CHAPTER 573

An Act to amend and reenact §§ 8.01-195.10, 8.01-195.11, and 58.1-322.02 of the Code of Virginia, relating to compensation for wrongful incarceration.

[S 755]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 8.01-195.10, 8.01-195.11, and 58.1-322.02 of the Code of Virginia are amended and reenacted as follows:

§ 8.01-195.10. Purpose; action by the General Assembly required; definitions.

A. The purpose of this article is to provide directions and guidelines for the compensation of persons who have been wrongfully incarcerated in the Commonwealth. Compensation for wrongful incarceration is governed by Article IV, Section 14 of the Constitution of Virginia, which prohibits the General Assembly from granting relief in cases in which the courts or other tribunals may have jurisdiction and any individual seeking payment of state funds for wrongful incarceration shall be deemed to have waived all other claims. The payment and receipt of any compensation for wrongful incarceration shall be contingent upon the General Assembly appropriating funds for that purpose. This article shall not provide an entitlement to compensation for persons wrongfully incarcerated or require the General Assembly to appropriate funds for the payment of such compensation. No estate of or personal representative for a decedent shall be entitled to seek a claim for compensation for wrongful incarceration.

B. As used in this article:

"Incarceration" or "incarcerated" means confinement in a local or regional correctional facility, juvenile correctional center, state correctional facility, residential detention center, or facility operated pursuant to the Corrections Private Management Act (§ 53.1-261 et seq.).

"Wrongful incarceration" or "wrongfully incarcerated" means incarceration for a felony conviction for which (i) the conviction has been vacated pursuant to Chapter 19.2 (§ 19.2-327.2 et seq.) or 19.3 (§ 19.2-327.10 et seq.) of Title 19.2, or the person incarcerated has been granted an absolute pardon for the commission of a crime that he did not commit; (ii) the person incarcerated shall have entered a final plea of not guilty *or an Alford plea*, or, regardless of the plea, the person incarcerated was convicted of a Class 1 felony, a Class 2 felony, or any felony for which the maximum penalty is imprisonment for life; and (iii) the person incarcerated did not by any act or omission on his part intentionally contribute to his conviction for the felony for which he was incarcerated.

§ 8.01-195.11. Compensation for wrongful incarceration.

A. Any person who is convicted of a felony by a county or city circuit court of the Commonwealth and is wrongfully incarcerated for such felony may be awarded compensation ~~in an amount equal to 90 percent of the inflation adjusted Virginia per capita personal income as reported by the Bureau of Economic Analysis of the U.S. Department of Commerce~~ for each year of incarceration, or portion thereof. *The amount of compensation per year shall be \$55,000, adjusted annually by the percentage increase in the Chained Consumer Price Index for All Urban Consumers (C-CPI-U), as published by the*

Bureau of Labor Statistics of the U.S. Department of Labor, or any predecessor or successor index, compared with the prior calendar year. Calculations made pursuant to this section shall be made by the State Treasurer.

B. Any compensation computed pursuant to subsection A and approved by the General Assembly shall be paid by the Comptroller by his warrant on the State Treasurer in favor of the person found to have been wrongfully incarcerated. The person wrongfully incarcerated shall be paid an initial lump sum equal to ~~20~~ 25 percent of the compensation award with the remaining ~~80~~ 75 percent of the principal of the compensation award to be used by the State Treasurer to purchase an annuity from any A+ rated company, including any A+ rated company from which the Virginia Lottery may purchase an annuity, to provide equal monthly payments to such person for a period certain of ~~25~~ 10 years commencing no later than one year after the effective date of the appropriation; however, if such person's life expectancy, as calculated pursuant to the provisions of § 8.01-419 based on his age on the effective date of the appropriation, is less than ~~25~~ 10 years, then, upon his election, the annuity period shall be equal to his life expectancy. The annuity shall provide that it shall not be sold, discounted, or used as securitization for loans and mortgages by the person awarded compensation. The annuity shall, however, contain beneficiary provisions providing for the annuity's continued disbursement in the event of the death of the person awarded compensation. All payments or costs of annuities under this section shall be made by check issued by the State Treasurer on warrant of the Comptroller.

Notwithstanding the foregoing, in the event that the person wrongfully incarcerated is 60 years of age or older or is terminally ill, the General Assembly may (i) pay 100 percent of the compensation computed pursuant to subsection A as a lump sum to the person wrongfully incarcerated or (ii) purchase an annuity for a period certain that is less than ~~25~~ 10 years. For the purposes of this section, "terminally ill" means that the individual has a medical prognosis, as certified by a licensed physician, that his life expectancy is five years or less if the illness runs its normal course.

C. In addition to the compensation awarded pursuant to subsection A, the General Assembly may pay to the person wrongfully incarcerated the amount of any unreimbursed fine, fee, court cost, or restitution imposed and paid and reasonable attorney fees and costs incurred to receive an award pursuant to this section.

D. Any person who is convicted of a felony by a county or city circuit court of the Commonwealth and is wrongfully incarcerated for such felony shall receive a transition assistance grant of \$15,000 to be paid from the Criminal Fund, which amount shall be deducted from any award received pursuant to subsection B, within 30 days of receipt of the written request for the disbursement of the transition assistance grant to the Executive Secretary of the Supreme Court of Virginia. Payment of the transition assistance grant from the Criminal Fund shall be made by the State Treasurer on warrants issued by the Comptroller upon written request signed by the Executive Secretary of the Supreme Court of Virginia. In addition, such person shall be entitled to receive reimbursement up to \$10,000 for tuition for career and technical training within the Virginia Community College System contingent upon successful completion of the training. Reimbursement for tuition shall be provided by the comprehensive community college at which the career or technical training was completed.

This subdivision shall not apply to the following: an individual who is an employee of, or under contract with, a law-enforcement agency, a victim or

the perpetrator of the crime for which the reward was paid, or any person who is compensated for the investigation of crimes or accidents.

15. Fifteen thousand dollars of military basic pay for military service personnel on extended active duty for periods in excess of 90 days; however, the subtraction amount shall be reduced dollar-for-dollar by the amount by which the taxpayer's military basic pay exceeds \$15,000 and shall be reduced to zero if such military basic pay amount is equal to or exceeds \$30,000.

16. The first \$15,000 of salary for each federal and state employee whose total annual salary from all employment for the taxable year is \$15,000 or less.

18. Any amount received as military retirement income by an individual awarded the Congressional Medal of Honor.

This subtraction shall not apply to assets acquired with such items of income or with the proceeds from the sale of assets stolen from, hidden from, or otherwise lost to, during World War II and its prelude and direct aftermath, a victim or target of Nazi persecution. The provisions of this subdivision shall only apply to an individual who was the first recipient of such items of income and who was a victim or target of Nazi persecution, or a spouse, surviving spouse, or child or stepchild of such victim.

20. The military death gratuity payment made after September 11, 2001, to the survivor of deceased military personnel killed in the line of duty, pursuant to 10 U.S.C. 21. The death benefit payments from an annuity contract that are received by a beneficiary of such contract, provided that (i) the death benefit payment is made pursuant to an annuity contract with an insurance company and (ii) the death benefit payment is paid solely by lump sum. The subtraction under this subdivision shall be allowed only for that portion of the death benefit payment that is included in federal adjusted gross income.

The amount subject to recapture shall be a portion of the amount withdrawn in the taxable year that was used for other than the payment of eligible costs, computed by multiplying the amount withdrawn and used for other than the payment of eligible costs by the ratio of the aggregate earnings in the account at the time of the withdrawal to the total balance in the account at such time.

CHAPTER 581

An Act to amend and reenact § 56-235.2 of the Code of Virginia, relating to investor-owned water and water and sewer utilities; ratemaking proceedings.

[H 182]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 56-235.2 of the Code of Virginia is amended and reenacted as follows:

§ 56-235.2. All rates, tolls, etc., to be just and reasonable to jurisdictional customers; findings and conclusions to be set forth; alternative forms of regulation for electric companies.

A. Any rate, toll, charge or schedule of any public utility operating in this Commonwealth shall be considered to be just and reasonable only if: (1) the public utility has demonstrated that such rates, tolls, charges or schedules in the aggregate provide revenues not in excess of the aggregate actual costs incurred by the public utility in serving customers within the jurisdiction of the Commission, including such normalization for nonrecurring costs and annualized adjustments for future costs as the Commission finds reasonably can be predicted to occur during the rate year, and a fair return on the public utility's rate base used to serve those jurisdictional customers, which return shall be calculated in accordance with § 56-585.1 for utilities subject to such section; (1a) the investor-owned public electric utility has demonstrated that no part of such rates, tolls, charges or schedules includes costs for advertisement, except for advertisements either required by law or rule or regulation, or for advertisements which solely promote the public interest, conservation or more efficient use of energy; and (2) the public utility has demonstrated that such rates, tolls, charges or schedules contain reasonable classifications of customers. Notwithstanding § 56-234, the Commission may approve, either in the context of or apart from a rate proceeding after notice to all affected parties and hearing, special rates, contracts or incentives to individual customers or classes of customers where it finds such measures are in the public interest. Such special charges shall not be limited by

the provisions of § 56-235.4. In determining costs of service, the Commission may use the test year method of estimating revenue needs. In any Commission order establishing a fair and reasonable rate of return for an investor-owned gas, telephone or electric public utility, the Commission shall set forth the findings of fact and conclusions of law upon which such order is based.

For ratemaking purposes, the Commission shall determine the federal and state income tax costs for investor-owned water, gas, or electric utility that is part of a publicly-traded, consolidated group as follows: (i) such utility's apportioned state income tax costs shall be calculated according to the applicable statutory rate, as if the utility had not filed a consolidated return with its affiliates, and (ii) such utility's federal income tax costs shall be calculated according to the applicable federal income tax rate and shall exclude any consolidated tax liability or benefit adjustments originating from any taxable income or loss of its affiliates.

In any ratemaking proceeding for an investor-owned utility authorized to furnish water or water and sewer service initiated after January 1, 2022, the Commission shall evaluate such utility on a stand-alone basis and, for purposes of establishing any revenue requirement and rates, utilize such utility's actual end-of-test period capital structure and cost of capital without regard to the cost of capital, capital structure, or investments of any other entities with which such utility may be affiliated, unless the Commission finds based on evidence in the record that the debt to equity ratio of the actual end-of-test period capital structure of such utility is unreasonable, in which case the Commission may utilize a debt to equity ratio that it finds to be reasonable. In all proceedings initiated after January 1, 2022, in which the Commission reviews the rates and associated earnings of an investor-owned utility authorized to furnish water or water and sewer service, the Commission shall conduct such review utilizing the same cost of capital and capital structure adopted in the utility's most recent rate case in which such rates were set, without regard to any later changes in the cost of capital or capital structure.

B. The Commission shall, before approving special rates, contracts, incentives or other alternative regulatory plans under subsection A, ensure that such action (i) protects the public interest, (ii) will not unreasonably prejudice or disadvantage any customer or class of customers, and (iii) will not jeopardize the continuation of reliable electric service.

C. After notice and public hearing, the Commission shall issue guidelines for special rates adopted pursuant to subsection A that will ensure that other customers are not caused to bear increased rates as a result of such special rates.

CHAPTER 582

An Act to amend and reenact § 56-235.2 of the Code of Virginia, relating to investor-owned water and water and sewer utilities; ratemaking proceedings.

[S 500]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

§ 56-235.2. All rates, tolls, etc., to be just and reasonable to jurisdictional customers; findings and conclusions to be set forth; alternative forms of regulation for electric companies.

A. Any rate, toll, charge or schedule of any public utility operating in this Commonwealth shall be considered to be just and reasonable only if: (1) the public utility has demonstrated that such rates, tolls, charges or schedules in the aggregate provide revenues not in excess of the aggregate actual costs incurred by the public utility in serving customers within the jurisdiction of the Commission, including such normalization for nonrecurring costs and annualized adjustments for future costs as the Commission finds reasonably can be predicted to occur during the rate year, and a fair return on the public utility's rate base used to serve those jurisdictional customers, which return shall be calculated in accordance with § 56-585.1 for utilities subject to such section; (1a) the investor-owned public electric utility has demonstrated that no part of such rates, tolls, charges or schedules includes costs for advertisement, except for advertisements either required by law or rule or regulation, or for advertisements which solely promote the public interest, conservation or more efficient use of energy; and (2) the public utility has demonstrated that such rates, tolls, charges or schedules contain reasonable classifications of customers. Notwithstanding § 56-234, the Commission may approve, either in the context of or apart from a rate proceeding after notice to all affected parties and hearing, special rates, contracts or incentives to individual customers or classes of customers where it finds such measures are in the public interest. Such special charges shall not be limited by the provisions of § 56-235.4. In determining costs of service, the Commission may use the test year method of estimating revenue needs. In any Commission order establishing a fair and reasonable rate of return for an investor-owned gas, telephone or electric public utility, the Commission shall set forth the findings of fact and conclusions of law upon which such order is based.

For ratemaking purposes, the Commission shall determine the federal and state income tax costs for investor-owned water, gas, or electric utility that is part of a publicly-traded, consolidated group as follows: (i) such utility's apportioned state income tax costs shall be calculated according to the applicable statutory rate, as if the utility had not filed a consolidated return with its affiliates, and (ii) such utility's federal income tax costs shall be calculated according to the applicable federal income tax rate and shall exclude any consolidated tax liability or benefit adjustments originating from any taxable income or loss of its affiliates.

In any ratemaking proceeding for an investor-owned utility authorized to furnish water or water and sewer service initiated after January 1, 2022, the Commission shall evaluate such utility on a stand-alone basis and, for purposes of establishing any revenue requirement and rates, utilize such utility's actual end-of-test period capital structure and cost of capital without regard to the cost of capital, capital structure, or investments of any other entities with which such utility may be affiliated, unless the Commission finds based on evidence in the record that the debt to equity ratio of the actual end-of-test period capital structure of such utility is unreasonable, in which case the Commission may utilize a debt to equity ratio that it finds to be reasonable. In all proceedings initiated after January 1, 2022, in which the Commission reviews the rates and associated earnings of an investor-owned utility authorized to furnish water or water and sewer service, the Commission shall conduct such review utilizing the same cost of capital and capital structure adopted in the utility's most recent rate case in which such rates were set, without regard to any later changes in the cost of capital or capital structure.

B. The Commission shall, before approving special rates, contracts, incentives or other alternative regulatory plans under subsection A, ensure that such action (i) protects the public interest, (ii) will not unreasonably prejudice or disadvantage any customer or class of customers, and (iii) will not jeopardize the continuation of reliable electric service.

C. After notice and public hearing, the Commission shall issue guidelines for special rates adopted pursuant to subsection A that will ensure that other customers are not caused to bear increased rates as a result of such special rates.

§ 32.1-169. Supervision by Board.

A. The Board shall have general supervision and control over all water supplies and waterworks in the Commonwealth insofar as the bacteriological, chemical, radiological, and physical quality of waters furnished for human consumption may affect the public health and welfare and may require that all water supplies be pure water. In exercising such supervision and control, the Board shall recognize the relationship between an owner's financial, technical, managerial, and operational capabilities and his capacity to comply with state and federal drinking water standards.

B. The Board shall adopt regulations establishing maximum contaminant levels (MCLs) in all water supplies and waterworks in the Commonwealth for (i) perfluorooctanoic acid and perfluorooctane sulfonate, and for such other perfluoroalkyl and polyfluoroalkyl substances as the Board deems necessary; (ii) chromium-6; and (iii) 1,4-dioxane. Each MCL shall be protective of public health, including of vulnerable subpopulations, including pregnant and nursing mothers, infants, children, and the elderly, and shall not exceed any MCL or health advisory for the same contaminant adopted by the U.S. Environmental Protection Agency. In establishing such MCLs, the Board shall review *the recommendations of any work group convened by the Commissioner after July 1, 2022, to study the occurrence of such contaminants in public drinking water*; MCLs adopted by other states, studies and scientific evidence reviewed by such states, material in the Agency for Toxic Substances and Disease Registry of the U.S. Department of Health, and current peer-reviewed scientific studies produced independently or by government agencies.

2. That the Board of Health shall at all times comply with all regulations adopted by the U.S. Environmental Protection Agency and shall adopt regulations establishing maximum contaminant levels for water supplies and waterworks in the Commonwealth that are consistent with such federal regulations in accordance with deadlines established in such federal regulations to maintain the Commonwealth's primary enforcement authority with regard to implementation of the federal Safe Drinking Water Act (42 U.S.C. § 300f et seq.) in the Commonwealth.

3. That, except for the purpose of adopting regulations establishing maximum contaminant levels for water supplies and waterworks in the Commonwealth promulgated by the U.S. Environmental Protection Agency, the Board of Health may initiate and continue a regulatory action to develop, but shall not adopt, regulations establishing maximum contaminant levels in water supplies and waterworks in the Commonwealth required by subsection B of § 32.1-169 of the Code of Virginia, as amended by the act, (i) until a work group convened at the option of the Commissioner of Health (the Commissioner) has completed a study of the occurrence of the contaminant proposed to be regulated in public drinking water in the Commonwealth and reported its findings and recommendations to the Governor and the Chairmen of the House Committees on Agriculture, Chesapeake and Natural Resources and Health, Welfare and Institutions and the Senate Committees on Agriculture, Conservation and Natural Resources and Education and Health and (ii) unless such action complies with requirements of the U.S. Environmental Protection Agency applicable to the development of regulations establishing maximum contaminant levels pursuant to 42 U.S.C. § 300g-1(b)(3)-(7). Any work group convened by the Commissioner to complete a study of the occurrence of the contaminant proposed to be regulated in public drinking water in the Commonwealth shall include at least one manufacturer with chemistry experience and representatives of publicly and privately owned waterworks, consumers of public drinking water, environmental and public health organizations, and such other stakeholders as the Commissioner shall deem appropriate. Administrative and technical support for such work group shall be provided by the Office of Drinking Water of the Department of Health (the Department) and shall include laboratory analysis, performed by the Division of Consolidated Laboratory Services of the Department of General Services, to determine current levels of contamination in public drinking water and possible sources of such contamination within available funding, including any grants from the U.S. Environmental Protection Agency that the Commissioner chooses to use for such purpose. In conducting its study, the work group shall (a) utilize a hybrid approach that takes into account potential risk or likelihood of finding the contaminant in public drinking water, the location of the waterworks or source of water in relation to potential sources of the contaminant, and other factors for the sample study design rather than random sampling; (b) provide for analysis of public drinking water distributed by waterworks serving fewer than 3,300 customers, waterworks operating in rural areas of the Commonwealth, waterworks in close proximity to active or decommissioned military installations, airports, fire-training facilities, unlined landfills, or industrial facilities that manufactured or used significant quantities of the contaminant, and waterworks previously studied by the Department that reported levels of the contaminant in public drinking water; (c) develop a temporal data set by collecting multiple samples from each location sampled to gather data regarding variations in the prevalence of the contaminant in public drinking water; and (d) focus on entry point sampling and exclude consecutive waterworks from sampling. The work group shall report its findings and recommendation annually by December 1 to the Governor and the Chairmen of the House Committees on Agriculture, Chesapeake and Natural Resources and Health, Welfare and Institutions and the Senate Committees on Agriculture, Conservation and Natural Resources and Education and Health.

2. Mixed beverage caterer's licenses, which may be granted only to a person regularly engaged in the business of providing food and beverages to others for service at private gatherings or at special events, which shall authorize the licensee to sell and serve alcoholic beverages for on-premises consumption. A. The Board may grant the following mixed beverages licenses:

1. Mixed beverage restaurant licenses, which shall authorize the licensee to sell and serve mixed beverages for consumption in dining areas and other designated areas of such restaurant. Such license may be granted only to persons (i) who operate a restaurant and (ii) whose gross receipts from the sale of food cooked, or prepared, and consumed on the premises and nonalcoholic beverages served on the premises, after issuance of such license, amount to at least 45 percent of the gross receipts from the sale of mixed beverages and food. For the purposes of this subdivision, other designated areas shall include outdoor dining areas, whether or not contiguous to the licensed premises, which outdoor dining areas may have more than one means of ingress and egress to an adjacent public thoroughfare, provided such areas are under the control of the licensee and approved by the Board. Such noncontiguous designated areas shall not be approved for any retail license issued pursuant to subdivision A 5 of § 4.1-201.

If the restaurant is located on the premises of a hotel or motel with no fewer than four permanent bedrooms where food and beverage service is customarily provided by the restaurant in designated areas, bedrooms, and other private rooms of such hotel or motel, such licensee may (a) sell and serve mixed beverages for consumption in such designated areas, bedrooms, and other private rooms and (b) sell spirits packaged in original closed containers purchased from the Board for on-premises consumption to registered guests and at scheduled functions of such hotel or motel only in such bedrooms or private rooms. However, with regard to a hotel classified as a resort complex, the Board may authorize the sale and on-premises consumption of alcoholic beverages in all areas within the resort complex deemed appropriate by the Board. Nothing herein shall prohibit any person from keeping and consuming his own lawfully acquired spirits in bedrooms or private rooms.

Where such club prepares no food in its restaurant but purchases its food requirements from a restaurant licensed by the Board and located on another portion of the premises of the same hotel or motel building, this fact shall not prohibit the granting of a license by the Board to such club qualifying in all other respects. The club's gross receipts from the sale of nonalcoholic beverages consumed on the premises and food resold to its members and guests and consumed on the premises shall amount to at least 45 percent of its gross receipts from the sale of mixed beverages and food. The food sales made by a restaurant to such a club shall be excluded in any consideration of the qualifications of such restaurant for a license from the Board.

If the restaurant is located on the premises of and operated by a municipal golf course, the Board shall recognize the seasonal nature of the business and waive any applicable monthly food sales requirements for those months when weather conditions may reduce patronage of the golf course, provided that prepared food, including meals, is available to patrons during the same months. The gross receipts from the sale of food cooked, or prepared, and consumed on the premises and nonalcoholic beverages served on the premises, after the issuance of such license, shall amount to at least 45 percent of the gross receipts from the sale of mixed beverages and food on an annualized basis.

If the restaurant is located on the premises of and operated by a culinary lodging resort, such license shall authorize the licensee to (A) sell alcoholic beverages for on-premises consumption, without regard to the amount of gross receipts from the sale of food prepared and consumed on the premises, in areas upon the licensed premises approved by the Board and other designated areas of the resort, including outdoor areas under the control of the licensee, and (B) permit the possession

and consumption of lawfully acquired alcoholic beverages by persons to whom overnight lodging is being provided in bedrooms and private guest rooms.

For the purposes of this subdivision, other designated areas shall include outdoor dining areas, whether or not contiguous to the licensed premises, which outdoor dining areas may have more than one means of ingress and egress to an adjacent public thoroughfare, provided such areas are under the control of the licensee and approved by the Board. Such noncontiguous designated areas shall not be approved for any retail license issued pursuant to subdivision A 5 of § 4.1-201.

C. With the exception of local governing bodies, local school boards, planning commissions, architectural review boards, zoning appeals boards, and boards with the authority to deny, revoke, or suspend a professional or occupational license, any public body may hold all-virtual public meetings, provided that the public body follows the other requirements in this chapter for meetings, the public body has adopted a policy as described in subsection D, and:

4. A phone number or other live contact information is provided to alert the public body if the audio or video transmission of the meeting provided by the public body fails, the public body monitors such designated means of communication during the meeting, and the public body takes a recess until public access is restored if the transmission fails for the public;

Minutes of all-virtual public meetings held by electronic communication means are taken as required by § 2.2-3707 and include the fact that the meeting was held by electronic communication means and the type of electronic communication means by which the meeting was held. D. Before a public body uses all-virtual public meetings as described in subsection C or allows members to use remote participation as described in subsection B, the public body shall first adopt a policy, by recorded vote at a public meeting, that shall be applied strictly and uniformly, without exception, to the entire membership and without regard to the identity of the member requesting remote participation or the matters that will be considered or voted on at the meeting. The policy shall:

CHAPTER 614

An Act to amend and reenact §§ 3.2-6540.1 and 3.2-6569 of the Code of Virginia, relating to vicious dogs.

[S 279]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 3.2-6540.1 and 3.2-6569 of the Code of Virginia are amended and reenacted as follows:

§ 3.2-6540.1. Vicious dogs; penalties.

A. As used in this section:

"Serious injury" means an injury having a reasonable potential to cause death or any injury other than a sprain or strain, including serious disfigurement, serious impairment of health, or serious impairment of bodily function and requiring significant medical attention.

"Vicious dog" means a canine or canine crossbreed that has (i) killed a person, (ii) inflicted serious injury to a person, or (iii) continued to exhibit the behavior that resulted in a previous finding by a court or, on or before July 1, 2006, by an animal control officer as authorized by ordinance that it is a dangerous dog, provided that its owner has been given notice of that finding.

B. Any law-enforcement officer or animal control officer who (i) has reason to believe that a canine or canine crossbreed ~~within his jurisdiction~~ is a vicious dog ~~shall~~ and (ii) is located in the jurisdiction where the vicious dog resides or in the jurisdiction where a vicious dog committed an act set forth in the definition shall apply to a magistrate serving the jurisdiction for the issuance of a summons requiring the owner or custodian, if known, to appear before a general district court at a specified time. The summons shall advise the owner of the nature of the proceeding and the matters at issue. If a

law-enforcement officer successfully makes an application for the issuance of a summons, he shall contact the local animal control officer and inform him of the location of the dog and the relevant facts pertaining to his belief that the dog is vicious. The animal control officer shall confine the animal until such time as evidence shall be heard and a verdict rendered. *Unless good cause is determined by the court, the evidentiary hearing shall be held not more than 30 days from the issuance of the summons.* The court, through its contempt powers, may compel the owner, custodian, or harbinger of the animal to produce the animal. If, after hearing the evidence, the court finds that the animal is a vicious dog, the court shall order the animal euthanized in accordance with the provisions of § 3.2-6562. The court, upon finding the animal to be a vicious dog, may order the owner, custodian, or harbinger thereof to pay restitution for actual damages to any person injured by the animal or to the estate of any person killed by the animal. The court, in its discretion, may also order the owner to pay all reasonable expenses incurred in caring and providing for such vicious dog from the time the animal is taken into custody until such time as the animal is disposed of. The procedure for appeal and trial shall be the same as provided by law for misdemeanors, *except that unless good cause is determined by the court, an appeal shall be heard within 30 days.* Trial by jury shall be as provided in Article 4 (§ 19.2-260 et seq.) of Chapter 15 of Title 19.2. The Commonwealth shall be required to prove its case beyond a reasonable doubt.

C. No canine or canine crossbreed shall be found to be a vicious dog solely because it is a particular breed, nor is the ownership of a particular breed of canine or canine crossbreed prohibited. No animal shall be found to be a vicious dog if the threat, injury, or damage was sustained by a person who was (i) committing, at the time, a crime upon the premises occupied by the animal's owner or custodian; (ii) committing, at the time, a willful trespass upon the premises occupied by the animal's owner or custodian; or (iii) provoking, tormenting, or physically abusing the animal, or can be shown to have repeatedly provoked, tormented, abused, or assaulted the animal at other times. No police dog that was engaged in the performance of its duties as such at the time of the acts complained of shall be found to be a vicious dog. No animal that, at the time of the acts complained of, was responding to pain or injury or was protecting itself, its kennel, its offspring, a person, or its owner's or custodian's property, shall be found to be a vicious dog.

D. Any owner or custodian of a canine or canine crossbreed or other animal whose willful act or omission in the care, control, or containment of a canine, canine crossbreed, or other animal is so gross, wanton, and culpable as to show a reckless disregard for human life and is the proximate cause of such dog or other animal attacking and causing serious injury to any person is guilty of a Class 6 felony. The provisions of this subsection shall not apply to any animal that, at the time of the acts complained of, was responding to pain or injury or was protecting itself, its kennel, its offspring, a person, or its owner's or custodian's property, or when the animal is a police dog that is engaged in the performance of its duties at the time of the attack.

E. The governing body of any locality may enact an ordinance parallel to this statute regulating vicious dogs. No locality may impose a felony penalty for violation of such ordinances.

§ 3.2-6569. Seizure and impoundment of animals; notice and hearing; disposition of animal; disposition of proceeds upon sale.

A. Any humane investigator, law-enforcement officer or animal control officer may lawfully seize and impound any animal that has been abandoned, has been cruelly treated, or is suffering from an apparent violation of this chapter that has rendered the animal in such a condition as to constitute a direct and immediate threat to its life, safety or health. The seizure or impoundment of an equine resulting from a violation of clause (iv) of subsection A or clause (ii) of subsection B of § 3.2-6570 may be undertaken only by the State Veterinarian or State Veterinarian's representative who has received training in the examination and detection of sore horses as required by 9 C.F.R. Part 11.7.

B. Before seizing or impounding any agricultural animal, the humane investigator, law-enforcement officer or animal control officer shall contact the State Veterinarian or State Veterinarian's representative, who shall recommend to the person the most appropriate action for effecting the seizure and impoundment. The humane investigator, law-enforcement officer or animal control officer shall notify the owner of the agricultural animal and the local attorney for the Commonwealth of the recommendation. The humane investigator, law-enforcement officer or animal control officer may impound the agricultural animal on the land where the agricultural animal is located if:

1. The owner or tenant of the land where the agricultural animal is located gives written permission;
2. A general district court so orders; or
3. The owner or tenant of the land where the agricultural animal is located cannot be immediately located, and it is in the best interest of the agricultural animal to be impounded on the land where it is located until the written permission of the owner or tenant of the land can be obtained.

If there is a direct and immediate threat to an agricultural animal, the humane investigator, law-enforcement officer or animal control officer may seize the animal, in which case the humane investigator, law-enforcement officer or animal control officer shall file within five business days on a form approved by the State Veterinarian a report on the condition of the animal at the time of the seizure, the location of impoundment, and any other information required by the State Veterinarian.

C. Upon seizing or impounding an animal, the humane investigator, law-enforcement officer or animal control officer shall petition the general district court in the city or county where the animal is seized for a hearing. The hearing shall be not more than 10 business days from the date of the seizure of the animal. The hearing shall be to determine whether the animal has been abandoned, has been cruelly treated, or has not been provided adequate care.

D. The humane investigator, law-enforcement officer, or animal control officer shall cause to be served upon the person with a right of property in the animal or the custodian of the animal notice of the hearing. If such person or the custodian is known and residing within the jurisdiction wherein the animal is seized, written notice shall be given at least five days prior to the hearing of the time and place of the hearing. If such person or the custodian is known but residing out of the jurisdiction where such animal is seized, written notice by any method or service of process as is provided by the Code of Virginia shall be given. If such person or the custodian is not known, the humane investigator, law-enforcement officer, or animal control officer shall cause to be published in a newspaper of general circulation in the jurisdiction wherein such animal is seized notice of the hearing at least one time prior to the hearing and shall further cause notice of the hearing to be posted at least five days prior to the hearing at the place provided for public notices at the city hall or courthouse wherein such hearing shall be held.

E. The procedure for appeal and trial shall be the same as provided by law for misdemeanors, *except that unless good cause is determined by the court, an appeal shall be heard within 30 days*. Trial by jury shall be as provided in Article 4 (§ 19.2-260 et seq.) of Chapter 15 of Title 19.2. The Commonwealth shall be required to prove its case beyond a reasonable doubt.

F. The humane investigator, law-enforcement officer, or animal control officer shall provide for such animal until the court has concluded the hearing. Any locality may require the owner of any animal held pursuant to this subsection for more than 30 days to post a bond in surety with the locality for the amount of the cost of boarding the animal for a period of time set by ordinance, not to exceed nine months.

In any locality that has not adopted such an ordinance, a court may order the owner of an animal held pursuant to this subsection for more than 30 days to post a bond in surety with the locality for the amount of the cost of boarding the animal for a period of time not to exceed nine months. The bond shall not be forfeited if the owner is found to be not guilty of the violation.

If the court determines that the animal has been neither abandoned, cruelly treated, nor deprived of adequate care, the animal shall be returned to the owner. If the court determines that the animal has been (i) abandoned or cruelly treated, (ii) deprived of adequate care, as that term is defined in § 3.2-6500, or (iii) raised as a dog that has been, is, or is intended to be used in dogfighting in violation of § 3.2-6571, then the court shall order that the animal may be: (a) sold by a local governing body, if not a companion animal; (b) disposed of by a local governing body pursuant to subsection D of § 3.2-6546, whether such animal is a companion animal or an agricultural animal; or (c) delivered to the person with a right of property in the animal as provided in subsection G.

G. In no case shall the owner be allowed to purchase, adopt, or otherwise obtain the animal if the court determines that the animal has been abandoned, cruelly treated, or deprived of adequate care. The court shall direct that the animal be delivered to the person with a right of property in the animal, upon his request, if the court finds that the abandonment, cruel treatment, or deprivation of adequate care is not attributable to the actions or inactions of such person.

H. The court shall order the owner of any animal determined to have been abandoned, cruelly treated, or deprived of adequate care to pay all reasonable expenses incurred in caring and providing for such animal from the time the animal is seized until such time that the animal is disposed of in accordance with the provisions of this section, to the provider of such care.

I. The court may prohibit the possession or ownership of other companion animals by the owner of any companion animal found to have been abandoned, cruelly treated, or deprived of adequate care. In making a determination to prohibit the possession or ownership of companion animals, the court may take into consideration the owner's past record of convictions under this chapter or other laws prohibiting cruelty to animals or pertaining to the care or treatment of animals and the owner's mental and physical condition.

J. If the court finds that an agricultural animal has been abandoned or cruelly treated, the court may prohibit the possession or ownership of any other agricultural animal by the owner of the agricultural animal if the owner has exhibited a pattern of abandoning or cruelly treating agricultural animals as evidenced by previous convictions of violating § 3.2-6504 or 3.2-6570. In making a determination to prohibit the possession or ownership of agricultural animals, the court may take into consideration the owner's mental and physical condition.

K. Any person who is prohibited from owning or possessing animals pursuant to subsection I or J may petition the court to repeal the prohibition after two years have elapsed from the date of entry of the court's order. The court may, in its discretion, repeal the prohibition if the person can prove to the satisfaction of the court that the cause for the prohibition has ceased to exist.

L. When a sale occurs, the proceeds shall first be applied to the costs of the sale then next to the unreimbursed expenses for the care and provision of the animal, and the remaining proceeds, if any, shall be paid over to the owner of the animal. If the owner of the animal cannot be found, the proceeds remaining shall be paid into the Literary Fund.

M. Nothing in this section shall be construed to prohibit the humane destruction of a critically injured or ill animal for humane purposes by the impounding humane investigator, law-enforcement officer, animal control officer, or licensed veterinarian.

By July 1, 2021, the Department, in collaboration with the Department of Criminal Justice Services and law-enforcement, mental health, behavioral health, developmental services, emergency management, brain injury, and racial equity stakeholders, shall develop a written plan for the development of a Marcus alert system. Such plan shall (i) inventory past and current crisis intervention teams established pursuant to Article 13 (§ 9.1-187 et seq.) of Chapter 1 of Title 9.1 throughout the Commonwealth that have received state funding; (ii) inventory the existence, status, and experiences of community services board mobile crisis teams and crisis stabilization units; (iii) identify any other existing

cooperative relationships between community services boards and law-enforcement agencies; (iv) review the prevalence of crisis situations involving mental illness or substance abuse, or both, including individuals experiencing a behavioral health crisis that is secondary to mental illness, substance abuse, developmental or intellectual disability, brain injury, or any combination thereof; (v) identify state and local funding of emergency and crisis services; (vi) include protocols to divert calls from the 9-1-1 dispatch and response system to a crisis call center for risk assessment and engagement, including assessment for mobile crisis or community care team dispatch; (vii) include protocols for local law-enforcement agencies to enter into memorandums of agreement with mobile crisis response providers regarding requests for law-enforcement backup during a mobile crisis or community care team response; (viii) develop minimum standards, best practices, and a system for the review and approval of protocols for law-enforcement participation in the Marcus alert system set forth in § 9.1-193; (ix) assign specific responsibilities, duties, and authorities among responsible state and local entities; and (x) assess the effectiveness of a locality's or area's plan for community involvement, including engaging with and providing services to historically economically disadvantaged communities, training, and therapeutic response alternatives.

C. 1. No later than December 1, 2021, the Department shall establish five Marcus alert programs and community care or mobile crisis teams, one located in each of the five Department regions.

2. No later than July 1, 2023, the Department shall establish five additional Marcus alert system programs and community care or mobile crisis teams, one located in each of the five Department regions. Community services boards or behavioral health authorities that serve the largest populations in each region, excluding those community services boards or behavioral health authorities already selected under subdivision 1, shall be selected for programs under this subdivision.

3. The Department shall establish additional Marcus alert systems and community care teams in geographical areas served by a community services board or behavioral health authority by July 1, 2024; July 1, 2025; and July 1, 2026. No later than July 1, 2026 2028, all community services board and behavioral health authority geographical areas shall have established a Marcus alert system that uses a community care or mobile crisis team.

4. All community care teams and mobile crisis teams established under this section shall meet the standards set forth in § 37.2-311.3.

D. The Department shall ~~assess and report on annually by November 15 to the Governor and the Chairmen of the House Committees for Courts of Justice and on Health, Welfare and Institutions, the Senate Committees on the Judiciary and Education and Health, and the Behavioral Health Commission regarding the impact and effectiveness of the comprehensive crisis system and the effectiveness of such system in meeting its the goals set forth in this section. The assessment report shall include, for the previous calendar year, (i) a description of approved local Marcus alert programs in the Commonwealth, including the number of such programs operating in the Commonwealth, the number of such programs added in the previous calendar year, and an analysis of how such programs work to connect the Commonwealth's comprehensive crisis system and mobile crisis response programs; (ii) the number of calls to received by the crisis call center, established pursuant to this section; (iii) the number of mobile crisis responses, undertaken by community care teams and mobile crisis teams in the Commonwealth; (iv) the number of mobile crisis responses that involved law-enforcement backup; and overall function of the comprehensive crisis system. A portion of the report, focused on the function of the Marcus alert system and local protocols for law-enforcement participation in the Marcus alert system, shall be written in collaboration with the Department of Criminal Justice Services and shall include the number and description of approved local programs and how the programs interface comprehensive crisis system and mobile crisis response; (v) the number of crisis incidents and injuries to any parties involved; a description of successes and problems encountered; and (vi) an analysis of the overall operation of any local protocols adopted or programs established pursuant to § 9.1-193, including any disparities in response and outcomes by race and ethnicity of individuals experiencing a behavioral health crisis and recommendations for improvement of the programs; (vii) a description of the overall function of the Marcus alert program and the comprehensive crisis system, including a description of any successes and any challenges encountered; and (viii) recommendations for improvement of the Marcus alert system and approved local Marcus alert programs.~~ The report shall also include ~~a specific plan to phase in (a) a description of barriers to establishment of a local Marcus alert system program and community care or mobile crisis team to provide mobile crisis response in each remaining geographical area served by a community services board or behavioral health authority as required in subdivision 1 in which such program and team has not been established and (b) a plan for addressing such barriers in order to increase the number of local Marcus alert programs and community care or mobile crisis teams.~~ The Department, ~~in collaboration with the Department of Criminal Justice Services; shall (i) submit a report by November 15, 2021, to the Joint Commission on Health Care outlining progress toward the assessment of these factors and any assessment items that are available for the reporting period and (ii) submit a comprehensive annual report to the Joint Commission on Health Care by November 15 of each subsequent year assist the Department in the preparation of the report required by this subsection.~~

2. The Department of Behavioral Health and Developmental Services and the Department of Criminal Justice Services shall convene a work group with representatives of each locality within the Commonwealth that has a population of less than or equal to 40,000 to identify barriers to establishment and implementation of the protocols outlined in subsection G of § 9.1-193 of the Code of Virginia, as amended by this act. The work group shall report its findings and make recommendations to address such barriers to the Chairmen of the House Committees for Courts of Justice and on Health, Welfare and Institutions, the Senate Committees on the Judiciary and Education and Health, the Behavioral Health Commission, and the Joint Commission on Health Care by December 1, 2022.

CHAPTER 620

An Act to amend and reenact §§ 15.2-961 and 15.2-961.1 of the Code of Virginia and to amend the Code of Virginia by adding sections numbered 15.2-961.3 and 15.2-961.4, relating to powers of local government; replacement and conservation of trees during development process.

[S 537]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 15.2-961 and 15.2-961.1 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding sections numbered 15.2-961.3 and 15.2-961.4 as follows:

§ 15.2-961. Replacement of trees during development process in certain localities.

A. Any locality with a population density of at least 75 persons per square mile or any locality within the Chesapeake Bay watershed may adopt an ordinance providing for the planting and replacement of trees during the development process pursuant to the provisions of this section. Population density shall be based upon the latest population estimates of the Cooper Center for Public Service of the University of Virginia.

B. The ordinance shall require that the site plan for any subdivision or development include the planting or replacement of trees on the site to the extent that, at 20 years, minimum tree canopies or covers will be provided in areas to be designated in the ordinance, as follows:

1. Ten percent tree canopy for a site zoned business, commercial, or industrial;
2. Ten percent tree canopy for a residential site zoned 20 or more units per acre;
3. Fifteen percent tree canopy for a residential site zoned more than 10 but less than 20 units per acre; and
4. Twenty percent tree canopy for a residential site zoned 10 units or less per acre.

However, the City of Williamsburg may require at 10 years the minimum tree canopies or covers set out above.

C. The ordinance shall require that the site plan for any subdivision or development include, at 20 years, that a minimum 10 percent tree canopy will be provided on the site of any cemetery as defined in § 54.1-2310, notwithstanding any other provision of this section. In no event shall any local tree replacement or planting ordinance adopted pursuant to this section exceed the requirements of this subsection.

D. The ordinance shall provide for reasonable provisions for reducing the tree canopy requirements or granting tree cover credit in consideration of the preservation of existing tree cover or for preservation of trees of outstanding age, size or physical characteristics.

E. The ordinance shall provide for reasonable exceptions to or deviations from these requirements to allow for the reasonable development of farm land or other areas devoid of healthy or suitable woody materials, for the preservation of wetlands, or otherwise when the strict application of the requirements would result in unnecessary or unreasonable hardship to the developer. In such instances, the ordinance may provide for a tree canopy bank whereby a portion of a development's tree canopy requirement may be met from off-site planting or replacement of trees at the direction of the locality. The following shall be exempt from the requirements of any tree replacement or planting ordinance promulgated under this section: dedicated school sites, playing fields and other nonwooded recreation areas, and other facilities and uses of a similar nature.

F. The ordinance may designate tree species that cannot be planted to meet minimum tree canopy requirements due to tendencies of such species to (i) negatively impact native plant communities, (ii) cause damage to nearby structures and infrastructure, or (iii) possess inherent physiological traits that cause such trees to structurally fail. All trees to be planted shall meet the specifications of the AmericanHort. The planting of trees shall be done in accordance with either the standardized landscape specifications jointly adopted by the Virginia Nursery and Landscape Association, the Virginia Society of Landscape Designers and the Virginia Chapter of the American Society of Landscape Architects, or the road and bridge specifications of the Virginia Department of Transportation.

G. Existing trees which are to be preserved may be included to meet all or part of the canopy requirements, and may include wooded preserves, if the site plan identifies such trees and the trees meet standards of desirability and life-year expectancy which the locality may establish.

H. For purposes of this section:

"Tree canopy" or "tree cover" includes all areas of coverage by plant material exceeding five feet in height, and the extent of planted tree canopy at 10 or 20 years maturity. Planted canopy at 10 or 20 years maturity shall be based on published reference texts generally accepted by landscape architects, nurserymen, and arborists in the community, and the texts shall be specified in the ordinance.

I. Penalties for violations of ordinances adopted pursuant to this section shall be the same as those applicable to violations of zoning ordinances of the locality.

J. In no event shall any local tree replacement or planting ordinance adopted pursuant to this section exceed the requirements set forth herein.

K. Nothing in this section shall invalidate any local ordinance adopted pursuant to the provisions of this section prior to July 1, 1990, which imposes standards for tree replacement or planting during the development process.

L. Nothing in this section shall invalidate any local ordinance adopted by the City of Williamsburg that imposes standards for 10-year-minimum tree cover replacement or planting during the development process.

M. Nothing in this section shall invalidate any local ordinance adopted pursuant to the provisions of this section after July 1, 1990, which imposes standards for 20-year-minimum tree cover replacement or planting during the development process.

N. Nothing in this section shall prohibit or unreasonably limit silvicultural practices in accordance with § 10.1-1126.1.

§ 15.2-961.1. Conservation of trees during land development process in localities belonging to a nonattainment area for air quality standards.

A. For purposes of this section, "tree canopy" or "tree cover" includes all areas of canopy coverage by self-supporting and healthy woody plant material exceeding five feet in height, and the extent of planted tree canopy at 20-years maturity.

B. Any locality within Planning District 8 that meets the population density criteria of subsection A of § 15.2-961 and is classified as an eight-hour nonattainment area for ozone under the federal Clean Air Act and Amendments of 1990, in effect as of July 1, 2008, may adopt an ordinance providing for the conservation of trees during the land development process pursuant to the provisions of this section. In no event shall any local tree conservation ordinance adopted pursuant to this section also impose the tree replacement provisions of § 15.2-961.

C. The ordinance shall require that the site plan for any subdivision or development provide for the preservation or replacement of trees on the development site such that the minimum tree canopy or tree cover percentage 20 years after development is projected to be as follows:

1. Ten percent tree canopy for a site zoned business, commercial, or industrial;
2. Ten percent tree canopy for a residential site zoned 20 or more units per acre;
3. Fifteen percent tree canopy for a residential site zoned more than eight but less than 20 units per acre;
4. Twenty percent tree canopy for a residential site zoned more than four but not more than eight units per acre;
5. Twenty-five percent tree canopy for a residential site zoned more than two but not more than four units per acre; and
6. Thirty percent tree canopy for a residential site zoned two or fewer units per acre.

In meeting these percentages, (i) the ordinance shall first emphasize the preservation of existing tree canopy where that canopy meets local standards for health and structural condition, and where it is feasible to do so within the framework of design standards and densities allowed by the local zoning and other development ordinances; and (ii) second, where it is not feasible in whole or in part for any of the justifications listed in subsection E to preserve existing canopy in the required percentages listed above, the ordinance shall provide for the planting of new trees to meet the required percentages.

D. Except as provided in subsection E, the percentage of the site covered by tree canopy at the time of plan submission shall equate to the minimum portion of the requirements identified in subsection C that shall be provided through tree preservation. This portion of the canopy requirements shall be identified as the "tree preservation target" and shall be included in site plan calculations or narratives demonstrating how the overall requirements of subsection C have been met.

E. The ordinance shall provide deviations, in whole or in part, from the tree preservation target defined in subsection D under the following conditions:

1. Meeting the preservation target would prevent the development of uses and densities otherwise allowed by the locality's zoning or development ordinance.
2. The predevelopment condition of vegetation does not meet the locality's standards for health and structural condition.
3. Construction activities could be reasonably expected to impact existing trees to the extent that they would not likely survive in a healthy and structurally sound manner. This includes activities that would cause direct physical damage to the trees, including root systems, or cause environmental changes that could result in or predispose the trees to structural and health problems.

If, in the opinion of the developer, the project cannot meet the tree preservation target due to the conditions described in subdivision 1, 2, or 3, the developer may request a deviation from the preservation requirement in subsection D. In the request for deviation, the developer shall provide a letter to the locality that provides justification for the deviation, describes how the deviation is the minimum necessary to afford relief, and describes how the requirements of subsection C will be met through tree planting or a tree canopy bank or fund established by the locality. Proposed deviations shall be reviewed by the locality's urban forester, arborist, or equivalent in consultation with the locality's land development or licensed professional civil engineering review staff. The locality may propose an alternative site design based upon adopted land development practices and sound vegetation management practices that take into account the relationship between the cost of conservation and the benefits of the trees to be preserved as described in ANSI A300 (Part 5) — 2005 Management: Tree, Shrub, and Other Woody Plant Maintenance — Standard Practices, Management of Trees and Shrubs During Site Planning, Site Development, and Construction, Annex A, A-1.5, Cost Benefits Analysis (or the latest version of this standard). The developer shall consider the alternative and redesign the plan accordingly, or elect to satisfy the unmet portion of the preservation threshold through on-site tree planting or through the off-site planting mechanisms identified in subsection G, so long as the developer provides the locality with an explanation of why the alternative design recommendations were rejected. Letters of explanation from the developer shall be prepared and certified by a licensed professional engineer as defined in § 54.1-400. If arboricultural issues are part of explanation then the letter shall be signed by a Certified Arborist who has taken and passed the certification examination sponsored by the International Society of Arboriculture and who maintains a valid certification status or by a Registered Consulting Arborist as designated by the

American Society of Consulting Arborists. If arboricultural issues are the sole subject of the letter of explanation then certification by a licensed professional engineer shall not be required.

F. The ordinance shall provide for deviations of the overall canopy requirements set forth in subsection C to allow for the preservation of wetlands, the development of farm land or other areas previously devoid of healthy and/or suitable tree canopy, or where the strict application of the requirements would result in unnecessary or unreasonable hardship to the developer.

G. The ordinance shall provide for the establishment of a tree canopy bank or fund whereby any portion of the tree canopy requirement that cannot be met on-site may be met through off-site tree preservation or tree planting efforts. Such provisions may be offered where it can be demonstrated that application of the requirements of subsection C would cause irresolvable conflicts with other local site development requirements, standards, or comprehensive planning goals, where sites or portions of sites lack sufficient space for future tree growth, where planting spaces will not provide adequate space for healthy root development, where trees will cause unavoidable conflicts with underground or overhead utilities, or where it can be demonstrated that trees are likely to cause damage to public infrastructure. The ordinance may utilize any of the following off-site canopy establishment mechanisms:

1. A tree canopy bank may be established in order for the locality to facilitate off-site tree preservation, tree planting, stream bank, and riparian restoration projects. Banking efforts shall provide tree canopy that is preserved in perpetuity through conservation easements, deed restrictions, or similar protective mechanisms acceptable to the locality. Projects used in off-site banking will meet the same ordinance standards established for on-site tree canopy; however, the locality may also require the submission of five-year management plans and funds to ensure the execution of maintenance and management obligations identified in those plans. Any such bank shall occur within the same nonattainment area in which the locality approving the tree banking is situated.

2. A tree canopy fund may be established to act as a fiscal mechanism to collect, manage, and disburse fees collected from developers that cannot provide full canopy requirements on-site. The locality may use this fund directly to plant trees on public property, or the locality may elect to disburse this fund to community-based organizations exempt from taxation under § 501(c)(3) of the Internal Revenue Code with tree planting or community beautification missions for tree planting programs that benefit the community at large. For purposes of establishing consistent and predictable fees, the ordinance shall establish cost units that are based on average costs to establish 20-year canopy areas using two-inch caliper nursery stock trees. Any funds collected by localities for these purposes shall be spent within a five-year period established by the collection date, or the locality shall return such funds to the original contributor, or legal successor.

H. The following uses shall be exempt from the requirements of any ordinance promulgated under this section: bona fide silvicultural activity as defined by § 10.1-1181.1 and the areas of sites included in lakes, ponds, and the normal water elevation area of stormwater retention facilities. The ordinance shall modify the canopy requirements of dedicated school sites, playing fields, and other nonwooded active recreation areas by allowing these and other facilities and uses of a similar nature to provide 10 percent tree canopy 20 years after development.

I. 1. In recognition of the added benefits of tree preservation, the ordinance shall provide for an additional tree canopy credit of up to one and one-quarter times the canopy area at the time of plan submission for individual trees or the coalesced canopy of forested areas preserved from the predevelopment tree canopy.

2. The following additional credits may be provided in the ordinance in connection with tree preservation:

a. The ordinance may provide canopy credits of up to one and one-half times the actual canopy area for the preservation of forest communities that achieve environmental, ecological, and wildlife conservation objectives set by the locality. The ordinance may establish minimal area, dimensional and viability standards as prerequisites for the application of credits. Forest communities shall be identified using the nomenclature of either the federal National Vegetation Classification System (FGDC-STD-005, or latest version) or the Natural Communities of Virginia Classification of Ecological Community Groups, Second Approximation (Version 2.2, or latest version).

b. The ordinance may provide canopy credits of up to three times the actual canopy area of trees that are officially designated for preservation in conjunction with local tree conservation ordinances based on the authority granted by § 10.1-1127.1.

J. The following additional credits shall be provided in the ordinance in connection with tree planting:

1. The ordinance shall provide canopy credits of one and one-half the area normally projected for trees planted to absorb or intercept air pollutants, tree species that produce lower levels of reactive volatile organic compounds, or trees that act to reduce air pollution or greenhouse gas emissions by conserving the energy used to cool and heat buildings.

2. The ordinance shall provide canopy credits of one and one-quarter the area normally projected for trees planted for water quality-related reforestation or afforestation projects, and for trees planted in low-impact development and bioretention water quality facilities. The low-impact development practices and designs shall conform to local standards in order for these supplemental credits to apply.

3. The ordinance shall provide canopy credits of one and one-half the area normally projected for native tree species planted to provide food, nesting, habitat, and migration opportunities for wildlife. These canopy credits may also apply to cultivars of native species if the locality determines that such a cultivar is capable of providing the same type and extent of wildlife benefit as the species it is derived from.

4. The ordinance shall provide canopy credits of one and one-half the area normally projected for use of native tree species that are propagated from seed or tissue collected within the mid-Atlantic region.

5. The ordinance shall provide canopy credits of one and one-quarter the area normally projected for the use of cultivars or varieties that develop desirable growth and structural patterns, resist decay organisms and the development of cavities, show high levels of resistance to disease or insect infestations, or exhibit high survival rates in harsh urban environments.

K. Tree preservation areas and individual trees may not receive more than one application of additional canopy credits provided in subsection I. Individual trees planted to meet these requirements may not receive more than two categories of additional canopy credits provided in subsection J. Canopy credits will only be given to trees with trunks that are fully located on the development site, or in the case of tree banking projects only to trees with trunks located fully within easements or other areas protected by deed restrictions listed in subsection G.

L. All trees planted for tree cover credits shall meet the specifications of the American Association of Nurserymen and shall be planted in accordance with the publication entitled "Tree and Shrub Planting Guidelines," published by the Virginia Cooperative Extension.

M. In order to provide higher levels of biodiversity and to minimize the spread of pests and diseases, or to limit the use of species that cause negative impacts to native plant communities, cause damage to nearby structures, or possess inherent physiological traits that prone trees to structural failure, the ordinance may designate species that cannot be used to meet tree canopy requirements or designate species that will only receive partial 20-year tree canopy credits.

N. The locality may allow the use of tree seedlings for meeting tree canopy requirements in large open spaces, low-density residential settings, or in low-impact development reforestation/afforestation projects. In these cases, the ordinance shall allow the ground surface area of seedling planting areas to equate to a 20-year canopy credit area. Tree seedling plantings will be comprised of native species and will be planted in densities that equate to 400 seedlings per acre, or in densities specified by low-impact development designs approved by the locality. The locality may set standards for seedling mortality rates and replacement procedures if unacceptable rates of mortality occur. The locality may elect to allow native woody shrubs or native woody seed mix to substitute for tree species as long as these treatments do not exceed 33 percent of the overall seedling planting area. The number of a single species may not exceed 10 percent of the overall number of trees or shrubs planted to meet the provisions of this subsection.

O. The following process shall be used to demonstrate achievement of the required percentage of tree canopy listed in subsection C:

1. The site plan shall graphically delineate the edges of predevelopment tree canopy, the proposed limits of disturbance on grading or erosion and sedimentation control plans, and the location of tree protective fencing or other tree protective devices allowed in the Virginia Erosion and Sediment Control Handbook.

2. Site plans proposing modification to tree canopy requirements or claiming supplemental tree canopy credits will require a text narrative.

3. The site plan shall include the 20-year tree canopy calculations on a worksheet provided by the locality.

4. Site plans requiring tree planting shall provide a planting schedule that provides botanical and common names of trees, the number of trees being planted, the total of tree canopy area given to each species, variety or cultivars planted, total of tree canopy area that will be provided by all trees, planting sizes, and associated planting specifications. The site plan will also provide a landscape plan that delineates where the trees shall be planted.

P. The ordinance shall provide a list of commercially available tree species, varieties, and cultivars that are capable of thriving in the locality's climate and ranges of planting environments. The ordinance will also provide a 20-year tree canopy area credit for each tree. The amount of tree canopy area credited to individual tree species, varieties, and cultivars 20 years after they are planted shall be based on references published or endorsed by Virginia academic institutions such as the Virginia Polytechnic Institute and State University and accepted by urban foresters, arborists, and horticulturalists as being accurate for the growing conditions and climate of the locality.

Q. The ordinance shall establish standards of health and structural condition of existing trees and associated plant communities to be preserved. The ordinance may also identify standards for removal of trees or portions of trees that are dead, dying, or hazardous due to construction impacts. Such removal standards may allow for the retention of trunk snags where the locality determines that these may provide habitat or other wildlife benefits and do not represent a hazardous condition. In the event that existing tree canopy proposed to be preserved for tree canopy credits dies or must be removed because it represents a hazard, the locality may require the developer to remove the tree, or a portion of the tree and to replace the missing canopy area by the planting of nursery stock trees, or if a viable alternative, by tree seedlings. Existing trees that have been granted credits will be replaced with canopy area determined using the same supplemental credit multipliers as originally granted for that canopy area.

R. Penalties for violation of ordinances adopted pursuant to this section shall be the same as those applicable to violations of zoning ordinances of the locality.

S. In no event shall any local tree conservation ordinance adopted pursuant to this section exceed the requirements set forth herein; however, any local ordinance adopted pursuant to the provisions of § 15.2-961 prior to July 1, 1990, may adopt the tree conservation provisions of this section based on 10-year minimum tree canopy requirements.

T. Nothing in this section shall invalidate any local ordinance adopted pursuant to § 15.2-961.

U. Nothing in this section shall prohibit or unreasonably limit silvicultural practices in accordance with § 10.1-1126.1.

§ 15.2-961.3. Replacement of trees during development process in localities.

A. Any locality may adopt an ordinance providing for the planting and replacement of trees during the development process pursuant to the provisions of this section.

B. The ordinance shall require that the site plan for any subdivision or development include the planting or replacement of trees on the site to the extent that, at 20 years, minimum tree canopies or covers will be provided in areas to be designated in the ordinance, as follows:

1. Ten percent tree canopy for a site zoned business, commercial, or industrial;
2. Ten percent tree canopy for a residential site zoned 20 or more units per acre;
3. Fifteen percent tree canopy for a residential site zoned more than 10 but less than 20 units per acre;
4. Twenty percent tree canopy for a residential site zoned 10 units or less per acre; and

5. The tree canopy percentage for a mixed-use development shall be the percentage applicable to the predominant use of the development. For purposes of this subdivision, "predominant use" means the use within the development that constitutes the largest percentage of gross land area or, in the case of a building or buildings, the largest percentage of the total floor area.

However, the City of Williamsburg may require at 10 years the minimum tree canopies or covers set out in this subsection.

C. The ordinance shall require that the site plan for any subdivision or development include, at 20 years, that a minimum 10 percent tree canopy will be provided on the site of any cemetery as defined in § 54.1-2310, notwithstanding any other provision of this section. In no event shall any local tree replacement or planting ordinance adopted pursuant to this section exceed the requirements of this subsection.

D. The ordinance shall provide for reasonable provisions for reducing the tree canopy requirements of subsection B or granting tree cover credit in consideration of the preservation of existing tree cover or for preservation of trees of outstanding age, size, or physical characteristics.

E. The ordinance shall provide for reasonable exceptions to or deviations from these requirements to allow for the reasonable development of farm land or other areas devoid of healthy or suitable woody materials, for the preservation of wetlands, or otherwise when the strict application of the requirements would result in unnecessary or unreasonable hardship to the developer. In such instances, the ordinance may provide for a tree canopy bank whereby a portion of a development's tree canopy requirement may be met from off-site planting or replacement of trees at the direction of the locality. Any such bank shall be within the locality and located as closely as feasible to where the development project is situated. If there is no bank within the locality of the development project with sufficient credits to meet the project's off-site needs, and with the approval of the locality where the development project is located, the unmet portion of a development's tree canopy requirement may be met by payment of an amount equal to no less than the development project's avoided costs for the unmet portion to the state treasury and credited to the Natural Resources Commitment Fund, pursuant to subsection A of § 10.1-2128.1. Amounts credited to the Natural Resources Commitment Fund pursuant to this subsection shall be distributed to the Virginia Agricultural Best Management Practices Cost-Share Program and applied to the implementation of riparian forested buffer best management practices. The following shall be exempt from the requirements of any tree replacement or planting ordinance promulgated under this section: dedicated school sites, playing fields and other nonwooded recreation areas, and other facilities and uses of a similar nature.

F. The ordinance may designate tree species that cannot be planted to meet minimum tree canopy requirements due to tendencies of such species to (i) negatively impact native plant communities, (ii) cause damage to nearby structures and infrastructure, or (iii) possess inherent physiological traits that cause such trees to structurally fail. All trees to be planted shall meet the specifications of the AmericanHort. The planting of trees shall be done in accordance with either the standardized landscape specifications adopted by the Virginia Nursery and Landscape Association, the Virginia Society of Landscape Designers, or the Virginia Chapter of the American Society of Landscape Architects or, if applicable, the road and bridge specifications of the Virginia Department of Transportation.

G. Existing trees that are to be preserved may be included to meet all or part of the canopy requirements, and may include wooded preserves, if the site plan identifies such trees and the trees meet standards of desirability and life-year expectancy that the locality may establish.

H. For purposes of this section, "tree canopy" or "tree cover" includes all areas of coverage by plant material exceeding five feet in height, and the extent of planted tree canopy at 10 or 20 years' maturity. Planted canopy at 10 or 20 years' maturity shall be based on published reference texts generally accepted by landscape architects, nurserymen, and arborists in the community or standards adopted by the Virginia State Forester, and the texts shall be specified in the ordinance.

I. Penalties for violations of ordinances adopted pursuant to this section shall be the same as those applicable to violations of zoning ordinances of the locality.

J. In no event shall any local tree replacement or planting ordinance adopted pursuant to this section exceed the requirements set forth herein. Nothing in this section shall prohibit or unreasonably limit silvicultural practices in accordance with § 10.1-1126.1.

K. Nothing in this section shall invalidate any local ordinance adopted by the City of Williamsburg that imposes standards for 10-year-minimum tree cover replacement or planting during the development process.

L. Nothing in this section shall invalidate any local ordinance adopted pursuant to the provisions of § 15.2-961 or 15.2-961.1.

§ 15.2-961.4. Conservation of trees during land development process in localities.

A. For purposes of this section, "tree canopy" or "tree cover" includes all areas of canopy coverage by self-supporting and healthy woody plant material exceeding five feet in height and the extent of planted tree canopy at 20 years' maturity.

B. Any locality may adopt an ordinance providing for the conservation of trees during the land development process pursuant to the provisions of this section. In no event shall any local tree conservation ordinance adopted pursuant to this section also impose the tree replacement provisions of § 15.2-961, 15.2-961.1, or 15.2-961.3.

C. The ordinance shall require that the site plan for any subdivision or development provide for the preservation or replacement of trees on the development site such that the minimum tree canopy or tree cover percentage 20 years after development is projected to be as follows:

1. Ten percent tree canopy for a site zoned business, commercial, or industrial;
2. Ten percent tree canopy for a residential site zoned 20 or more units per acre;
3. Fifteen percent tree canopy for a residential site zoned more than eight but less than 20 units per acre;
4. Twenty percent tree canopy for a residential site zoned more than four but not more than eight units per acre;
5. Twenty-five percent tree canopy for a residential site zoned more than two but not more than four units per acre;
6. Thirty percent tree canopy for a residential site zoned two or fewer units per acre;

7. The tree canopy percentage for a mixed-use development shall be the percentage applicable to the predominant use of the development. For purposes of this subdivision, "predominant use" means the use within the development that constitutes the largest percentage of gross land area or, in the case of a building or buildings, the largest percentage of the total floor area; and

8. A locality may increase any of the tree canopy percentages applicable to a subdivision or development as established in subdivisions 1 through 6 by an amount not to exceed 10 percent of the percentage authorized in each subdivision of this subsection if as provided in its ordinance (i) the locality grants to such subdivision or development either administrative approval of a mutually agreed-upon reduction of lot size requirements, setback requirements, yard requirements, or parking requirements or administrative approval of a mutually agreed-upon increase in density or (ii) 20 percent or more of the land area of the subdivision or development is within an enhanced tree canopy area. However, if a locality increases the required canopies pursuant to clause (i) or (ii), it shall specify in its ordinance the increased percentages applicable to each of the uses enumerated in subdivisions 1 through 6.

In meeting these percentages, (a) the ordinance shall first emphasize the preservation of existing tree canopy where that canopy meets local standards for health and structural condition and where it is feasible to do so within the framework of design standards and densities allowed by the local zoning and other development ordinances and (b) second, where it is not feasible in whole or in part for any of the justifications listed in subsection E to preserve existing canopy in the required percentages listed in this subsection, the ordinance shall provide for the planting of new trees to meet the required percentages. Computation of achievement of the percentage of tree canopy or tree cover percentage required for the applicable use by the ordinance shall be determined by the locality using standards adopted by the Virginia State Forester.

For purposes of this subdivision:

"Enhanced tree canopy area" means any land area that is (i) a Resource Protection Area (RPA) as defined by local ordinance adopted pursuant to the Chesapeake Bay Preservation Act (§ 62.1-44.15:67 et seq.); (ii) a wetland that is not determined by the Department of Environmental Quality to be an isolated wetland of minimal ecological value as defined in subsection B of 9VAC25-210-10; (iii) located in a Federal Emergency Management Agency-designated 100-year floodplain; (iv) identified by the Virginia Natural Heritage Program as a rare or state significant natural community; (v) comprised of, at the time of permit application for the subdivision or development, tree canopy that covers an area equal to 3,000 square feet or more per quarter acre of the property with an understory of vegetation that is not managed turf; or (vi) found as a result of compliance with any applicable existing state or federal permitting requirements to contain listed federal or state threatened or endangered species.

Nothing in this subdivision shall be deemed to alter existing law or regulation governing land disturbance or other construction activity in any enhanced tree canopy area.

D. Except as provided in subsection E, the percentage of the site covered by tree canopy at the time of plan submission shall equate to the minimum portion of the requirements identified in subsection C that shall be provided through tree preservation. This portion of the canopy requirements shall be identified as the "tree preservation target" and shall be included in site plan calculations or narratives demonstrating how the overall requirements of subsection C have been met.

E. The ordinance shall provide deviations, in whole or in part, from the tree preservation target defined in subsection D under the following conditions:

1. Meeting the preservation target would prevent the development of uses and densities otherwise allowed by the locality's zoning or development ordinance.

2. The predevelopment condition of vegetation does not meet the locality's standards for health and structural condition or for trees that should be preserved.

3. An International Society of Arboriculture certified arborist, ASCA Registered Consulting Arborist, or licensed landscape architect determines and demonstrates in writing to the locality why construction activities that cannot reasonably be avoided could be reasonably expected to impact existing trees to the extent that they would not likely survive in a healthy and structurally sound manner. This includes activities that would cause direct physical damage to the trees,

including root systems, or cause environmental changes that could result in or predispose the trees to structural and health problems.

4. The development is a redevelopment project and a certified arborist or licensed landscape architect determines and provides in writing to the locality that the planting of trees on site will better achieve the applicable canopy goal.

The allowable deviations provided in subdivisions 1 through 4 shall be included verbatim in the ordinance and in any guidance or worksheets provided to applicants on meeting the requirements of the ordinance.

If, in the opinion of the developer, the project cannot meet the tree preservation target due to the conditions described in subdivision 1, 2, 3, or 4, the developer may request a deviation from the preservation requirement in subsection D. In the request for deviation for conditions described in subdivision 1, 2, or 3, the developer shall provide a letter to the locality from an International Society of Arboriculture certified arborist, ASCA Registered Consulting Arborist, or licensed landscape architect that provides justification for the deviation, describes how the deviation is the minimum necessary to afford relief, and describes how the requirements of subsection C will be met through tree planting or a tree canopy bank or fund established by the locality. In the request for a deviation for the condition described in subdivision 4, the developer's letter shall describe how the requirements of subsection C will be met through tree planting on site. Proposed deviations shall be reviewed by the locality's employed or retained urban forester, International Society of Arboriculture certified arborist, ASCA Registered Consulting Arborist, licensed landscape architect, or in consultation with the locality's land development or licensed professional civil engineering review staff, who may propose an alternative site design based upon adopted land development practices and sound vegetation management practices that take into account the relationship between the cost of conservation and the benefits of the trees to be preserved as described in ANSI A300 (Part 5) — 2019 Management: Tree, Shrub, and Other Woody Plant Maintenance — Standard Practices, Management of Trees and Shrubs During Site Planning, Site Development, and Construction, Annex A, A-1.5, Cost Benefits Analysis (or the latest version of this standard). The developer shall consider the alternative and redesign the plan accordingly, or elect to satisfy the unmet portion of the tree preservation target through onsite tree planting or through the off-site planting mechanisms identified in subsection G, so long as the developer provides the locality with an explanation of why the alternative design recommendations were rejected. Letters of explanation from the developer for any request to deviate from the alternative site design proposed by the locality shall be prepared and certified by a licensed professional engineer as defined in § 54.1-400, International Society of Arboriculture certified arborist, ASCA Registered Consulting Arborist, licensed landscape architect, or other authorized licensed professional. If arboricultural issues are part of the explanation, then the letter shall be signed by a licensed landscape architect. If arboricultural issues are the sole subject of the letter of requesting a deviation from a locality-proposed alternative site design, then certification by a licensed professional engineer shall not be required.

F. The ordinance shall provide for deviations of the overall canopy requirements set forth in subsection C (i) to allow for the preservation of wetlands, (ii) to allow for the development of farmland or other areas previously devoid of healthy or suitable tree canopy, or (iii) where the strict application of the requirements would result in unreasonable hardship to the developer. Nothing in this subsection shall prevent a locality from adopting the discretionary increase in canopy requirements authorized in subdivision C 8. Nothing in this section shall prohibit or unreasonably limit silvicultural practices in accordance with § 10.1-1126.1.

G. The ordinance shall provide for the establishment or use of a tree canopy bank or fund whereby any portion of the tree canopy requirement that cannot be met on site may be met through off-site tree preservation or tree planting efforts. Such provisions may be offered where it can be demonstrated that application of the tree canopy requirements of subsection C would cause irresolvable conflicts with other local site development requirements or standards, where sites or portions of sites lack sufficient space for future tree growth, where planting spaces will not provide adequate space for healthy root development, where trees will cause unavoidable conflicts with underground or overhead utilities, or where it can be demonstrated that trees are likely to cause damage to public infrastructure. The ordinance may utilize any of the following off-site canopy establishment mechanisms:

1. A tree canopy bank may be established by a locality, a for-profit entity, or an Internal Revenue Service-qualified § 501(c)(3) nonprofit organization that is qualified in tree planting and maintenance in order for the locality to facilitate off-site tree preservation, tree planting, stream bank, and riparian restoration projects. Banking efforts shall provide tree canopy that is preserved in perpetuity through conservation easements, deed restrictions, or similar protective mechanisms acceptable to the locality. Development projects that use off-site banking shall meet the same ordinance standards established for onsite tree canopy; however, the locality may also require the submission of five-year management plans and funds to ensure the execution of maintenance and management obligations identified in those plans. Any such bank shall be within the locality and located as closely as feasible to where the development project is situated. If there is no bank within the locality of the development project with sufficient credits to meet the project's off-site needs, and with the approval of the locality where the development project is located, the unmet portion of a development's tree canopy requirement may be met by payment of an amount equal to no less than the development project's avoided costs for the unmet portion to the state treasury and credited to the Natural Resources Commitment Fund, pursuant to subsection A of § 10.1-2128.1. Amounts credited to the Natural Resources Commitment Fund pursuant to this subsection shall be distributed to the Virginia Agricultural Best Management Practices Cost-Share Program and applied to the implementation of riparian forested buffer best management practices.

2. A tree canopy fund may be established to act as a fiscal mechanism to collect, manage, and disburse fees collected from developers that cannot provide full canopy requirements onsite. The locality may use this fund directly to plant and then maintain trees on public property, or the locality may elect to disburse this fund, for tree planting programs that benefit the community at large, to community-based organizations exempt from taxation under § 501(c)(3) of the Internal Revenue Code that are focused on tree planting or community beautification or on advancing environmental goals, such as pollution reduction, stormwater management, flood mitigation, urban heat reduction, and similar goals. For the purposes of establishing consistent and predictable fees, the ordinance shall establish cost units that are based on average costs to establish 20-year canopy areas using two-inch caliper nursery stock trees. Any funds collected by localities for these purposes shall be spent within a five-year period established by the collection date by the locality or disbursed to a community-based organization for tree planting and subsequent maintenance provided for in this subsection, or the locality shall return such funds to the original contributor or legal successor.

H. The following uses shall be exempt from the requirements of any ordinance promulgated under this section: bona fide silvicultural activity as defined by § 10.1-1181.1 and the areas of sites included in lakes, ponds, and the normal water elevation area of stormwater retention facilities. The ordinance shall modify the canopy requirements of dedicated school sites, playing fields, and other nonwooded active recreation areas by allowing these and other facilities and uses of a similar nature to provide 10 percent tree canopy 20 years after development. The ordinance shall require that the site plan for any subdivision or development include, at 20 years, that a minimum 10 percent tree canopy will be provided on the site of any cemetery as defined in § 54.1-2310, notwithstanding any other provision of this section.

1. In recognition of the added benefits of tree preservation, the ordinance shall provide for an additional tree canopy credit of up to one and one-quarter times the canopy area at the time of plan submission for individual trees or the coalesced canopy of forested areas preserved from the predevelopment tree canopy.

2. The following additional credits may be provided in the ordinance in connection with tree preservation:

a. The ordinance may provide canopy credits of up to one and one-half times the actual canopy area for the preservation of forest communities that achieve environmental, ecological, and wildlife conservation objectives set by the locality.

b. The ordinance may provide canopy credits of up to three times the actual canopy area of trees that are officially designated for preservation in conjunction with local tree conservation ordinances based on the authority granted by § 10.1-1127.1.

J. The following additional credits shall be provided in the ordinance in connection with tree planting of one and one-half the area normally projected for:

1. Trees planted to absorb or intercept air pollutants, tree species that produce lower levels of reactive volatile organic compounds, or trees that act to reduce air pollution or greenhouse gas emissions by conserving the energy used to cool and heat buildings.

2. Trees planted for water quality-related reforestation or afforestation projects, and for trees planted in approved low-impact development and bioretention water quality facilities.

3. Native tree species planted to provide food, nesting, habitat, and migration opportunities for wildlife. These canopy credits may also apply to cultivars of native species if the locality determines that such a cultivar is capable of providing the same type and extent of wildlife benefit as the species it is derived from.

4. Native tree species that are propagated from seed or tissue collected within the mid-Atlantic region.

5. The use of cultivars or varieties that develop desirable growth and structural patterns, resist decay organisms and the development of cavities, show high levels of resistance to disease or insect infestations, or exhibit high survival rates in harsh urban environments.

6. Trees planted as a best management practice (BMP) approved pursuant to the Stormwater Management Act (§ 62.1-44.15:24 et seq.) and Erosion and Sediment Control Law (§ 62.1-44.15:51 et seq.).

If the developer and the locality agree upon a canopy for the subdivision or development that exceeds the canopy percentage required by subsection C by more than 10 percent, the ordinance may provide that 50 percent of the amount by which the canopy exceeds the required canopy may be used by the applicant as credits toward meeting a canopy requirement on another project within the locality. Such credits may only be earned if the project receiving the credits is identified in the canopy plan for the project generating the credits or is identified in writing to the locality by the applicant within one year of issuance of the building permit for the project.

K. Tree preservation areas and individual trees may not receive more than one application of additional canopy credits provided in subsection I. Individual trees planted to meet these requirements may not receive more than two categories of additional canopy credits provided in subsection J. Canopy credits will only be given to trees with trunks that are fully located on the development site, or in the case of tree banking projects only to trees with trunks located fully within easements or other areas protected by deed restrictions listed in subsection G.

L. All trees planted for tree cover credits shall meet the specifications of the AmericanHort and shall be planted in accordance with the publication entitled "Tree and Shrub Planting Guidelines," published by the Virginia Cooperative Extension.

M. In order to provide higher levels of biodiversity and to minimize the spread of pests and diseases, or to limit the use of species that cause negative impacts to native plant communities, cause damage to nearby structures, or possess inherent

physiological traits that prone trees to structural failure, the ordinance may designate species that cannot be used to meet tree canopy requirements or designate species that will only receive partial 20-year tree canopy credits.

N. The locality may allow the use of tree seedlings for meeting tree canopy requirements. In these cases, the ordinance shall allow the ground surface area of seedling planting areas to equate to a 20-year canopy credit area. The locality may set standards for seedling mortality rates and replacement procedures if unacceptable rates of mortality occur. The locality may elect to allow native woody shrubs or native woody seed mix to substitute for tree species as long as these treatments do not exceed 33 percent of the overall seedling planting area. The number of a single species may not exceed 10 percent of the overall number of trees or shrubs planted to meet the provisions of this subsection.

O. The following process shall be used to demonstrate achievement of the required percentage of tree canopy listed in subsection C:

1. The site plan shall graphically delineate the edges of predevelopment tree canopy, the proposed limits of disturbance on grading or erosion and sedimentation control plans, and the location of tree protective fencing or other tree protective devices allowed in the Virginia Erosion and Sediment Control Handbook or any successor publication issued by the Department of Environmental Quality.

2. Site plans proposing modification to tree canopy requirements or claiming supplemental tree canopy credits will require a text narrative.

3. The site plan shall include the 20-year tree canopy calculations on a worksheet provided by the locality that adheres to standards established by the Virginia State Forester for computation of achievement of tree canopy percentages.

4. Site plans requiring tree planting shall provide a planting schedule that provides botanical and common names of trees, the number of trees being planted, the total of tree canopy area given to each species, variety or cultivars planted, total of tree canopy area that will be provided by all trees, planting sizes, and associated planting specifications. The site plan will also provide a landscape plan that delineates where the trees shall be planted.

P. The ordinance shall provide a list of commercially available tree species, varieties, and cultivars that are capable of thriving in the locality's climate and ranges of planting environments. The ordinance will also provide a 20-year tree canopy area credit for each tree. The amount of tree canopy area credited to individual tree species, varieties, and cultivars 20 years after they are planted shall be based on references published or endorsed by Virginia academic institutions such as the Virginia Polytechnic Institute and State University and accepted by urban foresters, arborists, landscape architects, and horticulturalists as being accurate for the growing conditions and climate of the locality.

Q. In the event that existing tree canopy proposed to be preserved for tree canopy credits dies or must be removed because it represents a hazard, the locality may require the developer to remove the tree, or a portion of the tree and to replace the missing canopy area by the planting of nursery stock trees, or if a viable alternative, by tree seedlings. Existing trees that have been granted credits will be replaced with canopy area determined using the same supplemental credit multipliers as originally granted for that canopy area.

R. Penalties for violation of ordinances adopted pursuant to this section shall be the same as those applicable to violations of zoning ordinances of the locality.

S. Except as provided in subsection C, no local tree conservation ordinance adopted pursuant to this section shall exceed the requirements set forth herein.

T. Nothing in this section shall invalidate any local ordinance adopted pursuant to the provisions of § 15.2-961 or 15.2-961.1.

2. That stakeholders representing at least one representative of each of the six sectors represented on the Collaborative Decision-Making Group that served during completion of the report required by Chapters 89 and 90 of the Acts of Assembly of 2021, Special Session I, as well as certified arborists, licensed landscape architects, and urban foresters employed by both the public and private sectors and representatives of localities within Planning Districts 17 and 18, the Southwest and Southside regions of Virginia, and the State Forester shall meet at least twice prior to the 2023 Session of the General Assembly to consider (i) the provisions of § 15.2-961.4 of the Code of Virginia, as created by this act; (ii) whether additional allowances should be permitted for tree planting and the use of in-lieu funds outside the locality where the development project occurs; (iii) any changes warranted to address the needs of rural localities; and (iv) how technical assistance could best be provided to all localities implementing the tree canopy ordinances provided by this act. The participants shall make recommendations to the Chairmen of the House Committee on Counties, Cities and Towns and the Senate Committee on Agriculture, Conservation and Natural Resources by December 1, 2022.

3. That the provisions of § 15.2-961.4 of the Code of Virginia, as created by this act, shall not become effective unless reenacted by the 2023 Session of the General Assembly.

CHAPTER 621

An Act to amend the Code of Virginia by adding in Article 1 of Chapter 10 of Title 32.1 a section numbered 32.1-331.05, relating to Department of Medical Assistance Services; coordinated specialty care; work group established.

[H 1193]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding in Article 1 of Chapter 10 of Title 32.1 a section numbered 32.1-331.05 as follows:

§ 32.1-331.05. Coordinated specialty care; work group.

A. The Department shall establish a work group in coordination with the Department of Behavioral Health and Developmental Services to evaluate and make recommendations to improve approaches to early psychosis and mood disorder detection approaches, make program funding recommendations, and recommend a core set of standardized clinical and outcome measures. Early psychosis intervention includes services to youth and young adults who are determined to either be at a clinical high risk for psychosis or are experiencing a first episode of psychosis.

B. The work group shall include (i) a representative from the Bureau of Insurance; (ii) a representative from the Department of Health Professions; (iii) a representative from the Department of Behavioral Health and Developmental Services; (iv) a psychiatrist with working knowledge of first-episode psychosis and coordinated specialty care; (v) a mental health clinician with working knowledge of first-episode psychosis and coordinated specialty care; (vi) a support services specialist with experience in supported education and employment; (vii) a representative of a state, regional, or local mental health advocacy group as recommended by such group; (viii) an individual who has experienced psychosis or a family member of an individual who has experienced psychosis; and (ix) up to three representatives of health insurance issuers or managed care organizations operating in the Commonwealth as recommended by such issuers or organizations.

C. The work group shall develop a five-year strategic plan to accomplish the following objectives:

- 1. Enhance services to existing coordinated specialty care programs;*
- 2. Expand early psychosis intervention in underserved areas of the Commonwealth;*
- 3. Develop a strategy to identify and apply for funds from individual foundations and federal and state sources and disburse those funds; and*
- 4. Develop a strategy to advance the goals and utilization of coordinated specialty care for Medicaid beneficiaries and individuals who are privately insured.*

The strategic plan shall identify current coordinated specialty care programs in the Commonwealth and include information on how they are funded, how many individuals use the current programs, and the insurance status of the programs. As used in this section, "coordinated specialty care" means a team-based service provided to a person for treatment of first-episode psychosis that is composed of case management, family support and education, pharmacotherapy and medication management, individual and group psychotherapy, supported education and employment, coordination with primary care, and outreach and recruitment activities.

D. The work group shall meet to produce an initial five-year plan report to the General Assembly no later than November 1, 2022, and then provide annual updates to the five-year strategic plan beginning November 1, 2023.

Subsequent appointments shall be for terms of four years, except appointments to fill vacancies, which shall be for the unexpired terms. All terms of office shall be deemed to commence upon the date of the initial appointment to the authority, and thereafter, in accordance with the provisions of the immediately preceding sentence. If at the end of any term of office of any director a successor thereto has not been appointed, then the director whose term of office has expired shall continue to hold office until his successor is appointed and qualified.

*Notwithstanding the provisions of this subsection, the board of supervisors of Wise County may appoint eight members to serve on the board of the authority, with terms staggered as agreed upon by the board of supervisors; the board of supervisors of Henrico County may appoint 10 members to serve on the board of the authority, two from each magisterial district, with terms staggered as agreed upon by the board of supervisors; the board of supervisors of Roanoke County may appoint 10 members to serve on the board of the authority, two from each magisterial district, with terms staggered as agreed upon by the board of supervisors; the board of supervisors of Mathews County may appoint from five to seven members to serve on the board of the authority; *the town council of the Town of Louisa may appoint from five to seven members to serve on the board of the authority, with terms staggered as agreed upon by the town council;* the board of*

Any person who has served more than one and one-half terms as a member of the Chesapeake Economic Development Authority as of July 1, 2017, shall not be eligible for reappointment for another consecutive term. A member of the Chesapeake Economic Development Authority shall serve at the pleasure of the city council of the City of Chesapeake. No Chesapeake Economic Development Authority member shall work for the Authority within one year after serving as a member. The city council of the City of Norfolk may appoint 11 members, with terms staggered as agreed upon by the city council, and the board of supervisors of Louisa County may appoint directors to serve on the board of the authority for terms coincident with members of the board of supervisors.

A member of the board of directors of the authority may be removed from office by the local governing body without limitation in the event that the board member is absent from any three consecutive meetings of the authority or is absent from any four meetings of the authority within any 12-month period or upon unanimous vote of the board of supervisors. In any such event, a successor shall be appointed by the governing body for the unexpired portion of the term of the member who has been removed.

B. Each director shall, upon appointment or reappointment, before entering upon his duties take and subscribe the oath prescribed by § 49-1.

The directors shall elect from their membership a chairman, a vice-chairman, and from their membership or not, as they desire, a secretary and a treasurer, or a secretary-treasurer, who shall continue to hold such office until their respective successors are elected. The directors shall receive no salary but may be compensated such amount per regular, special, or committee meeting or per each official representation as may be approved by the appointing authority, not to exceed \$200 per meeting or official representation, and shall be reimbursed for necessary traveling and other expenses incurred in the performance of their duties.

E. Except as provided herein, four members of the board of directors shall constitute a quorum of the board for the purposes of conducting its business and exercising its powers and for all other purposes, except that no facilities owned by the authority shall be leased or disposed of in any manner without a majority vote of the members of the board of directors. No vacancy in the membership of the board shall impair the right of a quorum to exercise all the powers and perform all the duties of the board. In the case of the Economic Development Authority of Goochland County, the Economic Development Authority of Powhatan County, the Industrial Development Authority of the Town of Kenbridge, and the Industrial Development Authority of the Town of Victoria, three members of the board of directors shall constitute a quorum of the board for the purposes of conducting its business and exercising its powers and for all other purposes, except that no facilities owned by the authority shall be leased or disposed of in any manner without a majority vote of the members of the board of directors.

Two copies of the report concerning issuance of bonds required to be filed with the United States Internal Revenue Service shall be certified as true and correct copies by the secretary or assistant secretary of the authority. One copy shall be furnished to the governing body of the locality and the other copy mailed to the Department of Small Business and Supplier Diversity.

CHAPTER 623

An Act to amend the Code of Virginia by adding in Article 2 of Chapter 8 of Title 6.2 a section numbered 6.2-818.1, relating to banks; virtual currency custody services.

[H 263]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding in Article 2 of Chapter 8 of Title 6.2 a section numbered 6.2-818.1 as follows:

§ 6.2-818.1. Virtual currency custody services by banks.

A. As used in this section, unless the context requires a different meaning:

"Bank" has the same meaning as provided in § 6.2-800.

"Custody services" means the role of a bank in the safekeeping and custody of various customer assets.

"Self-assessment" has the same meaning as provided in § 6.2-947.

"Virtual currency" means an electronic representation of value intended to be used as a medium of exchange, unit of account, or store of value. "Virtual currency" does not exist in a physical form; it is intangible and exists only on the blockchain or distributed ledger associated with a particular virtual currency. The owner of virtual currency holds cryptographic keys associated with the specific unit of virtual currency in a digital wallet, which allows the rightful owner of the virtual currency to access and utilize it.

B. A bank may provide its customers with virtual currency custody services so long as the bank has adequate protocols in place to effectively manage risks and comply with applicable laws. Prior to a bank offering virtual currency custody services, the bank shall carefully examine the risks involved in offering such services through a methodical self-assessment process. If the bank decides to move forward with offering such services, the bank shall:

1. Implement effective risk management systems and controls to measure, monitor, and control relevant risks associated with custody of digital assets such as virtual currency;

2. Confirm that it has adequate insurance coverage for such services; and

3. Maintain a service provider oversight program, to the extent that the bank engages with a service provider to provide virtual currency custody services, to address risks to service provider relationships as a result of engaging in virtual currency custody services.

C. A bank may provide virtual currency custody services in either a nonfiduciary or fiduciary capacity.

In providing such services in a nonfiduciary capacity, the bank shall act as a bailee, taking possession of the customer's asset for safekeeping while legal title remains with the customer, meaning that the customer retains direct control over the keys associated with their virtual currency.

In providing such services in a fiduciary capacity, a bank is required to possess trust powers as described in § 6.2-819 and have a trust department pursuant to § 6.2-821. Acting in a fiduciary capacity, the bank shall require customers to transfer their virtual currencies to the control of the bank by creating new private keys to be held by the bank. In its fiduciary capacity, a bank shall have authority to manage virtual currency assets as it would any other type of asset held in such capacity.

CHAPTER 624

An Act to amend and reenact § 58.1-3295 of the Code of Virginia, relating to assessment of real property; affordable housing.

[H 400]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 58.1-3295 of the Code of Virginia is amended and reenacted as follows:

§ 58.1-3295. Assessment of real property; affordable housing.

A. Notwithstanding any other provision of law, in determining the fair market value of real property operated in whole or in part as affordable rental housing, in accordance with the provisions of (i) 26 U.S.C. § 42, 26 U.S.C. § 142(d), 24 C.F.R.

§ 983, 24 C.F.R. § 236, 24 C.F.R. § 241(f), 24 C.F.R. § 221(d)(3), *the federal Rental Assistance Demonstration program established under the Consolidated and Further Continuing Appropriations Act, 2012 (P.L. 112-55)*, or any successors thereto; (ii) applicable state law; or (iii) local ordinances adopted by the locality wherein such real property is located, the duly authorized real estate assessor shall consider:

1. The contract rent and the impact of applicable rent restrictions;

2. Restrictions on the transfer of title or other restraints on alienation of the real property; and

3. The actual operating expenses and expenditures and the impact of any such additional expenses or expenditures. If an owner has two or more units of real property that (i) are operated in whole or in part as affordable rental housing and (ii) are controlled by a single restrictive use agreement regulating income and rent restrictions, and the owner has expenses and expenditures common to two or more such units, and such expenses and expenditures cannot practicably be attributed to a particular unit, then the owner has a right to have the assessor make a pro rata apportionment of such expenses and expenditures to each such unit based on each unit's assessed value as a percentage of the total assessed value of all such units. The provisions of this subdivision apply whether or not the units are in one tax parcel or multiple tax parcels.

B. The owner of real property that is operated in whole or in part as affordable rental housing in accordance with the definition of affordable rental housing established by ordinance or resolution of the locality in which the real property is located may make an application to the locality to have the real property assessed pursuant to this section. Notwithstanding the exception in § 58.1-3294 for an owner of four or fewer residential units, upon application by such an owner, the duly authorized real estate assessor may require the owner to furnish to such assessor, board, or department statements of the income and expenses attributable over a specified period of time to each such parcel of real estate in the manner required by § 58.1-3294 and to comply with all provisions of § 58.1-3294 applicable to properties with more than four rental dwelling units. The application shall be granted by the locality if (i) the owner charges rents at levels that meet the locality's definition of affordable housing and (ii) the real property does not have any pending building code violations at the time of the application.

The duly authorized real estate assessor shall also consider evidence presented by the property owner of other restrictions imposed by law that impact the variables set forth in this subsection.

C. Federal or state income tax credits with respect to affordable housing rental property within the purview of subsection A shall not be considered real property or income attributable to real property.

D. For property where only a portion of the units are operated as affordable housing, as defined in § 42 of the Internal Revenue Code or as required by state law or applicable local ordinance, only the portion determined to be affordable housing shall be subject to this section.

E. Notwithstanding any other provision in this section or other law, the real property governed by this section that is generating income as affordable housing shall be assessed using the income approach based on: the property's current use, income restrictions, provisions of any arm's-length contract including but not limited to restrictions on the transfer of title or other restraints on alienation of the real property, the requirements of subsection B, and all other provisions of this section.

CHAPTER 625

An Act to amend and reenact § 19.2-327.11 of the Code of Virginia, relating to writ of actual innocence; previously unknown or unavailable nonbiological evidence; contents and form of petition.

[H 422]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 19.2-327.11 of the Code of Virginia is amended and reenacted as follows:

§ 19.2-327.11. Contents and form of the petition based on previously unknown or unavailable evidence of actual innocence.

A. The petitioner shall allege categorically and with specificity, under oath, all of the following: (i) the crime for which the petitioner was convicted or the offense for which the petitioner was adjudicated delinquent; (ii) that the petitioner is actually innocent of the crime for which he was convicted or the offense for which he was adjudicated delinquent; (iii) an exact description of (a) the previously unknown or unavailable evidence supporting the allegation of innocence or (b) the previously untested evidence and the scientific testing supporting the allegation of innocence; (iv)(a) that such evidence was previously unknown or unavailable to the petitioner or his trial attorney of record at the time the conviction or adjudication of delinquency became final in the circuit court or (b) if known, the reason that the evidence was not subject to scientific testing set forth in the petition; (v) the date (a) the previously unknown or unavailable evidence became known or available to the petitioner and the circumstances under which it was discovered or (b) the results of the scientific testing of previously untested evidence became known to the petitioner or any attorney of record; (vi)(a) that the previously unknown or unavailable evidence is such as could not, by the exercise of diligence, have been discovered or obtained before the ~~expiration of 21 days following entry of the final order of~~ *time the conviction or adjudication of delinquency by became final in the circuit court* or (b) that the testing procedure was not available at the time the conviction or adjudication of delinquency became final in the circuit court; (vii) that the previously unknown, unavailable, or untested evidence is material and, when considered with all of the other evidence in the current record, will prove that no rational trier of fact

would have found proof of guilt or delinquency beyond a reasonable doubt; and (viii) that the previously unknown, unavailable, or untested evidence is not merely cumulative, corroborative, or collateral. Nothing in this chapter shall constitute grounds to delay or stay any other appeals following conviction or adjudication of delinquency, or petitions to any court. Human biological evidence may not be used as the sole basis for seeking relief under this writ but may be used in conjunction with other evidence.

B. Such petition shall contain all relevant allegations of facts that are known to the petitioner at the time of filing; shall be accompanied by all relevant documents, affidavits, and test results; and shall enumerate and include all relevant previous records, applications, petitions, and appeals and their dispositions. The petition shall be filed on a form provided by the Supreme Court. If the petitioner fails to submit a completed form, the Court of Appeals may dismiss the petition or return the petition to the petitioner pending the completion of such form. Any false statement in the petition, if such statement is knowingly or willfully made, shall be a ground for prosecution of perjury as provided for in § 18.2-434.

C. In cases brought by counsel for the petitioner, the Court of Appeals shall not accept the petition unless it is accompanied by a duly executed return of service in the form of a verification that a copy of the petition and all attachments have been served on the attorney for the Commonwealth of the jurisdiction where the conviction or adjudication of delinquency occurred and the Attorney General, or an acceptance of service signed by these officials, or any combination thereof. In cases brought by petitioners pro se, the Court of Appeals shall not accept the petition unless it is accompanied by a certificate that a copy of the petition and all attachments have been sent, by certified mail, to the attorney for the Commonwealth of the jurisdiction where the conviction or adjudication of delinquency occurred and the Attorney General. If the Court of Appeals does not summarily dismiss the petition, it shall so notify in writing the Attorney General, the attorney for the Commonwealth, and the petitioner. The Attorney General shall have 60 days after receipt of such notice in which to file a response to the petition that may be extended for good cause shown; however, nothing shall prevent the Attorney General from filing an earlier response. The response may contain a proffer of any evidence pertaining to the guilt or delinquency or innocence of the petitioner that is not included in the record of the case, including evidence that was suppressed at trial.

D. The Court of Appeals may inspect the record of any trial or appellate court action, and the Court may, in any case, award a writ of certiorari to the clerk of the respective court below, and have brought before the Court the whole record or any part of any record. If, in the judgment of the Court, the petition fails to state a claim, or if the assertions of previously unknown, unavailable, or untested evidence, even if true, would fail to qualify for the granting of relief under this chapter, the Court may dismiss the petition summarily, without any hearing or a response from the Attorney General.

E. In any petition filed pursuant to this chapter that is not summarily dismissed, the petitioner is entitled to representation by counsel subject to the provisions of Article 3 (§ 19.2-157 et seq.) and Article 4 (§ 19.2-163.3 et seq.) of Chapter 10. The Court of Appeals may, in its discretion, appoint counsel prior to deciding whether a petition should be summarily dismissed.

1. § 1. *That the Board of Pharmacy shall adopt regulations related to work environment requirements for pharmacy personnel that protect the health, safety, and welfare of patients. Such regulations shall include provisions (i) addressing sufficient pharmacy staffing to prevent fatigue, distraction, or other conditions that interfere with a pharmacist's ability to practice with competence and safety; (ii) stating standards for uninterrupted rest periods and meal breaks for pharmacy personnel; (iii) stating standards that ensure adequate time for pharmacists to complete professional duties and responsibilities, including drug utilization reviews, immunization administration, patient counseling, and verification of prescription accuracy; and (iv) limiting external factors such as productivity or production quotas to the extent that such factors interfere with the ability to provide appropriate professional services to the public.*

2. That the Board of Pharmacy shall promulgate regulations to implement the provisions of this act to be effective within 280 days of its enactment.

CHAPTER 629

An Act to amend and reenact § 15.2-2243 of the Code of Virginia, relating to installation of certain utilities; reimbursement.
[S 52]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 15.2-2243 of the Code of Virginia is amended and reenacted as follows:

§ 15.2-2243. Payment by subdivider of the pro rata share of the cost of certain facilities.

A. A locality may provide in its subdivision ordinance for payment by a subdivider or developer of land of the pro rata share of the cost of providing reasonable and necessary sewerage, water, and drainage facilities, located outside the property limits of the land owned or controlled by the subdivider or developer but necessitated or required, at least in part, by the construction or improvement of the subdivision or development; however, no such payment shall be required until such time as the governing body or a designated department or agency thereof has established a general sewer, water, and drainage improvement program for an area having related and common sewer, water, and drainage conditions and within which the land owned or controlled by the subdivider or developer is located or the governing body has committed itself by ordinance to the establishment of such a program. Such regulations or ordinance shall set forth and establish reasonable standards to determine the proportionate share of total estimated cost of ultimate sewerage, water, and drainage facilities required to adequately serve a related and common area, when and if fully developed in accord with the adopted comprehensive plan, that shall be borne by each subdivider or developer within the area. Such share shall be limited to the amount necessary to protect water quality based upon the pollutant loading caused by the subdivision or development or to the proportion of such total estimated cost which the increased sewage flow, water flow, and/or increased volume and velocity of storm water runoff to be actually caused by the subdivision or development bears to total estimated volume and velocity of such sewage, water, and/or runoff from such area in its fully developed state. In calculating the pollutant loading caused by the subdivision or development or the volume and velocity of storm water runoff, the governing body shall take into account the effect of all on-site storm water facilities or best management practices constructed or required to be constructed by the subdivider or developer and give appropriate credit therefor.

B. A locality that has adopted an ordinance pursuant to subsection A may also provide in its subdivision ordinance that, when adequate water, sewerage, or drainage facilities are not available to serve a proposed subdivision or development, the subdivider or developer of the property may be permitted to install reasonable and necessary water, sewerage, and drainage facilities, located on or outside the property limits of the land owned or controlled by the subdivider or developer but necessitated or required, at least in part, by the utility needs of the development or subdivision, including reasonably anticipated capacity, extensions, or maintenance considerations of a utility service plan for the service area. The ordinance ~~may~~ shall provide that such subdivider or developer ~~may~~ shall be entitled to reimbursement of a portion of its costs by any subsequent subdivider or developer that utilizes the installed water, sewerage or drainage facilities or from connection fees paid for lots within its development, and the ordinance may limit the duration of the reimbursements. The locality is authorized to administer by ordinance and by adopted reasonable policies and procedures standards for installation of such water, sewerage, and drainage facilities and parameters for pro rata reimbursement or connection or capacity fee reimbursement. The provisions of this subsection shall not be deemed to limit the authority of (i) localities that have not adopted an ordinance pursuant to subsection A or (ii) authorities established pursuant to the Virginia Water and Waste Authorities Act (§ 15.2-5100 et seq.) to establish policies for reimbursement or credits from connection fees or to other utility fund sources to subdividers and developers constructing water, sewerage, or drainage facilities.

C. Each payment pursuant to subsection A received shall be expended only for necessary engineering and related studies and the construction of those facilities identified in the established sewer, water, and drainage program; however, in lieu of such payment the governing body may provide for the posting of a personal, corporate or property bond, cash escrow, or other method of performance guarantee satisfactory to it conditioned on payment at commencement of such studies or construction. The payments received shall be kept in a separate account for each of the individual improvement programs until such time as they are expended for the improvement program. All bonds, payments, cash escrows, or other performance guarantees hereunder shall be released and used, with any interest earned, as a tax credit on the real estate taxes on the property if construction of the facilities identified in the established water, sewer, and drainage programs is not commenced within 12 years from the date of the posting of the bond, payment, cash escrow, or other performance guarantee.

D. Any funds collected for pro rata programs under this section prior to July 1, 1990, shall continue to be held in separate, interest bearing accounts for the project or projects for which the funds were collected and any interest from such accounts shall continue to accrue to the benefit of the subdivider or developer until such time as the project or projects are completed or until such time as a general sewer and drainage improvement program is established to replace a prior sewer and drainage improvement program. If such a general improvement program is established, the governing body of any locality may abolish any remaining separate accounts and require the transfer of the assets therein into a separate fund for the support of each of the established sewer, water, and drainage programs. Upon the transfer of such assets, subdividers and developers who had met the terms of any existing agreements made under a previous pro rata program shall receive any outstanding interest which has accrued up to the date of transfer, and such subdividers and developers shall be released from

any further obligation under those existing agreements. All bonds, payments, cash escrows, or other performance guarantees hereunder shall be released and used, with any interest earned, as a tax credit on the real estate taxes on the property if construction of the facilities identified in the established water, sewer, and drainage programs is not commenced within 12 years from the date of the posting of the bond, payment, cash escrow, or other performance guarantee.

[S 131]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 46.2-1239.1 of the Code of Virginia is amended and reenacted as follows:

§ 46.2-1239.1. Potomac River Bridge Towing Compact.

Article I. Parties and Titles.

The Parties to this Compact are the Commonwealth of Virginia, the State of Maryland and the District of Columbia. This agreement shall be known as the Potomac River Bridge Towing Compact.

Article II. Findings and Purpose.

The Woodrow Wilson Memorial Bridge, Rochambeau Memorial Bridge, George Mason Memorial Bridge, Theodore Roosevelt Memorial Bridge, Francis Scott Key Bridge, Chain Bridge, Harry W. Nice Bridge, Sandy Hook Bridge, Brunswick Bridge, Point of Rocks Bridge, *Arland D. Williams, Jr. Memorial Bridge*, and American Legion Memorial Bridge (*the Potomac River bridges*) all pass through the territorial jurisdiction of two or more of the three Parties. Experience has shown that traffic back-ups often prevent state troopers or police officers of the appropriate jurisdiction from arriving at the scene of a disabled or abandoned vehicle to take corrective action. The purpose of this Compact is to facilitate the prompt and orderly removal of disabled and abandoned vehicles from the *Potomac River* bridges, *as they are currently named or may subsequently be renamed*, by giving all three Parties jurisdiction to exercise appropriate authority anywhere on the bridges.

Article III. Authority to Direct Traffic and Authorize Removal of Vehicles.

The Parties hereby give one another all necessary power and authority to have their respective state troopers or local law-enforcement officers direct traffic and authorize the removal of disabled or abandoned vehicles, trailers, semitrailers or the parts or contents thereof, from any part of the Potomac River bridges, to the same extent and in the same manner that such troopers and local law-enforcement officers may exercise such authority in their own jurisdictions. However, no Party, acting through its troopers or local law-enforcement officers, shall have the authority to direct or authorize the towing or removal of any vehicle or other thing to a destination outside its own jurisdiction, unless the consent of an officer or trooper of the destination jurisdiction has been obtained.

Article IV. Disposition of Towed Vehicles.

All vehicles and their contents towed or removed from the Potomac River bridges pursuant to this Compact shall be subject to the exclusive jurisdiction of the place to which such vehicle and its contents are taken, and the handling and disposition of such vehicle and its contents shall be governed by the laws and procedures of that jurisdiction.

Article V. No Agency.

Each of the Parties shall act solely on its own authority within the jurisdiction granted. This Compact shall not be construed as creating any agency relationship between the Parties.

Article VI. Effective Date.

The provisions of this Compact shall take effect thirty days after the legislative bodies of the Parties having jurisdiction over one or several of the bridges identified in Article II have enacted Compacts substantially identical to this Compact.

Article VII. Termination.

The Governor of the Commonwealth of Virginia or State of Maryland, or the Mayor of the District of Columbia may withdraw from this Compact at any time upon thirty days' written notice to the other Parties.

2. That the provisions of this act shall become effective only upon enactment by the legislative bodies of the State of Maryland and the District of Columbia of legislation substantially similar to this act.

However, the judge, for good cause shown, may mail or otherwise deliver the driver's license to any person who is a student at any educational institution outside of the Commonwealth of Virginia at the time such license is received by the judge as prescribed in this section.*

B. The chief juvenile and domestic relations district court judge may waive the ceremonial requirements of subsection A for each juvenile and domestic relations district court within the district or order that each juvenile and domestic relations district court within the district conduct such ceremony in an alternative manner. In courts where the ceremony has been waived, the Department shall mail or otherwise deliver the driver's licenses directly to licensees.

C. The provisions of this section shall not apply to the issuance of Virginia driver's licenses to persons who hold valid driver's licenses issued by other states.

All sales for resale must be made in strict compliance with regulations applicable to this chapter. Any dealer making a sale for resale which is not in strict compliance with such regulations shall be personally liable for payment of the tax.

The terms "retail sale" and a "sale at retail" specifically include the following: (i) the sale or charges for any accommodations furnished to transients for less than 90 continuous days; (ii) sales of tangible personal property to persons for resale when because of the operation of the business, or its very nature, or the lack of a place of business in which to

display a certificate of registration, or the lack of a place of business in which to keep records, or the lack of adequate records, or because such persons are minors or transients, or because such persons are engaged in essentially service businesses, or for any other reason there is likelihood that the Commonwealth will lose tax funds due to the difficulty of policing such business operations; (iii) the separately stated charge made for automotive refinish repair materials that are permanently applied to or affixed to a motor vehicle during its repair; and (iv) the separately stated charge for equipment available for lease or purchase by a provider of satellite television programming to the customer of such programming. Equipment sold to a provider of satellite television programming for subsequent lease or purchase by the customer of such programming shall be deemed a sale for resale. The Tax Commissioner is authorized to promulgate regulations requiring vendors of or sellers to such persons to collect the tax imposed by this chapter on the cost price of such tangible personal property to such persons and may refuse to issue certificates of registration to such persons. The terms "retail sale" and a "sale at retail" also specifically include the separately stated charge made for supplies used during automotive repairs whether or not there is transfer of title or possession of the supplies and whether or not the supplies are attached to the automobile. The purchase of such supplies by an automotive repairer for sale to the customer of such repair services shall be deemed a sale for resale.

The term "transient" does not include a purchaser of camping memberships, time-shares, condominiums, or other similar contracts or interests that permit the use of, or constitute an interest in, real estate, however created or sold and whether registered with the Commonwealth or not. Further, a purchaser of a right or license which entitles the purchaser to use the amenities and facilities of a specific real estate project on an ongoing basis throughout its term shall not be deemed a transient, provided, however, that the term or time period involved is for seven years or more.

The terms "retail sale" and "sale at retail" do not include a transfer of title to tangible personal property after its use as tools, tooling, machinery or equipment, including dies, molds, and patterns, if (i) at the time of purchase, the purchaser is obligated, under the terms of a written contract, to make the transfer and (ii) the transfer is made for the same or a greater consideration to the person for whom the purchaser manufactures goods.

"Retailer" means every person engaged in the business of making sales at retail, or for distribution, use, consumption, or storage to be used or consumed in the Commonwealth.

"Room charge" means the full retail price charged to the customer by the accommodations intermediary for the use of the accommodations, ~~including any accommodations fee~~, before taxes. *"Room charge" includes any fee charged to the customer and retained as compensation for facilitating the sale, whether described as an accommodations fee, facilitation fee, or any other name.* The room charge shall be determined in accordance with 23VAC10-210-730 and the related rulings of the Department on the same.

"Sale" means any transfer of title or possession, or both, exchange, barter, lease or rental, conditional or otherwise, in any manner or by any means whatsoever, of tangible personal property and any rendition of a taxable service for a consideration, and includes the fabrication of tangible personal property for consumers who furnish, either directly or indirectly, the materials used in fabrication, and the furnishing, preparing, or serving for a consideration of any tangible personal property consumed on the premises of the person furnishing, preparing, or serving such tangible personal property. A transaction whereby the possession of property is transferred but the seller retains title as security for the payment of the price shall be deemed a sale.

"Sales price" means the total amount for which tangible personal property or services are sold, including any services that are a part of the sale, valued in money, whether paid in money or otherwise, and includes any amount for which credit is given to the purchaser, consumer, or lessee by the dealer, without any deduction therefrom on account of the cost of the property sold, the cost of materials used, labor or service costs, losses or any other expenses whatsoever. "Sales price" does not include (i) any cash discount allowed and taken; (ii) finance charges, carrying charges, service charges or interest from credit extended on sales of tangible personal property under conditional sale contracts or other conditional contracts providing for deferred payments of the purchase price; (iii) separately stated local property taxes collected; (iv) that portion of the amount paid by the purchaser as a discretionary gratuity added to the price of a meal; or (v) that portion of the amount paid by the purchaser as a mandatory gratuity or service charge added by a restaurant to the price of a meal, but only to the extent that such mandatory gratuity or service charge does not exceed 20 percent of the price of the meal. Where used articles are taken in trade, or in a series of trades as a credit or part payment on the sale of new or used articles, the tax levied by this chapter shall be paid on the net difference between the sales price of the new or used articles and the credit for the used articles.

"Semiconductor cleanrooms" means the integrated systems, fixtures, piping, partitions, flooring, lighting, equipment, and all other property used to reduce contamination or to control airflow, temperature, humidity, vibration, or other environmental conditions required for the integrated process of semiconductor manufacturing.

"Semiconductor equipment" means (i) machinery or tools or repair parts or replacements thereof; (ii) the related accessories, components, pedestals, bases, or foundations used in connection with the operation of the equipment, without regard to the proximity to the equipment, the method of attachment, or whether the equipment or accessories are affixed to the realty; (iii) semiconductor wafers and other property or supplies used to install, test, calibrate or recalibrate, characterize, condition, measure, or maintain the equipment and settings thereof; and (iv) equipment and supplies used for quality control testing of product, materials, equipment, or processes; or the measurement of equipment performance or production parameters regardless of where or when the quality control, testing, or measuring activity takes place, how the activity affects the operation of equipment, or whether the equipment and supplies come into contact with the product.

"Short-term rental" means the same as such term is defined in § 15.2-983.

"Storage" means any keeping or retention of tangible personal property for use, consumption or distribution in the Commonwealth, or for any purpose other than sale at retail in the regular course of business.

"Tangible personal property" means personal property that may be seen, weighed, measured, felt, or touched, or is in any other manner perceptible to the senses. "Tangible personal property" does not include stocks, bonds, notes, insurance or other obligations or securities. "Tangible personal property" includes (i) telephone calling cards upon their initial sale, which shall be exempt from all other state and local utility taxes, and (ii) manufactured signs.

"Use" means the exercise of any right or power over tangible personal property incident to the ownership thereof, except that it does not include the sale at retail of that property in the regular course of business. "Use" does not include the exercise of any right or power, including use, distribution, or storage, over any tangible personal property sold to a nonresident donor for delivery outside of the Commonwealth to a nonresident recipient pursuant to an order placed by the donor from outside the Commonwealth via mail or telephone. "Use" does not include any sale determined to be a gift transaction, subject to tax under § 58.1-604.6.

"Use tax" refers to the tax imposed upon the use, consumption, distribution, and storage as defined in this section.

"Used directly," when used in relation to manufacturing, processing, refining, or conversion, refers to those activities that are an integral part of the production of a product, including all steps of an integrated manufacturing or mining process, but not including ancillary activities such as general maintenance or administration. When used in relation to mining, "used directly" refers to the activities specified in this definition and, in addition, any reclamation activity of the land previously mined by the mining company required by state or federal law.

"Video programmer" means a person that provides video programming to end-user subscribers.

"Video programming" means video and/or information programming provided by or generally considered comparable to programming provided by a cable operator, including, but not limited to, Internet service.

§ 58.1-612.2. Tax collectible from accommodations providers and intermediaries.

A. For any retail sale of accommodations not facilitated by an accommodations intermediary, the accommodations provider shall collect the retail sales and use taxes imposed in accordance with this chapter, computed on the total charges for the accommodations, and shall remit the same to the Department and shall be liable for the same.

B. For any retail sale of accommodations facilitated by an accommodations intermediary, the accommodations intermediary shall be deemed under this chapter as a dealer making a retail sale of an accommodation. The accommodations intermediary shall collect the retail sales and use taxes imposed in accordance with this chapter, computed on the room charge. ~~When the accommodations are at a hotel, the accommodations intermediary shall remit the taxes on the accommodations fee to the Department and shall remit any remaining taxes to the hotel, which shall remit such taxes to the Department. When the accommodations are at a short-term rental, as defined in § 15.2-983, or at any other accommodations, the accommodations intermediary shall remit the taxes on the room charge to the Department, and shall remit the same to the Department and shall be liable for the same.~~

C. ~~An accommodations intermediary shall not be liable for retail sales and use taxes remitted to an accommodations provider but that are not then remitted to the Department by the accommodations provider. For any retail sale of accommodations facilitated by an accommodations intermediary, an accommodations provider shall be liable for that portion of retail sales and use taxes that relates to the discount room charge only to the extent that the accommodations intermediary has remitted such taxes to the accommodations provider. For any transaction for the retail sale of accommodations involving two or more parties that meet the definition of accommodations intermediary, nothing in this section shall prohibit such parties from making an agreement regarding which party shall be responsible for collecting and remitting the tax, so long as the party so responsible is registered as a dealer with the Department. In such event, the party agreeing to collect and remit the tax shall be the sole party liable for the tax, and the other parties to such agreement shall not be liable for such tax.~~

D. For any retail sale of accommodations facilitated by an accommodations intermediary, nothing herein shall relieve the accommodations provider from liability for retail sales and use taxes on any amounts charged directly to the customer by the accommodations provider that are not collected by the accommodations intermediary.

E. For any retail sale of accommodations not facilitated by an accommodations intermediary, the accommodations provider shall separately state the amount of the tax on the bill, invoice, or similar documentation and shall add the tax to the total charges charged to the transient by the accommodations provider. For any retail sale of accommodations facilitated by an accommodations intermediary, the accommodations intermediary shall separately state the amount of the tax on the bill, invoice, or similar documentation and shall add the tax to the room charge; thereafter, such tax shall be a debt from the customer to the accommodations intermediary, recoverable at law in the same manner as other debts.

§ 58.1-3826. Scope of transient occupancy tax.

A. The transient occupancy tax imposed pursuant to this article shall be imposed only for the use or possession of any room or space that is suitable or intended for occupancy by transients for dwelling, lodging, or sleeping purposes.

B. For any retail sale of accommodations not facilitated by an accommodations intermediary, the accommodations provider shall collect the tax imposed pursuant to this article, computed on the total price paid for the use or possession of the accommodations, and shall remit the same to the locality and shall be liable for the same.

C. For any retail sale of accommodations facilitated by an accommodations intermediary, the accommodations intermediary shall be deemed under this article as a facility making a retail sale of an accommodation. The accommodations intermediary shall collect the tax imposed pursuant to this article, computed on the room charge. ~~When the accommodations are at a hotel, the accommodations intermediary shall remit the taxes on the accommodations fee to the locality and shall remit any remaining taxes to the hotel, which shall remit such taxes to the locality. When the accommodations are at a short-term rental, as defined in § 15.2-983, or at any other accommodations, the accommodations intermediary shall remit the taxes on the room charge to the locality, and shall remit the same to the locality and shall be liable for the same.~~

~~D. An accommodations intermediary shall not be liable for taxes under this article remitted to an accommodations provider but that are then not remitted to the locality by the accommodations provider. For any retail sale of accommodations facilitated by an accommodations intermediary, an accommodations provider shall be liable for that portion of the taxes under this article that relate to the discount room charge only to the extent that the accommodations intermediary has remitted such taxes to the accommodations provider. For any transaction for the retail sale of accommodations involving two or more parties that meet the definition of accommodations intermediary, nothing in this section shall prohibit such parties from making an agreement regarding which party shall be responsible for collecting and remitting the tax, so long as the party so responsible is registered with the locality for purposes of remitting the tax. In such event, the party that agrees to collect and remit the tax shall be the sole party liable for the tax, and the other parties to such agreement shall not be liable for such tax.~~

E. In any retail sale of any accommodations in which an accommodations intermediary does not facilitate the sale of the accommodations, the accommodations provider shall separately state the amount of the tax in the bill, invoice, or similar documentation and shall add the tax to the total price paid for the use or possession of the accommodations. In any retail sale of any accommodations in which an accommodations intermediary facilitates the sale of the accommodation, the accommodations intermediary shall separately state the amount of the tax on the bill, invoice, or similar documentation and shall add the tax to the room charge; thereafter, such tax shall be a debt from the customer to the accommodations intermediary, recoverable at law in the same manner as other debts.

F. Subject to applicable laws, an accommodations intermediary shall submit to a locality the property addresses and gross receipts for all accommodations facilitated by the accommodations intermediary in such locality. Such information shall be submitted monthly.

2. That the provisions of the first enactment of this act shall become effective on October 1, 2022.

3. That the Department of Taxation shall develop and make publicly available guidelines no later than August 1, 2022, for purposes of developing processes and procedures for implementing the provisions of this act. The development, issuance, and publication of the guidelines shall be exempt from the provisions of the Administrative Process Act (§ 2.2-4000 et seq. of the Code of Virginia).

4. That the Department of Taxation (the Department) shall convene and facilitate a work group to examine the processes currently used to collect local transient occupancy taxes and make recommendations for improving the efficiency and uniformity of those processes. The work group shall include one representative of the Commissioners of the Revenue, one representative of the Treasurers, one representative of counties, one representative of cities and towns, two representatives of the hotel industry, and two representatives of accommodations intermediaries as defined in § 58.1-602 of the Code of Virginia, as amended by this act. The Department shall prepare and submit a report of the work group's findings and recommendations to the Chairmen of the House Committee on Finance and the Senate Committee on Finance and Appropriations no later than October 31, 2022.

[S 679]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 38.2-3100.3 and 54.1-2820 of the Code of Virginia are amended and reenacted as follows:

§ 38.2-3100.3. Requirements of life insurance or annuity contracts used to fund preneed funeral contracts.

A. For purposes of this section, "preneed funeral contract" means any agreement where payment is made by the insured prior to the receipt of services or supplies contracted for, which evidences arrangements prior to death for (i) the providing of funeral services or (ii) the sale of funeral supplies.

B. Each individual and group life insurance policy issued or issued for delivery in Virginia, each individual and group annuity contract issued or issued for delivery in Virginia, and each certificate issued in connection with a group life insurance policy or group annuity contract issued or issued for delivery in Virginia shall include a provision specifying the means by which face amount adjustments will be made and benefits payable upon death will be adjusted; ~~according to the provisions of subsection C of § 54.1-2820;~~ when such a policy or contract will be used to fund a preneed funeral contract.

C. Each insurer proposing to issue individual or group life insurance policies or individual or group annuity contracts in Virginia for purposes of funding preneed funeral contracts shall clearly disclose the intended purpose and market for such policies and contracts when submitting the forms with the Commission for approval, in accordance with § 38.2-316.

§ 54.1-2820. Requirements of preneed funeral contracts.

A. It shall be unlawful for any person residing or doing business within this Commonwealth, to make, either directly or indirectly by any means, a preneed funeral contract unless the contract:

1. Is made on forms prescribed by the Board and is written in clear, understandable language and printed in easy-to-read type, size and style;
2. Identifies the seller, seller's license number and contract buyer and the person for whom the contract is purchased if other than the contract buyer;
3. Contains a complete description of the supplies or services purchased;
4. Clearly discloses whether the price of the supplies and services purchased is guaranteed;
5. States if funds are required to be trusted pursuant to § 54.1-2822, the amount to be trusted, the name of the trustee, the disposition of the interest, the fees, expenses and taxes which may be deducted from the interest and a statement of the buyer's responsibility for taxes owed on the interest;
6. Contains the name, address and telephone number of the Board and lists the Board as the regulatory agency which handles consumer complaints;
7. Provides that any person who makes payment under the contract may terminate the agreement at any time prior to the furnishing of the services or supplies contracted for except as provided pursuant to subsection B; if the purchaser terminates the contract within 30 days of execution, the purchaser shall be refunded all consideration paid or delivered, together with any interest or income accrued thereon; if the purchaser terminates the contract after 30 days, the purchaser shall be refunded any amounts required to be deposited under § 54.1-2822, together with any interest or income accrued thereon;
8. Provides that if the particular supplies and services specified in the contract are unavailable at the time of delivery, the seller shall be required to furnish supplies and services similar in style and at least equal in quality of material and workmanship and the representative of the deceased shall have the right to choose the supplies or services to be substituted;
9. Discloses any penalties or restrictions, including but not limited to geographic restrictions or the inability of the provider to perform, on the delivery of merchandise, services or prearrangement guarantee; and
10. Complies with all disclosure requirements imposed by the Board.

If the contract seller will not be furnishing the supplies and services to the purchaser, the contract seller must attach to the preneed funeral contract a copy of the seller's agreement with the provider.

B. Subject to the requirements of § 54.1-2822, a preneed funeral contract may provide for an irrevocable trust or an amount in an irrevocable trust that is specifically identified as available exclusively for funeral or burial expenses, where:

1. A person irrevocably contracts for funeral goods and services, such person funds the contract by prepaying for the goods and services, and the funeral provider residing or doing business within the Commonwealth subsequently places the funds in a trust; or
2. A person establishes an irrevocable trust naming the funeral provider as the beneficiary; however, such person shall have the right to change the beneficiary to another funeral provider pursuant to § 54.1-2822.

C. If a life insurance or annuity contract is used to fund the preneed funeral contract, ~~the life insurance or annuity contract shall provide either that the face value thereof shall be adjusted annually by a factor equal to the annualized Consumer Price Index as published by the Bureau of Labor Statistics of the United States Department of Labor, or a benefit payable at death under such contract that will equal or exceed the sum of all premiums paid for such contract plus interest or dividends; which for the first 15 years shall be compounded annually at a rate of at least five percent. In any event, interest or dividends shall continue to be paid after 15 years. In addition, the face amount of any life insurance policy issued to fund a preneed funeral contract shall not be decreased over the life of the life insurance policy except for life insurance policies that have lapsed due to the nonpayment of premiums or have gone to a nonforfeiture option that lowers the face amount as allowed for in the provisions of the policy.~~ The following must also be disclosed as prescribed by the Board:

1. The fact that a life insurance policy or annuity contract is involved or being used to fund the preneed contract;
2. The nature of the relationship among the soliciting agent, the provider of the supplies or services, the prearranger and the insurer;
3. The relationship of the life insurance policy or annuity contract to the funding of the preneed contract and the nature and existence of any guarantees relating to the preneed contract; and
4. The impact on the preneed contract of (i) any changes in the life insurance policy or annuity contract including but not limited to changes in the assignment, beneficiary designation or use of the proceeds, (ii) any penalties to be incurred by the policyholder as a result of failure to make premium payments, (iii) any penalties to be incurred or moneys to be received as a result of cancellation or surrender of the life insurance policy or annuity contract, and (iv) all relevant information concerning what occurs and whether any entitlements or obligations arise if there is a difference between the proceeds of the life insurance policy or annuity contract and the amount actually needed to fund the preneed contract.

D. When the consideration consists in whole or in part of any real estate, the contract shall be recorded as an attachment to the deed whereby such real estate is conveyed, and the deed shall be recorded in the clerk's office of the circuit court of the city or county in which the real estate being conveyed is located.

E. If any funeral supplies are sold and delivered prior to the death of the subject for whom they are provided, and the seller or any legal entity in which he or a member of his family has an interest thereafter stores these supplies, the risk of loss or damage shall be upon the seller during such period of storage.

No more than four ounces of botanical cannabis shall be dispensed for each 30-day period for which botanical cannabis is dispensed. The Board shall establish in regulation an amount of cannabis oil that constitutes a 90-day supply to treat or alleviate the symptoms of a patient's diagnosed condition or disease. In determining the appropriate amount of a cannabis product to be dispensed to a patient, a pharmaceutical processor or cannabis dispensing facility shall consider all cannabis products dispensed to the patient and adjust the amount dispensed accordingly.

B. A pharmaceutical processor or cannabis dispensing facility shall dispense only cannabis products produced on the premises of a pharmaceutical processor permitted by the Board or cannabis oil that has been formulated with oil from industrial hemp acquired by a pharmaceutical processor from a registered industrial hemp dealer or processor pursuant to § 54.1-3442.6. A pharmaceutical processor may begin cultivation upon being issued a permit by the Board.

C. The Board shall report annually by December 1 to the Chairmen of the House Committee for Health, Welfare and Institutions and the Senate Committee on Education and Health on the operation of pharmaceutical processors and cannabis dispensing facilities issued a permit by the Board, including the number of practitioners, patients, registered agents, and parents or legal guardians of patients who have registered with the Board and the number of written certifications issued pursuant to § 54.1-3408.3.

D. The concentration of delta-9-tetrahydrocannabinol in any cannabis product on site may be up to 10 percent greater than or less than the level of delta-9-tetrahydrocannabinol measured for labeling. A pharmaceutical processor and cannabis dispensing facility shall ensure that such concentration in any cannabis product on site is within such range. A pharmaceutical processor producing cannabis products shall establish a stability testing schedule of cannabis products.

2. That the provisions of this act may result in a net increase in periods of imprisonment or commitment. For purposes of this subsection, an occupational exposure occurring on or after July 1, 2002, shall be deemed "documented" if the person covered under this subsection gave notice, written or otherwise, of the occupational exposure to his employer, and an occupational exposure occurring prior to July 1, 2002, shall be deemed "documented" without regard to whether the person gave notice, written or otherwise, of the occupational exposure to his employer. For any correctional officer as defined in § 53.1-1 or full-time sworn member of the enforcement division of the Department of Motor Vehicles, the presumption shall not apply if such individual was diagnosed with hepatitis, meningococcal meningitis, or HIV before July 1, 2020.

B. 1. COVID-19 causing the death of, or any health condition or impairment resulting in total or partial disability of, any health care provider, as defined in § 8.01-581.1, who as part of the provider's employment is directly involved in diagnosing or treating persons known or suspected to have COVID-19, shall be presumed to be an occupational disease that is covered by this title unless such presumptions are overcome by a preponderance of competent evidence to the contrary. 2. COVID-19 causing the death of, or any health condition or impairment resulting in total or partial disability of, any (i) firefighter, as defined in § 65.2-102; (ii) law-enforcement officer, as defined in § 9.1-101; (iii) correctional officer, as defined in § 53.1-1; or (iv) regional jail officer shall be presumed to be an occupational disease, suffered in the line of duty, as applicable, that is covered by this title unless such presumption is overcome by a preponderance of competent evidence to the contrary. For the purposes of this section, the COVID-19 virus shall be established by a positive diagnostic test for COVID-19, an incubation period consistent with COVID-19, and signs and symptoms of COVID-19 that require medical treatment.

C. As used in this section:

"Blood or body fluids" means blood and body fluids containing visible blood and other body fluids to which universal precautions for prevention of occupational transmission of blood-borne pathogens, as established by the Centers for Disease Control, apply. For purposes of potential transmission of hepatitis, meningococcal meningitis, tuberculosis, or HIV the term "blood or body fluids" includes respiratory, salivary, and sinus fluids, including droplets, sputum, saliva, mucous, and any other fluid through which infectious airborne or blood-borne organisms can be transmitted between persons.

"Hepatitis" means hepatitis A, hepatitis B, hepatitis non-A, hepatitis non-B, hepatitis C, or any other strain of hepatitis generally recognized by the medical community.

E. 1. Whenever any standard, medically-recognized vaccine or other form of immunization or prophylaxis exists for the prevention of a communicable disease for which a presumption is established under this section, if medically indicated by the given circumstances pursuant to immunization policies established by the Advisory Committee on Immunization Practices of the United States Public Health Service, a person subject to the provisions of this section may be required by such person's employer to undergo the immunization or prophylaxis unless the person's physician determines in writing that the immunization or prophylaxis would pose a significant risk to the person's health. Absent such written declaration, failure or refusal by a person subject to the provisions of this section to undergo such immunization or prophylaxis shall disqualify the person from any presumption established by this section.

2. The presumptions described in subdivision B 1 shall not apply to any person offered by such person's employer a vaccine for the prevention of COVID-19 with an Emergency Use Authorization issued by the U.S. Food and Drug Administration, unless the person is immunized or the person's physician determines in writing that the immunization would pose a significant risk to the person's health. Absent such written declaration, failure or refusal by a person subject to the provisions of this section to undergo such immunization shall disqualify the person from the presumptions described in subdivision B 1.

F. 1. The presumptions described in subsection A shall only apply if persons entitled to invoke them have, if requested by the appointing authority or governing body employing them, undergone preemployment physical examinations that (i) were conducted prior to the making of any claims under this title that rely on such presumptions; (ii) were performed by physicians whose qualifications are as prescribed by the appointing authority or governing body employing such persons; (iii) included such appropriate laboratory and other diagnostic studies as the appointing authorities or governing bodies may have prescribed; and (iv) found such persons free of hepatitis, meningococcal meningitis, tuberculosis or HIV at the time of such examinations. The presumptions described in subsection A shall not be effective until six months following such examinations, unless such persons entitled to invoke such presumption can demonstrate a documented exposure during the six-month period.

2. The presumptions described in subdivision B 1 shall apply to any person entitled to invoke them for any death or disability occurring on or after March 12, 2020, caused by infection from the COVID-19 virus, provided that for any such death or disability that occurred on or after March 12, 2020, and prior to December 31, ~~2021~~ 2022, and;

b. On or after July 1, 2020, and prior to December 31, ~~2021~~ 2022, the claimant received a positive diagnosis of COVID-19 from a licensed physician, nurse practitioner, or physician assistant after a presumptive positive test or a laboratory-confirmed test for COVID-19 and presented with signs and symptoms of COVID-19 that required medical treatment.

3. The presumptions described in subdivision B 2 shall apply to any person entitled to invoke them for any death or disability occurring on or after July 1, 2020, caused by infection from the COVID-19 virus, provided that for any such death or disability that occurred on or after July 1, 2020, and prior to December 31, 2021, the claimant received a diagnosis of

COVID-19 from a licensed physician, after either a presumptive positive test or a laboratory confirmed test for COVID-19, and presented with signs and symptoms of COVID-19 that required medical treatment.

G. Persons making claims under this title who rely on such presumption shall, upon the request of appointing authorities or governing bodies employing such persons, submit to physical examinations (i) conducted by physicians selected by such appointing authorities or governing bodies or their representatives and (ii) consisting of such tests and studies as may reasonably be required by such physicians. However, a qualified physician, selected and compensated by the claimant, may, at the election of such claimant, be present at such examination.

In computing Virginia taxable income pursuant to § 58.1-322, there shall be deducted from Virginia adjusted gross income as defined in § 58.1-321:

1. a. The amount allowable for itemized deductions for federal income tax purposes where the taxpayer has elected for the taxable year to itemize deductions on his federal return, but reduced by the amount of income taxes imposed by the Commonwealth or any other taxing jurisdiction and deducted on such federal return and increased by an amount that, when added to the amount deducted under § 170 of the Internal Revenue Code for mileage, results in a mileage deduction at the state level for such purposes at a rate of 18 cents per mile; or

b. Provided that the taxpayer has not itemized deductions for the taxable year on his federal income tax return: (i) for taxable years beginning before January 1, 2019, and on and after January 1, 2026, \$3,000 for single individuals and \$6,000 for married persons (one-half of such amounts in the case of a married individual filing a separate return) and (ii) for taxable years beginning on and after January 1, 2019, but before January 1, 2026, \$4,500 for single individuals and \$9,000 for married persons (one-half of such amounts in the case of a married individual filing a separate return). For purposes of this section, any person who may be claimed as a dependent on another taxpayer's return for the taxable year may compute the deduction only with respect to earned income.

2. a. A deduction in the amount of \$930 for each personal exemption allowable to the taxpayer for federal income tax purposes.

b. Each blind or aged taxpayer as defined under § 63(f) of the Internal Revenue Code shall be entitled to an additional personal exemption in the amount of \$800.

The additional deduction for blind or aged taxpayers allowed under this subdivision shall be allowable regardless of whether the taxpayer itemizes deductions for the taxable year for federal income tax purposes.

3. A deduction equal to the amount of employment-related expenses upon which the federal credit is based under § 21 of the Internal Revenue Code for expenses for household and dependent care services necessary for gainful employment.

4. An additional \$1,000 deduction for each child residing for the entire taxable year in a home under permanent foster care placement as defined in § 63.2-908, provided that the taxpayer can also claim the child as a personal exemption under § 151 of the Internal Revenue Code.

b. A deduction in the amount of \$12,000 for individuals born after January 1, 1939, who have attained the age of 65. Except as provided in subdivision b, the amount deducted on any individual income tax return in any taxable year shall be limited to \$4,000 per prepaid tuition contract or college savings trust account. If the purchase price or annual contribution to a college savings trust account exceeds \$4,000, the remainder may be carried forward and subtracted in future taxable years until the purchase price or college savings trust contribution has been fully deducted; however, except as provided in subdivision b, in no event shall the amount deducted in any taxable year exceed \$4,000 per contract or college savings trust account. This addition shall not be required for any portion of the intangible expenses and costs if one of the following applies:

(1) The corresponding item of income received by the related member is subject to a tax based on or measured by net income or capital imposed by Virginia, another state, or a foreign government that has entered into a comprehensive tax treaty with the United States government;

(2) The related member derives at least one-third of its gross revenues from the licensing of intangible property to parties who are not related members, and the transaction giving rise to the expenses and costs between the corporation and the related member was made at rates and terms comparable to the rates and terms of agreements that the related member has entered into with parties who are not related members for the licensing of intangible property; or

(3) The corporation can establish to the satisfaction of the Tax Commissioner that the intangible expenses and costs meet both of the following: (i) the related member during the same taxable year directly or indirectly paid, accrued or incurred such portion to a person who is not a related member, and (ii) the transaction giving rise to the intangible expenses and costs between the corporation and the related member did not have as a principal purpose the avoidance of any portion of the tax due under this chapter.

b. A corporation required to add to its federal taxable income intangible expenses and costs pursuant to subdivision a may petition the Tax Commissioner, after filing the related income tax return for the taxable year and remitting to the Tax Commissioner all taxes, penalties, and interest due under this article for such taxable year including tax upon any amount of intangible expenses and costs required to be added to federal taxable income pursuant to subdivision a, to consider evidence relating to the transaction or transactions between the corporation and a related member or members that resulted in the corporation's taxable income being increased, as required under subdivision a, for such intangible expenses and costs.

If the corporation can demonstrate to the Tax Commissioner's sole satisfaction, by clear and convincing evidence, that the transaction or transactions between the corporation and a related member or members resulting in such increase in taxable income pursuant to subdivision a had a valid business purpose other than the avoidance or reduction of the tax due under this chapter, the Tax Commissioner shall permit the corporation to file an amended return. For purposes of such amended return, the requirements of subdivision a shall not apply to any transaction for which the Tax Commissioner is satisfied (and has identified) that the transaction had a valid business purpose other than the avoidance or reduction of the tax due under this chapter. Such amended return shall be filed by the corporation within one year of the written permission granted by the Tax Commissioner and any refund of the tax imposed under this article shall include interest at a rate equal to the rate of interest established under § 58.1-15 and such interest shall accrue as provided under § 58.1-1833. However, upon

the filing of such amended return, any related member of the corporation that subtracted from taxable income amounts received pursuant to subdivision C 21 shall be subject to the tax imposed under this article on that portion of such amounts for which the corporation has filed an amended return pursuant to this subdivision. In addition, for such transactions identified by the Tax Commissioner herein by which he has been satisfied by clear and convincing evidence, the Tax Commissioner may permit the corporation in filing income tax returns for subsequent taxable years to deduct the related intangible expenses and costs without making the adjustment under subdivision a.

The Tax Commissioner may charge a fee for all direct and indirect costs relating to the review of any petition pursuant to this subdivision, to include costs necessary to secure outside experts in evaluating the petition. The Tax Commissioner may condition the review of any petition pursuant to this subdivision upon payment of such fee.

No suit for the purpose of contesting any action of the Tax Commissioner under this subdivision shall be maintained in any court of this Commonwealth.

c. Nothing in subdivision B 8 shall be construed to limit or negate the Department's authority under § 58.1-446;

9. a. For taxable years beginning on and after January 1, 2004, the amount of any interest expenses and costs directly or indirectly paid, accrued, or incurred to, or in connection directly or indirectly with one or more direct or indirect transactions with one or more related members to the extent such expenses and costs were deductible or deducted in computing federal taxable income for Virginia purposes. This addition shall not be required for any portion of the interest expenses and costs, if:

(1) The related member has substantial business operations relating to interest-generating activities, in which the related member pays expenses for at least five full-time employees who maintain, manage, defend or are otherwise responsible for operations or administration relating to the interest-generating activities; and

(2) The interest expenses and costs are not directly or indirectly for, related to or in connection with the direct or indirect acquisition, maintenance, management, sale, exchange, or disposition of intangible property; and

(iii) The related member engages in transactions with parties other than related members that generate revenue in excess of \$2 million annually; or

(iv) The transaction giving rise to the interest payments between the corporation and a related member was done at arm's length rates and terms and meets any of the following: (a) the related member uses funds that are borrowed from a party other than a related member or that are paid, incurred or passed-through to a person who is not a related member; (b) the debt is part of a regular and systematic funds management or portfolio investment activity conducted by the related member, whereby the funds of two or more related members are aggregated for the purpose of achieving economies of scale, the internal financing of the active business operations of members, or the benefit of centralized management of funds; (c) financing the expansion of the business operations; or (d) restructuring the debt of related members, or the pass-through of acquisition-related indebtedness to related members.

b. A corporation required to add to its federal taxable income interest expenses and costs pursuant to subdivision a may petition the Tax Commissioner, after filing the related income tax return for the taxable year and remitting to the Tax Commissioner all taxes, penalties, and interest due under this article for such taxable year including tax upon any amount of interest expenses and costs required to be added to federal taxable income pursuant to subdivision a, to consider evidence relating to the transaction or transactions between the corporation and a related member or members that resulted in the corporation's taxable income being increased, as required under subdivision a, for such interest expenses and costs.

If the corporation can demonstrate to the Tax Commissioner's sole satisfaction, by clear and convincing evidence, that the transaction or transactions between the corporation and a related member or members resulting in such increase in taxable income pursuant to subdivision a had a valid business purpose other than the avoidance or reduction of the tax due under this chapter and that the related payments between the parties were made at arm's length rates and terms, the Tax Commissioner shall permit the corporation to file an amended return. For purposes of such amended return, the requirements of subdivision a shall not apply to any transaction for which the Tax Commissioner is satisfied (and has identified) that the transaction had a valid business purpose other than the avoidance or reduction of the tax due under this chapter and that the related payments between the parties were made at arm's length rates and terms. Such amended return shall be filed by the corporation within one year of the written permission granted by the Tax Commissioner and any refund of the tax imposed under this article shall include interest at a rate equal to the rate of interest established under § 58.1-15 and such interest shall accrue as provided under § 58.1-1833. However, upon the filing of such amended return, any related member of the corporation that subtracted from taxable income amounts received pursuant to subdivision C 21 shall be subject to the tax imposed under this article on that portion of such amounts for which the corporation has filed an amended return pursuant to this subdivision. In addition, for such transactions identified by the Tax Commissioner herein by which he

has been satisfied by clear and convincing evidence, the Tax Commissioner may permit the corporation in filing income tax returns for subsequent taxable years to deduct the related interest expenses and costs without making the adjustment under subdivision a.

The Tax Commissioner may charge a fee for all direct and indirect costs relating to the review of any petition pursuant to this subdivision, to include costs necessary to secure outside experts in evaluating the petition. The Tax Commissioner may condition the review of any petition pursuant to this subdivision upon payment of such fee.

No suit for the purpose of contesting any action of the Tax Commissioner under this subdivision shall be maintained in any court of this Commonwealth.

[H 421]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 38.2-508 of the Code of Virginia is amended and reenacted as follows:

§ 38.2-508. Unfair discrimination.

No person shall:

1. Unfairly discriminate or permit any unfair discrimination between individuals of the same class and equal expectation of life (i) in the rates charged for any life insurance or annuity contract, or (ii) in the dividends or other benefits payable on the contract, or (iii) in any other of the terms and conditions of the contract;

2. Unfairly discriminate or permit any unfair discrimination between individuals of the same class and of essentially the same hazard (i) in the amount of premium, policy fees, or rates charged for any policy or contract of accident or health insurance, (ii) in the benefits payable under such policy or contract, (iii) in any of the terms or conditions of such policy or contract, or (iv) in any other manner;

3. Refuse to insure, refuse to continue to insure, or limit the amount, extent or kind of insurance coverage available to an individual, or charge an individual a different rate for the same coverage solely because of blindness, or partial blindness, or mental or physical impairments, unless the refusal, limitation or rate differential is based on sound actuarial principles. This paragraph shall not be interpreted to modify any other provision of law relating to the termination, modification, issuance or renewal of any insurance policy or contract;

4. Unfairly discriminate or permit any unfair discrimination between individuals or risks of the same class and of essentially the same hazards by refusing to issue, refusing to renew, cancelling or limiting the amount of insurance coverage solely because of the geographic location of the individual or risk, unless:

- a. The refusal, cancellation or limitation is for a business purpose that is not a mere pretext for unfair discrimination; or
- b. The refusal, cancellation or limitation is required by law or regulatory mandate;

5. Make or permit any unfair discrimination between individuals or risks of the same class and of essentially the same hazards by refusing to issue, refusing to renew, cancelling or limiting the amount of insurance coverage on a residential property risk, or the personal property contained in a residential property risk, solely because of the age of the residential property, unless:

- a. The refusal, cancellation or limitation is for a business purpose that is not a mere pretext for unfair discrimination; or
- b. The refusal, cancellation or limitation is required by law or regulatory mandate;

6. Refuse to issue or renew any individual accident and sickness insurance policy or contract for coverage over and above any lifetime benefit of a group accident and sickness policy or contract solely because an individual is insured under a group accident and sickness insurance policy or contract, provided that medical expenses covered by both individual and group coverage shall be paid first by the group policy or contract to the extent of the group coverage; ~~or~~

7. Consider the status of a victim of domestic violence as a criterion in any decision with regard to insurance underwriting, pricing, renewal, scope of coverage, or payment of claims on any and all insurance defined in § 38.2-100 and further classified in Article 2 (§ 38.2-101 et seq.) of Chapter 1 of this title, other than (i) legal services plans as provided for in Chapter 44 (§ 38.2-4400 et seq.) of this title and (ii) the insurance classified in §§ 38.2-110 through 38.2-133. - d. Attempting to cause or causing damage to property so as to intimidate or attempt to control the behavior of another person.

Nothing in this subsection shall prohibit an insurer or insurance professional from asking about a medical condition or from using medical information to underwrite or to carry out its duties under an insurance policy even if the medical information is related to a medical condition that the insurer or insurance professional knows or has reason to know resulted from domestic violence, to the extent otherwise permitted under this section and other applicable law; or

8. *Refuse to insure, refuse to continue to insure, or limit the amount or extent of life insurance, disability insurance, or long-term care insurance coverage available to an individual or charge an individual a different rate for the same coverage based solely and without any additional actuarial risks upon the status of such individual as a living organ donor. For the purposes of this subdivision, "living organ donor" means a living individual who donates one or more of such individual's human organs, including bone marrow, to be medically transplanted into the body of another individual.*

2. That the provisions of this act shall apply to life insurance, disability insurance, or long-term care insurance plans that are entered into, amended, extended, or renewed on or after January 1, 2023.

§ 58.1-638. Disposition of state sales and use tax revenue.

A. The Comptroller shall designate a specific revenue code number for all the state sales and use tax revenue collected under the preceding sections of this chapter.

The sales and use tax revenue generated by the one-half percent sales and use tax increase enacted by the 1986 Special Session of the General Assembly shall be paid, in the manner hereinafter provided in this section, to the Commonwealth Transportation Fund established pursuant to § 33.2-1524. The Fund's share of such net revenue shall be computed as an estimate of the net revenue to be received into the state treasury each month, and such estimated payment shall be adjusted for the actual net revenue received in the preceding month. All payments shall be made to the Fund on the last day of each month.

B. The sales and use tax revenue generated by a one percent sales and use tax shall be distributed among the counties and cities of the Commonwealth in the manner provided in subsections C and D.

C. The localities' share of the net revenue distributable under this section among the counties and cities shall be apportioned by the Comptroller and distributed among them by warrants of the Comptroller drawn on the Treasurer of Virginia as soon as practicable after the close of each month during which the net revenue was received into the state treasury. The distribution of the localities' share of such net revenue shall be computed with respect to the net revenue received into the state treasury during each month, and such distribution shall be made as soon as practicable after the close of each such month.

D. The net revenue so distributable among the counties and cities shall be apportioned and distributed upon the basis of the latest yearly estimate of the population of cities and counties ages five to 19, provided by the Weldon Cooper Center for Public Service of the University of Virginia. Such population estimate produced by the Weldon Cooper Center for Public Service of the University of Virginia shall account for persons who are domiciled in orphanages or charitable institutions or who are dependents living on any federal military or naval reservation or other federal property within the school division in which the institutions or federal military or naval reservation or other federal property is located. Such population estimate produced by the Weldon Cooper Center for Public Service of the University of Virginia shall account for members of the military services who are under 20 years of age within the school division in which the parents or guardians of such persons legally reside. Such population estimate produced by the Weldon Cooper Center for Public Service of the University of Virginia shall account for individuals receiving services in state hospitals, state training centers, or mental health facilities, persons who are confined in state or federal correctional institutions, or persons who attend the Virginia School for the Deaf and the Blind within the school division in which the parents or guardians of such persons legally reside. Such population estimate produced by the Weldon Cooper Center for Public Service of the University of Virginia shall account for persons who attend institutions of higher education within the school division in which the student's parents or guardians legally reside. To such estimate, the Department of Education shall add the population of students with disabilities, ages two

through four and 20 through 21, as provided to the Department of Education by school divisions. The revenue so apportionable and distributable is hereby appropriated to the several counties and cities for maintenance, operation, capital outlays, debt and interest payments, or other expenses incurred in the operation of the public schools, which shall be considered as funds raised from local resources. In any county, however, wherein is situated any incorporated town constituting a school division, the county treasurer shall pay into the town treasury for maintenance, operation, capital outlays, debt and interest payments, or other expenses incurred in the operation of the public schools, the proper proportionate amount received by him in the ratio that the school population of such town bears to the school population of the entire county. If the school population of any city or of any town constituting a school division is increased by the annexation of territory since the last estimate of school population provided by the Weldon Cooper Center for Public Service, such increase shall, for the purposes of this section, be added to the school population of such city or town as shown by the last such estimate and a proper reduction made in the school population of the county or counties from which the annexed territory was acquired.

E. Beginning July 1, 2000, of the remaining sales and use tax revenue, the revenue generated by a two percent sales and use tax, up to an annual amount of \$13 million, collected from the sales of hunting equipment, auxiliary hunting equipment, fishing equipment, auxiliary fishing equipment, wildlife-watching equipment, and auxiliary wildlife-watching equipment in Virginia, as estimated by the most recent U.S. Department of the Interior, Fish and Wildlife Service and U.S. Department of Commerce, Bureau of the Census National Survey of Fishing, Hunting, and Wildlife-Associated Recreation, shall be paid into the Game Protection Fund established under § 29.1-101 and shall be used, in part, to defray the cost of law enforcement. Not later than 30 days after the close of each quarter, the Comptroller shall transfer to the Game Protection Fund the appropriate amount of collections to be dedicated to such Fund. At any time that the balance in the Capital Improvement Fund, established under § 29.1-101.01, is equal to or in excess of \$35 million, any portion of sales and use tax revenues that would have been transferred to the Game Protection Fund, established under § 29.1-101, in excess of the net operating expenses of the Board, after deduction of other amounts which accrue to the Board and are set aside for the Game Protection Fund, shall remain in the general fund until such time as the balance in the Capital Improvement Fund is less than \$35 million.

F. 1. Of the net revenue generated from the one-half percent increase in the rate of the state sales and use tax effective August 1, 2004, pursuant to enactments of the 2004 Special Session I of the General Assembly, the Comptroller shall transfer from the general fund of the state treasury to the Public Education Standards of Quality/Local Real Estate Property Tax Relief Fund established under § 58.1-638.1 an amount equivalent to one-half of the net revenue generated from such one-half percent increase as provided in this subdivision. Beginning July 1, 2013, of the remaining sales and use tax revenue, an amount equal to the revenue generated by a 0.125 percent sales and use tax shall be distributed to the Public Education Standards of Quality/Local Real Estate Property Tax Relief Fund established under § 58.1-638.1, and be used for the state's share of Standards of Quality basic aid payments.

3. For the purposes of the Comptroller making the required transfers under subdivision 1 and 2, the Tax Commissioner shall make a written certification to the Comptroller no later than the twenty-fifth of each month certifying the sales and use tax revenues generated in the preceding month. Within three calendar days of receiving such certification, the Comptroller shall make the required transfers to the Public Education Standards of Quality/Local Real Estate Property Tax Relief Fund.

CHAPTER 654

An Act to amend and reenact §§ 64.2-1608 and 64.2-1621 of the Code of Virginia and to amend the Code of Virginia by adding a section numbered 18.2-178.2, relating to misuse of power of attorney; financial exploitation by an agent; penalty.

[S 124]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 64.2-1608 and 64.2-1621 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding a section numbered 18.2-178.2 as follows:

§ 18.2-178.2. Financial exploitation by an agent; penalty.

A. As used in this section:

"Agent" means the same as that term is defined in § 64.2-1600.

"Financial exploitation" means the illegal, unauthorized, or fraudulent use, or deprivation of use, of the property of an incapacitated adult with the intention of benefiting someone other than the incapacitated adult.

"Incapacitated adult" means the same as that term is defined in § 18.2-369.

"Power of attorney" means a writing or other record that grants authority to an agent to act in the place of the principal, whether or not the term "power of attorney" is used.

"Principal" means an individual who grants authority to an agent in a power of attorney.

"Record" means information that is inscribed on a tangible medium or that is stored in an electronic or other medium and is retrievable in perceivable form.

B. An agent under a power of attorney who knowingly or intentionally engages in financial exploitation of an incapacitated adult who is the principal of that agent is guilty of a Class 1 misdemeanor. A violation of this section shall constitute a separate and distinct offense. If the acts or activities violating this section also violate another provision of law, a prosecution under this section shall not prohibit or bar any prosecution or proceeding under such other provision or the imposition of any penalties provided for thereby.

§ 64.2-1608. Termination of power of attorney or agent's authority.

A. A power of attorney terminates when:

1. The principal dies;
2. The principal becomes incapacitated, if the power of attorney is not durable;
3. The principal revokes the power of attorney;
4. The power of attorney provides that it terminates;
5. The purpose of the power of attorney is accomplished; or

6. The principal revokes the agent's authority or the agent dies, becomes incapacitated, or resigns, and the power of attorney does not provide for another agent to act under the power of attorney.

B. An agent's authority terminates when:

1. The principal revokes the authority;
2. The agent dies, becomes incapacitated, or resigns;
3. Unless the power of attorney otherwise provides, an action is filed (i) for the divorce or annulment of the agent's marriage to the principal or their legal separation, (ii) by either the agent or principal for separate maintenance from the other, or (iii) by either the agent or principal for custody or visitation of a child in common with the other; ~~or~~

4. The agent is convicted of financial exploitation of the principal under § 18.2-178.2; or

5. The power of attorney terminates.

C. Unless the power of attorney otherwise provides, an agent's authority is exercisable until the authority terminates under subsection B, notwithstanding a lapse of time since the execution of the power of attorney.

D. Termination of an agent's authority or of a power of attorney is not effective as to the agent or another person that, without actual knowledge of the termination, acts in good faith under the power of attorney. An act so performed, unless otherwise invalid or unenforceable, binds the principal and the principal's successors in interest.

E. Incapacity of the principal of a power of attorney that is not durable does not revoke or terminate the power of attorney as to an agent or other person that, without actual knowledge of the incapacity, acts in good faith under the power of attorney. An act so performed, unless otherwise invalid or unenforceable, binds the principal and the principal's successors in interest.

F. The execution of a power of attorney does not revoke a power of attorney previously executed by the principal unless the subsequent power of attorney provides that the previous power of attorney is revoked or that all other powers of attorney are revoked.

CHAPTER 655

An Act to amend and reenact § 58.1-3503 of the Code of Virginia, relating to tangible personal property taxes; valuation of property.

[H 1231]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 58.1-3503 of the Code of Virginia is amended and reenacted as follows:

§ 58.1-3503. General classification of tangible personal property.

A. Tangible personal property is classified for valuation purposes according to the following separate categories which are not to be considered separate classes for rate purposes:

1. Farm animals, except as exempted under § 58.1-3505.
2. Farm machinery, except as exempted under § 58.1-3505.

3. Automobiles, except those described in subdivisions 7, 8, and 9 of this subsection and in subdivision A 8 of § 58.1-3504, which shall be valued by means of a recognized pricing guide or if the model and year of the individual automobile are not listed in the recognized pricing guide, the individual vehicle may be valued on the basis of percentage or percentages of original cost. In using a recognized pricing guide, the commissioner shall use either of the following two methods. The commissioner may use all applicable adjustments in such guide to determine the value of each individual automobile, or alternatively, if the commissioner does not utilize all applicable adjustments in valuing each automobile, he shall use the base value specified in such guide which may be either average retail, wholesale, or loan value, so long as uniformly applied within classifications of property. If the model and year of the individual automobile are not listed in the recognized pricing guide, the taxpayer may present to the commissioner proof of the original cost, and the basis of the tax for purposes of the motor vehicle sales and use tax as described in § 58.1-2405 shall constitute proof of original cost. If such percentage or percentages of original cost do not accurately reflect fair market value, or if the taxpayer does not supply proof of original cost, then the commissioner may select another method which establishes fair market value.

4. Trucks of less than two tons, which may be valued by means of a recognized pricing guide or, if the model and year of the individual truck are not listed in the recognized pricing guide, on the basis of a percentage or percentages of original cost.

5. Trucks and other vehicles, as defined in § 46.2-100, except those described in subdivisions 4, and 6 through 10 of this subsection, which shall be valued by means of either a recognized pricing guide using the lowest value specified in such guide or a percentage or percentages of original cost.

6. Manufactured homes, as defined in § 36-85.3, which may be valued on the basis of square footage of living space.

7. Antique motor vehicles, as defined in § 46.2-100, which may be used for general transportation purposes as provided in subsection C of § 46.2-730.

8. Taxicabs.

9. Motor vehicles with specially designed equipment for use by the handicapped, which shall not be valued in relation to their initial cost, but by determining their actual market value if offered for sale on the open market.

10. Motorcycles, mopeds, all-terrain vehicles, and off-road motorcycles as defined in § 46.2-100, campers and other recreational vehicles, which shall be valued by means of a recognized pricing guide or a percentage or percentages of original cost.

11. Boats weighing under five tons and boat trailers, which shall be valued by means of a recognized pricing guide or a percentage or percentages of original cost.

12. Boats or watercraft weighing five tons or more, which shall be valued by means of a percentage or percentages of original cost.

13. Aircraft, which shall be valued by means of a recognized pricing guide or a percentage or percentages of original cost.

14. Household goods and personal effects, except as exempted under § 58.1-3504.

15. Tangible personal property used in a research and development business, which shall be valued by means of a percentage or percentages of original cost.

16. Programmable computer equipment and peripherals used in business which shall be valued by means of a percentage or percentages of original cost to the taxpayer, or by such other method as may reasonably be expected to determine the actual fair market value.

17. Computer equipment and peripherals used in a data center, as defined in subdivision A 43 of § 58.1-3506, which shall be valued by means of a percentage or percentages of original cost, or by such other method as may reasonably be expected to determine the actual fair market value.

18. All tangible personal property employed in a trade or business other than that described in subdivisions 1 through 17, which shall be valued by means of a percentage or percentages of original cost.

19. Outdoor advertising signs regulated under Article 1 (§ 33.2-1200 et seq.) of Chapter 12 of Title 33.2.

20. All other tangible personal property.

B. Methods of valuing property may differ among the separate categories, so long as each method used is uniform within each category, is consistent with requirements of this section and may reasonably be expected to determine actual fair market value as determined by the commissioner of revenue or other assessing official; however, assessment ratios shall only be used with the concurrence of the local governing body. A commissioner of revenue shall upon request take into account the condition of the property. The term "condition of the property" includes, but is not limited to, technological obsolescence of property where technological obsolescence is an appropriate factor for valuing such property. The commissioner of revenue shall make available to taxpayers on request a reasonable description of his valuation methods. Such commissioner, or other assessing officer, or his authorized agent, when using a recognized pricing guide as provided for in this section, may automatically extend the assessment if the pricing information is stored in a computer. *For any locality in which the commissioner of revenue or other assessing official adjusts the valuation of property described in subdivision A 3 to account for the amount of mileage on such vehicles, such adjustment shall also be provided to motorcycles described in subdivision A 10.*

CHAPTER 656

An Act to amend and reenact § 22.1-298.1 of the Code of Virginia, relating to the Board of Education; provisional teacher licensure; teachers licensed or certified outside of the United States.

[H 979]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 22.1-298.1 of the Code of Virginia is amended and reenacted as follows:

§ 22.1-298.1. Regulations governing licensure.

A. As used in this section:

"Alternate route to licensure" means a nontraditional route to teacher licensure available to individuals who meet the criteria specified in the guidelines developed pursuant to subsection N or regulations issued by the Board of Education.

"Industry certification credential" means an active career and technical education credential that is earned by successfully completing a Board of Education-approved industry certification examination, being issued a professional license in the Commonwealth, or successfully completing an occupational competency examination.

"Licensure by reciprocity" means a process used to issue a license to an individual coming into the Commonwealth from another state when that individual meets certain conditions specified in the Board of Education's regulations.

"Professional teacher's assessment" means those tests mandated for licensure as prescribed by the Board of Education.

"Provisional license" means a nonrenewable license issued by the Board of Education for a specified period of time, not to exceed three years, to an individual who may be employed by a school division in the Commonwealth and who generally meets the requirements specified in the Board of Education's regulations for licensure, but who may need to take additional coursework, pass additional assessments, or meet alternative evaluation standards to be fully licensed with a renewable license.

"Renewable license" means a license issued by the Board of Education for 10 years to an individual who meets the requirements specified in the Board of Education's regulations.

B. The Board of Education shall prescribe, by regulation, the requirements for the licensure of teachers and other school personnel required to hold a license. Such regulations shall include procedures for (i) the denial, suspension, cancellation, revocation, and reinstatement of licensure; (ii) written reprimand of license holders on grounds established by the Board, in accordance with law, notice of which shall be made by the Superintendent of Public Instruction to division superintendents or their designated representatives; and (iii) the immediate and thorough investigation by the division

superintendent or his designee of any complaint alleging that a license holder has engaged in conduct that may form the basis for the revocation of his license. At a minimum, such procedures for investigations contained in such regulations shall require (a) the division superintendent to petition for the revocation of the license upon completing such investigation and finding that there is reasonable cause to believe that the license holder has engaged in conduct that forms the basis for revocation of a license; (b) the school board to proceed to a hearing on such petition for revocation within 90 days of the mailing of a copy of the petition to the license holder, unless the license holder requests the cancellation of his license in accordance with Board regulations; and (c) the school board to provide a copy of the investigative file and such petition for revocation to the Superintendent of Public Instruction at the time that the hearing is scheduled. The Board of Education shall revoke the license of any person for whom it has received a notice of dismissal or resignation pursuant to subsection F of § 22.1-313 and, in the case of a person who is the subject of a founded complaint of child abuse or neglect, after all rights to any administrative appeal provided by § 63.2-1526 have been exhausted. Regardless of the authority of any other agency of the Commonwealth to approve educational programs, only the Board of Education shall have the authority to license teachers to be regularly employed by school boards, including those teachers employed to provide nursing education.

The Board of Education shall prescribe by regulation the licensure requirements for teachers who teach only online courses, as defined in § 22.1-212.23. Such license shall be valid only for teaching online courses. Teachers who hold a 10-year renewable license issued by the Board of Education may teach online courses for which they are properly endorsed.

C. The Board of Education's regulations shall include requirements that a person seeking initial licensure:

1. Demonstrate proficiency in the relevant content area, communication, literacy, and other core skills for educators by achieving a qualifying score on professional assessments or meeting alternative evaluation standards as prescribed by the Board;

2. Complete study in attention deficit disorder;

3. Complete study in gifted education, including the use of multiple criteria to identify gifted students; and

4. Complete study in methods of improving communication between schools and families and ways of increasing family involvement in student learning at home and at school.

D. In addition, such regulations shall include requirements that:

1. Every person seeking initial licensure and persons seeking licensure renewal as teachers who have not completed such study shall complete study in child abuse recognition and intervention in accordance with curriculum guidelines developed by the Board of Education in consultation with the Department of Social Services that are relevant to the specific teacher licensure routes;

2. Every person seeking renewal of a license shall complete all renewal requirements, including professional development in a manner prescribed by the Board, except that no person seeking renewal of a license shall be required to satisfy any such requirement by completing coursework and earning credit at an institution of higher education;

3. Every person seeking initial licensure or renewal of a license shall provide evidence of completion of certification or training in emergency first aid, cardiopulmonary resuscitation, and the use of automated external defibrillators. The certification or training program shall (i) be based on the current national evidence-based emergency cardiovascular care guidelines for cardiopulmonary resuscitation and the use of an automated external defibrillator, such as a program developed by the American Heart Association or the American Red Cross, and (ii) include hands-on practice of the skills necessary to perform cardiopulmonary resuscitation. The Board shall provide a waiver for this requirement for any person with a disability whose disability prohibits such person from completing the certification or training;

4. Every person seeking licensure with an endorsement as a teacher of the blind and visually impaired shall demonstrate proficiency in reading and writing Braille;

5. Every teacher seeking an initial license in the Commonwealth with an endorsement in the area of career and technical education shall have an industry certification credential in the area in which the teacher seeks endorsement. If a teacher seeking an initial license in the Commonwealth has not attained an industry certification credential in the area in which the teacher seeks endorsement, the Board may, upon request of the employing school division or educational agency, issue the teacher a provisional license to allow time for the teacher to attain such credential;

6. Every person seeking initial licensure or renewal of a license shall complete awareness training, provided by the Department of Education, on the indicators of dyslexia, as that term is defined by the Board pursuant to regulations, and the evidence-based interventions and accommodations for dyslexia;

7. Every person seeking initial licensure or renewal of a license with an endorsement as a school counselor shall complete training in the recognition of mental health disorder and behavioral distress, including depression, trauma, violence, youth suicide, and substance abuse;

8. Every person seeking initial licensure as a teacher who has not received the instruction described in subsection D of § 23.1-902 shall receive instruction or training on positive behavior interventions and supports; crisis prevention and de-escalation; the use of physical restraint and seclusion, consistent with regulations of the Board of Education; and appropriate alternative methods to reduce and prevent the need for the use of physical restraint and seclusion;

9. Every person seeking initial licensure or renewal of a license shall complete instruction or training in cultural competency;

10. Every person seeking initial licensure or renewal of a license with an endorsement in history and social sciences shall complete instruction in African American history, as prescribed by the Board; and

11. Every person seeking renewal of a license as a teacher shall complete training in the instruction of students with disabilities that includes (i) differentiating instruction for students depending on their needs; (ii) understanding the role of general education teachers on the individualized education program team; (iii) implementing effective models of collaborative instruction, including co-teaching; and (iv) understanding the goals and benefits of inclusive education for all students.

E. No teacher who seeks a provisional license shall be required to meet any requirement set forth in subdivision D 1, 3, 6, or 8 as a condition of such licensure, but each such teacher shall complete each such requirement during the first year of provisional licensure.

F. The Board shall issue a license to an individual seeking initial licensure who has not completed professional assessments as prescribed by the Board, if such individual (i) holds a provisional license that will expire within three months or, at the discretion of the school board and division superintendent, within six months if the individual has received a satisfactory mid-year performance review in the current school year; (ii) is employed by a school board; (iii) is recommended for licensure by the division superintendent; (iv) has attempted, unsuccessfully, to obtain a qualifying score on the professional assessments as prescribed by the Board; (v) has received an evaluation rating of proficient or above on the performance standards for each year of the provisional license, and such evaluation was conducted in a manner consistent with the Guidelines for Uniform Performance Standards and Evaluation Criteria for Teachers, Principals, and Superintendents; and (vi) meets all other requirements for initial licensure.

G. Each local school board or division superintendent may waive for any individual whom it seeks to employ as a career and technical education teacher and who is also seeking initial licensure or renewal of a license with an endorsement in the area of career and technical education any applicable requirement set forth in subsection C or subdivision D 2, 4, or 6.

H. The Board's regulations shall require that initial licensure for principals and assistant principals be contingent upon passage of an assessment as prescribed by the Board.

I. The Board shall establish criteria in its regulations to effectuate the substitution of experiential learning for coursework for those persons seeking initial licensure through an alternate route as defined in Board regulations. Such alternate routes shall include eligibility for any individual to receive, notwithstanding any provision of law to the contrary, a renewable one-year license to teach in public high schools in the Commonwealth if he has:

1. Received a graduate degree from a regionally accredited institution of higher education;

2. Completed at least 30 credit hours of teaching experience as an instructor at a regionally accredited institution of higher education;

3. Received qualifying scores on the professional teacher's assessments prescribed by the Board, including the communication and literacy assessment and the content-area assessment for the endorsement sought; and

4. Met the requirements set forth in subdivisions D 1 and 3.

J. Notwithstanding any provision of law to the contrary, the Board (i) may provide for the issuance of a provisional license, valid for a period not to exceed three years, pursuant to subdivision D 5 or to any person who does not meet the requirements of this section or any other requirement for licensure imposed by law ~~and~~; (ii) shall provide for the issuance of a provisional license, valid for a period not to exceed three years, to any former member of the Armed Forces of the United States or the Virginia National Guard who has received an honorable discharge and has the appropriate level of experience or training but does not meet the requirements for a renewable license; *and (iii) may provide for the issuance of a provisional license, valid for a period not to exceed three years, to any individual who has held within the last five years a valid and officially issued and recognized license or certification to teach issued by an entity outside of the United States but does not meet the requirements for a renewable license if the individual's license or certification to teach has been evaluated and verified by an entity approved by the Department.*

K. The Board's licensure regulations shall also provide for licensure by reciprocity:

1. With comparable endorsement areas for those individuals holding a valid out-of-state teaching license and national certification from the National Board for Professional Teaching Standards or a nationally recognized certification program approved by the Board of Education. The application for such individuals shall require evidence of such valid licensure and national certification and shall not require official student transcripts;

2. For any spouse of an active duty member of the Armed Forces of the United States or the Commonwealth who has obtained a valid out-of-state license, with full credentials and without deficiencies, that is in force at the time the application for a Virginia license is received by the Department of Education. Each such individual shall establish a file in the Department of Education by submitting a complete application packet, which shall include official student transcripts. No service requirements or licensing assessments shall be required for any such individual; and

3. For individuals who have obtained a valid out-of-state license, with full credentials and without deficiencies, that is in force at the time the application for a Virginia license is received by the Department of Education. Each such individual shall establish a file in the Department of Education by submitting a complete application packet, which shall include official student transcripts. No service requirements or licensing assessments shall be required for any such individual.

L. The Board shall include in its regulations an alternate route to licensure for elementary education preK-6 and an alternate route to licensure for special education general curriculum K-12. Each such alternate route to licensure shall require individuals to (i) meet the qualifying scores on the content area assessment prescribed by the Board for the endorsements sought and (ii) complete an alternative certification program that provides training in the pedagogy and methodology of the respective content or special education areas prescribed by the Board. The curriculum of any such

alternative certification program shall be approved by the Board. Nothing in this subsection shall preclude the Board from establishing other alternate routes to licensure.

M. The Board, in its regulations providing for licensure by reciprocity established pursuant to subsection K, shall (i) permit applicants to submit third-party employment verification forms and (ii) grant special consideration to individuals who have successfully completed a program offered by a provider that is accredited by the Council for the Accreditation of Educator Preparation.

N. The Board shall develop guidelines that establish a process to permit a school board or any organization sponsored by a school board to petition the Board for approval of an alternate route to licensure that may be used to meet the requirements for a provisional or renewable license or any endorsement. Any such alternate route may include alternatives to the regulatory requirements for teacher preparation, including alternative professional assessments and coursework. The petitioner may proffer or the Board may impose conditions in conjunction with the approval of such petition.

The application for such individuals shall require evidence of such valid licensure and national certification and shall not require official student transcripts;

2. For any spouse of an active duty member of the Armed Forces of the United States or the Commonwealth who has obtained a valid out-of-state license, with full credentials and without deficiencies, that is in force at the time the application for a Virginia license is received by the Department of Education. Each such individual shall establish a file in the Department of Education by submitting a complete application packet, which shall include official student transcripts. No service requirements or licensing assessments shall be required for any such individual.

L. The Board shall include in its regulations an alternate route to licensure for elementary education preK-6 and an alternate route to licensure for special education general curriculum K-12. Each such alternate route to licensure shall require individuals to (i) meet the qualifying scores on the content area assessment prescribed by the Board for the endorsements sought and (ii) complete an alternative certification program that provides training in the pedagogy and methodology of the respective content or special education areas prescribed by the Board. The curriculum of any such alternative certification program shall be approved by the Board. Nothing in this subsection shall preclude the Board from establishing other alternate routes to licensure.

Such governing body may levy and provide for the assessment and collection of county, city or town license taxes on businesses, trades, professions, occupations and callings and upon the persons, firms and corporations engaged therein within the county, city or town subject to the limitations in (i) subsection C and (ii) subsection A of § 58.1-3706, provided such tax shall not be assessed and collected on any amount of gross receipts of each business upon which a license fee is charged. Any county, city or town with a population greater than 50,000 shall reduce the fee to an amount not to exceed \$50 by January 1, 2000. The ordinance imposing such license fees and levying such license taxes shall include the provisions of § 58.1-3703.1.

B. Any county, city or town by ordinance may exempt in whole or in part from the license tax (i) the design, development or other creation of computer software for lease, sale or license and (ii) private businesses and industries entering into agreements for the establishment, installation, renovation, remodeling, or construction of satellite classrooms for grades kindergarten through three on a site owned by the business or industry and leased to the school board at no costs pursuant to § 22.1-26.1.

3. 4. On a manufacturer for the privilege of manufacturing and selling goods, wares and merchandise at wholesale at the place of manufacture. 6. Upon a wholesaler for the privilege of selling goods, wares and merchandise to other persons for resale unless such wholesaler has a definite place of business or store in such county, city or town. 7. Upon any person, firm or corporation for engaging in the business of renting, as the owner of such property, real property other than hotels, motels, motor lodges, auto courts, tourist courts, travel trailer parks, campgrounds, bed and breakfast establishments, lodging houses, rooming houses, and boardinghouses; however, any county, city or town imposing such a license tax on January 1, 1974, shall not be precluded from the levy of such tax by the provisions of this subdivision;

This exclusion shall not exempt affiliated entities from such license or other tax measured by receipts or purchases from outside the affiliated group. This exclusion also shall not preclude a locality from levying a wholesale merchant's license tax on an affiliated entity on those sales by the affiliated entity to a nonaffiliated entity, notwithstanding the fact that the wholesale merchant's license tax would be based upon purchases from an affiliated entity. Such tax shall be based on the purchase price of the goods sold to the nonaffiliated entity. 18. a. On or measured by receipts of a nonprofit organization described in Internal Revenue Code § 501(c)(3) or 501(c)(19) except to the extent the organization has receipts from an unrelated trade or business the income of which is taxable under Internal Revenue Code § 511 et seq. For the purpose of this subdivision, "nonprofit organization" means an organization that is described in Internal Revenue Code § 501(c)(3) or 501(c)(19), and to which contributions are deductible by the contributor under Internal Revenue Code § 170, except that educational institutions exempt from federal income tax under Internal Revenue Code § 501(c)(3) shall be limited to schools, colleges, and other similar institutions of learning.
b. On or measured by gifts, contributions, and membership dues of a nonprofit organization. Activities conducted for consideration that are similar to activities conducted for consideration by for-profit businesses shall be presumed to be activities that are part of a business subject to licensure. For the purpose of this subdivision, "nonprofit organization" means

an organization exempt from federal income tax under Internal Revenue Code § 501 other than the nonprofit organizations described in subdivision a;

For purposes of this subsection, a "qualifying business" is a business that locates for the first time in the locality adopting such ordinance. A business shall not be deemed to locate in such locality for the first time based on merger, acquisition, similar business combination, name change, or a change in business form. Any incentive established pursuant to this subsection may extend for a period not to exceed two years from the date the business locates in such locality. The business license incentive program may include (i) an exemption, in whole or in part, of license taxes for any qualifying business; (ii) a refund or rebate, in whole or in part, of license taxes paid by a qualifying business; or (iii) other relief from license taxes for a qualifying business not prohibited by state or federal law.

E. For taxable years beginning on or after January 1, 2012, any locality may exempt, by ordinance, license fees or license taxes on any business that does not have an after-tax profit for the taxable year and offers the income tax return of the business as proof to the local commissioner of the revenue. 2. The scrap metal purchaser shall record the seller's identification information, as well as the time and date of the transaction, the license number of the seller's vehicle, and a description of the items received from the seller, in a permanent ledger maintained at the scrap metal purchaser's place of business. The ledger shall be made available upon request to any law-enforcement official, conservator of the peace, or special conservator of the peace appointed pursuant to § 19.2-13, in the performance of his duties who presents his credentials at the scrap metal purchaser's normal business location during regular business hours. Records required by this subdivision shall be maintained by the scrap metal dealer at its normal place of business or at another readily accessible and secure location for at least five years.

B. Upon compliance with the other requirements of this section and § 59.1-136.4, a scrap metal purchaser may purchase proprietary articles from a person who is not an authorized scrap seller or the authorized agent and employee of an authorized scrap seller if the scrap metal purchaser complies with one of the following:

1. The scrap metal purchaser receives from the person seeking to sell the proprietary articles documentation, such as a bill of sale, receipt, letter of authorization, or similar evidence, establishing that the person lawfully possesses the proprietary articles to be sold; or

2. The scrap metal purchaser shall document a diligent inquiry into whether the person selling or delivering the same has a legal right to do so, and, after purchasing a proprietary article from a person without obtaining the documentation described in subdivision 1, shall submit a report to the local sheriff's department or the chief of police of the locality, by the close of the following business day, describing the proprietary article and including a copy of the seller's identifying information, and hold the proprietary article for not less than 15 days following purchase.

C. The scrap metal purchaser shall take a photographic or video image of all proprietary articles purchased from anyone other than an authorized scrap seller. Such image shall be of sufficient quality so as to reasonably identify the subject of the image and shall be maintained by the scrap metal purchaser no less than 30 days from the date the image is taken. Any image taken and maintained in accordance with this subdivision shall be made available upon the request of any law-enforcement officer conducting official law-enforcement business.

D. The scrap metal purchaser may purchase nonferrous scrap, metal articles, and proprietary articles directly from an authorized scrap seller and from the authorized agent or employee of an authorized scrap seller.

E. For purchases of a catalytic converter or the parts thereof, a scrap metal purchaser shall adhere to the compliance provisions of subdivisions B 1 and 2. Copies of the documentation required under subdivisions B 1 and 2 shall (i) establish that the person from whom the scrap metal purchaser purchased the catalytic converter or the parts thereof had the lawful possession of such catalytic converter or the parts thereof at the time of sale or delivery and (ii) detail the scrap metal purchaser's diligent inquiry into whether such person selling or delivering the catalytic converter or the parts thereof had a legal right to do so. Such documentation shall be maintained by the scrap metal purchaser at his normal place of business

or at another readily accessible and secure location for at least two years after the purchase. Such copies shall be made available upon request to any law-enforcement officer, conservator of the peace, or special conservator of the peace appointed pursuant to § 19.2-13 in the performance of his duties who presents his credentials at the scrap metal purchaser's normal business location during normal business hours.

2. That the provisions of this act may result in a net increase in periods of imprisonment or commitment. Pursuant to § 30-19.1:4 of the Code of Virginia, the estimated amount of the necessary appropriation cannot be determined for periods of imprisonment in state adult correctional facilities; therefore, Chapter 552 of the Acts of Assembly of 2021, Special Session I, requires the Virginia Criminal Sentencing Commission to assign a minimum fiscal impact of \$50,000. Pursuant to § 30-19.1:4 of the Code of Virginia, the estimated amount of the necessary appropriation cannot be determined for periods of commitment to the custody of the Department of Juvenile Justice.

A. Except as provided in § 59.1-136.4, scrap metal purchasers may purchase nonferrous scrap, metal articles, and proprietary articles from any person who is not an authorized scrap seller or the authorized agent and employee of an authorized scrap seller only in accordance with the following requirements and procedures:

2. The scrap metal purchaser shall record the seller's identification information, as well as the time and date of the transaction, the license number of the seller's vehicle, and a description of the items received from the seller, in a permanent ledger maintained at the scrap metal purchaser's place of business. The ledger shall be made available upon request to any law-enforcement official, conservator of the peace, or special conservator of the peace appointed pursuant to § 19.2-13, in the performance of his duties who presents his credentials at the scrap metal purchaser's normal business location during regular business hours. Copies of the documentation required under subdivisions B 1 and 2 shall (i) establish that the person from whom the scrap metal purchaser purchased the catalytic converter or the parts thereof had the lawful possession of such catalytic converter or the parts thereof at the time of sale or delivery and (ii) detail the scrap metal purchaser's diligent inquiry into whether such person selling or delivering the catalytic converter or the parts thereof had a legal right to do so. Such documentation shall be maintained by the scrap metal purchaser at his normal place of business or at another readily accessible and secure location for at least two years after the purchase. Such copies shall be made available upon request to any law-enforcement officer, conservator of the peace, or special conservator of the peace appointed pursuant to § 19.2-13 in the performance of his duties who presents his credentials at the scrap metal purchaser's normal business location during normal business hours.

2. That the provisions of this act may result in a net increase in periods of imprisonment or commitment. CHAPTER 667

An Act to amend and reenact § 54.1-2957.01 of the Code of Virginia, relating to nurse practitioners; patient care team physician supervision capacity increased.

[S 414]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 54.1-2957.01 of the Code of Virginia is amended and reenacted as follows:

§ 54.1-2957.01. Prescription of certain controlled substances and devices by licensed nurse practitioners.

A. In accordance with the provisions of this section and pursuant to the requirements of Chapter 33 (§ 54.1-3300 et seq.), a licensed nurse practitioner shall have the authority to prescribe Schedule II through Schedule VI controlled substances and devices as set forth in Chapter 34 (§ 54.1-3400 et seq.).

B. A nurse practitioner who does not meet the requirements for practice without a written or electronic practice agreement set forth in subsection I of § 54.1-2957 shall prescribe controlled substances or devices only if such prescribing is authorized by a written or electronic practice agreement entered into by the nurse practitioner and a patient care team physician. Such nurse practitioner shall provide to the Boards of Medicine and Nursing such evidence as the Boards may jointly require that the nurse practitioner has entered into and is, at the time of writing a prescription, a party to a written or electronic practice agreement with a patient care team physician that clearly states the prescriptive practices of the nurse practitioner. Such written or electronic practice agreements shall include the controlled substances the nurse practitioner is or is not authorized to prescribe and may restrict such prescriptive authority as described in the practice agreement. Evidence of a practice agreement shall be maintained by a nurse practitioner pursuant to § 54.1-2957. Practice agreements authorizing a nurse practitioner to prescribe controlled substances or devices pursuant to this section either shall be signed by the patient care team physician or shall clearly state the name of the patient care team physician who has entered into the practice agreement with the nurse practitioner.

It shall be unlawful for a nurse practitioner to prescribe controlled substances or devices pursuant to this section unless (i) such prescription is authorized by the written or electronic practice agreement or (ii) the nurse practitioner is authorized to practice without a written or electronic practice agreement pursuant to subsection I of § 54.1-2957.

C. The Boards of Medicine and Nursing shall promulgate regulations governing the prescriptive authority of nurse practitioners as are deemed reasonable and necessary to ensure an appropriate standard of care for patients. Such regulations shall include requirements as may be necessary to ensure continued nurse practitioner competency, which may include continuing education, testing, or any other requirement, and shall address the need to promote ethical practice, an appropriate standard of care, patient safety, the use of new pharmaceuticals, and appropriate communication with patients.

D. This section shall not limit the functions and procedures of certified registered nurse anesthetists or of any nurse practitioners which are otherwise authorized by law or regulation.

E. The following restrictions shall apply to any nurse practitioner authorized to prescribe drugs and devices pursuant to this section:

1. The nurse practitioner shall disclose to the patient at the initial encounter that he is a licensed nurse practitioner. Any party to a practice agreement shall disclose, upon request of a patient or his legal representative, the name of the patient care team physician and information regarding how to contact the patient care team physician.

2. Physicians shall not serve as a patient care team physician on a patient care team at any one time to more than six nurse practitioners, *except that a physician may serve as a patient care team physician on a patient care team with up to 10 nurse practitioners licensed in the category of psychiatric-mental health nurse practitioner.*

F. This section shall not prohibit a licensed nurse practitioner from administering controlled substances in compliance with the definition of "administer" in § 54.1-3401 or from receiving and dispensing manufacturers' professional samples of controlled substances in compliance with the provisions of this section.

G. Notwithstanding any provision of law or regulation to the contrary, a nurse practitioner licensed by the Boards of Medicine and Nursing in the category of certified nurse midwife or clinical nurse specialist and holding a license for prescriptive authority may prescribe Schedules II through VI controlled substances. However, if the nurse practitioner licensed by the Boards of Medicine and Nursing in the category of certified nurse midwife or clinical nurse specialist is required, pursuant to subsection H or J of § 54.1-2957, to practice pursuant to a practice agreement, such prescribing shall also be in accordance with any prescriptive authority included in such practice agreement.

H. Notwithstanding any provision of law or regulation to the contrary, a nurse practitioner licensed by the Boards of Medicine and Nursing as a certified registered nurse anesthetist shall have the authority to prescribe Schedule II through Schedule VI controlled substances and devices in accordance with the requirements for practice set forth in subsection C of § 54.1-2957 to a patient requiring anesthesia, as part of the periprocedural care of such patient. As used in this subsection, "periprocedural" means the period beginning prior to a procedure and ending at the time the patient is discharged.

CHAPTER 668

An Act to amend and reenact §§ 60.2-110, 60.2-116, 60.2-612, 60.2-613, 60.2-619, as it is currently effective and as it shall become effective, and 60.2-631 of the Code of Virginia, relating to unemployment compensation; benefit eligibility.

[H 652]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 60.2-110, 60.2-116, 60.2-612, 60.2-613, 60.2-619, as it is currently effective and as it shall become effective, and 60.2-631 of the Code of Virginia are amended and reenacted as follows:

§ 60.2-110. State Job Service and Unemployment Insurance Services Division.

The Commission may establish two coordinate divisions: the Virginia State Job Service, created pursuant to § 60.2-400, and the Unemployment Insurance Services Division. Each division shall be responsible for the discharge of its distinctive functions. Each division shall be a separate administrative unit, with respect to personnel, budget, and duties, except insofar as the Commission may find that such separation is impracticable. In lieu, however, of establishing the two divisions the Commission may cooperate with and utilize the personnel and services of employment offices or services operated by the United States or any of its authorized agencies but only to the extent necessary for the federal employment offices or services to perform the functions imposed upon employment offices by § 60.2-601 and subdivision A 5 of § 60.2-612.

§ 60.2-116. Reciprocal agreements.

A. Subject to the approval of the Governor, the Commission is hereby authorized to enter into arrangements with the appropriate agencies of other states or the federal government whereby individuals performing services in this and other states for a single employing unit under circumstances not specifically provided for in §§ 60.2-212 through 60.2-219, or under similar provisions in the unemployment compensation laws of such other states, shall be deemed to be engaged in employment performed entirely within this Commonwealth or within one of such other states. Such arrangements may set forth terms whereby the potential right to benefits accumulated under the unemployment compensation laws of one or more states or under such a law of the federal government, or both, may constitute the basis for the payment of benefits through a single appropriate agency of any state under terms which the Commission finds will be fair and reasonable as to all affected interests and will not result in any substantial loss to the fund.

B. Subject to the approval of the Governor, the Commission is also authorized to enter into arrangements with the appropriate agencies of other states or of the federal government:

1. a. Whereby wages or services, upon the basis of which an individual may become entitled to benefits under the unemployment compensation law of another state or of the federal government, shall be deemed to be wages for employment by employers for the purposes of §§ 60.2-602, 60.2-606, 60.2-607, 60.2-609, 60.2-610, 60.2-611, subdivision A 1 of § 60.2-612 and §§ 60.2-614 through 60.2-617, provided such other state agency or agency of the federal government has agreed to reimburse the fund for such portion of benefits paid under this title upon the basis of such wages or services as the Commission finds will be fair and reasonable as to all affected interests; and

b. Whereby the Commission will reimburse other state or federal agencies charged with the administration of unemployment compensation laws with such reasonable portion of benefits, paid under the law of any such other states or of the federal government upon the basis of employment or wages for employment by employers, as the Commission finds will be fair and reasonable as to all affected interests.

2. Reimbursements so payable under subdivision 1 b of this subsection shall be deemed to be benefits for the purposes of §§ 60.2-300 through 60.2-304, but no reimbursement so payable shall be charged against any employer's account for the purposes of §§ 60.2-526 through 60.2-531. The Commission is hereby authorized to make to other state or federal agencies and receive from such other state or federal agencies, reimbursements from or to the fund, in accordance with arrangements pursuant to this section.

C. Subject to the approval of the Governor, the Commission is also authorized to enter into arrangements with the appropriate agencies of other states or of the federal government:

1. Whereby the Commission may deduct, in accordance with the provisions of § 60.2-633, from unemployment benefits otherwise payable to an individual an amount equal to any overpayment made to such individual under an unemployment benefit program of the United States or of any other state, and not previously recovered. The amount so deducted shall be paid to the jurisdiction under whose program such overpayment was made and in accordance with the arrangement between the Commission and the jurisdiction.

2. Whereby the United States agrees to allow the Commission to recover from unemployment benefits otherwise payable to an individual under an unemployment benefit program of the United States any overpayments made by the Commission to such individual under this title and not previously recovered, in accordance with the same procedures that apply under subdivision 1 of this subsection.

3. The amendments made by this subsection shall apply to recoveries made on or after July 1, 1987, and shall apply with respect to overpayments made before, on, or after such date.

§ 60.2-612. Benefit eligibility conditions.

A. An unemployed individual shall be eligible to receive benefits for any week only if the Commission finds that:

1. He has, in the highest two quarters of earnings within his base period, been paid wages in employment for employers that are equal to not less than the lowest amount appearing in Column A of the "Benefit Table" appearing in § 60.2-602 on the line which extends through Division C and on which in Column B of the "Benefit Table" appears his weekly benefit amount. Such wages shall be earned in not less than two quarters.

2. a. His total or partial unemployment is not due to a labor dispute in active progress or to shutdown or start-up operations caused by such dispute which exists (i) at the factory, establishment, or other premises, including a vessel, at which he is or was last employed, or (ii) at a factory, establishment or other premises, including a vessel, either within or without this Commonwealth, which (a) is owned or operated by the same employing unit which owns or operates the premises at which he is or was last employed and (b) supplies materials or services necessary to the continued and usual operation of the premises at which he is or was last employed. This subdivision shall not apply if it is shown to the satisfaction of the Commission that:

(1) He is not participating in or financing or directly interested in the labor dispute; and

(2) He does not belong to a grade or class of workers of which, immediately before the commencement of the labor dispute, there were members employed at the premises, including a vessel, at which the labor dispute occurs, any of whom are participating in or financing or directly interested in the dispute.

b. If separate branches of work which are commonly conducted as separate businesses at separate premises are conducted in separate departments of the same premises, each such department shall, for the purposes of this subdivision, be deemed to be a separate factory, establishment or other premises. Membership in a union, or the payment of regular dues to a bona fide labor organization, however, shall not alone constitute financing a labor dispute.

3. He is not receiving, has not received or is not seeking unemployment benefits under an unemployment compensation law of any other state or of the United States; however, if the appropriate agency of such other state or of the United States finally determines that he is not entitled to such unemployment benefits, this subdivision shall not apply.

4. He is not on a bona fide paid vacation. If an individual is paid vacation pay for any week in an amount less than the individual's weekly benefit amount his eligibility for benefits shall be computed under the provisions of § 60.2-603.

5. He has registered for work and thereafter has continued to report at an employment office in accordance with such regulations as the Commission may prescribe. The Commission may, by regulation, waive or alter either or both of the requirements of this subdivision for certain types of cases when it finds that compliance with such requirements would be oppressive, or would be inconsistent with the purposes of this title.

6. He has made a claim for benefits in accordance with regulations the Commission may prescribe.

7. a. He is able to work, is available for work, and is actively seeking and unable to obtain suitable work. Every claimant who is totally unemployed shall report to the Commission the names of employers contacted each week in his

effort to obtain work. This information may be subject to employer verification by the Commission through a program designed for that purpose. The Commission may determine that registration by a claimant with the Virginia State Job Service may constitute a valid employer contact and satisfy the search for work requirement of this subsection in labor market areas where job opportunities are limited. The Commission may determine that an individual, whose usual and customary means of soliciting work in his occupation is through contact with a single hiring hall which makes contacts with multiple employers on behalf of the claimant, meets the requirement that he be actively seeking and unable to obtain suitable work by contacting that hiring hall alone. In areas of high unemployment, as determined by the Commission, the Commission has the authority to adjust the requirement that he be actively seeking and unable to obtain suitable work.

b. An individual who leaves the normal labor market area of the individual for the major portion of any week is presumed to be unavailable for work within the meaning of this section. This presumption may be overcome if the individual establishes to the satisfaction of the Commission that the individual has conducted a bona fide search for work and has been reasonably accessible to suitable work in the labor market area in which the individual spent the major portion of the week to which the presumption applies.

c. An individual whose type of work is such that it is performed by individuals working two or more shifts in a 24-hour period shall not be deemed unavailable for work if the individual is currently enrolled in one or more classes of education related to employment or is continuing in a certificate or degree program at an institution of higher education, provided that the enrollment would only limit the individual's availability for one shift and the individual is otherwise available to work any of the other shifts.

8. He has given notice of resignation to his employer and the employer subsequently made the termination of employment effective prior to the date of termination as given in the notice, but in no case shall unemployment compensation benefits awarded under this subdivision exceed two weeks; provided, that the claimant could not establish good cause for leaving work pursuant to § 60.2-618 and was not discharged for misconduct as provided in § 60.2-618.

9. Beginning January 6, 1991, he has served a waiting period of one week during which he was eligible for benefits under this section in all other respects and has not received benefits, except that only one waiting week shall be required of such individual within any benefit year. For claims filed effective November 28, 1999, and after, this requirement shall be waived for any individual whose unemployment was caused by his employer terminating operations, closing its business or declaring bankruptcy without paying the final wages earned as required by § 40.1-29 of the Code of Virginia. Notwithstanding any other provision of this title, if an employer who terminates operations, closes its business or declares bankruptcy pays an individual his final wages after the period of time prescribed by § 40.1-29 of the Code of Virginia, such payment shall not be offset against the benefits the individual was otherwise entitled to receive and shall not, under any circumstances, cause such individual to be declared overpaid benefits.

10. He is not imprisoned or confined in jail.

11. He participates in reemployment services, such as job search assistance services, if he has been determined to be likely to exhaust regular benefits and need reemployment services pursuant to a profiling system established by the Commission, unless the Commission determines that (i) such claimant has completed such services or (ii) there is good cause for such claimant's failure to participate in such services.

B. Prior to any individual receiving benefits under this chapter, the Commission shall conduct an incarceration check and an employment identification check to verify the status of the unemployed individual seeking a claim for benefits.

§ 60.2-613. Benefits not denied to individuals in training with approval of Commission.

A. No otherwise eligible individual shall be denied benefits for any week because he is in training with the approval of the Commission, including training under Section 134 of the Workforce Investment Act, nor shall such individual be denied benefits for any week in which he is in training with the approval of the Commission, including training under Section 134 of the Workforce Investment Act, by reason of the application of the provisions in subdivision A 7 of § 60.2-612 relating to availability for work, or the provisions of subdivision 3 of § 60.2-618 relating to failure to apply for, or a refusal to accept, suitable work.

B. Notwithstanding any other provisions of this chapter, no otherwise eligible individual shall be denied benefits for any week because he is in training approved under § 2296 of the Trade Act (19 U.S.C. § 2101 et seq.), nor shall such individual be denied benefits by reason of leaving work to enter such training, provided the work left is not suitable employment, or because of the application to any such week in training of provisions in this law (or any applicable federal unemployment compensation law), relating to availability for work, active search for work, or refusal to accept work.

C. For purposes of this section, "suitable employment" means, with respect to an individual, work of a substantially equal or higher skill level than the individual's past adversely affected employment, as defined for purposes of the Trade Act, and wages for such work at not less than eighty percent of the individual's average weekly wage as determined for the purposes of the Trade Act.

§ 60.2-619. (Effective until July 1, 2022) Determinations and decisions by deputy; appeals therefrom.

A. 1. A representative designated by the Commission as a deputy, shall promptly examine the claim. On the basis of the facts found by him, the deputy shall either:

a. Determine whether or not such claim is valid, and if valid, the week with respect to which benefits shall commence, the weekly benefit amount payable and the maximum duration thereof; or

b. Refer such claim or any question involved therein to any appeal tribunal or to the Commission, which tribunal or Commission shall make its determination in accordance with the procedure described in § 60.2-620.

2. When the payment or denial of benefits will be determined by the provisions of subdivision A 2 of § 60.2-612, the deputy shall promptly transmit his full finding of fact with respect to that subdivision to any appeal tribunal, which shall make its determination in accordance with the procedure described in § 60.2-620.

B. Upon the filing of an initial claim for benefits, the Commission shall cause an informatory notice of such filing to be mailed to the most recent 30-day or 240-hour employing unit of the claimant and all subsequent employing units, and any reimbursable employing units that may be liable for reimbursement to the Commission for any benefits paid. However, the failure to furnish such notice shall not have any effect upon the claim for benefits. If a claimant has had a determination of initial eligibility for benefits under this chapter, as evidenced by the issuance of compensation or waiting-week credit, payments shall continue, subject to a presumption of continued eligibility and in accordance with the terms of this subsection, until a determination is made that provides the claimant notice and an opportunity to be heard. When a question concerning continued eligibility for benefits arises, a determination shall be made as to whether it affects future weeks of benefits or only past weeks. With respect to future weeks, presumptive payment shall not be made until but no later than the end of the week following the week in which such issue arises, regardless of the type of issue. With respect to past weeks, presumptive payment shall be issued immediately, regardless of the type of issue. Notice shall be given to individuals who receive payments under such presumption that pending eligibility may affect their entitlement to the payment and may result in an overpayment that requires repayment.

C. Notice of determination upon a claim shall be promptly given to the claimant by delivering or by mailing such notice to the claimant's last known address. In addition, notice of any determination that involves the application of the provisions of § 60.2-618, together with the reasons therefor, shall be promptly given in the same manner to the most recent 30-day or 240-hour employing unit by whom the claimant was last employed and any subsequent employing unit which is a party. The Commission may dispense with the giving of notice of any determination to any employing unit, and such employing unit shall not be entitled to such notice if it has failed to respond timely or adequately to a written request of the Commission for information, as required by § 60.2-528.1, from which the deputy may have determined that the claimant may be ineligible or disqualified under any provision of this title. The deputy shall promptly notify the claimant of any decision made by him at any time which in any manner denies benefits to the claimant for one or more weeks.

D. Such determination or decision shall be final unless the claimant or any such employing unit files an appeal from such determination or decision (i) within 30 calendar days after the delivery of such notification, (ii) within 30 calendar days after such notification was mailed to his last known address, or (iii) within 30 days after such notification was mailed to the last known address of an interstate claimant. For good cause shown, the 30-day period may be extended.

E. Benefits shall be paid promptly in accordance with a determination or redetermination under this chapter, or decision of an appeal tribunal, the Commission, the Board of Review or a reviewing court under §§ 60.2-625 and 60.2-631 upon the issuance of such determination, redetermination or decision, regardless of the pendency of the period to file an appeal or petition for judicial review that is provided in this chapter, or the pendency of any such appeal or review. Such benefits shall be paid unless or until such determination, redetermination or decision has been modified or reversed by a subsequent redetermination or decision, in which event benefits shall be paid or denied for weeks of unemployment thereafter in accordance with such modifying or reversing redetermination or decision. If a decision of an appeal tribunal allowing benefits is affirmed in any amount by the Commission, benefits shall continue to be paid until such time as a court decision has become final so that no further appeal can be taken. If an appeal is taken from the Commission's decision, benefits paid shall result in a benefit charge to the account of the employer under § 60.2-530 only when, and as of the date on which, as the result of an appeal, the courts finally determine that the Commission should have awarded benefits to the claimant or claimants involved in such appeal.

§ 60.2-619. (Effective July 1, 2022) Determinations and decisions by deputy; appeals therefrom.

A. 1. A representative designated by the Commission as a deputy, shall promptly examine the claim. On the basis of the facts found by him, the deputy shall either:

a. Determine whether or not such claim is valid, and if valid, the week with respect to which benefits shall commence, the weekly benefit amount payable and the maximum duration thereof; or

b. Refer such claim or any question involved therein to any appeal tribunal or to the Commission, which tribunal or Commission shall make its determination in accordance with the procedure described in § 60.2-620.

2. When the payment or denial of benefits will be determined by the provisions of subdivision A 2 of § 60.2-612, the deputy shall promptly transmit his full finding of fact with respect to that subdivision to any appeal tribunal, which shall make its determination in accordance with the procedure described in § 60.2-620.

B. Upon the filing of an initial claim for benefits, the Commission shall cause an informatory notice of such filing to be mailed to the most recent 30-day or 240-hour employing unit of the claimant and all subsequent employing units, and any reimbursable employing units which may be liable for reimbursement to the Commission for any benefits paid. However, the failure to furnish such notice shall not have any effect upon the claim for benefits.

C. Notice of determination upon a claim shall be promptly given to the claimant by delivering or by mailing such notice to the claimant's last known address. In addition, notice of any determination which involves the application of the provisions of § 60.2-618, together with the reasons therefor, shall be promptly given in the same manner to the most recent 30-day or 240-hour employing unit by whom the claimant was last employed and any subsequent employing unit which is a party. The Commission may dispense with the giving of notice of any determination to any employing unit, and such employing unit shall not be entitled to such notice if it has failed to respond timely or adequately to a written request of the

Commission for information, as required by § 60.2-528.1, from which the deputy may have determined that the claimant may be ineligible or disqualified under any provision of this title. The deputy shall promptly notify the claimant of any decision made by him at any time which in any manner denies benefits to the claimant for one or more weeks.

D. Such determination or decision shall be final unless the claimant or any such employing unit files an appeal from such determination or decision (i) within 30 calendar days after the delivery of such notification, (ii) within 30 calendar days after such notification was mailed to his last known address, or (iii) within 30 days after such notification was mailed to the last known address of an interstate claimant. For good cause shown, the 30-day period may be extended.

E. Benefits shall be paid promptly in accordance with a determination or redetermination under this chapter, or decision of an appeal tribunal, the Commission, the Board of Review or a reviewing court under §§ 60.2-625 and 60.2-631 upon the issuance of such determination, redetermination or decision, regardless of the pendency of the period to file an appeal or petition for judicial review that is provided in this chapter, or the pendency of any such appeal or review. Such benefits shall be paid unless or until such determination, redetermination or decision has been modified or reversed by a subsequent redetermination or decision, in which event benefits shall be paid or denied for weeks of unemployment thereafter in accordance with such modifying or reversing redetermination or decision. If a decision of an appeal tribunal allowing benefits is affirmed in any amount by the Commission, benefits shall continue to be paid until such time as a court decision has become final so that no further appeal can be taken. If an appeal is taken from the Commission's decision, benefits paid shall result in a benefit charge to the account of the employer under § 60.2-530 only when, and as of the date on which, as the result of an appeal, the courts finally determine that the Commission should have awarded benefits to the claimant or claimants involved in such appeal.

§ 60.2-631. Board of Review.

A. The Commissioner, in his discretion, is hereby authorized to appoint a Board of Review consisting of three members, one of whom shall be designated chairman for a term of six years. The terms of the members first taking office shall be two, four, and six years, respectively, as designated by the Commissioner at the time of the appointment. Vacancies shall be filled by appointment by the Commissioner for the unexpired term. During his term of membership on the Board no member shall serve as an officer or committee member of any political organization. The members of the Board shall be compensated in a manner determined by the Commission. The Commission shall furnish the Board such stenographic and clerical assistance as the Board may require. All compensation of the members of the Board and all necessary expenses for the operation thereof shall be paid out of the administrative fund provided for in §§ 60.2-306 through 60.2-309 and §§ 60.2-311 through 60.2-313. The Commissioner may at any time, after notice and hearing, remove any member for cause. The Commissioner may, after thirty days' notice to the members of the Board and upon a finding that the Board is no longer needed, abolish the same.

B. 1. The Board shall meet upon the call of the chairman. It shall have the same powers and perform the same functions vested in the Commission in this title for review of decisions by an appeal tribunal, including the power to administer oaths and affirmations, take depositions, certify to official acts, and issue subpoenas to compel the attendance of witnesses and the production of books, papers, correspondence, memoranda and other records deemed necessary as evidence in connection with disputed claims.

2. The Board may hold its hearings in the county or city where the claimant was last employed, except that hearings involving the provisions of subdivision A 2 of § 60.2-612 shall be held in the county or city where the claimant was last employed. When the same or substantially similar evidence is relevant and material to matters in issue in claims by more than one individual or in claims by a single individual with respect to two or more weeks of unemployment, the same time and place for considering each such claim may be fixed, hearings thereon jointly conducted, and a single record of the proceedings made.

C. The Commission may issue such regulations as it deems necessary for the procedure of the Board in the conduct of its hearings. During the time the Board is organized under authority of the Commissioner, the Commission shall have no jurisdiction under § 60.2-622. Any decision of the Board shall become final ten days after the date of notification or mailing and judicial review shall be permitted the claimant, the Commission or any interested party claiming to be aggrieved. In any judicial action involving any such decision the Commission shall be represented by the Office of the Attorney General. Any decision of the Board from which no judicial review is sought within the time prescribed in § 60.2-625 shall be conclusive against any party to the hearing before the Board and the Commission in any subsequent judicial proceedings involving liability for taxes under this title.

D. Within the time specified in § 60.2-625 the Commission, or any party to the proceedings before the Board, may obtain judicial review by filing in the circuit court of the county or city in which the individual who filed the claim was last employed, in the Commonwealth, a petition for review of such decision. In any such proceeding any other party to the proceeding shall be made a party respondent. The Commission shall be deemed to be a party to any such proceeding. The petition need not be verified. A copy of such petition shall be served upon the Commission and each party to the proceeding held before the Board at least thirty days prior to the placing of the petition upon the docket. The mailing of a copy of such petition to each party at his last known address shall be sufficient service. The Commission shall file along with its petition or answer a certified copy of the record of the case, including all documents and papers and a transcript of all testimony taken in the matter, together with the Board's findings, conclusions and decision therein.

E. In any proceeding under this section the Board's findings of facts, if supported by the evidence and in the absence of fraud, shall be conclusive and the jurisdiction of the court shall be confined to questions of law. The court may order

additional evidence to be taken by the Board, which such additional evidence, findings of fact or conclusions, together with the additional transcript of the record, shall be certified by the chairman of the Board and filed by him with the court. Such petition for review shall be heard in a summary manner and shall have preference over all other cases on the docket, except cases in which the Commonwealth is a party.

F. An appeal may be taken from the decision of such court to the Court of Appeals in conformity with Part Five A of the Rules of Supreme Court and other applicable laws. From any such decision involving (i) the provisions of § 60.2-612 or § 60.2-618, (ii) whether an employing unit constitutes an employer or (iii) whether services performed for or in connection with the business of an employing unit constitute employment for such employing unit, the Court of Appeals shall have jurisdiction to review such decision regardless of the amount involved in any claim for benefits. It shall not be necessary, in any proceeding before the Board, to enter exceptions to its ruling, and no bond shall be required upon any appeal to any court. Upon the final determination of such judicial proceeding, the Board shall enter an order in accordance with such determination.

CHAPTER 688

An Act to amend and reenact § 10.1-1197.6 of the Code of Virginia, relating to small renewable energy projects; impact on natural resources.

[H 206]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 10.1-1197.6 of the Code of Virginia is amended and reenacted as follows:

§ 10.1-1197.6. Permit by rule for small renewable energy projects.

A. Notwithstanding the provisions of § 10.1-1186.2:1, the Department shall develop, by regulations to be effective as soon as practicable, but not later than July 1, 2012, a permit by rule or permits by rule if it is determined by the Department that one or more such permits by rule are necessary for the construction and operation of small renewable energy projects, including such conditions and standards necessary to protect the Commonwealth's natural resources. If the Department determines that more than a single permit by rule is necessary, the Department initially shall develop the permit by rule for wind energy, which shall be effective as soon as practicable, but not later than January 1, 2011. Subsequent permits by rule regulations shall be effective as soon as practicable.

B. The conditions for issuance of the permit by rule for small renewable energy projects shall include:

1. A notice of intent provided by the applicant, to be published in the Virginia Register, that a person intends to submit the necessary documentation for a permit by rule for a small renewable energy project;

2. A certification by the governing body of the locality or localities wherein the small renewable energy project will be located that the project complies with all applicable land use ordinances;

3. Copies of all interconnection studies undertaken by the regional transmission organization or transmission owner, or both, on behalf of the small renewable energy project;

4. A copy of the final interconnection agreement between the small renewable energy project and the regional transmission organization or transmission owner indicating that the connection of the small renewable energy project will not cause a reliability problem for the system. If the final agreement is not available, the most recent interconnection study shall be sufficient for the purposes of this section. When a final interconnection agreement is complete, it shall be provided to the Department. The Department shall forward a copy of the agreement or study to the State Corporation Commission;

5. A certification signed by a professional engineer licensed in Virginia that the maximum generation capacity of the small renewable energy project by (i) an electrical generation facility that generates electricity only from sunlight or wind as designed does not exceed 150 megawatts; (ii) an electrical generation facility that generates electricity only from falling water, wave motion, tides, or geothermal power as designed does not exceed 100 megawatts; or (iii) an electrical generation facility that generates electricity only from biomass, energy from waste, or municipal solid waste as designed does not exceed 20 megawatts;

6. An analysis of potential environmental impacts of the small renewable energy project's operations on attainment of national ambient air quality standards;

7. Where relevant, an analysis of the beneficial and adverse impacts of the proposed project on natural resources. For wildlife, that analysis shall be based on information on the presence, activity, and migratory behavior of wildlife to be collected at the site for a period of time dictated by the site conditions and biology of the wildlife being studied, not exceeding 12 months. *For prime agricultural soils and forest land, that analysis shall be required if a proposed project would disturb more than 10 acres of prime agricultural soils or 50 acres of contiguous forest lands, or if it would disturb forest lands enrolled in a program for forestry preservation pursuant to subdivision 2 of § 58.1-3233;*

8. If the Department determines that the information collected pursuant to subdivision ~~B~~ 7 indicates that significant adverse impacts to wildlife ~~or~~, historic resources, *prime agricultural soils, or forest lands* are likely, the submission of a mitigation plan, *if a draft plan was not provided by the applicant as part of the initial application, with a 45-day public comment period* detailing reasonable actions to be taken by the owner or operator to avoid, minimize, or otherwise mitigate such impacts, and to measure the efficacy of those actions. *A project will be deemed to have a significant adverse impact if*

it would disturb more than 10 acres of prime agricultural soils or 50 acres of contiguous forest lands, or if it would disturb forest lands enrolled in a program for forestry preservation pursuant to subdivision 2 of § 58.1-3233;

9. A certification signed by a professional engineer licensed in Virginia that the small renewable energy project is designed in accordance with all of the standards that are established in the regulations applicable to the permit by rule;

10. An operating plan describing how any standards established in the regulations applicable to the permit by rule will be achieved;

11. A detailed site plan with project location maps that show the location of all components of the small renewable energy project, including any towers. Changes to the site plan that occur after the applicant has submitted an application shall be allowed by the Department without restarting the application process, if the changes were the result of optimizing technical, environmental, and cost considerations, do not materially alter the environmental effects caused by the facility, or do not alter any other environmental permits that the Commonwealth requires the applicant to obtain;

12. A certification signed by the applicant that the small renewable energy project has applied for or obtained all necessary environmental permits;

13. A requirement that the applicant hold a public meeting. The public meeting shall be held in the locality or, if the project is located in more than one locality in a place proximate to the location of the proposed project. Following the public meeting, the applicant shall prepare a report summarizing the issues raised at the meeting, including any written comments received. The report shall be provided to the Department; and

14. A 30-day public review and comment period prior to authorization of the project.

C. The Department's regulations shall establish a schedule of fees, to be payable by the owner or operator of the small renewable energy project regulated under this article, which fees shall be assessed for the purpose of funding the costs of administering and enforcing the provisions of this article associated with such operations including, but not limited to, the inspection and monitoring of such projects to ensure compliance with this article.

D. The owner or operator of a small renewable energy project regulated under this article shall be assessed a permit fee in accordance with the criteria set forth in the Department's regulations. Such fees shall include an additional amount to cover the Department's costs of inspecting such projects.

E. The fees collected pursuant to this article shall be used only for the purposes specified in this article and for funding purposes authorized by this article to abate impairments or impacts on the Commonwealth's natural resources directly caused by small renewable energy projects.

F. There is hereby established a special, nonreverting fund in the state treasury to be known as the Small Renewable Energy Project Fee Fund, hereafter referred to as the Fund. Notwithstanding the provisions of § 2.2-1802, all moneys collected pursuant to this § 10.1-1197.6 shall be paid into the state treasury to the credit of the Fund. Any moneys remaining in the Fund shall not revert to the general fund but shall remain in the Fund. Interest earned on such moneys shall remain in the Fund and be credited to it. The Fund shall be exempt from statewide indirect costs charged and collected by the Department of Accounts.

G. After the effective date of regulations adopted pursuant to this section, no person shall erect, construct, materially modify or operate a small renewable energy project except in accordance with this article or Title 56 if the small renewable energy project was approved pursuant to Title 56.

H. Any small renewable energy project shall be eligible for permit by rule under this section if the project is proposed, developed, constructed, or purchased by a person that is not a utility regulated pursuant to Title 56.

I. Any small renewable energy project commencing operations after July 1, 2017, shall be eligible for permits by rule under this section and is exempt from State Corporation Commission environmental review or permitting in accordance with subsection B of § 10.1-1197.8 or other applicable law if the project is proposed, developed, constructed, or purchased by:

1. A public utility if the project's costs are not recovered from Virginia jurisdictional customers under base rates, a fuel factor charge under § 56-249.6, or a rate adjustment clause under subdivision A 6 of § 56-585.1; or

2. A utility aggregation cooperative formed under Article 2 (§ 56-231.38 et seq.) of Chapter 9.1 of Title 56.

J. For purposes of this section, "prime agricultural soils" means soils recognized as prime farmland by the U.S. Department of Agriculture, and "forest land" has the same meaning as provided in § 10.1-1178, except that any parcel shall be considered forest lands if it was forested at least two years prior to the Department's receipt of a permit application.

2. That pursuant to subdivisions B 7 and 8 of § 10.1-1197.6 of the Code of Virginia, as amended by this act, the Department of Environmental Quality (the Department), in consultation with the Department of Forestry, the State Corporation Commission, the Department of Energy, the Virginia Economic Development Partnership Authority, and other relevant stakeholders, shall convene an advisory panel to assist in further developing regulations regarding criteria to determine if a significant adverse impact to prime agricultural soils or forest lands is likely to occur as a result of a proposed solar project that is a small renewable energy project and criteria for an applicant of a solar project to address in a plan to mitigate any significant adverse impacts to soils and lands. In developing regulations regarding plans to mitigate any significant impacts to prime agricultural soils or forest lands, the advisory panel shall consider, but not be limited to, the following factors in determining appropriate mitigation techniques or criteria to be included in an applicant's mitigation plan: (i) the mitigation techniques to avoid, minimize, or otherwise mitigate any such impacts; (ii) the cost of mitigation relative to the project cost, including the costs of proposed mitigation to rate payers; (iii) onsite minimization of impacts; (iv) payment of in-lieu fee funds for mitigation; (v) the impact on the local agricultural or forestry economy when such soils or lands are displaced;

(vi) the loss of ecosystem benefits; (vii) noncompliance with Virginia's Watershed Implementation Plan III goals on the Chesapeake Bay TMDL; and (viii) noncompliance with other water quality criteria and standards. Such criteria shall include reasonable actions to be taken by the applicant to avoid, minimize, or otherwise mitigate any such impacts to prime agricultural soils or forest lands, but in the event that avoidance by the applicant is not reasonable, the applicant for the solar project that is a small renewable energy project shall be afforded the opportunity to minimize or otherwise mitigate any significant adverse impacts to prime agricultural soils or forest lands. The advisory panel shall also consider a process by which an applicant may satisfy its mitigation obligations by agreement with a locality if such mitigation requirements conform to the regulations established by the Department pursuant to this enactment and when such mitigation requirements are included in (a) a siting agreement and approved by a local governing body pursuant to subsection B of § 15.2-2316.7 of the Code of Virginia or (b) zoning use conditions approved by the locality pursuant to § 15.2-2288.8 of the Code of Virginia. The Department shall adopt such final regulations no later than December 31, 2024. Relevant stakeholders shall include but not be limited to representatives from the Virginia Association of Counties, the Virginia Farm Bureau Federation, the Virginia Agribusiness Council, the Virginia Forestry Association, the Piedmont Environmental Council, The Nature Conservancy, the Virginia Forest Products Association, the Chesapeake Solar and Storage Association, the American Clean Power Association, Advanced Energy Economy, AES Corporation, the Data Center Coalition, solar project engineers, electric utilities, and other stakeholders deemed relevant by the Department, the Department of Forestry, the Department of Energy, the State Corporation Commission, or the Virginia Economic Development Partnership Authority. The advisory panel shall submit a report to the Governor and the Chairmen of the House Committees on Agriculture, Chesapeake and Natural Resources and Commerce and Energy and the Senate Committees on Agriculture, Conservation and Natural Resources and Commerce and Labor no later than December 1, 2022.

3. That the provisions of the first enactment of this act shall become effective immediately upon the adoption of regulations pursuant to the second enactment of this act.

4. That any small renewable energy project for which an initial interconnection request application has been received and accepted by the regional transmission organization or electric utility by December 31, 2024, shall not be subject to the provisions of this act.

CHAPTER 689

An Act to amend and reenact §§ 58.1-332, 58.1-390.1, and 58.1-390.2 of the Code of Virginia and to amend the Code of Virginia by adding a section numbered 58.1-390.3, relating to income taxation; pass-through entities.

[S 692]

Approved April 11, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 58.1-332, 58.1-390.1, and 58.1-390.2 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding a section numbered 58.1-390.3 as follows:

§ 58.1-332. Credits for taxes paid other states.

A. Whenever a Virginia resident has become liable to another state for income tax on any earned or business income or any gain on the sale of a capital asset (within the meaning of § 1221 of the Internal Revenue Code), not including an asset used in a trade or business, to the extent that such gain is included in federal adjusted gross income, for the taxable year, derived from sources outside the Commonwealth and subject to taxation under this chapter, the amount of such tax payable by him shall, upon proof of such payment, be credited on the taxpayer's return with the income tax so paid to the other state.

However, no franchise tax, license tax, excise tax, unincorporated business tax, occupation tax or any tax characterized as such by the taxing jurisdiction, although applied to earned or business income, shall qualify for a credit under this section, nor shall any tax which, if characterized as an income tax or a commuter tax, would be illegal and unauthorized under such other state's controlling or enabling legislation qualify for a credit under this section.

The credit allowable under this section shall not exceed: (i) such proportion of the income tax otherwise payable by him under this chapter as his income upon which the tax imposed by the other state was computed bears to his Virginia taxable income upon which the tax imposed by this Commonwealth was computed or (ii) the income tax otherwise payable under this chapter in the event that the income upon which the tax imposed by the other state is computed is less than the Virginia taxable income upon which the tax imposed by this Commonwealth is computed and all income derived from sources outside the Commonwealth and subject to taxation under this chapter is earned income or business income reported on federal form Schedule C from a single state contiguous to Virginia. The credit provided for by this section shall not be granted to a resident individual when the laws of another state, under which the income in question is subject to tax assessment, provide a credit to such resident individual substantially similar to that granted by subsection B of this section.

B. Whenever a nonresident individual of this Commonwealth has become liable to the state where he resides for income tax upon his Virginia taxable income for the taxable year, derived from Virginia sources and subject to taxation under this chapter, the amount of such tax payable under this chapter shall be credited with such proportion of the tax so payable by him to the state where he resides, upon proof of such payment, as his income subject to taxation under this

chapter bears to his entire income upon which the tax so payable to such other state was imposed. The credit, however, shall be allowed only if the laws of such state: (i) grant a substantially similar credit to residents of Virginia subject to income tax under such laws or (ii) impose a tax upon the income of its residents derived from Virginia sources and exempt from taxation the income of residents of this Commonwealth. No credit shall be allowed against the amount of the tax on any income taxable under this chapter which is exempt from taxation under the laws of such other state.

C. 1. For purposes of this section, the amount of any state income tax paid by an electing small business corporation (S corporation) shall be deemed to have been paid by its individual shareholders in proportion to their ownership of the stock of such corporation.

2. For taxable years beginning on and after January 1, 2021, but before January 1, 2026, for purposes of this section, the amount of any state income tax paid by a pass-through entity under a law of another state substantially similar to § 58.1-390.3 shall be deemed to have been paid by its individual owners in proportion to their ownership.

§ 58.1-390.1. Definitions.

The following words and terms, when used in this article, shall have the following meanings unless the context clearly indicates otherwise:

"Owner" means any individual or entity who is treated as a partner, member, or shareholder of a pass-through entity for federal income tax purposes.

"Pass-through entity" means any entity, including a limited partnership, a limited liability partnership, a general partnership, a limited liability company, a professional limited liability company, a business trust, or a Subchapter S corporation, that is recognized as a separate entity for federal income tax purposes, in which the partners, members, or shareholders report their share of the income, gains, losses, deductions, and credits from the entity on their federal income tax returns or make the election and pay the tax levied pursuant to § 58.1-390.3.

"Qualifying pass-through entity" means a pass-through entity that is 100 percent owned by natural persons or, in the case of a Subchapter S corporation, 100 percent owned by natural persons or other persons eligible to be shareholders in an S corporation.

§ 58.1-390.2. Taxation of pass-through entities.

Except as provided for in this article, owners of pass-through entities shall be liable for tax under this chapter only in their separate or individual capacities on income passed through to the owners of pass-through entities. Any taxes imposed on the pass-through entity itself, ~~such as, but not limited to,~~ including the tax levied pursuant to § 58.1-390.3, sales and use taxes, withholding taxes with respect to employees or nonresident owners, and minimum taxes in lieu of income taxes, shall be paid by the pass-through entity.

§ 58.1-390.3. Elective income tax on pass-through entities.

A. 1. For taxable years beginning on and after January 1, 2021, but before January 1, 2022, a qualifying pass-through entity may make an election, in a format and according to such requirements and procedures to be established by the Department, to pay the tax levied by this section at the entity level for the taxable year. Such election shall be made on or before a date to be determined by the Department, which shall be set no earlier than one year after the extended due date for filing the applicable return. Notwithstanding §§ 58.1-1812 and 58.1-1833, no interest shall accrue on underpayments or overpayments solely attributable to such election.

2. For taxable years beginning on and after January 1, 2022, but before January 1, 2026, a qualifying pass-through entity may make an annual election, on its timely filed return pursuant to § 58.1-392, to pay the tax levied by this section at the entity level for the taxable period covered by such return. Such election shall be made on or before the due date for filing the applicable return, including any extensions that have been granted.

B. A tax at the rate of 5.75 percent is hereby annually imposed on the Virginia taxable income, as calculated pursuant to § 58.1-391, for each taxable year of every qualifying pass-through entity that makes the election provided under subsection A.

C. A qualifying pass-through entity that elects to pay the tax levied by subsection B shall be eligible for all credits, deductions, or other adjustments to taxable income under § 58.1-391, provided that a qualifying pass-through entity's taxable income shall be adjusted to eliminate any federal deduction for state and local income taxes.

D. Any person that is subject to the tax imposed under § 58.1-320 or 58.1-360 and is an owner of a qualifying pass-through entity making the election pursuant to this section shall be entitled to a credit against the tax imposed, provided that taxable income has been adjusted to add back any deduction for state and local income taxes paid by the qualifying pass-through entity. Such credit shall be in an amount equal to such person's pro rata share of the tax paid under this section by any qualifying pass-through entity of which such person is an owner. If the amount of the credit allowed pursuant to this subsection exceeds such person's tax liability for the tax imposed under § 58.1-320 or 58.1-360, as applicable, such excess shall be treated as an overpayment and refundable pursuant to § 58.1-499.

E. If any qualifying pass-through entity makes an election pursuant to this section, the Department shall assess and collect tax, interest, and penalties as if such tax is a corporate income tax imposed pursuant to the provisions of Article 10 (§ 58.1-400 et seq.).

F. The Department shall develop and make publicly available guidelines implementing the provisions of this section and the credit authorized by subdivision C 2 of § 58.1-332.

CHAPTER 690

An Act to amend and reenact §§ 58.1-332, 58.1-390.1, and 58.1-390.2 of the Code of Virginia and to amend the Code of Virginia by adding a section numbered 58.1-390.3, relating to income taxation; pass-through entities.

However, no franchise tax, license tax, excise tax, unincorporated business tax, occupation tax or any tax characterized as such by the taxing jurisdiction, although applied to earned or business income, shall qualify for a credit under this section, nor shall any tax which, if characterized as an income tax or a commuter tax, would be illegal and unauthorized under such other state's controlling or enabling legislation qualify for a credit under this section.

The credit allowable under this section shall not exceed: (i) such proportion of the income tax otherwise payable by him under this chapter as his income upon which the tax imposed by the other state was computed bears to his Virginia taxable income upon which the tax imposed by this Commonwealth was computed or (ii) the income tax otherwise payable under this chapter in the event that the income upon which the tax imposed by the other state is computed is less than the Virginia taxable income upon which the tax imposed by this Commonwealth is computed and all income derived from sources outside the Commonwealth and subject to taxation under this chapter is earned income or business income reported on federal form Schedule C from a single state contiguous to Virginia. B. Whenever a nonresident individual of this Commonwealth has become liable to the state where he resides for income tax upon his Virginia taxable income for the taxable year, derived from Virginia sources and subject to taxation under this chapter, the amount of such tax payable under this chapter shall be credited with such proportion of the tax so payable by him to the state where he resides, upon proof of such payment, as his income subject to taxation under this chapter bears to his entire income upon which the tax so payable to such other state was imposed. The credit, however, shall be allowed only if the laws of such state: (i) grant a substantially similar credit to residents of Virginia subject to income tax under such laws or (ii) impose a tax upon the income of its residents derived from Virginia sources and exempt from taxation the income of residents of this Commonwealth. No credit shall be allowed against the amount of the tax on any income taxable under this chapter which is exempt from taxation under the laws of such other state.

C. 1. For purposes of this section, the amount of any state income tax paid by an electing small business corporation (S corporation) shall be deemed to have been paid by its individual shareholders in proportion to their ownership of the stock of such corporation.

2. *For taxable years beginning on and after January 1, 2021, but before January 1, 2026, for purposes of this section, the amount of any state income tax paid by a pass-through entity under a law of another state substantially similar to § 58.1-390.3 shall be deemed to have been paid by its individual owners in proportion to their ownership.*

§ 58.1-390.1. Definitions.

The following words and terms, when used in this article, shall have the following meanings unless the context clearly indicates otherwise:

"Pass-through entity" means any entity, including a limited partnership, a limited liability partnership, a general partnership, a limited liability company, a professional limited liability company, a business trust, or a Subchapter S corporation, that is recognized as a separate entity for federal income tax purposes, in which the partners, members, or shareholders report their share of the income, gains, losses, deductions, and credits from the entity on their federal income tax returns *or make the election and pay the tax levied pursuant to § 58.1-390.3.*

"Qualifying pass-through entity" means a pass-through entity that is 100 percent owned by natural persons or, in the case of a Subchapter S corporation, 100 percent owned by natural persons or other persons eligible to be shareholders in an S corporation.

§ 58.1-390.2. Taxation of pass-through entities.

Except as provided for in this article, owners of pass-through entities shall be liable for tax under this chapter only in their separate or individual capacities on income passed through to the owners of pass-through entities. Any taxes imposed on the pass-through entity itself, ~~such as, but not limited to,~~ including the tax levied pursuant to § 58.1-390.3, sales and use

taxes, withholding taxes with respect to employees or nonresident owners, and minimum taxes in lieu of income taxes, shall be paid by the pass-through entity.

§ 58.1-390.3. Elective income tax on pass-through entities.

A. 1. For taxable years beginning on and after January 1, 2021, but before January 1, 2022, a qualifying pass-through entity may make an election, in a format and according to such requirements and procedures to be established by the Department, to pay the tax levied by this section at the entity level for the taxable year. Such election shall be made on or before a date to be determined by the Department, which shall be set no earlier than one year after the extended due date for filing the applicable return. 2. For taxable years beginning on and after January 1, 2022, but before January 1, 2026, a qualifying pass-through entity may make an annual election, on its timely filed return pursuant to § 58.1-392, to pay the tax levied by this section at the entity level for the taxable period covered by such return. Such election shall be made on or before the due date for filing the applicable return, including any extensions that have been granted.

C. A qualifying pass-through entity that elects to pay the tax levied by subsection B shall be eligible for all credits, deductions, or other adjustments to taxable income under § 58.1-391, provided that a qualifying pass-through entity's taxable income shall be adjusted to eliminate any federal deduction for state and local income taxes.

D. Any person that is subject to the tax imposed under § 58.1-320 or 58.1-360 and is an owner of a qualifying pass-through entity making the election pursuant to this section shall be entitled to a credit against the tax imposed, provided that taxable income has been adjusted to add back any deduction for state and local income taxes paid by the qualifying pass-through entity. E. If any qualifying pass-through entity makes an election pursuant to this section, the Department shall assess and collect tax, interest, and penalties as if such tax is a corporate income tax imposed pursuant to the provisions of Article 10 (§ 58.1-400 et seq.).

F. The Department shall develop and make publicly available guidelines implementing the provisions of this section and the credit authorized by subdivision C 2 of § 58.1-332.

An Act to amend and reenact § 63.2-1805 of the Code of Virginia, relating to assisted living facilities; involuntary discharge.

[S 40]

Approved April 27, 2022

Be it enacted by the General Assembly of Virginia:**1. That § 63.2-1805 of the Code of Virginia is amended and reenacted as follows:****§ 63.2-1805. Admissions and discharge; mandatory minimum liability insurance.****A. The Board shall adopt regulations:**

1. Governing admissions to assisted living facilities;

2. Requiring that each assisted living facility prepare and provide a statement, in a format prescribed by the Department, to any prospective resident and his legal representative, if any, prior to admission and upon request, that discloses information, fully and accurately in plain language, about the (i) services; (ii) fees, including clear information about what services are included in the base fee and any fees for additional services; (iii) admission, transfer, and discharge criteria, including criteria for transfer to another level of care within the same facility or complex; (iv) general number and qualifications of staff on each shift; (v) range, frequency, and number of activities provided for residents; and (vi) ownership structure of the facility;

3. Establishing a process to ensure that each resident admitted or retained in an assisted living facility receives appropriate services and periodic independent reassessments and reassessments when there is a significant change in the resident's condition in order to determine whether a resident's needs can continue to be met by the facility and whether continued placement in the facility is in the best interests of the resident;

4. Governing appropriate discharge planning for residents whose care needs can no longer be met by the facility;

5. Addressing the involuntary discharge of residents. *Such regulations shall provide that residents may be involuntarily discharged only (i) in accordance with Board regulations, provided that the assisted living facility has met the requirements of subsection B, as applicable, and the assisted living facility has made reasonable efforts to meet the needs of the resident; (ii) for nonpayment of contracted charges, provided that the resident has been given at least 30 days to cure the delinquency after notice was provided to the resident and the resident's legal representative or designated contact person of such nonpayment; (iii) for the resident's failure to substantially comply with the terms and conditions, as allowed by regulation, of the resident agreement between the resident and assisted living facility; (iv) if the assisted living facility closes in accordance with Board regulations; or (v) when the resident develops a condition or care need that is prohibited by subsection D or Board regulations. Unless an emergency discharge is necessary due to an immediate and serious risk to the health, safety, or welfare of the resident or others, the assisted living facility shall, prior to involuntarily discharging a resident, make reasonable efforts, as appropriate, to resolve any issues with the resident upon which the decision to discharge is based and document such efforts in the resident's file.*

In addition to providing the written discharge notice to the resident and the resident's legal representative or designated contact person, the assisted living facility shall provide a copy of the notice to the Department and the State Long-Term Care Ombudsman at least 30 days prior to an involuntary discharge unless an emergency discharge is necessary due to an immediate and serious risk to the health, safety, or welfare of the resident or others. Such notice of discharge shall include the reasons for discharge, the date on which the discharge will occur, and information regarding the resident's right to appeal, within the 30-day notice period, the assisted living facility's decision to discharge the resident.

In cases of an emergency discharge, such notice shall be provided as soon as possible, but no later than five days after the emergency discharge. Within five days after an emergency discharge, the written discharge notice shall be provided to the resident, the resident's legal representative or designated contact person, the Department, and the State Long-Term Care Ombudsman. A resident may appeal any discharge except discharges pursuant to clause (iv).

The Department shall provide the discharge notice form to be used by assisted living facilities to provide notice to a resident of the resident's right to appeal such facility's decision to discharge the resident, which shall also include information regarding the process for initiating an appeal, the number for a toll-free information line, a hearing request form, the facility's obligation to assist the resident in filing an appeal and provide, upon request, a postage prepaid envelope addressed to the Department, and a statement of the resident's right to continue to reside in the facility, free from retaliation, until the appeal has a final Department case decision unless the discharge is an emergency discharge or the resident has developed a condition or care need that is prohibited by subsection D or Board regulations. Where a resident has been removed under an emergency discharge and no longer resides in the facility, the resident retains the right to appeal.

Prior to involuntarily discharging a resident, the assisted living facility shall provide relocation assistance to the resident and the resident's legal representative in accordance with Board regulation. The Board shall adopt regulations that establish a process for appeals filed pursuant to this subdivision;

6. Requiring that residents are informed of their rights pursuant to § 63.2-1808 at the time of admission;

7. Establishing a process to ensure that any resident temporarily detained in a facility pursuant to §§ 37.2-809 through 37.2-813 is accepted back in the assisted living facility if the resident is not involuntarily admitted pursuant to §§ 37.2-814 through 37.2-819;

8. Requiring that each assisted living facility train all employees who are mandated to report adult abuse, neglect, or exploitation pursuant to § 63.2-1606 on such reporting procedures and the consequences for failing to make a required report;

9. Requiring that each assisted living facility prepare and provide a statement, in a format prescribed by the Board, to any resident or prospective resident and his legal representative, if any, and upon request, that discloses whether the assisted living facility maintains liability insurance in force to compensate residents or other individuals for injuries and losses from the negligent acts of the facility, provided that no facility shall state that liability insurance is in place unless such insurance provides a minimum amount of coverage as established by the Board;

10. Establishing the minimum amount of liability insurance coverage to be maintained by an assisted living facility for purposes of disclosure in accordance with subdivision 9; and

11. Requiring that all assisted living facilities disclose to each prospective resident, or his legal representative, in writing in a document provided to the prospective resident or his legal representative and as evidenced by the written acknowledgment of the resident or his legal representative on the same document, whether the facility has an on-site emergency electrical power source for the provision of electricity during an interruption of the normal electric power supply and, if the assisted living facility does have an on-site emergency electrical power source, (i) the items for which such on-site emergency electrical power source will supply power in the event of an interruption of the normal electric power supply and (ii) whether staff of the assisted living facility have been trained to maintain and operate such on-site emergency electrical power source to ensure the provision of electricity during an interruption of the normal electrical power supply. For the purposes of this subdivision, an on-site emergency electrical power supply shall include both permanent emergency electrical power supply sources and portable emergency electrical power sources, provided that such temporary electrical power supply source remains on the premises of the assisted living facility at all times. Written acknowledgement of the disclosure shall be represented by the signature or initials of the resident or his legal representative immediately following the on-site emergency electrical power source disclosure statement.

B. If there are observed behaviors or patterns of behavior indicative of mental illness, intellectual disability, substance abuse, or behavioral disorders, as documented in the uniform assessment instrument completed pursuant to § 63.2-1804, the facility administrator or designated staff member shall ensure that an evaluation of the individual is or has been conducted by a qualified professional as defined in regulations. If the evaluation indicates a need for mental health, developmental, substance abuse, or behavioral disorder services, the facility shall provide (i) a notification of the resident's need for such services to the authorized contact person of record when available and (ii) a notification of the resident's need for such services to the community services board or behavioral health authority established pursuant to Title 37.2 that serves the city or county in which the facility is located, or other appropriate licensed provider. The Department shall not take adverse action against a facility that has demonstrated and documented a continual good faith effort to meet the requirements of this subsection.

C. The Department shall not order the removal of a resident from an assisted living facility if (i) the resident, the resident's family, the resident's physician, and the facility consent to the resident's continued stay in the assisted living facility and (ii) the facility is capable of providing, obtaining, or arranging for the provision of necessary services for the resident, including, but not limited to, home health care or hospice care.

D. Notwithstanding the provisions of subsection C, assisted living facilities shall not admit or retain an individual with any of the following conditions or care needs:

1. Ventilator dependency.
2. Dermal ulcers III and IV, except those stage III ulcers that are determined by an independent physician to be healing.
3. Intravenous therapy or injections directly into the vein except for intermittent intravenous therapy managed by a health care professional licensed in Virginia or as permitted in subsection E.
4. Airborne infectious disease in a communicable state that requires isolation of the individual or requires special precautions by the caretaker to prevent transmission of the disease, including diseases such as tuberculosis and excluding infections such as the common cold.
5. Psychotropic medications without appropriate diagnosis and treatment plans.
6. Nasogastric tubes.
7. Gastric tubes except when the individual is capable of independently feeding himself and caring for the tube or as permitted in subsection E.
8. An imminent physical threat or danger to self or others is presented by the individual.
9. Continuous licensed nursing care (seven-days-a-week, 24-hours-a-day) is required by the individual.
10. Placement is no longer appropriate as certified by the individual's physician.
11. Maximum physical assistance is required by the individual as documented by the uniform assessment instrument and the individual meets Medicaid nursing facility level-of-care criteria as defined in the State Plan for Medical Assistance, unless the individual's independent physician determines otherwise. Maximum physical assistance means that an individual has a rating of total dependence in four or more of the seven activities of daily living as documented on the uniform assessment instrument.
12. The assisted living facility determines that it cannot meet the individual's physical or mental health care needs.
13. Other medical and functional care needs that the Board determines cannot be met properly in an assisted living facility.

E. Except for auxiliary grant recipients, at the request of the resident in an assisted living facility and when his independent physician determines that it is appropriate, (i) care for the conditions or care needs defined in subdivisions D 3 and D 7 may be provided to the resident by a licensed physician, a licensed nurse or a nurse holding a multistate licensure privilege under a physician's treatment plan, or a home care organization licensed in Virginia or (ii) care for the conditions or care needs defined in subdivision D 7 may also be provided to the resident by facility staff if the care is delivered in accordance with the regulations of the Board of Nursing for delegation by a registered nurse Part VIII (18VAC90-20-420 et seq.) of 18VAC90-20.

The Board shall adopt regulations to implement the provisions of this subsection.

F. In adopting regulations pursuant to subsections A, B, C, D, and E, the Board shall consult with the Departments of Health and Behavioral Health and Developmental Services.

CHAPTER 708

An Act to amend and reenact §§ 22.1-205 and 46.2-1702 of the Code of Virginia, relating to Board of Education; driver education programs; parent/student driver education.

[S 78]

Approved April 27, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 22.1-205 and 46.2-1702 of the Code of Virginia are amended and reenacted as follows:

§ 22.1-205. Driver education programs.

A. The Board of Education shall establish for the public school system a standardized program of driver education in the safe operation of motor vehicles. Such program shall consist of classroom training and behind-the-wheel driver training. However, any student who participates in such a program of driver education shall meet the academic requirements established by the Board, and no student in a course shall be permitted to operate a motor vehicle without a license or other document issued by the Department of Motor Vehicles under Chapter 3 (§ 46.2-300 et seq.) of Title 46.2, or the comparable law of another jurisdiction, authorizing the operation of a motor vehicle upon the highways.

1. The driver education program shall include (i) instruction concerning (a) alcohol and drug abuse; (b) aggressive driving; (c) the dangers of distracted driving and speeding; (d) motorcycle awareness; (e) organ and tissue donor awareness; (f) fuel-efficient driving practices; and (g) traffic stops, including law-enforcement procedures for traffic stops, appropriate actions to be taken by drivers during traffic stops, and appropriate interactions with law-enforcement officers who initiate traffic stops, and (ii) ~~in Planning District 8, an additional minimum 90-minute parent/student driver education component. The additional parent/student driver education component may be provided to students outside Planning District 8, at the discretion of each local school board as part of the classroom portion of the driver education curriculum. However, in any school division in which the parent/student driver education component is required,~~ no student who is (1) at least 18 years of age, (2) an emancipated minor, or (3) an unaccompanied minor who is not in the physical custody of his parent or guardian shall be required to participate in ~~such the~~ parent/student driver education component.

2. The parent/student driver education component shall be administered as part of the classroom portion of the driver education curriculum. In Planning District 8, the parent/student driver education component shall be administered in-person. Outside Planning District 8, the parent/student driver education component may be administered either in-person or online by a public school or a driver training ~~schools~~ school that ~~are~~ is licensed as a computer-based driver education ~~providers~~ provider. ~~For students in Planning District 8 and those students in school divisions that offer the parent/student driver education component who are not otherwise exempted from participation in the parent/student driver education component pursuant to the provisions of subdivision 1, the~~ The participation of the student's parent or guardian in the parent/student driver education component shall be required in Planning District 8 unless the student is otherwise exempted from participation in the parent/student driver education component pursuant to the provisions of subdivision 1. Outside Planning District 8, the participation of the student's parent or guardian in the parent/student driver education component shall be encouraged, but shall not be required; ~~and the~~. The program shall emphasize (i) parental responsibilities regarding juvenile driver behavior, (ii) juvenile driving restrictions pursuant to ~~the this~~ Code of Virginia, and, (iii) the dangers of driving while intoxicated and underage consumption of alcohol, and (iv) the dangers of distracted driving. Such instruction shall be developed by the Department in cooperation with the Virginia Alcohol Safety Action Program, the Department of

Health, and the Department of Behavioral Health and Developmental Services, as appropriate. Nothing in this subdivision precludes any school division ~~outside Planning District 8~~ from including a program of parental involvement as part of a driver education program in addition to ~~or as an alternative to~~ the minimum 90-minute parent/student driver education component.

3. Any driver education program shall require a minimum number of miles driven during the behind-the-wheel driver training.

B. The Board shall assist school divisions by preparation, publication and distribution of competent driver education instructional materials to ensure a more complete understanding of the responsibilities and duties of motor vehicle operators.

C. Each school board shall determine whether to offer the program of driver education in the safe operation of motor vehicles and, if offered, whether such program shall be an elective or a required course. In addition to the fee approved by the Board of Education pursuant to the appropriation act that allows local school boards to charge a per pupil fee for behind-the-wheel driver education, the Board of Education may authorize a local school board's request to assess a surcharge in order to further recover program costs that exceed state funds distributed through basic aid to school divisions offering driver education programs. Each school board may waive the fee or the surcharge in total or in part for those students it determines cannot pay the fee or surcharge. Only school divisions complying with the standardized program and regulations established by the Board of Education and the provisions of § 46.2-335 shall be entitled to participate in the distribution of state funds appropriated for driver education.

~~School boards in Planning District 8~~ Each school board shall make the 90-minute parent/student driver education component available to all students and their parents or guardians who are in compliance with § 22.1-254.

D. The actual initial driving instruction shall be conducted, with motor vehicles equipped as may be required by regulation of the Board of Education, on private or public property removed from public highways if practicable; if impracticable, then, at the request of the school board, the Commissioner of Highways shall designate a suitable section of road near the school to be used for such instruction. Such section of road shall be marked with signs, which the Commissioner of Highways shall supply, giving notice of its use for driving instruction. Such signs shall be removed at the close of the instruction period. No vehicle other than those used for driver training shall be operated between such signs at a speed in excess of 25 miles per hour. Violation of this limit shall be a Class 4 misdemeanor.

E. The Board of Education may, in its discretion, promulgate regulations for the use and certification of paraprofessionals as teaching assistants in the driver education programs of school divisions.

F. The Board of Education shall approve correspondence courses for the classroom training component of driver education. These correspondence courses shall be consistent in quality with instructional programs developed by the Board for classroom training in the public schools. Students completing the correspondence courses for classroom training, who are eligible to take behind-the-wheel driver training, may receive behind-the-wheel driver training (i) from a public school, upon payment of the required fee, if the school division offers behind-the-wheel driver training and space is available, (ii) from a driver training school licensed by the Department of Motor Vehicles, or (iii) in the case of a home schooling parent or guardian instructing his own child who meets the requirements for home school instruction under § 22.1-254.1 or subdivision B 1 of § 22.1-254, from a behind-the-wheel training course approved by the Board. Nothing herein shall be construed to require any school division to provide behind-the-wheel driver training to nonpublic school students.

§ 46.2-1702. Certification of driver education courses by Commissioner.

Notwithstanding any other provision of law, the Commissioner shall have the authority to approve as a driver education course satisfying the requirements of § 46.2-334 any course which is offered by any driver training school licensed under the provisions of this chapter if he finds that the course is of comparable content and quality to that offered in the Commonwealth's public schools. In making such finding, the Commissioner shall not require that the instructors of any driver training school meet the certification requirements of teachers in the Commonwealth's public schools.

Any comprehensive community college within the Virginia Community College System shall have the authority to offer the courses required by the Virginia Board of Education to become a certified driver education instructor in Virginia on a not-for-credit basis so long as the courses include the same content and curriculum required by the Department of Education, enabling individuals who complete those courses to then teach driver's education in Virginia driver education training schools upon official certification by the Department of Motor Vehicles. The Virginia Department of Education shall provide the curriculum, content, and other information regarding the courses required to become certified driver education instructors in Virginia to any comprehensive community college within the Virginia Community College System. The content of each course must be accurate and rigorous and must meet the requirements for the Department of Education's Curriculum and Administrative Guide for Driver's Education, which includes the Board of Education's standards of learning.

Except for schools in the Commonwealth's public school system and providers of correspondence courses approved by the Board of Education pursuant to subsection F of § 22.1-205, only those driver training schools that are licensed as computer-based driver education providers shall be authorized to administer computer-based driver education courses, including the parent/student driver education component of the driver education curriculum as established in § 22.1-205. The content and quality of such computer-based driver education courses shall be comparable to that of courses offered in the Commonwealth's public schools. The Commissioner may establish minimum standards for testing students who have enrolled in computer-based driver education courses. Such standards may include (i) requirements for the test site;

(ii) verification that the person taking the test is the person enrolled in the course; (iii) verification of the identity of the student using photo identification approved by the Commissioner; and (iv) maintenance of a log containing the name and title of the licensed instructor monitoring the test, the test date, the name of the student taking the test, and the student's time-in and time-out of the test site. Computer-based driver education providers shall not issue a certificate of completion to a student prior to receiving proof of completion of the additional minimum 90-minute parent/student driver education component pursuant to § 22.1-205.

Any driver training school licensed under the provisions of this chapter shall be authorized to provide the 90-minute parent/student driver education component of the driver education curriculum pursuant to § 22.1-205. Only public schools and those driver training schools that are licensed as computer-based driver education providers shall be authorized to administer the parent/student driver education component of the driver education curriculum through a virtual, computer-based program. Completion of such education component shall satisfy the requirement for the additional 90-minute parent/student driver education component so long as there is participation of the student's parent or guardian and the content provided is comparable to that which is offered in the Commonwealth's public schools and emphasizes (a) parental responsibilities regarding juvenile driver behavior, (b) juvenile driving restrictions pursuant to this Code, ~~and~~ (c) the dangers of driving while intoxicated and underage consumption of alcohol, *and (d) the dangers of distracted driving.*

The Commissioner shall have authority to approve any driver education course offered by any Class A licensee if he finds the course meets the requirements for such courses as set forth in this chapter and as otherwise established by the Department. Class A licensees shall not be permitted to administer behind-the-wheel examinations unless authorized pursuant to § 46.2-326.1. Driver education courses offered by any Class B licensee shall be based on the driver education curriculum currently approved by the Department of Education and the Department.

The Commissioner may accept, in lieu of requirements established by the Department of Education for instructor qualification, (1) 20 years' service with the Virginia Department of State Police by a law-enforcement officer who retired or resigned while in good standing from such Department or (2)(i) 20 years' service as a traffic enforcement officer with patrol experience with any local police department by a law-enforcement officer who has been certified by the Virginia Department of Criminal Justice Services pursuant to § 15.2-1706, (ii) who retired or resigned while in good standing from such department, and (iii) who has been certified to teach driver training by the Virginia Department of Criminal Justice Services.

[S 100]

Approved April 27, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 54.1-2901 of the Code of Virginia is amended and reenacted as follows:

1. **That §§ 32.1-102.2 and 32.1-127 of the Code of Virginia are amended and reenacted as follows:**

§ 32.1-102.2. Regulations.

A. The Board shall promulgate regulations that are consistent with this article and:

1. Shall establish concise procedures for the prompt review of applications for certificates consistent with the provisions of this article which may include a structured batching process which incorporates, but is not limited to, authorization for the Commissioner to request proposals for certain projects. In any structured batching process established by the Board, applications, combined or separate, for computed tomographic (CT) scanning, magnetic resonance imaging (MRI), positron emission tomographic (PET) scanning, radiation therapy, stereotactic radiotherapy other than radiotherapy performed using a linear accelerator or other medical equipment that uses concentrated doses of high-energy X-rays to perform external beam radiation therapy, and proton beam therapy shall be considered in the radiation therapy batch. A single application may be filed for a combination of (i) radiation therapy, stereotactic radiotherapy other than radiotherapy performed using a linear accelerator or other medical equipment that uses concentrated doses of high-energy X-rays to perform external beam radiation therapy, and proton beam therapy and (ii) any or all of the computed tomographic (CT) scanning, magnetic resonance imaging (MRI), and positron emission tomographic (PET) scanning;

2. May classify projects and may eliminate one or more or all of the procedures prescribed in § 32.1-102.6 for different classifications;

3. May provide for exempting from the requirement of a certificate projects determined by the Commissioner, upon application for exemption, to be subject to the economic forces of a competitive market or to have no discernible impact on the cost or quality of health services;

4. May establish a schedule of fees for applications for certificates or registration of a project to be applied to expenses for the administration and operation of the Certificate of Public Need Program;

5. Shall establish an expedited application and review process for any certificate for projects reviewable pursuant to subdivision B 8 of § 32.1-102.1:3. Regulations establishing the expedited application and review procedure shall include provisions for notice and opportunity for public comment on the application for a certificate, and criteria pursuant to which an application that would normally undergo the review process would instead undergo the full certificate of public need review process set forth in § 32.1-102.6;

6. Shall establish an exemption from the requirement for a certificate *for a project involving a temporary increase in the total number of beds in an existing hospital or nursing home, including a temporary increase in the total number of beds*

resulting from the addition of beds at a temporary structure or satellite location operated by the hospital or nursing home, provided that the ability remains to safely staff services across the existing hospital or nursing home, (i) for a period of no more than the duration of the Commissioner's determination plus 30 days; for projects involving a temporary increase in the total number of beds in an existing hospital or nursing home when the Commissioner has determined that a natural or man-made disaster has caused the evacuation of a hospital or nursing home and that a public health emergency exists due to a shortage of hospital or nursing home beds or (ii) for a period of no more than the duration of the emergency order entered pursuant to § 32.1-13 or 32.1-20 plus 30 days when the Board, pursuant to § 32.1-13, or the Commissioner, pursuant to § 32.1-20, has entered an emergency order for the purpose of suppressing a nuisance dangerous to public health or a communicable, contagious, or infectious disease or other danger to the public life and health; and

Shall require every medical care facility subject to the requirements of this article, other than a nursing home, that is not a medical care facility for which a certificate with conditions imposed pursuant to subsection B of § 32.1-102.4 has been issued and that provides charity care, as defined in § 32.1-102.1, to annually report the amount of charity care provided.

B. The Board shall promulgate regulations providing for time limitations for schedules for completion and limitations on the exceeding of the maximum capital expenditure amount for all reviewable projects. The Commissioner shall not approve any such extension or excess unless it complies with the Board's regulations. However, the Commissioner may approve a significant change in cost for an approved project that exceeds the authorized capital expenditure by more than 20 percent, provided the applicant has demonstrated that the cost increases are reasonable and necessary under all the circumstances and do not result from any material expansion of the project as approved.

C. The Board shall also promulgate regulations authorizing the Commissioner to condition approval of a certificate on the agreement of the applicant to provide a level of charity care to indigent persons or accept patients requiring specialized care. Such regulations shall include a methodology and formulas for uniform application of, active measuring and monitoring of compliance with, and approval of alternative plans for satisfaction of such conditions. In addition, the Board's licensure regulations shall direct the Commissioner to condition the issuing or renewing of any license for any applicant whose certificate was approved upon such condition on whether such applicant has complied with any agreement to provide a level of charity care to indigent persons or accept patients requiring specialized care. Except in the case of nursing homes, the value of charity care provided to individuals pursuant to this subsection shall be based on the provider reimbursement methodology utilized by the Centers for Medicare and Medicaid Services for reimbursement under Title XVIII of the Social Security Act, 42 U.S.C. § 1395 et seq.

D. The Board shall also promulgate regulations to require the registration of a project; for introduction into an existing medical care facility of any new lithotripsy, stereotactic radiosurgery, stereotactic radiotherapy performed using a linear accelerator or other medical equipment that uses concentrated doses of high-energy X-rays to perform external beam radiation therapy, obstetrical, or nuclear imaging services that the facility has never provided or has not provided in the previous 12 months; and for the addition by an existing medical care facility of any medical equipment for lithotripsy, stereotactic radiosurgery, stereotactic radiotherapy performed using a linear accelerator or other medical equipment that uses concentrated doses of high-energy X-rays to perform external beam radiation therapy, or nuclear imaging services. Replacement of existing equipment for lithotripsy, stereotactic radiosurgery, stereotactic radiotherapy other than radiotherapy performed using a linear accelerator or other medical equipment that uses concentrated doses of high-energy X-rays to perform external beam radiation therapy, or nuclear imaging services shall not require registration. Such regulations shall include provisions for (i) establishing the agreement of the applicant to provide a level of care in services or funds that matches the average percentage of indigent care provided in the appropriate health planning region and to participate in Medicaid at a reduced rate to indigents, (ii) obtaining accreditation from a nationally recognized accrediting organization approved by the Board for the purpose of quality assurance, and (iii) reporting utilization and other data required by the Board to monitor and evaluate effects on health planning and availability of health care services in the Commonwealth.

Shall require that each hospital establish a protocol requiring that, before a health care provider arranges for air medical transportation services for a patient who does not have an emergency medical condition as defined in 42 U.S.C. § 1395dd(e)(1), the hospital shall provide the patient or his authorized representative with written or electronic notice that the patient (i) may have a choice of transportation by an air medical transportation provider or medically appropriate ground transportation by an emergency medical services provider and (ii) will be responsible for charges incurred for such transportation in the event that the provider is not a contracted network provider of the patient's health insurance carrier or such charges are not otherwise covered in full or in part by the patient's health insurance plan;

24. Shall establish an exemption; ~~for a period of no more than 30 days~~, from the requirement to obtain a license to add temporary beds in an existing hospital or nursing home, *including beds located in a temporary structure or satellite location operated by the hospital or nursing home, provided that the ability remains to safely staff services across the existing hospital or nursing home, (i) for a period of no more than the duration of the Commissioner's determination plus 30 days* when the Commissioner has determined that a natural or man-made disaster has caused the evacuation of a hospital or nursing home and that a public health emergency exists due to a shortage of hospital or nursing home beds or (ii) *for a period of no more than the duration of the emergency order entered pursuant to § 32.1-13 or 32.1-20 plus 30 days when the Board, pursuant to § 32.1-13, or the Commissioner, pursuant to § 32.1-20, has entered an emergency order for the purpose of suppressing a nuisance dangerous to public health or a communicable, contagious, or infectious disease or other danger to the public life and health;*

25. Shall establish protocols to ensure that any patient scheduled to receive an elective surgical procedure for which the patient can reasonably be expected to require outpatient physical therapy as a follow-up treatment after discharge is informed that he (i) is expected to require outpatient physical therapy as a follow-up treatment and (ii) will be required to select a physical therapy provider prior to being discharged from the hospital;

26. Shall permit nursing home staff members who are authorized to possess, distribute, or administer medications to residents to store, dispense, or administer cannabis oil to a resident who has been issued a valid written certification for the use of cannabis oil in accordance with subsection B of § 54.1-3408.3 and has registered with the Board of Pharmacy;

27. Shall require each hospital with an emergency department to establish a protocol for the treatment and discharge of individuals experiencing a substance use-related emergency, which shall include provisions for (i) appropriate screening and assessment of individuals experiencing substance use-related emergencies to identify medical interventions necessary for the treatment of the individual in the emergency department and (ii) recommendations for follow-up care following discharge for any patient identified as having a substance use disorder, depression, or mental health disorder, as appropriate, which may include, for patients who have been treated for substance use-related emergencies, including opioid overdose, or other high-risk patients, (a) the dispensing of naloxone or other opioid antagonist used for overdose reversal pursuant to subsection X of § 54.1-3408 at discharge or (b) issuance of a prescription for and information about accessing naloxone or other opioid antagonist used for overdose reversal, including information about accessing naloxone or other opioid antagonist used for overdose reversal at a community pharmacy, including any outpatient pharmacy operated by the hospital, or through a community organization or pharmacy that may dispense naloxone or other opioid antagonist used for overdose reversal without a prescription pursuant to a statewide standing order. Such protocols may also provide for referrals of individuals experiencing a substance use-related emergency to peer recovery specialists and community-based providers of behavioral health services, or to providers of pharmacotherapy for the treatment of drug or alcohol dependence or mental health diagnoses;

28. During a public health emergency related to COVID-19, shall require each nursing home and certified nursing facility to establish a protocol to allow each patient to receive visits, consistent with guidance from the Centers for Disease Control and Prevention and as directed by the Centers for Medicare and Medicaid Services and the Board. Such protocol shall include provisions describing (i) the conditions, including conditions related to the presence of COVID-19 in the nursing home, certified nursing facility, and community, under which in-person visits will be allowed and under which in-person visits will not be allowed and visits will be required to be virtual; (ii) the requirements with which in-person visitors will be required to comply to protect the health and safety of the patients and staff of the nursing home or certified nursing facility; (iii) the types of technology, including interactive audio or video technology, and the staff support necessary to ensure visits are provided as required by this subdivision; and (iv) the steps the nursing home or certified nursing facility will take in the event of a technology failure, service interruption, or documented emergency that prevents visits from occurring as required by this subdivision. 29. Shall require each hospital, nursing home, and certified nursing facility to establish and implement policies to ensure the permissible access to and use of an intelligent personal assistant provided by a patient, in accordance with such regulations, while receiving inpatient services. Such protocol may restrict the frequency and duration of visits and may require visits to be conducted virtually using interactive audio or video technology. Any such protocol may require the person visiting a patient pursuant to this subdivision to comply with all reasonable requirements of the hospital, nursing home, or certified nursing facility adopted to protect the health and safety of the person, patients, and staff of the hospital, nursing home, or certified nursing facility.

C. Upon obtaining the appropriate license, if applicable, licensed hospitals, nursing homes, and certified nursing facilities may operate adult day care centers.

D. All facilities licensed by the Board pursuant to this article which provide treatment or care for hemophiliacs and, in the course of such treatment, stock clotting factors, shall maintain records of all lot numbers or other unique identifiers for such clotting factors in order that, in the event the lot is found to be contaminated with an infectious agent, those hemophiliacs who have received units of this contaminated clotting factor may be apprised of this contamination. Facilities which have identified a lot that is known to be contaminated shall notify the recipient's attending physician and request that he notify the recipient of the contamination. If the physician is unavailable, the facility shall notify by mail, return receipt requested, each recipient who received treatment from a known contaminated lot at the individual's last known address.

E. Hospitals in the Commonwealth may enter into agreements with the Department of Health for the provision to uninsured patients of naloxone or other opioid antagonists used for overdose reversal.

Any surplusage accruing to a locality, *land bank entity, or existing nonprofit entity* as a result of the sale of the parcel or parcels after the receipt of the deed shall be payable to the beneficiaries of any liens against the property and to the former owner, his heirs or assigns in accordance with § 58.1-3967. No deficiency shall be charged against the owner after conveyance to the locality, *land bank entity, or existing nonprofit entity.*

2. *A land bank entity or existing nonprofit entity receiving any parcel pursuant to this section shall either (i) sell the property to a third party in an arms-length transaction or, if the land bank entity or existing nonprofit entity develops the property before selling it, make such sale within a reasonable period of time after completing such development or (ii) if the land bank entity or existing nonprofit entity does not intend to sell the property, pay to the beneficiaries of any liens against*

the property and to the former owner, his heirs or assigns any amount of surplusage, if any, that would result if the property were sold and the proceeds distributed in accordance with § 58.1-3967. For purposes of this section, "existing nonprofit entity" and "land bank entity" have the same meaning as those terms are defined in § 15.2-7500.

B. For a parcel or parcels of real estate in a locality with a score of 100 or higher on the fiscal stress index, as published by the Department of Housing and Community Development in July 2020, all of the provisions of subsection A shall apply except (i) that the percentage of taxes and liens, together, including penalty and accumulated interest, and the percentage of taxes alone set forth in ~~clause clauses~~ (iii) (a) and (b) of subsection A shall exceed 35 percent and 15 percent, respectively, of the assessed value of the parcel or parcels or (ii) that the percentage of taxes and liens, together, including penalty and accumulated interest, and the percentage of taxes alone set forth in ~~clause clauses~~ (iii) (a) and (b) of subsection A shall exceed 20 percent and 10 percent, respectively, of the assessed value of the parcel or parcels, and each parcel has an assessed value of \$150,000 or less, provided that under this clause the property is not an occupied dwelling, and the locality enters into an agreement for sale of the parcel to a nonprofit organization to renovate or construct a single-family dwelling on the parcel for sale to a person or persons to reside in the dwelling whose income is below the area median income.

C. For sales by a nonprofit organization pursuant to subsection B, such sales may include either (i) both the land and the structural improvements on a property or (ii) only the structural improvements of a property and not the land the structural improvements are located on. A sale of only the structural improvements is permissible only if (a) the structural improvements are subject to a ground lease with a community land trust, as that term is defined in § 55.1-1200; (b) the structural improvements are subject to a ground lease that has a term of at least 90 years; and (c) the community land trust retains a preemptive option to purchase such structural improvements at a price determined by a formula that is designed to ensure that the improvements remain affordable in perpetuity to low-income and moderate-income families earning less than 120 percent of the area median income, adjusted for family size.

Be it enacted by the General Assembly of Virginia:

1. That §§ 8.01-626, 8.01-671, 8.01-675.3, 8.01-675.6, 8.01-676.1, 17.1-403, 17.1-405, 17.1-408, 19.2-321.1, and 19.2-321.2 of the Code of Virginia are amended and reenacted as follows:

§ 8.01-626. Review of injunction; petitions for review.

~~Wherein~~ When a circuit court (i) grants ~~an~~ a preliminary or permanent injunction ~~or~~, (ii) refuses ~~such~~ an injunction ~~or~~, (iii) having granted ~~such~~ an injunction, dissolves or refuses to enlarge it, ~~or~~ (iv) enters an order reviewable pursuant to subsection B of § 8.01-675.5, an aggrieved party may file a petition for review with the clerk of the Court of Appeals within 15 days of the circuit court's order. The clerk shall assign the petition to a three-judge panel of the Court of Appeals. The aggrieved party shall serve a copy of the petition for review on the counsel for the opposing party, which may file a response within seven days from the date of service unless the court determines a shorter time frame. The petition for review shall be accompanied by a copy of the proceedings, including the original papers and the court's order respecting the injunction. The court may take such action thereon as it considers appropriate under the circumstances of the case.

When the Court of Appeals has initially acted upon a petition for review ~~of an order of a circuit court respecting an injunction~~, a party aggrieved by such action of the Court of Appeals may, within 15 days of the order of the Court of Appeals, present a petition for review of such order to the clerk of the Supreme Court. The clerk shall assign the petition to a three-justice panel of the Supreme Court. The aggrieved party shall serve a copy of the petition for review on the counsel for the opposing party, which may file a response within seven days from the date of service unless the court determines a shorter time frame. The petition for review shall be accompanied by a copy of the proceedings before the circuit court, including the original papers and the circuit court's order respecting the injunction, and a copy of the order of the Court of Appeals from which review is sought. The Supreme Court may take such action thereon as it considers appropriate under the circumstances of the case.

Nothing in this section shall be construed to prevent the Court of Appeals or the Supreme Court from resolving a petition for review by an order joined by more than ~~one judge three judges~~ or ~~justice justices~~. ~~An order issued by a justice of the Supreme Court does not become a judgment of the court except on the concurrence of at least three justices, as provided in § 17.1-308.~~

§ 8.01-671. Time within which petition must be presented.

A. In cases where an appeal is permitted from the trial court to the Supreme Court, no petition shall be presented for an appeal to the Supreme Court from any final judgment, whether the Commonwealth be a party or not, that was rendered more than 90 days before the petition is presented, provided that an extension may be granted, in the discretion of the Supreme Court, ~~in order to attain the ends of justice on motion for good cause shown.~~

B. No appeal to the Supreme Court from a decision of the Court of Appeals shall be granted unless a petition for appeal is filed within 30 days after the date of the decision appealed from. However, an extension may be granted, in the discretion of the court, ~~in order to attain the ends of justice~~ *on motion for good cause shown.*

§ 8.01-675.3. Time within which appeal must be taken; notice.

Except as provided in § 19.2-400 for pretrial appeals by the Commonwealth in criminal cases and in § 19.2-401 for cross appeals by the defendant in such pretrial appeals, a notice of appeal to the Court of Appeals in any case within the jurisdiction of the court shall be filed within 30 days from the date of any final judgment order, decree, or conviction. When an appeal from an interlocutory decree or order is permitted, the notice of appeal shall be filed within 30 days from the date of such decree or order, except for pretrial appeals pursuant to § 19.2-398. However, an extension may be granted, in the discretion of the Court of Appeals, ~~in order to attain the ends of justice~~ *on motion for good cause shown.*

For purposes of this section, § 17.1-408, and an appeal pursuant to § 19.2-398, a petition for appeal in a criminal case or a notice of appeal to the Court of Appeals, shall be deemed to be timely filed if (i) it is mailed postage prepaid by registered or certified mail and (ii) the official postal receipt, showing mailing within the prescribed time limits, is exhibited upon demand of the clerk or any party.

§ 8.01-675.6. Jurisdictional amount.

No ~~petition appeal~~ shall be ~~presented for an appeal~~ *taken* from any judgment of a circuit court except ~~in cases in which~~ *when* the controversy is for a matter of \$500 or more in value or amount, and except in cases in which it is otherwise expressly provided; nor to a judgment of any circuit court *in a civil case* when the controversy is for a matter less in value or amount than \$500, exclusive of costs, unless there be drawn in question a freehold or franchise or the title or bounds of land, or some other matter not merely pecuniary.

§ 8.01-676.1. Security for appeal.

A. Security for costs of appeal of right to Court of Appeals in civil cases. — A party filing a notice of an appeal of right to the Court of Appeals in a civil case shall simultaneously file an appeal bond or irrevocable letter of credit in the penalty of \$500, or such sum as the trial court may require, subject to subsection E, conditioned upon paying all costs and fees incurred in the Court of Appeals and the Supreme Court if it takes cognizance of the claim. If the appellant wishes suspension of execution in a civil appeal, the security shall also be conditioned and shall be in such sum as the trial court may require as provided in subsection C.

A1. Security for costs or suspension in criminal cases. — An appeal bond or letter of credit is not required in criminal appeals as security for costs. A suspension bond is not required in criminal appeals.

B. Security for costs on petition for appeal to Court of Appeals or Supreme Court. — An appellant whose petition for appeal is granted by the Court of Appeals or the Supreme Court shall (if he has not done so) within 15 days from the date of the Certificate of Appeal file an appeal bond or irrevocable letter of credit in the same penalty as provided in subsection A, conditioned on the payment of all damages, costs, and fees incurred in the Court of Appeals and in the Supreme Court.

C. Security for suspension of execution. — An appellant who wishes execution of the judgment or award from which an appeal is sought to be suspended during the appeal shall, subject to the provisions of subsection J, file a suspending bond or irrevocable letter of credit conditioned upon the performance or satisfaction of the judgment and payment of all damages incurred in consequence of such suspension, and except as provided in subsection D, execution shall be suspended upon the filing of such security and the timely prosecution of such appeal. Such security shall be continuing and additional security shall not be necessary except as to any additional amount that may be added or to any additional requirement that may be imposed by the courts.

D. Suspension of execution in decrees for support and custody; injunctions. — The court from which an appeal is sought may refuse to suspend the execution of decrees for support and custody, and may also refuse suspension when a judgment refuses, grants, modifies, or dissolves an injunction.

E. Increase or decrease in penalty or other modification of security.

1. The trial court or commission may, upon the motion of any party (i) for good cause shown, modify the terms of the security for the appeal or of the security for the suspension of execution of a judgment and (ii) resolve any objection to the form or issuer of a bond or letter of credit at any time until the Court of Appeals or the Supreme Court acts upon any similar motion. Any party aggrieved by the decision of the trial court or commission may request a review of such decision by the appellate court before which the case is pending.

2. The Court of Appeals or the Supreme Court may order that the penalty or any other terms or requirements of the security for the appeal or of the security for the suspension of execution of a judgment be modified for good cause shown (i) upon the motion of any party or (ii) if such request is made in the brief of any party filed in the Court of Appeals, or in the Petition for Appeal or the appellee's Brief in Opposition filed in the Supreme Court or the Court of Appeals.

3. Affidavits and counter-affidavits may be filed by the parties containing facts pertinent to such request. Any increase or decrease in the amount of or other modification of the security so ordered shall be effected in the clerk's office of the trial court within 15 days of the order of the trial court, the Court of Appeals, or the Supreme Court.

4. If an increase so ordered is not effected within 15 days, the appeal shall be dismissed, in the case of the security required under subsection A or B, or the suspension of execution of a judgment shall be discontinued, in the case of the security required under subsection C.

F. By whom executed. — Each bond filed shall be executed by a party or another on his behalf, and by surety approved by the clerk of the court from which appeal is sought, or by the clerk of the Supreme Court or the clerk of the Court of

Appeals if the bond is ordered by such Court. Any letter of credit posted as security for an appeal shall be in a form acceptable to the clerk of the court from which appeal is sought, or by the clerk of the Supreme Court or the Court of Appeals if the security is ordered by such court. The letter of credit shall be from a bank incorporated or authorized to conduct banking business under the laws of this Commonwealth or authorized to do business in this Commonwealth under the banking laws of the United States, or a federally insured savings institution located in this Commonwealth.

G. Appeal from State Corporation Commission; security for costs. — When an appeal of right is entered from the State Corporation Commission to the Supreme Court, and no suspension of the order, judgment, or decree appealed from is requested, such appeal bond or letter of credit shall be filed when and in the amount required by the clerk of the Supreme Court, whose action shall be subject to review by the Supreme Court.

H. Appeal from State Corporation Commission; suspension. — Any judgment, order, or decree of the State Corporation Commission subject to appeal to the Supreme Court may be suspended by the Commission or by the Supreme Court pending decision of the appeal if the Commission or the Supreme Court deems such suspension necessary for the proper administration of justice but only upon the written application of an appellant after reasonable notice to all other parties in interest and the filing of a suspending bond or irrevocable letter of credit with such conditions, in such penalty, and with such surety thereon as the Commission or the Supreme Court may deem sufficient. But no surety shall be required if the appellant is any county, city or town of this Commonwealth, or the Commonwealth.

I. Forms of bonds; letters of credit; where filed. — The Clerk of the Supreme Court shall prescribe separate forms for bonds, one for costs alone, one for suspension of execution, and one for both and a form for irrevocable letters of credit, to which the bond or bonds or irrevocable letters of credit given shall substantially conform. The forms for each bond and the letter of credit shall be published in the Rules of Court. It shall be sufficient if the bond or letter of credit, when executed as required, is filed with the trial court, clerk of the Virginia Workers' Compensation Commission, or the clerk of the State Corporation Commission, whichever is applicable, and no personal appearance in the trial court, Virginia Workers' Compensation Commission, or State Corporation Commission by the principal, the surety on the bond or the bank issuing the letter of credit shall be required as a condition precedent to its filing.

J. In any civil litigation under any legal theory, the amount of the suspending bond or irrevocable letter of credit to be furnished during the pendency of all appeals or discretionary reviews of any judgment granting legal, equitable, or any other form of relief in order to stay the execution thereon during the entire course of appellate review by any courts shall be set in accordance with applicable laws or court rules, and the amount of the suspending bond or irrevocable letter of credit shall include an amount equivalent to one year's interest calculated from the date of the notice of appeal in accordance with § 8.01-682. However, the total suspending bond or irrevocable letter of credit that is required of an appellant and all of its affiliates shall not exceed \$25 million, regardless of the value of the judgment.

K. Dissipation of assets. — If the appellee proves by a preponderance of the evidence that a party bringing an appeal, for whom the suspending bond or irrevocable letter of credit requirement has been limited or waived, is purposefully dissipating its assets or diverting assets outside the jurisdiction of the United States courts for the purpose of evading the judgment, the limitation or waiver shall be rescinded and a court may require the appellant to post a suspending bond or irrevocable letter of credit in an amount up to the full amount of the judgment. Dissipation of assets shall not include those ongoing expenditures made from assets of the kind that the appellant made in the regular course of business prior to the judgment being appealed, such as the payment of stock dividends and other financial incentives to the shareholders of publicly owned companies, continued participation in charitable and civic activities, and other expenditures consistent with the exercise of good business judgment.

L. For good cause shown, a court may otherwise waive the filing of a suspending bond or irrevocable letter of credit as to the damages in excess of, or other than, the compensatory damages. Subject to the provisions of subsection K, the parties may agree to waive the requirement of a suspending bond or irrevocable letter of credit or agree to a suspending bond or irrevocable letter of credit in an amount less than the compensatory damages.

M. Exemption. — When an appeal is proper to protect the estate of a decedent or person under disability, or to protect the interest of the Commonwealth or any county, city, or town of this Commonwealth, no security for appeal shall be required.

N. Indigents. — No person who is an indigent shall be required to post security for an appeal bond.

O. Virginia Workers' Compensation Commission. — No claimant who files an appeal from a final decision of the Virginia Workers' Compensation Commission with the Court of Appeals shall be required to post security for costs as provided in subsection A if such claimant has not returned to his employment or by reason of his disability is unemployed. Such claimant shall file an affidavit describing his disability and employment status with the Court of Appeals together with a motion to waive the filing of the security under subsection A.

P. Time for filing security for appeal. — The appeal bond or letter of credit prescribed in subsections A and B is not jurisdictional and the time for filing such security in cases before the Court of Appeals or the Supreme Court may be extended by a judge or justice of the court before which the case is pending on motion for good cause shown ~~and to attain the ends of justice~~. The effect of failing to perfect an appeal bond shall be governed by the Rules of Supreme Court of Virginia.

Q. Consideration of appeal bond, suspending bond, or letter of credit by Court of Appeals or Supreme Court. — A determination on an issue affecting an appeal bond, suspending bond, or letter of credit in a case before the Court of Appeals or the Supreme Court may be considered by an individual judge of such court rather than by a panel of judges.

R. This section applies to injunction bonds required pursuant to § 8.01-631.

S. In accordance with § 1-205, if the party required to post an appeal or suspending bond tenders such bond together with cash in the full amount required by this section to the clerk specified in this section, no surety shall be required.

§ 17.1-403. Rules of practice, procedure, and internal processes; promulgation by Supreme Court; amendments; summary disposition of appeals.

The Supreme Court shall prescribe and publish the initial rules governing practice, procedure, and internal processes for the Court of Appeals designed to achieve the just, speedy, and inexpensive disposition of all litigation in that court consistent with the ends of justice and to maintain uniformity in the law of the Commonwealth. Before amending the rules thereafter, the Supreme Court shall receive and consider recommendations from the Court of Appeals. The rules shall prescribe procedures (i) authorizing the Court of Appeals to prescribe truncated record or appendix preparation and (ii) permitting the Court of Appeals to dispense with oral argument *if the parties agree that oral argument is not necessary or* if the panel has examined the briefs and record and unanimously agrees that oral argument is unnecessary because (a) the appeal is wholly without merit or (b) the dispositive issue or issues have been authoritatively decided, and the appellant has not argued that the case law should be overturned, extended, modified, or reversed.

§ 17.1-405. Appellate jurisdiction — Administrative agency, Virginia Workers' Compensation Commission, and civil matter appeals.

Unless otherwise provided by law, any aggrieved party may appeal to the Court of Appeals from:

1. Any final decision of a circuit court on appeal from (i) a decision of an administrative agency, or (ii) a grievance hearing decision issued pursuant to § 2.2-3005;
2. Any final decision of the Virginia Workers' Compensation Commission;
3. Except as provided in subsection B of § 17.1-406, any final judgment, order, or decree of a circuit court in a civil matter;
4. Any interlocutory decree or order pursuant to § 8.01-267.8, 8.01-626, or 8.01-675.5; ~~or~~
5. *Any interlocutory decree or order involving an equitable claim in which the decree or order (i) requires money to be paid or the possession or title of property to be changed or (ii) adjudicates the principles of a cause; or*
6. Any final judgment, order, or decree of a circuit court (i) involving an application for a concealed weapons permit pursuant to Article 6.1 (§ 18.2-307.1 et seq.) of Chapter 7 of Title 18.2, (ii) involving involuntary treatment of prisoners pursuant to § 53.1-40.1 or 53.1-133.04, or (iii) for declaratory or injunctive relief under § 57-2.02.

§ 17.1-408. Time for filing; notice; opening brief; petition.

The notice of appeal to the Court of Appeals shall be filed in every case within the court's appellate jurisdiction as provided in § 8.01-675.3. The opening brief in a criminal case shall be filed not more than 40 days after the filing of the record with the Court of Appeals. However, an extension may be granted in the discretion of the Court of Appeals ~~in order to attain the ends of justice on motion for good cause shown~~. In an appeal pursuant to subsection B or C of § 19.2-398, the petition for appeal shall be presented within the 40-day time limitation provided in this section.

Upon receiving a notice of appeal in a criminal case or, if notice of the appeal is received by the clerk prior to the entry of final judgment, upon entry of final judgment, the clerk of the circuit court shall cause a transcript to be prepared of the trial and any other circuit court proceedings, as requested by the appellant in the notice of appeal or by order of the circuit court, at the expense of the Commonwealth.

§ 19.2-321.1. Motion in the Court of Appeals for delayed appeal in criminal cases.

A. Filing and content of motion. When, due to the error, neglect, or fault of counsel representing the appellant, or of the court reporter, or of the circuit court or an officer or employee thereof, an appeal, in whole or in part, in a criminal case has (i) never been initiated; (ii) been dismissed for failure to adhere to proper form, procedures, or time limits in the perfection of the appeal; ~~or~~, (iii) *been dismissed in part because at least one assignment of error did not adhere to proper form of procedures, or (iv) the conviction has been affirmed the conviction*, for failure to file or timely file the indispensable transcript or written statement of facts as required by law or by the Rules of Supreme Court; then a motion for leave to pursue a delayed appeal may be filed in the Court of Appeals within six months after the appeal has been dismissed, the conviction has been affirmed, or the circuit court judgment sought to be appealed has become final, whichever is later. Such motion shall identify the circuit court and the style, date, and circuit court record number of the judgment sought to be appealed, and, if one was assigned in a prior attempt to appeal the judgment, shall give the Court of Appeals record number in that proceeding, and shall set forth the specific facts establishing the said error, neglect, or fault. If the error, neglect, or fault is alleged to be that of an attorney representing the appellant, the motion shall be accompanied by the affidavit of the attorney whose error, neglect, or fault is alleged, verifying the specific facts alleged in the motion, and certifying that the appellant is not personally responsible, in whole or in part, for the error, neglect, or fault causing loss of the original opportunity for appeal.

B. Service, response, and disposition. Such motion shall be served on the attorney for the Commonwealth and the Attorney General, in accordance with the Rules of Supreme Court. If the Commonwealth disputes the facts alleged in the motion, or contends that those facts do not entitle the appellant to a delayed appeal under this section, the motion shall be denied without prejudice to the appellant's right to seek a delayed appeal by means of petition for a writ of habeas corpus. Otherwise, the Court of Appeals shall, if the motion meets the requirements of this section, grant appellant leave to initiate or re-initiate pursuit of the appeal.

C. Time limits when motion granted. If the motion is granted, all computations of time under the Rules of Supreme Court shall run from the date of the order of the Court of Appeals granting the motion, or if the appellant has been determined to be indigent, from the date of the order by the circuit court appointing counsel to represent the appellant in the delayed appeal, whichever is later.

D. Applicability. The provisions of this section shall not apply to cases in which the appellant is responsible, in whole or in part, for the error, neglect, or fault causing loss of the original opportunity for appeal, nor shall it apply in cases where the claim of error, neglect, or fault has already been alleged and rejected in a prior judicial proceeding.

§ 19.2-321.2. Motion in the Supreme Court for delayed appeal in criminal cases.

A. Filing and content of motion. When, due to the error, neglect, or fault of counsel representing the appellant, or of the court reporter, or of the Court of Appeals or the circuit court or an officer or employee of either, an appeal from the Court of Appeals to the Supreme Court in a criminal case has (i) never been initiated; (ii) been dismissed for failure to adhere to proper form, procedures, or time limits in the perfection of the appeal; (iii) been dismissed in part because at least one assignment of error contained in the petition for appeal did not adhere to proper form or procedures; or (iv) been denied or the conviction has been affirmed; for failure to file or timely file the indispensable transcript or written statement of facts as required by law or by the Rules of Supreme Court; then a motion for leave to pursue a delayed appeal may be filed in the Supreme Court within six months after the appeal has been dismissed or denied, the conviction has been affirmed, or the Court of Appeals judgment sought to be appealed has become final, whichever is later. Such motion shall identify by the style, date, and Court of Appeals record number of the judgment sought to be appealed, and, if one was assigned in a prior attempt to appeal the judgment to the Supreme Court, shall give the record number assigned in the Supreme Court in that proceeding, and shall set forth the specific facts establishing the said error, neglect, or fault. If the error, neglect, or fault is alleged to be that of an attorney representing the appellant, the motion shall be accompanied by the affidavit of the attorney whose error, neglect, or fault is alleged, verifying the specific facts alleged in the motion, and certifying that the appellant is not personally responsible, in whole or in part, for the error, neglect, or fault causing loss of the original opportunity for appeal.

B. Service, response, and disposition. Such motion shall be served on the attorney for the Commonwealth and the Attorney General, in accordance with Rule 5:4 of the Supreme Court. If the Commonwealth disputes the facts alleged in the motion, or contends that those facts do not entitle the appellant to a delayed appeal under this section, the motion shall be denied without prejudice to the appellant's right to seek a delayed appeal by means of petition for a writ of habeas corpus. Otherwise, the Supreme Court shall, if the motion meets the requirements of this section, grant appellant leave to initiate or re-initiate pursuit of the appeal from the Court of Appeals to the Supreme Court.

C. Time limits when motion granted. If the motion is granted, all computations of time under the Rules of Supreme Court shall run from the date of the order of the Supreme Court granting the motion, or if the appellant has been determined to be indigent, from the date of the order by the circuit court appointing counsel to represent the appellant in the delayed appeal, whichever is later.

D. Applicability. The provisions of this section shall not apply to cases in which the appellant is responsible, in whole or in part, for the error, neglect, or fault causing loss of the original opportunity for appeal, nor shall it apply in cases where the claim of error, neglect, or fault has already been alleged and rejected in a prior judicial proceeding.

CHAPTER 715

An Act to amend and reenact § 46.2-1571 of the Code of Virginia, relating to motor vehicle dealers and manufacturers; compensation for recall, warranty, and maintenance obligations.

[S 216]

Approved April 27, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 46.2-1571 of the Code of Virginia is amended and reenacted as follows:

§ 46.2-1571. Recall, warranty, maintenance and sales incentive obligations.

A. Each motor vehicle manufacturer, factory branch, distributor, or distributor branch shall (i) specify in writing to each of its motor vehicle dealers licensed in the Commonwealth the dealer's obligations for preparation, delivery, recall, and warranty service on its products and (ii) compensate the dealer for recall or warranty parts, service, and diagnostic work required of the dealer by the manufacturer or distributor as follows:

1. Compensation of a dealer for recall or warranty parts, service, and diagnostic work shall not be less than the amounts charged by the dealer for the manufacturer's or distributor's original parts, service, and diagnostic work to retail customers for nonwarranty service, parts, and diagnostic work installed or performed in the dealer's service department ~~unless the amounts are not reasonable~~, and the determination of compensation in accordance with the provisions of this section shall be deemed reasonable due to the substantial number of repair orders reviewed, unless the manufacturer can show that the amounts are not reasonable. All manufacturer or distributor compensated parts, service, diagnostic work, updates to a vehicle accessory or function, or initialization or repair of a vehicle part, system, accessory, or function performed by the dealer shall be subject to this subsection. Recall or warranty parts compensation shall be stated as a percentage of markup,

which shall be an agreed reasonable approximation of retail markup and which shall be uniformly applied to all of the manufacturer's or distributor's parts unless otherwise provided for in this section. If the dealer and manufacturer or distributor cannot agree on the recall or warranty parts compensation markup to be paid to the dealer, the markup shall be determined by an average of the dealer's retail markup on all of the manufacturer's or distributor's parts as described in subdivisions 2 and 3.

2. For purposes of determining recall or warranty parts and service compensation paid to a dealer by the manufacturer or distributor, *including body-shop repairs, only retail repair orders, or the retail portion of repair orders containing retail and non-retail operations, shall be considered. For the purposes of this section, "retail" does not include menu-priced parts or services, services and parts used in internal repairs paid by the dealer, group discounts, special event discounts, and special event promotions shall not be considered in determining amounts charged by the dealer to retail customers. For purposes of determining labor compensation for recall or warranty body shop repairs paid to a dealer by the manufacturer or distributor, internal and insurance-paid repairs shall not be considered in determining amounts charged by the dealer to retail customers, and insurance-paid repairs.*

3. Increases in dealer recall or warranty parts and service compensation and diagnostic work compensation, pursuant to this section, shall be requested by the dealer in writing, shall be based on 100 consecutive repair orders or all repair orders over a 90-day period, whichever occurs first, ~~and, in the case of parts,~~ *If any portion of a retail repair order includes amounts that are not retail, such portion shall be excluded. Compensation for parts shall be stated as a percentage of markup that shall be uniformly applied to all the manufacturer's or distributor's parts.*

4. In the case of recall or warranty parts compensation, the provisions of this subsection shall be effective only for model year 1992 and succeeding model years.

5. If a manufacturer or distributor furnishes a part to a dealer at no cost for use by the dealer in performing work for which the manufacturer or distributor is required to compensate the dealer under this section, the manufacturer or distributor shall compensate the dealer for the part in the same manner as recall or warranty parts compensation, less the wholesale costs, for such part as listed in the manufacturer's current price schedules. A manufacturer or distributor may pay the dealer a reasonable handling fee instead of the compensation otherwise required by this subsection for special high-performance complete engine assemblies in limited production motor vehicles that constitute less than five percent of model production furnished to the dealer at no cost, if the manufacturer or distributor excludes such special high-performance complete engine assemblies in determining whether the amounts requested by the dealer for recall or warranty compensation are consistent with the amounts that the dealer charges its other retail service customers for parts used by the dealer to perform similar work.

6. In the case of service work, manufacturer original parts or parts otherwise specified by the manufacturer or distributor, and parts provided by a dealer either pursuant to an adjustment program as defined in § 59.1-207.34 or as otherwise requested by the manufacturer or distributor, the dealer shall be compensated in the same manner as for recall or warranty service or parts.

This section does not apply to compensation for parts such as components, systems, fixtures, appliances, furnishings, accessories, and features that are designed, used, and maintained primarily for nonvehicular, residential purposes. Recall, warranty, and sales incentive audits of dealer records may be conducted by the manufacturer, factory branch, distributor, or distributor branch on a reasonable basis, and dealer claims for recall, warranty, or sales incentive compensation shall not be denied except for good cause, such as performance of nonwarranty repairs, lack of material documentation, fraud, or misrepresentation. A dealer's failure to comply with the specific requirements of the manufacturer or distributor for processing the claim shall not constitute grounds for the denial of the claim or reduction of the amount of compensation to the dealer as long as reasonable documentation or other evidence has been presented to substantiate the claim. The manufacturer, factory branch, distributor, or distributor branch shall not deny a claim or reduce the amount of compensation to the dealer for recall or warranty repairs to resolve a condition discovered by the dealer during the course of a separate repair requested by the customer or to resolve a condition on the basis of advice or recommendation by the dealer. Claims for dealer compensation shall be paid within 30 days of dealer submission or within 30 days of the end of an incentive program or rejected in writing for stated reasons. The manufacturer, factory branch, distributor, or distributor branch shall reserve the right to reasonable periodic audits to determine the validity of all such paid claims for dealer compensation. Any chargebacks for recall or warranty parts or service compensation and service incentives shall only be for the six-month period immediately following the date of the claim and, in the case of chargebacks for sales compensation only, for the six-month period immediately following the date of claim. However, such limitations shall not be effective if a manufacturer, factory branch, distributor, or distributor branch has reasonable cause to believe that a claim submitted by a dealer is intentionally false or fraudulent. For purposes of this section, "reasonable cause" means a bona fide belief based upon evidence that the material issues of fact are such that a person of ordinary caution, prudence, and judgment could believe that a claim was intentionally false or fraudulent. A dealer shall not be charged back or otherwise liable for sales incentives or charges related to a motor vehicle sold by the dealer to a purchaser other than a licensed, franchised motor vehicle dealer and subsequently exported or resold, unless the manufacturer, factory branch, distributor, or distributor branch can demonstrate by a preponderance of the evidence that the dealer should have known of and did not exercise due diligence in discovering the purchaser's intention to export or resell the motor vehicle.

B. It shall be unlawful for any motor vehicle manufacturer, factory branch, distributor, or distributor branch to:

1. Fail to perform any of its recall or warranty obligations, including tires, with respect to a motor vehicle;

2. Fail to assume all responsibility for any liability resulting from structural or production defects;
 3. Fail to include in written notices of factory recalls to vehicle owners and dealers the expected date by which necessary parts and equipment will be available to dealers for the correction of defects;
 4. Fail to compensate any of the motor vehicle dealers licensed in the Commonwealth for repairs effected by the dealer of merchandise damaged in manufacture or transit to the dealer where the carrier is designated by the manufacturer, factory branch, distributor, or distributor branch;
 5. Fail to fully compensate its motor vehicle dealers licensed in the Commonwealth for recall or warranty parts, work, and service pursuant to subsection A either by reduction in the amount due to the dealer or by separate charge, surcharge, or other imposition by which the motor vehicle manufacturer, factory branch, distributor, or distributor branch seeks to recover its costs of complying with subsection A, or for legal costs and expenses incurred by such dealers in connection with recall or warranty obligations for which the manufacturer, factory branch, distributor, or distributor branch is legally responsible or which the manufacturer, factory branch, distributor, or distributor branch imposes upon the dealer. *Failure to fully reimburse a dealer for the cost to the dealer of a rental vehicle provided to a customer as required, offered, advertised as available, or agreed to by the manufacturer or distributor shall be considered a violation of this subsection. Failure to provide compensation consistent with this section to a dealer for assistance requested by a customer whose vehicle was subjected to an over the air or remote change, repair, or update to any part, system, accessory, or function by the vehicle manufacturer or distributor and performed at the dealership to satisfy the customer shall be considered a violation of this subsection;*
 6. Misrepresent in any way to purchasers of motor vehicles that warranties with respect to the manufacture, performance, or design of the vehicle are made by the dealer, either as warrantor or co-warrantor;
 7. Require the dealer to make warranties to customers in any manner related to the manufacture, performance, or design of the vehicle;
 8. Shift or attempt to shift to the motor vehicle dealer, directly or indirectly, any liabilities of the manufacturer, factory branch, distributor or distributor branch under the Virginia Motor Vehicle Warranty Enforcement Act (§ 59.1-207.9 et seq.), unless such liability results from the act or omission by the dealer; ~~or~~
 9. Deny any dealer the right to return any part or accessory that the dealer has not sold within 12 months where the part or accessory was not obtained through a specific order initiated by the dealer but instead was specified for, sold to and shipped to the dealer pursuant to an automated ordering system, provided that such part or accessory is in the condition required for return to the manufacturer, factory branch, distributor, or distributor branch, and the dealer returns the part within 30 days of it becoming eligible under this subdivision. For purposes of this subdivision, an "automated ordering system" shall be a computerized system that automatically specifies parts and accessories for sale and shipment to the dealer without specific order thereof initiated by the dealer. The manufacturer, factory branch, distributor, or distributor branch shall not charge a restocking or handling fee for any part or accessory being returned under this subdivision. This subdivision shall not apply if the manufacturer, factory branch, distributor, or distributor branch has available to the dealer an alternate system for ordering parts and accessories that provides for shipment of ordered parts and accessories to the dealer within the same time frame as the dealer would receive them when ordered through the automated ordering system, *or*
 10. *When providing a new motor vehicle to a dealer for offer or sale to the public, fail to provide to such dealer a written disclosure that may be provided to a potential buyer of the new motor vehicle of each accessory or function of the vehicle that may be initiated, updated, changed, or maintained by the manufacturer or distributor through over the air or remote means, and the charge to the customer for such initiation, update, change, or maintenance. A manufacturer or distributor may comply with this subdivision by notifying the dealer that such information is available on a website or by other digital means.*
- C. Notwithstanding the terms of any franchise, it shall be unlawful for any motor vehicle manufacturer, factory branch, distributor, or distributor branch to fail to indemnify and hold harmless its motor vehicle dealers against any losses or damages arising out of complaints, claims, or suits relating to the manufacture, assembly, or design of motor vehicles, parts, or accessories, or other functions by the manufacturer, factory branch, distributor, or distributor branch beyond the control of the dealer, including, without limitation, the selection by the manufacturer, factory branch, distributor, or distributor branch of parts or components for the vehicle or any damages to merchandise occurring in transit to the dealer where the carrier is designated by the manufacturer, factory branch, distributor, or distributor branch. The dealer shall notify the manufacturer of pending suits in which allegations are made that come within this subsection whenever reasonably practicable to do so. Every motor vehicle dealer franchise issued to, amended, or renewed for motor vehicle dealers in Virginia shall be construed to incorporate provisions consistent with the requirements of this subsection.
- D. On any new motor vehicle, any uncorrected damage or any corrected damage exceeding three percent of the manufacturer's or distributor's suggested retail price as defined in 15 U.S.C. §§ 1231 -1233, as measured by retail repair costs, must be disclosed to the dealer in writing prior to delivery. Factory mechanical repair and damage to glass, tires, and bumpers are excluded from the three percent rule when properly replaced by identical manufacturer's or distributor's original equipment or parts. Whenever a new motor vehicle is damaged in transit, when the carrier or means of transportation is determined by the manufacturer or distributor, or whenever a motor vehicle is otherwise damaged prior to delivery to the new motor vehicle dealer, the new motor vehicle dealer shall:
1. Notify the manufacturer or distributor of the damage within three business days from the date of delivery of the new motor vehicle to the new motor vehicle dealership or within the additional time specified in the franchise; and

2. Request from the manufacturer or distributor authorization to replace the components, parts, and accessories damaged or otherwise correct the damage, unless the damage to the vehicle exceeds the three percent rule, in which case the dealer may reject the vehicle within three business days.

E. If the manufacturer or distributor refuses or fails to authorize correction of such damage within 10 days after receipt of notification, or if the dealer rejects the vehicle because damage exceeds the three percent rule, ownership of the new motor vehicle shall revert to the manufacturer or distributor, and the new motor vehicle dealer shall have no obligation, financial or otherwise, with respect to such motor vehicle. Should either the manufacturer, distributor, or the dealer elect to correct the damage or any other damage exceeding the three percent rule, full disclosure shall be made by the dealer in writing to the buyer and an acknowledgement by the buyer is required. If there is less than three percent damage, no disclosure is required, provided the damage has been corrected. Predelivery mechanical work shall not require a disclosure. Failure to disclose any corrected damage within the knowledge of the selling dealer to a new motor vehicle in excess of the three percent rule shall constitute grounds for revocation of the buyer order, provided that, within 30 days of purchase, the motor vehicle is returned to the dealer with an accompanying written notice of the grounds for revocation. In case of revocation pursuant to this section, the dealer shall accept the vehicle and refund any payments made to the dealer in connection with the transaction, less a reasonable allowance for the consumer's use of the vehicle as defined in § 59.1-207.11. Nothing in this section shall be construed to exempt from the provisions of this section damage to a new motor vehicle that occurs following delivery of the vehicle to the dealer.

F. If there is a dispute between the manufacturer, factory branch, distributor, or distributor branch and the dealer with respect to any matter referred to in subsection A, B, or C, either party may petition the Commissioner in writing, within 30 days after either party has given written notice of the dispute to the other, for a hearing. The decision of the Commissioner shall be binding on the parties, subject to rights of judicial review and appeal as provided in Chapter 40 (§ 2.2-4000 et seq.) of Title 2.2. However, nothing contained in this section shall give the Commissioner any authority as to the content or interpretation of any manufacturer's or distributor's warranty. A manufacturer, factory branch, distributor, or distributor branch may not collect chargebacks, fully or in part, either through direct payment or by charge to the dealer's account, for recall or warranty parts or service compensation, including service incentives, sales incentives, other sales compensation, surcharges, fees, penalties, or any financial imposition of any type arising from an alleged failure of the dealer to comply with a policy of, directive from, or agreement with the manufacturer, factory branch, distributor, or distributor branch until 40 days following final notice of the amount charged to the dealer following all internal processes of the manufacturer, factory, factory branch, distributor, or distributor branch. Within 30 days following receipt of such final notice, the dealer may petition the Commissioner, in writing, for a hearing. If a dealer requests such a hearing, the manufacturer, factory branch, distributor, or distributor branch may not collect the chargeback, fully or in part, either through direct payment or by charge to the dealer's account, until the completion of the hearing and a final decision of the Commissioner concerning the validity of the chargeback.

This advisory committee shall be established by December 1, 2022, and shall be convened at least every five years thereafter.

§ 60.2-111. Duties and powers of Commission; reporting requirements.

A. It shall be the duty of the Commission to administer this title. It shall have power and authority to adopt, amend, or rescind such rules and regulations, to employ such persons, make such expenditures, require such reports, make such investigations, and take such other action, including the appointment of advisory groups, as it deems necessary or suitable to that end. Such rules and regulations shall be subject to the provisions of Chapter 40 (§ 2.2-4000 et seq.) of Title 2.2, except as to the subject matter of subdivisions 2 and 3 of § 60.2-515, which shall become effective in the manner prescribed by § 2.2-4103. The Commission shall determine its own organization and methods of procedure in accordance with provisions of this title, and shall have an official seal which shall be judicially noticed.

B. The Commission shall prepare an annual balance sheet of the moneys in the fund and in the Unemployment Trust Fund to the credit of the Commonwealth in which there shall be provided, if possible, a reserve against the liability in future years to pay benefits in excess of the ~~then current~~ then-current taxes. That reserve shall be set up by the Commission in accordance with accepted actuarial principles on the basis of statistics of employment, business activity, and other relevant factors for the longest possible period. Whenever the Commission believes that a change in tax or benefit rates is necessary to protect the solvency of the Fund, it shall promptly so inform the Governor and the General Assembly and make recommendations with respect thereto.

C. In preparing the annual balance sheet required by subsection B, the Commission shall regularly track metrics related to unemployment insurance benefits, establish a mechanism to help assess the adequacy of benefits, and examine metrics related to reciprocity, average benefit levels, and benefit income replacement ratios. The annual balance sheet shall include the following calculations: (i) the average unemployment insurance benefit levels, (ii) the average income replacement of unemployment insurance benefits, and (iii) the reciprocity rate for unemployment insurance benefits in the Commonwealth.

D. The Commission, as part of its biennial strategic plan submitted to the Department of Planning and Budget, shall develop and maintain a comprehensive unemployment insurance Resiliency Plan that describes specific actions the Commission will take, depending on the level of increase in unemployment insurance (UI) claims, to address staffing, communications, and other relevant aspects of operations to ensure continued efficient and effective administration of the UI program. The Resiliency Plan shall include proposed actions consistent with the following objectives to effectively prepare for periods of high unemployment:

1. Develop specific strategies or steps the Commission will take to modify staffing levels in response to incidents that increase UI program demand. These strategies or steps shall (i) include a staffing plan for varying levels of UI workload volume, (ii) cover several scenarios that may affect UI assistance services, (iii) explain how existing staff would be reallocated to high-priority functions in response to high demand, and (iv) describe how the Commission's hiring process will be streamlined to fill key vacant positions such as adjudication and appeals staff.

2. Develop specific strategies or steps the Commission will take to modify policies, procedures, or processes in response to high demands on its services.

3. Outline a strategy for clearly communicating key UI program changes to customers. This strategy shall indicate which staff will be responsible for different types of communications and include several communications goals, such as clearly conveying UI program and policy changes.

4. Outline a strategy for clearly communicating important UI information to Commission staff, the public, and the General Assembly.

5. Formalize a policy for prioritizing and assigning claims for adjudication during periods of high claims volume. This policy shall detail how prioritization may change in response to claims volume and state that the policy of the Commission is to generally prioritize resolving older claims before newer claims.

6. Identify other tactical actions to be taken to ensure the continuity of UI claims processing and customer service.

§ 60.2-121.2. Electronic submission of information; payments.

A. Each employer subject to the provisions of this title shall submit claim-related forms, including separation information, using an electronic format as prescribed by the Commission, unless the employer has been granted a waiver by the Commission. An employer shall submit any other information related to a claim, as defined in § 60.2-528.1, at any time when requested by the Commission, to the Commission by electronic means, unless the employer has been granted a waiver by the Commission. The Commission may also require, at any time, that an employer submit unemployment insurance tax payments electronically, unless the employer has been granted a waiver by the Commission.

B. The Commission may grant a waiver to an employer from providing information or payments electronically pursuant to this section at any time. The Commission may grant a waiver only if the Commission finds that the electronic submission requirement creates an unreasonable burden on the employer. All requests for a waiver shall be submitted in writing.

§ 60.2-121.3. Unemployment Compensation Ombudsman; established; responsibilities.

A. The Commission shall create the Office of the Unemployment Compensation Ombudsman (the Office) and shall appoint an Unemployment Compensation Ombudsman to head the Office. The Unemployment Compensation Ombudsman shall provide neutral educational information and assistance to, shall protect the interests of, and shall ensure that due process is afforded to all persons seeking assistance in (i) appeals proceedings brought pursuant to Chapter 6 (§ 60.2-600 et seq.) and (ii) any other matter related to unemployment compensation under this title. Subject to annual appropriations, the Unemployment Compensation Ombudsman shall employ sufficient personnel to carry out the duties and powers prescribed by this section. The Unemployment Compensation Ombudsman and personnel of the Office shall carry out their duties with impartiality and shall not serve as an advocate for any person or provide legal advice.

B. The Unemployment Compensation Ombudsman shall maintain data on inquiries received related to the unemployment compensation process, the types of assistance requested, and actions taken and the disposition of each such matter. The Unemployment Compensation Ombudsman shall report information summarizing this data, including outcomes of individual cases, without disclosing individual-level identifying data, to the Commission at least once annually. The Unemployment Compensation Ombudsman shall carry out any additional activities as the Commission determines to be appropriate.

C. All memoranda, work products, and other materials contained in the case files of the Unemployment Compensation Ombudsman and personnel of the Office shall be confidential. Any communication between the Unemployment Compensation Ombudsman and personnel of the Office and a person receiving assistance that is made during or in connection with the provision of services of the Unemployment Compensation Ombudsman and personnel of the Office shall be confidential. Confidential materials and communications shall not be subject to disclosure and shall not be admissible in any judicial or administrative proceeding except where (i) a threat to inflict bodily injury is made; (ii) communications are intentionally used to plan, attempt to commit, or commit a crime or conceal an ongoing crime; (iii) a complaint is made against the Unemployment Compensation Ombudsman or personnel of the Office by a person receiving assistance to the extent necessary for the complainant to prove misconduct or the Unemployment Compensation Ombudsman or personnel of the Office to defend against such complaint; or (iv) communications are sought or offered to prove or disprove a claim or complaint of misconduct or malpractice filed against the legal representative of a person who received assistance from the Unemployment Compensation Ombudsman or personnel of the Office. Confidential materials and communications as described in this section are not subject to mandatory disclosure under the Virginia Freedom of Information Act (§ 2.2-3700 et seq.).

D. The Unemployment Compensation Ombudsman and personnel of the Office shall be immune from civil liability in their performance of the duties specified in this section.

§ 60.2-619. (Effective until July 1, 2022) Determinations and decisions by deputy; appeals therefrom.

A. 1. A representative designated by the Commission as a deputy, shall promptly examine the claim. On the basis of the facts found by him, the deputy shall either:

a. Determine whether or not such claim is valid, and if valid, the week with respect to which benefits shall commence, the weekly benefit amount payable and the maximum duration thereof; or

b. Refer such claim or any question involved therein to any appeal tribunal or to the Commission, which tribunal or Commission shall make its determination in accordance with the procedure described in § 60.2-620.

2. When the payment or denial of benefits will be determined by the provisions of subdivision 2 of § 60.2-612, the deputy shall promptly transmit his full finding of fact with respect to that subdivision to any appeal tribunal, which shall make its determination in accordance with the procedure described in § 60.2-620.

B. Upon the filing of an initial claim for benefits, the Commission shall cause an informatory notice of such filing to be mailed to the most recent 30-day or 240-hour employing unit of the claimant and all subsequent employing units, and any reimbursable employing units that may be liable for reimbursement to the Commission for any benefits paid. However, the failure to furnish such notice shall not have any effect upon the claim for benefits. If a claimant has had a determination of initial eligibility for benefits under this chapter, as evidenced by the issuance of compensation or waiting-week credit,

payments shall continue, subject to a presumption of continued eligibility and in accordance with the terms of this subsection, until a determination is made that provides the claimant notice and an opportunity to be heard. When a question concerning continued eligibility for benefits arises, a determination shall be made as to whether it affects future weeks of benefits or only past weeks. With respect to future weeks, presumptive payment shall not be made until but no later than the end of the week following the week in which such issue arises, regardless of the type of issue. With respect to past weeks, presumptive payment shall be issued immediately, regardless of the type of issue. Notice shall be given to individuals who receive payments under such presumption that pending eligibility may affect their entitlement to the payment and may result in an overpayment that requires repayment.

C. Notice of determination upon a claim shall be promptly given to the claimant by delivering or by mailing such notice to the claimant's last known address. In addition, notice of any determination that involves the application of the provisions of § 60.2-618, together with the reasons therefor, shall be promptly given in the same manner to the most recent 30-day or 240-hour employing unit by whom the claimant was last employed and any subsequent employing unit which is a party. The Commission may dispense with the giving of notice of any determination to any employing unit, and such employing unit shall not be entitled to such notice if it has failed to respond timely or adequately to a written request of the Commission for information, as required by § 60.2-528.1, from which the deputy may have determined that the claimant may be ineligible or disqualified under any provision of this title. The deputy shall promptly notify the claimant of any decision made by him at any time which in any manner denies benefits to the claimant for one or more weeks.

D. Such determination or decision shall be final unless the claimant or any such employing unit files an appeal from such determination or decision (i) within 30 calendar days after the delivery of such notification, (ii) within 30 calendar days after such notification was mailed to his last known address, or (iii) within 30 days after such notification was mailed to the last known address of an interstate claimant. For good cause shown, the 30-day period may be extended. *A claim that the Commission has determined to be invalid because of monetary ineligibility shall first be subject to review only upon a request for redetermination pursuant to § 60.2-629. The Commission shall issue a new monetary determination as a result of such review, and such monetary determination shall become final unless appealed by the claimant within 30 days of the date of mailing. The Commission shall clearly set out the process for requesting a redetermination and the process for filing an appeal on each monetary determination issued. Monetary ineligibility does not include an appeal on the effective date of the claim, unless the claimant has requested and received a redetermination of the monetary determination pursuant to § 60.2-629.*

E. Benefits shall be paid promptly in accordance with a determination or redetermination under this chapter, or decision of an appeal tribunal, the Commission, the Board of Review or a reviewing court under §§ 60.2-625 and 60.2-631 upon the issuance of such determination, redetermination or decision, regardless of the pendency of the period to file an appeal or petition for judicial review that is provided in this chapter, or the pendency of any such appeal or review. Such benefits shall be paid unless or until such determination, redetermination or decision has been modified or reversed by a subsequent redetermination or decision, in which event benefits shall be paid or denied for weeks of unemployment thereafter in accordance with such modifying or reversing redetermination or decision. If a decision of an appeal tribunal allowing benefits is affirmed in any amount by the Commission, benefits shall continue to be paid until such time as a court decision has become final so that no further appeal can be taken. If an appeal is taken from the Commission's decision, benefits paid shall result in a benefit charge to the account of the employer under § 60.2-530 only when, and as of the date on which, as the result of an appeal, the courts finally determine that the Commission should have awarded benefits to the claimant or claimants involved in such appeal.

§ 60.2-619. (Effective July 1, 2022) Determinations and decisions by deputy; appeals therefrom.

A. 1. A representative designated by the Commission as a deputy, shall promptly examine the claim. On the basis of the facts found by him, the deputy shall either:

- a. Determine whether or not such claim is valid, and if valid, the week with respect to which benefits shall commence, the weekly benefit amount payable and the maximum duration thereof; or
- b. Refer such claim or any question involved therein to any appeal tribunal or to the Commission, which tribunal or Commission shall make its determination in accordance with the procedure described in § 60.2-620.

2. When the payment or denial of benefits will be determined by the provisions of subdivision 2 of § 60.2-612, the deputy shall promptly transmit his full finding of fact with respect to that subdivision to any appeal tribunal, which shall make its determination in accordance with the procedure described in § 60.2-620.

B. Upon the filing of an initial claim for benefits, the Commission shall cause an informatory notice of such filing to be mailed to the most recent 30-day or 240-hour employing unit of the claimant and all subsequent employing units, and any reimbursable employing units which may be liable for reimbursement to the Commission for any benefits paid. However, the failure to furnish such notice shall not have any effect upon the claim for benefits.

C. Notice of determination upon a claim shall be promptly given to the claimant by delivering or by mailing such notice to the claimant's last known address. In addition, notice of any determination which involves the application of the provisions of § 60.2-618, together with the reasons therefor, shall be promptly given in the same manner to the most recent 30-day or 240-hour employing unit by whom the claimant was last employed and any subsequent employing unit which is a party. The Commission may dispense with the giving of notice of any determination to any employing unit, and such employing unit shall not be entitled to such notice if it has failed to respond timely or adequately to a written request of the Commission for information, as required by § 60.2-528.1, from which the deputy may have determined that the claimant

may be ineligible or disqualified under any provision of this title. The deputy shall promptly notify the claimant of any decision made by him at any time which in any manner denies benefits to the claimant for one or more weeks.

D. Such determination or decision shall be final unless the claimant or any such employing unit files an appeal from such determination or decision (i) within 30 calendar days after the delivery of such notification, (ii) within 30 calendar days after such notification was mailed to his last known address, or (iii) within 30 days after such notification was mailed to the last known address of an interstate claimant. For good cause shown, the 30-day period may be extended. *A claim that the Commission has determined to be invalid because of monetary ineligibility shall first be subject to review only upon a request for redetermination pursuant to § 60.2-629. The Commission shall issue a new monetary determination as a result of such review, and such monetary determination shall become final unless appealed by the claimant within 30 days of the date of mailing. The Commission shall clearly set out the process for requesting a redetermination and the process for filing an appeal on each monetary determination issued. Monetary ineligibility does not include an appeal on the effective date of the claim, unless the claimant has requested and received a redetermination of the monetary determination pursuant to § 60.2-629.*

E. Benefits shall be paid promptly in accordance with a determination or redetermination under this chapter, or decision of an appeal tribunal, the Commission, the Board of Review or a reviewing court under §§ 60.2-625 and 60.2-631 upon the issuance of such determination, redetermination or decision, regardless of the pendency of the period to file an appeal or petition for judicial review that is provided in this chapter, or the pendency of any such appeal or review. Such benefits shall be paid unless or until such determination, redetermination or decision has been modified or reversed by a subsequent redetermination or decision, in which event benefits shall be paid or denied for weeks of unemployment thereafter in accordance with such modifying or reversing redetermination or decision. If a decision of an appeal tribunal allowing benefits is affirmed in any amount by the Commission, benefits shall continue to be paid until such time as a court decision has become final so that no further appeal can be taken. If an appeal is taken from the Commission's decision, benefits paid shall result in a benefit charge to the account of the employer under § 60.2-530 only when, and as of the date on which, as the result of an appeal, the courts finally determine that the Commission should have awarded benefits to the claimant or claimants involved in such appeal.

2. That the Virginia Department of Human Resource Management shall lead a multiagency work group, composed of agency leaders and human resources staff from state agencies most likely to be in need of staffing assistance during emergencies, to examine the feasibility of, funding for, and policies and procedures necessary for (i) granting agencies exemptions from certain competitive hiring requirements during emergencies; (ii) requiring selected state agency staff to temporarily support other agencies in need of staffing assistance during emergencies through existing or new state initiatives; and (iii) providing necessary funding to cover the associated costs. The work group shall propose criteria to determine under what circumstances these emergency hiring practices may be invoked and a process for invoking this authority as well as terminating it. The work group shall submit its findings to the Secretary of Administration and the Chairmen of the House Committee on Appropriations and the Senate Committee on Finance and Appropriations by December 1, 2022.

3. That the Virginia Employment Commission (the Commission) shall, by December 1, 2022, direct staff in its internal audit division to review and revise documents and online resources to clearly describe and explain to claimants and employers requirements for unemployment compensation. In its review and revision, the internal audit division shall describe and explain (i) eligibility criteria for unemployment insurance, (ii) how to navigate the unemployment insurance claims and appeals process, and (iii) how to determine the status or outcome of a claim. The Commission shall consider examples from other states, collect input from Commission staff and unemployment compensation recipients, and competitively procure a third-party contractor with expertise in unemployment insurance and customer communications to help with efforts in reviewing and revising its documents and online resources.

4. That an emergency exists and this act is in force from its passage.

Be it enacted by the General Assembly of Virginia:

It shall be unlawful for any person to engage in business in the Commonwealth as a manufacturer, factory branch, distributor, distributor branch, or factory or distributor representative without first obtaining a license from the Department. Every person licensed as a manufactured home dealer under Chapter 4.2 (§ 36-85.16 et seq.) of Title 36 shall obtain a certificate of dealer registration as provided in this chapter. Every person licensed as a watercraft dealer under Chapter 8 (§ 29.1-800 et seq.) of Title 29.1 and who offers for sale watercraft trailers shall obtain a certificate of dealer registration as provided in this chapter but shall not be required to obtain a dealer license unless he also sells other types of trailers. Any person licensed in another state as a motor vehicle dealer may sell motor vehicles at wholesale auctions in the Commonwealth after having obtained a certificate of dealer registration as provided in this chapter. The offering or granting of a motor vehicle dealer franchise in the Commonwealth shall constitute engaging in business in the Commonwealth for purposes of this section, and no new motor vehicle may be sold or offered for sale in the Commonwealth unless the franchisor of motor vehicle dealer franchises for that line-make in the Commonwealth, whether such franchisor is a manufacturer, factory branch, distributor, distributor branch, or otherwise, is licensed under this chapter. In the event a license issued to a franchisor of motor vehicle dealer franchises is suspended, revoked, or not renewed, nothing in this section shall prevent the sale of any new motor vehicle of such franchisor's line-make manufactured in or brought into the Commonwealth for sale prior to the suspension, revocation or expiration of the license.

Violation of any provision of this subsection shall constitute a Class 1 misdemeanor, and such violation may also serve as the basis for injunctive relief pursuant to subsection B or C.

A single act in violation of the provisions of subsection A is sufficient basis to authorize the issuance of an injunction. The Board shall not be required to post an injunction bond or other security.

C. Any licensed motor vehicle dealer who sustains injury or damage to his business or property by reason of a violation of subsection A by any person that is not licensed as required by subsection A may file a motion with the circuit court for the county or city in which a person alleged to have committed such violation is located, and, upon a hearing and for cause shown, the court may grant a temporary or permanent injunction prohibiting any further such violation. A single act in violation of the provisions of subsection A shall be sufficient basis to show injury or damage to the business or property of the licensed motor vehicle dealer. A licensed motor vehicle dealer shall not be required to post an injunction bond or other security.

D. If the Board, pursuant to subsection B, or a licensed motor vehicle dealer, pursuant to subsection C, is awarded an injunction, the court may also award reasonable attorney fees and costs.

The funds in the Program shall be awarded such that on a five-year rolling average, the amount of funds awarded to each urbanized area shall be equal to a ratio of the population within the Commonwealth of such urbanized area compared to the total population within the Commonwealth of all eligible urbanized areas. The Board may through an affirmative vote of a majority of the members vote to waive this requirement for a period not to exceed two years when they find there is a need that justifies such waiver.

D. Notwithstanding the provisions of this section, the Board shall use ~~an amount not to exceed~~ at least 25 percent of the funds available to support the establishment of programs to reduce the impact of fares on low-income individuals, including reduced-fare programs and elimination of fares. The restrictions in subsection A shall not apply to funds used pursuant to this subsection, *nor shall the funds used pursuant to this subsection be used to calculate the rolling average described in subsection C.*

E. The Board shall report annually to the Governor and the General Assembly on the projects and services funded by the Program. The report shall, at a minimum, include an analysis of the performance of the funded projects, the performance of the identified routes of regional significance, transit ridership, efforts funded pursuant to subsection E, and any other information the Board determines to be appropriate.

2. That the provisions of this act amending the first sentence of subsection D of § 33.2-1526.3 of the Code of Virginia shall expire on July 1, 2024.

A contract modification shall not be made for the purpose of providing reimbursement for the interest charge. A cost reimbursement claim shall not include any amount for reimbursement for the interest charge.

§ 11-4.6. Liability of contractor for wages of subcontractor's employees.

A. As used in this section, unless the context requires a different meaning:

~~C~~ *E. A general contractor shall be deemed to be the employer of a subcontractor's employees at any tier for purposes of § 40.1-29. If the wages due to the subcontractor's employees under the terms of the employment agreement between a subcontractor and its employees are not paid, the general contractor shall be subject to all penalties, criminal and civil, to which an employer that fails or refuses to pay wages is subject under § 40.1-29. Any liability of a general contractor pursuant to § 40.1-29 shall be joint and several with the subcontractor that failed or refused to pay the wages to its employees.*

~~D~~ *F. Except as otherwise provided in a contract between the general contractor and the subcontractor, the subcontractor shall indemnify the general contractor for any wages, damages, interest, penalties, or attorney fees owed as a result of the subcontractor's failure to pay wages to the subcontractor's employees as provided in subsection ~~B~~ D, unless the subcontractor's failure to pay the wages was due to the general contractor's failure to pay moneys due to the subcontractor in accordance with the terms of their construction contract.*

~~E~~ *G. The provisions of this section shall only apply if (i) it can be demonstrated that the general contractor knew or should have known that the subcontractor was not paying his employees all wages due, (ii) the construction contract is related to a project other than a single family residential project, and (iii) the value of the project, or an aggregate of projects under one construction contract, is greater than \$500,000. As evidence a general contractor may offer a written certification, under oath, from the subcontractor in direct privity of contract with the general contractor stating that (a) the subcontractor and each of his sub-subcontractors has paid all employees all wages due for the period during which the wages are claimed for the work performed on the project and (b) to the subcontractor's knowledge all sub-subcontractors below the subcontractor, regardless of tier, have similarly paid their employees all such wages. Any person who falsely signs such certification shall be personally liable to the general contractor for fraud and any damages the general contractor may incur.*

2. That the Department of General Services shall convene the Public Body Procurement Workgroup (the Workgroup) to review whether the issue of nonpayment between general contractors and subcontractors necessitates legislative corrective action. The Workgroup shall report its findings and any legislative recommendations to the General Assembly on or before December 1, 2022.

3. That the provisions of the first enactment of this act shall become effective on January 1, 2023, and shall apply to construction contracts executed on or after January 1, 2023.

CHAPTER 728

An Act to amend and reenact §§ 56-248.1, 56-265.1, and 56-600 through 56-604 of the Code of Virginia and to amend the Code of Virginia by adding in Title 56 a chapter numbered 30, consisting of a section numbered 56-625, relating to natural gas, biogas, and other gas sources of energy; definitions; energy conservation and efficiency; Steps to Advance Virginia's Energy Plan; biogas supply infrastructure projects.

[S 565]

Approved April 27, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 56-248.1, 56-265.1, and 56-600 through 56-604 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding in Title 56 a chapter numbered 30, consisting of a section numbered 56-625, as follows:

§ 56-248.1. Commission to monitor fuel prices and utility fuel purchases; fuel price index.

A. The Commission shall monitor all fuel purchases, transportation costs, and contracts for such purchases of a utility to ascertain that all feasible economies are being utilized. *Subject to the provisions of § 56-234, the Commission shall allow natural gas utilities to include in their fuel portfolios supplemental or substitute forms of gas sources that meet the natural gas utility's pipeline quality gas standards and that reduce the emissions intensity of its fuel portfolio. A natural gas utility shall procure supplemental or substitute forms of gas sources utilizing standard industry practices and shall report to the Commission annually the imputed reduction in carbon dioxide equivalent resulting from such purchasing practices.*

B. As used in this section:

"Biogas" means a mixture of hydrocarbons that is a gas at 60 degrees Fahrenheit and one atmosphere of pressure that is produced through the anaerobic digestion or thermal conversion of organic matter.

"Low-emission natural gas" means natural gas produced from a geologic source that has a methane intensity of 0.20 or less (i) as reported under a protocol approved by the federal Environmental Protection Agency's Gas STAR Methane Challenge, (ii) as certified by the United Nations Environment Programme's Oil and Gas Methane Partnership 2.0, or (iii) as validated under a Qualified Attribute Commodities Platform.

"Methane intensity" means the methane emissions assigned to natural gas on an energy basis divided by the total methane content of produced natural gas.

"Qualified Attribute Commodities Platform" means a trading mechanism for natural gas or natural gas attributes that are nonfinancial intangible commodities that represents, packages, and certifies the qualifying attributes of an amount of low-emission natural gas. A Qualified Attribute Commodities Platform provides validation by an independent third party, provides natural gas or natural gas attributes capable of bilateral or exchange contract trading pursuant to standardized contracts for physical delivery that reasonably eliminate validation risk, and provides transparency for audit and reporting purposes.

"Supplemental or substitute forms of gas sources" means (i) low-emission natural gas, (ii) biogas, or (iii) hydrogen.

C. In addition, the Commission shall establish a fuel price index in order to compare the prices paid for the various types of fuel by Virginia utilities with the average price of the various types of fuel paid by other public utilities at comparable geographic locations in the market.

D. This section shall not apply to telephone companies.

§ 56-265.1. Definitions.

In this chapter, the following terms shall have the following meanings:

(a) "Company" means a corporation, a limited liability company, an individual, a partnership, an association, a joint-stock company, a business trust, a cooperative, or an organized group of persons, whether incorporated or not; or any receiver, trustee or other liquidating agent of any of the foregoing in his capacity as such; but not a municipal corporation or a county, unless such municipal corporation or county has obtained a certificate pursuant to § 56-265.4:4.

(b) "Public utility" means any company that owns or operates facilities within the Commonwealth of Virginia for the generation, transmission, or distribution of electric energy for sale, for the production, storage, transmission, or distribution, otherwise than in enclosed portable containers, of natural or manufactured gas, or, if produced, stored, transmitted, or distributed by a natural gas utility as defined in § 56-265.4:6, supplemental or substitute forms of gas sources as defined in § 56-248.1, or geothermal resources for sale for heat, light or power, or for the furnishing of telephone service, sewerage facilities or water. A "public utility" may own a facility for the storage of electric energy for sale that includes one or more pumped hydroelectricity generation and storage facilities located in the coalfield region of Virginia as described in § 15.2-6002. However, the term "public utility" does not include any of the following:

(1) Except as otherwise provided in § 56-265.3:1, any company furnishing sewerage facilities, geothermal resources or water to less than 50 customers. Any company furnishing water or sewer services to 10 or more customers and excluded by this subdivision from the definition of "public utility" for purposes of this chapter nevertheless shall not abandon the water or sewer services unless and until approval is granted by the Commission or all the customers receiving such services agree to accept ownership of the company.

(2) Any company generating and distributing electric energy exclusively for its own consumption.

(3) Any company (A) which furnishes electric service together with heating and cooling services, generated at a central plant installed on the premises to be served, to the tenants of a building or buildings located on a single tract of land undivided by any publicly maintained highway, street or road at the time of installation of the central plant, and (B) which does not charge separately or by meter for electric energy used by any tenant except as part of a rental charge. Any company excluded by this subdivision from the definition of "public utility" for the purposes of this chapter nevertheless shall, within 30 days following the issuance of a building permit, notify the State Corporation Commission in writing of the ownership, capacity and location of such central plant, and it shall be subject, with regard to the quality of electric service furnished, to the provisions of Chapters 10 (§ 56-232 et seq.) and 17 (§ 56-509 et seq.) and regulations thereunder and be deemed a public utility for such purposes, if such company furnishes such service to 100 or more lessees.

(4) Any company, or affiliate thereof, making a first or direct sale, or ancillary transmission or delivery service, of natural or manufactured gas to fewer than 35 commercial or industrial customers, which are not themselves "public utilities" as defined in this chapter, or to certain public schools as indicated in this subdivision, for use solely by such purchasing customers at facilities which are not located in a territory for which a certificate to provide gas service has been issued by the Commission under this chapter and which, at the time of the Commission's receipt of the notice provided under § 56-265.4:5, are not located within any area, territory, or jurisdiction served by a municipal corporation that provided gas distribution service as of January 1, 1992, provided that such company shall comply with the provisions of § 56-265.4:5. Direct sales or ancillary transmission or delivery services of natural gas to public schools in the following localities may be made without regard to the number of schools involved and shall not count against the "fewer than 35" requirement in this subdivision: the Counties of Dickenson, Wise, Russell, and Buchanan, and the City of Norton.

(5) Any company which is not a public service corporation and which provides compressed natural gas service at retail for the public.

(6) Any company selling landfill gas from a solid waste management facility permitted by the Department of Environmental Quality to a public utility certificated by the Commission to provide gas distribution service to the public in the area in which the solid waste management facility is located. If such company submits to the public utility a written offer for sale of such gas and the public utility does not agree within 60 days to purchase such gas on mutually satisfactory terms, then the company may sell such gas to (i) any facility owned and operated by the Commonwealth which is located within three miles of the solid waste management facility or (ii) any purchaser after such landfill gas has been liquefied. The provisions of this subdivision shall not apply to the City of Lynchburg or Fairfax County.

(7) Any authority created pursuant to the Virginia Water and Waste Authorities Act (§ 15.2-5100 et seq.) making a sale or ancillary transmission or delivery service of landfill gas to a commercial or industrial customer from a solid waste management facility permitted by the Department of Environmental Quality and operated by that same authority, if such an authority limits off-premises sale, transmission or delivery service of landfill gas to no more than one purchaser. The authority may contract with other persons for the construction and operation of facilities necessary or convenient to the sale, transmission or delivery of landfill gas, and no such person shall be deemed a public utility solely by reason of its construction or operation of such facilities. If the purchaser of the landfill gas is located within the certificated service territory of a natural gas public utility, the public utility may file for Commission approval a proposed tariff to reflect any anticipated or known changes in service to the purchaser as a result of the use of landfill gas. No such tariff shall impose on the purchaser of the landfill gas terms less favorable than similarly situated customers with alternative fuel capabilities; provided, however, that such tariff may impose such requirements as are reasonably calculated to recover the cost of such service and to protect and ensure the safety and integrity of the public utility's facilities.

(8) A company selling or delivering only landfill gas, electricity generated from only landfill gas, or both, that is derived from a solid waste management facility permitted by the Department of Environmental Quality and sold or delivered from any such facility to not more than three commercial or industrial purchasers or to a natural gas or electric public utility, municipal corporation or county as authorized by this section. If a purchaser of the landfill gas is located within the certificated service territory of a natural gas public utility or within an area in which a municipal corporation provides gas distribution service and the landfill gas is to be used in facilities constructed after January 1, 2000, such company shall submit to such public utility or municipal corporation a written offer for sale of that gas prior to offering the gas for sale or delivery to a commercial or industrial purchaser. If the public utility or municipal corporation does not agree within 60 days following the date of the offer to purchase such landfill gas on mutually satisfactory terms, then the company shall be authorized to sell such landfill gas, electricity, or both, to the commercial or industrial purchaser, utility, municipal corporation, or county. Such public utility may file for Commission approval a proposed tariff to reflect any anticipated or known changes in service to the purchaser as a result of the purchaser's use of the landfill gas. No such tariff shall impose on such purchaser of the landfill gas terms less favorable than those imposed on similarly situated customers with alternative fuel capabilities; provided, however, that such tariff may impose such requirements as are reasonably calculated to recover any cost of such service and to protect and ensure the safety and integrity of the public utility's facilities.

(9) A company that is not organized as a public service company pursuant to subsection D of § 13.1-620 and that sells and delivers propane air only to one or more public utilities. Any company excluded by this subdivision from the definition of "public utility" for the purposes of this chapter nevertheless shall be subject to the Commission's jurisdiction relating to gas pipeline safety and enforcement.

(10) A farm or aggregation of farms that owns and operates facilities within the Commonwealth for the generation of electric energy from waste-to-energy technology. As used in this subdivision, (i) "farm" means any person that obtains at

least 51 percent of its annual gross income from agricultural operations and produces the agricultural waste used as feedstock for the waste-to-energy technology, (ii) "agricultural waste" means biomass waste materials capable of decomposition that are produced from the raising of plants and animals during agricultural operations, including animal manures, bedding, plant stalks, hulls, and vegetable matter, and (iii) "waste-to-energy technology" means any technology, including a methane digester, that converts agricultural waste into gas, steam, or heat that is used to generate electricity on-site.

(11) A company, other than an entity organized as a public service company, that provides non-utility gas service as provided in § 56-265.4:6.

(12) A company, other than an entity organized as a public service company, that provides storage of electric energy that is not for sale to the public.

(c) "Commission" means the State Corporation Commission.

(d) "Geothermal resources" means those resources as defined in § 45.2-2000.

§ 56-600. Definitions.

As used in this chapter:

"Allowed distribution revenue" means the average annual, weather-normalized, nongas commodity revenue per customer associated with the rates in effect as adopted in the applicable utility's last Commission-approved rate case or performance-based regulation plan, multiplied by the average number of customers served.

"Conservation and ratemaking efficiency plan" means a plan filed by a natural gas utility pursuant to this chapter that includes a decoupling mechanism.

"Cost-effective conservation and energy efficiency program" means a program approved by the Commission that is designed to decrease the average customer's annual, weather-normalized consumption ~~or total gas bill of energy~~, for gas and nongas elements combined, or avoid energy costs or consumption the customer may otherwise have incurred, and is determined by the Commission to be cost-effective if the net present value of the benefits exceeds the net present value of the costs *at the portfolio level* as determined by not less than any three of the following four tests: the Total Resource Cost Test, the Program Administrator Test (also referred to as the Utility Cost Test), the Participant Test, and the Ratepayer Impact Measure Test. Such determination shall include an analysis of all ~~four~~ *five* tests, and a ~~program or~~ portfolio of programs shall be approved if the net present value of the benefits exceeds the net present value of the costs as determined by not less than any three of the four tests. Such determination shall also be made (i) with the assignment of administrative costs associated with the conservation and ratemaking efficiency plan to the portfolio as a whole and (ii) with the assignment of education and outreach costs associated with each program in a portfolio of programs to such program and not to individual measures within a program, when such administrative, education, or outreach costs are not otherwise directly assignable. Without limitation, rate designs or rate mechanisms, customer education, customer incentives, *appliance rebates*, and weatherization programs are examples of conservation and energy efficiency programs that the Commission may consider. Energy efficiency programs that provide measurable and verifiable energy savings to low-income customers or elderly customers may also be deemed cost effective. A cost-effective conservation and energy efficiency program shall not include a program designed to convert propane *or heating oil* customers to natural gas.

"Decoupling mechanism" means a rate, tariff design or mechanism that decouples the recovery of a utility's allowed distribution revenue from the level of consumption of natural gas by its customers, including (i) a mechanism that adjusts actual nongas distribution revenues per customer to allowed distribution revenues per customer, such as a sales adjustment clause, (ii) rate design changes that substantially align the percentage of fixed charge revenue recovery with the percentage of the utility's fixed costs, such as straight fixed variable rates, provided such mechanism includes a substantial demand component based on a customer's peak usage, or (iii) a combination of clauses (i) and (ii) that substantially decreases the relative amount of nongas distribution revenue affected by changes in per customer consumption of gas.

"Fixed costs" means any and all of the utility's nongas costs of service, together with an authorized return thereon, that are not associated with the cost of the natural gas commodity flowing through and measured by the customer's meter.

"Measure" means an individual item, service, offering, or rebate available to a customer of a natural gas utility as part of the utility's conservation and ratemaking efficiency plan.

"Natural gas utility" or "utility" means any investor-owned public service company engaged in the business of furnishing natural gas service to the public.

"Portfolio" means the program or programs included in a natural gas utility's conservation and ratemaking efficiency plan.

"Program" means a group of one or more related measures for a customer class.

"Revenue-neutral" means a change in a rate, tariff design or mechanism as a component of a conservation and ratemaking efficiency plan that does not shift annualized allowed distribution revenue between customer classes, and does not increase or decrease the utility's average, weather-normalized nongas utility revenue per customer for any given rate class by more than 0.25 percent when compared to (i) the rate, tariff design or mechanism in effect at the time a conservation and ratemaking efficiency plan is filed pursuant to this chapter or (ii) the allocation of costs approved by the Commission in a rate case using the cost of service methodology set forth in § 56-235.2 or a performance-based regulation plan authorized by § 56-235.6, where a plan is filed in conjunction with such case.

§ 56-601. Natural gas conservation and ratemaking efficiency.

A. Consistent with the objectives pertaining to the energy issues and policy elements stated in § 45.2-1706.1, it is in the public interest to authorize and encourage the adoption of natural gas conservation and ratemaking efficiency plans that promote the wise use of natural gas and natural gas infrastructure through the development of alternative rate designs and other mechanisms that more closely align the interests of natural gas utilities, their customers, and the Commonwealth generally, and improve the efficiency of ratemaking to more closely reflect the dynamic nature of the natural gas market, the economy, and public policy regarding conservation and energy efficiency. Such alternative rate designs and other mechanisms should, where feasible:

1. Provide utilities with better tools to work with customers to decrease the average customer's annual average weather-normalized consumption of ~~natural gas energy~~;
2. Provide reasonable assurance of a utility's ability to recover costs of serving the public, including its cost-effective investments in conservation and energy efficiency as well as infrastructure needed to provide or maintain reliable service to the public;
3. Reward utilities for meeting or exceeding conservation and energy efficiency goals that may be established pursuant to the Virginia Energy Plan (§ 45.2-1710 et seq.);
4. Provide customers with long-term, meaningful opportunities to more efficiently consume ~~natural gas and mitigate their expenditures for the natural gas commodity energy~~, while ensuring that the rate design methodology used to set a utility's revenue recovery is not inconsistent with such conservation and energy efficiency goals;
5. Recognize the economic and environmental benefits of efficient use of natural gas, *biogas, and lower-carbon gases*; and
6. Preserve or enhance the utility bill savings that customers receive when they reduce their ~~natural gas energy~~ use.

B. Natural gas utilities are authorized pursuant to this chapter to file natural gas conservation and ratemaking efficiency plans that implement alternative natural gas utility rate designs and other mechanisms, in addition to or in conjunction with the cost of service methodology set forth in § 56-235.2 and performance-based regulation plans authorized by § 56-235.6, that:

1. Replace existing utility rate designs or other mechanisms that promote inefficient use of natural gas with rate designs or other mechanisms that ensure a utility's recovery of its authorized revenues is independent of the amount of customers' natural gas consumption;
2. Provide incentives for natural gas utilities to promote conservation and energy efficiency by granting recovery of the costs associated with cost-effective conservation and energy efficiency programs; and
3. Reward utilities that meet or exceed conservation and energy efficiency goals on a weather-normalized, annualized average customer basis through the implementation of cost-effective conservation and energy efficiency programs.

C. This chapter shall be construed liberally to accomplish these purposes.

§ 56-602. Conservation and ratemaking efficiency plans.

A. Notwithstanding any provision of law to the contrary, each natural gas utility shall have the option to file a conservation and ratemaking efficiency plan as provided in this chapter. Such a plan may include one or more residential, small commercial, or small general service classes, but shall not apply to large commercial or large industrial classes of customers. Such plan shall include: (i) a normalization component that removes the effect of weather from the determination of conservation and energy efficiency results; (ii) a decoupling mechanism; (iii) one or more cost-effective conservation and energy efficiency programs; (iv) provisions to address the needs of low-income or low-usage residential customers; and (v) provisions to ensure that the rates and service to non-participating classes of customers are not adversely impacted. Such plan may also include provisions for phased or targeted implementation of rate or tariff design changes, if any, or conservation and energy efficiency programs. The Commission may approve such a plan after such notice and opportunity for hearing as the Commission may prescribe, subject to the provisions of this chapter. Nothing in this subsection shall prevent a natural gas utility from amending a conservation and ratemaking efficiency plan by amending, altering, supplementing, or deleting one or more conservation or energy efficiency programs.

B. The Commission shall approve or deny, within 180 days, a natural gas utility's initial application for any revenue-neutral conservation and ratemaking efficiency plan that allocates annual per-customer fixed costs on an intra-class basis in reliance upon a revenue study or class cost of service study supporting the rates in effect at the time the plan is filed. A plan filed pursuant to this subsection shall not require the filing of rate case schedules. The Commission shall approve or deny, within 120 days, a natural gas utility's application to amend a previously approved plan. The Commission shall approve such a plan or amendment if it finds that the plan's or amendment's proposed decoupling mechanism is revenue-neutral and is otherwise consistent with this chapter. If the Commission denies such a plan or amendment, it shall set forth with specificity the reasons for such denial and the utility shall have the right to refile, without prejudice, an amended plan or amendment within 60 days, and the Commission shall thereafter have 60 days to approve or deny the amended plan or amendment. The time period for Commission review provided for in this subsection shall not apply if the conservation and ratemaking efficiency plan is filed in conjunction with a rate case using the cost of service methodology set forth in § 56-235.2 or a performance-based regulation plan authorized by § 56-235.6.

C. The Commission shall approve or deny, within 270 days, a natural gas utility's initial application for any revenue-neutral conservation and ratemaking efficiency plan that allocates per-customer fixed costs on an intra-class basis according to a class cost of service study filed with the plan, when such plan is filed in conjunction with a rate case using the cost of service methodology set forth in § 56-235.2 or a performance-based regulation plan authorized by § 56-235.6. The

Commission shall approve or deny, within 120 days, a natural gas utility's application to amend a plan previously approved pursuant to this subsection. The Commission shall approve such a plan or amendment if it finds that the plan's or amendment's proposed decoupling mechanism is revenue-neutral, is consistent with this chapter, and is otherwise in the public interest, including any findings required by § 56-235.2 or 56-235.6. If the Commission denies such a plan or amendment, it shall set forth with specificity the reasons for its denial and the utility shall have the right to refile, without prejudice, an amended plan or amendment within 60 days; the Commission shall thereafter have 60 days to approve or deny the amended plan or amendment.

D. The Commission shall allow any natural gas utility that implements a conservation and ratemaking efficiency plan under this chapter to recover, on a timely basis and through its regulated rates charged to its classes of customers participating in the plan, its entire incremental costs associated with cost-effective conservation and energy efficiency programs that are designed to encourage the reduction of annualized, weather-normalized ~~natural gas~~ *energy* consumption per customer. Ratemaking treatment may include placing appropriate capital expenditures for technology and program costs in the respective utility's rate base, deferral of such interim incremental costs (which costs would not be subject to an earnings test), or recovering the utility's technology and program costs through another ratemaking methodology approved by the Commission, such as a tracking mechanism. Such conservation and energy efficiency programs may also be jointly conducted or co-sponsored with other utilities, federal, state or local government agencies, nonprofit organizations, trade associations, homebuilders, and other for-profit vendors. Incremental costs recovered pursuant to this subsection shall be in addition to all other costs that the utility is permitted to recover, shall not be considered an offset to other Commission-approved costs of service or revenue requirements, and shall not be included in any computation relative to a performance-based regulation plan revenue sharing mechanism.

E. The Commission shall require every natural gas utility operating under a conservation and ratemaking efficiency plan approved pursuant to this chapter to file annual reports showing the year over year weather-normalized use of ~~natural gas~~ *energy* on an average customer basis, by customer class, as well as the incremental, independently verified net economic benefits created by the utility's cost-effective conservation and energy-efficiency programs during the previous year.

F. The Commission shall grant recovery, on an annual basis, of a performance-based incentive for delivering conservation and energy efficiency benefits, which shall be included in the utility's respective purchased gas adjustment mechanism. The incentive shall be calculated as a reasonable share of the verified net economic benefits created by the utility's cost-effective conservation and energy efficiency programs, and may be recovered over a period of years equal to the payback period or discounted to net present value and recovered in the first year. In structuring this incentive, the Commission shall create a reasonable opportunity for a utility to earn up to a 15 percent share of such independently verified net economic benefits upon meeting target levels of such benefits set forth in a plan approved by the Commission. The level of net economic benefits to be used as the basis for such calculation shall be the sum of customer savings less utility costs recovered through subsection D, measured over the number of years of the payback period, rounded up to the next highest year. The incentives authorized by this subsection shall be in addition to any other revenue requirements or rates established pursuant to § 56-235.2 or 56-235.6 and independent of any computation of shared revenues under an approved performance-based regulation plan.

G. Unless the context clearly indicates otherwise, nothing in this chapter shall impair the Commission's authority under § 56-234.2, 56-235.2, or 56-235.6; provided, however, that notwithstanding any other provision of law, the Commission shall not reduce an authorized return on common equity or other measure of utility profit as a result of the implementation of a natural gas conservation and ratemaking efficiency plan pursuant to this chapter.

§ 56-603. Definitions.

As used in this chapter:

"Commission" means the State Corporation Commission.

"Eligible infrastructure replacement" means natural gas utility facility replacement projects that: (i) enhance safety or reliability by reducing system integrity risks associated with customer outages, corrosion, equipment failures, material failures, or natural forces; (ii) do not increase revenues by directly connecting the infrastructure replacement to new customers; (iii) reduce or have the potential to reduce greenhouse gas emissions; (iv) are commenced on or after January 1, 2010; and (v) are not included in the natural gas utility's rate base in its most recent rate case using the cost of service methodology set forth in § 56-235.2, or the natural gas utility's rate base included in the rate base schedules filed with a performance-based regulation plan authorized by § 56-235.6, if the plan did not include the rate base. *"Eligible infrastructure replacement" includes natural gas utility facility replacement projects that are identified as a result of an enhanced leak detection and repair program.*

"Eligible infrastructure replacement costs" includes the following:

1. Return on the investment. In calculating the return on the investment, the Commission shall use the natural gas utility's regulatory capital structure as calculated utilizing the weighted average cost of capital, including the cost of debt and the cost of equity used in determining the natural gas utility's base rates in effect during the construction period of the eligible infrastructure replacement project. If the natural gas utility's cost of capital underlying the base rates in effect at the time its proposed SAVE plan is filed has not been changed by order of the Commission within the preceding five years, the Commission may require the natural gas utility to file an updated weighted average cost of capital, and the natural gas utility may propose an updated weighted average cost of capital. The natural gas utility may recover the external costs associated

with establishing its updated weighted average cost of capital through the SAVE rider. Such external costs shall include legal costs and consultant costs;

2. A revenue conversion factor, including income taxes and an allowance for bad debt expense, shall be applied to the required operating income resulting from the eligible infrastructure replacement costs;

3. Depreciation. In calculating depreciation, the Commission shall use the natural gas utility's current depreciation rates;

4. Property taxes; ~~and~~

5. Carrying costs on the over- or under-recovery of the eligible infrastructure replacement costs. In calculating the carrying costs, the Commission shall use the natural gas utility's regulatory capital structure as determined in subdivision 1 of the definition of eligible infrastructure replacement costs; *and*

6. *Enhanced leak detection and repair program costs. Such costs shall include the costs of operating an enhanced leak detection and repair program.*

"Enhanced leak detection and repair program" means a program that is designed to allow a natural gas utility to deploy advanced leak detection technologies to more accurately identify active leaks as part of the natural gas utility's leak management program and to prioritize the repair of leaks that present a risk to safety or the environment. A natural gas utility may amend its SAVE plan to include an enhanced leak detection and repair program by filing an application to amend its previously approved SAVE plan, as set forth in subsection B of § 56-604.

"Investment" means costs incurred on eligible infrastructure replacement projects including planning, development, and construction costs; costs of infrastructure associated therewith; and an allowance for funds used during construction. In calculating the allowance for funds used during construction, the Commission shall use the natural gas utility's actual regulatory capital structure as determined in subdivision 1 of the definition of eligible infrastructure replacement costs.

"Natural gas utility" means any investor-owned public service company engaged in the business of furnishing natural gas service to the public.

"Natural gas utility facility replacement project" means the replacement of storage, peak shaving, transmission or distribution facilities used in the delivery of natural gas, or supplemental or substitute forms of gas sources by a natural gas utility.

"SAVE" means Steps to Advance Virginia's Energy Plan.

"SAVE plan" means a plan filed by a natural gas utility that identifies proposed eligible infrastructure replacement projects and a SAVE rider.

"SAVE rider" means a recovery mechanism that will allow for recovery of the eligible infrastructure replacement costs, through a separate mechanism from the customer rates established in a rate case using the cost of service methodology set forth in § 56-235.2, or a performance-based regulation plan authorized by § 56-235.6.

§ 56-604. Filing of petition with Commission to establish or amend a SAVE plan; recovery of certain costs; procedure.

A. Notwithstanding any provisions of law to the contrary, a natural gas utility may file a SAVE plan as provided in this chapter. Such a plan shall provide for a timeline for completion of the proposed eligible infrastructure replacement projects, the estimated costs of the proposed eligible infrastructure projects, and a schedule for recovery of the related eligible infrastructure replacement costs through the SAVE rider, and demonstrate that the plan is prudent and reasonable. *Such a plan may also include an enhanced leak detection and repair program, which shall include a description and an estimate of the associated enhanced leak detection and repair program costs.* The Commission may approve such a plan after such notice and opportunity for hearing as the Commission may prescribe, subject to the provisions of this chapter.

B. The Commission shall approve or deny, within 180 days, a natural gas utility's initial application for a SAVE plan. A plan filed pursuant to this section shall not require the filing of rate case schedules. The Commission shall approve or deny, within 120 days, a natural gas utility's application to amend a previously approved plan. If the Commission denies such a plan or amendment, it shall set forth with specificity the reasons for such denial, and the utility shall have the right to refile, without prejudice, an amended plan or amendment within 60 days, and the Commission shall thereafter have 60 days to approve or deny the amended plan or amendment. The time period for Commission review provided for in this subsection shall not apply if the SAVE plan is filed in conjunction with a rate case using the cost of service methodology set forth in § 56-235.2, or a performance-based regulation plan authorized by § 56-235.6.

C. Any SAVE plan and any SAVE rider that is submitted to and approved by the Commission shall be allocated and charged in accordance with appropriate cost causation principles in order to avoid any undue cross-subsidization between rate classes.

D. No other revenue requirement or ratemaking issues may be examined in consideration of the application filed pursuant to the provisions of this chapter.

E. At the end of each 12-month period the SAVE rider is in effect, the natural gas utility shall reconcile the difference between the recognized eligible infrastructure replacement costs and the amounts recovered under the SAVE rider, and shall submit the reconciliation and a proposed SAVE rider adjustment to the Commission to recover or refund the difference, as appropriate, through an adjustment to the SAVE rider. The Commission shall approve or deny, within 90 days, a natural gas utility's proposed SAVE rider adjustment.

F. A natural gas utility that has implemented a SAVE rider pursuant to this chapter shall file revised rate schedules to reset the SAVE rider to zero, when new base rates and charges that incorporate eligible infrastructure replacement costs

previously reflected in the currently effective SAVE rider become effective for the natural gas utility, following a Commission order establishing customer rates in a rate case using the cost of service methodology set forth in § 56-235.2, or a performance-based regulation plan authorized by § 56-235.6.

G. Costs recovered pursuant to this chapter shall be in addition to all other costs that the natural gas utility is permitted to recover, shall not be considered an offset to other Commission-approved costs of service or revenue requirements, and shall not be included in any computation relative to a performance-based regulation plan revenue-sharing mechanism. Further, if the Commission approves (i) an updated weighted average cost of capital for use in calculating the return on investment, (ii) the carrying costs on the over- or under-recovery of the eligible infrastructure replacement costs, (iii) the allowance for funds used during construction, or (iv) any combination thereof, such weighted average cost of capital shall be used only for the purpose of the eligible infrastructure replacement costs for the SAVE rider and shall not be used for any purpose in any other proceeding.

CHAPTER 30.

BIOGAS SUPPLY INFRASTRUCTURE PROJECTS.

§ 56-625. Biogas supply infrastructure projects.

A. As used in this section:

"Biogas" has the same meaning as set forth in § 56-248.1.

"Biogas facilities" means biogas reserves; production facilities, including equipment required to prepare the biogas for use; gathering of, transmission of, and, within the natural gas utility's certificated service territory, any distribution pipelines necessary to deliver the reserves; and aboveground and underground storage used in the delivery of gas to existing natural gas transmission pipelines or distribution systems.

"Biogas supply investment plan" or "plan" means a plan filed by a natural gas utility that identifies proposed eligible biogas supply infrastructure projects and its development of those projects with or without a third party.

"Eligible biogas supply infrastructure costs" includes the investment in eligible biogas supply infrastructure projects and the following:

1. Return on the investment. In calculating the return on the investment, the Commission shall use the natural gas utility's regulatory capital structure in effect during the construction period of the eligible biogas supply infrastructure project. The regulatory capital structure shall be calculated utilizing the weighted average cost of capital, including the cost of debt and the cost of equity, plus an additional 100 basis points added to the cost of equity. If the natural gas utility's cost of capital underlying the base rates in effect at the time its proposed eligible biogas supply infrastructure project is filed has not been changed by order of the Commission within the preceding five years, the Commission may require the natural gas utility to file an updated weighted average cost of capital, and the natural gas utility may propose an updated weighted average cost of capital. The natural gas utility may recover the external costs associated with establishing its updated weighted average cost of capital through a biogas supply rider. Such external costs shall include legal costs and consultant costs;

2. A revenue conversion factor. Such factor, including income taxes, shall be applied to the required operating income resulting from the eligible biogas supply infrastructure costs;

3. Operating and maintenance expenses. These expenses include the amount of operating and maintenance expenses utilized in biogas collection; processing the gas produced; and gathering, transmission, and distribution lines delivering the gas to a pipeline or distribution system;

4. Depreciation. In calculating depreciation, the Commission shall use the natural gas utility's current depreciation rates for investments in distribution infrastructure, as set out by the appropriate asset class. The natural gas utility shall propose a basis for recovering for the depreciation or depletion of investments in other asset classes in the biogas supply investment plan, including investments in biogas reserves that will deplete based on their useful life or of associated facilities that may be retired upon depletion of biogas reserves;

5. Property tax and any other taxes or government fees associated with production and transmission of biogas; and

6. Carrying costs on the over-recovery or under-recovery of the eligible biogas supply infrastructure costs. In calculating the carrying costs, the Commission shall use the natural gas utility's regulatory capital structure as determined in subdivision 1.

"Eligible biogas supply infrastructure projects" or "projects" means capital investments in biogas facilities that, alone or in combination with other projects or strategies, offer reasonably anticipated benefits to customers and markets, which benefits mean (i) a reduction in methane or carbon dioxide equivalent emissions from the biogas facility, (ii) an additional source of supply for the natural gas utility, and (iii) a beneficial use for the biogas, and which benefits do not result in the gas delivered to customers failing to meet the natural gas utility's pipeline quality standards.

"Investment" means actual costs incurred on eligible biogas supply infrastructure projects, including planning, development, and construction costs; actual costs of infrastructure associated therewith; and an allowance for funds used during construction. In calculating the allowance for funds used during construction, the Commission shall use the natural gas utility's actual regulatory capital structure as determined in subdivision 1 of the definition of "eligible biogas supply infrastructure costs."

"Natural gas utility" means an investor-owned public service company engaged in the business of furnishing natural gas service to the public.

B. A natural gas utility shall have the right to recover eligible biogas supply infrastructure costs on an ongoing basis through the gas cost component of the natural gas utility's rate structure or other recovery mechanism approved by the Commission, provided that any such mechanism shall properly allocate costs. Natural gas utilities using the cost of service methodology set forth in § 56-235.2 or a performance-based regulation plan authorized by § 56-235.6 shall be eligible to file a plan. The plan shall include a timeline for the investment and completion of the proposed eligible biogas supply infrastructure projects; provide for an estimated schedule for recovery of the related eligible biogas supply infrastructure costs through the gas cost component of the natural gas utility's rate structure or other mechanism, including proposed depreciation rates for investments in non-distribution asset classes and how any revenue gains from the use of the pipelines by third parties will be used to offset eligible biogas supply infrastructure costs; and demonstrate that the plan is in the public interest with due consideration to the reduction in methane or carbon dioxide equivalent emissions and the addition of a supply source for the natural gas utility or a combination thereof. No project shall provide an annual volume of biogas that exceeds three percent of the natural gas utility's annual firm sales demand, and no combination of projects shall provide an annual volume of biogas that exceeds 15 percent of the natural gas utility's annual firm sales demand. The natural gas utility's weather-normalized firm sales demand for the calendar year preceding the application shall be deemed to establish the annual firm sales demand for the purposes of calculating the volume and volumetric limits of projects. The Commission shall approve such a plan upon a finding that it (i) is in the public interest, (ii) will result in a decrease of methane or carbon dioxide equivalent emissions, and (iii) will result in rates that are just and reasonable, after notice and an opportunity for a hearing in accordance with the provisions of this chapter.

C. In addition to the items included in the plan as specified in subsection B, the plan may provide the natural gas utility with an option to receive the biogas or sell the biogas at market prices. A natural gas utility proposing this option as part of its plan shall propose how any revenue gains from the sale of the biogas will be used to reduce the cost of gas to its customers. The Commission shall approve or deny, within 180 days, a natural gas utility's initial application for a biogas supply investment plan. A plan filed pursuant to this section shall not require the filing of rate case schedules. The Commission shall approve or deny, within 120 days, a natural gas utility's application to amend a previously approved plan. If the Commission denies such a plan or amendment, it shall set forth with specificity the reasons for such denial, and the natural gas utility shall have the right to refile, without prejudice, an amended plan or amendment within 60 days, and the Commission shall thereafter have 60 days to approve or deny the amended plan or amendment. If the plan is filed as part of a general rate case using the cost of service methodology set forth in § 56-235.2 or a performance-based regulation plan authorized by § 56-235.6, then the Commission shall approve or deny the plan concurrent with or as part of the general rate case decision.

D. No other revenue requirement or ratemaking issues shall be examined in consideration of a plan filed pursuant to the provisions of this section.

E. A natural gas utility with an approved biogas supply investment plan shall annually file a report of the eligible biogas supply infrastructure investment made, the eligible biogas supply infrastructure costs incurred and the amount of such costs recovered, the volume of biogas delivered to customers or sold to third parties during the 12-month reporting period, and an analysis of the price of biogas delivered to the natural gas utility customers and the market cost of gas during the 12-month period. However, such analysis shall not affect a natural gas utility's right to recover all eligible biogas supply infrastructure costs as set forth in subsection B. The report shall also identify the balance of over-recovery or under-recovery of the eligible biogas supply infrastructure costs at the end of the reporting period and the projected investment to be made, the projected infrastructure costs to be incurred, and the projected costs to be recovered during the next 12-month reporting period.

F. Costs recovered pursuant to this section shall be in addition to all other costs that the natural gas utility is permitted to recover and shall not be considered an offset to other Commission-approved costs of service or revenue requirements.

2. That the State Corporation Commission may exempt customer education components from the required test parameters set forth in § 56-600 of the Code of Virginia, as amended by this act, for a cost-effective conservation and energy efficiency program.

3. That each natural gas utility that has one or more State Corporation Commission-approved (the Commission) eligible biogas supply infrastructure projects, as defined in § 56-625 of the Code of Virginia, as created by this act, shall report annually to the Commission the reduction in methane and carbon dioxide equivalent emissions from each such approved project. The Commission shall issue an annual report describing the number of approved eligible biogas supply infrastructure projects, as defined in § 56-625 of the Code of Virginia, as created by this act, and the methane and carbon dioxide equivalent emissions from such approved projects. The Commission shall make such report available on its website.

4. That the Department of Environmental Quality (the Department) shall convene a work group of stakeholders to determine the feasibility of setting a statewide methane reduction goal and plan to achieve the same. The Department shall report its findings and recommendations to the Chairmen of the Senate Committee on Agriculture, Conservation and Natural Resources, the Senate Committee on Commerce and Labor, the House Committee on Agriculture, Chesapeake and Natural Resources, and the House Committee on Commerce and Energy by July 1, 2023.

CHAPTER 729

An Act to amend and reenact § 37.2-408.1 of the Code of Virginia, relating to criminal history background checks; children's residential facilities.

[S 577]

Approved April 27, 2022

Be it enacted by the General Assembly of Virginia:**1. That § 37.2-408.1 of the Code of Virginia is amended and reenacted as follows:****§ 37.2-408.1. Background check required; children's residential facilities.**

A. Notwithstanding the provisions of § 37.2-416, as a condition of employment, volunteering or providing services on a regular basis, every children's residential facility that is regulated or operated by the Department shall require any person who (i) accepts a position of employment at such a facility, (ii) is currently employed by such a facility, (iii) volunteers for such a facility, or (iv) provides contractual services directly to a juvenile for such a facility to submit to fingerprinting and to provide personal descriptive information, to be forwarded along with the person's fingerprints through the Central Criminal Records Exchange to the Federal Bureau of Investigation for the purpose of obtaining criminal history record information regarding the person. The children's residential facility shall inform the person that he is entitled to obtain a copy of any background check report and to challenge the accuracy and completeness of any such report and obtain a prompt resolution before a final determination is made of the person's eligibility to have responsibility for the safety and well-being of children. The person shall provide the children's residential facility with a written statement or affirmation disclosing whether he has ever been convicted of or is the subject of pending charges for any offense within or outside the Commonwealth. ~~The results of the criminal history background check must be received prior to permitting a person to work in the children's residential facility.~~

The Central Criminal Records Exchange, upon receipt of a person's record or notification that no record exists, shall forward it to the state agency that operates or regulates the children's residential facility with which the person is affiliated. The state agency shall, upon receipt of a person's record lacking disposition data, conduct research in whatever state and local recordkeeping systems are available in order to obtain complete data. The state agency shall report to the children's facility whether the person is eligible to have responsibility for the safety and well-being of children. Except as otherwise provided in subsection B, no children's residential facility regulated or operated by the Department shall hire for compensated employment or allow to volunteer or provide contractual services persons who have been convicted of or are the subject of pending charges for (a) any offense set forth in clause (i), (ii), (iii), or (v) of the definition of barrier crime in § 19.2-392.02 or (b) any offense set forth in clause (iv) of the definition of barrier crime in § 19.2-392.02 (1) in the five years prior to the application date for employment, to be a volunteer, or to provide contractual services or (2) such person continues on probation or parole or has failed to pay required court costs for such offense set forth in clause (iv) of the definition of barrier crime in § 19.2-392.02. The provisions of this section also shall apply to structured residential programs, excluding secure detention facilities, established pursuant to § 16.1-309.3 for juvenile offenders cited in a complaint for intake or in a petition before the court that alleges the juvenile is delinquent or in need of services or supervision.

B. Notwithstanding the provisions of subsection A, a children's residential facility may hire for compensated employment or for volunteer or contractual service purposes persons who have been convicted of not more than one misdemeanor offense under § 18.2-57 or 18.2-57.2, or any substantially similar offense under the laws of another jurisdiction, if 10 years have elapsed following the conviction, unless the person committed such offense in the scope of his employment, volunteer, or contractual services.

If the person is denied employment, or the opportunity to volunteer or provide services, at a children's residential facility because of information appearing on his criminal history record, and the person disputes the information upon which the denial was based, upon written request of the person the state agency shall furnish the person the procedures for obtaining his criminal history record from the Federal Bureau of Investigation. The information provided to the children's residential facility shall not be disseminated except as provided in this section.

C. Those persons listed in clauses (i) through (iv) of subsection A also shall authorize the children's residential facility to obtain a copy of information from the central registry maintained pursuant to § 63.2-1515 on any investigation of child abuse or neglect undertaken on him. The person shall provide the children's residential facility with a written statement or affirmation disclosing whether he has ever been the subject of a founded case of child abuse or neglect within or outside the Commonwealth. ~~The children's residential facility shall receive the results of the central registry search prior to permitting a person to work.~~ Children's residential facilities regulated or operated by the Department shall not hire for compensated employment, or allow to volunteer or provide contractual services, persons who have a founded case of child abuse or neglect.

D. *No person shall be allowed to work, volunteer, or provide services at a children's residential facility unless (i) all components of the background check required pursuant to this section have been received by the children's residential facility and (ii) the person is eligible to have responsibility for the safety and well-being of children in accordance with subsections A and C.*

E. Notwithstanding any provisions of this section to the contrary, a children's residential facility may employ a person specified in subsection A pending the results of the check of the central registry maintained by the Department pursuant to § 63.2-1515 required by this section, provided that (i) the person has received qualifying results on the fingerprint-based criminal history background check, (ii) the person does not work in the children's residential facility or any other location where children placed in such facility are present, and (iii) such employment is permitted under 42 U.S.C. § 671 and regulations promulgated pursuant thereto.

F. The cost of obtaining the criminal history record and the central registry information shall be borne by the person unless the children's residential facility, at its option, decides to pay the cost.

2. That an emergency exists and this act is in force from its passage.

CHAPTER 730

An Act to amend and reenact §§ 15.2-1731, 15.2-1734, 15.2-1735, 15.2-1736, 37.2-808, and 37.2-810 of the Code of Virginia, relating to custody and transportation of persons subject to emergency custody orders or temporary detention process; alternative custody; auxiliary police officers.

[S 593]

Approved April 27, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 15.2-1731, 15.2-1734, 15.2-1735, 15.2-1736, 37.2-808, and 37.2-810 of the Code of Virginia are amended and reenacted as follows:

§ 15.2-1731. Establishment, etc., authorized; powers, authority and immunities generally.

A. Localities, for the further preservation of the public peace, safety, and good order of the community, may establish, equip, and maintain auxiliary police forces that have all the powers and authority and all the immunities of full-time law-enforcement officers, if all such forces have met the training requirements established by the Department of Criminal Justice Services under § 9.1-102.

B. Notwithstanding any other provision of this section, an auxiliary officer shall be exempted from any initial training requirement established under § 9.1-102 until a date one year subsequent to the approval by the Criminal Justice Services Board of compulsory minimum training standards for auxiliary police officers, except that (i) any such officer shall not be permitted to carry or use a firearm while serving as an auxiliary police officer unless such officer has met the firearms training requirements established in accordance with in-service training standards for law-enforcement officers as prescribed by the Criminal Justice Services Board, and (ii) any such officer shall have one year following the approval by the Board to comply with the compulsory minimum training standards.

C. Auxiliary police forces established pursuant to this section, who have met the training requirements of § 9.1-102, may be called into service by the chief law-enforcement officer as appropriate to provide transportation for such person subject to an emergency custody order pursuant to § 37.2-808 or to provide transportation for a person in the temporary detention process pursuant to § 37.2-810.

§ 15.2-1734. Calling auxiliary police officers into service; police officers performing service to wear uniform; exception.

A. A locality may call into service or provide for calling into service such auxiliary police officers as may be deemed necessary (i) in time of public emergency; (ii) at such times as there are insufficient numbers of regular police officers to preserve the peace, safety, and good order of the community; ~~or;~~ (iii) *to provide transportation for such person subject to an emergency custody order pursuant to § 37.2-808 or to provide transportation for a person in the temporary detention process pursuant to § 37.2-810;* or (iv) at any time for the purpose of training such auxiliary police officers. At all times when performing such service, the members of the auxiliary police force shall wear the uniform prescribed by the governing body.

B. Members of any auxiliary police force who have been trained in accordance with the provisions of § 15.2-1731 may be called into service by the chief of police of any locality to aid and assist regular police officers in the performance of their duties, *including providing transportation for such person subject to an emergency custody order pursuant to § 37.2-808 or providing transportation for a person in the temporary detention process pursuant to § 37.2-810.*

C. When the duties of an auxiliary police officer are such that the wearing of the prescribed uniform would adversely limit the effectiveness of the auxiliary police officer's ability to perform his prescribed duties, then clothing appropriate for the duties to be performed may be required by the chief of police.

§ 15.2-1735. Acting beyond limits of jurisdiction of locality.

The members of any such auxiliary police force shall not be required to act beyond the limits of the jurisdiction of any such locality except when called upon to protect any public property belonging to the locality ~~which~~ *that* may be located beyond its boundaries, or as provided in § 15.2-1736, 37.2-808, or 37.2-810.

§ 15.2-1736. Mutual aid agreements among governing bodies of localities.

The governing bodies of localities, institutions of higher learning having a police force appointed pursuant to subsection B of § 23.1-812, and institutions of higher education having a private police force, as well as sheriffs, and the Director of the Department of Conservation and Recreation with commissioned conservation officers, or any combination

thereof may, by proper resolutions, enter in and become a party to contracts or mutual aid agreements for the use of their joint forces, both regular and auxiliary, their equipment and materials to maintain peace and good order, *including providing transportation for such person subject to an emergency custody order pursuant to § 37.2-808 or providing transportation for a person in the temporary detention process pursuant to § 37.2-810*. However, no such institution of higher learning shall enter into such agreement with another institution of higher education in a noncontiguous locality without the consent of all localities within which such institutions are located. Any police or other law-enforcement officer, regular or auxiliary, while performing his duty under any such contract or agreement, shall have the same authority in such locality as he has within the locality where he was appointed.

In counties where no police department has been established, the sheriff may, in his discretion, enter into mutual aid agreements as provided by this section.

§ 37.2-808. Emergency custody; issuance and execution of order.

A. Any magistrate shall issue, upon the sworn petition of any responsible person, treating physician, or upon his own motion, or a court may issue pursuant to § 19.2-271.6, an emergency custody order when he has probable cause to believe that any person (i) has a mental illness and that there exists a substantial likelihood that, as a result of mental illness, the person will, in the near future, (a) cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if any, or (b) suffer serious harm due to his lack of capacity to protect himself from harm or to provide for his basic human needs, (ii) is in need of hospitalization or treatment, and (iii) is unwilling to volunteer or incapable of volunteering for hospitalization or treatment. Any emergency custody order entered pursuant to this section shall provide for the disclosure of medical records pursuant to § 37.2-804.2. This subsection shall not preclude any other disclosures as required or permitted by law.

When considering whether there is probable cause to issue an emergency custody order, the magistrate may, in addition to the petition, or the court may pursuant to § 19.2-271.6, consider (1) the recommendations of any treating or examining physician or psychologist licensed in Virginia, if available, (2) any past actions of the person, (3) any past mental health treatment of the person, (4) any relevant hearsay evidence, (5) any medical records available, (6) any affidavits submitted, if the witness is unavailable and it so states in the affidavit, and (7) any other information available that the magistrate or the court considers relevant to the determination of whether probable cause exists to issue an emergency custody order.

B. Any person for whom an emergency custody order is issued shall be taken into custody and transported to a convenient location to be evaluated to determine whether the person meets the criteria for temporary detention pursuant to § 37.2-809 and to assess the need for hospitalization or treatment. The evaluation shall be made by a person designated by the community services board who is skilled in the diagnosis and treatment of mental illness and who has completed a certification program approved by the Department.

C. The magistrate or court issuing an emergency custody order shall specify the primary law-enforcement agency and jurisdiction to execute the emergency custody order and provide transportation. However, the magistrate or court shall consider any request to authorize transportation by an alternative transportation provider in accordance with this section, whenever an alternative transportation provider is identified to the magistrate or court, which may be a person, facility, or agency, including a family member or friend of the person who is the subject of the order, a representative of the community services board, or other transportation provider with personnel trained to provide transportation in a safe manner, upon determining, following consideration of information provided by the petitioner; the community services board or its designee; the local law-enforcement agency, if any; the person's treating physician, if any; or other persons who are available and have knowledge of the person, and, when the magistrate or court deems appropriate, the proposed alternative transportation provider, either in person or via two-way electronic video and audio or telephone communication system, that the proposed alternative transportation provider is available to provide transportation, willing to provide transportation, and able to provide transportation in a safe manner.

When transportation is ordered to be provided by an alternative transportation provider, the magistrate or court shall order the specified primary law-enforcement agency to execute the order, to take the person into custody, and to transfer custody of the person to the alternative transportation provider identified in the order. In such cases, a copy of the emergency custody order shall accompany the person being transported pursuant to this section at all times and shall be delivered by the alternative transportation provider to the community services board or its designee responsible for conducting the evaluation. The community services board or its designee conducting the evaluation shall return a copy of the emergency custody order to the court designated by the magistrate or the court that issued the emergency custody order as soon as is practicable. Delivery of an order to a law-enforcement officer or alternative transportation provider and return of an order to the court may be accomplished electronically or by facsimile.

Transportation under this section shall include transportation to a medical facility as may be necessary to obtain emergency medical evaluation or treatment that shall be conducted immediately in accordance with state and federal law. Transportation under this section shall include transportation to a medical facility for a medical evaluation if a physician at the hospital in which the person subject to the emergency custody order may be detained requires a medical evaluation prior to admission.

D. In specifying the primary law-enforcement agency and jurisdiction for purposes of this section, the magistrate or court shall order the primary law-enforcement agency from the jurisdiction served by the community services board that designated the person to perform the evaluation required in subsection B to execute the order and, in cases in which transportation is ordered to be provided by the primary law-enforcement agency, provide transportation. If the community

services board serves more than one jurisdiction, the magistrate or court shall designate the primary law-enforcement agency from the particular jurisdiction within the community services board's service area where the person who is the subject of the emergency custody order was taken into custody or, if the person has not yet been taken into custody, the primary law-enforcement agency from the jurisdiction where the person is presently located to execute the order and provide transportation.

E. The law-enforcement agency or alternative transportation provider providing transportation pursuant to this section may transfer custody of the person to the facility or location to which the person is transported for the evaluation required in subsection B, G, or H if the facility or location (i) is licensed to provide the level of security necessary to protect both the person and others from harm, (ii) is actually capable of providing the level of security necessary to protect the person and others from harm, and (iii) in cases in which transportation is provided by a law-enforcement agency, has entered into an agreement or memorandum of understanding with the law-enforcement agency setting forth the terms and conditions under which it will accept a transfer of custody, provided, however, that the facility or location may not require the law-enforcement agency to pay any fees or costs for the transfer of custody.

F. A law-enforcement officer may lawfully go or be sent beyond the territorial limits of the county, city, or town in which he serves to any point in the Commonwealth for the purpose of executing an emergency custody order pursuant to this section.

G. A law-enforcement officer who, based upon his observation or the reliable reports of others, has probable cause to believe that a person meets the criteria for emergency custody as stated in this section may take that person into custody and transport that person to an appropriate location to assess the need for hospitalization or treatment without prior authorization. A law-enforcement officer who takes a person into custody pursuant to this subsection or subsection H may lawfully go or be sent beyond the territorial limits of the county, city, or town in which he serves to any point in the Commonwealth for the purpose of obtaining the assessment. Such evaluation shall be conducted immediately. The period of custody shall not exceed eight hours from the time the law-enforcement officer takes the person into custody.

H. A law-enforcement officer who is transporting a person who has voluntarily consented to be transported to a facility for the purpose of assessment or evaluation and who is beyond the territorial limits of the county, city, or town in which he serves may take such person into custody and transport him to an appropriate location to assess the need for hospitalization or treatment without prior authorization when the law-enforcement officer determines (i) that the person has revoked consent to be transported to a facility for the purpose of assessment or evaluation, and (ii) based upon his observations, that probable cause exists to believe that the person meets the criteria for emergency custody as stated in this section. The period of custody shall not exceed eight hours from the time the law-enforcement officer takes the person into custody.

I. Nothing herein shall preclude a law-enforcement officer or alternative transportation provider from obtaining emergency medical treatment or further medical evaluation at any time for a person in his custody as provided in this section.

J. A representative of the primary law-enforcement agency specified to execute an emergency custody order or a representative of the law-enforcement agency employing a law-enforcement officer who takes a person into custody pursuant to subsection G or H shall notify the community services board responsible for conducting the evaluation required in subsection B, G, or H as soon as practicable after execution of the emergency custody order or after the person has been taken into custody pursuant to subsection G or H.

K. The person shall remain in custody until (i) a temporary detention order is issued in accordance with § 37.2-809, (ii) an order for temporary detention for observation, testing, or treatment is entered in accordance with § 37.2-1104, ending law enforcement custody, (iii) the person is released, or (iv) the emergency custody order expires. An emergency custody order shall be valid for a period not to exceed eight hours from the time of execution.

L. Nothing in this section shall preclude the issuance of an order for temporary detention for testing, observation, or treatment pursuant to § 37.2-1104 for a person who is also the subject of an emergency custody order issued pursuant to this section. In any case in which an order for temporary detention for testing, observation, or treatment is issued for a person who is also the subject of an emergency custody order, the person may be detained by a hospital emergency room or other appropriate facility for testing, observation, and treatment for a period not to exceed 24 hours, unless extended by the court as part of an order pursuant to § 37.2-1101, in accordance with subsection C of § 37.2-1104. Upon completion of testing, observation, or treatment pursuant to § 37.2-1104, the hospital emergency room or other appropriate facility in which the person is detained shall notify the nearest community services board, and the designee of the community services board shall, as soon as is practicable and prior to the expiration of the order for temporary detention issued pursuant to § 37.2-1104, conduct an evaluation of the person to determine if he meets the criteria for temporary detention pursuant to § 37.2-809.

M. Any person taken into emergency custody pursuant to this section shall be given a written summary of the emergency custody procedures and the statutory protections associated with those procedures.

N. If an emergency custody order is not executed within eight hours of its issuance, the order shall be void and shall be returned unexecuted to the office of the clerk of the issuing court or, if such office is not open, to any magistrate serving the jurisdiction of the issuing court.
