15. Fifteen thousand dollars of military basic pay for military service personnel on extended active duty for periods in excess of 90 days; however, the subtraction amount shall be reduced dollar-for-dollar by the amount by which the taxpayer's military basic pay exceeds \$15,000 and shall be reduced to zero if such military basic pay amount is equal to or exceeds \$30,000.

16. The first \$15,000 of salary for each federal and state employee whose total annual salary from all employment for the taxable year is \$15,000 or less.

This subtraction shall not apply to assets acquired with such items of income or with the proceeds from the sale of assets stolen from, hidden from, or

otherwise lost to, during World War II and its prelude and direct aftermath, a victim or target of Nazi persecution. 25. For taxable years beginning on and after January 1, 2014, any income of an account holder for the taxable year taxed as (i) a capital gain for federal income tax purposes attributable to such person's first-time home buyer savings account established pursuant to Chapter 12 (§ 36-171 et seq.) of Title 36 and (ii) interest income or other income for federal income tax purposes attributable to such person's first-time home buyer savings account.

Notwithstanding the statute of limitations on assessments contained in § 58.1-312, any subtraction taken under this subdivision shall be subject to recapture in the taxable year or years in which moneys or funds withdrawn from the first-time home buyer savings account were used for any purpose other than the payment of eligible costs by or on behalf of a qualified beneficiary, as provided under § 36-174. The amount subject to recapture shall be a portion of the amount withdrawn in the taxable year that was used for other than the payment of eligible costs, computed by multiplying the amount withdrawn and used for other than the payment of eligible costs by the ratio of the aggregate earnings in the account at the time of the withdrawal to the total balance in the account at such time.

However, recapture shall not apply to the extent of moneys or funds withdrawn that were (i) withdrawn by reason of the qualified beneficiary's death or disability; (ii) a disbursement of assets of the account pursuant to a filing for protection under the United States Bankruptcy Code, 11 U.S.C. §§ 101 through 1330; or (iii) transferred from an account established pursuant to Chapter 12 (§ 36-171 et seq.) of Title 36 into another account established pursuant to such chapter for the benefit of another qualified beneficiary.

For purposes of this subdivision, "account holder," "eligible costs," "first-time home buyer savings account," and "qualified beneficiary" mean the same as those terms are defined in § 36-171.

26. For taxable years beginning on and after January 1, 2015, any income for the taxable year attributable to the discharge of a student loan solely by reason of the student's death. Income, including investment services partnership interest income (otherwise known as investment partnership carried interest income), attributable to an investment in a Virginia venture capital account. To qualify for a subtraction under this subdivision, the investment shall be made on or after January 1, 2018, but before December 31, 2023. No

subtraction shall be allowed under this subdivision for an investment in a company that is owned or operated by a family member or an affiliate of the taxpayer. In order to be certified as a Virginia venture capital account, the operator of the investment fund shall register the investment fund with the Department prior to December 31, 2023, (i) indicating that it intends to invest at least 50 percent of the capital committed to its fund in qualified portfolio companies and (ii) providing documentation that it employs at least one investor who has at least four years of professional experience in venture capital investment or substantially equivalent experience. "Substantially equivalent experience" includes, but is not limited to, an undergraduate degree from an accredited college or university in economics, finance, or a similar field of study. The Department may require an investment fund to provide documentation of the investor's training, education, or experience as deemed necessary by the Department to determine substantial equivalency. If the Department determines that the investment fund employs at least one investor with the experience set forth herein, the Department shall certify the investment fund as a Virginia venture capital account at such time as the investment fund actually invests at least 50 percent of the capital committed to its fund in qualified portfolio companies.

28. a. Income attributable to an investment in a Virginia real estate investment trust. To qualify for a subtraction under this subdivision, the investment shall be made on or after January 1, 2019, but before December 31, 2024. If the Department determines that the trust satisfies the preceding criteria, the Department shall certify the trust as a Virginia real estate investment trust at such time as the trust actually invests at least 90 percent of trust funds in Virginia and at least 40 percent of trust funds in real estate in localities that are distressed or double distressed.

1. a. The amount allowable for itemized deductions for federal income tax purposes where the taxpayer has elected for the taxable year to itemize deductions on his federal return, but reduced by the amount of income taxes imposed by the Commonwealth or any other taxing jurisdiction and deducted on such federal return and increased by an amount that, when added to the amount deducted under § 170 of the Internal Revenue Code for mileage, results in a mileage deduction at the state level for such purposes at a rate of 18 cents per mile; or

b. Provided that the taxpayer has not itemized deductions for the taxable year on his federal income tax return: (i) for taxable years beginning before January 1, 2019, and on and after January 1, 2026, \$3,000 for single individuals and \$6,000 for married persons (one-half of such amounts in the case of a married individual filing a separate return) and (ii) for taxable years beginning on and after January 1, 2019, but before January 1, 2026, \$4,500 for single individuals and \$9,000 for married persons (one-half of such amounts in the case of a married individual filing a separate return). For purposes of this section, any person who may be claimed as a dependent on another taxpayer's return for the taxable year may compute the deduction only with respect to earned income.

2. a. A deduction in the amount of \$930 for each personal exemption allowable to the taxpayer for federal income tax purposes.

b. Each blind or aged taxpayer as defined under § 63(f) of the Internal Revenue Code shall be entitled to an additional personal exemption in the amount of \$800.

The additional deduction for blind or aged taxpayers allowed under this subdivision shall be allowable regardless of whether the taxpayer itemizes deductions for the taxable year for federal income tax purposes.

3. A deduction equal to the amount of employment-related expenses upon which the federal credit is based under § 21 of the Internal Revenue Code for expenses for household and dependent care services necessary for gainful employment.

4. An additional \$1,000 deduction for each child residing for the entire taxable year in a home under permanent foster care placement as defined in § 63.2-908, provided that the taxpayer can also claim the child as a personal exemption under § 151 of the Internal Revenue Code.

5. a. A deduction in the amount of \$12,000 for individuals born on or before January 1, 1939.

b. A deduction in the amount of \$12,000 for individuals born after January 1, 1939, who have attained the age of 65. This deduction shall be reduced by \$1 for every \$1 that the taxpayer's adjusted federal adjusted gross income exceeds \$50,000 for single taxpayers or \$75,000 for married taxpayers. For married taxpayers filing separately, the deduction shall be reduced by \$1 for every \$1 that the total combined adjusted federal adjusted gross income of both spouses exceeds \$75,000.

For the purposes of this subdivision, "adjusted federal adjusted gross income" means federal adjusted gross income minus any benefits received under Title II of the Social Security Act and other benefits subject to federal income taxation solely pursuant to § 86 of the Internal Revenue Code, as amended.

6. The amount an individual pays as a fee for an initial screening to become a possible bone marrow donor, if (i) the individual is not reimbursed for such fee or (ii) the individual has not claimed a deduction for the payment of such fee on his federal income tax return.

Except as provided in subdivision b, the amount deducted on any individual income tax return in any taxable year shall be limited to \$4,000 per prepaid tuition contract or college savings trust account. No deduction shall be allowed pursuant to this subdivision 7 if such payments or contributions are deducted on the purchaser's or contributor's federal income tax return. If the purchase price or annual contribution to a college savings trust account exceeds \$4,000, the remainder may be carried forward and subtracted in future taxable years until the purchase price or college savings trust contribution has been fully deducted; however, except as provided in subdivision b, in no event shall the amount deducted in any taxable year exceed \$4,000 per contract or college savings trust account. For a regulated investment company and a real estate investment trust, such term means the "investment company taxable income" and "real estate investment trust taxable income," respectively, to which shall be added in each case any amount of capital gains and any other income taxable to the corporation under federal law which shall be further adjusted as provided in subsections B, C, D, E, G, and H.

B. There shall be added to the extent excluded from federal taxable income:

(2) The related member derives at least one-third of its gross revenues from the licensing of intangible property to parties who are not related members, and the transaction giving rise to the expenses and costs between the corporation and the related member was made at rates and terms comparable to the rates and terms of agreements that the related member has entered into with parties who are not related members for the licensing of intangible property; or

(3) The corporation can establish to the satisfaction of the Tax Commissioner that the intangible expenses and costs meet both of the following: (i) the related member during the same taxable year directly or indirectly paid, accrued or incurred such portion to a person who is not a related member, and (ii) the transaction giving rise to the intangible expenses and costs between the corporation and the related member did not have as a principal purpose the avoidance of any portion of the tax due under this chapter.

b. A corporation required to add to its federal taxable income intangible expenses and costs pursuant to subdivision a may petition the Tax Commissioner, after filing the related income tax return for the taxable year and remitting to the Tax Commissioner all taxes, penalties, and interest due under this article for such taxable year including tax upon any amount of intangible expenses and costs required to be added to federal taxable income pursuant to subdivision a, to consider evidence relating to the transaction or transactions between the corporation and a related member or members that resulted in the corporation's taxable income being increased, as required under subdivision a, for such intangible expenses and costs.

If the corporation can demonstrate to the Tax Commissioner's sole satisfaction, by clear and convincing evidence, that the transaction or transactions between the corporation and a related member or members resulting in such increase in taxable income pursuant to subdivision a had a valid business purpose other than the avoidance or reduction of the tax due under this chapter, the Tax Commissioner shall permit the corporation to file an amended return. For purposes of such amended return, the requirements of subdivision a shall not apply to any transaction for which the Tax Commissioner is satisfied (and has identified) that the transaction had a valid business purpose other than the avoidance or reduction of the tax due under this chapter. Such amended return shall be filed by the corporation within one year of the written permission granted by the Tax Commissioner and any refund of the tax imposed under this article shall include interest at a rate equal to the rate of interest established under § 58.1-15 and such interest shall accrue as provided under § 58.1-1833. However, upon the filing of such amended return, any related member of the corporation that subtracted from taxable income amounts received pursuant to subdivision C 21 shall be subject to the tax imposed under this article on that portion of such amounts for which the corporation has filed an amended return pursuant to this subdivision. In addition, for such transactions identified by the Tax Commissioner herein by which he has been satisfied by clear and convincing evidence, the Tax Commissioner may permit the corporation in filing income tax returns for subsequent taxable years to deduct the related intangible expenses and costs without making the adjustment under subdivision a.

The Tax Commissioner may charge a fee for all direct and indirect costs relating to the review of any petition pursuant to this subdivision, to include costs necessary to secure outside experts in evaluating the petition. The Tax Commissioner may condition the review of any petition pursuant to this subdivision upon payment of such fee.

No suit for the purpose of contesting any action of the Tax Commissioner under this subdivision shall be maintained in any court of this Commonwealth.

This addition shall not be required for any portion of the interest expenses and costs, if:

(1) The related member has substantial business operations relating to interest-generating activities, in which the related member pays expenses for at least five full-time employees who maintain, manage, defend or are otherwise responsible for operations or administration relating to the interest-generating activities; and

b. A corporation required to add to its federal taxable income interest expenses and costs pursuant to subdivision a may petition the Tax Commissioner, after filing the related income tax return for the taxable year and remitting to the Tax Commissioner all taxes, penalties, and interest due under this article for such taxable year including tax upon any amount of interest expenses and costs required to be added to federal taxable income pursuant to subdivision a, to consider evidence relating to the transaction or transactions between the corporation and a related member or members that resulted in the corporation's taxable income being increased, as required under subdivision a, for such interest expenses and costs.

If the corporation can demonstrate to the Tax Commissioner's sole satisfaction, by clear and convincing evidence, that the transaction or transactions between the corporation and a related member or members resulting in such increase in taxable income pursuant to subdivision a had a valid business purpose other than the avoidance or reduction of the tax due under this chapter and that the related payments between the parties were made at arm's length rates and terms, the Tax Commissioner shall permit the corporation to file an amended return. For purposes of such amended return, the requirements of subdivision a shall not apply to any transaction for which the Tax Commissioner is satisfied (and has identified) that the transaction had a valid business purpose other than the avoidance or reduction of the tax due under this chapter and that the related payments between the parties were made at arm's length rates and terms. Such amended return shall be filed by the corporation within one year of the written permission granted by the Tax Commissioner and any refund of the tax imposed under this article shall include interest at a rate equal to the rate of interest established under § 58.1-15 and such interest shall accrue as provided under § 58.1-1833. However, upon the filing of such amended return, any related member of the corporation that subtracted from taxable income amounts received pursuant to subdivision C 21 shall be subject to the tax imposed under this article on that portion of such amounts for which the corporation has filed an amended return pursuant to this subdivision. In addition, for such transactions identified by the Tax Commissioner herein by which he has been satisfied by clear and convincing evidence, the Tax Commissioner may permit the corporation in filing income tax returns for subsequent taxable years to deduct the related interest expenses and costs without making the adjustment under subdivision a.

The Tax Commissioner may charge a fee for all direct and indirect costs relating to the review of any petition pursuant to this subdivision, to include costs necessary to secure outside experts in evaluating the petition. The Tax Commissioner may condition the review of any petition pursuant to this subdivision upon payment of such fee.

No suit for the purpose of contesting any action of the Tax Commissioner under this subdivision shall be maintained in any court of this Commonwealth.

CHAPTER 5

An Act to amend and reenact § 24.2-310 of the Code of Virginia, relating to polling places; location requirements; waiver in certain circumstances.

Approved February 23, 2022

[H 195]

Be it enacted by the General Assembly of Virginia:

1. That § 24.2-310 of the Code of Virginia is amended and reenacted as follows:

§ 24.2-310. Requirements for polling places.

A. The polling place for each precinct shall be located within the county or city and either within the precinct or within one mile of the precinct boundary, *unless a waiver has been granted pursuant to subsection G*. The polling place for a county precinct may be located within a city (i) if the city is wholly contained within the county election district served by the precinct or (ii) if the city is wholly contained within the county and the polling place is located on property owned by the county. The polling place for a town precinct may be located within one mile of the precinct and town boundary. For town elections held in November, the town shall use the polling places established by the county for its elections.

B. The governing body of each county, city, and town shall provide funds to enable the general registrar to provide adequate facilities at each polling place for the conduct of elections. Each polling place shall be located in a public building whenever practicable. If more than one polling place is located in the same building, each polling place shall be located in a separate room or separate and defined space.

C. Polling places shall be accessible to qualified voters as required by the provisions of the Virginians with Disabilities Act (§ 51.5-1 et seq.), the Voting Accessibility for the Elderly and Handicapped Act (52 U.S.C. § 20101 et seq.), and the Americans with Disabilities Act relating to public services (42 U.S.C. § 12131 et seq.). The State Board shall provide instructions to the local electoral boards and general registrars to assist the localities in complying with the requirements of the Acts.

D. If an emergency makes a polling place unusable or inaccessible, the electoral board or the general registrar shall provide an alternative polling place and give notice of the change in polling place, including to all candidates, or such candidate's campaign, appearing on the ballot to be voted at the alternative polling place, subject to the prior approval of the State Board. The general registrar shall provide notice to the voters appropriate to the circumstances of the emergency. For the purposes of this subsection, an "emergency" means a rare and unforeseen combination of circumstances, or the resulting state, that calls for immediate action.

E. It shall be permissible to distribute campaign materials on the election day on the property on which a polling place is located and outside of the building containing the room where the election is conducted except as specifically prohibited by law including, without limitation, the prohibitions of § 24.2-604 and the establishment of the "Prohibited Area" within 40 feet of any entrance to the polling place. However, and notwithstanding the provisions of clause (i) of subsection A of § 24.2-604, and upon the approval of the local electoral board, campaign materials may be distributed outside the polling place and inside the structure where the election is conducted, provided that the "Prohibited Area" (i) includes the area within the structure that is beyond 40 feet of any entrance to the polling place and the area within the structure that is within 40 feet of any entrance to the room where the election is conducted and (ii) is maintained and enforced as provided in § 24.2-604. The local electoral board may approve campaigning activities inside the building where the election is conducted when an entrance to the building is from an adjoining building, or if establishing the 40-foot prohibited area outside the polling place would hinder or delay a qualified voter from entering or leaving the building.

F. Any local government, local electoral board, or the State Board may make monetary grants to any non-governmental entity furnishing facilities under the provisions of § 24.2-307 or 24.2-308 for use as a polling place. Such grants shall be made for the sole purpose of meeting the accessibility requirements of this section. Nothing in this subsection shall be construed to obligate any local government, local electoral board, or the State Board to appropriate funds to any non-governmental entity.

G. *The general registrar or the governing body of the locality may request from the Department of Elections a waiver to establish a polling place that does not meet the location requirements of subsection A in the event that there is no suitable building that could be used within the precinct or within one mile of the precinct boundary. The Department shall grant such a waiver and may impose any conditions on the waiver that it deems necessary or appropriate to ensure accessibility and security of the polling place and compliance with any other requirements of state or federal law.*

CHAPTER 6

An Act to amend and reenact § 46.2-1239.1 of the Code of Virginia, relating to Potomac River Bridge Towing Compact.

[H 386]

Approved February 23, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 46.2-1239.1 of the Code of Virginia is amended and reenacted as follows:

§ 46.2-1239.1. Potomac River Bridge Towing Compact.

Article I. Parties and Titles.

The Parties to this Compact are the Commonwealth of Virginia, the State of Maryland and the District of Columbia. This agreement shall be known as the Potomac River Bridge Towing Compact.

Article II. Findings and Purpose.

The Woodrow Wilson Memorial Bridge, Rochambeau Memorial Bridge, George Mason Memorial Bridge, Theodore Roosevelt Memorial Bridge, Francis Scott Key Bridge, Chain Bridge, Harry W. Nice Bridge, Sandy Hook Bridge, Brunswick Bridge, Point of Rocks Bridge, *Arland D. Williams, Jr. Memorial Bridge*, and American Legion Memorial

Bridge (*the Potomac River bridges*) all pass through the territorial jurisdiction of two or more of the three Parties. Experience has shown that traffic back-ups often prevent state troopers or police officers of the appropriate jurisdiction from arriving at the scene of a disabled or abandoned vehicle to take corrective action. The purpose of this Compact is to facilitate the prompt and orderly removal of disabled and abandoned vehicles from the *Potomac River bridges, as they are currently named or may subsequently be renamed*, by giving all three Parties jurisdiction to exercise appropriate authority anywhere on the bridges.

Article III. Authority to Direct Traffic and Authorize Removal of Vehicles.

The Parties hereby give one another all necessary power and authority to have their respective state troopers or local law-enforcement officers direct traffic and authorize the removal of disabled or abandoned vehicles, trailers, semitrailers or the parts or contents thereof, from any part of the Potomac River bridges, to the same extent and in the same manner that such troopers and local law-enforcement officers may exercise such authority in their own jurisdictions. However, no Party, acting through its troopers or local law-enforcement officers, shall have the authority to direct or authorize the towing or removal of any vehicle or other thing to a destination outside its own jurisdiction, unless the consent of an officer or trooper of the destination jurisdiction has been obtained.

Article IV. Disposition of Towed Vehicles.

All vehicles and their contents towed or removed from the Potomac River bridges pursuant to this Compact shall be subject to the exclusive jurisdiction of the place to which such vehicle and its contents are taken, and the handling and disposition of such vehicle and its contents shall be governed by the laws and procedures of that jurisdiction.

Article V. No Agency.

Each of the Parties shall act solely on its own authority within the jurisdiction granted. This Compact shall not be construed as creating any agency relationship between the Parties.

Article VI. Effective Date.

The provisions of this Compact shall take effect thirty days after the legislative bodies of the Parties having jurisdiction over one or several of the bridges identified in Article II have enacted Compacts substantially identical to this Compact.

Article VII. Termination.

The Governor of the Commonwealth of Virginia or State of Maryland, or the Mayor of the District of Columbia may withdraw from this Compact at any time upon thirty days' written notice to the other Parties.

2. That the provisions of this act shall become effective only upon enactment by the legislative bodies of the State of Maryland and the District of Columbia of legislation substantially similar to this act.

CHAPTER 7

"Occasional sale" means a sale of tangible personal property not held or used by a seller in the course of an activity for which it is required to hold a certificate of registration, including the sale or exchange of all or substantially all the assets of any business and the reorganization or liquidation of any business, provided that such sale or exchange is not one of a series of sales and exchanges sufficient in number, scope and character to constitute an activity requiring the holding of a certificate of registration.

All sales for resale must be made in strict compliance with regulations applicable to this chapter. Any dealer making a sale for resale which is not in strict compliance with such regulations shall be personally liable for payment of the tax.

The terms "retail sale" and a "sale at retail" specifically include the following: (i) the sale or charges for any accommodations furnished to transients for less than 90 continuous days; (ii) sales of tangible personal property to persons for resale when because of the operation of the business, or its very nature, or the lack of a place of business in which to display a certificate of registration, or the lack of a place of business in which to keep records, or the lack of adequate records, or because such persons are minors or transients, or because such persons are engaged in essentially service businesses, or for any other reason there is likelihood that the Commonwealth will lose tax funds due to the difficulty of policing such business operations; (iii) the separately stated charge made for automotive refinishing repair materials that are permanently applied to or affixed to a motor vehicle during its repair; and (iv) the separately stated charge for equipment available for lease or purchase by a provider of satellite television programming to the customer of such programming. Equipment sold to a provider of satellite television programming for subsequent lease or purchase by the customer of such programming shall be deemed a sale for resale. The Tax Commissioner is authorized to promulgate regulations requiring vendors of or sellers to such persons to collect the tax imposed by this chapter on the cost price of such tangible personal property to such persons and may refuse to issue certificates of registration to such persons. The terms "retail sale" and a

"sale at retail" also specifically include the separately stated charge made for supplies used during automotive repairs whether or not there is transfer of title or possession of the supplies and whether or not the supplies are attached to the automobile. The purchase of such supplies by an automotive repairer for sale to the customer of such repair services shall be deemed a sale for resale.

The term "transient" does not include a purchaser of camping memberships, time-shares, condominiums, or other similar contracts or interests that permit the use of, or constitute an interest in, real estate, however created or sold and whether registered with the Commonwealth or not. Further, a purchaser of a right or license which entitles the purchaser to use the amenities and facilities of a specific real estate project on an ongoing basis throughout its term shall not be deemed a transient, provided, however, that the term or time period involved is for seven years or more.

The terms "retail sale" and "sale at retail" do not include a transfer of title to tangible personal property after its use as tools, tooling, machinery or equipment, including dies, molds, and patterns, if (i) at the time of purchase, the purchaser is obligated, under the terms of a written contract, to make the transfer and (ii) the transfer is made for the same or a greater consideration to the person for whom the purchaser manufactures goods.

"Retailer" means every person engaged in the business of making sales at retail, or for distribution, use, consumption, or storage to be used or consumed in the Commonwealth.

A transaction whereby the possession of property is transferred but the seller retains title as security for the payment of the price shall be deemed a sale.

"Sales price" means the total amount for which tangible personal property or services are sold, including any services that are a part of the sale, valued in money, whether paid in money or otherwise, and includes any amount for which credit is given to the purchaser, consumer, or lessee by the dealer, without any deduction therefrom on account of the cost of the property sold, the cost of materials used, labor or service costs, losses or any other expenses whatsoever. "Sales price" does not include (i) any cash discount allowed and taken; (ii) finance charges, carrying charges, service charges or interest from credit extended on sales of tangible personal property under conditional sale contracts or other conditional contracts providing for deferred payments of the purchase price; (iii) separately stated local property taxes collected; (iv) that portion of the amount paid by the purchaser as a discretionary gratuity added to the price of a meal; or (v) that portion of the amount paid by the purchaser as a mandatory gratuity or service charge added by a restaurant to the price of a meal, but only to the extent that such mandatory gratuity or service charge does not exceed 20 percent of the price of the meal. Where used articles are taken in trade, or in a series of trades as a credit or part payment on the sale of new or used articles, the tax levied by this chapter shall be paid on the net difference between the sales price of the new or used articles and the credit for the used articles.

When the accommodations are at a short-term rental, as defined in § 15.2-983, or at any other accommodations, the accommodations intermediary shall remit the taxes on the room charge to the locality, and shall remit the same to the locality and shall be liable for the same.~~

D. ~~An accommodations intermediary shall not be liable for taxes under this article remitted to an accommodations provider but that are then not remitted to the locality by the accommodations provider. For any retail sale of accommodations facilitated by an accommodations intermediary, an accommodations provider shall be liable for that portion of the taxes under this article that relate to the discount room charge only to the extent that the accommodations~~

~~intermediary has remitted such taxes to the accommodations provider~~ For any transaction for the retail sale of accommodations involving two or more parties that meet the definition of accommodations intermediary, nothing in this section shall prohibit such parties from making an agreement regarding which party shall be responsible for collecting and remitting the tax, so long as the party so responsible is registered with the locality for purposes of remitting the tax. In such event, the party that agrees to collect and remit the tax shall be the sole party liable for the tax, and the other parties to such agreement shall not be liable for such tax.

E. In any retail sale of any accommodations in which an accommodations intermediary does not facilitate the sale of the accommodations, the accommodations provider shall separately state the amount of the tax in the bill, invoice, or similar documentation and shall add the tax to the total price paid for the use or possession of the accommodations. In any retail sale of any accommodations in which an accommodations intermediary facilitates the sale of the accommodation, the accommodations intermediary shall separately state the amount of the tax on the bill, invoice, or similar documentation and shall add the tax to the room charge; thereafter, such tax shall be a debt from the customer to the accommodations intermediary, recoverable at law in the same manner as other debts.

2. That the provisions of the first enactment of this act shall become effective on October 1, 2022.

3. That the Department of Taxation shall develop and make publicly available guidelines no later than August 1, 2022, for purposes of developing processes and procedures for implementing the provisions of this act. CHAPTER 9

An Act to amend and reenact § 51.1-145 of the Code of Virginia, relating to Virginia Retirement System; employer contributions.

[H 473]

Approved March 2, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 51.1-145 of the Code of Virginia is amended and reenacted as follows:

§ 51.1-145. Employer contributions.

A. The total annual *defined benefit* employer contribution for each employer, expressed as a percentage of the annual membership payroll, shall be determined in a manner so as to remain relatively level from year to year. Each employer shall contribute for the *defined benefit plans, including the defined benefit component of the hybrid retirement program under § 51.1-169*, an amount equal to the sum of the normal contribution, any accrued liability contribution, and any supplementary contribution, *as well as amounts required for the defined contribution component of the hybrid retirement program under § 51.1-169*. The *defined benefit* contribution rates for each employer shall be determined ~~after each valuation~~ *biennially* and shall remain in effect until a new *biennial* valuation is made. All *defined benefit* contribution rates shall be computed in accordance with recognized actuarial principles on the basis of methods and assumptions approved by the Board and *as described in the Retirement System funding policy*.

B. The normal employer *defined benefit* contribution for any period shall be determined as a percentage, equal to the normal contribution rate, of the total covered compensation of the members employed during the period.

C. The normal *defined benefit* contribution rate for any employer shall be determined as the percentage represented by the ratio of (i) the annual normal cost to provide the benefits of the ~~retirement system~~ *Retirement System* with respect to members employed by the employer in excess of the members' contributions to (ii) the total annual compensation of the members.

D. The accrued *defined benefit* liability contribution for any employer for any period shall be determined as a percentage, equal to the accrued liability contribution rate, of the total compensation of the members during the period.

E. The accrued *defined benefit* liability contribution rate for any employer shall be a percentage of the total annual compensation of the members, determined so that a continuation of annual contributions by the employer at the same percentage of total annual compensation over a period of ~~40~~ years *determined by the Board consistent with recognized actuarial principles and the Retirement System funding policy* will be sufficient to amortize the unfunded accrued liability with respect to the employer.

F. The unfunded *defined benefit* accrued liability with respect to any employer as of any valuation date shall be determined as the excess of *the actuarial accrued liability over the sum of assets of the Retirement System as of the valuation date, as follows:* (i) the then present value of the benefits to be provided under the ~~retirement system~~ *Retirement System* in the future to members and former members over (ii) the sum of the assets of the ~~retirement system~~ *Retirement System* then currently in the members' contribution account and in the employer's retirement allowance account, plus the

then present value of the stipulated contributions to be made in the future by the members, plus the then present value of the normal contributions expected to be made in the future by the employer.

G. The supplementary *defined benefit* contribution for any employer for any period shall be determined as a percentage, equal to the supplementary contribution rate, of the total compensation of the members employed during the period.

H. Until July 1, 1997, the supplementary contribution rate for any employer shall be determined as the percentage represented by the ratio of (i) the average annual amount of post-retirement supplements, as provided for in this chapter, which is anticipated to become payable during the period to which the rate will be applicable with respect to former members to (ii) the total annual compensation of the members.

I. The Board shall certify to each employer the applicable *defined benefit* contribution rate and any changes in the rate. *The Board shall also provide the applicable estimated defined contribution amounts to each employer.*

J. The *defined benefit* employer contribution for the year shall be increased to the extent necessary to overcome any insufficiency if the contributions for any employer, when combined with the amount of the retirement allowance account of the employer, are insufficient to provide the benefits payable during the year.

K. The appropriation bill ~~which~~ *that* is submitted to the General Assembly by the Governor prior to each regular session that begins in an even-numbered year shall include the *defined benefit employer* contributions ~~which~~ *that* will become due and payable to the retirement allowance account from the state treasury during the following biennium, *an estimate of all state employer defined contribution amounts required by § 51.1-169, and amounts for contributions to applicable ancillary benefits as otherwise required by this title.* The amount of the *defined benefit* contributions shall be based on the contribution rates certified by the Board pursuant to subsection I of ~~this section~~ that are applicable to the Commonwealth as an employer and the anticipated compensation during the biennium of the members of the retirement system on behalf of whom the Commonwealth is the employer.

~~K-1.~~ L. The General Assembly shall set *defined benefit* contribution rates that are at least equal to the following percentage of the contribution rates certified by the Board pursuant to subsection I:

2. For members who are teachers as defined in § 51.1-124.3 and who are participating in a retirement plan established pursuant to Chapter 1 (§ 51.1-124.1 et seq.), (i) 69.53 percent for fiscal years beginning July 1, 2012, and July 1, 2013, (ii) 79.69 percent for fiscal years beginning July 1, 2014, and July 1, 2015, (iii) 89.84 percent for fiscal years beginning July 1, 2016, and July 1, 2017, and (iv) 100 percent for fiscal years beginning on or after July 1, 2018;

3. For members participating in a retirement plan established pursuant to Chapter 2 (§ 51.1-200 et seq.), (i) 75.84 percent for fiscal years beginning July 1, 2012, and July 1, 2013, (ii) 83.90 percent for fiscal years beginning July 1, 2014, and July 1, 2015, (iii) 91.95 percent for fiscal years beginning July 1, 2016, and July 1, 2017, and (iv) 100 percent for fiscal years beginning on or after July 1, 2018;

4. 5. For members participating in a retirement plan established pursuant to Chapter 3 (§ 51.1-300 et seq.), (i) 83.98 percent for fiscal years beginning July 1, 2012, and July 1, 2013, (ii) 89.32 percent for fiscal years beginning July 1, 2014, and July 1, 2015, (iii) 94.66 percent for fiscal years beginning July 1, 2016, and July 1, 2017, and (iv) 100 percent for fiscal years beginning on or after July 1, 2018.

~~L.~~ M. In the case of all teachers whose compensation is paid exclusively out of funds derived from local revenues and appropriations from the general fund of the state treasury, the Commonwealth shall contribute to the extent specified in the ~~appropriations~~ *appropriation* act. In the case of any teacher whose compensation is paid out of funds derived in whole or in part from any special fund or from a contributor other than the Commonwealth or a political subdivision thereof, contributions shall be paid out of the special fund or by the other contributor in proportion to that part of the compensation derived therefrom. In the case of all state employees whose compensation is paid exclusively by the Commonwealth out of the general fund of the state treasury, the Commonwealth shall be the sole contributor, and all contributions shall be paid out of the general fund. In the case of a state employee whose compensation is paid in whole or in part out of any special fund or by any contributor other than the Commonwealth, contributions on behalf of the employee shall be paid out of the special fund or by the other contributor in proportion to that part of the employee's compensation derived therefrom. The governing body of each political subdivision is hereby authorized to make appropriations from the funds of the political subdivision necessary to pay its proportionate share of contributions on behalf of every state employee whose compensation is paid in part by the political subdivision. In the case of each person who has elected to remain a member of a local retirement system, the Commonwealth shall reimburse the local employer an amount equal to the product of the compensation of the person and the employer contribution rate as used to determine the employer contribution for state employees under this section. Each employer shall keep such records and periodically furnish such information as the Board may require and shall inform new employees of their duties and obligations in connection with the ~~retirement system~~ *Retirement System*.

~~M. N.~~ The employer defined benefit contribution rate established for each employer may include the cost to administer any defined contribution plan administered by the Virginia Retirement System and available to the employer. The portion of such contribution designated to cover administrative costs of the defined contribution plans shall not be deposited into the trust fund established for the defined benefit plans but shall be separately accounted for and used solely to defray the administrative costs associated with the various defined contributions contribution plans. This provision shall supplement the authority of the Board under §§ 51.1-124.22 and 51.1-602 to charge and collect administrative fees to employers whose employees have available the various defined contribution plans administered by the Virginia Retirement System.

~~N.~~ Notwithstanding the foregoing, the total employer contribution for each employer authorized to participate in the hybrid retirement program described in § 51.1-169 for any period, expressed as a percentage of the employer's payroll for such period, shall be established as the contribution rate payable by such employer with respect to its employees enrolled in the defined benefit plan established under this chapter. The employer's contribution shall be first applied to the defined contribution component of the hybrid retirement program described in § 51.1-169, and the remainder shall be deposited in the employer's retirement allowance account.

~~O.~~ Institutions of higher education shall also pay contributions to the employer's retirement allowance account in amounts representing the difference between the contribution rate payable with respect to employees enrolled in the defined benefit plan under this chapter and the employer contributions paid to any optional retirement plan it offers on behalf of any of its nonfaculty Covered Employees, as described in §§ 23.1-1020 through 23.1-1026. The employer contribution rate established for each employer may include the annual rate of contribution payable by such employer with respect to employees enrolled in the optional defined contribution retirement plans established under §§ 51.1-126, 51.1-126.1, 51.1-126.3, and 51.1-126.4.

~~Q.~~ Additionally, employers shall pay contributions as determined by the Retirement System for applicable ancillary benefits as otherwise required by this title.

2. That the provisions of the first enactment of this act shall become effective on July 1, 2024.

3. That, notwithstanding the provisions of the second enactment of this act, beginning July 1, 2022, the Virginia Retirement System is authorized to communicate the forthcoming changes, update data systems, and train Virginia Retirement System employers to ensure a coordinated and seamless transition upon implementation of the provisions of the first enactment of this act and to develop procedures for the separation of defined benefit and defined contribution amounts prior to the implementation of the provisions of the first enactment of this act.

CHAPTER 11

An Act to amend and reenact § 58.1-439 of the Code of Virginia, relating to income tax; major business facility job tax credit; sunset.

[H 269]

Approved March 2, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 58.1-439 of the Code of Virginia is amended and reenacted as follows:

§ 58.1-439. Major business facility job tax credit.

A. For taxable years beginning on and after January 1, 1995, but before July 1, ~~2022~~ 2025, a taxpayer shall be allowed a credit against the taxes imposed by Articles 2 (§ 58.1-320 et seq.), 6 (§ 58.1-360 et seq.), and 10 (§ 58.1-400 et seq.) of Chapter 3; Chapter 12 (§ 58.1-1200 et seq.); Article 1 (§ 58.1-2500 et seq.) of Chapter 25; or Article 2 (§ 58.1-2620 et seq.) of Chapter 26 as set forth in this section.

B. For purposes of this section, the amount of any credit attributable to a partnership, electing small business corporation (S corporation), or limited liability company shall be allocated to the individual partners, shareholders, or members, respectively, in proportion to their ownership or interest in such business entities.

C. A "major business facility" is a company that satisfies the following criteria:

1. Subject to the provisions of subsections K or L, the establishment or expansion of the company shall result in the creation of at least 50 jobs for qualified full-time employees; the first such 50 jobs shall be referred to as the "threshold amount"; and

2. The company is engaged in any business in the Commonwealth, except a retail trade business if such trade is the principal activity of an individual facility in the Commonwealth. Examples of types of major business facilities that are eligible for the credit provided under this section include, but are not limited to, a headquarters, or portion of such a facility, where company employees are physically employed, and where the majority of the company's financial, personnel, legal or planning functions are handled either on a regional or national basis. A company primarily engaged in the Commonwealth in the business of manufacturing or mining; agriculture, forestry or fishing; transportation or communications; or a public utility subject to the corporation income tax shall be deemed to have established or expanded a major business facility in the Commonwealth if it meets the requirements of subdivision 1 during a single taxable year and such facilities are not retail establishments. A major business facility shall also include facilities that perform central management or administrative activities, whether operated as a separate trade or business, or as a separate support operation of another business. Central management or administrative activities include, but are not limited to, general management; accounting; computing; tabulating; purchasing; transportation or shipping; engineering and systems planning; advertising; technical sales and support operations; central administrative offices and warehouses; research, development and testing laboratories; computer-programming, data-processing and other computer-related services facilities; and legal, financial, insurance, and real estate services. The terms used in this subdivision to refer to various types of businesses shall have the same meanings as those terms are commonly defined in the Standard Industrial Classification Manual.

D. For purposes of this section, the "credit year" is the first taxable year following the taxable year in which the major business facility commenced or expanded operations.

E. The Department of Taxation shall make all determinations as to the classification of a major business facility in accordance with the provisions of this section.

F. A "qualified full-time employee" means an employee filling a new, permanent full-time position in a major business facility in the Commonwealth. A "new, permanent full-time position" is a job of an indefinite duration, created by the company as a result of the establishment or expansion of a major business facility in the Commonwealth, requiring a minimum of 35 hours of an employee's time a week for the entire normal year of the company's operations, which "normal year" shall consist of at least 48 weeks, or a position of indefinite duration which requires a minimum of 35 hours of an employee's time a week for the portion of the taxable year in which the employee was initially hired for, or transferred to, the major business facility in the Commonwealth. Seasonal or temporary positions, or a job created when a job function is shifted from an existing location in the Commonwealth to the new major business facility and positions in building and grounds maintenance, security, and other such positions which are ancillary to the principal activities performed by the employees at a major business facility shall not qualify as new, permanent full-time positions.

G. For any major business facility, the amount of credit earned pursuant to this section shall be equal to \$1,000 per qualified full-time employee, over the threshold amount, employed during the credit year. The credit shall be allowed ratably, with one-third of the credit amount allowed annually for three years beginning with the credit year. However, for taxable years beginning on or after January 1, 2009, one-half of the credit amount shall be allowed each year for two years. The portion of the \$1,000 credit earned with respect to any qualified full-time employee who is employed in the Commonwealth for less than 12 full months during the credit year will be determined by multiplying the credit amount by a fraction, the numerator of which is the number of full months that the qualified full-time employee worked for the major

business facility in the Commonwealth during the credit year, and the denominator of which is 12. A separate credit year and a three-year allowance period shall exist for each distinct major business facility of a single taxpayer, except for credits allowed for taxable years beginning on or after January 1, 2009, when a two-year allowance period shall exist for each distinct major business facility of a single taxpayer.

H. The amount of credit allowed pursuant to this section shall not exceed the tax imposed for such taxable year. Any credit not usable for the taxable year the credit was allowed may be, to the extent usable, carried over for the next 10 succeeding taxable years. No credit shall be carried back to a preceding taxable year. In the event that a taxpayer who is subject to the tax limitation imposed pursuant to this subsection is allowed another credit pursuant to any other section of the Code of Virginia, or has a credit carryover from a preceding taxable year, such taxpayer shall be considered to have first utilized any credit allowed which does not have a carryover provision, and then any credit which is carried forward from a preceding taxable year, prior to the utilization of any credit allowed pursuant to this section.

I. No credit shall be earned pursuant to this section for any employee (i) for whom a credit under this section was previously earned by a related party as defined by Internal Revenue Code § 267(b) or a trade or business under common control as defined by Internal Revenue Code § 52(b); (ii) who was previously employed in the same job function in Virginia by a related party as defined by Internal Revenue Code § 267(b) or a trade or business under common control as defined by Internal Revenue Code § 52(b); (iii) whose job function was previously performed at a different location in Virginia by an employee of the taxpayer, a related party as defined by Internal Revenue Code § 267(b), or a trade or business under common control as defined by Internal Revenue Code § 52(b); or (iv) whose job function previously qualified for a credit under this section at a different major business facility on behalf of the taxpayer, a related party as defined by Internal Revenue Code § 267(b), or a trade or business under common control as defined by Internal Revenue Code § 52(b).

J. Subject to the provisions of subsections K or L, recapture of this credit, under the following circumstances, shall be accomplished by increasing the tax in any of the five years succeeding the taxable year in which a credit has been earned pursuant to this section if the number of qualified full-time employees decreases below the average number of qualified full-time employees employed during the credit year. Such tax increase amount shall be determined by (i) recomputing the credit which would have been earned for the original credit year using the decreased number of qualified full-time employees and (ii) subtracting such recomputed credit from the amount of credit previously earned. In the event that the average number of qualifying full-time employees employed at a major business facility falls below the threshold amount in any of the five taxable years succeeding the credit year, all credits earned with respect to such major business facility shall be recaptured. No credit amount will be recaptured more than once pursuant to this subsection. Any recapture pursuant to this section shall reduce credits earned but not yet allowed, and credits allowed but carried forward, before the taxpayer's tax liability may be increased.

K. In the event that a major business facility is located in an economically distressed area or in an enterprise zone as defined in Chapter 49 (§ 59.1-538 et seq.) of Title 59.1 during a credit year, the threshold amount required to qualify for a credit pursuant to this section and to avoid full recapture shall be reduced from 50 to 25 for purposes of subdivision C 1 and subsection J. An area shall qualify as economically distressed if it is a city or county with an unemployment rate for the preceding year of at least 0.5 percent higher than the average statewide unemployment rate for such year. The Virginia Economic Development Partnership shall identify and publish a list of all economically distressed areas at least annually.

L. For taxable years beginning on or after January 1, 2004, but before January 1, 2006, in the event that a major business facility is located in a severely economically distressed area, the threshold amount required to qualify for a credit pursuant to this section and to avoid full recapture shall be reduced from 100 to 25 for purposes of subdivision C 1 and subsection J. However, the total amount of credit allowable under this subsection shall not exceed \$100,000 in aggregate. An area shall qualify as severely economically distressed if it is a city or county with an unemployment rate for the preceding year of at least twice the average statewide unemployment rate for such year. The Virginia Economic Development Partnership shall identify and publish a list of all severely economically distressed areas at least annually.

M. The Tax Commissioner shall promulgate regulations, in accordance with the Administrative Process Act (§ 2.2-4000 et seq.), relating to (i) the computation, carryover, and recapture of the credit provided under this section; (ii) defining criteria for (a) a major business facility, (b) qualifying full-time employees at such facility, and (c) economically distressed areas; and (iii) the computation, carryover, recapture, and redemption of the credit by affiliated companies pursuant to subsection S.

N. The provisions of this section shall apply only in instances where an announcement of intent to establish or expand a major business facility is made on or after January 1, 1994. An announcement of intent to establish or expand a major business facility includes, but is not limited to, a press conference or extensive press coverage, providing information with respect to the impact of the project on the economy of the area where the major business facility is to be established or expanded and the Commonwealth as a whole.

O. The credit allowed pursuant to this section shall be granted to the person who pays taxes for the qualified full-time employees pursuant to Chapter 5 (§ 60.2-500 et seq.) of Title 60.2.

P. No person shall claim a credit allowed pursuant to this section and the credit allowed pursuant to § 58.1-439.2. Any qualified business firm receiving an enterprise zone job creation grant under § 59.1-547 shall not be eligible to receive a major business facility job tax credit pursuant to this section for any job used to qualify for the enterprise zone job creation grant.

Q. No person operating a business in the Commonwealth pursuant to Chapter 29 (§ 59.1-364 et seq.) of Title 59.1 shall claim a credit pursuant to this section.

R. Notwithstanding subsection O, a taxpayer may, for the purpose of determining the number of qualified full-time employees at a major business facility, include the employees of a contractor or a subcontractor if such employees are permanently assigned to the taxpayer's major business facility. If the taxpayer includes the employees of a contractor or subcontractor in its total of qualified full-time employees, it shall enter into a contractual agreement with the contractor or subcontractor prohibiting the contractor or subcontractor from also claiming these employees in order to receive a credit given under this section. The taxpayer shall provide evidence satisfactory to the Department of Taxation that it has entered into such a contract.

S. For purposes of satisfying the criteria of subdivision C 1, two or more affiliated companies may elect to aggregate the number of jobs created for qualified full-time employees as the result of the establishment or expansion by the individual companies in order to qualify for the credit allowed pursuant to this section. For purposes of this subsection, "affiliated companies" means two or more companies related to each other such that (i) one company owns at least 80 percent of the voting power of the other or others or (ii) at least 80 percent of the voting power of two or more companies is owned by the same interests.

T. The General Assembly of Virginia finds that modern business infrastructure allows businesses to locate their administrative or manufacturing facilities with minimal regard to the location of markets or the transportation of raw materials and finished goods, and that the economic vitality of the Commonwealth would be enhanced if such facilities were established in Virginia. Accordingly, the provisions of this section targeting the credit to major business facilities and limiting the credit to those companies which establish a major business facility in Virginia are integral to the purpose of the credit earned pursuant to this section and shall not be deemed severable.

U. For taxable years beginning on and after January 1, 2019, and notwithstanding the provisions of § 58.1-3 or any other provision of law, the Department of Taxation, in consultation with the Virginia Economic Development Partnership, shall publish the following information by November 1 of each year for the 12-month period ending on the preceding December 31:

1. The location of sites used for major business facilities for which a credit was claimed;
2. The North American Industry Classification System codes used for the major business facilities for which a credit was claimed;
3. The number of qualified full time employees for whom a credit was claimed; and
4. The total cost to the Commonwealth's general fund of the credits claimed.

Such information shall be published by the Department, regardless of how few taxpayers claimed the tax credit, in a manner that prevents the identification of particular taxpayers, reports, returns, or items.

Bonds and BANs shall be dated, and may be made redeemable before their maturity or maturities at such price or prices or within such price parameters, all as may be determined by the Treasury Board, by and with the consent of the Governor. Bonds and BANs shall be in such form, shall bear interest at such rate or rates, either at fixed rates or at rates established by formula or other method, and may contain such other provisions, all as determined by the Treasury Board or, when authorized by the Treasury Board, the State Treasurer. The principal of and premium, if any, and the interest on bonds and BANs shall be payable in lawful money of the United States of America. Bonds and BANs may be certificated or uncertificated as determined by the Treasury Board. The Treasury Board may contract for services of such registrars, transfer agents, or other authenticating agents as it deems appropriate to maintain a record of the persons entitled to the bonds and BANs. Bonds and BANs issued in certificated form may be issued under a system of book entry for recording the ownership and transfer of ownership of rights to receive payments on the bonds and BANs. The Treasury Board shall fix the authorized denomination or denominations of the bonds and the place or places of payment of certificated bonds and BANs, which may be at the Office of the State Treasurer or at any bank or trust company within or without the Commonwealth. Bonds shall mature at such time or times not exceeding 30 years from their date or dates, and BANs shall mature at such time or times not exceeding five years from their date or dates.*

The Treasury Board may sell bonds and BANs in such manner, by competitive bidding, negotiated sale, or private placement and for such price or within such price parameters as it may determine, by and with the consent of the Governor, to be in the best interest of the Commonwealth.

In the discretion of the Treasury Board, bonds and BANs may be issued at one time or from time to time and may be sold and issued at the same time with other general obligation bonds and BANs, respectively, of the Commonwealth authorized pursuant to Article X, Section 9 (a) (3), (b), and (c) of the Constitution of Virginia, as separate issues or as a combined issue, designated "Commonwealth of Virginia General Obligation Bonds Bond Anticipation Notes, Series"

§ 5. *Execution of bonds and BANs. Certificated bonds and BANs shall be signed on behalf of the Commonwealth by the Governor and by the State Treasurer, or shall bear their facsimile signatures, and shall bear the lesser seal of the Commonwealth or a facsimile thereof. If the bonds or BANs bear the facsimile signature of the State Treasurer, they shall be signed by such administrative assistant as the State Treasurer shall determine or by such registrar or paying agent as may be designated to sign them by the Treasury Board. If any officer whose signature or facsimile signature appears on any bonds or BANs ceases to be such officer before delivery, such signature or facsimile signature shall nevertheless be valid and sufficient for all purposes the same as if such officer had remained in office until such delivery, and any bond or BAN may bear the facsimile signature of, or may be signed by, such persons as at the actual time of execution are the proper officers to sign such bond or BAN, although, at the date of such bond or BAN, such persons may not have been such officers.*

§ 6. *Sources for payment of expenses. All expenses incurred under this act shall be paid from the proceeds of bonds or BANs, from payments made by the institutions for which the capital projects were authorized in § 2 hereof or from any other available funds as the Treasury Board shall determine.*

§ 7. *Revenues. Each institution of higher learning named above is hereby authorized (i) to fix, revise, charge, and collect rates, fees, and charges for or in connection with the use, occupancy, and services of each capital project mentioned above or the system of which such capital project is a part and (ii) to pledge to the portion of the bonds or BANs issued for such capital project the net revenues resulting from such rates, fees, and charges and remaining after payment of the expenses of operating the project or system, as the case may be. Each such institution is further authorized to create debt service and sinking funds for the payments of the principal of, premium, if any, and interest on the bonds and other reserves required by any agency of the United States of America purchasing the bonds or any portion thereof.*

§ 8. *Investments and contracts. A. Pending the application of the proceeds of the bonds or BANs (including refunding bonds and BANs) to the purpose for which they have been authorized and the application of funds set aside for the purpose to the payment of bonds or BANs, they may be invested by the State Treasurer in securities that are legal investments under the laws of the Commonwealth for public funds and sinking funds, as the case may be. Whenever the State Treasurer receives interest from the investment of the proceeds of bonds or any BANs, such interest shall become a part of the principal of the bonds or any BANs and shall be used in the same manner as required for principal of the bonds or BANs.*

B. The Commonwealth may enter into any contract or other arrangement that is determined to be necessary or appropriate to place the obligation or investment of the Commonwealth, as represented by bonds, BANs, or investments, in whole or in part, on the interest rate, cash flow, or other basis desired by the Commonwealth. Such contract or other arrangement may include, without limitation, contracts commonly known as interest rate swap agreements and futures or contracts providing for payments based on levels of, or changes in, interest rates. These contracts or arrangements may be entered into by the Commonwealth in connection with, or incidental to, entering into, or maintaining any (i) agreement which secures bonds or BANs or (ii) investment, or contract providing for investment, otherwise authorized by law. These contracts and arrangements may contain such payment, security, default, remedy, and other terms and conditions as determined by the Commonwealth, after giving due consideration to the creditworthiness of the counterparty or other obligated party, including any rating by any nationally recognized rating agency, and any other criteria as may be appropriate. The determinations referred to in this subsection may be made by the Treasury Board or any public funds manager with professional investment capabilities duly authorized by the Treasury Board to make such determinations.

C. Any money set aside and pledged to secure payments of bonds, BANs, or any of the contracts entered into pursuant to this section may be invested in accordance with subsection A and may be pledged to and used to service any of the contracts or other arrangements entered into pursuant to subsection B.

§ 9. *Security for bonds and BANs. The net revenues of the capital projects set forth above and the full faith and credit of the Commonwealth are hereby irrevocably pledged for the payment of the principal of and the interest on bonds and BANs (unless the Treasury Board, by and with the consent of the Governor, shall provide otherwise) issued under this act. The proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds, and (iii) refunding BANs are hereby irrevocably pledged for the payment of principal of and interest and any premium on the BANs or bonds to be paid or redeemed thereby. In the event the net revenues pledged to the payment of the bonds or BANs are insufficient in any fiscal year for the timely payment of the principal of, premium, if any, and interest on the bonds or BANs, where the full faith and credit of the Commonwealth have been pledged, the General Assembly shall appropriate a sum sufficient therefor or the Governor shall direct payment therefor from the general fund revenues of the Commonwealth.*

§ 10. *Exemption of interest from tax. The bonds and BANs issued under the provisions of this act, their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any county, city, or town or other political subdivision thereof. The Treasury Board is authorized to take or refrain from taking any and all actions and to covenant to such effect, and to require the participating institutions to do and to covenant likewise, to the extent that, in the judgment of the Treasury Board, it is appropriate in order that interest on the bonds and BANs may be exempt from federal income tax. Alternatively, interest on bonds and BANs may be made subject to inclusion in gross income of the holders thereof for federal income tax purposes.*

§ 11. *Refunding bonds and BANs. The Treasury Board is authorized, by and with the consent of the Governor, to sell and issue, at one time or from time to time, refunding bonds and BANs of the Commonwealth, to refund any or all of the bonds and BANs, respectively, issued under this act or otherwise authorized pursuant to Article X, Section 9 (c), Constitution of Virginia. Refunding bonds and BANs may be issued in a principal amount up to the amount necessary to pay at maturity or redeem the bonds and BANs to be refunded and pay all issuance costs and other financing expenses of the*

refunding. Such refunding bonds and BANs may be issued whether or not the obligations to be refunded are then subject to redemption.

§ 12. Defeasance. Any bond or BAN for which cash or direct obligations of the United States of America shall have been set aside in escrow with the State Treasurer or a bank or trust company, within or without the Commonwealth, shall be deemed no longer outstanding under the applicable authorizing instrument, this act, and Article X, Section 9 (c) or (b), as the case may be, of the Constitution of Virginia.

§ 13. Severability. The provisions of this act or the application thereof to any person or circumstance which are held invalid shall not affect the validity of other provisions or applications of this act which can be given effect without the invalid provisions or applications.

2. That an emergency exists and this act is in force from its passage.

Approved March 2, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 58.1-609.3 and 58.1-3660 of the Code of Virginia are amended and reenacted as follows:

§ 58.1-609.3. Commercial and industrial exemptions.

The tax imposed by this chapter or pursuant to the authority granted in §§ 58.1-605 and 58.1-606 shall not apply to the following:

1. Personal property purchased by a contractor which is used solely in another state or in a foreign country, which could be purchased by such contractor for such use free from sales tax in such other state or foreign country, and which is stored temporarily in Virginia pending shipment to such state or country.

2. (i) Industrial materials for future processing, manufacturing, refining, or conversion into articles of tangible personal property for resale where such industrial materials either enter into the production of or become a component part of the finished product; (ii) industrial materials that are coated upon or impregnated into the product at any stage of its being processed, manufactured, refined, or converted for resale; (iii) machinery or tools or repair parts therefor or replacements thereof, fuel, power, energy, or supplies, used directly in processing, manufacturing, refining, mining or converting products for sale or resale; (iv) materials, containers, labels, sacks, cans, boxes, drums or bags for future use for packaging tangible personal property for shipment or sale; or (v) equipment, printing or supplies used directly to produce a publication described in subdivision 3 of § 58.1-609.6 whether it is ultimately sold at retail or for resale or distribution at no cost. Machinery, tools and equipment, or repair parts therefor or replacements thereof, shall be exempt if the preponderance of their use is directly in processing, manufacturing, refining, mining or converting products for sale or resale. The provisions of this subsection do not apply to the drilling or extraction of oil, gas, natural gas and coalbed methane gas. In addition, the exemption provided herein shall not be applicable to any machinery, tools, and equipment, or any other tangible personal property used by a public service corporation in the generation of electric power, except for raw materials that are inputs to production of electricity, including fuel, or for machinery, tools, and equipment used to generate energy derived from sunlight or wind. The exemption for machinery, tools, and equipment used to generate energy derived from sunlight or wind shall expire June 30, 2027.

3. Tangible personal property sold or leased to a public service corporation engaged in business as a common carrier of property or passengers by railway, for use or consumption by such common carrier directly in the rendition of its public service.

4. Ships or vessels, or repairs and alterations thereof, used or to be used exclusively or principally in interstate or foreign commerce; fuel and supplies for use or consumption aboard ships or vessels plying the high seas, either in intercoastal trade between ports in the Commonwealth and ports in other states of the United States or its territories or possessions, or in foreign commerce between ports in the Commonwealth and ports in foreign countries, when delivered directly to such ships or vessels; or tangible personal property used directly in the building, conversion or repair of the ships or vessels covered by this subdivision. This exemption shall include dredges, their supporting equipment, attendant vessels, and fuel and supplies for use or consumption aboard such vessels, provided the dredges are used exclusively or principally in interstate or foreign commerce.

5. Tangible personal property purchased for use or consumption directly and exclusively in basic research or research and development in the experimental or laboratory sense.

6. Notwithstanding the provisions of subdivision 20 of § 58.1-609.10, all tangible personal property sold or leased to an airline operating in intrastate, interstate or foreign commerce as a common carrier providing scheduled air service on a continuing basis to one or more Virginia airports at least one day per week, for use or consumption by such airline directly in the rendition of its common carrier service.

7. Meals furnished by restaurants or food service operators to employees as a part of wages.

8. Tangible personal property including machinery and tools, repair parts or replacements thereof, and supplies and materials used directly in maintaining and preparing textile products for rental or leasing by an industrial processor engaged in the commercial leasing or renting of laundered textile products.

9. Certified pollution control equipment and facilities as defined in § 58.1-3660, except for any equipment that has not been certified to the Department of Taxation by a state certifying authority *or subdivision certifying authority* pursuant to such section.

10. Parts, tires, meters and dispatch radios sold or leased to taxicab operators for use or consumption directly in the rendition of their services.

11. High speed electrostatic duplicators or any other duplicators which have a printing capacity of 4,000 impressions or more per hour purchased or leased by persons engaged primarily in the printing or photocopying of products for sale or resale.

12. From July 1, 1994, and ending July 1, 2022, raw materials, fuel, power, energy, supplies, machinery or tools or repair parts therefor or replacements thereof, used directly in the drilling, extraction, or processing of natural gas or oil and the reclamation of the well area. For the purposes of this section, the term "natural gas" shall mean "gas," "natural gas," and "coalbed methane gas" as defined in § 45.2-1600. For the purposes of this section, "drilling," "extraction," and "processing" shall include production, inspection, testing, dewatering, dehydration, or distillation of raw natural gas into a usable condition consistent with commercial practices, and the gathering and transportation of raw natural gas to a facility wherein the gas is converted into such a usable condition. Machinery, tools and equipment, or repair parts therefor or replacements thereof, shall be exempt if the preponderance of their use is directly in the drilling, extraction, refining, or processing of natural gas or oil for sale or resale, or in well area reclamation activities required by state or federal law.

13. Beginning July 1, 1997, (i) the sale, lease, use, storage, consumption, or distribution of an orbital or suborbital space facility, space propulsion system, space vehicle, satellite, or space station of any kind possessing space flight capability, including the components thereof, irrespective of whether such facility, system, vehicle, satellite, or station is returned to this Commonwealth for subsequent use, storage or consumption in any manner when used to conduct spaceport activities; (ii) the sale, lease, use, storage, consumption or distribution of tangible personal property placed on or used aboard any orbital or suborbital space facility, space propulsion system, space vehicle, satellite or space station of any kind, irrespective of whether such tangible personal property is returned to this Commonwealth for subsequent use, storage or consumption in any manner when used to conduct spaceport activities; (iii) fuels of such quality not adapted for use in ordinary vehicles, being produced for, sold and exclusively used for space flight when used to conduct spaceport activities; (iv) the sale, lease, use, storage, consumption or distribution of machinery and equipment purchased, sold, leased, rented or used exclusively for spaceport activities and the sale of goods and services provided to operate and maintain launch facilities, launch equipment, payload processing facilities and payload processing equipment used to conduct spaceport activities.

For purposes of this subdivision, "spaceport activities" means activities directed or sponsored at a facility owned, leased, or operated by or on behalf of the Virginia Commercial Space Flight Authority.

The exemptions provided by this subdivision shall not be denied by reason of a failure, postponement or cancellation of a launch of any orbital or suborbital space facility, space propulsion system, space vehicle, satellite or space station of any kind or the destruction of any launch vehicle or any components thereof.

14. Semiconductor cleanrooms or equipment, fuel, power, energy, supplies, or other tangible personal property used primarily in the integrated process of designing, developing, manufacturing, or testing a semiconductor product, a semiconductor manufacturing process or subprocess, or semiconductor equipment without regard to whether the property is actually contained in or used in a cleanroom environment, touches the product, is used before or after production, or is affixed to or incorporated into real estate.

15. Semiconductor wafers for use or consumption by a semiconductor manufacturer.

16. Railroad rolling stock when sold or leased by the manufacturer thereof.

17. Computer equipment purchased or leased on or before June 30, 2011, used in data centers located in a Virginia locality having an unemployment rate above 4.9 percent for the calendar quarter ending November 2007, for the processing, storage, retrieval, or communication of data, including but not limited to servers, routers, connections, and other enabling hardware when part of a new investment of at least \$75 million in such exempt property, when such investment results in the creation of at least 100 new jobs paying at least twice the prevailing average wage in that locality, so long as such investment was made in accordance with a memorandum of understanding with the Virginia Economic Development Partnership Authority entered into or amended between January 1, 2008, and December 31, 2008. The exemption shall also apply to any such computer equipment purchased or leased to upgrade, add to, or replace computer equipment purchased or leased in the initial investment. The exemption shall not apply to any computer software sold separately from the computer equipment, nor shall it apply to general building improvements or fixtures.

18. a. Beginning July 1, 2010, and ending June 30, 2035, computer equipment or enabling software purchased or leased for the processing, storage, retrieval, or communication of data, including but not limited to servers, routers, connections, and other enabling hardware, including chillers and backup generators used or to be used in the operation of the equipment exempted in this paragraph, provided that such computer equipment or enabling software is purchased or leased for use in a data center, which includes any data center facilities located in the same locality as the data center that are under common ownership or affiliation of the data center operator, that (i) is located in a Virginia locality; (ii) results in a

new capital investment on or after January 1, 2009, of at least \$150 million; and (iii) results in the creation on or after July 1, 2009, of at least 50 new jobs by the data center operator and the tenants of the data center, collectively, associated with the operation or maintenance of the data center provided that such jobs pay at least one and one-half times the prevailing average wage in that locality. The requirement of at least 50 new jobs is reduced to 10 new jobs if the data center is located in a distressed locality at the time of the execution of a memorandum of understanding with the Virginia Economic Development Partnership Authority. Additionally, the requirement of a \$150 million capital investment shall be reduced to \$70 million for data centers that qualify for the reduced jobs requirement.

This exemption applies to the data center operator and the tenants of the data center if they collectively meet the requirements listed in this section. Prior to claiming such exemption, any qualifying person claiming the exemption, including a data center operator on behalf of itself and its tenants, must enter into a memorandum of understanding with the Virginia Economic Development Partnership Authority that at a minimum provides the details for determining the amount of capital investment made and the number of new jobs created, the timeline for achieving the capital investment and new job goals, the repayment obligations should those goals not be achieved, and any conditions under which repayment by the qualifying data center or data center tenant claiming the exemption may be required. In addition, the exemption shall apply to any such computer equipment or enabling software purchased or leased to upgrade, supplement, or replace computer equipment or enabling software purchased or leased in the initial investment. The exemption shall not apply to any other computer software otherwise taxable under Chapter 6 of Title 58.1 that is sold or leased separately from the computer equipment, nor shall it apply to general building improvements or other fixtures.

b. For purposes of this subdivision 18, "distressed locality" means:

1. From July 1, 2021, until July 1, 2023, any locality that had (i) an annual unemployment rate for calendar year 2019 that was greater than the final statewide average unemployment rate for that calendar year and (ii) a poverty rate for calendar year 2019 that exceeded the statewide average poverty rate for that year; and

2. From and after July 1, 2023, any locality that has (i) an annual unemployment rate for the most recent calendar year for which such data is available that is greater than the final statewide average unemployment rate for that calendar year and (ii) a poverty rate for the most recent calendar year for which such data is available that exceeds the statewide average poverty rate for that year.

c. For so long as a data center operator is claiming an exemption pursuant to this subdivision 18, such operator shall be required to submit an annual report to the Virginia Economic Development Partnership Authority on behalf of itself and, if applicable, its participating tenants that includes their employment levels, capital investments, average annual wages, qualifying expenses, and tax benefit, and such other information as the Virginia Economic Development Partnership Authority determines is relevant, pursuant to procedures developed by the Virginia Economic Development Partnership Authority. The annual report shall be submitted by the data center operator in a format prescribed by the Virginia Economic Development Partnership Authority. The Virginia Economic Development Partnership Authority shall share all information collected with the Department.

The Department, in collaboration with the Virginia Economic Development Partnership Authority, shall publish a biennial report on the exemption that shall include aggregate information on qualifying expenses claimed under this exemption, the total value of the tax benefit, a return on investment analysis that includes direct and indirect jobs created by data center investment, state and local tax revenues generated, and any other information the Department and the Virginia Economic Development Partnership Authority deem appropriate to demonstrate the costs and benefits of the exemption. The report shall not include, and the Department and the Virginia Economic Development Partnership Authority shall not publish or disclose, any such information if it is unaggregated or if such report or publication could be used to identify a business or individual. The Department shall submit the report to the Chairmen of the Senate Committee on Finance and Appropriations and the House Committees on Appropriations and Finance. The Virginia Economic Development Partnership Authority may publish on its website and distribute annual information indicating the job creation and ranges of capital investments made by a data center operator and, if applicable, its participating tenants, in a format to be developed in consultation with data center operators.

19. (Effective until January 1, 2022) If the preponderance of their use is in the manufacture of beer by a brewer licensed pursuant to subdivision 1 or 2 of § 4.1-208, (i) machinery, tools, and equipment, or repair parts therefor or replacements thereof, fuel, power, energy, or supplies; (ii) materials for future processing, manufacturing, or conversion into beer where such materials either enter into the production of or become a component part of the beer; and (iii) materials, including containers, labels, sacks, cans, bottles, kegs, boxes, drums, or bags for future use, for packaging the beer for shipment or sale.

19. (Effective January 1, 2022) If the preponderance of their use is in the manufacture of beer by a brewer licensed pursuant to subdivision 3 or 4 of § 4.1-206.1, (i) machinery, tools, and equipment, or repair parts therefor or replacements thereof, fuel, power, energy, or supplies; (ii) materials for future processing, manufacturing, or conversion into beer where such materials either enter into the production of or become a component part of the beer; and (iii) materials, including containers, labels, sacks, cans, bottles, kegs, boxes, drums, or bags for future use, for packaging the beer for shipment or sale.

20. If the preponderance of their use is in advanced recycling, as defined in § 58.1-439.7, (i) machinery, tools, and equipment, or repair parts therefor or replacements thereof, fuel, power, energy, or supplies; (ii) materials for processing, manufacturing, or conversion for resale where such materials either are recycled or recovered; and (iii) materials, including

containers, labels, sacks, cans, boxes, drums, or bags used for packaging recycled or recovered material for shipment or resale.

§ 58.1-3660. Certified pollution control equipment and facilities.

A. Certified pollution control equipment and facilities, as defined herein, are hereby declared to be a separate class of property and shall constitute a classification for local taxation separate from other such classification of real or personal property and such property. Certified pollution control equipment and facilities shall be exempt from state and local taxation pursuant to Article X, Section 6 (d) of the Constitution of Virginia.

B. As used in this section:

"Certified pollution control equipment and facilities" means any property, including real or personal property, equipment, facilities, or devices, used primarily for the purpose of abating or preventing pollution of the atmosphere or waters of the Commonwealth and which the state certifying authority *or subdivision certifying authority* having jurisdiction with respect to such property has certified to the Department of Taxation as having been constructed, reconstructed, erected, or acquired in conformity with the state program or requirements for abatement or control of water or atmospheric pollution or contamination, except that in the case of equipment, facilities, devices, or other property intended for use by any political subdivision in conjunction with the operation of its water, wastewater, stormwater, or solid waste management facilities or systems, including property that may be financed pursuant to Chapter 22 (§ 62.1-224 et seq.) of Title 62.1, the state certifying authority *or subdivision certifying authority* having jurisdiction with respect to such property shall, upon the request of the political subdivision, make such certification prospectively for property to be constructed, reconstructed, erected, or acquired for such purposes. Such property shall include, but is not limited to, any equipment used to grind, chip, or mulch trees, tree stumps, underbrush, and other vegetative cover for reuse as mulch, compost, landfill gas, synthetic or natural gas recovered from waste or other fuel, and equipment used in collecting, processing, and distributing, or generating electricity from, landfill gas or synthetic or natural gas recovered from waste, whether or not such property has been certified to the Department of Taxation by a state certifying authority *or subdivision certifying authority*. Such property shall include solar energy equipment, facilities, or devices owned or operated by a business that collect, generate, transfer, or store thermal or electric energy whether or not such property has been certified to the Department of Taxation by a state certifying authority *or subdivision certifying authority*. Such property shall also include energy storage systems, whether or not such property has been certified to the Department of Taxation by a state certifying authority *or subdivision certifying authority*. All such property as described in this definition shall not include the land on which such equipment or facilities are located.

"Energy storage system" means equipment, facilities, or devices that are capable of absorbing energy, storing it for a period of time, and redelivering that energy after it has been stored.

"State certifying authority" means the State Water Control Board or the Virginia Department of Health, for water pollution; the State Air Pollution Control Board, for air pollution; the Department of Energy, for solar energy projects, energy storage systems, and for coal, oil, and gas production, including gas, natural gas, and coalbed methane gas; and the Virginia Waste Management Board, for waste disposal facilities, natural gas recovered from waste facilities, and landfill gas production facilities, and shall include any interstate agency authorized to act in place of a certifying authority of the Commonwealth.

"Subdivision certifying authority" means the body of a political subdivision responsible for administering the political subdivision's water, wastewater, stormwater, or solid waste management facilities or systems. A subdivision certifying authority may only certify property pursuant to this section if the property being certified is equipment, facilities, devices, or other property intended for use by the political subdivision in conjunction with the operation of its water, wastewater, stormwater, or solid waste management facilities or systems. If property is certified by a subdivision certifying authority, it shall not be required to be certified by a state certifying authority.

C. For solar photovoltaic (electric energy) systems, this exemption applies only to (i) projects equaling 20 megawatts or less, as measured in alternating current (AC) generation capacity, for which an initial interconnection request form has been filed with an electric utility or a regional transmission organization on or before December 31, 2018; (ii) projects equaling 20 megawatts or less, as measured in alternating current (AC) generation capacity, that serve any of the public institutions of higher education listed in § 23.1-100 or any private college as defined in § 23.1-105; (iii) 80 percent of the assessed value of projects for which an initial interconnection request form has been filed with an electric utility or a regional transmission organization (a) between January 1, 2015, and June 30, 2018, for projects greater than 20 megawatts or (b) on or after July 1, 2018, for projects greater than 20 megawatts and less than 150 megawatts, as measured in alternating current (AC) generation capacity, and that are first in service on or after January 1, 2017; (iv) projects equaling five megawatts or less, as measured in alternating current (AC) generation capacity, for which an initial interconnection request form has been filed with an electric utility or a regional transmission organization on or after January 1, 2019; and (v) 80 percent of the assessed value of all other projects equaling more than five megawatts and less than 150 megawatts, as measured in alternating current (AC) generation capacity for which an initial interconnection request form has been filed with an electric utility or a regional transmission organization on or after January 1, 2019.

D. The exemption for solar photovoltaic (electric energy) projects greater than five megawatts, as measured in alternating current (AC) generation capacity, shall not apply to any such project unless an application has been filed with the locality for the project before July 1, 2030, regardless of whether a locality assesses a revenue share on such project pursuant to the provisions of § 58.1-2636. If a locality adopts an energy revenue share ordinance under § 58.1-2636, the

exemption for solar photovoltaic (electric energy) projects greater than five megawatts, as measured in alternating current (AC) generation capacity, shall be 100 percent of the assessed value. If a locality does not adopt an energy revenue share ordinance under § 58.1-2636, the exemption for solar photovoltaic (electric energy) projects greater than five megawatts, as measured in alternating current (AC) generation capacity, for which an initial interconnection request form has been filed with an electric utility or a regional transmission organization, shall be 80 percent of the assessed value when an application has been filed with the locality prior to July 1, 2030. For purposes of this subsection, "application has been filed with the locality" means an applicant has filed an application for a zoning confirmation from the locality for a by-right use or an application for land use approval under the locality's zoning ordinance to include an application for a conditional use permit, special use permit, special exception, or other application as set out in the locality's zoning ordinance.

E. For pollution control equipment and facilities certified by the Virginia Department of Health, this exemption applies only to onsite sewage systems that serve 10 or more households, use nitrogen-reducing processes and technology, and are constructed, wholly or partially, with public funds.

F. Notwithstanding any provision to the contrary, for any solar photovoltaic project described in clauses (iii) and (v) of subsection C for which an initial interconnection request form has been filed with an electric utility or a regional transmission organization on or after January 1, 2019, the amount of the exemption shall be as follows: 80 percent of the assessed value in the first five years in service after commencement of commercial operation, 70 percent of the assessed value in the second five years in service, and 60 percent of the assessed value for all remaining years in service.

G. Notwithstanding any provision to the contrary, the exemption for energy storage systems provided under this section (i) shall apply only to projects greater than five megawatts and less than 150 megawatts, as measured in alternating current (AC) storage capacity, and (ii) shall be in the following amounts: 80 percent of the assessed value in the first five years of service after commencement of commercial operation, 70 percent of the assessed value in the second five years in service, and 60 percent of the assessed value for all remaining years in service.

H. The exemption for energy storage systems greater than five megawatts, as measured in alternating current (AC) storage capacity, shall not apply to any such project unless an application has been filed with the locality for the project before July 1, 2030, regardless of whether a locality assesses a revenue share on such project pursuant to the provisions of § 58.1-2636. If a locality adopts an energy revenue share ordinance under § 58.1-2636, the exemption for energy storage systems greater than five megawatts, as measured in alternating current (AC) storage capacity, shall be 100 percent of the assessed value. If a locality does not adopt an energy revenue share ordinance under § 58.1-2636, the exemption for energy storage systems greater than five megawatts, as measured in alternating current (AC) storage capacity, shall be as set out in subsection G when an application has been filed with the locality prior to July 1, 2030. For the purposes of this subsection, "application has been filed with the locality" means an applicant has filed an application for a zoning confirmation from the locality for a by-right use or an application for land use approval under the locality's zoning ordinance to include an application for a conditional use permit, special use permit, special exception, or other application as set out in the locality's zoning ordinance.

A. For purposes of this article, Virginia taxable income for a taxable year means the federal taxable income and any other income taxable to the corporation under federal law for such year of a corporation adjusted as provided in subsections B, C, D, E, G, and H.

For a regulated investment company and a real estate investment trust, such term means the "investment company taxable income" and "real estate investment trust taxable income," respectively, to which shall be added in each case any amount of capital gains and any other income taxable to the corporation under federal law which shall be further adjusted as provided in subsections B, C, D, E, G, and H.

B. There shall be added to the extent excluded from federal taxable income:

2. Interest or dividends, less related expenses to the extent not deducted in determining federal taxable income, on obligations or securities of any authority, commission or instrumentality of the United States, which the laws of the United States exempt from federal income tax but not from state income taxes;

(2) The related member derives at least one-third of its gross revenues from the licensing of intangible property to parties who are not related members, and the transaction giving rise to the expenses and costs between the corporation and the related member was made at rates and terms comparable to the rates and terms of agreements that the related member has entered into with parties who are not related members for the licensing of intangible property; or

(3) The corporation can establish to the satisfaction of the Tax Commissioner that the intangible expenses and costs meet both of the following: (i) the related member during the same taxable year directly or indirectly paid, accrued or incurred such portion to a person who is not a related member, and (ii) the transaction giving rise to the intangible expenses and costs between the corporation and the related member did not have as a principal purpose the avoidance of any portion of the tax due under this chapter.

b. A corporation required to add to its federal taxable income intangible expenses and costs pursuant to subdivision a may petition the Tax Commissioner, after filing the related income tax return for the taxable year and remitting to the Tax Commissioner all taxes, penalties, and interest due under this article for such taxable year including tax upon any amount of intangible expenses and costs required to be added to federal taxable income pursuant to subdivision a, to consider evidence relating to the transaction or transactions between the corporation and a related member or members that resulted in the corporation's taxable income being increased, as required under subdivision a, for such intangible expenses and costs.

If the corporation can demonstrate to the Tax Commissioner's sole satisfaction, by clear and convincing evidence, that the transaction or transactions between the corporation and a related member or members resulting in such increase in taxable income pursuant to subdivision a had a valid business purpose other than the avoidance or reduction of the tax due under this chapter, the Tax Commissioner shall permit the corporation to file an amended return. For purposes of such amended return, the requirements of subdivision a shall not apply to any transaction for which the Tax Commissioner is satisfied (and has identified) that the transaction had a valid business purpose other than the avoidance or reduction of the

tax due under this chapter. Such amended return shall be filed by the corporation within one year of the written permission granted by the Tax Commissioner and any refund of the tax imposed under this article shall include interest at a rate equal to the rate of interest established under § 58.1-15 and such interest shall accrue as provided under § 58.1-1833. However, upon the filing of such amended return, any related member of the corporation that subtracted from taxable income amounts received pursuant to subdivision C 21 shall be subject to the tax imposed under this article on that portion of such amounts for which the corporation has filed an amended return pursuant to this subdivision. In addition, for such transactions identified by the Tax Commissioner herein by which he has been satisfied by clear and convincing evidence, the Tax Commissioner may permit the corporation in filing income tax returns for subsequent taxable years to deduct the related intangible expenses and costs without making the adjustment under subdivision a.

The Tax Commissioner may charge a fee for all direct and indirect costs relating to the review of any petition pursuant to this subdivision, to include costs necessary to secure outside experts in evaluating the petition. The Tax Commissioner may condition the review of any petition pursuant to this subdivision upon payment of such fee.

This addition shall not be required for any portion of the interest expenses and costs, if:

(1) The related member has substantial business operations relating to interest-generating activities, in which the related member pays expenses for at least five full-time employees who maintain, manage, defend or are otherwise responsible for operations or administration relating to the interest-generating activities; and

b. A corporation required to add to its federal taxable income interest expenses and costs pursuant to subdivision a may petition the Tax Commissioner, after filing the related income tax return for the taxable year and remitting to the Tax Commissioner all taxes, penalties, and interest due under this article for such taxable year including tax upon any amount of interest expenses and costs required to be added to federal taxable income pursuant to subdivision a, to consider evidence relating to the transaction or transactions between the corporation and a related member or members that resulted in the corporation's taxable income being increased, as required under subdivision a, for such interest expenses and costs.

If the corporation can demonstrate to the Tax Commissioner's sole satisfaction, by clear and convincing evidence, that the transaction or transactions between the corporation and a related member or members resulting in such increase in taxable income pursuant to subdivision a had a valid business purpose other than the avoidance or reduction of the tax due under this chapter and that the related payments between the parties were made at arm's length rates and terms, the Tax Commissioner shall permit the corporation to file an amended return. For purposes of such amended return, the requirements of subdivision a shall not apply to any transaction for which the Tax Commissioner is satisfied (and has identified) that the transaction had a valid business purpose other than the avoidance or reduction of the tax due under this chapter and that the related payments between the parties were made at arm's length rates and terms. Such amended return shall be filed by the corporation within one year of the written permission granted by the Tax Commissioner and any refund of the tax imposed under this article shall include interest at a rate equal to the rate of interest established under § 58.1-15 and such interest shall accrue as provided under § 58.1-1833. However, upon the filing of such amended return, any related

member of the corporation that subtracted from taxable income amounts received pursuant to subdivision C 21 shall be subject to the tax imposed under this article on that portion of such amounts for which the corporation has filed an amended return pursuant to this subdivision. In addition, for such transactions identified by the Tax Commissioner herein by which he has been satisfied by clear and convincing evidence, the Tax Commissioner may permit the corporation in filing income tax returns for subsequent taxable years to deduct the related interest expenses and costs without making the adjustment under subdivision a.

The Tax Commissioner may charge a fee for all direct and indirect costs relating to the review of any petition pursuant to this subdivision, to include costs necessary to secure outside experts in evaluating the petition. The Tax Commissioner may condition the review of any petition pursuant to this subdivision upon payment of such fee.

No suit for the purpose of contesting any action of the Tax Commissioner under this subdivision shall be maintained in any court of this Commonwealth.

§ 58.1-3321. Effect on rate when assessment results in tax increase; public hearings; referendum.

A. When any annual assessment, biennial assessment, or general reassessment of real property by a county, city, or town would result in an increase of one percent or more in the total real property tax levied, such county, city, or town shall reduce its rate of levy for the forthcoming tax year so as to cause such rate of levy to produce no more than 101 percent of the previous year's real property tax levies, unless subsection B is complied with, which rate shall be determined by multiplying the previous year's total real property tax levies by 101 percent and dividing the product by the forthcoming tax year's total real property assessed value. An additional assessment or reassessment due to the construction of new or other improvements, including those improvements and changes set forth in § 58.1-3285, to the property shall not be an annual assessment or general reassessment within the meaning of this section, nor shall the assessed value of such improvements be included in calculating the new tax levy for purposes of this section. Special levies shall not be included in any calculations provided for under this section.

B. The governing body of a county, city, or town may, after conducting a public hearing, which shall not be held at the same time as the annual budget hearing, increase the rate above the reduced rate required in subsection A if any such increase is deemed to be necessary by such governing body.

C. Notice of ~~the any~~ public hearing *held pursuant to this section* shall be given at least 30 days before the date of such hearing by the publication of a notice in (i) at least one newspaper of general circulation in such county or city and (ii) a prominent public location at which notices are regularly posted in the building where the governing body of the county, city, or town regularly conducts its business, except that such notice shall be given at least 14 days before the date of such hearing in any year in which neither a general appropriation act nor amendments to a general appropriation act providing appropriations for the immediately following fiscal year have been enacted by April 30 of such year. *Additionally, in a county, city, or town that conducts its reassessment more than once every four years, the notice for any public hearing held pursuant to this section shall be published on a different day and in a different notice from any notice published for the annual budget hearing.* Any such notice shall be at least the size of one-eighth page of a standard size or a tabloid size newspaper, and the headline in the advertisement shall be in a type no smaller than 18-point. The notice described in clause (i) shall not be placed in that portion, if any, of the newspaper reserved for legal notices and classified advertisements. 2. Lowered Rate Necessary to Offset Increased Assessment: The tax rate which would levy the same amount of real estate tax as last year, when multiplied by the new total assessed value of real estate with the exclusions mentioned above, would be \$ ____ per \$100 of assessed value. This rate will be known as the "lowered tax rate."

3. Effective Rate Increase: The (name of the county, city or town) proposes to adopt a tax rate of \$ ____ per \$100 of assessed value. The difference between the lowered tax rate and the proposed rate would be \$ ____ per \$100, or ____ percent. This difference will be known as the "effective tax rate increase."

Individual property taxes may, however, increase at a percentage greater than or less than the above percentage.

4. Proposed Total Budget Increase: Based on the proposed real property tax rate and changes in other revenues, the total budget of (name of county, city or town) will exceed last year's by ____ percent.

A public hearing on the increase will be held on (date and time) at (meeting place).

~~E. D.~~ All hearings shall be open to the public. The governing body shall permit persons desiring to be heard an opportunity to present oral testimony within such reasonable time limits as shall be determined by the governing body.

~~E. E.~~ The provisions of this section shall not be applicable to the assessment of public service corporation property by the State Corporation Commission.

~~E. F.~~ Notwithstanding other provisions of general or special law, the tax rate for taxes due on or before June 30 of each year may be fixed on or before May 15 of that tax year.

CHAPTER 31

An Act to amend and reenact § 46.2-1063 of the Code of Virginia, relating to front and rear bumper height limits; emergency.

[S 777]

Approved March 22, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 46.2-1063 of the Code of Virginia is amended and reenacted as follows:

§ 46.2-1063. Alteration of suspension system; bumper height limits; raising body above frame rail.

No person shall drive on a public highway any motor vehicle registered as a passenger motor vehicle if it has been modified by alteration of its altitude from the ground to the extent that its bumpers, measured to any point on the lower edge of the main horizontal bumper bar, exclusive of any bumper guards, are not within the range of fourteen inches to twenty-two inches above the ground.

No vehicle shall be modified to cause the vehicle body or chassis to come in contact with the ground, expose the fuel tank to damage from collision, or cause the wheels to come in contact with the body under normal operation. No part of the original suspension system of a motor vehicle shall be disconnected to defeat the safe operation of its suspension system. However, nothing contained in this section shall prevent the installation of heavy duty equipment, including shock absorbers and overload springs. Nothing contained in this section shall prohibit the driving on a public highway of a motor vehicle with normal wear to the suspension system if such normal wear does not adversely affect the control of the vehicle.

No person shall drive on a public highway any motor vehicle registered as a truck if it has been modified by alteration of its altitude from the ground to the extent that its bumpers, measured to any point on the lower edge of the main horizontal bumper bar, exclusive of any bumper guards, do not fall within the limits specified herein for its gross vehicle weight rating category. The front bumper height of trucks whose gross vehicle weight ratings are 4,500 pounds or less shall be no less

than 14 inches and no more than 28 inches, and their rear bumper height shall be no less than 14 inches and no more than 28 inches. The front bumper height of trucks whose gross vehicle weight ratings are 4,501 pounds to 7,500 pounds shall be no less than 14 inches and no more than 29 inches, and their rear bumper height shall be no less than 14 inches and no more than 30 inches. The front bumper height of trucks whose gross vehicle weight ratings are 7,501 pounds to 15,000 pounds shall be no less than 14 inches and no more than 30 inches, and their rear bumper height shall be no less than 14 inches and no more than 31 inches. Bumper height limitations contained in this ~~section~~ *paragraph* shall not apply to trucks with gross vehicle weight ratings in excess of 15,000 pounds. For the purpose of this section, "truck" includes pickup and panel trucks, and "gross vehicle weight ratings" means manufacturer's gross vehicle weight ratings established for that vehicle as indicated by a number, plate, sticker, decal, or other device affixed to the vehicle by its manufacturer.

In the absence of bumpers, and in cases where bumper heights have been lowered, height measurements under the foregoing provisions of this section shall be made to the bottom of the frame rail. However, if bumper heights have been raised, height measurements under the foregoing provisions of this section shall be made to the bottom of the main horizontal bumper bar.

No vehicle shall be operated on a public highway if it has been modified by any means so as to raise its body more than three inches, in addition to any manufacturer's spacers and bushings, above the vehicle's frame rail or manufacturer's attachment points on the frame rail.

No passenger car or pickup or panel truck shall be operated on a public highway if the suspension, frame, or chassis has been modified by any means so as to cause the height of the front bumper to be four or more inches greater than the height of the rear bumper.

This section shall not apply to specially designed or modified motor vehicles when driven off the public highways in races and similar events. Such motor vehicles may be lawfully towed on the highways of the Commonwealth.

2. That an emergency exists and this act is in force from its passage.

CHAPTER 32

An Act to amend and reenact § 62.1-44.15:28, as it is currently effective and as it shall become effective, of the Code of Virginia, relating to stormwater management; proprietary best management practices; emergency.

[H 1224]

Approved April 1, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 62.1-44.15:28, as it is currently effective and as it shall become effective, of the Code of Virginia is amended and reenacted as follows:

§ 62.1-44.15:28. (For expiration date, see Acts 2016, cc. 68 and 758, as amended by Acts 2017, c. 345) Development of regulations.

A. The Board is authorized to adopt regulations that specify minimum technical criteria and administrative procedures for Virginia Stormwater Management Programs. The regulations shall:

1. Establish standards and procedures for administering a VSMP;
2. Establish minimum design criteria for measures to control nonpoint source pollution and localized flooding, and incorporate the stormwater management regulations adopted pursuant to the Erosion and Sediment Control Law (§ 62.1-44.15:51 et seq.), as they relate to the prevention of stream channel erosion. These criteria shall be periodically modified as required in order to reflect current engineering methods;
3. Require the provision of long-term responsibility for and maintenance of stormwater management control devices and other techniques specified to manage the quality and quantity of runoff;
4. Require as a minimum the inclusion in VSMPs of certain administrative procedures that include, but are not limited to, specifying the time period within which a VSMP authority shall grant land-disturbing activity approval, the conditions and processes under which approval shall be granted, the procedures for communicating disapproval, the conditions under which an approval may be changed, and requirements for inspection of approved projects;
5. Establish by regulations a statewide permit fee schedule to cover all costs associated with the implementation of a VSMP related to land-disturbing activities of one acre or greater. Such fee attributes include the costs associated with plan review, VSMP registration statement review, permit issuance, state-coverage verification, inspections, reporting, and compliance activities associated with the land-disturbing activities as well as program oversight costs. The fee schedule shall also include a provision for a reduced fee for land-disturbing activities between 2,500 square feet and up to one acre in Chesapeake Bay Preservation Act (§ 62.1-44.15:67 et seq.) localities. The fee schedule shall be governed by the following:

a. The revenue generated from the statewide stormwater permit fee shall be collected utilizing, where practicable, an online payment system, and the Department's portion shall be remitted to the State Treasurer for deposit in the Virginia Stormwater Management Fund established pursuant to § 62.1-44.15:29. However, whenever the Board has approved a VSMP, no more than 30 percent of the total revenue generated by the statewide stormwater permit fees collected shall be remitted to the State Treasurer for deposit in the Virginia Stormwater Management Fund, with the balance going to the VSMP authority.

b. Fees collected pursuant to this section shall be in addition to any general fund appropriation made to the Department or other supporting revenue from a VSMP; however, the fees shall be set at a level sufficient for the Department and the VSMP to fully carry out their responsibilities under this article and its attendant regulations and local ordinances or standards and specifications where applicable. When establishing a VSMP, the VSMP authority shall assess the statewide fee schedule and shall have the authority to reduce or increase such fees, and to consolidate such fees with other program-related charges, but in no case shall such fee changes affect the amount established in the regulations as available to the Department for program oversight responsibilities pursuant to subdivision 5 a. A VSMP's portion of the fees shall be used solely to carry out the VSMP's responsibilities under this article and its attendant regulations, ordinances, or annual standards and specifications.

c. Until July 1, 2014, the fee for coverage under the General Permit for Discharges of Stormwater from Construction Activities issued by the Board, or where the Board has issued an individual permit or coverage under the General Permit for Discharges of Stormwater from Construction Activities for an entity for which it has approved annual standards and specifications, shall be \$750 for each large construction activity with sites or common plans of development equal to or greater than five acres and \$450 for each small construction activity with sites or common plans of development equal to or greater than one acre and less than five acres. On and after July 1, 2014, such fees shall only apply where coverage has been issued under the Board's General Permit for Discharges of Stormwater from Construction Activities to a state agency or federal entity for which it has approved annual standards and specifications. After establishment, such fees may be modified in the future through regulatory actions.

d. Until July 1, 2014, the Department is authorized to assess a \$125 reinspection fee for each visit to a project site that was necessary to check on the status of project site items noted to be in noncompliance and documented as such on a prior project inspection.

e. In establishing the fee schedule under this subdivision, the Department shall ensure that the VSMP authority portion of the statewide permit fee for coverage under the General Permit for Discharges of Stormwater from Construction Activities for small construction activity involving a single family detached residential structure with a site or area, within or outside a common plan of development or sale, that is equal to or greater than one acre but less than five acres shall be no greater than the VSMP authority portion of the fee for coverage of sites or areas with a land-disturbance acreage of less than one acre within a common plan of development or sale.

f. When any fees are collected pursuant to this section by credit cards, business transaction costs associated with processing such payments may be additionally assessed;

6. Establish statewide standards for stormwater management from land-disturbing activities of one acre or greater, except as specified otherwise within this article, and allow for the consolidation in the permit of a comprehensive approach to addressing stormwater management and erosion and sediment control, consistent with the provisions of the Erosion and Sediment Control Law (§ 62.1-44.15:51 et seq.) and this article. However, such standards shall also apply to land-disturbing activity exceeding an area of 2,500 square feet in all areas of the jurisdictions designated as subject to the Chesapeake Bay Preservation Area Designation and Management Regulations;

7. Establish a procedure by which a stormwater management plan that is approved for a residential, commercial, or industrial subdivision shall govern the development of the individual parcels, including those parcels developed under subsequent owners;

8. Notwithstanding the provisions of subdivision 5, establish a procedure by which neither a registration statement nor payment of the Department's portion of the statewide permit fee established pursuant to that subdivision shall be required for coverage under the General Permit for Discharges of Stormwater from Construction Activities for construction activity involving a single-family detached residential structure, within or outside a common plan of development or sale;

9. Provide for the *certification and* use of a proprietary best management practice only if another state, regional, or national ~~certification~~ program has verified ~~and certified~~ its nutrient or sediment removal effectiveness *and all of such program's established test protocol requirements were met or exceeded. As used in this subdivision and any regulations or guidance adopted pursuant to this subdivision, "certification" means a determination by the Department that a proprietary best management practice is approved for use in accordance with this article;*

10. Require that VSMPs maintain after-development runoff rate of flow and characteristics that replicate, as nearly as practicable, the existing predevelopment runoff characteristics and site hydrology, or improve upon the contributing share of the existing predevelopment runoff characteristics and site hydrology if stream channel erosion or localized flooding is an existing predevelopment condition. Except where more stringent requirements are necessary to address total maximum daily load requirements or to protect exceptional state waters, any land-disturbing activity that provides for stormwater management shall satisfy the conditions of this subsection if the practices are designed to (i) detain the water quality volume and to release it over 48 hours; (ii) detain and release over a 24-hour period the expected rainfall resulting from the one year, 24-hour storm; and (iii) reduce the allowable peak flow rate resulting from the 1.5-year, two-year, and 10-year, 24-hour storms to a level that is less than or equal to the peak flow rate from the site assuming it was in a good forested condition, achieved through multiplication of the forested peak flow rate by a reduction factor that is equal to the runoff volume from the site when it was in a good forested condition divided by the runoff volume from the site in its proposed condition, and shall be exempt from any flow rate capacity and velocity requirements for natural or man-made channels as defined in any regulations promulgated pursuant to this section or any ordinances adopted pursuant to § 62.1-44.15:27 or 62.1-44.15:33;

11. Encourage low-impact development designs, regional and watershed approaches, and nonstructural means for controlling stormwater;

12. Promote the reclamation and reuse of stormwater for uses other than potable water in order to protect state waters and the public health and to minimize the direct discharge of pollutants into state waters;

13. Establish procedures to be followed when a locality that operates a VSMP wishes to transfer administration of the VSMP to the Department;

14. Establish a statewide permit fee schedule for stormwater management related to municipal separate storm sewer system permits;

15. Provide for the evaluation and potential inclusion of emerging or innovative nonproprietary stormwater control technologies that may prove effective in reducing nonpoint source pollution;

16. Require the owner of property that is zoned for residential use and on which is located a privately owned stormwater management facility serving one or more residential properties to record the long-term maintenance and inspection requirements for such facility with the deed for the owner's property; and

17. Require that all final plan elements, specifications, or calculations whose preparation requires a license under Chapter 4 (§ 54.1-400 et seq.) or 22 (§ 54.1-2200 et seq.) of Title 54.1 be appropriately signed and sealed by a professional who is licensed to engage in practice in the Commonwealth. Nothing in this subdivision shall authorize any person to engage in practice outside his area of professional competence.

B. The Board may integrate and consolidate components of the regulations implementing the Erosion and Sediment Control program and the Chesapeake Bay Preservation Area Designation and Management program with the regulations governing the Virginia Stormwater Management Program (VSMP) Permit program or repeal components so that these programs may be implemented in a consolidated manner that provides greater consistency, understanding, and efficiency for those regulated by and administering a VSMP.

§ 62.1-44.15:28. (For effective date, see Acts 2016, cc. 68 and 758, as amended by Acts 2017, c. 345) Development of regulations.

The Board is authorized to adopt regulations that establish requirements for the effective control of soil erosion, sediment deposition, and stormwater, including nonagricultural runoff, that shall be met in any VESMP to prevent the unreasonable degradation of properties, stream channels, waters, and other natural resources, and that specify minimum technical criteria and administrative procedures for VESMPs. The regulations shall:

1. Establish standards and procedures for administering a VESMP;

2. Establish minimum standards of effectiveness of the VESMP and criteria and procedures for reviewing and evaluating its effectiveness. The minimum standards of program effectiveness established by the Board shall provide that (i) no soil erosion control and stormwater management plan shall be approved until it is reviewed by a plan reviewer certified pursuant to § 62.1-44.15:30, (ii) each inspection of a land-disturbing activity shall be conducted by an inspector certified pursuant to § 62.1-44.15:30, and (iii) each VESMP shall contain a program administrator, a plan reviewer, and an inspector, each of whom is certified pursuant to § 62.1-44.15:30 and all of whom may be the same person;

3. Be based upon relevant physical and developmental information concerning the watersheds and drainage basins of the Commonwealth, including data relating to land use, soils, hydrology, geology, size of land area being disturbed, proximate water bodies and their characteristics, transportation, and public facilities and services;

4. Include any survey of lands and waters as the Board deems appropriate or as any applicable law requires to identify areas, including multijurisdictional and watershed areas, with critical soil erosion and sediment problems;

5. Contain conservation standards for various types of soils and land uses, which shall include criteria, techniques, and methods for the control of soil erosion and sediment resulting from land-disturbing activities;

6. Establish water quality and water quantity technical criteria. These criteria shall be periodically modified as required in order to reflect current engineering methods;

7. Require the provision of long-term responsibility for and maintenance of stormwater management control devices and other techniques specified to manage the quality and quantity of runoff;

8. Require as a minimum the inclusion in VESMPs of certain administrative procedures that include, but are not limited to, specifying the time period within which a VESMP authority shall grant land-disturbance approval, the conditions and processes under which such approval shall be granted, the procedures for communicating disapproval, the conditions under which an approval may be changed, and requirements for inspection of approved projects;

9. Establish a statewide fee schedule to cover all costs associated with the implementation of a VESMP related to land-disturbing activities where permit coverage is required, and for land-disturbing activities where the Board serves as a VESMP authority or VSMP authority. Such fee attributes include the costs associated with plan review, permit registration statement review, permit issuance, permit coverage verification, inspections, reporting, and compliance activities associated with the land-disturbing activities as well as program oversight costs. The fee schedule shall also include a provision for a reduced fee for a land-disturbing activity that disturbs 2,500 square feet or more but less than one acre in an area of a locality designated as a Chesapeake Bay Preservation Area pursuant to the Chesapeake Bay Preservation Act (§ 62.1-44.15:67 et seq.). The fee schedule shall be governed by the following:

a. The revenue generated from the statewide fee shall be collected utilizing, where practicable, an online payment system, and the Department's portion shall be remitted to the State Treasurer for deposit in the Virginia Stormwater Management Fund established pursuant to § 62.1-44.15:29. However, whenever the Board has approved a VESMP, no more

than 30 percent of the total revenue generated by the statewide fees collected shall be remitted to the State Treasurer for deposit in the Virginia Stormwater Management Fund, with the balance going to the VESMP authority;

b. Fees collected pursuant to this section shall be in addition to any general fund appropriation made to the Department or other supporting revenue from a VESMP; however, the fees shall be set at a level sufficient for the Department, the Board, and the VESMP to fully carry out their responsibilities under this article and local ordinances or standards and specifications where applicable. When establishing a VESMP, the VESMP authority shall assess the statewide fees pursuant to the schedule and shall have the authority to reduce or increase such fees, and to consolidate such fees with other program-related charges, but in no case shall such fee changes affect the amount established in the regulations as available to the Department for program oversight responsibilities pursuant to subdivision a. A VESMP's portion of the fees shall be used solely to carry out the VESMP's responsibilities under this article and associated ordinances;

c. In establishing the fee schedule under this subdivision, the Department shall ensure that the VESMP authority portion of the statewide fee for coverage under the General Permit for Discharges of Stormwater from Construction Activities for small construction activity involving a single-family detached residential structure with a site or area, within or outside a common plan of development or sale, that is equal to or greater than one acre but less than five acres shall be no greater than the VESMP authority portion of the fee for coverage of sites or areas with a land-disturbance acreage of less than one acre within a common plan of development or sale;

d. When any fees are collected pursuant to this section by credit cards, business transaction costs associated with processing such payments may be additionally assessed;

e. Notwithstanding the other provisions of this subdivision 9, establish a procedure by which neither a registration statement nor payment of the Department's portion of the statewide fee established pursuant to this subdivision 9 shall be required for coverage under the General Permit for Discharges of Stormwater from Construction Activities for construction activity involving a single-family detached residential structure, within or outside a common plan of development or sale;

10. Establish statewide standards for soil erosion control and stormwater management from land-disturbing activities;

11. Establish a procedure by which a soil erosion control and stormwater management plan or stormwater management plan that is approved for a residential, commercial, or industrial subdivision shall govern the development of the individual parcels, including those parcels developed under subsequent owners;

12. Provide for the *certification* and use of a proprietary best management practice only if another state, regional, or national ~~certification~~ program has verified ~~and certified~~ its nutrient or sediment removal effectiveness *and all of such program's established test protocol requirements were met or exceeded. As used in this subdivision and any regulations or guidance adopted pursuant to this subdivision, "certification" means a determination by the Department that a proprietary best management practice is approved for use in accordance with this article;*

13. Require that VESMPs maintain after-development runoff rate of flow and characteristics that replicate, as nearly as practicable, the existing predevelopment runoff characteristics and site hydrology, or improve upon the contributing share of the existing predevelopment runoff characteristics and site hydrology if stream channel erosion or localized flooding is an existing predevelopment condition.

a. Except where more stringent requirements are necessary to address total maximum daily load requirements or to protect exceptional state waters, any land-disturbing activity that was subject to the water quantity requirements that were in effect pursuant to this article prior to July 1, 2014, shall be deemed to satisfy the conditions of this subsection if the practices are designed to (i) detain the water volume equal to the first one-half inch of runoff multiplied by the impervious surface of the land development project and to release it over 48 hours; (ii) detain and release over a 24-hour period the expected rainfall resulting from the one year, 24-hour storm; and (iii) reduce the allowable peak flow rate resulting from the 1.5-year, two-year, and 10-year, 24-hour storms to a level that is less than or equal to the peak flow rate from the site assuming it was in a good forested condition, achieved through multiplication of the forested peak flow rate by a reduction factor that is equal to the runoff volume from the site when it was in a good forested condition divided by the runoff volume from the site in its proposed condition. Any land-disturbing activity that complies with these requirements shall be exempt from any flow rate capacity and velocity requirements for natural or man-made channels as defined in any regulations promulgated pursuant to this section or any ordinances adopted pursuant to § 62.1-44.15:27 or 62.1-44.15:33;

b. Any stream restoration or relocation project that incorporates natural channel design concepts is not a man-made channel and shall be exempt from any flow rate capacity and velocity requirements for natural or man-made channels as defined in any regulations promulgated pursuant to this article;

14. Encourage low-impact development designs, regional and watershed approaches, and nonstructural means for controlling stormwater;

15. Promote the reclamation and reuse of stormwater for uses other than potable water in order to protect state waters and the public health and to minimize the direct discharge of pollutants into state waters;

16. Establish procedures to be followed when a locality chooses to change the type of program it administers pursuant to subsection D of § 62.1-44.15:27;

17. Establish a statewide permit fee schedule for stormwater management related to MS4 permits;

18. Provide for the evaluation and potential inclusion of emerging or innovative nonproprietary stormwater control technologies that may prove effective in reducing nonpoint source pollution;

19. Require the owner of property that is zoned for residential use and on which is located a privately owned stormwater management facility serving one or more residential properties to record the long-term maintenance and inspection requirements for such facility with the deed for the owner's property; and

20. Require that all final plan elements, specifications, or calculations whose preparation requires a license under Chapter 4 (§ 54.1-400 et seq.) or 22 (§ 54.1-2200 et seq.) of Title 54.1 be appropriately signed and sealed by a professional who is licensed to engage in practice in the Commonwealth. Nothing in this subdivision shall authorize any person to engage in practice outside his area of professional competence.

2. That the Department of Environmental Quality shall prioritize review of any proprietary best management practice (BMP) that was on the Virginia Stormwater BMP Clearinghouse prior to December 31, 2021, and that submits documentation that another state, regional, or national program has verified its nutrient or sediment removal effectiveness and that it met or exceeded all of such program's established test protocol requirements.

3. That an emergency exists and this act is in force from its passage.

CHAPTER 35

An Act to amend and reenact § 28.2-618, as it is currently effective and as it shall become effective, of the Code of Virginia, relating to right to aquaculture.

[H 189]

Approved April 1, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 28.2-618, as it is currently effective and as it shall become effective, of the Code of Virginia is amended and reenacted as follows:

§ 28.2-618. (Effective until July 1, 2035) Commonwealth guarantees rights of renter subject to right of fishing.

A. The Commonwealth shall guarantee to any person who has complied with ground assignment requirements the absolute right to continue to use and occupy the ground for the term of the lease, *including the right to propagate shellfish by whatever legal means necessary.*

B. The right described in subsection A is subject to:

1. The provisions of § 28.2-613;

2. Riparian rights;

3. The right of fishing in waters above the bottoms, provided (i) that no person exercising the right of fishing shall use any device which is fixed to the bottom, or which, in any way, interferes with the renter's rights or damages the bottoms, or the oysters planted thereon, and (ii) that crab pots and gill nets which are not staked to the bottom shall not be considered devices which are fixed to the bottom unless the crab pots and gill nets are used over planted oyster beds in waters of less than four feet at mean low water on the seaside of Northampton and Accomack Counties;

4. Established fishing stands, but only if the fishing stand license fee is timely received from the existing licensee of the fishing stand and no new applicant shall have priority over the oyster lease. However, a fishing stand location assigned prior to the lease of the oyster ground is a vested interest, a chattel real, and an inheritable right which may be transferred or assigned whenever the current licensee complies with all existing laws; and

5. Municipal dredging projects located in the Lynnhaven River or its creeks and tributaries, including dredging projects to restore existing navigation channels in areas approved by the Commission.

C. When a municipal dredging project of the type described in subdivision B 5 proposes to impact grounds that are condemned or not subject to beneficial use as oyster-planting ground, the Commissioner shall notify, by certified letter, the holder of any such lease within the footprint of the proposed navigation channel, requesting a response within 60 days. The locality shall compensate the lessee for the use of the ground, and if the parties cannot agree on a compensation amount, a court of competent jurisdiction shall determine the value of the ground as of the date it is first disturbed.

D. When a municipal dredging project of the type described in subdivision B 5 proposes to impact grounds that are subject to beneficial use as oyster-planting ground, the following process shall apply:

1. The Commissioner shall review any such proposed project to ensure that the project, in addition to meeting the considerations established in § 28.2-1205, avoids impacting grounds that are subject to beneficial use as oyster-planting ground to the maximum extent practicable. Upon determining that the project meets such standard, the Commissioner shall notify, by certified letter, the holder of any such lease within the footprint of the proposed navigation channel requesting a response within 60 days.

2. After the Commissioner sends such notice, the locality shall compensate the lessee for the use of the ground. If the lessee and the locality are able to agree on a compensation amount within 90 days from the date the Commissioner's notice is sent, no additional action is necessary on the part of the locality. Otherwise, the locality shall offer in writing to enter with the lessee into mediation, as defined in § 8.01-581.21, at the expense of the locality. If the lessee refuses such offer, or if the locality and the lessee reach no agreement within nine months of such offer, a court of competent jurisdiction shall determine and order fair compensation to the lessee.

3. The Commission shall hold a hearing on any such project prior to approval. Any objector, the locality, and the lessee shall each have an opportunity to be heard at such hearing. If the Commission approves the project and compensation for the lease has been determined pursuant to the provisions of this subsection, the Commissioner shall issue the permit for the project.

4. The provisions of any compensation agreement or order made pursuant to this section may include terms establishing a timeline by which the lessee shall vacate the impacted portion of the leased ground. The process of transferring a lease as a result of the completion of the process established in this subsection shall not extend or otherwise affect any timeline established in this subsection.

§ 28.2-618. (Effective July 1, 2035) Commonwealth guarantees rights of renter subject to right of fishing.

The Commonwealth shall guarantee to any person who has complied with ground assignment requirements the absolute right to continue to use and occupy the ground for the term of the lease, *including the right to propagate shellfish by whatever legal means necessary*, subject to:

1. Section 28.2-613;

2. Riparian rights;

3. The right of fishing in waters above the bottoms, provided (i) that no person exercising the right of fishing shall use any device which is fixed to the bottom, or which, in any way, interferes with the renter's rights or damages the bottoms, or the oysters planted thereon, and (ii) that crab pots and gill nets which are not staked to the bottom shall not be considered devices which are fixed to the bottom unless the crab pots and gill nets are used over planted oyster beds in waters of less than four feet at mean low water on the seaside of Northampton and Accomack Counties;

4. Established fishing stands, but only if the fishing stand license fee is timely received from the existing licensee of the fishing stand and no new applicant shall have priority over the oyster lease. However, a fishing stand location assigned prior to the lease of the oyster ground is a vested interest, a chattel real, and an inheritable right which may be transferred or assigned whenever the current licensee complies with all existing laws; and

5. Municipal dredging projects located in the Lynnhaven River or its creeks and tributaries, including dredging projects to restore existing navigation channels in areas approved by the Commission. Such projects shall be limited to grounds that are condemned, restricted, or otherwise nonproductive. The locality shall compensate the lessee for the use of the ground, and if the parties cannot agree on a compensation amount, a court of competent jurisdiction shall determine the value of the ground as of the date it is first disturbed.

CHAPTER 36

An Act to amend and reenact § 28.2-618, as it is currently effective and as it shall become effective, of the Code of Virginia, relating to right to aquaculture.

[S 509]

Approved April 1, 2022

2. Riparian rights;

3. The right of fishing in waters above the bottoms, provided (i) that no person exercising the right of fishing shall use any device which is fixed to the bottom, or which, in any way, interferes with the renter's rights or damages the bottoms, or the oysters planted thereon, and (ii) that crab pots and gill nets which are not staked to the bottom shall not be considered

devices which are fixed to the bottom unless the crab pots and gill nets are used over planted oyster beds in waters of less than four feet at mean low water on the seaside of Northampton and Accomack Counties;

C. When a municipal dredging project of the type described in subdivision B 5 proposes to impact grounds that are condemned or not subject to beneficial use as oyster-planting ground, the Commissioner shall notify, by certified letter, the holder of any such lease within the footprint of the proposed navigation channel, requesting a response within 60 days. The locality shall compensate the lessee for the use of the ground, and if the parties cannot agree on a compensation amount, a court of competent jurisdiction shall determine the value of the ground as of the date it is first disturbed.

D. When a municipal dredging project of the type described in subdivision B 5 proposes to impact grounds that are subject to beneficial use as oyster-planting ground, the following process shall apply:

1. The Commissioner shall review any such proposed project to ensure that the project, in addition to meeting the considerations established in § 28.2-1205, avoids impacting grounds that are subject to beneficial use as oyster-planting ground to the maximum extent practicable. If the lessee refuses such offer, or if the locality and the lessee reach no agreement within nine months of such offer, a court of competent jurisdiction shall determine and order fair compensation to the lessee.

3. The Commission shall hold a hearing on any such project prior to approval. Any objector, the locality, and the lessee shall each have an opportunity to be heard at such hearing. If the Commission approves the project and compensation for the lease has been determined pursuant to the provisions of this subsection, the Commissioner shall issue the permit for the project.

4. The provisions of any compensation agreement or order made pursuant to this section may include terms establishing a timeline by which the lessee shall vacate the impacted portion of the leased ground. The process of transferring a lease as a result of the completion of the process established in this subsection shall not extend or otherwise affect any timeline established in this subsection.

§ 28.2-618. (Effective July 1, 2035) Commonwealth guarantees rights of renter subject to right of fishing.

The Commonwealth shall guarantee to any person who has complied with ground assignment requirements the absolute right to continue to use and occupy the ground for the term of the lease, *including the right to propagate shellfish by whatever legal means necessary*, subject to:

1. Section 28.2-613;

2. Riparian rights;

3. The right of fishing in waters above the bottoms, provided (i) that no person exercising the right of fishing shall use any device which is fixed to the bottom, or which, in any way, interferes with the renter's rights or damages the bottoms, or the oysters planted thereon, and (ii) that crab pots and gill nets which are not staked to the bottom shall not be considered devices which are fixed to the bottom unless the crab pots and gill nets are used over planted oyster beds in waters of less than four feet at mean low water on the seaside of Northampton and Accomack Counties;

4. After conviction and upon sentencing of an active participant or member of a criminal street gang, the court may, as a condition for suspending the imposition of the sentence in whole or in part or for placing the accused on probation, place reasonable restrictions on those persons with whom the accused may have contact. Such restrictions may include prohibiting the accused from having contact with anyone whom he knows to be a member of a criminal street gang, except that contact with a family or household member, as defined in § 16.1-228, shall be permitted unless expressly prohibited by the court.

Notwithstanding any other provision of law, in any case where a defendant is convicted of a violation of § 18.2-48, 18.2-61, 18.2-63, 18.2-67.1, 18.2-67.2, 18.2-67.3, 18.2-370, or 18.2-370.1, committed on or after July 1, 2006, and some portion of the sentence is suspended, the judge shall order that the period of suspension shall be for a length of time at least equal to the statutory maximum period for which the defendant might originally have been sentenced to be imprisoned, and the defendant shall be placed on probation for that period of suspension subject to revocation by the court. If a person is sentenced to jail upon conviction of a misdemeanor or a felony, the court may, at any time before the sentence has been completely served, suspend the unserved portion of any such sentence, place the person on probation in accordance with the provisions of this section, or otherwise modify the sentence imposed.

If a person has been sentenced for a felony to the Department of Corrections (the Department), the court that heard the case, if it appears compatible with the public interest and there are circumstances in mitigation of the offense, may, at any time before the person is transferred to the Department, or within 60 days of such transfer, suspend or otherwise modify the unserved portion of such a sentence. The court may place the person on probation in accordance with the provisions of this section.

If the clerk has determined that a DNA sample or analysis is not stored in the DNA data bank, or in any case in which electronic access to ~~LIDS the DNA data bank sample tracking system~~ is not available in the courtroom, the court shall order that the offender appear within 30 days before the sheriff or community-based probation officer and allow the sheriff or community-based probation officer to take the required sample. The order shall also require that, if the offender has not appeared and allowed the sheriff or community-based probation officer to take the required sample by the date stated in the

order, then the sheriff or community-based probation officer shall report to the court the offender's failure to appear and provide the required sample. The court may order the offender placed under local community-based probation services pursuant to § 9.1-174 upon a determination by the court that the offender may benefit from these services and is capable of returning to society as a productive citizen with a reasonable amount of supervision and intervention including services set forth in § 9.1-176. All or part of any sentence imposed that has been suspended, shall be conditioned upon the offender's successful completion of local community-based probation services established pursuant to § 9.1-174.

The court may impose terms and conditions of supervision as it deems appropriate, including that the offender abide by any additional requirements of supervision imposed or established by the local community-based probation services agency during the period of probation supervision.

C. Any sworn officer of a local community-based probation services agency established or operated pursuant to the Comprehensive Community Corrections Act for Local-Responsible Offenders (§ 9.1-173 et seq.) may seek a *capias* from any judicial officer for the arrest of any person on local community-based probation and under its supervision for (i) intractable behavior; (ii) refusal to comply with the terms and conditions imposed by the court; (iii) refusal to comply with the requirements of local community-based probation supervision established by the agency; or (iv) the commission of a new offense while on local community-based probation and under agency supervision. Upon arrest, the offender shall be brought for a hearing before the court of appropriate jurisdiction. After finding that the offender (a) exhibited intractable behavior as defined herein; (b) refused to comply with terms and conditions imposed by the court; (c) refused to comply with the requirements of local community-based probation supervision established by the agency; or (d) committed a new offense while on local community-based probation and under agency supervision, the court may revoke all or part of the suspended sentence and supervision, and commit the offender to serve whatever sentence was originally imposed or impose such other terms and conditions of probation as it deems appropriate or, in a case where the proceeding has been deferred, enter an adjudication of guilt and proceed as otherwise provided by law.

"Intractable behavior" is that behavior that, in the determination of the court, indicates an offender's unwillingness or inability to conform his behavior to that which is necessary for successful completion of local community-based probation or that the offender's behavior is so disruptive as to threaten the successful completion of the program by other participants.

D. An offender sentenced to or provided a deferred proceeding and placed on community-based probation pursuant to this section may be required to pay an amount towards the costs of his supervision and services received in accordance with subsection D of § 9.1-182.

§ 19.2-310.2. Blood, saliva, or tissue sample required for DNA analysis upon conviction of certain crimes; fee.

A. Every person convicted of a felony on or after July 1, 1990, every person convicted of a felony offense under Article 7 (§ 18.2-61 et seq.) of Chapter 4 of Title 18.2 who was incarcerated on July 1, 1989, and every person convicted of a misdemeanor violation of § 16.1-253.2, 18.2-57, 18.2-60.3, 18.2-60.4, 18.2-67.4, 18.2-67.4:1, 18.2-67.4:2, 18.2-67.5, 18.2-102, 18.2-119, 18.2-121, 18.2-130, 18.2-370.6, 18.2-387, or 18.2-387.1 or subsection E of § 18.2-460 or of any similar ordinance of any locality shall have a sample of his blood, saliva, or tissue taken for DNA (deoxyribonucleic acid) analysis to determine identification characteristics specific to the person. If a sample has been previously taken from the person *is stored in the DNA data bank* as indicated by the ~~Local Inmate Data System (LIDS) Department of Forensic Science DNA data bank sample tracking system~~, no additional sample shall be taken. ~~The Department of Forensic Science shall provide to LIDS the most current information submitted to the DNA data bank on a weekly basis and shall remove from LIDS and the data bank persons no longer eligible to be in the data bank.~~ A fee of \$53 shall be charged for the withdrawal of this sample. The fee shall be taxed as part of the costs of the criminal case resulting in the conviction and \$15 of the fee shall be paid into the general fund of the locality where the sample was taken and \$38 of the fee shall be paid into the general fund of the state treasury. This fee shall only be taxed one time regardless of the number of samples taken. The assessment provided for herein shall be in addition to any other fees prescribed by law. The analysis shall be performed by the Department of Forensic Science or other entity designated by the Department. The identification characteristics of the profile resulting from the DNA analysis shall be stored and maintained by the Department in a DNA data bank and shall be made available only as provided in § 19.2-310.5.

B. After July 1, 1990, the blood, saliva, or tissue sample shall be taken prior to release from custody. Notwithstanding the provisions of § 53.1-159, any person convicted of an offense listed in subsection A who is in custody after July 1, 1990, shall provide a blood, saliva, or tissue sample prior to his release. Every person so convicted after July 1, 1990, who is not sentenced to a term of confinement shall provide a blood, saliva, or tissue sample as a condition of such sentence. A person required under this section to submit a sample for DNA analysis is not relieved from this requirement regardless of whether no blood, saliva, or tissue sample has been taken from the person or, if a sample has been taken, whether the sample or the results from the analysis of a sample cannot be found in the DNA data bank maintained by the Department of Forensic Science.

C. Nothing in this section shall prevent the Department of Forensic Science from including the identification characteristics of an individual's DNA profile in the DNA data bank as ordered by a circuit court pursuant to a lawful plea agreement.

D. A collection or placement of a sample for DNA analysis that was taken or retained in good faith does not invalidate the sample's use in the data bank pursuant to the provisions of this article. The detention, arrest, or conviction of a person based upon a data bank match or data bank information is not invalidated if it is determined that the sample was obtained, placed, or retained in the data bank in good faith, or if the conviction or juvenile adjudication that resulted in the collection

of the DNA sample was subsequently vacated or otherwise altered in any future proceeding, including but not limited to post-trial or post-fact-finding motions, appeals, or collateral attacks.

E. The Virginia Department of Corrections and the Department of Forensic Science shall, on a quarterly basis, compare databases of offenders under the custody or supervision of the Department of Corrections with the DNA data bank of the Department of Forensic Science. The Virginia Department of Corrections shall require a DNA sample of those offenders under its custody or supervision *who are required to submit a sample pursuant to this section* if they are not identified in the DNA data bank.

F. The Department of State Police shall verify that a DNA sample required to be taken for the Sex Offender and Crimes Against Minors Registry pursuant to § 9.1-903 has been received by the Department of Forensic Science. In any instance where a DNA sample has not been received, the Department of State Police or its designee shall obtain from the person required to register a sample for DNA analysis.

G. Each community-based probation services agency established pursuant to § 9.1-174 shall determine by reviewing the ~~Local Inmate Data System~~ *Department of Forensic Science DNA data bank sample tracking system* upon intake and again prior to discharge whether a blood, saliva, or tissue sample ~~has been taken for DNA analysis is stored in the DNA data bank for each offender required to submit a sample pursuant to this section and, if no sample has been taken an offender's sample is not stored in the data bank,~~ require ~~an~~ the offender to submit a sample for DNA analysis.

H. The sheriff or regional jailer shall determine by reviewing the ~~Local Inmate Data System~~ *Department of Forensic Science DNA data bank sample tracking system* upon intake and again prior to release whether a blood, saliva, or tissue sample ~~has been taken for DNA analysis is stored in the DNA data bank for each offender required to submit a sample pursuant to this section and, if no sample has been taken an offender's sample is not stored in the data bank,~~ require ~~an~~ the offender to submit a sample for DNA analysis.

§ 19.2-310.3. Procedures for withdrawal of blood, saliva or tissue sample for DNA analysis.

Each sample required pursuant to § 19.2-310.2 from persons who are to be incarcerated shall be withdrawn at the receiving unit or at such other place as is designated by the Department of Corrections or, in the case of a juvenile, the Department of Juvenile Justice. The agency submitting the sample shall provide information pertaining to the sample by (i) logging such information into the Department of Forensic Science DNA data bank sample tracking system at the time of collection or (ii) submitting such information to the Department of Forensic Science along with the sample.* The steps herein set forth relating to the taking, handling, identification, and disposition of blood, saliva or tissue samples are procedural and not substantive. Substantial compliance therewith shall be deemed to be sufficient. The samples shall be *mailed or* transported to the Department of Forensic Science not more than 15 days following withdrawal and shall be analyzed and stored in the DNA data bank in accordance with §§ 19.2-310.4 and 19.2-310.5.

§ 19.2-310.3:1. Procedures for taking saliva or tissue sample for DNA analysis.

H. Have the powers of arrest of a police officer and the power to carry a concealed weapon when specifically so authorized by the judge; and

I. Determine by reviewing the ~~Local Inmate Data System or the Juvenile Tracking System (JTS)~~ *Department of Forensic Science DNA data bank sample tracking system* upon intake and again prior to discharge whether a blood, saliva, or tissue sample ~~has been taken for DNA analysis~~ *is stored in the DNA data bank* for each offender required to submit a sample pursuant to § 16.1-299.1 and, if ~~no sample has been taken~~ *an offender's sample is not stored in the data bank*, require ~~an~~ the offender to submit a sample for DNA analysis.

§ 19.2-303. Suspension or modification of sentence; probation; taking of fingerprints and blood, saliva, or tissue sample as condition of probation.

After conviction, whether with or without jury, the court may suspend imposition of sentence or suspend the sentence in whole or part and in addition may place the defendant on probation under such conditions as the court shall determine, including monitoring by a GPS (Global Positioning System) tracking device, or other similar device, or may, as a condition of a suspended sentence, require the defendant to make at least partial restitution to the aggrieved party or parties for

damages or loss caused by the offense for which convicted, or to perform community service, or both, under terms and conditions which shall be entered in writing by the court. The court may fix the period of probation for up to the statutory maximum period for which the defendant might originally have been sentenced to be imprisoned. Any period of supervised probation shall not exceed five years from the release of the defendant from any active period of incarceration. The limitation on the period of probation shall not apply to the extent that an additional period of probation is necessary (i) for the defendant to participate in a court-ordered program or (ii) if a defendant owes restitution and is still subject to restitution compliance review hearings in accordance with § 19.2-305.1. The defendant may be ordered by the court to pay the cost of the GPS tracking device or other similar device. If, however, the court suspends or modifies any sentence fixed by a jury pursuant to § 19.2-295, the court shall file a statement of the reasons for the suspension or modification in the same manner as the statement required pursuant to subsection B of § 19.2-298.01. The judge, after convicting the defendant of any offense for which a report to the Central Criminal Records Exchange is required in accordance with subsection A of § 19.2-390, shall determine whether a copy of the defendant's fingerprints or fingerprint identification information has been provided by a law-enforcement officer to the clerk of court for each such offense. In any case where fingerprints or fingerprint identification information has not been provided by a law-enforcement officer to the clerk of court, the judge shall require that fingerprints and a photograph be taken by a law-enforcement officer as a condition of probation or of the suspension of the imposition or execution of any sentence for such offense. Such fingerprints shall be submitted to the Central Criminal Records Exchange under the provisions of subsection D of § 19.2-390.

In those courts having electronic access to the ~~Local Inmate Data System (LIDS)~~ *Department of Forensic Science DNA data bank sample tracking system* within the courtroom, prior to or upon sentencing, the clerk of court shall also determine by reviewing ~~LIDS the DNA data bank sample tracking system~~ whether a blood, saliva, or tissue sample ~~has been taken for DNA analysis and submitted to~~ *is stored in the DNA data bank maintained by the Department of Forensic Science pursuant to Article 1.1 (§ 19.2-310.2 et seq.) of Chapter 18 of this title.* In any case in which the clerk has determined that a DNA sample or analysis is not stored in the DNA data bank, or in any case in which electronic access to ~~LIDS the DNA data bank sample tracking system~~ is not available in the courtroom, the court shall order that the defendant appear within 30 days before the sheriff or probation officer and allow the sheriff or probation officer to take the required sample. The order shall also require that, if the defendant has not appeared and allowed the sheriff or probation officer to take the required sample by the date stated in the order, then the sheriff or probation officer shall report to the court the defendant's failure to appear and provide the required sample.

After conviction and upon sentencing of an active participant or member of a criminal street gang, the court may, as a condition for suspending the imposition of the sentence in whole or in part or for placing the accused on probation, place reasonable restrictions on those persons with whom the accused may have contact. Such restrictions may include prohibiting the accused from having contact with anyone whom he knows to be a member of a criminal street gang, except that contact with a family or household member, as defined in § 16.1-228, shall be permitted unless expressly prohibited by the court.

Notwithstanding any other provision of law, in any case where a defendant is convicted of a violation of § 18.2-48, 18.2-61, 18.2-63, 18.2-67.1, 18.2-67.2, 18.2-67.3, 18.2-370, or 18.2-370.1, committed on or after July 1, 2006, and some portion of the sentence is suspended, the judge shall order that the period of suspension shall be for a length of time at least equal to the statutory maximum period for which the defendant might originally have been sentenced to be imprisoned, and the defendant shall be placed on probation for that period of suspension subject to revocation by the court. The conditions of probation may include such conditions as the court shall determine, including active supervision. Where the conviction is for a violation of clause (iii) of subsection A of § 18.2-61, subdivision A 1 of § 18.2-67.1, or subdivision A 1 of § 18.2-67.2, the court shall order that at least three years of the probation include active supervision of the defendant under a postrelease supervision program operated by the Department of Corrections, and for at least three years of such active supervision, the defendant shall be subject to electronic monitoring by means of a GPS (Global Positioning System) tracking device, or other similar device.

If a person is sentenced to jail upon conviction of a misdemeanor or a felony, the court may, at any time before the sentence has been completely served, suspend the unserved portion of any such sentence, place the person on probation in accordance with the provisions of this section, or otherwise modify the sentence imposed.

If a person has been sentenced for a felony to the Department of Corrections (the Department), the court that heard the case, if it appears compatible with the public interest and there are circumstances in mitigation of the offense, may, at any time before the person is transferred to the Department, or within 60 days of such transfer, suspend or otherwise modify the unserved portion of such a sentence. The court may place the person on probation in accordance with the provisions of this section.

§ 19.2-303.3. Sentence to local community-based probation services; services agency; requirements for participation; sentencing; and removal from probation; payment of costs towards supervision and services.

A. Any offender who is (i) convicted on or after July 1, 1995, of a misdemeanor or a felony that is not a felony act of violence as defined in § 19.2-297.1, and for which the court imposes a total sentence of 12 months or less, and (ii) no younger than 18 years of age or is considered an adult at the time of conviction may be sentenced to a local community-based probation services agency established pursuant to § 9.1-174 by the local governing bodies within that judicial district or circuit.

B. In those courts having electronic access to the ~~Local Inmate Data System (LIDS)~~ *Department of Forensic Science DNA data bank sample tracking system* within the courtroom, at the time of sentencing, the clerk of court shall determine by reviewing ~~LIDS~~ *the DNA data bank sample tracking system*, in any case where there is a felony or qualifying misdemeanor conviction, whether a sample of the offender's blood, saliva, or tissue or an analysis of the sample is stored in the DNA data bank maintained by the Department of Forensic Science pursuant to Article 1.1 (§ 19.2-310.2 et seq.) of Chapter 18 of this title. If the clerk has determined that a DNA sample or analysis is not stored in the DNA data bank, or in any case in which electronic access to ~~LIDS~~ *the DNA data bank sample tracking system* is not available in the courtroom, the court shall order that the offender appear within 30 days before the sheriff or community-based probation officer and allow the sheriff or community-based probation officer to take the required sample. The order shall also require that, if the offender has not appeared and allowed the sheriff or community-based probation officer to take the required sample by the date stated in the order, then the sheriff or community-based probation officer shall report to the court the offender's failure to appear and provide the required sample. The court may order the offender placed under local community-based probation services pursuant to § 9.1-174 upon a determination by the court that the offender may benefit from these services and is capable of returning to society as a productive citizen with a reasonable amount of supervision and intervention including services set forth in § 9.1-176. All or part of any sentence imposed that has been suspended, shall be conditioned upon the offender's successful completion of local community-based probation services established pursuant to § 9.1-174.

The court may impose terms and conditions of supervision as it deems appropriate, including that the offender abide by any additional requirements of supervision imposed or established by the local community-based probation services agency during the period of probation supervision.

C. Any sworn officer of a local community-based probation services agency established or operated pursuant to the Comprehensive Community Corrections Act for Local-Responsible Offenders (§ 9.1-173 et seq.) may seek a *capias* from any judicial officer for the arrest of any person on local community-based probation and under its supervision for (i) intractable behavior; (ii) refusal to comply with the terms and conditions imposed by the court; (iii) refusal to comply with the requirements of local community-based probation supervision established by the agency; or (iv) the commission of a new offense while on local community-based probation and under agency supervision. Upon arrest, the offender shall be brought for a hearing before the court of appropriate jurisdiction. After finding that the offender (a) exhibited intractable behavior as defined herein; (b) refused to comply with terms and conditions imposed by the court; (c) refused to comply with the requirements of local community-based probation supervision established by the agency; or (d) committed a new offense while on local community-based probation and under agency supervision, the court may revoke all or part of the suspended sentence and supervision, and commit the offender to serve whatever sentence was originally imposed or impose such other terms and conditions of probation as it deems appropriate or, in a case where the proceeding has been deferred, enter an adjudication of guilt and proceed as otherwise provided by law.

"Intractable behavior" is that behavior that, in the determination of the court, indicates an offender's unwillingness or inability to conform his behavior to that which is necessary for successful completion of local community-based probation or that the offender's behavior is so disruptive as to threaten the successful completion of the program by other participants.

D. An offender sentenced to or provided a deferred proceeding and placed on community-based probation pursuant to this section may be required to pay an amount towards the costs of his supervision and services received in accordance with subsection D of § 9.1-182.

§ 19.2-310.2. Blood, saliva, or tissue sample required for DNA analysis upon conviction of certain crimes; fee.

A. Every person convicted of a felony on or after July 1, 1990, every person convicted of a felony offense under Article 7 (§ 18.2-61 et seq.) of Chapter 4 of Title 18.2 who was incarcerated on July 1, 1989, and every person convicted of a misdemeanor violation of § 16.1-253.2, 18.2-57, 18.2-60.3, 18.2-60.4, 18.2-67.4, 18.2-67.4:1, 18.2-67.4:2, 18.2-67.5, 18.2-102, 18.2-119, 18.2-121, 18.2-130, 18.2-370.6, 18.2-387, or 18.2-387.1 or subsection E of § 18.2-460 or of any similar ordinance of any locality shall have a sample of his blood, saliva, or tissue taken for DNA (deoxyribonucleic acid) analysis to determine identification characteristics specific to the person. If a sample ~~has been previously taken~~ from the person is stored in the DNA data bank as indicated by the ~~Local Inmate Data System (LIDS)~~ *Department of Forensic Science DNA data bank sample tracking system*, no additional sample shall be taken. ~~The Department of Forensic Science shall provide to LIDS the most current information submitted to the DNA data bank on a weekly basis and shall remove from LIDS and the data bank persons no longer eligible to be in the data bank.~~ A fee of \$53 shall be charged for the withdrawal of this sample. The fee shall be taxed as part of the costs of the criminal case resulting in the conviction and \$15 of the fee shall be paid into the general fund of the locality where the sample was taken and \$38 of the fee shall be paid into the general fund of the state treasury. This fee shall only be taxed one time regardless of the number of samples taken. The assessment provided for herein shall be in addition to any other fees prescribed by law. The analysis shall be performed by the Department of Forensic Science or other entity designated by the Department. The identification characteristics of the profile resulting from the DNA analysis shall be stored and maintained by the Department in a DNA data bank and shall be made available only as provided in § 19.2-310.5.

B. After July 1, 1990, the blood, saliva, or tissue sample shall be taken prior to release from custody. Notwithstanding the provisions of § 53.1-159, any person convicted of an offense listed in subsection A who is in custody after July 1, 1990, shall provide a blood, saliva, or tissue sample prior to his release. Every person so convicted after July 1, 1990, who is not sentenced to a term of confinement shall provide a blood, saliva, or tissue sample as a condition of such sentence. A person required under this section to submit a sample for DNA analysis is not relieved from this requirement regardless of whether

no blood, saliva, or tissue sample has been taken from the person or, if a sample has been taken, whether the sample or the results from the analysis of a sample cannot be found in the DNA data bank maintained by the Department of Forensic Science.

C. Nothing in this section shall prevent the Department of Forensic Science from including the identification characteristics of an individual's DNA profile in the DNA data bank as ordered by a circuit court pursuant to a lawful plea agreement.

D. A collection or placement of a sample for DNA analysis that was taken or retained in good faith does not invalidate the sample's use in the data bank pursuant to the provisions of this article. The detention, arrest, or conviction of a person based upon a data bank match or data bank information is not invalidated if it is determined that the sample was obtained, placed, or retained in the data bank in good faith, or if the conviction or juvenile adjudication that resulted in the collection of the DNA sample was subsequently vacated or otherwise altered in any future proceeding, including but not limited to post-trial or post-fact-finding motions, appeals, or collateral attacks.

E. The Virginia Department of Corrections and the Department of Forensic Science shall, on a quarterly basis, compare databases of offenders under the custody or supervision of the Department of Corrections with the DNA data bank of the Department of Forensic Science. The Virginia Department of Corrections shall require a DNA sample of those offenders under its custody or supervision *who are required to submit a sample pursuant to this section* if they are not identified in the DNA data bank.

F. The Department of State Police shall verify that a DNA sample required to be taken for the Sex Offender and Crimes Against Minors Registry pursuant to § 9.1-903 has been received by the Department of Forensic Science. In any instance where a DNA sample has not been received, the Department of State Police or its designee shall obtain from the person required to register a sample for DNA analysis.

G. Each community-based probation services agency established pursuant to § 9.1-174 shall determine by reviewing the ~~Local Inmate Data System~~ *Department of Forensic Science DNA data bank sample tracking system* upon intake and again prior to discharge whether a blood, saliva, or tissue sample ~~has been taken for DNA analysis is stored in the DNA data bank~~ for each offender required to submit a sample pursuant to this section and, ~~if no sample has been taken an offender's sample is not stored in the data bank,~~ require ~~an~~ the offender to submit a sample for DNA analysis.

H. The sheriff or regional jailer shall determine by reviewing the ~~Local Inmate Data System~~ *Department of Forensic Science DNA data bank sample tracking system* upon intake and again prior to release whether a blood, saliva, or tissue sample ~~has been taken for DNA analysis is stored in the DNA data bank~~ for each offender required to submit a sample pursuant to this section and, ~~if no sample has been taken an offender's sample is not stored in the data bank,~~ require ~~an~~ the offender to submit a sample for DNA analysis.

§ 19.2-310.3. Procedures for withdrawal of blood, saliva or tissue sample for DNA analysis.

Each sample required pursuant to § 19.2-310.2 from persons who are to be incarcerated shall be withdrawn at the receiving unit or at such other place as is designated by the Department of Corrections or, in the case of a juvenile, the Department of Juvenile Justice. The required samples from persons who are not sentenced to a term of confinement shall be withdrawn at a time and place specified by the sentencing court. Only a correctional health nurse technician or a physician, registered nurse, licensed practical nurse, graduate laboratory technician, or phlebotomist shall withdraw any blood sample to be submitted for analysis. No civil liability shall attach to any person authorized to withdraw blood, saliva or tissue as provided herein as a result of the act of withdrawing blood, saliva or tissue from any person submitting thereto, provided the blood, saliva or tissue was withdrawn according to recognized medical procedures. However, no person shall be relieved from liability for negligence in the withdrawing of any blood, saliva or tissue sample.

Chemically clean sterile disposable needles and vacuum draw tubes or swabs shall be used for all samples. The tube or envelope containing the sample shall be sealed and ~~labeled with the subject's name, social security number, date of birth, race and gender, the name of the person collecting the sample, and the date and place of collection.~~ The tubes or envelopes containing the samples shall be secured to prevent tampering with the contents. *The agency submitting the sample shall provide information pertaining to the sample by (i) logging such information into the Department of Forensic Science DNA data bank sample tracking system at the time of collection or (ii) submitting such information to the Department of Forensic Science along with the sample.* The steps herein set forth relating to the taking, handling, identification, and disposition of blood, saliva or tissue samples are procedural and not substantive. Substantial compliance therewith shall be deemed to be sufficient. The samples shall be *mailed or transported to the Department of Forensic Science not more than 15 days following withdrawal and shall be analyzed and stored in the DNA data bank in accordance with §§ 19.2-310.4 and 19.2-310.5.*

§ 19.2-310.3:1. Procedures for taking saliva or tissue sample for DNA analysis.

A. Each sample required pursuant to § 19.2-310.2:1 from persons arrested shall be taken before release from custody at such place as is designated by the law-enforcement agency responsible for arrest booking in the jurisdiction. Samples shall be taken in accordance with procedures adopted by the Department of Forensic Science. The sample shall be sealed and ~~labeled with the subject's name, social security number, date of birth, race and gender, the name of the person collecting the sample, the date and place of collection, information identifying the arresting or accompanying officer, and the offense for which the person was arrested.~~ The sample shall be secured to prevent tampering with the contents and be accompanied by a copy of the arrest warrant or capias. *The agency submitting the sample shall provide information pertaining to the sample by (i) logging such information into the Department of Forensic Science DNA data bank sample tracking system at the time*

of collection or (ii) submitting such information to the Department of Forensic Science along with the sample. The steps herein set forth relating to the taking, handling, identification, and disposition of saliva or tissue samples are procedural and not substantive. The sample shall be *mailed or* transported to the Department of Forensic Science not more than 15 days following withdrawal and shall be analyzed and stored in the DNA data bank in accordance with §§ 19.2-310.4 and 19.2-310.5.

B. Substantial compliance therewith shall be deemed to be sufficient. If a sample ~~has been previously taken~~ from the individual *is stored in the data bank* as indicated by the ~~Local Inmate Data System (LIDS) Department of Forensic Science DNA data bank sample tracking system~~, no additional sample shall be taken. No civil liability shall attach to any person authorized to take saliva or tissue as provided herein as a result of the act of taking saliva or tissue from any person submitting thereto, provided the saliva or tissue was taken according to recognized medical procedures. However, no person shall be relieved from liability for negligence in the taking of any saliva or tissue sample.

§ 53.1-145. Powers and duties of probation and parole officers.

In addition to other powers and duties prescribed by this article, each probation and parole officer shall:

1. Investigate and report on any case pending in any court or before any judge in his jurisdiction referred to him by the court or judge;
2. Supervise and assist all persons within his territory placed on probation, secure, as appropriate and when available resources permit, placement of such persons in a substance abuse treatment program which may include utilization of acupuncture and other treatment modalities, and furnish every such person with a written statement of the conditions of his probation and instruct him therein; if any such person has been committed to the Department of Behavioral Health and Developmental Services under the provisions of Chapter 9 (§ 37.2-900 et seq.) of Title 37.2, the conditions of probation shall include the requirement that the person comply with all conditions given him by the Department of Behavioral Health and Developmental Services, and that he follow all of the terms of his treatment plan;

5. Keep such records, make such reports, and perform other duties as may be required of him by the Director and the court or judge by whom he was authorized;
6. Order and conduct, in his discretion, drug and alcohol screening tests of any probationer, person subject to post-release supervision pursuant to § 19.2-295.2 or parolee under his supervision who the officer has reason to believe is engaged in the illegal use of controlled substances or marijuana, or the abuse of alcohol. CHAPTER 43

An Act to amend and reenact § 15.2-911 of the Code of Virginia, relating to regulation of alarm systems; battery-charged fence security systems.

[S 526]

Approved April 1, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 15.2-911 of the Code of Virginia is amended and reenacted as follows:

§ 15.2-911. Regulation of alarm company operators.

A. Any locality may by ordinance regulate the installation and maintenance of alarm systems operated by alarm company operators.

B. As used in this section; ~~an "alarm:~~

"Alarm company operator" means and includes any business operated for profit, engaged in the installation, maintenance, alteration, or servicing of alarm systems or which responds to such alarm systems. Such term, however, shall not include alarm systems maintained by governmental agencies or departments, nor shall it include a business which merely sells from a fixed location or manufactures alarm systems unless such business services, installs, monitors or responds to alarm systems at the protected premises.

~~C. As used in this section, the term "alarm~~ "Alarm system" means an assembly of equipment and devices arranged to signal the presence of a hazard requiring urgent attention and to which police or firefighters are expected to respond. Such system may be installed, maintained, altered or serviced by an alarm company operator in both commercial and residential premises.

"Battery-charged fence security system" means a system intended for security that includes a fence, a battery-operated energizer connected to the fence and designed to periodically deliver voltage impulses to the fence, a battery-charging device used exclusively to charge the battery, and any other ancillary components and attached equipment. "Battery-charged fence security system" does not include fencing engineered to exclude or contain deer or livestock.

C. 1. Any battery-charged fence security system shall (i) interface with a monitored alarm device in a manner that enables the system to transmit a signal intended to alert the owner or law enforcement; (ii) have an energizer powered by a commercial storage battery that provides not more than 12 volts of direct current and meets the standards set forth in the International Electrotechnical Commission Standard 60335-2-76; (iii) be located behind a nonelectric perimeter fence or wall that is at least five feet tall; (iv) be on property not zoned for residential use; (v) not be taller than 10 feet or two feet taller than the height of the perimeter fence or wall, whichever is taller; (vi) be marked with warning signs posted conspicuously on the fence at 30-foot intervals that state "Warning - Electric Fence"; and (vii) include a mechanism that allows first responders to deactivate the system during an emergency.

2. A locality may require: (i) a person who provides or operates a battery-charged fence security system to comply with this subsection; (ii) a person who provides or operates a battery-charged fence security system to comply with the ministerial requirements of an alarm company operator, including a permit or registration and payment of any accompanying fee, prior to providing or operating such battery-charged fence security system; and (iii) an installer, on completion of a newly installed battery-charged fence security system, to submit to the locality an affidavit that includes the address of the installation, name of the installer, date of the installation, and an affirmation that the criteria in this subsection are satisfied.

3. A locality may inspect a newly installed battery-charged fence security system after receipt of an affidavit to ensure the system meets the requirements of this subsection. If the battery-charged fence security system fails to comply with the criteria set forth in this subsection, the locality may issue a citation describing the specific noncompliance and requiring the battery-charged fence security system to come into compliance within a reasonable period of time. The locality may also

impose a penalty not to exceed \$500 for the first instance if the battery-charged fence security system is not made compliant within the specified period of time.

4. If a battery-charged fence security system meets the requirements of subdivision 1, then a locality shall not establish or otherwise impose any product, installation, or operational requirements, fees, or approvals for a battery-charged fence security system nor prohibit the use of such a system.

The Department of Criminal Justice Services and the Virginia Criminal Injuries Compensation Fund shall be the lead coordinating agencies for those individuals determined to be victims, and the plan shall also contain current contact information for both agencies.

"School safety audit" means a written assessment of the safety conditions in each public school to (i) identify and, if necessary, develop solutions for physical safety concerns, including building security issues and (ii) identify and evaluate any patterns of student safety concerns occurring on school property or at school-sponsored events. Solutions and responses shall include recommendations for structural adjustments, changes in school safety procedures, and revisions to the school board's standards for student conduct.

B. The Virginia Center for School and Campus Safety, in consultation with the Department of Education, shall develop a list of items to be reviewed and evaluated in the school safety audits required by this section. Such items shall include those incidents reported to school authorities pursuant to § 22.1-279.3:1 and shall include a school inspection walk-through using a standardized checklist provided by the Virginia Center for School and Campus Safety, which shall incorporate crime prevention through environmental design principles.

Each school shall submit a copy of its school safety audit to the relevant school division superintendent. The division superintendent shall collate and submit all such school safety audits, in the prescribed format and manner of submission, to the Virginia Center for School and Campus Safety and shall make available upon request to the chief law-enforcement officer of the locality the results of such audits.

C. The division superintendent shall establish a school safety audit committee to include, if available, representatives of parents, teachers, local law-enforcement, emergency services agencies, local community services boards, and judicial and public safety personnel. The school safety audit committee shall review the completed school safety audits and submit any plans, as needed, for improving school safety to the division superintendent for submission to the local school board.

D. Each school board shall ensure that every school that it supervises shall develop a written school crisis, emergency management, and medical emergency response plan, consistent with the definition provided in this section, and shall include the chief law-enforcement officer, the fire chief, the chief of the emergency medical services agency, the executive director of the relevant regional emergency medical services council, and the emergency management official of the locality, or their designees, in the development of such plans. Such model shall set forth recommended effective procedures and means by which parents can contact the relevant school or school division regarding the location and safety of their school children and by which school officials may contact parents, with parental approval, during a critical event or emergency.

CHAPTER 61

An Act to amend and reenact § 22.1-199.1 of the Code of Virginia, relating to public elementary and secondary education; at-risk add-on funds; Reading Recovery.

[H 418]

Approved April 1, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 22.1-199.1 of the Code of Virginia is amended and reenacted as follows:

§ 22.1-199.1. Programs designed to promote educational opportunities.

A. The General Assembly finds that Virginia educational research supports the conclusion that poor children are more at risk of educational failure than children from more affluent homes and that reduced pupil/teacher ratios and class sizes result in improved academic performance among young children; to this end, the General Assembly establishes a long-term goal of reducing pupil/teacher ratios and class sizes for grades K through three in those schools in the Commonwealth with high or moderate concentrations of at-risk students.

With such funds as are provided in the appropriation act for this purpose, there is hereby established the statewide voluntary pupil/teacher ratio and class size reduction program for the purpose of reaching the long-term goal of statewide voluntary pupil/teacher ratio and class size reductions for grades K through three in schools with high or moderate concentrations of at-risk students, consistent with the provisions provided in the appropriation act.

In order to facilitate these primary grade ratio and class size reductions, the Department of Education shall calculate the state funding of these voluntary ratio and class size reductions based on the incremental cost of providing the lower class sizes according to the greater of the division average per-pupil cost of all divisions or the actual division per-pupil cost. Localities shall provide matching funds for these voluntary ratio and class size reductions based on the composite index of local ability to pay. School divisions shall notify the Department of Education of their intention to implement the reduced ratios and class sizes in one or more of their qualifying schools by August 1 of each year. By March 31 of each year, school divisions shall forward data substantiating that each participating school has a complying pupil/teacher ratio.

In developing each proposed biennium budget for public education, the Board of Education shall include funding for these ratios and class sizes. These ratios and class sizes shall be included in the annual budget for public education.

B. The General Assembly finds that educational technology is one of the most important components, along with highly skilled teachers, in ensuring the delivery of quality public school education throughout the Commonwealth. Therefore, the Board of Education shall strive to incorporate technological studies within the teaching of all disciplines. Further, the General Assembly notes that educational technology can only be successful if teachers and administrators are provided adequate training and assistance. To this end, the following program is established.

With such funds as are appropriated for this purpose, the Board of Education shall award to the several school divisions grants for expanded access to educational technology. Funding for educational technology training for instructional personnel shall be provided as set forth in the appropriation act.

Funds for improving the quality and capacity of educational technology shall also be provided as set forth in the appropriation act, including, but not limited to, (i) funds for providing a technology resource assistant to serve every elementary school in this Commonwealth beginning on July 1, 1998, and (ii) funds to maintain the currency of career and technical education programs. Any local school board accepting funds to hire technology resource assistants or maintain currency of career and technical education programs shall commit to providing the required matching funds, based on the composite index of local ability to pay.

Each qualifying school board shall establish an individualized technology plan, which shall be approved by the Superintendent of Public Instruction, for integrating technology into the classroom and into schoolwide instructional programs, including career and technical education programs. The grants shall be prioritized as follows:

1. In the 1994 biennium, the first priority for these funds shall be to automate the library media centers and provide network capabilities in Virginia's elementary, middle and high schools, or combination thereof, in order to ensure access to the statewide library and other information networks. If any elementary, middle or high school has already met this priority, the 1994 biennium grant shall be used to provide other educational technologies identified in the relevant division's approved technology plan, such as multimedia and telecomputing packages, integrated learning systems, laptop computer loan programs, career and technical education laboratories or other electronic techniques designed to enhance public education and to facilitate teacher training in and implementation of effective instructional technology. The Board shall also distribute, as provided in the appropriation act, funds to support the purchase of electronic reference materials for use in the statewide automated reference system.

2. In the 1996 biennium and thereafter, the first priority for funding shall be consistent with those components of the Board of Education's revised six-year technology plan which focus on (i) retrofitting and upgrading existing school buildings to efficiently use educational technology; (ii) providing (a) one network-ready multimedia microcomputer for each classroom, (b) a five-to-one ratio of pupils to network-ready microcomputers, (c) graphing calculators and relevant scientific probes/sensors as required by the Standards of Learning, and (d) training and professional development on available technologies and software to all levels and positions, including professional development for personnel delivering career and technical education at all levels and positions; and (iii) assisting school divisions in developing integrated voice-, video-, and data-connectivity to local, national and international resources.

This funding may be used to implement a local school division's long-range technology plan, at the discretion of the relevant school board, if the local plan meets or exceeds the goals and standards of the Board's revised six-year technology plan and has been approved by the Superintendent of Public Instruction.

3. The Departments of Education, Information Technology, and General Services shall coordinate master contracts for the purchase by local school boards of the aforementioned educational technologies and reference materials.

4. Beginning on July 1, 1998, a technology replacement program shall be, with such funds as may be appropriated for this purpose, implemented to replace obsolete educational hardware and software. As provided in subsection D of § 22.1-129, school boards may donate obsolete educational technology hardware and software which are being replaced. Any such donations shall be offered to other school divisions and to preschool programs in the Commonwealth, or to public school students as provided in guidelines to be promulgated by the Board of Education. Such guidelines shall include criteria for determining student eligibility and need; a reporting system for the compilation of information concerning the number and socioeconomic characteristics of recipient students; and notification of parents of the availability of such donations of obsolete educational hardware and software.

5. In fiscal year 2000, the Board of Education shall, with such funds as are appropriated for this purpose, contract for the development or purchase of interactive educational software and other instructional materials designed as tutorials to improve achievement on the Standards of Learning assessments. Such interactive educational software and other instructional materials may be used in media centers, computer laboratories, libraries, after-school or before-school programs or remedial programs by teachers and other instructional personnel or provided to parents and students to be used in the home. This interactive educational software and other instructional materials shall only be used as supplemental tools for instruction, remediation, and acceleration of the learning required by the K through 12 Standards of Learning objectives.

Consistent with school board policies designed to improve school-community communications and guidelines for providing instructional assistance in the home, each school division shall strive to establish a voice mail communication system after regular school hours for parents, families, and teachers by the year 2000.

C. The General Assembly finds that local autonomy in making decisions on local educational needs and priorities results in effective grass-roots efforts to improve education in the Commonwealth's public schools only when coupled with sufficient state funding; to this end, the following block grant program is hereby established. With such funds as are provided in the appropriation act, the Department of Education shall distribute block grants to localities to enable compliance with the Commonwealth's requirements for school divisions in effect on January 1, 1995. Therefore, for the purpose of such compliance, the block grant herein established shall consist of a sum equal to the amount appropriated in the appropriation act for the covered programs, including the at-risk add-on program; dropout prevention, specifically Project YES; Project Discovery; English as a second language programs, including programs for overage, nonschooled students; Advancement Via Individual Determination (AVID); the Homework Assistance Program; programs initiated under the Virginia Guaranteed Assistance Program, except that such funds shall not be used to pay any expenses of participating students at institutions of higher education; ~~Reading Recovery~~; and school/community health centers. Each school board may use any funds received through the block grant to implement the covered programs and other programs designed to save the Commonwealth's children from educational failure.

D. In order to reduce pupil/teacher ratios and class sizes in elementary schools, from such funds as may be appropriated for this purpose, each school board may employ additional classroom teachers, remedial teachers, and reading specialists for each of its elementary schools over the requirements of the Standards of Quality. State and local funding for such additional classroom teachers, remedial teachers, and reading specialists shall be apportioned as provided in the appropriation act.

E. Pursuant to a turnaround specialist program administered by the Department of Education, local school boards may enter into agreements with individuals to be employed as turnaround specialists to address those conditions at the school that may impede educational progress and effectiveness and academic success. Local school boards may offer such turnaround specialists or other administrative personnel incentives such as increased compensation, improved retirement benefits in accordance with Chapter 6.2 (§ 51.1-617 et seq.) of Title 51.1, increased deferred compensation in accordance with § 51.1-603, relocation expenses, bonuses, and other incentives as may be determined by the board.

F. The General Assembly finds that certain schools have particular difficulty hiring teachers for certain subject areas and that the need for such teachers in these schools is particularly strong. Accordingly in an effort to attract and retain high quality teachers, local school boards may offer instructional personnel serving in such schools as a member of a middle school teacher corps administered by the Department of Education incentives such as increased compensation, improved retirement benefits in accordance with Chapter 6.2 (§ 51.1-617 et seq.) of Title 51.1, increased deferred compensation in accordance with § 51.1-603, relocation expenses, bonuses, and other incentives as may be determined by the board.

For purposes of this subsection, "middle school teacher corps" means licensed instructional personnel who are assigned to a local school division to teach in a subject matter in grades six, seven, or eight where there is a critical need, as determined by the Department of Education. The contract between such persons and the relevant local school board shall specify that the contract is for service in the middle school teacher corps.

CHAPTER 62

1. That § 8.01-490 of the Code of Virginia is amended and reenacted as follows:

§ 8.01-490. No unreasonable distress or levy; sustenance provided for livestock; removal of property.

Officers shall in no case make an unreasonable distress or levy. For horses, or any livestock distrained or levied on, the officer shall provide sufficient sustenance while they remain in his possession. Nothing distrained or levied on shall be removed by him out of his county or city, *except that an officer distraining or levying on personal property may employ a Virginia-licensed auctioneer or auction firm, as those terms are defined in § 54.1-600, to sell such property on behalf of the officer, and the officer may remove such property to transport such property to the site of an auction for such sale, regardless of whether such site is within or outside such officer's county or city, or unless when it is otherwise specially provided.*

CHAPTER 63

An Act to amend and reenact §§ 63.2-104 and 63.2-105 of the Code of Virginia and to amend the Code of Virginia by adding a section numbered 66-10.3, relating to juvenile records; identification of children receiving coordinated services.

[S 316]

Approved April 1, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 63.2-104 and 63.2-105 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding a section numbered 66-10.3 as follows:

§ 63.2-104. Confidential records and information concerning social services; penalty.

A. The records, information and statistical registries of the Department, local departments and of all child-welfare agencies concerning social services to or on behalf of individuals shall be confidential information, provided that the Commissioner, the Board and their agents shall have access to such records, information and statistical registries, and that such records, information and statistical registries may be disclosed to any person having a legitimate interest in accordance with state and federal law and regulation.

A person having a legitimate interest in child-protective services records and records involving a child receiving foster care services as defined in § 16.1-228 includes the staff of (i) a court services unit, (ii) the Department of Juvenile Justice, (iii) a local community services board, or (iv) the Department of Behavioral Health and Developmental Services who are providing treatment, services, or care for a child who is the subject of such records for a purpose relevant to the provision of the treatment, services, or care when the local agencies have entered into a formal agreement with the Department of Juvenile Justice to provide coordinated services to such children. Such formal agreements may allow the local agencies and the Department of Juvenile Justice to immediately identify children who may be receiving or who have received treatment, services, or care from the local agencies and the Department of Juvenile Justice. Any court services unit or local community services board to which such records are disclosed in accordance with this paragraph shall not further disclose any information received unless such further disclosure is expressly required by law.

The model memorandum of understanding developed in accordance with § 66-10.3 may serve as the formal agreement that is required pursuant to this subsection, but any formal agreement that is entered into by the local agencies and the Department of Juvenile Justice shall be reviewed by the Office of the Attorney General before such agreement may take effect.

It shall be unlawful for any officer, agent or employee of any child-welfare agency; for the Commissioner, the State Board or their agents or employees; for any person who has held any such position; and for any other person to whom any such record or information is disclosed to disclose, directly or indirectly, any such confidential record or information, except as herein provided or pursuant to § 63.2-105. Every violation of this section shall constitute a Class 1 misdemeanor.

B. If a request for a record or information concerning applicants for and recipients of social services is made to the Department or a local department by a person who does not have a legitimate interest, the Commissioner or local director shall not provide the record or information unless permitted by state or federal law or regulation.

C. This section shall not apply to the disposition of adoption records, reports and information that is governed by the provisions of § 63.2-1246.

§ 63.2-105. Confidential records and information concerning social services; child-protective services and child-placing agencies.

A. The local department may disclose the contents of records and information learned during the course of a child-protective services investigation or during the provision of child-protective services to a family, without a court order and without the consent of the family, to a person having a legitimate interest when in the judgment of the local department such disclosure is in the best interest of the child who is the subject of the records. Persons having a legitimate interest in child-protective services records of local departments include, but are not limited to, (i) any person who is responsible for investigating a report of known or suspected abuse or neglect or for providing services to a child or family that is the subject of a report, including multidisciplinary teams and family assessment and planning teams referenced in subsections J and K of § 63.2-1503, law-enforcement agencies and attorneys for the Commonwealth; (ii) child welfare or human services agencies of the Commonwealth or its political subdivisions when those agencies request information to determine the compliance of any person with a child-protective services plan or an order of any court; (iii) personnel of the school or child day program as defined in § 63.2-100 attended by the child so that the local department can receive information from such personnel on an ongoing basis concerning the child's health and behavior, and the activities of the child's custodian; (iv) a parent, grandparent, or any other person when such parent, grandparent or other person would be considered by the local department as a potential caretaker of the child in the event the local department has to remove the child from his custodian; and (v) the Commitment Review Committee and the Office of the Attorney General for the purposes of sexually violent predator civil commitments pursuant to Chapter 9 (§ 37.2-900 et seq.) of Title 37.2; and (vi) the staff of (a) a court services unit, (b) the Department of Juvenile Justice, (c) a local community services board, or (d) the Department of Behavioral Health and Developmental Services who are providing treatment, services, or care for a child who is the subject of such records for a purpose relevant to the provision of the treatment, services, or care, including the immediate identification of children who may be receiving or who have received treatment, services, or care from the local agencies and the Department of Juvenile Justice, when the local agencies have entered into a formal agreement with the Department of Juvenile Justice to provide coordinated services to such children, provided that any court services unit or local community services board to which such records are disclosed in accordance with this paragraph shall not further disclose any information received unless such further disclosure is expressly required by law.

The model memorandum of understanding developed in accordance with § 66-10.3 may serve as the formal agreement that is required pursuant to this subsection, but any formal agreement that is entered into by the local agencies and the Department of Juvenile Justice shall be reviewed by the Office of the Attorney General before such agreement may take effect.

Whenever a local department exercises its discretion to release otherwise confidential information to any person who meets one or more of these descriptions, the local department shall be presumed to have exercised its discretion in a reasonable and lawful manner.

B. Any person who has not been legally adopted in accordance with the provisions of this title and who was a child for whom all parental rights and responsibilities have been terminated, shall not have access to any information from a child-placing agency with respect to the identity of the biological family, except (i) upon application of the child who is 18 or more years of age, (ii) upon order of a circuit court entered upon good cause shown, and (iii) after notice to and opportunity for hearing by the applicant for such order and the child-placing agency or local board that had custody of the child.

An eligible person who is a resident of Virginia may apply for the court order provided for herein to (a) the circuit court of the county or city where the person resides or (b) the circuit court of the county or city where the principal office of the child-placing agency or local board that controls the information sought by the person is located. An eligible person who is not a resident of Virginia shall apply for such a court order to the circuit court of the county or city where the principal office of the child-placing agency or local board that controls the information sought by the person is located.

If the identity and whereabouts of the biological family are known to the agency or local board, the court may require the agency or local board to advise the biological parents of the pendency of the application for such order. In determining good cause for the disclosure of such information, the court shall consider the relative effects of such action upon the applicant for such order and upon the biological parents.

§ 66-10.3. Guidelines and policies and procedures for sharing information derived from juvenile records.

A. The Department shall develop and biennially update a model memorandum of understanding setting forth the respective roles and responsibilities of the Department, the Department of Behavioral Health and Developmental Services, the Department of Social Services, the court service units, the local departments of social services, and the community services boards or behavioral health authorities regarding the sharing of information derived from juvenile records for purposes of identifying and serving juveniles who may be receiving or who have received treatment, services, or care from the local agencies, the Department, or the Department of Behavioral Health and Developmental Services.

B. C. The model memorandum of understanding shall contain provisions regarding the manner in which a juvenile who may be receiving or who has received treatment, services, or care from such agency or department is identified by the agency or department and how such identification is shared among the agencies and departments, including the point at which a juvenile is identified by the agencies or departments that are providing or have provided treatment, services, or care to such juvenile; the manner in which past agency or department involvement is identified and shared, including when informed consent from a juvenile or guardian is appropriate and necessary; and the person at each agency or department responsible for identifying any potential juvenile and serving as a contact for information-sharing requests.

D. The Department shall distribute the model memorandum of understanding to each court services unit, community services board or behavioral health authority, and local department of social services.

For the purposes of this subdivision, other designated areas shall include outdoor dining areas, whether or not contiguous to the licensed premises, which outdoor dining areas may have more than one means of ingress and egress to an adjacent public thoroughfare, provided such areas are under the control of the licensee and approved by the Board. Such license may be granted only to persons (i) who operate a restaurant and (ii) whose gross receipts from the sale of food cooked, or prepared, and consumed on the premises and nonalcoholic beverages served on the premises, after issuance of such license, amount to at least 45 percent of the gross receipts from the sale of mixed beverages and food. For the purposes

of this subdivision, other designated areas shall include outdoor dining areas, whether or not contiguous to the licensed premises, which outdoor dining areas may have more than one means of ingress and egress to an adjacent public thoroughfare, provided such areas are under the control of the licensee and approved by the Board. Such noncontiguous designated areas shall not be approved for any retail license issued pursuant to subdivision A 5 of § 4.1-201.

If the restaurant is located on the premises of a hotel or motel with no fewer than four permanent bedrooms where food and beverage service is customarily provided by the restaurant in designated areas, bedrooms, and other private rooms of such hotel or motel, such licensee may (a) sell and serve mixed beverages for on-premises consumption in such designated areas, bedrooms, and other private rooms or off-premises consumption and (b) sell spirits packaged in original closed containers purchased from the Board for on-premises consumption to registered guests and at scheduled functions of such hotel or motel only in such bedrooms or private rooms. If the applicant provides a copy of such permit, proof of inspection, proof of a pending application for a permit, or proof of a pending request for an inspection, a license may be issued to the applicant. If a license is issued on the basis of a pending application or inspection, such license shall authorize the licensee to purchase alcoholic beverages in accordance with the provisions of this title; however, the licensee shall not sell or serve alcoholic beverages until a permit is issued or an inspection is completed.

Such notice shall be of a size and contain such information as required by the Board, including a statement that any objections shall be submitted to the Board not more than 30 days following initial publication of the notice required pursuant to this subsection.

The applicant shall also cause notice to be published at least once a week for two consecutive weeks in a newspaper published in or having a general circulation in the county, city, or town wherein such applicant proposes to engage in such business. Such notice shall contain such information as required by the Board, including a statement that any objections to the issuance of the license be submitted to the Board not later than 30 days from the date of the initial newspaper publication. In the case of wine and beer shipper's licensees, *third-party delivery licensees*, delivery permittees, or operators of boats, dining cars, buffet cars, club cars, buses, and airplanes, the posting and publishing of notice shall not be required.

Except for applicants for annual banquet, banquet, tasting, mixed beverage special events, club events, annual mixed beverage banquet, wine and beer shipper's, beer or wine importer's, annual arts venue, or museum licenses, the Board shall conduct a background investigation, to include a criminal history records search, which may include a fingerprint-based national criminal history records search, on each applicant for a license. However, the Board may waive, for good cause shown, the requirement for a criminal history records search and completed personal data form for officers, directors, nonmanaging members, or limited partners of any applicant corporation, limited liability company, or limited partnership.

Except for applicants for wine and beer shipper's licenses and delivery permits, the Board shall notify the local governing body of each license application through the county or city attorney or the chief law-enforcement or administrative officer of the locality. E. Every application for a permit granted pursuant to § 4.1-212 shall be on a form provided by the Board. Such permits shall confer upon their holders no authority to make solicitations in the Commonwealth as otherwise provided by law.

The fee for a temporary permit shall be one-twelfth of the combined fees required by this section for applicable licenses to sell wine, beer, or mixed beverages computed to the nearest cent and multiplied by the number of months for which the permit is granted.

F. The Board shall have the authority to increase state license fees from the amounts set forth in § 4.1-231.1 as it was in effect on January 1, 2022. The Board shall set the amount of such increases on the basis of the consumer price index and shall not increase fees more than once every three years. Prior to implementing any state license fee increase, the Board shall provide notice to all licensees and the general public of (i) the Board's intent to impose a fee increase and (ii) the new fee that would be required for any license affected by the Board's proposed fee increases. § 16.1-228. Definitions.

As used in this chapter, unless the context requires a different meaning:

"Abused or neglected child" means any child:

1. Whose parents or other person responsible for his care creates or inflicts, threatens to create or inflict, or allows to be created or inflicted upon such child a physical or mental injury by other than accidental means, or creates a substantial risk of death, disfigurement or impairment of bodily or mental functions, including, but not limited to, a child who is with his parent or other person responsible for his care either (i) during the manufacture or attempted manufacture of a Schedule I or II controlled substance, or (ii) during the unlawful sale of such substance by that child's parents or other person responsible for his care, where such manufacture, or attempted manufacture or unlawful sale would constitute a felony violation of § 18.2-248;

2. Whose parents or other person responsible for his care neglects or refuses to provide care necessary for his health; however, no child who in good faith is under treatment solely by spiritual means through prayer in accordance with the tenets and practices of a recognized church or religious denomination shall for that reason alone be considered to be an abused or neglected child. Further, a decision by parents who have legal authority for the child or, in the absence of parents with legal authority for the child, any person with legal authority for the child who refuses a particular medical treatment for a child with a life-threatening condition shall not be deemed a refusal to provide necessary care if (i) such decision is made jointly by the parents or other person with legal authority and the child; (ii) the child has reached 14 years of age and is

sufficiently mature to have an informed opinion on the subject of his medical treatment; (iii) the parents or other person with legal authority and the child have considered alternative treatment options; and (iv) the parents or other person with legal authority and the child believe in good faith that such decision is in the child's best interest. Nothing in this subdivision shall be construed to limit the provisions of § 16.1-278.4;

3. Whose parents or other person responsible for his care abandons such child;

4. Whose parents or other person responsible for his care commits or allows to be committed any act of sexual exploitation or any sexual act upon a child in violation of the law;

5. Who is without parental care or guardianship caused by the unreasonable absence or the mental or physical incapacity of the child's parent, guardian, legal custodian, or other person standing in loco parentis;

6. Whose parents or other person responsible for his care creates a substantial risk of physical or mental injury by knowingly leaving the child alone in the same dwelling, including an apartment as defined in § 55.1-2000, with a person to whom the child is not related by blood or marriage and who the parent or other person responsible for his care knows has been convicted of an offense against a minor for which registration is required as a Tier III offender pursuant to § 9.1-902; or

7. Who has been identified as a victim of sex trafficking or severe forms of trafficking as defined in the federal Trafficking Victims Protection Act of 2000, 22 U.S.C. § 7102 et seq., and in the federal Justice for Victims of Trafficking Act of 2015, 42 U.S.C. § 5101 et seq.

If a civil proceeding under this chapter is based solely on the parent having left the child at a hospital or emergency medical services agency, it shall be an affirmative defense that such parent safely delivered the child *within 30 days of the child's birth* to (i) a hospital that provides 24-hour emergency services ~~or to~~, (ii) an attended emergency medical services agency that employs emergency medical services personnel, ~~within 14 days of the child's birth~~ or (iii) a newborn safety device located at and operated by such hospital or emergency medical services agency. For purposes of terminating parental rights pursuant to § 16.1-283 and placement for adoption, the court may find such a child is a neglected child upon the ground of abandonment.

"Adoptive home" means the place of residence of any natural person in which a child resides as a member of the household and in which he has been placed for the purposes of adoption or in which he has been legally adopted by another member of the household.

"Adult" means a person 18 years of age or older.

"Ancillary crime" or "ancillary charge" means any delinquent act committed by a juvenile as a part of the same act or transaction as, or that constitutes a part of a common scheme or plan with, a delinquent act that would be a felony if committed by an adult.

"Child," "juvenile," or "minor" means a person who is (i) younger than 18 years of age or (ii) for purposes of the Fostering Futures program set forth in Article 2 (§ 63.2-917 et seq.) of Chapter 9 of Title 63.2, younger than 21 years of age and meets the eligibility criteria set forth in § 63.2-919.

"Child in need of services" means (i) a child whose behavior, conduct or condition presents or results in a serious threat to the well-being and physical safety of the child or (ii) a child under the age of 14 whose behavior, conduct or condition presents or results in a serious threat to the well-being and physical safety of another person; however, no child who in good faith is under treatment solely by spiritual means through prayer in accordance with the tenets and practices of a recognized church or religious denomination shall for that reason alone be considered to be a child in need of services, nor shall any child who habitually remains away from or habitually deserts or abandons his family as a result of what the court or the local child protective services unit determines to be incidents of physical, emotional or sexual abuse in the home be considered a child in need of services for that reason alone.

However, to find that a child falls within these provisions, (i) the conduct complained of must present a clear and substantial danger to the child's life or health or to the life or health of another person, (ii) the child or his family is in need of treatment, rehabilitation or services not presently being received, and (iii) the intervention of the court is essential to provide the treatment, rehabilitation or services needed by the child or his family.

Perform other acts otherwise permitted by applicable law to secure payment of the principal of, premium, if any, and interest on the loan from the Fund to the local government and to provide for the remedies of the Fund in the event of any default by the local government in the payment of the loan, including, without limitation, any of the following:

a. The conveyance of, or the granting of liens on or security interests in, real and personal property, together with all rights, title and interest therein, to the Fund;

b. The procurement of insurance, guarantees, letters of credit and other forms of collateral, security, liquidity arrangements or credit supports for the loan from any source, public or private, and the payment therefor of premiums, fees, or other charges;

c. The combination of one or more projects, or the combination of one or more projects with one or more other undertakings, for the purpose of financing, and the pledging of the revenues from such combined projects and undertakings to secure the loan from the Fund to the local government made in connection with such combination or any part or parts thereof;

d. The maintenance, replacement, renewal, and repair of the project; and

e. The procurement of casualty and liability insurance.

6. Obtain a review of the accounting and the internal controls from the Auditor of Public Accounts or his legally authorized representatives. The Authority may request additional reviews at any time during the term of the loan.

7. Directly offer, pledge, and consent to the Authority to take action pursuant to § 62.1-216.1 to obtain payment of any amounts in default.

H. All local governments borrowing money from the Fund are authorized to perform any acts, take any action, adopt any proceedings and make and carry out any contracts that are contemplated by this chapter. Such contracts need not be identical among all local governments, but may be structured as determined by the Authority according to the needs of the contracting local governments and the Fund.

I. Subject to the rights, if any, of the registered owners of any of the bonds of the Authority, the Authority may consent to and approve any modification in the terms of any loan to any local government.

J. The Partnership, through its Chief Executive Officer, shall have the authority to access and release moneys in the Fund for purposes of this section as long as the disbursement does not exceed the balance of the Fund. If the Partnership, through its Chief Executive Officer, requests a disbursement in an amount exceeding the current Fund balance, the disbursement shall require the written approval of the Governor. Disbursements from the Fund may be made for the purposes outlined in this section, including, but not limited to, personnel, administrative and equipment costs and expenses directly incurred by the Partnership or the Authority, or by any other agency or political subdivision acting at the direction of the Partnership.

The Authority is empowered at any time and from time to time to pledge, assign or transfer from the Fund to banks or trust companies designated by the Authority any or all of the assets of the Fund to be held in trust as security for the payment of the principal of, premium, if any, and interest on any or all of the bonds, as defined in § 62.1-199, issued to finance any project. The interests of the Fund in any assets so transferred shall be subordinate to the rights of the trustee

under the pledge, assignment or transfer. To the extent funds are not available from other sources pledged for such purpose, any of the assets or payments of principal and interest received on the assets pledged, assigned or transferred or held in trust may be applied by the trustee thereof to the payment of the principal of, premium, if any, and interest on such bonds of the Authority secured thereby, and, if such payments are insufficient for such purpose, the trustee is empowered to sell any or all of such assets and apply the net proceeds from the sale to the payment of the principal of, premium, if any, and interest on such bonds of the Authority. Any assets of the Fund pledged, assigned or transferred in trust as set forth above and any payments of principal, interest or earnings received thereon shall remain part of the Fund but shall be subject to the pledge, assignment or transfer to secure the bonds of the Authority and shall be held by the trustee to which they are pledged, assigned or transferred until no longer required for such purpose by the terms of the pledge, assignment or transfer.

K. The Authority is empowered at any time and from time to time to sell, upon such terms and conditions as the Authority shall deem appropriate, any loan, or interest therein, made pursuant to this chapter. The net proceeds of sale remaining after the payment of the costs and expenses of the sale shall be designated for deposit to, and become part of, the Fund.

L. The Authority may, with the approval of the Partnership, pledge, assign or transfer from the Fund to banks or trust companies designated by the Authority any or all of the assets of the Fund to be held in trust as security for the payment of the principal of, premium, if any, and interest on any or all of the bonds, as defined in § 62.1-199, issued to finance any project. The interests of the Fund in any assets so transferred shall be subordinate to the rights of the trustee under the pledge, assignment or transfer. To the extent funds are not available from other sources pledged for such purpose, any of the assets or payments of principal and interest received on the assets pledged, assigned or transferred or held in trust may be applied by the trustee thereof to the payment of the principal of, premium, if any, and interest on such bonds of the Authority secured thereby, and, if such payments are insufficient for such purpose, the trustee is empowered to sell any or all of such assets and apply the net proceeds from the sale to the payment of the principal of, premium, if any, and interest on such bonds of the Authority. Any assets of the Fund pledged, assigned or transferred in trust as set forth above and any payments of principal, interest or earnings received thereon shall remain part of the Fund but shall be subject to the pledge, assignment or transfer to secure the bonds of the Authority and shall be held by the trustee to which they are pledged, assigned or transferred until no longer required for such purpose by the terms of the pledge, assignment or transfer.

M. The Partnership, in consultation with the Department of Environmental Quality, shall develop guidance governing the use of the Fund and including criteria for project eligibility that considers the extent to which a grant or loan will facilitate the use or reuse of existing infrastructure, the extent to which a grant or loan will meet the needs of a community that has limited ability to draw on other funding sources because of the small size or low income of the community, the potential for redevelopment of the site, the economic and environmental benefits to the surrounding community, and the extent of the perceived or real environmental contamination at the site. The guidelines shall include a requirement for a one-to-one match by the recipient of any grant made by or from the Fund.

2. That § 2.2-2240.2 of the Code of Virginia is repealed.

3. That any funds remaining in the Major Employment and Investment Project Site Planning Grant Fund pursuant to § 2.2-2240.2 of the Code of Virginia, as repealed by this act, at the end of fiscal year 2022 shall be allocated to the Virginia Business Ready Sites Program Fund established under § 2.2-2240.2:1 of the Code of Virginia, as created by this act.

§ 3.2-3012. Virginia Spirits Promotion Fund established.

A. There is hereby created in the state treasury a special nonreverting fund to be known as the Virginia Spirits Promotion Fund, hereafter referred to as "the Fund." The Fund shall be established on the books of the Comptroller. The Fund shall consist of all moneys appropriated to it by the General Assembly, *moneys received pursuant to § 4.1-235*, grants of private or government funds designated for specified activities authorized pursuant to this chapter, fees for services rendered pursuant to this chapter, and payments for products, equipment, or material or other goods supplied. All moneys shall be paid into the state treasury and credited to the Fund. Interest earned on moneys in the Fund shall remain in the Fund and be credited to it. Any moneys remaining in the Fund, including interest thereon, at the end of each fiscal year shall not revert to the general fund but shall remain in the Fund. Moneys in the Fund shall be used solely for the purposes of carrying out the provisions of this chapter. Expenditures and disbursements from the Fund shall be made by the State Treasurer on warrants issued by the Comptroller upon written request signed by the duly authorized officer of the Board.

B. The Board shall meet and evaluate proposals from applicants for funding from the Fund. The Board's final recommendations shall be made by recorded vote.

C. The Auditor of Public Accounts shall audit all accounts as provided in § 30-133.

§ 4.1-235. Collection; computation, distribution of tax on wine and other alcoholic beverages; refunds and adjustments.

A. The Board shall collect the state taxes levied pursuant to §§ 4.1-213 and 4.1-234 as follows:

1. Collection shall be from the purchaser at the time of or prior to sale, except as to sales made to wholesale wine licensees. Wholesale wine licensees shall collect the taxes at the time of or prior to sale to retail licensees, and shall remit such taxes monthly to the Board, along with such reports as may be required by the Board, at the time and in the manner prescribed by the Board.

2. In establishing the prices for items sold by it to persons other than wholesale licensees, the Board shall include a reasonable markup. The liter tax or 20 percent tax, as appropriate, shall then be added to the price of each container of alcoholic beverages. The four percent tax on vermouth and farm winery wines and ciders shall then be added for those products. In all cases the final price for each container may be established so as to be a multiple of five or rounded to end with a nine.

In accounting for the state tax on sales the Board shall divide the net sales for the quarter by 1.20 and multiply the result by 20 percent. As to the sale of vermouth and farm winery wine and cider, the Board shall divide the net sales for the quarter by 1.04 and multiply the result by four percent.

B. The amount of tax collected under this section during each quarter shall, within 50 days after the close of such quarter, be certified to the Comptroller by the Board and shall be transferred by him from the special fund described in § 4.1-116 to the general fund of the state treasury. The Board shall, not later than June 20 of every year, estimate the yield of the state tax on sales imposed by §§ 4.1-213 and 4.1-234 for the quarter ending June 30 and certify the amount of such estimate to the Comptroller, whereupon the Comptroller shall, before the end of the month, transfer the amount of such estimate from the special fund described in § 4.1-116 to the general fund of the state treasury, subject to such adjustment on account of an overestimate or underestimate as may be indicated within 50 days after the close of the quarter ending on June 30.

Forty-four percent of the amount derived from the liter tax levied pursuant to §§ 4.1-213 and 4.1-234 shall be transferred to the general fund and paid to the several counties, cities, and towns of the Commonwealth in proportion to their respective populations, and is appropriated for such purpose.

The counties, cities, and towns shall in no event receive from the taxes derived from the sale of wines less revenue than was received by such counties, cities, and towns for the year ending June 30, 1976.

The portion of wine liter tax and cider markup collected pursuant to §§ 4.1-213 and 4.1-234 that is attributable to the sale of wine and cider produced by a farm winery shall be deposited in the Virginia Wine Promotion Fund established pursuant to § 3.2-3005.

Twelve percent of the amount derived from the liter tax levied shall be retained by the Board as operating revenue and distributed as provided in § 4.1-117.

Twenty percent of the portion of tax collected pursuant to subsection B of § 4.1-234 that is attributable to the sale of spirits produced by a distiller licensee shall be deposited in the Virginia Spirits Promotion Fund established pursuant to § 3.2-3012.

C. As used in this section, the term "net sales" means gross sales less refunds to customers.

D. The Board may make a refund or adjustment of any tax paid to it under this section when (i) the wine upon which such tax has been paid has been condemned and is not permitted to be sold in the Commonwealth, or (ii) wine is returned by a retail licensee to a wholesale wine licensee for refund in accordance with Board regulations or approval. Any claim for such refund or adjustment shall be made to the Board in the report filed with the Board by the wholesale wine licensee for the period in which such return and refund occurs.

CHAPTER 86

An Act to authorize the issuance of bonds, in an amount up to \$100,869,000 plus financing costs, pursuant to Article X, Section 9 (c) of the Constitution of Virginia, for paying costs of acquiring, constructing, and equipping revenue-producing capital projects at institutions of higher learning of the Commonwealth; to authorize the Treasury Board, by and with the consent of the Governor, to fix the details of such bonds, to provide for the sale of such bonds, and to issue notes to borrow money in anticipation of the issuance of the bonds; to provide for the pledge of the net revenues of such capital projects and the full faith, credit, and taxing power of the Commonwealth for the payment of such bonds; to provide that the interest income on such bonds and notes shall be exempt from all taxation by the Commonwealth and any political subdivision thereof; emergency.

[S 93]

Approved April 5, 2022

Whereas, Article X, Section 9 (c), Constitution of Virginia, provides that the General Assembly may authorize the creation of debt secured by a pledge of net revenues derived from rates, fees, or other charges and the full faith and credit of the Commonwealth of Virginia, provided that such debt is created for specific revenue-producing capital projects, including their enlargement or improvement, at, among others, institutions of higher learning of the Commonwealth; and

Whereas, in accordance with Article X, Section 9 (c), Constitution of Virginia, the Governor has certified in writing, filed with the Auditor of Public Accounts, his opinion that the anticipated net revenues of each of the capital projects identified below to be pledged to the payment of the principal of and the interest on that portion of such debt issued for each such project will be sufficient to meet such payments as the same become due and to provide such reserves as may be required by law and that each of the capital projects complies with the requirements of Article X, Section 9 (c), Constitution of Virginia; now, therefore,

Be it enacted by the General Assembly of Virginia:

1. § 1. Title. This act shall be known and may be cited as the "Commonwealth of Virginia Higher Educational Institutions Bond Act of 2022."

§ 2. Authorization of bonds and BANs. The Treasury Board is hereby authorized, by and with the consent of the Governor, to sell and issue, pursuant to Article X, Section 9 (c), Constitution of Virginia, at one time or from time to time, bonds of the Commonwealth, to be designated "Commonwealth of Virginia Higher Educational Institutions Bonds, Series" in an aggregate principal amount not exceeding \$100,869,000, plus amounts needed to fund issuance costs, reserve funds, construction period interest, and other financing expenses. The Treasury Board is further hereby authorized, by and with the consent of the Governor, to borrow money in anticipation of the issuance of bonds by the issuance of bond anticipation notes (BANs), including BANs issued as commercial paper. The proceeds of such bonds and BANs, excluding amounts needed to fund issuance costs, reserve funds, and other financing expenses, shall be used exclusively for the purpose of providing funds, with any other available funds, for paying all or a portion of the costs of acquiring, constructing, renovating, enlarging, improving, and equipping revenue-producing capital projects at institutions of higher learning of the Commonwealth as follows:

<i>Institution</i>	<i>Project Title</i>	<i>Project Code</i>	<i>Amount</i>
<i>James Madison University</i>	<i>Village Student Housing, Phase I</i>	<i>18596</i>	<i>\$55,240,000</i>
<i>Virginia Polytechnic Institute and State University</i>	<i>Hitt Hall</i>	<i>18605</i>	<i>\$45,629,000</i>
<i>Total</i>			<i>\$100,869,000</i>

§ 3. Application of proceeds. The proceeds, including any premium, of bonds and BANs (except the proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds, and (iii) refunding BANs) shall be deposited in a special capital outlay fund in the state treasury and, together with the investment income thereon, shall be disbursed by the State Treasurer for paying costs of the acquisition, construction, renovation, enlargement, improvement, and equipping of the authorized capital projects, including financing costs. The proceeds of (a) bonds the issuance of which has been anticipated by BANs, (b) refunding bonds, and (c) refunding BANs shall be used to pay such BANs, refunded bonds, and refunded BANs.

§ 4. Details, sale of bonds and BANs. Bonds and BANs shall be dated, and may be made redeemable before their maturity or maturities at such price or prices or within such price parameters, all as may be determined by the Treasury Board, by and with the consent of the Governor. Bonds and BANs shall be in such form, shall bear interest at such rate or rates, either at fixed rates or at rates established by formula or other method, and may contain such other provisions, all as determined by the Treasury Board or, when authorized by the Treasury Board, the State Treasurer. The principal of and premium, if any, and the interest on bonds and BANs shall be payable in lawful money of the United States of America. Bonds and BANs may be certificated or uncertificated as determined by the Treasury Board. The Treasury Board may contract for services of such registrars, transfer agents, or other authenticating agents as it deems appropriate to maintain a record of the persons entitled to the bonds and BANs. Bonds and BANs issued in certificated form may be issued under a system of book entry for recording the ownership and transfer of ownership of rights to receive payments on the bonds and BANs. The Treasury Board shall fix the authorized denomination or denominations of the bonds and the place or places of payment of certificated bonds and BANs, which may be at the Office of the State Treasurer or at any bank or trust company within or without the Commonwealth. Bonds shall mature at such time or times not exceeding 30 years from their date or dates, and BANs shall mature at such time or times not exceeding five years from their date or dates.

The Treasury Board may sell bonds and BANs in such manner, by competitive bidding, negotiated sale, or private placement and for such price or within such price parameters as it may determine, by and with the consent of the Governor, to be in the best interest of the Commonwealth.

In the discretion of the Treasury Board, bonds and BANs may be issued at one time or from time to time and may be sold and issued at the same time with other general obligation bonds and BANs, respectively, of the Commonwealth authorized pursuant to Article X, Section 9 (a) (3), (b), and (c) of the Constitution of Virginia, as separate issues or as a combined issue, designated "Commonwealth of Virginia General Obligation Bonds Bond Anticipation Notes, Series"

§ 5. Execution of bonds and BANs. Certificated bonds and BANs shall be signed on behalf of the Commonwealth by the Governor and by the State Treasurer, or shall bear their facsimile signatures, and shall bear the lesser seal of the Commonwealth or a facsimile thereof. If the bonds or BANs bear the facsimile signature of the State Treasurer, they shall be signed by such administrative assistant as the State Treasurer shall determine or by such registrar or paying agent as may be designated to sign them by the Treasury Board. If any officer whose signature or facsimile signature appears on any bonds or BANs ceases to be such officer before delivery, such signature or facsimile signature shall nevertheless be valid and sufficient for all purposes the same as if such officer had remained in office until such delivery, and any bond or BAN may bear the facsimile signature of, or may be signed by, such persons as at the actual time of execution are the proper officers to sign such bond or BAN, although, at the date of such bond or BAN, such persons may not have been such officers.

§ 6. Sources for payment of expenses. All expenses incurred under this act shall be paid from the proceeds of bonds or BANs, from payments made by the institutions for which the capital projects were authorized in § 2 hereof or from any other available funds as the Treasury Board shall determine.

§ 7. Revenues. Each institution of higher learning named above is hereby authorized (i) to fix, revise, charge, and collect rates, fees, and charges for or in connection with the use, occupancy, and services of each capital project mentioned above or the system of which such capital project is a part and (ii) to pledge to the portion of the bonds or BANs issued for such capital project the net revenues resulting from such rates, fees, and charges and remaining after payment of the expenses of operating the project or system, as the case may be. Each such institution is further authorized to create debt service and sinking funds for the payments of the principal of, premium, if any, and interest on the bonds and other reserves required by any agency of the United States of America purchasing the bonds or any portion thereof.

§ 8. Investments and contracts. A. Pending the application of the proceeds of the bonds or BANs (including refunding bonds and BANs) to the purpose for which they have been authorized and the application of funds set aside for the purpose to the payment of bonds or BANs, they may be invested by the State Treasurer in securities that are legal investments under the laws of the Commonwealth for public funds and sinking funds, as the case may be. Whenever the State Treasurer receives interest from the investment of the proceeds of bonds or any BANs, such interest shall become a part of the principal of the bonds or any BANs and shall be used in the same manner as required for principal of the bonds or BANs.

B. The Commonwealth may enter into any contract or other arrangement that is determined to be necessary or appropriate to place the obligation or investment of the Commonwealth, as represented by bonds, BANs, or investments, in whole or in part, on the interest rate, cash flow, or other basis desired by the Commonwealth. Such contract or other arrangement may include, without limitation, contracts commonly known as interest rate swap agreements and futures or contracts providing for payments based on levels of, or changes in, interest rates. These contracts or arrangements may be entered into by the Commonwealth in connection with, or incidental to, entering into, or maintaining any (i) agreement which secures bonds or BANs or (ii) investment, or contract providing for investment, otherwise authorized by law. These contracts and arrangements may contain such payment, security, default, remedy, and other terms and conditions as determined by the Commonwealth, after giving due consideration to the creditworthiness of the counterparty or other obligated party, including any rating by any nationally recognized rating agency, and any other criteria as may be appropriate. The determinations referred to in this subsection may be made by the Treasury Board or any public funds manager with professional investment capabilities duly authorized by the Treasury Board to make such determinations.

C. Any money set aside and pledged to secure payments of bonds, BANs, or any of the contracts entered into pursuant to this section may be invested in accordance with subsection A and may be pledged to and used to service any of the contracts or other arrangements entered into pursuant to subsection B.

§ 9. Security for bonds and BANs. The net revenues of the capital projects set forth above and the full faith and credit of the Commonwealth are hereby irrevocably pledged for the payment of the principal of and the interest on bonds and BANs (unless the Treasury Board, by and with the consent of the Governor, shall provide otherwise) issued under this act. The proceeds of (i) bonds the issuance of which has been anticipated by BANs, (ii) refunding bonds, and (iii) refunding BANs are hereby irrevocably pledged for the payment of principal of and interest and any premium on the BANs or bonds to be paid or redeemed thereby. In the event the net revenues pledged to the payment of the bonds or BANs are insufficient in any fiscal year for the timely payment of the principal of, premium, if any, and interest on the bonds or BANs, where the full faith and credit of the Commonwealth have been pledged, the General Assembly shall appropriate a sum sufficient therefor or the Governor shall direct payment therefor from the general fund revenues of the Commonwealth.

§ 10. Exemption of interest from tax. [S 604]

Approved April 5, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 3.2-6500 of the Code of Virginia is amended and reenacted as follows:
§ 3.2-6500. Definitions.

As used in this chapter unless the context requires a different meaning:

"Abandon" means to desert, forsake, or absolutely give up an animal without having secured another owner or custodian for the animal or by failing to provide the elements of basic care as set forth in § 3.2-6503 for a period of four consecutive days.

"Adequate care" or "care" means the responsible practice of good animal husbandry, handling, production, management, confinement, feeding, watering, protection, shelter, transportation, treatment, and, when necessary, euthanasia, appropriate for the age, species, condition, size and type of the animal and the provision of veterinary care when needed to prevent suffering or impairment of health.

"Adequate exercise" or "exercise" means the opportunity for the animal to move sufficiently to maintain normal muscle tone and mass for the age, species, size, and condition of the animal.

"Adequate feed" means access to and the provision of food that is of sufficient quantity and nutritive value to maintain each animal in good health; is accessible to each animal; is prepared so as to permit ease of consumption for the age, species, condition, size and type of each animal; is provided in a clean and sanitary manner; is placed so as to minimize contamination by excrement and pests; and is provided at suitable intervals for the species, age, and condition of the animal, but at least once daily, except as prescribed by a veterinarian or as dictated by naturally occurring states of hibernation or fasting normal for the species.

"Adequate shelter" means provision of and access to shelter that is suitable for the species, age, condition, size, and type of each animal; provides adequate space for each animal; is safe and protects each animal from injury, rain, sleet, snow, hail, direct sunlight, the adverse effects of heat or cold, physical suffering, and impairment of health; is properly lighted; is properly cleaned; enables each animal to be clean and dry, except when detrimental to the species; during hot weather, is properly shaded and does not readily conduct heat; during cold weather, has a windbreak at its entrance and provides a quantity of bedding material consisting of hay, cedar shavings, or the equivalent that is sufficient to protect the animal from cold and promote the retention of body heat; and, for dogs and cats, provides a solid surface, resting platform, pad, floormat, or similar device that is large enough for the animal to lie on in a normal manner and can be maintained in a sanitary manner. Under this chapter, shelters whose wire, grid, or slat floors (i) permit the animals' feet to pass through the openings, (ii) sag under the animals' weight, or (iii) otherwise do not protect the animals' feet or toes from injury are not adequate shelter. The outdoor tethering of an animal shall not constitute the provision of adequate shelter (a) unless the animal is safe from predators and well suited and well equipped to tolerate its environment; (b) during the effective period for a hurricane warning or tropical storm warning issued for the area by the National Weather Service; or (c)(1) during a heat advisory issued by a local or state authority, (2) when the actual or effective outdoor temperature is 85 degrees Fahrenheit or higher or 32 degrees Fahrenheit or lower, or (3) during the effective period for a severe weather warning issued for the area by the National Weather Service, including a winter storm, tornado, or severe thunderstorm warning, unless an animal control officer, having inspected an animal's individual circumstances in clause (c)(1), (2), or (3), has determined the animal to be safe from predators and well suited and well equipped to tolerate its environment.

"Adequate space" means sufficient space to allow each animal to (i) easily stand, sit, lie, turn about, and make all other normal body movements in a comfortable, normal position for the animal and (ii) interact safely with other animals in the enclosure. When an animal is tethered, "adequate space" means that the tether to which the animal is attached permits the above actions and is appropriate to the age and size of the animal; is attached to the animal by a properly applied collar, halter, or harness that is configured so as to protect the animal from injury and prevent the animal or tether from becoming entangled with other objects or animals, or from extending over an object or edge that could result in the strangulation or injury of the animal; is at least 15 feet in length or four times the length of the animal, as measured from the tip of its nose to the base of its tail, whichever is greater, except when the animal is being walked on a leash or is attached by a tether to a lead line or when an animal control officer, having inspected an animal's individual circumstances, has determined that in such an individual case, a tether of at least 10 feet or three times the length of the animal, but shorter than 15 feet or four times the length of the animal, makes the animal more safe, more suited, and better equipped to tolerate its environment than a longer tether; does not, by its material, size, or weight or any other characteristic, cause injury or pain to the animal; does not weigh more than one-tenth of the animal's body weight; and does not have weights or other heavy objects attached to it. The walking of an animal on a leash by its owner shall not constitute the tethering of the animal for the purpose of this definition. When freedom of movement would endanger the animal, temporarily and appropriately restricting movement of the animal according to professionally accepted standards for the species is considered provision of adequate space. The provisions of this definition that relate to tethering shall not apply to agricultural animals.

"Adequate water" means provision of and access to clean, fresh, potable water of a drinkable temperature that is provided in a suitable manner, in sufficient volume, and at suitable intervals appropriate for the weather and temperature, to maintain normal hydration for the age, species, condition, size and type of each animal, except as prescribed by a veterinarian or as dictated by naturally occurring states of hibernation or fasting normal for the species; and is provided in clean, durable receptacles that are accessible to each animal and are placed so as to minimize contamination of the water by excrement and pests or an alternative source of hydration consistent with generally accepted husbandry practices.

The attorney for the Commonwealth shall initiate civil proceedings to enforce the civil penalties. B. Such policies may (i) provide for consideration of the dollar amount of the intended procurement, the term of the anticipated contract, and the likely extent of competition; (ii) implement a prequalification procedure for contractors or products; and (iii) include provisions for cooperative arrangements with other covered institutions, other public or private educational institutions, or other public or private organizations or entities, including public-private partnerships, public bodies, charitable organizations, health care provider alliances or purchasing organizations or entities, state agencies or institutions of the Commonwealth or the other states, the District of Columbia, the territories, or the United States, and any combination of such organizations and entities.

CHAPTER 98

An Act to amend and reenact § 29.1-521 of the Code of Virginia, relating to hunting on Sunday.

[S 8]

Approved April 5, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 29.1-521 of the Code of Virginia is amended and reenacted as follows:

§ 29.1-521. Unlawful to hunt, trap, possess, sell, or transport wild birds and wild animals except as permitted; exception; penalty.

A. The following is unlawful:

1. To hunt or kill *on Sunday* (i) any wild bird or wild animal, including any nuisance species, with a gun, firearm, or other weapon, *within 200 yards of a place of worship or any accessory structure thereof* or ~~to hunt or kill~~ (ii) any deer or bear with a gun, firearm, or other weapon with the aid or assistance of dogs; ~~on Sunday. The provision of this subdivision that prohibits the hunting or killing of any wild bird or wild animal, including nuisance species, on Sunday shall not apply to~~ (i) any person who hunts or kills raccoons; (ii) any person who hunts or kills birds in the family Rallidae or waterfowl, subject to geographical limitations established by the Director and except within 200 yards of a place of worship or any accessory structure thereof; or (iii) any landowner or member of his family or any person with written permission from the landowner who hunts or kills any wild bird or wild animal, including any nuisance species, on the landowner's property, except within 200 yards of a place of worship or any accessory structure thereof. However, a person lawfully carrying a gun, firearm, or other weapon on Sunday in an area that could be used for hunting shall not be presumed to be hunting on Sunday, absent evidence to the contrary.

2. To destroy or harass the nest, eggs, dens, or young of any wild bird or wild animal, except nuisance species, at any time without a permit as required by law.

3. To hunt or attempt to kill or trap any species of wild bird or wild animal after having obtained the daily bag or season limit during such day or season. However, any properly licensed person, or a person exempt from having to obtain a license, who has obtained such daily bag or season limit while hunting may assist others who are hunting game by calling game, retrieving game, handling dogs, or conducting drives if the weapon in his possession is an unloaded firearm, a bow without a nocked arrow, an unloaded slingbow, an unloaded arrowgun, or an unloaded crossbow. Any properly licensed person, or person exempt from having to obtain a license, who has obtained such season limit prior to commencement of the hunt may assist others who are hunting game by calling game, retrieving game, handling dogs, or conducting drives, provided he does not have a firearm, bow, slingbow, arrowgun, or crossbow in his possession.

4. To knowingly occupy any baited blind or other baited place for the purpose of taking or attempting to take any wild bird or wild animal or to put out bait or salt for any wild bird or wild animal for the purpose of taking or killing it. There shall be a rebuttable presumption that a person charged with violating this subdivision knows that he is occupying a baited blind or other baited place for the purpose of taking or attempting to take any wild bird or wild animal. However, this shall not apply to baiting nuisance species of animals and birds, or to baiting traps for the purpose of taking fur-bearing animals that may be lawfully trapped.

5. To kill or capture any wild bird or wild animal adjacent to any area while a field or forest fire is in progress.

6. To shoot or attempt to take any wild bird or wild animal from an automobile or other vehicle, except (i) as provided in § 29.1-521.3 or (ii) for the killing of nuisance species as defined in § 29.1-100 on private property by the owner of such property or his designee from a stationary automobile or other stationary vehicle.

7. To set a trap of any kind on the lands or waters of another without attaching to the trap: (i) the name and address of the trapper; or (ii) an identification number issued by the Department.

8. To set a trap where it would be likely to injure persons, dogs, stock, or fowl.

9. To fail to visit all traps once each day and remove all animals caught, and immediately report to the landowner as to stock, dogs, or fowl that are caught and the date. However, the Director or his designee may authorize employees of federal, state, and local government agencies, and persons holding a valid Commercial Nuisance Animal Permit issued by the Department, to visit body-gripping traps that are completely submerged at least once every 72 hours, and the Board may adopt regulations permitting trappers to visit traps less frequently under specified conditions. The Board shall adopt regulations permitting trappers to use remote trap-checking technology to check traps under specified conditions.

10. To hunt, trap, take, capture, kill, attempt to take, capture, or kill, possess, deliver for transportation, transport, cause to be transported, by any means whatever, receive for transportation or export, or import, at any time or in any manner, any wild bird or wild animal or the carcass or any part thereof, except as specifically permitted by law and only by the manner or means and within the numbers stated. However, the provisions of this section shall not be construed to prohibit the (i) use or transportation of legally taken turkey carcasses, or portions thereof, for the purposes of making or selling turkey callers; (ii) the manufacture or sale of implements, including tools or utensils made from legally harvested deer skeletal parts, including antlers; (iii) the possession of shed antlers; or (iv) the possession, manufacture, or sale of other parts or implements authorized by regulations adopted by the Board.

11. To offer for sale, sell, offer to purchase, or purchase, at any time or in any manner, any wild bird or wild animal or the carcass or any part thereof, except as specifically permitted by law, including subsection D of § 29.1-553. However, any nonprofit organization exempt from taxation under § 501(c)(3) of the Internal Revenue Code that is (i) organized to provide wild game as food to the hungry and (ii) authorized by the Department to possess, transport, and distribute donated or unclaimed meat to the hungry may pay a processing fee in order to obtain such meat. Such fee shall not exceed the actual cost for processing the meat. In addition, any nonprofit organization exempt from taxation under § 501(c)(3) of the Internal Revenue Code that is (a) organized to support wildlife habitat conservation and (b) approved by the Department shall be allowed to offer wildlife mounts that have undergone the taxidermy process for sale in conjunction with fundraising activities. A violation of this subdivision shall be punishable as provided in § 29.1-553.

12. To offer for sale, sell, offer to purchase, or purchase a hunt guaranteeing the killing of a deer, bear, or wild turkey. Nothing in this subdivision shall prevent a landowner from leasing land for hunting. A violation of this subdivision shall be punishable as provided in § 29.1-553.

B. Notwithstanding any other provision of this article, any American Indian who produces verification that he is an enrolled member of a tribe recognized by the Commonwealth, another state, or the U.S. government, may possess, offer for sale, or sell to another American Indian, or offer to purchase or purchase from another American Indian, parts of legally obtained fur-bearing animals, nonmigratory game birds, and game animals, except bear. Such legally obtained parts shall include antlers, hooves, feathers, claws, and bones.

"Verification" as used in this section shall include (i) display of a valid tribal identification card, (ii) confirmation through a central tribal registry, (iii) a letter from a tribal chief or council, or (iv) certification from a tribal office that the person is an enrolled member of the tribe.

C. Notwithstanding any other provision of this chapter, the Department may authorize the use of snake exclusion devices by public utilities at their transmission or distribution facilities and the incidental taking of snakes resulting from the use of such devices.

D. A violation of subdivisions A 1 through 10 shall be punishable as a Class 3 misdemeanor.

(2) Those costs solely would lead to an increase in average premiums charged of more than one percent for all insurance policies, subscription contracts, or health care plans commencing on inception or the next renewal date, based on the premium rating methodology and practices the insurer, corporation, or health maintenance organization, or such governmental entity, employs; and

b. The Commissioner approves the certification of the actuary;

2. An exemption allowed under subdivision 1 shall apply for a one-year coverage period following inception or next renewal date of all insurance policies, subscription contracts, or health care plans issued or renewed during the one-year period following the date of the exemption, after which the insurer, corporation, or health maintenance organization, or such governmental entity, shall again provide coverage for behavioral health treatment required under this section;

3. An insurer, corporation, or health maintenance organization, or such governmental entity, may claim an exemption for a subsequent year, but only if the conditions specified in subdivision 1 again are met; and

CHAPTER 102

An Act to amend and reenact § 38.2-3418.17 of the Code of Virginia, relating to health insurance; coverage for autism spectrum disorder; definition.

[S 321]

Approved April 6, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 38.2-3418.17 of the Code of Virginia is amended and reenacted as follows:

§ 38.2-3418.17. Coverage for autism spectrum disorder.

A. Notwithstanding the provisions of § 38.2-3419 and any other provision of law, each insurer proposing to issue accident and sickness insurance policies providing hospital, medical and surgical, or major medical coverage on an expense-incurred basis; each corporation providing accident and sickness subscription contracts; and each health maintenance organization providing a health care plan for health care services shall, as provided in this section, provide coverage for the diagnosis of autism spectrum disorder and the treatment of autism spectrum disorder, in individuals (i) from January 1, 2012, until January 1, 2016, from age two years through age six years; (ii) from January 1, 2016, until January 1, 2020, from age two years through age 10 years; and (iii) from and after January 1, 2020, of any age, subject to the annual maximum benefit limitation set forth in subsection K and to the provisions of subsection G. If an individual who is being treated for autism spectrum disorder becomes older than the applicable maximum age set forth in the preceding sentence and continues to need treatment, this section does not preclude coverage of treatment and services. In addition to the requirements imposed on health insurance issuers by § 38.2-3436, an insurer shall not terminate coverage or refuse to deliver, issue, amend, adjust, or renew coverage of an individual solely because the individual is diagnosed with autism spectrum disorder or has received treatment for autism spectrum disorder.

B. For purposes of this section:

"Applied behavior analysis" means the design, implementation, and evaluation of environmental modifications, using behavioral stimuli and consequences, to produce socially significant improvement in human behavior, including the use of direct observation, measurement, and functional analysis of the relationship between environment and behavior.

"Autism spectrum disorder" means any pervasive developmental disorder, ~~including (i) autistic disorder, (ii) Asperger's Syndrome, (iii) Rett syndrome, (iv) childhood disintegrative disorder, or (v) Pervasive Developmental Disorder — Not Otherwise Specified; or autism spectrum disorder~~, as defined in the most recent edition or the most recent edition at the time of diagnosis of the Diagnostic and Statistical Manual of Mental Disorders of the American Psychiatric Association.

"Behavioral health treatment" means professional, counseling, and guidance services and treatment programs that are necessary to develop, maintain, or restore, to the maximum extent practicable, the functioning of an individual.

"Diagnosis of autism spectrum disorder" means medically necessary assessments, evaluations, or tests to diagnose whether an individual has an autism spectrum disorder.

"Medically necessary" means in accordance with the generally accepted standards of mental disorder or condition care and clinically appropriate in terms of type, frequency, site, and duration, based upon evidence and reasonably expected to do any of the following: (i) prevent the onset of an illness, condition, injury, or disability; (ii) reduce or ameliorate the physical, mental, or developmental effects of an illness, condition, injury, or disability; or (iii) assist to achieve or maintain maximum functional capacity in performing daily activities, taking into account both the functional capacity of the individual and the functional capacities that are appropriate for individuals of the same age.

"Pharmacy care" means medications prescribed by a licensed physician and any health-related services deemed medically necessary to determine the need or effectiveness of the medications.

"Psychiatric care" means direct or consultative services provided by a psychiatrist licensed in the state in which the psychiatrist practices.

"Treatment for autism spectrum disorder" shall be identified in a treatment plan and includes the following care prescribed or ordered for an individual diagnosed with autism spectrum disorder by a licensed physician or a licensed psychologist who determines the care to be medically necessary: (i) behavioral health treatment, (ii) pharmacy care, (iii) psychiatric care, (iv) psychological care, (v) therapeutic care, and (vi) applied behavior analysis when provided or supervised by a board certified behavior analyst who shall be licensed by the Board of Medicine. The prescribing practitioner shall be independent of the provider of applied behavior analysis.

"Treatment plan" means a plan for the treatment of autism spectrum disorder developed by a licensed physician or a licensed psychologist pursuant to a comprehensive evaluation or reevaluation performed in a manner consistent with the most recent clinical report or recommendation of the American Academy of Pediatrics or the American Academy of Child and Adolescent Psychiatry.

C. Except for inpatient services, if an individual is receiving treatment for an autism spectrum disorder, an insurer, corporation, or health maintenance organization shall have the right to request a review of that treatment, including an independent review, not more than once every 12 months unless the insurer, corporation, or health maintenance organization and the individual's licensed physician or licensed psychologist agree that a more frequent review is necessary. The cost of obtaining any review, including an independent review, shall be covered under the policy, contract, or plan.

D. Coverage under this section will not be subject to any visit limits, and shall be neither different nor separate from coverage for any other illness, condition, or disorder for purposes of determining deductibles, lifetime dollar limits, copayment and coinsurance factors, and benefit year maximum for deductibles and copayment and coinsurance factors.

E. Nothing shall preclude the undertaking of usual and customary procedures, including prior authorization, to determine the appropriateness of, and medical necessity for, treatment of autism spectrum disorder under this section, provided that all such appropriateness and medical necessity determinations are made in the same manner as those determinations are made for the treatment of any other illness, condition, or disorder covered by such policy, contract, or plan.

F. The provisions of this section shall not apply to (i) short-term travel, accident only, limited, or specified disease policies; (ii) short-term nonrenewable policies of not more than six months' duration; or (iii) policies or contracts designed for issuance to persons eligible for coverage under Title XVIII of the Social Security Act, known as Medicare, or any other similar coverage under state or federal governmental plans.

H. Any coverage required pursuant to this section shall be in addition to the coverage required by § 38.2-3418.5 and other provisions of law. This section shall not be construed as diminishing any coverage required by § 38.2-3412.1. This section shall not be construed as affecting any obligation to provide services to an individual under an individualized family service plan, an individualized education program, or an individualized service plan.

I. Pursuant to the provisions of § 2.2-2818.2, this section shall apply to health coverage offered to state employees pursuant to § 2.2-2818 and to health insurance coverage offered to employees of local governments, local officers, teachers, and retirees, and the dependents of such employees, teachers, and retirees pursuant to § 2.2-1204.

J. Notwithstanding any provision of this section to the contrary:

1. An insurer, corporation, or health maintenance organization, or a governmental entity providing coverage for such treatment pursuant to subsection I, is exempt from providing coverage for behavioral health treatment required under this section and not covered by the insurer, corporation, health maintenance organization, or governmental entity providing coverage for such treatment pursuant to subsection I as of December 31, 2011, if:

a. An actuary, affiliated with the insurer, corporation, or health maintenance organization, who is a member of the American Academy of Actuaries and meets the American Academy of Actuaries' professional qualification standards for rendering an actuarial opinion related to health insurance rate making, certifies in writing to the Commissioner of Insurance that:

(1) Based on an analysis to be completed no more frequently than one time per year by each insurer, corporation, or health maintenance organization, or such governmental entity, for the most recent experience period of at least one year's duration, the costs associated with coverage of behavioral health treatment required under this section, and not covered as of December 31, 2011, exceeded one percent of the premiums charged over the experience period by the insurer, corporation, or health maintenance organization; and

(2) Those costs solely would lead to an increase in average premiums charged of more than one percent for all insurance policies, subscription contracts, or health care plans commencing on inception or the next renewal date, based on the premium rating methodology and practices the insurer, corporation, or health maintenance organization, or such governmental entity, employs; and

b. The Commissioner approves the certification of the actuary;

2. An exemption allowed under subdivision 1 shall apply for a one-year coverage period following inception or next renewal date of all insurance policies, subscription contracts, or health care plans issued or renewed during the one-year period following the date of the exemption, after which the insurer, corporation, or health maintenance organization, or such governmental entity, shall again provide coverage for behavioral health treatment required under this section;

3. An insurer, corporation, or health maintenance organization, or such governmental entity, may claim an exemption for a subsequent year, but only if the conditions specified in subdivision 1 again are met; and

4. Notwithstanding the exemption allowed under subdivision 1, an insurer, corporation, or health maintenance organization, or such a governmental entity, may elect to continue to provide coverage for behavioral health treatment required under this section.

K. Coverage for applied behavior analysis under this section will be subject to an annual maximum benefit of \$35,000, unless the insurer, corporation, or health maintenance organization elects to provide coverage in a greater amount.

L. As of January 1, 2014, to the extent that this section requires benefits that exceed the essential health benefits specified under § 1302(b) of the federal Patient Protection and Affordable Care Act (H.R. 3590), as amended (the ACA), the specific benefits that exceed the specified essential health benefits shall not be required of a qualified health plan when the plan is offered in the Commonwealth by a health carrier through a health benefit exchange established under § 1311 of the ACA. Nothing in this subsection shall nullify application of this section to plans offered outside such an exchange.

C. 1. Except as otherwise provided herein, in the event the governing body of any locality elects to provide group accident and health insurance for its officers and employees, including constitutional officers and their employees, such programs shall require that upon retirement, or upon the effective date of this provision for those who have previously retired, any such individual with (i) at least 15 years of continuous employment with the locality or (ii) less than 15 years of continuous employment who has retired due to line-of-duty injuries may choose to continue his coverage with the insurer at the retiree's expense until such individual attains 65 years of age at the insurer's customary premium rate applicable (a) to such policies, (b) to the class of risk to which the person then belongs, and (c) to his age.

2. The governing body, when providing this coverage, may further provide that the retiree be rated separately from the active employees covered under the group plan offered by such governing body.

3. Any locality that has not offered the opportunity to continue group health coverage provided by the locality as required by subdivision 1 to its retirees who had retired on or before June 30, 1993, and who meet the criteria for such coverage as set forth in subdivision 1, shall do so by July 1, 2000. CHAPTER 111

An Act to amend and reenact § 58.1-3234 of the Code of Virginia, relating to land use assessment; forms.

[H 238]

Approved April 6, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 58.1-3234 of the Code of Virginia is amended and reenacted as follows:

§ 58.1-3234. Application by property owners for assessment, etc., under ordinance; continuation of assessment, etc.

Property owners shall submit an application for taxation on the basis of a use assessment to the local assessing officer as follows:

1. The property owner shall submit an initial application, unless it is a revalidation form, at least 60 days preceding the tax year for which such taxation is sought;

2. In any year in which a general reassessment is being made, the property owner may submit such application until 30 days have elapsed after his notice of increase in assessment is mailed in accordance with § 58.1-3330, or 60 days preceding the tax year, whichever is later; or

3. In any locality which has adopted a fiscal tax year under Chapter 30 (§ 58.1-3000 et seq.), but continues to assess as of January 1, such application shall be submitted for any year at least 60 days preceding the effective date of the assessment for such year.

The governing body, by ordinance, may permit applications to be filed within no more than 60 days after the filing deadline specified herein, upon the payment of a late filing fee to be established by the governing body. In addition, a locality may, by ordinance, permit a further extension of the filing deadline specified herein, upon payment of an extension fee to be established by the governing body in an amount not to exceed the late filing fee, to a date not later than 30 days after notices of assessments are mailed. An individual who is owner of an undivided interest in a parcel may apply on behalf of himself and the other owners of such parcel upon submitting an affidavit that such other owners are minors or cannot be located. An application shall be submitted whenever the use or acreage of such land previously approved changes; however, no application fee may be required when a change in acreage occurs solely as a result of a conveyance necessitated by governmental action or condemnation of a portion of any land previously approved for taxation on the basis of use assessment. The governing body of any locality may, however, require any such property owner to revalidate at least every six years with such locality, on or before the date on which the last installment of property tax prior to the effective date of the assessment is due, on forms prepared by the ~~locality~~ *Department*, any applications previously approved. Each locality ~~which~~ *that* has adopted an ordinance hereunder may provide for the imposition of a revalidation fee every sixth year. Such revalidation fee shall not, however, exceed the application fee currently charged by the locality. The governing body may also provide for late filing of revalidation forms on or before the effective date of the assessment, on payment of a late filing fee. Forms shall be prepared by the ~~State Tax Commissioner~~ *Department* and supplied to the locality for use of the applicants and applications shall be submitted on such forms. An application fee may be required to accompany all such applications.

In the event of a material misstatement of facts in the application or a material change in such facts prior to the date of assessment, such application for taxation based on use assessment granted thereunder shall be void and the tax for such year extended on the basis of value determined under § 58.1-3236 D. Except as provided by local ordinance, no application for assessment based on use shall be accepted or approved if, at the time the application is filed, the tax on the land affected is delinquent. Upon the payment of all delinquent taxes, including penalties and interest, the application shall be treated in accordance with the provisions of this section.

Continuation of valuation, assessment and taxation under an ordinance adopted pursuant to this article shall depend on continuance of the real estate in a qualifying use, continued payment of taxes as referred to in § 58.1-3235, and compliance with the other requirements of this article and the ordinance and not upon continuance in the same owner of title to the land.

In the event that the locality provides for a sliding scale under an ordinance, the property owner and the locality shall execute a written agreement which sets forth the period of time that the property shall remain within the classes of real estate set forth in § 58.1-3230. The term of the written agreement shall be for a period not exceeding 20 years, and the instrument shall be recorded in the office of the clerk of the circuit court for the locality in which the subject property is located.

No locality shall require any applicant who is a lessor of the property or a portion of the property that is the subject of an application submitted pursuant to this section to provide the lease agreement governing the property for the purpose of determining whether the property is eligible for special assessment and taxation pursuant to this article.

§ 38.2-1329. Registration of insurers that are members of holding company system.

A. Each insurer licensed to do business in the Commonwealth that is a member of an insurance holding company system shall register with the Commission.

B. 1. This section shall not apply to any foreign insurer subject to disclosure requirements and standards adopted by statute or regulation in the jurisdiction of its domicile that are substantially similar to those contained in this section, subsection A of § 38.2-1330, subsection D of § 38.2-1330, § 38.2-1330.1, and either (i) a provision substantially similar to subsection B of § 38.2-1330 or (ii) a provision such as the following: "Each registered insurer shall keep current the information required to be disclosed in its registration statement by reporting all material changes or additions within 15 days after the end of the month in which it learns of each change or addition."

2. Any insurer that is subject to registration under this section shall register within 15 days after it becomes subject to registration, and annually thereafter by April 30 of each year for the previous calendar year, unless the Commission for good cause shown extends the time for registration, and then within the extended time.

3. Any licensed insurer that is a member of an insurance holding company system but not subject to registration under this section may be required by the Commission to furnish a copy of the registration statement, or other information filed by the insurer, with the insurance regulatory authority of its domiciliary jurisdiction.

C. Each insurer subject to registration under this section shall file a registration statement on a form provided by the Commission. Such statement shall contain current information on:

1. The capital structure, general financial condition, ownership, and management of the insurer and any person controlling the insurer;

2. The identity of every member of the insurance holding company system;

3. The following agreements in force, continuing relationships and transactions currently outstanding between the insurer and its affiliates:

a. Loans, other investments, or purchases, sales or exchanges of securities of the affiliates by the insurer or of the insurer by its affiliates;

b. Purchases, sales, or exchanges of assets;

c. Transactions not in the ordinary course of business;

d. Guarantees or undertakings for the benefit of an affiliate that result in an actual contingent exposure of the insurer's assets to liability, other than insurance contracts entered into in the ordinary course of the insurer's business;

e. All management and service contracts and all cost-sharing arrangements;

f. Reinsurance agreements or other risk-sharing arrangements;

g. Dividends and other distributions to shareholders; and

h. Consolidated tax allocation agreements;

4. Any pledge of the insurer's stock, including stock of any subsidiary or controlling affiliate, for a loan made to any member of the insurance holding company system;

Financial statements may include but are not limited to annual audited financial statements filed with the SEC pursuant to the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended. An insurer required to file financial statements pursuant to this subdivision may satisfy the request by providing the Commission with the most recently filed parent corporation financial statements that have been filed with the SEC;

6. Other matters relating to transactions between registered insurers and any affiliates which may be included from time to time in any registration forms adopted or approved by the Commission;

7. Statements that the corporate governance and internal controls are managed under the direction of the insurer's board of directors in a manner consistent with § 13.1-673 or § 13.1-853 as applicable, and that the insurer's officers or senior management have approved, implemented, and continue to maintain and monitor corporate governance and internal control procedures; and

8. Any other information required by the Commission by rule or regulation.

D. All registration statements shall contain a summary outlining all items in the current registration statement representing changes from the prior registration statement.

E. If information is not material for the purposes of this section, it need not be disclosed on the registration statement filed pursuant to subsection C. Unless the Commission prescribes otherwise *and except for the purposes of*

subsections M and N, sales, purchases, exchanges, loans or extensions of credit, investments, or guarantees involving one-half of one percent or less of an insurer's admitted assets as of the immediately preceding December 31 shall not be deemed material for purposes of this section.

F. Each registered insurer shall report all additional material transactions with affiliates and any material changes in previously reported material transactions with affiliates on amendment forms provided by the Commission. Each insurer shall make its report within 15 days after the end of the month in which it learns of each additional material transaction or material change in material transaction. Subject to § 38.2-1330.1, each insurer shall report to the Commission all dividends and other distributions to shareholders within five business days following their declaration, and such declaration shall confer no rights upon shareholders until:

1. The Commission has approved the payment of such dividend or distribution; or
2. Thirty days after the Commission has received written notice of the declaration thereof and has not within such period disapproved such payment.

Each registered insurer shall also keep current the information required by subsection C by filing an amendment to its registration statement within 120 days after the end of each fiscal year of the ultimate controlling person of the insurance holding company system.

G. The Commission shall terminate the registration of any insurer that demonstrates it no longer is a member of an insurance holding company system.

H. The Commission may require or allow two or more affiliated insurers subject to registration under this section to file a consolidated registration statement or consolidated reports amending their consolidated registration statement or their individual registration statements.

I. The Commission may allow an insurer that is authorized to do business in this Commonwealth and that is part of an insurance holding company system to register on behalf of any affiliated insurer required to register under subsection A and to file all information and material required to be filed under this section.

J. The provisions of this section shall not apply to any insurer, information, or transaction if and to the extent that the Commission by rule, regulation, or order shall exempt the same from the provisions of this section.

K. Any person may file with the Commission a disclaimer of affiliation with any authorized insurer. The disclaimer shall fully disclose all material relationships and bases for affiliation between the person and the insurer as well as the basis for disclaiming the affiliation. A disclaimer of affiliation shall be deemed to have been granted unless the Commission, within 30 days following receipt of a complete disclaimer, notifies the filing party the disclaimer is disallowed. In the event of disallowance, the disclaiming party may request a hearing. The disclaiming party shall be relieved of its duty to register under this section if approval of the disclaimer has been granted by the Commission or if the disclaimer is deemed to have been approved.

L. The ultimate controlling person of every insurer subject to registration shall also file an annual enterprise risk report. The report shall be appropriate to the nature, scale, and complexity of the operations of the insurance holding company system, and shall, to the best of the ultimate controlling person's knowledge and belief, identify the material risks within the insurance holding company system that could pose enterprise risk to the insurer. The report shall be filed with the ~~insurance lead state commissioner, director, or superintendent of the lead state of the insurance holding company system as determined by the procedures within the Financial Analysis Handbook adopted by the NAIC.~~

M. Except as provided below, the ultimate controlling person of every insurer subject to registration shall concurrently file with the registration an annual group capital calculation as directed by the lead state commissioner. The report shall be completed in accordance with the NAIC Group Capital Calculation Instructions, which may permit the lead state commissioner to allow a controlling person that is not the ultimate controlling person to file the group capital calculation. The report shall be filled with the lead state commissioner of the insurance holding company system. The following insurance holding company systems are exempt from filing the group capital calculation:

1. An insurance holding company system that has only one insurer within its holding company structure, that only writes business and is only licensed in its domestic state, and that assumes no business from any other insurer.

2. Any insurance holding company system that is required to perform a group capital calculation specified by the Federal Reserve Board. The lead state commissioner shall request the calculation from the Federal Reserve Board under the terms of information sharing agreements in effect. However, if the Federal Reserve Board cannot share the calculation with the lead state commissioner, the insurance holding company shall not be exempt from filing the group capital calculation.

3. An insurance holding company system whose non-U.S. group-wide supervisor is located within a reciprocal jurisdiction as described in subsection E of § 38.2-1316.2 that recognizes the U.S. state regulatory approach to group supervision and group capital.

4. An insurance holding system:

a. That provides information to the lead state that meets the requirements for accreditation under the NAIC financial standards and accreditation program, either directly or indirectly through the group-wide supervisor, who has determined such information is satisfactory to allow the lead state to comply with the NAIC group supervision approach, as detailed in the NAIC Financial Analysis Handbook; and

b. Whose non-U.S. group-wide supervisor that is not located in a reciprocal jurisdiction recognizes and accepts, as specified by the Commission in regulation, the group capital calculation as the worldwide group capital assessment for the U.S. insurance groups that operate in that jurisdiction.

Notwithstanding the exemptions provided for in subdivisions 3 and 4, a lead state commissioner shall require the group capital calculation for U.S. operations of any non-U.S.-based insurance holding company system where, after any necessary consultation with other supervisors or officials, it is deemed appropriate by the lead state commissioner for prudential oversight and solvency monitoring purposes or for ensuring the competitiveness of the insurance market.

Notwithstanding the exemptions provided for in subdivisions 1 through 4, the lead state commissioner has the discretion to exempt the ultimate controlling person from filing the annual group capital calculation or to accept a limited group capital filing or report in accordance with criteria as specified by the Commission in regulation.

If the lead state commissioner determines that an insurance holding company system no longer meets one or more of the requirements for an exemption specified in subdivisions 1 through 4, the insurance holding company system shall file the group capital calculation at the next annual filing date unless given an extension by the lead state commissioner based on reasonable grounds shown.

N. The ultimate controlling person of every insurer subject to registration and scoped into the NAIC Liquidity Stress Test Framework shall file the results of a specific year's liquidity stress test. The filing shall be made to the lead state commissioner of the insurance holding company system.

1. Any change to the NAIC Liquidity Stress Test Framework or to the data year for which the scope criteria are to be measured shall be effective on January 1 of the year following the calendar year when such changes are adopted. Insurers meeting at least one threshold of the scope criteria are considered scoped in the Framework for the specified data year unless the lead state commissioner, in consultation with the NAIC Financial Stability Task Force or its successor, determines the insurer should not be scoped into the Framework for that data year. Insurers that do not trigger at least one threshold of the scope criteria shall be considered scoped out of the Framework for the specified data year, unless the lead state commissioner, in consultation with the NAIC Financial Stability Task Force or its successor, determines the insurer should be scoped into the Framework for that data year.

2. The performance of and filing of the results from a specific year's liquidity stress test shall comply with Framework's instructions and reporting templates for that year and any lead state commissioner determinations, in consultation with the NAIC Financial Stability Task Force or its successor, provided within the Framework.

O. The failure to file a registration statement or any summary of the registration statement or enterprise risk filing required by this section within the time specified for filing shall be a violation of this section.

§ 38.2-1330. Standards for transactions within an insurance holding company system; adequacy of surplus.

A. Transactions within an insurance holding company system to which an insurer subject to registration is a party shall be subject to the following standards:

1. The terms shall be fair and reasonable;

2. Agreements for cost-sharing services and management shall include such provisions as required by rule or regulation promulgated by the Commission;

3. Charges or fees for services performed shall be reasonable;

4. Expenses incurred and payments received shall be allocated to the insurer in conformity with customary insurance accounting practices consistently applied;

5. The books, accounts, and records of each party shall disclose clearly and accurately the precise nature and details of the transactions, including such accounting information as is necessary to support the reasonableness of the charges or fees to the respective parties; ~~and~~

6. The insurer's surplus as regards policyholders following any dividends or distributions to shareholder affiliates shall be reasonable in relation to the insurer's outstanding liabilities and adequate to meet its financial needs;

7. If an insurer subject to this article is deemed by the Commission to be in a hazardous financial condition as defined by 14VAC5-290 or a condition that would be grounds for supervision, conservation, or a delinquency proceeding, then the Commission may require the insurer to secure and maintain either a deposit held by the Commission or a bond as determined by the insurer at the insurer's discretion, for the protection of the insurer for the duration of the contract, agreement, or existence of the condition for which the Commission required deposit or bond.

In determining if a deposit or bond is required, the Commission shall consider whether concerns exist with respect to the affiliated person's ability to fulfill the contract or agreement if the insurer were to be put into liquidation. Once the insurer is deemed to be in a hazardous financial condition or a condition that would be grounds for supervision, conservation, or a delinquency proceeding, and a deposit or bond is necessary, the Commission has the discretion to determine the amount of the deposit or bond, not to exceed the value of the contract or agreement in any one year, and whether such deposit or bond shall be required for a single contract, multiple contracts, or a contract only with a specific person;

8. All records and data of the insurer held by an affiliate are and remain the property of the insurer, are subject to the control of the insurer, are identifiable, and are segregated or readily capable of segregation at no additional cost to the insurer from all other persons' records and data. This includes all records and data that are otherwise the property of the insurer, in whatever form maintained, including claims and claim files, policyholder lists, application files, litigation files, premium records, rate books, underwriting manuals, personnel records, financial records, or similar records within the

possession, custody, or control of the affiliate. At the request of the insurer, the affiliate shall provide that the receiver may (i) obtain a complete set of all records of any type that pertain to the insurer's business, (ii) obtain access to the operating systems on which the data is maintained, (iii) obtain the software that runs those systems either through assumption of licensing agreements or otherwise, and (iv) restrict the use of the data by the affiliate if it is not operating the insurer's business. The affiliate shall provide a waiver of any landlord lien or other encumbrance to give the insurer access to all records and data in the event of the affiliate's default under a lease or other agreement; and

9. Premiums or other funds belonging to the insurer that are collected by or held by an affiliate are the exclusive property of the insurer and subject to the control of the insurer. Any right of offset in the event that an insurer is placed into receivership shall be subject to Chapter 15 (§ 38.2-1500 et seq.).

B. Transactions described in subdivisions 1 through 7 that involve a domestic insurer and any person in its insurance holding company system, including amendments or modifications of affiliate agreements previously filed pursuant to this section, that are subject to materiality standards contained in such subdivisions may not be entered into unless the insurer has notified the Commission in writing of its intention to enter into the transaction at least 30 days prior thereto, or such shorter period as the Commission may permit, and the Commission has not disapproved it within that period. The notice for amendments or modifications shall include the reasons for the change and the financial impact on the domestic insurer. Informal notice shall be reported, within 30 days after a termination of a previously filed agreement, to the Commission for determination of the type of filing required, if any. Transactions to which this subsection applies, with their materiality standards, are:

1. Sales, purchases, exchanges, loans, extensions of credit, or investments, provided the transactions are equal to or exceed:

a. With respect to nonlife insurers, the lesser of three percent of the insurer's admitted assets or 25 percent of surplus as regards policyholders as of the immediately preceding December 31; or

b. With respect to life insurers, three percent of the insurer's admitted assets as of the immediately preceding December 31;

2. Loans or extensions of credit to any person who is not an affiliate, where the insurer makes loans or extensions of credit with the agreement or understanding that the proceeds of the transactions, in whole or in substantial part, are to be used to make loans or extensions of credit to, to purchase assets of, or to make investments in, any affiliate of the insurer making the loans or extensions of credit, provided the transactions are equal to or exceed:

a. With respect to nonlife insurers, the lesser of three percent of the insurer's admitted assets or 25 percent of surplus as regards policyholders as of the immediately preceding December 31; or

b. With respect to life insurers, three percent of the insurer's admitted assets as of the immediately preceding December 31;

3. Reinsurance agreements or modifications thereto, including:

a. All reinsurance pooling agreements; and

b. Agreements in which the reinsurance premium or a change in the insurer's liabilities, or the projected reinsurance premium or a change in the insurer's liabilities in any of the next three years, equals or exceeds five percent of the insurer's surplus as regards policyholders, as of the immediately preceding December 31, including those agreements that may require as consideration the transfer of assets from an insurer to a nonaffiliate, if an agreement or understanding exists between the insurer and nonaffiliate that any portion of the assets will be transferred to one or more affiliates of the insurer;

4. All management agreements, service contracts, tax allocation agreements, guarantees, and cost-sharing arrangements;

5. Guarantees when made by a domestic insurer, provided, however, that a guarantee that is quantifiable as to amount is not subject to the notice requirements of this subdivision unless it exceeds the lesser of one-half of one percent of the insurer's admitted assets or 10 percent of surplus as regards policyholders as of the immediately preceding December 31. Further, all guarantees that are not quantifiable as to amount are subject to the notice requirements of this subdivision;

6. Direct or indirect acquisitions or investments in a person that controls the insurer or in an affiliate of the insurer in an amount that, together with its present holdings in such investments, exceeds two and one-half percent of the insurer's surplus to policyholders. The Commission may exempt such a transaction by regulation; and

7. Any material transactions that the Commission determines may adversely affect the interests of the insurer's policyholders.

Nothing in this subsection shall be deemed to authorize or permit any transactions that, in the case of an insurer not a member of the same insurance holding company system, would be otherwise contrary to law.

C. In addition:

1. Notwithstanding the control of a domestic insurer by any person, the officers and directors of the insurer shall not thereby be relieved of any obligation or liability to which they would otherwise be subject by law, and the insurer shall be managed so as to assure its separate operating identity consistent with this article;

2. Nothing in this section shall preclude a domestic insurer from having or sharing a common management or cooperative or joint use of personnel, property, or services with one or more other persons under arrangements meeting the standards of subsection A;

3. Not less than one-third of the directors of a domestic insurer, and not less than one-third of the members of each committee of the board of directors of any domestic insurer, shall be persons who are not officers or employees of the

insurer or of any entity controlling, controlled by, or under common control with the insurer and who are not beneficial owners of a controlling interest in the voting stock of the insurer or entity. At least one such person shall be included in any quorum for the transaction of business at any meeting of the board of directors or any committee thereof;

4. The board of directors of a domestic insurer shall establish one or more committees composed solely of directors who are not officers or employees of the insurer or of any entity controlling, controlled by, or under common control with the insurer and who are not beneficial owners of a controlling interest in the voting stock of the insurer or any such entity. The committee or committees shall have responsibility for nominating candidates for director for election by shareholders or policyholders, evaluating the performance of officers deemed to be principal officers of the insurer, and recommending to the board of directors the selection and compensation of the principal officers;

5. The provisions of subdivisions 3 and 4 shall not apply to a domestic insurer if the person controlling the insurer, such as an insurer, a mutual insurance holding company, or a publicly held corporation, has a board of directors and committees thereof that meet the requirements of subdivisions 3 and 4 with respect to such controlling entity; and

6. An insurer may make application to the Commission for a waiver from the requirements of this subsection if the insurer's annual direct written and assumed premium, excluding premiums reinsured with the Federal Crop Insurance Corporation and National Flood Insurance Program, is less than \$300 million. An insurer may also make application to the Commission for a waiver from the requirements of this subsection based upon unique circumstances. The Commission may consider various factors including the type of business entity, volume of business written, availability of qualified board members, or ownership or organizational structure of the entity.

D. For purposes of this article, in determining whether an insurer's surplus as regards policyholders is reasonable in relation to the insurer's outstanding liabilities and adequate to meet its financial needs, the following factors, among others, shall be considered:

1. The size of the insurer as measured by its assets, capital and surplus, reserves, premium writings, insurance in force, and other appropriate criteria;

2. The extent to which the insurer's business is diversified among different lines of insurance;

3. The number and size of risks insured in each line of business;

4. The extent of the geographical dispersion of the insurer's insured risk;

5. The nature and extent of the insurer's reinsurance program;

6. The quality, diversification, and liquidity of the insurer's investment portfolio;

7. The recent past and projected future trend in the size of the insurer's surplus to policyholders;

8. The recent past and projected future trend in the size of the insurer's investment portfolio;

9. The surplus as regards policyholders maintained by other comparable insurers;

10. The adequacy of the insurer's reserves;

11. The quality of the insurer's earnings and the extent to which the reported earnings of the insurer include extraordinary items; and

12. The quality and liquidity of investments in affiliates. The Commission in its judgment may classify any investment as a nonadmitted asset for the purpose of determining the adequacy of surplus as regards policyholders.

E. No domestic insurer shall enter into transactions that are part of a plan or series of like transactions with persons within the insurance holding company system if the purpose of those separate transactions is to avoid the statutory threshold amount and thus avoid the review that otherwise would be required. If the Commission determines that separate transactions were entered into over any 12-month period for that purpose, the Commission may exercise its authority under § 38.2-1334.2:2.

F. The Commission, in reviewing transactions pursuant to subsection B, shall consider whether the transactions comply with the standards set forth in subsection A and whether they may adversely affect the interests of policyholders.

G. The Commission shall be notified in writing within 30 days of any investment of the domestic insurer in any one corporation if the total investment in such corporation by the insurance holding company system exceeds 10 percent of such corporation's voting securities.

H. *Any affiliate that is party to a contract or agreement described in subdivision B 4 with a domestic insurer shall be subject to the jurisdiction of any supervision, seizure, conservatorship, or receivership proceedings against the insurer and to the authority of any supervisor, conservator, rehabilitator, or liquidator for the insurer appointed pursuant to Chapter 15 (§ 38.2-1500 et seq.) for the purpose of interpreting, enforcing, and overseeing the affiliate's obligations under the agreement or contract to perform services for the insurer that are (i) an integral part of the insurer's operation, including management, administrative, accounting, data processing, marketing, underwriting, claims handling, investment, or any other similar functions or (ii) essential to the insurer's ability to fulfill its obligations under insurance policies. The Commission may require that an agreement or contract described in subdivision B 4 for the provision of services described in clause (i) or (ii) specify that the affiliate consents to the jurisdiction as set forth in this subsection.*

§ 38.2-1333. Confidential treatment of information and documents.

A. All documents, materials, or other information obtained by or disclosed to the Commission or any other person in the course of an examination or investigation made pursuant to § 38.2-1332, and all information reported or provided to the Commission pursuant to subdivisions A 12 and 13 of § 38.2-1324 and §§ 38.2-1329, 38.2-1330, 38.2-1330.1, and 38.2-1332.2 is declared to be proprietary and to contain trade secrets and shall be confidential by law and privileged, shall not be subject to subpoena, and shall not be subject to discovery or admissible in evidence in any private civil action.

However, the Commission is authorized to use the documents, materials, or other information in the furtherance of any regulatory or legal action brought as a part of the Commission's official duties. The Commission shall not otherwise make the documents, materials, or other information public without the prior written consent of the insurer to which they pertain. After an insurer and its affiliates have been given notice and opportunity to be heard, the Commission may publish all or any part of the documents, materials, or other information referred to in this section in any manner it considers appropriate if it determines that the interests of policyholders or the public will be served by the publication.

1. *For the purposes of the information reported to the Commission pursuant to subsection M of § 38.2-1329, the Commission shall maintain the confidentiality of the group capital calculation and group capital ratio produced within the calculation and any group capital information received from an insurance holding company system supervised by the Federal Reserve Board or U.S. group-wide supervisor.*

2. *For the purposes of the information reported to the Commission pursuant to subsection N of § 38.2-1329, the Commission shall maintain the confidentiality of the liquidity stress test results and supporting disclosures and any liquidity stress test information received from an insurance holding company system supervised by the Federal Reserve Board and non-U.S. group-wide supervisor.*

B. Neither the Commission nor any person who received documents, materials, or other information while acting under the authority of the Commission or with whom such documents, materials, or other information are shared pursuant to this article shall be permitted or required to testify in any private civil action concerning any confidential documents, materials, or information subject to subsection A.

C. In order to assist in the performance of the Commission's duties, the Commission:

3. May receive documents, materials, or information, including otherwise confidential and privileged documents, materials, or information, *including proprietary and trade secret information* from the NAIC and its affiliates and subsidiaries and from regulatory and law-enforcement officials of other foreign or domestic jurisdictions, and shall maintain as confidential or privileged any documents, materials, or information received with notice or the understanding that it is confidential or privileged under the laws of the jurisdiction that is the source of the document, material, or information; and

4. Shall enter into written agreements with the NAIC *and any third-party consultant designated by the Commission* governing sharing and use of information provided pursuant to this article consistent with this subsection that shall:

a. Specify procedures and protocols regarding the confidentiality and security of information shared with the NAIC ~~and its affiliates and subsidiaries~~ *or a third-party consultant designated by the Commission* pursuant to this article, including procedures and protocols for sharing by the NAIC with other state, federal, or international regulators. *The agreement shall provide that the recipient agrees in writing to maintain the confidentiality and privileged status of the documents, materials, or other information and has verified in writing the legal authority to maintain such confidentiality;*

b. Specify that ownership of information shared with the NAIC ~~and its affiliates and subsidiaries~~ *or a third-party consultant designated by the Commission* pursuant to this article remains with the Commission and that the NAIC's *or third party consultant's* use of the information is subject to the direction of the Commission;

c. *Except for documents, material, or information reported pursuant to subsection N of § 38.2-1329, prohibit the NAIC or third-party consultant designated by the Commission from storing the information shared pursuant to this article in a permanent database after the underlying analysis is completed;*

d. Require prompt notice to be given to an insurer whose confidential information in the possession of the NAIC *or a third-party consultant designated by the Commission* pursuant to this article is subject to a request or subpoena to the NAIC *or a third-party consultant designated by the Commission* for disclosure or production; ~~and~~

~~d. e.~~ Require the NAIC ~~and its affiliates and subsidiaries~~ *or a third-party consultant designated by the Commission* to consent to intervention by an insurer in any judicial or administrative action in which the NAIC and its affiliates and subsidiaries may be required to disclose confidential information about the insurer shared with the NAIC ~~and its affiliates and subsidiaries~~ *or a third-party consultant designated by the Commission* pursuant to this article; *and*

f. *For documents, materials, and information reported pursuant to subsection N of § 38.2-1329, in the case of an agreement involving a third-party consultant, provide for notification of the identity of the consultant to the applicable insurers.*

D. The sharing of information by the Commission pursuant to this article shall not constitute a delegation of regulatory authority or rulemaking, and the Commission is solely responsible for the administration, execution, and enforcement of the provisions of this article.

F. Documents, materials, or other information in the possession or control of the NAIC or a third-party consultant designated by the Commission pursuant to this article shall be confidential by law and privileged, shall not be subject to subpoena, and shall not be subject to discovery or admissible in evidence in any private civil action.

G. Except as otherwise provided by the provisions of this article, the making, publishing, disseminating, circulating, or placing before the public, or causing directly or indirectly to be made, published, disseminated, circulated, or placed before the public, in a newspaper, magazine, or other publication, or in the form of a notice, circular, pamphlet, letter, or poster, or over any radio or television station or any electronic means of communication available to the public, or in any other way as an advertisement, announcement, or statement containing a representation or statement with regard to the group capital calculation, group capital ratio, liquidity stress test results, or supporting disclosures for the liquidity stress test, of any insurer or any insurer group, or of any component derived in the calculation by an insurer, broker, or other person engaged in any manner in the insurance business, shall be prohibited. However, if any materially false statement with respect to the group capital calculation, the resulting group capital ratio, an inappropriate comparison of any amount to an insurer's or insurance group's group capital calculation or resulting group capital ratio, the liquidity stress test result, or supporting disclosures is published in any written publication, and the insurer is able to demonstrate to the Commission with substantial proof the falsity or the inappropriateness of such statement, as the case may be, then the insurer may publish announcements in a written publication if the sole purpose of the announcement is to rebut the materially false or inappropriate statement.

CHAPTER 127

An Act to amend and reenact §§ 10.1-1186.01 and 62.1-44.19:14 of the Code of Virginia, relating to Enhanced Nutrient Removal Certainty Program; Fredericksburg wastewater treatment facility.

[H 1067]

Approved April 7, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 10.1-1186.01 and 62.1-44.19:14 of the Code of Virginia are amended and reenacted as follows:

§ 10.1-1186.01. Reimbursements to localities for upgrades to treatment works.

A. As used in this section, "Enhanced Nutrient Removal Certainty Program" or "ENRC Program" means the same as that term is defined in § 62.1-44.19:13.

B. The General Assembly shall fund grants to finance the reasonable costs of design and installation of nutrient removal technology at the publicly owned treatment works designated as significant dischargers contained in subsection F or as eligible nonsignificant dischargers as defined in § 10.1-2117. When grant disbursements pursuant to this section reach a sum sufficient to fund the completion of the ENRC Program at all publicly owned treatment works, the House Committee on Agriculture, Chesapeake and Natural Resources, the House Committee on Appropriations, the Senate Committee on Agriculture, Conservation and Natural Resources, and the Senate Committee on Finance and Appropriations shall review (i) the future funding needs to meet the purposes of the Water Quality Improvement Act, (ii) the most recent annual needs estimate required by § 10.1-2134.1, and (iii) the appropriate funding mechanism for such needs.

C. The disbursement of grants for the design and installation of nutrient removal technology at those publicly owned treatment works included in subsection F and eligible nonsignificant dischargers shall be made monthly based on a requisition submitted by the grant recipient in the form requested by the Department. Each requisition shall include written certification that the applicable local share of the cost of nutrient removal technology for that portion of the project covered by such requisition has been incurred or expended. Except as may otherwise be approved by the Department, disbursements shall not exceed 95 percent of the total grant amount until satisfactory completion of the project. The distribution of the grants shall be effected by one of the following methods:

1. In payments to be paid by the State Treasurer out of funds appropriated to the Water Quality Improvement Fund pursuant to § 10.1-2131;

2. Over a specified time through a contractual agreement entered into by the Treasury Board and approved by the Governor, on behalf of the Commonwealth, and the locality or public service authority undertaking the design and installation of nutrient removal technology, such payments to be paid by the State Treasurer out of funds appropriated to the Treasury Board; or

3. In payments to be paid by the State Treasurer upon request of the Director out of proceeds from bonds issued by the Virginia Public Building Authority, in consultation with the Department, pursuant to §§ 2.2-2261, 2.2-2263, and 2.2-2264, including the Commonwealth's share of the interest costs expended by the locality or regional authority for financing such project during the period from 50 percent completion of construction to final completion of construction.

D. The General Assembly has the sole authority to determine whether disbursement shall be made pursuant to subdivision C 1, 2, or 3, or a combination thereof, provided that a disbursement shall be made pursuant to subdivision C 3 only upon a certification by the Department that project grant reimbursements for the fiscal year will exceed the available funds in the Water Quality Improvement Fund.

E. Exclusive of any deposits made pursuant to § 10.1-2128, the grants awarded pursuant to this section shall include such appropriations as provided from time to time in the appropriation act or any amendments thereto.

F. The disbursement of grants to finance the costs of design and installation of nutrient removal technology, including eligible design and installation costs for implementation of the ENRC Program, at the following listed publicly owned treatment works and other eligible nonsignificant dischargers shall be provided pursuant to the distribution methodology included in § 10.1-2131. The notation "WIP3-N" or "WIP3-P" indicates that a facility is subject to additional requirements for total nitrogen or total phosphorus, respectively, under the ENRC Program. In no case shall any publicly owned treatment works receive a grant of less than 35 percent of the costs of the design and installation of nutrient removal technology.

G. To the extent that any publicly owned treatment works receives less than the grant specified pursuant to § 10.1-2131, any year-end revenue surplus or unappropriated balances deposited in the Water Quality Improvement Fund, as required by § 10.1-2128, shall be prioritized in order to augment the funding of those projects for which grants have been prorated. Any additional reimbursements to these prorated projects shall not exceed the total reimbursement amount due pursuant to the formula established in subsection E of § 10.1-2131.

H. Notwithstanding the provisions of subsection B of § 10.1-2131, the Director shall not be required to enter into a grant agreement with a facility designated as a significant discharger or eligible nonsignificant discharger if the Director determines that the use of nutrient credits in accordance with the Chesapeake Bay Watershed Nutrient Credit Exchange Program (§ 62.1-44.19:12 et seq.) would be significantly more cost-effective than the installation of nutrient controls for the facility in question.

§ 62.1-44.19:14. Watershed general permit for nutrients.

A. The Board shall issue a Watershed General Virginia Pollutant Discharge Elimination System Permit, hereafter referred to as the general permit, authorizing point source discharges of total nitrogen and total phosphorus to the waters of the Chesapeake Bay and its tributaries. Except as otherwise provided in this article, the general permit shall control in lieu of technology-based, water quality-based, and best professional judgment, interim or final effluent limitations for total nitrogen and total phosphorus in individual Virginia Pollutant Discharge Elimination System permits for facilities covered by the general permit where the effluent limitations for total nitrogen and total phosphorus in the individual permits are based upon standards, criteria, waste load allocations, policy, or guidance established to restore or protect the water quality and beneficial uses of the Chesapeake Bay or its tidal tributaries.

B. This section shall not be construed to limit or otherwise affect the Board's authority to establish and enforce more stringent water quality-based effluent limitations for total nitrogen or total phosphorus in individual permits where those limitations are necessary to protect local water quality. The exchange or acquisition of credits pursuant to this article shall not affect any requirement to comply with such local water quality-based limitations.

C. The general permit shall contain the following:

1. Waste load allocations for total nitrogen and total phosphorus for each permitted facility expressed as annual mass loads, including reduced waste load allocations where applicable under the ENRC Program. The allocations for each permitted facility shall reflect the applicable individual water quality-based total nitrogen and total phosphorus waste load allocations. An owner or operator of two or more facilities located in the same tributary may apply for and receive an aggregated waste load allocation for total nitrogen and an aggregated waste load allocation for total phosphorus for multiple facilities reflecting the total of the water quality-based total nitrogen and total phosphorus waste load allocations established for such facilities individually;

2. A schedule requiring compliance with the combined waste load allocations for each tributary as soon as possible taking into account (i) opportunities to minimize costs to the public or facility owners by phasing in the implementation of multiple projects; (ii) the availability of required services and skilled labor; (iii) the availability of funding from the Virginia Water Quality Improvement Fund as established in § 10.1-2128, the Virginia Water Facilities Revolving Fund as established in § 62.1-225, and other financing mechanisms; (iv) water quality conditions; and (v) other relevant factors. Following receipt of the compliance plans required by subdivision C 3, the Board shall reevaluate the schedule taking into account the information in the compliance plans and the factors in this subdivision, and may modify the schedule as appropriate;

3. A requirement that the permittees shall either individually or through the Association submit compliance plans to the Department for approval. The compliance plans shall contain, at a minimum, any capital projects and implementation schedules needed to achieve total nitrogen and phosphorus reductions sufficient to comply with the individual and combined waste load allocations of all the permittees in the tributary. The compliance plans may rely on the exchange of point source credits in accordance with this article, but not the acquisition of credits through payments authorized by § 62.1-44.19:18, to achieve compliance with the individual and combined waste load allocations in each tributary. The compliance plans shall be updated annually and submitted to the Department no later than February 1 of each year. The compliance plans due beginning February 1, 2023, shall address the requirements of the ENRC Program;

4. Such monitoring and reporting requirements as the Board deems necessary to carry out the provisions of this article;

5. A procedure that requires every owner or operator of a facility authorized by a Virginia Pollutant Discharge Elimination System permit to discharge 100,000 gallons or more per day, or an equivalent load, directly into tidal waters, or 500,000 gallons or more per day, or an equivalent load, directly into nontidal waters, to secure general permit coverage by filing a registration statement with the Department within a specified period after each effective date of the general permit. The procedure shall also require any owner or operator of a facility authorized by a Virginia Pollutant Discharge Elimination System permit to discharge 40,000 gallons or more per day, or an equivalent load, directly into tidal or nontidal waters to secure general permit coverage by filing a registration statement with the Department at the time he makes application with the Department for a new discharge or expansion that is subject to an offset or technology-based requirement in § 62.1-44.19:15, and thereafter within a specified period of time after each effective date of the general permit. The procedure shall also require any owner or operator of a facility with a discharge that is subject to an offset requirement in subdivision A 5 of § 62.1-44.19:15 to secure general permit coverage by filing a registration statement with the Department prior to commencing the discharge and thereafter within a specified period of time after each effective date of the general permit. The general permit shall provide that any facility authorized by a Virginia Pollutant Discharge Elimination System permit and not required by this subdivision to file a registration statement shall be deemed to be

covered under the general permit at the time it is issued, and shall file a registration statement with the Department when required by this section. Owners or operators of facilities that are deemed to be permitted under this section shall have no other obligation under the general permit prior to filing a registration statement and securing coverage under the general permit based upon such registration statement;

6. A procedure for efficiently modifying the lists of facilities covered by the general permit where the modification does not change or otherwise alter any waste load allocation or delivery factor adopted pursuant to the Water Quality Management Planning Regulation (9VAC25-720) or its successor, or an applicable total maximum daily load. The procedure shall also provide for modifying or incorporating new waste load allocations or delivery factors, including the opportunity for public notice and comment on such modifications or incorporations; and

7. Such other conditions as the Board deems necessary to carry out the provisions of this chapter and Section 402 of the federal Clean Water Act (33 U.S.C. § 1342).

D. 1. The Board shall (i) review during the year 2020 and every 10 years thereafter the basis for allocations granted in the Water Quality Management Planning Regulation (9VAC25-720) and (ii) as a result of such decennial reviews propose for inclusion in the Water Quality Management Planning Regulation (9VAC25-720) either the reallocation of unneeded allocations to other facilities registered under the general permit or the reservation of such allocations for future use.

2. For each decennial review, the Board shall determine whether a permitted facility has:

a. Changed the use of the facility in such a way as to make discharges unnecessary, ceased the discharge of nutrients, and become unlikely to resume such discharges in the foreseeable future; or

b. Changed the production processes employed in the facility in such a way as to render impossible, or significantly to diminish the likelihood of, the resumption of previous nutrient discharges.

3. Beginning in 2030, each review also shall consider the following factors for municipal wastewater facilities:

a. Substantial changes in the size or population of a service area;

b. Significant changes in land use resulting from adopted changes to zoning ordinances or comprehensive plans within a service area;

c. Significant establishment of conservation easements or other perpetual instruments that are associated with a deed and that restrict growth or development;

d. Constructed treatment facility capacity;

e. Significant changes in the understanding of the water chemistry or biology of receiving waters that would reasonably result in unused nutrient discharge allocations over an extended period of time;

f. Significant changes in treatment technologies that would reasonably result in unused nutrient discharge allocations over an extended period of time;

g. The ability of the permitted facility to accommodate projected growth under existing nutrient waste load allocations; and

h. Other similarly significant factors that the Board determines reasonably to affect the allocations granted.

E. The Board shall maintain and make available to the public a current listing, by tributary, of all permittees and permitted facilities under the general permit, together with each permitted facility's total nitrogen and total phosphorus waste load allocations, and total nitrogen and total phosphorus delivery factors.

CHAPTER 128

An Act to amend and reenact §§ 10.1-1186.01 and 62.1-44.19:14 of the Code of Virginia, relating to Enhanced Nutrient Removal Certainty Program; Fredericksburg wastewater treatment facility.

[S 355]

Approved April 7, 2022

Be it enacted by the General Assembly of Virginia:

1. That §§ 10.1-1186.01 and 62.1-44.19:14 of the Code of Virginia are amended and reenacted as follows:

§ 10.1-1186.01. Reimbursements to localities for upgrades to treatment works.

A. As used in this section, "Enhanced Nutrient Removal Certainty Program" or "ENRC Program" means the same as that term is defined in § 62.1-44.19:13.

B. The General Assembly shall fund grants to finance the reasonable costs of design and installation of nutrient removal technology at the publicly owned treatment works designated as significant dischargers contained in subsection F or as eligible nonsignificant dischargers as defined in § 10.1-2117. When grant disbursements pursuant to this section reach a sum sufficient to fund the completion of the ENRC Program at all publicly owned treatment works, the House Committee on Agriculture, Chesapeake and Natural Resources, the House Committee on Appropriations, the Senate Committee on Agriculture, Conservation and Natural Resources, and the Senate Committee on Finance and Appropriations shall review (i) the future funding needs to meet the purposes of the Water Quality Improvement Act, (ii) the most recent annual needs estimate required by § 10.1-2134.1, and (iii) the appropriate funding mechanism for such needs.

C. The disbursement of grants for the design and installation of nutrient removal technology at those publicly owned treatment works included in subsection F and eligible nonsignificant dischargers shall be made monthly based on a requisition submitted by the grant recipient in the form requested by the Department. Each requisition shall include written certification that the applicable local share of the cost of nutrient removal technology for that portion of the project covered by such requisition has been incurred or expended. Except as may otherwise be approved by the Department, disbursements shall not exceed 95 percent of the total grant amount until satisfactory completion of the project. The distribution of the grants shall be effected by one of the following methods:

1. In payments to be paid by the State Treasurer out of funds appropriated to the Water Quality Improvement Fund pursuant to § 10.1-2131;

2. Over a specified time through a contractual agreement entered into by the Treasury Board and approved by the Governor, on behalf of the Commonwealth, and the locality or public service authority undertaking the design and installation of nutrient removal technology, such payments to be paid by the State Treasurer out of funds appropriated to the Treasury Board; or

3. In payments to be paid by the State Treasurer upon request of the Director out of proceeds from bonds issued by the Virginia Public Building Authority, in consultation with the Department, pursuant to §§ 2.2-2261, 2.2-2263, and 2.2-2264, including the Commonwealth's share of the interest costs expended by the locality or regional authority for financing such project during the period from 50 percent completion of construction to final completion of construction.

D. The General Assembly has the sole authority to determine whether disbursement shall be made pursuant to subdivision C 1, 2, or 3, or a combination thereof, provided that a disbursement shall be made pursuant to subdivision C 3 only upon a certification by the Department that project grant reimbursements for the fiscal year will exceed the available funds in the Water Quality Improvement Fund.

E. Exclusive of any deposits made pursuant to § 10.1-2128, the grants awarded pursuant to this section shall include such appropriations as provided from time to time in the appropriation act or any amendments thereto.

F. The disbursement of grants to finance the costs of design and installation of nutrient removal technology, including eligible design and installation costs for implementation of the ENRC Program, at the following listed publicly owned treatment works and other eligible nonsignificant dischargers shall be provided pursuant to the distribution methodology included in § 10.1-2131. The notation "WIP3-N" or "WIP3-P" indicates that a facility is subject to additional requirements for total nitrogen or total phosphorus, respectively, under the ENRC Program. In no case shall any publicly owned treatment works receive a grant of less than 35 percent of the costs of the design and installation of nutrient removal technology.

G. To the extent that any publicly owned treatment works receives less than the grant specified pursuant to § 10.1-2131, any year-end revenue surplus or unappropriated balances deposited in the Water Quality Improvement Fund, as required by § 10.1-2128, shall be prioritized in order to augment the funding of those projects for which grants have been prorated. Any additional reimbursements to these prorated projects shall not exceed the total reimbursement amount due pursuant to the formula established in subsection E of § 10.1-2131.

H. Notwithstanding the provisions of subsection B of § 10.1-2131, the Director shall not be required to enter into a grant agreement with a facility designated as a significant discharger or eligible nonsignificant discharger if the Director determines that the use of nutrient credits in accordance with the Chesapeake Bay Watershed Nutrient Credit Exchange Program (§ 62.1-44.19:12 et seq.) would be significantly more cost-effective than the installation of nutrient controls for the facility in question.

§ 62.1-44.19:14. Watershed general permit for nutrients.

A. The Board shall issue a Watershed General Virginia Pollutant Discharge Elimination System Permit, hereafter referred to as the general permit, authorizing point source discharges of total nitrogen and total phosphorus to the waters of the Chesapeake Bay and its tributaries. Except as otherwise provided in this article, the general permit shall control in lieu of technology-based, water quality-based, and best professional judgment, interim or final effluent limitations for total nitrogen and total phosphorus in individual Virginia Pollutant Discharge Elimination System permits for facilities covered by the general permit where the effluent limitations for total nitrogen and total phosphorus in the individual permits are based upon standards, criteria, waste load allocations, policy, or guidance established to restore or protect the water quality and beneficial uses of the Chesapeake Bay or its tidal tributaries.

B. This section shall not be construed to limit or otherwise affect the Board's authority to establish and enforce more stringent water quality-based effluent limitations for total nitrogen or total phosphorus in individual permits where those limitations are necessary to protect local water quality. The exchange or acquisition of credits pursuant to this article shall not affect any requirement to comply with such local water quality-based limitations.

C. The general permit shall contain the following:

1. Waste load allocations for total nitrogen and total phosphorus for each permitted facility expressed as annual mass loads, including reduced waste load allocations where applicable under the ENRC Program. The allocations for each permitted facility shall reflect the applicable individual water quality-based total nitrogen and total phosphorus waste load allocations. An owner or operator of two or more facilities located in the same tributary may apply for and receive an aggregated waste load allocation for total nitrogen and an aggregated waste load allocation for total phosphorus for multiple facilities reflecting the total of the water quality-based total nitrogen and total phosphorus waste load allocations established for such facilities individually;

2. A schedule requiring compliance with the combined waste load allocations for each tributary as soon as possible taking into account (i) opportunities to minimize costs to the public or facility owners by phasing in the implementation of multiple projects; (ii) the availability of required services and skilled labor; (iii) the availability of funding from the Virginia Water Quality Improvement Fund as established in § 10.1-2128, the Virginia Water Facilities Revolving Fund as established in § 62.1-225, and other financing mechanisms; (iv) water quality conditions; and (v) other relevant factors. Following receipt of the compliance plans required by subdivision C 3, the Board shall reevaluate the schedule taking into account the information in the compliance plans and the factors in this subdivision, and may modify the schedule as appropriate;

3. A requirement that the permittees shall either individually or through the Association submit compliance plans to the Department for approval. The compliance plans shall contain, at a minimum, any capital projects and implementation schedules needed to achieve total nitrogen and phosphorus reductions sufficient to comply with the individual and combined waste load allocations of all the permittees in the tributary. The compliance plans may rely on the exchange of point source credits in accordance with this article, but not the acquisition of credits through payments authorized by § 62.1-44.19:18, to achieve compliance with the individual and combined waste load allocations in each tributary. The compliance plans shall be updated annually and submitted to the Department no later than February 1 of each year. The compliance plans due beginning February 1, 2023, shall address the requirements of the ENRC Program;

4. Such monitoring and reporting requirements as the Board deems necessary to carry out the provisions of this article;

5. A procedure that requires every owner or operator of a facility authorized by a Virginia Pollutant Discharge Elimination System permit to discharge 100,000 gallons or more per day, or an equivalent load, directly into tidal waters, or 500,000 gallons or more per day, or an equivalent load, directly into nontidal waters, to secure general permit coverage by filing a registration statement with the Department within a specified period after each effective date of the general permit. The procedure shall also require any owner or operator of a facility authorized by a Virginia Pollutant Discharge Elimination System permit to discharge 40,000 gallons or more per day, or an equivalent load, directly into tidal or nontidal waters to secure general permit coverage by filing a registration statement with the Department at the time he makes application with the Department for a new discharge or expansion that is subject to an offset or technology-based requirement in § 62.1-44.19:15, and thereafter within a specified period of time after each effective date of the general permit. The procedure shall also require any owner or operator of a facility with a discharge that is subject to an offset requirement in subdivision A 5 of § 62.1-44.19:15 to secure general permit coverage by filing a registration statement with the Department prior to commencing the discharge and thereafter within a specified period of time after each effective date of the general permit. The general permit shall provide that any facility authorized by a Virginia Pollutant Discharge Elimination System permit and not required by this subdivision to file a registration statement shall be deemed to be

covered under the general permit at the time it is issued, and shall file a registration statement with the Department when required by this section. Owners or operators of facilities that are deemed to be permitted under this section shall have no other obligation under the general permit prior to filing a registration statement and securing coverage under the general permit based upon such registration statement;

6. A procedure for efficiently modifying the lists of facilities covered by the general permit where the modification does not change or otherwise alter any waste load allocation or delivery factor adopted pursuant to the Water Quality Management Planning Regulation (9VAC25-720) or its successor, or an applicable total maximum daily load. The procedure shall also provide for modifying or incorporating new waste load allocations or delivery factors, including the opportunity for public notice and comment on such modifications or incorporations; and

7. Such other conditions as the Board deems necessary to carry out the provisions of this chapter and Section 402 of the federal Clean Water Act (33 U.S.C. § 1342).

D. 1. The Board shall (i) review during the year 2020 and every 10 years thereafter the basis for allocations granted in the Water Quality Management Planning Regulation (9VAC25-720) and (ii) as a result of such decennial reviews propose for inclusion in the Water Quality Management Planning Regulation (9VAC25-720) either the reallocation of unneeded allocations to other facilities registered under the general permit or the reservation of such allocations for future use.

2. For each decennial review, the Board shall determine whether a permitted facility has:

a. Changed the use of the facility in such a way as to make discharges unnecessary, ceased the discharge of nutrients, and become unlikely to resume such discharges in the foreseeable future; or

b. Changed the production processes employed in the facility in such a way as to render impossible, or significantly to diminish the likelihood of, the resumption of previous nutrient discharges.

3. Beginning in 2030, each review also shall consider the following factors for municipal wastewater facilities:

a. Substantial changes in the size or population of a service area;

b. Significant changes in land use resulting from adopted changes to zoning ordinances or comprehensive plans within a service area;

c. Significant establishment of conservation easements or other perpetual instruments that are associated with a deed and that restrict growth or development;

d. Constructed treatment facility capacity;

e. Significant changes in the understanding of the water chemistry or biology of receiving waters that would reasonably result in unused nutrient discharge allocations over an extended period of time;

f. Significant changes in treatment technologies that would reasonably result in unused nutrient discharge allocations over an extended period of time;

g. The ability of the permitted facility to accommodate projected growth under existing nutrient waste load allocations; and

h. Other similarly significant factors that the Board determines reasonably to affect the allocations granted.

The Board shall not reduce allocations based solely on voluntary improvements in nutrient removal technology.

E. The Board shall maintain and make available to the public a current listing, by tributary, of all permittees and permitted facilities under the general permit, together with each permitted facility's total nitrogen and total phosphorus waste load allocations, and total nitrogen and total phosphorus delivery factors.

F. Except as otherwise provided in this article, in the event that there are conflicting or duplicative conditions contained in the general permit and an individual Virginia Pollutant Discharge Elimination System permit, the conditions in the general permit shall control.

G. The Board shall adopt amendments to the Water Quality Management Planning Regulation and modifications to Virginia Pollutant Discharge Elimination System permits or registration lists to establish and implement the Phase III Watershed Implementation Plan Enhanced Nutrient Removal Certainty Program (ENRC Program) as provided in this subsection. The ENRC Program shall consist of the following projects and the following waste load allocation reductions and their respective schedules for compliance.

K. Pursuant to the authority granted by § 38.2-223, the Commission may promulgate such rules and regulations as it may deem necessary to set standards for policy and other form submissions required by this section or § 38.2-3501.

A voter who requires assistance in voting by reason of a physical disability or an inability to read or write, and who requests assistance pursuant to § 24.2-649, may be assisted in preparation of this statement in accordance with that section. The provisions of § 24.2-649 regarding voters who are unable to sign shall be followed when assisting a voter in completing this statement. A voter who does not show one of the forms of identification specified in this subsection or does not sign this statement shall be offered a provisional ballot under the provisions of § 24.2-653. The State Board shall provide instructions to the general registrar for the handling and counting of such provisional ballots pursuant to § 24.2-653.01 and this section.

B. Absentee voting in person shall be available during regular business hours. The electoral board of each county and city shall provide for absentee voting in person in the office of the general registrar or a voter satellite office established pursuant to § 24.2-701.2. Any applicant who is in line to cast his ballot when the office of the general registrar or voter satellite office closes shall be permitted to cast his absentee ballot that day.

C. The general registrar may provide for the casting of absentee ballots in person pursuant to this section on voting systems. The Department shall prescribe the procedures for use of voting systems. At such election, such individual shall present (i) a current and valid photo identification or (ii) a copy of a current utility bill, bank statement, government check, paycheck, or other government document that shows the name and address of the voter. Such individual who desires to vote in person but who does not show one of the forms of identification specified in this subsection shall be offered a provisional ballot under the provisions of § 24.2-653. The identification requirements of subsection B of § 24.2-643 and subsection A of § 24.2-653 shall not apply to such voter at such election. The Department of Elections shall provide instructions to the electoral boards for the handling and counting of such provisional ballots pursuant to § 24.2-653.01 and this section.

§ 24.2-707.1. Drop-off locations for return of absentee ballots.

A. The general registrar of each county or city shall establish at the office of the general registrar and each voter satellite office in operation for an election a drop-off location for the purpose of allowing the deposit of completed absentee ballots for such election. On the day of the election, there shall also be a drop-off location at each polling place in operation for the election. The general registrar may establish additional drop-off locations within the county or city as he deems necessary. All drop-off locations shall be accessible; be on public property, unless located at a polling place; and otherwise comply with any criteria for drop-off locations set by the Department.

B. The Department shall set standards for the establishment and operation of drop-off locations, including necessary security requirements. The Department shall submit such standards annually by October 1 to the Chairmen of the House and

Senate Committees on Privileges and Elections, the Senate Committee on Finance and Appropriations, and the House Committee on Appropriations.

C. Such notice shall remain in the office of the general registrar and on the official website of the county or city for the duration of the period during which absentee ballots may be returned.

D. Absentee ballots shall be collected from drop-off locations in accordance with the instructions provided by the Department. Such instructions shall include chain of custody requirements and recordkeeping requirements. Absentee ballots shall be collected at least daily by (i) two officers of election or electoral board members representing the two major political parties where practicable or (ii) two employees from the office of the general registrar, unless the drop-off location is in the office of the general registrar, in which case the general registrar or ~~an assistant~~ *a deputy* general registrar may collect the absentee ballots.

2. Who facilitates the sale of an accommodation if (i) the price paid by the customer to such person is equal to the price paid by such person to the accommodations provider for the use of the accommodations and (ii) the only compensation received by such person for facilitating the sale of the accommodation is a commission paid from the accommodations provider to such person.

An Act to amend and reenact § 62.1-44.15:27, as it is currently effective and as it may become effective, of the Code of Virginia, relating to administration of Virginia Stormwater Management Programs; regional industrial facility authorities.

[H 184]

Approved April 7, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 62.1-44.15:27, as it is currently effective and as it may become effective, of the Code of Virginia is amended and reenacted as follows:

§ 62.1-44.15:27. (For expiration date, see Acts 2016, cc. 68 and 758, as amended by Acts 2017, c. 345) Establishment of Virginia Stormwater Management Programs.

A. Any locality that operates a regulated MS4 or that notifies the Department of its decision to participate in the establishment of a VSMP shall be required to adopt a VSMP for land-disturbing activities consistent with the provisions of this article according to a schedule set by the Department. Such schedule shall require implementation no later than July 1, 2014. Thereafter, the Department shall provide an annual schedule by which localities can submit applications to implement a VSMP. Localities subject to this subsection are authorized to coordinate plan review and inspections with other entities in accordance with subsection H.

The Department shall operate a VSMP on behalf of any locality that does not operate a regulated MS4 and that does not notify the Department, according to a schedule set by the Department, of its decision to participate in the establishment of a VSMP. A locality that decides not to establish a VSMP shall still comply with the requirements set forth in this article and attendant regulations as required to satisfy the stormwater flow rate capacity and velocity requirements set forth in the Erosion and Sediment Control Law (§ 62.1-44.15:51 et seq.). A locality that is subject to the provisions of the Chesapeake Bay Preservation Act (§ 62.1-44.15:67 et seq.) also shall adopt requirements set forth in this article and attendant regulations as required to regulate Chesapeake Bay Preservation Act land-disturbing activities in accordance with § 62.1-44.15:28. To comply with the water quantity technical criteria set forth in this article and attendant regulations, a rural Tidewater locality may adopt a tiered approach to water quantity management for Chesapeake Bay Preservation Act land-disturbing activities pursuant to § 62.1-44.15:27.2.

Notwithstanding any other provision of this subsection, any county that operates an MS4 that became a regulated MS4 on or after January 1, 2014 may elect, on a schedule set by the Department, to defer the implementation of the county's VSMP until no later than January 1, 2015. During this deferral period, when such county thus lacks the legal authority to operate a VSMP, the Department shall operate a VSMP on behalf of the county and address post-construction stormwater runoff and the required design criteria for stormwater runoff controls. Any such county electing to defer the establishment of its VSMP shall still comply with the requirements set forth in this article and attendant regulations as required to satisfy

the stormwater flow rate capacity and velocity requirements set forth in the Erosion and Sediment Control Law (§ 62.1-44.15:51 et seq.).

B. Any town, including a town that operates a regulated MS4, lying within a county that has adopted a VSMP in accordance with subsection A may decide, but shall not be required, to become subject to the county's VSMP. Any town lying within a county that operates an MS4 that became a regulated MS4 on or after January 1, 2014 may elect to become subject to the county's VSMP according to the deferred schedule established in subsection A. During the county's deferral period, the Department shall operate a VSMP on behalf of the town and address post-construction stormwater runoff and the required design criteria for stormwater runoff controls for the town as provided in subsection A. If a town lies within the boundaries of more than one county, the town shall be considered to be wholly within the county in which the larger portion of the town lies. Towns shall inform the Department of their decision according to a schedule established by the Department. Thereafter, the Department shall provide an annual schedule by which towns can submit applications to adopt a VSMP.

C. In support of VSMP authorities, the Department shall:

1. Provide assistance grants to localities not currently operating a local stormwater management program to help the localities to establish their VSMP.

2. Provide technical assistance and training.

3. Provide qualified services in specified geographic areas to a VSMP to assist localities in the administration of components of their programs. The Department shall actively assist localities in the establishment of their programs and in the selection of a contractor or other entity that may provide support to the locality or regional support to several localities.

D. The Department shall develop a model ordinance for establishing a VSMP consistent with this article and its associated regulations, including the Virginia Stormwater Management Program (VSMP) General Permit for Discharges of Stormwater from Construction Activities.

E. Each locality that administers an approved VSMP shall, by ordinance, establish a VSMP that shall be administered in conjunction with a local MS4 program and a local erosion and sediment control program if required pursuant to the Erosion and Sediment Control Law (§ 62.1-44.15:51 et seq.), and which shall include the following:

1. Consistency with regulations adopted in accordance with provisions of this article;

2. Provisions for long-term responsibility for and maintenance of stormwater management control devices and other techniques specified to manage the quality and quantity of runoff; and

3. Provisions for the integration of the VSMP with local erosion and sediment control, flood insurance, flood plain management, and other programs requiring compliance prior to authorizing construction in order to make the submission and approval of plans, issuance of permits, payment of fees, and coordination of inspection and enforcement activities more convenient and efficient both for the local governments and those responsible for compliance with the programs.

F. The Board may approve a state entity, including the Department, federal entity, or, for linear projects subject to annual standards and specifications, electric, natural gas, and telephone utility companies, interstate and intrastate natural gas pipeline companies, railroad companies, or authorities created pursuant to § 15.2-5102 to operate a Virginia Stormwater Management Program consistent with the requirements of this article and its associated regulations and the VSMP authority's Department-approved annual standards and specifications. For these programs, enforcement shall be administered by the Department and the Board where applicable in accordance with the provisions of this article.

G. The Board shall approve a VSMP when it deems a program consistent with this article and associated regulations, including the Virginia Stormwater Management Program (VSMP) General Permit for Discharges of Stormwater from Construction Activities.

H. A VSMP authority may enter into agreements or contracts with soil and water conservation districts, adjacent localities, or other public or private entities to carry out or assist with the responsibilities of this article. A VSMP authority may enter into contracts with third-party professionals who hold certificates of competence in the appropriate subject areas, as provided in subsection A of § 62.1-44.15:30, to carry out any or all of the responsibilities that this article requires of a VSMP authority, including plan review and inspection but not including enforcement.

I. If a locality establishes a VSMP, it shall issue a consolidated stormwater management and erosion and sediment control permit that is consistent with the provisions of the Erosion and Sediment Control Law (§ 62.1-44.15:51 et seq.). When available in accordance with subsection J, such permit, where applicable, shall also include a copy of or reference to state VSMP permit coverage authorization to discharge.

J. Upon the development of an online reporting system by the Department, but no later than July 1, 2014, a VSMP authority shall then be required to obtain evidence of state VSMP permit coverage where it is required prior to providing approval to begin land disturbance.

K. Any VSMP adopted pursuant to and consistent with this article shall be considered to meet the stormwater management requirements under the Chesapeake Bay Preservation Act (§ 62.1-44.15:67 et seq.) and attendant regulations, and effective July 1, 2014, shall not be subject to local program review under the stormwater management provisions of the Chesapeake Bay Preservation Act.

L. All VSMP authorities shall comply with the provisions of this article and the stormwater management provisions of the Erosion and Sediment Control Law (§ 62.1-44.15:51 et seq.) and related regulations. The VSMP authority responsible for regulating the land-disturbing activity shall require compliance with the issued permit, permit conditions, and plan specifications. The state shall enforce state permits.

M. In the case of a land-disturbing activity located on property controlled by a regional industrial facility authority established pursuant to Chapter 64 (§ 15.2-6400 et seq.) of Title 15.2, if a participating local member of such an authority also administers a VSMP, such locality shall be authorized to administer the VSMP on authority property, in accordance with an agreement entered into with all relevant localities and the existing VSMP for the property.

§ 62.1-44.15:27. (For effective date, see Acts 2016, cc. 68 and 758, as amended by Acts 2017, c. 345) Virginia Programs for Erosion Control and Stormwater Management.

A. Any locality that operates a regulated MS4 or that administers a Virginia Stormwater Management Program (VSMP) as of July 1, 2017, shall be required to adopt and administer a VESMP consistent with the provisions of this article that regulates any land-disturbing activity that (i) disturbs 10,000 square feet or more or (ii) disturbs 2,500 square feet or more in an area of a locality designated as a Chesapeake Bay Preservation Area pursuant to the Chesapeake Bay Preservation Act (§ 62.1-44.15:67 et seq.). The VESMP shall be adopted according to a process established by the Department.

B. Any locality that does not operate a regulated MS4 and for which the Department administers a VSMP as of July 1, 2017, shall choose one of the following options and shall notify the Department of its choice according to a process established by the Department:

1. Adopt and administer a VESMP consistent with the provisions of this article that regulates any land-disturbing activity that (i) disturbs 10,000 square feet or more or (ii) disturbs 2,500 square feet or more in an area of a locality designated as a Chesapeake Bay Preservation Area pursuant to the Chesapeake Bay Preservation Act (§ 62.1-44.15:67 et seq.);

2. Adopt and administer a VESMP consistent with the provisions of this article that regulates any land-disturbing activity that (i) disturbs 10,000 square feet or more or (ii) disturbs 2,500 square feet or more in an area of a locality designated as a Chesapeake Bay Preservation Area pursuant to the Chesapeake Bay Preservation Act (§ 62.1-44.15:67 et seq.), except that the Department shall provide the locality with review of the plan required by § 62.1-44.15:34 and provide a recommendation to the locality on the plan's compliance with the water quality and water quantity technical criteria; or

3. Adopt and administer a VESCP pursuant to Article 2.4 (§ 62.1-44.15:51 et seq.) that regulates any land-disturbing activity that (i) disturbs 10,000 square feet or more or (ii) disturbs 2,500 square feet or more in an area of a locality designated as a Chesapeake Bay Preservation Area pursuant to the Chesapeake Bay Preservation Act (§ 62.1-44.15:67 et seq.). For such a land-disturbing activity in a Chesapeake Bay Preservation Area, the VESCP authority also shall adopt requirements set forth in this article and attendant regulations as required to regulate those activities in accordance with §§ 62.1-44.15:28 and 62.1-44.15:34.

The Board shall administer a VSMP on behalf of each VESCP authority for any land-disturbing activity that (a) disturbs one acre or more of land or (b) disturbs less than one acre of land and is part of a larger common plan of development or sale that results in one acre or greater of land disturbance.

C. Any town that is required to or elects to adopt and administer a VESMP or VESCP, as applicable, may choose one of the following options and shall notify the Department of its choice according to a process established by the Department:

1. Any town, including a town that operates a regulated MS4, lying within a county may enter into an agreement with the county to become subject to the county's VESMP. If a town lies within the boundaries of more than one county, it may enter into an agreement with any of those counties that operates a VESMP.

2. Any town that chooses not to adopt and administer a VESMP pursuant to subdivision B 3 and that lies within a county may enter into an agreement with the county to become subject to the county's VESMP or VESCP, as applicable. If a town lies within the boundaries of more than one county, it may enter into an agreement with any of those counties.

3. Any town that is subject to the provisions of the Chesapeake Bay Preservation Act (§ 62.1-44.15:67 et seq.) may enter into an agreement with a county pursuant to subdivision C 1 or 2 only if the county administers a VESMP for land-disturbing activities that disturb 2,500 square feet or more.

D. Any locality that chooses not to implement a VESMP pursuant to subdivision B 3 may notify the Department at any time that it has chosen to implement a VESMP pursuant to subdivision B 1 or 2. Any locality that chooses to implement a VESMP pursuant to subdivision B 2 may notify the Department at any time that it has chosen to implement a VESMP pursuant to subdivision B 1. A locality may petition the Board at any time for approval to change from fully administering a VESMP pursuant to subdivision B 1 to administering a VESMP in coordination with the Department pursuant to subdivision B 2 due to a significant change in economic conditions or other fiscal emergency in the locality. The provisions of the Administrative Process Act (§ 2.2-4000 et seq.) shall govern any appeal of the Board's decision.

E. To comply with the water quantity technical criteria set forth in this article and attendant regulations for land-disturbing activities that disturb an area of 2,500 square feet or more but less than one acre, any rural Tidewater locality may adopt a tiered approach to water quantity management pursuant to § 62.1-44.15:27.2.

F. In support of VESMP authorities, the Department shall provide technical assistance and training and general assistance to localities in the establishment and administration of their individual or regional programs.

4. Provisions charging each applicant a reasonable fee to defray the cost of program administration for a regulated land-disturbing activity that does not require permit coverage. Such fee may be in addition to any fee charged pursuant to the statewide fee schedule established in accordance with subdivision 9 of § 62.1-44.15:28, although payment of fees may be consolidated in order to provide greater convenience and efficiency for those responsible for compliance with the program. A VESMP authority may enter into agreements or contracts with the Department, soil and water conservation districts, adjacent localities, planning district commissions, or other public or private entities to carry out or assist with plan review and inspections. A VESMP authority may enter into contracts with third-party professionals who hold certifications in the appropriate subject areas, as provided in subsection A of § 62.1-44.15:30, to carry out any or all of the responsibilities that this article requires of a VESMP authority, including plan review and inspection but not including enforcement.
 - K. A VESMP authority shall be required to obtain evidence of permit coverage from the Department's online reporting system, where such coverage is required, prior to providing land-disturbance approval.
 - L. The VESMP authority responsible for regulating the land-disturbing activity shall require compliance with its applicable ordinances and the conditions of its land-disturbance approval and plan specifications. The Board shall enforce permits and require compliance with its applicable regulations, including when serving as a VSMP authority in a locality that chose not to adopt a VESMP in accordance with subdivision B 3.

CHAPTER 168

An Act to amend and reenact § 22.1-253.13:1 of the Code of Virginia, relating to public middle schools; physical education; personal safety training.

[H 1215]

Approved April 7, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 22.1-253.13:1 of the Code of Virginia is amended and reenacted as follows:

§ 22.1-253.13:1. Standard 1. Instructional programs supporting the Standards of Learning and other educational objectives.

A. The General Assembly and the Board of Education believe that the fundamental goal of the public schools of the Commonwealth must be to enable each student to develop the skills that are necessary for success in school, preparation for life, and reaching their full potential. The General Assembly and the Board of Education find that the quality of education is dependent upon the provision of (i) the appropriate working environment, benefits, and salaries necessary to ensure the availability of high-quality instructional personnel; (ii) the appropriate learning environment designed to promote student achievement; (iii) quality instruction that enables each student to become a productive and educated citizen of Virginia and the United States of America; and (iv) the adequate commitment of other resources. In keeping with this goal, the General Assembly shall provide for the support of public education as set forth in Article VIII, Section 1 of the Constitution of Virginia.

B. The Board of Education shall establish educational objectives known as the Standards of Learning, which shall form the core of Virginia's educational program, and other educational objectives, which together are designed to ensure the development of the skills that are necessary for success in school and for preparation for life in the years beyond. At a

minimum, the Board shall establish Standards of Learning for English, mathematics, science, and history and social science. The Standards of Learning shall not be construed to be regulations as defined in § 2.2-4001.

The Board shall seek to ensure that the Standards of Learning are consistent with a high-quality foundation educational program. The Standards of Learning shall include, but not be limited to, the basic skills of communication (listening, speaking, reading, and writing); computation and critical reasoning, including problem solving and decision making; proficiency in the use of computers and related technology; computer science and computational thinking, including computer coding; and the skills to manage personal finances and to make sound financial decisions.

The English Standards of Learning for reading in kindergarten through grade three shall be based on components of effective reading instruction, to include, at a minimum, phonemic awareness, systematic phonics, fluency, vocabulary development, and text comprehension.

The Standards of Learning in all subject areas shall be subject to regular review and revision to maintain rigor and to reflect a balance between content knowledge and the application of knowledge in preparation for eventual employment and lifelong learning. The Board of Education shall establish a regular schedule, in a manner it deems appropriate, for the review, and revision as may be necessary, of the Standards of Learning in all subject areas. Such review of each subject area shall occur at least once every seven years. Nothing in this section shall be construed to prohibit the Board from conducting such review and revision on a more frequent basis.

To provide appropriate opportunity for input from the general public, teachers, and local school boards, the Board of Education shall conduct public hearings prior to establishing revised Standards of Learning. Thirty days prior to conducting such hearings, the Board shall give notice of the date, time, and place of the hearings to all local school boards and any other persons requesting to be notified of the hearings and publish notice of its intention to revise the Standards of Learning in the Virginia Register of Regulations. Interested parties shall be given reasonable opportunity to be heard and present information prior to final adoption of any revisions of the Standards of Learning.

In addition, the Department of Education shall make available and maintain a website, either separately or through an existing website utilized by the Department of Education, enabling public elementary, middle, and high school educators to submit recommendations for improvements relating to the Standards of Learning, when under review by the Board according to its established schedule, and related assessments required by the Standards of Quality pursuant to this chapter. Such website shall facilitate the submission of recommendations by educators.

School boards shall implement the Standards of Learning or objectives specifically designed for their school divisions that are equivalent to or exceed the Board's requirements. Students shall be expected to achieve the educational objectives established by the school division at appropriate age or grade levels. The curriculum adopted by the local school division shall be aligned to the Standards of Learning.

The Board of Education shall include in the Standards of Learning for history and social science the study of contributions to society of diverse people. For the purposes of this subsection, "diverse" includes consideration of disability, ethnicity, race, and gender.

The Board of Education shall include in the Standards of Learning for health instruction in emergency first aid, cardiopulmonary resuscitation, and the use of an automated external defibrillator, including hands-on practice of the skills necessary to perform cardiopulmonary resuscitation. Such instruction shall be based on the current national evidence-based emergency cardiovascular care guidelines for cardiopulmonary resuscitation and the use of an automated external defibrillator, such as a program developed by the American Heart Association or the American Red Cross. No teacher who is in compliance with subdivision D 3 of § 22.1-298.1 shall be required to be certified as a trainer of cardiopulmonary resuscitation to provide instruction for non-certification.

With such funds as are made available for this purpose, the Board shall regularly review and revise the competencies for career and technical education programs to require the full integration of English, mathematics, science, and history and social science Standards of Learning. Career and technical education programs shall be aligned with industry and professional standard certifications, where they exist.

The Board shall establish content standards and curriculum guidelines for courses in career investigation in elementary school, middle school, and high school. Each school board shall (i) require each middle school student to take at least one course in career investigation or (ii) select an alternate means of delivering the career investigation course to each middle school student, provided that such alternative is equivalent in content and rigor and provides the foundation for such students to develop their academic and career plans. Any school board may require (a) such courses in career investigation at the high school level as it deems appropriate, subject to Board approval as required in subsection A of § 22.1-253.13:4, and (b) such courses in career investigation at the elementary school level as it deems appropriate. The Board shall develop and disseminate to each school board career investigation resource materials that are designed to ensure that students have the ability to further explore interest in career and technical education opportunities in middle and high school. In developing such resource materials, the Board shall consult with representatives of career and technical education, industry, skilled trade associations, chambers of commerce or similar organizations, and contractor organizations.

C. Local school boards shall develop and implement a program of instruction for grades K through 12 that is aligned to the Standards of Learning and meets or exceeds the requirements of the Board of Education. The program of instruction shall emphasize reading, writing, speaking, mathematical concepts and computations, proficiency in the use of computers and related technology, computer science and computational thinking, including computer coding, and scientific concepts and processes; essential skills and concepts of citizenship, including knowledge of Virginia history and world and

United States history, economics, government, foreign languages, international cultures, health and physical education, environmental issues, and geography necessary for responsible participation in American society and in the international community; fine arts, which may include, but need not be limited to, music and art, and practical arts; knowledge and skills needed to qualify for further education, gainful employment, or training in a career or technical field; and development of the ability to apply such skills and knowledge in preparation for eventual employment and lifelong learning and to achieve economic self-sufficiency.

Local school boards shall also develop and implement programs of prevention, intervention, or remediation for students who are educationally at risk including, but not limited to, those who fail to achieve a passing score on any Standards of Learning assessment in grades three through eight or who fail an end-of-course test required for the award of a verified unit of credit. Such programs shall include components that are research-based.

Any student who achieves a passing score on one or more, but not all, of the Standards of Learning assessments for the relevant grade level in grades three through eight may be required to attend a remediation program.

Any student who fails to achieve a passing score on all of the Standards of Learning assessments for the relevant grade level in grades three through eight or who fails an end-of-course test required for the award of a verified unit of credit shall be required to attend a remediation program or to participate in another form of remediation. Division superintendents shall require such students to take special programs of prevention, intervention, or remediation, which may include attendance in public summer school programs, in accordance with clause (ii) of subsection A of § 22.1-254 and § 22.1-254.01.

Remediation programs shall include, when applicable, a procedure for early identification of students who are at risk of failing the Standards of Learning assessments in grades three through eight or who fail an end-of-course test required for the award of a verified unit of credit. Such programs may also include summer school for all elementary and middle school grades and for all high school academic courses, as defined by regulations promulgated by the Board of Education, or other forms of remediation. Summer school remediation programs or other forms of remediation shall be chosen by the division superintendent to be appropriate to the academic needs of the student. Students who are required to attend such summer school programs or to participate in another form of remediation shall not be charged tuition by the school division.

The requirement for remediation may, however, be satisfied by the student's attendance in a program of prevention, intervention or remediation that has been selected by his parent, in consultation with the division superintendent or his designee, and is either (i) conducted by an accredited private school or (ii) a special program that has been determined to be comparable to the required public school remediation program by the division superintendent. The costs of such private school remediation program or other special remediation program shall be borne by the student's parent.

The Board of Education shall establish standards for full funding of summer remedial programs that shall include, but not be limited to, the minimum number of instructional hours or the equivalent thereof required for full funding and an assessment system designed to evaluate program effectiveness. Based on the number of students attending and the Commonwealth's share of the per pupil instructional costs, state funds shall be provided for the full cost of summer and other remediation programs as set forth in the appropriation act, provided such programs comply with such standards as shall be established by the Board, pursuant to § 22.1-199.2.

D. Local school boards shall also implement the following:

1. Programs in grades K through three that emphasize developmentally appropriate learning to enhance success.

13. Early identification, diagnosis, and assistance for students with reading and mathematics problems and provision of instructional strategies and reading and mathematics practices that benefit the development of reading and mathematics skills for all students.

Local school divisions shall provide reading intervention services to students in kindergarten through grade three who demonstrate deficiencies based on their individual performance on the Standards of Learning reading test or any reading diagnostic test that meets criteria established by the Department of Education. Local school divisions shall report the results of the diagnostic tests to the Department of Education on an annual basis, at a time to be determined by the Superintendent of Public Instruction. Such reading intervention services shall be evidence-based, including services that are grounded in the science of reading, and include (i) the components of effective reading instruction and (ii) explicit, systematic, sequential, and cumulative instruction, to include phonemic awareness, systematic phonics, fluency, vocabulary development, and text comprehension as appropriate based on the student's demonstrated reading deficiencies. The parent of each student who receives such reading intervention services shall be notified before the services begin in accordance with the provisions of § 22.1-215.2, and the progress of each such student shall be monitored throughout the provision of services. Each student who receives such reading intervention services shall be assessed again at the end of that school year. The local school division, in its discretion, shall provide such reading intervention services prior to promoting a student from grade three to grade four. Such reading intervention services may be administered through the use of reading specialists; trained aides; trained volunteers under the supervision of a certified teacher; computer-based reading tutorial programs; aides to instruct in-class groups while the teacher provides direct instruction to the students who need extra assistance; and extended instructional time in the school day or school year for these students. Funds appropriated for prevention, intervention, and remediation; summer school remediation; at-risk; or early intervention reading may be used to meet the requirements of this subdivision.

Local school divisions shall provide algebra readiness intervention services to students in grades six through nine who are at risk of failing the Algebra I end-of-course test, as demonstrated by their individual performance on any diagnostic test that has been approved by the Department of Education. [H 44]

Approved April 7, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 38.2-3221 of the Code of Virginia is amended and reenacted as follows:

§ 38.2-3221. Minimum values.

A. The minimum values specified in §§ 38.2-3222 through 38.2-3225 and 38.2-3227 of any paid-up annuity, cash surrender or death benefits available under an annuity contract shall be based upon the minimum nonforfeiture amounts defined in this section and applied as follows:

1. For contracts issued before April 1, 2003, the amounts shall be determined in accordance with subsections B, C, and D.
2. For contracts issued on or after April 1, 2003, and before July 1, 2004, the amounts shall be determined in accordance with the applicable provisions of subsections B, C, D, and E ~~of this section~~.
3. For contracts issued on or after July 1, 2004, and before July 1, 2005, the amounts shall be determined in accordance with the applicable provisions of subsections B, C, D, and E ~~of this section~~ unless the insurer makes the election authorized by subsection F ~~of this section~~, in which case the amounts shall be determined in accordance with subdivisions F 1 through F 4.
4. For contracts issued on or after July 1, 2005, the amounts shall be determined in accordance with subdivisions F 1 through F 4.

B. 1. For contracts providing for flexible considerations, the minimum nonforfeiture amount at or any time before the beginning of any annuity payments shall equal any accumulation up to that time at an annual rate of interest of three percent of percentages of the net considerations as defined in this subsection, paid prior to that time, increased by an existing additional amount credited by the insurer to the contract and decreased by the sum of:

a. Any prior withdrawals from or partial surrenders of the contract accumulated at a rate of interest of three percent per year; and

b. The amount of any indebtedness to the insurer on the contract, including interest due and accrued.

2. The net considerations for a given contract year used to define the minimum nonforfeiture amount shall be not less than zero and shall equal the corresponding gross considerations credited to the contract during that contract year less an annual contract charge of \$30 and less a collection charge of \$1.25 per consideration credited to the contract during that contract year. The percentages of net considerations shall be 65 percent of the net consideration for the first contract year

and 87 1/2 percent of the net considerations for the second and later contract years. Notwithstanding the provisions of the preceding sentence, the percentage shall be 65 percent of the portion of the total net consideration for any renewal contract year that exceeds by not more than two times the sum of those portions of the net considerations in all prior contract years for which the percentage was 65 percent.

C. For contracts providing for fixed scheduled considerations, minimum nonforfeiture amounts shall be calculated on the assumption that considerations are paid annually in advance and shall be the same as for contracts with flexible considerations that are paid annually with two exceptions:

1. The portion of the net consideration for the first contract year to be accumulated shall be the sum of 65 percent of the net consideration for the first contract year plus 22 1/2 percent of the excess of the net consideration for the first contract year over the lesser of the net considerations for the second and third contract years.

2. The annual contract charge shall be the lesser of (i) \$30 or (ii) 10 percent of the gross annual consideration.

D. For contracts providing for a single consideration, minimum nonforfeiture amounts shall be the same as for contracts with flexible considerations except that the percentage of net consideration used to determine the minimum nonforfeiture amount shall equal 90 percent, and the net consideration shall be the gross consideration less a contract charge of \$75.

E. Notwithstanding any other provision of this section, for any contract issued on or after April 1, 2003, and before July 1, 2005, the interest rate at which net considerations, partial withdrawals, and partial surrenders may be accumulated, for the purposes of determining minimum nonforfeiture amounts, may be one and one-half percent per year.

F. The following provisions shall apply for contracts issued on or after July 1, 2005, and at the election of the insurer may apply also to specified contracts issued on or after July 1, 2004. An insurer may make this election on a contract-form-by-contract-form basis by filing written notice with the Commission and specifying a date for the provisions to apply prior to July 1, 2005.

1. The minimum nonforfeiture amount at or any time before the beginning of any annuity payments shall equal an accumulation up to that time at rates of interest, as indicated in subdivision 3 of this subsection, of the net considerations as defined in this subsection, paid prior to that time, and decreased by the sum of:

a. Any prior withdrawals from or partial surrenders of the contract accumulated at rates of interest as indicated in subdivision 3 of this subsection;

b. An annual contract charge of \$50, accumulated at rates of interest as indicated in subdivision 3 of this subsection;

c. Any premium tax paid by the insurer for the contract, accumulated at rates of interest as indicated in subdivision 3 of this subsection, adjusted for any tax that is not actually paid or which has been credited back to the insurer, such as upon early termination of the contract; and

d. The amount of any indebtedness to the insurer on the contract, including interest due and accrued.

2. The net considerations for a given contract year used to define the minimum nonforfeiture amount shall be equal to 87.5 percent of the gross considerations credited to the contract during that contract year.

3. The interest rate used in determining minimum nonforfeiture amounts shall be an annual rate of interest determined as the lesser of three percent per annum and the following, which shall be specified in the contract if the interest rate will be reset:

a. The five-year Constant Maturity Treasury Rate reported by the Federal Reserve as of a date, or average over a period, rounded to the nearest one-twentieth of one percent, specified in the contract no longer than 15 months prior to the contract issue date or redetermination date under this subdivision;

b. Reduced by 125 basis points;

c. Where the resulting interest rate is not less than ~~one percent~~ 15 basis points (0.15 percent); and

d. The interest rate shall apply for an initial period and may be redetermined for additional periods. The redetermination date, basis and period, if any, shall be stated in the contract. The basis is the date or average over a specified period that produces the value of the five-year Constant Maturity Treasury Rate to be used at each redetermination date.

4. During the period or term that a contract provides substantive participation in an equity indexed benefit, it may increase the reduction described in subdivision 3 b of this subsection by up to an additional 100 basis points to reflect the value of the equity index benefit. The present value at the contract issue date, and at each redetermination date thereafter, of the additional reduction shall not exceed the market value of the benefit. The Commission may require a demonstration that the present value of the additional reduction does not exceed the market value of the benefit. Where administration is lacking or unacceptable, the Commission may, at its discretion, disallow or limit the additional reduction.

G. The Commission may adopt rules and regulations to implement the provisions of subdivision F 4 of this section and to provide for further adjustments to the calculation of minimum nonforfeiture amounts for contracts that provide substantive participation in an equity index benefit and for other contracts for which the Commission determines adjustments are justified.

[H 648]

Approved April 7, 2022

Be it enacted by the General Assembly of Virginia:

1. That § 15.2-2232 of the Code of Virginia is amended and reenacted as follows:

§ 15.2-2232. Legal status of plan.

A. Whenever a local planning commission recommends a comprehensive plan or part thereof for the locality and such plan has been approved and adopted by the governing body, it shall control the general or approximate location, character and extent of each feature shown on the plan. Thereafter, unless a feature is already shown on the adopted master plan or part thereof or is deemed so under subsection D, no street or connection to an existing street, park or other public area, public building or public structure, public utility facility or public service corporation facility other than a railroad facility or an underground natural gas or underground electric distribution facility of a public utility as defined in subdivision (b) of § 56-265.1 within its certificated service territory, whether publicly or privately owned, shall be constructed, established or authorized, unless and until the general location or approximate location, character, and extent thereof has been submitted to and approved by the commission as being substantially in accord with the adopted comprehensive plan or part thereof. In connection with any such determination, the commission may, and at the direction of the governing body shall, hold a public hearing, after notice as required by § 15.2-2204. Following the adoption of the Statewide Transportation Plan by the Commonwealth Transportation Board pursuant to § 33.2-353 and written notification to the affected local governments, each local government through which one or more of the designated corridors of statewide significance traverses, shall, at a

minimum, note such corridor or corridors on the transportation plan map included in its comprehensive plan for information purposes at the next regular update of the transportation plan map. Prior to the next regular update of the transportation plan map, the local government shall acknowledge the existence of corridors of statewide significance within its boundaries.

B. The commission shall communicate its findings to the governing body, indicating its approval or disapproval with written reasons therefor. The governing body may overrule the action of the commission by a vote of a majority of its membership. Failure of the commission to act within 60 days of a submission, unless the time is extended by the governing body, shall be deemed approval. The owner or owners or their agents may appeal the decision of the commission to the governing body within 10 days after the decision of the commission. The appeal shall be by written petition to the governing body setting forth the reasons for the appeal. The appeal shall be heard and determined within 60 days from its filing. A majority vote of the governing body shall overrule the commission.

C. Widening, narrowing, extension, enlargement, vacation or change of use of streets or public areas shall likewise be submitted for approval, but paving, repair, reconstruction, improvement, drainage or similar work and normal service extensions of public utilities or public service corporations shall not require approval unless such work involves a change in location or extent of a street or public area.

D. Any public area, facility, *park* or use as set forth in subsection A which is identified within, but not the entire subject of, a submission under either § 15.2-2258 for subdivision or subdivision A 8 of § 15.2-2286 for development or both may be deemed a feature already shown on the adopted master plan, and, therefore, excepted from the requirement for submittal to and approval by the commission or the governing body; provided, that the governing body has by ordinance or resolution defined standards governing the construction, establishment or authorization of such public area, facility, *park* or use or has approved it through acceptance of a proffer made pursuant to § 15.2-2303.

E. Approval and funding of a public telecommunications facility on or before July 1, 2012, by the Virginia Public Broadcasting Board pursuant to Article 12 (§ 2.2-2426 et seq.) of Chapter 24 of Title 2.2 or after July 1, 2012, by the Board of Education pursuant to § 22.1-20.1 shall be deemed to satisfy the requirements of this section and local zoning ordinances with respect to such facility with the exception of television and radio towers and structures not necessary to house electronic apparatus. The exemption provided for in this subsection shall not apply to facilities existing or approved by the Virginia Public Telecommunications Board prior to July 1, 1990. The Board of Education shall notify the governing body of the locality in advance of any meeting where approval of any such facility shall be acted upon.

F. On any application for a telecommunications facility, the commission's decision shall comply with the requirements of the Federal Telecommunications Act of 1996. Failure of the commission to act on any such application for a telecommunications facility under subsection A submitted on or after July 1, 1998, within 90 days of such submission shall be deemed approval of the application by the commission unless the governing body has authorized an extension of time for consideration or the applicant has agreed to an extension of time. The governing body may extend the time required for action by the local commission by no more than 60 additional days. If the commission has not acted on the application by the end of the extension, or by the end of such longer period as may be agreed to by the applicant, the application is deemed approved by the commission.

G. A proposed telecommunications tower or a facility constructed by an entity organized pursuant to Chapter 9.1 (§ 56-231.15 et seq.) of Title 56 shall be deemed to be substantially in accord with the comprehensive plan and commission approval shall not be required if the proposed telecommunications tower or facility is located in a zoning district that allows such telecommunications towers or facilities by right.
