At the discretion of the Authority, any bonds issued under the provisions of this article may be secured by a trust indenture or agreement by and between the Authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or outside the Commonwealth. Such trust indenture or agreement or the resolution providing for the issuance of such bonds may pledge or assign the revenues to be received and provide for the mortgage of any rail facilities or property or any part thereof. Such trust indenture or agreement or resolution providing for the issuance of such bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants providing for the repossession and sale by the Authority or any trustees under any trust indenture or agreement of any rail facilities, or part thereof, upon any default under the lease or sale of such rail facilities, setting forth the duties of the Authority in relation to the acquisition of property and the planning, development, acquisition, construction, rehabilitation, establishment, improvement, extension, enlargement, maintenance, repair, operation, and insurance of the rail facilities in connection with which such bonds shall have been authorized; the amounts of rates, rents, fees, and other charges to be charged; the collection of such rates, rents, fees, and other charges; the custody, safeguarding, and application of all moneys; and conditions or limitations with respect to the issuance of additional bonds. It is lawful for any national bank with its main office in the Commonwealth or any other state or any bank or trust company incorporated under the laws of the Commonwealth or another state that may act as depository of the proceeds of bonds or of revenues to furnish such indemnifying bonds or to pledge such securities as may be required by the Authority. Any such trust indenture or agreement or resolution may set forth the rights of action by bondholders. In addition to the foregoing, any such trust indenture or agreement or resolution may contain such other provisions as the Authority may deem reasonable and proper for the security of the bondholders, including, without limitation, provisions for the assignment to a corporate trustee or escrow agent of any of the rights of the Authority in any project owned by, or leases or sales of any rail facilities made by, the Authority. All expenses incurred in carrying out the provisions of such trust indenture or agreement or resolution or other agreements relating to any rail facilities, including those to which the Authority may not be a party, may be treated as a part of the cost of the operation of the rail facilities.

J. No obligation of the Authority shall be deemed to constitute a debt, or pledge of the faith and credit, of the Commonwealth or of any other political subdivision thereof but shall be payable solely from the revenues and other funds of the Authority pledged thereto, excluding revenues provided from the Commonwealth Rail Fund pursuant to § 33.2-1526.4. All such obligations shall contain on the face thereof a statement to the effect that the Commonwealth, any political subdivision thereof, and the Authority shall not be obligated to pay the same or the interest thereon except from revenues and other funds of the Authority pledged thereto, and that neither the faith and credit nor the taxing power of the Commonwealth or any political subdivision thereof is pledged to the payment of the principal or the interest on such obligations.

K. Any bonds or refunding bonds issued under the provisions of this article and any transfer of such bonds shall at all times be free from Commonwealth and local taxation. The interest on the bonds and any refunding bonds or bond anticipation notes shall at all times be exempt from taxation by the Commonwealth and by any political subdivision thereof.

L. Neither the directors of the Board nor any person executing the bonds shall be liable personally on the bonds by reason of the issuance thereof.

M. Any holder of bonds issued under the provisions of this article or any of the coupons appertaining thereto, and the trustee under any trust indenture or agreement or resolution, except to the extent the rights herein given may be restricted by such trust indenture or agreement or resolution authorizing the issuance of such bonds, may either at law or in equity, by suit, action, mandamus, or other proceeding, protect and enforce any and all rights under the laws of the Commonwealth or granted hereunder or under such trust indenture or agreement or resolution and may enforce and compel the performance of all duties required by this article or by such trust indenture or agreement or resolution to be performed by the Authority or by any officer thereof, including the fixing, charging, and collecting of rates, rentals, fees, and other charges.

N. Provision may be made in the proceedings authorizing refunding bonds for the purchase of the refunded bonds in the open market or pursuant to tenders made from time to time where there is available in the escrow or sinking fund for the payment of the refunded bonds a surplus in an amount to be fixed in such proceedings.

O. 1. The Authority is hereby authorized to apply for, execute, and/or endorse applications submitted by private entities or political subdivisions of the Commonwealth to obtain federal credit assistance for one or more qualifying transportation infrastructure projects or facilities to be developed pursuant to the Public-Private Transportation Act of 1995 (§ 33.2-1800 et seq.). Any such application, agreement, and/or endorsement shall not financially obligate the Commonwealth or be construed to implicate the credit of the Commonwealth as security for any such federal credit assistance.

2. The Authority is hereby authorized to pursue or otherwise apply for, and execute, an agreement to obtain financing using a federal credit instrument for project financings otherwise authorized by this article or other acts of assembly.

§ 33.2-295. Deposit and investment of funds.

Bonds issued by the Authority under the provisions of this article are hereby made securities in which all public officers and public bodies of the Commonwealth and its political subdivisions, and all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees, and other fiduciaries may
properly and legally invest funds, including capital in their control or belonging to them. Such bonds are hereby made securities that may properly and legally be deposited with and received by any state or municipal officer or any agency or political subdivision of the Commonwealth for any purpose for which the deposit of bonds or obligations of the Commonwealth is now or may hereafter be authorized by law.

§ 33.2-296. Revenues of the Authority.

All moneys received by the Authority pursuant to this article including, without limitation, moneys received from the Commonwealth Rail Fund established pursuant to § 33.2-1526.4, whether as proceeds from the sale of bonds or as revenues, shall be deemed to be trust funds to be held and applied solely as provided in this article. The resolution authorizing the bonds of any issue or the trust indenture or agreement or resolution securing such bonds shall provide that any officer with whom, or any bank or trust company with which, such moneys shall be deposited shall act as a trustee of such moneys and shall hold and apply the same for the purposes hereof, subject to such regulations as this article and such trust indenture or agreement or resolution may provide.

§ 33.2-297. Moneys of Authority.

All moneys of the Authority, from whatever source derived, shall be paid to the treasurer of the Authority. Such moneys shall be deposited in the first instance by the treasurer in one or more banks or trust companies, in one or more special accounts. All banks and trust companies are authorized to give such security for such deposits, if required by the Authority. The moneys in such accounts shall be paid out on the warrant or other order of such person or persons as the Authority may authorize to execute such warrants or orders.

§ 33.2-298. Annual budget.

The Authority shall prepare and submit a detailed annual operating plan and budget to the Transportation Board by February 1 of each fiscal year. The Authority shall also prepare and submit for approval any proposed capital expenditures and projects for the following fiscal year to the Transportation Board by February 1. The Transportation Board shall have until May 30 to approve or deny any capital expenditures, and, in the event the Transportation Board has not approved or denied the Authority’s proposed capital expenditures by such deadline, such expenditures shall be deemed approved. The operating plan and budget shall be in a form prescribed by the Transportation Board and shall include information on expenditures, indebtedness, and other information as prescribed by the Transportation Board.

§ 33.2-299. Recordkeeping; audits.

A. The accounts and records of the Authority showing the receipt and disbursement of funds from whatever source derived shall be in a form prescribed by governmental generally accepted accounting principles. Such accounts shall correspond as nearly as possible to the accounts and records for such matters maintained by enterprises.

B. The accounts of the Authority shall be audited annually by a certified public accounting firm selected by the Auditor of Public Accounts with the assistance of the Authority through a process of competitive negotiation. The cost of such audit and review shall be borne by the Authority.

C. The Authority shall submit an annual report to the Governor and the General Assembly on or before November 1 of each year. Such report shall contain the audited financial statements of the Authority for the fiscal year ending the preceding June 30.

D. The Board, the General Assembly, or the Governor may at any time request that the Office of the State Inspector General, created pursuant to § 2.2-308, review any area of the Authority’s finances or operations.

§ 33.2-299.1. Exemption of Authority from personnel and procurement procedures.

The provisions of the Virginia Personnel Act (§ 2.2-2900 et seq.) and the Virginia Public Procurement Act (§ 2.2-4300 et seq.) shall not apply to the Authority in the exercise of any power conferred under this article. The Authority shall develop and adopt rules governing their procurement procedures. However, such rules adopted for the procurement of professional services with a cost expected to exceed $80,000 shall be consistent with the provisions of §§ 2.2-4302.2, 2.2-4303.1 and 2.2-4303.2. The initial rules shall be adopted by the Board no later than six months after the first meeting of the Board.

§ 33.2-299.2. Police powers; Authority rules and regulations.

The Authority is empowered to adopt and enforce reasonable rules and regulations governing any and all activities using Authority property. Such rules and regulations shall have the force and effect of law after publication one time in full in a newspaper of general circulation in the county or city where the affected property is located.

§ 33.2-299.3. Governmental function; exemption from taxation.

The exercise of the powers granted by this article will be in all respects for the benefit of the people of the Commonwealth, for the increase of their commerce and prosperity, and for the improvement of their health and living conditions, and as the operation and maintenance of rail facilities by the Authority and the undertaking of activities in the furtherance of the purposes of the Authority will constitute the performance of the essential governmental functions, the Authority shall not be required to pay any taxes or assessments upon any rail facilities or any property acquired or used by the Authority under the provisions of this article or upon the income therefrom, including sales and use taxes on the tangible personal property used in the operations of the Authority. The exemption hereby granted shall not be construed to extend to persons conducting on the premises of any rail facility businesses for which local or state taxes would otherwise be required.

§ 33.2-299.4. Cooperation with federal agencies.
The Authority is empowered to cooperate with, and act as an agent for, the United States or any agency, department, corporation, or instrumentality thereof in the maintenance, development, improvement, and use of rail facilities of the Commonwealth and in any other matter within the purposes, duties, and powers of the Authority.

§ 33.2-299.5. Continuing responsibilities of the Transportation Board and the Department.

The Transportation Board and the Department shall cooperate and assist the Authority in the accomplishment of its purposes as set forth in § 33.2-288.

§ 33.2-299.6. Dissolution of Authority.

Whenever the Board determines that the purposes for which it was created have been substantially fulfilled or are impractical or impossible to accomplish and that all bonds theretofore issued and all other obligations therefore incurred by the Authority have been paid or that cash or a sufficient amount of United States government securities has been deposited for their payment, and upon the approval of the Governor and the General Assembly, the Board may adopt resolutions or ordinances declaring and finding that the Authority should be dissolved and that appropriate articles of dissolution shall be filed with the State Corporation Commission. Upon the filing of such articles of dissolution by the Authority, such dissolution shall become effective and the title to all funds and other property owned by the Authority at the time of such filing shall vest in the Department.

§ 33.2-299.7. Exclusions from the Virginia Freedom of Information Act; proprietary records and trade secrets.

A. Notwithstanding the provisions of the Virginia Freedom of Information Act (§ 2.2-3700 et seq.), the Authority shall keep confidential trade secrets or confidential proprietary information, not publicly available, provided by a private person or entity pursuant to a promise of confidentiality where if such information were made public, the financial interest of the private person or entity could be adversely affected. In order for trade secrets or proprietary information to be excluded from the provisions of the Virginia Freedom of Information Act, the private person or entity shall (i) invoke such exclusion upon submission of the data or other materials for which protection from disclosure is sought, (ii) identify the data or other materials for which protection is sought, and (iii) state the reason why protection is necessary.

B. Notwithstanding the provisions of the Virginia Freedom of Information Act, the Authority shall keep confidential information submitted by a private person, entity, or other party in negotiations with the Authority, where if such information was made public prior to the execution of a business arrangement, the financial interests of bargaining positions of the public or private entity would be adversely affected.

§ 33.2-299.8. Liberal construction.

Neither this article nor anything herein contained is or shall be construed as a restriction or limitation upon any powers that the Authority might otherwise have under any laws of the Commonwealth, and this article is cumulative to any such powers. This article does and shall be construed to provide a complete, additional, and alternative method for the doing of things authorized thereby and shall be regarded as supplemental and additional to power conferred by other laws. However, except as otherwise explicitly provided herein, the issuance of bonds, notes, and other obligations and refunding bonds under the provisions of this article need not comply with the requirements of any other law of the Commonwealth applicable to the issuance of bonds, notes, and other obligations. No proceedings, notice, or approval shall be required for the issuance of any bonds, notes, and other obligations or any instrument as security therefor, except as is provided in this article.

§ 33.2-356. Funding for extraordinary repairs.

Notwithstanding any contrary provision of this Code, the Board has the authority to provide, from revenues available for highway capital improvements under § 33.2-1526, construction programs pursuant to § 33.2-358, except for revenues pledged to secure any bonds issued for transportation purposes, for exceptionally heavy expenditures for repairs or replacements made necessary by highway damage resulting from extraordinary accidents, vandalism, weather conditions, or acts of God as well as to respond to federal funding initiatives that require matching funds.

§ 33.2-357. Revenue-sharing funds for systems in certain localities.

A. From revenues made available by the General Assembly and appropriated for the improvement, construction, reconstruction, or maintenance of the systems of state highways, the Board may make an equivalent matching allocation to any locality for designations by the governing body of up to $5 million for use by the locality to improve, construct, maintain, or reconstruct the highway systems within such locality with up to $2.5 million for use by the locality to maintain the highway systems within such locality. After adopting a resolution supporting the action, the governing body of the locality may request revenue-sharing funds to improve, construct, reconstruct, or maintain a highway system located in another locality or between two or more localities or to bring subdivision streets, used as such prior to the date specified in § 33.2-335, up to standards sufficient to qualify them for inclusion in the primary or secondary state highway system. All requests for funding shall be accompanied by a prioritized listing of specified projects.

B. In allocating funds under this section, the Board shall give priority to projects as follows: first, to projects that have previously received an allocation of funds pursuant to this section; second, to projects that (i) meet a transportation need identified in the Statewide Transportation Plan pursuant to § 33.2-353 or (ii) accelerate a project in a locality's capital plan; and third, to projects that address pavement resurfacing and bridge rehabilitation projects where the maintenance needs analysis determines that the infrastructure does not meet the Department's maintenance performance targets.

C. The Department shall contract with the locality for the implementation of the project. Such contract may cover either a single project or may provide for the locality's implementation of several projects. The locality shall undertake implementation of the particular project by obtaining the necessary permits from the Department in order to ensure that the
improvement is consistent with the Department’s standards for such improvements. At the request of the locality, the Department may provide the locality with engineering, right-of-way acquisition, construction, or maintenance services for a project with its own forces. The locality shall provide payment to the Department for any such services. If administered by the Department, such contract shall also require that the governing body of the locality pay to the Department within 30 days the local revenue-sharing funds upon written notice by the Department of its intent to proceed. Any project having funds allocated under this program shall be initiated in such a fashion that at least a portion of such funds have been expended within one year of allocation. Any revenue-sharing funds for projects not initiated after two subsequent fiscal years of allocation may be reallocated at the discretion of the Board.

D. Total Commonwealth funds allocated by the Board under this section shall not exceed the greater of $100 million or seven percent of funds available for distribution pursuant to subsection D B of § 33.2-358 prior to the distribution of funds pursuant to this section, whichever is greater, in each fiscal year, subject to appropriation for such purpose. For any fiscal year in which less than the full program allocation has been allocated by the Board to specific governing bodies, those localities requesting the maximum allocation under subsection A may be allowed an additional allocation at the discretion of the Board.

E. The funds allocated by the Board under this section shall be distributed and administered in accordance with the revenue-sharing program guidelines established by the Board.

§ 33.2-358. Allocation of funds to programs.
A. For the purposes of this section:
(2) Bridge reconstruction and rehabilitation means reconstruction and rehabilitation of those bridges identified by the Department as being functionally obsolete or structurally deficient.
(3) High priority projects means those projects of regional or statewide significance identified by the Board that reduce congestion, increase safety, create jobs, or increase economic development.
(4) High tech infrastructure improvements means those projects or programs identified by the Board that reduce congestion, improve mobility, improve safety, provide up-to-date travel data, or improve emergency response.
B. The Board shall allocate each year from all funds made available for highway purposes such amount as it deems reasonable and necessary for the maintenance of roads within the Interstate System, the primary state highway system, and the secondary state highway system and for city and town street maintenance payments made pursuant to § 33.2-319 and payments made to counties that have withdrawn or elect to withdraw from the secondary state highway system pursuant to § 33.2-366.
C. Until July 1, 2020, after funds are set aside for administrative and general expenses and pursuant to other provisions in this title that provide for the disposition of funds prior to allocation for highway purposes, and after allocation is made pursuant to subsection B, the Board shall allocate an amount determined by the Board not to exceed $500 million in any given year as follows: (i) 25 percent to bridge reconstruction and rehabilitation; (ii) 25 percent to advancing high priority projects statewide; (iii) 25 percent to reconstructing deteriorated Interstate System, primary state highway system, and municipality maintained primary extension pavements determined to have a Combined Condition Index of less than 60; (iv) 15 percent to projects undertaken pursuant to the Public-Private Transportation Act of 1995 (§ 33.2-1800 et seq.); (v) five percent to paving or improving unpaved highways carrying more than 50 vehicles per day; and (vi) five percent to the Innovation and Technology Transportation Fund established pursuant to § 33.2-1531 for high-tech infrastructure improvements, provided that at the discretion of the Board such percentages of funds may be adjusted in any given year to meet project cash flow needs or when funds cannot be expended due to legal, environmental, or other project management considerations. After such allocations are made, the Board may allocate each year up to 10 percent of the funds remaining for highway purposes for the undertaking and financing of rail projects that in the Board’s determination will result in mitigation of highway congestion. After the foregoing allocations have been made, the Board shall allocate the remaining funds available for highway purposes, exclusive of federal funds for the Interstate System, pursuant to § 33.2-360 and any funds not allocated to a project in the Six-Year Improvement Program as follows:
50 percent for the high-priority projects program established pursuant to § 33.2-370 and 50 percent for the highway construction district grant programs established pursuant to § 33.2-371.
D. For funds allocated for fiscal years beginning on and after July 1, 2020, after B. After funds are set aside for administrative and general expenses and to other provisions in this title that provide for the disposition of funds prior to allocation for highway purposes construction programs, and after allocation is made pursuant to subsection A, the Board shall allocate remaining funds, including funds apportioned pursuant to 23 U.S.C. § 104, or any successor programs, as follows:
1. Forty-five Thirty percent of the remaining funds to state of good repair purposes as set forth in § 33.2-369;
2. Twenty-seven and one-half Twenty percent of the remaining funds to the high-priority projects program established pursuant to § 33.2-370; and
3. Twenty-seven and one-half Twenty percent of the remaining funds to the highway construction district grant programs established pursuant to § 33.2-371
4. Twenty percent of the remaining funds to the Interstate Operations and Enhancement Program established pursuant to § 33.2-372; and
5. Ten percent of the remaining funds to the Virginia Highway Safety Improvement Program established pursuant to § 33.2-373.
E. The funds allocated in subsection C or D shall not include any federal funds and related state match for federal funds with restrictions regarding the construction of general capacity expansion of roadways, or federal funds not under the control of the Board. Such exclusion shall not include restrictions on the location of projects to specific road classifications.

C. The funds allocated in subsection B shall not include the following funds: Congestion Mitigation Air Quality funds apportioned to the state pursuant to 23 U.S.C. § 104(b)(4), or any successor program, and any state matching funds; Surface Transportation Block Grant set-aside for Transportation Alternatives pursuant to 23 U.S.C. § 213, or any successor program, and any state matching funds; Surface Transportation Block Grant Program funds subject to 23 U.S.C. § 133(d)(1)(A)(i), or any successor program, and any state matching funds; and funds received pursuant to federal programs established by the federal government after June 30, 2020, with specific rules that include major restrictions on the types of projects that may be funded, excluding restrictions on the location of projects with regard to highway functional or administrative classification or population, provided such funds are under the control of the Board.

E. D. In addition, the Board, from funds appropriated for such purpose in the general appropriation act, shall allocate additional funds to the Cities of Newport News, Norfolk, and Portsmouth and the County of Warren in such manner and apportion such funds among such localities as the Board may determine, unless otherwise provided in the general appropriation act. The localities shall use such funds to address highway maintenance and repair needs created by or associated with port operations in those localities.

G. E. Notwithstanding the provisions of this section, the General Assembly may, through the general appropriation act, permit the Governor to increase the amounts to be allocated to highway maintenance, highway construction, either or both.

The Board shall allocate, use, and distribute the proceeds of any bonds it is authorized to issue on or after July 1, 2007, pursuant to subdivision 10 of § 33.2-1701, as follows:

1. A minimum of 20 percent of the bond proceeds shall be used for transit capital as further described in subdivision A 4 e of § 58.1-628 § 33.2-1526.2.

2. A minimum of 4.3 percent of the bond proceeds shall be used for rail capital consistent with the provisions of §§ 33.2-1601, 33.2-1526.2 and 33.2-1602.

3. The remaining amount of bond proceeds shall be used for paying the costs incurred or to be incurred for construction of transportation projects with such bond proceeds used or allocated as follows: (i) first, to match federal highway funds projected to be made available and allocated to highway and public transportation capital projects to the extent determined by the Board, for purposes of allowing additional state construction funds to be allocated pursuant to § 33.2-358; (ii) second, to provide any required funding to fulfill the Commonwealth's allocation of equivalent revenue sharing matching funds pursuant to § 33.2-357 to the extent determined by the Board; and (iii) third, to pay or fund the costs of statewide or regional projects throughout the Commonwealth. Costs incurred or to be incurred for construction or funding of these transportation projects shall include environmental and engineering studies; rights-of-way acquisition; improvements to all modes of transportation; acquisition, construction, and related improvements; and any financing costs or other financing expenses relating to such bonds. Such costs may include the payment of interest on such bonds for a period during construction and not exceeding one year after completion of construction of the relevant project.

4. The total amount of bonds authorized shall be used for purposes of applying the percentages in subdivisions 1, 2, and 3.

§ 33.2-366. Funds for counties that have withdrawn or elect to withdraw from the secondary state highway system.

Pursuant to subsection B. A of § 33.2-358, the Board shall make the following payments to counties that have withdrawn or elect to withdraw from the secondary state highway system under the provisions of § 11 of Chapter 415 of the Acts of Assembly of 1932 and that have not elected to return: to any county having withdrawn prior to June 30, 1985, and having an area greater than 100 square miles, an amount equal to $12,529 per lane-mile for fiscal year 2014, and to any county having an area less than 100 square miles, an amount equal to $17,218 per lane-mile for fiscal year 2014; to any county that elects to withdraw after June 30, 1985, the Board shall establish a rate per lane-mile for the first year using (i) an amount for maintenance based on maintenance standards and unit costs used by the Department to prepare its secondary state highway system maintenance budget for the year in which the county withdraws and (ii) an amount for administration equal to five percent of the maintenance figure determined in clause (i). The payment rates shall be adjusted annually by the Board in accordance with procedures established for adjusting payments to cities and towns under § 33.2-319, and lane mileage shall be adjusted annually to include (a) streets and highways accepted for maintenance in the county system by the local governing body or (b) streets and highways constructed according to standards set forth in the county subdivision ordinance or county thoroughfare plan, and being not less than the standards set by the Department. Such counties shall be eligible to receive allocations pursuant to subsection C or D of § 33.2-358.

Payment of the funds shall be made in four equal sums, one in each quarter of the fiscal year.

The chief administrative officer of such counties receiving such funds shall make annual reports of expenditures to the Board, in such form as the Board shall prescribe, accounting for all expenditures, including delineation between construction and maintenance expenditures and reporting on their performance as specified in subsection B of § 33.2-352. Such reports shall be included in the scope of the annual audit of each county conducted by independent certified public accountants.

§ 33.2-372. Interstate Operations and Enhancement Program.
A. The Board shall establish the Interstate Operations and Enhancement Program (the Program) to improve the safety, reliability, and travel flow along interstate highway corridors in the Commonwealth.

B. The Board may use funds in the Program to address identified needs in the Statewide Transportation Plan pursuant to § 33.2-353 or an interstate corridor plan approved by the Board through (i) operational and transportation demand management strategies and (ii) other transportation improvements, strategies, or services.

C. The Board, with the assistance of the Office of Intermodal Planning and Investment, shall establish a process to evaluate and prioritize potential strategies and improvements, with priority given first to operational and transportation demand management strategies that improve reliability and safety of travel.

D. The Board may not use funds in the Program to supplant existing levels of support as of July 1, 2019, for existing operational and transportation demand management strategies.

E. The Board shall distribute to the Interstate 81 Corridor Improvement Fund established pursuant to § 33.2-3601 an amount equal to the revenues provided to the Program multiplied by the ratio of the vehicle miles traveled on Interstate 81 by vehicles classified as Class 6 or higher by the Federal Highway Administration to the total vehicle miles traveled on all interstate highways in the Commonwealth by vehicles classified as Class 6 or higher.

F. The Board shall distribute to the Northern Virginia Transportation Authority Fund established pursuant to § 33.2-2509 an amount equal to the revenues provided to the Program multiplied by the ratio of vehicle miles traveled on interstate highways in Planning District 8 by vehicles classified as Class 6 or higher by the Federal Highway Administration to the total vehicle miles traveled on all interstate highways in the Commonwealth by vehicles classified as Class 6 or higher.

G. For any interstate highway with more than 10 percent of total vehicle miles traveled by vehicles classified as Class 6 or higher by the Federal Highway Administration, the Board shall ensure that the total long-term expenditure for each interstate highway shall be approximately equal to the proportion of the total revenue deposited in the Fund attributable to each interstate highway based on such interstate highway’s proportional share of interstate vehicle miles traveled by vehicles classified as Class 6 or higher.

§ 33.2-373. Virginia Highway Safety Improvement Program.

A. The Board shall establish the Virginia Highway Safety Improvement Program (the Program) to reduce motorized and nonmotorized fatalities and severe injuries on highways in the Commonwealth, whether such highways are state or locally maintained. The Board shall use funds set aside pursuant to § 33.2-358 for the Program.

B. Beginning in fiscal year 2024, the Board shall, after program administration costs, allocate the funds in accordance with its adopted investment strategy pursuant to subsection C as follows:
   1. At least 54 percent for infrastructure projects that address a hazardous road location or feature and address an identified highway safety problem;
   2. At least 29 percent for strategies and activities to address behavioral causes of crashes that result in fatalities and severe injuries; and
   3. The remaining amount for eligible purposes under this section pursuant to the investment strategy adopted pursuant to subsection C.

C. The Board shall adopt an investment strategy to guide the investments of the Program. The strategy shall cover a period of at least five years and seek to achieve a significant reduction in the expected number of fatalities and severe injuries over the covered period and shall give priority to projects, strategies, and activities based on the expected reduction in fatalities and severe injuries relative to cost, including improvements that are widely implemented based on a high-risk roadway feature that is correlated with a particular crash type, rather than crash frequency.

§ 33.2-374. Special Structure Program.

A. For purposes of this section, "special structure" means very large, indispensable, and unique bridges and tunnels identified by the Commissioner and approved by the Commonwealth Transportation Board.

B. The General Assembly declares it to be in the public interest that the maintenance, rehabilitation, and replacement of special structures in the Commonwealth occur timely as to provide and protect a safe and efficient highway system.

C. The Board shall establish a program for the maintenance, rehabilitation, and replacement of special structures in the Commonwealth. With the assistance of the Department of Transportation, the Board shall develop and maintain a plan for the maintenance, rehabilitation, and replacement of special structures in the Commonwealth. The plan shall cover a minimum a 30-year period and shall be updated biennially no later than November 1 of each even-numbered year.

D. The Board shall use the funds allocated in §§ 33.2-1524 and 33.2-1530 to the Special Structure Fund pursuant to § 33.2-1532 for maintenance, rehabilitation, and replacement of special structures to implement the plan developed pursuant to subsection C.

§ 33.2-1502. Creation of the Virginia Transportation Infrastructure Bank.

A. There is hereby created in the state treasury a special nonreverting, revolving loan fund, known as the Virginia Transportation Infrastructure Bank, that is a subfund of the Transportation Trust Fund established pursuant to § 33.2-1524. The Bank shall be established on the books of the Comptroller. The Bank shall be capitalized with (i) two-thirds of all interest, dividends, and appreciation that may accrue to the Transportation Trust Fund and the Highway Maintenance and Operating Fund funds pursuant to subdivision B 3 of § 33.2-1524 and (ii) moneys appropriated by the General Assembly and credited to the Bank. Disbursements from the Bank shall be made by the State Treasurer on warrants issued by the Comptroller upon written request signed by the Commissioner of Highways or his designee. Payments on
project obligations and interest earned on the moneys in the Bank shall be credited to the Bank. Any moneys remaining in the Bank, including interest thereon, at the end of each fiscal year shall not revert to the general fund but shall remain in the Bank. Notwithstanding anything to the contrary set forth in this article or in the management agreement, the Board will have the right to determine the projects for which loans or other financial assistance may be provided by the Bank. Moneys in the Bank shall be used solely for the purposes enumerated in subsection C.

B. The Board, the manager, and the Secretary of Finance are authorized to enter into a management agreement which may include provisions (i) setting forth the terms and conditions under which the manager will advise the Board on the financial propriety of providing particular loans or other financial assistance; (ii) setting forth the terms and conditions under which the substantive requirements of subsections C, D, and E and § 33.2-1505 will be applied and administered; and (iii) authorizing the manager to request the Board to disburse from the moneys in the Bank the reasonable costs and expenses the manager may incur in the management and administration of the Bank and a reasonable fee to be approved by the Board for the manager's management and administrative services.

C. 1. Moneys deposited in the Bank shall be used for the purpose of making loans and other financial assistance to finance projects.

2. Each project obligation shall be payable, in whole or in part, from reliable repayment sources pledged for such purpose.

§ 33.2-1510. Fund for access roads and bikeways to public recreational areas and historical sites; construction, maintenance, etc., of such facilities.

A. The General Assembly finds and declares that there is an increasing demand by the public for more public recreational areas throughout the Commonwealth, therefore creating a need for more access to these areas. There are also many sites of historical significance to which access is needed.

The General Assembly hereby declares it to be in the public interest that access roads and bikeways to public recreational areas and historical sites be provided by using funds obtained from motor fuel tax collections on motor fuel used for propelling boats and ships and funds contained in the highway portion of the Transportation Trust Fund.

B. (Effective until July 1, 2020) The Board shall, from funds allocated to the primary system, secondary system, or urban system, set aside the sum of $3 million initially. This fund shall be expended by the Board for the construction, reconstruction, maintenance, or improvement of access roads and bikeways within localities. At the close of each succeeding fiscal year, the Board shall replenish this fund to the extent it deems necessary to carry out the purpose intended, provided the balance in the fund plus the replenishment does not exceed $3 million.

B. (Effective July 1, 2020) Prior to making allocations pursuant to subsection D B of § 33.2-358, the Board shall set aside the sum of $3 million initially. This fund shall be expended by the Board for the construction, reconstruction, maintenance, or improvement of access roads and bikeways within localities. At the close of each succeeding fiscal year, the Board shall replenish this fund to the extent it deems necessary to carry out the purpose intended, provided the balance in the fund plus the replenishment does not exceed $3 million.

C. Upon the setting aside of the funds as provided in this section, the Board shall construct, reconstruct, maintain, or improve access roads and bikeways to public recreational areas and historical sites upon the following conditions:

1. When the Director of the Department of Conservation and Recreation has designated a public recreational area as such or when the Director of the Department of Historic Resources has determined a site or area to be historic and recommends to the Board that an access road or bikeway be provided or maintained to that area;
2. When the Board pursuant to the recommendation from the Director of the Department of Conservation and Recreation declares by resolution that the access road or bikeway is to be provided or maintained;
3. When the governing body of the locality in which the access road or bikeway is to be provided or maintained passes a resolution requesting the road; and
4. When the governing body of the locality in which the bikeway is to be provided or maintained adopts an ordinance pursuant to Article 7 (§ 15.2-2280 et seq.) of Chapter 22 of Title 15.2.

No access road or bikeway shall be constructed, reconstructed, maintained, or improved on privately owned property.

D. Any access road constructed, reconstructed, maintained, or improved pursuant to the provisions of this section shall become part of the primary state highway system, the secondary state highway system, or the road system of the locality in which it is located in the manner provided by law and shall thereafter be constructed, reconstructed, maintained, and improved as other roads or highways in such systems. Any bikeway path constructed, reconstructed, maintained, or improved pursuant to the provisions of this section that is not situated within the right-of-way limits of an access road that has become, or which is to become, part of the primary state highway system, the secondary state highway system, or the road system of the locality shall, upon completion, become part of and be regulated and maintained by the authority or agency maintaining the public recreational area or historical site. It shall be the responsibility of the authority, agency, or locality requesting that a bikeway be provided for a public recreational or historical site to provide the right-of-way needed for the construction, reconstruction, maintenance, or improvement of the bikeway if such is to be situated outside the right-of-way limits of an access road.

To maximize the impact of the Fund, not more than $400,000 of recreational access funds may be allocated for each individual access road project to or within any public recreational area or historical site operated by a state agency and not more than $250,000 of recreational access funds may be allocated for each individual access road project to or within a public recreational area or historical site operated by a locality or an authority with an additional $100,000 if supplemented on a dollar-for-dollar basis by the locality or authority from other than highway sources. Not more than $75,000 of recreational access funds may be allocated for each individual bikeway project to a public recreational area or historical site operated by a locality or an authority with an additional $15,000 if supplemented on a dollar-for-dollar basis by a locality or authority from other than highway sources.

The Board, with the concurrence of the Director of the Department of Conservation and Recreation, is hereby authorized to establish guidelines to carry out the provisions of this section.

§ 33.2-1803. Approval by the responsible public entity.
A. The private entity may request approval by the responsible public entity. Any such request shall be accompanied by the following material and information unless waived by the responsible public entity in its guidelines or other instructions given, in writing, to the private entity with respect to the transportation facility or facilities that the private entity proposes to develop and/or operate as a qualifying transportation facility:
1. A topographic map (1:2,000 or other appropriate scale) indicating the location of the transportation facility or facilities;
2. A description of the transportation facility or facilities, including the conceptual design of such facility or facilities and all proposed interconnections with other transportation facilities;
3. The proposed date for development and/or operation of the transportation facility or facilities along with an estimate of the life-cycle cost of the transportation facility as proposed;
4. A statement setting forth the method by which the private entity proposes to secure any property interests required for the transportation facility or facilities;
5. Information relating to the current transportation plans, if any, of each affected locality or public entity;
6. A list of all permits and approvals required for developing and/or operating improvements to the transportation facility or facilities from local, state, or federal agencies and a projected schedule for obtaining such permits and approvals;
7. A list of public utility's, locality's, or political subdivision's facilities, if any, that will be crossed by the transportation facility or facilities and a statement of the plans of the private entity to accommodate such crossings;
8. A statement setting forth the private entity's general plans for developing and/or operating the transportation facility or facilities, including identification of any revenue, public or private, or proposed debt or equity investment or concession proposed by the private entity;
9. The names and addresses of the persons who may be contacted for further information concerning the request;
10. Information on how the private entity's proposal will address the needs identified in the appropriate state, regional, or local transportation plan by improving safety, reducing congestion, increasing capacity, enhancing economic efficiency, or any combination thereof;
11. A statement of the risks, liabilities, and responsibilities to be transferred, assigned, or assumed by the private entity for the development and/or operation of the transportation facility, including revenue risk and operations and maintenance; and
12. Such additional material and information as the responsible public entity may reasonably request pursuant to its guidelines or other written instructions.
B. The responsible public entity may request proposals from private entities for the development and/or operation of transportation facilities subject to the following:
1. For transportation facilities where the Department of Transportation, the Virginia Passenger Rail Authority, or the Department of Rail and Public Transportation is the responsible public entity, the Transportation Public-Private Partnership Steering Committee established pursuant to § 33.2-1803.2 has determined that moving forward with the development and/or operation of the facility pursuant to this article serves the best interest of the public.
2. A finding of public interest pursuant to § 33.2-1803.1 has been issued by the responsible public entity.
3. The responsible public entity shall not charge a fee to cover the costs of processing, reviewing, and evaluating proposals received in response to such requests.
C. The responsible public entity may grant approval of the development and/or operation of the transportation facility or facilities as a qualifying transportation facility if the responsible public entity determines that it is in the best interest of
the public. The responsible public entity may determine that the development and/or operation of the transportation facility or facilities as a qualifying transportation facility serves the best interest of the public if:

1. The private entity can develop and/or operate the transportation facility or facilities with a public contribution amount that is less than the maximum public contribution determined pursuant to subsection A of § 33.2-1803.1:1 for transportation facilities where the Department of Transportation, the Virginia Passenger Rail Authority, or the Department of Rail and Public Transportation is the responsible public entity;

2. There is a public need for the transportation facility or facilities the private entity proposes to develop and/or operate as a qualifying transportation facility and for transportation facilities where the Department of Transportation or the Department of Rail and Public Transportation is the responsible public entity, such facility or facilities meet a need included in the plan developed pursuant to § 33.2-353;

3. The plan for the development and/or operation of the transportation facility or facilities is anticipated to have significant benefits as determined pursuant to subdivision B 1 of § 33.2-1803.1;

4. The private entity's plans will result in the timely development and/or operation of the transportation facility or facilities or their more efficient operation; and

5. The risks, liabilities, and responsibilities transferred, assigned, or assumed by the private entity provide sufficient benefits to the public to not proceed with the development and/or operation of the transportation facility through other means of procurement available to the responsible public entity.

In evaluating any request, the responsible public entity may rely upon internal staff reports prepared by personnel familiar with the operation of similar facilities or the advice of outside advisors or consultants having relevant experience.

D. The responsible public entity shall not enter into a comprehensive agreement unless the chief executive officer of the responsible public entity certifies in writing to the Governor and the General Assembly that:

1. The finding of public interest issued pursuant to § 33.2-1803.1 is still valid;

2. The transfer, assignment, and assumption of risks, liabilities, and permitting responsibilities and the mitigation of revenue risk by the private sector have not materially changed since the finding of public interest was issued pursuant to § 33.2-1803.1; and

3. The public contribution requested by the private entity does not exceed the maximum public contribution determined pursuant to subsection A of § 33.2-1803.1:1.

Changes to the project scope that do not impact the assignment of risks or liabilities or the mitigation of revenue risk shall not be considered material changes to the finding of public interest, provided that such changes were presented in a public meeting to the Commonwealth Transportation Board, other state board, or the governing body of a locality, as appropriate.

E. The responsible public entity may charge a reasonable fee to cover the costs of processing, reviewing, and evaluating the request submitted by a private entity pursuant to subsection A, including reasonable attorney fees and fees for financial and other necessary advisors or consultants. The responsible public entity shall also develop guidelines that establish the process for the acceptance and review of a proposal from a private entity pursuant to subsections A, B, C, and D. Such guidelines shall establish a specific schedule for review of the proposal by the responsible public entity, a process for alteration of that schedule by the responsible public entity if it deems that changes are necessary because of the scope or complexity of proposals it receives, the process for receipt and review of competing proposals, and the type and amount of information that is necessary for adequate review of proposals in each stage of review. For qualifying transportation facilities that have approved or pending state and federal environmental clearances, have secured significant right-of-way, have previously allocated significant state or federal funding, or exhibit other circumstances that could reasonably reduce the amount of time to develop and/or operate the qualifying transportation facility in accordance with the purpose of this chapter, the guidelines shall provide for a prioritized documentation, review, and selection process.

F. The approval of the responsible public entity shall be subject to the private entity's entering into an interim agreement or a comprehensive agreement with the responsible public entity. For any project with an estimated construction cost of over $50 million, the responsible public entity also shall require the private entity to pay the costs for an independent audit of any and all traffic and cost estimates associated with the private entity's proposal, as well as a review of all public costs and potential liabilities to which taxpayers could be exposed (including improvements to other transportation facilities that may be needed as a result of the proposal, failure by the private entity to reimburse the responsible public entity for services provided, and potential risk and liability in the event the private entity defaults on the comprehensive agreement or on bonds issued for the project). This independent audit shall be conducted by an independent consultant selected by the responsible public entity, and all such information from such review shall be fully disclosed.

G. In connection with its approval of the development and/or operation of the transportation facility or facilities as a qualifying transportation facility, the responsible public entity shall establish a date for the acquisition of or the beginning of construction of or improvements to the qualifying transportation facility. The responsible public entity may extend such date.

H. The responsible public entity shall take appropriate action, as more specifically set forth in its guidelines, to protect confidential and proprietary information provided by the private entity pursuant to an agreement under subdivision 11 of § 2.2-3705.6.

I. The responsible public entity may also apply for, execute, and/or endorse applications submitted by private entities to obtain federal credit assistance for qualifying projects developed and/or operated pursuant to this chapter.

§ 33.2-1803.1. Finding of public interest.
A. Prior to the meeting of the Committee pursuant to subsection C of § 33.2-1803.2, the chief executive officer of the responsible public entity shall make a finding of public interest. Such finding shall include information set forth in subsection B. For transportation facilities where the Department of Transportation, the Virginia Passenger Rail Authority, or the Department of Rail and Public Transportation is the responsible public entity, the Secretary of Transportation, in his role as chairman of the Board, must concur with the finding of public interest.

B. At a minimum, a finding of public interest shall contain the following information:

1. A description of the benefits expected to be realized by the responsible public entity through the development and/or operation of the transportation facility, including person throughput, congestion mitigation, safety, economic development, environmental quality, and land use.

2. An analysis of the public contribution necessary for the development and/or operation of the facility or facilities pursuant to subsection A of § 33.2-1803.1:1, including a maximum public contribution that will be allowed under the procurement.

3. A description of the benefits expected to be realized by the responsible public entity through the use of this chapter compared with the development and/or operation of the transportation facility through other options available to the responsible public entity.

4. A statement of the risks, liabilities, and responsibilities to be transferred, assigned, or assumed by the private entity, which shall include the following:
   a. A discussion of whether revenue risk will be transferred to the private entity and the degree to which any such transfer may be mitigated through other provisions in the interim or comprehensive agreements;
   b. A description of the risks, liabilities, and responsibilities to be retained by the responsible public entity; and
   c. Other items determined appropriate by the responsible public entity in the guidelines for this chapter.

5. The determination of whether the project has a high, medium, or low level of project delivery risk and a description of how such determination was made. If the qualifying transportation facility is determined to contain high risk, a description of how the public's interest will be protected through the transfer, assignment, or assumption of risks or responsibilities by the private entity in the event that issues arise with the development and/or operation of the qualifying transportation facility.

6. If the responsible public entity proposes to enter into an interim or comprehensive agreement pursuant to subdivision 2 of § 33.2-1819, information and the rationale demonstrating that proceeding in this manner is more beneficial than proceeding pursuant to subdivision 1 of § 33.2-1819.

§ 33.2-1803.1:1. Public sector analysis and competition.

A. For any transportation facility under consideration for development and/or operation under this chapter by the Department of Transportation, the Virginia Passenger Rail Authority, or the Department of Rail and Public Transportation, the responsible public entity shall ensure competition throughout the procurement process by developing a public sector option based on the analysis conducted in subsection B. The public sector option shall identify a maximum public contribution.

B. The responsible public entity shall undertake, in cooperation with the Secretary of Transportation and the Secretary of Finance, a public sector analysis of the cost for the responsible entity to develop and/or operate the transportation facility or facilities being considered for development and/or operation pursuant to this chapter. At a minimum, such analysis shall contain the following information:

1. Any mitigation of risk of user-fee financing through assumptions related to competing facilities, compensation for high usage of the facility by high-occupancy vehicles, or other considerations that may mitigate the risk of user-fee financing.

2. Whether the Department of Transportation, the Virginia Passenger Rail Authority, or the Department of Rail and Public Transportation intends to maintain and operate the facility, or if the public sector option is based on the transfer of such responsibilities to the private sector.

3. Public contribution, if any, that would still be required to cover all costs necessary for the development and/or operation of the transportation facility in excess of financing available should the General Assembly authorize the use of debt secured by a pledge of net revenues derived from rates, fees, or other charges and the full faith and credit of the Commonwealth pursuant to Article X, Section 9 (c) of the Constitution of Virginia.

4. Funds provided to support nonuser fee generating components of the project that contribute to the benefits expected to be realized from the transportation facility pursuant to subdivision B 1 of § 33.2-1803.1.

§ 33.2-1803.2. Transportation Public-Private Partnership Steering Committee.

A. There is hereby established the Transportation Public-Private Partnership Steering Committee (the Committee) to evaluate and review financing options for the development and/or operation of transportation facility or facilities.

The Committee shall consist of the following members:

1. Two members of the Commonwealth Transportation Board;
2. The staff director of the House Committee on Appropriations, or his designee, and the staff director of the Senate Committee on Finance, or his designee;
3. A Deputy Secretary of Transportation who shall serve as the chairman;
4. The chief financial officer of either the Department of Transportation or the Department of Rail and Public Transportation, as appropriate; and
5. A nonagency public financial expert, as selected by the Secretary of Transportation.

B. Prior to the initiation of any procurement pursuant to § 33.2-1803 by the Department of Transportation, the Virginia Passenger Rail Authority, or the Department of Rail and Public Transportation, the Committee shall meet to review the public sector analysis and competition developed pursuant to § 33.2-1803.1 and concur that:

1. The assumptions regarding the project scope, benefits, and costs of the public sector option developed pursuant to § 33.2-1803.1 were fully and reasonably developed;

2. The assumed financing costs and valuation of both financial and construction risk mitigation included in the public sector option are financially sound and reflect the best interest of the public; and

3. The terms sheet developed for the proposed procurement contains all necessary elements.

C. After receipt of responses to the request for qualifications, but prior to the issuance of the first draft request for proposals, the Committee shall meet to determine that the development and/or operation of the transportation facility or facilities as a qualifying transportation facility serves the public interest pursuant to § 33.2-1803.1. If the Committee makes an affirmative determination, as evidenced by an affirmative vote of a majority of the members of the Committee, the Department of Transportation or the Department of Rail and Public Transportation may proceed with the procurement pursuant to § 33.2-1803.

D. Meetings of the Committee shall be open to the public, and meetings will be scheduled on an as-needed basis. However, the Committee may convene a closed session pursuant to the provisions of subdivisions A 6 and 29 of § 2.2-3711 to allow the Committee to review the public sector analysis and competition and to review proposals received pursuant to a request for qualifications.

E. The Committee shall, within 10 business days of any meeting, report on the findings of such meeting. Such report shall be made to the Chairmen of the House and Senate Committees on Transportation, the House Committee on Appropriations, and the Senate Committee on Finance.

F. Within 60 days of the execution of a comprehensive agreement pursuant to § 33.2-1803, the Department of Transportation or the Department of Rail and Public Transportation, as appropriate, shall, in closed session, brief the Committee on the details of the final bids received and the details of the evaluation of such bids.

§ 33.2-1809. Interim agreement.
A. Prior to or in connection with the negotiation of the comprehensive agreement, the responsible public entity may enter into an interim agreement with the private entity proposing the development and/or operation of the facility or facilities. Such interim agreement may (i) permit the private entity to commence activities for which it may be compensated relating to the proposed qualifying transportation facility, including project planning and development, advance right-of-way acquisition, design and engineering, environmental analysis and mitigation, survey, conducting transportation and revenue studies, and ascertaining the availability of financing for the proposed facility or facilities; (ii) establish the process and timing of the negotiation of the comprehensive agreement; and (iii) contain any other provisions related to any aspect of the development and/or operation of a qualifying transportation facility that the parties may deem appropriate.

B. Notwithstanding any provision of this chapter to the contrary, a responsible public entity may enter into an interim agreement with multiple private entities if the responsible public entity determines in writing that it is in the public interest to do so.

C. The Department of Transportation, the Virginia Passenger Rail Authority, and the Department of Rail and Public Transportation shall not enter into an interim agreement for the development of a transportation facility under this chapter that either (i) establishes a process and timing of the negotiations of the comprehensive agreement or (ii) allows for competitive negotiations as set forth in § 2.2-4302.2.

§ 33.2-2300. U.S. Route 58 Corridor Development Fund.
There is hereby created in the Department of the Treasury a special nonreverting fund that shall be a part of the Transportation Trust Fund and that shall be known as the U.S. Route 58 Corridor Development Fund, referred to in this chapter as "the Fund," consisting of the first $40 million of annual collections of the state recordation taxes imposed by Chapter 8 of Title 58.1, provided, however, that this dedication shall not affect the local recordation taxes under subsection B of § 58.1-802 and § 58.1-814 from the Commonwealth Transportation Fund pursuant to § 33.2-1524. The Fund shall also include such other funds as may be appropriated by the General Assembly and designated for the Fund and all interest, dividends, and appreciation that may accrue thereto. Any moneys remaining in the Fund at the end of a biennium shall not revert to the general fund, but shall remain in the Fund. Allocations from the Fund may be paid to any authority, locality, or commission for the purposes specified in § 33.2-2301.

§ 33.2-2301. U.S. Route 58 Corridor Development Program.
A. The General Assembly declares it to be in the public interest that the economic development needs and economic growth potential of south-central and Southwest Virginia be addressed by the Fund. Moneys contained in the Fund shall be used for the costs of providing an adequate, modern, safe, and efficient highway system, generally along Virginia's southern boundary (the Program), including environmental and engineering studies, rights-of-way acquisition, construction, improvements, and financing costs.

B. Allocations from the Fund shall be made annually by the Commonwealth Transportation Board for the creation and enhancement of a safe, efficient highway system connecting the communities, businesses, places of employment, and residents of the southwestern-most portion of the Commonwealth to the communities, businesses, places of employment,
and residents of the southeastern-most portion of the Commonwealth, thereby enhancing the economic development potential, employment opportunities, mobility, and quality along such highway.

C. Allocations from the Fund shall not diminish or replace allocations made or planned to be made from other sources or diminish allocations to which any highway, project, facility, district, system, or locality would be entitled under other provisions of this title, but shall be supplemental to other allocations to the end that highway resource improvements in the U.S. Route 58 Corridor may be accelerated and augmented. Notwithstanding any contrary provisions of this title, allocations from the Fund may be applied to highway projects in the Interstate System, primary or secondary state highway system, or urban highway system. Allocations under this subsection shall not be limited to projects involving only existing U.S. Route 58 but may be made to projects involving other highways, provided that the broader goal of creation of an adequate modern highway system generally along Virginia's southern boundary is served thereby.

D. The Commonwealth Transportation Board may expend such funds from all sources as may be lawfully available to initiate the Program and to support bonds and other obligations referenced in subsection F. Any moneys expended from the Transportation Trust Fund for the Program, other than moneys contained in the Fund, may be reimbursed from the Fund, to the extent permitted by Article X, Section 9 of the Constitution of Virginia.

E. The Commonwealth Transportation Board is encouraged to utilize the existing four-lane divided highways, available rights-of-way acquired for additional four-laning, bypasses, connectors, and alternate routes.

F. To the extent permitted by Article X, Section 9 of the Constitution of Virginia, moneys contained in the Fund may be used to secure payment of bonds or other obligations, and the interest thereon, issued in furtherance of the purposes of this section. In addition, the Commonwealth Transportation Board is authorized to receive, dedicate, or use legally available Transportation Trust Fund revenues and any other available sources of funds to secure the payment of bonds or other obligations, including interest thereon, in furtherance of the Program. No bond or other obligations payable from revenues of the Fund shall be issued unless specifically approved by the General Assembly. No bond or other obligations, secured in whole or in part by revenues of the Fund, shall pledge the full faith and credit of the Commonwealth.

G. Forty million dollars shall be transferred annually to the Fund with the first such transfer to be made on July 1, 1990, or as soon thereafter as reasonably practicable. Such transfer shall be made by the issuance of a treasury loan at no interest in the amount of $40 million to the Fund to ensure that the Fund is fully funded on the first day of the fiscal year. Such treasury loan shall be repaid from the Commonwealth's portion of the state recordation tax imposed by Chapter 8 (§ 58.1-800 et seq.) of Title 58.1 designated for the Fund by § 33.2-2300 Commonwealth Transportation Fund pursuant to subsection C of § 33.2-1524. For each fiscal year following July 1, 1990, the Secretary of Finance is authorized to make additional treasury loans in the amount of $40 million on July 1 of such fiscal years, and such treasury loans shall be repaid in a like manner as provided in this subsection.

Such transfer shall be made by the issuance of a treasury loan at no interest in the amount of $19 million in the event such an amount is not included for the Fund in the general appropriation act enacted by the 1994 Session of the General Assembly. Such treasury loan shall be repaid from the Commonwealth's portion of the state recordation tax imposed by Chapter 8 (§ 58.1-800 et seq.) of Title 58.1 designated for the Fund by this section and § 58.1-816 Commonwealth Transportation Fund pursuant to subsection C of § 33.2-1524.

Allocations under this subsection shall be limited to projects specified in subdivision 12 of § 33.2-1700.

D. The Commonwealth Transportation Board may expend such funds from all sources as may be lawfully available to initiate the Program and to support bonds and other obligations referenced in subsection E and in subsection D of § 33.2-2400.

If the Authority determines that such moneys distributed to it exceed the amount required to meet the current needs and demands to fund transportation projects pursuant to § 33.2-2510, the Authority may invest such excess moneys to the same extent as provided in subsection A of § 33.2-1525 for excess funds in the Transportation Trust Fund.

B. Moneys in the Fund shall be used only for capital, operating, and other improvement costs identified in the Plan.

C. The amounts deposited into the Fund and the distribution and expenditure of such amounts shall not be used to calculate or reduce the share of federal, state, or local revenues otherwise available to jurisdictions along the Interstate 81 corridor. Further, such revenues and moneys shall not be included in any computation of, or formula for, a locality's ability to pay for public education, upon which appropriations of state revenues to local governments for public education are determined.

§ 46.2-214.3. Discount for multiyear registration.
A. In addition to any other fee imposed and collected by the Department, the Department shall impose and collect a service charge upon each person who carries out the registration renewal of a vehicle in any of the Department’s Customer Service Centers if such registration can be conducted (i) by mail or telephone or by using an electronic medium using a format prescribed by the Commissioner, or (ii) through an agent of the Department that has entered into an agreement with the Department to perform certain services as described in subsection B of § 46.2-205. D. Pursuant to subsection C of § 46.2-646, for each motor vehicle, trailer, or semitrailer registered, the Commissioner may offer, at his discretion, a discount for multiyear registrations of such vehicles. The discount shall be equal to $1 for each year of the multiyear registration or fraction thereof. The discount shall not be applicable to any motor vehicle, trailer, or semitrailer registered (i) under the International Registration Plan or (ii) as an uninsured motor vehicle. When this option is offered and chosen by the registrant, all annual and 12-month fees due at the time of registration shall be multiplied by the number of years or fraction thereof that the vehicle will be registered.

E. In addition to the discount authorized in subsection D, for the renewal of registration of each motor vehicle, trailer, or semitrailer pursuant to § 46.2-646, the Commissioner shall offer a discount for renewal when such registration renewal is conducted using the Internet. The discount shall be equal to $1. The discount shall not apply to any motor vehicle, trailer, or semitrailer registered (i) under the International Registration Plan or (ii) as an uninsured motor vehicle.

§ 46.2-332. Fees.

On and after January 1, 1990, the fee for each driver's license other than a commercial driver's license shall be $2.40 per year. If the license is a commercial driver's license or seasonal restricted commercial driver's license, the fee shall be $6 per year. Persons 21 years old or older may be issued a scenic driver's license, learner's permit, or commercial driver's license for an additional fee of $5. For any one or more driver's license endorsements or classifications, except a motorcycle classification, there shall be an additional fee of $1 per year; for a motorcycle classification, there shall be an additional fee of $2 per year. For any and all driver's license classifications, there shall be an additional fee of $1 per year. For any revalidation of a seasonal restricted commercial driver's license, the fee shall be $5. A fee of $10 shall be charged to extend the validity period of a driver's license pursuant to subsection B of § 46.2-221.2.

In addition to any other fee imposed and collected by the Department, the Department shall impose and collect a service charge of $5 upon each person who carries out the renewal of a driver's license or special identification card in any of the Department's Customer Service Centers if such renewal can be conducted by mail or telephone or by using an electronic medium in a format prescribed by the Commissioner. Such service charge shall not apply if, concurrently with the renewal of the driver's license or special identification card, the person undertakes another transaction at a Customer Service Center that cannot be conducted by mail or telephone or by using an electronic medium in a format prescribed by the Commissioner. Such service charge shall be paid by the Commissioner into the state treasury and shall be set aside as a special fund to be used to meet the expenses of the Department.

A reexamination fee of $2 shall be charged for each administration of the knowledge portion of the driver's license examination taken by an applicant who is 18 years of age or older if taken more than once within a 15-day period. A fee of $50 shall be charged each time an applicant for a commercial driver's license fails to keep a scheduled skills test appointment, unless such applicant cancels his appointment with the assigned driver's license examiner at least 24 hours in advance of the scheduled appointment. The Commissioner may, on a case-by-case basis, waive such fee for good cause shown. All such fees shall be paid by the Commissioner into the state treasury and set aside as a special fund to be used to meet the necessary expenses incurred by the Department.

If the applicant for a driver's license is an employee of the Commonwealth, or of any county, city, or town who drives a motorcycle or a commercial motor vehicle solely in the line of his duty, he shall be exempt from the additional fee otherwise assessable for a motorcycle classification or a commercial motor vehicle endorsement. The Commissioner may prescribe the forms as may be requisite for completion by persons claiming exemption from additional fees imposed by this section.

No additional fee above $2.40 per year shall be assessed for the driver's license or commercial driver's license required for the operation of a school bus.

Excluding the $2 reexamination fee, $1.50 of all fees collected for each original or renewal driver's license shall be paid into the driver education fund of the state treasury and expended as provided by law. Unexpended funds from the driver education fund shall be retained in the fund and be available for expenditure in ensuing years as provided therein.
All fees for motorcycle classifications shall be distributed as provided in § 46.2-1191. This section shall supersede conflicting provisions of this chapter.

§ 46.2-341.20:5. Prohibition on texting and use of handheld mobile telephone; penalties.

A. No person driving a commercial motor vehicle shall text or use a handheld mobile telephone while driving such vehicle. A driver who violates this section is subject to a civil penalty not to exceed $2,750. Civil penalties collected under this section shall be deposited into the Transportation Trust Highway Maintenance and Operating Fund established pursuant to § 33.2-1524 § 33.2-1530. Pursuant to 49 C.F.R. § 386.81, the determination of the actual civil penalties assessed is based on consideration of information available at the time the claim is made concerning the nature and gravity of the violation and, with respect to the violator, the degree of culpability, history of prior offenses, ability to pay, effect on ability to continue to do business, and such other matters as justice and public safety may require.

B. Notwithstanding the definition of commercial motor vehicle in § 46.2-341.4, this section shall apply to any driver who drives a vehicle designed or used to transport between nine and 15 passengers, including the driver, not for direct compensation.

C. The provisions of this section shall not apply to drivers who are texting or using a handheld mobile telephone when necessary to communicate with law-enforcement officials or other emergency services.

D. The following words and phrases when used in this section only shall have the meanings respectively ascribed to them in this section except in those instances where the context clearly indicates a different meaning:

"Driving" means operating a commercial motor vehicle on a highway, including while temporarily stationary because of traffic, a traffic control device, or other momentary delays. Driving does not include operating a commercial motor vehicle when the driver has moved the vehicle to the side of or off a highway and has halted in a location where the vehicle can safely remain stationary.

"Mobile telephone" means a mobile communication device that falls under or uses any commercial mobile radio service, as defined in regulations of the Federal Communications Commission, 47 C.F.R. § 20.3. "Mobile telephone" does not include two-way or citizens band radio services.

"Texting" does not include inputting, selecting, or reading information on a global positioning system or navigation system; pressing a single button to initiate or terminate a voice communication using a telephone; or using a device capable of performing multiple functions (e.g., fleet management systems, dispatching devices, smartphones, citizens band radios, music players, etc.) for a purpose that is not otherwise prohibited in this section.

"Use a handheld mobile telephone" means using at least one hand to hold a mobile telephone to conduct a voice communication; dialing or answering a mobile telephone by pressing more than a single button; or reaching for a mobile telephone in a manner that requires a driver to maneuver so that he is no longer in a seated driving position, restrained by a seat belt that is installed in accordance with 49 C.F.R. § 393.93 and adjusted in accordance with the vehicle manufacturer's instructions.

§ 46.2-341.20:6. Prohibition on requiring use of handheld mobile telephone or texting; motor carrier penalty.

No motor carrier shall allow or require its drivers to use a handheld mobile telephone or to text while driving a commercial motor vehicle. Motor carriers violating this section are subject to a civil penalty not to exceed $11,000. Civil penalties collected under this section shall be deposited into the Transportation Trust Highway Maintenance and Operating Fund established pursuant to § 33.2-1524 § 33.2-1530. Pursuant to 49 C.F.R. § 386.81, the determination of the actual civil penalties assessed is based on consideration of information available at the time the claim is made concerning the nature and gravity of the violation and, with respect to the violator, the degree of culpability, history of prior offenses, ability to pay, effect on ability to continue to do business, and such other matters as justice and public safety may require. "Driving," "mobile telephone," "texting," and "use a handheld mobile telephone" have the same meanings as assigned to them in § 46.2-341.20:5.

§ 46.2-686. Portion of certain fees to be paid into special fund.

Except as provided in subdivision A 13 of subsection A of § 46.2-694 and § 46.2-703, an amount equal to twenty 19.6 percent of the fees collected, after refunds, from the registration of motor vehicles, trailers, and semitrailers pursuant to this chapter, calculated at the rates in effect on December 31, 1986, shall be transferred from the special fund established by the provisions of § 46.2-206 to a special fund in the state treasury to be used to meet the expenses of the Department.

§ 46.2-694. (Contingent expiration date) Fees for vehicles designed and used for transportation of passengers; weights used for computing fees; burden of proof.

subdivision shall apply to a private passenger car or motor home that weighs 4,000 pounds or less and is used as a TNC partner vehicle as defined in § 46.2-2000.

2. Thirty-eight dollars for each private passenger car or motor home that weighs more than 4,000 pounds, provided that it is not used for the transportation of passengers for compensation and is not kept or used for rent or for hire, or is not operated under a lease without a chauffeur; however, the fee provided under this subdivision shall apply to a private passenger car or motor home that weighs more than 4,000 pounds and is used as a TNC partner vehicle as defined in § 46.2-2000.

3. Thirty cents per 100 pounds or major fraction thereof for a private motor vehicle other than a motorcycle with a normal seating capacity of more than 10 adults, including the driver, if the private motor vehicle is not used for the transportation of passengers for compensation and is not kept or used for rent or for hire or is not operated under a lease without a chauffeur. In no case shall the fee be less than $23 if the vehicle weighs 4,000 pounds or less or $28 if the vehicle weighs more than 4,000 pounds.

Such total mileage in each instance is the estimated total mileage to be traveled by such vehicles during the license year for which such fees are paid, subject to the adjustment in accordance with an audit to be made by representatives of the Commissioner at the end of such license year, the expense of such audit to be borne by the carrier being audited. Each vehicle passing into or through Virginia shall be registered and licensed in Virginia and the annual registration fee to be paid for each such vehicle shall not be less than $33. b. Thirty percent shall be distributed to the State Department of Health to support (i) emergency medical services training programs (excluding advanced life support classes); (ii) advanced life support training; (iii) recruitment and retention programs (all funds for such support shall be used to recruit and retain volunteer emergency medical services personnel only, including public awareness campaigns, technical assistance programs, and similar activities); (iv) emergency medical services system development, initiatives, and priorities based on needs identified by the State Emergency Medical Services Advisory Board; (v) local, regional, and statewide performance contracts for emergency medical services to meet the objectives stipulated in § 32.1-111.3; (vi) technology and radio communication enhancements; and (vii) improved emergency preparedness and response. Any funds set aside for distribution under this provision and remaining undistributed at the end of any fiscal year shall revert to the Rescue Squad Assistance Fund;

c. Thirty-two percent shall be distributed to the Rescue Squad Assistance Fund;

d. Ten percent shall be available to the State Department of Health's Office of Emergency Medical Services for use in emergency medical services; and

e. Twenty-six percent shall be returned by the Comptroller to the locality wherein such vehicle is registered, to provide funding for training of volunteer or salaried emergency medical services personnel of nonprofit emergency medical services agencies that hold a valid license issued by the Commissioner of Health and for the purchase of necessary supplies for use in such locality for emergency medical services provided by nonprofit emergency medical services agencies that hold a valid license issued by the Commissioner of Health.

All revenues generated by the remaining $0.25 of the $4.25 fee approved by the 2008 Session of the General Assembly shall be deposited into the Rescue Squad Assistance Fund and used only to pay for the costs associated with the certification and recertification training of emergency medical services personnel.

The Comptroller shall clearly designate on the warrant, check, or other means of transmitting these funds that such moneys are only to be used for purposes set forth in this subdivision. Such funds shall be in addition to any local appropriations and local governing bodies shall not use these funds to supplant local funds. Each local governing body shall report annually to the Board of Health on the use of the funds returned to it pursuant to this section. In any case in which the local governing body grants the funds to a regional emergency medical services council to be distributed to the nonprofit emergency medical services agency that holds a valid license issued by the Commissioner of Health, the local governing body shall remain responsible for the proper use of the funds. If, at the end of any fiscal year, a report on the use of the funds returned to the locality pursuant to this section for that year has not been received from a local governing body, any funds due to that local governing body for the next fiscal year shall be retained until such time as the report has been submitted to the Board.

B. All motor vehicles, trailers, and semitrailers registered as provided in subsection B of § 46.2-646 shall pay a registration fee equal to one-twelfth of all fees required by subsection A of this section or § 46.2-697 for such motor vehicle, trailer, or semitrailer, computed to the nearest cent, multiplied by the number of months in the registration period for such motor vehicles, trailers, and semitrailers.

C. The manufacturer's shipping weight or scale weight shall be used for computing all fees required by this section to be based upon the weight of the vehicle.

D. The applicant for registration bears the burden of proof that the vehicle for which registration is sought is entitled by weight, design, and use to be registered at the fee tendered by the applicant to the Commissioner or to his authorized agent.

§ 46.2-697. (Contingent expiration date) Fees for vehicles not designed or used for transportation of passengers.

A. Except as otherwise provided in this section, the fee for registration of all motor vehicles not designed and used for the transportation of passengers shall be $23 plus an amount determined by the gross weight of the vehicle or combination of vehicles of which it is a part, when loaded to the maximum capacity for which it is registered and licensed, according to the schedule of fees set forth in this section. For each 1,000 pounds of gross weight, or major fraction thereof, for which any such vehicle is registered, there shall be paid to the Commissioner the fee indicated in the following schedule immediately opposite the weight group and under the classification established by the provisions of subsection B of § 46.2-711 into which such vehicle, or any combination of vehicles of which it is a part, falls when loaded to the maximum capacity for which it is registered and licensed. The fee for a pickup or panel truck shall be $33 if its gross weight is 4,000 pounds or less, and $38 if its gross weight is 4,001 pounds through 6,500 pounds. The fee shall be $39 for any motor vehicle with a gross weight of 6,501 pounds through 10,000 pounds.

Fee Per Thousand Pounds of Gross Weight
CH. 1230] ACTS OF ASSEMBLY 2799

For all such motor vehicles exceeding a gross weight of 6,500 pounds, an additional fee of five dollars $5 shall be imposed.

B. In lieu of registering any motor vehicle referred to in this section for an entire licensing year, the owner may elect to register the vehicle only for one or more quarters of a licensing year, and in such case, the fee shall be twenty-five 25 percent of the annual fee plus five dollars $5 for each quarter that the vehicle is registered.

C. When an owner elects to register and license a motor vehicle under subsection B of this section, the provisions of §§ 46.2-646 and 46.2-688 shall not apply.

D. Notwithstanding any other provision of law, no vehicle designed, equipped, and used to tow disabled or inoperable motor vehicles shall be required to register in accordance with any gross weight other than the gross weight of the towing vehicle itself, exclusive of any vehicle being towed.

E. All registrations and licenses issued for less than a full year shall expire on the date shown on the license and registration.

§ 46.2-752. Taxes and license fees imposed by counties, cities, and towns; limitations on amounts; disposition of revenues; requiring evidence of payment of personal property taxes and certain fines; prohibiting display of licenses after expiration; failure to display valid local license required by other localities; penalty.

A. Except as provided in § 46.2-755, counties, cities, and towns may levy and assess taxes and charge license fees on motor vehicles, trailers, and semitrailers. However, none of these taxes and license fees shall be assessed or charged by any county on vehicles owned by residents of any town located in the county when such town constitutes a separate school district if the vehicles are already subject to town license fees and taxes, nor shall a town charge a license fee to any new resident of the town, previously a resident of a county within which all or part of the town is situated, who has previously paid a license fee for the same tax year to such county. The amount of the license fee or tax imposed by any county, city, or town on any motor vehicle, trailer, or semitrailer shall not be greater than the annual or one-year fee imposed by the Commonwealth on the motor vehicle, trailer, or semitrailer in effect on January 1, 2020. The license fees and taxes shall be imposed in such manner, on such basis, for such periods, and subject to proration for fractional periods of years, as the proper local authorities may determine.

20. Vehicles owned or leased by members of the Virginia Defense Force; however, no member of the Virginia Defense Force shall be issued more than one such license free of charge.

The governing body of any county, city, or town issuing licenses under this section may by ordinance provide for a 50 percent reduction in the fee charged for the issuance of any such license issued for any vehicle owned or leased by any person who is 65 years old or older. No such discount, however, shall be available for more than one vehicle owned or leased by the same person.

The governing body of any county, city, or town issuing licenses free of charge under this subsection may by ordinance provide for (i) the limitation, restriction, or denial of such free issuance to an otherwise qualified applicant, including without limitation the denial of free issuance to a taxpayer who has failed to timely pay personal property taxes due with respect to the vehicle and (ii) the grounds for such limitation, restriction, or denial.

The situs for the imposition of licensing fees under this section shall in all cases, except as hereinafter provided, be the county, city, or town in which the motor vehicle, trailer, or semitrailer is normally garaged, stored, or parked. If it cannot be determined where the personal property is normally garaged, stored, or parked, the situs shall be the domicile of its owner. In the event the owner of the motor vehicle is a full-time student attending an institution of higher education, the situs shall be the domicile of such student, provided the student has presented sufficient evidence that he has paid a personal property tax on the motor vehicle in his domicile.

B. The revenue derived from all county, city, or town taxes and license fees imposed on motor vehicles, trailers, or semitrailers shall be applied to general county, city, or town purposes.

C. A county, city, or town may require that no motor vehicle, trailer, or semitrailer shall be locally licensed until the applicant has produced satisfactory evidence that all personal property taxes on the motor vehicle, trailer, or semitrailer to be licensed have been paid and satisfactory evidence that any delinquent motor vehicle, trailer, or semitrailer personal
property taxes owing have been paid which have been properly assessed or are assessable against the applicant by the county, city, or town. A county, city, or town may also provide that no motor vehicle license shall be issued unless the tangible personal property taxes properly assessed or assessable by that locality on any tangible personal property used or usable as a dwelling titled by the Department of Motor Vehicles and owned by the taxpayer have been paid. Any county and any town within any such county may by agreement require that all personal property taxes assessed by either the county or the town on any vehicle be paid before licensure of such vehicle by either the county or the town.

C1. The Counties of Dinwiddie, Lee, and Wise may, by ordinance or resolution adopted after public notice and hearing and, with the consent of the treasurer, require that no license may be issued under this section unless the applicant has produced satisfactory evidence that all fees, including delinquent fees, payable to such county or local solid waste authority, for the disposal of solid waste pursuant to the Virginia Water and Waste Authorities Act (§ 15.2-5100 et seq.), or pursuant to § 15.2-2159, have been paid in full. For purposes of this subsection, all fees, including delinquent fees, payable to a county for waste disposal services described herein, shall be paid to the treasurer of such county; however, in Wise County, the fee shall be paid to the county or its agent.

D. The Counties of Arlington, Fairfax, Loudoun, and Prince William and towns within them and any city may require that no motor vehicle, trailer, or semitrailer shall be licensed by that jurisdiction unless all fines owed to the jurisdiction by the owner of the vehicle, trailer, or semitrailer for violation of the jurisdiction’s ordinances governing parking of vehicles have been paid. The provisions of this subsection shall not apply to vehicles owned by firms or companies in the business of renting motor vehicles.

E. If in any county imposing license fees and taxes under this section, a town therein imposes like fees and taxes on vehicles of owners resident in the town, the owner of any vehicle subject to the fees or taxes shall be entitled, on the owner’s displaying evidence that he has paid the fees or taxes, to receive a credit on the fees or taxes imposed by the county to the extent of the fees or taxes he has paid to the town. Nothing in this section shall deprive any town now imposing these licenses and taxes from increasing them or deprive any town not now imposing them hereafter doing so, but subject to the limitations provided in subsection D. The governing body of any county and the governing body of any town in that county wherein each imposes the license tax herein provided may provide mutual agreements so that not more than one license plate or decal in addition to the state plate shall be required.

F. Notwithstanding the provisions of subsection E, in a consolidated county wherein a tier-city exists, the tier-city may, in accordance with the provisions of the agreement or plan of consolidation, impose license fees and taxes under this section in addition to those fees and taxes imposed by the county, provided that the combined county and tier-city rates do not exceed the maximum provided in subsection A. No credit shall be allowed on the fees or taxes imposed by the county for fees or taxes paid to the tier-city, except as may be provided by the consolidation agreement or plan. The governing body of any county and the governing body of any tier-city in such county wherein each imposes the license tax herein may provide by mutual agreement that no more than one license plate or decal in addition to the state license plate shall be required.

G. Any county, city, or town may by ordinance provide that it shall be unlawful for any owner or operator of a motor vehicle, trailer, or semitrailer (i) to fail to obtain and, if any required by such ordinance, to display the local license required by any ordinance of the county, city or town in which the vehicle is registered, or (ii) to display upon a motor vehicle, trailer, or semitrailer any such local license, required by ordinance to be displayed, after its expiration date. The ordinance may provide that a violation shall constitute a misdemeanor the penalty for which shall not exceed that of a Class 4 misdemeanor and may, in the case of a motor vehicle registered to a resident of the locality where such vehicle is registered, authorize the issuance by local law-enforcement officers of citations, summonses, parking tickets, or uniform traffic summonses for violations. Any such ordinance may also provide that a violation of the ordinance by the registered owner of the vehicle may not be discharged by payment of a fine except upon presentation of satisfactory evidence that the required license has been obtained. Nothing in this section shall be construed to require a county, city, or town to issue a decal or any other tangible evidence of a local license to be displayed on the licensed vehicle if the county’s, city’s, or town’s ordinance does not require display of a decal or other evidence of payment. No ordinance adopted pursuant to this section shall require the display of any local license, decal, or sticker on any vehicle owned by a public service company, as defined in § 56-76, having a fleet of at least 2,500 vehicles garaged in the Commonwealth.

H. Except as provided by subsections E and F, no vehicle shall be subject to taxation under the provisions of this section in more than one jurisdiction. Furthermore, no person who has purchased a local vehicle license, decal, or sticker for a vehicle in one county, city, or town and then moves to and garages his vehicle in another county, city, or town shall be required to purchase another local license, decal, or sticker from the county, city, or town to which he has moved and wherein his vehicle is now garaged until the expiration date of the local license, decal, or sticker issued by the county, city, or town from which he moved.

I. Purchasers of new or used motor vehicles shall be allowed at least a 10-day grace period, beginning with the date of purchase, during which to pay license fees charged by local governments under authority of this section.

J. The treasurer or director of finance of any county, city, or town may enter into an agreement with the Commissioner whereby the Commissioner will refuse to issue or renew any vehicle registration of any applicant therefor who owes to such county, city, or town any local vehicle license fees or delinquent tangible personal property tax or parking citations. Before being issued any vehicle registration or renewal of such license or registration by the Commissioner, the applicant shall first satisfy all such local vehicle license fees and delinquent taxes or parking citations and present evidence satisfactory to the Commissioner that all such local vehicle license fees and delinquent taxes or parking citations have been paid in full.
However, a vehicle purchased by an applicant subsequent to the onset of enforcement action under this subsection may be issued an initial registration for a period of up to 90 days to allow the applicant to satisfy all applicable requirements under this subsection, provided that a fee sufficient for the registration period, as calculated under subsection B of § 46.2-694, is paid. Such initial registration shall not be eligible for the one-month registration extension provided for in § 46.2-646.2 for this same purpose. The Commissioner shall charge a reasonable fee to cover the costs of such enforcement action, and the treasurer or director of finance may add the cost of this fee to the delinquent tax bill or the amount of the parking citation. The treasurer or director of finance of any county, city, or town seeking to collect delinquent taxes or parking citations through the withholding of registration or renewal thereof by the Commissioner as provided for in this subsection shall notify the Treasurer in the manner provided for in his agreement with the Commissioner and supply to the Commissioner information necessary to identify the debtor whose registration or renewal is to be denied. Any agreement entered into pursuant to the provisions of this subsection shall provide the debtor notice of the intent to deny renewal of registration or issuance of registration for any currently unregistered vehicle at least 30 days prior to the expiration date of a current vehicle registration. For the purposes of this subsection, notice by first-class mail to the registrant's address as maintained in the records of the Department of Motor Vehicles shall be deemed sufficient. In the case of parking violations, the Commissioner shall only refuse to issue or renew the vehicle registration of any applicant therefor pursuant to this subsection for the vehicle that incurred the parking violations. The provisions of this subsection shall not apply to vehicles owned by firms or companies in the business of renting motor vehicles.

K. The governing bodies of any two or more counties, cities, or towns may enter into compacts for the regional enforcement of local motor vehicle license requirements. The governing body of each participating jurisdiction may by ordinance require the owner or operator of any motor vehicle, trailer, or semitrailer to display on his vehicle a valid local license issued by another county, city, or town that is a party to the regional compact, provided that the owner or operator is required by the jurisdiction of situs, as provided in § 58.1-3511, to obtain and display such license. The ordinance may also provide that no motor vehicle, trailer, or semitrailer shall be locally licensed until the applicant has produced satisfactory evidence that (i) all personal property taxes on the motor vehicle, trailer, or semitrailer to be licensed have been paid to all participating jurisdictions and (ii) any delinquent motor vehicle, trailer, or semitrailer personal property taxes that have been properly assessed or are assessable by any participating jurisdiction against the applicant have been paid. Any city and any county having the urban county executive form of government, the counties adjacent to such county and towns within them may require that no motor vehicle, trailer, or semitrailer shall be licensed by that jurisdiction or any other jurisdiction in the compact unless all fines owed to any participating jurisdiction by the owner of the vehicle for violation of any participating jurisdiction's ordinances governing parking of vehicles have been paid. The ordinance may further provide that a violation shall constitute a misdemeanor the penalty for which shall not exceed that of a Class 4 misdemeanor. Any such ordinance may also provide that a violation of the ordinance by the owner of the vehicle may not be discharged by payment of a fine and applicable court costs except upon presentation of satisfactory evidence that the required license has been obtained. The provisions of this subsection shall not apply to vehicles owned by firms or companies in the business of renting motor vehicles.

L. In addition to the taxes and license fees permitted in subsection A, counties, cities, and towns may charge a license fee of no more than $1 per motor vehicle, trailer, and semitrailer. Except for the provisions of subsection B, such fee shall be subject to all other provisions of this section. All funds collected pursuant to this subsection shall be paid pursuant to § 51.1-1204 to the Volunteer Firefighters' and Rescue Squad Workers' Service Award Fund to the accounts of all members of the Fund who are volunteers for fire departments or emergency medical services agencies within the jurisdiction of the particular county, city, or town.

M. In any county, the county treasurer or comparable officer and the treasurer of any town located wholly or partially within such county may enter into a reciprocal agreement, with the approval of the respective local governing bodies, that provides for the town treasurer to collect license fees or taxes on any motor vehicle, trailer, or semitrailer. Except for the provisions of subsection B, such fee shall be subject to all other provisions of this section. All funds collected pursuant to § 51.1-1204 to the Volunteer Firefighters' and Rescue Squad Workers' Service Award Fund to the accounts of all members of the Fund who are volunteers for fire departments or emergency medical services agencies within the jurisdiction of the particular county, city, or town.

N. For any summons issued for a violation of this section, the court may, in its discretion, dismiss the summons, where proof of compliance with this section is provided to the court on or before the court date.

CHAPTER 7.

HIGHWAY USE FEE AND MILEAGE-BASED USER FEE PROGRAM.

§ 46.2-770. Definitions.

As used in this chapter, unless the context requires a different meaning:

"Alternative fuel vehicle" means a vehicle equipped to be powered by a combustible gas, liquid, or other source of energy that can be used to generate power to operate a highway vehicle and that is neither a motor fuel nor electricity used to recharge an electric motor vehicle or a hybrid electric motor vehicle.

"Electric motor vehicle" means a vehicle that uses electricity as its only source of motive power.

"Fuel-efficient vehicle" means a vehicle that has a combined fuel economy of 25 miles per gallon or greater.
§ 46.2-771. Purpose.
The purpose of this chapter is to ensure more equitable contributions to the Commonwealth Transportation Fund from alternative fuel vehicles, electric motor vehicles, and fuel-efficient vehicles using highways in the Commonwealth.

§ 46.2-772. Highway use fee.
A. Except as provided in subsection C, there is hereby imposed an annual highway use fee on any motor vehicle registered in the Commonwealth under § 46.2-694 or 46.2-697 that is an alternative fuel vehicle, an electric motor vehicle, or a fuel-efficient vehicle. The fee shall be collected by the Department at the time of vehicle registration. If the vehicle is registered for a period of other than one year as provided in § 46.2-646, the highway use fee shall be multiplied by the number of years or fraction thereof that the vehicle will be registered.

B. For an electric motor vehicle, the highway use fee shall be 85 percent of the amount of taxes paid under subsection A of § 58.1-2217 on fuel used by a vehicle with a combined fuel economy of 23.7 miles per gallon for the average number of miles traveled by a passenger vehicle in the Commonwealth, as determined by the Commissioner. For all other fuel-efficient vehicles, the highway use fee shall be 85 percent of the difference between the tax paid under subsection A of § 58.1-2217 on the fuel used by a vehicle with a combined fuel economy of 23.7 miles per gallon for the average number of miles traveled by a passenger vehicle in the Commonwealth in a year, as determined by the Commissioner, and the tax paid under subsection A of § 58.1-2217 on the fuel used by the vehicle being registered for the average number of miles traveled by a passenger vehicle in the Commonwealth in a year, as determined by the Commissioner.

For purposes of this chapter, the Commissioner shall use combined fuel economy as determined by the manufacturer of the vehicle. If the Commissioner is unable to obtain the manufacturer’s fuel economy for a vehicle, then the Commissioner shall use the final estimate of average fuel economy, as determined by the U.S. Environmental Protection Agency, of (i) all trucks having the same model year as the vehicle being registered, if the vehicle has a gross weight between 6,000 pounds and 10,000 pounds, or (ii) all cars having the same model year as the vehicle. If data is not available for the model year of the vehicle being registered, then the Commissioner shall use available data for the model year that is closest to the model year of the vehicle being registered.

The Commissioner shall update the fees calculated under this section by July 1 of each year.

C. This section shall not apply to:
   1. An autocycle, moped, or motorcycle;
   2. A vehicle with a gross weight over 10,000 pounds;
   3. A vehicle that is owned by a governmental entity as defined in § 58.1-2201; or
   4. A vehicle that is registered under the International Registration Plan.

A vehicle shall not be subject to the fee set forth in this section in any year in which such vehicle is registered to participate in the mileage-based user fee program established pursuant to § 46.2-773.

§ 46.2-773. Mileage-based user fee program.
A. There is hereby established a mileage-based user fee program. The program shall be a voluntary program that allows owners of vehicles subject to the highway use fee pursuant to § 46.2-772 to pay a mileage-based fee in lieu of the highway use fee. No owner of a motor vehicle registered in the Commonwealth shall be required to participate in the program established pursuant to this section.

B. In any year that an owner pays the fee set forth in this section, such owner shall not be subject to the fee set forth in § 46.2-772 for the same vehicle. In no case shall the fees paid pursuant to this section during a 12-month period exceed the annual highway use fee that would have otherwise been paid.

C. The fee schedule for the mileage-based user fee program shall be calculated by dividing the amount of the highway use fee as determined pursuant to subsection B of § 46.2-772 by the average number of miles traveled by a passenger vehicle in the Commonwealth to determine a fee per mile driven.

D. The Department shall establish procedures for the collection of the fees set forth in this section. Such procedures may limit the total number of participants during the first four years of the program.

§ 46.2-774. Distribution of revenues.
All revenues collected pursuant to this chapter shall be used first to pay for the direct cost of administration of this chapter by the Department, and then shall be deposited into the Commonwealth Transportation Fund established pursuant to § 33.2-1524.

§ 46.2-1158. Frequency of inspection; scope of inspection.
Motor vehicles, trailers, and semitrailers required to be inspected pursuant to the provisions of § 46.2-1157 shall be reinspected within 12 months of the month of the first inspection and at least once every 12 months thereafter.

Each inspection shall be a complete inspection. A reinspection of a rejected vehicle by the same station during the period of validity of the rejection sticker on such vehicle, however, need only include an inspection of the item or items previously found defective unless there is found an obvious defect that would warrant further rejection of the vehicle.

A rejection sticker shall be valid for 15 calendar days beyond the day of issuance, during which time the operator of the vehicle shall not be charged for a violation of vehicle equipment requirements set forth in Article 3 (§ 46.2-1010 et seq.) through Article 9 (§ 46.2-1066 et seq.) for such vehicle. A complete inspection shall be performed on any vehicle bearing an expired rejection sticker.

The completion of the conversion process for a converted electric vehicle shall invalidate any inspection of such vehicle conducted in accordance with this section prior to the conversion. Following the initial inspection of a converted
electric vehicle, as required under § 46.2-602.3 and the provisions of this chapter, such vehicle shall be reinspected in accordance with this section.

§ 46.2-1158.02. Penalty for failure to have motor vehicle inspection.

A. Notwithstanding the penalty provisions of § 46.2-1171, a violation of § 46.2-1158 constitutes a traffic infraction. The court may, in its discretion, dismiss a summons issued under § 46.2-1158 where correction of vehicle or safety equipment defects or proof of compliance with § 46.2-1158 is provided to the court subsequent to the issuance of the summons.

B. The operator of a motor vehicle who is cited for a violation of § 46.2-1158 shall not be cited during the same occurrence for a violation of vehicle equipment requirements set forth in Article 3 (§ 46.2-1010 et seq.) through Article 9 (§ 46.2-1066 et seq.) for such vehicle, nor shall the operator of the motor vehicle that is subject to the citation be cited for a violation of such vehicle equipment requirements for such vehicle for a period of 15 calendar days.

For the purposes of this article, a vehicle is in inventory when it is owned by or assigned to a dealer and is offered and available for sale or resale. All dealer's certificates of vehicle registration and license plates issued under this section may, at the discretion of the Commissioner, be placed in a system of staggered issue to distribute the work of issuing vehicle registration certificates and license plates as uniformly as practicable throughout the year. Dealerships which sold fewer than twenty-five 25 vehicles during the last twelve 12 months of the preceding license year shall be eligible to receive no more than two dealer's license plates; dealerships which sold at least twenty-five 25 but fewer than fifty 50 vehicles during the last twelve 12 months of the preceding license year shall be eligible to receive no more than four dealer's license plates. However, dealerships which sold fifty 50 or more vehicles during their current license year may apply for additional license plates not to exceed four times the number of licensed salespersons employed by that dealership. A new applicant for a dealership shall be eligible to receive a number of dealer's license plates not to exceed four times the number of licensed salespersons employed by that dealership. For the purposes of this article, a salesperson or employee shall be considered to be employed only if he (i) works for the dealership at least twenty-five 25 hours each week on a regular basis and (ii) is compensated for this work. All salespersons' or employees' employment records shall be retained in accordance with the provisions of § 46.2-1529. A salesperson shall not be considered employed, within the meaning of this section, if he is an independent contractor as defined by the United States Internal Revenue Code. The fee for the issuance of dealer's license plates shall be determined by the Board, but not more than $30 per license plate; however, the fee for the first two dealer's plates shall not be less than twenty dollars $24 and the fee for additional dealer's license plates shall not be less than ten dollars and forty cents $10.40 each. For the first two dealer's license plates issued by the Department to a dealer, twenty-four 24 dollars $24 shall be deposited into the Commonwealth Transportation Trust Fund established pursuant to § 33.2-1524 and the remainder shall be deposited into the Motor Vehicle Dealer Fund. § 58.1-608.3. Entitlement to certain sales tax revenues.
A. As used in this section, the following words and terms have the following meanings, unless some other meaning is plainly intended:

"Bonds" means any obligations of a municipality for the payment of money.

"Cost," as applied to any public facility or to extensions or additions to any public facility, includes: (i) the purchase price of any public facility acquired by the municipality or the cost of acquiring all of the capital stock of the corporation owning the public facility and the amount to be paid to discharge any obligations in order to vest title to the public facility or any part of it in the municipality; (ii) expenses incident to determining the feasibility or practicability of the public facility; (iii) the cost of plans and specifications, surveys and estimates of costs and of revenues; (iv) the cost of all land, property, rights, easements and franchises acquired; (v) the cost of improvements, property or equipment; (vi) the cost of engineering, legal and other professional services; (vii) the cost of construction or reconstruction; (viii) the cost of all labor, materials, machinery and equipment; (ix) financing charges; (x) interest before and during construction and for up to one year after completion of construction; (xi) start-up costs and operating capital; (xii) payments by a municipality of its share of the cost of any multijurisdictional public facility; (xiii) administrative expense; (xiv) any amounts to be deposited to reserve or replacement funds; and (xv) other expenses as may be necessary or incident to the financing of the public facility. Any obligation or expense incurred by the public facility in connection with any of the foregoing items of cost may be regarded as a part of the cost.

"Municipality" means any county, city, town, authority, commission, or other public entity.

"Public facility" means (i) any auditorium, coliseum, convention center, or conference center, which is owned by a Virginia county, city, town, authority, or other public entity and where exhibits, meetings, conferences, conventions, seminars, or similar public events may be conducted; (ii) any hotel which is attached to and is an integral part of such facility; (iii) any hotel which is owned by a foundation whose sole purpose is to contribute infrastructure, real property, or conference space; or (v) a sports complex consisting of a minor league baseball stadium and related tournament, training, and parking facilities, where a municipality owns a component of the sports complex. However, such public facility must be located in the City of Fredericksburg, City of Hampton, City of Lynchburg, City of Newport News, City of Norfolk, City of Portsmouth, City of Richmond, City of Roanoke, City of Salem, City of Staunton, City of Suffolk, City of Virginia Beach, City of Winchester, or Town of Wise. Any property, real, personal, or mixed, which is necessary or desirable in connection with any such auditorium, coliseum, convention center, sports complex, or conference center, including, without limitation, facilities for food preparation and serving, parking facilities, and office space, is encompassed within this definition. However, structures commonly referred to as "shopping centers" or
"malls" shall not constitute a public facility hereunder. A public facility shall not include residential condominiums, townhomes, or other residential units. In addition, only a new public facility, or a public facility which will undergo a substantial and significant renovation or expansion, shall be eligible under subsection C. A new public facility is one whose construction began after December 31, 1991. A substantial and significant renovation entails a project whose cost is at least 50 percent of the original cost of the facility being renovated and shall have begun after December 31, 1991. A substantial and significant expansion entails an increase in floor space of at least 50 percent over that existing in the preexisting facility and shall have begun after December 31, 1991; or an increase in floor space of at least 10 percent over that existing in a public facility that qualified as such under this section and was constructed after December 31, 1991.

"Sales tax revenues" means such tax collections realized under the Virginia Retail Sales and Use Tax Act (§ 58.1-600 et seq.), as limited herein. "Sales tax revenues" does not include the revenue generated by (i) the 0.5 percent sales and use tax enacted by the 1986 Special Session of the General Assembly which shall be paid to the Commonwealth Transportation Trust Fund as defined in established pursuant to § 33.2-1524, (ii) the 1.0 percent of the state sales and use tax revenue distributed among the counties and cities of the Commonwealth pursuant to subsection D of § 58.1-638 on the basis of school age population, or (iii) any sales and use tax revenues generated by increases or allocation changes imposed by the 2013 Session of the General Assembly.

B. Notwithstanding the definition of "public facility" in subsection A, a development project that meets the requirements for a "development of regional impact" set forth herein shall be deemed to be a public facility under the provisions of this section. The locality in which the public facility is located shall be entitled to all sales tax revenues generated by transactions taking place at such public facility solely to pay the cost of any bonds issued to pay the cost, or portion thereof, of such public facility pursuant to subsection C. For purposes of this subsection, the development of regional impact must be located in the City of Bristol.

For purposes of this subsection, a "development of regional impact" means a development project (i) towards which the locality contributes infrastructure or real property as part of a public-private partnership with the developer that is equal to at least 20 percent of the aggregate cost of development, (ii) that is reasonably expected to require a capital investment of at least $50 million, (iii) that is reasonably expected to generate at least $5 million annually in state sales and use tax revenue from sales within the development, (iv) that is reasonably expected to attract at least one million visitors annually, (v) that is reasonably expected to create at least 2,000 permanent jobs, (vi) that is located in a locality that had a rate of unemployment at least three percentage points higher than the statewide average in November 2011, and (vii) that is located in a locality that is adjacent to a state that has adopted a Border Region Retail Tourism Development District Act. Within 30 days from the date of notification by a locality that it intends to contribute infrastructure or real property as part of a public-private partnership with the developer of a development of regional impact, the Department of Taxation shall review the findings of the locality with respect to clauses (i) through (vi) and shall file a written report with the Chairmen of the House Committee on Finance, the House Committee on Appropriations, and the Senate Committee on Finance.

C. Any municipality which has issued bonds (i) after December 31, 1991, but before January 1, 1996, (ii) on or after January 1, 1998, but before July 1, 1999, (iii) on or after January 1, 1999, but before July 1, 2001, (iv) on or after July 1, 2000, but before July 1, 2003, (v) on or after July 1, 2001, (vi) on or after July 1, 2004, but before July 1, 2007, (vii) on or after July 1, 2009, but before July 1, 2012, (viii) on or after January 1, 2011, but prior to July 1, 2015, or (ix) on or after January 1, 2013, but prior to July 1, 2020, to pay the cost, or portion thereof, of any public facility shall be entitled to all sales tax revenues generated by transactions taking place in such public facility. In the case of a public facility described in clause (v) of the definition of public facility, all such sales tax revenues shall be applied solely to repayment of the bonds issued to pay the cost, or portion thereof, of the municipality-owned component of the sports complex. Such entitlement shall continue for the lifetime of such bonds, or any refinancing or refunding thereof, but in no event shall such entitlement exceed 35 years from the initial date that any bonds were issued to pay the cost, or a portion thereof, of any public facility, and all such sales tax revenues shall be applied to repayment of the bonds. The State Comptroller shall remit such sales tax revenues to the municipality on a quarterly basis, subject to such reasonable processing delays as may be required by the Department of Taxation to calculate the actual net sales tax revenues derived from the public facility. The State Comptroller shall make such remittances to eligible municipalities, as provided herein, notwithstanding any provisions to the contrary in the Virginia Retail Sales and Use Tax Act (§ 58.1-600 et seq.). No such remittances shall be made until construction is completed and, in the case of a renovation or expansion, until the governing body of the municipality has certified that the renovation or expansion is completed; however, in the case of any public facility consisting of more than one building or structure, such remittances shall be made on a quarterly basis beginning with the first quarter in which any sales tax revenue is generated by transactions taking place at any building or structure within such public facility, whether or not construction of all or any portion, phase, building, or structure of such public facility has been completed.

D. Nothing in this section shall be construed as authorizing the pledging of the faith and credit of the Commonwealth of Virginia, or any of its revenues, for the payment of any bonds. Any appropriation made pursuant to this section shall be made only from sales tax revenues derived from the public facility for which bonds may have been issued to pay the cost, in whole or in part, of such public facility.

§ 58.1-638. Disposition of state sales and use tax revenue.

A. The Comptroller shall designate a specific revenue code number for all the state sales and use tax revenue collected under the preceding sections of this chapter.
The sales and use tax revenue generated by the one-half percent sales and use tax increase enacted by the 1986 Special Session of the General Assembly shall be paid, in the manner hereinafter provided in this section, to the Commonwealth Transportation Trust Fund as defined in established pursuant to § 33.2-1524. Of the funds paid to the Transportation Trust Fund, an aggregate of 4.2 percent shall be set aside as the Commonwealth Port Fund as provided in this section; an aggregate of 2.4 percent shall be set aside as the Commonwealth Airport Fund as provided in this section; and an aggregate of 14.7 percent shall be set aside as the Commonwealth Mass Transit Fund as provided in this section. The Fund's share of such net revenue shall be computed as an estimate of the net revenue to be received into the state treasury each month, and such estimated payment shall be adjusted for the actual net revenue received in the preceding month. All payments shall be made to the Fund on the last day of each month.

2. There is hereby created in the Department of the Treasury a special nonreverting fund which shall be a part of the Transportation Trust Fund and which shall be known as the Commonwealth Port Fund.

a. The Commonwealth Port Fund shall be established on the books of the Comptroller and the funds remaining in such Fund at the end of a biennium shall not revert to the general fund but shall remain in the Fund. Interest earned on such funds shall remain in the Fund and be credited to it. Funds may be paid to any authority, locality or commission for the purposes hereinafter specified.

b. The amounts allocated pursuant to this section shall be allocated by the Commonwealth Transportation Board to the Board of Commissioners of the Virginia Port Authority to be used to support port capital needs and the preservation of existing capital needs of all ocean, river, or tributary ports within the Commonwealth. Expenditures for such capital needs are restricted to those capital projects specified in subsection B of § 62.1-132.1.

c. Commonwealth Port Fund revenue shall be allocated by the Board of Commissioners to the Virginia Port Authority in order to foster and stimulate the flow of maritime commerce through the ports of Virginia, including but not limited to the ports of Richmond, Hopewell, and Alexandria.

3. There is hereby created in the Department of the Treasury a special nonreverting fund which shall be part of the Transportation Trust Fund and which shall be known as the Commonwealth Airport Fund. The Commonwealth Airport Fund shall be established on the books of the Comptroller and any funds remaining in such Fund at the end of a biennium shall not revert to the general fund but shall remain in the Fund. Interest earned on the funds shall be credited to the Fund. The funds so allocated shall be allocated by the Commonwealth Transportation Board to the Virginia Aviation Board. The funds shall be allocated by the Virginia Aviation Board to any Virginia airport which is owned by the Commonwealth, a governmental subdivision thereof, or a private entity to which the public has access for the purposes enumerated in § 5.1-2.16, or is owned or leased by the Metropolitan Washington Airports Authority (MWAA), as follows:

Any new funds in excess of $121.1 million which are available for allocation by the Virginia Aviation Board from the Commonwealth Transportation Fund, shall be allocated as follows: 60 percent to MWAA, up to a maximum annual amount of $2 million, and 40 percent to air carrier airports as provided in subdivision A 3 a. Except for adjustments due to changes in enplaned passengers, no air carrier airport sponsor, excluding MWAA, shall receive less funds identified under subdivision A 3 a than it received in fiscal year 1994-1995.

Of the remaining amount:

a. Forty percent of the funds shall be allocated to air carrier airports, except airports owned or leased by MWAA, based upon the percentage of enplaned passengers for each airport to total enplaned passengers at all air carrier airports, except airports owned or leased by MWAA. No air carrier airport sponsor, however, shall receive less than $50,000 nor more than $2 million per year from this provision.

b. Sixty percent of the funds shall be allocated as follows:

(1) For the first six months of each fiscal year, the funds shall be allocated as follows:

(a) Forty percent of the funds shall be allocated by the Aviation Board for air carrier and reliever airports on a discretionary basis, except airports owned or leased by MWAA; and

(b) Twenty percent of the funds shall be allocated by the Aviation Board for general aviation airports on a discretionary basis; and

(2) For the second six months of each fiscal year, all remaining funds shall be allocated by the Aviation Board for all eligible airports on a discretionary basis, except airports owned or leased by MWAA.

3a. There is hereby created in the Department of the Treasury a special nonreverting fund that shall be a part of the Transportation Trust Fund and that shall be known as the Commonwealth Space Flight Fund. The Commonwealth Space Flight Fund shall be established on the books of the Comptroller and the funds remaining in such Fund at the end of a biennium shall not revert to the general fund but shall remain in the Fund. Interest earned on such funds shall remain in the Fund and be credited to it.

a. The amounts allocated to the Commonwealth Space Flight Fund pursuant to § 33.2-1526 shall be allocated by the Commonwealth Transportation Board to the Board of Directors of the Virginia Commercial Space Flight Authority to be used to support the capital needs, maintenance, and operating costs of any and all facilities owned and operated by the Virginia Commercial Space Flight Authority.

b. Commonwealth Space Flight Fund revenue shall be allocated by the Board of Directors to the Virginia Commercial Space Flight Authority in order to foster and stimulate the growth of the commercial space flight industry in Virginia.

4. There is hereby created in the Department of the Treasury a special nonreverting fund which shall be a part of the Transportation Trust Fund and which shall be known as the Commonwealth Mass Transit Fund.

The tax imposed by this chapter shall be in addition to all other taxes of whatever character imposed on a motor carrier by any other provision of law.

B. The additional amount per gallon shall be determined by the Commissioner annually, effective July 1 of each year. C. In lieu of the tax imposed in subsection A, motor carriers registering qualified highway vehicles that are not registered under the International Registration Plan shall pay a fee of $150 per year for each qualified highway vehicle regardless of whether such vehicle will be included on the motor carrier's IFTA return. For the period of July 1, 2019, through June 30, 2020, the fee shall be adjusted based on the percent change in the road tax imposed pursuant to subsection A from June 30, 2019, to July 1, 2019. The Commissioner shall adjust the fee annually on July 1 of every year thereafter based on the percentage change in the road tax imposed pursuant to subsection A for the previous fiscal year as compared to the current fiscal year. The fee is due and payable when the vehicle registration fees are paid pursuant to the provisions of Article 7 (§ 46.2-685 et seq.) of Chapter 6 of Title 46.2.

If a vehicle becomes a qualified highway vehicle before the end of its registration period, the fee due at the time the vehicle becomes a qualified highway vehicle shall be prorated monthly to the registration expiration month. 13. That notwithstanding the provisions of § 33.2-1524 of the Code of Virginia, as amended by this act, the Special Structure Fund established pursuant to § 33.2-1532 of the Code of Virginia shall receive $10 million in Fiscal Year 2021 and $30 million in Fiscal Year 2022.

This act shall be known and may be cited as the "Commonwealth of Virginia Passenger Rail Facilities Bond Act of 2020" (the Act).

The Commonwealth Transportation Board (the Transportation Board) is hereby authorized, by and with the consent of the Governor, to sell and issue, pursuant to Article X, Section 9 (d) of the Constitution of Virginia, at one time or from time to time, bonds of the Commonwealth, to be designated "Commonwealth of Virginia Passenger Rail Facilities Bonds, Series ..." in an aggregate principal amount not exceeding $1 billion, plus amounts needed to fund issuance costs, reserve funds, capitalized interest, and other financing expenses. The Transportation Board is further hereby authorized, by and with the consent of the Governor, to borrow money in anticipation of the issuance of bonds by the issuance of bond anticipation notes (BANs), including BANs issued as commercial paper. The proceeds of such bonds and BANs, excluding amounts needed to fund issuance costs, reserve funds, capitalized interest, and other financing expenses, shall be used exclusively for the purpose of providing funds, together with any other available funds made available by the Transportation Board, the Virginia Department of Rail and Public Transportation, and the Virginia Passenger Rail Authority, to pay all or a portion of the costs of (i) acquiring, constructing, renovating, expanding, enlarging, improving, installing, and equipping the Rail Improvements, as defined in the twelfth enactment of this act, and the various rail facilities, structures, and equipment constructed or acquired in connection therewith; (ii) acquiring any lands, structures, fixtures, rights-of-way, franchises, easements, and other property rights and interests related to the Rail Improvements; and (iii) demolishing, removing, or relocating any buildings, structures, or fixtures on lands acquired for the Rail Improvements (any of which may be referred to as an "authorized capital project").

§ 3. Deposit and application of proceeds.

The proceeds, including any premium, of bonds and BANs (except the proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds, and (iii) refunding BANs), shall be deposited in a special capital outlay fund in the state treasury or may be placed with a trustee, and, together with the investment income thereon, shall be disbursed for paying all or any part of the costs of an authorized capital project, including financing costs. The proceeds of (a) bonds the issuance of which has been anticipated by BANs, (b) refunding bonds, and (c) refunding BANs shall be used to pay such BANs, refunded bonds, and refunded BANs.

§ 4. Details, sale of bonds and BANs.

The terms and structure of each issue of bonds and BANs shall be determined by the Transportation Board, subject to approval of the Treasury Board if required by the provisions of § 2.2-2416 of the Code of Virginia. The bonds and BANs shall be dated, and may be made redeemable before their maturity or maturities at such price or prices or within such price parameters, all as may be determined by the Transportation Board. Bonds and BANs shall be in such form, shall bear interest at such rate or rates, either at fixed rates or at rates established by formula or other method, and may contain such other provisions, including senior and subordinate lien priorities on the pledged toll revenues as provided in § 7, with respect to such bonds and BANs, all as determined by the Transportation Board. The principal of and premium, if any, and the interest on bonds and BANs shall be payable in lawful money of the United States of America. Bonds and BANs may be certificated or uncertificated as determined by the Transportation Board. The Transportation Board may contract for services of such registrars, transfer agents, or other authenticating agents as it deems appropriate to maintain a record of the persons entitled to the bonds and BANs. Bonds and BANs issued in certificated form may be issued under a system of
book entry for recording the ownership and transfer of ownership of rights to receive payments on the bonds and BANs. The
Transportation Board shall fix the authorized denomination or denominations of the bonds and the place or places of payment of
certificated bonds and BANs, which may be at the Office of the State Treasurer or at any bank or trust company within or
without the Commonwealth. Bonds shall mature at such time or times not exceeding 39 years from their date or dates, and
BANs shall mature at such time or times not exceeding five years from their date or dates.

The Transportation Board may sell bonds and BANs at one time or from time to time, at public or private sale, by
competitive bidding, negotiated sale, or private placement with private lenders or governmental lenders, and for such price or
prices, all as it may determine to be in the best interest of the Commonwealth.

§ 5. Execution of bonds and BANs.
The bonds and BANs shall be signed on behalf of the Transportation Board by the chairman or vice-chairman of the
Transportation Board, or shall bear the facsimile signature of such officer, and shall bear the official seal of the
Transportation Board, which shall be attested by the manual or facsimile signature of the secretary or assistant secretary of
the Transportation Board. In the event that the bonds or BANs shall bear the facsimile signature of the chairman or
vice-chairman of the Transportation Board, such bonds or BANs shall be signed by such administrative assistant as the
chairman of the Transportation Board shall determine or by any registrar or paying agent that may be designated by the
Transportation Board. If any officer whose signature or facsimile signature appears on any bonds or BANs ceases to be
such officer before delivery, such signature or facsimile signature shall nevertheless be valid and sufficient for all purposes
the same as if such officer had remained in office until such delivery.

§ 6. Sources for payment of expenses.
All expenses incurred under this act or in connection with the issuance of bonds or BANs shall be paid from the
proceeds of bonds or BANs or from other available funds as the Transportation Board shall determine.

§ 7. Revenues.
The Transportation Board is hereby authorized (i) to fix, revise, charge, and collect tolls, rates, fees, and charges for or
in connection with the use, occupancy, and services of the Inside the Beltway Express Lanes, as defined in the twelfth
enactment of this act, in amounts sufficient to provide for the operating costs of the Inside the Beltway Express Lanes tolling
facilities and to provide for the payment of the principal of and the premium, if any, and interest on the bonds and BANs and
the debt service and sinking funds and reserves established as provided below and (ii) to pledge the payment of the bonds
or any portion thereof or BANs issued to finance or refinance the Rail Improvements the net revenues resulting from such
tolls, rates, fees, and charges and remaining after payment of expenses incurred in operating the Inside the Beltway Express
Lanes tolling facilities (the Toll Revenues). The Transportation Board is further authorized to create debt service and
sinking funds for the payments of the principal of and premium, if any, and interest on the bonds and BANs and other
reserves required by any of the purchasers.

§ 8. Investments and contracts.
A. Pending the application of the proceeds of the bonds or BANs (including refunding bonds and BANs) to the purpose
for which they have been authorized and the application of funds set aside for the purpose of the payment of bonds or BANs,
they may be invested by the State Treasurer or by a trustee in securities that are legal investments under the laws of the
Commonwealth for public funds and sinking funds, as the case may be. Whenever the State Treasurer or trustee receives
interest from the investment of the proceeds of bonds or any BANs, such interest shall become a part of the principal of the
bonds and any BANs and shall be used in the same manner as required for principal of the bonds or BANs.

B. The Commonwealth may enter into any contract or other arrangement that is determined to be necessary or
appropriate to place the obligation or investment of the Commonwealth, as represented by bonds, BANs, or investments, in
whole or in part, on the interest rate, cash flow, or other basis desired by the Commonwealth. Such contract or other
arrangement may include, without limitation, contracts commonly known as interest rate swap agreements and futures or
contracts providing for payments based on levels of, or changes in, interest rates. These contracts or arrangements may be
entered into by the Commonwealth in connection with, incidental to, entering into, or maintaining, any (i) agreement that
secures bonds or BANs or (ii) investment, or contract providing for investment, otherwise authorized by law. These
contracts and arrangements may contain such payment, security, default, remedy, and other terms and conditions as
determined by the Commonwealth, after giving due consideration to the creditworthiness of the counterparty or other
obligated party, including any rating by any nationally recognized rating agency, and any other criteria as may be
appropriate. The determinations referred to in this subsection may be made by the Treasury Board or any public funds
manager with professional investment capabilities duly authorized by the Treasury Board to make such determinations.

C. Any money set aside and pledged to secure payments of bonds, BANs, or any of the contracts entered into pursuant
to this section may be invested in accordance with subsection A and may be pledged to and used to service any of the
contracts or other arrangements entered into pursuant to subsection B.

§ 9. Security for bonds and BANs.
Subject to appropriation by the General Assembly of such amounts, the Toll Revenues are hereby irrevocably pledged
for the payment of the principal of and premium, if any, and interest on bonds and BANs issued under this act. The proceeds
of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds, and (iii) refunding BANs are hereby
irrevocably pledged for the payment of principal of and premium, if any, and interest on the BANs or bonds to be paid or
redeemed thereby. Nothing in this act or the bonds or BANs shall be deemed to create or constitute a pledge of the faith and
credit of the Commonwealth or any political subdivision thereof.
§ 10. Exemption of interest from tax.

The bonds and BANs issued under the provisions of this act, their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any county, city, or town, or other political subdivision thereof. The Transportation Board is authorized to take or refrain from taking any and all actions and to covenant to such effect, and to require the Transportation Board, the Virginia Department of Rail and Public Transportation, and the Virginia Passenger Rail Authority to do and to covenant likewise, to the extent that, in the judgment of the Transportation Board, it is appropriate in order that interest on the bonds and BANs may be exempt from federal income tax. Alternatively, interest on bonds and BANs may be made subject to inclusion in gross income of the holders thereof for federal income tax purposes.

§ 11. Refunding bonds and BANs.

The Transportation Board is authorized, by and with the consent of the Governor, to sell and issue, at one time or from time to time, refunding bonds and BANs of the Commonwealth and to refund any or all of the bonds and BANs, respectively, issued under this act. Refunding bonds and BANs may be issued in a principal amount up to the amount necessary to pay at maturity or redeem the bonds and BANs to be refunded and pay all issuance costs and other financing expenses of the refunding. Such refunding bonds and BANs may be issued whether or not the obligations to be refunded are then subject to redemption.

§ 12. Defeasance.

Any bond or BAN for which cash or direct obligations of the United States of America shall have been set aside in escrow with the State Treasurer or a bank or trust company, within or without the Commonwealth, shall be deemed no longer outstanding under the applicable authorizing instrument, this act, and Article X, Section 9 (d) of the Constitution of Virginia.

§ 13. Legal investments.

All obligations issued under the provisions of this act are hereby made securities in which all public officers and bodies of the Commonwealth and political subdivisions thereof, insurance companies and associations, savings banks and savings institutions, including savings and loan associations, trust companies, beneficial and benevolent associations, administrators, guardians, executors, trustees, and other fiduciaries in the Commonwealth may properly and legally invest funds under their control.

The provisions of this act or the application thereof to any person or circumstances that are held invalid shall not affect the validity of other provisions or applications of this act which can be given effect without the invalid provisions or applications.

§ 15. Appropriation.

The proceeds of the bonds are hereby appropriated for disbursement from the state treasury pursuant to Article X, Section 7 of the Constitution of Virginia and § 2.2-1819 of the Code of Virginia. The general conditions and general provisions of the general appropriation act enacted pursuant to Chapter 15 (§ 2.2-1500 et seq.) of Title 2.2 of the Code of Virginia, as such general appropriation act may be amended from time to time, and all of the terms and conditions contained therein shall apply to the authorized capital project described in this act.

1. Environmental and engineering studies;
2. Acquisition of rights of way;
3. Improvements to any existing mode of transportation;
4. Acquisition of real and personal property;
5. Construction of new modes of transportation and improvements thereto;
6. Contributions to reserve funds;
7. Any financing expenses; and
8. Any purpose the Board deems necessary to implementing the Plan and the Program.

§ 5. The Board shall make proceeds of the bonds available to pay costs for the purposes identified in § 4, or to refund previously issued bonds providing funds to pay for the purposes identified in § 4. The Board may make payments to any authority, commission, locality, or other entity of the Commonwealth for purposes of paying such entity's costs related to transportation projects. The Board shall use bond proceeds together with any federal, local, or private funds that may be made available for similar purposes. The Board may use proceeds from the bonds, together with any investment earnings from such bonds, to secure the payment of principal or the purchase price and redemption premium, if any, and interest on the bonds.

§ 6. A. The Board shall determine the terms and structure of each issue of bonds, provided that its determination shall be subject to approval by the Treasury Board in accordance with § 2.2-2416 of the Code of Virginia and any amendments thereto. The bonds of each issue shall:
1. Be dated;
2. Be issued in a principal amount subject to the limitations identified in § 3;
3. Bear interest at rate or rates, which may be fixed, adjustable, variable, or a combination thereof and which may be determine according to a formula or other method;
4. Mature at a time or times not exceeding 39 years from the date of issue, except as provided in subsection D; and
5. If directed by the Board, be issued under a system of book entry for recording the ownership and transfer of ownership of rights to receive payments of principal or purchase price and redemption premium, if any, and interest on such bonds.
B. The Board may determine that bonds be made subject to purchase or redemption before their maturity or maturities, at such price or prices and under such terms and conditions it deems appropriate. The Board shall:
1. Determine the form of the bonds;
2. Determine whether the bonds are certificated or uncertificated;
3. Fix the authorized denomination of the bonds, provided that interest on the bonds shall be made payable in lawful money of the United States; and
4. Fix the place or places of payment of the bonds' principal, purchase price, redemption premium, if any, and interest, provided that such place may be the office of the State Treasurer or any bank or trust company in the United States.
C. All bonds issued under the Act shall have, as between successive holders, all the qualities and incidents of negotiable instruments under the Commonwealth's negotiable instruments laws.
D. Notwithstanding the maturity limitation prescribed in subdivision A 4, if the Board enters into an agreement with the authorization of the U.S. Department of Transportation pursuant to the provisions of subdivision 18 of § 33.2-1701 of the Code of Virginia, any loan, credit facility, or other borrowing that occurs under such agreement, including any advancement under a line of credit or lending program with an individualized prepayment schedule, shall not exceed 39 years from the first scheduled payment of principal. The first scheduled payment of principal shall be not more than five years from the initial advancement of funds under such loan, credit facility, line of credit, or other borrowing.
E. The Board may sell bonds from time to time at public or private sale for such price or prices as it determines to be in the best interest of the Commonwealth. The Board may sell bonds by competitive bidding, negotiated sale, or private placement with private lenders or governmental agencies.

§ 7. A. Any bonds issued pursuant to this act shall (i) be signed on behalf of the Board by the chairman or vice-chairman of the Board or shall bear the facsimile signature of such officer and (ii) bear the official seal of the Board, which shall be attested to by the manual or facsimile signature of the secretary or assistant secretary of the Board. If a bond bears a facsimile signature pursuant to clause (i), the bonds shall be signed by a designee of the Board, who may be an administrative assistant, a registrar, or a paying agent. If an officer whose signature or facsimile signature ceases to be an officer before the delivery of a bond that he signed, his signature or facsimile signature shall be valid and sufficient for all purposes as if he had remained an officer until delivery of such bonds.
B. If a loan, line of credit, or other borrowing is not evidenced by a bond, any agreements and instruments as may be necessary to provide evidence of such loan, line of credit, or other borrowing shall be signed on behalf of the Board by the chairman or vice-chairman of the Board. Such agreements and instruments may bear the official seal of the Board. Such agreements and instruments shall be signed by the secretary or assistant secretary of the Board.

§ 8. All expenses incurred under this Act or in connection with any bond issuance shall be paid from the proceeds of such bonds or from any available funds in the Fund.

§ 9. A. The proceeds of the bonds and of any anticipation notes authorized pursuant to the Act shall be placed by the State Treasurer in a special fund in the State Treasury or placed with a trustee in accordance with the provisions of
§ 33.2-1716 of the Code of Virginia and any amendments thereto. Such proceeds shall be disbursed only for the purpose for which such bonds and anticipation notes were issued. Proceeds derived from the sale of bonds authorized by this Act shall first be used to pay anticipation notes, if any were issued in anticipation of the sale of such bonds and renewals of such bonds.

B. Subsection A shall not apply to the proceeds of bonds when the issuance of such bonds has been anticipated by anticipation notes.

C. In accordance with subsection C of § 33.2-3601 of the Code of Virginia, proceeds of bonds and the distribution and expenditure of such proceeds shall not reduce the share of federal, state, or local revenues otherwise available to jurisdictions along the Interstate 81 corridor. Such revenues shall not affect the calculation of a locality's ability to pay for public education for purposes of determining appropriations of state revenues to localities for public education.

§ 10. The Board may receive any other funds that may be made available to pay costs of projects related to the Plan and the Program and, subject to appropriation by the General Assembly, may make available such funds for the payment of the principal, purchase price, and redemption premium, if any, and interest on bonds authorized under this Act. The Board is authorized to enter into agreements with any department or agency of the Commonwealth or any other party to allow for such funds, and any other funds, to be paid into the state treasury, or to a trustee in accordance with the provisions of § 33.2-1716 of the Code of Virginia and any amendments thereto, to pay a part of the costs of such projects, to pay any costs of issuance, to fund any part of any reserve fund, or to pay the principal or purchase price of, and redemption premium, if any, and interest on the bonds.

§ 11. In connection with the issuance or planned issuance of any bonds, the Board shall establish a fund either in the state treasury with the cooperation of the State Treasurer, or with a trustee in accordance with the provisions of § 33.2-1716 of the Code of Virginia and any amendments thereto. Such fund shall secure and be used for the payments of the bonds to the credit of which there shall be deposited such amounts, subject to appropriation by the General Assembly, necessary to pay principal, purchase price of, redemption premium if any, and interest on the bonds, as and when such costs become due and payable. Such costs shall be paid from the revenues deposited into the Interstate 81 Corridor Improvement Fund pursuant to § 58.1-2299.20 of the Code of Virginia derived from the receipt of regional fuels tax levied pursuant to § 58.1-2295 of the Code of Virginia.

§ 12. In connection with the issuance or planned issuance of any bonds, the Board may pay any necessary and appropriate support costs, including debt service or deposits to reserve funds, from revenues deposited to the Interstate 81 Corridor Improvement Fund pursuant to § 58.1-2299.20 of the Code of Virginia derived from the receipt of regional fuels tax levied pursuant to § 58.1-2295 of the Code of Virginia.

§ 13. The State Treasurer shall invest bond proceeds and moneys in any reserve funds and sinking funds related to bonds in accordance with the provisions of Chapter 18 (§ 2.2-1800 et seq.) of Title 2.2 of the Code of Virginia and any applicable law governing management of funds by a trustee pursuant to § 33.2-1716 of the Code of Virginia, and any amendments thereto.

§ 14. No tax or fee shall be imposed by the Commonwealth, a locality, or any other entity of the Commonwealth on the interest income and profit made on the sale of obligations issued under the provisions of the Act.

§ 15. Any obligation issued under this Act shall be considered a security in which any person and entity identified in § 33.2-1713 of the Code of Virginia may properly and legally invest funds.

§ 16. If any provision of this Act conflicts with a provision of the Bond Act, the provision of this Act shall control.

§ 17. This Act, being necessary for the welfare of the Commonwealth and its inhabitants, shall be liberally construed to effect the purpose of this Act.

§ 18. That should any portion of this Act be held unconstitutional by a court of competent jurisdiction, the remaining portions of this Act shall remain in effect.

17. That notwithstanding the provisions of § 58.1-802.4 of the Code of Virginia, as created by this act, to the contrary, for the period of July 1, 2020, through April 30, 2021, the rate of the regional congestion relief fee, when the consideration or value of interest, whichever is greater, equals or exceeds $100, shall be $0.05 per $100 or fraction thereof, exclusive of the value of any lien or encumbrance remaining thereon at the time of sale, whether such lien is assumed or the realty is sold subject to such lien or encumbrance.

18. That the provisions of this act may result in a net increase in periods of imprisonment or commitment. Pursuant to § 30-19.1:4 of the Code of Virginia, the estimated amount of the necessary appropriation cannot be determined for periods of imprisonment in state adult correctional facilities; therefore, Chapter 854 of the Acts of Assembly of 2019 requires the Virginia Criminal Sentencing Commission to assign a minimum fiscal impact of $50,000. Pursuant to § 30-19.1:4 of the Code of Virginia, the estimated amount of the necessary appropriation is $0 for periods of commitment to the custody of the Department of Juvenile Justice.
CHAPTER 1231

An Act to amend and reenact §§ 55.1-1204 and 55.1-1250 of the Code of Virginia, relating to landlord and tenant; charge for late payment of rent; restrictions.

Approved April 22, 2020

Be it enacted by the General Assembly of Virginia:

1. That §§ 55.1-1204 and 55.1-1250 of the Code of Virginia are amended and reenacted as follows:
   § 55.1-1204. Terms and conditions of rental agreement; payment of rent; copy of rental agreement for tenant.
   A. A landlord and tenant may include in a rental agreement terms and conditions not prohibited by this chapter or other rule of law, including rent, charges for late payment of rent, the term of the agreement, automatic renewal of the rental agreement, requirements for notice of intent to vacate or terminate the rental agreement, and other provisions governing the rights and obligations of the parties.
   B. The landlord shall offer the tenant a written rental agreement containing the terms governing the rental of the dwelling unit and setting forth the terms and conditions of the landlord-tenant relationship. Such written rental agreement shall be effective upon the date signed by the parties.
   C. If a landlord does not offer a written rental agreement, the tenancy shall exist by operation of law, consisting of the following terms and conditions:
      1. The provision of this chapter shall be applicable to the dwelling unit that is being rented;
      2. The duration of the rental agreement shall be for 12 months and shall not be subject to automatic renewal, except in the event of a month-to-month lease as otherwise provided for under subsection C of § 55.1-1253;
      3. Rent shall be paid in 12 equal periodic installments in an amount agreed upon by the landlord and the tenant and if no amount is agreed upon, the installments shall be at fair market rent;
      4. Rent payments shall be due on the first day of each month during the tenancy and shall be considered late if not paid by the fifth of the month;
      5. If the rent is paid by the tenant after the fifth day of any given month, the landlord shall be entitled to charge a late charge as provided in this chapter;
      6. The landlord may collect a security deposit not to exceed an amount equal to two months of rent; and
      7. The parties may enter into a written rental agreement at any time during the 12-month tenancy created by this subsection.
   D. Except as provided in the written rental agreement, or as provided in subsection C if no written agreement is offered, rent shall be payable without demand or notice at the time and place agreed upon by the parties. Except as provided in the written rental agreement, rent is payable at the place designated by the landlord, and periodic rent is payable at the beginning of any term of one month or less and otherwise in equal installments at the beginning of each month. If the landlord receives from a tenant a written request for a written statement of charges and payments, he shall provide the tenant with a written statement showing all debits and credits over the tenancy or the past 12 months, whichever is shorter. The landlord shall provide such written statement within 10 business days of receiving the request.
   E. A landlord shall not charge a tenant for late payment of rent unless such charge is provided for in the written rental agreement. No such late charge shall exceed the lesser of 10 percent of the periodic rent or 10 percent of the remaining balance due and owed by the tenant.
   F. Except as provided in the written rental agreement or, as provided in subsection C if no written agreement is offered, the tenancy shall be week-to-week in the case of a tenant who pays weekly rent and month-to-month in all other cases. Terminations of tenancies shall be governed by § 55.1-1253 unless the rental agreement provides for a different notice period.
   G. If the rental agreement contains any provision allowing the landlord to approve or disapprove a sublessee or assignee of the tenant, the landlord shall, within 10 business days of receipt of the written application of the prospective sublessee or assignee on a form to be provided by the landlord, approve or disapprove the sublessee or assignee. Failure of the landlord to act within 10 business days is evidence of his approval.
   H. The landlord shall provide a copy of any written rental agreement signed by both the tenant and the landlord to the tenant within one month of the effective date of the written rental agreement. The failure of the landlord to deliver such a rental agreement shall not affect the validity of the agreement.
   I. No unilateral change in the terms of a rental agreement by a landlord or tenant shall be valid unless (i) notice of the change is given in accordance with the terms of the rental agreement or as otherwise required by law and (ii) both parties consent in writing to the change.
   J. The landlord shall provide the tenant with a written receipt, upon request from the tenant, whenever the tenant pays rent in the form of cash or money order.
   § 55.1-1250. Landlord's acceptance of rent with reservation.
   A. The landlord may accept full or partial payment of all rent and receive an order of possession from a court of competent jurisdiction pursuant to an unlawful detainer action filed under Article 13 (§ 8.01-124 et seq.) of Chapter 3 of Title 8.01 and proceed with eviction under § 55.1-1255, provided that the landlord has stated in a written notice to the tenant
that any and all amounts owed to the landlord by the tenant, including payment of any rent, damages, money judgment, award of attorney fees, and court costs, would be accepted with reservation and would not constitute a waiver of the landlord's right to evict the tenant from the dwelling unit. Such notice may be included in a written termination notice given by the landlord to the tenant in accordance with § 55.1-1245, and if so included, nothing herein shall be construed by a court of law or otherwise as requiring such landlord to give the tenant subsequent written notice. If the dwelling unit is a public housing unit or other housing unit subject to regulation by the U.S. Department of Housing and Urban Development, nothing in this section shall be construed to require that written notice be given to any public agency paying a portion of the rent under the rental agreement. If a landlord enters into a new written rental agreement with the tenant prior to eviction, an order of possession obtained prior to the entry of such new rental agreement is not enforceable.

B. The tenant may pay or present to the court a redemption tender for payment of all rent due and owing as of the return date, including late charges, attorney fees, and court costs, at or before the first return date on an action for unlawful detainer. For purposes of this section, "redemption tender" means a written commitment to pay all rent due and owing as of the return date, including late charges, attorney fees, and court costs, by a local government or nonprofit entity within 10 days of such return date.

C. If the tenant presents a redemption tender to the court at the return date, the court shall continue the action for unlawful detainer for 10 days following the return date for payment to the landlord of all rent due and owing as of the return date, including late charges, attorney fees, and court costs, and dismiss the action upon such payment. Should the landlord not receive full payment of all rent due and owing as of the return date, including late charges, attorney fees, and court costs, within 10 days of the return date, the court shall, without further evidence, grant to the landlord judgment for all amounts due and immediate possession of the premises.

D. In cases of unlawful detainer, a tenant may pay the landlord or the landlord's attorney or pay into court all (i) rent due and owing as of the court date as contracted for in the rental agreement, (ii) other charges and fees as contracted for in the rental agreement, (iii) late charges contracted for in the rental agreement, (iv) reasonable attorney fees as contracted for in the rental agreement or as provided by law, and (v) costs of the proceeding as provided by law, at which time the unlawful detainer proceeding shall be dismissed. If such payment has not been made as of the return date for the unlawful detainer, the tenant may pay to the landlord, the landlord's attorney, or the court all amounts claimed on the summons in unlawful detainer, including current rent, damages, late fees, costs of court, any civil recovery, attorney fees, and sheriff fees, no less than two business days before the date scheduled by the officer to whom the writ of eviction has been delivered to be executed. Any payments made by the tenant shall be by cashier's check, certified check, or money order. A tenant may invoke the rights granted in this section no more than one time during any 12-month period of continuous residency in the dwelling unit, regardless of the term of the rental agreement or any renewal term of the rental agreement.

2. That an emergency exists and this act is in force from its passage.

CHAPTER 1232

Approved April 22, 2020

Be it enacted by the General Assembly of Virginia:

1. That §§ 46.2-208 and 46.2-882 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding a section numbered 46.2-882.1 as follows:

2. Driver information, including all data that relates to driver's license status and driver activity; and
3. Vehicle information, including all descriptive vehicle data and title, registration, and vehicle activity data.

B. The Commissioner shall release such information only under the following conditions:

1. Notwithstanding other provisions of this section, medical data included in personal data shall be released only to a physician, physician assistant, or nurse practitioner as provided in § 46.2-322.
2. Insurance data may be released as specified in §§ 46.2-372, 46.2-380, and 46.2-706.
3. Notwithstanding other provisions of this section, information disclosed or furnished shall be assessed a fee as specified in § 46.2-214.

4. § 46.2-882. Determining speed with various devices; certificate as to accuracy of device; arrest without warrant.

The speed of any motor vehicle may be determined by the use of (i) a laser speed determination device, (ii) radar, (iii) a microcomputer device that is physically connected to an odometer cable and both measures and records distance traveled and elapsed time to determine the average speed of a motor vehicle, or (iv) a microcomputer device that is located aboard an airplane or helicopter and measures and records distance traveled and elapsed time to determine the average speed of a motor vehicle being operated on highways within the Interstate System of highways as defined in § 33.2-100. The speed of motor vehicles may be determined by the use of a photo speed monitoring device as authorized in §§ 46.2-882.1. The results of such determinations shall be accepted as prima facie evidence of the speed of such motor vehicle in any court or legal proceeding where the speed of the motor vehicle is at issue.

In any court or legal proceeding in which any question arises about the calibration or accuracy of any laser speed determination device, radar, or microcomputer device, or photo speed monitoring device as described in this section used to determine the speed of any motor vehicle, a certificate, or a true copy thereof, showing the calibration or accuracy of (i) the speedometer of any vehicle, (ii) any tuning fork employed in calibrating or testing the radar or other speed determination device, or (iii) any other method employed in calibrating or testing any laser speed determination device or photo speed monitoring device, and when and by whom the calibration was made, shall be admissible as evidence of the facts therein stated. No calibration or testing of such any device other than a photo speed monitoring device shall be valid for longer than six months. No calibration or testing of a photo speed monitoring device shall be valid for longer than 12 months.

The driver of any such motor vehicle may be arrested without a warrant under this section if the arresting officer is in uniform and displays his badge of authority and if the officer has observed the registration of the speed of such motor vehicle by the laser speed determination device, radar, or microcomputer device as described in this section, or has received a radio message from the officer who observed the speed of the motor vehicle registered by the laser speed determination device, radar, or microcomputer device as described in this section. However, in case of an arrest based on such a message, such radio message shall have been dispatched immediately after the speed of the motor vehicle was registered and furnished the license number or other positive identification of the vehicle and the registered speed to the arresting officer.

Neither State Police officers nor local law-enforcement officers shall use laser speed determination devices or radar, as described herein in planes or helicopters for the purpose of determining the speed of motor vehicles.

State Police officers may use laser speed determination devices, radar, and/or microcomputer devices as described in this section. All localities may use radar and laser speed determination devices to measure speed. State Police officers and local law-enforcement may use photo speed monitoring devices to measure speed as authorized in §§ 46.2-882.1. The Cities of Alexandria, Fairfax, Falls Church, Manassas, and Manassas Park and the Counties of Arlington, Fairfax, Loudoun, and Prince William and towns within such counties may use microcomputer devices as described in this section.

The Division of Purchases and Supply, pursuant to § 2.2-1112, shall determine the proper equipment used to determine the speed of motor vehicles and shall advise the respective law-enforcement officials of the same. Police chiefs and sheriffs
shall ensure that all such equipment and devices purchased on or after July 1, 1986, meet or exceed the standards established by the Division.

§ 46.2-882.1. Use of photo speed monitoring devices in highway work zones and school crossing zones; civil penalty. A. For the purposes of this section:

"Highway work zone" has the same meaning ascribed to it in § 46.2-878.1.

"Photo speed monitoring device" means equipment that uses radar or LIDAR-based speed detection and produces one or more photographs, microphotographs, videotapes, or other recorded images of vehicles.

"School crossing zone" has the same meaning ascribed to it in § 46.2-873.

B. A state or local law-enforcement agency may place and operate a photo speed monitoring device in school crossing zones for the purposes of recording violations of § 46.2-873 and in highway work zones for the purposes of recording violations of § 46.2-878.1.

1. The operator of a vehicle shall be liable for a monetary civil penalty imposed pursuant to this section if such vehicle is found, as evidenced by information obtained from a photo speed monitoring device, to be traveling at speeds of at least 10 miles per hour above the posted school crossing zone or highway work zone speed limit within such school crossing zone or highway work zone. Such civil penalty shall not exceed $100, and any prosecution shall be instituted and conducted in the same manner as prosecution for traffic infractions. Civil penalties collected under this section resulting from a summons issued by a law-enforcement officer shall be paid to the locality in which such violation occurred. Civil penalties collected under this section resulting from a summons issued by a law-enforcement officer employed by the Department of State Police shall be paid into the Literary Fund.

2. If a photo speed monitoring device is used, proof of a violation of § 46.2-873 or 46.2-878.1 shall be evidenced by information obtained from such device. A certificate, or a facsimile thereof, sworn to or affirmed by a law-enforcement officer, based upon inspection of photographs, microphotographs, videotapes, or other recorded images produced by a photo speed monitoring device, shall be prima facie evidence of the facts contained therein. Any photographs, microphotographs, videotapes, or other recorded images evidencing such a violation shall be available for inspection in any proceeding to adjudicate the liability for such violation of § 46.2-873 or 46.2-878.1.

3. In the prosecution for a violation of § 46.2-873 or 46.2-878.1 in which a summons was issued by mail, prima facie evidence that the vehicle described in the summons issued pursuant to this section was operated in violation of § 46.2-873 or 46.2-878.1, together with proof that the defendant was at the time of such violation the owner, lessee, or renter of the vehicle, shall constitute in evidence a rebuttable presumption that such owner, lessee, or renter of the vehicle was the person who committed the violation. Such presumption shall be rebutted if the owner, lessee, or renter of the vehicle (i) files an affidavit by regular mail with the clerk of the general district court that he was not the operator of the vehicle at the time of the alleged violation and provides the name and address of the person who was operating the vehicle at the time of the alleged violation or (ii) testifies in open court under oath that he was not the operator of the vehicle at the time of the alleged violation and provides the name and address of the person who was operating the vehicle at the time of the alleged violation. Such presumption shall also be rebutted if a certified copy of a police report, showing that the vehicle had been reported to the police as stolen prior to the time of the alleged violation of § 46.2-873 or 46.2-878.1, is presented, prior to the return date established on the summons issued pursuant to this section, to the court adjudicating the alleged violation.

4. Imposition of a penalty pursuant to this section by mailing a summons shall not be deemed a conviction as an operator and shall not be made part of the operating record of the person upon whom such liability is imposed, nor shall it be used for insurance purposes in the provision of motor vehicle insurance coverage. However, if a law-enforcement officer uses a photo speed monitoring device to record a violation of § 46.2-873 or 46.2-878.1 and personally issues a summons at the time of the violation, the conviction that results shall be made a part of such driver’s driving record and used for insurance purposes in the provision of motor vehicle insurance coverage.

5. A summons for a violation of § 46.2-873 or 46.2-878.1 issued by mail pursuant to this section may be executed pursuant to § 19.2-76.2. Notwithstanding the provisions of § 19.2-76, a summons issued by mail pursuant to this section may be executed by mailing by first-class mail a copy thereof to the owner, lessee, or renter of the vehicle. In the case of a vehicle owner, the copy shall be mailed to the address contained in the records of or accessible to the Department. In the case of a vehicle lessee or renter, the copy shall be mailed to the address contained in the records of the lessor or renter. Every such mailing shall include, in addition to the summons, a notice of (i) the summons person’s ability to rebut the presumption that he was the operator of the vehicle at the time of the alleged violation through the filing of an affidavit as provided in subdivision 3 and (ii) instructions for filing such affidavit, including the address to which the affidavit is to be sent. If the summoned person fails to appear on the date of return set out in the summons mailed pursuant to this section, the summons shall be executed in the manner set out in § 19.2-76.3. No proceedings for contempt or arrest of a person summoned by mailing shall be instituted for failure to appear on the return date of the summons. If the summons is issued to an owner, lessee, or renter of a vehicle with a registration outside the Commonwealth and such person fails to appear on the date of return set out in the summons mailed pursuant to this section, the summons will be eligible for all legal collections activities. Any summons executed for a violation of § 46.2-873 or 46.2-878.1 issued pursuant to this section shall provide to the person summoned at least 30 days from the mailing of the summons to inspect information collected by a photo speed monitoring device in connection with the violation. If the law-enforcement agency that was operating the photo speed monitoring device does not execute a summons for a violation of § 46.2-873 or 46.2-878.1 issued pursuant to this section
that §§ 37.2-808 and 37.2-1104 of the Code of Virginia are amended and reenacted as follows:

An Act to amend and reenact §§ 37.2-808 and 37.2-1104 of the Code of Virginia, relating to temporary detention for such information and report it to the General Assembly by February 15 of each year.

or 46.2-878.1. Notwithstanding any other provision of law, all photographs, microphotographs, videotapes, or other recorded images collected by a photo speed monitoring device shall be used exclusively for enforcing school crossing zone and highway work zone speed limits and shall not be (i) open to the public; (ii) sold or used for sales, solicitation, or marketing purposes; (iii) disclosed to any other entity except as may be necessary for the enforcement of school crossing zone and highway work zone speed limits or to a vehicle owner or operator as part of a challenge to the violation; or (iv) used in a court in a pending action or proceeding unless the action or proceeding relates to a violation of this section or § 46.2-873 or 46.2-878.1, or such information is requested upon order from a court of competent jurisdiction. Information collected under this section pertaining to a specific violation shall be purged and not retained later than 60 days after the collection of any civil penalties. Any law-enforcement agency using photo speed monitoring devices shall annually certify compliance with this section and make all records pertaining to such system available for inspection and audit by the Commissioner of Highways or the Commissioner of the Department of Motor Vehicles or his designee. Any person who discloses personal information in violation of the provisions of this subdivision shall be subject to a civil penalty of $1,000 per disclosure.

Any emergency custody order entered pursuant to this section shall provide for the disclosure of medical records pursuant to § 46.2-804.2. This subsection shall not preclude any other disclosures as required or permitted by law.

When considering whether there is probable cause to issue an emergency custody order, the magistrate may, in addition to the petition, consider (1) the recommendations of any treating or examining physician or psychologist licensed in Virginia, if available, (2) any past actions of the person, (3) any past mental health treatment of the person, (4) any relevant hearsay evidence, (5) any medical records available, (6) any affidavits submitted, if the witness is unavailable and it so states in the affidavit, and (7) any other information available that the magistrate considers relevant to the determination of whether probable cause exists to issue an emergency custody order.
B. Any person for whom an emergency custody order is issued shall be taken into custody and transported to a convenient location to be evaluated to determine whether the person meets the criteria for temporary detention pursuant to § 37.2-809 and to assess the need for hospitalization or treatment. The evaluation shall be made by a person designated by the community services board who is skilled in the diagnosis and treatment of mental illness and who has completed a certification program approved by the Department.

C. The magistrate issuing an emergency custody order shall specify the primary law-enforcement agency and jurisdiction to execute the emergency custody order and provide transportation. However, the magistrate shall consider any request to authorize transportation by an alternative transportation provider in accordance with this section, whenever an alternative transportation provider is identified to the magistrate, which may be a person, facility, or agency, including a family member or friend of the person who is the subject of the order, a representative of the community services board, or other transportation provider with personnel trained to provide transportation in a safe manner, upon determining, following consideration of information provided by the petitioner; the community services board or its designee; the local law-enforcement agency, if any; the person's treating physician, if any; or other persons who are available and have knowledge of the person, and, when the magistrate deems appropriate, the proposed alternative transportation provider, either in person or via two-way electronic video and audio or telephone communication system, that the proposed alternative transportation provider is available to provide transportation, willing to provide transportation, and able to provide transportation in a safe manner. When transportation is ordered to be provided by an alternative transportation provider, the magistrate shall order the specified primary law-enforcement agency to execute the order, to take the person into custody, and to transfer custody of the person to the alternative transportation provider identified in the order. In such cases, a copy of the emergency custody order shall accompany the person being transported pursuant to this section at all times and shall be delivered by the alternative transportation provider to the community services board or its designee responsible for conducting the evaluation. The community services board or its designee conducting the evaluation shall return a copy of the emergency custody order to the court designated by the magistrate as soon as is practicable. Delivery of an order to a law-enforcement officer or alternative transportation provider and return of an order to the court may be accomplished electronically or by facsimile.

Transportation under this section shall include transportation to a medical facility as may be necessary to obtain emergency medical evaluation or treatment that shall be conducted immediately in accordance with state and federal law. Transportation under this section shall include transportation to a medical facility for a medical evaluation if a physician at the hospital in which the person subject to the emergency custody order may be detained requires a medical evaluation prior to admission.

D. In specifying the primary law-enforcement agency and jurisdiction for purposes of this section, the magistrate shall order the primary law-enforcement agency from the jurisdiction served by the community services board that designated the person to perform the evaluation required in subsection B to execute the order and, in cases in which transportation is ordered to be provided by the primary law-enforcement agency, provide transportation. If the community services board serves more than one jurisdiction, the magistrate shall designate the primary law-enforcement agency from the particular jurisdiction within the community services board's service area where the person who is the subject of the emergency custody order was taken into custody or, if the person has not yet been taken into custody, the primary law-enforcement agency from the jurisdiction where the person is presently located to execute the order and provide transportation.

E. The law-enforcement agency or alternative transportation provider providing transportation pursuant to this section may transfer custody of the person to the facility or location to which the person is transported for the evaluation required in subsection B, G, or H if the facility or location (i) is licensed to provide the level of security necessary to protect both the person and others from harm, (ii) is actually capable of providing the level of security necessary to protect the person and others from harm, and (iii) in cases in which transportation is provided by a law-enforcement agency, has entered into an agreement or memorandum of understanding with the law-enforcement agency setting forth the terms and conditions under which it will accept a transfer of custody, provided, however, that the facility or location may not require the law-enforcement agency to pay any fees or costs for the transfer of custody.

F. A law-enforcement officer may lawfully go or be sent beyond the territorial limits of the county, city, or town in which he serves to any point in the Commonwealth for the purpose of executing an emergency custody order pursuant to this section.

G. A law-enforcement officer who, based upon his observation or the reliable reports of others, has probable cause to believe that a person meets the criteria for emergency custody as stated in this section may take that person into custody and transport that person to an appropriate location to assess the need for hospitalization or treatment without prior authorization. A law-enforcement officer who takes a person into custody pursuant to this subsection or subsection H may lawfully go or be sent beyond the territorial limits of the county, city, or town in which he serves to any point in the Commonwealth for the purpose of obtaining the assessment. Such evaluation shall be conducted immediately. The period of custody shall not exceed eight hours from the time the law-enforcement officer takes the person into custody.

H. probable cause exists to believe that the person meets the criteria for emergency custody as stated in this section. The period of custody shall not exceed eight hours from the time the law-enforcement officer takes the person into custody.

I. Nothing herein shall preclude a law-enforcement officer or alternative transportation provider from obtaining emergency medical treatment or further medical evaluation at any time for a person in his custody as provided in this section.

J. A representative of the primary law-enforcement agency specified to execute an emergency custody order or a representative of the law-enforcement agency employing a law-enforcement officer who takes a person into custody pursuant to subsection G or H shall notify the community services board responsible for conducting the evaluation required in subsection B, G, or H as soon as practicable after execution of the emergency custody order or after the person has been taken into custody pursuant to subsection G or H.

K. The person shall remain in custody until (i) a temporary detention order is issued in accordance with § 37.2-809, (ii) an order for temporary detention for observation, testing, or treatment is entered in accordance with § 37.2-1104, ending law enforcement custody, (iii) the person is released, or (iv) the emergency custody order expires. An emergency custody order shall be valid for a period not to exceed eight hours from the time of execution.

L. Nothing in this section shall preclude the issuance of an order for temporary detention for testing, observation, or treatment pursuant to § 37.2-1104 for a person who is also the subject of an emergency custody order issued pursuant to this section. In any case in which an order for temporary detention for testing, observation, or treatment is issued for a person who is also the subject of an emergency custody order, the person may be detained by a hospital emergency room or other appropriate facility for testing, observation, and treatment for a period not to exceed 24 hours, unless extended by the court as part of an order pursuant to § 37.2-1101, in accordance with subsection A C of § 37.2-1104. Upon completion of testing, observation, or treatment pursuant to § 37.2-1104, the hospital emergency room or other appropriate facility in which the person is detained shall notify the nearest community services board, and the designee of the community services board shall, as soon as is practicable and prior to the expiration of the order for temporary detention issued pursuant to § 37.2-1104, conduct an evaluation of the person to determine if he meets the criteria for temporary detention pursuant to § 37.2-809.

M. Any person taken into emergency custody pursuant to this section shall be given a written summary of the emergency custody procedures and the statutory protections associated with those procedures.

N. If an emergency custody order is not executed within eight hours of its issuance, the order shall be void and shall be returned unexecuted to the office of the clerk of the issuing court or, if such office is not open, to any magistrate serving the jurisdiction of the issuing court.

O. In addition to the eight-hour period of emergency custody set forth in subsection G, H, or K, if the individual is detained in a state facility pursuant to subsection E of § 37.2-809, the state facility and an employee or designee of the community services board as defined in § 37.2-809 may, for an additional four hours, continue to attempt to identify an alternative facility that is able and willing to provide temporary detention and appropriate care to the individual.

P. Payments shall be made pursuant to § 37.2-804 to licensed healthcare providers for medical screening and assessment services provided to persons with mental illnesses while in emergency custody.

Q. No person who provides alternative transportation pursuant to this section shall be liable to the person being transported for any civil damages for ordinary negligence in acts or omissions that result from providing such alternative transportation.

§ 37.2-1104. Temporary detention in hospital for testing, observation, or treatment.

If, before issuance of an order under this subsection or during its period of effectiveness, the physician learns of an objection by a member of the person's immediate family to the
testing, observation, or treatment, he shall so notify the court or magistrate, who shall consider the objection in determining whether to issue, modify, or terminate the order.

B. A court or, if the court is unavailable, a magistrate serving the jurisdiction may issue an order authorizing temporary detention for testing, observation, or treatment for a person who is also the subject of an emergency custody order issued pursuant to § 37.2-808, if such person meets the criteria set forth in subsection A. Decisions of the Authority shall require an affirmative vote of those present and voting whose votes represent at least four-fifths of the population embraced by the Authority; however, no motion to fund a specific facility or service shall fail because of this population criterion if such facility or service is not located or to be located or provided or to be provided within the county or city whose chief elected officer's or elected official's, or its respective designee's, sole negative vote caused the facility or service to fail to meet the population criterion. The population of counties and cities embraced by the Authority shall be the population as determined by the most recently preceding decennial census, except that on July 1 of the fifth year following such census, the population of each county and city shall be adjusted, based on population estimates made by the Weldon Cooper Center for Public Service of the University of Virginia.

§ 33.2-3706. Annual budget and allocation of expenses.
A. The Authority shall adopt an annual budget and develop a funding plan to be supported by the revenues allocated under subdivision D 1 of § 33.2-3701 and shall provide for such development and adoption in its bylaws. 3. To procure insurance, participate in insurance plans, and provide self-insurance; however, the purchase of insurance, participation in an insurance plan, or the creation of a self-insurance plan by the Authority shall not be deemed a waiver or relinquishment of any sovereign immunity to which the Authority or its officers, directors, employees, or agents are otherwise entitled;
4. To establish bylaws and make all rules and regulations, not inconsistent with the provisions of this chapter, deemed expedient for the management of the Authority's affairs;
5. To apply for and accept money, materials, contributions, grants, or other financial assistance from the United States and agencies or instrumentalities thereof, the Commonwealth and any political subdivision, agency, or instrumentality of the Commonwealth, and any legitimate private source;

7. To acquire by purchase, lease, contract, or otherwise, highways, bridges, or tunnels and to construct the same by purchase, lease, contract, or otherwise;
8. In consultation with the Commonwealth Transportation Board for projects that encompass a state highway, and with each city or county in which the facility or any part thereof is or is to be located, to repair, expand, enlarge, construct,

Starting in fiscal year 2023, the amount required to be provided by a locality pursuant to this section shall be adjusted annually based on the greater of (i) the change in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics for the U.S. Department of Labor for the previous year, or (ii) zero.
§ 33.2-3713. Use of revenues by the Authority.
Notwithstanding any contrary provision of this chapter; all moneys received by the Authority shall be used by the Authority solely for the benefit of those counties, cities, and towns that are embraced by the Authority, and such moneys shall be used by the Authority in a manner that is consistent with the purposes stated in this chapter.

1. The sales and use tax revenue generated by the one-half percent sales and use tax increase enacted by the 1986 Special Session of the General Assembly shall be paid, in the manner hereinafter provided in this section, to the Transportation Trust Fund as defined in § 33.2-1524. The Fund’s share of such net revenue shall be computed as an estimate of the net revenue to be received into the state treasury each month, and such estimated payment shall be adjusted for the actual net revenue received in the preceding month. All payments shall be made to the Fund on the last day of each month.

2. There is hereby created in the Department of the Treasury a special nonreverting fund which shall be a part of the Transportation Trust Fund and which shall be known as the Commonwealth Port Fund.

a. The Commonwealth Port Fund shall be established on the books of the Comptroller and the funds remaining in such Fund at the end of a biennium shall not revert to the general fund but shall remain in the Fund. Interest earned on such funds
shall remain in the Fund and be credited to it. Funds may be paid to any authority, locality or commission for the purposes hereinafter specified.

b. The amounts allocated pursuant to this section shall be allocated by the Commonwealth Transportation Board to the Board of Commissioners of the Virginia Port Authority to be used to support port capital needs and the preservation of existing capital needs of all ocean, river, or tributary ports within the Commonwealth. Expenditures for such capital needs are restricted to those capital projects specified in subsection B of § 62.1-132.1.

c. Commonwealth Port Fund revenue shall be allocated by the Board of Commissioners to the Virginia Port Authority in order to foster and stimulate the flow of maritime commerce through the ports of Virginia, including but not limited to the ports of Richmond, Hopewell, and Alexandria.

There is hereby created in the Department of the Treasury a special nonreverting fund which shall be part of the Transportation Trust Fund and which shall be known as the Commonwealth Airport Fund. The Commonwealth Airport Fund shall be established on the books of the Comptroller and any funds remaining in such Fund at the end of a biennium shall not revert to the general fund but shall remain in the Fund. Interest earned on the funds shall be credited to the Fund. The funds so allocated shall be allocated by the Commonwealth Transportation Board to the Virginia Aviation Board. The funds shall be allocated by the Virginia Aviation Board to any Virginia airport which is owned by the Commonwealth, a governmental subdivision thereof, or a private entity to which the public has access for the purposes enumerated in § 5.1-2.16, or is owned or leased by the Metropolitan Washington Airports Authority (MWAA), as follows:

Any new funds in excess of $12.1 million which are available for allocation by the Virginia Aviation Board from the Commonwealth Transportation Fund, shall be allocated as follows: 60 percent to MWAA, up to a maximum annual amount of $2 million, and 40 percent to air carrier airports as provided in subdivision A 3 a. Except for adjustments due to changes in enplaned passengers, no air carrier airport sponsor, excluding MWAA, shall receive less funds identified under subdivision A 3 a than it received in fiscal year 1994-1995.

Of the remaining amount:

a. Forty percent of the funds shall be allocated to air carrier airports, except airports owned or leased by MWAA, based upon the percentage of enplanements for each airport to total enplanements at all air carrier airports, except airports owned or leased by MWAA. No air carrier airport sponsor, however, shall receive less than $50,000 nor more than $2 million per year from this provision.

b. Sixty percent of the funds shall be allocated as follows:

(1) For the first six months of each fiscal year, the funds shall be allocated as follows:

(a) Forty percent of the funds shall be allocated by the Aviation Board for air carrier and reliever airports on a discretionary basis, except airports owned or leased by MWAA; and

(b) Twenty percent of the funds shall be allocated by the Aviation Board for general aviation airports on a discretionary basis; and

(2) For the second six months of each fiscal year, all remaining funds shall be allocated by the Aviation Board for all eligible airports on a discretionary basis, except airports owned or leased by MWAA.

3a. There is hereby created in the Department of the Treasury a special nonreverting fund that shall be a part of the Commonwealth Space Flight Fund and that shall be known as the Commonwealth Space Flight Fund. The Commonwealth Space Flight Fund shall be established on the books of the Comptroller and the funds remaining in such Fund at the end of a biennium shall not revert to the general fund but shall remain in the Fund. b. Commonwealth Space Flight Fund revenue shall be allocated by the Board of Directors to the Virginia Commercial Space Flight Authority in order to foster and stimulate the growth of the commercial space flight industry in Virginia.

4. There is hereby created in the Department of the Treasury a special nonreverting fund which shall be a part of the Transportation Trust Fund and which shall be known as the Commonwealth Mass Transit Fund.

a. The Commonwealth Mass Transit Fund shall be established on the books of the Comptroller and any funds remaining in such Fund at the end of the biennium shall not revert to the general fund but shall remain in the Fund. Interest earned on such funds shall be credited to the Fund.

b. The amounts allocated pursuant to § 33.2-1526.1 shall be used to support the operating, capital, and administrative costs of public transportation at a state share determined by the Commonwealth Transportation Board, and these amounts may be used to support the capital project costs of public transportation and ridesharing equipment, facilities, and associated costs at a state share determined by the Commonwealth Transportation Board. Capital costs may include debt service payments on local or agency transit bonds.

c. There is hereby created in the Department of the Treasury a special nonreverting fund known as the Commonwealth Transit Capital Fund. The Commonwealth Transit Capital Fund shall be part of the Commonwealth Mass Transit Fund. The Commonwealth Transit Capital Fund subaccount shall be established on the books of the Comptroller and consist of such moneys as are appropriated to it by the General Assembly and of all donations, gifts, bequests, grants, endowments, and other moneys given, bequeathed, granted, or otherwise made available to the Commonwealth Transit Capital Fund. Any
funds remaining in the Commonwealth Transit Capital Fund at the end of the biennium shall not revert to the general fund, but shall remain in the Commonwealth Transit Capital Fund. Interest earned on funds within the Commonwealth Transit Capital Fund shall remain in and be credited to the Commonwealth Transit Capital Fund. Proceeds of the Commonwealth Transit Capital Fund may be paid to any political subdivision, another public entity created by an act of the General Assembly, or a private entity as defined in § 33.2-1800 and for purposes as enumerated in subdivision 7 of § 33.2-1701 or expended by the Department of Rail and Public Transportation for the purposes specified in this subdivision. Revenues of the Commonwealth Transit Capital Fund shall be used to support capital expenditures involving the establishment, improvement, or expansion of public transportation services through specific projects approved by the Commonwealth Transportation Board. The Commonwealth Transit Capital Fund shall not be allocated without requiring a local match from the recipient.

B. The sales and use tax revenue generated by a one percent sales and use tax shall be distributed among the counties and cities of the Commonwealth in the manner provided in subsections C and D.

C. The localities' share of the net revenue distributable under this section among the counties and cities shall be apportioned by the Comptroller and distributed among them by warrants of the Comptroller drawn on the Treasurer of Virginia as soon as practicable after the close of each month during which the net revenue was received into the state treasury. The distribution of the localities' share of such net revenue shall be computed with respect to the net revenue received into the state treasury during each month, and such distribution shall be made as soon as practicable after the close of each such month.

D. The net revenue so distributable among the counties and cities shall be apportioned and distributed upon the basis of the latest yearly estimate of the population of cities and counties ages five to 19, provided by the Weldon Cooper Center for Public Service of the University of Virginia. Such population estimate produced by the Weldon Cooper Center for Public Service of the University of Virginia shall account for persons who are domiciled in orphanages or charitable institutions or who are dependents living on any federal military or naval reservation or other federal property within the school division in which the institutions or federal military or naval reservation or other federal property is located. Such population estimate produced by the Weldon Cooper Center for Public Service of the University of Virginia shall account for members of the military services who are under 20 years of age within the school division in which the parents or guardians of such persons legally reside. Such population estimate produced by the Weldon Cooper Center for Public Service of the University of Virginia shall account for individuals receiving services in state hospitals, state training centers, or mental health facilities, persons who are confined in state or federal correctional institutions, or persons who attend the Virginia School for the Deaf and the Blind within the school division in which the parents or guardians of such persons legally reside. Such population estimate produced by the Weldon Cooper Center for Public Service of the University of Virginia shall account for persons who attend institutions of higher education within the school division in which the student's parents or guardians legally reside. To such estimate, the Department of Education shall add the population of students with disabilities, ages two through four and 20 through 21, as provided to the Department of Education by school divisions. The revenue so apportionable and distributable is hereby appropriated to the several counties and cities for maintenance, operation, capital outlays, debt and interest payments, or other expenses incurred in the operation of the public schools, which shall be considered as funds raised from local resources. In any county, however, wherein is situated any incorporated town constituting a school division, the county treasurer shall pay into the town treasury for maintenance, operation, capital outlays, debt and interest payments, or other expenses incurred in the operation of the public schools, the proper proportionate amount received by him in the ratio that the school population of such town bears to the school population of the entire county. If the school population of any city or of any town constituting a school division is increased by the annexation of territory since the last estimate of school population provided by the Weldon Cooper Center for Public Service, such increase shall, for the purposes of this section, be added to the school population of such city or town as shown by the last such estimate and a proper reduction made in the school population of the county or counties from which the annexed territory was acquired.

E. Beginning July 1, 2000, of the remaining sales and use tax revenue, the revenue generated by a two percent sales and use tax, up to an annual amount of $13 million, collected from the sales of hunting equipment, auxiliary hunting equipment, fishing equipment, auxiliary fishing equipment, wildlife-watching equipment, and auxiliary wildlife-watching equipment in Virginia, as estimated by the most recent U.S. Department of the Interior, Fish and Wildlife Service and U.S. Department of Commerce, Bureau of the Census National Survey of Fishing, Hunting, and Wildlife-Associated Recreation, shall be paid into the Game Protection Fund established under § 29.1-101 and shall be used, in part, to defray the cost of law enforcement. Not later than 30 days after the close of each quarter, the Comptroller shall transfer to the Game Protection Fund the appropriate amount of collections to be dedicated to such Fund. At any time that the balance in the Capital Improvement Fund, established under § 29.1-101.01, is equal to or in excess of $35 million, any portion of sales and use tax revenues that would have been transferred to the Game Protection Fund, established under § 29.1-101, in excess of the net operating expenses of the Board, after deduction of other amounts which accrue to the Board and are set aside for the Game Protection Fund, shall remain in the general fund until such time as the balance in the Capital Improvement Fund is less than $35 million.

F. 1. Of the net revenue generated from the one-half percent increase in the rate of the state sales and use tax effective August 1, 2004, pursuant to enactments of the 2004 Special Session I of the General Assembly, the Comptroller shall transfer from the general fund of the state treasury to the Public Education Standards of Quality/Local Real Estate Property
Tax Relief Fund established under § 58.1-638.1 an amount equivalent to one-half of the net revenue generated from such one-half percent increase as provided in this subdivision. The transfers to the Public Education Standards of Quality/Local Real Estate Property Tax Relief Fund under this subdivision shall be for one-half of the net revenue generated (and collected in the succeeding month) from such one-half percent increase for the month of August 2004 and for each month thereafter.

2. Beginning July 1, 2013, of the remaining sales and use tax revenue, an amount equal to the revenue generated by a 0.125 percent sales and use tax shall be distributed to the Public Education Standards of Quality/Local Real Estate Property Tax Relief Fund established under § 58.1-638.1, and be used for the state's share of Standards of Quality basic aid payments.

3. For the purposes of the Comptroller making the required transfers under subdivision 1 and 2, the Tax Commissioner shall make a written certification to the Comptroller no later than the twenty-fifth of each month certifying the sales and use tax revenues generated in the preceding month. Within three calendar days of receiving such certification, the Comptroller shall make the required transfers to the Public Education Standards of Quality/Local Real Estate Property Tax Relief Fund.

G. (Contingent expiration date) Beginning July 1, 2013, of the remaining sales and use tax revenue, an amount equal to the following percentages of the revenue generated by a one-half percent sales and use tax, such as that paid to the Transportation Trust Fund as provided in subdivision A 1, shall be paid to the Highway Maintenance and Operating Fund established pursuant to § 33.2-1530:

1. For fiscal year 2014, an amount equal to 10 percent;

3. For fiscal year 2016, an amount equal to 30 percent; and
4. For fiscal year 2017 and thereafter, an amount equal to 35 percent.

The Highway Maintenance and Operating Fund's share of the net revenue distributable under this subsection shall be computed as an estimate of the net revenue to be received into the state treasury each month, and such estimated payment shall be adjusted for the actual net revenue received in the preceding month. All payments shall be made to the Fund on the last day of each month.

§ 58.1-2295. (Contingent expiration date) Levy; payment of tax.

A. 1. In addition to all other taxes now imposed by law, there is hereby imposed a tax upon every distributor who engages in the business of selling fuels at wholesale to retail dealers for retail sale in any county or city that is a member of (i) any transportation district in which a rapid heavy rail commuter mass transportation system operating on an exclusive right-of-way and a bus commuter mass transportation system are owned, operated, or controlled by an agency or commission as defined in § 33.2-1901 or (ii) any transportation district that is subject to subsection C of § 33.2-1915 and that is contiguous to the Northern Virginia Transportation District.

In any case in which the tax is imposed pursuant to clause (ii), such tax shall be effective beginning on the July 1 immediately following the calendar year in which all of the criteria have been met.

3. In addition to all other taxes now imposed by law, there is hereby imposed a tax upon every distributor who engages in the business of selling fuels at wholesale to retail dealers for retail sale in any county or city located in Planning District 15, as established pursuant to Chapter 42 (§ 15.2-4200) of Title 15.2, in which a tax is not otherwise imposed pursuant to this section.

Beginning July 1, 2021, the tax rate shall be adjusted annually based on the greater of (i) the change in the United States Average Consumer Price Index for all items, all urban consumers (CPI-U), as published by the Bureau of Labor Statistics for the U.S. Department of Labor for the previous year, or (ii) zero. For alternative fuels other than liquid alternative fuels, the Commissioner shall determine an equivalent tax rate based on gasoline gallon equivalency.

2. The tax shall be imposed on each gallon of diesel fuel sold by a distributor to a retail dealer for retail sale in any such county or city at a rate of 2.1 percent of the statewide average distributor price of a gallon of diesel fuel as determined by the Commissioner pursuant to subdivision C 2 7.7 cents per gallon on diesel fuel. The Commissioner shall use the period from December 1 to May 31, inclusive, as the base period for the determination of the rate of the tax for the immediately following applied period beginning July 1 and ending December 31, inclusive. In no case shall the statewide average distributor price of a gallon of unleaded regular gasoline determined for the purposes of this section be less than the statewide average wholesale price of a gallon of unleaded regular gasoline on February 20, 2013, plus a distributor charge calculated by the Commissioner for that date.

D. The tax levied under this section shall be imposed at the time of sale by the distributor to the retail dealer.

E. D. The tax imposed by this section shall be paid by the distributor, but the distributor shall separately state the amount of the tax and add such tax to the price or charge. Thereafter, such tax shall be a debt from the retail dealer to the distributor until paid and shall be recoverable at law in the same manner as other debts. No action at law or suit in equity under this chapter shall be maintained in the Commonwealth by any distributor who is not registered under § 58.1-2299.2 or is delinquent in the payment of taxes imposed under this chapter.

B. On and after January 1, 2013, no tow truck driver shall drive any tow truck without being registered with the Department, except that this requirement shall not apply to any holder of a tow truck driver authorization document issued pursuant to former § 46.2-2814 until the expiration date of such document. E. Registrations issued by the Department pursuant to this section shall be valid for a period not to exceed 24 months, unless revoked or suspended by the Department in accordance with § 46.2-117.

CHAPTER 1238

An Act to amend the Code of Virginia by adding a section numbered 56-594.3, relating to electric utility regulation; shared solar programs.

Approved April 22, 2020

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding a section numbered 56-594.3 as follows:

§ 56-594.3. Shared solar programs.

A. As used in this section:

"Applicable bill credit rate" means the dollar-per-kilowatt-hour rate used to calculate the subscriber's bill credit.

"Bill credit" means the monetary value of the electricity, in kilowatt-hours, generated by the shared solar facility allocated to a subscriber to offset that subscriber's electricity bill.

"Low-income customer" means any person or household whose income is no more than 80 percent of the median income of the locality in which the customer resides. The median income of the locality is determined by the U.S. Department of Housing and Urban Development.

"Low-income service organization" means a nonresidential customer of an investor-owned utility whose primary purpose is to serve low-income individuals and households.

"Low-income shared solar facility" means a shared solar facility at least 30 percent of the capacity of which is subscribed by low-income customers or low-income service organizations.
"Minimum bill" means an amount determined by the Commission under subsection D that subscribers are required to, at a minimum, pay on their utility bill each month after accounting for any bill credits.

"Phase II Utility" has the same meaning as provided in subdivision A 1 of § 56-585.1.

"Shared solar facility" means a facility that:
1. Generates electricity by means of a solar photovoltaic device with a nameplate capacity rating that does not exceed 5,000 kilowatts of alternating current;
2. Is located in the service territory of an investor-owned electric utility;
3. Is connected to the electric distribution grid serving the Commonwealth;
4. Has at least three subscribers;
5. Has at least 40 percent of its capacity subscribed by customers with subscriptions of 25 kilowatts or less; and
6. Is located on a single parcel of land.

"Shared solar program" or "program" means the program created through the adoption of rules to allow for the development of shared solar facilities.

"Subscriber" means a retail customer of a utility that (i) owns one or more subscriptions of a shared solar facility that is interconnected with the utility and (ii) receives service in the service territory of the same utility in whose service territory the shared solar facility is located.

"Subscriber organization" means any for-profit or nonprofit entity that owns or operates one or more shared solar facilities. A subscriber organization shall not be considered a utility solely as a result of its ownership or operation of a shared solar facility.

"Subscription" means a contract or other agreement between a subscriber and the owner of a shared solar facility. A subscription shall be sized such that the estimated bill credits do not exceed the subscriber's average annual bill for the customer account to which the subscription is attributed.

"Utility" means a Phase II Utility.

B. The Commission shall establish by regulation a program that affords customers of a Phase II Utility the opportunity to participate in shared solar projects. Under its shared solar program, a utility shall provide a bill credit for the proportional output of a shared solar facility attributable to that subscriber. The shared solar program shall be administered as follows:

1. The value of the bill credit for the subscriber shall be calculated by multiplying the subscriber's portion of the kilowatt-hour electricity production from the shared solar facility by the applicable bill credit rate for the subscriber. Any amount of the bill credit that exceeds the subscriber's monthly bill, minus the minimum bill, shall be carried over and applied to the next month's bill.

2. The utility shall provide bill credits to a shared solar facility's subscribers for not less than 25 years from the date the shared solar facility becomes commercially operational.

3. The subscriber organization shall, on a monthly basis, in a standardized electronic format, and pursuant to guidelines established by the Commission, provide to the utility a subscriber list indicating the kilowatt-hours of generation attributable to each of the subscribers participating in a shared solar facility in accordance with the subscriber's portion of the output of the shared solar facility.

4. Subscriber lists may be updated monthly to reflect canceling subscribers and to add new subscribers. The utility shall apply bill credits to subscriber bills within two billing cycles following the cycle during which the energy was generated by the shared solar facility.

5. Each utility shall, on a monthly basis and in a standardized electronic format, provide to the subscriber organization a report indicating the total value of bill credits generated by the shared solar facility in the prior month, as well as the amount of the bill credit applied to each subscriber.

6. A subscriber organization may accumulate bill credits in the event that all of the electricity generated by a shared solar facility is not allocated to subscribers in a given month. On an annual basis and pursuant to guidelines established by the Commission, the subscriber organization shall furnish to the utility allocation instructions for distributing excess bill credits to subscribers.

7. All environmental attributes associated with a shared solar facility, including renewable energy certificates, shall be considered property of the subscriber organization. At the subscriber organization’s discretion, such environmental attributes may be distributed to the subscribers, sold to load-serving entities with compliance obligations or other buyers, accumulated, or retired.

C. Each subscriber shall pay a minimum bill, established pursuant to subsection D, and shall receive an applicable bill credit based on the subscriber's customer class of residential, commercial, or industrial. Each class’s applicable credit rate shall be calculated by the Commission annually by dividing revenues to the class by sales, measured in kilowatt-hours, to that class to yield a bill credit rate for the class ($/kWh).

D. The Commission shall establish a minimum bill, which shall include the costs of all utility infrastructure and services used to provide electric service and administrative costs of the shared solar program. The Commission may modify the minimum bill over time. In establishing the minimum bill, the Commission shall (i) consider further costs the Commission deems relevant to ensure subscribing customers pay a fair share of the costs of providing electric services and (ii) minimize the costs shifted to customers not in a shared solar program. Low-income customers shall be exempt from the minimum bill.
E. The Commission shall approve a shared solar facility program of 150 megawatts with a minimum requirement of 30 percent low-income customers. The Commission shall approve an additional 50 megawatts of capacity upon determining that at least 45 megawatts of the aggregated shared solar capacity in the Commonwealth have been subscribed to by low-income customers. Subscriber organizations shall be allowed to demonstrate compliance with the low income requirement using either project capacity or project savings methodology. The Commission, in collaboration with the Department of Mines, Minerals and Energy, may adopt mechanisms to ensure low-income customer participation.

F. The Commission shall establish by regulation a shared solar program that complies with the provisions of subsections B, C, D, and E by January 1, 2021, and shall require each utility to file any tariffs, agreements, or forms necessary for implementation of the program within 60 days of the utility's full implementation of a new customer information platform or by July 1, 2023, whichever occurs first. Any rule or utility implementation filings approved by the Commission shall:

1. Reasonably allow for the creation of shared solar facilities;
2. Allow all customer classes to participate in the program;
3. Create a stakeholder working group including low-income community representatives and community solar providers to facilitate low-income customer and low-income service organization participation in the program;
4. Encourage public-private partnerships to further the Commonwealth’s clean energy and equity goals, such as state agency and affordable housing provider participation in the program as subscribers of shared solar projects;
5. Not remove a customer from its otherwise applicable customer class in order to participate in a shared solar facility;
6. Reasonably allow for the transferability and portability of subscriptions, including allowing a subscriber to retain a subscription to a shared solar facility if the subscriber moves within the same utility's service territory;
7. Establish standards, fees, and processes for the interconnection of shared solar facilities that allow the utility to recover reasonable interconnection costs for each shared solar facility;
8. Adopt standardized consumer disclosure forms;
9. Allow the utility the opportunity to recover reasonable costs of administering the program;
10. Ensure nondiscriminatory and efficient requirements and utility procedures for interconnecting projects;
11. Address the co-location of two or more shared solar facilities on a single parcel of land and provide guidelines for determining when two or more facilities are co-located;
12. Include a program implementation schedule;
13. Prohibit credit checks as a means of establishing eligibility for residential customers to become subscribers;
14. Require net crediting functionality as part of any new customer information platform approved by the Commission. Under net crediting, the utility shall include the shared solar subscription fee on the customer’s utility bill and provide the customer with a net credit equivalent to the total bill credit value for that generation period minus the shared solar subscription fee as set by the subscriber organization. The net crediting fee shall not exceed one percent of the bill credit value. Net crediting shall be optional for subscriber organizations, and any shared solar subscription fees charged via the net crediting model shall be set to ensure that subscribers do not pay more in subscription fees than they receive in bill credits; and
15. Allow the utility to recover as the cost of purchased power pursuant to § 56-249.6 any difference between the bill credit provided to the subscriber and the cost of energy injected into the grid by the subscriber organization.

G. Within 180 days of finalization of the Commission’s adoption of regulations for the shared solar program, a utility shall, provided that the utility has successfully implemented its customer information platform, begin crediting subscriber accounts of each shared solar facility interconnected in its service territory, subject to the requirements of this section and regulations adopted thereto.

CHAPTER 1239

An Act to amend and reenact §§ 56-594 and 67-102 of the Code of Virginia and § 1 of the first enactment of Chapters 358 and 382 of the Acts of Assembly of 2013, as amended by Chapter 803 of the Acts of Assembly of 2017, and to amend the Code of Virginia by adding a section numbered 56-585.1:11, relating to the regulation of sales of electricity under third-party sales agreements; net energy; and the removal of other barriers to the increased implementation of distributed solar and other renewable energy in the Commonwealth.

Approved April 22, 2020

Be it enacted by the General Assembly of Virginia:

1. That §§ 56-594 and 67-102 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding a section numbered 56-585.1:11 as follows:

§ 56-585.1:11. Multi-family shared solar program.

A. As used in this section:

"Applicable bill credit rate" means the dollar-per-kilowatt-hour rate as defined in subsection D used to calculate a subscriber's bill credit. The applicable bill credit rate shall be set such that the shared solar program results in robust project development and shared solar program access for all customer classes.
"Bill credit" means the monetary value of the electricity, in kilowatt-hours, generated by the shared solar facility allocated to a subscriber to offset that subscriber's electricity bill.

"Investor-owned utility" means each investor-owned utility in the Commonwealth including, notwithstanding subsection G of § 56-580, any investor-owned utility whose service territory assigned to it by the Commission is located entirely within the Counties of Dickenson, Lee, Russell, Scott and Wise. "Investor-owned utility" does not include a Phase I Utility, as that term is defined in subdivision A 1 of § 56-583.1.

"Multi-family shared solar program" or "program" means the program created through the adoption of rules to allow for the development of shared solar facilities described in subsection C.

"Shared solar facility" means a facility that:
1. Generates electricity by means of a solar photovoltaic device with a nameplate capacity rating that does not exceed 3,000 kW alternating current at any single location or that does not exceed 5,000 kW alternating current at contiguous locations owned by the same entity or affiliated entities;
2. Is operated pursuant to a program whereby at least three subscribers receive a bill credit for the electricity generated from the facility in proportion to the size of their subscription;
3. Is located in the service territory of an investor-owned utility;
4. Is located on a parcel of land on the premises of the multi-family utility customer or adjacent thereto.

"Subscriber" means a multi-family customer of an investor-owned electric utility that owns one or more subscriptions of a shared solar facility that is interconnected with the utility.

"Subscriber organization" means any for-profit or nonprofit entity that owns or operates one or more shared solar facilities. A "subscriber organization" shall not be considered a utility solely as a result of its ownership or operation of a shared solar facility.

"Subscription" means a contract or other agreement between a subscriber and the owner of a shared solar facility. A subscription shall be sized such that the estimated bill credits do not exceed the subscriber's average annual bill for the customer account to which the subscription is attributed.

B. The Commission shall establish by regulation a program that affords eligible multi-family customers of investor-owned utilities the opportunity to participate in shared solar projects. The regulations shall be adopted by the Commission by January 1, 2021.

C. An investor-owned utility shall provide a bill credit to a subscriber's subsequent monthly electric bill for the proportional output of a shared solar facility attributable to that subscriber. The shared solar program shall be administered as follows:
1. The value of the bill credit for the subscriber shall be calculated by multiplying the subscriber's portion of the kilowatt-hour electricity production from the shared solar facility by the applicable bill credit rate for the subscriber. Any amount of the bill credit that exceeds the subscriber's monthly bill shall be carried over and applied to the next month's bill in perpetuity;
2. The utility shall provide bill credits to a shared solar facility's subscribers for not less than 25 years from the date the shared solar facility becomes commercially operational;
3. The subscriber organization shall, on a monthly basis and in a standardized electronic format, provide to the investor-owned utility a subscriber list indicating the kilowatt-hours of generation attributable to each of the retail customers participating in a shared solar facility in accordance with the subscriber's portion of the output of the shared solar facility;
4. Lists may be updated monthly to reflect canceling subscribers and to add new subscribers. The investor-owned utility shall apply bill credits to subscriber bills within one billing cycle following the cycle during which the energy was generated by the shared solar facility;
5. The investor-owned utility shall, on a monthly basis and in a standardized electronic format, provide to the subscriber organization a report indicating the total value of bill credits generated by the shared solar facility in the prior month as well as the amount of the bill credit applied to each subscriber;
6. A subscriber organization may accumulate bill credits in the event that all of the electricity generated by a shared solar facility is not allocated to subscribers in a given month. On an annual basis, the subscriber organization shall furnish to the utility allocation instructions for distributing excess bill credits to subscribers; and
7. All environmental attributes associated with a shared solar facility, including renewable energy certificates, shall be considered property of the subscriber organization. At the subscriber organization's discretion, those attributes may be distributed to subscribers, sold to investor-owned utilities or other buyers, accumulated, or retired.

D. The Commission shall annually calculate the applicable bill credit rate as the effective retail rate of the customer's rate class, which shall be inclusive of all supply charges, delivery charges, demand charges, fixed charges, and any applicable riders or other charges to the customer. This rate shall be expressed in dollars or cents per kilowatt-hour.

E. The Commission shall establish by regulation a multi-family shared solar program by January 1, 2021, and shall require each investor-owned utility to file any tariffs, agreements, or forms necessary for implementation of the program. Any rule or utility implementation filings approved by the Commission shall:
1. Reasonably allow for the creation and financing of shared solar facilities;
2. Allow all customer classes to participate in the program, and ensure participation opportunities for all customer classes;
3. Not remove a customer from its otherwise applicable customer class in order to participate in a shared solar facility;
4. Reasonably allow for the transferability and portability of subscriptions, including allowing a subscriber to retain a subscription in a shared solar facility if the subscriber moves within the same utility territory;
5. Establish uniform standards, fees, and processes for the interconnection of shared solar facilities that allow the utility to recover reasonable interconnection costs for each shared solar facility;
6. Adopt standardized consumer disclosure forms;
7. Allow the investor-owned utilities to recover reasonable costs of administering the program;
8. Ensure nondiscriminatory and efficient requirements and utility procedures for interconnecting projects;
9. Address the colocation of two or more shared solar facilities on a single parcel of land, and provide guidelines for determining when two or more facilities are colocated; and
10. Include a program implementation schedule.
F. Within 180 days of finalization of the Commission's adoption of regulations for the shared solar program, utilities shall begin crediting subscriber accounts of each shared solar facility interconnected in its service territory.

A. The Commission shall establish by regulation a program that affords eligible customer-generators the opportunity to participate in net energy metering, and a program, to begin no later than July 1, 2014, for customers of investor-owned utilities and to begin no later than July 1, 2015, and to end July 1, 2019, for customers of electric cooperatives as provided in subsection G, to afford eligible agricultural customer-generators the opportunity to participate in net energy metering. The regulations may include, but need not be limited to, requirements for (i) retail sellers; (ii) owners or operators of distribution or transmission facilities; (iii) providers of default service; (iv) eligible customer-generators; (v) eligible agricultural customer-generators; or (vi) any combination of the foregoing, as the Commission determines will facilitate the provision of net energy metering, provided that the Commission determines that such requirements do not adversely affect the public interest. On and after July 1, 2017, small agricultural generators or eligible agricultural customer-generators may elect to interconnect pursuant to the provisions of this section or as small agricultural generators pursuant to § 56-594.2, but not both. Existing eligible agricultural customer-generators may elect to become small agricultural generators, but may not revert to being eligible agricultural customer-generators after such election. On and after July 1, 2019, interconnection of eligible agricultural customer-generators shall cease for electric cooperatives only, and such facilities shall interconnect solely as small agricultural generators. For electric cooperatives, eligible agricultural customer-generators whose renewable energy generating facilities were interconnected before July 1, 2019, may continue to participate in net energy metering pursuant to this section for a period not to exceed 25 years from the date of their renewable energy generating facility's original interconnection.
B. For the purpose of this section:
"Eligible agricultural customer-generator" means a customer that operates a renewable energy generating facility as part of an agricultural business, which generating facility (i) uses as its sole energy source solar power, wind power, or aerobic or anaerobic digester gas, (ii) does not have an aggregate generation capacity of more than 500 kilowatts, (iii) is located on land owned or controlled by the agricultural business, (iv) is connected to the customer's wiring on the customer's side of the interconnection with the distributor; (v) is interconnected and operated in parallel with an electric company's transmission and distribution facilities, and (vi) is used primarily to provide energy to metered accounts of the agricultural business. An eligible agricultural customer-generator may be served by multiple meters serving the eligible agricultural customer-generator that are located at separate but contiguous the same or adjacent sites, such that the eligible agricultural customer-generator may aggregate in a single account the electricity consumption and generation measured by the meters, provided that the same utility serves all such meters. The aggregated load shall be served under the appropriate tier.
"Eligible customer-generator" means a customer that owns and operates, or contracts with other persons to own, operate, or both, an electrical generating facility that (i) has a capacity of not more than 20 megawatts for residential customers and not more than one megawatt three megawatts for nonresidential customers on an electrical generating facility placed in service after July 1, 2015; (ii) uses as its total source of fuel renewable energy, as defined in § 56-576; (iii) is located on the customer's premises land owned or leased by the customer and is connected to the customer's wiring on the customer's side of its interconnection with the distributor; (iv) is interconnected and operated in parallel with an electric company's transmission and distribution facilities; and (v) is intended primarily to offset all or part of the customer's own electricity requirements. In addition to the electrical generating facility size limitations in clause (i), the capacity of any generating facility installed under this section after between July 1, 2015, and July 1, 2020, shall not exceed the expected annual energy consumption based on the previous 12 months of billing history or an annualized calculation of billing history if 12 months of billing history is not available. In addition to the electrical generating facility size limitation in clause (i), in the certificated service territory of a Phase I Utility, the capacity of any generating facility installed under this section after July 1, 2020, shall not exceed 100 percent of the expected annual energy consumption based on the previous 12 months of billing history or an annualized calculation of billing history if 12 months of billing history is not available, and in the certificated service territory of a Phase II Utility, the capacity of any generating facility installed under this section after July 1, 2020, shall not exceed 150 percent of the expected annual energy consumption based on the previous 12 months of billing history or an annualized calculation of billing history if 12 months of billing history is not available.
"Net energy metering" means measuring the difference, over the net metering period, between (i) electricity supplied to an eligible customer-generator or eligible agricultural customer-generator from the electric grid and (ii) the electricity generated and fed back to the electric grid by the eligible customer-generator or eligible agricultural customer-generator.

"Net metering period" means the 12-month period following the date of final interconnection of the eligible customer-generator's or eligible agricultural customer-generator's system with an electric service provider, and each 12-month period thereafter.

"Small agricultural generator" has the same meaning that is ascribed to that term in § 56-594.2.

C. The Commission's regulations shall ensure that (i) the metering equipment installed for net metering shall be capable of measuring the flow of electricity in two directions and (ii) any eligible customer-generator seeking to participate in net energy metering shall notify its supplier and receive approval to interconnect prior to installation of an electrical generating facility. The electric distribution company shall have 30 days from the date of notification for residential facilities, and 60 days from the date of notification for nonresidential facilities, to determine whether the interconnection requirements have been met. Such regulations shall allocate fairly the cost of such equipment and any necessary interconnection. An eligible customer-generator's electrical generating system, and each electrical generating system of an eligible agricultural customer-generator, shall meet all applicable safety and performance standards established by the National Electrical Code, the Institute of Electrical and Electronics Engineers, and accredited testing laboratories such as Underwriters Laboratories. Beyond the requirements set forth in this section and to ensure public safety, power quality, and reliability of the supplier's electric distribution system, an eligible customer-generator or eligible agricultural customer-generator whose electrical generating system meets those standards and rules shall bear all reasonable costs of equipment required for the interconnection to the supplier's electric distribution system, including costs, if any, to (a) install additional controls, (b) perform or pay for additional tests, and (c) purchase additional liability insurance.

D. The Commission shall establish minimum requirements for contracts to be entered into by the parties to net metering arrangements. Such requirements shall protect the eligible customer-generator or eligible agricultural customer-generator against discrimination by virtue of its status as an eligible customer-generator or eligible agricultural customer-generator, and permit customers that are served on time-of-use tariffs that have electricity supply demand charges contained within the electricity supply portion of the time-of-use tariffs to participate as an eligible customer-generator or eligible agricultural customer-generator. Notwithstanding the cost allocation provisions of subsection C, eligible customer-generators or eligible agricultural customer-generators served on demand charge-based time-of-use tariffs shall bear the incremental metering costs required to net meter such customers.

E. If electricity generated by an eligible customer-generator or eligible agricultural customer-generator over the net metering period exceeds the electricity consumed by the eligible customer-generator or eligible agricultural customer-generator, the customer-generator or eligible agricultural customer-generator shall be compensated for the excess electricity if the entity contracting to receive such electric energy and the eligible customer-generator or eligible agricultural customer-generator enter into a power purchase agreement for such excess electricity. Upon the written request of the eligible customer-generator or eligible agricultural customer-generator, the supplier that serves the eligible customer-generator or eligible agricultural customer-generator shall enter into a power purchase agreement with the requesting eligible customer-generator or eligible agricultural customer-generator that is consistent with the minimum requirements for contracts established by the Commission pursuant to subsection D. The power purchase agreement shall obligate the supplier to purchase such excess electricity at the rate that is provided for such purchases in a net metering standard contract or tariff approved by the Commission, unless the parties agree to a higher rate. The eligible customer-generator or eligible agricultural customer-generator owns any renewable energy certificates associated with its electrical generating facility; however, at the time that the eligible customer-generator or eligible agricultural customer-generator enters into a power purchase agreement with its supplier, the eligible customer-generator or eligible agricultural customer-generator shall have a one-time option to sell the renewable energy certificates associated with such electrical generating facility to its supplier and be compensated at an amount that is established by the Commission to reflect the value of such renewable energy certificates. Nothing in this section shall prevent the eligible customer-generator or eligible agricultural customer-generator and the supplier from voluntarily entering into an agreement for the sale and purchase of excess electricity or renewable energy certificates at mutually-agreed upon prices if the eligible customer-generator or eligible agricultural customer-generator does not exercise its option to sell its renewable energy certificates to its supplier at Commission-approved prices at the time that the eligible customer-generator or eligible agricultural customer-generator enters into a power purchase agreement with its supplier. All costs incurred by the supplier to purchase excess electricity and renewable energy certificates from eligible customer-generators or eligible agricultural customer-generators shall be recoverable through its Renewable Energy Portfolio Standard (RPS) rate adjustment clause, if the supplier has a Commission-approved RPS plan. If not, then all costs shall be recoverable through the supplier's fuel adjustment clause. For purposes of this section, "all costs" shall be defined as the rates paid to the eligible customer-generator or eligible agricultural customer-generator for the purchase of excess electricity and renewable energy certificates and any administrative costs incurred to manage the eligible customer-generator's or eligible agricultural customer-generator's power purchase arrangements. The net metering standard contract or tariff shall be available to eligible customer-generators or eligible agricultural customer-generators on a first-come, first-served basis in each electric distribution company's Virginia service area until the rated generating capacity owned and operated by eligible customer-generators, eligible agricultural customer-generators, and small agricultural generators in the Commonwealth...
shall be in accordance with a methodology developed by the supplier and approved by the Commission. The amount of the standby charge and the terms and conditions under which it is assessed shall be liable for a standby charge until the date specified in an order of the Commission approving its supplier's methodology.

agricultural customer-generators. Such an eligible customer-generator or eligible agricultural customer-generator shall not be approved a supplier's proposed standby charge methodology if it finds that the standby charges collected from all such customer-generators, eligible agricultural customer-generators, and small agricultural generators, except low-income utility customers, that interconnect after the effective date established in the Commission's final order. Nothing in the Commission's final order shall affect any eligible customer-generators, eligible agricultural customer-generators, and small agricultural generators who interconnect before the effective date of such final order. As part of the net energy metering proceeding, the Commission shall evaluate the six percent aggregate net metering cap and may, if appropriate, raise or remove such cap. The Commission shall enter its final order in such a proceeding no later than 12 months after it commences such proceeding, and such final order shall establish a date by which the new terms and conditions shall apply for interconnection and shall also provide that, if the terms and conditions of compensation in the final order differ from the terms and conditions available to customers before the proceeding, low-income utility customers may interconnect under whichever terms are most favorable to them.

F. Any residential eligible customer-generator or eligible agricultural customer-generator, in the service territory of a Phase II Utility who owns and operates, or contracts with other persons to own, operate, or both, an electrical generating facility with a capacity that exceeds 15 kilowatts shall pay to its supplier, in addition to any other charges authorized by law, a monthly standby charge. The amount of the standby charge and the terms and conditions under which it is assessed shall be in accordance with a methodology developed by the supplier and approved by the Commission. The Commission shall approve a supplier's proposed standby charge methodology if it finds that the standby charges collected from all such eligible customer-generators and eligible agricultural customer-generators allow the supplier to recover only the portion of the supplier's infrastructure costs that are properly associated with serving such eligible customer-generators or eligible agricultural customer-generators. Such an eligible customer-generator or eligible agricultural customer-generator shall not be liable for a standby charge until the date specified in an order of the Commission approving its supplier's methodology. For customers of all other investor-owned utilities, on and after July 1, 2020, standby charges are prohibited for any residential eligible customer-generator or agricultural customer-generator.

G. On and after the later of July 1, 2019, or the effective date of regulations that the Commission is required to adopt pursuant to § 56-594.01, (i) net energy metering in the service territory of each electric cooperative shall be conducted as provided in a program implemented pursuant to § 56-594.01 and (ii) the provisions of this section shall not apply to net energy metering in the service territory of an electric cooperative except as provided in § 56-594.01.

H. The Commission may adopt such rules or establish such guidelines as may be necessary for its general administration of this section.
1. When the Commission conducts a net energy metering proceeding, it shall:
   1. Investigate and determine the costs and benefits of the current net energy metering program;
   2. Establish an appropriate netting measurement interval for a successor tariff that is just and reasonable in light of the costs and benefits of the net metering program in aggregate, and applicable to new requests for net energy metering service; and
   3. Determine a specific avoided cost for customer-generators, the different type of customer-generator technologies where the Commission deems it appropriate, and establish the methodology for determining the compensation rate for any net excess generation determined according to the applicable net metering measurement interval for any new tariff.
2. In evaluating the costs and benefits of the net energy metering program, the Commission shall consider:
   1. The aggregate impact of customer-generators on the electric utility's long-run marginal costs of generation, distribution, and transmission;
   2. The cost of service implications of customer-generators on other customers within the same class, including an evaluation of whether customer-generators provide an adequate rate of return to the electrical utility compared to the otherwise applicable rate class when, for analytical purposes only, examined as a separate class within a cost of service study;
   3. The direct and indirect economic impact of the net energy metering program to the Commonwealth; and
   4. Any other information it deems relevant, including environmental and resilience benefits of customer-generator facilities.
K. Notwithstanding the provisions of this section, § 56-585.1:8, or any other provision of law to the contrary, any locality that is a nonjurisdictional customer of a Phase II Utility, as defined in § 56-585.1:3, and is in Planning District
Eight with a population greater than 1 million may (i) install solar-powered or wind-powered electric generation facilities with a rated capacity not exceeding five megawatts, whether the facilities are owned by the locality or owned and operated by a third party pursuant to a contract with the locality, on any locality-owned site within the locality and (ii) credit the electricity generated at any such facility as directed by the governing body of the locality to any one or more of the metered accounts of buildings or other facilities of the locality or the locality's public school division that are located within the locality, without regard to whether the buildings and facilities are located at the same site where the electric generation facility is located or at a site contiguous thereto. The amount of the credit for such electricity to the metered accounts of the locality or its public school division shall be identical, with respect to the rate structure, all retail rate components, and monthly charges, to the amount the locality or public school division would otherwise be charged for such amount of electricity under its contract with the public utility, without the assessment by the public utility of any distribution charges, service charges, or fees in connection with or arising out of such crediting.

A. To achieve the objectives enumerated in § 67-101, it shall be the policy of the Commonwealth to:
1. Support research and development of, and promote the use of, renewable energy sources;
2. Ensure that the combination of energy supplies and energy-saving systems are sufficient to support the demands of economic growth;
3. Promote research and development of clean coal technologies, including but not limited to integrated gasification combined cycle systems;
4. Promote cost-effective conservation of energy and fuel supplies;
5. Ensure the availability of affordable natural gas throughout the Commonwealth by expanding Virginia's natural gas distribution and transmission pipeline infrastructure; developing coalbed methane gas resources and methane hydrate resources; encouraging the productive use of landfill gas; and siting one or more liquefied natural gas terminals;
6. Promote the generation of electricity through technologies that do not contribute to greenhouse gases and global warming;
7. Facilitate the development of new, and the expansion of existing, petroleum refining facilities within the Commonwealth;
8. Promote the use of motor vehicles that utilize alternate fuels and are highly energy efficient;
9. Support efforts to reduce the demand for imported petroleum by developing alternative technologies, including but not limited to the production of synthetic and hydrogen-based fuels, and the infrastructure required for the widespread implementation of such technologies;
10. Promote the sustainable production and use of biofuels produced from silvicultural and agricultural crops grown in the Commonwealth, and support the delivery infrastructure needed for statewide distribution to consumers;
11. Ensure that development of new, or expansion of existing, energy resources or facilities does not have a disproportionate adverse impact on economically disadvantaged or minority communities; and
12. Ensure that energy generation and delivery systems that may be approved for development in the Commonwealth, including liquefied natural gas and related delivery and storage systems, should be located so as to minimize impacts to pristine natural areas and other significant onshore natural resources, and as near to compatible development as possible; and
13. Support the distributed generation of renewable electricity by:
   a. Encouraging private sector investments in distributed renewable energy;
   b. Increasing the security of the electricity grid by supporting distributed renewable energy projects with the potential to supply electric energy to critical facilities during a widespread power outage; and
   c. Augmenting the exercise of private property rights by landowners desiring to generate their own energy from renewable energy sources on their lands.
B. The elements of the policy set forth in subsection A shall be referred to collectively in this title as the Commonwealth Energy Policy.
C. All agencies and political subdivisions of the Commonwealth, in taking discretionary action with regard to energy issues, shall recognize the elements of the Commonwealth Energy Policy and where appropriate, shall act in a manner consistent therewith.
D. The Commonwealth Energy Policy is intended to provide guidance to the agencies and political subdivisions of the Commonwealth in taking discretionary action with regard to energy issues, and shall not be construed to amend, repeal, or override any contrary provision of applicable law. The failure or refusal of any person to recognize the elements of the Commonwealth Energy Policy, to act in a manner consistent with the Commonwealth Energy Policy, or to take any other action whatsoever, shall not create any right, action, or cause of action or provide standing for any person to challenge the action of the Commonwealth or any of its agencies or political subdivisions.
2. That § 1 of the first enactment of Chapters 358 and 382 of the Acts of Assembly of 2013, as amended by Chapter 803 of the Acts of Assembly of 2017, is amended and reenacted as follows:

§ 1. That the State Corporation Commission (Commission) shall conduct pilot programs under which a person that owns or operates a solar-powered or wind-powered electricity generation facility located on premises owned or leased by an eligible customer-generator, as defined in § 56-594 of the Code of Virginia, shall be permitted to sell the electricity generated from such facility exclusively to such eligible customer-generator under a power purchase agreement used to
provide third party financing of the costs of such a renewable generation facility (third party power purchase agreement), subject to the following terms, conditions, and restrictions:

a. Notwithstanding subsection G of § 56-580 of the Code of Virginia or any other provision of law, a pilot program shall be conducted within the certificated service territory of each investor-owned electric utility other than a utility described in subsection G of § 56-580 of the Code of Virginia ("Pilot Utility"), provided that within the certificated service territory of an investor-owned utility that was not bound by a rate case settlement adopted by the Commission that extended in its application beyond January 1, 2002, nonprofit, private institutions of higher education as defined in § 23.1-100 of the Code of Virginia that are not being served by generation provided under subdivision A of § 56-577 of the Code of Virginia shall be deemed to be customer-generators eligible to participate in the pilot program;

b. The aggregated capacity of all generation facilities that are subject to such third party power purchase agreements at any time during the pilot program shall not exceed 50,000 megawatts for Virginia jurisdictional customers and 500 megawatts for Virginia nonjurisdictional customers for an investor-owned utility that was bound by a rate case settlement adopted by the Commission that extended in its application beyond January 1, 2002, or seven 40 megawatts for an investor-owned utility that was not bound by a rate case settlement adopted by the Commission that extended in its application beyond January 1, 2002. Such limitation on the aggregated capacity of such facilities shall constitute a portion of the existing limit of one six percent of each Pilot Utility's adjusted Virginia peak-load forecast for the previous year that is available to eligible customer-generators pursuant to subsection E of § 56-594 of the Code of Virginia. Notwithstanding any provision of this act that incorporates provisions of § 56-594, the seller and the customer shall elect either to (i) enter into their third party power purchase agreement subject to the conditions and provisions of the Pilot Utility's net energy metering program under § 56-594 or (ii) provide that electricity generated from the generation facilities subject to the third party power purchase agreement will not be net metered under § 56-594, provided that an election not to net meter under § 56-594 shall not exempt the third party power purchase agreement and the parties thereto from the requirements of this act that incorporate provisions of § 56-594;

c. A solar-powered or wind-powered generation facility with a capacity of no less than 50 kilowatts and no more than one megawatt three megawatts shall be eligible for a third party power purchase agreement under the pilot program; however, if the customer under such agreement is an entity with tax-exempt status in accordance with § 501(c) of the Internal Revenue Code of 1954, as amended, then such facility is eligible for the pilot program even if it does not meet the 50 kilowatts minimum size requirement. The maximum generation capacity of one megawatt three megawatts shall not affect the limits on the capacity of electrical generating capacities of 20,000 megawatts for residential customers and 500 megawatts for nonresidential customers set forth in subsection B of § 56-594 of the Code of Virginia, which limitations shall continue to apply to net energy metering generation facilities regardless of whether they are the subject of a third party power purchase agreement under the pilot program;

d. A generation facility that is the subject of a third party power purchase agreement under the pilot program shall serve only one customer, and a third party power purchase agreement shall not serve multiple customers;

e. The customer under a third party power purchase agreement under the pilot program shall be subject to the interconnection and other requirements imposed on eligible customer-generators pursuant to subsection C of § 56-580 of the Code of Virginia, including the requirement that the customer bear the reasonable costs, as determined by the Commission, of the items described in clauses (i), (ii), and (iii) of such subsection;

f. A third party power purchase agreement under the pilot program shall not be valid unless it conforms in all respects to the requirements of the pilot program conducted under the provisions of this act and unless the Commission and the Pilot Utility are provided written notice of the parties' intent to enter into a third party power purchase agreement not less than 30 days prior to the agreement's proposed effective date; and

g. An affiliate of the Pilot Utility shall be permitted to offer and enter into third party power purchase arrangements on the same basis as may any other person that satisfies the requirements of being a seller under a third party power purchase agreement under the pilot program.

CHAPTER 1240

An Act to amend the Code of Virginia by adding a section numbered 56-585.1:11, relating to electric utilities; development of offshore wind generation facilities.

Approved April 22, 2020

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding a section numbered 56-585.1:11 as follows:

A. As used in this section:

"Advanced clean energy buyer" means a commercial or industrial customer of a Phase II Utility, irrespective of generation supplier; (i) with an aggregate load over 100 megawatts; (ii) with an aggregate amount of at least 200 megawatts of solar or wind energy supply under contract with a term of 10 years or more from facilities located within the Commonwealth by January 1, 2024; and (iii) that directly procures from the utility the electric supply and environmental
attributes of the offshore wind facility associated with the lesser of 50 megawatts of nameplate capacity or 15 percent of the commercial or industrial customer's annual peak demand for a contract period of 15 years.

"Aggregate load" means the combined electrical load associated with selected accounts of an advanced clean energy buyer with the same legal entity name as, or in the names of affiliated entities that control, are controlled by, or are under common control of, such legal entity or are the names of affiliated entities under a common parent.

"Control" means the legal right, directly or indirectly, to direct or cause the direction of the management, actions, or policies of an affiliated entity, whether through the ability to exercise voting power, by contract, or otherwise. "Control" does not include control of an entity through a franchise or similar contractual agreement.

"Qualifying large general service customer" means a customer of a Phase II Utility, irrespective of general supplier, (i) whose peak demand during the most recent calendar year exceeded five megawatts and (ii) that contracts with the utility directly procure electric supply and environmental attributes associated with the offshore wind facility in amounts commensurate with the customer's electric usage for a contract period of 15 years or more.

B. In order to meet the Commonwealth's clean energy goals, prior to December 31, 2034, the construction or purchase by a public utility of one or more offshore wind generation facilities located off the Commonwealth's Atlantic shoreline or in federal waters and interconnected directly into the Commonwealth, with an aggregate capacity of up to 5,200 megawatts, is in the public interest and the Commission shall so find, provided that no customers of the utility shall be responsible for costs of any such facility in a proportion greater than the utility's share of the facility.

C. 1. Pursuant to subsection B, construction by a Phase II Utility of one or more new utility-owned and utility-operated generating facilities utilizing energy derived from offshore wind and located off the Commonwealth's Atlantic shoreline, with an aggregate rated capacity of not less than 2,500 megawatts and not more than 3,000 megawatts, along with electrical transmission or distribution facilities associated therewith for interconnection is in the public interest. In acting upon any request for cost recovery by a Phase II Utility for costs associated with such a facility, the Commission shall determine the reasonableness and prudence of any such costs, provided that such costs shall be presumed to be reasonably and prudently incurred if the Commission determines that (i) the utility has complied with the competitive solicitation and procurement requirements pursuant to subsection E; (ii) the project's projected total levelized cost of energy, including any tax credit, on a cost per megawatt hour basis, inclusive of the costs of transmission and distribution facilities associated with the facility's interconnection, does not exceed 1.4 times the comparable cost, on an unweighted average basis, of a conventional simple cycle combustion turbine generating facility as estimated by the U.S. Energy Information Administration in its Annual Energy Outlook 2019; and (iii) the utility has commenced construction of such facilities for U.S. income taxation purposes prior to January 1, 2024, or has a plan for such facility or facilities to be in service prior to January 1, 2028. The Commission shall disallow costs, or any portion thereof, only if they are otherwise unreasonably and imprudently incurred. In its review, the Commission shall give due consideration to (a) the Commonwealth's renewable portfolio standards and carbon reduction requirements, (b) the promotion of new renewable generation resources, and (c) the economic development benefits of the project for the Commonwealth, including capital investments and job creation.

2. Notwithstanding the provisions of § 56-585.1, the Commission shall not grant an enhanced rate of return to a Phase II Utility for the construction of one or more new utility-owned and utility-operated generating facilities utilizing energy derived from offshore wind and located off the Commonwealth's Atlantic shoreline pursuant to this section.

3. Any such costs proposed for recovery through a rate adjustment clause pursuant to subdivision A 6 of § 56-585.1 shall be allocated to all customers of the utility in the Commonwealth as a non-bypassable charge, regardless of the generation supplier of any such customer, other than (i) PIPP eligible utility customers, (ii) advanced clean energy buyers, and (iii) qualifying large general service customers. No electric cooperative customer of the utility shall be assigned, nor shall the utility collect from any such cooperative, any of the costs of such facilities, including electrical transmission or distribution facilities associated therewith for interconnection. The Commission may promulgate such rules, regulations, or other directives necessary to administer the eligibility for these exemptions.

4. The Commission shall permit a portion of the nameplate capacity of any such facility, in the aggregate, to be allocated to (i) advanced clean energy buyers or (ii) qualifying large general service customers, provided that no more than 10 percent of the offshore wind facility's capacity is allocated to qualifying large general service customers. A Phase II Utility shall petition the Commission for approval of a special contract with any advanced clean energy buyer, or any special rate applicable to qualifying large general service customers, pursuant to § 56-235.2, no later than 15 months prior to the projected commercial operation date of the facility, and all customer enrollments associated with such special contracts or rates shall be completed prior to commercial operation of the facility. Any such special contract or rate may include provisions for levelized rates of service over the duration of the customer's contracted agreement with the utility, and the Commission shall determine that such special contract or rate is designed to hold nonparticipating customers harmless over its term in connection with any petition for approval by the utility. The utility may petition for approval of such special contracts or rates in connection with any petition for approval of a rate adjustment clause pursuant to subdivision A 6 of § 56-585.1 to recover the costs of the facility, and the Commission shall rule upon any such petitions in its final order in such proceeding within nine months from the date of filing.

D. In constructing any such facility contemplated in subsection B, the utility shall develop and submit a plan to the Commission for review that includes the following considerations: (i) options for utilizing local workers; (ii) the economic development benefits of the project for the Commonwealth, including capital investments and job creation; (iii) consultation with the Commonwealth's Chief Workforce Development Officer, the Chief Diversity, Equity, and Inclusion Officer, and the
An Act to amend and reenact §§ 33.2-2605, 58.1-811, as it is currently effective, 58.1-816, and 58.1-1743 of the Code of Virginia and to amend the Code of Virginia by adding sections numbered 33.2-2600.1 and 58.1-802.4, relating to transit funding in the Hampton Roads region.

CHAPTER 1241

An Act to amend and reenact §§ 33.2-2605, 58.1-811, as it is currently effective, 58.1-816, and 58.1-1743 of the Code of Virginia and to amend the Code of Virginia by adding sections numbered 33.2-2600.1 and 58.1-802.4 as follows:

§ 33.2-2600.1. Hampton Roads Regional Transit Program and Fund.

A. The General Assembly declares it to be in the public interest that developing and continuing operations of reliable regional public transportation is important for a balanced and effective multimodal transportation system in the Hampton Roads region and is essential to the region’s economic growth, vitality, and competitiveness. The General Assembly further declares that a special transportation program, to be known as the Hampton Roads Regional Transit Program (the Program), should provide for the costs of developing, maintaining, and improving a core regional network of transit routes and related infrastructure, rolling stock, and support facilities that have the greatest positive impacts on economic development potential, employment opportunities, mobility, environmental sustainability, and quality of life. The goal of the Program is to provide a modern, safe, and efficient core network of transit services across the Hampton Roads region. The Program shall be incorporated into strategic plans developed pursuant to § 33.2-286 and adopted by the governing board of each transit entity and shall form the basis for the regional transit planning process coordinated by the federally designated Metropolitan Planning Organization.

B. There is hereby created in the state treasury a special nonreverting fund for Planning District 23 to be known as the Hampton Roads Regional Transit Fund, referred to in this chapter as "the Regional Transit Fund." The Regional Transit Fund shall be established on the books of the Comptroller. All revenues dedicated to the Regional Transit Fund pursuant to §§ 58.1-802.4, 58.1-816, and 58.1-1743 shall be paid into the state treasury and credited to the Regional Transit Fund. Interest earned on moneys in the Regional Transit Fund shall remain in the Regional Transit Fund and be credited to it. Any moneys remaining in the Regional Transit Fund, including interest thereon, at the end of each fiscal year shall not revert to the general fund but shall remain in the Regional Transit Fund.

C. The Regional Transit Fund shall be managed by the Commission, and disbursements from the Regional Transit Fund shall be approved by the Commission consistent with the regional transit planning process developed pursuant to subsection D of § 33.2-286. The moneys deposited in the Regional Transit Fund shall be used solely for (i) the development, maintenance, improvement, and operation of a core and connected regional network of transit routes and related infrastructure, rolling stock, and support facilities, to include the operation of a regional system of interjurisdictional, high-frequency bus service, in a transportation district in Hampton Roads created pursuant to § 33.2-1903 as included in the strategic plans and regional transit planning process developed pursuant to § 33.2-286 and (ii) administrative and operating expenses of the Commission as specified in subsection B of § 33.2-2605. In the allocation of funds, priority shall...
be given, when possible, to investments in the most sustainable and cost-effective operations, rolling stock, and facilities to reduce or eliminate reliance upon diesel fuels. Funds from the Regional Transit Fund shall not be used to support the expansion of light rail beyond the boundaries of a locality where light rail is operated on January 1, 2020. The amounts dedicated to the Regional Transit Fund shall be deposited monthly by the Comptroller into the Regional Transit Fund and thereafter distributed to the Commission as soon as practicable for use in accordance with this chapter. If the Commission determines that such moneys distributed to it exceed the amount required to meet the current needs and demands to fund transit projects pursuant to this chapter, the Commission may invest such excess moneys to the same extent and in the same manner as provided in subsection A of § 33.2-1525 for excess funds in the Transportation Trust Fund.

D. The amounts deposited into the Regional Transit Fund and the distribution and expenditure of such amounts shall not (i) be used to calculate or reduce the share of federal, state, or local revenues otherwise available to participating localities; (ii) allow a local government that is a member of the transportation district to reduce its local funding for public transportation purposes to an amount less than what was appropriated on July 1, 2019, for such purposes; or (iii) diminish or supplant allocations and appropriations from other sources or diminish allocations to which a transportation district, transit system, or locality would be entitled under any other provisions of law but shall supplement such funds to accelerate and augment transportation improvements in the Hampton Roads region. Further, such revenues and moneys shall not be included in any computation of, or formula for, a locality's ability to pay for public education, upon which appropriations of state revenues to local governments for public education are determined. Any amounts paid from the Regional Transit Fund shall be considered local funds when used to make a required match for state or federal transportation grant funds.

§ 33.2-2605. Annual budget and allocation of expenses.
A. The Commission shall adopt an annual budget and develop a funding plan and shall provide for such adoption in its bylaws. The funding plan shall provide for the expenditure of funds over a four- to six-year period and shall align with the Statewide Transportation Plan established pursuant to § 33.2-353 as much as possible. The Commission shall solicit public comment on its budget and funding plan by posting a summary of such budget and funding plan on its website and holding a public hearing. Such public hearing shall be advertised on the Commission's website and in a newspaper of general circulation in Planning District 23.

B. The administrative and operating expenses of the Commission shall be provided in an annual budget adopted by the Commission and to. To the extent that funds for such expenses are not provided from other sources, the expenses shall be paid from the Fund and the Regional Transit Fund on an approximately pro rata basis of the programs supported by the Fund and the Regional Transit Fund. Such budget shall be limited solely to the administrative and operating expenses of the Commission and shall not include any funds for construction or acquisition of transportation facilities or the performance of any transportation service.

C. Members may be reimbursed for all reasonable and necessary expenses provided in §§ 2.2-2813 and 2.2-2825, if approved by the Commission. Funding for the costs of compensation and expenses of the members shall be provided by the Commission.

§ 58.1-802.4. Regional transportation improvement fee.
In addition to any other tax or fee imposed under the provisions of this chapter, a fee, delineated as the "regional transportation improvement fee," is hereby imposed on each deed, instrument, or writing by which lands, tenements, or other realty located in a county or city located in a transportation district in Hampton Roads created pursuant to § 33.2-1903 is sold and is granted, assigned, transferred, or otherwise conveyed to or vested in the purchaser or any other person, by such purchaser's direction. The rate of the fee, when the consideration or value of the interest, whichever is greater, equals or exceeds $100, shall be $0.06 for each $100 or fraction thereof, exclusive of the value of any lien or encumbrance remaining thereon at the time of the sale, whether such lien is assumed or the realty is sold subject to such lien or encumbrance.

The fee imposed by this section shall be paid by the grantor, or any person who signs on behalf of the grantor, of any deed, instrument, or writing subject to the fee imposed by this section; however, the grantor and grantee may arrange for the grantee to pay all or a portion of the fee.

No such deed, instrument, or other writing shall be admitted to record unless certification of the clerk wherein first recorded has been affixed thereto that the fee imposed pursuant to this section has been paid.

Fees imposed by this section shall be collected by the clerk of the court and deposited into the state treasury as soon as practicable. Such fees shall then be deposited into the Regional Transit Fund established in § 33.2-2600.1.

§ 58.1-816. Distribution of recordation tax to cities and counties.

A. Effective October 1, 1993, twenty million dollars of the taxes imposed under §§ 58.1-801 through 58.1-809 which are actually paid into the state treasury, shall be distributed among the counties and cities of this Commonwealth in the manner provided in subsection B of this section. Effective July 1, 1994, such annual distribution shall increase to forty million dollars.

B. Subject to any transfers required under §§ 33.2-2400 and 58.1-816.1, the share of the (i) $20 million of the state taxes distributable under this section among the counties and cities shall be deposited annually into the fund established pursuant to § 33.2-2600.1, and (ii) the remaining amount of state taxes distributable under this section shall be apportioned and distributed quarterly to each county or city, except for those counties or cities located in a transportation district in Hampton Roads created pursuant to § 33.2-1903, by the Comptroller by multiplying the amount to be distributed by a fraction in which the numerator is the amount of the taxes imposed under §§ 58.1-801 through 58.1-809 and actually paid into the state treasury which are attributable to deeds and other instruments recorded in the county or city and the denominator is the amount of taxes imposed under §§ 58.1-801 through 58.1-809 actually paid into the state treasury. All distributions pursuant to this section clause (ii) shall be made on a quarterly basis within thirty 30 days of the end of the quarter. Such quarterly distribution shall equal ten million dollars one quarter of the annual distribution amount set forth in subsection A available after the distribution required by clause (i). Each clerk of the court shall certify to the Comptroller by multiplying the amount to be distributed by a fraction in which the numerator is the amount of the taxes imposed under §§ 58.1-801 through 58.1-809 and actually paid into the state treasury which are attributable to deeds and other instruments recorded in the county or city and the denominator is the amount of taxes imposed under §§ 58.1-801 through 58.1-809 actually paid into the state treasury. As used in this section, the term "transportation facilities" shall include all transportation-related facilities, including, but not limited to, all highway systems, public transportation or mass transit systems as defined in § 33.2-100, airports as defined in § 5.1-1, and port facilities as defined in § 62.1-140. Such term shall be liberally construed for purposes of this section.

D. If any revenues distributed to a county or city under subsection C of this section clause (ii) of subsection B are applied or expended for any transportation facilities under the control and jurisdiction of any state agency, board, commission, or authority, such transportation facilities shall be constructed, operated, administered, improved, and maintained in accordance with laws, rules, regulations, policies, and procedures governing such state agency, board, commission, or authority; however, in the event that these revenues, or a portion thereof, are expended for improving or constructing highways in a county which that is subject to the provisions of § 33.2-338, such expenditures shall be undertaken in the manner prescribed in that statute.

E. In the case of any distribution to a county or city in which an office sharing agreement pursuant to §§ 15.2-1637 and 15.2-3822 is in effect, the Comptroller shall divide the distribution among the office sharing counties and cities. Each clerk of the court acting pursuant to an office sharing agreement shall certify to the Comptroller, within fifteen 15 days after the end of the quarter, all amounts collected under §§ 58.1-801 through 58.1-809 and actually paid into the state treasury which are attributable to deeds and other instruments recorded on behalf of each county and city.

§ 58.1-1743. Transportation district transient occupancy tax.

A. In addition to all other fees and taxes imposed under law, there is hereby imposed an additional transient occupancy tax at the rate of two percent of the amount of the charge for the occupancy of any room or space occupied in any county or
city located in a transportation district established pursuant to Chapter 19 (§ 33.2-1900 et seq.) of Title 33.2 that as of January 1, 2018, meets the criteria established in § 33.2-1936.

B. In addition to all other fees and taxes imposed under law, there is hereby imposed an additional transient occupancy tax at the rate of one percent of the amount of the charge for the occupancy of any room or space occupied in any county or city located in a transportation district in Hampton Roads created pursuant to § 33.2-1903.

C. The tax imposed under this section shall be imposed only for the occupancy of any room or space that is suitable or intended for occupancy by transients for dwelling, lodging, or sleeping purposes.

D. The tax imposed under this section shall be administered by the locality in which the room or space is located in the same manner as it administers the tax authorized by § 58.1-3819 or 58.1-3840, mutatis mutandis, except as herein provided. The revenue generated and collected from the tax shall be deposited by the local treasurer into the state treasury pursuant to § 2.2-806 and transferred by the Comptroller into special funds established by law. In the case of the Northern Virginia Transportation District, the revenue generated and collected therein shall be deposited into the fund established in § 33.2-3401. In the case of a transportation district in Hampton Roads created pursuant to § 33.2-1903, the revenue generated and collected therein shall be deposited into the fund established in § 33.2-2600.1. § 8.01-420.8. Protection of confidential information in court files.
A. Whenever a party files, or causes to be filed, with the court a motion, pleading, subpoena, exhibit, or other
document containing a social security number or other identification number appearing on a driver's license or other
document issued under Chapter 3 (§ 46.2-300 et seq.) of Title 46.2 or the comparable law of another jurisdiction, or on a
credit card, debit card, bank account, or other electronic billing and payment system, the party shall make reasonable efforts
to redact all but the last four digits of the identification number.

B. The provisions of subsection A apply to all civil actions in circuit and district court, unless there is a specific statute
to the contrary that applies to the particular type of proceeding in which the party is involved.

C. Nothing in this section shall create a private cause of action against the party or lawyer who filed the document or
any court personnel, the clerk, or any employees of the clerk's office who received it for filing.

§ 8.9A-503. Name of debtor and secured party.
(a) Sufficiency of debtor's name. A financing statement sufficiently provides the name of the debtor:
(1) except as otherwise provided in paragraph (3), if the debtor is a registered organization or the collateral is held in a
trust that is a registered organization, only if the financing statement provides the name that is stated to be the registered
organization's name on the public organic record most recently filed with or issued or enacted by the registered
organization's jurisdiction of organization which purports to state, amend, or restate the registered organization's name;
(2) subject to subsection (f), if the collateral is being administered by the personal representative of a decedent, only if
the financing statement provides, as the name of the debtor, the name of the decedent and, in a separate part of the financing
statement, indicates that the collateral is being administered by a personal representative;
(3) if the collateral is held in a trust that is not a registered organization, only if the financing statement:
(A) provides, as the name of the debtor:
(i) if the organic record of the trust specifies a name for the trust, the name specified; or
(ii) if the organic record of the trust does not specify a name for the trust, the name of the settlor or testator; and
(B) in a separate part of the financing statement:
(i) if the name is provided in accordance with subparagraph (A)(i), indicates that the collateral is held in trust; or
(ii) if the name is provided in accordance with subparagraph (A)(ii), provides additional information sufficient to
distinguish the trust from other trusts having one or more of the same settlors or the same testator and indicates that the
collateral is held in trust, unless the additional information so indicates;
(4) subject to subsection (g), if the debtor is an individual to whom the Commonwealth has issued a driver's license or
identification card pursuant to other document under Chapter 3 (§ 46.2-300 et seq.) of Title 46.2 that has not expired, only if
it provides the name of the individual which is indicated on the driver's license or identification card other document;
(5) if the debtor is an individual to whom paragraph (4) does not apply, only if it provides the individual name of the
debtor or the surname and first personal name of the debtor; and
(6) in other cases:
(A) if the debtor has a name, only if it provides the organizational name of the debtor; and
(B) if the debtor does not have a name, only if it provides the names of the partners, members, associates, or other
persons comprising the debtor, in a manner that each name provided would be sufficient if the person named were the
debtor.
(b) Additional debtor-related information. A financing statement that provides the name of the debtor in accordance
with subsection (a) is not rendered ineffective by the absence of:
(1) a trade name or other name of the debtor; or
(2) unless required under subsection (a)(6)(B), names of partners, members, associates, or other persons comprising
the debtor.
(c) Debtor's trade name insufficient. A financing statement that provides only the debtor's trade name does not
sufficiently provide the name of the debtor.
(d) Representative capacity. Failure to indicate the representative capacity of a secured party or representative of a
secured party does not affect the sufficiency of a financing statement.
(e) Multiple debtors and secured parties. A financing statement may provide the name of more than one debtor and the
name of more than one secured party.
(f) Name of decedent. The name of the decedent indicated on the order appointing the personal representative of the
decedent issued by the court having jurisdiction over the collateral is sufficient as the "name of the decedent" under
subsection (a)(2).
(g) Multiple driver's licenses. If the Commonwealth has issued to an individual more than one driver's license or
identification card other document of a kind described in subsection (a)(4), the one that was issued most recently is the one
to which subsection (a)(4) refers.
(h) Definition. In this section, the "name of the settlor or testator" means:
(1) if the settlor is a registered organization, the name of the registered organization indicated on the public organic
record filed with or issued or enacted by the registered organization's jurisdiction of organization; or
(2) in other cases, the name of the settlor or testator indicated in the trust's organic record.

The Commission may designate one or more deputies or assistants of the clerk who may discharge any of the clerk's official duties during the clerk's continuance in office.

B. A person who prepares or submits to the office of the clerk of the Commission a document or any information for filing with the Commission pursuant to Title 8.9A, Title 13.1, or Title 50 is responsible for ensuring that the document or information does not contain any personal identifiable information, unless such information is otherwise publicly available or is required or authorized by law to be included in the document or information provided. For purposes of this subsection, "personal identifiable information" means (i) a social security number or any other numbers appearing on driver's licenses or other documents issued under Chapter 3 (§ 46.2-300 et seq.) of Title 46.2 or the comparable law of another jurisdiction; (ii) information on credit cards, debit cards, bank accounts, or other electronic billing and payment systems; (iii) a date of birth identified with a particular individual; (iv) the maiden name of an individual's parent; or (v) any financial account number. Nothing in this subsection shall be deemed to require the clerk to alter any document submitted for filing. The clerk may refuse to accept for filing any document that includes personal identifiable information and return it for modification or explanation. The Commission, its members, the clerk of the Commission, and any member of the clerk's staff are immune from liability in any proceeding arising from any acts or omissions in the implementation of this subsection. This subsection shall not be construed to limit, withdraw, or overturn any defense or immunity that exists under statutory or common law.

C. 1. The Commission shall make available for public inspection records related to the administrative activities of the Commission.

2. Disclosure of such records shall not be required, however, if (i) such records are otherwise covered by applicable legal privileges, (ii) disclosure of such records could threaten the safety or security of the Commission's employees, physical plant, or information technology assets or data, or (iii) such records are not publicly available from other public entities under the laws of the Commonwealth, including §§ 2.2-3705.1 and 2.2-4342.

3. Records held by the clerk of the Commission related to business entities shall be made public or held confidential in accordance with laws and regulations applicable specifically to such records.

4. The Commission shall respond within five business days of receiving requests for administrative records. If it is impracticable to provide the records requested within such time period, the Commission shall notify the requester that an additional seven business days will be required, unless due to the scope of the records requested or length of search necessary to locate them the Commission requires additional time, which shall not be unreasonable in length. When any such requested records are not provided, the Commission shall notify the requester of the basis of the denial.
5. As used in this subsection, "administrative activities" means matters related to the Commission's operational responsibilities and operational functions, including its revenues, expenditures, financial management and budgetary practices, personnel policies and practices, and procurement policies and practices. D. Notwithstanding any other provision of law, the clerk may review the circumstances surrounding the execution or delivery of any document associated with any business entity of record in the office of the clerk that was submitted for filing under a business entity statute administered by the Commission pursuant to Title 13.1 or Title 50. If the clerk determines that the person who executed or delivered the document was without authority to act on behalf of the business entity, the clerk is authorized (i) to refuse to accept the document for filing or (ii) if the document has been filed, to summarize remove the document and any documents and data related to the filing from the records in the office of the clerk, correct such records, and provide notice to any business entity affected by the filing. The Commission, its members, the clerk of the Commission, and any member of the clerk's staff are immune from liability in any proceeding arising from any acts or omissions in the implementation of this subsection. This subsection shall not be construed to limit, withdraw, or overturn any defense or immunity that exists under statutory or common law.

§ 16.1-69.40:1. Traffic infractions within authority of traffic violations clerk; schedule of fines; prepayment of local ordinances.

A. The Supreme Court shall by rule, which may from time to time be amended, supplemented or repealed, but which shall be uniform in its application throughout the Commonwealth, designate the traffic infractions for which a pretrial waiver of appearance, plea of guilty and fine payment may be accepted. Such designated infractions shall include violations of §§ 46.2-830.1, 46.2-878.2 and 46.2-1242 or any parallel local ordinances. Notwithstanding any rule of the Supreme Court, a person charged with a traffic offense that is listed as prepayable in the Uniform Fine Schedule may prepay his fines and costs without court appearance whether or not he was involved in an accident. The prepayable fine amount for a violation of § 46.2-878.2 shall be $200 plus an amount per mile-per-hour in excess of posted speed limits, as authorized in § 46.2-878.3.

Such infractions shall not include:
1. Indictable offenses;
2. [Repealed.]
3. 4. Reckless driving;
5. Leaving the scene of an accident;
6. Driving while under suspension or revocation of driver's license driving privileges;
7. Driving without being licensed to drive.

Any person so appearing may enter a waiver of trial and a plea of guilty and pay the fine and any civil penalties established for the offense charged, with costs. He shall, prior to the plea, waiver, and payment, be informed of his right to stand trial, that his signature to a plea of guilty will have the same force and effect as a judgment of court, and that the record of conviction will be sent to the Commissioner of the Department of Motor Vehicles or the appropriate offices of the State where he received his license to drive.

C. The Supreme Court, upon the recommendation of the Committee on District Courts, shall establish a schedule, within the limits prescribed by law, of the amounts of fines and any civil penalties to be imposed, designating each infraction specifically. The schedule, which may from time to time be amended, supplemented or repealed, shall be uniform in its application throughout the Commonwealth. Such schedule shall not be construed or interpreted so as to limit the discretion of any trial judge trying individual cases at the time fixed for trial. The rule of the Supreme Court establishing the schedule shall be prominently posted in the place where the fines are paid. Fines and costs shall be paid in accordance with the provisions of this Code or any rules or regulations promulgated thereunder.

D. Fines imposed under local traffic infraction ordinances that do not parallel provisions of state law and fulfill the criteria set out in subsection A may be prepayable in the manner set forth in subsection B if such ordinances appear in a schedule entered by order of the local circuit courts. The chief judge of each circuit may establish a schedule of the fines, within the limits prescribed by local ordinances, to be imposed for prepayment of local ordinances designating each offense specifically. Upon the entry of such order it shall be forwarded within 10 days to the Supreme Court of Virginia by the clerk of the local circuit court. The schedule, which from time to time may be amended, supplemented or repealed, shall be uniform in its application throughout the circuit. Such schedule shall not be construed or interpreted so as to limit the discretion of any trial judge trying individual cases at the time fixed for trial. This schedule shall be prominently posted in the place where fines are paid. Fines and costs shall be paid in accordance with the provisions of this Code or any rules or regulations promulgated thereunder.

G. The court clerk shall be immune from suit arising from any acts or omissions relating to providing remote access on the Internet pursuant to this section unless the clerk was grossly negligent or engaged in willful misconduct.

This subsection shall not be construed to limit, withdraw, or overturn any defense or immunity already existing in statutory or common law, or to affect any cause of action accruing prior to July 1, 2005.

H. Nothing in this section shall be construed to permit any data accessed by secure remote access to be sold or posted on any other website or in any way redistributed to any third party, and the clerk, in his discretion, may deny secure remote access to ensure compliance with these provisions. However, the data accessed by secure remote access may be included in products or services provided to a third party of the subscriber provided that (i) such data is not made available to the general public and (ii) the subscriber maintains administrative, technical, and security safeguards to protect the confidentiality, integrity, and limited availability of the data.

The provisions of this section shall not apply to divorce decrees where there are no minor children whom the parties have a mutual duty to support.

§ 20-107.1. Court may decree as to maintenance and support of spouses.

A. Pursuant to any proceeding arising under subsection L of § 16.1-241 or upon the entry of a decree providing (i) for the dissolution of a marriage, (ii) for a divorce, whether from the bond of matrimony or from bed and board, (iii) that neither party is entitled to a divorce, or (iv) for separate maintenance, the court may make such further decree as it shall deem expedient concerning the maintenance and support of the spouses, notwithstanding a party's failure to prove his grounds for divorce, provided that a claim for support has been properly pled by the party seeking support. However, the court shall have no authority to decree maintenance and support payable by the estate of a deceased spouse.

B. Any maintenance and support shall be subject to the provisions of § 20-109, and no permanent maintenance and support shall be awarded from a spouse if there exists in such spouse's favor a ground of divorce under the provisions of subdivision A (1) of § 20-91. However, the court may make such an award notwithstanding the existence of such ground if the court determines from clear and convincing evidence, that a denial of support and maintenance would constitute a manifest injustice, based upon the respective degrees of fault during the marriage and the relative economic circumstances of the parties.

C. The court, in its discretion, may decree that maintenance and support of a spouse be made in periodic payments for a defined duration, or in periodic payments for an undefined duration, or in a lump sum award, or in any combination thereof.

D. In addition to or in lieu of an award pursuant to subsection C, the court may reserve the right of a party to receive support in the future. In any case in which the right to support is so reserved, there shall be a rebuttable presumption that the reservation will continue for a period equal to 50 percent of the length of time between the date of the marriage and the date of separation. Once granted, the duration of such a reservation shall not be subject to modification.

E. The court, in determining whether to award support and maintenance for a spouse, shall consider the circumstances and factors which contributed to the dissolution of the marriage, specifically including adultery and any other ground for divorce under the provisions of subdivision A (3) or (6) of § 20-91 or § 20-95. In determining the nature, amount and duration of an award pursuant to this section, the court shall consider the following:

1. The obligations, needs and financial resources of the parties, including but not limited to income from all pension, profit sharing or retirement plans, of whatever nature;
2. The standard of living established during the marriage;
3. The duration of the marriage;
4. The age and physical and mental condition of the parties and any special circumstances of the family;
5. The extent to which the age, physical or mental condition or special circumstances of any child of the parties would make it appropriate that a party not seek employment outside of the home;
6. The contributions, monetary and nonmonetary, of each party to the well-being of the family;
7. The property interests of the parties, both real and personal, tangible and intangible;
8. The provisions made with regard to the marital property under § 20-107.3;
9. The earning capacity, including the skills, education and training of the parties and the present employment opportunities for persons possessing such earning capacity;
10. The opportunity for, ability of, and the time and costs involved for a party to acquire the appropriate education, training and employment to obtain the skills needed to enhance his or her earning ability;
11. The decisions regarding employment, career, economics, education and parenting arrangements made by the parties during the marriage and their effect on present and future earning potential, including the length of time one or both of the parties have been absent from the job market;
12. The extent to which either party has contributed to the attainment of education, training, career position or profession of the other party; and
13. Such other factors, including the tax consequences to each party and the circumstances and factors that contributed to the dissolution, specifically including any ground for divorce, as are necessary to consider the equities between the parties.

F. In contested cases in the circuit courts, any order granting, reserving or denying a request for spousal support shall be accompanied by written findings and conclusions of the court identifying the factors in subsection E which support the court's order. Any order granting or reserving any request for spousal support shall state whether the retirement of either party was contemplated by the court and specifically considered by the court in making its award, and, if so, the order shall state the facts the court contemplated and specifically considered as to the retirement of the party. If the court awards periodic support for a defined duration, such findings shall identify the basis for the nature, amount and duration of the award and, if appropriate, a specification of the events and circumstances reasonably contemplated by the court which support the award.

G. For purposes of this section and § 20-109, "date of separation" means the earliest date at which the parties are physically separated and at least one party intends such separation to be permanent provided the separation is continuous thereafter and "defined duration" means a period of time (i) with a specific beginning and ending date or (ii) specified in relation to the occurrence or cessation of an event or condition other than death or termination pursuant to § 20-110.

H. Where there are no minor children whom the parties have a mutual duty to support, an order directing the payment of spousal support, including those orders confirming separation agreements, entered on or after October 1, 1985, whether they are original orders or modifications of existing orders, shall contain the following:

1. If known, the name, date of birth, and social security number of each party and, unless otherwise ordered, each party's residential and, if different, mailing address, residential and employer telephone number, driver's license and number appearing on a driver's license or other document issued under Chapter 3 (§ 46.2-300 et seq.) of Title 46.2 or the comparable law of another jurisdiction, and the name and address of his or her earning ability;
2. The amount of periodic spousal support expressed in fixed sums, together with the payment interval, the date payments are due, and the date the first payment is due;
3. A statement as to whether there is an order for health care coverage for a party;
4. If support arrearages exist, (i) to whom an arrearage is owed and the amount of the arrearage, (ii) the period of time for which such arrearage is calculated, and (iii) a direction that all payments are to be credited to current spousal support obligations first, with any payment in excess of the current obligation applied to arrearages;
5. If spousal support payments are ordered to be paid directly to the obligee, and unless the court for good cause shown orders otherwise, the parties shall give each other and the court at least 30 days' written notice, in advance, of any change of address and any change of telephone number within 30 days after the change; and
6. Notice that in determination of a spousal support obligation, the support obligation as it becomes due and unpaid creates a judgment by operation of law.

§ 22.1-205. Driver education programs.
A. The Board of Education shall establish for the public school system a standardized program of driver education in the safe operation of motor vehicles. Such program shall consist of classroom training and behind-the-wheel driver training. However, any student who participates in such a program of driver education shall meet the academic requirements established by the Board, and no student in a course shall be permitted to operate a motor vehicle without a license or permit to do so other document issued by the Department of Motor Vehicles under Chapter 3 (§ 46.2-300 et seq.) of Title 46.2, or the comparable law of another jurisdiction, authorizing the operation of a motor vehicle upon the highways.
1. The driver education program shall include (i) instruction concerning (a) alcohol and drug abuse; (b) aggressive driving; (c) distracted driving; (d) motorcycle awareness; (e) organ and tissue donor awareness; (f) fuel-efficient driving practices; and (g) traffic stops, including law-enforcement procedures for traffic stops, appropriate actions to be taken by drivers during traffic stops, and appropriate interactions with law-enforcement officers who initiate traffic stops, and (ii) in Planning District 8, an additional minimum 90-minute parent/student driver education component. The additional parent/student driver education component may be provided to students outside Planning District 8, at the discretion of each local school board.
2. The parent/student driver education component shall be administered as part of the classroom portion of the driver education curriculum. In Planning District 8, the parent/student driver education component shall be administered in-person. Outside Planning District 8, the parent/student driver education component may be administered either in-person or online by a public school or driver training schools that are licensed as computer-based driver education providers. For students in Planning District 8 and those students in school divisions that offer the parent/student component, the participation of the student's parent or guardian shall be required, and the program shall emphasize (i) parental responsibilities regarding juvenile driver behavior, (ii) juvenile driving restrictions pursuant to the Code of Virginia, and (iii) the dangers of driving while intoxicated and underage consumption of alcohol. Such instruction shall be developed by the Department in cooperation with the Virginia Alcohol Safety Action Program, the Department of Health, and the Department of Behavioral Health and Developmental Services, as appropriate. Nothing in this subdivision precludes any school division outside Planning District 8 from including a program of parental involvement as part of a driver education program in addition to or as an alternative to the minimum 90-minute parent/student driver education component.

3. Any driver education program shall require a minimum number of miles driven during the behind-the-wheel driver training.

B. The Board shall assist school divisions by preparation, publication and distribution of competent driver education instructional materials to ensure a more complete understanding of the responsibilities and duties of motor vehicle operators.

C. Each school board shall determine whether to offer the program of driver education in the safe operation of motor vehicles and, if offered, whether such program shall be an elective or a required course. In addition to the fee approved by the Board of Education pursuant to the appropriation act that allows local school boards to charge a per pupil fee for behind-the-wheel driver education, the Board of Education may authorize a local school board’s request to assess a surcharge in order to further recover program costs that exceed state funds distributed through basic aid to school divisions offering driver education programs. Each school board may waive the fee or the surcharge in total or in part for those students it determines cannot pay the fee or surcharge. Only school divisions complying with the standardized program and regulations established by the Board of Education and the provisions of § 46.2-335 shall be entitled to participate in the distribution of state funds appropriated for driver education.

School boards in Planning District 8 shall make the 90-minute parent/student driver education component available to all students and their parents or guardians who are in compliance with § 22.1-254.

D. The actual initial driving instruction shall be conducted, with motor vehicles equipped as may be required by regulation of the Board of Education, on private or public property removed from public highways if practicable; if impracticable, then, at the request of the school board, the Commissioner of Highways shall designate a suitable section of road near the school to be used for such instruction. Such section of road shall be marked with signs, which the Commissioner of Highways shall supply, giving notice of its use for driving instruction. Such signs shall be removed at the close of the instruction period. No vehicle other than those used for driver training shall be operated between such signs at a speed in excess of 25 miles per hour. Violation of this limit shall be a Class 4 misdemeanor.

E. The Board of Education may, in its discretion, promulgate regulations for the use and certification of paraprofessionals as teaching assistants in the driver education programs of school divisions.

F. The Board of Education shall approve correspondence courses for the classroom training component of driver education. These correspondence courses shall be consistent in quality with instructional programs developed by the Board for classroom training in the public schools. Students completing the correspondence courses for classroom training, who are eligible to take behind-the-wheel driver training, may receive behind-the-wheel driver training (i) from a public school, upon payment of the required fee, if the school division offers behind-the-wheel driver training and space is available, (ii) from a driver training school licensed by the Department of Motor Vehicles, or (iii) in the case of a home schooling parent or guardian instructing his own child who meets the requirements for home school instruction under § 22.1-254.1 or subdivision B 1 of § 22.1-254, from a behind-the-wheel training course approved by the Board. Nothing herein shall be construed to require any school division to provide behind-the-wheel driver training to nonpublic school students.

§ 24.2-410.1. Citizenship status; Department of Motor Vehicles to furnish lists of noncitizens.

A. The Department of Motor Vehicles shall include on the application for a driver's license, commercial driver's license, temporary driver's permit, learner's permit, motorcycle learner's permit, special identification card any document, or renewal thereof, issued pursuant to the provisions of Chapter 3 (§ 46.2-300 et seq.) of Title 46.2, as a predicate to offering a voter registration application pursuant to § 24.2-411.1, a statement asking the applicant if he is a United States citizen. If the applicant indicates a noncitizen status, the Department of Motor Vehicles shall not offer that applicant the opportunity to apply for voter registration. If the applicant indicates that he is a United States citizen and that he wishes to register to vote or change his voter registration address, the statement that he is a United States citizen shall become part of the voter registration application offered to the applicant. Information on citizenship status shall not be a determinative factor for the issuance of any document pursuant to the provisions of Chapter 3 (§ 46.2-300 et seq.) of Title 46.2.

B. Additionally, the Department of Motor Vehicles shall furnish monthly to the Department of Elections a complete list of all persons who have indicated a noncitizen status to the Department of Motor Vehicles in obtaining a driver's license, commercial driver's license, temporary driver's permit, learner's permit, motorcycle learner's permit, special identification card any document, or renewal thereof, issued pursuant to the provisions of Chapter 3 (§ 46.2-300 et seq.) of Title 46.2. The
Department of Elections shall transmit the information from the list to the appropriate general registrars. Information in the lists shall be confidential and available only for official use by the Department of Elections and general registrars.

C. For the purposes of this section, the Department of Motor Vehicles is not responsible for verifying the claim of any applicant who indicates United States citizen status when applying for a driver's license, commercial driver's license, temporary driver's permit, learner's permit, motorcycle learner's permit, special identification card, any document, or renewal thereof, issued pursuant to the provisions of Chapter 3 (§ 46.2-300 et seq.) of Title 46.2.

§ 24.2-411.1. Offices of the Department of Motor Vehicles.
A. The Department of Motor Vehicles shall provide the opportunity to register to vote to each person who comes to an office of the Department of Motor Vehicles to:
1. Apply for, replace, or renew a driver's license or other document issued under Chapter 3 (§ 46.2-300 et seq.) of Title 46.2 except driver privilege cards or permits issued pursuant to § 46.2-328.3; or
2. Apply for, replace, or renew a special identification card; or
3. Change an address on an existing driver's license or special identification card or other document issued under Chapter 3 (§ 46.2-300 et seq.) of Title 46.2 except driver privilege cards or permits issued pursuant to § 46.2-328.3.

B. The method used to receive an application for voter registration shall avoid duplication of the license portion of the license application and require only the minimum additional information necessary to enable registrars to determine the voter eligibility of the applicant and to administer voter registration and election laws. A person who does not sign the registration portion of the application shall be deemed to have declined to register at that time. The voter application shall include a statement that, if an applicant declines to register to vote, the fact the applicant has declined to register will remain confidential and will be used only for voter registration purposes.

Each application form distributed under this section shall be accompanied by the following statement featured prominently in boldface capital letters: "WARNING: INTENTIONALLY MAKING A MATERIALLY FALSE STATEMENT ON THIS FORM CONSTITUTES THE CRIME OF ELECTION FRAUD, WHICH IS PUNISHABLE UNDER VIRGINIA LAW AS A FELONY. VIOLATORS MAY BE SENTENCED TO UP TO 10 YEARS IN PRISON, OR UP TO 12 MONTHS IN JAIL AND/OR FINED UP TO $2,500."

Any completed application for voter registration submitted by a person who is already registered shall serve as a written request to update his registration record. Any change of address form submitted for purposes of a motor vehicle driver's license or special identification card or other document issued under Chapter 3 (§ 46.2-300 et seq.) of Title 46.2 shall serve as notification of change of address for voter registration for the registrant involved unless the registrant states on the form that the change of address is not for voter registration purposes. If the information from the notification of change of address for voter registration indicates that the registered voter has moved to another general registrar's jurisdiction within the Commonwealth, the notification shall be treated as a request for transfer from the registered voter. The notification and the registered voter's registration record shall be transmitted as directed by the Department of Elections to the appropriate general registrar who shall send confirmation documents of the transfer to the voter pursuant to § 24.2-424. The Department of Motor Vehicles and Department of Elections shall cooperate in the prompt transmittal by electronic or other means of the notification to the appropriate general registrar.

C. The completed voter registration portion of the application shall be transmitted as directed by the Department of Elections not later than five business days after the date of receipt. The Department of Motor Vehicles and Department of Elections shall cooperate in the prompt transmittal by electronic or other means of the voter registration portion of the application to the appropriate general registrar.

D. The Department of Elections shall maintain statistical records on the number of applications to register to vote with information provided from the Department of Motor Vehicles.

E. A person who provides services at the Department of Motor Vehicles shall not disclose, except as authorized by law for official use, the social security number, or any part thereof, of any applicant for voter registration.

F. The Department of Motor Vehicles shall provide assistance as required in providing voter photo identification cards as provided in subdivision A 3 of § 24.2-404.

§ 24.2-416.7. Application for voter registration by electronic means.
A. Notwithstanding any other provision of law, a person who is qualified to register to vote may apply to register to vote by electronic means as authorized by the State Board by completing an electronic registration application.

B. Notwithstanding any other provision of law, a registered voter may satisfy the requirements of §§ 24.2-423 and 24.2-424 to notify the general registrar of a change of legal name or place of residence within the Commonwealth by electronic means as authorized by the State Board by completing an electronic registration application.

C. An electronic registration application completed pursuant to this article shall require that an applicant:
1. Provide the information as required under § 24.2-418;
2. Have a Virginia driver's license or special identification card or other document issued by the Department of Motor Vehicles under Chapter 3 (§ 46.2-300 et seq.) of Title 46.2;
3. Provide a social security number and Department of Motor Vehicles customer identifier number that matches the applicant's record in the Department of Motor Vehicles records;
4. Attest to the truth of the information provided;
5. Sign the application in a manner consistent with the Uniform Electronic Transactions Act (§ 59.1-479 et seq.); and
§ 24.2-643. Qualified voter permitted to vote; procedures at polling place; voter identification.

A. After the polls are open, each qualified voter at a precinct shall be permitted to vote. The officers of election shall ascertain that a person offering to vote is a qualified voter before admitting him to the voting booth and furnishing an official ballot to him.

B. An officer of election shall ask the voter for his full name and current residence address and the voter may give such information orally or in writing. The officer of election shall repeat, in a voice audible to party and candidate representatives present, the full name and address provided by the voter. The officer shall ask the voter to present any one of the following forms of identification: his valid Virginia driver's license, his valid United States passport, or any other photo identification issued by the Commonwealth, one of its political subdivisions, or the United States, other than a driver privilege card issued under § 46.2-328.3; any valid student identification card containing a photograph of the voter and issued by any institution of higher education located in the Commonwealth or any private school located in the Commonwealth; or any valid employee identification card containing a photograph of the voter and issued by an employer of the voter in the ordinary course of the employer's business.

Any voter who does not show one of the forms of identification specified in this subsection shall be offered a provisional ballot under the provisions of § 24.2-653. The State Board of Elections shall provide an ID-ONLY provisional ballot envelope that requires no follow-up action by the registrar or electoral board other than matching submitted identification documents from the voter for the electoral board to make a determination on whether to count the ballot.

Upon its completion, the voter shall sign the prescribed form, subject to felony penalties for making false statements pursuant to § 24.2-1016, which the officer of election shall then place in an envelope provided for such forms for transmission to the general registrar who shall then transfer or cancel the registration of such voter pursuant to Chapter 4 (§ 24.2-400 et seq.).

D. At the time the voter is asked his full name and current residence address, the officer of election shall ask any voter for whom the pollbook indicates that an identification number other than a social security number is recorded on the Virginia voter registration system if he presently has a social security number. If the voter is able to provide his social security number, he shall be furnished with a voter registration form prescribed by the State Board to update his registration information. Upon its completion, the form shall be placed by the officer of election in an envelope provided for such forms for transmission to the general registrar. your policy. If this insurer has failed to comply with the cancellation or nonrenewal laws, the Commissioner may require that your policy be reinstated. However, the Commissioner is prohibited from making underwriting judgments. If this insurer has complied with the cancellation or nonrenewal laws, the Commissioner does not have the authority to overturn this action.

5. Inform the insured of the possible availability of other insurance which may be obtained through his agent, through another insurer, or through the Virginia Automobile Insurance Plan.

6. If sent by mail or delivered electronically, comply with the provisions of § 38.2-2208.

Nothing in this subsection prohibits any insurer or agent from including in the notice of cancellation or refusal to renew, any additional disclosure statements required by state or federal laws, or any additional information relating to the availability of other insurance.

F. Nothing in this section shall apply:

1. If the insurer or its agent acting on behalf of the insurer has manifested its willingness to renew by issuing or offering to issue a renewal policy, certificate, or other evidence of renewal, or has manifested its willingness to renew in writing to the insured. The written manifestation shall include the name of a proposed insurer, the expiration date of the policy, the type of insurance coverage, and information regarding the estimated renewal premium. The policy shall remain in full force and effect during the pendency of the review by the Commissioner except where the cancellation or refusal to renew is for the reason set forth in subdivision D 2, in which case the policy shall terminate as of the effective date stated in the notice. Where the Commissioner finds from the review that the cancellation or refusal to renew has not complied with the requirements of this section or of § 38.2-2208, he shall immediately notify the insurer, the insured and any other person to whom such notice was required to be given by the terms of the policy that the cancellation or refusal to renew is not effective. Where the Commissioner finds in favor of the insured, the Commissioner in his discretion may award the insured reasonable attorneys’ fees.

I. Each insurer shall maintain for at least one year, records of cancellation and refusal to renew and copies of every notice or statement referred to in subsection E that it sends to any of its insureds.

No insurer is required to renew a policy if the insured becomes a nonresident of Virginia.

K. Notwithstanding any other provision of this section, a motor vehicle insurance policy with a policy period or term of five months or less may expire at its expiration date when the insurer has manifested in writing its willingness to renew the policy for at least 30 days and has mailed or delivered the written manifestation to the insured at least 15 days before the expiration date of the policy. If the Commissioner determines that sufficient authority has not been provided by the requester to show that the purpose for which such information shall be used is one of the requester's official functions, the Commissioner shall refuse to enter into any agreement. If the requester submits a request for information in accordance with this subsection without an existing agreement to receive the information, such request shall be in a manner prescribed by the Department and such request shall contain the legal authority that authorizes the performance of the requester's official functions and a description of how such information will be used to carry out such official functions. If the Commissioner determines that sufficient authority has not been provided by the requester to show that the purpose for which such information shall be used is one of the requester's official functions, the Commissioner shall deny such request.

§ 46.2-330. Expiration and renewal of licenses; examinations required.

A. Every driver's license shall expire on the applicant's birthday at the end of the period of years for which a driver's license has been issued. At no time shall any driver's license be issued for more than eight years or less than five years, unless otherwise provided by law. Thereafter the driver's license shall be renewed on or before the birthday of the licensee and shall be valid for a period not to exceed eight years except as otherwise provided by law. Any driver's license issued to a person age 75 or older shall be issued for a period not to exceed five years. Notwithstanding these limitations, the Commissioner may extend the validity period of an expiring license if (i) the Department is unable to process an application for renewal due to circumstances beyond its control, (ii) the extension has been authorized under a directive from the Governor, and (iii) the license was not issued as a temporary limited-duration driver's license under the provisions of subsection B of § 46.2-328.1. However, in no event shall the validity period be extended more than 90 days per occurrence of such conditions. In determining the number of years for which a driver's license shall be renewed, the Commissioner shall take into consideration the examinations, conditions, requirements, and other criteria provided under this title that relate to the issuance of a license to operate a vehicle. Any driver's license issued to a person required to register pursuant to Chapter 9 (§ 9.1-900 et seq.) of Title 9.1 shall expire on the applicant's birthday in years which the applicant attains an age equally divisible by five.

B. Within one year prior to the date shown on the driver's license as the date of expiration, the Department shall send notice, to the holder thereof, at the address shown on the records of the Department in its driver's license file, that his license will expire on a date specified therein, whether he must be reexamined, and when he may be reexamined. Nonreceipt of the notice shall not extend the period of validity of the driver's license beyond its expiration date. The license holder may request the Department to send such renewal notice to an email or other electronic address, upon provision of such address to the Department.

Any driver's license may be renewed by application after the applicant has taken and successfully completed those parts of the examination provided for in §§ 46.2-311, 46.2-325, and the Virginia Commercial Driver's License Act (§ 46.2-341.1 et seq.), including vision and written tests, other than the parts of the examination requiring the applicant to drive a motor vehicle. All drivers applying in person for renewal of a license shall take and successfully complete the examination each renewal year. Every applicant for a renewal shall appear in person before the Department, unless specifically notified by the Department that renewal may be accomplished in another manner as provided in the notice.
Applicants who are required to appear in person before the Department to apply for a renewal may also be required to present proof of identity, legal presence, residency, and social security number or non-work authorized status.

C. Notwithstanding any other provision of this section, the Commissioner, in his discretion, may require any applicant for renewal to be fully examined as provided in §§ 46.2-311 and 46.2-325 and the Virginia Commercial Driver's License Act (§ 46.2-341.1 et seq.). Furthermore, if the applicant is less than 75 years old, the Commissioner may waive the vision examination for any applicant for renewal of a driver's license that is not a commercial driver's license and the requirement for the taking of the written test as provided in subsection B of this section, § 46.2-325, and the Virginia Commercial Driver's License Act (§ 46.2-341.1 et seq.). However, in no case shall there be any waiver of the vision examination for applicants for renewal of a commercial driver's license or of the knowledge test required by the Virginia Commercial Driver's License Act for the hazardous materials endorsement on a commercial driver's license. No driver's license or learner's permit issued to any person who is 75 years old or older shall be renewed unless the applicant for renewal appears in person and either (i) passes a vision examination or (ii) presents a report of a vision examination, made within 90 days prior thereto by an ophthalmologist or optometrist, indicating that the applicant's vision meets or exceeds the standards contained in § 46.2-311.

D. Every applicant for renewal of a driver's license, whether renewal shall or shall not be dependent on any examination of the applicant, shall appear in person before the Department to apply for renewal, unless specifically notified by the Department that renewal may be accomplished in another manner as provided in the notice.

E. This section shall not modify the provisions of § 46.2-221.2.

F. 1. The Department shall electronically transmit application information, including a photograph, to the Department of State Police, in a format approved by the State Police, for comparison with information contained in the Virginia Criminal Information Network and National Crime Information Center Convicted Sexual Offender Registry files, at the time of the renewal of a driver's license. Whenever it appears from the records of the State Police that a person has failed to comply with the duty to register or reregister pursuant to Chapter 9 (§ 9.1-900 et seq.) of Title 9.1, the State Police shall promptly investigate and, if there is probable cause to believe a violation has occurred, obtain a warrant or assist in obtaining an indictment charging a violation of § 18.2-472.1 in the jurisdiction in which the person last registered or reregistered or in the jurisdiction where the person made application for licensure. The Department of State Police shall electronically transmit to the Department, in a format approved by the Department, for each person required to register pursuant to Chapter 9 of Title 9.1, registry information consisting of the person's name, all aliases that he has used or under which he may have been known, his date of birth, and his social security number as set out in § 9.1-903.

2. For each person required to register pursuant to Chapter 9 of Title 9.1, the Department may not waive the requirement that each such person shall appear for each renewal or the requirement to obtain a photograph in accordance with subsection C of § 46.2-323.

§ 46.2-332. Fees.

On and after January 1, 1990, the fee for each driver's license other than a commercial driver's license shall be $2.40 per year. This fee shall not apply to driver privilege cards or permits issued under § 46.2-328.3. If the license is a commercial driver's license or seasonal restricted commercial driver's license, the fee shall be $6 per year. Persons 21 years old or older may be issued a scenic driver's license, learner's permit, or commercial driver's license for an additional fee of $5. For any one or more driver's license endorsements or classifications, except a motorcycle classification, there shall be an additional fee of $1 per year; for a motorcycle classification, there shall be an additional fee of $2 per year. For any and all driver's license classifications, there shall be an additional fee of $1 per year. For any revalidation of a seasonal restricted commercial driver's license, the fee shall be $5. A fee of $10 shall be charged to extend the validity period of a driver's license pursuant to subsection B of § 46.2-221.2.

In addition to any other fee imposed and collected by the Department, the Department shall impose and collect a service charge of $5 upon each person who carries out the renewal of a driver's license or special identification card in any of the Department's Customer Service Centers if such renewal can be conducted by mail or telephone or by using an electronic medium in a format prescribed by the Commissioner. Such service charge shall not apply if, concurrently with the renewal of the driver's license or special identification card, the person undertakes another transaction at a Customer Service Center that cannot be conducted by mail or telephone or by using an electronic medium in a format prescribed by the Commissioner. Such service charge shall be paid by the Commissioner into the state treasury and shall be set aside as a special fund to be used to meet the expenses of the Department.

A reexamination fee of $2 shall be charged for each administration of the knowledge portion of the driver's license examination taken by an applicant who is 18 years of age or older if taken more than once within a 15-day period. The reexamination fee shall be charged each time the examination is administered until the applicant successfully completes the examination, if taken prior to the fifteenth day.

An applicant who is less than 18 years of age who does not successfully complete the knowledge portion of the driver's license examination shall not be permitted to take the knowledge portion more than once in 15 days.

A fee of $50 shall be charged each time an applicant for a commercial driver's license fails to keep a scheduled skills test appointment, unless such applicant cancels his appointment with the assigned driver's license examiner at least 24 hours in advance of the scheduled appointment. The Commissioner may, on a case-by-case basis, waive such fee for good cause shown. All such fees shall be paid by the Commissioner into the state treasury and set aside as a special fund to be used to meet the necessary expenses incurred by the Department.
If the applicant for a driver's license is an employee of the Commonwealth, or of any county, city, or town who drives a motorcycle or a commercial motor vehicle solely in the line of his duty, he shall be exempt from the additional fee otherwise assessable for a motorcycle classification or a commercial motor vehicle endorsement. The Commissioner may prescribe the forms as may be requisite for completion by persons claiming exemption from additional fees imposed by this section.

No additional fee above $2.40 per year shall be assessed for the driver's license or commercial driver's license required for the operation of a school bus.

Excluding the $2 reexamination fee, $1.50 of all fees collected for each original or renewal driver's license, other than a driver privilege card issued under § 46.2-328.3, shall be paid into the driver education fund of the state treasury and expended as provided by law. Unexpended funds from the driver education fund shall be retained in the fund and be available for expenditure in ensuing years as provided therein.

All fees for motorcycle classifications shall be distributed as provided in § 46.2-1191.

This section shall supersede conflicting provisions of this chapter.

§ 46.2-333.1. Surcharges on certain fees of Department; disposition of proceeds.

Notwithstanding any contrary provision of this chapter, the following surcharges in the following amounts:

1. For the issuance of any driver's license other than a commercial driver's license, or a driver privilege card issued under § 46.2-328.3, $1.60 per year of validity of the license;
2. For the issuance of any commercial driver's license, $1 per year of validity of the license;
3. For the reissuance or replacement of any driver's license, $5; and
4. For the reinstatement of any driver's license, $15.

All surcharges collected by the Department under this section shall be paid into the state treasury and shall be set aside as a special fund to be used to support the operation and activities of the Department's customer service centers.

§ 46.2-335. Learner's permits; fees; certification required.

A. The Department, on receiving from any Virginia resident over the age of 15 years and six months an application for a learner's permit or motorcycle learner's permit, may, subject to the applicant's satisfactory documentation of meeting the requirements of this chapter and successful completion of the written or automated knowledge and vision examinations and, in the case of a motorcycle learner's permit applicant, the automated motorcycle test, issue a permit entitling the applicant, while having the permit in his immediate possession, to drive a motor vehicle or, if the application is made for a motorcycle learner's permit, a motorcycle, on the highways, when accompanied by any licensed driver 21 years of age or older or by his parent or legal guardian, or by a brother, sister, half-brother, half-sister, step-brother, or step-sister 18 years of age or older. The accompanying person shall be (i) alert, able to assist the driver, and actually occupying a seat beside the driver or, for motorcycle instruction, providing immediate supervision from a separate accompanying motor vehicle and (ii) lawfully permitted to operate the motor vehicle or accompanying motorcycle at that time.

The Department shall not, however, issue a learner's permit or motorcycle learner's permit to any minor applicant required to provide evidence of compliance with the compulsory school attendance law set forth in Article 1 (§ 22.1-254 et seq.) of Chapter 14 of Title 22.1, unless such applicant is in good academic standing or, if not in such standing or submitting evidence thereof, whose parent or guardian, having custody of such minor, provides written authorization for the minor to obtain a learner's permit or motorcycle learner's permit, which written authorization shall be obtained on forms provided by the Department and indicating the Commonwealth's interest in the good academic standing and regular school attendance of such minors. Any minor providing proper evidence of the solemnization of his marriage or a certified copy of a court order of emancipation shall not be required to provide the certification of good academic standing or any written authorization from his parent or guardian to obtain a learner's permit or motorcycle learner's permit.

Such permit, except a motorcycle learner's permit, shall be valid until the holder thereof either is issued a driver's license as provided for in this chapter or no longer meets the qualifications for issuance of a learner's permit as provided in this section. Motorcycle learner's permits shall be valid for 12 months. When a motorcycle learner's permit expires, the permittee may, upon submission of an application, payment of the application fee, and successful completion of the examinations, be issued another motorcycle learner's permit valid for 12 months.

Any person 25 years of age or older who is eligible to receive an operator's license in Virginia, but who is required, pursuant to § 46.2-324.1, to be issued a learner's permit for 60 days prior to his first behind-the-wheel exam, may be issued such learner's permit even though restrictions on his driving privilege have been ordered by a court. Any such learner's permit shall be subject to the restrictions ordered by the court.

B. No driver's license shall be issued to any such person who is less than 18 years old unless, while holding a learner's permit, he has driven a motor vehicle for at least 45 hours, at least 15 of which were after sunset, as certified by his parent, foster parent, or legal guardian unless the person is married or otherwise emancipated. Such certification shall be on a form provided by the Commissioner and shall contain the following statement:

"It is illegal for anyone to give false information in connection with obtaining a driver's license. This certification is considered part of the driver's license application, and anyone who certifies to a false statement may be prosecuted. I certify that the statements made and the information submitted by me regarding this certification are true and correct."

Such form shall also include the driver's license or Department of Motor Vehicles-issued identification card number of the person making the certification.
C. No learner's permit shall authorize its holder to operate a motor vehicle with more than one passenger who is less than 21 years old, except when participating in a driver education program approved by the Department of Education or a course offered by a driver training school licensed by the Department. This passenger limitation, however, shall not apply to the members of the driver's family or household as defined in subsection B of § 46.2-334.01.

D. No learner's permit shall authorize its holder to operate a motor vehicle between midnight and four o'clock a.m.

E. Except in a driver emergency or when the vehicle is lawfully parked or stopped, no holder of a learner's permit shall operate a motor vehicle on the highways of the Commonwealth while using any cellular telephone or any other wireless telecommunications device, regardless of whether or not such device is handheld. No citation for a violation of this subsection shall be issued unless the officer issuing such citation has cause to stop or arrest the driver of such motor vehicle for the violation of some other provision of this Code or local ordinance relating to the operation, ownership, or maintenance of a motor vehicle or any criminal statute.

F. A violation of subsection C, D, or E shall not constitute negligence, be considered in mitigation of damages of whatever nature, be admissible in evidence or be the subject of comment by counsel in any action for the recovery of damages arising out of the operation, ownership, or maintenance of a motor vehicle, nor shall anything in this subsection change any existing law, rule, or procedure pertaining to any such civil action.

G. The provisions of §§ 46.2-323 and 46.2-334 relating to evidence and certification of Virginia residence and, in the case of persons of school age, compliance with the compulsory school attendance law shall apply, mutatis mutandis, to applications for learner's permits and motorcycle learner's permits issued under this section.

H. For persons qualifying for a driver's license through driver education courses approved by the Department of Education or courses offered by driver training schools licensed by the Department, the application for the learner's permit shall be used as the application for the driver's license.

I. The Department shall charge a fee of $3 for each learner's permit and motorcycle learner's permit issued under this section. Fees for issuance of learner's permits shall be paid into the driver education fund of the state treasury; fees for issuance of motorcycle learner's permits, other than permits issued under § 46.2-328.3, shall be paid into the state treasury and credited to the Motorcycle Rider Safety Training Program Fund created pursuant to § 46.2-1191. It shall be unlawful for any person, after having received a learner's permit, to drive a motor vehicle without being accompanied by a licensed driver as provided in the foregoing provisions of this section; however, a learner's permit other than a motorcycle learner's permit, accompanied by documentation verifying that the driver is at least 16 years and three months old and has successfully completed an approved driver's education course, signed by the minor's parent, guardian, legal custodian or other person standing in loco parentis, shall constitute a temporary driver's license for the purpose of driving unaccompanied by a licensed driver 18 years of age or older, if all other requirements of this chapter have been met. Such temporary driver's license shall only be valid until the driver has received his permanent license pursuant to § 46.2-336.

J. Nothing in this section shall be construed to permit the issuance of a learner's permit entitling a person to drive a commercial motor vehicle, except as provided by the Virginia Commercial Driver's License Act (§ 46.2-341.1 et seq.).

K. The following limitations shall apply to operation of motorcycles by all persons holding motorcycle learner's permits:

1. The operator shall wear an approved safety helmet as provided in § 46.2-910.
2. Operation shall be under the immediate supervision of a person licensed to operate a motorcycle who is 21 years of age or older.
3. No person other than the operator shall occupy the motorcycle.
4. Any violation of this section shall be punishable as a Class 2 misdemeanor.

§ 46.2-343. Duplicate driver's license, reissued driver's licenses, learner's permit; fees.

If a driver's license or learner's permit issued under the provisions of this chapter is lost, stolen, or destroyed, the person to whom it was issued may obtain a duplicate or substitute thereof on furnishing proof satisfactory to the Department that his license or permit has been lost, stolen, or destroyed, or that there are good reasons why a duplicate should be issued. Every applicant for a duplicate or reissued driver's license shall appear in person before the Department to apply, unless permitted by the Department to apply for duplicate or reissue in another manner. Applicants who are required to apply in person may be required to present proof of identity, legal presence, residency, and social security number or non-work authorized status.

There shall be a fee of **five dollars $5** for each duplicate license and **two dollars $2** for each duplicate learner's permit. An additional fee of **five dollars $5** shall be charged to add or change the scene on a duplicate license or duplicate learner's permit.

There shall be a fee of **five dollars $5** for reissuance of any driver's license upon the termination of driving restrictions imposed upon the licensee by the Department or a court. An additional fee of **five dollars $5** shall be charged to add or change the scene on a license upon reissuance.

A. Except in accordance with a proper judicial order or as otherwise provided by law, the Tax Commissioner or agent, clerk, commissioner of the revenue, treasurer, or any other state or local tax or revenue officer or employee, or any person to whom tax information is divulged pursuant to this section or § 58.1-512 or 58.1-2712.2, or any former officer or employee of any of the aforementioned officers shall not divulge any information acquired by him in the performance of his duties with respect to the transactions, property, including personal property, income or business of any person, firm or corporation.
Such prohibition specifically includes any copy of a federal return or federal return information required by Virginia law to be attached to or included in the Virginia return. This prohibition shall apply to any reports, returns, financial documents or other information filed with the Attorney General pursuant to the provisions of Article 3 (§ 3.2-4204 et seq.) of Chapter 42 of Title 3.2. Any person violating the provisions of this section is guilty of a Class 1 misdemeanor. The provisions of this subsection shall not be applicable, however, to:

1. Matters required by law to be entered on any public assessment roll or book;
2. Acts performed or words spoken, published, or shared with another agency or subdivision of the Commonwealth in the line of duty under state law;
3. Inquiries and investigations to obtain information as to the process of real estate assessments by a duly constituted committee of the General Assembly, or when such inquiry or investigation is relevant to its study, provided that any such information obtained shall be privileged;
4. The sales price, date of construction, physical dimensions or characteristics of real property, or any information required for building permits;
5. Copies of or information contained in an estate's probate tax return, filed with the clerk of court pursuant to § 58.1-1714, when requested by a beneficiary of the estate or an heir at law of the decedent or by the commissioner of accounts making a settlement of accounts filed in such estate;
6. Information regarding nonprofit entities exempt from sales and use tax under § 58.1-609.11, when requested by the General Assembly or any duly constituted committee of the General Assembly;
7. Reports or information filed with the Attorney General by a Stamping Agent pursuant to the provisions of Article 3 (§ 3.2-4204 et seq.), when such reports or information are provided by the Attorney General to a tobacco products manufacturer who is required to establish a qualified escrow fund pursuant to § 3.2-4201 and are limited to the brand families of that manufacturer as listed in the Tobacco Directory established pursuant to § 3.2-4206 and are limited to the current or previous two calendar years or in any year in which the Attorney General receives Stamping Agent information that potentially alters the required escrow deposit of the manufacturer. The information shall only be provided in the following manner: the manufacturer may make a written request, on a quarterly or yearly basis or when the manufacturer is notified by the Attorney General of a potential change in the amount of a required escrow deposit, to the Attorney General for a list of the Stamping Agents who reported stamping or selling its products and the amount reported. The Attorney General shall provide the list within 15 days of receipt of the request. If the manufacturer wishes to obtain actual copies of the reports the Stamping Agents filed with the Attorney General, it must first request them from the Stamping Agents pursuant to subsection C of § 3.2-4209. If the manufacturer does not receive the reports pursuant to subsection C of § 3.2-4209, the manufacturer may make a written request to the Attorney General, including a copy of the prior written request to the Stamping Agent and any response received, for copies of any reports not received. The Attorney General shall provide copies of the reports within 45 days of receipt of the request.

B. 1. Nothing contained in this section shall be construed to prohibit the publication of statistics so classified as to prevent the identification of particular reports or returns and the items thereof or the publication of delinquent lists showing the names of taxpayers who are currently delinquent, together with any relevant information which in the opinion of the Department may assist in the collection of such delinquent taxes. Notwithstanding any other provision of this section or other law, the Department, upon request by the General Assembly or any duly constituted committee of the General Assembly, shall disclose the total aggregate amount of an income tax deduction or credit taken by all taxpayers, regardless of (i) how few taxpayers took the deduction or credit or (ii) any other circumstances. This section shall not be construed to prohibit a local tax official from disclosing whether a person, firm or corporation is licensed to do business in that locality and divulging, upon written request, the name and address of any person, firm or corporation transacting business under a fictitious name. Additionally, notwithstanding any other provision of law, the commissioner of revenue is authorized to provide, upon written request stating the reason for such request, the Tax Commissioner with information obtained from local tax returns and other information pertaining to the income, sales and property of any person, firm or corporation licensed to do business in that locality.

2. Additionally, notwithstanding any other provision of law, the Department is hereby authorized to make available the names and certificate of registration numbers of dealers who are currently registered for retail sales and use tax.

3. This section shall not prohibit the Department from disclosing information to nongovernmental entities with which the Department has entered into a contract to provide services that assist it in the administration of refund processing or other services related to its administration of taxes.

4. This section shall not prohibit the Department from disclosing information to taxpayers regarding whether the taxpayer's employer or another person or entity required to withhold on behalf of such taxpayer submitted withholding records to the Department for a specific taxable year as required pursuant to subdivision C 1 of § 58.1-478.

5. This section shall not prohibit the commissioner of the revenue, treasurer, director of finance, or other similar local official who collects or administers taxes for a county, city, or town from disclosing information to nongovernmental entities with which the locality has entered into a contract to provide services that assist it in the administration of refund processing or other non-audit services related to its administration of taxes. The commissioner of the revenue, treasurer, director of
finance, or other similar local official who collects or administers taxes for a county, city, or town shall not disclose information to such entity unless he has obtained a written acknowledgement by such entity that the confidentiality and nondisclosure obligations of and penalties set forth in subsection A apply to such entity and that such entity agrees to abide by such obligations.

C. Notwithstanding the provisions of subsection A or B or any other provision of this title, the Tax Commissioner is authorized to (i) divulge tax information to any commissioner of the revenue, director of finance, or other similar collector of county, city, or town taxes who, for the performance of his official duties, requests the same in writing setting forth the reasons for such request; § 63.2-1916. Notice of administrative support order; contents; hearing; modification.

The Commissioner may proceed against a noncustodial parent whose support debt has accrued or is accruing based upon subrogation to, assignment of, or authorization to enforce a support obligation. Such obligation may be created by a court order for support of a child or child and spouse or decree of divorce ordering support of a child or child and spouse. In the absence of such a court order or decree of divorce, the Commissioner may, pursuant to this chapter, proceed against a person whose support debt has accrued or is accruing based upon payment of public assistance or who has a responsibility for the support of any dependent child or children and their custodial parent. The administrative support order shall also provide that support shall continue to be paid for any child over the age of 18 who is (i) a full-time high school student, (ii) not self-supporting, and (iii) living in the home of the parent seeking or receiving child support, until such child reaches the age of 19 or graduates from high school, whichever comes first. The Commissioner shall initiate proceedings by issuing notice containing the administrative support order which shall become effective unless timely contested. A modified administrative support order shall be effective the date that notice of the review is served on the nonrequesting party, and the first monthly payment shall be due on the first day of the month following the date of such service and on the first day of each month thereafter. In addition, an amount shall be assessed for the partial month between the effective date of the order and the date that the first monthly payment is due. The assessment for the initial partial month shall be prorated from the effective date through the end of that month, based on the current monthly obligation. All payments are to be credited to current support obligations first, with any payment in excess of the current obligation applied to arrearages, if any;

2. A statement of the name, date of birth, and last four digits of the social security number of the child or children for whom support is being sought;

3. A statement that support shall continue to be paid for any child over the age of 18 who is (i) a full-time high school student, (ii) not self-supporting, and (iii) living in the home of the party seeking or receiving child support, until such child reaches the age of 19 or graduates from high school, whichever comes first;

6. A statement that if no answer is made on or before 10 days from the date of service of the notice, the administrative support order shall be final and enforceable, and the support debt shall be assessed and determined subject to computation, and is subject to collection action;

8. A statement that the parents shall keep the Department informed regarding access to health insurance coverage and health insurance policy information and a statement that health care coverage shall be required for the parents' dependent children if available at reasonable cost as defined in § 63.2-1900, or pursuant to subsection A of § 63.2-1903. If a child is enrolled in Department-sponsored health care coverage, the Department shall collect the cost of the coverage pursuant to subsection E of § 20-108.2;

9. A statement of each party's right to appeal and the procedures applicable to appeals from the decision of the Commissioner;

10. A statement that the obligor's income shall be immediately withheld to comply with this order unless the obligee, or the Department, if the obligee is receiving public assistance, and obligor agree to an alternative arrangement;

11. A statement that any determination of a support obligation under this section creates a judgment by operation of law and as such is entitled to full faith and credit in any other state or jurisdiction;

A statement that if any arrearages for child support, including interest or fees, exist at the time the youngest child included in the order emancipates, payments shall continue in the total amount due (current support plus amount applied toward arrearages) at the time of emancipation until arrearages are paid;

15. A statement that a petition may be filed for suspension of any license, certificate, registration, or other authorization to engage in a profession, trade, business, occupation, or recreational activity issued by the Commonwealth to a parent as provided in § 63.2-1937 upon a delinquency for a period of 90 days or more or in amount of $5,000 or more. The order shall indicate whether either or both parents currently hold such an authorization and, if so, the type of authorization held;

16. A statement that the Department of Motor Vehicles may suspend or refuse to renew the driver's license driving privileges of any person upon receipt of notice from the Department of Social Services that the person (i) is delinquent in the payment of child support by 90 days or in an amount of $5,000 or more or (ii) has failed to comply with a subpoena, summons, or warrant relating to paternity or child support proceedings; and

17. A statement that on and after July 1, 1994, the Department of Social Services, as provided in § 63.2-1921 and in accordance with § 20-108.2, may initiate a review of the amount of support ordered by any court.

If no answer is received by the Commissioner within 10 days of the date of service or acceptance, the administrative support order shall be effective as provided in the notice. The Commissioner may initiate collection procedures pursuant to this chapter, Chapter 11 (§ 16.1-226 et seq.) of Title 16.1 or Title 20. The debtor and the obligee have 10 days from the date of receipt of the notice to file an answer with the Commissioner to exercise the right to an administrative hearing.

Any changes in the amount of the administrative order must be made pursuant to this section. In no event shall an administrative hearing alter or amend the amount or terms of any court order for support or decree of divorce ordering support. No administrative support order may be retroactively modified, but may be modified from the date that notice of the review has been served on the nonrequesting party. Notice of each review shall be served on the nonrequesting party (1) in accordance with the provisions of § 8.01-296, 8.01-327, or 8.01-329, (2) by certified mail, return receipt requested, (3) by electronic means, or (4) by the nonrequesting party executing a waiver. The existence of an administrative order shall not preclude either an obligor or obligee from commencing appropriate proceedings in a juvenile and domestic relations district court or a circuit court.

§ 63.2-1941. Additional enforcement remedies.

In addition to its other enforcement remedies, the Division of Child Support Enforcement is authorized to:

1. Attach unemployment benefits through the Virginia Employment Commission pursuant to § 60.2-608 and workers' compensation benefits through the Workers' Compensation Commission pursuant to § 65.2-531; and

4. That the provisions of this act may result in a net increase in periods of imprisonment or commitment. Pursuant to § 30-19.1:4 of the Code of Virginia, the estimated amount of the necessary appropriation cannot be determined for periods of imprisonment in state adult correctional facilities; therefore, Chapter 854 of the Acts of Assembly of 2019 requires the Virginia Criminal Sentencing Commission to assign a minimum fiscal impact of $50,000. § 15.2-915. Control of firearms; applicability to authorities and local governmental agencies.

A. No locality shall adopt or enforce any ordinance, resolution, or motion, as permitted by § 15.2-1425, and no agent of such locality shall take any administrative action, governing the purchase, possession, transfer, ownership, carrying, storage, or transporting of firearms, ammunition, or components or combination thereof other than those expressly authorized by statute. For purposes of this section, a statute that does not refer to firearms, ammunition, or components or combination thereof, shall not be construed to provide express authorization.

Nothing in this section shall prohibit a locality from adopting workplace rules relating to terms and conditions of employment of the workforce. However, no locality shall adopt any workplace rule, other than for the purposes of a community services board or behavioral health authority as defined in § 37.2-100, that prevents an employee of that locality from storing at that locality’s workplace a lawfully possessed firearm and ammunition in a locked private motor vehicle. Nothing in this section shall prohibit a law-enforcement officer, as defined in § 9.1-101, from acting within the scope of his duties.

The provisions of this section applicable to a locality shall also apply to any authority or to a local governmental entity, including a department or agency, but not including any local or regional jail, juvenile detention facility, or state-governed entity, department, or agency.

B. Any local ordinance, resolution, or motion adopted prior to July 1, 2004, governing the purchase, possession, transfer, ownership, carrying, or transporting of firearms, ammunition, or components or combination thereof, other than those expressly authorized by statute, is invalid.

Notwithstanding the provisions of this section, a locality may adopt an ordinance that prohibits the possession, carrying, or transportation of any firearms, ammunition, or components or combination thereof (i) in any building, or part thereof, owned or used by such locality, or by any authority or local governmental entity created or controlled by the locality, for governmental purposes; (ii) in any public park owned or operated by the locality, or by any authority or local governmental entity created or controlled by the locality; (iii) in any recreation or community center facility operated by the locality, or by any authority or local governmental entity created or controlled by the locality; or (iv) in any public street, road, alley, or sidewalk or public right-of-way or any other place of whatever nature that is open to the public and is being used by or is adjacent to a permitted event or an event that would otherwise require a permit. In buildings that are not owned by a locality, or by any authority or local governmental entity created or controlled by the locality, such ordinance shall apply only to the part of the building that is being used for a governmental purpose and when such building, or part thereof, is being used for a governmental purpose.

Any such ordinance may include security measures that are designed to reasonably prevent the unauthorized access of such buildings, parks, recreation or community center facilities, or public streets, roads, alleys, or sidewalks or public rights-of-way or any other place of whatever nature that is open to the public and is being used by or is adjacent to a permitted event or an event that would otherwise require a permit by a person with any firearms, ammunition, or components or combination thereof, such as the use of metal detectors and increased use of security personnel.

The provisions of this subsection shall not apply to the activities of (i) a Senior Reserve Officers’ Training Corps program operated at a public or private institution of higher education in accordance with the provisions of 10 U.S.C. § 2101 et seq. or (ii) any intercollegiate athletics program operated by a public or private institution of higher education and governed by the National Collegiate Athletic Association or any club sports team recognized by a public or private institution of higher education where the sport engaged in by such program or team involves the use of a firearm. A. No locality or agent of such locality may participate in any program in which individuals are given a thing of value provided by another individual or other entity in exchange for surrendering a firearm to the locality or agent of such locality unless the governing body of the locality has enacted an ordinance, pursuant to § 15.2-1425, authorizing the participation of the locality or agent of such locality in such program.

      education where such evaluation will necessarily involve discussion of the performance of specific individuals. Any teacher
      shall be permitted to be present during a closed meeting in which there is a discussion or consideration of a disciplinary
      matter that involves the teacher and some student and the student involved in the matter is present, provided the teacher
      makes a written request to be present to the presiding officer of the appropriate board. Nothing in this subdivision, however,

      compensation matters that affect the membership of such body or board collectively.
   2. Discussion or consideration of admission or disciplinary matters or any other matters that would involve the
      disclosure of information contained in a scholastic record concerning any student of any public institution of higher

      a minor, the student's parents or legal guardians shall be permitted to be present during the taking of testimony or

      submitted to the presiding officer of the appropriate board.

      held real property, where discussion in an open meeting would adversely affect the bargaining position or negotiating
      strategy of the public body.
   4. The protection of the privacy of individuals in personal matters not related to public business.
   5. Discussion concerning a prospective business or industry or the expansion of an existing business or industry where

      litigation, where such consultation or briefing in open meeting would adversely affect the negotiating or litigating posture of
      the public body. For the purposes of this subdivision, "probable litigation" means litigation that has been specifically
      threatened or on which the public body or its legal counsel has a reasonable basis to believe will be commenced by or
      against a known party. Nothing in this subdivision shall be construed to permit the closure of a meeting merely because an
      attorney representing the public body is in attendance or is consulted on a matter.
   8. Consultation with legal counsel employed or retained by a public body regarding specific legal matters requiring the

§ 59.1-364. Control of racing with pari-mutuel wagering.

A. Horse racing with pari-mutuel wagering as licensed herein shall be permitted in the Commonwealth for the promotion, sustenance and growth of a native industry, in a manner consistent with the health, safety and welfare of the
people. The Virginia Racing Commission is vested with control of all horse racing with pari-mutuel wagering in the Commonwealth, with plenary power to prescribe regulations and conditions under which such racing and wagering shall be conducted, so as to maintain horse racing in the Commonwealth of the highest quality and free of any corrupt, incompetent, dishonest or unprincipled practices and to maintain in such racing complete honesty and integrity. The Virginia Racing Commission shall encourage participation by local individuals and businesses in those activities associated with horse racing.

B. The conduct of any horse racing with pari-mutuel wagering participation in such racing or wagering and entrance to any place where such racing or wagering is conducted is a privilege which may be granted or denied by the Commission or its duly authorized representatives in its discretion in order to effectuate the purposes set forth in this chapter.

2. That the provisions of this act may result in a net increase in periods of imprisonment or commitment. Pursuant to § 30-19.1-4 of the Code of Virginia, the estimated amount of the necessary appropriation cannot be determined for periods of imprisonment in state adult correctional facilities; therefore, Chapter 854 of the Acts of Assembly of 2019 requires the Virginia Criminal Sentencing Commission to assign a minimum fiscal impact of $50,000. Pursuant to § 30-19.1-4 of the Code of Virginia, the estimated amount of the necessary appropriation cannot be determined for periods of commitment to the custody of the Department of Juvenile Justice.

3. That the Virginia Lottery Board shall promulgate regulations to implement the provisions of this act to be effective within 280 days of its enactment.

4. That if the Virginia Lottery (the Lottery) administers a program under which the Lottery issues licenses or permits to operate online sports betting platforms or sports betting facilities, the Lottery shall issue any such licenses or permits to any casino gaming operator licensed under Article 3 (§ 58.1-4108 et seq.) of Chapter 41 of Title 58.1 of the Code of Virginia, as created by this act, regardless of whether such casino gaming operator otherwise meets the requirements for obtaining such license or permit. Any casino gaming operator receiving a license or permit to operate an online sports betting platform and a sports betting facility pursuant to the provisions of this enactment shall be subject to all Virginia statutory or regulatory laws governing sports betting, including: (i) laws defining sports betting and prohibiting any activities related thereto; (ii) fees for applications, licenses, and permits, and any other payments required by the Lottery; and (iii) taxes for offering sports betting. Notwithstanding any law to the contrary, a casino gaming operator receiving a license or permit to operate an online sports betting platform or a sports betting facility pursuant to the provisions of this enactment shall not allow wagering on any athletic event in which at least one participant is a team from a Virginia public or private institution of higher education. Any license or permit issued pursuant to the provisions of this enactment shall expire whenever the casino gaming operator is no longer licensed under Article 3 (§ 58.1-4108 et seq.) of Chapter 41 of Title 58.1 of the Code of Virginia, as created by this act.

5. That there is hereby established the Regional Improvement Commission (the Commission). The membership of the Commission shall consist of one member appointed by the local governing body of each jurisdiction composing the transportation district created pursuant to the Transportation District Act of 1964 (§ 33.2-1900 et seq. of the Code of Virginia) that includes the eligible host city described in subdivision A 3 of § 58.1-4107 of the Code of Virginia, as created by this act. Each member shall be appointed to serve a two-year term. Notwithstanding the provisions of subdivision B 1 of § 58.1-4125 of the Code of Virginia, as created by this act, for a casino gaming establishment located in the eligible host city described in subdivision A 3 of § 58.1-4107 of the Code of Virginia, as created by this act, such transfer, otherwise returned to the city where it was collected, shall instead be made to the Commission. The purpose of the Commission shall be to (i) receive disbursements made to it; (ii) establish funding priorities for member localities related to improvements in the areas of education, transportation, and public safety; and (iii) make annual payments divided equally among the jurisdictions to fund the established priorities as determined by the Commission.

6. That the referendum required by § 58.1-4123 of the Code of Virginia, as created by this act, on the question of whether casino gaming shall be permitted at a casino gaming establishment located in the eligible host city in which such referendum is conducted, shall be conducted in each eligible host city described in subdivisions A 1 through 4 of § 58.1-4107 of the Code of Virginia, as created by this act, at the regular general election held on November 3, 2020, unless a court of competent jurisdiction sets an alternative date.

7. That the Virginia Racing Commission (the Commission) shall authorize an additional 600 historical racing terminals each time a local referendum required by § 58.1-4123 of the Code of Virginia, as created by this act, is approved, provided that the total number of additional machines authorized in this enactment shall not exceed 2,000 statewide. The tax rate for any machine added pursuant to this enactment clause shall be 20 percent as calculated and distributed pursuant to the method used to calculate and distribute such rate in effect for machines in existence as of January 1, 2020. For every 100 additional machines authorized pursuant to this enactment clause, the total number of live horse racing days shall be increased by one day. Excluding machines installed as of March 1, 2020, each location operating historical racing terminals shall be prohibited from having more than forty percent of its terminals manufactured by any single manufacturer. The increase in historical racing terminals shall
not apply with respect to any city where a significant infrastructure limited licensee, as defined in § 59.1-365 of the Code of Virginia, or the affiliate of such licensee is awarded a casino operator's license pursuant to this act. Notwithstanding the provisions of 11VAC10-47-180 and subject to the local referendum requirements of § 59.1-391 of the Code of Virginia, for the machines specifically authorized in this enactment, the Commission shall authorize up to 1,650 machines in a satellite facility in a metropolitan area with a population in excess of 2.5 million located in a jurisdiction that has passed a referendum pursuant to the requirements of § 59.1-391 of the Code of Virginia prior to January 1, 2020, and 500 machines in a metropolitan area with a population in excess of 300,000, provided that no additional machines authorized in this enactment shall be located within 35 miles of an eligible host city as described in § 58.1-4107 of the Code of Virginia, as created by this act. No satellite facility shall be authorized in any locality that is included in the Regional Improvement Commission established in the fifth enactment of this act. Population determinations pursuant to this enactment shall be based on the 2018 population estimates from the Weldon Cooper Center for Public Service of the University of Virginia. Except as provided herein, the Commission shall not be authorized to promulgate regulations to allow or grant a license to authorize historical horse racing terminals in excess of those permitted by the emergency regulations that became effective on October 5, 2018.

8. That a contract between an eligible host city and its preferred casino gaming operator, as those terms are defined in § 58.1-4100 of the Code of Virginia, as created by this act, shall require the operator to agree that any contractor hired for construction on the site of the casino gaming establishment (the site) shall be required to (i) pay the local prevailing wage rate as determined by the U.S. Secretary of Labor under the provisions of the Davis-Bacon Act, 40 U.S.C. § 276 et seq., as amended, to each laborer, workman, and mechanic the contractor employs on the site; (ii) participate in apprenticeship programs that have been certified by the Department of Labor and Industry or the U.S. Department of Labor; (iii) establish preferences for hiring residents of the eligible host city and adjacent localities, veterans, women, and minorities for work performed on the site; (iv) provide health insurance and retirement benefits for all full-time employees performing work on the site; and (v) require that the provisions of clauses (i) through (iv) be included in every subcontract so that the provisions will be binding upon each subcontractor. The contract between an eligible host city and its preferred casino gaming operator shall also require that the operator agree to (a) pay any of its full-time employees performing work on the site an hourly wage or a salary, including tips, that equates to an hourly rate no less than 125 percent of the federal minimum wage; (b) establish preferences for hiring residents of the eligible host city and adjacent localities, veterans, women, and minorities for work performed on the site in compliance with any applicable federal law; (c) provide access to health insurance and retirement savings benefit opportunities for all full-time employees of the operator performing work on the site; and (d) require that any contract for services performed on the site, other than construction, with projected annual services fees exceeding $500,000, meet the requirements of clauses (a), (b), and (c) with regard to full-time personnel of the subcontractor who will be performing services under the contract between the operator and the subcontractor.

B. Every qualified education loan servicer required to be licensed under this chapter shall register with the Registry and be subject to such registration and renewal requirements as may be established by the Registry, in addition to any requirements of this chapter. In adopting regulations pursuant to § 6.2-2622, the Commission shall include any terms, conditions, or requirements applicable to such registration and renewal. Any fees required by the Registry shall be separate and apart from any fees imposed by this chapter. The Commission, at its discretion, may collect any registration and renewal fees on behalf of the Registry and remit such fees to the Registry or permit the Registry to collect any fees imposed by this chapter and remit such fees to the Commission.

C. In connection with its implementation and administration of this chapter, the Commission may establish agreements or contracts with the Registry or other entities designated by the Registry to collect, distribute, and maintain information and records, and process fees, related to qualified education loan servicers required to be licensed under this chapter. In establishing such agreements or contracts, the Commission shall not be subject to the Virginia Public Procurement Act (§ 2.2-4300 et seq.).

§ 6.2-2602. Licensure of qualified education loan servicers; automatic issuance of license for federal student loan servicing contractors.

A. A person seeking to act as a qualified education loan servicer is exempt from the application procedures described in subsections A and B of § 6.2-2603 upon determination by the Commissioner that the person (i) has an agreement with the U.S. Secretary of Education under 20 U.S.C. § 1078(b), solely to the extent of the person's actions as a guarantor that engages in averting defaults, or (ii) is a party to a contract awarded by the U.S. Secretary of Education under 20 U.S.C. § 1087f. The Commissioner shall prescribe the procedure to document eligibility for this exemption.

B. With regard to a person exempted from the application procedures described in subsections A and B of § 6.2-2603 pursuant to subsection A, the Commissioner shall:

C. A person issued a license pursuant to subdivision B 1:

1. Is exempt from subsections A and B of § 6.2-2603; and

2. Shall comply with the record requirements in § 6.2-2608 except to the extent that the requirements are inconsistent with federal law.

Notwithstanding any other provision of this chapter, such person’s license shall automatically expire 30 days after the expiration, revocation, or termination of such person’s contract. A person seeking to act as a qualified education loan servicer following the expiration of its license may apply for a new license by filing an application that meets the requirements of §§ 6.2-2603 and 6.2-2604 and subsection B of § 6.2-2605.

E. With respect to qualified education loan servicing not conducted pursuant to (i) an agreement with the U.S. Secretary of Education under 20 U.S.C. § 1078(b) or (ii) a contract awarded by the U.S. Secretary of Education under 20 U.S.C. § 1087f, nothing in this section prevents the Commission from issuing an order to temporarily or permanently prohibit or bar any person from acting as a qualified education loan servicer or violating applicable law.

F. In the case of qualified education loan servicing conducted pursuant to (i) an agreement with the U.S. Secretary of Education under 20 U.S.C. § 1078(b) or (ii) a contract awarded by the U.S. Secretary of Education under 20 U.S.C. § 1087f, nothing in this section shall prevent the Commission from issuing a cease and desist order or injunction against any qualified education loan servicer to cease activities in violation of this act.

§ 6.2-2603. Application for license; form; content; fee.
A. An application for a license under this chapter shall be made in writing and on a form provided by the Commission.
B. The application shall set forth:

3. Such other information concerning the financial responsibility, background, experience, and general fitness of the applicant and its members, senior officers, directors, trustees, and principals as the Commissioner may require; and
4. Any other pertinent information that the Commissioner may require.
C. The application shall be accompanied by payment of a nonrefundable application fee as prescribed by the Commission. The fee shall not be abated by surrender, suspension, or revocation of the license.
D. If the Commissioner requests information to complete a deficient application and the information is not received within 60 days of the Commissioner’s request, the application shall be deemed abandoned unless a request for an extension of time is received and approved by the Commissioner prior to the expiration of the 60-day period. However, this subsection shall not be construed to prohibit the Commission from denying a license application that does not meet the requirements of this chapter.

§ 6.2-2604. Bond required.
The application for a license shall be accompanied by a bond filed with the Commissioner with corporate surety authorized to execute such bond, in the principal amount as determined by the Commissioner. The amount of the bond shall be not less than $50,000 nor more than $500,000. The form of such bond shall be approved by the Commissioner. Such bond shall be continuously maintained thereafter in full force. Such bond shall be conditioned upon the applicant or licensee performing all written agreements pertaining to qualified education loans, correctly and accurately accounting for all funds received by the applicant or licensee in connection with qualified education loans, and conducting its business in conformity with this chapter and all applicable laws. The aggregate liability under the bond shall not exceed the penal sum of the bond.

§ 6.2-2605. Investigation of applications.
A. The Commissioner may make such investigations as he deems necessary to determine if the applicant has complied with all applicable provisions of law and regulations.
B. For the purpose of investigating individuals who are members, senior officers, directors, trustees, and principals of an applicant, such persons shall consent to a criminal history records check and submit to fingerprinting. Each member, senior officer, director, trustee, and principal shall pay for the cost of such fingerprinting and criminal history records check. Such persons shall cause their fingerprints, personal descriptive information, and records check fees to be submitted to either of the following, as prescribed by the Commissioner:
1. The Bureau, which shall forward these items to the Central Criminal Records Exchange. The Central Criminal Records Exchange shall (i) conduct a search of its own criminal history records and forward such individuals’ fingerprints and personal descriptive information to the Federal Bureau of Investigation for the purpose of obtaining national criminal history record information regarding such individuals and (ii) forward the results of the state and national records searches to the Commissioner or his designee, who shall be an employee of the Commission; or
2. The Registry, provided that it is capable of processing criminal history records checks.
C. If any member, senior officer, director, trustee, or principal of an applicant fails to cause his fingerprints, personal descriptive information, or records check fees to be submitted in accordance with subsection B, the application for a qualified education loan servicer license shall be denied.

§ 6.2-2606. Qualifications.
A. Upon the filing and investigation of an application for a license, compliance by the applicant with the provisions of §§ 6.2-2603 and 6.2-2604, and compliance by the persons identified in subsection B of § 6.2-2605 with the provisions contained therein, the Commission shall issue and deliver to the applicant the license applied for to engage in business under this chapter at the location specified in the application if it finds that:

1. The financial responsibility, character, experience, and general fitness of the applicant and its members, senior officers, directors, trustees, and principals are such as to warrant belief that the business will be operated efficiently and fairly, in the public interest, and in accordance with the law;
2. The application does not contain any false statement of a material fact; and
3. The application does not omit any statement of a material fact that is required by § 6.2-2603.

B. If the Commission fails to make such findings, no license shall be issued and the Commissioner shall notify the applicant of the denial and the reasons for such denial.

§ 6.2-2607. Licenses; place of business; changes; renewal.
A. Each license shall state the address at which the principal place of business is to be conducted and shall state fully the legal name of the licensee as well as any fictitious names by which the licensee is conducting business under this chapter. Licenses shall not be transferable or assignable, by operation of law or otherwise. No licensee shall use any names other than the legal name or fictitious names set forth on the license issued by the Commission.

B. Every licensee shall notify the Commissioner, in writing, at least 30 days prior to relocating its principal place of business and confirm the change in writing within five days after such relocation.

C. Every licensee shall within 10 days notify the Commissioner, in writing, of (i) any change to its legal name; (ii) any change to or additional fictitious name by which the licensee is conducting business under this chapter; and (iii) the name, address, and position of each new member, senior officer, director, trustee, and principal. At the direction of the Commissioner, any such individual shall be treated as a member, senior officer, director, trustee, or principal of an applicant for the purpose of being investigated pursuant to subsection B of § 6.2-2605. The licensee shall provide such other information with respect to the changes and persons identified in this subsection as the Commissioner may reasonably require.

D. Every license shall remain in force until it expires or has been surrendered, revoked, or suspended. The expiration, surrender, revocation, or suspension of a license shall not affect any preexisting legal right or obligation of such licensee.

E. Notwithstanding any other provision of this chapter, a qualified education loan servicer license shall expire at the end of each calendar year unless it is renewed by a licensee prior to the expiration date. A licensee may renew its license by (i) requesting renewal through the Registry and (ii) complying with any requirements associated with such renewal request that are imposed by the Registry. If a qualified education loan servicer license has expired, the Commission may by regulation permit the former licensee to seek license reinstatement after the license expiration date by renewing its license in accordance with this subsection and paying a reinstatement fee as prescribed by the Commission.

§ 6.2-2608. Retention of records; responding to the Bureau.
A. Each licensee shall maintain in its principal place of business such books, accounts, and records as the Commissioner may reasonably require in order to determine whether such person is complying with the provisions of this chapter and other laws applicable to the conduct of its business. Such books, accounts, and records shall be maintained apart and separate from any other business in which the qualified education loan servicer is involved. Each licensee shall maintain adequate records of each qualified education loan transaction for at least three years after final payment is made on such loan or the assignment of such qualified education loan, whichever occurs first.

B. To safeguard the privacy of qualified education loan borrowers, records containing personal financial information shall be shredded, incinerated, or otherwise disposed of by a licensee in a secure manner. Licensees may arrange for the shredding, incineration, or disposal of the records from a business record destruction vendor.

C. When the Bureau requests a written response, books, records, documentation, or other information from a licensee in connection with the Bureau's investigation, enforcement, or examination of compliance with applicable laws, the licensee shall deliver a written response as well as any requested books, records, documentation, or information within the time period specified in the Bureau's request. If no time period is specified, a written response as well as any requested books, records, documentation, or information shall be delivered by the licensee to the Bureau not later than 30 days from the date of such request. In determining the specified time period for responding to the Bureau and when considering a request for an extension of time to respond, the Bureau shall take into consideration the volume and complexity of the requested written response, books, records, documentation, or information and such other factors as the Bureau determines to be relevant under the circumstances.

§ 6.2-2609. Acquisition of control; application.
A. Except as provided in this section, no person shall acquire, directly or indirectly, 25 percent or more of the voting shares of a corporation or 25 percent or more of the ownership of any other person licensed to conduct business under this chapter unless such person first:

1. Files an application with the Commission in such form as the Commissioner may prescribe from time to time;

The Commission shall grant or deny the application within 60 days from the date a completed application accompanied by the required fee is filed unless the period is extended by order of the Commissioner giving the reasons for the extension. If the application is denied, the Commission shall notify the applicant of the denial and the reasons for the denial.

C. The provisions of this section shall not apply to the acquisition of an interest in a licensee (i) directly or indirectly, including an acquisition by merger or consolidation, by or with a person licensed or exempt from licensing under this chapter; (ii) directly or indirectly, by merger or consolidation by or with a person affiliated through common ownership with the licensee; or (iii) bequest, descent, survivorship, or operation of law. § 6.2-2610. Prohibited activities; compliance with federal laws and regulations.
A. No qualified education loan servicer shall:
1. Directly or indirectly employ any scheme, device, or artifice to defraud or mislead qualified education loan borrowers;
2. Engage in any unfair or deceptive act or practice toward any person or misrepresent or omit any material information in connection with the servicing of a qualified education loan, including misrepresenting (i) the amount, nature, or terms of any fee or payment due or claimed to be due on a qualified education loan; (ii) the terms and conditions of the loan agreement; or (iii) the borrower's obligations under the loan;
3. Obtain property by fraud or misrepresentation;
4. Misapply qualified education loan payments to the outstanding balance of a qualified education loan;
5. Provide inaccurate information to a nationally recognized consumer credit bureau;
6. Fail to report both the favorable and unfavorable payment history of the borrower to a nationally recognized consumer credit bureau at least annually if the loan servicer regularly reports information to such a credit bureau;
7. Fail to communicate with an authorized representative of the borrower who provides a written authorization signed by the borrower, provided that the loan servicer may adopt procedures reasonably related to verifying that the representative is in fact authorized to act on behalf of the borrower;
8. Make any false statement of a material fact or omit any material fact in connection with any information provided to the Commissioner or another governmental authority; or
9. Engage in any other prohibited activities identified in regulations adopted by the Commissioner pursuant to this chapter.
B. A qualified education loan servicer shall comply with all federal laws and regulations applicable to the conduct of its licensed business. In addition to any other remedies provided by law, a violation of any such federal law or regulation shall be deemed a violation of this chapter and a basis upon which the Commission may take enforcement action pursuant to § 6.2-2615, 6.2-2617, or 6.2-2618.
C. A qualified education loan servicer shall not engage in abusive acts or practices when servicing a qualified education loan. An act or practice is abusive in connection with the servicing of a qualified education loan if the act or practice does either of the following:
1. Materially interferes with the ability of a borrower to understand a term or condition of a qualified education loan; or
2. Takes unreasonable advantage of:
   a. A lack of understanding on the part of a qualified education loan borrower of the material risks, costs, or conditions of the qualified education loan;
   b. The reasonable reliance by the borrower on a person engaged in the servicing of a qualified education loan to act in the interests of the borrower; or
   c. The reasonable reliance by the borrower on a person engaged in the servicing of a qualified education loan to act in the interests of the borrower; or
c. The inability of a borrower to protect the interests of the borrower when selecting (i) a qualified education loan or (ii) a feature, term, or condition of a qualified education loan.

§ 6.2-2611. Affirmative acts required of qualified education loan servicers.

Except to the extent that this section is inconsistent with any provision of federal law or regulation, and then only to the extent of the inconsistency, a person engaged in qualified education loan servicing shall:

1. Evaluate a qualified education loan borrower for eligibility for an income-driven repayment program prior to placing the borrower in forbearance or default, if an income-driven repayment program is available to the borrower;

2. Respond to a written inquiry from a qualified education loan borrower or the representative of a qualified education loan borrower within 10 business days after receipt of the request and, within 30 business days after receipt of the request, provide information relating to the request and, if applicable, to the action the qualified education loan servicer will take to correct the account or an explanation for the qualified education loan servicer's position that the borrower's account is correct. Such 30-day period may be extended for not more than 15 days if, before the end of the 30-day period, the qualified education loan servicer notifies the borrower, or the borrower's representative, as applicable, of the extension and the reasons for the delay in responding;

3. Not furnish to a consumer reporting agency, during 60 days following receipt of a written request related to a dispute on a borrower's payment on a qualified education loan, information regarding a payment that is the subject of the written request;

4. Except as provided in federal law or required by a qualified education loan agreement, inquire of a borrower how to apply an overpayment to a qualified education loan. A borrower's direction on how to apply an overpayment to a qualified education loan shall remain in effect for any future overpayments during the term of a qualified education loan or until the borrower provides different directions. As used in this subdivision, "overpayment" means a payment on a qualified education loan that exceeds the monthly amount due from a borrower on the qualified education loan, which payment may be referred to as a prepayment;

5. Apply partial payments in a manner that minimizes late fees and negative credit reporting. If loans on a borrower's qualified education loan account have an equal level of delinquency, a qualified education loan servicer shall apply partial payments to satisfy as many individual loan payments as possible on a borrower's account. As used in this subdivision, "partial payment" means a payment on a qualified education loan account that contains multiple individual loans in an amount less than the amount necessary to satisfy the outstanding payment due on all loans in the qualified education loan account, which payment may be referred to as an underpayment;

6. Require, as a condition of a sale, an assignment, or any other transfer of the servicing of a qualified education loan, that the new loan servicer honor all benefits originally represented as available to a qualified education loan borrower during the repayment of the qualified education loan and preserve the availability of the benefits, including any benefits for which the qualified education loan borrower has not yet qualified. If a qualified education loan servicer is not also the loan holder or is not acting on behalf of the loan holder, the loan servicer satisfies the requirement of this subsection by providing the new loan servicer with information necessary for the new loan servicer to honor all benefits originally represented as available to a qualified education loan borrower during the repayment of the qualified education loan and preserve the availability of the benefits, including any benefits for which the loan borrower has not yet qualified.

7. In the event of a sale, assignment, or other transfer of the servicing of a qualified education loan that results in a change in the identity of the person to whom a qualified education loan borrower is required to send payments or direct any communication concerning the qualified education loan:

a. Transfer to the new loan servicer all records regarding the qualified education loan borrower, the account of the loan borrower, and the qualified education loan of the loan borrower. Such records include the repayment status of the qualified education loan borrower and any benefits associated with the qualified education loan of the loan borrower. The transfer of records shall be completed within 45 days after the sale, assignment, or other transfer of the servicing of a qualified education loan;

b. Notify affected qualified education loan borrowers of the sale, assignment, or other transfer of the servicing of a qualified education loan at least seven days before the next payment on the loan is due. The notice shall include (i) the identity of the new qualified education loan servicer; (ii) the effective date of the transfer of the borrower's qualified education loan to the new loan servicer; (iii) the date on which the existing loan servicer will no longer accept payments; and (iv) the contact information for the new loan servicer; and

c. Adopt policies and procedures to verify that the new qualified education loan servicer has received all records regarding the qualified education loan borrower, the account of the qualified education loan borrower, and the qualified education loan of the borrower, including the repayment status of the qualified education loan borrower and any benefits associated with the qualified education loan of the borrower.

§ 6.2-2612. Reporting requirements.

In the course of such investigations and examinations, the owners, members, officers, directors, partners, trustees, and employees of the person being investigated or examined shall, upon demand of the person making such investigation or examination, afford full access to all premises, books, records, and information that the person making such investigation or examination deems necessary.

B. Examinations under this section may be conducted in conjunction with examinations to be performed by representatives of agencies of the federal government or another state. In lieu of conducting an examination, the Commission may accept the examination report of the federal government or another state.

A. In order to defray the costs of their examination, supervision, and regulation, every licensee under this chapter shall pay an annual fee calculated in accordance with a schedule set by the Commission. All such fees shall be assessed on or before April 1 for every calendar year. All such fees shall be paid by the licensee to the State Treasurer on or before May 1 following each assessment.

B. In addition to the annual fee prescribed in subsection A, when it becomes necessary to examine or investigate the books and records of a licensee under this chapter at a location outside the Commonwealth, the licensee shall be liable for and shall pay to the Commission within 30 days of the presentation of an itemized statement the actual travel and reasonable living expenses incurred on account of its examination, supervision, and regulation or shall pay a reasonable per diem rate approved by the Commission.

The notice shall be sent by certified mail to the principal place of business of such licensee and shall state with particularity the grounds for the contemplated action. Within 14 days of mailing the notice, the licensee named therein may file with the Clerk of the Commission a written request for a hearing. If a hearing is requested, the Commission shall not suspend or revoke the license except based upon findings made at such hearing. The hearing shall be conducted in accordance with the Commission's Rules.

§ 6.2-2617. Cease and desist orders.

A. If the Commission determines that any person has violated any provision of this chapter or any regulation adopted by the Commission pursuant thereto, or violated any other law or regulation applicable to the conduct of a licensee's business, the Commission may, upon 21 days' notice in writing, order such person to cease and desist from such practices and to comply with the provisions of this chapter and other applicable laws and regulations. The notice shall be sent by certified mail to the principal place of business of such person or other address authorized under § 12.1-19.1 and shall state the grounds for the contemplated action.

B. Within 14 days of mailing the notice, the person named therein may file with the clerk of the Commission a written request for a hearing. If a hearing is requested, the Commission shall not issue a cease and desist order except on the basis of findings made at the hearing. The hearing shall be conducted in accordance with the Commission's Rules. The

§ 6.2-2618. Civil penalties.

The Commission may impose a civil penalty not exceeding $2,500 upon any person who it determines, in proceedings commenced in accordance with the Commission's Rules, has violated any of the provisions of this chapter or regulations adopted by the Commission pursuant thereto or violated any other law or regulation applicable to conduct of the person's business. For the purposes of this section, each separate violation shall be subject to the civil penalty prescribed in this section, and each day that an unlicensed person engages in the business of a qualified education loan servicer shall constitute a separate violation.

§ 6.2-2619. Private cause of action.

A. A qualified education loan servicer shall:
1. Comply with this chapter.
2. Comply with all applicable federal laws related to qualified education loan servicing, as from time to time amended, and the regulations promulgated thereunder.

B. Any person who suffers damage as a result of the failure of a qualified education loan servicer to comply with the requirements of subdivisions A 1 and 2 may bring an action against that qualified education loan servicer to recover or obtain any of the following:

§ 6.2-2620. Investigating and restraining prohibited acts.

A. Notwithstanding the provisions of § 59.1-199, whenever the Attorney General has reasonable cause to believe that any person has engaged in, or is engaging in, or is about to engage in any violation of this chapter, the Attorney General is empowered to issue a civil investigative demand.

B. Notwithstanding any other provisions of law to the contrary, the Attorney General may cause an action to be brought in the appropriate circuit court in the name of the Commonwealth to enjoin any violation of this chapter. The circuit court having jurisdiction may enjoin such violations notwithstanding the existence of an adequate remedy at law. § 6.2-1524. Required and prohibited activities and conduct.
A. Each licensee shall maintain at all times the minimum unencumbered liquid assets prescribed by this chapter for each license, either (i) in liquid form available for the operation of the business at the location specified in each license or (ii) actually used, whether pledged or not, in the conduct of the business at the location specified in each license § 6.2-1507.

B. A licensee or other person subject to this chapter shall not advertise, display, distribute or broadcast, or cause or permit to be advertised, displayed, distributed or broadcast, in any manner whatsoever, any false, misleading, or deceptive statement or representation with regard to the rates, terms, or conditions for loans made under this chapter. The Commission may require that charges or rates of charge, if stated by a licensee, be stated fully and clearly in such manner as it deems necessary to prevent misunderstanding by prospective borrowers. The Commission may permit or require licensees to refer in their advertising to the fact that their business is under state supervision, subject to conditions imposed by it to prevent false, misleading, or deceptive impression as to the scope or degree of protection provided by this chapter.

C. A licensee shall not take a lien upon real estate as security for any loan made under the provisions of this chapter, except a lien arising upon rendition of a judgment. Any lien taken in violation of this subsection shall be void.

D. A licensee shall, at the time any loan is made, deliver to the borrower, or if there are two or more borrowers to one of them, a statement disclosing (i) the names and addresses of the licensee and of the principal debtor on the loan contract, and (ii) a statement in compliance with Consumer Financial Protection Bureau Regulation Z (12 C.F.R. Part 1026).

E. A licensee shall give the borrower a receipt for all cash payments. The Commission may specify the form and content of such receipts in keeping with the intent and purpose of this chapter.

F. A licensee shall permit payment to be made in advance in whole, or in part equal to one or more full installments. The licensee may apply the payment first to any amounts that are due and unpaid at the time of such payment.

G. A licensee shall, upon repayment of the loan in full, (i) mark plainly every obligation and security other than a security agreement executed by the borrower with the word "Paid" or "Canceled," (ii) mark satisfied any judgment, (iii) restore any pledge, (iv) cancel and return any note and any assignment given by the borrower to the licensee, and (v) release any security agreement or other form of security instrument that no longer secures an outstanding loan between the borrower and the licensee.

H. In the event of collection by foreclosure sale or otherwise, a licensee shall pay and return to the borrower, or to another person entitled thereto, any surplus arising after the payment of the expenses of collection, sale or foreclosure and satisfaction of the debt.

I. A licensee shall not take any confession of judgment or any power of attorney running to himself or to any third person to confess judgment or to appear for the borrower in a judicial proceeding. Any such confession of judgment or power of attorney to confess judgment shall be void.

J. A licensee shall not take any note, promise to pay, or instrument of security in which blanks are left to be filled in after execution, or that does not give the amount of the loan, a clear description of the installment payments required, and the rate of interest charged. A licensee may also include the disclosures required by Consumer Financial Protection Bureau Regulation Z (12 C.F.R. Part 1026) in the note, promise to pay, or instrument of security.

K. Every loan contract shall be in writing, be signed by the borrower, and provide for repayment of the amount loaned in substantially equal monthly installments of principal and interest, and include the following statement: "This loan is made pursuant to Chapter 15 of Title 6.2 of the Code of Virginia." Nothing contained in this chapter shall prevent (i) a loan being considered a new loan because the proceeds of the loan are used to pay an existing loan contract or (ii) a licensee from entering into a loan contract providing for an odd first payment period of up to 45 days and an odd first payment greater than other monthly payments because of such odd first payment period.

§ 6.2-1801. License requirement.
A. B. No person shall engage in the business of arranging or brokering payday, short-term loans for any consumer residing in the Commonwealth, whether or not the person has an office or conducts business at a location in the Commonwealth.

D. Any loan made in violation of this section is void, and no person shall have the right to collect, receive, or retain any principal, interest, fees, or other charges in connection with the loan.

§ 6.2-1803. Application for license; form; content; fee.
A. An application for a license under this chapter shall be made in writing, under oath and on a form provided by the Commissioner.

B. The application shall set forth:

C. The application shall be accompanied by payment of an application fee of $500 or other reasonable amount that the Commission prescribes by regulation.

D. The application fee shall not be refundable in any event. The fee shall not be abated by surrender, suspension, or revocation of the license.

§ 6.2-1804. Bond required.
The application for a license shall be accompanied by a bond filed with the Commissioner with corporate surety authorized to execute such bond in the Commonwealth, in the sum of $10,000 per office, or such greater sum as the Commission may require, but not to exceed a total of $50,000/$500,000. The form of such bond shall be approved by the Commission. The bond shall be continuously maintained thereafter in full force. The bond shall be conditioned upon the applicant or licensee performing all written agreements with borrowers or prospective borrowers, correctly and accurately accounting for all funds received by him in his licensed business, and conducting his licensed business in conformity with this chapter and all other applicable law. Any person who may be damaged by noncompliance of the licensee with any condition of such bond may proceed on such bond against the principal or surety thereon, or both, to recover damages. The aggregate liability under the bond shall not exceed the penal sum of the bond.

§ 6.2-1807. Licenses; places of offices; changes.
A. Each license shall:
   1. State the address of each approved office at which the business is to be conducted;
   2. State fully the name of the licensee; and

B. No licensee shall:

C. Applications for Commission approval to open an additional office or relocate any office shall be made in writing on a form provided by the Commissioner and shall be accompanied by payment of a $150 nonrefundable application fee or other reasonable amount as the Commission may prescribe by regulation. The application shall be approved unless the Commission finds that the applicant does not have the required liquid assets or has not conducted business under this chapter efficiently, fairly, in the public interest, and in accordance with law. The application shall be deemed approved if
notice to the contrary has not been mailed by the Commission to the applicant within 30 days of the date the application is
received by the Commission. After approval, the applicant shall give written notice to the Commissioner within 10 days of
the commencement of business at the additional office or relocated office.

D. Every licensee shall within 10 days notify the Commissioner, in writing, of the closing of any office and of the
name, address, and position of each new senior officer, member, partner, or director and provide such other information with
respect to any such change as the Commissioner may reasonably require.

E. Licenses shall:
1. Not be transferable or assignable, by operation of law or otherwise; and
2. Remain in force until they have been surrendered, revoked, or suspended. The surrender, revocation, or suspension
of a license shall not affect any preexisting legal right or obligation of the licensee.

§ 6.2-1809. Retention of books, accounts, and records.
Every licensee shall maintain in its approved offices such books, accounts and records as the Commission may
reasonably require in order to determine whether such licensee is complying with the provisions of this chapter and
regulations adopted in furtherance thereof. Such books, accounts and records shall be maintained apart and separate from
any other business in which the licensee is involved. Such records relating to payday short-term loans, including copies of
checks given to a licensee as security for such loans, shall be retained for at least three years after final payment is made
on any loan.

§ 6.2-1810. Loan database.
A. The Commission shall certify and contract with one or more third parties to develop, implement, and maintain a
real-time, Internet-accessible database that contains such payday short-term loan information as the Commission may
require from time to time by administrative rule or policy statement. The database shall be operational by January 1, 2009.

B. The following provisions shall apply to the database:
1. Before making a payday short-term loan, a licensee shall query the database through a Commission-certified
database provider and shall retain evidence of the query for the Commission's supervisory review. The database shall allow
a licensee to make a payday short-term loan only if making the loan is permissible under the provisions of this chapter.
During any period that the database is unavailable due to technical problems beyond the licensee's control, a licensee may
rely on the payday loan applicant's written representations, rather than the database's information, to verify that making the
loan applied for is permissible under the provisions of this chapter. Because a licensee may rely on the accuracy of the
applicant's representations and the database's information, a licensee is not subject to any administrative penalty or civil
liability if that information is later determined to be inaccurate.
2. The database provider shall maintain the database, take all actions it deems necessary to protect the confidentiality
and security of the information contained in the database, be responsible for the confidentiality and security of such
information, and own the information contained in the database. The Commission shall have access to and utilize the
database as an a supervision and enforcement tool to ensure licensees' compliance with the provisions of this chapter.
3. Upon a licensee's query, the database shall advise the licensee whether the applicant is eligible for a new payday
short-term loan and, if the applicant is ineligible, the reason for such ineligibility. If the database advises the licensee that
the applicant is ineligible for a payday short-term loan, then the applicant shall direct any inquiry regarding the specific
reason for such ineligibility to the database provider rather than to the licensee. The information contained in the payday
loan database is confidential and exempt from the Freedom of Information Act (§ 2.2-3700 et seq.).
4. If a licensee and borrower consummate a payday loan, then the licensee shall pay a fee to defray the costs of
submitting the database inquiry. The amount of the database inquiry fee shall be calculated in accordance with a schedule
set by the Commission. The schedule shall bear a reasonable relationship to actual cost of the operation of the database. If a
licensee submits a database inquiry but does not consummate a payday loan with the applicant, then the licensee shall not
pay the database inquiry fee. Each licensee shall remit all database inquiry fees directly to the database provider on a weekly
basis.
5. If a borrower enters into a payday short-term loan or pays or otherwise satisfies a payday short-term loan in full, or
if a borrower enters into an extended payment plan as provided in subdivision 26 of § 6.2-1816 or an extended term loan as
provided in subdivision 27 of § 6.2-1816, then the licensee making the loan shall report such event or other information to
the database not later than the close of business on the date of such event.

§ 6.2-1811. Annual report.
A. Each licensee under this chapter shall annually, on or before March 25, file a written report with the Commissioner
containing such information as the Commissioner may require concerning his business and operations during the preceding
calendar year as to each approved office. Reports shall be made under oath and shall be in the form prescribed by the
Commissioner.

B. The Commissioner shall publish annually and make available to the public an analysis of the information required
under this section and other information the Commissioner may choose to include. The published analysis shall include all

charged-off loans;

Unless the Commission requires otherwise by administrative rule or policy statement, a licensee may rely on the loan applicant's written representations with respect to the applicant's obligations to lenders that are licensed under Chapter 22 (§ 6.2-2200 et seq.) but are not affiliates of the licensee, and a licensee is not subject to any administrative penalty or civil liability if such representations are later determined to be inaccurate.

5. A licensee shall not cause any person to be obligated to the licensee in any capacity at any time in the principal amount of more than $500, $2,500.

7. A licensee shall not cause a borrower to be obligated upon more than one loan at any time.

8. A check accepted by a licensee as security for any loan shall be dated as of the date the loan is due not earlier than the date of the first required loan payment shown in the loan agreement.

23. A licensee shall not make a loan to a borrower that includes an acceleration clause or demand feature that permits the licensee, in the event the borrower fails to meet the repayment terms for any outstanding balance, to term the loan in advance of the original maturity date and to demand repayment of the entire outstanding balance, unless both of the following conditions are met: (i) not earlier than 10 days after the borrower’s payment was due, the licensee provides written notice to the borrower of the termination of the loan and (ii) in addition to the outstanding balance, the licensee collects only prorated interest and the fees earned up to termination of the loan. If the borrower fails to pay the amount owed under the extended payment plan when due, then the licensee may immediately accelerate the unpaid loan balance.

d. At each approved office, the licensee shall post a notice in at least 24-point bold type, in a form established or approved by the Commission, informing persons that they may be eligible to enter into an extended payment plan.

e. The licensee shall provide oral notice to any borrower who is eligible to enter into an extended payment plan, at the time a payday loan is made, which notice shall inform the borrower of his ability to pay the payday loan by means of an extended payment plan. [S 479]

Approved April 22, 2020

Be it enacted by the General Assembly of Virginia:
1. That §§ 18.2-308.1:4 and 18.2-308.2:1 of the Code of Virginia are amended and reenacted as follows:

§ 18.2-308.1:4. Purchase or transportation of firearm by persons subject to protective orders; penalties.
A. It is unlawful for any person who is subject to (i) a protective order entered pursuant to § 16.1-253.1, 16.1-253.4, 16.1-278.2, 16.1-279.1, 19.2-152.8, 19.2-152.9, or 19.2-152.10; (ii) an order issued pursuant to subsection B of § 20-103;
(iii) an order entered pursuant to subsection D of § 18.2-60.3; (iv) a preliminary protective order entered pursuant to subsection F of § 16.1-253 where a petition alleging abuse or neglect has been filed; or (v) an order issued by a tribunal of another state, the United States or any of its territories, possessions, or commonwealths, or the District of Columbia pursuant to a statute that is substantially similar to those cited in clauses (i), (ii), (iii), or (iv) to purchase or transport any firearm while the order is in effect. Any person with a concealed handgun permit shall be prohibited from carrying any concealed firearm, and shall surrender his permit to the court entering the order, for the duration of any protective order referred to herein. A violation of this subsection is a Class 1 misdemeanor.

B. In addition to the prohibition set forth in subsection A, it is unlawful for any person who is subject to a protective order entered pursuant to § 16.1-279.1 or 19.2-152.10 or an order issued by a tribunal of another state, the United States or any of its territories, possessions, or commonwealths, or the District of Columbia pursuant to a statute that is substantially similar to § 16.1-279.1 or 19.2-152.10 to knowingly possess any firearm while the order is in effect, provided that for a period of 24 hours after being served with a protective order in accordance with subsection C of § 16.1-279.1 or subsection C of § 19.2-152.10 such person may continue to possess and, notwithstanding the provisions of subsection A, transport any firearm possessed by such person at the time of service for the purposes of surrendering any such firearm to a law-enforcement agency in accordance with subsection C or selling or transferring any such firearm to a dealer as defined in § 18.2-308.2:2 or to any person who is not otherwise prohibited by law from possessing such firearm in accordance with subsection C. A violation of this subsection is a Class 6 felony.

C. Upon issuance of a protective order pursuant to § 16.1-279.1 or 19.2-152.10, the court shall order the person who is subject to the protective order to (i) within 24 hours after being served with a protective order in accordance with subsection C of § 16.1-279.1 or subsection C of § 19.2-152.10 (a) surrender any firearm possessed by such person to a designated local law-enforcement agency, (b) sell or transfer any firearm possessed by such person to a dealer as defined in § 18.2-308.2:2, or (c) sell or transfer any firearm possessed by such person to any person who is not otherwise prohibited by law from possessing such firearm and (ii) within 48 hours after being served with a protective order in accordance with subsection C of § 16.1-279.1 or subsection C of § 19.2-152.10, certify in writing, on a form provided by the Office of the Executive Secretary of the Supreme Court, that such person does not possess any firearms or that all firearms possessed by such person have been surrendered, sold, or transferred and file such certification with the clerk of the court that entered the protective order. The willful failure of any person to certify in writing in accordance with this section that all firearms possessed by such person have been surrendered, sold, or transferred or that such person does not possess any firearms shall constitute contempt of court.

D. The person who is subject to a protective order pursuant to § 16.1-279.1 or 19.2-152.10 shall be provided with the address and hours of operation of a designated local law-enforcement agency and the certification forms when such person is served with a protective order in accordance with subsection C of § 16.1-279.1 or subsection C of § 19.2-152.10.

E. A law-enforcement agency that takes into custody a firearm surrendered to such agency pursuant to subsection C by a person who is subject to a protective order pursuant to § 16.1-279.1 or 19.2-152.10 shall prepare a written receipt containing the name of the person who surrendered the firearm and the manufacturer, model, and serial number of the firearm and provide a copy to such person. Any firearm surrendered to and held by a law-enforcement agency pursuant to subsection C shall be returned by such agency to the person who surrendered the firearm upon the expiration or dissolution of the protective order entered pursuant to § 16.1-279.1 or 19.2-152.10. Such agency shall return the firearm within five days of receiving a written request for the return of the firearm by the person who surrendered the firearm and a copy of the receipt provided to such person by the agency. Prior to returning the firearm to such person, the law-enforcement agency holding the firearm shall confirm that such person is no longer subject to a protective order issued pursuant to § 16.1-279.1 or 19.2-152.10 and is not otherwise prohibited by law from possessing a firearm. A firearm surrendered to a law-enforcement agency pursuant to subsection C may be disposed of in accordance with the provisions of § 13.2-1721 if (i) the person from whom the firearm was seized provides written authorization for such disposal to the agency or (ii) the firearm remains in the possession of the agency more than 120 days after such person is no longer subject to a protective order issued pursuant to § 16.1-279.1 or 19.2-152.10 and such person has not submitted a request in writing for the return of the firearm.

F. Any law-enforcement agency or law-enforcement officer that takes into custody, stores, possesses, or transports a firearm pursuant to this section shall be immune from civil or criminal liability for any damage to or deterioration, loss, or theft of such firearm.

G. The law-enforcement agencies of the counties, cities, and towns within each judicial circuit shall designate, in coordination with each other, and provide to the chief judges of all circuit and district courts within the judicial circuit, one or more local law-enforcement agencies to receive and store firearms pursuant to this section. The law-enforcement agencies shall provide the chief judges with a list that includes the addresses and hours of operation for any law-enforcement agencies so designated that such addresses and hours of operation may be provided to a person served with a protective order in accordance with subsection C of § 16.1-279.1 or subsection C of § 19.2-152.10.

§ 18.2-308.2:1. Prohibiting the selling, etc., of firearms to certain persons.

Any person who sells, barters, gives or furnishes, or has in his possession or under his control with the intent of selling, bartering, giving or furnishing, any firearm to any person he knows is prohibited from possessing or transporting a firearm pursuant to § 18.2-308.1:1, § 18.2-308.1:2, or § 18.2-308.1:3, subsection B of § 18.2-308.1:4, § 18.2-308.2, subsection B of § 18.2-308.2:1, or § 18.2-308.7 shall be guilty of a Class 4 felony. However, this prohibition shall not be applicable when
the person convicted of the felony, adjudicated delinquent or acquitted by reason of insanity has (i) been issued a permit pursuant to subsection C of § 18.2-308.2 or been granted relief pursuant to subsection B of § 18.2-308.1:1, or § 18.2-308.1:2 or 18.2-308.13; (ii) been pardoned or had his political disabilities removed in accordance with subsection B of § 18.2-308.2; or (iii) obtained a permit to ship, transport, possess or receive firearms pursuant to the laws of the United States.

2. That any petition for a protective order promulgated by the Executive Secretary of the Supreme Court of Virginia shall include a provision where the petitioner may indicate whether the petitioner knows or has reason to know that the respondent owns or otherwise possesses any firearms.

3. That the provisions of this act may result in a net increase in periods of imprisonment or commitment. Pursuant to § 30-19.1:4 of the Code of Virginia, the estimated amount of the necessary appropriation cannot be determined for periods of imprisonment in state adult correctional facilities; therefore, Chapter 854 of the Acts of Assembly of 2019 requires the Virginia Criminal Sentencing Commission to assign a minimum fiscal impact of $50,000. Pursuant to § 30-19.1:4 of the Code of Virginia, the estimated amount of the necessary appropriation cannot be determined for periods of commitment to the custody of the Department of Juvenile Justice.

Be it enacted by the General Assembly of Virginia:

1. That §§ 60.2-212, 60.2-229, 60.2-508, 60.2-512, 60.2-513, and 60.2-627 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding sections numbered 60.2-711 through 60.2-716 as follows:

§ 60.2-212. Employment.
A. "Employment" means:
1. Any service including service in interstate commerce, performed for remuneration or under any contract of hire, written or oral, express or implied; and
2. Any service, of whatever nature, performed by an individual for any employing unit, for remuneration or under any contract of hire, written or oral, and irrespective of citizenship or residence of either,
   a. Within the United States, or
   b. On or in connection with an American vessel or American aircraft under a contract of service which is entered into within the United States or during the performance of which and while the individual is employed on the vessel or aircraft it touches at a port in the United States, if such individual performs such services on or in connection with such vessel or aircraft when outside the United States, provided that the operating office, from which the operations of the vessel or aircraft are ordinarily and regularly supervised, managed, directed or controlled, is within the Commonwealth.
B. Notwithstanding subdivision 2 b of subsection A of this section, "employment" means all service performed by an officer or member of the crew of an American vessel on or in connection with such vessel, if the operating office from which the operations of such vessel operating on navigable waters within, or within and without, the United States are ordinarily and regularly supervised, managed, directed and controlled is within the Commonwealth.
C. Services performed by an individual for remuneration shall be deemed to be employment subject to this title unless the Commission determines that such individual is not an employee for purposes of the Federal Insurance Contributions Act and the Federal Unemployment Tax Act, based upon an application of the 20 factors set forth in standard used by the Internal Revenue Service Revenue Ruling 87-41, issued pursuant to 26 C.F.R. 31.3306(i)-1 and 26 C.F.R. 31.3121(d)-1 for such determinations.

Notwithstanding the other provisions of this subsection, wages paid in back pay awards shall be allocated to, and reported as being paid during, the calendar quarter or quarters in which such back pay would have been earned. Severance pay paid at the time of, or subsequent to, separation from employment shall be allocated to the last day of work unless otherwise allocated by the employer. If otherwise allocated, severance pay shall be allocated at a rate not less than the average weekly wage of such employee during the last calendar quarter, and reported as such. Severance pay shall be
deducted from any benefits payable after the Commission's receipt of notification of severance pay by the employer pursuant to § 60.2-603. The reasonable cash value of remuneration payable in any medium other than cash shall be estimated and determined in accordance with rules prescribed by the Commission.

B. The term "wages" shall not include:

1. Subsequent to December 31, 1990, for purposes of taxes only, that part of the remuneration, other than remuneration referred to in the succeeding subdivisions of this subsection, that is greater than $8,000 and is payable during any calendar year to an individual by any employer with respect to employment in this Commonwealth or any other state. If an employer, hereinafter referred to as "successor employer," during any calendar year acquires substantially all of the property used in a trade or business of another employer, hereinafter referred to as a "predecessor," or used in a separate unit of a trade or business of a predecessor, and immediately after the acquisition employs in his trade or business an individual who immediately prior to the acquisition was employed in the trade or business of such predecessor, then, for the purpose of determining whether remuneration, other than remuneration referred to in the succeeding subdivisions of this subsection, with respect to employment equal to $8,000 is payable by the successor to such individual during such calendar year, any remuneration, other than remuneration referred to in the succeeding subdivisions of this subsection, with respect to employment payable, or considered under this subdivision as payable, to such individual by such predecessor during such calendar year and prior to such acquisition shall be considered as payable by the successor employer;

2. The amount of any payment, including any amount paid by an employer for insurance or annuities, or into a fund, to provide for any such payment, made to, or on behalf of, an employee or any of his dependents under a plan or system established by an employer which makes provisions for (i) his employees generally, (ii) for his employees generally and their dependents, (iii) for a class or classes of his employees, or (iv) for a class or classes of his employees and their dependents, on account of:
   a. Retirement;
   b. Sickness or accident disability payments which are received under a workers' compensation law;
   c. Medical or hospitalization expenses in connection with sickness or accident disability;
   d. Death; or
   e. Unemployment benefits under any private plan financed in whole or in part by an employer;

3. The payment by an employer, without deduction from the remuneration of the employee, of the tax imposed upon an employer under § 3101 of the Federal Internal Revenue Code;

4. 5. Remuneration paid in any medium other than cash to an employee for service not in the course of the employer's trade or business; or

6. Any payment, other than vacation or sick pay, made to an employee after the month in which he attains the age of sixty-five, if he did not work for the employer in the period for which such payment is made; or

§ 60.2-508. Period of coverage generally; account required.
Any employing unit which is or becomes an employer subject to this title within any calendar year shall be subject to this title during the whole of such calendar year. Any such employing unit shall establish an account with the Commission by the end of the calendar quarter in which it becomes subject to this title.

§ 60.2-512. Requiring payroll and tax reports and payment of taxes.
A. The Commission is hereby expressly authorized to require the filing of payroll and tax reports, and the payment of the taxes required by § 60.2-511 in monthly, quarterly, semiannual or annual payments as shall be determined by the Commission; however, if the due date for filing of reports or payment of taxes falls on a Saturday, Sunday or legal holiday, the due date shall be extended to the next business day that is not a Saturday, Sunday or legal holiday. Beginning January 1, 2013, employers may file payroll and tax reports, and pay the taxes required by § 60.2-511, annually, in the time, form and manner prescribed by the Commission, if the employment that is the subject of the report of taxes due under this chapter consists exclusively of domestic service in a private home of the employer, as defined in §§ 31.3121 (a)(7)-1, 31.3306 (c)(2)-1, and 31.3401 (a)(3)-1 of the Employment Tax Regulations promulgated pursuant to §§ 3121, 3306, and 3401 of the Internal Revenue Code, as amended. The aggregate amount of taxes shall be fully paid to the Commission on or before January 31 of each year next succeeding the year with respect to employment during which year such taxes are imposed, or in the event the time is extended for filing the return of the taxes imposed by Title IX of the Social Security Act for the year for which such taxes are imposed, then before the expiration of such extension. Taxes due and payable in an amount less than five dollars shall be deemed to be fully paid; however, this does not relieve an employer from filing payroll and tax reports as herein required.

B. Beginning January 1, 1994, through December 31, 2008, employers who report 250 or more employees in any calendar quarter shall file quarterly reports on a magnetic medium using a format prescribed by the Commission. Beginning January 1, 2009, 2021, all employers who report 100 or more employees in any calendar quarter in 2009, or thereafter, shall file quarterly reports on an electronic medium using a format prescribed by the Commission. Waivers will be granted only if the Commission finds this requirement creates an unreasonable burden on the employer. All requests for waiver must be
submitted in writing. Beginning January 1, 2009, 2021, if any employer who reports 100 or more employees in any calendar quarter in 2009, or thereafter, and who has not obtained a waiver by the date the employer's quarterly report is due, fails, without good cause shown, to file electronically, the Commission shall assess upon the employer a penalty of $75, which penalty shall be in addition to the taxes due and payable with respect to such report and to any penalty assessed under subsection B of § 60.2-513. Penalties collected pursuant to this section shall be paid into the Special Unemployment Compensation Administration Fund established pursuant to § 60.2-314.

C. Notwithstanding the provisions of subsection A, no payroll and tax reports shall be filed with respect to an employee of a state or local agency performing intelligence or counterintelligence functions, if the head of such agency has determined that filing such a report could endanger the safety of the employee or compromise an ongoing investigation or intelligence mission.

§ 60.2-513. Failure of employing unit to file reports; assessment and amount of penalty.

A. If any employing unit fails to file with the Commission any report which the Commission deems necessary for the effective administration of this title within 30 days after the Commission requires the same by written notice mailed to the last known address of such employing unit, the Commission may determine on the basis of such information as it may have whether such employing unit is an employer, unless such determination has already been made. Also, on the basis of such information, the Commission may assess the amount of tax due from such employer and shall give written notice of such determination and assessment to such employer. Such determination and assessment shall be final (i) unless such employer, within 30 days after the mailing to the employer at his last known address or other service of the notice of such determination or assessment, applies to the Commission for a review of such determination and assessment or (ii) unless the Commission, on its own motion, sets aside, reduces or increases the same.

B. If any employer had wages payable for a calendar quarter and fails, without good cause shown, to file any report as required of him under this title with respect to wages or taxes, the Commission shall assess upon the employer a penalty of $100, which shall be in addition to the taxes due and payable with respect to such report.

C. For the purposes of this subsection, "newly covered" refers to the time at which an employer initially becomes subject to liability under the provisions of this title. A newly covered employer may shall file by the due date of the calendar quarter in which his account number is assigned by the Commission, without penalty, such employer becomes subject to liability under the provisions of this title. If such employer's report is not filed by that date, and in the absence of good cause shown for the failure to so file, a $100 penalty shall be assessed for each report. Penalties collected pursuant to this section shall be paid into the Special Unemployment Compensation Administration Fund.

§ 60.2-627. Failure to obey subpoenas; orders of court; penalty.

A. Any failure to obey such court order may be punished by the court as contempt.

B. Any person subpoenaed by the Commission who, without just cause, fails or refuses to attend and testify or to answer to any lawful inquiry or to produce books, papers, correspondence, memoranda and other records, when it is within his power to do so, shall be guilty of a Class 1 misdemeanor.

§ 60.2-711. Definitions.

As used in this chapter, unless the context requires a different meaning:

"Affected unit" means a specific plant, department, shift, or other definable unit of an employment unit that has at least two employees to which an approved short-time compensation plan applies.

"Health and retirement benefits" means employer-provided health benefits and retirement benefits under a defined benefit pension plan as defined in § 414(j) of the Internal Revenue Code or contributions under a defined contribution plan as defined in § 414(i) of the Internal Revenue Code that are incidents of employment in addition to the cash remuneration earned.

"Program" means the short-time compensation program established pursuant to this chapter.

"Short-time compensation" means the unemployment benefits payable to employees in an affected unit under an approved short-time compensation plan, as distinguished from the unemployment benefits otherwise payable under the unemployment compensation provisions of this title.

"Work sharing plan" or "plan" means a plan submitted by an employer to the Commission for approval to participate in the Program.

§ 60.2-712. Application to participate in short-time compensation program.

A. The Commission shall establish and implement a short-time compensation program by January 1, 2021. The Program shall meet the requirements of 22 U.S.C. § 3306(v) and all other applicable federal and state laws.
B. An employer that wishes to participate in the Program shall submit to the Commission a signed, written work sharing plan for approval. The Commission shall develop an application form to request approval of a plan and an approval process. The application shall include:

1. The affected unit covered by the plan, including the number of employees in the unit; the percentage of employees in the affected unit covered by the plan; identification of each individual employee in the affected unit by name, social security number, and the employer's unemployment tax account number; and any other information required by the Commission to identify plan participants.

2. A description of how employees in the affected unit will be notified of the employer's participation in the plan if such application is approved, including how the employer will notify those employees in a collective bargaining unit as well as any employees in the affected unit who are not in a collective bargaining unit. If the employer does not intend to provide advance notice to employees in the affected unit, the employer shall explain in a statement in the application why it is not feasible to provide such notice.

3. A requirement that the employer identify, in the application, the usual weekly hours of work for employees in the affected unit and the specific percentage by which their hours will be reduced during all weeks covered by the plan. The percentage of reduction for which a work sharing plan application may be approved shall be not less than 10 percent and not more than 60 percent. If the plan includes any week for which the employer regularly does not provide work, including incidences due to a holiday or other plant closing, then such week shall be identified in the application.

4. Certification by the employer that, if the employer provides health benefits and retirement benefits to any employee whose usual weekly hours of work are reduced under the Program, such benefits will continue to be provided to employees participating in the Program under the same terms and conditions as though the usual weekly hours of work of such employee had not been reduced or to the same extent as other employees not participating in the Program. For defined benefit retirement plans, the hours that are reduced under the plan shall be credited for purposes of participation, vesting, and accrual of benefits as though the usual weekly hours of work had not been reduced. The dollar amount of employer contributions to a defined contribution plan that are based on a percentage of compensation may be less due to the reduction in the employee's compensation.

5. Certification by the employer that the aggregate reduction in work hours is in lieu of layoffs, whether temporary or permanent layoffs or both. The application shall include an estimate of the number of employees who would have been laid off in the absence of the plan. The employer shall also certify that new employees will not be hired in or transferred to an affected unit for the duration of the plan.

6. Certification by the employer that participation in the plan and its implementation is consistent with the employer's obligations under applicable federal and state laws.

7. Agreement by the employer to (i) furnish reports to the Commission relating to the proper conduct of the plan; (ii) allow the Commission access to all records necessary to approve or disapprove the plan application and, after approval of a plan, monitor and evaluate the plan; and (iii) follow any other directives the Commission deems necessary to implement the plan and that are consistent with the requirements for plan applications.

8. Any other provision added to the application by the Commission that the U.S. Secretary of Labor determines to be appropriate for purposes of a work sharing plan.

§ 60.2-713. Approval and disapproval of plan.
The Commission shall approve or disapprove a work sharing plan in writing within 10 working days of its receipt and promptly communicate the decision to the employer. A decision disapproving the plan shall clearly identify the reasons for the disapproval. If a plan is disapproved, the employer may submit a different work sharing plan for approval.

§ 60.2-714. Effective date, duration, and modification of plan.
A. A work sharing plan shall be effective on the date that is mutually agreed upon by the employer and the Commission, which shall be specified in the notice of approval to the employer. The plan shall expire on the date specified in the notice of approval, which shall be either the date at the end of the twelfth full calendar month after its effective date or an earlier date mutually agreed upon by the employer and the Commission. However, if a work sharing plan is revoked by the Commission under subsection B, the plan shall terminate on the date specified in the Commission's written order of revocation. An employer may terminate a plan at any time upon written notice to the Commission. Upon receipt of such notice from the employer, the Commission shall promptly notify each member of the affected unit of the termination date. An employer may submit a new application to participate in another plan at any time after the expiration or termination date.

B. The Commission may revoke approval of a work sharing plan for good cause at any time, including upon the request of any of the affected unit's employees. The revocation order shall be in writing and shall specify the reasons for the revocation and the date the revocation is effective. The Commission may periodically review the operation of each employer's plan to assure that no good cause exists for revocation of the approval of the plan. Good cause shall include failure to comply with the assurances given in the plan, unreasonable revision of productivity standards for the affected unit, conduct or occurrences tending to defeat the intent and effective operation of the plan, and violation of any criteria on which approval of the plan was based.

C. An employer may request a modification of an approved plan by filing a written request to the Commission. The request shall identify the specific provisions proposed to be modified and provide an explanation of why the proposed modification is appropriate for the plan. The Commission shall approve or disapprove the proposed modification in writing within 10 working days and promptly communicate the decision to the employer. An employer is not required to request
approval of a plan modification from the Commission if the change is not substantial, but the employer shall report every
change to the plan to the Commission promptly and in writing.

§ 60.2-715. Eligibility for short-time compensation.
A. An employee is eligible to receive short-time compensation under a work sharing plan with respect to any week only
if the employee is monetarily eligible for unemployment compensation, not otherwise disqualified for unemployment
compensation, and:
1. During the week, the employee is employed as a member of an affected unit under an approved work sharing plan
that was approved prior to that week, and the plan is in effect with respect to the week for which short-time compensation is
claimed; and
2. Notwithstanding any other provisions of this title relating to availability for work and actively seeking work, the
employee is available for the employee's usual hours of work with the short-time compensation employer, which may
include, for purposes of this section, participating in training, including employer-sponsored training or training funded
under the federal Workforce Innovation and Opportunity Act of 2014, to enhance job skills that is approved by the
Commission.
B. Notwithstanding any other provision of law, an employee covered by a work sharing plan is deemed unemployed in
any week during the duration of that plan if the employee’s remuneration as an employee in an affected unit is reduced
based on a reduction of the employee’s usual weekly hours of work under an approved work sharing plan.
C. The short-term compensation program shall not serve as a subsidy of seasonal employment during the off-season,
or as a subsidy of temporary part-time or intermittent employment.

§ 60.2-716. Benefits.
A. The short-time compensation weekly benefit amount shall be the product of the regular weekly unemployment
compensation amount for a week of total unemployment multiplied by the percentage of reduction in the individual's usual
weekly hours of work.
B. An individual may be eligible for short-time compensation or unemployment compensation, as appropriate, except
that (i) no individual shall be eligible for combined benefits in any benefit year in an amount more than the maximum
entitlement established for regular unemployment compensation and (ii) no individual shall be paid short-time
compensation benefits for more than 26 weeks under a plan.
C. Provisions applicable to unemployment compensation claimants shall apply to short-time compensation claimants
to the extent that they are not inconsistent with the Program’s provisions. An individual who files an initial claim for
short-time compensation benefits shall receive a monetary determination.
D. An employee who is not provided any work during a week by the short-time compensation employer, or any other
employer, and who is otherwise eligible for unemployment compensation shall be eligible for the amount of regular
unemployment compensation to which he would otherwise be eligible.
E. An employee who is not provided any work by the short-time compensation employer during a week, but who works
for another employer and is otherwise eligible, may be paid unemployment compensation for that week subject to the
disqualifying income and other provisions applicable to claims for regular compensation.
F. An employee who has received all of the short-time compensation or combined unemployment compensation and
short-time compensation available in a benefit year shall be considered an exhaustee for purposes of extended benefits and,
if otherwise eligible under those provisions, shall be eligible to receive extended benefits.

2. That the provisions of § 30-19.03:1.2 of the Code of Virginia shall not apply to this act.
3. That the provisions of this act shall expire on January 1, 2021, if the Virginia Employment Commission has not, on
or before such date, received adequate funding from the U.S. Department of Labor that covers the costs of
information technology upgrades, training, publicity, and marketing that are incurred by the Virginia Employment
Commission in connection with establishing the short-time compensation program pursuant to the first enactment of
this act.
4. That, if not sooner expired pursuant to the provisions of the third enactment of this act, this act shall expire on
July 1, 2022.

The provisions of Chapter 6 (§ 58.1-600 et seq.) to the contrary notwithstanding, any city or town having general taxing powers established by charter pursuant to or consistent with the provisions of § 15.2-1104 and, to the extent authorized in this chapter, any county may impose excise taxes on cigarettes, admissions, transient room rentals, meals, and travel campgrounds. No such taxes on meals may be imposed on (i) that portion of the amount paid by the purchaser as a discretionary gratuity in addition to the sales price of the meal; (ii) that portion of the amount paid by the purchaser as a mandatory gratuity or service charge added by the restaurant in addition to the sales price of the meal, but only to the extent that such mandatory gratuity or service charge does not exceed 20 percent of the sales price; or (iii) food and beverages sold through vending machines or on any tangible personal property purchased with food coupons issued by the United States Department of Agriculture under the Food Stamp Program or drafts issued through the Virginia Special Supplemental Food Program for Women, Infants, and Children. No such taxes on meals may be imposed when sold or provided by (a) restaurants, as such term is defined in § 35.1-1, to their employees as part of their compensation when no charge is made to the employee; (b) volunteer fire departments and volunteer emergency medical services agencies; nonprofit churches or other religious bodies; or educational, charitable, fraternal, or benevolent organizations, the first three times per calendar year and, beginning with the fourth time, on the first $100,000 of gross receipts per calendar year from sales of meals (excluding gross receipts from the first three times), as a fundraising activity, the gross proceeds of which are to be used by such church, religious body or organization exclusively for nonprofit educational, charitable, benevolent, or religious purposes; (c) churches that serve meals for their members as a regular part of their religious observances; (d) public or private elementary or secondary schools or institutions of higher education to their students or employees; (e) hospitals, medical clinics, convalescent homes, nursing homes, or other extended care facilities to patients or residents thereof; (f) day care centers; (g) homes for the aged, infirm, handicapped, battered women, narcotic addicts, or alcoholics; or (h) age-restricted apartment complexes or residences with restaurants, not open to the public, where meals are served and fees are charged for such food and beverages and are included in rental fees.

In addition, as set forth in § 51.5-98, no blind person operating a vending stand or other business enterprise under the jurisdiction of the Department for the Blind and Vision Impaired and located on property acquired and used by the United States for any military or naval purpose shall be required to collect and remit meals taxes.

B. Notwithstanding any other provision of this section, no city or town shall levy any tax under this section upon alcoholic beverages sold in factory sealed containers and purchased for off-premises consumption or food purchased for human consumption as "food" is defined in the Food Stamp Act of 1977, 7 U.S.C. § 2012, as amended, and federal regulations adopted pursuant to that act, except for the following items: sandwiches, salad bar items sold from a salad bar, prepackaged single-serving salads consisting primarily of an assortment of vegetables, and nonfactory sealed beverages.

C. Any city or town that is authorized to levy a tax on admissions may levy the tax on admissions paid for any event held at facilities that are not owned by the city or town at a lower rate than the rate levied on admissions paid for any event held at its city- or town-owned civic centers, stadiums, and amphitheaters.

3. That the provisions of this act amending §§ 58.1-3819, 58.1-3823, as it is currently effective and as it may become effective, and 58.1-3825.3 of the Code of Virginia shall become effective May 1, 2021, and that the provisions of this act amending § 58.1-3830 of the Code of Virginia shall become effective on July 1, 2021.

4. That notwithstanding the provisions of this act, no county that held a referendum pursuant to § 58.1-3833 of the Code of Virginia prior to July 1, 2020, that was defeated may impose a tax pursuant to § 58.1-3833 of the Code of Virginia until six years after the date of such referendum, unless a successful referendum was held after the defeated referendum and before July 1, 2020.

5. That the Division of Legislative Services (the Division) shall convene a work group of stakeholders to identify and make recommendations as to other amendments necessary, including repealing obsolete provisions and making technical amendments to existing provisions, to the Code of Virginia to effectuate the provisions of this act. The Division also shall identify the different legal authorities and requirements that apply to cities and counties that are not related to taxation, including those related to the provision of local services and related to sovereign immunity. CHAPTER 1264

An Act to amend the Code of Virginia by adding a section numbered 56-594.3, relating to electric utility regulation; shared solar programs.

Approved April 22, 2020

[S 629]

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding a section numbered 56-594.3 as follows:

§ 56-594.3. Shared solar programs.

A. As used in this section:

"Applicable bill credit rate" means the dollar-per-kilowatt-hour rate used to calculate the subscriber's bill credit.

"Bill credit" means the monetary value of the electricity, in kilowatt-hours, generated by the shared solar facility allocated to a subscriber to offset that subscriber's electricity bill.

"Low-income customer" means any person or household whose income is no more than 80 percent of the median income of the locality in which the customer resides. The median income of the locality is determined by the U.S. Department of Housing and Urban Development.

"Low-income service organization" means a nonresidential customer of an investor-owned utility whose primary purpose is to serve low-income individuals and households.

"Low-income shared solar facility" means a shared solar facility at least 30 percent of the capacity of which is subscribed by low-income customers or low-income service organizations.

"Minimum bill" means an amount determined by the Commission under subsection D that subscribers are required to, at a minimum, pay on their utility bill each month after accounting for any bill credits.

"Phase II Utility" has the same meaning as provided in subdivision A 1 of § 56-585.1.

"Shared solar facility" means a facility that:

1. Generates electricity by means of a solar photovoltaic device with a nameplate capacity rating that does not exceed 5,000 kilowatts of alternating current;
2. Is located in the service territory of an investor-owned electric utility;
3. Is connected to the electric distribution grid serving the Commonwealth;
4. Has at least three subscribers;
5. Has at least 40 percent of its capacity subscribed by customers with subscriptions of 25 kilowatts or less; and
6. Is located on a single parcel of land.

"Shared solar program" or "program" means the program created through the adoption of rules to allow for the development of shared solar facilities.

"Subscriber" means a retail customer of a utility that (i) owns one or more subscriptions of a shared solar facility that is interconnected with the utility and (ii) receives service in the service territory of the same utility in whose service territory the shared solar facility is located.

"Subscriber organization" means any for-profit or nonprofit entity that owns or operates one or more shared solar facilities. A subscriber organization shall not be considered a utility solely as a result of its ownership or operation of a shared solar facility.

"Subscription" means a contract or other agreement between a subscriber and the owner of a shared solar facility. A subscription shall be sized such that the estimated bill credits do not exceed the subscriber's average annual bill for the customer account to which the subscription is attributed.

"Utility" means a Phase II Utility.

B. The Commission shall establish by regulation a program that affords customers of a Phase II Utility the opportunity to participate in shared solar projects. Under its shared solar program, a utility shall provide a bill credit for the proportional output of a shared solar facility attributable to that subscriber. The shared solar program shall be administered as follows:

1. The value of the bill credit for the subscriber shall be calculated by multiplying the subscriber's portion of the kilowatt-hour electricity production from the shared solar facility by the applicable bill credit rate for the subscriber. Any amount of the bill credit that exceeds the subscriber's monthly bill, minus the minimum bill, shall be carried over and applied to the next month's bill.
2. The utility shall provide bill credits to a shared solar facility's subscribers for not less than 25 years from the date the shared solar facility becomes commercially operational.
3. The subscriber organization shall, on a monthly basis, in a standardized electronic format, and pursuant to guidelines established by the Commission, provide to the utility a subscriber list indicating the kilowatt-hours of generation
attributable to each of the subscribers participating in a shared solar facility in accordance with the subscriber's portion of the output of the shared solar facility.

4. Subscriber lists may be updated monthly to reflect canceling subscribers and to add new subscribers. The utility shall apply bill credits to subscriber bills within two billing cycles following the cycle during which the energy was generated by the shared solar facility.

5. Each utility shall, on a monthly basis and in a standardized electronic format, provide to the subscriber organization a report indicating the total value of bill credits generated by the shared solar facility in the prior month, as well as the amount of the bill credit applied to each subscriber.

6. A subscriber organization may accumulate bill credits in the event that all of the electricity generated by a shared solar facility is not allocated to subscribers in a given month. On an annual basis and pursuant to guidelines established by the Commission, the subscriber organization shall furnish to the utility allocation instructions for distributing excess bill credits to subscribers.

7. All environmental attributes associated with a shared solar facility, including renewable energy certificates, shall be considered property of the subscriber organization. At the subscriber organization's discretion, such environmental attributes may be distributed to the subscribers, sold to load-serving entities with compliance obligations or other buyers, accumulated, or retired.

C. Each subscriber shall pay a minimum bill, established pursuant to subsection D, and shall receive an applicable bill credit based on the subscriber's customer class of residential, commercial, or industrial. Each class's applicable credit rate shall be calculated by the Commission annually by dividing revenues to the class by sales, measured in kilowatt-hours, to that class to yield a bill credit rate for the class ($/kWh).

D. The Commission shall establish a minimum bill, which shall include the costs of all utility infrastructure and services used to provide electric service and administrative costs of the shared solar program. The Commission may modify the minimum bill over time. In establishing the minimum bill, the Commission shall (i) consider further costs the Commission deems relevant to ensure subscribing customers pay a fair share of the costs of providing electric services and (ii) minimize the costs shifted to customers not in a shared solar program. Low-income customers shall be exempt from the minimum bill.

E. The Commission shall approve a shared solar facility program of 150 megawatts with a minimum requirement of 30 percent low-income customers. The Commission shall approve an additional 50 megawatts of capacity upon determining that at least 45 megawatts of the aggregated shared solar capacity in the Commonwealth have been subscribed to by low-income customers. Subscriber organizations shall be allowed to demonstrate compliance with the low income requirement using either project capacity or project savings methodology. The Commission, in collaboration with the Department of Mines, Minerals and Energy, may adopt mechanisms to ensure low-income customer participation.

F. The Commission shall establish by regulation a shared solar program that complies with the provisions of subsections B, C, D, and E by January 1, 2021, and shall require each utility to file any tariffs, agreements, or forms necessary for implementation of the program within 60 days of the utility's full implementation of a new customer information platform or by July 1, 2023, whichever occurs first. Any rule or utility implementation filings approved by the Commission shall:

1. Reasonably allow for the creation of shared solar facilities;
2. Allow all customer classes to participate in the program;
3. Create a stakeholder working group including low-income community representatives and community solar providers to facilitate low-income customer and low-income service organization participation in the program;
4. Encourage public-private partnerships to further the Commonwealth's clean energy and equity goals, such as state agency and affordable housing provider participation in the program as subscribers of shared solar projects;
5. Not remove a customer from its otherwise applicable customer class in order to participate in a shared solar facility;
6. Reasonably allow for the transferability and portability of subscriptions, including allowing a subscriber to retain a subscription to a shared solar facility if the subscriber moves within the same utility's service territory;
7. Establish standards, fees, and processes for the interconnection of shared solar facilities that allow the utility to recover reasonable interconnection costs for each shared solar facility;
8. Adopt standardized consumer disclosure forms;
9. Allow the utility the opportunity to recover reasonable costs of administering the program;
10. Ensure nondiscriminatory and efficient requirements and utility procedures for interconnecting projects;
11. Address the co-location of two or more shared solar facilities on a single parcel of land and provide guidelines for determining when two or more facilities are co-located;
12. Include a program implementation schedule;
13. Prohibit credit checks as a means of establishing eligibility for residential customers to become subscribers;
14. Require net crediting functionality as part of any new customer information platform approved by the Commission.

Under net crediting, the utility shall include the shared solar subscription fee on the customer's utility bill and provide the customer with a net credit equivalent to the total bill credit value for that generation period minus the shared solar subscription fee as set by the subscriber organization. The net crediting fee shall not exceed one percent of the bill credit value. Net crediting shall be optional for subscriber organizations, and any shared solar subscription fees charged via the
net crediting model shall be set to ensure that subscribers do not pay more in subscription fees than they receive in bill credits; and

15. Allow the utility to recover as the cost of purchased power pursuant to § 56-249.6 any difference between the bill credit provided to the subscriber and the cost of energy injected into the grid by the subscriber organization.

G. Within 180 days of finalization of the Commission's adoption of regulations for the shared solar program, a utility shall, provided that the utility has successfully implemented its customer information platform, begin crediting subscriber accounts of each shared solar facility interconnected in its service territory, subject to the requirements of this section and regulations adopted thereto.

CHAPTER 1265

An Act to amend and reenact §§ 24.2-304.1, 30-265, and 53.1-10 of the Code of Virginia and to amend the Code of Virginia by adding in Article 2 of Chapter 3 of Title 24.2 a section numbered 24.2-304.04, by adding in Chapter 3 of Title 24.2 an article numbered 5, consisting of a section numbered 24.2-314, and by adding a section numbered 53.1-5.2, relating to redistricting; congressional and state legislative districts; standards and criteria; population data.

Approved April 22, 2020

Be it enacted by the General Assembly of Virginia:

1. That §§ 24.2-304.1, 30-265, and 53.1-10 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding in Article 2 of Chapter 3 of Title 24.2 a section numbered 24.2-304.04, by adding in Chapter 3 of Title 24.2 an article numbered 5, consisting of a section numbered 24.2-314, and by adding a section numbered 53.1-5.2 as follows:

§ 24.2-304.04. Standards and criteria for congressional and state legislative districts.

Every congressional and state legislative district shall be constituted as to give, as nearly as is practicable, representation in proportion to the population of the district. A deviation of no more than five percent shall be permitted for state legislative districts.

2. Districts shall be drawn in accordance with the requirements of the Constitution of the United States, including the Equal Protection Clause of the Fourteenth Amendment, and the Constitution of Virginia; federal and state laws, including the federal Voting Rights Act of 1965, as amended; and relevant judicial decisions relating to racial and ethnic fairness.

3. No district shall be drawn that results in a denial or abridgment of the right of any citizen to vote on account of race or color or membership in a language minority group. No district shall be drawn that results in a denial or abridgment of the rights of any racial or language minority group to participate in the political process and to elect representatives of their choice. A violation of this subdivision is established if, on the basis of the totality of the circumstances, it is shown that districts were drawn in such a way that members of a racial or language minority group are dispersed into districts in which they constitute an ineffective minority of voters or are concentrated into districts where they constitute an excessive majority. The extent to which members of a racial or language minority group have been elected to office in the state or the political subdivision is one circumstance that may be considered. Nothing in this subdivision shall establish a right to have members of a racial or language minority group elected in numbers equal to their proportion in the population.

4. Districts shall be drawn to give racial and language minorities an equal opportunity to participate in the political process and shall not dilute or diminish their ability to elect candidates of choice either alone or in coalition with others.

5. Districts shall be drawn to preserve communities of interest. For purposes of this subdivision, a "community of interest" means a neighborhood or any geographically defined group of people living in an area who share similar social, cultural, and economic interests. A "community of interest" does not include a community based upon political affiliation or relationship with a political party, elected official, or candidate for office.

6. Districts shall be composed of contiguous territory, with no district contiguous only by connections by water running downstream or upriver, and political boundaries may be considered.

7. Districts shall be composed of compact territory and shall be drawn employing one or more standard numerical measures of individual and average district compactness, both statewide and district by district.

8. A map of districts shall not, when considered on a statewide basis, unduly favor or disfavor any political party.

9. The whole number of persons reported in the most recent federal decennial census by the United States Bureau of the Census shall be the basis for determining district populations, except that no person shall be deemed to have gained or lost a residence by reason of conviction and incarceration in a federal, state, or local correctional facility. Persons incarcerated in a federal, state, or local correctional facility shall be counted in the locality of their address at the time of incarceration, and the Division of Legislative Services shall adjust the census data pursuant to § 24.2-314 for this purpose.

§ 24.2-304.1. At-large and district elections; reapportionment and redistricting of districts or wards; limits.

A. Except as otherwise specifically limited by general law or special act, the governing body of each county, city, or town may provide by ordinance for the election of its members on any of the following bases: (i) at large from the county, city, or town; (ii) from single-member or multi-member districts or wards, or any combination thereof; or (iii) from any
combination of at-large, single-member, and multi-member districts or wards. A change in the basis for electing the members of the governing body shall not constitute a change in the form of county government.

B. If the members are elected from districts or wards and other than entirely at large from the locality, the districts or wards shall be composed of contiguous and compact territory and shall be so constituted as to give, as nearly as is practicable, representation in proportion to the population of the district or ward. In 1971 and every 10 years thereafter, the governing body of each such locality shall reapportion the representation among the districts or wards, including, if the governing body deems it appropriate, increasing or diminishing the number of such districts or wards, in order to give, as nearly as is practicable, representation on the basis of population.

C. For the purposes of redistricting and reapportioning representation in 2001 and every 10 years thereafter, the governing body of a county, city, or town shall use the most recent decennial population figures for such county, city, or town from the United States Bureau of the Census, which figures are identical to those from the actual enumeration conducted by the United States Bureau of the Census for the apportionment of representatives in the United States House of Representatives, except that the figures are adjusted by the Division of Legislative Services pursuant to § 24.2-314. The census data for these redistricting and apportionment purposes will not include any population figure that is not allocated to specific census blocks within the Commonwealth, even though that population may have been included in the apportionment population figures of the Commonwealth for the purpose of allocating United States House of Representatives seats among the states. The governing body of any county, city, or town may elect to exclude the adult inmate population of any federal, state, or regional adult correctional facility located in the locality from the population figures used for the purposes of the decennial reapportionment and redistricting. The adult inmate population so excluded shall be based on information provided by the facility as to the adult inmate population at the facility on the date of the decennial census.

D. Notwithstanding any other provision of general law or special act, the governing body of a county, city, or town shall not reapportion the representation in the governing body at any time other than that required following the decennial census, except as (i) provided by law upon a change in the boundaries of the county, city, or town that results in an increase or decrease in the population of the county, city, or town of more than one percent, (ii) the result of a court order, (iii) the result of a change in the form of government, or (iv) the result of an increase or decrease in the number of districts or wards other than at-large districts or wards. The foregoing provisions notwithstanding, the governing body subsequent to the decennial redistricting may adjust district or ward boundaries in order that the boundaries might coincide with state legislative or congressional district boundaries; however, no adjustment shall affect more than five percent of the population of a ward or district or 250 persons, whichever is lesser. If districts created by a reapportionment enacted subsequent to a decennial reapportionment are invalid under the provisions of this subsection, the immediately preexisting districts shall remain in force and effect until validly reapportioned in accordance with law.

Article 5.

§ 24.2-314. Population data; reallocation of prison populations.

A. Persons incarcerated in federal correctional facilities and in state and local correctional facilities, as those terms are defined in § 53.1-1, shall be counted and reallocated for redistricting and reapportionment purposes in accordance with the provisions of this section and the following:

1. A person incarcerated in a federal, state, or local correctional facility whose address at the time of incarceration was located within the Commonwealth shall be deemed to reside at such address.

2. A person incarcerated in a federal, state, or local correctional facility whose address at the time of incarceration was located outside of the Commonwealth or whose address at the time of incarceration cannot be determined shall be deemed to reside at the location of the facility in which he is incarcerated.

B. By July 1 of any year in which the decennial census is taken, the Department of Corrections and the Board of Corrections shall provide to the Division of Legislative Services, in a format specified by the Division of Legislative Services, the following information for each person who was incarcerated in a state or local correctional facility on April 1 of that year:

1. A unique identifier, other than his name or offender identification number, assigned by the Department of Corrections or the Board of Corrections for this purpose;

2. His residential street address at the time of incarceration, or other legal residence, if known;

3. His race, his ethnicity as identified by him, and whether he is 18 years of age or older; and

4. The street address of the correctional facility in which he was incarcerated on April 1 of that year.

C. The Division of Legislative Services shall require each agency operating a federal correctional facility in the Commonwealth that incarcerates persons convicted of a criminal offense to provide to the Division of Legislative Services by July 1 of any year in which the decennial census is taken a record containing the information specified in subsection B for each person who was incarcerated in the facility on April 1 of that year. Any person incarcerated in a federal correctional facility for whom a record is not received by the Division of Legislative Services shall be deemed to have an address at the time of incarceration that cannot be determined.

D. The Division of Legislative Services shall prepare adjusted population data, including race and ethnicity data, in a manner that reflects the inclusion of incarcerated persons in the population count of the locality in which he is deemed to reside pursuant to subdivision A 1 or 2.
This adjusted population data shall be used for purposes of redistricting and reapportionment and shall be the basis for congressional, state Senate, House of Delegates, and local government election districts. This adjusted population data shall not be used in the distribution of any federal or state aid.

E. The Division of Legislative Services shall make the adjusted population data available no later than 30 days following receipt of population data from the United States Bureau of the Census pursuant to P.L. 94-171. In making this data available, the Division of Legislative Services shall ensure no information regarding a specific incarcerated person’s address at the time of incarceration is made public.

§ 30-265. Reapportionment of congressional and state legislative districts; United States Census population counts.

For the purposes of redrawing the boundaries of the congressional, state Senate, and House of Delegates districts after the United States Census for the year 2000 and every 10 years thereafter, the General Assembly shall use the population data provided by the United States Bureau of the Census identical to those from the actual enumeration conducted by the Bureau for the apportionment of the Representatives of the United States House of Representatives following the United States decennial census, except that the as adjusted by the Division of Legislative Services pursuant to § 24.2-314. The census data used for this apportionment purpose shall not include any population figure which is not allocated to specific census blocks within the Commonwealth, even though that population may have been included in the apportionment population figures of the Commonwealth for the purpose of allocating United States House of Representatives seats among the states.

§ 53.1-5.2. Compilation of certain data for redistricting purposes.

A. The Board shall direct the sheriffs of all local jails and the jail superintendents of all regional jails to provide to it, no later than May 1 of any year in which the decennial census is taken, information regarding each person incarcerated in a local or regional jail on April 1 of that year. Such information shall include, for each person incarcerated, (i) his residential street address at the time of incarceration, or other legal residence, if known; (ii) his race, his ethnicity as identified by him, and whether he is 18 years of age or older; and (iii) the street address of the correctional facility in which he was incarcerated on April 1 of that year. Upon receipt of such information, the Board shall assign to each person a unique identifier, other than his name or offender identification number.

B. Pursuant to § 24.2-314, the Board shall provide to the Division of Legislative Services, not later than July 1 of any year in which the decennial census is taken and in a format specified by the Division of Legislative Services, the information specified in subsection A, including the Board-assigned unique identifier.

§ 53.1-10. Powers and duties of Director.

The Director shall be the chief executive officer of the Department and shall have the following duties and powers:

1. To supervise and manage the Department and its system of state correctional facilities;

2. To implement the standards and goals of the Board as formulated for local and community correctional programs and facilities and lock-ups;

3. To employ such personnel and develop and implement such programs as may be necessary to carry out the provisions of this title, subject to Chapter 29 (§ 2.2-2900 et seq.) of Title 2.2, and within the limits of appropriations made therefor by the General Assembly;

4. To establish and maintain a general system of schools for persons committed to the institutions and community-based programs for adults as set forth in § 53.1-67.9. Such system shall include, as applicable, elementary, secondary, postsecondary, career and technical education, adult, and special education schools.

a. The Director shall employ a Superintendent who will oversee the operation of educational and vocational programs in all institutions and community-based programs for adults as set forth in § 53.1-67.9 operated by the Department. The Department shall be designated as a local education agency (LEA) but shall not be eligible to receive state funds appropriated for direct aid to public education.

b. c. The Superintendent shall develop a functional literacy program for inmates testing below a selected grade level, which shall be at least at the twelfth grade level. The program shall include guidelines for implementation and test administration, participation requirements, criteria for satisfactory completion, and a strategic plan for encouraging enrollment at an institution of higher education or an accredited vocational training program or other accredited continuing education program.

d. For the purposes of this section, the term "functional literacy" shall mean those educational skills necessary to function independently in society, including, but not limited to, reading, writing, comprehension, and arithmetic computation.

e. In evaluating a prisoner’s educational needs and abilities pursuant to § 53.1-32.1, the Superintendent shall create a system for identifying prisoners with learning disabilities.

5. a. To make and enter into all contracts and agreements necessary or incidental to the performance of the Department's duties and the execution of its powers under this title, including, but not limited to, contracts with the United States, other states, and agencies and governmental subdivisions of this Commonwealth, and contracts with corporations, partnerships, or individuals which include, but are not limited to, the purchase of water or wastewater
treatment services or both as necessary for the expansion or construction of correctional facilities, consistent with applicable standards and goals of the Board;

b. Notwithstanding the Director's discretion to make and enter into all contracts and agreements necessary or incidental to the performance of the Department's duties and the execution of its powers under this title, upon determining that it shall be desirable to contract with a public or private entity for the provision of community-based residential services pursuant to Chapter 5 (§ 53.1-177 et seq.), the Director shall notify the local governing body of the jurisdiction in which the facility is to be located of the proposal and of the facility's proposed location and provide notice, where requested, to the chief law-enforcement officer for such locality when an offender is placed in the facility at issue;

c. Notwithstanding the Director's discretion to make and enter into all contracts and agreements necessary or incidental to the performance of the Department's duties and the execution of its powers under this title, upon determining that it is necessary to transport Virginia prisoners through or to another state and for other states to transport their prisoners within the Commonwealth, the Director may execute reciprocal agreements with other states' corrections agencies governing such transports that shall include provisions allowing each state to retain authority over its prisoners while in the other state.

6. To accept, hold and enjoy gifts, donations and bequests on behalf of the Department from the United States government and agencies and instrumentalities thereof, and any other source, subject to the approval of the Governor. To these ends, the Director shall have the power to comply with such conditions and execute such agreements as may be necessary, convenient or desirable, consistent with applicable standards and goals of the Board;

7. To collect data pertaining to the demographic characteristics of adults, and juveniles who are adjudicated as adults, incarcerated in state correctional institutions, including, but not limited to, the race or ethnicity, age, and gender of such persons, whether they are a member of a criminal gang, and the types of and extent to which health-related problems are prevalent among such persons. Beginning July 1, 1997, such data shall be collected, tabulated quarterly, and reported by the Director to the Governor and the General Assembly at each regular session of the General Assembly thereafter. The report shall be submitted as provided in the procedures of the Division of Legislative Automated Systems for the processing of legislative documents and reports;

8. To make application to the appropriate state and federal entities so as to provide any prisoner who is committed to the custody of the state a Department of Motor Vehicles approved identification card that would expire 90 days from issuance, a copy of his birth certificate if such person was born in the Commonwealth, and a social security card from the Social Security Administration;

9. To forward to the Commonwealth's Attorneys' Services Council, updated on a monthly basis, a list of all identified criminal gang members incarcerated in state correctional institutions. The list shall contain identifying information for each criminal gang member, as well as his criminal record;

10. To give notice, to the attorney for the Commonwealth prosecuting a defendant for an offense that occurred in a state correctional facility, of that defendant's known gang membership. The notice shall contain identifying information for each criminal gang member as well as his criminal record;

11. To designate employees of the Department with internal investigations authority to have the same power as a sheriff or a law-enforcement officer in the investigation of allegations of criminal behavior affecting the operations of the Department. Such employees shall be subject to any minimum training standards established by the Department of Criminal Justice Services under § 9.1-102 for law-enforcement officers prior to exercising any law-enforcement power granted under this subdivision. Nothing in this section shall be construed to grant the Department any authority over the operation and security of local jails not specified in any other provision of law. The Department shall investigate allegations of criminal behavior in accordance with a written agreement entered into with the Department of State Police. The Department shall not investigate any action falling within the authority vested in the Office of the State Inspector General pursuant to Chapter 3.2 (§ 2.2-307 et seq.) of Title 2.2 unless specifically authorized by the Office of the State Inspector General;

12. To enforce and direct the Department to enforce regulatory policies promulgated by the Board prohibiting the possession of obscene materials, as defined in Article 5 (§ 18.2-372 et seq.) of Chapter 8 of Title 18.2, by prisoners incarcerated in state correctional facilities; and

13. To develop and administer a survey of each correctional officer, as defined in § 53.1-1, who resigns, is terminated, or is transitioned to a position other than correctional officer for the purpose of evaluating employment conditions and factors that contribute to or impede the retention of correctional officers; and

14. To provide, pursuant to § 24.2-314, to the Division of Legislative Services, not later than July 1 of any year in which the decennial census is taken and in a format specified by the Division of Legislative Services, information regarding each person incarcerated in a state correctional facility on April 1 of that year. Such information shall include, for each person incarcerated, (i) a unique identifier, other than his name or offender identification number, assigned by the Director; (ii) his residential street address at the time of incarceration, or other legal residence, if known; (iii) his race, his ethnicity as identified by him, and whether he is 18 years of age or older; and (iv) the street address of the correctional facility in which he was incarcerated on April 1 of that year.

2. That, notwithstanding the deadlines set forth in §§ 24.2-314 and 53.1-5.2 of the Code of Virginia, as created by this act, and in § 53.1-10 of the Code of Virginia, as amended by this act, the Board of Corrections shall direct the sheriffs of all local jails and the jail superintendents of all regional jails to provide to the information required pursuant to § 53.1-5.2 of the Code of Virginia, as created by this act, by August 1, 2020; the Department of Corrections and the Board of Corrections shall provide to the Division of Legislative Services the information required pursuant to
§ 24.2-314 of the Code of Virginia, as created by this act, by September 1, 2020; and the Division of Legislative Services shall require each agency operating a federal correctional facility in the Commonwealth to provide to it the information specified in § 24.2-314 of the Code of Virginia, as created by this act, by September 1, 2020.

CHAPTER 1266

An Act to amend and reenact §§ 38.2-2204, 58.1-1734, 58.1-1735, 58.1-1736, 58.1-1738, 58.1-1741, 59.1-207.29, 59.1-207.31, and 59.1-207.32 of the Code of Virginia and to amend the Code of Virginia by adding in Title 46.2 a chapter numbered 14.1, consisting of sections numbered 46.2-1408 through 46.2-1418, relating to peer-to-peer vehicle sharing platforms.

Approved April 22, 2020

Be it enacted by the General Assembly of Virginia:

1. That §§ 38.2-2204, 58.1-1734, 58.1-1735, 58.1-1736, 58.1-1738, 58.1-1741, 59.1-207.29, 59.1-207.31, and 59.1-207.32 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding in Title 46.2 a chapter numbered 14.1, consisting of sections numbered 46.2-1408 through 46.2-1418, as follows:

   § 38.2-2204. Liability insurance on motor vehicles, aircraft and watercraft; standard provisions; "omnibus clause."

   A. No policy or contract of bodily injury or property damage liability insurance, covering liability arising from the ownership, maintenance, or use of any motor vehicle, aircraft, or private pleasure watercraft, shall be issued or delivered in this Commonwealth to the owner of such vehicle, aircraft or watercraft, or shall be issued or delivered by any insurer licensed in this Commonwealth upon any motor vehicle, aircraft, or private pleasure watercraft that is principally garaged, docked, or used in this Commonwealth, unless the policy contains a provision insuring the named insured, and any other person using or responsible for the use of the motor vehicle, aircraft, or private pleasure watercraft with the expressed or implied consent of the named insured, against liability for death or injury sustained, or loss or damage incurred within the coverage of the policy or contract as a result of negligence in the operation or use of such vehicle, aircraft, or watercraft by the named insured or by any such person; however, nothing contained in this section shall be deemed to prohibit an insurer from limiting its liability under any one policy for bodily injury or property damage resulting from any one accident or occurrence to the liability limits for such coverage set forth in the policy for any such accident or occurrence or for any one person, regardless of the number of insureds under that policy. Provided that, when one accident or occurrence involves more than one defendant who is covered by the policy, the plaintiff may recover the per person limit of the policy against each such defendant, subject to the per accident or occurrence limit of the policy. Each such policy or contract of liability insurance, or endorsement to the policy or contract, insuring private passenger automobiles, aircraft, or private pleasure watercraft principally garaged, docked, or used in this Commonwealth, that has as the named insured an individual or husband and wife and that includes, with respect to any liability insurance provided by the policy, contract or endorsement for use of a nonowned automobile, aircraft or private pleasure watercraft, any provision requiring permission or consent of the owner of such automobile, aircraft, or private pleasure watercraft for the insurance to apply, shall be construed to include permission or consent of the custodian in the provision requiring permission or consent of the owner.

   B. Notwithstanding any requirements in this section to the contrary, an insurer may exclude any person from coverage under a personal umbrella or excess policy, if the exclusion is requested in writing by the first named insured and is acknowledged in writing by the excluded driver.

   C. For aircraft liability insurance, such policy or contract may contain the exclusions listed in § 38.2-2227. Notwithstanding the provisions of this section or any other provisions of law, no policy or contract shall require pilot experience greater than that prescribed by the Federal Aviation Administration, except for pilots operating air taxis, or pilots operating aircraft applying chemicals, seed, or fertilizer.

   D. No policy or contract of bodily injury or property damage liability insurance relating to the ownership, maintenance, or use of a motor vehicle shall be issued or delivered in this Commonwealth to the owner of such vehicle or shall be issued or delivered by an insurer licensed in this Commonwealth upon any motor vehicle principally garaged or used in this Commonwealth without an endorsement or provision insuring the named insured, and any other person using or responsible for the use of the motor vehicle with the expressed or implied consent of the named insured, against liability for death or injury sustained, or loss or damage incurred within the coverage of the policy or contract as a result of negligence in the operation or use of the motor vehicle by the named insured or by any other such person; however, nothing contained in this section shall be deemed to prohibit an insurer from limiting its liability under any one policy for bodily injury or property damage resulting from any one accident or occurrence to the liability limits for such coverage set forth in the policy for any such accident or occurrence or for any one person regardless of the number of insureds under that policy. Provided that, when one accident or occurrence involves more than one defendant who is covered by the policy, the plaintiff may recover the per person limit of the policy against each such defendant, subject to the per accident or occurrence limit of the policy. This provision shall apply notwithstanding the failure or refusal of the named insured or such other person to cooperate with the insurer under the terms of the policy. If the failure or refusal to cooperate prejudices the insurer in the defense of an action for damages arising from the operation or use of such insured motor vehicle, then the endorsement or
provision shall be void. If an insurer has actual notice of a motion for judgment or complaint having been served on an insured, the mere failure of the insured to turn the motion or complaint over to the insurer shall not be a defense to the insurer, nor void the endorsement or provision, nor in any way relieve the insurer of its obligations to the insured, provided the insured otherwise cooperates and in no way prejudices the insurer.

Where the insurer has elected to provide a defense to its insured under such circumstances and files responsive pleadings in the name of its insured, the insured shall not be subject to sanctions for failure to comply with discovery pursuant to Part Four of the Rules of the Supreme Court of Virginia unless it can be shown that the suit papers actually reached the insured, and that the insurer has failed after exercising due diligence to locate its insured, and as long as the insurer provides such information in response to discovery as it can without the assistance of the insurer.

E. Any endorsement, provision or rider attached to or included in any such policy of insurance which purports or seeks to limit or reduce the coverage afforded by the provisions required by this section shall be void, except an insurer may exclude such coverage as is afforded by this section, where such coverage would inure to the benefit of the United States Government or any agency or subdivision thereof under the provisions of the Federal Tort Claims Act, the Federal Drivers Act and Public Law 86-654 District of Columbia Employee Non-Liability Act, or to the benefit of the Commonwealth under the provisions of the Virginia Tort Claims Act (§ 8.01-195.1 et seq.) and the self-insurance plan established by the Department of General Services pursuant to § 2.2-1837 for any state employee who, in the regular course of his employment, transports patients in his own personal vehicle.

F. An insurer writing a policy of bodily injury or property damage liability motor vehicle insurance, or an endorsement to such policy, may exclude coverage under a motor vehicle policy issued to the owner of a shared vehicle for use of such vehicle on a peer-to-peer vehicle sharing platform during the vehicle sharing period for (i) liability coverage for bodily injury and property damage, (ii) uninsured and underinsured motorist coverage, (iii) medical expense and loss of income benefits coverage, and (iv) collision and other than collision physical damage coverage. Nothing in this article invalidates or limits an exclusion contained in a motor vehicle liability insurance policy, including any insurance policy in use or approved for use, that excludes coverage for motor vehicles used as a public or livery conveyance. For purposes of this subsection, "peer-to-peer vehicle sharing platform," "shared vehicle," and "vehicle sharing period" have the meanings ascribed to those terms in § 46.2-1408.

Chapter 14.1.

Peer-to-Peer Vehicle Sharing.

§ 46.2-1408. Definitions.
As used in this chapter, unless the context requires a different meaning:

"Peer-to-peer vehicle sharing" means the authorized use of a shared vehicle by a shared vehicle driver through a peer-to-peer vehicle sharing platform.

"Peer-to-peer vehicle sharing platform" means an online-enabled application, website, or system that connects vehicle owners with drivers to enable the sharing of peer-to-peer shared vehicles for financial consideration.

"Shared vehicle" means a motor vehicle that has been made available for sharing through a peer-to-peer vehicle sharing platform. "Shared vehicle" does not include a daily rental vehicle as defined in § 58.1-1735.

"Shared vehicle driver" means an individual who has been authorized to operate a shared vehicle by the shared vehicle owner under a vehicle sharing platform agreement.

"Shared vehicle owner" means the registered owner, or a person or entity designated by the registered owner, of a vehicle made available for sharing to shared vehicle drivers through a peer-to-peer vehicle sharing platform.

"Vehicle sharing delivery period" means the period of time beginning when the agent of a peer-to-peer vehicle sharing platform takes custody of the shared vehicle and ending when the shared vehicle arrives at the location agreed upon in the governing vehicle sharing platform agreement.

"Vehicle sharing period" means the period of time that commences with the vehicle sharing delivery period or, if there is no vehicle sharing delivery period, that commences when the vehicle sharing start time occurs and ends at the vehicle sharing termination time.

"Vehicle sharing platform agreement" means the terms and conditions applicable to a shared vehicle owner and a shared vehicle driver that govern the use of a shared vehicle through a peer-to-peer vehicle sharing platform.

"Vehicle sharing start time" means the time when the shared vehicle becomes subject to the control of the shared vehicle driver at or after the sharing of a shared vehicle is scheduled to begin as documented in the records of a peer-to-peer vehicle sharing platform.

"Vehicle sharing termination time" means the earliest of the following events:
1. When the shared vehicle is delivered to the location agreed upon in the vehicle sharing platform agreement on or after the expiration of the agreed-upon period of time established for the use of a shared vehicle according to the terms of the vehicle sharing platform agreement;
2. When the shared vehicle is returned to a location as alternatively agreed upon by the shared vehicle owner and shared vehicle driver within the agreed-upon period of time as communicated through a peer-to-peer vehicle sharing platform; or
3. When the shared vehicle owner, or the shared vehicle owner's authorized designee, takes possession and control of the shared vehicle.

§ 46.2-1409. Peer-to-peer insurance coverage.
A. A peer-to-peer vehicle sharing platform shall ensure that at all times during each vehicle sharing period the shared vehicle owner and the shared vehicle driver are insured under a motor vehicle liability insurance policy that provides uninsured motorist coverage and bodily injury and property damage liability coverage and that provides primary insurance coverage in an amount not less than the applicable financial responsibility limits set forth in this title and in § 38.2-2206 and:
1. Contains written recognition that the shared vehicle insured under the policy is made available and used through a peer-to-peer vehicle sharing platform; or
2. Does not exclude use of a shared vehicle by a shared vehicle driver.

B. A peer-to-peer vehicle sharing platform shall assume primary liability, except as provided in subsection C, of a shared vehicle owner for bodily injury and property damage to third parties and uninsured motorist losses during the vehicle sharing period in an amount stated in the vehicle sharing platform agreement, which amount shall not be less than the applicable financial responsibility limits set forth in this title and in § 38.2-2206.

C. Notwithstanding the definition of vehicle sharing termination time in § 46.2-1408, the assumption of liability under subsection B does not apply to any shared vehicle owner when such shared vehicle owner:
1. Performs an act, practice, or omission that constitutes fraud or makes an intentional misrepresentation of material fact to the peer-to-peer vehicle sharing platform before the vehicle sharing period in which the loss occurred; or
2. Acts in concert with a shared vehicle driver who fails to return the shared vehicle pursuant to the terms of the vehicle sharing platform agreement.

D. The insurance described under subsection A may be satisfied by motor vehicle liability insurance maintained by:
1. A shared vehicle owner;
2. A shared vehicle driver;
3. A peer-to-peer vehicle sharing platform; or
4. Any combination of a shared vehicle owner, a shared vehicle driver, and a peer-to-peer vehicle sharing platform.

E. The peer-to-peer vehicle sharing platform shall assume primary liability for a claim when it is in whole or in part providing the insurance required pursuant to subsections A and D and:
1. A dispute exists as to who was in control of the shared vehicle at the time of the loss; and
2. The peer-to-peer vehicle sharing platform does not have available, did not retain, or fails to provide the information required by § 46.2-1413.

F. The vehicle owner's insurer shall indemnify the peer-to-peer vehicle sharing platform to the extent of its obligation under the applicable insurance policy, if it is determined that the shared vehicle's owner or his designee was in control of the shared vehicle at the time of the loss.

G. If insurance maintained by a shared vehicle owner or shared vehicle driver in accordance with subsection D has lapsed, has been canceled, or does not provide the required coverage, the insurer providing the insurance maintained by a peer-to-peer vehicle sharing platform shall provide coverage pursuant to subsection A beginning with the first dollar of a claim and shall have the duty to defend such claim except under circumstances set forth in subsection C.

H. Coverage under a motor vehicle liability insurance policy maintained by the peer-to-peer vehicle sharing platform shall not be dependent on another automobile insurer's first denying a claim, nor shall another motor vehicle insurance policy be required to first deny a claim.

1. Nothing in this chapter:
   1. Limits the liability of the peer-to-peer vehicle sharing platform for any act or omission of the peer-to-peer vehicle sharing platform itself that results in injury to any person as a result of the use of a shared vehicle through a peer-to-peer vehicle sharing platform; or
   2. Limits the ability of the peer-to-peer vehicle sharing platform to, by contract, seek indemnification from the shared vehicle owner or the shared vehicle driver for economic loss sustained by the peer-to-peer vehicle sharing platform resulting from a breach of the terms and conditions of the vehicle sharing platform agreement.

J. A peer-to-peer vehicle sharing platform shall either provide or offer for sale to the shared vehicle owner or shared vehicle driver collision and other than collision coverage for physical loss to the shared vehicle during the vehicle sharing period. Such coverage shall be in an amount not less than the actual cash value of the shared vehicle.

K. Any insurer providing coverage under subsection D, or an individual who suffers a loss arising from the use of a shared vehicle or the attorney for such insurer or individual, or a personal representative of the estate of a decedent who died as a result of a motor vehicle accident involving a shared vehicle if not represented by counsel, and who provides the peer-to-peer vehicle sharing platform with the date, approximate time, and location of the accident and, if available, the name of the shared vehicle owner and, if available, the accident report, may request in writing from the peer-to-peer vehicle sharing platform the identity of any insurer that may have provided coverage and the limits of liability, regardless of whether the insurer contests the applicability of the policy to the claim, and whether, at the approximate time of the accident, the shared vehicle was in a vehicle sharing period. The peer-to-peer vehicle sharing platform shall respond within 30 days with the requested information if such information is in the peer-to-peer vehicle sharing platform's possession. Any further exchange of information shall be covered pursuant to § 8.01-417.

§ 46.2-1410. Exemption: vicarious liability.
A peer-to-peer vehicle sharing platform and a shared vehicle owner shall be exempt from vicarious liability under any law that imposes liability solely based on vehicle ownership for any offense that occurs during a vehicle sharing period.

§ 46.2-1411. Notification of implications of lien.

At the time when a vehicle owner registers as a shared vehicle owner on a peer-to-peer vehicle sharing platform and prior to when the shared vehicle owner makes a shared vehicle available for vehicle sharing on the peer-to-peer vehicle sharing platform, the peer-to-peer vehicle sharing platform shall notify the shared vehicle owner that, if the shared vehicle has a lien against it, the use of the shared vehicle through a peer-to-peer vehicle sharing platform, including use without physical damage coverage, may violate the terms of the contract with the lienholder.

§ 46.2-1412. Insurable interest.

A. Notwithstanding any provision of law to the contrary, a peer-to-peer vehicle sharing platform shall have an insurable interest in a shared vehicle during the vehicle sharing period.

B. A peer-to-peer vehicle sharing platform may own and maintain as the named insured one or more policies of motor vehicle liability insurance that provides coverage for:

1. Liabilities assumed by the peer-to-peer vehicle sharing platform under a vehicle sharing platform agreement;
2. Any liability of the shared vehicle owner;
3. Damage or loss to the shared vehicle; or
4. Any liability of the shared vehicle driver.

§ 46.2-1413. Recordkeeping: use of vehicle in vehicle sharing.

A peer-to-peer vehicle sharing platform shall collect and verify records pertaining to the use of a shared vehicle, including a record of the identity of the shared vehicle driver, times used, locations established pursuant to the vehicle sharing platform agreement, fees paid by the shared vehicle driver, and revenues received by the shared vehicle owner; and provide such records upon request to the shared vehicle owner, the shared vehicle owner's insurer, or the shared vehicle driver's insurer to facilitate a claim coverage investigation, settlement, negotiation, or litigation. The peer-to-peer vehicle sharing platform shall retain the records for at least five years.

§ 46.2-1414. Consumer protections; disclosures.

Each vehicle sharing platform agreement shall disclose to the shared vehicle owner and the shared vehicle driver:

1. Any right of the peer-to-peer vehicle sharing platform to seek indemnification from the shared vehicle owner or the shared vehicle driver for economic loss sustained by the peer-to-peer vehicle sharing platform resulting from a breach of terms and conditions of the vehicle sharing platform agreement;
2. That a motor vehicle liability insurance policy provided by the peer-to-peer vehicle sharing platform to the shared vehicle owner for the shared vehicle or to the shared vehicle driver does not provide a defense or indemnification for any claim asserted by the peer-to-peer vehicle sharing platform;
3. That the peer-to-peer vehicle sharing platform's insurance coverage on the shared vehicle owner and the shared vehicle driver is in effect only during each vehicle sharing period and that for any use of the shared vehicle by the shared vehicle driver after the vehicle sharing termination time, the shared vehicle driver and the shared vehicle owner may not have insurance coverage;
4. The daily rate, fees, taxes, and, if applicable, any insurance or protection package costs that are charged to the shared vehicle owner or the shared vehicle driver;
5. That the shared vehicle owner's motor vehicle liability insurance may not provide coverage for a shared vehicle;
6. An emergency telephone number to personnel capable of fielding roadside assistance and other customer service inquiries;
7. That any financial responsibility requirements imposed on the shared vehicle driver as a condition of maintaining a driver's license remain in effect during the use of a shared vehicle;
8. That the use of the shared vehicle through a peer-to-peer vehicle sharing platform without physical damage coverage may violate the terms of the contract with the lienholder; and
9. That there may not be physical damage coverage under the shared vehicle owner's policy. However, if the physical damage coverage is purchased from or provided by the peer-to-peer vehicle sharing platform, no such disclosure is required.

§ 46.2-1415. Automobile safety recalls.

A. When a vehicle owner registers as a shared vehicle owner on a peer-to-peer vehicle sharing platform and prior to when the shared vehicle owner makes a shared vehicle available for vehicle sharing on the peer-to-peer vehicle sharing platform, the peer-to-peer vehicle sharing platform shall:

1. Verify that the shared vehicle does not have any safety recalls on the vehicle for which the repairs have not been made; and
2. Notify the shared vehicle owner of the requirements under subsection B.

B. 1. If the shared vehicle owner has received an actual notice of a safety recall on the vehicle, a shared vehicle owner may not make a vehicle available as a shared vehicle on a peer-to-peer vehicle sharing platform until the safety recall repair has been made.
2. If a shared vehicle owner receives an actual notice of a safety recall on a shared vehicle while the shared vehicle is available on the peer-to-peer vehicle sharing platform, the shared vehicle owner shall remove the shared vehicle from the
peer-to-peer vehicle sharing platform as soon as practicably possible after receiving the notice of the safety recall, and such vehicle shall remain off of the peer-to-peer vehicle sharing platform until the safety recall repair has been made.

3. If a shared vehicle owner receives an actual notice of a safety recall during a vehicle sharing period, such owner shall, as soon as practicably possible after receiving the notice of the safety recall, notify the peer-to-peer vehicle sharing platform about the safety recall so that the shared vehicle owner may address the safety recall repair.

§ 46.2-1416. Operation at airports.

No peer-to-peer vehicle sharing platform or shared vehicle owner shall conduct any peer-to-peer vehicle sharing on the property of any airport, unless such operation is authorized by the airport owner or operator and is in compliance with the rules and regulations of that airport. An airport may take action against a peer-to-peer vehicle sharing platform or shared vehicle owner that violates any regulation of an airport owner or operator, including suspension or revocation of the peer-to-peer vehicle sharing platform's authority to operate.

§ 46.2-1417. Responsibility for equipment.

The peer-to-peer vehicle sharing platform shall have sole responsibility for any equipment, such as a global positioning system (GPS), that is installed or placed in or on a shared vehicle to monitor or facilitate peer-to-peer vehicle sharing and shall agree to indemnify and hold harmless the shared vehicle owner for any damage to or theft of such system or equipment during a vehicle sharing period not caused by the shared vehicle owner. The peer-to-peer vehicle sharing platform has the right to seek indemnity from the shared vehicle driver for any loss or damage to such system or equipment that occurs during the vehicle sharing period.

§ 46.2-1418. No limitation on other authority.

The requirements imposed on shared vehicle owners and peer-to-peer vehicle sharing platforms shall not limit any other state or local taxing, zoning, or other regulatory authority from applying any measure applicable to any other business on a shared vehicle owner or peer-to-peer vehicle sharing platform.

Article 9.

Virginia Motor Vehicle Rental and Peer-to-Peer Vehicle Sharing Tax.

§ 58.1-1734. Title.

This article shall be known and may be cited as the "Virginia Motor Vehicle Rental and Peer-to-Peer Vehicle Sharing Tax Act."

§ 58.1-1735. Definitions.

The definitions in § 46.2-1408 shall apply, mutatis mutandis, to this article.

As used in this article, unless the context requires a different meaning:

"Daily rental vehicle" means a motor vehicle, except a motorcycle or a manufactured home as defined in § 46.2-100, used for rental as defined in this section and for the transportation of persons or property, whether on its own structure or by drawing another vehicle or vehicles, except (i) a motorcycle or a manufactured home as defined in § 46.2-100 or (ii) a shared vehicle as defined in § 46.2-1408.

"Gross proceeds" means the charges made or voluntary contributions received for the rental or peer-to-peer vehicle sharing of a motor vehicle where the rental or lease, or vehicle sharing platform agreement is for a period of less than 12 months. The term "gross proceeds" shall not include:

1. Cash discounts allowed and actually taken on a rental contract;
2. Finance charges, carrying charges, service charges, or interest from credit given on a rental contract;
3. Charges for motor fuels;
4. Charges for optional accidental death insurance;
5. Taxes or fees levied or imposed pursuant to Chapter 24 (§ 58.1-2400 et seq.);
6. Any violations, citations, or fines and related penalties and fees;
7. Delivery charges, pickup charges, recovery charges, or drop charges;
8. Pass-through charges;
9. Transportation charges;
10. Third-party service charges; or
11. Refueling surcharges.

"Mobile office" means an industrialized building unit not subject to federal regulation, which may be constructed on a chassis for the purpose of towing to the point of use and designed to be used with or without a permanent foundation, for commercial use and not for residential use; or two or more such units separately towable but designed to be joined together at the point of use to form a single commercial structure, and which may be designed for removal to, and installation or erection on, other sites.

"Motor vehicle" means every vehicle, except for a mobile office as herein defined, that is self-propelled or designed for self-propulsion and every vehicle drawn by or designed to be drawn by a motor vehicle, including manufactured homes as defined in § 46.2-100 and every device in, upon, and by which any person or property is, or can be, transported or drawn upon a highway, but excepting devices moved by human or animal power, devices used exclusively upon stationary rails or tracks, and vehicles, other than manufactured homes, used in the Commonwealth but not required to be licensed by the Commonwealth.

"Rental" means the transfer of the possession or use of a motor vehicle, whether or not the motor vehicle is required to be licensed by the Commonwealth, by a person for a consideration, without the transfer of the ownership of such motor
vehicle, for a period of less than 12 months. Any fee arrangement between the holder of a permit issued by the Department of Motor Vehicles for taxicab services and the driver or drivers of such taxicabs shall not be deemed a rental under this section. Any fee arrangement between a licensed driver training school and a student in that school, whereby the student may use a vehicle owned or leased by the school to perform a road skills test administered by the Department of Motor Vehicles, shall not be deemed a rental under this section.

“Rental in the Commonwealth” means any rental where a person received delivery of a motor vehicle within the Commonwealth. The term “Commonwealth” shall include all land or interest in land within the Commonwealth owned by or conveyed to the United States of America.

“Rentor” means a person engaged in the rental of motor vehicles for consideration as defined in this section.

§ 58.1-1736. Levy.

A. There is hereby levied, in addition to all other taxes and fees of every kind now imposed by law, a tax upon the rental in Virginia of any motor vehicle, except those with a gross vehicle weight rating or gross combination weight rating of 26,001 pounds or more.

B. A motor vehicle subject to the tax imposed under subdivision A 1 of this section shall be subject to the tax under subdivision A 1 or A 2 of § 58.1-2402 when it ceases to be used for rental as an established business, or part of an established business, or incidental or germane to such business.

C. Any motor vehicle, trailer, or semitrailer exempt from this tax under subdivision 1 or 2 of § 58.1-1737 shall be subject to the tax when such vehicle is no longer rented by the United States government or any governmental agency thereof, or the Commonwealth of Virginia or any political subdivision thereof, unless at such time the vehicle is sold or its ownership is otherwise transferred, in which case the tax imposed by § 58.1-2402 shall apply, subject to the exemptions provided for in § 58.1-2403.

D. There is hereby levied a tax upon peer-to-peer vehicle sharing, without regard to whether a shared vehicle is required to be licensed by the Commonwealth.

1. Beginning July 1, 2020, and ending July 1, 2021, in lieu of the tax levied under subsection A, if a shared vehicle owner registers no more than 10 different shared vehicles on any combination of peer-to-peer vehicle sharing platforms at any one time, the tax shall be imposed at a rate of six and one-half percent on the gross proceeds paid by the shared vehicle driver for the peer-to-peer vehicle sharing in the Commonwealth of any shared vehicle.

2. Beginning July 1, 2021, and thereafter, in lieu of the tax levied under subsection A, if a shared vehicle owner registers no more than 10 different shared vehicles on any combination of peer-to-peer vehicle sharing platforms at any one time, the tax shall be imposed at a rate of seven percent on the gross proceeds paid by the shared vehicle driver for the peer-to-peer vehicle sharing in the Commonwealth of any shared vehicle.

3. In addition to all other applicable taxes and fees, a fee of two percent of the gross proceeds shall be imposed on the rental in Virginia of any daily rental vehicle, whether or not such vehicle is required to be licensed in the Commonwealth. For purposes of this article, the rental fee shall be implemented, enforced, and collected in the same manner that rental taxes are implemented, enforced, and collected.

E. A peer-to-peer vehicle sharing platform shall require all shared vehicle owners to certify to the peer-to-peer vehicle sharing platform whether the shared vehicle owner or any affiliate or subsidiary has registered more than 10 different shared vehicles on any combination of platforms at any one time. A shared vehicle owner is under a continuing obligation to immediately notify all platforms upon which he has vehicles registered, if the registration of a shared vehicle on a platform by the shared vehicle owner will cause the shared vehicle owner to exceed 10 or more different shared vehicles registered on any combination of peer-to-peer vehicle sharing platforms at any one time. Such notification shall occur prior to sharing any additional shared vehicles on any platform, not including those already subject to a vehicle sharing platform agreement at the time the additional vehicle is registered with the platform by the shared vehicle owner. When transportation is ordered to be provided by an alternative transportation provider, the magistrate shall order the specified primary law-enforcement agency to execute the order, to take the person into custody, and to transfer custody of the person to the alternative transportation provider identified in the order. In such cases, a copy of the emergency custody order shall accompany the person being transported pursuant to this section at all times and shall be delivered by the alternative transportation provider to the community services board or its designee responsible for conducting the evaluation. The community services board or its designee conducting the evaluation shall return a copy of the emergency custody order to the court designated by the magistrate as soon as is practicable. Transportation under this section shall include transportation to a medical facility as may be necessary to obtain emergency medical evaluation or treatment that shall be conducted immediately in accordance with state and federal law.

Transportation under this section shall include transportation to a medical facility for a medical evaluation if a physician at the hospital in which the person subject to the emergency custody order may be detained requires a medical evaluation prior to admission.

D. In specifying the primary law-enforcement agency and jurisdiction for purposes of this section, the magistrate shall order the primary law-enforcement agency from the jurisdiction served by the community services board that designated the person to perform the evaluation required in subsection B to execute the order and, in cases in which transportation is ordered to be provided by the primary law-enforcement agency, provide transportation. If the community services board serves more than one jurisdiction, the magistrate shall designate the primary law-enforcement agency from the particular jurisdiction within the community services board's service area where the person who is the subject of the emergency custody order was taken into custody or, if the person has not yet been taken into custody, the primary law-enforcement agency from the jurisdiction where the person is presently located to execute the order and provide transportation.

E. The law-enforcement agency or alternative transportation provider providing transportation pursuant to this section may transfer custody of the person to the facility or location to which the person is transported for the evaluation required in subsection B, G, or H if the facility or location (i) is licensed to provide the level of security necessary to protect both the person and others from harm, (ii) is actually capable of providing the level of security necessary to protect the person and others from harm, and (iii) in cases in which transportation is provided by a law-enforcement agency, has entered into an agreement or memorandum of understanding with the law-enforcement agency setting forth the terms and conditions under which it will accept a transfer of custody, provided, however, that the facility or location may not require the law-enforcement agency to pay any fees or costs for the transfer of custody.

section. In any case in which an order for temporary detention for testing, observation, or treatment is issued for a person who is also the subject of an emergency custody order, the person may be detained by a hospital emergency room or other appropriate facility for testing, observation, and treatment for a period not to exceed 24 hours, unless extended by the court as part of an order pursuant to § 37.2-1101, in accordance with subsection C of § 37.2-1104. M. Any person taken into emergency custody pursuant to this section shall be given a written summary of the emergency custody procedures and the statutory protections associated with those procedures.

N. If an emergency custody order is not executed within eight hours of its issuance, the order shall be void and shall be returned unexecuted to the office of the clerk of the issuing court or, if such office is not open, to any magistrate serving the jurisdiction of the issuing court.

O. In addition to the eight-hour period of emergency custody set forth in subsection G, H, or K, if the individual is detained in a state facility pursuant to subsection E of § 37.2-809, the state facility and an employee or designee of the community services board as defined in § 37.2-809 may, for an additional four hours, continue to attempt to identify an alternative facility that is able and willing to provide temporary detention and appropriate care to the individual.

If a governing body is unable to establish a precinct with the minimum number of registered voters without splitting the precinct between two or more congressional districts, Senate districts, House of Delegates districts, or local election districts, it shall apply to the State Board for a waiver to administer a split precinct. The State Board may grant the waiver or direct the governing body to establish a precinct with fewer than the minimum number of registered voters as permitted by § 24.2-309. Certified pollution control equipment and facilities shall be exempt from state and local taxation pursuant to Article X, Section 6 (d) of the Constitution of Virginia.

B. As used in this section:
"Certified pollution control equipment and facilities" shall mean any property, including real or personal property, equipment, facilities, or devices, used primarily for the purpose of abating or preventing pollution of the atmosphere or waters of the Commonwealth and which the state certifying authority having jurisdiction with respect to such property has certified to the Department of Taxation as having been constructed, reconstructed, erected, or acquired in conformity with the state program or requirements for abatement or control of water or atmospheric pollution or contamination. Such property shall include, but is not limited to, any equipment used to grind, chip, or mulch trees, tree stumps, underbrush, and
other vegetative cover for reuse as mulch, compost, landfill gas, synthetic or natural gas recovered from waste or other fuel, and equipment used in collecting, processing, and distributing, or generating electricity from, landfill gas or synthetic or natural gas recovered from waste, whether or not such property has been certified to the Department of Taxation by a state certifying authority. Such property shall also include solar energy equipment, facilities, or devices owned or operated by a business that collect, generate, transfer, or store thermal or electric energy whether or not such property has been certified to the Department of Taxation by a state certifying authority.

C. For solar photovoltaic (electric energy) systems, this exemption applies only to (i) projects equaling 20 megawatts or less, as measured in alternating current (AC) generation capacity, for which an initial interconnection request form has been filed with an electric utility or a regional transmission organization on or before December 31, 2018; (ii) projects equaling 20 megawatts or less, as measured in alternating current (AC) generation capacity, that serve any of the public institutions of higher education listed in § 23.1-100 or any private college as defined in § 23.1-105; (iii) 80 percent of the assessed value of projects for which an initial interconnection request form has been filed with an electric utility or a regional transmission organization (a) between January 1, 2015, and June 30, 2018, for projects greater than 20 megawatts or (b) on or after July 1, 2018, for projects greater than 20 megawatts and less than 150 megawatts, as measured in alternating current (AC) generation capacity, and that are first in service on or after January 1, 2017; (iv) projects equaling five megawatts or less, as measured in alternating current (AC) generation capacity, for which an initial interconnection request form has been filed with an electric utility or a regional transmission organization on or after January 1, 2019; and (v) 80 percent of the assessed value of all other projects equaling more than five megawatts and less than 150 megawatts, as measured in alternating current (AC) generation capacity for which an initial interconnection request form has been filed with an electric utility or a regional transmission organization on or after January 1, 2019.

D. The exemption for solar photovoltaic (electric energy) projects greater than five megawatts, as measured in alternating current (AC) generation capacity, shall not apply to any such project unless an application has been filed with the locality for the project before July 1, 2030, regardless of whether a locality assesses a revenue share on such project pursuant to the provisions of § 58.1-2636. If a locality adopts an energy revenue share ordinance under § 58.1-2636, the exemption for solar photovoltaic (electric energy) projects greater than five megawatts, as measured in alternating current (AC) generation capacity, shall not apply to projects upon which construction begins after January 1, 2024 be 100 percent of the assessed value. If a locality does not adopt an energy revenue share ordinance under § 58.1-2636, the exemption for solar photovoltaic (electric energy) projects greater than five megawatts, as measured in alternating current (AC) generation capacity, for which an initial interconnection request form has been filed with an electric utility or a regional transmission organization, shall be 80 percent of the assessed value when an application has been filed with the locality prior to July 1, 2030. For purposes of this subsection, "application has been filed with the locality" means an applicant has filed an application for a zoning confirmation from the locality for a by-right use, or an application for land use approval under the locality's zoning ordinance to include an application for a conditional use permit, special use permit, special exception, or other application as set out in the locality's zoning ordinance.

E. For pollution control equipment and facilities certified by the Virginia Department of Health, this exemption applies only to onsite sewage systems that serve 10 or more households, use nitrogen-reducing processes and technology, and are constructed, wholly or partially, with public funds. All such property as described in this definition shall not include the land on which such equipment or facilities are located.

"State certifying authority" shall mean the State Water Control Board or the Virginia Department of Health, for water pollution; the State Air Pollution Control Board, for air pollution; the Department of Mines, Minerals and Energy, for solar energy projects and for coal, oil, and gas production, including gas, natural gas, and coalbed methane gas; and the Virginia Waste Management Board, for waste disposal facilities, natural gas recovered from waste facilities, and landfill gas production facilities, and shall include any interstate agency authorized to act in place of a certifying authority of the Commonwealth.

2. That no revenue share established pursuant to this act shall retroactively apply to any solar photovoltaic (electric energy) project for which an application was filed with the locality on or before July 1, 2020, unless (i) the locality and the applicant or owner agree to revise any existing voluntary payment agreement, or enter into any new voluntary payment agreement, under which the applicant or owner agree to voluntarily waive a portion of the exemption from machinery and tools tax as provided in § 58.1-3660 of the Code of Virginia, as amended by this act, and (ii) the locality and the applicant or owner agree to substitute the amount of such voluntary payment for a similar amount of a solar energy revenue share authorized by § 58.1-2636 of the Code of Virginia, as created by this act. However, nothing in this act shall preclude an applicant or owner of a solar photovoltaic (electric energy) project previously approved by a locality from entering into a written agreement to submit such project to a local ordinance that requires a solar energy revenue share to be paid as authorized by § 58.1-2636 of the Code of Virginia, as created by this act.

D. Notwithstanding the provisions of subsection B, a certificate of public need shall not be required for the following actions undertaken by or on behalf of a medical care facility described in subsection A:

1. Relocation of up to 10 beds or 10 percent of the beds, whichever is less, (i) from one existing medical care facility described in subsection A to another existing medical care facility described in subsection A at the same site in any two-year period or (ii) in any three-year period, from one existing medical care facility described in subsection A licensed as a nursing home to any other existing medical care facility described in subsection A licensed as a nursing home that is owned or controlled by the same person and located either within the same planning district or within another planning district out of which, during or prior to that three-year period, at least 10 times that number of beds have been authorized by statute to be relocated from one or more medical care facilities described in subsection A located in that other planning district, and at least half of those beds have not been replaced; or

2. Use of up to 10 percent of beds as nursing home beds by a medical care facility described in subsection A licensed as a hospital, as provided in § 32.1-132.

E. The Department shall regularly review the types of medical care facilities subject to the provisions of this article and projects for which a certificate is required and provide to the Governor and the General Assembly, at least once every five years, a recommendation related to the continued appropriateness of requiring such types of medical care facilities to be subject to the provisions of this article and such types of projects to be subject to the requirement of a certificate. In developing such recommendations, the Department shall consider, for each type of medical care facility and project, the following criteria:

1. The current and projected future availability of the specific type of medical care facility or project;

2. The current and projected future demand for the specific type of medical care facility or project;
3. The current and projected future rate of utilization of the specific type of medical care facility or project;
4. The current and projected future capacity of existing medical care facilities or projects of that specific type;
5. The anticipated impact of changes in population and demographics, reimbursement structures and rates, and technology on demand for and availability, utilization, and capacity of existing medical care facilities or projects of that specific type;
6. Existing quality, utilization, and other controls applicable to the specific type of medical care facility or project; and
7. Any risk to the health or well-being of the public resulting from inclusion of the specific type of medical care facility or project on such list.

§ 32.1-102.2. Regulations.
A. The Board shall promulgate regulations that are consistent with this article and:
1. Establish conciliatory procedures for the prompt review of applications for certificates consistent with the provisions of this article which may include a structured batching process which incorporates, but is not limited to, authorization for the Commissioner to request proposals for certain projects. In any structured batching process established by the Board, applications, combined or separate, for computed tomographic (CT) scanning, magnetic resonance imaging (MRI), positron emission tomographic (PET) scanning, radiotherapy, stereotactic radiotherapy, other than radiotherapy performed using a linear accelerator or other medical equipment that uses concentrated doses of high-energy X-rays to perform external beam radiation therapy, and proton beam therapy, or nuclear imaging shall be considered in the radiation therapy batch. A single application may be filed for a combination of (i) radiation therapy, stereotactic radiotherapy other than radiotherapy performed using a linear accelerator or other medical equipment that uses concentrated doses of high-energy X-rays to perform external beam radiation therapy, and proton beam therapy, and (ii) any or all of the computed tomographic (CT) scanning, magnetic resonance imaging (MRI), and positron emission tomographic (PET) scanning, and nuclear medicine imaging;
2. May classify projects and may eliminate one or more or all of the procedures prescribed in § 32.1-102.6 for different classifications;
3. May provide for exempting from the requirement of a certificate projects determined by the Commissioner, upon application for exemption, to be subject to the economic forces of a competitive market or to have no discernible impact on the cost or quality of health services;
4. Shall establish specific criteria for determining need in rural areas, giving due consideration to distinct and unique geographic, socioeconomic, cultural, transportation, and other barriers to access to care in such areas and providing for weighted calculations of need based on the barriers to health care access in such rural areas in lieu of the determinations of need used for the particular proposed project within the relevant health systems area as a whole;
5. May establish, on or after July 1, 1999, a schedule of fees for applications for certificates or registration of a project to be applied to expenses for the administration and operation of the certificate of public need program. Such fees shall not be less than $1,000 nor exceed the lesser of one percent of the proposed expenditure for the project or $20,000. Until such time as the Board shall establish a schedule of fees, such fees shall be one percent of the proposed expenditure for the project; however, such fees shall not be less than $1,000 or more than $20,000 Certificate of Public Need Program;
6. Shall establish an expedited application and review process for any certificate for projects reviewable pursuant to subdivision B 8 of the definition of "project" in § 32.1-102.1, § 32.1-102.1.3. Regulations establishing the expedited application and review procedure shall include provisions for notice and opportunity for public comment on the application for a certificate, and criteria pursuant to which an application that would normally undergo the review process would instead undergo the full certificate of public need review process set forth in § 32.1-102.6;
7. Shall establish an exemption from the requirement for a certificate, for a period of no more than 30 days, for projects involving a temporary increase in the total number of beds in an existing hospital or nursing home when the Commissioner has determined that a natural or man-made disaster has caused the evacuation of a hospital or nursing home and that a public health emergency exists due to a shortage of hospital or nursing home beds; and
8. Shall require every medical care facility subject to the requirements of this article, other than a nursing home, that is not a medical care facility for which a certificate with conditions imposed pursuant to subsection B of § 32.1-102.4 has been issued and that provides charity care, as defined in § 32.1-102.1, to annually report the amount of charity care provided.
B. The Board shall promulgate regulations providing for time limitations for schedules for completion and limitations on the exceeding of the maximum capital expenditure amount for all reviewable projects. The Commissioner shall not approve any such extension or excess unless it complies with the Board’s regulations. However, the Commissioner may approve a significant change in cost for an approved project that exceeds the authorized capital expenditure by more than 10 percent, provided the applicant has demonstrated that the cost increases are reasonable and necessary under all the circumstances and do not result from any material expansion of the project as approved.
C. The Board shall promulgate regulations authorizing the Commissioner to condition approval of a certificate on the agreement of the applicant to provide a level of charity care to indigent persons or accept patients requiring specialized care. Such regulations shall include a methodology and formulas for uniform application of, active measuring and monitoring of compliance with, and approval of alternative plans for satisfaction of such conditions. In addition, the Board’s licensure regulations shall direct the Commissioner to condition the issuing or renewing of any license for any applicant whose certificate was approved upon such condition on whether such applicant has complied with any agreement to provide
a level of charity care to indigent persons or accept patients requiring specialized care. Except in the case of nursing homes, the value of charity care provided to individuals pursuant to this subsection shall be based on the provider reimbursement methodology utilized by the Centers for Medicare and Medicaid Services for reimbursement under Title XVIII of the Social Security Act, 42 U.S.C. § 1395 et seq.

D. The Board shall also promulgate regulations to require the registration of a project; for introduction into an existing medical care facility of any new lithotripsy, stereotactic radiosurgery, stereotactic radiotherapy performed using a linear accelerator or other medical equipment that uses concentrated doses of high-energy X-rays to perform external beam radiation therapy, obstetrical, or nuclear imaging services that the facility has never provided or has not provided in the previous 12 months; and for the addition by an existing medical care facility for lithotripsy, stereotactic radiosurgery, stereotactic radiotherapy performed using a linear accelerator or other medical equipment that uses concentrated doses of high-energy X-rays to perform external beam radiation therapy, or nuclear imaging services. Replacement of existing equipment for lithotripsy, stereotactic radiosurgery, stereotactic radiotherapy other than radiotherapy performed using a linear accelerator or other medical equipment that uses concentrated doses of high-energy X-rays to perform external beam radiation therapy, or nuclear imaging services shall not require registration. Such regulations shall include provisions for (i) establishing the agreement of the applicant to provide a level of care in services or funds that matches the average percentage of indigent care provided in the appropriate health planning region and to participate in Medicaid at a reduced rate to indigents, (ii) obtaining accreditation from a nationally recognized accrediting organization approved by the Board for the purpose of quality assurance, and (iii) reporting utilization and other data required by the Board to monitor and evaluate effects on health planning and availability of health care services in the Commonwealth.

§ 32.1-102.2:1. State Medical Facilities Health Services Plan; task force Task Force.

The Board shall appoint and convene a task force of no fewer than 15 individuals to meet at least once every two years. The task force shall consist of representatives from the Department and the Division of Certificate of Public Need, representatives of regional health planning agencies, representatives of the health care provider community, representatives of the academic medical community, experts in advanced medical technology, and health insurers. The task force shall complete a review of the State Medical Facilities Plan updating or validating existing criteria in the State Medical Facilities Plan at least every four years.

A. The Board shall appoint and convene a State Health Services Plan Task Force for the purpose of advising the Board on the content of the State Health Services Plan. The Task Force shall provide recommendations related to (i) periodic revisions to the State Health Services Plan, (ii) specific objective standards of review for each type of medical care facility or project type for which a certificate of public need is required, (iii) project types that are generally noncontested and present limited health planning impacts, (iv) whether certain projects should be subject to expedited review rather than the full review process, and (v) improvements in the certificate of public need process. All such recommendations shall be developed in accordance with an analytical framework established by the Commissioner that includes a specific evaluation of whether State Health Services Plan standards are consistent with the goals of (a) meeting the health care needs of the indigent and uninsured citizens of the Commonwealth, (b) protecting the public health and safety of the citizens of the Commonwealth, (c) promoting the teaching missions of academic medical centers and private teaching hospitals, and (d) ensuring the availability of essential health care services in the Commonwealth, and are aligned with the goals and metrics of the Commonwealth's State Health Improvement Plan.

B. The Task Force shall consist of no fewer than 19 individuals appointed by the Commissioner who are broadly representative of the interests of all residents of the Commonwealth and of the various geographic regions, including two representatives of the Virginia Hospital and Healthcare Association, the Medical Society of Virginia, the Virginia Health Care Association, and physicians or administrators representing teaching hospitals affiliated with a public institution of higher education; one representative each of the Virginia Association of Health Plans, the Virginia Association of Free and Charitable Clinics, the Virginia Community Healthcare Association, LeadingAge Virginia, a company that is self-insured or full-insured for health coverage, a nonprofit organization located in the Commonwealth that engages in addressing access to health coverage for low-income individuals, and a rural locality recognized as a medically underserved area; one individual with experience in health facilities planning; and such other individuals as the Commissioner determines is appropriate.

C. The powers and duties of the Task Force shall be:

1. To develop, by November 1, 2022, recommendations for a comprehensive State Health Services Plan for adoption by the Board that includes (i) specific formulas for projecting need for medical care facilities and services subject to the requirement to obtain a certificate of public need, (ii) current statistical information on the availability of medical care facilities and services, (iii) objective criteria and standards for review of applications for projects for medical care facilities and services, and (iv) methodologies for integrating the goals and metrics of the State Health Improvement Plan established by the Commissioner into the criteria and standards for review. Criteria and standards for review included in the State Health Services Plan shall take into account current data on drive times, utilization, availability of competing services, and patient choice within and among localities included in the health planning district or region; changes and availability of new technology; and other relevant factors identified by the Task Force. The State Health Services Plan shall also include specific criteria for determining need in rural areas, giving due consideration to distinct and unique geographic, socioeconomic, cultural, transportation, and other barriers to access to care in such areas and providing for weighted
calculations of need based on the barriers to health care access in such rural areas in lieu of the determinations of need used for the particular proposed project within the relevant health planning district or region as a whole.

2. To engage the services of private consultants or request the Department to contract with any private organization for professional and technical assistance and advice or other services to assist the Task Force in carrying out its duties and functions pursuant to this section. The Task Force may also solicit the input of experts with professional competence in the subject matter of the State Health Services Plan, including (i) representatives of licensed health care providers or health care provider organizations owning or operating licensed health facilities and (ii) representatives of organizations concerned with health care consumers and the purchasers and payers of health care services; and

3. To review annually and, if necessary, develop recommendations for revisions to each section of the State Health Services Plan on a rotating schedule defined by the Task Force at least every two years following the last date of adoption by the Board.

D. The Task Force shall exercise its powers and carry out its duties to ensure:

1. The availability and accessibility of quality health services at a reasonable cost and within a reasonable geographic proximity for all people in the Commonwealth, competitive markets, and patient choice;

2. Appropriate differential consideration of the health care needs of residents in rural localities in ways that do not compromise the quality and affordability of health care services for those residents;

3. Elimination of barriers to access to care and introduction and availability of new technologies and care delivery models that result in greater integration and coordination of care, reduction in costs, and improvements in quality; and

4. Compliance with the goals of the State Health Services Plan and improvement in population health.

E. The Department shall post on its website information regarding the process by which the State Health Services Plan is created and the process by which the Department determines whether a proposed project complies with the State Health Services Plan on its website.

§ 32.1-102.3. Demonstration of public need required; criteria for determining need.

A. No person shall commence any project without first obtaining a certificate issued by the Commissioner. No certificate may be issued unless the Commissioner has determined that a public need for the project has been demonstrated. If it is determined that a public need exists for only a portion of a project, a certificate may be issued for that portion and any appeal may be limited to the part of the decision with which the appellant disagrees without affecting the remainder of the decision. Any decision to issue or approve the issuance of a certificate shall be consistent with the most recent applicable provisions of the State Medical Facilities Health Services Plan; however, if the Commissioner finds, upon presentation of appropriate evidence, that the provisions of such plan are not relevant to a rural locality's needs, inaccurate, outdated, inadequate or otherwise inapplicable, the Commissioner, consistent with such finding, may issue or approve the issuance of a certificate and shall initiate procedures to make appropriate amendments to such plan. In cases in which a provision of the State Medical Facilities Health Services Plan has been previously set aside by the Commissioner and relevant amendments to the Plan have not yet taken effect, the Commissioner's decision shall be consistent with the applicable portions of the State Medical Facilities Health Services Plan that have not been set aside and the remaining considerations in subsection B.

B. In determining whether a public need for a project has been demonstrated, the Commissioner shall consider:

1. The extent to which the proposed service or facility project will provide or increase access to needed health care services for residents of the area to be served, and the effects that the proposed service or facility project will have on access to needed health care services in areas having distinct and unique geographic, socioeconomic, cultural, transportation, and other barriers to access to health care;

2. The extent to which the proposed project will meet the needs of the residents of the area to be served, as demonstrated by each of the following: (i) the level of community support for the proposed project demonstrated by citizens, businesses, and governmental leaders representing the area to be served; (ii) the availability of reasonable alternatives to the proposed service or facility project that would meet the needs of the population in a less costly, more efficient, or more effective manner; (iii) any recommendation or report of the regional health planning agency regarding an application for a certificate that is required to be submitted to the Commissioner pursuant to subsection B of § 32.1-102.6; (iv) any costs and benefits of the proposed project; (v) the financial accessibility of the proposed project to the residents of the area to be served, including indigent residents; and (vi) at the discretion of the Commissioner, any other factors as may be relevant to the determination of public need for a proposed project;

3. The extent to which the application proposed project is consistent with the State Medical Facilities Health Services Plan;

4. The extent to which the proposed service or facility project fosters institutional competition that benefits the area to be served while improving access to essential health care services for all persons in the area to be served;

5. The relationship of the proposed project to the existing health care system of the area to be served, including the utilization and efficiency of existing services or facilities;

6. The feasibility of the proposed project, including the financial benefits of the proposed project to the applicant, the cost of construction, the availability of financial and human resources, and the cost of capital;

7. The extent to which the proposed project provides improvements or innovations in the financing and delivery of health care services, as demonstrated by: (i) the introduction of new technology that promotes quality, cost effectiveness, or both in the delivery of health care services; (ii) the potential for provision of health care services on an outpatient basis;
(iii) any cooperative efforts to meet regional health care needs; and (iv) at the discretion of the Commissioner, any other factors as may be appropriate; and

8. In the case of a project proposed by or affecting a teaching hospital associated with a public institution of higher education or a medical school in the area to be served, (i) the unique research, training, and clinical mission of the teaching hospital or medical school, and (ii) any contribution the teaching hospital or medical school may provide in the delivery, innovation, and improvement of health care services for citizens of the Commonwealth, including indigent or underserved populations.

§ 32.1-102.4. Conditions of certificates; monitoring; revocation of certificates; civil penalties.
A. A certificate shall be issued The Commissioner may, in accordance with regulations of the Board, condition issuance of a certificate on compliance with a schedule for the completion of the proposed project and a maximum capital expenditure amount for the proposed project. The approved schedule and maximum capital expenditure for a proposed project shall be issued together with the certificate. The approved schedule may not be extended and the maximum capital expenditure may not be exceeded without the approval of the Commissioner in accordance with the regulations of the Board. The Commissioner shall not approve an extension for a schedule for completion of any project or the exceeding of the maximum capital expenditure of any project unless such extension or excess complies with the limitations provided in the regulations promulgated by the Board pursuant to § 32.1-102.2.

The Commissioner shall monitor each project to determine its progress and compliance with the approved schedule and with the maximum capital expenditure, and may revoke the certificate for (i) lack of substantial and continuing progress toward completion of the project in accordance with the schedule or (ii) expenditures in excess of the approved maximum capital expenditure for the project.

Any person willfully violating conditions imposed pursuant to this subsection shall be subject to a civil penalty of up to $100 per violation per day until the date of completion of the project which shall be collected by the Commissioner and paid into the Literary Fund.

For the purposes of this subsection, "completion" means conclusion of construction activities necessary for the substantial performance of the contract.

B. The Commissioner shall monitor each project for which a certificate is issued to determine its progress and compliance with the schedule and with the maximum capital expenditure. The Commissioner shall also monitor all continuing care retirement communities for which a certificate is issued authorizing the establishment of a nursing home facility or an increase in the number of nursing home beds pursuant to § 32.1-102.3:2 and shall enforce compliance with the conditions for such applications which are required by § 32.1-102.3:2. Any willful violation of a provision of § 32.1-102.3:2 or conditions of a certificate of public need granted under the provisions of § 32.1-102.3:2 shall be subject to a civil penalty of up to $100 per violation per day until the date the Commissioner determines that such facility is in compliance.

C. A certificate may be revoked when:
1. Substantial and continuing progress towards completion of the project in accordance with the schedule has not been made;
2. The maximum capital expenditure amount set for the project is exceeded;
3. The applicant has willfully or recklessly misrepresented intentions or facts in obtaining a certificate; or
4. A continuing care retirement community applicant has failed to honor the conditions of a certificate allowing the establishment of a nursing home facility or granting an increase in the number of nursing home beds in an existing facility which was approved in accordance with the requirements of § 32.1-102.3:2.

D. Further, the Commissioner shall not approve an extension for a schedule for completion of any project or the exceeding of the maximum capital expenditure of any project unless such extension or excess complies with the limitations provided in the regulations promulgated by the Board pursuant to § 32.1-102.2.

E. Any person willfully violating the Board's regulations establishing limitations for schedules for completion of any project or limitations on the exceeding of the maximum capital expenditure of any project shall be subject to a civil penalty of up to $100 per violation per day until the date of completion of the project.

E. The Commissioner may condition shall, pursuant to the regulations of the Board, condition the approval of a certificate (i) upon the agreement of the applicant to provide care to individuals who are eligible for benefits under Title XVIII of the Social Security Act (42 U.S.C. § 1395 et seq.), Title XIX of the Social Security Act (42 U.S.C. § 1396 et seq.), and 10 U.S.C. § 1071 et seq. In addition, the Commissioner shall condition the approval of a certificate upon the agreement of the applicant to (i) provide a specified level of charity care to indigent persons or accept patients requiring specialized care or, (ii) upon the agreement of the applicant to facilitate the development and operation of primary and specialty medical care services in designated medically underserved areas of the applicant's service area, or (iii) all of the above. Except in the case of nursing homes, the value of charity care provided to individuals pursuant to this subsection shall be based on the provider reimbursement methodology utilized by the Centers for Medicare and Medicaid Services for reimbursement under Title XVIII of the Social Security Act, 42 U.S.C. § 1395 et seq.

Every certificate holder shall develop a financial assistance policy that includes specific eligibility criteria and procedures for applying for charity care, which shall be provided to a patient at the time of admission or discharge or at the time services are provided, included with any billing statements sent to uninsured patients, posted conspicuously in public areas of the medical care facility for which the certificate was issued and posted on a website maintained by the certificate holder.
The certificate holder shall annually provide documentation to the Department demonstrating that the certificate holder has satisfied the conditions of the certificate, including documentation of the amount of charity care provided to patients. If the certificate holder is unable or fails to satisfy the conditions of a certificate, the Department may approve alternative methods to satisfy the conditions pursuant to a plan of compliance, which shall identify a timeframe within which the certificate holder will satisfy the conditions of the certificate, and identify how the certificate holder will satisfy the conditions of the certificate, which may include (a) making direct payments to an organization authorized under a memorandum of understanding with the Department to receive contributions satisfying conditions of a certificate, (b) making direct payments to a private nonprofit foundation that funds basic insurance coverage for indigents authorized under a memorandum of understanding with the Department to receive contributions satisfying conditions of a certificate, or (c) other documented efforts or initiatives to provide primary or specialized care to underserved populations. In cases in which the certificate holder holds more than one certificate with conditions pursuant to this subsection, and the certificate holder is unable to satisfy the conditions of one certificate, such plan of compliance may provide for satisfaction of the conditions on that certificate by providing care at a reduced rate to indigent individuals in excess of the amount required by another certificate issued to the same holder, in an amount approved by the Department provided such care is offered at the same facility. Nothing in the preceding sentence shall prohibit the satisfaction of conditions of more than one certificate among various affiliated facilities or certificates subject to a system-wide or all-inclusive charity care condition established by the Commissioner. In determining whether the certificate holder has met the conditions of the certificate pursuant to a plan of compliance, only such direct payments, efforts, or initiatives made or actions undertaken after issuance of the conditioned certificate shall be counted towards satisfaction of conditions.

Any person willfully refusing, failing, or neglecting to honor such agreement shall be subject to a civil penalty of up to $100 per violation per day until the date of compliance which shall be collected by the Commissioner and paid into the Literary Fund. For the purpose of determining the amount of a civil penalty imposed pursuant to this subsection, the date on which the person began providing services in accordance with the original certificate shall be the date from which the period of noncompliance shall be calculated.

The Commissioner shall (i) review every certificate of public need upon which conditions were imposed pursuant to subsection E or B at least once every three years to determine whether such conditions continue to be appropriate or should be revised and (ii) notify each certificate holder of his conclusions regarding (a) the appropriateness of conditions imposed on the certificate and whether such conditions should be revised and (b) the process by which the certificate holder may request amendments to conditions imposed on a certificate in accordance with subsection H D.

Pursuant to regulations of the Board, the Commissioner may accept requests for and approve amendments to conditions of existing certificates related to the provision of care at reduced rates or to patients requiring specialized care or related to the development and operation of primary medical care services in designated medically underserved areas of the certificate holder's service area.

1. For the purposes of this section, "completion" means conclusion of construction activities necessary for the substantial performance of the contract.

E. In determining whether conditions imposed on a certificate of public need pursuant to subsection B are appropriate for the purposes of subsection C or should be amended in response to a request submitted pursuant to subsection D, the Commissioner shall consider any changes in the circumstances of the certificate holder resulting from changes in the financing or delivery of health care services, including changes to the Commonwealth's program of medical assistance services, and any other specific circumstances of the certificate holder.

§ 32.1-102.6. Administrative procedures.

A. To obtain a certificate for a project, the applicant shall file a completed application for a certificate with the Department and the appropriate regional health planning agency if a regional health planning agency has been designated for that region. In order to verify the date of the Department's and the appropriate regional health planning agency's receipt of the application, the applicant shall transmit the document electronically, by certified mail or a delivery service, return receipt requested, or shall deliver the document by hand, with signed receipt to be provided. Such application shall be filed in accordance with procedures established by the Department. An application submitted for review shall be considered complete when all relevant sections of the application form have responses. The applicant shall provide sufficient information to prove public need for the requested project exists without the addition of supplemental or supporting material at a later date. The Department shall ensure that only data necessary for review of an application is required to be submitted and that the application reflects statutory requirements. Nothing in this section shall prevent the Department from seeking, at its discretion, additional information from the applicant or other sources.

Within 10 calendar days of the date on which the document is received, the Department and the appropriate regional health planning agency, if a regional health planning agency has been designated, shall determine whether the application is complete or not and the Department shall notify the applicant, if the application is not complete, of the information needed to complete the application. If no regional health planning agency is designated for the health planning region in which the project will be located, no filing with a regional health planning agency is required and the Department shall determine if the application is complete and notify the applicant, if the application is not complete, of the information needed to complete the application.

At least 30 calendar days before any person is contractually obligated to acquire an existing medical care facility, the cost of which is $600,000 or more, that person shall notify the Commissioner and the appropriate regional health planning
agency, if a regional health planning agency has been designated, of the intent, the services to be offered in the facility, the 
bed capacity in the facility and the projected impact that the cost of the acquisition will have upon the charges for services to 
be provided. If clinical services or beds are proposed to be added as a result of the acquisition, the Commissioner may 
require the proposed new owner to obtain a certificate prior to the acquisition. If no regional health planning agency is 
designated for the health planning region in which the acquisition will take place, no notification to a regional health 
planning agency shall be required.

B. For projects proposed in health planning regions with regional planning agencies, the appropriate regional health 
planning agency shall (i) review each completed application for a certificate within 60 calendar days of the day which that 
begin the appropriate batch review cycle as established by the Board by regulation pursuant to subdivision A 1 of 
§ 32.1-102.2, such cycle not to exceed 190 days in duration, (ii) within 10 calendar days following the start of the review 
cycle, solicit public comment on such application by posting notice of such application and a summary of the proposed 
project on a website maintained by the Department; such notice shall include information about how comments may be 
submitted to the regional health planning agency and the date on which the public comment period shall expire, which shall 
be no later than 45 calendar days following the date of the public notice; and (iii) in the case of competing applications or in 
response to a written request by an elected local government representative, a member of the General Assembly, the 
Commissioner, the applicant, or a member of the public, hold one public hearing on each application in a location in the 
county or city in which the project is proposed or a contiguous county or city. Prior to the any required public hearing, the 
regional health planning agency shall notify the local governing bodies in the planning district. At least nine days prior to 
the public hearing, the regional health planning agency shall cause notice of the public hearing to be published in a 
newspaper of general circulation in the county or city where the project is proposed to be located. The regional health 
planning agency shall consider the comments of the local governing bodies in the planning district and all other public 
comments in making its decision. Such comments shall be part of the record. In no case shall a regional health planning 
agency hold more than two meetings on any application, one of which shall be the public hearing required pursuant to 
clause (iii), if any, conducted by the board of the regional health planning agency or a subcommittee of the board. The 
applicant shall be given the opportunity, prior to the vote by the board of the regional health planning agency or a committee 
of the agency, if acting for the board, on its recommendation, to respond to any comments made about the project by the 
regional health planning agency staff, any information in a regional health planning agency staff report, or comments by 
those voting members of the regional health planning agency board; however, such opportunity shall not increase the 
60-calendar-day period designated herein for the regional health planning agency's review unless the applicant or applicants 
request a specific extension of the regional health planning agency's review period.

The regional health planning agency shall submit its recommendations on each application and its reasons therefor to 
the Department within 10 calendar days after the completion of its 60-calendar-day review or such other period in 
accordance with the applicant's request for extension.

If the regional health planning agency has not completed its review within the specified 60 calendar days or such other 
period in accordance with the applicant's request for extension and submitted its recommendations on the application and 
the reasons therefor within 10 calendar days after the completion of its review, the Department shall, on the eleventh 
calendar day after the expiration of the regional health planning agency's review period, proceed as though the regional 
health planning agency has recommended project approval without conditions or revision.

If no regional health planning agency has been designated for a region, the Department shall (a) within 10 calendar 
days following the start of the review cycle, solicit public comment on such application by posting notice of such application 
and a summary of the proposed project on a website maintained by the Department; such notice shall include such 
information about how comments may be submitted to the Department and the date on which the public comment period 
shall expire, which shall be no later than 45 calendar days following the date of the public notice, and (b) in the case of 
competing applications or in response to a written request by an elected local government representative, a member of the 
General Assembly, the Commissioner, the applicant, or a member of the public, hold one hearing on each application in a 
location in the county or city in which the project is proposed or a contiguous county or city. Prior to the any required 
hearing, the Department shall notify the local governing bodies in the planning district in which the project is proposed. At 
least nine days prior to the public hearing, the Department shall cause notice of the public hearing to be published in a 
newspaper of general circulation in the county or city where the project is proposed to be located. The Department shall 
consider the comments of the local governing bodies in the planning district and all other public comments in making its 
decision. Such comments shall be part of the record.

C. After commencement of any public hearing and before a decision is made there shall be no ex parte contacts 
concerning the subject certificate or its application between (i) any person acting on behalf of the applicant or holder of a 
certificate or any person opposed to the issuance or in favor of revocation of a certificate of public need and (ii) any person 
in the Department who has authority to make a determination respecting the issuance or revocation of a certificate of public 
need, unless the Department has provided advance notice to all parties referred to in clause (i) of the time and place of such 
proposed contact.

D. The Department shall commence the review of each completed application upon the day which begins the 
appropriate batch review cycle and simultaneously with the review conducted by the regional health planning agency, if a 
regional health planning agency has been designated.
A determination whether a public need exists for a project shall be made by the Commissioner within 190 calendar
days of the day which begins the appropriate batch cycle.

The 190-calendar-day review period shall begin on the date upon which the application is determined to be complete
within the batching process specified in subdivision A 1 of § 32.1-102.2.

If the application is not determined to be complete within 40 calendar days from submission, the application shall be
refiled in the next batch for like projects.

The Commissioner shall make determinations in accordance with the provisions of the Administrative Process Act
(§ 2.2-4000 et seq.) except for those parts of the determination process for which timelines and specifications are delineated
in subsection E of this section. Further, if an informal fact-finding conference is determined to be necessary by the
Department or is requested by a person seeking good cause standing, the parties to the case shall include only the applicant,
any person showing good cause, any third-party payor providing health care insurance or prepaid coverage to five percent or
more of the patients in the applicant's service area, and the relevant health planning agency.

E. Upon entry of each completed application or applications into the appropriate batch review cycle:
1. The Department shall establish, for every application, a date between the eightieth and ninetieth calendar days
within the 190-calendar-day review period for holding an informal fact-finding conference, if such conference is necessary.
2. The Department shall review every application at or before the seventy-fifth calendar day within the
190-calendar-day review period to determine whether an informal fact-finding conference is necessary.
3. Any person seeking to be made a party to the case for good cause shall notify the Department of his request and the
basis therefor on or before the eightieth calendar day following the day which begins the appropriate batch review cycle, no
later than four days after the Department has completed its review and submitted its recommendation on an application and
has transmitted the same to the applicants and to persons who have, prior to the issuance of the report, requested a copy in
writing, shall notify the Commissioner, all applicants, and the regional health planning agency, in writing and under oath,
stating the grounds for good cause and providing the factual basis therefor.
4. In any case in which an informal fact-finding conference is held, a date shall be established for the closing of the
record which shall not be more than 30 calendar days after the date for holding the informal fact-finding conference.
5. In any case in which an informal fact-finding conference is not held, the record shall be closed on the earlier of
(i) the date established for holding the informal fact-finding conference or (ii) the date that the Department determines an
informal fact-finding conference is not necessary.
6. The provisions of subsection C of § 2.2-4021 notwithstanding, if a determination whether a public need exists for a
project is not made by the Commissioner within 45 calendar days of the closing of the record, the Commissioner shall notify
the applicant or applicants and any persons seeking to show good cause, in writing, that the application or the application of
each shall be deemed approved 25 calendar days after expiration of such 45-calendar-day period, unless the receipt of
recommendations from the person performing the hearing officer functions permits the Commissioner to issue his case
decision within that 25-calendar-day period. The validity or timeliness of the aforementioned notice shall not, in any event,
prevent, delay or otherwise impact the effectiveness of this section.
7. In any case when a determination whether a public need exists for a project is not made by the Commissioner within
70 calendar days after the closing of the record, the application shall be deemed to be approved and the certificate shall be
granted.
8. If a determination whether a public need exists for a project is not made by the Commissioner within 45 calendar
days of the closing of the record, any applicant who is competing in the relevant batch or who has filed an application in
response to the relevant Request For Applications issued pursuant to § 32.1-102.3:2 may, prior to the application being
deemed approved, petition for immediate injunctive relief pursuant to § 2.2-4030, naming as respondents the Commissioner
and all parties to the case. During the pendency of the proceeding, no applications shall be deemed to be approved. In such a
proceeding, the provisions of § 2.2-4030 shall apply.
F. Deemed approvals shall be construed as the Commissioner's case decision on the application pursuant to the
Administrative Process Act (§ 2.2-4000 et seq.) and shall be subject to judicial review on appeal as the Commissioner's case
decision in accordance with such act.

Any person who has sought to participate in the Department's review of such deemed-to-be-approved application as a
person showing good cause who has not received a final determination from the Commissioner concerning such attempt to
show good cause shall be deemed to be a person showing good cause for purposes of appeal of the deemed approval of the
certificate.

In any appeal of the Commissioner's case decision granting a certificate of public need pursuant to a Request for
Applications issued pursuant to § 32.1-102.3:2, the court may require the appellant to file a bond pursuant to § 8.01-676.1,
in such sum as shall be fixed by the court for protection of all parties interested in the case decision, conditioned on the
payment of all damages and costs incurred in consequence of such appeal.

G. For purposes of this section, "good cause" shall mean means that (i) there is significant relevant information not
previously presented at and not available at the time of the public hearing, (ii) there have been significant changes in factors
or circumstances relating to the application subsequent to the public hearing, or (iii) there is a substantial material mistake
of fact or law in the Department staff's report on the application or in the report submitted by the health planning agency.

H. The project review procedures shall provide for separation of the project review manager functions from the hearing
officer functions. No person serving in the role of project review manager shall serve as a hearing officer.
I. The applicants, and only the applicants, shall have the authority to extend any of the time periods specified in this section. If all applicants consent to extending any time period in this section, the Commissioner, with the concurrence of the applicants, shall establish a new schedule for the remaining time periods.

J. This section shall not apply to applications for certificates for projects defined in subdivision A of § 32.1-102.4 regarding schedules for completion of a project or maximum capital expenditures for a project; or

§ 32.1-102.6:1. Revocation of a certificate.
The Commissioner shall revoke a certificate of public need for:
1. Failure to comply with the requirements of subsection A of § 32.1-102.4 regarding schedules for completion of a project or maximum capital expenditures for a project; or
2. Willfully or recklessly misrepresented intentions or facts in obtaining a certificate.

§ 32.1-102.8. Enjoining project undertaken without certificate or registration.
On petition of the Commissioner, the Board or the Attorney General, the circuit court of the county or city where a project is under construction or is intended to be constructed, located, or undertaken shall have jurisdiction to enjoin any project which that is constructed, undertaken, or commenced without a certificate or registration required by this article or to enjoin the admission of patients to the project or to enjoin the provision of services through the project.

§ 32.1-102.10. Commencing project without certificate or registration grounds for refusing to issue license.
Commencing any project without a certificate or registration required by this article shall constitute grounds for refusing to issue a license for such project. Persons commencing any project without a certificate or registration as required by this article shall be subject to the penalties set forth in §§ 32.1-27 and 32.1-27.1.

§ 32.1-102.11. Application of article.
A. On and after July 1, 1992, every project of an existing or proposed medical care facility, as defined in § 32.1-102.1, described in subsection A of § 32.1-102.1:3 shall be subject to all provisions of this article unless, with respect to such project, the owner or operator of an existing medical care facility or the developer of a proposed medical care facility (i) has, by February 1, 1992, purchased or leased equipment subject to registration pursuant to former § 32.1-102.3:1, (ii) has, by February 1, 1992, initiated construction requiring a capital expenditure exceeding one million dollars, or (iii) has made or contracted to make or otherwise legally obligated to make, during the three years ending February 1, 1992, preliminary expenditures of $350,000 or more for a formal plan of construction of the specific project, including expenditures for site acquisition, designs, preliminary or working drawings, construction documents, or other items essential to the construction of the specific project.

Any project exempted pursuant to subdivisions (ii) and (iii) of this subsection shall be limited to such construction, services, and equipment as specifically identified in the formal plan of construction which shall have existed and been formally committed to by February 1, 1992. Further, the equipment to be exempted pursuant to subdivisions (ii) and (iii) shall be limited to the number of units and any types of medical equipment, in the case of medical equipment intended to provide any services included in such plan and, in the case of all other equipment, such equipment as is appropriate for the construction and services included in such plan.

None of the exemptions provided in this subsection shall be applicable to projects which required a certificate of public need pursuant to this article on January 1, 1992.

B. Any medical care facility or entity claiming to meet one of the conditions set forth in subsection A of this section shall file a completed application for an exemption from the provisions of this article with the Commissioner by August 1, 1992. Forms for such application shall be made available by the Commissioner no later than April 1, 1992. The Commissioner may deny an exemption if the application is not complete on August 1, 1992, and the medical care facility or entity has not filed a completed application within forty-five days after notice of deficiency in the filing of the completed application. After receiving a completed application, the Commissioner shall determine whether the project has met one of the criteria for an exemption and is, therefore, exempt or has not met any of the criteria for an exemption and is, therefore, subject to all provisions of this article and shall notify the medical care facility or entity of his determination within sixty days of the date of filing of the completed application. If it is determined that an exemption exists for only a portion of a project, the Commissioner may approve an exemption for that portion and any appeal may be limited to the part of the decision with which the appellant disagrees without affecting the remainder of the decision. The Commissioner's determination shall be made in accordance with the provisions of the Administrative Process Act (§ 2.2-4000 et seq.), except that parties to the case shall include only those parties specified in § 32.1-102.6.

C. For the purposes of this section:
"Formal plan of construction" means documentary evidence indicating that the facility, the owner or operator of the facility, or the developer of a proposed facility was formally committed to the project by February 1, 1992, and describing the specific project in sufficient detail to reasonably define and confirm the scope of the project including estimated cost, intended location, any clinical health services to be involved and any types of equipment to be purchased. Such documentary evidence shall include designs, preliminary or working drawings, construction documents or other documents which have been used to explicitly define and confirm the scope of the project for the purposes of seeking architectural or construction plans or capital to the extent that such capital was committed or agreed to be provided for such project prior to February 1, 1992.
"Initiated construction" means an owner or operator of an existing facility or the developer of a proposed facility can present evidence for a specific project that (i) a construction contract has been executed; (ii) if applicable, short-term financing has been completed; (iii) if applicable, a commitment for long-term financing has been obtained; and (iv) if the project is for construction of a new facility or expansion of an existing facility, predevelopment site work and building foundations have been completed.

"Leased" means that the owner or operator of an existing medical care facility or the developer of a proposed facility has a legally binding commitment to lease the equipment pursuant to an agreement providing for fixed, periodic payments commencing no later than June 30, 1992, including a lease-purchase agreement in which the owner or operator of the facility or developer has an option to purchase the equipment for less than fair market value upon conclusion of the lease or an installment sale agreement with fixed periodic payments commencing no later than June 30, 1992.

"Purchased" means that the equipment has been acquired by the owner or operator of an existing medical care facility or the developer of a proposed medical care facility, or the owner or operator of the facility or the developer can present evidence of a legal obligation to acquire the equipment in the form of an executed contract or appropriately signed order or requisition and payment has been made in full by June 30, 1992.

§ 32.1-239. Definitions.

As used in this article the following definitions shall apply:

"Commercial establishment" means any commercial or industrial establishment, mill, factory, plant, refinery and any other works in which any chemical substance is manufactured or used as a raw material, catalyst, final product or process solvent for such; however, this term shall not be construed in the administration of this act to include normal farming and timbering activities.

"Manufacturing" means producing, formulating, packaging or diluting any substance for commercial sale or resale.

"Person" includes, in addition to the entities enumerated in subdivision 4 of § 32.1-3, the Commonwealth and any of its political subdivisions.

"Toxic substance" means any substance, including any raw materials, intermediate products, catalysts, final products, or by-products of any manufacturing operation conducted in a commercial establishment, that has the capacity, through its physical, chemical or biological properties, to pose a substantial risk of death or impairment either immediately or over time, to the normal functions of humans, aquatic organisms, or any other animal.

§ 32.1-276.5. Providers to submit data; civil penalty.

A. Every health care provider shall submit data as required pursuant to regulations of the Board, consistent with the recommendations of the nonprofit organization in its strategic plans submitted and approved pursuant to § 32.1-276.4, and as required by this section. Such data shall include relevant data and information for any parent or subsidiary company of health maintenance organizations that operates in the Commonwealth. Notwithstanding the provisions of Chapter 38 (§ 2.2-3800 et seq.) of Title 2.2, it shall be lawful to provide information in compliance with the provisions of this chapter.

B. In addition, health maintenance organizations shall annually submit to the Commissioner, to make available to consumers who make health benefit enrollment decisions, audited data consistent with the latest version of the Health Employer Data and Information Set (HEDIS), as required by the National Committee for Quality Assurance, or any other quality of care or performance information set as approved by the Board. The Commissioner, at his discretion, may grant a waiver of the HEDIS or other approved quality of care or performance information set upon a determination by the Commissioner that the health maintenance organization has met Board-approved exemption criteria. The Board shall promulgate regulations to implement the provisions of this section.

The Commissioner shall also negotiate and contract with a nonprofit organization authorized under § 32.1-276.4 for compiling, storing, and making available to consumers the data submitted by health maintenance organizations pursuant to this section. The nonprofit organization shall assist the Board in developing a quality of care or performance information set for such health maintenance organizations and shall, at the Commissioner's discretion, periodically review this information set for its effectiveness.

C. Every medical care facility as that term is defined in § 32.1-102.1 § 32.1-3 that furnishes, conducts, operates, or offers any reviewable service shall report data on the utilization of such service to the Commissioner, who shall contract with the nonprofit organization authorized under this chapter to collect and disseminate such data. For purposes of this section, "reviewable service" shall mean inpatient beds, operating rooms, nursing home services, cardiac catheterization, computed tomographic (CT) scanning, stereotactic radiosurgery, lithotripsy, magnetic resonance imaging (MRI), magnetic source imaging, medical rehabilitation, neonatal special care, obstetrical services, open heart surgery, positron emission tomographic (PET) scanning, psychiatric services, organ and tissue transplant services, radiation therapy, stereotactic radiotherapy, proton beam therapy, nuclear medicine imaging except for the purpose of nuclear cardiac imaging, and substance abuse treatment.

Every medical care facility for which a certificate of public need with conditions imposed pursuant to § 32.1-102.4 is issued shall report to the Commissioner data on charity care, as that term is defined in § 32.1-102.1, provided to satisfy a condition of a certificate of public need, including (i) the total amount of such charity care the facility provided to indigent persons; (ii) the number of patients to whom such charity care was provided; (iii) the specific services delivered to patients that are reported as charity care recipients; and (iv) the portion of the total amount of such charity care provided that each service represents. The value of charity care reported shall be based on the medical care facility's submission of applicable Diagnosis Related Group codes and Current Procedural Terminology codes aligned with methodology utilized by the
Centers for Medicare and Medicaid Services for reimbursement under Title XVIII of the Social Security Act, 42 U.S.C. § 1395 et seq. Notwithstanding the foregoing, every nursing home as defined in § 32.1-123 for which a certificate of public need with conditions imposed pursuant to § 32.1-102.4 is issued shall report data on utilization and other data in accordance with regulations of the Board.

A medical care facility that fails to report data required by this subsection shall be subject to a civil penalty of up to $100 per day per violation, which shall be collected by the Commissioner and paid into the Literary Fund.

D. Every continuing care retirement community established pursuant to Chapter 49 (§ 38.2-4900 et seq.) of Title 38.2 that includes nursing home beds shall report data on utilization of such nursing home beds to the Commissioner, who shall contract with the nonprofit organization authorized under this chapter to collect and disseminate such data.

E. Every hospital that receives a disproportionate share hospital adjustment pursuant to § 1886(d)(5)(F) of the Social Security Act shall report, in accordance with regulations of the Board consistent with recommendations of the nonprofit organization in its strategic plan submitted and provided pursuant to § 32.1-276.4, the number of inpatient days attributed to patients eligible for Medicaid but not Medicare Part A and the total amount of the disproportionate share hospital adjustment received.

F. The Board shall evaluate biennially the impact and effectiveness of such data collection.

2. That the Department of Health develop recommendations to reduce the duration of the average review cycle for applications for certificates of public need to not more than 120 days from the date of receipt of a letter of intent. In doing so, the Department shall consider changes to the current process that may result in a reduction in the duration of the review period, including elimination or revision of the review of applications for completeness, reduction of the current 70-day period for review of an application by the Department, and a requirement that a public hearing be held earlier in the process. The Department shall report its recommendations to the Governor and the General Assembly by December 1, 2020.

3. That the Secretary of Health and Human Resources implement a system by January 1, 2021, or as soon as thereafter as practicable, to ensure that data needed to evaluate whether an application for a certificate of public need is consistent with the State Health Services Plan requirements is timely and reliable, with such funds as are available.

4. That the Secretary of Health and Human Resources implement a system by January 1, 2021, or as soon thereafter as practicable, to make an inventory of capacity authorized by certificates of public need, both operational and not yet operational, available in a digital format online, with such funds as are available.

5. That the Secretary of Health and Human Resources establish, by January 1, 2021, a public education and outreach program designed to improve public awareness of the certificate of public need process and the public's role in such process, including the opportunity to provide written comments on applications and the process by which a member of the public may request a public hearing on an application.

2. That an emergency exists and this act is in force from its passage.
CHAPTER 1273

An Act to amend the Code of Virginia by adding a section numbered 56-585.1:11, relating to electric utilities; development of offshore wind generation facilities.

Approved April 22, 2020

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding a section numbered 56-585.1:11 as follows:

A. As used in this section:

"Advanced clean energy buyer" means a commercial or industrial customer of a Phase II Utility, irrespective of generation supplier, (i) with an aggregate load over 100 megawatts; (ii) with an aggregate amount of at least 200 megawatts of solar or wind energy supply under contract with a term of 10 years or more from facilities located within the Commonwealth by January 1, 2024; and (iii) that directly procures from the utility the electric supply and environmental attributes of the offshore wind facility associated with the lesser of 50 megawatts of nameplate capacity or 15 percent of the commercial or industrial customer's annual peak demand for a contract period of 15 years.

"Aggregate load" means the combined electrical load associated with selected accounts of an advanced energy buyer with the same legal entity name as, or in the names of affiliated entities that control, are controlled by, or are under common control of, such legal entity or are the names of affiliated entities under a common parent.

"Control" means the legal right, directly or indirectly, to direct or cause the direction of the management, actions, or policies of an affiliated entity, whether through the ability to exercise voting power, by contract, or otherwise. "Control" does not include control of an entity through a franchise or similar contractual agreement.

"Qualifying large general service customer" means a customer of a Phase II Utility, irrespective of general supplier, (i) whose peak demand during the most recent calendar year exceeded five megawatts and (ii) that contracts with the utility to directly procure electric supply and environmental attributes associated with the offshore wind facility in amounts commensurate with the customer's electric usage for a contract period of 15 years or more.

B. In order to meet the Commonwealth's clean energy goals, prior to December 31, 2034, the construction or purchase by a public utility of one or more offshore wind generation facilities located off the Commonwealth's Atlantic shoreline or in federal waters and interconnected directly into the Commonwealth, with an aggregate capacity of up to 5,200 megawatts, is in the public interest and the Commission shall so find, provided that no customers of the utility shall be responsible for costs of any such facility in a proportion greater than the utility's share of the facility.

C. 1. Pursuant to subsection B, construction by a Phase II Utility of one or more new utility-owned and utility-operated generating facilities utilizing energy derived from offshore wind and located off the Commonwealth's Atlantic shoreline, with an aggregate rated capacity of not less than 2,500 megawatts and not more than 3,000 megawatts, along with electrical transmission or distribution facilities associated therewith for interconnection is in the public interest. In acting upon any request for cost recovery by a Phase II Utility for costs associated with such a facility, the Commission shall determine the reasonableness and prudence of any such costs, provided that such costs shall be presumed to be reasonably and prudently incurred if the Commission determines that (i) the utility has complied with the competitive solicitation and procurement requirements pursuant to subsection E; (ii) the project's projected total levelized cost of energy, including any tax credit, on a cost per megawatt hour basis, inclusive of the costs of transmission and distribution facilities associated with the facility's interconnection, does not exceed 1.4 times the comparable cost, on an unweighted average basis, of a conventional simple cycle combustion turbine generating facility as estimated by the U.S. Energy Information Administration in its Annual Energy Outlook 2019; and (iii) the utility has commenced construction of such facilities for U.S. income tax purposes prior to January 1, 2024, or has a plan for such facility or facilities to be in service prior to January 1, 2028. The Commission shall disallow costs, or any portion thereof, only if they are otherwise unreasonably and imprudently incurred. In its review, the Commission shall give due consideration to (a) the Commonwealth's renewable portfolio standards and carbon reduction requirements, (b) the promotion of new renewable generation resources, and (c) the economic development benefits of the project for the Commonwealth, including capital investments and job creation.

2. Notwithstanding the provisions of § 56-585.1, the Commission shall not grant an enhanced rate of return to a Phase II Utility for the construction of one or more new utility-owned and utility-operated generating facilities utilizing energy derived from offshore wind and located off the Commonwealth's Atlantic shoreline pursuant to this section.

3. Any such costs proposed for recovery through a rate adjustment clause pursuant to subdivision A 6 of § 56-585.1 shall be allocated to all customers of the utility in the Commonwealth as a non-bypassable charge, regardless of the generation supplier of any such customer, other than (i) PIPP eligible utility customers, (ii) advanced clean energy buyers, and (iii) qualifying large general service customers. No electric cooperative customer of the utility shall be assigned, nor shall the utility collect from any such cooperative, any of the costs of such facilities, including electrical transmission or distribution facilities associated therewith for interconnection. The Commission may promulgate such rules, regulations, or other directives necessary to administer the eligibility for these exemptions.

4. The Commission shall permit a portion of the nameplate capacity of any such facility, in the aggregate, to be allocated to (i) advanced clean energy buyers or (ii) qualifying large general service customers, provided that no more than
10 percent of the offshore wind facility's capacity is allocated to qualifying large general service customers. A Phase II
Utility shall petition the Commission for approval of a special contract with any advanced clean energy buyer, or any
special rate applicable to qualifying large general service customers, pursuant to § 56-235.2, no later than 15 months prior
to the projected commercial operation date of the facility, and all customer enrollments associated with such special
contracts or rates shall be completed prior to commercial operation of the facility. Any such special contract or rate may
include provisions for levelized rates of service over the duration of the customer’s contracted agreement with the utility,
and the Commission shall determine that such special contract or rate is designed to hold nonparticipating customers
harmless over its term in connection with any petition for approval by the utility. The utility may petition for approval of
such special contracts or rates in connection with any petition for approval of a rate adjustment clause pursuant to
subsection A 6 of § 56-585.1 to recover the costs of the facility, and the Commission shall rule upon any such petitions in its
final order in such proceeding within nine months from the date of filing.

D. In constructing any such facility contemplated in subsection B, the utility shall develop and submit a plan to the
Commission for review that includes the following considerations: (i) options for utilizing local workers; (ii) the economic
development benefits of the project for the Commonwealth, including capital investments and job creation; (iii) consultation
with the Commonwealth’s Chief Workforce Development Officer, the Chief Diversity, Equity, and Inclusion Officer, and the
Virginia Economic Development Partnership, on opportunities to advance the Commonwealth’s workforce and economic
development goals, including furtherance of apprenticeship and other workforce training programs; and (iv) giving priority
to the hiring, apprenticeship, and training of veterans, as that term is defined in § 2.2-2000.1, local workers, and workers
from historically economically disadvantaged communities.

E. Any project constructed or purchased pursuant to subsection B shall (i) be subject to competitive procurement or
solicitation for a substantial majority of the services and equipment, exclusive of interconnection costs, associated with the
facility’s construction; (ii) involve at least one experienced developer; and (iii) demonstrate the economic development
benefits within the Commonwealth, including capital investments and job creation. A utility may give appropriate
consideration to suppliers and developers that have demonstrated successful experience in offshore wind.

F. Any project shall include an environmental and fisheries mitigation plan submitted to the Commission for the
construction and operation of such offshore wind facilities, provided that such plan includes an explicit description of the
best management practices the bidder will employ that considers the latest science at the time the proposal is made to
mitigate adverse impacts to wildlife, natural resources, ecosystems, and traditional or existing water-dependent uses. The
plan shall include a summary of pre-construction assessment activities, consistent with federal requirements, to determine
the spatial and temporal presence and abundance of marine mammals, sea turtles, birds, and bats, in the offshore wind
lease area.

2. That the utility constructing a facility pursuant to § 56-585.1:11 of the Code of Virginia, as created by this act,
shall provide the State Corporation Commission (the Commission) with reports on the facility’s construction
progress, including performance to construction timeline and budget, on no less than a quarterly basis throughout
the construction period. The Commission shall retain ongoing authority to review the reasonableness and prudence of
any increases in the total projected cost of the facility during its construction period.

CHAPTER 1274

An Act to amend the Code of Virginia by adding in Chapter 26 of Title 2.2 an article numbered 36, consisting of sections
numbered 2.2-2699.8 through 2.2-2699.12, relating to environmental justice council.

Approved April 22, 2020

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding in Chapter 26 of Title 2.2 an article numbered 36, consisting of
sections numbered 2.2-2699.8 through 2.2-2699.12, as follows:

Article 36.

§ 2.2-2699.8. Definitions.

For purposes of this article, unless the context requires a different meaning:
"Council" means the Virginia Council on Environmental Justice established pursuant to this article.
"Environmental justice" means the fair treatment and meaningful involvement of all people regardless of race, color,
faith, disability, national origin, or income, regarding the development, implementation, or enforcement of any
environmental law, regulation, or policy.

share of any negative environmental consequence resulting from an industrial, governmental, or commercial operation,
program, or policy.
"Meaningful involvement" means the requirements that (i) affected and vulnerable community residents have access
and opportunities to participate in the full cycle of the decision-making process about a proposed activity that will affect
their environment or health and (ii) decision-makers will seek out and consider such participation, allowing the views and perspectives of community residents to shape and influence the decision.

"Resilience" means, as it pertains to climate change, the ability to anticipate, prepare for, and adapt to changing conditions and to withstand, respond to, and recover rapidly from disruptions through adaptable planning and climate solutions.

§ 2.2-2699.9. Virginia Council on Environmental Justice.

The Virginia Council on Environmental Justice is established as an advisory council, within the meaning of § 2.2-2100, in the executive branch of state government. The purpose of the Council is to advise the Governor and provide recommendations that maintain a foundation of environmental justice principles intended to protect vulnerable communities from disproportionate impacts of pollution.

§ 2.2-2699.10. Membership; terms; quorum; meetings.

B. The Board shall have the power and duty to coordinate the planning for financing of transportation needs, including needs for highways, railways, seaports, airports, and public transportation and set aside funds as provided in § 33.2-1524. To allocate funds for these needs pursuant to §§ 33.2-358 and 33.2-373 in the Six-Year Improvement Program if the allocation of funds from those programs and other funding committed to such project or program within the six-year horizon of the Six-Year Improvement Program is sufficient to complete the project or program. The provisions of this subsection shall not apply to any project (i) the design and construction of which cannot be completed within six years, (ii) the estimated costs of which exceed $2 billion, and (iii) that requires the Board to exercise its authority to waive the funding cap pursuant to subsection B of § 33.2-369.

C. The Board shall have the power and duty to enter into contracts with local districts, commissions, agencies, or other entities created for transportation purposes.

D. The Board shall have the power and duty to promote increasing private investment in the Commonwealth's transportation infrastructure, including acquisition of causeways, bridges, tunnels, highways, and other transportation facilities.

The provisions of this subsection shall not apply to any project (i) the design and construction of which cannot be completed within six years, (ii) the estimated costs of which exceed $2 billion, and (iii) that requires the Board to exercise its authority to waive the funding cap pursuant to subsection B of § 33.2-369.

F. The Board shall have the power and duty to integrate land use with transportation planning and programming, consistent with the efficient and economical use of public funds. If the Board determines that a local transportation plan described in § 15.2-2223 or any amendment as described in § 15.2-2229 or a metropolitan regional long-range transportation plan or regional Transportation Improvement Program as described in § 33.2-3201 is not consistent with the Board's Statewide Transportation Plan developed pursuant to § 33.2-353, the Six-Year Improvement Program adopted pursuant to subsection B, and the location of routes to be followed by roads comprising systems of state highways pursuant to subsection A of § 33.2-208, the Board shall notify the locality of such inconsistency and request that the applicable plan or program be amended accordingly. If, after a reasonable time, the Board determines that there is a refusal to amend the plan or program, then the Board may reallocate funds that were allocated to the nonconforming project as permitted by state or federal law. However, the Board shall not reallocate any funds allocated pursuant to § 33.2-319 or 33.2-366, based on a determination of inconsistency with the Board's Statewide Transportation Plan or the Six-Year Improvement Program nor shall the Board reallocate any funds, allocated pursuant to subsection C or D of § 33.2-358, from any projects on highways controlled by any county that has withdrawn, or elects to withdraw, from the secondary system of state highways based on a determination of inconsistency with the Board's Statewide Transportation Plan or the Six-Year Improvement Program. If a locality or metropolitan planning organization requests the termination of a project, and the Department does not agree to the termination, or if a locality or metropolitan planning organization does not advance a project to the next phase of construction when requested by the Board and the Department has expended state or federal funds, the locality or the localities within the metropolitan planning organization may be required to reimburse the Department for all funds expended on the project. If, after design approval by the Chief Engineer of the Department, a locality or metropolitan planning organization requests alterations to a project that, in the aggregate, exceeds 10 percent of the total project costs, the locality or the localities within the metropolitan planning organization may be required to reimburse the Department for the additional project costs above the original estimates for making such alterations.

A. 1. The Board shall develop a prioritization process for the use of funds allocated pursuant to subdivision C D 2 of § 33.2-1526.1. Such prioritization process shall be used for the development of the Six-Year Improvement Program adopted annually by the Board pursuant to § 33.2-214. There shall be a separate prioritization process for state of good repair projects and major expansion projects. The prioritization process shall, for state of good repair projects, be based upon transit asset management principles, including federal requirements for Transit Asset Management pursuant to 49 U.S.C. § 5326. The prioritization process shall, for major expansion projects, be based on an objective and quantifiable analysis that considers the following factors relative to the cost of a major expansion project: congestion mitigation, economic development, accessibility, safety, environmental quality, and land use.
2. The Board shall solicit input from localities, metropolitan planning organizations, transit authorities, transportation authorities, and other stakeholders in its development of the prioritization process pursuant to this subsection. Further, the Board shall explicitly consider input provided by an applicable metropolitan planning organization or the Northern Virginia Transportation Authority when developing the prioritization process set forth in subdivision 1 for a metropolitan planning area with a population of over 200,000 individuals.

B. 1. The Board shall create for the Department of Rail and Public Transportation a Transit Service Delivery Advisory Committee, consisting of two members appointed by the Virginia Transit Association, one member appointed by the Community Transportation Association of Virginia, one member appointed by the Virginia Municipal League, one member appointed by the Virginia Association of Counties, and three members appointed by the Director of the Department of Rail and Public Transportation, to advise the Department of Rail and Public Transportation in the development of the process set forth in subdivision 2. The Transit Service Delivery Advisory Committee shall elect a chairman from among its membership. The Department of Rail and Public Transportation shall provide administrative support to the Transit Service Delivery Advisory Committee. The Transit Service Delivery Advisory Committee shall meet at least annually and consult with interested stakeholders and hold at least one public hearing and report its findings to the Director of the Department of Rail and Public Transportation.

2. The Department of Rail and Public Transportation, in conjunction with the Transit Service Delivery Advisory Committee, shall develop a process for the distribution of the funds allocated pursuant to subdivision C D of § 33.2-1526.1 and the incorporation by transit systems of the service delivery factors set forth therein into their transit development plans. Prior to the Board approving service delivery factors, the Director of the Department of Rail and Public Transportation and the Chairman of the Transit Service Delivery Advisory Committee shall brief the House Committees on Appropriations and Transportation and the Senate Committees on Finance and Transportation regarding the findings and recommendations of the Transit Service Delivery Advisory Committee and the Department of Rail and Public Transportation. Before redefining any component of the service delivery factors, the Board shall consult with the Director of the Department of Rail and Public Transportation, the Transit Service Delivery Advisory Committee, and interested stakeholders, and shall provide for a 45-day public comment period. The process required to be delivered by this subsection shall be adopted no later than July 1, 2019, and shall apply beginning with the fiscal year 2020-2025 Six-Year Improvement Program.

§ 33.2-226. Authority to lease or convey airspace.

The Commissioner of Highways may lease or sell and convey the airspace superjacent or subjacent to any highway in the Commonwealth that is within his jurisdiction and in which the Commonwealth owns fee simple title after satisfying itself that use of the airspace will not impair the full use and safety of the highway or otherwise interfere with the free flow of traffic thereon and it cannot be reasonably foreseen as needed in the future for highway and other transit uses and purposes. The Commissioner of Highways may provide in such leases and conveyances of airspace for columns of support, in fee or otherwise, ingress, egress, and utilities.

No lease or conveyance shall be entered into by the Commissioner of Highways unless the locality, by action of its governing body by majority recorded vote, approves the projected use of the airspace in question and has taken such steps as it deems proper to regulate the type and use of the improvements to be erected in such airspace by appropriate zoning or other method of land use control.

All leases and conveyances shall contain those terms deemed necessary by the Commissioner of Highways to protect the interests of the Commonwealth and the public. The Commissioner of Highways may utilize any competitive procurement process authorized by law, including (i) competitive sealed bidding, (ii) competitive negotiation, (iii) best value procurements as defined in § 2.2-4301, and (iv) public-private partnerships pursuant to the Public-Private Transportation Act of 1995 (§ 33.2-1800 et seq.), as determined by the Commissioner of Highways, in his sole discretion, to be appropriate and the method most likely to achieve the identified goals of the proposed lease or sale and conveyance of airspace. The Commissioner of Highways may reject any bid or offer that he believes is not in the best interest of the Commonwealth.

§ 33.2-288. Declaration of public purpose; Virginia Passenger Rail Authority.

A. The General Assembly finds and determines that (i) it is the policy of the Commonwealth to improve, identify, encourage, and promote new approaches to economic development throughout the Commonwealth; (ii) passenger rail
travel and services are integral to the economic development and expansion of the Commonwealth's economy; and
(iii) there exists in the Commonwealth a need to increase passenger rail capacity in the Commonwealth and improve
passenger rail services.

B. In order to increase passenger rail capacity, improve passenger rail services, ameliorate current and future traffic
congestion on Virginia highways, and promote the industrial and economic development of the Commonwealth, there is
hereby created a body corporate and political subdivision of the Commonwealth to be known as the Virginia Passenger Rail
Authority. The Authority is hereby constituted as a public instrumentality exercising public and essential governmental
functions, and the exercise of powers conferred by this article shall be deemed to be the performance of an essential
governmental function and matters of public necessity for which public moneys may be spent and private property acquired.

C. The purpose of the Authority shall be to promote, sustain, and expand the availability of passenger and commuter
rail service in the Commonwealth and to increase ridership of such service by connecting population centers with
passenger and commuter rail service and increasing availability of such service.

§ 33.2-289. Board of Directors.
A. The Authority shall be governed by the Board of Directors of the Authority consisting of 15 members as follows:

30 days after the next meeting of the ensuing General Assembly and, if confirmed, thereafter for the remainder of the term.
No member shall be eligible to serve more than two consecutive four-year terms. The remainder of any term for which a
member is appointed to fill a vacancy shall not constitute a term in determining that member's eligibility for reappointment.
No member of a governing body of a locality shall be eligible, during the term of office for which he was elected or
appointed, to serve as an appointed member of the Board. The Director shall serve terms coincident with his term of office.
C. The Director of the Department shall serve as chairman of the Board. The Board shall annually elect from among

the Board, and may also elect other subordinate officers who need not be a member of the Board, as it deems proper. The
chairman or, in his absence, the vice-chairman shall preside at all meetings of the Board. In the absence of both the
chairman and vice-chairman, the Board shall appoint a chairman pro tempore, who shall preside at such meetings.
D. Seven members shall constitute a quorum for the transaction of the Authority's business, and no vacancy in the
membership shall impair the right of a quorum to exercise all the rights and perform all the duties of the Authority. All
actions of the Board shall require the affirmative vote of a majority of the members present and voting, except that the sale
of land or issuance of bonds shall require an affirmative vote of nine members present and voting.

meetings. Special meetings of the Board shall be held when requested by three or more members of the Board. Any such
request for a special meeting shall be in writing, and the request shall specify the time and place of the meeting and the

special meeting. No matter not specified in the notice shall be considered at such special meeting unless all members of the
Board are present.
F. The members of the Board shall be entitled to reimbursement for their reasonable travel, meal, and lodging expenses
incurred in attending the meetings of the Board or while otherwise engaged in the discharge of their duties. Such expenses
shall be paid out of the treasury of the Authority upon vouchers signed by the chairman of the Board or by such other person
or persons as may be designated by the Board for this purpose.

§ 33.2-290. Executive Director; agents and employees.
A. The Board shall employ an Executive Director of the Authority, who shall not be a member of the Board and who shall serve at the pleasure of the Board, to direct the day-to-day operations and activities of the Authority and carry out the powers and duties conferred upon him as may be delegated to him by the Board. The Executive Director’s compensation from the Commonwealth shall be fixed by the Board in accordance with law. This compensation shall be established at a level that will enable the Authority to attract and retain a capable Executive Director.

B. The Executive Director shall employ or retain such other agents or employees subordinate to the Executive Director as may be necessary, subject to the Board’s approval.

C. Employees of the Authority shall be employed on such terms and conditions as established by the Authority and shall be considered employees of the Commonwealth. Notwithstanding any other provision of law, the Board shall develop, implement, and administer a paid leave program, which may include annual, personal, and sick leave or any combination thereof. All other leave benefits shall be administered in accordance with Chapter 11 (§ 51.1-1100 et seq.) or Chapter 11.1 (§ 51.1-1150 et seq.) of Title 51.1, except as otherwise provided in this section.

§ 33.2-291. Local authorities subordinate to Authority.

Any conflict between any authority granted to localities or other entities of the Commonwealth, other than the Transportation Board and the Department, with respect to the ownership or use of rail facilities or the provision of passenger rail service, or the exercise of that authority, and the exercise of the authority granted by the Board under this article shall be resolved in favor of the exercise of such authority by the Board. Rights-of-way transferred to the Authority from a railroad shall not be subject to the requirements of any local ordinances enacted pursuant to Chapter 22 (§ 15.2:2-2200 et seq.) of Title 15.2.

B. The Authority shall have the right to hold and dispose of rail facilities and other lands, structures, property, both real and personal, tangible and intangible, rights, rights-of-way, franchises, easements, and other interests therein in the exercise of its powers and the performance of its duties under this article, including but not limited to the sale, exchange, lease, mortgage, or pledge of such property or interest therein, provided that any such disposition that involves property or interests with a fair market value in excess of $5 million shall require the consent of the Transportation Board.

C. The Commonwealth and any agencies or political subdivisions thereof may provide services, donate, lease, sell, convey, or otherwise transfer, with or without consideration or for minimal consideration, real or personal property and make appropriations to the Authority for the design, acquisition, construction, equipping, maintenance, and operation of rail facilities and may issue bonds in the manner provided in the Public Finance Act (§ 15.2-2600 et seq.) or in its municipal charter for the purpose of providing funds to be appropriated to the Authority; the Authority may agree to assume, or reimburse such a political subdivision for, any indebtedness incurred by such political subdivision with respect to facilities conveyed by it to the Authority.

The acceptance of such payment shall not preclude such person from appealing any decision rendered in such proceedings. If the appraisal is greater or less than the amount finally determined by the decision in such proceedings or by an appeal, the amount of the increase or decrease shall be paid or refunded to the Authority.

E. The acquisition of any such property by condemnation or by the exercise of the power of eminent domain for the purposes provided herein shall be and is declared to be a public use of such property.

E. The bonds may be issued in coupon or in registered form, or both, as the Authority may determine, and provision may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, for the reconversion into coupon bonds of any bonds registered as to both principal and interest, and for the interchange of registered and coupon bonds. Bonds issued in registered form may be issued under a system of book-entry for recording the ownership and transfer of ownership of rights to receive payment of principal of, and premium on, if any, and interest on such bonds. The Authority may contract for the services of one or more banks, trust companies, financial institutions, or other entities or persons, within or outside the Commonwealth, for the authentication, registration, transfer, exchange, and payment of the bonds or may provide such services itself. The Authority may sell such bonds in such manner, either at public or private sale, and for such price as it may determine will best effect the purposes of this article.

The Authority shall prepare and submit a detailed annual operating plan and budget to the Transportation Board by February 1 of each fiscal year. The Authority shall also prepare and submit for approval any proposed capital expenditures and projects for the following fiscal year to the Transportation Board by February 1. The Transportation Board shall have until May 30 to approve or deny any capital expenditures, and, in the event the Transportation Board has not approved or denied the Authority's proposed capital expenditures by such deadline, such expenditures shall be deemed approved. The operating plan and budget shall be in a form prescribed by the Transportation Board and shall include information on expenditures, indebtedness, and other information as prescribed by the Transportation Board.

§ 33.2-299. Recordkeeping; audits.

A. The accounts and records of the Authority showing the receipt and disbursement of funds from whatever source derived shall be in a form prescribed by governmental generally accepted accounting principles. Such accounts shall correspond as nearly as possible to the accounts and records for such matters maintained by enterprises.

B. The accounts of the Authority shall be audited annually by a certified public accounting firm selected by the Auditor of Public Accounts with the assistance of the Authority through a process of competitive negotiation. The cost of such audit and review shall be borne by the Authority.

C. The Authority shall submit an annual report to the Governor and the General Assembly on or before November 1 of each year. Such report shall contain the audited financial statements of the Authority for the fiscal year ending the preceding June 30.

D. The Board, the General Assembly, or the Governor may at any time request that the Office of the State Inspector General, created pursuant to § 2.2-308, review any area of the Authority’s finances or operations.

§ 33.2-299.1. Exemption of Authority from personnel and procurement procedures.

The provisions of the Virginia Personnel Act (§ 2.2-2900 et seq.) and the Virginia Public Procurement Act (§ 2.2-4300 et seq.) shall not apply to the Authority in the exercise of any power conferred under this article. The Authority shall develop and adopt rules governing their procurement procedures. However, such rules adopted for the procurement of professional services with a cost expected to exceed $80,000 shall be consistent with the provisions of §§ 2.2-4302.2, 2.2-4303.1 and 2.2-4303.2. The initial rules shall be adopted by the Board no later than six months after the first meeting of the Board.

§ 33.2-299.2. Police powers; Authority rules and regulations.

The Authority is empowered to adopt and enforce reasonable rules and regulations governing any and all activities using Authority property. Such rules and regulations shall have the force and effect of law after publication one time in full in a newspaper of general circulation in the county or city where the affected property is located.

§ 33.2-299.3. Governmental function; exemption from taxation.

The exercise of the powers granted by this article will be in all respects for the benefit of the people of the Commonwealth, for the increase of their commerce and prosperity, and for the improvement of their health and living conditions, and as the operation and maintenance of rail facilities by the Authority and the undertaking of activities in the furtherance of the purposes of the Authority will constitute the performance of the essential governmental functions, the Authority shall not be required to pay any taxes or assessments upon any rail facilities or any property acquired or used by the Authority under the provisions of this article or upon the income therefrom, including sales and use taxes on the tangible personal property used in the operations of the Authority. The exemption hereby granted shall not be construed to extend to persons conducting on the premises of any rail facility businesses for which local or state taxes would otherwise be required.

§ 33.2-299.4. Cooperation with federal agencies.

The Authority is empowered to cooperate with, and act as an agent for, the United States or any agency, department, corporation, or instrumentality thereof in the maintenance, development, improvement, and use of rail facilities of the Commonwealth and in any other matter within the purposes, duties, and powers of the Authority.

§ 33.2-299.5. Continuing responsibilities of the Transportation Board and the Department.

The Transportation Board and the Department shall cooperate and assist the Authority in the accomplishment of its purposes as set forth in § 33.2-288.

§ 33.2-299.6. Dissolution of Authority.
Whenever the Board determines that the purposes for which it was created have been substantially fulfilled or are impractical or impossible to accomplish and that all bonds theretofore issued and all other obligations therefore incurred by the Authority have been paid or that cash or a sufficient amount of United States government securities has been deposited for their payment, and upon the approval of the Governor and the General Assembly, the Board may adopt resolutions or ordinances declaring and finding that the Authority should be dissolved and that appropriate articles of dissolution shall be filed with the State Corporation Commission. Upon the filing of such articles of dissolution by the Authority, such dissolution shall become effective and the title to all funds and other property owned by the Authority at the time of such filing shall vest in the Department.

§ 33.2-299.7. Exclusions from the Virginia Freedom of Information Act; proprietary records and trade secrets.

A. Notwithstanding the provisions of the Virginia Freedom of Information Act (§ 2.2-3700 et seq.), the Authority shall keep confidential trade secrets or confidential proprietary information, not publicly available, provided by a private person or entity pursuant to a promise of confidentiality where if such information were made public, the financial interest of the private person or entity could be adversely affected. In order for trade secrets or proprietary information to be excluded from the provisions of the Virginia Freedom of Information Act, the private person or entity shall (i) invoke such exclusion upon submission of the data or other materials for which protection from disclosure is sought, (ii) identify the data or other materials for which protection is sought, and (iii) state the reason why protection is necessary.

B. Notwithstanding the provisions of the Virginia Freedom of Information Act, the Authority shall keep confidential information submitted by a private person, entity, or other party in negotiations with the Authority, where if such information was made public prior to the execution of a business arrangement, the financial interests of bargaining positions of the public or private entity would be adversely affected.

§ 33.2-299.8. Liberal construction.

Neither this article nor anything herein contained is or shall be construed as a restriction or limitation upon any powers that the Authority might otherwise have under any laws of the Commonwealth, and this article is cumulative to any such powers. This article does and shall be construed to provide a complete, additional, and alternative method for the doing of things authorized thereby and shall be regarded as supplemental and additional to power conferred by other laws. However, except as otherwise explicitly provided herein, the issuance of bonds, notes, and other obligations and refunding bonds under the provisions of this article need not comply with the requirements of any other law of the Commonwealth applicable to the issuance of bonds, notes, and other obligations. No proceedings, notice, or approval shall be required for the issuance of any bonds, notes, and other obligations or any instrument as security therefor, except as is provided in this article.

§ 33.2-356. Funding for extraordinary repairs.

Notwithstanding any contrary provision of this Code, the Board has the authority to provide, from revenues available for highway capital improvements under § 33.2-1526 construction programs pursuant to § 33.2-358, except for revenues pledged to secure any bonds issued for transportation purposes, for exceptionally heavy expenditures for repairs or replacements made necessary by highway damage resulting from extraordinary accidents, vandalism, weather conditions, or acts of God as well as to respond to federal funding initiatives that require matching funds.

§ 33.2-357. Revenue-sharing funds for systems in certain localities.

A. From revenues made available by the General Assembly and appropriated for the improvement, construction, reconstruction, or maintenance of the systems of state highways, the Board may make an equivalent matching allocation to any locality for designations by the governing body of up to $5 million for use by the locality to improve, construct, maintain, or reconstruct the highway systems within such locality with up to $2.5 million for use by the locality to maintain the highway systems within such locality. After adopting a resolution supporting the action, the governing body of the locality may request revenue-sharing funds to improve, construct, reconstruct, or maintain a highway system located in another locality or between two or more localities or to bring subdivision streets, used as such prior to the date specified in § 33.2-335, up to standards sufficient to qualify them for inclusion in the primary or secondary state highway system. All requests for funding shall be accompanied by a prioritized listing of specified projects.

B. In allocating funds under this section, the Board shall give priority to projects as follows: first, to projects that have previously received an allocation of funds pursuant to this section; second, to projects that (i) meet a transportation need identified in the Statewide Transportation Plan pursuant to § 33.2-353 or (ii) accelerate a project in a locality's capital plan; and third, to projects that address pavement resurfacing and bridge rehabilitation projects where the maintenance needs analysis determines that the infrastructure does not meet the Department's maintenance performance targets.

C. The Department shall contract with the locality for the implementation of the project. Such contract may cover either a single project or may provide for the locality's implementation of several projects. The locality shall undertake implementation of the particular project by obtaining the necessary permits from the Department in order to ensure that the improvement is consistent with the Department's standards for such improvements. At the request of the locality, the Department may provide the locality with engineering, right-of-way acquisition, construction, or maintenance services for a project with its own forces. The locality shall provide payment to the Department for any such services. If administered by the Department, such contract shall also require that the governing body of the locality pay to the Department within 30 days the local revenue-sharing funds upon written notice by the Department of its intent to proceed. Any project having funds allocated under this program shall be initiated in such a fashion that at least a portion of such funds have been
expended within one year of allocation. Any revenue-sharing funds for projects not initiated after two subsequent fiscal years of allocation may be reallocated at the discretion of the Board.

D. Total Commonwealth funds allocated by the Board under this section shall not exceed the greater of $100 million or seven percent of funds available for distribution pursuant to subsection B of § 33.2-358 prior to the distribution of funds pursuant to this section, whichever is greater, in each fiscal year, subject to appropriation for such purpose. For any fiscal year in which less than the full program allocation has been allocated by the Board to specific governing bodies, those localities requesting the maximum allocation under subsection A may be allowed an additional allocation at the discretion of the Board.

E. The funds allocated by the Board under this section shall be distributed and administered in accordance with the revenue-sharing program guidelines established by the Board.

§ 33.2-358. Allocation of funds to programs.
A. For the purposes of this section:
"Bridge reconstruction and rehabilitation" means reconstruction and rehabilitation of those bridges identified by the Department as being functionally obsolete or structurally deficient.
"High priority projects" means those projects of regional or statewide significance identified by the Board that reduce congestion, increase safety, create jobs, or increase economic development.
"High-tech infrastructure improvements" means those projects or programs identified by the Board that reduce congestion, improve mobility, improve safety, provide up-to-date travel data, or improve emergency response.
B. The Board shall allocate each year from all funds made available for highway purposes such amount as it deems necessary and necessary for the maintenance of roads within the Interstate System, the primary state highway system, and the secondary state highway system and for city and town street maintenance payments made pursuant to § 33.2-319 and payments made to counties that have withdrawn or elect to withdraw from the secondary state highway system pursuant to § 33.2-366.
C. Until July 1, 2020, after funds are set aside for administrative and general expenses and pursuant to other provisions in this title that provide for the disposition of funds prior to allocation for highway purposes, and after allocation is made pursuant to subsection B, the Board shall allocate an amount determined by the Board not to exceed $500 million in any given year as follows: (i) 25 percent to bridge reconstruction and rehabilitation; (ii) 25 percent to advancing high priority projects statewide; (iii) 25 percent to reconstructing deteriorated Interstate System, primary state highway system, and municipality maintained primary extension pavements determined to have a Combined Condition Index of less than 60; (iv) 15 percent to projects undertaken pursuant to the Public-Private Transportation Act of 1995 (§ 33.2-1800 et seq.); (v) five percent to paving or improving unpaved highways carrying more than 50 vehicles per day; and (vi) five percent to the Innovation and Technology Transportation Fund established pursuant to § 33.2-1531 for high-tech infrastructure improvements, provided that at the discretion of the Board such percentages of funds may be adjusted in any given year to meet project cash flow needs or when funds cannot be expended due to legal, environmental, or other project management considerations. After such allocations are made, the Board may allocate each year up to 10 percent of the funds remaining for highway purposes for the undertaking and financing of rail projects that in the Board’s determination will result in mitigation of highway congestion. After the foregoing allocations have been made, the Board shall allocate the remaining funds available for highway purposes, exclusive of federal funds for the Interstate System, pursuant to § 33.2-360 and any funds not allocated to a project in the Six-Year Improvement Program as follows:
50 percent for the high-priority projects program established pursuant to § 33.2-330 and 50 percent for the highway construction district grants program established pursuant to § 33.2-371.
D. For funds allocated for fiscal years beginning on and after July 1, 2020, after B. After funds are set aside for administrative and general expenses and pursuant to other provisions in this title that provide for the disposition of funds prior to allocation for highway purposes construction programs, and after allocation is made pursuant to subsection B, the Board shall allocate all remaining funds, including funds apportioned pursuant to 23 U.S.C. § 104, or any successor programs, as follows:
1. Forty-five Thirty percent of the remaining funds to state of good repair purposes as set forth in § 33.2-369;
2. Twenty-seven and one-half Twenty percent of the remaining funds to the high-priority projects program established pursuant to § 33.2-370; and
3. Twenty-seven and one-half Twenty percent of the remaining funds to the highway construction district grants programs established pursuant to § 33.2-371 § 33.2-371;
4. Twenty percent of the remaining funds to the Interstate Operations and Enhancement Program established pursuant to § 33.2-372; and
5. Ten percent of the remaining funds to the Virginia Highway Safety Improvement Program established pursuant to § 33.2-373.
E. The funds allocated in subsection C or D shall not include any federal funds and related state match for federal funds with restrictions regarding the construction of general capacity expansion of roadways, or federal funds not under the control of the Board. Such exclusion shall not include restrictions on the location of projects to specific road classifications.
C. The funds allocated in subsection B shall not include the following funds: Congestion Mitigation Air Quality funds apportioned to the state pursuant to 23 U.S.C. § 104(b)(4), or any successor program, and any state matching funds; Surface Transportation Block Grant set-aside for Transportation Alternatives pursuant to 23 U.S.C. § 213, or any successor...
program, and any state matching funds: Surface Transportation Block Grant Program funds subject to 23 U.S.C. § 133(d)(1)(A)(vi), or any successor program, and any state matching funds; and funds received pursuant to federal programs established by the federal government after June 30, 2020, with specific rules that include major restrictions on the types of projects that may be funded, excluding restrictions on the location of projects with regard to highway functional or administrative classification or population, provided such funds are under the control of the Board.

E. D. In addition, the Board, from funds appropriated for such purpose in the general appropriation act, shall allocate additional funds to the Cities of Newport News, Norfolk, and Portsmouth and the County of Warren in such manner and apportion such funds among such localities as the Board may determine, unless otherwise provided in the general appropriation act. The localities shall use such funds to address highway maintenance and repair needs created by or associated with port operations in those localities.

G. E. Notwithstanding the provisions of this section, the General Assembly may, through the general appropriation act, permit the Governor to increase the amounts to be allocated to highway maintenance, highway construction, either or both.

The Board shall allocate, use, and distribute the proceeds of any bonds it is authorized to issue on or after July 1, 2007, pursuant to subdivision 10 of § 33.2-1701, as follows:

1. A minimum of 20 percent of the bond proceeds shall be used for transit capital as further described in subdivision A 4 c of § 33.2-1526.2.

2. A minimum of 4.3 percent of the bond proceeds shall be used for rail capital consistent with the provisions of §§ 33.2-1600, 33.2-1526.2 and 33.2-1602.

3. The remaining amount of bond proceeds shall be used for paying the costs incurred or to be incurred for construction of transportation projects with such bond proceeds used or allocated as follows: (i) first, to match federal highway funds projected to be made available and allocated to highway and public transportation capital projects to the extent determined by the Board, for purposes of allowing additional state construction funds to be allocated pursuant to § 33.2-358; (ii) second, to provide any required funding to fulfill the Commonwealth's allocation of equivalent revenue sharing matching funds pursuant to § 33.2-357 to the extent determined by the Board; and (iii) third, to pay or fund the costs of statewide or regional projects throughout the Commonwealth. Costs incurred or to be incurred for construction or funding of these transportation projects shall include environmental and engineering studies; rights-of-way acquisition; improvements to all modes of transportation; acquisition, construction, and related improvements; and any financing costs or other financing expenses relating to such bonds. Such costs may include the payment of interest on such bonds for a period during construction and not exceeding one year after completion of construction of the relevant project.

4. The total amount of bonds authorized shall be used for purposes of applying the percentages in subdivisions 1, 2, and 3.

§ 33.2-366. Funds for counties that have withdrawn or elect to withdraw from the secondary state highway system.

Pursuant to subsection B A of § 33.2-358, the Board shall make the following payments to counties that have withdrawn or elect to withdraw from the secondary state highway system under the provisions of § 11 of Chapter 415 of the Acts of Assembly of 1932 and that have not elected to return: to any county having withdrawn prior to June 30, 1985, and having an area greater than 100 square miles, an amount equal to $12,529 per lane-mile for fiscal year 2014, and to any county having an area less than 100 square miles, an amount equal to $17,218 per lane-mile for fiscal year 2014; to any county that elects to withdraw after June 30, 1985, the Board shall establish a rate per lane-mile for the first year using (i) an amount for maintenance based on maintenance standards and unit costs used by the Department to prepare its secondary state highway system maintenance budget for the year in which the county withdraws and (ii) an amount for administration equal to five percent of the maintenance figure determined in clause (i). The payment rates shall be adjusted annually by the Board in accordance with procedures established for adjusting payments to cities and towns under § 33.2-319, and the Board shall be adjusted annually to include (a) streets and highways accepted for maintenance in the county system by the local governing body or (b) streets and highways constructed according to standards set forth in the county subdivision ordinance or county thoroughfare plan, and being not less than the standards set by the Department. Such counties shall be eligible to receive allocations pursuant to subsection C or D B of § 33.2-358.

Payment of the funds shall be made in four equal sums, one in each quarter of the fiscal year.

The chief administrative officer of such counties receiving such funds shall make annual reports of expenditures to the Board, in such form as the Board shall prescribe, accounting for all expenditures, including delineation between construction and maintenance expenditures and reporting on their performance as specified in subsection B of § 33.2-352. Such reports shall be included in the scope of the annual audit of each county conducted by independent certified public accountants.

§ 33.2-372. Interstate Operations and Enhancement Program.

A. The Board shall establish the Interstate Operations and Enhancement Program (the Program) to improve the safety, reliability, and travel flow along interstate highway corridors in the Commonwealth.

B. The Board may use funds in the Program to address identified needs in the Statewide Transportation Plan pursuant to § 33.2-353 or an interstate corridor plan approved by the Board through (i) operational and transportation demand management strategies and (ii) other transportation improvements, strategies, or services.
C. The Board, with the assistance of the Office of Intermodal Planning and Investment, shall establish a process to evaluate and prioritize potential strategies and improvements, with priority given first to operational and transportation demand management strategies that improve reliability and safety of travel.

D. The Board may not use funds in the Program to supplant existing levels of support as of July 1, 2019, for existing operational and transportation demand management strategies.

E. The Board shall distribute to the Interstate 81 Corridor Improvement Fund established pursuant to § 33.2-3601 an amount equal to the revenues provided to the Program multiplied by the ratio of the vehicle miles traveled on Interstate 81 by vehicles classified as Class 6 or higher by the Federal Highway Administration to the total vehicle miles traveled on all interstate highways in the Commonwealth by vehicles classified as Class 6 or higher.

F. The Board shall distribute to the Northern Virginia Transportation Authority Fund established pursuant to § 33.2-2509 an amount equal to the revenues provided to the Program multiplied by the ratio of vehicle miles traveled on interstate highways in Planning District 8 by vehicles classified as Class 6 or higher by the Federal Highway Administration to the total vehicles miles traveled on all interstate highways in the Commonwealth by vehicles classified as Class 6 or higher.

G. For any interstate highway with more than 10 percent of total vehicle miles traveled by vehicles classified as Class 6 or higher by the Federal Highway Administration, the Board shall ensure that the total long-term expenditure for each interstate highway shall be approximately equal to the proportion of the total revenue deposited in the Fund attributable to each interstate highway based on such interstate highway’s proportional share of interstate vehicle miles traveled by vehicles classified as Class 6 or higher.

§ 33.2-373. Virginia Highway Safety Improvement Program.
A. The Board shall establish the Virginia Highway Safety Improvement Program (the Program) to reduce motorized and nonmotorized fatalities and severe injuries on highways in the Commonwealth, whether such highways are state or locally maintained. The Board shall use funds set aside pursuant to § 33.2-358 for the Program.

B. Beginning in fiscal year 2024, the Board shall, after program administration costs, allocate the funds in accordance with its adopted investment strategy pursuant to subsection C as follows:
   1. At least 54 percent for infrastructure projects that address a hazardous road location or feature and address an identified highway safety problem;
   2. At least 29 percent for strategies and activities to address behavioral causes of crashes that result in fatalities and severe injuries; and
   3. The remaining amount for eligible purposes under this section pursuant to the investment strategy adopted pursuant to subsection C.

C. The Board shall adopt an investment strategy to guide the investments of the Program. The strategy shall cover a period of at least five years and seek to achieve a significant reduction in the anticipated number of fatalities and severe injuries over the covered period and shall give priority to projects, strategies, and activities based on the expected reduction in fatalities and severe injuries relative to cost, including improvements that are widely implemented based on a high-risk roadway feature that is correlated with a particular crash type, rather than crash frequency.

§ 33.2-374. Special Structure Program.
A. For purposes of this section, "special structure" means very large, indispensable, and unique bridges and tunnels identified by the Commissioner and approved by the Commonwealth Transportation Board.

B. The General Assembly declares it to be in the public interest that the maintenance, rehabilitation, and replacement of special structures in the Commonwealth occur timely as to provide and protect a safe and efficient highway system.

C. The Board shall establish a program for the maintenance, rehabilitation, and replacement of special structures in the Commonwealth. With the assistance of the Department of Transportation, the Board shall develop and maintain a plan for the maintenance, rehabilitation, and replacement of special structures in the Commonwealth. The plan shall cover a minimum a 30-year period and shall be updated biennially no later than November 1 of each even-numbered year.

D. The Board shall use the funds allocated in §§ 33.2-1524 and 33.2-1530 to the Special Structure Fund pursuant to § 33.2-1532 for maintenance, rehabilitation, and replacement of special structures to implement the plan developed pursuant to subsection C.

§ 33.2-1502. Creation of the Virginia Transportation Infrastructure Bank.
A. There is hereby created in the state treasury a special nonreverting, revolving loan fund, known as the Virginia Transportation Infrastructure Bank, that is a subfund of the Transportation Trust Fund established pursuant to § 33.2-1524 33.2-1524.1. The Bank shall be established on the books of the Comptroller. The Bank shall be capitalized with (i) two thirds of all interest, dividends, and appreciation that may accrue to the Transportation Trust Fund and the Highway Maintenance and Operating Fund funds pursuant to subdivision B 3 of § 33.2-1524 and (ii) moneys appropriated by the General Assembly and credited to the Bank. Disbursements from the Bank shall be made by the State Treasurer on warrants issued by the Comptroller upon written request signed by the Commissioner of Highways or his designee. Payments on project obligations and interest earned on the moneys in the Bank shall be credited to the Bank. Any moneys remaining in the Bank, including interest thereon, at the end of each fiscal year shall not revert to the general fund but shall remain in the Bank. Notwithstanding anything to the contrary set forth in this article or in the management agreement, the Board will have the right to determine the projects for which loans or other financial assistance may be provided by the Bank. Moneys in the Bank shall be used solely for the purposes enumerated in subsection C.
B. The Board, the manager, and the Secretary of Finance are authorized to enter into a management agreement which may include provisions (i) setting forth the terms and conditions under which the manager will advise the Board on the financial propriety of providing particular loans or other financial assistance; (ii) setting forth the terms and conditions under which the substantive requirements of subsections C, D, and E and § 33.2-1505 will be applied and administered; and (iii) authorizing the manager to request the Board to disburse from the moneys in the Bank the reasonable costs and expenses the manager may incur in the management and administration of the Bank and a reasonable fee to be approved by the Board for the manager's management and administrative services.

C. 1. Moneys deposited in the Bank shall be used for the purpose of making loans and other financial assistance to finance projects.

2. Each project obligation shall be payable, in whole or in part, from reliable repayment sources pledged for such purpose.

3. The interest rate on a project obligation shall be determined by reference to the current market rates for comparable obligations, the nature of the project and the financing structure therefor, and the creditworthiness of the eligible borrower and other project sponsors.

4. The repayment schedule for each project obligation shall require (i) the amortization of principal beginning within five years following the later of substantial project completion or the date of incurrence of the project obligation and (ii) a final maturity date of not more than 35 years following substantial project completion.

D. The pledge of reliable repayment sources and other property securing any project obligation may be subordinate to the pledge securing any other senior debt obligations incurred to finance the project.

E. Notwithstanding subdivision C 4, the manager may at any time following substantial project completion defer payments on a project obligation if the project is unable to generate sufficient revenues to pay the scheduled payments.

F. No loan or other financial assistance may be provided or committed to be provided by the Bank in a manner that would cause such loan or other financial assistance to be tax-supported debt within the meaning of § 2.2-2713 or be deemed to constitute a debt of the Commonwealth or a pledge of the full faith and credit of the Commonwealth but shall be payable solely from legally available moneys held by the Bank.

G. Neither the Bank nor the manager is authorized or empowered to be or to constitute (i) a bank or trust company within the jurisdiction or under the control of the Commonwealth or an agency thereof or the Comptroller of Currency of the U.S. Treasury Department or (ii) a bank, banker, or dealer in securities within the meaning of, or subject to the provisions of, any securities, securities exchange, or securities dealers law of the United States or of the Commonwealth.

H. The Board or the manager may establish or direct the establishment of federal and state accounts or subaccounts as may be necessary to meet any applicable federal law requirements or desirable for the efficient administration of the Bank in accordance with this article.

§ 33.2-1510. Fund for access roads and bikeways to public recreational areas and historical sites; construction, maintenance, etc., of such facilities.

A. The General Assembly finds and declares that there is an increasing demand by the public for more public recreational areas throughout the Commonwealth, therefore creating a need for more access to these areas. There are also many sites of historical significance to which access is needed.

The General Assembly hereby declares it to be in the public interest that access roads and bikeways to public recreational areas and historical sites be provided by using funds obtained from motor fuel tax collections on motor fuel used for propelling boats and ships and funds contained in the highway portion of the Transportation Trust Fund.

B. (Effective until July 1, 2020) The Board shall, from funds allocated to the primary system, secondary system, or urban system, set aside the sum of $3 million initially. This fund shall be expended by the Board for the construction, reconstruction, maintenance, or improvement of access roads and bikeways within localities. At the close of each succeeding fiscal year, the Board shall replenish this fund to the extent it deems necessary to carry out the purpose intended, provided the balance in the fund plus the replenishment does not exceed $3 million.

B. (Effective July 1, 2020) Prior to making allocations pursuant to subsection D B of § 33.2-358, the Board shall set aside the sum of $3 million initially. This fund shall be expended by the Board for the construction, reconstruction, maintenance, or improvement of access roads and bikeways within localities. At the close of each succeeding fiscal year, the Board shall replenish this fund to the extent it deems necessary to carry out the purpose intended, provided the balance in the fund plus the replenishment does not exceed $3 million.

C. Upon the setting aside of the funds as provided in this section, the Board shall construct, reconstruct, maintain, or improve access roads and bikeways to public recreational areas and historical sites upon the following conditions:

1. When the Director of the Department of Conservation and Recreation has designated a public recreational area as such or when the Director of the Department of Historic Resources has determined a site or area to be historic and recommends to the Board that an access road or bikeway be provided or maintained to that area;

2. When the Board pursuant to the recommendation from the Director of the Department of Conservation and Recreation declares by resolution that the access road or bikeway be provided or maintained;

3. When the governing body of the locality in which the access road or bikeway is to be provided or maintained passes a resolution requesting the road; and

4. When the governing body of the locality in which the bikeway is to be provided or maintained adopts an ordinance pursuant to Article 7 (§ 15.2-2280 et seq.) of Chapter 22 of Title 15.2.
No access road or bikeway shall be constructed, reconstructed, maintained, or improved on privately owned property.

D. Any access road constructed, reconstructed, maintained, or improved pursuant to the provisions of this section shall become part of the primary state highway system, the secondary state highway system, or the road system of the locality in which it is located in the manner provided by law and shall thereafter be constructed, reconstructed, maintained, and improved as other roads or highways in such systems. Any bikeway path constructed, reconstructed, maintained, or improved pursuant to the provisions of this section that is not situated within the right-of-way limits of an access road that has become, or which is to become, part of the primary state highway system, the secondary state highway system, or the road system of the locality shall, upon completion, become part of and be regulated and maintained by the authority or agency maintaining the public recreational area or historical site. It shall be the responsibility of the authority, agency, or locality requesting that a bikeway be provided for a public recreational or historical site to provide the right-of-way needed for the construction, reconstruction, maintenance, or improvement of the bikeway if such is to be situated outside the right-of-way limits of an access road.

To maximize the impact of the Fund, not more than $400,000 of recreational access funds may be allocated for each individual access road project to or within any public recreational area or historical site operated by a state agency and not more than $250,000 of recreational access funds may be allocated for each individual access road project to or within a public recreational area or historical site operated by a locality or an authority with an additional $100,000 if supplemented on a dollar-for-dollar basis by the locality or authority from other than highway sources. Not more than $75,000 of recreational access funds may be allocated for each individual bikeway project to a public recreational area or historical site operated by a locality or an authority with an additional $15,000 if supplemented on a dollar-for-dollar basis by a locality or authority from other than highway sources.

The Board, with the concurrence of the Director of the Department of Conservation and Recreation, is hereby authorized to establish guidelines to carry out the provisions of this section.

§ 33.2-1524. Commonwealth Transportation Fund.

A. There is hereby created in the Department of the Treasury a special nonreverting fund to be known as the Commonwealth Transportation Trust Fund, consisting of (the Fund). A. All funds deposited pursuant to §§ § 58.1-638, 58.1-638.3, 58.1-638.4, and 58.1-2289, § 33.2-1524.1 into the Commonwealth Mass Transit Fund (the Fund), established pursuant to subdivision A 4 of § 58.1-638, § 33.2-1526, shall be allocated as set forth in this section.

B. From funds available pursuant to subsection D, beginning in fiscal year 2022, up to $50 million shall be allocated to the Washington Metropolitan Area Transit Authority as matching funds to federal and other funds provided by the Federal Transit Administration, the District of Columbia, and the State of Maryland. However, such funds shall only be provided if the District of Columbia and the State of Maryland each provide an amount equal to one-third of the funding provided by the Federal Transit Administration to the Washington Metropolitan Area Transit Authority. The funds provided by the Commonwealth shall not exceed the funds provided by the District of Columbia or the State of Maryland.

C. The Board may establish policies for the implementation of this section, including the determination of the state share of operating, capital, and administrative costs related to mass transit. For purposes of this section, capital costs may include debt service payments on local or agency transit bonds. Funds may be paid to any local governing body, transportation district commission, or public service corporation for the purposes as set forth in this section. No funds from the Fund shall be allocated without a local match from the recipient.
C. D. Each year the Director of the Department of Rail and Public Transportation shall make recommendations to the Board for the allocation of funds from the Fund. Such recommendations, and the final allocations approved by the Board, shall adhere to the following:

1. **Thirty-one Twenty-seven** percent of the funds shall be allocated to support operating costs of transit providers and shall be distributed by the Board on the basis of service delivery factors, based on effectiveness and efficiency as established by the Board. Such measures and their relative weight shall be evaluated every three years and, if redefined by the Board, shall be published and made available for public comment at least one year in advance of being applied. The Washington Metropolitan Area Transit Authority (WMATA) shall not be eligible for an allocation of funds pursuant to this subdivision.

2. **Twelve and one-half Eighteen** percent of the funds shall be allocated for capital purposes and distributed utilizing the transit capital prioritization process established by the Board pursuant to § 33.2-214.4. The Washington Metropolitan Area Transit Authority shall not be eligible for an allocation of funds pursuant to this subdivision.

3. **Fifty-three and one-half Forty-six and one-half** percent of the funds shall be allocated to the Northern Virginia Transportation Commission for distribution to WMATA for capital purposes and operating assistance, as determined by the Commission.

Two and one-half percent of the funds shall be allocated for special programs, including ridesharing, transportation demand management programs, experimental transit, public transportation promotion, operation studies, and technical assistance, and may be allocated to any local governing body, planning district commission, transportation district commission, or public transit corporation. Remaining funds may also be used directly by the Department of Rail and Public Transportation to (i) finance a program administered by the Department of Rail and Public Transportation designed to promote the use of public transportation and ridesharing throughout the Commonwealth or (ii) finance up to 80 percent of the cost of development and implementation of projects with a purpose of enhancing the provision and use of public transportation services.

D. E. The Board may consider the transfer of funds from subdivisions C D 2 and 4 5 to subdivision C D 1 in times of statewide economic distress or statewide special need.

E. F. The Department of Rail and Public Transportation may reserve a balance of up to five percent of the Fund revenues in order to ensure stability in providing operating and capital funding to transit entities from year to year, provided that such balance shall not exceed five percent of revenues in a given biennium.

F. G. The Board may allocate up to 3.5 percent of the funds set aside for the Fund to support costs of project development, project administration, and project compliance incurred by the Department of Rail and Public Transportation in implementing rail, public transportation, and congestion management grants and programs.

G. H. Funds allocated to the Northern Virginia Transportation Commission (NVTC) for WMATA pursuant to subdivision C D 3 shall be credited to the Counties of Arlington and Fairfax and the Cities of Alexandria, Fairfax, and Falls Church. Beginning in the fiscal year when service starts on Phase II of the Silver Line, such funds shall also be credited to Loudoun County. Funds allocated pursuant to this subsection shall be credited as follows:

- Local obligations for debt service for WMATA rail transit bonds apportioned to each locality using WMATA’s capital formula shall be paid first by NVTC, which shall use 95 percent state aid for these payments.
- The remaining funds shall be apportioned to reflect WMATA’s allocation formulas by using the related WMATA-allocated subsidies and relative shares of local transit subsidies. Capital costs shall include 20 percent of annual local bus capital expenses. Local transit subsidies and local capital costs of Loudoun County shall not be included. Hold harmless protections and obligations for NVTC’s jurisdictions agreed to by NVTC on November 5, 1998, shall remain in effect.

H. I. Appropriations from the Fund are intended to provide a stable and reliable source of revenue, as defined by P.L. 96-184.

J. K. Notwithstanding any other provision of law, funds allocated to WMATA may be disbursed by the Department of Rail and Public Transportation directly to WMATA or to any other transportation entity that has an agreement to provide funding to WMATA.

K. L. In any year that the total Virginia operating assistance in the approved WMATA budget increases by more than three percent from the total operating assistance in the prior year’s approved WMATA budget, the Board shall withhold an amount equal to 35 percent of the funds available under subdivision C D 3. The following items shall not be included in the calculation of any WMATA budget increase: (i) any service, equipment, or facility that is required by any applicable law, rule, or regulation; (ii) any capital project approved by the WMATA Board before or after the effective date of this provision; and (iii) any payments or obligations of any kind arising from or related to legal disputes or proceedings between or among WMATA and any other person or entity.

The funds in the Program shall be awarded such that on a five-year rolling average, the amount of funds awarded to each urbanized area shall be equal to a ratio of the population within the Commonwealth of such urbanized area compared to the total population within the Commonwealth of all eligible urbanized areas. The Board may through an affirmative vote of a majority of the members vote to waive this requirement for a period not to exceed two years when they find there is a need that justifies such waiver.

D. Notwithstanding the provisions of this section, the Board shall use an amount not to exceed 25 percent of the funds available to support the establishment of programs to reduce the impact of fares on low-income individuals, including reduced-fare programs and elimination of fares. The restrictions in subsection A shall not apply to funds used pursuant to this subsection.

E. The Board shall report annually to the Governor and the General Assembly on the projects and services funded by the Program. The report shall, at a minimum, include an analysis of the performance of the funded projects, the performance of the identified routes of regional significance, transit ridership, efforts funded pursuant to subsection E, and any other information the Board determines to be appropriate.

A. Concession payments to the Commonwealth deposited into the Transportation Trust Fund pursuant to subdivision 2 B 2 of § 33.2-1524 from qualifying transportation facilities developed and/or operated pursuant to the Public-Private Transportation Act of 1995 (§ 33.2-1800 et seq.) shall be held in a separate subaccount to be designated the Concession Payments Account, (the Account) together with all interest, dividends, and appreciation that accrue to the Account and that are not otherwise specifically directed by law or reserved by the Board for other purposes allowed by law.

B. The Board may make allocations from the Account upon such terms and subject to such conditions as the Board deems appropriate to:

1. Pay or finance all or part of the costs of programs or projects, including the costs of planning, operation, maintenance, and improvements incurred in connection with the acquisition and construction of projects, provided that allocations from the Account shall be limited to programs and projects that are reasonably related to or benefit the users of the qualifying transportation facility that was the subject of a concession pursuant to the Public-Private Transportation Act of 1995 (§ 33.2-1800 et seq.). The priorities of metropolitan planning organizations, planning district commissions, local governments, and transportation corridors shall be considered by the Board in making project allocations from moneys in the Account.

The Board may make allocations from the subaccount as the Board deems appropriate to:

1. Pay or finance all or part of the costs of planning, design, land acquisition, and improvements incurred in connection with the construction of such rapid rail project consistent with the issued federal Record of Decision, as may be revised; and

2. Upon determination by the Board that sufficient funds are or will be available to meet the schedule for construction of such rapid rail project, pay or finance all or part of the costs of planning, design, land acquisition, and improvements incurred in connection with other highway and public transportation projects within the corridor of the rapid rail project or within the boundaries of the qualifying transportation facility. In the case of highway projects, the Board shall follow an approval process generally in accordance with subsection B of § 33.2-208.

D. The provisions of this section shall be liberally construed to the end that its beneficial purposes may be effectuated. Insofar as this provision is inconsistent with the provisions of any other general, special, or local law, this provision shall be controlling.

§ 33.2-1529.1. Transportation Partnership Opportunity Fund.

A. There is hereby created the Transportation Partnership Opportunity Fund (the Fund) to be used by the Governor to provide funds to address the transportation aspects of economic development opportunities. The Fund shall consist of (i) one-third of all interest, dividends, and appreciation that may accrue to the Transportation Trust Fund and the Highway Maintenance and Operating Fund funds pursuant to subdivision B 3 of § 33.2-1524 and (ii) any funds appropriated to it by the general appropriation act and revenue from any other source, public or private. The Fund shall be established on the books of the Comptroller, and any funds remaining in the Fund at the end of a biennium shall not revert to the general fund but shall remain in the Fund. Loans shall be approved by the Governor and made in accordance with procedures established by the Board and approved by the Comptroller. Loans shall be interest-free and shall be repaid to the Fund. The Governor may establish the duration of any loan, but such term shall not exceed seven years. The Department shall be responsible for monitoring repayment of such loans and reporting the receivables to the Comptroller as required.

D. Grants or revolving loans may be used for transportation capacity development on and off site; road, rail, mass transit, or other transportation access costs beyond the funding capability of existing programs; studies of transportation projects, including environmental analysis, geotechnical assessment, survey, design and engineering, advance right-of-way acquisition, traffic analysis, toll sensitivity studies, and financial analysis; or anything else permitted by law. Funds may be used for any transportation project or any transportation facility. Any transportation infrastructure completed with moneys from the Fund shall not become private property, and the results of any studies or analysis completed as a result of a grant or loan from the Fund shall be property of the Commonwealth.

E. The Board, in consultation with the Secretary of Transportation and the Secretary of Commerce and Trade, shall develop guidelines and criteria that shall be used in awarding grants or making loans from the Fund; however, no grant shall exceed $5 million and no loan shall exceed $30 million. No grant or loan shall be awarded until the Governor has provided copies of the guidelines and criteria to the Chairmen of the House Committees on Appropriations, Finance, and Transportation and the Senate Committees on Finance and Transportation.
