WHEREAS, on March 31, 1776, Abigail Adams wrote to her husband in Philadelphia "...in the new Code of Laws which I suppose it will be necessary for you to make I desire you would Remember the Ladies, and be more generous and favorable to them than your ancestors"; and

WHEREAS, in 1851, Sojourner Truth's speech "Ain't I A Woman?" sounded the cry that women, black or white, should have rights just like men; and

WHEREAS, on July 19, 1848, the first women's rights convention held in Seneca Falls launched a 72-year battle in the United States to gain the right to vote for women; and

WHEREAS, in February 1886, the Senate Select Committee on Woman Suffrage favorably reported the Susan B. Anthony Amendment to the full Senate but it suffered a lopsided defeat when finally voted on nearly a year later; and

WHEREAS, nearly three decades later, although 100 women had to be hospitalized with injuries as spectators assaulted the participants, the first national woman suffrage parade held in Washington, D.C., demonstrated the strength of women's organizations in every state supporting women's suffrage and, on March 19, 1914, resulted in a second vote to pass the Susan B. Anthony Amendment that fell only 11 votes short; and

WHEREAS, the founder of the National Woman's Party, Alice Paul, and 32 other "Silent Sentinels," who had been peacefully holding banners and placards for 10 months in front of the White House to embarrass President Woodrow Wilson into giving more than lip service to women having the right to vote, were arrested on October 20, 1917; and

WHEREAS, in September and October 1920, Maggie Walker and Ora Stokes led a drive to help more than 2,000 African American women register to vote in Virginia, but it was not until four decades after passage of the Susan B. Anthony Amendment that the Voting Rights Act of 1965 provided enforcement mechanisms to protect the right to vote of African American women and men; and

WHEREAS, the first two women were elected to the General Assembly in 1924 but by 1933 none of the six who had served remained, and it was not until 1954 that women were again elected during the struggle to keep Virginia's public schools open under Massive Resistance; and

WHEREAS, Virginia's General Assembly did not ratify the 19th Amendment until 1952 following the changed roles women assumed during World War II and, today, women serving in elected office throughout the Commonwealth represent the ever-expanding role of women embracing the potential of equal citizenship rights; and

SENATE JOINT RESOLUTION NO. 293

Requesting the Joint Commission on Health Care to study available data regarding assisted living and auxiliary grants and develop a blueprint for implementing recommendations that will allow the Commonwealth to provide a more realistic system of addressing housing and care needs. Report.

Agreed to by the Senate, February 3, 2021

Agreed to by the House of Delegates, February 24, 2021

WHEREAS, funding for auxiliary grants, which are income supplements for individuals who receive Supplemental Security Income and certain other aged, blind, or disabled individuals who reside in a licensed assisted living facility or an approved adult foster care home, is currently so low that the number of auxiliary grant beds available in such facilities has declined steadily in the last decade, leaving individuals homeless; and

WHEREAS, the current requirement that localities pay 20 percent of auxiliary grants is possibly outdated, as many localities have few, if any, tools to deal with auxiliary grant beds being built, leaving many individuals homeless who might otherwise have had beds available through auxiliary grants; and

WHEREAS, Medicaid can be used to pay some of the costs of assisted living other than room and board, waivers are successfully being utilized in other states, and third-party payer contributions could alleviate stress on the state budget; and

WHEREAS, the Commonwealth has some of the most rigorous standards for nursing home eligibility in the nation, which means that Virginians in assisted living facilities would be eligible for nursing home care through Medicaid in most other states; and

WHEREAS, despite several reviews and legislative studies by the Joint Legislative Audit and Review Commission in the last decade and a half, many of the recommendations of such studies have not been pursued, and the Joint Commission on Health Care is well-versed in addressing the needs of older Virginians and Virginians with special needs; now, therefore, be it

RESOLVED by the Senate, the House of Delegates concurring, That the Joint Commission on Health Care be requested to study available data regarding assisted living and auxiliary grants and develop a blueprint for implementing recommendations that will allow the Commonwealth to provide a more realistic system of addressing housing and care needs.

In conducting its study, the Joint Commission on Health Care shall review available data regarding assisted living and auxiliary grants and develop a blueprint for implementing recommendations that will allow the Commonwealth to provide a more realistic system of addressing housing and care needs for those Virginians in need of home and community-based services and supports and assisted living and nursing home care. Such review and blueprint shall be made available to the Governor for use in his preparation of budget in the fall of 2021.

All agencies of the Commonwealth shall provide assistance to the Joint Commission on Health Care for this study, upon request.

The Joint Commission on Health Care shall complete its meetings by November 30, 2021, and the chairman shall submit to the Division of Legislative Automated Systems an executive summary of its findings and recommendations no later than the first day of the 2022 Regular Session of the General Assembly. The executive summary shall state whether the Joint Commission on Health Care intends to submit to the General Assembly and the Governor a report of its findings and recommendations for publication as a House or Senate document. The executive summary and report shall be submitted as provided in the procedures of the Division of Legislative Automated Systems for the processing of legislative documents and reports and shall be posted on the General Assembly's website.

SENATE JOINT RESOLUTION NO. 294

Directing the Joint Legislative Audit and Review Commission to study the true cost of education in the Commonwealth and provide an accurate assessment of the costs to implement the Standards of Quality. Report.

Agreed to by the Senate, January 27, 2021

Agreed to by the House of Delegates, February 24, 2021

WHEREAS, under Article VIII, Section 1 of the Constitution of Virginia, ultimate responsibility for public education rests with the General Assembly, which is specifically charged with the duties of establishing a public school system and striving to ensure its quality; and

WHEREAS, the Standards of Quality, prescribed by the Board of Education and revised only by the General Assembly, establish minimum educational goals and requirements; and

WHEREAS, the cost of such Standards of Quality and how that cost is shared between the state and the localities is determined by the General Assembly; and

WHEREAS, the Standards of Quality funding formula has undergone several changes in the past decade and may no longer reflect the actual costs schools face in educating Virginia's children; and

WHEREAS, many school divisions in the Commonwealth exceed the minimum educational goals and requirements of the Standards of Quality; and

WHEREAS, the General Assembly must take into account the actual cost of education in the Commonwealth in order to ensure a high-quality education program and a fair balance of costs between the state and the localities; now, therefore, be it

RESOLVED by the Senate, the House of Delegates concurring, That the Joint Legislative Audit and Review Commission be directed to study the true cost of education in the Commonwealth and provide an accurate assessment of the costs to implement the Standards of Quality.

In conducting its study, the Joint Legislative Audit and Review Commission shall (i) estimate the cost of implementing the Standards of Quality based on the actual expense of education prevailing in the Commonwealth, (ii) determine if the Standards of Quality accurately reflect actual standards of practice within each school division, (iii) analyze changes in the Standards of Quality funding formula since 2009 and the impact of such changes on its accuracy in reflecting such costs, (iv) recommend changes to the Standards of Quality funding formula to ensure that state support is neither inadequate nor excessive, and (v) consider any other funding issues and make any other recommendations it deems relevant.

Technical assistance shall be provided to the Joint Legislative Audit and Review Commission by the Department of Education. All agencies of the Commonwealth shall provide assistance to the Joint Legislative Audit and Review Commission for this study, upon request.

The Joint Legislative Audit and Review Commission shall complete its meetings for the first year by November 30, 2022, and for the second year by November 30, 2023, and the Director shall submit to the Division of Legislative Automated Systems an executive summary of its findings and recommendations no later than the first day of the next Regular Session of the General Assembly for each year. Each executive summary shall state whether the Joint Legislative Audit and Review Commission intends to submit to the General Assembly and the Governor a report of its findings and recommendations for publication as a House or Senate document. The executive summaries and reports shall be submitted as provided in the procedures of the Division of Legislative Automated Systems for the processing of legislative documents and reports and shall be posted on the General Assembly's website.

SENATE JOINT RESOLUTION NO. 308

Directing the Joint Legislative Audit and Review Commission to study the impact of COVID-19 on Virginia's public schools, students, and school employees. Report.

Agreed to by the Senate, January 27, 2021

Agreed to by the House of Delegates, February 24, 2021

WHEREAS, the COVID-19 pandemic has proven to be one of the most disruptive forces ever exerted on Virginia's public schools. State guidance has given local school divisions wide latitude in deciding to what extent school programs should be delivered virtually, as opposed to in person, under revised protocols to protect health and safety; and

WHEREAS, strong and inclusive public education systems are essential to the short-term and long-term recovery of society, and there is an opportunity to leapfrog toward powered-up schools; and

WHEREAS, public education systems in the United States were not built to deal with extended shutdowns like those imposed as a result of the COVID-19 pandemic. Teachers, administrators, and parents have worked hard to keep learning alive, but these efforts are not likely to provide the quality of education that is delivered in the classroom; and

WHEREAS, the COVID-19 pandemic has exposed the many inadequacies and inequities in public education systems, such as lack of access to the broadband and computers needed for online education, lack of supportive environments needed to focus on learning, and the misalignment between resources and needs; and

WHEREAS, the extended period of restrictions on face-to-face instruction in the Commonwealth has exacerbated previously existing differences in student learning experiences, levels of support, and access to resources. NWEA, a nonprofit organization that develops and offers student assessments, estimates that students could return to school in the fall, either in person or virtually, (i) with roughly 70 percent of the learning gains in reading relative to a typical school year and (ii) with less than 50 percent of the learning gains in mathematics relative to a typical school year and, at some grade levels, nearly a full year behind in mathematics relative to what educators would observe in normal conditions; and

WHEREAS, researchers predict that the top one-third of students will make gains in reading during the extended period of restrictions on face-to-face instruction, possibly because they are likely to continue reading with their families while such restrictions are in place, thus widening the achievement gap; and

WHEREAS, one national survey shows that one-third of teacher respondents report that the pandemic has made them more likely to exit the profession or opt for early retirement, results that are concerning. Of such subset of teacher respondents, 45 percent are over the age of 50, 44 percent have over 20 years of experience as educators, and 42 percent live in the American South; and

WHEREAS, government funding for public education often fluctuates in response to external shocks, as governments prioritize other investments. The slowdown of economic growth associated with the spread of COVID-19 may affect the availability of public funding for education, as tax revenues decline and emergency funds are funneled into supporting increased health care expenditures for those in poverty; and

WHEREAS, in response to the COVID-19 pandemic, many students have opted for home school and private school alternatives during the 2020–2021 school year, a trend that has had an adverse impact on the calculation of the number of students in average daily membership for the purpose of public education funding; and

WHEREAS, as public educators have an unwavering commitment to ensuring that Virginia's public education system is one that provides equitable educational opportunities to all students and to meeting the needs of all Virginia learners, especially those disproportionately impacted by restrictions on face-to-face instruction or learning loss; now, therefore, be it

RESOLVED by the Senate, the House of Delegates concurring, That the Joint Legislative Audit and Review Commission be directed to study the impact of COVID-19 on Virginia's public schools, students, and school employees.

In conducting its study, the Joint Legislative Audit and Review Commission shall:

1. Examine and determine reasons for barriers to student success in virtual and hybrid models as well as the overall impact of COVID-19 face-to-face learning restrictions on previously existing student achievement gaps, student achievement, and student well-being, including any disproportionate impact on at-risk populations;

2. Determine the impact of the COVID-19 pandemic on staffing levels, including the impact of teacher and school employee retirements and resignations on delivery of instruction and the ability of local school boards to fully staff their needs, employment levels, and local budgets;

3. Determine the short-term and projected long-term changes in student enrollment in response to the COVID-19 pandemic and the impact of such changes on funding levels;
4. Determine the impact of implementing COVID-19 health and safety measures in public schools;
5. Evaluate public schools' level of emergency preparedness to face another pandemic or statewide crisis and make recommendations to help guide planning for such events; and
6. Examine programs that can address learning loss and identify barriers to implementing those programs, including resource gaps.

Technical assistance shall be provided to the Joint Legislative Audit and Review Commission by the Department of Education and each local school board. All agencies of the Commonwealth shall provide assistance to the Joint Legislative Audit and Review Commission for this study, upon request.

The Joint Legislative Audit and Review Commission shall complete its meetings by November 30, 2022, and the chairman shall submit to the Division of Legislative Automated Systems an executive summary of its findings and recommendations no later than the first day of the 2023 Regular Session of the General Assembly. The executive summary shall state whether the Joint Legislative Audit and Review Commission intends to submit to the General Assembly and the Governor a report of its findings and recommendations for publication as a House or Senate document. The executive summary and report shall be submitted as provided in the procedures of the Division of Legislative Automated Systems for the processing of legislative documents and reports and shall be posted on the General Assembly's website.

WHEREAS, these four amendments provide equal protections to all citizens of the United States, regardless of race, color, sex, and the country from or method by which they or their ancestors came to the United States; and

WHEREAS, Section 1 of the Thirteenth Amendment to the Constitution of the United States reads: "Neither slavery nor involuntary servitude, except as a punishment for a crime whereof the party shall have been duly convicted, shall exist within the United States, or any place subject to their jurisdiction" and was ratified on December 6, 1865; and

WHEREAS, Section 1 of the Fourteenth Amendment to the Constitution of the United States reads: "All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and the State wherein they reside. No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws" and was ratified on July 9, 1868; and

WHEREAS, Section 1 of the Fifteenth Amendment to the Constitution of the United States reads: "The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of race, color, or previous condition of servitude" and was ratified on February 3, 1870; and

WHEREAS, the Nineteenth Amendment to the Constitution of the United States reads: "The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of sex. Congress shall have power to enforce this article by appropriate legislation" and was ratified on August 18, 1920; and

WHEREAS, the United States is strengthened and enriched by the diverse cultures that have contributed and continue to contribute to the American melting pot, and these four amendments allow citizens the freedom to recognize their ancestral heritage while integrating those traditions into American culture; and

WHEREAS, the equal rights and freedoms granted by these four amendments should be recognized and celebrated; now, therefore, be it

RESOLVED by the Senate, the House of Delegates concurring, That the General Assembly designate June 19 through the third Monday in July, in 2021 and in each succeeding year, as Liberty Amendments Month in Virginia; and, be it

RESOLVED FURTHER, That the Clerk of the Senate post the designation of this month on the General Assembly's website.

SENATE JOINT RESOLUTION NO. 395

Commemorating the 150th anniversary of the enactment of the Civil Rights Act of 1871.

Agreed to by the Senate, February 4, 2021

Agreed to by the House of Delegates, February 24, 2021

WHEREAS, the Civil Rights Act of 1871, the third and final act of the Enforcement Acts passed by the United States Congress to guarantee the rights encoded in the Reconstruction Amendments, was signed into law 150 years ago by President Ulysses S. Grant on April 20, 1871; and

WHEREAS, the Thirteenth, Fourteenth, and Fifteenth Amendments to the United States Constitution, together comprising the Reconstruction Amendments, were passed in the wake of the American Civil War to build a new foundation for the nation that was inclusive of rights for formerly enslaved persons and their descendants; these amendments formally encoded the abolition of slavery, granted citizenship to any person born or naturalized in the United States, guaranteed equal protection under the law to all citizens, and forbade the denial of citizens' right to vote "on account of race, color, or previous condition of servitude"; and

WHEREAS, despite the inclusion of these rights in the nation's founding document, institutions and individuals across the nation acted in defiance of the United States Constitution to continue to deprive African American citizens of the rights afforded to them under law; and

WHEREAS, among the threats to the peace, safety, suffrage, and freedom of African American citizens was the terrorization of Black communities by the Ku Klux Klan, which had risen to prominence in the American South; the Civil Rights Act of 1871, introduced as "An Act to Enforce the Provisions of the Fourteenth Amendment of the Constitution and for Other Purposes," gave the president means, including the power to use military force and suspend the writ of habeas corpus, to intervene in efforts "to deny to any citizen of the United States the due and equal protection of the laws" where states failed to do so; and

WHEREAS, the federal government's use of these specific powers to intervene to protect the rights guaranteed by the Reconstruction Amendments led to the disbandment of the Ku Klux Klan and other white supremacist organizations for decades to follow; and

WHEREAS, in spite of these actions, Virginia was one among many states that continued on a shameful trajectory following the Reconstruction Era that allowed for the persecution of Black citizens through systematic segregation and disenfranchisement, denial of education and civil rights, and failure to protect the lives of citizens from the horrific act of lynching; and

WHEREAS, the rights guaranteed by the Reconstruction Amendments have had to be continually fought for and won, and the Civil Rights Act of 1871 represents one of many efforts during the Reconstruction Era to guarantee that the United States Constitution is upheld and the rights provided for within it are extended to all citizens; now, therefore, be it

RESOLVED by the Senate, the House of Delegates concurring, That the 150th anniversary of the enactment of the Civil Rights Act of 1871 hereby be commemorated; and be it

RESOLVED FURTHER, That the Clerk of the Senate transmit a copy of this resolution to the Superintendent of Public Instruction, the Chairman and Executive Director of the State Council of Higher Education for Virginia, the Chancellor of the Virginia Community College System, the Executive Director of the Virginia State Conference NAACP, and the Executive Director of the American Civil Liberties Union of Virginia, requesting that they further disseminate copies of this resolution to their respective constituents so that they may be apprised of the sense of the General Assembly of Virginia in this matter.

2. The following appropriations shall be transferred from this Item for the following purposes:

a. Unemployment Assistance

1) \$73,600,000 to the Virginia Employment Commission (182) for information technology modernization, call center improvements, security, and claims adjudication. Information technology improvements shall include a customer relationship management system and other such communication tools to better serve Unemployment Insurance clients.

2) \$862,000,000 to the Virginia Employment Commission (182) for deposit to the Unemployment Trust Fund.

3) Notwithstanding any other provision of law, the Virginia Employment Commission shall compute tax rates for Calendar Year 2022 by excluding pandemic related claim activity. Any such rate for any employer for Calendar Year 2022, may be less than, but shall not exceed the established rate for that employer for Calendar Year 2021. For purposes of this calculation, pandemic related claim activity is defined as all regular Unemployment Insurance claims activity from April 1, 2020, through June 30, 2021. The pool charge for Calendar Year 2022 shall be computed using this same methodology and set at an amount not to exceed the rate in effect for Calendar Year 2021.

b. Broadband

1) \$500,000 to the Department of General Services (194) for legal and real estate transaction support for agencies that own property to support broadband expansion.

2) \$479,000,000 to the Department of Housing and Community Development (165) to support broadband access managed and awarded through the Virginia Telecommunications Initiative grant making process; however, the agency may adjust the criteria to reflect the provisions established by the U.S. Department of the Treasury's rules and regulations regarding the Coronavirus State and Local Fiscal Recovery Funds established under the American Rescue Plan Act.

3) \$8,000,000 to the Department of Housing and Community Development (165) for the Line Extension Customer Assistance Program to support the extension of existing broadband networks to low to moderate income residents.

4) For grants awarded from the amounts appropriated in paragraphs B.2.b.2), C.1., and Item 114, Paragraph L. of Chapter 552, 2021 Acts of Assembly, Special Session I for the construction of broadband infrastructure through the Virginia Telecommunications Initiative, the Department of Housing and Community Development shall deliver an annual performance report to the Governor, Secretary of Commerce and Trade, and Chairs of the House Appropriations Committee and Senate Finance and Appropriations Committee on or before November 1st of each year, starting in Calendar Year 2022. To the extent possible, the annual performance report shall contain information by grant recipient and year on the following metrics: (1) Number of passings; (2) Grant dollars expended by fund source (State and Local Recovery Fund, Capital Project Fund, general fund state grants and match); (3) Contract performance period, and on-time progress towards project delivery; (4) Maximum advertised project speeds available; and, (5) Achievement of key project milestones. The annual performance report shall include an evaluation of any projects under risk of completion or underperformance. The Department of Housing and Community Development shall develop a public facing dashboard to be updated quarterly that contains key performance information by grant recipient and year, and includes the key performance indicators outlined above. Information in this public facing tool shall contain data beginning with grants awarded in the Fiscal Year 2022 Virginia Telecommunications Initiative grant cycle.

c. Rebuild VA

1) \$250,000,000 to the Department of Small Business and Supplier Diversity (350) for the Rebuild VA program. In awarding these funds, priority shall be given to qualifying applications received by the Department on or before June 30, 2021, for which a grant has not been awarded. The Department shall solicit new applications to allocate any balance that remains from this appropriation. In allocating funds to support grants for applications solicited by the agency after June 30, 2021: (1) the Department shall prioritize funding for businesses in the hospitality and tourism industry, that includes, but is not limited to hotel and lodging establishments, restaurants, and entertainment and public amusement venues; and, (2) in awarding these funds to restaurants, funds shall be reserved for restaurants that have not received federal assistance through the Small Business Administration's Restaurant Revitalization Fund or loan forgiveness from the Small Business Administration's Paycheck Protection Program.

d. Other small business

1) \$22,500,000 to the Department of Housing and Community Development (165) to support the Virginia Removal or Rehabilitation of Derelict Structures Fund program. Notwithstanding § 36-155, Code of Virginia, for the purposes of this funding, the maximum grant amount shall be \$5,000,000 for projects in economically distressed areas, and any grant award in excess of \$1,000,000 for projects in economically distressed areas shall be conditioned upon a 100 percent match of local and/or private funds by the local government. The funds shall be managed and awarded through the Industrial Revitalization Fund process; however, the department may adjust the criteria to reflect the provisions established by the U.S. Department of the Treasury's rules and regulations regarding the Coronavirus State and Local Fiscal Recovery Funds established under the American Rescue Plan Act. Pursuant to these provisions, DHCD shall increase project cap amounts and consider updates to program guidelines that make more projects viable, especially in communities disproportionately impacted by the pandemic. Where the proposed project's end user is a private business, DHCD shall include evaluation criteria that incentivizes significant private investment.

2) \$4,000,000 to the Department of Housing and Community Development to support the Virginia Main Street Program in providing assistance to businesses recovering from the COVID-19 pandemic.

e. Utility Assistance

1) a) \$120,000,000 for utility assistance, to help provide direct assistance to residential utility customers with accounts over 60 days in arrears including the cost to administer the program.

b) The State Corporation Commission shall establish an application process to distribute funds directly to utilities for the purpose of efficiently providing direct assistance to customers. Funds shall be awarded proportionally based on total arrearages of residential utility customer accounts over 60 days in arrears as of August 31, 2021. The Director, Department of Planning and Budget shall distribute funds to the State Corporation Commission within 30 days of the passage of this act. The Director, Department of Planning and Budget in consultation with the State Corporation Commission and the

Department of Housing and Community Development shall transfer amounts from this allocation to address the arrearages held by residential customers of utilities outside the jurisdiction of the Commission to the Department of Housing and Community Development for distribution to these utilities. Notwithstanding § 2.2-4002, Code of Virginia, the provisions contained in this paragraph establishing the utility direct assistance program shall not be subject to the Administrative Process Act.

c) Upon receipt of any funds provided in this paragraph, utilities shall maintain separate ARPA COVID-19 Utility Assistance Funds and record direct assistance payments to residential customers on their books in accordance with applicable accounting standards. Utilities may not direct any funds provided in this paragraph to new deposits, down payments, fees, late fees, interest charges, or penalties. Utilities may require the customer to attest to the utility or to a third party chosen by the utility that the customer has experienced a financial hardship resulting directly or indirectly from the COVID-19 pandemic or that they have experienced a hardship to pay during the COVID-19 pandemic prior to receiving direct assistance from the utility's ARPA COVID-19 Utility Assistance Fund. While utilities may require attestation of such hardship, it is implied that arrearages accrued over 60 days for customer nonpayment of bills from March 12, 2020, to the effective date of this act, for which federal relief funds shall be used for direct subsidy payments on behalf of customers were incurred as a financial hardship created by the COVID-19 pandemic. Utilities shall reflect the direct assistance payment on an eligible customer's monthly bill, after the funds are applied to the customer's account. Should the application of any assistance render a customer due a balance necessitating a cash refund payable to the customer, such assistance shall be proportionally reduced as to achieve a zero balance.

d) For the purposes of this appropriation, utilities include electric companies subject to regulation of the State Corporation Commission, natural gas suppliers subject to the regulation of the Commission, electric and gas municipal utilities, and water suppliers and wastewater service providers, subject to the regulation of Commission or constituting a municipal utility. "Municipal utility" means a utility providing electric, gas, water, or wastewater service that is owned or operated by a city, county, town, authority, or other political subdivision of the Commonwealth. Notwithstanding the provisions of this paragraph, a utility does not include any Phase II utility subject to the regulation of the State Corporation Commission.

e) The Department of Housing and Community Development shall survey municipal utilities to determine the amount of unspent utility assistance funds previously provided under the Coronavirus Aid, Relief, and Economic Security (CARES) Act (P.L. 116-136), as well as the level of outstanding customer arrearages as of August 31, 2021, from March 12, 2020. The information collected shall include the number and value of accounts that are at least 60 days in arrears disaggregated by residential, business, and industrial users. Utilities not subject to the regulation of the State Corporation Commission shall submit the required information to the Department in a timely manner. The Department shall submit a report on its findings to the Governor and the Chairs of the House Appropriations Committee and Senate Finance and Appropriations Committee by November 1, 2021.

f) The State Corporation Commission shall survey jurisdictional utilities to determine the amount of unspent utility assistance funds previously provided under the Coronavirus Aid, Relief, and Economic Security (CARES) Act (P.L. 116-136), as well as the level of outstanding customer arrearages as of August 31, 2021, from March 12, 2020. The information collected shall include the number and value of accounts that are at least 60 days in arrears disaggregated by residential, business, and industrial users. Utilities subject to the regulation of the State Corporation Commission shall submit the required information to the Commission in a timely manner. The Commission shall submit a report on its findings to the Governor and the Chairs of the House Appropriations Committee and Senate Finance and Appropriations Committee by November 1, 2021.

g) If it is determined that the funds provided in this paragraph are insufficient to satisfy the aggregate outstanding jurisdictional and municipal utility customer arrearages following the passage of this act, additional funding may be considered during the 2022 General Assembly Session.

The study should address issues of pay compression among the various levels of the existing law enforcement workforce, competition with other employers for individuals with the same preferred qualifications and skill sets, and any other circumstances such as the cost of relocation that create barriers to maintaining a diverse, high quality law enforcement workforce. In addition, the report shall include a detailed plan for implementing a compensation program that responds to the issues and problems outlined in the report and the related annual costs to implement the plan beginning in fiscal year 2023, and the ongoing cost for the next five fiscal years. This plan shall be submitted to the Governor, the Chair of the House Appropriations Committee, the Chair of the Senate Finance and Appropriations Committee, the Director of the Department of Human Resource Management, and the Director of the Department of Planning and Budget, no later than October 15, 2021, so that the required funding may be included in the 2022-2024 budget to be adopted by the General Assembly at its 2022 Session.

C. 1. Out of the appropriation for this Item, amounts estimated at \$221,739,237 the second year from the estimated revenues to be received from the federal distributions of Capital Project Fund amounts from the American Rescue Plan Act of 2021 (ARPA) shall be transferred to Department of Housing and Community Development for the implementation of

broadband improvement projects in the Commonwealth. The funds shall be managed and awarded through the Virginia Telecommunications Initiative grant making process; however, the agency may adjust the criteria to reflect the provisions established by the U.S. Department of the Treasury's rules and regulations established under the American Rescue Plan Act.

2. For grants awarded from the amounts appropriated in paragraphs C.1., B.2.b.2., and Item 114, Paragraph L. of Chapter 552, 2021 Acts of Assembly, Special Session I for the construction of broadband infrastructure through the Virginia Telecommunications Initiative, the Department of Housing and Community Development shall deliver an annual performance report to the Governor, Secretary of Commerce and Trade, and Chairs of the House Appropriations Committee and Senate Finance and Appropriations Committee on or before November 1st of each year, starting in Calendar Year 2022. To the extent possible, the annual performance report shall contain information by grant recipient and year on the following metrics: (1) Number of passings; (2) Grant dollars expended by fund source (State and Local Recovery Fund, Capital Project Fund, general fund state grants and match); (3) Contract performance period, and on-time progress towards project delivery; (4) Maximum advertised project speeds available; and, (5) Achievement of key project milestones. The annual performance report shall include an evaluation of any projects under risk of incompleteness or underperformance. The Department of Housing and Community Development shall develop a public facing dashboard to be updated quarterly that contains key performance information by grant recipient and year, and includes the key performance indicators outlined above. Information in this public facing tool shall contain data beginning with grants awarded in the Fiscal Year 2022 Virginia Telecommunications Initiative grant cycle.

2. a. Out of the appropriation for the Elementary and Secondary School Emergency Relief (ESSER) Fund, State Educational Agency (SEA) reservation, appropriated to the Department of Education, Central Office Operations (201), \$3,500,000 the second year shall be transferred to Direct Aid to Public Education (197) to support the state and local shares of special education private day school costs for any student with a disability who received special education and related services in a private day school setting during the 2020-2021 school year and who opts for an extension to attend school during the 2021-2022 school year pursuant to Item 146.d. of Chapter 552, 2021 Acts of Assembly, Special Session I. Payments to school divisions to support special education private day school costs for such students shall deduct any amounts due to the school division pursuant to Item 146.d of Chapter 552 and the local match for those funds based on the composite index of local ability-to-pay. All students who are provided the temporary extension of special education eligibility pursuant to Item 146.d of Chapter 552 shall be provided a free appropriate public education consistent with the federal Individuals with Disabilities Education Act for the duration of the 2021-2022 school year; notwithstanding such students' age or school setting. School divisions are encouraged to use federal ESSER Funds to meet the local share of costs for such students.

b. Out of the appropriation for the Elementary and Secondary School Emergency Relief (ESSER) Fund, State Educational Agency (SEA) reservation, appropriated to the Department of Education, Central Office Operations (201), \$11,500,000 the second year shall be transferred to Direct Aid to Public Education (197) to support recruitment efforts through incentive payments to individuals hired to fill instructional positions between August 15, 2021, and November 15, 2021. Local school divisions wishing to participate in this program shall report to the Department of Education the number of instructional position vacancies on August 15, 2021, no later than August 31, 2021. Based on this information, the Department shall communicate to each school division its available allocation from these funds, and school divisions shall communicate the availability of these funds in their recruitment. Such payments shall be based on \$2,500 per individual; however, for individuals hired in hard-to-fill positions or hard-to-staff schools, as defined by the Department of Education, the incentive payment shall be based on \$5,000 per individual. The Department of Education and the school divisions are authorized to prorate these amounts if the demand exceeds the initial allocation. School divisions shall (i) provide half of the incentive payment to the individual no earlier than January 1, 2022, and (ii) provide the balance of the full amount of the incentive payment to the individual no earlier than May 1, 2022, provided that the individual receives a satisfactory performance evaluation and provides a written commitment to return to the same school in the 2022-2023 school year. Individuals who are employed by a local school division in Virginia as of July 1, 2021, who accept an otherwise qualifying position in another local school division are not eligible for this incentive. Individuals employed by a local school division as of July 1, 2021, who transfer from a non-hard-to-staff school to a hard-to-staff school, as defined by the Department of Education, within the same division are eligible for the \$5,000 incentive payment. School divisions shall report to the Department of Education, in a format specified by the Department, all instructional hires in the 2021-2022 school year who qualify for this incentive payment, no later than November 30, 2021. No later than the first day of the 2022 General Assembly Session, the Department of Education shall report on the number of hires reported by each school division participating in this program and the anticipated amount of funding to be provided to each school division for payment to those individuals.

3. The Director of the Department of Planning and Budget is authorized to adjust the amounts appropriated in paragraph D.1. above to reflect the actual revenues received by the Commonwealth for each grant.

4.a. Agencies are authorized to initiate spending in the second year from these appropriations in order to provide one-time services for purposes authorized and permitted under federal law and in accordance with the guidance issued by the U.S. Department of Treasury and other applicable federal agencies, or to execute requirements of federal law that must

be initiated. No such spending shall be initiated for programs or services that create an ongoing commitment of state resources after the conclusion of the federal grant unless such services are required by federal law.

b. Prior to initiating any program, service, or spending from these appropriations, the responsible agency must provide written notification of its intended action to the Governor, the Chairs of the House Appropriations Committee and the Senate Finance and Appropriations Committee, and the Director of the Department of Planning and Budget. Such notice shall be provided no less than ten business days before an agency initiates services or incurs any costs associated with the grant. For purposes of this section, initiating a program includes any public announcement or proposal presented to constituent groups.

c. If an agency wishes to spend any amounts from these grants for purposes that create an ongoing commitment that must be maintained by state resources after the conclusion of the federal grant, it must receive prior approval and authorization of the General Assembly. Agencies must submit such proposals to the Department of Planning and Budget for consideration by the Governor and the General Assembly for the 2022-2024 biennial budget.

d. Agencies must ensure compliance with all use, documentation, and reporting requirements established in state and federal guidelines and laws.

e. The Governor is authorized to appropriate any additional grants not listed above if they must be executed before the 2022 regular session of the General Assembly. The Governor shall provide written notice to the chairpersons of the House Appropriations Committee and the Senate Finance and Appropriations Committee no less than five business days prior to appropriating such grants.

E.1. Effective July 1, 2021, through June 30, 2022, the Department of Medical Assistance Services (DMAS) shall temporarily increase the rates by 12.5 percent for all home and community based services eligible under guidance from the Centers for Medicaid and Medicare Services, except that for agency and consumer directed personal care, respite, and companion services in the home and community based services waivers and Early Periodic Screening, Diagnosis and Treatment (EPSDT) program, this temporary rate increase is effective until December 31, 2021. The department shall have the authority to implement these changes prior to completion of any regulatory process undertaken in order to effect such change.

2. The Department of Medical Assistance Services (DMAS) shall seek federal authority through the necessary waiver(s) and/or State Plan authorization under Titles XIX and XXI of the Social Security Act to issue one-time COVID-19 support directed payments in the amount of \$1,000 to Agency Directed personal care providers and Consumer Directed Attendants who provided personal care, attendant care, respite care, or companion care services to members who receive services via the EPSDT, Developmental Disability Waivers or the Commonwealth Coordinated Care Plus Waiver program during the first quarter of state fiscal year 2022. DMAS shall have the authority to work with necessary vendors and contractors to determine payment eligibility and the process by which payments will be made. The department shall have the authority to implement necessary changes prior to the completion of any regulatory process undertaken in order to effect such change. Effective October 1, 2021, DMAS shall begin implementing these processes and make payments as soon as administratively feasible.

3. The Department of Medical Assistance Services (DMAS) shall develop strategies, for consideration by the 2022 General Assembly, to re-invest general fund dollars freed-up by the enhanced federal match on home and community based services (HCBS). These strategies should enhance the Commonwealth's HCBS by creating capacity to meet the growing demand for HCBS and support structural changes needed to strengthen the HCBS systems. In addition, DMAS shall work with the Department of Behavioral Health and Developmental Services and the Centers for Medicaid and Medicare Services to identify any opportunities to use HCBS reinvestment dollars to divert individuals who are at risk of institutionalization in state facilities. DMAS shall prioritize those strategies that do not require significant on-going obligations or rely on rate increases. By October 1, 2021, DMAS shall report these strategies, including six year cost projections, to the Governor, the Chairs of the House Appropriations and Senate Finance and Appropriations Committees, and the Director, Department of Planning and Budget.

F. Notwithstanding any requirement in state law or regulation, the Superintendent of Public Instruction, with the support of the Commissioner of Social Services, shall have the authority to alter staff-to-child ratios and group sizes for licensed child day centers and child day centers that participate in the Child Care Subsidy Program by increasing the number of children per staff by (1) one child for groups of children from birth to the age of eligibility to attend public school, and (2) two children for groups of children from the age of eligibility to attend public school through 12 years. Child day centers that take advantage of this flexibility must notify families in writing of the temporary increase in ratios and group size. This authority and any resultant waiver of state law or regulation shall expire June 30, 2022. The Superintendent of Public Instruction shall ensure that any action taken under this provision is permissible under federal requirements.

G. Temporary nurse aides practicing in long term care facilities under the federal Public Health Emergency 1135 Waiver may be deemed eligible by the Board of Nursing while this waiver is in effect to take the National Nurse Aide Assessment Program examination upon submission of a completed application, the employer's written verification of competency and employment as a temporary nurse aide, and provided no other grounds exist under Virginia law to deny the application.

H. The Department of Behavioral Health and Developmental Services shall interpret Standard 12VAC35-105-530 E. to include "lack of adequate staff" as one of the conditions which can jeopardize the health, safety or welfare of individuals and/or employees to permit implementation of the emergency evacuation plan in accordance with Paragraphs A. (as

applicable), B. & G. DBHDS shall, if necessary, increase the licensed capacity for a minimum of six months for any location within 24 hours of receiving notice either verbally or via electronic communication to ensure that compliance is maintained with Department of Medical Assistance Regulation 12VAC30-122. Variances shall be granted for standards 12VAC35-105-340 and/or 360 as requested. This requirement shall end on June 30, 2022.

1.1. Nurse practitioners licensed by the Boards of Medicine and Nursing in the category of clinical nurse specialist shall practice in consultation with a licensed physician in accordance with a practice agreement between the nurse practitioner and the licensed physician.

2. Notwithstanding the provisions of paragraph 1.1. of this item, a nurse practitioner who was registered with the Board of Nursing as a clinical nurse specialist immediately prior to July 1, 2021, may practice without a practice agreement with a licensed physician if such nurse practitioner practices without prescriptive authority. This provision shall expire after June 30, 2022.

J. Any amounts appropriated in this item that remain unspent at the end of any fiscal year shall be reappropriated in the next fiscal year to be spent for the same purposes as stated in this act.

§ 3-5.23 CORPORATE INCOME TAX INFORMATIONAL REPORTING

A.1. Corporations that are members of a unitary business must file a report, in a manner prescribed by the Tax Commissioner, for the unitary combined group containing the unitary combined net income of such group. The report shall be based on taxable year 2019 computations and include, at a minimum the difference in tax owed as a result of filing a unitary combined report, computed according to the method or methods specified by the Tax Commissioner, compared to the tax owed under the current filing requirements.

2. "Unitary business" means a single economic enterprise made up either of separate parts of a single business entity or of a commonly controlled group of business entities that are sufficiently interdependent, integrated, and interrelated through their activities so as to provide a synergy and mutual benefit that produces a sharing or exchange of value among them and a significant flow of value to the separate parts. A "unitary business" includes that part of the business that meets the definition in this section and is conducted by a taxpayer through the taxpayer's interest in a partnership, whether the interest in that partnership is held directly or indirectly through a series of partnerships or other pass-through entities. A "unitary business" shall not include persons subject to, or that would be subject to if doing business in the Commonwealth, the insurance premiums license tax under Chapter 25 (§ 58.1-2500 et seq.), Code of Virginia, or the bank franchise tax under Chapter 12 (§ 58.1-1200 et seq.)

3. The report must be submitted to the Department of Taxation on or before July 1, 2021, which date shall not be extended.

4. Members of a unitary combined group shall exclude as a member and disregard the income and apportionment factors of any corporation incorporated in a foreign jurisdiction (a "foreign corporation") if the average of its property, payroll and sales factors outside the United States is eighty percent (80%) or more. If a foreign corporation is includible as a member in the unitary combined group, to the extent that such foreign corporation's income is subject to the provisions of a federal income tax treaty, such income is not includible in the unitary combined group net income. Such member shall also not include in the unitary combined report any expenses or apportionment factors attributable to income that is subject to the provisions of a federal income tax treaty. For purposes of this paragraph, "federal income tax treaty" means a comprehensive income tax treaty between the United States and a foreign jurisdiction, other than a foreign jurisdiction which the organization for economic co-operation and development has determined has not committed to the internationally agreed tax standard, or has committed to the international agreed tax standard but has not yet substantially implemented that standard, as identified in the then-current organization for economic co-operation and development progress report.

B. Any corporation required to submit such report to the Department of Taxation that fails to do so on or before July 1, 2021, or that makes a material omission or misstatement in connection with such a report shall be subject to a penalty of \$10,000. The Tax Commissioner shall have the authority to waive such penalty upon a determination that the requirement would cause an undue hardship. All requests for a waiver shall be transmitted to the Tax Commissioner in writing.

€. The Tax Commissioner shall on or before December 1, 2021, based on the information provided in income tax returns and the data submitted under this section, submit a report to the Chair of the Senate Finance and Appropriations Committee, the Chair of the House Appropriations Committee, and the Chair of the House Finance Committee.

14. That the provisions of Item 479.10, paragraphs 1.1. and 1.2. of Chapter 552, 2021 Acts of Assembly, Special Session I, are no longer effective upon signage of this act.

15. That the provisions of § 18.2-422 of the Code of Virginia shall not apply to a person wearing a mask to prevent the spread of COVID-19.

16.a. That upon enactment of this act and through June 30, 2022, no landlord shall terminate a residential tenancy, or take any action to obtain possession of a dwelling unit, for nonpayment of rent, if the eligible tenant has qualified for unemployment benefits or experienced a reduction in household income, incurred significant costs, or experienced other financial hardship during or due, directly or indirectly, to the coronavirus pandemic, except as follows:

1. If rent is unpaid when due, or if a payment under the terms of a payment plan is unpaid when due, the landlord shall, pursuant to § 55.1-1202, Code of Virginia, serve a written notice on the tenant that informs the tenant of the Virginia Rent Relief Program and provides the website address and statewide telephone number for that program. The written

notice shall also provide information on how to reach 2-1-1 Virginia to determine whether there are any other available federal, state and local rent relief programs.

2. The written notice shall also inform the tenant that the owner, landlord, or owner's licensed agent shall apply for rental assistance on the tenant's behalf within 14 days of serving the notice on the tenant, unless the tenant pays in full, enters into a payment plan or informs the landlord that they have already applied for rental assistance. The landlord shall apply for rental assistance on behalf of the tenant no later than 14 days after serving the written notice on the tenant, unless they receive the full amount owed by the tenant or confirmation from the tenant that the tenant has applied for rental assistance before the 14th day, or they have entered into a payment plan with the tenant. If the tenant has applied for rental assistance, the landlord shall cooperate with the tenant's application, by providing all information and documentation required to complete the application, including but not limited to the W-9 form and any supporting affidavits. In an initial application, if the landlord or the tenant does not receive written approval from the Virginia Rent Relief Program or any other federal, state, or local rent relief program within forty-five days of when a completed application for assistance is made by the tenant or the landlord, the landlord may proceed to obtain possession of the premise as provided in § 55.1-1251. For any subsequent application, if the landlord or tenant does not receive written approval from the Virginia Rent Relief Program or any other federal, state, or local rent relief program within fourteen days of submission of the subsequent completed application, the landlord may proceed to obtain possession of the premises as provided in § 55.1-1251. If a tenant who has not paid in full or entered into a payment plan with the landlord within 14 days after the written notice is served refuses to apply for rental assistance and also refuses to cooperate with the landlord in providing information and documentation required to complete the application made by the landlord, or if such tenant is determined ineligible for rental assistance, or there are no longer funds available through the Coronavirus Aid, Relief, and Economic Security (CARES) Act (P.L. 116-136) and from the American Rescue Plan Act of 2021 (ARPA) (P.L. 117-2) for rental assistance through the Virginia Rent Relief program, the landlord may take action to obtain possession of the tenant's dwelling unit as provided in § 55.1-1251, Code of Virginia.

b. If a landlord reports to a consumer reporting agency or debt collector regarding a tenant who is participating in the repayment plan or receiving assistance from a federal, state, or local rent relief program, the landlord shall report the account as "current" in accordance with the Public Law 116-136: Coronavirus Aid, Relief, and Economic Security Act.

c. If a tenant is complying with a written payment plan with the landlord or has resolved any non-payment of rent, the landlord cannot take any action to obtain possession of a dwelling unit for non-payment of rent.

d. Nothing in this section relieves either the landlord or the tenant from their obligations to maintain the dwelling as those obligations are set forth in Article 2 and Article 3 of Chapter 12 of Title 55.1.

e. Nothing in this section shall void any judgment for possession validly obtained by a landlord prior to the effective date of this act; however, a landlord shall not initiate, maintain, or advance any legal process to obtain possession of a dwelling unit for non-payment of the rent unless the landlord complies with the provisions of this section.

f. Notwithstanding any other language to the contrary, should the Governor declare a state of emergency pursuant to § 44-146.17 of the Code of Virginia in response to a communicable disease of public health threat as defined in § 44-146.16 of the Code of Virginia, and if that declaration specifically provides that the eighth enactment of Chapter 552 of the Acts of Assembly Special Session I shall supersede the language set forth in enactment sixteen of this act then this sixteenth enactment shall not be effective so long as such a declared state of emergency remains in effect.

17.a. That notwithstanding any other provision of law, any permanent or interim legislative study or advisory commission, committee, or subcommittee, other than a standing committee of the General Assembly to which bills and resolutions are referred during a legislative session pursuant to Article IV, Section 11 of the Constitution of Virginia, or any executive advisory board or council may conduct a meeting by electronic communications means without a quorum of the public body physically assembled at one location if the meeting is being held solely to receive presentations, updates, public comment, or conduct other forms of information gathering. If a quorum is not physically assembled, the commission, committee, subcommittee, board, or council shall not take any votes or make any formal recommendations at such meeting.

b. Any entity meeting in accordance with this enactment shall comply with all other requirements for conducting a meeting by electronic means set forth in subsection C of § 2.2-3708.2 of the Code of Virginia.

c. Should the Governor declare a state of emergency pursuant to § 44-146.17 of the Code of Virginia in response to a communicable disease of public health threat as defined in § 44-146.16 of the Code of Virginia, the provisions of Item 4-0.01.g. of Chapter 552 of the 2021 Special Session I shall govern the conduct of meetings.

18.a. That no institution or an agent thereof; athletic association; athletic conference; or other organization with authority over intercollegiate athletics shall:

1. Provide a prospective or current student-athlete with compensation for the use of his or her name, image, or likeness;

2. Prohibit or prevent a student-athlete from earning compensation for the use of his or her name, image, or likeness, except as set forth in this subsection;

3. Prohibit or prevent a student-athlete from obtaining professional representation by an athlete agent licensed pursuant to Chapter 5.2 (§ 54.1-526 et seq.) of Title 54.1 of the Code of Virginia, or legal representation by an attorney licensed to practice law in the Commonwealth, for issues related to name, image, or likeness;

4. Declare ineligible for competition or reduce, cancel or not renew an athletic scholarship because a student-athlete earns compensation for the use of his or her name, image, or likeness; or

5. Prevent an institution from participating in intercollegiate athletics because a student-athlete earns compensation for the use of his or her name, image or likeness, or obtains representation for related issues.
- b.
