O. In addition to the eight-hour period of emergency custody set forth in subsection G, H, or K, if the individual is detained in a state facility pursuant to subsection E of § 37.2-809, the state facility and an employee or designee of the

community services board as defined in § 37.2-809 may, for an additional four hours, continue to attempt to identify an alternative facility that is able and willing to provide temporary detention and appropriate care to the individual.

P. Payments shall be made pursuant to § 37.2-804 to licensed health care providers for medical screening and assessment services provided to persons with mental illnesses while in emergency custody.

Q. No person who provides alternative transportation pursuant to this section shall be liable to the person being transported for any civil damages for ordinary negligence in acts or omissions that result from providing such alternative transportation.

R. For purposes of this section:

"Law-enforcement agency" includes an auxiliary police force established pursuant to § 15.2-1731.

"Law-enforcement officer" includes an auxiliary police officer appointed or provided for pursuant to §§ 15.2-1731 and 15.2-1733, except for the purposes of subsection G.

§ 37.2-810. Transportation of person in the temporary detention process.

A. In specifying the primary law-enforcement agency and jurisdiction for purposes of this section, the magistrate shall specify in the temporary detention order the law-enforcement agency of the jurisdiction in which the person resides, or any other willing law-enforcement agency that has agreed to provide transportation, to execute the order and, in cases in which transportation is ordered to be provided by the primary law-enforcement agency, provide transportation. However, if the nearest boundary of the jurisdiction in which the person resides is more than 50 miles from the nearest boundary of the jurisdiction in which the person is located, the law-enforcement agency of the jurisdiction in which the person is located shall execute the order and provide transportation.

B. The magistrate issuing the temporary detention order shall specify the law-enforcement agency to execute the order and provide transportation. However, the magistrate shall consider any request to authorize transportation by an alternative transportation provider in accordance with this section, whenever an alternative transportation provider is identified to the magistrate, which may be a person, facility, or agency, including a family member or friend of the person who is the subject of the temporary detention order, a representative of the community services board, or other transportation provider with personnel trained to provide transportation in a safe manner upon determining, following consideration of information provided by the petitioner; the community services board or its designee; the local law-enforcement agency, if any; the person's treating physician, if any; or other persons who are available and have knowledge of the person, and, when the magistrate deems appropriate, the proposed alternative transportation provider, either in person or via two-way electronic video and audio or telephone communication system, that the proposed alternative transportation provider is available to provide transportation, willing to provide transportation, and able to provide transportation in a safe manner.

When transportation is ordered to be provided by an alternative transportation provider, the magistrate shall order the specified law-enforcement agency to execute the order, to take the person into custody, and to transfer custody of the person to the alternative transportation provider identified in the order.

In such cases, a copy of the temporary detention order shall accompany the person being transported pursuant to this section at all times and shall be delivered by the alternative transportation provider to the temporary detention facility. The temporary detention facility shall return a copy of the temporary detention order to the court designated by the magistrate as soon as is practicable. Delivery of an order to a law-enforcement officer or alternative transportation provider and return of an order to the court may be accomplished electronically or by facsimile.

The order may include transportation of the person to such other medical facility as may be necessary to obtain further medical evaluation or treatment prior to placement as required by a physician at the admitting temporary detention facility. Nothing herein shall preclude a law-enforcement officer or alternative transportation provider from obtaining emergency medical treatment or further medical evaluation at any time for a person in his custody as provided in this section. Such medical evaluation or treatment shall be conducted immediately in accordance with state and federal law.

C. If an alternative transportation provider providing transportation of a person who is the subject of a temporary detention order becomes unable to continue providing transportation of the person at any time after taking custody of the person, the primary law-enforcement agency for the jurisdiction in which the alternative transportation provider is located at the time he becomes unable to continue providing transportation shall take custody of the person and shall transport the person to the facility of temporary detention. In such cases, a copy of the temporary detention order shall accompany the person being transported and shall be delivered to and returned by the temporary detention facility in accordance with the provisions of subsection B.

D. In cases in which an alternative facility of temporary detention is identified and the law-enforcement agency or alternative transportation provider identified to provide transportation in accordance with subsection B continues to have custody of the person, the local law-enforcement agency or alternative transportation provider shall transport the person to the alternative facility of temporary detention identified by the employee or designee of the community services board. In cases in which an alternative facility of temporary detention is identified and custody of the person has been transferred from the law-enforcement agency or alternative transportation provider that provided transportation in accordance with subsection B to the initial facility of temporary detention, the employee or designee of the community services board shall request, and a magistrate may enter an order specifying, an alternative transportation provider or, if no alternative transportation provider is available, willing, and able to provide transportation in a safe manner, the local law-enforcement agency for the jurisdiction in which the person resides or, if the nearest boundary of the jurisdiction in which the person

resides is more than 50 miles from the nearest boundary of the jurisdiction in which the person is located, the law-enforcement agency of the jurisdiction in which the person is located, to provide transportation.

E. The magistrate may change the transportation provider specified in a temporary detention order at any time prior to the initiation of transportation of a person who is the subject of a temporary detention order pursuant to this section. If the designated transportation provider is changed by the magistrate at any time after the temporary detention order has been executed but prior to the initiation of transportation, the transportation provider having custody of the person shall transfer custody of the person to the transportation provider subsequently specified to provide transportation. For the purposes of this subsection, "transportation provider" includes both a law-enforcement agency and an alternative transportation provider.

F. A law-enforcement officer may lawfully go to or be sent beyond the territorial limits of the county, city, or town in which he serves to any point in the Commonwealth for the purpose of executing any temporary detention order pursuant to this section. Law-enforcement agencies may enter into agreements to facilitate the execution of temporary detention orders and provide transportation.

G. No person who provides alternative transportation pursuant to this section shall be liable to the person being transported for any civil damages for ordinary negligence in acts or omissions that result from providing such alternative transportation.

If the credentialing entity is Oxford House, Inc., the recovery residence shall disclose that the recovery residence is self-governed and unstaffed.

C. No person shall operate a recovery residence or advertise, represent, or otherwise imply to the public that a recovery residence or other housing facility is a certified ~~recovery residence~~ by the Department unless such recovery residence or other housing facility has been certified by the Department in accordance with regulations adopted by the Board. Such regulations (i) may require accreditation by or membership in a credentialing agency as a condition of certification and (ii) shall require the recovery residence, as a condition of certification, to comply with any minimum square footage requirements related to beds and sleeping rooms established by the credentialing entity or the square footage requirements set forth in § 36-105.4, whichever is greater.

A guest who is an occupant of a hotel, motel, extended stay facility, vacation residential facility, including those governed by the Virginia Real Estate Time-Share Act (§ 55.1-2200 et seq.), boardinghouse, or similar transient lodging shall not be construed to be a tenant living in a dwelling unit if such person does not reside in such lodging as his primary residence. Such guest shall be exempt from this chapter, and the innkeeper or property owner, or his agent, shall have the right to use self-help eviction under Virginia law, without the necessity of the filing of an unlawful detainer action in a court of competent jurisdiction and the execution of a writ of eviction issued pursuant to such action, which would otherwise be required under this chapter.

2. A hotel, motel, extended stay facility, vacation residential facility, including those governed by the Virginia Real Estate Time-Share Act (§ 55.1-2200 et seq.), boardinghouse, or similar transient lodging shall be exempt from the provisions of this chapter if overnight sleeping accommodations are furnished to a person for consideration if such person does not reside in such lodging as his primary residence.

5. Nothing herein shall be construed to preclude the owner of a lodging establishment that uses self-help eviction pursuant to this section from pursuing any civil or criminal remedies under the laws of the Commonwealth.

E. Nothing in this chapter shall prohibit a locality from establishing a commission, reconciliatory in nature only, or designating an existing agency, which upon mutual agreement of the parties may mediate conflicts that may arise out of the application of this chapter, nor shall anything in this chapter be deemed to prohibit an ordinance designed to effect compliance with local property maintenance codes. This chapter shall supersede all other local ordinances or regulations concerning landlord and tenant relations and the leasing of residential property.

This definition of the term "lost profits" shall not create any new right or remedy or diminish any existing right or remedy other than to allow the body determining just compensation to consider lost profits in awarding just compensation if a person asserts a right to lost profits in a claim for compensation.~~

"Owner" means any person who owns property, provided that the person's ownership of the property is of record in the land records of the clerk's office of the circuit court of the county or city where the property is located. The term "owner"

§ 25.1-230.1. Lost access and lost profits.

A. For purposes of this section:

"Business" shall have the same meaning as set forth in § 25.1-400.

~~"Business profit" means the average net income for federal income tax purposes for the three years immediately prior to the later of (i) the date of valuation or (ii) the date the state agency or its contractor prevents the owner from using the land or any of the owner's other property rights are taken, for a business or farm operation located on the property taken.~~

"Direct access" means ingress or egress on or off a public road, street, or highway at a location where the property adjoins that road, street, or highway.

"Farm operation" shall have the same meaning as set forth in § 25.1-400.

B. The body determining just compensation shall include in its determination of damage to the residue any loss in market value of the remaining property from lost access caused by the taking or damaging of the property. The body determining just compensation shall ascertain any reduction in value for lost access, if any, that may accrue to the residue as provided in subsection A of § 25.1-230, by reason of the taking and use by the petitioner. If such peculiar benefit or enhancement in value shall exceed the reduction in value, there shall be no recovery against the landowner for such excess. The body determining just compensation may not consider an injury or benefit that the property owner experiences in common with the general community, including off-site circuitry of travel and diversion of traffic, arising from an exercise of the police power. The body determining just compensation shall ensure that any compensation awarded for lost access shall not be duplicated in the compensation otherwise awarded to the owner of the property taken or damaged.

C. The body determining just compensation shall include in its determination of just compensation lost profits to the owner of a business or farm operation conducted on the property taken ~~only~~ or damaged if the owner or the business or farm operation proves with reasonable certainty the amount of the loss and that the loss is directly and proximately caused by the taking or damaging of the property through the exercise of eminent domain and the following conditions are met:

1. The loss cannot be reasonably prevented by a relocation of the business or farm operation, or by taking steps and adopting procedures that a reasonably prudent person would take and adopt;
2. The loss will not be included in relocation assistance provided pursuant to Chapter 4 (§ 25.1-400 et seq.);
3. Compensation for the loss will not be duplicated in the compensation otherwise awarded to the owner of the property taken or damaged; and
4. The loss shall be determined in accordance with generally accepted accounting principles applied on a consistent basis.

D. Any and all liability for lost access shall be established and made a part of the award of just compensation for damage to the residue of the property taken or damaged, and any and all liability for lost profits shall be set forth specifically in the award. In a partial acquisition, in the event that the owner of the property being condemned and the owner of the business or farm operation claiming lost profits are the same, then any enhancement or peculiar benefit shall be offset against both damage to the residue and lost profits.

E. It shall not be a requirement of any bona fide effort to purchase the property pursuant to § 25.1-204 or 33.2-1001 that the petitioner include any liability for lost profits in a written offer to purchase the property.

F. In any proceeding in which the owner of a business or farm operation seeks to recover lost profits, the owner shall provide the condemning authority with all federal income tax returns, if any, relating to the business or farm operation for which the owner seeks lost profits for a period of three years prior to the later of (i) the valuation date or (ii) the date the state agency or its contractor prevents the owner from using the land or any of the owner's other property rights are taken, and for each year thereafter during the pendency of the condemnation proceeding. The condemning authority shall not divulge the information provided pursuant to this subsection except in connection with the condemnation proceeding. Additionally, unless already named in the petition for condemnation, the owner of the business or farm operation may

intervene in the proceeding by filing a motion to intervene accompanied by a petition for intervention setting forth the basis for the lost profits claim under this chapter. Proceedings to adjudicate lost profits may, *upon motion of the owner of the business or farm operation*, be bifurcated from the other proceedings to determine just compensation ~~if the lost profits claim period will not expire until one year or later from the date of the filing of the petition for condemnation~~, but such bifurcation shall not prevent the entry of an order confirming indefeasible title to the land interests acquired by the condemning authority.

G. Nothing in this section is intended to provide for compensation for inverse condemnation claims *for lost profits or lost access* for temporary interference with or interruption of a business or farm operation ~~other than that which is directly and proximately caused by a taking or damaging of property through the exercise of eminent domain where the impact to the property is for a period of fewer than seven days.~~

2. That the provisions of this act shall not apply to condemnation proceedings in which the petitioner filed prior to July 1, 2022, (i) a petition in condemnation pursuant to Chapter 2 (§ 25.1-200 et seq.) of Title 25.1 of the Code of Virginia or (ii) a certificate of take or deposit pursuant to Chapter 3 (§ 25.1-300 et seq.) of Title 25.1 or Title 33.2 of the Code of Virginia. Any condemnation proceedings in which the petitioner filed a petition or certificate described in clause (i) or (ii) shall be governed by the provisions of the Code of Virginia in effect prior to July 1, 2022.

"Property" means land and personal property, and any right, title, interest, estate or claim in or to such property.

"State agency" means any (i) department, agency or instrumentality of the Commonwealth; (ii) public authority, municipal corporation, local governmental unit or political subdivision of the Commonwealth or any department, agency or instrumentality thereof; (iii) person who has the authority to acquire property by eminent domain under state law; or (iv) two or more of the aforementioned that carry out projects that cause persons to be displaced.

"State institution" means any (i) institution enumerated in § 23.1-1100 or (ii) state hospital or state training center operated by the Department of Behavioral Health and Developmental Services.

§ 25.1-204. Effort to purchase required; prerequisite to effort to purchase or filing certificate.

A. A condemnor shall not institute proceedings to condemn property until a bona fide but ineffectual effort to purchase from the owner the property sought to be condemned has been made. However, such effort shall not be required if the consent cannot be obtained because one or more of the owners (i) is a person under a disability or is otherwise unable to convey legal title to such property, (ii) is unknown, or (iii) cannot with reasonable diligence be found within this Commonwealth.

B. Such bona fide effort shall include delivery of, or attempt to deliver, a written offer to acquire accompanied by a written statement to the owner that explains the factual basis for the condemnor's offer. The written statement shall include a description of the public use for which it is necessary to acquire the owner's property and shall contain a certification that the acquisition has been reviewed by the condemnor for purposes of complying with § 1-219.1. The written offer shall be made upon the state agency's letterhead and shall be signed by an authorized employee of such state agency.

C. If the condemnor obtains an appraisal of the property pursuant to the provisions of § 25.1-417, such written statement shall include a complete copy of the appraisal of the property upon which such offer is based. If the condemnor obtains more than one appraisal, such written statement shall include a copy of all appraisals obtained prior to making an offer to acquire or initiating negotiations for the real property.

D. Notwithstanding any provision of law to the contrary, a condemnor, prior to making an offer to acquire a fee simple interest in property by purchase or filing a certificate of take or certificate of deposit pursuant to Chapter 3 (§ 25.1-300 et seq.) or § 33.2-1019, shall (i) conduct or cause to be conducted an examination of title to the property in order to ascertain the identity of each owner of such property and to determine the nature and extent of such owner's interests in the property ~~and; which examination of title shall be for at least 60 years;~~ (ii) provide to such owner or owners a copy of the report ~~of status of title showing the examination of title; and (iii) provide to such owner or owners a copy of all recorded instruments within the 60-year title history of such property, including all deeds of trust, releases, liens, deeds, or other instruments identified in the report.~~

E. A state agency's acquisition of real property in connection with any programs or projects pursuant to this title or Title 33.2 shall be conducted in accordance with the following provisions:

1. Before making an offer to acquire or initiating any related negotiations for real property, the state agency shall establish an amount which it believes to be just compensation therefor and shall make a prompt offer to acquire the property for the full amount so established. In no event shall such amount be less than the state agency's approved appraisal of the fair market value of such property, if such an appraisal is required, or the current assessed value of such property for real estate tax purposes, unless the property has physically changed in a material and substantial way since the current assessment date such that the real estate tax assessment no longer represents a fair valuation of the property, when the entire parcel for which the assessment is made is to be acquired, whichever is greater. Any decrease or increase in the fair market value of real property prior to the date of valuation caused by the public improvement for which such property is acquired, or by the likelihood that the property would be acquired for such improvement, other than that due to physical deterioration within the reasonable control of the owner, shall be disregarded in determining the compensation for the property. The state agency concerned shall provide the owner of real property to be acquired with a written statement of, and summary of the basis for, the amount it established as just compensation, and, if an appraisal is required or obtained, such written statement and summary shall include a complete copy of all appraisals of the real property to be acquired that the state agency obtained prior to making an offer to acquire or initiating negotiations for the real property. The state agency shall provide its written statement of the amount it established as just compensation on its letterhead, which shall be signed by an authorized employee of such state agency. Where appropriate, the just compensation for the real property acquired and for damages to remaining real property shall be separately stated.

2. No owner shall be required to surrender possession of real property before the state agency pays the agreed purchase price, or deposits with the state court in accordance with applicable law, for the benefit of the owner, (i) an amount not less than the state agency's approved appraisal of the fair market value of such property, if such an appraisal is required, or the current assessed value of such property for real estate tax purposes, unless the property has physically changed in a material and substantial way since the current assessment date such that the real estate tax assessment no longer represents a fair valuation of the property, when the entire parcel for which the assessment is made is to be acquired, whichever is greater, or (ii) the amount of the award of compensation in the condemnation proceeding for such property.

F. Nothing in this section shall make evidence of tax assessments admissible as proof of value in an eminent domain proceeding.

§ 25.1-230.1. Lost access and lost profits.

A. For purposes of this section:

"Business" shall have the same meaning as set forth in § 25.1-400.

"Business profit" means the average net income for federal income tax purposes for the three years immediately prior to the later of (i) the date of valuation or (ii) the date the state agency or its contractor prevents the owner from using the land or any of the owner's other property rights are taken, for a business or farm operation located on the property taken.

~~"Direct access" means ingress or egress on or off a public road, street, or highway at a location where the property adjoins that road, street, or highway.~~

"Farm operation" shall have the same meaning as set forth in § 25.1-400.

B. The body determining just compensation shall include in its determination of damage to the residue any loss in market value of the remaining property from lost access ~~caused by the taking or damaging of the property~~. The body determining just compensation shall ascertain any reduction in value for lost access, if any, that may accrue to the residue as provided in subsection A of § 25.1-230; ~~by reason of the taking and use by the petitioner. If such peculiar benefit or enhancement in value shall exceed the reduction in value, there shall be no recovery against the landowner for such excess. The body determining just compensation may not consider an injury or benefit that the property owner experiences in common with the general community, including off-site circuity of travel and diversion of traffic, arising from an exercise of the police power.~~ The body determining just compensation shall ensure that any compensation awarded for lost access shall not be duplicated in the compensation otherwise awarded to the owner of the property taken or damaged.

C. The body determining just compensation shall include in its determination of just compensation lost profits to the owner of a business or farm operation conducted on the property taken only if the owner proves with reasonable certainty the amount of the loss and that the loss is directly and proximately caused by the taking of the property through the exercise of eminent domain and the following conditions are met:

1. The loss cannot be reasonably prevented by a relocation of the business or farm operation, or by taking steps and adopting procedures that a reasonably prudent person would take and adopt;
2. The loss will not be included in relocation assistance provided pursuant to Chapter 4 (§ 25.1-400 et seq.);
3. Compensation for the loss will not be duplicated in the compensation otherwise awarded to the owner of the property taken or damaged; and
4. The loss shall be determined in accordance with generally accepted accounting principles applied on a consistent basis.

D. Any and all liability for lost access shall be established and made a part of the award of just compensation for damage to the residue of the property taken or damaged, and any and all liability for lost profits shall be set forth specifically in the award. In a partial acquisition, in the event that the owner of the property being condemned and the owner of the business or farm operation claiming lost profits are the same, then any enhancement or peculiar benefit shall be offset against both damage to the residue and lost profits.

E. It shall not be a requirement of any bona fide effort to purchase the property pursuant to § 25.1-204 or 33.2-1001 that the petitioner include any liability for lost profits in a written offer to purchase the property.

F. In any proceeding in which the owner of a business or farm operation seeks to recover lost profits, the owner shall provide the condemning authority with all federal income tax returns, if any, relating to the business or farm operation for which the owner seeks lost profits for a period of three years prior to the later of (i) the valuation date or (ii) the date the state agency or its contractor prevents the owner from using the land or any of the owner's other property rights are taken, and for each year thereafter during the pendency of the condemnation proceeding. The condemning authority shall not divulge the information provided pursuant to this subsection except in connection with the condemnation proceeding. Additionally, unless already named in the petition for condemnation, the owner may intervene in the proceeding by filing a motion to intervene accompanied by a petition for intervention setting forth the basis for the lost profits claim under this chapter. Proceedings to adjudicate lost profits may be bifurcated from the other proceedings to determine just compensation if the lost profits claim period will not expire until one year or later from the date of the filing of the petition for condemnation, but such bifurcation shall not prevent the entry of an order confirming indefeasible title to the land interests acquired by the condemning authority.

G. Nothing in this section is intended to provide for compensation for inverse condemnation claims *for lost profits or lost access* for temporary interference with or interruption of a business or farm operation ~~other than that which is directly and proximately caused by a taking or damaging of property through the exercise of eminent domain where the impact to the property is for a period of fewer than seven days.~~

§ 25.1-237. Payment of compensation and damages into court; vesting of title.

Upon the return of the report of the body determining just compensation, and the confirmation, alteration, or modification thereof in the manner provided in this chapter, the sum so ascertained by the court as compensation and damages, if any, to the property owners may be paid into court. *The clerk shall deposit such funds to the credit of the court in an account of a type that bears interest.* Upon paying such sum into court, title to the property and rights condemned shall vest in the petitioner to the extent prayed for in the petition, unless such title shall have already vested in the petitioner in a manner otherwise provided by law. The petitioner or its agent shall have the right to enter and construct its works or improvements upon or through the property described in its petition.

§ 25.1-245.1. Costs.

A. Except as otherwise provided in this chapter, all costs of the proceeding in the trial court that are fixed by statute shall be taxed against the condemnor.

B. The court ~~may in its discretion tax as a cost a fee, not to exceed \$1,000,~~ shall order the condemnor to pay to the owner reasonable costs and fees, not to exceed \$7,500, unless the court approves a higher amount, for a survey for the ~~landowner~~ owner.

C. If an owner whose property is taken by condemnation under this title or under Title 33.2 is awarded at trial, as compensation for the taking of or damage to his real property, an amount that is 25 percent or more greater than the amount of the condemnor's initial written offer made pursuant to § 25.1-204, the court may order the condemnor to pay to the owner those (i) reasonable costs, other than attorney fees, and (ii) reasonable fees and travel costs, including reasonable appraisal and engineering fees incurred by the owner, for up to three experts or as many experts as are called by the condemnor, whichever is greater, who testified at trial.

D. All costs on appeal shall be assessed and assessable in the manner provided by law and the Rules of Court as in other civil cases.

E. The requirements of this section shall not apply to those condemnation actions initiated by a public service company, public service corporation, railroad pursuant to the delegation of the power of eminent domain granted in Title 56, or government utility corporation, as defined by § 1-219.1, involving easements adjudged at less than \$10,000.

F. This section is to be liberally construed to effect its purpose of ensuring that owners receive the full measure of just compensation to which they are constitutionally entitled, without that amount being reduced by the costs of asserting their constitutional right to just compensation.

§ 25.1-307. Content of certificates; recordation of certificates.

A. A certificate shall set forth the description of the property being taken or damaged, and the owner or owners, if known, of such property. *If a temporary construction easement is being acquired, the certificate shall set forth the calendar date on which it shall expire if that date is known to the condemnor. If the condemnor certifies that such date is not known, at such time the condemnor ascertains the date, the condemnor shall file certification of the information as provided by subsection B and shall simultaneously provide the landowner or the landowner's counsel, if any, a copy of such certification.*

B. The authorized condemnor shall record a certificate of take or a certificate of deposit in the clerk's office of the court where deeds are recorded. The clerk shall record the certificate in the deed book and index it in the names of both (i) the person or persons who owned the land before the recordation of the certificate and (ii) the authorized condemnor.

§ 25.1-308. Effect of recordation of certificate; transfer of title or interest in property.

A. Upon recordation of a certificate:

1. The interest or estate of the owner of the property described therein shall terminate;
2. The title to such property shall be vested in the authorized condemnor;

3. The owner shall have such interest or estate in the funds deposited with the court or represented by the certificate of deposit as the owner had in the property taken or damaged; and

4. All liens by deed of trust, judgment or otherwise upon such property shall be transferred to such funds.

B. The title in the authorized condemnor shall be defeasible until (i) the authorized condemnor and such owner reach an agreement as provided in § 25.1-317, or (ii) the compensation for the taking or damage to the property is determined by condemnation proceedings as provided in § 25.1-313.

C. If funds have been deposited with the court under a certificate of take, the clerk shall deposit the funds so paid to the credit of the court in an account of a type that bears interest.

§ 25.1-315. Awards in greater amounts than deposit; interest.

A. If the amount of an award in a condemnation proceeding is greater than that deposited with the court or represented by a certificate of deposit, the excess amount, together with interest accrued on such excess amount, shall be paid into court for the person or persons entitled thereto. *The clerk shall deposit such funds to the credit of the court in an account of a type that bears interest.*

B. Interest shall accrue on the excess amount at not less than the judgment rate of interest as set forth in § 8.01-382, computed from the date of such deposit to the date of payment into court and be paid into court for the person or persons entitled thereto. However, any interest that accrued before July 1, 1970, shall be paid at the rate of five percent, and interest accruing thereafter and prior to July 1, 1981, shall be paid at the rate of six percent, and any interest accruing thereafter and prior to July 1, 1994, shall be paid at the rate of eight percent.

§ 25.1-318. Petition by owner for determination of just compensation.

A. The owner of property that an authorized condemnor has entered and taken possession of, or taken defeasible title of, pursuant to the provisions of this chapter may petition the circuit court of the locality in which the greater portion of the property lies for the appointment of commissioners or the empanelment of a jury to determine just compensation for the property taken and damages done, if any, to such property, as provided in Chapter 2 (§ 25.1-200 et seq.) if (i) the owner and the authorized condemnor have not reached an agreement as to compensation and damages, if any, and (ii) the authorized condemnor:

1. Has not completed the construction of the contemplated improvements upon the property after a reasonable time for such construction has elapsed; or

2. Has not instituted condemnation proceedings within:

a. Sixty days after completion of the construction of the contemplated improvements upon the property;

b. One hundred eighty days after the authorized condemnor has entered upon and taken possession of the property, regardless of whether the construction of the contemplated improvements has been completed; or

c. One hundred eighty days after the recordation of a certificate.

B. A copy of such petition shall be served upon the authorized condemnor at least 10 days before it is filed in the court. The authorized condemnor shall file an answer thereto within five days after the filing of the petition. If the court finds that the conditions prerequisite for such appointment as provided in subsection A are satisfied, the court shall appoint commissioners or empanel a jury, as requested in the owner's petition, to ascertain the amount of compensation to be paid for the property taken and damages done, if any. The proceedings shall thereafter be governed by the procedure prescribed by Chapter 2 (§ 25.1-200 et seq.) insofar as the same may be applicable, *except that the owner shall have the burden of proceeding with the evidence as to just compensation. The authorized condemnor shall reimburse the owner for his fees and costs charged by a lienholder, including filing fees and attorney fees, incurred in filing the owner's petition.*

§ 25.1-319. Certificates of completion.

Upon completion of construction of any public use project for which a portion of private property was acquired by certificate, the condemnor shall, within 90 days of completion of construction, record a certificate of completion in the clerk's office of the court where deeds are recorded. Such certificate of completion shall state that construction of the public use project for which the property was taken is complete and any temporary acquisitions have terminated. The clerk shall record the certificate of completion in the deed book and index in it the names of both (i) the person or persons who own the land at the time of the recordation of the certificate of completion and (ii) the condemnor.

§ 33.2-1016. Procedure in general; suits in name of Commissioner of Highways; survival; validation of suits; notice of filing.

A. Proceedings for condemnation under this article shall be instituted and conducted in accordance with the procedures provided in Chapter 2 (§ 25.1-200 et seq.) of Title 25.1, except that the provisions of §§ 33.2-1018 through ~~33.2-1029~~ 33.2-1029.1 shall be applicable to such proceedings.

B. All suits shall be instituted and conducted in the name of the Commissioner of Highways as petitioner without naming the individual who may be such Commissioner of Highways or acting Commissioner of Highways. In the event of the death, removal, retirement, or resignation of the Commissioner of Highways or acting Commissioner of Highways, the suit shall automatically survive to a successor Commissioner of Highways or acting Commissioner of Highways. All suits heretofore filed in accordance with the provisions of this section are hereby ratified, validated, and confirmed.

C. In addition to any other notices required to be served pursuant to this section, in any proceeding instituted by the Commissioner of Highways under this title, a copy of the notice of the filing of the petition also shall be served, in the same manner as such notice is served upon owners, upon any person owning structures or improvements for which an outdoor advertising permit has been issued by the Commissioner of Highways pursuant to § 33.2-1208.

§ 33.2-1018. Authority to take possession and title to property before or during condemnation; purpose and intent of provisions.

In addition to the exercise of the power of eminent domain prior to the entry upon land being condemned, as provided in this article, the Commissioner of Highways is authorized to acquire title and to enter upon and take possession of such property and rights-of-way, for the purposes set out in § 33.2-1001, as the Commissioner of Highways may deem necessary, and proceed with the construction of such highway, such taking to be made pursuant to §§ 33.2-1019 through ~~33.2-1029~~ 33.2-1029.1.

It is the intention of this article to provide that such property and rights-of-way may, in the discretion of the Commissioner of Highways, be condemned during or after the construction of the highway, as well as prior thereto, and to direct the fund out of which the judgment of the court in condemnation proceedings shall be paid, and to provide that in all other respects the provisions of this article shall apply, whether the property and rights-of-way are condemned before, during, or after the construction of the highway. However, the authorities constructing such highway under the authority of this article shall use diligence to protect growing crops and pastures and to prevent damage to any property not taken. So far as possible all rights-of-way shall be acquired or contracted for before any condemnation is resorted to.

§ 33.2-1019. Payments into court or filing certificate of deposit before entering upon land.

A. Before entering upon or taking possession of land pursuant to § 33.2-1018, the Commissioner of Highways shall either:

1. Pay into the court wherein condemnation proceedings are pending or are to be instituted such sum as is required by subsection B; or

2. File with the court wherein condemnation proceedings are pending or are to be instituted a certificate of deposit issued by the Commissioner of Highways for such sum as is required by subsection B, which shall be deemed and held for the purpose of this chapter to be payment into the custody of such court.

B. The amount to be paid into the court as provided in subdivision A 1 or represented by a certificate of deposit as provided in subdivision A 2 shall be the amount that the Commissioner of Highways estimates to be the fair value of the land taken, or interest therein sought, and damage done, which estimate shall be based on a bona fide appraisal if required by § 25.1-417; however, such estimate shall not be less than the current assessed value of the land for real estate tax purposes, unless the property has physically changed in a material and substantial way since the current assessment date such that the real estate tax assessment no longer represents a fair valuation of the property, when the entire parcel for which the assessment has been made is to be acquired.

C. If the Commissioner of Highways makes a payment into court as provided in subdivision A 1, the court shall also record a certificate of take pursuant to § 33.2-1021. *The clerk shall deposit such funds to the credit of the court in an account of a type that bears interest.*

D. Payment against a certificate of deposit, when ordered by the court named therein, shall be paid by the Commissioner of Highways.

E. The Commissioner of Highways shall not be permitted to force relocation on improved owner-occupied property until the owner is permitted to withdraw the funds represented by the certificate filed with the court. However, if the owner refuses to withdraw the funds represented by the certificate filed with the court or if the Commissioner of Highways reasonably believes that the owner does not possess clear title to the property being taken, that ownership of the property is disputed, or that certain owners cannot be located, the Commissioner of Highways may petition the court to establish that the owner does not possess clear title, that the ownership of the property is in dispute, that certain owners cannot be located, or that the owner has refused to withdraw the funds represented by the certificate filed with the court, and request that the Commissioner of Highways be given authority to force relocation.

F. Nothing in this section shall make evidence of tax assessments admissible as proof of value in an eminent domain proceeding.

§ 33.2-1022. Certificates to describe land and list owner.

The certificate shall set forth the description of the land or interest therein being taken or damaged and, if known, the owner. *If a temporary construction easement is being acquired, the certificate shall set forth the calendar date on which it shall expire, if such date is known or can be reasonably estimated, or, if certified that such date is not known, at such time the date is ascertained, the Commissioner of Highways shall file certification of the information as provided by subsection B of § 25.1-307 and shall simultaneously provide the landowner or the landowner's counsel, if any, a copy of such certification.*

§ 33.2-1026. Awards in greater or lesser amounts than deposit; interest.

A. If the amount of an award in a condemnation proceeding is greater than that deposited with the court or represented by a certificate of deposit, the excess amount, together with interest accrued on such excess amount, shall be paid into court for the person entitled thereto. *The clerk shall deposit such funds to the credit of the court in an account of a type that bears interest.*

B. Interest shall accrue on the excess amount at not less than the judgment rate of interest as set forth in § 8.01-382, computed from the date of such deposit to the date of payment into court, and shall be paid into court for the person or persons entitled thereto. However, any (i) interest accruing after June 30, 1970, and prior to July 1, 1981, shall be paid at the rate of six percent; (ii) interest accruing after June 30, 1981, and prior to July 1, 1994, shall be paid at the rate of eight

percent; and (iii) interest accruing after June 30, 1994, and prior to July 1, 2003, shall be paid at the general account composite rate, compiled by the Department of the Treasury for the month in which the award is rendered.

C. If the amount of an award in a condemnation proceeding is less than that deposited with the court or represented by a certificate of deposit, and the person or persons entitled thereto have received a distribution of the funds pursuant to § 33.2-1023, the Commissioner of Highways shall recover (i) the amount of such excess and (ii) interest on such excess at the rate of interest established pursuant to § 6621(a)(2) of the Internal Revenue Code of 1954, as amended. If any person has been paid a greater sum than that to which he is entitled as determined by the award, judgment shall be entered for the Commissioner of Highways against such person for the amount of such excess and interest. However, the Commissioner of Highways shall not be entitled to recover the amount of such excess and interest in the event the Commissioner of Highways acquired, by virtue of the certificate, an entire parcel of land containing a dwelling, multiple-family dwelling, or building used for commercial purposes at the time of initiation of negotiations for the acquisition of such property.

§ 33.2-1029.1. Petition by owner for determination of just compensation.

A. The owner of property that the Commissioner of Highways has entered and taken possession of, or taken defeasible title of, pursuant to the provisions of this chapter may petition the circuit court of the locality in which the greater portion of the property lies for the appointment of commissioners or the empanelment of a jury to determine just compensation for the property taken and damage done, if any, to such property, as provided in Chapter 2 (§ 25.1-200 et seq.) of Title 25.1 if (i) the owner and the Commissioner of Highways have not reached an agreement as to compensation and damages, if any, and (ii) the Commissioner of Highways:

1. Has not completed the construction of the contemplated improvements upon the property after a reasonable time for such construction has elapsed; or
2. Has not instituted condemnation proceedings within:
 - a. Sixty days after completion of the construction of the contemplated improvements upon the property;
 - b. One hundred and eighty days after the Commissioner of Highways has entered upon and taken possession of the property, regardless of whether the construction of the contemplated improvements has been completed; or
 - c. One hundred and eighty days after the recordation of a certificate.

B. A copy of such petition shall be served on the Commissioner of Highways at least 10 days before it is filed in the court. The Commissioner of Highways shall file an answer within five days after the filing of the petition. If the courts finds that the conditions prerequisite for such appointment as provided in subsection A are satisfied, the court shall appoint commissioners or empanel a jury, as requested in the owner's petition, to ascertain the amount of compensation to be paid for the property taken and damages done, if any. The proceedings shall thereafter be governed by the procedures prescribed in Chapter 2 (§ 25.1-200 et seq.) of Title 25.1 insofar as they may be applicable, except that the owner shall have the burden of proceeding with the evidence as to just compensation. The Commissioner of Highways shall reimburse the owner for his fees and costs charged by the lienholder, including filing fees and attorney fees, incurred in filing the owner's petition.

2. That § 33.2-1029 of the Code of Virginia is repealed.

3. That the provisions of this act shall apply only to the taking of or damage to property that has occurred on or after July 1, 2022, or a condemnation proceeding that has been filed on or after July 1, 2022, as appropriate.

CHAPTER 737

An Act to amend and reenact §§ 15.2-1723.2 and 23.1-815.1 of the Code of Virginia and to amend the Code of Virginia by adding a section numbered 52-4.5, relating to facial recognition technology; Department of State Police and authorized uses; report; penalty.

[S 741]

Be it enacted by the General Assembly of Virginia:

1. That §§ 15.2-1723.2 and 23.1-815.1 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding a section numbered 52-4.5 as follows:

§ 15.2-1723.2. Facial recognition technology; approval; penalty.

A. For purposes of this section, "~~facial~~":

"Authorized use" means the use of facial recognition technology to (i) help identify an individual when there is a reasonable suspicion the individual has committed a crime; (ii) help identify a crime victim, including a victim of online sexual abuse material; (iii) help identify a person who may be a missing person or witness to criminal activity; (iv) help identify a victim of human trafficking or an individual involved in the trafficking of humans, weapons, drugs, or wildlife; (v) help identify an online recruiter of criminal activity, including but not limited to human, weapon, drug, and wildlife trafficking; (vi) help a person who is suffering from a mental or physical disability impairing his ability to communicate and be understood; (vii) help identify a deceased person; (viii) help identify a person who is incapacitated or otherwise unable to identify himself; (ix) help identify a person who is reasonably believed to be a danger to himself or others; (x) help identify an individual lawfully detained; (xi) help mitigate an imminent threat to public safety, a significant threat to life, or a threat to national security, including acts of terrorism; (xii) ensure officer safety as part of the vetting of undercover law enforcement; (xiii) determine whether an individual may have unlawfully obtained one or more state driver's licenses, financial instruments, or other official forms of identification using information that is fictitious or associated with a victim of identity theft; or (xiv) help identify a person who an officer reasonably believes is concealing his true identity and about whom the officer has a reasonable suspicion has committed a crime other than concealing his identity.

A distributor that calculates and pays the tax pursuant to subdivision A 1 or A 2 in good faith reliance on the net weight listed by the manufacturer on the package or on the manufacturer's invoice shall not be liable for additional tax, or for interest or penalties, solely by reason of a subsequent determination that such weight information was incorrect.

§ 58.1-1021.02:2. Records to be kept and reports by remote retail sellers of cigars and pipe tobacco.

Each remote retail seller that makes a remote retail sale of cigars and pipe tobacco products to any consumer located in the Commonwealth shall keep all records of remote retail sales as follows: (i) each remote retail seller that ships tobacco products to any consumer located in the Commonwealth shall file a report with the Department no later than the twentieth of each month identifying the total quantity, date, and dollar value of all such remote retail sale shipments made during the preceding month and (ii) every licensed remote retail seller outside the Commonwealth that is not a licensed distributor shall in a like manner file a return showing the quantity and actual cost of each cigar or pipe tobacco product shipped or transported to consumers in the Commonwealth during the preceding calendar month. The return shall be made on forms furnished or prescribed by the Department and shall contain or be accompanied by such further information as the Department shall require. The remote retail seller, at the time of filing the return, shall pay to the Department the tax imposed under subsection A of § 58.1-1021.02 for each such package sold in remote retail sales into the Commonwealth in the preceding month on which tax is due. The Department may allow such reports to be filed electronically.

§ 58.1-1021.04. Failure to file return; fraudulent return; penalties; interest; overpayment of tax.

A. When any distributor *or remote retail seller* fails to make any return or pay the full amount of the tax required by this article, there shall be imposed a specific penalty to be added to the tax in the amount of five percent if the failure is for not more than one month, with an additional two percent for each additional month, or fraction thereof, during which the failure continues, not to exceed 20 percent in the aggregate. In no case, however, shall the penalty be less than \$10 and such minimum penalty shall apply whether or not any tax is due for the period for which such return was required. If such failure is due to providential or other good cause shown to the satisfaction of the Tax Commissioner, such return with or without remittance may be accepted exclusive of penalties. In the case of a false or fraudulent return where willful intent exists to defraud the Commonwealth of any tax due under this article, or in the case of a willful failure to file a return with the intent to defraud the Commonwealth of any such tax, a specific penalty of 50 percent of the amount of the proper tax shall be assessed. All penalties and interest imposed by this article shall be payable by the distributor *or remote retail seller* and collectible by the Department in the same manner as if they were a part of the tax imposed.

B. It shall be prima facie evidence of intent to defraud the Commonwealth of any tax due under this article when any distributor *or remote retail seller* reports his purchases at 50 percent or less of the actual amount.

C. Interest at a rate determined in accordance with § 58.1-15 shall accrue on the tax until the same is paid.

No deficiency, interest or penalty shall be assessed for any month after the expiration of three years from the date set for the filing of the return for such month, except in cases of fraud, or where no return has been filed for such month.

D. If the Tax Commissioner determines that the amount paid the Commonwealth under this article in regard to any monthly return was greater than the amount of tax due the Commonwealth, the excess may be taken as a credit by the distributor *or remote retail seller* against a subsequent month's tax imposed under this article. However, if such distributor *or remote retail seller* requests a refund, such excess shall be refunded to the distributor *or remote retail seller* within 45 days of the request. The refund shall include interest at the rate provided in § 58.1-15. Interest on such refunds shall accrue from the due date of the return to which such excess is attributable to or the date such excess was paid to the Department, whichever is later, and shall end on a date determined by the Department preceding the date of the refund check by not more than seven days.

§ 58.1-1021.04:1. Distributor's or remote retail seller's license; penalty.

A. No person shall engage in the business of selling or dealing in tobacco products as a distributor in the Commonwealth without first having received a separate license from the Department for each location or place of business. Each application for a distributor's license shall be accompanied by a fee to be prescribed by the Department. Every application for such license shall be made on a form prescribed by the Department and the following information shall be provided on the application:

1. The name and address of the applicant. If the applicant is a firm, partnership or association, the name and address of each of its members shall be provided. If the applicant is a corporation, the name and address of each of its principal officers shall be provided;

2. The address of the applicant's principal place of business;

3. The place or places where the business to be licensed is to be conducted; and

4. Such other information as the Department may require for the purpose of the administration of this article.

B. A person outside the Commonwealth who ships or transports tobacco products to retailers in the Commonwealth, to be sold by those retailers, may make application for license as a distributor, be granted such a license by the Department, and thereafter be subject to all the provisions of this article. Once a license is granted pursuant to this section, such person shall be entitled to act as a licensed distributor and, unless such person maintains a registered agent pursuant to Chapter 9, 10, 12 or 14 of Title 13.1 or Chapter 2.1 or 2.2 of Title 50, shall be deemed to have appointed the Clerk of the State Corporation Commission as the person's agent for the purpose of service of process relating to any matter or issue involving the person and arising under the provisions of this article.

The Department shall conduct a background investigation, to include a Virginia Criminal History Records search, and fingerprints of the applicant, or the responsible principals, managers, and other persons engaged in handling tobacco products at the licensable locations, that shall be submitted to the Federal Bureau of Investigation if the Department deems a National Criminal Records search necessary, on applicants for licensure as tobacco products distributors. The Department may refuse to issue a distributor's license or may suspend, revoke or refuse to renew a distributor's license issued to any person, partnership, corporation, limited liability company or business trust, if it determines that the principals, managers, and other persons engaged in handling tobacco products at the licensable location of the applicant have been (i) found guilty of any fraud or misrepresentation in any connection; (ii) convicted of robbery, extortion, burglary, larceny, embezzlement, fraudulent conversion, gambling, perjury, bribery, treason, or racketeering; or (iii) convicted of a felony. Anyone who knowingly and willfully falsifies, conceals or misrepresents a material fact or knowingly and willfully makes a false, fictitious or fraudulent statement or representation in any application for a distributor's license to the Department, shall be guilty of a Class 1 misdemeanor. The Department may establish an application or renewal fee not to exceed \$750 to be retained by the Department to be applied to the administrative and other costs of processing distributor's license applications, conducting background investigations and issuing distributor's licenses. Any amount collected pursuant to this section in excess of such costs as of June 30 in even numbered years shall be reported to the State Treasurer and deposited into the state treasury.

C. *No person inside or outside the Commonwealth shall make a remote retail sale of cigars or pipe tobacco to consumers in the Commonwealth without (i) completing an application for and being granted a license as a remote retail*

seller; (ii) determining whether economic nexus activity thresholds have been met to register for a dealer's certificate under § 58.1-613; (iii) if economic nexus thresholds are met, collecting and remitting the excise tax pursuant to subsection A of § 58.1-1021.02; (iv) providing for age verification through an independent, third-party age verification service that compares information available from a commercially available database, or aggregate of databases, that is regularly used by government agencies and businesses for the purpose of age and identity verification to the personal information entered by the individual during the ordering process that establishes that the individual is of age; and (v) if economic nexus thresholds are met, and excise tax is being remitted using the actual cost list method to calculate the excise tax, providing the remote retail seller's certified actual cost list to the Department for each SKU to be offered for remote retail sale in the subsequent calendar year. The actual cost list shall be updated quarterly as new SKUs are added to a remote retail seller's inventory. New SKUs will be added using the actual cost first paid for the SKU.

D. Upon receipt of an application in proper form and payment of the required license fee, the Department shall, unless otherwise provided by this article, issue to the applicant a license, which shall permit the licensee to engage in business as a distributor at the place of business shown on the license. Each license, or a copy thereof, shall be prominently displayed on the premises covered by the license. No license shall be transferable to any other person. Distributor's licenses issued pursuant to this section shall be valid for a period of three years from the date of issue unless revoked by the Department in the manner provided herein. The Department may at any time revoke the license issued to any distributor who is found guilty of violating or noncompliance with any of the provisions of this chapter, or any of the rules of the Department adopted and promulgated under authority of this chapter.

~~D.~~ E. The Department shall compile and maintain a current list of licensed distributors *and remote retail sellers*. The list shall be updated on a monthly basis, and published on the Department's official Internet website, available to any interested party.

§ 58.1-1021.04:2. Certain records required of distributor; access to premises.

A. Each distributor *or remote retail seller* shall keep in each licensed place of business complete and accurate records for that place of business, including itemized invoices of: (i) tobacco products held, purchased, manufactured, brought in or caused to be brought in from outside the Commonwealth, or shipped or transported to retailers in the Commonwealth; (ii) all sales of tobacco products made; (iii) all tobacco products, *including cigars and pipe tobacco*, transferred to other retail outlets owned or controlled by that licensed distributor *or remote retail seller*; and (iv) any records required by the Department.

All books, records and other papers and documents required by this subsection to be kept shall be preserved, in a form prescribed by the Department, for a period of at least three years after the date of the documents or the date of the entries thereof appearing in the records, unless the Department authorizes, in writing, their destruction or disposal at an earlier date.

B. At any time during usual business hours, duly authorized agents or employees of the Department may enter any place of business of a distributor and inspect the premises, the records required to be kept under this article and the tobacco products contained therein, to determine whether all the provisions of this article are being complied with fully. Refusal to permit such inspection by a duly authorized agent or employee of the Department shall be grounds for revocation of the license.

C. Each person who sells tobacco products to persons other than an ultimate consumer shall render with each sale itemized invoices showing the seller's name and address, the purchaser's name and address, the date of sale and all prices. Such person shall preserve legible copies of all such invoices for three years after the date of sale.

D. Each distributor *or remote retail seller* shall procure itemized invoices of all tobacco products purchased. The invoices shall show the name and address of the seller and the date of purchase. The distributor *or remote retail seller* shall preserve a legible copy of each invoice for three years after the date of purchase. Invoices shall be available for inspection by authorized agents or employees of the Department at the distributor's *place of business or remote retail seller's* place of business. *If the remote retail seller cannot produce the required invoice information and the excise tax is being remitted using the actual cost list method to calculate the excise tax, the remote retail seller shall provide the remote retail seller's certified actual cost list to the Department for each SKU to be offered for remote retail sale in the subsequent calendar year. The actual cost list shall be updated quarterly as new SKUs are added to a remote retail seller's inventory. New SKUs will be added using the actual cost first paid for the SKU. This method shall not be used unless the actual cost list has been filed with the Department for the previous calendar year.*

E. Any violation of § 58.1-1021.04:1, 58.1-1021.04:2, 58.1-1021.04:3, or 58.1-1021.04:4 of this article shall be grounds for revocation of the license.

§ 10.1-603.29. Resilient Virginia Revolving Fund.

There shall be set apart as a permanent and perpetual fund, to be known as the "Resilient Virginia Revolving Fund," sums appropriated to the Fund by the General Assembly, sums allocated to the Commonwealth for resilience purposes through the federal government, all receipts by the Fund from loans made by it to local governments, all income from the investment of moneys held in the Fund, and any other sums designated for deposit to the Fund from any source public or private. The Fund shall be administered and managed by the Authority as prescribed in this article, subject to the right of the Department, following consultation with the Authority, to direct the distribution of loans or grants from the Fund to particular local governments and to establish the interest rates and repayment terms of such loans as provided in this article. A portion of the Fund shall be reserved to hold money that is allocated only for the hazard mitigation of buildings and that shall not be available for other uses. In order to carry out the administration and management of the Fund, the Authority is granted the power to employ officers, employees, agents, advisers, and consultants, including, without limitation, attorneys, financial advisers, engineers, and other technical advisers and public accountants and, the provisions of any other law to the contrary notwithstanding, to determine their duties and compensation without the approval of any other agency or instrumentality. The Authority may disburse from the Fund its reasonable costs and expenses incurred in the administration and management of the Fund and a reasonable fee to be approved by the Department for its management services. The Authority may provide a portion of that fee to the Department to cover the Department's costs and expenses in administering the Fund.

§ 10.1-603.30. Deposit of moneys; expenditures; investments.

All moneys belonging to the Fund shall be deposited in an account or accounts in banks or trust companies organized under the laws of the Commonwealth or in national banking associations located in Virginia or in savings institutions located in Virginia organized under the laws of the Commonwealth or the United States. The money in these accounts shall be paid by electronic transfer or check signed by the Executive Director of the Authority or other officers or employees designated by the Board of Directors of the Authority. All deposits of money shall, if required by the Authority, be secured in a manner determined by the Authority to be prudent, and all banks, trust companies, and savings institutions are authorized to give security for the deposits. Money in the Fund shall not be commingled with other money of the Authority. Money in the Fund not needed for immediate use or disbursement may be invested or reinvested by the Authority in obligations or

securities that are considered lawful investments for public funds under the laws of the Commonwealth. Interest earned on moneys in the Fund shall remain in the Fund and be credited to it. Any moneys remaining in the Fund, including any appropriated funds and all principal, interest accrued, and payments at the end of each fiscal year shall not revert to the general fund but shall remain in the Fund.

§ 10.1-603.31. Annual audit.

The Auditor of Public Accounts, or his legally authorized representatives, shall annually audit the accounts of the Authority, and the cost of such audit services as shall be required shall be borne by the Authority. The audit shall be performed at least each fiscal year, in accordance with generally accepted auditing standards and, accordingly, include such tests of the accounting records and such auditing procedures as considered necessary under the circumstances. The Authority shall furnish copies of such audit to the Governor and to the Department.

§ 10.1-603.32. Collection of money due to Fund.

The Authority is empowered to collect, or to authorize others to collect on its behalf, amounts due to the Fund under any loan to a local government, including, if appropriate, taking the action required by § 15.2-2659 to obtain payment of any amounts in default. Proceedings to recover amounts due to the Fund may be instituted by the Authority in the name of the Fund in the appropriate circuit court.

§ 10.1-603.33. Loans to local governments.

Except as otherwise provided in this article, moneys in the Fund shall be used to make loans to local governments to finance or refinance the cost of any project. The local governments to which loans are to be made, the purposes of the loan, the amount of each such loan, the interest rate thereon, and the repayment terms thereof, which may vary between loan recipients, shall be designated in writing by the Department to the Authority following consultation with the Authority. No loan from the Fund shall exceed the total cost of the project to be financed or the outstanding principal amount of the indebtedness to be refinanced plus reasonable financing expenses.

Except as set forth in this section, the Authority shall determine the terms and conditions of any loan from the Fund, which may vary between loan recipients. Each loan shall be evidenced by appropriate bonds or notes of the local government payable to the Fund. The bonds or notes shall have been duly authorized by the local government and executed by its authorized legal representatives. The Authority is authorized to require in connection with any loan from the Fund such documents, instruments, certificates, legal opinions, and other information as it may deem necessary or convenient. In addition to any other terms or conditions that the Authority may establish, the Authority may require, as a condition to making any loan from the Fund, that the local government receiving the loan covenant to perform any of the following:

1. Establish and collect rents, rates, fees, and charges to produce revenue sufficient to pay all or a specified portion of (i) the costs of operation, maintenance, replacement, renewal, and repairs of the project; (ii) any outstanding indebtedness incurred for the purposes of the project, including the principal of and premium, if any, and interest on the loan from the Fund to the local government; and (iii) any amounts necessary to create and maintain any required reserve, including any rate stabilization fund deemed necessary or appropriate by the Authority to offset the need, in whole or part, for future increases in rents, rates, fees, or charges;

2. With respect to local governments, levy and collect ad valorem taxes on all property within the jurisdiction of the local government subject to local taxation sufficient to pay the principal of and premium, if any, and interest on the loan from the Fund to the local government;

3. Create and maintain a special fund or funds for the payment of the principal of and premium, if any, and interest on the loan from the Fund to the local government and any other amounts becoming due under any agreement entered into in connection with the loan, or for the operation, maintenance, repair, or replacement of the project or any portions thereof or other property of the local government, and deposit into any fund or funds amounts sufficient to make any payments on the loan as they become due and payable;

4. Create and maintain other special funds as required by the Authority; and

5. Perform other acts, including the conveyance of, or the granting of liens on or security interests in, real and personal property, together with all rights, title, and interest therein, to the Fund, or take other actions as may be deemed necessary or desirable by the Authority to secure payment of the principal of and premium, if any, and interest on the loan from the Fund and to provide for the remedies of the Fund in the event of any default in the payment of the loan, including, without limitation, any of the following:

a. The procurement of insurance, guarantees, letters of credit, and other forms of collateral, security, liquidity arrangements, or credit supports for the loan from any source, public or private, and the payment therefor of premiums, fees, or other charges;

b. The combination of one or more projects, or the combination of one or more projects with one or more other undertakings, facilities, utilities, or systems, for the purpose of operations and financing, and the pledging of the revenues from such combined projects, undertakings, facilities, utilities, and systems to secure the loan from the Fund made in connection with such combination or any part or parts thereof;

c. The maintenance, replacement, renewal, and repair of the project; and

d. The procurement of casualty and liability insurance.

All local governments borrowing money from the Fund are authorized to perform any acts, take any action, adopt any proceedings, and make and carry out any contracts that are contemplated by this article. Such contracts need not be

identical among all local governments but may be structured as determined by the Authority according to the needs of the contracting local governments and the Fund.

Subject to the rights, if any, of the registered owners of any of the bonds of the Authority, the Authority may consent to and approve any modification in the terms of any loan subject to guidelines adopted by the Department.

§ 10.1-603.34. Grants to local governments.

Subject to any restrictions that may apply to the use of money in the Fund, the Department may approve the use of money in the Fund to make grants or appropriations to local governments to pay the cost of any project. The Department may establish such terms and conditions on any grant as it deems appropriate. Grants shall be disbursed from the Fund by the Authority in accordance with the written direction of the Department.

§ 10.1-603.35. Loans and grants for regional projects, etc.

In approving loans and grants, the Department shall give preference to loans and grants for projects that will utilize private industry in the operation and maintenance of such projects where a material savings in cost can be shown over public operation and maintenance; will serve two or more local governments to encourage regional cooperation; or both.

§ 10.1-603.36. Loans and grants to a local government for a funding program.

Loans and grants may be made from the Fund, in the Department's discretion, to a local government that has developed a funding program to provide low-interest loans or grants to any persons of the Commonwealth eligible for projects for resilience purposes. In order to secure the loans authorized pursuant to this section, the local government is authorized to place a lien equal in value to the loan against any property where such project is being undertaken. Such liens shall be subordinate to all liens on the property as of the date the loan authorized under this section is made, except that with the prior written consent of the holders of all liens on the property as of such date, the liens securing loans authorized pursuant to this section shall be liens on the property ranking on parity with liens for unpaid local taxes. The local government may bundle or package such loans for transfer to private lenders in such a manner that would allow the liens to remain in full force to secure the loans.

§ 10.1-603.37. Pledge of loans to secure bonds of Authority.

The Authority is empowered at any time and from time to time to transfer from the Fund to banks or trust companies designated by the Authority any or all of the assets of the Fund to be held in trust as security for the payment of the principal of and premium, if any, and interest on any or all of the bonds, as defined in § 62.1-199, of the Authority. The interests of the Fund in any obligations so transferred shall be subordinate to the rights of the trustee under the pledge. To the extent that funds are not available from other sources pledged for such purpose, any payments of principal and interest received on the assets transferred or held in trust may be applied by the trustee thereof to the payment of the principal of and premium, if any, and interest on such bonds of the Authority to which the obligations have been pledged, and if such payments are insufficient for such purpose, the trustee is empowered to sell any or all of such assets and apply the net proceeds from the sale to the payment of the principal of and premium, if any, and interest on such bonds of the Authority. Any assets of the Fund transferred in trust as set forth in this section and any payments of principal, interest, or earnings received thereon shall remain part of the Fund but shall be subject to the pledge to secure the bonds of the Authority and shall be held by the trustee to which they are pledged until no longer required for such purpose by the terms of the pledge. On or before January 10 of each year, the Authority shall transfer, or shall cause the trustee to transfer, to the Fund any assets transferred or held in trust as set forth in this section that are no longer required to be held in trust pursuant to the terms of the pledge.

§ 10.1-603.38. Sale of loans.

The Authority is empowered at any time and from time to time to sell, upon such terms and conditions as the Authority shall deem appropriate, any loan, or interest therein, made pursuant to this article. The net proceeds of sale remaining after the payment of the costs and expenses of the sale shall be designated for deposit to, and become part of, the Fund.

§ 10.1-603.39. Powers of the Authority.

The Authority is authorized to do any act necessary or convenient to the exercise of the powers granted in this article or reasonably implied thereby.

§ 10.1-603.40. Liberal construction of article.

The provisions of this article shall be liberally construed to the end that its beneficial purposes may be effectuated. Insofar as the provisions of this article are inconsistent with the provisions of any other law, general, special, or local, the provisions of this article shall be controlling.

Such criteria shall be used as a guide and resource for health care providers and are not intended to establish, in and of themselves, standards of care or to abrogate the requirements of § 8.01-581.20. E. Any person who makes a report or provides records or information pursuant to subsection A, C, or D, or who testifies in any judicial proceeding arising from such report, records or information, or who takes or causes to be taken with the adult's or the adult's legal representative's informed consent photographs, video recordings, or appropriate medical imaging of the adult who is subject of a report shall be immune from any civil or criminal liability on account of such report, records, information, photographs, video recordings, appropriate medical imaging or testimony, unless such person acted in bad faith or with a malicious purpose.

F. An employer of a mandated reporter shall not prohibit a mandated reporter from reporting directly to the local department or to the adult protective services hotline. Employers whose employees are mandated reporters shall notify employees upon hiring of the requirement to report.

G. Any person 14 years of age or older who makes or causes to be made a report of adult abuse, neglect, or exploitation that he knows to be false is guilty of a Class 4 misdemeanor. Any subsequent conviction of this provision is a Class 2 misdemeanor.

H. Any person who fails to make a required report or notification pursuant to subsection A shall be subject to a civil penalty of not more than \$500 for the first failure and not less than \$100 nor more than \$1,000 for any subsequent failures. I. Any mandated reporter who has reasonable cause to suspect that an adult died as a result of abuse or neglect shall immediately report such suspicion to the appropriate medical examiner and to the appropriate law-enforcement agency, notwithstanding the existence of a death certificate signed by a licensed physician. The medical examiner and the law-enforcement agency shall receive the report and determine if an investigation is warranted. The medical examiner may order an autopsy. If an autopsy is conducted, the medical examiner shall report the findings to law enforcement, as appropriate, and to the local department or to the adult protective services hotline.

The financial institution staff may continue to refuse to execute a transaction, delay a transaction, or refuse to disburse funds for a period no longer than 30 business days after the date upon which such transaction or disbursement was initially requested based on a good faith belief that the transaction or disbursement may involve, facilitate, result in, or contribute to the financial exploitation of an adult, unless otherwise ordered by a court of competent jurisdiction. Upon refusing to execute a transaction, delaying a transaction, or refusing to disburse funds, the financial institution shall report such refusal or delay within five business days to the local department or the adult protective services hotline. CHAPTER 752

An Act to amend and reenact § 46.2-1571 of the Code of Virginia, relating to motor vehicle dealers and manufacturers; compensation for recall, warranty, and maintenance obligations.

[H 259]

Approved April 27, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 46.2-1571 of the Code of Virginia is amended and reenacted as follows:

§ 46.2-1571. Recall, warranty, maintenance and sales incentive obligations.

A. Each motor vehicle manufacturer, factory branch, distributor, or distributor branch shall (i) specify in writing to each of its motor vehicle dealers licensed in the Commonwealth the dealer's obligations for preparation, delivery, recall, and warranty service on its products and (ii) compensate the dealer for recall or warranty parts, service, and diagnostic work required of the dealer by the manufacturer or distributor as follows:

1. Compensation of a dealer for recall or warranty parts, service, and diagnostic work shall not be less than the amounts charged by the dealer for the manufacturer's or distributor's original parts, service, and diagnostic work to retail customers for nonwarranty service, parts, and diagnostic work installed or performed in the dealer's service department ~~unless the amounts are not reasonable~~, and the determination of compensation in accordance with the provisions of this section shall be deemed reasonable due to the substantial number of repair orders reviewed, unless the manufacturer can show that the amounts are not reasonable. All manufacturer or distributor compensated parts, service, diagnostic work, updates to a vehicle accessory or function, or initialization or repair of a vehicle part, system, accessory, or function performed by the dealer shall be subject to this subsection. Recall or warranty parts compensation shall be stated as a percentage of markup, which shall be an agreed reasonable approximation of retail markup and which shall be uniformly applied to all of the manufacturer's or distributor's parts unless otherwise provided for in this section. If the dealer and manufacturer or distributor cannot agree on the recall or warranty parts compensation markup to be paid to the dealer, the markup shall be determined by an average of the dealer's retail markup on all of the manufacturer's or distributor's parts as described in subdivisions 2 and 3.

2. For purposes of determining recall or warranty parts and service compensation paid to a dealer by the manufacturer or distributor, *including body-shop repairs, only retail repair orders, or the retail portion of repair orders containing retail and non-retail operations, shall be considered. For the purposes of this section, "retail" does not include menu-priced parts or services, services and parts used in internal repairs paid by the dealer, group discounts, special event discounts, and special event promotions shall not be considered in determining amounts charged by the dealer to retail customers. For purposes of determining labor compensation for recall or warranty body shop repairs paid to a dealer by the manufacturer or distributor, internal and insurance-paid repairs shall not be considered in determining amounts charged by the dealer to retail customers, and insurance-paid repairs.*

3. Increases in dealer recall or warranty parts and service compensation and diagnostic work compensation, pursuant to this section, shall be requested by the dealer in writing, shall be based on 100 consecutive repair orders or all repair orders over a 90-day period, whichever occurs first, ~~and, in the case of parts,~~ *If any portion of a retail repair order includes amounts that are not retail, such portion shall be excluded. Compensation for parts shall be stated as a percentage of markup that shall be uniformly applied to all the manufacturer's or distributor's parts.*

4. In the case of recall or warranty parts compensation, the provisions of this subsection shall be effective only for model year 1992 and succeeding model years.

5. If a manufacturer or distributor furnishes a part to a dealer at no cost for use by the dealer in performing work for which the manufacturer or distributor is required to compensate the dealer under this section, the manufacturer or distributor shall compensate the dealer for the part in the same manner as recall or warranty parts compensation, less the wholesale costs, for such part as listed in the manufacturer's current price schedules. A manufacturer or distributor may pay the dealer a reasonable handling fee instead of the compensation otherwise required by this subsection for special high-performance complete engine assemblies in limited production motor vehicles that constitute less than five percent of model production furnished to the dealer at no cost, if the manufacturer or distributor excludes such special high-performance complete engine assemblies in determining whether the amounts requested by the dealer for recall or warranty compensation are consistent with the amounts that the dealer charges its other retail service customers for parts used by the dealer to perform similar work.

6. In the case of service work, manufacturer original parts or parts otherwise specified by the manufacturer or distributor, and parts provided by a dealer either pursuant to an adjustment program as defined in § 59.1-207.34 or as

otherwise requested by the manufacturer or distributor, the dealer shall be compensated in the same manner as for recall or warranty service or parts.

This section does not apply to compensation for parts such as components, systems, fixtures, appliances, furnishings, accessories, and features that are designed, used, and maintained primarily for nonvehicular, residential purposes. Recall, warranty, and sales incentive audits of dealer records may be conducted by the manufacturer, factory branch, distributor, or distributor branch on a reasonable basis, and dealer claims for recall, warranty, or sales incentive compensation shall not be denied except for good cause, such as performance of nonwarranty repairs, lack of material documentation, fraud, or misrepresentation. A dealer's failure to comply with the specific requirements of the manufacturer or distributor for processing the claim shall not constitute grounds for the denial of the claim or reduction of the amount of compensation to the dealer as long as reasonable documentation or other evidence has been presented to substantiate the claim. The manufacturer, factory branch, distributor, or distributor branch shall not deny a claim or reduce the amount of compensation to the dealer for recall or warranty repairs to resolve a condition discovered by the dealer during the course of a separate repair requested by the customer or to resolve a condition on the basis of advice or recommendation by the dealer. Claims for dealer compensation shall be paid within 30 days of dealer submission or within 30 days of the end of an incentive program or rejected in writing for stated reasons. The manufacturer, factory branch, distributor, or distributor branch shall reserve the right to reasonable periodic audits to determine the validity of all such paid claims for dealer compensation. Any chargebacks for recall or warranty parts or service compensation and service incentives shall only be for the six-month period immediately following the date of the claim and, in the case of chargebacks for sales compensation only, for the six-month period immediately following the date of claim. However, such limitations shall not be effective if a manufacturer, factory branch, distributor, or distributor branch has reasonable cause to believe that a claim submitted by a dealer is intentionally false or fraudulent. For purposes of this section, "reasonable cause" means a bona fide belief based upon evidence that the material issues of fact are such that a person of ordinary caution, prudence, and judgment could believe that a claim was intentionally false or fraudulent. A dealer shall not be charged back or otherwise liable for sales incentives or charges related to a motor vehicle sold by the dealer to a purchaser other than a licensed, franchised motor vehicle dealer and subsequently exported or resold, unless the manufacturer, factory branch, distributor, or distributor branch can demonstrate by a preponderance of the evidence that the dealer should have known of and did not exercise due diligence in discovering the purchaser's intention to export or resell the motor vehicle.

B. It shall be unlawful for any motor vehicle manufacturer, factory branch, distributor, or distributor branch to:

1. Fail to perform any of its recall or warranty obligations, including tires, with respect to a motor vehicle;
2. Fail to assume all responsibility for any liability resulting from structural or production defects;
3. Fail to include in written notices of factory recalls to vehicle owners and dealers the expected date by which necessary parts and equipment will be available to dealers for the correction of defects;
4. Fail to compensate any of the motor vehicle dealers licensed in the Commonwealth for repairs effected by the dealer of merchandise damaged in manufacture or transit to the dealer where the carrier is designated by the manufacturer, factory branch, distributor, or distributor branch;
5. Fail to fully compensate its motor vehicle dealers licensed in the Commonwealth for recall or warranty parts, work, and service pursuant to subsection A either by reduction in the amount due to the dealer or by separate charge, surcharge, or other imposition by which the motor vehicle manufacturer, factory branch, distributor, or distributor branch seeks to recover its costs of complying with subsection A, or for legal costs and expenses incurred by such dealers in connection with recall or warranty obligations for which the manufacturer, factory branch, distributor, or distributor branch is legally responsible or which the manufacturer, factory branch, distributor, or distributor branch imposes upon the dealer. *Failure to fully reimburse a dealer for the cost to the dealer of a rental vehicle provided to a customer as required, offered, advertised as available, or agreed to by the manufacturer or distributor shall be considered a violation of this subsection. Failure to provide compensation consistent with this section to a dealer for assistance requested by a customer whose vehicle was subjected to an over the air or remote change, repair, or update to any part, system, accessory, or function by the vehicle manufacturer or distributor and performed at the dealership to satisfy the customer shall be considered a violation of this subsection;*
6. Misrepresent in any way to purchasers of motor vehicles that warranties with respect to the manufacture, performance, or design of the vehicle are made by the dealer, either as warrantor or co-warrantor;
7. Require the dealer to make warranties to customers in any manner related to the manufacture, performance, or design of the vehicle;
8. Shift or attempt to shift to the motor vehicle dealer, directly or indirectly, any liabilities of the manufacturer, factory branch, distributor or distributor branch under the Virginia Motor Vehicle Warranty Enforcement Act (§ 59.1-207.9 et seq.), unless such liability results from the act or omission by the dealer; ~~or~~
9. Deny any dealer the right to return any part or accessory that the dealer has not sold within 12 months where the part or accessory was not obtained through a specific order initiated by the dealer but instead was specified for, sold to and shipped to the dealer pursuant to an automated ordering system, provided that such part or accessory is in the condition required for return to the manufacturer, factory branch, distributor, or distributor branch, and the dealer returns the part within 30 days of it becoming eligible under this subdivision. For purposes of this subdivision, an "automated ordering system" shall be a computerized system that automatically specifies parts and accessories for sale and shipment to the dealer without specific order thereof initiated by the dealer. The manufacturer, factory branch, distributor, or distributor branch

shall not charge a restocking or handling fee for any part or accessory being returned under this subdivision. This subdivision shall not apply if the manufacturer, factory branch, distributor, or distributor branch has available to the dealer an alternate system for ordering parts and accessories that provides for shipment of ordered parts and accessories to the dealer within the same time frame as the dealer would receive them when ordered through the automated ordering system; *or*

10. *When providing a new motor vehicle to a dealer for offer or sale to the public, fail to provide to such dealer a written disclosure that may be provided to a potential buyer of the new motor vehicle of each accessory or function of the vehicle that may be initiated, updated, changed, or maintained by the manufacturer or distributor through over the air or remote means, and the charge to the customer for such initiation, update, change, or maintenance. A manufacturer or distributor may comply with this subdivision by notifying the dealer that such information is available on a website or by other digital means.*

C. Notwithstanding the terms of any franchise, it shall be unlawful for any motor vehicle manufacturer, factory branch, distributor, or distributor branch to fail to indemnify and hold harmless its motor vehicle dealers against any losses or damages arising out of complaints, claims, or suits relating to the manufacture, assembly, or design of motor vehicles, parts, or accessories, or other functions by the manufacturer, factory branch, distributor, or distributor branch beyond the control of the dealer, including, without limitation, the selection by the manufacturer, factory branch, distributor, or distributor branch of parts or components for the vehicle or any damages to merchandise occurring in transit to the dealer where the carrier is designated by the manufacturer, factory branch, distributor, or distributor branch. The dealer shall notify the manufacturer of pending suits in which allegations are made that come within this subsection whenever reasonably practicable to do so. Every motor vehicle dealer franchise issued to, amended, or renewed for motor vehicle dealers in Virginia shall be construed to incorporate provisions consistent with the requirements of this subsection.

D. On any new motor vehicle, any uncorrected damage or any corrected damage exceeding three percent of the manufacturer's or distributor's suggested retail price as defined in 15 U.S.C. §§ 1231 -1233, as measured by retail repair costs, must be disclosed to the dealer in writing prior to delivery. Factory mechanical repair and damage to glass, tires, and bumpers are excluded from the three percent rule when properly replaced by identical manufacturer's or distributor's original equipment or parts. Whenever a new motor vehicle is damaged in transit, when the carrier or means of transportation is determined by the manufacturer or distributor, or whenever a motor vehicle is otherwise damaged prior to delivery to the new motor vehicle dealer, the new motor vehicle dealer shall:

1. Notify the manufacturer or distributor of the damage within three business days from the date of delivery of the new motor vehicle to the new motor vehicle dealership or within the additional time specified in the franchise; and

2. Request from the manufacturer or distributor authorization to replace the components, parts, and accessories damaged or otherwise correct the damage, unless the damage to the vehicle exceeds the three percent rule, in which case the dealer may reject the vehicle within three business days.

E. If the manufacturer or distributor refuses or fails to authorize correction of such damage within 10 days after receipt of notification, or if the dealer rejects the vehicle because damage exceeds the three percent rule, ownership of the new motor vehicle shall revert to the manufacturer or distributor, and the new motor vehicle dealer shall have no obligation, financial or otherwise, with respect to such motor vehicle. Should either the manufacturer, distributor, or the dealer elect to correct the damage or any other damage exceeding the three percent rule, full disclosure shall be made by the dealer in writing to the buyer and an acknowledgement by the buyer is required. If there is less than three percent damage, no disclosure is required, provided the damage has been corrected. Predelivery mechanical work shall not require a disclosure. Failure to disclose any corrected damage within the knowledge of the selling dealer to a new motor vehicle in excess of the three percent rule shall constitute grounds for revocation of the buyer order, provided that, within 30 days of purchase, the motor vehicle is returned to the dealer with an accompanying written notice of the grounds for revocation. In case of revocation pursuant to this section, the dealer shall accept the vehicle and refund any payments made to the dealer in connection with the transaction, less a reasonable allowance for the consumer's use of the vehicle as defined in § 59.1-207.11. Nothing in this section shall be construed to exempt from the provisions of this section damage to a new motor vehicle that occurs following delivery of the vehicle to the dealer.

F. If there is a dispute between the manufacturer, factory branch, distributor, or distributor branch and the dealer with respect to any matter referred to in subsection A, B, or C, either party may petition the Commissioner in writing, within 30 days after either party has given written notice of the dispute to the other, for a hearing. The decision of the Commissioner shall be binding on the parties, subject to rights of judicial review and appeal as provided in Chapter 40 (§ 2.2-4000 et seq.) of Title 2.2. However, nothing contained in this section shall give the Commissioner any authority as to the content or interpretation of any manufacturer's or distributor's warranty. A manufacturer, factory branch, distributor, or distributor branch may not collect chargebacks, fully or in part, either through direct payment or by charge to the dealer's account, for recall or warranty parts or service compensation, including service incentives, sales incentives, other sales compensation, surcharges, fees, penalties, or any financial imposition of any type arising from an alleged failure of the dealer to comply with a policy of, directive from, or agreement with the manufacturer, factory branch, distributor, or distributor branch until 40 days following final notice of the amount charged to the dealer following all internal processes of the manufacturer, factory, factory branch, distributor, or distributor branch. Within 30 days following receipt of such final notice, the dealer may petition the Commissioner, in writing, for a hearing. If a dealer requests such a hearing, the manufacturer, factory branch, distributor, or distributor branch may not collect the chargeback, fully or in part, either through direct payment or by charge to the dealer's account, until the completion of the hearing and a final decision of the Commissioner concerning the validity of the chargeback.

§ 60.2-111. Duties and powers of Commission; reporting requirements.

A. It shall be the duty of the Commission to administer this title. It shall have power and authority to adopt, amend, or rescind such rules and regulations, to employ such persons, make such expenditures, require such reports, make such investigations, and take such other action, including the appointment of advisory groups, as it deems necessary or suitable to that end. Such rules and regulations shall be subject to the provisions of Chapter 40 (§ 2.2-4000 et seq.) of Title 2.2, except as to the subject matter of subdivisions 2 and 3 of § 60.2-515, which shall become effective in the manner prescribed by § 2.2-4103. The Commission shall determine its own organization and methods of procedure in accordance with provisions of this title, and shall have an official seal which shall be judicially noticed.

B. The Commission shall prepare an annual balance sheet of the moneys in the fund and in the Unemployment Trust Fund to the credit of the Commonwealth in which there shall be provided, if possible, a reserve against the liability in future years to pay benefits in excess of the ~~then current~~ *then-current* taxes. That reserve shall be set up by the Commission in accordance with accepted actuarial principles on the basis of statistics of employment, business activity, and other relevant factors for the longest possible period. Whenever the Commission believes that a change in tax or benefit rates is necessary to protect the solvency of the Fund, it shall promptly so inform the Governor and the General Assembly and make recommendations with respect thereto.

C. *In preparing the annual balance sheet required by subsection B, the Commission shall regularly track metrics related to unemployment insurance benefits, establish a mechanism to help assess the adequacy of benefits, and examine metrics related to reciprocity, average benefit levels, and benefit income replacement ratios. UI program. The Resiliency Plan shall include proposed actions consistent with the following objectives to effectively prepare for periods of high unemployment:

1. Develop specific strategies or steps the Commission will take to modify staffing levels in response to incidents that increase UI program demand. These strategies or steps shall (i) include a staffing plan for varying levels of UI workload volume, (ii) cover several scenarios that may affect UI assistance services, (iii) explain how existing staff would be reallocated to high-priority functions in response to high demand, and (iv) describe how the Commission's hiring process will be streamlined to fill key vacant positions such as adjudication and appeals staff.

2. Develop specific strategies or steps the Commission will take to modify policies, procedures, or processes in response to high demands on its services.

3. Outline a strategy for clearly communicating key UI program changes to customers. This strategy shall indicate which staff will be responsible for different types of communications and include several communications goals, such as clearly conveying UI program and policy changes.

4. Outline a strategy for clearly communicating important UI information to Commission staff, the public, and the General Assembly.

5. Formalize a policy for prioritizing and assigning claims for adjudication during periods of high claims volume. This policy shall detail how prioritization may change in response to claims volume and state that the policy of the Commission is to generally prioritize resolving older claims before newer claims.

6. Identify other tactical actions to be taken to ensure the continuity of UI claims processing and customer service.

§ 60.2-121.2. Electronic submission of information; payments.

A. Each employer subject to the provisions of this title shall submit claim-related forms, including separation information, using an electronic format as prescribed by the Commission, unless the employer has been granted a waiver by the Commission. An employer shall submit any other information related to a claim, as defined in § 60.2-528.1, at any time when requested by the Commission, to the Commission by electronic means, unless the employer has been granted a waiver by the Commission. The Commission may also require, at any time, that an employer submit unemployment insurance tax payments electronically, unless the employer has been granted a waiver by the Commission.

B. The Commission may grant a waiver to an employer from providing information or payments electronically pursuant to this section at any time. The Commission may grant a waiver only if the Commission finds that the electronic submission requirement creates an unreasonable burden on the employer. All requests for a waiver shall be submitted in writing.

§ 60.2-121.3. Unemployment Compensation Ombudsman; established; responsibilities.

A. The Commission shall create the Office of the Unemployment Compensation Ombudsman (the Office) and shall appoint an Unemployment Compensation Ombudsman to head the Office. Subject to annual appropriations, the Unemployment Compensation Ombudsman shall employ sufficient personnel to carry out the duties and powers prescribed by this section. The Unemployment Compensation Ombudsman and personnel of the Office shall carry out their duties with impartiality and shall not serve as an advocate for any person or provide legal advice.

B. The Unemployment Compensation Ombudsman shall maintain data on inquiries received related to the unemployment compensation process, the types of assistance requested, and actions taken and the disposition of each such matter. The Unemployment Compensation Ombudsman shall report information summarizing this data, including outcomes of individual cases, without disclosing individual-level identifying data, to the Commission at least once annually. The Unemployment Compensation Ombudsman shall carry out any additional activities as the Commission determines to be appropriate.

C. All memoranda, work products, and other materials contained in the case files of the Unemployment Compensation Ombudsman and personnel of the Office shall be confidential. Any communication between the Unemployment Compensation Ombudsman and personnel of the Office and a person receiving assistance that is made during or in connection with the provision of services of the Unemployment Compensation Ombudsman and personnel of the Office shall be confidential. Confidential materials and communications shall not be subject to disclosure and shall not be admissible in any judicial or administrative proceeding except where (i) a threat to inflict bodily injury is made; (ii) communications are intentionally used to plan, attempt to commit, or commit a crime or conceal an ongoing crime; (iii) a complaint is made against the Unemployment Compensation Ombudsman or personnel of the Office by a person receiving assistance to the extent necessary for the complainant to prove misconduct or the Unemployment Compensation Ombudsman or personnel of the Office to defend against such complaint; or (iv) communications are sought or offered to prove or disprove a claim or complaint of misconduct or malpractice filed against the legal representative of a person who received assistance from the Unemployment Compensation Ombudsman or personnel of the Office. Confidential materials and communications as described in this section are not subject to mandatory disclosure under the Virginia Freedom of Information Act (§ 2.2-3700 et seq.).

D. The Unemployment Compensation Ombudsman and personnel of the Office shall be immune from civil liability in their performance of the duties specified in this section.

§ 60.2-619. (Effective until July 1, 2022) Determinations and decisions by deputy; appeals therefrom.

A. 1. A representative designated by the Commission as a deputy, shall promptly examine the claim. On the basis of the facts found by him, the deputy shall either:

- a. Determine whether or not such claim is valid, and if valid, the week with respect to which benefits shall commence, the weekly benefit amount payable and the maximum duration thereof; or
- b. Refer such claim or any question involved therein to any appeal tribunal or to the Commission, which tribunal or Commission shall make its determination in accordance with the procedure described in § 60.2-620.

2. When the payment or denial of benefits will be determined by the provisions of subdivision 2 of § 60.2-612, the deputy shall promptly transmit his full finding of fact with respect to that subdivision to any appeal tribunal, which shall make its determination in accordance with the procedure described in § 60.2-620.

B. Upon the filing of an initial claim for benefits, the Commission shall cause an informatory notice of such filing to be mailed to the most recent 30-day or 240-hour employing unit of the claimant and all subsequent employing units, and any reimbursable employing units that may be liable for reimbursement to the Commission for any benefits paid. However, the failure to furnish such notice shall not have any effect upon the claim for benefits. If a claimant has had a determination of initial eligibility for benefits under this chapter, as evidenced by the issuance of compensation or waiting-week credit, payments shall continue, subject to a presumption of continued eligibility and in accordance with the terms of this subsection, until a determination is made that provides the claimant notice and an opportunity to be heard. When a question concerning continued eligibility for benefits arises, a determination shall be made as to whether it affects future weeks of benefits or only past weeks. With respect to future weeks, presumptive payment shall not be made until but no later than the end of the week following the week in which such issue arises, regardless of the type of issue. With respect to past weeks, presumptive payment shall be issued immediately, regardless of the type of issue. Notice shall be given to individuals who receive payments under such presumption that pending eligibility may affect their entitlement to the payment and may result in an overpayment that requires repayment.

C. Notice of determination upon a claim shall be promptly given to the claimant by delivering or by mailing such notice to the claimant's last known address. In addition, notice of any determination that involves the application of the provisions of § 60.2-618, together with the reasons therefor, shall be promptly given in the same manner to the most recent 30-day or 240-hour employing unit by whom the claimant was last employed and any subsequent employing unit which is a party. The Commission may dispense with the giving of notice of any determination to any employing unit, and such employing unit shall not be entitled to such notice if it has failed to respond timely or adequately to a written request of the Commission for information, as required by § 60.2-528.1, from which the deputy may have determined that the claimant may be ineligible or disqualified under any provision of this title. The deputy shall promptly notify the claimant of any decision made by him at any time which in any manner denies benefits to the claimant for one or more weeks.

D. Such determination or decision shall be final unless the claimant or any such employing unit files an appeal from such determination or decision (i) within 30 calendar days after the delivery of such notification, (ii) within 30 calendar days after such notification was mailed to his last known address, or (iii) within 30 days after such notification was mailed to the last known address of an interstate claimant. For good cause shown, the 30-day period may be extended. *A claim that the Commission has determined to be invalid because of monetary ineligibility shall first be subject to review only upon a request for redetermination pursuant to § 60.2-629. The Commission shall issue a new monetary determination as a result of such review, and such monetary determination shall become final unless appealed by the claimant within 30 days of the date of mailing. The Commission shall clearly set out the process for requesting a redetermination and the process for filing an appeal on each monetary determination issued. Monetary ineligibility does not include an appeal on the effective date of the claim, unless the claimant has requested and received a redetermination of the monetary determination pursuant to § 60.2-629.*

E. Benefits shall be paid promptly in accordance with a determination or redetermination under this chapter, or decision of an appeal tribunal, the Commission, the Board of Review or a reviewing court under §§ 60.2-625 and 60.2-631 upon the issuance of such determination, redetermination or decision, regardless of the pendency of the period to file an appeal or petition for judicial review that is provided in this chapter, or the pendency of any such appeal or review. Such benefits shall be paid unless or until such determination, redetermination or decision has been modified or reversed by a subsequent redetermination or decision, in which event benefits shall be paid or denied for weeks of unemployment thereafter in accordance with such modifying or reversing redetermination or decision. If a decision of an appeal tribunal allowing benefits is affirmed in any amount by the Commission, benefits shall continue to be paid until such time as a court decision has become final so that no further appeal can be taken. If an appeal is taken from the Commission's decision, benefits paid shall result in a benefit charge to the account of the employer under § 60.2-530 only when, and as of the date on which, as the result of an appeal, the courts finally determine that the Commission should have awarded benefits to the claimant or claimants involved in such appeal.

§ 60.2-619. (Effective July 1, 2022) Determinations and decisions by deputy; appeals therefrom.

A. 1. A representative designated by the Commission as a deputy, shall promptly examine the claim. On the basis of the facts found by him, the deputy shall either:

- a. Determine whether or not such claim is valid, and if valid, the week with respect to which benefits shall commence, the weekly benefit amount payable and the maximum duration thereof; or
- b. Refer such claim or any question involved therein to any appeal tribunal or to the Commission, which tribunal or Commission shall make its determination in accordance with the procedure described in § 60.2-620.

2. When the payment or denial of benefits will be determined by the provisions of subdivision 2 of § 60.2-612, the deputy shall promptly transmit his full finding of fact with respect to that subdivision to any appeal tribunal, which shall make its determination in accordance with the procedure described in § 60.2-620.

B. Upon the filing of an initial claim for benefits, the Commission shall cause an informatory notice of such filing to be mailed to the most recent 30-day or 240-hour employing unit of the claimant and all subsequent employing units, and any reimbursable employing units which may be liable for reimbursement to the Commission for any benefits paid. However, the failure to furnish such notice shall not have any effect upon the claim for benefits.

C. Notice of determination upon a claim shall be promptly given to the claimant by delivering or by mailing such notice to the claimant's last known address. In addition, notice of any determination which involves the application of the provisions of § 60.2-618, together with the reasons therefor, shall be promptly given in the same manner to the most recent 30-day or 240-hour employing unit by whom the claimant was last employed and any subsequent employing unit which is a party. The Commission may dispense with the giving of notice of any determination to any employing unit, and such employing unit shall not be entitled to such notice if it has failed to respond timely or adequately to a written request of the Commission for information, as required by § 60.2-528.1, from which the deputy may have determined that the claimant may be ineligible or disqualified under any provision of this title. The deputy shall promptly notify the claimant of any decision made by him at any time which in any manner denies benefits to the claimant for one or more weeks.

D. Such determination or decision shall be final unless the claimant or any such employing unit files an appeal from such determination or decision (i) within 30 calendar days after the delivery of such notification, (ii) within 30 calendar days after such notification was mailed to his last known address, or (iii) within 30 days after such notification was mailed to the last known address of an interstate claimant. For good cause shown, the 30-day period may be extended. *A claim that the Commission has determined to be invalid because of monetary ineligibility shall first be subject to review only upon a request for redetermination pursuant to § 60.2-629. The Commission shall issue a new monetary determination as a result of such review, and such monetary determination shall become final unless appealed by the claimant within 30 days of the date of mailing. The Commission shall clearly set out the process for requesting a redetermination and the process for filing an appeal on each monetary determination issued. Monetary ineligibility does not include an appeal on the effective date of the claim, unless the claimant has requested and received a redetermination of the monetary determination pursuant to § 60.2-629.*

E. Benefits shall be paid promptly in accordance with a determination or redetermination under this chapter, or decision of an appeal tribunal, the Commission, the Board of Review or a reviewing court under §§ 60.2-625 and 60.2-631 upon the issuance of such determination, redetermination or decision, regardless of the pendency of the period to file an appeal or petition for judicial review that is provided in this chapter, or the pendency of any such appeal or review. Such benefits shall be paid unless or until such determination, redetermination or decision has been modified or reversed by a subsequent redetermination or decision, in which event benefits shall be paid or denied for weeks of unemployment thereafter in accordance with such modifying or reversing redetermination or decision. If a decision of an appeal tribunal allowing benefits is affirmed in any amount by the Commission, benefits shall continue to be paid until such time as a court decision has become final so that no further appeal can be taken. If an appeal is taken from the Commission's decision, benefits paid shall result in a benefit charge to the account of the employer under § 60.2-530 only when, and as of the date on which, as the result of an appeal, the courts finally determine that the Commission should have awarded benefits to the claimant or claimants involved in such appeal.

2. That the Virginia Department of Human Resource Management shall lead a multiagency work group, composed of agency leaders and human resources staff from state agencies most likely to be in need of staffing assistance during emergencies, to examine the feasibility of, funding for, and policies and procedures necessary for (i) granting agencies exemptions from certain competitive hiring requirements during emergencies; (ii) requiring selected state agency staff to temporarily support other agencies in need of staffing assistance during emergencies through existing or new state initiatives; and (iii) providing necessary funding to cover the associated costs. The work group shall propose criteria to determine under what circumstances these emergency hiring practices may be invoked and a process for invoking this authority as well as terminating it. The work group shall submit its findings to the Secretary of Administration and the Chairmen of the House Committee on Appropriations and the Senate Committee on Finance and Appropriations by December 1, 2022.

3. That the Virginia Employment Commission (the Commission) shall, by December 1, 2022, direct staff in its internal audit division to review and revise documents and online resources to clearly describe and explain to claimants and employers requirements for unemployment compensation. In its review and revision, the internal audit division shall describe and explain (i) eligibility criteria for unemployment insurance, (ii) how to navigate the unemployment insurance claims and appeals process, and (iii) how to determine the status or outcome of a claim. The Commission shall consider examples from other states, collect input from Commission staff and unemployment compensation recipients, and competitively procure a third-party contractor with expertise in unemployment insurance and customer communications to help with efforts in reviewing and revising its documents and online resources.

4. That an emergency exists and this act is in force from its passage.

Be it enacted by the General Assembly of Virginia:

1. That §§ 37.2-431.1 and 55.1-1201 of the Code of Virginia are amended and reenacted as follows:

§ 37.2-431.1. Recovery residences.

A. As used in this section:

B. Every recovery residence shall disclose to each prospective resident its credentialing entity. If the credentialing entity is the National Alliance for Recovery Residences, the recovery residence shall disclose the level of support provided by the recovery residence. If the credentialing entity is Oxford House, Inc., the recovery residence shall disclose that the recovery residence is self-governed and unstaffed.

C. No person shall operate a recovery residence or advertise, represent, or otherwise imply to the public that a recovery residence or other housing facility is a certified ~~recovery residence~~ by the Department unless such recovery residence or other housing facility has been certified by the Department in accordance with regulations adopted by the Board. Such regulations (i) may require accreditation by or membership in a credentialing agency as a condition of certification and (ii) shall require the recovery residence, as a condition of certification, to comply with any minimum square footage requirements related to beds and sleeping rooms established by the credentialing entity or the square footage requirements set forth in § 36-105.4, whichever is greater.

The Department shall maintain a list of ~~certified~~ recovery residences on its website and shall provide (i) for each recovery residence included on such list, the credentialing entity; (ii) for recovery residences for which the National Alliance of Recovery Residences is the credentialing entity, the level of support provided by the recovery residence; and (iii) for recovery residences for which Oxford House, Inc., is the credentialing entity, a disclosure that the recovery residence is self-governed and unstaffed.

Such proceedings shall be brought in the general district or circuit court for the county or city in which the violation occurred or where the defendant resides. Civil penalties assessed under this section shall be paid into the Behavioral Health and Developmental Services Trust Fund established in § 37.2-318.

§ 55.1-1201. Applicability of chapter; local authority.

A. This chapter shall apply to all jurisdictions in the Commonwealth and may not be waived or otherwise modified, in whole or in part, by the governing body of any locality or its boards or commissions or other instrumentalities or by the courts of the Commonwealth. Occupancy in a public housing unit or other housing unit that is a dwelling unit is subject to this chapter; however, if the provisions of this chapter are inconsistent with the regulations of the U.S. Department of Housing and Urban Development, such regulations shall control.

B. The provisions of this chapter shall apply to occupancy in all single-family and multifamily dwelling units and multifamily dwelling units located in the Commonwealth.

C. The following tenancies and occupancies are not residential tenancies under this chapter:

1. Residence at a public or private institution, if incidental to detention or the provision of medical, geriatric, educational, counseling, religious, or similar services;

8. *Occupancy in a recovery residence as defined in § 37.2-431.1.*

D. The following provisions apply to occupancy in a hotel, motel, extended stay facility, etc.:

1. A guest who is an occupant of a hotel, motel, extended stay facility, vacation residential facility, including those governed by the Virginia Real Estate Time-Share Act (§ 55.1-2200 et seq.), boardinghouse, or similar transient lodging shall not be construed to be a tenant living in a dwelling unit if such person does not reside in such lodging as his primary residence. Such guest shall be exempt from this chapter, and the innkeeper or property owner, or his agent, shall have the right to use self-help eviction under Virginia law, without the necessity of the filing of an unlawful detainer action in a court of competent jurisdiction and the execution of a writ of eviction issued pursuant to such action, which would otherwise be required under this chapter.

2. A hotel, motel, extended stay facility, vacation residential facility, including those governed by the Virginia Real Estate Time-Share Act (§ 55.1-2200 et seq.), boardinghouse, or similar transient lodging shall be exempt from the provisions of this chapter if overnight sleeping accommodations are furnished to a person for consideration if such person does not reside in such lodging as his primary residence.

5. Nothing herein shall be construed to preclude the owner of a lodging establishment that uses self-help eviction pursuant to this section from pursuing any civil or criminal remedies under the laws of the Commonwealth.

E. Nothing in this chapter shall prohibit a locality from establishing a commission, reconciliatory in nature only, or designating an existing agency, which upon mutual agreement of the parties may mediate conflicts that may arise out of the application of this chapter, nor shall anything in this chapter be deemed to prohibit an ordinance designed to effect compliance with local property maintenance codes. This chapter shall supersede all other local ordinances or regulations concerning landlord and tenant relations and the leasing of residential property.

CHAPTER 756

An Act to amend and reenact §§ 2.2-3704 and 2.2-3704.1 of the Code of Virginia, relating to the Virginia Freedom of Information Act; estimated charges.

[H 307]

Approved April 27, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 2.2-3704 and 2.2-3704.1 of the Code of Virginia are amended and reenacted as follows:

§ 2.2-3704. Public records to be open to inspection; procedure for requesting records and responding to request; charges; transfer of records for storage, etc.

A. Except as otherwise specifically provided by law, all public records shall be open to citizens of the Commonwealth, representatives of newspapers and magazines with circulation in the Commonwealth, and representatives of radio and television stations broadcasting in or into the Commonwealth during the regular office hours of the custodian of such records. Access to such records shall be provided by the custodian in accordance with this chapter by inspection or by providing copies of the requested records, at the option of the requester. The custodian may require the requester to provide his name and legal address. The custodian of such records shall take all necessary precautions for their preservation and safekeeping.

B. A request for public records shall identify the requested records with reasonable specificity. The request need not make reference to this chapter in order to invoke the provisions of this chapter or to impose the time limits for response by a public body. Any public body that is subject to this chapter and that is the custodian of the requested records shall promptly, but in all cases within five working days of receiving a request, provide the requested records to the requester or make one of the following responses in writing:

1. The requested records are being entirely withheld. Such response shall identify with reasonable particularity the volume and subject matter of withheld records, and cite, as to each category of withheld records, the specific Code section that authorizes the withholding of the records.

2. The requested records are being provided in part and are being withheld in part. Such response shall identify with reasonable particularity the subject matter of withheld portions, and cite, as to each category of withheld records, the specific Code section that authorizes the withholding of the records.

3. The requested records could not be found or do not exist. However, if the public body that received the request knows that another public body has the requested records, the response shall include contact information for the other public body.

4. It is not practically possible to provide the requested records or to determine whether they are available within the five-work-day period. Such response shall specify the conditions that make a response impossible. If the response is made within five working days, the public body shall have an additional seven work days or, in the case of a request for criminal investigative files pursuant to § 2.2-3706.1, 60 work days in which to provide one of the four preceding responses.

C. Any public body may petition the appropriate court for additional time to respond to a request for records when the request is for an extraordinary volume of records or requires an extraordinarily lengthy search, and a response by the public body within the time required by this chapter will prevent the public body from meeting its operational responsibilities. Before proceeding with the petition, however, the public body shall make reasonable efforts to reach an agreement with the requester concerning the production of the records requested.

D. Subject to the provisions of subsection G, no public body shall be required to create a new record if the record does not already exist. However, a public body may abstract or summarize information under such terms and conditions as agreed between the requester and the public body.

E. Failure to respond to a request for records shall be deemed a denial of the request and shall constitute a violation of this chapter.

F. ~~Except with regard to scholastic records requested pursuant to subdivision A 1 of § 2.2-3705.4 that must be made available for inspection pursuant to the federal Family Educational Rights and Privacy Act (20 U.S.C. § 1232g) and such requests for scholastic records by a parent or legal guardian of a minor student or by a student who is 18 years of age or older, a public body may make reasonable charges not to exceed its actual cost incurred in accessing, duplicating, supplying, or searching for the requested records and shall make all reasonable efforts to supply the requested records at the lowest possible cost.~~ No public body shall impose any extraneous, intermediary, or surplus fees or expenses to recoup the general costs associated with creating or maintaining records or transacting the general business of the public body. Any duplicating fee charged by a public body shall not exceed the actual cost of duplication. The public body may also make a reasonable charge for the cost incurred in supplying records produced from a geographic information system at the request of anyone other than the owner of the land that is the subject of the request. However, such charges shall not exceed the actual cost to the public body in supplying such records, except that the public body may charge, on a pro rata per acre basis, for the cost of creating topographical maps developed by the public body, for such maps or portions thereof, which encompass a contiguous area greater than 50 acres. ~~All charges for the supplying of requested records shall be estimated in advance at the request of the citizen.~~ *Prior to conducting a search for records, the public body shall notify the requester in writing that the public body may make reasonable charges not to exceed its actual cost incurred in accessing, duplicating, supplying, or searching for requested records and inquire of the requester whether he would like to request a cost estimate in advance of the supplying of the requested records. The public body shall provide the requester with a cost estimate if requested.* The period within which the public body shall respond under this section shall be tolled for the amount of time that elapses between notice of the cost estimate and the response of the requester. If the public body receives no response from the requester within 30 days of sending the cost estimate, the request shall be deemed to be withdrawn. *Any costs incurred by the public body in estimating the cost of supplying the requested records shall be applied toward the overall charges to be paid by the requester for the supplying of such requested records.*

G. Public records maintained by a public body in an electronic data processing system, computer database, or any other structured collection of data shall be made available to a requester at a reasonable cost, not to exceed the actual cost in accordance with subsection F. When electronic or other databases are combined or contain exempt and nonexempt records, the public body may provide access to the exempt records if not otherwise prohibited by law, but shall provide access to the nonexempt records as provided by this chapter.

Public bodies shall produce nonexempt records maintained in an electronic database in any tangible medium identified by the requester, including, where the public body has the capability, the option of posting the records on a website or delivering the records through an electronic mail address provided by the requester, if that medium is used by the public body in the regular course of business. No public body shall be required to produce records from an electronic database in a format not regularly used by the public body. However, the public body shall make reasonable efforts to provide records in any format under such terms and conditions as agreed between the requester and public body, including the payment of reasonable costs. The excision of exempt fields of information from a database or the conversion of data from one available format to another shall not be deemed the creation, preparation, or compilation of a new public record.

H. In any case where a public body determines in advance that charges for producing the requested records are likely to exceed \$200, the public body may, before continuing to process the request, require the requester to pay a deposit not to exceed the amount of the advance determination. The deposit shall be credited toward the final cost of supplying the requested records. The period within which the public body shall respond under this section shall be tolled for the amount of time that elapses between notice of the advance determination and the response of the requester.

I. Before processing a request for records, a public body may require the requester to pay any amounts owed to the public body for previous requests for records that remain unpaid 30 days or more after billing.

J. In the event a public body has transferred possession of public records to any entity, including but not limited to any other public body, for storage, maintenance, or archiving, the public body initiating the transfer of such records shall remain

the custodian of such records for purposes of responding to requests for public records made pursuant to this chapter and shall be responsible for retrieving and supplying such public records to the requester. In the event a public body has transferred public records for storage, maintenance, or archiving and such transferring public body is no longer in existence, any public body that is a successor to the transferring public body shall be deemed the custodian of such records. In the event no successor entity exists, the entity in possession of the public records shall be deemed the custodian of the records for purposes of compliance with this chapter, and shall retrieve and supply such records to the requester. Nothing in this subsection shall be construed to apply to records transferred to the Library of Virginia for permanent archiving pursuant to the duties imposed by the Virginia Public Records Act (§ 42.1-76 et seq.). In accordance with § 42.1-79, the Library of Virginia shall be the custodian of such permanently archived records and shall be responsible for responding to requests for such records made pursuant to this chapter.

§ 2.2-3704.1. Posting of notice of rights and responsibilities by state and local public bodies; assistance by the Freedom of Information Advisory Council.

A. All state public bodies subject to the provisions of this chapter, any county or city, any town with a population of more than 250, and any school board shall make available the following information to the public upon request and shall post a link to such information on the homepage of their respective official public government websites:

1. A plain English explanation of the rights of a requester under this chapter, the procedures to obtain public records from the public body, and the responsibilities of the public body in complying with this chapter. For purposes of this section, "plain English" means written in nontechnical, readily understandable language using words of common everyday usage and avoiding legal terms and phrases or other terms and words of art whose usage or special meaning primarily is limited to a particular field or profession;

2. Contact information for the FOIA officer designated by the public body pursuant to § 2.2-3704.2 to (i) assist a requester in making a request for records or (ii) respond to requests for public records;

3. A general description, summary, list, or index of the types of public records maintained by such public body;

4. A general description, summary, list, or index of any exemptions in law that permit or require such public records to be withheld from release;

5. Any policy the public body has concerning the type of public records it routinely withholds from release as permitted by this chapter or other law; and

6. The following statement: "A public body may make reasonable charges not to exceed its actual cost incurred in accessing, duplicating, supplying, or searching for the requested records *and shall make all reasonable efforts to supply the requested records at the lowest possible cost.* No public body shall impose any extraneous, intermediary, or surplus fees or expenses to recoup the general costs associated with creating or maintaining records or transacting the general business of the public body. Any duplicating fee charged by a public body shall not exceed the actual cost of duplication. ~~All charges for the supplying of requested records shall be estimated in advance at the request of the citizen~~ *Prior to conducting a search for records, the public body shall notify the requester in writing that the public body may make reasonable charges not to exceed its actual cost incurred in accessing, duplicating, supplying, or searching for requested records and inquire of the requester whether he would like to request a cost estimate in advance of the supplying of the requested records as set forth in subsection F of § 2.2-3704 of the Code of Virginia.*"

B. Any state public body subject to the provisions of this chapter and any county or city, and any town with a population of more than 250, shall post a link on its official public government website to the online public comment form on the Freedom of Information Advisory Council's website to enable any requester to comment on the quality of assistance provided to the requester by the public body.

C. The Freedom of Information Advisory Council, created pursuant to § 30-178, shall assist in the development and implementation of the provisions of subsection A, upon request.

CHAPTER 757

An Act to amend and reenact § 23.1-902.1 of the Code of Virginia, relating to institutions of higher education; education preparation programs; coursework; audit.

[H 419]

Approved April 27, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 23.1-902.1 of the Code of Virginia is amended and reenacted as follows:

§ 23.1-902.1. Education preparation programs; coursework; audit.

A. Each education preparation program offered by a public institution of higher education or private institution of higher education that provides training for any student seeking initial licensure by the Board of Education shall:

1. Include a program of coursework and require all such students to demonstrate mastery in science-based reading research and evidence-based literacy instruction. Each such program of coursework and the student mastery required to be demonstrated therein shall be consistent with definitions and expectations established by the Board of Education and the Department of Education after consultation with a commission consisting of independent literacy experts and stakeholders with knowledge of science-based reading research and evidence-based literacy instruction that has reviewed the

requirements established in subdivision 6 of 8VAC20-23-130, subdivision 6 of 8VAC20-23-190, subdivision 2 a of 8VAC20-23-350, 8VAC20-23-510 through 8VAC20-23-580, and 8VAC20-23-660; and

2. For any such student seeking initial licensure by the Board of Education as a teacher with an endorsement in early childhood, elementary education, or special education or with an endorsement as a reading specialist, ensure that reading coursework and field practice opportunities are a significant focus of the education preparation program.

B. The Department of Education shall audit at least once every seven years each education preparation program, in alignment with each program's accreditation cycle, for compliance with the requirements set forth in subsection A.

C. Each education preparation program offered by a public institution of higher education or private institution of higher education that leads to a degree, concentration, or certificate for reading specialists shall include a program of coursework and other training in the identification of and the appropriate interventions, accommodations, and teaching techniques for students with dyslexia or a related disorder. Such program shall (i) include coursework in the constructs and pedagogy underlying remediation of reading, spelling, and writing and (ii) require reading specialists to demonstrate mastery of an evidence-based, structured literacy instructional approach that includes explicit, systematic, sequential, and cumulative instruction.

2. That the provisions of this act shall become effective beginning with the 2024-2025 school year.

CHAPTER 758

An Act to amend the Code of Virginia by adding a section numbered 46.2-1219.3, relating to parking of vehicles; electric vehicle charging spots; civil penalties.

[H 450]

Approved April 27, 2022

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding a section numbered 46.2-1219.3 as follows:

§ 46.2-1219.3. Parking of vehicles in parking spaces reserved for charging electric vehicles; civil penalties.

A. It shall constitute a traffic infraction for any person to park a vehicle that (i) is not a plug-in electric motor vehicle, as defined in § 56-1, or (ii) is a plug-in electric motor vehicle, as defined in § 56-1, that is not in the process of charging in a parking space adjacent to an electric vehicle charging station that is clearly marked as reserved for charging plug-in electric motor vehicles. A violation of this subsection is subject to a civil penalty of not more than \$25.

B. No civil penalty shall be imposed pursuant to the provisions of this section or any local ordinance adopted pursuant to this section unless the parking space reserved for charging plug-in electric motor vehicles has a sign that includes the following language: "PENALTY, UP TO \$25." Such language may be placed on a separate sign and attached below any sign indicating that the space is reserved for charging plug-in electric motor vehicles. In the case of a local ordinance adopted pursuant to subsection C, the sign shall indicate the amount of the civil penalty if such ordinance imposes a civil penalty.

C. The governing body of any county, city, or town may adopt an ordinance not inconsistent with the provisions of this section. The civil penalty for violating any such ordinance shall not exceed the civil penalties provided in subsection A.

D. In the prosecution of an offense established under this section, prima facie evidence that the vehicle described in the summons issued pursuant to this section was parked in violation of this section, together with proof that the defendant was at the time of such violation the owner, lessee, or renter of the vehicle, shall constitute in evidence a rebuttable presumption that such owner, lessee, or renter of the vehicle was the person who committed the violation. A violation of this section may be charged on the uniform traffic summons form.

CHAPTER 759

An Act to amend and reenact §§ 56-248.1, 56-265.1, and 56-600 through 56-604 of the Code of Virginia and to amend the Code of Virginia by adding in Title 56 a chapter numbered 30, consisting of a section numbered 56-625, relating to natural gas, biogas, and other gas sources of energy; definitions; energy conservation and efficiency; Steps to Advance Virginia's Energy Plan; biogas supply infrastructure projects.

[H 558]

Approved April 27, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 56-248.1, 56-265.1, and 56-600 through 56-604 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding in Title 56 a chapter numbered 30, consisting of a section numbered 56-625, as follows:

§ 56-248.1. Commission to monitor fuel prices and utility fuel purchases; fuel price index.

A. The Commission shall monitor all fuel purchases, transportation costs, and contracts for such purchases of a utility to ascertain that all feasible economies are being utilized. *Subject to the provisions of § 56-234, the Commission shall allow natural gas utilities to include in their fuel portfolios supplemental or substitute forms of gas sources that meet the natural*

gas utility's pipeline quality gas standards and that reduce the emissions intensity of its fuel portfolio. A natural gas utility shall procure supplemental or substitute forms of gas sources utilizing standard industry practices and shall report to the Commission annually the imputed reduction in carbon dioxide equivalent resulting from such purchasing practices.

B. As used in this section:

"Biogas" means a mixture of hydrocarbons that is a gas at 60 degrees Fahrenheit and one atmosphere of pressure that is produced through the anaerobic digestion or thermal conversion of organic matter.

"Low-emission natural gas" means natural gas produced from a geologic source that has a methane intensity of 0.20 or less (i) as reported under a protocol approved by the federal Environmental Protection Agency's Gas STAR Methane Challenge, (ii) as certified by the United Nations Environment Programme's Oil and Gas Methane Partnership 2.0, or (iii) as validated under a Qualified Attribute Commodities Platform.

"Methane intensity" means the methane emissions assigned to natural gas on an energy basis divided by the total methane content of produced natural gas.

"Qualified Attribute Commodities Platform" means a trading mechanism for natural gas or natural gas attributes that are nonfinancial intangible commodities that represents, packages, and certifies the qualifying attributes of an amount of low-emission natural gas. A Qualified Attribute Commodities Platform provides validation by an independent third party, provides natural gas or natural gas attributes capable of bilateral or exchange contract trading pursuant to standardized contracts for physical delivery that reasonably eliminate validation risk, and provides transparency for audit and reporting purposes.

"Supplemental or substitute forms of gas sources" means (i) low-emission natural gas, (ii) biogas, or (iii) hydrogen.

C. In addition, the Commission shall establish a fuel price index in order to compare the prices paid for the various types of fuel by Virginia utilities with the average price of the various types of fuel paid by other public utilities at comparable geographic locations in the market.

D. This section shall not apply to telephone companies.

§ 56-265.1. Definitions.

In this chapter, the following terms shall have the following meanings:

(a) "Company" means a corporation, a limited liability company, an individual, a partnership, an association, a joint-stock company, a business trust, a cooperative, or an organized group of persons, whether incorporated or not; or any receiver, trustee or other liquidating agent of any of the foregoing in his capacity as such; but not a municipal corporation or a county, unless such municipal corporation or county has obtained a certificate pursuant to § 56-265.4:4.

(b) "Public utility" means any company that owns or operates facilities within the Commonwealth of Virginia for the generation, transmission, or distribution of electric energy for sale, for the production, storage, transmission, or distribution, otherwise than in enclosed portable containers, of natural ~~or manufactured~~ gas, *or, if produced, stored, transmitted, or distributed by a natural gas utility as defined in § 56-265.4:6, supplemental or substitute forms of gas sources as defined in § 56-248.1, or geothermal resources for sale for heat, light or power, or for the furnishing of telephone service, sewerage facilities or water.* A "public utility" may own a facility for the storage of electric energy for sale that includes one or more pumped hydroelectricity generation and storage facilities located in the coalfield region of Virginia as described in § 15.2-6002. However, the term "public utility" does not include any of the following:

(1) Except as otherwise provided in § 56-265.3:1, any company furnishing sewerage facilities, geothermal resources or water to less than 50 customers. Any company furnishing water or sewer services to 10 or more customers and excluded by this subdivision from the definition of "public utility" for purposes of this chapter nevertheless shall not abandon the water or sewer services unless and until approval is granted by the Commission or all the customers receiving such services agree to accept ownership of the company.

(2) Any company generating and distributing electric energy exclusively for its own consumption.

(3) Any company (A) which furnishes electric service together with heating and cooling services, generated at a central plant installed on the premises to be served, to the tenants of a building or buildings located on a single tract of land undivided by any publicly maintained highway, street or road at the time of installation of the central plant, and (B) which does not charge separately or by meter for electric energy used by any tenant except as part of a rental charge. Any company excluded by this subdivision from the definition of "public utility" for the purposes of this chapter nevertheless shall, within 30 days following the issuance of a building permit, notify the State Corporation Commission in writing of the ownership, capacity and location of such central plant, and it shall be subject, with regard to the quality of electric service furnished, to the provisions of Chapters 10 (§ 56-232 et seq.) and 17 (§ 56-509 et seq.) and regulations thereunder and be deemed a public utility for such purposes, if such company furnishes such service to 100 or more lessees.

(4) Any company, or affiliate thereof, making a first or direct sale, or ancillary transmission or delivery service, of natural ~~or manufactured~~ gas to fewer than 35 commercial or industrial customers, which are not themselves "public utilities" as defined in this chapter, or to certain public schools as indicated in this subdivision, for use solely by such purchasing customers at facilities which are not located in a territory for which a certificate to provide gas service has been issued by the Commission under this chapter and which, at the time of the Commission's receipt of the notice provided under § 56-265.4:5, are not located within any area, territory, or jurisdiction served by a municipal corporation that provided gas distribution service as of January 1, 1992, provided that such company shall comply with the provisions of § 56-265.4:5. Direct sales or ancillary transmission or delivery services of natural gas to public schools in the following localities may be

made without regard to the number of schools involved and shall not count against the "fewer than 35" requirement in this subdivision: the Counties of Dickenson, Wise, Russell, and Buchanan, and the City of Norton.

(5) Any company which is not a public service corporation and which provides compressed natural gas service at retail for the public.

(6) Any company selling landfill gas from a solid waste management facility permitted by the Department of Environmental Quality to a public utility certificated by the Commission to provide gas distribution service to the public in the area in which the solid waste management facility is located. If such company submits to the public utility a written offer for sale of such gas and the public utility does not agree within 60 days to purchase such gas on mutually satisfactory terms, then the company may sell such gas to (i) any facility owned and operated by the Commonwealth which is located within three miles of the solid waste management facility or (ii) any purchaser after such landfill gas has been liquefied. The provisions of this subdivision shall not apply to the City of Lynchburg or Fairfax County.

(7) Any authority created pursuant to the Virginia Water and Waste Authorities Act (§ 15.2-5100 et seq.) making a sale or ancillary transmission or delivery service of landfill gas to a commercial or industrial customer from a solid waste management facility permitted by the Department of Environmental Quality and operated by that same authority, if such an authority limits off-premises sale, transmission or delivery service of landfill gas to no more than one purchaser. The authority may contract with other persons for the construction and operation of facilities necessary or convenient to the sale, transmission or delivery of landfill gas, and no such person shall be deemed a public utility solely by reason of its construction or operation of such facilities. If the purchaser of the landfill gas is located within the certificated service territory of a natural gas public utility, the public utility may file for Commission approval a proposed tariff to reflect any anticipated or known changes in service to the purchaser as a result of the use of landfill gas. No such tariff shall impose on the purchaser of the landfill gas terms less favorable than similarly situated customers with alternative fuel capabilities; provided, however, that such tariff may impose such requirements as are reasonably calculated to recover the cost of such service and to protect and ensure the safety and integrity of the public utility's facilities.

(8) A company selling or delivering only landfill gas, electricity generated from only landfill gas, or both, that is derived from a solid waste management facility permitted by the Department of Environmental Quality and sold or delivered from any such facility to not more than three commercial or industrial purchasers or to a natural gas or electric public utility, municipal corporation or county as authorized by this section. If a purchaser of the landfill gas is located within the certificated service territory of a natural gas public utility or within an area in which a municipal corporation provides gas distribution service and the landfill gas is to be used in facilities constructed after January 1, 2000, such company shall submit to such public utility or municipal corporation a written offer for sale of that gas prior to offering the gas for sale or delivery to a commercial or industrial purchaser. If the public utility or municipal corporation does not agree within 60 days following the date of the offer to purchase such landfill gas on mutually satisfactory terms, then the company shall be authorized to sell such landfill gas, electricity, or both, to the commercial or industrial purchaser, utility, municipal corporation, or county. Such public utility may file for Commission approval a proposed tariff to reflect any anticipated or known changes in service to the purchaser as a result of the purchaser's use of the landfill gas. No such tariff shall impose on such purchaser of the landfill gas terms less favorable than those imposed on similarly situated customers with alternative fuel capabilities; provided, however, that such tariff may impose such requirements as are reasonably calculated to recover any cost of such service and to protect and ensure the safety and integrity of the public utility's facilities.

(9) A company that is not organized as a public service company pursuant to subsection D of § 13.1-620 and that sells and delivers propane air only to one or more public utilities. Any company excluded by this subdivision from the definition of "public utility" for the purposes of this chapter nevertheless shall be subject to the Commission's jurisdiction relating to gas pipeline safety and enforcement.

(10) A farm or aggregation of farms that owns and operates facilities within the Commonwealth for the generation of electric energy from waste-to-energy technology. As used in this subdivision, (i) "farm" means any person that obtains at least 51 percent of its annual gross income from agricultural operations and produces the agricultural waste used as feedstock for the waste-to-energy technology, (ii) "agricultural waste" means biomass waste materials capable of decomposition that are produced from the raising of plants and animals during agricultural operations, including animal manures, bedding, plant stalks, hulls, and vegetable matter, and (iii) "waste-to-energy technology" means any technology, including a methane digester, that converts agricultural waste into gas, steam, or heat that is used to generate electricity on-site.

(11) A company, other than an entity organized as a public service company, that provides non-utility gas service as provided in § 56-265.4:6.

(12) A company, other than an entity organized as a public service company, that provides storage of electric energy that is not for sale to the public.

(c) "Commission" means the State Corporation Commission.

(d) "Geothermal resources" means those resources as defined in § 45.2-2000.

§ 56-600. Definitions.

As used in this chapter:

"Allowed distribution revenue" means the average annual, weather-normalized, nongas commodity revenue per customer associated with the rates in effect as adopted in the applicable utility's last Commission-approved rate case or performance-based regulation plan, multiplied by the average number of customers served.

"Conservation and ratemaking efficiency plan" means a plan filed by a natural gas utility pursuant to this chapter that includes a decoupling mechanism.

"Cost-effective conservation and energy efficiency program" means a program approved by the Commission that is designed to decrease the average customer's annual, weather-normalized consumption ~~or total gas bill of energy~~, for gas and nongas elements combined, or avoid energy costs or consumption the customer may otherwise have incurred, and is determined by the Commission to be cost-effective if the net present value of the benefits exceeds the net present value of the costs *at the portfolio level* as determined by not less than any three of the following four tests: the Total Resource Cost Test, the Program Administrator Test (also referred to as the Utility Cost Test), the Participant Test, and the Ratepayer Impact Measure Test. Such determination shall include an analysis of all ~~four~~ *five* tests, and a ~~program or~~ portfolio of programs shall be approved if the net present value of the benefits exceeds the net present value of the costs as determined by not less than any three of the four tests. Such determination shall also be made (i) with the assignment of administrative costs associated with the conservation and ratemaking efficiency plan to the portfolio as a whole and (ii) with the assignment of education and outreach costs associated with each program in a portfolio of programs to such program and not to individual measures within a program, when such administrative, education, or outreach costs are not otherwise directly assignable. Without limitation, rate designs or rate mechanisms, customer education, customer incentives, *appliance rebates*, and weatherization programs are examples of conservation and energy efficiency programs that the Commission may consider. Energy efficiency programs that provide measurable and verifiable energy savings to low-income customers or elderly customers may also be deemed cost effective. A cost-effective conservation and energy efficiency program shall not include a program designed to convert propane *or heating oil* customers to natural gas.

"Decoupling mechanism" means a rate, tariff design or mechanism that decouples the recovery of a utility's allowed distribution revenue from the level of consumption of natural gas by its customers, including (i) a mechanism that adjusts actual nongas distribution revenues per customer to allowed distribution revenues per customer, such as a sales adjustment clause, (ii) rate design changes that substantially align the percentage of fixed charge revenue recovery with the percentage of the utility's fixed costs, such as straight fixed variable rates, provided such mechanism includes a substantial demand component based on a customer's peak usage, or (iii) a combination of clauses (i) and (ii) that substantially decreases the relative amount of nongas distribution revenue affected by changes in per customer consumption of gas.

"Fixed costs" means any and all of the utility's nongas costs of service, together with an authorized return thereon, that are not associated with the cost of the natural gas commodity flowing through and measured by the customer's meter.

"Measure" means an individual item, service, offering, or rebate available to a customer of a natural gas utility as part of the utility's conservation and ratemaking efficiency plan.

"Natural gas utility" or "utility" means any investor-owned public service company engaged in the business of furnishing natural gas service to the public.

"Portfolio" means the program or programs included in a natural gas utility's conservation and ratemaking efficiency plan.

"Program" means a group of one or more related measures for a customer class.

"Revenue-neutral" means a change in a rate, tariff design or mechanism as a component of a conservation and ratemaking efficiency plan that does not shift annualized allowed distribution revenue between customer classes, and does not increase or decrease the utility's average, weather-normalized nongas utility revenue per customer for any given rate class by more than 0.25 percent when compared to (i) the rate, tariff design or mechanism in effect at the time a conservation and ratemaking efficiency plan is filed pursuant to this chapter or (ii) the allocation of costs approved by the Commission in a rate case using the cost of service methodology set forth in § 56-235.2 or a performance-based regulation plan authorized by § 56-235.6, where a plan is filed in conjunction with such case.

§ 56-601. Natural gas conservation and ratemaking efficiency.

A. Consistent with the objectives pertaining to the energy issues and policy elements stated in § 45.2-1706.1, it is in the public interest to authorize and encourage the adoption of natural gas conservation and ratemaking efficiency plans that promote the wise use of natural gas and natural gas infrastructure through the development of alternative rate designs and other mechanisms that more closely align the interests of natural gas utilities, their customers, and the Commonwealth generally, and improve the efficiency of ratemaking to more closely reflect the dynamic nature of the natural gas market, the economy, and public policy regarding conservation and energy efficiency. Such alternative rate designs and other mechanisms should, where feasible:

1. Provide utilities with better tools to work with customers to decrease the average customer's annual average weather-normalized consumption of ~~natural gas energy~~;
2. Provide reasonable assurance of a utility's ability to recover costs of serving the public, including its cost-effective investments in conservation and energy efficiency as well as infrastructure needed to provide or maintain reliable service to the public;
3. Reward utilities for meeting or exceeding conservation and energy efficiency goals that may be established pursuant to the Virginia Energy Plan (§ 45.2-1710 et seq.);
4. Provide customers with long-term, meaningful opportunities to more efficiently consume ~~natural gas and mitigate their expenditures for the natural gas commodity energy~~, while ensuring that the rate design methodology used to set a utility's revenue recovery is not inconsistent with such conservation and energy efficiency goals;

5. Recognize the economic and environmental benefits of efficient use of natural gas, *biogas, and lower-carbon gases*; and

6. Preserve or enhance the utility bill savings that customers receive when they reduce their ~~natural gas~~ *energy* use.

B. Natural gas utilities are authorized pursuant to this chapter to file natural gas conservation and ratemaking efficiency plans that implement alternative natural gas utility rate designs and other mechanisms, in addition to or in conjunction with the cost of service methodology set forth in § 56-235.2 and performance-based regulation plans authorized by § 56-235.6, that:

1. Replace existing utility rate designs or other mechanisms that promote inefficient use of natural gas with rate designs or other mechanisms that ensure a utility's recovery of its authorized revenues is independent of the amount of customers' natural gas consumption;

2. Provide incentives for natural gas utilities to promote conservation and energy efficiency by granting recovery of the costs associated with cost-effective conservation and energy efficiency programs; and

3. Reward utilities that meet or exceed conservation and energy efficiency goals on a weather-normalized, annualized average customer basis through the implementation of cost-effective conservation and energy efficiency programs.

C. This chapter shall be construed liberally to accomplish these purposes.

§ 56-602. Conservation and ratemaking efficiency plans.

A. Notwithstanding any provision of law to the contrary, each natural gas utility shall have the option to file a conservation and ratemaking efficiency plan as provided in this chapter. Such a plan may include one or more residential, small commercial, or small general service classes, but shall not apply to large commercial or large industrial classes of customers. Such plan shall include: (i) a normalization component that removes the effect of weather from the determination of conservation and energy efficiency results; (ii) a decoupling mechanism; (iii) one or more cost-effective conservation and energy efficiency programs; (iv) provisions to address the needs of low-income or low-usage residential customers; and (v) provisions to ensure that the rates and service to non-participating classes of customers are not adversely impacted. Such plan may also include provisions for phased or targeted implementation of rate or tariff design changes, if any, or conservation and energy efficiency programs. The Commission may approve such a plan after such notice and opportunity for hearing as the Commission may prescribe, subject to the provisions of this chapter. Nothing in this subsection shall prevent a natural gas utility from amending a conservation and ratemaking efficiency plan by amending, altering, supplementing, or deleting one or more conservation or energy efficiency programs.

B. The Commission shall approve or deny, within 180 days, a natural gas utility's initial application for any revenue-neutral conservation and ratemaking efficiency plan that allocates annual per-customer fixed costs on an intra-class basis in reliance upon a revenue study or class cost of service study supporting the rates in effect at the time the plan is filed. A plan filed pursuant to this subsection shall not require the filing of rate case schedules. The Commission shall approve or deny, within 120 days, a natural gas utility's application to amend a previously approved plan. The Commission shall approve such a plan or amendment if it finds that the plan's or amendment's proposed decoupling mechanism is revenue-neutral and is otherwise consistent with this chapter. If the Commission denies such a plan or amendment, it shall set forth with specificity the reasons for such denial and the utility shall have the right to refile, without prejudice, an amended plan or amendment within 60 days, and the Commission shall thereafter have 60 days to approve or deny the amended plan or amendment. The time period for Commission review provided for in this subsection shall not apply if the conservation and ratemaking efficiency plan is filed in conjunction with a rate case using the cost of service methodology set forth in § 56-235.2 or a performance-based regulation plan authorized by § 56-235.6.

C. The Commission shall approve or deny, within 270 days, a natural gas utility's initial application for any revenue-neutral conservation and ratemaking efficiency plan that allocates per-customer fixed costs on an intra-class basis according to a class cost of service study filed with the plan, when such plan is filed in conjunction with a rate case using the cost of service methodology set forth in § 56-235.2 or a performance-based regulation plan authorized by § 56-235.6. The Commission shall approve or deny, within 120 days, a natural gas utility's application to amend a plan previously approved pursuant to this subsection. The Commission shall approve such a plan or amendment if it finds that the plan's or amendment's proposed decoupling mechanism is revenue-neutral, is consistent with this chapter, and is otherwise in the public interest, including any findings required by § 56-235.2 or 56-235.6. If the Commission denies such a plan or amendment, it shall set forth with specificity the reasons for its denial and the utility shall have the right to refile, without prejudice, an amended plan or amendment within 60 days; the Commission shall thereafter have 60 days to approve or deny the amended plan or amendment.

D. The Commission shall allow any natural gas utility that implements a conservation and ratemaking efficiency plan under this chapter to recover, on a timely basis and through its regulated rates charged to its classes of customers participating in the plan, its entire incremental costs associated with cost-effective conservation and energy efficiency programs that are designed to encourage the reduction of annualized, weather-normalized ~~natural gas~~ *energy* consumption per customer. Ratemaking treatment may include placing appropriate capital expenditures for technology and program costs in the respective utility's rate base, deferral of such interim incremental costs (which costs would not be subject to an earnings test), or recovering the utility's technology and program costs through another ratemaking methodology approved by the Commission, such as a tracking mechanism. Such conservation and energy efficiency programs may also be jointly conducted or co-sponsored with other utilities, federal, state or local government agencies, nonprofit organizations, trade associations, homebuilders, and other for-profit vendors. Incremental costs recovered pursuant to this subsection shall be in

addition to all other costs that the utility is permitted to recover, shall not be considered an offset to other Commission-approved costs of service or revenue requirements, and shall not be included in any computation relative to a performance-based regulation plan revenue sharing mechanism.

E. The Commission shall require every natural gas utility operating under a conservation and ratemaking efficiency plan approved pursuant to this chapter to file annual reports showing the year over year weather-normalized use of ~~natural gas~~ *energy* on an average customer basis, by customer class, as well as the incremental, independently verified net economic benefits created by the utility's cost-effective conservation and energy-efficiency programs during the previous year.

F. The Commission shall grant recovery, on an annual basis, of a performance-based incentive for delivering conservation and energy efficiency benefits, which shall be included in the utility's respective purchased gas adjustment mechanism. The incentive shall be calculated as a reasonable share of the verified net economic benefits created by the utility's cost-effective conservation and energy efficiency programs, and may be recovered over a period of years equal to the payback period or discounted to net present value and recovered in the first year. In structuring this incentive, the Commission shall create a reasonable opportunity for a utility to earn up to a 15 percent share of such independently verified net economic benefits upon meeting target levels of such benefits set forth in a plan approved by the Commission. The level of net economic benefits to be used as the basis for such calculation shall be the sum of customer savings less utility costs recovered through subsection D, measured over the number of years of the payback period, rounded up to the next highest year. The incentives authorized by this subsection shall be in addition to any other revenue requirements or rates established pursuant to § 56-235.2 or 56-235.6 and independent of any computation of shared revenues under an approved performance-based regulation plan.

G. Unless the context clearly indicates otherwise, nothing in this chapter shall impair the Commission's authority under § 56-234.2, 56-235.2, or 56-235.6; provided, however, that notwithstanding any other provision of law, the Commission shall not reduce an authorized return on common equity or other measure of utility profit as a result of the implementation of a natural gas conservation and ratemaking efficiency plan pursuant to this chapter.

§ 56-603. Definitions.

As used in this chapter:

"Commission" means the State Corporation Commission.

"Eligible infrastructure replacement" means natural gas utility facility replacement projects that: (i) enhance safety or reliability by reducing system integrity risks associated with customer outages, corrosion, equipment failures, material failures, or natural forces; (ii) do not increase revenues by directly connecting the infrastructure replacement to new customers; (iii) reduce or have the potential to reduce greenhouse gas emissions; (iv) are commenced on or after January 1, 2010; and (v) are not included in the natural gas utility's rate base in its most recent rate case using the cost of service methodology set forth in § 56-235.2, or the natural gas utility's rate base included in the rate base schedules filed with a performance-based regulation plan authorized by § 56-235.6, if the plan did not include the rate base. *"Eligible infrastructure replacement" includes natural gas utility facility replacement projects that are identified as a result of an enhanced leak detection and repair program.*

"Eligible infrastructure replacement costs" includes the following:

1. Return on the investment. In calculating the return on the investment, the Commission shall use the natural gas utility's regulatory capital structure as calculated utilizing the weighted average cost of capital, including the cost of debt and the cost of equity used in determining the natural gas utility's base rates in effect during the construction period of the eligible infrastructure replacement project. If the natural gas utility's cost of capital underlying the base rates in effect at the time its proposed SAVE plan is filed has not been changed by order of the Commission within the preceding five years, the Commission may require the natural gas utility to file an updated weighted average cost of capital, and the natural gas utility may propose an updated weighted average cost of capital. The natural gas utility may recover the external costs associated with establishing its updated weighted average cost of capital through the SAVE rider. Such external costs shall include legal costs and consultant costs;

2. A revenue conversion factor, including income taxes and an allowance for bad debt expense, shall be applied to the required operating income resulting from the eligible infrastructure replacement costs;

3. Depreciation. In calculating depreciation, the Commission shall use the natural gas utility's current depreciation rates;

4. Property taxes; ~~and~~

5. Carrying costs on the over- or under-recovery of the eligible infrastructure replacement costs. In calculating the carrying costs, the Commission shall use the natural gas utility's regulatory capital structure as determined in subdivision 1 of the definition of eligible infrastructure replacement costs; *and*

6. *Enhanced leak detection and repair program costs. Such costs shall include the costs of operating an enhanced leak detection and repair program.*

"Enhanced leak detection and repair program" means a program that is designed to allow a natural gas utility to deploy advanced leak detection technologies to more accurately identify active leaks as part of the natural gas utility's leak management program and to prioritize the repair of leaks that present a risk to safety or the environment. A natural gas utility may amend its SAVE plan to include an enhanced leak detection and repair program by filing an application to amend its previously approved SAVE plan, as set forth in subsection B of § 56-604.

"Investment" means costs incurred on eligible infrastructure replacement projects including planning, development, and construction costs; costs of infrastructure associated therewith; and an allowance for funds used during construction. In

calculating the allowance for funds used during construction, the Commission shall use the natural gas utility's actual regulatory capital structure as determined in subdivision 1 of the definition of eligible infrastructure replacement costs.

"Natural gas utility" means any investor-owned public service company engaged in the business of furnishing natural gas service to the public.

"Natural gas utility facility replacement project" means the replacement of storage, peak shaving, transmission or distribution facilities used in the delivery of natural gas, or supplemental or substitute forms of gas sources by a natural gas utility.

"SAVE" means Steps to Advance Virginia's Energy Plan.

"SAVE plan" means a plan filed by a natural gas utility that identifies proposed eligible infrastructure replacement projects and a SAVE rider.

"SAVE rider" means a recovery mechanism that will allow for recovery of the eligible infrastructure replacement costs, through a separate mechanism from the customer rates established in a rate case using the cost of service methodology set forth in § 56-235.2, or a performance-based regulation plan authorized by § 56-235.6.

§ 56-604. Filing of petition with Commission to establish or amend a SAVE plan; recovery of certain costs; procedure.

A. Notwithstanding any provisions of law to the contrary, a natural gas utility may file a SAVE plan as provided in this chapter. Such a plan shall provide for a timeline for completion of the proposed eligible infrastructure replacement projects, the estimated costs of the proposed eligible infrastructure projects, and a schedule for recovery of the related eligible infrastructure replacement costs through the SAVE rider, and demonstrate that the plan is prudent and reasonable. *Such a plan may also include an enhanced leak detection and repair program, which shall include a description and an estimate of the associated enhanced leak detection and repair program costs.* The Commission may approve such a plan after such notice and opportunity for hearing as the Commission may prescribe, subject to the provisions of this chapter.

B. The Commission shall approve or deny, within 180 days, a natural gas utility's initial application for a SAVE plan. A plan filed pursuant to this section shall not require the filing of rate case schedules. The Commission shall approve or deny, within 120 days, a natural gas utility's application to amend a previously approved plan. If the Commission denies such a plan or amendment, it shall set forth with specificity the reasons for such denial, and the utility shall have the right to refile, without prejudice, an amended plan or amendment within 60 days, and the Commission shall thereafter have 60 days to approve or deny the amended plan or amendment. The time period for Commission review provided for in this subsection shall not apply if the SAVE plan is filed in conjunction with a rate case using the cost of service methodology set forth in § 56-235.2, or a performance-based regulation plan authorized by § 56-235.6.

C. Any SAVE plan and any SAVE rider that is submitted to and approved by the Commission shall be allocated and charged in accordance with appropriate cost causation principles in order to avoid any undue cross-subsidization between rate classes.

D. No other revenue requirement or ratemaking issues may be examined in consideration of the application filed pursuant to the provisions of this chapter.

E. At the end of each 12-month period the SAVE rider is in effect, the natural gas utility shall reconcile the difference between the recognized eligible infrastructure replacement costs and the amounts recovered under the SAVE rider, and shall submit the reconciliation and a proposed SAVE rider adjustment to the Commission to recover or refund the difference, as appropriate, through an adjustment to the SAVE rider. The Commission shall approve or deny, within 90 days, a natural gas utility's proposed SAVE rider adjustment.

F. A natural gas utility that has implemented a SAVE rider pursuant to this chapter shall file revised rate schedules to reset the SAVE rider to zero, when new base rates and charges that incorporate eligible infrastructure replacement costs previously reflected in the currently effective SAVE rider become effective for the natural gas utility, following a Commission order establishing customer rates in a rate case using the cost of service methodology set forth in § 56-235.2, or a performance-based regulation plan authorized by § 56-235.6.

G. Costs recovered pursuant to this chapter shall be in addition to all other costs that the natural gas utility is permitted to recover, shall not be considered an offset to other Commission-approved costs of service or revenue requirements, and shall not be included in any computation relative to a performance-based regulation plan revenue-sharing mechanism. Further, if the Commission approves (i) an updated weighted average cost of capital for use in calculating the return on investment, (ii) the carrying costs on the over- or under-recovery of the eligible infrastructure replacement costs, (iii) the allowance for funds used during construction, or (iv) any combination thereof, such weighted average cost of capital shall be used only for the purpose of the eligible infrastructure replacement costs for the SAVE rider and shall not be used for any purpose in any other proceeding.

CHAPTER 30.

BIOGAS SUPPLY INFRASTRUCTURE PROJECTS.

§ 56-625. Biogas supply infrastructure projects.

A. As used in this section:

"Biogas" has the same meaning as set forth in § 56-248.1.

"Biogas facilities" means biogas reserves; production facilities, including equipment required to prepare the biogas for use; gathering of, transmission of, and, within the natural gas utility's certificated service territory, any distribution

pipelines necessary to deliver the reserves; and aboveground and underground storage used in the delivery of gas to existing natural gas transmission pipelines or distribution systems.

"Biogas supply investment plan" or "plan" means a plan filed by a natural gas utility that identifies proposed eligible biogas supply infrastructure projects and its development of those projects with or without a third party.

"Eligible biogas supply infrastructure costs" includes the investment in eligible biogas supply infrastructure projects and the following:

1. Return on the investment. In calculating the return on the investment, the Commission shall use the natural gas utility's regulatory capital structure in effect during the construction period of the eligible biogas supply infrastructure project. The regulatory capital structure shall be calculated utilizing the weighted average cost of capital, including the cost of debt and the cost of equity, plus an additional 100 basis points added to the cost of equity. If the natural gas utility's cost of capital underlying the base rates in effect at the time its proposed eligible biogas supply infrastructure project is filed has not been changed by order of the Commission within the preceding five years, the Commission may require the natural gas utility to file an updated weighted average cost of capital, and the natural gas utility may propose an updated weighted average cost of capital. The natural gas utility may recover the external costs associated with establishing its updated weighted average cost of capital through a biogas supply rider. Such external costs shall include legal costs and consultant costs;

2. A revenue conversion factor. Such factor, including income taxes, shall be applied to the required operating income resulting from the eligible biogas supply infrastructure costs;

3. Operating and maintenance expenses. These expenses include the amount of operating and maintenance expenses utilized in biogas collection; processing the gas produced; and gathering, transmission, and distribution lines delivering the gas to a pipeline or distribution system;

4. Depreciation. In calculating depreciation, the Commission shall use the natural gas utility's current depreciation rates for investments in distribution infrastructure, as set out by the appropriate asset class. The natural gas utility shall propose a basis for recovering for the depreciation or depletion of investments in other asset classes in the biogas supply investment plan, including investments in biogas reserves that will deplete based on their useful life or of associated facilities that may be retired upon depletion of biogas reserves;

5. Property tax and any other taxes or government fees associated with production and transmission of biogas; and

6. Carrying costs on the over-recovery or under-recovery of the eligible biogas supply infrastructure costs. In calculating the carrying costs, the Commission shall use the natural gas utility's regulatory capital structure as determined in subdivision 1.

"Eligible biogas supply infrastructure projects" or "projects" means capital investments in biogas facilities that, alone or in combination with other projects or strategies, offer reasonably anticipated benefits to customers and markets, which benefits mean (i) a reduction in methane or carbon dioxide equivalent emissions from the biogas facility, (ii) an additional source of supply for the natural gas utility, and (iii) a beneficial use for the biogas, and which benefits do not result in the gas delivered to customers failing to meet the natural gas utility's pipeline quality standards.

"Investment" means actual costs incurred on eligible biogas supply infrastructure projects, including planning, development, and construction costs; actual costs of infrastructure associated therewith; and an allowance for funds used during construction. In calculating the allowance for funds used during construction, the Commission shall use the natural gas utility's actual regulatory capital structure as determined in subdivision 1 of the definition of "eligible biogas supply infrastructure costs."

"Natural gas utility" means an investor-owned public service company engaged in the business of furnishing natural gas service to the public.

B. A natural gas utility shall have the right to recover eligible biogas supply infrastructure costs on an ongoing basis through the gas cost component of the natural gas utility's rate structure or other recovery mechanism approved by the Commission, provided that any such mechanism shall properly allocate costs. Natural gas utilities using the cost of service methodology set forth in § 56-235.2 or a performance-based regulation plan authorized by § 56-235.6 shall be eligible to file a plan. The plan shall include a timeline for the investment and completion of the proposed eligible biogas supply infrastructure projects; provide for an estimated schedule for recovery of the related eligible biogas supply infrastructure costs through the gas cost component of the natural gas utility's rate structure or other mechanism, including proposed depreciation rates for investments in non-distribution asset classes and how any revenue gains from the use of the pipelines by third parties will be used to offset eligible biogas supply infrastructure costs; and demonstrate that the plan is in the public interest with due consideration to the reduction in methane or carbon dioxide equivalent emissions and the addition of a supply source for the natural gas utility or a combination thereof. No project shall provide an annual volume of biogas that exceeds three percent of the natural gas utility's annual firm sales demand, and no combination of projects shall provide an annual volume of biogas that exceeds 15 percent of the natural gas utility's annual firm sales demand. The natural gas utility's weather-normalized firm sales demand for the calendar year preceding the application shall be deemed to establish the annual firm sales demand for the purposes of calculating the volume and volumetric limits of projects. The Commission shall approve such a plan upon a finding that it (i) is in the public interest, (ii) will result in a decrease of methane or carbon dioxide equivalent emissions, and (iii) will result in rates that are just and reasonable, after notice and an opportunity for a hearing in accordance with the provisions of this chapter.

C. In addition to the items included in the plan as specified in subsection B, the plan may provide the natural gas utility with an option to receive the biogas or sell the biogas at market prices. A natural gas utility proposing this option as part of its plan shall propose how any revenue gains from the sale of the biogas will be used to reduce the cost of gas to its customers. The Commission shall approve or deny, within 180 days, a natural gas utility's initial application for a biogas supply investment plan. A plan filed pursuant to this section shall not require the filing of rate case schedules. The Commission shall approve or deny, within 120 days, a natural gas utility's application to amend a previously approved plan. If the Commission denies such a plan or amendment, it shall set forth with specificity the reasons for such denial, and the natural gas utility shall have the right to refile, without prejudice, an amended plan or amendment within 60 days, and the Commission shall thereafter have 60 days to approve or deny the amended plan or amendment. If the plan is filed as part of a general rate case using the cost of service methodology set forth in § 56-235.2 or a performance-based regulation plan authorized by § 56-235.6, then the Commission shall approve or deny the plan concurrent with or as part of the general rate case decision.

D. No other revenue requirement or ratemaking issues shall be examined in consideration of a plan filed pursuant to the provisions of this section.

E. A natural gas utility with an approved biogas supply investment plan shall annually file a report of the eligible biogas supply infrastructure investment made, the eligible biogas supply infrastructure costs incurred and the amount of such costs recovered, the volume of biogas delivered to customers or sold to third parties during the 12-month reporting period, and an analysis of the price of biogas delivered to the natural gas utility customers and the market cost of gas during the 12-month period. However, such analysis shall not affect a natural gas utility's right to recover all eligible biogas supply infrastructure costs as set forth in subsection B. The report shall also identify the balance of over-recovery or under-recovery of the eligible biogas supply infrastructure costs at the end of the reporting period and the projected investment to be made, the projected infrastructure costs to be incurred, and the projected costs to be recovered during the next 12-month reporting period.

F. Costs recovered pursuant to this section shall be in addition to all other costs that the natural gas utility is permitted to recover and shall not be considered an offset to other Commission-approved costs of service or revenue requirements.

2. That the State Corporation Commission may exempt customer education components from the required test parameters set forth in § 56-600 of the Code of Virginia, as amended by this act, for a cost-effective conservation and energy efficiency program.

3. That each natural gas utility that has one or more State Corporation Commission-approved (the Commission) eligible biogas supply infrastructure projects, as defined in § 56-625 of the Code of Virginia, as created by this act, shall report annually to the Commission the reduction in methane and carbon dioxide equivalent emissions from each such approved project. The Commission shall issue an annual report describing the number of approved eligible biogas supply infrastructure projects, as defined in § 56-625 of the Code of Virginia, as created by this act, and the methane and carbon dioxide equivalent emissions from such approved projects. The Commission shall make such report available on its website.

4. That the Department of Environmental Quality (the Department) shall convene a work group of stakeholders to determine the feasibility of setting a statewide methane reduction goal and plan to achieve the same. The Department shall report its findings and recommendations to the Chairmen of the Senate Committee on Agriculture, Conservation and Natural Resources, the Senate Committee on Commerce and Labor, the House Committee on Agriculture, Chesapeake and Natural Resources, and the House Committee on Commerce and Energy by July 1, 2023.

CHAPTER 760

An Act directing the Secretary of Education and Virginia Superintendent of Public Instruction to convene a work group to revise the Virginia Standards of Learning summative assessments of proficiency and to develop a plan for implementation of such revised assessments.

[H 585]

Approved April 27, 2022

Be it enacted by the General Assembly of Virginia:

1. § 1. That the Secretary of Education and the Virginia Superintendent of Public Instruction shall convene and consult a work group consisting of representatives of the Department of Education and other appropriate stakeholders to revise the Virginia Standards of Learning summative assessments of proficiency that require students to demonstrate that they possess the skills, knowledge, and content necessary for success and to develop a plan for implementation of such revised assessments.

§ 2. In developing such revised assessments and plan, the work group shall consider (i) best practices and innovations in summative assessments of proficiency from across the nation; (ii) alternative approaches to current and new assessment items, including subject areas and methods of grading such items; (iii) assessment items that include open-ended questions, long-form writing, and other tasks, with student responses scored by the Department according to statewide scoring rubrics; (iv) plan for pilot implementation of such assessment items prior to the 2027–2028 school year as necessary to determine the validity of such items; (v) the process for the development of a bank of vetted sample assessment items that

include a comprehensive representation of knowledge and skills being assessed; (vi) the legislative and regulatory changes and funding necessary to implement alternative approaches considered by the work group; and (vii) a proposed timeline for implementation of such new assessments, giving consideration to implementation prior to the 2027–2028 school year. Nothing in this act shall prohibit the work group from looking at all forms of assessment. Such work group shall not be responsible for implementation of such revised assessment items unless there is further action from the General Assembly.

§ 3. That the Department of Education shall submit its initial plan for implementation of revised Virginia Standards of Learning summative assessments of proficiency developed pursuant to § 2 of this act to the Chairmen of the House Committee on Education, the Senate Committee on Education and Health, the House Committee on Appropriations, and the Senate Committee on Finance and Appropriations no later than November 1, 2023, and shall provide updates on the implementation of such plan no later than November 1 of each year thereafter through 2027.

CHAPTER 761

An Act to amend and reenact §§ 2.2-1156, 10.1-1122, and 36-139.1 of the Code of Virginia, relating to Department of General Services; adjustment of boundary lines of surplus property.

[H 644]

Approved April 27, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 2.2-1156, 10.1-1122, and 36-139.1 of the Code of Virginia are amended and reenacted as follows:

§ 2.2-1156. Sale or lease of surplus property and excess building space.

A. The Department shall identify real property assets that are surplus to the current and reasonably anticipated future needs of the Commonwealth and may dispose of surplus assets as provided in this section, except when a department, agency or institution notifies the Department of a need for property that has been declared surplus, and the Department finds that stated need to be valid and best satisfied by the use of the property.

B. After it determines the property to be surplus to the needs of the Commonwealth and that such property should be sold, the Department shall request the written opinion of the Secretary of Natural and Historic Resources as to whether the property is a significant component of the Commonwealth's natural or historic resources, and if so how those resources should be protected in the sale of the property. The Secretary of Natural and Historic Resources shall provide this review within 15 business days of receipt of full information from the Department. ~~Within 120 days of receipt of the Secretary's review, the Department shall, with the prior written approval of the Governor, proceed to sell the property.~~

C. Upon receipt of the Secretary's review under subsection B and prior to offering the surplus property for sale to the public, the Department shall notify the chief administrative officer of the locality within which the property is located as well as any economic development entity for such locality of the pending disposition of such property. The chief administrative officer or local economic development entity shall have up to 180 days from the date of such notification to submit a proposal to the Department for the use by the locality or the local economic development entity of such property in conjunction with a bona fide economic development activity. The Department shall review such proposal, and if the Department determines that such proposal is viable and could benefit the Commonwealth, the Department may negotiate with the chief administrative officer or the local economic development entity for the sale of such property to the locality or economic development entity. If no agreement is reached between the Department and the chief administrative officer or the local economic development entity for the sale of the property, or if no proposal for the use of the property is submitted to the Department by the chief administrative officer or the local economic development entity within 180 days of notification of the pending disposition of the property, the Department, *with the prior, written approval of the Governor*, may proceed to dispose of the property as provided in this section.

D. If the surplus property is not disposed of pursuant to subsection C, the sale shall be by public auction, or sealed bids, or by marketing through one or more real estate brokers licensed by the Commonwealth. Notice of the date, time and place of sale, if by public auction or sealed bids shall be given by advertisement in at least ~~two newspapers~~ *one newspaper* published and having general circulation ~~in the Commonwealth, at least one of which shall have general circulation~~ in the county or city in which the property to be sold is located *and be posted on the Department's website*. At least 30 days shall elapse between publication of the notice and the auction or the date on which sealed bids will be opened.

~~E. In instances where the appraised value of property proposed to be sold is determined to be a nominal amount or an amount insufficient to warrant statewide advertisement, but in no event in excess of \$250,000, the notice of sale may be placed in only one newspaper having general circulation in the county or city in which the property to be sold is located.~~

F. E. The Department may reject any and all bids or offers when, in the opinion of the Department, the price is inadequate in relation to the value of the property, the proposed terms are unacceptable, or if a need has been found for the property.

G. F. In lieu of the sale of any such property, or in the event the Department determines there is space within a building owned by the Commonwealth or any space leased by the Commonwealth in excess of current and reasonably anticipated needs, the Department may, with the approval of the Governor, lease or sublease such property or space to any responsible person, firm or corporation on such terms as shall be approved by the Governor, provided, however, that the authority herein to sublease space leased by the Commonwealth shall be subject to the terms of the original lease. The Department may with

the approval of the Governor permit charitable organizations exempt from taxation under § 501(c)(3) of the Internal Revenue Code that provide addiction recovery services to lease or sublease such property or space at cost and on such terms as shall be approved by the Governor, provided such use is deemed appropriate.

The Department shall post reports from the Commonwealth's statewide electronic procurement system, known as eVA, on the Department's website. The report shall include, at a minimum, current leasing opportunities and sales of surplus real property posted on the eVA's Virginia Business Opportunities website. Such reports shall also be made available by electronic subscription. The provisions of this section requiring disposition of property through the medium of sealed bids, public auction, or marketing through licensed real estate brokers shall not apply to any lease thereof, although such procedures may be followed in the discretion of the Department.

¶ G. The deed, lease, or sublease conveying the property or excess space shall be executed in the name of the Commonwealth and shall be in a form approved by the Attorney General. Notwithstanding any law to the contrary and notwithstanding how title to the property was acquired, the deed or lease may be executed on behalf of the Commonwealth by the Director of the Department or his designee, and such action shall not create a cloud on the title to the property.

In the event that the Department determines that a boundary line of a surplus property requires adjustment, the Department may work with the adjacent landowner to adjust the boundary line and to transfer property to, or acquire property from, such adjacent landowner. In the event the Department determines that granting or accepting an easement over surplus property or the property of the adjacent landowner would facilitate the transfer of the surplus property, the Department may enter into any such easement on behalf of the department, agency, or institution in possession or control of the property, provided, however, that any such easement shall be in a form approved by the Attorney General and subject to the written approval of the Governor. The terms of the sale, lease, or sublease shall be subject to the written approval of the Governor.

¶ H. An exception to sale by sealed bids, public auction, or listing the property with a licensed real estate broker may be granted by the Governor if the property is landlocked and inaccessible from a public road or highway. In such cases, the Department shall notify all adjacent landowners of the Commonwealth's desire to dispose of the property. After the notice has been given, the Department may begin negotiations for the sale of the property with each interested adjacent landowner. The Department, with the approval of the Governor, may accept any offer that it deems to be fair and adequate consideration for the property. In all cases, the offer shall be the best offer made by any adjacent landowner. The terms of all negotiations shall be public information.

¶ I. Subject to any law to the contrary, 50 percent of the proceeds from all sales or leases, or from the conveyance of any interest in property under the provisions of this article, above the costs of the transaction, which costs shall include fees or commissions, if any, negotiated with and paid to auctioneers or real estate brokers, shall be paid into the State Park Acquisition and Development Fund, so long as the sales or leases pertain to general fund agencies or the property involved was originally acquired through the general fund, except as provided in Chapter 180 of the Acts of Assembly of 1966. The remaining 50 percent of proceeds involving general fund sales or leases, less a pro rata share of any costs of the transactions, shall be deposited in the general fund of the state treasury. The Department of Planning and Budget shall develop guidelines that allow, with the approval of the Governor, any portion of the deposit in the general fund to be credited to the agency, department or institution having control of the property at the time it was determined surplus to the Commonwealth's needs. Any amounts so credited to an agency, department or institution may be used, upon appropriation, to supplement maintenance reserve funds or capital project appropriations, or for the acquisition, construction or improvement of real property or facilities. Net proceeds from sales or leases of special fund agency properties or property acquired through a gift for a specific purpose shall be retained by the agency or used in accordance with the original terms of the gift. Notwithstanding the foregoing, income from leases or subleases above the cost of the transaction shall first be applied to rent under the original lease and to the cost of maintenance and operation of the property. The remaining funds shall be distributed as provided herein.

¶ J. When the Department deems it to be in the best interests of the Commonwealth, it may, with the approval of the Governor, authorize the department, institution or agency in possession or control of the property to dispose of surplus property in accordance with the procedures set forth in this section.

§ 10.1-1122. Management, harvesting, sale of timber on state-owned land.

The remainder of the proceeds from such a sale shall then be paid over to the special fund agency concerned, the Department of Military Affairs, or the agency or institution holding the gift properties, to be used for the purposes of that agency, department, or institution.

That §§ 19.2-169.3, 19.2-169.6, 37.2-805, 37.2-813, 37.2-815, 37.2-817, as it shall become effective, 37.2-817.1, as it shall become effective, 37.2-817.4, as it shall become effective, and 37.2-821 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding a section numbered 37.2-817.01 as follows:

§ 19.2-169.3. Disposition of the unrestorably incompetent defendant; aggravated murder charge; sexually violent offense charge.

A. If, at any time after the defendant is ordered to undergo treatment pursuant to subsection A of § 19.2-169.2, the director of the community services board or behavioral health authority or his designee or the director of the treating inpatient facility or his designee concludes that the defendant is likely to remain incompetent for the foreseeable future, he shall send a report to the court so stating. The report shall also indicate whether, in the board, authority, or inpatient facility director's or his designee's opinion, the defendant should be released, committed pursuant to Article 5 (§ 37.2-814 et seq.) of Chapter 8 of Title 37.2, committed pursuant to Chapter 9 (§ 37.2-900 et seq.) of Title 37.2, or certified pursuant to § 37.2-806 in the event he is found to be unrestorably incompetent. Upon receipt of the report, the court shall make a competency determination according to the procedures specified in subsection E of § 19.2-169.1. If the court finds that the defendant is incompetent and is likely to remain so for the foreseeable future, it shall order that he be (i) released, (ii) committed pursuant to Article 5 (§ 37.2-814 et seq.) of Chapter 8 of Title 37.2, or (iii) certified pursuant to § 37.2-806. However, if the court finds that the defendant is incompetent and is likely to remain so for the foreseeable future and the defendant has been charged with a sexually violent offense, as defined in § 37.2-900, he shall be screened pursuant to the procedures set forth in §§ 37.2-903 and 37.2-904. If the court finds the defendant incompetent but restorable to competency

in the foreseeable future, it may order treatment continued until six months have elapsed from the date of the defendant's initial admission under subsection A of § 19.2-169.2.

B. At the end of six months from the date of the defendant's initial admission under subsection A of § 19.2-169.2 if the defendant remains incompetent in the opinion of the board, authority, or inpatient facility director or his designee, the director or his designee shall so notify the court and make recommendations concerning disposition of the defendant as described in subsection A. The court shall hold a hearing according to the procedures specified in subsection E of § 19.2-169.1 and, if it finds the defendant unrestorably incompetent, shall order one of the dispositions described in subsection A. If the court finds the defendant incompetent but restorable to competency, it may order continued treatment under subsection A of § 19.2-169.2 for additional six-month periods, provided a hearing pursuant to subsection E of § 19.2-169.1 is held at the completion of each such period and the defendant continues to be incompetent but restorable to competency in the foreseeable future.

C. If any defendant has been charged with a misdemeanor in violation of Article 3 (§ 18.2-95 et seq.) of Chapter 5 of Title 18.2 or Article 5 (§ 18.2-119 et seq.) of Chapter 5 of Title 18.2, other than a misdemeanor charge pursuant to § 18.2-130 or Article 2 (§ 18.2-415 et seq.) of Chapter 9 of Title 18.2, and is being treated pursuant to subsection A of § 19.2-169.2, and after 45 days has not been restored to competency, the director of the community service board, behavioral health authority, or the director of the treating inpatient facility, or any of their designees, shall send a report indicating the defendant's status to the court. The report shall also indicate whether the defendant should be released or committed pursuant to § 37.2-817 or 37.2-817.01 or certified pursuant to § 37.2-806. Upon receipt of the report, if the court determines that the defendant is still incompetent, the court shall order that the defendant be released, committed, or certified, and may dismiss the charges against the defendant.

D. Unless an incompetent defendant is charged with aggravated murder or the charges against an incompetent criminal defendant have been previously dismissed, charges against an unrestorably incompetent defendant shall be dismissed on the date upon which his sentence would have expired had he been convicted and received the maximum sentence for the crime charged, or on the date five years from the date of his arrest for such charges, whichever is sooner.

E. If the court orders an unrestorably incompetent defendant to be screened pursuant to the procedures set forth in §§ 37.2-903 and 37.2-904, it shall order the attorney for the Commonwealth in the jurisdiction wherein the defendant was charged and the Commissioner of Behavioral Health and Developmental Services to provide the Director of the Department of Corrections with any information relevant to the review, including, but not limited to: (i) a copy of the warrant or indictment, (ii) a copy of the defendant's criminal record, (iii) information about the alleged crime, (iv) a copy of the competency report completed pursuant to § 19.2-169.1, and (v) a copy of the report prepared by the director of the defendant's community services board, behavioral health authority, or treating inpatient facility or his designee pursuant to this section. The court shall further order that the defendant be held in the custody of the Department of Behavioral Health and Developmental Services for secure confinement and treatment until the Commitment Review Committee's and Attorney General's review and any subsequent hearing or trial are completed. If the court receives notice that the Attorney General has declined to file a petition for the commitment of an unrestorably incompetent defendant as a sexually violent predator after conducting a review pursuant to § 37.2-905, the court shall order that the defendant be released, committed pursuant to Article 5 (§ 37.2-814 et seq.) of Chapter 8 of Title 37.2, or certified pursuant to § 37.2-806.

F. In any case when an incompetent defendant is charged with aggravated murder and has been determined to be unrestorably incompetent, notwithstanding any other provision of this section, the charge shall not be dismissed and the court having jurisdiction over the aggravated murder case may order that the defendant receive continued treatment under subsection A of § 19.2-169.2 in a secure facility determined by the Commissioner of the Department of Behavioral Health and Developmental Services where the defendant shall remain until further order of the court, provided that (i) a hearing pursuant to subsection E of § 19.2-169.1 is held at yearly intervals for five years and at biennial intervals thereafter, or at any time that the director of the treating facility or his designee submits a competency report to the court in accordance with subsection D of § 19.2-169.1 that the defendant's competency has been restored, (ii) the defendant remains incompetent, (iii) the court finds continued treatment to be medically appropriate, and (iv) the defendant presents a danger to himself or others. No unrestorably incompetent defendant charged with aggravated murder shall be released except pursuant to a court order.

G. The attorney for the Commonwealth may bring charges that have been dismissed against the defendant when he is restored to competency.

§ 19.2-169.6. Inpatient psychiatric hospital admission from local correctional facility.

A. Any inmate of a local correctional facility may be hospitalized for psychiatric treatment at a hospital designated by the Commissioner of Behavioral Health and Developmental Services as appropriate for treatment of persons under criminal charge if:

1. The court with jurisdiction over the inmate's case, if it is still pending, on the petition of the person having custody over an inmate or on its own motion, holds a hearing at which the inmate is represented by counsel and finds by clear and convincing evidence that (i) the inmate has a mental illness; (ii) there exists a substantial likelihood that, as a result of a mental illness, the inmate will, in the near future, (a) cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and any other relevant information or (b) suffer serious harm due to his lack of capacity to protect himself from harm as evidenced by recent behavior and any other relevant information; and (iii) the inmate requires treatment in a hospital rather than the local correctional facility. Prior to making this determination, the court shall consider the examination conducted in accordance with § 37.2-815 and the preadmission screening report

prepared in accordance with § 37.2-816 and conducted in-person or by means of a two-way electronic video and audio communication system as authorized in § 37.2-804.1 by an employee or designee of the local community services board or behavioral health authority who is skilled in the assessment and treatment of mental illness, who is not providing treatment to the inmate, and who has completed a certification program approved by the Department of Behavioral Health and Developmental Services as provided in § 37.2-809. The examiner appointed pursuant to § 37.2-815, if not physically present at the hearing, shall be available whenever possible for questioning during the hearing through a two-way electronic video and audio or telephonic communication system as authorized in § 37.2-804.1. Any employee or designee of the local community services board or behavioral health authority, as defined in § 37.2-809, representing the board or authority that prepared the preadmission screening report shall attend the hearing in person or, if physical attendance is not practicable, shall participate in the hearing through a two-way electronic video and audio communication system as authorized in § 37.2-804.1. When the hearing is held outside the service area of the community services board or behavioral health authority that prepared the preadmission screening report, and it is not practicable for a representative of the board or authority to attend or participate in the hearing, arrangements shall be made by the board or authority for an employee or designee of the board or authority serving the area in which the hearing is held to attend or participate on behalf of the board or authority that prepared the preadmission screening report; or

2. Upon petition by the person having custody over an inmate, a magistrate finds probable cause to believe that (i) the inmate has a mental illness; (ii) there exists a substantial likelihood that, as a result of a mental illness, the inmate will, in the near future, (a) cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and any other relevant information or (b) suffer serious harm due to his lack of capacity to protect himself from harm as evidenced by recent behavior and any other relevant information; and (iii) the inmate requires treatment in a hospital rather than a local correctional facility, and the magistrate issues a temporary detention order for the inmate. Prior to the filing of the petition, the person having custody shall arrange for an evaluation of the inmate conducted in-person or by means of a two-way electronic video and audio communication system as authorized in § 37.2-804.1 by an employee or designee of the local community services board or behavioral health authority who is skilled in the assessment and treatment of mental illness and who has completed a certification program approved by the Department as provided in § 37.2-809. After considering the evaluation of the employee or designee of the local community services board or behavioral health authority, and any other information presented, and finding that probable cause exists to meet the criteria, the magistrate may issue a temporary detention order in accordance with the applicable procedures specified in §§ 37.2-809 through 37.2-813. A temporary detention order issued pursuant to this subdivision may be executed by a deputy sheriff or jail officer, as those terms are defined in § 53.1-1, employed at the local correctional facility where the inmate is incarcerated. The person having custody over the inmate shall notify the court having jurisdiction over the inmate's case, if it is still pending, and the inmate's attorney prior to the detention pursuant to a temporary detention order or as soon thereafter as is reasonable.

Upon detention pursuant to this subdivision, a hearing shall be held either before the court having jurisdiction over the inmate's case or before a district court judge or a special justice, as defined in § 37.2-100, in accordance with the provisions of §§ 37.2-815 through 37.2-821, in which case the inmate shall be represented by counsel as specified in § 37.2-814. The hearing shall be held within 72 hours of execution of the temporary detention order issued pursuant to this subdivision. If the 72-hour period terminates on a Saturday, Sunday, legal holiday, or day on which the court is lawfully closed, the inmate may be detained until the close of business on the next day that is not a Saturday, Sunday, legal holiday, or day on which the court is lawfully closed. Any employee or designee of the local community services board or behavioral health authority, as defined in § 37.2-809, representing the board or authority that prepared the preadmission screening report shall attend the hearing in person or, if physical attendance is not practicable, shall participate in the hearing through a two-way electronic video and audio communication system as authorized in § 37.2-804.1. When the hearing is held outside the service area of the community services board or behavioral health authority that prepared the preadmission screening report, and it is not practicable for a representative of the board or authority to attend or participate in the hearing, arrangements shall be made by the board or authority for an employee or designee of the board or authority serving the area in which the hearing is held to attend or participate on behalf of the board or authority that prepared the preadmission screening report. The judge or special justice conducting the hearing may order the inmate hospitalized if, after considering the examination conducted in accordance with § 37.2-815, the preadmission screening report prepared in accordance with § 37.2-816, and any other available information as specified in subsection C of § 37.2-817, he finds by clear and convincing evidence that (1) the inmate has a mental illness; (2) there exists a substantial likelihood that, as a result of a mental illness, the inmate will, in the near future, (a) cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and any other relevant information or (b) suffer serious harm due to his lack of capacity to protect himself from harm as evidenced by recent behavior and any other relevant information; and (3) the inmate requires treatment in a hospital rather than a local correctional facility. The examiner appointed pursuant to § 37.2-815, if not physically present at the hearing, shall be available whenever possible for questioning during the hearing through a two-way electronic video and audio or telephonic communication system as authorized in § 37.2-804.1. The examination and the preadmission screening report shall be admitted into evidence at the hearing.

B. In no event shall an inmate have the right to make application for voluntary admission as may be otherwise provided in § 37.2-805 or 37.2-814 or be subject to an order for mandatory outpatient treatment as provided in § ~~37.2-817~~ 37.2-817.01.

C. If an inmate is hospitalized pursuant to this section and his criminal case is still pending, the court having jurisdiction over the inmate's case may order that the admitting hospital evaluate the inmate's competency to stand trial and his mental state at the time of the offense pursuant to §§ 19.2-169.1 and 19.2-169.5.

D. An inmate may not be hospitalized longer than 30 days under subsection A unless the court which has criminal jurisdiction over him or a district court judge or a special justice, as defined in § 37.2-100, holds a hearing and orders the inmate's continued hospitalization in accordance with the provisions of subdivision A 2. If the inmate's hospitalization is continued under this subsection by a court other than the court which has jurisdiction over his criminal case, the facility at which the inmate is hospitalized shall notify the court with jurisdiction over his criminal case and the inmate's attorney in the criminal case, if the case is still pending.

E. Hospitalization may be extended in accordance with subsection D for periods of 60 days for inmates awaiting trial, but in no event may such hospitalization be continued beyond trial, nor shall such hospitalization act to delay trial, as long as the inmate remains competent to stand trial. Hospitalization may be extended in accordance with subsection D for periods of 180 days for an inmate who has been convicted and not yet sentenced, or for an inmate who has been convicted of a crime and is in the custody of a local correctional facility after sentencing, but in no event may such hospitalization be continued beyond the date upon which his sentence would have expired had he received the maximum sentence for the crime charged. Any inmate who has not completed service of his sentence upon discharge from the hospital shall serve the remainder of his sentence.

F. For any inmate who has been convicted and not yet sentenced, or who has been convicted of a crime and is in the custody of a local correctional facility after sentencing, the time the inmate is confined in a hospital for psychiatric treatment shall be deducted from any term for which he may be sentenced to any penal institution, reformatory or elsewhere.

G. Any health care provider, as defined in § 32.1-127.1:03, or other provider rendering services to an inmate who is the subject of a proceeding under this section, upon request, shall disclose to a magistrate, the court, the inmate's attorney, the inmate's guardian ad litem, the examiner appointed pursuant to § 37.2-815, the community service board or behavioral health authority preparing the preadmission screening pursuant to § 37.2-816, or the sheriff or administrator of the local correctional facility any and all information that is necessary and appropriate to enable each of them to perform his duties under this section. These health care providers and other service providers shall disclose to one another health records and information where necessary to provide care and treatment to the inmate and to monitor that care and treatment. Health records disclosed to a sheriff or administrator of the local correctional facility shall be limited to information necessary to protect the sheriff or administrator of the local correctional facility and his employees, the inmate, or the public from physical injury or to address the health care needs of the inmate. Information disclosed to a law-enforcement officer shall not be used for any other purpose, disclosed to others, or retained.

Any health care provider disclosing records pursuant to this section shall be immune from civil liability for any harm resulting from the disclosure, including any liability under the federal Health Insurance Portability and Accountability Act (42 U.S.C. § 1320d et seq.), as amended, unless the person or provider disclosing such records intended the harm or acted in bad faith.

H. Any order entered where an inmate is the subject of proceedings under this section shall provide for the disclosure of medical records pursuant to subsection G. This subsection shall not preclude any other disclosures as required or permitted by law.

I. If the person having custody over an inmate files a petition pursuant to this section, such person shall ensure that the appropriate community services board or behavioral health authority is advised of the need for a preadmission screening. If the community services board or behavioral health authority does not respond upon being advised of the need for a preadmission screening or fails to complete the preadmission screening, the person having custody over the inmate shall contact the director or other senior management at the community services board or behavioral health authority.

J. As used in this section, "person having custody over an inmate" means the sheriff or other person in charge of the local correctional facility where the inmate is incarcerated at the time of the filing of a petition for the psychiatric treatment of the inmate.

§ 37.2-805. Voluntary admission.

Any state facility shall admit any person requesting admission who has been (i) screened by the community services board or behavioral health authority that serves the county or city where the person resides or, if impractical, where the person is located, (ii) examined by a physician on the staff of the state facility, and (iii) deemed by the board or authority and the state facility physician to be in need of treatment, training, or habilitation in a state facility. Upon motion of the treating physician, a family member or personal representative of the person, or the community services board serving the county or city where the facility is located, the county or city where the person resides, or the county or city where the person receives treatment, a hearing shall be held prior to the release date of any person who has been the subject of a temporary detention order and voluntarily admitted himself in accordance with subsection B of § 37.2-814 to determine whether such person should be ordered to mandatory outpatient treatment pursuant to subsection D of § ~~37.2-817~~ 37.2-817.01, *except that such 36-month period shall not include any time during which the person was receiving inpatient psychiatric treatment or was incarcerated, as established by evidence admitted at the hearing*, upon his release if such person, on at least two previous occasions within 36 months preceding the date of the hearing, has been (a) the subject of a temporary detention order and voluntarily admitted himself in accordance with subsection B of § 37.2-814 or (b) involuntarily admitted pursuant to

§ 37.2-817. A district court judge or special justice shall hold the hearing within 72 hours after receiving the motion for a mandatory outpatient treatment order; however, if the 72-hour period expires on a Saturday, Sunday, or legal holiday, the hearing shall be held by the close of business on the next day that is not a Saturday, Sunday, or legal holiday.

§ 37.2-813. Release of person prior to commitment hearing for involuntary admission.

Prior to a hearing as authorized in §§ 37.2-814 through 37.2-819, the district court judge or special justice may release the person on his personal recognizance or bond set by the district court judge or special justice if it appears from all evidence readily available that the person does not meet the commitment criteria specified in subsection ~~D~~ C of § 37.2-817. The director of any facility in which the person is detained may release the person prior to a hearing as authorized in §§ 37.2-814 through 37.2-819 if it appears, based on an evaluation conducted by the psychiatrist or clinical psychologist treating the person, that the person would not meet the commitment criteria specified in subsection ~~D~~ C of § 37.2-817 if released.

§ 37.2-815. Commitment hearing for involuntary admission; examination required.

A. Notwithstanding § 37.2-814, the district court judge or special justice shall require an examination of the person who is the subject of the hearing by a psychiatrist or a psychologist who is licensed in Virginia by the Board of Medicine or the Board of Psychology and is qualified in the diagnosis of mental illness or, if such a psychiatrist or psychologist is not available, a mental health professional who (i) is licensed in Virginia through the Department of Health Professions as a clinical social worker, professional counselor, marriage and family therapist, psychiatric nurse practitioner, or clinical nurse specialist, (ii) is qualified in the assessment of mental illness, and (iii) has completed a certification program approved by the Department. The examiner chosen shall be able to provide an independent clinical evaluation of the person and recommendations for his placement, care, and treatment. The examiner shall (a) not be related by blood or marriage to the person, (b) not be responsible for treating the person, (c) have no financial interest in the admission or treatment of the person, (d) have no investment interest in the facility detaining or admitting the person under this chapter, and (e) except for employees of state hospitals, the U.S. Department of Veterans Affairs, and community service boards, not be employed by the facility. For purposes of this section, the term "investment interest" shall be as defined in § 37.2-809.

B. The examination conducted pursuant to this section shall be a comprehensive evaluation of the person conducted in-person or, if that is not practicable, by two-way electronic video and audio communication system as authorized in § 37.2-804.1. Translation or interpreter services shall be provided during the evaluation where necessary. The examination shall consist of (i) a clinical assessment that includes a mental status examination; determination of current use of psychotropic and other medications; a medical and psychiatric history; a substance use, abuse, or dependency determination; and a determination of the likelihood that, as a result of mental illness, the person will, in the near future, suffer serious harm due to his lack of capacity to protect himself from harm or to provide for his basic human needs; (ii) a substance abuse screening, when indicated; (iii) a risk assessment that includes an evaluation of the likelihood that, as a result of mental illness, the person will, in the near future, cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if any; (iv) an assessment of the person's capacity to consent to treatment, including his ability to maintain and communicate choice, understand relevant information, and comprehend the situation and its consequences; (v) a review of the temporary detention facility's records for the person, including the treating physician's evaluation, any collateral information, reports of any laboratory or toxicology tests conducted, and all admission forms and nurses' notes; (vi) a discussion of treatment preferences expressed by the person or contained in a document provided by the person in support of recovery; (vii) an assessment of whether the person meets the criteria for an order authorizing discharge to mandatory outpatient treatment following a period of inpatient treatment pursuant to subsection ~~C~~ C of § ~~37.2-817~~ 37.2-817.01; (viii) an assessment of alternatives to involuntary inpatient treatment; and (ix) recommendations for the placement, care, and treatment of the person.

C. All such examinations shall be conducted in private. The judge or special justice shall summons the examiner who shall certify that he has personally examined the person and state whether he has probable cause to believe that the person (i) has a mental illness and there is a substantial likelihood that, as a result of mental illness, the person will, in the near future, (a) cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if any, or (b) suffer serious harm due to his lack of capacity to protect himself from harm or to provide for his basic human needs, and (ii) requires involuntary inpatient treatment. The judge or special justice shall not render any decision on the petition until the examiner has presented his report. The examiner may report orally at the hearing, but he shall provide a written report of his examination prior to the hearing. The examiner's written certification may be accepted into evidence unless objected to by the person or his attorney, in which case the examiner shall attend in person or by electronic communication. When the examiner attends the hearing in person or by electronic communication, the examiner shall not be excluded from the hearing pursuant to an order of sequestration of witnesses.

§ 37.2-817. (Effective July 1, 2022) Involuntary admission.

A. The district court judge or special justice shall render a decision on the petition for involuntary admission after the appointed examiner has presented the report required by § 37.2-815, and after the community services board that serves the county or city where the person resides or, if impractical, where the person is located has presented a preadmission screening report with recommendations for that person's placement, care, and treatment pursuant to § 37.2-816. These reports, if not contested, may constitute sufficient evidence upon which the district court judge or special justice may base his decision. The examiner, if not physically present at the hearing, and the treating physician at the facility of temporary

detention shall be available whenever possible for questioning during the hearing through a two-way electronic video and audio or telephonic communication system as authorized in § 37.2-804.1.

B. Any employee or designee of the local community services board, as defined in § 37.2-809, representing the community services board that prepared the preadmission screening report shall attend the hearing in person or, if physical attendance is not practicable, shall participate in the hearing through a two-way electronic video and audio or telephonic communication system as authorized in § 37.2-804.1. Where a hearing is held outside of the service area of the community services board that prepared the preadmission screening report, and it is not practicable for a representative of the community services board that prepared the preadmission screening report to attend or participate in the hearing, arrangements shall be made by the community services board that prepared the preadmission screening report for an employee or designee of the community services board serving the area in which the hearing is held to attend or participate on behalf of the community services board that prepared the preadmission screening report. The employee or designee of the local community services board, as defined in § 37.2-809, representing the community services board that prepared the preadmission screening report or attending or participating on behalf of the community services board that prepared the preadmission screening report shall not be excluded from the hearing pursuant to an order of sequestration of witnesses. The community services board that prepared the preadmission screening report shall remain responsible for the person subject to the hearing and, prior to the hearing, shall send the preadmission screening report through certified mail, personal delivery, facsimile with return receipt acknowledged, or other electronic means with documented acknowledgment of receipt to the community services board attending the hearing. C. After observing the person and considering (i) the recommendations of any treating or examining physician or psychologist licensed in Virginia, if available, (ii) any past actions of the person, (iii) any past mental health treatment of the person, (iv) any examiner's certification, (v) any health records available, (vi) the preadmission screening report, and (vii) any other relevant evidence that may have been admitted, including whether the person recently has been found unrestorably incompetent to stand trial after a hearing held pursuant to subsection E of § 19.2-169.1, if the judge or special justice finds by clear and convincing evidence that (a) the person has a mental illness and there is a substantial likelihood that, as a result of mental illness, the person will, in the near future, (1) cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if any, or (2) suffer serious harm due to his lack of capacity to protect himself from harm or to provide for his basic human needs, and (b) all available less restrictive treatment alternatives to involuntary inpatient treatment that would offer an opportunity for the improvement of the person's condition have been investigated and determined to be inappropriate, the judge or special justice shall by written order and specific findings so certify and order that the person be admitted involuntarily to a facility for a period of treatment not to exceed 30 days from the date of the court order. Such involuntary admission shall be to a facility designated by the community services board that serves the county or city in which the person was examined as provided in § 37.2-816. If the community services board does not designate a facility at the commitment hearing, the person shall be involuntarily admitted to a facility designated by the Commissioner. Upon the expiration of an order for involuntary admission, the person shall be released unless (A) he is involuntarily admitted by further petition and order of a court, which shall be for a period not to exceed 180 days from the date of the subsequent court order, (B) he makes application for treatment on a voluntary basis as provided for in § 37.2-805, or (C) he is ordered to mandatory outpatient treatment following a period of inpatient treatment pursuant to § 37.2-817.01. ~~At any time prior to the discharge of a person who has been involuntarily admitted pursuant to this subsection, the person, the person's treating physician, a family member or personal representative of the person, or the community services board serving the county or city where the facility is located, the county or city where the person resides, or the county or city where the person will receive treatment following discharge may file a motion with the court for a hearing to determine whether such person should be ordered to mandatory outpatient treatment following a period of inpatient treatment pursuant to subsection C1 or D upon discharge if such person, on at least two previous occasions within 36 months preceding the date of the hearing, has been (I) involuntarily admitted pursuant to this section or (II) the subject of a temporary detention order and voluntarily admitted himself in accordance with subsection B of § 37.2-814, except that such 36-month period shall not include any time during which the person was receiving inpatient psychiatric treatment or was incarcerated, as established by evidence admitted at the hearing. A district~~

court judge or special justice shall hold the hearing within 72 hours after receiving the motion for a hearing to determine whether the person should be ordered to mandatory outpatient treatment following a period of involuntary inpatient treatment; however, if the 72-hour period expires on a Saturday, Sunday, or legal holiday, the hearing shall be held by the close of business on the next day that is not a Saturday, Sunday, or legal holiday. The district court judge or special justice may enter an order for a period of mandatory outpatient treatment following a period of involuntary inpatient treatment upon finding that the person meets the criteria set forth in subsection C1.

C1. In an order for involuntary admission pursuant to subsection C, the judge or special justice may also order that, upon discharge from inpatient treatment, the person adhere to a comprehensive mandatory outpatient treatment plan, if the judge or special justice further finds by clear and convincing evidence that (i) the person has a history of lack of adherence to treatment for mental illness that has, at least twice within the past 36 months, resulted in the person being subject to an order for involuntary admission pursuant to subsection C or being subject to a temporary detention order and then voluntarily admitting himself in accordance with subsection B of § 37.2-814, except that such 36-month period shall not include any time during which the person was receiving inpatient psychiatric treatment or was incarcerated, as established by evidence admitted at the hearing; (ii) in view of the person's treatment history and current behavior, the person is in need of mandatory outpatient treatment following inpatient treatment in order to prevent a relapse or deterioration that would be likely to result in the person meeting the criteria for involuntary inpatient treatment; (iii) the person has the ability to adhere to the comprehensive mandatory outpatient treatment plan; and (iv) the person is likely to benefit from mandatory outpatient treatment. The duration of the period of inpatient treatment shall be determined by the court and the maximum period of inpatient treatment shall not exceed 30 days. The duration of mandatory outpatient treatment shall be determined by the court based on recommendations of the community services board and the maximum period of mandatory outpatient treatment shall not exceed 180 days; in prescribing the terms of the order, including its length, the judge or special justice shall consider the impact on the person's opportunities and obligations, including education and employment. The period of mandatory outpatient treatment shall begin upon discharge of the person from involuntary inpatient treatment, either upon expiration of the 30-day period or pursuant to § 37.2-837 or 37.2-838. The treating physician and facility staff shall develop the comprehensive mandatory outpatient treatment plan in conjunction with the community services board and the person. The comprehensive mandatory outpatient treatment plan shall include all of the components described in, and shall be filed with the court and incorporated into, the order for mandatory outpatient treatment following a period of involuntary inpatient treatment in accordance with subsection G. The community services board where the person resides upon discharge shall monitor the person's progress and adherence to the comprehensive mandatory outpatient treatment plan. Upon expiration of the order for mandatory outpatient treatment following a period of involuntary inpatient treatment, the person shall be released unless the order is continued in accordance with § 37.2-817.4.

D. After observing the person and considering (i) the recommendations of any treating or examining physician or psychologist licensed in Virginia, if available, (ii) any past actions of the person, (iii) any past mental health treatment of the person, (iv) any examiner's certification, (v) any health records available, (vi) the preadmission screening report, and (vii) any other relevant evidence that may have been admitted, if the judge or special justice finds by clear and convincing evidence that (a) the person has a mental illness and that there exists a substantial likelihood that, as a result of mental illness, the person will, in the near future, (1) cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if any, or (2) suffer serious harm due to his lack of capacity to protect himself from harm or to provide for his basic human needs; (b) less restrictive alternatives to involuntary inpatient treatment that would offer an opportunity for improvement of his condition have been investigated and are determined to be appropriate, as reflected in the initial outpatient treatment plan prepared in accordance with subsection F; (c) the person has the ability to adhere to the mandatory outpatient treatment plan; and (d) the ordered treatment will be delivered on an outpatient basis by the community services board or designated provider to the person, the judge or special justice shall by written order and specific findings so certify and order that the person be admitted involuntarily to mandatory outpatient treatment. Less restrictive alternatives shall not be determined to be appropriate unless the services are actually available in the community. The duration of mandatory outpatient treatment shall be determined by the court based on recommendations of the community services board but shall not exceed 180 days; in prescribing the terms of the order, including its length, the judge or special justice shall consider the impact on the person's opportunities and obligations, including education and employment. Upon expiration of an order for mandatory outpatient treatment, the person shall be released from the requirements of the order unless the order is continued in accordance with § 37.2-817.4.

E. Mandatory outpatient treatment may include day treatment in a hospital, night treatment in a hospital, outpatient involuntary treatment with anti-psychotic medication pursuant to Chapter 11 (§ 37.2-1100 et seq.); or other appropriate course of treatment as may be necessary to meet the needs of the person. Mandatory outpatient treatment shall not include the use of restraints or physical force of any kind in the provision of the medication. The community services board that serves the county or city in which the person resides shall recommend a specific course of treatment and programs for the provision of mandatory outpatient treatment.

F. Any order for mandatory outpatient treatment entered pursuant to subsection D shall include an initial mandatory outpatient treatment plan developed by the community services board that completed the preadmission screening report. The plan shall, at a minimum, (i) identify the specific services to be provided; (ii) identify the provider who has agreed to provide each service; (iii) describe the arrangements made for the initial in-person appointment or contact with each service provider; and (iv) include any other relevant information that may be available regarding the mandatory outpatient treatment

ordered. The order shall require the community services board to monitor the implementation of the mandatory outpatient treatment plan and the person's progress and adherence to the initial mandatory outpatient treatment plan.

G. Prior to discharging a person to mandatory outpatient treatment in accordance with an order for mandatory outpatient treatment following a period of involuntary inpatient treatment entered pursuant to subsection C1 or no later than five days, excluding Saturdays, Sundays, or legal holidays, after an order for mandatory outpatient treatment has been entered pursuant to subsection D, the community services board where the person resides that is responsible for monitoring the person's progress and adherence to the comprehensive mandatory outpatient treatment plan shall file a comprehensive mandatory outpatient treatment plan. The comprehensive mandatory outpatient treatment plan shall (i) identify the specific type, amount, duration, and frequency of each service to be provided to the person; (ii) identify the provider that has agreed to provide each service included in the plan; (iii) certify that the services are the most appropriate and least restrictive treatment available for the person; (iv) certify that each provider has complied and continues to comply with applicable provisions of the Department's licensing regulations; (v) be developed with the fullest possible involvement and participation of the person and his family, with the person's consent, and reflect his preferences to the greatest extent possible to support his recovery and self-determination, including incorporating any preexisting crisis plan or advance directive of the person; (vi) specify the particular conditions to which the person shall be required to adhere; and (vii) describe (a) how the community services board shall monitor the person's progress and adherence to the plan and (b) any conditions, including scheduled meetings or continued adherence to medication, necessary for mandatory outpatient treatment to be appropriate for the person. The community services board shall submit the comprehensive mandatory outpatient treatment plan to the court for approval. Upon approval by the court, the comprehensive mandatory outpatient treatment plan shall be filed with the court and incorporated into the order of mandatory outpatient treatment entered pursuant to subsection C1 or D, as appropriate. A copy of the comprehensive mandatory outpatient treatment plan shall be provided to the person by the community services board upon approval of the comprehensive mandatory outpatient treatment plan by the court.

H. If the community services board responsible for developing a comprehensive mandatory outpatient treatment plan pursuant to subsection C1 or D determines that the services necessary for the treatment of the person's mental illness are not available or cannot be provided to the person in accordance with the order for mandatory outpatient treatment, it shall petition the court for rescission of the mandatory outpatient treatment order or order for mandatory outpatient treatment following a period of involuntary inpatient treatment in accordance with the provisions of § 37.2-817.2.

I. Upon entry of any order for mandatory outpatient treatment following a period of involuntary inpatient treatment pursuant to subsection C1 or mandatory outpatient treatment entered pursuant to subsection D, the clerk of the court shall provide a copy of the order to the person who is the subject of the order, to his attorney, and to the community services board required to monitor the person's progress and adherence to the comprehensive mandatory outpatient treatment plan. The community services board shall acknowledge receipt of the order to the clerk of the court on a form established by the Office of the Executive Secretary of the Supreme Court and provided by the court for this purpose within five business days.

J. The court may transfer jurisdiction of the case to the district court where the person resides at any time after the entry of the mandatory outpatient treatment order. The community services board responsible for monitoring the person's progress and adherence to the comprehensive mandatory outpatient treatment plan shall remain responsible for monitoring the person's progress and adherence to the plan until the community services board serving the locality to which jurisdiction of the case has been transferred acknowledges the transfer and receipt of the order to the clerk of the court on a form established by the Office of the Executive Secretary of the Supreme Court and provided by the court for this purpose. The community services board serving the locality to which jurisdiction of the case has been transferred shall acknowledge the transfer and receipt of the order within five business days.

K. Any order entered pursuant to this section shall provide for the disclosure of medical records pursuant to § 37.2-804.2. This subsection shall not preclude any other disclosures as required or permitted by law.

§ 37.2-817.01. Mandatory outpatient treatment.

A. Prior to ordering involuntary admission pursuant to § 37.2-817, a judge or special justice shall investigate and determine whether (i) mandatory outpatient treatment is appropriate as a less restrictive alternative to admission pursuant to subsection B or (ii) mandatory outpatient treatment following a period of inpatient treatment is appropriate pursuant to subsection C.

B. After observing the person and considering (i) the recommendations of any treating or examining physician or psychologist licensed in Virginia, if available, (ii) any past actions of the person, (iii) any past mental health treatment of the person, (iv) any examiner's certification, (v) any health records available, (vi) the preadmission screening report, and (vii) any other relevant evidence that may have been admitted, if the judge or special justice finds by clear and convincing evidence that (a) the person has a mental illness and that there exists a substantial likelihood that, as a result of mental illness, the person will, in the near future, (1) cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if any, or (2) suffer serious harm due to his lack of capacity to protect himself from harm or to provide for his basic human needs, (b) less restrictive alternatives to involuntary inpatient treatment that would offer an opportunity for improvement of his condition have been investigated and are determined to be appropriate, as reflected in the initial outpatient treatment plan prepared in accordance with subsection F, (c) the person has the ability to adhere to the mandatory outpatient treatment plan, and (d) the ordered treatment will be delivered on an outpatient basis by the community services board or designated provider to the person, the

judge or special justice shall by written order and specific findings so certify and order that the person be admitted involuntarily to mandatory outpatient treatment. Less restrictive alternatives shall not be determined to be appropriate unless the services are actually available in the community. The duration of mandatory outpatient treatment shall be determined by the court based on recommendations of the community services board but shall not exceed 180 days; in prescribing the terms of the order, including its length, the judge or special justice shall consider the impact on the person's opportunities and obligations, including education and employment. Upon expiration of an order for mandatory outpatient treatment, the person shall be released from the requirements of the order unless the order is continued in accordance with § 37.2-817.4.

C. Upon finding by clear and convincing evidence that, in addition to the findings described in subsection C of § 37.2-817, (i) the person has a history of lack of adherence to treatment for mental illness that has, at least twice within the past 36 months, resulted in the person being subject to an order for involuntary admission pursuant to subsection C of § 37.2-817 or being subject to a temporary detention order and then voluntarily admitting himself in accordance with subsection B of § 37.2-814, except that such 36-month period shall not include any time during which the person was receiving inpatient psychiatric treatment or was incarcerated, as established by evidence admitted at the hearing, (ii) in view of the person's treatment history and current behavior, the person is in need of mandatory outpatient treatment following inpatient treatment in order to prevent a relapse or deterioration that would be likely to result in the person meeting the criteria for involuntary inpatient treatment, (iii) the person has the ability to adhere to the comprehensive mandatory outpatient treatment plan, and (iv) the person is likely to benefit from mandatory outpatient treatment, the judge or special justice may order that, upon discharge from inpatient treatment, the person adhere to a comprehensive mandatory outpatient treatment plan.

The period of mandatory outpatient treatment shall begin upon discharge of the person from involuntary inpatient treatment, either upon expiration of the order for inpatient treatment pursuant to subsection C of § 37.2-817 or pursuant to § 37.2-837 or 37.2-838. The duration of mandatory outpatient treatment shall be determined by the court on the basis of recommendations of the community services board, and the maximum period of mandatory outpatient treatment shall not exceed 180 days; in prescribing the terms of the order, including its length, the judge or special justice shall consider the impact on the person's opportunities and obligations, including education and employment.

The treating physician and facility staff shall develop the comprehensive mandatory outpatient treatment plan in conjunction with the community services board and the person. The comprehensive mandatory outpatient treatment plan shall include all of the components described in, and shall be filed with the court and incorporated into, the order for mandatory outpatient treatment following a period of involuntary inpatient treatment in accordance with subsection G. The community services board where the person resides upon discharge shall monitor the person's progress and adherence to the comprehensive mandatory outpatient treatment plan. Upon expiration of the order for mandatory outpatient treatment following a period of involuntary inpatient treatment, the person shall be released unless the order is continued in accordance with § 37.2-817.4.

D. At any time prior to the discharge of a person who has been involuntarily admitted pursuant to subsection C of § 37.2-817, the person, the person's treating physician, a family member or personal representative of the person, or the community services board serving the county or city where the facility is located, the county or city where the person resides, or the county or city where the person will receive treatment following discharge may file a motion with the court for a hearing to determine whether such person should be ordered to mandatory outpatient treatment following a period of inpatient treatment upon discharge if such person, on at least two previous occasions within 36 months preceding the date of the hearing, has been (i) involuntarily admitted pursuant to subsection C of § 37.2-817 or (ii) the subject of a temporary detention order and voluntarily admitted himself in accordance with subsection B of § 37.2-814, except that such 36-month period shall not include any time during which the person was receiving inpatient psychiatric treatment or was incarcerated, as established by evidence admitted at the hearing. A district court judge or special justice shall hold the hearing within 72 hours after receiving the motion for a hearing to determine whether the person should be ordered to mandatory outpatient treatment following a period of involuntary inpatient treatment; however, if the 72-hour period expires on a Saturday, Sunday, or legal holiday, the hearing shall be held by the close of business on the next day that is not a Saturday, Sunday, or legal holiday. The district court judge or special justice may enter an order for a period of mandatory outpatient treatment following a period of involuntary inpatient treatment upon finding that the person meets the criteria set forth in subsection C.

E. Mandatory outpatient treatment may include day treatment in a hospital, night treatment in a hospital, outpatient involuntary treatment with antipsychotic medication pursuant to Chapter 11 (§ 37.2-1100 et seq.), or other appropriate course of treatment as may be necessary to meet the needs of the person. Mandatory outpatient treatment shall not include the use of restraints or physical force of any kind in the provision of the medication. The community services board that serves the county or city in which the person resides shall recommend a specific course of treatment and programs for the provision of mandatory outpatient treatment.

F. Any order for mandatory outpatient treatment entered pursuant to subsection B shall include an initial mandatory outpatient treatment plan developed by the community services board that completed the preadmission screening report. The plan shall, at a minimum, (i) identify the specific services to be provided, (ii) identify the provider who has agreed to provide each service, (iii) describe the arrangements made for the initial in-person appointment or contact with each service provider, and (iv) include any other relevant information that may be available regarding the mandatory outpatient

treatment ordered. The order shall require the community services board to monitor the implementation of the mandatory outpatient treatment plan and the person's progress and adherence to the initial mandatory outpatient treatment plan.

G. The community services board where the person resides that is responsible for monitoring the person's progress and adherence to the comprehensive mandatory outpatient treatment plan shall file a comprehensive mandatory outpatient treatment plan no later than five days, excluding Saturdays, Sundays, or legal holidays, after an order for mandatory outpatient treatment has been entered pursuant to subsection B. The community services board shall submit the comprehensive mandatory outpatient treatment plan to the court for approval. Upon approval by the court, the comprehensive mandatory outpatient treatment plan shall be filed with the court and incorporated into the order of mandatory outpatient treatment entered pursuant to subsection B, C, or D, as appropriate. A copy of the comprehensive mandatory outpatient treatment plan shall be provided to the person by the community services board upon approval of the comprehensive mandatory outpatient treatment plan by the court.

H. If the community services board responsible for developing a comprehensive mandatory outpatient treatment plan pursuant to subsection B, C, or D determines that the services necessary for the treatment of the person's mental illness are not available or cannot be provided to the person in accordance with the order for mandatory outpatient treatment, it shall petition the court for rescission of the mandatory outpatient treatment order or order for mandatory outpatient treatment following a period of involuntary inpatient treatment in accordance with the provisions of subsection D of § 37.2-817.1.

I. Upon entry of any order for mandatory outpatient treatment pursuant to subsection B or mandatory outpatient treatment following a period of involuntary inpatient treatment pursuant to subsection C or D, the clerk of the court shall provide a copy of the order to the person who is the subject of the order, to his attorney, and to the community services board required to monitor the person's progress and adherence to the comprehensive mandatory outpatient treatment plan. § 37.2-817.1. (Effective July 1, 2022) Monitoring and court review of mandatory outpatient treatment.

A. As used in this section, "material nonadherence" means deviation from a comprehensive mandatory outpatient treatment plan by a person who is subject to an order for mandatory outpatient treatment following a period of involuntary inpatient treatment pursuant to subsection ~~C~~ C or D of § ~~37.2-817~~ 37.2-817.01 or an order for mandatory outpatient treatment pursuant to subsection ~~D~~ B of § ~~37.2-817~~ 37.2-817.01 that it is likely to lead to the person's relapse or deterioration and for which the person cannot provide a reasonable explanation.

B. The community services board where the person resides shall monitor the person's progress and adherence to the comprehensive mandatory outpatient treatment plan prepared in accordance with § ~~37.2-817~~ 37.2-817.01. Such monitoring shall include (i) contacting or making documented efforts to contact the person regarding the comprehensive mandatory outpatient treatment plan and any support necessary for the person to adhere to the comprehensive mandatory outpatient treatment plan, (ii) contacting the service providers to determine if the person is adhering to the comprehensive mandatory outpatient treatment plan and, in the event of material nonadherence, if the person fails or refuses to cooperate with efforts of the community services board or providers of services identified in the comprehensive mandatory outpatient treatment plan to address the factors leading to the person's material nonadherence, petitioning for a review hearing pursuant to § ~~37.2-817.2~~ this section. Service providers identified in the comprehensive mandatory outpatient treatment plan shall

report any material nonadherence and any material changes in the person's condition to the community services board. Any finding of material nonadherence shall be based upon a totality of the circumstances.

C. The community services board responsible for monitoring the person's progress and adherence to the comprehensive mandatory outpatient treatment plan shall report monthly, in writing, to the court regarding the person's and the community services board's compliance with the provisions of the comprehensive mandatory outpatient treatment plan. If the community services board determines that the deterioration of the condition or behavior of a person who is subject to an order for mandatory outpatient treatment following a period of involuntary inpatient treatment pursuant to subsection ~~C~~ C or D of § 37.2-817.01 or a mandatory outpatient treatment order pursuant to subsection ~~B~~ B of § ~~37.2-817~~ § 37.2-817.01 is such that there is a substantial likelihood that, as a result of the person's mental illness, the person will, in the near future, (i) cause serious physical harm to himself or others as evidenced by recent behavior causing, attempting, or threatening harm and other relevant information, if any, or (ii) suffer serious harm due to his lack of capacity to protect himself from harm or to provide for his basic human needs, it shall immediately request that the magistrate issue an emergency custody order pursuant to § 37.2-808 or a temporary detention order pursuant to § 37.2-809. Entry of an emergency custody order, temporary detention order, or involuntary inpatient treatment order shall suspend but not rescind an existing order for mandatory outpatient treatment following a period of involuntary inpatient treatment pursuant to subsection ~~C~~ C or D of § ~~37.2-817~~ § 37.2-817.01 or a mandatory outpatient treatment order pursuant to subsection ~~B~~ B of § ~~37.2-817~~ § 37.2-817.01.

D. *The district court judge or special justice shall hold a hearing within five days after receiving the petition for review of the comprehensive mandatory outpatient treatment plan; however, if the fifth day is a Saturday, Sunday, legal holiday, or day on which the court is lawfully closed, the hearing shall be held by the close of business on the next day that is not a Saturday, Sunday, legal holiday, or day on which the court is lawfully closed. The clerk shall provide notice of the hearing to the person, the community services board, all treatment providers listed in the comprehensive mandatory outpatient treatment order or discharge plan, and the original petitioner for the person's involuntary treatment. If the person is not represented by counsel, the court shall appoint an attorney to represent the person in this hearing and any subsequent hearing under this section or § 37.2-817.4, giving consideration to appointing the attorney who represented the person at the proceeding that resulted in the issuance of the mandatory outpatient treatment order or order for mandatory outpatient treatment following a period of involuntary inpatient treatment. The same judge or special justice that presided over the hearing resulting in the mandatory outpatient treatment order or order for mandatory outpatient treatment following a period of involuntary inpatient treatment need not preside at the nonadherence hearing or any subsequent hearings. The community services board shall offer to arrange the person's transportation to the hearing if the person is not detained and has no other source of transportation.*

Any of the following may petition the court for a hearing pursuant to this subsection: (i) the person who is subject to the mandatory outpatient treatment order or order for mandatory outpatient treatment following a period of involuntary inpatient treatment; (ii) the community services board responsible for monitoring the person's progress and adherence to the mandatory outpatient treatment order or order for mandatory outpatient treatment following a period of involuntary inpatient treatment; (iii) a treatment provider designated in the comprehensive mandatory outpatient treatment plan; (iv) the person who originally filed the petition that resulted in the entry of the mandatory outpatient treatment order or order for mandatory outpatient treatment following a period of involuntary inpatient treatment; (v) any health care agent designated in the advance directive of the person who is the subject of the mandatory outpatient treatment order or order for mandatory outpatient treatment following a period of involuntary inpatient treatment; or (vi) if the person who is the subject of the mandatory outpatient treatment order or order for mandatory outpatient treatment following a period of involuntary inpatient treatment has been determined to be incapable of making an informed decision, the person's guardian or other person authorized to make health care decisions for the person pursuant to § 54.1-2986.

A petition filed pursuant to this subsection may request that the court do any of the following:

1. Enforce a mandatory outpatient treatment order or order for mandatory outpatient treatment following a period of involuntary inpatient treatment and require the person who is the subject of the order to adhere to the comprehensive mandatory outpatient treatment plan, in the case of material nonadherence;

The person shall not file a petition to rescind the order more than once during a 90-day period.

E. If requested in a petition filed pursuant to subsection D or on the court's own motion, the court may appoint an examiner in accordance with § 37.2-815 who shall personally examine the person on or before the date of the review, as directed by the court, and certify to the court whether or not he has probable cause to believe that the person meets the criteria for mandatory outpatient treatment as specified in subsection B, C, or D of § 37.2-817.01, as may be applicable.

*The examination shall include all applicable requirements of § 37.2-815. The certification of the examiner may be admitted into evidence without the appearance of the examiner at the hearing if not objected to by the person or his attorney. If the person is not incarcerated or receiving treatment in an inpatient facility, the community services board shall arrange for the person to be examined at a convenient location and time. The community services board shall offer to arrange for the person's transportation to the examination if the person has no other source of transportation and resides within the service area or an adjacent service area of the community services board. If the person refuses or fails to appear, the community services board shall notify the court, or a magistrate if the court is not available, and the court or magistrate shall issue a mandatory examination order and *capias* directing the primary law-enforcement agency in the jurisdiction where the person resides to transport the person to the examination. The person shall remain in custody until a temporary detention order is issued or until the person is released, but in no event shall the period exceed eight hours.*

However, status hearings may be held without counsel present by mutual consent of the parties. B. The report shall be made in accordance with subsection A to the local department of the county or city wherein the adult resides or wherein the adult abuse, neglect or exploitation is believed to have occurred or to the adult protective services hotline. Nothing in this section shall be construed to eliminate or supersede any other obligation to report as required by law. If a person required to report under this section receives information regarding abuse, neglect or exploitation while providing professional services in a hospital, nursing facility or similar institution, then he may, in lieu of reporting, notify the person in charge of the institution or his designee, who shall report such information, in accordance with the institution's policies and procedures for reporting such matters, immediately upon his determination that there is reason to suspect abuse, neglect or exploitation. Any person required to make the report or notification required by this subsection shall do so either orally or in writing and shall disclose all information that is the basis for the suspicion of adult abuse, neglect or exploitation. Upon request, any person required to make the report shall make available to the adult protective services worker and the local department investigating the reported case of adult abuse, neglect or exploitation any information, records or reports which document the basis for the report. All persons required to report suspected adult abuse, neglect or exploitation shall cooperate with the investigating adult protective services worker of a local department and shall make information, records and reports which are relevant to the investigation available to such worker to the extent permitted by state and federal law. Criminal investigative reports received from law-enforcement agencies shall not be further disseminated by the investigating agency nor shall they be subject to public disclosure; such reports may, however, be disclosed to the Adult Fatality Review Team as provided in § 32.1-283.5 or to a local or regional adult fatality review team as provided in § 32.1-283.6 and, if reviewed by the Team or a local or regional adult fatality review team, shall be subject to applicable confidentiality requirements of the Team or a local or regional adult fatality review team.

C. Any financial institution staff who suspects that an adult has been exploited financially may report such suspected financial exploitation and provide supporting information and records to the local department of the county or city wherein the adult resides or wherein the exploitation is believed to have occurred or to the adult protective services hotline.

D. Any person other than those specified in subsection A who suspects that an adult is an abused, neglected or exploited adult may report the matter to the local department of the county or city wherein the adult resides or wherein the abuse, neglect or exploitation is believed to have occurred or to the adult protective services hotline.

E. Any person who makes a report or provides records or information pursuant to subsection A, C, or D, or who testifies in any judicial proceeding arising from such report, records or information, or who takes or causes to be taken with the adult's or the adult's legal representative's informed consent photographs, video recordings, or appropriate medical

imaging of the adult who is subject of a report shall be immune from any civil or criminal liability on account of such report, records, information, photographs, video recordings, appropriate medical imaging or testimony, unless such person acted in bad faith or with a malicious purpose.

F. An employer of a mandated reporter shall not prohibit a mandated reporter from reporting directly to the local department or to the adult protective services hotline. Employers whose employees are mandated reporters shall notify employees upon hiring of the requirement to report.

G. Any person 14 years of age or older who makes or causes to be made a report of adult abuse, neglect, or exploitation that he knows to be false is guilty of a Class 4 misdemeanor. Any subsequent conviction of this provision is a Class 2 misdemeanor.

H. Any person who fails to make a required report or notification pursuant to subsection A shall be subject to a civil penalty of not more than \$500 for the first failure and not less than \$100 nor more than \$1,000 for any subsequent failures. Civil penalties under subdivision A 7 shall be determined by a court of competent jurisdiction, in its discretion. All other civil penalties under this section shall be determined by the Commissioner for Aging and Rehabilitative Services or his designee. The Commissioner for Aging and Rehabilitative Services shall establish by regulation a process for imposing and collecting civil penalties, and a process for appeal of the imposition of such penalty pursuant to § 2.2-4026 of the Administrative Process Act.

I. Any mandated reporter who has reasonable cause to suspect that an adult died as a result of abuse or neglect shall immediately report such suspicion to the appropriate medical examiner and to the appropriate law-enforcement agency, notwithstanding the existence of a death certificate signed by a licensed physician. The medical examiner and the law-enforcement agency shall receive the report and determine if an investigation is warranted. The medical examiner may order an autopsy. If an autopsy is conducted, the medical examiner shall report the findings to law enforcement, as appropriate, and to the local department or to the adult protective services hotline.

J. No person or entity shall be obligated to report any matter if the person or entity has actual knowledge that the same matter has already been reported to the local department or to the adult protective services hotline.

K. All law-enforcement departments and other state and local departments, agencies, authorities and institutions shall cooperate with each adult protective services worker of a local department in the detection, investigation and prevention of adult abuse, neglect and exploitation.

L. Financial institution staff may refuse to execute a transaction, may delay a transaction, or may refuse to disburse funds if the financial institution staff (i) believes in good faith that the transaction or disbursement may involve, facilitate, result in, or contribute to the financial exploitation of an adult or (ii) makes, or has actual knowledge that another person has made, a report to the local department or adult protective services hotline stating a good faith belief that the transaction or disbursement may involve, facilitate, result in, or contribute to the financial exploitation of an adult. The financial institution staff may continue to refuse to execute a transaction, delay a transaction, or refuse to disburse funds for a period no longer than 30 business days after the date upon which such transaction or disbursement was initially requested based on a good faith belief that the transaction or disbursement may involve, facilitate, result in, or contribute to the financial exploitation of an adult, unless otherwise ordered by a court of competent jurisdiction. Upon refusing to execute a transaction, delaying a transaction, or refusing to disburse funds, the financial institution shall report such refusal or delay within five business days to the local department or the adult protective services hotline. Upon request, and to the extent permitted by state and federal law, financial institution staff making a report to the local department of social services may report any information or records relevant to the report or investigation. Absent gross negligence or willful misconduct, the financial institution and its staff shall be immune from civil or criminal liability for refusing to execute a transaction, delaying a transaction, or refusing to disburse funds pursuant to this subsection. The authority of a financial institution staff to refuse to execute a transaction, to delay a transaction, or to refuse to disburse funds pursuant to this subsection shall not be contingent upon whether financial institution staff has reported suspected financial exploitation of the adult pursuant to subsection C.

CHAPTER 771

An Act to amend and reenact § 11-4.6 of the Code of Virginia, relating to nonpayment of wages; defense of contractor.

[H 889]

Approved April 27, 2022

Be it enacted by the General Assembly of Virginia:**1. That § 11-4.6 of the Code of Virginia is amended and reenacted as follows:****§ 11-4.6. Liability of contractor for wages of subcontractor's employees.**

A. As used in this section, unless the context requires a different meaning:

"Construction contract" means a contract between a general contractor and a subcontractor relating to the construction, alteration, repair, or maintenance of a building, structure, or appurtenance thereto, including moving, demolition, and excavation connected therewith, or any provision contained in any contract relating to the construction of projects other than buildings.

"General contractor" and "subcontractor" have the meanings ascribed thereto in § 43-1, except that those terms shall not include persons solely furnishing materials.

B. Any construction contract *between a general contractor and its subcontractor and any lower tier subcontract* entered into on or after July 1, 2020, shall be deemed to include a provision under which the general contractor, *its subcontractor*, and the subcontractor at any *lower tier* are jointly and severally liable to pay ~~any subcontractor's~~ *the* employees of *any subcontractor* at any *lower tier* the greater of (i) all wages due to a subcontractor's employees *or to the lower tier subcontractor's employees* at such rate and upon such terms as shall be provided in the employment agreement between the subcontractor and its employees or (ii) the amount of wages that the subcontractor *or any lower tier subcontractor* is required to pay to its employees under the provisions of applicable law, including the provisions of the Virginia Minimum Wage Act (§ 40.1-28.8 et seq.) and the federal Fair Labor Standards Act (29 U.S.C. § 201 et seq.).

C. A general contractor shall be deemed to be the employer of a subcontractor's employees at any tier for purposes of § 40.1-29. If the wages due to the subcontractor's employees under the terms of the employment agreement between a subcontractor and its employees are not paid, the general contractor shall be subject to all penalties, criminal and civil, to which an employer that fails or refuses to pay wages is subject under § 40.1-29. Any liability of a general contractor pursuant to § 40.1-29 shall be joint and several with the subcontractor that failed or refused to pay the wages to its employees.

D. Except as otherwise provided in a contract between the general contractor and the subcontractor, the subcontractor shall indemnify the general contractor for any wages, damages, interest, penalties, or attorney fees owed as a result of the subcontractor's failure to pay wages to the subcontractor's employees as provided in subsection B, unless the subcontractor's failure to pay the wages was due to the general contractor's failure to pay moneys due to the subcontractor in accordance with the terms of their construction contract.

E. The provisions of this section shall only apply if (i) it can be demonstrated that the general contractor knew or should have known that the subcontractor was not paying his employees all wages due, (ii) the construction contract is related to a project other than a single family residential project, and (iii) the value of the project, or an aggregate of projects under one construction contract, is greater than \$500,000. As evidence a general contractor *or subcontractor, regardless of tier*, may offer a written certification, under oath, from the subcontractor in direct privity of contract with the general

contractor *or subcontractor* stating that (a) the subcontractor and each of his sub-subcontractors has paid all employees all wages due for the period during which the wages are claimed for the work performed on the project and (b) to the subcontractor's knowledge all sub-subcontractors below the subcontractor, regardless of tier, have similarly paid their employees all such wages. Any person who falsely signs such certification shall be personally liable to the general contractor *or subcontractor* for fraud and any damages the general contractor *or subcontractor* may incur.

CHAPTER 772

An Act to amend and reenact §§ 32.1-102.2 and 32.1-127 of the Code of Virginia, relating to public health emergency; hospitals and nursing homes; addition of beds.

[H 900]

Approved April 27, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 32.1-102.2 and 32.1-127 of the Code of Virginia are amended and reenacted as follows:

§ 32.1-102.2. Regulations.

A. The Board shall promulgate regulations that are consistent with this article and:

1. Shall establish concise procedures for the prompt review of applications for certificates consistent with the provisions of this article which may include a structured batching process which incorporates, but is not limited to, authorization for the Commissioner to request proposals for certain projects. In any structured batching process established by the Board, applications, combined or separate, for computed tomographic (CT) scanning, magnetic resonance imaging (MRI), positron emission tomographic (PET) scanning, radiation therapy, stereotactic radiotherapy other than radiotherapy performed using a linear accelerator or other medical equipment that uses concentrated doses of high-energy X-rays to perform external beam radiation therapy, and proton beam therapy shall be considered in the radiation therapy batch. A single application may be filed for a combination of (i) radiation therapy, stereotactic radiotherapy other than radiotherapy performed using a linear accelerator or other medical equipment that uses concentrated doses of high-energy X-rays to perform external beam radiation therapy, and proton beam therapy and (ii) any or all of the computed tomographic (CT) scanning, magnetic resonance imaging (MRI), and positron emission tomographic (PET) scanning;

2. May classify projects and may eliminate one or more or all of the procedures prescribed in § 32.1-102.6 for different classifications;

3. May provide for exempting from the requirement of a certificate projects determined by the Commissioner, upon application for exemption, to be subject to the economic forces of a competitive market or to have no discernible impact on the cost or quality of health services;

4. May establish a schedule of fees for applications for certificates or registration of a project to be applied to expenses for the administration and operation of the Certificate of Public Need Program;

5. Shall establish an expedited application and review process for any certificate for projects reviewable pursuant to subdivision B 8 of § 32.1-102.1:3. Regulations establishing the expedited application and review procedure shall include provisions for notice and opportunity for public comment on the application for a certificate, and criteria pursuant to which an application that would normally undergo the review process would instead undergo the full certificate of public need review process set forth in § 32.1-102.6;

6. Shall establish an exemption from the requirement for a certificate *for a project involving a temporary increase in the total number of beds in an existing hospital or nursing home, including a temporary increase in the total number of beds resulting from the addition of beds at a temporary structure or satellite location operated by the hospital or nursing home, provided that the ability remains to safely staff services across the existing hospital or nursing home, (i) for a period of no more than the duration of the Commissioner's determination plus 30 days; for projects involving a temporary increase in the total number of beds in an existing hospital or nursing home* when the Commissioner has determined that a natural or man-made disaster has caused the evacuation of a hospital or nursing home and that a public health emergency exists due to a shortage of hospital or nursing home beds *or (ii) for a period of no more than the duration of the emergency order entered pursuant to § 32.1-13 or 32.1-20 plus 30 days when the Board, pursuant to § 32.1-13, or the Commissioner, pursuant to § 32.1-20, has entered an emergency order for the purpose of suppressing a nuisance dangerous to public health or a communicable, contagious, or infectious disease or other danger to the public life and health; and*

7. Shall require every medical care facility subject to the requirements of this article, other than a nursing home, that is not a medical care facility for which a certificate with conditions imposed pursuant to subsection B of § 32.1-102.4 has been issued and that provides charity care, as defined in § 32.1-102.1, to annually report the amount of charity care provided.

B. The Board shall promulgate regulations providing for time limitations for schedules for completion and limitations on the exceeding of the maximum capital expenditure amount for all reviewable projects. The Commissioner shall not approve any such extension or excess unless it complies with the Board's regulations. However, the Commissioner may approve a significant change in cost for an approved project that exceeds the authorized capital expenditure by more than 20 percent, provided the applicant has demonstrated that the cost increases are reasonable and necessary under all the circumstances and do not result from any material expansion of the project as approved.

C. The Board shall also promulgate regulations authorizing the Commissioner to condition approval of a certificate on the agreement of the applicant to provide a level of charity care to indigent persons or accept patients requiring specialized care. Such regulations shall include a methodology and formulas for uniform application of, active measuring and monitoring of compliance with, and approval of alternative plans for satisfaction of such conditions. In addition, the Board's licensure regulations shall direct the Commissioner to condition the issuing or renewing of any license for any applicant whose certificate was approved upon such condition on whether such applicant has complied with any agreement to provide a level of charity care to indigent persons or accept patients requiring specialized care. Except in the case of nursing homes, the value of charity care provided to individuals pursuant to this subsection shall be based on the provider reimbursement methodology utilized by the Centers for Medicare and Medicaid Services for reimbursement under Title XVIII of the Social Security Act, 42 U.S.C. § 1395 et seq.

D. The Board shall also promulgate regulations to require the registration of a project; for introduction into an existing medical care facility of any new lithotripsy, stereotactic radiosurgery, stereotactic radiotherapy performed using a linear accelerator or other medical equipment that uses concentrated doses of high-energy X-rays to perform external beam radiation therapy, obstetrical, or nuclear imaging services that the facility has never provided or has not provided in the previous 12 months; and for the addition by an existing medical care facility of any medical equipment for lithotripsy, stereotactic radiosurgery, stereotactic radiotherapy performed using a linear accelerator or other medical equipment that uses concentrated doses of high-energy X-rays to perform external beam radiation therapy, or nuclear imaging services. Replacement of existing equipment for lithotripsy, stereotactic radiosurgery, stereotactic radiotherapy other than radiotherapy performed using a linear accelerator or other medical equipment that uses concentrated doses of high-energy X-rays to perform external beam radiation therapy, or nuclear imaging services shall not require registration. Such regulations shall include provisions for (i) establishing the agreement of the applicant to provide a level of care in services or funds that matches the average percentage of indigent care provided in the appropriate health planning region and to participate in Medicaid at a reduced rate to indigents, (ii) obtaining accreditation from a nationally recognized accrediting organization approved by the Board for the purpose of quality assurance, and (iii) reporting utilization and other data required by the Board to monitor and evaluate effects on health planning and availability of health care services in the Commonwealth.

§ 32.1-127. Regulations.

A. The regulations promulgated by the Board to carry out the provisions of this article shall be in substantial conformity to the standards of health, hygiene, sanitation, construction and safety as established and recognized by medical and health care professionals and by specialists in matters of public health and safety, including health and safety standards established under provisions of Title XVIII and Title XIX of the Social Security Act, and to the provisions of Article 2 (§ 32.1-138 et seq.).

Each hospital shall have an agreement with an organ procurement organization designated in CMS regulations for routine contact, whereby the provider's designated organ procurement organization certified by CMS (i) is notified in a timely manner of all deaths or imminent deaths of patients in the hospital and (ii) is authorized to determine the suitability of the decedent or patient for organ donation and, in the absence of a similar arrangement with any eye bank or tissue bank in Virginia certified by the Eye Bank Association of America or the American Association of Tissue Banks, the suitability for tissue and eye donation. The hospital shall also have an agreement with at least one tissue bank and at least one eye bank to cooperate in the retrieval, processing, preservation, storage, and distribution of tissues and eyes to ensure that all usable tissues and eyes are obtained from potential donors and to avoid interference with organ procurement. The protocol shall ensure that the hospital collaborates with the designated organ procurement organization to inform the family of each potential donor of the option to donate organs, tissues, or eyes or to decline to donate. The individual making contact with the family shall have completed a course in the methodology for approaching potential donor families and requesting organ or tissue donation that (a) is offered or approved by the organ procurement organization and designed in conjunction with the tissue and eye bank community and (b) encourages discretion and sensitivity according to the specific circumstances, views, and beliefs of the relevant family. This process shall be followed, without exception, unless the family of the relevant decedent or patient has expressed opposition to organ donation, the chief administrative officer of the hospital or his designee knows of such opposition, and no donor card or other relevant document, such as an advance directive, can be found;

5. Shall require that each hospital that provides obstetrical services establish a protocol for admission or transfer of any pregnant woman who presents herself while in labor;

6. Shall also require that each licensed hospital develop and implement a protocol requiring written discharge plans for identified, substance-abusing, postpartum women and their infants. Appropriate referrals may include, but need not be limited to, treatment services, comprehensive early intervention services for infants and toddlers with disabilities and their families pursuant to Part H of the Individuals with Disabilities Education Act, 20 U.S.C. § 1471 et seq., and family-oriented prevention services. The discharge planning process shall involve, to the extent possible, the other parent of the infant and any members of the patient's extended family who may participate in the follow-up care for the mother and the infant. Immediately upon identification, pursuant to § 54.1-2403.1, of any substance-abusing, postpartum woman, the hospital shall notify, subject to federal law restrictions, the community services board of the jurisdiction in which the woman resides to appoint a discharge plan manager. 8. Shall require that each licensed hospital establish a protocol relating to the rights and responsibilities of patients which shall include a process reasonably designed to inform patients of such rights and responsibilities. Such rights and responsibilities of patients, a copy of which shall be given to patients on admission, shall be consistent with applicable federal law and regulations of the Centers for Medicare and Medicaid Services;

9. Shall establish standards and maintain a process for designation of levels or categories of care in neonatal services according to an applicable national or state-developed evaluation system. Such standards may be differentiated for various levels or categories of care and may include, but need not be limited to, requirements for staffing credentials, staff/patient ratios, equipment, and medical protocols;

10. Shall require that each nursing home and certified nursing facility train all employees who are mandated to report adult abuse, neglect, or exploitation pursuant to § 63.2-1606 on such reporting procedures and the consequences for failing to make a required report;

11. Shall permit hospital personnel, as designated in medical staff bylaws, rules and regulations, or hospital policies and procedures, to accept emergency telephone and other verbal orders for medication or treatment for hospital patients from physicians, and other persons lawfully authorized by state statute to give patient orders, subject to a requirement that such verbal order be signed, within a reasonable period of time not to exceed 72 hours as specified in the hospital's medical staff bylaws, rules and regulations or hospital policies and procedures, by the person giving the order, or, when such person is not available within the period of time specified, co-signed by another physician or other person authorized to give the order;

12. Shall require, unless the vaccination is medically contraindicated or the resident declines the offer of the vaccination, that each certified nursing facility and nursing home provide or arrange for the administration to its residents of (i) an annual vaccination against influenza and (ii) a pneumococcal vaccination, in accordance with the most recent recommendations of the Advisory Committee on Immunization Practices of the Centers for Disease Control and Prevention;

15. Shall require that each licensed hospital include in its visitation policy a provision allowing each adult patient to receive visits from any individual from whom the patient desires to receive visits, subject to other restrictions contained in the visitation policy including, but not limited to, those related to the patient's medical condition and the number of visitors permitted in the patient's room simultaneously;

16. Shall require that each nursing home and certified nursing facility shall, upon the request of the facility's family council, send notices and information about the family council mutually developed by the family council and the administration of the nursing home or certified nursing facility, and provided to the facility for such purpose, to the listed responsible party or a contact person of the resident's choice up to six times per year. Such notices may be included together with a monthly billing statement or other regular communication. Notices and information shall also be posted in a

designated location within the nursing home or certified nursing facility. No family member of a resident or other resident representative shall be restricted from participating in meetings in the facility with the families or resident representatives of other residents in the facility;

17. Shall require that each nursing home and certified nursing facility maintain liability insurance coverage in a minimum amount of \$1 million, and professional liability coverage in an amount at least equal to the recovery limit set forth in § 8.01-581.15, to compensate patients or individuals for injuries and losses resulting from the negligent or criminal acts of the facility. 19. Shall require each nursing home to provide a full refund of any unexpended patient funds on deposit with the facility following the discharge or death of a patient, other than entrance-related fees paid to a continuing care provider as defined in § 38.2-4900, within 30 days of a written request for such funds by the discharged patient or, in the case of the death of a patient, the person administering the person's estate in accordance with the Virginia Small Estates Act (§ 64.2-600 et seq.);

20. Shall require that each hospital that provides inpatient psychiatric services establish a protocol that requires, for any refusal to admit (i) a medically stable patient referred to its psychiatric unit, direct verbal communication between the on-call physician in the psychiatric unit and the referring physician, if requested by such referring physician, and prohibits on-call physicians or other hospital staff from refusing a request for such direct verbal communication by a referring physician and (ii) a patient for whom there is a question regarding the medical stability or medical appropriateness of admission for inpatient psychiatric services due to a situation involving results of a toxicology screening, the on-call physician in the psychiatric unit to which the patient is sought to be transferred to participate in direct verbal communication, either in person or via telephone, with a clinical toxicologist or other person who is a Certified Specialist in Poison Information employed by a poison control center that is accredited by the American Association of Poison Control Centers to review the results of the toxicology screen and determine whether a medical reason for refusing admission to the psychiatric unit related to the results of the toxicology screen exists, if requested by the referring physician;

21. Shall require that each hospital that is equipped to provide life-sustaining treatment shall develop a policy governing determination of the medical and ethical appropriateness of proposed medical care, which shall include (i) a process for obtaining a second opinion regarding the medical and ethical appropriateness of proposed medical care in cases in which a physician has determined proposed care to be medically or ethically inappropriate; (ii) provisions for review of the determination that proposed medical care is medically or ethically inappropriate by an interdisciplinary medical review committee and a determination by the interdisciplinary medical review committee regarding the medical and ethical appropriateness of the proposed health care; and (iii) requirements for a written explanation of the decision reached by the interdisciplinary medical review committee, which shall be included in the patient's medical record. Such policy shall ensure that the patient, his agent, or the person authorized to make medical decisions pursuant to § 54.1-2986 (a) are informed of the patient's right to obtain his medical record and to obtain an independent medical opinion and (b) afforded reasonable opportunity to participate in the medical review committee meeting. In no case, however, shall the penalty be less than \$10 and such minimum penalty shall apply whether or not any tax is due for the period for which such return was required. If such failure is due to providential or other good cause shown to the satisfaction of the Tax Commissioner, such return with or without remittance may be accepted exclusive of penalties. In the case of a false or fraudulent return where willful intent exists to defraud the Commonwealth of any tax due under this article, or in the case of a willful failure to file a return with the intent to defraud the Commonwealth of any such tax, a specific penalty of 50 percent of the amount of the proper tax shall be assessed. All penalties and interest imposed by this article shall be payable by the distributor or remote retail seller and collectible by the Department in the same manner as if they were a part of the tax imposed.

B. It shall be prima facie evidence of intent to defraud the Commonwealth of any tax due under this article when any distributor or remote retail seller reports his purchases at 50 percent or less of the actual amount.

C. Interest at a rate determined in accordance with § 58.1-15 shall accrue on the tax until the same is paid.

No deficiency, interest or penalty shall be assessed for any month after the expiration of three years from the date set for the filing of the return for such month, except in cases of fraud, or where no return has been filed for such month.

D. If the Tax Commissioner determines that the amount paid the Commonwealth under this article in regard to any monthly return was greater than the amount of tax due the Commonwealth, the excess may be taken as a credit by the distributor or remote retail seller against a subsequent month's tax imposed under this article. However, if such distributor or remote retail seller requests a refund, such excess shall be refunded to the distributor or remote retail seller within 45 days of the request. The refund shall include interest at the rate provided in § 58.1-15. Interest on such refunds shall accrue from the due date of the return to which such excess is attributable to or the date such excess was paid to the Department, whichever is later, and shall end on a date determined by the Department preceding the date of the refund check by not more than seven days.

§ 58.1-1021.04:1. Distributor's or remote retail seller's license; penalty.

A. No person shall engage in the business of selling or dealing in tobacco products as a distributor in the Commonwealth without first having received a separate license from the Department for each location or place of business. Each application for a distributor's license shall be accompanied by a fee to be prescribed by the Department. Every application for such license shall be made on a form prescribed by the Department and the following information shall be provided on the application:

1. The name and address of the applicant. If the applicant is a firm, partnership or association, the name and address of each of its members shall be provided. If the applicant is a corporation, the name and address of each of its principal officers shall be provided;

2. The address of the applicant's principal place of business;

3. The place or places where the business to be licensed is to be conducted; and

4. Such other information as the Department may require for the purpose of the administration of this article.

B. A person outside the Commonwealth who ships or transports tobacco products to retailers in the Commonwealth, to be sold by those retailers, may make application for license as a distributor, be granted such a license by the Department, and thereafter be subject to all the provisions of this article. Once a license is granted pursuant to this section, such person shall be entitled to act as a licensed distributor and, unless such person maintains a registered agent pursuant to Chapter 9, 10, 12 or 14 of Title 13.1 or Chapter 2.1 or 2.2 of Title 50, shall be deemed to have appointed the Clerk of the State Corporation Commission as the person's agent for the purpose of service of process relating to any matter or issue involving the person and arising under the provisions of this article.

The Department shall conduct a background investigation, to include a Virginia Criminal History Records search, and fingerprints of the applicant, or the responsible principals, managers, and other persons engaged in handling tobacco products at the licensable locations, that shall be submitted to the Federal Bureau of Investigation if the Department deems a National Criminal Records search necessary, on applicants for licensure as tobacco products distributors. The Department may refuse to issue a distributor's license or may suspend, revoke or refuse to renew a distributor's license issued to any person, partnership, corporation, limited liability company or business trust, if it determines that the principals, managers,

and other persons engaged in handling tobacco products at the licensable location of the applicant have been (i) found guilty of any fraud or misrepresentation in any connection; (ii) convicted of robbery, extortion, burglary, larceny, embezzlement, fraudulent conversion, gambling, perjury, bribery, treason, or racketeering; or (iii) convicted of a felony. Anyone who knowingly and willfully falsifies, conceals or misrepresents a material fact or knowingly and willfully makes a false, fictitious or fraudulent statement or representation in any application for a distributor's license to the Department, shall be guilty of a Class 1 misdemeanor. The Department may establish an application or renewal fee not to exceed \$750 to be retained by the Department to be applied to the administrative and other costs of processing distributor's license applications, conducting background investigations and issuing distributor's licenses. Any amount collected pursuant to this section in excess of such costs as of June 30 in even numbered years shall be reported to the State Treasurer and deposited into the state treasury.

C. *No person inside or outside the Commonwealth shall make a remote retail sale of cigars or pipe tobacco to consumers in the Commonwealth without (i) completing an application for and being granted a license as a remote retail seller; (ii) determining whether economic nexus activity thresholds have been met to register for a dealer's certificate under § 58.1-613; (iii) if economic nexus thresholds are met, collecting and remitting the excise tax pursuant to subsection A of § 58.1-1021.02; (iv) providing for age verification through an independent, third-party age verification service that compares information available from a commercially available database, or aggregate of databases, that is regularly used by government agencies and businesses for the purpose of age and identity verification to the personal information entered by the individual during the ordering process that establishes that the individual is of age; and (v) if economic nexus thresholds are met, and excise tax is being remitted using the actual cost list method to calculate the excise tax, providing the remote retail seller's certified actual cost list to the Department for each SKU to be offered for remote retail sale in the subsequent calendar year. The actual cost list shall be updated quarterly as new SKUs are added to a remote retail seller's inventory. New SKUs will be added using the actual cost first paid for the SKU.*

D. Upon receipt of an application in proper form and payment of the required license fee, the Department shall, unless otherwise provided by this article, issue to the applicant a license, which shall permit the licensee to engage in business as a distributor at the place of business shown on the license. Each license, or a copy thereof, shall be prominently displayed on the premises covered by the license. No license shall be transferable to any other person. Distributor's licenses issued pursuant to this section shall be valid for a period of three years from the date of issue unless revoked by the Department in the manner provided herein. The Department may at any time revoke the license issued to any distributor who is found guilty of violating or noncompliance with any of the provisions of this chapter, or any of the rules of the Department adopted and promulgated under authority of this chapter.

~~D. E.~~ The Department shall compile and maintain a current list of licensed distributors *and remote retail sellers*. The list shall be updated on a monthly basis, and published on the Department's official Internet website, available to any interested party.

§ 58.1-1021.04:2. Certain records required of distributor; access to premises.

A. Each distributor *or remote retail seller* shall keep in each licensed place of business complete and accurate records for that place of business, including itemized invoices of: (i) tobacco products held, purchased, manufactured, brought in or caused to be brought in from outside the Commonwealth, or shipped or transported to retailers in the Commonwealth; (ii) all sales of tobacco products made; (iii) all tobacco products, *including cigars and pipe tobacco*, transferred to other retail outlets owned or controlled by that licensed distributor *or remote retail seller*; and (iv) any records required by the Department.

All books, records and other papers and documents required by this subsection to be kept shall be preserved, in a form prescribed by the Department, for a period of at least three years after the date of the documents or the date of the entries thereof appearing in the records, unless the Department authorizes, in writing, their destruction or disposal at an earlier date.

B. At any time during usual business hours, duly authorized agents or employees of the Department may enter any place of business of a distributor and inspect the premises, the records required to be kept under this article and the tobacco products contained therein, to determine whether all the provisions of this article are being complied with fully. Refusal to permit such inspection by a duly authorized agent or employee of the Department shall be grounds for revocation of the license.

C. Each person who sells tobacco products to persons other than an ultimate consumer shall render with each sale itemized invoices showing the seller's name and address, the purchaser's name and address, the date of sale and all prices. Such person shall preserve legible copies of all such invoices for three years after the date of sale.

D. Each distributor *or remote retail seller* shall procure itemized invoices of all tobacco products purchased. The invoices shall show the name and address of the seller and the date of purchase. The distributor *or remote retail seller* shall preserve a legible copy of each invoice for three years after the date of purchase. Invoices shall be available for inspection by authorized agents or employees of the Department at the distributor's *place of business or remote retail seller's* place of business. *If the remote retail seller cannot produce the required invoice information and the excise tax is being remitted using the actual cost list method to calculate the excise tax, the remote retail seller shall provide the remote retail seller's certified actual cost list to the department for each SKU to be offered for remote retail sale in the subsequent calendar year. The actual cost list shall be updated quarterly as new SKUs are added to a remote retail seller's inventory. New SKUs will be added using the actual cost first paid for the SKU. This method shall not be used unless the actual cost list has been filed with the Department for the previous calendar year.*

E. Any violation of § 58.1-1021.04:1, 58.1-1021.04:2, 58.1-1021.04:3, or 58.1-1021.04:4 of this article shall be grounds for revocation of the license.

§ 10.1-603.29. Resilient Virginia Revolving Fund.

There shall be set apart as a permanent and perpetual fund, to be known as the "Resilient Virginia Revolving Fund," sums appropriated to the Fund by the General Assembly, sums allocated to the Commonwealth for resilience purposes through the federal government, all receipts by the Fund from loans made by it to local governments, all income from the investment of moneys held in the Fund, and any other sums designated for deposit to the Fund from any source public or private. The Fund shall be administered and managed by the Authority as prescribed in this article, subject to the right of the Department, following consultation with the Authority, to direct the distribution of loans or grants from the Fund to particular local governments and to establish the interest rates and repayment terms of such loans as provided in this article. A portion of the Fund shall be reserved to hold money that is allocated only for the hazard mitigation of buildings and that shall not be available for other uses. In order to carry out the administration and management of the Fund, the Authority is granted the power to employ officers, employees, agents, advisers, and consultants, including, without limitation, attorneys, financial advisers, engineers, and other technical advisers and public accountants and, the provisions of any other law to the contrary notwithstanding, to determine their duties and compensation without the approval of any other agency or instrumentality. The Authority may disburse from the Fund its reasonable costs and expenses incurred in the administration and management of the Fund and a reasonable fee to be approved by the Department for its management services. The Authority may provide a portion of that fee to the Department to cover the Department's costs and expenses in administering the Fund.

§ 10.1-603.30. Deposit of moneys; expenditures; investments.

All moneys belonging to the Fund shall be deposited in an account or accounts in banks or trust companies organized under the laws of the Commonwealth or in national banking associations located in Virginia or in savings institutions located in Virginia organized under the laws of the Commonwealth or the United States. The money in these accounts shall be paid by electronic transfer or check signed by the Executive Director of the Authority or other officers or employees designated by the Board of Directors of the Authority. All deposits of money shall, if required by the Authority, be secured in a manner determined by the Authority to be prudent, and all banks, trust companies, and savings institutions are authorized to give security for the deposits. Money in the Fund shall not be commingled with other money of the Authority. Money in the Fund not needed for immediate use or disbursement may be invested or reinvested by the Authority in obligations or securities that are considered lawful investments for public funds under the laws of the Commonwealth. Interest earned on moneys in the Fund shall remain in the Fund and be credited to it. Any moneys remaining in the Fund, including any appropriated funds and all principal, interest accrued, and payments at the end of each fiscal year shall not revert to the general fund but shall remain in the Fund.

§ 10.1-603.31. Annual audit.

The Auditor of Public Accounts, or his legally authorized representatives, shall annually audit the accounts of the Authority, and the cost of such audit services as shall be required shall be borne by the Authority. The audit shall be performed at least each fiscal year, in accordance with generally accepted auditing standards and, accordingly, include

such tests of the accounting records and such auditing procedures as considered necessary under the circumstances. The Authority shall furnish copies of such audit to the Governor and to the Department.

§ 10.1-603.32. Collection of money due to Fund.

The Authority is empowered to collect, or to authorize others to collect on its behalf, amounts due to the Fund under any loan to a local government, including, if appropriate, taking the action required by § 15.2-2659 to obtain payment of any amounts in default. Proceedings to recover amounts due to the Fund may be instituted by the Authority in the name of the Fund in the appropriate circuit court.

§ 10.1-603.33. Loans to local governments.

Except as otherwise provided in this article, moneys in the Fund shall be used to make loans to local governments to finance or refinance the cost of any project. The local governments to which loans are to be made, the purposes of the loan, the amount of each such loan, the interest rate thereon, and the repayment terms thereof, which may vary between loan recipients, shall be designated in writing by the Department to the Authority following consultation with the Authority. No loan from the Fund shall exceed the total cost of the project to be financed or the outstanding principal amount of the indebtedness to be refinanced plus reasonable financing expenses.

Except as set forth in this section, the Authority shall determine the terms and conditions of any loan from the Fund, which may vary between loan recipients. Each loan shall be evidenced by appropriate bonds or notes of the local government payable to the Fund. The bonds or notes shall have been duly authorized by the local government and executed by its authorized legal representatives. The Authority is authorized to require in connection with any loan from the Fund such documents, instruments, certificates, legal opinions, and other information as it may deem necessary or convenient. In addition to any other terms or conditions that the Authority may establish, the Authority may require, as a condition to making any loan from the Fund, that the local government receiving the loan covenant to perform any of the following:

1. Establish and collect rents, rates, fees, and charges to produce revenue sufficient to pay all or a specified portion of (i) the costs of operation, maintenance, replacement, renewal, and repairs of the project; (ii) any outstanding indebtedness incurred for the purposes of the project, including the principal of and premium, if any, and interest on the loan from the Fund to the local government; and (iii) any amounts necessary to create and maintain any required reserve, including any rate stabilization fund deemed necessary or appropriate by the Authority to offset the need, in whole or part, for future increases in rents, rates, fees, or charges;

2. With respect to local governments, levy and collect ad valorem taxes on all property within the jurisdiction of the local government subject to local taxation sufficient to pay the principal of and premium, if any, and interest on the loan from the Fund to the local government;

3. Create and maintain a special fund or funds for the payment of the principal of and premium, if any, and interest on the loan from the Fund to the local government and any other amounts becoming due under any agreement entered into in connection with the loan, or for the operation, maintenance, repair, or replacement of the project or any portions thereof or other property of the local government, and deposit into any fund or funds amounts sufficient to make any payments on the loan as they become due and payable;

4. Create and maintain other special funds as required by the Authority; and

5. Perform other acts, including the conveyance of, or the granting of liens on or security interests in, real and personal property, together with all rights, title, and interest therein, to the Fund, or take other actions as may be deemed necessary or desirable by the Authority to secure payment of the principal of and premium, if any, and interest on the loan from the Fund and to provide for the remedies of the Fund in the event of any default in the payment of the loan, including, without limitation, any of the following:

a. The procurement of insurance, guarantees, letters of credit, and other forms of collateral, security, liquidity arrangements, or credit supports for the loan from any source, public or private, and the payment therefor of premiums, fees, or other charges;

b. The combination of one or more projects, or the combination of one or more projects with one or more other undertakings, facilities, utilities, or systems, for the purpose of operations and financing, and the pledging of the revenues from such combined projects, undertakings, facilities, utilities, and systems to secure the loan from the Fund made in connection with such combination or any part or parts thereof;

c. The maintenance, replacement, renewal, and repair of the project; and

d. The procurement of casualty and liability insurance.

All local governments borrowing money from the Fund are authorized to perform any acts, take any action, adopt any proceedings, and make and carry out any contracts that are contemplated by this article. Such contracts need not be identical among all local governments but may be structured as determined by the Authority according to the needs of the contracting local governments and the Fund.

Subject to the rights, if any, of the registered owners of any of the bonds of the Authority, the Authority may consent to and approve any modification in the terms of any loan subject to guidelines adopted by the Department.

§ 10.1-603.34. Grants to local governments.

Subject to any restrictions that may apply to the use of money in the Fund, the Department may approve the use of money in the Fund to make grants or appropriations to local governments to pay the cost of any project. The Department may establish such terms and conditions on any grant as it deems appropriate. Grants shall be disbursed from the Fund by the Authority in accordance with the written direction of the Department.

§ 10.1-603.35. Loans and grants for regional projects, etc.

In approving loans and grants, the Department shall give preference to loans and grants for projects that will utilize private industry in the operation and maintenance of such projects where a material savings in cost can be shown over public operation and maintenance; will serve two or more local governments to encourage regional cooperation; or both.

§ 10.1-603.36. Loans and grants to a local government for a funding program.

Loans and grants may be made from the Fund, in the Department's discretion, to a local government that has developed a funding program to provide low-interest loans or grants to any persons of the Commonwealth eligible for projects for resilience purposes. In order to secure the loans authorized pursuant to this section, the local government is authorized to place a lien equal in value to the loan against any property where such project is being undertaken. Such liens shall be subordinate to all liens on the property as of the date the loan authorized under this section is made, except that with the prior written consent of the holders of all liens on the property as of such date, the liens securing loans authorized pursuant to this section shall be liens on the property ranking on parity with liens for unpaid local taxes. The local government may bundle or package such loans for transfer to private lenders in such a manner that would allow the liens to remain in full force to secure the loans.

§ 10.1-603.37. Pledge of loans to secure bonds of Authority.

The Authority is empowered at any time and from time to time to transfer from the Fund to banks or trust companies designated by the Authority any or all of the assets of the Fund to be held in trust as security for the payment of the principal of and premium, if any, and interest on any or all of the bonds, as defined in § 62.1-199, of the Authority. The interests of the Fund in any obligations so transferred shall be subordinate to the rights of the trustee under the pledge. To the extent that funds are not available from other sources pledged for such purpose, any payments of principal and interest received on the assets transferred or held in trust may be applied by the trustee thereof to the payment of the principal of and premium, if any, and interest on such bonds of the Authority to which the obligations have been pledged, and if such payments are insufficient for such purpose, the trustee is empowered to sell any or all of such assets and apply the net proceeds from the sale to the payment of the principal of and premium, if any, and interest on such bonds of the Authority. Any assets of the Fund transferred in trust as set forth in this section and any payments of principal, interest, or earnings received thereon shall remain part of the Fund but shall be subject to the pledge to secure the bonds of the Authority and shall be held by the trustee to which they are pledged until no longer required for such purpose by the terms of the pledge. On or before January 10 of each year, the Authority shall transfer, or shall cause the trustee to transfer, to the Fund any assets transferred or held in trust as set forth in this section that are no longer required to be held in trust pursuant to the terms of the pledge.

§ 10.1-603.38. Sale of loans.

The Authority is empowered at any time and from time to time to sell, upon such terms and conditions as the Authority shall deem appropriate, any loan, or interest therein, made pursuant to this article. The net proceeds of sale remaining after the payment of the costs and expenses of the sale shall be designated for deposit to, and become part of, the Fund.

§ 10.1-603.39. Powers of the Authority.

The Authority is authorized to do any act necessary or convenient to the exercise of the powers granted in this article or reasonably implied thereby.

§ 10.1-603.40. Liberal construction of article.

The provisions of this article shall be liberally construed to the end that its beneficial purposes may be effectuated. Insofar as the provisions of this article are inconsistent with the provisions of any other law, general, special, or local, the provisions of this article shall be controlling.

If any health care entity denies a request for copies of or electronic access to health records based on such statement, the health care entity shall inform the individual of the individual's right to designate, in writing, at his own expense, another reviewing physician, clinical psychologist, or clinical social worker whose licensure, training and experience relative to the individual's condition are at least equivalent to that of the physician, clinical psychologist, or clinical social worker upon whose opinion the denial is based. The designated reviewing physician, clinical psychologist, or clinical social worker shall make a judgment as to whether to make the health record available to the individual.

The health care entity denying the request shall also inform the individual of the individual's right to request in writing that such health care entity designate, at its own expense, a physician, clinical psychologist, or clinical social worker, whose licensure, training, and experience relative to the individual's condition are at least equivalent to that of the physician, clinical psychologist, or clinical social worker upon whose professional judgment the denial is based and who did not participate in the original decision to deny the health records, who shall make a judgment as to whether to make the health record available to the individual. The health care entity shall comply with the judgment of the reviewing physician, clinical psychologist, or clinical social worker. The health care entity shall permit copying and examination of the health record by such other physician, clinical psychologist, or clinical social worker designated by either the individual at his own expense or by the health care entity at its expense.

Any health record copied for review by any such designated physician, clinical psychologist, or clinical social worker shall be accompanied by a statement from the custodian of the health record that the individual's treating physician, clinical psychologist, or clinical social worker determined that the individual's review of his health record would be reasonably likely to endanger the life or physical safety of the individual or would be reasonably likely to cause substantial harm to a person referenced in the health record who is not a health care provider.

Further, nothing herein shall be construed as giving, or interpreted to bestow the right to receive copies of, or otherwise obtain access to, psychotherapy notes to any individual or any person authorized to act on his behalf.

H. Pursuant to this subsection:

1. Unless excepted from these provisions in subdivision 9, no party to a civil, criminal or administrative action or proceeding shall request the issuance of a subpoena duces tecum for another party's health records or cause a subpoena duces tecum to be issued by an attorney unless a copy of the request for the subpoena or a copy of the attorney-issued subpoena is provided to the other party's counsel or to the other party if pro se, simultaneously with filing the request or issuance of the subpoena. No party to an action or proceeding shall request or cause the issuance of a subpoena duces tecum for the health records of a nonparty witness unless a copy of the request for the subpoena or a copy of the attorney-issued subpoena is provided to the nonparty witness simultaneously with filing the request or issuance of the attorney-issued subpoena.

No subpoena duces tecum for health records shall set a return date earlier than 15 days from the date of the subpoena except by order of a court or administrative agency for good cause shown. When a court or administrative agency directs that health records be disclosed pursuant to a subpoena duces tecum earlier than 15 days from the date of the subpoena, a copy of the order shall accompany the subpoena.

Any party requesting a subpoena duces tecum for health records or on whose behalf the subpoena duces tecum is being issued shall have the duty to determine whether the individual whose health records are being sought is pro se or a nonparty.

In instances where health records being subpoenaed are those of a pro se party or nonparty witness, the party requesting or issuing the subpoena shall deliver to the pro se party or nonparty witness together with the copy of the request for subpoena, or a copy of the subpoena in the case of an attorney-issued subpoena, a statement informing them of their rights and remedies. The statement shall include the following language and the heading shall be in boldface capital letters:

NOTICE TO INDIVIDUAL

The attached document means that (insert name of party requesting or causing issuance of the subpoena) has either asked the court or administrative agency to issue a subpoena or a subpoena has been issued by the other party's attorney to your doctor, other health care providers (names of health care providers inserted here) or other health care entity (name of health care entity to be inserted here) requiring them to produce your health records. Your doctor, other health care provider or other health care entity is required to respond by providing a copy of your health records. If you believe your health records should not be disclosed and object to their disclosure, you have the right to file a motion with the clerk of the court or the administrative agency to quash the subpoena. If you elect to file a motion to quash, such motion must be filed within 15 days of the date of the request or of the attorney-issued subpoena. You may contact the clerk's office or the administrative agency to determine the requirements that must be satisfied when filing a motion to quash and you may elect to contact an attorney to represent your interest. If you elect to file a motion to quash, you must notify your doctor, other health care provider(s), or other health care entity, that you are filing the motion so that the health care provider or health care entity knows to send the health records to the clerk of court or administrative agency in a sealed envelope or package for safekeeping while your motion is decided.

2. Any party filing a request for a subpoena duces tecum or causing such a subpoena to be issued for an individual's health records shall include a Notice in the same part of the request in which the recipient of the subpoena duces tecum is directed where and when to return the health records. Such notice shall be in boldface capital letters and shall include the following language:

NOTICE TO HEALTH CARE ENTITIES

A COPY OF THIS SUBPOENA DUCES TECUM HAS BEEN PROVIDED TO THE INDIVIDUAL WHOSE HEALTH RECORDS ARE BEING REQUESTED OR HIS COUNSEL. YOU OR THAT INDIVIDUAL HAS THE RIGHT TO FILE A MOTION TO QUASH (OBJECT TO) THE ATTACHED SUBPOENA. IF YOU ELECT TO FILE A MOTION TO QUASH, YOU MUST FILE THE MOTION WITHIN 15 DAYS OF THE DATE OF THIS SUBPOENA.

YOU MUST NOT RESPOND TO THIS SUBPOENA UNTIL YOU HAVE RECEIVED WRITTEN CERTIFICATION FROM THE PARTY ON WHOSE BEHALF THE SUBPOENA WAS ISSUED THAT THE TIME FOR FILING A MOTION TO QUASH HAS ELAPSED AND THAT:

NO MOTION TO QUASH WAS FILED; OR

ANY MOTION TO QUASH HAS BEEN RESOLVED BY THE COURT OR THE ADMINISTRATIVE AGENCY AND THE DISCLOSURES SOUGHT ARE CONSISTENT WITH SUCH RESOLUTION.

IF YOU RECEIVE NOTICE THAT THE INDIVIDUAL WHOSE HEALTH RECORDS ARE BEING REQUESTED HAS FILED A MOTION TO QUASH THIS SUBPOENA, OR IF YOU FILE A MOTION TO QUASH THIS SUBPOENA, YOU MUST SEND THE HEALTH RECORDS ONLY TO THE CLERK OF THE COURT OR ADMINISTRATIVE AGENCY THAT ISSUED THE SUBPOENA OR IN WHICH THE ACTION IS PENDING AS SHOWN ON THE SUBPOENA USING THE FOLLOWING PROCEDURE:

PLACE THE HEALTH RECORDS IN A SEALED ENVELOPE AND ATTACH TO THE SEALED ENVELOPE A COVER LETTER TO THE CLERK OF COURT OR ADMINISTRATIVE AGENCY WHICH STATES THAT CONFIDENTIAL HEALTH RECORDS ARE ENCLOSED AND ARE TO BE HELD UNDER SEAL PENDING A RULING ON THE MOTION TO QUASH THE SUBPOENA. THE SEALED ENVELOPE AND THE COVER LETTER SHALL BE PLACED IN AN OUTER ENVELOPE OR PACKAGE FOR TRANSMITTAL TO THE COURT OR ADMINISTRATIVE AGENCY.

3. Upon receiving a valid subpoena duces tecum for health records, health care entities shall have the duty to respond to the subpoena in accordance with the provisions of subdivisions 4, 5, 6, 7, and 8.

4. Except to deliver to a clerk of the court or administrative agency subpoenaed health records in a sealed envelope as set forth, health care entities shall not respond to a subpoena duces tecum for such health records until they have received a certification as set forth in subdivision 5 or 8 from the party on whose behalf the subpoena duces tecum was issued.

If the health care entity has actual receipt of notice that a motion to quash the subpoena has been filed or if the health care entity files a motion to quash the subpoena for health records, then the health care entity shall produce the health records, in a securely sealed envelope, to the clerk of the court or administrative agency issuing the subpoena or in whose court or administrative agency the action is pending. The court or administrative agency shall place the health records under seal until a determination is made regarding the motion to quash. The securely sealed envelope shall only be opened on order of the judge or administrative agency. In the event the court or administrative agency grants the motion to quash, the health records shall be returned to the health care entity in the same sealed envelope in which they were delivered to the court or administrative agency. In the event that a judge or administrative agency orders the sealed envelope to be opened to review the health records in camera, a copy of the order shall accompany any health records returned to the health care entity. The health records returned to the health care entity shall be in a securely sealed envelope.

5. If no motion to quash is filed within 15 days of the date of the request or of the attorney-issued subpoena, the party on whose behalf the subpoena was issued shall have the duty to certify to the subpoenaed health care entity that the time for filing a motion to quash has elapsed and that no motion to quash was filed. Any health care entity receiving such certification shall have the duty to comply with the subpoena duces tecum by returning the specified health records by either the return date on the subpoena or five days after receipt of the certification, whichever is later.

6. In the event that the individual whose health records are being sought files a motion to quash the subpoena, the court or administrative agency shall decide whether good cause has been shown by the discovering party to compel disclosure of the individual's health records over the individual's objections. In determining whether good cause has been shown, the court or administrative agency shall consider (i) the particular purpose for which the information was collected; (ii) the degree to which the disclosure of the records would embarrass, injure, or invade the privacy of the individual; (iii) the effect of the disclosure on the individual's future health care; (iv) the importance of the information to the lawsuit or proceeding; and (v) any other relevant factor.

7. Concurrent with the court or administrative agency's resolution of a motion to quash, if subpoenaed health records have been submitted by a health care entity to the court or administrative agency in a sealed envelope, the court or administrative agency shall: (i) upon determining that no submitted health records should be disclosed, return all submitted health records to the health care entity in a sealed envelope; (ii) upon determining that all submitted health records should be disclosed, provide all the submitted health records to the party on whose behalf the subpoena was issued; or (iii) upon determining that only a portion of the submitted health records should be disclosed, provide such portion to the party on whose behalf the subpoena was issued and return the remaining health records to the health care entity in a sealed envelope.

8. Following the court or administrative agency's resolution of a motion to quash, the party on whose behalf the subpoena duces tecum was issued shall have the duty to certify in writing to the subpoenaed health care entity a statement of one of the following:

a. All filed motions to quash have been resolved by the court or administrative agency and the disclosures sought in the subpoena duces tecum are consistent with such resolution; and, therefore, the health records previously delivered in a sealed envelope to the clerk of the court or administrative agency will not be returned to the health care entity;

b. All filed motions to quash have been resolved by the court or administrative agency and the disclosures sought in the subpoena duces tecum are consistent with such resolution and that, since no health records have previously been delivered to the court or administrative agency by the health care entity, the health care entity shall comply with the subpoena duces tecum by returning the health records designated in the subpoena by the return date on the subpoena or five days after receipt of certification, whichever is later;

c. All filed motions to quash have been resolved by the court or administrative agency and the disclosures sought in the subpoena duces tecum are not consistent with such resolution; therefore, no health records shall be disclosed and all health records previously delivered in a sealed envelope to the clerk of the court or administrative agency will be returned to the health care entity;

d. All filed motions to quash have been resolved by the court or administrative agency and the disclosures sought in the subpoena duces tecum are not consistent with such resolution and that only limited disclosure has been authorized. The certification shall state that only the portion of the health records as set forth in the certification, consistent with the court or administrative agency's ruling, shall be disclosed. The certification shall also state that health records that were previously delivered to the court or administrative agency for which disclosure has been authorized will not be returned to the health care entity; however, all health records for which disclosure has not been authorized will be returned to the health care entity; or

e. All filed motions to quash have been resolved by the court or administrative agency and the disclosures sought in the subpoena duces tecum are not consistent with such resolution and, since no health records have previously been delivered to the court or administrative agency by the health care entity, the health care entity shall return only those health records specified in the certification, consistent with the court or administrative agency's ruling, by the return date on the subpoena or five days after receipt of the certification, whichever is later.

A copy of the court or administrative agency's ruling shall accompany any certification made pursuant to this subdivision.

9. The provisions of this subsection have no application to subpoenas for health records requested under § 8.01-413, or issued by a duly authorized administrative agency conducting an investigation, audit, review or proceedings regarding a health care entity's conduct.

The provisions of this subsection shall apply to subpoenas for the health records of both minors and adults.

Nothing in this subsection shall have any effect on the existing authority of a court or administrative agency to issue a protective order regarding health records, including, but not limited to, ordering the return of health records to a health care entity, after the period for filing a motion to quash has passed.

A subpoena for substance abuse records must conform to the requirements of federal law found in 42 C.F.R. Part 2, Subpart E.

I. Health care entities may testify about the health records of an individual in compliance with §§ 8.01-399 and 8.01-400.2.

J. If an individual requests a copy of his health record from a health care entity, the health care entity may impose a reasonable cost-based fee, which shall include only the cost of supplies for and labor of copying the requested information, postage when the individual requests that such information be mailed, and preparation of an explanation or summary of such information as agreed to by the individual. For the purposes of this section, "individual" shall subsume a person with authority to act on behalf of the individual who is the subject of the health record in making decisions related to his health care.

K. Nothing in this section shall prohibit a health care provider who prescribes or dispenses a controlled substance required to be reported to the Prescription Monitoring Program established pursuant to Chapter 25.2 (§ 54.1-2519 et seq.) of Title 54.1 to a patient from disclosing information obtained from the Prescription Monitoring Program and contained in a patient's health care record to another health care provider when such disclosure is related to the care or treatment of the patient who is the subject of the record.

L. An authorization for the disclosure of health records executed pursuant to this section shall remain in effect until (i) the authorization is revoked in writing and delivered to the health care entity maintaining the record that is subject to the authorization by the person who executed the authorization, (ii) any expiration date set forth in the authorization, or (iii) the health care entity maintaining the record becomes aware of any expiration event described in the authorization, whichever occurs first. However, any revocation of an authorization for the disclosure of health records executed pursuant to this section shall not be effective to the extent that the health care entity maintaining the record has disclosed health records prior to delivery of such revocation in reliance upon the authorization or as otherwise provided pursuant to 45 C.F.R. § 164.508. A statement in an authorization for the disclosure of health records pursuant to this section that the information to be used or disclosed is "all health records" is a sufficient description for the disclosure of all health records of the person maintained by the health care provider to whom the authorization was granted. If a health care provider receives a written revocation of an authorization for the disclosure of health records in accordance with this subsection, a copy of such written revocation shall be included in the person's original health record maintained by the health care provider.

An authorization for the disclosure of health records executed pursuant to this section shall, unless otherwise expressly limited in the authorization, be deemed to include authorization for the person named in the authorization to assist the person who is the subject of the health record in accessing health care services, including scheduling appointments for the person who is the subject of the health record and attending appointments together with the person who is the subject of the health record.

§ 54.1-2404.1. Health care providers; disclosure of records; actions for which an authorization is not required.

A. Subject to any limitations set forth in an authorization for the disclosure of health records executed pursuant to § 32.1-127.1:03 and the provisions of subsection F of § 32.1-127.1:03, every health care provider shall make health records, as defined in § 32.1-127.1:03, of a patient available to any person designated by a patient in an authorization to disclose health records pursuant to § 32.1-127.1:03 to the same extent that such health records are required to be made available to the patient had the patient requested such health records.

B. Every health care provider shall allow a spouse, parent, adult child, adult sibling, or other person identified by a patient to make an appointment for medical services on behalf of such patient, regardless of whether such patient has executed an authorization to disclose health records to such person pursuant to § 32.1-127.1:03; however, such health care

provider shall not disclose protected health information to the person making the appointment for medical services on behalf of the patient unless the patient has executed an authorization to disclose health records pursuant to § 32.1-127.1:03 or unless otherwise permitted or required to do so by federal or state law or regulations. Nothing in this subsection shall prevent a health care provider from sharing relevant protected health information related to the patient's health care or payment with a spouse, parent, adult child, adult sibling, or other person involved in the patient's health care or payment in accordance with 45 C.F.R. § 164.510.

CHAPTER 787

An Act for the relief of Bobbie James Morman, Jr., relating to claims; compensation for wrongful incarceration.

[H 385]

Approved May 27, 2022

Whereas, Bobbie James Morman, Jr., was convicted in the Circuit Court of the City of Norfolk on November 30, 1993, of three counts of attempted malicious wounding and four counts of firearm-related charges for a crime where four men drove past three individuals standing outside of a residence and one of them fired shots from the backseat of the car; and

Whereas, no one was injured during the incident; and

Whereas, all four men inside the vehicle on the night of the offense testified at Mr. Morman's trial and swore that Mr. Morman was not in the vehicle when the shooting occurred; and

Whereas, the actual perpetrator testified at trial and confessed on repeated public occasions thereafter that he was in fact the shooter, not Mr. Morman; and

Whereas, Mr. Morman presented evidence that he was at a nearby 7-Eleven convenience store playing video games during the time of the offense; and

Whereas, Mr. Morman was convicted of being the shooter based on the extremely brief and conflicting testimony of three eyewitnesses; the entirety of the Commonwealth's case-in-chief is contained within only 50 pages of court transcript; and

Whereas, Mr. Morman was sentenced to 48 years in prison; and

Whereas, the man who confessed to the crime for which Mr. Morman was convicted was never interviewed by police or prosecutors in the case; and

Whereas, Mr. Morman served 22 years in prison within the Virginia Department of Corrections before being paroled in 2016; and

Whereas, since his release on parole, Mr. Morman has had no new arrests and has maintained steady employment; and

Whereas, Mr. Morman submitted a petition for clemency seeking an absolute pardon based on the compelling evidence of his innocence; and

Whereas, in support of Mr. Morman's absolute pardon request, the four men in the car on the night of the offense reiterated their 1993 testimony and signed sworn affidavits attesting to Mr. Morman's innocence; and

Whereas, seven years after Mr. Morman's initial pardon request was filed, Governor Ralph Northam granted Mr. Morman an absolute pardon on July 14, 2021, finding that "it is just and appropriate to grant this absolute pardon that reflects Mr. Morman's innocence of . . . [all counts] for which he was convicted on November 30, 1993"; and

Whereas, Mr. Morman, as a result of his wrongful incarceration, lost 22 years of his freedom and countless life experiences and opportunities, including family relations, the opportunity to further his education, and the opportunity to earn potential income from gainful employment during his years of incarceration; and

Whereas, Mr. Morman has no other means to obtain adequate relief except by action of this body; now, therefore,

Be it enacted by the General Assembly of Virginia:

1. § 1. *That there is hereby appropriated from the general fund of the state treasury the sum of \$1,247,973 for the relief of Bobbie James Morman, Jr., to be paid by check issued by the State Treasurer on warrant of the Comptroller upon execution of a release of all claims Mr. Morman may have against the Commonwealth or any agency, instrumentality, office, employee, or political subdivision in connection with the aforesaid occurrence.*

The compensation, subject to the execution of the release described herein, shall be paid in (i) an initial lump sum of \$311,993 by check issued by the State Treasurer on warrant of the Comptroller within 60 days immediately following the execution of such release and (ii) the sum of \$935,979 to purchase an annuity no later than one year after the effective date of the appropriation for compensation, for the primary benefit of Mr. Morman, the terms of such annuity structured in Mr. Morman's best interests based on consultation among Mr. Morman or his representatives, the State Treasurer, and other necessary parties.

The State Treasurer shall purchase the annuity at the lowest cost available from any A+ rated company authorized to sell annuities in the Commonwealth, including any A+ rated company from which the State Lottery Department may purchase an annuity. The annuity shall provide that it shall not be sold, discounted, or used as securitization for loans and mortgages. The annuity shall, however, contain beneficiary provisions providing for the annuity's continued disbursement in the event of Mr. Morman's death.

§ 2. *That Mr. Morman shall be entitled to receive reimbursement up to \$10,000 for tuition for career and technical training within the Virginia Community College System contingent upon successful completion of the training. Reimbursement for tuition shall be provided by the comprehensive community college at which the career or technical training was completed. The tuition benefit provided by this section shall expire on January 1, 2026.*

§ 3. *That any amount already paid to Mr. Morman as a transition assistance grant pursuant to subsection C of § 8.01-195.11 of the Code of Virginia shall be deducted from any award received pursuant to § 1 of this act.*

2. That the provisions of § 8.01-195.12 of the Code of Virginia shall apply to any compensation awarded under this act.

CHAPTER 788

An Act to amend the Code of Virginia by adding in Title 30 a chapter numbered 64, consisting of sections numbered 30-409 through 30-415, relating to Commission on Updating Virginia Law to Reflect Federal Recognition of Virginia Tribes; established; report.

[H 1136]

Approved May 27, 2022

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding in Title 30 a chapter numbered 64, consisting of sections numbered 30-409 through 30-415, as follows:

CHAPTER 64.

COMMISSION ON UPDATING VIRGINIA LAW TO REFLECT FEDERAL RECOGNITION OF VIRGINIA TRIBES.

§ 30-409. *Commission on Updating Virginia Law to Reflect Federal Recognition of Virginia Tribes; purpose.*

The Commission on Updating Virginia Law to Reflect Federal Recognition of Virginia Tribes (the Commission) is established in the legislative branch of state government for the purpose of performing a comprehensive review of Virginia law to assess ways in which it must be revised to reflect the government-to-government relationship the Commonwealth should maintain, by treaty and applicable federal law, with the sovereign, self-governing, federally recognized Tribal Nations located within the present-day external boundaries of the Commonwealth.

§ 30-410. *Membership; terms.*

The Commission shall have a total of 19 members, consisting of 10 legislative members, eight nonlegislative citizen members, and one ex officio member. Members shall be appointed as follows: six members of the House of Delegates to be appointed by the Speaker of the House of Delegates in accordance with the principles of proportional representation contained in the Rules of the House of Delegates; four members of the Senate to be appointed by the Senate Committee on Rules; seven nonlegislative citizen members, at least one of whom shall represent each of the seven federally recognized Tribal Nations located in the Commonwealth, to be appointed by the Speaker of the House of Delegates with the advice and consent of each such federally recognized Tribal Nation; and one nonlegislative citizen member, who shall represent the Commonwealth's scholarly community, to be appointed by the Senate Committee on Rules. The Secretary of the Commonwealth, or his designee, shall serve ex officio with voting privileges. Nonlegislative citizen members of the Commission shall be citizens of the Commonwealth.

Legislative members and the ex officio member of the Commission shall serve terms coincident with their terms of office. Nonlegislative citizen members shall be appointed for a term of two years. Appointments to fill vacancies, other than by expiration of a term, shall be for the unexpired terms. Legislative members and nonlegislative citizen members may be reappointed. However, no nonlegislative citizen member shall serve more than four consecutive two-year terms. The remainder of any term to which a member is appointed to fill a vacancy shall not constitute a term in determining the member's eligibility for reappointment. Vacancies shall be filled in the same manner as the original appointments.

The Commission shall elect a chairman and vice-chairman from among its membership, who shall be members of the General Assembly.

§ 30-411. Quorum; meetings; voting on recommendations.

CHAPTER 789

An Act to amend the Code of Virginia by adding a section numbered 2.2-1176.2, relating to Department of General Services; fleet managers to use total cost of ownership calculations; report.

[S 575]

Approved May 27, 2022

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding a section numbered 2.2-1176.2 as follows:

§ 2.2-1176.2. Declaration of policy supporting cost-effective vehicle purchase and lease; total cost of ownership calculator; report.

A. It is the policy of the Commonwealth to encourage and promote the use of cost-effective vehicles by considering the total cost of ownership by agencies of the Commonwealth.

B. By October 1, 2022, the Department shall identify a publicly available total cost of ownership calculator that will be used to assess and compare the total cost to purchase, own, lease, and operate light-duty internal combustion-engine vehicles (ICEVs) versus comparable electric vehicles (EVs). Beginning on January 1, 2023, the Department and all agencies of the Commonwealth shall utilize the calculator prior to purchasing or leasing any light-duty vehicles and shall

purchase or lease an EV unless the calculator clearly indicates that purchasing or leasing an ICEV has a lower cost of ownership.

1. The calculator shall, at a minimum, account for the vehicle's make, model, and age; the average miles traveled per year for similarly used vehicles; the expected life expectancy of the vehicle and average annual depreciation; the upfront and annual costs of purchasing such vehicle and all other costs of vehicle ownership or lease; and all costs the agency must incur to add chargers or other fueling facilities to support such vehicles. The calculator shall be updated at least annually to account for updates in information, including information on the latest light-duty vehicle models available.

2. The Department shall make the calculator available to all state and local public bodies and transit agencies. The Department shall also provide technical assistance to such public bodies utilizing the calculator upon request.

For purposes of this subsection, "light-duty vehicle" means a motor vehicle with a gross vehicle weight of 14,000 pounds or less.

C. Beginning January 1, 2026, and every three years thereafter, the Department shall submit to the Governor and the General Assembly a report summarizing the Department's vehicle procurements and the vehicle procurements of other agencies of the Commonwealth. The report shall, at a minimum, include a compilation of types of vehicles by size, fuel sources, and the total estimated cost savings and avoided emissions attributable to purchasing or leasing of EVs instead of ICEVs.

D. Emergency vehicles, as defined in § 46.2-920, and any vehicles used by an agency of the Commonwealth in law-enforcement, incident response, or other emergency response activities shall be exempt from the requirements of this section. The Department may authorize other exemptions from the requirements of this section upon finding that an EV is not a practicable alternative to an ICEV for a particular use, or for some other compelling reason.

E. The Department shall develop guidance documents regarding the procedure for requesting exemptions from the requirements of this section and the criteria for evaluating such exemption requests. Before adopting or revising such guidance documents, the Department shall publish the document on its website and provide a 30-day period for public review and comment.

F. The Department may issue any directives or guidance documents or promulgate any regulations as may be necessary to implement the requirements of this section.

2. That the initial report required pursuant to subsection C of § 2.2-1176.2 of the Code of Virginia, as created by this act, shall be due January 1, 2026.

3. That the Department of General Services (the Department) Public Body Procurement Workgroup (the Workgroup) shall evaluate the appropriateness of requiring the Department and all agencies of the Commonwealth to use a total cost of ownership (TCO) calculator to, prior to purchasing or leasing any medium-duty or heavy-duty vehicle, assess and compare the total cost to purchase, own, lease, and operate medium-duty or heavy-duty internal combustion-engine vehicles versus comparable electric vehicles. In conducting its evaluation, the Workgroup shall consult with relevant stakeholders, including at least one medium-duty or heavy-duty vehicle technology provider with experience in real-world deployments, to consider (i) the current commercial market for medium-duty and heavy-duty electric vehicles; (ii) the unique characteristics of medium-duty and heavy-duty vehicles, including charging infrastructure and operational duty cycles; (iii) the potential volume of medium-duty and heavy-duty vehicles purchased by the Department and agencies of the Commonwealth; (iv) the availability of public TCO calculators for medium-duty and heavy-duty vehicles and their suitability for use by the Department and agencies of the Commonwealth; and (v) any other information it determines relevant to its evaluation.

The Department shall report the Workgroup's findings and any recommendations to the Chairmen of the House Committee on General Laws and the Senate Committee on General Laws and Technology on or before December 1, 2022.

For purposes of this enactment, "medium-duty and heavy-duty vehicle" means a motor vehicle with a gross weight greater than 14,000 pounds.

CHAPTER 790

An Act to amend and reenact §§ 32.1-325, 54.1-3303.1, and 54.1-3321 of the Code of Virginia, relating to pharmacists; initiation of treatment with and dispensing and administration of vaccines.

[S 672]

Approved May 27, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 32.1-325, 54.1-3303.1, and 54.1-3321 of the Code of Virginia are amended and reenacted as follows:

§ 32.1-325. Board to submit plan for medical assistance services to U.S. Secretary of Health and Human Services pursuant to federal law; administration of plan; contracts with health care providers.

A. The Board, subject to the approval of the Governor, is authorized to prepare, amend from time to time, and submit to the U.S. Secretary of Health and Human Services a state plan for medical assistance services pursuant to Title XIX of the United States Social Security Act and any amendments thereto. The Board shall include in such plan:

1. A provision for payment of medical assistance on behalf of individuals, up to the age of 21, placed in foster homes or private institutions by private, nonprofit agencies licensed as child-placing agencies by the Department of Social Services or placed through state and local subsidized adoptions to the extent permitted under federal statute;

2. A provision for determining eligibility for benefits for medically needy individuals which disregards from countable resources an amount not in excess of \$3,500 for the individual and an amount not in excess of \$3,500 for his spouse when such resources have been set aside to meet the burial expenses of the individual or his spouse. The amount disregarded shall be reduced by (i) the face value of life insurance on the life of an individual owned by the individual or his spouse if the cash surrender value of such policies has been excluded from countable resources and (ii) the amount of any other revocable or irrevocable trust, contract, or other arrangement specifically designated for the purpose of meeting the individual's or his spouse's burial expenses;

3. A requirement that, in determining eligibility, a home shall be disregarded. For those medically needy persons whose eligibility for medical assistance is required by federal law to be dependent on the budget methodology for Aid to Families with Dependent Children, a home means the house and lot used as the principal residence and all contiguous property. For all other persons, a home shall mean the house and lot used as the principal residence, as well as all contiguous property, as long as the value of the land, exclusive of the lot occupied by the house, does not exceed \$5,000. In any case in which the definition of home as provided here is more restrictive than that provided in the state plan for medical assistance services in Virginia as it was in effect on January 1, 1972, then a home means the house and lot used as the principal residence and all contiguous property essential to the operation of the home regardless of value;

4. A provision for payment of medical assistance on behalf of individuals up to the age of 21, who are Medicaid eligible, for medically necessary stays in acute care facilities in excess of 21 days per admission;

5. A provision for deducting from an institutionalized recipient's income an amount for the maintenance of the individual's spouse at home;

6. A provision for payment of medical assistance on behalf of pregnant women which provides for payment for inpatient postpartum treatment in accordance with the medical criteria outlined in the most current version of or an official update to the "Guidelines for Perinatal Care" prepared by the American Academy of Pediatrics and the American College of Obstetricians and Gynecologists or the "Standards for Obstetric-Gynecologic Services" prepared by the American College of Obstetricians and Gynecologists. Payment shall be made for any postpartum home visit or visits for the mothers and the children which are within the time periods recommended by the attending physicians in accordance with and as indicated by such Guidelines or Standards. For the purposes of this subdivision, such Guidelines or Standards shall include any changes thereto within six months of the publication of such Guidelines or Standards or any official amendment thereto;

7. A provision for the payment for family planning services on behalf of women who were Medicaid-eligible for prenatal care and delivery as provided in this section at the time of delivery. Such family planning services shall begin with delivery and continue for a period of 24 months, if the woman continues to meet the financial eligibility requirements for a pregnant woman under Medicaid. For the purposes of this section, family planning services shall not cover payment for abortion services and no funds shall be used to perform, assist, encourage or make direct referrals for abortions;

8. A provision for payment of medical assistance for high-dose chemotherapy and bone marrow transplants on behalf of individuals over the age of 21 who have been diagnosed with lymphoma, breast cancer, myeloma, or leukemia and have been determined by the treating health care provider to have a performance status sufficient to proceed with such high-dose chemotherapy and bone marrow transplant. Appeals of these cases shall be handled in accordance with the Department's expedited appeals process;

9. A provision identifying entities approved by the Board to receive applications and to determine eligibility for medical assistance, which shall include a requirement that such entities (i) obtain accurate contact information, including the best available address and telephone number, from each applicant for medical assistance, to the extent required by federal law and regulations, and (ii) provide each applicant for medical assistance with information about advance directives pursuant to Article 8 (§ 54.1-2981 et seq.) of Chapter 29 of Title 54.1, including information about the purpose and benefits of advance directives and how the applicant may make an advance directive;

10. A provision for breast reconstructive surgery following the medically necessary removal of a breast for any medical reason. Breast reductions shall be covered, if prior authorization has been obtained, for all medically necessary indications. Such procedures shall be considered noncosmetic;

11. A provision for payment of medical assistance for annual pap smears;

12. A provision for payment of medical assistance services for prostheses following the medically necessary complete or partial removal of a breast for any medical reason;

13. A provision for payment of medical assistance which provides for payment for 48 hours of inpatient treatment for a patient following a radical or modified radical mastectomy and 24 hours of inpatient care following a total mastectomy or a partial mastectomy with lymph node dissection for treatment of disease or trauma of the breast. Nothing in this subdivision shall be construed as requiring the provision of inpatient coverage where the attending physician in consultation with the patient determines that a shorter period of hospital stay is appropriate;

14. A requirement that certificates of medical necessity for durable medical equipment and any supporting verifiable documentation shall be signed, dated, and returned by the physician, physician assistant, or nurse practitioner and in the durable medical equipment provider's possession within 60 days from the time the ordered durable medical equipment and supplies are first furnished by the durable medical equipment provider;

15. A provision for payment of medical assistance to (i) persons age 50 and over and (ii) persons age 40 and over who are at high risk for prostate cancer, according to the most recent published guidelines of the American Cancer Society, for one PSA test in a 12-month period and digital rectal examinations, all in accordance with American Cancer Society guidelines. For the purpose of this subdivision, "PSA testing" means the analysis of a blood sample to determine the level of prostate specific antigen;

16. A provision for payment of medical assistance for low-dose screening mammograms for determining the presence of occult breast cancer. Such coverage shall make available one screening mammogram to persons age 35 through 39, one such mammogram biennially to persons age 40 through 49, and one such mammogram annually to persons age 50 and over. The term "mammogram" means an X-ray examination of the breast using equipment dedicated specifically for mammography, including but not limited to the X-ray tube, filter, compression device, screens, film and cassettes, with an average radiation exposure of less than one rad mid-breast, two views of each breast;

17. A provision, when in compliance with federal law and regulation and approved by the Centers for Medicare & Medicaid Services (CMS), for payment of medical assistance services delivered to Medicaid-eligible students when such services qualify for reimbursement by the Virginia Medicaid program and may be provided by school divisions, regardless of whether the student receiving care has an individualized education program or whether the health care service is included in a student's individualized education program. Such services shall include those covered under the state plan for medical assistance services or by the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) benefit as specified in § 1905(r) of the federal Social Security Act, and shall include a provision for payment of medical assistance for health care services provided through telemedicine services, as defined in § 38.2-3418.16. No health care provider who provides health care services through telemedicine shall be required to use proprietary technology or applications in order to be reimbursed for providing telemedicine services;

18. A provision for payment of medical assistance services for liver, heart and lung transplantation procedures for individuals over the age of 21 years when (i) there is no effective alternative medical or surgical therapy available with outcomes that are at least comparable; (ii) the transplant procedure and application of the procedure in treatment of the specific condition have been clearly demonstrated to be medically effective and not experimental or investigational; (iii) prior authorization by the Department of Medical Assistance Services has been obtained; (iv) the patient selection criteria of the specific transplant center where the surgery is proposed to be performed have been used by the transplant team or program to determine the appropriateness of the patient for the procedure; (v) current medical therapy has failed and the patient has failed to respond to appropriate therapeutic management; (vi) the patient is not in an irreversible terminal state; and (vii) the transplant is likely to prolong the patient's life and restore a range of physical and social functioning in the activities of daily living;

19. A provision for payment of medical assistance for colorectal cancer screening, specifically screening with an annual fecal occult blood test, flexible sigmoidoscopy or colonoscopy, or in appropriate circumstances radiologic imaging, in accordance with the most recently published recommendations established by the American College of Gastroenterology, in consultation with the American Cancer Society, for the ages, family histories, and frequencies referenced in such recommendations;

20. A provision for payment of medical assistance for custom ocular prostheses;

21. A provision for payment for medical assistance for infant hearing screenings and all necessary audiological examinations provided pursuant to § 32.1-64.1 using any technology approved by the United States Food and Drug Administration, and as recommended by the national Joint Committee on Infant Hearing in its most current position statement addressing early hearing detection and intervention programs. Such provision shall include payment for medical assistance for follow-up audiological examinations as recommended by a physician, physician assistant, nurse practitioner, or audiologist and performed by a licensed audiologist to confirm the existence or absence of hearing loss;

22. A provision for payment of medical assistance, pursuant to the Breast and Cervical Cancer Prevention and Treatment Act of 2000 (P.L. 106-354), for certain women with breast or cervical cancer when such women (i) have been screened for breast or cervical cancer under the Centers for Disease Control and Prevention (CDC) Breast and Cervical Cancer Early Detection Program established under Title XV of the Public Health Service Act; (ii) need treatment for breast or cervical cancer, including treatment for a precancerous condition of the breast or cervix; (iii) are not otherwise covered under creditable coverage, as defined in § 2701 (c) of the Public Health Service Act; (iv) are not otherwise eligible for medical assistance services under any mandatory categorically needy eligibility group; and (v) have not attained age 65. This provision shall include an expedited eligibility determination for such women;

A single application form shall be used to determine eligibility for both programs;

24. A provision, when authorized by and in compliance with federal law, to establish a public-private long-term care partnership program between the Commonwealth of Virginia and private insurance companies that shall be established through the filing of an amendment to the state plan for medical assistance services by the Department of Medical Assistance Services. The purpose of the program shall be to reduce Medicaid costs for long-term care by delaying or eliminating dependence on Medicaid for such services through encouraging the purchase of private long-term care insurance policies that have been designated as qualified state long-term care insurance partnerships and may be used as the

first source of benefits for the participant's long-term care. Components of the program, including the treatment of assets for Medicaid eligibility and estate recovery, shall be structured in accordance with federal law and applicable federal guidelines;

25. A provision for the payment of medical assistance for otherwise eligible pregnant women during the first five years of lawful residence in the United States, pursuant to § 214 of the Children's Health Insurance Program Reauthorization Act of 2009 (P.L. 111-3);

A provision for the payment of medical assistance for medically necessary health care services provided through telemedicine services, as defined in § 38.2-3418.16, regardless of the originating site or whether the patient is accompanied by a health care provider at the time such services are provided. No health care provider who provides health care services through telemedicine services shall be required to use proprietary technology or applications in order to be reimbursed for providing telemedicine services.

For the purposes of this subdivision, "originating site" means any location where the patient is located, including any medical care facility or office of a health care provider, the home of the patient, the patient's place of employment, or any public or private primary or secondary school or postsecondary institution of higher education at which the person to whom telemedicine services are provided is located;

27. A provision for the payment of medical assistance for the dispensing or furnishing of up to a 12-month supply of hormonal contraceptives at one time. Absent clinical contraindications, the Department shall not impose any utilization controls or other forms of medical management limiting the supply of hormonal contraceptives that may be dispensed or furnished to an amount less than a 12-month supply. Nothing in this subdivision shall be construed to (i) require a provider to prescribe, dispense, or furnish a 12-month supply of self-administered hormonal contraceptives at one time or (ii) exclude coverage for hormonal contraceptives as prescribed by a prescriber, acting within his scope of practice, for reasons other than contraceptive purposes. As used in this subdivision, "hormonal contraceptive" means a medication taken to prevent pregnancy by means of ingestion of hormones, including medications containing estrogen or progesterone, that is self-administered, requires a prescription, and is approved by the U.S. Food and Drug Administration for such purpose; and

28. A provision for payment of medical assistance for remote patient monitoring services provided via telemedicine, as defined in § 38.2-3418.16, for (i) high-risk pregnant persons; (ii) medically complex infants and children; (iii) transplant patients; (iv) patients who have undergone surgery, for up to three months following the date of such surgery; and (v) patients with a chronic health condition who have had two or more hospitalizations or emergency department visits related to such chronic health condition in the previous 12 months. For the purposes of this subdivision, "remote patient monitoring services" means the use of digital technologies to collect medical and other forms of health data from patients in one location and electronically transmit that information securely to health care providers in a different location for analysis, interpretation, and recommendations, and management of the patient. "Remote patient monitoring services" includes monitoring of clinical patient data such as weight, blood pressure, pulse, pulse oximetry, blood glucose, and other patient physiological data, treatment adherence monitoring, and interactive videoconferencing with or without digital image upload.

B. In preparing the plan, the Board shall:

1. Work cooperatively with the State Board of Health to ensure that quality patient care is provided and that the health, safety, security, rights and welfare of patients are ensured.

2. Initiate such cost containment or other measures as are set forth in the appropriation act.

3. Make, adopt, promulgate and enforce such regulations as may be necessary to carry out the provisions of this chapter.

4. Examine, before acting on a regulation to be published in the Virginia Register of Regulations pursuant to § 2.2-4007.05, the potential fiscal impact of such regulation on local boards of social services. For regulations with potential fiscal impact, the Board shall share copies of the fiscal impact analysis with local boards of social services prior to submission to the Registrar. The fiscal impact analysis shall include the projected costs/savings to the local boards of social services to implement or comply with such regulation and, where applicable, sources of potential funds to implement or comply with such regulation.

5. Incorporate sanctions and remedies for certified nursing facilities established by state law, in accordance with 42 C.F.R. § 488.400 et seq. "Enforcement of Compliance for Long-Term Care Facilities With Deficiencies."

On and after July 1, 2002, require that a prescription benefit card, health insurance benefit card, or other technology that complies with the requirements set forth in § 38.2-3407.4:2 be issued to each recipient of medical assistance services, and shall upon any changes in the required data elements set forth in subsection A of § 38.2-3407.4:2, either reissue the card or provide recipients such corrective information as may be required to electronically process a prescription claim.

C. In order to enable the Commonwealth to continue to receive federal grants or reimbursement for medical assistance or related services, the Board, subject to the approval of the Governor, may adopt, regardless of any other provision of this chapter, such amendments to the state plan for medical assistance services as may be necessary to conform such plan with amendments to the United States Social Security Act or other relevant federal law and their implementing regulations or constructions of these laws and regulations by courts of competent jurisdiction or the United States Secretary of Health and Human Services.

In the event conforming amendments to the state plan for medical assistance services are adopted, the Board shall not be required to comply with the requirements of Article 2 (§ 2.2-4006 et seq.) of Chapter 40 of Title 2.2. However, the Board

shall, pursuant to the requirements of § 2.2-4002, (i) notify the Registrar of Regulations that such amendment is necessary to meet the requirements of federal law or regulations or because of the order of any state or federal court, or (ii) certify to the Governor that the regulations are necessitated by an emergency situation. Any such amendments that are in conflict with the Code of Virginia shall only remain in effect until July 1 following adjournment of the next regular session of the General Assembly unless enacted into law.

D. The Director of Medical Assistance Services is authorized to:

1. Administer such state plan and receive and expend federal funds therefor in accordance with applicable federal and state laws and regulations; and enter into all contracts necessary or incidental to the performance of the Department's duties and the execution of its powers as provided by law.

2. Enter into agreements and contracts with medical care facilities, physicians, dentists and other health care providers where necessary to carry out the provisions of such state plan. Any such agreement or contract shall terminate upon conviction of the provider of a felony. In the event such conviction is reversed upon appeal, the provider may apply to the Director of Medical Assistance Services for a new agreement or contract. Such provider may also apply to the Director for reconsideration of the agreement or contract termination if the conviction is not appealed, or if it is not reversed upon appeal.

3. Refuse to enter into or renew an agreement or contract, or elect to terminate an existing agreement or contract, with any provider who has been convicted of or otherwise pled guilty to a felony, or pursuant to Subparts A, B, and C of 42 C.F.R. Part 1002, and upon notice of such action to the provider as required by 42 C.F.R. § 1002.212.

4. Refuse to enter into or renew an agreement or contract, or elect to terminate an existing agreement or contract, with a provider who is or has been a principal in a professional or other corporation when such corporation has been convicted of or otherwise pled guilty to any violation of § 32.1-314, 32.1-315, 32.1-316, or 32.1-317, or any other felony or has been excluded from participation in any federal program pursuant to 42 C.F.R. Part 1002.

5. Terminate or suspend a provider agreement with a home care organization pursuant to subsection E of § 32.1-162.13.

For the purposes of this subsection, "provider" may refer to an individual or an entity.

E. In any case in which a Medicaid agreement or contract is terminated or denied to a provider pursuant to subsection D, the provider shall be entitled to appeal the decision pursuant to 42 C.F.R. § 1002.213 and to a post-determination or post-denial hearing in accordance with the Administrative Process Act (§ 2.2-4000 et seq.). All such requests shall be in writing and be received within 15 days of the date of receipt of the notice.

The Director may consider aggravating and mitigating factors including the nature and extent of any adverse impact the agreement or contract denial or termination may have on the medical care provided to Virginia Medicaid recipients. In cases in which an agreement or contract is terminated pursuant to subsection D, the Director may determine the period of exclusion and may consider aggravating and mitigating factors to lengthen or shorten the period of exclusion, and may reinstate the provider pursuant to 42 C.F.R. § 1002.215.

F. When the services provided for by such plan are services which a marriage and family therapist, clinical psychologist, clinical social worker, professional counselor, or clinical nurse specialist is licensed to render in Virginia, the Director shall contract with any duly licensed marriage and family therapist, duly licensed clinical psychologist, licensed clinical social worker, licensed professional counselor or licensed clinical nurse specialist who makes application to be a provider of such services, and thereafter shall pay for covered services as provided in the state plan. The Board shall promulgate regulations which reimburse licensed marriage and family therapists, licensed clinical psychologists, licensed clinical social workers, licensed professional counselors and licensed clinical nurse specialists at rates based upon reasonable criteria, including the professional credentials required for licensure.

G. The Board shall prepare and submit to the Secretary of the United States Department of Health and Human Services such amendments to the state plan for medical assistance services as may be permitted by federal law to establish a program of family assistance whereby children over the age of 18 years shall make reasonable contributions, as determined by regulations of the Board, toward the cost of providing medical assistance under the plan to their parents.

H. The Department of Medical Assistance Services shall:

1. Include in its provider networks and all of its health maintenance organization contracts a provision for the payment of medical assistance on behalf of individuals up to the age of 21 who have special needs and who are Medicaid eligible, including individuals who have been victims of child abuse and neglect, for medically necessary assessment and treatment services, when such services are delivered by a provider which specializes solely in the diagnosis and treatment of child abuse and neglect, or a provider with comparable expertise, as determined by the Director.

2. Amend the Medallion II waiver and its implementing regulations to develop and implement an exception, with procedural requirements, to mandatory enrollment for certain children between birth and age three certified by the Department of Behavioral Health and Developmental Services as eligible for services pursuant to Part C of the Individuals with Disabilities Education Act (20 U.S.C. § 1471 et seq.).

3. Utilize, to the extent practicable, electronic funds transfer technology for reimbursement to contractors and enrolled providers for the provision of health care services under Medicaid and the Family Access to Medical Insurance Security Plan established under § 32.1-351.

4. Require any managed care organization with which the Department enters into an agreement for the provision of medical assistance services to include in any contract between the managed care organization and a pharmacy benefits

manager provisions prohibiting the pharmacy benefits manager or a representative of the pharmacy benefits manager from conducting spread pricing with regards to the managed care organization's managed care plans. For the purposes of this subdivision:

"Pharmacy benefits management" means the administration or management of prescription drug benefits provided by a managed care organization for the benefit of covered individuals.

"Pharmacy benefits manager" means a person that performs pharmacy benefits management.

"Spread pricing" means the model of prescription drug pricing in which the pharmacy benefits manager charges a managed care plan a contracted price for prescription drugs, and the contracted price for the prescription drugs differs from the amount the pharmacy benefits manager directly or indirectly pays the pharmacist or pharmacy for pharmacist services.

I. The Director is authorized to negotiate and enter into agreements for services rendered to eligible recipients with special needs. The Board shall promulgate regulations regarding these special needs patients, to include persons with AIDS, ventilator-dependent patients, and other recipients with special needs as defined by the Board.

J. Except as provided in subdivision A 1 of § 2.2-4345, the provisions of the Virginia Public Procurement Act (§ 2.2-4300 et seq.) shall not apply to the activities of the Director authorized by subsection I of this section. Agreements made pursuant to this subsection shall comply with federal law and regulation.

K. When the services provided for by such plan are services related to initiation of treatment with or dispensing or administration of a vaccination by a pharmacist, pharmacy technician, or pharmacy intern in accordance with § 54.1-3303.1, the Department shall provide reimbursement for such service.

§ 54.1-3303.1. Initiating of treatment with and dispensing and administering of controlled substances by pharmacists.

A. Notwithstanding the provisions of § 54.1-3303, a pharmacist may initiate treatment with, dispense, or administer the following drugs, devices, controlled paraphernalia, and other supplies and equipment to persons 18 years of age or older *with whom the pharmacist has a bona fide pharmacist-patient relationship and* in accordance with a statewide protocol developed by the Board in collaboration with the Board of Medicine and the Department of Health and set forth in regulations of the Board:

Be it enacted by the General Assembly of Virginia:

1. That §§ 32.1-325, 54.1-3303.1, and 54.1-3321 of the Code of Virginia are amended and reenacted as follows:

§ 32.1-325. Board to submit plan for medical assistance services to U.S. Secretary of Health and Human Services pursuant to federal law; administration of plan; contracts with health care providers.

A. The Board, subject to the approval of the Governor, is authorized to prepare, amend from time to time, and submit to the U.S. Secretary of Health and Human Services a state plan for medical assistance services pursuant to Title XIX of the United States Social Security Act and any amendments thereto. The Board shall include in such plan:

1. A provision for payment of medical assistance on behalf of individuals, up to the age of 21, placed in foster homes or private institutions by private, nonprofit agencies licensed as child-placing agencies by the Department of Social Services or placed through state and local subsidized adoptions to the extent permitted under federal statute;

2. A provision for determining eligibility for benefits for medically needy individuals which disregards from countable resources an amount not in excess of \$3,500 for the individual and an amount not in excess of \$3,500 for his spouse when such resources have been set aside to meet the burial expenses of the individual or his spouse. The amount disregarded shall be reduced by (i) the face value of life insurance on the life of an individual owned by the individual or his spouse if the cash surrender value of such policies has been excluded from countable resources and (ii) the amount of any other revocable or irrevocable trust, contract, or other arrangement specifically designated for the purpose of meeting the individual's or his spouse's burial expenses;

3. A requirement that, in determining eligibility, a home shall be disregarded. For those medically needy persons whose eligibility for medical assistance is required by federal law to be dependent on the budget methodology for Aid to Families with Dependent Children, a home means the house and lot used as the principal residence and all contiguous property. For all other persons, a home shall mean the house and lot used as the principal residence, as well as all contiguous property, as long as the value of the land, exclusive of the lot occupied by the house, does not exceed \$5,000. In any case in which the definition of home as provided here is more restrictive than that provided in the state plan for medical assistance services in Virginia as it was in effect on January 1, 1972, then a home means the house and lot used as the principal residence and all contiguous property essential to the operation of the home regardless of value;

4. A provision for payment of medical assistance on behalf of individuals up to the age of 21, who are Medicaid eligible, for medically necessary stays in acute care facilities in excess of 21 days per admission;

5. A provision for deducting from an institutionalized recipient's income an amount for the maintenance of the individual's spouse at home;

6. A provision for payment of medical assistance on behalf of pregnant women which provides for payment for inpatient postpartum treatment in accordance with the medical criteria outlined in the most current version of or an official update to the "Guidelines for Perinatal Care" prepared by the American Academy of Pediatrics and the American College of Obstetricians and Gynecologists or the "Standards for Obstetric-Gynecologic Services" prepared by the American College of Obstetricians and Gynecologists. Payment shall be made for any postpartum home visit or visits for the mothers and the children which are within the time periods recommended by the attending physicians in accordance with and as indicated by such Guidelines or Standards. For the purposes of this subdivision, such Guidelines or Standards shall include any changes thereto within six months of the publication of such Guidelines or Standards or any official amendment thereto;

7. A provision for the payment for family planning services on behalf of women who were Medicaid-eligible for prenatal care and delivery as provided in this section at the time of delivery. Such family planning services shall begin with delivery and continue for a period of 24 months, if the woman continues to meet the financial eligibility requirements for a pregnant woman under Medicaid. For the purposes of this section, family planning services shall not cover payment for abortion services and no funds shall be used to perform, assist, encourage or make direct referrals for abortions;

8. A provision for payment of medical assistance for high-dose chemotherapy and bone marrow transplants on behalf of individuals over the age of 21 who have been diagnosed with lymphoma, breast cancer, myeloma, or leukemia and have been determined by the treating health care provider to have a performance status sufficient to proceed with such high-dose chemotherapy and bone marrow transplant. Appeals of these cases shall be handled in accordance with the Department's expedited appeals process;

9. A provision identifying entities approved by the Board to receive applications and to determine eligibility for medical assistance, which shall include a requirement that such entities (i) obtain accurate contact information, including the best available address and telephone number, from each applicant for medical assistance, to the extent required by federal law and regulations, and (ii) provide each applicant for medical assistance with information about advance directives pursuant to Article 8 (§ 54.1-2981 et seq.) of Chapter 29 of Title 54.1, including information about the purpose and benefits of advance directives and how the applicant may make an advance directive;

10. A provision for breast reconstructive surgery following the medically necessary removal of a breast for any medical reason. Breast reductions shall be covered, if prior authorization has been obtained, for all medically necessary indications. Such procedures shall be considered noncosmetic;

11. A provision for payment of medical assistance for annual pap smears;

12. A provision for payment of medical assistance services for prostheses following the medically necessary complete or partial removal of a breast for any medical reason;

13. A provision for payment of medical assistance which provides for payment for 48 hours of inpatient treatment for a patient following a radical or modified radical mastectomy and 24 hours of inpatient care following a total mastectomy or a partial mastectomy with lymph node dissection for treatment of disease or trauma of the breast. Nothing in this subdivision shall be construed as requiring the provision of inpatient coverage where the attending physician in consultation with the patient determines that a shorter period of hospital stay is appropriate;

14. A requirement that certificates of medical necessity for durable medical equipment and any supporting verifiable documentation shall be signed, dated, and returned by the physician, physician assistant, or nurse practitioner and in the durable medical equipment provider's possession within 60 days from the time the ordered durable medical equipment and supplies are first furnished by the durable medical equipment provider;

15. A provision for payment of medical assistance to (i) persons age 50 and over and (ii) persons age 40 and over who are at high risk for prostate cancer, according to the most recent published guidelines of the American Cancer Society, for one PSA test in a 12-month period and digital rectal examinations, all in accordance with American Cancer Society guidelines. The term "mammogram" means an X-ray examination of the breast using equipment dedicated specifically for mammography, including but not limited to the X-ray tube, filter, compression device, screens, film and cassettes, with an average radiation exposure of less than one rad mid-breast, two views of each breast;

17. A provision, when in compliance with federal law and regulation and approved by the Centers for Medicare & Medicaid Services (CMS), for payment of medical assistance services delivered to Medicaid-eligible students when such services qualify for reimbursement by the Virginia Medicaid program and may be provided by school divisions, regardless of whether the student receiving care has an individualized education program or whether the health care service is included in a student's individualized education program. Such services shall include those covered under the state plan for medical assistance services or by the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) benefit as specified in § 1905(r) of the federal Social Security Act, and shall include a provision for payment of medical assistance for health care services provided through telemedicine services, as defined in § 38.2-3418.16. No health care provider who provides health care services through telemedicine shall be required to use proprietary technology or applications in order to be reimbursed for providing telemedicine services;

18. A provision for payment of medical assistance services for liver, heart and lung transplantation procedures for individuals over the age of 21 years when (i) there is no effective alternative medical or surgical therapy available with outcomes that are at least comparable; (ii) the transplant procedure and application of the procedure in treatment of the specific condition have been clearly demonstrated to be medically effective and not experimental or investigational; (iii) prior authorization by the Department of Medical Assistance Services has been obtained; (iv) the patient selection criteria of the specific transplant center where the surgery is proposed to be performed have been used by the transplant team or program to determine the appropriateness of the patient for the procedure; (v) current medical therapy has failed and the patient has failed to respond to appropriate therapeutic management; (vi) the patient is not in an irreversible terminal

state; and (vii) the transplant is likely to prolong the patient's life and restore a range of physical and social functioning in the activities of daily living;

19. A provision for payment of medical assistance for colorectal cancer screening, specifically screening with an annual fecal occult blood test, flexible sigmoidoscopy or colonoscopy, or in appropriate circumstances radiologic imaging, in accordance with the most recently published recommendations established by the American College of Gastroenterology, in consultation with the American Cancer Society, for the ages, family histories, and frequencies referenced in such recommendations;

20. A provision for payment of medical assistance for custom ocular prostheses;

21. A provision for payment for medical assistance for infant hearing screenings and all necessary audiological examinations provided pursuant to § 32.1-64.1 using any technology approved by the United States Food and Drug Administration, and as recommended by the national Joint Committee on Infant Hearing in its most current position statement addressing early hearing detection and intervention programs. Such provision shall include payment for medical assistance for follow-up audiological examinations as recommended by a physician, physician assistant, nurse practitioner, or audiologist and performed by a licensed audiologist to confirm the existence or absence of hearing loss;

22. A provision for payment of medical assistance, pursuant to the Breast and Cervical Cancer Prevention and Treatment Act of 2000 (P.L. 106-354), for certain women with breast or cervical cancer when such women (i) have been screened for breast or cervical cancer under the Centers for Disease Control and Prevention (CDC) Breast and Cervical Cancer Early Detection Program established under Title XV of the Public Health Service Act; (ii) need treatment for breast or cervical cancer, including treatment for a precancerous condition of the breast or cervix; (iii) are not otherwise covered under creditable coverage, as defined in § 2701 (c) of the Public Health Service Act; (iv) are not otherwise eligible for medical assistance services under any mandatory categorically needy eligibility group; and (v) have not attained age 65. A provision, when authorized by and in compliance with federal law, to establish a public-private long-term care partnership program between the Commonwealth of Virginia and private insurance companies that shall be established through the filing of an amendment to the state plan for medical assistance services by the Department of Medical Assistance Services. The purpose of the program shall be to reduce Medicaid costs for long-term care by delaying or eliminating dependence on Medicaid for such services through encouraging the purchase of private long-term care insurance policies that have been designated as qualified state long-term care insurance partnerships and may be used as the first source of benefits for the participant's long-term care. Components of the program, including the treatment of assets for Medicaid eligibility and estate recovery, shall be structured in accordance with federal law and applicable federal guidelines;

25. A provision for the payment of medical assistance for otherwise eligible pregnant women during the first five years of lawful residence in the United States, pursuant to § 214 of the Children's Health Insurance Program Reauthorization Act of 2009 (P.L. 111-3);

No health care provider who provides health care services through telemedicine services shall be required to use proprietary technology or applications in order to be reimbursed for providing telemedicine services.

For the purposes of this subdivision, "originating site" means any location where the patient is located, including any medical care facility or office of a health care provider, the home of the patient, the patient's place of employment, or any public or private primary or secondary school or postsecondary institution of higher education at which the person to whom telemedicine services are provided is located;

Absent clinical contraindications, the Department shall not impose any utilization controls or other forms of medical management limiting the supply of hormonal contraceptives that may be dispensed or furnished to an amount less than a 12-month supply. Nothing in this subdivision shall be construed to (i) require a provider to prescribe, dispense, or furnish a 12-month supply of self-administered hormonal contraceptives at one time or (ii) exclude coverage for hormonal contraceptives as prescribed by a prescriber, acting within his scope of practice, for reasons other than contraceptive purposes. As used in this subdivision, "hormonal contraceptive" means a medication taken to prevent pregnancy by means of ingestion of hormones, including medications containing estrogen or progesterone, that is self-administered, requires a prescription, and is approved by the U.S. Food and Drug Administration for such purpose; and

"Remote patient monitoring services" includes monitoring of clinical patient data such as weight, blood pressure, pulse, pulse oximetry, blood glucose, and other patient physiological data, treatment adherence monitoring, and interactive videoconferencing with or without digital image upload.

B. In preparing the plan, the Board shall:

2. Initiate such cost containment or other measures as are set forth in the appropriation act.
3. Make, adopt, promulgate and enforce such regulations as may be necessary to carry out the provisions of this chapter.
4. Examine, before acting on a regulation to be published in the Virginia Register of Regulations pursuant to § 2.2-4007.05, the potential fiscal impact of such regulation on local boards of social services. For regulations with potential fiscal impact, the Board shall share copies of the fiscal impact analysis with local boards of social services prior to submission to the Registrar. The fiscal impact analysis shall include the projected costs/savings to the local boards of social services to implement or comply with such regulation and, where applicable, sources of potential funds to implement or comply with such regulation.

5. Incorporate sanctions and remedies for certified nursing facilities established by state law, in accordance with 42 C.F.R. § 488.400 et seq. "Enforcement of Compliance for Long-Term Care Facilities With Deficiencies."

C. In order to enable the Commonwealth to continue to receive federal grants or reimbursement for medical assistance or related services, the Board, subject to the approval of the Governor, may adopt, regardless of any other provision of this chapter, such amendments to the state plan for medical assistance services as may be necessary to conform such plan with amendments to the United States Social Security Act or other relevant federal law and their implementing regulations or constructions of these laws and regulations by courts of competent jurisdiction or the United States Secretary of Health and Human Services.

In the event conforming amendments to the state plan for medical assistance services are adopted, the Board shall not be required to comply with the requirements of Article 2 (§ 2.2-4006 et seq.) of Chapter 40 of Title 2.2. However, the Board shall, pursuant to the requirements of § 2.2-4002, (i) notify the Registrar of Regulations that such amendment is necessary to meet the requirements of federal law or regulations or because of the order of any state or federal court, or (ii) certify to the Governor that the regulations are necessitated by an emergency situation. Any such amendments that are in conflict with the Code of Virginia shall only remain in effect until July 1 following adjournment of the next regular session of the General Assembly unless enacted into law.

D. The Director of Medical Assistance Services is authorized to:

1. Administer such state plan and receive and expend federal funds therefor in accordance with applicable federal and state laws and regulations; and enter into all contracts necessary or incidental to the performance of the Department's duties and the execution of its powers as provided by law.

2. Enter into agreements and contracts with medical care facilities, physicians, dentists and other health care providers where necessary to carry out the provisions of such state plan. Any such agreement or contract shall terminate upon conviction of the provider of a felony. In the event such conviction is reversed upon appeal, the provider may apply to the Director of Medical Assistance Services for a new agreement or contract. Such provider may also apply to the Director for reconsideration of the agreement or contract termination if the conviction is not appealed, or if it is not reversed upon appeal.

3. Refuse to enter into or renew an agreement or contract, or elect to terminate an existing agreement or contract, with any provider who has been convicted of or otherwise pled guilty to a felony, or pursuant to Subparts A, B, and C of 42 C.F.R. Part 1002, and upon notice of such action to the provider as required by 42 C.F.R. § 1002.212.

4. Refuse to enter into or renew an agreement or contract, or elect to terminate an existing agreement or contract, with a provider who is or has been a principal in a professional or other corporation when such corporation has been convicted of or otherwise pled guilty to any violation of § 32.1-314, 32.1-315, 32.1-316, or 32.1-317, or any other felony or has been excluded from participation in any federal program pursuant to 42 C.F.R. Part 1002.

5. Terminate or suspend a provider agreement with a home care organization pursuant to subsection E of § 32.1-162.13.

For the purposes of this subsection, "provider" may refer to an individual or an entity.

E. All such requests shall be in writing and be received within 15 days of the date of receipt of the notice.

The Director may consider aggravating and mitigating factors including the nature and extent of any adverse impact the agreement or contract denial or termination may have on the medical care provided to Virginia Medicaid recipients. In cases in which an agreement or contract is terminated pursuant to subsection D, the Director may determine the period of exclusion and may consider aggravating and mitigating factors to lengthen or shorten the period of exclusion, and may reinstate the provider pursuant to 42 C.F.R. § 1002.215.

F. When the services provided for by such plan are services which a marriage and family therapist, clinical psychologist, clinical social worker, professional counselor, or clinical nurse specialist is licensed to render in Virginia, the Director shall contract with any duly licensed marriage and family therapist, duly licensed clinical psychologist, licensed clinical social worker, licensed professional counselor or licensed clinical nurse specialist who makes application to be a provider of such services, and thereafter shall pay for covered services as provided in the state plan. The Board shall promulgate regulations which reimburse licensed marriage and family therapists, licensed clinical psychologists, licensed clinical social workers, licensed professional counselors and licensed clinical nurse specialists at rates based upon reasonable criteria, including the professional credentials required for licensure.

G. The Board shall prepare and submit to the Secretary of the United States Department of Health and Human Services such amendments to the state plan for medical assistance services as may be permitted by federal law to establish a program of family assistance whereby children over the age of 18 years shall make reasonable contributions, as determined by regulations of the Board, toward the cost of providing medical assistance under the plan to their parents.

H. The Department of Medical Assistance Services shall:

1. Include in its provider networks and all of its health maintenance organization contracts a provision for the payment of medical assistance on behalf of individuals up to the age of 21 who have special needs and who are Medicaid eligible, including individuals who have been victims of child abuse and neglect, for medically necessary assessment and treatment services, when such services are delivered by a provider which specializes solely in the diagnosis and treatment of child abuse and neglect, or a provider with comparable expertise, as determined by the Director.

2. Amend the Medallion II waiver and its implementing regulations to develop and implement an exception, with procedural requirements, to mandatory enrollment for certain children between birth and age three certified by the Department of Behavioral Health and Developmental Services as eligible for services pursuant to Part C of the Individuals with Disabilities Education Act (20 U.S.C. § 1471 et seq.).

3. Utilize, to the extent practicable, electronic funds transfer technology for reimbursement to contractors and enrolled providers for the provision of health care services under Medicaid and the Family Access to Medical Insurance Security Plan established under § 32.1-351.

Require any managed care organization with which the Department enters into an agreement for the provision of medical assistance services to include in any contract between the managed care organization and a pharmacy benefits manager provisions prohibiting the pharmacy benefits manager or a representative of the pharmacy benefits manager from conducting spread pricing with regards to the managed care organization's managed care plans. For the purposes of this subdivision:

"Pharmacy benefits management" means the administration or management of prescription drug benefits provided by a managed care organization for the benefit of covered individuals.

"Pharmacy benefits manager" means a person that performs pharmacy benefits management.

"Spread pricing" means the model of prescription drug pricing in which the pharmacy benefits manager charges a managed care plan a contracted price for prescription drugs, and the contracted price for the prescription drugs differs from the amount the pharmacy benefits manager directly or indirectly pays the pharmacist or pharmacy for pharmacist services.

I. The Director is authorized to negotiate and enter into agreements for services rendered to eligible recipients with special needs. The Board shall promulgate regulations regarding these special needs patients, to include persons with AIDS, ventilator-dependent patients, and other recipients with special needs as defined by the Board.

J. Except as provided in subdivision A 1 of § 2.2-4345, the provisions of the Virginia Public Procurement Act (§ 2.2-4300 et seq.) shall not apply to the activities of the Director authorized by subsection I of this section. Agreements made pursuant to this subsection shall comply with federal law and regulation.

K. CHAPTER 792

An Act to amend and reenact § 55.1-2902 of the Code of Virginia, relating to public auction of personal property to satisfy lien; advertisement requirement; website.

[S 199]

Approved May 27, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 55.1-2902 of the Code of Virginia is amended and reenacted as follows:

§ 55.1-2902. Enforcement of lien.

A. 1. If any occupant is in default under a rental agreement, the owner shall notify the occupant of such default by regular mail at his last known address, or, if expressly provided for in the rental agreement, such notice may be given by

electronic means. If such default is not cured within 10 days after its occurrence, then the owner may proceed to enforce such lien by selling the contents of the occupant's unit at public auction, for cash, and apply the proceeds to satisfaction of the lien, with the surplus, if any, to be disbursed as provided in this section. Before conducting such a public auction, the owner shall notify the occupant as prescribed in subsection C ~~and shall advertise the time, place, and terms of such auction in such manner as to give the public notice.~~ *The rental agreement may provide the occupant with the option to designate an alternative contact to receive the notices required by this section. Failure or refusal of an occupant to designate an alternative contact shall not affect the rights or remedies afforded to an occupant or owner pursuant to the provisions of this section or any other provision of law. No alternative contact shall have any right to access the leased space or any personal property stored within unless expressly stated otherwise in the rental agreement.*

2. In the case of personal property having a fair market value in excess of \$1,000, and against which a creditor has filed a financing statement in the name of the occupant at the State Corporation Commission or in the county or city where the self-service storage facility is located or in the county or city in the Commonwealth shown as the last known address of the occupant, or if such personal property is a watercraft required by the laws of the Commonwealth to be registered and the Department of Wildlife Resources shows a lien on the certificate of title, the owner shall notify the lienholder of record, by certified mail, at the address on the financing statement or certificate of title, at least 10 days prior to the time and place of the proposed public auction.

If the owner of the personal property cannot be ascertained, the name of "John Doe" shall be substituted in the proceedings provided for in this section and no written notice shall be required. Whenever a watercraft is sold pursuant to this subsection, the Department of Wildlife Resources shall issue a certificate of title and registration to the purchaser of such watercraft upon his application containing the serial or motor number of the watercraft purchased, together with an affidavit by the lienholder, or by the person conducting the public auction, evidencing compliance with the provisions of this subsection.

B. Whenever the occupant is in default, the owner shall have the right to deny the occupant access to the leased space.

C. After the occupant has been in default for a period of 10 days, and before the owner can sell the occupant's personal property in accordance with this chapter, the owner shall send a further notice of default, by verified mail, postage prepaid, to the occupant at his last known address, or, if expressly provided for in the rental agreement, such notice may be given by electronic means, provided that the sender retains sufficient proof of the electronic delivery, which may be an electronic receipt of delivery, a confirmation that the notice was sent by facsimile, or a certificate of service prepared by the sender confirming the electronic delivery. Such notice of default shall include:

1. An itemized statement of the owner's claim, indicating the charges due on the date of the notice and the date when the charges became due;

2. A demand for payment of the charges due within a specified time not less than 20 days after the date of the notice;

3. A statement that the contents of the occupant's leased space are subject to the owner's lien;

4. A conspicuous statement that unless the claim is paid within the time stated, the contents of the occupant's space will be sold at public auction at a specified time and place; and

5. The name, street address, and telephone number of the owner or his designated agent whom the occupant may contact to respond to the notice.

D. At any time prior to the public auction pursuant to this section, the occupant may pay the amount necessary to satisfy the lien and thereby redeem the personal property.

E. In the event of a public auction pursuant to this section, the owner may satisfy his lien from the proceeds of the public auction and shall hold the balance, if any, for delivery on demand to the occupant or other lienholder referred to in this chapter. However, the owner shall not be obligated to hold any balance for a lienholder of record notified pursuant to subdivision A 2, or any other lien creditor, that fails to claim an interest in the balance within 30 days of the public auction. So long as the owner complies with the provisions of this chapter, the owner's liability to the occupant under this chapter shall be limited to the net proceeds received from the public auction of any personal property and, as to other lienholders, shall be limited to the net proceeds received from the public auction of any personal property covered by such superior lien.

F. Any public auction of the personal property shall be held (i) at the self-service storage facility, (ii) at the nearest suitable place to where the personal property is held or stored, or (iii) online. ~~An advertisement shall be published in a newspaper of general circulation in the locality in which the public auction is to be held, or in the case of an online public auction, in the county, city, or town in which the self-service storage facility is located, at least once prior to the public auction. The advertisement shall state (a) the fact that it is a public auction; (b) the date, time, and location of the public auction; and (c) the form of payment that will be accepted.~~

G. A purchaser in good faith of any personal property sold or otherwise disposed of pursuant to this chapter takes such property free and clear of any rights of persons against whom the lien was valid.

H. Any notice made pursuant to this section shall be presumed delivered when it is (i) deposited with the United States Postal Service and properly addressed to the occupant's last known address with postage prepaid or (ii) sent by electronic means, provided that the sender retains sufficient proof of the electronic delivery, which may be an electronic receipt of delivery, a confirmation that the notice was sent by facsimile, or a certificate of service prepared by the sender confirming the electronic delivery. In the event of a dispute, the sender shall have the burden to demonstrate delivery of the notice of default.

I. In the case of any motor vehicle, so long as the motor vehicle remains stored within such leased space, the owner shall have a lien on such vehicle in accordance with § 46.2-644.01.

No disclosures shall be made pursuant to this section in violation of the confidentiality provisions of subsection A of § 16.1-300 or the record retention and redisclosure provisions of § 22.1-288.2. Further, any school superintendent who receives notification that a juvenile has committed an act that would be a crime if committed by an adult pursuant to subsection G of § 16.1-260 shall report such information to the principal of the school in which the juvenile is enrolled.

~~C. D.~~ The principal or his designee shall submit a report of all incidents required to be reported pursuant to this section to the superintendent of the school division. In submitting reports of such incidents, principals and division superintendents shall accurately indicate any offenses, arrests, or charges as recorded by law-enforcement authorities and required to be reported by such authorities pursuant to subsection ~~B~~ C.

A division superintendent who knowingly fails to comply or secure compliance with the reporting requirements of this subsection shall be subject to the sanctions authorized in § 22.1-65. A principal who knowingly fails to comply or secure compliance with the reporting requirements of this section shall be subject to sanctions prescribed by the local school board, which may include, but need not be limited to, demotion or dismissal.

The principal or his designee shall also notify the parent of any student involved in an incident required pursuant to this section to be reported, regardless of whether disciplinary action is taken against such student or the nature of the disciplinary action. Such notice shall relate to only the relevant student's involvement and shall not include information concerning other students.

Whenever any student commits any reportable incident as set forth in this section, such student shall be required to participate in such prevention and intervention activities as deemed appropriate by the superintendent or his designee. Prevention and intervention activities shall be identified in the local school division's drug and violence prevention plans developed pursuant to the federal Improving America's Schools Act of 1994 (Title IV — Safe and Drug-Free Schools and Communities Act).

~~D. Except as may otherwise be required by federal law, regulation, or jurisprudence, the principal shall immediately report to the local law-enforcement agency any act enumerated in clauses (ii) through (vii) of subsection A that may constitute a felony offense and may report to the local law-enforcement agency any incident described in subsection A. Nothing in this section shall require delinquency charges to be filed or prevent schools from dealing with school-based offenses through graduated sanctions or educational programming before a delinquency charge is filed with the juvenile court.~~

~~Further, except as may be prohibited by federal law, regulation, or jurisprudence, the principal shall also immediately report any act enumerated in clauses (ii) through (v) of subsection A that may constitute a criminal offense to the parents of any minor student who is the specific object of such act. Further, the principal shall report whether the incident has been reported to local law enforcement pursuant to this subsection and, if the incident is so reported, that the parents may contact local law enforcement for further information, if they so desire.~~

E. A statement providing a procedure and the purpose for the requirements of this section shall be included in school board policies required by § 22.1-253.13:7.

The Board of Education shall promulgate regulations to implement this section, including, but not limited to, establishing reporting dates and report formats.

F. For the purposes of this section, "parent" or "parents" means any parent, guardian or other person having control or charge of a child.

G. This section shall not be construed to diminish the authority of the Board of Education or to diminish the Governor's authority to coordinate and provide policy direction on official communications between the Commonwealth and the United States government.

H. Nothing in this section shall require delinquency charges to be filed or prevent schools from dealing with school-based offenses through graduated sanctions or educational programming before a delinquency charge is filed with the juvenile court.

§ 22.1-279.3:3. Alternative school discipline process for certain incidents.

A. A school board may establish an alternative school discipline process to provide the parties involved in an incident ~~described in clause (i) of subsection A of § 22.1-279.3-1 of assault or assault and battery, without bodily injury, of any person on a school bus, on school property, or at a school-sponsored activity~~ the option to enter into a mutually agreed-upon process between the involved parties. Such process shall be designed to hold the student accountable for a noncriminal offense through a mutually agreed-upon standard.

B. If provided for in the process established by the school board, no principal shall report ~~pursuant to subsection D of § 22.1-279.3-1 to the local law-enforcement agency~~ a party who successfully completes the alternative school discipline process. If the parties fail to agree to participate in the process or fail to successfully complete the alternative school discipline process, then the principal may report the incident to the local law-enforcement agency ~~pursuant to subsection D of § 22.1-279.3-1.~~

CHAPTER 796

An Act to amend and reenact §§ 46.2-342, 46.2-345, 46.2-345.2, and 46.2-345.3 of the Code of Virginia, relating to Department of Motor Vehicles documents; blood type.

[S 345]

Approved May 27, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 46.2-342, 46.2-345, 46.2-345.2, and 46.2-345.3 of the Code of Virginia are amended and reenacted as follows:

§ 46.2-342. What license to contain; organ donor information; Uniform Donor Document.

A. Every license issued under this chapter shall bear:

1. For licenses issued or renewed on or after July 1, 2003, a license number which shall be assigned by the Department to the licensee and shall not be the same as the licensee's social security number;

2. A photograph of the licensee;

3. The licensee's full name, year, month, and date of birth;

4. The licensee's address, subject to the provisions of subsection B;

5. A brief description of the licensee for the purpose of identification;
 6. A space for the signature of the licensee; and
 7. Any other information deemed necessary by the Commissioner for the administration of this title.
- No abbreviated names or nicknames shall be shown on any license.

B. At the option of the licensee, the address shown on the license may be either the post office box, business, or residence address of the licensee, provided such address is located in Virginia. However, regardless of which address is shown on the license, the licensee shall supply the Department with his residence address, which shall be an address in Virginia. This residence address shall be maintained in the Department's records. Whenever the licensee's address shown either on his license or in the Department's records changes, he shall notify the Department of such change as required by § 46.2-324.

C. The Department may contract with the United States Postal Service or an authorized agent to use the National Change of Address System for the purpose of obtaining current address information for a person whose name appears in customer records maintained by the Department. If the Department receives information from the National Change of Address System indicating that a person whose name appears in a Department record has submitted a permanent change of address to the Postal Service, the Department may then update its records with the mailing address obtained from the National Change of Address System.

D. The license shall be made of a material and in a form to be determined by the Commissioner.

E. Licenses issued to persons less than 21 years old shall be immediately and readily distinguishable from those issued to persons 21 years old or older. Distinguishing characteristics shall include unique design elements of the document and descriptors within the photograph area to identify persons who are at least 15 years old but less than 21 years old. These descriptors shall include the month, day, and year when the person will become 21 years old.

F. The Department shall establish a method by which an applicant for a driver's license or an identification card may indicate his consent to make an anatomical gift for transplantation, therapy, research, and education pursuant to § 32.1-291.5, and shall cooperate with the Virginia Transplant Council to ensure that such method is designed to encourage organ, tissue, and eye donation with a minimum of effort on the part of the donor and the Department.

G. If an applicant indicates his consent to be a donor pursuant to subsection F, the Department may make a notation of this designation on his license or card and shall make a notation of this designation in his driver record. The notation shall remain on the individual's license or card until he revokes his consent to make an anatomical gift by requesting removal of the notation from his license or card or otherwise in accordance with § 32.1-291.6. Inclusion of a notation indicating consent to making an organ donation on an applicant's license or card pursuant to this subsection shall be sufficient legal authority for removal, following death, of the subject's organs or tissues without additional authority from the donor or his family or estate, in accordance with the provisions of § 32.1-291.8.

H. A minor may make a donor designation pursuant to subsection F without the consent of a parent or legal guardian as authorized by the Revised Uniform Anatomical Gift Act (§ 32.1-291.1 et seq.).

I. The Department shall provide a method by which an applicant conducting a Department of Motor Vehicles transaction using electronic means may make a voluntary contribution to the Virginia Donor Registry and Public Awareness Fund (Fund) established pursuant to § 32.1-297.1. The Department shall inform the applicant of the existence of the Fund and also that contributing to the Fund is voluntary.

J. The Department shall collect all moneys contributed pursuant to subsection I and transmit the moneys on a regular basis to the Virginia Transplant Council, which shall credit the contributions to the Fund.

K. When requested by the applicant, and upon presentation of a signed statement by a licensed physician confirming the applicant's condition, the Department shall indicate on the applicant's driver's license that the applicant (i) is an insulin-dependent diabetic, (ii) is deaf or hard of hearing or speech impaired, (iii) has a traumatic brain injury, or (iv) has an intellectual disability, as defined in § 37.2-100, or autism spectrum disorder, as defined in § 38.2-3418.17. Any request for a traumatic brain injury indicator on an applicant's driver's license shall be accompanied by a form prescribed by the Commissioner and completed by a licensed physician.

L. In the absence of gross negligence or willful misconduct, the Department and its employees shall be immune from any civil or criminal liability in connection with the making of or failure to make a notation of donor designation on any license or card or in any person's driver record.

M. The Department shall, in coordination with the Virginia Transplant Council, prepare an organ donor information brochure describing the organ donor program and providing instructions for completion of the uniform donor document information describing the bone marrow donation program and instructions for registration in the National Bone Marrow Registry. The Department shall include a copy of such brochure with every driver's license renewal notice or application mailed to licensed drivers in Virginia.

N. The Department shall establish a method by which an applicant for an original, reissued, or renewed driver's license may indicate his blood type. If the applicant chooses to indicate his blood type, the Department shall make a notation of this designation on his license and in his record. Such notation on the driver's license shall only be used by emergency medical services agencies in providing emergency medical support. Upon written request of the license holder or his legal guardian to have the designation removed, the Department shall issue the driver's license without such designation upon the payment of applicable fees.

Notwithstanding any other provision of law, the Department shall not disclose any data collected pursuant to this subsection except to the subject of the information and by designation on the driver's license. Nothing herein shall require the Department to verify any information provided for the designation. No action taken by any person, whether private citizen or public officer or employee, with regard to any blood type designation displayed on a driver's license, shall create a warranty of the reliability or accuracy of the document or electronic image, nor shall it create any liability on the part of the Commonwealth or of any department, office, or agency or of any officer, employee, or agent thereof.

§ 46.2-345. Issuance of special identification cards; fee; confidentiality; penalties.

A. On the application of any person who is a resident of the Commonwealth, the parent of any such person who is under the age of 18, or the legal guardian of any such person, the Department shall issue a special identification card to the person, provided that:

1. Application is made on a form prescribed by the Department and includes the applicant's full legal name; year, month, and date of birth; social security number; sex; and residence address. Applicants shall be permitted to choose between "male," "female," or "non-binary" when designating the applicant's sex on the application form;

2. The applicant presents, when required by the Department, proof of identity, legal presence, residency, and social security number or non-work authorized status;

3. The Department is satisfied that the applicant needs an identification card or the applicant shows he has a bona fide need for such a card; and

4. The applicant does not hold a driver's license, commercial driver's license, temporary driver's permit, learner's permit, motorcycle learner's permit, or special identification card without a photograph.

Persons 70 years of age or older may exchange a valid Virginia driver's license for a special identification card at no fee. Special identification cards subsequently issued to such persons shall be subject to the regular fees for special identification cards.

B. The fee for the issuance of an original, duplicate, reissue, or renewal special identification card is \$2 per year, with a \$10 minimum fee. Persons 21 years old or older may be issued a scenic special identification card for an additional fee of \$5.

C. Every special identification card shall expire on the applicant's birthday at the end of the period of years for which a special identification card has been issued. At no time shall any special identification card be issued for less than three nor more than eight years, except under the provisions of subsection B of § 46.2-328.1 and except that those cards issued to children under the age of 15 shall expire on the child's sixteenth birthday. Notwithstanding these limitations, the Commissioner may extend the validity period of an expiring card if (i) the Department is unable to process an application for renewal due to circumstances beyond its control, (ii) the extension has been authorized under a directive from the Governor, and (iii) the card was not issued as a temporary special identification card under the provisions of subsection B of § 46.2-328.1. However, in no event shall the validity period be extended more than 90 days per occurrence of such conditions. Any special identification card issued to a person required to register pursuant to Chapter 9 (§ 9.1-900 et seq.) of Title 9.1 shall expire on the applicant's birthday in years which the applicant attains an age equally divisible by five. For each person required to register pursuant to Chapter 9 of Title 9.1, the Department may not waive the requirement that each such person shall appear for each renewal or the requirement to obtain a photograph in accordance with subsection C of § 46.2-323.

D. A special identification card issued under this section may be similar in size, shape, and design to a driver's license, and include a photograph of its holder, but the card shall be readily distinguishable from a driver's license and shall clearly state that it does not authorize the person to whom it is issued to drive a motor vehicle. Every applicant for a special identification card shall appear in person before the Department to apply for a renewal, duplicate or reissue unless specifically permitted by the Department to apply in another manner.

E. Special identification cards, for persons at least 15 years old but less than 21 years old, shall be immediately and readily distinguishable from those issued to persons 21 years old or older. Distinguishing characteristics shall include unique design elements of the document and descriptors within the photograph area to identify persons who are at least 15 years old but less than 21 years old. These descriptors shall include the month, day, and year when the person will become 21 years old.

F. Special identification cards for persons under age 15 shall bear a full face photograph. The special identification card issued to persons under age 15 shall be readily distinguishable from a driver's license and from other special identification cards issued by the Department. Such cards shall clearly indicate that it does not authorize the person to whom it is issued to drive a motor vehicle.

G. Unless otherwise prohibited by law, a valid Virginia driver's license shall be surrendered upon application for a special identification card without the applicant's having to present proof of legal presence as required by § 46.2-328.1 if the Virginia driver's license is unexpired and it has not been revoked, suspended, or cancelled. The special identification card shall be considered a reissue and the expiration date shall be the last day of the month of the surrendered driver's license's month of expiration.

H. Any personal information, as identified in § 2.2-3801, which is retained by the Department from an application for the issuance of a special identification card is confidential and shall not be divulged to any person, association, corporation, or organization, public or private, except to the legal guardian or the attorney of the applicant or to a person, association, corporation, or organization nominated in writing by the applicant, his legal guardian, or his attorney. This subsection shall not prevent the Department from furnishing the application or any information thereon to any law-enforcement agency.

I. Any person who uses a false or fictitious name or gives a false or fictitious address in any application for an identification card or knowingly makes a false statement or conceals a material fact or otherwise commits a fraud in any such application shall be guilty of a Class 2 misdemeanor. However, where the name or address is given, or false statement is made, or fact is concealed, or fraud committed, with the intent to purchase a firearm or where the identification card is obtained for the purpose of committing any offense punishable as a felony, a violation of this section shall constitute a Class 4 felony.

J. The Department shall utilize the various communications media throughout the Commonwealth to inform Virginia residents of the provisions of this section and to promote and encourage the public to take advantage of its provisions.

K. The Department shall electronically transmit application information to the Department of State Police, in a format approved by the State Police, for comparison with information contained in the Virginia Criminal Information Network and National Crime Information Center Convicted Sexual Offender Registry Files, at the time of issuance of a special identification card. Whenever it appears from the records of the State Police that a person has failed to comply with the duty to register, reregister, or verify his registration information pursuant to Chapter 9 (§ 9.1-900 et seq.) of Title 9.1, the State Police shall promptly investigate and, if there is probable cause to believe a violation has occurred, obtain a warrant or assist in obtaining an indictment charging a violation of § 18.2-472.1 in the jurisdiction in which the person made application for the special identification card.

L. When requested by the applicant, the applicant's parent if the applicant is a minor, or the applicant's guardian, and upon presentation of a signed statement by a licensed physician confirming the applicant's condition, the Department shall indicate on the applicant's special identification card that the applicant has any condition listed in subsection K of § 46.2-342 or that the applicant is blind or vision impaired.

M. The Department shall establish a method by which an applicant for an original, reissued, or renewed special identification card may indicate his blood type. If the applicant chooses to indicate his blood type, the Department shall make a notation of this designation on his special identification card and in his record. Such notation on the special identification card shall only be used by emergency medical services agencies in providing emergency medical support. Upon written request of the license holder or his legal guardian to have the designation removed, the Department shall issue the special identification card without such designation upon the payment of applicable fees.

Notwithstanding any other provision of law, the Department shall not disclose any data collected pursuant to this subsection except to the subject of the information and by designation on the special identification card. Nothing herein shall require the Department to verify any information provided for the designation. No action taken by any person, whether private citizen or public officer or employee, with regard to any blood type designation displayed on a special identification card, shall create a warranty of the reliability or accuracy of the document or electronic image, nor shall it create any liability on the part of the Commonwealth or of any department, office, or agency or of any officer, employee, or agent thereof.

§ 46.2-345.2. Issuance of special identification cards without photographs; fee; confidentiality; penalties.

A. On the application of any person with a sincerely held religious belief prohibiting the taking of a photograph who is a resident of the Commonwealth and who is at least 15 years of age, the Department shall issue a special identification card without a photograph to the person, provided that:

1. Application is made on a form prescribed by the Department and includes the applicant's full legal name; year, month, and date of birth; social security number; sex; and residence address. Applicants shall be permitted to choose between "male," "female," or "non-binary" when designating the applicant's sex on the application form;

2. The applicant presents, when required by the Department, proof of identity, legal presence, residency, and social security number or non-work authorized status;

3. The applicant presents an approved and signed U.S. Department of the Treasury Internal Revenue Service (IRS) Form 4029 or if such applicant is a minor, the applicant's parent or legal guardian presents an approved and signed IRS Form 4029; and

4. The applicant does not hold a driver's license, commercial driver's license, temporary driver's permit, learner's permit, motorcycle learner's permit, or special identification card.

B. The fee for the issuance of an original, duplicate, or reissue special identification card without a photograph is \$10 per year, with a \$20 minimum fee.

C. Every special identification card without a photograph shall expire on the applicant's birthday at the end of the period of years for which a special identification card without a photograph has been issued. At no time shall any special identification card without a photograph be issued for more than eight years. Notwithstanding these limitations, the Commissioner may extend the validity period of an expiring card if (i) the Department is unable to process an application for re-issue due to circumstances beyond its control or (ii) the extension has been authorized under a directive from the Governor. However, in no event shall the validity period be extended more than 90 days per occurrence of such conditions.

D. A special identification card without a photograph issued under this section may be similar in size, shape, and design to a driver's license and shall not include a photograph of its holder. The card shall be readily distinguishable from a driver's license and shall clearly state that federal limits apply, that the card is not valid identification to vote, and that the card does not authorize the person to whom it is issued to drive a motor vehicle. Every applicant for a special identification card without a photograph shall appear in person before the Department to apply for a duplicate or reissue unless specifically permitted by the Department to apply in another manner.

E. Unless otherwise prohibited by law, a valid Virginia driver's license or special identification card shall be surrendered for a special identification card without a photograph without the applicant's having to present proof of legal presence as required by § 46.2-328.1 if the Virginia driver's license or special identification card is unexpired and has not been revoked, suspended, or canceled. The special identification card without a photograph shall be considered a reissue, and the expiration date shall be the last day of the month of the surrendered driver's license's or special identification card's month of expiration.

F. Any personal information, as identified in § 2.2-3801, that is retained by the Department from an application for the issuance of a special identification card without a photograph is confidential and shall not be divulged to any person, association, corporation, or organization, public or private, except to the legal guardian or the attorney of the applicant or to a person, association, corporation, or organization nominated in writing by the applicant, his legal guardian, or his attorney. This subsection shall not prevent the Department from furnishing the application or any information thereon to any law-enforcement agency.

G. Any person who uses a false or fictitious name or gives a false or fictitious address in any application for a special identification card without a photograph or knowingly makes a false statement or conceals a material fact or otherwise commits a fraud in any such application is guilty of a Class 2 misdemeanor. However, where the special identification card without a photograph is obtained for the purpose of committing any offense punishable as a felony, a violation of this section shall constitute a Class 4 felony.

H. When requested by the applicant, the applicant's parent if the applicant is a minor, or the applicant's guardian, and upon presentation of a signed statement by a licensed physician confirming the applicant's condition, the Department shall indicate on the applicant's special identification card without a photograph that the applicant has any condition listed in subsection K of § 46.2-342.

I. The Department shall establish a method by which an applicant for an original, reissued, or renewed special identification card without a photograph may indicate his blood type. If the applicant chooses to indicate his blood type, the Department shall make a notation of this designation on his special identification card without a photograph and in his record. Such notation on the special identification card without a photograph shall only be used by emergency medical services agencies in providing emergency medical support. Upon written request of the license holder or his legal guardian to have the designation removed, the Department shall issue the special identification card without a photograph without such designation upon the payment of applicable fees.

Notwithstanding any other provision of law, the Department shall not disclose any data collected pursuant to this subsection except to the subject of the information and by designation on the special identification card without a photograph. Nothing herein shall require the Department to verify any information provided for the designation. No action taken by any person, whether private citizen or public officer or employee, with regard to any blood type designation displayed on a special identification card without a photograph, shall create a warranty of the reliability or accuracy of the document or electronic image, nor shall it create any liability on the part of the Commonwealth or of any department, office, or agency or of any officer, employee, or agent thereof.

J. Unless the Code specifies that a photograph is required, a special identification card without a photograph shall be treated as a special identification card.

§ 46.2-345.3. Issuance of identification privilege cards; fee; confidentiality; penalties.

A. Upon application of any person who does not hold a status that is eligible for a special identification card under subsections A and B of § 46.2-328.1, the parent of any such person who is under the age of 18, or the legal guardian of any such person, the Department may issue an identification privilege card to any resident of the Commonwealth, provided that:

1. Application is made on a form prescribed by the Department;
2. The applicant presents, when required by the Department, proof of identity, residency, and social security number or individual taxpayer identification number;
3. The Department determines that the applicant has reported income and deductions from Virginia sources, as defined in § 58.1-302, or has been claimed as a dependent, on an individual income tax return filed with the Commonwealth in the preceding 12 months; and
4. The applicant does not hold a credential issued under this chapter.

Persons 70 years of age or older may exchange a valid Virginia driver privilege card for an identification privilege card at no fee. Identification privilege cards subsequently issued to such persons shall be subject to the regular fees for identification privilege cards.

B. The fee for the issuance of an original, duplicate, reissue, or renewal identification privilege card is \$25. The amount paid by an applicant for an identification privilege card shall be considered privileged information for the purposes of § 46.2-208.

C. An original identification privilege card shall expire on the applicant's fourth birthday following the date of issuance. Duplicate, reissue, or renewal identification privilege cards shall be valid for a period of four years from the date of issuance. No applicant shall be required to provide proof of compliance with subdivision A 3 for a duplicate, reissue, or renewal identification privilege card. Those cards issued to children under the age of 15 shall expire on the child's sixteenth birthday.

Notwithstanding the provisions of this subsection, the Commissioner may extend the validity period of an expiring card if (i) the Department is unable to process an application for renewal due to circumstances beyond its control and (ii) the

extension has been authorized under a directive from the Governor. However, in no event shall the validity period be extended more than 90 days per occurrence of such conditions.

D. An identification privilege card issued under this section may be similar in size, shape, and design to a driving credential and include a photograph of its holder, but the card shall be readily distinguishable from a driving credential and shall clearly state that it does not authorize the person to whom it is issued to drive a motor vehicle. Every applicant for an identification privilege card shall appear in person before the Department to apply for a renewal, duplicate, or reissue unless specifically permitted by the Department to apply in another manner. The front of an identification privilege card shall be identical in appearance to a special identification card issued under § 46.2-345, and the back of the card shall be identical in appearance to the restriction on the back of a limited-duration special identification card.

E. Identification privilege cards, for persons at least 15 years old but younger than 21 years old, shall be immediately and readily distinguishable from those issued to persons 21 years old or older. Distinguishing characteristics shall include unique design elements of the credential and descriptors within the photograph area to identify persons who are at least 15 years old but younger than 21 years old. These descriptors shall include the month, day, and year when the person will become 21 years old.

F. Identification privilege cards for persons under age 15 shall bear a full-face photograph. The identification card issued to persons under age 15 shall be readily distinguishable from a driving credential and from other identification cards issued by the Department. Such cards shall clearly indicate that it does not authorize the person to whom it is issued to drive a motor vehicle.

G. Any information collected pursuant to this section that is not otherwise collected by the Department or required for the issuance of any other special identification card issued pursuant to the provisions of this chapter and any information regarding restrictions in the Department's records related to the issuance of a credential issued pursuant to this section shall be considered privileged. Notwithstanding the provisions of § 46.2-208, such information shall not be released except upon request by the subject of the information, the parent of a minor who is the subject of the information, the guardian of the subject of the information, or the authorized representative of the subject of the information or pursuant to a court order.

The Department shall release to any federal, state, or local governmental entity, local government group self-insurance pool, law-enforcement officer, attorney for the Commonwealth, or court, or the authorized agent of any of the foregoing, information related to the issuance of an identification privilege card, the release of which is not otherwise prohibited by this section, that is required for a requester to carry out the requester's official functions if the requester provides the individual's name and other sufficient identifying information contained on the individual's record. Any such release shall be in accordance with the requirements of § 46.2-208.

H. Any person who uses a false or fictitious name or gives a false or fictitious address in any application for an identification privilege card or knowingly makes a false statement or conceals a material fact or otherwise commits a fraud in any such application is guilty of a Class 2 misdemeanor. However, where the name or address is given, or false statement is made, or fact is concealed, or fraud committed, for the purpose of committing any offense punishable as a felony, a violation of this section shall constitute a Class 4 felony.

I. When requested by the applicant, the applicant's parent if the applicant is a minor, or the applicant's guardian, and upon presentation of a signed statement by a licensed physician confirming the applicant's condition, the Department shall indicate on the applicant's identification privilege card that the applicant has any condition listed in subsection K of § 46.2-342 or that the applicant is blind or vision impaired.

J. The Department shall establish a method by which an applicant for an original, reissued, or renewed identification privilege card may indicate his blood type. If the applicant chooses to indicate his blood type, the Department shall make a notation of this designation on his identification privilege card and in his record. Such notation on the special identification card shall only be used by emergency medical services agencies in providing emergency medical support. Upon written request of the license holder or his legal guardian to have the designation removed, the Department shall issue the identification privilege card without such designation upon the payment of applicable fees.

Notwithstanding any other provision of law, the Department shall not disclose any data collected pursuant to this subsection except to the subject of the information and by designation on the identification privilege card. Nothing herein shall require the Department to verify any information provided for the designation. No action taken by any person, whether private citizen or public officer or employee, with regard to any blood type designation displayed on an identification privilege card, shall create a warranty of the reliability or accuracy of the document or electronic image, nor shall it create any liability on the part of the Commonwealth or of any department, office, or agency or of any officer, employee, or agent thereof.

K. Unless the context of the Code provides otherwise, an identification privilege card shall be treated as a special identification card.

2. That the provisions of this act shall become effective on July 1, 2023.

"Military status" means status as (i) a member of the uniformed forces, as defined in 10 U.S.C. § 101(a)(5), of the United States or a reserve component thereof named under 10 U.S.C. § 10101, (ii) a veteran as defined in 38 U.S.C. § 101(2), or (iii) a dependent as defined in 50 U.S.C. § 3911(4) except that the support provided by the service member to the individual shall have been provided 180 days immediately preceding an alleged action that if proven true would constitute unlawful discrimination under this section instead of 180 days immediately preceding an application for relief under 50 U.S.C. Chapter 50.

"Religion" includes any outward expression of religious faith, including adherence to religious dressing and grooming practices and the carrying or display of religious items or symbols.

B. No state agency, institution, board, bureau, commission, council, or instrumentality of the Commonwealth shall discriminate in employment on the basis of race, color, religion, national origin, sex, pregnancy, childbirth or related medical conditions, age, marital status, disability, sexual orientation, gender identity, or military status.

C. The provisions of this section shall not prohibit (i) discrimination in employment on the basis of (a) sex or age in those instances when sex or age is a bona fide occupational qualification for employment or (b) disability when using the alternative application process provided for in § 2.2-1213 or (ii) providing preference in employment to veterans.

§ 2.2-3004. Grievances qualifying for a grievance hearing; grievance hearing generally.

A. Such executive orders declaring a state of emergency may address exceptional circumstances that exist relating to an order of quarantine or an order of isolation concerning a communicable disease of public health threat that is issued by the State Health Commissioner for an affected area of the Commonwealth pursuant to Article 3.02 (§ 32.1-48.05 et seq.) of Chapter 2 of Title 32.1.

~~Except as to emergency plans issued to prescribe actions to be taken in the event of disasters and emergencies, no~~ No rule, regulation, or order issued under this section shall have any effect beyond ~~June 30 next following the next adjournment of the regular session of the General Assembly but the same or a similar rule, regulation, or order may thereafter be issued again if not contrary to law~~ 45 days after the date of issuance. If federal funding is available to establish and fund the program, the Governor, if necessary to comply with any conditions attached to such federal funding, shall be entitled to seek reimbursement for such purchases from the private, nongovernmental entities and may establish and charge fees to recover the cost of administering the program, including the cost of procuring and distributing the PPE. However, if federal funding is not available to establish and fund the program, the Governor shall, prior to making such purchases, receive a contract for payment for purchase from the private nongovernmental entities for the full cost of procuring and distributing the PPE, which shall include any amortized costs of administering the program. Any purchase made by the Governor pursuant to this subdivision shall be exempt from the provisions of the Virginia Public Procurement Act (§ 2.2-4300 et seq.), except the Governor shall be encouraged to comply with the provisions of § 2.2-4310 when possible. The Governor shall also provide for competition where practicable and include a written statement regarding the basis for awarding any contract. Prior to implementing such a program, the Department of Emergency Management shall consult with and survey private, nongovernmental entities in order to assess demand for participation in the program as well as the quantity and types of personal protective equipment such entities would like to procure.

[H 902]

Be it enacted by the General Assembly of Virginia:

1. § 1. A. Notwithstanding the provisions of § 15.2-1655 of the Code of Virginia, Augusta County may hold a referendum in 2022 on the removal of the Augusta County courthouse from the City of Staunton to Augusta County if plans are developed for (i) relocating to a newly constructed courthouse in Augusta County and (ii) either (a) the renovation and expansion of the current courthouse in the City of Staunton or (b) the construction of a new courthouse in the City of Staunton. Both plans shall:

1. Be schematic in nature;
 2. Be prepared by an architect duly licensed to practice architecture in the Commonwealth;
 3. Include a good faith estimate of the costs of construction utilizing the same methodology in arriving at such estimates; and
 4. Be made available to the public at least two months prior to the planned date of the referendum.
- If the proposed plan for renovation and expansion of the current courthouse in the City of Staunton or construction of a new courthouse in the City of Staunton requires acquisition of property, the appraised value of that property shall be included in the computation of the total cost for that option.

B. Upon submission of plans meeting the requirements of subsection A by the governing body to the clerk of the court, the court, by order entered of record in accordance with Article 5 (§ 24.2-681 et seq.) of Chapter 6 of Title 24.2 of the Code of Virginia, shall require the regular election officials of the county to open the polls and take the sense of the voters on the matter as herein provided.

C. Notwithstanding the provisions of §§ 15.2-1652 and 24.2-684 of the Code of Virginia, the election shall be by ballot that shall be prepared by the electoral board of the county and on which shall be printed the following:

[] Shall the county courthouse be relocated to Augusta County at a cost of \$ [insert estimated cost]?

or

[] Shall the county courthouse remain in the City of Staunton at a cost of \$ [insert estimated cost]?"

The court shall enter an order proclaiming the results of the election and a duly certified copy of such order shall be transmitted to the governing body of the county. The governing body shall proceed to implement the plan certified as receiving the most votes in the election.

2. That the duly licensed architect, in preparing both plans pursuant to the provisions of this act, shall consider options that use technology to potentially reduce space requirements for record storage. Such architect shall explore options for the shared use of facilities with the City of Staunton. Such architect shall also develop an appropriate plan for the preservation of the existing courthouse in the City of Staunton, regardless of which plan is ultimately chosen.

Agreed to by the House of Delegates, March 12, 2022

Agreed to by the Senate, March 12, 2022

WHEREAS, House Joint Resolution 50 and Senate Joint Resolution 76 (2012) directed the Virginia Institute of Marine Science (VIMS) to study strategies for adaptation to prevent recurrent flooding in Virginia's Tidewater and Eastern Shore localities; and

WHEREAS, the resulting VIMS report, titled "Recurrent Flooding Study for Tidewater Virginia," published as Senate Document 3 (2013), stated that recurrent flooding impacts all localities in Virginia's coastal zone and is predicted to become worse over reasonable planning horizons (20 to 50 years); and

WHEREAS, VIMS offered several recommendations, including that the Commonwealth, working with its coastal localities, (i) begin comprehensive and coordinated planning efforts; (ii) initiate identification, collection, and analysis of data needed to support effective planning for response efforts; and (iii) take a lead role in addressing recurrent flooding in Virginia for the following reasons: (a) accessing relevant federal resources for planning and mitigation may be enhanced through state mediation, (b) flooding problems are linked to water bodies and therefore often transcend locality boundaries, and (c) prioritizing flood management actions must be based in part on risk, and therefore the Commonwealth must oversee the necessary studies to determine adaptation strategies, as well as implementation of the agreed-upon strategies; and

WHEREAS, the Joint Legislative Audit and Review Commission (JLARC) study mandated by House Joint Resolution 132 (2012) and presented on October 15, 2013, titled "Review of Disaster Preparedness Planning in Virginia," stated: "The

state generally has strong disaster response plans, but deficiencies in evacuation and shelter plans may compromise the safety of the Hampton Roads population during a catastrophic disaster"; and

WHEREAS, the JLARC study further noted that if four key assumptions in the state's current evacuation plan do not hold, "timely hurricane evacuations could be compromised," placing citizens at risk after the storm; and

WHEREAS, House Joint Resolution 16 and Senate Joint Resolution 3 (2014) established the Joint Subcommittee to Formulate Recommendations to Address Recurrent Flooding as recommended by the VIMS report; and

WHEREAS, the Joint Subcommittee to Address Recurrent Flooding met four times during the 2014 interim to collect information from federal and state agencies, localities, and stakeholders and to carry out its work; and

WHEREAS, recommendations made by the Joint Subcommittee to Address Recurrent Flooding during the 2014 interim resulted in six bills passing the General Assembly with bipartisan support during the 2015 Session; and

WHEREAS, the Joint Subcommittee to Address Recurrent Flooding met four times during the 2015 interim to collect information from federal and state agencies, localities, and stakeholders and to carry out its work; and

WHEREAS, the members of the full Joint Subcommittee to Address Recurrent Flooding concurred that the joint subcommittee be continued for two more years with a name change to the Joint Subcommittee on Coastal Flooding to more accurately reflect its mission and to continue the Commonwealth on the path of advancing Virginia as the coastal states' leader in advancing resiliency strategies and, most importantly, protecting its citizens and business assets; and

WHEREAS, pursuant to House Joint Resolution 84 and Senate Joint Resolution 58 (2016), the Joint Subcommittee on Coastal Flooding continued its work during the 2016 and 2017 interims and brought forth additional recommendations for the 2018 Session; and

WHEREAS, riverine flooding and flooding from stormwater are also major concerns for the Commonwealth and deserve further study and action from the joint subcommittee; and

RESOLVED by the House of Delegates, the Senate concurring, That the Joint Subcommittee on Coastal Flooding be continued as the Joint Subcommittee on Recurrent Flooding. WHEREAS, peripheral artery disease (PAD) is the result of atherosclerosis, or the hardening and narrowing of the arteries from plaque buildup, and its risk factors include smoking, diabetes, high blood pressure, high cholesterol, coronary artery disease, a family history of serious vascular problems, and limb ischemia; and

WHEREAS, PAD restricts the flow of blood, causing less oxygen to reach the body's extremities; in early forms of the disease, this can lead to pain and cramping, while in more advanced stages it can result in limb loss; and

WHEREAS, PAD most often affects individuals in their lower extremities, and all individuals with risk factors should notify their physician if they experience pain in their legs or feet after walking or exercising, the most common symptom of the disease; and

WHEREAS, while many individuals with PAD never experience symptoms, other warning signs include pain in the ball of the foot or toes; nighttime foot pain that improves when hanging the foot over the side of the bed; ulcers or sores on the foot, ankle, or toes that do not heal; and blue or black discoloration of the toes; and

WHEREAS, it is estimated that approximately 200,000 individuals, including a disproportionate number of individuals from minority communities, will need amputations as a result of PAD that could have been avoided with proper diagnosis and treatment; and

WHEREAS, in addition to the risk of amputation, individuals with PAD are at higher risk of suffering other major medical conditions, including critical limb ischemia, heart attack, or stroke; and

WHEREAS, PAD affects approximately 12 to 20 percent of Americans ages 60 and older and is more commonly found in men than in women; and

WHEREAS, all individuals who think they may have PAD should consult their physician, who will be able to easily diagnose the disease through blood pressure measurements, Doppler ultrasounds, arteriograms, and other imaging tests; and

WHEREAS, studies have shown that treatment, including reopening blocked or narrowed arteries through a process known as revascularization, can significantly improve circulation and reduce the effects of PAD in a vast majority of patients; and

WHEREAS, individuals can work to diminish their chances of developing PAD or to slow the progression of the disease by following a healthy lifestyle centered around regular exercise and a balanced diet; and

WHEREAS, despite the prevalence of PAD, it often goes unrecognized by individuals and undiagnosed or misdiagnosed by health care professionals, resulting in negative health outcomes and other risks that could be avoided; and

WHEREAS, the Cardiovascular Coalition, an organization dedicated to advancing patient access to care for PAD, has declared September to be PAD Awareness Month in hopes that increased awareness will improve access to screening and treatments, reduce care costs, prevent limb loss, and enhance the overall well-being of countless individuals; now, therefore, be it
