriate precinct. Any ballot returned to the electoral board or general registrar prior to the closing of the polls, but after the ballot container has been delivered, shall be delivered in an appropriate container to the officers of election at each appropriate precinct. The containers shall be sealed prior to delivery to the officers and shall contain the sealed absentee ballots, the accompanying return envelopes, and a copy of the absentee voter applicant list for each precinct.

If the county or city uses a central absentee voter precinct pursuant to § 24.2-712, the lists and containers shall be delivered, as provided in this section, to the officers of election for the absentee precinct.

Before noon on the day following the election, the general registrar shall deliver all applications for absentee ballots for the election, under seal, to the clerk of the circuit court for the county or city, except that the general registrar may retain all applications for absentee ballots until the electoral board has ascertained the results of the election pursuant to § 24.2-671, and has determined the validity of and counted all provisional ballots pursuant to ~~§ 24.2-653~~ 24.2-653.01, at which point all applications shall then be delivered, under seal, to the clerk of the circuit court for the county or city. § 58.1-402. Virginia taxable income.

A. For purposes of this article, Virginia taxable income for a taxable year means the federal taxable income and any other income taxable to the corporation under federal law for such year of a corporation adjusted as provided in subsections B, C, D, E, and G.

For a regulated investment company and a real estate investment trust, such term means the "investment company taxable income" and "real estate investment trust taxable income," respectively, to which shall be added in each case any amount of capital gains and any other income taxable to the corporation under federal law which shall be further adjusted as provided in subsections B, C, D, E, and G.

B. There shall be added to the extent excluded from federal taxable income:

1. Interest, less related expenses to the extent not deducted in determining federal taxable income, on obligations of any state other than Virginia, or of a political subdivision of any such other state unless created by compact or agreement to which the Commonwealth is a party;

2. Interest or dividends, less related expenses to the extent not deducted in determining federal taxable income, on obligations or securities of any authority, commission or instrumentality of the United States, which the laws of the United States exempt from federal income tax but not from state income taxes;

3. [Repealed.]

4. The amount of any net income taxes and other taxes, including franchise and excise taxes, which are based on, measured by, or computed with reference to net income, imposed by the Commonwealth or any other taxing jurisdiction, to the extent deducted in determining federal taxable income;

5. Unrelated business taxable income as defined by § 512 of the Internal Revenue Code;

6. [Repealed.]

7. The amount required to be included in income for the purpose of computing the partial tax on an accumulation distribution pursuant to § 667 of the Internal Revenue Code;

8. a. For taxable years beginning on and after January 1, 2004, the amount of any intangible expenses and costs directly or indirectly paid, accrued, or incurred to, or in connection directly or indirectly with one or more direct or indirect transactions with one or more related members to the extent such expenses and costs were deductible or deducted in computing federal taxable income for Virginia purposes. This addition shall not be required for any portion of the intangible expenses and costs if one of the following applies:

(1) The corresponding item of income received by the related member is subject to a tax based on or measured by net income or capital imposed by Virginia, another state, or a foreign government that has entered into a comprehensive tax treaty with the United States government;

(2) The related member derives at least one-third of its gross revenues from the licensing of intangible property to parties who are not related members, and the transaction giving rise to the expenses and costs between the corporation and the related member was made at rates and terms comparable to the rates and terms of agreements that the related member has entered into with parties who are not related members for the licensing of intangible property; or

(3) The corporation can establish to the satisfaction of the Tax Commissioner that the intangible expenses and costs meet both of the following: (i) the related member during the same taxable year directly or indirectly paid, accrued or incurred such portion to a person who is not a related member, and (ii) the transaction giving rise to the intangible expenses and costs between the corporation and the related member did not have as a principal purpose the avoidance of any portion of the tax due under this chapter.

b. A corporation required to add to its federal taxable income intangible expenses and costs pursuant to subdivision a may petition the Tax Commissioner, after filing the related income tax return for the taxable year and remitting to the Tax Commissioner all taxes, penalties, and interest due under this article for such taxable year including tax upon any amount of

intangible expenses and costs required to be added to federal taxable income pursuant to subdivision a, to consider evidence relating to the transaction or transactions between the corporation and a related member or members that resulted in the corporation's taxable income being increased, as required under subdivision a, for such intangible expenses and costs.

If the corporation can demonstrate to the Tax Commissioner's sole satisfaction, by clear and convincing evidence, that the transaction or transactions between the corporation and a related member or members resulting in such increase in taxable income pursuant to subdivision a had a valid business purpose other than the avoidance or reduction of the tax due under this chapter, the Tax Commissioner shall permit the corporation to file an amended return. For purposes of such amended return, the requirements of subdivision a shall not apply to any transaction for which the Tax Commissioner is satisfied (and has identified) that the transaction had a valid business purpose other than the avoidance or reduction of the tax due under this chapter. Such amended return shall be filed by the corporation within one year of the written permission granted by the Tax Commissioner and any refund of the tax imposed under this article shall include interest at a rate equal to the rate of interest established under § 58.1-15 and such interest shall accrue as provided under § 58.1-1833. However, upon the filing of such amended return, any related member of the corporation that subtracted from taxable income amounts received pursuant to subdivision C 21 shall be subject to the tax imposed under this article on that portion of such amounts for which the corporation has filed an amended return pursuant to this subdivision. In addition, for such transactions identified by the Tax Commissioner herein by which he has been satisfied by clear and convincing evidence, the Tax Commissioner may permit the corporation in filing income tax returns for subsequent taxable years to deduct the related intangible expenses and costs without making the adjustment under subdivision a.

The Tax Commissioner may charge a fee for all direct and indirect costs relating to the review of any petition pursuant to this subdivision, to include costs necessary to secure outside experts in evaluating the petition. The Tax Commissioner may condition the review of any petition pursuant to this subdivision upon payment of such fee.

This addition shall not be required for any portion of the interest expenses and costs, if:

(1) The related member has substantial business operations relating to interest-generating activities, in which the related member pays expenses for at least five full-time employees who maintain, manage, defend or are otherwise responsible for operations or administration relating to the interest-generating activities; and

(2) The interest expenses and costs are not directly or indirectly for, related to or in connection with the direct or indirect acquisition, maintenance, management, sale, exchange, or disposition of intangible property; and

If the corporation can demonstrate to the Tax Commissioner's sole satisfaction, by clear and convincing evidence, that the transaction or transactions between the corporation and a related member or members resulting in such increase in

taxable income pursuant to subdivision a had a valid business purpose other than the avoidance or reduction of the tax due under this chapter and that the related payments between the parties were made at arm's length rates and terms, the Tax Commissioner shall permit the corporation to file an amended return. For purposes of such amended return, the requirements of subdivision a shall not apply to any transaction for which the Tax Commissioner is satisfied (and has identified) that the transaction had a valid business purpose other than the avoidance or reduction of the tax due under this chapter and that the related payments between the parties were made at arm's length rates and terms. However, upon the filing of such amended return, any related member of the corporation that subtracted from taxable income amounts received pursuant to subdivision C 21 shall be subject to the tax imposed under this article on that portion of such amounts for which the corporation has filed an amended return pursuant to this subdivision. In addition, for such transactions identified by the Tax Commissioner herein by which he has been satisfied by clear and convincing evidence, the Tax Commissioner may permit the corporation in filing income tax returns for subsequent taxable years to deduct the related interest expenses and costs without making the adjustment under subdivision a.

The Tax Commissioner may charge a fee for all direct and indirect costs relating to the review of any petition pursuant to this subdivision, to include costs necessary to secure outside experts in evaluating the petition. The Tax Commissioner may condition the review of any petition pursuant to this subdivision upon payment of such fee.

C. ~~For purposes of this section, "hate crime"~~ *As used in this section:*

"Disability" means a physical or mental impairment that substantially limits one or more of a person's major life activities.

"Hate crime" means (i) a criminal act committed against a person or his property with the specific intent of instilling fear or intimidation in the individual against whom the act is perpetrated because of race, religion, gender, disability, gender identity, sexual orientation, or ethnic or national origin or that is committed for the purpose of restraining that person from exercising his rights under the Constitution or laws of ~~this~~ the Commonwealth or of the United States; (ii) any illegal act directed against any persons or their property because of those persons' race, religion, gender, disability, gender identity, sexual orientation, or ethnic or national origin; and (iii) all other incidents, as determined by law-enforcement authorities, intended to intimidate or harass any individual or group because of race, religion, gender, disability, gender identity, sexual orientation, or ethnic or national origin.

2. That the provisions of this act may result in a net increase in periods of imprisonment or commitment. Pursuant to § 30-19.1:4 of the Code of Virginia, the estimated amount of the necessary appropriation cannot be determined for periods of imprisonment in state adult correctional facilities; therefore, Chapter 854 of the Acts of Assembly of 2019 requires the Virginia Criminal Sentencing Commission to assign a minimum fiscal impact of \$50,000. Pursuant to § 30-19.1:4 of the Code of Virginia, the estimated amount of the necessary appropriation cannot be determined for periods of commitment to the custody of the Department of Juvenile Justice.

3. That the provisions of this act shall not become effective unless an appropriation effectuating the purposes of this act is included in a general appropriation act passed in 2020 by the General Assembly that becomes law.

The disclosures required by this chapter shall be provided by the Real Estate Board on its website. *The disclosures shall be current as of the date of delivery. Nothing herein shall be construed to require the seller to provide subsequent delivery of additional disclosures if a transaction pursuant to a ratified real estate contract proceeds to settlement after the effective date of legislation amending any of the disclosures under this chapter, provided that the correct disclosures were delivered under the law in effect at the time of delivery.*

B. If the disclosures required by this chapter are delivered to the purchaser after ratification of the real estate purchase contract, the purchaser's sole remedy shall be to terminate the real estate purchase contract upon or prior to the earliest of (i) three days after delivery of the disclosure statement in person or by electronic delivery; (ii) five days after the postmark if the disclosure statement is deposited in the United States mail, postage prepaid, and properly addressed to the purchaser; (iii) settlement upon purchase of the property; (iv) occupancy of the property by the purchaser; (v) the purchaser's making written application to a lender for a mortgage loan where such application contains a disclosure that the right of termination shall end upon the application for the mortgage loan; or (vi) the execution by the purchaser after receiving the disclosure statement required by this chapter of a written waiver of the purchaser's right of termination under this chapter contained in a writing separate from the real estate purchase contract. CHAPTER 750

An Act to amend and reenact § 2.2-1617 of the Code of Virginia, relating to the Department of Small Business and Supplier Diversity; one-stop small business permitting program; guidance regarding responsibilities for maintaining a business.

[H 1221]

Approved April 6, 2020

Be it enacted by the General Assembly of Virginia:**1. That § 2.2-1617 of the Code of Virginia is amended and reenacted as follows:****§ 2.2-1617. One-stop small business permitting program.**

A. As used in this article, unless the context requires a different meaning:

"Business Permitting Center" or "Center" means the business registration and permitting center established by this section and located in and under the administrative control of the Department.

"Comprehensive application" means a document incorporating pertinent data from existing applications for permits covered under this section.

"Comprehensive permit" means the single document designed for public display issued by the Business Permitting Center that certifies state agency permit approval and that incorporates the endorsements for individual permits included in the comprehensive permitting program.

"Permit" means the whole or part of any state agency permit, license, certificate, approval, registration, charter, or any form or permission required by law, to engage in activity associated with or involving the establishment of a small business in the Commonwealth.

"Permit information packet" means a collection of information about permitting requirements and application procedures custom assembled for each request.

B. There is created within the Department the comprehensive permitting program (the Program). The Program is established to serve as a single access point to aid entrepreneurs in filling out the various permit applications associated with establishing a small business in Virginia. The Program in no way supersedes or supplants any regulatory authority granted to any state agency with permits covered by this section. As part of the Program, the Department shall coordinate with the regulatory agency, and the regulatory agency shall determine, consistent with applicable law, what types of permits are appropriate for inclusion in the Program as well as the rules governing the submission of and payment for those permits. The website of the Department shall provide access to information regarding the Program. The Department shall have the power and duty to:

1. Create a comprehensive application that will allow an entrepreneur, or an agent thereof, seeking to establish a small business, to create accounts that will allow them to acquire the appropriate permits required in the Commonwealth. The comprehensive application shall:

a. Allow the business owner to choose a business type and to provide common information, such as name, address, and telephone number, on the front page, eliminating the need to repeatedly provide common information on each permit application;

b. Allow the business owner to preview and answer questions related to the operation of the business;

c. Provide business owners with a customized to-do agency checklist, which checklist shall provide the permit applications pertinent to each business type and provide the rules, regulations, and general laws applicable to each business type as well as local licensing information;

d. Allow the business owner to submit permit applications by electronic means as authorized by § 59.1-496 and to affix thereto his electronic signature as defined in § 59.1-480;

e. Allow the business owner to check on the status of applications online and to receive information from the permitting agencies electronically; and

f. Allow a business owner to submit electronic payment of application or permitting fees for applications that have been accepted by the permitting agency.

2. Develop and administer a computerized system program capable of storing, retrieving, and exchanging permit information while protecting the confidentiality of information submitted to the Department to the extent allowable by law. Information submitted to the Department shall be subject to the provisions of the Virginia Freedom of Information Act (§ 2.2-3700 et seq.) as the same would apply were the information submitted directly to the Department or to any permitting agency.

3. Issue and renew comprehensive permits in an efficient manner.

4. Identify the types of permits appropriate for inclusion in the Program. The Department shall coordinate with the regulatory agency, and the regulatory agency shall determine, consistent with applicable law, what types of permits are appropriate for inclusion in the Program.

5. Incorporate permits into the Program.

6. Do all acts necessary or convenient to carry out the purposes of this chapter.

C. *Regulatory agencies shall, by November 30 of each year, provide the Department with information outlining any changes to the agency's policies and regulations.* The Business Permitting Center shall compile information regarding the regulatory programs associated with each of the permits obtainable under the Program. This information shall include, at a minimum, a listing of the statutes and administrative rules requiring the permits and pertaining to the regulatory programs that are directly related to the permit. The Center shall provide information governed by this section to any person requesting it. Materials used by the Center to describe the services provided by the Center shall indicate that this information is available upon request.

D. Each state agency shall cooperate and provide reasonable assistance to the Department in the implementation of this section.

E. The State Corporation Commission and the Department of Small Business and Supplier Diversity shall by January 1, 2020, establish one or more processes by which data or information relevant to the Program can be collected and exchanged electronically.

F. Any person requiring permits that have been incorporated into the Program may submit a comprehensive application to the Department requesting the issuance of the permits. The comprehensive application form shall contain in consolidated form information necessary for the issuance of the permits.

G. The applicant, if not a veteran, shall include with the application the handling fee established by the Department. An applicant who is a veteran shall be exempt from payment of the handling fee prescribed by this subsection. The amount of the handling fee assessed against the applicant shall be set by the Department at a level necessary to cover the costs of administering the comprehensive permitting program.

H. The authority for approving the issuance and renewal of any requested permit that requires investigation, inspection, testing, or other judgmental review by the regulatory agency otherwise legally authorized to issue the permit shall remain with that agency. The Center may issue those permits for which proper fee payment and a completed application form have been received and for which no approval action is required by the regulatory agency.

I. Upon receipt of the application, and proper fee payment for any permit for which issuance is subject to regulatory agency action under subsection H, the Department shall immediately notify the State Corporation Commission or the regulatory agency with authority to approve the permit issuance or renewal requested by the applicant. The State Corporation Commission or the regulatory agency shall advise the Department within a reasonable time after receiving the notice of one of the following:

1. That the State Corporation Commission or the regulatory agency approves the issuance of the requested permit and will advise the applicant of any specific conditions required for issuing the permit;

2. That the State Corporation Commission or the regulatory agency denies the issuance of the permit and gives the applicant reasons for the denial;

3. That the application is pending; or

4. That the application is incomplete and further information from or action by the applicant is necessary.

J. The Department shall issue a comprehensive permit endorsed for all the approved permits to the applicant and advise the applicant of the status of other requested permits. The applicant shall be responsible for contesting any decision regarding conditions imposed or permits denied through the normal process established by statute or by the State Corporation Commission or the regulatory agency with the authority for approving the issuance of the permit.

K. Regulatory agencies shall be provided information from the comprehensive application for their permitting and regulatory functions.

L. The Department shall be responsible for directing the applicant to make all payments for applicable fees established by the regulatory agency directly to the proper agency.

M. There is hereby created in the state treasury a special nonreverting fund to be known as the Comprehensive Permitting Fund, hereafter referred to as "the Fund." The Fund shall be established on the books of the Comptroller. The Fund shall consist of all moneys collected from the handling fee established by the Department pursuant to subsection G and such other funds as may be appropriated by the General Assembly. Interest earned on moneys in the Fund shall remain in the Fund and be credited to it. Any moneys remaining in the Fund, including interest thereon, at the end of each fiscal year shall not revert to the general fund but shall remain in the Fund. Moneys in the Fund shall be used solely to administer the Program. Expenditures and disbursements from the Fund shall be made by the State Treasurer on warrants issued by the Comptroller upon written request signed by the Director of the Department.

N. Unless otherwise directed by the regulatory agency, the Department shall not issue or renew a comprehensive permit to any person under any of the following circumstances:

1. The person does not have a valid tax registration, if required;
2. The person is a corporation, limited liability company, business trust, limited partnership, or registered limited liability partnership that (i) is delinquent in the payment of fees or penalties collected by the State Corporation Commission pursuant to the business entity statutes it administers, (ii) does not exist, or (iii) is not authorized to transact business in the Commonwealth pursuant to one of the business entity statutes administered by the State Corporation Commission; or
3. The person has not submitted the sum of all fees and deposits required for the requested individual permit endorsements, any outstanding comprehensive permit delinquency fee, or other fees and penalties to be collected through the comprehensive permitting program.

O. *The Department shall develop and provide guidance to businesses with newly approved permits regarding responsibilities and requirements for maintaining such business. Such guidance shall include information regarding sales tax and unemployment tax requirements, workers' compensation insurance requirements, and postings required by the Virginia Department of Labor and Industry and the U.S. Department of Labor. Any guidance provided for in this subsection may be provided electronically.*

P. The Department may adopt regulations in accordance with § 2.2-1606 as may be necessary to carry out the purposes of this section.

2. That the provisions of this act shall become effective on July 1, 2021.

CHAPTER 751

An Act to amend and reenact §§ 55.1-1308, 55.1-1309, 55.1-1311, and 55.1-1316 of the Code of Virginia and to amend the Code of Virginia by adding a section numbered 55.1-1308.1, relating to Manufactured Home Lot Rental Act; manufactured home park; termination due to sale of park; notice.

[H 1249]

Approved April 6, 2020

Be it enacted by the General Assembly of Virginia:

1. That §§ 55.1-1308, 55.1-1309, 55.1-1311, and 55.1-1316 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding a section numbered 55.1-1308.1 as follows:

§ 55.1-1308. Termination of tenancy.

A. Either party may terminate a rental agreement with a term of 60 days or more by giving written notice to the other at least 60 days prior to the termination date; however, the rental agreement may require a longer period of notice. Notwithstanding the provisions of this section, where a landlord and seller of a manufactured home have in common (i) one or more owners, (ii) immediate family members, or (iii) officers or directors, the rental agreement shall be renewed except for reasons that would justify a termination of the rental agreement or eviction by the landlord as authorized by this chapter. A landlord may not cause the eviction of a tenant by willfully interrupting gas, electricity, water, or any other essential service, or by removal of the manufactured home from the manufactured home lot, or by any other willful self-help measure.

B. If the termination is due to ~~rehabilitation or~~ a change in the use of all or any part of a manufactured home park by the landlord, *including conversion to hotel, motel, or other commercial use, planned unit development, rehabilitation, or demolition*, a 180-day written notice is required to terminate a rental agreement. ~~As used in this subsection, "change" includes conversion to hotel, motel, or other commercial use; planned unit development; rehabilitation; demolition; or sale to a contract purchaser. This 180-day~~ Such termination notice requirement shall not be waived; however, a period of less than 180 days may be agreed upon by both the landlord and tenant in a written agreement separate from the rental agreement executed after such notice is given ~~and applicable only to the 180-day notice period.~~ *The notice required by this section may be sent concurrently with the notice of intent to sell required by § 55.1-1308.1.*

§ 55.1-1308.1. Notice of intent to sell.

A. *A manufactured home park owner who offers or lists the park for sale to a third party shall provide written notice containing the date on which the notice is sent and the price for which the park is to be offered or listed for sale. Such notice shall be sent to the Department of Housing and Community Development, which shall make the information available on its website within five business days of receipt. Such written notice shall also be given to each tenant of the manufactured home park, in accordance with § 55.1-1202, at least 90 days prior to accepting an offer. A manufactured home park owner shall consider any offers to purchase received during such 90-day notice period. For purposes of this section, "third party" does not include a member of the manufactured park owner's family by blood or marriage or a person or entity that owns a portion of the park at the time of the offer or listing of such manufactured home park. Nothing shall be construed to require any subsequent notice by the manufactured home park owner after the written notice provided in this section.*

B. *If a manufactured home park owner receives an offer to purchase the park, acceptance of that offer shall be contingent upon the park owner sending written notice of the proposed sale and the purchase price in the real estate purchase contract at least 60 days before the closing date on such purchase contract to the Department of Housing and Community Development, which shall place the information on its website within five business days of receipt. Such written*

notice shall also be given to each tenant of the manufactured home park. During the 60-day notice period, the park owner shall consider additional offers to purchase the park made by an entity that provides documentation that it represents at least 25 percent of the tenants with a valid lease in the manufactured home park at the time any such offer is made, but shall not be obligated to consider additional offers after the expiration of the 60-day notice period. Nothing shall be construed to require any subsequent notice by the manufactured home park owner after provision of the written notice required by this section.

§ 55.1-1309. Waiver of landlord's right to terminate.

Unless the landlord accepts the rent with reservation, and gives a written notice to the tenant of such acceptance within five business days of receipt of the rent, acceptance of periodic rent payments with knowledge in fact of a material noncompliance by the tenant shall constitute a waiver of the landlord's right to terminate the rental agreement. Except as provided in ~~§ 55.1-1423~~ 55.1-1250, if the landlord has given the tenant written notice that the rent payments have been accepted with reservation, the landlord may accept full payment of all rent payments and still be entitled to receive an order of possession terminating the rental agreement.

§ 55.1-1311. Other provisions of law applicable.

~~Sections~~ Section 55.1-1202, subsection A of § 55.1-1204, §§ 55.1-1207, 55.1-1208, 55.1-1216, 55.1-1224, 55.1-1226, 55.1-1228, 55.1-1234 through 55.1-1249, 55.1-1251, 55.1-1252, and 55.1-1259 shall, insofar as they are not inconsistent with this chapter, apply, mutatis mutandis, to the rental and occupancy of a manufactured home lot.

§ 55.1-1316. Right to sell or rent manufactured home upon eviction.

A. A tenant who has been evicted from a manufactured home park shall have 90 days after judgment has been entered in which to sell the manufactured home or remove the manufactured home from the manufactured home park. Such tenant shall be responsible for paying the rental amount and for regular maintenance of the manufactured home lot during the period between the date of eviction and the sale of the manufactured home or the removal of the manufactured home from the manufactured home park. Such right to keep the manufactured home in the manufactured home park shall be conditioned upon the payment of all rent accrued prior to the date of judgment and prospective monthly rent as it becomes due. During such term, a secured party shall be liable for such charges as provided in § 55.1-1305. The manufactured home park owner shall have a lien on the manufactured home to the extent that such rental payments are not made. Any sale of the manufactured home shall be subject to the rights of any secured party having a security interest in the home, and the lien granted to the manufactured home park owner under this section shall be subject to any such security interest.

B. *A tenant who has been evicted from a manufactured home park shall have 90 days from after the judgment has been entered by a court of competent jurisdiction in which to rent the manufactured home to a subtenant, contingent on the subtenant making a rental application to the manufactured home park owner within such 90-day period and approval by the manufactured home park owner of such rental application from the subtenant. The tenant of the lot shall be responsible for paying the lot rent amount to the park owner and for regular maintenance of the manufactured home lot during the period between the date of eviction and any rental of the manufactured home to a subtenant. Such right to keep the manufactured home on the lot in the manufactured home park shall be conditioned upon the payment of all rent accrued prior to the date of judgment and prospective monthly rent as it becomes due. During such term, a secured party shall be liable for such charges as provided in § 55.1-1305.*

CHAPTER 752

An Act to amend and reenact § 56-585.1:9 of the Code of Virginia, relating to electric utilities; broadband capacity pilot program.

[H 1280]

Approved April 6, 2020

Be it enacted by the General Assembly of Virginia:

1. That § 56-585.1:9 of the Code of Virginia is amended and reenacted as follows:

§ 56-585.1:9. Pilot program for broadband capacity to unserved areas of the Commonwealth.

A. The Commission shall establish pilot programs under which each Phase I Utility and each Phase II Utility, as such are defined in subdivision A 1 of § 56-585.1, may submit one or more petitions to provide or make available broadband capacity to nongovernmental Internet service providers in areas of the Commonwealth unserved by broadband. Any such petitions that a Phase I Utility submits shall not exceed \$60 million in costs annually. Any such petitions that a Phase II Utility submits shall not exceed \$60 million in costs annually. The provision of such broadband capacity to nongovernmental Internet service providers in areas of the Commonwealth unserved by broadband pursuant to this section is in the public interest.

B. The incremental costs of providing broadband capacity pursuant to any such pilot program, net of revenue generated therefrom, shall be eligible for recovery from customers as an electric grid transformation project pursuant to clause (vi) of subdivision A 6 of § 56-585.1 filed on or after July 1, 2020.

C. Notwithstanding the provisions of § 13.1-620 or the articles of incorporation of an investor-owned utility, an investor-owned utility may, either directly or through an affiliate or subsidiary, pursuant to a pilot program that the Commissioner approves pursuant to this section, (i) own, manage, or control any broadband capacity equipment and

electronics, including any plant, works, system, lines, facilities, or properties, or any part or parts thereof, together with all appurtenances thereto, used or useful in connection with the provision and extension of such broadband services; (ii) lease indefeasible rights of use in such broadband capacity equipment and electronics to nongovernmental Internet service providers in areas of the Commonwealth unserved by broadband pursuant to this section; and (iii) provide access points that are outside the utility's energized zone to allow connection between the utility's broadband capacity system and the nongovernmental Internet service provider's system.

D. Each petition to provide broadband capacity pursuant to this section that an investor-owned utility submits to the Commission shall identify the nongovernmental Internet service provider to which the utility shall lease such capacity, together with the area to be served using such capacity. The Commission shall, after notice and opportunity for hearing, initiate proceedings to review each petition submitted. In determining whether an area is unserved by broadband, the Commission shall take into account the impact of any grants or loans made to provide broadband access to the designated area. The Commission's final order regarding any such petition shall be entered by the Commission not more than six months after the date of the filing of such petition. The Commission shall condition any approval of such petition on the requirement that construction shall commence within three years of such approval. If the utility fails to commence construction within such period, the utility may resubmit the petition for Commission approval.

E. An investor-owned utility shall be responsible to obtain all necessary rights-of-way or other easements or real property rights to permit leasing of broadband capacity to nongovernmental Internet service providers. A nongovernmental Internet service provider shall be responsible to obtain all necessary rights-of-way or other easements or real property rights from utility access point to permit the provision of broadband services to end-user customers.

F. As used in this section:

"Broadband" means Internet access at speeds greater than 10 MBps download speed and one MBps upload speed, provided that the Department of Housing and Community Development for its Virginia Telecommunication Initiative may by guideline modify such speeds from time to time.

"Unserved by broadband" means a designated area in which less than 10 percent of residential and commercial units are capable of receiving broadband service, provided that the Department of Housing and Community Development for its Virginia Telecommunication Initiative may by guideline increase such percentage from time to time.

G. No investor-owned utility nor any affiliate thereof may offer broadband or Internet service provider services to residential or commercial end-user customers in the Commonwealth pursuant to this section. Nothing in this section shall be construed to prevent an investor-owned utility or an affiliate thereof from providing transport of or capacity for broadband or Internet service as a wholesaler or intermediate vendor, provided that an unaffiliated nongovernmental third party is the provider of broadband or Internet services to the end-user customer.

H. The provision and extension of broadband capacity by an incumbent electric utility to an area of the Commonwealth unserved by broadband pursuant to a pilot program that the Commission approves pursuant to this section, including any business activity related to the construction or leasing of broadband capacity facilities, shall be exempt from any rules and regulations that the Commission has promulgated or may promulgate governing functional separation of generation, retail transmission, and distribution of incumbent electric utilities. Investor-owned electric utilities may for the purposes of this section engage in such coordination between and among their various corporate divisions as necessary for the purposes of providing broadband capacity to an area of the Commonwealth unserved by broadband.

I. The pilot program established pursuant to this section shall continue for the three-year period ending three years following the date the Commission approves the first petition to provide broadband capacity pursuant to this section, unless the Commission extends the pilot program or makes the pilot program permanent. At the termination of the pilot program, a utility shall continue to provide broadband capacity pursuant to leases existing as of the date of such termination.

J. Notwithstanding the provisions of § 13.1-620 or the articles of incorporation of an investor-owned utility, an investor-owned utility may, either directly or through an affiliate or subsidiary, lease to any third party that is a wholesaler and that is not a government-owned broadband authority, for the purposes of providing broadband connectivity. The leases may, if the parties choose, extend in length beyond the end of the pilot program, notwithstanding any Commission order issued pursuant to subsection I terminating the pilot program. The revenues generated from such leases shall offset (i) the incremental costs of the pilot program recovered through the rate adjustment clause described in subsection B or (ii) the utility's electric cost of service.

CHAPTER 753

An Act to amend and reenact § 16.1-260 of the Code of Virginia, relating to juvenile and domestic relations district court; intake.

[H 1324]

Approved April 6, 2020

Be it enacted by the General Assembly of Virginia:

1. That § 16.1-260 of the Code of Virginia is amended and reenacted as follows:

§ 16.1-260. Intake; petition; investigation.

A. All matters alleged to be within the jurisdiction of the court shall be commenced by the filing of a petition, except as provided in subsection H and in § 16.1-259. The form and content of the petition shall be as provided in § 16.1-262. No individual shall be required to obtain support services from the Department of Social Services prior to filing a petition seeking support for a child. Complaints, requests, and the processing of petitions to initiate a case shall be the responsibility of the intake officer. However, (i) the attorney for the Commonwealth of the city or county may file a petition on his own motion with the clerk; (ii) designated nonattorney employees of the Department of Social Services may complete, sign, and file petitions and motions relating to the establishment, modification, or enforcement of support on forms approved by the Supreme Court of Virginia with the clerk; (iii) designated nonattorney employees of a local department of social services may complete, sign, and file with the clerk, on forms approved by the Supreme Court of Virginia, petitions for foster care review, petitions for permanency planning hearings, petitions to establish paternity, motions to establish or modify support, motions to amend or review an order, and motions for a rule to show cause; and (iv) any attorney may file petitions on behalf of his client with the clerk except petitions alleging that the subject of the petition is a child alleged to be in need of services, in need of supervision, or delinquent. Complaints alleging abuse or neglect of a child shall be referred initially to the local department of social services in accordance with the provisions of Chapter 15 (§ 63.2-1500 et seq.) of Title 63.2. Motions and other subsequent pleadings in a case shall be filed directly with the clerk. The intake officer or clerk with whom the petition or motion is filed shall inquire whether the petitioner is receiving child support services or public assistance. No individual who is receiving support services or public assistance shall be denied the right to file a petition or motion to establish, modify, or enforce an order for support of a child. If the petitioner is seeking or receiving child support services or public assistance, the clerk, upon issuance of process, shall forward a copy of the petition or motion, together with notice of the court date, to the Division of Child Support Enforcement.

B. The appearance of a child before an intake officer may be by (i) personal appearance before the intake officer or (ii) use of two-way electronic video and audio communication. If two-way electronic video and audio communication is used, an intake officer may exercise all powers conferred by law. All communications and proceedings shall be conducted in the same manner as if the appearance were in person, and any documents filed may be transmitted by facsimile process. The facsimile may be served or executed by the officer or person to whom sent, and returned in the same manner, and with the same force, effect, authority, and liability as an original document. All signatures thereon shall be treated as original signatures. Any two-way electronic video and audio communication system used for an appearance shall meet the standards as set forth in subsection B of § 19.2-3.1.

When the court service unit of any court receives a complaint alleging facts which may be sufficient to invoke the jurisdiction of the court pursuant to § 16.1-241, the unit, through an intake officer, may proceed informally to make such adjustment as is practicable without the filing of a petition or may authorize a petition to be filed by any complainant having sufficient knowledge of the matter to establish probable cause for the issuance of the petition.

An intake officer may proceed informally on a complaint alleging a child is in need of services, in need of supervision, or delinquent only if the juvenile (i) is not alleged to have committed a violent juvenile felony or (ii) has not previously been proceeded against informally or adjudicated delinquent for an offense that would be a felony if committed by an adult. A petition alleging that a juvenile committed a violent juvenile felony shall be filed with the court. A petition alleging that a juvenile is delinquent for an offense that would be a felony if committed by an adult shall be filed with the court if the juvenile had previously been proceeded against informally by intake or had been adjudicated delinquent for an offense that would be a felony if committed by an adult.

If a juvenile is alleged to be a truant pursuant to a complaint filed in accordance with § 22.1-258 and the attendance officer has provided documentation to the intake officer that the relevant school division has complied with the provisions of § 22.1-258, then the intake officer shall file a petition with the court. The intake officer may defer filing the ~~complaint for 90 days~~ petition and proceed informally by developing a truancy plan, provided that (a) the juvenile has not previously been proceeded against informally or adjudicated in need of supervision on more than two occasions for failure to comply with compulsory school attendance as provided in § 22.1-254 and (b) the immediately previous informal action or adjudication occurred at least three calendar years prior to the current complaint. The juvenile and his parent or parents, guardian, or other person standing in loco parentis must agree, in writing, for the development of a truancy plan. The truancy plan may include requirements that the juvenile and his parent or parents, guardian, or other person standing in loco parentis participate in such programs, cooperate in such treatment, or be subject to such conditions and limitations as necessary to ensure the juvenile's compliance with compulsory school attendance as provided in § 22.1-254. The intake officer may refer the juvenile to the appropriate public agency for the purpose of developing a truancy plan using an interagency interdisciplinary team approach. The team may include qualified personnel who are reasonably available from the appropriate department of social services, community services board, local school division, court service unit, and other appropriate and available public and private agencies and may be the family assessment and planning team established pursuant to § 2.2-5207. If at the end of the ~~90-day~~ deferral period the juvenile has not successfully completed the truancy plan or the truancy program, then the intake officer shall file the petition.

Whenever informal action is taken as provided in this subsection on a complaint alleging that a child is in need of services, in need of supervision, or delinquent, the intake officer shall (1) develop a plan for the juvenile, which may include restitution and the performance of community service, based upon community resources and the circumstances which resulted in the complaint, (2) create an official record of the action taken by the intake officer and file such record in the juvenile's case file, and (3) advise the juvenile and the juvenile's parent, guardian, or other person standing in loco parentis

and the complainant that any subsequent complaint alleging that the child is in need of supervision or delinquent based upon facts which may be sufficient to invoke the jurisdiction of the court pursuant to § 16.1-241 ~~will~~ may result in the filing of a petition with the court.

C. The intake officer shall accept and file a petition in which it is alleged that (i) the custody, visitation, or support of a child is the subject of controversy or requires determination, (ii) a person has deserted, abandoned, or failed to provide support for any person in violation of law, (iii) a child or such child's parent, guardian, legal custodian, or other person standing in loco parentis is entitled to treatment, rehabilitation, or other services which are required by law, (iv) family abuse has occurred and a protective order is being sought pursuant to § 16.1-253.1, 16.1-253.4, or 16.1-279.1, or (v) an act of violence, force, or threat has occurred, a protective order is being sought pursuant to § 19.2-152.8, 19.2-152.9, or 19.2-152.10, and either the alleged victim or the respondent is a juvenile. If any such complainant does not file a petition, the intake officer may file it. In cases in which a child is alleged to be abused, neglected, in need of services, in need of supervision, or delinquent, if the intake officer believes that probable cause does not exist, or that the authorization of a petition will not be in the best interest of the family or juvenile or that the matter may be effectively dealt with by some agency other than the court, he may refuse to authorize the filing of a petition. The intake officer shall provide to a person seeking a protective order pursuant to § 16.1-253.1, 16.1-253.4, or 16.1-279.1 a written explanation of the conditions, procedures and time limits applicable to the issuance of protective orders pursuant to § 16.1-253.1, 16.1-253.4, or 16.1-279.1. If the person is seeking a protective order pursuant to § 19.2-152.8, 19.2-152.9, or 19.2-152.10, the intake officer shall provide a written explanation of the conditions, procedures, and time limits applicable to the issuance of protective orders pursuant to § 19.2-152.8, 19.2-152.9, or 19.2-152.10.

D. Prior to the filing of any petition alleging that a child is in need of supervision, the matter shall be reviewed by an intake officer who shall determine whether the petitioner and the child alleged to be in need of supervision have utilized or attempted to utilize treatment and services available in the community and have exhausted all appropriate nonjudicial remedies which are available to them. When the intake officer determines that the parties have not attempted to utilize available treatment or services or have not exhausted all appropriate nonjudicial remedies which are available, he shall refer the petitioner and the child alleged to be in need of supervision to the appropriate agency, treatment facility, or individual to receive treatment or services, and a petition shall not be filed. Only after the intake officer determines that the parties have made a reasonable effort to utilize available community treatment or services may he permit the petition to be filed.

E. If the intake officer refuses to authorize a petition relating to an offense that if committed by an adult would be punishable as a Class 1 misdemeanor or as a felony, the complainant shall be notified in writing at that time of the complainant's right to apply to a magistrate for a warrant. If a magistrate determines that probable cause exists, he shall issue a warrant returnable to the juvenile and domestic relations district court. The warrant shall be delivered forthwith to the juvenile court, and the intake officer shall accept and file a petition founded upon the warrant. If the court is closed and the magistrate finds that the criteria for detention or shelter care set forth in § 16.1-248.1 have been satisfied, the juvenile may be detained pursuant to the warrant issued in accordance with this subsection. If the intake officer refuses to authorize a petition relating to a child in need of services or in need of supervision, a status offense, or a misdemeanor other than Class 1, his decision is final.

Upon delivery to the juvenile court of a warrant issued pursuant to subdivision 2 of § 16.1-256, the intake officer shall accept and file a petition founded upon the warrant.

F. The intake officer shall notify the attorney for the Commonwealth of the filing of any petition which alleges facts of an offense which would be a felony if committed by an adult.

G. Notwithstanding the provisions of Article 12 (§ 16.1-299 et seq.), the intake officer shall file a report with the division superintendent of the school division in which any student who is the subject of a petition alleging that such student who is a juvenile has committed an act, wherever committed, which would be a crime if committed by an adult, or that such student who is an adult has committed a crime and is alleged to be within the jurisdiction of the court. The report shall notify the division superintendent of the filing of the petition and the nature of the offense, if the violation involves:

1. A firearm offense pursuant to Article 4 (§ 18.2-279 et seq.), 5 (§ 18.2-288 et seq.), 6 (§ 18.2-299 et seq.), 6.1 (§ 18.2-307.1 et seq.), or 7 (§ 18.2-308.1 et seq.) of Chapter 7 of Title 18.2;
2. Homicide, pursuant to Article 1 (§ 18.2-30 et seq.) of Chapter 4 of Title 18.2;
3. Felonious assault and bodily wounding, pursuant to Article 4 (§ 18.2-51 et seq.) of Chapter 4 of Title 18.2;
4. Criminal sexual assault, pursuant to Article 7 (§ 18.2-61 et seq.) of Chapter 4 of Title 18.2;
5. Manufacture, sale, gift, distribution or possession of Schedule I or II controlled substances, pursuant to Article 1 (§ 18.2-247 et seq.) of Chapter 7 of Title 18.2;
6. Manufacture, sale or distribution of marijuana pursuant to Article 1 (§ 18.2-247 et seq.) of Chapter 7 of Title 18.2;
7. Arson and related crimes, pursuant to Article 1 (§ 18.2-77 et seq.) of Chapter 5 of Title 18.2;
8. Burglary and related offenses, pursuant to §§ 18.2-89 through 18.2-93;
9. Robbery pursuant to § 18.2-58;
10. Prohibited criminal street gang activity pursuant to § 18.2-46.2;
11. Recruitment of other juveniles for a criminal street gang activity pursuant to § 18.2-46.3;
12. An act of violence by a mob pursuant to § 18.2-42.1;
13. Abduction of any person pursuant to § 18.2-47 or 18.2-48; or
14. A threat pursuant to § 18.2-60.

The failure to provide information regarding the school in which the student who is the subject of the petition may be enrolled shall not be grounds for refusing to file a petition.

The information provided to a division superintendent pursuant to this section may be disclosed only as provided in § 16.1-305.2.

H. The filing of a petition shall not be necessary:

1. In the case of violations of the traffic laws, including offenses involving bicycles, hitchhiking and other pedestrian offenses, game and fish laws, or a violation of the ordinance of any city regulating surfing or any ordinance establishing curfew violations, animal control violations, or littering violations. In such cases the court may proceed on a summons issued by the officer investigating the violation in the same manner as provided by law for adults. Additionally, an officer investigating a motor vehicle accident may, at the scene of the accident or at any other location where a juvenile who is involved in such an accident may be located, proceed on a summons in lieu of filing a petition.

2. In the case of seeking consent to apply for the issuance of a work permit pursuant to subsection H of § 16.1-241.

3. In the case of a misdemeanor violation of § 18.2-250.1, 18.2-266, 18.2-266.1, or 29.1-738, or the commission of any other alcohol-related offense, provided the juvenile is released to the custody of a parent or legal guardian pending the initial court date. The officer releasing a juvenile to the custody of a parent or legal guardian shall issue a summons to the juvenile and shall also issue a summons requiring the parent or legal guardian to appear before the court with the juvenile. Disposition of the charge shall be in the manner provided in § 16.1-278.8, 16.1-278.8:01, or 16.1-278.9. If the juvenile so charged with a violation of § 18.2-51.4, 18.2-266, 18.2-266.1, 18.2-272, or 29.1-738 refuses to provide a sample of blood or breath or samples of both blood and breath for chemical analysis pursuant to §§ 18.2-268.1 through 18.2-268.12 or 29.1-738.2, the provisions of these sections shall be followed except that the magistrate shall authorize execution of the warrant as a summons. The summons shall be served on a parent or legal guardian and the juvenile, and a copy of the summons shall be forwarded to the court in which the violation is to be tried. When a violation of § 4.1-305 or 18.2-250.1 is charged by summons, the juvenile shall be entitled to have the charge referred to intake for consideration of informal proceedings pursuant to subsection B, provided such right is exercised by written notification to the clerk not later than 10 days prior to trial. At the time such summons alleging a violation of § 4.1-305 or 18.2-250.1 is served, the officer shall also serve upon the juvenile written notice of the right to have the charge referred to intake on a form approved by the Supreme Court and make return of such service to the court. If the officer fails to make such service or return, the court shall dismiss the summons without prejudice.

4. In the case of offenses which, if committed by an adult, would be punishable as a Class 3 or Class 4 misdemeanor. In such cases the court may direct that an intake officer proceed as provided in § 16.1-237 on a summons issued by the officer investigating the violation in the same manner as provided by law for adults provided that notice of the summons to appear is mailed by the investigating officer within five days of the issuance of the summons to a parent or legal guardian of the juvenile.

I. Failure to comply with the procedures set forth in this section shall not divest the juvenile court of the jurisdiction granted it in § 16.1-241.

CHAPTER 22.14.

§ 59.1-284.33. Definitions.

A. As used in this section, unless the context requires a different meaning:

"Capital investment" means an expenditure by or on behalf of a qualified company on or after March 1, 2019, in real property, tangible personal property, or both, at a facility in an eligible county that is properly chargeable to a capital account or would be so chargeable with a proper election. The purchase or lease of furniture; fixtures; business personal property; machinery and tools, including under an operating lease; and expected building expansion and up-fit by or on behalf of a qualified company shall qualify as capital investment.

"Eligible county" means Rockingham County.

"Facility" means the building, group of buildings, or corporate campus, including any related machinery and tools, furniture, fixtures, and business personal property, that is located at or near a qualified company's existing operations in an eligible county and is owned, leased, licensed, occupied, or otherwise operated by a qualified company for use in the administration, management, and operation of its business.

"Fund" means the Pharmaceutical Manufacturing Grant Fund.

"Grants" means grants from the Fund awarded to a qualified company in an aggregate not to exceed \$7.5 million, intended to be used to pay or reimburse a qualified company for the costs of workforce recruitment, development, and training, and for stormwater management. A qualified company may use the grant payment for any lawful purpose.

"Memorandum of understanding" means a performance agreement or related document entered into on or before August 1, 2020, by a qualified company, the Commonwealth, and VEDP, that sets forth the requirements for capital investment and the creation of new full-time jobs by a qualified company in order for a qualified company to be eligible for grants from the Fund.

"New full-time job" means a job position, in which the employee of a qualified company works at a facility, for which the average annual wage is at least \$100,000 and the qualified company provides standard fringe benefits. Such position shall require a minimum of either (i) 35 hours of an employee's time per week for the entire normal year of the qualified company's operations, which "normal year" shall consist of at least 48 weeks, or (ii) 1,680 hours per year. Seasonal or temporary positions, and positions created when a job function is shifted from an existing location in the Commonwealth, shall not qualify as new full-time jobs. "New full-time job" shall not include any existing full-time positions at the facility as of March 1, 2019. The Commonwealth may gauge compliance with the new full-time job requirements for a qualified company by reference to the new payroll generated by a qualified company, as indicated in the memorandum of understanding.

"Qualified company" means a company, including its affiliates, that engages in pharmaceutical manufacturing in an eligible county and that, between March 1, 2019, and February 28, 2025, is expected to make (i) a capital investment of at least \$1 billion and (ii) create at least 152 new full-time jobs related to, or supportive of, its business.

Grants paid pursuant to this section shall be subject to appropriation by the General Assembly during each such fiscal year and are contingent on a qualified company meeting the requirements set forth in this chapter and the memorandum of understanding for the number of new full-time jobs created and maintained and the amount of capital investment made. The first grant payment of \$2.5 million shall not be awarded until a qualified company has made a capital investment of at least \$420 million and has created at least 85 new full-time jobs.

The application and evidence shall be filed with the Secretary in person, by mail, or as otherwise agreed upon in a memorandum of understanding no later than June 1 each year reflecting performance through the last day of the prior February. Failure to meet the filing deadline shall result in a deferral of a scheduled grant installment payment set forth in subsection C. For filings by mail, the postmark cancellation shall govern the date of the filing determination.

E. Within 60 days of receiving an application and evidence pursuant to subsection D, the Secretary shall certify to the Comptroller and the qualified company the amount of grants to which such qualified company is entitled for payment. Payment of such grants shall be made by check issued by the State Treasurer on warrant of the Comptroller in the

Commonwealth's fiscal year following the submission of an application. The Comptroller shall not draw any warrant to issue checks for grants without a specific appropriation for the same.

F. As a condition of receipt of grants under this section, a qualified company shall make available to the Secretary for inspection, upon request, all documents relevant and applicable to determining whether the qualified company has met the requirements for receipt of a grant as set forth in this section and subject to a memorandum of understanding. C. Decisions regarding the application and awarding of funds shall be determined annually by the Secretary of Commerce and Trade, upon the recommendation of the President and Chief Executive Officer of VEDP, the Chancellor of the Virginia Community College System or his designee, and the Director of the State Council of Higher Education for Virginia or his designee. CHAPTER 761

An Act to amend and reenact § 15.2-2204 of the Code of Virginia, relating to notice by localities.

[S 869]

Approved April 6, 2020

Be it enacted by the General Assembly of Virginia:

1. That § 15.2-2204 of the Code of Virginia is amended and reenacted as follows:

§ 15.2-2204. Advertisement of plans, ordinances, etc.; joint public hearings; written notice of certain amendments.

A. Plans or ordinances, or amendments thereof, recommended or adopted under the powers conferred by this chapter need not be advertised in full, but may be advertised by reference. Every such advertisement shall contain a descriptive summary of the proposed action and a reference to the place or places within the locality where copies of the proposed plans, ordinances or amendments may be examined.

The local planning commission shall not recommend nor the governing body adopt any plan, ordinance or amendment thereof until notice of intention to do so has been published once a week for two successive weeks in some newspaper published or having general circulation in the locality; however, the notice for both the local planning commission and the governing body may be published concurrently. The notice shall specify the time and place of hearing at which persons affected may appear and present their views, not less than five days nor more than 21 days after the second advertisement appears in such newspaper. The local planning commission and governing body may hold a joint public hearing after public notice as set forth hereinabove. If a joint hearing is held, then public notice as set forth above need be given only by the governing body. The term "two successive weeks" as used in this paragraph shall mean that such notice shall be published at least twice in such newspaper with not less than six days elapsing between the first and second publication. *In any instance in which a locality in Planning District 23 has submitted a timely notice request to such newspaper and the newspaper fails to publish the notice, such locality shall be deemed to have met the notice requirements of this subsection so long as the notice was published in the next available edition of a newspaper having general circulation in the locality.* After enactment of any plan, ordinance or amendment, further publication thereof shall not be required.

B. When a proposed amendment of the zoning ordinance involves a change in the zoning map classification of 25 or fewer parcels of land, then, in addition to the advertising as required by subsection A, written notice shall be given by the local planning commission, or its representative, at least five days before the hearing to the owner or owners, their agent or the occupant, of each parcel involved; to the owners, their agent or the occupant, of all abutting property and property immediately across the street or road from the property affected, including those parcels which lie in other localities of the Commonwealth; and, if any portion of the affected property is within a planned unit development, then to such incorporated property owner's associations within the planned unit development that have members owning property located within 2,000 feet of the affected property as may be required by the commission or its agent. However, when a proposed amendment to the zoning ordinance involves a tract of land not less than 500 acres owned by the Commonwealth or by the federal government, and when the proposed change affects only a portion of the larger tract, notice need be given only to the owners of those properties that are adjacent to the affected area of the larger tract. Notice sent by registered or certified mail to the last known address of such owner as shown on the current real estate tax assessment books or current real estate tax assessment records shall be deemed adequate compliance with this requirement. If the hearing is continued, notice shall be remailed. Costs of any notice required under this chapter shall be taxed to the applicant.

When a proposed amendment of the zoning ordinance involves a change in the zoning map classification of more than 25 parcels of land, or a change to the applicable zoning ordinance text regulations that decreases the allowed dwelling unit density of any parcel of land, then, in addition to the advertising as required by subsection A, written notice shall be given by the local planning commission, or its representative, at least five days before the hearing to the owner, owners, or their agent of each parcel of land involved, provided, however, that written notice of such changes to zoning ordinance text regulations shall not have to be mailed to the owner, owners, or their agent of lots shown on a subdivision plat approved and

recorded pursuant to the provisions of Article 6 (§ 15.2-2240 et seq.) where such lots are less than 11,500 square feet. One notice sent by first class mail to the last known address of such owner as shown on the current real estate tax assessment books or current real estate tax assessment records shall be deemed adequate compliance with this requirement, provided that a representative of the local commission shall make affidavit that such mailings have been made and file such affidavit with the papers in the case. Nothing in this subsection shall be construed as to invalidate any subsequently adopted amendment or ordinance because of the inadvertent failure by the representative of the local commission to give written notice to the owner, owners or their agent of any parcel involved.

The governing body may provide that, in the case of a condominium or a cooperative, the written notice may be mailed to the unit owners' association or proprietary lessees' association, respectively, in lieu of each individual unit owner.

Whenever the notices required hereby are sent by an agency, department or division of the local governing body, or their representative, such notices may be sent by first class mail; however, a representative of such agency, department or division shall make affidavit that such mailings have been made and file such affidavit with the papers in the case.

A party's actual notice of, or active participation in, the proceedings for which the written notice provided by this section is required shall waive the right of that party to challenge the validity of the proceeding due to failure of the party to receive the written notice required by this section.

C. When a proposed comprehensive plan or amendment thereto; a proposed change in zoning map classification; or an application for special exception for a change in use or to increase by greater than 50 percent of the bulk or height of an existing or proposed building, but not including renewals of previously approved special exceptions, involves any parcel of land located within one-half mile of a boundary of an adjoining locality of the Commonwealth, then, in addition to the advertising and written notification as required by this section, written notice shall also be given by the local commission, or its representative, at least 10 days before the hearing to the chief administrative officer, or his designee, of such adjoining locality.

D. When (i) a proposed comprehensive plan or amendment thereto, (ii) a proposed change in zoning map classification, or (iii) an application for special exception for a change in use involves any parcel of land located within 3,000 feet of a boundary of a military base, military installation, military airport, excluding armories operated by the Virginia National Guard, or licensed public-use airport then, in addition to the advertising and written notification as required by this section, written notice shall also be given by the local commission, or its representative, at least 30 days before the hearing to the commander of the military base, military installation, military airport, or owner of such public-use airport, and the notice shall advise the military commander or owner of such public-use airport of the opportunity to submit comments or recommendations.

E. The adoption or amendment prior to July 1, 1996, of any plan or ordinance under the authority of prior acts shall not be declared invalid by reason of a failure to advertise or give notice as may be required by such act or by this chapter, provided a public hearing was conducted by the governing body prior to such adoption or amendment. Every action contesting a decision of a locality based on a failure to advertise or give notice as may be required by this chapter shall be filed within 30 days of such decision with the circuit court having jurisdiction of the land affected by the decision. However, any litigation pending prior to July 1, 1996, shall not be affected by the 1996 amendment to this section.

F. Notwithstanding any contrary provision of law, general or special, the City of Richmond may cause such notice to be published in any newspaper of general circulation in the city.

G. When a proposed comprehensive plan or amendment of an existing plan designates or alters previously designated corridors or routes for electric transmission lines of 150 kilovolts or more, written notice shall also be given by the local planning commission, or its representative, at least 10 days before the hearing to each electric utility with a certificated service territory that includes all or any part of such designated electric transmission corridors or routes.

H. When any applicant requesting a written order, requirement, decision, or determination from the zoning administrator, other administrative officer, or a board of zoning appeals that is subject to the appeal provisions contained in § 15.2-2311 or 15.2-2314, is not the owner or the agent of the owner of the real property subject to the written order, requirement, decision or determination, written notice shall be given to the owner of the property within 10 days of the receipt of such request. Such written notice shall be given by the zoning administrator or other administrative officer or, at the direction of the administrator or officer, the requesting applicant shall be required to give the owner such notice and to provide satisfactory evidence to the zoning administrator or other administrative officer that the notice has been given. Written notice mailed to the owner at the last known address of the owner as shown on the current real estate tax assessment books or current real estate tax assessment records shall satisfy the notice requirements of this subsection.

This subsection shall not apply to inquiries from the governing body, planning commission, or employees of the locality made in the normal course of business.

2. That the provisions of this act shall expire on July 1, 2022.

"Eligible school division" means a (i) local school division or (ii) regional vocational center, special education center, alternative education center, or academic year Governor's School serving public school students in grades K through 12. The term shall also include the Virginia School for the Deaf and the Blind.

"Local school division" means a school division with schools subject to state accreditation and whose students are required to be reported in fall membership for grades K through 12.

"Security equipment" includes building modifications and fixtures such as security vestibules, *security-related devices located outside of the school building on school property, and security-related devices located on school buses.*

C. The Authority shall issue bonds for the purpose of grant payments to eligible school divisions of the Commonwealth to be used exclusively for purchasing security equipment for schools, including any related installation, which is designed to improve and help ensure the safety of students attending public schools in Virginia. Such grants shall not be used to pay for security equipment that is not included or described in a grant application approved by the Department pursuant to subsection D. The amount of grants provided to each eligible school division pursuant to this section shall not exceed \$100,000 for each fiscal year of the Commonwealth. Funds for the payment of such grants shall be provided from the issuance of bonds by the Authority, provided that the Authority shall not issue more than an aggregate of \$6 million in bonds, after all costs, for such grants during each fiscal year of the Commonwealth. In addition, the Authority shall ensure that no more than an aggregate principal amount of \$30 million in bonds issued under this section shall be outstanding at any time. Eligible school divisions seeking a grant shall apply to the Department, which shall be responsible for administering the grant program.

The Authority shall work with the Department to determine the schedule for the issuance of the bonds, which shall be based in part upon eligible school divisions having sufficient funds to purchase such security equipment. The payment of debt service on such bonds shall be as provided in the general appropriation act.

Such grants shall be in addition to all other grants made to local governments, school boards, or school divisions according to law. In addition, such grants shall not replace or be in lieu of loans to local school boards or interest rate subsidy payments to local school boards pursuant to Chapter 11.1 (§ 22.1-175.1 et seq.) of Title 22.1, and the issuance of such bonds and the payment of such grants shall not, except as herein provided, affect or otherwise amend the provisions of

such chapter as they relate to the powers and duties of the Authority, local school boards, local governments, or any other entity.

D. Based on the criteria developed by the Department in collaboration with the Department of Criminal Justice Services, eligible school divisions shall apply for a grant by August 1 of each year. As a condition of receiving a grant, a local match of 25 percent of the grant amount shall be required. The Superintendent of Public Instruction is authorized to reduce the local match for local school divisions with a composite index of local ability-to-pay less than 0.2000, including any such school division participating in a regional vocational center, special education center, alternative education center, or academic year Governor's School. The Virginia School for the Deaf and the Blind shall be exempt from the match requirement.

Grants shall be awarded by the Department on a competitive basis. As part of the application for a grant, each eligible school division shall (i) identify with specificity the security equipment for which grants are being sought, as well as the estimated costs to purchase and install the security equipment, and (ii) certify that it is the intent of the eligible school division to purchase the security equipment within six months of approval of any grant by the Department.

If the Department determines that a grant shall be paid to an eligible school division under this section, it shall provide a written certification to the chairman of the Authority directing him to make a grant payment in a specific amount to the eligible school division. The Department, however, shall not make such written certification until it has established that the Authority has sufficient funds to make such grant payment. The Authority shall only make grant payments to an eligible school division for the grants provided under this section upon receipt of such written certification. The Authority shall make such grant payments, and in the amounts as directed by the Department, within 30 days of receipt of the certification.

E. The Department shall develop guidelines concerning the requirements for applying for a grant and the administration of such grants. Such guidelines shall not be subject to the Administrative Process Act (§ 2.2-4000 et seq.).

F. In the event that two or more local school divisions became one local school division, whether by consolidation of only the local school divisions or by consolidation of the local governments, such resulting local school division shall be eligible for grants on the basis of the same number of local school divisions as existed prior to September 30, 2012.

G. The Authority shall take all necessary and proper steps as it is authorized to take under law to carry out the provisions of this section.

H. Beginning in 2014, the Department shall make an annual report to the General Assembly by September 1 of each year reporting (i) the total grants paid during the immediately prior fiscal year to each eligible school division and (ii) a general description of the security equipment purchased by eligible school divisions.

CHAPTER 779

1. That § 22.1-296.3 of the Code of Virginia is amended and reenacted as follows:

§ 22.1-296.3. Certain private school employees subject to fingerprinting and criminal records checks.

A. As a condition of employment, the governing boards or administrators of private elementary or secondary schools that are accredited pursuant to § 22.1-19 shall require any applicant who accepts employment, whether full-time or part-time, permanent or temporary, to submit to fingerprinting and to provide personal descriptive information to be forwarded along with the applicant's fingerprints through the Central Criminal Records Exchange to the Federal Bureau of Investigation for the purpose of obtaining criminal history record information regarding such applicant.

The Central Criminal Records Exchange, upon receipt of an applicant's record or notification that no record exists, shall report to the governing board or administrator, or to a private organization coordinating such records on behalf of such governing board or administrator pursuant to a written agreement with the Department of State Police, that the applicant meets the criteria or does not meet the criteria for employment based on whether or not the applicant has ever been convicted of any barrier crime as defined in § 19.2-392.02.

B. The Central Criminal Records Exchange shall not disclose information to such governing board, administrator, or private organization coordinating such records regarding charges or convictions of any crimes. If any applicant is denied employment because of information appearing on the criminal history record and the applicant disputes the information upon which the denial was based, the Central Criminal Records Exchange shall, upon request, furnish the applicant the procedures for obtaining a copy of the criminal history record from the Federal Bureau of Investigation. The information provided to the governing board, administrator, or private organization coordinating such records shall not be disseminated except as provided in this section. A governing board or administrator employing or previously employing a temporary teacher or a private organization coordinating such records on behalf of such governing board or administrator pursuant to a written agreement with the Department of State Police may disseminate, at the written request of such temporary teacher, whether such teacher meets the criteria or does not meet the criteria for employment pursuant to subsection A to the governing board or administrator of another accredited private elementary or secondary school in which such teacher has

accepted employment. Such governing board, administrator, or private organization transferring criminal records information pursuant to this section shall be immune from civil liability for any official act, decision, or omission done or made in the performance of such transfer, when such acts or omissions are taken in good faith and are not the result of gross negligence or willful misconduct.

Fees charged for the processing and administration of background checks pursuant to this section shall not exceed the actual cost to the state of such processing and administration.

C. Effective July 1, 2017, the governing board or administrator of a private elementary or secondary school that is accredited pursuant to § 22.1-19 that operates a child welfare agency regulated by the Department of Social Services pursuant to Chapter 17 (§ 63.2-1700 et seq.) of Title 63.2 shall accept evidence of a background check in accordance with § 63.2-1720.1 for individuals who are required to undergo a background check in accordance with that section as a condition of employment in lieu of the background check required by subsection A.

D. *The governing boards or administrators of private elementary and secondary schools that are accredited pursuant to § 22.1-19 shall adopt and implement policies prohibiting any individual who is a governing board member, administrator, employee, contractor, or agent of a private elementary or secondary school to assist a governing board member, administrator, employee, contractor, or agent of such private elementary or secondary school in obtaining a new job if such individual knows or has probable cause to believe that the individual seeking new employment engaged in sexual misconduct regarding a minor or student in violation of law.*

E. For purposes of this section, "governing board" or "administrator" means the unit or board or person designated to supervise operations of a system of private schools or a private school accredited pursuant to § 22.1-19.

Nothing in this section or § 19.2-389 shall be construed to require any private or religious school which is not so accredited to comply with this section.

CHAPTER 783

An Act to amend and reenact § 46.2-844 of the Code of Virginia, relating to passing stopped school bus; vendor; administrative fee.

[H 1427]

Approved April 7, 2020

Be it enacted by the General Assembly of Virginia:

1. That § 46.2-844 of the Code of Virginia is amended and reenacted as follows:

§ 46.2-844. Passing stopped school buses; penalty; prima facie evidence; penalty.

A. The driver of a motor vehicle approaching from any direction a clearly marked school bus that is stopped on any highway, private road, or school driveway for the purpose of taking on or discharging children, the elderly, or mentally or physically handicapped persons, who, in violation of § 46.2-859, fails to stop and remain stopped until all such persons are clear of the highway, private road, or school driveway and the bus is put in motion is subject to a civil penalty of \$250, and any prosecution shall be instituted and conducted in the same manner as prosecutions for traffic infractions.

A prosecution or proceeding under § 46.2-859 is a bar to a prosecution or proceeding under this section for the same act, and a prosecution or proceeding under this section is a bar to a prosecution or proceeding under § 46.2-859 for the same act.

In any prosecution for which a summons charging a violation of this section was issued within 10 days of the alleged violation, proof that the motor vehicle described in the summons was operated in violation of this section, together with proof that the defendant was at the time of such violation the registered owner of the vehicle, as required by Chapter 6 (§ 46.2-600 et seq.) shall give rise to a rebuttable presumption that the registered owner of the vehicle was the person who operated the vehicle at the place where, and for the time during which, the violation occurred. Such presumption shall be rebutted if (i) the owner of the vehicle files an affidavit by regular mail with the clerk of the general district court that he was not the operator of the vehicle at the time of the alleged violation, (ii) the owner testifies in open court under oath that he was not the operator of the vehicle at the time of the alleged violation, or (iii) a certified copy of a police report showing that

the vehicle had been reported to the police as stolen prior to the time of the alleged violation of this section is presented prior to the return date established on the summons issued pursuant to this section to the court adjudicating the alleged violation. Nothing herein shall limit the admission of otherwise admissible evidence.

The testimony of the school bus driver, the supervisor of school buses, or a law-enforcement officer that the vehicle was yellow, conspicuously marked as a school bus, and equipped with warning devices as prescribed in § 46.2-1090 is prima facie evidence that the vehicle is a school bus.

B. 1. *For purposes of this subsection, "video-monitoring system" means a system with one or more camera sensors and computers installed and operated on a school bus that produces live digital and recorded video of motor vehicles being operated in violation of § 46.2-859. All such systems installed shall, at a minimum, produce a recorded image of the license plate and shall record the activation status of at least one warning device as prescribed in § 46.2-1090 and the time, date, and location of the vehicle when the image is recorded.*

2. A locality may, by ordinance, authorize the school division of the locality to install and operate a video-monitoring system in or on the school buses operated by the division or to contract with a private vendor to do so on behalf of the school division for the purpose of recording violations of subsection A. Such ordinance may direct that any civil penalty levied for a violation of subsection A shall be payable to the local school division. In any locality that has adopted such an ordinance, a summons for a violation of subsection A may be executed as provided in § 19.2-76.2 and, notwithstanding the provisions of § 19.2-76, the summons may be executed by mailing by first-class mail a copy thereof to the address of the owner of the vehicle contained in the records of the Department. Every such mailing shall include, in addition to the summons, a notice of (i) the summoned person's ability to rebut the presumption that he was the operator of the vehicle at the time of the alleged violation through the filing of an affidavit as provided in subsection A and (ii) instructions for filing such an affidavit, including the address to which the affidavit is to be sent. If the summoned person fails to appear on the date of return set out in the summons mailed pursuant to this section, the summons shall be executed in the manner set out in § 19.2-76.3. No proceedings for contempt or arrest of a person summoned by mailing shall be instituted for failure to appear on the return date of the summons. Any summons executed for violation of this section shall provide to the person summoned at least 30 business days from the mailing of the summons to inspect information collected by a video-monitoring system in connection with the violation.

~~2. 3. Any private vendor contracting with a school division pursuant to this subsection may impose and collect an administrative fee in addition to the civil penalty imposed for a violation of subsection A and payable pursuant to this subsection, so as to recover the expenses of collecting any unpaid civil penalty when such penalty remains due more than 30 days after the date of the mailing of the summons and notice. The administrative fee shall be reasonably related to the actual cost of collecting the civil penalty and shall not exceed \$100 per violation. The operator of the vehicle shall pay the unpaid civil penalty and any administrative fee detailed in a notice or citation issued by the private vendor. If paid no later than 60 days after the date of the mailing of the summons and notice, the administrative fee shall not exceed \$25.~~

4. Any private vendor contracting with a school division pursuant to this subsection may enter into an agreement with the Department of Motor Vehicles, in accordance with the provisions of subdivision B 30 of § 46.2-208, to obtain vehicle owner information regarding the registered owners of vehicles that improperly pass stopped school buses. Information provided to such private vendor shall be protected in a database with security comparable to that of the Department of Motor Vehicles' system and used only for enforcement against individuals who violate the provisions of this section. The school division shall annually certify compliance with this subdivision and make all records pertaining to such system available for inspection and audit by the Commissioner of Highways or the Commissioner of the Department of Motor Vehicles or their designee. Any person who discloses personal information in violation of the provisions of this subdivision shall be subject to a civil penalty of \$1,000 per disclosure. Any unauthorized use or disclosure of such personal information shall be grounds for termination of the agreement between the Department of Motor Vehicles and the private vendor.

~~3. For purposes of this subsection, "video-monitoring system" means a system with one or more camera sensors and computers installed and operated on a school bus that produces live digital and recorded video of motor vehicles being operated in violation of § 46.2-859. All such systems installed shall, at a minimum, produce a recorded image of the license plate and shall record the activation status of at least one warning device as prescribed in § 46.2-1090 and the time, date, and location of the vehicle when the image is recorded.~~

curbs, gutters, drainageways, sound barriers, sidewalks, and all other features or appurtenances conducive to the public safety and convenience, that either have been or may be taken into the primary or secondary state highway system. Project planning and the acquisition of rights-of-way shall be under the control and at the direction of the county, subject to the approval of project plans and specifications by the Department. All costs incurred by the Department in administering such contracts shall be reimbursed from the county's general revenues or from revenues derived from the sale of bonds or such costs may be charged against the funds that the county may be entitled to under the provisions of § 33.2-358.

B. Projects undertaken under the authority of subsection A shall not diminish the funds to which a county may be entitled under the provisions of § 33.2-357 or 33.2-358.

C. At the request of the county, the Department may agree to undertake the design, right-of-way acquisition, or construction of projects funded by the county. In such situations, the Department and the county shall enter into an agreement specifying all relevant procedures and responsibilities concerning the design, right-of-way acquisition, construction, or contract administration of projects to be funded by the county. The county shall reimburse the Department for all costs incurred by the Department in carrying out the aforesaid activities from general revenues or revenues derived from the sale of bonds.

D. Notwithstanding any contrary provision of law, any county may undertake activities toward the design, land acquisition, or construction of primary or secondary state highway projects that have been included in the six-year plan pursuant to § 33.2-331, or in the case of a primary state highway, an approved project included in the six-year improvement program of the Board. In such situations, the Department and the county shall enter into an agreement specifying all relevant procedures and responsibilities concerning the design, right-of-way acquisition, construction, or contract administration of projects to be funded by the Department. Such activities shall be undertaken with the prior concurrence of the Department, and the Department shall ~~reimburse~~ *compensate* the county for *eligible* expenses incurred in carrying out these activities. ~~Such reimbursement shall be derived from primary or secondary highway funds that the county may be entitled to under the provisions of this chapter.~~ The county may undertake these activities in accordance with all applicable county procedures, provided the Commissioner of Highways finds that those county procedures are substantially similar to departmental procedures and specifications.

E. If funding for the construction of a primary or interstate project is scheduled in the Board's Six-Year Improvement Program as defined in § 33.2-214, a locality may choose to advance funds to the project. If such advance is offered, the Board may consider such request and agree to such advancement and the subsequent reimbursement of the locality of the advance in accordance with terms agreed upon by the Board or its designee and the locality.

F. Any county carrying out any construction project as authorized in this section may, in so doing, exercise the powers granted the Commissioner of Highways under Article 1 (§ 33.2-1000 et seq.) of Chapter 10 to enter property for the purpose of making an examination and survey thereof, with a view to ascertainment of its suitability for highway purposes and any other purpose incidental thereto.

G. For the purposes of this section, any county without an existing franchise agreement, when administering a Department-sanctioned project under a land-use permit or transportation project agreement, shall have the same authority as the Department pertaining to the relocation of utilities.

H. Whenever so requested by any county, funding of any project undertaken as provided in this section may be supplemented solely by state funds in order to avoid the necessity of complying with additional federal requirements, provided a determination has been made by the Department that (i) adequate state funds are available to fully match available federal transportation funds and (ii) the Department can meet its federal obligation authority, as permitted by federal law.

CHAPTER 785

An Act to amend and reenact § 59.1-200 of the Code of Virginia and to amend the Code of Virginia by adding in Title 6.2 a chapter numbered 20.1, consisting of sections numbered 6.2-2026 through 6.2-2050, relating to debt settlement services providers; civil and criminal penalties.

Be it enacted by the General Assembly of Virginia:

1. That § 59.1-200 of the Code of Virginia is amended and reenacted and that the Code of Virginia is amended by adding in Title 6.2 a chapter numbered 20.1, consisting of sections numbered 6.2-2026 through 6.2-2050, as follows:

"Credit counselor" means an employee or agent of a licensee who engages in debt settlement services on a consumer's behalf.

For purposes of this chapter, with respect to student loan forgiveness or student loan payment reduction programs established under federal or state law and widely available to similarly situated consumers at no cost, the facilitation of enrollment in or qualification for such programs does not constitute an action or negotiation.

"Duplicate original" means an exact copy with signatures created by the same impression as the original, an exact copy bearing an original signature, or, in the case of an electronic transaction, an electronic version with electronic signatures.

"Electronic signature" means an electronic signature as defined in § 59.1-480.

"Principal" means any person that, directly or indirectly, owns or controls (i) 10 percent or more of the outstanding stock of a stock corporation or (ii) a 10 percent or greater interest in a person.

§ 6.2-2027. License requirement; exceptions.

A. No person shall engage in the business of providing or offering to provide debt settlement services to any consumer, whether or not the person has an office, facility, agent, or other physical presence in the Commonwealth, unless such person obtains from the Commission a license issued pursuant to this chapter. B. This chapter shall be construed by the Commission to promote sound personal financial advice and management.

C. A person licensed under Chapter 20 (§ 6.2-2000 et seq.) is not required to be licensed under this chapter if it offers to provide or provides debt settlement services solely in connection with offering to provide or providing debt management plans.

D. A person licensed under this chapter shall not receive money from consumers for transmission to consumers' creditors or engage in the business of providing or offering to provide debt management plans to consumers unless such person is also licensed under Chapter 20 (§ 6.2-2000 et seq.).

A. An application for a license under this chapter shall be made in writing, under oath, and on a form provided by the Commissioner.

B. The application shall include:

C. The application fee shall not be refundable in any event. The fee shall not be abated by surrender, suspension, or revocation of the license.

§ 6.2-2029. Bond required.

The application for a license shall be accompanied by a bond filed with the Commissioner with corporate surety authorized to execute the bond in the Commonwealth, in the principal amount as determined by the Commission. The amount of the bond shall be not less than \$25,000 nor more than \$350,000. The form of the bond shall be approved by the Commission. The bond shall be continuously maintained thereafter in full force, and the Commission may require the principal amount to be adjusted as it deems necessary. The bond shall be conditioned upon the licensee performing all written agreements with consumers and conducting the licensed business in conformity with this chapter and all applicable law. Any person who may be damaged by noncompliance of the licensee with any condition of the bond may proceed on the bond against the principal or surety thereon, or both, to recover damages. The aggregate liability under the bond shall not exceed the penal sum of the bond.

§ 6.2-2030. Investigation of applications.

The Commissioner may make such investigations as he deems necessary to determine if the applicant has complied with all applicable provisions of law and regulations adopted thereunder.

§ 6.2-2031. Qualifications.

A. Upon the filing and investigation of an application for a license, and compliance by the applicant with the provisions of §§ 6.2-2028 and 6.2-2029, the Commission shall issue and deliver to the applicant the license to engage in business under this chapter at the locations specified in the application if it finds that:

1. 5. The applicant has fidelity bond coverage in such principal amount as may be determined by the Commission; and

6. The applicant (i) is not the subject of any current material administrative or regulatory proceedings by any governmental authority and (ii) has not received a material adverse determination in any past administrative or regulatory proceedings by any governmental authority.

B. For purposes of subdivision A 6, the Commission shall have sole discretion to determine the materiality of any proceedings or determinations.

C. If the Commission fails to make such findings, no license shall be issued and the Commissioner shall notify the applicant of the denial and the reasons for such denial.

D. A license shall not be issued to a collection agency, or to any creditor or association of creditors, or to any credit-granting organization or association of such organizations.

§ 6.2-2032. Licenses; places of business; changes.

A. Each license shall state the address or addresses at which the business is to be conducted and shall state fully the legal name of the licensee, as well as any fictitious name by which the licensee is operating in the Commonwealth. Each license shall be posted prominently in each place of business of the licensee. Licenses shall not be transferable or assignable, by operation of law or otherwise. No licensee shall use any name in the Commonwealth other than the legal name or fictitious name set forth on the license issued by the Commission.

B. No licensee shall open an additional office or relocate any place of business without prior approval of the Commission. Applications for such approval shall be made in writing on a form provided by the Commissioner and shall be accompanied by payment of a \$150 nonrefundable application fee. The application shall be approved unless the Commission finds that the applicant has not conducted business under this chapter efficiently, fairly, in the public interest, and in accordance with law. The application shall be deemed approved if notice to the contrary has not been mailed by the Commission to the applicant within 30 days of the date the application is received by the Commission, but this period may be extended for good cause. After approval, the applicant shall give written notice to the Commissioner within 20 days of the commencement of business at the additional location or relocated place of business.

C. Every licensee shall within 20 days notify the Commissioner, in writing, of the closing of any business location and of the name, address, and position of each new senior officer, member, partner, or director and provide such other information with respect to any such change as the Commissioner may reasonably require.

D. Every license shall remain in force until it has been surrendered, revoked, or suspended. The surrender, revocation, or suspension of a license shall not affect any preexisting legal right or obligation of such licensee.

§ 6.2-2033. Acquisition of control; application.

A. Except as provided in this section, no person shall acquire, directly or indirectly, 25 percent or more of the voting shares of a corporation, or 25 percent or more of the ownership of any other person, licensed to conduct business under this chapter unless such person first:

1. Files an application with the Commission in such form as the Commissioner may prescribe from time to time;

2. Delivers such other information to the Commissioner as the Commissioner may require concerning the financial responsibility, background, experience, and activities of the applicant, its directors, senior officers, trustees, beneficiaries, principals, and members, and any proposed new directors, senior officers, principals, or members of the licensee; and

3. Pays such application fee as the Commission may prescribe.

B. Upon the filing and investigation of an application, the Commission shall permit the applicant to acquire the interest in the licensee if it finds that the applicant and its directors, senior officers, members, trustees, beneficiaries, and principals, and any proposed new persons having any such status have the financial responsibility, character, reputation, experience, and general fitness to warrant belief that the business will be operated efficiently and fairly, in the public interest, and in accordance with law. The Commission shall grant or deny the application within 60 days from the date a completed application accompanied by the required fee is filed unless the period is extended by the Commissioner reciting the reasons for the extension. If the application is denied, the Commission shall notify the applicant of the denial and the reasons for the denial.

C. The provisions of this section shall not apply to (i) the acquisition of an interest in a licensee, directly or indirectly, including an acquisition by merger or consolidation, by or with a person licensed by this chapter; (ii) the acquisition of an interest in a licensee, directly or indirectly, including an acquisition by merger or consolidation, by or with a person

affiliated through common ownership with the licensee; or (iii) the acquisition of an interest in a licensee by a person by bequest, descent, survivorship, or operation of law. The person acquiring an interest in a licensee in a transaction that is exempt from filing an application by this subsection shall send written notice to the Commissioner of such acquisition within 30 days of its closing.

§ 6.2-2034. Retention of books, accounts, and records; responding to Bureau.

A. Every licensee shall maintain in its licensed offices such books, accounts, and records as the Commission may reasonably require in order to determine whether the licensee is complying with the provisions of this chapter and regulations adopted thereunder. Such books, accounts, and records shall be maintained apart and separate from any other business in which the licensee is involved. Such records relating to debt settlement services agreements shall be retained for at least three years after the debt settlement services agreements are terminated. To safeguard the privacy of consumers, records containing personal financial information shall be shredded, incinerated, or otherwise disposed of in a secure manner. Licensees may arrange for the shredding, incineration, or other disposal of the records from a business record destruction vendor.

B. When the Bureau requests a written response, books, records, documentation, or other information from a licensee in connection with the Bureau's investigation, enforcement, or examination of compliance with applicable laws, the licensee shall deliver a written response, as well as any requested books, records, documentation, or information within the time period specified in the Bureau's request. If no time period is specified, a written response, as well as any requested books, records, documentation, or information, shall be delivered by the licensee to the Bureau not later than 30 days from the date of such request. In determining the specified time period for responding to the Bureau and when considering a request for an extension of time to respond, the Bureau shall take into consideration the volume and complexity of the requested written response, books, records, documentation, or information and such other factors as the Bureau determines to be relevant under the circumstances.

§ 6.2-2035. Annual report.

Each licensee under this chapter shall annually, on or before March 25, file a written report with the Commissioner containing such information as the Commissioner may require concerning the licensee's business and operations during the preceding calendar year as to each licensed place of business. Reports shall be made under oath and shall be in the form prescribed by the Commissioner.

§ 6.2-2036. Other reporting requirements.

A. Within 15 days following the occurrence of any of the following events, a licensee shall file a written report with the Commission describing such event and its expected impact on the business of the licensee:

1. The filing of bankruptcy, reorganization, or receivership proceedings by or against the licensee;
2. The institution of administrative or regulatory proceedings against the licensee by any governmental authority;
3. Any felony indictments of the licensee or any of its members, partners, directors, officers, trustees, beneficiaries, or principals, if known;
4. Any felony conviction of the licensee or any of its members, partners, directors, officers, trustees, beneficiaries, or principals, if known;
5. The institution of an action against the licensee under the Virginia Consumer Protection Act (§ 59.1-196 et seq.) by the Attorney General or any other governmental authority; or
6. Such other event as the Commission may prescribe by regulation.

B. Within 30 days of judgment against the licensee in a civil action relating to the debt settlement services agreement of a consumer, a licensee shall file a written report with the Commission describing such event and its expected impact on the business of the licensee.

C. Within 10 days of receipt of any qualified audit, a licensee shall notify the Commission and describe what steps are being taken to address concerns raised in the audit.

§ 6.2-2037. Investigations; examinations.

The Commission may, by its designated officers and employees, as often as it deems necessary, investigate and examine the affairs, business, premises, and records of any person licensed or required to be licensed under this chapter insofar as they pertain to any business for which a license is required by this chapter. Examinations of licensees shall be conducted at least once in each three-year period. In the course of such investigations and examinations, the owners, members, officers, directors, partners, trustees, beneficiaries, and employees of such person being investigated or examined shall, upon demand of the person making such investigation or examination, afford full access to all premises, books, records, and information that the person making such investigation or examination deems necessary. For the purposes of this section, the person making such investigation or examination shall have authority to administer oaths, examine under oath all the aforementioned persons, and compel the production of papers and objects of all kinds.

§ 6.2-2038. Annual fees.

A. To defray the costs of the examination, supervision, and regulation of licensees, every licensee under this chapter shall pay an annual fee calculated in accordance with a schedule set by the Commission. The schedule shall bear a reasonable relationship to the total number of agreements to provide debt settlement services maintained by licensees, to the actual costs of their examinations, and to other factors relating to their supervision and regulation. All such fees shall be assessed on or before June 1 for every calendar year. All such fees shall be paid by the licensee to the State Treasurer on or before July 1 following each assessment.

B. In addition to the annual fee prescribed in subsection A, when it becomes necessary to examine or investigate the books and records of a licensee under this chapter at a location outside the Commonwealth, the licensee shall be liable for and shall pay to the Commission within 30 days of the presentation of an itemized statement the actual travel and reasonable living expenses incurred on account of its examination, supervision, and regulation, or shall pay at a reasonable per diem rate approved by the Commission.

§ 6.2-2039. Regulations.

The Commission shall adopt such regulations as it deems appropriate to effect the purposes of this chapter. Before adopting any such regulation, the Commission shall give reasonable notice of its content and shall afford interested parties an opportunity to be heard, in accordance with the Commission's Rules.

§ 6.2-2040. Licensees providing debt settlement services; prohibited and required business methods.

Each licensee engaged in the business of providing or offering to provide debt settlement services to any consumer shall comply with the following requirements:

1. Each debt settlement services agreement shall be evidenced by a written agreement, which shall be maintained in either a hard copy, including a faxed copy, or electronic version and which shall be signed by the consumer and a person authorized by the licensee to sign such agreements and dated the same day the debt settlement services agreement is executed by the consumer. The agreement may be signed by the parties either originally or by electronic signature. The agreement shall set forth, at a minimum, (i) the name and address of both the consumer and the licensee; (ii) a full description of all services to be performed for the consumer by the licensee; (iii) a clear explanation, highlighted in bold type, of the costs to the consumer; (iv) a statement that the debt settlement services agreement may be terminated for any reason by the consumer and that the consumer has no obligation to continue the arrangement unless satisfied with the services provided; (v) an explanation of the method of dispute resolution under the agreement; (vi) an explanation of the obligations of the consumer and the licensee that are subject to the agreement; and (vii) notification of privacy policies in compliance with state and federal laws and regulations.

2. A licensee shall give to the consumer a duplicate original of the agreement executed by the consumer and licensee upon full execution.

3. A licensee shall not request or receive payment or other compensation for any debt settlement services until and unless:

a. The licensee has negotiated, settled, reduced, or otherwise altered the terms of at least one debt pursuant to a debt settlement services agreement it executed with a consumer; and

b. The consumer has made at least one payment to a creditor following the licensee's negotiation, settlement, reduction, or other alteration of at least one debt owned by the consumer to that creditor.

4. Prior to the execution of a debt settlement services agreement with a consumer, a licensee shall disclose to the consumer in writing, and retain a copy of, the following:

a. The amount of time necessary to achieve the represented results and, to the extent that the services may include a settlement offer to any of the customer's creditors or debt collectors, the time by which the licensee will make a bona fide settlement offer to each of them;

b. To the extent that the services may include a settlement offer to any of the customer's creditors or debt collectors, the amount of money or the percentage of each outstanding debt that the customer must accumulate before the licensee will make a bona fide settlement offer to each of them; and

c. To the extent that any aspect of the debt settlement services relies upon or results in the consumer's failure to make timely payments to creditors or debt collectors, that the use of the debt settlement services will likely adversely affect the consumer's creditworthiness, may result in the consumer being subject to collections or sued by creditors or debt collectors, and may increase the amount of money the consumer owes due to the accrual of fees and interest.

5. A licensee shall not require a consumer to execute a power of attorney, as defined in § 64.2-1600, as a condition of receiving debt settlement services.

6. A licensee shall not require a consumer to open an account, as defined in § 6.2-604, as a condition of receiving debt settlement services. A licensee may request that a consumer open an account in connection with its provision of debt settlement services, provided that:

a. The consumer's funds are held in an account at an FDIC-insured financial institution;

b. The consumer owns the funds held in the account and is paid accrued interest on the account, if any;

c. The entity administering the account is not owned or controlled by, or in any way affiliated with, the debt settlement services provider;

d. The entity administering the account does not give or accept any money or other compensation in exchange for referrals of business involving the debt settlement services provider; and

e. The consumer may withdraw from the debt settlement services at any time without penalty and must receive all funds in the account, other than the fee earned by the debt settlement services provider for completed services, if any, subject to the limitations imposed in § 6.2-2041.

7. A licensee shall not receive a gift or bonus, premium, reward, or other compensation, directly or indirectly, for advising, arranging, or assisting an individual in connection with obtaining an extension of credit or other service from a creditor, except for educational or counseling services required in connection with a government-sponsored program.

§ 6.2-2041. Fee.

A. For providing debt settlement services, a licensee may charge or receive a fee totaling either (i) no more than 20 percent of the principal amount of the debt enrolled by a consumer into the licensee's service or (ii) no more than 30 percent of the difference between the amount owed by a consumer at the time the licensee settles the debt and the amount to be paid by the consumer to satisfy the debt.

B. If more than one debt is the subject of a debt settlement services agreement, the licensee may only charge or collect that proportion of the total fee allowable under clause (i) of subsection A that equals the proportion of the aggregate debt the individual settled debt represents.

C. A licensee shall not charge or receive any other fee or compensation from a consumer for providing debt settlement services other than the fee provided for in this section.

§ 6.2-2042. Advertising.

No person licensed or required to be licensed under this chapter shall use or cause to be published any advertisement that (i) contains any false, misleading, or deceptive statement or representation or (ii) identifies the person by any name other than the name set forth on the license issued by the Commission.

§ 6.2-2043. Suspension or revocation of license.

A. The Commission may suspend or revoke any license issued under this chapter upon any of the following grounds:

1. Any ground for denial of a license under this chapter;
2. Any violation of the provisions of this chapter or regulations adopted by the Commission thereunder, or a violation of any other law or regulation applicable to the conduct of the licensee's business;
3. A course of conduct consisting of the failure to perform written agreements with consumers;
4. Conviction of a felony or misdemeanor involving fraud, misrepresentation, or deceit;
5. Entry of a judgment against the licensee involving fraud, misrepresentation, or deceit;
6. Entry of a federal or state administrative order against such licensee for violation of any law or any regulation applicable to the conduct of his business;
7. Refusal to permit an investigation or examination by the Commission;
8. Failure to pay any fee or assessment imposed by this chapter;
9. Failure to comply with any order of the Commission; or
10. Insolvency of the licensee.

B. For the purposes of this section, acts of any officer, director, member, trustee, beneficiary, partner, or principal shall be deemed acts of the licensee.

§ 6.2-2044. Cease and desist orders.

A. If the Commission determines that any person has violated any provision of this chapter or any regulation adopted hereunder, the Commission may, upon 21 days' notice in writing, order such person to cease and desist from such practices and to comply with the provisions of this chapter. The notice shall be sent by certified mail to the principal place of business of such person or other address authorized under § 12.1-19.1 and shall state the grounds for the contemplated action. Within 14 days of mailing the notice, the person or persons named therein may file with the clerk of the Commission a written request for a hearing. If a hearing is requested, the Commission shall not issue a cease and desist order except based upon findings made at such hearing. Such hearing shall be conducted in accordance with the Commission's Rules. The Commission may enforce compliance with any order issued under this section by imposition and collection of such fines and penalties as may be prescribed by law.

B. When, in the opinion of the Commission, immediate action is required to protect the public interest, a cease and desist order may be issued without prior hearing. In such cases, the Commission shall make a hearing available to the person on an expedited basis.

C. The Commission shall have jurisdiction to enter and enforce a cease and desist order against any person, regardless of whether such person is present in the Commonwealth, who violates any provision of this chapter or any regulation adopted hereunder.

§ 6.2-2045. Notice of proposed suspension or revocation.

The Commission shall not revoke or suspend the license of any person licensed under this chapter upon any of the grounds set forth in § 6.2-2043 until it has given the licensee 21 days' notice in writing of the reasons for the proposed revocation or suspension and an opportunity to introduce evidence and be heard. The notice shall be sent by certified mail to the principal place of business of the licensee or other address authorized under § 12.1-19.1 and shall state with particularity the grounds for the contemplated action. Within 14 days of mailing the notice, the person or persons named therein may file with the clerk of the Commission a written request for a hearing. If a hearing is requested, the Commission shall not suspend or revoke the license except on the basis of findings made at such hearing. The hearing shall be conducted in accordance with the Commission's Rules.

§ 6.2-2046. Civil penalties.

In addition to the authority conferred under §§ 6.2-2043 and 6.2-2044, the Commission may impose a civil penalty not exceeding \$1,000 upon any person who it determines, in proceedings commenced in accordance with the Commission's Rules, has violated any of the provisions of this chapter. For the purposes of this section, each separate violation shall be subject to the civil penalty herein prescribed. In the case of a violation of § 6.2-2027, each debt settlement services agreement entered into shall constitute a separate violation.

§ 6.2-2047. Criminal penalty.

Any person violating subsection A of § 6.2-2027 is guilty of a Class 1 misdemeanor. For purposes of this section, each violation shall constitute a separate offense.

§ 6.2-2048. Private right of action.

Any person who suffers loss by reason of a violation of any provision of this chapter may bring a civil action to enforce such provision. Any person who is successful in such action shall recover reasonable attorney fees, expert witness fees, and court costs incurred by bringing such action.

§ 6.2-2049. Authority of Attorney General; referral by Commission to Attorney General.

A. If the Commission determines that a person is in violation, or has violated, any provision of this chapter, the Commission may refer the information to the Attorney General and may request that the Attorney General investigate such violations. With or without such referral, the Attorney General is hereby authorized to seek to enjoin violations of this chapter. The circuit court having jurisdiction may enjoin such violations notwithstanding the existence of an adequate remedy at law.

B. The Attorney General may also seek, and the circuit court may order or decree, damages and such other relief allowed by law, including restitution to the extent available to consumers under applicable law. Persons entitled to any relief as authorized by this section shall be identified by order of the court within 180 days from the date of the order permanently enjoining the unlawful act or practice.

C. In any action brought by the Attorney General by virtue of the authority granted in this provision, the Attorney General shall be entitled to seek reasonable attorney fees and costs.

D. If the Attorney General files an action to enjoin violations of this chapter, the Attorney General shall provide notice of such action to the Commission.

§ 6.2-2050. Violation of the Virginia Consumer Protection Act.

Any violation of the provisions of this chapter shall constitute a prohibited practice in accordance with § 59.1-200 and shall be subject to any and all of the enforcement provisions of the Virginia Consumer Protection Act (§ 59.1-196 et seq.).

8. Advertising goods or services with intent not to sell them as advertised, or with intent not to sell at the price or upon the terms advertised.

In any action brought under this subdivision, the refusal by any person, or any employee, agent, or servant thereof, to sell any goods or services advertised or offered for sale at the price or upon the terms advertised or offered, shall be prima facie evidence of a violation of this subdivision. This paragraph shall not apply when it is clearly and conspicuously stated in the advertisement or offer by which such goods or services are advertised or offered for sale, that the supplier or offeror has a limited quantity or amount of such goods or services for sale, and the supplier or offeror at the time of such advertisement or offer did in fact have or reasonably expected to have at least such quantity or amount for sale;

9. Making false or misleading statements of fact concerning the reasons for, existence of, or amounts of price reductions;

10. Misrepresenting that repairs, alterations, modifications, or services have been performed or parts installed;

11. Misrepresenting by the use of any written or documentary material that appears to be an invoice or bill for merchandise or services previously ordered;

12. Notwithstanding any other provision of law, using in any manner the words "wholesaler," "wholesale," "factory," or "manufacturer" in the supplier's name, or to describe the nature of the supplier's business, unless the supplier is actually engaged primarily in selling at wholesale or in manufacturing the goods or services advertised or offered for sale;

13. Using in any contract or lease any liquidated damage clause, penalty clause, or waiver of defense, or attempting to collect any liquidated damages or penalties under any clause, waiver, damages, or penalties that are void or unenforceable under any otherwise applicable laws of the Commonwealth, or under federal statutes or regulations;

13a. Failing to provide to a consumer, or failing to use or include in any written document or material provided to or executed by a consumer, in connection with a consumer transaction any statement, disclosure, notice, or other information however characterized when the supplier is required by 16 C.F.R. Part 433 to so provide, use, or include the statement, disclosure, notice, or other information in connection with the consumer transaction;

a. The return of goods for refund, exchange, or credit. Such disclosure shall be by means of a sign attached to the goods, or placed in a conspicuous public area of the premises of the supplier, so as to be readily noticeable and readable by the person obtaining the goods from the supplier. If the supplier does not permit a refund, exchange, or credit for return, he shall so state on a similar sign. The provisions of this subdivision shall not apply to any retail merchant who has a policy of providing, for a period of not less than 20 days after date of purchase, a cash refund or credit to the purchaser's credit card account for the return of defective, unused, or undamaged merchandise upon presentation of proof of purchase. In the case of merchandise paid for by check, the purchase shall be treated as a cash purchase and any refund may be delayed for a period of 10 banking days to allow for the check to clear. This subdivision does not apply to sale merchandise that is obviously distressed, out of date, post season, or otherwise reduced for clearance; nor does this subdivision apply to special order purchases where the purchaser has requested the supplier to order merchandise of a specific or unusual size, color, or brand not ordinarily carried in the store or the store's catalog; nor shall this subdivision apply in connection with a transaction for the sale or lease of motor vehicles, farm tractors, or motorcycles as defined in § 46.2-100;

b. A layaway agreement. Such disclosure shall be furnished to the consumer (i) in writing at the time of the layaway agreement, or (ii) by means of a sign placed in a conspicuous public area of the premises of the supplier, so as to be readily noticeable and readable by the consumer, or (iii) on the bill of sale. Disclosure shall include the conditions, charges, or fees in the event that a consumer breaches the agreement;

16a. Failing to provide written notice to a consumer of an existing open-end credit balance in excess of \$5 (i) on an account maintained by the supplier and (ii) resulting from such consumer's overpayment on such account. If the credit balance information is incorporated into statements of account furnished consumers by suppliers within such 60-day period, no separate or additional notice is required;

[S 590]

1. That §§ 58.1-439.7, 58.1-609.3, and 58.1-3507 of the Code of Virginia are amended and reenacted as follows:

§ 58.1-439.7. Tax credit for purchase of machinery and equipment used for advanced recycling and processing recyclable materials.

A. 1. For taxable years beginning on and after January 1, 1999, but before January 1, ~~2020~~ 2025, a taxpayer shall be allowed a credit against the tax imposed pursuant to Articles 2 (§ 58.1-320 et seq.) and 10 (§ 58.1-400 et seq.) of Chapter 3 of this title, in an amount equal to 20 percent of the purchase price paid during the taxable year for (i) machinery and equipment used predominantly in or on the premises of manufacturing facilities or plant units which manufacture, process, compound, or produce items of tangible personal property from recyclable materials, within the Commonwealth, for sale and (ii) machinery and equipment used predominantly in or on the premises of facilities that are predominantly engaged in advanced recycling. For purposes of determining "purchase price paid" under this section, the taxpayer may use the original total capitalized cost of such machinery and equipment, less capitalized interest. For purposes of this section, "advanced recycling" means the operation of a single-stream or multi-stream recycling plant that converts waste materials into new materials for resale by processing them and breaking them down into their raw constituents. "Advanced recycling" includes

the operation of a materials recovery facility or materials reclamation facility that receives, separates, and prepares recyclable materials for sale to end-user manufacturers.

2. The Department of Environmental Quality shall certify that such machinery and equipment are integral to the recycling process before the taxpayer shall be allowed the tax credit under this section. The taxpayer shall also submit purchase receipts and invoices as may be necessary to confirm the taxpayer's statement of purchase price paid, with the income tax return to verify the amount of purchase price paid for the recycling machinery and equipment.

3. No taxpayer shall be denied the credit under this section based solely on another person's use of the tangible personal property produced by the taxpayer, provided that the tangible personal property was sold by the taxpayer to an unaffiliated person in an arm's-length sale.

4. No credit shall be allowed under this section for machinery and equipment unless the machinery and equipment manufacture, process, compound, or produce items of tangible personal property from recyclable materials.

B. The total credit allowed under this section in any taxable year shall not exceed 40 percent of the Virginia income tax liability of such taxpayer.

C. Any tax credit not used for the taxable year in which the purchase price on recycling machinery and equipment was paid may be carried over for credit against the taxpayer's income taxes in the 10 succeeding taxable years until the total credit amount is used.

D. The Department of Taxation shall administer the tax credits under this section. Beginning with credits allowable for taxable year 2015, in no case shall the Department issue more than \$2 million in tax credits pursuant to this section in any fiscal year of the Commonwealth. A taxpayer shall not be allowed to claim any tax credit unless it has applied to the Department of Environmental Quality for certification as described in subdivision A 2 and the Department of Environmental Quality has issued a written certification stating that the machinery and equipment purchased are integral to the recycling process. If the amount of tax credits approved under this section by the Department of Taxation for any taxable year exceeds \$2 million, the Department shall apportion the credits by dividing \$2 million by the total amount of tax credits so approved, to determine the percentage of otherwise allowed tax credits each taxpayer shall receive.

E. In the event a corporation converts to a partnership, limited liability company, or electing small business corporation (S corporation), such business entity shall be entitled to any unused credits of the corporation. Credits earned by a partnership, limited liability company, electing small business corporation (S corporation), or a predecessor corporation entitled to such credits, shall be allocated to the individual partners, members, or shareholders, respectively, in proportion to their ownership or interest in such business entities.

Machinery, tools and equipment, or repair parts therefor or replacements thereof, shall be exempt if the preponderance of their use is directly in processing, manufacturing, refining, mining or converting products for sale or resale. The provisions of this subsection do not apply to the drilling or extraction of oil, gas, natural gas and coalbed methane gas. In addition, the exemption provided herein shall not be applicable to any machinery, tools, and equipment, or any other tangible personal property used by a public service corporation in the generation of electric power, except for raw materials that are inputs to production of electricity, including fuel, or for machinery, tools, and equipment used to generate energy derived from sunlight or wind. For the purposes of this section, "drilling," "extraction," and "processing" shall include production, inspection, testing, dewatering, dehydration, or distillation of raw natural gas into a usable condition consistent with commercial practices, and the gathering and transportation of raw natural gas to a facility wherein the gas is converted into such a usable condition. Machinery, tools and equipment, or repair parts therefor or replacements thereof, shall be exempt if the preponderance of their use is directly in the drilling, extraction, refining, or processing of natural gas or oil for sale or resale, or in well area reclamation activities required by state or federal law.

13. Beginning July 1, 1997, (i) the sale, lease, use, storage, consumption, or distribution of an orbital or suborbital space facility, space propulsion system, space vehicle, satellite, or space station of any kind possessing space flight capability, including the components thereof, irrespective of whether such facility, system, vehicle, satellite, or station is returned to this Commonwealth for subsequent use, storage or consumption in any manner when used to conduct spaceport activities; (ii) the sale, lease, use, storage, consumption or distribution of tangible personal property placed on or used aboard any orbital or suborbital space facility, space propulsion system, space vehicle, satellite or space station of any kind, irrespective of whether such tangible personal property is returned to this Commonwealth for subsequent use, storage or consumption in any manner when used to conduct spaceport activities; (iii) fuels of such quality not adapted for use in ordinary vehicles, being produced for, sold and exclusively used for space flight when used to conduct spaceport activities; (iv) the sale, lease, use, storage, consumption or distribution of machinery and equipment purchased, sold, leased, rented or used exclusively for spaceport activities and the sale of goods and services provided to operate and maintain launch facilities, launch equipment, payload processing facilities and payload processing equipment used to conduct spaceport activities.

14. Semiconductor cleanrooms or equipment, fuel, power, energy, supplies, or other tangible personal property used primarily in the integrated process of designing, developing, manufacturing, or testing a semiconductor product, a semiconductor manufacturing process or subprocess, or semiconductor equipment without regard to whether the property is actually contained in or used in a cleanroom environment, touches the product, is used before or after production, or is affixed to or incorporated into real estate.

15. Semiconductor wafers for use or consumption by a semiconductor manufacturer.

16. Railroad rolling stock when sold or leased by the manufacturer thereof.

17. Computer equipment purchased or leased on or before June 30, 2011, used in data centers located in a Virginia locality having an unemployment rate above 4.9 percent for the calendar quarter ending November 2007, for the processing, storage, retrieval, or communication of data, including but not limited to servers, routers, connections, and other enabling hardware when part of a new investment of at least \$75 million in such exempt property, when such investment results in the creation of at least 100 new jobs paying at least twice the prevailing average wage in that locality, so long as such investment was made in accordance with a memorandum of understanding with the Virginia Economic Development Partnership Authority entered into or amended between January 1, 2008, and December 31, 2008. The exemption shall also apply to any such computer equipment purchased or leased to upgrade, add to, or replace computer equipment purchased or

18. Beginning July 1, 2010, and ending June 30, 2035, computer equipment or enabling software purchased or leased for the processing, storage, retrieval, or communication of data, including but not limited to servers, routers, connections, and other enabling hardware, including chillers and backup generators used or to be used in the operation of the equipment exempted in this paragraph, provided that such computer equipment or enabling software is purchased or leased for use in a data center that (i) is located in a Virginia locality, (ii) results in a new capital investment on or after January 1, 2009, of at least \$150 million, and (iii) results in the creation on or after July 1, 2009, of at least 50 new jobs by the data center operator and the tenants of the data center, collectively, associated with the operation or maintenance of the data center provided that such jobs pay at least one and one-half times the prevailing average wage in that locality. The requirement of at least 50 new jobs is reduced to 25 new jobs if the data center is located in a locality that has an unemployment rate for the preceding year of at least 150 percent of the average statewide unemployment rate for such year as determined by the Virginia Economic Development Partnership or is located in an enterprise zone. This exemption applies to the data center operator and the tenants of the data center if they collectively meet the requirements listed in this section. Prior to claiming such exemption, any qualifying person claiming the exemption, including a data center operator on behalf of itself and its tenants, must enter into a memorandum of understanding with the Virginia Economic Development Partnership Authority that at a minimum provides the details for determining the amount of capital investment made and the number of new jobs created, the timeline for achieving the capital investment and new job goals, the repayment obligations should those goals not be achieved, and any conditions under which repayment by the qualifying data center or data center tenant claiming the exemption may be required. In addition, the exemption shall apply to any such computer equipment or enabling software purchased or leased to upgrade, supplement, or replace computer equipment or enabling software purchased or leased in the initial investment. The exemption shall not apply to any other computer software otherwise taxable under Chapter 6 of Title 58.1 that is sold or leased separately from the computer equipment, nor shall it apply to general building improvements or other fixtures.

The rate of tax imposed by a county, city, or town on such machinery and tools shall not exceed the rate imposed upon the general class of tangible personal property. Idle machinery and tools are taxable as capital under § 58.1-1101.

B. Machinery and tools segregated for local taxation pursuant to subsection A, other than energy conservation equipment of manufacturers, shall be valued by means of depreciated cost or a percentage or percentages of original total capitalized cost excluding capitalized interest. In valuing machinery and tools, the commissioner of the revenue shall, upon the written request of the taxpayer, consider any bona fide, independent appraisal presented by the taxpayer.

Whenever the commissioner of the revenue proposes to change the means of valuing machinery and tools, such proposed change shall be published in a newspaper having general circulation in the affected locality at least 30 days before the proposed change would take effect and the citizens of the locality shall be allowed to submit written comments, during the 30-day period, to the commissioner of the revenue regarding the proposed change.

E. In the event that any machinery and tools taken out of use subsequent to January 1, 2007, are returned to use after having been previously classified as idle machinery and tools pursuant to clause (i) (b) of subsection D, the taxpayer shall

identify such machinery and tools to the commissioner of the revenue or other assessing official in writing on or before the next return due date without extension, and such machinery and tools shall be subject to tax in accordance with the procedures provided in § 58.1-3903 in the same manner as if such machinery and tools had been in use on the tax day of the year in which such return to use occurs. Any interest otherwise payable pursuant to applicable law or ordinance shall apply to taxes imposed pursuant to this subsection and paid after the due date, without regard to the fault of the taxpayer or lack thereof. Notwithstanding the provisions of § 58.1-3903, if the taxpayer has provided timely written notice of return to use in accordance with the provisions of this subsection, no penalty shall be levied with respect to any tax liability arising as a result of the return to use of machinery and tools classified as idle and actually idle prior to such return to use.

F. The Department of Taxation shall promulgate guidelines for the use of local governments in applying the provisions of this section related to idle machinery and tools. In preparing such guidelines, the Department shall not be subject to the provisions of the Administrative Process Act (§ 2.2-4000 et seq.) for guidelines promulgated on or before January 1, 2008, but shall cooperate with and seek the counsel of local officials and interested groups. After January 1, 2008, such guidelines shall be accorded the weight of a regulation under § 58.1-205 and any amendments to such guidelines shall be subject to the Administrative Process Act.

A. A condemnor shall not institute proceedings to condemn property until a bona fide but ineffectual effort to purchase from the owner the property sought to be condemned has been made. However, such effort shall not be required if the consent cannot be obtained because one or more of the owners (i) is a person under a disability or is otherwise unable to convey legal title to such property, (ii) is unknown, or (iii) cannot with reasonable diligence be found within this Commonwealth.

B. The written statement shall include a description of the public use ~~that provides the basis for the condemnor's acquisition~~ *for which it is necessary to acquire the owner's property* and shall contain a certification that the acquisition has been reviewed by the condemnor for purposes of complying with § 1-219.1. *The written offer shall be made upon the state agency's letterhead and shall be signed by an authorized employee of such state agency.*

Any decrease or increase in the fair market value of real property prior to the date of valuation caused by the public improvement for which such property is acquired, or by the likelihood that the property would be acquired for such improvement, other than that due to physical deterioration within the reasonable control of the owner, shall be disregarded in determining the compensation for the property. This article shall expire on June 30, 2023.

2. That the Plastic Waste Prevention Advisory Council shall submit to the Governor and the Chairs of the House Committee on Agriculture, Chesapeake and Natural Resources and the Senate Committee on Agriculture, Conservation and Natural Resources an initial report that provides recommendations on legislation to accelerate the elimination of plastic bags and polystyrene packaging used or sold in the Commonwealth no later than November 1, 2020.

CHAPTER 799

An Act to amend and reenact § 56-585.1 of the Code of Virginia, relating to electric utility regulation; energy efficiency programs; participation by industrial customers.

[H 1576]

Approved April 7, 2020

Be it enacted by the General Assembly of Virginia:

1. That § 56-585.1 of the Code of Virginia is amended and reenacted as follows:

§ 56-585.1. Generation, distribution, and transmission rates after capped rates terminate or expire.

A. During the first six months of 2009, the Commission shall, after notice and opportunity for hearing, initiate proceedings to review the rates, terms and conditions for the provision of generation, distribution and transmission services of each investor-owned incumbent electric utility. Such proceedings shall be governed by the provisions of Chapter 10 (§ 56-232 et seq.), except as modified herein. In such proceedings the Commission shall determine fair rates of return on common equity applicable to the generation and distribution services of the utility. In so doing, the Commission may use any methodology to determine such return it finds consistent with the public interest, but such return shall not be set lower than the average of the returns on common equity reported to the Securities and Exchange Commission for the three most recent annual periods for which such data are available by not less than a majority, selected by the Commission as specified in subdivision 2 b, of other investor-owned electric utilities in the peer group of the utility, nor shall the Commission set such return more than 300 basis points higher than such average. The peer group of the utility shall be determined in the manner prescribed in subdivision 2 b. The Commission may increase or decrease such combined rate of return by up to 100 basis points based on the generating plant performance, customer service, and operating efficiency of a utility, as compared to nationally recognized standards determined by the Commission to be appropriate for such purposes. In such a proceeding, the Commission shall determine the rates that the utility may charge until such rates are adjusted. If the Commission finds that the utility's combined rate of return on common equity is more than 50 basis points below the combined rate of return as so determined, it shall be authorized to order increases to the utility's rates necessary to provide the opportunity to fully recover the costs of providing the utility's services and to earn not less than such combined rate of return. If the Commission finds that the utility's combined rate of return on common equity is more than 50 basis points above the combined rate of return as so determined, it shall be authorized either (i) to order reductions to the utility's rates it finds appropriate, provided that the Commission may not order such rate reduction unless it finds that the resulting rates will provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than the fair rates of return on common equity applicable to the generation and distribution services; or (ii) to direct that 60 percent of the amount of the utility's earnings that were more than 50 basis points above the fair combined rate of return for calendar year 2008 be credited to customers' bills, in which event such credits shall be amortized over a period of six to 12 months, as determined at the discretion of the Commission, following the effective date of the Commission's order and be allocated among customer classes such that the relationship between the specific customer class rates of return to the overall target rate of return will have the same relationship as the last approved allocation of revenues used to design base rates. Commencing in 2011, the Commission, after notice and opportunity for hearing, shall conduct reviews of the rates, terms and conditions for the provision of generation, distribution and transmission services by each investor-owned incumbent electric utility, subject to the following provisions:

1. Rates, terms and conditions for each service shall be reviewed separately on an unbundled basis, and such reviews shall be conducted in a single, combined proceeding. Pursuant to subsection A of § 56-585.1:1, the Commission shall

conduct a review for a Phase I Utility in 2020, utilizing the three successive 12-month test periods beginning January 1, 2017, and ending December 31, 2019. Thereafter, reviews for a Phase I Utility will be on a triennial basis with subsequent proceedings utilizing the three successive 12-month test periods ending December 31 immediately preceding the year in which such review proceeding is conducted. Pursuant to subsection A of § 56-585.1:1, the Commission shall conduct a review for a Phase II Utility in 2021, utilizing the four successive 12-month test periods beginning January 1, 2017, and ending December 31, 2020, with subsequent reviews on a triennial basis utilizing the three successive 12-month test periods ending December 31 immediately preceding the year in which such review proceeding is conducted. All such reviews occurring after December 31, 2017, shall be referred to as triennial reviews. For purposes of this section, a Phase I Utility is an investor-owned incumbent electric utility that was, as of July 1, 1999, not bound by a rate case settlement adopted by the Commission that extended in its application beyond January 1, 2002, and a Phase II Utility is an investor-owned incumbent electric utility that was bound by such a settlement.

2. Subject to the provisions of subdivision 6, the fair rate of return on common equity applicable separately to the generation and distribution services of such utility, and for the two such services combined, and for any rate adjustment clauses approved under subdivision 5 or 6, shall be determined by the Commission during each such triennial review, as follows:

a. The Commission may use any methodology to determine such return it finds consistent with the public interest, but such return shall not be set lower than the average of the returns on common equity reported to the Securities and Exchange Commission for the three most recent annual periods for which such data are available by not less than a majority, selected by the Commission as specified in subdivision 2 b, of other investor-owned electric utilities in the peer group of the utility subject to such triennial review, nor shall the Commission set such return more than 300 basis points higher than such average.

b. In selecting such majority of peer group investor-owned electric utilities, the Commission shall first remove from such group the two utilities within such group that have the lowest reported returns of the group, as well as the two utilities within such group that have the highest reported returns of the group, and the Commission shall then select a majority of the utilities remaining in such peer group. In its final order regarding such triennial review, the Commission shall identify the utilities in such peer group it selected for the calculation of such limitation. For purposes of this subdivision, an investor-owned electric utility shall be deemed part of such peer group if (i) its principal operations are conducted in the southeastern United States east of the Mississippi River in either the states of West Virginia or Kentucky or in those states south of Virginia, excluding the state of Tennessee, (ii) it is a vertically-integrated electric utility providing generation, transmission and distribution services whose facilities and operations are subject to state public utility regulation in the state where its principal operations are conducted, (iii) it had a long-term bond rating assigned by Moody's Investors Service of at least Baa at the end of the most recent test period subject to such triennial review, and (iv) it is not an affiliate of the utility subject to such triennial review.

c. The Commission may, consistent with its precedent for incumbent electric utilities prior to the enactment of Chapters 888 and 933 of the Acts of Assembly of 2007, increase or decrease the utility's combined rate of return based on the Commission's consideration of the utility's performance.

d. In any Current Proceeding, the Commission shall determine whether the Current Return has increased, on a percentage basis, above the Initial Return by more than the increase, expressed as a percentage, in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, since the date on which the Commission determined the Initial Return. If so, the Commission may conduct an additional analysis of whether it is in the public interest to utilize such Current Return for the Current Proceeding then pending. A finding of whether the Current Return justifies such additional analysis shall be made without regard to any enhanced rate of return on common equity awarded pursuant to the provisions of subdivision 6. Such additional analysis shall include, but not be limited to, a consideration of overall economic conditions, the level of interest rates and cost of capital with respect to business and industry, in general, as well as electric utilities, the current level of inflation and the utility's cost of goods and services, the effect on the utility's ability to provide adequate service and to attract capital if less than the Current Return were utilized for the Current Proceeding then pending, and such other factors as the Commission may deem relevant. If, as a result of such analysis, the Commission finds that use of the Current Return for the Current Proceeding then pending would not be in the public interest, then the lower limit imposed by subdivision 2 a on the return to be determined by the Commission for such utility shall be calculated, for that Current Proceeding only, by increasing the Initial Return by a percentage at least equal to the increase, expressed as a percentage, in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, since the date on which the Commission determined the Initial Return. For purposes of this subdivision:

"Current Proceeding" means any proceeding conducted under any provisions of this subsection that require or authorize the Commission to determine a fair combined rate of return on common equity for a utility and that will be concluded after the date on which the Commission determined the Initial Return for such utility.

"Current Return" means the minimum fair combined rate of return on common equity required for any Current Proceeding by the limitation regarding a utility's peer group specified in subdivision 2 a.

"Initial Return" means the fair combined rate of return on common equity determined for such utility by the Commission on the first occasion after July 1, 2009, under any provision of this subsection pursuant to the provisions of subdivision 2 a.

e. In addition to other considerations, in setting the return on equity within the range allowed by this section, the Commission shall strive to maintain costs of retail electric energy that are cost competitive with costs of retail electric energy provided by the other peer group investor-owned electric utilities.

f. The determination of such returns shall be made by the Commission on a stand-alone basis, and specifically without regard to any return on common equity or other matters determined with regard to facilities described in subdivision 6.

g. If the combined rate of return on common equity earned by the generation and distribution services is no more than 50 basis points above or below the return as so determined or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, such return is no more than 70 basis points above or below the return as so determined, such combined return shall not be considered either excessive or insufficient, respectively. However, for any test period commencing after December 31, 2012, for a Phase II Utility, and after December 31, 2013, for a Phase I Utility, if the utility has, during the test period or periods under review, earned below the return as so determined, whether or not such combined return is within 70 basis points of the return as so determined, the utility may petition the Commission for approval of an increase in rates in accordance with the provisions of subdivision 8 a as if it had earned more than 70 basis points below a fair combined rate of return, and such proceeding shall otherwise be conducted in accordance with the provisions of this section. The provisions of this subdivision are subject to the provisions of subdivision 8.

h. Any amount of a utility's earnings directed by the Commission to be credited to customers' bills pursuant to this section shall not be considered for the purpose of determining the utility's earnings in any subsequent triennial review.

3. Each such utility shall make a triennial filing by March 31 of every third year, with such filings commencing for a Phase I Utility in 2020, and such filings commencing for a Phase II Utility in 2021, consisting of the schedules contained in the Commission's rules governing utility rate increase applications. Such filing shall encompass the three successive 12-month test periods ending December 31 immediately preceding the year in which such proceeding is conducted, except that the filing for a Phase II Utility in 2021 shall encompass the four successive 12-month test periods ending December 31, 2020, and in every such case the filing for each year shall be identified separately and shall be segregated from any other year encompassed by the filing. If the Commission determines that rates should be revised or credits be applied to customers' bills pursuant to subdivision 8 or 9, any rate adjustment clauses previously implemented related to facilities utilizing simple-cycle combustion turbines described in subdivision 6, shall be combined with the utility's costs, revenues and investments until the amounts that are the subject of such rate adjustment clauses are fully recovered. The Commission shall combine such clauses with the utility's costs, revenues and investments only after it makes its initial determination with regard to necessary rate revisions or credits to customers' bills, and the amounts thereof, but after such clauses are combined as herein specified, they shall thereafter be considered part of the utility's costs, revenues, and investments for the purposes of future triennial review proceedings. In a triennial filing under this subdivision that does not result in an overall rate change a utility may propose an adjustment to one or more tariffs that are revenue neutral to the utility.

4. (Expires December 31, 2023) The following costs incurred by the utility shall be deemed reasonable and prudent: (i) costs for transmission services provided to the utility by the regional transmission entity of which the utility is a member, as determined under applicable rates, terms and conditions approved by the Federal Energy Regulatory Commission; (ii) costs charged to the utility that are associated with demand response programs approved by the Federal Energy Regulatory Commission and administered by the regional transmission entity of which the utility is a member; and (iii) costs incurred by the utility to construct, operate, and maintain transmission lines and substations installed in order to provide service to a business park. Upon petition of a utility at any time after the expiration or termination of capped rates, but not more than once in any 12-month period, the Commission shall approve a rate adjustment clause under which such costs, including, without limitation, costs for transmission service; charges for new and existing transmission facilities, including costs incurred by the utility to construct, operate, and maintain transmission lines and substations installed in order to provide service to a business park; administrative charges; and ancillary service charges designed to recover transmission costs, shall be recovered on a timely and current basis from customers. Retail rates to recover these costs shall be designed using the appropriate billing determinants in the retail rate schedules.

4. (Effective January 1, 2024) The following costs incurred by the utility shall be deemed reasonable and prudent: (i) costs for transmission services provided to the utility by the regional transmission entity of which the utility is a member, as determined under applicable rates, terms and conditions approved by the Federal Energy Regulatory Commission, and (ii) costs charged to the utility that are associated with demand response programs approved by the Federal Energy Regulatory Commission and administered by the regional transmission entity of which the utility is a member. Upon petition of a utility at any time after the expiration or termination of capped rates, but not more than once in any 12-month period, the Commission shall approve a rate adjustment clause under which such costs, including, without limitation, costs for transmission service, charges for new and existing transmission facilities, administrative charges, and ancillary service charges designed to recover transmission costs, shall be recovered on a timely and current basis from customers. Retail rates to recover these costs shall be designed using the appropriate billing determinants in the retail rate schedules.

5. A utility may at any time, after the expiration or termination of capped rates, but not more than once in any 12-month period, petition the Commission for approval of one or more rate adjustment clauses for the timely and current recovery from customers of the following costs:

a. Incremental costs described in clause (vi) of subsection B of § 56-582 incurred between July 1, 2004, and the expiration or termination of capped rates, if such utility is, as of July 1, 2007, deferring such costs consistent with an order of the Commission entered under clause (vi) of subsection B of § 56-582. The Commission shall approve such a petition allowing the recovery of such costs that comply with the requirements of clause (vi) of subsection B of § 56-582;

b. Projected and actual costs for the utility to design and operate fair and effective peak-shaving programs. The Commission shall approve such a petition if it finds that the program is in the public interest; provided that the Commission shall allow the recovery of such costs as it finds are reasonable;

c. Projected and actual costs for the utility to design, implement, and operate energy efficiency programs, including a margin to be recovered on operating expenses, which margin for the purposes of this section shall be equal to the general rate of return on common equity determined as described in subdivision 2. Any such petition shall include a proposed budget for the design, implementation, and operation of the energy efficiency program. The Commission shall only approve such a petition if it finds that the program is in the public interest. If the Commission determines that an energy efficiency program or portfolio of programs is not in the public interest, its final order shall include all work product and analysis conducted by the Commission's staff in relation to that program that has bearing upon the Commission's determination. Such order shall adhere to existing protocols for extraordinarily sensitive information. As part of such cost recovery, the Commission, if requested by the utility, shall allow for the recovery of revenue reductions related to energy efficiency programs. The Commission shall only allow such recovery to the extent that the Commission determines such revenue has not been recovered through margins from incremental off-system sales as defined in § 56-249.6 that are directly attributable to energy efficiency programs.

~~None of the costs of new energy efficiency programs of an electric utility, including recovery of revenue reductions, shall be assigned to any large general service customer. As used in this subdivision, "large general service customer" means a customer that has a verifiable history of having used more than 500 kilowatts one megawatt of demand from a single meter of delivery site.~~

Large general service customers shall be exempt from requirements that they participate in energy efficiency programs if the Commission finds that the large general service customer has, at the customer's own expense, implemented energy efficiency programs that have produced or will produce measured and verified results consistent with industry standards and other regulatory criteria stated in this section. The Commission shall, no later than June 30, 2021, adopt rules or regulations (i) establishing the process for large general service customers to apply for such an exemption, (ii) establishing the administrative procedures by which eligible customers will notify the utility, and (iii) defining the standard criteria that shall be satisfied by an applicant in order to notify the utility, including means of evaluation measurement and verification and confidentiality requirements. At a minimum, such rules and regulations shall require that each exempted large general service customer certify to the utility and Commission that its implemented energy efficiency programs have delivered measured and verified savings within the prior five years. In adopting such rules or regulations, the Commission shall also specify the timing as to when a utility shall accept and act on such notice, taking into consideration the utility's integrated resource planning process, as well as its administration of energy efficiency programs that are approved for cost recovery by the Commission. Savings from large general service customers shall be accounted for in utility reporting in the standards in § 56-596.2.

The notice of nonparticipation by a large general service customer shall be for the duration of the service life of the customer's energy efficiency measures. The Commission may on its own motion initiate steps necessary to verify such nonparticipant's achievement of energy efficiency if the Commission has a body of evidence that the nonparticipant has knowingly misrepresented its energy efficiency achievement. A utility shall not charge such large general service customer, as defined by the Commission, for the costs of installing energy efficiency equipment beyond what is required to provide electric service and meter such service on the customer's premises if the customer provides, at the customer's expense, equivalent energy efficiency equipment. In all relevant proceedings pursuant to this section, the Commission shall take into consideration the goals of economic development, energy efficiency and environmental protection in the Commonwealth;

d. Projected and actual costs of participation in a renewable energy portfolio standard program pursuant to § 56-585.2 that are not recoverable under subdivision 6. The Commission shall approve such a petition allowing the recovery of such costs as are provided for in a program approved pursuant to § 56-585.2;

e. Projected and actual costs of projects that the Commission finds to be necessary to comply with state or federal environmental laws or regulations applicable to generation facilities used to serve the utility's native load obligations. The Commission shall approve such a petition if it finds that such costs are necessary to comply with such environmental laws or regulations; and

f. Projected and actual costs, not currently in rates, for the utility to design, implement, and operate programs approved by the Commission that accelerate the vegetation management of distribution rights-of-way. No costs shall be allocated to or recovered from customers that are served within the large general service rate classes for a Phase II Utility or that are served at subtransmission or transmission voltage, or take delivery at a substation served from subtransmission or transmission voltage, for a Phase I Utility.

Any rate adjustment clause approved under subdivision 5 c by the Commission shall remain in effect until the utility exhausts the approved budget for the energy efficiency program. The Commission shall have the authority to determine the duration or amortization period for any other rate adjustment clause approved under this subdivision.

6. To ensure the generation and delivery of a reliable and adequate supply of electricity, to meet the utility's projected native load obligations and to promote economic development, a utility may at any time, after the expiration or termination of capped rates, petition the Commission for approval of a rate adjustment clause for recovery on a timely and current basis from customers of the costs of (i) a coal-fueled generation facility that utilizes Virginia coal and is located in the coalfield region of the Commonwealth as described in § 15.2-6002, regardless of whether such facility is located within or without the utility's service territory, (ii) one or more other generation facilities, (iii) one or more major unit modifications of generation facilities, including the costs of any system or equipment upgrade, system or equipment replacement, or other cost reasonably appropriate to extend the combined operating license for or the operating life of one or more generation facilities utilizing nuclear power, (iv) one or more new underground facilities to replace one or more existing overhead distribution facilities of 69 kilovolts or less located within the Commonwealth, (v) one or more pumped hydroelectricity generation and storage facilities that utilize on-site or off-site renewable energy resources as all or a portion of their power source and such facilities and associated resources are located in the coalfield region of the Commonwealth as described in § 15.2-6002, regardless of whether such facility is located within or without the utility's service territory, or (vi) one or more electric distribution grid transformation projects; however, subject to the provisions of the following sentence, the utility shall not file a petition under clause (iv) more often than annually and, in such petition, shall not seek any annual incremental increase in the level of investments associated with such a petition that exceeds five percent of such utility's distribution rate base, as such rate base was determined for the most recently ended 12-month test period in the utility's latest review proceeding conducted pursuant to subdivision 3 and concluded by final order of the Commission prior to the date of filing of such petition under clause (iv). In all proceedings regarding petitions filed under clause (iv) or (vi), the level of investments approved for recovery in such proceedings shall be in addition to, and not in lieu of, levels of investments previously approved for recovery in prior proceedings under clause (iv) or (vi), as applicable. As of December 1, 2028, any costs recovered by a utility pursuant to clause (iv) shall be limited to any remaining costs associated with conversions of overhead distribution facilities to underground facilities that have been previously approved or are pending approval by the Commission through a petition by the utility under this subdivision. Such a petition concerning facilities described in clause (ii) that utilize nuclear power, facilities described in clause (ii) that are coal-fueled and will be built by a Phase I Utility, or facilities described in clause (i) may also be filed before the expiration or termination of capped rates. A utility that constructs or makes modifications to any such facility, or purchases any facility consisting of at least one megawatt of generating capacity using energy derived from sunlight and located in the Commonwealth and that utilizes goods or services sourced, in whole or in part, from one or more Virginia businesses, shall have the right to recover the costs of the facility, as accrued against income, through its rates, including projected construction work in progress, and any associated allowance for funds used during construction, planning, development and construction or acquisition costs, life-cycle costs, costs related to assessing the feasibility of potential sites for new underground facilities, and costs of infrastructure associated therewith, plus, as an incentive to undertake such projects, an enhanced rate of return on common equity calculated as specified below; however, in determining the amounts recoverable under a rate adjustment clause for new underground facilities, the Commission shall not consider, or increase or reduce such amounts recoverable because of (a) the operation and maintenance costs attributable to either the overhead distribution facilities being replaced or the new underground facilities or (b) any other costs attributable to the overhead distribution facilities being replaced. Notwithstanding the preceding sentence, the costs described in clauses (a) and (b) thereof shall remain eligible for recovery from customers through the utility's base rates for distribution service. A utility filing a petition for approval to construct or purchase a facility consisting of at least one megawatt of generating capacity using energy derived from sunlight and located in the Commonwealth and that utilizes goods or services sourced, in whole or in part, from one or more Virginia businesses may propose a rate adjustment clause based on a market index in lieu of a cost of service model for such facility. A utility seeking approval to construct or purchase a generating facility described in clause (i) or (ii) shall demonstrate that it has considered and weighed alternative options, including third-party market alternatives, in its selection process. The costs of the facility, other than return on projected construction work in progress and allowance for funds used during construction, shall not be recovered prior to the date a facility constructed by the utility and described in clause (i), (ii), (iii) or (v) begins commercial operation, the date the utility becomes the owner of a purchased generation facility consisting of at least one megawatt of generating capacity using energy derived from sunlight and located in the Commonwealth and that utilizes goods or services sourced, in whole or in part, from one or more Virginia businesses, or the date new underground facilities are classified by the utility as plant in service.

Such enhanced rate of return on common equity shall be applied to allowance for funds used during construction and to construction work in progress during the construction phase of the facility and shall thereafter be applied to the entire facility during the first portion of the service life of the facility. The first portion of the service life shall be as specified in the table below; however, the Commission shall determine the duration of the first portion of the service life of any facility, within the range specified in the table below, which determination shall be consistent with the public interest and shall reflect the Commission's determinations regarding how critical the facility may be in meeting the energy needs of the citizens of the Commonwealth and the risks involved in the development of the facility. After the first portion of the service life of the facility is concluded, the utility's general rate of return shall be applied to such facility for the remainder of its

service life. As used herein, the service life of the facility shall be deemed to begin on the date a facility constructed by the utility and described in clause (i), (ii), (iii) or (v) begins commercial operation, the date the utility becomes the owner of a purchased generation facility consisting of at least one megawatt of generating capacity using energy derived from sunlight and located in the Commonwealth and that utilizes goods or services sourced, in whole or in part, from one or more Virginia businesses, or the date new underground facilities or new electric distribution grid transformation projects are classified by the utility as plant in service, and such service life shall be deemed equal in years to the life of that facility as used to calculate the utility's depreciation expense. Such enhanced rate of return on common equity shall be calculated by adding the basis points specified in the table below to the utility's general rate of return, and such enhanced rate of return shall apply only to the facility that is the subject of such rate adjustment clause. Allowance for funds used during construction shall be calculated for any such facility utilizing the utility's actual capital structure and overall cost of capital, including an enhanced rate of return on common equity as determined pursuant to this subdivision, until such construction work in progress is included in rates. The construction of any facility described in clause (i) or (v) is in the public interest, and in determining whether to approve such facility, the Commission shall liberally construe the provisions of this title. The construction or purchase by a utility of one or more generation facilities with at least one megawatt of generating capacity, and with an aggregate rated capacity that does not exceed 5,000 megawatts, including rooftop solar installations with a capacity of not less than 50 kilowatts, and with an aggregate capacity of 50 megawatts, that use energy derived from sunlight or from wind and are located in the Commonwealth or off the Commonwealth's Atlantic shoreline, regardless of whether any of such facilities are located within or without the utility's service territory, is in the public interest, and in determining whether to approve such facility, the Commission shall liberally construe the provisions of this title. A utility may enter into short-term or long-term power purchase contracts for the power derived from sunlight generated by such generation facility prior to purchasing the generation facility. The replacement of any subset of a utility's existing overhead distribution tap lines that have, in the aggregate, an average of nine or more total unplanned outage events-per-mile over a preceding 10-year period with new underground facilities in order to improve electric service reliability is in the public interest. In determining whether to approve petitions for rate adjustment clauses for such new underground facilities that meet this criteria, and in determining the level of costs to be recovered thereunder, the Commission shall liberally construe the provisions of this title.

The conversion of any such facilities on or after September 1, 2016, is deemed to provide local and system-wide benefits and to be cost beneficial, and the costs associated with such new underground facilities are deemed to be reasonably and prudently incurred and, notwithstanding the provisions of subsection C or D, shall be approved for recovery by the Commission pursuant to this subdivision, provided that the total costs associated with the replacement of any subset of existing overhead distribution tap lines proposed by the utility with new underground facilities, exclusive of financing costs, shall not exceed an average cost per customer of \$20,000, with such customers, including those served directly by or downline of the tap lines proposed for conversion, and, further, such total costs shall not exceed an average cost per mile of tap lines converted, exclusive of financing costs, of \$750,000. A utility shall, without regard for whether it has petitioned for any rate adjustment clause pursuant to clause (vi), petition the Commission, not more than once annually, for approval of a plan for electric distribution grid transformation projects. Any plan for electric distribution grid transformation projects shall include both measures to facilitate integration of distributed energy resources and measures to enhance physical electric distribution grid reliability and security. In ruling upon such a petition, the Commission shall consider whether the utility's plan for such projects, and the projected costs associated therewith, are reasonable and prudent. Such petition shall be considered on a stand-alone basis without regard to the other costs, revenues, investments, or earnings of the utility; without regard to whether the costs associated with such projects will be recovered through a rate adjustment clause under this subdivision or through the utility's rates for generation and distribution services; and without regard to whether such costs will be the subject of a customer credit offset, as applicable, pursuant to subdivision 8 d. The Commission's final order regarding any such petition for approval of an electric distribution grid transformation plan shall be entered by the Commission not more than six months after the date of filing such petition. The Commission shall likewise enter its final order with respect to any petition by a utility for a certificate to construct and operate a generating facility or facilities utilizing energy derived from sunlight, pursuant to subsection D of § 56-580, within six months after the date of filing such petition. The basis points to be added to the utility's general rate of return to calculate the enhanced rate of return on common equity, and the first portion of that facility's service life to which such enhanced rate of return shall be applied, shall vary by type of facility, as specified in the following table:

Type of Generation Facility	Basis Points	First Portion of Service Life
Nuclear-powered	200	Between 12 and 25 years
Carbon capture compatible, clean-coal powered	200	Between 10 and 20 years
Renewable powered, other than landfill gas powered	200	Between 5 and 15 years
Coalbed methane gas powered	150	Between 5 and 15 years
Landfill gas powered	200	Between 5 and 15 years
Conventional coal or combined-cycle combustion turbine	100	Between 10 and 20 years

For generating facilities other than those utilizing nuclear power constructed pursuant to clause (ii) or those utilizing energy derived from offshore wind, as of July 1, 2013, only those facilities as to which a rate adjustment clause under this subdivision has been previously approved by the Commission, or as to which a petition for approval of such rate adjustment clause was filed with the Commission, on or before January 1, 2013, shall be entitled to the enhanced rate of return on common equity as specified in the above table during the construction phase of the facility and the approved first portion of its service life.

For generating facilities within the Commonwealth utilizing nuclear power or those utilizing energy derived from offshore wind projects located in waters off the Commonwealth's Atlantic shoreline, such facilities shall continue to be eligible for an enhanced rate of return on common equity during the construction phase of the facility and the approved first portion of its service life of between 12 and 25 years in the case of a facility utilizing nuclear power and for a service life of between 5 and 15 years in the case of a facility utilizing energy derived from offshore wind, provided, however, that, as of July 1, 2013, the enhanced return for such facilities constructed pursuant to clause (ii) shall be 100 basis points, which shall be added to the utility's general rate of return as determined under subdivision 2. Thirty percent of all costs of such a facility utilizing nuclear power that the utility incurred between July 1, 2007, and December 31, 2013, and all of such costs incurred after December 31, 2013, may be deferred by the utility and recovered through a rate adjustment clause under this subdivision at such time as the Commission provides in an order approving such a rate adjustment clause. The remaining 70 percent of all costs of such a facility that the utility incurred between July 1, 2007, and December 31, 2013, shall not be deferred for recovery through a rate adjustment clause under this subdivision; however, such remaining 70 percent of all costs shall be recovered ratably through existing base rates as determined by the Commission in the test periods under review in the utility's next review filed after July 1, 2014. Thirty percent of all costs of such a facility utilizing energy derived from offshore wind that the utility incurred between July 1, 2007, and December 31, 2013, and all of such costs incurred after December 31, 2013, may be deferred by the utility and recovered through a rate adjustment clause under this subdivision at such time as the Commission provides in an order approving such a rate adjustment clause. The remaining 70 percent of all costs of such a facility that the utility incurred between July 1, 2007, and December 31, 2013, shall not be deferred for recovery through a rate adjustment clause under this subdivision; however, such remaining 70 percent of all costs shall be recovered ratably through existing base rates as determined by the Commission in the test periods under review in the utility's next review filed after July 1, 2014.

In connection with planning to meet forecasted demand for electric generation supply and assure the adequate and sufficient reliability of service, consistent with § 56-598, planning and development activities for a new nuclear generation facility or facilities are in the public interest.

In connection with planning to meet forecasted demand for electric generation supply and assure the adequate and sufficient reliability of service, consistent with § 56-598, planning and development activities for a new utility-owned and utility-operated generating facility or facilities utilizing energy derived from sunlight or from onshore or offshore wind are in the public interest.

Construction, purchasing, or leasing activities for a new utility-owned and utility-operated generating facility or facilities utilizing energy derived from sunlight or from wind with an aggregate capacity of 5,000 megawatts, including rooftop solar installations with a capacity of not less than 50 kilowatts, and with an aggregate capacity of 50 megawatts, together with a new test or demonstration project for a utility-owned and utility-operated generating facility or facilities utilizing energy derived from offshore wind with an aggregate capacity of not more than 16 megawatts, are in the public interest. To the extent that a utility elects to recover the costs of any such new generation facility or facilities through its rates for generation and distribution services and does not petition and receive approval from the Commission for recovery of such costs through a rate adjustment clause described in clause (ii), the Commission shall, upon the request of the utility in a triennial review proceeding, provide for a customer credit reinvestment offset, as applicable, pursuant to subdivision 8 d with respect to all costs deemed reasonable and prudent by the Commission in a proceeding pursuant to subsection D of § 56-580 or in a triennial review proceeding.

Electric distribution grid transformation projects are in the public interest. To the extent that a utility elects to recover the costs of such electric distribution grid transformation projects through its rates for generation and distribution services, and does not petition and receive approval from the Commission for recovery of such costs through a rate adjustment clause described in clause (vi), the Commission shall, upon the request of the utility in a triennial review proceeding, provide for a customer credit reinvestment offset, as applicable, pursuant to subdivision 8 d with respect to all costs deemed reasonable and prudent by the Commission in a proceeding for approval of a plan for electric distribution grid transformation projects pursuant to subdivision 6 or in a triennial review proceeding.

Neither generation facilities described in clause (ii) that utilize simple-cycle combustion turbines nor new underground facilities shall receive an enhanced rate of return on common equity as described herein, but instead shall receive the utility's general rate of return during the construction phase of the facility and, thereafter, for the entire service life of the facility. No rate adjustment clause for new underground facilities shall allocate costs to, or provide for the recovery of costs from, customers that are served within the large power service rate class for a Phase I Utility and the large general service rate classes for a Phase II Utility. New underground facilities are hereby declared to be ordinary extensions or improvements in the usual course of business under the provisions of § 56-265.2.

As used in this subdivision, a generation facility is (1) "coalbed methane gas powered" if the facility is fired at least 50 percent by coalbed methane gas, as such term is defined in § 45.1-361.1, produced from wells located in the

Commonwealth, and (2) "landfill gas powered" if the facility is fired by methane or other combustible gas produced by the anaerobic digestion or decomposition of biodegradable materials in a solid waste management facility licensed by the Waste Management Board. A landfill gas powered facility includes, in addition to the generation facility itself, the equipment used in collecting, drying, treating, and compressing the landfill gas and in transmitting the landfill gas from the solid waste management facility where it is collected to the generation facility where it is combusted.

For purposes of this subdivision, "general rate of return" means the fair combined rate of return on common equity as it is determined by the Commission for such utility pursuant to subdivision 2.

Notwithstanding any other provision of this subdivision, if the Commission finds during the triennial review conducted for a Phase II Utility in 2021 that such utility has not filed applications for all necessary federal and state regulatory approvals to construct one or more nuclear-powered or coal-fueled generation facilities that would add a total capacity of at least 1500 megawatts to the amount of the utility's generating resources as such resources existed on July 1, 2007, or that, if all such approvals have been received, that the utility has not made reasonable and good faith efforts to construct one or more such facilities that will provide such additional total capacity within a reasonable time after obtaining such approvals, then the Commission, if it finds it in the public interest, may reduce on a prospective basis any enhanced rate of return on common equity previously applied to any such facility to no less than the general rate of return for such utility and may apply no less than the utility's general rate of return to any such facility for which the utility seeks approval in the future under this subdivision.

Notwithstanding any other provision of this subdivision, if a Phase II utility obtains approval from the Commission of a rate adjustment clause pursuant to subdivision 6 associated with a test or demonstration project involving a generation facility utilizing energy from offshore wind, and such utility has not, as of July 1, 2023, commenced construction as defined for federal income tax purposes of an offshore wind generation facility or facilities with a minimum aggregate capacity of 250 megawatts, then the Commission, if it finds it in the public interest, may direct that the costs associated with any such rate adjustment clause involving said test or demonstration project shall thereafter no longer be recovered through a rate adjustment clause pursuant to subdivision 6 and shall instead be recovered through the utility's rates for generation and distribution services, with no change in such rates for generation and distribution services as a result of the combination of such costs with the other costs, revenues, and investments included in the utility's rates for generation and distribution services. Any such costs shall remain combined with the utility's other costs, revenues, and investments included in its rates for generation and distribution services until such costs are fully recovered.

7. Any petition filed pursuant to subdivision 4, 5, or 6 shall be considered by the Commission on a stand-alone basis without regard to the other costs, revenues, investments, or earnings of the utility. Any costs incurred by a utility prior to the filing of such petition, or during the consideration thereof by the Commission, that are proposed for recovery in such petition and that are related to subdivision 5 a, or that are related to facilities and projects described in clause (i) of subdivision 6, or that are related to new underground facilities described in clause (iv) of subdivision 6, shall be deferred on the books and records of the utility until the Commission's final order in the matter, or until the implementation of any applicable approved rate adjustment clauses, whichever is later. Except as otherwise provided in subdivision 6, any costs prudently incurred on or after July 1, 2007, by a utility prior to the filing of such petition, or during the consideration thereof by the Commission, that are proposed for recovery in such petition and that are related to facilities and projects described in clause (ii) or clause (iii) of subdivision 6 that utilize nuclear power, or coal-fueled facilities and projects described in clause (ii) of subdivision 6 if such coal-fueled facilities will be built by a Phase I Utility, shall be deferred on the books and records of the utility until the Commission's final order in the matter, or until the implementation of any applicable approved rate adjustment clauses, whichever is later. Any costs prudently incurred after the expiration or termination of capped rates related to other matters described in subdivision 4, 5, or 6 shall be deferred beginning only upon the expiration or termination of capped rates, provided, however, that no provision of this act shall affect the rights of any parties with respect to the rulings of the Federal Energy Regulatory Commission in PJM Interconnection LLC and Virginia Electric and Power Company, 109 F.E.R.C. P 61,012 (2004). A utility shall establish a regulatory asset for regulatory accounting and ratemaking purposes under which it shall defer its operation and maintenance costs incurred in connection with (i) the refueling of any nuclear-powered generating plant and (ii) other work at such plant normally performed during a refueling outage. The utility shall amortize such deferred costs over the refueling cycle, but in no case more than 18 months, beginning with the month in which such plant resumes operation after such refueling. The refueling cycle shall be the applicable period of time between planned refueling outages for such plant. As of January 1, 2014, such amortized costs are a component of base rates, recoverable in base rates only ratably over the refueling cycle rather than when such outages occur, and are the only nuclear refueling costs recoverable in base rates. This provision shall apply to any nuclear-powered generating plant refueling outage commencing after December 31, 2013, and the Commission shall treat the deferred and amortized costs of such regulatory asset as part of the utility's costs for the purpose of proceedings conducted (a) with respect to triennial filings under subdivision 3 made on and after July 1, 2014, and (b) pursuant to § 56-245 or the Commission's rules governing utility rate increase applications as provided in subsection B. This provision shall not be deemed to change or reset base rates.

The Commission's final order regarding any petition filed pursuant to subdivision 4, 5, or 6 shall be entered not more than three months, eight months, and nine months, respectively, after the date of filing of such petition. If such petition is approved, the order shall direct that the applicable rate adjustment clause be applied to customers' bills not more than 60 days after the date of the order, or upon the expiration or termination of capped rates, whichever is later.

8. In any triennial review proceeding, for the purposes of reviewing earnings on the utility's rates for generation and distribution services, the following utility generation and distribution costs not proposed for recovery under any other subdivision of this subsection, as recorded per books by the utility for financial reporting purposes and accrued against income, shall be attributed to the test periods under review and deemed fully recovered in the period recorded: costs associated with asset impairments related to early retirement determinations made by the utility for utility generation facilities fueled by coal, natural gas, or oil or for automated meter reading electric distribution service meters; costs associated with projects necessary to comply with state or federal environmental laws, regulations, or judicial or administrative orders relating to coal combustion by-product management that the utility does not petition to recover through a rate adjustment clause pursuant to subdivision 5 e; costs associated with severe weather events; and costs associated with natural disasters. Such costs shall be deemed to have been recovered from customers through rates for generation and distribution services in effect during the test periods under review unless such costs, individually or in the aggregate, together with the utility's other costs, revenues, and investments to be recovered through rates for generation and distribution services, result in the utility's earned return on its generation and distribution services for the combined test periods under review to fall more than 50 basis points below the fair combined rate of return authorized under subdivision 2 for such periods or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, to fall more than 70 basis points below the fair combined rate of return authorized under subdivision 2 for such periods. In such cases, the Commission shall, in such triennial review proceeding, authorize deferred recovery of such costs and allow the utility to amortize and recover such deferred costs over future periods as determined by the Commission. The aggregate amount of such deferred costs shall not exceed an amount that would, together with the utility's other costs, revenues, and investments to be recovered through rates for generation and distribution services, cause the utility's earned return on its generation and distribution services to exceed the fair rate of return authorized under subdivision 2, less 50 basis points, for the combined test periods under review or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, to exceed the fair rate of return authorized under subdivision 2 less 70 basis points. Nothing in this section shall limit the Commission's authority, pursuant to the provisions of Chapter 10 (§ 56-232 et seq.), including specifically § 56-235.2, following the review of combined test period earnings of the utility in a triennial review, for normalization of nonrecurring test period costs and annualized adjustments for future costs, in determining any appropriate increase or decrease in the utility's rates for generation and distribution services pursuant to subdivision 8 a or 8 c.

If the Commission determines as a result of such triennial review that:

a. The utility has, during the test period or periods under review, considered as a whole, earned more than 50 basis points below a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points below a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, the Commission shall order increases to the utility's rates necessary to provide the opportunity to fully recover the costs of providing the utility's services and to earn not less than such fair combined rate of return, using the most recently ended 12-month test period as the basis for determining the amount of the rate increase necessary. However, in the first triennial review proceeding conducted after January 1, 2021, for a Phase II Utility, the Commission may not order a rate increase, and in all triennial reviews of a Phase I or Phase II utility, the Commission may not order such rate increase unless it finds that the resulting rates are necessary to provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than a fair combined rate of return on both its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, using the most recently ended 12-month test period as the basis for determining the permissibility of any rate increase under the standards of this sentence, and the amount thereof; and provided that, solely in connection with making its determination concerning the necessity for such a rate increase or the amount thereof, the Commission shall, in any triennial review proceeding conducted prior to July 1, 2028, exclude from this most recently ended 12-month test period any remaining investment levels associated with a prior customer credit reinvestment offset pursuant to subdivision d.

b. The utility has, during the test period or test periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, the Commission shall, subject to the provisions of subdivisions 8 d and 9, direct that 60 percent of the amount of such earnings that were more than 50 basis points, or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, that 70 percent of the amount of such earnings that were more than 70 basis points, above such fair combined rate of return for the test period or periods under review, considered as a whole, shall be credited to customers' bills. Any such credits shall be amortized over a period of six to 12 months, as determined at the discretion of the Commission, following the effective date of the Commission's order, and shall be allocated among customer classes such that the relationship between the specific customer class rates of return to the overall target rate of return will have the same relationship as the last approved allocation of revenues used to design base rates; or

c. In any triennial review proceeding conducted after January 1, 2020, for a Phase I Utility or after January 1, 2021, for a Phase II Utility in which the utility has, during the test period or test periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matter determined with respect to facilities described in subdivision 6, and the combined aggregate level of capital investment that the Commission has approved other than those capital investments that the Commission has approved for recovery pursuant to a rate adjustment clause pursuant to subdivision 6 made by the utility during the test periods under review in that triennial review proceeding in new utility-owned generation facilities utilizing energy derived from sunlight, or from wind, and in electric distribution grid transformation projects, as determined pursuant to subdivision 8 d, does not equal or exceed 100 percent of the earnings that are more than 70 basis points above the utility's fair combined rate of return on its generation and distribution services for the combined test periods under review in that triennial review proceeding, the Commission shall, subject to the provisions of subdivision 9 and in addition to the actions authorized in subdivision b, also order reductions to the utility's rates it finds appropriate. However, in the first triennial review proceeding conducted after January 1, 2021, for a Phase II Utility, any reduction to the utility's rates ordered by the Commission pursuant to this subdivision shall not exceed \$50 million in annual revenues, with any reduction allocated to the utility's rates for generation services, and in each triennial review of a Phase I or Phase II Utility, the Commission may not order such rate reduction unless it finds that the resulting rates will provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, using the most recently ended 12-month test period as the basis for determining the permissibility of any rate reduction under the standards of this sentence, and the amount thereof; and

d. (Expires July 1, 2028) In any triennial review proceeding conducted after December 31, 2017, upon the request of the utility, the Commission shall determine, prior to directing that 70 percent of earnings that are more than 70 basis points above the utility's fair combined rate of return on its generation and distribution services for the test period or periods under review be credited to customer bills pursuant to subdivision 8 b, the aggregate level of prior capital investment that the Commission has approved other than those capital investments that the Commission has approved for recovery pursuant to a rate adjustment clause pursuant to subdivision 6 made by the utility during the test period or periods under review in both (i) new utility-owned generation facilities utilizing energy derived from sunlight, or from onshore or offshore wind, and (ii) electric distribution grid transformation projects, as determined by the utility's plant in service and construction work in progress balances related to such investments as recorded per books by the utility for financial reporting purposes as of the end of the most recent test period under review. Any such combined capital investment amounts shall offset any customer bill credit amounts, on a dollar for dollar basis, up to the aggregate level of invested or committed capital under clauses (i) and (ii). The aggregate level of qualifying invested or committed capital under clauses (i) and (ii) is referred to in this subdivision as the customer credit reinvestment offset, which offsets the customer bill credit amount that the utility has invested or will invest in new solar or wind generation facilities or electric distribution grid transformation projects for the benefit of customers, in amounts up to 100 percent of earnings that are more than 70 basis points above the utility's fair rate of return on its generation and distribution services, and thereby reduce or eliminate otherwise incremental rate adjustment clause charges and increases to customer bills, which is deemed to be in the public interest. If 100 percent of the amount of earnings that are more than 70 basis points above the utility's fair combined rate of return on its generation and distribution services, as determined in subdivision 2, exceeds the aggregate level of invested capital in new utility-owned generation facilities utilizing energy derived from sunlight, or from wind, and electric distribution grid transformation projects, as provided in clauses (i) and (ii), during the test period or periods under review, then 70 percent of the amount of such excess shall be credited to customer bills as provided in subdivision 8 b in connection with the triennial review proceeding. The portion of any costs associated with new utility-owned generation facilities utilizing energy derived from sunlight, or from wind, or electric distribution grid transformation projects that is the subject of any customer credit reinvestment offset pursuant to this subdivision shall not thereafter be recovered through the utility's rates for generation and distribution services over the service life of such facilities and shall not thereafter be included in the utility's costs, revenues, and investments in future triennial review proceedings conducted pursuant to subdivision 2 and shall not be the subject of a rate adjustment clause petition pursuant to subdivision 6. The portion of any costs associated with new utility-owned generation facilities utilizing energy derived from sunlight, or from wind, or electric distribution grid transformation projects that is not the subject of any customer credit reinvestment offset pursuant to this subdivision may be recovered through the utility's rates for generation and distribution services over the service life of such facilities and shall be included in the utility's costs, revenues, and investments in future triennial review proceedings conducted pursuant to subdivision 2 until such costs are fully recovered, and if such costs are recovered through the utility's rates for generation and distribution services, they shall not be the subject of a rate adjustment clause petition pursuant to subdivision 6. Only the portion of such costs of new utility-owned generation facilities utilizing energy derived from sunlight, or from wind, or electric distribution grid transformation projects that has not been included in any customer credit reinvestment offset pursuant to this subdivision, and not otherwise recovered through the utility's rates for generation and distribution services, may be the subject of a rate adjustment clause petition by the utility pursuant to subdivision 6.

The Commission's final order regarding such triennial review shall be entered not more than eight months after the date of filing, and any revisions in rates or credits so ordered shall take effect not more than 60 days after the date of the order. The fair combined rate of return on common equity determined pursuant to subdivision 2 in such triennial review shall apply, for purposes of reviewing the utility's earnings on its rates for generation and distribution services, to the entire three successive 12-month test periods ending December 31 immediately preceding the year of the utility's subsequent triennial review filing under subdivision 3 and shall apply to applicable rate adjustment clauses under subdivisions 5 and 6 prospectively from the date the Commission's final order in the triennial review proceeding, utilizing rate adjustment clause true-up protocols as the Commission in its discretion may determine.

9. If, as a result of a triennial review required under this subsection and conducted with respect to any test period or periods under review ending later than December 31, 2010 (or, if the Commission has elected to stagger its biennial reviews of utilities as provided in subdivision 1, under review ending later than December 31, 2010, for a Phase I Utility, or December 31, 2011, for a Phase II Utility), the Commission finds, with respect to such test period or periods considered as a whole, that (i) any utility has, during the test period or periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, and (ii) the total aggregate regulated rates of such utility at the end of the most recently ended 12-month test period exceeded the annual increases in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, compounded annually, when compared to the total aggregate regulated rates of such utility as determined pursuant to the review conducted for the base period, the Commission shall, unless it finds that such action is not in the public interest or that the provisions of subdivisions 8 b and c are more consistent with the public interest, direct that any or all earnings for such test period or periods under review, considered as a whole that were more than 50 basis points, or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points, above such fair combined rate of return shall be credited to customers' bills, in lieu of the provisions of subdivisions 8 b and c, provided that no credits shall be provided pursuant to this subdivision in connection with any triennial review unless such bill credits would be payable pursuant to the provisions of subdivision 8 d, and any credits under this subdivision shall be calculated net of any customer credit reinvestment offset amounts under subdivision 8 d. Any such credits shall be amortized and allocated among customer classes in the manner provided by subdivision 8 b. For purposes of this subdivision:

"Base period" means (i) the test period ending December 31, 2010 (or, if the Commission has elected to stagger its biennial reviews of utilities as provided in subdivision 1, the test period ending December 31, 2010, for a Phase I Utility, or December 31, 2011, for a Phase II Utility), or (ii) the most recent test period with respect to which credits have been applied to customers' bills under the provisions of this subdivision, whichever is later.

"Total aggregate regulated rates" shall include: (i) fuel tariffs approved pursuant to § 56-249.6, except for any increases in fuel tariffs deferred by the Commission for recovery in periods after December 31, 2010, pursuant to the provisions of clause (ii) of subsection C of § 56-249.6; (ii) rate adjustment clauses implemented pursuant to subdivision 4 or 5; (iii) revisions to the utility's rates pursuant to subdivision 8 a; (iv) revisions to the utility's rates pursuant to the Commission's rules governing utility rate increase applications, as permitted by subsection B, occurring after July 1, 2009; and (v) base rates in effect as of July 1, 2009.

10. For purposes of this section, the Commission shall regulate the rates, terms and conditions of any utility subject to this section on a stand-alone basis utilizing the actual end-of-test period capital structure and cost of capital of such utility, excluding any debt associated with securitized bonds that are the obligation of non-Virginia jurisdictional customers, unless the Commission finds that the debt to equity ratio of such capital structure is unreasonable for such utility, in which case the Commission may utilize a debt to equity ratio that it finds to be reasonable for such utility in determining any rate adjustment pursuant to subdivisions 8 a and c, and without regard to the cost of capital, capital structure, revenues, expenses or investments of any other entity with which such utility may be affiliated. In particular, and without limitation, the Commission shall determine the federal and state income tax costs for any such utility that is part of a publicly traded, consolidated group as follows: (i) such utility's apportioned state income tax costs shall be calculated according to the applicable statutory rate, as if the utility had not filed a consolidated return with its affiliates, and (ii) such utility's federal income tax costs shall be calculated according to the applicable federal income tax rate and shall exclude any consolidated tax liability or benefit adjustments originating from any taxable income or loss of its affiliates.

B. Nothing in this section shall preclude an investor-owned incumbent electric utility from applying for an increase in rates pursuant to § 56-245 or the Commission's rules governing utility rate increase applications; however, in any such filing, a fair rate of return on common equity shall be determined pursuant to subdivision A 2. Nothing in this section shall preclude such utility's recovery of fuel and purchased power costs as provided in § 56-249.6.

C. Except as otherwise provided in this section, the Commission shall exercise authority over the rates, terms and conditions of investor-owned incumbent electric utilities for the provision of generation, transmission and distribution services to retail customers in the Commonwealth pursuant to the provisions of Chapter 10 (§ 56-232 et seq.), including specifically § 56-235.2.

D. The Commission may determine, during any proceeding authorized or required by this section, the reasonableness or prudence of any cost incurred or projected to be incurred, by a utility in connection with the subject of the proceeding. A determination of the Commission regarding the reasonableness or prudence of any such cost shall be consistent with the Commission's authority to determine the reasonableness or prudence of costs in proceedings pursuant to the provisions of Chapter 10 (§ 56-232 et seq.). In determining the reasonableness or prudence of a utility providing energy and capacity to its customers from renewable energy resources, the Commission shall consider the extent to which such renewable energy resources, whether utility-owned or by contract, further the objectives of the Commonwealth Energy Policy set forth in §§ 67-101 and 67-102, and shall also consider whether the costs of such resources is likely to result in unreasonable increases in rates paid by customers.

E. The Commission shall promulgate such rules and regulations as may be necessary to implement the provisions of this section.

CHAPTER 800

An Act to amend and reenact §§ 2.2-2336 and 2.2-2905 of the Code of Virginia, relating to the Fort Monroe Authority; exemption from the Virginia Personnel Act.

[H 1608]

Approved April 7, 2020

Be it enacted by the General Assembly of Virginia:

1. That §§ 2.2-2336 and 2.2-2905 of the Code of Virginia are amended and reenacted as follows:

§ 2.2-2336. Short title; declaration of public purpose; Fort Monroe Authority created; successor in interest to Fort Monroe Federal Area Development Authority.

A. This article shall be known and may be cited as the Fort Monroe Authority Act.

B. The General Assembly finds and declares that:

1. Fort Monroe, located on a barrier spit at Hampton Roads Harbor and the southern end of Chesapeake Bay where the Old Point Comfort lighthouse has been welcoming ships since 1802, is one of the Commonwealth's most important cultural treasures. Strategically located near Virginia's Historic Triangle of Williamsburg, Yorktown, and Jamestown, the 565-acre site has been designated a National Historic Landmark District;

2. As a result of decisions made by the federal Defense Base Closure and Realignment Commission (known as the BRAC Commission), Fort Monroe will cease to be an army base in 2011, and at that time most of the site will revert to the Commonwealth;

3. The planning phase of Fort Monroe's transition from use as a United States Army base was managed by the Fort Monroe Federal Area Development Authority (FMFADA), originally established by the City of Hampton pursuant to legislation enacted by the General Assembly in 2007. The Fort Monroe Federal Area Development Authority, a partnership between the City and the Commonwealth, has fulfilled its primary purpose of formulating a reuse plan for Fort Monroe;

4. It is the policy of the Commonwealth to protect the historic resources at Fort Monroe, provide public access to the Fort's historic resources and recreational opportunities, exercise exemplary stewardship of the Fort's natural resources, and maintain Fort Monroe in perpetuity as a place that is a desirable one in which to reside, do business, and visit, all in a way that is economically sustainable;

5. Fort Monroe's status is unique. Municipal services will need to be provided to Fort Monroe's visitors, residents, and businesses. Both the Commonwealth and the FMFADA are signatories to a Programmatic Agreement under Section 106 of the National Historic Preservation Act that requires several specific actions be taken, including the enforcement of design standards to be adopted by the FMFADA or its successor to govern any new development or building restoration or renovation at Fort Monroe. There exists a need for an entity that can manage the property for the Commonwealth and ensure adherence to the findings, declarations, and policies set forth in this section; and

6. The creation of an authority for this purpose is in the public interest, serves a public purpose, and will promote the health, safety, welfare, convenience, and prosperity of the people of the Commonwealth.

C. The Fort Monroe Authority is created, with the duties and powers set forth in this article, as a public body corporate and as a political subdivision of the Commonwealth. CHAPTER 801

An Act to amend and reenact §§ 56-585.1 and 56-596.2:1 of the Code of Virginia, relating to electric utility regulation; incentives for energy conservation measures and solar energy equipment.

[H 1656]

Approved April 7, 2020

Be it enacted by the General Assembly of Virginia:**1. That §§ 56-585.1 and 56-596.2:1 of the Code of Virginia are amended and reenacted as follows:****§ 56-585.1. Generation, distribution, and transmission rates after capped rates terminate or expire.**

A. During the first six months of 2009, the Commission shall, after notice and opportunity for hearing, initiate proceedings to review the rates, terms and conditions for the provision of generation, distribution and transmission services of each investor-owned incumbent electric utility. Such proceedings shall be governed by the provisions of Chapter 10 (§ 56-232 et seq.), except as modified herein. In such proceedings the Commission shall determine fair rates of return on common equity applicable to the generation and distribution services of the utility. In so doing, the Commission may use any methodology to determine such return it finds consistent with the public interest, but such return shall not be set lower than the average of the returns on common equity reported to the Securities and Exchange Commission for the three most recent annual periods for which such data are available by not less than a majority, selected by the Commission as specified in subdivision 2 b, of other investor-owned electric utilities in the peer group of the utility, nor shall the Commission set such return more than 300 basis points higher than such average. The peer group of the utility shall be determined in the manner prescribed in subdivision 2 b. The Commission may increase or decrease such combined rate of return by up to 100 basis points based on the generating plant performance, customer service, and operating efficiency of a utility, as compared to nationally recognized standards determined by the Commission to be appropriate for such purposes. In such a proceeding, the Commission shall determine the rates that the utility may charge until such rates are adjusted. If the Commission finds that the utility's combined rate of return on common equity is more than 50 basis points below the combined rate of return as so determined, it shall be authorized to order increases to the utility's rates necessary to provide the opportunity to fully recover the costs of providing the utility's services and to earn not less than such combined rate of return. If the Commission finds that the utility's combined rate of return on common equity is more than 50 basis points above the combined rate of return as so determined, it shall be authorized either (i) to order reductions to the utility's rates it finds appropriate, provided that the Commission may not order such rate reduction unless it finds that the resulting rates will provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than the fair rates of return on common equity applicable to the generation and distribution services; or (ii) to direct that 60 percent of the amount of the utility's earnings that were more than 50 basis points above the fair combined rate of return for calendar year 2008 be credited to customers' bills, in which event such credits shall be amortized over a period of six to 12 months, as determined at the discretion of the Commission, following the effective date of the Commission's order and be allocated among customer classes such that the relationship between the specific customer class rates of return to the overall target rate of return will have the same relationship as the last approved allocation of revenues used to design base rates. Commencing in 2011, the Commission, after notice and opportunity for hearing, shall conduct reviews of the rates, terms and conditions for the provision of generation, distribution and transmission services by each investor-owned incumbent electric utility, subject to the following provisions:

1. Rates, terms and conditions for each service shall be reviewed separately on an unbundled basis, and such reviews shall be conducted in a single, combined proceeding. Pursuant to subsection A of § 56-585.1:1, the Commission shall conduct a review for a Phase I Utility in 2020, utilizing the three successive 12-month test periods beginning January 1, 2017, and ending December 31, 2019. Thereafter, reviews for a Phase I Utility will be on a triennial basis with subsequent proceedings utilizing the three successive 12-month test periods ending December 31 immediately preceding the year in which such review proceeding is conducted. Pursuant to subsection A of § 56-585.1:1, the Commission shall conduct a review for a Phase II Utility in 2021, utilizing the four successive 12-month test periods beginning January 1, 2017, and ending December 31, 2020, with subsequent reviews on a triennial basis utilizing the three successive 12-month test periods ending December 31 immediately preceding the year in which such review proceeding is conducted. All such reviews occurring after December 31, 2017, shall be referred to as triennial reviews. For purposes of this section, a Phase I Utility is an investor-owned incumbent electric utility that was, as of July 1, 1999, not bound by a rate case settlement adopted by the Commission that extended in its application beyond January 1, 2002, and a Phase II Utility is an investor-owned incumbent electric utility that was bound by such a settlement.

2. Subject to the provisions of subdivision 6, the fair rate of return on common equity applicable separately to the generation and distribution services of such utility, and for the two such services combined, and for any rate adjustment clauses approved under subdivision 5 or 6, shall be determined by the Commission during each such triennial review, as follows:

a. The Commission may use any methodology to determine such return it finds consistent with the public interest, but such return shall not be set lower than the average of the returns on common equity reported to the Securities and Exchange Commission for the three most recent annual periods for which such data are available by not less than a majority, selected by the Commission as specified in subdivision 2 b, of other investor-owned electric utilities in the peer group of the utility

subject to such triennial review, nor shall the Commission set such return more than 300 basis points higher than such average.

b. In selecting such majority of peer group investor-owned electric utilities, the Commission shall first remove from such group the two utilities within such group that have the lowest reported returns of the group, as well as the two utilities within such group that have the highest reported returns of the group, and the Commission shall then select a majority of the utilities remaining in such peer group. In its final order regarding such triennial review, the Commission shall identify the utilities in such peer group it selected for the calculation of such limitation. For purposes of this subdivision, an investor-owned electric utility shall be deemed part of such peer group if (i) its principal operations are conducted in the southeastern United States east of the Mississippi River in either the states of West Virginia or Kentucky or in those states south of Virginia, excluding the state of Tennessee, (ii) it is a vertically-integrated electric utility providing generation, transmission and distribution services whose facilities and operations are subject to state public utility regulation in the state where its principal operations are conducted, (iii) it had a long-term bond rating assigned by Moody's Investors Service of at least Baa at the end of the most recent test period subject to such triennial review, and (iv) it is not an affiliate of the utility subject to such triennial review.

c. The Commission may, consistent with its precedent for incumbent electric utilities prior to the enactment of Chapters 888 and 933 of the Acts of Assembly of 2007, increase or decrease the utility's combined rate of return based on the Commission's consideration of the utility's performance.

d. In any Current Proceeding, the Commission shall determine whether the Current Return has increased, on a percentage basis, above the Initial Return by more than the increase, expressed as a percentage, in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, since the date on which the Commission determined the Initial Return. If so, the Commission may conduct an additional analysis of whether it is in the public interest to utilize such Current Return for the Current Proceeding then pending. A finding of whether the Current Return justifies such additional analysis shall be made without regard to any enhanced rate of return on common equity awarded pursuant to the provisions of subdivision 6. Such additional analysis shall include, but not be limited to, a consideration of overall economic conditions, the level of interest rates and cost of capital with respect to business and industry, in general, as well as electric utilities, the current level of inflation and the utility's cost of goods and services, the effect on the utility's ability to provide adequate service and to attract capital if less than the Current Return were utilized for the Current Proceeding then pending, and such other factors as the Commission may deem relevant. If, as a result of such analysis, the Commission finds that use of the Current Return for the Current Proceeding then pending would not be in the public interest, then the lower limit imposed by subdivision 2 a on the return to be determined by the Commission for such utility shall be calculated, for that Current Proceeding only, by increasing the Initial Return by a percentage at least equal to the increase, expressed as a percentage, in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, since the date on which the Commission determined the Initial Return. For purposes of this subdivision:

"Current Proceeding" means any proceeding conducted under any provisions of this subsection that require or authorize the Commission to determine a fair combined rate of return on common equity for a utility and that will be concluded after the date on which the Commission determined the Initial Return for such utility.

"Current Return" means the minimum fair combined rate of return on common equity required for any Current Proceeding by the limitation regarding a utility's peer group specified in subdivision 2 a.

"Initial Return" means the fair combined rate of return on common equity determined for such utility by the Commission on the first occasion after July 1, 2009, under any provision of this subsection pursuant to the provisions of subdivision 2 a.

e. In addition to other considerations, in setting the return on equity within the range allowed by this section, the Commission shall strive to maintain costs of retail electric energy that are cost competitive with costs of retail electric energy provided by the other peer group investor-owned electric utilities.

f. The determination of such returns shall be made by the Commission on a stand-alone basis, and specifically without regard to any return on common equity or other matters determined with regard to facilities described in subdivision 6.

g. If the combined rate of return on common equity earned by the generation and distribution services is no more than 50 basis points above or below the return as so determined or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, such return is no more than 70 basis points above or below the return as so determined, such combined return shall not be considered either excessive or insufficient, respectively. However, for any test period commencing after December 31, 2012, for a Phase II Utility, and after December 31, 2013, for a Phase I Utility, if the utility has, during the test period or periods under review, earned below the return as so determined, whether or not such combined return is within 70 basis points of the return as so determined, the utility may petition the Commission for approval of an increase in rates in accordance with the provisions of subdivision 8 a as if it had earned more than 70 basis points below a fair combined rate of return, and such proceeding shall otherwise be conducted in accordance with the provisions of this section. The provisions of this subdivision are subject to the provisions of subdivision 8.

h. Any amount of a utility's earnings directed by the Commission to be credited to customers' bills pursuant to this section shall not be considered for the purpose of determining the utility's earnings in any subsequent triennial review.

3. Each such utility shall make a triennial filing by March 31 of every third year, with such filings commencing for a Phase I Utility in 2020, and such filings commencing for a Phase II Utility in 2021, consisting of the schedules contained in the Commission's rules governing utility rate increase applications. Such filing shall encompass the three successive 12-month test periods ending December 31 immediately preceding the year in which such proceeding is conducted, except that the filing for a Phase II Utility in 2021 shall encompass the four successive 12-month test periods ending December 31, 2020, and in every such case the filing for each year shall be identified separately and shall be segregated from any other year encompassed by the filing. If the Commission determines that rates should be revised or credits be applied to customers' bills pursuant to subdivision 8 or 9, any rate adjustment clauses previously implemented related to facilities utilizing simple-cycle combustion turbines described in subdivision 6, shall be combined with the utility's costs, revenues and investments until the amounts that are the subject of such rate adjustment clauses are fully recovered. The Commission shall combine such clauses with the utility's costs, revenues and investments only after it makes its initial determination with regard to necessary rate revisions or credits to customers' bills, and the amounts thereof, but after such clauses are combined as herein specified, they shall thereafter be considered part of the utility's costs, revenues, and investments for the purposes of future triennial review proceedings. In a triennial filing under this subdivision that does not result in an overall rate change a utility may propose an adjustment to one or more tariffs that are revenue neutral to the utility.

4. (Expires December 31, 2023) The following costs incurred by the utility shall be deemed reasonable and prudent: (i) costs for transmission services provided to the utility by the regional transmission entity of which the utility is a member, as determined under applicable rates, terms and conditions approved by the Federal Energy Regulatory Commission; (ii) costs charged to the utility that are associated with demand response programs approved by the Federal Energy Regulatory Commission and administered by the regional transmission entity of which the utility is a member; and (iii) costs incurred by the utility to construct, operate, and maintain transmission lines and substations installed in order to provide service to a business park. Upon petition of a utility at any time after the expiration or termination of capped rates, but not more than once in any 12-month period, the Commission shall approve a rate adjustment clause under which such costs, including, without limitation, costs for transmission service; charges for new and existing transmission facilities, including costs incurred by the utility to construct, operate, and maintain transmission lines and substations installed in order to provide service to a business park; administrative charges; and ancillary service charges designed to recover transmission costs, shall be recovered on a timely and current basis from customers. Retail rates to recover these costs shall be designed using the appropriate billing determinants in the retail rate schedules.

4. (Effective January 1, 2024) The following costs incurred by the utility shall be deemed reasonable and prudent: (i) costs for transmission services provided to the utility by the regional transmission entity of which the utility is a member, as determined under applicable rates, terms and conditions approved by the Federal Energy Regulatory Commission, and (ii) costs charged to the utility that are associated with demand response programs approved by the Federal Energy Regulatory Commission and administered by the regional transmission entity of which the utility is a member. Upon petition of a utility at any time after the expiration or termination of capped rates, but not more than once in any 12-month period, the Commission shall approve a rate adjustment clause under which such costs, including, without limitation, costs for transmission service, charges for new and existing transmission facilities, administrative charges, and ancillary service charges designed to recover transmission costs, shall be recovered on a timely and current basis from customers. Retail rates to recover these costs shall be designed using the appropriate billing determinants in the retail rate schedules.

5. A utility may at any time, after the expiration or termination of capped rates, but not more than once in any 12-month period, petition the Commission for approval of one or more rate adjustment clauses for the timely and current recovery from customers of the following costs:

a. Incremental costs described in clause (vi) of subsection B of § 56-582 incurred between July 1, 2004, and the expiration or termination of capped rates, if such utility is, as of July 1, 2007, deferring such costs consistent with an order of the Commission entered under clause (vi) of subsection B of § 56-582. The Commission shall approve such a petition allowing the recovery of such costs that comply with the requirements of clause (vi) of subsection B of § 56-582;

b. Projected and actual costs for the utility to design and operate fair and effective peak-shaving programs. The Commission shall approve such a petition if it finds that the program is in the public interest; provided that the Commission shall allow the recovery of such costs as it finds are reasonable;

c. Projected and actual costs for the utility to design, implement, and operate energy efficiency programs, including a margin to be recovered on operating expenses, which margin for the purposes of this section shall be equal to the general rate of return on common equity determined as described in subdivision 2. Any such petition shall include a proposed budget for the design, implementation, and operation of the energy efficiency program. The Commission shall only approve such a petition if it finds that the program is in the public interest. If the Commission determines that an energy efficiency program or portfolio of programs is not in the public interest, its final order shall include all work product and analysis conducted by the Commission's staff in relation to that program that has bearing upon the Commission's determination. Such order shall adhere to existing protocols for extraordinarily sensitive information. As part of such cost recovery, the Commission, if requested by the utility, shall allow for the recovery of revenue reductions related to energy efficiency programs. The Commission shall only allow such recovery to the extent that the Commission determines such revenue has not been recovered through margins from incremental off-system sales as defined in § 56-249.6 that are directly attributable to energy efficiency programs.

None of the costs of new energy efficiency programs of an electric utility, including recovery of revenue reductions, shall be assigned to any large general service customer. A large general service customer is a customer that has a verifiable history of having used more than 500 kilowatts of demand from a single meter of delivery. A utility shall not charge such large general service customer, as defined by the Commission, for the costs of installing energy efficiency equipment beyond what is required to provide electric service and meter such service on the customer's premises if the customer provides, at the customer's expense, equivalent energy efficiency equipment. In all relevant proceedings pursuant to this section, the Commission shall take into consideration the goals of economic development, energy efficiency and environmental protection in the Commonwealth;

d. Projected and actual costs of participation in a renewable energy portfolio standard program pursuant to § 56-585.2 that are not recoverable under subdivision 6. The Commission shall approve such a petition allowing the recovery of such costs as are provided for in a program approved pursuant to § 56-585.2;

e. Projected and actual costs of projects that the Commission finds to be necessary to comply with state or federal environmental laws or regulations applicable to generation facilities used to serve the utility's native load obligations. The Commission shall approve such a petition if it finds that such costs are necessary to comply with such environmental laws or regulations; ~~and~~

f. Projected and actual costs, not currently in rates, for the utility to design, implement, and operate programs approved by the Commission that accelerate the vegetation management of distribution rights-of-way. No costs shall be allocated to or recovered from customers that are served within the large general service rate classes for a Phase II Utility or that are served at subtransmission or transmission voltage, or take delivery at a substation served from subtransmission or transmission voltage, for a Phase I Utility; *and*

g. Projected and actual costs, not currently in rates, for the utility to design, implement, and operate programs approved by the Commission to provide incentives to (i) low-income, elderly, and disabled individuals or (ii) organizations providing residential services to low-income, elderly, and disabled individuals for the installation of, or access to, equipment to generate electric energy derived from sunlight, provided the low-income, elderly, and disabled individuals, or organizations providing residential services to low-income, elderly, and disabled individuals, first participate in incentive programs for the installation of measures that reduce heating or cooling costs.

Any rate adjustment clause approved under subdivision 5 c by the Commission shall remain in effect until the utility exhausts the approved budget for the energy efficiency program. The Commission shall have the authority to determine the duration or amortization period for any other rate adjustment clause approved under this subdivision.

6. To ensure the generation and delivery of a reliable and adequate supply of electricity, to meet the utility's projected native load obligations and to promote economic development, a utility may at any time, after the expiration or termination of capped rates, petition the Commission for approval of a rate adjustment clause for recovery on a timely and current basis from customers of the costs of (i) a coal-fueled generation facility that utilizes Virginia coal and is located in the coalfield region of the Commonwealth as described in § 15.2-6002, regardless of whether such facility is located within or without the utility's service territory, (ii) one or more other generation facilities, (iii) one or more major unit modifications of generation facilities, including the costs of any system or equipment upgrade, system or equipment replacement, or other cost reasonably appropriate to extend the combined operating license for or the operating life of one or more generation facilities utilizing nuclear power, (iv) one or more new underground facilities to replace one or more existing overhead distribution facilities of 69 kilovolts or less located within the Commonwealth, (v) one or more pumped hydroelectricity generation and storage facilities that utilize on-site or off-site renewable energy resources as all or a portion of their power source and such facilities and associated resources are located in the coalfield region of the Commonwealth as described in § 15.2-6002, regardless of whether such facility is located within or without the utility's service territory, or (vi) one or more electric distribution grid transformation projects; however, subject to the provisions of the following sentence, the utility shall not file a petition under clause (iv) more often than annually and, in such petition, shall not seek any annual incremental increase in the level of investments associated with such a petition that exceeds five percent of such utility's distribution rate base, as such rate base was determined for the most recently ended 12-month test period in the utility's latest review proceeding conducted pursuant to subdivision 3 and concluded by final order of the Commission prior to the date of filing of such petition under clause (iv). In all proceedings regarding petitions filed under clause (iv) or (vi), the level of investments approved for recovery in such proceedings shall be in addition to, and not in lieu of, levels of investments previously approved for recovery in prior proceedings under clause (iv) or (vi), as applicable. As of December 1, 2028, any costs recovered by a utility pursuant to clause (iv) shall be limited to any remaining costs associated with conversions of overhead distribution facilities to underground facilities that have been previously approved or are pending approval by the Commission through a petition by the utility under this subdivision. Such a petition concerning facilities described in clause (ii) that utilize nuclear power, facilities described in clause (ii) that are coal-fueled and will be built by a Phase I Utility, or facilities described in clause (i) may also be filed before the expiration or termination of capped rates. A utility that constructs or makes modifications to any such facility, or purchases any facility consisting of at least one megawatt of generating capacity using energy derived from sunlight and located in the Commonwealth and that utilizes goods or services sourced, in whole or in part, from one or more Virginia businesses, shall have the right to recover the costs of the facility, as accrued against income, through its rates, including projected construction work in progress, and any associated allowance for funds used during construction, planning, development and construction or acquisition costs, life-cycle costs, costs related to assessing the feasibility of potential sites for new underground facilities, and costs of infrastructure

associated therewith, plus, as an incentive to undertake such projects, an enhanced rate of return on common equity calculated as specified below; however, in determining the amounts recoverable under a rate adjustment clause for new underground facilities, the Commission shall not consider, or increase or reduce such amounts recoverable because of (a) the operation and maintenance costs attributable to either the overhead distribution facilities being replaced or the new underground facilities or (b) any other costs attributable to the overhead distribution facilities being replaced. Notwithstanding the preceding sentence, the costs described in clauses (a) and (b) thereof shall remain eligible for recovery from customers through the utility's base rates for distribution service. A utility filing a petition for approval to construct or purchase a facility consisting of at least one megawatt of generating capacity using energy derived from sunlight and located in the Commonwealth and that utilizes goods or services sourced, in whole or in part, from one or more Virginia businesses may propose a rate adjustment clause based on a market index in lieu of a cost of service model for such facility. A utility seeking approval to construct or purchase a generating facility described in clause (i) or (ii) shall demonstrate that it has considered and weighed alternative options, including third-party market alternatives, in its selection process. The costs of the facility, other than return on projected construction work in progress and allowance for funds used during construction, shall not be recovered prior to the date a facility constructed by the utility and described in clause (i), (ii), (iii) or (v) begins commercial operation, the date the utility becomes the owner of a purchased generation facility consisting of at least one megawatt of generating capacity using energy derived from sunlight and located in the Commonwealth and that utilizes goods or services sourced, in whole or in part, from one or more Virginia businesses, or the date new underground facilities are classified by the utility as plant in service.

Such enhanced rate of return on common equity shall be applied to allowance for funds used during construction and to construction work in progress during the construction phase of the facility and shall thereafter be applied to the entire facility during the first portion of the service life of the facility. The first portion of the service life shall be as specified in the table below; however, the Commission shall determine the duration of the first portion of the service life of any facility, within the range specified in the table below, which determination shall be consistent with the public interest and shall reflect the Commission's determinations regarding how critical the facility may be in meeting the energy needs of the citizens of the Commonwealth and the risks involved in the development of the facility. After the first portion of the service life of the facility is concluded, the utility's general rate of return shall be applied to such facility for the remainder of its service life. As used herein, the service life of the facility shall be deemed to begin on the date a facility constructed by the utility and described in clause (i), (ii), (iii) or (v) begins commercial operation, the date the utility becomes the owner of a purchased generation facility consisting of at least one megawatt of generating capacity using energy derived from sunlight and located in the Commonwealth and that utilizes goods or services sourced, in whole or in part, from one or more Virginia businesses, or the date new underground facilities or new electric distribution grid transformation projects are classified by the utility as plant in service, and such service life shall be deemed equal in years to the life of that facility as used to calculate the utility's depreciation expense. Such enhanced rate of return on common equity shall be calculated by adding the basis points specified in the table below to the utility's general rate of return, and such enhanced rate of return shall apply only to the facility that is the subject of such rate adjustment clause. Allowance for funds used during construction shall be calculated for any such facility utilizing the utility's actual capital structure and overall cost of capital, including an enhanced rate of return on common equity as determined pursuant to this subdivision, until such construction work in progress is included in rates. The construction of any facility described in clause (i) or (v) is in the public interest, and in determining whether to approve such facility, the Commission shall liberally construe the provisions of this title. The construction or purchase by a utility of one or more generation facilities with at least one megawatt of generating capacity, and with an aggregate rated capacity that does not exceed 5,000 megawatts, including rooftop solar installations with a capacity of not less than 50 kilowatts, and with an aggregate capacity of 50 megawatts, that use energy derived from sunlight or from wind and are located in the Commonwealth or off the Commonwealth's Atlantic shoreline, regardless of whether any of such facilities are located within or without the utility's service territory, is in the public interest, and in determining whether to approve such facility, the Commission shall liberally construe the provisions of this title. A utility may enter into short-term or long-term power purchase contracts for the power derived from sunlight generated by such generation facility prior to purchasing the generation facility. The replacement of any subset of a utility's existing overhead distribution tap lines that have, in the aggregate, an average of nine or more total unplanned outage events-per-mile over a preceding 10-year period with new underground facilities in order to improve electric service reliability is in the public interest. In determining whether to approve petitions for rate adjustment clauses for such new underground facilities that meet this criteria, and in determining the level of costs to be recovered thereunder, the Commission shall liberally construe the provisions of this title.

The conversion of any such facilities on or after September 1, 2016, is deemed to provide local and system-wide benefits and to be cost beneficial, and the costs associated with such new underground facilities are deemed to be reasonably and prudently incurred and, notwithstanding the provisions of subsection C or D, shall be approved for recovery by the Commission pursuant to this subdivision, provided that the total costs associated with the replacement of any subset of existing overhead distribution tap lines proposed by the utility with new underground facilities, exclusive of financing costs, shall not exceed an average cost per customer of \$20,000, with such customers, including those served directly by or downline of the tap lines proposed for conversion, and, further, such total costs shall not exceed an average cost per mile of tap lines converted, exclusive of financing costs, of \$750,000. A utility shall, without regard for whether it has petitioned for any rate adjustment clause pursuant to clause (vi), petition the Commission, not more than once annually, for approval of a

plan for electric distribution grid transformation projects. Any plan for electric distribution grid transformation projects shall include both measures to facilitate integration of distributed energy resources and measures to enhance physical electric distribution grid reliability and security. In ruling upon such a petition, the Commission shall consider whether the utility's plan for such projects, and the projected costs associated therewith, are reasonable and prudent. Such petition shall be considered on a stand-alone basis without regard to the other costs, revenues, investments, or earnings of the utility; without regard to whether the costs associated with such projects will be recovered through a rate adjustment clause under this subdivision or through the utility's rates for generation and distribution services; and without regard to whether such costs will be the subject of a customer credit offset, as applicable, pursuant to subdivision 8 d. The Commission's final order regarding any such petition for approval of an electric distribution grid transformation plan shall be entered by the Commission not more than six months after the date of filing such petition. The Commission shall likewise enter its final order with respect to any petition by a utility for a certificate to construct and operate a generating facility or facilities utilizing energy derived from sunlight, pursuant to subsection D of § 56-580, within six months after the date of filing such petition. The basis points to be added to the utility's general rate of return to calculate the enhanced rate of return on common equity, and the first portion of that facility's service life to which such enhanced rate of return shall be applied, shall vary by type of facility, as specified in the following table:

Type of Generation Facility	Basis Points	First Portion of Service Life
Nuclear-powered	200	Between 12 and 25 years
Carbon capture compatible, clean-coal powered	200	Between 10 and 20 years
Renewable powered, other than landfill gas powered	200	Between 5 and 15 years
Coalbed methane gas powered	150	Between 5 and 15 years
Landfill gas powered	200	Between 5 and 15 years
Conventional coal or combined-cycle combustion turbine	100	Between 10 and 20 years

For generating facilities other than those utilizing nuclear power constructed pursuant to clause (ii) or those utilizing energy derived from offshore wind, as of July 1, 2013, only those facilities as to which a rate adjustment clause under this subdivision has been previously approved by the Commission, or as to which a petition for approval of such rate adjustment clause was filed with the Commission, on or before January 1, 2013, shall be entitled to the enhanced rate of return on common equity as specified in the above table during the construction phase of the facility and the approved first portion of its service life.

For generating facilities within the Commonwealth utilizing nuclear power or those utilizing energy derived from offshore wind projects located in waters off the Commonwealth's Atlantic shoreline, such facilities shall continue to be eligible for an enhanced rate of return on common equity during the construction phase of the facility and the approved first portion of its service life of between 12 and 25 years in the case of a facility utilizing nuclear power and for a service life of between 5 and 15 years in the case of a facility utilizing energy derived from offshore wind, provided, however, that, as of July 1, 2013, the enhanced return for such facilities constructed pursuant to clause (ii) shall be 100 basis points, which shall be added to the utility's general rate of return as determined under subdivision 2. Thirty percent of all costs of such a facility utilizing nuclear power that the utility incurred between July 1, 2007, and December 31, 2013, and all of such costs incurred after December 31, 2013, may be deferred by the utility and recovered through a rate adjustment clause under this subdivision at such time as the Commission provides in an order approving such a rate adjustment clause. The remaining 70 percent of all costs of such a facility that the utility incurred between July 1, 2007, and December 31, 2013, shall not be deferred for recovery through a rate adjustment clause under this subdivision; however, such remaining 70 percent of all costs shall be recovered ratably through existing base rates as determined by the Commission in the test periods under review in the utility's next review filed after July 1, 2014. Thirty percent of all costs of such a facility utilizing energy derived from offshore wind that the utility incurred between July 1, 2007, and December 31, 2013, and all of such costs incurred after December 31, 2013, may be deferred by the utility and recovered through a rate adjustment clause under this subdivision at such time as the Commission provides in an order approving such a rate adjustment clause. The remaining 70 percent of all costs of such a facility that the utility incurred between July 1, 2007, and December 31, 2013, shall not be deferred for recovery through a rate adjustment clause under this subdivision; however, such remaining 70 percent of all costs shall be recovered ratably through existing base rates as determined by the Commission in the test periods under review in the utility's next review filed after July 1, 2014.

In connection with planning to meet forecasted demand for electric generation supply and assure the adequate and sufficient reliability of service, consistent with § 56-598, planning and development activities for a new nuclear generation facility or facilities are in the public interest.

In connection with planning to meet forecasted demand for electric generation supply and assure the adequate and sufficient reliability of service, consistent with § 56-598, planning and development activities for a new utility-owned and utility-operated generating facility or facilities utilizing energy derived from sunlight or from onshore or offshore wind are in the public interest.

Construction, purchasing, or leasing activities for a new utility-owned and utility-operated generating facility or facilities utilizing energy derived from sunlight or from wind with an aggregate capacity of 5,000 megawatts, including

rooftop solar installations with a capacity of not less than 50 kilowatts, and with an aggregate capacity of 50 megawatts, together with a new test or demonstration project for a utility-owned and utility-operated generating facility or facilities utilizing energy derived from offshore wind with an aggregate capacity of not more than 16 megawatts, are in the public interest. To the extent that a utility elects to recover the costs of any such new generation facility or facilities through its rates for generation and distribution services and does not petition and receive approval from the Commission for recovery of such costs through a rate adjustment clause described in clause (ii), the Commission shall, upon the request of the utility in a triennial review proceeding, provide for a customer credit reinvestment offset, as applicable, pursuant to subdivision 8 d with respect to all costs deemed reasonable and prudent by the Commission in a proceeding pursuant to subsection D of § 56-580 or in a triennial review proceeding.

Electric distribution grid transformation projects are in the public interest. To the extent that a utility elects to recover the costs of such electric distribution grid transformation projects through its rates for generation and distribution services, and does not petition and receive approval from the Commission for recovery of such costs through a rate adjustment clause described in clause (vi), the Commission shall, upon the request of the utility in a triennial review proceeding, provide for a customer credit reinvestment offset, as applicable, pursuant to subdivision 8 d with respect to all costs deemed reasonable and prudent by the Commission in a proceeding for approval of a plan for electric distribution grid transformation projects pursuant to subdivision 6 or in a triennial review proceeding.

Neither generation facilities described in clause (ii) that utilize simple-cycle combustion turbines nor new underground facilities shall receive an enhanced rate of return on common equity as described herein, but instead shall receive the utility's general rate of return during the construction phase of the facility and, thereafter, for the entire service life of the facility. No rate adjustment clause for new underground facilities shall allocate costs to, or provide for the recovery of costs from, customers that are served within the large power service rate class for a Phase I Utility and the large general service rate classes for a Phase II Utility. New underground facilities are hereby declared to be ordinary extensions or improvements in the usual course of business under the provisions of § 56-265.2.

As used in this subdivision, a generation facility is (1) "coalbed methane gas powered" if the facility is fired at least 50 percent by coalbed methane gas, as such term is defined in § 45.1-361.1, produced from wells located in the Commonwealth, and (2) "landfill gas powered" if the facility is fired by methane or other combustible gas produced by the anaerobic digestion or decomposition of biodegradable materials in a solid waste management facility licensed by the Waste Management Board. A landfill gas powered facility includes, in addition to the generation facility itself, the equipment used in collecting, drying, treating, and compressing the landfill gas and in transmitting the landfill gas from the solid waste management facility where it is collected to the generation facility where it is combusted.

For purposes of this subdivision, "general rate of return" means the fair combined rate of return on common equity as it is determined by the Commission for such utility pursuant to subdivision 2.

Notwithstanding any other provision of this subdivision, if the Commission finds during the triennial review conducted for a Phase II Utility in 2021 that such utility has not filed applications for all necessary federal and state regulatory approvals to construct one or more nuclear-powered or coal-fueled generation facilities that would add a total capacity of at least 1500 megawatts to the amount of the utility's generating resources as such resources existed on July 1, 2007, or that, if all such approvals have been received, that the utility has not made reasonable and good faith efforts to construct one or more such facilities that will provide such additional total capacity within a reasonable time after obtaining such approvals, then the Commission, if it finds it in the public interest, may reduce on a prospective basis any enhanced rate of return on common equity previously applied to any such facility to no less than the general rate of return for such utility and may apply no less than the utility's general rate of return to any such facility for which the utility seeks approval in the future under this subdivision.

Notwithstanding any other provision of this subdivision, if a Phase II utility obtains approval from the Commission of a rate adjustment clause pursuant to subdivision 6 associated with a test or demonstration project involving a generation facility utilizing energy from offshore wind, and such utility has not, as of July 1, 2023, commenced construction as defined for federal income tax purposes of an offshore wind generation facility or facilities with a minimum aggregate capacity of 250 megawatts, then the Commission, if it finds it in the public interest, may direct that the costs associated with any such rate adjustment clause involving said test or demonstration project shall thereafter no longer be recovered through a rate adjustment clause pursuant to subdivision 6 and shall instead be recovered through the utility's rates for generation and distribution services, with no change in such rates for generation and distribution services as a result of the combination of such costs with the other costs, revenues, and investments included in the utility's rates for generation and distribution services. Any such costs shall remain combined with the utility's other costs, revenues, and investments included in its rates for generation and distribution services until such costs are fully recovered.

7. Any petition filed pursuant to subdivision 4, 5, or 6 shall be considered by the Commission on a stand-alone basis without regard to the other costs, revenues, investments, or earnings of the utility. Any costs incurred by a utility prior to the filing of such petition, or during the consideration thereof by the Commission, that are proposed for recovery in such petition and that are related to subdivision 5 a, or that are related to facilities and projects described in clause (i) of subdivision 6, or that are related to new underground facilities described in clause (iv) of subdivision 6, shall be deferred on the books and records of the utility until the Commission's final order in the matter, or until the implementation of any applicable approved rate adjustment clauses, whichever is later. Except as otherwise provided in subdivision 6, any costs prudently incurred on or after July 1, 2007, by a utility prior to the filing of such petition, or during the consideration thereof

by the Commission, that are proposed for recovery in such petition and that are related to facilities and projects described in clause (ii) or clause (iii) of subdivision 6 that utilize nuclear power, or coal-fueled facilities and projects described in clause (ii) of subdivision 6 if such coal-fueled facilities will be built by a Phase I Utility, shall be deferred on the books and records of the utility until the Commission's final order in the matter, or until the implementation of any applicable approved rate adjustment clauses, whichever is later. Any costs prudently incurred after the expiration or termination of capped rates related to other matters described in subdivision 4, 5, or 6 shall be deferred beginning only upon the expiration or termination of capped rates, provided, however, that no provision of this act shall affect the rights of any parties with respect to the rulings of the Federal Energy Regulatory Commission in PJM Interconnection LLC and Virginia Electric and Power Company, 109 F.E.R.C. P 61,012 (2004). A utility shall establish a regulatory asset for regulatory accounting and ratemaking purposes under which it shall defer its operation and maintenance costs incurred in connection with (i) the refueling of any nuclear-powered generating plant and (ii) other work at such plant normally performed during a refueling outage. The utility shall amortize such deferred costs over the refueling cycle, but in no case more than 18 months, beginning with the month in which such plant resumes operation after such refueling. The refueling cycle shall be the applicable period of time between planned refueling outages for such plant. As of January 1, 2014, such amortized costs are a component of base rates, recoverable in base rates only ratably over the refueling cycle rather than when such outages occur, and are the only nuclear refueling costs recoverable in base rates. This provision shall apply to any nuclear-powered generating plant refueling outage commencing after December 31, 2013, and the Commission shall treat the deferred and amortized costs of such regulatory asset as part of the utility's costs for the purpose of proceedings conducted (a) with respect to triennial filings under subdivision 3 made on and after July 1, 2014, and (b) pursuant to § 56-245 or the Commission's rules governing utility rate increase applications as provided in subsection B. This provision shall not be deemed to change or reset base rates.

The Commission's final order regarding any petition filed pursuant to subdivision 4, 5, or 6 shall be entered not more than three months, eight months, and nine months, respectively, after the date of filing of such petition. If such petition is approved, the order shall direct that the applicable rate adjustment clause be applied to customers' bills not more than 60 days after the date of the order, or upon the expiration or termination of capped rates, whichever is later.

8. In any triennial review proceeding, for the purposes of reviewing earnings on the utility's rates for generation and distribution services, the following utility generation and distribution costs not proposed for recovery under any other subdivision of this subsection, as recorded per books by the utility for financial reporting purposes and accrued against income, shall be attributed to the test periods under review and deemed fully recovered in the period recorded: costs associated with asset impairments related to early retirement determinations made by the utility for utility generation facilities fueled by coal, natural gas, or oil or for automated meter reading electric distribution service meters; costs associated with projects necessary to comply with state or federal environmental laws, regulations, or judicial or administrative orders relating to coal combustion by-product management that the utility does not petition to recover through a rate adjustment clause pursuant to subdivision 5 e; costs associated with severe weather events; and costs associated with natural disasters. Such costs shall be deemed to have been recovered from customers through rates for generation and distribution services in effect during the test periods under review unless such costs, individually or in the aggregate, together with the utility's other costs, revenues, and investments to be recovered through rates for generation and distribution services, result in the utility's earned return on its generation and distribution services for the combined test periods under review to fall more than 50 basis points below the fair combined rate of return authorized under subdivision 2 for such periods or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, to fall more than 70 basis points below the fair combined rate of return authorized under subdivision 2 for such periods. In such cases, the Commission shall, in such triennial review proceeding, authorize deferred recovery of such costs and allow the utility to amortize and recover such deferred costs over future periods as determined by the Commission. The aggregate amount of such deferred costs shall not exceed an amount that would, together with the utility's other costs, revenues, and investments to be recovered through rates for generation and distribution services, cause the utility's earned return on its generation and distribution services to exceed the fair rate of return authorized under subdivision 2, less 50 basis points, for the combined test periods under review or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, to exceed the fair rate of return authorized under subdivision 2 less 70 basis points. Nothing in this section shall limit the Commission's authority, pursuant to the provisions of Chapter 10 (§ 56-232 et seq.), including specifically § 56-235.2, following the review of combined test period earnings of the utility in a triennial review, for normalization of nonrecurring test period costs and annualized adjustments for future costs, in determining any appropriate increase or decrease in the utility's rates for generation and distribution services pursuant to subdivision 8 a or 8 c.

If the Commission determines as a result of such triennial review that:

a. The utility has, during the test period or periods under review, considered as a whole, earned more than 50 basis points below a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points below a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, the Commission shall order increases to the utility's rates necessary to provide the opportunity to fully recover the costs of providing the utility's services and to earn not less than such fair combined rate of return, using the most recently ended

12-month test period as the basis for determining the amount of the rate increase necessary. However, in the first triennial review proceeding conducted after January 1, 2021, for a Phase II Utility, the Commission may not order a rate increase, and in all triennial reviews of a Phase I or Phase II utility, the Commission may not order such rate increase unless it finds that the resulting rates are necessary to provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than a fair combined rate of return on both its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, using the most recently ended 12-month test period as the basis for determining the permissibility of any rate increase under the standards of this sentence, and the amount thereof; and provided that, solely in connection with making its determination concerning the necessity for such a rate increase or the amount thereof, the Commission shall, in any triennial review proceeding conducted prior to July 1, 2028, exclude from this most recently ended 12-month test period any remaining investment levels associated with a prior customer credit reinvestment offset pursuant to subdivision d.

b. The utility has, during the test period or test periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, the Commission shall, subject to the provisions of subdivisions 8 d and 9, direct that 60 percent of the amount of such earnings that were more than 50 basis points, or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, that 70 percent of the amount of such earnings that were more than 70 basis points, above such fair combined rate of return for the test period or periods under review, considered as a whole, shall be credited to customers' bills. Any such credits shall be amortized over a period of six to 12 months, as determined at the discretion of the Commission, following the effective date of the Commission's order, and shall be allocated among customer classes such that the relationship between the specific customer class rates of return to the overall target rate of return will have the same relationship as the last approved allocation of revenues used to design base rates; or

c. In any triennial review proceeding conducted after January 1, 2020, for a Phase I Utility or after January 1, 2021, for a Phase II Utility in which the utility has, during the test period or test periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matter determined with respect to facilities described in subdivision 6, and the combined aggregate level of capital investment that the Commission has approved other than those capital investments that the Commission has approved for recovery pursuant to a rate adjustment clause pursuant to subdivision 6 made by the utility during the test periods under review in that triennial review proceeding in new utility-owned generation facilities utilizing energy derived from sunlight, or from wind, and in electric distribution grid transformation projects, as determined pursuant to subdivision 8 d, does not equal or exceed 100 percent of the earnings that are more than 70 basis points above the utility's fair combined rate of return on its generation and distribution services for the combined test periods under review in that triennial review proceeding, the Commission shall, subject to the provisions of subdivision 9 and in addition to the actions authorized in subdivision b, also order reductions to the utility's rates it finds appropriate. However, in the first triennial review proceeding conducted after January 1, 2021, for a Phase II Utility, any reduction to the utility's rates ordered by the Commission pursuant to this subdivision shall not exceed \$50 million in annual revenues, with any reduction allocated to the utility's rates for generation services, and in each triennial review of a Phase I or Phase II Utility, the Commission may not order such rate reduction unless it finds that the resulting rates will provide the utility with the opportunity to fully recover its costs of providing its services and to earn not less than a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, using the most recently ended 12-month test period as the basis for determining the permissibility of any rate reduction under the standards of this sentence, and the amount thereof; and

d. (Expires July 1, 2028) In any triennial review proceeding conducted after December 31, 2017, upon the request of the utility, the Commission shall determine, prior to directing that 70 percent of earnings that are more than 70 basis points above the utility's fair combined rate of return on its generation and distribution services for the test period or periods under review be credited to customer bills pursuant to subdivision 8 b, the aggregate level of prior capital investment that the Commission has approved other than those capital investments that the Commission has approved for recovery pursuant to a rate adjustment clause pursuant to subdivision 6 made by the utility during the test period or periods under review in both (i) new utility-owned generation facilities utilizing energy derived from sunlight, or from onshore or offshore wind, and (ii) electric distribution grid transformation projects, as determined by the utility's plant in service and construction work in progress balances related to such investments as recorded per books by the utility for financial reporting purposes as of the end of the most recent test period under review. Any such combined capital investment amounts shall offset any customer bill credit amounts, on a dollar for dollar basis, up to the aggregate level of invested or committed capital under clauses (i) and (ii). The aggregate level of qualifying invested or committed capital under clauses (i) and (ii) is referred to in this subdivision as the customer credit reinvestment offset, which offsets the customer bill credit amount that the utility has

invested or will invest in new solar or wind generation facilities or electric distribution grid transformation projects for the benefit of customers, in amounts up to 100 percent of earnings that are more than 70 basis points above the utility's fair rate of return on its generation and distribution services, and thereby reduce or eliminate otherwise incremental rate adjustment clause charges and increases to customer bills, which is deemed to be in the public interest. If 100 percent of the amount of earnings that are more than 70 basis points above the utility's fair combined rate of return on its generation and distribution services, as determined in subdivision 2, exceeds the aggregate level of invested capital in new utility-owned generation facilities utilizing energy derived from sunlight, or from wind, and electric distribution grid transformation projects, as provided in clauses (i) and (ii), during the test period or periods under review, then 70 percent of the amount of such excess shall be credited to customer bills as provided in subdivision 8 b in connection with the triennial review proceeding. The portion of any costs associated with new utility-owned generation facilities utilizing energy derived from sunlight, or from wind, or electric distribution grid transformation projects that is the subject of any customer credit reinvestment offset pursuant to this subdivision shall not thereafter be recovered through the utility's rates for generation and distribution services over the service life of such facilities and shall not thereafter be included in the utility's costs, revenues, and investments in future triennial review proceedings conducted pursuant to subdivision 2 and shall not be the subject of a rate adjustment clause petition pursuant to subdivision 6. The portion of any costs associated with new utility-owned generation facilities utilizing energy derived from sunlight, or from wind, or electric distribution grid transformation projects that is not the subject of any customer credit reinvestment offset pursuant to this subdivision may be recovered through the utility's rates for generation and distribution services over the service life of such facilities and shall be included in the utility's costs, revenues, and investments in future triennial review proceedings conducted pursuant to subdivision 2 until such costs are fully recovered, and if such costs are recovered through the utility's rates for generation and distribution services, they shall not be the subject of a rate adjustment clause petition pursuant to subdivision 6. Only the portion of such costs of new utility-owned generation facilities utilizing energy derived from sunlight, or from wind, or electric distribution grid transformation projects that has not been included in any customer credit reinvestment offset pursuant to this subdivision, and not otherwise recovered through the utility's rates for generation and distribution services, may be the subject of a rate adjustment clause petition by the utility pursuant to subdivision 6.

The Commission's final order regarding such triennial review shall be entered not more than eight months after the date of filing, and any revisions in rates or credits so ordered shall take effect not more than 60 days after the date of the order. The fair combined rate of return on common equity determined pursuant to subdivision 2 in such triennial review shall apply, for purposes of reviewing the utility's earnings on its rates for generation and distribution services, to the entire three successive 12-month test periods ending December 31 immediately preceding the year of the utility's subsequent triennial review filing under subdivision 3 and shall apply to applicable rate adjustment clauses under subdivisions 5 and 6 prospectively from the date the Commission's final order in the triennial review proceeding, utilizing rate adjustment clause true-up protocols as the Commission in its discretion may determine.

9. If, as a result of a triennial review required under this subsection and conducted with respect to any test period or periods under review ending later than December 31, 2010 (or, if the Commission has elected to stagger its biennial reviews of utilities as provided in subdivision 1, under review ending later than December 31, 2010, for a Phase I Utility, or December 31, 2011, for a Phase II Utility), the Commission finds, with respect to such test period or periods considered as a whole, that (i) any utility has, during the test period or periods under review, considered as a whole, earned more than 50 basis points above a fair combined rate of return on its generation and distribution services or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points above a fair combined rate of return on its generation and distribution services, as determined in subdivision 2, without regard to any return on common equity or other matters determined with respect to facilities described in subdivision 6, and (ii) the total aggregate regulated rates of such utility at the end of the most recently ended 12-month test period exceeded the annual increases in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the United States Department of Labor, compounded annually, when compared to the total aggregate regulated rates of such utility as determined pursuant to the review conducted for the base period, the Commission shall, unless it finds that such action is not in the public interest or that the provisions of subdivisions 8 b and c are more consistent with the public interest, direct that any or all earnings for such test period or periods under review, considered as a whole that were more than 50 basis points, or, for any test period commencing after December 31, 2012, for a Phase II Utility and after December 31, 2013, for a Phase I Utility, more than 70 basis points, above such fair combined rate of return shall be credited to customers' bills, in lieu of the provisions of subdivisions 8 b and c, provided that no credits shall be provided pursuant to this subdivision in connection with any triennial review unless such bill credits would be payable pursuant to the provisions of subdivision 8 d, and any credits under this subdivision shall be calculated net of any customer credit reinvestment offset amounts under subdivision 8 d. Any such credits shall be amortized and allocated among customer classes in the manner provided by subdivision 8 b. For purposes of this subdivision:

"Base period" means (i) the test period ending December 31, 2010 (or, if the Commission has elected to stagger its biennial reviews of utilities as provided in subdivision 1, the test period ending December 31, 2010, for a Phase I Utility, or December 31, 2011, for a Phase II Utility), or (ii) the most recent test period with respect to which credits have been applied to customers' bills under the provisions of this subdivision, whichever is later.

"Total aggregate regulated rates" shall include: (i) fuel tariffs approved pursuant to § 56-249.6, except for any increases in fuel tariffs deferred by the Commission for recovery in periods after December 31, 2010, pursuant to the provisions of clause (ii) of subsection C of § 56-249.6; (ii) rate adjustment clauses implemented pursuant to subdivision 4 or 5; (iii) revisions to the utility's rates pursuant to subdivision 8 a; (iv) revisions to the utility's rates pursuant to the Commission's rules governing utility rate increase applications, as permitted by subsection B, occurring after July 1, 2009; and (v) base rates in effect as of July 1, 2009.

10. For purposes of this section, the Commission shall regulate the rates, terms and conditions of any utility subject to this section on a stand-alone basis utilizing the actual end-of-test period capital structure and cost of capital of such utility, excluding any debt associated with securitized bonds that are the obligation of non-Virginia jurisdictional customers, unless the Commission finds that the debt to equity ratio of such capital structure is unreasonable for such utility, in which case the Commission may utilize a debt to equity ratio that it finds to be reasonable for such utility in determining any rate adjustment pursuant to subdivisions 8 a and c, and without regard to the cost of capital, capital structure, revenues, expenses or investments of any other entity with which such utility may be affiliated. In particular, and without limitation, the Commission shall determine the federal and state income tax costs for any such utility that is part of a publicly traded, consolidated group as follows: (i) such utility's apportioned state income tax costs shall be calculated according to the applicable statutory rate, as if the utility had not filed a consolidated return with its affiliates, and (ii) such utility's federal income tax costs shall be calculated according to the applicable federal income tax rate and shall exclude any consolidated tax liability or benefit adjustments originating from any taxable income or loss of its affiliates.

B. Nothing in this section shall preclude an investor-owned incumbent electric utility from applying for an increase in rates pursuant to § 56-245 or the Commission's rules governing utility rate increase applications; however, in any such filing, a fair rate of return on common equity shall be determined pursuant to subdivision A 2. Nothing in this section shall preclude such utility's recovery of fuel and purchased power costs as provided in § 56-249.6.

C. Except as otherwise provided in this section, the Commission shall exercise authority over the rates, terms and conditions of investor-owned incumbent electric utilities for the provision of generation, transmission and distribution services to retail customers in the Commonwealth pursuant to the provisions of Chapter 10 (§ 56-232 et seq.), including specifically § 56-235.2.

D. The Commission may determine, during any proceeding authorized or required by this section, the reasonableness or prudence of any cost incurred or projected to be incurred, by a utility in connection with the subject of the proceeding. A determination of the Commission regarding the reasonableness or prudence of any such cost shall be consistent with the Commission's authority to determine the reasonableness or prudence of costs in proceedings pursuant to the provisions of Chapter 10 (§ 56-232 et seq.). In determining the reasonableness or prudence of a utility providing energy and capacity to its customers from renewable energy resources, the Commission shall consider the extent to which such renewable energy resources, whether utility-owned or by contract, further the objectives of the Commonwealth Energy Policy set forth in §§ 67-101 and 67-102, and shall also consider whether the costs of such resources is likely to result in unreasonable increases in rates paid by customers.

E. The Commission shall promulgate such rules and regulations as may be necessary to implement the provisions of this section.

§ 56-596.2:1. Incentives for energy conservation measures and solar energy equipment.

A. Each Phase I and Phase II Utility, as such terms are defined in subdivision A 1 of § 56-585.1, shall submit a petition for approval to design, implement, and operate a three-year program of energy conservation measures providing:

~~1. Incentives~~ *incentives* to ~~low income~~ *low-income*, elderly, and disabled individuals in an amount not to exceed \$25 million in the aggregate for the installation of measures that reduce residential heating ~~and~~ *or* cooling costs and enhance the health and safety of residents, including repairs and improvements to home heating ~~and~~ *or* cooling systems and installation of energy-saving measures in the house, such as insulation and air sealing. In developing such incentive program, each utility shall utilize the stakeholder process set forth in § 56-596.2. The utility may provide such incentives directly to customers or to organizations that assist ~~low income~~ *low-income*, elderly, and disabled individuals. Such incentive program shall be deemed to be a part of the \$140 million in energy efficiency programs that a Phase I utility is required to develop pursuant to § 56-596.2 and a part of the \$870 million in energy efficiency programs that a Phase II utility is required to develop pursuant to § 56-596.2; provided that no portion of such incentive programs shall be deemed to be a part of the required five percent of such energy conservation measures set aside for ~~low income~~ *low-income*, elderly, and disabled individuals.

~~2. Incentives to low income, elderly, and disabled individuals, who also participate in the incentive program described above for the installation of measures that reduce residential heating and cooling costs, in an amount not to exceed \$25 million in the aggregate for the installation of B. For (i) low-income, elderly, and disabled individuals or (ii) organizations providing residential services to low-income, elderly, and disabled individuals who participate in, or have already participated in, an incentive program, including the incentive program described in subsection A, for the installation of measures that reduce heating or cooling costs at any premises where people reside, each Phase I and Phase II Utility shall submit a petition for approval to design, implement, and operate a separate three-year incentive program, in an amount not to exceed \$25 million in the aggregate, to enable the installation of, or access to, equipment to ~~develop~~ *generate* electric energy derived from sunlight. The utility may provide such incentives directly to customers or to organizations that assist ~~low income~~ *low-income*, elderly, and disabled individuals. Such incentive program may include~~

installation of equipment directly on the premises or access to equipment located elsewhere, provided such installation or access reduces the total energy costs for persons described in clause (i) or (ii). Such incentive program shall not be deemed to be a part of the \$140 million in energy efficiency programs that a Phase I utility is required to develop pursuant to § 56-596.2 nor a part of the \$870 million in energy efficiency programs that a Phase II utility is required to develop pursuant to § 56-596.2.

~~B-~~ C. In developing such incentive programs, each utility shall give consideration to ~~low income~~ low-income, elderly, and disabled persons residing in housing that a redevelopment and housing authority owns or controls.

CHAPTER 802

An Act to amend the Code of Virginia by adding in Chapter 22 of Title 15.2 an article numbered 7.3, consisting of sections numbered 15.2-2316.6 through 15.2-2316.9, relating to siting of solar energy facilities.

[H 1675]

Approved April 7, 2020

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding in Chapter 22 of Title 15.2 an article numbered 7.3, consisting of sections numbered 15.2-2316.6 through 15.2-2316.9, as follows:

Article 7.3.

Siting of Solar Energy Facilities.

§ 15.2-2316.6. Siting of solar facilities in economically disadvantaged localities.

A. As used in this article, unless the context requires a different meaning:

"Host locality" means any locality within the jurisdictional boundaries of which construction of a commercial solar facility is proposed.

"Opportunity zone" means a census tract in an area of the host locality meeting the eligibility requirements for designation as a qualified opportunity zone by the U.S. Secretary of the Treasury via his delegation of authority to the Internal Revenue Service.

"Solar facility" means a commercial solar photovoltaic (electric energy) generation or storage facility, or any portion thereof. "Solar facility" does not include any project that is (i) described in § 56-594, 56-594.01, or 56-594.2 or Chapters 358 and 382 of the Acts of Assembly of 2013, as amended, or (ii) five megawatts or less.

B. This article applies only to a solar facility located in an opportunity zone.

§ 15.2-2316.7. Negotiations; siting agreement.

A. Any applicant for a solar facility shall give to the host locality written notice of the applicant's intent to locate a solar facility in an opportunity zone in such locality and request a meeting. Such applicant shall meet, discuss, and negotiate a siting agreement with such locality.

B. The siting agreement may include terms and conditions, including (i) mitigation of any impacts of such solar facility; (ii) financial compensation to the host locality to address capital needs set out in the (a) capital improvement plan adopted by the host locality, (b) current fiscal budget of the host locality, or (c) fiscal fund balance policy adopted by the host locality; or (iii) assistance by the applicant in the deployment of broadband, as defined in § 56-585.1-9, in such locality.

§ 15.2-2316.8. Powers of host localities.

A. The governing body of a host locality shall have the power to:

1. Hire and pay consultants and other experts on behalf of the host locality in matters pertaining to the siting of a solar facility;

2. Meet, discuss, and negotiate a siting agreement with an applicant; and

3. Enter into a siting agreement with an applicant that is binding upon the governing body of the host locality and enforceable against it and future governing bodies of the host locality in any court of competent jurisdiction by signing a siting agreement pursuant to this article. Such contract may be assignable at the parties' option.

B. If the parties to the siting agreement agree upon the terms and conditions of a siting agreement, the host locality shall schedule a public hearing, pursuant to subdivision A of § 15.2-2204, for the purpose of consideration of such siting agreement. If a majority of a quorum of the members of the governing body present at such public hearing approve of such siting agreement, the siting agreement shall be executed by the signatures of (i) the chief executive officer of the host locality and (ii) the applicant or the applicant's authorized agent. The siting agreement shall continue in effect until it is amended, revoked, or suspended.

§ 15.2-2316.9. Effect of executed siting agreement; land use approval.

A. Nothing in this article shall be construed to exempt an applicant from any other applicable requirements to obtain approvals and permits under federal, state, or local ordinances and regulations. An applicant may file for appropriate land use approvals for the solar facility under the regulations and ordinances of the host locality at or after the time the applicant submits its notice of intent to site a solar facility as set forth in subdivision A of § 15.2-2316.7.

B. Nothing in this article shall affect the authority of the host locality to enforce its ordinances and regulations to the extent that they are not inconsistent with the terms and conditions of the siting agreement.

C. Approval of a siting agreement by the local governing body in accordance with subdivision B of § 15.2-2316.8 shall deem the solar facility to be substantially in accord with the comprehensive plan of the host locality, thereby satisfying the requirements of § 15.2-2232.

D. The failure of an applicant and the governing body to enter into a siting agreement may be a factor in the decision of the governing body in the consideration of any land use approvals for a solar facility, but shall not be the sole reason for a denial of such land use approvals.

2. That the provisions of this act shall not apply to any solar facility that has received zoning and site plan approval, preliminary or otherwise, from the host locality on or before January 1, 2020.

CHAPTER 807

An Act to amend the Code of Virginia by adding a section numbered 56-585.5, relating to electric cooperatives; on-bill tariff programs; established.

[S 754]

Approved April 7, 2020

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding a section numbered 56-585.5 as follows:

§ 56-585.5. On-bill tariff program; electric cooperatives.

A. As used in this section:

"Cooperative" means a utility consumer services cooperative.

"Eligible customer" means a member-consumer receiving service from a cooperative that (i) has asked to participate in the cooperative's on-bill tariff program and (ii) has been determined by the cooperative to be eligible to participate in its on-bill tariff program.

"Energy efficiency measures" means any installation, improvement, addition, or equipment approved by the cooperative for purpose of its on-bill tariff program that has the primary purpose of improving the energy efficiency of the premises and reducing its consumption of energy, including heating and air conditioning systems, water heaters, weatherization, insulation, window and door modifications, appliances, and automatic or Internet-connected energy control systems. "Energy efficiency measures" does not include energy conservation measures to improve the energy efficiency of (i) premises constructed within five years prior to an eligible customer's request to participate in an on-bill tariff program or (ii) premises that are under initial construction.

"Energy savings charge" means the charge placed by the cooperative on the monthly billing statement of an eligible customer or subsequent customers in order to recover the costs of the energy efficiency measures installed at the eligible customer's premises.

"On-bill tariff agreement" means an agreement between an eligible customer and a cooperative that provides for the terms, conditions, payments, and costs, including financing or capital costs, of the installation of energy efficiency measures at a premises to be paid by or through the cooperative and repaid by the eligible customer or subsequent customer at the same premises by means of an energy savings charge.

"On-bill tariff program" means a voluntary tariff program that allows eligible customers (i) to arrange through the cooperative for its provision and installation, including by its chosen vendors, of energy efficiency measures at the customer's premises without an upfront payment and (ii) to pay back over time the cost of the energy efficiency measures through an energy savings charge.

"Program costs" means a participating cooperative's (i) identified, projected, and actual costs to design, implement, and operate its on-bill tariff program, including costs to request and evaluate vendor proposals and manage the vendors; (ii) administrative, labor, and marketing charges; (iii) costs of obtaining funds used by the cooperative to pay for the energy efficiency measures; (iv) write-offs for unpaid energy savings charges after reasonable collection efforts; and (v) reasonable margin.

B. On or after January 1, 2021, notwithstanding any other provision of law, a cooperative may, without Commission approval, upon an affirmative resolution of its board of directors and without the requirement of any filing other than as required in this subsection, propose, establish, and implement an on-bill tariff program for energy efficiency measures, provided that such program adheres to the provisions of this section. This regulated, tariffed program shall be reviewable by the Commission at the cooperative's next general rate proceeding. A cooperative shall recover the program costs through a new rate schedule established by this section or otherwise through its rates. A cooperative shall file a copy of any such new rate schedule with the Commission for informational purposes.

C. At least 120 days prior to making an informational filing as described in subsection B, a cooperative shall conduct a stakeholder process to design the on-bill tariff program collaboratively with interested parties. Such stakeholder process shall be open to the cooperative's membership and invited guests and shall include an opportunity to participate for low-income and middle-income advocates, energy efficiency advocates, affordable housing advocates, and the staff of the Commission. The stakeholder process shall examine and recommend, among other things, appropriate additional consumer safeguards for potential adoption by the cooperative, including oversight of third-party vendors and appropriate methods for notifying customers that vendors are subject to the Virginia Consumer Protection Act (§ 59.1-196 et seq.). The stakeholder process shall allow for remote or electronic participation and may include multiple cooperatives or be coordinated, convened, and facilitated by a group or association of cooperatives. The meetings of the stakeholders may be held anywhere in the Commonwealth. The cooperative shall include documentation concerning the stakeholder process in its informational filing to the Commission.

D. A cooperative's on-bill tariff program shall include criteria for selecting eligible customers; limits on the individual and aggregate amounts of energy efficiency measures for each eligible customer; limits on the overall amount available under the on-bill tariff program; generally applicable repayment terms; and qualifications of potential vendors that will market or install energy efficiency measures. Multiple cooperatives may collaborate to create a similar structure for on-bill tariff programs.

E. An on-bill tariff agreement shall:

1. Specify that the eligible customer or subsequent customers at the premises shall only be responsible for the payment of the energy savings charge upon satisfactory installation of the energy efficiency measures as set forth in their on-bill tariff agreement;

2. Specify that the cooperative may recover the costs, including financing or capital costs, of installing the energy efficiency measures at an eligible customer's premises through the energy savings charge;

3. Provide for the inclusion of an energy savings charge that is stated as a separate line item on the eligible customer's or subsequent customer's utility bill;

4. Provide that an eligible customer shall enter into an on-bill tariff agreement to participate in the on-bill tariff program;

5. Provide that the cooperative may apply the energy savings charge to the meter or bill of subsequent customers at the premises and that the then-current eligible customer is required to notify the subsequent customer of the on-bill tariff agreement and the energy savings charge;

6. Deem amounts due under the tariff to be amounts owed for regulated electric service and for which an eligible customer is subject to disconnection of service pursuant to the cooperative's existing policies for disconnection;

7. Provide that any loan or financing interest rate or cost of capital, or their equivalent, that is provided to the eligible customer pursuant to an on-bill tariff agreement shall be less than prevailing market rates;

8. Provide that payments for energy-saving charges made by eligible and subsequent customers shall be retained by the cooperative and amounts credited against the appropriate category of program costs; and

9. Result in deemed savings that are reasonably projected, based on the customer's electricity utilization and rates at the beginning of the term, to result in lower electric bills for the customer, and that allocate a portion of the gross cost savings resulting from the energy efficiency measures to the eligible customer and the remaining portion to the cooperative to recover the program costs.

F. Customers having a grievance or complaints against an on-bill tariff program shall have recourse to the informal and formal procedures of the Commission.

CHAPTER 809

An Act to amend and reenact §§ 28.2-104.1, 28.2-1301, 28.2-1302, and 28.2-1308 of the Code of Virginia, relating to wetlands protection; living shorelines.

[S 776]

Approved April 7, 2020

Be it enacted by the General Assembly of Virginia:

1. That §§ 28.2-104.1, 28.2-1301, 28.2-1302, and 28.2-1308 of the Code of Virginia are amended and reenacted as follows:

§ 28.2-104.1. Living shorelines; development of general permit; guidance.

A. As used in this section, unless the context requires a different meaning:

"Living shoreline" means a shoreline management practice that provides erosion control and water quality benefits; protects, restores or enhances natural shoreline habitat; and maintains coastal processes through the strategic placement of plants, stone, sand fill, and other structural and organic materials.

B. The Commission, in cooperation with the Department of Conservation and Recreation, the Department of Environmental Quality, and local wetlands boards, and with technical assistance from the Virginia Institute of Marine Science, shall establish and implement a general permit regulation that authorizes and encourages the use of living shorelines as the preferred alternative for stabilizing tidal shorelines in the Commonwealth. The regulation shall provide for an expedited permit review process for qualifying living shoreline projects requiring authorization under Chapters 12 (§ 28.2-1200 et seq.), 13 (§ 28.2-1300 et seq.), and 14 (§ 28.2-1400 et seq.). In developing the general permit, the Commission shall consult with the U.S. Army Corps of Engineers to ensure the minimization of conflicts with federal law and regulation.

C. The Commission, in cooperation with the Department of Conservation and Recreation and with technical assistance from the Virginia Institute of Marine Science, shall develop integrated guidance for the management of tidal shoreline systems to provide a technical basis for the coordination of permit decisions required by any regulatory entity exercising authority over a shoreline management project. The guidance shall:

1. Communicate to stakeholders and regulatory authorities that it is the policy of the Commonwealth to support living shorelines as the preferred alternative for stabilizing tidal shorelines;
2. Identify preferred shoreline management approaches for the shoreline types found in the Commonwealth;
3. Explain the risks and benefits of protection provided by various shoreline system elements associated with each management option; and
4. Recommend procedures to achieve efficiency and effectiveness by the various regulatory entities exercising authority over a shoreline management project.

D. The Commission shall permit only living shoreline approaches to shoreline management unless the best available science shows that such approaches are not suitable. If the best available science shows that a living shoreline approach is not suitable, the Commission shall require the applicant to incorporate, to the maximum extent possible, elements of living shoreline approaches into permitted projects.

§ 28.2-1301. Powers and duties of the Commission.

A. The Commission may receive gifts, grants, bequests, and devises of wetlands and money which shall be held for the uses prescribed by the donor, grantor, or testator and in accordance with the provisions of this chapter. The Commission shall manage any wetlands it receives so as to maximize their ecological value as provided in Article 2 (§ 28.2-1503 et seq.) of Chapter 15 of this title.

B. The Commission shall preserve and prevent the despoliation and destruction of wetlands while accommodating necessary economic development in a manner consistent with wetlands preservation *and any standards set by the Commonwealth in addition to those identified in § 28.2-1308 to ensure protection of shorelines and sensitive coastal habitats from sea level rise and coastal hazards, including guidelines and minimum standards promulgated by the Commission pursuant to subsection C.*

C. In order to perform its duties under this section and to assist counties, cities, and towns in regulating wetlands, the Commission shall promulgate and periodically update (i) guidelines ~~which~~ that scientifically evaluate vegetated and nonvegetated wetlands by type and describe the consequences of use of these wetlands types *and (ii) minimum standards for protection and conservation of wetlands.* The Virginia Institute of Marine Science shall provide advice and assistance to the

Commission in developing these guidelines *and minimum standards* by evaluating wetlands by type and continuously maintaining and updating an inventory of vegetated wetlands.

D. In developing guidelines, *standards*, or regulations under this chapter the Commission shall consult with all affected state agencies. Consistent with other legal rights, consideration shall be given to the unique character of the Commonwealth's tidal wetlands which are essential for the production of marine and inland wildlife, waterfowl, finfish, shellfish and flora; serve as a valuable protective barrier against floods, tidal storms and the erosion of the Commonwealth's shores and soil; are important for the absorption of silt and pollutants; and are important for recreational and aesthetic enjoyment of the people and for the promotion of tourism, navigation and commerce.

§ 28.2-1302. Adoption of wetlands zoning ordinance; terms of ordinance.

Any county, city or town may adopt the following ordinance, which, after October 1, 1992, shall serve as the only wetlands zoning ordinance under which any wetlands board is authorized to operate. Any county, city, or town which has adopted the ordinance prior to October 1, 1992, shall amend the ordinance to conform it to the ordinance contained herein by October 1, 1992.

Within 48 hours of its determination, the board shall notify the applicant and the Commissioner of its determination. If the board fails to make a determination within the 30-day period, it shall promptly notify the applicant and the Commission that the application is deemed approved. For purposes of this section, "act" means taking a vote on the application. If the application receives less than four affirmative votes from a seven-member board or less than three affirmative votes from a five-member board, the permit shall be denied.

D. If the board's decision is reviewed or appealed, the board shall transmit the record of its hearing to the Commissioner. Upon a final determination by the Commission, the record shall be returned to the board. The record shall be open for public inspection at the same office as was designated under § 5 of this ordinance.

§ 8. The board may require a reasonable bond or letter of credit in an amount and with surety and conditions satisfactory to it, securing to the Commonwealth compliance with the conditions and limitations set forth in the permit. The board may, after a hearing held pursuant to this ordinance, suspend or revoke a permit if the applicant has failed to comply with any of the conditions or limitations set forth in the permit or has exceeded the scope of the work described in the application. The board may, after a hearing, suspend a permit if the applicant fails to comply with the terms and conditions set forth in the application.

§ 9. In fulfilling its responsibilities under this ordinance, the board shall preserve and prevent the despoliation and destruction of wetlands within its jurisdiction while accommodating necessary economic development in a manner consistent with wetlands preservation *and any standards set by the Commonwealth in addition to those identified in § 28.2-1308 to ensure protection of shorelines and sensitive coastal habitats from sea level rise and coastal hazards, including the provisions of guidelines and minimum standards promulgated by the Commission pursuant to § 28.2-1301 of the Code of Virginia.*

§ 10. A. In deciding whether to grant, grant in modified form or deny a permit, the board shall consider the following:

2. The impact of the proposed development on the public health, safety, and welfare; and
3. The proposed development's conformance with standards prescribed in § 28.2-1308 of the Code of Virginia and guidelines promulgated pursuant to § 28.2-1301 of the Code of Virginia.

B. The board shall grant the permit if all of the following criteria are met:

1. The anticipated public and private benefit of the proposed activity exceeds its anticipated public and private detriment.
2. The proposed development conforms with the standards prescribed in § 28.2-1308 of the Code of Virginia and guidelines promulgated pursuant to § 28.2-1301 of the Code of Virginia.
3. The proposed activity does not violate the purposes and intent of this ordinance or Chapter 13 (§ 28.2-1300 et seq.) of Title 28.2 of the Code of Virginia.

C. If the board finds that any of the criteria listed in subsection B of this section are not met, the board shall deny the permit application but allow the applicant to resubmit the application in modified form.

§ 11. The permit shall be in writing, signed by the chairman of the board or his authorized representative, and notarized. A copy of the permit shall be transmitted to the Commissioner.

§ 12. No permit shall be granted without an expiration date established by the board. Upon proper application, the board may extend the permit expiration date.

§ 13. No permit granted by a wetlands board shall in any way affect the applicable zoning and land use ordinances of this _____ (county, city, or town) or the right of any person to seek compensation for any injury in fact incurred by him because of the proposed activity.

§ 28.2-1308. Standards for use and development of wetlands; utilization of guidelines.

A. The following standards shall apply to the use and development of wetlands and shall be considered in the determination of whether any permit required by this chapter should be granted or denied:

1. Wetlands of primary ecological significance shall not be altered so that the ecological systems in the wetlands are unreasonably disturbed; and
2. Development in Tidewater Virginia, to the maximum extent practical, shall be concentrated in wetlands of lesser ecological significance, in vegetated wetlands which have been irreversibly disturbed before July 1, 1972, in nonvegetated wetlands which have been irreversibly disturbed prior to January 1, 1983, and in areas of Tidewater Virginia outside of wetlands.

B. The provisions of guidelines *and minimum standards* promulgated by the Commission pursuant to § 28.2-1301 shall be considered in applying the standards listed in subsection A of this section.

C. When any activity authorized by a permit issued pursuant to this chapter is conditioned upon compensatory mitigation for adverse impacts to wetlands, the applicant may be permitted to satisfy all or part of such mitigation requirements by the purchase or use of credits from any wetlands mitigation bank, including any banks owned by the permit applicant, that has been approved and is operating in accordance with applicable federal and state guidance, laws, or regulations for the establishment, use and operation of mitigation banks as long as (i) the bank is in the same fourth order subbasin, as defined by the hydrologic unit boundaries of the National Watershed Boundary Dataset or by the hydrologic unit system or dataset utilized and depicted or described in the bank's approved mitigation banking instrument, as the impacted site, or in an adjacent subbasin within the same river watershed, as the impacted site, or it meets all the conditions found in clauses (a) through (d) and either clause (e) or (f) of this subsection; (ii) the bank is ecologically preferable to practicable on-site and off-site individual mitigation options, as defined by federal wetland regulations; and (iii) the banking instrument, if approved after July 1, 1996, has been approved by a process that included public review and comment. When the bank is not located in the same subbasin or adjacent subbasin within the same river watershed as the impacted site, the purchase or use of credits shall not be allowed unless the applicant demonstrates to the satisfaction of the Commission that (a) the impacts will occur as a result of a Virginia Department of Transportation linear project or as the result of a locality project for a locality whose jurisdiction encompasses multiple river watersheds; (b) there is no practical same river watershed mitigation alternative; (c) the impacts are less than one acre in a single and complete project within a subbasin; (d) there is no significant harm to water quality or fish and wildlife resources within the river watershed of the impacted site; and either (e) impacts within the Chesapeake Bay watershed are mitigated within the Chesapeake Bay watershed as close as possible to the impacted site or (f) impacts within subbasins 02080108, 02080208, and 03010205, as defined by the National Watershed Boundary Dataset, are mitigated in-kind within those subbasins as close as possible to the impacted site. After July 1, 2002, the provisions of clause (f) shall apply only to impacts within subdivisions of the listed subbasins where overlapping watersheds exist, as determined by the Department of Environmental Quality, provided the Department has made such a determination by that date. For the purposes of this subsection, the hydrologic unit boundaries of the National Watershed Boundary Dataset or other hydrologic unit system may be adjusted by the Department of Environmental Quality to reflect site-specific geographic or hydrologic information provided by the bank sponsor.

D. Where an agreed-upon permit condition requires the contribution of in-lieu fees to offset permitted wetland losses, the wetlands board shall credit the applicant for any in-lieu fee payments made to the Virginia Aquatic Resources Trust Fund or another dedicated wetlands restoration fund with reference to the same activity.

For the purposes of this section, "river watershed" means the Potomac River Basin, Shenandoah River Basin, James River Basin, Rappahannock River Basin, Roanoke and Yadkin Rivers Basin, Chowan River Basin (including the Dismal Swamp and Albemarle Sound), Tennessee River Basin, Big Sandy River Basin, Chesapeake Bay and its Small Coastal Basins, Atlantic Ocean, York River Basin, and the New River Basin.

The filing of any action pursuant to this section shall preclude a criminal prosecution for the same offense, except where the demolition, razing or moving has resulted in personal injury.

C. The defendant may, within twenty-one days after the filing of the petition, file an answer and without admitting liability, agree to restore the building or structure as it existed prior to demolition. If the restoration is completed within the time agreed upon by the parties, or as established by the court, the petition shall be dismissed from the court's docket.

D. Nothing in this section shall preclude action by the zoning administrator ~~under Virginia Code § 15.1-491 (d) or by the governing body under Virginia Code § 15.1-499,~~ *pursuant to the general laws of the Commonwealth* either by separate action or as a part of the petition seeking a civil penalty.

(b) To make grants of funds to owners of dwellings or dwelling units in the city for the purpose of subsidizing, in part, the rental payments due and owing to any such owner by a low- or moderate-income person.

For purposes of this section, the phrase "low- or moderate-income persons" shall have the same meaning as the phrase "persons and families of low and moderate income" as that phrase is used in the Virginia Housing Development Authority Act, and shall be applied using the income guidelines issued by the Virginia Housing Development Authority for use in its single family mortgage loan program.

In addition to being able to exercise the above-mentioned powers with city funds, the city is authorized to participate in any state or federal program related thereto and to use state, federal, or private funds in the exercise of such powers.

The expenditure of any public funds as authorized in this section is hereby declared to be in furtherance of a public purpose.

§ 51. *Severability.* If any ~~clause, sentence, paragraph, section or part~~ *portion* of this ~~act~~ *Charter is declared unconstitutional, invalid, or illegal* by a court of last resort of this State in proper case such invalidity shall not affect or invalidate any other clause, sentence, paragraph or part of this ~~act~~ *Charter* but shall be confined exclusively to the portion so

held invalid. *All portions of this Charter not expressly held to be unconstitutional, invalid, or illegal shall remain in full force and effect.*

2. That §§ 2, 10, 11, 13, as amended, 14-b, 15, as amended, 18, 24, as amended, 26, 27, as amended, 31, 33, as amended, 35, and 45 of Chapter 384 of the Acts of Assembly of 1946 are repealed.

CHAPTER 817

An Act to amend and reenact §§ 55.1-1937 and 55.1-1941 of the Code of Virginia, relating to common interest communities; Virginia Condominium Act; termination of condominium; respective interests of unit owners.

[H 1548]

Approved April 7, 2020

Be it enacted by the General Assembly of Virginia:

**1. That §§ 55.1-1937 and 55.1-1941 of the Code of Virginia are amended and reenacted as follows:
§ 55.1-1937. Termination of condominium.**

A. If there is no unit owner other than the declarant, the declarant may unilaterally terminate the condominium. An instrument terminating a condominium signed by the declarant is effective upon recordation of such instrument. But this section shall not be construed to nullify, limit, or otherwise affect the validity or enforceability of any agreement renouncing or to renounce, in whole or in part, the right hereby conferred.

B. Except in the case of a taking of all the units by eminent domain, if any of the units in the condominium is restricted exclusively to residential use and there is any unit owner other than the declarant, the condominium may be terminated only by the agreement of unit owners of units to which four-fifths of the votes in the unit owners' association appertain, or such larger majority as the condominium instruments may specify. If none of the units in the condominium is restricted exclusively to residential use, the condominium instruments may specify a majority smaller than the minimum specified in this subsection.

C. Agreement of the required majority of unit owners to termination of the condominium shall be evidenced by their execution of a termination agreement, or ratifications of such agreement, and such agreement is effective when a copy of the termination agreement is recorded together with a certification, signed by the principal officer of the unit owners' association or by such other officer as the condominium instruments may specify, that the requisite majority of the unit owners signed the termination agreement or ratifications. Unless the termination agreement otherwise provides, prior to recordation of the termination agreement, a unit owner's prior agreement to terminate the condominium may be revoked only with the approval of unit owners of units to which a majority of the votes in the unit owners' association appertain. *Any unit owner acquiring a unit subsequent to approval of a termination agreement but prior to recordation of the termination agreement shall be deemed to have consented to the termination agreement. Upon approval of a termination agreement and until recordation of the termination agreement, a copy of the termination agreement shall be included with the resale certificate required by § 55.1-1990.* The termination agreement shall specify a date after which the termination agreement is void if the termination agreement is not recorded. For the purposes of this section, an instrument terminating a condominium and any ratification of such instrument shall be deemed a condominium instrument subject to the provisions of § 55.1-1911.

~~D. In the case of a condominium that contains only units having horizontal boundaries described in the condominium instruments, a~~ A termination agreement may provide that all of the common elements and units of the condominium shall be sold *or otherwise disposed of* following termination. If, pursuant to the termination agreement, any property in the condominium is sold *or disposed of* following termination, the termination agreement shall set forth the minimum terms of the sale *or disposition*.

~~E. In the case of a condominium that contains any units not having horizontal boundaries described in the condominium instruments, a termination agreement may provide for sale of the common elements. The termination agreement may not require that the units be sold following termination, unless the condominium instruments as originally recorded provide otherwise or all the unit owners consent to the sale.~~ In the case of a master condominium that contains a unit that is a part of another condominium, a termination agreement for the master condominium shall not terminate the other condominium.

F. On behalf of the unit owners, the unit owners' association may contract for the disposition of property in the condominium, but the contract shall not be binding on the unit owners until approved pursuant to subsections B and C. If the termination agreement requires that any property in the condominium be sold *or otherwise disposed of* following termination, title to the property, upon termination, shall vest in the unit owners' association as trustee for the holders of all interest in the units. Thereafter, the unit owners' association shall have powers necessary and appropriate to effect the sale *or disposition*. Until the termination has been concluded and the proceeds have been distributed, the unit owners' association shall continue in existence with all the powers the unit owners' association had before termination. Proceeds of the sale shall be distributed to unit owners and lien holders as their interests may appear, in proportion to the respective interests of the unit owners as provided in subsection I. Unless otherwise specified in the termination agreement, for as long as the unit owners' association holds title to the property, each unit owner or his successor in interest shall have an exclusive right to occupancy of the portion of the property that formerly constituted his unit. During the period ~~of occupancy by that~~ the unit owner or his successor in interest *has the right to occupancy*, each unit owner or his successor in interest shall remain liable for any assessment or other obligation imposed on the unit owner by this chapter or the condominium instruments.

G. If the property that constitutes the condominium is not sold *or otherwise disposed of* following termination, title to ~~the common elements and, in the case of a condominium containing only units that have horizontal boundaries described in the condominium instruments, title to~~ all the property in the condominium shall vest in the unit owners, upon termination, as tenants in common in proportion to the unit owners' respective interests as provided in subsection I. ~~Any~~ *In such an event, any liens on the units a unit shall shift accordingly, and a lien may be enforced only against a unit owner's tenancy in common interest, but the lien shall not encumber the entire property formerly constituting the condominium.* While the tenancy in common exists, each unit owner or his successor in interest shall have the exclusive right to occupancy of the portion of the property that formerly constituted the unit owner's unit.

H. Following termination of the condominium, the proceeds of any sale of property, together with the assets of the unit owners' association, shall be held by the unit owners' association as trustee for unit owners or lien holders on the units as their interests may appear. Following termination, any creditor of the unit owners' association who holds a lien on the unit that was recorded before termination may enforce the lien in the same manner as any lien holder. Any other creditor of the unit owners' association shall be treated as if he had perfected a lien on the units immediately before termination.

I. Unless the condominium instruments as originally recorded or as amended by 100 percent of the unit owners provide otherwise, the respective interests of unit owners referred to in subsections F, G, and H shall be as follows:

1. *Except as provided in subdivision 3, the respective interests of the unit owners shall be as set forth in the termination agreement.*

2. ~~Except as provided in subdivision 2 3, if the respective interests of the unit owners shall be the~~ *are based on the respective fair market values of their units, limited common elements, and common element interests immediately before the termination, as the fair market values shall be determined by one or more independent appraisers selected by the unit owners' association. The decision of the independent appraisers shall be distributed to the unit owners and become final unless disapproved within 30 days after distribution by unit owners of units to which one quarter of the votes in the unit owners' association appertain. The proportion of any unit owner's interest to the interest of all unit owners is determined by dividing the fair market value of that unit owner's unit and common element interest by the total fair market values of all the units and their common element interests.*

3. *If the method of determining the respective interests of the unit owners in the proceeds of sale or disposition is other than the fair market values, then the association shall provide each unit owner with a notice stating the result of that method for his unit and, no later than 30 days after transmission of that notice, if 10 percent of the unit owners dispute the interest to be distributed to their units, those unit owners may require the association to obtain an independent appraisal of the condominium units. If the fair market value of the units of the objecting unit owners is at least 10 percent more than the amount that the unit owners would have received using the method agreed upon by the membership, then the association shall adjust the respective interests of the unit owners so that each unit owner's share is based on the fair market value for each unit. If the fair market value is less than 10 percent more than the amount that the objecting unit owners would have received using the agreed-upon method, then the agreed-upon method shall be implemented and the objecting unit owners shall receive the distribution less their pro rata share of the cost of their appraisal.*

~~2-4. If the method of determining the respective interests of the unit owners cannot be implemented because any unit or limited common element is destroyed to the extent that an appraisal of the fair market value of such unit or limited common element before destruction cannot be made, the interests of all unit owners are the unit owners' respective common element interests immediately before the termination.~~

5. *Unless the termination agreement provides otherwise, each unit owner shall satisfy and cause the release of any mortgage, deed of trust, lease, or other lien or encumbrance on his unit at the time required by the termination agreement.*

J. Except as provided in subsection K, foreclosure or enforcement of a mortgage, deed of trust, or other lien or encumbrance against the entire condominium shall not alone terminate the condominium, and foreclosure or enforcement of a lien or encumbrance against a portion of the condominium, other than withdrawable land, shall not withdraw that portion from the condominium. Foreclosure or enforcement of a lien or encumbrance against withdrawable land shall not alone withdraw the land from the condominium, but the person who takes title to the withdrawable land shall have the right to require from the unit owners' association, upon request, an amendment that excludes the land from the condominium.

K. If a lien or encumbrance against a portion of the property that comprises the condominium has priority over the condominium instruments and the lien or encumbrance has not been partially released, upon foreclosure, the parties foreclosing the lien or encumbrance may record an instrument that excludes the property subject to the lien or encumbrance from the condominium.

~~L. The foreclosure of any mortgage, deed of trust, or other lien shall not be deemed, ex proprio vigore, to terminate the condominium.~~

§ 55.1-1941. Amendment to condominium instruments; consent of mortgagee.

A. If any provision in the condominium instruments requires the written consent of a mortgagee in order to amend the condominium instruments, the unit owners' association shall be deemed to have received the written consent of a mortgagee if the unit owners' association sends the text of the proposed amendment by certified mail, return receipt requested, to the mortgagee at the address supplied by such mortgagee in a written request to the unit owners' association to receive notice of proposed amendments to the condominium instruments and receives no written objection to the adoption of the amendment from the mortgagee within 60 days of the date that the notice of amendment is sent by the unit owners' association, unless the condominium instruments expressly provide otherwise. If the mortgagee has not supplied an address to the unit owners' association, the unit owners' association shall be deemed to have received the written consent of a mortgagee if the unit owners' association sends the text of the proposed amendment by certified mail, return receipt requested, to the mortgagee at the address filed in the land records or with the local tax assessor's office and receives no written objection to the adoption of the amendment from the mortgagee within 60 days of the date that the notice of amendment is sent by the unit owners' association, unless the condominium instruments expressly provide otherwise.

B. *Any amendment adopted without the required consent of a mortgagee shall be voidable only by an institutional lender that was entitled to notice and an opportunity to consent. An action to void an amendment shall be subject to the one-year statute of limitations set forth in subsection C of § 55.1-1934 beginning on the date of recordation of the amendment.*

C. Subsection A shall not apply to amendments that alter the priority of the lien of the mortgagee or that materially impair or affect the unit as collateral or the right of the mortgagee to foreclose on a unit as collateral.

~~C. D. Where the condominium instruments are silent on the need for mortgagee consent, no mortgagee consent shall be required if the amendment to the condominium instruments does not specifically affect mortgagee rights.~~

CHAPTER 820

An Act to amend and reenact § 15.2-2243 of the Code of Virginia, relating to installation of certain facilities by developer; reimbursement.

[S 360]

Approved April 7, 2020

Be it enacted by the General Assembly of Virginia:

1. That § 15.2-2243 of the Code of Virginia is amended and reenacted as follows:

§ 15.2-2243. Payment by subdivider of the pro rata share of the cost of certain facilities.

A. *A locality may provide in its subdivision ordinance for payment by a subdivider or developer of land of the pro rata share of the cost of providing reasonable and necessary sewerage, water, and drainage facilities, located outside the property*

limits of the land owned or controlled by the subdivider or developer but necessitated or required, at least in part, by the construction or improvement of the subdivision or development; however, no such payment shall be required until such time as the governing body or a designated department or agency thereof has established a general sewer, water, and drainage improvement program for an area having related and common sewer, water, and drainage conditions and within which the land owned or controlled by the subdivider or developer is located or the governing body has committed itself by ordinance to the establishment of such a program. Such regulations or ordinance shall set forth and establish reasonable standards to determine the proportionate share of total estimated cost of ultimate sewerage, water, and drainage facilities required to adequately serve a related and common area, when and if fully developed in accord with the adopted comprehensive plan, that shall be borne by each subdivider or developer within the area. Such share shall be limited to the amount necessary to protect water quality based upon the pollutant loading caused by the subdivision or development or to the proportion of such total estimated cost which the increased sewage flow, water flow, and/or increased volume and velocity of storm water runoff to be actually caused by the subdivision or development bears to total estimated volume and velocity of such sewage, water, and/or runoff from such area in its fully developed state. In calculating the pollutant loading caused by the subdivision or development or the volume and velocity of storm water runoff, the governing body shall take into account the effect of all on-site storm water facilities or best management practices constructed or required to be constructed by the subdivider or developer and give appropriate credit therefor.

B. A locality that has adopted an ordinance pursuant to subsection A may also provide in its subdivision ordinance that, when adequate water, sewerage, or drainage facilities are not available to serve a proposed subdivision or development, the subdivider or developer of the property may be permitted to install reasonable and necessary water, sewerage, and drainage facilities, located on or outside the property limits of the land owned or controlled by the subdivider or developer but necessitated or required, at least in part, by the utility needs of the development or subdivision, including reasonably anticipated capacity, extensions, or maintenance considerations of a utility service plan for the service area. The ordinance may provide that such subdivider or developer may be entitled to reimbursement of a portion of its costs by any subsequent subdivider or developer that utilizes the installed water, sewerage or drainage facilities or from connection fees paid for lots within its development, and the ordinance may limit the duration of the reimbursements. The locality is authorized to administer by ordinance and by adopted reasonable policies and procedures standards for installation of such water, sewerage, and drainage facilities and parameters for pro rata reimbursement or connection or capacity fee reimbursement. The provisions of this subsection shall not be deemed to limit the authority of (i) localities that have not adopted an ordinance pursuant to subsection A or (ii) authorities established pursuant to the Virginia Water and Waste Authorities Act (§ 15.2-5100 et seq.) to establish policies for reimbursement or credits from connection fees or to other utility fund sources to subdividers and developers constructing water, sewerage, or drainage facilities.

C. Each ~~such~~ payment pursuant to subsection A received shall be expended only for necessary engineering and related studies and the construction of those facilities identified in the established sewer, water, and drainage program; however, in lieu of such payment the governing body may provide for the posting of a personal, corporate or property bond, cash escrow, or other method of performance guarantee satisfactory to it conditioned on payment at commencement of such studies or construction. The payments received shall be kept in a separate account for each of the individual improvement programs until such time as they are expended for the improvement program. All bonds, payments, cash escrows, or other performance guarantees hereunder shall be released and used, with any interest earned, as a tax credit on the real estate taxes on the property if construction of the facilities identified in the established water, sewer, and drainage programs is not commenced within ~~twelve~~ 12 years from the date of the posting of the bond, payment, cash escrow, or other performance guarantee.

↵ D. Any funds collected for pro rata programs under this section prior to July 1, 1990, shall continue to be held in separate, interest bearing accounts for the project or projects for which the funds were collected and any interest from such accounts shall continue to accrue to the benefit of the subdivider or developer until such time as the project or projects are completed or until such time as a general sewer and drainage improvement program is established to replace a prior sewer and drainage improvement program. If such a general improvement program is established, the governing body of any locality may abolish any remaining separate accounts and require the transfer of the assets therein into a separate fund for the support of each of the established sewer, water, and drainage programs. Upon the transfer of such assets, subdividers and developers who had met the terms of any existing agreements made under a previous pro rata program shall receive any outstanding interest which has accrued up to the date of transfer, and such subdividers and developers shall be released from any further obligation under those existing agreements. All bonds, payments, cash escrows, or other performance guarantees hereunder shall be released and used, with any interest earned, as a tax credit on the real estate taxes on the property if construction of the facilities identified in the established water, sewer, and drainage programs is not commenced within ~~twelve~~ 12 years from the date of the posting of the bond, payment, cash escrow, or other performance guarantee.

CHAPTER 821

3. Practice as a professional engineer, architect or landscape architect in this Commonwealth by any person not a resident of and having no established place of business in this Commonwealth, or by any person resident in this Commonwealth whose arrival is recent, provided that such person is otherwise qualified for such professional service in another state or country and qualifies in Virginia and files prior to commencement of such practice an application, with the required fee, for licensure as a professional engineer, architect or landscape architect. CHAPTER 823

An Act to amend and reenact § 55.1-1226 of the Code of Virginia, relating to the Residential Landlord and Tenant Act; return of security deposit.

[S 388]

Approved April 7, 2020

Be it enacted by the General Assembly of Virginia:

1. That § 55.1-1226 of the Code of Virginia is amended and reenacted as follows:

§ 55.1-1226. Security deposits.

A. No landlord may demand or receive a security deposit, however denominated, in an amount or value in excess of two months' periodic rent. Upon termination of the tenancy *or the date the tenant vacates the dwelling unit, whichever occurs last*, such security deposit, whether it is property or money held by the landlord as security as provided in this section, may be applied by the landlord solely to (i) the payment of accrued rent, including the reasonable charges for late payment of rent specified in the rental agreement; (ii) the payment of the amount of damages that the landlord has suffered

by reason of the tenant's noncompliance with § 55.1-1227, less reasonable wear and tear; (iii) other damages or charges as provided in the rental agreement; or (iv) actual damages for breach of the rental agreement pursuant to § 55.1-1251. The security deposit and any deductions, damages, and charges shall be itemized by the landlord in a written notice given to the tenant, together with any amount due to the tenant, within 45 days after the termination date of the tenancy. As of the date of the termination of the tenancy or the date the tenant vacates the dwelling unit, whichever occurs last, the tenant shall be required to deliver possession of the dwelling unit to the landlord. If the termination date is prior to the expiration of the rental agreement or any renewal thereof, or the tenant has not given proper notice of termination of the rental agreement, the tenant shall be liable for actual damages pursuant to § 55.1-1251, in which case, the landlord shall give written notice of security deposit disposition within the 45-day period but may retain any security balance to apply against any financial obligations of the tenant to the landlord pursuant to this chapter or the rental agreement. If the tenant fails to vacate the dwelling unit as of the termination of the tenancy, the landlord may file an unlawful detainer action pursuant to § 8.01-126.

B. Where there is more than one tenant subject to a rental agreement, unless otherwise agreed to in writing by each of the tenants, disposition of the security deposit shall be made with one check being payable to all such tenants and sent to a forwarding address provided by one of the tenants. The landlord shall make the security deposit disposition within the 45-day time period required by subsection A, but if no forwarding address is provided to the landlord, the landlord may continue to hold such security deposit in escrow. If a tenant fails to provide a forwarding address to the landlord to enable the landlord to make a refund of the security deposit, upon the expiration of one year from the date of the end of the 45-day time period, the landlord may remit such sum to the State Treasurer as unclaimed property on a form prescribed by the administrator that includes the name; social security number, if known; and last known address of each tenant on the rental agreement. If the landlord or managing agent is a real estate licensee, compliance with this subsection shall be deemed compliance with § 54.1-2108 and corresponding regulations of the Real Estate Board.

C. Nothing in this section shall be construed by a court of law or otherwise as entitling the tenant, upon the termination of the tenancy, to an immediate credit against the tenant's delinquent rent account in the amount of the security deposit. The landlord shall apply the security deposit in accordance with this section within the 45-day time period required by subsection A. However, provided that the landlord has given prior written notice in accordance with this section, the landlord may withhold a reasonable portion of the security deposit to cover an amount of the balance due on the water, sewer, or other utility account that is an obligation of the tenant to a third-party provider under the rental agreement for the dwelling unit, and upon payment of such obligations the landlord shall provide written confirmation to the tenant within 10 days, along with payment to the tenant of any balance otherwise due to the tenant. In order to withhold such funds as part of the disposition of the security deposit, the landlord shall have so advised the tenant of his rights and obligations under this section in (i) a termination notice to the tenant in accordance with this chapter, (ii) a written notice to the tenant confirming the vacating date in accordance with this section, or (iii) a separate written notice to the tenant at least 15 days prior to the disposition of the security deposit. Any written notice to the tenant shall be given in accordance with § 55.1-1202.

The tenant may provide the landlord with written confirmation of the payment of the final water, sewer, or other utility bill for the dwelling unit, in which case the landlord shall refund the security deposit, unless there are other authorized deductions, within the 45-day period required by subsection A. If the tenant provides such written confirmation after the expiration of the 45-day period, the landlord shall refund any remaining balance of the security deposit held to the tenant within 10 days following the receipt of such written confirmation provided by the tenant. If the landlord otherwise receives confirmation of payment of the final water, sewer, or other utility bill for the dwelling unit, the landlord shall refund the security deposit, unless there are other authorized deductions, within the 45-day period.

D. Nothing in this section shall be construed to prohibit the landlord from making the disposition of the security deposit prior to the 45-day period required by subsection A and charging an administrative fee to the tenant for such expedited processing, if the rental agreement so provides and the tenant requests expedited processing in a separate written document.

E. The landlord shall notify the tenant in writing of any deductions provided by this section to be made from the tenant's security deposit during the course of the tenancy. Such notification shall be made within 30 days of the date of the determination of the deduction and shall itemize the reasons in the same manner as provided in subsection F. No such notification shall be required for deductions made less than 30 days prior to the termination of the rental agreement. If the landlord willfully fails to comply with this section, the court shall order the return of the security deposit to the tenant, together with actual damages and reasonable attorney fees, unless the tenant owes rent to the landlord, in which case the court shall order an amount equal to the security deposit credited against the rent due to the landlord. In the event that damages to the premises exceed the amount of the security deposit and require the services of a third-party contractor, the landlord shall give written notice to the tenant advising him of that fact within the 45-day period required by subsection A. If notice is given as prescribed in this subsection, the landlord shall have an additional 15-day period to provide an itemization of the damages and the cost of repair. This section shall not preclude the landlord or tenant from recovering other damages to which he may be entitled under this chapter. The holder of the landlord's interest in the premises at the time of the termination of the tenancy, regardless of how the interest is acquired or transferred, is bound by this section and shall be required to return any security deposit received by the original landlord that is duly owed to the tenant, whether or not such security deposit is transferred with the landlord's interest by law or equity, regardless of any contractual agreements between the original landlord and his successors in interest.

F. The landlord shall:

1. Maintain and itemize records for each tenant of all deductions from security deposits provided for under this section that the landlord has made by reason of a tenant's noncompliance with § 55.1-1227, or for any other reason set out in this section, during the preceding two years; and

2. Permit a tenant or his authorized agent or attorney to inspect such tenant's records of deductions at any time during normal business hours.

G. Upon request by the landlord to a tenant to vacate, or within five days after receipt of notice by the landlord of the tenant's intent to vacate, the landlord shall provide written notice to the tenant of the tenant's right to be present at the landlord's inspection of the dwelling unit for the purpose of determining the amount of security deposit to be returned. If the tenant desires to be present when the landlord makes the inspection, he shall, in writing, so advise the landlord, who in turn shall notify the tenant of the date and time of the inspection, which must be made within 72 hours of delivery of possession. Following the move-out inspection, the landlord shall provide the tenant with a written security deposit disposition statement, including an itemized list of damages. If additional damages are discovered by the landlord after the security deposit disposition has been made, nothing in this section shall be construed to preclude the landlord from recovery of such damages against the tenant, provided, however, that the tenant may present into evidence a copy of the move-out report to support the tenant's position that such additional damages did not exist at the time of the move-out inspection.

H. If the tenant has any assignee or sublessee, the landlord shall be entitled to hold a security deposit from only one party in compliance with the provisions of this section.

CHAPTER 824

[S 401]

Approved April 7, 2020

Be it enacted by the General Assembly of Virginia:

1. That § 8.01-223.2 of the Code of Virginia is amended and reenacted as follows:

A. A person shall be immune from civil liability for a violation of § 18.2-499, a claim of tortious interference with an existing contract or a business or contractual expectancy, or a claim of defamation based solely on statements (i) regarding matters of public concern that would be protected under the First Amendment to the United States Constitution made by that person that are communicated to a third party or (ii) made at a public hearing before the governing body of any locality or other political subdivision, or the boards, commissions, agencies and authorities thereof, and other governing bodies of any local governmental entity concerning matters properly before such body. The immunity provided by this section shall not apply to any statements made with actual or constructive knowledge that they are false or with reckless disregard for whether they are false.

B. Any person who has a suit against him dismissed *or a witness subpoena or subpoena duces tecum quashed* pursuant to the immunity provided by this section may be awarded reasonable attorney fees and costs.

Approved April 7, 2020

Be it enacted by the General Assembly of Virginia:

1. That § 3.15, as amended, of Chapter 619 of the Acts of Assembly of 1975 is amended and reenacted as follows:

§ 3.15. Ordinances.

(a) Action requiring an ordinance. In addition to other acts required by law or by specific provision of this charter to be done by ordinance, those acts of the town council shall be by ordinance which:

(6) Authorize the borrowing of money;

(7) Convey or lease or authorize the conveyance or lease of any lands of the town.

Acts other than those referred to in the preceding sentence may be done either by ordinance or by resolution if not in conflict with law.

Upon introduction of any ordinance, the town clerk shall distribute a copy to each council member and to the manager, shall file a reasonable number of copies in the office of the town clerk and such other public places as the council may designate, and shall publish the ordinance together with a notice setting out the time and place for a public hearing thereon and for its consideration by the council. The public hearing shall follow the publication by at least five days, may be held separately or in connection with a regular or special council meeting and may be adjourned from time to time; all persons interested shall have an opportunity to be heard. *If the council plans to conduct the public hearing but to delay action on the ordinance, the date for the delayed vote shall be stated on the agenda.* After the hearing the council may adopt the ordinance with or without amendment or reject it but, if it is amended so as to materially change the purpose and character of the proposed ordinance, the council may not adopt it until the ordinance or its amended sections have been subjected to all the procedures hereinbefore required for a newly introduced ordinance. *After conducting and closing the public hearing, the council may vote to delay action until its next regular meeting.*

As used in this section, the term "publish" means to print in one or more newspapers of general circulation in the town: (1) the ordinance or a brief summary thereof, and (2) the places where copies of it have been filed and the times when they are available for public inspection.

G. Juveniles adjudicated delinquent shall not be required to register; however, where the offender is a juvenile over the age of 13 at the time of the offense who is tried as a juvenile and is adjudicated delinquent on or after July 1, 2005, of any offense for which registration is required, the court may, in its discretion and upon motion of the attorney for the Commonwealth, find that the circumstances of the offense require offender registration. In making its determination, the court shall consider all of the following factors that are relevant to the case: (i) the degree to which the delinquent act was committed with the use of force, threat, or intimidation, (ii) the age and maturity of the complaining witness, (iii) the age and maturity of the offender, (iv) the difference in the ages of the complaining witness and the offender, (v) the nature of the relationship between the complaining witness and the offender, (vi) the offender's prior criminal history, and (vii) any other aggravating or mitigating factors relevant to the case. The attorney for the Commonwealth may file such a motion at any time during which the offender is within the jurisdiction of the court for the offense that is the basis for such motion. Prior to any hearing on such motion, the court shall appoint a qualified and competent attorney-at-law to represent the offender unless an attorney has been retained and appears on behalf of the offender or counsel has already been appointed.

H. Prior to entering judgment of conviction of an offense for which registration is required if the victim of the offense was a minor, physically helpless, or mentally incapacitated, when the indictment, warrant, or information does not allege that the victim of the offense was a minor, physically helpless, or mentally incapacitated, the court shall determine by a preponderance of the evidence whether the victim of the offense was a minor, physically helpless, or mentally incapacitated, as defined in § 18.2-67.10, and shall also determine the age of the victim at the time of the offense if it determines the victim to be a minor. When such a determination is required, the court shall advise the defendant of its determination and of the defendant's right to make a motion to withdraw a plea of guilty or nolo contendere pursuant to § 19.2-296. If the court grants the defendant's motion to withdraw his plea of guilty or of nolo contendere, his case shall be heard by another judge, unless the parties agree otherwise. Failure to make such determination or so advise the defendant does not otherwise invalidate the underlying conviction.

A program participant may apply to be recertified every three years.

D. Upon receipt of first-class mail addressed to a program participant, the Attorney General or his designee shall forward the mail to the actual address of the program participant. The actual address of a program participant shall be available only to the Attorney General and to those employees involved in the operation of the Address Confidentiality Program and to law-enforcement officers. A program participant's actual address may be entered into the Virginia Criminal Information Network (VCIN) system so that it may be made known to law-enforcement officers accessing the VCIN system for law-enforcement purposes.

The application form shall contain a statement notifying each applicant of the provisions of this subsection.

F. The agency shall accept the address designated by the Office of the Attorney General as a program participant's address, unless the agency has received a written exemption from the Office of the Attorney General demonstrating to the satisfaction of the Attorney General that:

1. The agency has a bona fide statutory basis for requiring the program participant to disclose to it the actual location of the program participant; and

2. The disclosed confidential address of the program participant will be used only for that statutory purpose and will not be disclosed or made available in any way to any other person or agency.

A state agency may request an exemption by providing in writing to the Office of the Attorney General identification of the statute or administrative rule that demonstrates the agency's bona fide requirement and authority for the use of the actual address of an individual. A request for a waiver from an agency may be for an individual program participant, a class of program participants, or all program participants. The denial of an agency's exemption request shall be in writing and include a statement of the specific reasons for the denial. Acceptance or denial of an agency's exemption request shall constitute final agency action.

Any state or local agency that discloses the program participant's confidential address provided by the Office of the Attorney General shall be immune from civil liability unless the agency acted with gross negligence or willful misconduct.

A program participant's actual address shall be disclosed pursuant to a court order.

G. Records submitted to or provided by the Office of the Attorney General in accordance with this section shall be exempt from disclosure under the Virginia Freedom of Information Act (§ 2.2-3700 et seq.) to the extent such records contain information identifying a past or current program participant, including such person's name, actual and designated address, telephone number, and any email address. However, access shall not be denied to the person who is the subject thereof, or the parent or legal guardian of a program participant in cases where the program participant is a minor child or an incapacitated person, except when the parent or legal guardian is named as the program participant's assailant.

H. Neither the Office of the Attorney General, its officers or employees, or others who have a responsibility to a program participant under this section shall have any liability nor shall any cause of action arise against them in their official or personal capacity from the failure of a program participant to receive any first class mail forwarded to him by the Office of the Attorney General pursuant to this section. Nor shall any such liability or cause of action arise from the failure of a program participant to timely receive any first class mail forwarded by the Office of the Attorney General pursuant to this section.

The court shall hold a hearing on the petition, on notice to the attorney for the Commonwealth, to determine whether the person suffers from a mental abnormality or a personality disorder that makes the person a menace to the health and safety of others or significantly impairs his ability to control his sexual behavior. Prior to the hearing the court shall order a comprehensive assessment of the applicant by a panel of three certified sex offender treatment providers as defined in § 54.1-3600. A report of the assessment shall be filed with the court prior to the hearing. The costs of the assessment shall be taxed as costs of the proceeding.

The court shall hold a hearing on the petition, on notice to the attorney for the Commonwealth, to determine whether the person suffers from a physical condition that makes the person (i) no longer a menace to the health and safety of others and (ii) incapable of reregistering *or verifying his registration information*. Prior to the hearing the court shall order a comprehensive assessment of the applicant by at least two licensed physicians other than the person's primary care physician. A report of the assessment shall be filed with the court prior to the hearing. The costs of the assessment shall be taxed as costs of the proceeding.

If, after consideration of the report and such other evidence as may be presented at the hearing, the court finds by clear and convincing evidence that due to his physical condition the person (i) no longer poses a menace to the health and safety of others and (ii) is incapable of reregistering *or verifying his registration information*, the petition shall be granted and the duty to reregister *or verify his registration information* shall be terminated. However, for a person whose duty to reregister *or verify his registration information* was terminated under this subsection, the Department of State Police shall, annually for ~~sex offenders Tier I or Tier II offenders~~ and quarterly for persons convicted of ~~sexually violent Tier III~~ offenses and murder, verify and report to the attorney for the Commonwealth in the jurisdiction in which the person resides that the person continues to suffer from the physical condition that resulted in such termination.

The court shall promptly notify the State Police upon entry of an order granting the petition to terminate the duty to reregister.

If the petition is denied, the duty to reregister shall continue. An appeal from the denial of a petition shall be to the Virginia Supreme Court.

A petition for relief pursuant to this subsection may not be filed within three years from the date on which any previous petition for such relief was denied.

If, at any time, the person's physical condition changes so that he is capable of reoffending ~~or~~, reregistering, *or verifying his registration information*, the attorney for the Commonwealth shall file a petition with the circuit court in the jurisdiction where the person resides and the court shall hold a hearing on the petition, with notice to the person and his guardian, to determine whether the person still suffers from a physical condition that makes the person (i) no longer a menace to the health and safety of others and (ii) incapable of reregistering *or verifying his registration information*. If the petition is granted, the duty to reregister shall commence from the date of the court's order. An appeal from the denial or granting of a petition shall be to the Virginia Supreme Court. Prior to the hearing the court shall order a comprehensive assessment of the applicant by at least two licensed physicians other than the person's primary care physician. A report of the assessment shall be filed with the court prior to the hearing. The costs of the assessment shall be taxed as costs of the proceeding.

The license holder may request the Department to send such renewal notice to an email or other electronic address, upon provision of such address to the Department.

§ 18.2-247. Use of terms "controlled substances," "marijuana," "Schedules I, II, III, IV, V and VI," "imitation controlled substance" and "counterfeit controlled substance" in Title 18.2.

A. Wherever the terms "controlled substances" and "Schedules I, II, III, IV, V and VI" are used in Title 18.2, such terms refer to those terms as they are used or defined in the Drug Control Act (§ 54.1-3400 et seq.).

B. The term "imitation controlled substance" when used in this article means (i) a counterfeit controlled substance or (ii) a pill, capsule, tablet, or substance in any form whatsoever which is not a controlled substance subject to abuse, and:

1. Which by overall dosage unit appearance, including color, shape, size, marking and packaging or by representations made, would cause the likelihood that such a pill, capsule, tablet, or substance in any other form whatsoever will be

mistaken for a controlled substance unless such substance was introduced into commerce prior to the initial introduction into commerce of the controlled substance which it is alleged to imitate; or

2. Which by express or implied representations purports to act like a controlled substance as a stimulant or depressant of the central nervous system and which is not commonly used or recognized for use in that particular formulation for any purpose other than for such stimulant or depressant effect, unless marketed, promoted, or sold as permitted by the United States Food and Drug Administration.

C. In determining whether a pill, capsule, tablet, or substance in any other form whatsoever, is an "imitation controlled substance," there shall be considered, in addition to all other relevant factors, comparisons with accepted methods of marketing for legitimate nonprescription drugs for medicinal purposes rather than for drug abuse or any similar nonmedicinal use, including consideration of the packaging of the drug and its appearance in overall finished dosage form, promotional materials or representations, oral or written, concerning the drug, and the methods of distribution of the drug and where and how it is sold to the public.

D. The term "marijuana" when used in this article means any part of a plant of the genus *Cannabis*, whether growing or not, its seeds or resin; and every compound, manufacture, salt, derivative, mixture, or preparation of such plant, its seeds, or its resin. Marijuana shall not include any oily extract containing one or more cannabinoids unless such extract contains less than 12 percent of tetrahydrocannabinol ~~delta-9-tetrahydrocannabinol~~ by weight, or the mature stalks of such plant, fiber produced from such stalk, oil or cake made from the seed of such plant, unless such stalks, fiber, oil or cake is combined with other parts of plants of the genus *Cannabis*. Marijuana shall not include (i) industrial hemp, as defined in § 3.2-4112, that is possessed by a person registered pursuant to subsection A of § 3.2-4115 or his agent or (ii) a hemp product, as defined in § 3.2-4112, containing a tetrahydrocannabinol concentration of no greater than 0.3 percent that is derived from industrial hemp, as defined in § 3.2-4112, that is grown, dealt, or processed in compliance with state or federal law.

E. The term "counterfeit controlled substance" means a controlled substance that, without authorization, bears, is packaged in a container or wrapper that bears, or is otherwise labeled to bear, the trademark, trade name, or other identifying mark, imprint or device or any likeness thereof, of a drug manufacturer, processor, packer, or distributor other than the manufacturer, processor, packer, or distributor who did in fact so manufacture, process, pack or distribute such drug.

F. The Department of Forensic Science shall determine the proper methods for detecting the concentration of delta-9-tetrahydrocannabinol (THC) in substances for the purposes of this title and §§ 54.1-3401 and 54.1-3446. The testing methodology shall use post-decarboxylation testing or other equivalent method and shall consider the potential conversion of delta-9-tetrahydrocannabinol acid (THC-A) into THC. The test result shall include the total available THC derived from the sum of the THC and THC-A content.

§ 19.2-188.1. Testimony regarding identification of controlled substances.

In any preliminary hearing on a violation of Article 1 (§ 18.2-247 et seq.) of Chapter 7 of Title 18.2 or a violation of subdivision 6 of § 53.1-203, any law-enforcement officer shall be permitted to testify as to the results of field tests that have been approved by the Department of Forensic Science pursuant to regulations adopted in accordance with the Administrative Process Act (§ 2.2-4000 et seq.), regarding whether or not any substance the identity of which is at issue in such hearing is a controlled substance, imitation controlled substance, or marijuana, as defined in § 18.2-247.

B. In any trial for a violation of § 18.2-250.1, any law-enforcement officer shall be permitted to testify as to the results of any marijuana field test approved as accurate and reliable by the Department of Forensic Science pursuant to regulations adopted in accordance with the Administrative Process Act (§ 2.2-4000 et seq.), regarding whether or not any plant material, the identity of which is at issue, is marijuana provided the defendant has been given written notice of his right to request a full chemical analysis. Such notice shall be on a form approved by the Supreme Court and shall be provided to the defendant prior to trial.

In any case in which the person accused of a violation of § 18.2-250.1, or the attorney of record for the accused, desires a full chemical analysis of the alleged plant material, he may, by motion prior to trial before the court in which the charge is pending, request such a chemical analysis. Upon such motion, the court shall order that the analysis be performed by the Department of Forensic Science *in accordance with the provisions of § 18.2-247* and shall prescribe in its order the method of custody, transfer, and return of evidence submitted for chemical analysis.

CHAPTER 833

An Act to amend the Code of Virginia by adding a section numbered 15.2-2305.1, relating to affordable housing dwelling unit ordinances.

[S 834]

Approved April 7, 2020

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding a section numbered 15.2-2305.1 as follows:

§ 15.2-2305.1. Affordable housing dwelling unit ordinances.

A. In furtherance of the purpose of providing affordable shelter for all, the governing body of any locality, other than localities to which § 15.2-2304 applies, may by amendment to the zoning ordinances of such locality provide for an affordable housing dwelling unit program. Such program shall address housing needs, promote a full range of housing choices, and encourage the construction and continued existence of housing affordable to low-and-moderate-income citizens by providing for increases in density to the applicant in exchange for the applicant voluntarily electing to provide such affordable housing. Any local ordinance providing optional increases in density for provision of low-and-moderate-income housing adopted before December 31, 1988, shall continue in full force and effect. Any local ordinance may authorize the governing body to (i) establish qualifying jurisdiction-wide affordable dwelling unit sales prices based on local market conditions, (ii) establish jurisdiction-wide affordable housing dwelling unit qualifying income guidelines, and (iii) offer incentives other than density increases, such as reductions or waivers of permit, development, and infrastructure fees, as the governing body deems appropriate to encourage the provision of affordable housing. Counties to which § 15.2-2304 applies shall be governed by the provisions of § 15.2-2304 for purposes of the adoption of an affordable housing dwelling unit ordinance.

B. Any zoning ordinance establishing an affordable housing dwelling unit program pursuant to this section may include reasonable regulations and provisions as to any or all of the following:

1. For application of the requirements of an affordable housing dwelling unit program to any site, as defined by the locality, or a portion thereof at one location that is the subject of an application for rezoning or special exception or site plan or subdivision plat which yields, as submitted by the applicant, at an equivalent density greater than one unit per acre and that is located within an approved sewer area.

2. The waiver of any fees associated with the construction, renovation, or rehabilitation of a structure, including but not limited to building permit fees, application review fees, and water and sewer connection fees.

3. For standards of compliance with the provisions of an affordable housing dwelling unit program and for the authority of the local governing body or its designee to enforce compliance with such standards and impose reasonable penalties for noncompliance, provided that a local zoning ordinance provide for an appeal process for any party aggrieved by a decision of the local governing body.

4. For establishment of a local housing fund as part of its affordable housing dwelling unit program to assist in achieving the affordable housing goals of the locality pursuant to this section. The local housing fund may be a dedicated fund within the other funds of the locality, but any funds received pursuant to this section shall be used for achieving the affordable housing goals of the locality. A locality shall not condition the submission, review, or approval of any application for a housing development upon a contribution by the applicant to the locality's housing trust fund.

5. For reasonable regulations requiring the affordable dwelling units to be built and offered for sale or rental concurrently with the construction and certificate of occupancy of a reasonable proportion of the market rate units.

6. For administration and regulation by a local housing authority or the local governing body or its designee of the sale and rental of affordable units.

7. For a local housing authority or local governing body or its designee to have an exclusive right to purchase up to one-third of the for-sale affordable housing dwelling units within a development within 90 days of a dwelling unit being completed and ready for purchase, provided that the remaining two-thirds of such units be offered for sale exclusively for a 90-day period to persons who meet the income criteria established by the local housing authority or the local governing body or its designee.

8. For a local housing authority or a local governing body or its designee to have an exclusive right to lease up to a specified percentage of the rental affordable dwelling units within a development within a controlled period determined by the housing authority or the local governing body or its designee, provided that the remaining for-rental affordable dwelling units within a development be offered to persons who meet the income criteria established by the local housing authority or the local governing body or its designee.

9. For the establishment of jurisdiction-wide affordable housing dwelling unit sales prices by the local housing authority or the local governing body or its designee, initially and adjusted semiannually, based on a determination of all ordinary, necessary, and reasonable costs required to construct the affordable dwelling unit prototype dwellings by private industry after considering written comment by the public, the local housing authority, or an advisory body to the local governing body, and other information such as the area's current general market and economic conditions, provided that sales prices do not include the cost of land, on-site sales commissions, and marketing expenses, but may include, among other costs, builder-paid permanent mortgage placement costs and buy-down fees and closing costs except prepaid expenses required at settlement.

10. For the establishment of jurisdiction-wide affordable housing dwelling unit rental prices by a local housing authority or the local governing body or its designee, initially and adjusted semiannually, based on a determination of all ordinary, necessary, and reasonable costs required to construct and market the required number of affordable dwelling rental units by private industry in the area, after considering written comment by the public, the local housing authority, or an advisory body to the local governing body, and other information such as the area's current general market and economic conditions.

11. For a requirement that the prices for the sales and rentals of affordable dwelling units subsequent to the initial sale or rental transaction be controlled by the local housing authority or the local governing body or its designee for a period of not less than 15 years nor more than 50 years after the initial sale or rental transaction for each affordable dwelling unit, provided that the ordinance further provides for reasonable rules and regulations to implement a price control provision.

C. For any building that is four stories or taller and has an elevator, the applicant may request, and the locality shall consider, the unique ancillary costs associated with living in such a building in determining whether such housing will be affordable under the definition established by the locality in its ordinance adopted pursuant to this section. However, for localities under this section in Planning District 8, nothing in this section shall apply to any elevator structure four stories or taller.

D. Any ordinance adopted hereunder shall provide that the local governing body shall have no more than 280 days in which to process site or subdivision plans proposing the development or construction of affordable housing or affordable dwelling units under such ordinance. The calculation of such period of review shall include only the time that plans are in review by the local governing body and shall not include such time as may be required for revision or modification in order to comply with lawful requirements set forth in applicable ordinances and local regulations.

E. Any zoning ordinance establishing an affordable housing dwelling unit program under this section shall adopt the following regulations and provisions to establish an affordable housing density bonus and development standards relief program:

1. Adopt procedures for processing an application authorized under this subdivision, which shall include a provision for a list of all documents and information required to be submitted with an application for a housing development. Procedures authorized by this subdivision shall require the zoning administrator or his designee to make an official determination in writing within 30 days of the application date as to each of the following, as applicable: (i) the amount of density bonus, calculated pursuant to subdivision 2, for which the applicant is eligible; (ii) if the applicant requests a parking ratio pursuant to subdivision 4, the parking ratio for which the applicant is eligible; and (iii) if the applicant requests waivers or reductions of development standards pursuant to subdivision 3, whether the applicant has provided adequate information for the locality to make a determination as to those waivers or reductions of development standards. An appeal by a party aggrieved of an official determination pursuant to this subdivision shall be made to the board of zoning appeals pursuant to § 15.2-2311.

2. The locality shall grant a density bonus, the amount of which shall be as specified in the corresponding table accompanying this subdivision, when an applicant voluntarily seeks and agrees to construct a housing development, excluding any units permitted by the density bonus awarded pursuant to this section, that will contain at least:

a. Ten percent of the total units of a housing development deemed affordable, as defined in this section, for low-income households; or

b. Five percent of the total units of a housing development deemed affordable, as defined in this section, for very-low-income households;

For housing developments meeting the criteria of subdivision a, the density bonus shall be calculated as follows:

For housing developments meeting the criteria of subdivision a or b, an applicant shall be awarded an increase over the otherwise maximum allowable gross residential density as of the date of application by the applicant to the locality, or, if elected by the applicant, a lesser percentage of density increase, including but not limited to no increase in density.

3. An applicant for a density bonus pursuant to subdivision 2 a or b may request a waiver or reduction of local development standards that (i) physically preclude the construction of a project at the density permitted by this section or (ii) impact the financial feasibility of a project submitted pursuant to this section. The locality shall grant the waiver or reduction of local development standards requested by the applicant unless the locality is able to make a written determination that such waiver or reduction would have a specific, adverse impact upon health, safety, or the physical environment. The locality may also recommend to the applicant modifications of the initial request for waiver or reduction of local development standards that would satisfy the locality's concerns. Nothing in this subsection shall be interpreted to require a locality to waive or reduce development standards that would have an adverse impact on any real property that is listed in the Virginia Landmarks Register or National Register of Historic Places or would be contrary to state or federal law.

4. An applicant for a density bonus pursuant to subdivision 2 a or b may request a waiver or reduction in any local parking ratios or requirements. The locality shall grant the waiver or reduction unless the locality is able to make a written determination that such waiver or reduction would have a specific, adverse impact upon health, safety, or the physical environment of residents of the locality. The locality may also recommend to the applicant modifications of the initial request for waiver or reduction of local development standards that would satisfy the locality's concerns. This subdivision does not preclude a locality from reducing or eliminating a parking requirement for development projects of any type in any location.

F. A locality establishing an affordable housing dwelling unit program in any ordinance shall establish in its general ordinances, adopted in accordance with the requirements of subsection B of § 15.2-1427, reasonable regulations and provisions as to the following:

The sales and rental price for affordable dwelling units within a development shall be established such that the owner or applicant, or both, shall not suffer economic loss as a result of providing the required affordable dwelling units. For purposes of this subsection, "economic loss" for sales units means that result when the owner or applicant of a development fails to recoup the cost of construction and certain allowances as may be determined by the designee of the governing body for the affordable dwelling units, exclusive of the cost of land acquisition and cost voluntarily incurred but not authorized by the ordinance, upon the sale of an affordable dwelling unit.

G. Any locality establishing an affordable housing dwelling unit program pursuant to this section shall not condition the submission, review, or approval of any application for a housing development on the basis of an applicant's decision to incorporate units deemed affordable for low-income or very-low-income households.

H. Notwithstanding any other provisions of this chapter, as used in this section, unless the context requires a different meaning:

"Affordable" means, as a guideline, housing that is affordable to households with incomes at or below the area median income, provided that the occupant pays no more than 30 percent of his gross income for gross housing costs, including utilities.

"Density bonus" means a density increase over the otherwise maximum allowable gross residential density as of the date of application by the applicant to the locality, or, if elected by the applicant, a lesser percentage of density increase, including but not limited to no increase in density.

"Development standard" includes any local land use, site, or construction regulation, including but not limited to height restrictions, setback requirements, side yard requirements, minimum area requirements, minimum lot size requirements, floor area ratios, or onsite open-space requirements that applies to a residential or mixed-use development pursuant to any local ordinance, policy, resolution, or regulation.

"Housing development" means a specific work or improvement within the Commonwealth, whether multifamily residential housing or single-family residential housing undertaken primarily to provide dwelling accommodations, including the acquisition, construction, rehabilitation, preservation, or improvement of land, buildings, and improvements thereto, for residential housing, and such other nonhousing facilities as may be incidental, related, or appurtenant thereto.

"Low-income household" means any individual or family whose incomes do not exceed 80 percent of the area median income for the locality in which the housing development is being proposed.

"Maximum allowable residential density" means the density allowed under the zoning ordinance and land use element of the comprehensive plan, or, if a range of density is permitted, means the maximum allowable density for the specific zoning range and land use element of the general plan applicable to the project. If the density allowed under the zoning ordinance is inconsistent with the density allowed under the land use element of the general plan, the general plan density shall prevail.

"Very-low-income household" means any individual or family whose incomes do not exceed 50 percent of the area median income for the locality in which the housing development is being proposed.

The facility shall be either (i) licensed by the State Board of Health pursuant to Chapter 5 (§ 32.1-123 et seq.) of Title 32.1 or by the Department of Behavioral Health and Developmental Services pursuant to Article 2 (§ 37.2-403 et seq.) of Chapter 4 of Title 37.2 or (ii) a state agency or institution.

Any condition defined by the health benefit plan as being or as not being a mental health condition shall be defined to be consistent with generally recognized independent standards of current medical practice.

"Mental health treatment center" means a treatment facility organized to provide care and treatment for mental illness through multiple modalities or techniques pursuant to a written plan approved and monitored by a physician, clinical psychologist, or a psychologist licensed to practice in this Commonwealth. Such a program shall provide treatment over a period of six or more continuous hours per day to individuals or groups of individuals who are not admitted as inpatients. Such term shall also include intensive outpatient programs for the treatment of alcohol or other drug dependence which provide treatment over a period of three or more continuous hours per day to individuals or groups of individuals who are not admitted as inpatients.

"Substance abuse services" or "substance use disorder benefits" means benefits with respect to items or services for substance use disorders as defined under the terms of the health benefit plan. B. Except as provided in subsections C and D, group and individual health insurance coverage, as defined in § 38.2-3431, shall provide mental health and substance use disorder benefits. Such benefits shall be in parity with the medical and surgical benefits contained in the coverage in accordance with the Mental Health Parity and Addiction Equity Act of 2008, P.L. 110-343, even where those requirements would not otherwise apply directly.

C. Any grandfathered plan as defined in § 38.2-3438 in the small group market shall either continue to provide benefits in accordance with subsection B or continue to provide coverage for inpatient and partial hospitalization mental health and substance abuse services as follows:

Up to 10 days of the inpatient benefit set forth in subdivisions 1 and 2 of this subsection may be converted when medically necessary at the option of the person or the parent, as defined in § 16.1-336, of a child or adolescent receiving such treatment to a partial hospitalization benefit applying a formula which shall be no less favorable than an exchange of 1.5 days of partial hospitalization coverage for each inpatient day of coverage. An insurance policy or subscription contract described herein that provides inpatient benefits in excess of 20 days per policy or contract year for adults or 25 days per policy or contract year for a child or adolescent may provide for the conversion of such excess days on the terms set forth in this subdivision.

4. The limits of the benefits set forth in this subsection shall not be more restrictive than for any other illness, except that the benefits may be limited as set out in this subsection.

5. This subsection shall not apply to any excepted benefits policy as defined in § 38.2-3431, nor to policies or contracts designed for issuance to persons eligible for coverage under Title XVIII of the Social Security Act, known as Medicare, or any other similar coverage under state or federal governmental plans.

1. A minimum of 20 visits for outpatient treatment of an adult, child or adolescent shall be provided in each policy or contract year.

2. The limits of the benefits set forth in this subsection shall be no more restrictive than the limits of benefits applicable to physical illness; however, the coinsurance factor applicable to any outpatient visit beyond the first five of such visits covered in any policy or contract year shall be at least 50 percent.

3. For the purpose of this section, medication management visits shall be covered in the same manner as a medication management visit for the treatment of physical illness and shall not be counted as an outpatient treatment visit in the calculation of the benefit set forth herein.

4. For the purpose of this subsection, if all covered expenses for a visit for outpatient mental health or substance abuse treatment apply toward any deductible required by a policy or contract, such visit shall not count toward the outpatient visit benefit maximum set forth in the policy or contract.

5. This subsection shall not apply to any excepted benefits policy as defined in § 38.2-3431, nor to policies or contracts designed for issuance to persons eligible for coverage under Title XVIII of the Social Security Act, known as Medicare, or any other similar coverage under state or federal governmental plans.

E. The requirements of this section shall apply to all insurance policies and subscription contracts delivered, issued for delivery, reissued, renewed, or extended, or at any time when any term of the policy or contract is changed or any premium adjustment made.

F. The provisions of this section shall not apply in any instance in which the provisions of this section are inconsistent or in conflict with a provision of Article 6 (§ 38.2-3438 et seq.) of Chapter 34.

G. *The Bureau of Insurance (the Bureau), in consultation with health carriers providing coverage for mental health and substance use disorder benefits pursuant to this section, shall develop reporting requirements regarding denied claims, complaints, appeals, and network adequacy involving such coverage set forth in this section. By September 1 of each year,*

the Bureau shall (i) compile the information for the preceding year into a report that ensures the confidentiality of individuals whose information has been reported and is written in nontechnical, readily understandable language; (ii) make the report available to the public by, among such other means as the Bureau finds appropriate, posting the reports on the Bureau's website; and (iii) submit the report to the House Committee on Labor and Commerce and the Senate Committee on Commerce and Labor.

3. That the third enactment of Chapter 649 of the Acts of Assembly of 2015 is repealed.

Discussion, consideration, or interviews of prospective candidates for employment; assignment, appointment, promotion, performance, demotion, salaries, disciplining, or resignation of specific public officers, appointees, or employees of any public body; and evaluation of performance of departments or schools of public institutions of higher education where such evaluation will necessarily involve discussion of the performance of specific individuals. Any teacher shall be permitted to be present during a closed meeting in which there is a discussion or consideration of a disciplinary matter that involves the teacher and some student and the student involved in the matter is present, provided the teacher makes a written request to be present to the presiding officer of the appropriate board. However, any such student, legal counsel and, if the student is a minor, the student's parents or legal guardians shall be permitted to be present during the taking of testimony or presentation of evidence at a closed meeting, if such student, parents, or guardians so request in writing and such request is submitted to the presiding officer of the appropriate board.

3. Discussion or consideration of the acquisition of real property for a public purpose, or of the disposition of publicly held real property, where discussion in an open meeting would adversely affect the bargaining position or negotiating strategy of the public body.
