2021 REGULAR SESSION

CHAPTER 1

An Act to facilitate the administration of the COVID-19 vaccine; emergency.

[H 2333]

Approved February 15, 2021

Be it enacted by the General Assembly of Virginia:

1. § 1. As used in this act, "eligible health care provider" means any of the following who, due to their education and training, are authorized to administer drugs: (i) any person licensed by a health regulatory board within the Department of Health Professions whose license is in good standing, or was in good standing within the 20 years immediately prior to lapsing; (ii) any emergency medical services provider licensed or certified by the Department of Health (the Department) whose license or certification is in good standing, or was in good standing within the 20 years immediately prior to lapsing; and (iii) any health professions student enrolled in an accredited program in the Commonwealth who is in good academic standing with such student's school and provided that the school certifies that the student has been properly trained in the administration of vaccines. Eligible health care providers may also be employees of localities, pharmacies, or hospitals. Localities, pharmacies, or hospitals that offer their employees to support vaccination clinics shall (i) verify employee certification or licensure, (ii) document completion of the required training, and (iii) provide a list of qualified and available vaccinators to the Department.

§ 2. During a state of emergency related to the COVID-19 pandemic declared by the Governor pursuant to § 44-146.17 of the Code of Virginia, an eligible health care provider participating in the program established pursuant to § 3 of this act may administer the COVID-19 vaccine to citizens of the Commonwealth, in accordance with this act.

§ 3. The Department shall establish a program to enable eligible health care providers to volunteer to administer the COVID-19 vaccine to residents of the Commonwealth during a state of emergency related to the COVID-19 pandemic declared by the Governor pursuant to § 44-146.17 of the Code of Virginia. Such program shall include (i) a process by which an eligible health care provider may register to participate in the program and (ii) the training requirements for participating eligible health care providers related to the administration of the COVID-19 vaccine, including training on the intramuscular injection of the COVID-19 vaccine and contraindications and side effects of the COVID-19 vaccine. For the purposes of such program, requirements related to background investigation, training, and orientation for Medical Reserve Corps volunteers shall be waived. To facilitate volunteering, the Department shall place a volunteer link on its website's home page in the same visible location as the other links, such as "GET COVIDWISE," to make the process to volunteer as a health care provider easily accessible.

The Department shall make a list of eligible health care providers who have registered pursuant to this section of the act and complied with requirements for training established by the Department available to each local health department and to hospitals operating community vaccination clinics, and the Department, a local health department, or a hospital operating a community vaccination clinic may request that an eligible health care provider included on such list administer the COVID-19 vaccine at a vaccination clinic operated by or in partnership with the Department, local health department, or hospital. Information included on the list shall not be used for any other purpose and shall not be used after the expiration or revocation of all states of emergency declared by the Governor related to the COVID-19 pandemic.

§ 4. The Department shall ensure that each site at which COVID-19 vaccinations are provided by eligible health care providers who provide such vaccination in accordance with this act meet the following requirements:

1. A sufficient number of eligible health care providers whose scope of practice includes administration of vaccines shall be available at each site at which COVID-19 vaccines are administered by eligible health care providers pursuant to this act to ensure appropriate oversight of administration of vaccines by eligible health care providers whose scope of practice does not include administration of vaccines.

2. A sufficient number of eligible health care providers or other persons who are certified to administer cardiopulmonary resuscitation (CPR) are available at each site at which COVID-19 vaccines are administered by eligible health care providers pursuant to this act; however, a valid certification to perform CPR shall not be required to administer COVID-19 in accordance with this act.

3. Any person who administers a COVID-19 vaccination in accordance with this act shall collect data, including data related to the race and ethnicity of the person to whom the vaccine is administered, and the person who administers a COVID-19 vaccination or the entity that operates a community vaccination site in accordance with this act shall report such data to the Virginia Immunization Information System established pursuant to § 32.1-46.01 of the Code of Virginia.

§ 5. *A person who is licensed as a nurse practitioner by the Boards of Medicine and Nursing or licensed as a physician assistant by the Board of Medicine who administers the COVID-19 vaccine pursuant to this act may administer such vaccine without a written or electronic practice agreement.*

A health professions student who administers the COVID-19 vaccine pursuant to this act shall be supervised by any eligible health care provider who holds a license issued by a health regulatory board within the Department of Health Professions, and the supervising health care provider shall not be required to be licensed in the same health profession for which the student is studying.

§ 6. *An eligible health care provider who is a health professions student shall, as part of the registration process established by the Department, provide such information necessary to demonstrate that he is in good academic standing with the accredited program in which he is enrolled and that he has been properly trained in the administration of vaccines as may be required by the Department. Information about a health professions student shall not be disclosed by the institution of higher education at which the health professions student is studying unless the health professions student has consented to such disclosure in accordance with the provisions of the federal Family Educational Rights and Privacy Act of 1974, 20 U.S.C. § 1232g and § 23.1-405 of the Code of Virginia, as applicable.*

Clinical vaccination experience undertaken by a health professions student pursuant to this act may count toward meeting clinical hour requirements of the educational program in which the student is enrolled, subject to a requirement for written verification of such clinical vaccine experience.

§ 7. *In the absence of gross negligence or willful misconduct, any eligible health care provider or entity overseeing any eligible health care provider who administers the COVID-19 vaccine pursuant to this act shall not be liable for (i) any actual or alleged injury or wrongful death or (ii) any civil cause of action arising from any act or omission arising out of, related to, or alleged to have resulted in the contraction of or exposure to the COVID-19 virus or to have resulted from the administration of the COVID-19 vaccine.*

2. § 1. *That the Department of Health (the Department) shall establish a process by which entities, including medical care facilities, hospitals, hospital systems, corporations, businesses, pharmacies, public and private institutions of higher education, localities, and any other professional or community entity operating in the Commonwealth, may volunteer their facilities as sites at which the COVID-19 vaccine may be administered to citizens of the Commonwealth. The Department shall include on its website a link to information regarding such process and an online form that may be used by such entities to register their facilities to serve as sites at which the COVID-19 vaccine may be administered. The Commissioner of Health shall approve such sites in collaboration with local departments of health. In the absence of gross negligence or willful misconduct, any entity that volunteers its facility as a site at which the COVID-19 vaccine may be administered pursuant to this act and at which the COVID-19 vaccine is lawfully administered shall not be liable for (i) any actual or alleged injury or wrongful death or (ii) any civil cause of action arising from any act or omission arising out of, related to, or alleged to have resulted in the contraction of or exposure to the COVID-19 virus or to have resulted from the administration of the COVID-19 vaccine.*

3. § 1. *That a public institution of higher education or a private institution of higher education in the Commonwealth may volunteer to provide assistance to the Department of Health and local health departments for data processing, analytics, and program development related to the COVID-19 vaccine through the use of its employees, students, technology, and facilities. Such assistance may include collecting and organizing data on the administration of the COVID-19 vaccine and locations where the vaccine is being administered and performing other nonclinical staffing responsibilities. In the absence of gross negligence or willful misconduct, any institution or individual affiliated with an institution acting pursuant to this act shall not be liable for any civil or criminal penalties.*

4. § 1. *That localities with fire departments, emergency medical services departments, and volunteer rescue squads may establish and staff vaccine administration clinics for the purpose of administering COVID-19 vaccines. Vaccines shall be administered at such clinics only by EMTs, paramedics, licensed practical nurses, or registered nurses trained in the administration of vaccines and may be provided under the existing operating medical director (OMD) license for such local fire department or emergency medical services department. The Department of Health or hospitals serving the locality are authorized to provide vaccines to locality-created vaccine administration clinics upon the request of the locality, provided that such clinics meet the requirements under this act. In the absence of gross negligence or willful misconduct, any locality and OMD overseeing the administration of or EMT, paramedic, licensed practical nurse, or registered nurse who administers the COVID-19 vaccine pursuant to this act shall not be liable for (i) any actual or alleged injury or wrongful death or (ii) any civil cause of action arising from any act or omission arising out of, related to, or alleged to have resulted in the contraction of or exposure to the COVID-19 virus or to have resulted from the administration of the COVID-19 vaccine.*

5. *That an emergency exists and this act is in force from its passage.*

Any person who has served more than one and one-half terms as a member of the Chesapeake Economic Development Authority as of July 1, 2017, shall not be eligible for reappointment for another consecutive term. A member of the Chesapeake Economic Development Authority shall serve at the pleasure of the city council of the City of Chesapeake. No Chesapeake Economic Development Authority member shall work for the Authority within one year after serving as a member. The city council of the City of Norfolk may appoint 11 members, with terms staggered as agreed upon by the city council, and the board of supervisors of Louisa County may appoint directors to serve on the board of the authority for terms coincident with members of the board of supervisors.

E. Except as provided herein, four members of the board of directors shall constitute a quorum of the board for the purposes of conducting its business and exercising its powers and for all other purposes, except that no facilities owned by the authority shall be leased or disposed of in any manner without a majority vote of the members of the board of directors. No vacancy in the membership of the board shall impair the right of a quorum to exercise all the powers and perform all the duties of the board. In the case of the Economic Development Authority of Goochland County, *the Industrial Development Authority of the Town of Kenbridge, and the Industrial Development Authority of the Town of Victoria*, three members of the

One copy shall be furnished to the governing body of the locality and the other copy mailed to the Department of Small Business and Supplier Diversity.

An Act to amend and reenact § 15.2-958.3 of the Code of Virginia, relating to financing clean energy and other programs; when owner costs incurred.

[H 1859]

Approved March 1, 2021

Be it enacted by the General Assembly of Virginia:

1. That § 15.2-958.3 of the Code of Virginia is amended and reenacted as follows:

§ 15.2-958.3. Financing clean energy, resiliency, and stormwater management programs.

A. Any locality may, by ordinance, authorize contracts to provide loans for the initial acquisition and installation of clean energy, resiliency, or stormwater management improvements with free and willing property owners of both existing properties and new construction, *provided, however, that such loans may not be used to improve a residential dwelling with fewer than five dwelling units or a residential condominium as defined in § 55.1-2000*. Such an ordinance shall include ~~but not be limited to~~ the following:

1. The kinds of renewable energy production and distribution facilities, energy usage efficiency improvements, resiliency improvements, water usage efficiency improvements, or stormwater management improvements for which loans may be offered. Resiliency improvements may include mitigation of flooding or the impacts of flooding or stormwater management improvements with a preference for natural or nature-based features and living shorelines as defined in § 28.2-104.1;

2. The proposed arrangement for such loan program, including (i) a statement concerning the source of funding that will be used to pay for work performed pursuant to the contracts; (ii) the ~~interest rate and~~ time period during which contracting property owners would repay the loan; and (iii) the method of apportioning all or any portion of the costs incidental to financing, administration, and collection of the arrangement among the consenting property owners and the locality;

3. (i) A minimum ~~and maximum aggregate~~ dollar amount that may be financed with respect to a property ~~and~~, (ii) if a locality or other public body is originating the ~~loan loans~~, a maximum aggregate dollar amount that may be financed with respect to loans originated by the locality or other public body, *and (iii) provisions that the loan program may approve a loan application submitted within two years of the locality's issuance of a certificate of occupancy or other evidence that the clean energy, resiliency, or stormwater management improvements comply substantially with the plans and specifications previously approved by the locality and that such loan may refinance or reimburse the property owner for the total costs of such improvements*;

4. In the case of a loan program described in clause (ii) of subdivision 3, a method for setting requests from property owners for financing in priority order in the event that requests appear likely to exceed the authorization amount of the loan program. Priority shall be given to those requests from property owners who meet established income or assessed property value eligibility requirements;

5. Identification of a local official authorized to enter into contracts on behalf of the locality. A locality may contract with a third party for professional services to administer such loan program;

6. Identification of any fee that the locality intends to impose on the property owner requesting to participate in the loan program to offset the cost of administering the loan program. The fee may be assessed as ~~(i) a program application fee paid by the property owner requesting to participate in the program, (ii) a component of the interest rate on the assessment in the written contract between the locality and the property owner, or (iii) a combination of clauses (i) and (ii); and~~

7. A draft contract specifying the terms and conditions proposed by the locality.

B. The locality may combine the loan payments required by the contracts with billings for water or sewer charges, real property tax assessments, or other billings; in such cases, the locality may establish the order in which loan payments will be applied to the different charges. The locality may not combine its billings for loan payments required by a contract authorized pursuant to this section with billings of another locality or political subdivision, including an authority operating pursuant to Chapter 51 (§ 15.2-5100 et seq.), unless such locality or political subdivision has given its consent by duly adopted resolution or ordinance.

C. The locality shall offer private lending institutions the opportunity to participate in local loan programs established pursuant to this section.

D. In order to secure the loan authorized pursuant to this section, the locality shall ~~be authorized to~~ place a voluntary special assessment lien equal in value to the loan against any property where such clean energy systems, resiliency improvements, or stormwater management improvements are being installed. The locality may bundle or package said

loans for transfer to private lenders in such a manner that would allow the voluntary special assessment liens to remain in full force to secure the loans. *The placement of a voluntary special assessment lien shall not require a new assessment on the value of the real property that is being improved under the loan program.*

E. A voluntary special assessment lien on real property ~~other than a residential dwelling with fewer than five dwelling units or a condominium project as defined in § 55.1-2000:~~

1. Shall have the same priority status as a property tax lien against real property, except that such voluntary special assessment lien shall have priority over any previously recorded mortgage or deed of trust lien only if (i) a written subordination agreement, in a form and substance acceptable to each prior lienholder in its sole and exclusive discretion, is executed by the holder of each mortgage or deed of trust lien on the property and recorded with the special assessment lien in the land records where the property is located, and (ii) evidence that the property owner is current on payments on loans secured by a mortgage or deed of trust lien on the property and on property tax payments, that the property owner is not insolvent or in bankruptcy proceedings, and that the title of the benefited property is not in dispute is submitted to the locality prior to recording of the special assessment lien;

2. Shall run with the land, and that portion of the assessment under the assessment contract that has not yet become due is not eliminated by foreclosure of a property tax lien;

3. May be enforceable by the local government in the same manner that a property tax lien against real property may be enforced by the local government. A local government shall be entitled to recover costs and expenses, including attorney fees, in a suit to collect a delinquent installment of an assessment in the same manner as in a suit to collect a delinquent property tax; and

4. May incur interest and penalties for delinquent installments of the assessment in the same manner as delinquent property taxes.

F. Prior to the enactment of an ordinance pursuant to this section, a public hearing shall be held at which interested persons may object to or inquire about the proposed loan program or any of its particulars. The public hearing shall be advertised once a week for two successive weeks in a newspaper of general circulation in the locality.

G. The Department of Mines, Minerals and Energy shall ~~have the authority to~~ serve as a statewide sponsor for a clean energy financing program that meets the requirements of this section. The Department of Mines, Minerals and Energy shall engage a private entity through a competitive selection process to develop and administer the program.

HOUSE RESOLUTION NO. 277

Commemorating the 40th anniversary of the Convention on the Elimination of All Forms of Discrimination Against Women.

Agreed to by the House of Delegates, February 3, 2021

WHEREAS, the Convention on the Elimination of All Forms of Discrimination Against Women, an international human rights treaty promoting gender equity, was adopted by the United Nations General Assembly in 1979 and formally instituted in 1981; and

WHEREAS, the Convention on the Elimination of All Forms of Discrimination Against Women (Convention) requires eliminating discrimination against women in all its forms, including in the areas of economic development, health, safety, and education; and

WHEREAS, a number of American cities and states have adopted legislation reflecting the principles underlying the Convention to better inform policy and to empower communities to make the policy changes necessary to lift more women out of poverty and violence; and

WHEREAS, it is the policy of the Commonwealth to eliminate and prevent discrimination in employment, family, leave, public accommodations, credit and financing practices and housing accommodations because of various statuses, including but not limited to race, color, religion, national origin, sex, pregnancy, childbirth or related medical conditions, age, marital status, disability, sexual orientation, gender identity, genetics, political affiliation, or status as a veteran; and

WHEREAS, the United States Census Bureau indicates a persistent wage gap between men and women and a perpetual difference not only between the wages women are paid compared with those of men, but the wages that women of different races are paid compared with those of their white counterparts; and

WHEREAS, the national median annual pay for a woman who holds a full-time, year-round job is \$47,299, while the median annual pay for a man who holds a full-time, year-round job is \$57,456; this means that, overall, women in the United States are paid 82 cents for every dollar paid to men, amounting to an annual gender wage gap of \$10,157; and

WHEREAS, the wage gap is widest for many women of color; among women who hold full-time, year-round jobs in the United States, African American women are typically paid 63 cents, Native American women are paid 60 cents, and Latinas are paid just 55 cents for every dollar paid to white, non-Hispanic men; and

WHEREAS, white, non-Hispanic women are paid 79 cents and Asian American women 87 cents for every dollar paid to white, non-Hispanic men, and Asian American and Pacific Islander women of some ethnic and national backgrounds fare much worse; and

WHEREAS, women hold 58 percent of all student loan debt and have an average debt that is 9.6 percent higher than their male peers one year after graduation, and, on average, women take an additional two years to pay off student loans; and

WHEREAS, African American women finish their undergraduate education with more debt than all other graduates; and

WHEREAS, women are statistically more educated than men and seek out more graduate-level degrees to be competitive with their male counterparts, yet wages do not increase for women at the same rate; and

WHEREAS, the gender wage gap is widest in the highest-paying fields, with men earning 17 percent to 43 percent more than women, depending on the occupation; this inequality directly contributes to women having less disposable income to pay back loans in the same time frame as male counterparts; and

WHEREAS, the gender wage gap is a measure of just how far the nation and the Commonwealth still must go to ensure that women can participate fully and equally in the economy; and

WHEREAS, these numbers are more than facts and figures; they represent the tangible consequences of sexism and white supremacy in the United States and how the country systematically devalues women, particularly women of color, and their labor; and

WHEREAS, this persistent, pervasive wage gap is driven in part by gender and racial discrimination, workplace harassment, job segregation, and a lack of workplace policies that support family caregiving, which is still most often performed by women; and

WHEREAS, on average, women employed full time in the United States lose a combined total of more than \$956 billion every year due to the wage gap; and

WHEREAS, these lost wages mean women and their families have less money to support themselves, save and invest for the future, and spend on goods and services; women, their families, businesses and the economy all suffer as a result; and

WHEREAS, if the gender wage gap were eliminated, on average, a working woman in the United States could have enough money for, approximately, more than 13 additional months of child care; one additional year of tuition and fees for a four-year public university, or the full cost of tuition and fees for a two-year college; nearly seven additional months of premiums for employer-based health insurance; nearly 65 weeks of food (more than one year's worth); more than six months of mortgage and utilities payments; more than nine additional months of rent; up to more than eight additional years of birth control; or enough money to pay off student loan debt in just under three years; and

WHEREAS, in the United States, mothers are breadwinners in nearly half of families with children under 18, and 34 million households in the United States are headed by women, more than six million of whom support children under 18; and

WHEREAS, 8.2 million United States households, including more than two million with children under 18, have incomes that fall below the poverty level; and

WHEREAS, the wage gap persists regardless of industry, occupation, and education level, and there are numerous causes that contribute to the wage gap, including discrimination and bias; and

WHEREAS, the Commonwealth ranks 25th among states in the wage gap between men and women by state, per dollar; and

WHEREAS, the health of women and girls in the Commonwealth needs to be more closely examined in the areas of maternal and infant mortality and birth rates, health insurance coverage, and the prevalence of health conditions such as heart disease; and

WHEREAS, the Commonwealth's Healthy People 2000 goals included reduction of maternal mortality rates to five per 100,000 live births, and goals for 2010 included a further reduction to 3.3 maternal deaths per 100,000 live births; neither goal was reached; and

WHEREAS, the most recent Healthy People Goal (2020) is 11.4 deaths per 100,000 live births; and

WHEREAS, in Virginia, the maternal mortality rate for African American women is more than twice that of white women; and

WHEREAS, on June 5, 2019, Governor Ralph Northam announced a goal to eliminate racial disparity in the Virginia maternal mortality rate by 2025 and signed legislation that codified the Maternal Mortality Review Team in the Commonwealth; and

WHEREAS, violence against women and pay inequity have much to do with women remaining at the nation's worst poverty levels, cementing inequities and holding women back; and

WHEREAS, the Commonwealth has allocated zero dollars in the state budget for prevention activities dedicated to sexual and domestic violence and human trafficking; and

WHEREAS, the safety of women and girls in the Commonwealth requires attention and review when it comes to the number of women and girls falling victim to sexual exploitation and human trafficking, the number of reported instances of rape and sexual assault, and the amount of money spent assisting domestic and sexual violence victims; and

WHEREAS, between three and five women are killed by an intimate partner every day, and 20 people are physically abused by an intimate partner every minute, totaling 10 million people annually, with women disproportionately affected; and

WHEREAS, 735,000 people are sexually assaulted annually, with women disproportionately affected; and

WHEREAS, 250,000 contacts have been made, disproportionately by women, to human trafficking hotlines since 2007; and

WHEREAS, the prevalence of violence against women rivals that of other diseases, epidemics, and pandemics in the United States and globally, yet not all physicians inquire this of female patients when capturing case history; and

WHEREAS, domestic and sexual violence impacts children, families, communities, and the economy, and data and tracking of domestic and sexual violence cases must improve; and

WHEREAS, more ameliorative action needs to be taken to achieve real, not piecemeal, nationwide change, because if women are not safe, cycles of violence will be perpetuated, and women will be unable to free themselves from poverty and become productive members of society; and

WHEREAS, violence against women costs the United States trillions in direct support and lost jobs and productivity; and

WHEREAS, violence against women is a manifestation of historically unequal power relations between men and women, which have led to domination over and discrimination against women by men, preventing the full advancement of women; and

WHEREAS, violence against women is one of the crucial social mechanisms by which women are forced into a subordinate position compared with men; and

WHEREAS, some groups of women, such as women belonging to minority groups, indigenous women, refugee women, migrant women, women living in rural or remote communities, destitute women, women in institutions or in detention, female children, women with disabilities, elderly women, and women in situations of armed conflict, are especially vulnerable to violence; and

WHEREAS, violence against women in homes and in society is pervasive and cuts across lines of income, class, and culture and must be matched by urgent and effective steps to eliminate its occurrence; and

WHEREAS, the COVID-19 pandemic has shed light on and exacerbated the many inequities that exist within the Commonwealth and the United States; it has been women, gender minorities, people of color, and other marginalized groups who have borne the brunt of the pandemic's worst impacts; and

WHEREAS, the education, health care, and social care workforce is composed predominantly of women, and the gendered impacts of the pandemic will require thorough examination and mitigation considering already existing inequities; and

WHEREAS, in December 2020, thousands of American job losses were those of women, and largely women in the service industry and women of color; and

WHEREAS, the ongoing dissolution of the child care industry has left many working mothers without options; and

WHEREAS, the pandemic is sidelining hundreds of thousands of women and wiping out the gains they made in the workplace over the past several years, with these devastating circumstances creating a "shecession"; and

WHEREAS, there is a real need and demand to address structural and systemic gender inequality in order to sustainably recover, build back better, challenge the status quo, and make institutional change work for those who have been left behind; and

WHEREAS, there is a dearth of women being honored and memorialized for their contributions to the Commonwealth and society writ large as evidenced by the less than eight percent of memorials named for women and no military bases named for women and only 58 women to 876 men have been awarded the Nobel Prize; and

WHEREAS, in 2020, the Commonwealth elected to remove its sculpture of Confederate General Robert E. Lee from the United States Capitol and replace it with a sculpture of Barbara Rose Johns Powell, a pioneering leader in the American Civil Rights Movement, who at the age of 16 led a student strike for equal education at R.R. Moton High School in Farmville, and which became the only student-initiated case consolidated in the 1954 United States Supreme Court case, *Brown v. Board of Education*; and

WHEREAS, there are now a total of 10 statues out of 100 dedicated to women in the National Statuary Hall Collection, and women artists have sculpted only 16 of the 100 statues in the National Statuary Hall Collection; and

WHEREAS, core education curricula in the United States fail to recognize the contributions women have made in America, as until recently, all stories have been told by men and most have been in favor of and about men, and thus the history books in circulation blatantly leave out numerous women and their contributions to society; and

WHEREAS, analysis by the National Women's History Museum on the standard K-12 curriculum in social studies for all states and territories estimates that only 178 women are mentioned in today's schoolbooks, compared to more than approximately 559 men; of the women named, more than 60 percent were white and 25 percent African American, with even less representation for Hispanic, Native American, and Asian American or Pacific Islander women; and

WHEREAS, studies show that in standard K-12 curricula, the occupations of women mentioned were related to domestic roles 53 percent of the time, while women's rights and suffrage activists fell below half of that number; and

WHEREAS, edits to current history curricula are needed to include women and a full and fair recitation of their participation in the Commonwealth's and the nation's history and should include a review of content, instructional practices, and resources currently used to teach American history in the Commonwealth to help ensure that every graduate enters adult life with a comprehensive understanding of the women's voices and labors that contributed to the heritage of the nation and the Commonwealth; and

WHEREAS, the Commonwealth became the 38th and final requisite state to ratify the Equal Rights Amendment on January 27, 2020 so that women can realize their full equality in the United States Constitution; and

WHEREAS, there is a need to promote diversity and inclusion in legislative proceedings, standing rules, and in all recorded laws, and the Commonwealth has not yet permanently stricken gender-specific language and replaced it with gender-neutral language in the General Assembly; and

WHEREAS, although women and girls have made gains in the struggle for equality in many fields in the Commonwealth and in the United States, much more needs to be accomplished to fully eradicate discrimination based on gender and to achieve full equality; and

WHEREAS, state and local governments have an appropriate and legitimate role in affirming the importance of eliminating all forms of discrimination against women and girls; and

WHEREAS, women and girls who live in the Commonwealth enjoy all the rights, privileges, and remedies that are bestowed on all people in the United States, no matter their race, national origin, gender, or religious belief, and discrimination against women and girls in the Commonwealth will not be tolerated; and

WHEREAS, a future statewide equity assessment could further address these issues through a gender analysis of all state departments, boards, authorities, and commissions, and future designation of a task force via separate resolution to support these actions; now, therefore, be it

RESOLVED by the House of Delegates, That the 40th anniversary of the passage of the Convention on the Elimination of All Forms of Discrimination Against Women hereby be commemorated; and, be it

RESOLVED FURTHER, That the Clerk of the House of Delegates prepare a copy of this resolution for presentation as an expression of the House of Delegates' admiration for the historical significance of the Convention and the ideals it represents.

SENATE RESOLUTION NO. 91

Expressing the censure of the Senate.

Agreed to by the Senate, January 27, 2021

WHEREAS, Senator Amanda F. Chase, a member of the Senate of Virginia since 2016, has exhibited conduct unbecoming of a Senator during her terms in office by displaying a disregard for civility in discourse with colleagues, making false and misleading statements both in committee and on the Senate floor, and displaying a disregard for the significance of her duty to the citizens of the Commonwealth as an elected representative in the Senate of Virginia; and

WHEREAS, Senator Amanda F. Chase's pattern of unacceptable conduct has been publicly displayed in a series of incendiary incidents during her tenure, including the following:

1. On March 22, 2019, Senator Chase berated a Capitol Police officer on duty when the Senator was not given access to a restricted parking area in front of the Capitol, reportedly stating, "Do you know who I am? . . . I'm Senator Chase . . . Don't you see it on my license plate? . . . But I guess you don't care." The report of the incident indicates that Senator Chase addressed the officer profanely and made offensive remarks regarding the Clerk of the Senate. Following the incident, Senator Chase suggested that the officer's actions, which were in the normal course of duty, had been racially motivated in reaction to the Senator's "white privilege"; and

2. Senator Chase used her social media page to recklessly identify the names and office contact information of colleagues, Democratic and Republican, whose legislation and votes she disagreed with. Expressing outrage, and in an attempt to intimidate fellow legislators over policy differences, Senator Chase urged her social media followers to voice their dissent directly, resulting in several legislators and aides receiving threats; and

3. In discussing on social media her personal choice to carry a weapon, Senator Chase blamed victims of sexual assault for not fending off their attackers, making the damaging and indefensible claim that "It's those who are naive and unprepared that end [up] raped"; and

4. After another Senator announced her candidacy for Governor of Virginia, Senator Chase decried "identity politics" in the gubernatorial race and suggested that, because her fellow Senator is vice-chair of the Virginia Legislative Black Caucus, she is "not for all Virginians"; and

5. During the COVID-19 pandemic, Senator Chase undermined the seriousness of the pandemic by stating, "I don't do COVID"; and

6. Following the 2020 presidential election, Senator Chase implicated both major political parties in baseless claims of a "stolen" election, asserting, "Make no mistake. We are at war. The Democratic Party hijacked our 2020 Presidential Election and [has] committed treason. Where the hell are the Republicans?"; and

7. Senator Chase claimed that "The Virginia Democratic Party is racist to its core," after Democratic officials asked a white local registrar to step down over issues relating to management of the 2020 election; and

8. In the aftermath of the unfortunate events and riots at the United States Capitol on January 6, 2021, Senator Chase voiced support for those who participated in storming the United States Capitol, calling them "[p]atriots who love their country" and propagating unfounded claims regarding the nature of the events, the identities of those who took part, and the validity of the presidential election. When given the opportunity to specifically denounce and repudiate those individuals at the January 6 riot who (i) were proponents of white supremacy; (ii) wore T-shirts and other attire emblazoned with anti-Semitic messaging; and (iii) breached the United States Capitol grounds barricades, broke into the Capitol when the United States Congress was in session, and disturbed and defaced the Capitol, Senator Chase declined to do so. The destruction and violence at the United States Capitol was the first occasion that the defenses of the United States Capitol have been breached since the War of 1812; led to multiple deaths, including that of a United States Capitol Police officer; injured numerous others; desecrated the United States Capitol; resulted in property destruction; threatened the lives and

safety of those who are entrusted with carrying out the will of the American people; and required an emergency response from 200 Virginia State Troopers and 1,300 members of the Virginia National Guard, who were put in harm's way to quell the violence and restore order; and

WHEREAS, Article IV, Section 7 of the Constitution of Virginia provides that each house of the General Assembly may "punish [its members] for disorderly behavior"; and

WHEREAS, Rules 18 (h) and 53 (b) of the Senate provide that the Senate may, by a majority vote, censure one of its members and place the member last in seniority; and

WHEREAS, the inflammatory statements and actions of Senator Amanda F. Chase during her tenure in the Senate of Virginia have created and aggravated tensions, misled constituents and citizens, and obstructed the Senate's business in service of the Commonwealth, and such behavior constitutes a failure to uphold her oath of office, misuse of office, and conduct unbecoming of a Senator and, collectively, has caused a material effect upon the conduct of her office; now, therefore, be it

RESOLVED by the Senate, That the Senate of Virginia does censure Senator Amanda F. Chase and place Senator Amanda F. Chase last in seniority for failure to uphold her oath of office, misuse of office, and conduct unbecoming of a Senator.

CHAPTER 1

An Act to amend and reenact § 54.1-2957 of the Code of Virginia, relating to nurse practitioners; practice without a practice agreement.

[H 1737]

Approved February 25, 2021

Be it enacted by the General Assembly of Virginia:

1. That § 54.1-2957 of the Code of Virginia is amended and reenacted as follows:

§ 54.1-2957. Licensure and practice of nurse practitioners.

A. As used in this section:

"Clinical experience" means the postgraduate delivery of health care directly to patients pursuant to a practice agreement with a patient care team physician.

B. The Board of Medicine and the Board of Nursing shall jointly prescribe the regulations governing the licensure of nurse practitioners. It is unlawful for a person to practice as a nurse practitioner in the Commonwealth unless he holds such a joint license.

C. Every nurse practitioner other than a nurse practitioner licensed by the Boards of Medicine and Nursing as a certified nurse midwife or a certified registered nurse anesthetist or a nurse practitioner who meets the requirements of subsection I shall maintain appropriate collaboration and consultation, as evidenced in a written or electronic practice agreement, with at least one patient care team physician. A nurse practitioner who meets the requirements of subsection I may practice without a written or electronic practice agreement. A nurse practitioner who is licensed by the Boards of Medicine and Nursing as a certified nurse midwife shall practice pursuant to subsection H. A nurse practitioner who is a certified registered nurse anesthetist shall practice under the supervision of a licensed doctor of medicine, osteopathy, podiatry, or dentistry. A nurse practitioner who is appointed as a medical examiner pursuant to § 32.1-282 shall practice in collaboration with a licensed doctor of medicine or osteopathic medicine who has been appointed to serve as a medical examiner pursuant to § 32.1-282. Collaboration and consultation among nurse practitioners and patient care team physicians may be provided through telemedicine as described in § 38.2-3418.16.

Physicians on patient care teams may require that a nurse practitioner be covered by a professional liability insurance policy with limits equal to the current limitation on damages set forth in § 8.01-581.15.

Service on a patient care team by a patient care team member shall not, by the existence of such service alone, establish or create liability for the actions or inactions of other team members.

D. The Boards of Medicine and Nursing shall jointly promulgate regulations specifying collaboration and consultation among physicians and nurse practitioners working as part of patient care teams that shall include the development of, and periodic review and revision of, a written or electronic practice agreement; guidelines for availability and ongoing communications that define consultation among the collaborating parties and the patient; and periodic joint evaluation of the services delivered. Practice agreements shall include provisions for (i) periodic review of health records, which may include visits to the site where health care is delivered, in the manner and at the frequency determined by the nurse practitioner and the patient care team physician and (ii) input from appropriate health care providers in complex clinical cases and patient emergencies and for referrals. Evidence of a practice agreement shall be maintained by a nurse practitioner and provided to the Boards upon request. For nurse practitioners providing care to patients within a hospital or health care system, the practice agreement may be included as part of documents delineating the nurse practitioner's clinical privileges or the electronic or written delineation of duties and responsibilities in collaboration and consultation with a patient care team physician.

E. The Boards of Medicine and Nursing may issue a license by endorsement to an applicant to practice as a nurse practitioner if the applicant has been licensed as a nurse practitioner under the laws of another state and, pursuant to regulations of the Boards, the applicant meets the qualifications for licensure required of nurse practitioners in the Commonwealth. A nurse practitioner to whom a license is issued by endorsement may practice without a practice agreement with a patient care team physician pursuant to subsection I if such application provides an attestation to the Boards that the applicant has completed the equivalent of at least ~~five~~ *two* years of full-time clinical experience, as determined by the Boards, in accordance with the laws of the state in which the nurse practitioner was licensed.

F. Pending the outcome of the next National Specialty Examination, the Boards may jointly grant temporary licensure to nurse practitioners.

G. In the event a physician who is serving as a patient care team physician dies, becomes disabled, retires from active practice, surrenders his license or has it suspended or revoked by the Board, or relocates his practice such that he is no longer able to serve, and a nurse practitioner is unable to enter into a new practice agreement with another patient care team physician, the nurse practitioner may continue to practice upon notification to the designee or his alternate of the Boards and receipt of such notification. Such nurse practitioner may continue to treat patients without a patient care team physician for an initial period not to exceed 60 days, provided the nurse practitioner continues to prescribe only those drugs previously authorized by the practice agreement with such physician and to have access to appropriate input from appropriate health care providers in complex clinical cases and patient emergencies and for referrals. The designee or his alternate of the Boards shall grant permission for the nurse practitioner to continue practice under this subsection for another 60 days, provided the nurse practitioner provides evidence of efforts made to secure another patient care team physician and of access to physician input.

H. Nurse practitioners licensed by the Boards of Medicine and Nursing in the category of certified nurse midwife shall practice in consultation with a licensed physician in accordance with a practice agreement between the nurse practitioner and the licensed physician. Such practice agreement shall address the availability of the physician for routine and urgent consultation on patient care. Evidence of a practice agreement shall be maintained by a nurse practitioner and provided to the Boards upon request. The Boards shall jointly promulgate regulations, consistent with the Standards for the Practice of Midwifery set by the American College of Nurse-Midwives, governing such practice.

I. A nurse practitioner, other than a nurse practitioner licensed by the Boards of Medicine and Nursing in the category of certified nurse midwife or certified registered nurse anesthetist, who has completed the equivalent of at least ~~five~~ *two* years of full-time clinical experience as a licensed nurse practitioner, as determined by the Boards, may practice in the practice category in which he is certified and licensed without a written or electronic practice agreement upon receipt by the nurse practitioner of an attestation from the patient care team physician stating (i) that the patient care team physician has served as a patient care team physician on a patient care team with the nurse practitioner pursuant to a practice agreement meeting the requirements of this section and § 54.1-2957.01; (ii) that while a party to such practice agreement, the patient care team physician routinely practiced with a patient population and in a practice area included within the category for which the nurse practitioner was certified and licensed; and (iii) the period of time for which the patient care team physician practiced with the nurse practitioner under such a practice agreement. A copy of such attestation shall be submitted to the Boards together with a fee established by the Boards. Upon receipt of such attestation and verification that a nurse practitioner satisfies the requirements of this subsection, the Boards shall issue to the nurse practitioner a new license that includes a designation indicating that the nurse practitioner is authorized to practice without a practice agreement. In the event that a nurse practitioner is unable to obtain the attestation required by this subsection, the Boards may accept other evidence demonstrating that the applicant has met the requirements of this subsection in accordance with regulations adopted by the Boards.

A nurse practitioner authorized to practice without a practice agreement pursuant to this subsection shall (a) only practice within the scope of his clinical and professional training and limits of his knowledge and experience and consistent with the applicable standards of care, (b) consult and collaborate with other health care providers based on the clinical conditions of the patient to whom health care is provided, and (c) establish a plan for referral of complex medical cases and emergencies to physicians or other appropriate health care providers.

A nurse practitioner practicing without a practice agreement pursuant to this subsection shall obtain and maintain coverage by or shall be named insured on a professional liability insurance policy with limits equal to the current limitation on damages set forth in § 8.01-581.15.

2. That the provisions of this act shall expire on July 1, 2022.

2. Make recommendations to the Governor regarding the establishment and administration of a compensation plan for all employees, and recommend necessary amendments thereto.
3. Design and maintain a personnel information system that shall support the operational needs of the Department and of state agencies, and that shall provide for the management information needs of the Governor, his secretaries, and the General Assembly. The system shall provide at a minimum a roster of all employees in the service of the Commonwealth, in which there shall be set forth as to each employee, the employing agency, the class title, pay, status and such other data as may be deemed desirable to produce significant facts pertaining to personnel administration.
4. Establish and direct a program of employee-management relations designed to improve communications between employees and agencies of the Commonwealth.
5. Establish and administer a system of performance evaluation for all employees in the service of the Commonwealth, based on the quality of service rendered, related where practicable to specific standards of performance. In no event shall workers' compensation leave affect the total number of hours credited during a performance cycle for purposes of calculating incentive increases in salary based on such performance evaluations.
6. Establish and administer a system of recruitment designed to attract high quality employees to the service of the Commonwealth. In administering this system, applicants shall be rated on the basis of relative merit and classified in accordance with their suitability for the various classes of positions in the service of the Commonwealth, and a record thereof shall be maintained in the open register.
7. Design and utilize an application form which shall include, but not be limited to, information on prior volunteer work performed by the applicant.
8. Establish and administer a comprehensive and integrated program of employee training and management development.

11. Establish and administer a program to ensure equal employment opportunity to applicants for state employment and to state employees in all incidents of employment.
12. Establish and administer regulations relating to disciplinary actions; however, no disciplinary action shall include the suspension without pay for more than 10 days of any state employee who is under investigation without a hearing conducted either by a level of supervision above the employee's immediate supervisor or by his agency head.
13. Adopt and implement a centralized program to provide awards to employees who propose procedures or ideas that are adopted and that will result in eliminating or reducing state expenditures or improving operations, provided such proposals are placed in effect. The centralized program shall be designed to (i) protect the identity of the individual making the proposal while it is being evaluated for implementation by a state agency, (ii) publicize the acceptance of proposals and financial awards to state employees, and (iii) include a reevaluation process that individuals making proposals may access if their proposals are rejected by the evaluating agency. However, unless specifically authorized by law, the Director of the Department shall have no authority with respect to the state grievance procedures.
- 14a. Develop state personnel policies, with the approval of the Governor, that permit any full-time state employee who is also a member of the organized reserve forces of any of the armed services of the United States or of the Virginia National Guard to carry forward from year to year the total of his accrued annual leave time without regard to the regulation or policy

of his agency regarding the maximum number of hours allowed to be carried forward at the end of a calendar year. Any amount over the usual amount allowed to be carried forward shall be reserved for use only as leave taken pursuant to active military service as provided by § 2.2-2903.1. Such leave and its use shall be in addition to leave provided under § 44-93. Any leave carried forward for the purposes described remaining upon termination of employment with the Commonwealth or any department, institution or agency thereof that has not been used in accordance with § 2.2-2903.1 shall not be paid or credited in any way to the employee.

14b. Develop state personnel policies that provide break time for nursing mothers to express breast milk. Such policies shall require an agency to provide (i) a reasonable break time for an employee to express breast milk for her nursing child after the child's birth each time such employee has need to express the breast milk and (ii) a place, other than a bathroom, that is shielded from view and free from intrusion from coworkers and the public and that may be used by an employee to express breast milk. Such break time shall, if possible, run concurrently with any break time already provided to the employee. An agency shall not be required to compensate an employee receiving reasonable break time for any work time spent for such purpose. For purposes of this subdivision, "reasonable," with regard to break time provided for nursing mothers to express breast milk, means a break time that complies with the guidance for employers in assessing the frequency and timing of breaks to express breast milk set forth in the U.S. Department of Labor's Request for Information RIN 1235-ZA00, 75 Federal Register 80073 (December 21, 2010).

15. Ascertain and publish on an annual basis, by agency, the number of employees in the service of the Commonwealth, including permanent full-time and part-time employees, those employed on a temporary or contractual basis, and constitutional officers and their employees whose salaries are funded by the Commonwealth. The publication shall contain the net gain or loss to the agency in personnel from the previous fiscal year and the net gains and losses in personnel for each agency for a three-year period.

16. Submit a report to the members of the General Assembly on or before September 30 of each year showing (i) the total number of full-time and part-time employees, (ii) contract temporary employees, (iii) hourly temporary employees, and (iv) the number of employees who voluntarily and involuntarily terminated their employment with each department, agency or institution in the previous fiscal year.

17. Administer the workers' compensation insurance plan for state employees in accordance with § 2.2-2821.

Such processes shall be consistent with the Virginia Public Procurement Act (§ 2.2-4300 et seq.). The Department may perform contract administration duties and responsibilities for any resulting statewide augmentation contracts.

19. *In coordination with the Secretary of Health and Human Resources or his designee, develop an online training module addressing safety and disaster awareness, which shall be incorporated into existing mandatory training.*

B. The Director may convene such ad hoc working groups as the Director deems appropriate to address issues regarding the state workforce.

§ 2.2-1212. Required online safety and disaster awareness training.

All state employees shall annually complete an online safety and disaster awareness training module that includes information on public health safety provided by the Department pursuant to subdivision A 19 of § 2.2-1201. Each state agency shall maintain records showing that each employee has completed the training required by this section and the date on which such training was completed.

2. That the Department of Human Resource Management shall develop and make available the online training module addressing safety and disaster awareness that includes information on public health safety required by § 2.2-1201 of the Code of Virginia, as amended by this act, by January 1, 2022, for use by all employees and agencies of the Commonwealth.

3. That any person employed with the Commonwealth on January 1, 2022, shall complete the training required by § 2.2-1212 of the Code of Virginia, as created by this act, no later than April 1, 2022.

The board of directors shall not use work sessions or other informal gatherings of the board of directors to circumvent the open meeting requirements of this section. Minutes of the meetings of the board of directors shall be recorded and shall be available as provided in subsection B of § 55.1-1815.

B. Notice of the time, date, and place of each meeting of the board of directors or of any subcommittee or other committee of the board of directors shall be published where it is reasonably calculated to be available to a majority of the lot owners.

A lot owner may make a request to be notified on a continual basis of any such meetings. Such request shall be made at least once a year in writing and include the lot owner's name, address, zip code, and any email address as appropriate. Notice of the time, date, and place shall be sent to any lot owner requesting notice (i) by first-class mail or email in the case of meetings of the board of directors or (ii) by email in the case of meetings of any subcommittee or other committee of the board of directors.

Notice, reasonable under the circumstances, of special or emergency meetings shall be given contemporaneously with the notice provided to members of the association's board of directors or any subcommittee or other committee of the board of directors conducting the meeting.

Unless otherwise exempt as relating to an executive session pursuant to subsection C, at least one copy of all agenda packets and materials furnished to members of an association's board of directors or subcommittee or other committee of the board of directors for a meeting shall be made available for inspection by the membership of the association at the same

time such documents are furnished to the members of the board of directors or any subcommittee or committee of the board of directors.

Any member may record any portion of a meeting that is required to be open. The board of directors or subcommittee or other committee of the board of directors conducting the meeting may adopt rules (a) governing the placement and use of equipment necessary for recording a meeting to prevent interference with the proceedings and (b) requiring the member recording the meeting to provide notice that the meeting is being recorded.

~~If a meeting is conducted by telephone conference or video conference or similar electronic means, at least two members of the board of directors shall be physically present at the meeting place included in the notice. The audio equipment shall be sufficient for any member in attendance to hear what is said by any member of the board of directors participating in the meeting who is not physically present.~~

Except for the election of officers, voting by secret or written ballot in an open meeting shall be a violation of this chapter.

C. The board of directors or any subcommittee or other committee of the board of directors may (i) convene in executive session to consider personnel matters; (ii) consult with legal counsel; (iii) discuss and consider contracts, pending or probable litigation, and matters involving violations of the declaration or rules and regulations adopted pursuant to such declaration for which a member or his family members, tenants, guests, or other invitees are responsible; or (iv) discuss and consider the personal liability of members to the association, upon the affirmative vote in an open meeting to assemble in executive session. The motion shall state specifically the purpose for the executive session. Reference to the motion and the stated purpose for the executive session shall be included in the minutes. The board of directors shall restrict the consideration of matters during such portions of meetings to only those purposes specifically exempted and stated in the motion. No contract, motion, or other action adopted, passed, or agreed to in executive session shall become effective unless the board of directors or subcommittee or other committee of the board of directors, following the executive session, reconvenes in open meeting and takes a vote on such contract, motion, or other action, which shall have its substance reasonably identified in the open meeting. The requirements of this section shall not require the disclosure of information in violation of law.

D. Subject to reasonable rules adopted by the board of directors, the board of directors shall provide a designated period of time during a *each* meeting to allow members an opportunity to comment on any matter relating to the association. During a meeting at which the agenda is limited to specific topics or at a special meeting, the board of directors may limit the comments of members to the topics listed on the meeting agenda.

§ 55.1-1832. Use of technology.

A. ~~Unless expressly prohibited by the declaration expressly provides otherwise,~~ (i) any notice required to be sent or received or (ii) any signature, vote, consent, or approval required to be obtained under any declaration or bylaw provision or any provision of this chapter may be accomplished using electronic means.

B. The association, the lot owners, and those entitled to occupy a lot may perform any obligation or exercise any right under any declaration or bylaw provision or any provision of this chapter by use of electronic means.

C. An electronic signature meeting the requirements of applicable law shall satisfy any requirement for a signature under any declaration or bylaw provision or any provision of this chapter.

D. Voting on, consent to, and approval of any matter under any declaration or bylaw provision or any provision of this chapter may be accomplished by electronic means, provided that a record is created as evidence of such vote, consent, or approval and maintained as long as such record would be required to be maintained in nonelectronic form. *If the vote, consent, or approval is required to be obtained by secret ballot, the electronic means shall protect the identity of the voter. If the electronic means cannot protect the identity of the voter, another means of voting shall be used.*

E. Subject to other provisions of law, no action required or permitted by any declaration or bylaw provision or any provision of this chapter need be acknowledged before a notary public if the identity and signature of such person can otherwise be authenticated to the satisfaction of the ~~executive~~ board of directors.

F. *Any meeting of the association, the board of directors, or any committee may be held entirely or partially by electronic means, provided that the board of directors has adopted guidelines for the use of electronic means for such meetings. Such guidelines shall ensure that persons accessing such meetings are authorized to do so and that persons entitled to participate in such meetings have an opportunity to do so. The board of directors shall determine whether any such meeting may be held entirely or partially by electronic means.*

G. If any person does not have the capability or desire to conduct business using electronic means, the association shall make *available a reasonable accommodation alternative*, at its expense, for such person to conduct business with the association without use of such electronic means.

~~G. H.~~ This section shall not apply to any notice related to an enforcement action by the association, an assessment lien, or foreclosure proceedings in enforcement of an assessment lien.

§ 55.1-1900. Definitions.

As used in this chapter, unless the context requires a different meaning:

"Capital components" means those items, whether or not a part of the common elements, for which the unit owners' association has the obligation for repair, replacement, or restoration and for which the executive board determines funding is necessary.

"Common elements" means all portions of the condominium other than the units.

"Common expenses" means all expenditures lawfully made or incurred by or on behalf of the unit owners' association, together with all funds lawfully assessed for the creation or maintenance of reserves pursuant to the provisions of the condominium instruments.

"Common interest community manager" means the same as that term is defined in § 54.1-2345.

"Condominium" means real property, and any incidents to or interests in such real property, lawfully subject to this chapter by the recordation of condominium instruments pursuant to the provisions of this chapter. No project shall be deemed a condominium within the meaning of this chapter unless the undivided interests in the common elements are vested in the unit owners.

"Condominium instruments" means, collectively, the declaration, bylaws, and plats and plans recorded pursuant to the provisions of this chapter. Any exhibit, schedule, or certification recorded with a condominium instrument shall be deemed an integral part of that condominium instrument. Once recorded, any amendment or certification of any condominium instrument shall be deemed an integral part of the affected condominium instrument if such amendment or certification was made in accordance with the provisions of this chapter.

"Condominium unit" means a unit together with the undivided interest in the common elements appertaining to that unit.

"Contractable condominium" means a condominium from which one or more portions of the submitted land may be withdrawn in accordance with the provisions of the declaration and of this chapter. If such withdrawal can occur only by the expiration or termination of one or more leases, then the condominium shall not be deemed a contractable condominium.

"Conversion condominium" means a condominium containing structures that before the recording of the declaration were wholly or partially occupied by persons other than those who have contracted for the purchase of condominium units and those who occupy with the consent of such purchasers.

"Convertible land" means a portion of the common elements within which additional units or limited common elements may be created in accordance with the provisions of this chapter.

"Convertible space" means a portion of a structure within the condominium that a declarant may convert into one or more units or common elements, including limited common elements, in accordance with the provisions of the declaration and this chapter.

"Declarant" means any person, or group of persons acting in concert, that (i) offers to dispose of its interest in a condominium unit not previously disposed of, including an institutional lender that may not have succeeded to or accepted any special declarant rights pursuant to § 55.1-1947; (ii) reserves or succeeds to any special declarant right; or (iii) applies for registration of the condominium. However, for the purposes of clauses (i) and (iii), "declarant" does not include an institutional lender that acquires title by foreclosure or deed in lieu of foreclosure unless such lender offers to dispose of its interest in a condominium unit not previously disposed of to anyone not in the business of selling real estate for his own account, except as otherwise provided in § 55.1-1947. "Declarant" does not include an individual who acquires title to a condominium unit at a foreclosure sale.

"Dispose" or "disposition" refers to any voluntary transfer of a legal or equitable interest in a condominium unit to a purchaser, but does not include the transfer or release of security for a debt.

"Electronic means" means any form of communication, not directly involving the physical transmission of paper, that creates a record that may be retained, retrieved, and reviewed by a recipient of such communication. *A meeting conducted by electronic means includes a meeting conducted via teleconference, videoconference, Internet exchange, or other electronic methods.* Any term used in this definition that is defined in § 59.1-480 of the Uniform Electronic Transactions Act has the meaning set forth in that section.

"Executive board" means an executive and administrative entity, by whatever name denominated, designated in the condominium instruments as the governing body of the unit owners' association.

"Expandable condominium" means a condominium to which additional land may be added in accordance with the provisions of the declaration and this chapter.

"Future common expenses" means common expenses for which assessments are not yet due and payable.

"Identifying number" means one or more letters or numbers that identify only one unit in the condominium.

"Institutional lender" means one or more commercial or savings banks, savings and loan associations, trust companies, credit unions, industrial loan associations, insurance companies, pension funds, or business trusts, including real estate investment trusts, any other lender regularly engaged in financing the purchase, construction, or improvement of real estate, or any assignee of loans made by such a lender, or any combination of any of the foregoing entities.

"Land" is a three-dimensional concept and includes parcels with upper or lower boundaries, or both upper and lower boundaries, as well as parcels extending ab solo usque ad coelum. Parcels of airspace constitute land within the meaning of this chapter. Any requirement in this chapter of a legally sufficient description shall be deemed to include a requirement that the upper or lower boundaries, if any, of the parcel in question be identified with reference to established datum.

"Leasehold condominium" means a condominium in all or any portion of which each unit owner owns an estate for years in his unit, or in the land within which that unit is situated, or both, with all such leasehold interests due to expire naturally at the same time. A condominium including leased land, or an interest in such land, within which no units are situated or to be situated is not a leasehold condominium within the meaning of this chapter.

"Limited common element" means a portion of the common elements reserved for the exclusive use of those entitled to the use of one or more, but less than all, of the units.

"Nonbinding reservation agreement" means an agreement between the declarant and a prospective purchaser that is in no way binding on the prospective purchaser and that may be canceled without penalty at the sole discretion of the prospective purchaser.

"Offer" means any inducement, solicitation, or attempt to encourage any person to acquire any legal or equitable interest in a condominium unit, except as security for a debt. Nothing that expressly states that the condominium has not been registered with the Common Interest Community Board and that no unit in the condominium can or will be offered for sale until such time as the condominium has been so registered shall be considered an "offer."

"Officer" means any member of the executive board or official of the unit owners' association.

"Par value" means a number of dollars or points assigned to each unit by the declaration. Substantially identical units shall be assigned the same par value, but units located at substantially different heights above the ground, or having substantially different views, or having substantially different amenities or other characteristics that might result in differences in market value may be considered substantially identical within the meaning of §§ 55.1-1917 and 55.1-1918.

"Person" means a natural person, corporation, partnership, association, trust, or other entity capable of holding title to real property, or any combination thereof.

"Purchaser" means any person, other than a declarant, that acquires by means of a voluntary transfer a legal or equitable interest in a condominium unit, other than (i) a leasehold interest, including renewal options, of less than 20 years or (ii) as security for a debt.

"Settlement agent" means the same as that term is defined in § 55.1-1000.

"Size" means the number of cubic feet, or the number of square feet of ground or floor space, within each unit as computed by reference to the plat and plans and rounded to the nearest whole number. Certain spaces within the units, including attic, basement, or garage space, may be omitted from such calculation or partially discounted by the use of a ratio, so long as the same basis of calculation is employed for all units in the condominium and so long as that basis is described in the declaration.

"Special declarant rights" means any right reserved for the benefit of a declarant, or of a person or group of persons that becomes a declarant, to (i) expand an expandable condominium; (ii) contract a contractable condominium; (iii) convert convertible land or convertible space or both; (iv) appoint or remove any officers of the unit owners' association or the executive board pursuant to subsection A of § 55.1-1943; (v) exercise any power or responsibility otherwise assigned by any condominium instrument or by this chapter to the unit owners' association, any officer, or the executive board; or (vi) maintain sales offices, management offices, model units, and signs pursuant to § 55.1-1929.

"Unit" means a portion of the condominium designed and intended for individual ownership and use. For the purposes of this chapter, a convertible space shall be treated as a unit in accordance with subsection D of § 55.1-1925.

"Unit owner" means one or more persons that own a condominium unit or, in the case of a leasehold condominium, whose leasehold interest in the condominium extends for the entire balance of the unexpired term. "Unit owner" includes any purchaser of a condominium unit at a foreclosure sale, regardless of whether the deed is recorded in the land records where the unit is located. "Unit owner" does not include any person holding an interest in a condominium unit solely as security for a debt.

§ 55.1-1935. Use of technology.

A. Unless *expressly prohibited* by the condominium instruments ~~expressly provide otherwise~~, (i) any notice required to be sent or received or (ii) any signature, vote, consent, or approval required to be obtained under any condominium instrument or any provision of this chapter may be accomplished using electronic means.

B. The unit owners' association, unit owners, and other persons entitled to occupy a unit may perform any obligation or exercise any right under any condominium instrument or any provision of this chapter by use of electronic means.

C. An electronic signature meeting the requirements of applicable law shall satisfy any requirement for a signature under any condominium instrument or any provision of this chapter.

D. Voting, consent to, and approval of any matter under any condominium instrument or any provision of this chapter may be accomplished by electronic means provided that a record is created as evidence of such vote, consent, or approval and maintained as long as such record would be required to be maintained in nonelectronic form. *If the vote, consent, or approval is required to be obtained by secret ballot, the electronic means shall protect the identity of the voter. If the electronic means cannot protect the identity of the voter, another means of voting shall be used.*

E. Subject to other provisions of law, no action required or permitted by any condominium instrument or any provision of this chapter need be acknowledged before a notary public if the identity and signature of such person can otherwise be authenticated to the satisfaction of the executive board.

F. *Any meeting of the unit owners' association, the executive board, or any committee may be held entirely or partially by electronic means, provided that the executive board has adopted guidelines for the use of electronic means for such meetings. Such guidelines shall ensure that persons accessing such meetings are authorized to do so and that persons entitled to participate in such meetings have an opportunity to do so. The executive board shall determine whether any such meeting may be held entirely or partially by electronic means.*

G. If any person does not have the capability or desire to conduct business using electronic means, the unit owners' association shall make *available* a reasonable ~~accommodation~~ *alternative*, at its expense, for such person to conduct business with the unit owners' association without use of such electronic means.

G. H. This section shall not apply to any notice related to an enforcement action by the unit owners' association, an assessment lien, or foreclosure proceedings in enforcement of an assessment lien.

§ 55.1-1949. Meetings of unit owners' association and executive board.

A. 1. Meetings of the unit owners' association shall be held in accordance with the provisions of the condominium instruments at least once each year after the formation of the association. The bylaws shall specify an officer or his agent who shall, at least 21 days in advance of any annual or regularly scheduled meeting and at least seven days in advance of any other meeting, send to each unit owner notice of the time, place, and purposes of such meeting. In the event of cancellation of any annual meeting of the unit owners' association at which directors are elected, the seven-day notice of any subsequent meeting scheduled to elect such directors shall include a statement that the meeting is scheduled for the purpose of the election of directors.

2. Notice shall be sent by United States mail to all unit owners of record at the address of their respective units, unless the unit owner has provided to such officer or his agent an address other than the address of the unit, or notice may be hand delivered by the officer or his agent, provided that the officer or his agent certifies in writing that notice was delivered to the person of the unit owner.

3. In lieu of delivering notice as specified in subdivision 2, such officer or his agent may, ~~to the extent that the condominium instruments or the condominium's rules and regulations expressly provide,~~ send notice by electronic means if consented to by the unit owner to whom the notice is given, provided that the officer or his agent certifies in writing that notice was sent ~~and, if such electronic mail was returned as undeliverable, notice was subsequently sent by United States mail.~~

B. 1. Except as otherwise provided in the condominium instruments, the provisions of this subsection shall apply to executive board meetings at which business of the unit owners' association is transacted or discussed. All meetings of the unit owners' association or the executive board, including any subcommittee or other committee of such association or board, shall be open to all unit owners of record. The executive board shall not use work sessions or other informal gatherings of the executive board to circumvent the open meeting requirements of this section. ~~The unit owners' association may, to the extent that the condominium instruments or adopted rules expressly provide, send notice by electronic means if consented to by the officer to whom the notice is given.~~ Minutes of the meetings of the executive board shall be recorded and shall be available as provided in § 55.1-1945.

2. Notice of the time, date, and place of each meeting of the executive board or of any subcommittee or other committee of the executive board, and of each meeting of a subcommittee or other committee of the unit owners' association, shall be published where it is reasonably calculated to be available to a majority of the unit owners.

A unit owner may make a request to be notified on a continual basis of any such meetings, which request shall be made at least once a year in writing and include the unit owners' name, address, zip code, and any email address as appropriate. Notice of the time, date, and place shall be sent to any unit owner requesting notice (i) by first-class mail or email in the case of meetings of the executive board or (ii) by email in the case of meetings of any subcommittee or other committee of the executive board or of a subcommittee or other committee of the unit owners' association.

Notice, reasonable under the circumstances, of special or emergency meetings shall be given contemporaneously with the notice provided to members of the (i) executive board or any subcommittee or other committee of such board or (ii) subcommittee or other committee of the unit owners' association conducting the meeting.

3. Unless otherwise exempt as relating to an executive session pursuant to subsection C, at least one copy of all agenda packets and materials furnished to members of the executive board or subcommittee or other committee of the executive board for a meeting shall be made available for inspection by the membership of the unit owners' association at the same time such documents are furnished to the members of the executive board.

4. Any unit owner may record any portion of a meeting required to be open. The executive board or subcommittee or other committee of the executive board conducting the meeting may adopt rules (i) governing the placement and use of equipment necessary for recording a meeting to prevent interference with the proceedings and (ii) requiring the unit owner recording the meeting to provide notice that the meeting is being recorded.

~~If a meeting of the executive board is conducted by telephone conference or video conference or similar electronic means, at least two board members shall be physically present at the meeting place included in the notice. The audio equipment shall be sufficient for any member in attendance to hear what is said by any board member participating in the meeting who is not physically present.~~

5. Voting by secret or written ballot in an open meeting is a violation of this chapter except for the election of officers.

C. The executive board or any subcommittee or other committee of the executive board may convene in executive session to consider personnel matters; consult with legal counsel; discuss and consider contracts, probable or pending litigation, and matters involving violations of the condominium instruments or rules and regulations promulgated pursuant to such condominium instruments for which a unit owner, his family members, tenants, guests, or other invitees are responsible; or discuss and consider the personal liability of unit owners to the unit owners' association, upon the affirmative vote in an open meeting to assemble in executive session. The motion shall state specifically the purpose for the executive session. Reference to the motion and the stated purpose for the executive session shall be included in the minutes. The executive board shall restrict the consideration of matters during such portions of meetings to only those purposes specifically exempted and stated in the motion. No contract, motion, or other action adopted, passed, or agreed to in executive session shall become effective unless the executive board or subcommittee or other committee of the executive board, following the executive session, reconvenes in open meeting and takes a vote on such contract, motion, or other

action, which shall have its substance reasonably identified in the open meeting. The requirements of this section do not require the disclosure of information in violation of law.

D. Subject to reasonable rules adopted by the executive board, the executive board shall provide a designated period of time during a *each* meeting to allow unit owners an opportunity to comment on any matter relating to the unit owners' association. During a meeting at which the agenda is limited to specific topics or at a special meeting, the executive board may limit the comments of unit owners to the topics listed on the meeting agenda.

§ 55.1-1952. Meetings of unit owners' association and executive board; quorums.

A. Unless the condominium instruments otherwise provide or as specified in subsection G H of § 55.1-1953, a quorum shall be deemed to be present throughout any meeting of the unit owners' association until adjourned if persons entitled to cast more than one-third of the votes are present at the beginning of such meeting. The bylaws may provide for a larger percentage, or for a smaller percentage not less than 10 percent.

B. Unless the condominium instruments specify a larger majority, a quorum shall be deemed to be present throughout any meeting of the executive board if persons entitled to cast one-half of the votes in that body are present at the beginning of such meeting.

C. On petition of the unit owners' association or any unit owner entitled to vote, the circuit court of the county or city in which the condominium or the greater part of such condominium is located may order an annual meeting of the unit owners' association be held for the purpose of the election of members of the executive board, provided that:

1. No annual meeting as required by § 55.1-1949 has been held due to the failure to obtain a quorum of unit owners as specified in the condominium instruments; and

2. The unit owners' association has made good faith attempts to convene a duly called annual meeting of the unit owners' association in three successive years, which attempts have proven unsuccessful due to the failure to obtain a quorum.

The court may set the quorum for the meeting and enter other orders necessary to convene the meeting.

A unit owner filing a petition under this subsection shall provide a copy of the petition to the executive board at least 10 business days prior to filing.

§ 55.1-1953. Meetings of unit owners' association and executive board; voting by unit owners; proxies.

A. The bylaws may allocate to each unit depicted on plats and plans that comply with subsections A and B of § 55.1-1920 a number of votes in the unit owners' association proportionate to the undivided interest in the common elements appertaining to each such unit.

B. Otherwise, the bylaws shall allocate to each such unit an equal number of votes in the unit owners' association, subject to the following exception: Each convertible space so depicted shall be allocated a number of votes in the unit owners' association proportionate to the size of each such space, vis-a-vis the aggregate size of all units so depicted, while the remaining votes in the unit owners' association shall be allocated equally to the other units so depicted.

C. Since a unit owner may be more than one person, if only one of such persons is present at a meeting of the unit owners' association, that person shall be entitled to cast the votes appertaining to that unit. If more than one of such persons is present, the vote appertaining to that unit shall be cast only in accordance with their unanimous agreement unless the condominium instruments expressly provide otherwise, and such consent shall be conclusively presumed if any one of them purports to cast the votes appertaining to that unit without protest being made forthwith by any of the others to the person presiding over the meeting. For purposes of this subsection, "person" is deemed to include any natural person having authority to execute deeds on behalf of any person, excluding natural persons, that is, either alone or in conjunction with another person, a unit owner.

D. The votes appertaining to any unit may be cast pursuant to a proxy duly executed by or on behalf of the unit owner, or, in cases where the unit owner is more than one person, by or on behalf of all such unit owners. No such proxy shall be revocable except by actual notice to the person presiding over the meeting, by the unit owner or by any of such persons, that it be revoked. Except to the extent otherwise provided in the condominium instruments, any proxy is void if it is not dated, or if it purports to be revocable without the required notice. Any proxy shall be void if not signed by or on behalf of the unit owner. If the unit owner is more than one person, any such unit owner may object to the proxy at or prior to the meeting, whereupon the proxy shall be deemed revoked. Any proxy shall terminate after the first meeting held on or after the date of that proxy or any recess or adjournment of that meeting. The proxy shall include a brief explanation of the effect of leaving the proxy uninstructed. ~~To the extent the condominium instruments or the condominium's rules and regulations expressly so provide, a vote or proxy may be submitted by electronic means, provided that any such electronic means shall either set forth or be submitted with information from which it can be determined that the electronic means was authorized by the unit owner or the unit owner's proxy.~~

E. *Unless expressly prohibited by the condominium instruments, a unit owner may vote at a meeting of the unit owners' association in person, by proxy, or by absentee ballot. Such voting may take place by electronic means, provided that the executive board has adopted guidelines for such voting by electronic means. Unit owners voting by absentee ballot or proxy shall be deemed to be present at the meeting for all purposes.*

F. If 50 percent or more of the votes in the unit owners' association appertain to 25 percent or less of the units, then in any case where a majority vote is required by the condominium instruments or by this chapter, the requirement for such a majority shall be deemed to include, in addition to the specified majority of the votes, assent by the unit owners of a like majority of the units.

F. G. All votes appertaining to units owned by the unit owners' association shall be deemed present for quorum purposes at all duly called meetings of the unit owners' association and shall be deemed cast in the same proportions as the votes cast by unit owners other than the unit owners' association.

G. H. Except to the extent that the condominium instruments provide otherwise, the voting interest allocated to the unit or member that has been suspended by the unit owners' association or the executive board pursuant to the condominium instruments shall not be counted in the total number of voting interests used to determine the quorum for any meeting or vote under the condominium instruments.

CHAPTER 10

An Act to amend and reenact § 55.1-703 of the Code of Virginia, relating to the Virginia Residential Property Disclosure Act; required disclosures for buyer to beware; mold.

[H 1824]

Approved February 25, 2021

Be it enacted by the General Assembly of Virginia:

1. That § 55.1-703 of the Code of Virginia is amended and reenacted as follows:

§ 55.1-703. Required disclosures for buyer to beware; buyer to exercise necessary due diligence.

Such statement shall be provided by the Real Estate Board on its website.

B. The residential property disclosure statement provided by the Real Estate Board on its website shall include the following:

1. The owner makes no representations or warranties as to the condition of the real property or any improvements thereon, or with regard to any covenants and restrictions, or any conveyances of mineral rights, as may be recorded among the land records affecting the real property or any improvements thereon, and purchasers are advised to exercise whatever due diligence a particular purchaser deems necessary, including obtaining a home inspection, as defined in § 54.1-500, *a mold assessment conducted by a business that follows the guidelines provided by the U.S. Environmental Protection Agency*, and a residential building energy analysis, as defined in § 54.1-1144, in accordance with terms and conditions as may be contained in the real estate purchase contract, but in any event prior to settlement pursuant to such contract;

2. 3. The owner makes no representations to any matters that pertain to whether the provisions of any historic district ordinance affect the property, and purchasers are advised to exercise whatever due diligence a particular purchaser deems necessary with respect to any historic district designated by the locality pursuant to § 15.2-2306, including review of (i) any local ordinance creating such district, (ii) any official map adopted by the locality depicting historic districts, and (iii) any materials available from the locality that explain (a) any requirements to alter, reconstruct, renovate, restore, or demolish buildings or signs in the local historic district and (b) the necessity of any local review board or governing body approvals prior to doing any work on a property located in a local historic district, in accordance with terms and conditions as may be contained in the real estate purchase contract, but in any event prior to settlement pursuant to such contract;

4. The owner makes no representations with respect to whether the property contains any resource protection areas established in an ordinance implementing the Chesapeake Bay Preservation Act (§ 62.1-44.15:67 et seq.) adopted by the locality where the property is located pursuant to § 62.1-44.15:74, and purchasers are advised to exercise whatever due diligence a particular purchaser deems necessary to determine whether the provisions of any such ordinance affect the property, including review of any official map adopted by the locality depicting resource protection areas, in accordance with terms and conditions as may be contained in the real estate purchase contract, but in any event prior to settlement pursuant to such contract;

5. The owner makes no representations with respect to information on any sexual offenders registered under Chapter 23 (§ 19.2-387 et seq.) of Title 19.2, and purchasers are advised to exercise whatever due diligence they deem necessary with respect to such information, in accordance with terms and conditions as may be contained in the real estate purchase contract, but in any event prior to settlement pursuant to such contract;

6. The owner makes no representations with respect to whether the property is within a dam break inundation zone. § 2.2-3902. Construction of chapter; other programs to aid persons with disabilities, minors, and the elderly.

The provisions of this chapter shall be construed liberally for the accomplishment of its policies.

Conduct that violates any Virginia or federal statute or regulation governing discrimination on the basis of race, color, religion, sex, sexual orientation, gender identity, marital status, pregnancy, childbirth or related medical conditions including lactation, age, status as a veteran, *disability*, or national origin is an unlawful discriminatory practice under this chapter.

Nothing in this chapter shall prohibit or alter any program, service, facility, school, or privilege that is afforded, oriented, or restricted to a person because of disability or age from continuing to habilitate, rehabilitate, or accommodate that person.

In addition, nothing in this chapter shall be construed to affect any governmental program, law or activity differentiating between persons on the basis of age over the age of 18 years (i) where the differentiation is reasonably necessary to normal operation or the activity is based upon reasonable factors other than age or (ii) where the program, law or activity constitutes a legitimate exercise of powers of the Commonwealth for the general health, safety and welfare of the population at large.

over the complaint. The Division shall have no jurisdiction over any complaint filed under a local ordinance adopted pursuant to § 15.2-965.

§ 2.2-3905. Nondiscrimination in employment; definitions; exceptions.

A. As used in this section:

b. Limit, segregate, or classify employees or applicants for employment in any way that would deprive or tend to deprive any individual of employment opportunities or otherwise adversely affect an individual's status as an employee, because of such individual's race, color, religion, sex, sexual orientation, gender identity, marital status, pregnancy, childbirth or related medical conditions including lactation, age, status as a veteran, *disability*, or national origin.

2. An employment agency to:

a. Fail or refuse to refer for employment, or otherwise discriminate against, any individual because of such individual's race, color, religion, sex, sexual orientation, gender identity, marital status, pregnancy, childbirth or related medical conditions, age, status as a veteran, *disability*, or national origin; or

b. Classify or refer for employment any individual on the basis of such individual's race, color, religion, sex, sexual orientation, gender identity, marital status, pregnancy, childbirth or related medical conditions, age, status as a veteran, *disability*, or national origin.

b. Limit, segregate, or classify its membership or applicants for membership, or classify or fail to or refuse to refer for employment any individual, in any way that would deprive or tend to deprive such individual of employment opportunities, or would limit such employment opportunities or otherwise adversely affect an individual's status as an employee or as an applicant for employment, because of such individual's race, color, religion, sex, sexual orientation, gender identity, marital status, pregnancy, childbirth or related medical conditions, age, status as a veteran, *disability*, or national origin; or

c. Cause or attempt to cause an employer to discriminate against an individual in violation of subdivisions a or b.

4. An employer, labor organization, or joint apprenticeship committee to discriminate against any individual in any program to provide apprenticeship or other training program on the basis of such individual's race, color, religion, sex, sexual orientation, gender identity, pregnancy, childbirth or related medical conditions, age, status as a veteran, *disability*, or national origin.

5. An employer, in connection with the selection or referral of applicants or candidates for employment or promotion, to adjust the scores of, use different cutoff scores for, or otherwise alter the results of employment-related tests on the basis of race, color, religion, sex, sexual orientation, gender identity, marital status, pregnancy, childbirth or related medical conditions, age, status as a veteran, *disability*, or national origin.

6. Except as otherwise provided in this chapter, an employer to use race, color, religion, sex, sexual orientation, gender identity, marital status, pregnancy, childbirth or related medical conditions, age, status as a veteran, *disability*, or national origin as a motivating factor for any employment practice, even though other factors also motivate the practice.

7. (i) An employer to discriminate against any employees or applicants for employment, (ii) an employment agency or a joint apprenticeship committee controlling an apprenticeship or other training program to discriminate against any individual, or (iii) a labor organization to discriminate against any member thereof or applicant for membership because such individual has opposed any practice made an unlawful ~~employment~~ *discriminatory* practice by this chapter or because such individual has made a charge, testified, assisted, or participated in any manner in an investigation, proceeding, or hearing under this chapter.

8. An employer, labor organization, employment agency, or joint apprenticeship committee controlling an apprenticeship or other training program to print or publish, or cause to be printed or published, any notice or advertisement relating to (i) employment by such an employer, (ii) membership in or any classification or referral for employment by such a labor organization, (iii) any classification or referral for employment by such an employment agency, or (iv) admission to, or employment in, any program established to provide apprenticeship or other training by such a joint apprenticeship committee that indicates any preference, limitation, specification, or discrimination based on race, color, religion, sex, sexual orientation, gender identity, marital status, pregnancy, childbirth or related medical conditions, age, status as a veteran, *disability*, or national origin, except that such a notice or advertisement may indicate a preference, limitation, specification, or discrimination based on religion, sex, age, or national origin when religion, sex, age, or national origin is a bona fide occupational qualification for employment.

C. Notwithstanding any other provision of this chapter, it is not an unlawful ~~employment~~ *discriminatory* practice:

1. For (i) an employer to hire and employ employees; (ii) an employment agency to classify, or refer for employment, any individual; (iii) a labor organization to classify its membership or to classify or refer for employment any individual; or (iv) an employer, labor organization, or joint apprenticeship committee to admit or employ any individual in any apprenticeship or other training program on the basis of such individual's religion, sex, or age in those certain instances where religion, sex, or age is a bona fide occupational qualification reasonably necessary to the normal operation of that particular employer, employment agency, labor organization, or joint apprenticeship committee;

2. For an elementary or secondary school or institution of higher education to hire and employ employees of a particular religion if such elementary or secondary school or institution of higher education is, in whole or in substantial part, owned, supported, controlled, or managed by a particular religion or by a particular religious corporation, association, or society or if the curriculum of such elementary or secondary school or institution of higher education is directed toward the propagation of a particular religion;

3. For an employer to apply different standards of compensation, or different terms, conditions, or privileges of employment, pursuant to a bona fide seniority or merit system, or a system that measures earnings by quantity or quality of production, or to employees who work in different locations, provided that such differences are not the result of an intention to discriminate because of race, color, religion, sex, sexual orientation, gender identity, marital status, pregnancy, childbirth or related medical conditions, age, status as a veteran, *disability*, or national origin;

4. For an employer to give and to act upon the results of any professionally developed ability test, provided that such test, its administration, or an action upon the results is not designed, intended, or used to discriminate because of race, color, religion, sex, sexual orientation, gender identity, marital status, pregnancy, childbirth or related medical conditions, age, status as a veteran, *disability*, or national origin;

5. For an employer to provide reasonable accommodations related to *disability*, pregnancy, childbirth or related medical conditions, and lactation, when such accommodations are requested by the employee; or

6. For an employer to condition employment or premises access based upon citizenship where the employer is subject to any requirement imposed in the interest of the national security of the United States under any security program in effect pursuant to or administered under any statute or regulation of the federal government or any executive order of the President of the United States.

D. Nothing in this chapter shall be construed to require any employer, employment agency, labor organization, or joint apprenticeship committee to grant preferential treatment to any individual or to any group because of such individual's or group's race, color, religion, sex, sexual orientation, gender identity, marital status, pregnancy, childbirth or related medical conditions, age, status as a veteran, *disability*, or national origin on account of an imbalance that may exist with respect to the total number or percentage of persons of any race, color, religion, sex, sexual orientation, gender identity, marital status, pregnancy, childbirth or related medical conditions, age, status as a veteran, *disability*, or national origin employed by any employer, referred or classified for employment by any employment agency or labor organization, admitted to membership or classified by any labor organization, or admitted to or employed in any apprenticeship or other training program, in comparison with the total number or percentage of persons of such race, color, religion, sex, sexual orientation, gender identity, marital status, pregnancy, childbirth or related medical conditions, age, status as a veteran, *disability*, or national origin in any community.

E. The provisions of this section shall not apply to the employment of individuals of a particular religion by a religious corporation, association, educational institution, or society to perform work associated with its activities.

§ 2.2-3905.1. Reasonable accommodations for persons with disabilities; unlawful discriminatory practice; notice of rights.

A. As used in this section:

"Employer" means any person, or agent of such person, employing more than five employees for each working day in each of 20 or more calendar weeks in the current or preceding calendar year.

"Person with a disability" means the term as defined in § 51.5-40.1.

"Physical impairment" means the term as defined in § 51.5-40.1.

"Mental impairment" means the term as defined in § 51.5-40.1.

"Otherwise qualified person with a disability" means the term as defined in subsection A of § 51.5-41.

B. It shall be an unlawful discriminatory practice for an employer to:

1. Refuse to make reasonable accommodation to the known physical and mental impairments of an otherwise qualified person with a disability, if necessary to assist such person in performing a particular job, unless the employer can demonstrate that the accommodation would impose an undue hardship on the employer. In determining whether an accommodation would constitute an undue hardship upon the employer, the following shall be considered:

a. Hardship on the conduct of the employer's business, considering the nature of the employer's operation, including composition and structure of the employer's workforce;

b. Size of the facility where employment occurs;

c. The nature and cost of the accommodations needed, taking into account alternative sources of funding or technical assistance included under § 51.5-173;

d. The possibility that the same accommodations may be used by other prospective employees; and

e. Safety and health considerations of the person with a disability, other employees, and the public.

2. Take adverse action against an employee who requests or uses a reasonable accommodation pursuant to this section.

3. Deny employment or promotion opportunities to an otherwise qualified applicant or employee because such employer will be required to make reasonable accommodation for a person with a disability.

4. Require an employee to take leave if another reasonable accommodation can be provided to the known limitations related to the disability.

5. Fail to engage in a timely, good faith interactive process with an employee who has requested an accommodation pursuant to this section to determine if the requested accommodation is reasonable and, if such accommodation is determined not to be reasonable, discuss alternative accommodations that may be provided.

C. An employer shall post in a conspicuous location and include in any employee handbook information concerning an employee's rights to reasonable accommodation for disabilities. Such information shall also be directly provided to (i) new employees upon commencement of their employment and (ii) any employee within 10 days of such employee's providing notice to the employer that such employee has a disability.

§ 51.5-41. Discrimination against otherwise qualified persons with disabilities by employers prohibited.

A. No employer shall discriminate in employment or promotion practices against an otherwise qualified person with a disability solely because of such disability. For the purposes of this section, an "otherwise qualified person with a disability" means a person qualified to perform the ~~duties of a particular job or position and whose disability is unrelated to the person's ability to perform such duties or position or is unrelated to the person's qualifications for employment or promotion essential functions of a job with or without reasonable accommodations.~~

B. It is the policy of the Commonwealth that persons with disabilities shall be employed in the state service, the service of the political subdivisions of the Commonwealth, in the public schools, and in all other employment supported in whole or in part by public funds on the same terms and conditions as other persons unless it is shown that the particular disability prevents the performance of the work involved.

C. An employer shall make reasonable accommodation to the known physical and mental impairments of an otherwise qualified person with a disability, if necessary to assist such person in performing a particular job, unless the employer can demonstrate that the accommodation would impose an undue burden on the employer. For the purposes of this section, "mental impairment" does not include active alcoholism or current drug addiction and does not include any mental impairment, disease, or defect that has been successfully asserted by an individual as a defense to any criminal charge.

1. In determining whether an accommodation would constitute an undue burden upon the employer, the following shall be considered:

a. Hardship on the conduct of the employer's business, considering the nature of the employer's operation, including composition and structure of the employer's work force;

b. Size of the facility where employment occurs;

c. The nature and cost of the accommodations needed, taking into account alternate sources of funding or technical assistance included under § 51.5-173;

d. The possibility that the same accommodations may be used by other prospective employees;

e. Safety and health considerations of the person with a disability, other employees, and the public.

2. ~~Notwithstanding the foregoing, any accommodation that would exceed \$500 in cost shall be rebuttably presumed to impose an undue burden upon any employer with fewer than 50 employees.~~

~~3. The employer has the right to choose among equally effective accommodations.~~

3. Nothing in this section shall require accommodations when the authority to make such accommodations is precluded under the terms of a lease or otherwise prohibited by statute, ordinance, or other regulation.

4. Building modifications made for the purposes of such reasonable accommodation may be made without requiring the remainder of the existing building to comply with the requirements of the Uniform Statewide Building Code.

D. Nothing in this section shall prohibit an employer from refusing to hire or promote, from disciplining, transferring, or discharging or taking any other personnel action pertaining to an applicant or an employee who, because of his disability, is unable to adequately perform his duties, or cannot perform such duties in a manner which would not endanger his health or safety or the health or safety of others. Nothing in this section shall subject an employer to any legal liability resulting from the refusal to employ or promote or from the discharge, transfer, discipline of, or the taking of any other personnel action pertaining to a person with a disability who, because of his disability, is unable to adequately perform his duties, or cannot perform such duties in a manner that would not endanger his health or safety or the health or safety of others.

E. Nothing in this section shall be construed as altering the provisions of the Virginia Minimum Wage Act (§ 40.1-28.8 et seq.).

F. This section shall not apply to employers covered by the federal Rehabilitation Act of 1973.

~~G. No employer who has hired any person because of the requirements of this section shall be liable for any alleged negligence in such hiring.~~

2. That the Division of Human Rights of the Department of Law shall develop and publish the notice required by subsection C of § 2.2-3905.1 of the Code of Virginia, as created by this act, within 120 days of the effective date of this act.

The foregoing provision shall not apply to any amendment, modification, supplement, or restatement of such loan document if (i) the deed of trust securing such loan document conveys an interest in residential real estate containing not more than one dwelling unit or (ii) such amendment, modification, supplement, or restatement of such loan document (a) increases the aggregate amount of the principal of the indebtedness secured by the original deed of trust, (b) changes or substitutes the noteholder, lender, or agent of any lender named in the original loan document, or (c) extends the maturity date of the indebtedness or obligation secured if such maturity date was set forth in the original deed of trust, and the effect of any such amendment, modification, supplement, or restatement shall be governed by the law that would otherwise apply without regard to this section. For the purposes of this section, "loan document" includes a note, loan agreement, credit agreement, or other document evidencing a loan or other indebtedness.

The regulations shall also establish procedures for the retainage and ultimate distribution of any unclaimed prize.

12. Prescribe the conditions under which a qualified organization may manage, operate or contract with operators of, or conduct Texas Hold'em poker tournaments.

B. In addition to the powers and duties granted pursuant to § 2.2-2456 and this article, the Board may, by regulation, approve variations to the card formats for bingo games provided such variations result in bingo games that are conducted in a manner consistent with the provisions of this article. [H 1944]

Approved February 25, 2021

Be it enacted by the General Assembly of Virginia:

1. That § 58.1-4110 of the Code of Virginia is amended and reenacted as follows:

§ 58.1-4110. Issuance of operator's license to preferred casino gaming operator; standards for licensure; temporary casino gaming allowed under certain conditions.

A. If a preferred casino gaming operator, as certified by the applicable eligible host city, submits an application that meets the standards for licensure set forth in this article, the Board shall issue an operator's license to such preferred casino gaming operator. The Board shall not consider an application from any applicant that has not been certified as a preferred casino gaming operator by an eligible host city.

B. The Board may issue an operator's license to an applicant only if it finds that:

1. The applicant submits a plan for addressing responsible gaming issues, including the goals of the plan, procedures, and deadlines for implementation of the plan;

2. *The applicant has established a policy requiring all license and permit holders who interact directly with the public in the casino gaming establishment to complete a training course acceptable to the Department in how to recognize and report suspected human trafficking;*

3. The casino gaming establishment the applicant proposes to use on a permanent basis is or will be appropriate for gaming operations consistent with the purposes of this chapter;

7. 8. If the applicant is an entity, it has the right to purchase at fair market value the securities of, and require the resignation of, any person who is or becomes disqualified under subsection C;

8. 9. The applicant meets any other criteria established by this chapter and the Board's regulations for the granting of an operator's license;

9. 10. The applicant is qualified to do business in Virginia or is subject to the jurisdiction of the courts of the Commonwealth; and

10. 11. The applicant has not previously been denied a license pursuant to subsection C.

C. The Board shall deny a license to an applicant if it finds that for any reason the issuance of a license to the applicant would reflect adversely on the honesty and integrity of the casino gaming industry in the Commonwealth or that the applicant, or any officer, principal, manager, or director of the applicant:

1. Is or has been guilty of any illegal act, conduct, or practice in connection with gaming operations in this or any other state or has been convicted of a felony;

3. The temporary casino gaming is to be conducted at the same site referenced in the referendum held pursuant to § 58.1-4123.

4. The preferred casino gaming operator has secured suppliers and employees holding the appropriate permits required by this chapter and sufficient for the routine operation of the site where the temporary casino gaming is authorized.

5. A performance bond is posted in an amount acceptable to the Board.

G. No portion of any facility developed with the assistance of any grants or loans provided by a redevelopment and housing authority created pursuant to § 36-4 shall be used as a casino gaming establishment.

The Department may renew the authorization to conduct temporary casino gaming for an additional year if it determines that the preferred casino gaming operator has made a good faith effort to comply with the approved construction schedule.

CHAPTER 16

[H 1967]

1. That § 2.2-2240.3 of the Code of Virginia is amended and reenacted as follows:

§ 2.2-2240.3. Definitions; Virginia Jobs Investment Program and Fund; composition; general qualifications.

A. As used in this section and §§ 2.2-2240.4, 2.2-2240.5, and 2.2-2240.6, unless the context requires a different meaning:

"Capital investment" means an investment in real property, personal property, or both, at a manufacturing or basic nonmanufacturing facility within the Commonwealth that is or may be capitalized by the company and that establishes or

increases the productivity of the manufacturing facility, results in the utilization of a more advanced technology than is in use immediately prior to such investment, or both.

"Full-time employee" means a natural person employed for indefinite duration in a position requiring a minimum of either (i) 35 hours of the employee's time per week for the entire normal year, which "normal year" shall consist of at least 48 weeks, or (ii) 1,680 hours per year. Seasonal or temporary employees shall not qualify as new full-time employees under the Program.

"Fund" means the Virginia Jobs Investment Program Fund created in this section.

"Program" means the Virginia Jobs Investment Program created in this section.

B. There is hereby created the Virginia Jobs Investment Program to support private sector job creation by encouraging the expansion of existing Virginia businesses and the start-up of new business operations in Virginia. The Program shall support existing businesses and economic development prospects by offering funding to offset recruiting and training and retraining costs incurred by companies that are either creating new jobs or implementing technological upgrades and by providing assistance with workforce-related challenges and organizational development workshops.

C. The Program shall consist of the following component programs:

1. The Virginia New Jobs Program;
2. The Workforce Retraining Program; and
3. The Small Business New Jobs and Retraining Programs.

D. To be eligible for assistance under any of the component programs of the Program, a company shall:

1. Create or sustain employment for the Commonwealth in a basic sector industry or function, which would include businesses or functions that directly or indirectly derive more than 50 percent of their revenues from out-of-state sources, as determined by the Authority;

2. Pay a minimum entry-level wage rate per hour of at least ~~1.35~~ *1.2* times the federal minimum wage *or the Virginia minimum wage, as required by the Virginia Minimum Wage Act (§ 40.1-28.8 et seq.), whichever is higher.* In areas that have an unemployment rate of one and one-half times the statewide average unemployment rate, the wage rate minimum may be waived by the Authority. Only full-time positions that qualify for benefits shall be eligible for assistance;

3. Meet such additional criteria as may be set forth by the Authority.

E. There is hereby established in the state treasury a special nonreverting fund to be known as the Virginia Jobs Investment Program Fund (the Fund). The Fund shall consist of any moneys appropriated thereto by the General Assembly from time to time and designated for the Fund. Any moneys deposited to or remaining in the Fund during or at the end of each fiscal year or biennium, including interest thereon, shall not revert to the general fund but shall remain in the Fund and be available for allocation under this article in ensuing fiscal years. Moneys in the Fund shall be used solely for grants to eligible businesses as permitted by the Program. The total amount of funds provided to eligible businesses under the Program for any year, shall not exceed the amount appropriated by the General Assembly to the Fund for such year, plus any carryover from previous years. Expenditures and disbursements from the Fund shall be made by the State Treasurer on warrants issued by the Comptroller upon written request signed by the President and Chief Executive Officer or his designee. The Fund shall be administered by the President and Chief Executive Officer.

CHAPTER 17

An Act to amend and reenact § 36-96.3:2 of the Code of Virginia, relating to the Virginia Fair Housing Law; reasonable accommodations; disability-related requests for parking.

[H 1971]

Approved February 25, 2021

Be it enacted by the General Assembly of Virginia:

1. That § 36-96.3:2 of the Code of Virginia is amended and reenacted as follows:

§ 36-96.3:2. Reasonable accommodations; interactive process.

A. When a request for a reasonable accommodation establishes that such accommodation is necessary to afford a person with a disability, and who has a disability-related need, an equal opportunity to use and enjoy a dwelling and does not impose either (i) an undue financial and administrative burden or (ii) a fundamental alteration to the nature of the operations of the person receiving the request, the request for the accommodation is reasonable and shall be granted.

B. *When a person receives a request for accessible parking to accommodate a disability, the person receiving the request shall treat such request as a request for reasonable accommodation as provided by this chapter.*

C. When a request for a reasonable accommodation may impose either (i) an undue financial and administrative burden or (ii) a fundamental alteration to the nature of the operations of the person receiving the request, the person receiving the request shall offer to engage in a good-faith interactive process to determine if there is an alternative accommodation that would effectively address the disability-related needs of the requester. An interactive process is not required when the requester does not have a disability and a disability-related need for the requested accommodation. As part of the interactive process, unless the reasonableness and necessity for the accommodation has been established by the requester, a request may be made for additional supporting documentation to evaluate the reasonableness of either the requested accommodation or any identified alternative accommodations. If an alternative accommodation is identified that effectively

meets the requester's disability-related needs and is reasonable, the person receiving the reasonable accommodation request shall make the effective alternative accommodation. However, the requester shall not be required to accept an alternative accommodation if the requested accommodation is also reasonable. The various factors to be considered for determining whether an accommodation imposes an undue financial and administrative burden include (a) the cost of the requested accommodation, including any substantial increase in the cost of the owner's insurance policy; (b) the financial resources of the person receiving the request; (c) the benefits that the accommodation would provide to the person with a disability; and (d) the availability of alternative accommodations that would effectively meet the requester's disability-related needs.

C. D. A request for a reasonable accommodation shall be determined on a case-by-case basis and may be denied if (i) the person on whose behalf the request for an accommodation was submitted is not disabled; (ii) there is no disability-related need for the accommodation; (iii) the accommodation imposes an undue financial and administrative burden on the person receiving the request; or (iv) the accommodation would fundamentally alter the nature of the operations of the person receiving the request. With respect to a request for reasonable accommodation to maintain an assistance animal in a dwelling, the requested assistance animal shall (a) work, provide assistance, or perform tasks or services for the benefit of the requester or (b) provide emotional support that alleviates one or more of the identified symptoms or effects of such requester's existing disability. In addition, as determined by the person receiving the request, the requested assistance animal shall not pose a clear and present threat of substantial harm to others or to the dwelling itself that is not solely based on breed, size, or type or cannot be reduced or eliminated by another reasonable accommodation.

CHAPTER 18

An Act to revert certain property upon which the Chamberlin Hotel at Fort Monroe is located to the Commonwealth and to repeal § 1 of Chapter 809 of the Acts of Assembly of 1998, as amended by Chapter 713 of the Acts of Assembly of 2004.

[H 2009]

Approved February 25, 2021

Be it enacted by the General Assembly of Virginia:

1. § 1. *That the property upon which a hotel known as the Chamberlin Hotel at Fort Monroe, Virginia, is located and that is leased to an operator for use as a senior living facility with an assisted living component shall revert to the Commonwealth subject to such lease or with such lease being assigned or otherwise conveyed to the Commonwealth by the United States.*

2. That § 1 of Chapter 809 of the Acts of Assembly of 1998, as amended by Chapter 713 of the Acts of Assembly of 2004, is repealed.

CHAPTER 19

An Act to amend and reenact § 22.1-98 of the Code of Virginia, relating to public schools; severe weather conditions and other emergency situations; unscheduled remote learning days.

[H 1790]

Approved February 25, 2021

Be it enacted by the General Assembly of Virginia:

1. That § 22.1-98 of the Code of Virginia is amended and reenacted as follows:

§ 22.1-98. Reduction of state aid when length of school term below 180 days or 990 hours.

A. For the purposes of this section:

~~1.~~ "Declared state of emergency" means the declaration of an emergency before or after an event, by the Governor or by officials in a locality, that requires the closure of any or all schools within a school division.

~~2.~~ "Severe weather conditions or other emergency situations" means those circumstances presenting a threat to the health or safety of students that result from severe weather conditions or other emergencies, including natural and man-made disasters, energy shortages, or power failures.

B. Except as provided in this section:

1. The length of every school's term in every school division shall be at least 180 teaching days or 990 teaching hours in any school year; and

2. If the length of the term of any school or the schools in a school division shall be less than 180 teaching days or 990 teaching hours in any school year, the amount paid by the Commonwealth from the Basic School Aid Fund shall, except as otherwise hereinafter provided or as otherwise provided by law, be reduced in the same proportion as the length of the school term has been reduced in any school or the schools in the school division from 180 teaching days or 990 teaching hours.

C. Notwithstanding the requirements of subsection B, in any case in which severe weather conditions or other emergency situations, ~~as defined in this section,~~ result in the closing of a school or the schools in a school division *or in an unscheduled remote learning day for a school or the schools in a school division*, the amount paid by the Commonwealth from the Basic School Aid Fund shall not be reduced if *one of the following schedule methods of make-up days, make-up hours, or unscheduled remote learning days, as appropriate in the circumstances,* is followed:

1. When severe weather conditions or other emergency situations have resulted in the closing of a school or the schools in a school division for five or fewer days, the school or the schools in the school division shall make up all missed days by adding teaching days to the school calendar or extending the length of the school day;

2. When severe weather conditions or other emergency situations have resulted in the closing of a school or the schools in a school division for six days or more, the school or the schools in the school division shall make up the first five days plus one day for each two days missed in excess of the first five by adding teaching days to the school calendar or extending the length of the school day; or

3. When severe weather conditions or other emergency situations have resulted in the closing of any school in a school division and such school has been unable to meet the 180 teaching day requirement, the school division may make up the missed teaching days by providing its students with instructional hours equivalent to such missed teaching days to meet the minimum 990 teaching hour requirement; or

4. *When severe weather conditions or other emergency situations have resulted in the closing of any school in a school division for in-person instruction, the school division may declare an unscheduled remote learning day whereby the school provides instruction and student services that are consistent with guidelines established by the Department of Education to ensure the equitable provision of such services. No school division shall claim more than 10 unscheduled remote learning days in a school year unless the Superintendent of Public Instruction grants an extension.*

D. The local appropriations for educational purposes necessary to fund 180 teaching days or 990 teaching hours shall also not be proportionally reduced by any local governing body because of any reduction in the length of the term of any school or the schools in a school division authorized by subsection C.

E. The foregoing provisions of this section notwithstanding, the Board of Education may waive the requirement that school divisions provide additional teaching days or teaching hours to compensate for school closings resulting from a declared state of emergency or severe weather conditions or other emergency situations. If the local school board desires a waiver, it shall submit a request to the Board of Education. The request shall include evidence of efforts that have been made by the school division to reschedule as many days as possible and certification by the division superintendent and chairman of the local school board that every reasonable effort for making up lost teaching days or teaching hours was exhausted before requesting a waiver of this requirement. If the waiver is denied, the school division shall make up the missed instructional time in accordance with this section.

If the Board grants such a waiver, there shall be no proportionate reduction in the amount paid by the Commonwealth from the Basic School Aid Fund. Further, the local appropriations for educational purposes necessary to fund 180 teaching days or 990 teaching hours shall not be proportionally reduced by any local governing body due to any reduction in the length of the term of any school or the schools in a school division permitted by such waiver.

F. Notwithstanding the provisions of this section, the Board of Education shall waive the requirement that school divisions provide additional teaching days or teaching hours to compensate for school closings resulting from an evacuation directed and compelled by the Governor pursuant to § 44-146.17 for up to five teaching days. If the local school board desires such a waiver, it shall notify the Board of Education and provide evidence of efforts that have been made by the school division to reschedule as many days as possible and certification by the division superintendent and chairman of the local school board that every reasonable effort for making up lost teaching days or teaching hours was exhausted. After receiving such notification, the Board shall grant the waiver and there shall be no proportionate reduction in the amount paid by the Commonwealth from the Basic School Aid Fund. Further, the local appropriations for educational purposes necessary to fund 180 teaching days or 990 teaching hours shall not be proportionally reduced by any local governing body due to any reduction in the length of the term of any school or the schools in a school division permitted by such waiver.

G. If the professional personnel of any such school division actually render service for less than the contracted period for such school year and their compensation is reduced because of insufficient funds or other reason, the proportionate amount paid by the Commonwealth for the personnel component of the Basic School Aid Fund for such school year shall be reduced pro rata.

Notwithstanding any provision of law to the contrary, the school board of any school division in which the length of the term for any school or for the schools in the school division is reduced as provided in this section may pay its professional personnel such salary as they would have received if the term had not been so reduced.

H. In developing the school calendar as provided for in § 22.1-79.1, each local school board shall establish such calendars and teaching contracts in accordance with applicable regulations of the Board of Education to include contingencies for making up teaching days and teaching hours missed for emergency situations described in this section. Historical data shall be used to determine the needs of the locality including scheduled holidays and breaks and work days.

I. The Board of Education may authorize the Superintendent of Public Instruction to approve, in compliance with this section, reductions in the school term for a school or the schools in a school division without a proportionate reduction in the amount paid by the Commonwealth from the Basic School Aid Fund.

J. With the exception of the Basic School Aid Fund as provided for above, the Commonwealth shall not distribute funds to a locality for costs not incurred when the school term is reduced below 180 teaching days or 990 teaching hours.

K. As part of the annual report required by § 22.1-81, the division superintendent and local school board chairman shall certify the total number of teaching days and teaching hours each year.

F. The Board shall issue a license to an individual seeking initial licensure who has not completed professional assessments as prescribed by the Board, if such individual (i) holds a provisional license that will expire within three months or, at the discretion of the school board and division superintendent, within six months if the individual has received a satisfactory mid-year performance review in the current school year; (ii) is employed by a school board; (iii) is recommended for licensure by the division superintendent; (iv) has attempted, unsuccessfully, to obtain a qualifying score on the professional assessments as prescribed by the Board; (v) has received an evaluation rating of proficient or above on the performance standards for each year of the provisional license, and such evaluation was conducted in a manner consistent with the Guidelines for Uniform Performance Standards and Evaluation Criteria for Teachers, Principals, and Superintendents; and (vi) meets all other requirements for initial licensure.

L. The Board shall include in its regulations an alternate route to licensure for elementary education preK-6 and an alternate route to licensure for special education general curriculum K-12. Each such alternate route to licensure shall require individuals to (i) meet the qualifying scores on the content area assessment prescribed by the Board for the endorsements sought and (ii) complete an alternative certification program that provides training in the pedagogy and methodology of the respective content or special education areas prescribed by the Board. The curriculum of any such alternative certification program shall be approved by the Board. Nothing in this subsection shall preclude the Board from establishing other alternate routes to licensure.

M. The Board, in its regulations providing for licensure by reciprocity established pursuant to subsection K, shall (i) permit applicants to submit third-party employment verification forms and (ii) grant special consideration to individuals who have successfully completed a program offered by a provider that is accredited by the Council for the Accreditation of Educator Preparation.

N. Any such alternate route may include alternatives to the regulatory requirements for teacher preparation, including alternative professional assessments and coursework. The petitioner may proffer or the Board may impose conditions in conjunction with the approval of such petition.

Nothing in this subsection shall preclude the Board from establishing other alternate routes to licensure.

M. The Board, in its regulations providing for licensure by reciprocity established pursuant to subsection K, shall (i) permit applicants to submit third-party employment verification forms and (ii) grant special consideration to individuals who have successfully completed a program offered by a provider that is accredited by the Council for the Accreditation of Educator Preparation.

N. The Board shall develop guidelines that establish a process to permit a school board or any organization sponsored by a school board to petition the Board for approval of an alternate route to licensure that may be used to meet the requirements for a provisional or renewable license or any endorsement. Any such alternate route may include alternatives to the regulatory requirements for teacher preparation, including alternative professional assessments and coursework. The petitioner may proffer or the Board may impose conditions in conjunction with the approval of such petition.

§ 22.1-298.7. Teachers and other licensed school board employees; cultural competency training.

Each school board shall adopt and implement policies that require each teacher and any other school board employee holding a license issued by the Board to complete cultural competency training, in accordance with guidance issued by the Board, at least every two years.

2. That no later than December 31, 2021, the Board of Education shall issue guidance that establishes minimum standards for the cultural competency training required pursuant to § 22.1-298.7 of the Code of Virginia, as created by this act.

3. That each school board employee who is required to complete a cultural competency training pursuant to § 22.1-298.7 of the Code of Virginia, as created by this act, shall complete at least one such training no later than the beginning of the 2022–2023 school year.

Every public school shall provide the parents of enrolled students with at least 24 hours' notice before the school conducts any lock-down drill, provided, however, that nothing in this section shall be construed to require such notice to include the exact date and time of the lock-down drill.

B. Pre-kindergarten and kindergarten students shall be exempt from mandatory participation in lock-down drills during the first 60 days of the school session. Local school boards shall develop policies to implement such exemption. Notwithstanding the foregoing provisions of this subsection, each pre-kindergarten and kindergarten student shall participate in each lock-down drill after the first 60 days of each school session.

CHAPTER 27

An Act to amend and reenact § 44-146.19 of the Code of Virginia, relating to Emergency Services and Disaster Law; local and interjurisdictional emergency operations plans.

[H 2085]

Approved February 25, 2021

Be it enacted by the General Assembly of Virginia:

1. That § 44-146.19 of the Code of Virginia is amended and reenacted as follows:

§ 44-146.19. Powers and duties of political subdivisions.

A. Each political subdivision within the Commonwealth shall be within the jurisdiction of and served by the Department of Emergency Management and be responsible for local disaster mitigation, preparedness, response, and recovery. Each political subdivision shall maintain in accordance with state disaster preparedness plans and programs an agency of emergency management which, except as otherwise provided under this chapter, has jurisdiction over and services the entire political subdivision.

B. Each political subdivision shall have a director of emergency management who, after the term of the person presently serving in this capacity has expired and in the absence of an executive order by the Governor, shall be the following:

1. In the case of a city, the mayor or city manager, who shall appoint a coordinator of emergency management with consent of council;

2. In the case of a county, a member of the board of supervisors selected by the board or the chief administrative officer for the county, who shall appoint a coordinator of emergency management with the consent of the governing body;

3. A coordinator of emergency management shall be appointed by the council of any town to ensure integration of its organization into the county emergency management organization;

4. In the case of the Towns of Chincoteague and West Point and of towns with a population in excess of 5,000 having an emergency management organization separate from that of the county, the mayor or town manager shall appoint a coordinator of emergency services with consent of council;

5. In Smyth County and in York County, the chief administrative officer for the county shall appoint a director of emergency management, with the consent of the governing body, who shall appoint a coordinator of emergency management with the consent of the governing body.

C. Whenever the Governor has declared a state of emergency, each political subdivision within the disaster area may, under the supervision and control of the Governor or his designated representative, control, restrict, allocate, or regulate the use, sale, production, and distribution of food, fuel, clothing, and other commodities, materials, goods, services, and resource systems which fall only within the boundaries of that jurisdiction and which do not impact systems affecting adjoining or other political subdivisions, enter into contracts and incur obligations necessary to combat such threatened or actual disaster, protect the health and safety of persons and property, and provide emergency assistance to the victims of such disaster. In exercising the powers vested under this section, under the supervision and control of the Governor, the political subdivision may proceed without regard to time-consuming procedures and formalities prescribed by law (except mandatory constitutional requirements) pertaining to the performance of public work, entering into contracts, incurring of obligations, employment of temporary workers, rental of equipment, purchase of supplies and materials, levying of taxes, and appropriation and expenditure of public funds.

D. The director of each local organization for emergency management may, in collaboration with (i) other public and private agencies within the Commonwealth or (ii) other states or localities within other states, develop or cause to be developed mutual aid arrangements for reciprocal assistance in case of a disaster too great to be dealt with unassisted. Such arrangements shall be consistent with state plans and programs and it shall be the duty of each local organization for emergency management to render assistance in accordance with the provisions of such mutual aid arrangements. Except where a mutual aid arrangement for reciprocal assistance exists between localities, no locality shall prohibit another locality from providing emergency medical services across local boundaries solely on the basis of financial considerations.

E. Each local and interjurisdictional agency shall prepare and keep current a local or interjurisdictional emergency operations plan for its area. The plan shall include, but not be limited to, responsibilities of all local agencies and shall establish a chain of command, and a provision that the Department of Criminal Justice Services and the Virginia Criminal Injuries Compensation Fund shall be contacted immediately to deploy assistance in the event of an emergency as defined in the emergency response plan when there are victims as defined in § 19.2-11.01. The Department of Criminal Justice Services and the Virginia Criminal Injuries Compensation Fund shall be the lead coordinating agencies for those individuals determined to be victims, and the plan shall also contain current contact information for both agencies. *Such plan shall also contain provisions to ensure that the plan is applied equitably and that the needs of minority and vulnerable communities*

are met during emergencies. Every four years, each local and interjurisdictional agency shall conduct a comprehensive review and revision of its emergency operations plan to ensure that the plan remains current, and the revised plan shall be formally adopted by the locality's governing body. In the case of an interjurisdictional agency, the plan shall be formally adopted by the governing body of each of the localities encompassed by the agency. Each political subdivision having a nuclear power station or other nuclear facility within 10 miles of its boundaries shall, if so directed by the Department of Emergency Management, prepare and keep current an appropriate emergency plan for its area for response to nuclear accidents at such station or facility.

F. All political subdivisions shall provide (i) an annually updated emergency management assessment and (ii) data related to emergency sheltering capabilities, including emergency shelter locations, evacuation zones, capacity by person, medical needs capacity, current wind rating, standards compliance, backup power, and lead agency for staffing, to the State Coordinator of Emergency Management on or before May 1 of each year.

G. By July 1, 2005, all localities with a population greater than 50,000 shall establish an alert and warning plan for the dissemination of adequate and timely warning to the public in the event of an emergency or threatened disaster. The governing body of the locality, in consultation with its local emergency management organization, shall amend its local emergency operations plan that may include rules for the operation of its alert and warning system, to include sirens, Emergency Alert System (EAS), NOAA Weather Radios, or other personal notification systems, amateur radio operators, or any combination thereof.

H. Localities that have established an agency of emergency management shall have authority to require the review of, and suggest amendments to, the emergency plans of nursing homes, assisted living facilities, adult day care centers, and child day care centers that are located within the locality.

CHAPTER 28

An Act to amend and reenact § 22.1-205 of the Code of Virginia, relating to student driver education program; parent/student component exemption.

[H 2119]

Approved February 25, 2021

Be it enacted by the General Assembly of Virginia:

1. That § 22.1-205 of the Code of Virginia is amended and reenacted as follows:

§ 22.1-205. Driver education programs.

A. The Board of Education shall establish for the public school system a standardized program of driver education in the safe operation of motor vehicles. Such program shall consist of classroom training and behind-the-wheel driver training. However, any student who participates in such a program of driver education shall meet the academic requirements established by the Board, and no student in a course shall be permitted to operate a motor vehicle without a license or other document issued by the Department of Motor Vehicles under Chapter 3 (§ 46.2-300 et seq.) of Title 46.2, or the comparable law of another jurisdiction, authorizing the operation of a motor vehicle upon the highways.

1. The driver education program shall include (i) instruction concerning (a) alcohol and drug abuse; (b) aggressive driving; (c) distracted driving; (d) motorcycle awareness; (e) organ and tissue donor awareness; (f) fuel-efficient driving practices; and (g) traffic stops, including law-enforcement procedures for traffic stops, appropriate actions to be taken by drivers during traffic stops, and appropriate interactions with law-enforcement officers who initiate traffic stops, and (ii) in Planning District 8, an additional minimum 90-minute parent/student driver education component. The additional parent/student driver education component may be provided to students outside Planning District 8, at the discretion of each local school board. *However, in any school division in which the parent/student driver education component is required, no student who is (1) at least 18 years of age, (2) an emancipated minor, or (3) an unaccompanied minor who is not in the physical custody of his parent or guardian shall be required to participate in such component.*

2. The parent/student driver education component shall be administered as part of the classroom portion of the driver education curriculum. In Planning District 8, the parent/student driver education component shall be administered in-person. Outside Planning District 8, the parent/student driver education component may be administered either in-person or online by a public school or driver training schools that are licensed as computer-based driver education providers. For students in Planning District 8 and those students in school divisions that offer the parent/student driver education component *who are not otherwise exempted from participation in the parent/student driver education component pursuant to the provisions of subdivision 1*, the participation of the student's parent or guardian shall be required, and the program shall emphasize (i) parental responsibilities regarding juvenile driver behavior, (ii) juvenile driving restrictions pursuant to the Code of Virginia, and (iii) the dangers of driving while intoxicated and underage consumption of alcohol. Such instruction shall be developed by the Department in cooperation with the Virginia Alcohol Safety Action Program, the Department of Health, and the Department of Behavioral Health and Developmental Services, as appropriate. Nothing in this subdivision precludes any school division outside Planning District 8 from including a program of parental involvement as part of a driver education program in addition to or as an alternative to the minimum 90-minute parent/student driver education component.

3. Any driver education program shall require a minimum number of miles driven during the behind-the-wheel driver training.

B. The Board shall assist school divisions by preparation, publication and distribution of competent driver education instructional materials to ensure a more complete understanding of the responsibilities and duties of motor vehicle operators.

C. Each school board shall determine whether to offer the program of driver education in the safe operation of motor vehicles and, if offered, whether such program shall be an elective or a required course. In addition to the fee approved by the Board of Education pursuant to the appropriation act that allows local school boards to charge a per pupil fee for behind-the-wheel driver education, the Board of Education may authorize a local school board's request to assess a surcharge in order to further recover program costs that exceed state funds distributed through basic aid to school divisions offering driver education programs. Each school board may waive the fee or the surcharge in total or in part for those students it determines cannot pay the fee or surcharge. Only school divisions complying with the standardized program and regulations established by the Board of Education and the provisions of § 46.2-335 shall be entitled to participate in the distribution of state funds appropriated for driver education.

School boards in Planning District 8 shall make the 90-minute parent/student driver education component available to all students and their parents or guardians who are in compliance with § 22.1-254.

D. The actual initial driving instruction shall be conducted, with motor vehicles equipped as may be required by regulation of the Board of Education, on private or public property removed from public highways if practicable; if impracticable, then, at the request of the school board, the Commissioner of Highways shall designate a suitable section of road near the school to be used for such instruction. Such section of road shall be marked with signs, which the Commissioner of Highways shall supply, giving notice of its use for driving instruction. Such signs shall be removed at the close of the instruction period. No vehicle other than those used for driver training shall be operated between such signs at a speed in excess of 25 miles per hour. Violation of this limit shall be a Class 4 misdemeanor.

E. The Board of Education may, in its discretion, promulgate regulations for the use and certification of paraprofessionals as teaching assistants in the driver education programs of school divisions.

F. The Board of Education shall approve correspondence courses for the classroom training component of driver education. These correspondence courses shall be consistent in quality with instructional programs developed by the Board for classroom training in the public schools. Students completing the correspondence courses for classroom training, who are eligible to take behind-the-wheel driver training, may receive behind-the-wheel driver training (i) from a public school, upon payment of the required fee, if the school division offers behind-the-wheel driver training and space is available, (ii) from a driver training school licensed by the Department of Motor Vehicles, or (iii) in the case of a home schooling parent or guardian instructing his own child who meets the requirements for home school instruction under § 22.1-254.1 or subdivision B 1 of § 22.1-254, from a behind-the-wheel training course approved by the Board. Nothing herein shall be construed to require any school division to provide behind-the-wheel driver training to nonpublic school students.

CHAPTER 29

An Act to amend and reenact § 18.2-251.03 of the Code of Virginia, relating to arrest and prosecution when experiencing or reporting overdoses.

[H 1821]

Approved February 25, 2021

Be it enacted by the General Assembly of Virginia:

1. That § 18.2-251.03 of the Code of Virginia is amended and reenacted as follows:

§ 18.2-251.03. Arrest and prosecution when experiencing or reporting overdoses.

A. For purposes of this section, "overdose" means a life-threatening condition resulting from the consumption or use of a controlled substance, alcohol, or any combination of such substances.

B. No individual shall be subject to arrest or prosecution for the unlawful purchase, possession, or consumption of alcohol pursuant to § 4.1-305, possession of a controlled substance pursuant to § 18.2-250, possession of marijuana pursuant to § 18.2-250.1, intoxication in public pursuant to § 18.2-388, or possession of controlled paraphernalia pursuant to § 54.1-3466 if:

1. Such individual (i) in good faith, seeks or obtains emergency medical attention (a) for himself, if he is experiencing an overdose, or (b) for another individual, if such other individual is experiencing an overdose; or (ii) is experiencing an overdose and another individual, in good faith, seeks or obtains emergency medical attention for such individual, by contemporaneously reporting such overdose to a firefighter, as defined in § 65.2-102, emergency medical services personnel, as defined in § 32.1-111.1, a law-enforcement officer, as defined in § 9.1-101, or an emergency 911 system; or (iii) in good faith, renders emergency care or assistance, including cardiopulmonary resuscitation (CPR) or the administration of naloxone or other opioid antagonist for overdose reversal, to an individual experiencing an overdose while another individual seeks or obtains emergency medical attention in accordance with this subdivision;

2. Such individual remains at the scene of the overdose or at any alternative location to which he or the person requiring emergency medical attention has been transported until a law-enforcement officer responds to the report of an

overdose. If no law-enforcement officer is present at the scene of the overdose or at the alternative location, then such individual shall cooperate with law enforcement as otherwise set forth herein;

3. Such individual identifies himself to the law-enforcement officer who responds to the report of the overdose; and

4. The evidence for the prosecution of an offense enumerated in this subsection was obtained as a result of the individual seeking or obtaining emergency medical attention *or rendering emergency care or assistance*.

C. The provisions of this section shall not apply to any person who seeks or obtains emergency medical attention for himself or another individual, ~~or~~ to a person experiencing an overdose when another individual seeks or obtains emergency medical attention for him, *or to a person who renders emergency care or assistance to an individual experiencing an overdose while another person seeks or obtains emergency medical attention* during the execution of a search warrant or during the conduct of a lawful search or a lawful arrest.

D. This section does not establish protection from arrest or prosecution for any individual or offense other than those listed in subsection B.

E. No law-enforcement officer acting in good faith shall be found liable for false arrest if it is later determined that the person arrested was immune from prosecution under this section.

CHAPTER 30

An Act to amend and reenact §§ 16.1-256 and 16.1-260 of the Code of Virginia, relating to juvenile intake and petition; appeal to a magistrate on a finding of no probable cause.

[H 1878]

Approved February 25, 2021

Be it enacted by the General Assembly of Virginia:

1. That §§ 16.1-256 and 16.1-260 of the Code of Virginia are amended and reenacted as follows:

§ 16.1-256. Limitations as to issuance of warrants for juveniles; detention orders.

No warrant of arrest shall be issued for any juvenile by a magistrate, except as follows:

1. As provided in § 16.1-260 on appeal from a decision of an intake officer *to refuse to authorize a petition based solely upon a finding that no probable cause exists; or*

2. Upon a finding of probable cause to believe that the child is in need of services or is a delinquent, when (i) the court is not open and (ii) the judge and the intake officer of the juvenile and domestic relations district court are not reasonably available. For purposes of this section, the phrase "not reasonably available" means that neither the judge nor the intake officer of the juvenile and domestic relations district court could be reached after the appearance by the juvenile before a magistrate or that neither could arrive within one hour after he was contacted.

When a magistrate is authorized to issue a warrant pursuant to subdivision 2, he may also issue a detention order, if the criteria for detention set forth in § 16.1-248.1 have been satisfied.

Warrants issued pursuant to this section shall be delivered forthwith to the juvenile court.

§ 16.1-260. Intake; petition; investigation.

A. All matters alleged to be within the jurisdiction of the court shall be commenced by the filing of a petition, except as provided in subsection H and in § 16.1-259. The form and content of the petition shall be as provided in § 16.1-262. No individual shall be required to obtain support services from the Department of Social Services prior to filing a petition seeking support for a child. Complaints, requests, and the processing of petitions to initiate a case shall be the responsibility of the intake officer. However, (i) the attorney for the Commonwealth of the city or county may file a petition on his own motion with the clerk; (ii) designated nonattorney employees of the Department of Social Services may complete, sign, and file petitions and motions relating to the establishment, modification, or enforcement of support on forms approved by the Supreme Court of Virginia with the clerk; (iii) designated nonattorney employees of a local department of social services may complete, sign, and file with the clerk, on forms approved by the Supreme Court of Virginia, petitions for foster care review, petitions for permanency planning hearings, petitions to establish paternity, motions to establish or modify support, motions to amend or review an order, and motions for a rule to show cause; and (iv) any attorney may file petitions on behalf of his client with the clerk except petitions alleging that the subject of the petition is a child alleged to be in need of services, in need of supervision, or delinquent. Complaints alleging abuse or neglect of a child shall be referred initially to the local department of social services in accordance with the provisions of Chapter 15 (§ 63.2-1500 et seq.) of Title 63.2. Motions and other subsequent pleadings in a case shall be filed directly with the clerk. The intake officer or clerk with whom the petition or motion is filed shall inquire whether the petitioner is receiving child support services or public assistance. No individual who is receiving support services or public assistance shall be denied the right to file a petition or motion to establish, modify, or enforce an order for support of a child. If the petitioner is seeking or receiving child support services or public assistance, the clerk, upon issuance of process, shall forward a copy of the petition or motion, together with notice of the court date, to the Division of Child Support Enforcement.

B. The appearance of a child before an intake officer may be by (i) personal appearance before the intake officer or (ii) use of two-way electronic video and audio communication. If two-way electronic video and audio communication is used, an intake officer may exercise all powers conferred by law. All communications and proceedings shall be conducted in the same manner as if the appearance were in person, and any documents filed may be transmitted by facsimile process. The

facsimile may be served or executed by the officer or person to whom sent, and returned in the same manner, and with the same force, effect, authority, and liability as an original document. All signatures thereon shall be treated as original signatures. Any two-way electronic video and audio communication system used for an appearance shall meet the standards as set forth in subsection B of § 19.2-3.1.

When the court service unit of any court receives a complaint alleging facts which may be sufficient to invoke the jurisdiction of the court pursuant to § 16.1-241, the unit, through an intake officer, may proceed informally to make such adjustment as is practicable without the filing of a petition or may authorize a petition to be filed by any complainant having sufficient knowledge of the matter to establish probable cause for the issuance of the petition.

An intake officer may proceed informally on a complaint alleging a child is in need of services, in need of supervision, or delinquent only if the juvenile (a) is not alleged to have committed a violent juvenile felony or (b) has not previously been proceeded against informally or adjudicated delinquent for an offense that would be a felony if committed by an adult. A petition alleging that a juvenile committed a violent juvenile felony shall be filed with the court. A petition alleging that a juvenile is delinquent for an offense that would be a felony if committed by an adult shall be filed with the court if the juvenile had previously been proceeded against informally by intake or had been adjudicated delinquent for an offense that would be a felony if committed by an adult.

If a juvenile is alleged to be a truant pursuant to a complaint filed in accordance with § 22.1-258 and the attendance officer has provided documentation to the intake officer that the relevant school division has complied with the provisions of § 22.1-258, then the intake officer shall file a petition with the court. The intake officer may defer filing the petition and proceed informally by developing a truancy plan, provided that (1) the juvenile has not previously been proceeded against informally or adjudicated in need of supervision on more than two occasions for failure to comply with compulsory school attendance as provided in § 22.1-254 and (2) the immediately previous informal action or adjudication occurred at least three calendar years prior to the current complaint. The juvenile and his parent or parents, guardian, or other person standing in loco parentis must agree, in writing, for the development of a truancy plan. The truancy plan may include requirements that the juvenile and his parent or parents, guardian, or other person standing in loco parentis participate in such programs, cooperate in such treatment, or be subject to such conditions and limitations as necessary to ensure the juvenile's compliance with compulsory school attendance as provided in § 22.1-254. The intake officer may refer the juvenile to the appropriate public agency for the purpose of developing a truancy plan using an interagency interdisciplinary team approach. The team may include qualified personnel who are reasonably available from the appropriate department of social services, community services board, local school division, court service unit, and other appropriate and available public and private agencies and may be the family assessment and planning team established pursuant to § 2.2-5207. If at the end of the deferral period the juvenile has not successfully completed the truancy plan or the truancy program, then the intake officer shall file the petition.

Whenever informal action is taken as provided in this subsection on a complaint alleging that a child is in need of services, in need of supervision, or delinquent, the intake officer shall (A) develop a plan for the juvenile, which may include restitution and the performance of community service, based upon community resources and the circumstances which resulted in the complaint, (B) create an official record of the action taken by the intake officer and file such record in the juvenile's case file, and (C) advise the juvenile and the juvenile's parent, guardian, or other person standing in loco parentis and the complainant that any subsequent complaint alleging that the child is in need of supervision or delinquent based upon facts which may be sufficient to invoke the jurisdiction of the court pursuant to § 16.1-241 may result in the filing of a petition with the court.

C. The intake officer shall accept and file a petition in which it is alleged that (i) the custody, visitation, or support of a child is the subject of controversy or requires determination, (ii) a person has deserted, abandoned, or failed to provide support for any person in violation of law, (iii) a child or such child's parent, guardian, legal custodian, or other person standing in loco parentis is entitled to treatment, rehabilitation, or other services which are required by law, (iv) family abuse has occurred and a protective order is being sought pursuant to § 16.1-253.1, 16.1-253.4, or 16.1-279.1, or (v) an act of violence, force, or threat has occurred, a protective order is being sought pursuant to § 19.2-152.8, 19.2-152.9, or 19.2-152.10, and either the alleged victim or the respondent is a juvenile. If any such complainant does not file a petition, the intake officer may file it. In cases in which a child is alleged to be abused, neglected, in need of services, in need of supervision, or delinquent, if the intake officer believes that probable cause does not exist, or that the authorization of a petition will not be in the best interest of the family or juvenile or that the matter may be effectively dealt with by some agency other than the court, he may refuse to authorize the filing of a petition. The intake officer shall provide to a person seeking a protective order pursuant to § 16.1-253.1, 16.1-253.4, or 16.1-279.1 a written explanation of the conditions, procedures and time limits applicable to the issuance of protective orders pursuant to § 16.1-253.1, 16.1-253.4, or 16.1-279.1. If the person is seeking a protective order pursuant to § 19.2-152.8, 19.2-152.9, or 19.2-152.10, the intake officer shall provide a written explanation of the conditions, procedures, and time limits applicable to the issuance of protective orders pursuant to § 19.2-152.8, 19.2-152.9, or 19.2-152.10.

D. Prior to the filing of any petition alleging that a child is in need of supervision, the matter shall be reviewed by an intake officer who shall determine whether the petitioner and the child alleged to be in need of supervision have utilized or attempted to utilize treatment and services available in the community and have exhausted all appropriate nonjudicial remedies which are available to them. When the intake officer determines that the parties have not attempted to utilize available treatment or services or have not exhausted all appropriate nonjudicial remedies which are available, he shall refer

the petitioner and the child alleged to be in need of supervision to the appropriate agency, treatment facility, or individual to receive treatment or services, and a petition shall not be filed. Only after the intake officer determines that the parties have made a reasonable effort to utilize available community treatment or services may he permit the petition to be filed.

E. If the intake officer refuses to authorize a petition relating to an offense that if committed by an adult would be punishable as a Class 1 misdemeanor or as a felony, *when such refusal is based solely upon a finding that no probable cause exists*, the complainant shall be notified in writing at that time of the complainant's right to apply to a magistrate for a warrant. *The application for a warrant to the magistrate shall be filed within 10 days of the issuance of the written notification. The written notification shall indicate that the intake officer made a finding that no probable cause exists and shall provide notice that the complainant has 10 days to apply for a warrant to the magistrate. The complainant shall provide the magistrate with a copy of the written notification upon application to the magistrate.* If a magistrate determines that probable cause exists, he shall issue a warrant returnable to the juvenile and domestic relations district court. The warrant shall be delivered forthwith to the juvenile court, and the intake officer shall accept and file a petition founded upon the warrant. If the court is closed and the magistrate finds that the criteria for detention or shelter care set forth in § 16.1-248.1 have been satisfied, the juvenile may be detained pursuant to the warrant issued in accordance with this subsection. If the intake officer refuses to authorize a petition relating to a child in need of services or in need of supervision, a status offense, or a misdemeanor other than Class 1, his decision is final. *If the intake officer refuses to authorize a petition relating to an offense that if committed by an adult would be punishable as a Class 1 misdemeanor or as a felony when such refusal is based upon a finding that (i) probable cause exists, but that (ii) the matter is appropriate for diversion, his decision is final and the complainant shall not have a right to apply to a magistrate for a warrant.*

Upon delivery to the juvenile court of a warrant issued pursuant to subdivision 2 of § 16.1-256, the intake officer shall accept and file a petition founded upon the warrant.

F. The intake officer shall notify the attorney for the Commonwealth of the filing of any petition which alleges facts of an offense which would be a felony if committed by an adult.

G. Notwithstanding the provisions of Article 12 (§ 16.1-299 et seq.), the intake officer shall file a report with the division superintendent of the school division in which any student who is the subject of a petition alleging that such student who is a juvenile has committed an act, wherever committed, which would be a crime if committed by an adult, or that such student who is an adult has committed a crime and is alleged to be within the jurisdiction of the court. The report shall notify the division superintendent of the filing of the petition and the nature of the offense, if the violation involves:

1. A firearm offense pursuant to Article 4 (§ 18.2-279 et seq.), 5 (§ 18.2-288 et seq.), 6 (§ 18.2-299 et seq.), 6.1 (§ 18.2-307.1 et seq.), or 7 (§ 18.2-308.1 et seq.) of Chapter 7 of Title 18.2;
2. Homicide, pursuant to Article 1 (§ 18.2-30 et seq.) of Chapter 4 of Title 18.2;
3. Felonious assault and bodily wounding, pursuant to Article 4 (§ 18.2-51 et seq.) of Chapter 4 of Title 18.2;
4. Criminal sexual assault, pursuant to Article 7 (§ 18.2-61 et seq.) of Chapter 4 of Title 18.2;
5. Manufacture, sale, gift, distribution or possession of Schedule I or II controlled substances, pursuant to Article 1 (§ 18.2-247 et seq.) of Chapter 7 of Title 18.2;
6. Manufacture, sale or distribution of marijuana pursuant to Article 1 (§ 18.2-247 et seq.) of Chapter 7 of Title 18.2;
7. Arson and related crimes, pursuant to Article 1 (§ 18.2-77 et seq.) of Chapter 5 of Title 18.2;
8. Burglary and related offenses, pursuant to §§ 18.2-89 through 18.2-93;
9. Robbery pursuant to § 18.2-58;
10. Prohibited criminal street gang activity pursuant to § 18.2-46.2;
11. Recruitment of other juveniles for a criminal street gang activity pursuant to § 18.2-46.3;
12. An act of violence by a mob pursuant to § 18.2-42.1;
13. Abduction of any person pursuant to § 18.2-47 or 18.2-48; or
14. A threat pursuant to § 18.2-60.

The failure to provide information regarding the school in which the student who is the subject of the petition may be enrolled shall not be grounds for refusing to file a petition.

The information provided to a division superintendent pursuant to this section may be disclosed only as provided in § 16.1-305.2.

H. The filing of a petition shall not be necessary:

1. In the case of violations of the traffic laws, including offenses involving bicycles, hitchhiking and other pedestrian offenses, game and fish laws, or a violation of the ordinance of any city regulating surfing or any ordinance establishing curfew violations, animal control violations, or littering violations. In such cases the court may proceed on a summons issued by the officer investigating the violation in the same manner as provided by law for adults. Additionally, an officer investigating a motor vehicle accident may, at the scene of the accident or at any other location where a juvenile who is involved in such an accident may be located, proceed on a summons in lieu of filing a petition.

2. In the case of seeking consent to apply for the issuance of a work permit pursuant to subsection H of § 16.1-241.

3. In the case of a misdemeanor violation of § 18.2-266, 18.2-266.1, or 29.1-738, or the commission of any other alcohol-related offense, or a violation of § 18.2-250.1, provided that the juvenile is released to the custody of a parent or legal guardian pending the initial court date. The officer releasing a juvenile to the custody of a parent or legal guardian shall issue a summons to the juvenile and shall also issue a summons requiring the parent or legal guardian to appear before the court with the juvenile. Disposition of the charge shall be in the manner provided in § 16.1-278.8, 16.1-278.8:01, or

16.1-278.9. If the juvenile so charged with a violation of § 18.2-51.4, 18.2-266, 18.2-266.1, 18.2-272, or 29.1-738 refuses to provide a sample of blood or breath or samples of both blood and breath for chemical analysis pursuant to §§ 18.2-268.1 through 18.2-268.12 or 29.1-738.2, the provisions of these sections shall be followed except that the magistrate shall authorize execution of the warrant as a summons. The summons shall be served on a parent or legal guardian and the juvenile, and a copy of the summons shall be forwarded to the court in which the violation is to be tried. When a violation of § 4.1-305 or 18.2-250.1 is charged by summons, the juvenile shall be entitled to have the charge referred to intake for consideration of informal proceedings pursuant to subsection B, provided that such right is exercised by written notification to the clerk not later than 10 days prior to trial. At the time such summons alleging a violation of § 4.1-305 or 18.2-250.1 is served, the officer shall also serve upon the juvenile written notice of the right to have the charge referred to intake on a form approved by the Supreme Court and make return of such service to the court. If the officer fails to make such service or return, the court shall dismiss the summons without prejudice.

4. In the case of offenses which, if committed by an adult, would be punishable as a Class 3 or Class 4 misdemeanor. In such cases the court may direct that an intake officer proceed as provided in § 16.1-237 on a summons issued by the officer investigating the violation in the same manner as provided by law for adults provided that notice of the summons to appear is mailed by the investigating officer within five days of the issuance of the summons to a parent or legal guardian of the juvenile.

I. Failure to comply with the procedures set forth in this section shall not divest the juvenile court of the jurisdiction granted it in § 16.1-241.

CHAPTER 31

An Act to amend and reenact § 18.2-308.2:2, as it is currently effective and as it shall become effective, of the Code of Virginia, relating to sale and transfer of firearms; criminal history record information checks.

[H 2128]

Approved February 25, 2021

Be it enacted by the General Assembly of Virginia:

1. That § 18.2-308.2:2, as it is currently effective and as it shall become effective, of the Code of Virginia is amended and reenacted as follows:

§ 18.2-308.2:2. (Effective until July 1, 2021) Criminal history record information check required for the transfer of certain firearms.

A. Any person purchasing from a dealer a firearm as herein defined shall consent in writing, on a form to be provided by the Department of State Police, to have the dealer obtain criminal history record information. Such form shall include only the written consent; the name, birth date, gender, race, citizenship, and social security number and/or any other identification number; the number of firearms by category intended to be sold, rented, traded, or transferred; and answers by the applicant to the following questions: (i) has the applicant been convicted of a felony offense or found guilty or adjudicated delinquent as a juvenile 14 years of age or older at the time of the offense of a delinquent act that would be a felony if committed by an adult; (ii) is the applicant subject to a court order restraining the applicant from harassing, stalking, or threatening the applicant's child or intimate partner, or a child of such partner, or is the applicant subject to a protective order; (iii) has the applicant ever been acquitted by reason of insanity and prohibited from purchasing, possessing, or transporting a firearm pursuant to § 18.2-308.1:1 or any substantially similar law of any other jurisdiction, been adjudicated legally incompetent, mentally incapacitated or adjudicated an incapacitated person and prohibited from purchasing a firearm pursuant to § 18.2-308.1:2 or any substantially similar law of any other jurisdiction, been involuntarily admitted to an inpatient facility or involuntarily ordered to outpatient mental health treatment and prohibited from purchasing a firearm pursuant to § 18.2-308.1:3 or any substantially similar law of any other jurisdiction, or been the subject of a temporary detention order pursuant to § 37.2-809 and subsequently agreed to a voluntary admission pursuant to § 37.2-805; and (iv) is the applicant subject to an emergency substantial risk order or a substantial risk order entered pursuant to § 19.2-152.13 or 19.2-152.14 and prohibited from purchasing, possessing, or transporting a firearm pursuant to § 18.2-308.1:6 or any substantially similar law of any other jurisdiction.

B. 1. No dealer shall sell, rent, trade or transfer from his inventory any such firearm to any other person who is a resident of Virginia until he has (i) obtained written consent and the other information on the consent form specified in subsection A, and provided the Department of State Police with the name, birth date, gender, race, citizenship, and social security and/or any other identification number and the number of firearms by category intended to be sold, rented, traded or transferred and (ii) requested criminal history record information by a telephone call to or other communication authorized by the State Police and is authorized by subdivision 2 to complete the sale or other such transfer. To establish personal identification and residence in Virginia for purposes of this section, a dealer must require any prospective purchaser to present one photo-identification form issued by a governmental agency of the Commonwealth or by the United States Department of Defense that demonstrates that the prospective purchaser resides in Virginia. For the purposes of this section and establishment of residency for firearm purchase, residency of a member of the armed forces shall include both the state in which the member's permanent duty post is located and any nearby state in which the member resides and from which he commutes to the permanent duty post. A member of the armed forces whose photo identification issued by the Department

of Defense does not have a Virginia address may establish his Virginia residency with such photo identification and either permanent orders assigning the purchaser to a duty post, including the Pentagon, in Virginia or the purchaser's Leave and Earnings Statement. When the photo identification presented to a dealer by the prospective purchaser is a driver's license or other photo identification issued by the Department of Motor Vehicles, and such identification form contains a date of issue, the dealer shall not, except for a renewed driver's license or other photo identification issued by the Department of Motor Vehicles, sell or otherwise transfer a firearm to the prospective purchaser until 30 days after the date of issue of an original or duplicate driver's license unless the prospective purchaser also presents a copy of his Virginia Department of Motor Vehicles driver's record showing that the original date of issue of the driver's license was more than 30 days prior to the attempted purchase.

In addition, no dealer shall sell, rent, trade, or transfer from his inventory any assault firearm to any person who is not a citizen of the United States or who is not a person lawfully admitted for permanent residence.

Upon receipt of the request for a criminal history record information check, the State Police shall (a) review its criminal history record information to determine if the buyer or transferee is prohibited from possessing or transporting a firearm by state or federal law, (b) inform the dealer if its record indicates that the buyer or transferee is so prohibited, and (c) provide the dealer with a unique reference number for that inquiry.

2. The State Police shall provide its response to the requesting dealer during the dealer's request or by return call without delay. A dealer who fulfills the requirements of subdivision 1 and is told by the State Police that a response will not be available by the end of the dealer's ~~third~~ *third fifth* business day may immediately complete the sale or transfer and shall not be deemed in violation of this section with respect to such sale or transfer.

3. Except as required by subsection D of § 9.1-132, the State Police shall not maintain records longer than 30 days, except for multiple handgun transactions for which records shall be maintained for 12 months, from any dealer's request for a criminal history record information check pertaining to a buyer or transferee who is not found to be prohibited from possessing and transporting a firearm under state or federal law. However, the log on requests made may be maintained for a period of 12 months, and such log shall consist of the name of the purchaser, the dealer identification number, the unique approval number and the transaction date.

4. On the last day of the week following the sale or transfer of any firearm, the dealer shall mail or deliver the written consent form required by subsection A to the Department of State Police. The State Police shall immediately initiate a search of all available criminal history record information to determine if the purchaser is prohibited from possessing or transporting a firearm under state or federal law. If the search discloses information indicating that the buyer or transferee is so prohibited from possessing or transporting a firearm, the State Police shall inform the chief law-enforcement officer in the jurisdiction where the sale or transfer occurred and the dealer without delay.

5. Notwithstanding any other provisions of this section, rifles and shotguns may be purchased by persons who are citizens of the United States or persons lawfully admitted for permanent residence but residents of other states under the terms of subsections A and B upon furnishing the dealer with one photo-identification form issued by a governmental agency of the person's state of residence and one other form of identification determined to be acceptable by the Department of Criminal Justice Services.

6. For the purposes of this subsection, the phrase "dealer's ~~third~~ *third fifth* business day" shall not include December 25.

C. No dealer shall sell, rent, trade, or transfer from his inventory any firearm, except when the transaction involves a rifle or a shotgun and can be accomplished pursuant to the provisions of subdivision B 5, to any person who is a dual resident of Virginia and another state pursuant to applicable federal law unless he has first obtained from the Department of State Police a report indicating that a search of all available criminal history record information has not disclosed that the person is prohibited from possessing or transporting a firearm under state or federal law.

To establish personal identification and dual resident eligibility for purposes of this subsection, a dealer shall require any prospective purchaser to present one photo-identification form issued by a governmental agency of the prospective purchaser's state of legal residence and other documentation of dual residence within the Commonwealth. The other documentation of dual residence in the Commonwealth may include (i) evidence of currently paid personal property tax or real estate tax or a current (a) lease, (b) utility or telephone bill, (c) voter registration card, (d) bank check, (e) passport, (f) automobile registration, or (g) hunting or fishing license; (ii) other current identification allowed as evidence of residency by 27 C.F.R. § 178.124 and ATF Ruling 2001-5; or (iii) other documentation of residence determined to be acceptable by the Department of Criminal Justice Services and that corroborates that the prospective purchaser currently resides in Virginia.

D. If any buyer or transferee is denied the right to purchase a firearm under this section, he may exercise his right of access to and review and correction of criminal history record information under § 9.1-132 or institute a civil action as provided in § 9.1-135, provided any such action is initiated within 30 days of such denial.

E. Any dealer who willfully and intentionally requests, obtains, or seeks to obtain criminal history record information under false pretenses, or who willfully and intentionally disseminates or seeks to disseminate criminal history record information except as authorized in this section shall be guilty of a Class 2 misdemeanor.

A National Instant Criminal Background Check System (NICS) check shall be performed prior to such purchase, trade or transfer of firearms.

All licensed firearms dealers shall collect a fee of \$2 for every transaction for which a criminal history record information check is required pursuant to this section, except that a fee of \$5 shall be collected for every transaction involving an out-of-state resident. Such fee shall be transmitted to the Department of State Police by the last day of the month following the sale for deposit in a special fund for use by the State Police to offset the cost of conducting criminal history record information checks under the provisions of this section.

Such form shall include only the written consent; the name, birth date, gender, race, citizenship, and social security number and/or any other identification number; the number of firearms by category intended to be sold, rented, traded, or transferred; and answers by the applicant to the following questions: (i) has the applicant been convicted of a felony offense or found guilty or adjudicated delinquent as a juvenile 14 years of age or older at the time of the offense of a delinquent act that would be a felony if committed by an adult; (ii) is the applicant subject to a court order restraining the applicant from harassing, stalking, or threatening the applicant's child or intimate partner, or a child of such partner, or is the applicant subject to a protective order; (iii) has the applicant ever been acquitted by reason of insanity and prohibited from purchasing, possessing, or transporting a firearm pursuant to § 18.2-308.1:1 or any substantially similar law of any other jurisdiction, been adjudicated legally incompetent, mentally incapacitated, or adjudicated an incapacitated person and prohibited from purchasing a firearm pursuant to § 18.2-308.1:2 or any substantially similar law of any other jurisdiction, been involuntarily admitted to an inpatient facility or involuntarily ordered to outpatient mental health treatment and prohibited from purchasing a firearm pursuant to § 18.2-308.1:3 or any substantially similar law of any other jurisdiction, or been the subject of a temporary detention order pursuant to § 37.2-809 and subsequently agreed to a voluntary admission pursuant to § 37.2-805; and (iv) is the applicant subject to an emergency substantial risk order or a substantial risk order entered pursuant to § 19.2-152.13 or 19.2-152.14 and prohibited from purchasing, possessing, or transporting a firearm pursuant to § 18.2-308.1:6 or any substantially similar law of any other jurisdiction.

B. 1. No dealer shall sell, rent, trade, or transfer from his inventory any such firearm to any other person who is a resident of Virginia until he has (i) obtained written consent and the other information on the consent form specified in subsection A, and provided the Department of State Police with the name, birth date, gender, race, citizenship, and social security and/or any other identification number and the number of firearms by category intended to be sold, rented, traded, or transferred and (ii) requested criminal history record information by a telephone call to or other communication authorized by the State Police and is authorized by subdivision 2 to complete the sale or other such transfer. To establish personal identification and residence in Virginia for purposes of this section, a dealer must require any prospective purchaser to present one photo-identification form issued by a governmental agency of the Commonwealth or by the United States Department of Defense that demonstrates that the prospective purchaser resides in Virginia. For the purposes of this section and establishment of residency for firearm purchase, residency of a member of the armed forces shall include both the state in which the member's permanent duty post is located and any nearby state in which the member resides and from which he commutes to the permanent duty post. A member of the armed forces whose photo identification issued by the Department of Defense does not have a Virginia address may establish his Virginia residency with such photo identification and either permanent orders assigning the purchaser to a duty post, including the Pentagon, in Virginia or the purchaser's Leave and Earnings Statement. When the photo identification presented to a dealer by the prospective purchaser is a driver's license or other photo identification issued by the Department of Motor Vehicles, and such identification form contains a date of issue, the dealer shall not, except for a renewed driver's license or other photo identification issued by the Department of Motor Vehicles, sell or otherwise transfer a firearm to the prospective purchaser until 30 days after the date of issue of an original or duplicate driver's license unless the prospective purchaser also presents a copy of his Virginia Department of Motor Vehicles driver's record showing that the original date of issue of the driver's license was more than 30 days prior to the attempted purchase.

In addition, no dealer shall sell, rent, trade, or transfer from his inventory any assault firearm to any person who is not a citizen of the United States or who is not a person lawfully admitted for permanent residence.

Upon receipt of the request for a criminal history record information check, the State Police shall (a) review its criminal history record information to determine if the buyer or transferee is prohibited from possessing or transporting a firearm by state or federal law, (b) inform the dealer if its record indicates that the buyer or transferee is so prohibited, and (c) provide the dealer with a unique reference number for that inquiry.

2. The State Police shall provide its response to the requesting dealer during the dealer's request or by return call without delay. A dealer who fulfills the requirements of subdivision 1 and is told by the State Police that a response will not

be available by the end of the dealer's ~~third~~ *fifth* business day may immediately complete the sale or transfer and shall not be deemed in violation of this section with respect to such sale or transfer.

3. Except as required by subsection D of § 9.1-132, the State Police shall not maintain records longer than 30 days, except for multiple handgun transactions for which records shall be maintained for 12 months, from any dealer's request for a criminal history record information check pertaining to a buyer or transferee who is not found to be prohibited from possessing and transporting a firearm under state or federal law. However, the log on requests made may be maintained for a period of 12 months, and such log shall consist of the name of the purchaser, the dealer identification number, the unique approval number, and the transaction date.

4. On the last day of the week following the sale or transfer of any firearm, the dealer shall mail or deliver the written consent form required by subsection A to the Department of State Police. The State Police shall immediately initiate a search of all available criminal history record information to determine if the purchaser is prohibited from possessing or transporting a firearm under state or federal law. If the search discloses information indicating that the buyer or transferee is so prohibited from possessing or transporting a firearm, the State Police shall inform the chief law-enforcement officer in the jurisdiction where the sale or transfer occurred and the dealer without delay.

5. Notwithstanding any other provisions of this section, rifles and shotguns may be purchased by persons who are citizens of the United States or persons lawfully admitted for permanent residence but residents of other states under the terms of subsections A and B upon furnishing the dealer with one photo-identification form issued by a governmental agency of the person's state of residence and one other form of identification determined to be acceptable by the Department of Criminal Justice Services.

6. For the purposes of this subsection, the phrase "dealer's ~~third~~ *fifth* business day" does not include December 25.

C. No dealer shall sell, rent, trade, or transfer from his inventory any firearm, except when the transaction involves a rifle or a shotgun and can be accomplished pursuant to the provisions of subdivision B 5, to any person who is a dual resident of Virginia and another state pursuant to applicable federal law unless he has first obtained from the Department of State Police a report indicating that a search of all available criminal history record information has not disclosed that the person is prohibited from possessing or transporting a firearm under state or federal law.

To establish personal identification and dual resident eligibility for purposes of this subsection, a dealer shall require any prospective purchaser to present one photo-identification form issued by a governmental agency of the prospective purchaser's state of legal residence and other documentation of dual residence within the Commonwealth. The other documentation of dual residence in the Commonwealth may include (i) evidence of currently paid personal property tax or real estate tax or a current (a) lease, (b) utility or telephone bill, (c) voter registration card, (d) bank check, (e) passport, (f) automobile registration, or (g) hunting or fishing license; (ii) other current identification allowed as evidence of residency by 27 C.F.R. § 178.124 and ATF Ruling 2001-5; or (iii) other documentation of residence determined to be acceptable by the Department of Criminal Justice Services and that corroborates that the prospective purchaser currently resides in Virginia.

D. If any buyer or transferee is denied the right to purchase a firearm under this section, he may exercise his right of access to and review and correction of criminal history record information under § 9.1-132 or institute a civil action as provided in § 9.1-135, provided any such action is initiated within 30 days of such denial.

E. Any dealer who willfully and intentionally requests, obtains, or seeks to obtain criminal history record information under false pretenses, or who willfully and intentionally disseminates or seeks to disseminate criminal history record information except as authorized in this section, shall be guilty of a Class 2 misdemeanor.

Participation by a member pursuant to this subdivision b is limited each calendar year to two meetings or 25 percent of the meetings held per calendar year rounded up to the next whole number, whichever is greater.

2. If participation by a member through electronic communication means is approved pursuant to subdivision 1, the public body holding the meeting shall record in its minutes the remote location from which the member participated; however, the remote location need not be open to the public. If participation is approved pursuant to subdivision 1 a, the public body shall also include in its minutes the fact that the member participated through electronic communication means due to (i) a temporary or permanent disability or other medical condition that prevented the member's physical attendance or (ii) a family member's medical condition that required the member to provide care for such family member, thereby preventing the member's physical attendance. Electronic communication service or remote computing service providers, whether a foreign or domestic corporation, shall also provide the contents of electronic communications pursuant to a search warrant issued under this section and § 19.2-70.3 using the same process described in the preceding paragraph.

Notwithstanding the provisions of § 19.2-57, any search warrant for records or other information pertaining to a customer of a financial institution as defined in § 6.2-604, money transmitter as defined in § 6.2-1900, commercial business providing credit history or credit reports, or issuer as defined in § 6.2-424 may be executed within the Commonwealth by hand, United States mail, commercial delivery service, facsimile, or other electronic means upon the financial institution, money transmitter, commercial business providing credit history or credit reports, or issuer. The officer executing such warrant shall endorse the date of execution thereon and shall file the warrant, with the inventory attached (or a notation that no property was seized) and the accompanying affidavit, unless such affidavit was made by voice or videotape recording, within three days after the materials ordered to be produced are received by the officer from the financial institution, money transmitter, commercial business providing credit history or credit reports, or issuer. The return shall be made in the circuit court clerk's office for the jurisdiction wherein the warrant was executed. Saturdays, Sundays, or any federal or state legal holiday shall not be used in computing the three-day filing period. For the purposes of this section, the warrant will be considered executed in the jurisdiction where the entity on which the warrant is served is located.

Every search warrant shall contain the date and time it was issued. However, the failure of any such search warrant to contain the date and time it was issued shall not render the warrant void, provided that the date and time of issuing of said warrant is established by competent evidence.

The judge, magistrate, or other official authorized to issue criminal warrants shall attach a copy of the affidavit required by § 19.2-54, which shall become a part of the search warrant and served therewith. However, this provision shall not be applicable in any case in which the affidavit is made by means of a voice or videotape recording or where the affidavit has been sealed pursuant to § 19.2-54.

Any search warrant not executed within 15 days after issuance thereof shall be returned to, and voided by, the officer who issued such search warrant.

B. No law-enforcement officer shall seek, execute, or participate in the execution of a no-knock search warrant. A search warrant *for any place of abode* authorized under this section shall require that a law-enforcement officer be recognizable and identifiable as a uniformed law-enforcement officer and provide audible notice of his authority and purpose reasonably ~~expected~~ *designed* to be heard by *the* occupants of such place to be searched prior to the execution of such search warrant.

After entering and securing the place to be searched and prior to undertaking any search or seizure pursuant to the search warrant, the executing law-enforcement officer shall ~~read and~~ give a copy of the search warrant *and affidavit* to the person to be searched or the owner of the place to be searched or, if the owner is not present, to any occupant of the place to be searched. If the place to be searched is unoccupied, the executing law-enforcement officer shall leave a copy of the search warrant ~~suitably~~ *and affidavit in a conspicuous place within or* affixed to the place to be searched.

Search warrants authorized under this section *for the search of any place of abode* shall be executed *by initial entry of the abode* only in the daytime hours between 8:00 a.m. and 5:00 p.m. unless (i) a judge or a magistrate, if a judge is not available, authorizes the execution of such search warrant at another time for good cause shown ~~or~~ *by particularized facts in an affidavit or* (ii) ~~the search warrant is for the withdrawal of blood prior to the issuance of the search warrant, law-enforcement officers lawfully entered and secured the place to be searched and remained at such place continuously. A search warrant for the withdrawal of blood may be executed at any time of day.~~

A law-enforcement officer shall make reasonable efforts to locate a judge before seeking authorization to execute the warrant at another time, *unless circumstances require the issuance of the warrant after 5 p.m., pursuant to the provisions of this subsection, in which case the law-enforcement officer may seek such authorization from a magistrate without first making reasonable efforts to locate a judge.* Such reasonable efforts shall be documented in an affidavit and submitted to a magistrate when seeking such authorization.

Any evidence obtained from a search warrant *executed* in violation of this subsection shall not be admitted into evidence for the Commonwealth in any prosecution.

The making of the contract or terms of service agreement or the issuance of a certificate of authority shall be considered to be the agreement of the foreign corporation or entity that a search warrant or subpoena, which has been properly served on it, has the same legal force and effect as if served personally within the Commonwealth.

"Properly served" means delivery of a search warrant or subpoena by hand, by United States mail, by commercial delivery service, by facsimile or by any other manner to any officer of a corporation or its general manager in the Commonwealth, to any natural person designated by it as agent for the service of process, or if such corporation has designated a corporate agent, to any person named in the latest annual report filed pursuant to § 13.1-775.

§ 59.1-573. Personal data rights; consumers.

A. A consumer may invoke the consumer rights authorized pursuant to this subsection at any time by submitting a request to a controller specifying the consumer rights the consumer wishes to invoke. A known child's parent or legal guardian may invoke such consumer rights on behalf of the child regarding processing personal data belonging to the known child. A controller shall comply with an authenticated consumer request to exercise the right:

1. To confirm whether or not a controller is processing the consumer's personal data and to access such personal data;

2. To correct inaccuracies in the consumer's personal data, taking into account the nature of the personal data and the purposes of the processing of the consumer's personal data;

3. To delete personal data provided by or obtained about the consumer;

4. To obtain a copy of the consumer's personal data that the consumer previously provided to the controller in a portable and, to the extent technically feasible, readily usable format that allows the consumer to transmit the data to another controller without hindrance, where the processing is carried out by automated means; and

5. To opt out of the processing of the personal data for purposes of (i) targeted advertising, (ii) the sale of personal data, or (iii) profiling in furtherance of decisions that produce legal or similarly significant effects concerning the consumer.

B. Except as otherwise provided in this chapter, a controller shall comply with a request by a consumer to exercise the consumer rights authorized pursuant to subsection A as follows:

1. A controller shall respond to the consumer without undue delay, but in all cases within 45 days of receipt of the request submitted pursuant to the methods described in § 59.1-573 A. The response period may be extended once by 45 additional days when reasonably necessary, taking into account the complexity and number of the consumer's requests, so long as the controller informs the consumer of any such extension within the initial 45-day response period, together with the reason for the extension.

2. If a controller declines to take action regarding the consumer's request, the controller shall inform the consumer without undue delay, but in all cases and at the latest within 45 days of receipt of the request, of the justification for declining to take action and instructions for how to appeal the decision pursuant to subsection C.

3. Information provided in response to a consumer request shall be provided by a controller free of charge, up to twice annually per consumer. If requests from a consumer are manifestly unfounded, excessive, or repetitive, the controller may charge the consumer a reasonable fee to cover the administrative costs of complying with the request or decline to act on the request. The controller bears the burden of demonstrating the manifestly unfounded, excessive, or repetitive nature of the request.

4. If a controller is unable to authenticate the request using commercially reasonable efforts, the controller shall not be required to comply with a request to initiate an action under subsection A and may request that the consumer provide additional information reasonably necessary to authenticate the consumer and the consumer's request.

C. A controller shall establish a process for a consumer to appeal the controller's refusal to take action on a request within a reasonable period of time after the consumer's receipt of the decision pursuant to subdivision B 2. The appeal process shall be conspicuously available and similar to the process for submitting requests to initiate action pursuant to subsection A. Within 60 days of receipt of an appeal, a controller shall inform the consumer in writing of any action taken or not taken in response to the appeal, including a written explanation of the reasons for the decisions. If the appeal is denied, the controller shall also provide the consumer with an online mechanism, if available, or other method through which the consumer may contact the Attorney General to submit a complaint.

§ 59.1-574. Data controller responsibilities; transparency.

A. A controller shall:

1. Limit the collection of personal data to what is adequate, relevant, and reasonably necessary in relation to the purposes for which such data is processed, as disclosed to the consumer;

2. Except as otherwise provided in this chapter, not process personal data for purposes that are neither reasonably necessary to nor compatible with the disclosed purposes for which such personal data is processed, as disclosed to the consumer, unless the controller obtains the consumer's consent;

3. Establish, implement, and maintain reasonable administrative, technical, and physical data security practices to protect the confidentiality, integrity, and accessibility of personal data. Such data security practices shall be appropriate to the volume and nature of the personal data at issue;

4. Not process personal data in violation of state and federal laws that prohibit unlawful discrimination against consumers. A controller shall not discriminate against a consumer for exercising any of the consumer rights contained in this chapter, including denying goods or services, charging different prices or rates for goods or services, or providing a different level of quality of goods and services to the consumer. However, nothing in this subdivision shall be construed to require a controller to provide a product or service that requires the personal data of a consumer that the controller does not collect or maintain or to prohibit a controller from offering a different price, rate, level, quality, or selection of goods or services to a consumer, including offering goods or services for no fee, if the consumer has exercised his right to opt out pursuant to § 59.1-573 or the offer is related to a consumer's voluntary participation in a bona fide loyalty, rewards, premium features, discounts, or club card program; and

5. Not process sensitive data concerning a consumer without obtaining the consumer's consent, or, in the case of the processing of sensitive data concerning a known child, without processing such data in accordance with the federal Children's Online Privacy Protection Act (15 U.S.C. § 6501 et seq.).

B. Any provision of a contract or agreement of any kind that purports to waive or limit in any way consumer rights pursuant to § 59.1-573 shall be deemed contrary to public policy and shall be void and unenforceable.

C. Controllers shall provide consumers with a reasonably accessible, clear, and meaningful privacy notice that includes:

1. The categories of personal data processed by the controller;

2. The purpose for processing personal data;

3. How consumers may exercise their consumer rights pursuant § 59.1-573, including how a consumer may appeal a controller's decision with regard to the consumer's request;

4. The categories of personal data that the controller shares with third parties, if any; and

5. The categories of third parties, if any, with whom the controller shares personal data.

D. If a controller sells personal data to third parties or processes personal data for targeted advertising, the controller shall clearly and conspicuously disclose such processing, as well as the manner in which a consumer may exercise the right to opt out of such processing.

E. A controller shall establish, and shall describe in a privacy notice, one or more secure and reliable means for consumers to submit a request to exercise their consumer rights under this chapter. Such means shall take into account the ways in which consumers normally interact with the controller, the need for secure and reliable communication of such requests, and the ability of the controller to authenticate the identity of the consumer making the request. Controllers shall not require a consumer to create a new account in order to exercise consumer rights pursuant to § 59.1-573 but may require a consumer to use an existing account.

§ 59.1-575. Responsibility according to role; controller and processor.

A. A processor shall adhere to the instructions of a controller and shall assist the controller in meeting its obligations under this chapter. Such assistance shall include:

1. Taking into account the nature of processing and the information available to the processor, by appropriate technical and organizational measures, insofar as this is reasonably practicable, to fulfill the controller's obligation to respond to consumer rights requests pursuant to § 59.1-573.

2. Taking into account the nature of processing and the information available to the processor, by assisting the controller in meeting the controller's obligations in relation to the security of processing the personal data and in relation to the notification of a breach of security of the system of the processor pursuant to § 18.2-186.6 in order to meet the controller's obligations.

3. Providing necessary information to enable the controller to conduct and document data protection assessments pursuant to § 59.1-576.

B. A contract between a controller and a processor shall govern the processor's data processing procedures with respect to processing performed on behalf of the controller. The contract shall be binding and clearly set forth instructions for processing data, the nature and purpose of processing, the type of data subject to processing, the duration of processing, and the rights and obligations of both parties. The contract shall also include requirements that the processor shall:

1. Ensure that each person processing personal data is subject to a duty of confidentiality with respect to the data;

2. At the controller's direction, delete or return all personal data to the controller as requested at the end of the provision of services, unless retention of the personal data is required by law;

3. Upon the reasonable request of the controller, make available to the controller all information in its possession necessary to demonstrate the processor's compliance with the obligations in this chapter;

4. Allow, and cooperate with, reasonable assessments by the controller or the controller's designated assessor; alternatively, the processor may arrange for a qualified and independent assessor to conduct an assessment of the processor's policies and technical and organizational measures in support of the obligations under this chapter using an appropriate and accepted control standard or framework and assessment procedure for such assessments. The processor shall provide a report of such assessment to the controller upon request; and

5. Engage any subcontractor pursuant to a written contract in accordance with subsection C that requires the subcontractor to meet the obligations of the processor with respect to the personal data.

C. Nothing in this section shall be construed to relieve a controller or a processor from the liabilities imposed on it by virtue of its role in the processing relationship as defined by this chapter.

D. Determining whether a person is acting as a controller or processor with respect to a specific processing of data is a fact-based determination that depends upon the context in which personal data is to be processed. A processor that continues to adhere to a controller's instructions with respect to a specific processing of personal data remains a processor.

§ 59.1-576. Data protection assessments.

A. A controller shall conduct and document a data protection assessment of each of the following processing activities involving personal data:

1. The processing of personal data for purposes of targeted advertising;

2. The sale of personal data;

3. The processing of personal data for purposes of profiling, where such profiling presents a reasonably foreseeable risk of (i) unfair or deceptive treatment of, or unlawful disparate impact on, consumers; (ii) financial, physical, or reputational injury to consumers; (iii) a physical or other intrusion upon the solitude or seclusion, or the private affairs or concerns, of consumers, where such intrusion would be offensive to a reasonable person; or (iv) other substantial injury to consumers;

4. The processing of sensitive data; and

5. Any processing activities involving personal data that present a heightened risk of harm to consumers.

B. Data protection assessments conducted pursuant to subsection A shall identify and weigh the benefits that may flow, directly and indirectly, from the processing to the controller, the consumer, other stakeholders, and the public against the potential risks to the rights of the consumer associated with such processing, as mitigated by safeguards that can be employed by the controller to reduce such risks. The use of de-identified data and the reasonable expectations of consumers, as well as the context of the processing and the relationship between the controller and the consumer whose personal data will be processed, shall be factored into this assessment by the controller.

C. The Attorney General may request, pursuant to a civil investigative demand, that a controller disclose any data protection assessment that is relevant to an investigation conducted by the Attorney General, and the controller shall make the data protection assessment available to the Attorney General. The Attorney General may evaluate the data protection assessment for compliance with the responsibilities set forth in § 59.1-574. Data protection assessments shall be confidential and exempt from public inspection and copying under the Virginia Freedom of Information Act (§ 2.2-3700 et seq.). The disclosure of a data protection assessment pursuant to a request from the Attorney General shall not constitute a waiver of attorney-client privilege or work product protection with respect to the assessment and any information contained in the assessment.

D. A single data protection assessment may address a comparable set of processing operations that include similar activities.

E. Data protection assessments conducted by a controller for the purpose of compliance with other laws or regulations may comply under this section if the assessments have a reasonably comparable scope and effect.

F. Data protection assessment requirements shall apply to processing activities created or generated after January 1, 2023, and are not retroactive.

§ 59.1-577. Processing de-identified data; exemptions.

A. The controller in possession of de-identified data shall:

- 1. Take reasonable measures to ensure that the data cannot be associated with a natural person;*
- 2. Publicly commit to maintaining and using de-identified data without attempting to re-identify the data; and*
- 3. Contractually obligate any recipients of the de-identified data to comply with all provisions of this chapter.*

B. Nothing in this chapter shall be construed to (i) require a controller or processor to re-identify de-identified data or pseudonymous data or (ii) maintain data in identifiable form, or collect, obtain, retain, or access any data or technology, in order to be capable of associating an authenticated consumer request with personal data.

C. Nothing in this chapter shall be construed to require a controller or processor to comply with an authenticated consumer rights request, pursuant to § 59.1-573, if all of the following are true:

- 1. The controller is not reasonably capable of associating the request with the personal data or it would be unreasonably burdensome for the controller to associate the request with the personal data;*
- 2. The controller does not use the personal data to recognize or respond to the specific consumer who is the subject of the personal data, or associate the personal data with other personal data about the same specific consumer; and*
- 3. The controller does not sell the personal data to any third party or otherwise voluntarily disclose the personal data to any third party other than a processor, except as otherwise permitted in this section.*

D. The consumer rights contained in subdivisions A 1 through 4 of § 59.1-573 and § 59.1-574 shall not apply to pseudonymous data in cases where the controller is able to demonstrate any information necessary to identify the consumer is kept separately and is subject to effective technical and organizational controls that prevent the controller from accessing such information.

E. A controller that discloses pseudonymous data or de-identified data shall exercise reasonable oversight to monitor compliance with any contractual commitments to which the pseudonymous data or de-identified data is subject and shall take appropriate steps to address any breaches of those contractual commitments.

§ 59.1-578. Limitations.

A. Nothing in this chapter shall be construed to restrict a controller's or processor's ability to:

- 1. Comply with federal, state, or local laws, rules, or regulations;*
- 2. Comply with a civil, criminal, or regulatory inquiry, investigation, subpoena, or summons by federal, state, local, or other governmental authorities;*
- 3. Cooperate with law-enforcement agencies concerning conduct or activity that the controller or processor reasonably and in good faith believes may violate federal, state, or local laws, rules, or regulations;*
- 4. Investigate, establish, exercise, prepare for, or defend legal claims;*
- 5. Provide a product or service specifically requested by a consumer, perform a contract to which the consumer is a party, including fulfilling the terms of a written warranty, or take steps at the request of the consumer prior to entering into a contract;*
- 6. Take immediate steps to protect an interest that is essential for the life or physical safety of the consumer or of another natural person, and where the processing cannot be manifestly based on another legal basis;*
- 7. Prevent, detect, protect against, or respond to security incidents, identity theft, fraud, harassment, malicious or deceptive activities, or any illegal activity; preserve the integrity or security of systems; or investigate, report, or prosecute those responsible for any such action;*

8. Engage in public or peer-reviewed scientific or statistical research in the public interest that adheres to all other applicable ethics and privacy laws and is approved, monitored, and governed by an institutional review board, or similar independent oversight entities that determine: (i) if the deletion of the information is likely to provide substantial benefits that do not exclusively accrue to the controller; (ii) the expected benefits of the research outweigh the privacy risks; and (iii) if the controller has implemented reasonable safeguards to mitigate privacy risks associated with research, including any risks associated with reidentification; or

9. Assist another controller, processor, or third party with any of the obligations under this subsection.

B. The obligations imposed on controllers or processors under this chapter shall not restrict a controller's or processor's ability to collect, use, or retain data to:

- 1. Conduct internal research to develop, improve, or repair products, services, or technology;*
- 2. Effectuate a product recall;*
- 3. Identify and repair technical errors that impair existing or intended functionality; or*
- 4. Perform internal operations that are reasonably aligned with the expectations of the consumer or reasonably anticipated based on the consumer's existing relationship with the controller or are otherwise compatible with processing data in furtherance of the provision of a product or service specifically requested by a consumer or the performance of a contract to which the consumer is a party.*

C. The obligations imposed on controllers or processors under this chapter shall not apply where compliance by the controller or processor with this chapter would violate an evidentiary privilege under the laws of the Commonwealth. Nothing in this chapter shall be construed to prevent a controller or processor from providing personal data concerning a

consumer to a person covered by an evidentiary privilege under the laws of the Commonwealth as part of a privileged communication.

D. A controller or processor that discloses personal data to a third-party controller or processor, in compliance with the requirements of this chapter, is not in violation of this chapter if the third-party controller or processor that receives and processes such personal data is in violation of this chapter, provided that, at the time of disclosing the personal data, the disclosing controller or processor did not have actual knowledge that the recipient intended to commit a violation. A third-party controller or processor receiving personal data from a controller or processor in compliance with the requirements of this chapter is likewise not in violation of this chapter for the transgressions of the controller or processor from which it receives such personal data.

E. Nothing in this chapter shall be construed as an obligation imposed on controllers and processors that adversely affects the rights or freedoms of any persons, such as exercising the right of free speech pursuant to the First Amendment to the United States Constitution, or applies to the processing of personal data by a person in the course of a purely personal or household activity.

F. Personal data processed by a controller pursuant to this section shall not be processed for any purpose other than those expressly listed in this section unless otherwise allowed by this chapter. Personal data processed by a controller pursuant to this section may be processed to the extent that such processing is:

1. Reasonably necessary and proportionate to the purposes listed in this section; and

2. Adequate, relevant, and limited to what is necessary in relation to the specific purposes listed in this section. Personal data collected, used, or retained pursuant to subsection B shall, where applicable, take into account the nature and purpose or purposes of such collection, use, or retention. Such data shall be subject to reasonable administrative, technical, and physical measures to protect the confidentiality, integrity, and accessibility of the personal data and to reduce reasonably foreseeable risks of harm to consumers relating to such collection, use, or retention of personal data.

G. If a controller processes personal data pursuant to an exemption in this section, the controller bears the burden of demonstrating that such processing qualifies for the exemption and complies with the requirements in subsection F.

H. Processing personal data for the purposes expressly identified in subdivisions A 1 through 9 shall not solely make an entity a controller with respect to such processing.

§ 59.1-579. Investigative authority.

Whenever the Attorney General has reasonable cause to believe that any person has engaged in, is engaging in, or is about to engage in any violation of this chapter, the Attorney General is empowered to issue a civil investigative demand. The provisions of § 59.1-9.10 shall apply mutatis mutandis to civil investigative demands issued under this section.

§ 59.1-580. Enforcement; civil penalty; expenses.

A. The Attorney General shall have exclusive authority to enforce the provisions of this chapter.

B. Prior to initiating any action under this chapter, the Attorney General shall provide a controller or processor 30 days' written notice identifying the specific provisions of this chapter the Attorney General alleges have been or are being violated. If within the 30-day period, the controller or processor cures the noticed violation and provides the Attorney General an express written statement that the alleged violations have been cured and that no further violations shall occur, no action shall be initiated against the controller or processor.

C. If a controller or processor continues to violate this chapter following the cure period in subsection B or breaches an express written statement provided to the Attorney General under that subsection, the Attorney General may initiate an action in the name of the Commonwealth and may seek an injunction to restrain any violations of this chapter and civil penalties of up to \$7,500 for each violation under this chapter.

D. The Attorney General may recover reasonable expenses incurred in investigating and preparing the case, including attorney fees, in any action initiated under this chapter.

E. Nothing in this chapter shall be construed as providing the basis for, or be subject to, a private right of action for violations of this chapter or under any other law.

§ 59.1-581. Consumer Privacy Fund.

There is hereby created in the state treasury a special nonreverting fund to be known as the Consumer Privacy Fund. The Fund shall be established on the books of the Comptroller. All civil penalties, expenses, and attorney fees collected pursuant to this chapter shall be paid into the state treasury and credited to the Fund. Interest earned on moneys in the Fund shall remain in the Fund and be credited to it. Any moneys remaining in the Fund, including interest thereon, at the end of each fiscal year shall not revert to the general fund but shall remain in the Fund. Moneys in the Fund shall be used to support the work of the Office of the Attorney General to enforce the provisions of this chapter, subject to appropriation.

2. The Chairman of the Joint Commission on Technology and Science shall create a work group composed of the Secretary of Commerce and Trade, the Secretary of Administration, the Attorney General, the Chairman of the Senate Committee on Transportation, representatives of businesses who control or process personal data of at least 100,000 persons, and consumer rights advocates. The work group shall review the provisions of this act and issues related to its implementation. The Chairman of the Joint Commission on Technology and Science shall submit the work group's findings, best practices, and recommendations regarding the implementation of this act to the Chairmen of the Senate Committee on General Laws and Technology and the House Committee on Communications, Technology and Innovation no later than November 1, 2021.

3. That any reference to federal law or statute in this act shall be deemed to include any accompanying rules or regulations or exemptions thereto. Further, this enactment is declaratory of existing law.

4. That the provisions of the first and third enactments of this act shall become effective on January 1, 2023.

§ 59.1-573. Personal data rights; consumers.

A. A consumer may invoke the consumer rights authorized pursuant to this subsection at any time by submitting a request to a controller specifying the consumer rights the consumer wishes to invoke. A known child's parent or legal guardian may invoke such consumer rights on behalf of the child regarding processing personal data belonging to the known child. A controller shall comply with an authenticated consumer request to exercise the right:

1. To confirm whether or not a controller is processing the consumer's personal data and to access such personal data;

2. To correct inaccuracies in the consumer's personal data, taking into account the nature of the personal data and the purposes of the processing of the consumer's personal data;

3. To delete personal data provided by or obtained about the consumer;

4. To obtain a copy of the consumer's personal data that the consumer previously provided to the controller in a portable and, to the extent technically feasible, readily usable format that allows the consumer to transmit the data to another controller without hindrance, where the processing is carried out by automated means; and

5. To opt out of the processing of the personal data for purposes of (i) targeted advertising, (ii) the sale of personal data, or (iii) profiling in furtherance of decisions that produce legal or similarly significant effects concerning the consumer.

B. Except as otherwise provided in this chapter, a controller shall comply with a request by a consumer to exercise the consumer rights authorized pursuant to subsection A as follows:

1. A controller shall respond to the consumer without undue delay, but in all cases within 45 days of receipt of the request submitted pursuant to the methods described in § 59.1-573 A. The response period may be extended once by 45 additional days when reasonably necessary, taking into account the complexity and number of the consumer's requests, so long as the controller informs the consumer of any such extension within the initial 45-day response period, together with the reason for the extension.

2. If a controller declines to take action regarding the consumer's request, the controller shall inform the consumer without undue delay, but in all cases and at the latest within 45 days of receipt of the request, of the justification for declining to take action and instructions for how to appeal the decision pursuant to subsection C.

3. Information provided in response to a consumer request shall be provided by a controller free of charge, up to twice annually per consumer. If requests from a consumer are manifestly unfounded, excessive, or repetitive, the controller may

charge the consumer a reasonable fee to cover the administrative costs of complying with the request or decline to act on the request. The controller bears the burden of demonstrating the manifestly unfounded, excessive, or repetitive nature of the request.

4. If a controller is unable to authenticate the request using commercially reasonable efforts, the controller shall not be required to comply with a request to initiate an action under subsection A and may request that the consumer provide additional information reasonably necessary to authenticate the consumer and the consumer's request.

C. A controller shall establish a process for a consumer to appeal the controller's refusal to take action on a request within a reasonable period of time after the consumer's receipt of the decision pursuant to subdivision B 2. The appeal process shall be conspicuously available and similar to the process for submitting requests to initiate action pursuant to subsection A. Within 60 days of receipt of an appeal, a controller shall inform the consumer in writing of any action taken or not taken in response to the appeal, including a written explanation of the reasons for the decisions. If the appeal is denied, the controller shall also provide the consumer with an online mechanism, if available, or other method through which the consumer may contact the Attorney General to submit a complaint.

§ 59.1-574. Data controller responsibilities; transparency.

A. A controller shall:

1. Limit the collection of personal data to what is adequate, relevant, and reasonably necessary in relation to the purposes for which such data is processed, as disclosed to the consumer;

2. Except as otherwise provided in this chapter, not process personal data for purposes that are neither reasonably necessary to nor compatible with the disclosed purposes for which such personal data is processed, as disclosed to the consumer, unless the controller obtains the consumer's consent;

3. Establish, implement, and maintain reasonable administrative, technical, and physical data security practices to protect the confidentiality, integrity, and accessibility of personal data. Such data security practices shall be appropriate to the volume and nature of the personal data at issue;

4. Not process personal data in violation of state and federal laws that prohibit unlawful discrimination against consumers. A controller shall not discriminate against a consumer for exercising any of the consumer rights contained in this chapter, including denying goods or services, charging different prices or rates for goods or services, or providing a different level of quality of goods and services to the consumer. However, nothing in this subdivision shall be construed to require a controller to provide a product or service that requires the personal data of a consumer that the controller does not collect or maintain or to prohibit a controller from offering a different price, rate, level, quality, or selection of goods or services to a consumer, including offering goods or services for no fee, if the consumer has exercised his right to opt out pursuant to § 59.1-573 or the offer is related to a consumer's voluntary participation in a bona fide loyalty, rewards, premium features, discounts, or club card program; and

5. Not process sensitive data concerning a consumer without obtaining the consumer's consent, or, in the case of the processing of sensitive data concerning a known child, without processing such data in accordance with the federal Children's Online Privacy Protection Act (15 U.S.C. § 6501 et seq.).

B. Any provision of a contract or agreement of any kind that purports to waive or limit in any way consumer rights pursuant to § 59.1-573 shall be deemed contrary to public policy and shall be void and unenforceable.

C. Controllers shall provide consumers with a reasonably accessible, clear, and meaningful privacy notice that includes:

1. The categories of personal data processed by the controller;

2. The purpose for processing personal data;

3. How consumers may exercise their consumer rights pursuant § 59.1-573, including how a consumer may appeal a controller's decision with regard to the consumer's request;

4. The categories of personal data that the controller shares with third parties, if any; and

5. The categories of third parties, if any, with whom the controller shares personal data.

D. If a controller sells personal data to third parties or processes personal data for targeted advertising, the controller shall clearly and conspicuously disclose such processing, as well as the manner in which a consumer may exercise the right to opt out of such processing.

E. A controller shall establish, and shall describe in a privacy notice, one or more secure and reliable means for consumers to submit a request to exercise their consumer rights under this chapter. Such means shall take into account the ways in which consumers normally interact with the controller, the need for secure and reliable communication of such requests, and the ability of the controller to authenticate the identity of the consumer making the request. Controllers shall not require a consumer to create a new account in order to exercise consumer rights pursuant to § 59.1-573 but may require a consumer to use an existing account.

§ 59.1-575. Responsibility according to role; controller and processor.

A. A processor shall adhere to the instructions of a controller and shall assist the controller in meeting its obligations under this chapter. Such assistance shall include:

1. Taking into account the nature of processing and the information available to the processor, by appropriate technical and organizational measures, insofar as this is reasonably practicable, to fulfill the controller's obligation to respond to consumer rights requests pursuant to § 59.1-573.

2. Taking into account the nature of processing and the information available to the processor, by assisting the controller in meeting the controller's obligations in relation to the security of processing the personal data and in relation to the notification of a breach of security of the system of the processor pursuant to § 18.2-186.6 in order to meet the controller's obligations.

3. Providing necessary information to enable the controller to conduct and document data protection assessments pursuant to § 59.1-576.

B. A contract between a controller and a processor shall govern the processor's data processing procedures with respect to processing performed on behalf of the controller. The contract shall be binding and clearly set forth instructions for processing data, the nature and purpose of processing, the type of data subject to processing, the duration of processing, and the rights and obligations of both parties. The contract shall also include requirements that the processor shall:

1. Ensure that each person processing personal data is subject to a duty of confidentiality with respect to the data;

2. At the controller's direction, delete or return all personal data to the controller as requested at the end of the provision of services, unless retention of the personal data is required by law;

3. Upon the reasonable request of the controller, make available to the controller all information in its possession necessary to demonstrate the processor's compliance with the obligations in this chapter;

4. Allow, and cooperate with, reasonable assessments by the controller or the controller's designated assessor; alternatively, the processor may arrange for a qualified and independent assessor to conduct an assessment of the processor's policies and technical and organizational measures in support of the obligations under this chapter using an appropriate and accepted control standard or framework and assessment procedure for such assessments. The processor shall provide a report of such assessment to the controller upon request; and

5. Engage any subcontractor pursuant to a written contract in accordance with subsection C that requires the subcontractor to meet the obligations of the processor with respect to the personal data.

C. Nothing in this section shall be construed to relieve a controller or a processor from the liabilities imposed on it by virtue of its role in the processing relationship as defined by this chapter.

D. Determining whether a person is acting as a controller or processor with respect to a specific processing of data is a fact-based determination that depends upon the context in which personal data is to be processed. A processor that continues to adhere to a controller's instructions with respect to a specific processing of personal data remains a processor.

§ 59.1-576. Data protection assessments.

A. A controller shall conduct and document a data protection assessment of each of the following processing activities involving personal data:

1. The processing of personal data for purposes of targeted advertising;

2. The sale of personal data;

3. The processing of personal data for purposes of profiling, where such profiling presents a reasonably foreseeable risk of (i) unfair or deceptive treatment of, or unlawful disparate impact on, consumers; (ii) financial, physical, or reputational injury to consumers; (iii) a physical or other intrusion upon the solitude or seclusion, or the private affairs or concerns, of consumers, where such intrusion would be offensive to a reasonable person; or (iv) other substantial injury to consumers;

4. The processing of sensitive data; and

5. Any processing activities involving personal data that present a heightened risk of harm to consumers.

B. Data protection assessments conducted pursuant to subsection A shall identify and weigh the benefits that may flow, directly and indirectly, from the processing to the controller, the consumer, other stakeholders, and the public against the potential risks to the rights of the consumer associated with such processing, as mitigated by safeguards that can be employed by the controller to reduce such risks. The use of de-identified data and the reasonable expectations of consumers, as well as the context of the processing and the relationship between the controller and the consumer whose personal data will be processed, shall be factored into this assessment by the controller.

C. The Attorney General may request, pursuant to a civil investigative demand, that a controller disclose any data protection assessment that is relevant to an investigation conducted by the Attorney General, and the controller shall make the data protection assessment available to the Attorney General. The Attorney General may evaluate the data protection assessment for compliance with the responsibilities set forth in § 59.1-574. Data protection assessments shall be confidential and exempt from public inspection and copying under the Virginia Freedom of Information Act (§ 2.2-3700 et seq.). The disclosure of a data protection assessment pursuant to a request from the Attorney General shall not constitute a waiver of attorney-client privilege or work product protection with respect to the assessment and any information contained in the assessment.

D. A single data protection assessment may address a comparable set of processing operations that include similar activities.

E. Data protection assessments conducted by a controller for the purpose of compliance with other laws or regulations may comply under this section if the assessments have a reasonably comparable scope and effect.

F. Data protection assessment requirements shall apply to processing activities created or generated after January 1, 2023, and are not retroactive.

§ 59.1-577. Processing de-identified data; exemptions.

A. The controller in possession of de-identified data shall:

1. Take reasonable measures to ensure that the data cannot be associated with a natural person;
2. Publicly commit to maintaining and using de-identified data without attempting to re-identify the data; and
3. Contractually obligate any recipients of the de-identified data to comply with all provisions of this chapter.

B. Nothing in this chapter shall be construed to (i) require a controller or processor to re-identify de-identified data or pseudonymous data or (ii) maintain data in identifiable form, or collect, obtain, retain, or access any data or technology, in order to be capable of associating an authenticated consumer request with personal data.

C. Nothing in this chapter shall be construed to require a controller or processor to comply with an authenticated consumer rights request, pursuant to § 59.1-573, if all of the following are true:

1. The controller is not reasonably capable of associating the request with the personal data or it would be unreasonably burdensome for the controller to associate the request with the personal data;
2. The controller does not use the personal data to recognize or respond to the specific consumer who is the subject of the personal data, or associate the personal data with other personal data about the same specific consumer; and
3. The controller does not sell the personal data to any third party or otherwise voluntarily disclose the personal data to any third party other than a processor, except as otherwise permitted in this section.

D. The consumer rights contained in subdivisions A 1 through 4 of § 59.1-573 and § 59.1-574 shall not apply to pseudonymous data in cases where the controller is able to demonstrate any information necessary to identify the consumer is kept separately and is subject to effective technical and organizational controls that prevent the controller from accessing such information.

E. A controller that discloses pseudonymous data or de-identified data shall exercise reasonable oversight to monitor compliance with any contractual commitments to which the pseudonymous data or de-identified data is subject and shall take appropriate steps to address any breaches of those contractual commitments.

§ 59.1-578. Limitations.

A. Nothing in this chapter shall be construed to restrict a controller's or processor's ability to:

1. Comply with federal, state, or local laws, rules, or regulations;
2. Comply with a civil, criminal, or regulatory inquiry, investigation, subpoena, or summons by federal, state, local, or other governmental authorities;
3. Cooperate with law-enforcement agencies concerning conduct or activity that the controller or processor reasonably and in good faith believes may violate federal, state, or local laws, rules, or regulations;
4. Investigate, establish, exercise, prepare for, or defend legal claims;
5. Provide a product or service specifically requested by a consumer; perform a contract to which the consumer is a party, including fulfilling the terms of a written warranty, or take steps at the request of the consumer prior to entering into a contract;
6. Take immediate steps to protect an interest that is essential for the life or physical safety of the consumer or of another natural person, and where the processing cannot be manifestly based on another legal basis;
7. Prevent, detect, protect against, or respond to security incidents, identity theft, fraud, harassment, malicious or deceptive activities, or any illegal activity; preserve the integrity or security of systems; or investigate, report, or prosecute those responsible for any such action;
8. Engage in public or peer-reviewed scientific or statistical research in the public interest that adheres to all other applicable ethics and privacy laws and is approved, monitored, and governed by an institutional review board, or similar independent oversight entities that determine: (i) if the deletion of the information is likely to provide substantial benefits that do not exclusively accrue to the controller; (ii) the expected benefits of the research outweigh the privacy risks; and (iii) if the controller has implemented reasonable safeguards to mitigate privacy risks associated with research, including any risks associated with reidentification; or
9. Assist another controller, processor, or third party with any of the obligations under this subsection.

B. The obligations imposed on controllers or processors under this chapter shall not restrict a controller's or processor's ability to collect, use, or retain data to:

1. Conduct internal research to develop, improve, or repair products, services, or technology;
2. Effectuate a product recall;
3. Identify and repair technical errors that impair existing or intended functionality; or
4. Perform internal operations that are reasonably aligned with the expectations of the consumer or reasonably anticipated based on the consumer's existing relationship with the controller or are otherwise compatible with processing data in furtherance of the provision of a product or service specifically requested by a consumer or the performance of a contract to which the consumer is a party.

C. The obligations imposed on controllers or processors under this chapter shall not apply where compliance by the controller or processor with this chapter would violate an evidentiary privilege under the laws of the Commonwealth. Nothing in this chapter shall be construed to prevent a controller or processor from providing personal data concerning a consumer to a person covered by an evidentiary privilege under the laws of the Commonwealth as part of a privileged communication.

D. A controller or processor that discloses personal data to a third-party controller or processor, in compliance with the requirements of this chapter, is not in violation of this chapter if the third-party controller or processor that receives and processes such personal data is in violation of this chapter, provided that, at the time of disclosing the personal data, the

disclosing controller or processor did not have actual knowledge that the recipient intended to commit a violation. A third-party controller or processor receiving personal data from a controller or processor in compliance with the requirements of this chapter is likewise not in violation of this chapter for the transgressions of the controller or processor from which it receives such personal data.

E. Nothing in this chapter shall be construed as an obligation imposed on controllers and processors that adversely affects the rights or freedoms of any persons, such as exercising the right of free speech pursuant to the First Amendment to the United States Constitution, or applies to the processing of personal data by a person in the course of a purely personal or household activity.

F. Personal data processed by a controller pursuant to this section shall not be processed for any purpose other than those expressly listed in this section unless otherwise allowed by this chapter. Personal data processed by a controller pursuant to this section may be processed to the extent that such processing is:

1. Reasonably necessary and proportionate to the purposes listed in this section; and

2. Adequate, relevant, and limited to what is necessary in relation to the specific purposes listed in this section. Personal data collected, used, or retained pursuant to subsection B shall, where applicable, take into account the nature and purpose or purposes of such collection, use, or retention. Such data shall be subject to reasonable administrative, technical, and physical measures to protect the confidentiality, integrity, and accessibility of the personal data and to reduce reasonably foreseeable risks of harm to consumers relating to such collection, use, or retention of personal data.

G. If a controller processes personal data pursuant to an exemption in this section, the controller bears the burden of demonstrating that such processing qualifies for the exemption and complies with the requirements in subsection F.

H. Processing personal data for the purposes expressly identified in subdivisions A 1 through 9 shall not solely make an entity a controller with respect to such processing.

§ 59.1-579. Investigative authority.

Whenever the Attorney General has reasonable cause to believe that any person has engaged in, is engaging in, or is about to engage in any violation of this chapter, the Attorney General is empowered to issue a civil investigative demand. The provisions of § 59.1-9.10 shall apply mutatis mutandis to civil investigative demands issued under this section.

§ 59.1-580. Enforcement; civil penalty; expenses.

A. The Attorney General shall have exclusive authority to enforce the provisions of this chapter.

B. Prior to initiating any action under this chapter, the Attorney General shall provide a controller or processor 30 days' written notice identifying the specific provisions of this chapter the Attorney General alleges have been or are being violated. If within the 30-day period, the controller or processor cures the noticed violation and provides the Attorney General an express written statement that the alleged violations have been cured and that no further violations shall occur, no action shall be initiated against the controller or processor.

C. If a controller or processor continues to violate this chapter following the cure period in subsection B or breaches an express written statement provided to the Attorney General under that subsection, the Attorney General may initiate an action in the name of the Commonwealth and may seek an injunction to restrain any violations of this chapter and civil penalties of up to \$7,500 for each violation under this chapter.

D. The Attorney General may recover reasonable expenses incurred in investigating and preparing the case, including attorney fees, in any action initiated under this chapter.

E. Nothing in this chapter shall be construed as providing the basis for, or be subject to, a private right of action for violations of this chapter or under any other law.

§ 59.1-581. Consumer Privacy Fund.

There is hereby created in the state treasury a special nonreverting fund to be known as the Consumer Privacy Fund. The Fund shall be established on the books of the Comptroller. All civil penalties, expenses, and attorney fees collected pursuant to this chapter shall be paid into the state treasury and credited to the Fund. Interest earned on moneys in the Fund shall remain in the Fund and be credited to it. Any moneys remaining in the Fund, including interest thereon, at the end of each fiscal year shall not revert to the general fund but shall remain in the Fund. Moneys in the Fund shall be used to support the work of the Office of the Attorney General to enforce the provisions of this chapter, subject to appropriation.

2. The Chairman of the Joint Commission on Technology and Science shall create a work group composed of the Secretary of Commerce and Trade, the Secretary of Administration, the Attorney General, the Chairman of the Senate Committee on Transportation, representatives of businesses who control or process personal data of at least 100,000 persons, and consumer rights advocates. The work group shall review the provisions of this act and issues related to its implementation. The Chairman of the Joint Commission on Technology and Science shall submit the work group's findings, best practices, and recommendations regarding the implementation of this act to the Chairmen of the Senate Committee on General Laws and Technology and the House Committee on Communications, Technology and Innovation no later than November 1, 2021.

3. That any reference to federal law or statute in this act shall be deemed to include any accompanying rules or regulations or exemptions thereto. Further, this enactment is declaratory of existing law.

4. That the provisions of the first and third enactments of this act shall become effective on January 1, 2023.

The aggregate principal amount of such refunding bonds shall not exceed the *amount required to redeem or otherwise provide for the payment of the unpaid principal of and the interest on and any redemption premium payable on the Bonds to be refunded to their date of redemption or payment, plus amounts needed to fund capitalized or funded interest on the refunding bonds, and pay all expenses incurred in the issuance of such costs and other financing expenses of the refunding bonds.* Such refunding bonds may be issued whether or not the Bonds to be refunded are then subject to redemption, ~~provided that no such refunding bonds shall be issued unless such refunding bonds bear interest at an effective interest cost which is lower than the effective interest cost of the Bonds to be refunded, and the aggregate principal of and interest on the refunding bonds to their maturities shall be less than the aggregate principal of and interest that would have been paid or accrued on the Bonds to be refunded from the date of the refunding bonds until the original maturities of the Bonds to be refunded.~~

§ 4. The refunding bonds shall be dated, shall bear interest at such rate or rates, ~~shall mature at such time or times not later than the latest maturity date of the Bonds to be refunded,~~ and may be made redeemable before their maturity or maturities at such price or prices, all as may be determined by the Treasury Board, by and with the consent of the Governor. The refunding bonds may be issued in registered form as the Treasury Board may determine. If the refunding bonds are issued in registered form, the Treasury Board may appoint such registrars, transfer agents, or other authenticating trustees as it deems appropriate to maintain a record of the persons entitled to the refunding bonds and the interest due thereon. Refunding bonds issued in registered form may be issued under a system of book entry for recording the ownership and transfer of ownership of rights to receive payments of principal of, premium, if any, and interest on the refunding bonds. The refunding bonds shall be deemed to be negotiable instruments under the laws of the Commonwealth.

The Treasury Board may sell the refunding bonds in such manner, at public or private sale, and for such price as it may determine, by and with the consent of the Governor, to be in the best interest of the Commonwealth. The refunding bonds may be sold at par or at a premium or discount, ~~provided that the aggregate discount shall not exceed two percent of the par amount of the refunding bonds.~~

The Treasury Board shall be authorized to supplement the refunding bond proceeds from excess moneys in any debt service, sinking or comparable trust fund established pursuant to previous issues of higher educational institutions bonds so long as such excess fund moneys are not otherwise restricted by law or by express contract with the holders of such prior bonds. These supplemental amounts shall be applied in the same manner as set forth in § 3 hereof for the application of the proceeds from the sale of such refunding bonds.

2. That, notwithstanding any maturity limitations set forth in previously enacted acts of assembly authorizing the issuance of debt pursuant to Article X, Section 9 (c) of the Constitution of Virginia, any such refunding bond may mature at such time or times not exceeding 35 years from the date or dates of the Bonds to be refunded.

3. That the provisions of this act shall expire on June 30, 2023.

4. That an emergency exists and this act is in force from its passage.

[H 1763]

Approved March 11, 2021

Be it enacted by the General Assembly of Virginia:**1. That §§ 58.1-339.3 and 58.1-439.5 of the Code of Virginia are amended and reenacted as follows:****§ 58.1-339.3. Agricultural best management practices tax credit.**

A. 1. *As used in this section, "agricultural best management practice" means a practice approved by the Virginia Soil and Water Conservation Board that will provide a significant improvement to water quality in the state's streams and rivers and the Chesapeake Bay and is consistent with other state and federal programs that address agricultural, nonpoint source pollution management. A detailed list of the standards and criteria for agricultural best management practices eligible for credit shall be found in the most recently approved "Virginia Agricultural BMP Manual" published annually prior to July 1 by the Department of Conservation and Recreation.*

2. For all taxable years beginning on and after January 1, 1998, *but before January 1, 2025*, any individual who is engaged in agricultural production for market, or has equines that create needs for agricultural best management practices to reduce nonpoint source pollutants, and has in place a soil conservation plan approved by the local Soil And Water Conservation District (SWCD), shall be allowed a *refundable* credit against the tax imposed by § 58.1-320 ~~of~~ *in* an amount equaling 25 percent of the first \$70,000 \$100,000 expended for agricultural best management practices by the individual.

~~As used in this section, "agricultural best management practice" means a practice approved by the Virginia Soil and Water Conservation Board (VSWCB) which will provide a significant improvement to water quality in the state's streams and rivers and the Chesapeake Bay and is consistent with other state and federal programs that address agricultural, nonpoint source pollution management. Eligible practices shall include, but are not limited to, the following:~~

- ~~2. Soil erosion control;~~
- ~~3. Nutrient and sediment filtration and detention;~~
- ~~4. Nutrient management; and~~

~~A detailed list of the standards and criteria for practices eligible for credit shall be found in the most recently approved "Virginia Agricultural BMP Manual" published annually prior to July 1 by the Department of Conservation and Recreation.~~

3. *For all taxable years beginning on and after January 1, 2021, but before January 1, 2025*, any individual who is engaged in agricultural production for market, or who has equines that create needs for agricultural best management practices to reduce nonpoint source pollutants, and has in place a resource management plan approved by the local SWCD shall be allowed a *refundable* credit against the tax imposed by § 58.1-320 in an amount equaling 50 percent of the first \$100,000 expended for agricultural best management practices implemented by the individual on the acreage included in the resource management plan.

B. 1. Any *eligible* practice approved by the local Soil and Water Conservation District Board shall be completed within the taxable year in which the credit is claimed. After the practice installation has been completed, the local SWCD Board shall certify the practice as approved and completed, and eligible for credit. The applicant shall forward the certification to the Department of Taxation on forms provided by the Department. 2. *To the extent that a taxpayer participates in the Virginia Agricultural Best Management Practices Cost-Share Program, the taxpayer may claim the credit under subdivision A 2 for any remaining liability after such cost-share, but may not claim the credit under subdivision A 3 for any such remaining liability, subject to the other provisions of this section. For purposes of this subdivision, "liability after such cost-share" means the limitation of the tax credits to the total costs incurred by the taxpayer for agricultural best management practices reduced by any funding received by participation in the Virginia Agricultural Best Management Practices Cost-Share Program.*

C. 1. Tax credits shall be refunded by the Tax Commissioner on behalf of the Commonwealth for 100 percent of face value. Tax credits shall be refunded within 90 days after the filing date of the income tax return on which the individual applies for the refund.

D. For purposes of this section, the amount of any credit attributable to agricultural best management practices by a pass-through entity such as a partnership, limited liability company, or electing small business corporation (S Corporation)

E. A pass-through tax entity, such as a partnership, limited liability company or electing small business corporation (S corporation), may appoint a tax matters representative, who shall be a general partner, member-manager or shareholder, and register that representative with the Tax Commissioner. The Tax Commissioner shall be entitled to deal with the tax matters representative as representative of the taxpayers to whom credits have been allocated by the entity under this article with respect to those credits. Any taxpayer claiming a tax credit under this section shall not claim a credit under any similar Virginia law for costs related to the same eligible practices. A taxpayer may not claim credit for the same practice in the same management area under both subdivisions A 2 and A 3.

B. 1. Any *eligible* practice approved by the local Soil and Water Conservation District Board shall be completed within the taxable year in which the credit is claimed. After the practice installation has been completed, the local SWCD Board shall certify the practice as approved and completed, and eligible for credit. The credit shall be allowed only for expenditures made by the taxpayer from funds of his own sources.

2. *To the extent that a taxpayer participates in the Virginia Agricultural Best Management Practices Cost-Share Program, the taxpayer may claim the credit under subdivision A 2 for any remaining liability after such cost-share, but may not claim the credit under subdivision A 3 for any such remaining liability, subject to the other provisions of this section. For purposes of this subdivision, "liability after such cost-share" means the limitation of the tax credits to the total costs incurred by the taxpayer for agricultural best management practices reduced by any funding received by participation in the Virginia Agricultural Best Management Practices Cost-Share Program.*

C. 1. The *aggregate* amount of such credit *claimed under subdivisions A 2 and 3* shall not exceed \$17,500 ~~\$75,000~~ or the total amount of the tax imposed by this chapter, whichever is less, in the year the project was completed, as certified by the Board. Tax credits shall be refunded by the Tax Commissioner on behalf of the Commonwealth for 100 percent of face value. Tax credits shall be refunded within 90 days after the filing date of the income tax return on which the individual applies for the refund.

D. In the event such payment demand is not satisfied, the Tax Commissioner shall proceed to collection against the taxpayers in accordance with the provisions of Chapter 18 (§ 58.1-1800 et seq.).

CHAPTER 41

An Act to amend and reenact § 56-599 of the Code of Virginia and to amend the Code of Virginia by adding in Chapter 26 of Title 45.1 a section numbered 45.1-394.1, relating to public disclosure of electric generating facility closures; integrated resource plans.

[H 1834]

Approved March 11, 2021

Be it enacted by the General Assembly of Virginia:

1. That § 56-599 of the Code of Virginia is amended and reenacted and that the Code of Virginia is amended by adding in Chapter 26 of Title 45.1 a section numbered 45.1-394.1 as follows:

§ 45.1-394.1. Public disclosure of certain electric generating facility closures.

A. The provisions of this section shall apply to any electric generating facility that:

1. Has a nameplate generating capacity of 80 megawatts or more;

2. Is located in the Commonwealth;

3. Emits carbon dioxide as a byproduct of combusting fuel, whether or not certificated by the State Corporation Commission pursuant to subsection D of § 56-580; and

4. Is subject to, and not exempt from, regulations adopted pursuant to subsection E of § 10.1-1308 or § 10.1-1330.

B. Within 30 days of the owner of an electric generating facility making public the decision to close such facility, or within 30 days of the owner of an electric generating facility making a filing with the U.S. Securities and Exchange Commission regarding a material impact to the cost, operations, or financial condition of the owner, which material impact is a direct precursor to the closure of the electric generating facility, the owner shall send a written notice of the impending closure to:

1. The governing body of the locality where the facility is located;

2. The governing body of any locality adjoining the locality where the facility is located;

3. Any town council located within a county described in subdivision 1;

4. Any planning district commission of any locality described in subdivision 1 or 2;

5. The State Corporation Commission Division of Public Utility Regulation;

6. The Department and the Division;

7. The Department of Housing and Community Development;

8. PJM Interconnection, LLC;

9. The Virginia Employment Commission;

10. The Department of Environmental Quality; and

11. The Virginia Council on Environmental Justice.

C. The notice required by subsection B shall include, at a minimum, (i) the anticipated closure date of the facility; (ii) references to any website maintained by the owner containing closure information; (iii) a list of permits obtained from a local government, the State Air Pollution Control Board, the State Water Control Board, or the Department of Environmental Quality, including the permit number and date of issuance; (iv) anticipated future use of the facility site, if known; (v) workforce transition assistance information; and (vi) decommissioning information. If the owner of the facility is a registrant with the U.S. Securities and Exchange Commission, any filings mentioning the impending closure shall also be included with the notice.

D. In the six months following receipt of the notice required by subsection B, the governing body of the locality where the facility is located shall conduct at least three public hearings, which may be part of a regular meeting agenda, where at least one representative of the owner of the facility being closed shall be present, make a presentation regarding the impending closure, and take questions from the governing body and the public.

E. In the six months following receipt of the notice required by subsection B, the planning district commission of the locality where the facility is located shall conduct at least one public hearing, which may be part of a regular meeting agenda, where at least one representative of the owner of the facility being closed shall be present, make a presentation regarding the impending closure, and take questions from the planning district commission and the public.

F. The Division shall maintain a public website listing the facilities subject to this section and their anticipated closure dates, if such dates are reasonably known by virtue of the laws of the Commonwealth or a public record or filing with an agency of the Commonwealth, including the State Corporation Commission, and a link shall be provided to the facilities' environmental protection or remediation obligations included in permits obtained from the Department, State Air Pollution Control Board, State Water Control Board, Department of Environmental Quality, or local governing body. At least every 12 months, the State Corporation Commission shall transmit to the Division any information that it reasonably believes would necessitate updates to the anticipated closure dates or other information contained on the Division's website.

G. As providing advance notice to affected communities of an impending closure of a facility under this section is a matter of vital importance for public policy, this section shall be liberally construed. The obligations imposed on agencies of the Commonwealth under this section are to be construed in favor of public disclosure of the information required by subsection F.

H. Notwithstanding the provisions of subsection A, the provisions of this section shall not apply to any electric generating facility that has a nameplate generating capacity of 90 megawatts or less and that filed a deactivation notice with PJM Interconnection, LLC, prior to September 1, 2019.

§ 56-599. Integrated resource plan required.

A. Each electric utility shall file an updated integrated resource plan by July 1, 2015. Thereafter, each electric utility shall file an updated integrated resource plan by May 1, in each year immediately preceding the year the utility is subject to a triennial review filing. A copy of each integrated resource plan shall be provided to the Chairmen of the House and Senate Committees on Commerce and Labor and to the Chairman of the Commission on Electric Utility Regulation. All updated integrated resource plans shall comply with the provisions of any relevant order of the Commission establishing guidelines for the format and contents of updated and revised integrated resource plans. Each integrated resource plan shall consider options for maintaining and enhancing rate stability, energy independence, economic development including retention and expansion of energy-intensive industries, and service reliability.

B. In preparing an integrated resource plan, each electric utility shall systematically evaluate and may propose:

1. Entering into short-term and long-term electric power purchase contracts;
2. Owning and operating electric power generation facilities;
3. Building new generation facilities;
4. Relying on purchases from the short term or spot markets;
5. Making investments in demand-side resources, including energy efficiency and demand-side management services;
6. Taking such other actions, as the Commission may approve, to diversify its generation supply portfolio and ensure that the electric utility is able to implement an approved plan;
7. The methods by which the electric utility proposes to acquire the supply and demand resources identified in its proposed integrated resource plan;
8. The effect of current and pending state and federal environmental regulations upon the continued operation of existing electric generation facilities or options for construction of new electric generation facilities;
9. The most cost effective means of complying with current and pending state and federal environmental regulations, including compliance options to minimize effects on customer rates of such regulations;
10. Long-term electric distribution grid planning and proposed electric distribution grid transformation projects;
11. Developing a long-term plan for energy efficiency measures to accomplish policy goals of reduction in customer bills, particularly for low-income, elderly, and disabled customers; reduction in emissions; and reduction in carbon intensity; and
12. Developing a long-term plan to integrate new energy storage facilities into existing generation and distribution assets to assist with grid transformation.

C. As part of preparing any integrated resource plan pursuant to this section, each utility shall conduct a facility retirement study for owned facilities located in the Commonwealth that emit carbon dioxide as a byproduct of combusting fuel and shall include the study results in its integrated resource plan. Upon filing the integrated resource plan with the Commission, the utility shall contemporaneously disclose the study results to each planning district commission, county board of supervisors, and city and town council where such electric generation unit is located, the Department of Mines, Minerals and Energy, the Department of Housing and Community Development, the Virginia Employment Commission, and the Virginia Council on Environmental Justice. The disclosure shall include (i) the driving factors of the decision to retire and (ii) the anticipated retirement year of any electric generation unit included in the plan. Any electric generating facility with an anticipated retirement date that meets the criteria of § 45.1-394.1 shall comply with the public disclosure requirements therein.

D. The Commission shall analyze and review an integrated resource plan and, after giving notice and opportunity to be heard, the Commission shall make a determination within nine months after the date of filing as to whether such an integrated resource plan is reasonable and is in the public interest.

research expense"; (ii) substituting "Virginia qualified research" for "qualified research"; and (iii) instead of "fixed base percentage," using:

1. The percentage that the Virginia qualified research and development expense for the three taxable years immediately preceding the current taxable year in which the expense is incurred is of the taxpayer's total gross receipts for such years; or

2. The percentage that the Virginia qualified research and development expense for the applicable number of taxable years immediately preceding the current taxable year in which the expense is incurred is of the taxpayer's total gross receipts for such years, for the taxpayer that has fewer than three but at least one prior taxable year.

2. For taxable years beginning on or after January 1, 2021, but before January 1, 2025, a taxpayer shall be allowed a credit against the tax levied pursuant to § 58.1-320, 58.1-400, or 58.1-1202 in an amount equal to (i) 15 percent of the first \$300,000 in Virginia qualified research and development expenses paid or incurred by the taxpayer during the taxable year or (ii) 20 percent of the first \$300,000 in Virginia qualified research and development expenses paid or incurred by the taxpayer during the taxable year if the Virginia qualified research was conducted in conjunction with a public or private institution of higher education in the Commonwealth, to the extent the expenses exceed the Virginia base amount for the taxpayer.

C. 1. Effective for taxable years beginning on or after January 1, 2016, at the election of the taxpayer, the credit otherwise allowed under this section shall be computed under this subsection and shall equal 10 percent of the difference of (i) the Virginia qualified research and development expenses paid or incurred by the taxpayer during the taxable year and (ii) 50 percent of the average Virginia qualified research and development expenses paid or incurred by the taxpayer for the three taxable years immediately preceding the taxable year for which the credit is being determined. If the taxpayer did not pay or incur Virginia qualified research and development expenses in any one of the three taxable years immediately preceding the taxable year for which the credit is being determined, the tax credit shall equal five percent of the Virginia qualified research and development expenses paid or incurred by the taxpayer during the relevant taxable year.

2. The aggregate amount of credits allowed to each taxpayer under this subsection shall not exceed \$45,000 for the taxable year, except that the aggregate amount of credits allowed to each taxpayer shall not exceed \$60,000 for the taxable year if the Virginia qualified research was conducted in conjunction with a public institution of higher education in the Commonwealth or a private institution of higher education in the Commonwealth.

D. The aggregate amount of credits available under this section for each fiscal year of the Commonwealth shall be as follows:

1. For taxable years beginning on and after January 1, 2014, but before January 1, 2016, the total amount of credits granted for each of fiscal years 2015 and 2016 shall not exceed \$6 million.

Applications must be received by the Department no later than September 1 of the calendar year following the close of the taxable year in which the expenses were paid or incurred. In the event that approved applications for the tax credits allowed under this section exceed the amount of credits specified in subsection D for the taxable year, the Department shall apportion the credits by dividing the amount of credits specified in subsection D by the total amount of tax credits approved, to determine the percentage of allowed tax credits each taxpayer shall receive. In the event that the total amount of approved tax credits under this section for all applications for any taxable year is less than the maximum amount of credits for the year as specified in subsection D, the Department shall allocate credits up to the maximum amount as specified in subsection D, on a pro rata basis, to taxpayers who are already approved for the tax credit for the taxable year, in the following amounts:

1. If the taxpayer computed the credit pursuant to subsection B, in an amount equal to 15 percent of the second \$300,000 in qualified research expenses during the taxable year or 20 percent of the second \$300,000 in qualified research expenses if the Virginia qualified research was conducted in conjunction with a public institution of higher education in the Commonwealth or a private institution of higher education in the Commonwealth; or

2. If the taxpayer computed the credit under subdivision C 1, in an amount equal to the excess of the limitation set forth in subdivision C 2, up to an additional \$45,000 per taxpayer, or \$60,000 per taxpayer if the Virginia qualified research was conducted in conjunction with a public institution of higher education in the Commonwealth or a private institution of higher education in the Commonwealth.

F. If the amount of the credit allowed exceeds the taxpayer's tax liability for the taxable year, the amount that exceeds the tax liability shall be refunded to the taxpayer, subject to the limitations set forth in the guidelines developed by the Department.

G. Any taxpayer who claims the tax credit for Virginia qualified research and development expenses pursuant to this section shall not use such expenses as the basis for claiming any other credit provided under the Code of Virginia.

H. Effective for taxable years beginning on or after January 1, 2016, no taxpayer with Virginia qualified research and development expenses in excess of \$5 million for the taxable year shall claim both the credit allowed pursuant to this section and the credit allowed under § 58.1-439.12:11 for such year.

I. Credits granted to a partnership, limited liability company, or electing small business corporation (S corporation) shall be allocated to the individual partners, members, or shareholders, respectively, in proportion to their ownership interests in such entities or in accordance with a written agreement entered into by such individual partners, members, or shareholders, unless the partnership, limited liability company, or electing small business corporation (S corporation) elects for such credits not to be so allocated but to be received and claimed at the entity level by the partnership, limited liability company, or electing small business corporation (S corporation) pursuant to guidelines that shall be issued by the Department for purposes of such election.

J. The Department shall adopt guidelines to prescribe standards for determining when research and development is considered conducted in the Commonwealth for purposes of allowing the credit under this section. In adopting guidelines, the Department may consider (i) the location where the research and development is performed; (ii) the residence or business location of the taxpayer or taxpayers conducting the research and development; (iii) the location where supplies used in the research and development are consumed; and (iv) any other factors that the Department deems to be relevant.

K. The Tax Commissioner's annual report to the Governor on revenue collections by tax source shall include (i) the total number of applicants approved for tax credits pursuant to this section for the applicable tax year and (ii) the total amount of such tax credits approved for the applicable tax year.

L. The Department shall require taxpayers applying for the credit to provide information including (i) the number of full-time employees employed by the taxpayer in the Commonwealth during the taxable year for which the credit is sought; (ii) the taxpayer's sector or sectors according to the 2012 edition of the North American Industry Classification System (NAICS) as published by the United States Census Bureau; (iii) a brief description of the area, discipline, or field of Virginia qualified research performed by the taxpayer; (iv) the total gross receipts or anticipated total gross receipts of the taxpayer for the taxable year for which the credit is sought; and (v) whether the Virginia qualified research was conducted in conjunction with a Virginia public or private college or university. The Department shall aggregate and summarize the information collected and make it available to the Governor and any member of the General Assembly upon request, regardless of the number of taxpayers applying for the credit.

M. No tax credit shall be allowed pursuant to this section if the otherwise qualified research and development expenses are paid for or incurred by a taxpayer for research conducted in the Commonwealth on human cells or tissue derived from induced abortions or from stem cells obtained from human embryos. The foregoing provision shall not apply to research conducted using stem cells other than embryonic stem cells.

"Virginia qualified research and development expenses" means qualified research expenses, as defined in § 41(b) of the Internal Revenue Code, as amended, incurred for Virginia qualified research.

B. 1. If the taxpayer did not pay or incur Virginia qualified research and development expenses in any one of the three taxable years immediately preceding the taxable year for which the credit is being determined, the tax credit shall equal five percent of the Virginia qualified research and development expenses paid or incurred by the taxpayer during the relevant taxable year.

2. For taxable years beginning on or after January 1, 2021, but before January 1, 2025, a taxpayer with Virginia qualified research and development expenses for the taxable year in excess of \$5 million shall be allowed a credit against the tax levied pursuant to § 58.1-320, 58.1-400, or 58.1-1202 in an amount equal to 10 percent of the difference between (i) the Virginia qualified research and development expenses paid or incurred by the taxpayer during the taxable year and (ii) 50 percent of the average Virginia qualified research and development expenses paid or incurred by the taxpayer for the three taxable years immediately preceding the taxable year for which the credit is being determined. If the taxpayer did not

pay or incur Virginia qualified research and development expenses in any one of the three taxable years immediately preceding the taxable year for which the credit is being determined, the tax credit shall equal five percent of the Virginia qualified research and development expenses paid or incurred by the taxpayer during the relevant taxable year.

C. 1. For taxable years beginning before January 1, 2021, the aggregate amount of credits granted for each fiscal year of the Commonwealth pursuant to this section shall not exceed \$20 million.

2. For taxable years beginning on and after January 1, 2021, the aggregate amount of credits granted for each fiscal year of the Commonwealth pursuant to this section shall not exceed \$24 million.

D. In the event that approved applications for the tax credits allowed under this section exceed the limit described in subsection C for any taxable year, the Department shall apportion the credits by dividing such limit by the total amount of tax credits approved, to determine the percentage of allowed tax credits each taxpayer shall receive.

E. The amount of the credit claimed for the taxable year shall not exceed 75 percent of the total amount of tax imposed by this chapter upon the taxpayer for the taxable year. Any credit not usable for the taxable year for which the credit was first allowed may be carried over for credit against the income taxes of the taxpayer in the next 10 succeeding taxable years or until the total amount of the tax credit has been taken, whichever is sooner.

F. Any taxpayer who claims the tax credit for Virginia qualified research and development expenses pursuant to this section shall not use such expenses as the basis for claiming any other credit provided under the Code of Virginia.

G. Credits granted to a partnership, limited liability company, or electing small business corporation (S corporation) shall be allocated to the individual partners, members, or shareholders, respectively, in proportion to their ownership interests in such entities or in accordance with a written agreement entered into by such individual partners, members, or shareholders.

H. The Department shall develop and publish guidelines under this section including guidelines for applying for the tax credit. Such guidelines shall be exempt from the Administrative Process Act (§ 2.2-4000 et seq.). In adopting guidelines, the Department may consider (i) the location where the research and development is performed; (ii) the residence or business location of the taxpayer or taxpayers conducting the research and development; (iii) the location where supplies used in the research and development are consumed; and (iv) any other factors that the Department deems to be relevant.

I. No tax credit shall be allowed pursuant to this section, if the otherwise qualified research and development expenses are paid for or incurred by a taxpayer for research conducted in the Commonwealth on human cells or tissue derived from induced abortions or from stem cells obtained from human embryos. The foregoing provision shall not apply to research conducted using stem cells other than embryonic stem cells.

B. As used in this section:

"Certified pollution control equipment and facilities" means any property, including real or personal property, equipment, facilities, or devices, used primarily for the purpose of abating or preventing pollution of the atmosphere or waters of the Commonwealth and which the state certifying authority having jurisdiction with respect to such property has certified to the Department of Taxation as having been constructed, reconstructed, erected, or acquired in conformity with the state program or requirements for abatement or control of water or atmospheric pollution or contamination, except that in the case of equipment, facilities, devices, or other property intended for use by any political subdivision in conjunction with the operation of its water, wastewater, stormwater, or solid waste management facilities or systems, including property that may be financed pursuant to Chapter 22 (§ 62.1-224 et seq.) of Title 62.1, the state certifying authority having jurisdiction with respect to such property shall, upon the request of the political subdivision, make such certification prospectively for property to be constructed, reconstructed, erected, or acquired for such purposes. Such property shall include, but is not limited to, any equipment used to grind, chip, or mulch trees, tree stumps, underbrush, and other vegetative cover for reuse as mulch, compost, landfill gas, synthetic or natural gas recovered from waste or other fuel, and equipment used in collecting, processing, and distributing, or generating electricity from, landfill gas or synthetic or natural gas recovered from waste, whether or not such property has been certified to the Department of Taxation by a state certifying authority. Such property shall also include solar energy equipment, facilities, or devices owned or operated by a business that collect, generate, transfer, or store thermal or electric energy whether or not such property has been certified to the Department of Taxation by a state certifying authority. *Such property shall also include energy storage systems, whether or not such property has been certified to the Department of Taxation by a state certifying authority.* All such property as described in this definition shall not include the land on which such equipment or facilities are located.

"State certifying authority" means the State Water Control Board or the Virginia Department of Health, for water pollution; the State Air Pollution Control Board, for air pollution; the Department of Mines, Minerals and Energy, for solar energy projects, *energy storage systems*, and for coal, oil, and gas production, including gas, natural gas, and coalbed methane gas; and the Virginia Waste Management Board, for waste disposal facilities, natural gas recovered from waste

facilities, and landfill gas production facilities, and shall include any interstate agency authorized to act in place of a certifying authority of the Commonwealth.

C. For solar photovoltaic (electric energy) systems, this exemption applies only to (i) projects equaling 20 megawatts or less, as measured in alternating current (AC) generation capacity, for which an initial interconnection request form has been filed with an electric utility or a regional transmission organization on or before December 31, 2018; (ii) projects equaling 20 megawatts or less, as measured in alternating current (AC) generation capacity, that serve any of the public institutions of higher education listed in § 23.1-100 or any private college as defined in § 23.1-105; (iii) 80 percent of the assessed value of projects for which an initial interconnection request form has been filed with an electric utility or a regional transmission organization (a) between January 1, 2015, and June 30, 2018, for projects greater than 20 megawatts or (b) on or after July 1, 2018, for projects greater than 20 megawatts and less than 150 megawatts, as measured in alternating current (AC) generation capacity, and that are first in service on or after January 1, 2017; (iv) projects equaling five megawatts or less, as measured in alternating current (AC) generation capacity, for which an initial interconnection request form has been filed with an electric utility or a regional transmission organization on or after January 1, 2019; and (v) 80 percent of the assessed value of all other projects equaling more than five megawatts and less than 150 megawatts, as measured in alternating current (AC) generation capacity for which an initial interconnection request form has been filed with an electric utility or a regional transmission organization on or after January 1, 2019.

D. The exemption for solar photovoltaic (electric energy) projects greater than five megawatts, as measured in alternating current (AC) generation capacity, shall not apply to any such project unless an application has been filed with the locality for the project before July 1, 2030, regardless of whether a locality assesses a revenue share on such project pursuant to the provisions of § 58.1-2636. If a locality adopts an energy revenue share ordinance under § 58.1-2636, the exemption for solar photovoltaic (electric energy) projects greater than five megawatts, as measured in alternating current (AC) generation capacity, shall be 100 percent of the assessed value. If a locality does not adopt an energy revenue share ordinance under § 58.1-2636, the exemption for solar photovoltaic (electric energy) projects greater than five megawatts, as measured in alternating current (AC) generation capacity, for which an initial interconnection request form has been filed with an electric utility or a regional transmission organization, shall be 80 percent of the assessed value when an application has been filed with the locality prior to July 1, 2030. E. For pollution control equipment and facilities certified by the Virginia Department of Health, this exemption applies only to onsite sewage systems that serve 10 or more households, use nitrogen-reducing processes and technology, and are constructed, wholly or partially, with public funds.

F. Notwithstanding any provision to the contrary, for any solar photovoltaic project described in clauses (iii) and (v) of subsection C for which an initial interconnection request form has been filed with an electric utility or a regional transmission organization on or after January 1, 2019, the amount of the exemption shall be as follows: 80 percent of the assessed value in the first five years in service after commencement of commercial operation, 70 percent of the assessed value in the second five years in service, and 60 percent of the assessed value for all remaining years in service.

G. Notwithstanding any provision to the contrary, the exemption for energy storage systems provided under this section (i) shall apply only to projects greater than five megawatts and less than 150 megawatts, as measured in alternating current (AC) storage capacity, and (ii) shall be in the following amounts: 80 percent of the assessed value in the first five years of service after commencement of commercial operation, 70 percent of the assessed value in the second five years in service, and 60 percent of the assessed value for all remaining years in service.

H. The exemption for energy storage systems greater than five megawatts, as measured in alternating current (AC) storage capacity, shall not apply to any such project unless an application has been filed with the locality for the project before July 1, 2030, regardless of whether a locality assesses a revenue share on such project pursuant to the provisions of § 58.1-2636. If a locality adopts an energy revenue share ordinance under § 58.1-2636, the exemption for energy storage systems greater than five megawatts, as measured in alternating current (AC) storage capacity, shall be 100 percent of the assessed value. If a locality does not adopt an energy revenue share ordinance under § 58.1-2636, the exemption for energy storage systems greater than five megawatts, as measured in alternating current (AC) storage capacity, shall be as set out in subsection G when an application has been filed with the locality prior to July 1, 2030. For the purposes of this subsection, "application has been filed with the locality" means an applicant has filed an application for a zoning confirmation from the locality for a by-right use or an application for land use approval under the locality's zoning ordinance to include an application for a conditional use permit, special use permit, special exception, or other application as set out in the locality's zoning ordinance.

"State certifying authority" means the State Water Control Board or the Virginia Department of Health, for water pollution; the State Air Pollution Control Board, for air pollution; the Department of Mines, Minerals and Energy, for solar energy projects, *energy storage systems*, and for coal, oil, and gas production, including gas, natural gas, and coalbed methane gas; and the Virginia Waste Management Board, for waste disposal facilities, natural gas recovered from waste facilities, and landfill gas production facilities, and shall include any interstate agency authorized to act in place of a certifying authority of the Commonwealth.

C. For solar photovoltaic (electric energy) systems, this exemption applies only to (i) projects equaling 20 megawatts or less, as measured in alternating current (AC) generation capacity, for which an initial interconnection request form has been filed with an electric utility or a regional transmission organization on or before December 31, 2018; (ii) projects equaling 20 megawatts or less, as measured in alternating current (AC) generation capacity, that serve any of the public institutions of higher education listed in § 23.1-100 or any private college as defined in § 23.1-105; (iii) 80 percent of the assessed value of projects for which an initial interconnection request form has been filed with an electric utility or a regional transmission organization (a) between January 1, 2015, and June 30, 2018, for projects greater than 20 megawatts or (b) on or after July 1, 2018, for projects greater than 20 megawatts and less than 150 megawatts, as measured in alternating current (AC) generation capacity, and that are first in service on or after January 1, 2017; (iv) projects equaling five megawatts or less, as measured in alternating current (AC) generation capacity, for which an initial interconnection request form has been filed with an electric utility or a regional transmission organization on or after January 1, 2019; and (v) 80 percent of the assessed value of all other projects equaling more than five megawatts and less than 150 megawatts, as measured in alternating current (AC) generation capacity for which an initial interconnection request form has been filed with an electric utility or a regional transmission organization on or after January 1, 2019.

D. The exemption for solar photovoltaic (electric energy) projects greater than five megawatts, as measured in alternating current (AC) generation capacity, shall not apply to any such project unless an application has been filed with the locality for the project before July 1, 2030, regardless of whether a locality assesses a revenue share on such project pursuant to the provisions of § 58.1-2636. If a locality adopts an energy revenue share ordinance under § 58.1-2636, the exemption for solar photovoltaic (electric energy) projects greater than five megawatts, as measured in alternating current (AC) generation capacity, shall be 100 percent of the assessed value. If a locality does not adopt an energy revenue share ordinance under § 58.1-2636, the exemption for solar photovoltaic (electric energy) projects greater than five megawatts, as measured in alternating current (AC) generation capacity, for which an initial interconnection request form has been filed with an electric utility or a regional transmission organization, shall be 80 percent of the assessed value when an application has been filed with the locality prior to July 1, 2030. For purposes of this subsection, "application has been filed with the locality" means an applicant has filed an application for a zoning confirmation from the locality for a by-right use or an application for land use approval under the locality's zoning ordinance to include an application for a conditional use permit, special use permit, special exception, or other application as set out in the locality's zoning ordinance.

E. For pollution control equipment and facilities certified by the Virginia Department of Health, this exemption applies only to onsite sewage systems that serve 10 or more households, use nitrogen-reducing processes and technology, and are constructed, wholly or partially, with public funds.

F. Notwithstanding any provision to the contrary, for any solar photovoltaic project described in clauses (iii) and (v) of subsection C for which an initial interconnection request form has been filed with an electric utility or a regional transmission organization on or after January 1, 2019, the amount of the exemption shall be as follows: 80 percent of the assessed value in the first five years in service after commencement of commercial operation, 70 percent of the assessed value in the second five years in service, and 60 percent of the assessed value for all remaining years in service.

G. *Notwithstanding any provision to the contrary, the exemption for energy storage systems provided under this section (i) shall apply only to projects greater than five megawatts and less than 150 megawatts, as measured in alternating current (AC) storage capacity, and (ii) shall be in the following amounts: 80 percent of the assessed value in the first five years of service after commencement of commercial operation, 70 percent of the assessed value in the second five years in service, and 60 percent of the assessed value for all remaining years in service.*

H. *The exemption for energy storage systems greater than five megawatts, as measured in alternating current (AC) storage capacity, shall not apply to any such project unless an application has been filed with the locality for the project before July 1, 2030, regardless of whether a locality assesses a revenue share on such project pursuant to the provisions of § 58.1-2636. If a locality adopts an energy revenue share ordinance under § 58.1-2636, the exemption for energy storage systems greater than five megawatts, as measured in alternating current (AC) storage capacity, shall be 100 percent of the assessed value. If a locality does not adopt an energy revenue share ordinance under § 58.1-2636, the exemption for energy storage systems greater than five megawatts, as measured in alternating current (AC) storage capacity, shall be as set out in subsection G when an application has been filed with the locality prior to July 1, 2030. For the purposes of this subsection, "application has been filed with the locality" means an applicant has filed an application for a zoning confirmation from the locality for a by-right use or an application for land use approval under the locality's zoning ordinance to include an application for a conditional use permit, special use permit, special exception, or other application as set out in the locality's zoning ordinance.*

Notwithstanding the foregoing, for a member who (a) is a person who becomes a member on or after July 1, 2010, or (b) does not have at least 60 months of creditable service as of January 1, 2013, the allowance shall equal 1.65 percent of his average final compensation multiplied by the smaller of (1) twice the amount of his creditable service or (2) the amount of creditable service he would have completed at age 60 if he had remained in service to that age. If a member has already attained age 60, the amount of creditable service at his date of retirement shall be used.

For retirements between October 1, 1994, and December 31, 1998, any employee or local officer who is a member or beneficiary of a retirement system administered by the Board shall receive an additional retirement allowance equal to three percent of the disability retirement allowance payable under this section; provided that, for purposes of this additional retirement allowance, the term employee shall include only those employees of political subdivisions that have adopted a resolution providing for such an allowance under subsection B of § 51.1-130. Average final compensation attributable to service as Governor, Lieutenant Governor, Attorney General, or member of the General Assembly shall not be included in computing this additional retirement allowance.

B. Workers' compensation guarantee. — If a member retires for disability from a cause which is compensable under the Virginia Workers' Compensation Act (§ 65.2-100 et seq.), the amount of the annual retirement allowance shall equal 66 and two-thirds percent of the member's average final compensation if the member does not qualify for ~~primary~~ social security *disability* benefits under the provisions of the Social Security Act in effect on the date of his retirement. If the member qualifies for ~~primary~~ social security *disability* benefits *or has attained his normal retirement age* under the provisions of the Social Security Act in effect on the date of his retirement, the allowance payable from the retirement system shall equal 50 percent of his average final compensation. A member shall be entitled to the larger of the retirement allowance as determined under the provisions of subsection A or under the provisions of this subsection.

C. Reduction of allowance. — Any allowance payable to a member who retires for disability from a cause compensable under the Virginia Workers' Compensation Act shall be reduced by the amount of any payments under the provisions of the Act in effect on the date of retirement of the member and the excess of the allowance shall be paid to the member. When the time for compensation payments under the Act has elapsed, the member shall receive the full amount of the allowance payable during his lifetime and continued disability. If the member's payments under the Virginia Workers' Compensation Act are adjusted or terminated for refusal to work or to comply with the requirements of § 65.2-603, his allowance shall be computed as if he were receiving the compensation to which he would otherwise be entitled.

D. Special retirement allowance guarantee. — Any member retired from a cause which is not compensable under the Virginia Workers' Compensation Act shall be guaranteed an annual retirement allowance during his lifetime and continued disability which equals 50 percent of the member's average final compensation if the member does not qualify for ~~primary~~ social security *disability* benefits under the provisions of the Social Security Act in effect on the date of his retirement. If the member qualifies for ~~primary~~ social security *disability* benefits *or has attained his normal retirement age* under the provisions of the Social Security Act in effect on the date of retirement, the allowance payable from the retirement system shall equal 33 and one-third percent of his average final compensation.

E. Determination of retirement allowance. — For the purposes of this section, the retirement allowance shall be determined on the assumption that the retirement allowance is payable to the member alone and that no optional retirement allowance is elected.

§ 51.1-168. Limits on creditable compensation; maximum benefits; mandatory payment of allowance.

A. Notwithstanding any other provision of law, creditable compensation used for computing any benefit or employee contribution under or to the Retirement System shall not exceed \$200,000 (as adjusted in \$5,000 increments from time to time by the adjustment factor described in I.R.C. § 415 (d) on the basis of a base period of the calendar quarter beginning July 1, 2001). In determining average final compensation for periods beginning on or after July 1, 2001, the limit on creditable compensation applied to compensation attributable to periods prior to July 1, 2001, shall be \$200,000. Notwithstanding the foregoing, compensation for any employee who became a member of the Retirement System (i) prior to the ninetieth day after the opening date of the 1996 Session of the General Assembly, on whose behalf employee or employer contributions are made into the Retirement System, and for whom annual compensation is used for computing any benefit, shall not exceed the limit on compensation as adjusted by the Commissioner of the Internal Revenue Service pursuant to the transition provisions applicable to eligible participants under state and local governmental plans under I.R.C. § 401 (a)(17) as amended in 1993 and as contained in § 13212 (d)(3) of the Omnibus Budget Reconciliation Act of 1993 (P. L. 103-66).

B. Notwithstanding any other provision of law, the annual benefit under the Retirement System of a member and any related death or other benefit shall, if necessary, be reduced to the extent required by § 415 (b) of the Internal Revenue Code, as adjusted by the Secretary of the Treasury pursuant to § 415 (d) of the Internal Revenue Code. Any adjustment pursuant to § 415 (d) of the Internal Revenue Code shall apply to all members including those who have died, retired, or otherwise terminated service with a nonforfeitable right to a retirement allowance before the effective date of such adjustment. If an employee participating in the Retirement System is also a participant in another defined benefit plan sponsored or maintained by an employer participating in the Retirement System and subject to the limitations under § 415 of the Internal Revenue Code, such employer shall apply the combined limit test required by § 415 (b) of the Internal Revenue Code to all such plans, to the extent required by § 415 of the Internal Revenue Code. Whenever a reduction in annual benefits is required to meet the annual benefit limit required by § 415 (b) of the Internal Revenue Code, the annual benefits under such employer's other plan or plans will be reduced before benefits under the Retirement System.

C. Any vendor for a defined benefit plan sponsored or maintained by an employer that participates in the Retirement System shall (i) request and maintain the records needed, (ii) perform the testing services required to assure compliance with the limitations described in § 415 (b) of the Internal Revenue Code, including testing required where the employer maintains or sponsors another plan that must be tested together with the Retirement System, and (iii) advise the employer of any annual benefit that exceeds the applicable limitation. If there is no vendor for these services, the employer shall

(a) request and maintain the records needed, (b) perform the testing services required to assure compliance with the limitations described in § 415 (b) of the Internal Revenue Code, including testing required where the employer maintains or sponsors another plan that must be tested together with the Retirement System, and (c) reduce any annual benefit that exceeds the applicable limitation.

D. On and after January 1, 1989, the retirement allowance of a member who has terminated employment shall begin no later than the later of (i) April 1 of the calendar year following the calendar year that the member attains ~~seventy and one-half years of age~~ *the required age as provided in the Internal Revenue Code of 1986, as amended*, or (ii) April 1 of the calendar year following the calendar year in which the member terminates employment. If the member fails, following reasonable notification, to elect a form of payment by such required beginning date, the retirement allowance shall be paid as a single life annuity and the spousal acknowledgement otherwise required by § 51.1-165.1 shall not be required. Notwithstanding any other provisions of law, § 401(a)(9) of the Internal Revenue Code, as amended or renumbered, and the regulations thereunder applicable to governmental plans are incorporated by reference.

[H 2201]

Approved March 11, 2021

Be it enacted by the General Assembly of Virginia:

1. That §§ 15.2-2288.8 and 15.2-2316.6 through 15.2-2316.9 of the Code of Virginia are amended and reenacted as follows:

§ 15.2-2288.8. Special exceptions for solar photovoltaic projects.

A. Any locality may grant a special exception pursuant to § 15.2-2286, and include in its zoning ordinance reasonable regulations and provisions for a special exception as defined in § 15.2-2201, for any solar photovoltaic (electric energy) project or energy storage project. For the purposes of this section, "energy storage project" means energy storage equipment and technology within an energy storage project that is capable of absorbing energy, storing such energy for a period of time, and redelivering such energy after it has been stored.

B. The governing body of such locality may grant a condition that includes (i) dedication of real property of substantial value or (ii) substantial cash payments for or construction of substantial public improvements, the need for which is not generated solely by the granting of a conditional use permit, so long as such conditions are reasonably related to the project.

However, such conditions shall continue if the subsequent amendment is part of a comprehensive implementation of a new or substantially revised zoning ordinance.

The task force shall include local government representatives, local commissioners of the revenue, cigarette wholesalers and distributors, and representatives of the Northern Virginia Cigarette Tax Board. The tax shall be in addition to the sales tax currently imposed by the county pursuant to the authority of Chapter 6 (§ 58.1-600 et seq.). Collection of such tax shall be in a manner prescribed by the governing body. All taxes collected under the authority of this article shall be deemed to be held in trust for the county imposing the tax.

14. *Require a carrier to honor a prior authorization issued by the carrier for a drug regardless of whether the drug is removed from the carrier's prescription drug formulary after the initial prescription for that drug is issued, provided that the drug and prescription are consistent with the applicable provisions of subdivision 13.*

CHAPTER 70

An Act to amend and reenact §§ 2.2-5211 and 2.2-5212 of the Code of Virginia, relating to Children's Services Act; special education programs.

[H 2117]

Approved March 11, 2021

Be it enacted by the General Assembly of Virginia:

1. That §§ 2.2-5211 and 2.2-5212 of the Code of Virginia are amended and reenacted as follows:

§ 2.2-5211. State pool of funds for community policy and management teams.

A. There is established a state pool of funds to be allocated to community policy and management teams in accordance with the appropriation act and appropriate state regulations. These funds, as made available by the General Assembly, shall be expended for public or private nonresidential or residential services for troubled youths and families. *However, funds for private special education services shall only be expended on private educational programs that are licensed by the Board of Education or an equivalent out-of-state licensing agency. Effective July 1, 2022, funds for private special education services shall only be expended on private educational programs that the Office of Children's Services certifies as having reported their tuition rates on a standard reporting template developed by the Office. The Office of Children's Services shall consult with private special education services providers in developing the standard reporting template for tuition rates.*

The purposes of this system of funding are to:

1. Place authority for making program and funding decisions at the community level;
2. Consolidate categorical agency funding and institute community responsibility for the provision of services;
3. Provide greater flexibility in the use of funds to purchase services based on the strengths and needs of children, youths, and families; and
4. Reduce disparity in accessing services and to reduce inadvertent fiscal incentives for serving children and youth according to differing required local match rates for funding streams.

B. The state pool shall consist of funds that serve the target populations identified in subdivisions 1 through ~~5~~ of ~~this subsection~~ ~~6~~ in the purchase of residential and nonresidential services for children and youth. References to funding sources and current placement authority for the targeted populations of children and youth are for the purpose of accounting for the funds in the pool. It is not intended that children and youth be categorized by individual funding streams in order to access services. The target population shall be the following:

1. Children and youth placed for purposes of special education in approved private school educational programs, previously funded by the Department of Education through private tuition assistance;
2. Children and youth with disabilities placed by local social services agencies or the Department of Juvenile Justice in private residential facilities or across jurisdictional lines in private, special education day schools, if the individualized education program indicates such school is the appropriate placement while living in foster homes or child-caring facilities, previously funded by the Department of Education through the Interagency Assistance Fund for Noneducational Placements of Handicapped Children;
3. Children and youth for whom foster care services, as defined by § 63.2-905, are being provided;
4. Children and youth placed by a juvenile and domestic relations district court, in accordance with the provisions of § 16.1-286, in a private or locally operated public facility or nonresidential program, or in a community or facility-based treatment program in accordance with the provisions of subsections B or C of § 16.1-284.1; ~~and~~
5. Children and youth committed to the Department of Juvenile Justice and placed by it in a private home or in a public or private facility in accordance with § 66-14; *and*
6. *Children and youth previously placed pursuant to subdivision 1 in approved private school educational programs for at least six months who will receive transitional services in a public school setting. State pool funds shall be allocated for no longer than 12 months for transitional services. Local agencies may contract with a private school education program provider to provide transition services in the public school.*

C. The General Assembly and the governing body of each county and city shall annually appropriate such sums of money as shall be sufficient to (i) provide special education services and foster care services for children and youth identified in subdivisions B 1, B 2, and B 3, and 6 and (ii) meet relevant federal mandates for the provision of these services. The community policy and management team shall anticipate to the best of its ability the number of children and youth for whom such services will be required and reserve funds from its state pool allocation to meet these needs. Nothing in this section prohibits local governments from requiring parental or legal financial contributions, where not specifically prohibited by federal or state law or regulation, utilizing a standard sliding fee scale based upon ability to pay, as provided in the appropriation act.

D. When a community services board established pursuant to § 37.2-501, local school division, local social service agency, court service unit, or the Department of Juvenile Justice has referred a child and family to a family assessment and planning team and that team has recommended the proper level of treatment and services needed by that child and family and has determined the child's eligibility for funding for services through the state pool of funds, then the community services board, the local school division, local social services agency, court service unit, or Department of Juvenile Justice has met its fiscal responsibility for that child for the services funded through the pool. However, the community services board, the local school division, local social services agency, court service unit, or Department of Juvenile Justice shall continue to be responsible for providing services identified in individual family service plans that are within the agency's scope of responsibility and that are funded separately from the state pool.

Further, in any instance that an individual 18 through 21 years of age, inclusive, who is eligible for funding from the state pool and is properly defined as a school-aged child with disabilities pursuant to § 22.1-213 is placed by a local social services agency that has custody across jurisdictional lines in a group home in the Commonwealth and the individual's individualized education program (IEP), as prepared by the placing jurisdiction, indicates that a private day school placement is the appropriate educational program for such individual, the financial and legal responsibility for the individual's special education services and IEP shall remain, in compliance with the provisions of federal law, Article 2 (§ 22.1-213) of Chapter 13 of Title 22.1, and Board of Education regulations, the responsibility of the placing jurisdiction until the individual reaches the age of 21, inclusive, or is no longer eligible for special education services. The financial and legal responsibility for such special education services shall remain with the placing jurisdiction, unless the placing jurisdiction has transitioned all appropriate services with the individual.

E. In any matter properly before a court for which state pool funds are to be accessed, the court shall, prior to final disposition, and pursuant to §§ 2.2-5209 and 2.2-5212, refer the matter to the community policy and management team for assessment by a local family assessment and planning team authorized by policies of the community policy and management team for assessment to determine the recommended level of treatment and services needed by the child and family. The family assessment and planning team making the assessment shall make a report of the case or forward a copy of the individual family services plan to the court within 30 days of the court's written referral to the community policy and management team. The court shall consider the recommendations of the family assessment and planning team and the community policy and management team. If, prior to a final disposition by the court, the court is requested to consider a level of service not identified or recommended in the report submitted by the family assessment and planning team, the court shall request the community policy and management team to submit a second report characterizing comparable levels of service to the requested level of service. Notwithstanding the provisions of this subsection, the court may make any disposition as is authorized or required by law. Services ordered pursuant to a disposition rendered by the court pursuant to this section shall qualify for funding as appropriated under this section.

F. As used in this section, "transitional services" includes services delivered in a public school setting directly to students with significant disabilities or intensive support needs to facilitate their transition back to public school after having been served in a private special education day school or residential facility for at least six months. "Transitional services" includes one-on-one aides, speech therapy, occupational therapy, behavioral health services, counseling, applied behavior analysis, specially designed instruction delivered directly to the student, or other services needed to facilitate such transition that are delivered directly to the student in their public school over the 12-month period as identified in the child's individualized education program.

§ 2.2-5212. Eligibility for state pool of funds.

A. In order to be eligible for funding for services through the state pool of funds, a youth, or family with a child, shall meet one or more of the criteria specified in subdivisions 1 through 4 and shall be determined through the use of a uniform assessment instrument and process and by policies of the community policy and management team to have access to these funds.

1. The child or youth has emotional or behavior problems that:
 - a. Have persisted over a significant period of time or, though only in evidence for a short period of time, are of such a critical nature that intervention is warranted;
 - b. Are significantly disabling and are present in several community settings, such as at home, in school, or with peers; and
 - c. Require services or resources that are unavailable or inaccessible, or that are beyond the normal agency services or routine collaborative processes across agencies, or require coordinated interventions by at least two agencies.
2. The child or youth has emotional or behavior problems, or both, and currently is in, or is at imminent risk of entering, purchased residential care. In addition, the child or youth requires services or resources that are beyond normal

agency services or routine collaborative processes across agencies, and requires coordinated services by at least two agencies.

3. The child or youth requires placement for purposes of special education in approved private school educational programs *or for transitional services as set forth in subdivision B 6 of § 2.2-5211.*

4. The child or youth requires foster care services as defined in § 63.2-905.

B. For purposes of determining eligibility for the state pool of funds, "child" or "youth" means (i) a person younger than 18 years of age or (ii) any individual through 21 years of age who is otherwise eligible for mandated services of the participating state agencies including special education and foster care services.

2. That the Secretary of Education and the Secretary of Health and Human Resources or their designees, in conjunction with the Office of Children's Services and the Department of Education, shall establish a work group (the Work Group) with appropriate stakeholders to develop a detailed plan to (i) direct the transfer of Children's Services Act funds currently reserved for children requiring an educational placement in a private special education day school or residential facility to the Department of Education, (ii) provide recommendations on the use of Children's Services Act funds to pay for services delivered directly to students with disabilities in public school to enable those who are at risk of out-of-school placements to remain in a public school setting, and (iii) provide recommendations on the most effective use of Children's Services Act funds to transition students from out-of-school placements to public school. Work Group stakeholders shall include representatives of (a) the Department of Education and the Office of Children's Services; (b) three private special education day school service providers, including at least one director of a private special education day school; (c) local school districts, including at least one local special education director; (d) local governments, including at least one Children's Services Act Coordinator; (e) licensed behavioral analyst service providers and other evidence-based behavioral services providers; (f) organizations engaged in advocacy for students with disabilities, including at least one for the autism spectrum community; (g) the House Committee on Appropriations and the Senate Committee on Finance and Appropriations; and (h) other stakeholders deemed necessary by the Secretaries of Education and Health and Human Resources. The Work Group shall also include one parent of a child with an individualized education program currently enrolled in a private special education day program and one parent of child with an individualized education program currently enrolled in a public special education program. Both legislative members of the State Executive Council for Children's Services shall be invited to participate in the Work Group. The Work Group's plan shall include details on how the Virginia Department of Education should administer the transferred funding so that it (1) is prioritized for students with the most severe disabilities who are at risk of being placed in an out-of-school placement or who are in an out-of-school placement and (2) is equally accessible to all school divisions. The Work Group's plan shall also provide recommendations for minimizing the fiscal impact of the new funding policy on localities and consider the local fiscal impacts of using current Children's Services Act match rates versus the Local Composite Index. The Work Group's plan shall also offer a review and analysis of different models of delivering special education and private special education day school services, including a review of specialty regional schools, in-school delivery of services by private special education program providers, and in-school delivery of services by the school division. The Work Group shall (A) collect data from Virginia schools that have delivered special education services to students with severe disabilities within the public school setting as well as from Virginia school divisions that have used Children's Services Act funds to pay for transition services, (B) use the data to identify the types of services and supports that have allowed children with severe disabilities to be successful in the public school setting and avoid an out-of-school placement, and (C) provide recommendations for the types of direct services and supports that should be provided to students in the public school setting using Children's Services Act funds. The Work Group shall also consider whether the transitional services, as defined in § 2.2-5211 of the Code of Virginia, as amended by this act, are appropriate direct services to be covered; determine whether the criteria for students to qualify for such funding are appropriate; and make recommendations for modifying the definition or criteria, if necessary. The Work Group shall specifically evaluate whether or not Children's Services Act funding should be expanded to include ongoing support for students with disabilities following the 12-month transition period. The Work Group may solicit proposals from local school divisions for programs that would identify the resources, services, and supports required by each student in the local school divisions who is educated in a private special education day school and how redirecting federal, state, and local funds, including funds provided pursuant to the Children's Services Act, could allow some students to transition from the private school setting to the public school setting. The Work Group may recommend any proposal determined to be feasible for consideration by the General Assembly. The Work Group's preliminary findings shall be submitted to the Chairmen of the House Committee on Appropriations and the Senate Committee on Finance and Appropriations by November 1, 2021; and a final plan and recommendations shall be submitted by November 1, 2022, which shall include draft legislation and amendments to the general appropriation act that would allow the General Assembly to accomplish the plan's recommendations.

CHAPTER 71

An Act to amend and reenact §§ 2.2-5211 and 2.2-5212 of the Code of Virginia, relating to Children's Services Act; special education programs.

[S 1313]

Approved March 11, 2021

Be it enacted by the General Assembly of Virginia:**1. That §§ 2.2-5211 and 2.2-5212 of the Code of Virginia are amended and reenacted as follows:****§ 2.2-5211. State pool of funds for community policy and management teams.**

A. There is established a state pool of funds to be allocated to community policy and management teams in accordance with the appropriation act and appropriate state regulations. These funds, as made available by the General Assembly, shall be expended for public or private nonresidential or residential services for troubled youths and families. *However, funds for private special education services shall only be expended on private educational programs that are licensed by the Board of Education or an equivalent out-of-state licensing agency. Effective July 1, 2022, funds for private special education services shall only be expended on private educational programs that the Office of Children's Services certifies as having reported their tuition rates on a standard reporting template developed by the Office. The Office of Children's Services shall consult with private special education services providers in developing the standard reporting template for tuition rates.*

The purposes of this system of funding are to:

1. Place authority for making program and funding decisions at the community level;
2. Consolidate categorical agency funding and institute community responsibility for the provision of services;
3. Provide greater flexibility in the use of funds to purchase services based on the strengths and needs of children, youths, and families; and
4. Reduce disparity in accessing services and to reduce inadvertent fiscal incentives for serving children and youth according to differing required local match rates for funding streams.

B. The state pool shall consist of funds that serve the target populations identified in subdivisions 1 through 5 of this subsection 6 in the purchase of residential and nonresidential services for children and youth. References to funding sources and current placement authority for the targeted populations of children and youth are for the purpose of accounting for the funds in the pool. It is not intended that children and youth be categorized by individual funding streams in order to access services. The target population shall be the following:

1. Children and youth placed for purposes of special education in approved private school educational programs, previously funded by the Department of Education through private tuition assistance;
2. Children and youth with disabilities placed by local social services agencies or the Department of Juvenile Justice in private residential facilities or across jurisdictional lines in private, special education day schools, if the individualized education program indicates such school is the appropriate placement while living in foster homes or child-caring facilities, previously funded by the Department of Education through the Interagency Assistance Fund for Noneducational Placements of Handicapped Children;
3. Children and youth for whom foster care services, as defined by § 63.2-905, are being provided;
4. Children and youth placed by a juvenile and domestic relations district court, in accordance with the provisions of § 16.1-286, in a private or locally operated public facility or nonresidential program, or in a community or facility-based treatment program in accordance with the provisions of subsections B or C of § 16.1-284.1; and
5. Children and youth committed to the Department of Juvenile Justice and placed by it in a private home or in a public or private facility in accordance with § 66-14; and
6. *Children and youth previously placed pursuant to subdivision 1 in approved private school educational programs for at least six months who will receive transitional services in a public school setting. State pool funds shall be allocated for no longer than 12 months for transitional services. Local agencies may contract with a private school education program provider to provide transition services in the public school.*

C. The General Assembly and the governing body of each county and city shall annually appropriate such sums of money as shall be sufficient to (i) provide special education services and foster care services for children and youth identified in subdivisions B 1, B 2, and B 3, and 6 and (ii) meet relevant federal mandates for the provision of these services. The community policy and management team shall anticipate to the best of its ability the number of children and youth for whom such services will be required and reserve funds from its state pool allocation to meet these needs. Nothing in this section prohibits local governments from requiring parental or legal financial contributions, where not specifically prohibited by federal or state law or regulation, utilizing a standard sliding fee scale based upon ability to pay, as provided in the appropriation act.

D. When a community services board established pursuant to § 37.2-501, local school division, local social service agency, court service unit, or the Department of Juvenile Justice has referred a child and family to a family assessment and planning team and that team has recommended the proper level of treatment and services needed by that child and family and has determined the child's eligibility for funding for services through the state pool of funds, then the community services board, the local school division, local social services agency, court service unit, or Department of Juvenile Justice has met its fiscal responsibility for that child for the services funded through the pool. However, the community services

board, the local school division, local social services agency, court service unit, or Department of Juvenile Justice shall continue to be responsible for providing services identified in individual family service plans that are within the agency's scope of responsibility and that are funded separately from the state pool.

Further, in any instance that an individual 18 through 21 years of age, inclusive, who is eligible for funding from the state pool and is properly defined as a school-aged child with disabilities pursuant to § 22.1-213 is placed by a local social services agency that has custody across jurisdictional lines in a group home in the Commonwealth and the individual's individualized education program (IEP), as prepared by the placing jurisdiction, indicates that a private day school placement is the appropriate educational program for such individual, the financial and legal responsibility for the individual's special education services and IEP shall remain, in compliance with the provisions of federal law, Article 2 (§ 22.1-213) of Chapter 13 of Title 22.1, and Board of Education regulations, the responsibility of the placing jurisdiction until the individual reaches the age of 21, inclusive, or is no longer eligible for special education services. The financial and legal responsibility for such special education services shall remain with the placing jurisdiction, unless the placing jurisdiction has transitioned all appropriate services with the individual.

E. In any matter properly before a court for which state pool funds are to be accessed, the court shall, prior to final disposition, and pursuant to §§ 2.2-5209 and 2.2-5212, refer the matter to the community policy and management team for assessment by a local family assessment and planning team authorized by policies of the community policy and management team for assessment to determine the recommended level of treatment and services needed by the child and family. The family assessment and planning team making the assessment shall make a report of the case or forward a copy of the individual family services plan to the court within 30 days of the court's written referral to the community policy and management team. The court shall consider the recommendations of the family assessment and planning team and the community policy and management team. If, prior to a final disposition by the court, the court is requested to consider a level of service not identified or recommended in the report submitted by the family assessment and planning team, the court shall request the community policy and management team to submit a second report characterizing comparable levels of service to the requested level of service. Notwithstanding the provisions of this subsection, the court may make any disposition as is authorized or required by law. Services ordered pursuant to a disposition rendered by the court pursuant to this section shall qualify for funding as appropriated under this section.

F. As used in this section, "transitional services" includes services delivered in a public school setting directly to students with significant disabilities or intensive support needs to facilitate their transition back to public school after having been served in a private special education day school or residential facility for at least six months. "Transitional services" includes one-on-one aides, speech therapy, occupational therapy, behavioral health services, counseling, applied behavior analysis, specially designed instruction delivered directly to the student, or other services needed to facilitate such transition that are delivered directly to the student in their public school over the 12-month period as identified in the child's individualized education program.

§ 2.2-5212. Eligibility for state pool of funds.

A. In order to be eligible for funding for services through the state pool of funds, a youth, or family with a child, shall meet one or more of the criteria specified in subdivisions 1 through 4 and shall be determined through the use of a uniform assessment instrument and process and by policies of the community policy and management team to have access to these funds.

1. The child or youth has emotional or behavior problems that:

- a. Have persisted over a significant period of time or, though only in evidence for a short period of time, are of such a critical nature that intervention is warranted;
- b. Are significantly disabling and are present in several community settings, such as at home, in school, or with peers; and
- c. Require services or resources that are unavailable or inaccessible, or that are beyond the normal agency services or routine collaborative processes across agencies, or require coordinated interventions by at least two agencies.

2. The child or youth has emotional or behavior problems, or both, and currently is in, or is at imminent risk of entering, purchased residential care. In addition, the child or youth requires services or resources that are beyond normal agency services or routine collaborative processes across agencies, and requires coordinated services by at least two agencies.

3. The child or youth requires placement for purposes of special education in approved private school educational programs or for transitional services as set forth in subdivision B 6 of § 2.2-5211.

4. The child or youth requires foster care services as defined in § 63.2-905.

B. For purposes of determining eligibility for the state pool of funds, "child" or "youth" means (i) a person younger than 18 years of age or (ii) any individual through 21 years of age who is otherwise eligible for mandated services of the participating state agencies including special education and foster care services.

2. That the Secretary of Education and the Secretary of Health and Human Resources or their designees, in conjunction with the Office of Children's Services and the Department of Education, shall establish a work group (the Work Group) with appropriate stakeholders to develop a detailed plan to (i) direct the transfer of Children's Services Act funds currently reserved for children requiring an educational placement in a private special education day school or residential facility to the Department of Education, (ii) provide recommendations on the use of Children's Services Act funds to pay for services delivered directly to students with disabilities in public school to enable those who are at risk of out-of-school placements to remain in a public school setting, and (iii) provide

recommendations on the most effective use of Children's Services Act funds to transition students from out-of-school placements to public school. Work Group stakeholders shall include representatives of (a) the Department of Education and the Office of Children's Services; (b) three private special education day school service providers, including at least one director of a private special education day school; (c) local school districts, including at least one local special education director; (d) local governments, including at least one Children's Services Act Coordinator; (e) licensed behavioral analyst service providers and other evidence-based behavioral services providers; (f) organizations engaged in advocacy for students with disabilities, including at least one for the autism spectrum community; (g) the House Committee on Appropriations and the Senate Committee on Finance and Appropriations; and (h) other stakeholders deemed necessary by the Secretaries of Education and Health and Human Resources. The Work Group shall also include one parent of a child with an individualized education program currently enrolled in a private special education day program and one parent of child with an individualized education program currently enrolled in a public special education program. Both legislative members of the State Executive Council for Children's Services shall be invited to participate in the Work Group. The Work Group's plan shall include details on how the Virginia Department of Education should administer the transferred funding so that it (1) is prioritized for students with the most severe disabilities who are at risk of being placed in an out-of-school placement or who are in an out-of-school placement and (2) is equally accessible to all school divisions. The Work Group's plan shall also provide recommendations for minimizing the fiscal impact of the new funding policy on localities and consider the local fiscal impacts of using current Children's Services Act match rates versus the Local Composite Index. The Work Group's plan shall also offer a review and analysis of different models of delivering special education and private special education day school services, including a review of specialty regional schools, in-school delivery of services by private special education program providers, and in-school delivery of services by the school division. The Work Group shall (A) collect data from Virginia schools that have delivered special education services to students with severe disabilities within the public school setting as well as from Virginia school divisions that have used Children's Services Act funds to pay for transition services, (B) use the data to identify the types of services and supports that have allowed children with severe disabilities to be successful in the public school setting and avoid an out-of-school placement, and (C) provide recommendations for the types of direct services and supports that should be provided to students in the public school setting using Children's Services Act funds. The Work Group shall also consider whether the transitional services, as defined in § 2.2-5211 of the Code of Virginia, as amended by this act, are appropriate direct services to be covered; determine whether the criteria for students to qualify for such funding are appropriate; and make recommendations for modifying the definition or criteria, if necessary. The Work Group shall specifically evaluate whether or not Children's Services Act funding should be expanded to include ongoing support for students with disabilities following the 12-month transition period. The Work Group may solicit proposals from local school divisions for programs that would identify the resources, services, and supports required by each student in the local school divisions who is educated in a private special education day school and how redirecting federal, state, and local funds, including funds provided pursuant to the Children's Services Act, could allow some students to transition from the private school setting to the public school setting. The Work Group may recommend any proposal determined to be feasible for consideration by the General Assembly. The Work Group's preliminary findings shall be submitted to the Chairmen of the House Committee on Appropriations and the Senate Committee on Finance and Appropriations by November 1, 2021; and a final plan and recommendations shall be submitted by November 1, 2022, which shall include draft legislation and amendments to the general appropriation act that would allow the General Assembly to accomplish the plan's recommendations.

CHAPTER 72

An Act to amend and reenact § 38.2-3407.15 of the Code of Virginia, relating to health insurance; carrier business practices; provider contracts.

[S 1289]

Approved March 11, 2021

Be it enacted by the General Assembly of Virginia:

1. That § 38.2-3407.15 of the Code of Virginia is amended and reenacted as follows:

§ 38.2-3407.15. Ethics and fairness in carrier business practices.

A. As used in this section:

"Carrier," "enrollee," and "provider" shall have the meanings set forth in § 38.2-3407.10; however, a "carrier" shall also include any person required to be licensed under this title which offers or operates a managed care health insurance plan subject to Chapter 58 (§ 38.2-5800 et seq.) or which provides or arranges for the provision of health care services, health plans, networks or provider panels which are subject to regulation as the business of insurance under this title.

"Claim" means any bill, claim, or proof of loss made by or on behalf of an enrollee or a provider to a carrier (or its intermediary, administrator or representative) with which the provider has a provider contract for payment for health care services under any health plan; however, a "claim" shall not include a request for payment of a capitation or a withhold.

"Clean claim" means a claim (i) that has no material defect or impropriety (including any lack of any reasonably required substantiation documentation) which substantially prevents timely payment from being made on the claim or (ii) with respect to which a carrier has failed timely to notify the person submitting the claim of any such defect or impropriety in accordance with this section.

"Health care services" means items or services furnished to any individual for the purpose of preventing, alleviating, curing, or healing human illness, injury or physical disability.

"Health plan" means any individual or group health care plan, subscription contract, evidence of coverage, certificate, health services plan, medical or hospital services plan, accident and sickness insurance policy or certificate, managed care health insurance plan, or other similar certificate, policy, contract or arrangement, and any endorsement or rider thereto, to cover all or a portion of the cost of persons receiving covered health care services, which is subject to state regulation and which is required to be offered, arranged or issued in the Commonwealth by a carrier licensed under this title. Health plan does not mean (i) coverages issued pursuant to Title XVIII of the Social Security Act, 42 U.S.C. § 1395 et seq. (Medicare), Title XIX of the Social Security Act, 42 U.S.C. § 1396 et seq. (Medicaid) or Title XXI of the Social Security Act, 42 U.S.C. § 1397aa et seq. (CHIP), 5 U.S.C. § 8901 et seq. (federal employees), or 10 U.S.C. § 1071 et seq. (TRICARE); or (ii) accident only, credit or disability insurance, long-term care insurance, TRICARE supplement, Medicare supplement, or workers' compensation coverages.

"Provider contract" means any contract between a provider and a carrier (or a carrier's network, provider panel, intermediary or representative) relating to the provision of health care services.

"Retroactive denial of a previously paid claim" or "retroactive denial of payment" means any attempt by a carrier retroactively to collect payments already made to a provider with respect to a claim by reducing other payments currently owed to the provider, by withholding or setting off against future payments, or in any other manner reducing or affecting the future claim payments to the provider.

B. Subject to subsection H I, every provider contract entered into by a carrier shall contain specific provisions which shall require the carrier to adhere to and comply with the following minimum fair business standards in the processing and payment of claims for health care services:

1. A carrier shall pay any claim within 40 days of receipt of the claim except where the obligation of the carrier to pay a claim is not reasonably clear due to the existence of a reasonable basis supported by specific information available for review by the person submitting the claim that:

a. The claim is determined by the carrier not to be a clean claim due to a good faith determination or dispute regarding (i) the manner in which the claim form was completed or submitted, (ii) the eligibility of a person for coverage, (iii) the responsibility of another carrier for all or part of the claim, (iv) the amount of the claim or the amount currently due under the claim, (v) the benefits covered, or (vi) the manner in which services were accessed or provided; or

b. The claim was submitted fraudulently.

Each carrier shall maintain a written or electronic record of the date of receipt of a claim. The person submitting the claim shall be entitled to inspect such record on request and to rely on that record or on any other admissible evidence as proof of the fact of receipt of the claim, including without limitation electronic or facsimile confirmation of receipt of a claim.

2. A carrier shall, within 30 days after receipt of a claim, request electronically or in writing from the person submitting the claim the information and documentation that the carrier reasonably believes will be required to process and pay the claim or to determine if the claim is a clean claim. Upon receipt of the additional information requested under this subsection necessary to make the original claim a clean claim, a carrier shall make the payment of the claim in compliance with this section. No carrier may refuse to pay a claim for health care services rendered pursuant to a provider contract which are covered benefits if the carrier fails timely to notify or attempt to notify the person submitting the claim of the matters identified above unless such failure was caused in material part by the person submitting the claims; however, nothing herein shall preclude such a carrier from imposing a retroactive denial of payment of such a claim if permitted by the provider contract unless such retroactive denial of payment of the claim would violate subdivision 7. Nothing in this subsection shall require a carrier to pay a claim which is not a clean claim.

3. Any interest owing or accruing on a claim under § 38.2-3407.1 or 38.2-4306.1, under any provider contract or under any other applicable law, shall, if not sooner paid or required to be paid, be paid, without necessity of demand, at the time the claim is paid or within 60 days thereafter.

4. a. Every carrier shall establish and implement reasonable policies to permit any provider with which there is a provider contract (i) to confirm in advance during normal business hours by free telephone or electronic means if available whether the health care services to be provided are medically necessary and a covered benefit and (ii) to determine the carrier's requirements applicable to the provider (or to the type of health care services which the provider has contracted to deliver under the provider contract) for (a) pre-certification or authorization of coverage decisions, (b) retroactive reconsideration of a certification or authorization of coverage decision or retroactive denial of a previously paid claim, (c) provider-specific payment and reimbursement methodology, coding levels and methodology, downcoding, and bundling of claims, and (d) other provider-specific, applicable claims processing and payment matters necessary to meet the terms and conditions of the provider contract, including determining whether a claim is a clean claim. If a carrier routinely, as a matter of policy, bundles or downcodes claims submitted by a provider, the carrier shall clearly disclose that practice in each provider contract. Further, such carrier shall either (1) disclose in its provider contracts or on its website the specific bundling and downcoding policies that the carrier reasonably expects to be applied to the provider or provider's services on

a routine basis as a matter of policy or (2) disclose in each provider contract a telephone or facsimile number or e-mail address that a provider can use to request the specific bundling and downcoding policies that the carrier reasonably expects to be applied to that provider or provider's services on a routine basis as a matter of policy. If such request is made by or on behalf of a provider, a carrier shall provide the requesting provider with such policies within 10 business days following the date the request is received.

b. Every carrier shall make available to such providers within 10 business days of receipt of a request, copies of or reasonable electronic access to all such policies which are applicable to the particular provider or to particular health care services identified by the provider. In the event the provision of the entire policy would violate any applicable copyright law, the carrier may instead comply with this subsection by timely delivering to the provider a clear explanation of the policy as it applies to the provider and to any health care services identified by the provider.

5. Every carrier shall pay a claim if the carrier has previously authorized the health care service or has advised the provider or enrollee in advance of the provision of health care services that the health care services are medically necessary and a covered benefit, unless:

a. The documentation for the claim provided by the person submitting the claim clearly fails to support the claim as originally authorized;

b. The carrier's refusal is because (i) another payor is responsible for the payment, (ii) the provider has already been paid for the health care services identified on the claim, (iii) the claim was submitted fraudulently or the authorization was based in whole or material part on erroneous information provided to the carrier by the provider, enrollee, or other person not related to the carrier, or (iv) the person receiving the health care services was not eligible to receive them on the date of service and the carrier did not know, and with the exercise of reasonable care could not have known, of the person's eligibility status; or

c. During the post-service claims process, it is determined that the claim was submitted fraudulently.

6. In the case of an invasive or surgical procedure, if the carrier has previously authorized a health care service as medically necessary and during the procedure the health care provider discovers clinical evidence prompting the provider to perform a less or more extensive or complicated procedure than was previously authorized, then the carrier shall pay the claim, provided that the additional procedures were (i) not investigative in nature, but medically necessary as a covered service under the covered person's benefit plan; (ii) appropriately coded consistent with the procedure actually performed; and (iii) compliant with a carrier's post-service claims process, including required timing for submission to carrier.

7. No carrier ~~may~~ shall impose any retroactive denial of a previously paid claim unless the carrier has provided the reason for the retroactive denial and (i) the original claim was submitted fraudulently, (ii) the original claim payment was incorrect because the provider was already paid for the health care services identified on the claim or the health care services identified on the claim were not delivered by the provider, or (iii) the time which has elapsed since the date of the payment of the original challenged claim does not exceed the lesser of (a) 12 months or (b) the number of days within which the carrier requires under its provider contract that a claim be submitted by the provider following the date on which a health care service is provided. Effective July 1, 2000, a carrier shall notify a provider at least 30 days in advance of any retroactive denial of a claim.

8. Notwithstanding subdivision 7, with respect to provider contracts entered into, amended, extended, or renewed on or after July 1, 2004, no carrier shall impose any retroactive denial of payment or in any other way seek recovery or refund of a previously paid claim unless the carrier specifies in writing the specific claim or claims for which the retroactive denial is to be imposed or the recovery or refund is sought. The written communication shall also contain an explanation of why the claim is being retroactively adjusted.

9. No provider contract ~~may~~ shall fail to include or attach at the time it is presented to the provider for execution (i) the fee schedule, reimbursement policy, or statement as to the manner in which claims will be calculated and paid ~~which that~~ is applicable to the provider or to the range of health care services reasonably expected to be delivered by that type of provider on a routine basis and (ii) all material addenda, schedules, and exhibits thereto and any policies (including those referred to in subdivision 4) applicable to the provider or to the range of health care services reasonably expected to be delivered by that type of provider under the provider contract.

10. No amendment to any provider contract or to any addenda, schedule, exhibit or policy thereto (or new addenda, schedule, exhibit, or policy) applicable to the provider (or to the range of health care services reasonably expected to be delivered by that type of provider) shall be effective as to the provider, unless the provider has been provided with the applicable portion of the proposed amendment (or of the proposed new addenda, schedule, exhibit, or policy) at least 60 calendar days before the effective date and the provider has failed to notify the carrier within 30 calendar days of receipt of the documentation of the provider's intention to terminate the provider contract at the earliest date thereafter permitted under the provider contract.

11. In the event that the carrier's provision of a policy required to be provided under subdivision 9 or 10 would violate any applicable copyright law, the carrier may instead comply with this section by providing a clear, written explanation of the policy as it applies to the provider.

12. All carriers shall establish, in writing, their claims payment dispute mechanism and shall make this information available to providers.

13. *Every carrier shall include in its provider contracts a provision that prohibits a provider from discriminating against any enrollee solely due to the enrollee's status as a litigant in pending litigation or a potential litigant due to being*

involved in a motor vehicle accident. Nothing in this subdivision shall require a health care provider to treat an enrollee who has threatened to make or has made a professional liability claim against the provider or the provider's employer, agents, or employees or has threatened to file or has filed a complaint with a regulatory agency or board against the provider or the provider's employer, agents, or employees.

C. If the Commission has cause to believe that any provider has engaged in a pattern of potential violations of subdivision B 13, with no corrective action, the Commission may submit information to the Board of Medicine or the Commissioner of Health for action. Prior to such submission, the Commission may provide the provider with an opportunity to cure the alleged violations or provide an explanation as to why the actions in questions were not violations. If any provider has engaged in a pattern of potential violations of subdivision B 13, with no corrective action, the Board of Medicine or the Commissioner of Health may levy a fine or cost recovery upon the provider and take other action as permitted under its authority. Upon completion of its review of any potential violation submitted by the Commission or initiated directly by an enrollee, the Board of Medicine or the Commissioner of Health shall notify the Commission of the results of the review, including where the violation was substantiated, and any enforcement action taken as a result of a finding of a substantiated violation.

D. Without limiting the foregoing, in the processing of any payment of claims for health care services rendered by providers under provider contracts and in performing under its provider contracts, every carrier subject to regulation by this title shall adhere to and comply with the minimum fair business standards required under subsection B, and the Commission shall have the jurisdiction to determine if a carrier has violated the standards set forth in subsection B by failing to include the requisite provisions in its provider contracts and shall have jurisdiction to determine if the carrier has failed to implement the minimum fair business standards set out in subdivisions B 1 and 2 in the performance of its provider contracts.

D. E. No carrier shall be in violation of this section if its failure to comply with this section is caused in material part by the person submitting the claim or if the carrier's compliance is rendered impossible due to matters beyond the carrier's reasonable control (such as an act of God, insurrection, strike, fire, or power outages) which are not caused in material part by the carrier.

E. F. Any provider who suffers loss as the result of a carrier's violation of this section or a carrier's breach of any provider contract provision required by this section shall be entitled to initiate an action to recover actual damages. If the trier of fact finds that the violation or breach resulted from a carrier's gross negligence and willful conduct, it may increase damages to an amount not exceeding three times the actual damages sustained. Notwithstanding any other provision of law to the contrary, in addition to any damages awarded, such provider also may be awarded reasonable ~~attorney's~~ attorney fees and court costs. Each claim for payment which is paid or processed in violation of this section or with respect to which a violation of this section exists shall constitute a separate violation. The Commission shall not be deemed to be a "trier of fact" for purposes of this subsection.

F. G. No carrier (or its network, provider panel or intermediary) shall terminate or fail to renew the employment or other contractual relationship with a provider, or any provider contract, or otherwise penalize any provider, for invoking any of the provider's rights under this section or under the provider contract.

G. H. This section shall apply only to carriers subject to regulation under this title.

H. I. This section shall apply with respect to provider contracts entered into, amended, extended or renewed on or after July 1, 1999.

I. J. Pursuant to the authority granted by § 38.2-223, the Commission may promulgate such rules and regulations as it may deem necessary to implement this section.

J. K. The Commission shall have no jurisdiction to adjudicate individual controversies arising out of this section.
