The Board of Pharmacy shall not charge a fee for the issuance of such controlled substance registration. The dispensing may occur at a site other than that of the controlled substance registration provided the entity possessing the controlled substances registration maintains records in accordance with regulations of the Board of Pharmacy. No person who dispenses naloxone on behalf of an organization pursuant to this subsection shall charge a fee for the dispensing of naloxone that is greater than the cost to the organization of obtaining the naloxone dispensed. A. The following persons who, in their professional or official capacity, have reason to suspect that a child is an abused or neglected child, shall report the matter immediately to the local department of the county or city wherein the child resides or wherein the abuse or neglect is believed to have occurred or to the Department's toll-free child abuse and neglect hotline:

1. Any person licensed to practice medicine or any of the healing arts;

14. Any person employed by a local department as defined in § 63.2-100 who determines eligibility for public assistance;
15. Any emergency medical services provider certified by the Board of Health pursuant to § 32.1-111.5, unless such provider immediately reports the matter directly to the attending physician at the hospital to which the child is transported, who shall make such report forthwith;
16. Any athletic coach, director or other person 18 years of age or older employed by or volunteering with a *public or private sports organization or team*;
17. Administrators or employees 18 years of age or older of public or private day camps, youth centers and youth recreation programs;
18. Any person employed by a public or private institution of higher education other than an attorney who is employed by a public or private institution of higher education as it relates to information gained in the course of providing legal representation to a client; and
19. Any minister, priest, rabbi, imam, or duly accredited practitioner of any religious organization or denomination usually referred to as a church, unless the information supporting the suspicion of child abuse or neglect (i) is required by the doctrine of the religious organization or denomination to be kept in a confidential manner or (ii) would be subject to § 8.01-400 or 19.2-271.3 if offered as evidence in court.

If neither the locality in which the child resides nor where the abuse or neglect is believed to have occurred is known, then such report shall be made to the local department of the county or city where the abuse or neglect was discovered or to the Department's toll-free child abuse and neglect hotline.

If an employee of the local department is suspected of abusing or neglecting a child, the report shall be made to the court of the county or city where the abuse or neglect was discovered. Upon receipt of such a report by the court, the judge shall assign the report to a local department that is not the employer of the suspected employee for investigation or family assessment. The judge may consult with the Department in selecting a local department to respond to the report or the complaint.

If the information is received by a teacher, staff member, resident, intern or nurse in the course of professional services in a hospital, school or similar institution, such person may, in place of said report, immediately notify the person in charge of the institution or department, or his designee, who shall make such report forthwith. If the initial report of suspected abuse or neglect is made to the person in charge of the institution or department, or his designee, pursuant to this subsection, such person shall notify the teacher, staff member, resident, intern or nurse who made the initial report when the report of suspected child abuse or neglect is made to the local department or to the Department's toll-free child abuse and neglect hotline, and of the name of the individual receiving the report, and shall forward any communication resulting from the report, including any information about any actions taken regarding the report, to the person who made the initial report.

The initial report may be an oral report but such report shall be reduced to writing by the child abuse coordinator of the local department on a form prescribed by the Board. Any person required to make the report pursuant to this subsection shall disclose all information that is the basis for his suspicion of abuse or neglect of the child and, upon request, shall make available to the child-protective services coordinator and the local department, which is the agency of jurisdiction, any information, records, or reports that document the basis for the report. All persons required by this subsection to report suspected abuse or neglect who maintain a record of a child who is the subject of such a report shall cooperate with the investigating agency and shall make related information, records and reports available to the investigating agency unless such disclosure violates the federal Family Educational Rights and Privacy Act (20 U.S.C. § 1232g). Provision of such information, records, and reports by a health care provider shall not be prohibited by § 8.01-399. Criminal investigative reports received from law-enforcement agencies shall not be further disseminated by the investigating agency nor shall they be subject to public disclosure.

B. For purposes of subsection A, "reason to suspect that a child is abused or neglected" shall, due to the special medical needs of infants affected by substance exposure, include (i) a finding made by a health care provider within six weeks of the birth of a child that the child was born affected by substance abuse or experiencing withdrawal symptoms resulting from in utero drug exposure; (ii) a diagnosis made by a health care provider within four years following a child's birth that the child has an illness, disease, or condition that, to a reasonable degree of medical certainty, is attributable to maternal abuse of a controlled substance during pregnancy; or (iii) a diagnosis made by a health care provider within four years following a child's birth that the child has a fetal alcohol spectrum disorder attributable to in utero exposure to alcohol. When "reason to

suspect" is based upon this subsection, such fact shall be included in the report along with the facts relied upon by the person making the report. Such reports shall not constitute a per se finding of child abuse or neglect. If a health care provider in a licensed hospital makes any finding or diagnosis set forth in clause (i), (ii), or (iii), the hospital shall require the development of a written discharge plan under protocols established by the hospital pursuant to subdivision B 6 of § 32.1-127.

C. Any person who makes a report or provides records or information pursuant to subsection A or who testifies in any judicial proceeding arising from such report, records, or information shall be immune from any civil or criminal liability or administrative penalty or sanction on account of such report, records, information, or testimony, unless such person acted in bad faith or with malicious purpose.

D. Any person required to file a report pursuant to this section who fails to do so as soon as possible, but not longer than 24 hours after having reason to suspect a reportable offense of child abuse or neglect, shall be fined not more than \$500 for the first failure and for any subsequent failures not less than \$1,000. In cases evidencing acts of rape, sodomy, or object sexual penetration as defined in Article 7 (§ 18.2-61 et seq.) of Chapter 4 of Title 18.2, a person who knowingly and intentionally fails to make the report required pursuant to this section shall be guilty of a Class 1 misdemeanor.

E. No person shall be required to make a report pursuant to this section if the person has actual knowledge that the same matter has already been reported to the local department or the Department's toll-free child abuse and neglect hotline.

Except in cases involving a medical emergency, the examination required pursuant to clause (iii) shall be performed by the practitioner prescribing the controlled substance, a practitioner who practices in the same group as the practitioner prescribing the controlled substance, or a consulting practitioner. ~~In cases in which the practitioner is an employee of or contracted by the Department of Health or a local health department and is providing expedited partner therapy consistent with the recommendations of the Centers for Disease Control and Prevention, the examination required by clause (iii) shall not be required.~~

A practitioner who has established a bona fide practitioner-patient relationship with a patient in accordance with the provisions of this subsection may prescribe Schedule II through VI controlled substances to that patient, provided that, in cases in which the practitioner has performed the examination required pursuant to clause (iii) by use of instrumentation and diagnostic equipment through which images and medical records may be transmitted electronically, the prescribing of such Schedule II through V controlled substance is in compliance with federal requirements for the practice of telemedicine.

For the purpose of prescribing a Schedule VI controlled substance to a patient via telemedicine services as defined in § 38.2-3418.16, a prescriber may establish a bona fide practitioner-patient relationship by an examination through face-to-face interactive, two-way, real-time communications services or store-and-forward technologies when all of the following conditions are met: (a) the patient has provided a medical history that is available for review by the prescriber; (b) the prescriber obtains an updated medical history at the time of prescribing; (c) the prescriber makes a diagnosis at the time of prescribing; (d) the prescriber conforms to the standard of care expected of in-person care as appropriate to the patient's age and presenting condition, including when the standard of care requires the use of diagnostic testing and performance of a physical examination, which may be carried out through the use of peripheral devices appropriate to the patient's condition; (e) the prescriber is actively licensed in the Commonwealth and authorized to prescribe; (f) if the patient is a member or enrollee of a health plan or carrier, the prescriber has been credentialed by the health plan or carrier as a participating provider and the diagnosing and prescribing meets the qualifications for reimbursement by the health plan or carrier pursuant to § 38.2-3418.16; and (g) upon request, the prescriber provides patient records in a timely manner in accordance with the provisions of § 32.1-127.1:03 and all other state and federal laws and regulations. Nothing in this paragraph shall permit a prescriber to establish a bona fide practitioner-patient relationship for the purpose of prescribing a Schedule VI controlled substance when the standard of care dictates that an in-person physical examination is necessary for diagnosis. Nothing in this paragraph shall apply to: (1) a prescriber providing on-call coverage per an agreement with another prescriber or his prescriber's professional entity or employer; (2) a prescriber consulting with another prescriber regarding a patient's care; or (3) orders of prescribers for hospital out-patients or in-patients.

For purposes of this section, a bona fide veterinarian-client-patient relationship is one in which a veterinarian, another veterinarian within the group in which he practices, or a veterinarian with whom he is consulting has assumed the responsibility for making medical judgments regarding the health of and providing medical treatment to an animal as defined in § 3.2-6500, other than an equine as defined in § 3.2-6200, a group of agricultural animals as defined in § 3.2-6500, or bees as defined in § 3.2-4400, and a client who is the owner or other caretaker of the animal, group of agricultural animals, or bees has consented to such treatment and agreed to follow the instructions of the veterinarian. Evidence that a veterinarian has assumed responsibility for making medical judgments regarding the health of and providing medical treatment to an animal, group of agricultural animals, or bees shall include evidence that the veterinarian (A) has sufficient knowledge of the animal, group of agricultural animals, or bees to provide a general or preliminary diagnosis of the medical condition of the animal, group of agricultural animals, or bees; (B) has made an examination of the animal, group of agricultural animals, or bees, either physically or by the use of instrumentation and diagnostic equipment through which images and medical records may be transmitted electronically or has become familiar with the care and keeping of that species of animal or bee on the premises of the client, including other premises within the same operation or production system of the client, through medically appropriate and timely visits to the premises at which the animal, group of agricultural animals, or bees are kept; and (C) is available to provide follow-up care.

C. A prescription shall only be issued for a medicinal or therapeutic purpose in the usual course of treatment or for authorized research. A prescription not issued in the usual course of treatment or for authorized research is not a valid prescription. A practitioner who prescribes any controlled substance with the knowledge that the controlled substance will

be used otherwise than for medicinal or therapeutic purposes shall be subject to the criminal penalties provided in § 18.2-248 for violations of the provisions of law relating to the distribution or possession of controlled substances.

D. No prescription shall be filled unless a bona fide practitioner-patient-pharmacist relationship exists. A bona fide practitioner-patient-pharmacist relationship shall exist in cases in which a practitioner prescribes, and a pharmacist dispenses, controlled substances in good faith to a patient for a medicinal or therapeutic purpose within the course of his professional practice.

In cases in which it is not clear to a pharmacist that a bona fide practitioner-patient relationship exists between a prescriber and a patient, a pharmacist shall contact the prescribing practitioner or his agent and verify the identity of the patient and name and quantity of the drug prescribed.

Any person knowingly filling an invalid prescription shall be subject to the criminal penalties provided in § 18.2-248 for violations of the provisions of law relating to the sale, distribution or possession of controlled substances.

E. Notwithstanding any provision of law to the contrary and consistent with recommendations of the Centers for Disease Control and Prevention or the Department of Health, a practitioner may prescribe Schedule VI antibiotics and antiviral agents to other persons in close contact with a diagnosed patient when (i) the practitioner meets all requirements of a bona fide practitioner-patient relationship, as defined in subsection B, with the diagnosed patient; and (ii) in the practitioner's professional judgment, the practitioner deems there is urgency to begin treatment to prevent the transmission of a communicable disease; ~~(iii) the practitioner has met all requirements of a bona fide practitioner-patient relationship, as defined in subsection B, for the close contact except for the physical examination required in clause (iii) of subsection B; and (iv) when such emergency treatment is necessary to prevent imminent risk of death, life-threatening illness, or serious disability.~~ In cases in which the practitioner is an employee of or contracted by the Department of Health or a local health department, the ~~bona fide~~ bona fide practitioner-patient relationship with the diagnosed patient, as required by clause (i), shall not be required.

F. A pharmacist may dispense a controlled substance pursuant to a prescription of an out-of-state practitioner of medicine, osteopathy, podiatry, dentistry, optometry, or veterinary medicine, a nurse practitioner, or a physician assistant authorized to issue such prescription if the prescription complies with the requirements of this chapter and the Drug Control Act (§ 54.1-3400 et seq.).

G. A licensed nurse practitioner who is authorized to prescribe controlled substances pursuant to § 54.1-2957.01 may issue prescriptions or provide manufacturers' professional samples for controlled substances and devices as set forth in the Drug Control Act (§ 54.1-3400 et seq.) in good faith to his patient for a medicinal or therapeutic purpose within the scope of his professional practice.

H. A licensed physician assistant who is authorized to prescribe controlled substances pursuant to § 54.1-2952.1 may issue prescriptions or provide manufacturers' professional samples for controlled substances and devices as set forth in the Drug Control Act (§ 54.1-3400 et seq.) in good faith to his patient for a medicinal or therapeutic purpose within the scope of his professional practice.

I. A TPA-certified optometrist who is authorized to prescribe controlled substances pursuant to Article 5 (§ 54.1-3222 et seq.) of Chapter 32 may issue prescriptions in good faith or provide manufacturers' professional samples to his patients for medicinal or therapeutic purposes within the scope of his professional practice for the drugs specified on the TPA-Formulary, established pursuant to § 54.1-3223, which shall be limited to (i) analgesics included on Schedule II controlled substances as defined in § 54.1-3448 of the Drug Control Act (§ 54.1-3400 et seq.) consisting of hydrocodone in combination with acetaminophen; (ii) oral analgesics included in Schedules III through VI, as defined in §§ 54.1-3450 and 54.1-3455 of the Drug Control Act (§ 54.1-3400 et seq.), which are appropriate to relieve ocular pain; (iii) other oral Schedule VI controlled substances, as defined in § 54.1-3455 of the Drug Control Act, appropriate to treat diseases and abnormal conditions of the human eye and its adnexa; (iv) topically applied Schedule VI drugs, as defined in § 54.1-3455 of the Drug Control Act; and (v) intramuscular administration of epinephrine for treatment of emergency cases of anaphylactic shock.

J. The requirement for a bona fide practitioner-patient relationship shall be deemed to be satisfied by a member or committee of a hospital's medical staff when approving a standing order or protocol for the administration of influenza vaccinations and pneumococcal vaccinations in a hospital in compliance with § 32.1-126.4.

K. Notwithstanding any other provision of law, a prescriber may authorize a registered nurse or licensed practical nurse to approve additional refills of a prescribed drug for no more than 90 consecutive days, provided that (i) the drug is classified as a Schedule VI drug; (ii) there are no changes in the prescribed drug, strength, or dosage; (iii) the prescriber has a current written protocol, accessible by the nurse, that identifies the conditions under which the nurse may approve additional refills; and (iv) the nurse documents in the patient's chart any refills authorized for a specific patient pursuant to the protocol and the additional refills are transmitted to a pharmacist in accordance with the allowances for an authorized agent to transmit a prescription orally or by facsimile pursuant to subsection C of § 54.1-3408.01 and regulations of the Board.

§ 54.1-3408.01. Requirements for prescriptions.

A. The written prescription referred to in § 54.1-3408 shall be written with ink or individually typed or printed. The prescription shall contain the name, address, and telephone number of the prescriber. A prescription for a controlled substance other than one controlled in Schedule VI shall also contain the federal controlled substances registration number

assigned to the prescriber. The prescriber's information shall be either preprinted upon the prescription blank, electronically printed, typewritten, rubber stamped, or printed by hand.

The written prescription shall contain the first and last name of the patient for whom the drug is prescribed. The address of the patient shall either be placed upon the written prescription by the prescriber or his agent, or by the dispenser of the prescription. *If the prescriber is providing expedited partner therapy pursuant to § 54.1-3303 and the contact patient's name and address are unavailable, then "Expedited Partner Therapy" or "EPT" shall be affixed on the written prescription, in lieu of the contact patient's name and address.* If not otherwise prohibited by law, the dispenser may record the address of the patient in an electronic prescription dispensing record for that patient in lieu of recording it on the prescription. Each written prescription shall be dated as of, and signed by the prescriber on, the day when issued. The prescription may be prepared by an agent for the prescriber's signature.

This section shall not prohibit a prescriber from using preprinted prescriptions for drugs classified in Schedule VI if all requirements concerning dates, signatures, and other information specified above are otherwise fulfilled.

No written prescription order form shall include more than one prescription. However, this provision shall not apply (i) to prescriptions written as chart orders for patients in hospitals and long-term-care facilities, patients receiving home infusion services or hospice patients, or (ii) to a prescription ordered through a pharmacy operated by or for the Department of Corrections or the Department of Juvenile Justice, the central pharmacy of the Department of Health, or the central outpatient pharmacy operated by the Department of Behavioral Health and Developmental Services; or (iii) to prescriptions written for patients residing in adult and juvenile detention centers, local or regional jails, or work release centers operated by the Department of Corrections.

B. Prescribers' orders, whether written as chart orders or prescriptions, for Schedules II, III, IV, and V controlled drugs to be administered to (i) patients or residents of long-term care facilities served by a Virginia pharmacy from a remote location or (ii) patients receiving parenteral, intravenous, intramuscular, subcutaneous or intraspinal infusion therapy and served by a home infusion pharmacy from a remote location, may be transmitted to that remote pharmacy by an electronic communications device over telephone lines which send the exact image to the receiver in hard copy form, and such facsimile copy shall be treated as a valid original prescription order. If the order is for a radiopharmaceutical, a physician authorized by state or federal law to possess and administer medical radioactive materials may authorize a nuclear medicine technologist to transmit a prescriber's verbal or written orders for radiopharmaceuticals.

C. The oral prescription referred to in § 54.1-3408 shall be transmitted to the pharmacy of the patient's choice by the prescriber or his authorized agent. For the purposes of this section, an authorized agent of the prescriber shall be an employee of the prescriber who is under his immediate and personal supervision, or if not an employee, an individual who holds a valid license allowing the administration or dispensing of drugs and who is specifically directed by the prescriber.

§ 54.1-3410. When pharmacist may sell and dispense drugs.

A. A pharmacist, acting in good faith, may sell and dispense drugs and devices to any person pursuant to a prescription of a prescriber as follows:

1. A drug listed in Schedule II shall be dispensed only upon receipt of a written prescription that is properly executed, dated and signed by the person prescribing on the day when issued and bearing the full name and address of the patient for whom, or of the owner of the animal for which, the drug is dispensed, and the full name, address, and registry number under the federal laws of the person prescribing, if he is required by those laws to be so registered. If the prescription is for an animal, it shall state the species of animal for which the drug is prescribed;

2. In emergency situations, Schedule II drugs may be dispensed pursuant to an oral prescription in accordance with the Board's regulations;

3. Whenever a pharmacist dispenses any drug listed within Schedule II on a prescription issued by a prescriber, he shall affix to the container in which such drug is dispensed, a label showing the prescription serial number or name of the drug; the date of initial filling; his name and address, or the name and address of the pharmacy; the name of the patient or, if the patient is an animal, the name of the owner of the animal and the species of the animal; the name of the prescriber by whom the prescription was written, except for those drugs dispensed to a patient in a hospital pursuant to a chart order; and such directions as may be stated on the prescription.

B. A drug controlled by Schedules III through VI or a device controlled by Schedule VI shall be dispensed upon receipt of a written or oral prescription as follows:

1. If the prescription is written, it shall be properly executed, dated and signed by the person prescribing on the day when issued and bear the full name and address of the patient for whom, or of the owner of the animal for which, the drug is dispensed, and the full name and address of the person prescribing. If the prescription is for an animal, it shall state the species of animal for which the drug is prescribed. *If the prescription is for expedited partner therapy pursuant to § 54.1-3303 and the contact patient's name and address are unavailable, the prescription shall state "Expedited Partner Therapy" or "EPT" in lieu of the full name and address of the contact patient.*

2. If the prescription is oral, the prescriber shall furnish the pharmacist with the same information as is required by law in the case of a written prescription for drugs and devices, except for the signature of the prescriber.

A pharmacist who dispenses a Schedule III through VI drug or device shall label the drug or device as required in subdivision A 3 of this section. *However, if the pharmacist dispenses a Schedule III through VI drug or device for expedited partner therapy pursuant to § 54.1-3303 and the contact patient's name and address are unavailable, the prescription shall state "Expedited Partner Therapy" or "EPT" in lieu of the full name and address of the contact patient.*

C. A drug controlled by Schedule VI may be refilled without authorization from the prescriber if, after reasonable effort has been made to contact him, the pharmacist ascertains that he is not available and the patient's health would be in imminent danger without the benefits of the drug. The refill shall be made in compliance with the provisions of § 54.1-3411.

If the written or oral prescription is for a Schedule VI drug or device and does not contain the address or registry number of the prescriber, or the address of the patient, the pharmacist need not reduce such information to writing if such information is readily retrievable within the pharmacy. *If the prescription is for a Schedule VI drug or device for expedited partner therapy pursuant to § 54.1-3303 and the contact patient's name and address are unavailable, then labeling the name and address of the contact patient is not required.*

D. Pursuant to authorization of the prescriber, an agent of the prescriber on his behalf may orally transmit a prescription for a drug classified in Schedules III through VI if, in such cases, the written record of the prescription required by this subsection specifies the full name of the agent of the prescriber transmitting the prescription.

E. (Effective July 1, 2020) A dispenser who receives a non-electronic prescription for a controlled substance containing an opioid is not required to verify that one of the exceptions set forth in § 54.1-3408.02 applies and may dispense such controlled substance pursuant to such prescription and applicable law.

2. That the third enactment of Chapter 790 of the Acts of Assembly of 2018 is repealed.

CHAPTER 465

An Act to amend and reenact §§ 32.1-261 and 32.1-269 of the Code of Virginia, relating to Board of Health; certificate of birth; change of sex.

[H 1041]

Approved March 25, 2020

Be it enacted by the General Assembly of Virginia:

1. That §§ 32.1-261 and 32.1-269 of the Code of Virginia are amended and reenacted as follows:

§ 32.1-261. New certificate of birth established on proof of adoption, legitimation or determination of paternity, or change of sex.

A. The State Registrar shall establish a new certificate of birth for a person born in the Commonwealth upon receipt of the following:

1. An adoption report as provided in § 32.1-262, a report of adoption prepared and filed in accordance with the laws of another state or foreign country, or a certified copy of the decree of adoption together with the information necessary to identify the original certificate of birth and to establish a new certificate of birth; except that a new certificate of birth shall not be established if so requested by the court decreeing the adoption, the adoptive parents, or the adopted person if 18 years of age or older.

2. A request that a new certificate be established and such evidence as may be required by regulation of the Board proving that such person has been legitimated or that a court of the Commonwealth has, by final order, determined the paternity of such person. The request shall state that no appeal has been taken from the final order and that the time allowed to perfect an appeal has expired.

3. An order entered pursuant to subsection D of § 20-160. The order shall contain sufficient information to identify the original certificate of birth and to establish a new certificate of birth in the names of the intended parents.

4. A surrogate consent and report form as authorized by § 20-162. The report shall contain sufficient information to identify the original certificate of birth and to establish a new certificate of birth in the names of the intended parents.

5. *Upon request of a person and in accordance with requirements of the Board, the State Registrar shall issue a new certificate of birth to show a change of sex of the person and, if a certified copy of a court order changing the person's name is submitted, to show a new name. Requirements related to obtaining a new certificate of birth to show a change of sex shall include a requirement that the person requesting the new certificate of birth submit a form furnished by the state registrar and completed by a health care provider from whom the person has received treatment stating that the person has undergone clinically appropriate treatment for gender transition. Requirements related to obtaining a new certificate of birth to show a change of sex shall not include any requirement for evidence or documentation of any medical procedure.*

6. *Nothing in this section shall deprive the circuit court of equitable jurisdiction to adjudicate, upon application of a person, that the sex of such person residing within the territorial jurisdiction of the circuit court has been changed. In such an action, the person may petition for the application of the standard of the person's jurisdiction of birth; otherwise, the requirements of this section shall apply.*

B. When a new certificate of birth is established pursuant to subsection A, the actual place and date of birth shall be shown. It shall be substituted for the original certificate of birth. Thereafter, the original certificate and the evidence of adoption, paternity or legitimation shall be sealed and filed and not be subject to inspection except upon order of a court of the Commonwealth or in accordance with § 32.1-252. However, upon receipt of notice of a decision or order granting an adult adopted person access to identifying information regarding his birth parents from the Commissioner of Social Services or a circuit court, and proof of identification and payment, the State Registrar shall mail an adult adopted person a copy of the original certificate of birth.

C. Upon receipt of a report of an amended decree of adoption, the certificate of birth shall be amended as provided by regulation.

D. Upon receipt of notice or decree of annulment of adoption, the original certificate of birth shall be restored to its place in the files and the new certificate and evidence shall not be subject to inspection except upon order of a court of the Commonwealth or in accordance with § 32.1-252.

E. The State Registrar shall, upon request, establish and register a Virginia certificate of birth for a person born in a foreign country (i) upon receipt of a report of adoption for an adoption finalized pursuant to the laws of the foreign country as provided in subsection B of § 63.2-1200.1, or (ii) upon receipt of a report or final order of adoption entered in a court of the Commonwealth as provided in § 32.1-262; however, a Virginia certificate of birth shall not be established or registered if so requested by the court decreeing the adoption, the adoptive parents or the adopted person if 18 years of age or older. If a circuit court of the Commonwealth corrects or establishes a date of birth for a person born in a foreign country during the adoption proceedings or upon a petition to amend a certificate of foreign birth, the State Registrar shall issue a certificate showing the date of birth established by the court. After registration of the birth certificate in the new name of the adopted person, the State Registrar shall seal and file the report of adoption which shall not be subject to inspection except upon order of a court of the Commonwealth or in accordance with § 32.1-252. The birth certificate shall (i) show the true or probable foreign country of birth and (ii) state that the certificate is not evidence of United States citizenship for the child for whom it is issued or for the adoptive parents. However, for any adopted person who has attained United States citizenship, the State Registrar shall, upon request and receipt of evidence demonstrating such citizenship, establish and register a new certificate of birth that does not contain the statement required by clause (ii).

F. If no certificate of birth is on file for the person for whom a new certificate is to be established under this section, a delayed certificate of birth shall be filed with the State Registrar as provided in § 32.1-259 or 32.1-260 before a new certificate of birth is established, except that when the date and place of birth and parentage have been established in the adoption proceedings, a delayed certificate shall not be required.

G. When a new certificate of birth is established pursuant to subdivision A 1, the State Registrar shall issue along with the new certificate of birth a document, furnished by the Department of Social Services pursuant to § 63.2-1220, listing all post-adoption services available to adoptive families.

§ 32.1-269. Amending vital records; change of name; acknowledgment of paternity.

A. A vital record registered under this chapter, with the exception of a death certificate, may be amended only in accordance with this section and such regulations as may be adopted by the Board to protect the integrity and accuracy of such vital records. Such regulations shall specify the minimum evidence required for a change in any such vital record.

B. Except in the case of an amendment provided for in subsection D, a vital record that is amended under this section shall be marked "amended" and the date of amendment and a summary description of the evidence submitted in support of the amendment shall be endorsed on or made a part of the vital record. The Board shall prescribe by regulation the conditions under which omissions or errors on certificates, including designation of sex, may be corrected within one year after the date of the event without the certificate being marked amended. In a case of hermaphroditism or pseudo-hermaphroditism, the certificate of birth may be corrected at any time without being considered as amended upon presentation to the State Registrar of such medical evidence as the Board may require by regulation.

C. Upon receipt of a certified copy of a court order changing the name of a person as listed in a vital record and upon request of such person or his parent, guardian, or legal representative or the registrant, the State Registrar shall amend such vital records to reflect the new name.

D. Upon written request of both parents and receipt of a sworn acknowledgment of paternity executed subsequent to the birth and signed by both parents of a child born out of wedlock, the State Registrar shall amend the certificate of birth to show such paternity if paternity is not shown on the birth certificate. Upon request of the parents, the surname of the child shall be changed on the certificate to that of the father.

~~E. Upon receipt of a certified copy of an order of a court of competent jurisdiction indicating that the sex of an individual has been changed by medical procedure and upon request of such person, the State Registrar shall amend such person's certificate of birth to show the change of sex and, if a certified copy of a court order changing the person's name is submitted, to show a new name.~~

~~F. When an applicant does not submit the minimum documentation required by regulation to amend a vital record or when the State Registrar finds reason to question the validity or sufficiency of the evidence, the vital record shall not be amended and the State Registrar shall so advise the applicant. An aggrieved applicant may petition the circuit court of the county or city in which he resides or the Circuit Court of the City of Richmond, Division I, for an order compelling the State Registrar to amend the vital record; an aggrieved applicant who was born in Virginia, but is currently residing out of State, may petition any circuit court in the Commonwealth for such an order. The State Registrar or his authorized representative may appear and testify in such proceeding.~~

2. That the State Registrar shall develop the form required by § 32.1-261, as amended and reenacted in this act, by September 1, 2020.

[S 657]

Approved March 25, 2020

Be it enacted by the General Assembly of Virginia:**1. That §§ 32.1-261 and 32.1-269 of the Code of Virginia are amended and reenacted as follows:****§ 32.1-261. New certificate of birth established on proof of adoption, legitimation or determination of paternity, or change of sex.**

A. The State Registrar shall establish a new certificate of birth for a person born in the Commonwealth upon receipt of the following:

1. An adoption report as provided in § 32.1-262, a report of adoption prepared and filed in accordance with the laws of another state or foreign country, or a certified copy of the decree of adoption together with the information necessary to identify the original certificate of birth and to establish a new certificate of birth; except that a new certificate of birth shall not be established if so requested by the court decreeing the adoption, the adoptive parents, or the adopted person if 18 years of age or older.

2. A request that a new certificate be established and such evidence as may be required by regulation of the Board proving that such person has been legitimated or that a court of the Commonwealth has, by final order, determined the paternity of such person. The request shall state that no appeal has been taken from the final order and that the time allowed to perfect an appeal has expired.

3. An order entered pursuant to subsection D of § 20-160. The order shall contain sufficient information to identify the original certificate of birth and to establish a new certificate of birth in the names of the intended parents.

4. A surrogate consent and report form as authorized by § 20-162. The report shall contain sufficient information to identify the original certificate of birth and to establish a new certificate of birth in the names of the intended parents.

5. *Upon request of a person and in accordance with requirements of the Board, the State Registrar shall issue a new certificate of birth to show a change of sex of the person and, if a certified copy of a court order changing the person's name is submitted, to show a new name. Requirements related to obtaining a new certificate of birth to show a change of sex shall include a requirement that the person requesting the new certificate of birth submit a form furnished by the State Registrar and completed by a health care provider from whom the person has received treatment stating that the person has undergone clinically appropriate treatment for gender transition. Requirements related to obtaining a new certificate of birth to show a change of sex shall not include any requirement for evidence or documentation of any medical procedure.*

6. *Nothing in this section shall deprive the circuit court of equitable jurisdiction to adjudicate, upon application of a person, that the sex of such person residing within the territorial jurisdiction of the circuit court has been changed. In such an action, the person may petition for the application of the standard of the person's jurisdiction of birth; otherwise, the requirements of this section shall apply.*

B. When a new certificate of birth is established pursuant to subsection A, the actual place and date of birth shall be shown. It shall be substituted for the original certificate of birth. Thereafter, the original certificate and the evidence of adoption, paternity or legitimation shall be sealed and filed and not be subject to inspection except upon order of a court of the Commonwealth or in accordance with § 32.1-252. However, upon receipt of notice of a decision or order granting an adult adopted person access to identifying information regarding his birth parents from the Commissioner of Social Services or a circuit court, and proof of identification and payment, the State Registrar shall mail an adult adopted person a copy of the original certificate of birth.

C. Upon receipt of a report of an amended decree of adoption, the certificate of birth shall be amended as provided by regulation.

D. Upon receipt of notice or decree of annulment of adoption, the original certificate of birth shall be restored to its place in the files and the new certificate and evidence shall not be subject to inspection except upon order of a court of the Commonwealth or in accordance with § 32.1-252.

E. The State Registrar shall, upon request, establish and register a Virginia certificate of birth for a person born in a foreign country (i) upon receipt of a report of adoption for an adoption finalized pursuant to the laws of the foreign country as provided in subsection B of § 63.2-1200.1, or (ii) upon receipt of a report or final order of adoption entered in a court of the Commonwealth as provided in § 32.1-262; however, a Virginia certificate of birth shall not be established or registered if so requested by the court decreeing the adoption, the adoptive parents or the adopted person if 18 years of age or older. If a circuit court of the Commonwealth corrects or establishes a date of birth for a person born in a foreign country during the adoption proceedings or upon a petition to amend a certificate of foreign birth, the State Registrar shall issue a certificate showing the date of birth established by the court. After registration of the birth certificate in the new name of the adopted person, the State Registrar shall seal and file the report of adoption which shall not be subject to inspection except upon order of a court of the Commonwealth or in accordance with § 32.1-252. The birth certificate shall (i) show the true or probable foreign country of birth and (ii) state that the certificate is not evidence of United States citizenship for the child for whom it is issued or for the adoptive parents. However, for any adopted person who has attained United States

citizenship, the State Registrar shall, upon request and receipt of evidence demonstrating such citizenship, establish and register a new certificate of birth that does not contain the statement required by clause (ii).

F. If no certificate of birth is on file for the person for whom a new certificate is to be established under this section, a delayed certificate of birth shall be filed with the State Registrar as provided in § 32.1-259 or 32.1-260 before a new certificate of birth is established, except that when the date and place of birth and parentage have been established in the adoption proceedings, a delayed certificate shall not be required.

G. When a new certificate of birth is established pursuant to subdivision A 1, the State Registrar shall issue along with the new certificate of birth a document, furnished by the Department of Social Services pursuant to § 63.2-1220, listing all post-adoption services available to adoptive families.

§ 32.1-269. Amending vital records; change of name; acknowledgment of paternity.

A. A vital record registered under this chapter, with the exception of a death certificate, may be amended only in accordance with this section and such regulations as may be adopted by the Board to protect the integrity and accuracy of such vital records. Such regulations shall specify the minimum evidence required for a change in any such vital record.

B. Except in the case of an amendment provided for in subsection D, a vital record that is amended under this section shall be marked "amended" and the date of amendment and a summary description of the evidence submitted in support of the amendment shall be endorsed on or made a part of the vital record. The Board shall prescribe by regulation the conditions under which omissions or errors on certificates, including designation of sex, may be corrected within one year after the date of the event without the certificate being marked amended. In a case of hermaphroditism or pseudo-hermaphroditism, the certificate of birth may be corrected at any time without being considered as amended upon presentation to the State Registrar of such medical evidence as the Board may require by regulation.

[H 120]

Approved March 25, 2020

Be it enacted by the General Assembly of Virginia:

1. That §§ 15.2-5113, 15.2-5928, 15.2-5931, 15.2-5932, and 15.2-5933 of the Code of Virginia are amended and reenacted as follows:

§ 15.2-5113. Members of authority board; chief administrative or executive officer.

A. 1. The powers of each authority created by the governing body of a single locality shall be exercised by an authority board of five members, or at the option of the board of supervisors of a county, a number of board members equal to the number of members of the board of supervisors. The powers of each authority created by the governing bodies of two or more localities shall be exercised by the number of authority board members specified in its articles of incorporation, which shall be not less than one member from each participating locality and not less than a total of five members. The board members of an authority shall be selected in the manner and for the terms provided by the agreement or ordinance or resolution or concurrent ordinances or resolutions creating the authority. One or more members of the governing body or one or more directors of an industrial or economic development authority of a locality may be appointed board members of

the authority, the provisions of any other law to the contrary notwithstanding. No board member shall be appointed for a term of more than four years. When one or more additional political subdivisions join an existing authority, each of such joining political subdivisions shall have at least one member on the board. Board members shall hold office until their successors have been appointed and may succeed themselves. The board members of the authority shall elect one of their number chairman, and shall elect a secretary and treasurer who need not be members. The offices of secretary and treasurer may be combined.

2. *Notwithstanding the provisions of subdivision A 1, if the City of Virginia Beach forms a community development authority pursuant to the provisions of Article 6 (§ 15.2-5152 et seq.) for the purpose of developing the sports and entertainment district, as defined in § 15.2-5928, the board of such authority may consist of a number of members equal to the number of members of the governing body of the City of Virginia Beach.*

B. A majority of board members shall constitute a quorum and the vote of a majority of board members shall be necessary for any action taken by the authority. An authority may, by bylaw, provide a method to resolve tie votes or deadlocked issues.

C. No vacancy in the board membership of the authority shall impair the right of a quorum to exercise all the rights and perform all the duties of the authority. If a vacancy occurs by reason of the death, disqualification or resignation of a board member, the governing body of the political subdivision which appointed the authority board member shall appoint a successor to fill the unexpired term. Whenever a political subdivision withdraws its membership from an authority, the term of any board member appointed to the board of the authority from such political subdivision shall immediately terminate. Board members shall receive such compensation as fixed by resolution of the governing body or bodies which are members of the authority, and shall be reimbursed for any actual expenses necessarily incurred in the performance of their duties.

D. Alternate board members may also be selected. Such alternates shall be selected in the same manner and shall have the same qualifications as the board members except that an alternate for an elected board member need not be an elected official. The term of each alternate shall be the same as the term of the board member for whom each serves as an alternate; however, the alternate's term shall not expire because of the board member's death, disqualification, resignation, or termination of employment with the member's political subdivision. If a board member is not present at a meeting of the authority, the alternate for that board member shall have all the voting and other rights of a board member and shall be counted for purposes of determining a quorum.

E. The board members may appoint a chief administrative or executive officer who shall serve at the pleasure of the board members. He shall execute and enforce the orders and resolutions adopted by the board members and perform such duties as may be delegated to him by the board members.

G. Any taxpayer who claims the tax credit for Virginia qualified research and development expenses pursuant to this section shall not use such expenses as the basis for claiming any other credit provided under the Code of Virginia.

H. Effective for taxable years beginning on or after January 1, 2016, no taxpayer with Virginia qualified research and development expenses in excess of \$5 million for the taxable year shall claim both the credit allowed pursuant to this section and the credit allowed under § 58.1-439.12:11 for such year.

J. The Department shall adopt guidelines to prescribe standards for determining when research and development is considered conducted in the Commonwealth for purposes of allowing the credit under this section. In adopting guidelines, the Department may consider (i) the location where the research and development is performed; (ii) the residence or business location of the taxpayer or taxpayers conducting the research and development; (iii) the location where supplies used in the research and development are consumed; and (iv) any other factors that the Department deems to be relevant.

If the taxpayer did not pay or incur Virginia qualified research and development expenses in any one of the three taxable years immediately preceding the taxable year for which the credit is being determined, the tax credit shall equal five percent of the Virginia qualified research and development expenses paid or incurred by the taxpayer during the relevant taxable year.

C. ~~The 1.~~ For taxable years beginning before January 1, 2021, the aggregate amount of credits granted for each fiscal year of the Commonwealth pursuant to this section shall not exceed \$20 million.

2. For taxable years beginning on and after January 1, 2021, the aggregate amount of credits granted for each fiscal year of the Commonwealth pursuant to this section shall not exceed \$24 million.

D. In the event that approved applications for the tax credits allowed under this section exceed ~~\$20 million~~ the limit described in subsection C for any taxable year, the Department shall apportion the credits by dividing ~~\$20 million~~ such limit by the total amount of tax credits approved, to determine the percentage of allowed tax credits each taxpayer shall receive.

E. The amount of the credit claimed for the taxable year shall not exceed 75 percent of the total amount of tax imposed by this chapter upon the taxpayer for the taxable year. Any credit not usable for the taxable year for which the credit was

first allowed may be carried over for credit against the income taxes of the taxpayer in the next 10 succeeding taxable years or until the total amount of the tax credit has been taken, whichever is sooner.

F. Any taxpayer who claims the tax credit for Virginia qualified research and development expenses pursuant to this section shall not use such expenses as the basis for claiming any other credit provided under the Code of Virginia.

G. "Restrictive covenant" means any specification in any instrument affecting title to real property that purports to limit the use, occupancy, transfer, rental, or lease of any dwelling because of race, color, religion, national origin, sex, elderliness, familial status, or handicap.

"Source of funds" means any source that lawfully provides funds to or on behalf of a renter or buyer of housing, including any assistance, benefit, or subsidy program, whether such program is administered by a governmental or nongovernmental entity.

"To rent" means to lease, to sublease, to let, or otherwise to grant for consideration the right to occupy premises not owned by the occupant.

§ 36-96.2. Exemptions.

A. Except as provided in subdivision A 3 of § 36-96.3 and subsections A, B, and C of § 36-96.6, this chapter shall not apply to any single-family house sold or rented by an owner, provided that such private individual does not own more than three single-family houses at any one time. In the case of the sale of any single-family house by a private individual-owner not residing in the house at the time of the sale or who was not the most recent resident of the house prior to sale, the exemption granted shall apply only with respect to one such sale within any 24-month period; provided that such bona fide private individual owner does not own any interest in, nor is there owned or reserved on his behalf, under any express or voluntary agreement, title to or any right to all or a portion of the proceeds from the sale or rental of, more than three such single-family houses at any one time. The sale or rental of any such single-family house shall be exempt from the application of this chapter only if the house is sold or rented (i) without the use in any manner of the sales or rental facilities or the sales or rental services of any real estate broker, agent, salesperson, or of the facilities or the services of any person in the business of selling or renting dwellings, or of any employee, independent contractor, or agent of any broker, agent, salesperson, or person and (ii) without the publication, posting, or mailing, after notice, of any advertisement or written notice in violation of this chapter. However, nothing herein shall prohibit the use of attorneys, escrow agents, abstractors, title companies, and other professional assistance as necessary to perfect or transfer the title. This exemption shall not apply to or inure to the benefit of any licensee of the Real Estate Board or regulant of the Fair Housing Board, regardless of whether the licensee is acting in his personal or professional capacity.

B. Except for subdivision A 3 of § 36-96.3, this chapter shall not apply to rooms or units in dwellings containing living quarters occupied or intended to be occupied by no more than four families living independently of each other, if the owner actually maintains and occupies one of such living quarters as his residence.

C. Nothing in this chapter shall prohibit a religious organization, association or society, or any nonprofit institution or organization operated, supervised, or controlled by or in conjunction with a religious organization, association or society, from limiting the sale, rental, or occupancy of dwellings that it owns or operates for other than a commercial purpose to persons of the same religion, or from giving preferences to such persons, unless membership in such religion is restricted on account of race, color, national origin, sex, elderliness, familial status, or handicap. Nor shall anything in this chapter apply to a private membership club not in fact open to the public, which as an incident to its primary purpose or purposes provides lodging which it owns or operates for other than a commercial purpose, from limiting the rental or occupancy of such lodgings to its members or from giving preference to its members. Nor, where matters of personal privacy are involved, shall anything in this chapter be construed to prohibit any private, state-owned or state-supported educational institution, hospital, nursing home, religious or correctional institution, from requiring that persons of both sexes not occupy any single-family residence or room or unit of dwellings or other buildings, or restrooms in such room or unit in dwellings or other buildings, which it owns or operates.

D. Nothing in this chapter prohibits conduct against a person because such person has been convicted by any court of competent jurisdiction of the illegal manufacture or distribution of a controlled substance as defined in federal law.

E. It shall not be unlawful under this chapter for any owner to deny or limit the rental of housing to persons who pose a clear and present threat of substantial harm to others or to the dwelling itself.

F. A rental application may require disclosure by the applicant of any criminal convictions and the owner or managing agent may require as a condition of acceptance of the rental application that applicant consent in writing to a criminal record check to verify the disclosures made by applicant in the rental application. The owner or managing agent may collect from the applicant moneys to reimburse the owner or managing agent for the exact amount of the out-of-pocket costs for such criminal record checks. Nothing in this chapter shall require an owner or managing agent to rent a dwelling to an individual who, based on a prior record of criminal convictions involving harm to persons or property, would constitute a clear and present threat to the health or safety of other individuals.

G. Nothing in this chapter limits the applicability of any reasonable local, state or federal restriction regarding the maximum number of occupants permitted to occupy a dwelling. Owners or managing agents of dwellings may develop and implement reasonable occupancy and safety standards based on factors such as the number and size of sleeping areas or bedrooms and overall size of a dwelling unit so long as the standards do not violate local, state or federal restrictions. Nothing in this chapter prohibits the rental application or similar document from requiring information concerning the number, ages, sex and familial relationship of the applicants and the dwelling's intended occupants.

H. Nothing in this chapter shall prohibit an owner or an owner's managing agent from denying or limiting the rental or occupancy of a rental dwelling unit to a person because of such person's source of funds, provided that such owner does not own more than four rental dwelling units in the Commonwealth at the time of the alleged discriminatory housing practice. However, if an owner, whether individually or through a business entity, owns more than a 10 percent interest in more than four rental dwelling units in the Commonwealth at the time of the alleged discriminatory housing practice, the exemption provided in this subsection shall not apply.

I. It shall not be unlawful under this chapter for an owner or an owner's managing agent to deny or limit a person's rental or occupancy of a rental dwelling unit based on the person's source of funds for that unit if such source is not approved within 15 days of the person's submission of the request for tenancy approval.

§ 36-96.3. Unlawful discriminatory housing practices.

A. It shall be an unlawful discriminatory housing practice for any person to:

1. ~~To refuse~~ *Refuse* to sell or rent after the making of a bona fide offer or ~~to~~ refuse to negotiate for the sale or rental of, or otherwise make unavailable or deny, a dwelling to any person because of race, color, religion, national origin, sex, elderliness, *source of funds*, or familial status;

2. ~~To discriminate~~ *Discriminate* against any person in the terms, conditions, or privileges of sale or rental of a dwelling, or in the provision of services or facilities in the connection therewith to any person because of race, color, religion, national origin, sex, elderliness, *source of funds*, or familial status;

3. ~~To make~~ *Make*, print, or publish, or cause to be made, printed, or published any notice, statement, or advertisement, with respect to the sale or rental of a dwelling that indicates any preference, limitation, or discrimination or an intention to make any such preference, limitation, or discrimination based on race, color, religion, national origin, sex, elderliness, familial status, *source of funds*, or handicap. The use of words or symbols associated with a particular religion, national origin, sex, or race shall be prima facie evidence of an illegal preference under this chapter ~~which~~ *that* shall not be overcome by a general disclaimer. However, reference alone to places of worship, including; ~~but not limited to~~; churches, synagogues, temples, or mosques, in any such notice, statement, or advertisement shall not be prima facie evidence of an illegal preference;

4. ~~To represent~~ *Represent* to any person because of race, color, religion, national origin, sex, elderliness, familial status, *source of funds*, or handicap that any dwelling is not available for inspection, sale, or rental when such dwelling is in fact so available;

5. ~~To deny~~ *Deny* any person access to membership in or participation in any multiple listing service, real estate brokers' organization, or other service, organization, or facility relating to the business of selling or renting dwellings; or ~~to~~ discriminate against such person in the terms or conditions of such access, membership, or participation because of race, color, religion, national origin, sex, elderliness, familial status, *source of funds*, or handicap;

6. ~~To include~~ *Include* in any transfer, sale, rental, or lease of housing; any restrictive covenant that discriminates because of race, color, religion, national origin, sex, elderliness, familial status, *source of funds*, or handicap or for any person to honor or exercise, or attempt to honor or exercise, any such discriminatory covenant pertaining to housing;

7. ~~To induce~~ *Induce* or attempt to induce to sell or rent any dwelling by representations regarding the entry or prospective entry into the neighborhood of a person or persons of a particular race, color, religion, national origin, sex, elderliness, familial status, *source of funds*, or handicap;

8. ~~To refuse~~ *Refuse* to sell or rent, or refuse to negotiate for the sale or rental of, or otherwise discriminate or make unavailable or deny a dwelling because of a handicap of (i) the buyer or renter; (ii) a person residing in or intending to reside in that dwelling after it is so sold, rented, or made available; or (iii) any person associated with the buyer or renter; *or*

9. ~~To discriminate~~ *Discriminate* against any person in the terms, conditions, or privileges of sale or rental of a dwelling, or in the provision of services or facilities in connection therewith, because of a handicap of (i) that person; (ii) a person residing in or intending to reside in that dwelling after it was so sold, rented, or made available; or (iii) any person associated with that buyer or renter.

B. For the purposes of this section, discrimination includes: (i) a refusal to permit, at the expense of the handicapped person, reasonable modifications of existing premises occupied or to be occupied by any person if such modifications may be necessary to afford such person full enjoyment of the premises; except that, in the case of a rental, the landlord may, where it is reasonable to do so, condition permission for a modification on the renter's agreeing to restore the interior of the premises to the condition that existed before the modification, reasonable wear and tear excepted; (ii) a refusal to make reasonable accommodations in rules, practices, policies, or services when such accommodations may be necessary to afford such person equal opportunity to use and enjoy a dwelling; or (iii) in connection with the design and construction of covered multi-family dwellings for first occupancy after March 13, 1991, a failure to design and construct dwellings in such a manner that:

1. The public use and common use areas of the dwellings are readily accessible to and usable by handicapped persons;
2. All the doors designed to allow passage into and within all premises are sufficiently wide to allow passage by handicapped persons in wheelchairs; and
3. All premises within covered multi-family dwelling units contain an accessible route into and through the dwelling; light switches, electrical outlets, thermostats, and other environmental controls are in accessible locations; there are reinforcements in the bathroom walls to allow later installation of grab bars; and there are usable kitchens and bathrooms such that an individual in a wheelchair can maneuver about the space. As used in this subdivision, the term "covered multi-family dwellings" means buildings consisting of four or more units if such buildings have one or more elevators and ground floor units in other buildings consisting of four or more units.

C. Compliance with the appropriate requirements of the American National Standards for Building and Facilities (commonly cited as "ANSI A117.1") or with any other standards adopted as part of regulations promulgated by HUD providing accessibility and usability for physically handicapped people shall be deemed to satisfy the requirements of subdivision B 3.

D. Nothing in this chapter shall be construed to invalidate or limit any Virginia law or regulation ~~which~~ *that* requires dwellings to be designed and constructed in a manner that affords handicapped persons greater access than is required by this chapter.

B. *The provisions of this section shall not be construed to limit the authority of any locality (i) as authorized by any other provision of law or (ii) to first enact, revise, or amend any ordinance or action created pursuant to subsection A prior to or subsequent to a person offering motorized skateboards or scooters, bicycles, or electric power-assisted bicycles for hire in the locality.*

2. That any person who offers motorized skateboards or scooters, bicycles, or electric power-assisted bicycles for hire in any locality that has not enacted any licensing ordinance, regulation, or other action regulating such business on or after January 1, 2020, and prior to the effective date of this act may continue to operate in such locality and shall be subject to any subsequent regulations.

Instead of proceeding under subsection A, an individual registered as an athlete agent in another state may apply for registration as an athlete agent in the Commonwealth by submitting to the Director (i) a copy of the application for registration in the other state; (ii) a statement that identifies any material change in the information on that application or verifies there is no material change in the information, signed under penalty of perjury; and (iii) a copy of the certificate of registration from the other state.

C. The Director shall issue a certificate of registration to an individual who applies for registration under subsection B if the Director determines that (i) the application and registration requirements of the other state are substantially similar to or more restrictive than the requirements in this chapter and (ii) the registration has not been revoked or suspended and no action involving the individual's conduct as an athlete agent is pending against the individual or the individual's registration in any state.

D. For purposes of implementing subsection C, the Director shall (i) cooperate with national organizations concerned with athlete agent issues and agencies in other states that register athlete agents to develop a common registration form and determine which states have laws that are substantially similar to or more restrictive than this chapter and (ii) exchange information, including information related to actions taken against registered athlete agents or their registrations, with those organizations and agencies.

§ 54.1-523. Certificate of registration; issuance or denials; renewal.

A. Except as otherwise provided in subsection B, the Director shall issue a certificate of registration to an applicant for registration who complies with subsection A of § 54.1-522.

B. The Director may refuse to issue a certificate of registration to an applicant for registration under subsection A of § 54.1-522 if the Director determines that the applicant has engaged in conduct that significantly adversely reflects on the applicant's fitness to act as an athlete agent. In making the determination, the Director may consider whether the applicant has (i) pleaded guilty or no contest to, has been convicted of, or has charges pending for a crime that would involve moral turpitude or be a felony if committed in the Commonwealth; (ii) made a materially false, misleading, deceptive, or fraudulent representation in the application or as an athlete agent; (iii) engaged in conduct that would disqualify the applicant from serving in a fiduciary capacity; (iv) engaged in conduct prohibited by § 54.1-531; (v) had a registration as an athlete agent suspended, revoked, or denied in any state; (vi) been refused renewal of registration as an athlete agent in any state; (vii) engaged in conduct resulting in imposition of a sanction, suspension, or declaration of ineligibility to participate in an interscholastic or intercollegiate athletic event of a student-athlete or a sanction on an educational institution; or (viii) engaged in conduct that adversely reflects on the applicant's credibility, honesty, or integrity.

C. In making a determination under subsection B, the Director shall consider (i) how recently the conduct occurred, (ii) the nature of the conduct and the context in which it occurred, and (iii) other relevant conduct of the applicant.

D. An athlete agent registered under subsection A may apply to renew the registration by submitting an application for renewal in a form prescribed by the Director. The applicant shall sign the application for renewal under penalty of perjury and include current information on all matters required in an original application for registration.

E. An athlete agent registered under subsection C of § 54.1-522 may renew the registration by proceeding under subsection D or, if the registration in the other state has been renewed, by submitting to the Director copies of the application for renewal in the other state and the renewed registration from the other state. The Director shall renew the registration if the Director determines (i) the registration requirements of the other state are substantially similar to or more restrictive than the requirements in this chapter and (ii) the renewed registration has not been suspended or revoked and no action involving the individual's conduct as an athlete agent is pending against the individual or the individual's registration in any state.

F. A certificate of registration or renewal of registration under this chapter is valid for one or two years, as indicated in the applicant's application.

§ 54.1-524. Suspension, revocation, or refusal to renew registration.

A. The Director may limit, suspend, revoke, or refuse to renew a registration of an individual registered under subsection A of § 54.1-523 for conduct that would have justified refusal to issue a certificate of registration under subsection B of § 54.1-523.

B. The Director may suspend or revoke the registration of an individual registered under subsection C of § 54.1-522 or renewed under subsection E of § 54.1-523 for any reason for which the Director could have refused to grant or renew registration or for conduct that would justify refusal to issue a certificate of registration under subsection B of § 54.1-523.

§ 54.1-525. Temporary registration.

The Director may issue a temporary certificate of registration as an athlete agent while an application for registration or renewal of registration is pending.

2. For a two-year registration or renewal, in the amount of \$1,150; or
3. For the fee set forth in subdivision 1 or 2, or both, of this section, a higher or lower fee that the Director determines by regulation is necessary and consistent with § 54.1-113.

D. An agency contract shall be accompanied by a separate record signed by the student-athlete or, if the student-athlete is a minor, the parent or guardian of the student-athlete acknowledging that signing the contract may result in the loss of the student-athlete's eligibility to participate in the student-athlete's sport.

E. A student-athlete or, if the student-athlete is a minor, the parent or guardian of the student-athlete may void an agency contract that does not conform to this section. If an athlete agent enters into an agency contract with a student-athlete and the student-athlete subsequently enrolls at an educational institution, the agent shall notify the athletic director of the institution of the existence of the contract not later than 72 hours after the agent knew or should have known the student-athlete enrolled.

E. If an athlete agent has a relationship with a student-athlete before the student-athlete enrolls in an educational institution and receives an athletic scholarship from the institution, the agent shall notify the institution of the relationship not later than 10 days after the enrollment if the agent knows or should have known of the enrollment and (i) the relationship was motivated in whole or in part by the intention of the agent to recruit or solicit the student-athlete to enter an agency contract in the future or (ii) the agent directly or indirectly recruited or solicited the student-athlete to enter an agency contract before the enrollment.

F. An athlete agent shall give notice in a record to the athletic director of any educational institution at which a student-athlete is enrolled before the agent communicates or attempts to communicate with (i) the student-athlete or, if the student-athlete is a minor, a parent or guardian of the student-athlete to influence the student-athlete or parent or guardian to enter into an agency contract or (ii) another individual to have that individual influence the student-athlete or, if the student-athlete is a minor, the parent or guardian of the student-athlete to enter into an agency contract.

2. Furnish anything of value to a student-athlete or another individual, if to do so may result in loss of the student-athlete's eligibility to participate in the student-athlete's sport, unless (i) the agent notifies the athletic director of the educational institution at which the student-athlete is enrolled or at which the agent has reasonable grounds to believe the student-athlete intends to enroll, not later than 72 hours after giving the thing of value and (ii) the student-athlete or, if the student-athlete is a minor, a parent or guardian of the student-athlete acknowledges to the agent in a record that receipt of the thing of value may result in loss of the student-athlete's eligibility to participate in the student-athlete's sport;

CHAPTER 482

An Act to request the Department of Housing and Community Development and the Virginia Housing and Development Authority to study ways to incentivize the development of affordable housing in the Commonwealth of Virginia; report.
[H 854]

Approved March 27, 2020

Whereas, affordable housing is becoming more and more difficult for many individuals and families to acquire throughout all regions (suburban, urban, and rural) of the Commonwealth; and

Whereas, anticipated economic and workforce growth will significantly increase the need for affordable housing in the Commonwealth; and

Whereas, the preservation and expansion of assisted, affordable multifamily housing is one of the most important housing issues facing the Commonwealth; and

Whereas, the high cost burden of housing, especially for lower-wage earners or those with special needs, is contributing to housing instability and homelessness; now, therefore,

Be it enacted by the General Assembly of Virginia:

1. § 1. *That the Department of Housing and Community Development and the Virginia Housing and Development Authority be requested to study ways to incentivize the development of affordable housing in the Commonwealth of Virginia.*

In conducting its study, the Department of Housing and Community Development and the Virginia Housing and Development Authority shall convene a stakeholder advisory group consisting of individuals with expertise in land development, construction, affordable housing, real estate finance, tax credit syndication, and other areas of expertise as determined by the Department of Housing and Community Development and the Virginia Housing and Development Authority, and at least one resident of an affordable housing property. Such advisory group shall (i) determine the quantity and quality of affordable housing and workforce housing across the Commonwealth, (ii) conduct a review of current programs and policies to determine the effectiveness of current housing policy efforts, (iii) develop an informed projection of future housing needs in the Commonwealth and determine the order of priority of those needs, and (iv) make recommendations for the improvement of housing policy in the Commonwealth.

Be it enacted by the General Assembly of Virginia:

1. That § 44-146.16 of the Code of Virginia is amended and reenacted as follows:

§ 44-146.16. Definitions.

As used in this chapter, unless the context requires a different meaning:

"Communicable disease of public health threat" means an illness of public health significance, as determined by the State Health Commissioner in accordance with regulations of the Board of Health, caused by a specific or suspected infectious agent that may be reasonably expected or is known to be readily transmitted directly or indirectly from one individual to another and has been found to create a risk of death or significant injury or impairment; this definition shall not, however, be construed to include human immunodeficiency viruses or tuberculosis, unless used as a bioterrorism weapon. "Individual" shall include any companion animal. Further, whenever "person or persons" is used in Article 3.02 (§ 32.1-48.05 et seq.) of Chapter 2 of Title 32.1, it shall be deemed, when the context requires it, to include any individuals.

"Cyber incident" means an event occurring on or conducted through a computer network that actually or imminently jeopardizes the integrity, confidentiality, or availability of computers, information or communications systems or networks,

physical or virtual infrastructure controlled by computers or information systems, or information resident thereon. "Cyber incident" includes a vulnerability in information systems, system security procedures, internal controls, or implementations that could be exploited by a threat source.

"Disaster" means (i) any man-made disaster, including any condition following an attack by any enemy or foreign nation upon the United States resulting in substantial damage of property or injury to persons in the United States ~~and may be including~~ by use of bombs, missiles, shell fire, *or* nuclear, radiological, chemical, or biological means or other weapons or by overt paramilitary actions; terrorism, foreign and domestic; ~~also~~ *cyber incidents*; and any industrial, nuclear, or transportation accident, explosion, conflagration, power failure, resources shortage, or other condition such as sabotage, oil spills, and other injurious environmental contaminations that threaten or cause damage to property, human suffering, hardship, or loss of life; and (ii) any natural disaster, including any hurricane, tornado, storm, flood, high water, wind-driven water, tidal wave, earthquake, drought, fire, communicable disease of public health threat, or other natural catastrophe resulting in damage, hardship, suffering, or possible loss of life.

"Emergency" means any occurrence, or threat thereof, whether natural or man-made, which results or may result in substantial injury or harm to the population or substantial damage to or loss of property or natural resources and may involve governmental action beyond that authorized or contemplated by existing law because governmental inaction for the period required to amend the law to meet the exigency would work immediate and irrevocable harm upon the citizens or the environment of the Commonwealth or some clearly defined portion or portions thereof.

"Emergency services" means the preparation for and the carrying out of functions, other than functions for which military forces are primarily responsible, to prevent, minimize, and repair injury and damage resulting from disasters, together with all other activities necessary or incidental to the preparation for and carrying out of the foregoing functions. "Local emergency" means the condition declared by the local governing body when in its judgment the threat or actual occurrence of an emergency or disaster is or threatens to be of sufficient severity and magnitude to warrant coordinated local government action to prevent or alleviate the damage, loss, hardship, or suffering threatened or caused thereby; provided, however, that a local emergency arising wholly or substantially out of a resource shortage may be declared only by the Governor, upon petition of the local governing body, when he deems the threat or actual occurrence of such an emergency or disaster to be of sufficient severity and magnitude to warrant coordinated local government action to prevent or alleviate the damage, loss, hardship, or suffering threatened or caused thereby; *and* provided, however, nothing in this chapter shall be construed as prohibiting a local governing body from the prudent management of its water supply to prevent or manage a water shortage.

"Local emergency management organization" means an organization created in accordance with the provisions of this chapter by local authority to perform local emergency service functions.

"Major disaster" means any natural catastrophe, including any: hurricane, tornado, storm, high water, wind-driven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought, or regardless of cause, any fire, flood, or explosion, in any part of the United States, which, in the determination of the President of the United States is, or thereafter determined to be, of sufficient severity and magnitude to warrant major disaster assistance under the Stafford Act (P.L. 93-288 as amended) to supplement the efforts and available resources of states, local governments, and disaster relief organizations in alleviating the damage, loss, hardship, or suffering caused thereby and is so declared by him.

"Political subdivision" means any city or county in the Commonwealth and, for the purposes of this chapter, the Town of Chincoteague and any town of more than 5,000 population that chooses to have an emergency management program separate from that of the county in which such town is located.

[H 1313]

Approved March 27, 2020

Be it enacted by the General Assembly of Virginia:

1. That §§ 2.2-435.11, 10.1-658, and 10.1-659 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding a section numbered 2.2-222.4 as follows:

§ 2.2-222.4. Chief Resilience Officer.

A. *The Governor shall designate a Chief Resilience Officer. The Chief Resilience Officer shall serve as the primary coordinator of resilience and adaptation initiatives in Virginia and as the primary point of contact regarding issues related to resilience and recurrent flooding. The Chief Resilience Officer shall be equally responsible for all urban, suburban, and rural areas of the Commonwealth.*

B. *The Chief Resilience Officer, in consultation with the Special Assistant to the Governor for Coastal Adaptation and Protection, shall:*

1. *Identify and monitor those areas of the Commonwealth that are at greatest risk from recurrent flooding and increased future flooding and recommend actions that both the private and public sectors should consider in order to increase the resilience of such areas;*

2. *Upon the request of any locality in the Commonwealth in which is located a substantial flood defense or catchment area, including a levee, reservoir, dam, catch basin, or wetland or lake improved or constructed for the purpose of flood control, review and comment on plans for the construction or substantial reinforcement of such flood defense or catchment area; and*

3. *Initiate and assist with the pursuit of funding opportunities for resilience initiatives at both the state and local levels and help to oversee and coordinate funding initiatives of all agencies of the Commonwealth.*

§ 2.2-435.11. Special Assistant to the Governor for Coastal Adaptation and Protection; duties.

A. The position of Special Assistant to the Governor for Coastal Adaptation and Protection (the Special Assistant) is created. The Special Assistant shall be the primary point of contact for the resources to address coastal adaptation and flooding mitigation. The Special Assistant shall be the lead in developing and in providing direction and ensuring accountability for a statewide coastal flooding adaptation strategy. ~~He~~ *and shall initiate and assist with economic development opportunities associated with adaptation, development opportunities for the creation of business incubators, the advancement of the academic expertise at the Commonwealth Center for Recurrent Flooding Resiliency, coordination with the Virginia Growth and Opportunity Board, safeguarding strategic national assets threatened by coastal flooding, and pursuing federal, state, and local funding opportunities for adaptation initiatives.*

B. *In consultation with the Chief Resilience Officer designated pursuant to § 2.2-222.4, the Special Assistant shall:*

1. *Identify and monitor those areas of the Commonwealth that are at greatest risk from recurrent flooding and increased future flooding and recommend actions that both the private and public sectors should consider in order to increase the resilience of such areas;*

2. *Upon the request of any locality in the Commonwealth in which is located a substantial flood defense or catchment area, including a levee, reservoir, dam, catch basin, or wetland or lake improved or constructed for the purpose of flood control, review and comment on plans for the construction or substantial reinforcement of such flood defense or catchment area; and*

3. *Initiate and assist with the pursuit of funding opportunities for resilience initiatives at both the state and local levels and assist in overseeing and coordinating funding initiatives of all agencies of the Commonwealth.*

§ 10.1-658. State interest in flood control.

A. The General Assembly declares that storm events *and rising tidal waters* cause recurrent flooding of Virginia's land resources and result in the loss of life, damage to property, unsafe and unsanitary conditions and the disruption of commerce and government services, placing at risk the health, safety and welfare of those citizens living in flood-prone areas of the Commonwealth. Flood waters disregard jurisdictional boundaries, and the public interest requires the management of flood-prone areas in a manner which prevents injuries to persons, damage to property and pollution of state waters.

B. The General Assembly, therefore, supports and encourages those measures which prevent, mitigate and alleviate the effects of stormwater surges and flooding, and declares that the expenditure of public funds and any obligations incurred in the development of flood control and other civil works projects, the benefits of which may accrue to any county, municipality or region in the Commonwealth, are necessary expenses of local and state government.

§ 10.1-659. Flood protection programs; coordination.

The provisions of this chapter shall be coordinated with the *Virginia Coastal Resilience Master Plan* and federal, state, and local flood prevention and water quality programs to minimize loss of life, property damage, and negative impacts on the environment. This program coordination shall include but not be limited to the following: flood prevention, flood plain management, small watershed protection, dam safety, *shoreline erosion and public beach preservation*, and soil conservation programs of the Department of Conservation and Recreation; the construction activities of the Department of Transportation ~~which~~, *including projects that result in hydrologic modification of rivers, streams, and flood plains; the nontidal wetlands, water quality, Chesapeake Bay Preservation Area criteria, stormwater management, erosion and sediment control, and other water management programs of the State Water Control Board; the Virginia Coastal Zone Management Program at the Department of Environmental Quality; forested watershed management programs of the Department of Forestry; the agricultural stewardship, farmland preservation, and disaster assistance programs of the Department of Agriculture and Consumer Services; the statewide building code and other land use control programs of the Department of Housing and Community Development; the habitat management programs of the Virginia Marine Resources*

Commission; the hazard mitigation planning and disaster response programs of the Department of Emergency Management; the fish habitat protection programs of the Department of Game and Inland Fisheries; the mineral extraction regulatory program of the Department of Mines, Minerals and Energy; the flood plain restrictions of the Virginia Waste Management Board; ~~and flooding-related research programs of the state universities~~; local government assistance programs of the Virginia Soil and Water Conservation Board; *the Virginia Antiquities Act program of the Department of Historic Resources; and any other state agency programs deemed necessary by the Director, the Chief Resilience Officer of the Commonwealth, and the Special Assistant to the Governor for Coastal Adaptation and Protection.* The Department shall also coordinate *with soil and water conservation districts, Virginia Cooperative Extension agents, and planning district commissions, and shall coordinate* and cooperate with localities in rendering assistance to such localities in their efforts to comply with the planning, subdivision of land, and zoning provisions of Chapter 22 (§ 15.2-2200 et seq.) of Title 15.2. *The Director and either the Special Assistant to the Governor for Coastal Adaptation and Protection or the Chief Resilience Officer shall jointly hold meetings of representatives of these programs, entities, and localities in order to determine, coordinate, and prioritize the Commonwealth's efforts and expenditures to increase flooding resilience.* The Department shall cooperate with other public and private agencies having flood plain management programs; and shall coordinate its responsibilities under this article and any other law. These activities shall constitute the Commonwealth's flood prevention and protection program.

[H 1235]

§ 63.2-1716. Child day center operated by religious institution exempt from licensure; annual statement and documentary evidence required; enforcement; injunctive relief.

A. Notwithstanding any other provisions of this chapter, a child day center, including a child day center that is a child welfare agency operated or conducted under the auspices of a religious institution, shall be exempt from the licensure requirements of this subtitle, but shall comply with the provisions of this section unless it chooses to be licensed. If such religious institution chooses not to be licensed, it shall file with the Commissioner, prior to beginning operation of a child day center and thereafter annually, a statement of intent to operate a child day center, certification that the child day center has disclosed in writing to the parents or guardians of the children in the center the fact that it is exempt from licensure and has posted the fact that it is exempt from licensure in a visible location on the premises, the qualifications of the personnel employed therein, and documentary evidence that:

1. Such religious institution has tax exempt status as a nonprofit religious institution in accordance with § 501(c) of the Internal Revenue Code of 1954, as amended, or that the real property owned and exclusively occupied by the religious institution is exempt from local taxation.

2. Within the prior 90 days for the initial exemption and within the prior 180 days for exemptions thereafter, the local health department and local fire marshal or Office of the State Fire Marshal, whichever is appropriate, have inspected the physical facilities of the child day center and have determined that the center is in compliance with applicable laws and regulations with regard to food service activities, health and sanitation, water supply, building codes, and the Statewide Fire Prevention Code or the Uniform Statewide Building Code.

3. The child day center employs supervisory personnel according to the following ratio of staff to children:

- a. One staff member to four children from ages zero to 16 months.
- b. One staff member to five children from ages 16 months to 24 months.
- c. One staff member to eight children from ages 24 months to 36 months.

Staff shall be counted in the required staff-to-children ratios only when they are directly supervising children. ~~In each grouping~~ *When a group of children receiving care includes children from different age brackets, the age of the youngest child in the group shall be used to determine the staff-to-children ratio that applies to that group. For each group of children receiving care, at least one adult staff member shall be regularly present. However, during designated daily rest periods and designated sleep periods of evening and overnight care programs, for children ages 16 months to six years, only one staff member shall be required to be present with the children under supervision. In such cases, at least one staff member shall be physically present in the same space as the children under supervision at all times. Other staff members counted for purposes of the staff-to-child ratio need not be physically present in the same space as the resting or sleeping children, but shall be present on the same floor as the resting or sleeping children and shall have no barrier to their immediate access to the resting or sleeping children. The staff member who is physically present in the same space as the*

sleeping children shall be able to summon additional staff counted in the staff-to-child ratio without leaving the space in which the resting or sleeping children are located.

Staff members shall be at least 16 years of age. Staff members under 18 years of age shall be under the supervision of an adult staff member. Adult staff members shall supervise no more than two staff members under 18 years of age at any given time.

5. The center is in compliance with the requirements of:

a. This section.

b. Section 63.2-1724 relating to background checks.

c. Section 63.2-1509 relating to the reporting of suspected cases of child abuse and neglect.

6. The following aspects of the child day center's operations are described in a written statement provided to the parents or guardians of the children in the center and made available to the general public: physical facilities, enrollment capacity, food services, health requirements for the staff and public liability insurance.

7. The individual seeking to operate the child day center is not currently ineligible to operate another child welfare agency due to a suspension or revocation of his license or license exemption for reasons involving child safety or any criminal conviction, including fraud, related to such child welfare agency.

8. A person trained and certified in first aid and cardiopulmonary resuscitation (CPR) will be present at the child day center whenever children are present or at any other location in which children attending the child day center are present.

9. The child day center is in compliance with all safe sleep guidelines recommended by the American Academy of Pediatrics.

7. Ensuring that all incidents involving serious physical injury to or death of children attending the child day center are reported to the Commissioner. Reports of serious physical injuries, which shall include any physical injuries that require an emergency referral to an offsite health care professional or treatment in a hospital, shall be submitted annually. Reports of deaths shall be submitted no later than one business day after the death occurred.

C. The Commissioner may perform on-site inspections of religious institutions to confirm compliance with the provisions of this section and to investigate complaints that the religious institution is not in compliance with the provisions of this section. The Commissioner may revoke the exemption for any child day center in serious or persistent violation of the requirements of this section. If a religious institution operates a child day center and does not file the statement and documentary evidence required by this section, the Commissioner shall give reasonable notice to such religious institution of the nature of its noncompliance and may thereafter take such action as he determines appropriate, including a suit to enjoin the operation of the child day center.

D. Any person who has reason to believe that a child day center falling within the provisions of this section is not in compliance with the requirements of this section may report the same to the local department, the local health department or the local fire marshal, each of which may inspect the child day center for noncompliance, give reasonable notice to the religious institution, and thereafter may take appropriate action as provided by law, including a suit to enjoin the operation of the child day center.

E. Nothing in this section shall prohibit a child day center operated by or conducted under the auspices of a religious institution from obtaining a license pursuant to this chapter.

[H 1300]

Approved March 27, 2020

Be it enacted by the General Assembly of Virginia:

1. That §§ 2.2-4340, 8.01-232, and 23.1-1017 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding sections numbered 2.2-4340.1 and 2.2-4340.2 as follows:

§ 2.2-4340. Action on performance bond.

No action against the surety on a performance bond shall be brought unless within five years after completion of the work on the project to the satisfaction of the Department of Transportation, in cases where the public body is the Department of Transportation, or, in all other cases, within one year after (i) completion of the contract, including the expiration of all warranties and guarantees, or (ii) discovery of the defect or breach of warranty that gave rise to the action contract. For the purposes of this section, completion of the contract is the final payment to the contractor pursuant to the terms of the contract. However, if a final certificate of occupancy, or written final acceptance of the project, is issued prior to final payment, the five-year period to bring an action shall commence no later than 12 months from the date of the certificate of occupancy or written final acceptance of the project.

§ 2.2-4340.1. Statute of limitations on construction contracts.

No action may be brought by a state public body on any construction contract, including construction contracts governed by Chapter 43.1 (§ 2.2-4378 et seq.), unless such action is brought within 15 years after completion of the contract. For the purposes of this section, completion of the contract is the final payment to the contractor pursuant to the terms of the contract. However, if a final certificate of occupancy or written final acceptance of the project is issued prior to final payment, the 15-year period to bring an action shall commence no later than 12 months from the date of the certificate of occupancy or written final acceptance of the project. In no case shall such action be brought more than five years after written notice by the state public body to the contractor of a defect or breach giving rise to the cause of action. The state public body shall not unreasonably delay written notice to the contractor.

§ 2.2-4340.2. Statute of limitations on architectural and engineering contracts.

No action may be brought by a state public body on any architectural or engineering services contract, including architectural or engineering services contracts governed by Chapter 43.1 (§ 2.2-4378 et seq.), unless such action is brought within 15 years after completion of the contract. For the purposes of this section, completion of the contract is the final payment to the contractor pursuant to the terms of the contract. However, if the architectural or engineering services are for a construction project for which a final certificate of occupancy or written final acceptance of the project is issued prior to final payment, the 15-year period to bring an action shall commence no later than 12 months from the date of the certificate of occupancy or written final acceptance of the project. In no case shall such action be brought more than five years after written notice by the state public body to the contractor of a defect or breach giving rise to the cause of action. The state public body shall not unreasonably delay written notice to the contractor.

§ 8.01-232. Effect of promises not to plead statute.

A. Whenever the failure to enforce a promise, written or unwritten, not to plead the statute of limitations would operate as a fraud on the promisee, the promisor shall be estopped to plead the statute. In all other cases, an unwritten promise not to plead the statute shall be void, and a written promise not to plead such statute shall be valid when (i) it is made to avoid or defer litigation pending settlement of any case, (ii) it is not made contemporaneously with any other contract, and (iii) it is made for an additional term not longer than the applicable limitations period. No provision of this subsection shall operate contrary to subsections B and C of this section.

B. No acknowledgment or promise by any personal representative of a decedent shall charge the estate of the decedent, revive a cause of action otherwise barred, or relieve the personal representative of his duty to defend under § 64.2-1415 in any case in which but for such acknowledgment or promise, the decedent's estate could have been protected under a statute of limitations.

C. No acknowledgment or promise by one of two or more joint contractors shall charge any of such contractors in any case in which but for such acknowledgment another contractor would have been protected under a statute of limitations.

D. *Subsections A and C shall not apply to, limit, or prohibit written promises to waive or not to plead the statute of limitations that are made in, or contemporaneously with, subcontracts of any tier that are related to contracts for construction, construction management, design-build, architecture, or engineering under Chapter 43 (§ 2.2-4300 et seq.) or 43.1 (§ 2.2-4378 et seq.) of Title 2.2; under the policies and procedures adopted by any county, city, or town or school board; under Title 23.1; or under authorizing provisions, policies, or procedures for procurement of such contracts by any public body exempted from the foregoing; however, such waiver or promise not to plead applies only to demands, claims, or actions asserted under such contracts by a public body. As used in this subsection, "subcontract" includes any contract or purchase order to supply labor, equipment, materials, or services to an entity awarded a contract with a public body or to any lower-tier entity performing work provided for in such a contract.*

§ 23.1-1017. Covered institutions; operational authority; procurement.

A. Subject to the express provisions of the management agreement, each covered institution may be exempt from the provisions of the Virginia Public Procurement Act (§ 2.2-4300 et seq.), except for §§ 2.2-4340, 2.2-4340.1, 2.2-4340.2, and 2.2-4342, which shall not be construed to require compliance with the prequalification application procedures of subsection B of § 2.2-4317, provided, however, that (i) any deviations from the Virginia Public Procurement Act in the management agreement shall be uniform across all covered institutions and (ii) the governing board of the covered institution shall adopt, and the covered institution shall comply with, policies for the procurement of goods and services, including professional services, that shall (a) be based upon competitive principles, (b) in each instance seek competition to the maximum practical degree, (c) implement a system of competitive negotiation for professional services pursuant to §§ 2.2-4303.1 and 2.2-4302.2, (d) prohibit discrimination in the solicitation and award of contracts based on the bidder's or offeror's race, religion, color, sex, national origin, age, or disability or on any other basis prohibited by state or federal law, (e) incorporate the prompt payment principles of §§ 2.2-4350 and 2.2-4354, (f) consider the impact on correctional enterprises under § 53.1-47, and (g) provide that whenever solicitations are made seeking competitive procurement of goods or services, it shall be a priority of the institution to provide for fair and reasonable consideration of small, women-owned, and minority-owned businesses and to promote and encourage a diversity of suppliers.

B. Such policies may (i) provide for consideration of the dollar amount of the intended procurement, the term of the anticipated contract, and the likely extent of competition; (ii) implement a prequalification procedure for contractors or products; and (iii) include provisions for cooperative arrangements with other covered institutions, other public or private educational institutions, or other public or private organizations or entities, including public-private partnerships, public bodies, charitable organizations, health care provider alliances or purchasing organizations or entities, state agencies or institutions of the Commonwealth or the other states, the District of Columbia, the territories, or the United States, and any combination of such organizations and entities.

C. Nothing in this section shall preclude a covered institution from requesting and utilizing the assistance of the Virginia Information Technologies Agency for information technology procurements and covered institutions are encouraged to utilize such assistance.

D. Each covered institution shall post on the Department of General Services' central electronic procurement website all Invitations to Bid, Requests for Proposal, sole source award notices, and emergency award notices to ensure visibility and access to the Commonwealth's procurement opportunities on one website.

E. As part of any procurement provisions of the management agreement, the governing board of a covered institution shall identify the public, educational, and operational interests served by any procurement rule that deviates from procurement rules in the Virginia Public Procurement Act (§ 2.2-4300 et seq.).

In preparation for the recount, the clerks of the circuit courts shall (a) secure all printed ballots and other election materials in sealed boxes; (b) place all of the sealed boxes in a vault or room not open to the public or to anyone other than the clerk and his staff; (c) cause such vault or room to be securely locked except when access is necessary for the clerk and his staff; and (d) certify that these security measures have been taken in whatever form is deemed appropriate by the chief judge.

B. Within seven calendar days of the filing of the petition for a recount of any election other than an election for presidential electors, or within five calendar days of the filing of a petition for a recount of an election for presidential electors, the chief judge of the circuit court shall call a preliminary hearing at which (i) motions may be disposed of and (ii) the rules of procedure may be fixed, both subject to review by the full court. As part of the preliminary hearing, the chief judge may permit the petitioner and his counsel, together with each other party and his counsel and at least two members of the electoral board and the custodians, to examine any direct recording electronic machine of the type that prints returns when the print-out sheets are not clearly legible. The petitioner and his counsel and each other party and their counsel under supervision of the electoral board and its agents shall also have access to pollbooks and other materials used in the election for examination purposes, provided that individual ballots cast in the election shall not be examined at the preliminary hearing. The chief judge during the preliminary hearing shall review all security measures taken for all ballots and voting and counting machines and direct, as he deems necessary, all appropriate measures to ensure proper security to conduct the recount.

The chief judge, subject to review by the full court, may set the place or places for the recount and may order the delivery of election materials to a central location and the transportation of voting and counting machines to a central location in each county or city under appropriate safeguards.

After the full court is appointed under § 24.2-801 or 24.2-801.1, it shall call a hearing at which all motions shall be disposed of and the rules of procedure shall be fixed finally, and it shall issue a written order setting out such rules of procedure. The court shall call for the advice and cooperation of the Department, the State Board, or any local electoral board, as appropriate, and such boards or agency shall have the duty and authority to assist the court. The court shall fix procedures that shall provide for the accurate determination of votes in the election.

The determination of the votes in a recount shall be based on votes cast in the election and shall not take into account (a) any absentee ballots or provisional ballots sought to be cast but ruled invalid and not cast in the election, (b) ballots cast only for administrative or test purposes and voided by the officers of election, or (c) ballots spoiled by a voter and replaced with a new ballot.

The eligibility of any voter to have voted shall not be an issue in a recount. Commencing upon the filing of the recount, nothing shall prevent the discovery or disclosure of any evidence that could be used pursuant to § 24.2-803 in contesting the results of an election.

C. The court shall permit each candidate, or petitioner and governing body or chief executive officer, to select an equal number of the officers of election to be recount officials and to count printed ballots, or in the case of direct recording electronic machines, to redetermine the vote. The number shall be fixed by the court and be sufficient to conduct the recount within a reasonable period. The court may permit each party to the recount to submit a list of alternate officials in the number the court directs. There shall be at least one team of recount officials to recount printed ballots and to redetermine the vote cast on direct recording electronic machines of the type that prints returns for the election district at large in which the recount is being held. There shall be at least one team from each locality using ballot scanner machines to insert the ballots into one or more scanners. The ballot scanner machines shall be programmed to count only votes cast for parties to the recount or for or against the question in a referendum recount. Each team shall be composed of one representative of each party.

The court may provide that if, at the time of the recount, any recount official fails to appear, the remaining recount officials present shall appoint substitute recount officials who shall possess the same qualifications as the recount officials for whom they substitute. The court may select pairs of recount coordinators to serve for each county or city in the election district who shall be members of the county or city electoral board and represent different political parties. The court shall have authority to summon such officials and coordinators. On the request of any party to the recount, the court shall allow that party to appoint one representative observer for each team of recount officials. The representative observers shall have an unobstructed view of the work of the recount officials. The expenses of its representatives shall be borne by each party.

D. The court (i) shall supervise the recount and (ii) may require delivery of any or all pollbooks used and any or all ballots cast at the election, or may assume supervision thereof through the recount coordinators and officials.

The redetermination of the vote in a recount shall be conducted as follows:

1. For paper ballots, the recount officials shall hand count the paper ballots using the standards promulgated by the State Board pursuant to subsection A.

2. For direct recording electronic machines (DREs), the recount officials shall open the envelopes with the printouts and read the results from the printouts. If the printout is not clear, or on the request of the court, the recount officials shall rerun the printout from the machine or examine the counters as appropriate.

3. For ballot scanner machines, the recount officials shall rerun all the machine-readable ballots through a scanner programmed to count only the votes for the office or issue in question in the recount and to set aside all ballots containing write-in votes, overvotes, and undervotes. The ballots that are set aside, any ballots not accepted by the scanner, and any ballots for which a scanner could not be programmed to meet the programming requirements of this subdivision, shall be hand counted using the standards promulgated by the State Board pursuant to subsection A. If the total number of machine-readable ballots reported as counted by the scanner plus the total number of ballots set aside by the scanner do not equal the total number of ballots rerun through the scanner, then all ballots cast on ballot scanner machines for that precinct shall be set aside to be counted by hand using the standards promulgated by the State Board pursuant to subsection A. Prior to running the machine-readable ballots through the ballot scanner machine, the recount officials shall ensure that logic and accuracy tests have been successfully performed on each scanner after the scanner has been programmed. The result calculated for ballots accepted by the ballot scanner machine during the recount shall be considered the correct determination for those machine-readable ballots unless the court finds sufficient cause to rule otherwise.

There shall be only one redetermination of the vote in each precinct.

At the conclusion of the recount of each precinct, the recount officials shall write down the number of valid ballots cast, this number being obtained from the ballots cast in the precinct, or from the ballots cast as shown on the statement of results if the ballots cannot be found, for each of the two candidates or for and against the question. They shall submit the ballots or the statement of results used, as to the validity of which questions exist, to the court. The written statement of any one recount official challenging a ballot shall be sufficient to require its submission to the court. If, on all direct recording electronic machines, the number of persons voting in the election, or the number of votes cast for the office or on the question, totals more than the number of names on the pollbooks of persons voting on the voting machines, the figures recorded by the machines shall be accepted as correct.

At the conclusion of the recount of all precincts, after allowing the parties to inspect the questioned ballots, and after hearing arguments, the court shall rule on the validity of all questioned ballots and votes. After determining all matters pertaining to the recount and redetermination of the vote as raised by the parties, the court shall certify to the State Board and the electoral board or boards (a) the vote for each party to the recount and declare the person who received the higher number of votes to be nominated or elected, as appropriate, or (b) the votes for and against the question and declare the outcome of the referendum. The Department shall post on the Internet any and all changes made during the recount to the results as previously certified by it pursuant to § 24.2-679.

Except in the case of a recount of an election for Governor, Lieutenant Governor, or Attorney General, or for elector of President and Vice President of the United States, if the court finds that each party to the recount has received an equal number of votes, it shall issue a writ promptly ordering a special election be held to determine which candidate is elected to the office.

E. Costs of the recount shall be assessed against the counties and cities comprising the election district when (i) the candidate petitioning for the recount is declared the winner; (ii) the petitioners in a recount of a referendum win the recount; or (iii) there was between the candidate apparently nominated or elected and the candidate petitioning for the recount a difference of not more than one-half of one percent of the total vote cast for the two such candidates as determined by the State Board or electoral board prior to the recount. Otherwise the costs of the recount shall be assessed against the candidate petitioning for the recount or the petitioners in a recount of a referendum. If more than one candidate petitions for a recount, the court may assess costs in an equitable manner between the counties and cities and any such candidate if both are liable for costs under this subsection. Costs incurred to date shall be assessed against any candidate or petitioner who defaults or withdraws his petition.

F. The court shall determine the costs of the recount subject to the following limitations: (i) no per diem payment shall be assessed for salaried election officials; (ii) no per diem payment to officers of election serving as recount officials shall exceed two-thirds of the per diem paid such officers by the county or city for service on election day; and (iii) per diem payments to alternates shall be allowed only if they serve.

G. Any petitioner who may be assessed with costs under subsection E shall post a bond with surety with the court in the amount of \$10 per precinct in the area subject to recount. If the petitioner wins the recount, the bond shall not be forfeit. If the petitioner loses the recount, the bond shall be forfeit only to the extent of the assessed costs. If the assessed costs exceed the bond, he shall be liable for such excess.

H. The recount proceeding shall be final and not subject to appeal.

I. For the purposes of this section:

"Overvote" means a ballot on which a voter casts a vote for a greater number of candidates or positions than the number for which he was lawfully entitled to vote and no vote shall be counted with respect to that office or issue.

"Undervote" means a ballot on which a voter casts a vote for a lesser number of candidates or positions than the number for which he was lawfully entitled to vote.

§ 24.2-802. (Effective July 1, 2020) Procedure for recount.

A. The State Board of Elections shall promulgate standards for (i) the proper handling and security of voting systems, ballots, and other materials required for a recount, (ii) accurate determination of votes based upon objective evidence and taking into account the voting system and form of ballots approved for use in the Commonwealth, and (iii) any other matters that will promote a timely and accurate resolution of the recount. The chief judge of the circuit court or the full recount court may, consistent with State Board of Elections standards, resolve disputes over the application of the standards and direct all other appropriate measures to ensure the proper conduct of the recount.

The recount procedures to be followed throughout the election district shall be as uniform as practicable, taking into account the types of ballots and voting systems in use in the election district.

In preparation for the recount, the clerks of the circuit courts shall (a) secure all printed ballots and other election materials in sealed boxes; (b) place all of the sealed boxes in a vault or room not open to the public or to anyone other than the clerk and his staff; (c) cause such vault or room to be securely locked except when access is necessary for the clerk and his staff; and (d) certify that these security measures have been taken in whatever form is deemed appropriate by the chief judge.

B. Within seven calendar days of the filing of the petition for a recount of any election other than an election for presidential electors, or within five calendar days of the filing of a petition for a recount of an election for presidential electors, the chief judge of the circuit court shall call a preliminary hearing at which (i) motions may be disposed of and (ii) the rules of procedure may be fixed, both subject to review by the full court. The petitioner and his counsel and each other party and their counsel under supervision of the electoral board and its agents shall have access to pollbooks and other materials used in the election for examination purposes, provided that individual ballots cast in the election shall not be examined at the preliminary hearing. The chief judge during the preliminary hearing shall review all security measures taken for all ballots and voting systems and direct, as he deems necessary, all appropriate measures to ensure proper security to conduct the recount.

The chief judge, subject to review by the full court, may set the place or places for the recount and may order the delivery of election materials to a central location and the transportation of voting systems to a central location in each county or city under appropriate safeguards.

After the full court is appointed under § 24.2-801 or 24.2-801.1, it shall call a hearing at which all motions shall be disposed of and the rules of procedure shall be fixed finally, and it shall issue a written order setting out such rules of procedure. The court shall call for the advice and cooperation of the Department, the State Board, or any local electoral board, as appropriate, and such boards or agency shall have the duty and authority to assist the court. The court shall fix procedures that shall provide for the accurate determination of votes in the election.

The determination of the votes in a recount shall be based on votes cast in the election and shall not take into account (a) any absentee ballots or provisional ballots sought to be cast but ruled invalid and not cast in the election, (b) ballots cast only for administrative or test purposes and voided by the officers of election, or (c) ballots spoiled by a voter and replaced with a new ballot.

The eligibility of any voter to have voted shall not be an issue in a recount. Commencing upon the filing of the recount, nothing shall prevent the discovery or disclosure of any evidence that could be used pursuant to § 24.2-803 in contesting the results of an election.

C. The court shall permit each candidate, or petitioner and governing body or chief executive officer, to select an equal number of the officers of election to be recount officials and to count printed ballots. The number shall be fixed by the court and be sufficient to conduct the recount within a reasonable period. The court may permit each party to the recount to submit a list of alternate officials in the number the court directs. There shall be at least one team from each locality using ballot scanner machines to insert the ballots into one or more scanners. The ballot scanner machines shall be programmed to count only votes cast for parties to the recount or for or against the question in a referendum recount. Each team shall be composed of one representative of each party.

The court may provide that if, at the time of the recount, any recount official fails to appear, the remaining recount officials present shall appoint substitute recount officials who shall possess the same qualifications as the recount officials for whom they substitute. The court may select pairs of recount coordinators to serve for each county or city in the election district who shall be members of the county or city electoral board and represent different political parties. The court shall have authority to summon such officials and coordinators. On the request of any party to the recount, the court shall allow that party to appoint one representative observer for each team of recount officials. The representative observers shall have an unobstructed view of the work of the recount officials. The expenses of its representatives shall be borne by each party.

D. The court (i) shall supervise the recount and (ii) may require delivery of any or all pollbooks used and any or all ballots cast at the election, or may assume supervision thereof through the recount coordinators and officials.

The redetermination of the vote in a recount shall be conducted as follows:

1. For paper ballots, the recount officials shall hand count the paper ballots using the standards promulgated by the State Board pursuant to subsection A.

2. For ballot scanner machines, the recount officials shall rerun all the machine-readable ballots through a scanner programmed to count only the votes for the office or issue in question in the recount and to set aside all ballots containing

write-in votes, overvotes, and undervotes. The ballots that are set aside, any ballots not accepted by the scanner, and any ballots for which a scanner could not be programmed to meet the programming requirements of this subdivision, shall be hand counted using the standards promulgated by the State Board pursuant to subsection A. The result calculated for ballots accepted by the ballot scanner machine during the recount shall be considered the correct determination for those machine-readable ballots unless the court finds sufficient cause to rule otherwise.

There shall be only one redetermination of the vote in each precinct.

At the conclusion of the recount of each precinct, the recount officials shall write down the number of valid ballots cast, this number being obtained from the ballots cast in the precinct, or from the ballots cast as shown on the statement of results if the ballots cannot be found, for each of the two candidates or for and against the question. They shall submit the ballots or the statement of results used, as to the validity of which questions exist, to the court. The written statement of any one recount official challenging a ballot shall be sufficient to require its submission to the court. If, on all ballot scanners, the number of persons voting in the election, or the number of votes cast for the office or on the question, totals more than the number of names on the pollbooks of persons voting on the voting machines, the figures recorded by the machines shall be accepted as correct.

At the conclusion of the recount of all precincts, after allowing the parties to inspect the questioned ballots, and after hearing arguments, the court shall rule on the validity of all questioned ballots and votes. After determining all matters pertaining to the recount and redetermination of the vote as raised by the parties, the court shall certify to the State Board and the electoral board or boards (a) the vote for each party to the recount and declare the person who received the higher number of votes to be nominated or elected, as appropriate, or (b) the votes for and against the question and declare the outcome of the referendum. The Department shall post on the Internet any and all changes made during the recount to the results as previously certified by it pursuant to § 24.2-679.

Except in the case of a recount of an election for Governor, Lieutenant Governor, or Attorney General, or for elector of President and Vice President of the United States, if the court finds that each party to the recount has received an equal number of votes, it shall issue a writ promptly ordering a special election be held to determine which candidate is elected to the office.

If more than one candidate petitions for a recount, the court may assess costs in an equitable manner between the counties and cities and any such candidate if both are liable for costs under this subsection. Costs incurred to date shall be assessed against any candidate or petitioner who defaults or withdraws his petition.

F. The court shall determine the costs of the recount subject to the following limitations: (i) no per diem payment shall be assessed for salaried election officials; (ii) no per diem payment to officers of election serving as recount officials shall exceed two-thirds of the per diem paid such officers by the county or city for service on election day; and (iii) per diem payments to alternates shall be allowed only if they serve.

G. Any petitioner who may be assessed with costs under subsection E shall post a bond with surety with the court in the amount of \$10 per precinct in the area subject to recount. CHAPTER 501

An Act to amend and reenact §§ 24.2-506, 24.2-521, and 24.2-543 of the Code of Virginia, relating to candidate petitions; residency of petition circulators; signed statement required for nonresident circulators.

[H 214]

Approved March 27, 2020

Be it enacted by the General Assembly of Virginia:

1. That §§ 24.2-506, 24.2-521, and 24.2-543 of the Code of Virginia are amended and reenacted as follows:

§ 24.2-506. Petition of qualified voters required; number of signatures required; certain towns excepted.

A. The name of any candidate for any office, other than a party nominee, shall not be printed upon any official ballots provided for the election unless he shall file along with his declaration of candidacy a petition therefor, on a form prescribed by the State Board, signed by the number of qualified voters specified in this subsection after January 1 of the year in which the election is held and listing the residence address of each such voter. Each signature on the petition shall have been witnessed by a person ~~who is himself a legal resident of the Commonwealth and~~ who is not a minor or a felon whose voting rights have not been restored and whose affidavit to that effect appears on each page of the petition. *Each such person circulating a petition who is not a legal resident of the Commonwealth shall sign a statement on the affidavit that he consents to the jurisdiction of the courts of Virginia in resolving any disputes concerning the circulation of petitions, or signatures contained therein, by that person. The signatures of qualified voters collected by a nonresident petition circulator who fails to sign such statement, or who later fails to appear or produce documents when properly served with a subpoena to do so, shall not be counted towards the minimum number of signatures required pursuant to this subsection.*

Each voter signing the petition may provide on the petition the last four digits of his social security number, if any; however, noncompliance with this requirement shall not be cause to invalidate the voter's signature on the petition.

The minimum number of signatures of qualified voters required for candidate petitions shall be as follows:

1. For a candidate for the United States Senate, Governor, Lieutenant Governor, or Attorney General, 10,000 signatures, including the signatures of at least 400 qualified voters from each congressional district in the Commonwealth;

2. For a candidate for the United States House of Representatives, 1,000 signatures;

3. For a candidate for the Senate of Virginia, 250 signatures;

4. For a candidate for the House of Delegates or for a constitutional office, 125 signatures;

5. For a candidate for membership on the governing body or elected school board of any county or city, 125 signatures; or if from an election district not at large containing 1,000 or fewer registered voters, 50 signatures;

6. For a candidate for membership on the governing body or elected school board of any town that has more than 3,500 registered voters, 125 signatures; or if from a ward or other district not at large, 25 signatures;

7. For a candidate for membership on the governing body or elected school board of any town that has at least 1,500 but not more than 3,500 registered voters, 50 signatures; or if from a ward or other district not at large, 25 signatures;

8. For a candidate for membership on the governing body or elected school board of any town that has fewer than 1,500 registered voters, no petition shall be required;

9. For a candidate for director of a soil and water conservation district created pursuant to Article 3 (§ 10.1-506 et seq.) of Chapter 5 of Title 10.1, 25 signatures; and

10. For any other candidate, 50 signatures.

B. The State Board shall approve uniform standards by which petitions filed by a candidate for office, other than a party nominee, are reviewed to determine if the petitions contain sufficient signatures of qualified voters as required in subsection A.

The State Board of Elections, on or before January 1, 2020, shall revise its processes and associated regulations for reviewing and processing candidate petitions. Such revisions shall provide a process for checking petition signatures that includes a method for determining if a petition signature belongs to an individual whose prior registration has been canceled and the reason for such cancellation. The process shall provide for the tracking of such information associated with each petition. The process shall provide for the escalation of cases of suspected fraud to the electoral board, the State Board, or the office of the attorney for the Commonwealth, as appropriate.

C. If a candidate, other than a party nominee, does not qualify to have his name appear on the ballot by reason of the candidate's filed petition not containing the minimum number of signatures of qualified voters for the office sought, the candidate may appeal that determination within five calendar days of the issuance of the notice of disqualification pursuant to § 24.2-612 or notice from the State Board that the candidate did not meet the requirements to have his name appear on the ballot.

Appeals made by candidates for a county, city, or town office shall be filed with the electoral board. Appeals made by candidates for all other offices shall be filed with the State Board. The appeal shall be heard by the State Board or the electoral board, as appropriate, within five business days of its filing. The electoral board shall notify the State Board of any appeal that is filed with the electoral board.

The State Board shall develop procedures for the conduct of such an appeal. The consideration on appeal shall be limited to whether or not the signatures on the petitions that were filed were reasonably rejected according to the requirements of this title and the uniform standards approved by the State Board for the review of petitions. Immediately after the conclusion of the appeal hearing, the entity conducting the appeal shall notify the candidate and, if applicable, the State Board, of its decision in writing. The decision on appeal shall be final and not subject to further appeal.

§ 24.2-521. Petition required to accompany declaration; number of signatures required.

A. A candidate for nomination by primary for any office shall be required to file with his declaration of candidacy a petition for his name to be printed on the official primary ballot, on a form prescribed by the State Board, signed by the number of qualified voters specified in this section after January 1 of the year in which the election is held or before or after

said date in the case of a March primary, and listing the residence address of each such voter. Each signature on the petition shall have been witnessed by a person ~~who is himself a legal resident of the Commonwealth and~~ who is not a minor or a felon whose voting rights have not been restored and whose affidavit to that effect appears on each page of the petition. *Each such person circulating a petition who is not a legal resident of the Commonwealth shall sign a statement on the affidavit that he consents to the jurisdiction of the courts of Virginia in resolving any disputes concerning the circulation of petitions, or signatures contained therein, by that person. The signatures of qualified voters collected by a nonresident petition circulator who fails to sign such statement, or who later fails to appear or produce documents when properly served with a subpoena to do so, shall not be counted towards the minimum number of signatures required pursuant to subsection B.*

Each voter signing the petition may provide on the petition the last four digits of his social security number, if any; however, noncompliance with this requirement shall not be cause to invalidate the voter's signature on the petition.

B. The minimum number of signatures of qualified voters required for primary candidate petitions shall be as follows:

1. For a candidate for the United States Senate, Governor, Lieutenant Governor, or Attorney General, 10,000 signatures, including the signatures of at least 400 qualified voters from each congressional district in the Commonwealth;

2. For a candidate for the United States House of Representatives, 1,000 signatures;

3. For a candidate for the Senate of Virginia, 250 signatures;

4. For a candidate for the House of Delegates or for a constitutional office, 125 signatures;

5. For a candidate for membership on the governing body of any county or city, 125 signatures; or if from an election district not at large containing 1,000 or fewer registered voters, 50 signatures;

6. For a candidate for membership on the governing body of any town that has more than 3,500 registered voters, 125 signatures; or if from a ward or other district not at large, 25 signatures;

7. For a candidate for membership on the governing body of any town that has at least 1,500 but not more than 3,500 registered voters, 50 signatures; or if from a ward or other district not at large, 25 signatures;

8. For a candidate for membership on the governing body of any town that has fewer than 1,500 registered voters, no petition shall be required; and

9. For any other candidate, 50 signatures.

§ 24.2-543. How other groups may submit names of electors; oaths of electors.

A. A group of qualified voters, not constituting a political party as defined in § 24.2-101, may have the names of electors selected by them, including one elector residing in each congressional district and two from the Commonwealth at large, printed upon the official ballot to be used in the election of electors for President and Vice President by filing a petition pursuant to this section. The petition shall be filed with the State Board by noon of the seventy-fourth day before the presidential election. The petition shall be signed by at least 5,000 qualified voters and include signatures of at least 200 qualified voters from each congressional district. The petition shall be signed by petitioners on and after January 1 of the year of the presidential election only and contain the residence address of each petitioner. The signature of each petitioner shall be witnessed either by a person who is a constitutionally qualified candidate for President of the United States, who may witness his own petition, or by a person ~~who is a resident of the Commonwealth and~~ who is not a minor or a felon whose voting rights have not been restored and whose affidavit to that effect appears on each page of the petition. *Each such person circulating a petition who is not a legal resident of the Commonwealth shall sign a statement on the affidavit that he consents to the jurisdiction of the courts of Virginia in resolving any disputes concerning the circulation of petitions, or signatures contained therein, by that person. The signatures of qualified voters collected by a nonresident petition circulator who fails to sign such statement, or who later fails to appear or produce documents when properly served with a subpoena to do so, shall not be counted towards the minimum number of signatures required pursuant to this subsection.*

The petition shall state the names of the electors selected by the petitioners, the party name under which they desire the named electors to be listed on the ballot, and the names of the candidates for President and Vice President for whom the electors are required to vote in the Electoral College. The persons filing the petition shall file with it a copy of a subscribed and notarized oath by each elector stating that he will, if elected, cast his ballot for the candidates for President and Vice President named in the petition, or as the party may direct in the event of death, withdrawal or disqualification of the party nominee. In order to utilize a selected party name on the ballot, the petitioners shall have had a state central committee composed of registered voters from each congressional district of the Commonwealth, a party plan and bylaws, and a duly designated chairman and secretary in existence and holding office for at least six months prior to filing the petition. The State Board may require proof that the petitioners meet these requirements before permitting use of a party name on the ballot. The party name shall not be identical with or substantially similar to the name of any political party qualifying under § 24.2-101 and then in existence.

In the event of the death or withdrawal of a candidate for President or Vice President qualified to appear on the ballot by party name, that party may substitute the name of a different candidate before the State Board certifies to the county and city electoral boards the form of the official ballots.

In the event that a group of qualified voters meets the requirements set forth in this section except that they cannot utilize a party name, the electors selected and the candidates for President and Vice President shall be identified and designated as "Independent" on the ballot. Substitution of a different candidate for Vice President may be made by the candidate for President before the State Board certifies to the county and city electoral boards the form of the official ballot.

In the event of the death or disqualification of any person listed as an elector for candidates for President and Vice President on a petition filed pursuant to this section, the party or candidate for President, as applicable, may substitute the name of a different elector. Such substitution shall not invalidate any petition of qualified voters circulated with the name of the deceased or disqualified elector provided that notice of the substitution is filed with the State Board by noon of the seventy-fourth day before the presidential election. Notice of the substitution and the name of any substitute elector shall be submitted on a form prepared by the State Board.

B. If the State Board determines that a candidate for President does not qualify to have his name appear on the ballot pursuant to this section by reason of the candidate's filed petition not containing the minimum number of signatures of qualified voters for the office sought, the candidate may appeal the determination to the State Board within seven calendar days of the issuance of the notice of disqualification. The notice of disqualification shall be sent by email or regular mail to the address on file for the candidate, and such notice shall be deemed sufficient. The State Board shall hear the appeal within three business days of its filing.

The State Board shall develop procedures for the conduct of such an appeal. The consideration on appeal shall be limited to whether or not the signatures on the petitions that were filed were reasonably rejected according to the requirements of this title and the rules and procedures set forth by the State Board for checking petitions. Immediately after the conclusion of the appeal hearing, the State Board shall notify the candidate of its decision in writing. The decision on appeal shall be final and not subject to further appeal.

If the parent or guardian or person standing in loco parentis withholds such consent, or is not reasonably available, the person potentially exposed to the human immunodeficiency virus or hepatitis B or C viruses, or the employer of such person, may petition the juvenile and domestic relations district court in the county or city where the minor resides or resided, or, in the case of a nonresident, the county or city where the health care provider, law-enforcement agency or school board has its principal office or, in the case of a health care provider rendering emergency care pursuant to subsection D, the county or city where the exposure occurred, for an order requiring the minor to provide a blood specimen or to submit to testing and to disclose the test results in accordance with this section.

If a testing order is issued, both the petitioner and the person from whom the blood specimen is sought shall receive counseling and opportunity for face-to-face disclosure of any test results by a licensed practitioner or trained counselor.

If consent is refused under subsection ~~C~~ of this section *D*, the person involved in the possible exposure prone incident may petition the general district court of the city or county of the public safety agency's principal office to determine whether an exposure prone incident has occurred and to order testing and disclosure of the test results.

~~H. I.~~ The results of the tests shall be confidential as provided in § 32.1-36.1.

Such protected health information shall be used to facilitate the health care of any person or persons who are subject to an order of quarantine or an order of isolation. The State Health Commissioner or his designee shall only redisclose such protected health information in compliance with the aforementioned federal regulations. Further, the protected health information disclosed to the State Health Commissioner or his designee shall be held confidential and shall not be disclosed pursuant to the provisions of subdivision 12 of § 2.2-3705.5.

Every emergency medical services agency that holds a valid license issued by the Commissioner and that is established in the Commonwealth shall notify all facilities to which it transports patients or from which it transfers patients of the names and telephone numbers of the members, not to exceed three persons, who have been appointed to serve as the exposure control officers. Every emergency medical services agency that holds a valid license issued by the Commissioner shall implement universal precautions and shall ensure that these precautions are appropriately followed and enforced.

The identity of the patient shall be confidential.

D. If any firefighter, law-enforcement officer, or emergency medical services provider has an exposure of blood or body fluid to mucous membrane or non-intact skin or a contaminated needlestick injury, his exposure control officer shall be notified, a report completed, and the infection control practitioner at the receiving facility notified.

E. If, during the course of medical care and treatment, any physician determines that a patient who was transported to a receiving facility by any emergency medical services agency that holds a valid license issued by the Commissioner (i) is positive for or has been diagnosed as suffering from an airborne infectious disease or (ii) is subject to an order of quarantine or an order of isolation pursuant to Article 3.02 (§ 32.1-48.05 et seq.) of Chapter 2, then the infection control practitioner in

For the purposes of this section, the chief medical person at a local or state correctional facility or the facility director or his designee shall be responsible for providing such information to the transporting agency.

I. Any person who, as a result of this provision, becomes aware of the identity or condition of a person known to be (i) positive for or to suffer from any communicable disease, or to have suffered exposure to a communicable disease or (ii) subject to an order of quarantine or an order of isolation pursuant to Article 3.02 (§ 32.1-48.05 et seq.) of Chapter 2, shall keep such information confidential, except as expressly authorized by this provision.

J. No person known to be (i) positive for or to suffer from any communicable disease, including any communicable disease of public health threat, or (ii) subject to an order of quarantine or an order of isolation pursuant to Article 3.02 (§ 32.1-48.05 et seq.) of Chapter 2, shall be refused transportation or service for that reason by an emergency medical services, law-enforcement, or public safety agency.

An Act to amend and reenact § 23.1-503 of the Code of Virginia, relating to public institutions of higher education; students; determination of domicile.

[H 1315]

Approved March 27, 2020

Be it enacted by the General Assembly of Virginia:

1. That § 23.1-503 of the Code of Virginia is amended and reenacted as follows:

§ 23.1-503. Determination of domicile; rules; presumptions.

A. Students shall not ordinarily establish domicile by the performance of acts that are auxiliary to fulfilling educational objectives or are required or routinely performed by temporary residents of the Commonwealth. Students shall not establish domicile by mere physical presence or residence primarily for educational purposes.

B. A married individual may establish domicile in the same manner as an unmarried individual.

C. A nonmilitary student whose parent or spouse is a member of the Armed Forces of the United States may establish domicile in the same manner as any other student.

D. Any alien holding an immigration visa or classified as a political refugee may establish domicile in the same manner as any other student. However, absent congressional intent to the contrary, any individual holding a student visa or another temporary visa does not have the capacity to intend to remain in the Commonwealth indefinitely and is therefore ineligible to establish domicile and receive in-state tuition charges.

E. The domicile of a dependent student shall be rebuttably presumed to be the domicile of the parent or legal guardian (i) claiming him as an exemption on federal or state income tax returns currently and for the tax year prior to the date of the alleged entitlement or (ii) providing him with substantial financial support. The spouse of an active duty military service member, if such spouse has established domicile and claimed the dependent student on federal or state income tax returns, is not subject to minimum income tests or requirements.

F. The domicile of an unemancipated minor or a dependent student 18 years old or older may be the domicile of either the parent with whom he resides, the parent who claims the student as a dependent for federal or Virginia income tax purposes for the tax year prior to the date of the alleged entitlement and is currently so claiming the student, or the parent who provides the student with substantial financial support. If there is no surviving parent or the whereabouts of the parents are unknown, then the domicile of an unemancipated minor shall be the domicile of the legal guardian of such unemancipated minor unless circumstances indicate that such guardianship was created primarily for the purpose of establishing domicile.

G. Continuously enrolled non-Virginia students shall be presumed to be in the Commonwealth for educational purposes unless they rebut such presumption with clear and convincing evidence of domicile.

H. A non-Virginia student is not eligible for reclassification as a Virginia student unless he applies for and is approved for such reclassification. Any such reclassification shall only be granted prospectively from the date such application is received.

I. A student who knowingly provides erroneous information in an attempt to evade payment of out-of-state tuition charges shall be charged out-of-state tuition for each term, semester, or quarter attended and may be subject to dismissal

from the institution. All disputes relating to the veracity of information provided to establish domicile in the Commonwealth are appealable as set forth in § 23.1-510.

J. No student shall be deemed ineligible to establish domicile and receive in-state tuition charges solely on the basis of the immigration status of his parent.

CHAPTER 513

An Act to amend and reenact §§ 22.1-298.1 and 22.1-304 of the Code of Virginia, relating to Board of Education; teacher licensure; written reprimand; suspension.

[H 1344]

Approved March 27, 2020

Be it enacted by the General Assembly of Virginia:

1. That §§ 22.1-298.1 and 22.1-304 of the Code of Virginia are amended and reenacted as follows:

§ 22.1-298.1. Regulations governing licensure.

A. As used in this section:

"Alternate route to licensure" means a nontraditional route to teacher licensure available to individuals who meet the criteria specified in the guidelines developed pursuant to subsection N or regulations issued by the Board of Education.

"Industry certification credential" means an active career and technical education credential that is earned by successfully completing a Board of Education-approved industry certification examination, being issued a professional license in the Commonwealth, or successfully completing an occupational competency examination.

"Licensure by reciprocity" means a process used to issue a license to an individual coming into the Commonwealth from another state when that individual meets certain conditions specified in the Board of Education's regulations.

"Professional teacher's assessment" means those tests mandated for licensure as prescribed by the Board of Education.

"Provisional license" means a nonrenewable license issued by the Board of Education for a specified period of time, not to exceed three years, to an individual who may be employed by a school division in the Commonwealth and who generally meets the requirements specified in the Board of Education's regulations for licensure, but who may need to take additional coursework, pass additional assessments, or meet alternative evaluation standards to be fully licensed with a renewable license.

"Renewable license" means a license issued by the Board of Education for 10 years to an individual who meets the requirements specified in the Board of Education's regulations.

B. The Board of Education shall prescribe, by regulation, the requirements for the licensure of teachers and other school personnel required to hold a license. Such regulations shall include procedures for (i) the denial, suspension, cancellation, revocation, and reinstatement of licensure; (ii) written reprimand of license holders *on grounds established by the Board, in accordance with law*, notice of which shall be made by the Superintendent of Public Instruction to division superintendents or their designated representatives; and (iii) the immediate and thorough investigation by the division superintendent or his designee of any complaint alleging that a license holder has engaged in conduct that may form the basis for the revocation of his license. At a minimum, such procedures for investigations contained in such regulations shall require (a) the division superintendent to petition for the revocation of the license upon completing such investigation and finding that there is reasonable cause to believe that the license holder has engaged in conduct that forms the basis for revocation of a license; (b) the school board to proceed to a hearing on such petition for revocation within 90 days of the mailing of a copy of the petition to the license holder, unless the license holder requests the cancellation of his license in accordance with Board regulations; and (c) the school board to provide a copy of the investigative file and such petition for revocation to the Superintendent of Public Instruction at the time that the hearing is scheduled. The Board of Education shall revoke the license of any person for whom it has received a notice of dismissal or resignation pursuant to subsection F of § 22.1-313 and, in the case of a person who is the subject of a founded complaint of child abuse or neglect, after all rights to any administrative appeal provided by § 63.2-1526 have been exhausted. Regardless of the authority of any other agency of the Commonwealth to approve educational programs, only the Board of Education shall have the authority to license teachers to be regularly employed by school boards, including those teachers employed to provide nursing education.

The Board of Education shall prescribe by regulation the licensure requirements for teachers who teach only online courses, as defined in § 22.1-212.23. Such license shall be valid only for teaching online courses. Teachers who hold a 10-year renewable license issued by the Board of Education may teach online courses for which they are properly endorsed.

C. The Board of Education's regulations shall include requirements that a person seeking initial licensure:

1. Demonstrate proficiency in the relevant content area, communication, literacy, and other core skills for educators by achieving a qualifying score on professional assessments or meeting alternative evaluation standards as prescribed by the Board;

2. Complete study in attention deficit disorder;

3. Complete study in gifted education, including the use of multiple criteria to identify gifted students; and

4. Complete study in methods of improving communication between schools and families and ways of increasing family involvement in student learning at home and at school.

D. In addition, such regulations shall include requirements that:

1. Every person seeking initial licensure and persons seeking licensure renewal as teachers who have not completed such study shall complete study in child abuse recognition and intervention in accordance with curriculum guidelines developed by the Board of Education in consultation with the Department of Social Services that are relevant to the specific teacher licensure routes;

2. Every person seeking renewal of a license shall complete all renewal requirements, including professional development in a manner prescribed by the Board, except that no person seeking renewal of a license shall be required to satisfy any such requirement by completing coursework and earning credit at an institution of higher education;

3. Every person seeking initial licensure or renewal of a license shall provide evidence of completion of certification or training in emergency first aid, cardiopulmonary resuscitation, and the use of automated external defibrillators. The certification or training program shall (i) be based on the current national evidence-based emergency cardiovascular care guidelines for cardiopulmonary resuscitation and the use of an automated external defibrillator, such as a program developed by the American Heart Association or the American Red Cross, and (ii) include hands-on practice of the skills necessary to perform cardiopulmonary resuscitation. The Board shall provide a waiver for this requirement for any person with a disability whose disability prohibits such person from completing the certification or training;

4. Every person seeking licensure with an endorsement as a teacher of the blind and visually impaired shall demonstrate proficiency in reading and writing Braille;

5. Every teacher seeking an initial license in the Commonwealth with an endorsement in the area of career and technical education shall have an industry certification credential in the area in which the teacher seeks endorsement. If a teacher seeking an initial license in the Commonwealth has not attained an industry certification credential in the area in which the teacher seeks endorsement, the Board may, upon request of the employing school division or educational agency, issue the teacher a provisional license to allow time for the teacher to attain such credential;

6. Every person seeking initial licensure or renewal of a license shall complete awareness training, provided by the Department of Education, on the indicators of dyslexia, as that term is defined by the Board pursuant to regulations, and the evidence-based interventions and accommodations for dyslexia; and

7. Every person seeking initial licensure or renewal of a license with an endorsement as a school counselor shall complete training in the recognition of mental health disorder and behavioral distress, including depression, trauma, violence, youth suicide, and substance abuse.

E. No teacher who seeks a provisional license shall be required to meet any requirement set forth in subdivision D 1, 3, or 6 as a condition of such licensure, but each such teacher shall complete each such requirement during the first year of provisional licensure.

F. The Board shall issue a license to an individual seeking initial licensure who has not completed professional assessments as prescribed by the Board, if such individual (i) holds a provisional license that will expire within three months; (ii) is employed by a school board; (iii) is recommended for licensure by the division superintendent; (iv) has attempted, unsuccessfully, to obtain a qualifying score on the professional assessments as prescribed by the Board; (v) has received an evaluation rating of proficient or above on the performance standards for each year of the provisional license, and such evaluation was conducted in a manner consistent with the Guidelines for Uniform Performance Standards and Evaluation Criteria for Teachers, Principals, and Superintendents; and (vi) meets all other requirements for initial licensure.

G. Each local school board or division superintendent may waive for any individual whom it seeks to employ as a career and technical education teacher and who is also seeking initial licensure or renewal of a license with an endorsement in the area of career and technical education any applicable requirement set forth in subsection C or subdivision D 2, 4, or 6.

H. The Board's regulations shall require that initial licensure for principals and assistant principals be contingent upon passage of an assessment as prescribed by the Board.

I. The Board shall establish criteria in its regulations to effectuate the substitution of experiential learning for coursework for those persons seeking initial licensure through an alternate route as defined in Board regulations. Such alternate routes shall include eligibility for any individual to receive, notwithstanding any provision of law to the contrary, a renewable one-year license to teach in public high schools in the Commonwealth if he has:

1. Received a graduate degree from a regionally accredited institution of higher education;

2. Completed at least 30 credit hours of teaching experience as an instructor at a regionally accredited institution of higher education;

3. Received qualifying scores on the professional teacher's assessments prescribed by the Board, including the communication and literacy assessment and the content-area assessment for the endorsement sought; and

4. Met the requirements set forth in subdivisions D 1 and 3.

J. Notwithstanding any provision of law to the contrary, the Board (i) may provide for the issuance of a provisional license, valid for a period not to exceed three years, pursuant to subdivision D 5 or to any person who does not meet the requirements of this section or any other requirement for licensure imposed by law and (ii) shall provide for the issuance of a provisional license, valid for a period not to exceed three years, to any former member of the Armed Forces of the United States or the Virginia National Guard who has received an honorable discharge and has the appropriate level of experience or training but does not meet the requirements for a renewable license.

K. The Board's licensure regulations shall also provide for licensure by reciprocity:

1. With comparable endorsement areas for those individuals holding a valid out-of-state teaching license and national certification from the National Board for Professional Teaching Standards or a nationally recognized certification program

approved by the Board of Education. The application for such individuals shall require evidence of such valid licensure and national certification and shall not require official student transcripts;

2. For any spouse of an active duty member of the Armed Forces of the United States or the Commonwealth who has obtained a valid out-of-state license, with full credentials and without deficiencies, that is in force at the time the application for a Virginia license is received by the Department of Education. Each such individual shall establish a file in the Department of Education by submitting a complete application packet, which shall include official student transcripts. No service requirements or licensing assessments shall be required for any such individual; and

3. For individuals who have obtained a valid out-of-state license, with full credentials and without deficiencies, that is in force at the time the application for a Virginia license is received by the Department of Education. Each such individual shall establish a file in the Department of Education by submitting a complete application packet, which shall include official student transcripts. No service requirements or licensing assessments shall be required for any such individual.

L. The Board shall include in its regulations an alternate route to licensure for elementary education preK-6 and an alternate route to licensure for special education general curriculum K-12. Each such alternate route to licensure shall require individuals to (i) meet the qualifying scores on the content area assessment prescribed by the Board for the endorsements sought and (ii) complete an alternative certification program that provides training in the pedagogy and methodology of the respective content or special education areas prescribed by the Board. The curriculum of any such alternative certification program shall be approved by the Board. Nothing in this subsection shall preclude the Board from establishing other alternate routes to licensure.

M. The Board, in its regulations providing for licensure by reciprocity established pursuant to subsection K, shall (i) permit applicants to submit third-party employment verification forms and (ii) grant special consideration to individuals who have successfully completed a program offered by a provider that is accredited by the Council for the Accreditation of Educator Preparation.

N. The Board shall develop guidelines that establish a process to permit a school board or any organization sponsored by a school board to petition the Board for approval of an alternate route to licensure that may be used to meet the requirements for a provisional or renewable license or any endorsement. Any such alternate route may include alternatives to the regulatory requirements for teacher preparation, including alternative professional assessments and coursework. The petitioner may proffer or the Board may impose conditions in conjunction with the approval of such petition.

§ 22.1-304. Reemployment of teacher who has not achieved continuing contract status; effect of continuing contract; resignation of teacher; reduction in number of teachers.

A. If a teacher who has not achieved continuing contract status receives notice of reemployment, he must accept or reject in writing within 15 days of receipt of such notice. Except as provided in § 22.1-305 and except in the case of a reduction in force as provided in subsection F, written notice of nonrenewal of the probationary contract must be given by the school board on or before June 15 of each year. If no such notice is given a teacher by June 15, the teacher shall be entitled to a contract for the ensuing year in accordance with local salary stipulations including increments.

B. Teachers employed after completing the probationary period shall be entitled to continuing contracts during good behavior and competent service. Written notice of noncontinuation of the contract by either party must be given by June 15 of each year; otherwise the contract continues in effect for the ensuing year in conformity with local salary stipulations including increments.

C. A teacher may resign after June 15 of any school year with the approval of the local school board or, upon authorization by the school board, with the approval of the division superintendent. The teacher shall request release from contract at least two weeks in advance of intended date of resignation. Such request shall be in writing and shall set forth the cause of resignation.

If the division superintendent has been authorized to approve resignations, a teacher may, within one week, withdraw a request to resign. Upon the expiration of the one-week period, the division superintendent shall notify the school board of his decision to accept or reject the resignation. The school board, within two weeks, may reverse the decision of the division superintendent.

In the event that the board or the division superintendent declines to grant the request for release on the grounds of insufficient or unjustifiable cause, and the teacher breaches such contract, disciplinary action, which may include written reprimand, *suspension*, or revocation of the teacher's license, may be taken pursuant to regulations prescribed by the Board of Education.

D. As soon after June 15 as the school budget shall have been approved by the appropriating body, the school board shall furnish each teacher a statement confirming continuation of employment, setting forth assignment and salary.

Nothing in the continuing contract shall be construed to authorize the school board to contract for any financial obligation beyond the period for which funds have been made available with which to meet such obligation.

E. A school board may reduce the number of teachers, whether or not such teachers have reached continuing contract status, because of decrease in enrollment or abolition of particular subjects.

F. Within two weeks of the approval of the school budget by the appropriating body, but no later than July 1, school boards shall notify all teachers who may be subject to a reduction in force due to a decrease in the school board's budget as approved by the appropriating body.

G. If a school board implements a reduction in workforce pursuant to this section, such reduction shall not be made solely on the basis of seniority but must include consideration of, among other things, the performance evaluations of the teachers potentially affected by the reduction in workforce.

[H 835]

Approved March 31, 2020

Be it enacted by the General Assembly of Virginia:

1. § 1. *The State Corporation Commission (the Commission) shall establish rules governing petitions by an acquiring public utility that has elected to seek use of the fair market value of a municipal or other governmental selling utility's water or sewer assets to determine the initial rate base for the purpose of post-acquisition rate recovery. Such rules shall identify information to be filed in addition to all other filing requirements in the Utility Transfers Act (§ 56-88 et seq. of the Code of Virginia). Such rules shall:*

1. *Establish the process for determining the acquired water or sewer utility rate base, taking into consideration the use of the lesser of (i) the agreed-upon purchase price established during a voluntary arm's-length transaction by the selling and acquiring utilities and (ii) the fair market value established using the average of the valuations provided by three qualified and impartial utility valuation experts.*

2. *Provide for the acquiring utility to submit complete and unredacted copies of two qualified, independent, and impartial utility valuation expert's appraisals of the system assets to be acquired in compliance with the uniform standards of professional appraisal practices. The appraisals shall be treated confidentially. Such appraisals shall be completed and submitted in accordance with the following:*

a. *One appraisal shall be sponsored by the public utility acquiring the utility system assets, and one appraisal shall be sponsored by the government entity selling the utility system assets.*

b. *The qualifications of such utility valuation experts, specifically as they relate to water or wastewater utility systems, shall be clearly identified in the application.*

c. *The appraisals shall clearly identify whether they are based on a cost, market, income, or other methodology.*

d. *The appraisals shall quantify only the fair market value associated with assets that are to be currently used and useful in utility service. To the extent assets are acquired beyond those to be currently used and useful in utility service, a narrative shall be provided of the acquiring utility's intended purpose of such assets.*

e. *Commission staff and other intervenors may seek discovery to confirm the reasonableness of such appraisals and may provide testimony and recommendations regarding such.*

f. *When combined with a third appraisal sponsored by the Commission staff, the average of the three appraisals shall be deemed the fair market value for the purposes of this proceeding. The applicant may seek discovery to confirm the reasonableness of such appraisal and may provide testimony and recommendations regarding such.*

3. *Provide for the submission of a complete and unredacted copy of an assessment performed by a professional engineer licensed in Virginia, jointly retained by the acquiring and selling utilities, regarding tangible assets of the utility system to be acquired. Such assessment shall be used by the utility valuation experts as a basis for their valuations in determining fair market value and shall be treated confidentially. Such assessments shall be completed and submitted in accordance with the following:*

a. *The qualifications of such licensed engineer, specifically as they relate to water and/or wastewater utility systems, shall be clearly identified in the application.*

b. *Commission staff and other intervenors may seek discovery to confirm the reasonableness of the assessment and may provide testimony and recommendations regarding such.*

c. To the extent assets are to be acquired beyond those to be currently used and useful in utility service, such assessment shall separately quantify only the assets that are to be currently used and useful in utility service.

4. Provide that to the extent the proposed purchase price is different from that provided in the appraisals, the application shall identify such proposed purchase price.

5. Provide for the acquiring utility to submit the proposed journal entries resulting from the proposed acquisition, including tax entries, including account numbers recognized by the National Association of Regulatory Utility Commissioners.

6. Provide for the acquiring utility to submit an analysis identifying the qualitative and quantitative benefits and estimated customer rate impacts for the next five years as a result of the proposed acquisition for each of (i) the customers of the desired system and (ii) the legacy customers of the acquiring utility. Such analysis should clearly identify all assumptions relied upon.

7. Provide that if depreciation rates for the acquired system are not based on a depreciation study:

a. The acquiring utility may apply a three percent composite depreciation rate to the fair market value of the utility system assets acquired.

b. A depreciation study on the acquired system shall be performed within five years of acquisition and provided for review by Commission staff. Upon acceptance of the depreciation rates by Commission staff for booking purposes, such rates shall be utilized for the system effective as of the date of the study.

c. However, if the acquired system is of a size that would qualify under the Small Water or Sewer Public Utility Act (§ 56-265.13:1 et seq. of the Code of Virginia), such assets may be exempted from the requirement of performing a depreciation study.

8. Establish the ability to evaluate and include reasonable transaction costs and fees of the utility valuation experts in the fair market value determination in addition to reasonable transaction and closing costs when establishing the rate base.

9. Provide that the rate base value of the acquired system assets shall be the fees and costs of the utility valuation experts authorized by the acquiring and selling utilities in addition to reasonable transaction and closing costs, plus the lesser of (i) the purchase price negotiated between the acquiring utility and selling utility as the result of a voluntary arm's-length transaction and (ii) the fair market value for subsequent rate-making purposes in the acquiring utility's next base rate case.

Nothing in the established rules shall be construed to relieve the petitioners from the duty to demonstrate adequate service to the public at just and reasonable rates that will not be impaired or jeopardized by granting the prayer of the petition as provided in § 56-90 of the Code of Virginia.

Such rules shall be developed in coordination and consultation with industry experts and stakeholders and established by January 1, 2021.

CHAPTER 525

An Act to amend and reenact § 2.2-2489 of the Code of Virginia, relating to GO Virginia grants; matching funds.

[H 1597]

Approved March 31, 2020

Be it enacted by the General Assembly of Virginia:

1. That § 2.2-2489 of the Code of Virginia is amended and reenacted as follows:

§ 2.2-2489. Award of grants to regional councils.

A. The Board shall establish guidelines, procedures, and objective criteria for the award and distribution of grants from the Fund to regional councils.

B. In order to qualify to receive grants from the Fund, a regional council shall develop an economic growth and diversification plan to (i) promote private-sector growth and opportunity in the region; (ii) identify issues of economic competitiveness for the region, including gaps in education and skills required to meet existing and prospective employer needs within the region; and (iii) outline steps that the collaborating business, education, and government entities in the region will pursue to expand economic opportunity, diversify the economy, and align workforce development activities with the education and skills needed by employers in the region. A regional council shall review such plan not less than biennially while the regional council is receiving grants from the Fund.

C. The Board shall only consider those regional activities endorsed by a regional council in its application for grants from the Fund. For any regional activity included in a regional council's application, the regional council shall identify (i) the amount of grants requested and the number of years for which grants are sought; (ii) the participating business, education, and government entities and their respective roles and contributions; (iii) the private, local, and other sources of nonstate funding that the grant from the Fund will assist in generating, including specific amounts pledged by such sources as of the application date; (iv) how the regional activity addresses the skills gaps identified in the council's economic growth and diversification plan; and (v) the economic impact or other outcomes that are reasonably expected to result from the proposed regional activity, including timetables and means of measurement.

D. Regional activities eligible for grants from the Fund shall be focused on high-impact, collaborative projects in a region that promote new job creation, entrepreneurship, and new capital investment; leverage nonstate resources to enhance collaboration; foster research, development, and commercialization activities; encourage cooperation among public bodies to reduce costs and duplication of government services; and promote other economic or workforce development activities consistent with this article that are authorized by the Board. The Board shall give initial priority to grant proposals that promote workforce development and other activities focused on eliminating skills gaps identified in a region's economic growth and diversification plan.

E. In determining a regional council's eligibility to receive grants from the Fund, and the amount of such grants, the Board shall review and score the proposed regional activities. Scores shall be assigned on the basis of predetermined criteria established by the Board in its guidelines and procedures based on the following factors:

1. The expected economic impact or outcome of the activity, with particular emphasis on goals identified in the regional council's plan for economic growth and diversification;

2. The fiscal resources from non-Fund sources that will be committed to the activity, including local or federal funds, private contributions, and cost savings expected to be achieved through regional collaboration;

3. The number and percentage of localities, including political subdivisions and bodies corporate and politic, within the region that are participating in the activity, the portion of the region's population represented by the participating localities, and the participation of localities that are outside of the applicant region;

4. The compatibility with other projects, programs, or existing infrastructure in a region to maximize the leverage of grants from the Fund to encourage new collaborative activities;

5. The expected economic impact and outcomes of the project and the complexity of the project relative to the size of the economy of the region or to the population of the participating localities;

6. The projected cost savings and other efficiencies generated by the proposed activity, and the local resources generated by collaboration that have been or will be repurposed to support the activity;

7. The character of the regional collaboration, including the nature and extent of the regional effort involved in developing and implementing the proposed activity, the complexity of the activity, the prospective impact on relations

between and among the affected localities, and the prospective impact on collaboration between and among business, education, and government entities in the region;

8. Interstate, inter-regional, and other beneficial forms of collaboration, if any, that will accompany, result from, or be encouraged by the activity;

9. Efficiency in the administration and oversight of regional activities; and

10. Other factors deemed to be appropriate by the Board.

F. Each regional council awarded a grant from the Fund shall issue an annual report that shall include, at a minimum, an assessment of the impact and outcomes from regional activities supported by grants from the Fund and the region's overall progress in addressing the goals and strategies identified in the region's plan for economic growth and diversification. Such assessment shall address performance criteria prescribed in the program guidelines and procedures.

G. Subject to the provisions of § 2.2-2488 and this section, once a regional council becomes eligible for grants from the Fund, the regional council may continue to apply for and receive grants from the Fund to support economic activities consistent with the regional council's economic growth and diversification plan in such amounts and for such duration as the Board may determine in accordance with its guidelines and procedures. The Board may terminate any payments to regional councils that fail to perform in accordance with this article, the Board's guidelines or procedures, or any conditions expressly agreed upon as part of a grant award, or for malfeasance. The Board may require the refund of moneys from the Fund upon such termination. Grants that are terminated shall revert to the Fund for distribution on an unallocated competitive basis.

H. In making Fund recommendations and awards, the Board may consider regional activities that commenced prior to the enactment of this article, provided that the grant-funded program or project will expand the scope of, or increase the number of localities participating in, such preexisting activity.

I. No regional council may have outstanding grant commitments of more than 25 percent of the total amount appropriated to the Fund.

J. The year for grant payments shall be the Commonwealth's fiscal year following the calendar year in which the region qualifies, with payments made annually by the Comptroller upon certification by the Board. Grant amounts shall be made at the sole discretion of the Board.

K. Any grant awarded from the Fund to a regional council shall require matching funds at least equal to the grant, provided, however, that the Board shall have the authority to reduce the match requirement to no less than half of the grant upon a finding by the Board of fiscal distress or an exceptional economic opportunity in a region. Such matching funds may be from local, regional, federal, or private funds; *Matching funds may also be from grants awarded to a locality by the Tobacco Region Revitalization Commission* but shall not include any other state general or nongeneral funds, from whatever source.

L. Decisions of the Board shall be final and not subject to review or appeal.

2. That the provisions of this act shall expire on July 1, 2021.

If the prisoner qualifies as indigent, such products shall be provided without cost.*

CHAPTER 527

An Act to amend the Code of Virginia by adding a section numbered 18.2-308.5:1, relating to manufacture, importation, sale, etc., of trigger activators; prohibition; penalty.

[S 14]

Approved March 31, 2020

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding a section numbered 18.2-308.5:1 as follows:

§ 18.2-308.5:1. *Manufacture, importation, sale, possession, transfer, or transportation of trigger activators prohibited; penalty.*

A. As used in this section, "trigger activator" means a device designed to allow a semi-automatic firearm to shoot more than one shot with a single pull of the trigger by harnessing the recoil energy of any semi-automatic firearm to which it is affixed so that the trigger resets and continues firing without additional physical manipulation of the trigger by the shooter.

B. It is unlawful for any person to manufacture, import, sell, offer for sale, possess, transfer, or transport a trigger activator in the Commonwealth.

C. A violation of this section is punishable as a Class 6 felony.

D. Nothing in this section shall be construed to prohibit a person from manufacturing, importing, selling, offering for sale, possessing, receiving, transferring, or transporting any item for which such person is in compliance with the National Firearms Act (26 U.S.C. § 5801 et seq.).

2. That the provisions of this act may result in a net increase in periods of imprisonment or commitment. Pursuant to § 30-19.1:4 of the Code of Virginia, the estimated amount of the necessary appropriation cannot be determined for periods of imprisonment in state adult correctional facilities; therefore, Chapter 854 of the Acts of Assembly of 2019 requires the Virginia Criminal Sentencing Commission to assign a minimum fiscal impact of \$50,000. Pursuant to § 30-19.1:4 of the Code of Virginia, the estimated amount of the necessary appropriation cannot be determined for periods of commitment to the custody of the Department of Juvenile Justice.

Be it enacted by the General Assembly of Virginia:**1. That §§ 2, 11, and 114, as amended, of Chapter 34 of the Acts of Assembly of 1918 are amended and reenacted as follows:**

§ 2. Power of the city.

In addition to the powers mentioned in the preceding section, the said city shall have power:

(1) To raise annually by taxes and assessments in said city such sums of money as the council hereinafter provided for shall deem necessary for the purposes of said city, and in such manner as said council shall deem expedient, in accordance with the Constitution and the laws of this State and of the United States; provided, however, that it shall impose no tax on the bonds of this city.

(2) To impose special or local assessments for local improvements and enforce payment thereof, subject, however, to such limitations prescribed by the Constitution of Virginia as may be in force at the time of the imposition of such special or local assessments.

(3) Subject to the provisions of the Constitution of Virginia and of § 86, as amended, of this charter, to contract debts, borrow money and make and issue evidence of indebtedness.

(4) To expend the money of the city for all lawful purposes.

(5) To acquire by purchase, gift, devise, condemnation or otherwise, property, real or personal, or any estate or interest therein within or without the city or State and for any of the purposes of the city; and to hold, improve, sell, lease, mortgage, pledge or otherwise dispose of the same or any part thereof.

(6) To acquire, in any lawful manner, for the purpose of encouraging commerce and manufacture, lands within and without the city not exceeding at any one time 5,000 acres in the aggregate, and from time to time to sell or lease the same or any part thereof for industrial or commercial uses and purposes.

(7) To make and maintain public improvements of all kinds, including municipal and other public buildings, armories, markets and all buildings and structures necessary or appropriate for the use of the departments of fire and police; and to acquire by condemnation or otherwise all lands, riparian and other rights and easements necessary for such improvements, or any of them.

(8) To furnish all local public service; to purchase, hire, construct, own, maintain and operate, or lease local public utilities, to acquire by condemnation or otherwise, within or without the corporate limits, land and property necessary for any such purposes.

(9) To acquire, in any lawful manner, in any county of the State, or without the State, such water, lands and lands under water as the council of said city may deem necessary for the purpose of providing an adequate water supply for said city and of piping or conducting the same; to lay all necessary mains; to erect and maintain all necessary dams, pumping stations and other works in connection therewith; to make reasonable rules and regulations for promoting the purity of its said water supply and for protecting the same from pollution; and for this purpose to exercise full police powers and sanitary patrol over all lands comprised within the limits of the watershed tributary to any such water supply wherever such lands may be located in this State; to impose and enforce adequate penalties for the violation of any such rules and regulations; and to prevent by injunction any pollution or threatened pollution of such water supply and any and all acts likely to impair the purity thereof; and for the purpose of acquiring lands or material for any such use to exercise within the State all powers of eminent domain possessed by railroad corporations under the laws of this State; provided that the lands and lands under water which may be held in this State by said city for such purpose shall not exceed, in the aggregate, 30,000 acres at any one time. For any of the purposes aforesaid, said city may, if the council shall so determine, acquire by condemnation, purchase or otherwise, any estate or interest in such lands or any of them, or any right or easement therein, or may acquire such lands or any of them in fee, reserving to the owner or owners thereof such rights or easements therein as may be prescribed in the ordinance providing for such condemnation or purchase. The said city may sell or supply to persons, firms or industries residing or located outside of the city limits any surplus of water it may have over and above the amount required to supply its own inhabitants.

(10 1/2) To establish, in the manner hereinafter provided, adjacent to or near the lines of existing streets, on either or both sides thereof, building lines, and to provide that no new buildings shall thereafter be erected upon the property (hereinafter called the interlying property) lying between said building lines and the street lines. Said building lines may be established for the whole or any part of a street (but not for less than one block or the distance between two cross streets), as the council may determine. Before any such lines shall be established, the council shall cause to be published, for at least 10 days in some paper of general circulation in the city, a notice addressed generally, but without naming them, to the owners of the property on which building lines are proposed to be established, stating that it is proposed to establish building lines thereon and naming a day when a hearing will be had in respect thereof. After said hearing the council may proceed to establish such lines, and the ordinance establishing the same shall be recorded by the city clerk and indexed in the name of the street near which said building lines are to be established; and thereafter all persons shall be deemed to be affected with notice of the establishment of such lines, and no permits shall be granted for the construction of any building on the interlying property.

But the ordinance establishing said lines shall become null and void as against any owner of property objecting thereto, unless:

(a) When the interlying property shall be unoccupied by buildings, the city shall, within 60 days after the passage of the ordinance establishing said lines, purchase the same or institute condemnation proceedings for the acquisition thereof; or

(b) When the interlying property is occupied, in whole or in part, by buildings, the city shall, within 60 days after receipt of notice in writing that the said buildings have been removed from said interlying property (it being hereby made the duty of the said owner to give such notice), purchase said interlying property or institute condemnation proceedings for the acquisition thereof, and thereafter complete its acquisition of property in said proceedings.

The rights of the city shall not be prejudiced by any defect in the proceedings instituted under paragraph (a) and (b) hereof, resulting in their dismissal, if within 30 days after said dismissal new proceedings shall be instituted for the same purpose. Nothing herein contained shall be construed as limiting or abridging in any degree the power of eminent domain now possessed by the city under existing law.

CHAPTER 530

An Act to amend and reenact § 18.2-270.1 of the Code of Virginia, relating to ignition interlock for first offense driving under the influence of drugs.

[S 282]

Approved March 31, 2020

Be it enacted by the General Assembly of Virginia:

1. That § 18.2-270.1 of the Code of Virginia is amended and reenacted as follows:

§ 18.2-270.1. Ignition interlock systems; penalty.

A. For purposes of this section and § 18.2-270.2:

"Commission" means the Commission on VASAP.

"Department" means the Department of Motor Vehicles.

"Ignition interlock system" means a device that (i) connects a motor vehicle ignition system to an analyzer that measures a driver's blood alcohol content; (ii) prevents a motor vehicle ignition from starting if a driver's blood alcohol content exceeds 0.02 percent; and (iii) is equipped with the ability to perform a rolling retest and to electronically log the blood alcohol content during ignition, attempted ignition and rolling retest.

"Rolling retest" means a test of the vehicle operator's blood alcohol content required at random intervals during operation of the vehicle, which triggers the sounding of the horn and flashing of lights if (i) the test indicates that the operator has a blood alcohol content which exceeds 0.02 percent or (ii) the operator fails to take the test.

B. In addition to any penalty provided by law for a conviction under § 18.2-51.4 or *clauses (i), (ii), or (iv) of § 18.2-266 or a substantially similar ordinance of any county, city, or town, any court of proper jurisdiction shall, as a condition of a restricted license, prohibit an offender from operating a motor vehicle that is not equipped with a functioning, certified ignition interlock system for any period of time not to exceed the period of license suspension and restriction, not less than six consecutive months without alcohol-related violations of the interlock requirements. In addition to any penalty provided by law for a conviction under clauses (iii) or (v) of § 18.2-266 or a substantially similar ordinance of any county, city, or town, any court of proper jurisdiction may, for a first offense, as a condition of a restricted license, prohibit an offender from operating a motor vehicle that is not equipped with a functioning, certified ignition interlock system for any period of time not to exceed the period of license suspension and restriction, not less than six consecutive months without alcohol-related violations of the interlock requirements.* The court shall, for a conviction under § 18.2-51.4, a second or subsequent offense of § 18.2-266 or a substantially similar ordinance of any county, city or town, or as a condition of license restoration pursuant to subsection C of § 18.2-271.1 or § 46.2-391, require that such a system be installed on each motor vehicle, as defined in § 46.2-100, owned by or registered to the offender, in whole or in part, for such period of time. Such condition shall be in addition to any purposes for which a restricted license may be issued pursuant to § 18.2-271.1. The court may order the installation of an ignition interlock system to commence immediately upon conviction. A fee of \$20 to cover court and administrative costs related to the ignition interlock system shall be paid by any such offender to the clerk of the court. The court shall require the offender to install an electronic log device with the ignition interlock system on a vehicle designated by the court to measure the blood alcohol content at each attempted ignition and random rolling retest during operation of the vehicle. The offender shall be enrolled in and supervised by an alcohol safety action program pursuant to § 18.2-271.1 and to conditions established by regulation under § 18.2-270.2 by the Commission during the period for which the court has ordered installation of the ignition interlock system. The offender shall be further required to provide to such program, at least quarterly during the period of court ordered ignition interlock installation, a printout from such electronic log indicating the offender's blood alcohol content during such ignitions, attempted ignitions, and rolling retests, and showing attempts to circumvent or tamper with the equipment. The period of time during which the offender (i) is prohibited from operating a motor vehicle that is not equipped with an ignition interlock system or (ii) is required to

have an ignition interlock system installed on each motor vehicle owned by or registered to the offender, in whole or in part, shall be calculated from the date the offender is issued a restricted license by the court; however, such period of time shall be tolled upon the expiration of the restricted license issued by the court until such time as the person is issued a restricted license by the Department.

C. In any case in which the court requires the installation of an ignition interlock system, the court shall order the offender not to operate any motor vehicle that is not equipped with such a system for the period of time that the interlock restriction is in effect. The clerk of the court shall file with the Department of Motor Vehicles a copy of the order, which shall become a part of the offender's operator's license record maintained by the Department. The Department shall issue to the offender for the period during which the interlock restriction is imposed a restricted license which shall appropriately set forth the restrictions required by the court under this subsection and any other restrictions imposed upon the offender's driving privilege, and shall also set forth any exception granted by the court under subsection F.

D. The offender shall be ordered to provide the appropriate ASAP program, within 30 days of the effective date of the order of court, proof of the installation of the ignition interlock system. The Program shall require the offender to have the system monitored and calibrated for proper operation at least every 30 days by an entity approved by the Commission under the provisions of § 18.2-270.2 and to demonstrate proof thereof. The offender shall pay the cost of leasing or buying and monitoring and maintaining the ignition interlock system. Absent good cause shown, the court may revoke the offender's driving privilege for failing to (i) timely install such system or (ii) have the system properly monitored and calibrated.

E. No person shall start or attempt to start a motor vehicle equipped with an ignition interlock system for the purpose of providing an operable motor vehicle to a person who is prohibited under this section from operating a motor vehicle that is not equipped with an ignition interlock system. No person shall tamper with, or in any way attempt to circumvent the operation of, an ignition interlock system that has been installed in the motor vehicle of a person under this section. Except as authorized in subsection F, no person shall knowingly furnish a motor vehicle not equipped with a functioning ignition interlock system to any person prohibited under subsection B from operating any motor vehicle which is not equipped with such system. A violation of this subsection is punishable as a Class 1 misdemeanor.

F. Any person prohibited from operating a motor vehicle under subsection B may, solely in the course of his employment, operate a motor vehicle that is owned or provided by his employer without installation of an ignition interlock system, if the court expressly permits such operation as a condition of a restricted license at the request of the employer; such person shall not be permitted to operate any other vehicle without a functioning ignition interlock system and, in no event, shall such person be permitted to operate a school bus, school vehicle, or a commercial motor vehicle as defined in § 46.2-341.4. This subsection shall not apply if such employer is an entity wholly or partially owned or controlled by the person otherwise prohibited from operating a vehicle without an ignition interlock system.

G. The Commission shall promulgate such regulations and forms as are necessary to implement the procedures outlined in this section.

A. If the Authority issues bonds pursuant to § 15.2-5943 or enters into a contractual agreement pursuant to § 15.2-5942, it shall create a Facility Financing Fund, hereafter referred to as "the Fund." The Authority shall use the Fund as a non-lapsing revolving fund for the purposes of carrying out the provisions of this chapter.

B. 1. The following receipts of the Authority shall be placed in the Fund: (i) proceeds from the sale of bonds issued pursuant to § 15.2-5943; (ii) revenues collected or received from any Hampton Roads locality, including local tax revenues appropriated for the purpose of deposit in the Fund; (iii) sales and use tax revenue remitted to the Authority pursuant to § 15.2-5946; (iv) development fees; and (v) revenues collected or received from any source under the provisions of this chapter. The Authority may place in the Fund any other revenues under its jurisdiction.

2. Any Hampton Roads locality may appropriate funds to the Fund for the Authority to use in accomplishing the purposes identified in this chapter.

C. The Authority shall pay expenses and make expenditures from the Fund, subject to appropriation by its governing board. Money in the Fund shall be used only (i) to pay debt service on bonds issued pursuant to § 15.2-5938, (ii) to make expenditures related to contractual obligations for the construction, development, operation, and maintenance of a Facility, (iii) to pay all reasonable charges and expenses related to borrowing and management of obligations by the Authority, and (iv) to remit to each participating locality its share of revenues from the Facility.

§ 15.2-5946. Entitlement to tax revenues derived from the operation of a Facility.

A. 1. The Authority shall be entitled, subject to appropriation, to sales and use tax revenues defined in this chapter. Such entitlement shall include transactions that occur while a Facility is under construction. The State Comptroller shall remit such sales and use tax revenues to the Authority on a quarterly basis, subject to such reasonable processing delays as may be required by the Department of Taxation. The State Comptroller shall make such remittances to the Authority, as provided herein, notwithstanding any provisions to the contrary in the Virginia Retail Sales and Use Tax Act (§ 58.1-600 et seq.).

2. The revenues accruing to the Authority pursuant to the provisions of this section shall be used by the Authority only to pay debt service, to distribute to any lessee of the Facility for the purpose of paying debt service, to meet contractual obligations entered into pursuant to § 15.2-5942, or to remit to each participating locality its share of revenues from the Facility.

B. The governing body of the Authority may fix and revise from time to time and charge and collect rates, rents, fees, ticket surcharges, or other charges for a Facility developed under the provisions of this chapter.

C. If a Facility qualifies for entitlement to sales and use tax revenues pursuant to the provisions of § 58.1-3851.1 or 58.1-3851.2, the Authority shall remain eligible to receive sales and use tax revenues pursuant to the provisions of this chapter; however, the amount received pursuant to this chapter shall be reduced by the amount received pursuant to the provisions of § 58.1-3851.1 or 58.1-3851.2.

D. The Tax Commissioner, as defined in § 58.1-1, shall report to the Chairmen of the Senate Committee on Finance, the House Committee on Appropriations, and the House Committee on Finance by July 1 of each year the amount of tax revenues accruing to the Authority pursuant to the provisions of this chapter.

§ 15.2-5947. Sharing of revenue among participating localities.

The Authority shall develop and administer a plan to distribute sales and use tax revenues from the Facility to each participating locality. The Authority shall not distribute such revenues to any participating locality until it has paid off any debt incurred pursuant to the provisions of this chapter. The plan to distribute sales and use tax revenues shall reasonably account for each participating locality's contributions to the costs of financing, constructing, maintaining, and operating the Facility and Facility Site.

§ 15.2-5948. Tax revenues of the Commonwealth or any other political subdivision not pledged.

Nothing in this chapter shall be construed as authorizing the pledging of the faith and credit of the Commonwealth, or the faith and credit of any other political subdivision of the Commonwealth, for the payment of any bonds. No bonds issued pursuant to § 15.2-5943 shall pledge the full faith and credit of the Commonwealth, nor shall such bonds constitute a debt of the Commonwealth, and the bonds shall so state on their face. Bondholders shall have no recourse whatsoever against the Commonwealth for the payment of principal, interest, or redemption premium, if any, on such bonds.

§ 15.2-5949. Expiration of entitlement to certain sales tax revenues.

The provisions of this chapter shall expire on the earlier of (i) the maturity date of any bonds issued for the construction of a Facility, including any refunding or refinancing of such bonds, or (ii) July 1, 2060.

2. That the initial terms of the Governor's appointees to the Hampton Roads Regional Arena Authority shall be staggered as follows: the initial term of one of the members shall be four years; the initial term of one of the members shall be three years; the initial term of one of the members shall be two years; and the initial term of the remaining member shall be one year. The Governor shall designate the initial term to be served by each appointee.
3. That Chapter 59 (§§ 15.2-5900 through 15.2-5916) of Title 15.2 of the Code of Virginia is repealed.

§ 15.2-5936. Creation of Authority.

There is hereby established a body corporate and politic known as the Hampton Roads Regional Arena Authority. The Authority is a political subdivision of the Commonwealth.

§ 15.2-5937. Members of Authority; chairman; terms.

A. The Authority shall consist of seven members as follows: four nonlegislative citizen members to be appointed by the Governor in consultation with the chief elected officer of each Hampton Roads locality or his designee, provided that at least one member shall be a resident of the City of Chesapeake, at least one member shall be a resident of the City of Norfolk, and at least one member shall be a resident of the City of Virginia Beach; and the chief elected officer of each Hampton Roads locality or his designee, who shall serve *ex officio* with voting privileges. Each member appointed by the Governor shall be subject to confirmation by the General Assembly. No vacancy on the Authority shall impair the right of a quorum to exercise all rights and perform all the duties of the Authority. The Authority shall determine the times and places of its regular meetings. Special meetings of the Authority shall be held when requested by two or more members of the Authority. Any such request for a special meeting shall be in writing, and the request shall specify the time and place of the meeting and the matters to be considered at the meeting. A reasonable effort shall be made to provide each member with notice of any special meeting. Only matters specified in the notice shall be considered at such special meeting unless all the members of the Authority are present.

§ 15.2-5939. Executive Director appointment; duties.

A. The Authority shall appoint an Executive Director, who is the chief administrative officer and secretary of the Authority and serves at the pleasure of the Authority. The Executive Director shall be paid from funds received by the Authority. No state funds shall be used to pay the salary or the expenses of this office.

B. In addition to any other duties set forth in this chapter, the Executive Director shall:

1. Direct and supervise the administrative affairs and activities of the Authority in accordance with its rules, regulations, and policies;

Any Hampton Roads locality may, by a majority vote of its governing body, become a participating locality in the Authority.

§ 15.2-5941. Powers.

In addition to all other powers it possesses, the Authority may:

1. Determine the location of, develop, establish, construct, erect, acquire, own, repair, remodel, add to, extend, improve, equip, operate, regulate, and maintain a Facility and Facility Site to the extent necessary to accomplish the purposes of this chapter; including contracting for materials, products, and services related to such Facility or Facility Site;

3. Develop a model for participating localities to share costs and revenues of a Facility and Facility Site;
4. Operate, enter into contracts for the operation of, and regulate the use and operation of a Facility and Facility Site developed under the provisions of this chapter;
5. Fix and revise from time to time and charge and collect rates, rents, fees, ticket surcharges, or other charges for the use of a Facility or Facility Site or for services rendered in connection with a Facility or Facility Site;

7. Issue bonds and similar financial instruments under this chapter;
8. Finance the construction of a Facility using loans, notes, private equity financing, or any other method of financing the Authority deems appropriate; and
9. Do all things necessary or convenient to carry out the powers granted by this chapter.

§ 15.2-5942. Public hearings; notice; reports.

A. At least 30 days before (i) acquiring or entering into a lease involving a Facility Site and (ii) entering into a construction contract for a Facility, the Authority shall submit to the General Assembly a detailed written report and findings of the Authority on the proposed acquisition, lease, or contract. The report and findings shall include a detailed plan of the method of funding and the economic benefits of the proposal.

B. The State Treasurer shall be provided with copies of (i) all documents relating to the proposed issuance of any bonds pursuant to § 15.2-5943 and (ii) all documents relating to a proposed acquisition, lease, or contract described in subsection A. Such copies shall be provided sufficiently in advance of such bond issuance or acquisition, lease, or contract to conduct such reviews as the State Treasurer deems necessary. Such reviews shall be completed within 60 days after the date that the Treasurer is provided such documents. In the event that the Commonwealth is an obligated person determined to be material to an evaluation of the offering for which financial information will be included or referenced in the offering document in accordance with Securities and Exchange Commission Rule 15c 2-12 under the federal Securities Exchange Act of 1934, or in the event that in the opinion of the State Treasurer, with the concurrence of the Debt Capacity Advisory Committee established under Article 5 (§ 2.2-2712 et seq.) of Chapter 27 of Title 2.2, such bond issue or contractual obligation will be considered tax-supported debt of the Commonwealth or have an adverse impact on the debt capacity or the credit ratings of the Commonwealth, such bond issue or contractual obligation must be authorized by the General Assembly. Within 60 days of receiving the documents described in this subsection, the Treasurer shall deliver a written opinion to the Authority and participating localities regarding whether the bond issue or contractual obligation will be considered tax-supported debt of the Commonwealth or have an adverse impact on the debt capacity or the credit ratings of the Commonwealth.

§ 15.2-5943. Bond issues.

A. A bond issuer may at any time and from time to time issue bonds for any valid purpose, including the establishment of reserves and the payment of interest.

B. The bonds of any issue shall be payable solely from the property or receipts of the bond issuer, or other security specifically pledged by the bond issuer to the payment thereof, including but not limited to:

1. Taxes, fees, charges, or other revenues;
2. Payments by financial institutions, insurance companies, or others pursuant to letters or lines of credit, policies of insurance, or purchase agreements;
3. Investment earnings from funds or accounts maintained pursuant to a bond resolution or trust agreement;
4. Sales and use tax revenues remitted to the Authority by the State Comptroller pursuant to § 15.2-5940; and
5. Proceeds of refunding bonds.

C. Bonds shall be authorized by resolution of the bond issuer and may be secured by a trust agreement by and between the bond issuer and a corporate trustee or trustees, which may be any trust company or bank having the powers of a trust company within or outside the Commonwealth. The bonds shall:

1. Be issued at, above, or below par value, for cash or other valuable consideration, and mature at a time or times, whether as serial bonds or as term bonds or both, not exceeding 40 years from their respective dates of issue;
2. Bear interest at the fixed or variable rate or rates determined by the method provided in the resolution or trust agreement;
3. Be payable at a time or times, in the denominations and form, and carry the registration and privileges as to conversion and for the replacement of mutilated, lost, or destroyed bonds as the resolution or trust agreement may provide;
4. Be payable in lawful money of the United States at a designated place;
5. Be subject to the terms of purchase, payment, redemption, refunding, or refinancing that the resolution or trust agreement provides; and
6. Be sold in the manner and upon the terms determined by the bond issuer, including private and negotiated sales.

D. Any resolution or trust agreement may contain provisions that shall be a part of the contract with the holders of the bonds as to:

1. Pledging, assigning, or directing the use, investment, or disposition of receipts of the bond issuer or proceeds or benefits of any contract and conveying or otherwise securing any property rights;
2. The setting aside of loan funding deposits, debt service reserves, capitalized interest accounts, cost of issuance accounts, and sinking funds, and the regulation, investment, and disposition thereof;
3. Limitations on the purpose to which or the investments in which the proceeds of sale of any issue of bonds may be applied and restrictions to investments of revenues or bond proceeds in government obligations for which principal and interest are unconditionally guaranteed by the United States of America;
4. Limitations on the issuance of additional bonds and the terms upon which additional bonds may be issued and secured and may rank on a parity with, or be subordinate or superior to, other bonds;
5. The refunding or refinancing of outstanding bonds;
6. The procedure, if any, by which the terms of any contract with bondholders may be altered or amended and the amount of bonds the holders of which must consent thereto, and the manner in which consent shall be given;
7. Defining the acts or omissions that shall constitute a default in the duties of the bond issuer to bondholders and providing the rights or remedies of such holders in the event of a default, which may include provisions restricting individual right of action by bondholders;

8. Providing for guarantees, pledges of property, letters of credit, or other security, or insurance for the benefit of bondholders; and

9. Any other matter relating to the bonds that the bond issuer determines appropriate.

E. No member of the governing body of the bond issuer nor any person executing the bonds on behalf of the bond issuer shall be liable personally for the bonds or subject to any personal liability by reason of the issuance of the bonds.

F. The bond issuer may enter into agreements with agents, banks, insurers, any political subdivision of the Commonwealth, or others for the purpose of enhancing the marketability of, or as security for, its bonds.

G. A pledge by the bond issuer of its revenues as security for an issue of bonds shall be valid and binding from the time the pledge is made.

The revenues pledged shall immediately be subject to the lien of the pledge without any physical delivery or further act, and the lien of any pledge shall be valid and binding against any person having any claim of any kind in tort, contract, or otherwise against the bond issuer, irrespective of whether the person has notice.

No resolution, trust agreement or financing statement, continuation statement, or other instrument adopted or entered into by the bond issuer need be filed or recorded in any public record other than the records of the bond issuer in order to perfect the lien against third persons, regardless of any contrary provision of public general or public local law.

H. Except to the extent restricted by an applicable resolution or trust agreement, any holder of bonds issued under this chapter or a trustee acting under a trust agreement entered into under this chapter may, by any suitable form of legal proceedings, protect and enforce any rights granted under the laws of the Commonwealth or by any applicable resolution or trust agreement.

I. The bond issuer may issue bonds to refund any of its bonds then outstanding, including the payment of any redemption premium and any interest accrued or to accrue to the earliest or any subsequent date of redemption, purchase, or maturity of the bonds. Refunding bonds may be issued for the public purposes of realizing savings in the effective costs of debt service, directly or through a debt restructuring, for alleviating impending or actual default and may be issued in one or more series in an amount in excess of that of the bonds to be refunded.

§ 15.2-5944. Restrictions related to sports teams.

A. If the Authority plans to use a Facility for the sole purpose of conducting athletic events involving a sports team, the Authority shall not enter into any contractual agreement with such sports team unless such contractual agreement requires that the sports team (i) not relocate until any bonds issued under this chapter are repaid or defeased and (ii) operate the Facility until any bonds issued under this chapter are repaid or defeased.

B. If the Authority plans to use a Facility for the sole purpose of conducting athletic events involving a sports team, the Authority shall not issue bonds under this chapter until it executes a long-term lease with (i) the owner of the sports team or (ii) a third party that has entered into a long-term sublease with the owner of the sports team.

C. If the Authority plans to use a Facility for the sole purpose of conducting athletic events involving a sports team, the Authority shall not issue bonds under this chapter until the league of which the sports team is a member publicly approves a proposal for the sports team to be located in a Hampton Roads locality.

D. The provisions of this subsection shall not apply if the Authority plans to use a Facility also for the purpose of holding entertainment events and conferences.

§ 15.2-5945. Facility Financing Fund; use.

A. If the Authority issues bonds pursuant to § 15.2-5943 or enters into a contractual agreement pursuant to § 15.2-5942, it shall create a Facility Financing Fund, hereafter referred to as "the Fund." The Authority shall use the Fund as a non-lapsing revolving fund for the purposes of carrying out the provisions of this chapter.

B. 1. The following receipts of the Authority shall be placed in the Fund: (i) proceeds from the sale of bonds issued pursuant to § 15.2-5943; (ii) revenues collected or received from any Hampton Roads locality, including local tax revenues appropriated for the purpose of deposit in the Fund; (iii) sales and use tax revenue remitted to the Authority pursuant to § 15.2-5946; (iv) development fees; and (v) revenues collected or received from any source under the provisions of this chapter. The Authority may place in the Fund any other revenues under its jurisdiction.

2. Any Hampton Roads locality may appropriate funds to the Fund for the Authority to use in accomplishing the purposes identified in this chapter.

C. The Authority shall pay expenses and make expenditures from the Fund, subject to appropriation by its governing board. Money in the Fund shall be used only (i) to pay debt service on bonds issued pursuant to § 15.2-5938, (ii) to make expenditures related to contractual obligations for the construction, development, operation, and maintenance of a Facility, (iii) to pay all reasonable charges and expenses related to borrowing and management of obligations by the Authority, and (iv) to remit to each participating locality its share of revenues from the Facility.

§ 15.2-5946. Entitlement to tax revenues derived from the operation of a Facility.

A. 1. The Authority shall be entitled, subject to appropriation, to sales and use tax revenues defined in this chapter. Such entitlement shall include transactions that occur while a Facility is under construction. The State Comptroller shall remit such sales and use tax revenues to the Authority on a quarterly basis, subject to such reasonable processing delays as may be required by the Department of Taxation. The State Comptroller shall make such remittances to the Authority, as provided herein, notwithstanding any provisions to the contrary in the Virginia Retail Sales and Use Tax Act (§ 58.1-600 et seq.).

2. The revenues accruing to the Authority pursuant to the provisions of this section shall be used by the Authority only to pay debt service, to distribute to any lessee of the Facility for the purpose of paying debt service, to meet contractual obligations entered into pursuant to § 15.2-5942, or to remit to each participating locality its share of revenues from the Facility.

B. The governing body of the Authority may fix and revise from time to time and charge and collect rates, rents, fees, ticket surcharges, or other charges for a Facility developed under the provisions of this chapter.

C. If a Facility qualifies for entitlement to sales and use tax revenues pursuant to the provisions of § 58.1-3851.1 or 58.1-3851.2, the Authority shall remain eligible to receive sales and use tax revenues pursuant to the provisions of this chapter; however, the amount received pursuant to this chapter shall be reduced by the amount received pursuant to the provisions of § 58.1-3851.1 or 58.1-3851.2.

D. The Tax Commissioner, as defined in § 58.1-1, shall report to the Chairmen of the Senate Committee on Finance, the House Committee on Appropriations, and the House Committee on Finance by July 1 of each year the amount of tax revenues accruing to the Authority pursuant to the provisions of this chapter.

§ 15.2-5947. Sharing of revenue among participating localities.

The Authority shall develop and administer a plan to distribute sales and use tax revenues from the Facility to each participating locality. The Authority shall not distribute such revenues to any participating locality until it has paid off any debt incurred pursuant to the provisions of this chapter. The plan to distribute sales and use tax revenues shall reasonably account for each participating locality's contributions to the costs of financing, constructing, maintaining, and operating the Facility and Facility Site.

§ 15.2-5948. Tax revenues of the Commonwealth or any other political subdivision not pledged.

Nothing in this chapter shall be construed as authorizing the pledging of the faith and credit of the Commonwealth, or the faith and credit of any other political subdivision of the Commonwealth, for the payment of any bonds. No bonds issued pursuant to § 15.2-5943 shall pledge the full faith and credit of the Commonwealth, nor shall such bonds constitute a debt of the Commonwealth, and the bonds shall so state on their face. Bondholders shall have no recourse whatsoever against the Commonwealth for the payment of principal, interest, or redemption premium, if any, on such bonds.

§ 15.2-5949. Expiration of entitlement to certain sales tax revenues.

The provisions of this chapter shall expire on the earlier of (i) the maturity date of any bonds issued for the construction of a Facility, including any refunding or refinancing of such bonds, or (ii) July 1, 2060.

2. That the initial terms of the Governor's appointees to the Hampton Roads Regional Arena Authority shall be staggered as follows: the initial term of one of the members shall be four years; the initial term of one of the members shall be three years; the initial term of one of the members shall be two years; and the initial term of the remaining member shall be one year. The Governor shall designate the initial term to be served by each appointee.

3. That Chapter 59 (§§ 15.2-5900 through 15.2-5916) of Title 15.2 of the Code of Virginia is repealed.

CHAPTER 540

[H 1268]

Be it enacted by the General Assembly of Virginia:

1. § 1. It shall be the duty of the officers conducting the election directed by law to be held on the Tuesday after the first Monday in November 2020, at the places appointed for holding the same, to open a poll and take the sense of the qualified voters upon the ratification or rejection of the proposed amendment to the Constitution of Virginia, contained herein and in the joint resolution proposing such amendment, to wit:

Amend Section 6 of Article X of the Constitution of Virginia as follows:

ARTICLE X

TAXATION AND FINANCE

Section 6. Exempt property.

(a) Except as otherwise provided in this Constitution, the following property and no other shall be exempt from taxation, State and local, including inheritance taxes:

(1) Property owned directly or indirectly by the Commonwealth or any political subdivision thereof, and obligations of the Commonwealth or any political subdivision thereof exempt by law.

(2) Real estate and personal property owned and exclusively occupied or used by churches or religious bodies for religious worship or for the residences of their ministers.

(3) Private or public burying grounds or cemeteries, provided the same are not operated for profit.

(4) Property owned by public libraries or by institutions of learning not conducted for profit, so long as such property is primarily used for literary, scientific, or educational purposes or purposes incidental thereto. This provision may also apply to leasehold interests in such property as may be provided by general law.

(5) Intangible personal property, or any class or classes thereof, as may be exempted in whole or in part by general law.

(6) Property used by its owner for religious, charitable, patriotic, historical, benevolent, cultural, or public park and playground purposes, as may be provided by classification or designation by an ordinance adopted by the local governing body and subject to such restrictions and conditions as provided by general law.

(7) Land subject to a perpetual easement permitting inundation by water as may be exempted in whole or in part by general law.

(8) *One motor vehicle owned and used primarily by or for a veteran of the armed forces of the United States or the Virginia National Guard who has been rated by the United States Department of Veterans Affairs or its successor agency pursuant to federal law with a one hundred percent service-connected, permanent, and total disability. For purposes of this subdivision, the term "motor vehicle" shall include only automobiles and pickup trucks. Any such motor vehicle owned by a married person may qualify if either spouse is a veteran who is one hundred percent disabled pursuant to this subdivision. This exemption shall be applicable on the date the motor vehicle is acquired or the effective date of this subdivision, whichever is later, but shall not be applicable for any period of time prior to the effective date.*

(b) The General Assembly may by general law authorize the governing body of any county, city, town, or regional government to provide for the exemption from local property taxation, or a portion thereof, within such restrictions and upon such conditions as may be prescribed, of real estate and personal property designed for continuous habitation owned by, and occupied as the sole dwelling of, persons not less than sixty-five years of age or persons permanently and totally disabled as established by general law. A local governing body may be authorized to establish either income or financial worth limitations, or both, in order to qualify for such relief.

(c) Except as to property of the Commonwealth, the General Assembly by general law may restrict or condition, in whole or in part, but not extend, any or all of the above exemptions.

(d) The General Assembly may define as a separate subject of taxation any property, including real or personal property, equipment, facilities, or devices, used primarily for the purpose of abating or preventing pollution of the atmosphere or waters of the Commonwealth or for the purpose of transferring or storing solar energy, and by general law may allow the governing body of any county, city, town, or regional government to exempt or partially exempt such property from taxation, or by general law may directly exempt or partially exempt such property from taxation.

(e) The General Assembly may define as a separate subject of taxation household goods, personal effects and tangible farm property and products, and by general law may allow the governing body of any county, city, town, or regional government to exempt or partially exempt such property from taxation, or by general law may directly exempt or partially exempt such property from taxation.

(f) Exemptions of property from taxation as established or authorized hereby shall be strictly construed; provided, however, that all property exempt from taxation on the effective date of this section shall continue to be exempt until otherwise provided by the General Assembly as herein set forth.

(g) The General Assembly may by general law authorize any county, city, town, or regional government to impose a service charge upon the owners of a class or classes of exempt property for services provided by such governments.

The Department's review shall include research through the Commercial Driver License Information System established pursuant to the Commercial Motor Vehicle Safety Act and the National Driver Register Problem Driver Pointer System in addition to the driver record maintained by the applicant's previous jurisdictions of licensure. This research shall be completed prior to the issuance, renewal, transfer, or reinstatement of a commercial driver's license or additional commercial classification or endorsement.

The Department shall verify the name, date of birth, and social security number provided by the applicant with the information on file with the Social Security Administration for initial issuance of a commercial learner's permit or transfer

of a commercial driver's license from another state. The Department shall make a notation in the driver's record confirming that the necessary verification has been completed and noting the date it was done. The Department shall also make a notation confirming that proof of citizenship or lawful permanent residency has been presented and the date it was done.

F. (For effective date, see Acts 2019, c. 750, cl. 2) The Department shall review the driving record of any person who applies for a Virginia commercial driver's license or commercial learner's permit, for the renewal or reinstatement of such license or permit or for an additional commercial classification or endorsement, including the driving record from all jurisdictions where, during the previous 10 years, the applicant was licensed to drive any type of motor vehicle. If appropriate, the Department shall incorporate information from such other jurisdictions' records into the applicant's Virginia driving record, and shall make a notation on the applicant's driving record confirming that such review has been completed and the date it was completed. The Department's review shall include (i) research through the Commercial Driver License Information System established pursuant to the Commercial Motor Vehicle Safety Act and the National Driver Register Problem Driver Pointer System in addition to the driver record maintained by the applicant's previous jurisdictions of licensure and (ii) requesting information from the Drug and Alcohol Clearinghouse in accordance with 49 C.F.R. § 382.725. This research shall be completed prior to the issuance, renewal, transfer, or reinstatement of a commercial driver's license or additional commercial classification or endorsement.

The Department shall verify the name, date of birth, and social security number provided by the applicant with the information on file with the Social Security Administration for initial issuance of a commercial learner's permit or transfer of a commercial driver's license from another state. The Department shall make a notation in the driver's record confirming that the necessary verification has been completed and noting the date it was done. The Department shall also make a notation confirming that proof of citizenship or lawful permanent residency has been presented and the date it was done.

Every new applicant for a commercial driver's license or commercial learner's permit, including any person applying for a commercial driver's license or permit after revocation of his driving privileges, who certifies that he will operate a commercial motor vehicle in non-excepted interstate or intrastate commerce shall provide the Department with an original or certified copy of a medical examiner's certificate prepared by a medical examiner as defined in 49 C.F.R. § 390.5. Upon receipt of an appropriate medical examiner's certificate, the Department shall post a certification status of "certified" on the record of the driver on the Commercial Driver's License Information System. Any new applicant for a commercial driver's license or commercial learner's permit who fails to comply with the requirements of this subsection shall be denied the issuance of a commercial driver's license or commercial learner's permit by the Department.

H. Every existing holder of a commercial driver's license or commercial learner's permit who certifies that he will operate a commercial motor vehicle in non-excepted interstate or intrastate commerce shall provide the Department with an original or certified copy of a medical examiner's certificate prepared by a medical examiner as defined in 49 C.F.R. § 390.5. Upon receipt of an appropriate medical examiner's certificate, the Department shall post a certification status of "certified" and any other necessary information on the record of the driver on the Commercial Driver's License Information System. If an existing holder of a commercial driver's license fails to provide the Department with a medical certificate as required by this subsection, the Department shall post a certification status of "noncertified" on the record of the driver on the Commercial Driver's License Information System and initiate a downgrade of his commercial driver's license as defined in 49 C.F.R. § 383.5.

I. Any person who provides a medical certificate to the Department pursuant to the requirements of subsections G and H shall keep the medical certificate information current and shall notify the Department of any change in the status of the medical certificate. If the Department determines that the medical certificate is no longer valid, the Department shall initiate a downgrade of the driver's commercial driver's license as defined in 49 C.F.R. § 383.5.

J. If the Department receives notice that the holder of a commercial driver's license has been issued a medical variance as defined in 49 C.F.R. § 390.5, the Department shall indicate the existence of such medical variance on the commercial driver's license document of the driver and on the record of the driver on the Commercial Driver's License Information System using the restriction code "V."

K. Any holder of a commercial driver's license who has been issued a medical variance shall keep the medical variance information current and shall notify the Department of any change in the status of the medical variance. § 46.2-345. Issuance of special identification cards; fee; confidentiality; penalties.

A. On the application of any person who is a resident of the Commonwealth or the parent or legal guardian of any such person who is under the age of 15, the Department shall issue a special identification card to the person, provided that:

1. Application is made on a form prescribed by the Department and includes the applicant's full legal name; year, month, and date of birth; social security number; sex; and residence address. *Applicants shall be permitted to choose between "male," "female," or "non-binary" when designating the applicant's sex on the application form;*

2. The applicant presents, when required by the Department, proof of identity, legal presence, residency, and social security number or non-work authorized status;

3. The Department is satisfied that the applicant needs an identification card or the applicant shows he has a bona fide need for such a card; and

4. The applicant does not hold a driver's license, commercial driver's license, temporary driver's permit, learner's permit, motorcycle learner's permit, or special identification card without a photograph.

Persons 70 years of age or older may exchange a valid Virginia driver's license for a special identification card at no fee. Special identification cards subsequently issued to such persons shall be subject to the regular fees for special identification cards.

B. The fee for the issuance of an original, duplicate, reissue, or renewal special identification card is \$2 per year, with a \$10 minimum fee. Persons 21 years old or older may be issued a scenic special identification card for an additional fee of \$5.

C. Every special identification card shall expire on the applicant's birthday at the end of the period of years for which a special identification card has been issued. At no time shall any special identification card be issued for less than three nor more than eight years, except under the provisions of subsection B of § 46.2-328.1 and except that those cards issued to children under the age of 15 shall expire on the child's sixteenth birthday. Notwithstanding these limitations, the Commissioner may extend the validity period of an expiring card if (i) the Department is unable to process an application for renewal due to circumstances beyond its control, (ii) the extension has been authorized under a directive from the Governor, and (iii) the card was not issued as a temporary special identification card under the provisions of subsection B of § 46.2-328.1. However, in no event shall the validity period be extended more than 90 days per occurrence of such conditions. Any special identification card issued to a person required to register pursuant to Chapter 9 (§ 9.1-900 et seq.) of Title 9.1 shall expire on the applicant's birthday in years which the applicant attains an age equally divisible by five. For each person required to register pursuant to Chapter 9 of Title 9.1, the Department may not waive the requirement that each such person shall appear for each renewal or the requirement to obtain a photograph in accordance with subsection C of § 46.2-323.

D. A special identification card issued under this section may be similar in size, shape, and design to a driver's license, and include a photograph of its holder, but the card shall be readily distinguishable from a driver's license and shall clearly state that it does not authorize the person to whom it is issued to drive a motor vehicle. Every applicant for a special identification card shall appear in person before the Department to apply for a renewal, duplicate or reissue unless specifically permitted by the Department to apply in another manner.

E. Special identification cards, for persons at least 15 years old but less than 21 years old, shall be immediately and readily distinguishable from those issued to persons 21 years old or older. Distinguishing characteristics shall include unique design elements of the document and descriptors within the photograph area to identify persons who are at least 15 years old but less than 21 years old. These descriptors shall include the month, day, and year when the person will become 21 years old.

F. Special identification cards for persons under age 15 shall bear a full face photograph. The special identification card issued to persons under age 15 shall be readily distinguishable from a driver's license and from other special identification cards issued by the Department. Such cards shall clearly indicate that it does not authorize the person to whom it is issued to drive a motor vehicle.

G. Unless otherwise prohibited by law, a valid Virginia driver's license shall be surrendered upon application for a special identification card without the applicant's having to present proof of legal presence as required by § 46.2-328.1 if the Virginia driver's license is unexpired and it has not been revoked, suspended, or cancelled. The special identification card shall be considered a reissue and the expiration date shall be the last day of the month of the surrendered driver's license's month of expiration.

H. Any personal information, as identified in § 2.2-3801, which is retained by the Department from an application for the issuance of a special identification card is confidential and shall not be divulged to any person, association, corporation, or organization, public or private, except to the legal guardian or the attorney of the applicant or to a person, association, corporation, or organization nominated in writing by the applicant, his legal guardian, or his attorney. This subsection shall not prevent the Department from furnishing the application or any information thereon to any law-enforcement agency.

I. Any person who uses a false or fictitious name or gives a false or fictitious address in any application for an identification card or knowingly makes a false statement or conceals a material fact or otherwise commits a fraud in any such application shall be guilty of a Class 2 misdemeanor. However, where the name or address is given, or false statement is made, or fact is concealed, or fraud committed, with the intent to purchase a firearm or where the identification card is obtained for the purpose of committing any offense punishable as a felony, a violation of this section shall constitute a Class 4 felony.

J. The Department shall utilize the various communications media throughout the Commonwealth to inform Virginia residents of the provisions of this section and to promote and encourage the public to take advantage of its provisions.

K. The Department shall electronically transmit application information to the Department of State Police, in a format approved by the State Police, for comparison with information contained in the Virginia Criminal Information Network and National Crime Information Center Convicted Sexual Offender Registry Files, at the time of issuance of a special identification card. Whenever it appears from the records of the State Police that a person has failed to comply with the duty to register or reregister pursuant to Chapter 9 (§ 9.1-900 et seq.) of Title 9.1, the State Police shall promptly investigate and,

if there is probable cause to believe a violation has occurred, obtain a warrant or assist in obtaining an indictment charging a violation of § 18.2-472.1 in the jurisdiction in which the person made application for the special identification card.

L. When requested by the applicant, the applicant's parent if the applicant is a minor, or the applicant's guardian, and upon presentation of a signed statement by a licensed physician confirming the applicant's condition, the Department shall indicate on the applicant's special identification card that the applicant has any condition listed in subsection K of § 46.2-342 or that the applicant is blind or vision impaired.

§ 46.2-345.2. Issuance of special identification cards without photographs; fee; confidentiality; penalties.

A. On the application of any person with a sincerely held religious belief prohibiting the taking of a photograph who is a resident of the Commonwealth and who is at least 15 years of age, the Department shall issue a special identification card without a photograph to the person, provided that:

1. Application is made on a form prescribed by the Department and includes the applicant's full legal name; year, month, and date of birth; social security number; sex; and residence address. *Applicants shall be permitted to choose between "male," "female," or "non-binary" when designating the applicant's sex on the application form;*

2. The applicant presents, when required by the Department, proof of identity, legal presence, residency, and social security number or non-work authorized status;

3. The applicant presents an approved and signed U.S. Department of the Treasury Internal Revenue Service (IRS) Form 4029 or if such applicant is a minor, the applicant's parent or legal guardian presents an approved and signed IRS Form 4029; and

4. The applicant does not hold a driver's license, commercial driver's license, temporary driver's permit, learner's permit, motorcycle learner's permit, or special identification card.

B. The fee for the issuance of an original, duplicate, or reissue special identification card without a photograph is \$10 per year, with a \$20 minimum fee.

C. Every special identification card without a photograph shall expire on the applicant's birthday at the end of the period of years for which a special identification card without a photograph has been issued. At no time shall any special identification card without a photograph be issued for more than eight years. Notwithstanding these limitations, the Commissioner may extend the validity period of an expiring card if (i) the Department is unable to process an application for re-issue due to circumstances beyond its control or (ii) the extension has been authorized under a directive from the Governor. However, in no event shall the validity period be extended more than 90 days per occurrence of such conditions.

D. A special identification card without a photograph issued under this section may be similar in size, shape, and design to a driver's license and shall not include a photograph of its holder. The card shall be readily distinguishable from a driver's license and shall clearly state that federal limits apply, that the card is not valid identification to vote, and that the card does not authorize the person to whom it is issued to drive a motor vehicle. Every applicant for a special identification card without a photograph shall appear in person before the Department to apply for a duplicate or reissue unless specifically permitted by the Department to apply in another manner.

E. Unless otherwise prohibited by law, a valid Virginia driver's license or special identification card shall be surrendered for a special identification card without a photograph without the applicant's having to present proof of legal presence as required by § 46.2-328.1 if the Virginia driver's license or special identification card is unexpired and has not been revoked, suspended, or canceled. The special identification card without a photograph shall be considered a reissue, and the expiration date shall be the last day of the month of the surrendered driver's license's or special identification card's month of expiration.

F. Any personal information, as identified in § 2.2-3801, that is retained by the Department from an application for the issuance of a special identification card without a photograph is confidential and shall not be divulged to any person, association, corporation, or organization, public or private, except to the legal guardian or the attorney of the applicant or to a person, association, corporation, or organization nominated in writing by the applicant, his legal guardian, or his attorney. This subsection shall not prevent the Department from furnishing the application or any information thereon to any law-enforcement agency.

G. Any person who uses a false or fictitious name or gives a false or fictitious address in any application for a special identification card without a photograph or knowingly makes a false statement or conceals a material fact or otherwise commits a fraud in any such application is guilty of a Class 2 misdemeanor. However, where the special identification card without a photograph is obtained for the purpose of committing any offense punishable as a felony, a violation of this section shall constitute a Class 4 felony.

H. When requested by the applicant, the applicant's parent if the applicant is a minor, or the applicant's guardian, and upon presentation of a signed statement by a licensed physician confirming the applicant's condition, the Department shall indicate on the applicant's special identification card without a photograph that the applicant has any condition listed in subsection K of § 46.2-342.

I. Unless the Code specifies that a photograph is required, a special identification card without a photograph shall be treated as a special identification card.

B. At the option of the licensee, the address shown on the license may be either the post office box, business, or residence address of the licensee, provided such address is located in Virginia. However, regardless of which address is shown on the license, the licensee shall supply the Department with his residence address, which shall be an address in Virginia. This residence address shall be maintained in the Department's records. Whenever the licensee's address shown either on his license or in the Department's records changes, he shall notify the Department of such change as required by § 46.2-324.

C. The Department may contract with the United States Postal Service or an authorized agent to use the National Change of Address System for the purpose of obtaining current address information for a person whose name appears in customer records maintained by the Department. If the Department receives information from the National Change of Address System indicating that a person whose name appears in a Department record has submitted a permanent change of address to the Postal Service, the Department may then update its records with the mailing address obtained from the National Change of Address System.

These descriptors shall include the month, day, and year when the person will become 21 years old.

F. The Department shall establish a method by which an applicant for a driver's license or an identification card may indicate his consent to make an anatomical gift for transplantation, therapy, research, and education pursuant to § 32.1-291.5, and shall cooperate with the Virginia Transplant Council to ensure that such method is designed to encourage organ, tissue, and eye donation with a minimum of effort on the part of the donor and the Department.

G. If an applicant indicates his consent to be a donor pursuant to subsection F, the Department may make a notation of this designation on his license or card and shall make a notation of this designation in his driver record. The notation shall remain on the individual's license or card until he revokes his consent to make an anatomical gift by requesting removal of the notation from his license or card or otherwise in accordance with § 32.1-291.6. Inclusion of a notation indicating consent to making an organ donation on an applicant's license or card pursuant to this subsection shall be sufficient legal authority for removal, following death, of the subject's organs or tissues without additional authority from the donor or his family or estate, in accordance with the provisions of § 32.1-291.8.

H. A minor may make a donor designation pursuant to subsection F without the consent of a parent or legal guardian as authorized by the Revised Uniform Anatomical Gift Act (§ 32.1-291.1 et seq.).

L. In the absence of gross negligence or willful misconduct, the Department and its employees shall be immune from any civil or criminal liability in connection with the making of or failure to make a notation of donor designation on any license or card or in any person's driver record.

M. The Department shall, in coordination with the Virginia Transplant Council, prepare an organ donor information brochure describing the organ donor program and providing instructions for completion of the uniform donor document information describing the bone marrow donation program and instructions for registration in the National Bone Marrow Registry. The Department shall include a copy of such brochure with every driver's license renewal notice or application mailed to licensed drivers in Virginia.

[H 690]

Approved March 31, 2020

Be it enacted by the General Assembly of Virginia:

1. That §§ 63.2-609 and 63.2-1908 of the Code of Virginia are amended and reenacted as follows:

§ 63.2-609. VIEW exemptions.

The following TANF recipients shall be exempt from mandatory participation in VIEW and shall remain eligible for TANF financial assistance:

1. Any individual, including all minor caretakers, under 16 years of age;

The career and technical education program must be equivalent to secondary school. Whenever feasible, such recipients should participate in summer work;

3. Any individual who is unable to participate because of a temporary medical condition that is preventing employment or training, as determined by a physician or other qualified medical professional and certified by a written medical statement. 4. Any individual who is disabled, as determined by receipt of Social Security Disability Benefits or Supplemental Security Income;

5. Any individual 60 years of age or older;

Any individual who is the sole caregiver of another member of the household who is disabled as determined by receipt of Social Security Disability Benefits or Supplemental Security Income or who is incapacitated by another condition as determined by the Board and whose presence is essential for the care of the other member on a substantially continuous basis;

7. A parent or caretaker-relative of a child under 12 months of age who personally provides care for the child. A parent or caretaker-relative exempt from mandatory participation in VIEW pursuant to this subdivision shall be exempt for a period of no more than 12 months. Months during which a parent or caretaker-relative is exempt may be consecutive or nonconsecutive. ~~A parent of a child not considered part of the TANF public assistance unit under § 63.2-604 may be granted a temporary exemption of not more than six weeks after the birth of such child.~~

In a TANF-UP case, both parents shall be referred for participation unless one meets an exemption; only one parent can be exempt. If both parents meet an exemption criterion, they shall decide who will be referred for participation.

§ 63.2-1908. Payment of public assistance for child or custodial parent constitutes debt to Department by noncustodial parents; limitations; Department subrogated to rights.

Any payment of public assistance money made to or for the benefit of any dependent child or children or their custodial parent creates a debt due and owing to the Department by the person or persons who are responsible for support of such children or custodial parent in an amount equal to the amount of public assistance money so paid. ~~However, if a custodial parent receives TANF payments for some of the custodial parent's dependent children but not for other children pursuant to § 63.2-604, the custodial parent shall receive the total amount of support collected for the children for whom no TANF benefits are received. Such support payments shall not create a debt due and owing to the Department and the value of such payments shall not be counted as income for purposes of TANF eligibility and grant determination.~~ Where there has been a court order for support, final decree of divorce ordering support, or administrative order under the provisions of this chapter for support, the debt shall be limited to the amount of such order or decree. The Commissioner, pursuant to § 63.2-1922, shall establish the debt in an amount determined to be consistent with a noncustodial parent's ability to pay. The Department shall have the right to petition the appropriate court for modification of a court order on the same grounds as either party to such cause.

The Department shall be subrogated to the right of such child or children or custodial parent to prosecute or maintain any support action or execute any administrative remedy existing under the laws of the Commonwealth to obtain reimbursement of moneys thus expended and may collect on behalf of any such child, children or custodial parent any amount contained in any court order of support or any administrative order of support regardless of whether or not the amount of such orders exceeds the amount of public assistance paid. Any support paid in excess of the total amount of public assistance paid shall be returned to the custodial parent by the Department. If a court order for support or final decree of divorce ordering support enters judgment for an amount of support to be paid by such noncustodial parent, the Department shall be subrogated to the debt created by such order, and said money judgment shall be deemed to be in favor of the Department. In any judicial proceeding brought by an attorney on behalf of the Department pursuant to this section to enforce a support obligation in which the Department prevails, attorney's fees shall be assessed pursuant to § 63.2-1960.

The Department shall have the authority to pursue establishment and enforcement actions against the person responsible for support after the closure of the public assistance case unless the custodial parent notifies the Department in writing that child support enforcement services are no longer desired.

Debt created by an administrative support order under this section shall not be incurred by nor at any time be collected from a noncustodial parent who is the recipient of public assistance moneys for the benefit of minor dependent children for the period such person or persons are in such status. Recipients of federal supplemental security income shall not be subject to the establishment of an administrative support order while they receive benefits from that source.

2. That § 63.2-604 of the Code of Virginia is repealed.

D. C. It shall be unlawful for any authorized representative permitted in the polling place pursuant to § 24.2-604.4, any voter, or any other person in the room to (i) hinder or delay a qualified voter; (ii) give, tender, or exhibit any ballot, ticket, or other campaign material to any person; (iii) solicit or in any manner attempt to influence any person in casting his vote; (iv) hinder or delay any officer of election; (v) be in a position to see the marked ballot of any other voter; or (vi) otherwise impede the orderly conduct of the election.

E. The officers of election may require any person who is found by a majority of the officers present to be in violation of this section to remain outside of the prohibited area. Any person violating subsection A or D is guilty of a Class 1 misdemeanor.

F. This section shall not be construed to prohibit a candidate from entering any polling place on the day of the election to vote, or to visit a polling place for no longer than 10 minutes per polling place per election day, provided that he complies with the restrictions stated in subsections A, D, and J.

G. This section shall not be construed to prohibit a minor from entering a polling place on the day of the election to vote in a simulated election at that polling place, provided that the local electoral board or general registrar has determined that such polling place can accommodate simulated election activities without interference or substantial delay in the orderly conduct of the official voting process. Persons supervising or working in a simulated election in which minors vote may remain within such polling place. The local electoral board or general registrar and the chief officer for the polling place shall exercise authority over, but shall have no responsibility for the administration of, simulated election related activities at the polling place.

H. A local electoral board or general registrar may authorize in writing the presence of additional neutral observers as may be deemed appropriate, except as otherwise prohibited or limited by this section. Such observers shall comply with the restrictions in subsections A and D and shall not be allowed in any case to provide assistance to any voter as permitted under § 24.2-649 or to wear any indication that they are authorized to assist voters either inside the polling place or within 40 feet of any entrance to the polling place.

I. The officers of election shall permit representatives of the news media to visit and film or photograph inside the polling place for a reasonable and limited period of time while the polls are open. However, the media (i) shall comply with the restrictions in subsections A and D; (ii) shall not film or photograph any person who specifically asks the media representative at that time that he not be filmed or photographed; (iii) shall not film or photograph the voter or the ballot in such a way that divulges how any individual voter is voting; and (iv) shall not film or photograph the voter list or any other voter record or material in such a way that it divulges the name or other information concerning any individual voter. Any interviews with voters, candidates or other persons, live broadcasts, or taping of reporters' remarks, shall be conducted outside of the polling place and the prohibited area. The officers of election may require any person who is found by a majority of the officers present to be in violation of this subsection to leave the polling place and the prohibited area.

J. D. The provisions of subsections A and D C shall not be construed to prohibit a person who approaches or enters the polling place for the purpose of voting from wearing a shirt, hat, or other apparel on which a candidate's name or a political slogan appears or from having a sticker or button attached to his apparel on which a candidate's name or a political slogan appears. This exemption shall not apply to candidates, representatives of candidates, or any other person who approaches or enters the polling place for any purpose other than voting.

E. This section shall not be construed to prohibit a candidate from entering any polling place on the day of the election to vote, or to visit a polling place for no longer than 10 minutes per polling place per election day, provided that he complies with the restrictions stated in subsections A, C, and D.

F. The officers of election may require any person who is found by a majority of the officers present to be in violation of this section to remain outside of the prohibited area. Any person violating subsection A or C is guilty of a Class 1 misdemeanor.

§ 24.2-604.4. Polling places; authorized representatives of party or candidate; prohibited activities.

A. The officers of election shall permit one authorized representative of each political party or independent candidate in a general or special election, or one authorized representative of each candidate in a primary election, to remain in the room in which the election is being conducted at all times. A representative may serve part of the day and be replaced by successive representatives. The officers of election shall have discretion to permit up to three authorized representatives of each political party or independent candidate in a general or special election, or up to three authorized representatives of each candidate in a primary election, to remain in the room in which the election is being conducted. The officers shall permit one such representative for each pollbook station. However, no more than one such representative for each pollbook station or three representatives of any political party or independent candidate, whichever number is larger, shall be permitted in the room at any one time.

B. Each authorized representative shall be a qualified voter of any jurisdiction of the Commonwealth. No candidate whose name is printed on the ballot shall serve as a representative of a party or candidate for purposes of this section.

Each representative shall present to the officers of election a written statement designating him to be a representative of the party or candidate that is signed by the county or city chairman of his political party, the independent candidate, or the primary candidate, as appropriate. If the county or city chairman is unavailable to sign such a written designation, such a designation may be made by the state or district chairman of the political party. However, no written designation made by a state or district chairman shall take precedence over a written designation made by the county or city chairman. Such statement, bearing the chairman's or candidate's original signature, may be photocopied, and such photocopy shall be as valid as if the copy had been signed.

C. Authorized representatives shall be allowed, whether in a regular polling place or central absentee voter precinct, to be close enough to the voter check-in table to be able to hear and see what is occurring; however, such observation shall not violate the secret vote provision of Article II, Section 3 of the Constitution of Virginia or otherwise interfere with the orderly process of the election. Any representative who complains to the chief officer of election that he is unable to hear or see the process may accept the chief officer's decision or, if dissatisfied, he may immediately appeal the decision to the local electoral board or general registrar.

D. Authorized representatives shall be allowed, whether in a regular polling place or central absentee voter precinct, to use a handheld wireless communications device but shall not be allowed to use such a device to capture a digital image inside the polling place or central absentee voter precinct. The officers of election may prohibit the use of cellular telephones or other handheld wireless communications devices if such use will result in a violation of subsection A or C of § 24.2-604 or § 24.2-607.

E. Authorized representatives shall not be allowed in any case to provide assistance to any voter as permitted under § 24.2-649 or to wear any indication that they are authorized to assist voters either inside the polling place or within 40 feet of any entrance to the polling place.

F. The officers of election may require any person who is found by a majority of the officers present to be in violation of this section to remain outside of the prohibited area.

§ 24.2-604.5. Polling places; presence of additional persons authorized.

A. A local electoral board or general registrar may authorize in writing the presence in the polling place of additional neutral observers as may be deemed appropriate, except as otherwise prohibited or limited by the provisions of § 24.2-604. Such observers shall comply with the restrictions in subsections A and C of § 24.2-604 and shall not be allowed in any case to provide assistance to any voter as permitted under § 24.2-649 or to wear any indication that they are authorized to assist voters either inside the polling place or within 40 feet of any entrance to the polling place. The officers of election may require any person who is found by a majority of the officers present to be in violation of this subsection to remain outside of the prohibited area.

B. The officers of election shall permit representatives of the news media to visit and film or photograph inside the polling place for a reasonable and limited period of time while the polls are open. However, the media (i) shall comply with the restrictions in subsections A and C of § 24.2-604; (ii) shall not film or photograph any person who specifically asks the media representative at that time that he not be filmed or photographed; (iii) shall not film or photograph the voter or the ballot in such a way that divulges how any individual voter is voting; and (iv) shall not film or photograph the voter list or any other voter record or material at the precinct in such a way that it divulges the name or other information concerning any individual voter. Any interviews with voters, candidates, or other persons; live broadcasts; or taping of reporters' remarks shall be conducted outside of the polling place and the prohibited area. The officers of election may require any person who is found by a majority of the officers present to be in violation of this subsection to leave the polling place and the prohibited area.

§ 24.2-604.6. Polling places; simulated election activities.

Minors may be permitted to enter a polling place on the day of the election to vote in a simulated election at that polling place, provided that the local electoral board or general registrar has determined that such polling place can accommodate simulated election activities without interference or substantial delay in the orderly conduct of the official voting process. Persons supervising or working in a simulated election in which minors vote may remain within such polling place. The local electoral board or general registrar and the chief officer for the polling place shall exercise authority over, but shall have no responsibility for the administration of, simulated election related activities at the polling place.

§ 24.2-649. Assistance for certain voters; penalties.

A. Any voter age 65 or older or physically disabled may request and then shall be handed a printed ballot by an officer of election outside the polling place but within 150 feet of the entrance to the polling place. The voter shall mark the printed ballot in the officer's presence but in a secret manner and, obscuring his vote, return the ballot to the officer. The officer shall immediately return to the polling place and shall deposit a paper ballot in the ballot container in accordance with § 24.2-646 or a machine-readable ballot in the ballot scanner machine in accordance with the instructions of the State Board.

Any county or city that has acquired an electronic voting machine that is so constructed as to be easily portable may use the voting machine in lieu of a printed ballot for the voter requiring assistance pursuant to this subsection. However, the electronic voting machine may be used in lieu of a printed ballot only so long as: (i) the voting machine remains in the plain view of two officers of election representing two political parties, or in a primary election, two officers of election representing the party conducting the primary, provided that if the use of two officers for this purpose would result in too

few officers remaining in the polling place to meet legal requirements, the voting machine shall remain in plain view of one officer who shall be either the chief officer or the assistant chief officer and (ii) the voter casts his ballot in a secret manner unless the voter requests assistance pursuant to this section. After the voter has completed voting his ballot, the officer or officers shall immediately return the voting machine to its assigned location inside the polling place. The machine number, the time that the machine was removed and the time that it was returned, the number on the machine's public counter before the machine was removed and the number on the same counter when it was returned, and the name or names of the officer or officers who accompanied the machine shall be recorded on the statement of results.

B. Any qualified voter who requires assistance to vote by reason of physical disability or inability to read or write may, if he so requests, be assisted in voting. If he is blind, he may designate an officer of election or any other person to assist him. If he is unable to read and write or disabled for any cause other than blindness, he may designate an officer of election or some other person to assist him other than the voter's employer or agent of that employer, or officer or agent of the voter's union.

The officer of election or other person so designated shall not enter the booth with the voter unless (i) the voter signs a request stating that he requires assistance by reason of physical disability or inability to read or write and (ii) the officer of election or other person signs a statement that he is not the voter's employer or an agent of that employer, or an officer or agent of the voter's union, and that he will act in accordance with the requirements of this section. The request and statement shall be on a single form furnished by the State Board. If the voter is unable to sign the request, his own mark acknowledged by him before an officer of election shall be sufficient signature, provided no mark shall be required of a voter who is blind. An officer of election shall advise the voter and person assisting the voter of the requirements of this section and record the name of the voter and the name and address of the person assisting him.

The officer of election or other person so designated shall assist the qualified voter in the preparation of his ballot in accordance with his instructions and without soliciting his vote or in any manner attempting to influence his vote and shall not in any manner divulge or indicate, by signs or otherwise, how the voter voted on any office or question. If a printed ballot is used, the officer or other person so designated shall deposit the ballot in the ballot container in accordance with § 24.2-646 or in the ballot scanner machine in accordance with the instructions of the State Board.

C. If the voter requires assistance in a language other than English and has not designated a person to assist him, an officer of election, before he assists as interpreter, shall inquire of the representatives authorized to be present pursuant to § ~~24.2-604~~ § 24.2-604.4 whether they have a volunteer available who can interpret for the voter. One representative interpreter for each party or candidate, insofar as available, shall be permitted to observe the officer of election communicate with the voter. The voter may designate one of the volunteer party or candidate interpreters to provide assistance. A person so designated by the voter shall meet all the requirements of this section for a person providing assistance.

D. A person who willfully violates subsection B or C is guilty of a Class 1 misdemeanor. In addition, the provisions of § 24.2-1016 and its felony penalties for false statements shall be applicable to any request or statement signed pursuant to this section, and the provisions of §§ 24.2-704 and 24.2-1012 and the felony penalties for violations of the law related to providing assistance to absentee voters shall be applicable in such cases.

E. In any precinct in which an electronic voting machine is available that provides an audio ballot, the officers of election shall notify a voter requiring assistance pursuant to this section that such machine is available for him to use to vote in privacy without assistance and the officers of election shall instruct the voter on the use of the voting machine. Nothing in this section shall be construed to require a voter to use the machine unassisted.

§ 24.2-700. Persons entitled to vote by absentee ballot.

A. The following registered voters may vote by absentee ballot in accordance with the provisions of this chapter in any election in which they are qualified to vote:

The State Board shall implement a system that enables eligible persons to request and receive an absentee ballot application electronically through the Internet. Electronic absentee ballot applications shall be in a form approved by the State Board.

Except as provided in § 24.2-703, a separate application shall be completed for each election in which the applicant offers to vote. An application that is completed in person at the same time that the applicant registers to vote shall be held and processed no sooner than the fifth day after the date that the applicant registered to vote; however, this requirement shall not be applicable to any person who is qualified to vote absentee under subdivision A 2 of § 24.2-700.

If the applicant is unable to sign the application, a person assisting the applicant will note this fact on the applicant signature line and provide his signature, name, and address.

CHAPTER 562

An Act to amend and reenact § 63.2-900.1 of the Code of Virginia, relating to kinship foster care; training and approval processes.

[S 1025]

Approved March 31, 2020

Be it enacted by the General Assembly of Virginia:

1. That § 63.2-900.1 of the Code of Virginia is amended and reenacted as follows:

§ 63.2-900.1. Kinship foster care.

A. The local board shall, in accordance with regulations adopted by the Board, determine whether the child has any relative who may be eligible to become a kinship foster parent. Searches for relatives eligible to serve as kinship foster parents shall be conducted at the time the child enters foster care, at least annually thereafter, and prior to any subsequent changes to the child's placement setting. The local board shall take all reasonable steps to provide notice to such relatives of their potential eligibility to become kinship foster parents and explain any opportunities such relatives may have to participate in the placement and care of the child, including opportunities available through kinship foster care or kinship guardianship.

B. Kinship foster care placements pursuant to this section shall be subject to all requirements of, and shall be eligible for all services related to, foster care placement contained in this chapter. Subject to approval by the Commissioner, a local board may grant a waiver of the Board's standards for foster home approval, set forth in regulations, that are not related to safety. *Training requirements may be waived for purposes of initial approval; however, such training requirements shall be completed within six months of the initial approval. If a local board determines that training requirements are a barrier to placement with a kinship foster parent and that placement with such kinship foster parent is in the child's best interest, the local board shall submit a waiver request to the Commissioner.* Waivers granted pursuant to this subsection shall be considered and, if appropriate, granted on a case-by-case basis and shall include consideration of the unique needs of each child to be placed. Upon request by a local board, the Commissioner shall review the local board's decision and reasoning to grant a waiver and shall verify that the foster home approval standard being waived is not related to safety. *If the Commissioner grants the waiver and allows approval of the home in accordance with Board regulations, the child may be*

placed in the home immediately. The approval or disapproval by the Commissioner of the local board's waiver shall not be considered a case decision as defined in § 2.2-4001.

C. The kinship foster parent shall be eligible to receive payment at the full foster care rate for the care of the child.

D. During the process of determining whether a person should be approved as a kinship foster parent, a local board shall not require that the child be removed from the physical custody of the kinship foster parent who is the subject of such approval process, provided the placement remains in the child's best interest.

E. A child placed in kinship foster care pursuant to this section shall not be removed from the physical custody of the kinship foster parent, provided that the child has been living with the kinship foster parent for six consecutive months and the placement continues to meet approval standards for foster care, unless (i) the kinship foster parent consents to the removal; (ii) removal is agreed upon at a family partnership meeting as defined by the Department; (iii) removal is ordered by a court of competent jurisdiction; or (iv) removal is warranted pursuant to § 63.2-1517.

2. That the Department of Social Services shall develop a training program that is tailored to persons seeking approval as a kinship foster parent. Such program shall take into consideration the unique characteristics of kinship foster care placements and include information regarding services, funding, options, and other resources that will be available to the kinship foster parent.

3. That the Department of Social Services (the Department) shall develop a document that provides comprehensive information regarding kinship foster care, including information about available services, funding, options, and other resources. The Department shall make such document available on its website and require local boards of social services to provide information about such document to all potential kinship foster parents.

4. That the Department of Social Services shall provide training to local boards of social services regarding the process through which a person may be approved as a kinship foster parent without requiring removal of the child from the physical custody of such person.

5. That the Board of Social Services (the Board) shall promulgate regulations to implement the provisions of this act, including the process for relative foster home approval. The Board's initial adoption of regulations necessary to implement the provisions of this act shall be exempt from the Administrative Process Act (§ 2.2-4000 et seq. of the Code of Virginia), except that the Board shall provide an opportunity for public comment on the regulations prior to adoption.

CHAPTER 563

An Act to amend the Code of Virginia by adding a section numbered 10.1-1402.04, relating to closure of certain coal combustion residuals impoundments; Giles and Russell Counties.

[H 443]

B. The owner or operator of any CCR unit located in Giles County or Russell County at the Glen Lyn Plant and the Clinch River Plant shall, if all CCR units at such plant ceased receiving CCR and submitted notification of completion of a final cap to the Department prior to January 1, 2019, complete post-closure care and any required corrective action of such

unit. If all CCR units at such plant have not submitted notification of completion of a final cap to the Department prior to January 1, 2019, the owner or operator shall close all CCR units at such plant by (i) removing all of the CCR in accordance with applicable standards established by Virginia Solid Waste Management Regulations (9VAC20-81) and (ii) either (a) beneficially reusing all such CCR in a recycling process for encapsulated beneficial use or (b) disposing of the CCR in a permitted landfill on the property upon which the CCR unit is located, adjacent to the property upon which the CCR unit is located, or off of the property on which the CCR unit is located, that includes, at a minimum, a composite liner and leachate collection system that meets or exceeds the federal Criteria for Municipal Solid Waste Landfills pursuant to 40 C.F.R. Part 258. The owner or operator shall beneficially reuse CCR removed from its CCR unit if beneficial use of such removed CCR is anticipated to reduce costs incurred under this section.

C. The owner or operator shall complete the closure of any such CCR unit required by this section no later than 15 years after initiating the excavation process at that CCR unit. During the closure process, the owner or operator shall, at its expense, offer to provide a connection to a municipal water supply, or where such connection is not feasible provide water testing, for any residence within one-half mile of the CCR unit.

D. Where closure pursuant to this section requires that CCR that has been beneficially reused be removed off-site, the owner or operator shall develop a transportation plan in consultation with any county, city, or town in which the CCR units are located and any county, city, or town within two miles of the CCR units that minimizes the impact of any transport of CCR on adjacent property owners and surrounding communities. The transportation plan shall include (i) alternative transportation options to be utilized, including rail and barge transport, if feasible, in combination with other transportation methods necessary to meet the closure timeframe established in subsection C and (ii) plans for any transportation by truck, including the frequency of truck travel, the route of truck travel, and measures to control noise, traffic impact, safety, and fugitive dust caused by such truck travel. Once such transportation plan is completed, the owner or operator shall post it on a publicly accessible website. The owner or operator shall provide notice of the availability of the plan to the Department and the chief administrative officers of the consulting localities and shall publish such notice once in a newspaper of general circulation in such locality.

E. The owner or operator of any CCR unit subject to the provisions of subsection B shall accept and review proposals for the encapsulated beneficial use of CCR pursuant to the provisions of subsection B every four years beginning July 1, 2023. Any entity submitting such a proposal shall provide information from which the owner or operator can determine (i) the amount of CCR that will be utilized for encapsulated beneficial use; (ii) the cost of the proposed beneficial use of such CCR; and (iii) the guaranteed timeframe in which the CCR will be utilized.

F. In conducting closure activities described in subsection B, the owner or operator shall (i) identify options for utilizing local workers; (ii) consult with the Commonwealth's Chief Workforce Development Officer on opportunities to advance the Commonwealth's workforce goals, including furtherance of apprenticeship and other workforce training programs to develop the local workforce; and (iii) give priority to the hiring of local workers.

G. No later than October 1, 2023, and no less frequently than every two years thereafter until closure of or corrective action at all of its CCR units is complete, the owner or operator of any CCR unit subject to the provisions of subsection B shall compile the following two reports:

1. A report describing the owner's or operator's closure plan for all such CCR units; the closure progress to date, both per unit and in total; a detailed accounting of the amounts of CCR that have been and are expected to be beneficially reused from such units, both per unit and in total; a detailed accounting of the amounts of CCR that have been and are expected to be landfilled from such units, both per unit and in total; a detailed accounting of the utilization of transportation options and a transportation plan as required by subsection D; and a discussion of groundwater and surface water monitoring results and any corrective actions or other measures taken to address such results as closure is being completed.

2. A report that contains the proposals and analysis for proposals required by subsection E.

The owner or operator shall post each such report on a publicly accessible website and shall submit each such report to the Governor, the Secretary of Natural Resources, the Chairman of the Senate Committee on Agriculture, Conservation and Natural Resources, the Chairman of the House Committee on Agriculture, Chesapeake and Natural Resources, the Chairman of the Senate Committee on Commerce and Labor, the Chairman of the House Committee on Labor and Commerce, and the Director.

H. All costs associated with closure by removal of a CCR unit or encapsulated beneficial use of CCR material in accordance with subsection B shall be recoverable through a rate adjustment clause authorized by the Commission under the provisions of subdivision A 5 e of § 56-585.1, provided that (i) when determining the reasonableness of such costs the Commission shall not consider closure in place of the CCR unit as an option; (ii) the annual revenue requirement recoverable through a rate adjustment clause authorized under this section, exclusive of any other rate adjustment clauses approved by the Commission under the provisions of subdivision A 5 e of § 56-585.1, shall not exceed \$40 million on a Virginia jurisdictional basis for the Commonwealth in any 12-month period, provided that any under-recovery amount of revenue requirements incurred in excess of \$40 million in a given 12-month period, limited to the under-recovery amount and the carrying cost, shall be deferred and recovered through the rate adjustment clause over up to three succeeding 12-month periods without regard to this limitation, and with the length of the amortization period being determined by the Commission; (iii) costs may begin accruing on July 1, 2020, but no approved rate adjustment clause charges shall be included in customer bills until July 1, 2022; (iv) any such costs shall be allocated to all customers of the utility in the Commonwealth as a non-bypassable charge, irrespective of the generation supplier of any such customer; and (v) any such

costs that are allocated to the utility's system customers outside of the Commonwealth that are not actually recovered from such customers shall be included for cost recovery from jurisdictional customers in the Commonwealth through the rate adjustment clause.

I. Any electric public utility subject to the requirements of this section may, without regard for whether it has petitioned for any rate adjustment clause pursuant to subdivision A 5 e of § 56-585.1, petition the Commission for approval of a plan for CCR unit closure at any or all of its CCR unit sites listed in subsection B. Any such plan shall take into account site-specific conditions and shall include proposals to beneficially reuse CCR from the sites if beneficial use is anticipated to reduce the costs allocated to customers. The Commission shall issue its final order with regard to any such petition within six months of its filing, and in doing so shall determine whether the utility's plan for CCR unit closure, and the projected costs associated therewith, are reasonable and prudent, taking into account that closure in place of any CCR unit is not to be considered as an option. The Commission shall not consider plans that do not comply with subsection B.

J. Nothing in this section shall be construed to require additional beneficial reuse of CCR at any active coal-fired electric generation facility if such additional beneficial reuse results in a net increase in truck traffic on the public roads of the locality in which the facility is located as compared with such traffic during calendar year 2019.

K. The Commonwealth shall not authorize any cost recovery by an owner or operator subject to the provisions of this section for any fines or civil penalties resulting from violations of federal and state law or regulation.

CHAPTER 580

An Act to amend and reenact § 22.1-253.13:4 of the Code of Virginia, relating to public schools; standard diploma requirements; dual enrollment and work-based learning options.

[S 112]

Approved March 31, 2020

Be it enacted by the General Assembly of Virginia:

1. That § 22.1-253.13:4 of the Code of Virginia is amended and reenacted as follows:

§ 22.1-253.13:4. Standard 4. Student achievement and graduation requirements.

A. Each local school board shall award diplomas to all secondary school students, including students who transfer from nonpublic schools or from home instruction, who meet the requirements prescribed by the Board of Education and meet such other requirements as may be prescribed by the local school board and approved by the Board of Education. Provisions shall be made to facilitate the transfer and appropriate grade placement of students from other public secondary schools, from nonpublic schools, or from home instruction as outlined in the standards for accreditation. The standards for accreditation shall include provisions relating to the completion of graduation requirements through Virtual Virginia.

Further, reasonable accommodation to meet the requirements for diplomas shall be provided for otherwise qualified students with disabilities as needed.

In addition, each local school board may devise, vis-a-vis the award of diplomas to secondary school students, a mechanism for calculating class rankings that takes into consideration whether the student has taken a required class more than one time and has had any prior earned grade for such required class expunged.

Each local school board shall notify the parents of rising eleventh and twelfth grade students of (i) the requirements for graduation pursuant to the standards for accreditation and (ii) the requirements that have yet to be completed by the individual student.

B. Students identified as disabled who complete the requirements of their individualized education programs and meet certain requirements prescribed by the Board pursuant to regulations but do not meet the requirements for any named diploma shall be awarded Applied Studies diplomas by local school boards.

Each local school board shall notify the parent of such students with disabilities who have an individualized education program and who fail to meet the graduation requirements of the student's right to a free and appropriate education to age 21, inclusive, pursuant to Article 2 (§ 22.1-213 et seq.) of Chapter 13.

C. Students who have completed a prescribed course of study as defined by the local school board shall be awarded certificates of program completion by local school boards if they are not eligible to receive a Board of Education-approved diploma.

Each local school board shall provide notification of the right to a free public education for students who have not reached 20 years of age on or before August 1 of the school year, pursuant to Chapter 1 (§ 22.1-1 et seq.), to the parent of students who fail to graduate or who have failed to achieve graduation requirements as provided in the standards for accreditation. If such student who does not graduate or complete such requirements is a student for whom English is a second language, the local school board shall notify the parent of the student's opportunity for a free public education in accordance with § 22.1-5.

D. (From Acts 2016, cc. 720 & 750: The graduation requirements established by the Board of Education pursuant to the provisions of subdivisions D 1, 2, and 3 shall apply to each student who enrolls in high school as (i) a freshman after July 1, 2018; (ii) a sophomore after July 1, 2019; (iii) a junior after July 1, 2020; or (iv) a senior after July 1, 2021) In establishing graduation requirements, the Board shall:

1. Develop and implement, in consultation with stakeholders representing elementary and secondary education, higher education, and business and industry in the Commonwealth and including parents, policymakers, and community leaders in the Commonwealth, a Profile of a Virginia Graduate that identifies the knowledge and skills that students should attain during high school in order to be successful contributors to the economy of the Commonwealth, giving due consideration to critical thinking, creative thinking, collaboration, communication, and citizenship.

2. Emphasize the development of core skill sets in the early years of high school.

3. Establish multiple paths toward college and career readiness for students to follow in the later years of high school. Each such pathway shall include opportunities for internships, externships, and credentialing.

4. Provide for the selection of integrated learning courses meeting the Standards of Learning and approved by the Board to satisfy graduation requirements, which shall include Standards of Learning testing, as necessary.

5. Require students to complete at least one course in fine or performing arts or career and technical education, one course in United States and Virginia history, and two sequential elective courses chosen from a concentration of courses selected from a variety of options that may be planned to ensure the completion of a focused sequence of elective courses that provides a foundation for further education or training or preparation for employment.

6. Require that students ~~either~~ (i) complete an Advanced Placement, honors, ~~or~~ International Baccalaureate, *or dual enrollment* course; ~~or~~ (ii) *complete a high-quality work-based learning experience, as defined by the Board*; *or* (iii) earn a career and technical education credential that has been approved by the Board, except when a career and technical education credential in a particular subject area is not readily available or appropriate or does not adequately measure student competency, in which case the student shall receive satisfactory competency-based instruction in the subject area to earn credit. The career and technical education credential, when required, could include the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, the Armed Services Vocational Aptitude Battery, or the Virginia workplace readiness skills assessment. The Department of Education shall develop, maintain, and make available to each local school board a catalogue of the testing accommodations available to English language learners for each such certification, examination, assessment, and battery. Each local school board shall develop and implement policies to require each high school principal or his designee to notify each English language learner of the availability of such testing accommodations prior to the student's participation in any such certification, examination, assessment, or battery.

7. Beginning with first-time ninth grade students in the 2016-2017 school year, require students to be trained in emergency first aid, cardiopulmonary resuscitation, and the use of automated external defibrillators, including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation.

8. Make provision in its regulations for students with disabilities to earn a diploma.

9. Require students to complete one virtual course, which may be a noncredit-bearing course.

10. Provide that students who complete elective classes into which the Standards of Learning for any required course have been integrated and achieve a passing score on the relevant Standards of Learning test for the relevant required course receive credit for such elective class.

11. Establish a procedure to facilitate the acceleration of students that allows qualified students, with the recommendation of the division superintendent, without completing the 140-hour class, to obtain credit for such class upon demonstrating mastery of the course content and objectives and receiving a passing score on the relevant Standards of Learning assessment. Nothing in this section shall preclude relevant school division personnel from enforcing compulsory attendance in public schools.

12. Provide for the award of credit for passing scores on industry certifications, state licensure examinations, and national occupational competency assessments approved by the Board of Education.

School boards shall report annually to the Board of Education the number of Board-approved industry certifications obtained, state licensure examinations passed, national occupational competency assessments passed, Armed Services Vocational Aptitude Battery assessments passed, and Virginia workplace readiness skills assessments passed, and the number of career and technical education completers who graduated. These numbers shall be reported as separate categories on the School Performance Report Card.

For the purposes of this subdivision, "career and technical education completer" means a student who has met the requirements for a career and technical concentration or specialization and all requirements for high school graduation or an approved alternative education program.

In addition, the Board may:

a. For the purpose of awarding credit, approve the use of additional or substitute tests for the correlated Standards of Learning assessment, such as academic achievement tests, industry certifications or state licensure examinations; and

b. Permit students completing career and technical education programs designed to enable such students to pass such industry certification examinations or state licensure examinations to be awarded, upon obtaining satisfactory scores on such industry certification or licensure examinations, appropriate credit for one or more career and technical education classes into which relevant Standards of Learning for various classes taught at the same level have been integrated. Such industry certification and state licensure examinations may cover relevant Standards of Learning for various required classes and may, at the discretion of the Board, address some Standards of Learning for several required classes.

13. Provide for the waiver of certain graduation requirements (i) upon the Board's initiative or (ii) at the request of a local school board. Such waivers shall be granted only for good cause and shall be considered on a case-by-case basis.

14. Consider all computer science course credits earned by students to be science course credits, mathematics course credits, or career and technical education credits. The Board of Education shall develop guidelines addressing how computer science courses can satisfy graduation requirements.

15. Permit local school divisions to waive the requirement for students to receive 140 clock hours of instruction upon providing the Board with satisfactory proof, based on Board guidelines, that the students for whom such requirements are waived have learned the content and skills included in the relevant Standards of Learning.

16. Provide for the award of verified units of credit for a satisfactory score, as determined by the Board, on the Preliminary ACT (PreACT) or Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT) examination.

17. Permit students to exceed a full course load in order to participate in courses offered by an institution of higher education that lead to a degree, certificate, or credential at such institution.

18. Permit local school divisions to waive the requirement for students to receive 140 clock hours of instruction after the student has completed the course curriculum and relevant Standards of Learning end-of-course assessment, or Board-approved substitute, provided that such student subsequently receives instruction, coursework, or study toward an industry certification approved by the local school board.

19. Permit any English language learner who previously earned a sufficient score on an Advanced Placement or International Baccalaureate foreign language examination or an SAT II Subject Test in a foreign language to substitute computer coding course credit for any foreign language course credit required to graduate, except in cases in which such foreign language course credit is required to earn an advanced diploma offered by a nationally recognized provider of college-level courses.

E. In the exercise of its authority to recognize exemplary performance by providing for diploma seals:

1. The Board shall develop criteria for recognizing exemplary performance in career and technical education programs by students who have completed the requirements for a Board of Education-approved diploma and shall award seals on the diplomas of students meeting such criteria.

2. The Board shall establish criteria for awarding a diploma seal for science, technology, engineering, and mathematics (STEM) for the Board of Education-approved diplomas. The Board shall consider including criteria for (i) relevant coursework; (ii) technical writing, reading, and oral communication skills; (iii) relevant training; and (iv) industry, professional, and trade association national certifications.

3. The Board shall establish criteria for awarding a diploma seal for excellence in civics education and understanding of our state and federal constitutions and the democratic model of government for the Board of Education-approved diplomas. The Board shall consider including criteria for (i) successful completion of history, government, and civics courses, including courses that incorporate character education; (ii) voluntary participation in community service or

extracurricular activities that includes the types of activities that shall qualify as community service and the number of hours required; and (iii) related requirements as it deems appropriate.

4. The Board shall establish criteria for awarding a diploma seal of biliteracy to any student who demonstrates proficiency in English and at least one other language for the Board of Education-approved diplomas. The Board shall consider criteria including the student's (i) score on a College Board Advanced Placement foreign language examination, (ii) score on an SAT II Subject Test in a foreign language, (iii) proficiency level on an ACTFL Assessment of Performance toward Proficiency in Languages (AAPPL) measure or another nationally or internationally recognized language proficiency test, or (iv) cumulative grade point average in a sequence of foreign language courses approved by the Board.

F. The Board shall establish, by regulation, requirements for the award of a general achievement adult high school diploma for those persons who are not subject to the compulsory school attendance requirements of § 22.1-254 and have (i) achieved a passing score on a high school equivalency examination approved by the Board of Education; (ii) successfully completed an education and training program designated by the Board of Education; (iii) earned a Board of Education-approved career and technical education credential such as the successful completion of an industry certification, a state licensure examination, a national occupational competency assessment, the Armed Services Vocational Aptitude Battery, or the Virginia workplace readiness skills assessment; and (iv) satisfied other requirements as may be established by the Board for the award of such diploma.

G. To ensure the uniform assessment of high school graduation rates, the Board shall collect, analyze, report, and make available to the public high school graduation and dropout data using a formula prescribed by the Board.

H. The Board shall also collect, analyze, report, and make available to the public high school graduation and dropout data using a formula that excludes any student who fails to graduate because such student is in the custody of the Department of Corrections, the Department of Juvenile Justice, or local law enforcement. For the purposes of the Standards of Accreditation, the Board shall use the graduation rate required by this subsection.

I. The Board may promulgate such regulations as may be necessary and appropriate for the collection, analysis, and reporting of such data required by subsections G and H.

CHAPTER 582

An Act to amend and reenact §§ 22.1-79.1 and 22.1-253.13:2 of the Code of Virginia, relating to public schools; kindergarten instructional time.

[S 238]

Approved March 31, 2020

Be it enacted by the General Assembly of Virginia:**1. That §§ 22.1-79.1 and 22.1-253.13:2 of the Code of Virginia are amended and reenacted as follows:****§ 22.1-79.1. Opening of the school year; approvals for certain alternative schedules.**

A. Each local school board shall set the school calendar so that the first day students are required to attend school shall be no earlier than 14 days before Labor Day. In each school division in which the school board sets the school calendar so that the first day students are required to attend school is before Labor Day, such school board shall close each school in the school division from the Friday immediately preceding Labor Day through Labor Day. The Board of Education may waive this requirement based on a school board certifying that it meets the good cause requirements of subsection B.

B. For purposes of this section, "good cause" means a school division is providing its students, in the school year for which the waiver is sought, with instructional programs that are offered on a year-round basis by the school division in one or more of its elementary or middle or high schools. Any waiver provided pursuant to this subsection shall only apply to the opening date for those schools where such year-round instructional programs are offered.

C. Individual schools may propose, and local school boards may approve, pursuant to guidelines developed by the Board of Education, alternative school schedule plans providing for the operation of schools on a four-day weekly calendar, so long as a minimum of 990 hours of instructional time is provided for grades ~~one kindergarten~~ through 12 ~~and 540 hours for kindergarten.~~

D. Notwithstanding the provisions of this section or any other provision of law, the school board of any school division located in Planning District 16 that was not granted a good cause waiver pursuant to this section for the 2018-2019 school year but would qualify for such a waiver pursuant to this section as it was in effect prior to July 1, 2019, for the 2019-2020 school year may set the school calendar so that the first day students are required to attend is earlier than Labor Day, including earlier than 14 days before Labor Day. Additionally, the school board of any school division located in Planning District 16 that is entirely surrounded by two school divisions that either were granted a waiver pursuant to Chapter 3 of the Acts of Assembly of 2012, Special Session I, or would qualify for a good cause waiver pursuant to this section as it was in effect prior to July 1, 2019, for the 2019-2020 school year may open schools on the same opening date as either such surrounding school division.

§ 22.1-253.13:2. Standard 2. Instructional, administrative, and support personnel.

A. The Board shall establish requirements for the licensing of teachers, principals, superintendents, and other professional personnel.

B. School boards shall employ licensed instructional personnel qualified in the relevant subject areas.

C. Each school board shall assign licensed instructional personnel in a manner that produces divisionwide ratios of students in average daily membership to full-time equivalent teaching positions, excluding special education teachers, principals, assistant principals, school counselors, and librarians, that are not greater than the following ratios: (i) 24 to one in kindergarten with no class being larger than 29 students; if the average daily membership in any kindergarten class exceeds 24 pupils, a full-time teacher's aide shall be assigned to the class; (ii) 24 to one in grades one, two, and three with no class being larger than 30 students; (iii) 25 to one in grades four through six with no class being larger than 35 students; and (iv) 24 to one in English classes in grades six through 12. After September 30 of any school year, anytime the number of students in a class exceeds the class size limit established by this subsection, the local school division shall notify the parent of each student in such class of such fact no later than 10 days after the date on which the class exceeded the class size limit. Such notification shall state the reason that the class size exceeds the class size limit and describe the measures that the local school division will take to reduce the class size to comply with this subsection.

Within its regulations governing special education programs, the Board shall seek to set pupil/teacher ratios for pupils with intellectual disability that do not exceed the pupil/teacher ratios for self-contained classes for pupils with specific learning disabilities.

Further, school boards shall assign instructional personnel in a manner that produces schoolwide ratios of students in average daily memberships to full-time equivalent teaching positions of 21 to one in middle schools and high schools. School divisions shall provide all middle and high school teachers with one planning period per day or the equivalent, unencumbered of any teaching or supervisory duties.

D. Each local school board shall employ with state and local basic, special education, gifted, and career and technical education funds a minimum number of licensed, full-time equivalent instructional personnel for each 1,000 students in average daily membership (ADM) as set forth in the appropriation act. ~~Calculations of kindergarten positions shall be based on full-day kindergarten programs. Beginning with the March 31 report of average daily membership, those school divisions offering half-day kindergarten with pupil/teacher ratios that exceed 30 to one shall adjust their average daily membership for kindergarten to reflect 85 percent of the total kindergarten average daily memberships, as provided in the appropriation act.~~

E. In addition to the positions supported by basic aid and in support of regular school year programs of prevention, intervention, and remediation, state funding, pursuant to the appropriation act, shall be provided to fund certain full-time equivalent instructional positions for each 1,000 students in grades K through 12 who are identified as needing prevention, intervention, and remediation services. State funding for prevention, intervention, and remediation programs provided pursuant to this subsection and the appropriation act may be used to support programs for educationally at-risk students as identified by the local school boards.

To provide algebra readiness intervention services required by § 22.1-253.13:1, school divisions may employ mathematics teacher specialists to provide the required algebra readiness intervention services. School divisions using the Standards of Learning Algebra Readiness Initiative funding in this manner shall only employ instructional personnel licensed by the Board of Education.

F. In addition to the positions supported by basic aid and those in support of regular school year programs of prevention, intervention, and remediation, state funding, pursuant to the appropriation act, shall be provided to support 17 full-time equivalent instructional positions for each 1,000 students identified as having limited English proficiency, which positions may include dual language teachers who provide instruction in English and in a second language.

To provide flexibility in the instruction of English language learners who have limited English proficiency and who are at risk of not meeting state accountability standards, school divisions may use state and local funds from the Standards of Quality Prevention, Intervention, and Remediation account to employ additional English language learner teachers or dual language teachers to provide instruction to identified limited English proficiency students. Using these funds in this manner is intended to supplement the instructional services provided in this section. School divisions using the SOQ Prevention, Intervention, and Remediation funds in this manner shall employ only instructional personnel licensed by the Board of Education.

G. In addition to the full-time equivalent positions required elsewhere in this section, each local school board shall employ the following reading specialists in elementary schools, one full-time in each elementary school at the discretion of the local school board. One reading specialist employed by each local school board that employs a reading specialist shall have training in the identification of and the appropriate interventions, accommodations, and teaching techniques for students with dyslexia or a related disorder and shall serve as an advisor on dyslexia and related disorders. Such reading specialist shall have an understanding of the definition of dyslexia and a working knowledge of (i) techniques to help a student on the continuum of skills with dyslexia; (ii) dyslexia characteristics that may manifest at different ages and grade levels; (iii) the basic foundation of the keys to reading, including multisensory, explicit, systemic, and structured reading instruction; and (iv) appropriate interventions, accommodations, and assistive technology supports for students with dyslexia.

To provide reading intervention services required by § 22.1-253.13:1, school divisions may employ reading specialists to provide the required reading intervention services. School divisions using the Early Reading Intervention Initiative funds in this manner shall employ only instructional personnel licensed by the Board of Education.

H. Each local school board shall employ, at a minimum, the following full-time equivalent positions for any school that reports fall membership, according to the type of school and student enrollment:

1. Principals in elementary schools, one half-time to 299 students, one full-time at 300 students; principals in middle schools, one full-time, to be employed on a 12-month basis; principals in high schools, one full-time, to be employed on a 12-month basis;

2. Assistant principals in elementary schools, one half-time at 600 students, one full-time at 900 students; assistant principals in middle schools, one full-time for each 600 students; assistant principals in high schools, one full-time for each 600 students; and school divisions that employ a sufficient number of assistant principals to meet this staffing requirement may assign assistant principals to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary;

3. Librarians in elementary schools, one part-time to 299 students, one full-time at 300 students; librarians in middle schools, one-half time to 299 students, one full-time at 300 students, two full-time at 1,000 students; librarians in high schools, one half-time to 299 students, one full-time at 300 students, two full-time at 1,000 students. Local school divisions that employ a sufficient number of librarians to meet this staffing requirement may assign librarians to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary; and

4. School counselors:

a. Effective with the 2019-2020 school year, in elementary schools, one hour per day per 75 students, one full-time at 375 students, one hour per day additional time per 75 students or major fraction thereof; in middle schools, one period per 65 students, one full-time at 325 students, one additional period per 65 students or major fraction thereof; in high schools, one period per 60 students, one full-time at 300 students, one additional period per 60 students or major fraction thereof.

b. Local school divisions that employ a sufficient number of school counselors to meet the school counselor staffing requirements set forth in this subdivision may assign school counselors to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or high schools.

I. Local school boards shall employ five full-time equivalent positions per 1,000 students in grades kindergarten through five to serve as elementary resource teachers in art, music, and physical education.

J. Local school boards shall employ two full-time equivalent positions per 1,000 students in grades kindergarten through 12, one to provide technology support and one to serve as an instructional technology resource teacher.

To provide flexibility, school divisions may use the state and local funds for instructional technology resource teachers to employ a data coordinator position, an instructional technology resource teacher position, or a data coordinator/instructional resource teacher blended position. The data coordinator position is intended to serve as a resource to principals and classroom teachers in the area of data analysis and interpretation for instructional and school improvement purposes, as well as for overall data management and administration of state assessments. School divisions using these funds in this manner shall employ only instructional personnel licensed by the Board of Education.

K. Local school boards may employ additional positions that exceed these minimal staffing requirements. These additional positions may include, but are not limited to, those funded through the state's incentive and categorical programs as set forth in the appropriation act.

L. A combined school, such as kindergarten through 12, shall meet at all grade levels the staffing requirements for the highest grade level in that school; this requirement shall apply to all staff, except for school counselors, and shall be based on the school's total enrollment; school counselor staff requirements shall, however, be based on the enrollment at the various school organization levels, i.e., elementary, middle, or high school. The Board of Education may grant waivers from these staffing levels upon request from local school boards seeking to implement experimental or innovative programs that are not consistent with these staffing levels.

M. School boards shall, however, annually, on or before December 31, report to the public (i) the actual pupil/teacher ratios in elementary school classrooms in the local school division by school for the current school year; and (ii) the actual pupil/teacher ratios in middle school and high school in the local school division by school for the current school year. Actual pupil/teacher ratios shall include only the teachers who teach the grade and class on a full-time basis and shall exclude resource personnel. School boards shall report pupil/teacher ratios that include resource teachers in the same annual report. Any classes funded through the voluntary kindergarten through third grade class size reduction program shall be identified as such classes. Any classes having waivers to exceed the requirements of this subsection shall also be identified. Schools shall be identified; however, the data shall be compiled in a manner to ensure the confidentiality of all teacher and pupil identities.

N. Students enrolled in a public school on a less than full-time basis shall be counted in ADM in the relevant school division. Students who are either (i) enrolled in a nonpublic school or (ii) receiving home instruction pursuant to § 22.1-254.1, and who are enrolled in public school on a less than full-time basis in any mathematics, science, English, history, social science, career and technical education, fine arts, foreign language, or health education or physical education course shall be counted in the ADM in the relevant school division on a pro rata basis as provided in the appropriation act. Each such course enrollment by such students shall be counted as 0.25 in the ADM; however, no such nonpublic or home school student shall be counted as more than one-half a student for purposes of such pro rata calculation. Such calculation shall not include enrollments of such students in any other public school courses.

O. Each local school board shall provide those support services that are necessary for the efficient and cost-effective operation and maintenance of its public schools.

For the purposes of this title, unless the context otherwise requires, "support services positions" shall include the following:

1. Executive policy and leadership positions, including school board members, superintendents and assistant superintendents;

2. Fiscal and human resources positions, including fiscal and audit operations;

3. Student support positions, including (i) social workers and social work administrative positions; (ii) school counselor administrative positions not included in subdivision H 4; (iii) homebound administrative positions supporting instruction; (iv) attendance support positions related to truancy and dropout prevention; and (v) health and behavioral positions, including school nurses and school psychologists;

4. Instructional personnel support, including professional development positions and library and media positions not included in subdivision H 3;

5. Technology professional positions not included in subsection J;

6. Operation and maintenance positions, including facilities; pupil transportation positions; operation and maintenance professional and service positions; and security service, trade, and laborer positions;

7. Technical and clerical positions for fiscal and human resources, student support, instructional personnel support, operation and maintenance, administration, and technology; and

8. School-based clerical personnel in elementary schools; part-time to 299 students, one full-time at 300 students; clerical personnel in middle schools; one full-time and one additional full-time for each 600 students beyond 200 students and one full-time for the library at 750 students; clerical personnel in high schools; one full-time and one additional full-time for each 600 students beyond 200 students and one full-time for the library at 750 students. Local school divisions that employ a sufficient number of school-based clerical personnel to meet this staffing requirement may assign the clerical personnel to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary.

Pursuant to the appropriation act, support services shall be funded from basic school aid.

School divisions may use the state and local funds for support services to provide additional instructional services.

P. Notwithstanding the provisions of this section, when determining the assignment of instructional and other licensed personnel in subsections C through J, a local school board shall not be required to include full-time students of approved virtual school programs.

2. That the provisions of the first enactment of this act shall become effective on July 1, 2022.

3. That the Board of Education shall adopt regulations establishing standards for accreditation that include a requirement that the standard school day for students in kindergarten average at least 5.5 instructional hours in order to qualify for full accreditation. The Board of Education shall adopt such regulations by July 1, 2022.

CHAPTER 585

An Act to amend and reenact § 20-109 of the Code of Virginia, relating to modification of spousal support.

[H 1501]

Approved March 31, 2020

Be it enacted by the General Assembly of Virginia:

1. **That § 20-109 of the Code of Virginia is amended and reenacted as follows:**

§ 20-109. Changing maintenance and support for a spouse; effect of stipulations as to maintenance and support for a spouse; cessation upon cohabitation, remarriage, or death; effect of retirement.

A. Upon petition of either party the court may increase, decrease, or terminate the amount or duration of any spousal support and maintenance that may thereafter accrue, whether previously or hereafter awarded, as the circumstances may make proper. Upon order of the court based upon clear and convincing evidence that the spouse receiving support has been habitually cohabiting with another person in a relationship analogous to a marriage for one year or more commencing on or after July 1, 1997, the court shall terminate spousal support and maintenance unless (i) otherwise provided by stipulation or contract or (ii) the spouse receiving support proves by a preponderance of the evidence that termination of such support would be unconscionable. The provisions of this subsection shall apply to all orders and decrees for spousal support, regardless of the date of the suit for initial setting of support, the date of entry of any such order or decree, or the date of any petition for modification of support.

B. The court may consider a modification of an award of spousal support for a defined duration upon petition of either party filed within the time covered by the duration of the award. Upon consideration of the factors set forth in subsection E of § 20-107.1, the court may increase, decrease or terminate the amount or duration of the award upon finding that (i) there has been a material change in the circumstances of the parties, not reasonably in the contemplation of the parties when the award was made or (ii) an event which the court anticipated would occur during the duration of the award and which was significant in the making of the award, does not in fact occur through no fault of the party seeking the modification. The provisions of this subsection shall apply only to suits for initial spousal support orders filed on or after July 1, 1998, and suits for modification of spousal support orders arising from suits for initial support orders filed on or after July 1, 1998.

C. In suits for divorce, annulment and separate maintenance, and in proceedings arising under subdivision A 3 or subsection L of § 16.1-241, if a stipulation or contract signed by the party to whom such relief might otherwise be awarded is filed before entry of a final decree, no decree or order directing the payment of support and maintenance for the spouse, suit money, or counsel fee or establishing or imposing any other condition or consideration, monetary or nonmonetary, shall be entered except in accordance with that stipulation or contract. If such a stipulation or contract is filed after entry of a final decree and if any party so moves, the court shall modify its decree to conform to such stipulation or contract. No request for modification of spousal support based on a material change in circumstances or the terms of stipulation or contract shall be

denied solely on the basis of the terms of any stipulation or contract that is executed on or after July 1, 2018, unless such stipulation or contract contains the following language: "The amount or duration of spousal support contained in this [AGREEMENT] is not modifiable except as specifically set forth in this [AGREEMENT]."¹ expressly states that the amount or duration of spousal support is non-modifiable.

D. Unless otherwise provided by stipulation or contract, spousal support and maintenance shall terminate upon the death of either party or remarriage of the spouse receiving support. The spouse entitled to support shall have an affirmative duty to notify the payor spouse immediately of remarriage at the last known address of the payor spouse.

E. For purposes of the modification of an award of spousal support, and without precluding the ability of a party to otherwise file for a modification of spousal support based upon any other material change in circumstances, the payor spouse's attainment of full retirement age shall be considered a material change in circumstances. For the purposes of this subsection, "full retirement age" means the normal retirement age at which a person is eligible to receive full retirement benefits under the federal Social Security Act, but "full retirement age" does not mean "early retirement age" as defined under the federal Social Security Act (42 U.S.C. § 416, as amended).

F. In an action for the increase, decrease, or termination of spousal support based on the retirement of the payor spouse pursuant to subsection E, where the court finds that there has been a material change in circumstances, the court shall determine whether any modification or termination of such spousal support should be granted. In making such determination, the court may consider the factors set forth in subsection E of § 20-107.1 and shall consider the following factors:

1. Whether retirement was contemplated by the court and specifically considered by the court when the spousal support was awarded;
2. Whether the retirement is mandatory or voluntary, and the terms and conditions related to such retirement;
3. Whether the retirement would result in a change in the income of either the payor or the payee spouse;
4. The age and health of the parties;
5. The duration and amount of spousal support already paid; and
6. The assets or property interest of each of the parties during the period from the date of the support order and up to the date of the hearing on modification or termination.

The provisions of this subsection (i) shall be subject to the provisions regarding stipulations or contracts as set forth in subsection C, and (ii) shall not apply to a contract or stipulation that is non-modifiable.

The provisions of this subsection and subsection E shall apply to suits for modification or termination of spousal support orders regardless of the date of the suit for initial setting of support or the date of entry of any such order or decree.

G. In any action for the increase, decrease, or termination of spousal support, if the court finds that there has been a material change in circumstances, the court may consider the factors set forth in subsection E of § 20-107.1 and subsection F of this section in making its determination as to whether any modification or termination of such support should be granted. The court shall further consider the assets or property interest of each of the parties from the date of the support order and up to the time of the hearing on modification or termination, and any income generated from the asset or property interest. Any order granting or denying a request for the modification or termination of spousal support shall be accompanied by written findings and conclusions of the court identifying the factors set forth in subsection E of § 20-107.1 and subsection F of this section that support the court's order.

A fee of \$15 per page or sheet shall be charged with respect to plat or map sheets larger than eight and one-half inches by 14 inches. Only a single fee as authorized by this subdivision shall be charged for recording a certificate of satisfaction that releases the original deed of trust and any corrected or revised deeds of trust. One dollar and fifty cents of the fee collected for recording and indexing shall be designated for use in preserving the permanent records of the circuit courts. The sum collected for this purpose shall be administered by The Library of Virginia in cooperation with the circuit court clerks.

8. For making out a copy of any paper, record, or electronic record to go out of the office, which is not otherwise specifically provided for herein, a fee of \$0.50 for each page or, if an electronic record, each image. From such fees, the clerk shall reimburse the locality the costs of making out the copies and pay the remaining fees directly to the Commonwealth. The funds to recoup the cost of making out the copies shall be deposited with the county or city treasurer or Director of Finance, and the governing body shall budget and appropriate such funds to be used to support the cost of copies pursuant to this subdivision. For purposes of this section, the costs of making out the copies authorized under this section shall include costs included in the lease and maintenance agreements for the equipment and the technology needed to operate electronic systems in the clerk's office used to make out the copies, but shall not include salaries or related benefits. The costs of copies shall otherwise be determined in accordance with § 2.2-3704. However, there shall be no charge to the recipient of a final order or decree to send an attested copy to such party.

9. For annexing the seal of the court to any paper, writing the certificate of the clerk accompanying it, the clerk shall charge \$2 and for attaching the certificate of the judge, if the clerk is requested to do so, the clerk shall charge an additional \$0.50.

12. Upon the defendant's being required to successfully complete traffic school, a mature driver motor vehicle crash prevention course, or a driver improvement clinic in lieu of a finding of guilty, the court shall charge the defendant fees and costs as if he had been convicted.

13. In all civil actions that include one or more claims for the award of monetary damages the clerk's fee chargeable to the plaintiff shall be \$100 in cases seeking recovery not exceeding \$49,999; \$200 in cases seeking recovery exceeding \$49,999, but not exceeding \$100,000; \$250 in cases seeking recovery exceeding \$100,000, but not exceeding \$500,000; and \$300 in cases seeking recovery exceeding \$500,000. Ten dollars of each such fee shall be apportioned to the Courts Technology Fund established under § 17.1-132. A fee of \$25 shall be paid by the plaintiff at the time of instituting a condemnation case, in lieu of any other fees. There shall be no fee charged for the filing of a cross-claim or setoff in any pending action. However, the fees prescribed by this subdivision shall be charged upon the filing of a counterclaim or a claim impleading a third-party defendant. The fees prescribed above shall be collected upon the filing of papers for the commencement of civil actions. This subdivision shall not be applicable to cases filed in the Supreme Court of Virginia.

13a. For the filing of any petition seeking court approval of a settlement where no action has yet been filed, the clerk's fee, chargeable to the petitioner, shall be \$50, to be paid by the petitioner at the time of filing the petition.

14. In addition to the fees chargeable for civil actions, for the costs of proceedings for judgments by confession under §§ 8.01-432 through 8.01-440, the clerk shall tax as costs (i) the cost of registered or certified mail; (ii) the statutory writ tax, in the amount required by law to be paid on a suit for the amount of the confessed judgment; (iii) for the sheriff for serving each copy of the order entering judgment, \$12; and (iv) for docketing the judgment and issuing executions thereon, the same fees as prescribed in subdivision A 17.

15. For qualifying notaries public, including the making out of the bond and any copies thereof, administering the necessary oaths, and entering the order, \$10.

16. For each habeas corpus proceeding, the clerk shall receive \$10 for all services required thereunder. This subdivision shall not be applicable to such suits filed in the Supreme Court of Virginia.

17. 23. For preparation and issuance of a subpoena duces tecum, \$5.

24. For all services rendered by the clerk in matters under § 8.01-217 relating to change of name, \$20; however, this subdivision shall not be applicable in cases where the change of name is incident to a divorce.

25. For providing court records or documents on microfilm, per frame, \$0.50.

26. In all divorce and separate maintenance proceedings, and all civil actions that do not include one or more claims for the award of monetary damages, the clerk's fee chargeable to the plaintiff shall be \$60, \$10 of which shall be apportioned to the Courts Technology Fund established under § 17.1-132 to be paid by the plaintiff at the time of instituting the suit, which shall include the furnishing of a duly certified copy of the final decree. The fees prescribed by this subdivision shall be charged upon the filing of a counterclaim or a claim impleading a third-party defendant. However, no fee shall be charged for (i) the filing of a cross-claim or setoff in any pending suit or (ii) the filing of a counterclaim or any other responsive pleading in any annulment, divorce, or separate maintenance proceeding. In divorce cases, when there is a merger of a divorce of separation a mensa et thoro into a decree of divorce a vinculo, the above mentioned fee shall include the furnishing of a duly certified copy of both such decrees.

27. For the acceptance of credit or debit cards in lieu of money to collect and secure all fees, including filing fees, fines, restitution, forfeiture, penalties and costs, the clerk shall collect from the person presenting such credit or debit card a reasonable convenience fee for the processing of such credit or debit card. Such convenience fee shall not exceed four percent of the amount paid for the transaction or a flat fee of \$2 per transaction. The clerk may set a lower convenience fee for electronic filing of civil or criminal proceedings pursuant to § 17.1-258.3. Nothing herein shall be construed to prohibit the clerk from outsourcing the processing of credit and debit card transactions to a third-party private vendor engaged by the clerk. Convenience fees shall be used to cover operational expenses as defined in § 17.1-295.

28. For the return of any check unpaid by the financial institution on which it was drawn or notice is received from the credit or debit card issuer that payment will not be made for any reason, the clerk may collect a fee of \$50 or 10 percent of the amount of the payment, whichever is greater.

29. For all services rendered, except in cases in which costs are assessed pursuant to § 17.1-275.1, 17.1-275.2, 17.1-275.3, or 17.1-275.4, in an adoption proceeding, a fee of \$20, in addition to the fee imposed under § 63.2-1246, to be paid by the petitioner or petitioners. For each petition for adoption filed pursuant to § 63.2-1201, except those filed pursuant to subdivisions 5 and 6 of § 63.2-1210, an additional \$50 filing fee as required under § 63.2-1201 shall be deposited in the Virginia Birth Father Registry Fund pursuant to § 63.2-1249.

30. For issuing a duplicate license for one lost or destroyed as provided in § 29.1-334, a fee in the same amount as the fee for the original license.

31. For the filing of any petition as provided in §§ 33.2-1023, 33.2-1024, and 33.2-1027, a fee of \$5 to be paid by the petitioner; and for the recordation of a certificate or copy thereof, as provided for in § 33.2-1021, as well as for any order of the court relating thereto, the clerk shall charge the same fee as for recording a deed as provided for in this section, to be paid by the party upon whose request such certificate is recorded or order is entered.

32. For making up, certifying and transmitting original record pursuant to the Rules of the Supreme Court, including all papers necessary to be copied and other services rendered, except in cases in which costs are assessed pursuant to § 17.1-275.1, 17.1-275.2, 17.1-275.3, 17.1-275.4, 17.1-275.7, 17.1-275.8, or 17.1-275.9, a fee of \$20.

40. For filing a financing statement in accordance with § 8.9A-505, the fee shall be as prescribed under § 8.9A-525.

41. For filing a termination statement in accordance with § 8.9A-513, the fee shall be as prescribed under § 8.9A-525.

42. For filing assignment of security interest in accordance with § 8.9A-514, the fee shall be as prescribed under § 8.9A-525.

43. For filing a petition as provided in §§ 64.2-2001 and 64.2-2013, the fee shall be \$10.

44. For issuing any execution, and recording the return thereof, a fee of \$1.50.

45. For the preparation and issuance of a summons for interrogation by an execution creditor, a fee of \$5. If there is no outstanding execution, and one is requested herewith, the clerk shall be allowed an additional fee of \$1.50, in accordance with subdivision A 44.

[H 420]

Approved April 2, 2020

Be it enacted by the General Assembly of Virginia:

1. § 1. *The Department of Emergency Management shall review its emergency services and disaster preparedness programs to determine if changes to those programs are necessary in order to address the needs of individuals with limited English proficiency and individuals with access or functional needs. The Department shall complete its review no later than November 1, 2020, and report its findings to the Chairs of the Senate Committee on General Laws and Technology and the House Committee on General Laws. Such report shall include any recommendations for legislation that would be required to fully address the needs of individuals with limited English proficiency and individuals with access or functional needs. As used in this section, "individuals with limited English proficiency" means individuals who do not speak English as their primary language and who have limited ability to read, write, speak, or understand English.*

CHAPTER 591

An Act to amend and reenact §§ 2.2-115, 2.2-2237.1, 2.2-2237.3, 2.2-2238, and 2.2-2242 of the Code of Virginia and to repeal §§ 2.2-206.2 and 2.2-2238.1 of the Code of Virginia, relating to economic development programs; reporting requirements.

[H 935]

Approved April 2, 2020

Be it enacted by the General Assembly of Virginia:

1. That §§ 2.2-115, 2.2-2237.1, 2.2-2237.3, 2.2-2238, and 2.2-2242 of the Code of Virginia are amended and reenacted as follows:

§ 2.2-115. Commonwealth's Development Opportunity Fund.

A. As used in this section, unless the context requires otherwise:

"New job" means employment of an indefinite duration, created as the direct result of the private investment, for which the firm pays the wages and standard fringe benefits for its employee, requiring a minimum of either (i) 35 hours of the employee's time a week for the entire normal year of the firm's operations, which "normal year" must consist of at least 48 weeks or (ii) 1,680 hours per year.

Seasonal or temporary positions, positions created when a job function is shifted from an existing location in the Commonwealth to the location of the economic development project, positions with suppliers, and multiplier or spin-off jobs shall not qualify as new jobs. The term "new job" shall include positions with contractors provided that all requirements included within the definition of the term are met.

"Prevailing average wage" means that amount determined by the Virginia Employment Commission to be the average wage paid workers in the city or county of the Commonwealth where the economic development project is located. The prevailing average wage shall be determined without regard to any fringe benefits.

"Private investment" means the private investment required under this section.

B. There is created the Commonwealth's Development Opportunity Fund (the Fund) to be used by the Governor to attract economic development prospects and secure the expansion of existing industry in the Commonwealth. The Fund shall consist of any funds appropriated to it by the general appropriation act and revenue from any other source, public or private. The Fund shall be established on the books of the Comptroller, and any funds remaining in the Fund at the end of a biennium shall not revert to the general fund but shall remain in the Fund. Interest earned on the Fund shall be credited to the Fund. The Governor shall report to the Chairmen of the House Committees on Appropriations and Finance and the Senate Committee on Finance and Appropriations as funds are awarded in accordance with this section.

C. Funds shall be awarded from the Fund by the Governor as grants or loans to political subdivisions. The criteria for making such grants or loans shall include (i) job creation, (ii) private capital investment, and (iii) anticipated additional state tax revenue expected to accrue to the state and affected localities as a result of the capital investment and jobs created. Loans shall be approved by the Governor and made in accordance with guidelines established by the Virginia Economic Development Partnership and approved by the Comptroller. Loans shall be interest-free unless otherwise determined by the Governor and shall be repaid to the Fund. The Governor may establish the interest rate to be charged; otherwise, any interest charged shall be at market rates as determined by the State Treasurer and shall be indicative of the duration of the loan. The Virginia Economic Development Partnership shall be responsible for monitoring repayment of such loans and reporting the receivables to the Comptroller as required.

Beginning with the five fiscal years from fiscal year 2006-2007 through fiscal year 2010-2011, and for every five fiscal years' period thereafter, in general, no less than one-third of the moneys appropriated to the Fund in every such five-year period shall be awarded to counties and cities having an annual average unemployment rate that is greater than the final statewide average unemployment rate for the calendar year that immediately precedes the calendar year of the award. However, if such one-third requirement will not be met because economic development prospects in such counties and cities are unable to fulfill the applicable minimum private investment and new jobs requirements set forth in this section, then any funds remaining in the Fund at the end of the five-year period that would have otherwise been awarded to such counties and cities shall be made available for awards in the next five fiscal years' period.

D. Funds may be used for public and private utility extension or capacity development on and off site; public and private installation, extension, or capacity development of high-speed or broadband Internet access, whether on or off site; road, rail, or other transportation access costs beyond the funding capability of existing programs; site acquisition; grading, drainage, paving, and any other activity required to prepare a site for construction; construction or build-out of publicly or privately owned buildings; training; or grants or loans to an industrial development authority, housing and redevelopment authority, or other political subdivision for purposes directly relating to any of the foregoing. However, in no case shall funds from the Fund be used, directly or indirectly, to pay or guarantee the payment for any rental, lease, license, or other contractual right to the use of any property.

It shall be the policy of the Commonwealth that moneys in the Fund shall not be used for any economic development project in which a business relocates or expands its operations in one or more Virginia localities and simultaneously closes its operations or substantially reduces the number of its employees in another Virginia locality, unless the procedures set forth in § 30-310 are followed. The Secretary of Commerce and Trade shall enforce this policy and for any exception thereto shall, pursuant to § 30-310, submit such projects to the MEI Project Approval Commission established pursuant to § 30-309.

E. 1. a. Except as provided in this subdivision, no grant or loan shall be awarded from the Fund unless the project involves a minimum private investment of \$5 million and creates at least 50 new jobs for which the average wage, excluding fringe benefits, is no less than the prevailing average wage. For projects, including but not limited to projects involving emerging technologies, for which the average wage of the new jobs created, excluding fringe benefits, is at least twice the prevailing average wage for that locality or region, the Governor shall have the discretion to require no less than one-half the number of new jobs as set forth for that locality in this subdivision.

b. Notwithstanding the provisions of subdivision a, a grant or loan may be awarded from the Fund if the project involves a minimum private investment of \$100 million and creates at least 25 new jobs for which the average wage, excluding fringe benefits, is no less than the prevailing average wage.

2. Notwithstanding the provisions of subdivision 1 a, in localities (i) with an annual unemployment rate for the most recent calendar year for which such data is available that is greater than the final statewide average unemployment rate for

that calendar year or (ii) with a poverty rate for the most recent calendar year for which such data is available that exceeds the statewide average poverty rate for that year, a grant or loan may be awarded from the Fund pursuant to subdivision 1 a if the project involves a minimum private investment of \$2.5 million and creates at least 25 new jobs for which the average wage, excluding fringe benefits, is no less than 85 percent of the prevailing average wage.

3. Notwithstanding the provisions of subdivisions 1 a and 2, in localities (i) with an annual unemployment rate for the most recent calendar year for which such data is available that is greater than the final statewide average unemployment rate for that calendar year and (ii) with a poverty rate for the most recent calendar year for which such data is available that exceeds the statewide average poverty rate for that year, a grant or loan may be awarded from the Fund pursuant to such subdivisions if the project involves a minimum private investment of \$1.5 million and creates at least 15 new jobs for which the average wage, excluding fringe benefits, is no less than 85 percent of the prevailing average wage.

4. For projects that are eligible under subdivision 2 or 3, the average wage of the new jobs, excluding fringe benefits, shall be no less than 85 percent of the prevailing average wage. In addition, for projects in such localities, the Governor may award a grant or loan for a project paying less than 85 percent of the prevailing average wage but still providing customary employee benefits, only after the Secretary of Commerce and Trade has made a written finding that the economic circumstances in the area are sufficiently distressed (i.e., high unemployment or underemployment and negative economic forecasts) that assistance to the locality to attract the project is nonetheless justified. However, the minimum private investment and number of new jobs required to be created as set forth in this subsection shall still be a condition of eligibility for an award from the Fund. Such written finding shall promptly be provided to the chairs of the Senate Committee on Finance and Appropriations and the House Committee on Appropriations.

F. 1. The Virginia Economic Development Partnership shall assist the Governor in developing objective guidelines and criteria that shall be used in awarding grants or making loans from the Fund. The guidelines may require that as a condition of receiving any grant or loan incentive that is based on employment goals, a recipient company must provide copies of employer quarterly payroll reports that have been provided to the Virginia Employment Commission to verify the employment status of any position included in the employment goal. The guidelines may include a requirement for the affected locality or localities to provide matching funds which may be cash or in-kind, at the discretion of the Governor. The guidelines and criteria shall include provisions for geographic diversity and a cap on the amount of funds to be provided to any individual project. At the discretion of the Governor, this cap may be waived for qualifying projects of regional or statewide interest. In developing the guidelines and criteria, the Virginia Economic Development Partnership shall use the measure for Fiscal Stress published by the Commission on Local Government of the Department of Housing and Community Development for the locality in which the project is located or will be located as one method of determining the amount of assistance a locality shall receive from the Fund.

2. a. Notwithstanding any provision in this section or in the guidelines, each political subdivision that receives a grant or loan from the Fund shall enter into a contract with the Commonwealth, through the Virginia Economic Development Partnership Authority as its agent, and each business beneficiary of funds from the Fund. A person or entity shall be a business beneficiary of funds from the Fund if grant or loan moneys awarded from the Fund by the Governor are paid to a political subdivision and (i) subsequently distributed by the political subdivision to the person or entity or (ii) used by the political subdivision for the benefit of the person or entity but never distributed to the person or entity.

b. The contract between the political subdivision, the Commonwealth, and the business beneficiary shall provide in detail (i) the fair market value of all funds that the Commonwealth has committed to provide, (ii) the fair market value of all matching funds (or in-kind match) that the political subdivision has agreed to provide, (iii) how funds committed by the Commonwealth (including but not limited to funds from the Fund committed by the Governor) and funds that the political subdivision has agreed to provide are to be spent, (iv) the minimum private investment to be made and the number of new jobs to be created agreed to by the business beneficiary, (v) the average wage (excluding fringe benefits) agreed to be paid in the new jobs, (vi) the prevailing average wage, and (vii) the formula, means, or processes agreed to be used for measuring compliance with the minimum private investment and new jobs requirements, including consideration of any layoffs instituted by the business beneficiary over the course of the period covered by the contract.

The contract shall state the date by which the agreed upon private investment and new job requirements shall be met by the business beneficiary of funds from the Fund and may provide for the political subdivision and the Commonwealth to grant up to a 15-month extension of such date if deemed appropriate by the political subdivision and the Commonwealth subsequent to the execution of the contract. Any extension of such date granted by the political subdivision shall be in writing and promptly delivered to the business beneficiary, and the political subdivision shall simultaneously provide a copy of the extension to the Virginia Economic Development Partnership.

The contract shall provide that if the private investment and new job contractual requirements are not met by the expiration of the date stipulated in the contract, including any extension granted by the political subdivision and the Commonwealth, the business beneficiary shall be liable to the political subdivision and the Commonwealth for repayment of a portion of the funds provided by the political subdivision under the contract and liable to the Commonwealth for repayment of a portion of the funds provided from the Commonwealth's Development Opportunity Fund. The contract shall include a formula for purposes of determining the portion of such funds to be repaid. The formula shall, in part, be based upon the fair market value of all funds that have been provided by the Commonwealth and the political subdivision and the extent to which the business beneficiary has met the private investment and new job contractual requirements. All such funds repaid to the political subdivision or the Commonwealth that relate to the award from the Commonwealth's

Development Opportunity Fund shall promptly be remitted to the State Treasurer. Upon receipt by the State Treasurer of such payment, the Comptroller shall deposit such repaid funds into the Commonwealth's Development Opportunity Fund.

c. The contract shall be amended to reflect changes in the funds committed by the Commonwealth or agreed to be provided by the political subdivision.

d. Notwithstanding any provision in this section or in the guidelines, whenever layoffs instituted by a business beneficiary over the course of the period covered by a contract cause the net total number of the new jobs created to be fewer than the number agreed to, then the business beneficiary shall return the portion of any funds received pursuant to the repayment formula established by the contract.

3. Notwithstanding any provision in this section or in the guidelines, prior to executing any such contract with a business beneficiary, the political subdivision shall provide a copy of the proposed contract to the Attorney General. The Attorney General shall review the proposed contract (i) for enforceability as to its provisions and (ii) to ensure that it is in appropriate legal form. The Attorney General shall provide any written suggestions to the political subdivision within seven days of his receipt of the copy of the contract. The Attorney General's suggestions shall be limited to the enforceability of the contract's provisions and the legal form of the contract.

4. Notwithstanding any provision in this section or in the guidelines, a political subdivision shall not expend, distribute, pledge, use as security, or otherwise use any award from the Fund unless and until such contract as described herein is executed with the business beneficiary.

G. "Seller's authorized agent" means a person designated by such seller in a ratified real estate contract for purchase and sale of residential real property or other writing designating such agent.

B. Subject to the provisions of subsection A of § 55.1-1814, an owner selling a lot shall disclose in the contract that (i) the lot is located within a development that is subject to the Property Owners' Association Act (§ 55.1-1800 et seq.); (ii) the Property Owners' Association Act (§ 55.1-1800 et seq.) requires the seller to obtain from the property owners' association an association disclosure packet and provide it to the purchaser; (iii) the purchaser may cancel the contract within three days after receiving the association disclosure packet or being notified that the association disclosure packet will not be available; (iv) if the purchaser has received the association disclosure packet, the purchaser has a right to request an update of such disclosure packet in accordance with subsection ~~H~~ G of § 55.1-1810 or subsection D of § 55.1-1811, as appropriate; and (v) the right to receive the association disclosure packet and the right to cancel the contract are waived conclusively if not exercised before settlement.

H. Delivery of the disclosure packet may be made by the lot owner or the lot owner's authorized agent.

I. If the lot is governed by more than one association, the purchaser's right of cancellation may be exercised within the required time frames following delivery of the last disclosure packet or resale certificate.

§ 55.1-1810. Fees for disclosure packet; professionally managed associations.

A. A professionally managed association or its common interest community manager may charge certain fees as authorized by this section for the inspection of the property, the preparation and issuance of the disclosure packet required by § 55.1-1809, and for such other services as set out in this section. The seller or the seller's authorized agent shall specify in writing whether the disclosure packet shall be delivered electronically or in hard copy, at the option of the seller or the seller's authorized agent, and shall specify the complete contact information for the parties to whom the disclosure packet shall be delivered.

B. A reasonable fee may be charged by the preparer as follows:

1. For the inspection of the exterior of the dwelling unit and the lot, as authorized in the declaration and as required to prepare the association disclosure packet, a fee not to exceed \$100;

2. For the preparation and delivery of the disclosure packet in (i) paper format, a fee not to exceed \$150 for no more than two hard copies or (ii) electronic format, a fee not to exceed a total of \$125 for an electronic copy to each of the following named in the request: the seller, the seller's authorized agent, the purchaser, the purchaser's authorized agent, and not more than one other person designated by the requester. The preparer of the disclosure packet shall provide the disclosure packet directly to the designated persons. Only one fee shall be charged for the preparation and delivery of the disclosure packet;

3. At the option of the seller or the seller's authorized agent, with the consent of the association or the common interest community manager, for expediting the inspection, preparation, and delivery of the disclosure packet, an additional expedite fee not to exceed \$50;

4. At the option of the seller or the seller's authorized agent, for an additional hard copy of the disclosure packet, a fee not to exceed \$25 per hard copy;

5. At the option of the seller or the seller's authorized agent, for hand delivery or overnight delivery of the overnight disclosure packet, a fee not to exceed an amount equal to the actual cost paid to a third-party commercial delivery service; and

6. A post-closing fee to the purchaser of the property, collected at settlement, for the purpose of establishing the purchaser as the owner of the property in the records of the association, a fee not to exceed \$50.

Except as otherwise provided in subsection E, neither the association nor its common interest community manager shall require cash, check, certified funds, or credit card payments at the time the request for the disclosure packet is made. The disclosure packet shall state that all fees and costs for the disclosure packet shall be the personal obligation of the lot owner and shall be an assessment against the lot and collectible as any other assessment in accordance with the provisions of the declaration and § 55.1-1833, if not paid at settlement or within 60 days of the delivery of the disclosure packet, whichever occurs first.

For purposes of this section, an expedite fee shall be charged only if the inspection and preparation of delivery of the disclosure packet are completed within five business days of the request for a disclosure packet.

C. No fees other than those specified in this section, and as limited by this section, shall be charged by the association or its common interest community manager for compliance with the duties and responsibilities of the association under this chapter. No additional fee shall be charged for access to the association's or common interest community manager's website. The association or its common interest community manager shall publish and make available in paper or electronic format, or both, a schedule of the applicable fees so the seller or the seller's authorized agent will know such fees at the time of requesting the packet.

D. Any fees charged pursuant to this section shall be collected at the time of settlement on the sale of the lot and shall be due and payable out of the settlement proceeds in accordance with this section. The settlement agent shall escrow a sum sufficient to pay such costs of the seller at settlement. The seller shall be responsible for all costs associated with the preparation and delivery of the association disclosure packet, except for the costs of any disclosure packet update or financial update, which costs shall be the responsibility of the requester, payable at settlement. Neither the association nor its common interest community manager shall require cash, check, certified funds, or credit card payments at the time the request is made for the association disclosure packet.

E. If settlement does not occur within 60 days of the delivery of the disclosure packet, or funds are not collected at settlement and disbursed to the association or the common interest community manager, all fees, including those costs that would have otherwise been the responsibility of the purchaser or settlement agent, shall be (i) assessed within one year after delivery of the disclosure packet against the lot owner, (ii) the personal obligation of the lot owner, and (iii) an assessment against the lot and collectible as any other assessment in accordance with the provisions of the declaration and § 55.1-1834. The seller may pay the association by cash, check, certified funds, or credit card, if credit card payment is an option offered by the association. The association shall pay the common interest community manager the amount due from the lot owner within 30 days after invoice.

F. The maximum allowable fees charged in accordance with this section shall adjust every five years, as of January 1 of that year, in an amount equal to the annual increases for that five-year period in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics of the U.S. Department of Labor.

G. If an association disclosure packet has been issued for a lot within the preceding 12-month period, a person specified in the written instructions of the seller or the seller's authorized agent, including the seller or the seller's authorized agent, or the purchaser or his authorized agent may request a disclosure packet update. The requester shall specify whether the disclosure packet update shall be delivered electronically or in hard copy and shall specify the complete contact information of the parties to whom the update shall be delivered. The disclosure packet update shall be delivered within 10 days of the written request.

H. The settlement agent may request a financial update. The requester shall specify whether the financial update shall be delivered electronically or in hard copy and shall specify the complete contact information of the parties to whom the update shall be delivered. The financial update shall be delivered within three business days of the written request.

I. A reasonable fee for the disclosure packet update or financial update may be charged by the preparer not to exceed \$50. At the option of the purchaser or the purchaser's authorized agent, the requester may request that the association or the common interest community manager perform an additional inspection of the exterior of the dwelling unit and the lot, as authorized in the declaration, for a fee not to exceed \$100. Any fees charged for the specified update shall be collected at the time settlement occurs on the sale of the property. The settlement agent shall escrow a sum sufficient to pay such costs of the seller at settlement. Neither the association nor its common interest community manager, if any, shall require cash, check, certified funds, or credit card payments at the time the request is made for the disclosure packet update. The requester may request that the specified update be provided in hard copy or in electronic form.

J. No association or common interest community manager may require the requester to request the specified update electronically. The seller or the seller's authorized agent shall continue to have the right to request a hard copy of the specified update in person at the principal place of business of the association. If the requester asks that the specified update be provided in electronic format, neither the association nor its common interest community manager may require the requester to pay any fees to use the provider's electronic network or system. A copy of the specified update shall be provided to the seller or the seller's authorized agent.

K. When an association disclosure packet has been delivered as required by § 55.1-1809, the association shall, as to the purchaser, be bound by the statements set forth in the disclosure packet as to the status of the assessment account and the status of the lot with respect to any violation of the declaration, bylaws, rules and regulations, architectural guidelines, and articles of incorporation, if any, of the association as of the date of the statement unless the purchaser had actual knowledge that the contents of the disclosure packet were in error.

L. If the association or its common interest community manager has been requested in writing to furnish the association disclosure packet required by § 55.1-1809, failure to provide the association disclosure packet substantially in the form provided in this section shall be deemed a waiver of any claim for delinquent assessments or of any violation of the declaration, bylaws, rules and regulations, or architectural guidelines existing as of the date of the request with respect to the subject lot. The preparer of the association disclosure packet shall be liable to the seller in an amount equal to the actual damages sustained by the seller in an amount not to exceed \$1,000. The purchaser shall nevertheless be obligated to abide by the declaration, bylaws, rules and regulations, and architectural guidelines of the association as to all matters arising after the date of the settlement of the sale.

M. The Common Interest Community Board may assess a monetary penalty for failure to deliver the association disclosure packet within 14 days against any (i) property owners' association pursuant to § 54.1-2351 or (ii) common interest community manager pursuant to § 54.1-2349 and regulations promulgated thereto, and may issue a cease and desist order pursuant to ~~§ 54.1-2349 or 54.1-2352, as applicable.~~

N. No association may collect fees authorized by this section unless the association (i) is registered with the Common Interest Community Board, (ii) is current in filing the most recent annual report and fee with the Common Interest Community Board pursuant to § 55.1-1835, (iii) is current in paying any assessment made by the Common Interest Community Board pursuant to § 54.1-2354.5, and (iv) provides the disclosure packet electronically if so requested by the requester.

§ 55.1-1815. Access to association records; association meetings; notice.

A. The association shall keep detailed records of receipts and expenditures affecting the operation and administration of the association. All financial books and records shall be kept in accordance with generally accepted accounting practices.

B. Subject to the provisions of subsection C and so long as the request is for a proper purpose related to his membership in the association, all books and records kept by or on behalf of the association shall be available for examination and copying by a member in good standing or his authorized agent, including:

1. The association's membership list and addresses, which shall not be used for purposes of pecuniary gain or commercial solicitation; and

2. The actual salary of the six highest compensated employees of the association earning over \$75,000 and aggregate salary information of all other employees of the association; however, individual salary information shall not be available for examination and copying during the declarant control period.

Notwithstanding any provision of law to the contrary, this right of examination shall exist without reference to the duration of membership and may be exercised (i) only during reasonable business hours or at a mutually convenient time and location and (ii) upon five business days' written notice for an association managed by a common interest community manager and 10 business days' written notice for a self-managed association, which notice reasonably identifies the purpose for the request and the specific books and records of the association requested.

C. Books and records kept by or on behalf of an association may be withheld from inspection and copying to the extent that they concern:

1. Personnel matters relating to specific, identified persons or a person's medical records;
2. Contracts, leases, and other commercial transactions to purchase or provide goods or services, currently in or under negotiation;
3. Pending or probable litigation. For purposes of this subdivision, "probable litigation" means those instances where there has been a specific threat of litigation from a person ~~having standing to bring legal action~~ or the legal counsel of such person;
4. Matters involving state or local administrative or other formal proceedings before a government tribunal for enforcement of the association documents or rules and regulations promulgated pursuant to § 55.1-1819;
5. Communications with legal counsel that relate to subdivisions 1 through 4 or that are protected by the attorney-client privilege or the attorney work product doctrine;
6. Disclosure of information in violation of law;
7. Meeting minutes or other confidential records of an executive session of the board of directors held in accordance with subsection C of § 55.1-1816;
8. Documentation, correspondence, or management or board reports compiled for or on behalf of the association or the board by its agents or committees for consideration by the board in executive session; or
9. Individual lot owner or member files, other than those of the requesting lot owner, including any individual lot owner's or member's files kept by or on behalf of the association.

D. Books and records kept by or on behalf of an association shall be withheld from inspection and copying in their entirety only to the extent that an exclusion from disclosure under subsection C applies to the entire content of such books and records. Otherwise, only those portions of the books and records containing information subject to an exclusion under subsection C may be withheld or redacted, and all portions of the books and records that are not so excluded shall be available for examination and copying, provided that the requesting member shall be responsible to the association for paying or reimbursing the association for any reasonable costs incurred by the association in responding to the request for the books and records and review for redaction of the same.

E. Prior to providing copies of any books and records to a member in good standing under this section, the association may impose and collect a charge, reflecting the reasonable costs of materials and labor, not to exceed the actual costs of such materials and labor. Charges may be imposed only in accordance with a cost schedule adopted by the board of directors in accordance with this subsection. The cost schedule shall (i) specify the charges for materials and labor, (ii) apply equally to all members in good standing, and (iii) be provided to such requesting member at the time the request is made.

F. Notwithstanding the provisions of subsections B and C, all books and records of the association, including individual salary information for all employees and payments to independent contractors, shall be available for examination and copying upon request by a member of the board of directors in the discharge of his duties as a director.

G. Meetings of the association shall be held in accordance with the provisions of the bylaws at least once each year after the formation of the association. The bylaws shall specify an officer or his agent who shall, at least 14 days in advance of any annual or regularly scheduled meeting and at least seven days in advance of any other meeting, send to each member notice of the time, place, and purposes of such meeting. In the event of cancellation of any annual meeting of the association at which directors are elected, the seven-day notice of any subsequent meeting scheduled to elect such directors shall include a statement that the meeting is scheduled for the purpose of the election of directors.

Notice shall be sent by United States mail to all members at the address of their respective lots unless the member has provided to such officer or his agent an address other than the address of the member's lot. In lieu of sending such notice by United States mail, notice may instead be (i) hand delivered by the officer or his agent, provided that the officer or his agent certifies in writing that notice was delivered to the member, or (ii) sent to the member by electronic mail, provided that the member has elected to receive such notice by electronic mail and, in the event that such electronic mail is returned as undeliverable, notice is subsequently sent by United States mail. Except as provided in subdivision C 7, draft minutes of the board of directors shall be open for inspection and copying (a) within 60 days from the conclusion of the meeting to which such minutes appertain or (b) when such minutes are distributed to board members as part of an agenda package for the next meeting of the board of directors, whichever occurs first.

§ 55.1-1904. Association charges.

Except as expressly authorized in this chapter, in the condominium instruments, or as otherwise provided by law, no unit owners' association may make an assessment or impose a charge against a unit owner unless the charge is (i) authorized under § 55.1-1964, (ii) a fee for services provided, or (iii) related to the provisions set out in § 55.1-1992. The Common Interest Community Board may assess a monetary penalty for a violation of this section against any (a) unit owners' association pursuant to § 54.1-2351 or (b) common interest community manager pursuant to § 54.1-2349 and may issue a cease and desist order pursuant to § ~~54.1-2349 or 54.1-2352~~, as applicable.

§ 55.1-1906. Eminent domain.

A. If any portion of the common elements is taken by eminent domain, the award for such taking shall be paid to the unit owners' association, provided, however, that the portion of the award attributable to the taking of any permanently assigned limited common element shall be allocated by the order to the unit owner of the unit to which that limited common element was so assigned at the time of the taking. If that limited common element was permanently assigned to more than one unit at the time of the taking, then the portion of the award attributable to the taking of such limited common element shall be allocated in equal shares to the unit owners of the units to which it was so assigned or in such other shares as the condominium instruments may specify for this express purpose. A permanently assigned limited common element is a limited common element that cannot be reassigned or that can be reassigned only with the consent of the unit owner of the unit to which it is assigned in accordance with § 55.1-1919.

B. If one or more units are taken by eminent domain, the undivided interest in the common elements appertaining to any such unit shall thenceforth appertain to the remaining units, being allocated to them in proportion to their respective undivided interests in the common elements. The court shall enter an order reflecting the reallocation of undivided interests produced by such taking, and the award shall include just compensation to the unit owner of any unit taken for his undivided interest in the common elements as well as for his unit.

C. 1. If portions of any unit are taken by eminent domain, the court shall determine the fair market value of the portions of such unit not taken, and the undivided interest in the common elements appertaining to any such units shall be reduced, in the case of each such unit, in proportion to the diminution in the fair market value of such unit resulting from the taking.

2. The portions of undivided interest in the common elements thereby divested from the unit owners of any such units shall be reallocated among those units and the other units in the condominium in proportion to their respective undivided interests in the common elements, with any units partially taken participating in such reallocation on the basis of their undivided interests as reduced in accordance with subdivision 1.

3. The court shall enter an order reflecting the reallocation of undivided interests produced thereby, and the award shall include just compensation to the unit owner of any unit partially taken for that portion of his undivided interest in the common elements divested by operation of subdivision 1 and not revested by operation of subdivision 2, as well as for that portion of his unit taken by eminent domain.

D. If, however, the taking of a portion of any unit makes it impractical to use the remaining portion of that unit for any lawful purpose permitted by the condominium instruments, then the entire undivided interest in the common elements appertaining to that unit shall thenceforth appertain to the remaining units, being allocated to them in proportion to their respective undivided interests in the common elements, and the remaining portion of that unit shall thenceforth be a common element. The court shall enter an order reflecting the reallocation of undivided interests produced thereby, and the award shall include just compensation to the unit owner of such unit for his entire undivided interest in the common elements and for his entire unit.

E. Votes in the unit owners' association, rights to future common profits ~~surpluses~~, and liabilities for future common expenses not specially assessed, appertaining to any unit taken or partially taken by eminent domain, shall thenceforth appertain to the remaining units, being allocated to them in proportion to their relative voting strength in the unit owners' association, with any units partially taken participating in such reallocation as though their voting strength in the unit owners' association had been reduced in proportion to the reduction in their undivided interests in the common elements, and the order of the court shall provide accordingly.

F. The order of the court shall require the recordation of such order among the land records of the county or city in which the condominium is located.

§ 55.1-1911. Recordation of condominium instruments.

~~All amendments and certifications of condominium instruments shall set forth the name of the county or city in which the condominium is located and the deed book and page number where the first page of the declaration is recorded.~~ All condominium instruments and all amendments and certifications of such condominium instruments shall be recorded in every county and city in which any portion of the condominium is located. The condominium instruments, amendments, and certifications shall set forth the *county or city in which the condominium is located*, the name of the condominium, and either the deed book and page number where the first page of the declaration is recorded or the document number assigned to the declaration by the clerk.

§ 55.1-1919. Assignments of limited common elements; conversion to common element.

A. All assignments and reassignments of limited common elements shall be reflected by the condominium instruments. No limited common element shall be assigned or reassigned except in accordance with the provisions of this chapter. No amendment to any condominium instrument shall alter any rights or obligations with respect to any limited common elements without the consent of all unit owners adversely affected by such amendment as evidenced by their execution of such amendment, except to the extent that the condominium instruments expressly provided otherwise prior to the first assignment of that limited common element.

B. Unless expressly prohibited by the condominium instruments, a limited common element may be reassigned or converted to a common element upon written application of the unit owners concerned to the principal officer of the unit owners' association, or to such other officer as the condominium instruments may specify. The officer to whom such application is duly made shall forthwith prepare and execute an amendment to the declaration reassigning all rights and obligations with respect to the limited common element involved. Such amendment shall be executed by ~~at~~ ~~of~~ the unit

owners concerned and recorded by an officer of the unit owners' association or his agent following payment by the unit owners of the units concerned of all reasonable costs for the preparation, acknowledgment, and recordation of such amendment. The amendment is effective when recorded.

C. A common element not previously assigned as a limited common element shall be so assigned only pursuant to subdivision A 6 of § 55.1-1916. The amendment to the declaration making such an assignment shall be prepared and executed by the declarant, the principal officer of the unit owners' association, or by such other officer as the condominium instruments may specify. Such amendment shall be recorded by the declarant or his agent, without charge to any unit owner, or by an officer of the unit owners' association or his agent following payment by ~~att~~ of the unit owners of the units concerned of all reasonable costs for the preparation, acknowledgment, and recordation of such amendment. The amendment is effective when recorded, and the recordation of such amendment shall be conclusive evidence that the method prescribed pursuant to subdivision A 6 of § 55.1-1916 was adhered to. A copy of the amendment shall be delivered to the unit owners of the units concerned. If executed by the declarant, such an amendment recorded prior to July 1, 1983, shall not be invalid because it was not prepared by an officer of the unit owners' association.

D. If the declarant does not prepare and record an amendment to the declaration to effect the assignment of common elements as limited common elements in accordance with rights reserved in the condominium instruments, but has reflected an intention to make such assignments in deeds conveying units, then the principal officer of the unit owners' association may prepare, execute, and record such an amendment at any time after the declarant ceases to be a unit owner.

E. The declarant may unilaterally record an amendment to the declaration converting a limited common element appertenant to a unit owned by the declarant into a common element as long as the declarant continues to own the unit.

§ 55.1-1937. Termination of condominium.

A. If there is no unit owner other than the declarant, the declarant may unilaterally terminate the condominium. An instrument terminating a condominium signed by the declarant is effective upon recordation of such instrument. But this section shall not be construed to nullify, limit, or otherwise affect the validity or enforceability of any agreement renouncing or to renounce, in whole or in part, the right hereby conferred.

B. Except in the case of a taking of all the units by eminent domain, if any of the units in the condominium is restricted exclusively to residential use and there is any unit owner other than the declarant, the condominium may be terminated only by the agreement of unit owners of units to which four-fifths of the votes in the unit owners' association appertain, or such larger majority as the condominium instruments may specify. If none of the units in the condominium is restricted exclusively to residential use, the condominium instruments may specify a majority smaller than the minimum specified in this subsection.

C. Agreement of the required majority of unit owners to termination of the condominium shall be evidenced by their execution of a termination agreement, or ratifications of such agreement, and such agreement is effective when a copy of the termination agreement is recorded together with a certification, signed by the principal officer of the unit owners' association or by such other officer as the condominium instruments may specify, that the requisite majority of the unit owners signed the termination agreement or ratifications. Unless the termination agreement otherwise provides, prior to recordation of the termination agreement, a unit owner's prior agreement to terminate the condominium may be revoked only with the approval of unit owners of units to which a majority of the votes in the unit owners' association appertain. The termination agreement shall specify a date after which the termination agreement is void if the termination agreement is not recorded. For the purposes of this section, an instrument terminating a condominium and any ratification of such instrument shall be deemed a condominium instrument subject to the provisions of § 55.1-1911.

D. In the case of a condominium that contains only units having horizontal boundaries described in the condominium instruments, a termination agreement may provide that all of the common elements and units of the condominium shall be sold following termination. If, pursuant to the termination agreement, any property in the condominium is sold following termination, the termination agreement shall set forth the minimum terms of the sale.

E. In the case of a condominium that contains any units not having horizontal boundaries described in the condominium instruments, a termination agreement may provide for sale of the common elements. The termination agreement may not require that the units be sold following termination, unless the condominium instruments as originally recorded provide otherwise or all the unit owners consent to the sale. In the case of a master condominium that contains a unit that is a part of another condominium, a termination agreement for the master condominium shall not terminate the other condominium.

F. On behalf of the unit owners, the unit owners' association may contract for the disposition of property in the condominium, but the contract shall not be binding on the unit owners until approved pursuant to subsections B and C. If the termination agreement requires that any property in the condominium be sold following termination, title to the property, upon termination, shall vest in the unit owners' association as trustee for the holders of all interest in the units. Thereafter, the unit owners' association shall have powers necessary and appropriate to effect the sale. Until the termination has been concluded and the proceeds have been distributed, the unit owners' association shall continue in existence with all the powers the unit owners' association had before termination. Proceeds of the sale shall be distributed to unit owners and lien holders as their interests may appear, in proportion to the respective interests of the unit owners as provided in subsection I. Unless otherwise specified in the termination agreement, for as long as the unit owners' association holds title to the property, each unit owner or his successor in interest shall have an exclusive right to occupancy of the portion of the property that formerly constituted his unit. During the period of occupancy by the unit owner or his successor in interest,

each unit owner or his successor in interest shall remain liable for any assessment or other obligation imposed on the unit owner by this chapter or the condominium instruments.

G. If the property that constitutes the condominium is not sold following termination, title to the common elements and, in the case of a condominium containing only units that have horizontal boundaries described in the condominium instruments, title to all the property in the condominium shall vest in the unit owners, upon termination, as tenants in common in proportion to the unit owners' respective interests as provided in subsection I. Any liens on the units shall shift accordingly. While the tenancy in common exists, each unit owner or his successor in interest shall have the exclusive right to occupancy of the portion of the property that formerly constituted the unit owner's unit.

H. Following termination of the condominium, the proceeds of any sale of property, together with the assets of the unit owners' association, shall be held by the unit owners' association as trustee for unit owners or lien holders on the units as their interests may appear. Following termination, any creditor of the unit owners' association who holds a lien on the unit that was recorded before termination may enforce the lien in the same manner as any lien holder. Any other creditor of the unit owners' association shall be treated as if he had perfected a lien on the units immediately before termination.

I. Unless the condominium instruments as originally recorded or as amended by 100 percent of the unit owners provide otherwise, the respective interests of unit owners referred to in subsections F, G, and H shall be as follows:

1. Except as provided in subdivision 2, the respective interests of the unit owners shall be the fair market values of their units, limited common elements, and common element interests immediately before the termination, as determined by one or more independent appraisers selected by the unit owners' association. The decision of the independent appraisers shall be distributed to the unit owners and become final unless disapproved within 30 days after distribution by unit owners of units to which one quarter of the votes in the unit owners' association appertain. The proportion of any unit owner's interest to the interest of all unit owners is determined by dividing the fair market value of that unit owner's unit and common element interest by the total fair market values of all the units and their common element interests.

2. If any unit or limited common element is destroyed to the extent that an appraisal of the fair market value of such unit or limited common element before destruction cannot be made, the interests of all unit owners are the unit owners' respective common element interests immediately before the termination.

J. Except as provided in subsection K, foreclosure of any mortgage, deed of trust, or other lien, or enforcement of a lien or encumbrance against the entire condominium, shall not alone terminate the condominium, and foreclosure or enforcement of a lien or encumbrance against a portion of the condominium, other than withdrawable land, shall not withdraw that portion from the condominium. Foreclosure or enforcement of a lien or encumbrance against withdrawable land shall not alone withdraw the land from the condominium, but the person who takes title to the withdrawable land shall have the right to require from the unit owners' association, upon request, an amendment that excludes the land from the condominium.

K. If a lien or encumbrance against a portion of the property that comprises the condominium has priority over the condominium instruments and the lien or encumbrance has not been partially released, upon foreclosure, the parties foreclosing the lien or encumbrance may record an instrument that excludes the property subject to the lien or encumbrance from the condominium.

~~L. The foreclosure of any mortgage, deed of trust, or other lien shall not be deemed, ex proprio vigore, to terminate the condominium.~~

§ 55.1-1940. Bylaws to be recorded with declaration; contents; unit owners' association; executive board; amendment of bylaws.

A. Bylaws providing for governance of the condominium by an association of all of the unit owners shall be recorded simultaneously with the declaration. The unit owners' association may be incorporated.

B. The bylaws shall provide whether or not the unit owners' association shall elect an executive board. If there is to be such a board, the bylaws shall specify the powers and responsibilities of the board and the number and terms of its members. Except to the extent the condominium instruments provide otherwise, any vacancy occurring in the executive board shall be filled by a vote of a majority of the remaining members of the executive board at a meeting of the executive board, even though the members of the executive board present at such meeting may constitute less than a quorum because a quorum is impossible to obtain. Each person so elected shall serve until the next annual meeting of the unit owners' association at which time a successor shall be elected by a vote of the unit owners. The bylaws may delegate to such board, inter alia, any of the powers and responsibilities assigned by this chapter to the unit owners' association. The bylaws shall also specify which, if any, of its powers and responsibilities the unit owners' association or its executive board may delegate to a managing agent.

C. The bylaws may provide for arbitration of disputes or other means of alternative dispute resolution in accordance with subsection C of § 55.1-1915.

D. In any case where an amendment to the declaration is required by subsection B, C, or D of § 55.1-1918, the person required to execute such amendment shall also prepare and execute, and record simultaneously with such amendment, an amendment to the bylaws. The amendment to the bylaws shall allocate votes in the unit owners' association to new units on the same basis as was used for the allocation of such votes to the units depicted on plats and plans recorded pursuant to subsections A and B of § 55.1-1920 or shall abolish the votes appertaining to former units, as appropriate. The amendment to the bylaws shall also reallocate rights to future common profits surpluses, and liabilities for future common expenses not specially assessed, in proportion to relative voting strengths as reflected by the amendment.

§ 55.1-1945. Books, minutes, and records; inspection.

A. The declarant, managing agent, unit owners' association, or person specified in the bylaws of the association shall keep detailed records of the receipts and expenditures affecting the operation and administration of the condominium and specifying the maintenance and repair expenses of the common elements and any other expenses incurred by or on behalf of the association. Subject to the provisions of subsections B, C, and E, upon request, any unit owner shall be provided a copy of such records and minutes. All financial books and records shall be kept in accordance with generally accepted accounting practices.

B. Subject to the provisions of subsection C, all books and records kept by or on behalf of the unit owners' association, including the unit owners' association membership list, and addresses and aggregate salary information of unit owners' association employees, shall be available for examination and copying by a unit owner in good standing or his authorized agent so long as the request is for a proper purpose related to his membership in the unit owners' association and not for pecuniary gain or commercial solicitation. Notwithstanding any provision of law to the contrary, this right of examination shall exist without reference to the duration of membership and may be exercised (i) only during reasonable business hours or at a mutually convenient time and location and (ii) upon five business days' written notice for a unit owner association managed by a common interest community manager and 10 business days' written notice for a self-managed unit owners' association, which notice shall reasonably identify the purpose for the request and the specific books and records of the unit owners' association requested.

C. Books and records kept by or on behalf of a unit owners' association may be withheld from examination or copying by unit owners and contract purchasers to the extent that they are drafts not yet incorporated into the books and records of the unit owners' association or if such books and records concern:

1. Personnel matters relating to specific, identified persons or a person's medical records;
2. Contracts, leases, and other commercial transactions to purchase or provide goods or services, currently in or under negotiation;
3. Pending or probable litigation. For purposes of this subdivision, "probable litigation" means those instances where there has been a specific threat of litigation from a person ~~having standing to bring legal action~~ or the legal counsel of such person;
4. Matters involving state or local administrative or other formal proceedings before a government tribunal for enforcement of the condominium instruments or rules and regulations promulgated by the executive board;
5. Communications with legal counsel that relate to subdivisions 1 through 4 or that are protected by the attorney-client privilege or the attorney work product doctrine;
6. Disclosure of information in violation of law;
7. Meeting minutes or other confidential records of an executive session of the executive board held pursuant to subsection C of § 55.1-1949;
8. Documentation, correspondence or management or executive board reports compiled for or on behalf of the unit owners' association or the executive board by its agents or committees for consideration by the executive board in executive session; or
9. Individual unit owner or member files, other than those of the requesting unit owner, including any individual unit owner's files kept by or on behalf of the unit owners' association.

D. Books and records kept by or on behalf of a unit owners' association shall be withheld from examination and copying in their entirety only to the extent that an exclusion from disclosure under subsection C applies to the entire content of such books and records. Otherwise, only those portions of the books and records containing information subject to an exclusion under subsection C may be withheld or redacted, and all portions of the books and records that are not so excluded shall be available for examination and copying, provided that the requesting member shall be responsible to the association for paying or reimbursing the association for any reasonable costs incurred by the association in responding to the request for the books and records and review for redaction of the same.

E. Prior to providing copies of any books and records, the unit owners' association may impose and collect a charge, not to exceed the reasonable costs of materials and labor, incurred to provide such copies. Charges may be imposed only in accordance with a cost schedule adopted by the executive board in accordance with this subsection. The cost schedule shall (i) specify the charges for materials and labor, (ii) apply equally to all unit owners in good standing, and (iii) be provided to such requesting unit owner at the time the request is made.

§ 55.1-1974. Limitations on dispositions of units.

Unless exempt by § 55.1-1972:

1. No declarant may offer or dispose of any interest in a condominium unit located in the Commonwealth, nor offer or dispose of in the Commonwealth any interest in a condominium unit located outside of the Commonwealth prior to the time the condominium including such unit is registered in accordance with this chapter.

2. No declarant may dispose of any interest in a condominium unit unless he delivers to the purchaser a current public offering statement by the time of such disposition and such disposition is expressly and without qualification or condition subject to cancellation by the purchaser within five calendar days from the contract date of the disposition or delivery of the current public offering statement, whichever is later. If the purchaser elects to cancel, he may do so by notice of such cancellation hand-delivered or sent by United States mail, return receipt requested, to the declarant. Such cancellation shall be without penalty, and any deposit made by the purchaser shall be promptly refunded in its entirety.

3. The purchaser's right to cancel the purchase contract pursuant to subdivision 2 shall be set forth on the first page of the purchase contract in boldface print of not less than 12-point type.

4. The prospective purchaser may cancel a *nonbinding reservation agreement* by written notice, hand-delivered or sent by United States mail, return receipt requested, to the declarant or to any sales agent of the declarant at any time prior to the formation of a contract for the sale or lease of a condominium unit or an interest in such unit. Such agreement shall not contain any provision for waiver or any other provision in derogation of the rights of the prospective purchaser as contemplated by this section, nor shall any such provision be a part of any ancillary agreement.

CHAPTER 593

An Act to amend and reenact § 16.1-292 of the Code of Virginia, relating to juvenile confinement for violation of court order.

[H 1437]

Approved April 2, 2020

Be it enacted by the General Assembly of Virginia:

1. That § 16.1-292 of the Code of Virginia is amended and reenacted as follows:

§ 16.1-292. Violation of court order by any person.

A. Any person violating an order of the juvenile court entered pursuant to §§ 16.1-278.2 through 16.1-278.19 or § 16.1-284, including a parent subject to an order issued pursuant to subdivision 3 of § 16.1-278.8, may be proceeded against (i) by an order requiring the person to show cause why the order of the court entered pursuant to §§ 16.1-278.2 through 16.1-278.19 has not been complied with, (ii) for contempt of court pursuant to § 16.1-69.24 or as otherwise provided in this section, or (iii) by both. Except as otherwise expressly provided herein, nothing in this chapter shall deprive the court of its power to punish summarily for contempt for such acts as set forth in § 18.2-456, or to punish for contempt after notice and an opportunity for a hearing on the contempt except that confinement in the case of a juvenile shall be in a secure facility for juveniles rather than in jail and shall not exceed a period of ~~ten~~ *seven* days for each offense. However, if the person violating the order was a juvenile at the time of the original act and is ~~eighteen~~ *18* years of age or older when the court enters a disposition for violation of the order, the judge may order confinement in jail. *If a juvenile is found to have violated a court order as a status offender, any order of disposition of such violation confining the juvenile in a secure facility for juveniles shall (a) identify the valid court order that has been violated; (b) specify the factual basis for determining that there is reasonable cause to believe that the juvenile has violated such order; (c) state the findings of fact that support a determination that there is no appropriate less restrictive alternative available to placing the juvenile in such a facility, with due consideration to the best interest of the juvenile; (d) specify the length of time of such confinement, not to exceed seven days; and (e) include a plan for the juvenile's release from such facility. Such order of confinement shall not be renewed or extended.*

B. Upon conviction of any party for contempt of court in failing or refusing to comply with an order of a juvenile court for spousal support or child support under § 16.1-278.15, the court may commit and sentence such party to confinement in a jail, workhouse, city farm, or work squad as provided in §§ 20-61 and 20-62, for a fixed or indeterminate period or until the further order of the court. In no event, however, shall such sentence be imposed for a period of more than ~~twelve~~ *12* months. The sum or sums as provided for in § 20-63 shall be paid as therein set forth, to be used for the support and maintenance of the spouse or the child or children for whose benefit such order or decree provided.

C. Notwithstanding the contempt power of the court, the court shall be limited in the actions it may take with respect to a child violating the terms and conditions of an order to those which the court could have taken at the time of the court's original disposition pursuant to §§ 16.1-278.2 through 16.1-278.10, except as hereinafter provided. However, this limitation shall not be construed to deprive the court of its power to (i) punish a child summarily for contempt for acts set forth in § 18.2-456 *subject to the provisions of subsection A* or (ii) punish a child for contempt for violation of a dispositional order in a delinquency proceeding after notice and an opportunity for a hearing regarding such contempt, including acts of disobedience of the court's dispositional order which are committed outside the presence of the court.

D. In the event a child in need of services is found to have willfully and materially violated for a second or subsequent time the order of the court pursuant to § 16.1-278.4, the dispositional alternatives specified in subdivision 9 of § 16.1-278.8 shall be available to the court.

E. In the event *that* a child in need of supervision is found to have willfully and materially violated an order of the court pursuant to § 16.1-278.5, the court may enter any of the following orders of disposition:

1. Suspend the child's motor vehicle driver's license;

2. Order any such child ~~fourteen~~ *14* years of age or older to be (i) placed in a foster home, group home, or other nonsecure residential facility; or, (ii) if the court finds that such placement is not likely to meet the child's needs, that all other treatment options in the community have been exhausted, and that secure placement is necessary in order to meet the child's service needs, detained in a secure facility for a period of time not to exceed ~~ten~~ *seven* consecutive days for violation of any order of the court arising out of the same petition. The court shall state in its order for detention the basis for all findings required by this section. *In addition, any order of disposition for such violation confining the child in a secure facility for juveniles shall (a) identify the valid court order that has been violated; (b) specify the factual basis for*

determining that there is reasonable cause to believe that the child has violated such order; (c) state the findings of fact that support a determination that there is no appropriate less restrictive alternative available to placing the child in such a facility, with due consideration to the best interest of the child; (iv) specify the length of time of such confinement, not to exceed seven days; and (v) include a plan for the child's release from such facility. Such order of confinement shall not be renewed or extended. When any child is detained in a secure facility pursuant to this section, the court shall direct the agency evaluating the child pursuant to § 16.1-278.5 to reconvene the interdisciplinary team participating in such evaluation as promptly as possible to review its evaluation, develop further treatment plans as may be appropriate and submit its report to the court for its determination as to further treatment efforts either during or following the period the child is in secure detention. A juvenile may only be detained pursuant to this section in a detention home or other secure facility in compliance with standards established by the State Board. Any order issued pursuant to this subsection is a final order and is appealable to the circuit court as provided by law.

F. Nothing in this section shall be construed to reclassify a child in need of services or in need of supervision as a delinquent.

Expenditures and disbursements from the Fund shall be made by the State Treasurer on warrants issued by the Comptroller pursuant to subsection F.

C. A qualified company shall be eligible to receive grants each fiscal year beginning with the Commonwealth's fiscal year starting on July 1, 2020, and ending with the Commonwealth's fiscal year starting on July 1, 2029, unless such timeframe is extended in accordance with a memorandum of understanding. § 38.2-3418.17. Coverage for autism spectrum disorder.

A. Notwithstanding the provisions of § 38.2-3419 and any other provision of law, each insurer proposing to issue accident and sickness insurance policies providing hospital, medical and surgical, or major medical coverage on an expense-incurred basis; each corporation providing accident and sickness subscription contracts; and each health maintenance organization providing a health care plan for health care services shall, as provided in this section, provide coverage for the diagnosis of autism spectrum disorder and the treatment of autism spectrum disorder, in individuals (i) from January 1, 2012, until January 1, 2016, from age two years through age six years; (ii) from January 1, 2016, until January 1, 2020, from age two years through age 10 years; and (iii) from and after January 1, 2020, of any age, subject to the

annual maximum benefit limitation set forth in subsection K and to the provisions of subsection G. If an individual who is being treated for autism spectrum disorder becomes older than the applicable maximum age set forth in the preceding sentence and continues to need treatment, this section does not preclude coverage of treatment and services. In addition to the requirements imposed on health insurance issuers by § 38.2-3436, an insurer shall not terminate coverage or refuse to deliver, issue, amend, adjust, or renew coverage of an individual solely because the individual is diagnosed with autism spectrum disorder or has received treatment for autism spectrum disorder.

The cost of obtaining any review, including an independent review, shall be covered under the policy, contract, or plan.

D. Coverage under this section will not be subject to any visit limits, and shall be neither different nor separate from coverage for any other illness, condition, or disorder for purposes of determining deductibles, lifetime dollar limits, copayment and coinsurance factors, and benefit year maximum for deductibles and copayment and coinsurance factors.

E. Nothing shall preclude the undertaking of usual and customary procedures, including prior authorization, to determine the appropriateness of, and medical necessity for, treatment of autism spectrum disorder under this section, provided that all such appropriateness and medical necessity determinations are made in the same manner as those determinations are made for the treatment of any other illness, condition, or disorder covered by such policy, contract, or plan.

F. H. Any coverage required pursuant to this section shall be in addition to the coverage required by § 38.2-3418.5 and other provisions of law. This section shall not be construed as diminishing any coverage required by § 38.2-3412.1. This section shall not be construed as affecting any obligation to provide services to an individual under an individualized family service plan, an individualized education program, or an individualized service plan.

I. Pursuant to the provisions of § 2.2-2818.2, this section shall apply to health coverage offered to state employees pursuant to § 2.2-2818 and to health insurance coverage offered to employees of local governments, local officers, teachers, and retirees, and the dependents of such employees, teachers, and retirees pursuant to § 2.2-1204.

(2) Those costs solely would lead to an increase in average premiums charged of more than one percent for all insurance policies, subscription contracts, or health care plans commencing on inception or the next renewal date, based on the premium rating methodology and practices the insurer, corporation, or health maintenance organization, or such governmental entity, employs; and

b. The Commissioner approves the certification of the actuary;

2. An exemption allowed under subdivision 1 shall apply for a one-year coverage period following inception or next renewal date of all insurance policies, subscription contracts, or health care plans issued or renewed during the one-year period following the date of the exemption, after which the insurer, corporation, or health maintenance organization, or such governmental entity, shall again provide coverage for behavioral health treatment required under this section;

3. An insurer, corporation, or health maintenance organization, or such governmental entity, may claim an exemption for a subsequent year, but only if the conditions specified in subdivision 1 again are met; and

CHAPTER 618

An Act to amend and reenact § 2.2-4303.1 of the Code of Virginia, relating to the Virginia Public Procurement Act; architectural and professional engineering term contracts; limitations on project fees; localities.

[S 368]

Be it enacted by the General Assembly of Virginia:

1. That § 2.2-4303.1 of the Code of Virginia is amended and reenacted as follows:

§ 2.2-4303.1. Architectural and professional engineering term contracting; limitations.

A. A contract for architectural or professional engineering services relating to multiple construction projects may be awarded by a public body, provided (i) the projects require similar experience and expertise, (ii) the nature of the projects is clearly identified in the Request for Proposal, and (iii) the contract is limited to a term of one year or when the cumulative total project fees reach the maximum authorized in this section, whichever occurs first.

Such contracts may be renewable for four additional one-year terms at the option of the public body. The fair and reasonable prices as negotiated shall be used in determining the cost of each project performed.

B. The sum of all projects performed in a one-year contract term shall not exceed \$750,000, except that for:

1. A state agency, as defined in § 2.2-4347, the sum of all projects performed in a one-year contract term shall not exceed \$1 million;

Such contract may be renewable for two additional one-year terms at the option of the Commissioner, and the sum of all projects in each one-year contract term shall not exceed \$5 million.

C. Competitive negotiations for such architectural or professional engineering services contracts may result in awards to more than one offeror, provided (i) the Request for Proposal so states and (ii) the public body has established procedures for distributing multiple projects among the selected contractors during the contract term. Such procedures shall prohibit requiring the selected contractors to compete for individual projects based on price.

D. The fee for any single project shall not exceed \$150,000; however, for architectural or engineering services for airports as defined in § 5.1-1 and aviation transportation projects, the project fee of any single project shall not exceed \$500,000, except that for:

1. Certification from the governing body of the county, city or town in which the facility is to be located that the location and operation of the facility are consistent with all applicable ordinances. The governing body shall inform the applicant and the Department of the facility's compliance or noncompliance not more than 120 days from receipt of a request from the applicant. No such certification shall be required for the application for the renewal of a permit or transfer of a permit as authorized by regulations of the Board;

2. A disclosure statement, except that the Director, upon request and in his sole discretion, and when in his judgment other information is sufficient and available, may waive the requirement for a disclosure statement for a captive industrial landfill when such a statement would not serve the purposes of this chapter;

3. If the applicant proposes to locate the facility on property not governed by any county, city or town zoning ordinance, certification from the governing body that it has held a public hearing, in accordance with the applicable provisions of § 15.2-2204, to receive public comment on the proposed facility. Such certification shall be provided to the applicant and the Department within 120 days from receipt of a request from the applicant;

4. If the applicant proposes to operate a new sanitary landfill or transfer station, a statement, including a description of the steps taken by the applicant to seek the comments of the residents of the area where the sanitary landfill or transfer station is proposed to be located, regarding the siting and operation of the proposed sanitary landfill or transfer station. The public comment steps shall be taken prior to filing with the Department the notice of intent to apply for a permit for the sanitary landfill or transfer station as required by the Department's solid waste management regulations. The public comment steps shall include publication of a public notice once a week for two consecutive weeks in a newspaper of general circulation serving the locality where the sanitary landfill or transfer station is proposed to be located and holding at least one public meeting within the locality to identify issues of concern, to facilitate communication and to establish a dialogue between the applicant and persons who may be affected by the issuance of a permit for the sanitary landfill or transfer station. The public notice shall include a statement of the applicant's intent to apply for a permit to operate the proposed sanitary landfill or transfer station, the proposed sanitary landfill or transfer station site location, the date, time and location of the public meeting the applicant will hold and the name, address and telephone number of a person employed by the applicant, who can be contacted by interested persons to answer questions or receive comments on the siting and operation of the proposed sanitary landfill or transfer station. The provisions of this subdivision shall not apply to applicants for a permit to operate a new captive industrial landfill or a new construction-demolition-debris landfill;

5. If the applicant is a local government or public authority that proposes to operate a new municipal sanitary landfill or transfer station, a statement, including a description of the steps taken by the applicant to seek the comments of the residents of the area where the sanitary landfill or transfer station is proposed to be located, regarding the siting and operation of the proposed sanitary landfill or transfer station. The public comment steps shall include the formation of a citizens' advisory group to assist the locality or public authority with the selection of a proposed site for the sanitary landfill or transfer station, publication of a public notice once a week for two consecutive weeks in a newspaper of general circulation serving the locality where the sanitary landfill or transfer station is proposed to be located, and holding at least one public meeting within the locality to identify issues of concern, to facilitate communication and to establish a dialogue between the applicant and persons who may be affected by the issuance of a permit for the sanitary landfill or transfer station. The public notice shall include a statement of the applicant's intent to apply for a permit to operate the proposed sanitary landfill or transfer station, the proposed sanitary landfill or transfer station site location, the date, time and location of the public meeting the applicant will hold and the name, address and telephone number of a person employed by the applicant, who can be contacted by interested persons to answer questions or receive comments on the siting and operation of the proposed sanitary landfill or transfer station. The first publication of the public notice shall be at least fourteen days prior to the public meeting date. For local governments that have zoning ordinances, such public comment steps as required under §§ 15.2-2204 and 15.2-2285 shall satisfy the public comment requirements for public hearings and public notice as required under this section. Any applicant which is a local government or public authority that proposes to operate a new transfer station on land where a municipal sanitary landfill is already located shall be exempt from the public comment requirements for public hearing and public notice otherwise required under this section;

6. If the application is for a new municipal solid waste landfill or for an expansion of an existing municipal solid waste landfill, a statement, signed by the applicant, guaranteeing that sufficient disposal capacity will be available in the facility to enable localities within the Commonwealth to comply with solid waste management plans developed pursuant to § 10.1-1411, and certifying that such localities will be allowed to contract for and to reserve disposal capacity in the facility. This provision shall not apply to permit applications from one or more political subdivisions for new landfills or expanded landfills that will only accept municipal solid waste generated within those political subdivisions' jurisdiction or municipal solid waste generated within other political subdivisions pursuant to an interjurisdictional agreement;

7. If the application is for a new municipal solid waste landfill or for an expansion of an existing municipal solid waste landfill, certification from the governing body of the locality in which the facility would be located that a host agreement has been reached between the applicant and the governing body unless the governing body or a public service authority of which the governing body is a member would be the owner and operator of the landfill. The agreement shall, at a minimum, have provisions covering (i) the amount of financial compensation the applicant will provide the host locality, (ii) daily travel routes and traffic volumes, (iii) the daily disposal limit, and (iv) the anticipated service area of the facility. The host agreement shall contain a provision that the applicant will pay the full cost of at least one full-time employee of the locality whose responsibility it will be to monitor and inspect waste transportation and disposal practices in the locality. The host agreement shall also provide that the applicant shall, when requested by the host locality, split air and water samples so that

the host locality may independently test the sample, with all associated costs paid for by the applicant. All such sampling results shall be provided to the Department. For purposes of this subdivision, "host agreement" means any lease, contract, agreement or land use permit entered into or issued by the locality in which the landfill is situated which includes terms or conditions governing the operation of the landfill;

8. If the application is for a locality-owned and locality-operated new municipal solid waste landfill or for an expansion of an existing such municipal solid waste landfill, information on the anticipated (i) daily travel routes and traffic volumes, (ii) daily disposal limit, and (iii) service area of the facility; and

9. If the application is for a new solid waste management facility permit or for modification of a permit to allow an existing solid waste management facility to expand or increase its capacity, the application shall include certification from the governing body for the locality in which the facility is or will be located that: (i) the proposed new facility or the expansion or increase in capacity of the existing facility is consistent with the applicable local or regional solid waste management plan developed and approved pursuant to § 10.1-1411; or (ii) the local government or solid waste management planning unit has initiated the process to revise the solid waste management plan to include the new or expanded facility. Inclusion of such certification shall be sufficient to allow processing of the permit application, up to but not including publication of the draft permit or permit amendment for public comment, but shall not bind the Director in making the determination required by subdivision D 1.

C. Notwithstanding any other provision of law:

1. Every holder of a permit issued under this article who has not earlier filed a disclosure statement shall, prior to July 1, 1991, file a disclosure statement with the Director.

2. Every applicant for a permit under this article shall file a disclosure statement with the Director, together with the permit application or prior to September 1, 1990, whichever comes later. No permit application shall be deemed incomplete for lack of a disclosure statement prior to September 1, 1990.

3. Every applicant shall update its disclosure statement quarterly to indicate any change of condition that renders any portion of the disclosure statement materially incomplete or inaccurate.

4. The Director, upon request and in his sole discretion, and when in his judgment other information is sufficient and available, may waive the requirements of this subsection for a captive industrial waste landfill when such requirements would not serve the purposes of this chapter.

D. 1. Except as provided in subdivision D 2, no permit for a new solid waste management facility nor any amendment to a permit allowing facility expansion or an increase in capacity shall be issued until the Director has determined, after an investigation and analysis of the potential human health, environmental, transportation infrastructure, and transportation safety impacts and needs and an evaluation of comments by the host local government, other local governments and interested persons, that (i) the proposed facility, expansion, or increase protects present and future human health and safety and the environment; (ii) there is a need for the additional capacity; (iii) sufficient infrastructure will exist to safely handle the waste flow; (iv) the increase is consistent with locality-imposed or state-imposed daily disposal limits; (v) the public interest will be served by the proposed facility's operation or the expansion or increase in capacity of a facility; and (vi) the proposed solid waste management facility, facility expansion, or additional capacity is consistent with regional and local solid waste management plans developed pursuant to § 10.1-1411. The Department shall hold a public hearing within the said county, city or town prior to the issuance of any such permit for the management of nonhazardous solid waste. Subdivision D 2, in lieu of this subdivision, shall apply to nonhazardous industrial solid waste management facilities owned or operated by the generator of the waste managed at the facility, and that accept only waste generated by the facility owner or operator. The Board shall have the authority to promulgate regulations to implement this subdivision.

2. No new permit for a nonhazardous industrial solid waste management facility that is owned or operated by the generator of the waste managed at the facility, and that accepts only waste generated by the facility owner or operator, shall be issued until the Director has determined, after investigation and evaluation of comments by the local government, that the proposed facility poses no substantial present or potential danger to human health or the environment. The Department shall hold a public hearing within the county, city or town where the facility is to be located prior to the issuance of any such permit for the management of nonhazardous industrial solid waste.

E. The permit shall contain such conditions or requirements as are necessary to comply with the requirements of this Code and the regulations of the Board and to protect present and future human health and the environment. To the extent allowed by federal law, any person holding a permit that is intending to upgrade the permitted solid waste management facility by installing technology, control equipment, or other apparatus that the permittee demonstrates to the satisfaction of the Director will result in improved energy efficiency, protect waters of the state, including both surface and ground water, and protect air quality shall not be required to obtain a modified or amended permit.

The Director may include in any permit such recordkeeping, testing and reporting requirements as are necessary to ensure that the local governing body of the county, city or town where the waste management facility is located is kept timely informed regarding the general nature and quantity of waste being disposed of at the facility. Such recordkeeping, testing and reporting requirements shall require disclosure of proprietary information only as is necessary to carry out the purposes of this chapter. At least once every ten years, the Director shall review and issue written findings on the environmental compliance history of each permittee, material changes, if any, in key personnel, and technical limitations, standards, or regulations on which the original permit was based. The time period for review of each category of permits shall be established by Board regulation. If, upon such review, the Director finds that repeated material or substantial

violations of the permittee or material changes in the permittee's key personnel would make continued operation of the facility not in the best interests of human health or the environment, the Director shall amend or revoke the permit, in accordance herewith. Whenever such review is undertaken, the Director may amend the permit to include additional limitations, standards, or conditions when the technical limitations, standards, or regulations on which the original permit was based have been changed by statute or amended by regulation or when any of the conditions in subsection B of § 10.1-1409 exist. The Director may deny, revoke, or suspend any permit for any of the grounds listed under subsection A of § 10.1-1409.

F. There shall exist no right to operate a landfill or other facility for the disposal, treatment or storage of nonhazardous solid waste or hazardous waste within the Commonwealth. Permits for solid waste management facilities shall not be transferable except as authorized in regulations promulgated by the Board. The issuance of a permit shall not convey or establish any property rights or any exclusive privilege, nor shall it authorize any injury to private property or any invasion of personal rights or any infringement of federal, state, or local law or regulation.

G. No person shall dispose of solid waste in *an open ~~dumps~~ dump or dispose of or manage solid waste in an unpermitted facility, including by disposing, causing to be disposed, or arranging for the disposal of solid waste upon a property for which the Director has not issued a permit and that is not otherwise exempt from permitting requirements.*

H. No person shall own, operate or allow to be operated on his property an open dump.

I. No person shall allow waste to be disposed of on his property without a permit. Any person who removes trees, brush, or other vegetation from land used for agricultural or forestal purposes shall not be required to obtain a permit if such material is deposited or placed on the same or other property of the same landowner from which such materials were cleared. The Board shall by regulation provide for other reasonable exemptions from permitting requirements for the disposal of trees, brush and other vegetation when such materials are removed for agricultural or forestal purposes.

When promulgating any regulation pursuant to this section, the Board shall consider the character of the land affected, the density of population, and the volume of waste to be disposed, as well as other relevant factors.

J. No permit shall be required pursuant to this section for recycling or for temporary storage incidental to recycling. As used in this subsection, "recycling" means any process whereby material which would otherwise be solid waste is used or reused, or prepared for use or reuse, as an ingredient in an industrial process to make a product, or as an effective substitute for a commercial product.

K. The Board shall provide for reasonable exemptions from the permitting requirements, both procedural and substantive, in order to encourage the development of yard waste composting facilities. To accomplish this, the Board is authorized to exempt such facilities from regulations governing the treatment of waste and to establish an expedited approval process. Agricultural operations receiving only yard waste for composting shall be exempt from permitting requirements provided that (i) the composting area is located not less than 300 feet from a property boundary, is located not less than 1,000 feet from an occupied dwelling not located on the same property as the composting area, and is not located within an area designated as a flood plain as defined in § 10.1-600; (ii) the agricultural operation has at least one acre of ground suitable to receive yard waste for each 150 cubic yards of finished compost generated; (iii) the total time for the composting process and storage of material that is being composted or has been composted shall not exceed eighteen months prior to its field application or sale as a horticultural or agricultural product; and (iv) the owner or operator of the agricultural operation notifies the Director in writing of his intent to operate a yard waste composting facility and the amount of land available for the receipt of yard waste. In addition to the requirements set forth in clauses (i) through (iv) of the preceding sentence, the owner and operator of any agricultural operation that receives more than 6,000 cubic yards of yard waste generated from property not within the control of the owner or the operator in any twelve-month period shall be exempt from permitting requirements provided (i) the owner and operator submit to the Director an annual report describing the volume and types of yard waste received by such operation for composting and (ii) the operator shall certify that the yard waste composting facility complies with local ordinances. The Director shall establish a procedure for the filing of the notices, annual reports and certificates required by this subsection and shall prescribe the forms for the annual reports and certificates. Nothing contained in this article shall prohibit the sale of composted yard waste for horticultural or agricultural use, provided that any composted yard waste sold as a commercial fertilizer with claims of specific nutrient values, promoting plant growth, or of conditioning soil shall be sold in accordance with Chapter 36 (§ 3.2-3600 et seq.) of Title 3.2. As used in this subsection, "agricultural operation" shall have the same meaning ascribed to it in § 3.2-300.

The operation of a composting facility as provided in this subsection shall not relieve the owner or operator of such a facility from liability for any violation of this chapter.

L. The Board shall provide for reasonable exemptions from the permitting requirements, both procedural and substantive, in order to encourage the development of facilities for the decomposition of vegetative waste. To accomplish this, the Board shall approve an expedited approval process. As used in this subsection, the decomposition of vegetative waste means a natural aerobic or anaerobic process, active or passive, which results in the decay and chemical breakdown of the vegetative waste. Nothing in this subsection shall be construed to prohibit a city or county from exercising its existing authority to regulate such facilities by requiring, among other things, permits and proof of financial security.

M. In receiving and processing applications for permits required by this section, the Director shall assign top priority to applications which (i) agree to accept nonhazardous recycling residues and (ii) pledge to charge tipping fees for disposal of nonhazardous recycling residues which do not exceed those charged for nonhazardous municipal solid waste. Applications meeting these requirements shall be acted upon no later than six months after they are deemed complete.

N. Every solid waste management facility shall be operated in compliance with the regulations promulgated by the Board pursuant to this chapter. To the extent consistent with federal law, those facilities which were permitted prior to March 15, 1993, and upon which solid waste has been disposed of prior to October 9, 1993, may continue to receive solid waste until they have reached their vertical design capacity, provided that the facility is in compliance with the requirements for liners and leachate control in effect at the time of permit issuance, and further provided that on or before October 9, 1993, the owner or operator of the solid waste management facility submits to the Director:

1. An acknowledgement that the owner or operator is familiar with state and federal law and regulations pertaining to solid waste management facilities operating after October 9, 1993, including postclosure care, corrective action and financial responsibility requirements;

2. A statement signed by a registered professional engineer that he has reviewed the regulations established by the Department for solid waste management facilities, including the open dump criteria contained therein; that he has inspected the facility and examined the monitoring data compiled for the facility in accordance with applicable regulations; and that, on the basis of his inspection and review, he has concluded that: (i) the facility is not an open dump, (ii) the facility does not pose a substantial present or potential hazard to human health and the environment, and (iii) the leachate or residues from the facility do not pose a threat of contamination or pollution of the air, surface water or ground water in a manner constituting an open dump or resulting in a substantial present or potential hazard to human health or the environment; and

3. A statement signed by the owner or operator (i) that the facility complies with applicable financial assurance regulations and (ii) estimating when the facility will reach its vertical design capacity.

The facility may not be enlarged prematurely to avoid compliance with state or federal regulations when such enlargement is not consistent with past operating practices, the permit or modified operating practices to ensure good management.

Facilities which are authorized by this subsection to accept waste for disposal beyond the waste boundaries existing on October 9, 1993, shall be as follows:

Category 1: Nonhazardous industrial waste facilities that are located on property owned or controlled by the generator of the waste disposed of in the facility;

Category 2: Nonhazardous industrial waste facilities other than those that are located on property owned or controlled by the generator of the waste disposed of in the facility, provided that the facility accepts only industrial waste streams which the facility has lawfully accepted prior to July 1, 1995, or other nonhazardous industrial waste as approved by the Department on a case-by-case basis; and

Category 3: Facilities that accept only construction-demolition-debris waste as defined in the Board's regulations.

The Director may prohibit or restrict the disposal of waste in facilities described in this subsection which contains hazardous constituents as defined in applicable regulations which, in the opinion of the Director, would pose a substantial risk to health or the environment. Facilities described in category 3 may expand laterally beyond the waste disposal boundaries existing on October 9, 1993, provided that there is first installed, in such expanded areas, liners and leachate control systems meeting the applicable performance requirements of the Board's regulations, or a demonstration is made to the satisfaction of the Director that such facilities satisfy the applicable variance criteria in the Board's regulations.

Owners or operators of facilities which are authorized under this subsection to accept waste for disposal beyond the waste boundaries existing on October 9, 1993, shall ensure that such expanded disposal areas maintain setback distances applicable to such facilities under the Board's current regulations and local ordinances. Prior to the expansion of any facility described in category 2 or 3, the owner or operator shall provide the Director with written notice of the proposed expansion at least sixty days prior to commencement of construction. The notice shall include recent groundwater monitoring data sufficient to determine that the facility does not pose a threat of contamination of groundwater in a manner constituting an open dump or creating a substantial present or potential hazard to human health or the environment. The Director shall evaluate the data included with the notification and may advise the owner or operator of any additional requirements that may be necessary to ensure compliance with applicable laws and prevent a substantial present or potential hazard to health or the environment.

Facilities, or portions thereof, which have reached their vertical design capacity shall be closed in compliance with regulations promulgated by the Board.

Nothing in this subsection shall alter any requirement for groundwater monitoring, financial responsibility, operator certification, closure, postclosure care, operation, maintenance or corrective action imposed under state or federal law or regulation, or impair the powers of the Director pursuant to § 10.1-1409.

O. Portions of a permitted solid waste management facility used solely for the storage of household hazardous waste may store household hazardous waste for a period not to exceed one year, provided that such wastes are properly contained and are segregated to prevent mixing of incompatible wastes.

P. Any permit for a new municipal solid waste landfill, and any permit amendment authorizing expansion of an existing municipal solid waste landfill, shall incorporate conditions to require that capacity in the landfill will be available to localities within the Commonwealth that choose to contract for and reserve such capacity for disposal of such localities' solid waste in accordance with solid waste management plans developed by such localities pursuant to § 10.1-1411. This provision shall not apply to permit applications from one or more political subdivisions for new landfills or expanded landfills that will only accept municipal solid waste generated within the political subdivision or subdivisions' jurisdiction or municipal solid waste generated within other political subdivisions pursuant to an interjurisdictional agreement.

Q. No application for coverage under a permit-by-rule or for modification of coverage under a permit-by-rule shall be complete unless it contains certification from the governing body of the locality in which the facility is to be located that the facility is consistent with the solid waste management plan developed and approved in accordance with § 10.1-1411.

CHAPTER 622

An Act to amend and reenact § 62.1-44.15:21 of the Code of Virginia, relating to water protection permits; administrative withdrawal.

[H 1458]

Approved April 2, 2020

Be it enacted by the General Assembly of Virginia:

1. That § 62.1-44.15:21 of the Code of Virginia is amended and reenacted as follows:

§ 62.1-44.15:21. Impacts to wetlands.

A. Permits shall address avoidance and minimization of wetland impacts to the maximum extent practicable. A permit shall be issued only if the Board finds that the effect of the impact, together with other existing or proposed impacts to wetlands, will not cause or contribute to a significant impairment of state waters or fish and wildlife resources.

B. Permits shall contain requirements for compensating impacts on wetlands. Such compensation requirements shall be sufficient to achieve no net loss of existing wetland acreage and functions and may be met through (i) wetland creation or restoration, (ii) purchase or use of mitigation bank credits pursuant to § 62.1-44.15:23, (iii) contribution to the Wetland and Stream Replacement Fund established pursuant to § 62.1-44.15:23.1 to provide compensation for impacts to wetlands, streams, or other state waters that occur in areas where neither mitigation bank credits nor credits from a Board-approved fund that have met the success criteria are available at the time of permit application, or (iv) contribution to a Board-approved fund dedicated to achieving no net loss of wetland acreage and functions. The Board shall evaluate the appropriate compensatory mitigation option on a case-by-case basis with consideration for which option is practicable and ecologically and environmentally preferable, including, in terms of replacement of acreage and functions, which option offers the greatest likelihood of success and avoidance of temporal loss of acreage and function. This evaluation shall be consistent with the U.S. Army Corps of Engineers Compensatory Mitigation for Losses of Aquatic Resources (33 C.F.R. Part 332). When utilized in conjunction with creation, restoration, or mitigation bank credits, compensation may incorporate (a) preservation or restoration of upland buffers adjacent to wetlands or other state waters or (b) preservation of wetlands.

C. The Board shall utilize the U.S. Army Corps of Engineers' "Wetlands Delineation Manual, Technical Report Y-87-1, January 1987, Final Report" as the approved method for delineating wetlands. The Board shall adopt appropriate guidance and regulations to ensure consistency with the U.S. Army Corps of Engineers' implementation of delineation practices. The Board shall also adopt guidance and regulations for review and approval of the geographic area of a delineated wetland. Any such approval of a delineation shall remain effective for a period of five years; however, if the Board issues a permit pursuant to this article for an activity in the delineated wetland within the five-year period, the approval shall remain effective for the term of the permit. Any delineation accepted by the U.S. Army Corps of Engineers as sufficient for its exercise of jurisdiction pursuant to § 404 of the Clean Water Act shall be determinative of the geographic area of that delineated wetland.

D. The Board shall develop general permits for such activities in wetlands as it deems appropriate. General permits shall include such terms and conditions as the Board deems necessary to protect state waters and fish and wildlife resources from significant impairment. The Board is authorized to waive the requirement for a general permit or deem an activity in compliance with a general permit when it determines that an isolated wetland is of minimal ecological value. The Board shall develop general permits for:

1. Activities causing wetland impacts of less than one-half of an acre;
2. Facilities and activities of utilities and public service companies regulated by the Federal Energy Regulatory Commission or State Corporation Commission, except for construction of any natural gas transmission pipeline that is greater than 36 inches inside diameter pursuant to a certificate of public convenience and necessity under § 7c of the federal Natural Gas Act (15 U.S.C. § 717f(c)). No Board action on an individual or general permit for such facilities shall alter the siting determination made through Federal Energy Regulatory Commission or State Corporation Commission approval. The Board and the State Corporation Commission shall develop a memorandum of agreement pursuant to §§ 56-46.1, 56-265.2, 56-265.2:1, and 56-580 to ensure that consultation on wetland impacts occurs prior to siting determinations;
3. Coal, natural gas, and coalbed methane gas mining activities authorized by the Department of Mines, Minerals and Energy, and sand mining;
4. Virginia Department of Transportation or other linear transportation projects; and
5. Activities governed by nationwide or regional permits approved by the Board and issued by the U.S. Army Corps of Engineers. Conditions contained in the general permits shall include, but not be limited to, filing with the Board any copies of preconstruction notification, postconstruction report, and certificate of compliance required by the U.S. Army Corps of Engineers.

E. Within 15 days of receipt of an individual permit application, the Board shall review the application for completeness and either accept the application or request additional specific information from the applicant. ~~Within~~

Provided the application is not administratively withdrawn, the Board shall, within 120 days of receipt of a complete application, the Board shall issue the permit, issue the permit with conditions, deny the permit, or decide to conduct a public meeting or hearing. If a public meeting or hearing is held, it shall be held within 60 days of the decision to conduct such a proceeding, and a final decision as to the permit shall be made within 90 days of completion of the public meeting or hearing. A permit application may be administratively withdrawn from processing by the Board if the application is incomplete or for failure by the applicant to provide the required information after 60 days from the date of the latest written information request made by the Board. Such administrative withdrawal shall occur after the Board has provided (i) notice to the applicant and (ii) an opportunity for an informal fact-finding proceeding pursuant to § 2.2-4019. An applicant may request a suspension of application review by the Board. A submission by the applicant making such a request shall not preclude the Board from administratively withdrawing an application. Resubmittal of a permit application for the same or similar project, after such time that the original permit application was administratively withdrawn, shall require submittal of an additional permit application fee and may be subject to additional notice requirements. In addition, for an individual permit application related to an application to the Federal Energy Regulatory Commission for a certificate of public convenience and necessity pursuant to § 7c of the federal Natural Gas Act (15 U.S.C. § 717f(c)) for construction of any natural gas transmission pipeline greater than 36 inches inside diameter, the Board shall complete its consideration within the one-year period established under 33 U.S.C. § 1341(a).

F. Within 15 days of receipt of a general permit *coverage* application, the Board shall review the application for completeness and either accept the application or request additional specific information from the applicant. ~~A determination that an application is complete shall not mean the Board will issue the permit but means only that the applicant has submitted sufficient information to process the application.~~ *Provided the application is not administratively withdrawn, the Board shall, within 45 days of receipt of a complete application, deny, approve, or approve with conditions any application for coverage under a general permit within 45 days of receipt of a complete preconstruction application. The application shall be deemed approved if the Board fails to act within 45 days. A permit coverage application may be administratively withdrawn from processing by the Board if the application is incomplete or for failure by the applicant to provide the required information after 60 days from the date of the latest written application request made by the Board. Such administrative withdrawal shall occur after the Board has provided (i) notice to the applicant and (ii) an opportunity for an informal fact-finding proceeding pursuant to § 2.2-4019. An applicant may request suspension of an application review by the Board. A submission by the applicant making such a request shall not preclude the Board from administratively withdrawing an application. Resubmittal of a permit coverage application for the same or similar project, after such time that the original permit application was administratively withdrawn, shall require submittal of an additional permit application fee and may be subject to additional notice requirements.*

G. No Virginia Water Protection Permit shall be required for impacts to wetlands caused by activities governed under Chapter 13 (§ 28.2-1300 et seq.) of Title 28.2 or normal agricultural activities or normal silvicultural activities. This section shall also not apply to normal residential gardening, lawn and landscape maintenance, or other similar activities that are incidental to an occupant's ongoing residential use of property and of minimal ecological impact. The Board shall develop criteria governing this exemption and shall specifically identify the activities meeting these criteria in its regulations.

H. No Virginia Water Protection Permit shall be required for impacts caused by the construction or maintenance of farm or stock ponds, but other permits may be required pursuant to state and federal law. For purposes of this exclusion, farm or stock ponds shall include all ponds and impoundments that do not fall under the authority of the Virginia Soil and Water Conservation Board pursuant to Article 2 (§ 10.1-604 et seq.) of Chapter 6 pursuant to normal agricultural or silvicultural activities.

I. No Virginia Water Protection Permit shall be required for wetland and open water impacts to a stormwater management facility that was created on dry land for the purpose of conveying, treating, or storing stormwater, but other permits may be required pursuant to local, state, or federal law. The Department shall adopt guidance to ensure that projects claiming this exemption create no more than minimal ecological impact.

J. An individual Virginia Water Protection Permit shall be required for impacts to state waters for the construction of any natural gas transmission pipeline greater than 36 inches inside diameter pursuant to a certificate of public convenience and necessity under § 7c of the federal Natural Gas Act (15 U.S.C. § 717f(c)). For purposes of this subsection:

1. Each wetland and stream crossing shall be considered as a single and complete project; however, only one individual Virginia Water Protection Permit addressing all such crossings shall be required for any such pipeline. Notwithstanding the requirement for only one such individual permit addressing all such crossings, individual review of each proposed water body crossing with an upstream drainage area of five square miles or greater shall be performed.

2. All pipelines shall be constructed in a manner that minimizes temporary and permanent impacts to state waters and protects water quality to the maximum extent practicable, including by the use of applicable best management practices that the Board determines to be necessary to protect water quality.

3. The Department shall assess an administrative charge to any applicant for such project to cover the direct costs of services rendered associated with its responsibilities pursuant to this subsection. This administrative charge shall be in addition to any fee assessed pursuant to § 62.1-44.15:6.

CHAPTER 623

An Act to amend and reenact §§ 58.1-812 and 58.1-817 of the Code of Virginia, relating to fee for open-space preservation.
[H 1623]

Approved April 2, 2020

Be it enacted by the General Assembly of Virginia:

1. That §§ 58.1-812 and 58.1-817 of the Code of Virginia are amended and reenacted as follows:

§ 58.1-812. Payment prerequisite to recordation; exceptions; assessment and collection of tax; penalty for misrepresentation.

A. Except as otherwise provided in this chapter, no deed, deed of trust, contract or other instrument shall be admitted to record without the payment of the tax imposed thereon by law and the fee pursuant to § 58.1-817, as applicable. However, after payment of the tax imposed by this chapter, when an instrument is first offered for recordation, such instrument may thereafter be recorded in the office of any other clerk without the payment of any tax except any local recordation tax as provided in Article 1 (§ 58.1-3800 et seq.) of Chapter 38. Any instrument may also be recorded free of tax and fee in the office of the clerk where such instrument was originally recorded when the record containing such instrument has been destroyed.

B. The tax on every deed, deed of trust, contract or other instrument shall be determined and collected by the clerk in whose office the instrument is first offered for recordation. The clerk may ascertain the consideration of the deed or of the instrument, the actual value of the property conveyed, and the qualification of the deed or instrument for any exemption claimed by inquiry, affidavit, declaration or other extrinsic evidence acceptable to the clerk. The fee shall be ~~\$4~~ \$3 on every recorded deed, *deed of trust, contract, or other instrument* pursuant to § 58.1-817 and shall be collected by the clerk in whose office the deed is offered for recordation.

C. Any person who knowingly misrepresents the consideration for the interest in property conveyed by a deed or other instrument or any of the other information requested by the clerk of court pursuant to this section shall be guilty of a Class 1 misdemeanor. If an understatement of the consideration is false or fraudulent with intent to evade a tax, a penalty equal to 100 percent of the tax due on the understatement shall be added to the amount of the tax due, plus interest on the tax at a rate determined in accordance with § 58.1-15 from the time the tax was required by law to be filed until paid.

D. Except as otherwise specifically provided, nothing contained in this chapter shall limit the right of the parties to any deed, deed of trust, contract, lease, or other instrument to allocate responsibility for the payment of the recordation taxes and fees imposed under this chapter among themselves in any manner they determine. A clerk who in good faith collects such taxes and fees upon recordation of a deed, deed of trust, contract, lease, or other instrument in reliance upon information provided by the person submitting such deed, deed of trust, contract, lease, or other instrument for recordation shall have no personal liability for any deficiency in the amount of such taxes or fees collected that is later determined to be due and payable.

§ 58.1-817. Fee for open-space preservation.

In addition to all other taxes and fees imposed by this chapter, beginning July 1, ~~2004~~ 2020, there is hereby imposed a ~~\$4~~ \$3 fee on every deed, *deed of trust, contract, or other instrument* admitted to record in those jurisdictions in which open-space easements are held by the Virginia Outdoors Foundation. The fee shall be collected as provided in § 58.1-812 and the clerk shall deposit all fees collected hereunder into a special fund within the state treasury which shall be created on the books of the Comptroller for this revenue. On a monthly basis, the Comptroller shall distribute all revenue collected from such fee to the Virginia Outdoors Foundation, which shall accept, hold, and administer such funds in accordance with its purpose and powers as set forth in Chapter 18 (§ 10.1-1800 et seq.) of Title 10.1.

CHAPTER 624

An Act to direct the Department of Environmental Quality to convene a work group to develop recommendations on the issue of the disposal of construction fill and debris on rural lands.

[H 1639]

Approved April 2, 2020

Be it enacted by the General Assembly of Virginia:

1. § 1. *That the Department of Environmental Quality (DEQ) shall convene a work group to discuss the issue of the disposal of construction fill and debris on rural lands. The work group shall include representatives of DEQ, the Department of Forestry, the Department of Agriculture and Consumer Services, the Virginia Department of Transportation, nonprofit environmental organizations, the waste disposal industry, the trucking industry, the Virginia Chapter of the American Planning Association, the Virginia Farm Bureau Federation, the Virginia Agribusiness Council, the Virginia Association of Counties, the Home Builders Association of Virginia, the road construction industry, and the Virginia Association of Soil and Water Conservation Districts. The work group shall discuss (i) the need of road construction and development projects to dispose of dirt in a cost-effective manner; (ii) the practice of rural landowners charging a fee to allow the use of their lands as disposal sites; (iii) the extent of monitoring for possible contaminants or effects on groundwater when dirt and*

rubble is deposited on agricultural fields; (iv) the adequacy of existing state and local enforcement remedies against responsible land disturbers disposing of dirt in unauthorized or unapproved locations; and (v) the use of rural roads by dump trucks traveling to disposal sites and any effects of such travel, including road damage, traffic congestion, noise, and the loss of a portion of the dirt during transit in the form of dust or mud. The work group shall consider recommending (a) changes to guidance or regulations for agencies having the authority to regulate activities associated with the work group's work, including recommendations regarding a model ordinance for adoption by localities, and (b) statutory changes, including changes related to agricultural engineering operations and construction of terraces as those terms are used in the State Water Control Law (§ 62.1-44.2 et seq. of the Code of Virginia). The work group shall report its recommendations to the Director of DEQ, the State Forester, the Commissioner of the Department of Agriculture and Consumer Services, and the Commissioner of the Department of Transportation by December 1, 2020. The work group also may provide any recommendations to the Virginia Municipal League and the Virginia Association of Counties.

CHAPTER 625

An Act to amend the Code of Virginia by adding in Article 2.1 of Chapter 14 of Title 10.1 a section numbered 10.1-1413.3, relating to coal ash ponds; testing private wells and public water supply wells; resident notification.

[H 1641]

Approved April 2, 2020

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding in Article 2.1 of Chapter 14 of Title 10.1 a section numbered 10.1-1413.3 as follows:

§ 10.1-1413.3. Testing private wells and public water supply wells near coal ash ponds; resident notification.

A. For the purposes of this section:

"Coal ash pond" means any natural topographic depression, man-made excavation, or diked area that (i) is designed to hold an accumulation of coal combustion residuals and liquids; (ii) treats, stores, or disposes of coal combustion residuals; and (iii) is located in the Chesapeake Bay watershed at the Bremo Power Station in Fluvanna County, Chesapeake Energy Center in the City of Chesapeake, Chesterfield Power Station in Chesterfield County, or Possum Point Power Station in Prince William County.

"Utility" means the owner or operator of a coal ash pond.

B. No later than October 1, 2020, each utility shall submit to the Department a complete survey identifying all private wells and public water supply wells within 1.5 miles of any coal ash pond boundary. The utility shall use reasonable efforts to determine the locations of all such wells within 1.5 miles of the coal ash pond boundary and shall not rely solely on records maintained by the Virginia Department of Health or other public records. Such reasonable efforts shall include the distribution of notices that explain the purpose of the survey to each landowner. The utility shall distribute such notices through the United States mail to the owner of each parcel of land any part of which is located within 1.5 miles of a coal ash pond boundary and shall post a notice in at least one newspaper of general circulation in the locality.

CHAPTER 626

An Act to amend the Code of Virginia by adding a section numbered 62.1-195.3, relating to hydraulic fracturing; groundwater management area; prohibition.

[S 106]

Approved April 2, 2020

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding a section numbered 62.1-195.3 as follows:

§ 62.1-195.3. Hydraulic fracturing; groundwater management area.

No person shall conduct any hydraulic fracturing in any well that has been drilled through any portion of a groundwater management area declared by regulation prior to January 1, 2020, pursuant to the provisions of the Ground Water Management Act of 1992 (§ 62.1-254 et seq.). For purposes of this section, "hydraulic fracturing" means the treatment of a well by the application of hydraulic fracturing fluid, including a base fluid and any additive, under pressure for the express purpose of initiating or propagating fractures in a target geologic formation to enhance production of oil or natural gas.

CHAPTER 627

An Act to amend and reenact § 30-209 of the Code of Virginia, relating to the scheduled expiration of the Commission on Electric Utility Regulation.

[S 130]

Approved April 2, 2020

Be it enacted by the General Assembly of Virginia:

1. That § 30-209 of the Code of Virginia is amended and reenacted as follows:

§ 30-209. Sunset.

This chapter shall expire on July 1, ~~2020~~ 2022.

CHAPTER 628

An Act to amend and reenact § 59.1-296 of the Code of Virginia and to amend the Code of Virginia by adding a section numbered 59.1-296.2:2, relating to Virginia Health Club Act; automated external defibrillators required in health clubs.

C. No covered person shall offer in Virginia an agreement for the transfer or sale of a dog or cat to the consumer in which the animal is subject to repossession in any manner upon default of the agreement by the consumer.

D. No financial institution, as defined in § 6.2-100, shall offer in Virginia a loan or financing agreement for the rental, lease, or sale of a dog or cat where the animal is subject to repossession upon default under the terms of the financing agreement.

E. Any violation of this section shall also constitute a prohibited practice under § 59.1-200 and shall be subject to the enforcement provisions of the Virginia Consumer Protection Act (§ 59.1-196 et seq.). In addition, any covered person that violates any provision of this section may have its business license, retail license, or local pet shop permit issued pursuant to § 3.2-6537 suspended or revoked after a hearing by the issuing authority. The court may also suspend or revoke the retail license of any business found to be in violation of this section.

An Act to amend and reenact § 29.1-521 of the Code of Virginia, relating to big game hunting; guaranteed kills prohibited; penalty.

[S 774]

Approved April 2, 2020

Be it enacted by the General Assembly of Virginia:

1. That § 29.1-521 of the Code of Virginia is amended and reenacted as follows:

§ 29.1-521. Unlawful to hunt, trap, possess, sell, or transport wild birds and wild animals except as permitted; exception; penalty.

A. The following shall be unlawful:

1. To hunt or kill any wild bird or wild animal, including any nuisance species, with a gun, firearm, or other weapon, or to hunt or kill any deer or bear with a gun, firearm, or other weapon with the aid or assistance of dogs, on Sunday. The provision of this subdivision that prohibits the hunting or killing of any wild bird or wild animal, including nuisance species,

on Sunday shall not apply to (i) any person who hunts or kills raccoons; (ii) any person who hunts or kills birds in the family Rallidae or waterfowl, subject to geographical limitations established by the Director and except within 200 yards of a place of worship or any accessory structure thereof; or (iii) any landowner or member of his family or any person with written permission from the landowner who hunts or kills any wild bird or wild animal, including any nuisance species, on the landowner's property, except within 200 yards of a place of worship or any accessory structure thereof. However, a person lawfully carrying a gun, firearm, or other weapon on Sunday in an area that could be used for hunting shall not be presumed to be hunting on Sunday, absent evidence to the contrary.

2. To destroy or molest the nest, eggs, dens, or young of any wild bird or wild animal, except nuisance species, at any time without a permit as required by law.

3. To hunt or attempt to kill or trap any species of wild bird or wild animal after having obtained the daily bag or season limit during such day or season. However, any properly licensed person, or a person exempt from having to obtain a license, who has obtained such daily bag or season limit while hunting may assist others who are hunting game by calling game, retrieving game, handling dogs, or conducting drives if the weapon in his possession is an unloaded firearm, a bow without a nocked arrow, an unloaded slingbow, an unloaded arrowgun, or an unloaded crossbow. Any properly licensed person, or person exempt from having to obtain a license, who has obtained such season limit prior to commencement of the hunt may assist others who are hunting game by calling game, retrieving game, handling dogs, or conducting drives, provided he does not have a firearm, bow, slingbow, arrowgun, or crossbow in his possession.

4. To knowingly occupy any baited blind or other baited place for the purpose of taking or attempting to take any wild bird or wild animal or to put out bait or salt for any wild bird or wild animal for the purpose of taking or killing it. There shall be a rebuttable presumption that a person charged with violating this subdivision knows that he is occupying a baited blind or other baited place for the purpose of taking or attempting to take any wild bird or wild animal. However, this shall not apply to baiting nuisance species of animals and birds, or to baiting traps for the purpose of taking fur-bearing animals that may be lawfully trapped.

5. To kill or capture any wild bird or wild animal adjacent to any area while a field or forest fire is in progress.

6. To shoot or attempt to take any wild bird or wild animal from an automobile or other vehicle, except (i) as provided in § 29.1-521.3 or (ii) for the killing of nuisance species as defined in § 29.1-100 on private property by the owner of such property or his designee from a stationary automobile or other stationary vehicle.

7. To set a trap of any kind on the lands or waters of another without attaching to the trap: (i) the name and address of the trapper; or (ii) an identification number issued by the Department.

8. To set a trap where it would be likely to injure persons, dogs, stock, or fowl.

9. To fail to visit all traps once each day and remove all animals caught, and immediately report to the landowner as to stock, dogs, or fowl that are caught and the date. However, the Director or his designee may authorize employees of federal, state, and local government agencies, and persons holding a valid Commercial Nuisance Animal Permit issued by the Department, to visit body-gripping traps that are completely submerged at least once every 72 hours, and the Board may adopt regulations permitting trappers to visit traps less frequently under specified conditions. The Board shall adopt regulations permitting trappers to use remote trap-checking technology to check traps under specified conditions.

10. To hunt, trap, take, capture, kill, attempt to take, capture, or kill, possess, deliver for transportation, transport, cause to be transported, by any means whatever, receive for transportation or export, or import, at any time or in any manner, any wild bird or wild animal or the carcass or any part thereof, except as specifically permitted by law and only by the manner or means and within the numbers stated. However, the provisions of this section shall not be construed to prohibit the (i) use or transportation of legally taken turkey carcasses, or portions thereof, for the purposes of making or selling turkey callers; (ii) the manufacture or sale of implements, including tools or utensils made from legally harvested deer skeletal parts, including antlers; (iii) the possession of shed antlers; or (iv) the possession, manufacture, or sale of other parts or implements authorized by regulations adopted by the Board.

11. To offer for sale, sell, offer to purchase, or purchase, at any time or in any manner, any wild bird or wild animal or the carcass or any part thereof, except as specifically permitted by law, including subsection D of § 29.1-553. However, any nonprofit organization exempt from taxation under § 501(c)(3) of the Internal Revenue Code that is (i) organized to provide wild game as food to the hungry and (ii) authorized by the Department to possess, transport, and distribute donated or unclaimed meat to the hungry may pay a processing fee in order to obtain such meat. Such fee shall not exceed the actual cost for processing the meat. In addition, any nonprofit organization exempt from taxation under § 501(c)(3) of the Internal Revenue Code that is (a) organized to support wildlife habitat conservation and (b) approved by the Department shall be allowed to offer wildlife mounts that have undergone the taxidermy process for sale in conjunction with fundraising activities. A violation of this subdivision shall be punishable as provided in § 29.1-553.

12. To offer for sale, sell, offer to purchase, or purchase a hunt guaranteeing the killing of a deer, bear, or wild turkey. Nothing in this subdivision shall prevent a landowner from leasing land for hunting. A violation of this subdivision shall be punishable as provided in § 29.1-553.

B. Notwithstanding any other provision of this article, any American Indian who produces verification that he is an enrolled member of a tribe recognized by the Commonwealth, another state, or the U.S. government, may possess, offer for sale, or sell to another American Indian, or offer to purchase or purchase from another American Indian, parts of legally obtained fur-bearing animals, nonmigratory game birds, and game animals, except bear. Such legally obtained parts shall include antlers, hooves, feathers, claws, and bones.

"Verification" as used in this section shall include (i) display of a valid tribal identification card, (ii) confirmation through a central tribal registry, (iii) a letter from a tribal chief or council, or (iv) certification from a tribal office that the person is an enrolled member of the tribe.

C. Notwithstanding any other provision of this chapter, the Department may authorize the use of snake exclusion devices by public utilities at their transmission or distribution facilities and the incidental taking of snakes resulting from the use of such devices.

D. A violation of subdivisions A 1 through 10 shall be punishable as a Class 3 misdemeanor.

2. That the provisions of this act may result in a net increase in periods of imprisonment or commitment. Pursuant to § 30-19.1:4 of the Code of Virginia, the estimated amount of the necessary appropriation is \$0 for periods of imprisonment in state adult correctional facilities and cannot be determined for periods of commitment to the custody of the Department of Juvenile Justice.

CHAPTER 633

An Act to amend and reenact § 58.1-3661 of the Code of Virginia, relating to classification of solar energy and recycling equipment.

[S 1039]

Approved April 2, 2020

Be it enacted by the General Assembly of Virginia:

1. That § 58.1-3661 of the Code of Virginia is amended and reenacted as follows:

§ 58.1-3661. Certified solar energy equipment, facilities, or devices and certified recycling equipment, facilities, or devices.

A. Certified solar energy equipment, facilities, or devices and certified recycling equipment, facilities, or devices, as defined herein, are hereby declared to be a separate class of property and shall constitute a classification for local taxation separate from other classifications of real or personal property. The governing body of any county, city or town may, by ordinance, exempt or partially exempt such property from local taxation in the manner provided by subsection D.

B. As used in this section:

"Certified recycling equipment, facilities, or devices" means machinery and equipment which is certified by the Department of Environmental Quality as integral to the recycling process and for use primarily for the purpose of abating or preventing pollution of the atmosphere or waters of the Commonwealth, and used in manufacturing facilities or plant units

which manufacture, process, compound, or produce for sale recyclable items of tangible personal property at fixed locations in the Commonwealth.

"Certified solar energy equipment, facilities, or devices" means any property, including real or personal property, equipment, facilities, or devices, excluding any portion of such property that is exempt under § 58.1-3660, certified by the local certifying authority to be designed and used primarily for the purpose of collecting, generating, transferring, or storing thermal or electric energy.

"Local certifying authority" means the local building departments or the Department of Environmental Quality. The State Board of Housing and Community Development shall promulgate regulations setting forth criteria for certifiable solar energy equipment. The Department of Environmental Quality shall promulgate regulations establishing criteria for recycling equipment, facilities, or devices.

C. Any person residing in a county, city or town which has adopted an ordinance pursuant to subsection A may proceed to have solar energy equipment, facilities, or devices certified as exempt, wholly or partially, from taxation by applying to the local building department. If, after examination of such equipment, facility, or device, the local building department determines that the unit primarily performs any of the functions set forth in subsection B and conforms to the requirements set by regulations of the Board of Housing and Community Development, such department shall approve and certify such application. The local department shall forthwith transmit to the local assessing officer those applications properly approved and certified by the local building department as meeting all requirements qualifying such equipment, facility, or device for exemption from taxation. Any person aggrieved by a decision of the local building department may appeal such decision to the local board of building code appeals, which may affirm or reverse such decision.

D. Upon receipt of the certificate from the local building department or the Department of Environmental Quality, the local assessing officer shall, if such local ordinance is in effect, proceed to determine the value of such qualifying solar energy equipment, facilities, or devices or certified recycling equipment, facilities, or devices. The exemption provided by this section shall be determined by applying the local tax rate to the value of such equipment, facilities, or devices and subtracting such amount, wholly or partially, either (i) from the total real property tax due on the real property to which such equipment, facilities, or devices are attached or (ii) if such equipment, facilities, or devices are taxable as machinery and tools under § 58.1-3507, from the total machinery and tools tax due on such equipment, facilities, or devices, at the election of the taxpayer. This exemption shall be effective beginning in the next succeeding tax year, and shall be permitted for a term of not less than five years; *however, if the taxpayer installs equipment, facilities, or devices and obtains certification for such equipment, facilities, or devices within one year of installation, the locality may provide by ordinance that the exemption shall be effective as of the date of installation, and if the taxpayer has paid any taxes on such equipment, facilities, or devices, the locality shall reimburse the taxpayer for any such taxes paid.* In the event the locality assesses real estate pursuant to § 58.1-3292, the exemption shall be first effective when such real estate is first assessed, but not prior to the date of such application for exemption.

E. It shall be presumed for purposes of the administration of ordinances pursuant to this section, and for no other purposes, that the value of such qualifying solar energy equipment, facilities, and devices is not less than the normal cost of purchasing and installing such equipment, facilities, and devices.

CHAPTER 634

An Act to direct compliance with regulations of certain combined sewer overflow outfalls; James River watershed.

[S 1064]

Approved April 2, 2020

Be it enacted by the General Assembly of Virginia:

1. § 1. *That the owner or operator of any combined sewer overflow (CSO) system east of Charlottesville that discharges into the James River watershed shall submit to the Department of Environmental Quality (the Department) the following:*

A. By July 1, 2021, an interim plan detailing all known actions the owner or operator can initiate by July 1, 2022, to address the requirements of any consent special order issued by the State Water Control Board (the Board) to the owner or operator regarding the CSO system; and

B. By July 1, 2024, a final plan updating the interim plan and detailing all actions the owner or operator will take to satisfy all requirements of any consent special order issued by the Board to the owner or operator regarding the CSO system.

Both the interim plan and the final plan shall be divided into discrete projects or phases that may be planned or constructed individually or in combination and shall include for each project or phase (i) an estimated timeline from the start of detailed planning to completion of construction, (ii) an estimated cost, (iii) the projected resultant water quality improvements, and (iv) proposed funding sources. The owner or operator, subject to Department approval, may substitute for any proposed action in either the interim or final plan an alternative action or actions to address the requirements of any consent special order issued by the Board to the owner or operator regarding the CSO system, provided that such alternative is at least as cost-effective as the original proposed action. The Department shall assist the owner or operator in developing both the interim plan and the final plan and in identifying available sources of funding and financing.

§ 2. *Any such owner or operator of a CSO system shall:*

A. By July 1, 2022, initiate construction and related activities pursuant to the interim plan required in subsection A of § 1;
 B. By July 1, 2025, initiate construction and related activities pursuant to the final plan required in subsection B of § 1;
 C. By July 1, 2027, complete construction and related activities pursuant to the interim plan required in subsection A of § 1;

D. By July 1, 2030, identify any additional action that is applicable to the owner or operator of a CSO system and is necessary to meet, by 2036, the requirements of the total maximum daily load (TMDL) for bacterial impairments of the James River and its tributaries in the Richmond area, as described in the implementation plan for such TMDL issued by the Department in 2011; and

E. By July 1, 2035, complete construction and related activities pursuant to the final plan required in subsection B of § 1.

§ 3. Any such owner or operator of a CSO system shall report annually to the Department on its progress pursuant to § 1 and § 2, with the first annual report due no later than December 1, 2020, and the final annual report due after completion of (i) the construction activities pursuant to the final plan required in subsection B of § 1 and (ii) additional actions identified in subsection D of § 2. The report, which may be included as part of any annual report required under a consent special order issued by the Department to the owner or operator regarding the CSO system, shall include information on the level and sources of funding and financing such owner or operator has applied to the CSO system in each of the past five fiscal years, as well an assessment of funding needs in future years with a request that appropriation amounts sufficient to carry out the purposes of this act be included in the budget bill. No later than January 1 of each year, the Department shall transmit, with any additional information the Director of the Department determines to be appropriate, the CSO system progress reports to the Chairmen of the Senate Committee on Finance and Appropriations, the Senate Committee on Agriculture, Conservation and Natural Resources, the House Committee on Appropriations, and the House Committee on Agriculture, Chesapeake and Natural Resources; the Virginia delegation to the Chesapeake Bay Commission; the Secretary of Natural Resources; and the Governor. The Department may recommend extending the deadlines in § 2 to allow adaptive management by the owner or operator due to a natural disaster or other act of God, or because of a lack of available funding and financing.

§ 4. The Governor shall take into account the reports required in § 3 during the preparation of the biennial budget bill and subsequent amendments thereto. The General Assembly may take such reports into account in enacting the general appropriation act and may evaluate the feasibility of the deadlines in § 2 on a biennial basis beginning in 2022 and modify such deadlines as necessary, taking into account any potential adverse effects on (i) the owner's or operator's bond rating; (ii) the utility rates, fees, or charges assessed by the owner or operator; (iii) any environmental justice community, or owner's or operator's customers living below the federal poverty level; or (iv) any other relevant aspect of the owner's or operator's operations. No sooner than July 1, 2025, and no more frequently than every two years thereafter, the owner or operator may petition the Board for, and the Board may grant, an extension to one or more of the deadlines in § 2 if the Board determines that (a) the General Assembly has not extended such deadline and (b) funding sufficient to meet such deadline has not been secured and the owner or operator has exhausted all reasonable options for securing such funding.

§ 5. Notwithstanding the provisions of § 1 or § 2, no such owner or operator of a CSO system shall be prohibited from seeking modifications to a consent special order with the concurrence of the Department and the Board if alternative actions for protecting water quality are determined to be more cost-effective.

B. School boards shall employ licensed instructional personnel qualified in the relevant subject areas.

C. Each school board shall assign licensed instructional personnel in a manner that produces divisionwide ratios of students in average daily membership to full-time equivalent teaching positions, excluding special education teachers, principals, assistant principals, school counselors, and librarians, that are not greater than the following ratios: (i) 24 to one in kindergarten with no class being larger than 29 students; if the average daily membership in any kindergarten class exceeds 24 pupils, a full-time teacher's aide shall be assigned to the class; (ii) 24 to one in grades one, two, and three with no class being larger than 30 students; (iii) 25 to one in grades four through six with no class being larger than 35 students; and (iv) 24 to one in English classes in grades six through 12. After September 30 of any school year, anytime the number of students in a class exceeds the class size limit established by this subsection, the local school division shall notify the parent of each student in such class of such fact no later than 10 days after the date on which the class exceeded the class size limit.

Such notification shall state the reason that the class size exceeds the class size limit and describe the measures that the local school division will take to reduce the class size to comply with this subsection.

Within its regulations governing special education programs, the Board shall seek to set pupil/teacher ratios for pupils with intellectual disability that do not exceed the pupil/teacher ratios for self-contained classes for pupils with specific learning disabilities.

Further, school boards shall assign instructional personnel in a manner that produces schoolwide ratios of students in average daily memberships to full-time equivalent teaching positions of 21 to one in middle schools and high schools. School divisions shall provide all middle and high school teachers with one planning period per day or the equivalent, unencumbered of any teaching or supervisory duties.

D. Each local school board shall employ with state and local basic, special education, gifted, and career and technical education funds a minimum number of licensed, full-time equivalent instructional personnel for each 1,000 students in average daily membership (ADM) as set forth in the appropriation act. Calculations of kindergarten positions shall be based on full-day kindergarten programs. Beginning with the March 31 report of average daily membership, those school divisions offering half-day kindergarten with pupil/teacher ratios that exceed 30 to one shall adjust their average daily membership for kindergarten to reflect 85 percent of the total kindergarten average daily memberships, as provided in the appropriation act.

E. In addition to the positions supported by basic aid and in support of regular school year programs of prevention, intervention, and remediation, state funding, pursuant to the appropriation act, shall be provided to fund certain full-time equivalent instructional positions for each 1,000 students in grades K through 12 who are identified as needing prevention, intervention, and remediation services. State funding for prevention, intervention, and remediation programs provided pursuant to this subsection and the appropriation act may be used to support programs for educationally at-risk students as identified by the local school boards.

To provide algebra readiness intervention services required by § 22.1-253.13:1, school divisions may employ mathematics teacher specialists to provide the required algebra readiness intervention services. School divisions using the Standards of Learning Algebra Readiness Initiative funding in this manner shall only employ instructional personnel licensed by the Board of Education.

F. In addition to the positions supported by basic aid and those in support of regular school year programs of prevention, intervention, and remediation, state funding, pursuant to the appropriation act, shall be provided to support 17 full-time equivalent instructional positions for each 1,000 students identified as having limited English proficiency, which positions may include dual language teachers who provide instruction in English and in a second language.

To provide flexibility in the instruction of English language learners who have limited English proficiency and who are at risk of not meeting state accountability standards, school divisions may use state and local funds from the Standards of Quality Prevention, Intervention, and Remediation account to employ additional English language learner teachers or dual language teachers to provide instruction to identified limited English proficiency students. Using these funds in this manner is intended to supplement the instructional services provided in this section. School divisions using the SOQ Prevention, Intervention, and Remediation funds in this manner shall employ only instructional personnel licensed by the Board of Education.

G. In addition to the full-time equivalent positions required elsewhere in this section, each local school board shall employ the following reading specialists in elementary schools, one full-time in each elementary school at the discretion of the local school board. One reading specialist employed by each local school board that employs a reading specialist shall have training in the identification of and the appropriate interventions, accommodations, and teaching techniques for students with dyslexia or a related disorder and shall serve as an advisor on dyslexia and related disorders. Such reading specialist shall have an understanding of the definition of dyslexia and a working knowledge of (i) techniques to help a student on the continuum of skills with dyslexia; (ii) dyslexia characteristics that may manifest at different ages and grade levels; (iii) the basic foundation of the keys to reading, including multisensory, explicit, systemic, and structured reading instruction; and (iv) appropriate interventions, accommodations, and assistive technology supports for students with dyslexia.

To provide reading intervention services required by § 22.1-253.13:1, school divisions may employ reading specialists to provide the required reading intervention services. School divisions using the Early Reading Intervention Initiative funds in this manner shall employ only instructional personnel licensed by the Board of Education.

H. Each local school board shall employ, at a minimum, the following full-time equivalent positions for any school that reports fall membership, according to the type of school and student enrollment:

1. Principals in elementary schools, one half-time to 299 students, one full-time at 300 students; principals in middle schools, one full-time, to be employed on a 12-month basis; principals in high schools, one full-time, to be employed on a 12-month basis;

2. Assistant principals in elementary schools, one half-time at 600 students, one full-time at 900 students; assistant principals in middle schools, one full-time for each 600 students; assistant principals in high schools, one full-time for each 600 students; and school divisions that employ a sufficient number of assistant principals to meet this staffing requirement may assign assistant principals to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary;

3. Librarians in elementary schools, one part-time to 299 students, one full-time at 300 students; librarians in middle schools, one-half time to 299 students, one full-time at 300 students, two full-time at 1,000 students; librarians in high schools, one half-time to 299 students, one full-time at 300 students, two full-time at 1,000 students. Local school divisions that employ a sufficient number of librarians to meet this staffing requirement may assign librarians to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary; and

4. School counselors:

a. Effective with the 2019-2020 school year, in elementary schools, one hour per day per 75 students, one full-time at 375 students, one hour per day additional time per 75 students or major fraction thereof; in middle schools, one period per 65 students, one full-time at 325 students, one additional period per 65 students or major fraction thereof; in high schools, one period per 60 students, one full-time at 300 students, one additional period per 60 students or major fraction thereof.

b. Local school divisions that employ a sufficient number of school counselors to meet the school counselor staffing requirements set forth in this subdivision may assign school counselors to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or high schools.

I. Local school boards shall employ five full-time equivalent positions per 1,000 students in grades kindergarten through five to serve as elementary resource teachers in art, music, and physical education.

J. Local school boards shall employ two full-time equivalent positions per 1,000 students in grades kindergarten through 12, one to provide technology support and one to serve as an instructional technology resource teacher.

To provide flexibility, school divisions may use the state and local funds for instructional technology resource teachers to employ a data coordinator position, an instructional technology resource teacher position, or a data coordinator/instructional resource teacher blended position. The data coordinator position is intended to serve as a resource to principals and classroom teachers in the area of data analysis and interpretation for instructional and school improvement purposes, as well as for overall data management and administration of state assessments. School divisions using these funds in this manner shall employ only instructional personnel licensed by the Board of Education.

K. Local school boards may employ additional positions that exceed these minimal staffing requirements. These additional positions may include, but are not limited to, those funded through the state's incentive and categorical programs as set forth in the appropriation act.

L. A combined school, such as kindergarten through 12, shall meet at all grade levels the staffing requirements for the highest grade level in that school; this requirement shall apply to all staff, except for school counselors, and shall be based on the school's total enrollment; school counselor staff requirements shall, however, be based on the enrollment at the various school organization levels, i.e., elementary, middle, or high school. The Board of Education may grant waivers from these staffing levels upon request from local school boards seeking to implement experimental or innovative programs that are not consistent with these staffing levels.

M. School boards shall, however, annually, on or before December 31, report to the public (i) the actual pupil/teacher ratios in elementary school classrooms in the local school division by school for the current school year; and (ii) the actual pupil/teacher ratios in middle school and high school in the local school division by school for the current school year. Actual pupil/teacher ratios shall include only the teachers who teach the grade and class on a full-time basis and shall exclude resource personnel. School boards shall report pupil/teacher ratios that include resource teachers in the same annual report. Any classes funded through the voluntary kindergarten through third grade class size reduction program shall be identified as such classes. Any classes having waivers to exceed the requirements of this subsection shall also be identified. Schools shall be identified; however, the data shall be compiled in a manner to ensure the confidentiality of all teacher and pupil identities.

N. Students enrolled in a public school on a less than full-time basis shall be counted in ADM in the relevant school division. Students who are either (i) enrolled in a nonpublic school or (ii) receiving home instruction pursuant to § 22.1-254.1, and who are enrolled in public school on a less than full-time basis in any mathematics, science, English, history, social science, career and technical education, fine arts, foreign language, or health education or physical education course shall be counted in the ADM in the relevant school division on a pro rata basis as provided in the appropriation act. Each such course enrollment by such students shall be counted as 0.25 in the ADM; however, no such nonpublic or home school student shall be counted as more than one-half a student for purposes of such pro rata calculation. Such calculation shall not include enrollments of such students in any other public school courses.

O. Each local school board shall provide those support services that are necessary for the efficient and cost-effective operation and maintenance of its public schools.

For the purposes of this title, unless the context otherwise requires, "support services positions" shall include the following:

1. Executive policy and leadership positions, including school board members, superintendents and assistant superintendents;

2. Fiscal and human resources positions, including fiscal and audit operations;

3. Student support positions, including (i) social workers and social work administrative positions; (ii) school counselor administrative positions not included in subdivision H 4; (iii) homebound administrative positions supporting instruction; (iv) attendance support positions related to truancy and dropout prevention; and (v) health and behavioral positions, including *licensed behavior analysts*, *licensed assistant behavior analysts*, school nurses, and school psychologists;

4. Instructional personnel support, including professional development positions and library and media positions not included in subdivision H 3;

5. Technology professional positions not included in subsection J;

6. Operation and maintenance positions, including facilities; pupil transportation positions; operation and maintenance professional and service positions; and security service, trade, and laborer positions;

7. Technical and clerical positions for fiscal and human resources, student support, instructional personnel support, operation and maintenance, administration, and technology; and

8. School-based clerical personnel in elementary schools; part-time to 299 students, one full-time at 300 students; clerical personnel in middle schools; one full-time and one additional full-time for each 600 students beyond 200 students and one full-time for the library at 750 students; clerical personnel in high schools; one full-time and one additional full-time for each 600 students beyond 200 students and one full-time for the library at 750 students. Local school divisions that employ a sufficient number of school-based clerical personnel to meet this staffing requirement may assign the clerical personnel to schools within the division according to the area of greatest need, regardless of whether such schools are elementary, middle, or secondary.

Pursuant to the appropriation act, support services shall be funded from basic school aid.

School divisions may use the state and local funds for support services to provide additional instructional services.

P. Notwithstanding the provisions of this section, when determining the assignment of instructional and other licensed personnel in subsections C through J, a local school board shall not be required to include full-time students of approved virtual school programs.

[H 1275]

Approved April 2, 2020

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding a section numbered 23.1-610.1 as follows:

§ 23.1-610.1. Veteran Student Transition Grant Fund and Program.

A. *There is hereby created in the state treasury a special nonreverting fund to be known as the Veteran Student Transition Grant Fund, referred to in this section as "the Fund." The Fund shall be established on the books of the Comptroller. All funds appropriated for such purpose and any gifts, donations, grants, bequests, and other funds received on its behalf shall be paid into the state treasury and credited to the Fund. Interest earned on moneys in the Fund shall remain in the Fund and be credited to it. Any moneys remaining in the Fund, including interest thereon, at the end of each fiscal year shall not revert to the general fund but shall remain in the Fund. Moneys in the Fund shall be used solely for the purposes of providing grants through the Veteran Student Transition Grant Program established pursuant to subsection B. C. *The Council shall administer the Program and shall establish such guidelines and procedures as it deems necessary for the administration of the Program, including guidelines and procedures for grant applications, awards, and renewals.*

CHAPTER 637

An Act to amend and reenact § 22.1-253.13:1 of the Code of Virginia, relating to school boards; career and technical education; academic and career plans; contents.

[H 1276]

Approved April 2, 2020

Be it enacted by the General Assembly of Virginia:

1. That § 22.1-253.13:1 of the Code of Virginia is amended and reenacted as follows:

§ 22.1-253.13:1. Standard 1. Instructional programs supporting the Standards of Learning and other educational objectives.

A. *The General Assembly and the Board of Education believe that the fundamental goal of the public schools of the Commonwealth must be to enable each student to develop the skills that are necessary for success in school, preparation for*

life, and reaching their full potential. The General Assembly and the Board of Education find that the quality of education is dependent upon the provision of (i) the appropriate working environment, benefits, and salaries necessary to ensure the availability of high-quality instructional personnel; (ii) the appropriate learning environment designed to promote student achievement; (iii) quality instruction that enables each student to become a productive and educated citizen of Virginia and the United States of America; and (iv) the adequate commitment of other resources. In keeping with this goal, the General Assembly shall provide for the support of public education as set forth in Article VIII, Section 1 of the Constitution of Virginia.

B. The Board of Education shall establish educational objectives known as the Standards of Learning, which shall form the core of Virginia's educational program, and other educational objectives, which together are designed to ensure the development of the skills that are necessary for success in school and for preparation for life in the years beyond. At a minimum, the Board shall establish Standards of Learning for English, mathematics, science, and history and social science. The Standards of Learning shall not be construed to be regulations as defined in § 2.2-4001.

The Board shall seek to ensure that the Standards of Learning are consistent with a high-quality foundation educational program. The Standards of Learning shall include, but not be limited to, the basic skills of communication (listening, speaking, reading, and writing); computation and critical reasoning, including problem solving and decision making; proficiency in the use of computers and related technology; computer science and computational thinking, including computer coding; and the skills to manage personal finances and to make sound financial decisions.

The English Standards of Learning for reading in kindergarten through grade three shall be based on components of effective reading instruction, to include, at a minimum, phonemic awareness, phonics, fluency, vocabulary development, and text comprehension.

The Standards of Learning in all subject areas shall be subject to regular review and revision to maintain rigor and to reflect a balance between content knowledge and the application of knowledge in preparation for eventual employment and lifelong learning. The Board of Education shall establish a regular schedule, in a manner it deems appropriate, for the review, and revision as may be necessary, of the Standards of Learning in all subject areas. Such review of each subject area shall occur at least once every seven years. Nothing in this section shall be construed to prohibit the Board from conducting such review and revision on a more frequent basis.

To provide appropriate opportunity for input from the general public, teachers, and local school boards, the Board of Education shall conduct public hearings prior to establishing revised Standards of Learning. Thirty days prior to conducting such hearings, the Board shall give notice of the date, time, and place of the hearings to all local school boards and any other persons requesting to be notified of the hearings and publish notice of its intention to revise the Standards of Learning in the Virginia Register of Regulations. Interested parties shall be given reasonable opportunity to be heard and present information prior to final adoption of any revisions of the Standards of Learning.

In addition, the Department of Education shall make available and maintain a website, either separately or through an existing website utilized by the Department of Education, enabling public elementary, middle, and high school educators to submit recommendations for improvements relating to the Standards of Learning, when under review by the Board according to its established schedule, and related assessments required by the Standards of Quality pursuant to this chapter. Such website shall facilitate the submission of recommendations by educators.

School boards shall implement the Standards of Learning or objectives specifically designed for their school divisions that are equivalent to or exceed the Board's requirements. Students shall be expected to achieve the educational objectives established by the school division at appropriate age or grade levels. The curriculum adopted by the local school division shall be aligned to the Standards of Learning.

The Board of Education shall include in the Standards of Learning for history and social science the study of contributions to society of diverse people. For the purposes of this subsection, "diverse" includes consideration of disability, ethnicity, race, and gender.

The Board of Education shall include in the Standards of Learning for health instruction in emergency first aid, cardiopulmonary resuscitation, and the use of an automated external defibrillator, including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation. Such instruction shall be based on the current national evidence-based emergency cardiovascular care guidelines for cardiopulmonary resuscitation and the use of an automated external defibrillator, such as a program developed by the American Heart Association or the American Red Cross. No teacher who is in compliance with subdivision D 3 of § 22.1-298.1 shall be required to be certified as a trainer of cardiopulmonary resuscitation to provide instruction for non-certification.

With such funds as are made available for this purpose, the Board shall regularly review and revise the competencies for career and technical education programs to require the full integration of English, mathematics, science, and history and social science Standards of Learning. Career and technical education programs shall be aligned with industry and professional standard certifications, where they exist.

The Board shall establish content standards and curriculum guidelines for courses in career investigation in elementary school, middle school, and high school. Each school board shall (i) require each middle school student to take at least one course in career investigation or (ii) select an alternate means of delivering the career investigation course to each middle school student, provided that such alternative is equivalent in content and rigor and provides the foundation for such students to develop their academic and career plans. Any school board may require (a) such courses in career investigation at the high school level as it deems appropriate, subject to Board approval as required in subsection A of § 22.1-253.13:4,

and (b) such courses in career investigation at the elementary school level as it deems appropriate. The Board shall develop and disseminate to each school board career investigation resource materials that are designed to ensure that students have the ability to further explore interest in career and technical education opportunities in middle and high school. In developing such resource materials, the Board shall consult with representatives of career and technical education, industry, skilled trade associations, chambers of commerce or similar organizations, and contractor organizations.

C. Local school boards shall develop and implement a program of instruction for grades K through 12 that is aligned to the Standards of Learning and meets or exceeds the requirements of the Board of Education. The program of instruction shall emphasize reading, writing, speaking, mathematical concepts and computations, proficiency in the use of computers and related technology, computer science and computational thinking, including computer coding, and scientific concepts and processes; essential skills and concepts of citizenship, including knowledge of Virginia history and world and United States history, economics, government, foreign languages, international cultures, health and physical education, environmental issues, and geography necessary for responsible participation in American society and in the international community; fine arts, which may include, but need not be limited to, music and art, and practical arts; knowledge and skills needed to qualify for further education, gainful employment, or training in a career or technical field; and development of the ability to apply such skills and knowledge in preparation for eventual employment and lifelong learning and to achieve economic self-sufficiency.

Local school boards shall also develop and implement programs of prevention, intervention, or remediation for students who are educationally at risk including, but not limited to, those who fail to achieve a passing score on any Standards of Learning assessment in grades three through eight or who fail an end-of-course test required for the award of a verified unit of credit. Such programs shall include components that are research-based.

Any student who achieves a passing score on one or more, but not all, of the Standards of Learning assessments for the relevant grade level in grades three through eight may be required to attend a remediation program.

Any student who fails to achieve a passing score on all of the Standards of Learning assessments for the relevant grade level in grades three through eight or who fails an end-of-course test required for the award of a verified unit of credit shall be required to attend a remediation program or to participate in another form of remediation. Division superintendents shall require such students to take special programs of prevention, intervention, or remediation, which may include attendance in public summer school programs, in accordance with clause (ii) of subsection A of § 22.1-254 and § 22.1-254.01.

Remediation programs shall include, when applicable, a procedure for early identification of students who are at risk of failing the Standards of Learning assessments in grades three through eight or who fail an end-of-course test required for the award of a verified unit of credit. Such programs may also include summer school for all elementary and middle school grades and for all high school academic courses, as defined by regulations promulgated by the Board of Education, or other forms of remediation. Summer school remediation programs or other forms of remediation shall be chosen by the division superintendent to be appropriate to the academic needs of the student. Students who are required to attend such summer school programs or to participate in another form of remediation shall not be charged tuition by the school division.

The requirement for remediation may, however, be satisfied by the student's attendance in a program of prevention, intervention or remediation that has been selected by his parent, in consultation with the division superintendent or his designee, and is either (i) conducted by an accredited private school or (ii) a special program that has been determined to be comparable to the required public school remediation program by the division superintendent. The costs of such private school remediation program or other special remediation program shall be borne by the student's parent.

The Board of Education shall establish standards for full funding of summer remedial programs that shall include, but not be limited to, the minimum number of instructional hours or the equivalent thereof required for full funding and an assessment system designed to evaluate program effectiveness. Based on the number of students attending and the Commonwealth's share of the per pupil instructional costs, state funds shall be provided for the full cost of summer and other remediation programs as set forth in the appropriation act, provided such programs comply with such standards as shall be established by the Board, pursuant to § 22.1-199.2.

D. Local school boards shall also implement the following:

1. Programs in grades K through three that emphasize developmentally appropriate learning to enhance success.
2. Programs based on prevention, intervention, or remediation designed to increase the number of students who earn a high school diploma and to prevent students from dropping out of school. Such programs shall include components that are research-based.
3. Career and technical education programs incorporated into the K through 12 curricula that include:
 - a. Knowledge of careers and all types of employment opportunities, including, but not limited to, apprenticeships, entrepreneurship and small business ownership, the military, and the teaching profession, and emphasize the advantages of completing school with marketable skills;
 - b. Career exploration opportunities in the middle school grades;
 - c. Competency-based career and technical education programs that integrate academic outcomes, career guidance, and job-seeking skills for all secondary students. Programs shall be based upon labor market needs and student interest. Career guidance shall include counseling about available employment opportunities and placement services for students exiting school. Each school board shall develop and implement a plan to ensure compliance with the provisions of this subdivision. Such plan shall be developed with the input of area business and industry representatives and local comprehensive

community colleges and shall be submitted to the Superintendent of Public Instruction in accordance with the timelines established by federal law; ~~and~~

d. Annual notice on its website to enrolled high school students and their parents of (i) the availability of the postsecondary education and employment data published by the State Council of Higher Education on its website pursuant to § 23.1-204.1 and (ii) the opportunity for such students to obtain a nationally recognized career readiness certificate at a local public high school, comprehensive community college, or workforce center; *and*

e. As part of each student's academic and career plan, a list of (i) the top 100 professions in the Commonwealth by median pay and the education, training, and skills required for each such profession and (ii) the top 10 degree programs at institutions of higher education in the Commonwealth by median pay of program graduates. The Department of Education shall annually compile such lists and provide them to each local school board.

4. Educational objectives in middle and high school that emphasize economic education and financial literacy pursuant to § 22.1-200.03.

5. Early identification of students with disabilities and enrollment of such students in appropriate instructional programs consistent with state and federal law.

6. Early identification of gifted students and enrollment of such students in appropriately differentiated instructional programs.

7. Educational alternatives for students whose needs are not met in programs prescribed elsewhere in these standards. Such students shall be counted in average daily membership (ADM) in accordance with the regulations of the Board of Education.

8. Adult education programs for individuals functioning below the high school completion level. Such programs may be conducted by the school board as the primary agency or through a collaborative arrangement between the school board and other agencies.

9. A plan to make achievements for students who are educationally at risk a divisionwide priority that shall include procedures for measuring the progress of such students.

10. An agreement for postsecondary degree attainment with a comprehensive community college in the Commonwealth specifying the options for students to complete an associate degree or a one-year Uniform Certificate of General Studies from a comprehensive community college concurrent with a high school diploma. Such agreement shall specify the credit available for dual enrollment courses and Advanced Placement courses with qualifying exam scores of three or higher.

11. A plan to notify students and their parents of the availability of dual enrollment and advanced placement classes; career and technical education programs, including internships, externships, apprenticeships, credentialing programs, certification programs, licensure programs, and other work-based learning experiences; the International Baccalaureate Program and Academic Year Governor's School Programs; the qualifications for enrolling in such classes, programs, and experiences; and the availability of financial assistance to low-income and needy students to take the advanced placement and International Baccalaureate examinations. This plan shall include notification to students and parents of the agreement with a comprehensive community college in the Commonwealth to enable students to complete an associate degree or a one-year Uniform Certificate of General Studies concurrent with a high school diploma.

12. Identification of students with limited English proficiency and enrollment of such students in appropriate instructional programs, which programs may include dual language programs whereby such students receive instruction in English and in a second language.

13. Early identification, diagnosis, and assistance for students with reading and mathematics problems and provision of instructional strategies and reading and mathematics practices that benefit the development of reading and mathematics skills for all students.

Local school divisions shall provide reading intervention services to students in kindergarten through grade three who demonstrate deficiencies based on their individual performance on the Standards of Learning reading test or any reading diagnostic test that meets criteria established by the Department of Education. Local school divisions shall report the results of the diagnostic tests to the Department of Education on an annual basis, at a time to be determined by the Superintendent of Public Instruction. Each student who receives early intervention reading services will be assessed again at the end of that school year. The local school division, in its discretion, shall provide such reading intervention services prior to promoting a student from grade three to grade four. Reading intervention services may include the use of: special reading teachers; trained aides; volunteer tutors under the supervision of a certified teacher; computer-based reading tutorial programs; aides to instruct in-class groups while the teacher provides direct instruction to the students who need extra assistance; and extended instructional time in the school day or school year for these students. Funds appropriated for prevention, intervention, and remediation; summer school remediation; at-risk; or early intervention reading may be used to meet the requirements of this subdivision.

Local school divisions shall provide algebra readiness intervention services to students in grades six through nine who are at risk of failing the Algebra I end-of-course test, as demonstrated by their individual performance on any diagnostic test that has been approved by the Department of Education. Local school divisions shall report the results of the diagnostic tests to the Department of Education on an annual basis, at a time to be determined by the Superintendent of Public Instruction. Each student who receives algebra readiness intervention services will be assessed again at the end of that school year.

Funds appropriated for prevention, intervention, and remediation; summer school remediation; at-risk; or algebra readiness intervention services may be used to meet the requirements of this subdivision.

14. Incorporation of art, music, and physical education as a part of the instructional program at the elementary school level.

15. A program of physical activity available to all students in grades kindergarten through five consisting of at least 20 minutes per day or an average of 100 minutes per week during the regular school year and available to all students in grades six through 12 with a goal of at least 150 minutes per week on average during the regular school year. Such program may include any combination of (i) physical education classes, (ii) extracurricular athletics, (iii) recess, or (iv) other programs and physical activities deemed appropriate by the local school board. Each local school board shall implement such program during the regular school year.

16. A program of student services for kindergarten through grade 12 that shall be designed to aid students in their educational, social, and career development.

17. The collection and analysis of data and the use of the results to evaluate and make decisions about the instructional program.

18. A program of instruction in the high school Virginia and U.S. Government course on all information and concepts contained in the civics portion of the U.S. Naturalization Test.

E. From such funds as may be appropriated or otherwise received for such purpose, there shall be established within the Department of Education a unit to (i) conduct evaluative studies; (ii) provide the resources and technical assistance to increase the capacity for school divisions to deliver quality instruction; and (iii) assist school divisions in implementing those programs and practices that will enhance pupil academic performance and improve family and community involvement in the public schools. Such unit shall identify and analyze effective instructional programs and practices and professional development initiatives; evaluate the success of programs encouraging parental and family involvement; assess changes in student outcomes prompted by family involvement; and collect and disseminate among school divisions information regarding effective instructional programs and practices, initiatives promoting family and community involvement, and potential funding and support sources. Such unit may also provide resources supporting professional development for administrators and teachers. In providing such information, resources, and other services to school divisions, the unit shall give priority to those divisions demonstrating a less than 70 percent passing rate on the Standards of Learning assessments.

F. Each local school board may enter into agreements for postsecondary course credit, credential, certification, or license attainment, hereinafter referred to as College and Career Access Pathways Partnerships (Partnerships), with comprehensive community colleges or other public institutions of higher education or educational institutions established pursuant to Title 23.1 that offer a career and technical education curriculum. [H 1630]

Approved April 2, 2020

Be it enacted by the General Assembly of Virginia:

1. That § 22.1-298.1 of the Code of Virginia is amended and reenacted as follows:

§ 22.1-298.1. Regulations governing licensure.

"Alternate route to licensure" means a nontraditional route to teacher licensure available to individuals who meet the criteria specified in the guidelines developed pursuant to subsection N or regulations issued by the Board of Education.

"Industry certification credential" means an active career and technical education credential that is earned by successfully completing a Board of Education-approved industry certification examination, being issued a professional license in the Commonwealth, or successfully completing an occupational competency examination.

"Licensure by reciprocity" means a process used to issue a license to an individual coming into the Commonwealth from another state when that individual meets certain conditions specified in the Board of Education's regulations.

"Professional teacher's assessment" means those tests mandated for licensure as prescribed by the Board of Education.

"Provisional license" means a nonrenewable license issued by the Board of Education for a specified period of time, not to exceed three years, to an individual who may be employed by a school division in the Commonwealth and who generally meets the requirements specified in the Board of Education's regulations for licensure, but who may need to take additional coursework, pass additional assessments, or meet alternative evaluation standards to be fully licensed with a renewable license.

"Renewable license" means a license issued by the Board of Education for 10 years to an individual who meets the requirements specified in the Board of Education's regulations.

B. The Board of Education shall prescribe, by regulation, the requirements for the licensure of teachers and other school personnel required to hold a license. Such regulations shall include procedures for (i) the denial, suspension, cancellation, revocation, and reinstatement of licensure; (ii) written reprimand of license holders, notice of which shall be made by the Superintendent of Public Instruction to division superintendents or their designated representatives; and (iii) immediate and thorough investigation by the division superintendent or his designee of any complaint alleging that a license holder has engaged in conduct that may form the basis for the revocation of his license. The Board of Education shall revoke the license of any person for whom it has received a notice of dismissal or resignation pursuant to subsection F of § 22.1-313 and, in the case of a person who is the subject of a founded complaint of child abuse or neglect, after all rights to any administrative appeal provided by § 63.2-1526 have been exhausted. Regardless of the authority of any other agency of the Commonwealth to approve educational programs, only the Board of Education shall have the authority to license teachers to be regularly employed by school boards, including those teachers employed to provide nursing education.

The Board of Education shall prescribe by regulation the licensure requirements for teachers who teach only online courses, as defined in § 22.1-212.23. G. Each local school board or division superintendent may waive for any individual whom it seeks to employ as a career and technical education teacher and who is also seeking initial licensure or renewal of a license with an endorsement in the area of career and technical education any applicable requirement set forth in subsection C or subdivision D 2, 4, or 6.

H. The Board's regulations shall require that initial licensure for principals and assistant principals be contingent upon passage of an assessment as prescribed by the Board.

I. The Board shall establish criteria in its regulations to effectuate the substitution of experiential learning for coursework for those persons seeking initial licensure through an alternate route as defined in Board regulations. The curriculum of any such alternative certification program shall be approved by the Board. CHAPTER 645

An Act to amend and reenact § 33.2-319 of the Code of Virginia, relating to Town of Dublin, highway maintenance.

[H 1611]

Approved April 2, 2020

Be it enacted by the General Assembly of Virginia:

1. That § 33.2-319 of the Code of Virginia is amended and reenacted as follows:

§ 33.2-319. Payments to cities and certain towns for maintenance of certain highways.

A. The Commissioner of Highways, subject to the approval of the Board, shall make payments for maintenance, construction, or reconstruction of highways to all cities and towns eligible for funds under this section. Such payments, however, shall only be made if those highways functionally classified as principal and minor arterial roads are maintained to a standard satisfactory to the Department. Whenever any city or town qualifies under this section for allocation of funds, such qualification shall continue to apply to such city or town regardless of any subsequent change in population and shall cease to apply only when so specifically provided by an act of the General Assembly.

Funds are allocated to urban highways in (i) all towns that have a population of more than 3,500 according to the last preceding United States census; (ii) all towns that, according to evidence satisfactory to the Board, have attained a population of more than 3,500 since the last preceding United States census; (iii) Chase City, Elkton, Grottoes, Narrows, Pearisburg, and Saltville, which, on June 30, 1985, maintained certain streets under former § 33.1-80 as then in effect; (iv) all cities regardless of their populations; and (v) the Towns of Altavista, *Dublin*, Lebanon, and Wise.

B. No payments shall be made to any such city or town unless the portion of the highway for which such payment is made either (i) has (a) an unrestricted right-of-way at least 50 feet wide and (b) a hard-surface width of at least 30 feet; (ii) has (a) an unrestricted right-of-way at least 80 feet wide, (b) a hard-surface width of at least 24 feet, and (c) approved engineering plans for the ultimate construction of an additional hard-surface width of at least 24 feet within the same right-of-way; (iii)(a) is a cul-de-sac, (b) has an unrestricted right-of-way at least 40 feet wide, and (c) has a turnaround that meets applicable standards set by the Department; (iv) either (a) has been paved and has constituted part of the primary or secondary state highway system prior to annexation or incorporation or (b) has constituted part of the secondary state highway system prior to annexation or incorporation and is paved to a minimum width of 16 feet subsequent to such annexation or incorporation and with the further exception of streets or portions thereof that have previously been maintained under the provisions of § 33.2-339 or 33.2-340; (v) was eligible for and receiving such payments under the laws of the Commonwealth in effect on June 30, 1985; (vi) is a street established prior to July 1, 1950, that has an unrestricted right-of-way width of not less than 30 feet and a hard-surface width of not less than 16 feet; (vii) is a street functionally

classified as a local street that was constructed on or after January 1, 1996, and that at the time of approval by the city or town met the criteria for pavement width and right-of-way of the then-current design standards for subdivision streets as set forth in regulations adopted by the Board; (viii) is a street previously eligible to receive street payments that is located in the City of Norfolk or the City of Richmond and is closed to public travel, pursuant to legislation enacted by the governing body of the locality in which it is located, for public safety reasons, within the boundaries of a publicly funded housing development owned and operated by the local housing authority; or (ix) is a local street, otherwise eligible, containing one or more physical protuberances placed within the right-of-way for the purpose of controlling the speed of traffic.

However, the Commissioner of Highways may waive the requirements as to hard-surface pavement or right-of-way width for highways where the width modification is at the request of the governing body of the locality and is to protect the quality of the affected locality's drinking water supply or, for highways constructed on or after July 1, 1994, to accommodate some other special circumstance where such action would not compromise the health, safety, or welfare of the public. The modification is subject to such conditions as the Commissioner of Highways may prescribe.

C. For the purpose of calculating allocations and making payments under this section, the Department shall divide affected highways into two categories, which shall be distinct from but based on functional classifications established by the Federal Highway Administration: (i) principal and minor arterial roads and (ii) collector roads and local streets. Payments made to affected localities shall be based on the number of moving-lane-miles of highways or portions thereof available to peak-hour traffic in that locality.

D. Any city converting an existing moving-lane that qualifies for payments under this section to a transit-only lane after July 1, 2014, shall remain eligible for such payments but shall not receive additional funds as a result of such conversion. Any city or town converting an existing moving-lane that qualifies for payments under this section to a bicycle-only lane after July 1, 2014, shall remain eligible for such payments, provided that (i) the number of moving-lane-miles converted is not more than 50 moving-lane-miles or three percent of the city's or town's total number of moving-lane-miles on July 1, 2014, whichever is less, and (ii) prior to any such conversion, the city or town certifies that the conversion design has been assessed by a professional engineer licensed in the Commonwealth pursuant to Chapter 4 (§ 54.1-400 et seq.) of Title 54.1 and that the assessment has demonstrated that (a) the level of service of the street to be converted will not be reduced or if it will be reduced that the associated roadway network will retain adequate capacity to meet current and future mobility needs of all users and (b) the conversion has been designed in accordance with the National Association of City Transportation Officials' Urban Bikeway Design Guide. Any such city or town shall not receive additional funds as a result of such conversion to a bicycle-only lane and shall annually expend funds on road and street maintenance and operations that are at least equal to funds spent on road and street maintenance and operations in the year prior to such conversion. For purposes of this subsection, "level of service" has the meaning provided in the Transportation Research Board's Highway Capacity Manual.

E. The Department shall recommend to the Board an annual rate per category to be computed using the base rate of growth planned for the Department's Highway Maintenance and Operations program. The Board shall establish the annual rates of such payments as part of its allocation for such purpose, and the Department shall use those rates to calculate and put into effect annual changes in each qualifying city's or town's payment under this section.

The payments by the Department shall be paid in equal sums in each quarter of the fiscal year, and payments shall not exceed the allocation of the Board.

F. The chief administrative officer of the city or town receiving these funds shall make annual categorical reports of expenditures to the Department, in such form as the Board shall prescribe, accounting for all expenditures, certifying that none of the money received has been expended for other than maintenance, construction, or reconstruction of the streets, and reporting on their performance as specified in subsection B of § 33.2-352. Such reports shall be included in the scope of the annual audit of each municipality conducted by independent certified public accountants.

B. The court or the jury, if a jury is requested, shall hear the petition for the appointment of a guardian or conservator. The hearing may be held at such convenient place as the court directs, including the place where the respondent is located. The hearing shall be conducted within 120 days from the filing of the petition unless the court postpones it for cause. The proposed guardian or conservator shall attend the hearing except for good cause shown and, where appropriate, shall provide the court with a recommendation as to living arrangements and a treatment plan for the respondent. The respondent is entitled to be present at the hearing and all other stages of the proceedings. The respondent shall be present if he so requests or if his presence is requested by the guardian ad litem. Whether or not present, the respondent shall be regarded as having denied the allegations in the petition.

C. In determining the need for a guardian or a conservator and the powers and duties of any guardian or conservator, if needed, consideration shall be given to the following factors: (i) the limitations of the respondent; (ii) the development of the respondent's maximum self-reliance and independence; (iii) the availability of less restrictive alternatives, including advance directives and durable powers of attorney; (iv) the extent to which it is necessary to protect the respondent from neglect, exploitation, or abuse; (v) the actions needed to be taken by the guardian or conservator; (vi) the suitability of the proposed guardian or conservator; and (vii) the best interests of the respondent.

Such prohibition also applies to all other attorneys and employees of the law firm with which such attorney is associated.*

The court shall require the proposed guardian or conservator to certify at the time of appointment that he has disclosed to the court any such representation of the petitioner or association with a law firm that represented the petitioner within the three calendar years preceding the appointment. Compensation paid by a petitioner to an attorney or law firm for serving as a guardian or conservator shall not constitute representation of the petitioner by such attorney or law firm. In the case of a petitioner that is a medical care facility as defined in § 32.1-102.1, the court may, for good cause shown, order that the reasonable costs for the guardian or conservator be paid by the petitioner during the time the respondent is under the care of such medical care facility.

The court in its order shall make specific findings of fact and conclusions of law in support of each provision of any orders entered.

CHAPTER 651

An Act to amend and reenact §§ 16.1-278.17:1 and 20-103 of the Code of Virginia, relating to pendente lite spousal support; guidelines.

[H 1500]

Approved April 6, 2020

Be it enacted by the General Assembly of Virginia:

1. That §§ 16.1-278.17:1 and 20-103 of the Code of Virginia are amended and reenacted as follows:

§ 16.1-278.17:1. Formula for determination of pendente lite spousal support.

A. There shall be a presumption in any judicial proceeding for pendente lite spousal support and maintenance under this title that the amount of the award that would result from the application of the formula set forth in this section is the correct amount of spousal support to be awarded. The court may deviate from the presumptive amount as provided in subsection D.

B. If the court is determining both an award of pendente lite spousal support and maintenance and an award of child support, the court shall first make a determination of the amount of the award of pendente lite spousal support, if any, owed by one party to the other under this section.

C. If the parties have minor children in common, the presumptive amount of an award of pendente lite spousal support and maintenance shall be the difference between ~~28%~~ 26 percent of the payor spouse's monthly gross income and 58% percent of the payee spouse's monthly gross income. If the parties have no minor children in common, the presumptive amount of the award shall be the difference between ~~30%~~ 27 percent of the payor spouse's monthly gross income and 50% percent of the payee spouse's monthly gross income. For the purposes of this section, monthly gross income shall have the same meaning as it does in section § 20-108.2; ~~as amended.~~

D. The court may deviate from the presumptive amount for good cause shown, including any relevant evidence relating to the parties' current financial circumstances or *the impact of any tax exemption and any credits resulting from such exemption* that indicates the presumptive amount is inappropriate.

E. The *presumptive* formula set forth in this section shall only apply to cases where the parties' combined monthly gross income does not exceed \$10,000.

§ 20-103. Court may make orders pending suit for divorce, custody or visitation, etc.

A. In suits for divorce, annulment and separate maintenance, and in proceedings arising under subdivision A 3 or subsection L of § 16.1-241, the court having jurisdiction of the matter may, at any time pending a suit pursuant to this chapter, in the discretion of such court, make any order that may be proper (i) to compel a spouse to pay any sums necessary for the maintenance and support of the petitioning spouse, including (a) an order that the other spouse provide health care coverage for the petitioning spouse, unless it is shown that such coverage cannot be obtained, or (b) an order that a party pay secured or unsecured debts incurred jointly or by either party, (ii) to enable such spouse to carry on the suit, (iii) to prevent either spouse from imposing any restraint on the personal liberty of the other spouse, (iv) to provide for the custody and maintenance of the minor children of the parties, including an order that either party or both parties provide health care coverage or cash medical support, or both, for the children, (v) to provide support, calculated in accordance with § 20-108.2, for any child of the parties to whom a duty of support is owed and to pay or continue to pay support for any child over the age of 18 who meets the requirements set forth in subsection C of § 20-124.2, (vi) for the exclusive use and possession of the family residence during the pendency of the suit, (vii) to preserve the estate of either spouse, so that it be forthcoming to meet any decree which may be made in the suit, (viii) to compel either spouse to give security to abide such decree, or (ix)(a) to compel a party to maintain any existing policy owned by that party insuring the life of either party or to require a party to name as a beneficiary of the policy the other party or an appropriate person for the exclusive use and benefit of the minor children of the parties and (b) to allocate the premium cost of such life insurance between the parties, provided that all premiums are billed to the policyholder. Nothing in clause (ix) shall be construed to create an independent cause of action on the part of any beneficiary against the insurer or to require an insurer to provide information relating to such policy to any person other than the policyholder without the written consent of the policyholder. The parties to any petition where a child whose custody, visitation, or support is contested shall show proof that they have attended within the 12 months prior to their court appearance or that they shall attend within 45 days thereafter an educational seminar or other like program conducted by a qualified person or organization approved by the court except that the court may require the parties to attend such seminar or program in uncontested cases only if the court finds good cause. The seminar or other program shall be a minimum of four hours in length and shall address the effects of separation or divorce on children, parenting responsibilities, options for conflict resolution and financial responsibilities. Once a party has completed one educational seminar or other like program, the required completion of additional programs shall be at the court's discretion. Parties under this section shall include natural or adoptive parents of the child, or any person with a legitimate interest as defined in § 20-124.1. The fee charged a party for participation in such program shall be based on the party's ability to pay; however, no fee in excess of \$50 may be charged. Whenever possible, before participating in mediation or alternative dispute resolution to address custody, visitation or support, each party shall have attended the educational seminar or other like program. The court may grant an exemption from attendance of such program for good cause shown or if there is no program reasonably available. Other than statements or admissions by a party admitting criminal activity or child abuse, no

statement or admission by a party in such seminar or program shall be admissible into evidence in any subsequent proceeding.

A1. Any award or order made by the court pursuant to subsection A shall be paid from the post-separation income of the obligor unless the court, for good cause shown, orders otherwise. Upon the request of either party, the court may identify and state in such order or award the specific source from which the financial obligation imposed is to be paid.

B. In addition to the terms provided in subsection A, upon a showing by a party of reasonable apprehension of physical harm to that party by such party's family or household member as that term is defined in § 16.1-228, and consistent with rules of the Supreme Court of Virginia, the court may enter an order excluding that party's family or household member from the jointly owned or jointly rented family dwelling. In any case where an order is entered under this paragraph, pursuant to an ex parte hearing, the order shall not exclude a family or household member from the family dwelling for a period in excess of 15 days from the date the order is served, in person, upon the person so excluded. The order may provide for an extension of time beyond the 15 days, to become effective automatically. The person served may at any time file a written motion in the clerk's office requesting a hearing to dissolve or modify the order. Nothing in this section shall be construed to prohibit the court from extending an order entered under this subsection for such longer period of time as is deemed appropriate, after a hearing on notice to the parties. If the party subject to the order fails to appear at this hearing, the court may extend the order for a period not to exceed six months.

C. In cases other than those for divorce in which a custody or visitation arrangement for a minor child is sought, the court may enter an order providing for custody, visitation or maintenance pending the suit as provided in subsection A. The order shall be directed to either parent or any person with a legitimate interest who is a party to the suit.

D. Orders entered pursuant to this section which provide for custody or visitation arrangements pending the suit shall be made in accordance with the standards set out in Chapter 6.1 (§ 20-124.1 et seq.). Orders entered pursuant to subsection B shall be certified by the clerk and forwarded as soon as possible to the local police department or sheriff's office which shall, on the date of receipt, enter the name of the person subject to the order and other appropriate information required by the Department of State Police into the Virginia crime information network system established and maintained by the Department of State Police pursuant to Chapter 2 (§ 52-12 et seq.) of Title 52. If the order is later dissolved or modified, a copy of the dissolution or modification shall also be certified, forwarded and entered in the system as described above.

E. *There shall be a presumption in any judicial proceeding for pendente lite spousal support and maintenance under this section that the amount of the award that would result from the application of the formula set forth in this section is the correct amount of spousal support to be awarded. The court may deviate from the presumptive amount as provided in subsection H.*

F. *If the court is determining both an award of pendente lite spousal support and maintenance and an award of child support, the court shall first make a determination of the amount of the award of pendente lite spousal support, if any, owed by one party to the other under this section.*

G. *If the parties have minor children in common, the presumptive amount of an award of pendente lite spousal support and maintenance shall be the difference between 26 percent of the payor spouse's monthly gross income and 58 percent of the payee spouse's monthly gross income. If the parties have no minor children in common, the presumptive amount of the award shall be the difference between 27 percent of the payor spouse's monthly gross income and 50 percent of the payee spouse's monthly gross income. For the purposes of this section, monthly gross income shall have the same meaning as it does in section § 20-108.2.*

H. *The court may deviate from the presumptive amount for good cause shown, including any relevant evidence relating to the parties' current financial circumstances or the impact of any tax exemption and any credits resulting from such exemptions that indicates the presumptive amount is inappropriate.*

I. *The presumptive formula set forth in this section shall only apply to cases where the parties' combined monthly gross income does not exceed \$10,000.*

J. An order entered pursuant to this section shall have no presumptive effect and shall not be determinative when adjudicating the underlying cause.

2. That the provisions of this act shall apply only to suits commenced on or after July 1, 2020, and that the provisions of this act shall not be construed to create a material change in circumstances for the purposes of modifying an existing support order.

A. 1. Each electric utility that purchases fuel for the generation of electricity or purchases power and that was not, as of July 1, 1999, bound by a rate case settlement adopted by the Commission that extended in its application beyond January 1, 2002, shall submit to the Commission its estimate of fuel costs, including the cost of purchased power, for the 12-month period beginning on the date prescribed by the Commission. Upon investigation of such estimates and hearings in accordance with law, the Commission shall direct each company to place in effect tariff provisions designed to recover the fuel costs determined by the Commission to be appropriate for that period, adjusted for any over-recovery or under-recovery of fuel costs previously incurred.

2. The Commission shall continuously review fuel costs and if it finds that any utility described in subdivision A 1 is in an over-recovery position by more than five percent, or likely to be so, it may reduce the fuel cost tariffs to correct the over-recovery.

3. Beginning July 1, 2009, for all utilities described in subdivision A 1 and subsection B, if the Commission approves any increase in fuel factor charges pursuant to this section that would increase the total rates of the residential class of customers of any such utility by more than 20 percent, the Commission, within six months following the effective date of such increase, shall review fuel costs, and if the Commission finds that the utility is, or is likely to be, in an over-recovery position with respect to fuel costs for the 12-month period for which the increase in fuel factor charges was approved by more than five percent, it may reduce the utility's fuel cost tariffs to correct the over-recovery.

B. All fuel costs recovery tariff provisions in effect on January 1, 2004, for any electric utility that purchases fuel for the generation of electricity and that was, as of July 1, 1999, bound by a rate case settlement adopted by the Commission that extended in its application beyond January 1, 2002, shall remain in effect until the later of (i) July 1, 2007 or (ii) the establishment of tariff provisions under subsection C. Any such utility shall continue to report to the Commission annually its actual fuel costs, including the cost of purchased power.

C. Each electric utility described in subsection B shall submit annually to the Commission its estimate of fuel costs, including the cost of purchased power, for successive 12-month periods beginning on July 1, 2007, and each July 1 thereafter. Upon investigation of such estimates and hearings in accordance with law, the Commission shall direct each such utility to place in effect tariff provisions designed to recover the fuel costs determined by the Commission to be appropriate for such periods, adjusted for any over-recovery or under-recovery of fuel costs previously incurred; however, (i) no such adjustment for any over-recovery or under-recovery of fuel costs previously incurred shall be made for any period prior to July 1, 2007, and (ii) the Commission shall order that the deferral portion, if any, of the total increase in fuel tariffs for all classes as determined by the Commission to be appropriate for the 12-month period beginning July 1, 2007, above the fuel tariffs previously existing, shall be deferred without interest and recovered from all classes of customers as follows: (i) in the 12-month period beginning July 1, 2008, that part of the deferral portion of the increase in fuel tariffs that the Commission determines would increase the total rates of the residential class of customers of the utility by four percent over the level of such total rates in existence on June 30, 2008, shall be recovered; (ii) in the 12-month period beginning July 1, 2009, that part of the balance of the deferral portion of the increase in fuel tariffs, if any, that the Commission determines would increase the total rates of the residential class of customers of the utility by four percent over the level of such total rates in existence on June 30, 2009, shall be recovered; and (iii) in the 12-month period beginning July 1, 2010, the entire balance of the deferral portion of the increase in fuel tariffs, if any, shall be recovered. The "deferral portion of the increase in fuel tariffs" means the portion of such increase in fuel tariffs that exceeds the amount of such increase in fuel tariffs that the Commission determines would increase the total rates of the residential class of customers of the utility by more than four percent over the level of such total rates in existence on June 30, 2007.

D. In proceedings under subsections A and C:

1. Energy revenues associated with off-system sales of power shall be credited against fuel factor expenses in an amount equal to the total incremental fuel factor costs incurred in the production and delivery of such sales. In addition, 75 percent of the total annual margins from off-system sales shall be credited against fuel factor expenses; however, the Commission, upon application and after notice and opportunity for hearing, may require that a smaller percentage of such margins be so credited if it finds by clear and convincing evidence that such requirement is in the public interest. The remaining margins from off-system sales shall not be considered in the biennial reviews of electric utilities conducted pursuant to § 56-585.1. In the event such margins result in a net loss to the electric utility, (i) no charges shall be applied to fuel factor expenses and (ii) any such net losses shall not be considered in the biennial reviews of electric utilities conducted

pursuant to § 56-585.1. For purposes of this subsection, "margins from off-system sales" shall mean the total revenues received from off-system sales transactions less the total incremental costs incurred; and

2. The Commission shall disallow recovery of any fuel costs that it finds without just cause to be the result of failure of the utility to make every reasonable effort to minimize fuel costs or any decision of the utility resulting in unreasonable fuel costs, giving due regard to reliability of service and the need to maintain reliable sources of supply, economical generation mix, generating experience of comparable facilities, and minimization of the total cost of providing service.

In any proceeding for the recovery of fuel costs under this subdivision in which the costs a utility seeks to recover include costs incurred under a natural gas capacity contract for a term of more than 10 years that procures more than 250,000 dekatherms per day that has not previously been subject to a review under this subdivision, the Commission shall require the utility to prove by a preponderance of the evidence that the utility has (i) determined that the utility cannot meet its service obligations, giving due regard, in the Commission's sole discretion, to reliability of service and the need to maintain reliable sources of supply, without an additional fuel resource; (ii) reasonably identified and determined the date and amount of the new fuel resource it needs; (iii) objectively studied available alternative fuel resource options, as verified by the Commission, including options other than a new natural gas capacity contract or contracts to meet the identified and determined need; and (iv) determined that the natural gas capacity contract or contracts are the lowest-cost available option, taking into consideration fixed and variable costs and a reasonable projection of utilization. Absent the Commission's finding that the utility has proven by a preponderance of the evidence that the utility had complied with the requirements of clauses (i), (ii), (iii), and (iv), the Commission shall deny the utility's recovery of such costs. Nothing in this subdivision shall limit the Commission's discretion to review and make a determination as to the reasonableness of the recovery by a utility of costs, including costs incurred under a natural gas capacity contract, that were previously subject to a review under this subdivision.

E. The Commission is authorized to promulgate, in accordance with the provisions of this section, all rules and regulations necessary to allow the recovery by electric utilities of all of their prudently incurred fuel costs under subsections A and C, including the cost of purchased power, as precisely and promptly as possible, with no over-recovery or under-recovery, except as provided in subsection C, in a manner that will tend to assure public confidence and minimize abrupt changes in charges to consumers.

CHAPTER 662

An Act to direct the State Corporation Commission to determine when electric utilities should retire coal-fired or natural gas-fired electric generation facilities.

[H 528]

Approved April 6, 2020

Be it enacted by the General Assembly of Virginia:

1. *§ 1. Notwithstanding any other provision of law, the State Corporation Commission shall determine the amortization period for recovery of any appropriate costs due to the early retirement of any electric generation facilities owned or operated by any Phase I Utility or Phase II Utility, as such terms are defined in subdivision A 1 of § 56-585.1 of the Code of Virginia. In making such determination, the State Corporation Commission shall (i) perform an independent analysis of the remaining undepreciated capital costs; (ii) establish a recovery period that best serves ratepayers; and (iii) allow for the recovery of any carrying costs that the Commission deems appropriate.*

CHAPTER 663

An Act to amend and reenact § 56-585.1:3 of the Code of Virginia, relating to electric utilities; community solar development pilot program; facilities in low-income communities.

[H 573]

Approved April 6, 2020

Be it enacted by the General Assembly of Virginia:

1. **That § 56-585.1:3 of the Code of Virginia is amended and reenacted as follows:**

§ 56-585.1:3. Pilot programs for community solar development.

A. As used in this section:

"Eligible generation facility" means an electrical generation facility that:

1. Exclusively uses energy derived from sunlight;
2. Is placed in service on or after July 1, 2017;
3. Is not constructed by an investor-owned utility and either (i) is acquired by an investor-owned utility through an asset purchase agreement or (ii) is subject to a power purchase agreement under which an investor-owned utility purchases the facility's output from a third party; and
4. Has a generating capacity of:
 - a. Not more than two megawatts; or

b. More than two megawatts if not more than two megawatts of the output from the electrical generation facility is selected in an investor-owned utility's RFP for dedication to its pilot program.

"Generating capacity" means an electrical generation facility's nameplate rated capacity measured in direct current megawatts.

"Investor-owned utility" means an electric utility that is a Phase I Utility or a Phase II Utility.

"Low-income community" means a census tract within the Commonwealth designated by the U.S. Department of Housing and Urban Development in 2019 or any year thereafter as a qualified census tract for purposes of the Low-Income Housing Tax Credit pursuant to § 42 of the Internal Revenue Code.

"Participating generating facility" means an eligible generation facility that is selected by an investor-owned utility through its RFP for inclusion in its pilot program.

"Participating third party" means, for investor-owned utilities, a Virginia nonresidential-class customer, an affiliate, a solar development entity, or a nonjurisdictional customer that takes on the obligation, as part of a variable-output contract, of pilot program costs not recovered through the voluntary companion rate schedule as specified in subdivision B 8.

"Participating utility" means (i) each investor-owned utility and (ii) any utility consumer services cooperative that elects to conduct a pilot program under subsection C.

"Phase I Utility" means an investor-owned incumbent electric utility that was, as of July 1, 1999, not bound by a rate case settlement adopted by the Commission that extended in its application beyond January 1, 2002.

"Phase II Utility" means an investor-owned incumbent electric utility that was, as of July 1, 1999, bound by a rate case settlement adopted by the Commission that extended in its application beyond January 1, 2002.

"Pilot program" means a community solar pilot program conducted by a participating utility pursuant to this section following approval by the Commission, under which the participating utility sells electric power to subscribing customers under a voluntary companion rate schedule and the participating utility generates or purchases electric power from participating generation facilities selected by the participating utility.

"Pilot program costs" means all of a participating utility's identified, projected, and actual costs of its pilot program, including costs for (i) purchased power; (ii) renewable and other environmental attributes; (iii) transmission and distribution services; (iv) generating capacity and energy balancing; (v) RFP process costs; (vi) administrative and marketing charges; (vii) capital costs and operations and maintenance expenses related to building, owning, and operating eligible generating facilities; and (viii) a reasonable margin, which margin shall be the weighted average cost of capital.

"Pilot program period" means the three-year period ending three years following the date the first subscription is entered into by a customer.

"RFP" means the request for proposal process conducted by an investor-owned utility.

"Small eligible generation facility" means an eligible generation facility with a generating capacity of less than 0.5 megawatt.

"Solar development entity" means a business entity organized primarily for the purpose of proposing, developing, constructing, purchasing, or selling at wholesale all or part of the output of an eligible generation facility. A solar development entity may be organized in any form and may be a special purpose entity.

"Utility aggregation cooperative" has the same meaning ascribed to "cooperative" in § 56-231.38.

"Utility consumer services cooperative" has the same meaning ascribed to "cooperative" in § 56-231.15.

"Voluntary companion rate schedule" means a rate schedule approved by the Commission upon application by a participating utility that provides for the recovery of the pilot program costs by the participating utility.

B. Notwithstanding the provisions of subsection B of § 56-234 and §§ 56-249.6 and 56-585.1, each investor-owned utility shall conduct a pilot program for retail customers as follows:

1. Each investor-owned utility shall design its own pilot program and within six months of receiving Commission approval shall make subscriptions for participation in its pilot program available to its retail customers on a voluntary basis.

2. An investor-owned utility shall select eligible generating facilities for dedication to its pilot program through an RFP process, under which process:

a. Each investor-owned utility shall have issued one or more public RFPs for eligible generating facilities and the purchase of all energy output and associated renewable energy certificates and other environmental attributes.

b. Each RFP shall:

(1) State the price and non-price criteria used by the investor-owned utility in selecting proposals for dedication to its pilot program; and

(2) Require as a criterion for selection that eligible generating facilities with a combined generating capacity of not less than two megawatts, and any eligible generating facility with a generating capacity of more than two megawatts, be first placed in service on or after July 1, 2017.

c. Each investor-owned utility is authorized to select, under an asset purchase or power purchase agreement, small eligible generating facilities for dedication to its pilot program without regard to whether price criteria are satisfied by their selection if the selection of the small eligible generating facilities (i) materially advances non-price criteria, including a criterion favoring geographic distribution of eligible generating facilities, provided that the generating capacity of small eligible generating facilities does not exceed 25 percent of the utility's pilot program's minimum generating capacity specified in subdivision 3, or (ii) is located in a low-income community as provided in subdivision 15.

d. An investor-owned utility shall not select through its RFP an electrical generation facility with a generating capacity of more than two megawatts for its pilot program unless (i) the costs can be appropriately documented for the portion of the facility's output, which portion shall not exceed two megawatts, that is dedicated to the pilot program and (ii) for a Phase II Utility only, the portion of the facility's generating capacity selected pursuant to this subdivision does not exceed 50 percent of the investor-owned utility's pilot program's minimum generating capacity specified in subdivision 3. The portion of the facility's generating capacity that exceeds the portion of the facility's generating capacity that is selected pursuant to this subdivision shall not be applied in determining whether the pilot program satisfies requirements of subdivision 3 regarding a pilot program's minimum generating capacity.

e. In selecting eligible generating facilities for dedication to its pilot program, an investor-owned utility shall give due consideration to relative costs, economic development benefits, and geographic diversity of eligible generating facilities *and ensure that the selection of such facilities complies with the requirements of subdivision 15 regarding the location of eligible generating facilities in low-income communities.*

f. The investor-owned utility's application to the Commission shall include a description of the application of the price and non-price criteria in the investor-owned utility's selection of participating generating facilities from among the proposals submitted in response to the RFP.

3. The amount of generating capacity of the eligible generating facilities in an investor-owned utility's pilot program shall not be less than (i) 0.5 megawatt if the pilot program is conducted by a Phase I Utility or (ii) 10 megawatts if the pilot program is conducted by a Phase II Utility.

4. The amount of generating capacity of the eligible generating facilities in an investor-owned utility's pilot program shall not exceed (i) 10 megawatts if the pilot program is conducted by a Phase I Utility or (ii) 40 megawatts if the pilot program is conducted by a Phase II Utility.

5. An investor-owned utility shall have the option of increasing the amount of generating capacity of the eligible generating facilities in its pilot program above the amount most recently approved by the Commission, in such increments as the investor-owned utility elects, as follows:

a. Any such increase shall not result in an amount of generating capacity that exceeds the cap specified for the investor-owned utility's pilot program under subdivision 4;

b. No such increase shall be authorized until such time that 90 percent of the amount of generating capacity of the eligible generating facilities then approved for its pilot program has been subscribed by customers through the investor-owned utility's voluntary companion rate schedule;

c. An investor-owned utility may seek any number of increases in the amount of generating capacity of the eligible generating facilities in its pilot program, subject to the conditions in subdivisions a and b; and

d. The investor-owned utility shall select eligible generating facilities for any increase in the generating capacity of its pilot program through an RFP process that complies with the requirements of subdivision 2.

6. Each pilot program shall expire at the end of its pilot program period, unless renewed or made permanent as provided in subsection G.

7. The renewable energy certificates and other environmental attributes associated with the voluntary companion rate schedule shall be retired by the investor-owned utility on the subscribing customer's behalf.

8. An investor-owned utility shall recover all its pilot program costs primarily through its voluntary companion rate schedule. However, pilot program costs that are not recovered through the voluntary companion rate schedule shall be recoverable from a participating third party and not from the investor-owned utility's Virginia jurisdictional customers. To the extent participating third parties are obligated for pilot program costs not recovered through the voluntary companion rate schedule, variable-output contracts between participating third parties other than affiliates and investor-owned utilities shall be negotiated at arm's length and shall not be reviewable by the Commission and shall require no further Commission approvals pursuant to Chapter 4 (§ 56-76 et seq.) or other applicable law.

9. At the conclusion of the pilot program period, to the extent that the pilot program is not made permanent or extended, each participating generating facility shall cease to be part of the pilot program and shall return to operation under the variable-output contract with a participating third party.

10. Any fixed generation costs and fixed purchased power costs shall remain fixed for subscribing customers throughout the duration of the subscribing customers' continuous and uninterrupted participation in the voluntary companion rate schedule. A subscribing customer's participation in the voluntary companion rate schedule shall be deemed to be continuous and uninterrupted notwithstanding a change in the location where the customer receives service if the new location continues to be within the investor-owned utility's service territory and the customer provides the investor-owned utility with notice of the change prior to or within 90 days following the change. Investor-owned utilities are authorized to decrease the generation or purchased power rate, or both, at any time to reflect cost reductions, if any, subject to Commission review. If, pursuant to subdivision 9, the pilot program is not made permanent or continued, the subscribing customers' subscriptions to the voluntary companion rate schedule shall survive the termination of the pilot program.

11. A subscribing customer's usage that exceeds the amount subscribed for under the voluntary companion rate schedule shall be billed under the customer's applicable standard rate.

12. An investor-owned utility shall not require a subscribing customer to enter an agreement or subscription for participation in a pilot program of more than 12 months' duration unless the subscribing customer's subscription exceeds 100 kW, or its equivalent in kWh, at the time the customer initially enters into the agreement or subscription.

13. As part of an arrangement with a solar development entity, a utility may enter into an agreement that provides for risk sharing and collaboration in marketing a utility's pilot program if the solar development entity is a participating third party.

14. An investor-owned utility shall have the ability to close its pilot program to new subscribers according to the terms of the voluntary companion rate schedule upon notice to the Commission. This option shall be exercisable once per year, upon the anniversary date of the Commission's order approving the voluntary companion rate schedule.

15. Notwithstanding any provision of this section to the contrary, effective July 1, 2020, an investor-owned utility shall not select an eligible generating facility that is located outside a low-income community for dedication to its pilot program unless the investor-owned utility contemporaneously selects for dedication to its pilot program one or more eligible generating facilities that are located within a low-income community and of which the pilot program costs equal or exceed the pilot program costs of the eligible generating facility that is located outside a low-income community.

C. Notwithstanding the provisions of subsection B of § 56-234 and §§ 56-249.6 and 56-585.1, upon application of a utility consumer services cooperative the Commission shall review a proposal submitted by the cooperative for a voluntary companion rate schedule. If the Commission finds that the proposal is reasonable and prudent, it shall approve the voluntary companion rate schedule for the cooperative to conduct a pilot program pursuant to this section. No utility consumer services cooperative shall be required to conduct a pilot program pursuant to this section. In making an application to the Commission pursuant to this subsection, a utility consumer services cooperative shall have flexibility to design its voluntary companion rate schedule in a manner that, notwithstanding anything to the contrary in this section, provides the cooperative the ability to:

1. Construct or purchase its generating facilities, or dedicate a portion of its existing power supply portfolio, for its community solar pilot program along with one or more other utility consumer services cooperatives, one or both Phase I or Phase II Utilities, or a utility aggregation cooperative, through requests for proposal or through a contract with a third party or a utility aggregation cooperative;

2. If constructing or purchasing its generating facilities, or dedicating a portion of its existing power supply portfolio, for its pilot program through a utility aggregation cooperative, include generating facilities that may be already in service or may be first placed into service at any time;

3. Utilize generating facilities of any generating capacity for its pilot program;

4. Physically locate the generating facilities used for the pilot program inside or outside of its certificated service territory;

5. Design its voluntary companion rate schedule in coordination with one or more utility consumer services cooperatives, such that participating subscribers from both cooperatives subscribe to an identical rate schedule;

6. Permanently end its pilot program for all subscribers according to the terms of the voluntary companion rate schedule; and

7. Recover pilot program costs that are not recovered through the voluntary companion rate schedule by including unrecovered purchased power expense in the cooperative's cost of purchased power and through a regulatory asset for unrecovered costs that are not purchased power expense, subject to the oversight of the cooperative's board of directors, which regulatory asset shall be approved by the Commission.

D. The participation of retail customers in a pilot program administered by a participating utility in the Commonwealth is in the public interest. Voluntary companion rate schedules approved by the Commission pursuant to this section are necessary in order to acquire information which is in furtherance of the public interest. The Commission shall approve the recovery of pilot program costs that it deems to be reasonable and prudent. The Commission shall also approve the pilot program design, the voluntary companion rate schedule, and the portfolio of participating generating facilities. No Commission review or approval of individual participating generating facilities, agreements, sites, or RFPs shall be required pursuant to this section or any other section of the Code.

E. Any voluntary companion rate schedule approved by the Commission pursuant to this section shall not be considered a tariff for electric energy provided 100 percent from renewable energy pursuant to § 56-577.

F. Each participating utility shall report on the status of its pilot program, including the number of subscribing customers, to the Governor, the Commission, and the Chairmen of the House and Senate Commerce and Labor Committees. The report shall be filed the earlier of (i) three years after the date a customer of the participating utility first subscribes to its pilot program or (ii) July 1, 2022. If a participating utility closes its pilot program to new subscribers pursuant to subdivision B 14, it shall notify the Governor, the Commission, and the Chairmen of the House and Senate Commerce and Labor Committees not later than three months after such closure, which notification shall (a) describe the reasons for the closure and (b) be provided in lieu of the status report otherwise required by this subsection.

G. At any time after filing its report on the status of its pilot program as required by subsection F, a participating utility may, in its application proceeding, move the Commission to make its pilot program permanent. The motion shall include a compliance filing with conforming changes to the participating utility's applicable rate schedules. Upon the Commission's granting of the motion, the pilot program shall become a regular rate schedule of the participating utility.

CHAPTER 664

An Act to amend and reenact § 15.2-958.3 of the Code of Virginia, relating to clean energy financing program.

[H 654]

Approved April 6, 2020

Be it enacted by the General Assembly of Virginia:

1. That § 15.2-958.3 of the Code of Virginia is amended and reenacted as follows:

§ 15.2-958.3. Financing clean energy, resiliency, and stormwater management programs.

A. Any locality may, by ordinance, authorize contracts to provide loans for the initial acquisition and installation of clean energy, resiliency, or stormwater management improvements with free and willing property owners of both existing properties and new construction. Such an ordinance shall include but not be limited to the following:

1. The kinds of renewable energy production and distribution facilities, energy usage efficiency improvements, resiliency improvements, water usage efficiency improvements, or stormwater management improvements for which loans may be offered. Resiliency improvements may include mitigation of flooding or the impacts of flooding or stormwater management improvements with a preference for natural or nature-based features and living shorelines as defined in § 28.2-104.1;

2. The proposed arrangement for such loan program, including (i) a statement concerning the source of funding that will be used to pay for work performed pursuant to the contracts; (ii) the interest rate and time period during which contracting property owners would repay the loan; and (iii) the method of apportioning all or any portion of the costs incidental to financing, administration, and collection of the arrangement among the consenting property owners and the locality;

3. (i) A minimum and maximum aggregate dollar amount that may be financed with respect to a property and (ii) if a locality or other public body is originating the loan, a maximum aggregate dollar amount that may be financed with respect to loans originated by the locality or other public body;

4. In the case of a loan program described in clause (ii) of subdivision 3, a method for setting requests from property owners for financing in priority order in the event that requests appear likely to exceed the authorization amount of the loan program. Priority shall be given to those requests from property owners who meet established income or assessed property value eligibility requirements;

5. Identification of a local official authorized to enter into contracts on behalf of the locality. A locality may contract with a third party for professional services to administer such loan program;

6. Identification of any fee that the locality intends to impose on the property owner requesting to participate in the loan program to offset the cost of administering the loan program. The fee may be assessed as (i) a program application fee paid by the property owner requesting to participate in the program, (ii) a component of the interest rate on the assessment in the written contract between the locality and the property owner, or (iii) a combination of clauses (i) and (ii); and

7. A draft contract specifying the terms and conditions proposed by the locality.

B. The locality may combine the loan payments required by the contracts with billings for water or sewer charges, real property tax assessments, or other billings; in such cases, the locality may establish the order in which loan payments will be applied to the different charges. The locality may not combine its billings for loan payments required by a contract authorized pursuant to this section with billings of another locality or political subdivision, including an authority operating pursuant to Chapter 51 (§ 15.2-5100 et seq.), unless such locality or political subdivision has given its consent by duly adopted resolution or ordinance.

C. The locality shall offer private lending institutions the opportunity to participate in local loan programs established pursuant to this section.

D. In order to secure the loan authorized pursuant to this section, the locality shall be authorized to place a voluntary special assessment lien equal in value to the loan against any property where such clean energy systems, resiliency improvements, or stormwater management improvements are being installed. The locality may bundle or package said loans for transfer to private lenders in such a manner that would allow the voluntary special assessment liens to remain in full force to secure the loans.

E. A voluntary special assessment lien on real property other than a residential dwelling with fewer than five dwelling units or a condominium project as defined in § 55.1-2000:

1. Shall have the same priority status as a property tax lien against real property, except that such voluntary special assessment lien shall have priority over any previously recorded mortgage or deed of trust lien only if (i) a written subordination agreement, in a form and substance acceptable to each prior lienholder in its sole and exclusive discretion, is executed by the holder of each mortgage or deed of trust lien on the property and recorded with the special assessment lien in the land records where the property is located, and (ii) evidence that the property owner is current on payments on loans secured by a mortgage or deed of trust lien on the property and on property tax payments, that the property owner is not insolvent or in bankruptcy proceedings, and that the title of the benefited property is not in dispute is submitted to the locality prior to recording of the special assessment lien;

2. Shall run with the land, and that portion of the assessment under the assessment contract that has not yet become due is not eliminated by foreclosure of a property tax lien;

3. May be enforceable by the local government in the same manner that a property tax lien against real property may be enforced by the local government. A local government shall be entitled to recover costs and expenses, including attorney fees, in a suit to collect a delinquent installment of an assessment in the same manner as in a suit to collect a delinquent property tax; and

4. May incur interest and penalties for delinquent installments of the assessment in the same manner as delinquent property taxes.

F. Prior to the enactment of an ordinance pursuant to this section, a public hearing shall be held at which interested persons may object to or inquire about the proposed loan program or any of its particulars. The public hearing shall be advertised once a week for two successive weeks in a newspaper of general circulation in the locality.

G. *The Department of Mines, Minerals and Energy shall have the authority to serve as a statewide sponsor for a clean energy financing program that meets the requirements of this section. The Department of Mines, Minerals and Energy shall engage a private entity through a competitive selection process to develop and administer the program.*

CHAPTER 665

An Act to amend and reenact § 15.2-2232 of the Code of Virginia, relating to the comprehensive plan; solar facilities review.

[H 657]

Approved April 6, 2020

Be it enacted by the General Assembly of Virginia:

1. That § 15.2-2232 of the Code of Virginia is amended and reenacted as follows:

§ 15.2-2232. Legal status of plan.

A. Whenever a local planning commission recommends a comprehensive plan or part thereof for the locality and such plan has been approved and adopted by the governing body, it shall control the general or approximate location, character and extent of each feature shown on the plan. Thereafter, unless a feature is already shown on the adopted master plan or part thereof or is deemed so under subsection D, no street or connection to an existing street, park or other public area, public building or public structure, public utility facility or public service corporation facility other than a railroad facility or an underground natural gas or underground electric distribution facility of a public utility as defined in subdivision (b) of § 56-265.1 within its certificated service territory, whether publicly or privately owned, shall be constructed, established or authorized, unless and until the general location or approximate location, character, and extent thereof has been submitted to and approved by the commission as being substantially in accord with the adopted comprehensive plan or part thereof. In connection with any such determination, the commission may, and at the direction of the governing body shall, hold a public hearing, after notice as required by § 15.2-2204. Following the adoption of the Statewide Transportation Plan by the Commonwealth Transportation Board pursuant to § 33.2-353 and written notification to the affected local governments, each local government through which one or more of the designated corridors of statewide significance traverses, shall, at a minimum, note such corridor or corridors on the transportation plan map included in its comprehensive plan for information purposes at the next regular update of the transportation plan map. Prior to the next regular update of the transportation plan map, the local government shall acknowledge the existence of corridors of statewide significance within its boundaries.

B. The commission shall communicate its findings to the governing body, indicating its approval or disapproval with written reasons therefor. The governing body may overrule the action of the commission by a vote of a majority of its membership. Failure of the commission to act within 60 days of a submission, unless the time is extended by the governing body, shall be deemed approval. The owner or owners or their agents may appeal the decision of the commission to the governing body within 10 days after the decision of the commission. The appeal shall be by written petition to the governing body setting forth the reasons for the appeal. The appeal shall be heard and determined within 60 days from its filing. A majority vote of the governing body shall overrule the commission.

C. Widening, narrowing, extension, enlargement, vacation or change of use of streets or public areas shall likewise be submitted for approval, but paving, repair, reconstruction, improvement, drainage or similar work and normal service extensions of public utilities or public service corporations shall not require approval unless such work involves a change in location or extent of a street or public area.

D. Any public area, facility or use as set forth in subsection A which is identified within, but not the entire subject of, a submission under either § 15.2-2258 for subdivision or subdivision A 8 of § 15.2-2286 for development or both may be deemed a feature already shown on the adopted master plan, and, therefore, excepted from the requirement for submittal to and approval by the commission or the governing body; provided, that the governing body has by ordinance or resolution defined standards governing the construction, establishment or authorization of such public area, facility or use or has approved it through acceptance of a proffer made pursuant to § 15.2-2303.

E. Approval and funding of a public telecommunications facility on or before July 1, 2012, by the Virginia Public Broadcasting Board pursuant to Article 12 (§ 2.2-2426 et seq.) of Chapter 24 of Title 2.2 or after July 1, 2012, by the Board of Education pursuant to § 22.1-20.1 shall be deemed to satisfy the requirements of this section and local zoning ordinances with respect to such facility with the exception of television and radio towers and structures not necessary to house electronic apparatus. The exemption provided for in this subsection shall not apply to facilities existing or approved by the

Virginia Public Telecommunications Board prior to July 1, 1990. The Board of Education shall notify the governing body of the locality in advance of any meeting where approval of any such facility shall be acted upon.

F. On any application for a telecommunications facility, the commission's decision shall comply with the requirements of the Federal Telecommunications Act of 1996. Failure of the commission to act on any such application for a telecommunications facility under subsection A submitted on or after July 1, 1998, within 90 days of such submission shall be deemed approval of the application by the commission unless the governing body has authorized an extension of time for consideration or the applicant has agreed to an extension of time. The governing body may extend the time required for action by the local commission by no more than 60 additional days. If the commission has not acted on the application by the end of the extension, or by the end of such longer period as may be agreed to by the applicant, the application is deemed approved by the commission.

G. A proposed telecommunications tower or a facility constructed by an entity organized pursuant to Chapter 9.1 (§ 56-231.15 et seq.) of Title 56 shall be deemed to be substantially in accord with the comprehensive plan and commission approval shall not be required if the proposed telecommunications tower or facility is located in a zoning district that allows such telecommunications towers or facilities by right.

H. A solar facility subject to subsection A shall be deemed to be substantially in accord with the comprehensive plan if (i) such proposed solar facility is located in a zoning district that allows such solar facilities by right ~~or~~; (ii) such proposed solar facility is designed to serve the electricity or thermal needs of the property upon which such facility is located, or will be owned or operated by an eligible customer-generator or eligible agricultural customer-generator under § 56-594 or 56-594.01 or by a small agricultural generator under § 56-594.2; or (iii) *the locality waives the requirement that solar facilities be reviewed for substantial accord with the comprehensive plan.* All other solar facilities shall be reviewed for substantial accord with the comprehensive plan in accordance with this section. However, a locality may allow for a substantial accord review for such solar facilities to be advertised and approved concurrently in a public hearing process with a rezoning, special exception, or other approval process.

CHAPTER 666

An Act to amend the Code of Virginia by adding a section numbered 56-257.5, relating to underground utility lines; agricultural operation.

[H 723]

Approved April 6, 2020

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding a section numbered 56-257.5 as follows:

§ 56-257.5. Manner of installing underground utility lines through agricultural operation.

A. For purposes of this section:

"Topsoil" means at least 12 inches of the surface soil layer or a six-inch layer of soil that includes the surface soil and the unconsolidated subsoil immediately below it.

"Underground utility line" means an underground pipeline or conduit of an inside diameter greater than 12 inches or an underground electrical transmission or distribution line of a capacity greater than 115 kilovolts.

B. Every operator, as defined in § 56-265.15, having the right to install an underground utility line shall install such underground utility line in accordance with regulations adopted pursuant to subsection C.

C. The Commission shall adopt regulations applicable to any operator that is subject to the provisions of subsection B. The regulations shall require that if such operator, in the course of installing the underground utility line, disturbs an area of land that measures 10,000 square feet or more and constitutes one or more agricultural operations, as defined in § 3.2-300, the operator shall, if desired by the landowner or land management agency, either (i) redistribute the topsoil removed from the disturbed area to graded areas elsewhere on the land of the affected property owner or (ii) if insufficient graded areas are available as sites for such redistribution, stockpile the topsoil removed from the disturbed area until it can be redistributed on the area initially disturbed. The regulations shall require that redistributed topsoil be placed on scarified land and that stockpiled topsoil be protected from erosion and compaction. If the property owner does not agree, then the topsoil shall be disposed of in accordance with applicable law.

CHAPTER 667

An Act to amend and reenact § 62.1-44.15:28, as it is currently effective and as it shall become effective, of the Code of Virginia, relating to proprietary best management practices; reciprocity.

[H 882]

Approved April 6, 2020

Be it enacted by the General Assembly of Virginia:

1. That § 62.1-44.15:28, as it is currently effective and as it shall become effective, of the Code of Virginia is amended and reenacted as follows:

§ 62.1-44.15:28. (For expiration date, see Acts 2016, cc. 68 and 758, as amended by Acts 2017, c. 345) Development of regulations.

A. The Board is authorized to adopt regulations that specify minimum technical criteria and administrative procedures for Virginia Stormwater Management Programs. The regulations shall:

1. Establish standards and procedures for administering a VSMP;
2. Establish minimum design criteria for measures to control nonpoint source pollution and localized flooding, and incorporate the stormwater management regulations adopted pursuant to the Erosion and Sediment Control Law (§ 62.1-44.15:51 et seq.), as they relate to the prevention of stream channel erosion. These criteria shall be periodically modified as required in order to reflect current engineering methods;

3. Require the provision of long-term responsibility for and maintenance of stormwater management control devices and other techniques specified to manage the quality and quantity of runoff;

4. Require as a minimum the inclusion in VSMPs of certain administrative procedures that include, but are not limited to, specifying the time period within which a VSMP authority shall grant land-disturbing activity approval, the conditions and processes under which approval shall be granted, the procedures for communicating disapproval, the conditions under which an approval may be changed, and requirements for inspection of approved projects;

5. Establish by regulations a statewide permit fee schedule to cover all costs associated with the implementation of a VSMP related to land-disturbing activities of one acre or greater. Such fee attributes include the costs associated with plan review, VSMP registration statement review, permit issuance, state-coverage verification, inspections, reporting, and compliance activities associated with the land-disturbing activities as well as program oversight costs. The fee schedule shall also include a provision for a reduced fee for land-disturbing activities between 2,500 square feet and up to one acre in Chesapeake Bay Preservation Act (§ 62.1-44.15:67 et seq.) localities. The fee schedule shall be governed by the following:

- a. The revenue generated from the statewide stormwater permit fee shall be collected utilizing, where practicable, an online payment system, and the Department's portion shall be remitted to the State Treasurer for deposit in the Virginia Stormwater Management Fund established pursuant to § 62.1-44.15:29. However, whenever the Board has approved a VSMP, no more than 30 percent of the total revenue generated by the statewide stormwater permit fees collected shall be remitted to the State Treasurer for deposit in the Virginia Stormwater Management Fund, with the balance going to the VSMP authority.

- b. Fees collected pursuant to this section shall be in addition to any general fund appropriation made to the Department or other supporting revenue from a VSMP; however, the fees shall be set at a level sufficient for the Department and the VSMP to fully carry out their responsibilities under this article and its attendant regulations and local ordinances or standards and specifications where applicable. When establishing a VSMP, the VSMP authority shall assess the statewide fee schedule and shall have the authority to reduce or increase such fees, and to consolidate such fees with other program-related charges, but in no case shall such fee changes affect the amount established in the regulations as available to the Department for program oversight responsibilities pursuant to subdivision 5 a. A VSMP's portion of the fees shall be used solely to carry out the VSMP's responsibilities under this article and its attendant regulations, ordinances, or annual standards and specifications.

- c. Until July 1, 2014, the fee for coverage under the General Permit for Discharges of Stormwater from Construction Activities issued by the Board, or where the Board has issued an individual permit or coverage under the General Permit for Discharges of Stormwater from Construction Activities for an entity for which it has approved annual standards and specifications, shall be \$750 for each large construction activity with sites or common plans of development equal to or greater than five acres and \$450 for each small construction activity with sites or common plans of development equal to or greater than one acre and less than five acres. On and after July 1, 2014, such fees shall only apply where coverage has been issued under the Board's General Permit for Discharges of Stormwater from Construction Activities to a state agency or federal entity for which it has approved annual standards and specifications. After establishment, such fees may be modified in the future through regulatory actions.

- d. Until July 1, 2014, the Department is authorized to assess a \$125 reinspection fee for each visit to a project site that was necessary to check on the status of project site items noted to be in noncompliance and documented as such on a prior project inspection.

- e. In establishing the fee schedule under this subdivision, the Department shall ensure that the VSMP authority portion of the statewide permit fee for coverage under the General Permit for Discharges of Stormwater from Construction Activities for small construction activity involving a single family detached residential structure with a site or area, within or outside a common plan of development or sale, that is equal to or greater than one acre but less than five acres shall be no greater than the VSMP authority portion of the fee for coverage of sites or areas with a land-disturbance acreage of less than one acre within a common plan of development or sale.

- f. When any fees are collected pursuant to this section by credit cards, business transaction costs associated with processing such payments may be additionally assessed;

6. Establish statewide standards for stormwater management from land-disturbing activities of one acre or greater, except as specified otherwise within this article, and allow for the consolidation in the permit of a comprehensive approach to addressing stormwater management and erosion and sediment control, consistent with the provisions of the Erosion and Sediment Control Law (§ 62.1-44.15:51 et seq.) and this article. However, such standards shall also apply to land-disturbing

activity exceeding an area of 2,500 square feet in all areas of the jurisdictions designated as subject to the Chesapeake Bay Preservation Area Designation and Management Regulations;

7. Establish a procedure by which a stormwater management plan that is approved for a residential, commercial, or industrial subdivision shall govern the development of the individual parcels, including those parcels developed under subsequent owners;

8. Notwithstanding the provisions of subdivision ~~A~~ 5, establish a procedure by which neither a registration statement nor payment of the Department's portion of the statewide permit fee established pursuant to that subdivision shall be required for coverage under the General Permit for Discharges of Stormwater from Construction Activities for construction activity involving a single-family detached residential structure, within or outside a common plan of development or sale;

9. Provide for ~~reciprocity with programs in other states for the certification~~ *the use of a proprietary best management practices practice only if another state, regional, or national certification program has verified and certified its nutrient or sediment removal effectiveness;*

10. Require that VSMPs maintain after-development runoff rate of flow and characteristics that replicate, as nearly as practicable, the existing predevelopment runoff characteristics and site hydrology, or improve upon the contributing share of the existing predevelopment runoff characteristics and site hydrology if stream channel erosion or localized flooding is an existing predevelopment condition. Except where more stringent requirements are necessary to address total maximum daily load requirements or to protect exceptional state waters, any land-disturbing activity that provides for stormwater management shall satisfy the conditions of this subsection if the practices are designed to (i) detain the water quality volume and to release it over 48 hours; (ii) detain and release over a 24-hour period the expected rainfall resulting from the one year, 24-hour storm; and (iii) reduce the allowable peak flow rate resulting from the 1.5-year, two-year, and 10-year, 24-hour storms to a level that is less than or equal to the peak flow rate from the site assuming it was in a good forested condition, achieved through multiplication of the forested peak flow rate by a reduction factor that is equal to the runoff volume from the site when it was in a good forested condition divided by the runoff volume from the site in its proposed condition, and shall be exempt from any flow rate capacity and velocity requirements for natural or man-made channels as defined in any regulations promulgated pursuant to this section or any ordinances adopted pursuant to § 62.1-44.15:27 or 62.1-44.15:33;

11. Encourage low-impact development designs, regional and watershed approaches, and nonstructural means for controlling stormwater;

12. Promote the reclamation and reuse of stormwater for uses other than potable water in order to protect state waters and the public health and to minimize the direct discharge of pollutants into state waters;

13. Establish procedures to be followed when a locality that operates a VSMP wishes to transfer administration of the VSMP to the Department;

14. Establish a statewide permit fee schedule for stormwater management related to municipal separate storm sewer system permits;

15. Provide for the evaluation and potential inclusion of emerging or innovative *nonproprietary* stormwater control technologies that may prove effective in reducing nonpoint source pollution; and

16. Require that all final plan elements, specifications, or calculations whose preparation requires a license under Chapter 4 (§ 54.1-400 et seq.) or 22 (§ 54.1-2200 et seq.) of Title 54.1 be appropriately signed and sealed by a professional who is licensed to engage in practice in the Commonwealth. Nothing in this subdivision shall authorize any person to engage in practice outside his area of professional competence.

B. The Board may integrate and consolidate components of the regulations implementing the Erosion and Sediment Control program and the Chesapeake Bay Preservation Area Designation and Management program with the regulations governing the Virginia Stormwater Management Program (VSMP) Permit program or repeal components so that these programs may be implemented in a consolidated manner that provides greater consistency, understanding, and efficiency for those regulated by and administering a VSMP.

§ 62.1-44.15:28. (For effective date, see Acts 2016, cc. 68 and 758, as amended by Acts 2017, c. 345) Development of regulations.

The Board is authorized to adopt regulations that establish requirements for the effective control of soil erosion, sediment deposition, and stormwater, including nonagricultural runoff, that shall be met in any VESMP to prevent the unreasonable degradation of properties, stream channels, waters, and other natural resources, and that specify minimum technical criteria and administrative procedures for VESMPs. The regulations shall:

1. Establish standards and procedures for administering a VESMP;

2. Establish minimum standards of effectiveness of the VESMP and criteria and procedures for reviewing and evaluating its effectiveness. The minimum standards of program effectiveness established by the Board shall provide that (i) no soil erosion control and stormwater management plan shall be approved until it is reviewed by a plan reviewer certified pursuant to § 62.1-44.15:30, (ii) each inspection of a land-disturbing activity shall be conducted by an inspector certified pursuant to § 62.1-44.15:30, and (iii) each VESMP shall contain a program administrator, a plan reviewer, and an inspector, each of whom is certified pursuant to § 62.1-44.15:30 and all of whom may be the same person;

3. Be based upon relevant physical and developmental information concerning the watersheds and drainage basins of the Commonwealth, including data relating to land use, soils, hydrology, geology, size of land area being disturbed, proximate water bodies and their characteristics, transportation, and public facilities and services;

4. Include any survey of lands and waters as the Board deems appropriate or as any applicable law requires to identify areas, including multijurisdictional and watershed areas, with critical soil erosion and sediment problems;
5. Contain conservation standards for various types of soils and land uses, which shall include criteria, techniques, and methods for the control of soil erosion and sediment resulting from land-disturbing activities;
6. Establish water quality and water quantity technical criteria. These criteria shall be periodically modified as required in order to reflect current engineering methods;
7. Require the provision of long-term responsibility for and maintenance of stormwater management control devices and other techniques specified to manage the quality and quantity of runoff;
8. Require as a minimum the inclusion in VESMPs of certain administrative procedures that include, but are not limited to, specifying the time period within which a VESMP authority shall grant land-disturbance approval, the conditions and processes under which such approval shall be granted, the procedures for communicating disapproval, the conditions under which an approval may be changed, and requirements for inspection of approved projects;
9. Establish a statewide fee schedule to cover all costs associated with the implementation of a VESMP related to land-disturbing activities where permit coverage is required, and for land-disturbing activities where the Board serves as a VESMP authority or VSMP authority. Such fee attributes include the costs associated with plan review, permit registration statement review, permit issuance, permit coverage verification, inspections, reporting, and compliance activities associated with the land-disturbing activities as well as program oversight costs. The fee schedule shall also include a provision for a reduced fee for a land-disturbing activity that disturbs 2,500 square feet or more but less than one acre in an area of a locality designated as a Chesapeake Bay Preservation Area pursuant to the Chesapeake Bay Preservation Act (§ 62.1-44.15:67 et seq.). The fee schedule shall be governed by the following:
 - a. The revenue generated from the statewide fee shall be collected utilizing, where practicable, an online payment system, and the Department's portion shall be remitted to the State Treasurer for deposit in the Virginia Stormwater Management Fund established pursuant to § 62.1-44.15:29. However, whenever the Board has approved a VESMP, no more than 30 percent of the total revenue generated by the statewide fees collected shall be remitted to the State Treasurer for deposit in the Virginia Stormwater Management Fund, with the balance going to the VESMP authority;
 - b. Fees collected pursuant to this section shall be in addition to any general fund appropriation made to the Department or other supporting revenue from a VESMP; however, the fees shall be set at a level sufficient for the Department, the Board, and the VESMP to fully carry out their responsibilities under this article and local ordinances or standards and specifications where applicable. When establishing a VESMP, the VESMP authority shall assess the statewide fees pursuant to the schedule and shall have the authority to reduce or increase such fees, and to consolidate such fees with other program-related charges, but in no case shall such fee changes affect the amount established in the regulations as available to the Department for program oversight responsibilities pursuant to subdivision a. A VESMP's portion of the fees shall be used solely to carry out the VESMP's responsibilities under this article and associated ordinances;
 - c. In establishing the fee schedule under this subdivision, the Department shall ensure that the VESMP authority portion of the statewide fee for coverage under the General Permit for Discharges of Stormwater from Construction Activities for small construction activity involving a single-family detached residential structure with a site or area, within or outside a common plan of development or sale, that is equal to or greater than one acre but less than five acres shall be no greater than the VESMP authority portion of the fee for coverage of sites or areas with a land-disturbance acreage of less than one acre within a common plan of development or sale;
 - d. When any fees are collected pursuant to this section by credit cards, business transaction costs associated with processing such payments may be additionally assessed;
 - e. Notwithstanding the other provisions of this subdivision 9, establish a procedure by which neither a registration statement nor payment of the Department's portion of the statewide fee established pursuant to this subdivision 9 shall be required for coverage under the General Permit for Discharges of Stormwater from Construction Activities for construction activity involving a single-family detached residential structure, within or outside a common plan of development or sale;
10. Establish statewide standards for soil erosion control and stormwater management from land-disturbing activities;
11. Establish a procedure by which a soil erosion control and stormwater management plan or stormwater management plan that is approved for a residential, commercial, or industrial subdivision shall govern the development of the individual parcels, including those parcels developed under subsequent owners;
12. Provide for ~~reciprocity with programs in other states for the certification~~ *the use of a proprietary best management practices practice only if another state, regional, or national certification program has verified and certified its nutrient or sediment removal effectiveness;*
13. Require that VESMPs maintain after-development runoff rate of flow and characteristics that replicate, as nearly as practicable, the existing predevelopment runoff characteristics and site hydrology, or improve upon the contributing share of the existing predevelopment runoff characteristics and site hydrology if stream channel erosion or localized flooding is an existing predevelopment condition.
 - a. Except where more stringent requirements are necessary to address total maximum daily load requirements or to protect exceptional state waters, any land-disturbing activity that was subject to the water quantity requirements that were in effect pursuant to this article prior to July 1, 2014, shall be deemed to satisfy the conditions of this subsection if the practices are designed to (i) detain the water volume equal to the first one-half inch of runoff multiplied by the impervious surface of the land development project and to release it over 48 hours; (ii) detain and release over a 24-hour period the expected

rainfall resulting from the one year, 24-hour storm; and (iii) reduce the allowable peak flow rate resulting from the 1.5-year, two-year, and 10-year, 24-hour storms to a level that is less than or equal to the peak flow rate from the site assuming it was in a good forested condition, achieved through multiplication of the forested peak flow rate by a reduction factor that is equal to the runoff volume from the site when it was in a good forested condition divided by the runoff volume from the site in its proposed condition. Any land-disturbing activity that complies with these requirements shall be exempt from any flow rate capacity and velocity requirements for natural or man-made channels as defined in any regulations promulgated pursuant to this section or any ordinances adopted pursuant to § 62.1-44.15:27 or 62.1-44.15:33;

b. Any stream restoration or relocation project that incorporates natural channel design concepts is not a man-made channel and shall be exempt from any flow rate capacity and velocity requirements for natural or man-made channels as defined in any regulations promulgated pursuant to this article;

14. Encourage low-impact development designs, regional and watershed approaches, and nonstructural means for controlling stormwater;

15. Promote the reclamation and reuse of stormwater for uses other than potable water in order to protect state waters and the public health and to minimize the direct discharge of pollutants into state waters;

16. Establish procedures to be followed when a locality chooses to change the type of program it administers pursuant to subsection D of § 62.1-44.15:27;

17. Establish a statewide permit fee schedule for stormwater management related to MS4 permits;

18. Provide for the evaluation and potential inclusion of emerging or innovative *nonproprietary* stormwater control technologies that may prove effective in reducing nonpoint source pollution; and

19. Require that all final plan elements, specifications, or calculations whose preparation requires a license under Chapter 4 (§ 54.1-400 et seq.) or 22 (§ 54.1-2200 et seq.) of Title 54.1 be appropriately signed and sealed by a professional who is licensed to engage in practice in the Commonwealth. Nothing in this subdivision shall authorize any person to engage in practice outside his area of professional competence.

2. That any proprietary best management practice (BMP) that is included by the Department of Environmental Quality (the Department) on the Virginia Stormwater BMP Clearinghouse website prior to July 1, 2020, shall by December 31, 2021, provide documentation to the Department showing that another state, regional, or national certification program has verified and certified its nutrient or sediment removal effectiveness.

3. That any proprietary best management practice (BMP) that fails to provide the Department of Environmental Quality (the Department) with the documentation required by the second enactment of this act shall not be approved for use in any stormwater management plan submitted on or after January 1, 2022, until such proprietary BMP provides the Department with such required documentation.

CHAPTER 668

An Act to amend and reenact § 56-247.1 of the Code of Virginia, relating to notice prior to termination of electric utility service; enforcement by State Corporation Commission of procedural requirements.

[H 1225]

Approved April 6, 2020

Be it enacted by the General Assembly of Virginia:

1. That § 56-247.1 of the Code of Virginia is amended and reenacted as follows:

§ 56-247.1. Commission to require public utilities to follow certain procedures.

A. The Commission shall require that public utilities adhere to the following procedures for services not found to be competitive:

1. Every public utility shall provide its residential customers one full billing period to pay for one month's local or basic services, before initiating any proceeding against a residential customer for nonpayment of local service.

2. Pay the residential customer a fair rate of interest as determined by the Commission on money deposited and return the deposit with the interest after not more than one year of satisfactory credit has been established.

3. Every public utility shall establish customer complaint procedures ~~which~~ that will ~~insure~~ ensure prompt and effective handling of all customer inquiries, service requests, and complaints. Such procedure shall be approved by the Commission before its implementation and it shall be distributed to its residential customers. *The utility shall disclose to the customer that the Commission is the responsible regulatory agency and that the customer may contact the Commission on regulatory matters and provide the customer with the contact information for the Commission.*

4. No electric or gas utility shall terminate a customer's service without 10 days' notice by mail to the customer.

5. No public utility shall terminate the residential service of a customer for such customer's nonpayment of basic nonresidential services as defined by its terms and conditions on file with the Virginia State Corporation Commission.

6. A public utility providing water service shall not terminate service for nonpayment until it first sends the customer written notice by mail 10 days in advance of making the termination but, in no event, shall it terminate the customer's service until 20 days after the customer's bill has become due. Any such notice shall also include contact information for the customer's use in contacting the public utility regarding the notice.

7. Any electric utility formed under or subject to Chapter 9.1 (§ 56-231.15 et seq.) may install and operate, upon a customer's request and pursuant to an appropriate tariff for any type or classification of service, a prepaid metering equipment and system that is configured to terminate electric service immediately and automatically when the customer has incurred charges for electric service equal to the customer's prepayments for such service. Subdivisions 1, 2, 4, and 5 shall not apply to services provided pursuant to electric service provided on a prepaid basis by a prepaid metering equipment and system pursuant to this subsection. Such tariffs shall be filed with the Commission for its review and determination that the tariff is not contrary to the public interest.

8. *No electric utility shall terminate the residential service of a customer for such customer's nonpayment for metered services when the electric utility believes that the customer is receiving or has received electric utility services for which the customer was not properly billed as the result of tampering with the electric utility's meter in a manner that prevented the meter from accurately recording usage, until the electric utility has complied with the procedure set forth in subsection C. However, the requirement that the electric utility comply with the procedure set forth in subsection C before terminating service shall not apply if (i) the condition of a customer's wiring, equipment, or appliances is either unsafe or unsuitable for receiving the electric utility service; (ii) the customer's use of the electric utility service or equipment interferes with or may be detrimental to the electric utility's facilities or to the provision of electric utility service by the electric utility to any other customer; (iii) a tamper-evident meter seal securing the meter is broken, damaged, or missing; (iv) electric service is furnished over a line that is not owned or leased by the electric utility and the line is either not in a safe and suitable condition or is inadequate to receive electric utility service; (v) emergency repairs or alterations are needed; (vi) there are unavoidable shortages or interruptions in a supply of utility service; (vii) the electric utility is acting upon orders from an authority having jurisdiction; or (viii) the actions taken are to preserve life or property, or to avoid or abate utility or fire hazard.*

B. Any and all Commission rules and regulations concerning the denial of telephone service for nonpayment of such service shall not apply to services found to be competitive.

C. *If an electric utility believes that a customer is receiving or has received electric utility services for which the customer was not properly billed as the result of tampering with the electric utility's meter in a manner that prevented the meter from accurately recording usage, the electric utility shall (i) retrieve the meter from the customer's premises, which may be done without providing prior notice to the customer; (ii) immediately replace it with a new meter; and (iii) determine whether the meter has been tampered with. Within 60 days after any such determination of meter tampering has been made, the electric utility shall provide evidence of such tampering to the customer. If, after determining the meter has been tampered with, the electric utility seeks payment for electric utility services not properly billed, the electric utility shall provide the customer with an invoice with a reasonable and final estimate of the amount owed by the customer as a result of the meter's failure to accurately record the customer's usage. The invoice shall explain the electric utility's calculation of the estimated amount owed as a result of any suspected failure. The electric utility shall provide the customer one full billing period to pay the amount billed in such invoice before initiating any proceeding against the customer for nonpayment. During such billing period, the customer may submit an informal complaint to the Commission disputing the amount sought by the utility. The customer may commence a formal proceeding after the informal complaint process has been exhausted in accordance with Commission regulations.*

CHAPTER 669

An Act to amend and reenact §§ 57-39.2 through 57-39.7 of the Code of Virginia, relating to cemeteries; acquisition of abandoned lots in cities and certain towns.

[S 445]

Approved April 6, 2020

Be it enacted by the General Assembly of Virginia:

1. That §§ 57-39.2 through 57-39.7 of the Code of Virginia are amended and reenacted as follows:

Article 5.

Acquisition of Abandoned Lots in ~~Certain~~ Cities and Certain Towns.

§ 57-39.2. Reversion of unoccupied cemetery lots in cities and certain towns; rebuttable presumption.

The ownership of or right or interest in any unoccupied cemetery lot in any cemetery located in any city or in any town in ~~any county, which county has a population of not less than 24,500 nor more than 25,600~~ the Counties of Scott and Wythe, or in any town in any county having the urban county executive form of government, which cemetery is under the ownership and charge of such city or town, or any corporation, association, or trustees, shall, upon abandonment, revert to such city, town, corporation, association, or trustees having ownership and charge of the cemetery containing any such lot. The continued failure to maintain or care for an unoccupied cemetery lot in ~~any cemetery~~ for a period of at least ~~thirty~~ 30 years; ~~whether such period shall have elapsed prior to the effective date hereof or subsequent thereto~~; shall create and establish a rebuttable presumption that ~~the same~~ such lot has been abandoned.

§ 57-39.3. Proceedings; determination of abandonment.

Any city, town, corporation, association, or trustees having ownership and charge of a cemetery ~~which that~~ is located in a city, or town in a county, as provided in ~~the preceding section~~ (§ 57-39.2), may file a ~~verified bill in equity~~ petition in

the circuit court ~~having equity jurisdiction~~ within whose jurisdiction the cemetery is situated, setting forth its ~~or their~~ ownership of the cemetery and facts relating to the continued failure by the owner of an unoccupied cemetery lot in such cemetery to maintain and care for ~~the same such lot~~ for at least ~~thirty~~ 30 consecutive years immediately preceding ~~thereto~~, and ~~pray for requesting~~ an order adjudging any such lot to be abandoned. Be it enacted by the General Assembly of Virginia:

1. That §§ 62.1-255, 62.1-262, and 62.1-266 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding a section numbered 62.1-258.1 as follows:

§ 62.1-255. Definitions.

As used in this chapter, unless the context requires otherwise:

"Agricultural irrigation" means irrigation that is used to support any operation devoted to the bona fide production of crops, animals, or fowl, including the production of fruits and vegetables of any kind; meat, dairy, and poultry products; nuts, tobacco, nursery, and floral products; and the production and harvest of products from silvicultural activity.

"Board" means the State Water Control Board.

"Department" means the Department of Environmental Quality.

"Eastern Shore Groundwater Management Area" means the ground water management area declared by the Board encompassing the Counties of Accomack and Northampton.

"Ground water" means any water, except capillary moisture, beneath the land surface in the zone of saturation or beneath the bed of any stream, lake, reservoir or other body of surface water wholly or partially within the boundaries of the Commonwealth, whatever the subsurface geologic structure in which such water stands, flows, percolates or otherwise occurs.

"Ground water withdrawal permit" means a certificate issued by the Board permitting the withdrawal of a specified quantity of ground water in a ground water management area.

"Irrigation" means the controlled application of water through man-made systems to supply water requirements not satisfied by rainfall to assist in the growing or maintenance of vegetative growth.

"Nonagricultural irrigation" means all irrigation other than agricultural irrigation.

"Person" means any and all persons, including individuals, firms, partnerships, associations, public or private institutions, municipalities or political subdivisions, governmental agencies, or private or public corporations organized under the laws of the Commonwealth or any other state or country.

§ 62.1-258.1. Irrigation wells for nonagricultural use prohibited; exceptions.

Unless the Department of Environmental Quality has determined that the quantity or quality of the ground water in the surficial aquifer is not adequate to supply the proposed beneficial use, it shall be unlawful in a ground water management area for any person to construct a well for nonagricultural irrigation purposes except in the surficial aquifer. The provisions of this section shall not apply to wells constructed prior to the effective date of regulations adopted pursuant to subsection H of § 62.1-266.

§ 62.1-262. Permits for other ground water withdrawals.

Any application for a ground water withdrawal permit, except as provided in §§ 62.1-260 and 62.1-261 and subsection H of § 62.1-266, shall include a water conservation and management plan approved by the Board. A water conservation and management plan shall include: (i) use of water-saving plumbing and processes including, where appropriate, use of water-saving fixtures in new and renovated plumbing as provided under the Uniform Statewide Building Code; (ii) a water-loss reduction program; (iii) a water-use education program; and (iv) mandatory reductions during water-shortage emergencies including, where appropriate, ordinances prohibiting waste of water generally and providing for mandatory water-use restrictions, with penalties, during water-shortage emergencies. The Board shall approve all water conservation plans in compliance with ~~subdivisions clauses~~ (i) through (iv) of this section.

§ 62.1-266. Ground water withdrawal permits.

A. The Board may issue any ground water withdrawal permit upon terms, conditions, and limitations necessary for the protection of the public welfare, safety, and health.

B. Applications for ground water withdrawal permits shall be in a form prescribed by the Board and shall contain such information, consistent with this chapter, as the Board deems necessary.

C. All ground water withdrawal permits issued by the Board under this chapter shall have a fixed term not to exceed 15 years. The term of a ground water withdrawal permit issued by the Board shall not be extended by modification beyond the maximum duration, and the permit shall expire at the end of the term unless a complete application for a new permit has been filed in a timely manner as required by the regulations of the Board, and the Board is unable, through no fault of the permittee, to issue a new permit before the expiration date of the previous permit.

D. Renewed ground water withdrawal permits shall be for a withdrawal amount that includes such savings as can be demonstrated to have been achieved through water conservation, provided that a beneficial use of the permitted ground water can be demonstrated for the following permit term.

E. Any permit issued by the Board under this chapter may, after notice and opportunity for a hearing, be amended or revoked on any of the following grounds or for good cause as may be provided by the regulations of the Board:

1. The permittee has violated any regulation or order of the Board pertaining to ground water, any condition of a ground water withdrawal permit, any provision of this chapter, or any order of a court, where such violation presents a hazard or potential hazard to human health or the environment or is representative of a pattern of serious or repeated violations that, in the opinion of the Board, demonstrates the permittee's disregard for or inability to comply with applicable laws, regulations, or requirements;

2. The permittee has failed to disclose fully all relevant material facts or has misrepresented a material fact in applying for a permit, or in any other report or document required under this chapter or under the ground water withdrawal regulations of the Board;

3. The activity for which the permit was issued endangers human health or the environment and can be regulated to acceptable levels by amendment or revocation of the permit; or

4. There exists a material change in the basis on which the permit was issued that requires either a temporary or a permanent reduction or elimination of the withdrawal controlled by the permit necessary to protect human health or the environment.

F. No application for a ground water withdrawal permit shall be considered complete unless the applicant has provided the Executive Director of the Board with notification from the governing body of the locality in which the withdrawal is to occur that the location and operation of the withdrawing facility is in compliance with all ordinances adopted pursuant to Chapter 22 (§ 15.2-2200 et seq.) of Title 15.2. The provisions of this subsection shall not apply to any applicant exempt from compliance under Chapter 22 (§ 15.2-2200 et seq.) of Title 15.2.

G. A ground water withdrawal permit shall authorize withdrawal of a specific amount of ground water through a single well or system of wells, including a backup well or wells, or such other means as the withdrawer specifies.

H. The Board may adopt regulations to develop a general permit for the regulation of irrigation withdrawals from the surficial aquifer greater than 300,000 gallons in any one month. Regulations adopted pursuant to this subsection shall provide that withdrawals from the surficial aquifer may be permitted under either a general permit developed pursuant to this subsection or another ground water withdrawal permit.

2. That the State Water Control Board shall promulgate regulations establishing criteria for determining whether the quantity or quality of the ground water in a surficial aquifer is adequate to meet a proposed beneficial use. Such regulations shall specify the information required to be submitted to the Department of Environmental Quality (the Department) by a golf course or any other person seeking a determination from the Department that either the quantity or quality of the ground water in a surficial aquifer is not adequate to meet a proposed beneficial use. Such regulations shall require the Department, within 30 days of receipt of a complete request, to make a determination as to the adequacy of the quantity or quality of the ground water in a surficial aquifer.

C. The Secretary of Natural Resources and the Secretary of Transportation shall jointly submit the Plan to the Chairs of the House Committee on Agriculture, Chesapeake and Natural Resources and the Senate Committee on Agriculture, Conservation and Natural Resources no later than September 1, 2022, and shall jointly submit an updated version of the Plan every four years thereafter.

The collective reserve account in an internal capital account cooperative shall reflect any paid-in capital, net losses, and retained net earnings not allocated to individual members.

On receipt of a notice of intent to file under this section, the Tax Commissioner shall refrain from collecting the tax until the time for filing hereunder has expired, unless he determines that collection is in jeopardy.

Any person whose tax assessment has been improperly collected by the Department may apply hereunder to assert a claim that any amount so collected was exempt from process.

The venue for such proceeding shall be as specified in subdivision 13 b of § 8.01-261. The application shall be before the court when it is filed in the clerk's office.

B. Except as provided in subsection C, the court shall require the applicant to pay the assessment before proceeding with its application upon granting a motion by the Tax Commissioner seeking to compel such payment and showing to the satisfaction of the court that the Department is likely to prevail on the merits of the case, that the application is (i) not well grounded in fact; (ii) not warranted by existing law or a good faith argument for the extension, modification, or reversal of

existing law; (iii) interposed for an improper purpose, such as to harass, to cause unnecessary delay in the collection of the revenue, or to create needless cost to the Commonwealth from the litigation; or (iv) otherwise frivolous.

C. In lieu of the payment required in subsection B, the taxpayer may, within 60 days of the court's ruling, (i) post a bond pursuant to the provisions of § 16.1-107, with a corporate surety licensed to do business in Virginia, or (ii) file an irrevocable letter of credit satisfactory to the Tax Commissioner as to the bank or savings institution, the form and substance, and payable to the Commonwealth in the face amount of the contested assessment increased by twice the interest rate for underpayments published by the Department and in effect at the time the application is filed. The letter of credit shall be from a bank incorporated or authorized to conduct banking business under the laws of this Commonwealth or authorized to do business in this Commonwealth under the banking laws of the United States, or a federally insured savings institution located in this Commonwealth. Such bond or irrevocable letter of credit shall be conditioned upon payment by the applicant of the amount of the taxes, penalty and interest ordered by the court pursuant to § 58.1-1826, if any.

D. The venue for such proceeding shall be as specified in subdivision 13 b of § 8.01-261.

The Department shall be named as defendant, and the proceedings shall be conducted as an action at law before the court sitting without a jury. It shall be the burden of the applicant in any such proceeding to show that the assessment or collection or action on a transferred credit or other tax attribute complained of is erroneous or otherwise improper. The court's order shall be entered pursuant to § 58.1-1826.

E. Nothing in this section shall prevent the Tax Commissioner from collecting the assessment if he determines that collection is in jeopardy.

CHAPTER 19. WORKER MISCLASSIFICATION.

A. For the purposes of this title and Title 40.1, Title 60.2, and Title 65.2, if an individual performs services for an employer for remuneration, that individual shall be considered an employee of the party that pays that remuneration unless such individual or his employer demonstrates that such individual is an independent contractor. Each civil penalty assessed under this chapter shall be paid into the general fund.

§ 58.1-1902. Debarment; civil penalty.

A. Whenever the Department determines, after notice to the employer, that an employer failed to properly classify an individual as an employee under the provisions of § 58.1-1900, the Department shall notify all public bodies and covered institutions of the name of the employer.

B. Upon an employer's subsequent violations of subsection A, all public bodies and covered institutions shall not award a contract to such employer or to any firm, corporation, or partnership in which the employer has an interest in the following manner:

1. For a period of up to one year, as determined by the Department, from the date of the notice for a second offense.

2. For a period of up to two years, as determined by the Department, from the date of the notice for a third or subsequent offense.

§ 58.1-1903. Certain agreements prohibited.

No person shall require or request that an individual enter into an agreement or sign a document that results in the misclassification of the individual as an independent contractor or otherwise does not accurately reflect the relationship with the employer.

§ 58.1-1904. Unlawful acts.

It shall be unlawful for an employer or any other party to discriminate in any manner or take adverse action against any person in retaliation for exercising rights protected under this chapter.

§ 58.1-1905. Reporting.

The Department shall report annually on its enforcement of this chapter to the Governor and the General Assembly regarding compliance with and enforcement of this chapter. The Department's report shall include information regarding the number of investigated reports of worker misclassification; the findings of such reports; the amount of combined tax, interest, and fines collected; the number of referrals to the Department of Labor and Industry, Virginia Employment

1. That §§ 2.2-4321, 2.2-4343, 58.1-1821, and 58.1-1825 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding a section numbered 58.1-3.4 and by adding in Title 58.1 a chapter numbered 19, consisting of sections numbered 58.1-1900 through 58.1-1905, as follows:

§ 2.2-4321. Debarment.

A. Prospective contractors may be debarred from contracting for particular types of supplies, services, insurance or construction, for specified periods of time. Any debarment procedure shall be established in writing for state agencies and institutions by the agency designated by the Governor and for political subdivisions by their governing bodies. Any debarment procedure may provide for debarment on the basis of a contractor's unsatisfactory performance for a public body.

B. In addition, a prospective contractor shall be debarred from contracting with all public bodies and covered institutions whenever the Tax Commissioner so determines pursuant to § 58.1-1902.

As used in this section, "covered institution" means a public institution of higher education operating (i) subject to a management agreement set forth in Article 4 (§ 23.1-1004 et seq.) of Chapter 10 of Title 23.1, (ii) under a memorandum of understanding pursuant to § 23.1-1003, or (iii) under the pilot program authorized in the appropriation act.

§ 2.2-4343. Exemption from operation of chapter for certain transactions.

A. The provisions of this chapter shall not apply to:

1. The Virginia Port Authority in the exercise of any of its powers in accordance with Chapter 10 (§ 62.1-128 et seq.) of Title 62.1, provided the Authority implements, by policy or regulation adopted by the Board of Commissioners, procedures to ensure fairness and competitiveness in the procurement of goods and services and in the administration of its capital outlay program. This exemption shall be applicable only so long as such policies and procedures meeting the requirements remain in effect.

2. The Virginia Retirement System for selection of services related to the management, purchase or sale of authorized investments, actuarial services, and disability determination services. Selection of these services shall be governed by the standard set forth in § 51.1-124.30.

3. The State Treasurer in the selection of investment management services related to the external management of funds shall be governed by the standard set forth in § 2.2-4514, and shall be subject to competitive guidelines and policies that are set by the Commonwealth Treasury Board and approved by the Department of General Services.

4. The Department of Social Services or local departments of social services for the acquisition of motor vehicles for sale or transfer to Temporary Assistance to Needy Families (TANF) recipients.

5. The College of William and Mary in Virginia, Virginia Commonwealth University, the University of Virginia, and Virginia Polytechnic Institute and State University in the selection of services related to the management and investment of their endowment funds, endowment income, gifts, all other nongeneral fund reserves and balances, or local funds of or held by the respective public institution of higher education pursuant to § 23.1-2210, 23.1-2306, 23.1-2604, or 23.1-2803. However, selection of these services shall be governed by the Uniform Prudent Management of Institutional Funds Act (§ 64.2-1100 et seq.) as required by §§ 23.1-2210, 23.1-2306, 23.1-2604, and 23.1-2803.

However, such selection shall be governed by the standard set forth in § 23.1-706.

7. Public institutions of higher education for the purchase of items for resale at retail bookstores and similar retail outlets operated by such institutions. However, such purchase procedures shall provide for competition where practicable.

8. The purchase of goods and services by agencies of the legislative branch that may be specifically exempted therefrom by the Chairman of the Committee on Rules of either the House of Delegates or the Senate. 10. Any county, city or town whose governing body has adopted, by ordinance or resolution, alternative policies and procedures which are (i) based on competitive principles and (ii) generally applicable to procurement of goods and services by such governing body and its agencies, except as stipulated in subdivision 12.

This exemption shall be applicable only so long as such policies and procedures, or other policies and procedures meeting the requirements of § 2.2-4300, remain in effect in such county, city or town. Such policies and standards may provide for incentive contracting that offers a contractor whose bid is accepted the opportunity to share in any cost savings realized by the locality when project costs are reduced by such contractor, without affecting project quality, during construction of the project. The fee, if any, charged by the project engineer or architect for determining such cost savings shall be paid as a separate cost and shall not be calculated as part of any cost savings.

11. Any school division whose school board has adopted, by policy or regulation, alternative policies and procedures that are (i) based on competitive principles and (ii) generally applicable to procurement of goods and services by the school board, except as stipulated in subdivision 12.

The method for procurement of professional services through competitive negotiation set forth in §§ 2.2-4302.2, 2.2-4303.1, and 2.2-4303.2 shall also apply to all counties, cities, and school divisions, and to all towns having a population greater than 3,500, where the cost of the professional service is expected to exceed \$80,000 in the aggregate or for the sum of all phases of a contract or project. A school board that makes purchases through its public school foundation or purchases educational technology through its educational technology foundation, either as may be established pursuant to § 22.1-212.2:2 shall be exempt from the provisions of this chapter, except, relative to such purchases, the school board shall comply with the provisions of §§ 2.2-4311 and 2.2-4367 through 2.2-4377.

13. A public body that is also a utility operator may purchase services through or participate in contracts awarded by one or more utility operators that are not public bodies for utility marking services as required by the Underground Utility Damage Prevention Act (§ 56-265.14 et seq.). A purchase of services under this subdivision may deviate from the procurement procedures set forth in this chapter upon a determination made in advance by the public body and set forth in writing that competitive sealed bidding is either not practicable or not fiscally advantageous to the public, and the contract is awarded based on competitive principles.

14. Procurement of any construction or planning and design services for construction by a Virginia nonprofit corporation or organization not otherwise specifically exempted when (i) the planning, design or construction is funded by state appropriations of \$10,000 or less or (ii) the Virginia nonprofit corporation or organization is obligated to conform to procurement procedures that are established by federal statutes or regulations, whether those federal procedures are in conformance with the provisions of this chapter.

15. Purchases, exchanges, gifts or sales by the Citizens' Advisory Council on Furnishing and Interpreting the Executive Mansion.

16. The Eastern Virginia Medical School in the selection of services related to the management and investment of its endowment and other institutional funds. The selection of these services shall, however, be governed by the Uniform Prudent Management of Institutional Funds Act (§ 64.2-1100 et seq.).

17. The Department of Corrections in the selection of pre-release and post-incarceration services and the Department of Juvenile Justice in the selection of pre-release and post-commitment services.

23. The Virginia Industries for the Blind when procuring components, materials, supplies, or services for use in commodities and services furnished to the federal government in connection with its operation as an AbilityOne

Program-qualified nonprofit agency for the blind under the Javits-Wagner-O'Day Act, 41 U.S.C. §§ 8501-8506, provided that the procurement is accomplished using procedures that ensure that funds are used as efficiently as practicable. Such procedures shall require documentation of the basis for awarding contracts. Notwithstanding the provisions of § 2.2-1117, no public body shall be required to purchase such components, materials, supplies, services, or commodities.

B. Where a procurement transaction involves the expenditure of federal assistance or contract funds, the receipt of which is conditioned upon compliance with mandatory requirements in federal laws or regulations not in conformance with the provisions of this chapter, a public body may comply with such federal requirements, notwithstanding the provisions of this chapter, only upon the written determination of the Governor, in the case of state agencies, or the governing body, in the case of political subdivisions, that acceptance of the grant or contract funds under the applicable conditions is in the public interest. Such determination shall state the specific provision of this chapter in conflict with the conditions of the grant or contract.

§ 58.1-3.4. Tax Commissioner's authority to request and share information regarding employer worker reclassification.

Notwithstanding the provisions of § 58.1-3, the Tax Commissioner is authorized to work and share information with the following agencies to identify employers who fail to properly classify individuals as employees pursuant to the provisions of Chapter 19 (§ 58.1-1900 et seq.) and to enforce the provisions of Chapters 3 (§ 58.1-300 et seq.) and 19: the Department of Labor and Industry, the Virginia Employment Commission, the Department of Small Business and Supplier Diversity, the Department of General Services, the Workers' Compensation Commission, and the Department of Professional and Occupational Regulation. If any such agency has reason to believe that an employer has failed to properly classify individuals as employees in violation of Chapter 19, it shall notify the Department. Except as otherwise provided by law, such agencies shall share with the Department any information that may assist the Department in enforcing the provisions of Chapters 3 and 19.

§ 58.1-1821. Application to Tax Commissioner for correction.

Any person assessed with any tax administered by the Department of Taxation may, within ninety days from the date of such assessment, apply for relief to the Tax Commissioner. Such application shall be in the form prescribed by the Department, and shall fully set forth the grounds upon which the taxpayer relies and all facts relevant to the taxpayer's contention. The Tax Commissioner may also require such additional information, testimony or documentary evidence as he deems necessary to a fair determination of the application. Any person aggrieved by an action by the Department with respect to a transferred credit or other tax attribute may apply for relief under this section or request to join an application already filed by another person assessed with tax or aggrieved by an action with respect to the same credit or other tax attribute. *Any person aggrieved by an action by the Department with respect to debarment pursuant to § 58.1-1902 may apply for relief under this section.* Notwithstanding the provisions of § 58.1-3, the Tax Commissioner shall have the discretion to permit the joinder of a party or consolidate proceedings on applications filed by different taxpayers if the interest of the party or the applications involve adjustments to credits or other tax attributes arising from the same transaction or occurrence, provided that no interests are prejudiced and the joinder or consolidation advances administrative economy.

On receipt of a notice of intent to file under this section, the Tax Commissioner shall refrain from collecting the tax until the time for filing hereunder has expired, unless he determines that collection is in jeopardy.

Any person whose tax assessment has been improperly collected by the Department may apply hereunder to assert a claim that any amount so collected was exempt from process.

The initial assessment of any tax administered by the Department of Taxation shall include a notice to the taxpayer that specifies all of the taxpayer's rights under this section, including but not limited to the right to have the Tax Commissioner refrain from collecting the tax upon the Commissioner's receipt from the taxpayer of a notice of intent to file for relief under this section.

§ 58.1-1825. Application to court for correction of erroneous or improper assessments of state taxes generally.

A. Any person assessed with any tax administered by the Department of Taxation and aggrieved by any such assessment, or aggrieved by an action by the Department with respect to a transferred credit or other tax attribute, *or aggrieved by an action by the Department with respect to debarment pursuant to § 58.1-1902*, may, unless otherwise specifically provided by law, within (i) three years from the date such assessment is made or (ii) one year from the date of the Tax Commissioner's determination under § 58.1-1822, whichever is later, apply to a circuit court for relief. The venue for such proceeding shall be as specified in subdivision 13 b of § 8.01-261. The application shall be before the court when it is filed in the clerk's office.

B. Except as provided in subsection C, the court shall require the applicant to pay the assessment before proceeding with its application upon granting a motion by the Tax Commissioner seeking to compel such payment and showing to the satisfaction of the court that the Department is likely to prevail on the merits of the case, that the application is (i) not well grounded in fact; (ii) not warranted by existing law or a good faith argument for the extension, modification, or reversal of existing law; (iii) interposed for an improper purpose, such as to harass, to cause unnecessary delay in the collection of the revenue, or to create needless cost to the Commonwealth from the litigation; or (iv) otherwise frivolous.

C. In lieu of the payment required in subsection B, the taxpayer may, within 60 days of the court's ruling, (i) post a bond pursuant to the provisions of § 16.1-107, with a corporate surety licensed to do business in Virginia, or (ii) file an irrevocable letter of credit satisfactory to the Tax Commissioner as to the bank or savings institution, the form and

substance, and payable to the Commonwealth in the face amount of the contested assessment increased by twice the interest rate for underpayments published by the Department and in effect at the time the application is filed. The letter of credit shall be from a bank incorporated or authorized to conduct banking business under the laws of this Commonwealth or authorized to do business in this Commonwealth under the banking laws of the United States, or a federally insured savings institution located in this Commonwealth. Such bond or irrevocable letter of credit shall be conditioned upon payment by the applicant of the amount of the taxes, penalty and interest ordered by the court pursuant to § 58.1-1826, if any.

D. Any person whose assessment has been improperly collected from property exempt from process may within three years from the date such assessment is made, or if later, within one year of the Tax Commissioner's decision on a process exemption claim under § 58.1-1821 apply to a circuit court for relief. The venue for such proceeding shall be as specified in subdivision 13 b of § 8.01-261.

The Department shall be named as defendant, and the proceedings shall be conducted as an action at law before the court sitting without a jury. It shall be the burden of the applicant in any such proceeding to show that the assessment or collection or action on a transferred credit or other tax attribute complained of is erroneous or otherwise improper. The court's order shall be entered pursuant to § 58.1-1826.

E. Nothing in this section shall prevent the Tax Commissioner from collecting the assessment if he determines that collection is in jeopardy.

Each civil penalty assessed under this chapter shall be paid into the general fund.

§ 58.1-1902. Debarment; civil penalty.

A. Whenever the Department determines, after notice to the employer, that an employer failed to properly classify an individual as an employee under the provisions of § 58.1-1900, the Department shall notify all public bodies and covered institutions of the name of the employer.

B. Upon an employer's subsequent violations of subsection A, all public bodies and covered institutions shall not award a contract to such employer or to any firm, corporation, or partnership in which the employer has an interest in the following manner:

1. For a period of up to one year, as determined by the Department, from the date of the notice for a second offense.

2. For a period of up to three years, as determined by the Department, from the date of the notice for a third or subsequent offense.

§ 58.1-1903. Certain agreements prohibited.

No person shall require or request that an individual enter into an agreement or sign a document that results in the misclassification of the individual as an independent contractor or otherwise does not accurately reflect the relationship with the employer.

§ 58.1-1904. Unlawful acts.

It shall be unlawful for an employer or any other party to discriminate in any manner or take adverse action against any person in retaliation for exercising rights protected under this chapter.

§ 58.1-1905. Reporting.

The Department shall report annually to the Governor and the General Assembly regarding compliance with and enforcement of this chapter. [S 595]

Approved April 6, 2020

Be it enacted by the General Assembly of Virginia:

1. That § 22.1-280.2:2 of the Code of Virginia is amended and reenacted as follows:

§ 22.1-280.2:2. Public School Security Equipment Grant Act of 2013.

A. This section shall be known and may be cited as the "Public School Security Equipment Grant Act of 2013."

B. For purposes of this section:

"Authority" means the Virginia Public School Authority.

"Department" means the Department of Education.

"Eligible school division" means a (i) local school division or (ii) regional vocational center, special education center, alternative education center, or academic year Governor's School serving public school students in grades K through 12. The term shall also include the Virginia School for the Deaf and the Blind.

"Local school division" means a school division with schools subject to state accreditation and whose students are required to be reported in fall membership for grades K through 12.

"Security equipment" includes building modifications and fixtures ~~such as~~, including security vestibules, and vaping detectors.

C. The Authority shall issue bonds for the purpose of grant payments to eligible school divisions of the Commonwealth to be used exclusively for purchasing security equipment for schools, including any related installation, which is designed to improve and help ensure the safety of students attending public schools in Virginia. Such grants shall not be used to pay for security equipment that is not included or described in a grant application approved by the Department pursuant to subsection D. The amount of grants provided to each eligible school division pursuant to this section shall not exceed \$100,000 for each fiscal year of the Commonwealth. Funds for the payment of such grants shall be provided from the issuance of bonds by the Authority, provided that the Authority shall not issue more than an aggregate of \$6 million in bonds, after all costs, for such grants during each fiscal year of the Commonwealth. In addition, the Authority shall ensure that no more than an aggregate principal amount of \$30 million in bonds issued under this section shall be outstanding at any time. Eligible school divisions seeking a grant shall apply to the Department, which shall be responsible for administering the grant program.

The Authority shall work with the Department to determine the schedule for the issuance of the bonds, which shall be based in part upon eligible school divisions having sufficient funds to purchase such security equipment. The payment of debt service on such bonds shall be as provided in the general appropriation act.

Such grants shall be in addition to all other grants made to local governments, school boards, or school divisions according to law. In addition, such grants shall not replace or be in lieu of loans to local school boards or interest rate subsidy payments to local school boards pursuant to Chapter 11.1 (§ 22.1-175.1 et seq.) of Title 22.1, and the issuance of such bonds and the payment of such grants shall not, except as herein provided, affect or otherwise amend the provisions of such chapter as they relate to the powers and duties of the Authority, local school boards, local governments, or any other entity.

D. Based on the criteria developed by the Department in collaboration with the Department of Criminal Justice Services, eligible school divisions shall apply for a grant by August 1 of each year. As a condition of receiving a grant, a local match of 25 percent of the grant amount shall be required. The Superintendent of Public Instruction is authorized to reduce the local match for local school divisions with a composite index of local ability-to-pay less than 0.2000, including any such school division participating in a regional vocational center, special education center, alternative education center, or academic year Governor's School. The Virginia School for the Deaf and the Blind shall be exempt from the match requirement.

Grants shall be awarded by the Department on a competitive basis. As part of the application for a grant, each eligible school division shall (i) identify with specificity the security equipment for which grants are being sought, as well as the estimated costs to purchase and install the security equipment, and (ii) certify that it is the intent of the eligible school division to purchase the security equipment within six months of approval of any grant by the Department.

If the Department determines that a grant shall be paid to an eligible school division under this section, it shall provide a written certification to the chairman of the Authority directing him to make a grant payment in a specific amount to the eligible school division. The Department, however, shall not make such written certification until it has established that the Authority has sufficient funds to make such grant payment. The Authority shall only make grant payments to an eligible school division for the grants provided under this section upon receipt of such written certification. The Authority shall make such grant payments, and in the amounts as directed by the Department, within 30 days of receipt of the certification.

E. The Department shall develop guidelines concerning the requirements for applying for a grant and the administration of such grants. Such guidelines shall not be subject to the Administrative Process Act (§ 2.2-4000 et seq.).

F. In the event that two or more local school divisions became one local school division, whether by consolidation of only the local school divisions or by consolidation of the local governments, such resulting local school division shall be eligible for grants on the basis of the same number of local school divisions as existed prior to September 30, 2012.

G. The Authority shall take all necessary and proper steps as it is authorized to take under law to carry out the provisions of this section.

H. Beginning in 2014, the Department shall make an annual report to the General Assembly by September 1 of each year reporting (i) the total grants paid during the immediately prior fiscal year to each eligible school division and (ii) a general description of the security equipment purchased by eligible school divisions.

§ 58.1-2900. Imposition of tax.

A. Effective January 1, 2001, there is hereby imposed, in addition to the local consumer utility tax of Article 4 (§ 58.1-3812 et seq.) of Chapter 38 and subject to the adjustments authorized by subdivision A 5 and by § 58.1-2902, a tax on the consumers of electricity in the Commonwealth based on kilowatt hours delivered by the incumbent distribution utility and used per month as follows:

1. Each consumer of electricity in the Commonwealth shall pay electric utility consumption tax on all electricity consumed per month not in excess of 2,500 kWh at the rate of ~~\$0.00155~~ *\$0.001595* per kWh, as follows:

State consumption	Special regulatory	Local consumption
tax rate	tax rate	tax rate

3. Each consumer of electricity in the Commonwealth shall pay electric utility consumption tax on all electricity consumed per month in excess of 50,000 kWh at the rate of ~~\$0.00075~~ *\$0.000771* per kWh, as follows:

State consumption	Special regulatory	Local consumption
tax rate	tax rate	tax rate
\$0.00050/kWh	\$0.00007/kWh \$0.000091/kWh	\$0.00018/kWh

4. The tax rates set forth in subdivisions 1, 2, and 3 are in lieu of and replace the state gross receipts tax (§ 58.1-2626), the special regulatory revenue tax (§ 58.1-2660), and the local license tax (§ 58.1-3731) levied on corporations furnishing heat, light or power by means of electricity.

5. The tax on consumers under this section shall not be imposed on consumers served by an electric utility owned or operated by a municipality if such municipal electric utility elects to have an amount equivalent to the tax added on the bill such utility (or an association or agency of which it is a member) pays for bundled or unbundled transmission service as a separate item. Such amount, equivalent to the tax, shall be calculated under the tax rate schedule as if the municipal electric utility were selling and collecting the tax from its consumers, adjusted to exclude the amount which represents the local consumption tax if the locality in which a consumer is located does not impose a license fee rate pursuant to § 58.1-3731, and shall be remitted to the Commission pursuant to § 58.1-2901. Municipal electric utilities may bundle the tax in the rates charged to their retail customers. Notwithstanding anything contained herein to the contrary, the election permitted under this subdivision shall not be exercised by any municipal electric utility if the entity to whom the municipal electric utility (or an association or agency of which it is a member) pays for transmission service is not subject to the taxing jurisdiction of the Commonwealth, unless such entity agrees to remit to the Commonwealth all amounts equivalent to the tax pursuant to § 58.1-2901.

6. The tax on consumers set forth in subdivisions 1, 2, and 3 shall only be imposed in accordance with this subdivision on consumers of electricity purchased from a utility consumer services cooperative to the extent that such cooperative purchases, for the purpose of resale within the Commonwealth, electricity from a federal entity that made payments in accordance with federal law (i) in lieu of taxes during such taxable period to the Commonwealth and (ii) on the basis of such federal entity's gross proceeds resulting from the sale of such electricity. Such tax shall instead be calculated by deducting from each of the respective tax amounts calculated in accordance with subdivisions 1, 2, and 3 an amount equal to the calculated tax amount multiplied by the ratio of the total cost of power supplied by the federal entity, including facilities rental, during the taxable period to the utility consumer services cooperative's total operating revenue within the Commonwealth during the taxable period. The State Corporation Commission may audit the records and books of any utility consumer services cooperative that determines the tax on consumers in accordance with this subdivision to verify that the tax imposed has been correctly determined and properly remitted.

B. The tax authorized by this chapter shall not apply to municipalities' own use or to use by divisions or agencies of federal, state and local governments.

C. For purposes of this section, "kilowatt hours delivered" ~~shall mean~~ means in the case of eligible customer-generators, as defined in § 56-594, those kilowatt hours supplied from the electric grid to such customer-generators, minus the kilowatt hours generated and fed back to the electric grid by such customer-generators.

§ 58.1-2904. Imposition of tax.

§ 58.1-605. To what extent and under what conditions cities and counties may levy local sales taxes; collection thereof by Commonwealth and return of revenue to each city or county entitled thereto.

A. No county, city or town shall impose any local general sales or use tax or any local general retail sales or use tax except as authorized by this section or § 58.1-605.1.

B. The council of any city and the governing body of any county may levy a general retail sales tax at the rate of one percent to provide revenue for the general fund of such city or county. Such tax shall be added to the rate of the state sales tax imposed by §§ 58.1-603 and 58.1-604 and shall be subject to all the provisions of this chapter and the rules and regulations published with respect thereto. No discount under § 58.1-622 shall be allowed on a local sales tax.

C. 1. The council of any city and the governing body of any county desiring to impose a local sales tax under this section may do so by the adoption of an ordinance stating its purpose and referring to this section, and providing that such ordinance shall be effective on the first day of a month at least 60 days after its adoption. A certified copy of such ordinance shall be forwarded to the Tax Commissioner so that it will be received within five days after its adoption.

2. Prior to any change in the rate of any local sales and use tax, the Tax Commissioner shall provide remote sellers with at least 30 days' notice. Any change in the rate of any local sales and use tax shall only become effective on the first day of a calendar quarter. Failure to provide notice pursuant to this section shall require the Commonwealth and the locality to apply the preceding effective rate until 30 days after notification is provided.

D. Any local sales tax levied under this section shall be administered and collected by the Tax Commissioner in the same manner and subject to the same penalties as provided for the state sales tax.

E. All local sales tax moneys collected by the Tax Commissioner under this section shall be paid into the state treasury to the credit of a special fund which is hereby created on the Comptroller's books under the name "Collections of Local Sales Taxes." Such local sales tax moneys shall be credited to the account of each particular city or county levying a local

sales tax under this section. The basis of such credit shall be the city or county in which the sales were made as shown by the records of the Department and certified by it monthly to the Comptroller, namely, the city or county of location of each place of business of every dealer paying the tax to the Commonwealth without regard to the city or county of possible use by the purchasers. If a dealer has any place of business located in more than one political subdivision by reason of the boundary line or lines passing through such place of business, the amount of sales tax paid by such a dealer with respect to such place of business shall be treated for the purposes of this section as follows: one-half shall be assignable to each political subdivision where two are involved, one-third where three are involved, and one-fourth where four are involved.

F. As soon as practicable after the local sales tax moneys have been paid into the state treasury in any month for the preceding month, the Comptroller shall draw his warrant on the Treasurer of Virginia in the proper amount in favor of each city or county entitled to the monthly return of its local sales tax moneys, and such payments shall be charged to the account of each such city or county under the special fund created by this section. If errors are made in any such payment, or adjustments are otherwise necessary, whether attributable to refunds to taxpayers, or to some other fact, the errors shall be corrected and adjustments made in the payments for the next two months as follows: one-half of the total adjustment shall be included in the payments for the next two months. In addition, the payment shall include a refund of amounts erroneously not paid to the city or county and not previously refunded during the three years preceding the discovery of the error. A correction and adjustment in payments described in this subsection due to the misallocation of funds by the dealer shall be made within three years of the date of the payment error.

G. Such payments to counties are subject to the qualification that in any county wherein is situated any incorporated town constituting a special school district and operated as a separate school district under a town school board of three members appointed by the town council, the county treasurer shall pay into the town treasury for general governmental purposes the proper proportionate amount received by him in the ratio that the school age population of such town bears to the school age population of the entire county. If the school age population of any town constituting a separate school district is increased by the annexation of territory since the last estimate of school age population provided by the Weldon Cooper Center for Public Service, such increase shall, for the purposes of this section, be added to the school age population of such town as shown by the last such estimate and a proper reduction made in the school age population of the county or counties from which the annexed territory was acquired.

H. One-half of such payments to counties are subject to the further qualification, other than as set out in subsection G, that in any county wherein is situated any incorporated town not constituting a separate special school district that has complied with its charter provisions providing for the election of its council and mayor for a period of at least four years immediately prior to the adoption of the sales tax ordinance, the county treasurer shall pay into the town treasury of each such town for general governmental purposes the proper proportionate amount received by him in the ratio that the school age population of each such town bears to the school age population of the entire county, based on the latest estimate provided by the Weldon Cooper Center for Public Service. The preceding requirement pertaining to the time interval between compliance with election provisions and adoption of the sales tax ordinance shall not apply to a tier-city. If the school age population of any such town not constituting a separate special school district is increased by the annexation of territory or otherwise since the last estimate of school age population provided by the Weldon Cooper Center for Public Service, such increase shall, for the purposes of this section, be added to the school age population of such town as shown by the last such estimate and a proper reduction made in the school age population of the county or counties from which the annexed territory was acquired.

I. Notwithstanding the provisions of subsection H, the board of supervisors of a county may, in its discretion, appropriate funds to any incorporated town not constituting a separate school district within such county that has not complied with the provisions of its charter relating to the elections of its council and mayor, an amount not to exceed the amount it would have received from the tax imposed by this chapter if such election had been held; however, Halifax County and Charlotte County may appropriate any amount to any such incorporated town.

J. It is further provided that if any incorporated town which would otherwise be eligible to receive funds from the county treasurer under subsection G or H be located in a county that does not levy a general retail sales tax under the provisions of this law, such town may levy a general retail sales tax at the rate of one percent to provide revenue for the general fund of the town, subject to all the provisions of this section generally applicable to cities and counties. Any tax levied under the authority of this subsection shall in no case continue to be levied on or after the effective date of a county ordinance imposing a general retail sales tax in the county within which such town is located.
